POINT OF ORDER

Representative Stonier requested a ruling on scope and object of amendment (252) to E2SHB 1523.

SPEAKER'S RULING

Mr. Speaker (Representative Lovick presiding): The title of the bill is an act relating to "increasing the availability of quality, affordable health coverage in the individual market." The bill has three major components:

- it requires the Washington Health Benefit Exchange to develop standardized health plans;
- it requires the Health Care Authority to contract with health carriers to offer standardized qualified health plans, and
- it requires the Health Care Authority to develop a plan for premium subsidies for individuals purchasing coverage on the Exchange.

Amendment 252 concerns Medicaid reimbursement rates. There are no provisions in the bill addressing the Medicaid program.

The Speaker therefore finds and rules that the amendment exceeds the scope and object of the bill. The point of order is well taken.

Representative Schmick moved the adoption of the striking amendment (143):

(2) The standardized health plans must be designed to reduce deductibles, make more services available before the deductible, provide predictable cost sharing, maximize subsidies, limit adverse premium impacts, reduce barriers to maintaining and improving health, and encourage choice based on value, while limiting increases in health plan premium rates.

(3) The silver standardized health plan must have an actuarial value between sixty-eight and seventy percent.

(4) The commissioner may update the standardized health plans annually.

(5) The commissioner must provide a notice and public comment period before finalizing each year's standardized health plans.

(6) The commissioner must provide written notice of the standardized health plans to licensed health carriers by January 31st before the year in which the health plans are to be offered on the exchange.

(f) An analysis of the extent to which a new public health insurance plan option could address the underlying factors that limit health plan choices in some regions.

(4) When preparing the analysis under subsection (3) of this section, the task force shall consult with key stakeholders, including, but not limited to, advocates, health care providers, and health plans, including county organized health systems and local health plans.

The plan must also include an assessment of providing cost-sharing reductions to plan participants.

(2) The insurance commissioner must submit the plan, along with proposed implementing legislation, to the appropriate committees of the legislature by November 15, 2020.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. **Sec. 1.** A new section is added to chapter 48.43 RCW to read as follows:

A health carrier shall allow an individual to purchase an individual market health plan offered by the carrier outside of the individual's county of residence if the individual's county of residence is in the same geographic rating area as the health plan he or she is purchasing.

Sec. 2. RCW 48.43.715 and 2013 c 325 s 1 are each amended to read as follows:

(1) Consistent with federal law, the commissioner, in consultation with the board and the health care authority, shall, by rule, select the largest small group plan in the state by enrollment as the benchmark plan for the individual and small group market for purposes of establishing the essential health benefits in Washington state under P.L. 111-148 of 2010, as amended.

(2) If the essential health benefits benchmark plan for the individual and small group market does not include all of the ten benefit categories specified by section 1302 of P.L. 111-148, as amended, the commissioner, in consultation with the board and the health care authority, shall, by rule, supplement the benchmark plan benefits as needed to meet the minimum requirements of section 1302.

(3) A health plan required to offer the essential health benefits, other than a health plan offered through the federal

basic health program or medicaid, under P.L. 111-148 of 2010, as amended, may not be offered in the state unless the commissioner finds that it is substantially equal to the benchmark plan. When making this determination, the commissioner:

(a) Must ensure that the plan covers the ten essential health benefits categories specified in section 1302 of P.L. 111-148 of 2010, as amended;

(b) May consider whether the health plan has a benefit design that would create a risk of biased selection based on health status and whether the health plan contains meaningful scope and level of benefits in each of the ten essential health benefit categories specified by section 1302 of P.L. 111-148 of 2010, as amended;

(c) Notwithstanding the foregoing, for benefit years beginning January 1, 2015, and only to the extent permitted by federal law and guidance, must establish by rule the review and approval requirements and procedures for pediatric oral services when offered in stand-alone dental plans in the nongrandfathered individual and small group markets outside of the exchange; and

(d) Unless prohibited by federal law and guidance, must allow health carriers to also offer pediatric oral services within the health benefit plan in the nongrandfathered individual and small group markets outside of the exchange.

(4) Beginning December 15, 2012, and every year thereafter, the commissioner shall submit to the legislature a list of state-mandated health benefits, the enforcement of which will result in federally imposed costs to the state related to the plans sold through the exchange because the benefits are not included in the essential health benefits designated under federal law. The list must include the anticipated costs to the state of each state-mandated health benefit on the list and any statutory changes needed if funds are not appropriated to defray the state costs for the listed mandate. The commissioner may enforce a mandate on the list for the entire market only if funds are appropriated in an omnibus appropriations act specifically to pay the state portion of the identified costs.

(5) Health benefit plans offered in the individual and small group markets are exempt from all state mandated benefits beyond those required by the federal government as the ten essential health benefits specified in section 1302 of P.L. 111-148 of 2010."

POINT OF ORDER

Representative Stonier requested a ruling on scope and object ruling on amendment (271) to the striking amendment (150) to E2SHB 1224.

SPEAKER'S RULING

Mr. Speaker (Representative Lovick presiding): The title of the bill is an act relating to "prescription drug cost transparency". The bill strives to increase transparency of prescription drug pricing by requiring the reporting of prescription drug pricing data. It also includes mechanisms to enforce the reporting requirement and requires compliance with state and federal laws related to disclosure of drug pricing information.

In addition to reporting requirements, amendment 271 includes provisions regulating the reimbursement system used by pharmacy benefit managers. Regulation of reimbursement rates paid to specific pharmacies is a separate and distinct issue from the bill's provisions relating to reporting and transparency of drug pricing information.

The Speaker therefore finds and rules that the amendment exceeds the scope and object of the bill. The point of order is well taken.

Sec. 6. RCW 18.390.080 and 2016 c 183 s 8 are each amended to read as follows:

(1) The legislature finds that the violation of the title protection requirements of RCW 18.390.050, the failure of a continuing care retirement community to register with the department under RCW 18.390.020, the failure of a continuing care retirement community to comply with the disclosure statement delivery and content requirements under RCW 18.390.060, and the failure of a continuing care retirement community to comply with the resident expectations established under RCW 18.390.070 are matters vitally affecting the public interest for the purpose of applying the consumer protection act, chapter 19.86 RCW. A violation of the title protection requirements under RCW 18.390.050, registration requirement under RCW 18.390.020, the disclosure statement delivery and content requirements under RCW 18.390.060, and the resident expectations requirements under RCW 18.390.070 are not reasonable in relation to the development and preservation of business and are an unfair or deceptive act in trade or commerce and an unfair method of competition for the purpose of applying the consumer protection act, chapter 19.86 RCW.

(2) The attorney general shall provide notice to the management of the continuing care retirement community of submitted complaints including the name of the complainant to allow the community to take corrective action. Except for violations of the title protection requirements of RCW 18.390.050 and the failure of a continuing care retirement community to register with the department under RCW 18.390.020, the attorney general shall limit its application of the consumer protection act in subsection (1) of this section to those cases in which a pattern of complaints, submitted by affected parties, or other activity that, when considered together, demonstrate a pattern of similar conduct that, without enforcement, likely establishes an unfair or deceptive act in trade or commerce and an unfair method of competition.

(3) The right of independent residents to file complaints pursuant to this section does not preclude or limit other legal remedies or recourse available to a resident under applicable law.

Sec. 7. RCW 18.390.900 and 2016 c 183 s 10 are each amended to read as follows:

(1) The provisions of this chapter apply prospectively to acts and omissions that occur after July 1, 2017.

(2) The specific provisions of this chapter that were added pursuant to this act apply prospectively to acts or omissions that occur after the effective date of this section.

Representative Jinkins moved the adoption of the striking amendment (221):

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. A new section is added to chapter 48.43 RCW to read as follows:

The definitions in this section apply throughout this section and sections 2 and 3 of this act unless the context clearly requires otherwise.

(1) "Clinical practice guidelines" means a systemically developed statement to assist decision making by health care providers and patients about appropriate health care for specific clinical circumstances and conditions.

(2) "Clinical review criteria" means the written screening procedures, decision rules, medical protocols, and practice guidelines used by a health carrier or review organization as an element in the evaluation of medical necessity and appropriateness of requested prescription drugs under the health plan.

(3) "Emergency fill" means a limited dispensed amount of medication that allows time for the processing of prescription drug utilization management.

(4) "Medically appropriate" means health services, supplies, and prescription drugs that under the applicable standard of care are appropriate: (a) To improve or preserve health, life, or function; (b) to slow the deterioration of health, life, or function; or (c) for the early screening, prevention, evaluation, diagnosis, or treatment of a disease, condition, illness, or injury.

(5) "Prescription drug utilization management" means a set of formal techniques used by a health carrier or review organization, that are designed to monitor the use of or evaluate the medical necessity, appropriateness, efficacy, or efficiency of prescription drugs including, but not limited to, prior authorization and step therapy protocol.

(6) "Prior authorization" means a mandatory process that a carrier or its designated or contracted representative requires a provider or facility to follow to determine if a service is a benefit and meets the requirements for medical necessity, clinical appropriateness, level of care, or effectiveness in relation to the applicable plan.

(7) "Step therapy protocol" means a protocol or program that establishes the specific sequence in which prescription drugs for a specified medical condition will be covered by a health carrier.

NEW SECTION. Sec. 2. A new section is added to chapter 48.43 RCW to read as follows:

For health plans delivered, issued for delivery, or renewed on or after January 1, 2021, clinical review criteria used to establish a prescription drug utilization management protocol must be evidence-based and continually updated through review of new evidence, research, and newly developed treatments.

NEW SECTION. Sec. 3. A new section is added to chapter 48.43 RCW to read as follows:

For health plans delivered, issued for delivery, or renewed on or after January 1, 2021:

(1) When coverage of a prescription drug for the treatment of any medical condition is subject to prescription drug utilization management, the patient and prescribing practitioner must have access to a clear, readily accessible, and convenient process to request an exception where the prescription drug utilization management is overridden in favor of coverage of the selected prescription drug of the prescribing health care provider. A health carrier or review organization may use its existing medical exceptions process to satisfy this requirement. The process must be easily accessible on the health carrier or review organization's web site. Approval criteria must be clearly posted on the health carrier or review organization's web site, providing specific information on documentation and other criteria. This information must be in plain language and understandable to providers and patients.

(2) Health carriers must disclose all rules related to the prescription drug utilization management process to all participating providers, including the specific information and documentation that must be submitted in order to be considered a completed exception request.

(3) An exception request must be granted if sufficient evidence is submitted by the provider and patient to establish that:

(a) The required prescription drug is contraindicated or will likely cause a clinically predictable adverse reaction by, or physical or mental harm to, the patient;

(b) The required prescription drug is expected to be ineffective based on the known clinical characteristics of the patient and the known characteristics of the prescription drug regimen;

(c) The patient has tried the required prescription drug while under his or her current or a previous health insurance or health benefit plan, or another prescription drug in the same pharmacologic class or with the same mechanism of action and such prescription drug was discontinued due to lack of efficacy or effectiveness, diminished effect, or an adverse event;

(d) The patient is currently receiving a positive therapeutic outcome on a prescription drug recommended by the patient's provider for the medical condition under consideration while on a current or the immediately preceding health benefit plan; or

(e) The required prescription drug is not in the best interest of the patient, based on documentation of medical appropriateness, because the patient's use of the prescription drug is expected to:

(i) Create a barrier to the patient's adherence to or compliance with the patient's plan of care;

(ii) Negatively impact a comorbid condition of the patient;

(iii) Cause a clinically predictable negative drug interaction; or

(iv) Decrease the patient's ability to achieve or maintain reasonable functional ability in performing daily activities.

(4) Upon the granting of an exception, the health carrier or review organization shall authorize coverage for the prescription drug prescribed by the patient's treating health care provider.

(5)(a) For nonurgent exception requests, the health carrier or review organization must:

(i) Within three business days notify the provider that additional information, as disclosed under subsection (2) of this section, is required in order to approve or deny the exception, if the information provided is not sufficient to approve or deny the request; and

(ii) Within three business days of receipt of sufficient information as disclosed under subsection (2) of this section, approve a request if the information provided meets at least one of the conditions outlined in subsection (3) of this section, or deny a request if the requested service does not meet at least one of the conditions outlined in subsection (3) of this section.

(b) For urgent exception requests, the health carrier or review organization must:

(i) Within one business day notify the provider that additional information, as disclosed under subsection (2) of this section, is required in order to approve or deny the exception, if the information provided is not sufficient to approve or deny the request; and

(ii) Within one business day of receipt of sufficient information as disclosed under subsection (2) of this section, approve a request if the information provided meets at least one of the conditions outlined in subsection (3) of this section, or deny a request if the requested service does not meet at least one of the conditions outlined in subsection (3) of this section.

(c) If a response by a health carrier or review organization is not received within the time allotted, the exception or appeal is deemed granted.

(d) For purposes of this subsection, requests are considered urgent when an enrollee is experiencing a health condition that may seriously jeopardize the enrollee's life, health, or ability to regain maximum function or when an enrollee is undergoing a current course of treatment using a nonformulary drug.

(6) Health carriers must cover an emergency supply fill if the health care provider determines an emergency fill is necessary to keep the patient stable while the exception request is being processed.

(7) When responding to a prescription drug utilization management exception request, a health carrier or review organization shall clearly state in their response if the exception request was approved or denied. The health carrier must use clinical review criteria as outlined in section 2 of this act for the basis of any denial. The denial must include the specific clinical review criteria relied on for the denial and information about any internal and external appeals process for the denial of the prescription drug utilization management exception request. If the exception request from the provider or facility is denied for administrative

reasons, or for not including all the necessary information, the health carrier or review organization must inform the provider or facility what additional information is needed and the deadline for its submission.

(8) The health carrier or review organization must permit a stabilized patient to remain on a drug during an exception or appeals process.

(9) A health carrier must provide sixty days' notice for any new rules that apply to prescription drug utilization management protocols. New health carrier rules or policies may not be applied retroactively.

(10) This section does not prevent:

(a) A health carrier or review organization from requiring a patient to try an AB-rated generic equivalent or a biological product that is an interchangeable biological product prior to providing coverage for the equivalent branded prescription drug;

(b) A health carrier or review organization from denying an exception for a drug that has been removed from the market due to safety concerns from the federal food and drug administration; or

(c) A health care provider from prescribing a prescription drug that is determined to be medically appropriate.

NEW SECTION. Sec. 4. The commissioner shall adopt rules necessary for the implementation of this act."

"PART I

DECOUPLING STATEWIDE ASSESSMENTS FROM GRADUATION REQUIREMENTS AND MAKING OTHER MODIFICATIONS

NEW SECTION. **Sec. 101.** The legislature intends to continue providing students with the opportunity to access a challenging learning environment and a meaningful diploma that supports every student in achieving his or her individualized career and college goals.

In an ongoing effort to create an educational system focused on individualized student learning that is culturally responsive to the needs of our diverse student population, the legislature must provide a system that allows each student to work with his or her teachers, parents or guardians, and

counselors to identify the best ways to demonstrate appropriate readiness in furtherance of the student's career and college goals.

The legislature further recognizes that student-focused graduation pathways must be adaptable and allow students to change pathways as their goals shift. While standardized tests may be a graduation pathway option chosen by some to demonstrate career and college readiness, students should have other rigorous and meaningful pathway options to select from when demonstrating their proficiencies. The legislature, therefore, intends to create a system of multiple graduation pathway options that enable students to support their individual goals for high school and beyond.

Sec. 102. RCW 28A.655.065 and 2017 3rd sp.s. c 31 s 2 are each amended to read as follows:

(1) The legislature has made a commitment to rigorous academic standards for receipt of a high school diploma. The primary way that students will demonstrate that they meet the standards in reading, writing, mathematics, and science is through the statewide student assessment. Only objective assessments that are comparable in rigor to the state assessment are authorized as an alternative assessment. Before seeking an alternative assessment, the legislature expects students to make a genuine effort to meet state standards, through regular and consistent attendance at school and participation in extended learning and other assistance programs.

(2) Under RCW 28A.655.061, beginning in the 2006-07 school year, and concluding with the graduating class of 2019, the superintendent of public instruction shall implement objective alternative assessment methods as provided in this section for students to demonstrate achievement of the state standards in content areas in which the student has not yet met the standard on the high school statewide student assessment. A student may access an alternative if the student meets applicable eligibility criteria in RCW 28A.655.061 and this section and other eligibility criteria established by the superintendent of public instruction, including but not limited to attendance criteria and participation in the remediation or supplemental instruction contained in the student learning plan developed under RCW 28A.655.061. A school district may waive attendance and/or remediation criteria for special, unavoidable circumstances.

(3) For the purposes of this section, "applicant" means a student seeking to use one of the alternative assessment methods in this section.

(4) One alternative assessment method shall be a combination of the applicant's grades in applicable courses and the applicant's highest score on the high school statewide student assessment, as provided in this subsection. A student is eligible to apply for the alternative assessment method under this subsection (4) if the student has a cumulative grade point average of at least 3.2 on a four point grading scale. The superintendent of public instruction shall determine which high school courses are applicable to the

alternative assessment method and shall issue guidelines to school districts.

(a) Using guidelines prepared by the superintendent of public instruction, a school district shall identify the group of students in the same school as the applicant who took the same high school courses as the applicant in the applicable content area. From the group of students identified in this manner, the district shall select the comparison cohort that shall be those students who met or slightly exceeded the state standard on the statewide student assessment.

(b) The district shall compare the applicant's grades in high school courses in the applicable content area to the grades of students in the comparison cohort for the same high school courses. If the applicant's grades are equal to or above the mean grades of the comparison cohort, the applicant shall be deemed to have met the state standard on the alternative assessment.

(c) An applicant may not use the alternative assessment under this subsection (4) if there are fewer than six students in the comparison cohort.

(5) The superintendent of public instruction shall implement:

(a) By June 1, 2006, a process for students to appeal the score they received on the high school assessments;

(b) By January 1, 2007, guidelines and appeal processes for waiving specific requirements in RCW 28A.655.061 pertaining to the certificate of academic achievement and to the certificate of individual achievement for students who: (i) Transfer to a Washington public school in their junior or senior year with the intent of obtaining a public high school diploma, or (ii) have special, unavoidable circumstances;

(c)(i) For the graduating classes of 2014, 2015, 2016, 2017, ~~(and)~~ 2018, and 2019, an expedited appeal process for waiving specific requirements in RCW 28A.655.061 pertaining to the certificate of academic achievement and the certificate of individual achievement for eligible students who have not met the state standard on the English language arts statewide student assessment, the mathematics high school statewide student assessment, or both. The student or the student's parent, guardian, or principal may initiate an appeal with the district and the district has the authority to determine which appeals are submitted to the superintendent of public instruction for review and approval. The superintendent of public instruction may only approve an appeal if it has been demonstrated that the student has the necessary skills and knowledge to meet the high school graduation standard and that the student has the skills necessary to successfully achieve the college or career goals established in his or her high school and beyond plan. Pathways for demonstrating the necessary skills and knowledge may include, but are not limited to:

(A) Successful completion of a college-level class in the relevant subject area;

(B) Admission to a higher education institution or career preparation program;

(C) Award of a scholarship for higher education; or

(D) Enlistment in a branch of the military.

(ii) A student in the class of 2014, 2015, 2016, or 2017 is eligible for the expedited appeal process in (c)(i) of this subsection if he or she has met all other graduation requirements established by the state and district.

(iii) A student in the class of 2018 is eligible for the expedited appeal process in (c)(i) of this subsection if he or she has met all other graduation requirements established by the state and district and has attempted at least one alternative assessment option as established in ~~(RCW 28A.655.065)~~ this section.

(6) The state board of education shall examine opportunities for additional alternative assessments, including the possible use of one or more standardized norm-referenced student achievement tests and the possible use of the reading, writing, or mathematics portions of the ACT ASSET and ACT COMPASS test instruments as objective alternative assessments for demonstrating that a student has met the state standards for the certificate of academic achievement. The state board shall submit its findings and recommendations to the education committees of the legislature by January 10, 2008.

(7) The superintendent of public instruction shall adopt rules to implement this section.

(8) This section expires August 31, 2022.

Sec. 103. RCW 28A.230.090 and 2018 c 229 s 1 are each amended to read as follows:

(1) The state board of education shall establish high school graduation requirements or equivalencies for students, except as provided in RCW 28A.230.122 and except those equivalencies established by local high schools or school districts under RCW 28A.230.097. The purpose of a high school diploma is to declare that a student is ready for success in postsecondary education, gainful employment, and citizenship, and is equipped with the skills to be a lifelong learner.

(a) Any course in Washington state history and government used to fulfill high school graduation requirements shall consider including information on the culture, history, and government of the American Indian peoples who were the first inhabitants of the state.

(b) Except as provided otherwise in this subsection, the certificate of academic achievement requirements under RCW 28A.655.061 or the certificate of individual achievement requirements under RCW 28A.155.045 are required for graduation from a public high school but are not the only requirements for graduation. The requirement to earn a certificate of academic achievement to qualify for graduation from a public high school concludes with the graduating class of 2019. The obligation of qualifying students to earn a certificate of individual achievement as a prerequisite for graduation from a public high school concludes with the graduating class of 2021.

(c)(i) Each student must have a high school and beyond plan to guide the student's high school experience and ~~((prepare))~~ inform course taking that is aligned with the student's goals for ~~((postsecondary))~~ education or training and career after high school.

(ii)(A) A high school and beyond plan must be initiated for each student during the seventh or eighth grade. In preparation for initiating that plan, each student must first be administered a career interest and skills inventory.

(B) For students with an individualized education program, the high school and beyond plan must be developed in alignment with their individualized education program. The high school and beyond plan must be developed in a similar manner and with similar school personnel as for all other students.

(iii)(A) The high school and beyond plan must be updated to reflect high school assessment results in RCW 28A.655.070(3)(b) and to review transcripts, assess progress toward identified goals, and revised as necessary for changing interests, goals, and needs. The plan must identify available interventions and academic support, courses, or both, that are designed for students who ~~((have not met the high school graduation standard))~~ are not on track to graduate, to enable them to ~~((meet the standard))~~ fulfill high school graduation requirements. Each student's high school and beyond plan must be updated to inform junior year course taking.

(B) For students with an individualized education program, the high school and beyond plan must be updated in alignment with their school to postschool transition plan. The high school and beyond plan must be updated in a similar manner and with similar school personnel as for all other students.

(iv) School districts are encouraged to involve parents and guardians in the process of developing and updating the high school and beyond plan, and the plan must be provided to the students' parents or guardians in their native language if that language is one of the two most frequently spoken non-English languages of students in the district. Nothing in this subsection (1)(c)~~((iii))~~ (iv) prevents districts from providing high school and beyond plans to parents and guardians in additional languages that are not required by this subsection.

~~((iv))~~ (v) All high school and beyond plans must, at a minimum, include the following elements:

(A) Identification of career goals, aided by a skills and interest assessment;

(B) Identification of educational goals;

(C) Identification of dual credit programs and the opportunities they create for students, including but not limited to career and technical education programs, running start programs, and college in the high school programs;

(D) Information about the college bound scholarship program established in chapter 28B.118 RCW;

(E) A four-year plan for course taking that:

(I) Includes information about options for satisfying state and local graduation requirements;

(II) Satisfies state and local graduation requirements;

(III) Aligns with the student's secondary and postsecondary goals, which can include education, training, and career;

(IV) Identifies ~~((dual credit programs and the opportunities they create for students))~~ course sequences to inform academic acceleration, as described in RCW 28A.320.195 that include dual credit courses or programs and are aligned with the student's goals; and

(V) Includes information about the college bound scholarship program; ~~((and))~~

(F) Evidence that the student has received the following information on federal and state financial aid programs that help pay for the costs of a postsecondary program:

(I) Information about the documentation necessary for completing the applications; application timeliness and submission deadlines; the importance of submitting applications early; information specific to students who are or have been in foster care; information specific to students who are, or are at risk of being, homeless; information specific to students whose family member or guardians will be required to provide financial and tax information necessary to complete applications; and

(II) Opportunities to participate in sessions that assist students and, when necessary, their family members or guardians, fill out financial aid applications; and

(G) By the end of the twelfth grade, a current resume or activity log that provides a written compilation of the student's education, any work experience, and any community service and how the school district has recognized the community service pursuant to RCW 28A.320.193.

(d) Any decision on whether a student has met the state board's high school graduation requirements for a high school and beyond plan shall remain at the local level. Effective with the graduating class of 2015, the state board of education may not establish a requirement for students to complete a culminating project for graduation. A district may establish additional, local requirements for a high school and beyond plan to serve the needs and interests of its students and the purposes of this section.

(e)(i) The state board of education shall adopt rules to implement the career and college ready graduation requirement proposal adopted under board resolution on November 10, 2010, and revised on January 9, 2014, to take effect beginning with the graduating class of 2019 or as otherwise provided in this subsection (1)(e). The rules must include authorization for a school district to waive up to two credits for individual students based on ~~((unusual))~~ a student's circumstances ~~((and in accordance with))~~, provided that none of the waived credits are identified as mandatory core credits by the state board of education. School districts

must adhere to written policies authorizing the waivers that must be adopted by each board of directors of a school district that grants diplomas. The rules must also provide that the content of the third credit of mathematics and the content of the third credit of science may be chosen by the student based on the student's interests and high school and beyond plan with agreement of the student's parent or guardian or agreement of the school counselor or principal.

(ii) School districts may apply to the state board of education for a waiver to implement the career and college ready graduation requirement proposal beginning with the graduating class of 2020 or 2021 instead of the graduating class of 2019. In the application, a school district must describe why the waiver is being requested, the specific impediments preventing timely implementation, and efforts that will be taken to achieve implementation with the graduating class proposed under the waiver. The state board of education shall grant a waiver under this subsection (1)(e) to an applying school district at the next subsequent meeting of the board after receiving an application.

(iii) A school district must update the high school and beyond plans for each student who has not earned a score of level 3 or level 4 on the middle school mathematics assessment identified in RCW 28A.655.070 by ninth grade, to ensure that the student takes a mathematics course in both ninth and tenth grades. This course may include career and technical education equivalencies in mathematics adopted pursuant to RCW 28A.230.097.

(2)(a) In recognition of the statutory authority of the state board of education to establish and enforce minimum high school graduation requirements, the state board shall periodically reevaluate the graduation requirements and shall report such findings to the legislature in a timely manner as determined by the state board.

(b) The state board shall reevaluate the graduation requirements for students enrolled in vocationally intensive and rigorous career and technical education programs, particularly those programs that lead to a certificate or credential that is state or nationally recognized. The purpose of the evaluation is to ensure that students enrolled in these programs have sufficient opportunity to earn a certificate of academic achievement, complete the program and earn the program's certificate or credential, and complete other state and local graduation requirements.

(c) The state board shall forward any proposed changes to the high school graduation requirements to the education committees of the legislature for review. The legislature shall have the opportunity to act during a regular legislative session before the changes are adopted through administrative rule by the state board. Changes that have a fiscal impact on school districts, as identified by a fiscal analysis prepared by the office of the superintendent of public instruction, shall take effect only if formally authorized and funded by the legislature through the omnibus appropriations act or other enacted legislation.

(3) Pursuant to any requirement for instruction in languages other than English established by the state board of education or a local school district, or both, for purposes of high school graduation, students who receive instruction

in American sign language or one or more American Indian languages shall be considered to have satisfied the state or local school district graduation requirement for instruction in one or more languages other than English.

(4) ~~((#))~~ Unless requested otherwise by the student and ~~((his or her))~~ the student's family, a student who has completed high school courses before attending high school shall be given high school credit which shall be applied to fulfilling high school graduation requirements if:

(a) The course was taken with high school students, if the academic level of the course exceeds the requirements for seventh and eighth grade classes, and the student has successfully passed by completing the same course requirements and examinations as the high school students enrolled in the class; or

(b) The academic level of the course exceeds the requirements for seventh and eighth grade classes and the course would qualify for high school credit, because the course is similar or equivalent to a course offered at a high school in the district as determined by the school district board of directors.

(5) Students who have taken and successfully completed high school courses under the circumstances in subsection (4) of this section shall not be required to take an additional competency examination or perform any other additional assignment to receive credit.

(6) At the college or university level, five quarter or three semester hours equals one high school credit.

Sec. 104. RCW 28A.155.045 and 2007 c 354 s 3 are each amended to read as follows:

Beginning with the graduating class of 2008, and concluding with the graduating class of 2021, students served under this chapter, who are not appropriately ~~((assessed))~~ served by the ~~((high school Washington assessment system as defined in RCW 28A.655.061))~~ graduation pathway options established in section 201 of this act, even with accommodations, may earn a certificate of individual achievement. The certificate may be earned using multiple ~~((ways))~~ measures to demonstrate skills and abilities commensurate with their ~~((individual))~~ individualized education programs. The determination of whether the ~~((high school assessment system is))~~ graduation pathway options established in section 201 of this act or the multiple measures authorized in this section are appropriate shall be made by the student's ~~((individual))~~ individualized education program team. ~~((Except as provided in RCW 28A.655.0611.))~~ For ((these)) the students who use the multiple measures authorized by this section, the certificate of individual achievement is required for graduation from a public high school ~~((, but need not be the only requirement for graduation. When measures other than the high school assessment system as defined in RCW 28A.655.061 are used.))~~. The multiple measures ((shall)) that may be used to demonstrate skills and abilities of students under this section must be in agreement with the appropriate educational opportunity provided for the student as required by this chapter. The superintendent of public instruction shall

develop the guidelines for determining ~~((which students should not be required to participate in the high school assessment system and))~~ which types of ~~((assessments))~~ multiple measures to demonstrate skills and abilities under this section are appropriate to use.

~~((When measures other than the high school assessment system as defined in RCW 28A.655.061 are used for high school graduation purposes, the student's high school transcript shall note whether that student has earned a certificate of individual achievement.))~~

Nothing in this section shall be construed to deny a student the right to participation in the ~~((high school assessment system as defined in RCW 28A.655.061, and, upon successfully meeting the high school standard, receipt of the certificate of academic achievement))~~ graduation pathway options established in section 201 of this act.

This section expires August 31, 2024.

Sec. 105. RCW 28A.655.061 and 2017 3rd sp.s. c 31 s 1 are each amended to read as follows:

(1) The high school assessment system shall include but need not be limited to the statewide student assessment, opportunities for a student to retake the content areas of the assessment in which the student was not successful, and, if approved by the legislature pursuant to subsection ~~((+0))~~ (9) of this section, one or more objective alternative assessments for a student to demonstrate achievement of state academic standards. The objective alternative assessments for each content area shall be comparable in rigor to the skills and knowledge that the student must demonstrate on the statewide student assessment for each content area.

(2) Subject to the conditions in this section, and concluding with the graduating class of 2019, a certificate of academic achievement shall be obtained and is evidence that the students have successfully met the state standard in the content areas included in the certificate. With the exception of students satisfying the provisions of RCW 28A.155.045 ~~((or 28A.655.061))~~, acquisition of the certificate is required for graduation from a public high school but is not the only requirement for graduation.

(3)(a) Beginning with the graduating class of 2008 through the graduating class of 2015, with the exception of students satisfying the provisions of RCW 28A.155.045, a student who meets the state standards on the English language arts and mathematics high school statewide student assessment shall earn a certificate of academic achievement. The mathematics assessment shall be the end-of-course assessment for the first year of high school mathematics that assesses the standards common to algebra I and integrated mathematics I or the end-of-course assessment for the second year of high school mathematics that assesses standards common to geometry and integrated mathematics II.

(b) As the state transitions from reading and writing assessments to an English language arts assessment and from end-of-course assessments to a comprehensive assessment

for high school mathematics, a student in a graduating class of 2016 through 2018 shall earn a certificate of academic achievement if the student meets the high school graduation standard as follows:

(i) Students in the graduating class of 2016 may use the results from:

(A) The reading and writing assessment or the English language arts assessment developed with the multistate consortium; and

(B) The end-of-course assessment for the first year of high school mathematics, the end-of-course assessment for the second year of high school mathematics, or the comprehensive mathematics assessment developed with the multistate consortium.

(ii) Students in the graduating classes of 2017 and 2018 may use the results from:

(A) The tenth grade English language arts assessment developed by the superintendent of public instruction using resources from the multistate consortium or the English language arts assessment developed with the multistate consortium; and

(B) The end-of-course assessment for the first year of high school mathematics, the end-of-course assessment for the second year of high school mathematics, or the comprehensive mathematics assessment developed with the multistate consortium.

(c) Beginning with the graduating class of 2019, a student who meets the high school graduation standard on the high school English language arts assessment developed with the multistate consortium and the comprehensive mathematics assessment developed with the multistate consortium shall earn a certificate of academic achievement.

~~((Beginning with the graduating class of 2020, a student who meets the high school graduation standard on the high school English language arts assessment developed with the multistate consortium and the comprehensive mathematics assessment developed with the multistate consortium to be administered in tenth grade shall earn a certificate of academic achievement.~~

~~((e))~~ If a student does not successfully meet the state standards in one or more content areas required for the certificate of academic achievement, then the student may retake the assessment in the content area at least twice a year at no cost to the student. If the student successfully meets the state standards on a retake of the assessment then the student shall earn a certificate of academic achievement. Once objective alternative assessments are authorized pursuant to subsection ~~((+0))~~ (9) of this section, a student may use the objective alternative assessments to demonstrate that the student successfully meets the state standards for that content area if the student has taken the statewide student assessment at least once. If the student successfully meets the state standards on the objective alternative assessments then the student shall earn a certificate of academic achievement.

~~(4) (Beginning with the graduating class of 2021, a student must meet the state standards in science in addition to the other content areas required under subsection (3) of this section on the statewide student assessment, a retake, or the objective alternative assessments in order to earn a certificate of academic achievement. The assessment under this subsection must be a comprehensive assessment of the science essential academic learning requirements adopted by the superintendent of public instruction in 2013.~~

~~(5))~~ (5) The state board of education may not require the acquisition of the certificate of academic achievement for students in home-based instruction under chapter 28A.200 RCW, for students enrolled in private schools under chapter 28A.195 RCW, or for students satisfying the provisions of RCW 28A.155.045.

~~((6))~~ (6) A student may retain and use the highest result from each successfully completed content area of the high school assessment.

~~((7))~~ (7) School districts must make available to students the following options:

(a) To retake the statewide student assessment at least twice a year in the content areas in which the student did not meet the state standards if the student is enrolled in a public school; or

(b) To retake the statewide student assessment at least twice a year in the content areas in which the student did not meet the state standards if the student is enrolled in a high school completion program at a community or technical college. The superintendent of public instruction and the state board for community and technical colleges shall jointly identify means by which students in these programs can be assessed.

~~((8))~~ (8) Students who achieve the standard in a content area of the high school assessment but who wish to improve their results shall pay for retaking the assessment, using a uniform cost determined by the superintendent of public instruction.

~~((9))~~ (9) Opportunities to retake the assessment at least twice a year shall be available to each school district.

~~((10))~~ (10)(a) The office of the superintendent of public instruction shall develop options for implementing objective alternative assessments, which may include an appeals process for students' scores, for students to demonstrate achievement of the state academic standards. The objective alternative assessments shall be comparable in rigor to the skills and knowledge that the student must demonstrate on the statewide student assessment and be objective in its determination of student achievement of the state standards. Before any objective alternative assessments in addition to those authorized in RCW 28A.655.065 or (b) of this subsection are used by a student to demonstrate that the student has met the state standards in a content area required to obtain a certificate, the legislature shall formally approve the use of any objective alternative assessments through the omnibus appropriations act or by statute or concurrent resolution.

(b)(i) A student's score on the mathematics, reading or English, or writing portion of the SAT or the ACT may be used as an objective alternative assessment under this section for demonstrating that a student has met or exceeded the state standards for the certificate of academic achievement. The state board of education shall identify the scores students must achieve on the relevant portion of the SAT or ACT to meet or exceed the state standard in the relevant content area on the statewide student assessment. A student's score on the science portion of the ACT or the science subject area tests of the SAT may be used as an objective alternative assessment under this section as soon as the state board of education determines that sufficient data is available to identify reliable equivalent scores for the science content area of the statewide student assessment. After the first scores are established, the state board may increase but not decrease the scores required for students to meet or exceed the state standards.

(ii) A student who scores at least a three on the grading scale of one to five for selected AP examinations may use the score as an objective alternative assessment under this section for demonstrating that a student has met or exceeded state standards for the certificate of academic achievement. A score of three on the AP examinations in calculus or statistics may be used as an alternative assessment for the mathematics portion of the statewide student assessment. A score of three on the AP examinations in English language and composition may be used as an alternative assessment for the writing portion of the statewide student assessment; and for the English language arts portion of the assessment developed with the multistate consortium, once established in the 2014-15 school year. A score of three on the AP examinations in English literature and composition, macroeconomics, microeconomics, psychology, United States history, world history, United States government and politics, or comparative government and politics may be used as an alternative assessment for the reading portion of the statewide student assessment; and for the English language arts portion of the assessment developed with the multistate consortium, once established in the 2014-15 school year. A score of three on the AP examination in biology, physics, chemistry, or environmental science may be used as an alternative assessment for the science portion of the statewide student assessment.

(iii) A student who scores at least a four on selected externally administered international baccalaureate (IB) examinations may use the score as an objective alternative assessment under this section for demonstrating that the student has met or exceeded state standards for the certificate of academic achievement. A score of four on the higher level IB examinations for any of the IB English language and literature courses or for any of the IB individuals and societies courses may be used as an alternative assessment for the reading, writing, or English language arts portions of the statewide student assessment. A score of four on the higher level IB examinations for any of the IB mathematics courses may be used as an alternative assessment for the mathematics portion of the statewide student assessment. A score of four on the higher level IB examinations for IB biology, chemistry, or physics may be used as an alternative

assessment for the science portion of the statewide student assessment.

(iv)(A) (~~(Beginning)~~) In the 2018-19 school year, high school students who have not earned a certificate of academic achievement due to not meeting the high school graduation standard on the mathematics or English language arts assessment may take and pass a locally determined course in the content area in which the student was not successful, and may use the passing score on a locally administered assessment tied to that course and approved under the provisions of this subsection (~~((40))~~) (9)(b)(iv), as an objective alternative assessment for demonstrating that the student has met or exceeded the high school graduation standard. High school transition courses and the assessments offered in association with high school transition courses shall be considered an approved locally determined course and assessment for demonstrating that the student met or exceeded the high school graduation standard. The course must be rigorous and consistent with the student's educational and career goals identified in his or her high school and beyond plan, and may include career and technical education equivalencies in English language arts or mathematics adopted pursuant to RCW 28A.230.097. School districts shall record students' participation in locally determined courses under this section in the statewide individual data system.

(B) The office of the superintendent of public instruction shall develop a process by which local school districts can submit assessments for review and approval for use as objective alternative assessments for graduation as allowed by (b)(iv) of this subsection. This process shall establish means to determine whether a local school district-administered assessment is comparable in rigor to the skills and knowledge that the student must demonstrate on the statewide student assessment and is objective in its determination of student achievement of the state standards. The office of the superintendent of public instruction shall post on its agency web site a compiled list of local school district-administered assessments approved as objective alternative assessments, including the comparable scores on these assessments necessary to meet the standard.

(C) For the purpose of this section, "high school transition course" means an English language arts or mathematics course offered in high school where successful completion by a high school student ensures the student college-level placement at participating institutions of higher education as defined in RCW 28B.10.016. High school transition courses must, in accordance with this section, satisfy core or elective credit graduation requirements established by the state board of education. A student's successful completion of a high school transition course does not entitle the student to be admitted to any institution of higher education as defined in RCW 28B.10.016.

(v) A student who completes a dual credit course in English language arts or mathematics in which the student earns college credit may use passage of the course as an objective alternative assessment under this section for demonstrating that the student has met or exceeded the high

school graduation standard for the certificate of academic achievement.

~~((41))~~ (10) To help assure continued progress in academic achievement as a foundation for high school graduation and to assure that students are on track for high school graduation, each school district shall:

(a) Provide students who have not earned a certificate of academic achievement before the beginning of grade eleven with the opportunity to access interventions and academic supports, courses, or both, designed to enable students to meet the high school graduation standard. These interventions, supports, or courses must be rigorous and consistent with the student's educational and career goals identified in his or her high school and beyond plan, and may include career and technical education equivalencies in English language arts or mathematics adopted pursuant to RCW 28A.230.097; and

(b) Prepare student learning plans and notify students and their parents or legal guardians as provided in this subsection. Student learning plans are required for eighth grade students who were not successful on any or all of the content areas of the state assessment during the previous school year or who may not be on track to graduate due to credit deficiencies or absences. The parent or legal guardian shall be notified about the information in the student learning plan, preferably through a parent conference and at least annually. To the extent feasible, schools serving English language learner students and their parents shall translate the plan into the primary language of the family. The plan shall include the following information as applicable:

(i) The student's results on the state assessment;

(ii) If the student is in the transitional bilingual program, the score on his or her Washington language proficiency test II;

(iii) Any credit deficiencies;

(iv) The student's attendance rates over the previous two years;

(v) The student's progress toward meeting state and local graduation requirements;

(vi) The courses, competencies, and other steps needed to be taken by the student to meet state academic standards and stay on track for graduation;

(vii) Remediation strategies and alternative education options available to students, including informing students of the option to continue to receive instructional services after grade twelve or until the age of twenty-one;

(viii) The alternative assessment options available to students under this section and RCW 28A.655.065;

(ix) School district programs, high school courses, and career and technical education options available for students to meet graduation requirements; and

(x) Available programs offered through skill centers or community and technical colleges, including the college high school diploma options under RCW 28B.50.535.

(11) This section expires August 31, 2022.

Sec. 106. RCW 28A.155.170 and 2007 c 318 s 2 are each amended to read as follows:

(1) Beginning July 1, 2007, each school district that operates a high school shall establish a policy and procedures that permit any student who is receiving special education or related services under an individualized education program pursuant to state and federal law and who will continue to receive such services between the ages of eighteen and twenty-one to participate in the graduation ceremony and activities after four years of high school attendance with his or her age-appropriate peers and receive a certificate of attendance.

(2) Participation in a graduation ceremony and receipt of a certificate of attendance under this section does not preclude a student from continuing to receive special education and related services under an individualized education program beyond the graduation ceremony.

(3) A student's participation in a graduation ceremony and receipt of a certificate of attendance under this section shall not be construed as the student's receipt of ~~((either~~

~~((a)))~~ a high school diploma pursuant to RCW 28A.230.120~~((+or~~

~~((b) A certificate of individual achievement pursuant to RCW 28A.155.045)).~~

Sec. 107. RCW 28A.180.100 and 2004 c 19 s 105 are each amended to read as follows:

The office of the superintendent of public instruction and the state board for community and technical colleges shall jointly develop a program plan to provide a continuing education option for students who are eligible for the state transitional bilingual instruction program and who need more time to develop language proficiency but who are more age-appropriately suited for a postsecondary learning environment than for a high school. ~~((In developing the plan, the superintendent of public instruction shall consider options to formally recognize the accomplishments of students in the state transitional bilingual instruction program who have completed the twelfth grade but have not earned a certificate of academic achievement.))~~ By December 1, 2004, the agencies shall report to the legislative education and fiscal committees with any recommendations for legislative action and any resources necessary to implement the plan.

Sec. 108. RCW 28A.195.010 and 2018 c 177 s 201 are each amended to read as follows:

The legislature hereby recognizes that private schools should be subject only to those minimum state controls necessary to insure the health and safety of all the students in the state and to insure a sufficient basic education to meet usual graduation requirements. The state, any agency

or official thereof, shall not restrict or dictate any specific educational or other programs for private schools except as hereinafter in this section provided.

The administrative or executive authority of private schools or private school districts shall file each year with the state board of education a statement certifying that the minimum requirements hereinafter set forth are being met, noting any deviations. The state board of education may request clarification or additional information. After review of the statement, the state board of education will notify schools or school districts of any concerns, deficiencies, and deviations which must be corrected. If there are any unresolved concerns, deficiencies, or deviations, the school or school district may request or the state board of education on its own initiative may grant provisional status for one year in order that the school or school district may take action to meet the requirements. The state board of education shall not require private school students to meet the student learning goals, ~~((obtain a certificate of academic achievement, or a certificate of individual achievement to graduate from high school,))~~ to ~~((master))~~ learn the ~~((essential academic))~~ state learning ~~((requirements))~~ standards, or to be assessed pursuant to RCW ~~((28A.655.061))~~ 28A.655.070. However, private schools may choose, on a voluntary basis, to have their students ~~((master))~~ learn these ~~((essential academic))~~ state learning ~~((requirements))~~ standards or take the assessments~~((, and obtain a certificate of academic achievement or a certificate of individual achievement)).~~ Minimum requirements shall be as follows:

(1) The minimum school year for instructional purposes shall consist of no less than one hundred eighty school days or the equivalent in annual minimum instructional hour offerings, with a school-wide annual average total instructional hour offering of one thousand hours for students enrolled in grades one through twelve, and at least four hundred fifty hours for students enrolled in kindergarten.

(2) The school day shall be the same as defined in RCW 28A.150.203.

(3) All classroom teachers shall hold appropriate Washington state certification except as follows:

(a) Teachers for religious courses or courses for which no counterpart exists in public schools shall not be required to obtain a state certificate to teach those courses.

(b) In exceptional cases, people of unusual competence but without certification may teach students so long as a certified person exercises general supervision. Annual written statements shall be submitted to the state board of education reporting and explaining such circumstances.

(4) An approved private school may operate an extension program for parents, guardians, or persons having legal custody of a child to teach children in their custody. The extension program shall require at a minimum that:

(a) The parent, guardian, or custodian be under the supervision of an employee of the approved private school who is certificated under chapter 28A.410 RCW;

(b) The planning by the certificated person and the parent, guardian, or person having legal custody include objectives consistent with this subsection and subsections (1), (2), (5), (6), and (7) of this section;

(c) The certificated person spend a minimum average each month of one contact hour per week with each student under his or her supervision who is enrolled in the approved private school extension program;

(d) Each student's progress be evaluated by the certificated person; and

(e) The certificated employee shall not supervise more than thirty students enrolled in the approved private school's extension program.

(5) Appropriate measures shall be taken to safeguard all permanent records against loss or damage.

(6) The physical facilities of the school or district shall be adequate to meet the program offered by the school or district: PROVIDED, That each school building shall meet reasonable health and fire safety requirements. A residential dwelling of the parent, guardian, or custodian shall be deemed to be an adequate physical facility when a parent, guardian, or person having legal custody is instructing his or her child under subsection (4) of this section.

(7) Private school curriculum shall include instruction of the basic skills of occupational education, science, mathematics, language, social studies, history, health, reading, writing, spelling, and the development of appreciation of art and music, all in sufficient units for meeting state board of education graduation requirements.

(8) Each school or school district shall be required to maintain up-to-date policy statements related to the administration and operation of the school or school district.

All decisions of policy, philosophy, selection of books, teaching material, curriculum, except as in subsection (7) of this section provided, school rules and administration, or other matters not specifically referred to in this section, shall be the responsibility of the administration and administrators of the particular private school involved.

Sec. 109. RCW 28A.200.010 and 2004 c 19 s 107 are each amended to read as follows:

(1) Each parent whose child is receiving home-based instruction under RCW 28A.225.010(4) shall have the duty to:

(a) File annually a signed declaration of intent that he or she is planning to cause his or her child to receive home-based instruction. The statement shall include the name and age of the child, shall specify whether a certificated person will be supervising the instruction, and shall be written in a format prescribed by the superintendent of public instruction. Each parent shall file the statement by September 15th of the school year or within two weeks of the beginning of any public school quarter, trimester, or semester with the superintendent of the public school district

within which the parent resides or the district that accepts the transfer, and the student shall be deemed a transfer student of the nonresident district. Parents may apply for transfer under RCW 28A.225.220;

(b) Ensure that test scores or annual academic progress assessments and immunization records, together with any other records that are kept relating to the instructional and educational activities provided, are forwarded to any other public or private school to which the child transfers. At the time of a transfer to a public school, the superintendent of the local school district in which the child enrolls may require a standardized achievement test to be administered and shall have the authority to determine the appropriate grade and course level placement of the child after consultation with parents and review of the child's records; and

(c) Ensure that a standardized achievement test approved by the state board of education is administered annually to the child by a qualified individual or that an annual assessment of the student's academic progress is written by a certificated person who is currently working in the field of education. The state board of education shall not require these children to meet the student learning goals, ~~((master)) learn the ((essential academic)) state learning ((requirements)) standards, ((to)) or~~ take the assessments ~~((or to obtain a certificate of academic achievement or a certificate of individual achievement pursuant to RCW 28A.655.061 and 28A.155.045))~~ under RCW 28A.655.070. The standardized test administered or the annual academic progress assessment written shall be made a part of the child's permanent records. If, as a result of the annual test or assessment, it is determined that the child is not making reasonable progress consistent with his or her age or stage of development, the parent shall make a good faith effort to remedy any deficiency.

(2) Failure of a parent to comply with the duties in this section shall be deemed a failure of such parent's child to attend school without valid justification under RCW 28A.225.020. Parents who do comply with the duties set forth in this section shall be presumed to be providing home-based instruction as set forth in RCW 28A.225.010(4).

Sec. 110. RCW 28A.230.122 and 2011 c 203 s 1 are each amended to read as follows:

(1) A student who fulfills the requirements specified in subsection (3) of this section toward completion of an international baccalaureate diploma programme is considered to have met the requirements of the graduation pathway option established in section 201(1)(b)(iv) of this act and to have satisfied state minimum requirements for graduation from a public high school, except that

~~((a)) The provisions of RCW 28A.655.061 regarding the certificate of academic achievement or RCW 28A.155.045 regarding the certificate of individual achievement apply to students under this section; and~~

~~((b))~~ the provisions of RCW 28A.230.170 regarding study of the United States Constitution and the Washington state Constitution apply to students under this section.

(2) School districts may require students under this section to complete local graduation requirements that are in addition to state minimum requirements before issuing a high school diploma under RCW 28A.230.120. However, school districts are encouraged to waive local requirements as necessary to encourage students to pursue an international baccalaureate diploma.

(3) To receive a high school diploma under this section, a student must complete and pass all required international baccalaureate diploma programme courses as scored at the local level; pass all internal assessments as scored at the local level; successfully complete all required projects and products as scored at the local level; and complete the final examinations administered by the international baccalaureate organization in each of the required subjects under the diploma programme.

Sec. 111. RCW 28A.230.125 and 2014 c 102 s 3 are each amended to read as follows:

(1) The superintendent of public instruction, in consultation with the four-year institutions as defined in RCW 28B.76.020, the state board for community and technical colleges, and the workforce training and education coordinating board, shall develop for use by all public school districts a standardized high school transcript. The superintendent shall establish clear definitions for the terms "credits" and "hours" so that school programs operating on the quarter, semester, or trimester system can be compared.

~~(2) (The standardized high school transcript shall include a notation of whether the student has earned a certificate of individual achievement or a certificate of academic achievement.~~

~~(3))~~ The standardized high school transcript may include a notation of whether the student has earned the Washington state seal of biliteracy established under RCW 28A.300.575.

Sec. 112. RCW 28A.305.130 and 2017 3rd sp.s. c 31 s 3 are each amended to read as follows:

The purpose of the state board of education is to provide advocacy and strategic oversight of public education; implement a standards-based accountability framework that creates a unified system of increasing levels of support for schools in order to improve student academic achievement; provide leadership in the creation of a system that personalizes education for each student and respects diverse cultures, abilities, and learning styles; and promote achievement of the goals of RCW 28A.150.210. In addition to any other powers and duties as provided by law, the state board of education shall:

(1) Hold regularly scheduled meetings at such time and place within the state as the board shall determine and may hold such special meetings as may be deemed necessary for the transaction of public business;

(2) Form committees as necessary to effectively and efficiently conduct the work of the board;

(3) Seek advice from the public and interested parties regarding the work of the board;

(4) For purposes of statewide accountability:

(a) Adopt and revise performance improvement goals in reading, writing, science, and mathematics, by subject and grade level, once assessments in these subjects are required statewide; academic and technical skills, as appropriate, in secondary career and technical education programs; and student attendance, as the board deems appropriate to improve student learning. The goals shall be consistent with student privacy protection provisions of RCW 28A.655.090(7) and shall not conflict with requirements contained in Title I of the federal elementary and secondary education act of 1965, or the requirements of the Carl D. Perkins vocational education act of 1998, each as amended. The goals may be established for all students, economically disadvantaged students, limited English proficient students, students with disabilities, and students from disproportionately academically underachieving racial and ethnic backgrounds. The board may establish school and school district goals addressing high school graduation rates and dropout reduction goals for students in grades seven through twelve. The board shall adopt the goals by rule. However, before each goal is implemented, the board shall present the goal to the education committees of the house of representatives and the senate for the committees' review and comment in a time frame that will permit the legislature to take statutory action on the goal if such action is deemed warranted by the legislature;

(b)(i)(A) Identify the scores students must achieve in order to meet the standard on the statewide student assessment, and the SAT or the ACT if used to demonstrate career and college readiness under section 201 of this act. The board shall also determine student scores that identify levels of student performance below and beyond the standard. The board shall set such performance standards and levels in consultation with the superintendent of public instruction and after consideration of any recommendations that may be developed by any advisory committees that may be established for this purpose;

(B) To permit the legislature to take any statutory action it deems warranted before modified or newly established scores are implemented, the board shall notify the education committees of the house of representatives and the senate of any scores that are modified or established under (b)(i)(A) of this subsection on or after July 28, 2019. The notifications required by this subsection (4)(b)(i)(B) must be provided by November 30th of the year preceding the beginning of the school year in which the modified or established scores will take effect;

(ii)((A)) The legislature intends to continue the implementation of chapter 22, Laws of 2013((7)) 2nd sp. sess. when the legislature expressed the intent for the state board of education to identify the student performance standard that demonstrates a student's career and college readiness for the eleventh grade consortium-developed assessments. Therefore, by December 1, 2018, the state board of education, in consultation with the superintendent of public instruction, must identify and report to the

governor and the education policy and fiscal committees of the legislature on the equivalent student performance standard that a tenth grade student would need to achieve on the state assessments to be on track to be career and college ready at the end of the student's high school experience;

~~((B) Nothing in this section prohibits the state board of education from identifying a college and career readiness score that is different from the score required for high school graduation purposes;))~~

(iii) The legislature shall be advised of the initial performance standards and any changes made to the elementary, middle, and high school level performance standards. The board must provide an explanation of and rationale for all initial performance standards and any changes, for all grade levels of the statewide student assessment. If the board changes the performance standards for any grade level or subject, the superintendent of public instruction must recalculate the results from the previous ten years of administering that assessment regarding students below, meeting, and beyond the state standard, to the extent that this data is available, and post a comparison of the original and recalculated results on the superintendent's web site;

(c) Annually review the assessment reporting system to ensure fairness, accuracy, timeliness, and equity of opportunity, especially with regard to schools with special circumstances and unique populations of students, and a recommendation to the superintendent of public instruction of any improvements needed to the system; and

(d) Include in the biennial report required under RCW 28A.305.035, information on the progress that has been made in achieving goals adopted by the board;

(5) Accredite, subject to such accreditation standards and procedures as may be established by the state board of education, all private schools that apply for accreditation, and approve, subject to the provisions of RCW 28A.195.010, private schools carrying out a program for any or all of the grades kindergarten through twelve. However, no private school may be approved that operates a kindergarten program only and no private school shall be placed upon the list of accredited schools so long as secret societies are knowingly allowed to exist among its students by school officials;

(6) Articulate with the institutions of higher education, workforce representatives, and early learning policymakers and providers to coordinate and unify the work of the public school system;

(7) Hire an executive director and an administrative assistant to reside in the office of the superintendent of public instruction for administrative purposes. Any other personnel of the board shall be appointed as provided by RCW 28A.300.020. The board may delegate to the executive director by resolution such duties as deemed necessary to efficiently carry on the business of the board including, but not limited to, the authority to employ necessary personnel and the authority to enter into, amend, and terminate contracts on behalf of the board. The executive director, administrative assistant, and all but one of the other

personnel of the board are exempt from civil service, together with other staff as now or hereafter designated as exempt in accordance with chapter 41.06 RCW; and

(8) Adopt a seal that shall be kept in the office of the superintendent of public instruction.

Sec. 113. RCW 28A.320.190 and 2009 c 578 s 2 are each amended to read as follows:

(1) The extended learning opportunities program is created for eligible eleventh and twelfth grade students who are not on track to meet local or state graduation requirements as well as eighth grade students who need additional assistance in order to have the opportunity for a successful entry into high school. The program shall provide early notification of graduation status and information on education opportunities including preapprenticeship programs that are available.

(2) Under the extended learning opportunities program and to the extent funds are available for that purpose, districts shall make available to students in grade twelve who have failed to meet one or more local or state graduation requirements the option of continuing enrollment in the school district in accordance with RCW 28A.225.160. Districts are authorized to use basic education program funding to provide instruction to eligible students under RCW 28A.150.220~~((3))~~(5).

(3) Under the extended learning opportunities program, instructional services for eligible students can occur during the regular school day, evenings, on weekends, or at a time and location deemed appropriate by the school district, including the educational service district, in order to meet the needs of these students. Instructional services provided under this section do not include services offered at private schools. Instructional services can include, but are not limited to, the following:

(a) Individual or small group instruction;

~~((b) Instruction in English language arts and/or mathematics that eligible students need to pass all or part of the Washington assessment of student learning;~~

~~((c))~~ Attendance in a public high school or public alternative school classes or at a skill center;

~~((d))~~ (c) Inclusion in remediation programs, including summer school;

~~((e))~~ (d) Language development instruction for English language learners;

~~((f))~~ (e) Online curriculum and instructional support, including programs for credit retrieval and ~~((Washington))~~ statewide student assessment ~~((of student learning))~~ preparatory classes; and

~~((g))~~ (f) Reading improvement specialists available at the educational service districts to serve eighth, eleventh, and twelfth grade educators through professional development in accordance with RCW 28A.415.350. The reading improvement specialist may also provide direct services to eligible students and those students electing to

continue a fifth year in a high school program who are still struggling with basic reading skills.

Sec. 114. RCW 28A.320.208 and 2013 2nd sp.s. c 22 s 8 are each amended to read as follows:

(1) At the beginning of each school year, school districts must notify parents and guardians of enrolled students from eighth through twelfth grade about each student assessment required by the state, the minimum state-level graduation requirements, and any additional school district graduation requirements. The information may be provided when the student is enrolled, contained in the student or parent handbook, or posted on the school district's web site. The notification must include the following:

(a) When each assessment will be administered;

~~(b) ((Which assessments will be required for graduation and what options students have to meet graduation requirements if they do not pass a given assessment;~~

~~(e))~~ (e)) Whether the results of the assessment will be used for program placement or grade-level advancement;

~~((d))~~ (c) When the assessment results will be released to parents or guardians and whether there will be an opportunity for parents and teachers to discuss strategic adjustments; and

~~((e))~~ (d) Whether the assessment is required by the school district, state, federal government, or more than one of these entities.

(2) The office of the superintendent of public instruction shall provide information to the school districts to enable the districts to provide the information to the parents and guardians in accordance with subsection (1) of this section.

Sec. 115. RCW 28A.600.310 and 2015 c 202 s 4 are each amended to read as follows:

(1)(a) Eleventh and twelfth grade students or students who have not yet received the credits required for the award of a high school diploma and are eligible to be in the eleventh or twelfth grades may apply to a participating institution of higher education to enroll in courses or programs offered by the institution of higher education.

(b) The course sections and programs offered as running start courses must also be open for registration to matriculated students at the participating institution of higher education and may not be a course consisting solely of high school students offered at a high school campus.

(c) A student receiving home-based instruction enrolling in a public high school for the sole purpose of participating in courses or programs offered by institutions of higher education shall not be counted by the school district in any required state or federal accountability reporting if the student's parents or guardians filed a declaration of intent to provide home-based instruction and

the student received home-based instruction during the school year before the school year in which the student intends to participate in courses or programs offered by the institution of higher education. Students receiving home-based instruction under chapter 28A.200 RCW and students attending private schools approved under chapter 28A.195 RCW shall not be required to meet the student learning goals~~((, obtain a certificate of academic achievement or a certificate of individual achievement to graduate from high school,))~~ or to ~~((master))~~ learn the ~~((essential academic))~~ state learning ~~((requirements))~~ standards. However, students are eligible to enroll in courses or programs in participating universities only if the board of directors of the student's school district has decided to participate in the program. Participating institutions of higher education, in consultation with school districts, may establish admission standards for these students. If the institution of higher education accepts a secondary school pupil for enrollment under this section, the institution of higher education shall send written notice to the pupil and the pupil's school district within ten days of acceptance. The notice shall indicate the course and hours of enrollment for that pupil.

(2)(a) In lieu of tuition and fees, as defined in RCW 28B.15.020 and 28B.15.041:

(i) Running start students shall pay to the community or technical college all other mandatory fees as established by each community or technical college and, in addition, the state board for community and technical colleges may authorize a fee of up to ten percent of tuition and fees as defined in RCW 28B.15.020 and 28B.15.041; and

(ii) All other institutions of higher education operating a running start program may charge running start students a fee of up to ten percent of tuition and fees as defined in RCW 28B.15.020 and 28B.15.041 in addition to technology fees.

(b) The fees charged under this subsection (2) shall be prorated based on credit load.

(c) Students may pay fees under this subsection with advanced college tuition payment program tuition units at a rate set by the advanced college tuition payment program governing body under chapter 28B.95 RCW.

(3)(a) The institutions of higher education must make available fee waivers for low-income running start students. Each institution must establish a written policy for the determination of low-income students before offering the fee waiver. A student shall be considered low income and eligible for a fee waiver upon proof that the student is currently qualified to receive free or reduced-price lunch. Acceptable documentation of low-income status may also include, but is not limited to, documentation that a student has been deemed eligible for free or reduced-price lunches in the last five years, or other criteria established in the institution's policy.

(b) Institutions of higher education, in collaboration with relevant student associations, shall aim to have students who can benefit from fee waivers take advantage of these waivers. Institutions shall make every effort to communicate to students and their families the benefits of the waivers and

provide assistance to students and their families on how to apply. Information about waivers shall, to the greatest extent possible, be incorporated into financial aid counseling, admission information, and individual billing statements. Institutions also shall, to the greatest extent possible, use all means of communication, including but not limited to web sites, online catalogues, admission and registration forms, mass email messaging, social media, and outside marketing to ensure that information about waivers is visible, compelling, and reaches the maximum number of students and families that can benefit.

(4) The pupil's school district shall transmit to the institution of higher education an amount per each full-time equivalent college student at statewide uniform rates for vocational and nonvocational students. The superintendent of public instruction shall separately calculate and allocate moneys appropriated for basic education under RCW 28A.150.260 to school districts for purposes of making such payments and for granting school districts seven percent thereof to offset program related costs. The calculations and allocations shall be based upon the estimated statewide annual average per full-time equivalent high school student allocations under RCW 28A.150.260, excluding small high school enhancements, and applicable rules adopted under chapter 34.05 RCW. The superintendent of public instruction, participating institutions of higher education, and the state board for community and technical colleges shall consult on the calculation and distribution of the funds. The funds received by the institution of higher education from the school district shall not be deemed tuition or operating fees and may be retained by the institution of higher education. A student enrolled under this subsection shall be counted for the purpose of meeting enrollment targets in accordance with terms and conditions specified in the omnibus appropriations act.

Sec. 116. RCW 28A.700.080 and 2008 c 170 s 301 are each amended to read as follows:

Messages in the campaign shall emphasize career and technical education as a high quality educational pathway for students, including for students who seek advanced education that includes a bachelor's degree or beyond. In particular, the office shall provide information about the following:

(3) The office shall seek advice, participation, and financial assistance from the workforce training and education coordinating board, higher education institutions, foundations, employers, apprenticeship and training councils, workforce development councils, and business and labor organizations for the campaign.

Sec. 117. RCW 28A.415.360 and 2009 c 548 s 403 are each amended to read as follows:

(1) Subject to funds appropriated for this purpose, targeted professional development programs, to be known as learning improvement days, are authorized to further the development of outstanding mathematics, science, and reading teaching and learning opportunities in the state of Washington. The intent of this section is to provide guidance for the learning improvement days in the omnibus appropriations act. The learning improvement days authorized in this section shall not be considered part of the definition of basic education.

(2) A school district is eligible to receive funding for learning improvement days that are limited to specific activities related to student learning that contribute to the following outcomes:

(a) Provision of meaningful, targeted professional development for all teachers in mathematics, science, or reading;

(3) School districts receiving resources under this section shall submit reports to the superintendent of public instruction documenting how the use of the funds contributes to measurable improvement in the outcomes described under subsection (2) of this section; and how other professional development resources and programs authorized in statute or in the omnibus appropriations act contribute to the expected outcomes. The superintendent of public instruction and the office of financial management shall collaborate on required report content and format.

Sec. 118. RCW 28A.655.068 and 2017 3rd sp.s. c 31 s 6 are each amended to read as follows:

(1) ~~((Beginning in the 2011-12 school year,))~~ The statewide high school assessment in science shall be ~~((an end-of-course))~~ a comprehensive assessment ~~((for biology))~~ that measures the state standards for the application of science and engineering practices, disciplinary core ideas, and crosscutting concepts in the domains of physical sciences, life sciences, ((in addition to systems, inquiry, and application as they pertain to life sciences)) Earth and space sciences, and engineering design.

~~(2)((a) The superintendent of public instruction may develop or adopt science end-of-course assessments or a comprehensive science assessment that includes subjects in addition to biology for purposes of RCW 28A.655.061, when so directed by the legislature. The legislature intends to transition from a biology end-of-course assessment to a more comprehensive science assessment in a manner consistent with the way in which the state transitioned to an English language arts assessment and a comprehensive mathematics assessment. The legislature further intends that the transition will include at least two years of using the student assessment results from either the biology end-of-course assessment or the more comprehensive assessment in order to provide students with reasonable opportunities to demonstrate high school competencies while being mindful of the increasing rigor of the new assessment.~~

~~(b))~~ The superintendent of public instruction shall develop or adopt a science assessment in accordance with RCW 28A.655.070(10) that is not biased toward persons with different learning styles, racial or ethnic backgrounds, or on the basis of gender.

~~((c) Before the next subsequent school year after the legislature directs the superintendent to develop or adopt a new science assessment, the superintendent of public instruction shall review the objective alternative assessments for the science assessment and make recommendations to the legislature regarding additional objective alternatives, if any.))~~

(3) The superintendent of public instruction may participate with consortia of multiple states as common student learning standards and assessments in science are developed. The superintendent of public instruction, in consultation with the state board of education, may modify

the ~~((essential academic))~~ state learning ((requirements)) standards and statewide student assessments in science, including the high school assessment, according to the multistate common student learning standards and assessments as long as the education committees of the legislature have opportunities for review before the modifications are adopted, as provided under RCW 28A.655.070.

(4) The statewide high school assessment under this section shall be used to demonstrate that a student meets the state standards in the science content area of the statewide student assessment until a comprehensive science assessment is required under RCW 28A.655.061.

Sec. 119. RCW 28A.655.070 and 2018 c 177 s 401 are each amended to read as follows:

(1) The superintendent of public instruction shall develop ~~((essential academic))~~ state learning ((requirements)) standards that identify the knowledge and skills all public school students need to know and be able to do based on the student learning goals in RCW 28A.150.210, develop student assessments, and implement the accountability recommendations and requests regarding assistance, rewards, and recognition of the state board of education.

(2) The superintendent of public instruction shall:

(a) Periodically revise the ~~((essential academic))~~ state learning ((requirements)) standards, as needed, based on the student learning goals in RCW 28A.150.210. To the maximum extent possible, the superintendent shall integrate goal four and the knowledge and skill areas in the other goals in the ~~((essential academic))~~ state learning ((requirements)) standards; and

(b) Review and prioritize the ~~((essential academic))~~ state learning ((requirements)) standards and identify, with clear and concise descriptions, the grade level content expectations to be assessed on the statewide student assessment and used for state or federal accountability purposes. The review, prioritization, and identification shall result in more focus and targeting with an emphasis on depth over breadth in the number of grade level content expectations assessed at each grade level. Grade level content expectations shall be articulated over the grades as a sequence of expectations and performances that are logical, build with increasing depth after foundational knowledge and skills are acquired, and reflect, where appropriate, the sequential nature of the discipline. The office of the superintendent of public instruction, within seven working days, shall post on its web site any grade level content expectations provided to an assessment vendor for use in constructing the statewide student assessment.

(3)(a) In consultation with the state board of education, the superintendent of public instruction shall maintain and continue to develop and revise a statewide academic assessment system in the content areas of reading, writing, mathematics, and science for use in the elementary, middle, and high school years designed to determine if each

student has mastered the ~~((essential academic))~~ state learning ((requirements)) standards identified in subsection (1) of this section. School districts shall administer the assessments under guidelines adopted by the superintendent of public instruction. The academic assessment system may include a variety of assessment methods, including criterion-referenced and performance-based measures.

(b) Effective with the 2009 administration of the Washington assessment of student learning and continuing with the statewide student assessment, the superintendent shall redesign the assessment in the content areas of reading, mathematics, and science in all grades except high school by shortening test administration and reducing the number of short answer and extended response questions.

(c) By the 2014-15 school year, the superintendent of public instruction, in consultation with the state board of education, shall modify the statewide student assessment system to transition to assessments developed with a multistate consortium, as provided in this subsection:

(i) The assessments developed with a multistate consortium to assess student proficiency in English language arts and mathematics shall be administered beginning in the 2014-15 school year, and beginning with the graduating class of 2020, the assessments must be administered to students in the tenth grade. The reading and writing assessments shall not be administered by the superintendent of public instruction or schools after the 2013-14 school year.

(ii) The high school assessments in English language arts and mathematics in (c)(i) of this subsection shall be used for the purposes of ~~((earning a certificate of academic achievement for high school graduation under the timeline established in RCW 28A.655.061))~~ federal and state accountability and for assessing student career and college readiness.

~~((iii) During the transition period specified in RCW 28A.655.061, the superintendent of public instruction shall use test items and other resources from the consortium assessment to develop and administer a tenth grade high school English language arts assessment, an end-of-course mathematics assessment to assess the standards common to algebra I and integrated mathematics I, and an end-of-course mathematics assessment to assess the standards common to geometry and integrated mathematics II.))~~

(d) The statewide academic assessment system must also include the Washington access to instruction and measurement assessment for students with significant cognitive challenges.

(4) If the superintendent proposes any modification to the ~~((essential academic))~~ state learning ((requirements)) standards or the statewide assessments, then the superintendent shall, upon request, provide opportunities for the education committees of the house of representatives and the senate to review the assessments and proposed modifications to the ~~((essential academic))~~ state learning ((requirements)) standards before the modifications are adopted.

(5) The assessment system shall be designed so that the results under the assessment system are used by educators as tools to evaluate instructional practices, and to initiate appropriate educational support for students who have not mastered the ~~((essential academic))~~ state learning ((requirements)) standards at the appropriate periods in the student's educational development.

(6) By September 2007, the results for reading and mathematics shall be reported in a format that will allow parents and teachers to determine the academic gain a student has acquired in those content areas from one school year to the next.

(7) To assist parents and teachers in their efforts to provide educational support to individual students, the superintendent of public instruction shall provide as much individual student performance information as possible within the constraints of the assessment system's item bank. The superintendent shall also provide to school districts:

(a) Information on classroom-based and other assessments that may provide additional achievement information for individual students; and

(b) A collection of diagnostic tools that educators may use to evaluate the academic status of individual students. The tools shall be designed to be inexpensive, easily administered, and quickly and easily scored, with results provided in a format that may be easily shared with parents and students.

(8) To the maximum extent possible, the superintendent shall integrate knowledge and skill areas in development of the assessments.

(9) Assessments for goals three and four of RCW 28A.150.210 shall be integrated in the ~~((essential academic))~~ state learning ((requirements)) standards and assessments for goals one and two.

(11) The superintendent shall review available and appropriate options for competency-based assessments that meet the ~~((essential academic))~~ state learning ((requirements)) standards. In accordance with the review required by this subsection, the superintendent shall provide a report and recommendations to the education committees of the house of representatives and the senate by November 1, 2019.

(12) The superintendent shall consider methods to address the unique needs of special education students when developing the assessments under this section.

(13) The superintendent shall consider methods to address the unique needs of highly capable students when developing the assessments under this section.

(14) The superintendent shall post on the superintendent's web site lists of resources and model assessments in social studies, the arts, and health and fitness.

(15) The superintendent shall integrate financial education skills and content knowledge into the state learning standards pursuant to RCW 28A.300.460(2)(d).

(16)(a) The superintendent shall notify the state board of education in writing before initiating the development or revision of the ~~((essential academic))~~ state learning ((requirements)) standards under subsections (1) and (2) of this section. The notification must be provided to the state board of education in advance for review at a regularly scheduled or special board meeting and must include the following information:

(i) The subject matter of the ~~((essential academic))~~ state learning ((requirements)) standards;

(ii) The reason or reasons the superintendent is initiating the development or revision; and

(iii) The process and timeline that the superintendent intends to follow for the development or revision.

(b) The state board of education may provide a response to the superintendent's notification for consideration in the development or revision process in (a) of this subsection.

(c) Prior to adoption by the superintendent of any new or revised ~~((essential academic))~~ state learning ((requirements)) standards, the superintendent shall submit the proposed new or revised ~~((essential academic))~~ state learning ((requirements)) standards to the state board of education in advance in writing for review at a regularly scheduled or special board meeting. The state board of education may provide a response to the superintendent's proposal for consideration prior to final adoption.

(17) The state board of education may propose new or revised ~~((essential academic))~~ state learning ((requirements)) standards to the superintendent. The superintendent must respond to the state board of education's proposal in writing.

(5) The reports shall contain information on public school choice options available to students, including vocational education.

(6) The reports shall be posted on the superintendent of public instruction's internet web site.

(7) To protect the privacy of students, the results of schools and districts that test fewer than ten students in a grade level shall not be reported. In addition, in order to ensure that results are reported accurately, the superintendent of public instruction shall maintain the confidentiality of statewide data files until the superintendent determines that the data are complete and accurate.

(8) The superintendent of public instruction shall monitor the percentage and number of special education and limited English-proficient students exempted from taking the assessments by schools and school districts to ensure the exemptions are in compliance with exemption guidelines.

PART II

GRADUATION PATHWAY OPTIONS FOR THE GRADUATING CLASS OF 2020 AND SUBSEQUENT CLASSES

NEW SECTION. Sec. 201. A new section is added to chapter 28A.655 RCW to read as follows:

(1)(a) Beginning with the class of 2020, graduation from a public high school and the earning of a high school diploma must include the following:

(i) Satisfying the graduation requirements established by the state board of education under RCW

28A.230.090 and any graduation requirements established by the applicable public high school or school district;

(ii) Satisfying credit requirements for graduation;

(iii) Demonstrating career and college readiness through completion of the high school and beyond plan as required by RCW 28A.230.090; and

(iv) Meeting the requirements of at least one graduation pathway option established in this section. The pathway options established in this section are intended to provide a student with multiple pathways to graduating with a meaningful high school diploma that are tailored to the goals of the student. A student may choose to pursue one or more of the pathway options under (b) of this subsection, but any pathway option used by a student to demonstrate career and college readiness must be in alignment with the student's high school and beyond plan.

(b) The following graduation pathway options may be used to demonstrate career and college readiness in accordance with (a)(iv) of this subsection:

(i) Meet or exceed the graduation standard established by the state board of education under RCW 28A.305.130 on the statewide high school assessments in English language arts and mathematics as provided for under RCW 28A.655.070;

(ii) Complete and qualify for college credit in dual credit courses in English language arts and mathematics. For the purposes of this subsection, "dual credit course" means a course in which a student qualifies for college and high school credit in English language arts or mathematics upon successfully completing the course;

(iii) Earn high school credit in a high school transition course in English language arts and mathematics, an example of which includes a bridge to college course. For the purposes of this subsection (1)(b)(iii), "high school transition course" means an English language arts or mathematics course offered in high school where successful completion by a high school student ensures the student college-level placement at participating institutions of higher education as defined in RCW 28B.10.016. High school transition courses must satisfy core or elective credit graduation requirements established by the state board of education. A student's successful completion of a high school transition course does not entitle the student to be admitted to an institution of higher education as defined in RCW 28B.10.016;

(iv) Earn high school credit, with a C+ grade or equivalent, in AP, international baccalaureate, or Cambridge international courses in English language arts and mathematics. For English language arts, successfully completing any of the following courses meets the standard: AP English language and composition; macroeconomics; microeconomics; psychology; United States history; world history; United States government and politics; comparative government and politics; and any of the international baccalaureate individuals and societies courses. For mathematics, successfully completing any of the following

courses meets the standard: AP statistics or calculus; and any of the international baccalaureate mathematics courses;

(v) Meet or exceed the scores established by the state board of education for the mathematics portion and the reading, English, or writing portion of the SAT or ACT;

(vi) Meet any combination of at least one English language arts option and at least one mathematics option established in (b)(i) through (v) of this subsection (1);

(vii) Meet standard in the armed services vocational aptitude battery; and

(viii) Complete a sequence of career and technical education courses, including those leading to workforce entry, state or nationally approved apprenticeships, or postsecondary education, that meet the minimum criteria identified in RCW 28A.700.030. Nothing in this subsection (1)(b)(viii) requires a student to enroll in a preparatory course that is approved under RCW 28A.700.030 for the purposes of demonstrating career and college readiness under this section.

(2) While the legislature encourages school districts to make all pathway options established in this section available to their high school students, and to expand their pathway options until that goal is met, school districts have discretion in determining which pathway options under this section they will offer to students.

(3) The state board of education shall adopt rules to implement the graduation pathway options established in this section.

PART III

(b) Competencies include explicit, measurable, transferable learning objectives that empower students;

POINT OF PERSONAL PRIVILEGE

Representative Lekanoff: "You know today is a very special day in Washington state history. Today a man was born who rose above and said "What can we better do together? How do we protect the most precious precious resource that makes up the bloodlines of who he is as a Cosalish man? How do we protect the salmon, and how do we protect all who have called this place home?" Today I ask all of you to join with me in saying happy birthday to Billy Frank, Jr.. Happy birthday to Billy Frank, Jr.. Thank you for honoring the people of Washington State. Thank you for opening your arms up and reminding us all that we are all one people who call this place home. I'd like to share a quote of Billy's. These are some wonderful words that

have grown me as I've mentored under Billy for almost twenty years. He says, I quote, "I don't believe in magic I believe in the sun, in the stars, the water, the tides, the floods, the Owls, the Hawks flying the river running, the wind talking. These are measurements. They tell us how healthy things are, how healthy we are, because we and they are the same. That is what I believe in." I've had the privilege of being mentored under Billy Frank Jr for many years. He has built my generation, the generation ahead of me, and the generation below me to understand what can we better do together here. Here in the people's house, here in the homes that we live in and the places we call home. He is a seventh generation decision maker and with that, it is a privilege and an honor to share his wonderful day with all of you and thank you Madam Speaker for giving me the time on the floor."

POINT OF PERSONAL PRIVILEGE

Representative Wilcox: "Madam Speaker there's many things that I'm proud of when I realize that I represent the Second District, but one of the things that I'm most proud of is perhaps the most famous resident of Washington worldwide grew up in the Second District; lived a long life in the Second District; is honored in many places in many ways in the Second District and of course that's Billy Frank whose birthday it is today. One of the things that I've never forgotten about politics was a moment when I was first running, about ten years ago, my dad said if you're going to do this J.T., I want to have you come and talk to my friend Billy Frank. And so Dad arranged an appointment, and it wasn't my first visit with Billy, because of my dad's friendship I've known him for a long time, but we met in the little town of Yelm, along with Billy's longtime associate George Walters and visited for quite some time, and there's a, it's not exactly a story I guess, it was just a little piece of philosophy that Billy shared with me that I've shared with a lot of individuals here before. He was thinking about the struggles in his life and the fact that he'd had these amazing intersections with government and high government officials - a many decades perspective on how to accomplish things in the United States. And he started out by saying J.T. just think about this: We," he's talking about he and his allies, that work so hard on treaty fishing rights, "we're fourteen and zero at the U.S. Supreme Court." I might be wrong about that number but that's what sticks in my head "we're fourteen and zero in the U.S. Supreme Court. When we really feel strongly about something we can go to the state legislature and we can most often pass the bill that we want and just about every single time the Governor will sign that bill. So in the political world we've done very well, but I care about things that last, and the only way that you can have a victory that lasts is when you come together with the people that have opposed you and reach a mutual understanding with them. All the other things are transitory but changing people's hearts and minds and coming together you know in the most, and I'm elaborating a little bit here and some of you know that I'm leaving some of his colorful expressions out, the most fundamental and lasting way to make a change in the world is to reach emotional and intellectual agreement across both sides of the argument. And I was alluding a little bit to that yesterday in a speech as well, and I also appreciate the very gentle lady who preceded

me because she exemplifies this more than anyone I've ever met in this building. Thank you."

POINT OF ORDER

Representative Kraft requested a scope and object ruling for Second Substitute House Bill No. 1105 by the Committee on Appropriations."

SPEAKER'S RULING

Mr. Speaker (Representative Lovick presiding): "The title of the bill is an act relating to "protecting taxpayers from home foreclosure".

The bill as introduced addresses the collection of property taxes by counties and makes changes to the content of property tax statements, payment due dates, payment option plans, delinquent tax payments and the tax foreclosure process. The bill also establishes two accounts, funded by proceeds of tax foreclosure sales, to provide counseling services to homeowners at risk of foreclosure.

The second substitute bill addresses these same topics. It makes changes to the content of property tax statements, payment due dates, payment option plans, delinquent tax payments and the tax foreclosure process. It establishes one account, funded by a 50-cent fee on each billable real property account, to provide counseling services, rescue loans and legal assistance to homeowners at risk of foreclosure. A change in the type of services provided to homeowners at risk of foreclosure and a change in the source of funding for those services are perfecting amendments well within the confines of the bill as introduced. The Speaker therefore finds and rules that the second substitute bill does not exceed the scope and object of the original bill. The point of order is not well taken."

The second substitute was adopted.

SECOND SUBSTITUTE HOUSE BILL NO. 1105 was read the second time.

With the consent of the House, amendment (191) was withdrawn.

(b) An additional penalty of eight percent is assessed on the delinquent tax amount on December 1st of the year in which the tax is due.

(c) If a taxpayer is successfully participating in a payment agreement under subsection (12) (b) of this section or a partial payment program pursuant to subsection (13) of this section, the county treasurer may not assess additional penalties on delinquent taxes that are included within the payment agreement. The admission shall occur only if the professional person in charge of the facility concurs with the need for inpatient treatment. Parental authorization, or authorization from a person who may consent on behalf of the minor pursuant to RCW 7.70.065, is required for inpatient treatment of a minor under the age of thirteen.

(2) When, in the judgment of the professional person in charge of an evaluation and treatment facility or approved substance use disorder treatment program, there is reason to believe that a minor is in need of inpatient treatment because of a mental disorder or substance use disorder, and the facility provides the type of evaluation and treatment needed by the minor, and it is not feasible to treat the minor in any less restrictive setting or the minor's home, the minor may be admitted to the facility.

(3) Written renewal of voluntary consent must be obtained from the applicant no less than once every twelve months. The minor's need for continued inpatient treatments shall be reviewed and documented no less than every one hundred eighty days.

Notification efforts under this section shall begin as soon as reasonably practicable, considering the adolescent's immediate medical needs.

(4) Subject to the limitations described in subsection (2) of this section, if there are compelling reasons not to notify the parent or contact with the parent cannot be made, the professional person in charge shall provide notice to the department of children, youth, and families.

Sec. 5. RCW 71.34.520 and 2016 sp.s. c 29 s 262 are each amended to read as follows:

(1) Any ~~((minor thirteen years or older)) adolescent~~ voluntarily admitted to an evaluation and treatment facility or approved substance use disorder treatment program under RCW 71.34.500 may give notice of intent to leave at any time. The notice need not follow any specific form so long as it is written and the intent of the ~~((minor)) adolescent~~ can be discerned.

(2) The staff member receiving the notice shall date it immediately~~((;)) and~~ record its existence in the ~~((minor's)) adolescent's clinical record~~((, and send))~~.~~

(a) If the evaluation and treatment facility is providing the adolescent solely with mental health treatment and not substance use disorder treatment, copies of ((#)) the notice must be sent to the ((minor's)) adolescent's attorney, if any, the designated crisis responders, and the parent.

(b) If the evaluation and treatment facility or substance use disorder treatment program is providing the adolescent with substance use disorder treatment, copies of the notice must be sent to the adolescent's attorney, if any, the designated crisis responders, and the parent only if: (i) The adolescent provides written consent to the disclosure of the adolescent's notice of intent to leave and such other substance use disorder information; or (ii) permitted by federal law.

(3) The professional person shall discharge the ~~((minor, thirteen years or older,)) adolescent~~ from the facility by the second judicial day following receipt of the ~~((minor's)) adolescent's~~ notice of intent to leave.

Any ~~((minor thirteen years or older)) adolescent~~ may request and receive outpatient treatment without the consent of the ~~((minor's)) adolescent's~~ parent. Sec. 7. RCW 71.34.600 and 2018 c 201 s 5013 are each amended to read as follows:

(1) A parent may bring, or authorize the bringing of, his or her ~~((minor))~~ adolescent child to:

(a) An evaluation and treatment facility or an inpatient facility licensed under chapter 70.41, 71.12, or 72.23 RCW and request that the professional person examine the ~~((minor))~~ adolescent to determine whether the ~~((minor))~~ adolescent has a mental disorder and is in need of inpatient treatment; or

(b) A secure detoxification facility or approved substance use disorder treatment program and request that a substance use disorder assessment be conducted by a professional person to determine whether the ~~((minor))~~ adolescent has a substance use disorder and is in need of inpatient treatment.

(2) The consent of the ~~((minor))~~ adolescent is not required for admission, evaluation, and treatment if ~~((the parent brings the minor to the facility))~~ a parent provides consent.

(3) An appropriately trained professional person may evaluate whether the ~~((minor))~~ adolescent has a mental disorder or has a substance use disorder. The evaluation shall be completed within twenty-four hours of the time the ~~((minor))~~ adolescent was brought to the facility, unless the professional person determines that the condition of the ~~((minor))~~ adolescent necessitates additional time for evaluation. In no event shall ~~((a minor))~~ an adolescent be held longer than seventy-two hours for evaluation. If, in the judgment of the professional person, it is determined it is a medical necessity for the ~~((minor))~~ adolescent to receive inpatient treatment, the ~~((minor))~~ adolescent may be held for treatment. The facility shall limit treatment to that which the professional person determines is medically necessary to stabilize the ~~((minor's))~~ adolescent's condition until the evaluation has been completed. Within twenty-four hours of completion of the evaluation, the professional person shall notify the authority if the ~~((child))~~ adolescent is held solely for mental health and not substance use disorder treatment and of the date of admission. The professional person shall provide notice to the authority if the adolescent is held for substance use disorder treatment only if: (a) The adolescent provides written consent to the disclosure of the fact of admission and such other substance use disorder treatment information in the notice; or (b) permitted by federal law.

(4) No provider is obligated to provide treatment to ~~((a minor))~~ an adolescent under the provisions of this section except that no provider may refuse to treat ~~((a minor))~~ an adolescent under the provisions of this section solely on the basis that the ~~((minor))~~ adolescent has not consented to the treatment. No provider may admit ~~((a minor))~~ an adolescent to treatment under this section unless it is medically necessary.

(5) No ~~((minor))~~ adolescent receiving inpatient treatment under this section may be discharged from the facility based solely on his or her request.

(6) Prior to the review conducted under RCW 71.34.610, the professional person shall notify the ~~((minor))~~ adolescent of his or her right to petition superior court for release from the facility.

(7) For the purposes of this section "professional person" means "professional person" as defined in RCW 71.05.020.

Sec. 8. RCW 71.34.610 and 2018 c 201 s 5014 are each amended to read as follows:

(1) The authority shall assure that, for any ~~((minor))~~ adolescent admitted to inpatient treatment under RCW 71.34.600, a review is conducted by a physician or other mental health professional who is employed by the authority, or an agency under contract with the authority, and who neither has a financial interest in continued inpatient treatment of the ~~((minor))~~ adolescent nor is affiliated with the facility providing the treatment. The physician or other mental health professional shall conduct the review not less than seven nor more than fourteen days following the date the ~~((minor))~~ adolescent was brought to the facility under RCW 71.34.600 to determine whether it is a medical necessity to continue the ~~((minor's))~~ adolescent's treatment on an inpatient basis.

(2) In making a determination under subsection (1) of this section, the authority shall consider the opinion of the treatment provider, the safety of the ~~((minor))~~ adolescent, and the likelihood the ~~((minor's))~~ adolescent's mental health will deteriorate if released from inpatient treatment. The authority shall consult with the parent in advance of making its determination.

(3) If, after any review conducted by the authority under this section, the authority determines it is no longer a medical necessity for ~~((a minor))~~ an adolescent to receive inpatient treatment, the authority shall immediately notify the parents and the facility. The facility shall release the ~~((minor))~~ adolescent to the parents within twenty-four hours of receiving notice. If the professional person in charge and the parent believe that it is a medical necessity for the ~~((minor))~~ adolescent to remain in inpatient treatment, the ~~((minor))~~ adolescent shall be released to the parent on the second judicial day following the authority's determination in order to allow the parent time to file an at-risk youth petition under chapter 13.32A RCW. If the authority determines it is a medical necessity for the ~~((minor))~~ adolescent to receive outpatient treatment and the ~~((minor))~~ adolescent declines to obtain such treatment, such refusal shall be grounds for the parent to file an at-risk youth petition.

(4) If the evaluation conducted under RCW 71.34.600 is done by the authority, the reviews required by subsection (1) of this section shall be done by contract with an independent agency.

(5) The authority may, subject to available funds, contract with other governmental agencies to conduct the reviews under this section. The authority may seek reimbursement from the parents, their insurance, or

medicaid for the expense of any review conducted by an agency under contract.

(6) In addition to the review required under this section, the authority may periodically determine and redetermine the medical necessity of treatment for purposes of payment with public funds.

Sec. 9. RCW 71.34.620 and 1998 c 296 s 19 are each amended to read as follows:

Following the review conducted under RCW 71.34.610, ~~((a minor child))~~ an adolescent may petition the superior court for his or her release from the facility. The petition may be filed not sooner than five days following the review. The court shall release the ~~((minor))~~ adolescent unless it finds, upon a preponderance of the evidence, that it is a medical necessity for the ~~((minor))~~ adolescent to remain at the facility.

Sec. 10. RCW 71.34.630 and 2018 c 201 s 5015 are each amended to read as follows:

If the ~~((minor))~~ adolescent is not released as a result of the petition filed under RCW 71.34.620, he or she shall be released not later than thirty days following the later of: (1) The date of the authority's determination under RCW 71.34.610(2); or (2) the filing of a petition for judicial review under RCW 71.34.620, unless a professional person or the designated crisis responder initiates proceedings under this chapter.

Sec. 11. RCW 71.34.640 and 2018 c 201 s 5016 are each amended to read as follows:

The authority shall randomly select and review the information on ~~((children))~~ adolescents who are admitted to inpatient treatment on application of the ~~((child's))~~ adolescent's parent regardless of the source of payment, if any, if the information relates solely to mental health and not substance use disorder treatment. The authority may review a patient's inpatient substance use disorder treatment information only if: (1) The adolescent provides written consent to the review; or (2) permitted by federal law. The review shall determine whether the ~~((children))~~ adolescents reviewed were appropriately admitted into treatment based on an objective evaluation of the ~~((child's))~~ adolescent's condition and the outcome of the ~~((child's))~~ adolescent's treatment.

Sec. 12. RCW 71.34.650 and 2016 sp.s. c 29 s 265 are each amended to read as follows:

(1) A parent may bring, or authorize the bringing of, his or her ~~((minor))~~ adolescent child to:

(2) The consent of the ~~((minor))~~ adolescent is not required for evaluation if ~~((the parent brings the minor to the provider))~~ a parent provides consent.

(3) The professional person may evaluate whether the ~~((minor))~~ adolescent has a mental disorder or substance use disorder and is in need of outpatient treatment.

(4) If a determination is made by a professional person under this section that an adolescent is in need of outpatient mental health or substance use disorder treatment, a parent of an adolescent may request and receive such outpatient treatment for his or her adolescent without the consent of the adolescent for up to twelve outpatient sessions occurring within a three-month period.

(5) Following the treatment periods under subsection (4) of this section, an adolescent must provide his or her consent for further treatment with that specific professional person.

(6) If a determination is made by a professional person under this section that an adolescent is in need of treatment in a less restrictive setting, including partial hospitalization or intensive outpatient treatment, a parent of an adolescent may request and receive such treatment for his or her adolescent without the consent of the adolescent.

(a) A professional person providing solely mental health treatment to an adolescent under this subsection (6) must convene a treatment review at least every thirty days after treatment begins that includes the adolescent, parent, and other treatment team members as appropriate to determine whether continued care under this subsection is medically necessary.

(b) A professional person providing solely mental health treatment to an adolescent under this subsection (6) shall provide notification of the adolescent's treatment to an independent reviewer at the authority within twenty-four hours of the adolescent's first receipt of treatment under this section. At least every forty-five days after the adolescent's first receipt of treatment under this subsection, the authority shall conduct a review to determine whether the current level of treatment is medically necessary.

(c) A professional person providing substance use disorder treatment under this subsection (6) shall convene a treatment review under (a) of this subsection and provide the notification of the adolescent's receipt of treatment to an independent reviewer at the authority as described in (b) of this subsection only if: (i) The adolescent provides written consent to the disclosure of substance use disorder treatment information including the fact of his or her receipt of such treatment; or (ii) permitted by federal law.

(7) Any ~~((minor))~~ adolescent admitted to inpatient treatment under RCW 71.34.500 or 71.34.600 shall be discharged immediately from inpatient treatment upon written request of the parent.

Sec. 14. RCW 71.34.700 and 2016 sp.s. c 29 s 267 are each amended to read as follows:

(1) If ~~((a minor, thirteen years or older,))~~ an adolescent is brought to an evaluation and treatment facility or hospital emergency room for immediate mental health services, the professional person in charge of the facility shall evaluate the ~~((minor's))~~ adolescent's mental condition, determine whether the ~~((minor))~~ adolescent suffers from a mental disorder, and whether the ~~((minor))~~ adolescent is in need of immediate inpatient treatment.

(2) If ~~((a minor, thirteen years or older,))~~ an adolescent is brought to a secure detoxification facility with available space, or a hospital emergency room for immediate substance use disorder treatment, the professional person in charge of the facility shall evaluate the ~~((minor's))~~ adolescent's condition, determine whether the ~~((minor))~~ adolescent suffers from a substance use disorder, and whether the ~~((minor))~~ adolescent is in need of immediate inpatient treatment.

(3) If it is determined under subsection (1) or (2) of this section that the ~~((minor))~~ adolescent suffers from a mental disorder or substance use disorder, inpatient treatment is required, the ~~((minor))~~ adolescent is unwilling to consent to voluntary admission, and the professional person believes that the ~~((minor))~~ adolescent meets the criteria for initial detention set forth herein, the facility may detain or arrange for the detention of the ~~((minor))~~ adolescent for up to twelve hours in order to enable a designated crisis responder to evaluate the ~~((minor))~~ adolescent and commence initial detention proceedings under the provisions of this chapter.

Sec. 15. RCW 71.34.700 and 2016 sp.s. c 29 s 268 are each amended to read as follows:

(1) If ~~((a minor, thirteen years or older,))~~ an adolescent is brought to an evaluation and treatment facility or hospital emergency room for immediate mental health services, the professional person in charge of the facility shall evaluate the ~~((minor's))~~ adolescent's mental condition, determine whether the ~~((minor))~~ adolescent suffers from a mental disorder, and whether the ~~((minor))~~ adolescent is in need of immediate inpatient treatment.

(2) If ~~((a minor, thirteen years or older,))~~ an adolescent is brought to a secure detoxification facility or a hospital emergency room for immediate substance use disorder treatment, the professional person in charge of the facility shall evaluate the ~~((minor's))~~ adolescent's condition, determine whether the ~~((minor))~~ adolescent suffers from a substance use disorder, and whether the ~~((minor))~~ adolescent is in need of immediate inpatient treatment.

(2) In the event a mental health professional discloses information and records related solely to mental health services of an adolescent to a parent pursuant to RCW 70.02.240(3), the mental health professional must provide notice of this disclosure to the adolescent and the adolescent must have ample opportunity to express any concerns about this disclosure to the mental health professional well in advance of action to disclose information and records related solely to mental health services. The mental health professional shall document any objections to disclosure in the adolescent's medical record if the mental health professional discloses information and records related solely to mental health services over the objection of the adolescent.

(3) If the mental health professional determines that disclosure of information and records related solely to mental health services pursuant to RCW 70.02.240(3) would be detrimental to the adolescent and declines to disclose such information or records, the mental health professional shall document the reasons for the lack of disclosure in the adolescent's medical record.

(4) Information about an adolescent's substance use disorder evaluation or treatment may only be provided to a parent without the written consent of the adolescent if permitted by federal law. A mental health professional or chemical dependency professional providing substance use disorder treatment to an adolescent may seek the written consent of the adolescent to provide substance use disorder treatment information to a parent who is involved in the treatment of the adolescent when the mental health professional or chemical dependency professional determines that both seeking the written consent and sharing the substance use disorder treatment information of the adolescent would not be detrimental to the adolescent.

(5) A mental health professional providing inpatient or outpatient mental health treatment is not civilly liable for the decision to disclose information and records related to mental health services or not disclose such information and

records so long as the decision was reached in good faith and without gross negligence.

(6) A chemical dependency professional or mental health professional providing inpatient or outpatient substance use disorder treatment is not civilly liable for the decision to disclose information and records related to substance use disorder treatment information or not disclose such information and records to a parent without an adolescent's consent pursuant to this section only if permitted by federal law, and so long as the decision was reached in good faith and without gross negligence.

Each report must include the committee's recommendations regarding whether the occupational regulations should be terminated, continued, or modified.

(2) The committee may require the submission of information by the department of licensing and other affected or interested parties.

(3) The committee's report must include, but not be limited to, the following:

(a) For the immediately preceding five calendar years, or for the period of time less than five years for which the information is practically available, the number of permanent cosmetics licenses the department of licensing has issued, revoked, denied, or assessed penalties against and the reasons for the revocations, denials, and other penalties;

(b) A review of the basic assumptions underlying the creation of the occupational regulations;

(c) A statement from the department of licensing on the effectiveness of the occupational regulations; and

(d) A comparison of whether and how other states regulate the occupation.

(4) Each committee shall also analyze, and include in its report, whether the occupational regulations:

(a) Protect the fundamental right of an individual to pursue a lawful occupation;

(b) Use the least restrictive regulation necessary to protect consumers from undue risks of present, significant, and substantiated harms that clearly threaten or endanger the health, safety, or welfare of the public when competition alone is not sufficient and in a manner that is consistent with the public interest;

(c) Enforce occupational regulations against an individual only to the extent that the individual provided

services that are included explicitly in the statutes that govern the occupation; and

(d) Construe and apply occupational regulations to increase opportunities, promote competition, and encourage innovation.

(5) The committee shall consider the following courses of action in developing any recommendations included in its report:

(d) If the need is to protect a person who is not party to a contract between the provider and consumer, the recommended course of action is to require that the provider have insurance;

(e) If the need is to protect consumers against potential damages by transient providers, the recommended course of action is to require that providers register their businesses with the state;

(f) If the need is to protect consumers against a shortfall or imbalance of knowledge about the goods or services relative to the providers' knowledge, the recommended course of action is to require government certification; and

(g) If the need is to address a systematic information shortfall such that a reasonable consumer is unable to distinguish between the quality of providers, there is an absence of institutions that provide adequate guidance to the consumer, and the consumer's inability to distinguish between providers and the lack of adequate guidance allows for undue risk of present, significant, and substantiated harms, the recommended course of action is to require an occupational license.

(6) The committee shall include in its report a review and analysis of the hours or other amount of education, training, or experience required to ensure such requirements are as least restrictive as necessary to protect the public's health, safety, and welfare.

(7) If the committee finds that it is necessary to change occupational regulations, the committee shall recommend the least restrictive regulation consistent with the public interest and the policies in this section.

SUBSTITUTE HOUSE BILL NO. 1569 was read the second time.

Representative Ramos moved the adoption of the striking amendment (234):

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. (1) The legislature finds and declares that it is the public policy of the state that:

(a) Environmental marketing claims for plastic products, whether implicit or implied, should adhere to uniform and recognized standards for "compostability" and "biodegradability," since misleading, confusing, and deceptive labeling can negatively impact local composting programs and compost processors. Plastic products marketed as being "compostable" should be readily and easily identifiable as meeting these standards;

(b) Legitimate and responsible packaging and plastic product manufacturers are already properly labeling their compostable products, but many manufacturers are not. Not all compost facilities and their associated processing technologies accept or are required to accept compostable packaging as feedstocks. However, implementing a standardized system and test methods may create the ability for them to take these products in the future.

(2) Therefore, it is the intent of the legislature to authorize the state's attorney general and local governments to pursue false or misleading environmental claims and "greenwashing" for plastic products claiming to be "compostable" or "biodegradable" when in fact they are not.

(2) Any civil penalties collected pursuant to this section must be paid to the office of the city attorney, city prosecutor, district attorney, or attorney general, whichever office brought the action. Penalties collected by the attorney

general on behalf of the state must be deposited in the compostable products revolving account created in section 11 of this act.

(3) The remedies provided by this section are not exclusive and are in addition to the remedies that may be available pursuant to chapter 19.86 RCW or other consumer protection laws, if applicable.

(4) In addition to penalties recovered under this section, the enforcing government entity may recover reasonable enforcement costs and attorneys' fees from the liable manufacturer or supplier.

NEW SECTION. Sec. 10. Manufacturers and suppliers who violate the requirements of this chapter are subject to civil penalties described in section 9 of this act. A specific violation is deemed to have occurred upon the sale of noncompliant product by stock-keeping unit number or unique item number. The repeated sale of the same noncompliant product by stock-keeping unit number or unique item number is considered a single violation. A city, county, or the state must send a written notice and a copy of the requirements to a noncompliant manufacturer or supplier of an alleged violation, who will have ninety days to become compliant. A city, county, or the state may assess a first penalty if the manufacturer or supplier has not met the requirements ninety days following the date the notification was sent. A city, county, or the state may impose second, third, and subsequent penalties on a manufacturer or supplier that remains noncompliant with the requirements of this chapter for every month of noncompliance.

NEW SECTION. Sec. 11. The compostable products revolving account is created in the custody of the state treasurer. Only the attorney general or the attorney general's designee may authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures.

Strike everything after the enacting clause and insert the following:

"**Sec. 1.** RCW 66.24.010 and 2012 c 39 s 4 are each amended to read as follows:

(1) Every license must be issued in the name of the applicant, and the holder thereof may not allow any other person to use the license.

(2) For the purpose of considering any application for a license, or the renewal of a license, the board may cause an inspection of the premises to be made, and may inquire into all matters in connection with the construction and operation of the premises. For the purpose of reviewing any application for a license and for considering the denial, suspension, revocation, or renewal or denial thereof, of any license, the ~~((liquor control))~~ board may consider any prior criminal conduct of the applicant including an administrative violation history record with the board and a criminal history record information check. The board may submit the criminal history record information check to the Washington state patrol and to the identification division of the federal bureau of investigation in order that these agencies may search their records for prior arrests and convictions of the individual or individuals who filled out the forms. The board must require fingerprinting of any applicant whose criminal history record information check is submitted to the federal bureau of investigation. The provisions of RCW 9.95.240 and of chapter 9.96A RCW do not apply to such cases. Subject to the provisions of this section, the board may, in its discretion, grant or deny the renewal or license applied for. Denial may be based on, without limitation, the existence of chronic illegal activity documented in objections submitted pursuant to subsections (8)(d) and (12) of this section. Authority to approve an uncontested or unopposed license may be granted by the board to any staff member the board designates in writing. Conditions for granting such authority must be adopted by rule. No retail license of any kind may be issued to:

(a) A person doing business as a sole proprietor who has not resided in the state for at least one month prior to receiving a license, except in cases of licenses issued to dining places on railroads, boats, or aircraft;

(b) A copartnership, unless all of the members thereof are qualified to obtain a license, as provided in this section;

(c) A person whose place of business is conducted by a manager or agent, unless such manager or agent possesses the same qualifications required of the licensee;

(d) A corporation or a limited liability company, unless it was created under the laws of the state of Washington or holds a certificate of authority to transact business in the state of Washington.

(3)(a) The board may, in its discretion, subject to the provisions of RCW 66.08.150, suspend or cancel any license; and all rights of the licensee to keep or sell liquor thereunder must be suspended or terminated, as the case may be.

(b) The board must immediately suspend the license or certificate of a person who has been certified pursuant to RCW 74.20A.320 by the department of social and health services as a person who is not in compliance with a support order. If the person has continued to meet all other requirements for reinstatement during the suspension, reissuance of the license or certificate is automatic upon the board's receipt of a release issued by the department of social and health services stating that the licensee is in compliance with the order.

(c) Upon written notification by the department of revenue in accordance with RCW 82.08.155 that a person is more than thirty days delinquent in reporting or remitting spirits taxes to the department, the board must suspend all spirits licenses held by that person. The board must also refuse to renew any existing spirits license of, or issue any new spirits license to, the person or any other applicant controlled directly or indirectly by that person. The board may not reinstate a person's spirits license or renew or issue a new spirits license to that person, or an applicant controlled directly or indirectly by that person, until such time as the department of revenue notifies the board that the person is current in reporting and remitting spirits taxes or that the department consents to the reinstatement or renewal of the person's spirits license or the issuance of a new spirits license to the person. For purposes of this section: (i) "Spirits license" means any license issued by the board under the authority of this chapter that authorizes the licensee to sell spirits; and (ii) "spirits taxes" has the same meaning as in RCW 82.08.155.

(d) The board may request the appointment of administrative law judges under chapter 34.12 RCW who must have power to administer oaths, issue subpoenas for the attendance of witnesses and the production of papers, books, accounts, documents, and testimony, examine witnesses, and to receive testimony in any inquiry, investigation, hearing, or proceeding in any part of the state, under such rules and regulations as the board may adopt.

(e) Witnesses are allowed fees and mileage each way to and from any such inquiry, investigation, hearing, or proceeding at the rate authorized by RCW 34.05.446. Fees need not be paid in advance of appearance of witnesses to testify or to produce books, records, or other legal evidence.

(f) In case of disobedience of any person to comply with the order of the board or a subpoena issued by the board, or any of its members, or administrative law judges, or on the refusal of a witness to testify to any matter regarding which he or she may be lawfully interrogated, the judge of the superior court of the county in which the person resides, on application of any member of the board or administrative law judge, must compel obedience by contempt proceedings, as in the case of disobedience of the requirements of a subpoena issued from said court or a refusal to testify therein.

(4) Upon receipt of notice of the suspension or cancellation of a license, the licensee must forthwith deliver up the license to the board. Where the license has been suspended only, the board must return the license to the licensee at the expiration or termination of the period of suspension. The board must notify all vendors in the city or place where the licensee has its premises of the suspension or cancellation of the license; and no employee may allow or cause any liquor to be delivered to or for any person at the premises of that licensee.

(5)(a) ~~((At the time of))~~ For the original issuance of a ~~((spirits, beer, and wine restaurant))~~ liquor license, including the approval of a conditional license as provided in (b) of this subsection, the board must ~~((prorate the license fee charged to the new licensee according to the number of calendar quarters, or portion thereof, remaining until the first renewal of that license is required.~~

~~(b) Unless sooner canceled, every license issued by the board must expire at midnight of the thirtieth day of June of the fiscal year for which it was issued. However, if the board deems it feasible and desirable to do so, it may establish, by rule pursuant to chapter 34.05 RCW, a system for staggering the annual renewal dates for any and all licenses authorized by this chapter. If such a system of staggered annual renewal dates is established by the board, the license fees provided by this chapter must be appropriately prorated during the first year that the system is in effect.)~~ set the expiration date of the license to the last day of the calendar month that is twelve months from the calendar month in which final approval of the license is granted. Upon renewal, the expiration date of the license, including licenses approved under (b) of this subsection, may subsequently be prorated as necessary in accordance with chapter 19.02 RCW.

(b)(i) When an applicant for a liquor license is qualified for approval of the license in every way except having executed a lease or purchase agreement for the proposed licensed premises, the board must grant conditional approval to the applicant.

(ii) Upon notification to the board of execution of the lease or purchase agreement putting the applicant in control of the premises, the board must immediately grant final approval of the license issuance, and the licensee may

immediately begin exercising all privileges provided under the license, except as otherwise provided under this title.

(iii) For the purposes of this title, the term "license" includes "conditional license."

(6) Every license issued under this section is subject to all conditions and restrictions imposed by this title or by rules adopted by the board. All conditions and restrictions imposed by the board in the issuance of an individual license may be listed on the face of the individual license along with the trade name, address, and expiration date. Conditions and restrictions imposed by the board may also be included in official correspondence separate from the license. All spirits licenses are subject to the condition that the spirits license holder must report and remit to the department of revenue all spirits taxes by the date due.

(7) Every licensee must post and keep posted its license, or licenses, and any additional correspondence containing conditions and restrictions imposed by the board in a conspicuous place on the premises.

(8)(a) Unless (b) of this subsection applies, before the board issues a new or renewal license to an applicant it must give notice of such application to the chief executive officer of the incorporated city or town, if the application is for a license within an incorporated city or town, or to the county legislative authority, if the application is for a license outside the boundaries of incorporated cities or towns.

(b) If the application for a special occasion license is for an event held during a county, district, or area fair as defined by RCW 15.76.120, and the county, district, or area fair is located on property owned by the county but located within an incorporated city or town, the county legislative authority must be the entity notified by the board under (a) of this subsection. The board must send a duplicate notice to the incorporated city or town within which the fair is located.

(c) The incorporated city or town through the official or employee selected by it, or the county legislative authority or the official or employee selected by it, has the right to file with the board within twenty days after the date of transmittal of such notice for applications, or at least thirty days prior to the expiration date for renewals, written objections against the applicant or against the premises for which the new or renewal license is asked. The board may extend the time period for submitting written objections.

(d) The written objections must include a statement of all facts upon which such objections are based, and in case written objections are filed, the city or town or county legislative authority may request and the ~~((liquor control))~~ board may in its discretion hold a hearing subject to the applicable provisions of Title 34 RCW. If the board makes an initial decision to deny a license or renewal based on the written objections of an incorporated city or town or county legislative authority, the applicant may request a hearing subject to the applicable provisions of Title 34 RCW. If such a hearing is held at the request of the applicant, ~~((liquor control))~~ board representatives must present and defend the board's initial decision to deny a license or renewal.

(e) Upon the granting of a license under this title the board must send written notification to the chief executive officer of the incorporated city or town in which the license is granted, or to the county legislative authority if the license is granted outside the boundaries of incorporated cities or towns. When the license is for a special occasion license for an event held during a county, district, or area fair as defined by RCW 15.76.120, and the county, district, or area fair is located on county-owned property but located within an incorporated city or town, the written notification must be sent to both the incorporated city or town and the county legislative authority.

(9)(a) Before the board issues any license to any applicant, it shall give (i) due consideration to the location of the business to be conducted under such license with respect to the proximity of churches, schools, and public institutions and (ii) written notice, with receipt verification, of the application to public institutions identified by the board as appropriate to receive such notice, churches, and schools within five hundred feet of the premises to be licensed. The board may not issue a liquor license for either on-premises or off-premises consumption covering any premises not now licensed, if such premises are within five hundred feet of the premises of any tax-supported public elementary or secondary school measured along the most direct route over or across established public walks, streets, or other public passageway from the main entrance of the school to the nearest public entrance of the premises proposed for license, and if, after receipt by the school of the notice as provided in this subsection, the board receives written objection, within twenty days after receiving such notice, from an official representative or representatives of the school within five hundred feet of said proposed licensed premises, indicating to the board that there is an objection to the issuance of such license because of proximity to a school. The board may extend the time period for submitting objections. For the purpose of this section, "church" means a building erected for and used exclusively for religious worship and schooling or other activity in connection therewith. For the purpose of this section, "public institution" means institutions of higher education, parks, community centers, libraries, and transit centers.

(b) No liquor license may be issued or reissued by the board to any motor sports facility or licensee operating within the motor sports facility unless the motor sports facility enforces a program reasonably calculated to prevent alcohol or alcoholic beverages not purchased within the facility from entering the facility and such program is approved by local law enforcement agencies.

(c) It is the intent under this subsection (9) that a retail license may not be issued by the board where doing so would, in the judgment of the board, adversely affect a private school meeting the requirements for private schools under Title 28A RCW, which school is within five hundred feet of the proposed licensee. The board must fully consider and give substantial weight to objections filed by private schools. If a license is issued despite the proximity of a private school, the board must state in a letter addressed to the private school the board's reasons for issuing the license.

(10) The restrictions set forth in subsection (9) of this section do not prohibit the board from authorizing the assumption of existing licenses now located within the restricted area by other persons or licenses or relocations of existing licensed premises within the restricted area. In no case may the licensed premises be moved closer to a church or school than it was before the assumption or relocation.

(11)(a) Nothing in this section prohibits the board, in its discretion, from issuing a temporary retail or distributor license to an applicant to operate the retail or distributor premises during the period the application for the license is pending. The board may establish a fee for a temporary license by rule.

(b) A temporary license issued by the board under this section must be for a period not to exceed sixty days. A temporary license may be extended at the discretion of the board for additional periods of sixty days upon payment of an additional fee and upon compliance with all conditions required in this section.

(c) Refusal by the board to issue or extend a temporary license shall not entitle the applicant to request a hearing. A temporary license may be canceled or suspended summarily at any time if the board determines that good cause for cancellation or suspension exists. RCW 66.08.130 applies to temporary licenses.

(d) Application for a temporary license must be on such form as the board shall prescribe. If an application for a temporary license is withdrawn before issuance or is refused by the board, the fee which accompanied such application must be refunded in full.

(12) In determining whether to grant or deny a license or renewal of any license, the board must give substantial weight to objections from an incorporated city or town or county legislative authority based upon chronic illegal activity associated with the applicant's operations of the premises proposed to be licensed or the applicant's operation of any other licensed premises, or the conduct of the applicant's patrons inside or outside the licensed premises. "Chronic illegal activity" means (a) a pervasive pattern of activity that threatens the public health, safety, and welfare of the city, town, or county including, but not limited to, open container violations, assaults, disturbances, disorderly conduct, or other criminal law violations, or as documented in crime statistics, police reports, emergency medical response data, calls for service, field data, or similar records of a law enforcement agency for the city, town, county, or any other municipal corporation or any state agency; or (b) an unreasonably high number of citations for violations of RCW 46.61.502 associated with the applicant's or licensee's operation of any licensed premises as indicated by the reported statements given to law enforcement upon arrest.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. A new section is added to chapter 4.24 RCW to read as follows:

(1) The legislature finds and declares application of this section to pending claims and actions clarifies existing state law rather than changes it. Public employees who paid agency or fair share fees as a condition of public employment in accordance with state law and supreme court precedent before June 27, 2018, had no legitimate expectation of receiving that money under any available cause of action. Public employers and employee organizations who relied on, and abided by, state law and supreme court precedent in deducting and accepting those fees were not liable to refund them. Agency or fair share fees paid for collective bargaining representation that employee organizations were obligated by state law to provide to public employees. Application of this section to pending claims will preserve, rather than interfere with, important reliance interests.

(2) Public employers and an employee organization, or any of their employees or agents, are not liable for, and have a complete defense to, any claims or actions under the law of this state for requiring, deducting, receiving, or retaining agency or fair share fees from public employees, and current or former public employees do not have standing to pursue these claims or actions, if the fees were permitted at the time under the laws of this state then in force and paid, through payroll deduction or otherwise, before June 27, 2018.

(a) This section applies to all claims and actions pending on the effective date of this section, and to claims and actions filed on or after the effective date of this section.

(b) This section may not be interpreted to infer that any relief made unavailable by this section would otherwise be available.

(3) This section is necessary to provide certainty to public employers and employee organizations that relied on state law, and to avoid disruption of public employee labor relations, after the supreme court's decision in *Janus v.*

American Federation of State, County, and Municipal Employees, Council 31 (2018) 138 S.Ct. 2448.

(4) For purposes of this section:

(a) "Employee organization" means any organization that functioned as an exclusive collective bargaining representative for public employees under any statute, ordinance, regulation, or other state or local law, and any labor organization with which it was affiliated.

(b) "Public employer" means any public employer including, but not limited to, the state, a court, a city, a county, a city and county, a school district, a community college district, an institution of higher education and its board or regents, a transit district, any public authority, any public agency, any other political subdivision or public corporation, or any other entity considered a public employer for purposes of the labor relations statutes of Washington.

Sec. 2. RCW 28B.52.020 and 1991 c 238 s 146 are each amended to read as follows:

As used in this chapter:

(1) "Employee organization" means any organization which includes as members the academic employees of a college district and which has as one of its purposes the representation of the employees in their employment relations with the college district.

(2) "Academic employee" means any teacher, counselor, librarian, or department head, who is employed by any college district, whether full or part time, with the exception of the chief administrative officer of, and any administrator in, each college district.

(3) "Administrator" means any person employed either full or part time by the college district and who performs administrative functions as at least fifty percent or more of his or her assignments, and has responsibilities to hire, dismiss, or discipline other employees. Administrators shall not be members of the bargaining unit unless a majority of such administrators and a majority of the bargaining unit elect by secret ballot for such inclusion pursuant to rules as adopted in accordance with RCW 28B.52.080.

(4) "Commission" means the public employment relations commission.

(5) "Unfair labor practice" means any unfair labor practice listed in RCW 28B.52.073.

(6) (~~"Union security provision" means a provision in a collective bargaining agreement under which some or all employees in the bargaining unit may be required, as a condition of continued employment on or after the thirtieth day following the beginning of such employment or the effective date of the provision, whichever is later, to become a member of the exclusive bargaining representative or pay an agency fee equal to the periodic dues and initiation fees uniformly required as a condition of acquiring or retaining membership in the exclusive bargaining representative.~~

(7)) "Exclusive bargaining representative" means any employee organization which has:

(a) Been certified or recognized under this chapter as the representative of the employees in an appropriate collective bargaining unit; or

(b) Before July 26, 1987, been certified or recognized under a predecessor statute as the representative of the employees in a bargaining unit which continues to be appropriate under this chapter.

~~((8))~~ (7) "Collective bargaining" and "bargaining" mean the performance of the mutual obligation of the representatives of the employer and the exclusive bargaining representative to meet at reasonable times to bargain in good faith in an effort to reach agreement with respect to wages, hours, and other terms and conditions of employment, such as procedures related to nonretention, dismissal, denial of tenure, and reduction in force. Prior law, practice, or interpretation shall be neither restrictive, expansive, nor determinative with respect to the scope of bargaining. A written contract incorporating any agreements reached shall be executed if requested by either party. The obligation to bargain does not compel either party to agree to a proposal or to make a concession.

In the event of a dispute between an employer and an exclusive bargaining representative over the matters that are terms and conditions of employment, the commission shall decide which items are mandatory subjects for bargaining.

Sec. 3. RCW 28B.52.030 and 1991 c 238 s 147 are each amended to read as follows:

Representatives of an employee organization, which organization shall by secret ballot have won a majority in an election to represent the academic employees within its college district, shall have the right to bargain ~~((as defined in RCW 28B.52.020(8)))~~.

Sec. 4. RCW 28B.52.025 and 1987 c 314 s 5 are each amended to read as follows:

Employees have the right to self-organization, to form, join, or assist employee organizations, to bargain collectively through representatives of their own choosing, and also have the right to refrain from any or all of these activities ~~((except to the extent that employees may be required to make payments to an exclusive bargaining representative or charitable organization under a union security provision authorized in this chapter))~~.

NEW SECTION. **Sec. 5.** A new section is added to chapter 28B.52 RCW to read as follows:

(1)(a) An employee's written, electronic, or recorded voice authorization to have the employer deduct membership dues from the employee's salary must be made by the employee to the employer. If the employer receives an authorization of deductions, the employer shall as soon as

practicable forward a copy to the exclusive bargaining representative.

(b) Upon receiving the employee's authorization, the employer shall deduct from the employee's salary membership dues and remit the amounts to the exclusive bargaining representative.

(c) The employee's authorization remains in effect until expressly revoked by the employee in accordance with the terms and conditions of the authorization.

(2)(a) An employee's request to revoke authorization for payroll deductions must be in writing and submitted by the employee to the employer.

(b) After the employer receives an employee's deduction authorization revocation, the employer shall end the deduction effective on the first payroll after receipt of the revocation.

Sec. 6. RCW 28B.52.045 and 2018 c 247 s 1 are each amended to read as follows:

~~(1)((a) A collective bargaining agreement may include union security provisions, but not a closed shop.~~

~~(b))~~ Upon ~~((written))~~ authorization of an employee within the bargaining unit and after the certification or recognition of the bargaining unit's exclusive bargaining representative, the employer must deduct from the payments to the employee the monthly amount of dues as certified by the secretary of the exclusive bargaining representative and must transmit the same to the treasurer of the exclusive bargaining representative.

~~((e))~~ (2) If the employer and the exclusive bargaining representative of a bargaining unit enter into a collective bargaining agreement that~~(:~~

~~(i) Includes a union security provision authorized under (a) of this subsection, the employer must enforce the agreement by deducting from the payments to bargaining unit members the dues required for membership in the exclusive bargaining representative, or, for nonmembers thereof, a fee equivalent to the dues; or~~

~~(ii))~~ includes requirements for deductions of other payments ~~((other than the deduction under (e)(i) of this subsection))~~, the employer must make such deductions upon ~~((written))~~ authorization of the employee.

~~((2) An employee who is covered by a union security provision and who asserts a right of nonassociation based on bona fide religious tenets or teachings of a church or religious body of which such employee is a member shall pay to a nonreligious charity or other charitable organization an amount of money equivalent to the periodic dues and initiation fees uniformly required as a condition of acquiring or retaining membership in the exclusive bargaining representative. The employee shall furnish written proof that such payments have been made. If the employee and the employee~~

~~organization do not reach agreement on such matter, the commission shall designate the charitable organization.)~~

Sec. 7. RCW 41.56.060 and 2005 c 232 s 1 are each amended to read as follows:

(1) The commission, after hearing upon reasonable notice, shall decide in each application for certification as an exclusive bargaining representative, the unit appropriate for the purpose of collective bargaining. In determining, modifying, or combining the bargaining unit, the commission shall consider the duties, skills, and working conditions of the public employees; the history of collective bargaining by the public employees and their bargaining representatives; the extent of organization among the public employees; and the desire of the public employees. The commission shall determine the bargaining representative by: (a) Examination of organization membership rolls; (b) comparison of signatures on organization bargaining authorization cards, as provided under section 8 of this act; or (c) conducting an election specifically therefor.

(2) For classified employees of school districts and educational service districts:

(a) Appropriate bargaining units existing on July 24, 2005, may not be divided into more than one unit without the agreement of the public employer and the certified bargaining representative of the unit; and

(b) In making bargaining unit determinations under this section, the commission must consider, in addition to the factors listed in subsection (1) of this section, the avoidance of excessive fragmentation.

NEW SECTION. Sec. 8. A new section is added to chapter 41.56 RCW to read as follows:

(1) Except as provided under subsection (2) of this section, if only one employee organization is seeking certification as the exclusive bargaining representative of a bargaining unit for which there is no incumbent exclusive bargaining representative, the commission may determine the question concerning representation by conducting a cross-check comparing the employee organization's membership records or bargaining authorization cards against the employment records of the employer. A determination through a cross-check process may be made upon a showing of interest submitted in support of the exclusive bargaining representative by more than fifty percent of the employees. SUBSTITUTE HOUSE BILL NO. 2097 was read the second time.

Representative Kretz moved the adoption of the striking amendment (241):

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. (1) It is the legislature's intent to support full recovery of gray wolves in Washington state in accordance with the department of fish and wildlife's 2011 wolf recovery and management plan and state law. It is also the legislature's intent to support the livestock industry and rural lifestyles and ensure that state agencies and residents have the tools necessary to support coexistence with wolves.

(2) The wolf plan requires that the department of fish and wildlife conduct a review of the effectiveness of the plan's implementation every five years. The legislature finds that because the regional recovery goals have been exceeded in the eastern Washington recovery region, but not yet in other regions, it is timely for the department of fish and wildlife to conduct a periodic status review and recommend to the state fish and wildlife commission whether a change in status is warranted.

(3) Furthermore, the legislature recognizes that management of wolf-livestock conflict is key to both wolf recovery and public acceptance of wolves in rural areas and that as the wolf population grows, and even after it achieves recovery, stable and adequate funding for nonlethal wolf deterrence will be needed to support livestock producers and the livestock industry and minimize the need for lethal removal of wolves. As such, it is the intent of the legislature, regardless of the listing status of gray wolves, to continue to sufficiently fund nonlethal deterrents for minimizing depredation of livestock by wolves. Proactive deterrence and community collaboration, as set forth in RCW 16.76.020, are necessary to reduce conflict between wolves and livestock and will be important for maintaining the economic viability of the livestock industry, the state's wolf populations, and public acceptance of wolves in northeast Washington after wolves have recovered and have been delisted.

(4) Further, the legislature intends to expand funding and personnel resources in the department of fish and wildlife for similar nonlethal deterrent efforts to mitigate

conflicts statewide, as wolves recover in the remainder of the state beyond northeast Washington.

NEW SECTION. Sec. 2. (1) The state department of fish and wildlife shall immediately review the listing status of the gray wolf, *Canis lupus*. The review must determine if Washington's wolf population is no longer in danger of failing, declining, or no longer vulnerable to limited numbers, disease, predation, habitat loss or change, or exploitation, and must examine the relationship between wolf population levels in the eastern Washington recovery region and their role in wolf colonization in the remaining recovery regions. The review required in this section must be based solely on the numerical biological status and preponderance of scientific data available. The department must complete the review by February 29, 2020.

(2) If the review required under subsection (1) of this section finds that the gray wolf is no longer in danger of failing, declining, or no longer vulnerable to limited numbers, disease, predation, habitat loss or change, or exploitation, the state fish and wildlife commission shall consider whether a change in listing status is warranted.

(3) The state fish and wildlife commission's consideration of the listing status of gray wolves as required by this section must be completed by August 31, 2020.

NEW SECTION. Sec. 3. A new section is added to chapter 77.12 RCW to read as follows:

(1) The department shall implement conflict mitigation guidelines that distinguish between wolf recovery regions, identified in the 2011 wolf conservation and management plan, that are at or above the regional recovery objective and wolf recovery regions that are below the regional recovery objective. In developing conflict management guidelines, the department shall consider the provisions of its 2011 wolf recovery and management plan. This section only applies when the commission has designated wolves as either an endangered or protected species under RCW 77.12.020.

(2) For the purposes of this section, "protected species" means species classified as either threatened or endangered by the commission.

NEW SECTION. Sec. 4. A new section is added to chapter 77.36 RCW to read as follows:

The department shall maintain sufficient staff resources in Ferry and Stevens counties for response to wolf-livestock conflict on an ongoing basis and for coordination with livestock producers on the continued implementation of proactive nonlethal deterrents.

Sec. 5. RCW 16.76.020 and 2017 c 257 s 3 are each amended to read as follows:

(1) The northeast Washington wolf-livestock management grant is created within the department. Funds

from the grant program must be used only for the deployment of nonlethal deterrence resources in any Washington county east of the crest of the Cascade mountain range that shares a border with Canada, including human presence, and locally owned and deliberately located equipment and tools.

(2)(a) A four-member advisory board is established to advise the department on the expenditure of the northeast Washington wolf-livestock management grant funds. Advisory board members must be knowledgeable about wolf depredation issues, and have a special interest in the use of nonlethal wolf management techniques. Board members are unpaid, are not state employees, and are not eligible for reimbursement for subsistence, lodging, or travel expenses incurred in the performance of their duties as board members. The director must appoint each member to the board for a term of two years. Board members may be reappointed for subsequent two-year terms. The following board members must be appointed by the director in consultation with each applicable conservation district and the legislators in the legislative district encompassing each county:

(i) One Ferry county conservation district board member or staff member;

(ii) One Stevens county conservation district board member or staff member;

(iii) One Pend Oreille conservation district board member or staff member; and

(iv) One Okanogan conservation district board member or staff member.

(b) If no board member or staff member qualifies under this section, the director must appoint a resident of the applicable county to serve on the board.

(c) Board members may not:

(i) Directly benefit, in whole or in part, from any contract entered into or grant awarded under this section; or

(ii) Directly accept any compensation, gratuity, or reward in connection with such a contract from any other person with a beneficial interest in the contract.

(3) The board must help direct funding for the deployment of nonlethal deterrence resources, including human presence, and locally owned and deliberately located equipment and tools. Funds may only be distributed to nonprofit community-based collaborative organizations that have advisory boards that include personnel from relevant agencies including, but not limited to, the United States forest service and the Washington department of fish and wildlife(~~(- or to individuals that are willing to receive technical assistance from the same agencies)).~~).

NEW SECTION. Sec. 6. If specific funding for the purposes of this act, referencing this act by bill or chapter number, is not provided by June 30, 2019, in the omnibus appropriations act, this act is null and void."

(1) Except as provided in subsection (7) of this section, after the expiration of three years from the date of delinquency, when any property remains on the tax rolls for which no certificate of delinquency has been issued, the county treasurer must proceed to issue certificates of delinquency on the property to the county for all years' taxes, interest, and costs. However, the county treasurer, with the consent of the county legislative authority, may elect to issue a certificate for fewer than all years' taxes, interest, and costs to a minimum of the taxes, interest, and costs for the earliest year.

(2) Certificates of delinquency are prima facie evidence that:

- (a) The property described was subject to taxation at the time the same was assessed;
- (b) The property was assessed as required by law;
- (c) The taxes or assessments were not paid at any time before the issuance of the certificate;
- (d) Such certificate has the same force and effect as a lis pendens required under chapter 4.28 RCW.

(3) The county treasurer may include in the certificate of delinquency any assessments which are due on the property and are the responsibility of the county treasurer to collect. However, if the department of revenue has previously notified the county treasurer in writing that the property has a lien on it for deferred property taxes, the county treasurer must include in the certificate of delinquency any amounts deferred under chapters 84.37 and 84.38 RCW that remain unpaid, including accrued interest and costs.

(4) The treasurer must file the certificates when completed with the clerk of the court at no cost to the treasurer, and the treasurer must thereupon, with legal assistance from the county prosecuting attorney, proceed to foreclose in the name of the county, the tax liens embraced in such certificates. Notice and summons must be served or notice given in a manner reasonably calculated to inform the owner or owners, and any person having a recorded interest in or lien of record upon the property, of the foreclosure action to appear within thirty days after service of such notice and defend such action or pay the amount due. Either (a) personal service upon the owner or owners and any person having a recorded interest in or lien of record upon the property, or (b) publication once in a newspaper of general circulation, which is circulated in the area of the property and mailing of notice by certified mail to the owner or owners and any person having a recorded interest in or lien of record upon the property, or, if a mailing address is unavailable, personal service upon the occupant of the property, if any, is sufficient. If such notice is returned as unclaimed, the treasurer must send notice by regular first-

class mail. The notice must include the legal description on the tax rolls, the year or years for which assessed, the amount of tax and interest due, and the name of owner, or reputed owner, if known, and the notice must include the local street address, if any, for informational purposes only. The certificates of delinquency issued to the county may be issued in one general certificate in book form including all property, and the proceedings to foreclose the liens against the property may be brought in one action and all persons interested in any of the property involved in the proceedings may be made codefendants in the action, and if unknown may be therein named as unknown owners, and the publication of such notice is sufficient service thereof on all persons interested in the property described therein, except as provided above. The person or persons whose name or names appear on the treasurer's rolls as the owner or owners of the property must be considered and treated as the owner or owners of the property for the purpose of this section, and if upon the treasurer's rolls it appears that the owner or owners of the property are unknown, then the property must be proceeded against, as belonging to an unknown owner or owners, as the case may be, and all persons owning or claiming to own, or having or claiming to have an interest therein, are hereby required to take notice of the proceedings and of any and all steps thereunder. However, prior to the sale of the property, the treasurer must order or conduct a title search of the property to be sold to determine the legal description of the property to be sold and the record title holder, and if the record title holder or holders differ from the person or persons whose name or names appear on the treasurer's rolls as the owner or owners, the record title holder or holders must be considered and treated as the owner or owners of the property for the purpose of this section, and are entitled to the notice provided for in this section. Such title search must be included in the costs of foreclosure.

(5) If the title search required by subsection (4) of this section reveals a lien in favor of the state for deferred taxes on the property under RCW 84.37.070 or 84.38.100 and such deferred taxes are not already included in the certificate of delinquency, the county treasurer must issue an amended certificate of delinquency on the property to include the outstanding amount of deferred taxes, including accrued interest. The amended certificate of delinquency must be filed with the clerk of the court as provided in subsection (4) of this section.

(6) The county treasurer may not sell property that is eligible for deferral of taxes under chapter 84.38 RCW but must require the owner of the property to file a declaration to defer taxes under chapter 84.38 RCW.

(7) Except those parcels where the local governing entity has declared and/or certified the parcel a nuisance affecting public peace, safety, and welfare, or other similar code provision, in no case may a certificate of delinquency be filed on property where the tax delinquency under chapter 84.56 RCW is one hundred dollars or less in total excluding interest and penalties.

NEW SECTION. Sec. 5. A new section is added to chapter 36.29 RCW to read as follows:

Representative Stanford moved the adoption of the striking amendment (230):

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that workforce mobility is important to economic growth and development. Further, the legislature finds that agreements limiting competition or hiring may be contracts of adhesion that may be unreasonable.

NEW SECTION. Sec. 2. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Earnings" means the compensation reflected on box one of the employee's United States internal revenue service form W-2 that is paid to an employee over the prior year, or portion thereof for which the employee was employed, annualized and calculated as of the earlier of the date enforcement of the noncompetition covenant is sought or the date of separation from employment. "Earnings" also means payments reported on internal revenue service form 1099-MISC for independent contractors.

(2) "Employee" and "employer" have the same meanings as in RCW 49.17.020.

(3) "Franchisor" and "franchisee" have the same meanings as in RCW 19.100.010.

(4) "Noncompetition covenant" includes every written or oral covenant, agreement, or contract by which an employee or independent contractor is prohibited or restrained from engaging in a lawful profession, trade, or business of any kind. A "noncompetition covenant" does not include: (a) A nonsolicitation agreement; (b) a confidentiality agreement; (c) a covenant prohibiting use or disclosure of trade secrets or inventions; (d) a covenant entered into by a person purchasing or selling the goodwill of a business or otherwise acquiring or disposing of an ownership interest; or (e) a covenant entered into by a franchisee when the franchise sale complies with RCW 19.100.020(1).

(5) "Nonsolicitation agreement" means an agreement between an employer and employee that prohibits solicitation by an employee, upon termination of employment: (a) Of any employee of the employer to leave the employer; or (b) of any customer of the employer to cease or reduce the extent to which it is doing business with the employer.

(6) "Party seeking enforcement" means the named plaintiff or claimant in a proceeding to enforce a noncompetition covenant or the defendant in an action for declaratory relief.

NEW SECTION. Sec. 3. (1) A noncompetition covenant is void and unenforceable against an employee:

(a)(i) Unless the employer discloses the terms of the covenant in writing to the prospective employee no later than the time of the acceptance of the offer of employment and, if the agreement becomes enforceable only at a later date due to changes in the employee's compensation, the employer specifically discloses that the agreement may be enforceable against the employee in the future; or

(ii) If the covenant is entered into after the commencement of employment, unless the employer provides independent consideration for the covenant;

(b) Unless the employee's earnings from the party seeking enforcement, when annualized, exceed one hundred thousand dollars per year. This dollar amount must be adjusted annually in accordance with section 5 of this act;

(c) If the employee is terminated as the result of a layoff, unless enforcement of the noncompetition covenant includes compensation equivalent to the employee's base salary at the time of termination for the period of enforcement minus compensation earned through subsequent employment during the period of enforcement.

(2) A court or arbitrator must presume that any noncompetition covenant with a duration exceeding eighteen months after termination of employment is unreasonable and unenforceable. A party seeking enforcement may rebut the presumption by proving by clear and convincing evidence that a duration longer than eighteen months is necessary to protect the party's business or goodwill.

NEW SECTION. Sec. 4. (1) A noncompetition covenant is void and unenforceable against an independent contractor unless the independent contractor's earnings from the party seeking enforcement exceed two hundred fifty thousand dollars per year. This dollar amount must be adjusted annually in accordance with section 5 of this act.

(2) The duration of a noncompetition covenant between a performer and a performance space, or a third party scheduling the performer for a performance space, must not exceed three calendar days.

NEW SECTION. Sec. 5. The dollar amounts specified in sections 3 and 4 of this act must be adjusted annually for inflation. Annually on September 30th the department of labor and industries must adjust the dollar amounts specified in this section by calculating to the nearest cent using the consumer price index for urban wage earners and clerical workers, CPI-W, or a successor index, for the twelve months prior to each September 1st as calculated by the United States department of labor. The adjusted dollar amount calculated under this section takes effect on the following January 1st.

NEW SECTION. Sec. 6. A provision in a noncompetition covenant signed by an employee or independent contractor who is Washington-based is void and unenforceable:

(1) If the covenant requires the employee or independent contractor to adjudicate a noncompetition covenant outside of this state; and

(2) To the extent it deprives the employee or independent contractor of the protections or benefits of this chapter.

NEW SECTION. Sec. 7. (1) No franchisor may restrict, restrain, or prohibit in any way a franchisee from soliciting or hiring any employee of a franchisee of the same franchisor.

(2) No franchisor may restrict, restrain, or prohibit in any way a franchisee from soliciting or hiring any employee of the franchisor.

NEW SECTION. Sec. 8. (1) Subject to subsection (2) of this section, an employer may not restrict, restrain, or prohibit an employee earning less than twice the applicable state minimum hourly wage from having an additional job, supplementing their income by working for another employer, working as an independent contractor, or being self-employed.

(2)(a) This section shall not apply to any such additional services when the specific services to be offered by the employee raise issues of safety for the employee, coworkers, or the public, or interfere with the reasonable and normal scheduling expectations of the employer.

(b) This section does not alter the obligations of an employee to an employer under existing law, including the common law duty of loyalty and laws preventing conflicts of interest and any corresponding policies addressing such obligations.

NEW SECTION. Sec. 9. (1) Upon a violation of this chapter, the attorney general, on behalf of a person or persons, may pursue any and all relief. A person aggrieved by a noncompetition covenant to which the person is a party may bring a cause of action to pursue any and all relief provided for in subsections (2) and (3) of this section.

(2) If a court or arbitrator determines that a noncompetition covenant violates this chapter, the violator must pay the aggrieved person the greater of his or her actual damages or a statutory penalty of five thousand dollars, plus reasonable attorneys' fees, expenses, and costs incurred in the proceeding.

(3) If a court or arbitrator reforms, rewrites, modifies, or only partially enforces any noncompetition covenant, the party seeking enforcement must pay the aggrieved person the greater of his or her actual damages or a statutory penalty of five thousand dollars, plus reasonable attorneys' fees, expenses, and costs incurred in the proceeding.

(4) A cause of action may not be brought regarding a noncompetition covenant signed prior to the effective date of this section if the noncompetition covenant is not being enforced.

NEW SECTION. Sec. 10. (1)(a) Subject to (b) of this subsection, this chapter displaces conflicting tort, restitutionary, contract, and other laws of this state pertaining to liability for competition by employees or independent contractors with their employers or principals, as appropriate.

(b) This chapter does not amend or modify chapter 19.108 RCW.

(2) Except as otherwise provided in this chapter, this chapter does not revoke, modify, or impede the development of the common law.

NEW SECTION. Sec. 11. This chapter applies to all proceedings commenced on or after the effective date of this section, regardless of when the cause of action arose. To this extent, this chapter applies retroactively, but in all other respects it applies prospectively.

NEW SECTION. Sec. 12. This chapter is an exercise of the state's police power and shall be construed liberally for the accomplishment of its purposes.

NEW SECTION. Sec. 13. This act takes effect January 1, 2020.

NEW SECTION. Sec. 14. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

NEW SECTION. Sec. 15. Sections 1 through 13 of this act constitute a new chapter in Title 49 RCW."

A landlord shall not:

(1) Deny any tenant the right to sell such tenant's mobile home, manufactured home, or park model within a park, or prohibit, in any manner, any tenant from posting on the tenant's manufactured/mobile home or park model, or on the rented mobile home lot, a commercially reasonable "for sale" sign or any similar sign designed to advertise the sale of the manufactured/mobile home or park model. Nothing in this subsection prohibits a landlord from enforcing reasonable rules or restrictions regarding the placement of "for sale" signs on the tenant's manufactured/mobile home or park model, or on the rented mobile home lot, if (a) the main purpose of the rules or restrictions is to protect the safety of park tenants or residents and (b) the rules or restrictions comply with RCW 59.20.045. The landlord may restrict the number of "for sale" signs on the lot to two and may restrict the size of the signs to conform to those in common use by home sale businesses;

(4) Prohibit a public official, housing and low-income assistance organization, or candidate for public office from meeting with or distributing information to tenants in their individual mobile homes, manufactured homes, or park models, nor penalize any tenant for participating in these meetings or receiving this information;

(5) Evict a tenant, terminate a rental agreement, decline to renew a rental agreement, increase rental or other tenant obligations, decrease services, or modify park rules in retaliation for any of the following actions on the part of a tenant taken in good faith:

(a) Filing a complaint with any federal, state, county, or municipal governmental authority relating to any alleged violation by the landlord of an applicable statute, regulation, or ordinance;

(6) Charge to any tenant a utility fee in excess of actual utility costs or intentionally cause termination or interruption of any tenant's utility services, including water, heat, electricity, or gas, except when an interruption of a reasonable duration is required to make necessary repairs;

(7) Remove or exclude a tenant from the premises unless this chapter is complied with or the exclusion or removal is under an appropriate court order; or

(8) Prevent the entry or require the removal of a mobile home, manufactured home, or park model for the sole reason that the mobile home has reached a certain age. Nothing in this subsection shall limit a ~~((landlord's))~~ landlord's right to exclude or expel a mobile home, manufactured home, or park model for any other reason,

including but not limited to, failure to comply with fire, safety, and other provisions of local ordinances and state laws relating to mobile homes, manufactured homes, and park models, as long as the action conforms to this chapter or any other relevant statutory provision.

Sec. 6. RCW 59.20.073 and 2012 c 213 s 3 are each amended to read as follows:

(1) Any rental agreement shall be assignable by the tenant to any person to whom he or she sells or transfers title to the mobile home, manufactured home, or park model.

(2) A tenant who sells a mobile home, manufactured home, or park model within a park shall notify the landlord in writing of the date of the intended sale and transfer of the rental agreement at least fifteen days in advance of such intended transfer and shall notify the buyer in writing of the provisions of this section. The tenant shall verify in writing to the landlord payment of all taxes, rent, and reasonable expenses due on the mobile home, manufactured home, or park model and mobile home lot. The tenant shall notify the buyer of all taxes, rent, and reasonable expenses due on the manufactured/mobile home or park model and the mobile home lot.

~~(3) ((The landlord shall notify the selling tenant, in writing, of a refusal to permit transfer of the rental agreement at least seven days in advance of such intended transfer.))~~ At least seven days in advance of such intended transfer, the landlord shall:

(a) Notify the selling tenant, in writing, of a refusal to permit transfer of the rental agreement; or

(b) If the landlord approves of the transfer, provide the buyer with copies of the written rental agreement, the rules and regulations, and all other documents related to the tenancy. A landlord may not accept payment for rent or deposit from the buyer until the landlord has provided the buyer with these copies.

(4) The landlord may require the mobile home, manufactured home, or park model to meet applicable fire and safety standards if a state or local agency responsible for the enforcement of fire and safety standards has issued a notice of violation of those standards to the tenant and those violations remain uncorrected. Upon correction of the violation to the satisfaction of the state or local agency responsible for the enforcement of that notice of violation, the landlord's refusal to permit the transfer is deemed withdrawn.

(5) The landlord shall approve or disapprove of the assignment of a rental agreement on the same basis that the landlord approves or disapproves of any new tenant, and any disapproval shall be in writing. Consent to an assignment shall not be unreasonably withheld.

(6) Failure to notify the landlord in writing, as required under subsection (2) of this section; or failure of the new tenant to make a good faith attempt to arrange an interview with the landlord to discuss assignment of the rental agreement; or failure of the current or new tenant to obtain written approval of the landlord for assignment of the

rental agreement, shall be grounds for disapproval of such transfer.

Sec. 7. RCW 59.20.080 and 2012 c 213 s 4 are each amended to read as follows:

(1) A landlord shall not terminate or fail to renew a tenancy of a tenant or the occupancy of an occupant, of whatever duration except for one or more of the following reasons:

(a) Substantial violation, or repeated or periodic violations, of an enforceable rule of the mobile home park as established by the landlord at the inception of the tenancy or as assumed subsequently with the consent of the tenant or for violation of the tenant's duties as provided in RCW 59.20.140. The tenant shall be given written notice to cease the rule violation immediately. The notice shall state that failure to cease the violation of the rule or any subsequent violation of that or any other rule shall result in termination of the tenancy, and that the tenant shall vacate the premises within ~~((fifteen))~~ thirty days: PROVIDED, That for a periodic violation the notice shall also specify that repetition of the same violation shall result in termination: PROVIDED FURTHER, That in the case of a violation of a "material change" in park rules with respect to pets, tenants with minor children living with them, or recreational facilities, the tenant shall be given written notice under this chapter of a six month period in which to comply or vacate;

(b) Nonpayment of rent or other charges specified in the rental agreement, upon ~~((five))~~ fifteen days written notice to pay rent and/or other charges or to vacate;

(c) Conviction of the tenant of a crime, commission of which threatens the health, safety, or welfare of the other mobile home park tenants. The tenant shall be given written notice of a fifteen day period in which to vacate;

(d) Failure of the tenant to comply with local ordinances and state laws and regulations relating to mobile homes, manufactured homes, or park models or mobile home, manufactured homes, or park model living within a reasonable time after the tenant's receipt of notice of such noncompliance from the appropriate governmental agency;

(e) Change of land use of the mobile home park including, but not limited to, conversion to a use other than for mobile homes, manufactured homes, or park models or conversion of the mobile home park to a mobile home park cooperative or mobile home park subdivision. The landlord shall give the tenants ~~((twelve months'))~~ three years' notice in advance of the effective date of such change. The three years' closure notice requirement does not apply if:

(i) The mobile home park or manufactured housing community has been acquired for or is under imminent threat of condemnation;

(ii) The mobile home park or manufactured housing community is sold to an organization comprised of park or community tenants, to a nonprofit organization, to a local government, or to a housing authority for the purpose of preserving the park or community; or

(iii) The landlord compensates the tenants for the loss of their homes at their assessed value at any point during the three years' notice period and prior to a change of use or sale of the property. At such time as the compensation is paid, the tenant shall be given written notice of at least ninety days in which to vacate, and the tenant shall continue to pay rent for as much time as he or she remains in the mobile home park or manufactured housing community;

(f) Engaging in "criminal activity." "Criminal activity" means a criminal act defined by statute or ordinance that threatens the health, safety, or welfare of the tenants. A park owner seeking to evict a tenant or occupant under this subsection need not produce evidence of a criminal conviction, even if the alleged misconduct constitutes a criminal offense. Notice from a law enforcement agency of criminal activity constitutes sufficient grounds, but not the only grounds, for an eviction under this subsection. Notification of the seizure of illegal drugs under RCW 59.20.155 is evidence of criminal activity and is grounds for an eviction under this subsection. The requirement that any tenant or occupant register as a sex offender under RCW 9A.44.130 is grounds for eviction of the sex offender under this subsection. If criminal activity is alleged to be a basis of termination, the park owner may proceed directly to an unlawful detainer action;

(g) The tenant's application for tenancy contained a material misstatement that induced the park owner to approve the tenant as a resident of the park, and the park owner discovers and acts upon the misstatement within one year of the time the resident began paying rent;

(h) If the landlord serves a tenant three ~~((fifteen-day))~~ thirty-day notices, each of which was valid under (a) of this subsection at the time of service, within a twelve-month period to comply or vacate for failure to comply with the material terms of the rental agreement or an enforceable park rule, other than failure to pay rent by the due date. The applicable twelve-month period shall commence on the date of the first violation;

(i) Failure of the tenant to comply with obligations imposed upon tenants by applicable provisions of municipal, county, and state codes, statutes, ordinances, and regulations, including this chapter. The landlord shall give the tenant written notice to comply immediately. The notice must state that failure to comply will result in termination of the tenancy and that the tenant shall vacate the premises within fifteen days;

(j) The tenant engages in disorderly or substantially annoying conduct upon the park premises that results in the destruction of the rights of others to the peaceful enjoyment and use of the premises. The landlord shall give the tenant written notice to comply immediately. The notice must state that failure to comply will result in termination of the tenancy and that the tenant shall vacate the premises within fifteen days;

(k) The tenant creates a nuisance that materially affects the health, safety, and welfare of other park residents. The landlord shall give the tenant written notice to cease the conduct that constitutes a nuisance immediately. The notice must describe the nuisance and state (i) what the tenant must

do to cease the nuisance and (ii) that failure to cease the conduct will result in termination of the tenancy and that the tenant shall vacate the premises in five days;

(l) Any other substantial just cause that materially affects the health, safety, and welfare of other park residents. The landlord shall give the tenant written notice to comply immediately. The notice must describe the harm caused by the tenant, describe what the tenant must do to comply and to discontinue the harm, and state that failure to comply will result in termination of the tenancy and that the tenant shall vacate the premises within fifteen days; or

(m) Failure to pay rent by the due date provided for in the rental agreement three or more times in a twelve-month period, commencing with the date of the first violation, after service of a (~~five-day~~) fifteen-day notice to comply or vacate.

(2) Within five days of a notice of eviction as required by subsection (1)(a) of this section, the landlord and tenant shall submit any dispute to mediation. The parties may agree in writing to mediation by an independent third party or through industry mediation procedures. If the parties cannot agree, then mediation shall be through industry mediation procedures. A duty is imposed upon both parties to participate in the mediation process in good faith for a period of ten days for an eviction under subsection (1)(a) of this section. It is a defense to an eviction under subsection (1)(a) of this section that a landlord did not participate in the mediation process in good faith.

(3) Except for a tenant evicted under subsection (1)(c) or (f) of this section, a tenant evicted from a mobile home park under this section shall be allowed one hundred twenty days within which to sell the tenant's mobile home, manufactured home, or park model in place within the mobile home park: PROVIDED, That the tenant remains current in the payment of rent incurred after eviction, and pays any past due rent, reasonable attorneys' fees and court costs at the time the rental agreement is assigned. The provisions of RCW 59.20.073 regarding transfer of rental agreements apply.

(4) Chapters 59.12 and 59.18 RCW govern the eviction of recreational vehicles, as defined in RCW 59.20.030, from mobile home parks. This chapter governs the eviction of mobile homes, manufactured homes, park models, and recreational vehicles used as a primary residence from a mobile home park.

Sec. 8. RCW 59.20.210 and 2013 c 23 s 117 are each amended to read as follows:

(1)(a) If at any time during the tenancy, the landlord fails to carry out any of the duties imposed by RCW 59.20.130, and notice of the defect is given to the landlord pursuant to RCW 59.20.200, the tenant may submit to the landlord or the landlord's designated agent by certified mail or in person at least two bids to perform the repairs necessary to correct the defective condition from licensed or registered persons, or if no licensing or registration requirement applies to the type of work to be performed, from responsible persons capable of performing such repairs. Such bids may

be submitted to the landlord at the same time as notice is given pursuant to RCW 59.20.200.

(b) Upon receipt of any such bids, the landlord shall provide the tenant with a copy of the notice regarding the manufactured/mobile home dispute resolution program that the attorney general is required to produce pursuant to RCW 59.30.030(3)(a) and that landlords are required to post pursuant to RCW 59.30.030(3)(b)(i).

(2) If the landlord fails to commence repair of the defective condition within a reasonable time after receipt of notice from the tenant, the tenant may contract with the person submitting the lowest bid to make the repair, and upon the completion of the repair and an opportunity for inspection by the landlord or the landlord's designated agent, the tenant may deduct the cost of repair from the rent in an amount not to exceed the sum expressed in dollars representing one month's rental of the tenant's mobile home space in any calendar year. When, however, the landlord is required to begin remedying the defective condition within thirty days under RCW 59.20.200, the tenant cannot contract for repairs for at least fifteen days following receipt of bids by the landlord. The total costs of repairs deducted by the tenant in any calendar year under this subsection shall not exceed the sum expressed in dollars representing one month's rental of the tenant's mobile home space.

(3) Two or more tenants shall not collectively initiate remedies under this section. Remedial action under this section shall not be initiated for conditions in the design or construction existing in a mobile home park before June 7, 1984.

(4) The provisions of this section shall not:

(a) Create a relationship of employer and employee between landlord and tenant; or

(b) Create liability under the worker's compensation act; or

(c) Constitute the tenant as an agent of the landlord for the purposes of mechanics' and material suppliers' liens under chapter 60.04 RCW.

(5) Any repair work performed under this section shall comply with the requirements imposed by any applicable code, statute, ordinance, or rule. A landlord whose property is damaged because of repairs performed in a negligent manner may recover the actual damages in an action against the tenant.

(6) Nothing in this section shall prevent the tenant from agreeing with the landlord to undertake the repairs in return for cash payment or a reasonable reduction in rent, the agreement to be between the parties, and this agreement does not alter the landlord's obligations under this chapter.

NEW SECTION. Sec. 9. A new section is added to chapter 59.20 RCW to read as follows:

(1) A court may order an unlawful detainer action to be of limited dissemination for one or more persons if: (a) The court finds that the plaintiff's case was sufficiently

without basis in fact or law; (b) the tenancy was reinstated by the court; or (c) other good cause exists for limiting dissemination of the unlawful detainer action.

(2) An order to limit dissemination of an unlawful detainer action must be in writing.

(3) When an order for limited dissemination of an unlawful detainer action has been entered with respect to a person, a tenant screening service provider must not: (a) Disclose the existence of that unlawful detainer action in a tenant screening report pertaining to the person for whom dissemination has been limited, or (b) use the unlawful detainer action as a factor in determining any score or recommendation to be included in a tenant screening report pertaining to the person for whom dissemination has been limited.

Sec. 10. RCW 59.21.030 and 2006 c 296 s 1 are each amended to read as follows:

(2) No provision of this chapter for which official traffic control devices are required shall be enforced against an alleged violator if at the time and place of the alleged violation an official device is not in proper position and sufficiently legible or visible to be seen by an ordinarily observant person. Whenever a particular section does not state that official traffic control devices are required, such section shall be effective even though no devices are erected or in place.

(3) Whenever official traffic control devices are placed in position approximately conforming to the requirements of this chapter, such devices shall be presumed to have been so placed by the official act or direction of lawful authority, unless the contrary shall be established by competent evidence.

(4) Any official traffic control device placed pursuant to the provisions of this chapter and purporting to conform to the lawful requirements pertaining to such devices shall be presumed to comply with the requirements of this chapter, unless the contrary shall be established by competent evidence.

Sec. 10. RCW 46.61.055 and 1993 c 153 s 2 are each amended to read as follows:

Whenever traffic is controlled by traffic control signals exhibiting different colored lights, or colored lighted arrows, successively one at a time or in combination, only the colors green, red and yellow shall be used, except for special pedestrian signals carrying a word or legend, and said lights shall indicate and apply to drivers of vehicles ~~((and)),~~ pedestrians, and personal delivery devices, as follows:

(1) Green indication

(a) Vehicle operators facing a circular green signal may proceed straight through or turn right or left unless a sign at such place prohibits either such turn. Vehicle operators turning right or left shall stop to allow other vehicles lawfully within the intersection control area to complete their movements. Vehicle operators turning right or left shall also stop for pedestrians who or personal delivery devices that are lawfully within the intersection control area as required by RCW 46.61.235(1).

(b) Vehicle operators facing a green arrow signal, shown alone or in combination with another indication, may

enter the intersection control area only to make the movement indicated by such arrow, or such other movement as is permitted by other indications shown at the same time. Vehicle operators shall stop to allow other vehicles lawfully within the intersection control area to complete their movements. Vehicle operators shall also stop for pedestrians who or personal delivery devices that are lawfully within the intersection control area as required by RCW 46.61.235(1).

(c) Unless otherwise directed by a pedestrian control signal, as provided in RCW 46.61.060 as now or hereafter amended, pedestrians or personal delivery devices facing any green signal, except when the sole green signal is a turn arrow, may proceed across the roadway within any marked or unmarked crosswalk.

(2) Steady yellow indication

(a) Vehicle operators facing a steady circular yellow or yellow arrow signal are thereby warned that the related green movement is being terminated or that a red indication will be exhibited immediately thereafter when vehicular traffic shall not enter the intersection. Vehicle operators shall stop for pedestrians who or personal delivery devices that are lawfully within the intersection control area as required by RCW 46.61.235(1).

(b) Pedestrians or personal delivery devices facing a steady circular yellow or yellow arrow signal, unless otherwise directed by a pedestrian control signal as provided in RCW 46.61.060 shall not enter the roadway.

(3) Steady red indication

(a) Vehicle operators facing a steady circular red signal alone shall stop at a clearly marked stop line, but if none, before entering the crosswalk on the near side of the intersection or, if none, then before entering the intersection control area and shall remain standing until an indication to proceed is shown. However, the vehicle operators facing a steady circular red signal may, after stopping proceed to make a right turn from a one-way or two-way street into a two-way street or into a one-way street carrying traffic in the direction of the right turn; or a left turn from a one-way or two-way street into a one-way street carrying traffic in the direction of the left turn; unless a sign posted by competent authority prohibits such movement. Vehicle operators planning to make such turns shall remain stopped to allow other vehicles lawfully within or approaching the intersection control area to complete their movements. Vehicle operators planning to make such turns shall also remain stopped for pedestrians who or personal delivery devices that are lawfully within the intersection control area as required by RCW 46.61.235(1).

(b) Unless otherwise directed by a pedestrian control signal as provided in RCW 46.61.060 as now or hereafter amended, pedestrians or personal delivery devices facing a steady circular red signal alone shall not enter the roadway.

(c) Vehicle operators facing a steady red arrow indication may not enter the intersection control area to make the movement indicated by such arrow, and unless entering the intersection control area to make such other movement as is permitted by other indications shown at the

same time, shall stop at a clearly marked stop line, but if none, before entering a crosswalk on the near side of the intersection control area, or if none, then before entering the intersection control area and shall remain standing until an indication to make the movement indicated by such arrow is shown. However, the vehicle operators facing a steady red arrow indication may, after stopping proceed to make a right turn from a one-way or two-way street into a two-way street or into a one-way street carrying traffic in the direction of the right turn; or a left turn from a one-way street or two-way street into a one-way street carrying traffic in the direction of the left turn; unless a sign posted by competent authority prohibits such movement. Vehicle operators planning to make such turns shall remain stopped to allow other vehicles lawfully within or approaching the intersection control area to complete their movements. Vehicle operators planning to make such turns shall also remain stopped for pedestrians who or personal delivery devices that are lawfully within the intersection control area as required by RCW 46.61.235(1).

(d) Unless otherwise directed by a pedestrian signal, pedestrians or personal delivery devices facing a steady red arrow signal indication shall not enter the roadway.

(4) If an official traffic control signal is erected and maintained at a place other than an intersection, the provisions of this section shall be applicable except as to those provisions which by their nature can have no application. Any stop required shall be made at a sign or marking on the pavement indicating where the stop shall be made, but in the absence of any such sign or marking the stop shall be made at the signal.

Sec. 11. RCW 46.61.060 and 1993 c 153 s 3 are each amended to read as follows:

Whenever pedestrian control signals exhibiting the words "Walk" or the walking person symbol or "Don't Walk" or the hand symbol are operating, the signals shall indicate as follows:

(1) WALK or walking person symbol—Pedestrians or personal delivery devices facing such signal may cross the roadway in the direction of the signal. Vehicle operators shall stop for pedestrians who or personal delivery devices that are lawfully moving within the intersection control area on such signal as required by RCW 46.61.235(1).

(2) Steady or flashing DON'T WALK or hand symbol—Pedestrians or personal delivery devices facing such signal shall not enter the roadway. Vehicle operators shall stop for pedestrians who or personal delivery devices that have begun to cross the roadway before the display of either signal as required by RCW 46.61.235(1).

(3) Pedestrian control signals having the "Wait" legend in use on August 6, 1965, shall be deemed authorized signals and shall indicate the same as the "Don't Walk" legend. Whenever such pedestrian control signals are replaced the legend "Wait" shall be replaced by the legend "Don't Walk" or the hand symbol.

Sec. 12. RCW 46.61.235 and 2010 c 242 s 1 are each amended to read as follows:

(1) The operator of an approaching vehicle shall stop and remain stopped to allow a pedestrian ~~((or))~~, bicycle, or personal delivery device to cross the roadway within an unmarked or marked crosswalk when the pedestrian ~~((or))~~, bicycle, or personal delivery device is upon or within one lane of the half of the roadway upon which the vehicle is traveling or onto which it is turning. For purposes of this section "half of the roadway" means all traffic lanes carrying traffic in one direction of travel, and includes the entire width of a one-way roadway.

(2) No pedestrian ~~((or))~~, bicycle, or personal delivery device shall suddenly leave a curb or other place of safety and walk, run, or otherwise move into the path of a vehicle which is so close that it is impossible for the driver to stop.

(3) Subsection (1) of this section does not apply under the conditions stated in RCW 46.61.240(2).

(4) Whenever any vehicle is stopped at a marked crosswalk or at any unmarked crosswalk at an intersection to permit a pedestrian ~~((or))~~, bicycle, or personal delivery device to cross the roadway, the driver of any other vehicle approaching from the rear shall not overtake and pass such stopped vehicle.

(5)(a) If a person is found to have committed an infraction under this section within a school, playground, or crosswalk speed zone created under RCW 46.61.440, the person must be assessed a monetary penalty equal to twice the penalty assessed under RCW 46.63.110. The penalty may not be waived, reduced, or suspended.

(b) Fifty percent of the moneys collected under this subsection must be deposited into the school zone safety account.

Sec. 13. RCW 46.61.240 and 1990 c 241 s 5 are each amended to read as follows:

(1) Every pedestrian or personal delivery device crossing a roadway at any point other than within a marked crosswalk or within an unmarked crosswalk at an intersection shall yield the right-of-way to all vehicles upon the roadway.

(2) Where curb ramps exist at or adjacent to intersections or at marked crosswalks in other locations, ~~((disabled))~~ persons with disabilities or personal delivery devices may enter the roadway from the curb ramps and cross the roadway within or as closely as practicable to the crosswalk. All other pedestrian rights and duties as defined elsewhere in this chapter remain applicable.

(3) Any pedestrian crossing a roadway at a point where a pedestrian tunnel or overhead pedestrian crossing has been provided shall yield the right-of-way to all vehicles upon the roadway.

(4) Between adjacent intersections at which traffic-control signals are in operation pedestrians shall not cross at any place except in a marked crosswalk.

(5) No pedestrian or personal delivery device shall cross a roadway intersection diagonally unless authorized by official traffic-control devices; and, when authorized to cross diagonally, pedestrians and personal delivery devices shall cross only in accordance with the official traffic-control devices pertaining to such crossing movements.

(6) No pedestrian or personal delivery device shall cross a roadway at an unmarked crosswalk where an official sign prohibits such crossing.

Sec. 14. RCW 46.61.250 and 1990 c 241 s 6 are each amended to read as follows:

(1) Where sidewalks are provided it is unlawful for any pedestrian to walk or otherwise move along and upon an adjacent roadway. Where sidewalks are provided but wheelchair access is not available, ~~((disabled))~~ persons with disabilities who require such access may walk or otherwise move along and upon an adjacent roadway until they reach an access point in the sidewalk.

(2) Where sidewalks are not provided, any pedestrian walking or otherwise moving along and upon a highway, and any personal delivery device moving along and upon a highway, shall, when practicable, walk or move only on the left side of the roadway or its shoulder facing traffic which may approach from the opposite direction and upon meeting an oncoming vehicle shall move clear of the roadway.

Sec. 15. RCW 46.61.261 and 2010 c 242 s 3 are each amended to read as follows:

(1) The driver of a vehicle shall yield the right-of-way to any pedestrian ~~((or))~~, bicycle, or personal delivery device on a sidewalk. The rider of a bicycle shall yield the right-of-way to a pedestrian on a sidewalk or crosswalk. A personal delivery device must yield the right-of-way to a pedestrian or a bicycle on a sidewalk or crosswalk.

(2)(a) If a person is found to have committed an infraction under this section within a school, playground, or crosswalk speed zone created under RCW 46.61.440, the person must be assessed a monetary penalty equal to twice the penalty assessed under RCW 46.63.110. The penalty may not be waived, reduced, or suspended.

(b) Fifty percent of the moneys collected under this subsection must be deposited into the school zone safety account.

Sec. 16. RCW 46.61.264 and 1975 c 62 s 42 are each amended to read as follows:

(1) Upon the immediate approach of an authorized emergency vehicle making use of an audible signal meeting the requirements of RCW 46.37.380 ~~((subsection))~~ (4) and visual signals meeting the requirements of RCW 46.37.190,

or of a police vehicle meeting the requirements of RCW 46.61.035 ((subsection)) (3), every pedestrian and every personal delivery device shall yield the right-of-way to the authorized emergency vehicle.

(2) This section shall not relieve the driver of an authorized emergency vehicle from the duty to drive with due regard for the safety of all persons using the highway nor from the duty to exercise due care to avoid colliding with any pedestrian or any personal delivery device.

Sec. 17. RCW 46.61.269 and 1975 c 62 s 44 are each amended to read as follows:

(1) No pedestrian or personal delivery device shall enter or remain upon any bridge or approach thereto beyond a bridge signal gate, or barrier indicating a bridge is closed to through traffic, after a bridge operation signal indication has been given.

(2) No pedestrian or personal delivery device shall pass through, around, over, or under any crossing gate or barrier at a railroad grade crossing or bridge while such gate or barrier is closed or is being opened or closed.

Sec. 18. RCW 46.61.365 and 1965 ex.s. c 155 s 51 are each amended to read as follows:

The driver of a vehicle within a business or residence district emerging from an alley, driveway or building shall stop such vehicle immediately prior to driving onto a sidewalk or onto the sidewalk area extending across any alleyway or driveway, and shall yield the right-of-way to any pedestrian or personal delivery device as may be necessary to avoid collision, and upon entering the roadway shall yield the right-of-way to all vehicles approaching on said roadway.

Sec. 19. RCW 46.61.710 and 2018 c 60 s 5 are each amended to read as follows:

(1) No person shall operate a moped upon the highways of this state unless the moped has been assigned a moped registration number and displays a moped permit in accordance with RCW 46.16A.405(2).

(2) Notwithstanding any other provision of law, a moped may not be operated on a bicycle path or trail, bikeway, equestrian trail, or hiking or recreational trail.

(3) Operation of a moped, electric personal assistive mobility device, or motorized foot scooter on a fully controlled limited access highway is unlawful. Operation of a personal delivery device on any part of a highway other than a sidewalk or crosswalk is unlawful, except as provided in RCW 46.61.240(2). Operation of a moped on a sidewalk is unlawful. Operation of a motorized foot scooter or class 3 electric-assisted bicycle on a sidewalk is unlawful, unless there is no alternative for a motorized foot scooter or a class 3 electric-assisted bicycle to travel over a sidewalk as part of a bicycle or pedestrian path.

(4) Removal of any muffling device or pollution control device from a moped is unlawful.

(5) Subsections (1), (2), and (4) of this section do not apply to electric-assisted bicycles.

(6) Electric-assisted bicycles and motorized foot scooters may have access to highways of the state to the same extent as bicycles, subject to RCW 46.61.160.

(7) Subject to subsection (10) of this section, class 1 and class 2 electric-assisted bicycles and motorized foot scooters may be operated on a shared-use path or any part of a highway designated for the use of bicycles, but local jurisdictions or state agencies may restrict or otherwise limit the access of electric-assisted bicycles and motorized foot scooters, and local jurisdictions or state agencies may regulate the use of class 1 and class 2 electric-assisted bicycles and motorized foot scooters on facilities and properties under their jurisdiction and control. Local regulation of the operation of class 1 or class 2 electric-assisted bicycles, upon a shared use path designated for the use of bicycles that crosses jurisdictional boundaries of two or more local jurisdictions, must be consistent for the entire shared use path in order for the local regulation to be enforceable; however, this does not apply to local regulations of a shared use path in effect as of January 1, 2018.

(8) Class 3 electric-assisted bicycles may be operated on facilities that are within or adjacent to a highway. Class 3 electric-assisted bicycles may not be operated on a shared-use path, except where local jurisdictions may allow the use of class 3 electric-assisted bicycles. State agencies or local jurisdictions may regulate the use of class 3 electric-assisted bicycles on facilities and properties under their jurisdiction and control. Local regulation of the operation of class 3 electric-assisted bicycles, upon a shared use path designated for the use of bicycles that crosses jurisdictional boundaries of two or more local jurisdictions, must be consistent for the entire shared use path in order for the local regulation to be enforceable; however, this does not apply to local regulations of a shared use path in effect as of January 1, 2018.

(9) Except as otherwise provided in this section, an individual shall not operate an electric-assisted bicycle on a trail that is specifically designated as nonmotorized and that has a natural surface tread that is made by clearing and grading the native soil with no added surfacing materials. A local authority or agency of this state having jurisdiction over a trail described in this subsection may allow the operation of an electric-assisted bicycle on that trail.

(10) Subsections (1) and (4) of this section do not apply to motorized foot scooters. Subsection (2) of this section applies to motorized foot scooters when the bicycle path, trail, bikeway, equestrian trail, or hiking or recreational trail was built or is maintained with federal highway transportation funds. Additionally, any new trail or bicycle path or readily identifiable existing trail or bicycle path not built or maintained with federal highway transportation funds may be used by persons operating motorized foot scooters only when appropriately signed.

(11) A person operating an electric personal assistive mobility device (EPAMD) shall obey all speed limits and shall yield the right-of-way to pedestrians and human-powered devices at all times. An operator must also give an audible signal before overtaking and passing a pedestrian. Except for the limitations of this subsection, persons operating an EPAMD have all the rights and duties of a pedestrian.

(12) The use of an EPAMD may be regulated in the following circumstances:

(a) A municipality and the department of transportation may prohibit the operation of an EPAMD on public highways within their respective jurisdictions where the speed limit is greater than twenty-five miles per hour;

(b) A municipality may restrict the speed of an EPAMD in locations with congested pedestrian or nonmotorized traffic and where there is significant speed differential between pedestrians or nonmotorized traffic and EPAMD operators. The areas in this subsection must be designated by the city engineer or designee of the municipality. Municipalities shall not restrict the speed of an EPAMD in the entire community or in areas in which there is infrequent pedestrian traffic;

(c) A state agency or local government may regulate the operation of an EPAMD within the boundaries of any area used for recreation, open space, habitat, trails, or conservation purposes.

(13) A personal delivery device must give an audible signal before overtaking and passing a pedestrian or a bicyclist.

Sec. 20. RCW 81.80.010 and 2009 c 94 s 1 are each reenacted and amended to read as follows:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that Washington's transportation needs are increasing as both a surge in trade and population create demand on the system. Large transportation projects that provide improvements in accessibility, freight mobility, and safety, as well as maximize economic development, are critical to Washington's future. It is the intent of the legislature to recognize transportation projects of statewide significance, and to expedite their completion through the establishment of a formal process of coordination.

NEW SECTION. Sec. 2. A new section is added to chapter 47.05 RCW to read as follows:

(1) A transportation project of statewide significance means a project that will:

(a) Improve accessibility for a significant number of Washington residents;

(b) Alleviate congestion and improve the reliability of travel times for Washington residents and other users of the transportation system;

(c) Improve the movement of freight through the corridor;

(d) Provide safety improvements and contribute to a reduction in injuries and fatalities;

(e) Maximize opportunities for economic development in the region and the state;

(f) Make improvement to transit, pedestrian, and bike access; and

(g) Serve as a critical route for both national and state defense.

(2)(a) In order to qualify as a transportation project of statewide significance, the reasonable cost estimate to construct the project must be at least one billion dollars. Similarly, if a project is to be constructed in phases, in order to qualify as a transportation project of statewide significance, the total reasonable cost estimate to construct all the phases must be at least one billion dollars. For purposes of this subsection, "cost estimate to construct" includes costs associated with design, preliminary engineering, right-of-way acquisition, and construction.

(b) In order to qualify as a transportation project of statewide significance, the project must also contain a bridge that connects two states that has a reasonable cost estimate to construct of at least five hundred million dollars and would benefit from an expedited permitting process due to preexisting permits.

NEW SECTION. Sec. 3. A new section is added to chapter 47.05 RCW to read as follows:

(1) The department shall:

(a) Develop an application for designation of transportation projects as transportation projects of statewide significance. The application must be accompanied by a letter of approval from the legislative authority of at least one jurisdiction that will have the proposed transportation project of statewide significance within its boundaries. No designation of a project as a transportation project of statewide significance shall be made without the letter of approval, except as provided in subsection (2) of this section. The letter of approval must state that the jurisdiction joins in the request for the designation of the transportation project as one of statewide significance and has or will hire the professional staff that will be required to expedite the processes necessary to the completion of a transportation project of statewide significance. The transportation project proponents may provide the funding necessary for the jurisdiction to hire the professional staff that will be required to so expedite. The application must contain information regarding the location of the project, how the project meets the criteria specified in section 2 of this act, and other information required by the department; and

(b) Designate a transportation project as a transportation project of statewide significance if the department determines, after review of the application under criteria adopted by rule, the transportation project will meet the criteria listed in section 2 (1) and (2) of this act.

(2) Any project designated by the legislature and codified in this chapter is not subject to the application requirements set out in subsection (1) of this section. However, the project is subject to the coordination process in subsection (3) of this section.

(3) The department shall assign a project facilitator or coordinator to each transportation project of statewide significance to:

(a) Assemble a team of state and local government and private officials to help meet the planning, permitting, and development needs of each project. The team must include those responsible for planning, permitting, and licensing, infrastructure development, workforce development services, transportation services, and the provision of utilities; and

(b) Work with each team member to expedite their actions in furtherance of the project and coordinate any cross border communications, if applicable."

HOUSE BILL NO. 1207, by Representatives Ryu, Jenkin, Dolan and Pollet

Concerning manufactured housing communities.

The bill was read the second time.

There being no objection, Substitute House Bill No. 1207 was substituted for House Bill No. 1207 and the substitute bill was placed on the second reading calendar.

SUBSTITUTE HOUSE BILL NO. 1207 was read the second time.

Representative Ryu moved the adoption of the striking amendment (128):

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that manufactured housing communities provide significant opportunity for affordable housing, but at the same time, vacancy rates in established communities are very low. Siting a replacement manufactured home on a manufactured housing community lot is basic to a landlord's right to continue in business and to provide opportunity for housing that is needed. From the time of establishment of a manufactured housing community, the lot sizes and setback and separation distances within should remain intact for any subsequent replacement of manufactured homes on particular lots. Imposing undue burdens and new restrictions for the siting of replacement manufactured homes may deem lots unusable as home sites thus, exacerbating the low vacancy rates and reducing affordable housing opportunities. The legislature intends to provide protection for manufactured housing communities by authorizing the siting of replacement homes on existing lots within established manufactured housing communities abiding by those lot sizes, setback and separation distances, and other requirements that were in place at the time the manufactured housing communities were established.

Sec. 2. RCW 35.21.684 and 2009 c 79 s 1 are each amended to read as follows:

(1) A city or town may not adopt an ordinance that has the effect, directly or indirectly, of discriminating against consumers' choices in the placement or use of a home in such a manner that is not equally applicable to all homes. Homes built to 42 U.S.C. Sec. 5401-5403 standards (as amended in 2000) must be regulated for the purposes of siting in the same manner as site built homes, factory built homes, or homes built to any other state construction or local design standard. However, except as provided in subsection (2) of this section, any city or town may require that:

(a) A manufactured home be a new manufactured home;

(b) The manufactured home be set upon a permanent foundation, as specified by the manufacturer, and that the space from the bottom of the home to the ground be enclosed by concrete or an approved concrete product which can be either load bearing or decorative;

(c) The manufactured home comply with all local design standards applicable to all other homes within the neighborhood in which the manufactured home is to be located;

(d) The home is thermally equivalent to the state energy code; and

(e) The manufactured home otherwise meets all other requirements for a designated manufactured home as defined in RCW 35.63.160.

A city with a population of one hundred thirty-five thousand or more may choose to designate its building official as the person responsible for issuing all permits, including department of labor and industries permits issued under chapter 43.22 RCW in accordance with an interlocal agreement under chapter 39.34 RCW, for alterations, remodeling, or expansion of manufactured housing located within the city limits under this section.

(2)(a) A city or town may not adopt an ordinance that has the effect, directly or indirectly, of restricting the location of manufactured/mobile homes in manufactured/mobile home communities that were legally in existence before June 12, 2008, based exclusively on the age or dimensions of the manufactured/mobile home. (~~This does not preclude~~)

(b) A city or town may not prohibit the siting of a manufactured/mobile home on an existing lot based solely on lack of compliance with existing separation and setback requirements that regulate the distance between homes.

(c) A city or town is not precluded by (a) or (b) of this subsection from restricting the location of a manufactured/mobile home in manufactured/mobile home communities for any other reason including, but not limited to, failure to comply with fire, safety, or other local ordinances or state laws related to manufactured/mobile homes.

(3) Except as provided under subsection (4) of this section, a city or town may not adopt an ordinance that has the effect, directly or indirectly, of preventing the entry or requiring the removal of a recreational vehicle used as a primary residence in manufactured/mobile home communities.

(4) Subsection (3) of this section does not apply to any local ordinance or state law that:

(a) Imposes fire, safety, or other regulations related to recreational vehicles;

(b) Requires utility hookups in manufactured/mobile home communities to meet state or federal building code standards for manufactured/mobile home communities; or

(c) Includes both of the following provisions:

(i) A recreational vehicle must contain at least one internal toilet and at least one internal shower; and

(ii) If the requirement in (c)(i) of this subsection is not met, a manufactured/mobile home community must provide toilets and showers.

(5) For the purposes of this section, "manufactured/mobile home community" has the same meaning as in RCW 59.20.030.

(6) This section does not override any legally recorded covenants or deed restrictions of record.

(7) This section does not affect the authority granted under chapter 43.22 RCW.

Sec. 3. RCW 35A.21.312 and 2009 c 79 s 2 are each amended to read as follows:

(1) A code city may not adopt an ordinance that has the effect, directly or indirectly, of discriminating against consumers' choices in the placement or use of a home in such a manner that is not equally applicable to all homes. Homes built to 42 U.S.C. (d) The home is thermally equivalent to the state energy code; and

(e) The manufactured home otherwise meets all other requirements for a designated manufactured home as defined in RCW 35.63.160.

A code city with a population of one hundred thirty-five thousand or more may choose to designate its building official as the person responsible for issuing all permits, including department of labor and industries permits issued under chapter 43.22 RCW in accordance with an interlocal agreement under chapter 39.34 RCW, for alterations, remodeling, or expansion of manufactured housing located within the city limits under this section.

(2)(a) A code city may not adopt an ordinance that has the effect, directly or indirectly, of restricting the location of manufactured/mobile homes in manufactured/mobile home communities that were legally in existence before June 12, 2008, based exclusively on the

age or dimensions of the manufactured/mobile home. (~~This does not preclude~~)

(b) A code city may not prohibit the siting of a manufactured/mobile home on an existing lot based solely on lack of compliance with existing separation and setback requirements that regulate the distance between homes.

(b) A county may not prohibit the siting of a manufactured/mobile home on an existing lot based solely on lack of compliance with existing separation and setback requirements that regulate the distance between homes.

(c) A county is not precluded by (a) or (b) of this subsection from restricting the location of a manufactured/mobile home in manufactured/mobile home communities for any other reason including, but not limited to, failure to comply with fire, safety, or other local ordinances or state laws related to manufactured/mobile homes.

(3) A county may not adopt an ordinance that has the effect, directly or indirectly, of preventing the entry or requiring the removal of a recreational vehicle used as a primary residence in manufactured/mobile home communities, as defined in RCW 59.20.030, unless the recreational vehicle fails to comply with the fire, safety, or other local ordinances or state laws related to recreational vehicles.

Clarifying reimbursement for certain clean-up or removal actions by fire protection jurisdictions.

The bill was read the second time.

Representative Pollet moved the adoption of the striking amendment (369):

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. A new section is added to chapter 52.30 RCW to read as follows:

(1) A fire service jurisdiction is entitled to recover from any liable party the reasonable costs associated with the cleanup or removal of hazardous waste and other hazardous materials, including debris or vehicle operating fluids, when responding to an incident on private or public property, including public roadways. A liable party must submit the reasonable costs from the jurisdiction or its designee, for the jurisdiction's cleanup or removal services, to any insurer that provides the coverage for property damage in which they become legally obligated or responsible for causing. If a liable party does not submit the invoice or bill for the reasonable costs received from the jurisdiction or its designee to their insurer within fourteen days of receipt of an invoice or bill, then the jurisdiction or its designee may directly submit the claim to the liable party's insurer for consideration of policy coverage. If coverage is found within a liable party's insurance policy, the insurer may issue payment directly to the jurisdiction and apply the claim expense to the policy's limit of liability. If there are multiple liable parties involved, the jurisdiction may only recover the proportional amount of liability legally determined for each party. The jurisdiction may not recover from any one liable party, or all liable parties combined, more than the actual costs incurred with the cleanup and removal of the hazardous waste and other hazardous materials, including debris or vehicle operating fluids, when responding to an incident on private or public property, including public roadways.

(2) For the purposes of this section, the following definitions apply:

(a) "Incident" means an unplanned, unintentional action or situation and that necessitates a fire service jurisdiction response, including but not limited to a motor vehicle accident, hazardous material spill, unauthorized burn, boating accident, or airplane crash.

(b) "Insurer" means the same as defined in RCW 48.01.050.

(c) "Vehicle" means any mode of transportation operated by a liable party and involved in an incident, including but not limited to automobiles, trucks, boats, aircraft, trains, and motorbikes.

(d) "Liable party" means a person or entity that is legally obligated or responsible for causing an incident.

(e) "Fire service jurisdiction" or "jurisdiction" means a fire protection district or regional fire protection service authority.

NEW SECTION. Sec. 2. A new section is added to chapter 35.103 RCW to read as follows:

(1) A municipal fire department, or department, is entitled to recover from any liable party the reasonable costs associated with the cleanup or removal of hazardous waste and other hazardous materials, including debris or vehicle operating fluids, when responding to an incident on private or public property, including public roadways. A liable party must submit the reasonable costs from the department or its designee, for the department's cleanup or removal services, to any insurer that provides the coverage for property damage in which they become legally obligated or responsible for causing. If a liable party does not submit the invoice or bill for the reasonable costs received from the department or its designee to their insurer within fourteen days of receipt of an invoice or bill, then the department or its designee may directly submit the claim to the liable party's insurer for consideration of policy coverage. If coverage is found within a liable party's insurance policy, the insurer may issue payment directly to the department and apply the claim expense to the policy's limit of liability. If there are multiple liable parties involved, the department may only recover the proportional amount of liability legally determined for each party. The department may not recover from any one liable party, or all liable parties combined, more than the actual costs incurred with the cleanup and removal of the hazardous waste and other hazardous materials, including debris or vehicle operating fluids, when responding to an incident on private or public property, including public roadways.

(2) For the purposes of this section, the following definitions apply:

(a) "Incident" means an unplanned, unintentional action or situation and that necessitates a fire service jurisdiction response, including but not limited to a motor vehicle accident, hazardous material spill, unauthorized burn, boating accident, or airplane crash.

(b) "Insurer" means the same as defined in RCW 48.01.050.

(c) "Vehicle" means any mode of transportation operated by a liable party and involved in an incident, including but not limited to automobiles, trucks, boats, aircraft, trains, and motorbikes.

(a) Authorize development of an average of at least fifty residential units per acre in one or more areas of not fewer than five hundred acres that include one or more train stations served by commuter rail or light rail;

(b) Authorize development of an average of at least twenty-five residential units per acre in one or more areas of

not fewer than five hundred acres that include one or more bus stops served by scheduled bus service of at least four times per hour for twelve or more hours per day;

(e) Require no more than one on-site parking space per two bedrooms in multifamily zones that are located within one-half mile of a fixed guideway transit station;

(1) In addition to the requirements set forth in RCW 36.70A.070(2) for the housing element of a comprehensive plan, a city planning pursuant to RCW 36.70A.040 with a population greater than ten thousand is encouraged to update the housing element of its comprehensive plan as described in subsection (2) of this section.

(e) Analyze population and employment trends, with documentation of projections;

(f) Include an eight-year schedule of programs and actions to implement the policies of the housing element and to accommodate the planned affordable housing units, including incentives and funding for affordable housing; and

Sec. 9. RCW 7.70.065 and 2017 c 275 s 1 are each amended to read as follows:

(1) Informed consent for health care for a patient who is not competent, as defined in RCW 11.88.010(1)(e), to consent may be obtained from a person authorized to consent on behalf of such patient.

(a) Persons authorized to provide informed consent to health care on behalf of a patient who is not competent to consent, based upon a reason other than incapacity as

defined in RCW 11.88.010(1)(d), shall be a member of one of the following classes of persons in the following order of priority:

(i) The appointed guardian of the patient, if any;

(ii) The individual, if any, to whom the patient has given a durable power of attorney that encompasses the authority to make health care decisions;

However, no person under this section may provide informed consent to health care:

(i) If a person of higher priority under this section has refused to give such authorization; or

(ii) If there are two or more individuals in the same class and the decision is not unanimous among all available members of that class.

(c) Before any person authorized to provide informed consent on behalf of a patient not competent to consent under RCW 11.88.010(1)(e), other than a person determined to be incapacitated because he or she is under the age of majority and who is not otherwise authorized to provide informed consent, exercises that authority, the person must first determine in good faith that that patient, if competent, would consent to the proposed health care. If such a determination cannot be made, the decision to consent to the proposed health care may be made only after determining that the proposed health care is in the patient's best interests.

(2) Informed consent for health care, including mental health care, for a patient who is not competent, as defined in RCW 11.88.010(1)(e), because he or she is under the age of majority and who is not otherwise authorized to provide informed consent, may be obtained from a person authorized to consent on behalf of such a patient.

(v) A competent adult representing himself or herself to be a relative responsible for the health care of such minor patient or a competent adult who has signed and dated a declaration under penalty of perjury pursuant to ~~((RCW 9A.72.085))~~ chapter 5.50 RCW stating that the adult person is a relative responsible for the health care of the minor patient. Such declaration shall be effective for up to six months from the date of the declaration.

(b)(i) Informed consent for health care on behalf of a patient who is incapacitated, as defined in RCW 11.88.010(1)(e), because he or she is under the age of majority and who is not otherwise authorized to provide informed consent may be obtained from a school nurse, school counselor, or homeless student liaison when:

(A) Consent is necessary for nonemergency, outpatient, primary care services, including physical examinations, vision examinations and eyeglasses, dental examinations, hearing examinations and hearing aids, immunizations, treatments for illnesses and conditions, and routine follow-up care customarily provided by a health care provider in an outpatient setting, excluding elective surgeries;

(B) The minor patient meets the definition of a "homeless child or youth" under the federal McKinney-Vento homeless education assistance improvements act of 2001, P.L. 107-110, January 8, 2002, 115 Stat. 2005; and

Nothing in this section prevents a health care facility or a health care provider from seeking reimbursement from other sources for care provided to a minor patient under this subsection (2)(b).

(iii) Upon request by a health care facility or a health care provider, a person authorized to consent to care under this subsection (2)(b) must provide to the person rendering care a declaration signed and dated under penalty of perjury pursuant to ~~((RCW 9A.72.085))~~ chapter 5.50 RCW stating that the person is a school nurse, school counselor, or homeless student liaison and that the minor patient meets the elements under (b)(i) of this subsection. The declaration must also include written notice of the exemption from liability under (b)(ii) of this subsection.

(c) A health care provider may, but is not required to, rely on the representations or declaration of a person claiming to be a relative responsible for the care of the minor patient, under (a)(v) of this subsection, or a person claiming to be authorized to consent to the health care of the minor patient under (b) of this subsection, if the health care provider does not have actual notice of the falsity of any of the statements made by the person claiming to be a relative responsible for the health care of the minor patient, or person

claiming to be authorized to consent to the health care of the minor patient.

(d) A health care facility or a health care provider may, in its discretion, require documentation of a person's claimed status as being a relative responsible for the health care of the minor patient, or a person claiming to be authorized to consent to the health care of the minor patient under (b) of this subsection. However, there is no obligation to require such documentation.

(e) The health care provider or health care facility where services are rendered shall be immune from suit in any action, civil or criminal, or from professional or other disciplinary action when such reliance is based on a declaration signed under penalty of perjury pursuant to ~~((RCW 9A.72.085))~~ chapter 5.50 RCW stating that the adult person is a relative responsible for the health care of the minor patient under (a)(v) of this subsection, or a person claiming to be authorized to consent to the health care of the minor patient under (b) of this subsection.

(3) For the purposes of this section, "health care," "health care provider," and "health care facility" shall be defined as established in RCW 70.02.010.

Sec. 10. RCW 9A.04.030 and 1999 c 349 s 1 are each amended to read as follows:

The following persons are liable to punishment:

Sec. 16. RCW 39.04.350 and 2018 c 243 s 1 are each amended to read as follows:

(1) Before award of a public works contract, a bidder must meet the following responsibility criteria to be considered a responsible bidder and qualified to be awarded a public works project. The bidder must:

- (a) At the time of bid submittal, have a certificate of registration in compliance with chapter 18.27 RCW;
- (b) Have a current state unified business identifier number;
- (c) If applicable, have industrial insurance coverage for the bidder's employees working in Washington as required in Title 51 RCW; an employment security department number as required in Title 50 RCW; and a state excise tax registration number as required in Title 82 RCW;
- (d) Not be disqualified from bidding on any public works contract under RCW 39.06.010 or 39.12.065(3);
- (e) If bidding on a public works project subject to the apprenticeship utilization requirements in RCW 39.04.320, not have been found out of compliance by the Washington state apprenticeship and training council for working apprentices out of ratio, without appropriate supervision, or outside their approved work processes as outlined in their standards of apprenticeship under chapter 49.04 RCW for the one-year period immediately preceding the date of the bid solicitation;
- (f) Have received training on the requirements related to public works and prevailing wage under this chapter and chapter 39.12 RCW. The bidder must designate a person or persons to be trained on these requirements. The

training must be provided by the department of labor and industries or by a training provider whose curriculum is approved by the department. The department, in consultation with the prevailing wage advisory committee, must determine the length of the training. Bidders that have completed three or more public works projects and have had a valid business license in Washington for three or more years are exempt from this subsection. The department of labor and industries must keep records of entities that have satisfied the training requirement or are exempt and make the records available on its web site. Responsible parties may rely on the records made available by the department regarding satisfaction of the training requirement or exemption; and

(g) Within the three-year period immediately preceding the date of the bid solicitation, not have been determined by a final and binding citation and notice of assessment issued by the department of labor and industries or through a civil judgment entered by a court of limited or general jurisdiction to have willfully violated, as defined in RCW 49.48.082, any provision of chapter 49.46, 49.48, or 49.52 RCW.

(2) Before award of a public works contract, a bidder shall submit to the contracting agency a signed statement in accordance with (~~RCW 9A.72.085~~) chapter 5.50 RCW verifying under penalty of perjury that the bidder is in compliance with the responsible bidder criteria requirement of subsection (1)(g) of this section. A contracting agency may award a contract in reasonable reliance upon such a sworn statement.

(3) In addition to the bidder responsibility criteria in subsection (1) of this section, the state or municipality may adopt relevant supplemental criteria for determining bidder responsibility applicable to a particular project which the bidder must meet.

(a) Supplemental criteria for determining bidder responsibility, including the basis for evaluation and the deadline for appealing a determination that a bidder is not responsible, must be provided in the invitation to bid or bidding documents.

(b) In a timely manner before the bid submittal deadline, a potential bidder may request that the state or municipality modify the supplemental criteria. The state or municipality must evaluate the information submitted by the potential bidder and respond before the bid submittal deadline. If the evaluation results in a change of the criteria, the state or municipality must issue an addendum to the bidding documents identifying the new criteria.

(c) If the bidder fails to supply information requested concerning responsibility within the time and manner specified in the bid documents, the state or municipality may base its determination of responsibility upon any available information related to the supplemental criteria or may find the bidder not responsible.

(d) If the state or municipality determines a bidder to be not responsible, the state or municipality must provide, in writing, the reasons for the determination. The bidder may appeal the determination within the time period specified in the bidding documents by presenting additional information to the state or municipality. The state or municipality must consider the additional information before issuing its final determination. If the final determination affirms that the

bidder is not responsible, the state or municipality may not execute a contract with any other bidder until two business days after the bidder determined to be not responsible has received the final determination.

(4) The capital projects advisory review board created in RCW 39.10.220 shall develop suggested guidelines to assist the state and municipalities in developing supplemental bidder responsibility criteria. The guidelines must be posted on the board's web site.

Sec. 17. RCW 39.26.160 and 2017 c 258 s 3 are each amended to read as follows:

(1)(a) After bids that are submitted in response to a competitive solicitation process are reviewed by the awarding agency, the awarding agency may:

(ii) Request best and final offers from responsive and responsible bidders; or

(iii) Award the purchase or contract to the lowest responsive and responsible bidder.

(b) The agency may award one or more contracts from a competitive solicitation.

(2) In determining whether the bidder is a responsible bidder, the agency must consider the following elements:

(a) The ability, capacity, and skill of the bidder to perform the contract or provide the service required;

(b) The character, integrity, reputation, judgment, experience, and efficiency of the bidder;

(c) Whether the bidder can perform the contract within the time specified;

(d) The quality of performance of previous contracts or services;

(e) The previous and existing compliance by the bidder with laws relating to the contract or services;

(f) Whether, within the three-year period immediately preceding the date of the bid solicitation, the bidder has been determined by a final and binding citation and notice of assessment issued by the department of labor and industries or through a civil judgment entered by a court of limited or general jurisdiction to have willfully violated, as defined in RCW 49.48.082, any provision of chapter 49.46, 49.48, or 49.52 RCW; and

(g) Such other information as may be secured having a bearing on the decision to award the contract.

(3) In determining the lowest responsive and responsible bidder, an agency may consider best value criteria, including but not limited to:

(a) Whether the bid satisfies the needs of the state as specified in the solicitation documents;

(b) Whether the bid encourages diverse contractor participation;

(c) Whether the bid provides competitive pricing, economies, and efficiencies;

(d) Whether the bid considers human health and environmental impacts;

(e) Whether the bid appropriately weighs cost and noncost considerations; and

(f) Life-cycle cost.

(4) The solicitation document must clearly set forth the requirements and criteria that the agency will apply in evaluating bid submissions. Before award of a contract, a bidder shall submit to the contracting agency a signed statement in accordance with (~~RCW 9A.72.085~~) chapter 5.50 RCW verifying under penalty of perjury that the bidder is in compliance with the responsible bidder criteria requirement of subsection (2)(f) of this section. A contracting agency may award a contract in reasonable reliance upon such a sworn statement.

(5) The awarding agency may at its discretion reject the bid of any contractor who has failed to perform satisfactorily on a previous contract with the state.

(6) After reviewing all bid submissions, an agency may enter into negotiations with the lowest responsive and responsible bidder in order to determine if the bid may be improved. An agency may not use this negotiation opportunity to permit a bidder to change a nonresponsive bid into a responsive bid.

(7) The procuring agency must enter into the state's enterprise vendor registration and bid notification system the name of each bidder and an indication as to the successful bidder.

Sec. 21. RCW 46.16A.435 and 2011 c 121 s 3 are each amended to read as follows:

(1) The department shall establish a declaration subject to the requirements of ~~((RCW 9A.72.085))~~ chapter 5.50 RCW, which must be submitted by an off-road motorcycle owner when applying for on-road registration of the off-road motorcycle. (4) The department must track off-road motorcycles in a separate registration category for reporting purposes.

Sec. 22. RCW 46.20.308 and 2016 c 203 s 15 are each amended to read as follows:

(1) Any person who operates a motor vehicle within this state is deemed to have given consent, subject to the provisions of RCW 46.61.506, to a test or tests of his or her

breath for the purpose of determining the alcohol concentration in his or her breath if arrested for any offense where, at the time of the arrest, the arresting officer has reasonable grounds to believe the person had been driving or was in actual physical control of a motor vehicle while under the influence of intoxicating liquor or any drug or was in violation of RCW 46.61.503.

(2) The test or tests of breath shall be administered at the direction of a law enforcement officer having reasonable grounds to believe the person to have been driving or in actual physical control of a motor vehicle within this state while under the influence of intoxicating liquor or any drug or the person to have been driving or in actual physical control of a motor vehicle while having alcohol in a concentration in violation of RCW 46.61.503 in his or her system and being under the age of twenty-one. Prior to administering a breath test pursuant to this section, the officer shall inform the person of his or her right under this section to refuse the breath test, and of his or her right to have additional tests administered by any qualified person of his or her choosing as provided in RCW 46.61.506. The officer shall warn the driver, in substantially the following language, that:

(a) If the driver refuses to take the test, the driver's license, permit, or privilege to drive will be revoked or denied for at least one year; and

(b) If the driver refuses to take the test, the driver's refusal to take the test may be used in a criminal trial; and

(c) If the driver submits to the test and the test is administered, the driver's license, permit, or privilege to drive will be suspended, revoked, or denied for at least ninety days if:

(i) The driver is age twenty-one or over and the test indicates either that the alcohol concentration of the driver's breath is 0.08 or more; or

(ii) The driver is under age twenty-one and the test indicates either that the alcohol concentration of the driver's breath is 0.02 or more; or

(iii) The driver is under age twenty-one and the driver is in violation of RCW 46.61.502 or 46.61.504; and

(d) If the driver's license, permit, or privilege to drive is suspended, revoked, or denied the driver may be eligible to immediately apply for an ignition interlock driver's license.

(3) If, following his or her arrest and receipt of warnings under subsection (2) of this section, the person arrested exercises the right, granted herein, by refusing upon the request of a law enforcement officer to submit to a test or tests of his or her breath, no test shall be given except as otherwise authorized by law.

(4) Nothing in subsection (1), (2), or (3) of this section precludes a law enforcement officer from obtaining a person's blood to test for alcohol, marijuana, or any drug, pursuant to a search warrant, a valid waiver of the warrant requirement, when exigent circumstances exist, or under any other authority of law. Any blood drawn for the purpose of determining the person's alcohol, marijuana levels, or any drug, is drawn pursuant to this section when the officer has reasonable grounds to believe that the person is in physical control or driving a vehicle under the influence or in violation of RCW 46.61.503.

(5) If, after arrest and after any other applicable conditions and requirements of this section have been satisfied, a test or tests of the person's blood or breath is administered and the test results indicate that the alcohol concentration of the person's breath or blood is 0.08 or more, or the THC concentration of the person's blood is 5.00 or more, if the person is age twenty-one or over, or that the alcohol concentration of the person's breath or blood is 0.02 or more, or the THC concentration of the person's blood is above 0.00, if the person is under the age of twenty-one, or the person refuses to submit to a test, the arresting officer or other law enforcement officer at whose direction any test has been given, or the department, where applicable, if the arrest results in a test of the person's blood, shall:

(a) Serve notice in writing on the person on behalf of the department of its intention to suspend, revoke, or deny the person's license, permit, or privilege to drive as required by subsection (6) of this section;

(b) Serve notice in writing on the person on behalf of the department of his or her right to a hearing, specifying the steps he or she must take to obtain a hearing as provided by subsection (7) of this section;

(c) Serve notice in writing that the license or permit, if any, is a temporary license that is valid for thirty days from the date of arrest or from the date notice has been given in the event notice is given by the department following a blood test, or until the suspension, revocation, or denial of the person's license, permit, or privilege to drive is sustained at a hearing pursuant to subsection (7) of this section, whichever occurs first. No temporary license is valid to any greater degree than the license or permit that it replaces; and

(d) Immediately notify the department of the arrest and transmit to the department within seventy-two hours, except as delayed as the result of a blood test, a sworn report or report under a declaration authorized by ((RCW 9A.72.085)) chapter 5.50 RCW that states:

(i) That the officer had reasonable grounds to believe the arrested person had been driving or was in actual physical control of a motor vehicle within this state while under the influence of intoxicating liquor or drugs, or both, or was under the age of twenty-one years and had been driving or was in actual physical control of a motor vehicle while having an alcohol or THC concentration in violation of RCW 46.61.503;

(ii) That after receipt of any applicable warnings required by subsection (2) of this section the person refused to submit to a test of his or her breath, or a test was administered and the results indicated that the alcohol concentration of the person's breath or blood was 0.08 or more, or the THC concentration of the person's blood was 5.00 or more, if the person is age twenty-one or over, or that the alcohol concentration of the person's breath or blood was 0.02 or more, or the THC concentration of the person's blood was above 0.00, if the person is under the age of twenty-one; and

(iii) Any other information that the director may require by rule.

(6) The department of licensing, upon the receipt of a sworn report or report under a declaration authorized by ((RCW 9A.72.085)) chapter 5.50 RCW under subsection (5)(d) of this section, shall suspend, revoke, or deny the person's license, permit, or privilege to drive or any

nonresident operating privilege, as provided in RCW 46.20.3101, such suspension, revocation, or denial to be effective beginning thirty days from the date of arrest or from the date notice has been given in the event notice is given by the department following a blood test, or when sustained at a hearing pursuant to subsection (7) of this section, whichever occurs first.

(7) A person receiving notification under subsection (5)(b) of this section may, within seven days after the notice has been given, request in writing a formal hearing before the department. The person shall pay a fee of three hundred seventy-five dollars as part of the request. If the request is mailed, it must be postmarked within seven days after receipt of the notification. Upon timely receipt of such a request for a formal hearing, including receipt of the required three hundred seventy-five dollar fee, the department shall afford the person an opportunity for a hearing. The department may waive the required three hundred seventy-five dollar fee if the person is an indigent as defined in RCW 10.101.010. Except as otherwise provided in this section, the hearing is subject to and shall be scheduled and conducted in accordance with RCW 46.20.329 and 46.20.332. The hearing shall be conducted in the county of the arrest, except that all or part of the hearing may, at the discretion of the department, be conducted by telephone or other electronic means. The hearing shall be held within thirty days, excluding Saturdays, Sundays, and legal holidays, following the date of timely receipt of such request for a formal hearing before the department or thirty days, excluding Saturdays, Sundays, and legal holidays following the date notice has been given in the event notice is given by the department following a blood test, unless otherwise agreed to by the department and the person, in which case the action by the department shall be stayed, and any valid temporary license under subsection (5) of this section extended, if the person is otherwise eligible for licensing. Unless otherwise agreed to by the department and the person, the department must give five days notice of the hearing to the person. For the purposes of this section, the scope of the hearing shall cover the issues of whether a law enforcement officer had reasonable grounds to believe the person had been driving or was in actual physical control of a motor vehicle within this state while under the influence of intoxicating liquor or any drug or had been driving or was in actual physical control of a motor vehicle within this state while having alcohol in his or her system in a concentration of 0.02 or more, or THC in his or her system in a concentration above 0.00, if the person was under the age of twenty-one, whether the person was placed under arrest, and (a) whether the person refused to submit to the test or tests upon request of the officer after having been informed that such refusal would result in the revocation of the person's license, permit, or privilege to drive, or (b) if a test or tests were administered, whether the applicable requirements of this section were satisfied before the administration of the test or tests, whether the person submitted to the test or tests, or whether a test was administered pursuant to a search warrant, a valid waiver of the warrant requirement, when exigent circumstances exist, or under any other authority of law as permitted under this section, and whether the test or tests indicated that the alcohol concentration of the person's breath or blood was 0.08 or more, or the THC concentration of the person's blood

was 5.00 or more, if the person was age twenty-one or over at the time of the arrest, or that the alcohol concentration of the person's breath or blood was 0.02 or more, or the THC concentration of the person's blood was above 0.00, if the person was under the age of twenty-one at the time of the arrest. Where a person is found to be in actual physical control of a motor vehicle while under the influence of intoxicating liquor or any drug or was under the age of twenty-one at the time of the arrest and was in physical control of a motor vehicle while having alcohol in his or her system in a concentration of 0.02 or THC concentration above 0.00, the person may petition the hearing officer to apply the affirmative defense found in RCW 46.61.504(3) and 46.61.503(2). The driver has the burden to prove the affirmative defense by a preponderance of the evidence. The sworn report or report under a declaration authorized by ((RCW 9A.72.085)) chapter 5.50 RCW submitted by a law enforcement officer is prima facie evidence that the officer had reasonable grounds to believe the person had been driving or was in actual physical control of a motor vehicle within this state while under the influence of intoxicating liquor or drugs, or both, or the person had been driving or was in actual physical control of a motor vehicle within this state while having alcohol in his or her system in a concentration of 0.02 or more, or THC in his or her system in a concentration above 0.00, and was under the age of twenty-one and that the officer complied with the requirements of this section.

A hearing officer shall conduct the hearing, may issue subpoenas for the attendance of witnesses and the production of documents, and shall administer oaths to witnesses. The hearing officer shall not issue a subpoena for the attendance of a witness at the request of the person unless the request is accompanied by the fee required by RCW 5.56.010 for a witness in district court. The sworn report or report under a declaration authorized by ((RCW 9A.72.085)) chapter 5.50 RCW of the law enforcement officer and any other evidence accompanying the report shall be admissible without further evidentiary foundation and the certifications authorized by the criminal rules for courts of limited jurisdiction shall be admissible without further evidentiary foundation. The person may be represented by counsel, may question witnesses, may present evidence, and may testify. The department shall order that the suspension, revocation, or denial either be rescinded or sustained.

(8) If the suspension, revocation, or denial is sustained after such a hearing, the person whose license, privilege, or permit is suspended, revoked, or denied has the right to file a petition in the superior court of the county of arrest to review the final order of revocation by the department in the same manner as an appeal from a decision of a court of limited jurisdiction. Notice of appeal must be filed within thirty days after the date the final order is served or the right to appeal is waived. Notwithstanding RCW 46.20.334, RALJ 1.1, or other statutes or rules referencing de novo review, the appeal shall be limited to a review of the record of the administrative hearing. The appellant must pay the costs associated with obtaining the record of the hearing before the hearing officer. The filing of the appeal does not stay the effective date of the suspension, revocation, or denial. A petition filed under this subsection must include the petitioner's grounds for requesting review. Upon

granting petitioner's request for review, the court shall review the department's final order of suspension, revocation, or denial as expeditiously as possible. The review must be limited to a determination of whether the department has committed any errors of law. The superior court shall accept those factual determinations supported by substantial evidence in the record: (a) That were expressly made by the department; or (b) that may reasonably be inferred from the final order of the department. The superior court may reverse, affirm, or modify the decision of the department or remand the case back to the department for further proceedings. The decision of the superior court must be in writing and filed in the clerk's office with the other papers in the case. The court shall state the reasons for the decision. If judicial relief is sought for a stay or other temporary remedy from the department's action, the court shall not grant such relief unless the court finds that the appellant is likely to prevail in the appeal and that without a stay the appellant will suffer irreparable injury. If the court stays the suspension, revocation, or denial it may impose conditions on such stay.

(9)(a) If a person whose driver's license, permit, or privilege to drive has been or will be suspended, revoked, or denied under subsection (6) of this section, other than as a result of a breath test refusal, and who has not committed an offense for which he or she was granted a deferred prosecution under chapter 10.05 RCW, petitions a court for a deferred prosecution on criminal charges arising out of the arrest for which action has been or will be taken under subsection (6) of this section, or notifies the department of licensing of the intent to seek such a deferred prosecution, then the license suspension or revocation shall be stayed pending entry of the deferred prosecution. The stay shall not be longer than one hundred fifty days after the date charges are filed, or two years after the date of the arrest, whichever time period is shorter. If the court stays the suspension, revocation, or denial, it may impose conditions on such stay. If the person is otherwise eligible for licensing, the department shall issue a temporary license, or extend any valid temporary license under subsection (5) of this section, for the period of the stay. If a deferred prosecution treatment plan is not recommended in the report made under RCW 10.05.050, or if treatment is rejected by the court, or if the person declines to accept an offered treatment plan, or if the person violates any condition imposed by the court, then the court shall immediately direct the department to cancel the stay and any temporary license or extension of a temporary license issued under this subsection.

(b) A suspension, revocation, or denial imposed under this section, other than as a result of a breath test refusal, shall be stayed if the person is accepted for deferred prosecution as provided in chapter 10.05 RCW for the incident upon which the suspension, revocation, or denial is based. If the deferred prosecution is completed, the stay shall be lifted and the suspension, revocation, or denial canceled.

(c) The provisions of (b) of this subsection relating to a stay of a suspension, revocation, or denial and the cancellation of any suspension, revocation, or denial do not apply to the suspension, revocation, denial, or

(10) When it has been finally determined under the procedures of this section that a nonresident's privilege to operate a motor vehicle in this state has been suspended, revoked, or denied, the department shall give information in writing of the action taken to the motor vehicle administrator of the state of the person's residence and of any state in which he or she has a license.

Sec. 23. RCW 46.20.720 and 2017 c 336 s 5 are each amended to read as follows:

(e) **Court order.** Upon receipt of an order by a court having jurisdiction that a person charged or convicted of any offense involving the use, consumption, or possession of alcohol while operating a motor vehicle may drive only a motor vehicle equipped with a functioning ignition interlock. The court shall establish a specific calibration setting at which the ignition interlock will prevent the vehicle from being started. The court shall also establish the period of time for which ignition interlock use will be required.

(2) **Calibration.** Unless otherwise specified by the court for a restriction imposed under subsection (1)(e) of this section, the ignition interlock device shall be calibrated to prevent the motor vehicle from being started when the breath sample provided has an alcohol concentration of 0.025 or more.

(3) **Duration of restriction.** A restriction imposed under:

(a) Subsection (1)(a) of this section shall remain in effect until:

(i) The court has authorized the removal of the device under RCW 10.21.055; or

(ii) The department has imposed a restriction under subsection (1)(b), (c), or (d) of this section arising out of the same incident.

(b) Subsection (1)(b) of this section remains in effect during the validity of any ignition interlock driver's license that has been issued to the person.

(c) Subsection (1)(c)(i) or (d)(i) of this section shall be for no less than:

(i) For a person who has not previously been restricted under this subsection, a period of one year;

(ii) For a person who has previously been restricted under (c)(i) of this subsection, a period of five years;

(iii) For a person who has previously been restricted under (c)(ii) of this subsection, a period of ten years.

The restriction of a person who is convicted of a violation of RCW 46.61.502 or 46.61.504 or an equivalent local ordinance and who committed the offense while a passenger under the age of sixteen was in the vehicle shall be extended for an additional six-month period as required by RCW 46.61.5055(6)(a).

(d) Subsection (1)(c)(ii) or (d)(ii) of this section shall be for a period of no less than six months.

(e) Subsection (1)(e) of this section shall remain in effect for the period of time specified by the court.

The period of restriction under (c) and (d) of this subsection based on incidents occurring on or after June 9, 2016, must be tolled for any period in which the person does not have an ignition interlock device installed on a vehicle owned or operated by the person unless the person receives a determination from the department that the person is unable to operate an ignition interlock device due to a physical disability. The department's determination that a person is unable to operate an ignition interlock device must be reasonable and be based upon good and substantial evidence. This determination is subject to review by a court of competent jurisdiction. The department may charge a person seeking a medical exemption under this subsection a reasonable fee for the assessment.

(4) Requirements for removal. A restriction imposed under subsection (1)(c) or (d) of this section shall remain in effect until the department receives a declaration from the person's ignition interlock device vendor, in a form provided or approved by the department, certifying that there have been none of the following incidents in the one hundred eighty consecutive days prior to the date of release:

(a) Any attempt to start the vehicle with a breath alcohol concentration of 0.04 or more unless a subsequent test performed within ten minutes registers a breath alcohol concentration lower than 0.04 and the digital image confirms the same person provided both samples;

(b) Failure to take any random test unless a review of the digital image confirms that the vehicle was not occupied by the driver at the time of the missed test;

(c) Failure to pass any random retest with a breath alcohol concentration of 0.025 or lower unless a subsequent test performed within ten minutes registers a breath alcohol concentration lower than 0.025, and the digital image confirms the same person provided both samples; or

(d) Failure of the person to appear at the ignition interlock device vendor when required for maintenance, repair, calibration, monitoring, inspection, or replacement of the device.

(5) Day-for-day credit. (a) The time period during which a person has an ignition interlock device installed in order to meet the requirements of subsection (1)(b) of this section shall apply on a day-for-day basis toward satisfying the period of time the ignition interlock device restriction is imposed under subsection (1)(c) or (d) of this section arising out of the same incident.

(b) The department must also give the person a day-for-day credit for any time period, beginning from the date of the incident, during which the person kept an ignition interlock device installed on all vehicles the person operates, other than those subject to the employer exemption under subsection (6) of this section.

(c) If the day-for-day credit granted under this subsection equals or exceeds the period of time the ignition interlock device restriction is imposed under subsection (1)(c) or (d) of this section arising out of the same incident, and the person has already met the requirements for removal of the device under subsection (4) of this section, the department may waive the requirement that a device be installed or that the person again meet the requirements for removal.

(6) Employer exemption. (a) Except as provided in (b) of this subsection, the installation of an ignition interlock device is not necessary on vehicles owned, leased, or rented by a person's employer and on those vehicles whose care and/or maintenance is the temporary responsibility of the employer, and driven at the direction of a person's employer as a requirement of employment during working hours. The person must provide the department with a declaration pursuant to ~~((RCW 9A.72.085))~~ chapter 5.50 RCW from his or her employer stating that the person's employment requires the person to operate a vehicle owned by the employer or other persons during working hours.

(b) The employer exemption does not apply when the employer's vehicle is assigned exclusively to the restricted driver and used solely for commuting to and from employment.

(7) Ignition interlock device revolving account. In addition to any other costs associated with the use of an ignition interlock device imposed on the person restricted under this section, the person shall pay an additional fee of twenty dollars per month. Payments must be made directly to the ignition interlock company. The company shall remit the additional fee to the department to be deposited into the ignition interlock device revolving account, except that the company may retain twenty-five cents per month of the additional fee to cover the expenses associated with administering the fee. The department may waive the monthly fee if the person is indigent under RCW 10.101.010.

(8) Foreign jurisdiction. For a person restricted under this section who is residing outside of the state of Washington, the department may accept verification of installation of an ignition interlock device by an ignition interlock company authorized to do business in the jurisdiction in which the person resides, provided the device meets any applicable requirements of that jurisdiction. The department may waive the monthly fee required by

subsection (7) of this section if collection of the fee would be impractical in the case of a person residing in another jurisdiction.

E2SSB 5116 Prime Sponsor, Committee on Ways & Means: Supporting Washington's clean energy economy and transitioning to a

clean, affordable, and reliable energy future. Reported by Committee on Finance

MAJORITY recommendation: Do pass as amended by Committee on Finance and without amendment by Committee on Environment & Energy.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. (1) The legislature finds that Washington must address the impacts of climate change by leading the transition to a clean energy economy. One way in which Washington must lead this transition is by transforming its energy supply, modernizing its electricity system, and ensuring that the benefits of this transition are broadly shared throughout the state.

(2) With our wealth of carbon-free hydropower, Washington has some of the cleanest electricity in the United States. But electricity remains a large source of emissions in our state. We are at a critical juncture for transforming our electricity system. It is the policy of the state to eliminate coal-fired electricity, transition the state's electricity supply to one hundred percent carbon-neutral by 2030, and one hundred percent carbon-free by 2045. In implementing this chapter, the state must prioritize the maximization of family wage job creation, seek to ensure that all customers are benefiting from the transition to a clean energy economy, and provide safeguards to ensure that the achievement of this policy does not impair the reliability of the electricity system or impose unreasonable costs on utility customers.

(3) The transition to one hundred percent clean energy is underway, but must happen faster than our current policies can deliver. Absent significant and swift reductions in greenhouse gas emissions, climate change poses immediate significant threats to our economy, health, safety, and national security. The prices of clean energy technologies continue to fall, and are, in many cases, competitive or even cheaper than conventional energy sources.

(4) The legislature finds that Washington can accomplish the goals of this act while: Promoting energy independence; creating high-quality jobs in the clean energy sector; maximizing the value of hydropower, our principal renewable resource; continuing to encourage and provide incentives for clean alternative energy sources, including providing electricity for the transportation sector; maintaining safe and reliable electricity to all customers at stable and affordable rates; and protecting clean air and water in the Pacific Northwest. Clean energy creates more jobs per unit of energy produced than fossil fuel sources, so this transition will contribute to job growth in Washington while addressing our climate crisis head on. Our abundance of renewable energy and our strong clean technology sector make Washington well positioned to be at the forefront of the transition to one hundred percent clean electricity.

(5) The legislature declares that utilities in the state have an important role to play in this transition, and must be fully empowered, through regulatory tools and incentives, to achieve the goals of this policy. In combination with new technology and emerging opportunities for customers, this

policy will spur transformational change in the utility industry. Given these changes, the legislature recognizes and finds that the utilities and transportation commission's statutory grant of authority for rate making includes consideration and implementation of performance and incentive-based regulation, multiyear rate plans, and other flexible regulatory mechanisms where appropriate to achieve fair, just, reasonable, and sufficient rates and its public interest objectives.

(6) The legislature recognizes and finds that the public interest includes, but is not limited to: The equitable distribution of energy benefits and reduction of burdens to vulnerable populations and highly impacted communities; long-term and short-term public health, economic, and environmental benefits and the reduction of costs and risks; and energy security and resiliency. It is the intent of the legislature that in achieving this policy for Washington, there should not be an increase in environmental health impacts to highly impacted communities.

(7) It is the intent of the legislature to provide flexible tools to address the variability of hydropower for compliance under this act.

NEW SECTION. Sec. 3. (1)(a) On or before December 31, 2025, each electric utility must eliminate coal-fired resources from its allocation of electricity. This does not include costs associated with decommissioning and remediation of these facilities.

(b) The commission shall allow in electric rates all decommissioning and remediation costs prudently incurred by an investor-owned utility for a coal-fired facility.

(2) The commission must accelerate depreciation schedules for any coal-fired resource to a date no later than December 31, 2025. The commission may accelerate the depreciation schedule for any qualified transmission line owned by an investor-owned utility when the commission finds the qualified transmission line is no longer used and useful and there is no reasonable likelihood that the qualified transmission line will be utilized in the future. The adjusted depreciation schedule must require such a qualified transmission line to be fully depreciated on or before December 31, 2025.

(3) The commission must allow in rates, directly or indirectly, amounts on an investor-owned utility's books of account that the commission finds represent prudently incurred undepreciated investment in a fossil fuel generating resource that has been retired from service when:

(a) The retirement is due to ordinary wear and tear, casualties, acts of God, acts of governmental authority, inability to procure or use fuel, termination or expiration of any ownership, or a operation agreement affecting such a fossil fuel generating resource; or

(b) The commission finds that the retirement is in the public interest.

(4) An electric utility that fails to comply with the requirements of subsection (1) of this section must pay the administrative penalty established under section 9(1) of this act, except as otherwise provided in this chapter.

NEW SECTION. Sec. 4. (1) It is the policy of the state that all retail sales of electricity to Washington retail electric customers be greenhouse gas neutral by January 1, 2030.

(a) For the four-year compliance period beginning January 1, 2030, and for each multiyear compliance period thereafter through December 31, 2044, an electric utility must demonstrate its compliance with this standard using a combination of nonemitting electric generation and electricity from renewable resources, or alternative compliance options, as provided in this section. To achieve compliance with this standard, an electric utility must: (i) Pursue all cost-effective, reliable, and feasible conservation and efficiency resources to reduce or manage retail electric load, using the methodology established in RCW 19.285.040, if applicable; and (ii) use electricity from renewable resources and nonemitting electric generation in an amount equal to one hundred percent of the utility's retail electric loads over each multiyear compliance period. An electric utility must achieve compliance with this standard for the following compliance periods: January 1, 2030, through December 31, 2033; January 1, 2034, through December 31, 2037; January 1, 2038, through December 31, 2041; and January 1, 2042, through December 31, 2044.

(b) Through December 31, 2044, an electric utility may satisfy up to twenty percent of its compliance obligation under (a) of this subsection with an alternative compliance option consistent with this section. An alternative compliance option may include any combination of the following:

(i) Making an alternative compliance payment under section 9(2) of this act;

(ii) Using unbundled renewable energy credits, provided that there is no double counting of any nonpower attributes associated with renewable energy credits within Washington or programs in other jurisdictions, as follows:

(A) Unbundled renewable energy credits used by the electric utility for compliance with RCW 19.285.040 in a RCW 19.285.040 compliance year within the compliance period under this section; and

(B) Unbundled renewable energy credits, other than those included in (b)(ii)(A) of this subsection, that represent electricity generated within the compliance period;

(iii) Investing in energy transformation projects, including additional conservation and efficiency resources beyond what is otherwise required under this section, provided the projects meet the requirements of subsection (2) of this section and are not credited as resources used to meet the standard under (a) of this subsection; or

(iv) Using electricity from an energy recovery facility using municipal solid waste as the principal fuel source, where the facility was constructed prior to 1992, and the facility is operated in compliance with federal laws and regulations and meets state air quality standards. An electric utility may only use electricity from such an energy recovery facility if the department and the department of ecology determine that electricity generation at the facility provides a net reduction in greenhouse gas emissions compared to any other available waste management best practice. The determination must be based on a life-cycle analysis comparing the energy recovery facility to other technologies available in the jurisdiction in which the facility is located for the waste management best practices of waste reduction, recycling, composting, and minimizing the use of a landfill.

(c) Electricity from renewable resources used to meet the standard under (a) of this subsection must be

verified by the retirement of renewable energy credits. Renewable energy credits must be tracked and retired in the tracking system selected by the department.

(d) Hydroelectric generation used by an electric utility in meeting the standard under (a) of this subsection may not include new diversions, new impoundments, new bypass reaches, or expansion of existing reservoirs constructed after the effective date of this section unless the diversions, bypass reaches, or reservoir expansions are necessary for the operation of a pumped storage facility that: (i) Does not conflict with existing state or federal fish recovery plans; and (ii) complies with all local, state, and federal laws and regulations.

(e) Nothing in (d) of this subsection precludes an electric utility that owns and operates hydroelectric generating facilities, or the owner of a hydroelectric generating facility whose energy output is marketed by the Bonneville power administration, from making efficiency or other improvements to its hydroelectric generating facilities existing as of the effective date of this section or from installing hydroelectric generation in pipes, culverts, irrigation canals, and other manmade waterways, as long as those changes do not create conflicts with existing state or federal fish recovery plans and comply with all local, state, and federal laws and regulations.

(f) Nonemitting electric generation resources used to meet the standard under (a) of this subsection must be generated during the compliance period and must be verified by documentation that the electric utility owns the nonpower attributes of the electricity generated by the nonemitting resource.

(g) Nothing in this section prohibits an electric utility from purchasing or exchanging power from the Bonneville power administration.

(2) Investments in energy transformation projects used to satisfy an alternative compliance option provided under subsection (1)(b) of this section must use criteria developed by the department of ecology, in consultation with the department and the commission. For the purpose of crediting an energy transformation project toward the standard in subsection (1)(a) of this section, the department of ecology must establish a conversion factor of emissions reductions resulting from energy transformation projects to megawatt-hours of electricity from nonemitting electric generation that is consistent with the emission factors for unspecified electricity, or for energy transformation projects in the transportation sector, consistent with default emissions or conversion factors established by other jurisdictions for clean alternative fuels. Emissions reductions from energy transformation projects must be:

(a) Real, specific, identifiable, and quantifiable;

(b) Permanent: The department of ecology must look to other jurisdictions in setting this standard and make a reasonable determination on length of time;

(c) Enforceable by the state of Washington;

(d) Verifiable;

(e) Not required by another statute, rule, or other legal requirement; and

(f) Not reasonably assumed to occur absent investment, or if an investment has already been made, not reasonably assumed to occur absent additional funding in the near future.

(3) Energy transformation projects must be associated with the consumption of energy in Washington and must not create a new use of fossil fuels that results in a net increase of fossil fuel usage.

(4) The compliance eligibility of energy transformation projects may be scaled or prorated by an approved protocol in order to distinguish effects related to reductions in electricity usage from reductions in fossil fuel usage.

(5) Any compliance obligation fulfilled through an investment in an energy transformation project is eligible for use only: (a) By the electric utility that makes the investment; (b) if the investment is made by the Bonneville power administration, by electric utilities that are preference customers of the Bonneville power administration; or (c) if the investment is made by a joint operating agency organized under chapter 43.52 RCW, by a member of the joint operating agency. An electric utility making an investment in partnership with another electric utility or entity may claim credit proportional to its share invested in the total project cost.

(6)(a) In meeting the standard under subsection (1) of this section, an electric utility must, consistent with the requirements of RCW 19.285.040, if applicable, pursue all cost-effective, reliable, and feasible conservation and efficiency resources, and demand response. In making new investments, an electric utility must, to the maximum extent feasible:

(i) Achieve targets at the lowest reasonable cost, considering risk;

(ii) Consider acquisition of existing renewable resources; and

(iii) In the acquisition of new resources constructed after the effective date of this section, rely on renewable resources and energy storage, insofar as doing so is consistent with (a)(i) of this subsection.

(b) Electric utilities subject to RCW 19.285.040 must demonstrate pursuit of all conservation and efficiency resources through compliance with the requirements in RCW 19.285.040.

(7) An electric utility that fails to meet the requirements of this section must pay the administrative penalty established under section 9(1) of this act, except as otherwise provided in this chapter.

(8) In complying with this section, an electric utility must, consistent with the requirements of RCW 19.280.030 and section 25 of this act, ensure that all customers are benefiting from the transition to clean energy: Through the equitable distribution of energy and nonenergy benefits and reduction of burdens to vulnerable populations and highly impacted communities; long-term and short-term public health and environmental benefits and reduction of costs and risks; and energy security and resiliency.

(9) Affected market customers must comply with the standard established under subsection (1) of this section.

(10) A market customer that purchases electricity exclusively from carbon-free resources and eligible renewable resources, as defined in RCW 19.285.030 as of January 1, 2019, pursuant to a special contract with an investor-owned utility approved, prior to the effective date of this section, by order of the commission is subject to the requirements of such an order and not to the standard

established in this section. For purposes of interpreting any such special contract, chapter 19.285 RCW, as in effect on January 1, 2019, is not, either directly or indirectly, amended or supplemented.

(11) To reduce costs for utility customers or avoid exceeding the cost impact limit in section 6(3)(a) of this act, a multistate electric utility with fewer than two hundred fifty thousand customers in Washington may apply the total amount of megawatt-hour of coal-fired resources eliminated from the utility's allocation of electricity before December 31, 2025, as an equivalent amount of megawatt-hour of nonemitting electric generation or electricity from renewable resources required to comply with subsection (1)(a) of this section. The utility must demonstrate that for every megawatt-hour of early action credit there is a real, permanent reduction in greenhouse gas emissions in the western interconnection directly associated with that credit. A multistate electric utility must request to use early compliance credit in its clean energy implementation plan that is submitted under section 6 of this act. The multistate electric utility must specify in its clean energy implementation plan the compliance years to which the early action compliance credit will apply, but in no event may the multistate electric utility use the early action compliance credits beyond 2035. The commission must establish conditions for use of early action compliance credits, including a determination of whether action constitutes early action, before the multistate electric utility's use of early action compliance credits in a clean energy implementation plan.

NEW SECTION. Sec. 5. (1) It is the policy of the state that nonemitting electric generation and electricity from renewable resources supply one hundred percent of all sales of electricity to Washington retail electric customers by January 1, 2045. By January 1, 2045, and each year thereafter, each electric utility must demonstrate its compliance with this standard using a combination of nonemitting electric generation and electricity from renewable resources.

(2) Each electric utility must incorporate subsection (1) of this section into all relevant planning and resource acquisition practices including, but not limited to: Resource planning under chapter 19.280 RCW; the construction or acquisition of property, including electric generating facilities; and the provision of electricity service to retail electric customers.

(3) In planning to meet projected demand consistent with the requirements of subsection (2) of this section and RCW 19.285.040, if applicable, an electric utility must pursue all cost-effective, reliable, and feasible conservation and efficiency resources, and demand response. In making new investments, an electric utility must, to the maximum extent feasible:

(a) Achieve targets at the lowest reasonable cost, considering risk;

(b) Consider acquisition of existing renewable resources; and

(c) In the acquisition of new resources constructed after the effective date of this section, rely on renewable

resources and energy storage, insofar as doing so is consistent with (a) of this subsection.

(4) The commission, department, energy facility site evaluation council, department of ecology, and all other state agencies must incorporate this section into all relevant planning and utilize all programs authorized by statute to achieve subsection (1) of this section.

(5)(a) Hydroelectric generation used by an electric utility to satisfy the requirements of this section may not include new diversions, new impoundments, new bypass reaches, or expansion of existing reservoirs constructed after the effective date of this section unless the diversions, bypass reaches, or reservoir expansions are necessary for the operation of a pumped storage facility that: (i) Does not conflict with existing state or federal fish recovery plans; and (ii) complies with all local, state, and federal laws and regulations.

(b) Nothing in (a) of this subsection precludes an electric utility that owns and operates hydroelectric generating facilities, or the owner of a hydroelectric generating facility whose energy output is marketed by the Bonneville power administration, from making efficiency or other improvements to its hydroelectric generating facilities existing as of the effective date of this section or from installing hydroelectric generation in pipes, culverts, irrigation canals, and other manmade waterways as long as those changes do not create conflicts with existing state or federal fish recovery plans and comply with all local, state, and federal laws and regulations.

(6) Nothing in this section prohibits an electric utility from purchasing or exchanging power from the Bonneville power administration.

(7) Affected market customers must comply with the obligations of this section.

(8) Any market customer that purchases electricity exclusively from carbon-free resources and eligible renewable resources, as defined in RCW 19.285.030 as of January 1, 2019, pursuant to a special contract with an investor-owned utility approved, prior to the effective date of this section, by order of the commission is subject to the requirements of such an order and not to the standards established in this section. For the purposes of interpreting such a special contract, chapter 19.285 RCW, as in effect on January 1, 2019, is not, either directly or indirectly, amended or supplemented.

NEW SECTION. Sec. 6. (1)(a) By January 1, 2022, and every four years thereafter, each investor-owned utility must develop and submit to the commission:

(i) A four-year clean energy implementation plan for the standards established under sections 4(1) and 5(1) of this act that proposes specific targets for energy efficiency, demand response, and renewable energy; and

(ii) Proposed interim targets for meeting the standard under section 4(1) of this act during the years prior to 2030 and between 2030 and 2045.

(b) An investor-owned utility's clean energy implementation plan must:

(i) Be informed by the investor-owned utility's clean energy action plan developed under RCW 19.280.030;

(ii) Be consistent with subsection (3) of this section; and

(iii) Identify specific actions to be taken by the investor-owned utility over the next four years, consistent with the utility's long-range integrated resource plan and resource adequacy requirements, that demonstrate progress toward meeting the standards under sections 4(1) and 5(1) of this act and the interim targets proposed under (a)(i) of this subsection. The specific actions identified must be informed by the investor-owned utility's historic performance under median water conditions and resource capability and by the investor-owned utility's participation in centralized markets. In identifying specific actions in its clean energy implementation plan, the investor-owned utility may also take into consideration any significant and unplanned loss or addition of load it experiences.

(c) The commission, after a hearing, must by order approve, reject, or approve with conditions an investor-owned utility's clean energy implementation plan and interim targets. The commission may, in its order, recommend or require more stringent targets than those proposed by the investor-owned utility. The commission may periodically adjust or expedite timelines if it can be demonstrated that the targets or timelines can be achieved in a manner consistent with the following:

(i) Maintaining and protecting the safety, reliable operation, and balancing of the electric system;

(ii) Planning to meet the standards at the lowest reasonable cost, considering risk;

(iii) Ensuring that all customers are benefiting from the transition to clean energy: Through the equitable distribution of energy and nonenergy benefits and the reduction of burdens to vulnerable populations and highly impacted communities; long-term and short-term public health and environmental benefits and reduction of costs and risks; and energy security and resiliency; and

(iv) Ensuring that no customer or class of customers is unreasonably harmed by any resulting increases in the cost of utility-supplied electricity as may be necessary to comply with the standards.

(2)(a) By January 1, 2022, and every four years thereafter, each consumer-owned utility must develop and submit to the department a four-year clean energy implementation plan for the standards established under sections 4(1) and 5(1) of this act that:

(i) Proposes interim targets for meeting the standard under section 4(1) of this act during the years prior to 2030 and between 2030 and 2045, as well as specific targets for energy efficiency, demand response, and renewable energy;

(ii) Is informed by the consumer-owned utility's clean energy action plan developed under RCW 19.280.030(1) or other ten-year plan developed under RCW 19.280.030(5);

(iii) Is consistent with subsection (4) of this section; and

(iv) Identifies specific actions to be taken by the consumer-owned utility over the next four years, consistent with the utility's long-range resource plan and resource adequacy requirements, that demonstrate progress towards meeting the standards under sections 4(1) and 5(1) of this act and the interim targets proposed under (a)(i) of this subsection. The specific actions identified must be informed

by the consumer-owned utility's historic performance under median water conditions and resource capability and by the consumer-owned utility's participation in centralized markets. In identifying specific actions in its clean energy implementation plan, the consumer-owned utility may also take into consideration any significant and unplanned loss or addition of load it experiences.

(b) The governing body of the consumer-owned utility must, after a public meeting, adopt the consumer-owned utility's clean energy implementation plan. The clean energy implementation plan must be submitted to the department and made available to the public. The governing body may adopt more stringent targets than those proposed by the consumer-owned utility and periodically adjust or expedite timelines if it can be demonstrated that such targets or timelines can be achieved in a manner consistent with the following:

(i) Maintaining and protecting the safety, reliable operation, and balancing of the electric system;

(ii) Planning to meet the standards at the lowest reasonable cost, considering risk;

(iii) Ensuring that all customers are benefiting from the transition to clean energy: Through the equitable distribution of energy and nonenergy benefits and reduction of burdens to vulnerable populations and highly impacted communities; long-term and short-term public health and environmental benefits and reduction of costs and risks; and energy security and resiliency; and

(iv) Ensuring that no customer or class of customers is unreasonably harmed by any resulting increases in the cost of utility-supplied electricity as may be necessary to comply with the standards.

(3)(a) An investor-owned utility must be considered to be in compliance with the standards under sections 4(1) and 5(1) of this act if, over the four-year compliance period, the average annual incremental cost of meeting the standards or the interim targets established under subsection (1) of this section meets but does not exceed a two percent increase of the investor-owned utility's weather-adjusted sales revenue to customers for electric operations above the previous year, as reported by the investor-owned utility in its most recent commission basis report. All costs included in the determination of cost impact must be directly attributable to actions necessary to comply with the requirements of sections 4 and 5 of this act.

(b) If an investor-owned utility relies on (a) of this subsection as a basis for compliance with the standard under section 4(1) of this act, then it must demonstrate that it has maximized investments in renewable resources and nonemitting electric generation prior to using alternative compliance options allowed under section 4(1)(b) of this act.

(4)(a) A consumer-owned utility must be considered to be in compliance with the standards under sections 4(1) and 5(1) of this act if, over the four-year compliance period, the average annual incremental cost of meeting the standards or the interim targets established under subsection (2) of this section meets but does not exceed a two percent increase of the consumer-owned utility's retail revenue requirement above the previous year. All costs included in the determination of cost impact must be directly attributable to actions necessary to comply with the requirements of sections 4 and 5 of this act.

(b) If a consumer-owned utility relies on (a) of this subsection as a basis for compliance with the standard under section 4(1) of this act, and it has not met eighty percent of its annual retail electric load using electricity from renewable resources and nonemitting electric generation, then it must demonstrate that it has maximized investments in renewable resources and nonemitting electric generation prior to using alternative compliance options allowed under section 4(1)(b) of this act.

(5) The commission, for investor-owned utilities, and the department, for consumer-owned utilities, must adopt rules establishing the methodology for calculating the incremental cost of compliance under this section, as compared to the cost of an alternative lowest reasonable cost portfolio of investments that are reasonably available.

NEW SECTION. Sec. 7. (1) Each electric utility must disclose its greenhouse gas content calculation in conformance with this section. A utility's disclosure must be consistent with the fuel sources that it reports and discloses in compliance with chapter 19.29A RCW. The department must by rule incorporate the carbon content disclosure into the power source or fuel mix disclosure required under chapter 19.29A RCW.

(2) For unspecified electricity, the utility must use an emissions rate determined, and periodically updated, by the department of ecology by rule. The department of ecology must adopt an emissions rate for unspecified electricity consistent with the emissions rate established for other markets in the western interconnection. If the department of ecology has not adopted an emissions rate for unspecified electricity, the emissions rate that applies for the purposes of this chapter is 0.437 metric tons of carbon dioxide per megawatt-hour of electricity.

(3) For the purposes of this act, the fuel mix calculated for the Bonneville power administration may exclude any purchases of electric generation that are not associated with load in the state of Washington.

NEW SECTION. Sec. 8. By January 1, 2024, and at least every four years thereafter and in compliance with RCW 43.01.036, the department must submit a report to the legislature. The report must include the following:

(1) A review of the standards described in sections 3 through 5 of this act focused on technologies, forecasts, and existing transmission, and an evaluation of safety, environmental and public safety protection, affordability, and system reliability.

(2)(a) An evaluation, produced in consultation with the commission, electric utilities, transmission operators in Washington, the reliability coordinator for electric utilities, any regional planning organization serving electric utilities, public interest and environmental organizations, and the regional entity for the western interconnection identifying the potential benefits, impacts, and risks on system reliability associated with achieving the standards described in sections 4 and 5 of this act. The evaluation must assess whether electric utilities have sufficient electric generation resources to meet forecasted retail electric load in addition to adequate transmission capability to implement sections 3 through 5 of

this act without: (i) Violating mandatory and enforceable reliability standards of the North American electric reliability corporation; (ii) violating prudent utility practice for assuring resource adequacy; or (iii) compromising the power quality or integrity of the electricity system. Subject to funding appropriated for this purpose, the commission and the department must consult with a national laboratory with expertise in grid reliability, security, and resilience.

(b) The evaluation should assess the anticipated financial costs and benefits of investments necessary to correct those deficiencies at the lowest reasonable costs as identified by electric utilities, transmission operators in Washington, the regional entity for the western interconnection, or any regional planning organization serving electric utilities. The assessment of these investments in the report is not deemed to be approval of such investments for rate recovery by any authorizing entity.

(3) An evaluation identifying the nature of any anticipated financial costs and benefits to electric utilities, including customer rate impacts and benefits including, but not limited to:

(a) Greenhouse gas emissions of electric utilities;

(b) The allocation of risk between customers and electric utilities;

(c) The allocation of financial costs among electric utilities in the state and whether retail electric customers are equitably bearing the financial costs of implementing sections 3 through 5 of this act;

(d) The timing of cost recovery for electricity generated by nonemitting electric generation or renewable resources;

(e) The resource procurement process of electric utilities; and

(f) The barriers to, and benefits of, implementing sections 4 and 5 of this act.

(4) An evaluation of new or emerging technologies that could be considered to be a renewable resource.

(5) An assessment of the impacts of sections 3 through 5 of this act on middle-income families, small businesses, and manufacturers in Washington.

NEW SECTION. Sec. 9. (1)(a) An electric utility or an affected market customer that fails to meet the standards established under sections 3(1) and 4(1) of this act must pay an administrative penalty to the state of Washington in the amount of one hundred dollars, times the following multipliers, for each megawatt-hour of electric generation used to meet load that is not electricity from a renewable resource or nonemitting electric generation:

(i) 1.5 for coal-fired resources;

(ii) 0.84 for gas-fired peaking power plants; and

(iii) 0.60 for gas-fired combined-cycle power plants.

(b) Beginning in 2027, this penalty must be adjusted on a biennial basis according to the rate of change of the inflation indicator, gross domestic product implicit price deflator, as published by the bureau of economic analysis of the United States department of commerce or its successor. Beginning in 2040, the commission may by rule increase this penalty for investor-owned utilities if the commission determines that doing so will accelerate utilities' compliance

with the standards established under this chapter and that doing so is in the public interest.

(2) Consistent with the requirements of section 4(1)(b) of this act, a utility may opt to make a payment in the amount of the administrative penalty as an alternative compliance payment, without incurring a penalty for noncompliance.

(3)(a) Upon its own motion or at the request of an investor-owned utility, and after a hearing, the commission may issue an order relieving the utility of its administrative penalty obligation under subsection (1) of this section if it finds that:

(i) After taking all reasonable measures, the investor-owned utility's compliance with this chapter is likely to result in conflicts with or compromises to its obligation to comply with the mandatory and enforceable reliability standards of the North American electric reliability corporation, violate prudent utility practice for assuring resource adequacy, or compromise the power quality or integrity of its system; or

(ii) The investor-owned utility is unable to comply with the standards established in section 3(1) or 4(1) of this act due to reasons beyond the reasonable control of the investor-owned utility, as set forth in subsection (6) of this section.

(b) If the commission issues an order pursuant to (a) of this subsection that relieves an investor-owned utility of its administrative penalty obligation under subsection (1) of this section, the commission may issue an order:

(i) Temporarily exempting the investor-owned utility from the requirements of section 4(1) of this act for an amount of time sufficient to allow the investor-owned utility to achieve full compliance with the standard;

(ii) Directing the investor-owned utility to file a progress report to the commission on achieving full compliance with the standard within six months after issuing the order, or within an amount of time determined to be reasonable by the commission; and

(iii) Directing the investor-owned utility to take specific actions to achieve full compliance with the requirements of this chapter.

(c) An investor-owned utility may request an extension of a temporary exemption granted under this section. An investor-owned utility that requests an extension must request an update to the order issued by the commission under (b) of this subsection.

(4) Subsection (3) of this section does not permanently relieve an investor-owned utility of its obligation to comply with the requirements of this chapter.

(5)(a) The governing body of a consumer-owned utility may authorize a temporary exemption from the standard established under section 4(1) of this act, for an amount of time sufficient to allow the consumer-owned utility to achieve full compliance with the standard, if the governing body finds that:

(i) The consumer-owned utility's compliance with the standard is likely to: Result in conflicts with or compromises to its obligation to comply with the mandatory and enforceable reliability standards of the North American electric reliability corporation; violate prudent utility practice for assuring resource adequacy; or compromise the power quality or integrity of its system; or

(ii) The consumer-owned utility is unable to comply with the standard due to reasons beyond the reasonable control of the utility, as set forth in subsection (6) of this section; and

(iii) The consumer-owned utility has provided to the department a plan demonstrating how it plans to achieve full compliance with the standard, consistent with the findings of the report submitted to the legislature under section 8 of this act.

(b) Upon request by the governing body of a consumer-owned utility, a consumer-owned utility must be relieved of its administrative penalty obligation under subsection (1) of this section if the auditor issues a finding that:

(i) The governing body of the consumer-owned utility has properly issued a temporary exemption under (a) of this subsection for a period of time not to exceed six months; and

(ii) The governing body of the consumer-owned utility has submitted to the department a plan to take specific actions to achieve full compliance with the standard, consistent with the findings of the report submitted to the legislature under section 8 of this act.

(c) Upon issuance of a finding by the auditor, the consumer-owned utility must submit a progress report to the department on achieving full compliance with the standard within the term authorized in the temporary exemption.

(d) A consumer-owned utility may request an extension of a temporary exemption granted under this subsection, subject to the same requirements as provided in (a) through (c) of this subsection.

(e) The attorney general may bring a civil action in the name of the state for any appropriate civil remedy including, but not limited to, injunctive relief, penalties, costs, and attorneys' fees, to enforce compliance with this chapter:

(i) Upon the failure of the governing body of a consumer-owned utility to comply with the conditions of a temporary exemption found by the auditor to be properly adopted or extended; or

(ii) Upon failure of the governing body of a consumer-owned utility to comply with a finding by the auditor that a temporary exemption is not properly granted.

(f) This subsection does not permanently relieve a consumer-owned utility of its obligation to comply with the requirements of this chapter.

(6) To the extent an event or circumstance cannot be reasonably foreseen and ameliorated, such events or circumstances beyond the reasonable control of an electric utility may include but are not limited to:

(a) Weather-related damage;

(b) Natural disasters;

(c) Mechanical or resource failure;

(d) Failure of a third party to meet contractual obligations to the electric utility;

(e) Actions of governmental authorities that adversely affect the generation, transmission, or distribution of nonemitting electric generation or renewable resources owned or under contract to an electric utility, including condemnation actions by municipal electric utilities, public utility districts, or irrigation districts that adversely affect an

investor-owned utility's ability to meet the standard established in sections 3(1) and 4(1) of this act;

(f) Inability to acquire sufficient transmission to transmit electricity from nonemitting electric generation or renewable resources to load; and

(g) Substantial limitations, restrictions, or prohibitions on nonemitting electric generation or renewable resources.

(7) An electric utility must notify its retail electric customers in published form within three months of paying the administrative penalty established under subsection (1) of this section. An electric utility is not required to notify its retail electric customers when making a payment in the amount of the administrative penalty as an alternative compliance payment consistent with the requirements of section 4(1)(b) of this act.

(8) Moneys collected under this section must be deposited into the low-income weatherization and structural rehabilitation assistance account created in RCW 70.164.030.

(9) For an investor-owned utility, the commission must determine compliance with the requirements of this chapter.

(10) For consumer-owned utilities, the auditor is responsible for auditing compliance with this chapter and rules adopted under this chapter that apply to those utilities and the attorney general is responsible for enforcing that compliance.

(11) If the report submitted under section 8 of this act demonstrates adverse system reliability impacts from the implementation of sections 4 and 5 of this act, the governor, consistent with the emergency powers under RCW 43.21G.040, may suspend or delay implementation of this chapter, or exempt an electric utility from paying the administrative penalty under this section, until system reliability impacts can be addressed. Adverse system reliability impacts may include, but are not limited to, the inability of electric utilities or transmission operators to meet reliability standards mandated by federal or state law and required by prudent utility practices.

NEW SECTION. Sec. 10. (1) It is the intent of this chapter that the commission and department adopt rules to streamline the implementation of this act with chapter 19.285 RCW to simplify compliance and avoid duplicative processes. It is the intent of the legislature that the commission and the department coordinate in developing rules related to process, timelines, and documentation that are necessary for the implementation of this chapter.

(2) The commission may adopt rules to ensure the proper implementation and enforcement of this chapter as it applies to investor-owned utilities.

(3) The department may adopt rules to ensure the proper implementation and enforcement of this chapter as it applies to consumer-owned utilities. Nothing in this subsection may be construed to restrict the rate-making authority of the governing body of a consumer-owned utility as otherwise provided by law.

(4) The department must adopt rules establishing reporting requirements for electric utilities to demonstrate compliance with this chapter. The requirements must, to the

extent practicable, be consistent with the disclosures required under chapter 19.29A RCW.

(5) An investor-owned utility must also report all information required in subsection (4) of this section to the commission.

(6) An electric utility must also make reports required in this section available to its retail electric customers.

(7) The department of ecology must adopt rules, in consultation with the commission and the department of commerce, to establish requirements for energy transformation project investments including, but not limited to, verification procedures, reporting standards, and other logistical issues as necessary.

(8) The department must adopt rules providing for the measuring and tracking of thermal renewable energy credits that may be used for compliance under section 4 of this act.

(9) Pursuant to the administrative procedure act, chapter 34.05 RCW, rules needed for the implementation of this chapter must be adopted by January 1, 2021, unless specified otherwise elsewhere in this chapter. These rules may be revised as needed to carry out the intent and purposes of this chapter.

NEW SECTION. Sec. 11. The requirements of sections 3 through 9 of this act do not replace or modify the requirements established under chapter 19.285 RCW. All utility activities to comply with the requirements established under chapter 19.285 RCW also qualify for compliance with the requirements contained in this chapter, insofar as those activities meet the requirements of this act.

NEW SECTION. Sec. 12. (1) It is the intent of the legislature to demonstrate progress toward making energy assistance funds available to low-income households consistent with the policies identified in this section.

(2) An electric utility must make programs and funding available for energy assistance to low-income households by July 31, 2021. Each utility must demonstrate progress in providing energy assistance pursuant to the assessment and plans in subsection (4) of this section. To the extent practicable, priority must be given to low-income households with a higher energy burden.

(3) Beginning July 31, 2020, the department must collect and aggregate data estimating the energy burden and energy assistance need and reported energy assistance for each electric utility, in order to improve agency and utility efforts to serve low-income households with energy assistance. The department must update the aggregated data on a biennial basis, make it publicly accessible on its internet web site and, to the extent practicable, include geographic attributes.

(a) The aggregated data published by the department must include, but is not limited to:

(i) The estimated number and demographic characteristics of households served by energy assistance for each utility and the dollar value of the assistance;

(ii) The estimated level of energy burden and energy assistance need among customers served, accounting for household income and other drivers of energy burden;

(iii) Housing characteristics including housing type, home vintage, and fuel types; and

(iv) Energy efficiency potential.

(b) Each utility must disclose information to the department for use under this subsection, including:

(i) The amount and type of energy assistance and the number and type of households, if applicable, served for programs administered by the utility;

(ii) The amount of money passed through to third parties that administer energy assistance programs; and

(iii) Subject to availability, any other information related to the utility's low-income assistance programs that is requested by the department.

(c) The information required by (b) of this subsection must be from the electric utility's most recent completed budget period and in a form, timeline, and manner as prescribed by the department.

(4)(a) In addition to the requirements under subsection (3) of this section, each electric utility must submit biennially to the department an assessment of:

(i) The programs and mechanisms used by the utility to reduce energy burden and the effectiveness of those programs and mechanisms in both short-term and sustained energy burden reductions;

(ii) The outreach strategies used to encourage participation of eligible households, including consultation with community-based organizations and Indian tribes as appropriate, and comprehensive enrollment campaigns that are linguistically and culturally appropriate to the customers they serve in vulnerable populations; and

(iii) A cumulative assessment of previous funding levels for energy assistance compared to the funding levels needed to meet: (A) Sixty percent of the current energy assistance need, or increasing energy assistance by fifteen percent over the amount provided in 2018, whichever is greater, by 2030; and (B) ninety percent of the current energy assistance need by 2050.

(b) The assessment required in (a) of this subsection must include a plan to improve the effectiveness of the assessed mechanisms and strategies toward meeting the energy assistance need.

(5) A consumer-owned utility may enter into an agreement with a public university, community-based organization, or joint operating agency organized under chapter 43.52 RCW to aggregate the disclosures required in this section and submit the assessment required in subsections (3) and (4) of this section.

(6)(a) The department must submit a biennial report to the legislature that:

(i) Aggregates information into a statewide summary of energy assistance programs, energy burden, and energy assistance need;

(ii) Identifies and quantifies current expenditures on low-income energy assistance; and

(iii) Evaluates the effectiveness of additional optimal mechanisms for energy assistance including, but not limited to, customer rates, a low-income specific discount, system benefits charges, and public and private funds.

(b) The department must also assess mechanisms to prioritize energy assistance towards low-income households with a higher energy burden.

(7) Nothing in this section may be construed to restrict the rate-making authority of the commission or the governing body of a consumer-owned utility as otherwise provided by law.

NEW SECTION. Sec. 13. (1) The department and the commission must convene a stakeholder work group to examine the:

(a) Efficient and consistent integration of this act and transactions with carbon and electricity markets outside the state; and

(b) Compatibility of the requirements under this act relative to a linked cap-and-trade program.

(2) To assist in its examination of the issues identified in this section, as well as any other issues pertinent to its review, the work group must, at a minimum, consist of electric utilities, gas companies, the Bonneville power administration, public interest and environmental organizations, and other agencies.

(3) The department and the commission must adopt rules by June 30, 2022, defining requirements, including appropriate verification and reporting requirements, for the following: (a) Retail load met with market purchases and the western energy imbalance market or other centralized market administered by a market operator; and (b) to address the prohibition on double counting of nonpower attributes under section 4(1) of this act that could occur under other programs. With respect to purchases from the western energy imbalance market or other centralized market, the department and the commission must consult with the market operator and market participants to consider options that support the objectives of this chapter and the efficient dispatch of the generation resources dispatched by those markets.

Sec. 14. RCW 19.280.030 and 2015 3rd sp.s. c 19 s 9 are each amended to read as follows:

Each electric utility must develop a plan consistent with this section.

(1) Utilities with more than twenty-five thousand customers that are not full requirements customers ~~((shall))~~ must develop or update an integrated resource plan by September 1, 2008. At a minimum, progress reports reflecting changing conditions and the progress of the integrated resource plan must be produced every two years thereafter. An updated integrated resource plan must be developed at least every four years subsequent to the 2008 integrated resource plan. The integrated resource plan, at a minimum, must include:

(a) A range of forecasts, for at least the next ten years or longer, of projected customer demand which takes into account econometric data and customer usage;

(b) An assessment of commercially available conservation and efficiency resources, as informed, as applicable, by the assessment for conservation potential under RCW 19.285.040 for the planning horizon consistent with (a) of this subsection. Such assessment may include, as

appropriate, opportunities for development of combined heat and power as an energy and capacity resource, demand response and load management programs, and currently employed and new policies and programs needed to obtain the conservation and efficiency resources;

(c) An assessment of commercially available, utility scale renewable and nonrenewable generating technologies including a comparison of the benefits and risks of purchasing power or building new resources;

(d) A comparative evaluation of renewable and nonrenewable generating resources, including transmission and distribution delivery costs, and conservation and efficiency resources using "lowest reasonable cost" as a criterion;

(e) An assessment of methods, commercially available technologies, or facilities for integrating renewable resources, including but not limited to battery storage and pumped storage, and addressing overgeneration events, if applicable to the utility's resource portfolio;

(f) An assessment and ten-year forecast of the availability of regional generation and transmission capacity on which the utility may rely to provide and deliver electricity to its customers;

(g) A determination of resource adequacy metrics for the resource plan consistent with the forecasts;

(h) A forecast of distributed energy resources that may be installed by the utility's customers and an assessment of their effect on the utility's load and operations;

(i) An identification of an appropriate resource adequacy requirement and measurement metric consistent with prudent utility practice in implementing sections 3 through 5 of this act;

(j) The integration of the demand forecasts ~~((and))~~, resource evaluations, and resource adequacy requirement into a long-range assessment describing the mix of supply side generating resources and conservation and efficiency resources that will meet current and projected needs, including mitigating overgeneration events and implementing sections 3 through 5 of this act, at the lowest reasonable cost and risk to the utility and its ~~((ratepayers))~~ customers, while maintaining and protecting the safety, reliable operation, and balancing of its electric system; ~~((and~~

~~((g)))~~ (k) An assessment, informed by the cumulative impact analysis conducted under section 25 of this act, of: Energy and nonenergy benefits and reductions of burdens to vulnerable populations and highly impacted communities; long-term and short-term public health and environmental benefits, costs, and risks; and energy security and risk; and

(l) A ~~((short term plan identifying))~~ ten-year clean energy action plan for implementing sections 3 through 5 of this act at the lowest reasonable cost, and at an acceptable resource adequacy standard, that identifies the specific actions to be taken by the utility consistent with the long-range integrated resource plan.

(2) For an investor-owned utility, the clean energy action plan must: (a) Identify and be informed by the utility's ten-year cost-effective conservation potential assessment as determined under RCW 19.285.040, if applicable; (b) establish a resource adequacy requirement; (c) identify the potential cost-effective demand response and load management programs that may be acquired; (d) identify renewable resources, nonemitting electric generation, and

distributed energy resources that may be acquired and evaluate how each identified resource may be expected to contribute to meeting the utility's resource adequacy requirement; (e) identify any need to develop new, or expand or upgrade existing, bulk transmission and distribution facilities; and (f) identify the nature and possible extent to which the utility may need to rely on alternative compliance options under section 4(1)(b) of this act, if appropriate.

(3)(a) An electric utility shall consider the social cost of greenhouse gas emissions, as determined by the commission for investor-owned utilities pursuant to section 15 of this act and the department for consumer-owned utilities, when developing integrated resource plans and clean energy action plans. An electric utility must incorporate the social cost of greenhouse gas emissions as a cost adder when:

(i) Evaluating and selecting conservation policies, programs, and targets;

(ii) Developing integrated resource plans and clean energy action plans; and

(iii) Evaluating and selecting intermediate term and long-term resource options.

(b) For the purposes of this subsection (3): (i) Gas consisting largely of methane and other hydrocarbons derived from the decomposition of organic material in landfills, wastewater treatment facilities, and anaerobic digesters must be considered a nonemitting resource; and (ii) qualified biomass energy must be considered a nonemitting resource.

(4) To facilitate broad, equitable, and efficient implementation of this act, a consumer-owned energy utility may enter into an agreement with a joint operating agency organized under chapter 43.52 RCW or other nonprofit organization to develop and implement a joint clean energy action plan in collaboration with other utilities.

(5) All other utilities may elect to develop a full integrated resource plan as set forth in subsection (1) of this section or, at a minimum, shall develop a resource plan that:

(a) Estimates loads for the next five and ten years;

(b) Enumerates the resources that will be maintained and/or acquired to serve those loads; ~~(and)~~

(c) Explains why the resources in (b) of this subsection were chosen and, if the resources chosen are not:

(i) Renewable resources; (ii) methods, commercially available technologies, or facilities for integrating renewable resources, including addressing any overgeneration event; or (iii) conservation and efficiency resources, why such a decision was made; and

(d) By December 31, 2020, and in every resource plan thereafter, identifies how the utility plans over a ten-year period to implement sections 4 and 5 of this act.

~~((3))~~ (6) Assessments for demand side resources included in an integrated resource plan may include combined heat and power systems as one of the measures in a conservation supply curve. The value of recoverable waste heat resulting from combined heat and power must be reflected in analyses of cost-effectiveness under this subsection.

~~((4))~~ (7) An electric utility that is required to develop a resource plan under this section must complete its initial plan by September 1, 2008.

~~((5) Resource)~~ (8) Plans developed under this section must be updated on a regular basis, on intervals approved by the commission or the department, or at a minimum on intervals of two years.

~~((6))~~ (9) Plans shall not be a basis to bring legal action against electric utilities.

~~((7))~~ (10)(a) To maximize transparency, the commission, for investor-owned utilities, or the governing body, for consumer-owned utilities, may require an electric utility to make the utility's data input files available in a native format. Each electric utility shall publish its final plan either as part of an annual report or as a separate document available to the public. The report may be in an electronic form.

(b) Nothing in this subsection limits the protection of records containing commercial information under RCW 80.04.095.

(11) By December 31, 2021, the department and the commission must adopt rules establishing the requirements for incorporating the cumulative impact analysis developed under section 25 of this act into the criteria for developing clean energy action plans under this section.

NEW SECTION. Sec. 15. A new section is added to chapter 80.28 RCW to read as follows:

For the purposes of this act, the cost of greenhouse gas emissions resulting from the generation of electricity, including the effect of emissions, is equal to the cost per metric ton of carbon dioxide equivalent emissions, using the two and one-half percent discount rate, listed in table 2, technical support document: Technical update of the social cost of carbon for regulatory impact analysis under Executive Order No. 12866, published by the interagency working group on social cost of greenhouse gases of the United States government, August 2016. The commission must adjust the costs established in this section to reflect the effect of inflation.

NEW SECTION. Sec. 16. A new section is added to chapter 80.28 RCW to read as follows:

(1) Notwithstanding RCW 54.16.020, the fair market value compensation for an asset that is condemned by a municipal electric utility, public utility district, or irrigation district and that is either demonstrated in an electric utility's clean energy action plan or clean energy implementation plan to be used or acquired after the effective date of this act to meet the requirements of sections 4 and 5 of this act, or an asset that generates electricity from renewable resources or nonemitting electric generation, must include but not be limited to a replacement value approach. Additionally, the electric utility may seek, and the court may award, damages attributable to the severance, separation, replacement, or relocation of utility assets. The trier of fact may also consider other damages, as well as offsetting benefits, that it finds just and equitable.

(2) An entity that establishes or extends service to the premises of a customer who is being served by an electric utility or was served by an electric utility prior to the effective date of this act must serve those premises in a manner that complies with the requirements of this act and

with chapter 19.285 RCW, if applicable. An electric utility or other entity that fails to comply with the requirements of this subsection must pay the administrative penalty under section 9(1) of this act for each megawatt-hour of electric generation used to serve load that does not meet the terms of this subsection.

Sec. 17. RCW 80.84.010 and 2016 c 220 s 1 are each amended to read as follows:

The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Eligible coal plant" means a coal-fired electric generation facility that: (a) ~~((Had two or fewer generating units as of January 1, 1980, and four generating units as of January 1, 2016; (b)))~~ Is owned in whole or in part by more than one electrical company as of January 1, 2016; and ~~((e))~~ (b) provides, as a portion of the load served by the coal-fired electric generation facility, electricity paid for in rates by customers in the state of Washington.

(2) "Eligible coal unit" means any generating unit of an eligible coal plant.

NEW SECTION. Sec. 18. This section is the tax preference performance statement for the tax preferences contained in sections 19 and 20, chapter . . . , Laws of 2019 (sections 19 and 20 of this act). This performance statement is only intended to be used for subsequent evaluation of the tax preference. It is not intended to create a private right of action by any party or be used to determine eligibility for preferential tax treatment.

(1) The legislature categorizes this tax preference as one intended to induce certain designated behavior by taxpayers, as indicated in RCW 82.32.808(2)(a).

(2) It is the legislature's specific public policy objective to reduce the amount of carbon dioxide emissions in Washington. It is the legislature's intent to extend the expiration date of and expand the existing sales and use tax exemption for machinery and equipment used directly in generating certain types of alternative energy, in order to reduce the price charged to customers for that machinery and equipment, thereby inducing some customers to buy machinery and equipment for alternative energy when they might not otherwise, thereby displacing electricity from fossil-fueled generating resources, thereby reducing the amount of carbon dioxide emissions in Washington. It is also the intent of the legislature to maximize cost savings associated with clean energy construction for Washington electric customers by encouraging development of these resources in time for projects to benefit from both this incentive and expiring federal incentives.

(3) It is also the legislature's specific public policy objective to provide an incentive for more of the projects that meet the objectives of subsection (2) of this section to be constructed with high labor standards, including family level wages and providing benefits including health care and pensions, as well as maximizing access to economic benefits from such projects for local workers and diverse businesses.

(4) The joint legislative audit and review committee is not required to perform a tax preference review under chapter 43.136 RCW for the tax preferences contained in

sections 19 and 20, chapter . . . , Laws of 2019 (sections 19 and 20 of this act) and it is the intent of the legislature to allow the tax preferences to expire upon their scheduled expiration dates.

Sec. 19. RCW 82.08.962 and 2018 c 164 s 5 are each amended to read as follows:

(1)(a) ~~((Except as provided in RCW 82.08.963,))~~ Purchasers who have paid the tax imposed by RCW 82.08.020 on machinery and equipment used directly in generating electricity using fuel cells, wind, sun, biomass energy, tidal or wave energy, geothermal resources, or technology that converts otherwise lost energy from exhaust, as the principal source of power, or to sales of or charges made for labor and services rendered in respect to installing such machinery and equipment, are eligible for an exemption as provided in this section, but only if the purchaser develops with such machinery, equipment, and labor a facility capable of generating not less than one thousand watts of electricity.

(iv) The purchaser has a history of compliance with federal and state wage and hour laws and regulations.

(f) In order to qualify for the exemption under (e) of this subsection, installation of the qualifying machinery and equipment must commence no earlier than January 1, 2020, and be completed by December 31, 2029.

(2) The department of labor and industries must initiate an emergency rule making on the effective date of this section to be completed by December 1, 2019, to:

(a) Define and set minimum requirements for all labor standards identified in subsection (1)(c) of this section; and

(b) Set requirements for all good faith efforts under subsection (1)(c)(i) and (ii) of this section, as well as

documentation requirements and a certification process. Requirements for all good faith efforts must be designed to maximize the likelihood that the project is completed with said standards and could include: Proactive outreach to firms that are women, minority, and veteran-owned businesses; advertising in local community publications and publications appropriate to identified firms; participating in community job fairs, conferences, and trade shows; and other measures. The certification process and timeline must be designed to prevent undue delay to project development.

(3) For purposes of this section and RCW 82.12.962, the following definitions apply:

(a) "Biomass energy" includes: (i) By-products of pulping and wood manufacturing process; (ii) animal waste; (iii) solid organic fuels from wood; (iv) forest or field residues; (v) wooden demolition or construction debris; (vi) food waste; (vii) liquors derived from algae and other sources; (viii) dedicated energy crops; (ix) biosolids; and (x) yard waste. "Biomass energy" does not include wood pieces that have been treated with chemical preservatives such as creosote, pentachlorophenol, or copper-chrome-arsenic; wood from old growth forests; or municipal solid waste.

(b) "Fuel cell" means an electrochemical reaction that generates electricity by combining atoms of hydrogen and oxygen in the presence of a catalyst.

(c)(i) "Machinery and equipment" means fixtures, devices, and support facilities that are integral and necessary to the generation of electricity using fuel cells, wind, sun, biomass energy, tidal or wave energy, geothermal resources, or technology that converts otherwise lost energy from exhaust.

(ii) "Machinery and equipment" does not include: (A) Hand-powered tools; (B) property with a useful life of less than one year; (C) repair parts required to restore machinery and equipment to normal working order; (D) replacement parts that do not increase productivity, improve efficiency, or extend the useful life of machinery and equipment; (E) buildings; or (F) building fixtures that are not integral and necessary to the generation of electricity that are permanently affixed to and become a physical part of a building.

~~((3))~~ (d) "Project labor agreement" and "community workforce agreement" means a prehire collective bargaining agreement with one or more labor organizations that establishes the terms and conditions of employment for a specific construction project and is an agreement described in 29 U.S.C. Sec. 158(f).

(4)(a) Machinery and equipment is "used directly" in generating electricity by wind energy, solar energy, biomass energy, tidal or wave energy, geothermal resources, or technology that converts otherwise lost energy from exhaust if it provides any part of the process that captures the energy of the wind, sun, biomass energy, tidal or wave energy, geothermal resources, or technology that converts otherwise lost energy from exhaust, converts that energy to electricity, and stores, transforms, or transmits that electricity for entry into or operation in parallel with electric transmission and distribution systems.

(b) Machinery and equipment is "used directly" in generating electricity by fuel cells if it provides any part of the process that captures the energy of the fuel, converts that energy to electricity, and stores, transforms, or transmits that

electricity for entry into or operation in parallel with electric transmission and distribution systems.

~~((4))~~ (5)(a)(i) A purchaser claiming an exemption in the form of a remittance under subsection (1)(b) ~~or (c)~~ of this section must pay the tax imposed by RCW 82.08.020 and all applicable local sales taxes imposed under the authority of chapters 82.14 and 81.104 RCW. The purchaser may then apply to the department for remittance in a form and manner prescribed by the department. A purchaser may not apply for a remittance under this section more frequently than once per quarter. The purchaser must specify the amount of exempted tax claimed and the qualifying purchases for which the exemption is claimed. The purchaser must retain, in adequate detail, records to enable the department to determine whether the purchaser is entitled to an exemption under this section, including: Invoices; proof of tax paid; and documents describing the machinery and equipment.

(ii) The application for remittance must include a copy of the certificate issued for the project by the department of labor and industries as prescribed by rule under subsection (2) of this section.

(b) The department must determine eligibility under this section based on the information provided by the purchaser, which is subject to audit verification by the department. The department must on a quarterly basis remit exempted amounts to qualifying purchasers who submitted applications during the previous quarter.

~~((5) The exemption provided by this section expires September 30, 2017, as it applies to: (a))~~ (6)(a) From October 1, 2017, through December 31, 2019, the exemption provided by this section does not apply to: (i) Machinery and equipment that is used directly in the generation of electricity using solar energy and capable of generating no more than five hundred kilowatts of electricity; or ~~((b))~~ (ii) sales of or charges made for labor and services rendered in respect to installing such machinery and equipment.

(b) The exemption provided by this section is reinstated for machinery and equipment for solar energy systems capable of generating more than one hundred kilowatts but no more than five hundred kilowatts of electricity, or sales of or charges made for labor and services rendered in respect to installing such machinery and equipment, if installation of the machinery and equipment commences on or after January 1, 2020.

(c) The exemption provided by this section is reinstated for machinery and equipment for solar energy systems capable of generating no more than one hundred kilowatts of electricity, or sales of or charges made for labor and services rendered in respect to installing such machinery and equipment, if installation of the machinery and equipment commences on or after January 1, 2020.

(1) The provisions of this section are necessary to ensure that the commission has sufficient flexible authority to determine the value of utility property for rate making purposes and to implement the requirements and full intent of this act.

(2) The commission has power upon complaint or upon its own motion to ascertain and determine the fair value for rate making purposes of the property of any public service company used and useful for service in this state by or during the rate effective period and shall exercise such power whenever it deems such valuation or determination necessary or proper under any of the provisions of this title. ~~((In determining what property is used and useful for providing electric, gas, wastewater company services, or water service, the commission may include the reasonable costs of construction work in progress to the extent that the commission finds that inclusion is in the public interest.~~

~~(2))~~ The valuation may include consideration of any property of the public service company acquired or constructed by or during the rate effective period, including the reasonable costs of construction work in progress, to the extent that the commission finds that such an inclusion is in the public interest and will yield fair, just, reasonable, and sufficient rates.

(3) The commission may provide changes to rates under this section for up to forty-eight months after the rate effective date using any standard, formula, method, or theory of valuation reasonably calculated to arrive at fair, just, reasonable, and sufficient rates. The commission must establish an appropriate process to identify, review, and approve public service company property that becomes used and useful for service in this state after the rate effective date.

(4) The commission has the power to make revaluations of the property of any public service company from time to time.

~~((3))~~ (5) The commission shall, before any hearing is had, notify the complainants and the public service company concerned of the time and place of such hearing by giving at least thirty days' written notice thereof, specifying that at the time and place designated a hearing will be held for the purpose of ascertaining the value of the company's property, used and useful as aforesaid, which notice must be sufficient to authorize the commission to inquire into and pass upon the matters designated in this section.

(6) Nothing in this section limits the commission's authority to consider and implement performance and incentive-based regulation, multiyear rate plans, and other flexible regulatory mechanisms.

NEW SECTION. Sec. 22. A new section is added to chapter 80.28 RCW to read as follows:

(1) An electrical company may account for and defer for later consideration by the commission costs incurred in connection with major projects in the electrical company's clean energy implementation plan pursuant to RCW 19.280.030(1)(l), or selected in the electrical company's solicitation of bids for delivering electric capacity, energy, capacity and energy, or conservation. The deferral in this subsection begins with the date on which the resource begins

commercial operation or the effective date of the power purchase agreement and continues for a period not to exceed twenty-four months. However, if during such a period the electrical company files a general rate case or other proceeding for the recovery of such costs, deferral ends on the effective date of the final decision by the commission in such a proceeding. Creation of such a deferral account does not by itself determine the actual costs of the resource or power purchase agreement, whether recovery of any or all of these costs is appropriate, or other issues to be decided by the commission in a general rate case or other proceeding.

(2) The costs that an electrical company may account for and defer for later consideration by the commission pursuant to subsection (1) of this section include all operating and maintenance costs, depreciation, taxes, cost of capital associated with the applicable resource or the execution of a power purchase agreement. Such costs of capital include:

(a) The electrical company's authorized return on equity for any resource acquired or developed by the electrical company; or

(b) For the duration of a power purchase agreement, a rate of return of no less than the authorized cost of debt and no greater than the authorized rate of return of the electrical company, which would be multiplied by the operating expense incurred by the electrical company under the power purchase agreement.

Sec. 23. RCW 43.21F.090 and 1996 c 186 s 106 are each amended to read as follows:

(1) The department shall review the state energy strategy ~~((as developed under section 1, chapter 201, Laws of 1991, periodically with the guidance of an advisory committee. For each review, an advisory committee shall be established with a membership resembling as closely as possible the original energy strategy advisory committee specified under section 1, chapter 201, Laws of 1991-))~~ by December 31, 2020, and at least once every eight years thereafter, subject to funding provided for this purpose, for the purpose of aligning the state energy strategy with the requirements of RCW 43.21F.088 and chapters 19.285 and 19.--- RCW (the new chapter created in section 28 of this act), and the emission reduction targets recommended by the department of ecology under RCW 70.235.040. (3) Upon completion of a public hearing regarding the advisory committee's advice and recommendations for revisions to the energy strategy, a written report shall be conveyed by the department to the governor and the appropriate legislative committees. ~~((Any))~~ The energy strategy advisory committee established under this section ~~((shall))~~ must be dissolved within three months after their written report is conveyed.

NEW SECTION. Sec. 24. (1) By January 1, 2020, the department of commerce must convene an energy and climate policy advisory committee to develop recommendations to the legislature for the coordination of existing resources, or the establishment of new ones, for the purposes of examining the costs and benefits of energy-related policies, programs, functions, activities, and incentives on an on-going basis and conducting other energy-related studies and analyses as may be directed by the legislature.

The cumulative impact analysis may integrate with and build upon other concurrent cross-agency efforts in developing a cumulative impact analysis and population tracking resources used by the department of health and analysis performed by the University of Washington department of environmental and occupational health sciences.

NEW SECTION. Sec. 26. (1) The legislature finds that based on current technology, there will likely need to be upgrades to electricity transmission and distribution infrastructure across the state to meet the goals specified in this act. These facilities require a significant planning horizon to deliver electricity generation sites to retail electric load. Pursuant to RCW 80.50.040, the energy facility site evaluation council chair shall convene a transmission corridors work group and report its findings to the governor and the appropriate committees of the legislature by December 31, 2022.

(2) The work group must include one representative from each of the following state agencies: The department of commerce, the utilities and transportation commission, the department of ecology, the department of fish and wildlife, the department of natural resources, the department of transportation, the department of archaeology and historic preservation, and the state military department. The work group shall also include two representatives designated by the association of Washington cities, one from central or eastern Washington and one from western Washington; two representatives designated by the Washington state association of counties, one from central or eastern Washington and one from western Washington; two members designated by sovereign tribal governments; one member representing affected utility industries; one member representing public utility districts; and two members representing statewide environmental organizations. (c) Identify environmental review options that may be required to complete the designation of such corridors and recommend ways to expedite review of transmission projects without compromising required environmental protection.

(4) The energy facility site evaluation council may contract services to assist in the work group efforts.

(5) This section expires January 1, 2023.

Sec. 30. RCW 19.285.040 and 2017 c 315 s 2 are each amended to read as follows:

(1) Each qualifying utility shall pursue all available conservation that is cost-effective, reliable, and feasible.

(a) By January 1, 2010, using methodologies consistent with those used by the Pacific Northwest electric power and conservation planning council in the most recently published regional power plan as it existed on June 12, 2014, or a subsequent date as may be provided by the department or the commission by rule, each qualifying utility shall identify its achievable cost-effective conservation potential through 2019. Nothing in the rule adopted under this subsection precludes a qualifying utility from using its utility specific conservation measures, values, and assumptions in identifying its achievable cost-effective conservation potential. At least every two years thereafter, the qualifying utility shall review and update this assessment for the subsequent ten-year period.

(b) Beginning January 2010, each qualifying utility shall establish and make publicly available a biennial acquisition target for cost-effective conservation consistent with its identification of achievable opportunities in (a) of this subsection, and meet that target during the subsequent two-year period. At a minimum, each biennial target must be no lower than the qualifying utility's pro rata share for that two-year period of its cost-effective conservation potential for the subsequent ten-year period.

(c)(i) Except as provided in (c)(ii) and (iii) of this subsection, beginning on January 1, 2014, cost-effective conservation achieved by a qualifying utility in excess of its biennial acquisition target may be used to help meet the immediately subsequent two biennial acquisition targets, such that no more than twenty percent of any biennial target may be met with excess conservation savings.

(ii) Beginning January 1, 2014, a qualifying utility may use single large facility conservation savings in excess of its biennial target to meet up to an additional five percent of the immediately subsequent two biennial acquisition targets, such that no more than twenty-five percent of any biennial target may be met with excess conservation savings allowed under all of the provisions of this section combined. For the purposes of this subsection (1)(c)(ii), "single large facility conservation savings" means cost-effective conservation savings achieved in a single biennial period at the premises of a single customer of a qualifying utility whose annual electricity consumption prior to the conservation savings exceeded five average megawatts.

(iii) Beginning January 1, 2012, and until December 31, 2017, a qualifying utility with an industrial facility located in a county with a population between ninety-five

thousand and one hundred fifteen thousand that is directly interconnected with electricity facilities that are capable of carrying electricity at transmission voltage may use cost-effective conservation from that industrial facility in excess of its biennial acquisition target to help meet the immediately subsequent two biennial acquisition targets, such that no more than twenty-five percent of any biennial target may be met with excess conservation savings allowed under all of the provisions of this section combined.

(d) In meeting its conservation targets, a qualifying utility may count high-efficiency cogeneration owned and used by a retail electric customer to meet its own needs. High-efficiency cogeneration is the sequential production of electricity and useful thermal energy from a common fuel source, where, under normal operating conditions, the facility has a useful thermal energy output of no less than thirty-three percent of the total energy output. The reduction in load due to high-efficiency cogeneration shall be: (i) Calculated as the ratio of the fuel chargeable to power heat rate of the cogeneration facility compared to the heat rate on a new and clean basis of a best-commercially available technology combined-cycle natural gas-fired combustion turbine; and (ii) counted towards meeting the biennial conservation target in the same manner as other conservation savings.

(e) The commission may determine if a conservation program implemented by an investor-owned utility is cost-effective based on the commission's policies and practice.

(f) The commission may rely on its standard practice for review and approval of investor-owned utility conservation targets.

(2)(a) Except as provided in (j) of this subsection, each qualifying utility shall use eligible renewable resources or acquire equivalent renewable energy credits, or any combination of them, to meet the following annual targets:

(i) At least three percent of its load by January 1, 2012, and each year thereafter through December 31, 2015;

(ii) At least nine percent of its load by January 1, 2016, and each year thereafter through December 31, 2019; and

(iii) At least fifteen percent of its load by January 1, 2020, and each year thereafter.

(b) A qualifying utility may count distributed generation at double the facility's electrical output if the utility: (i) Owns or has contracted for the distributed generation and the associated renewable energy credits; or (ii) has contracted to purchase the associated renewable energy credits.

(c) In meeting the annual targets in (a) of this subsection, a qualifying utility shall calculate its annual load based on the average of the utility's load for the previous two years.

(d) A qualifying utility shall be considered in compliance with an annual target in (a) of this subsection if: (i) The utility's weather-adjusted load for the previous three years on average did not increase over that time period; (ii) after December 7, 2006, the utility did not commence or renew ownership or incremental purchases of electricity from resources other than coal transition power or renewable resources other than on a daily spot price basis and the electricity is not offset by equivalent renewable energy

credits; and (iii) the utility invested at least one percent of its total annual retail revenue requirement that year on eligible renewable resources, renewable energy credits, or a combination of both.

~~(e) ((The requirements of this section may be met for any given year with renewable energy credits produced during that year, the preceding year, or the subsequent year. Each renewable energy credit may be used only once to meet the requirements of this section))~~ A qualifying utility may use renewable energy credits to meet the requirements of this section, subject to the limitations of this subsection.

(i) A renewable energy credit from electricity generated by a resource other than freshwater may be used to meet a requirement applicable to the year in which the credit was created, the year before the year in which the credit was created, or the year after the year in which the credit was created.

(ii) A renewable energy credit from electricity generated by freshwater:

(A) May only be used to meet a requirement applicable to the year in which the credit was created; and

(B) Must be acquired by the qualifying utility through ownership of the generation facility or through a transaction that conveyed both the electricity and the nonpower attributes of the electricity.

(iii) A renewable energy credit transferred to an investor-owned utility pursuant to the Bonneville power administration's residential exchange program may not be used by any utility other than the utility receiving the credit from the Bonneville power administration.

(iv) Each renewable energy credit may only be used once to meet the requirements of this section and must be retired using procedures of the renewable energy credit tracking system.

(f) In complying with the targets established in (a) of this subsection, a qualifying utility may not count:

(i) Eligible renewable resources or distributed generation where the associated renewable energy credits are owned by a separate entity; or

(ii) Eligible renewable resources or renewable energy credits obtained for and used in an optional pricing program such as the program established in RCW 19.29A.090.

(g) Where fossil and combustible renewable resources are cofired in one generating unit located in the Pacific Northwest where the cofiring commenced after March 31, 1999, the unit shall be considered to produce eligible renewable resources in direct proportion to the percentage of the total heat value represented by the heat value of the renewable resources.

(h)(i) A qualifying utility that acquires an eligible renewable resource or renewable energy credit may count that acquisition at one and two-tenths times its base value:

(A) Where the eligible renewable resource comes from a facility that commenced operation after December 31, 2005; and

(B) Where the developer of the facility used apprenticeship programs approved by the council during facility construction.

(ii) The council shall establish minimum levels of labor hours to be met through apprenticeship programs to qualify for this extra credit.

(i) A qualifying utility shall be considered in compliance with an annual target in (a) of this subsection if events beyond the reasonable control of the utility that could not have been reasonably anticipated or ameliorated prevented it from meeting the renewable energy target. Such events include weather-related damage, mechanical failure, strikes, lockouts, and actions of a governmental authority that adversely affect the generation, transmission, or distribution of an eligible renewable resource under contract to a qualifying utility.

(j)(i) Beginning January 1, 2016, only a qualifying utility that owns or is directly interconnected to a qualified biomass energy facility may use qualified biomass energy to meet its compliance obligation under this subsection.

(ii) A qualifying utility may no longer use electricity and associated renewable energy credits from a qualified biomass energy facility if the associated industrial pulping or wood manufacturing facility ceases operation other than for purposes of maintenance or upgrade.

(k) An industrial facility that hosts a qualified biomass energy facility may only transfer or sell renewable energy credits associated with qualified biomass energy generated at its facility to the qualifying utility with which it is directly interconnected with facilities owned by such a qualifying utility and that are capable of carrying electricity at transmission voltage. The qualifying utility may only use an amount of renewable energy credits associated with qualified biomass energy that are equivalent to the proportionate amount of its annual targets under (a)(ii) and (iii) of this subsection that was created by the load of the industrial facility. A qualifying utility that owns a qualified biomass energy facility may not transfer or sell renewable energy credits associated with qualified biomass energy to another person, entity, or qualifying utility.

(l) Beginning January 1, 2020, a qualifying utility may use eligible renewable resources as identified under RCW 19.285.030(12) (g) and (h) to meet its compliance obligation under this subsection (2). A qualifying utility may not transfer or sell these eligible renewable resources to another utility for compliance purposes under this chapter.

(m) Beginning January 1, 2030, a qualifying utility is considered to be in compliance with an annual target in (a) of this subsection if the utility uses electricity from: (i) Renewable resources and renewable energy credits as defined in RCW 19.285.030; and (ii) nonemitting electric generation as defined in section 2 of this act, in an amount equal to one hundred percent of the utility's average annual retail electric load. Nothing in this subsection relieves the requirements of a qualifying utility to comply with subsection (1) of this section.

(3) Utilities that become qualifying utilities after December 31, 2006, shall meet the requirements in this section on a time frame comparable in length to that provided for qualifying utilities as of December 7, 2006.

NEW SECTION. Sec. 31. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

NEW SECTION. Sec. 32. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately."

SSB 5010 Prime Sponsor, Committee on Local Government: Concerning protected lands not being assessed local fire district levies. Reported by Committee on Local Government

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. (1) On September 13, 2017, the joint legislative audit and review committee distributed the 17-06 final report: Fees assessed for forest fire protection. The report identified more than twenty thousand parcels of land that do not pay the forest fire protection assessment or a local fire district levy but are likely still protected by the department of natural resources or a local fire district.

The legislature finds that fire protection services at the state and local level are vital to the preservation of public

and personal property throughout the state. The legislature further finds that fire protection resources are very limited in carrying out the substantial duties that fire protection services are asked to perform. Therefore, properties that benefit from fire protection should be required to contribute to the operation and maintenance of such essential services.

(2)(a) A local fire district may propose to annex any parcel or parcels having all boundaries of the property wholly within the external boundary of the requesting local fire district if such parcel or parcels are not presently being assessed a local fire district levy.

(b) Prior to annexing a parcel or parcels under this section the local fire district must:

(i) Verify with the county assessor that the parcel or parcels have all boundaries of the property wholly within the external boundary of the requesting local fire district and are not presently assessed a local fire district levy;

(ii) Notify the owner of record of each parcel in writing no less than sixty days prior to conducting a public hearing that the local fire district is seeking to annex the parcel; and

(iii) Hold at least one public hearing on the proposed annexation.

(3) Following the hearing, the local fire district must determine by resolution whether any parcel will be annexed. After adoption of the resolution, the local fire district must send a copy to the county legislative authority, the county assessor, and the owner of record of any parcel proposed to be annexed. The resolution must include a list of all parcels proposed to be annexed.

(4) Within thirty days of notification of the resolution, the owner of record of a parcel proposed to be annexed may appeal the proposed annexation to the county legislative authority. Issues raised under appeal may include compliance with the process established under this section, whether the parcel is presently being assessed a local fire district levy, whether the levied amount is consistent with local fire district levy amounts, whether the local fire district actually has the resources to provide the parcel or parcels with timely service. The county legislative authority may address multiple appeals at the same hearing. The decision of the county legislative authority or its designee is not appealable.

(5) If the proposed annexation is upheld or no appeal is made within thirty days of notification of the resolution, the county legislative authority must approve the proposed annexation of any parcel or parcels of land submitted under subsection (3) of this section into the local fire district. The order must include a description of the property to be annexed and the effective date of the annexation. The order is not subject to referendum.

(6) A notice of intention must be filed with the boundary review board created under RCW 36.93.030. However, the jurisdiction of the board may not be invoked as described in RCW 36.93.100 for annexations under this section.

(7) Any local fire district levy to be imposed on a parcel annexed in accordance with this section may not be assessed until the next tax assessment cycle following the annexation.

(8) Annexations of a parcel or parcels of land under this section must be completed by January 1, 2021.

(9) For the purposes of this section, "local fire district" means a fire district, regional fire protection service authority, city, town, or port district.

(10) The annexation process established under this section is not exclusive and does not limit annexation through other statutory authorities.

(11) Any port district that decides to annex a parcel or parcels under this section must:

(a) Be providing fire services at the time of the annexation; and

(b) Confirm that the parcel or parcels are not already serviced by a fire protection district, regional fire protection service authority, city, or town."

The court may shorten or expand the period for notice of an application for the appointment of a receiver upon good cause shown.

(4) The order appointing a receiver in all cases must reasonably describe the property over which the receiver is to take charge, by category, individual items, or both if the receiver is to take charge of less than all of the owner's property. If the order appointing a receiver does not expressly limit the receiver's authority to designated property or categories of property of the owner, the receiver is a general receiver with the authority to take charge over all of the owner's property, wherever located.

(5) The court may condition the appointment of a receiver upon the giving of security by the person seeking the receiver's appointment, in such amount as the court may specify, for the payment of costs and damages incurred or suffered by any person should it later be determined that the appointment of the receiver was wrongfully obtained.

(iii) When taking action on a request for approval filed pursuant to this subsection, the director may:

(A) Approve the request;

(B) Approve the request subject to terms and conditions the director considers necessary; or

(C) Disapprove the request.

(3) To approve a request, the director must find that:

(a) The state trust company will operate in a safe and sound manner under a limited liability trust company structure; and

(6)(a) Notwithstanding any provision of chapter 25.15 RCW or this section to the contrary, all voting members remain liable and responsible as fiduciaries of the limited liability trust company, regardless of resignation, dissociation, or disqualification, to the same extent that directors of a state trust company organized as a corporation would be or remain liable or responsible to the department.

(b) If death, incapacity, or disqualification of all members of the limited liability trust company would result in a complete dissociation of all members, then the state trust

company is deemed nonetheless to remain in existence for purposes of the department having standing under chapter 30B.44B RCW to exercise the powers and authorities of a liquidating agent for the state trust company.

Sec. 7. RCW 30B.08.030 and 2014 c 37 s 324 are each amended to read as follows:

(3) For the more complete and thorough enforcement of the provisions of this title, the department is authorized to adopt rules not inconsistent with the provisions of this title, as may, in its opinion, be necessary to carry out the provisions of this title and as may be further necessary to insure safe and sound management of trust institutions under its supervision taking into consideration the appropriate interest of the creditors, stockholders, participants, and the public in their relations with such trust institutions.

(4) A state trust company shall conduct its business in a manner consistent with all laws relating to trust companies, and all rules, regulations, and instructions that may be adopted or issued by the department.

NEW SECTION. Sec. 15. A new section is added to chapter 30B.10 RCW to read as follows:

EXAMINATIONS—REQUIREMENTS FOR DIRECT EXAMINATION OF THIRD-PARTY SERVICE PROVIDERS.

(1) The director shall visit each state trust company at least once every twenty-four months, and more often as determined by the director, for the purpose of making a full investigation into the condition of such state trust company.

(2) The director may make such other full or partial examinations as deemed necessary and may visit and examine any affiliate of a state trust company, obtain reports of condition for any such affiliate, and shall have full access to all the books, records, papers, securities, correspondence, bank accounts, and other papers of such business for such purposes.

(3) Before the director may issue notice of its intent to visit and directly examine a third-party service provider without a subpoena pursuant to RCW 30B.10.120, the director must find:

(a) That the third-party service provider either:

(i) Performs services for the state trust company that appear to be necessary for the state trust company to meet its fiduciary duty, operate in a safe and sound manner, or otherwise comply with this title and other applicable law; or

(ii) Appears that the state trust company cannot extricate itself from its client-vendor relationship without adverse material consequences or prolonged delay, including inability to timely find a replacement vendor as third-party service provider;

(b) That either:

(i) The information sought by the director cannot be otherwise accessed or verified by the records of the state trust company without direct examination of the records of the third-party service provider that relate to the state trust company; or

(ii) The third-party service provider manages an application, process, or system for the benefit of the state trust company, the integrity of which cannot be evaluated without direct examination; and

(c) That it appears prior to direct examination of the third-party service provider that an act or omission of the third-party service provider sought to be examined has resulted in a significant heightened risk of the state trust company not meeting its fiduciary duty, committing an unsafe practice or operating in an unsafe or unsound manner, or otherwise violating a provision of this title or other applicable law.

(4) Subject to notice to a state trust company and its third-party service provider accompanied by a written finding by the director that the conditions of subsection (3) of this section have been met, the director may visit and directly examine a third-party service provider of a state trust company in order to determine whether the state trust company, on account of an act or omission of the third-party service provider, is in compliance with this title and other applicable law including, without limitation, the provisions of chapter 30B.24 RCW. If prerequisites for direct examination of such third-party service provider conform to this subsection, then a subpoena pursuant to RCW 30B.10.120 shall not be required prior to a visitation and examination of such third-party service provider.

(5) Any willful false swearing in any examination is perjury in the second degree.

(6) The director may enter into cooperative and reciprocal agreements with the trust institution regulatory authorities of the United States and other states and United States territories, for the periodic examination of state trust institutions and their affiliates. The director may accept reports of examination and other records from such authorities in lieu of conducting his or her own examinations. The director may enter into joint actions with other regulatory bodies having concurrent jurisdiction or may enter into such actions independently to carry out his or her responsibilities under this title and assure compliance with the laws of Washington state.

(7) Copies from the records, books, and accounts of a state trust institution or its affiliate shall be competent evidence in all cases, equal with originals thereof, if there is attached to such copies ~~((an affidavit taken before a notary public or clerk of a court under seal,))~~ a declaration under penalty of perjury stating that the ~~((affiant))~~ declarant is the officer of the state trust institution or its affiliate having charge of the original records, and that the copy is true and correct and is full so far as the same relates to the subject matter therein mentioned.

institutions examination council or its successor agency; and subject to subsection (3) of this section, the director shall apply the standards of the uniform interagency trust rating system, or its equivalent, in its examination and rating of state trust companies and other persons subject to investigation and examination under this title to the extent that the department has not adopted applicable rules.

(3) Notwithstanding subsection (2) of this section, the director may, in lieu of or in addition to applicable rules, prescribe special conditions for a new state trust company or an out-of-state trust company doing business in Washington state, to the extent that such special conditions contain standards of examination and rating for the state trust company or out-of-state trust company that the director deems necessary to address circumstances including, without limitation, an emerging business model, which do not appear to the director to be contemplated or adequately addressed by the uniform interagency trust rating system, or its equivalent, of the federal financial institutions examination council or its successor agency.

(3) In lieu of performing annual audits under subsection (2) of this section, a state trust company may adopt a continuous audit system under which the state trust company arranges for a discrete audit by internal or external auditors of each significant fiduciary activity on an activity-by-activity basis, under the direction of its fiduciary audit committee, at an interval commensurate with the nature and risk of that activity. Under such a system, certain fiduciary activities may receive audits at intervals greater or less than one year, as appropriate. (3) A state trust company and, to the extent applicable, its affiliate, shall comply with standards for prudent management of third-party risk under applicable law or as the director may otherwise adopt by rule or by a written interpretive statement including, without limitation, management of third-party risk pursuant to section 46 of this act.

NEW SECTION. **Sec. 43.** A new section is added to chapter 30B.24 RCW to read as follows:

CONTENTS OF STATEMENT OF PRINCIPLES
OF TRUST MANAGEMENT.

(1) The board of directors of a state trust company shall adopt a written statement of principles of trust management at its first organizational meeting or at a meeting of the board called for that purpose, which it must annually reaffirm by written vote, whether or not such statement is sought to be amended.

(2) The statement of principles of trust management shall set forth the minimum requirements for sound fiduciary management in the operation of a state trust company. Such minimum requirements shall provide for sound fiduciary practices in the operation of a state trust company and provide safeguards for the protection of fiduciary beneficiaries, principals of agency relationships, creditors, stockholders, and the public, and shall provide for:

(a) Involvement by the board of directors in providing for the establishment and continuing fiduciary operations;

(b) Operation of fiduciary activities separate and apart from every other activity of the state trust company, with trust assets separated from other assets owned by the state trust company, and the assets of each trust account separated from the assets of every other trust account; and

(b) Define such officer's or manager's duties;

(d) Receive reports from such trust committee and record actions taken in its minutes;

(e) Review the examination reports of the state trust company by the department or other applicable financial services regulatory authority having jurisdiction over the state trust company; and

(f) Record all actions taken in its minutes.

(4) Nothing in this section is intended to prohibit the board of directors from authorizing itself to act as the trust committee, or from authorizing itself to appoint additional committees and officers to oversee account administration and the operation of the state trust company and its fiduciary activities.

(5) When such statement provides for delegating duties to a subcommittee or officers, the statement shall indicate that the board and the trust committee remain responsible for the oversight of all trust company and fiduciary activities. Such statement shall also reflect that sufficient reporting and monitoring procedures are required to fulfill this responsibility.

(6) The statement of principles of trust management shall provide that the trust committee:

(a) Meet at least quarterly, and more frequently if considered necessary and prudent to fulfill its supervisory responsibilities;

(b) Approve and document:

(e) Keep comprehensive minutes of meetings held and actions taken; and

(8) Notwithstanding subsection (7)(d) of this section, the statement of principles of trust management may provide that, if a state trust company adopts a continuous audit process instead of performing annual audits, such audits may be performed, on an activity-by-activity basis, at intervals commensurate with the level of risk associated with that activity. In such case, the statement must reflect that audit intervals are to be supported and reassessed regularly to ensure appropriateness, given the current risk and volume of the activity.

Sec. 44. RCW 30B.24.020 and 2014 c 37 s 365 are each amended to read as follows:

(1) In addition to the provisions set out in RCW 11.98.078, if a conflict of interest may reasonably be expected to have a material adverse impact on the trustee's judgment in its provision of services to such client, the trustee must provide a reasonable disclosure of such conflict to such client.

(a) The transaction is authorized by other applicable law;

(b) Legal counsel advises the state trust company in writing that the state trust company has incurred, in its fiduciary capacity, a contingent or potential liability, in which case the state trust company, upon the sale or transfer of assets, shall reimburse the fiduciary account in cash at the greater of book or market value of the assets;

(c) In the case of a collective investment fund, the state trust company purchases for its own account any defaulted investment held by the fund if, in the judgment of the state trust company, the cost of segregating the investment is excessive in light of the market value of the investment: PROVIDED, That the state trust company purchases the defaulted investment at the greater of market value or the sum of cost and accrued unpaid interest; or

(d) Required in writing by the director.

(2) Unless otherwise established by rule, such call report shall be deemed confidential examination information and shall be subject to RCW 30A.04.075.

SCOPE OF CHAPTER—SAFETY AND SOUNDNESS AUTHORITY OF DIRECTOR IN LIEU OF ADMINISTRATIVE PROCEEDINGS—CORRECTIVE ACTION MEASURES—JUDICIAL REVIEW.

(1) The purpose of this chapter is to provide expeditious methods for the department to exercise proper supervision over the safety and soundness of state trust companies in the interest of Washington state's fiduciary industry and the general public. To that end, this chapter prescribes a series of progressive corrective action measures available to the director, as necessary and in connection with the exercise of his or her examination authority, the ultimate object of which is to restore a state trust company to a state of safe and sound condition and practices and to prevent, if possible, involuntary dissolution of the state trust company under chapter 30B.44B RCW.

(2) In order of progression, these corrective action measures include:

(a) The supervisory directive, which may be issued with the consent of a state trust company as a supervisory agreement or memorandum of understanding or without the state trust company's consent;

(b) The corrective action order, which may be issued with or without the consent of a state trust company; and

(c) The order of conservatorship, which may be issued with or without the consent of a state trust company.

(8) No provision in this title shall preclude the director from issuing an order for involuntary dissolution of a state trust company without first having issued corrective action measures if:

(a) Pursuant to RCW 30B.44B.005, the director has determined there is no reasonable likelihood that a state trust company can be restored to a safe and sound condition in the foreseeable future; or

March 21, 2019

SB 5233 Prime Sponsor, Senator Keiser: Creating an alternative process for sick leave benefits for workers represented by collective bargaining agreements. Reported by Committee on Labor & Workplace Standards

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that Initiative 1433 is a good law approved by the voters to establish sick leave benefits for workers. The law creates necessary worker protections while simultaneously reducing the spread of communicable sickness and disease and addressing other public health and safety concerns.

However, the legislature finds that this new law does not provide for flexibility and portability of benefits for construction workers who may work for multiple employers and who already negotiate wages and benefits with their employers. Workers covered under a collective bargaining agreement for the construction industry should be allowed the ability to negotiate comparable benefits that ensures that eligibility can be achieved and that the benefits are portable from employer to employer.

Sec. 2. RCW 49.46.020 and 2017 c 2 s 3 are each amended to read as follows:

(1)(a) Beginning January 1, 2017, and until January 1, 2018, every employer shall pay to each of his or her employees who has reached the age of eighteen years wages at a rate of not less than eleven dollars per hour.

(b) Beginning January 1, 2018, and until January 1, 2019, every employer shall pay to each of his or her employees who has reached the age of eighteen years wages at a rate of not less than eleven dollars and fifty cents per hour.

(c) Beginning January 1, 2019, and until January 1, 2020, every employer shall pay to each of his or her employees who has reached the age of eighteen years wages at a rate of not less than twelve dollars per hour.

(d) Beginning January 1, 2020, and until January 1, 2021, every employer shall pay to each of his or her employees who has reached the age of eighteen years wages at a rate of not less than thirteen dollars and fifty cents per hour.

(2)(a) Beginning on January 1, 2021, and each following January 1st as set forth under (b) of this subsection, every employer shall pay to each of his or her employees who has reached the age of eighteen years wages at a rate of not less than the amount established under (b) of this subsection.

(b) On September 30, 2020, and on each following September 30th, the department of labor and industries shall calculate an adjusted minimum wage rate to maintain employee purchasing power by increasing the current year's

minimum wage rate by the rate of inflation. The adjusted minimum wage rate shall be calculated to the nearest cent using the consumer price index for urban wage earners and clerical workers, CPI-W, or a successor index, for the twelve months prior to each September 1st as calculated by the United States department of labor. Each adjusted minimum wage rate calculated under this subsection (2)(b) takes effect on the following January 1st.

(3) An employer must pay to its employees: (a) All tips and gratuities; and (b) all service charges as defined under RCW 49.46.160 except those that, pursuant to RCW 49.46.160, are itemized as not being payable to the employee or employees servicing the customer. Tips and service charges paid to an employee are in addition to, and may not count towards, the employee's hourly minimum wage.

(4) Beginning January 1, 2018, except as provided in section 4 of this act, every employer must provide to each of its employees paid sick leave as provided in RCW 49.46.200 and 49.46.210.

(5) The director shall by regulation establish the minimum wage for employees under the age of eighteen years.

Sec. 3. RCW 49.46.210 and 2017 c 2 s 5 are each amended to read as follows:

(1) Beginning January 1, 2018, except as provided in section 4 of this act, every employer shall provide each of its employees paid sick leave as follows:

(a) An employee shall accrue at least one hour of paid sick leave for every forty hours worked as an employee. An employer may provide paid sick leave in advance of accrual provided that such front-loading meets or exceeds the requirements of this section for accrual, use, and carryover of paid sick leave.

(b) An employee is authorized to use paid sick leave for the following reasons:

(i) An absence resulting from an employee's mental or physical illness, injury, or health condition; to accommodate the employee's need for medical diagnosis, care, or treatment of a mental or physical illness, injury, or health condition; or an employee's need for preventive medical care;

(ii) To allow the employee to provide care for a family member with a mental or physical illness, injury, or health condition; care of a family member who needs medical diagnosis, care, or treatment of a mental or physical illness, injury, or health condition; or care for a family member who needs preventive medical care; and

(iii) When the employee's place of business has been closed by order of a public official for any health-related reason, or when an employee's child's school or place of care has been closed for such a reason.

(c) An employee is authorized to use paid sick leave for absences that qualify for leave under the domestic violence leave act, chapter 49.76 RCW.

(d) An employee is entitled to use accrued paid sick leave beginning on the ninetieth calendar day after the commencement of his or her employment.

(e) Employers are not prevented from providing more generous paid sick leave policies or permitting use of paid sick leave for additional purposes.

(f) An employer may require employees to give reasonable notice of an absence from work, so long as such notice does not interfere with an employee's lawful use of paid sick leave.

(g) For absences exceeding three days, an employer may require verification that an employee's use of paid sick leave is for an authorized purpose. If an employer requires verification, verification must be provided to the employer within a reasonable time period during or after the leave. An employer's requirements for verification may not result in an unreasonable burden or expense on the employee and may not exceed privacy or verification requirements otherwise established by law.

(h) An employer may not require, as a condition of an employee taking paid sick leave, that the employee search for or find a replacement worker to cover the hours during which the employee is on paid sick leave.

(i) For each hour of paid sick leave used, an employee shall be paid the greater of the minimum hourly wage rate established in this chapter or his or her normal hourly compensation. The employer is responsible for providing regular notification to employees about the amount of paid sick leave available to the employee.

(j) Unused paid sick leave carries over to the following year, except that an employer is not required to allow an employee to carry over paid sick leave in excess of forty hours.

(k) This section does not require an employer to provide financial or other reimbursement for accrued and unused paid sick leave to any employee upon the employee's termination, resignation, retirement, or other separation from employment. When there is a separation from employment and the employee is rehired within twelve months of separation by the same employer, whether at the same or a different business location of the employer, previously accrued unused paid sick leave shall be reinstated and the previous period of employment shall be counted for purposes of determining the employee's eligibility to use paid sick leave under subsection (1)(d) of this section.

(2) For purposes of this section, "family member" means any of the following:

(a) A child, including a biological, adopted, or foster child, stepchild, or a child to whom the employee stands in loco parentis, is a legal guardian, or is a de facto parent, regardless of age or dependency status;

(b) A biological, adoptive, de facto, or foster parent, stepparent, or legal guardian of an employee or the employee's spouse or registered domestic partner, or a person who stood in loco parentis when the employee was a minor child;

(c) A spouse;

(d) A registered domestic partner;

(e) A grandparent;

(f) A grandchild; or

(g) A sibling.

(3) An employer may not adopt or enforce any policy that counts the use of paid sick leave time as an absence that may lead to or result in discipline against the employee.

(4) An employer may not discriminate or retaliate against an employee for his or her exercise of any rights under this chapter including the use of paid sick leave.

NEW SECTION. Sec. 4. A new section is added to chapter 49.46 RCW to read as follows:

(1) The sick leave provisions of RCW 49.46.200 through 49.46.830 shall not apply to construction workers covered by a collective bargaining agreement, provided:

(a) The union signatory to the collective bargaining agreement is an approved referral union program authorized under RCW 50.20.010 and in compliance with WAC 192-210-110; and

(b) The collective bargaining agreement establishes equivalent sick leave provisions, as provided in subsection (2) of this section; and

(c) The requirements of RCW 49.46.200 through 49.46.830 are expressly waived in the collective bargaining agreement in clear and unambiguous terms or in an addendum to an existing agreement including an agreement that is open for negotiation provided the sick leave portions were previously ratified by the membership.

(2) Equivalent sick leave provisions provided by a collective bargaining agreement must meet the requirements of RCW 49.46.200 through 49.46.830 and the rules adopted by the department of labor and industries, except the payment of leave at the normal hourly compensation may occur before usage."

ESSB 5330 Prime Sponsor, Committee on Agriculture, Water, Natural Resources & Parks: Analyzing state regulatory impact on small forestland owners. Reported by Committee on Appropriations

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. (1) Small forestland owners own and manage approximately three million two hundred thousand acres of Washington's forestlands and exert a tremendous influence on public resources, including fish bearing streams, water quality, air, wildlife habitat, and carbon sequestration.

(2) Adoption of the forests and fish report was made possible, in part, by the agreement of small forestland owners who supported the intent of the law despite significant economic impacts to some members of the small forestland owner community. Twenty years after the adoption of the forests and fish report, it is time to evaluate

how the increased regulations have impacted small forestland owners and their land.

(3) When the forests and fish report was adopted, the legislature enacted RCW 76.13.100 as follows:

"(1) The legislature finds that increasing regulatory requirements continue to diminish the economic viability of small forest landowners. The concerns set forth in RCW 77.85.180 about the importance of sustaining forestry as a viable land use are particularly applicable to small landowners because of the location of their holdings, the expected complexity of the regulatory requirements, and the need for significant technical expertise not readily available to small landowners. The further reduction in harvestable timber owned by small forest landowners as a result of the rules to be adopted under RCW 76.09.055 will further erode small landowners' economic viability and willingness or ability to keep the lands in forestry use and, therefore, reduce the amount of habitat available for salmon recovery and conservation of other aquatic resources, as defined in RCW 76.09.020.

(2) The legislature finds that the concerns identified in subsection (1) of this section should be addressed by establishing within the department of natural resources a small forest landowner office that shall be a resource and focal point for small forest landowner concerns and policies. The legislature further finds that a forestry riparian easement program shall be established to acquire easements from small landowners along riparian and other areas of value to the state for protection of aquatic resources. The legislature further finds that small forest landowners should have the option of alternate management plans or alternate harvest restrictions on smaller harvest units that may have a relatively low impact on aquatic resources. The small forest landowner office should be responsible for assisting small landowners in the development and implementation of these plans or restrictions."

(4) The twentieth anniversary of the adoption of the forests and fish report into law presents an optimal time to review how the state's regulatory actions, intended to benefit both landowners and habitat, have affected small forestland owners. How have programs intended to make up for the disproportionate economic impact been implemented? What can the legislature do to keep small forestland owners on the landscape, so their land will be available for salmon habitat and water quality rather than converted?

(5)(a) The school of environmental and forest sciences within the college of the environment at the University of Washington must complete a trends analysis.

(b) The trends analysis must address, at a minimum, the following questions:

(i) Have the number of small forestland owners increased or decreased?

(ii)(A) Has the acreage held by small forestland owners increased or decreased?

(B) Of the land no longer owned by small forestland owners, what percentage was converted to nonforest use, became industrial forestland, trust land, or some other use?

(c)(i) The school of environmental and forest sciences at the University of Washington, using the data from the trends analysis and other pertinent information, must:

(A) Determine which factors contributed to small forestland owners selling their land;

(B) Recommend actions the legislature can take to help keep forestland working; and

(C) Assess the effectiveness and implementation of the programs created in RCW 76.13.100(2) which described three programs to assist small forestland owners and mitigate the disproportionate economic impact. The assessment must include:

(I) Evaluating the effectiveness of the small forest landowner office: Does it have adequate resources and authority to successfully address landowner concerns? Has it received adequate funding to implement fully the duties as assigned through RCW 76.13.110?

(II) Forest riparian easement program: Does the structure of the program adequately address economic impact to small forestland owners? Has funding kept up with need? Has the lack of funding resulted in the loss of riparian habitat?

(III) Have meaningful alternate management plans or alternate harvest restrictions been developed for smaller harvest units?

(IV) Has the family forest fish passage program addressed economic impact to landowners and fish passage barriers adequately?

(ii) Would meaningful alternate harvest restrictions reduce the financial burden on the forest riparian easement program?

(iii) How can the legislature incentivize small forestland owners to maintain their land as forestland?

(iv) Could a program be developed to facilitate small forestland owner's participation in carbon markets?

(6) The University of Washington may reach out to a broad variety of stakeholders for input.

(7) The policy analysis must use the trends analysis, the regulatory impact analysis, and other data to provide recommendations on ways the forest practices board and the legislature can provide more effective incentives to encourage continued management of nonindustrial forests for forestry uses, including traditional timber harvest uses, open space uses, or as part of developing carbon market schemes.

(8) The University of Washington must report the results of the trends analysis and policy analysis to the appropriate committees of the legislature and the forest practices board by November 1, 2020, with recommendations to improve mitigation measures for small forestland owners and improve retention of working forestland held by small forestland owners.

(9) This section expires December 31, 2020.

NEW SECTION. Sec. 2. If specific funding for the purposes of this act, referencing this act by bill or chapter number, is not provided by June 30, 2019, in the omnibus appropriations act, this act is null and void."

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that the ability of government to fulfill its constitutional and statutory responsibilities by continuing to conduct essential functions and services during the periods of significant disruption that follow catastrophic incidents requires both continuity of operations planning by individual agencies and continuity of government planning by state and local government. It is the intent of the legislature that all levels and branches of government, both state and local, take appropriate action to cooperatively conduct appropriate planning and preparation for continuity of operations and government to assist in fulfilling these responsibilities.

Sec. 2. RCW 38.52.010 and 2017 c 312 s 3 are each amended to read as follows:

As used in this chapter:

(1)(a) "Catastrophic incident" means any natural or human-caused incident, including terrorism and enemy attack, that results in extraordinary levels of mass casualties, damage, or disruption severely affecting the population, infrastructure, environment, economy, or government functions.

(b) "Catastrophic incident" does not include an event resulting from individuals exercising their rights, under the first amendment, of freedom of speech, and of the people to peaceably assemble.

(2) "Communication plan," as used in RCW 38.52.070, means a section in a local comprehensive emergency management plan that addresses emergency notification of life safety information.

((2)) (3) "Continuity of government planning" means the internal effort of all levels and branches of government to provide that the capability exists to continue essential functions and services following a catastrophic incident. These efforts include, but are not limited to, providing for: (a) Orderly succession and appropriate changes of leadership whether appointed or elected; (b) filling vacancies; (c) interoperability communications; and (d) processes and procedures to reconvene government following periods of disruption that may be caused by a catastrophic incident. Continuity of government planning is intended to preserve the constitutional and statutory authority of elected officials at the state and local level and provide for the continued performance of essential functions and services by each level and branch of government.

(4) "Continuity of operations planning" means the internal effort of an organization to ~~((assure))~~ provide that the capability exists to continue essential functions and services in response to a comprehensive array of potential emergencies or disasters.

~~((3))~~ (5) "Department" means the state military department.

~~((4))~~ (6) "Director" means the adjutant general.

~~((5))~~ (7) "Emergency management" or "comprehensive emergency management" means the preparation for and the carrying out of all emergency functions, other than functions for which the military forces are primarily responsible, to mitigate, prepare for, respond to, and recover from emergencies and disasters, and to aid victims suffering from injury or damage, resulting from disasters caused by all hazards, whether natural, technological, or human caused, and to provide support for search and rescue operations for persons and property in distress. However, "emergency management" or "comprehensive emergency management" does not mean preparation for emergency evacuation or relocation of residents in anticipation of nuclear attack.

~~((6))~~ (8)(a) "Emergency or disaster" as used in all sections of this chapter except RCW 38.52.430 ~~((shall))~~ means an event or set of circumstances which: (i) Demands immediate action to preserve public health, protect life, protect public property, or to provide relief to any stricken community overtaken by such occurrences; or (ii) reaches such a dimension or degree of destructiveness as to warrant the governor ~~((declaring))~~ proclaiming a state of emergency pursuant to RCW 43.06.010.

(b) "Emergency" as used in RCW 38.52.430 means an incident that requires a normal police, coroner, fire, rescue, emergency medical services, or utility response as a result of a violation of one of the statutes enumerated in RCW 38.52.430.

~~((7))~~ (9) "Emergency response" as used in RCW 38.52.430 means a public agency's use of emergency services during an emergency or disaster as defined in subsection ~~((6))~~ (8)(b) of this section.

~~((8))~~ (10) "Emergency worker" means any person who is registered with a local emergency management organization or the department and holds an identification card issued by the local emergency management director or the department for the purpose of engaging in authorized emergency management activities or is an employee of the state of Washington or any political subdivision thereof who is called upon to perform emergency management activities.

~~((9))~~ (11) "Executive head" and "executive heads" means the county executive in those charter counties with an elective office of county executive, however designated, and, in the case of other counties, the county legislative authority. In the case of cities and towns, it means the mayor in those cities and towns with mayor-council or commission forms of government, where the mayor is directly elected, and it means the city manager in those cities and towns with council manager forms of government. Cities and towns may also designate an executive head for the purposes of this chapter by ordinance.

~~((10))~~ (12) "Expense of an emergency response" as used in RCW 38.52.430 means reasonable costs incurred by a public agency in reasonably making an appropriate

emergency response to the incident, but shall only include those costs directly arising from the response to the particular incident. Reasonable costs shall include the costs of providing police, coroner, firefighting, rescue, emergency medical services, or utility response at the scene of the incident, as well as the salaries of the personnel responding to the incident.

~~((11))~~ (13) "Incident command system" means: (a) An all-hazards, on-scene functional management system that establishes common standards in organization, terminology, and procedures; provides a means (unified command) for the establishment of a common set of incident objectives and strategies during multiagency/multijurisdiction operations while maintaining individual agency/jurisdiction authority, responsibility, and accountability; and is a component of the national interagency incident management system; or (b) an equivalent and compatible all-hazards, on-scene functional management system.

~~((17))~~ (19) "Public agency" means the state, and a city, county, municipal corporation, district, town, or public authority located, in whole or in part, within this state which provides or may provide firefighting, police, ambulance, medical, or other emergency services.

~~((18))~~ (20) "Radio communications service company" has the meaning ascribed to it in RCW 82.14B.020.

~~((19))~~ (21) "Search and rescue" means the acts of searching for, rescuing, or recovering by means of ground, marine, or air activity any person who becomes lost, injured, or is killed while outdoors or as a result of a natural, technological, or human caused disaster, including instances involving searches for downed aircraft when ground personnel are used. Nothing in this section shall affect appropriate activity by the department of transportation under chapter 47.68 RCW.

Sec. 3. RCW 38.52.030 and 2018 c 26 s 2 are each amended to read as follows:

emergency management, as may be necessary to carry out the purposes of this chapter.

(2) The director, subject to the direction and control of the governor, shall be responsible to the governor for carrying out the program for emergency management of this state. (3) The director shall develop and maintain a comprehensive, all-hazard emergency plan for the state which shall include an analysis of the natural, technological, or human caused hazards which could affect the state of Washington, and shall include the procedures to be used during emergencies for coordinating local resources, as necessary, and the resources of all state agencies, departments, commissions, and boards. The comprehensive emergency management plan shall direct the department in times of state emergency to administer and manage the state's emergency operations center. This will include representation from all appropriate state agencies and be available as a single point of contact for the authorizing of state resources or actions, including emergency permits. The comprehensive emergency management plan must specify the use of the incident command system for multiagency/multijurisdiction operations. The comprehensive, all-hazard emergency plan authorized under this subsection may not include preparation for emergency evacuation or relocation of residents in anticipation of nuclear attack. This plan shall be known as the comprehensive emergency management plan.

(4) In accordance with the comprehensive emergency management plans and the programs for the emergency management of this state, the director shall procure supplies and equipment, institute training programs and public information programs, and shall take all other preparatory steps, including the partial or full mobilization of emergency management organizations in advance of actual disaster, to insure the furnishing of adequately trained and equipped forces of emergency management personnel in time of need.

(9) The director, subject to the direction and control of the governor, shall prepare and administer a state program for emergency assistance to individuals within the state who are victims of a natural, technological, or human caused disaster, as defined by RCW 38.52.010(6). Such program may be integrated into and coordinated with disaster assistance plans and programs of the federal government which provide to the state, or through the state to any political subdivision thereof, services, equipment, supplies, materials, or funds by way of gift, grant, or loan for purposes of assistance to individuals affected by a disaster. Further, such program may include, but shall not be limited to, grants, loans, or gifts of services, equipment, supplies, materials, or funds of the state, or any political subdivision thereof, to individuals who, as a result of a disaster, are in need of assistance and who meet standards of eligibility for disaster assistance established by the department of social and health services: PROVIDED, HOWEVER, That nothing herein shall be construed in any manner inconsistent with the provisions of Article VIII, section 5 or section 7 of the Washington state Constitution.

(10) The director shall appoint a state coordinator for radioactive and hazardous waste emergency response programs. The coordinator shall consult with the state radiation control officer in matters relating to radioactive materials. (d) Undertaking other duties in this area that are deemed appropriate by the director.

(11) The director is responsible to the governor to lead the development and management of a program for interagency coordination and prioritization of continuity of operations planning by state agencies. Each state agency is responsible for developing an organizational continuity of operations plan that is updated and exercised annually in compliance with the program for interagency coordination of continuity of operations planning.

(12) The director shall maintain a copy of the continuity of operations plan for election operations for each county that has a plan available.

(13) Subject to the availability of amounts appropriated for this specific purpose, the director is responsible to the governor to lead the development and management of a program to provide information and education to state and local government officials regarding catastrophic incidents and continuity of government

planning to assist with statewide development of continuity of government plans by all levels and branches of state and local government that address how essential government functions and services will continue to be provided following a catastrophic incident.

Sec. 4. RCW 42.14.010 and 2012 c 117 s 106 are each amended to read as follows:

Unless otherwise clearly required by the context, the following definitions apply:

(1) "Unavailable" means either that a vacancy in the office exists or that the lawful incumbent of the office is absent or unable to exercise the powers and discharge the duties of the office following ~~((an attack))~~ a catastrophic incident and a ~~((declaration))~~ proclamation of existing emergency by the governor or his or her successor.

Each legislator shall proceed to the place of session as expeditiously as practicable. At such session or at any session in operation at the inception of the ~~((attack))~~ catastrophic incident, and at any subsequent sessions, limitations on the length of session and on the subjects which may be acted upon shall be suspended.

Sec. 7. RCW 42.14.035 and 1969 ex.s. c 106 s 1 are each amended to read as follows:

Whenever, in the judgment of the governor, it becomes impracticable, due to an emergency resulting from ~~((enemy attack or natural disaster))~~ a catastrophic incident, to convene the legislature in the usual seat of government at Olympia, the governor may call the legislature into emergency session in any location within this or an adjoining state. ESSB 5035 Prime Sponsor, Committee on Labor & Commerce: Enhancing the prevailing wage laws to ensure contractor and owner accountability and worker protection. Reported by Committee on Labor & Workplace Standards

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds:

(1) That from the shift in the 1980s from criminal to civil penalties for prevailing wage violations that the law

needs some enhancements to effectively provide the department of labor and industries with the ability to utilize its civil remedies to both discourage and penalize repeat and willful violations of the law.

(2) Revisions to chapter 39.12 RCW are long overdue and are necessary to appropriately address filing and reporting procedures and penalties, which are necessary to strengthen enforcement of and deterrence from repeat and/or willful violations of the chapter.

Sec. 2. RCW 39.12.010 and 1989 c 12 s 6 are each amended to read as follows:

(1) The "prevailing rate of wage"~~((for the intents and purposes of this chapter, shall be))~~ is the rate of hourly wage, usual benefits, and overtime paid in the locality, as hereinafter defined, to the majority of workers, laborers, or mechanics, in the same trade or occupation. In the event that there is not a majority in the same trade or occupation paid at the same rate, then the average rate of hourly wage and overtime paid to such laborers, workers, or mechanics in the same trade or occupation ~~((shall be))~~ is the prevailing rate. If the wage paid by any contractor or subcontractor to laborers, workers, or mechanics on any public work is based on some period of time other than an hour, the hourly wage ~~((for the purposes of this chapter shall be))~~ is mathematically determined by the number of hours worked in such period of time.

(2) The "locality" ~~((for the purposes of this chapter shall be))~~ is the largest city in the county wherein the physical work is being performed.

(3) The "usual benefits" ~~((for the purposes of this chapter shall))~~ includes the amount of:

(a) The rate of contribution irrevocably made by a contractor or subcontractor to a trustee or to a third person pursuant to a fund, plan, or program; and

(b) The rate of costs to the contractor or subcontractor, which may be reasonably anticipated in providing benefits to workers, laborers, and mechanics pursuant to an enforceable commitment to carry out a financially responsible plan or program which was communicated in writing to the workers, laborers, and mechanics affected, for medical or hospital care, pensions on retirement or death, compensation for injuries or illness resulting from occupational activity, or insurance to provide any of the foregoing, for unemployment benefits, life insurance, disability and sickness insurance, or accident insurance, for vacation and holiday pay, for defraying costs of apprenticeship or other similar programs, or for other bona fide fringe benefits, but only where the contractor or subcontractor is not required by other federal, state, or local law to provide any of such benefits.

(4) An "interested party" ~~((for the purposes of this chapter shall))~~ includes a contractor, subcontractor, an employee of a contractor or subcontractor, an organization whose members' wages, benefits, and conditions of employment are affected by this chapter, and the director of labor and industries or the director's designee.

(5) An "inadvertent filing or reporting error" is a mistake and is made notwithstanding the use of due care by the contractor, subcontractor, or employer. An inadvertent filing or reporting error includes a contractor who, in good

faith, relies on a written determination provided by the department of labor and industries and pays its workers, laborers, and mechanics accordingly, but is later found to have not paid the proper prevailing wage rate.

(6) "Unpaid prevailing wages" or "unpaid wages" means the employer fails to pay all of the prevailing rate of wages owed for any workweek by the regularly established pay day for the period in which the workweek ends. Every employer must pay all wages, other than usual benefits, owing to its employees not less than once a month. Every employer must pay all usual benefits owing to its employees by the regularly established deadline for those benefits.

(7) "Rate of contribution" means the effective annual rate of usual benefit contributions for all hours, public and private, worked during the year by an employee (commonly referred to as "annualization" of benefits). The only exemption to the annualization requirements is for defined contribution pension plans that have immediate participation and vesting.

Sec. 3. RCW 39.12.050 and 2009 c 219 s 3 are each amended to read as follows:

(1) Any contractor or subcontractor who files a false statement or fails to file any statement or record required to be filed or fails to post a document required to be posted under this chapter and the rules adopted under this chapter, shall, after a determination to that effect has been issued by the director after hearing under chapter 34.05 RCW, forfeit as a civil penalty the sum of five hundred dollars for each false filing or failure to file or post, and shall not be permitted to bid, or have a bid considered, on any public works contract until the penalty has been paid in full to the director. The civil penalty under this subsection ~~((shall))~~ does not apply to a violation determined by the director to be an inadvertent filing or reporting error. The burden of proving, by a preponderance of the evidence, that an error is inadvertent rests with the contractor or subcontractor charged with the error. Civil penalties shall be deposited in the public works administration account.

To the extent that a contractor or subcontractor has not paid wages at the rate due pursuant to RCW 39.12.020, and a finding to that effect has been made as provided by this subsection, such unpaid wages ~~((shall))~~ constitute a lien against the bonds and retainage as provided in RCW 18.27.040, 19.28.041, 39.08.010, and 60.28.011.

(2) If a contractor or subcontractor is found to have violated the provisions of subsection (1) of this section for a second time within a five year period, the contractor or subcontractor ~~((shall be))~~ is subject to the sanctions prescribed in subsection (1) of this section and shall not be allowed to bid on any public works contract for one year. The one year period ~~((shall))~~ runs from the date of notice by the director of the determination of noncompliance. When an appeal is taken from the director's determination, the one year period ~~((shall))~~ commences from the date ~~((of the final determination of the appeal))~~ the notice of violation becomes final.

The director shall issue his or her findings that a contractor or subcontractor has violated the provisions of this subsection after a hearing held subject to the provisions of chapter 34.05 RCW, unless a notice of violation is not

timely appealed. A notice of violation not timely appealed is final and binding, and not subject to further appeal.

Sec. 4. RCW 39.12.065 and 2009 c 219 s 4 are each amended to read as follows:

(1) Upon complaint by an interested party, the director of labor and industries shall cause an investigation to be made to determine whether there has been compliance with this chapter and the rules adopted hereunder, and if the investigation indicates that a violation may have occurred, the department of labor and industries may issue a notice of violation for unpaid wages, penalties, and interest on all wages owed at one percent per month. A hearing shall be held following a timely appeal of the notice of violation in accordance with chapter 34.05 RCW. The director shall issue a written determination including his or her findings after the hearing unless a notice of violation is not timely appealed. A notice of violation not timely appealed is final and binding, and not subject to further appeal. A judicial appeal from the director's determination may be taken in accordance with chapter 34.05 RCW, with the prevailing party entitled to recover reasonable costs and attorneys' fees.

A complaint concerning nonpayment of the prevailing rate of wage shall be filed with the department of labor and industries no later than ~~((thirty))~~ sixty days from the acceptance date of the public works project. The department may not charge a contractor or subcontractor with a violation of this section when responding to a complaint filed after the sixty-day limit. The failure to timely file such a complaint ~~((shall))~~ does not prohibit the department from investigating the matter and recovering unpaid wages for the worker(s) within two years from the acceptance of the public works contract. The department may not investigate or recover unpaid wages if the complaint is filed after two years from the acceptance of a public works contract. The failure to timely file such a complaint also does not prohibit a claimant from pursuing a private right of action against a contractor or subcontractor for unpaid prevailing wages. The remedy provided by this section is not exclusive and is concurrent with any other remedy provided by law.

(2) To the extent that a contractor or subcontractor has not paid the prevailing rate of wage under a determination issued as provided in subsection (1) of this section, the director shall notify the agency awarding the public works contract of the amount of the violation found, and the awarding agency shall withhold, or in the case of a bond, the director shall proceed against the bond in accordance with the applicable statute to recover, such amount from the following sources in the following order of priority until the total of such amount is withheld:

(a) The retainage or bond in lieu of retainage as provided in RCW 60.28.011;

(b) If the claimant was employed by the contractor or subcontractor on the public works project, the bond filed by the contractor or subcontractor with the department of labor and industries as provided in RCW 18.27.040 and 19.28.041;

(c) A surety bond, or at the contractor's or subcontractor's option an escrow account, running to the director in the amount of the violation found; and

(d) That portion of the progress payments which is properly allocable to the contractor or subcontractor who is found to be in violation of this chapter. Under no circumstances shall any portion of the progress payments be withheld that are properly allocable to a contractor, subcontractor, or supplier, that is not found to be in violation of this chapter.

The amount withheld shall be released to the director to distribute in accordance with the director's determination.

(3) A contractor or subcontractor that is found, in accordance with subsection (1) of this section, to have violated the requirement to pay the prevailing rate of wage ~~((shall be))~~ is subject to a civil penalty of not less than ~~((one))~~ five thousand dollars or an amount equal to ~~((twenty))~~ fifty percent of the total prevailing wage violation found on the contract, whichever is greater, interest on all wages owed at one percent per month, and ~~((shall))~~ is not ~~((be))~~ permitted to bid, or have a bid considered, on any public works contract until such civil penalty has been paid in full to the director. If a contractor or subcontractor is found to have participated in a violation of the requirement to pay the prevailing rate of wage for a second time within a five-year period, the contractor or subcontractor ~~((shall be))~~ is subject to the sanctions prescribed in this subsection and as an additional sanction ~~((shall))~~ is not ~~((be))~~ allowed to bid on any public works contract for two years. Civil penalties shall be deposited in the public works administration account. If a previous or subsequent violation of a requirement to pay a prevailing rate of wage under federal or other state law is found against the contractor or subcontractor within five years from a violation under this section, the contractor or subcontractor shall not be allowed to bid on any public works contract for two years. The two-year period runs from the date of notice by the director of the determination of noncompliance. When an appeal is taken from the director's determination, the two-year period commences from the date the notice of violation becomes final. A contractor or subcontractor ~~((shall))~~ is not ~~((be))~~ barred from bidding on any public works contract if the contractor or subcontractor relied upon written information from the department to pay a prevailing rate of wage that is later determined to be in violation of this chapter. The civil penalty and sanctions under this subsection ~~((shall))~~ do not apply to a violation determined by the director to be an inadvertent filing or reporting error. The burden of proving, by a preponderance of the evidence, that an error is inadvertent rests with the contractor or subcontractor charged with the error. To the extent that a contractor or subcontractor has not paid the prevailing wage rate under a determination issued as provided in subsection (1) of this section, the unpaid wages ~~((shall))~~ constitute a lien against the bonds and retainage as provided herein and in RCW 18.27.040, 19.28.041, 39.08.010, and 60.28.011.

(4) The director may waive or reduce a penalty or additional sanction under this section including, but not limited to, when the director determines the contractor or subcontractor paid all wages and interest or there was an inadvertent filing or reporting error. The director may not waive or reduce interest. The department of labor and industries shall submit a report of the waivers made under this section, including a justification for any waiver made, upon request of an interested party.

(5) If, after the department of labor and industries initiates an investigation and before a notice of violation of unpaid wages, the contractor or subcontractor pays the unpaid wages identified in the investigation, interest on all wages owed at one percent per month, and penalties in the amount of one thousand dollars or twenty percent of the total prevailing wage violation determined by the department of labor and industries, whichever is greater, then the violation is considered resolved without further penalty under subsection (3) of this section.

(6) A contractor or subcontractor may only utilize the process outlined in subsection (5) of this section if the department of labor and industries has not issued a notice of violation that resulted in final judgment under this section against that contractor or subcontractor in the last five-year period. If a contractor or subcontractor utilizes the process outlined in subsection (5) of this section for a second time within a five-year period, the contractor or subcontractor is subject to the sanctions prescribed in subsection (3) of this section and may not be allowed to bid on any public works contract for two years.

NEW SECTION. Sec. 5. A new section is added to chapter 39.12 RCW to read as follows:

(1) Each contractor, subcontractor, or employer shall keep accurate payroll records for three years from the date of acceptance of the public works project by the contract awarding agency, showing the employee's full name, address, social security number, trade or occupation, classification, straight and overtime rates, hourly rate of usual benefits, and hours worked each day and week, including any employee authorizations executed pursuant to RCW 49.28.065, and the actual gross wages, itemized deductions, withholdings, and net wages paid, for each laborer, worker, and mechanic employed by the contractor for work performed on a public works project.

(2) A contractor, subcontractor, or employer shall file a copy of its certified payroll records using the department of labor and industries' online system at least once per month. If the department of labor and industries' online system is not used, a contractor, subcontractor, or employer shall file a copy of its certified payroll records directly with the department of labor and industries in a format approved by the department of labor and industries at least once per month.

(3) A contractor, subcontractor, or employer's noncompliance with this section constitutes a violation of RCW 39.12.050.

"NEW SECTION. Sec. 1. The legislature finds that voting by mail has many advantages. However, the legislature also finds that while the cost of ballot return postage may only be a small amount, passing the burden along to Washington's citizens, many of whom no longer need stamps in their everyday lives, is an unnecessary barrier to fully participate in the democratic process. The legislature further finds that in order to continue to increase participation in our democracy, we must lower all barriers to participation in the democratic process. The legislature finds that voting should be free for all citizens.

Sec. 2. RCW 29A.04.420 and 2013 c 11 s 11 are each amended to read as follows:

(1) Whenever state officers or measures are voted upon at a state primary or general election held in an odd-numbered year under RCW 29A.04.321, the state of Washington shall assume a prorated share of the costs of that state primary or general election.

(2) Subject to the availability of amounts appropriated for this specific purpose, the state shall reimburse counties for the cost of return postage, required to be included on return envelopes pursuant to RCW 29A.40.091, for all elections.

(3) Whenever a primary or vacancy election is held to fill a vacancy in the position of United States senator or United States representative under chapter 29A.28 RCW, the state of Washington shall assume a prorated share of the costs of that primary or vacancy election.

~~((3))~~ (4) The county auditor shall apportion the state's share of these expenses when prorating election costs under RCW 29A.04.410 and shall file such expense claims with the secretary of state.

~~((4))~~ (5) The secretary of state shall include in his or her biennial budget requests sufficient funds to carry out this section. Reimbursements for election costs shall be from appropriations specifically provided by law for that purpose.

Sec. 3. RCW 29A.40.091 and 2016 c 83 s 3 are each amended to read as follows:

(1) The county auditor shall send each voter a ballot, a security envelope in which to conceal the ballot after voting, a larger envelope in which to return the security

envelope, a declaration that the voter must sign, and instructions on how to obtain information about the election, how to mark the ballot, and how to return the ballot to the county auditor.

(2) The voter must swear under penalty of perjury that he or she meets the qualifications to vote, and has not voted in any other jurisdiction at this election. The declaration must clearly inform the voter that it is illegal to vote if he or she is not a United States citizen; it is illegal to vote if he or she has been convicted of a felony and has not had his or her voting rights restored; and it is illegal to cast a ballot or sign a ballot declaration on behalf of another voter. The ballot materials must provide space for the voter to sign the declaration, indicate the date on which the ballot was voted, and include a telephone number.

(3) For overseas and service voters, the signed declaration constitutes the equivalent of a voter registration. Return envelopes for overseas and service voters must enable the ballot to be returned postage free if mailed through the United States postal service, United States armed forces postal service, or the postal service of a United States foreign embassy under 39 U.S.C. 3406.

(4) The voter must be instructed to either return the ballot to the county auditor no later than 8:00 p.m. the day of the election or primary, or mail the ballot to the county auditor with a postmark no later than the day of the election or primary. Subject to the availability of amounts appropriated for this specific purpose, return envelopes for all election ballots must include prepaid postage. Service and overseas voters must be provided with instructions and a privacy sheet for returning the ballot and signed declaration by fax or email. A voted ballot and signed declaration returned by fax or email must be received by 8:00 p.m. on the day of the election or primary.

(5) The county auditor's name may not appear on the security envelope, the return envelope, or on any voting instructions or materials included with the ballot if he or she is a candidate for office during the same year.

(6) For purposes of this section, "prepaid postage" means any method of return postage paid by the county or state.

SB 5260

Prime Sponsor, Senator Zeiger: Concerning powers to waive statutory obligations or limitations during a state of emergency in order to cope with the emergency. Reported by Committee on Housing, Community Development & Veterans

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. (1)(a) The legislature finds that the governor has broad authority to proclaim a state of emergency in any area of the state under RCW 43.06.010(12), and to exercise emergency powers during the emergency. These emergency powers have historically included the ability under RCW 43.06.220(1)(h) to temporarily waive or suspend statutory obligations by prohibiting compliance with statutory provisions during a proclaimed state of emergency when the governor

reasonably believed it would help preserve and maintain life, health, property, or the public peace.

(b) The legislature further finds that, in response to issues arising from flooding events in 2007, RCW 43.06.220(2) was amended by chapter 181, Laws of 2008, to explicitly authorize the governor to temporarily waive or suspend a set of specifically identified statutes. This amendment has become problematic for subsequent emergency response activities because it has inadvertently narrowed the governor's ability to waive or suspend statutes under RCW 43.06.220(1)(h) by issuing orders temporarily prohibiting compliance with statutes not expressly identified in RCW 43.06.220(2).

(2) The legislature intends to allow the governor to immediately respond during a proclaimed state of emergency by temporarily waiving or suspending other statutory obligations or limitations prescribing the procedures for conduct of state business, or the orders, rules, or regulations of any state agency, if strict compliance would in any way prevent, hinder, or delay necessary action in coping with the emergency.

Sec. 2. RCW 43.06.220 and 2008 c 181 s 1 are each amended to read as follows:

(1) The governor after proclaiming a state of emergency and prior to terminating such, may, in the area described by the proclamation issue an order prohibiting:

(a) Any person being on the public streets, or in the public parks, or at any other public place during the hours declared by the governor to be a period of curfew;

(b) Any number of persons, as designated by the governor, from assembling or gathering on the public streets, parks, or other open areas of this state, either public or private;

(c) The manufacture, transfer, use, possession or transportation of a molotov cocktail or any other device, instrument or object designed to explode or produce uncontained combustion;

(d) The transporting, possessing or using of gasoline, kerosene, or combustible, flammable, or explosive liquids or materials in a glass or uncapped container of any kind except in connection with the normal operation of motor vehicles, normal home use or legitimate commercial use;

~~(e) ((The possession of firearms or any other deadly weapon by a person (other than a law enforcement officer) in a place other than that person's place of residence or business;~~

~~(f))~~ The sale, purchase or dispensing of alcoholic beverages;

~~((g))~~ ~~(f)~~ The sale, purchase or dispensing of other commodities or goods, as he or she reasonably believes should be prohibited to help preserve and maintain life, health, property or the public peace;

~~((h))~~ ~~(g)~~ The use of certain streets, highways or public ways by the public; and

~~((i))~~ ~~(h)~~ Such other activities as he or she reasonably believes should be prohibited to help preserve and maintain life, health, property or the public peace.

(2) The governor after proclaiming a state of emergency and prior to terminating such may, in the area

described by the proclamation, issue an order or orders concerning waiver or suspension of statutory obligations or limitations in any or all of the following areas as further specified and limited by chapter 181, Laws of 2008:

(a) Liability for participation in interlocal agreements;

(b) Inspection fees owed to the department of labor and industries;

(c) Application of the family emergency assistance program;

(d) Regulations, tariffs, and notice requirements under the jurisdiction of the utilities and transportation commission;

(e) Application of tax due dates and penalties relating to collection of taxes; ~~((and))~~

(f) Permits for industrial, business, or medical uses of alcohol; and

(g) Such other statutory and regulatory obligations or limitations prescribing the procedures for conduct of state business, or the orders, rules, or regulations of any state agency if strict compliance with the provision of any statute, order, rule, or regulation would in any way prevent, hinder, or delay necessary action in coping with the emergency, unless (i) authority to waive or suspend a specific statutory or regulatory obligation or limitation has been expressly granted to another statewide elected official, (ii) the waiver or suspension would conflict with federal requirements that are a prescribed condition to the allocation of federal funds to the state, or (iii) the waiver or suspension would conflict with the rights, under the First Amendment, of freedom of speech or of the people to peaceably assemble. The governor shall give as much notice as practical to legislative leadership and impacted local governments when issuing orders under this subsection (2)(g).

(3) In imposing the restrictions provided for by RCW 43.06.010, and 43.06.200 through 43.06.270, the governor may impose them for such times, upon such conditions, with such exceptions and in such areas of this state he or she from time to time deems necessary.

(4) No order or orders concerning waiver or suspension of statutory obligations or limitations under subsection (2) of this section may continue for longer than thirty days unless extended by the legislature through concurrent resolution. If the legislature is not in session, the waiver or suspension of statutory obligations or limitations may be extended in writing by the leadership of the senate and the house of representatives until the legislature can extend the waiver or suspension by concurrent resolution. For purposes of this section, "leadership of the senate and the house of representatives" means the majority and minority leaders of the senate and the speaker and the minority leader of the house of representatives.

(5) Any person willfully violating any provision of an order issued by the governor under this section is guilty of a gross misdemeanor."

(4) Within forty-five days after receipt of federal decennial census information applicable to a specific local area, the commission established in RCW 44.05.030 shall forward the census information to each political subdivision.

(5) No later than eight months after its receipt of federal decennial census data, the governing body of the political subdivision that had previously invoked its authority under RCW 29A.92.040 to implement a district-based election system, or that was previously charged with redistricting under RCW 29A.92.110, shall prepare a plan for redistricting its districts, pursuant to RCW 29A.76.010, and in a manner consistent with this chapter (~~(113, Laws of 2018)~~).

Sec. 2. RCW 29A.92.110 and 2018 c 113 s 403 are each amended to read as follows:

(1) The court may order appropriate remedies including, but not limited to, the imposition of a district-based election system. The court may order the affected jurisdiction to draw or redraw district boundaries or appoint an individual or panel to draw or redraw district lines. The proposed districts must be approved by the court prior to their implementation.

(2) Implementation of a district-based remedy is not precluded by the fact that members of a protected class do not constitute a numerical majority within a proposed district-based election district. If, in tailoring a remedy, the court orders the implementation of a district-based election district where the members of the protected class are not a numerical majority, the court shall do so in a manner that provides the protected class an equal opportunity to elect candidates of their choice. The court may also approve a district-based election system that provides the protected class the opportunity to join in a coalition of two or more protected classes to elect candidates of their choice if there is demonstrated political cohesion among the protected classes.

(3) In tailoring a remedy after a finding of a violation of RCW 29A.92.020:

(a) If the court's order providing a remedy or approving proposed districts, whichever is later, is issued during the period of time between the first Tuesday after the

first Monday of November and on or before January 15th of the following year, the court shall order new elections, conducted pursuant to the remedy, to occur at the next succeeding general election. If a special filing period is required, filings for that office shall be reopened for a period of three business days, such three-day period to be fixed by the filing officer.

(b) If the court's order providing a remedy or approving proposed districts, whichever is later, is issued during the period of time between January 16th and on or before the first Monday of November, the next election will occur as scheduled and organized under the current electoral system, but the court shall order new elections to occur pursuant to the remedy at the general election the following calendar year.

(c) The remedy may provide for the political subdivision to hold elections for the members of its governing body at the same time as regularly scheduled elections for statewide or federal offices. All positions on the governing body must stand for election at the next election for the governing body, scheduled pursuant to this subsection (3). The governing body may subsequently choose to stagger the terms of its positions.

(4) Within thirty days of the conclusion of any action filed under RCW 29A.92.100, the political subdivision must publish on the subdivision's web site, the outcome and summary of the action, as well as the legal costs incurred by the subdivision. If the political subdivision does not have its own web site, then it may publish on the county web site.

Sec. 3. RCW 28A.343.670 and 2015 c 53 s 15 are each amended to read as follows:

The school boards of any school district of the first class having within its boundaries a city with a population of four hundred thousand people or more shall establish the director district boundaries. Appointment of a board member to fill any vacancy existing for a new director district prior to the next regular school election shall be by the school board. Prior to the next regular election in the school district and the filing of declarations of candidacy therefor, the incumbent school board shall designate said director districts by number. Directors appointed to fill vacancies as above provided shall be subject to election, one for a six-year term, and one for a two-year term and thereafter the term of their respective successors shall be for four years. The term of office of incumbent members of the board of such district shall not be affected by RCW 28A.343.300, 28A.343.600, 28A.343.610, 28A.343.660, and ~~((28A.343.670))~~ this section. If the district is changing its director district boundaries under RCW 29A.92.040 or 29A.92.110, all director positions are subject to election at the next regular election.

Sec. 4. RCW 35.22.370 and 1965 c 7 s 35.22.370 are each amended to read as follows:

Notwithstanding that the charter of a city of the first class may forbid the city council from redividing the city into wards except at stated periods, if the city has failed to redivide the city into wards during any such period, the city council by ordinance may do so at any time thereafter:

PROVIDED, That there shall not be more than one redivision into wards during any one period specified in the charter unless pursuant to RCW 29A.92.040 or 29A.92.110.

Sec. 5. RCW 35.23.051 and 2015 c 53 s 39 are each amended to read as follows:

General municipal elections in second-class cities shall be held biennially in the odd-numbered years and shall be subject to general election law.

The terms of office of the mayor, city attorney, clerk, and treasurer shall be four years and until their successors are elected and qualified and assume office in accordance with RCW 29A.60.280: PROVIDED, That if the offices of city attorney, clerk, and treasurer are made appointive, the city attorney, clerk, and treasurer shall not be appointed for a definite term: PROVIDED FURTHER, That the term of the elected treasurer shall not commence in the same biennium in which the term of the mayor commences, nor in which the terms of the city attorney and clerk commence if they are elected.

Council positions shall be numbered in each second-class city so that council position seven has a two-year term of office and council positions one through six shall each have four-year terms of office. Each councilmember shall remain in office until a successor is elected and qualified and assumes office in accordance with RCW 29A.60.280.

In its discretion the council of a second-class city may divide the city by ordinance, into a convenient number of wards, not exceeding six, fix the boundaries of the wards, and change the ward boundaries from time to time and as provided in RCW 29A.76.010. No change in the boundaries of any ward shall be made within one hundred twenty days next before the date of a general municipal election, nor within twenty months after the wards have been established or altered unless pursuant to RCW 29A.92.040 or 29A.92.110. However, if a boundary change results in one ward being represented by more councilmembers than the number to which it is entitled, those having the shortest unexpired terms shall be assigned by the council to wards where there is a vacancy, and the councilmembers so assigned shall be deemed to be residents of the wards to which they are assigned for purposes of determining whether those positions are vacant.

Whenever such city is so divided into wards, the city council shall designate by ordinance the number of councilmembers to be elected from each ward, apportioning the same in proportion to the population of the wards. Thereafter the councilmembers so designated shall be elected by the voters resident in such ward, or by general vote of the whole city as may be designated in such ordinance. Council position seven shall not be associated with a ward and the person elected to that position may reside anywhere in the city and voters throughout the city may vote at a primary to nominate candidates for position seven, when a primary is necessary, and at a general election to elect the person to council position seven. Additional territory that is added to the city shall, by act of the council, be annexed to contiguous wards without affecting the right to redistrict at the expiration of twenty months after last previous division. The removal of a councilmember from the

ward for which he or she was elected shall create a vacancy in such office.

Wards shall be redrawn as provided in chapter 29A.76 RCW. Wards shall be used as follows: (1) Only a resident of the ward may be a candidate for, or hold office as, a councilmember of the ward; and (2) only voters of the ward may vote at a primary to nominate candidates for a councilmember of the ward. Voters of the entire city may vote at the general election to elect a councilmember of a ward, unless the city had prior to January 1, 1994, limited the voting in the general election for any or all council positions to only voters residing within the ward associated with the council positions. If a city had so limited the voting in the general election to only voters residing within the ward, then the city shall be authorized to continue to do so. The elections for the remaining council position or council positions that are not associated with a ward shall be conducted as if the wards did not exist.

Sec. 6. RCW 35.23.850 and 2015 c 53 s 41 are each amended to read as follows:

In any city initially classified as a second-class city prior to January 1, 1993, that retained its second-class city plan of government when the city reorganized as a noncharter code city, the city council may divide the city into wards, not exceeding six in all, or change the boundaries of existing wards at any time less than one hundred twenty days before a municipal general election. Unless the city is dividing into wards or changing the boundaries of existing wards under RCW 29A.92.040 or 29A.92.110, no change in the boundaries of wards shall affect the term of any councilmember, and councilmembers shall serve out their terms in the wards of their residences at the time of their elections. However, if these boundary changes result in one ward being represented by more councilmembers than the number to which it is entitled, those having the shortest unexpired terms shall be assigned by the council to wards where there is a vacancy, and the councilmembers so assigned shall be deemed to be residents of the wards to which they are assigned for purposes of determining whether those positions are vacant.

If the city is dividing into wards or changing the boundaries of existing wards under RCW 29A.92.040 or 29A.92.110, all council positions are subject to election at the next regular election.

The representation of each ward in the city council shall be in proportion to the population as nearly as is practicable.

Wards shall be redrawn as provided in chapter 29A.76 RCW. Wards shall be used as follows: (1) Only a resident of the ward may be a candidate for, or hold office as, a councilmember of the ward; and (2) only voters of the ward may vote at a primary to nominate candidates for a councilmember of the ward. Voters of the entire city may vote at the general election to elect a councilmember of a ward, unless the city had prior to January 1, 1994, limited the voting in the general election for any or all council positions to only voters residing within the ward associated with the council positions. If a city had so limited the voting in the general election to only voters residing within the ward, then the city shall be authorized to continue to do so.

The elections for the remaining council position or council positions that are not associated with a ward shall be conducted as if the wards did not exist.

Sec. 7. RCW 35A.12.180 and 2015 c 53 s 53 are each amended to read as follows:

At any time not within three months previous to a municipal general election the council of a noncharter code city organized under this chapter may divide the city into wards or change the boundaries of existing wards. Unless the city is dividing into wards or changing the boundaries of existing wards under RCW 29A.92.040 or 29A.92.110, no change in the boundaries of wards shall affect the term of any councilmember, and councilmembers shall serve out their terms in the wards of their residences at the time of their elections: PROVIDED, That if this results in one ward being represented by more councilmembers than the number to which it is entitled those having the shortest unexpired terms shall be assigned by the council to wards where there is a vacancy, and the councilmembers so assigned shall be deemed to be residents of the wards to which they are assigned for purposes of those positions being vacant. The representation of each ward in the city council shall be in proportion to the population as nearly as is practicable.

If the city is dividing into wards or changing the boundaries of existing wards under RCW 29A.92.040 or 29A.92.110, all council positions are subject to election at the next regular election.

Wards shall be redrawn as provided in chapter 29A.76 RCW. Wards shall be used as follows: (1) Only a resident of the ward may be a candidate for, or hold office as, a councilmember of the ward; and (2) only voters of the ward may vote at a primary to nominate candidates for a councilmember of the ward. Voters of the entire city may vote at the general election to elect a councilmember of a ward, unless the city had prior to January 1, 1994, limited the voting in the general election for any or all council positions to only voters residing within the ward associated with the council positions. If a city had so limited the voting in the general election to only voters residing within the ward, then the city shall be authorized to continue to do so.

Sec. 8. RCW 52.14.013 and 2012 c 174 s 3 are each amended to read as follows:

The board of fire commissioners of a fire protection district may adopt a resolution by unanimous vote causing a ballot proposition to be submitted to voters of the district authorizing the creation of commissioner districts. The board of fire commissioners shall create commissioner districts if the ballot proposition authorizing the creation of commissioner districts is approved by a simple majority vote of the voters of the fire protection district voting on the proposition. Three commissioner districts shall be created for a fire protection district with three commissioners, five commissioner districts shall be created for a fire protection district with five commissioners, and seven commissioner districts shall be created for a fire protection district with seven commissioners. No two commissioners may reside in the same commissioner district.

No change in the boundaries of any commissioner district shall be made within one hundred twenty days next before the date of a general district election, nor within twenty months after the commissioner districts have been established or altered unless pursuant to RCW 29A.92.040 or 29A.92.110. However, if a boundary change results in one commissioner district being represented by two or more commissioners, those commissioners having the shortest unexpired terms shall be assigned by the commission to commissioner districts where there is a vacancy, and the commissioners so assigned shall be deemed to be residents of the commissioner districts to which they are assigned for purposes of determining whether those positions are vacant.

The population of each commissioner district shall include approximately equal population. Commissioner districts shall be redrawn as provided in chapter 29A.76 RCW. Commissioner districts shall be used as follows: (1) Only a registered voter who resides in a commissioner district may be a candidate for, or serve as, a commissioner of the commissioner district; and (2) only voters of a commissioner district may vote at a primary to nominate candidates for a commissioner of the commissioner district. Voters of the entire fire protection district may vote at a general election to elect a person as a commissioner of the commissioner district.

When a board of fire commissioners that has commissioner districts has been increased to five or seven members under RCW 52.14.015, the board of fire commissioners shall divide the fire protection district into five or seven commissioner districts before it appoints the two or four additional fire commissioners. The two or four additional fire commissioners who are appointed shall reside in separate commissioner districts in which no other fire commissioner resides.

Sec. 9. RCW 53.16.015 and 2015 c 53 s 82 are each amended to read as follows:

The port commission of a port district that uses commissioner districts may redraw the commissioner district boundaries as provided in chapter 29A.76 RCW or RCW 29A.92.040 or 29A.92.110 at any time and submit the redrawn boundaries to the county auditor if the port district is not coterminous with a county that has the same number of county legislative authority districts as the port has port commissioners. The new commissioner districts shall be used at the next election at which a port commissioner is regularly elected that occurs at least one hundred eighty days after the redrawn boundaries have been submitted. Each commissioner district shall encompass as nearly as possible the same population.

Sec. 10. RCW 53.16.030 and 1992 c 146 s 11 are each amended to read as follows:

Any change of boundary lines provided for in this chapter shall not affect the term for which a commissioner shall hold office at the time the change is made. If the port district commission is redrawing the commissioner district boundaries pursuant to RCW 29A.92.040 or 29A.92.110, each commissioner position is subject to election at the next general election.

"PART I — CONDOMINIUM LIABILITY

Sec. 101. RCW 64.90.410 and 2018 c 277 s 303 are each amended to read as follows:

(1)(a) Except as provided otherwise in the governing documents, subsection (4) of this section, or other provisions of this chapter, the board may act on behalf of the association.

(b) In the performance of their duties, officers and board members must exercise the degree of care and loyalty to the association required of an officer or director of a corporation organized, ~~((and))~~ are subject to the conflict of interest rules governing directors and officers, and are entitled to the immunities from liability available to officers and directors under chapter 24.06 RCW. The standards of care and loyalty, and conflict of interest rules and immunities described in this section apply regardless of the form in which the association is organized.

(2)(a) Except as provided otherwise in RCW 64.90.300(5), effective as of the transition meeting held in accordance with RCW 64.90.415(4), the board must be comprised of at least three members, at least a majority of whom must be unit owners. However, the number of board members need not exceed the number of units then in the common interest community.

(b) Unless the declaration or organizational documents provide for the election of officers by the unit owners, the board must elect the officers.

(c) Unless provided otherwise in the declaration or organizational documents, board members and officers must take office upon adjournment of the meeting at which they were elected or appointed or, if not elected or appointed at a meeting, at the time of such election or appointment, and must serve until their successor takes office.

(d) In determining the qualifications of any officer or board member of the association, "unit owner" includes, unless the declaration or organizational documents provide otherwise, any board member, officer, member, partner, or trustee of any person, who is, either alone or in conjunction with another person or persons, a unit owner.

(e) Any officer or board member of the association who would not be eligible to serve as such if he or she were not a board member, officer, partner in, or trustee of such a person is disqualified from continuing in office if he or she ceases to have any such affiliation with that person or that person would have been disqualified from continuing in such office as a natural person.

(3) Except when voting as a unit owner, the declarant may not appoint or elect any person or to serve itself as a voting, ex officio or nonvoting board member following the transition meeting.

(4) The board may not, without vote or agreement of the unit owners:

(a) Amend the declaration, except as provided in RCW 64.90.285;

(b) Amend the organizational documents of the association;

(c) Terminate the common interest community;

(d) Elect members of the board, but may fill vacancies in its membership not resulting from removal for the unexpired portion of any term or, if earlier, until the next regularly scheduled election of board members; or

(e) Determine the qualifications, powers, duties, or terms of office of board members.

(5) The board must adopt budgets as provided in RCW 64.90.525.

(6) Except for committees appointed by the declarant pursuant to special declarant rights, all committees of the association must be appointed by the board. Committees authorized to exercise any power reserved to the board must include at least two board members who have exclusive voting power for that committee. Committees that are not so composed may not exercise the authority of the board and are advisory only.

Sec. 102. RCW 64.90.670 and 2018 c 277 s 415 are each amended to read as follows:

(1) A declarant and any dealer warrants to a purchaser of a condominium unit that the unit will be in at least as good condition at the earlier of the time of the conveyance or delivery of possession as it was at the time of contracting, except for reasonable wear and tear and damage by casualty or condemnation.

(2) A declarant and any dealer impliedly warrants to a purchaser of a condominium unit that the unit and the common elements in the condominium are suitable for the ordinary uses of real estate of its type and that any improvements made or contracted for by such declarant or dealer will be:

(a) Free from defective materials;

(b) Constructed in accordance with ~~((sound))~~ engineering and construction standards, including applicable building codes, generally accepted in the state of Washington at the time of construction; and

(c) Constructed in a workmanlike manner~~((; and~~

~~((d) Constructed in compliance with all laws then applicable to such improvements)).~~

(3) A declarant and any dealer warrants to a purchaser of a condominium unit that may be used for residential use that an existing use, continuation of which is contemplated by the parties, does not violate applicable law at the earlier of the time of conveyance or delivery of possession.

(4) Warranties imposed under this section may be excluded or modified as specified in RCW 64.90.675.

(5) For purposes of this section, improvements made or contracted for by an affiliate of a declarant are made or contracted for by the declarant.

(6) Any conveyance of a condominium unit transfers to the purchaser all of a declarant's or dealer's implied warranties of quality.

(7)(a) In a proceeding for breach of any of the obligations arising under this section, the ~~((plaintiff))~~ purchaser must show that the alleged breach has adversely affected or will adversely affect the performance of that portion of the unit or common elements alleged to be in breach. Nothing in this section limits the ability of a board to bring claims on behalf of two or more unit owners pursuant to RCW 64.90.405(2)(d).

~~((b) ((As used in this subsection, an adverse effect must be more than technical and must be significant to a reasonable person.)) To establish an adverse effect on performance, the ((person alleging the breach)) purchaser is ((not) required to prove that the alleged breach ((renders the unit or common element uninhabitable or unfit for its intended purpose))):~~

~~((i) Is more than technical;~~

~~((ii) Is significant to a reasonable person; and~~

~~((iii) Has caused or will cause physical damage to the unit or common elements; has materially impaired the performance of mechanical, electrical, plumbing, elevator, or similar building equipment; or presents an actual, unreasonable safety risk to the occupants of the condominium.~~

(8) Proof of breach of any obligation arising under this section is not proof of damages. Damages awarded for a breach of ~~((an obligation))~~ a warranty arising under subsection (2) of this section are the reasonable cost of repairs. However, if it is established that the cost of such repairs is clearly disproportionate to the loss in market value caused by the breach, damages are limited to the loss in market value.

PART II — TECHNICAL CORRECTIONS

Sec. 201. RCW 64.90.010 and 2018 c 277 s 102 are each amended to read as follows:

The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Affiliate of a declarant" means any person who controls, is controlled by, or is under common control with a declarant. For purposes of this subsection:

(a) A person controls a declarant if the person:

(i) Is a general partner, managing member, officer, director, or employer of the declarant;

(ii) Directly or indirectly or acting in concert with one or more other persons, or through one or more subsidiaries, owns, controls, holds with power to vote, or holds proxies representing more than twenty percent of the voting interest in the declarant;

(iii) Controls in any manner the election or appointment of a majority of the directors, managing members, or general partners of the declarant; or

(iv) Has contributed more than twenty percent of the capital of the declarant.

(b) A person is controlled by a declarant if the declarant:

(i) Is a general partner, managing member, officer, director, or employer of the person;

(ii) Directly or indirectly or acting in concert with one or more other persons, or through one or more subsidiaries, owns, controls, holds with power to vote, or holds proxies representing more than twenty percent of the voting interest in the person;

(iii) Controls in any manner the election or appointment of a majority of the directors, managing members, or general partners of the person; or

(iv) Has contributed more than twenty percent of the capital of the person.

(c) Control does not exist if the powers described in this subsection (1) are held solely as security for an obligation and are not exercised.

(2) "Allocated interests" means the following interests allocated to each unit:

(a) In a condominium, the undivided interest in the common elements, the common expense liability, and votes in the association;

(b) In a cooperative, the common expense liability, the ownership interest, and votes in the association; and

(c) In a plat community and miscellaneous community, the common expense liability and the votes in the association, and also the undivided interest in the common elements if owned in common by the unit owners rather than an association.

(3) "Assessment" means all sums chargeable by the association against a unit, including any assessments levied pursuant to RCW 64.90.480, fines or fees levied or imposed by the association pursuant to this chapter or the governing documents, interest and late charges on any delinquent account, and all costs of collection incurred by the association in connection with the collection of a delinquent owner's account, including reasonable attorneys' fees.

(4) "Association" or "unit owners association" means the unit owners association organized under RCW 64.90.400 and, to the extent necessary to construe sections of this chapter made applicable to common interest communities pursuant to RCW 64.90.080, 64.90.090, or 64.90.095, the association organized or created to administer such common interest communities.

(5) "Ballot" means a record designed to cast or register a vote or consent in a form provided or accepted by the association.

(a) In a condominium or cooperative, all portions of the common interest community other than the units;

(b) In a plat community or miscellaneous community, any real estate other than a unit within a plat community or miscellaneous community that is owned or leased either by the association or in common by the unit owners rather than an association; and

(c) In all common interest communities, any other interests in real estate for the benefit of any unit owners that are subject to the declaration.

(8) "Common expense" means any expense of the association, including allocations to reserves, allocated to all of the unit owners in accordance with common expense liability.

(9) "Common expense liability" means the liability for common expenses allocated to each unit pursuant to RCW 64.90.235.

(10) "Common interest community" means real estate described in a declaration with respect to which a person, by virtue of the person's ownership of a unit, is obligated to pay for a share of real estate taxes, insurance premiums, maintenance, or improvement of, or services or other expenses related to, common elements, other units, or other real estate described in the declaration. "Common interest community" does not include an arrangement described in RCW 64.90.110 or 64.90.115. A common interest community may be a part of another common interest community.

(11) "Condominium" means a common interest community in which portions of the real estate are designated for separate ownership and the remainder of the real estate is designated for common ownership solely by the owners of those portions. A common interest community is not a condominium unless the undivided interests in the common elements are vested in the unit owners.

(12) "Condominium notice" means the notice given to tenants pursuant to subsection (13)(c) of this section.

(13)(a) "Conversion building" means a building:

(i) That at any time before creation of the common interest community was lawfully occupied wholly or partially by a tenant or subtenant for residential purposes pursuant to a rental agreement, oral or written, express or implied, who did not receive a condominium notice prior to entering into the rental agreement or lawfully taking occupancy, whichever event occurred first; or

(ii) That at any time within the twelve months preceding the first acceptance of an agreement with the declarant to convey, or the first conveyance of, any unit in the building, whichever event occurred first, to any person who was not a declarant or dealer, or affiliate of a declarant or dealer, was lawfully occupied wholly or partially by a tenant or subtenant for residential purposes pursuant to a rental agreement, oral or written, express or implied, who did not receive a condominium notice prior to entering into

the rental agreement or lawfully taking occupancy, whichever event occurred first.

(12) Upon exercising any development right, the declarant must record either new maps necessary to conform to the requirements of subsections (3), (4), (6), and (8) of this section, or new certifications of any map previously recorded if that map otherwise conforms to the requirements of subsections (3), (4), (6), and (8) of this section.

(13) Any survey and the surveyor certifications required under this section must be made by a licensed surveyor.

(14) As to a plat community, the information required under subsections (6)(a) and (c), (8)(d) through (g), (k), (m), and (n), (9), and (10) of this section is required, but may be shown on a map incorporated in or attached to the declaration, and need not be shown on the plat community map. Any such map is deemed a map for purposes of applying the provisions of this section, and the declarant must provide the certification required under subsection (6)(b) of this section.

(15) In showing or projecting the location and dimensions of the vertical boundaries of a unit located in a building, it is not necessary to show the thickness of the walls constituting the vertical boundaries or otherwise show the distance of those vertical boundaries either from the exterior surface of the building containing that unit or from adjacent vertical boundaries of other units if: (a) The walls are designated to be the vertical boundaries of that

unit; (b) the unit is located within a building, the location and dimensions of the building having been shown on the map under subsection (8)(f) of this section; and (c) the graphic general location of the vertical boundaries are shown in relation to the exterior surfaces of that building and to the vertical boundaries of other units within that building.

Sec. 208. RCW 64.90.285 and 2018 c 277 s 218 are each amended to read as follows:

(1)(a) Except in cases of amendments that may be executed by: A declarant under subsection (10) of this section, RCW 64.90.240(2), 64.90.245(12), 64.90.250, or 64.90.415(2)(d); the association under RCW 64.90.030, 64.90.230(5), 64.90.240(3), 64.90.260(1), or 64.90.265 or subsection (11) of this section; or certain unit owners under RCW 64.90.240(2), 64.90.260(1), 64.90.265(2), or 64.90.290(2), and except as limited by subsections (4), (6), (7), (8), and (12) of this section, the declaration may be amended only by vote or agreement of unit owners of units to which at least sixty-seven percent of the votes in the association are allocated, unless the declaration specifies a different percentage not to exceed ninety percent for all amendments or for specific subjects of amendment. For purposes of this section, "amendment" means any change to the declaration, including adding, removing, or modifying restrictions contained in a declaration.

(b) If the declaration requires the approval of another person as a condition of its effectiveness, the amendment is not valid without that approval; however, any right of approval may not result in an expansion of special declarant rights reserved in the declaration or violate any other section of this chapter, including RCW 64.90.015, 64.90.050, 64.90.055, and 64.90.060.

(2) In the absence of fraud, any action to challenge the validity of an amendment adopted by the association may not be brought more than one year after the amendment is recorded.

(3) Every amendment to the declaration must be recorded in every county in which any portion of the common interest community is located and is effective only upon recordation. An amendment, except an amendment pursuant to RCW 64.90.260(1), must be indexed in the grantee's index in the name of the common interest community and the association and in the grantor's index in the name of the parties executing the amendment.

(4) Except to the extent expressly permitted or required under this chapter, an amendment may not create or increase special declarant rights, increase the number of units, change the boundaries of any unit, or change the allocated interests of a unit without the consent of unit owners to which at least ninety percent of the votes in the association are allocated, including the consent of any unit owner of a unit, the boundaries of which or allocated interest of which is changed by the amendment.

(5) Amendments to the declaration required to be executed by the association must be executed by any authorized officer of the association who must certify in the amendment that it was properly adopted.

(6) The declaration may require a higher percentage of unit owner approval for an amendment that is intended to prohibit or materially restrict the uses of units permitted under the applicable zoning ordinances, or to protect the interests of members of a defined class of owners, or to protect other legitimate interests of the association or its members. Subject to subsection (13) of this section, a declaration may not require, as a condition for amendment, approval by more than ninety percent of the votes in the association or by all but one unit owner, whichever is less. An amendment approved under this subsection must provide reasonable protection for a use permitted at the time the amendment was adopted.

(7) The time limits specified in the declaration pursuant to RCW 64.90.225(1)(g) within which reserved development rights must be exercised may be extended, and additional development rights may be created, if persons entitled to cast at least eighty percent of the votes in the association, including eighty percent of the votes allocated to units not owned by the declarant, agree to that action. The agreement is effective thirty days after an amendment to the declaration reflecting the terms of the agreement is recorded unless all the persons holding the affected special declarant rights, or security interests in those rights, record a written objection within the thirty-day period, in which case the amendment is void, or consent in writing at the time the amendment is recorded, in which case the amendment is effective when recorded.

(8) A provision in the declaration creating special declarant rights that have not expired may not be amended without the consent of the declarant.

(9) If any provision of this chapter or the declaration requires the consent of a holder of a security interest in a unit as a condition to the effectiveness of an amendment to the declaration, the consent is deemed granted if a refusal to consent in a record is not received by the association within sixty days after the association delivers notice of the proposed amendment to the holder at an address for notice provided by the holder or mails the notice to the holder by certified mail, return receipt requested, at that address. If the holder has not provided an address for notice to the association, the association must provide notice to the address in the security interest of record.

(10) Upon thirty-day advance notice to unit owners, the declarant may, without a vote of the unit owners or approval by the board, unilaterally adopt, execute, and record a corrective amendment or supplement to the governing documents to correct a mathematical mistake, an inconsistency, or a scrivener's error, or clarify an ambiguity in the governing documents with respect to an objectively verifiable fact including, without limitation, recalculating the undivided interest in the common elements, the liability for common expenses, or the number of votes in the unit owners' association appertaining to a unit, within five years after the recordation or adoption of the governing document containing or creating the mistake, inconsistency, error, or ambiguity. Any such amendment or supplement may not materially reduce what the obligations of the declarant

would have been if the mistake, inconsistency, error, or ambiguity had not occurred.

(11) Upon thirty-day advance notice to unit owners, the association may, upon a vote of two-thirds of the members of the board, without a vote of the unit owners, adopt, execute, and record an amendment to the declaration for the following purposes:

(a) To correct or supplement the governing documents as provided in subsection (10) of this section;

(b) To remove language and otherwise amend as necessary to effect the removal of language purporting to forbid or restrict the conveyance, encumbrance, occupancy, or lease to: Individuals of a specified race, creed, color, sex, or national origin; individuals with sensory, mental, or physical disabilities; and families with children or any other legally protected classification;

(c) To remove language and otherwise amend as necessary to effect the removal of language that purports to impose limitations on the power of the association beyond the limit authorized in RCW 64.90.405(~~((1)(a))~~) (3)(a) to deal with the declarant that are more restrictive than the limitations imposed on the power of the association to deal with other persons; and

(d) To remove any other language and otherwise amend as necessary to effect the removal of language purporting to limit the rights of the association or its unit owners in direct conflict with this chapter.

(12) If the declaration requires that amendments to the declaration may be adopted only if the amendment is signed by a specified number or percentage of unit owners and if the common interest community contains more than twenty units, such requirement is deemed satisfied if the association obtains such signatures or the vote or agreement of unit owners holding such number or percentage.

(13)(a) If the declaration requires that amendments to the declaration may be adopted only by the vote or agreement of unit owners of units to which more than sixty-seven percent of the votes in the association are allocated, and the percentage required is otherwise consistent with this chapter, the amendment is approved if:

(i) The approval of the percentage specified in the declaration is obtained;

(ii)(A) Unit owners of units to which at least sixty-seven percent of the votes in the association are allocated vote for or agree to the proposed amendment;

(B) A unit owner does not vote against the proposed amendment; and

(C) Notice of the proposed amendment, including notice that the failure of a unit owner to object may result in the adoption of the amendment, is delivered to the unit owners holding the votes in the association that have not voted or agreed to the proposed amendment and no written objection to the proposed amendment is received by the association within sixty days after the association delivers notice; or

(iii)(A) Unit owners of units to which at least sixty-seven percent of the votes in the association are allocated vote for or agree to the proposed amendment;

(B) At least one unit owner objects to the proposed amendment; and

(C) Pursuant to an action brought by the association in the county in which the common interest community is situated against all objecting unit owners, the court finds, under the totality of circumstances including, but not limited to, the subject matter of the amendment, the purpose of the amendment, the percentage voting to approve the amendment, and the percentage objecting to the amendment, that the amendment is reasonable.

(b) If the declaration requires the affirmative vote or approval of any particular unit owner or class of unit owners as a condition of its effectiveness, the amendment is not valid without that vote or approval.

Sec. 209. RCW 64.90.405 and 2018 c 277 s 302 are each amended to read as follows:

(1) An association must:

(a) Adopt organizational documents;

(b) Adopt budgets as provided in RCW 64.90.525;

(g) Cause additional improvements to be made as a part of the common elements;

(h) Acquire, hold, encumber, and convey in its own name any right, title, or interest to real estate or personal property, but:

(i) Common elements in a condominium, plat community, or miscellaneous community may be conveyed or subjected to a security interest pursuant to RCW 64.90.465 only; and

(ii) Part of a cooperative may be conveyed, or all or part of a cooperative may be subjected to a security interest pursuant to RCW 64.90.465 only;

(i) Grant easements, leases, licenses, and concessions through or over the common elements and petition for or consent to the vacation of streets and alleys;

(j) Impose and collect any reasonable payments, fees, or charges for:

(i) The use, rental, or operation of the common elements, other than limited common elements described in RCW 64.90.210 (1)(b) and (3);

(ii) Services provided to unit owners; and

(iii) Moving in, moving out, or transferring title to units to the extent provided for in the declaration;

(k) Collect assessments and impose and collect reasonable charges for late payment of assessments;

(l) Enforce the governing documents and, after notice and opportunity to be heard, impose and collect reasonable fines for violations of the governing documents in accordance with a previously established schedule of fines adopted by the board of directors and furnished to the owners;

(m) Impose and collect reasonable charges for the preparation and recordation of amendments to the declaration, resale certificates required under RCW 64.90.640, lender questionnaires, or statements of unpaid assessments;

(n) Provide for the indemnification of its officers and board members, to the extent provided in RCW 23B.17.030;

(o) Maintain directors' and officers' liability insurance;

(p) Subject to subsection (4) of this section, assign its right to future income, including the right to receive assessments;

(q) Join in a petition for the establishment of a parking and business improvement area, participate in the ratepayers' board or other advisory body set up by the legislative authority for operation of a parking and business improvement area, and pay special assessments levied by the legislative authority on a parking and business improvement area encompassing the condominium property for activities and projects that benefit the condominium directly or indirectly;

(r) Establish and administer a reserve account as described in RCW 64.90.535;

(s) Prepare a reserve study as described in RCW 64.90.545;

(t) Exercise any other powers conferred by the declaration or organizational documents;

(u) Exercise all other powers that may be exercised in this state by the same type of entity as the association;

(v) Exercise any other powers necessary and proper for the governance and operation of the association;

(w) Require that disputes between the association and unit owners or between two or more unit owners regarding the common interest community, other than those governed by chapter 64.50 RCW, be submitted to nonbinding alternative dispute resolution as a prerequisite to commencement of a judicial proceeding; and

(x) Suspend any right or privilege of a unit owner who fails to pay an assessment, but may not:

(i) Deny a unit owner or other occupant access to the owner's unit;

(ii) Suspend a unit owner's right to vote; or

(iii) Withhold services provided to a unit or a unit owner by the association if the effect of withholding the service would be to endanger the health, safety, or property of any person.

(3) The declaration may not limit the power of the association beyond the limit authorized in subsection (2)(w) of this section to:

(a) Deal with the declarant if the limit is more restrictive than the limit imposed on the power of the association to deal with other persons; or

(b) Institute litigation or an arbitration, mediation, or administrative proceeding against any person, subject to the following:

(i) The association must comply with chapter 64.50 RCW, if applicable, before instituting any proceeding described in chapter 64.50 RCW in connection with construction defects; and

(ii) The board must promptly provide notice to the unit owners of any legal proceeding in which the association is a party other than proceedings involving enforcement of rules or to recover unpaid assessments or other sums due the association.

(4) Any borrowing by an association that is to be secured by an assignment of the association's right to receive future income pursuant to subsection (2)(e) and (p) of this section requires ratification by the unit owners as provided in this subsection.

(a) The board must provide notice of the intent to borrow to all unit owners. The notice must include the purpose and maximum amount of the loan, the estimated amount and term of any assessments required to repay the loan, a reasonably detailed projection of how the money will be expended, and the interest rate and term of the loan.

(b) In the notice, the board must set a date for a meeting of the unit owners, which must not be less than

fourteen and no more than ~~(sixty)~~ fifty days after mailing of the notice, to consider ratification of the borrowing.

(c) Unless at that meeting, whether or not a quorum is present, unit owners holding a majority of the votes in the association or any larger percentage specified in the declaration reject the proposal to borrow funds, the association may proceed to borrow the funds in substantial accordance with the terms contained in the notice.

(5) If a tenant of a unit owner violates the governing documents, in addition to exercising any of its powers against the unit owner, the association may:

(a) Exercise directly against the tenant the powers described in subsection (2)(l) of this section;

(b) After giving notice to the tenant and the unit owner and an opportunity to be heard, levy reasonable fines against the tenant and unit owner for the violation; and

(c) Enforce any other rights against the tenant for the violation that the unit owner as the landlord could lawfully have exercised under the lease or that the association could lawfully have exercised directly against the unit owner, or both; but the association does not have the right to terminate a lease or evict a tenant unless permitted by the declaration. The rights referred to in this subsection (5)(c) may be exercised only if the tenant or unit owner fails to cure the violation within ten days after the association notifies the tenant and unit owner of that violation.

(6) Unless a lease otherwise provides, this section does not:

(a) Affect rights that the unit owner has to enforce the lease or that the association has under other law; or

(b) Permit the association to enforce a lease to which it is not a party in the absence of a violation of the governing documents.

(7) The board may determine whether to take enforcement action by exercising the association's power to impose sanctions or commencing an action for a violation of the governing documents, including whether to compromise any claim for unpaid assessments or other claim made by or against it.

(8) The board does not have a duty to take enforcement action if it determines that, under the facts and circumstances presented:

(a) The association's legal position does not justify taking any or further enforcement action;

(b) The covenant, restriction, or rule being enforced is, or is likely to be construed as, inconsistent with law;

(c) Although a violation may exist or may have occurred, it is not so material as to be objectionable to a reasonable person or to justify expending the association's resources; or

(d) It is not in the association's best interests to pursue an enforcement action.

(9) The board's decision under subsections (7) and (8) of this section to not pursue enforcement under one set of circumstances does not prevent the board from taking enforcement action under another set of circumstances, but the board may not be arbitrary or capricious in taking enforcement action.

Sec. 210. RCW 64.90.445 and 2018 c 277 s 310 are each amended to read as follows:

(1) The following requirements apply to unit owner meetings:

(a) A meeting of the association must be held at least once each year. Failure to hold an annual meeting does not cause a forfeiture or give cause for dissolution of the association and does not affect otherwise valid association acts.

(b)(i) An association must hold a special meeting of unit owners to address any matter affecting the common interest community or the association if its president, a majority of the board, or unit owners having at least twenty percent, or any lower percentage specified in the organizational documents, of the votes in the association request that the secretary call the meeting.

(ii) If the association does not provide notice to unit owners of a special meeting within thirty days after the requisite number or percentage of unit owners request the secretary to do so, the requesting members may directly provide notice to all the unit owners of the meeting. Only matters described in the meeting notice required in (c) of this subsection may be considered at a special meeting.

(c) An association must provide notice to unit owners of the time, date, and place of each annual and special unit owners meeting not less than fourteen days and not more than fifty days before the meeting date. Notice may be by any means described in RCW 64.90.515. The notice of any meeting must state the time, date, and place of the meeting and the items on the agenda, including:

(i) The text of any proposed amendment to the declaration or organizational documents;

(ii) Any changes in the previously approved budget that result in a change in the assessment obligations; and

(iii) Any proposal to remove a board member or officer.

(d) The minimum time to provide notice required in (c) of this subsection may be reduced or waived for a meeting called to deal with an emergency.

(e) Unit owners must be given a reasonable opportunity at any meeting to comment regarding any matter affecting the common interest community or the association.

(f) The declaration or organizational documents may allow for meetings of unit owners to be conducted by telephonic, video, or other conferencing process, if the process is consistent with subsection (2)(i) of this section.

(2) The following requirements apply to meetings of the board and committees authorized to act for the board:

(a) Meetings must be open to the unit owners except during executive sessions, but the board may expel or prohibit attendance by any person who, after warning by the chair of the meeting, disrupts the meeting. The board and those committees may hold an executive session only during a regular or special meeting of the board or a committee. A final vote or action may not be taken during an executive session.

(b) An executive session may be held only to:

(i) Consult with the association's attorney concerning legal matters;

(ii) Discuss existing or potential litigation or mediation, arbitration, or administrative proceedings;

(iii) Discuss labor or personnel matters;

(iv) Discuss contracts, leases, and other commercial transactions to purchase or provide goods or services currently being negotiated, including the review of bids or proposals, if premature general knowledge of those matters would place the association at a disadvantage; or

(v) Prevent public knowledge of the matter to be discussed if the board or committee determines that public knowledge would violate the privacy of any person.

(c) For purposes of this subsection, a gathering of members of the board or committees at which the board or committee members do not conduct association business is not a meeting of the board or committee. Board members and committee members may not use incidental or social gatherings to evade the open meeting requirements of this subsection.

(d) During the period of declarant control, the board must meet at least four times a year. At least one of those meetings must be held at the common interest community or at a place convenient to the community. After the transition meeting, all board meetings must be at the common interest community or at a place convenient to the common interest community unless the unit owners amend the bylaws to vary the location of those meetings.

(e) At each board meeting, the board must provide a reasonable opportunity for unit owners to comment regarding matters affecting the common interest community and the association.

(f) Unless the meeting is included in a schedule given to the unit owners or the meeting is called to deal with an emergency, the secretary or other officer specified in the organizational documents must provide notice of each board meeting to each board member and to the unit owners. The notice must be given at least fourteen days before the meeting and must state the time, date, place, and agenda of the meeting.

(g) If any materials are distributed to the board before the meeting, the board must make copies of those materials reasonably available to ~~((those))~~ the unit owners, except that the board need not make available copies of unapproved minutes or materials that are to be considered in executive session.

(h) Unless the organizational documents provide otherwise, fewer than all board members may participate in a regular or special meeting by or conduct a meeting through the use of any means of communication by which all board members participating can hear each other during the meeting. A board member participating in a meeting by these means is deemed to be present in person at the meeting.

(i) Unless the organizational documents provide otherwise, the board may meet by participation of all board members by telephonic, video, or other conferencing process if:

(i) The meeting notice states the conferencing process to be used and provides information explaining how unit owners may participate in the conference directly or by meeting at a central location or conference connection; and

(ii) The process provides all unit owners the opportunity to hear or perceive the discussion and to comment as provided in (e) of this subsection.

(j) After the transition meeting, unit owners may amend the organizational documents to vary the procedures for meetings described in (i) of this subsection.

(k) Instead of meeting, the board may act by unanimous consent as documented in a record by all its members. Actions taken by unanimous consent must be kept as a record of the association with the meeting minutes. After the transition meeting, the board may act by unanimous consent only to undertake ministerial actions, actions subject to ratification by the unit owners, or to implement actions previously taken at a meeting of the board.

(l) A board member who is present at a board meeting at which any action is taken is presumed to have assented to the action taken unless the board member's dissent or abstention to such action is lodged with the person acting as the secretary of the meeting before adjournment of the meeting or provided in a record to the secretary of the association immediately after adjournment of the meeting. The right to dissent or abstain does not apply to a board member who voted in favor of such action at the meeting.

(m) A board member may not vote by proxy or absentee ballot.

(n) Even if an action by the board is not in compliance with this section, it is valid unless set aside by a court. A challenge to the validity of an action of the board for failure to comply with this section may not be brought more than ninety days after the minutes of the board of the meeting at which the action was taken are approved or the record of that action is distributed to unit owners, whichever is later.

(3) Minutes of all unit owner meetings and board meetings, excluding executive sessions, must be maintained in a record. The decision on each matter voted upon at a board meeting or unit owner meeting must be recorded in the minutes.

Sec. 211. RCW 64.90.485 and 2018 c 277 s 318 are each amended to read as follows:

(1) The association has a statutory lien on each unit for any unpaid assessment against the unit from the time such assessment is due.

(2) A lien under this section has priority over all other liens and encumbrances on a unit except:

(a) Liens and encumbrances recorded before the recordation of the declaration and, in a cooperative, liens and encumbrances that the association creates, assumes, or takes subject to;

(b) Except as otherwise provided in subsection (3) of this section, a security interest on the unit recorded before the date on which the unpaid assessment became due or, in a cooperative, a security interest encumbering only the unit owner's interest and perfected before the date on which the unpaid assessment became due; and

(c) Liens for real estate taxes and other state or local governmental assessments or charges against the unit or cooperative.

(3)(a) A lien under this section also has priority over the security interests described in subsection (2)(b) of this section to the extent of an amount equal to the following:

(i) The common expense assessments, excluding any amounts for capital improvements, based on the periodic budget adopted by the association pursuant to RCW 64.90.480(1), along with any specially allocated assessments that are properly assessable against the unit under such periodic budget, which would have become due in the absence of acceleration during the six months immediately preceding the institution of proceedings to foreclose either the association's lien or a security interest described in subsection (2)(b) of this section;

(ii) The association's actual costs and reasonable attorneys' fees incurred in foreclosing its lien but incurred after the giving of the notice described in (a)(iii) of this subsection; provided, however, that the costs and reasonable attorneys' fees that will have priority under this subsection (3)(a)(ii) shall not exceed two thousand dollars or an amount equal to the amounts described in (a)(i) of this subsection, whichever is less;

(iii) The amounts described in (a)(ii) of this subsection shall be prior only to the security interest of the holder of a security interest on the unit recorded before the date on which the unpaid assessment became due and only if the association has given that holder not less than sixty days' prior written notice that the owner of the unit is in default in payment of an assessment. The notice shall contain:

(A) Name of the borrower;

(B) Recording date of the trust deed or mortgage;

(C) Recording information;

(D) Name of condominium, unit owner, and unit designation stated in the declaration or applicable supplemental declaration;

(E) Amount of unpaid assessment; and

(F) A statement that failure to, within sixty days of the written notice, submit the association payment of six months of assessments as described in (a)(i) of this subsection will result in the priority of the amounts described in (a)(ii) of this subsection; and

(iv) Upon payment of the amounts described in (a)(i) and (ii) of this subsection by the holder of a security interest, the association's lien described in this subsection (3)(a) shall thereafter be fully subordinated to the lien of such holder's security interest on the unit.

(b) For the purposes of this subsection:

(i) "Institution of proceedings" means either:

(A) The date of recording of a notice of trustee's sale by a deed of trust beneficiary;

(B) The date of commencement, pursuant to applicable court rules, of an action for judicial foreclosure either by the association or by the holder of a recorded security interest; or

(C) The date of recording of a notice of intention to forfeit in a real estate contract forfeiture proceeding by the vendor under a real estate contract.

(ii) "Capital improvements" does not include making, in the ordinary course of management, repairs to common elements or replacements of the common elements with substantially similar items, subject to: (A) Availability of materials and products, (B) prevailing law, or (C) sound engineering and construction standards then prevailing.

(c) The adoption of a periodic budget that purports to allocate to a unit any fines, late charges, interest, attorneys' fees and costs incurred for services unrelated to the foreclosure of the association's lien, other collection charges, or specially allocated assessments assessed under RCW 64.90.480 (6) or (7) does not cause any such items to be included in the priority amount affecting such unit.

(4) Subsections (2) and (3) of this section do not affect the priority of mechanics' or material suppliers' liens to the extent that law of this state other than chapter 277, Laws of 2018 gives priority to such liens, or the priority of liens for other assessments made by the association.

(5) A lien under this section is not subject to chapter 6.13 RCW.

(6) If the association forecloses its lien under this section nonjudicially pursuant to chapter 61.24 RCW, as provided under subsection (13) of this section, the association is not entitled to the lien priority provided for under subsection (3) of this section, and is subject to the limitations on deficiency judgments as provided in chapter 61.24 RCW.

(7) Unless the declaration provides otherwise, if two or more associations have liens for assessments created at any time on the same property, those liens have equal priority as to each other, and any foreclosure of one such lien shall not affect the lien of the other.

(8) Recording of the declaration constitutes record notice and perfection of the statutory lien created under this section. Further notice or recordation of any claim of lien for assessment under this section is not required, but is not prohibited.

(9) A lien for unpaid assessments and the personal liability for payment of those assessments are extinguished unless proceedings to enforce the lien or collect the debt are instituted within six years after the full amount of the assessments sought to be recovered becomes due.

(10) This section does not prohibit actions against unit owners to recover sums for which subsection (1) of this section creates a lien or prohibit an association from taking a deed in lieu of foreclosure.

(11) The association upon written request must furnish to a unit owner or a mortgagee a statement signed by an officer or authorized agent of the association setting forth the amount of unpaid assessments or the priority amount against that unit, or both. The statement must be furnished within fifteen days after receipt of the request and is binding on the association, the board, and every unit owner unless, and to the extent, known by the recipient to be false. The liability of a recipient who reasonably relies upon the statement must not exceed the amount set forth in any statement furnished pursuant to this section or RCW 64.90.640(1)(b).

(12) In a cooperative, upon nonpayment of an assessment on a unit, the unit owner may be evicted in the same manner as provided by law in the case of an unlawful holdover by a commercial tenant, and the lien may be foreclosed as provided under this section.

(13) The association's lien may be foreclosed in accordance with (a) and (b) of this subsection.

(a) In a common interest community other than a cooperative, the association's lien may be foreclosed judicially in accordance with chapter 61.12 RCW, subject to any rights of redemption under chapter 6.23 RCW.

(b) The lien may be enforced nonjudicially in the manner set forth in chapter 61.24 RCW for nonjudicial foreclosure of deeds of trust if the declaration: Contains a grant of the common interest community in trust to a trustee qualified under RCW 61.24.010 to secure the obligations of the unit owners to the association for the payment of assessments, contains a power of sale, provides in its terms that the units are not used principally for agricultural purposes, and provides that the power of sale is operative in the case of a default in the obligation to pay assessments. The association or its authorized representative may purchase the unit at the foreclosure sale and acquire, hold, lease, mortgage, or convey the unit. Upon an express waiver in the complaint of any right to a

deficiency judgment in a judicial foreclosure action, the period of redemption is eight months.

(c) In a cooperative in which the unit owners' interests in the units are real estate, the association's lien must be foreclosed in like manner as a mortgage on real estate or by power of sale under (b) of this subsection.

(d) In a cooperative in which the unit owners' interests in the units are personal property, the association's lien must be foreclosed in like manner as a security interest under chapter 62A.9A RCW.

(14) If the unit owner's interest in a unit in a cooperative is real estate, the following requirements apply:

(a) The association, upon nonpayment of assessments and compliance with this subsection, may sell that unit at a public sale or by private negotiation, and at any time and place. The association must give to the unit owner and any lessee of the unit owner reasonable notice in a record of the time, date, and place of any public sale or, if a private sale is intended, of the intention of entering into a contract to sell and of the time and date after which a private conveyance may be made. Such notice must also be sent to any other person that has a recorded interest in the unit that would be cut off by the sale, but only if the recorded interest was on record seven weeks before the date specified in the notice as the date of any public sale or seven weeks before the date specified in the notice as the date after which a private sale may be made. The notices required under this subsection may be sent to any address reasonable in the circumstances. A sale may not be held until five weeks after the sending of the notice. The association may buy at any public sale and, if the sale is conducted by a fiduciary or other person not related to the association, at a private sale.

(b) Unless otherwise agreed to or as stated in this section, the unit owner is liable for any deficiency in a foreclosure sale.

(c) The proceeds of a foreclosure sale must be applied in the following order:

(i) The reasonable expenses of sale;

(ii) The reasonable expenses of securing possession before sale; the reasonable expenses of holding, maintaining, and preparing the unit for sale, including payment of taxes and other governmental charges and premiums on insurance; and, to the extent provided for by agreement between the association and the unit owner, reasonable attorneys' fees, costs, and other legal expenses incurred by the association;

(iii) Satisfaction of the association's lien;

(iv) Satisfaction in the order of priority of any subordinate claim of record; and

(v) Remittance of any excess to the unit owner.

(d) A good-faith purchaser for value acquires the unit free of the association's debt that gave rise to the lien under which the foreclosure sale occurred and any subordinate interest, even though the association or other

person conducting the sale failed to comply with this section. The person conducting the sale must execute a conveyance to the purchaser sufficient to convey the unit and stating that it is executed by the person after a foreclosure of the association's lien by power of sale and that the person was empowered to make the sale. Signature and title or authority of the person signing the conveyance as grantor and a recital of the facts of nonpayment of the assessment and of the giving of the notices required under this subsection are sufficient proof of the facts recited and of the authority to sign. Further proof of authority is not required even though the association is named as grantee in the conveyance.

(e) At any time before the association has conveyed a unit in a cooperative or entered into a contract for its conveyance under the power of sale, the unit owners or the holder of any subordinate security interest may cure the unit owner's default and prevent sale or other conveyance by tendering the performance due under the security agreement, including any amounts due because of exercise of a right to accelerate, plus the reasonable expenses of proceeding to foreclosure incurred to the time of tender, including reasonable attorneys' fees and costs of the creditor.

(15) In an action by an association to collect assessments or to foreclose a lien on a unit under this section, the court may appoint a receiver to collect all sums alleged to be due and owing to a unit owner before commencement or during pendency of the action. The receivership is governed under chapter 7.60 RCW. During pendency of the action, the court may order the receiver to pay sums held by the receiver to the association for any assessments against the unit. The exercise of rights under this subsection by the association does not affect the priority of preexisting liens on the unit.

(16) Except as provided in subsection (3) of this section, the holder of a mortgage or other purchaser of a unit who obtains the right of possession of the unit through foreclosure is not liable for assessments or installments of assessments that became due prior to such right of possession. Such unpaid assessments are deemed to be common expenses collectible from all the unit owners, including such mortgagee or other purchaser of the unit. Foreclosure of a mortgage does not relieve the prior unit owner of personal liability for assessments accruing against the unit prior to the date of such sale as provided in this subsection.

(17) In addition to constituting a lien on the unit, each assessment is the joint and several obligation of the unit owner of the unit to which the same are assessed as of the time the assessment is due. A unit owner may not exempt himself or herself from liability for assessments. In a voluntary conveyance other than by foreclosure, the grantee of a unit is jointly and severally liable with the grantor for all unpaid assessments against the grantor up to the time of the grantor's conveyance, without prejudice to the grantee's right to recover from the grantor the amounts paid by the grantee. Suit to recover a personal judgment for any delinquent assessment is maintainable in any court of

competent jurisdiction without foreclosing or waiving the lien securing such sums.

(18) The association may from time to time establish reasonable late charges and a rate of interest to be charged, not to exceed the maximum rate calculated under RCW 19.52.020, on all subsequent delinquent assessments or installments of assessments. If the association does not establish such a rate, delinquent assessments bear interest from the date of delinquency at the maximum rate calculated under RCW 19.52.020 on the date on which the assessments became delinquent.

(19) The association is entitled to recover any costs and reasonable attorneys' fees incurred in connection with the collection of delinquent assessments, whether or not such collection activities result in a suit being commenced or prosecuted to judgment. The prevailing party is also entitled to recover costs and reasonable attorneys' fees in such suits, including any appeals, if it prevails on appeal and in the enforcement of a judgment.

(20) To the extent not inconsistent with this section, the declaration may provide for such additional remedies for collection of assessments as may be permitted by law.

(21) An association may not commence an action to foreclose a lien on a unit under this section unless:

(a) The unit owner, at the time the action is commenced, owes a sum equal to at least three months of common expense assessments; and

(b) The board approves commencement of a foreclosure action specifically against that unit.

(22) Every aspect of a collection, foreclosure, sale, or other conveyance under this section, including the method, advertising, time, date, place, and terms, must be commercially reasonable.

Under RCW 64.90.635, you have the right to cancel your contract for the purchase of your unit within seven days after first receiving this public offering statement. If this public offering statement is first provided to you more than seven days before you sign your contract for the purchase of your unit, you have no right to cancel your contract. If this public offering statement is first provided to you seven days or less before you sign your contract for the purchase of your unit, you have the right to cancel, before conveyance of the unit, the executed contract by delivering, no later than the seventh day after first receiving this public offering statement, a notice of cancellation pursuant to section (3) of this notice. If this public offering statement is first provided to you less than seven days before the closing date for the conveyance of your unit, you may, before conveyance of your unit to you, extend the closing date to a date not more than seven days after you first received this public offering statement, so that you may have seven days to cancel your contract for the purchase of your unit.

(2) You have no right to cancel your contract upon receipt of an amendment to this public offering statement; however, this does not eliminate any right to rescind your contract, due to the disclosure of the information in the amendment, that is otherwise available to you under generally applicable contract law.

(3) If you elect to cancel your contract pursuant to this notice, you may do so by hand-delivering notice of cancellation, or by mailing notice of cancellation by prepaid United States mail, to the seller at the address set forth in this public offering statement or at the address of the seller's registered agent for service of process. The date of such notice is the date of receipt, if hand-delivered, or the date of deposit in the United States mail, if mailed. Cancellation is without penalty, and all payments made to the seller by you before cancellation must be refunded promptly."

(b) "OTHER DOCUMENTS CREATING BINDING LEGAL OBLIGATIONS. This public offering

statement is a summary of some of the significant aspects of purchasing a unit in this common interest community. The governing documents and the purchase agreement are complex, contain other important information, and create binding legal obligations. You should consider seeking the assistance of legal counsel."

(c) "OTHER REPRESENTATIONS. You may not rely on any statement, promise, model, depiction, or description unless it is (1) contained in the public offering statement delivered to you or (2) made in writing signed by the declarant or dealer or the declarant's or dealer's agent identified in the public offering statement. A statement of opinion, or a commendation of the real estate, its quality, or its value, does not create a warranty, and a statement, promise, model, depiction, or description does not create a warranty if it discloses that it is only proposed, is not representative, or is subject to change."

(d) "MODEL UNITS. Model units are intended to provide you with a general idea of what a finished unit might look like. Units being offered for sale may vary from the model unit in terms of floor plan, fixtures, finishes, and equipment. You are advised to obtain specific information about the unit you are considering purchasing."

(e) "RESERVE STUDY. The association [does] [does not] have a current reserve study. Any reserve study should be reviewed carefully. It may not include all reserve components that will require major maintenance, repair, or replacement in future years, and may not include regular contributions to a reserve account for the cost of such maintenance, repair, or replacement. You may encounter certain risks, including being required to pay as a special assessment your share of expenses for the cost of major maintenance, repair, or replacement of a reserve component, as a result of the failure to: (1) Have a current reserve study or fully funded reserves, (2) include a component in a reserve study, or (3) provide any or sufficient contributions to a reserve account for a component."

(f) "DEPOSITS AND PAYMENTS. Only earnest money and reservation deposits are required to be placed in an escrow or trust account. Any other payments you make to the seller of a unit are at risk and may be lost if the seller defaults."

(g) "CONSTRUCTION DEFECT CLAIMS. Chapter 64.50 RCW contains important requirements you must follow before you may file a lawsuit for defective construction against the seller or builder of your home. Forty-five days before you file your lawsuit, you must deliver to the seller or builder a written notice of any construction conditions you allege are defective and provide your seller or builder the opportunity to make an offer to repair or pay for the defects. You are not obligated to accept any offer made by the builder or seller. There are strict deadlines and procedures under state law, and failure to follow them may affect your ability to file a lawsuit."

(h) "ASSOCIATION INSURANCE. The extent to which association insurance provides coverage for the benefit of unit owners (including furnishings, fixtures, and equipment in a unit) is determined by the provisions of the

declaration and the association's insurance policy, which may be modified from time to time. You and your personal insurance agent should read the declaration and the association's policy prior to closing to determine what insurance is required of the association and unit owners, unit owners' rights and duties, what is and is not covered by the association's policy, and what additional insurance you should obtain."

(i) "QUALIFIED WARRANTY. Your unit [is] [is not] covered by a qualified warranty under chapter 64.35 RCW. "

(3) The public offering statement must include copies of each of the following documents: The declaration; the ~~((survey))~~ map; the organizational documents; the rules ~~((and regulations))~~, if any; the current or proposed budget for the association; a dated balance sheet of the association; any inspection and repair report or reports prepared in accordance with the requirements of RCW 64.55.090; and any qualified warranty provided to a purchaser by a declarant together with a history of claims under the qualified warranty. If any of these documents are not in final form, the documents must be marked "draft" and, before closing the sale of a unit, the purchaser must be given notice of any material changes to the draft documents.

(4) A declarant must promptly amend the public offering statement to reflect any material change in the information required under this section.

Sec. 213. RCW 64.90.650 and 2018 c 277 s 411 are each amended to read as follows:

(1) In the case of a sale of a unit when delivery of a public offering statement is required pursuant to RCW 64.90.605(3) and subject to subsection (2) of this section, a seller before conveying a unit:

(a) Must record or furnish to the purchaser releases of all liens that encumber:

(i) In a condominium, that unit and its common element interest; and

(ii) In a cooperative, plat community, or miscellaneous community, that unit and any limited common elements assigned to that unit; or

(b) Must provide the purchaser of that unit with title insurance from a licensed title insurance company against any lien not released pursuant to (a) of this subsection.

(2) Subsection (1) of this section does not apply to liens that encumber:

(a) Real estate that a declarant has the right to withdraw from the common interest community;

(b) In a condominium, the unit and its common element interest being purchased, but no other unit, if the purchaser expressly agrees in writing to take subject to or assume such lien;

(c) In a cooperative, plat community, or miscellaneous community, the unit and any limited

common element allocated to the unit being purchased, but no other unit, if the purchaser expressly agrees in writing to take subject to or assume such lien.

(3) Before conveying real property to the association, the declarant must have that real property released from:

(a) All liens the foreclosure of which would deprive unit owners of any right of access to or easement of support of their units; and

(b) All other liens on that real property unless the public offering statement describes certain real property that may be conveyed subject to liens in specified amounts.

(4) In the case of a cooperative, the provisions of this section do not apply to liens securing indebtedness that represent a common expense liability for which the purchaser expressly agrees in writing to be responsible.

Sec. 219. RCW 64.34.308 and 2011 c 189 s 2 are each amended to read as follows:

(1) Except as provided in the declaration, the bylaws, subsection (2) of this section, or other provisions of this chapter, the board of directors shall act in all instances on behalf of the association. In the performance of their duties, the officers and members of the board of directors are required to exercise: (a) If appointed by the declarant, the care required of fiduciaries of the unit owners; or (b) if elected by the unit owners, ordinary and reasonable care.

(2) The board of directors shall not act on behalf of the association to amend the declaration in any manner that requires the vote or approval of the unit owners pursuant to RCW 64.34.264, to terminate the condominium pursuant to RCW 64.34.268, or to elect members of the board of directors or determine the qualifications, powers, and duties, or terms of office of members of the board of directors pursuant to subsection (7) of this section; but the board of directors may fill vacancies in its membership for the unexpired portion of any term.

(3) Except as provided in RCW 64.90.080, 64.90.405(1) (b) and (c), and 64.90.525, within thirty days after adoption of any proposed budget for the condominium, the board of directors shall provide a summary of the budget to all the unit owners and shall set a date for a meeting of the unit owners to consider ratification of the budget not less than fourteen nor more than sixty days after mailing of the summary. Unless at that meeting the owners of units to which a majority of the votes in the association are allocated or any larger percentage specified in the declaration reject the budget, the budget is ratified, whether or not a quorum is present. In the event the proposed budget is rejected or the required notice is not given, the periodic budget last ratified by the unit owners shall be continued until such time as the unit owners ratify a subsequent budget proposed by the board of directors.

(4) As part of the summary of the budget provided to all unit owners, the board of directors shall disclose to the unit owners:

(a) The current amount of regular assessments budgeted for contribution to the reserve account, the recommended contribution rate from the reserve study, and the funding plan upon which the recommended contribution rate is based;

(b) If additional regular or special assessments are scheduled to be imposed, the date the assessments are due, the amount of the assessments per each unit per month or year, and the purpose of the assessments;

(c) Based upon the most recent reserve study and other information, whether currently projected reserve account balances will be sufficient at the end of each year to meet the association's obligation for major maintenance, repair, or replacement of reserve components during the next thirty years;

(d) If reserve account balances are not projected to be sufficient, what additional assessments may be necessary to ensure that sufficient reserve account funds will be available each year during the next thirty years, the approximate dates assessments may be due, and the amount of the assessments per unit per month or year;

(e) The estimated amount recommended in the reserve account at the end of the current fiscal year based on the most recent reserve study, the projected reserve account cash balance at the end of the current fiscal year, and the percent funded at the date of the latest reserve study;

(f) The estimated amount recommended in the reserve account based upon the most recent reserve study at the end of each of the next five budget years, the projected reserve account cash balance in each of those years, and the projected percent funded for each of those years; and

(g) If the funding plan approved by the association is implemented, the projected reserve account cash balance in each of the next five budget years and the percent funded for each of those years.

(5)(a) Subject to subsection (6) of this section, the declaration may provide for a period of declarant control of the association, during which period a declarant, or persons designated by the declarant, may: (i) Appoint and remove the officers and members of the board of directors; or (ii) veto or approve a proposed action of the board or association. A declarant's failure to veto or approve such proposed action in writing within thirty days after receipt of written notice of the proposed action shall be deemed approval by the declarant.

(b) Regardless of the period provided in the declaration, a period of declarant control terminates no later than the earlier of: (i) Sixty days after conveyance of seventy-five percent of the units which may be created to unit owners other than a declarant; (ii) two years after the last conveyance or transfer of record of a unit except as security for a debt; (iii) two years after any development right to add new units was last exercised; or (iv) the date on which the declarant records an amendment to the declaration pursuant to which the declarant voluntarily surrenders the right to further appoint and remove officers and members of the board of directors. A declarant may voluntarily surrender the right to appoint and remove officers and members of the board of directors before termination of that period pursuant to (i), (ii), and (iii) of this subsection (5)(b), but in that event the declarant may require, for the duration of the period of declarant control, that specified actions of the association or board of directors, as described in a recorded instrument executed by the declarant, be approved by the declarant before they become effective.

(6) Not later than sixty days after conveyance of twenty-five percent of the units which may be created to unit owners other than a declarant, at least one member and not less than twenty-five percent of the members of the board of directors must be elected by unit owners other than the declarant. Not later than sixty days after conveyance of fifty percent of the units which may be created to unit owners other than a declarant, not less than thirty-three and one-third percent of the members of the board of directors must be elected by unit owners other than the declarant.

(7) Within thirty days after the termination of any period of declarant control, the unit owners shall elect a board of directors of at least three members, at least a majority of whom must be unit owners. The number of directors need not exceed the number of units then in the condominium. The board of directors shall elect the officers. Such members of the board of directors and officers shall take office upon election.

(8) Notwithstanding any provision of the declaration or bylaws to the contrary, the unit owners, by a two-thirds vote of the voting power in the association present and entitled to vote at any meeting of the unit owners at which a quorum is present, may remove any member of the board of directors with or without cause, other than a member appointed by the declarant. The declarant may not remove any member of the board of directors elected by the unit owners. Prior to the termination of the period of declarant control, the unit owners, other than the declarant, may remove by a two-thirds vote, any director elected by the unit owners.

(2) The board of directors shall not act on behalf of the association to amend the articles of incorporation, to take any action that requires the vote or approval of the owners, to terminate the association, to elect members of the board of directors, or to determine the qualifications, powers, and duties, or terms of office of members of the board of directors; but the board of directors may fill vacancies in its membership of the unexpired portion of any term.

(3) Except as provided in RCW 64.90.080, 64.90.405(1) (b) and (c), and 64.90.525, within thirty days after adoption by the board of directors of any proposed regular or special budget of the association, the board shall set a date for a meeting of the owners to consider ratification of the budget not less than fourteen nor more than sixty days after mailing of the summary. Unless at that meeting the owners of a majority of the votes in the association are allocated or any larger percentage specified in the governing documents reject the budget, in person or by proxy, the budget is ratified, whether or not a quorum is present. (d) If reserve account balances are not projected to be sufficient, what additional assessments may be necessary to ensure that sufficient reserve account funds will be available each year during the next thirty years, the approximate dates assessments may be due, and the amount of the assessments per owner per month or year;

(e) The estimated amount recommended in the reserve account at the end of the current fiscal year based on the most recent reserve study, the projected reserve account cash balance at the end of the current fiscal year, and the percent funded at the date of the latest reserve study;

(f) The estimated amount recommended in the reserve account based upon the most recent reserve study at the end of each of the next five budget years, the projected reserve account cash balance in each of those years, and the projected percent funded for each of those years; and

(g) If the funding plan approved by the association is implemented, the projected reserve account cash balance in each of the next five budget years and the percent funded for each of those years.

(5) The owners by a majority vote of the voting power in the association present, in person or by proxy, and entitled to vote at any meeting of the owners at which a quorum is present, may remove any member of the board of directors with or without cause.

Sec. 223. RCW 64.38.065 and 2011 c 189 s 9 are each amended to read as follows:

(1) An association is encouraged to establish a reserve account with a financial institution to fund major maintenance, repair, and replacement of common elements, including limited common elements that will require major maintenance, repair, or replacement within thirty years. (2) Except as provided in RCW 64.90.080 and 64.90.545, unless doing so would impose an unreasonable hardship, an association with significant assets shall prepare and update a reserve study, in accordance with the association's governing documents and this chapter. The initial reserve study must be based upon a visual site inspection conducted by a reserve study professional.

(3) Except as provided in RCW 64.90.080 and 64.90.545, unless doing so would impose an unreasonable hardship, the association shall update the reserve study annually. At least every three years, an updated reserve study must be prepared and based upon a visual site inspection conducted by a reserve study professional.

(4) The decisions relating to the preparation and updating of a reserve study must be made by the board of directors in the exercise of the reasonable discretion of the board. The decisions must include whether a reserve study will be prepared or updated, and whether the assistance of a reserve study professional will be utilized.

Sec. 224. RCW 64.38.090 and 2011 c 189 s 14 are each amended to read as follows:

(1) In order to receive funds under RCW 13.40.500 through 13.40.540, local governments may, through their respective agencies that administer funding for consolidated juvenile services, submit proposals that establish community juvenile accountability programs within their communities. These proposals must be submitted to the department for certification.

The local government shall also agree to account for the expenditure of all funds received under the grant and to submit to audits for compliance with the grant criteria developed under RCW 13.40.520.

(4) The department, in consultation with the Washington association of juvenile court administrators and the state law and justice advisory council, shall establish guidelines for programs that may be funded under RCW 13.40.500 through 13.40.540. The guidelines must:

(a) Target referred and diverted ((and)) youth, as well as adjudicated juvenile offenders;

(d) Promote good work ethic values and educational skills and competencies necessary for the juvenile offender to function effectively and positively in the community;

(e) Maximize the efficient delivery of treatment services aimed at reducing risk factors associated with the commission of juvenile offenses;

(g) Maximize the juvenile offender's opportunities to make full restitution to the victims and amends to the community;

(h) Support and encourage increased court discretion in imposing community-based intervention strategies;

(j) Be outcome-based in that it describes what outcomes will be achieved or what outcomes have already been achieved;

(k) Include an evaluation component; and

(l) Recognize the diversity of local needs.

(5) The state law and justice advisory council may provide support and technical assistance to local governments for training and education regarding community-based prevention and intervention strategies.

(6) For purposes of this section and sections 2 and 3 of this act, "referred youth" means a youth who:

NEW SECTION. Sec. 3. (1) As of the effective date of this section, the block grant oversight committee must implement a stop loss policy when allocating funding under RCW 13.40.510. The stop loss policy must limit the loss in funding for any juvenile court from one year to the next. The block grant oversight committee must establish a minimum base level of funding for juvenile courts with lower numbers of at-risk youth ten years of age and over but under eighteen years of age. The department of children, youth, and families must report, in compliance with RCW 43.01.036, to the legislature by December 1, 2019, about how funding is used for referred youth and the impact of that use on overall use of funding.

(2) For purposes of this section, "block grant oversight committee" means a committee established by the juvenile rehabilitation division of the department of children, youth, and families and the juvenile courts that provides block grant funding formula oversight with equal representation from the juvenile rehabilitation division of the department of children, youth, and families and the juvenile courts. SSB 5560 Prime Sponsor, Committee on Law & Justice: Concerning mediation of disputes

between elected officials. Reported by Committee on Civil Rights & Judiciary

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. (1) Before a lawsuit may be commenced in disputes between elected officials, as the term "elected official" is defined in subsection (7) of this section, in their official capacity, the party bringing the claim must first notify in writing the other parties to the claim. The notice must:

(a) Request mediation to occur;

(b) Notify all interested parties that mediation must take place within ninety days of providing notice; and

(c) Include a copy of this section.

(2) The making of a written, good faith notice requesting mediation prior to commencing a lawsuit by the party bringing the claim as provided in subsection (1) of this section tolls the statute of limitations until the ninetieth day from the date of notice, or the day following the date set in subsection (5) of this section, or mediation ends, whichever is later.

(3) After the notice of mediation has been provided to all interested parties, unless otherwise agreed to by the parties, all interested parties must mediate pursuant to the process set forth in this section within ninety days or by the date set in subsection (5) of this section. If any party refuses to mediate, fails to mediate in good faith, or if mediation does not resolve the claim, the party bringing the claim may commence a lawsuit on the claim upon the passage of the 90th day from the date of notice or the day following the date set in subsection (5) of this section, whichever is later.

(4) The mediator shall be agreed upon by the parties. If the parties cannot agree upon a mediator, any party may petition for the appointment of a mediator. Once a party petitions for the appointment of a mediator, no other party may petition for the appointment of a mediator. The petition shall be filed in the superior court of the county in which one of the parties serves as an elected official. If one of the parties in the action is a superior court judge, then the petition may not be filed in the superior court in which that judge serves. If any party is a superior court judge and all the parties serve in the same county, the action shall be filed in an adjacent county.

(5) Upon designation of a mediator by the parties or the court, the mediator and the parties or the parties' representatives shall establish a date for the mediation. If a date cannot be agreed upon within ten days of the designation or appointment of the mediator, a party may petition the court, as set forth in subsection (4) of this section, to set a date for the mediation. The mediation shall occur within ninety days from the day the notice is provided under subsection (1) of this section, or on a later date if agreed to by all parties and the mediator or as scheduled by the court.

(6) Costs of the mediation, including reasonable compensation for the mediator's services, shall be paid

equally by the parties unless the superior court determines otherwise in its order appointing the mediator. The details of those costs, and the compensation of the mediator, must be set forth in a mediation agreement between the mediator and all parties, or in the order appointing the mediator. Unless otherwise agreed, and except for sharing the costs of the mediator, each party shall bear its own costs and expenses, including legal fees and witness expenses, in connection with the mediation proceeding. If the matter is not resolved by mediation and the parties cannot agree as to how costs are assessed among the parties, the court that resolves the matter shall determine how costs are assessed among the parties.

(7) For the purposes of this section, "elected official" means:

(a) Any elected or appointed county officer as enumerated in RCW 36.16.030;

(b) Equivalent positions whether elected or appointed in charter counties; and

(c) Superior, district, and municipal court judges located within the county.

SSB 5839 Prime Sponsor, Committee on Human Services, Reentry & Rehabilitation: Creating a pilot project to provide personal care services for homeless seniors and persons with disabilities. Reported by Committee on Human Services & Early Learning

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. **Sec. 1.** (1) Homeless shelters have seen an increase in the number of physically or cognitively impaired elderly and people with disabilities who need medicaid personal care services. In addition to presenting with cognitive impairment and memory issues,

assistance is needed with walking, transferring, toileting, showering, and other personal care tasks. Homeless seniors and people with disabilities are also in need of transportation to medical, pharmacy, and other health care appointments.

The number of homeless seniors and people with disabilities in shelters has increased dramatically over the last several years. The national alliance to end homelessness estimated in 2007 homeless people age sixty-two and older who sought shelter accounted for 2.9% of the country's homeless population. In an October 2018 one day count in the largest homeless shelter in Pierce county twenty-six percent, or forty-three people, were over the age of sixty. This data is similar in King county, where it is estimated that thirty-six of the homeless are over the age of fifty.

The legislature finds the increased numbers of seniors and people with disabilities experiencing homelessness to be troubling and that tailored interventions are needed to address the issue. Specifically, the legislature desires to bring medicaid personal care services to homeless seniors and people with disabilities in a shelter setting by expanding a promising best practices program and by piloting a personal care services program to bridge the time a person presents with limitations at a homeless shelter and the person becomes eligible for medicaid services.

(2) The department of social and health services and a large social services provider that runs a shelter and a home care partner in an attempt to bring medicaid personal care services to frail seniors and people with disabilities who were living in the shelter. The partnership had the goal of providing relief as well as testing to see if these services could help people out of homelessness by providing stability and support to help connect them more to the community. A department of social and health services case manager held regular weekly office hours at the shelter in order to assess guests who shelter staff identified as needing services. Once an assessment was complete and services were accepted by the guest, the home care agency would staff the guests with trained caregivers. The initial results of this partnership were excellent; six of the seven homeless who received services found permanent housing. All of the people met the definition of "chronically homeless." None returned to homelessness.

The partnership between the department of social and health services and the large social services provider is continuing and the ongoing results are matching the initial results with chronically homeless seniors and people with disabilities finding permanent housing at a much higher rate than the overall homeless shelter population.

The legislature desires this model to be expanded and directs the department of social and health services to investigate through this pilot project the practice of sending a case manager into homeless shelters to assist seniors and people with disabilities in accessing services.

The legislature finds that the outcome of people finding permanent housing who have received personal care through this model is significant. The legislature notes the success of this partnership is based on homeless seniors and people with disabilities being able to navigate the assessment process. The legislature notes that many people, especially the chronic homeless, are not able to successfully navigate the system and are in need of immediate assistance.

(3) The legislature desires to rapidly assist homeless seniors and people with disabilities who present with needs as described in subsection (1) of this section. Therefore, the legislature intends to establish a pilot project to pay for personal care services from the time a homeless senior or person with disabilities presents at a shelter to the time they become eligible for medicaid personal care services.

NEW SECTION. **Sec. 2.** (1) The department of social and health services shall establish a pilot project to provide personal care services to homeless seniors and persons with disabilities from the time the person presents at a shelter to the time they become eligible for medicaid personal care services.

(2) The department shall contract with a single nonprofit organization that provides personal care services to homeless persons and operates a twenty-four hour homeless shelter, and that is currently partnering with the department to bring medicaid personal care services to homeless seniors and persons with disabilities.

(3) The pilot shall fund two personal care aides at thirty hours per week (two .75 FTEs) to be added to the staff of the homeless shelter operated by the nonprofit organization. The services provided shall match what is now available in the medicaid personal care program. The department shall administer the pilot within funds provided for the pilot and report the outcomes to the legislature.

(4) The department shall submit a report by January 1, 2021, to the governor and appropriate legislative committees. The report shall address the following:

(a) The number of people served in the pilot;

(b) The number of people served in the pilot who transitioned to medicaid personal care;

(c) The number of people served in the pilot who found stable housing;

(d) For persons who receive personal care services under the pilot, if available, (i) the number of times the person had an emergency room visit in the six months prior to entering the shelter, and (ii) the number of times the person has had an emergency room visit in the time period after the person began receiving personal care services through the pilot program; and

(e) Any additional data and information deemed relevant by the contractor or the department.

(5) This section expires June 30, 2021."

2SSB 5437 Prime Sponsor, Committee on Ways & Means: Expanding eligibility to the early childhood education and assistance program. Reported by Committee on Appropriations

MAJORITY recommendation: Do pass as amended by Committee on Human Services & Early Learning.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that the family income eligibility limit of one hundred ten percent of the federal poverty level for the early childhood education

and assistance program hinders the state's ability to recruit and enroll qualified families, particularly in rural areas of the state and in tribal communities. This income barrier results in unused preschool slots and growing waiting lists of children who are from low-income families but who are over the established income limits. Therefore, the legislature intends to keep the qualifying income for the early childhood education and assistance program at one hundred ten percent of the federal poverty level for the purposes of entitlement caseload forecasting and allow for the flexibility to serve additional children with family incomes up to two hundred percent of the federal poverty level.

(4) "Eligible child" means a three to five-year old child who is not age-eligible for kindergarten ((whose)), is not a participant in a federal or state program providing comprehensive services, and who:

(a) Has a family income ((is)) at or below one hundred ten percent of the federal poverty level, as published annually by the federal department of health and human services((, and includes a child whose family is eligible for public assistance, and who is not a participant in a federal or state program providing comprehensive services)); ((a child))

2SSB 5437 Prime Sponsor, Committee on Ways & Means: Expanding eligibility to the early childhood education and assistance

program. Reported by Committee on Appropriations

MAJORITY recommendation: Do pass as amended by Committee on Human Services & Early Learning.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that the family income eligibility limit of one hundred ten percent of the federal poverty level for the early childhood education and assistance program hinders the state's ability to recruit and enroll qualified families, particularly in rural areas of the state and in tribal communities. This income barrier results in unused preschool slots and growing waiting lists of children who are from low-income families but who are over the established income limits. Therefore, the legislature intends to keep the qualifying income for the early childhood education and assistance program at one hundred ten percent of the federal poverty level for the purposes of entitlement caseload forecasting and allow for the flexibility to serve additional children with family incomes up to two hundred percent of the federal poverty level.

Sec. 2. RCW 43.216.505 and 2017 3rd sp.s. c 6 s 210 are each amended to read as follows:

(3) (~~For the initial phase of the early learning program in school years 2011-12 and 2012-13, the legislature shall appropriate funding to the department for implementation of the program in an amount not less than the 2009-2011 enacted budget for the early childhood education and assistance program. The appropriation shall be sufficient to fund an equivalent number of slots as funded in the 2009-2011 enacted budget.~~)

(4) Beginning in the 2013-14 school year, additional funding for the program must be phased in beginning in school districts providing all day kindergarten programs under RCW 28A.150.315.

Any deviations from early head start standards, rules, or regulations must be identified and explained by the department in its annual report under subsection (6) of this section.

(3)(a) Upon securing adequate funds to begin implementation, the pilot project programs must be delivered through child care centers and family home providers who meet minimum licensing standards and are enrolled in the early achievers program.

(b) The department must determine minimum early achievers ratings scores for programs participating in the pilot project.

(4) When selecting pilot project locations for service delivery, the department may allow each pilot project location to have up to three classrooms per location. When selecting and approving pilot project locations, the department shall attempt to select a combination of rural, urban, and suburban locations. The department shall prioritize locations with programs currently operating early head start, head start, or the early childhood education and assistance program.

REPORTS OF STANDING COMMITTEES

April 8, 2019

SSB 5106

Prime Sponsor, Committee on Financial Institutions, Economic Development & Trade: Concerning the creation of a work group to study and make recommendations on natural disaster mitigation and resiliency activities. Reported by Committee on Appropriations

MAJORITY recommendation: Do pass as amended by Committee on Appropriations and without amendment by Committee on Housing, Community Development & Veterans.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that residents of this state have been impacted by natural disasters such as floods, landslides, wildfires, and earthquakes and continue to be at risk from these and other natural disasters. In 2016, insured losses from natural disasters in the United States totaled almost twenty-four billion dollars. In 2015, Washington state had the largest wildfire season in state history, with more than one million acres burned and costing more than two hundred fifty-three million dollars. In 2017, four hundred four thousand two hundred twenty-three acres burned in Washington state and there were more than four hundred thirty national flood insurance program claims filed, totaling over seven million dollars.

The legislature finds that Washington state has the second highest earthquake risk in the nation, estimated by the federal emergency management agency to exceed four hundred thirty-eight million dollars per year. The 2001 Nisqually earthquake caused more than two billion dollars in damage. A Seattle fault earthquake will cause an estimated thirty-three billion dollars in damage, and a Cascadia subduction zone earthquake will cause an estimated amount of over forty-nine billion dollars in damage.

The legislature finds that it is critical to better prepare this state for disasters and to put in place strategies to mitigate the impacts of disasters. To address this critical need, the legislature is creating a work group to review disaster mitigation and preparation projects in this state and other states, make recommendations regarding how to coordinate and expand state efforts to mitigate the impacts of natural disasters, and evaluate whether an ongoing disaster resiliency program should be created.

NEW SECTION. Sec. 2. A new section is added to chapter 48.02 RCW to read as follows:

ESSB 5160

Prime Sponsor, Committee on Ways & Means: Concerning property tax exemptions for service-connected disabled veterans and senior citizens. Reported by Committee on Finance

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. (1) This section is the tax preference performance statement for the tax preference contained in section 2, chapter . . ., Laws of 2019 (section 2 of this act). This performance statement is only intended to be used for subsequent evaluation of the tax preference. It is not intended to create a private right of action by any party or be used to determine eligibility for preferential tax treatment.

(2) The legislature categorizes this tax preference as one intended to provide tax relief for certain businesses or individuals, as indicated in RCW 82.32.808(2)(e).

(3) It is the legislature's specific public policy objective to provide tax relief to senior citizens, disabled persons, and veterans. The legislature recognizes that property taxes impose a substantial financial burden on those with fixed incomes and that property tax relief programs have considerable value in addressing this burden. It is the legislature's intent to establish a mechanism for adjusting income thresholds into the future. Income thresholds were last adjusted in 2015.

Sec. 2. RCW 84.36.381 and 2018 c 46 s 2 are each amended to read as follows:

A person is exempt from any legal obligation to pay all or a portion of the amount of excess and regular real property taxes due and payable in the year following the year in which a claim is filed, and thereafter, in accordance with the following:

(1)(a) The property taxes must have been imposed upon a residence which was occupied by the person claiming the exemption as a principal place of residence as of the time of filing. However, any person who sells, transfers, or is displaced from his or her residence may transfer his or her exemption status to a replacement residence, but no claimant may receive an exemption on more than one residence in any year. Moreover, confinement of the person to a hospital, nursing home, assisted living facility, ~~((or))~~ adult family home, or home of a relative for the purpose of long-term care does not disqualify the claim of exemption if:

~~((+))~~ (i) The residence is temporarily unoccupied;

~~((b))~~ (ii) The residence is occupied by a spouse or a domestic partner and/or a person financially dependent on the claimant for support; or

~~((c))~~ (iii) The residence is rented for the purpose of paying nursing home, hospital, assisted living facility, or adult family home costs;

(b) For the purposes of this subsection (1), "relative" means any individual related to the claimant by blood, marriage, or adoption;

(2) The person claiming the exemption must have owned, at the time of filing, in fee, as a life estate, or by contract purchase, the residence on which the property taxes have been imposed or if the person claiming the exemption lives in a cooperative housing association, corporation, or partnership, such person must own a share therein representing the unit or portion of the structure in which he or she resides. For purposes of this subsection, a residence owned by a marital community or state registered domestic partnership or owned by cotenants is deemed to be owned by each spouse or each domestic partner or each cotenant, and any lease for life is deemed a life estate;

(3)(a) The person claiming the exemption must be:

(i) Sixty-one years of age or older on December 31st of the year in which the exemption claim is filed, or must have been, at the time of filing, retired from regular gainful employment by reason of disability; or

(ii) A veteran of the armed forces of the United States entitled to and receiving compensation from the United States department of veterans affairs at ~~((a total disability rating for a service-connected disability))~~;

(A) A combined service-connected evaluation rating of eighty percent or higher; or

(B) A total disability rating for a service-connected disability without regard to evaluation percent.

(b) However, any surviving spouse or surviving domestic partner of a person who was receiving an exemption at the time of the person's death will qualify if the surviving spouse or surviving domestic partner is fifty-seven years of age or older and otherwise meets the requirements of this section;

(4) The amount that the person is exempt from an obligation to pay is calculated on the basis of combined disposable income, as defined in RCW 84.36.383. If the person claiming the exemption was retired for two months or more of the assessment year, the combined disposable income of such person must be calculated by multiplying the average monthly combined disposable income of such person during the months such person was retired by twelve. If the income of the person claiming exemption is reduced for two or more months of the assessment year by reason of the death of the person's spouse or the person's domestic partner, or when other substantial changes occur in disposable income that are likely to continue for an indefinite period of time, the combined disposable income of such person must be calculated by multiplying the average monthly combined disposable income of such person after

such occurrences by twelve. If it is necessary to estimate income to comply with this subsection, the assessor may require confirming documentation of such income prior to May 31 of the year following application;

(5)(a) A person who otherwise qualifies under this section and has a combined disposable income ~~((of forty thousand dollars or less))~~ equal to or less than income threshold 3 is exempt from all excess property taxes, the additional state property tax imposed under RCW 84.52.065(2), and the portion of the regular property taxes authorized pursuant to RCW 84.55.050 and approved by the voters, if the legislative authority of the county or city imposing the additional regular property taxes identified this exemption in the ordinance placing the RCW 84.55.050 measure on the ballot; and

(b)(i) A person who otherwise qualifies under this section and has a combined disposable income ~~((of thirty-five thousand dollars or less but greater than thirty thousand dollars))~~ equal to or less than income threshold 2 but greater than income threshold 1 is exempt from all regular property taxes on the greater of fifty thousand dollars or thirty-five percent of the valuation of his or her residence, but not to exceed seventy thousand dollars of the valuation of his or her residence; or

(ii) A person who otherwise qualifies under this section and has a combined disposable income ~~((of thirty thousand dollars or less))~~ equal to or less than income threshold 1 is exempt from all regular property taxes on the greater of sixty thousand dollars or sixty percent of the valuation of his or her residence;

(6)(a) For a person who otherwise qualifies under this section and has a combined disposable income ~~((of forty thousand dollars or less))~~ equal to or less than income threshold 3, the valuation of the residence is the assessed value of the residence on the later of January 1, 1995, or January 1st of the assessment year the person first qualifies under this section. If the person subsequently fails to qualify under this section only for one year because of high income, this same valuation must be used upon requalification. If the person fails to qualify for more than one year in succession because of high income or fails to qualify for any other reason, the valuation upon requalification is the assessed value on January 1st of the assessment year in which the person requalifies. If the person transfers the exemption under this section to a different residence, the valuation of the different residence is the assessed value of the different residence on January 1st of the assessment year in which the person transfers the exemption.

(b) In no event may the valuation under this subsection be greater than the true and fair value of the residence on January 1st of the assessment year.

(c) This subsection does not apply to subsequent improvements to the property in the year in which the improvements are made. Subsequent improvements to the property must be added to the value otherwise determined under this subsection at their true and fair value in the year in which they are made.

Sec. 3. RCW 84.36.383 and 2012 c 10 s 74 are each amended to read as follows:

(1) The term "residence" means a single-family dwelling unit whether such unit be separate or part of a multiunit dwelling, including the land on which such dwelling stands not to exceed one acre, except that a residence includes any additional property up to a total of five acres that comprises the residential parcel if this larger parcel size is required under land use regulations. The term also includes a share ownership in a cooperative housing association, corporation, or partnership if the person claiming exemption can establish that his or her share represents the specific unit or portion of such structure in which he or she resides. The term also includes a single-family dwelling situated upon lands the fee of which is vested in the United States or any instrumentality thereof including an Indian tribe or in the state of Washington, and notwithstanding the provisions of RCW 84.04.080 and 84.04.090, such a residence is deemed real property.

Sec. 4. RCW 84.36.385 and 2011 c 174 s 106 are each amended to read as follows:

(1) A claim for exemption under RCW 84.36.381 as now or hereafter amended, may be made and filed at any time during the year for exemption from taxes payable the following year and thereafter and solely upon forms as prescribed and furnished by the department of revenue. However, an exemption from tax under RCW 84.36.381 continues for no more than six years unless a renewal application is filed as provided in subsection (3) of this section.

(2) A person granted an exemption under RCW 84.36.381 must inform the county assessor of any change in status affecting the person's entitlement to the exemption on forms prescribed and furnished by the department of revenue.

(3) Each person exempt from taxes under RCW 84.36.381 in 1993 and thereafter~~(s)~~ must file with the county assessor a renewal application not later than December 31st of the year the assessor notifies such person of the requirement to file the renewal application. Renewal applications must be on forms prescribed and furnished by the department of revenue.

(4) At least once every six years, the county assessor must notify those persons receiving an exemption from taxes under RCW 84.36.381 of the requirement to file a renewal application. The county assessor may also require a renewal application following an amendment of the income requirements set forth in RCW 84.36.381.

(5) If the assessor finds that the applicant does not meet the qualifications as set forth in RCW 84.36.381, as now or hereafter amended, the claim or exemption must be denied but such denial is subject to appeal under the provisions of RCW 84.48.010 and in accordance with the provisions of RCW 84.40.038. If the applicant had received exemption in prior years based on erroneous information, the taxes must be collected subject to penalties as provided in RCW 84.40.130 for a period of not to exceed five years.

(6) The department and each local assessor is hereby directed to publicize the qualifications and manner of making claims under RCW 84.36.381 through 84.36.389, through communications media, including such paid advertisements or notices as it deems appropriate. (7) The department must authorize an option for electronic filing of applications and renewal applications for the exemption under RCW 84.36.381.

(8) Beginning March 1, 2021, and by March 1st every fifth year thereafter, the department must publish updated income thresholds. The adjusted thresholds must be rounded to the nearest one dollar. If the income threshold adjustment is negative, the income threshold for the prior year continues to apply. The department must adjust income thresholds for each county to reflect the most recent year available of estimated county median household income, including preliminary estimates or projections, as published by the office of financial management. For the purposes of this subsection, "county median household income" has the same meaning as in RCW 84.36.383.

Sec. 6. RCW 84.38.030 and 2015 3rd sp.s. c 30 s 3 and 2015 c 86 s 313 are each reenacted and amended to read as follows:

A claimant may defer payment of special assessments and/or real property taxes on up to eighty percent of the amount of the claimant's equity value in the claimant's residence if the following conditions are met:

(1) The claimant must meet all requirements for an exemption for the residence under RCW 84.36.381, other than the age and income limits under RCW 84.36.381.

(2) The claimant must be sixty years of age or older on December 31st of the year in which the deferral claim is filed, or must have been, at the time of filing, retired from regular gainful employment by reason of disability as defined in RCW 84.36.383. However, any surviving spouse ~~((or))~~ surviving domestic partner, heir, or devisee of a person who was receiving a deferral at the time of the person's death qualifies if the surviving spouse ~~((or))~~ surviving domestic partner, heir, or devisee is fifty-seven years of age or older and otherwise meets the requirements of this section.

(3) The claimant must have a combined disposable income, as defined in RCW 84.36.383, ~~((of forty-five thousand dollars or less))~~ equal to or less than the income threshold.

(4) The claimant must have owned, at the time of filing, the residence on which the special assessment and/or real property taxes have been imposed. For purposes of this subsection, a residence owned by a marital community, owned by domestic partners, or owned by cotenants is deemed to be owned by each spouse, each domestic partner, or each cotenant. A claimant who has only a share ownership in cooperative housing, a life estate, a lease for life, or a revocable trust does not satisfy the ownership requirement.

(5) The claimant must have and keep in force fire and casualty insurance in sufficient amount to protect the interest of the state in the claimant's equity value. However, if the claimant fails to keep fire and casualty insurance in force to the extent of the state's interest in the claimant's equity value, the amount deferred may not exceed one hundred percent of the claimant's equity value in the land or lot only.

(6) In the case of special assessment deferral, the claimant must have opted for payment of such special assessments on the installment method if such method was available.

Sec. 7. RCW 84.38.070 and 2008 c 6 s 703 are each amended to read as follows:

If the claimant declaring his or her intention to defer special assessments or real property tax obligations under this chapter ceases to reside permanently on the property for which the declaration to defer is made between the date of filing the declaration and December 15th of that year, the deferral otherwise allowable under this chapter ~~((shall))~~ is not ~~((be))~~ allowed on such tax roll. However, this section ~~((shall))~~ does not apply where the claimant dies, leaving a spouse ~~((or))~~ domestic partner, heir, or devisee surviving, who is also eligible for deferral of special assessment and/or property taxes.

Sec. 8. RCW 84.38.130 and 2008 c 6 s 704 are each amended to read as follows:

Special assessments and/or real property tax obligations deferred under this chapter ~~((shall))~~ become payable together with interest as provided in RCW 84.38.100:

(1) Upon the sale of property which has a deferred special assessment and/or real property tax lien upon it.

(2) Upon the death of the claimant with an outstanding deferred special assessment and/or real property tax lien except a surviving spouse ~~((or))~~ surviving domestic partner, heir, or devisee who is qualified under this chapter may elect to incur the special assessment and/or real property tax lien, which ~~((shall))~~ is then ~~((be))~~ payable by that spouse ~~((or that))~~ domestic partner, heir, or devisee as provided in this section.

(3) Upon the condemnation of property with a deferred special assessment and/or real property tax lien upon it by a public or private body exercising eminent domain power, except as otherwise provided in RCW 84.60.070.

(4) At such time as the claimant ceases to reside permanently in the residence upon which the deferral has been granted.

(5) Upon the failure of any condition set forth in RCW 84.38.030.

Sec. 9. RCW 84.38.150 and 2008 c 6 s 705 are each amended to read as follows:

(1) A surviving spouse ~~((or the))~~, surviving domestic partner, heir, or devisee of the claimant may elect to continue the property in its deferred tax status if the property is the residence of the spouse ~~((or the))~~, domestic partner, heir, or devisee of the claimant and the spouse ~~((or the))~~, domestic partner, heir, or devisee meets the requirements of this chapter.

(2) The election under this section to continue the property in its deferred status by the spouse ~~((or the))~~, domestic partner, heir, or devisee of the claimant ~~((shall))~~ must be filed in the same manner as an original claim for deferral is filed under this chapter ~~((, not later than ninety days from the date of the claimant's death))~~. Thereupon, the property with respect to which the deferral of special assessments and/or real property taxes is claimed ~~((shall))~~ must continue to be treated as deferred property. When the property has been continued in its deferred status by the filing of the spouse ~~((or the))~~, domestic partner, heir, or devisee of the claimant of an election under this section, the spouse ~~((or the))~~, domestic partner, heir, or devisee of the claimant may continue the property in its deferred status in subsequent years by filing a claim under this chapter so long as the spouse ~~((or the))~~, domestic partner, heir, or devisee meets the qualifications set out in this section.

(2) Upon receipt of the information provided for by subsection (1) of this section, the department of licensing shall determine if the detained person has a concealed pistol license. (3) A person who is prohibited from possessing a firearm by reason of having been detained under RCW 71.05.150 or 71.05.153 may, upon discharge, petition the superior court to have his or her right to possess a firearm restored before the six-month suspension period has elapsed by following the procedures provided in RCW 9.41.047(3).

Sec. 3. RCW 9.41.047 and 2018 c 201 s 6001 are each amended to read as follows:

(1)(a) At the time a person is convicted or found not guilty by reason of insanity of an offense making the person ineligible to possess a firearm, or at the time a person is committed by court order under RCW 71.05.240, 71.05.320, 71.34.740, 71.34.750, or chapter 10.77 RCW for mental health treatment, the convicting or committing court shall notify the person, orally and in writing, that the person must immediately surrender any concealed pistol license and that the person may not possess a firearm unless his or her right to do so is restored by a court of record. For purposes of this

section a convicting court includes a court in which a person has been found not guilty by reason of insanity.

(b) The convicting or committing court shall forward within three judicial days after conviction or entry of the commitment order a copy of the person's driver's license or identicard, or comparable information, along with the date of conviction or commitment, to the department of licensing. The petitioning party shall provide the court with the information required. If more than one commitment order is entered under one cause number, only one notification to the department of licensing and the national instant criminal background check system is required.

(2) Upon receipt of the information provided for by subsection (1) of this section, the department of licensing shall determine if the convicted or committed person has a concealed pistol license. If the person does have a concealed pistol license, the department of licensing shall immediately notify the license-issuing authority which, upon receipt of such notification, shall immediately revoke the license.

(3)(a) A person who is prohibited from possessing a firearm, by reason of having been involuntarily committed for mental health treatment under RCW 71.05.240, 71.05.320, 71.34.740, 71.34.750, chapter 10.77 RCW, or equivalent statutes of another jurisdiction, or by reason of having been detained under RCW 71.05.150 or 71.05.153, may, upon discharge, petition the superior court to have his or her right to possess a firearm restored.

(b) The petition must be brought in the superior court that ordered the involuntary commitment or the superior court of the county in which the petitioner resides.

(c) Except as provided in (d) and (e) of this subsection, the court shall restore the petitioner's right to possess a firearm if the petitioner proves by a preponderance of the evidence that:

(i) The petitioner is no longer required to participate in court-ordered inpatient or outpatient treatment;

(ii) The petitioner has successfully managed the condition related to the commitment or detention;

(iii) The petitioner no longer presents a substantial danger to himself or herself, or the public; and

(iv) The symptoms related to the commitment or detention are not reasonably likely to recur.

(d) If a preponderance of the evidence in the record supports a finding that the person petitioning the court has engaged in violence and that it is more likely than not that the person will engage in violence after his or her right to possess a firearm is restored, the person shall bear the burden

of proving by clear, cogent, and convincing evidence that he or she does not present a substantial danger to the safety of others.

(e) If the petitioner seeks restoration after having been detained under RCW 71.05.150 or 71.05.153, the state shall bear the burden of proof to show, by a preponderance of the evidence, that the petitioner does not meet the restoration criteria in (c) of this subsection.

(f) When a person's right to possess a firearm has been restored under this subsection, the court shall forward, within three judicial days after entry of the restoration order, notification that the person's right to possess a firearm has been restored to the department of licensing, the health care authority, and the national instant criminal background check system index, denied persons file. In the case of a person whose right to possess a firearm has been suspended for six months as provided in section 1 of this act, the department of licensing shall forward notification of the restoration order to the licensing authority, which, upon receipt of such notification, shall immediately lift the suspension, restoring the license.

(4) No person who has been found not guilty by reason of insanity may petition a court for restoration of the right to possess a firearm unless the person meets the requirements for the restoration of the right to possess a firearm under RCW 9.41.040(4).

MAJORITY recommendation: Do pass as amended by Committee on Appropriations and without amendment by Committee on Civil Rights & Judiciary.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. (1) The legislature finds that Washington state has a thriving economy that spans both east and west, and encompasses agriculture, food processing, timber, construction, health care, technology, and the hospitality industries.

(2) The legislature also finds that Washington employers rely on a diverse workforce to ensure the economic vitality of the state. Nearly one million Washingtonians are immigrants, which is one out of every seven people in the state. Immigrants make up over sixteen percent of the workforce. In addition, fifteen percent of all business owners in the state were born outside the country, and these business owners have a large impact on the economy through innovation and the creation of jobs. Immigrants make a significant contribution to the economic vitality of this state, and it is essential that the state have

policies that recognize their importance to Washington's economy.

(3) In recognition of this significant contribution to the overall prosperity and strength of Washington state, the legislature, therefore, has a substantial and compelling interest in ensuring the state of Washington remains a place where the rights and dignity of all residents are maintained and protected in order to keep Washington working.

(1) The definitions contained in section 2 of this act apply to this section.

(2) The legislature finds that it is not the primary purpose of state and local law enforcement agencies or school resource officers to enforce civil federal immigration law. The legislature further finds that the immigration status of an individual or an individual's presence in, entry, or reentry to, or employment in the United States alone, is not a matter for police action, and that United States federal immigration authority has primary jurisdiction for enforcement of the provisions of Title 8 U.S.C. dealing with illegal entry.

(3) School resource officers, when acting in their official capacity as a school resource officer, may not:

(a) Inquire into or collect information about an individual's immigration or citizenship status, or place of birth; or

(4) State and local law enforcement agencies may not:

(a) Inquire into or collect information about an individual's immigration or citizenship status, or place of birth unless there is a connection between such information and an investigation into a violation of state or local criminal law; or

(b) Provide information pursuant to notification requests from federal immigration authorities for the purposes of civil immigration enforcement, except as required by law.

(5) State and local law enforcement agencies may not provide nonpublicly available personal information about an individual, including individuals subject to community custody pursuant to RCW 9.94A.701 and 9.94A.702, to federal immigration authorities in a noncriminal matter, except as required by state or federal law.

(b) Permission may be granted to a federal immigration authority to conduct an interview regarding federal immigration violations with a person who is in the custody of a state or local law enforcement agency if the person consents in writing to be interviewed. In order to obtain consent, agency staff shall provide the person with an oral explanation and a written consent form that explains the purpose of the interview, that the interview is voluntary, and that the person may decline to be interviewed or may choose to be interviewed only with the person's attorney present. The form must state explicitly that the person will not be punished or suffer retaliation for declining to be interviewed.

The form must be available at least in English and Spanish and explained orally to a person who is unable to read the form, using, when necessary, an interpreter from the district communications center "language line" or other district resources.

(7) An individual may not be detained solely for the purpose of determining immigration status.

(8) An individual must not be taken into custody, or held in custody, solely for the purposes of determining immigration status or based solely on a civil immigration warrant, or an immigration hold request.

(i) The individual's right to refuse to disclose their nationality, citizenship, or immigration status; and

(ii) That disclosure of their nationality, citizenship, or immigration status may result in civil or criminal immigration enforcement, including removal from the United States.

(b) Nothing in this subsection allows for any violation of subsection (4) of this section.

(10) A state and local government or law enforcement agency may not deny services, benefits, privileges, or opportunities to individuals in custody, or under community custody pursuant to RCW 9.94A.701 and 9.94A.702, or in probation status, on the basis of the presence of an immigration detainer, hold, notification request, or civil immigration warrant, except as required by law or as necessary for classification or placement purposes for individuals in the physical custody of the department of corrections.

(11) No state or local law enforcement officer may enter into any contract, agreement, or arrangement, whether written or oral, that would grant federal civil immigration enforcement authority or powers to state and local law enforcement officers, including but not limited to agreements created under 8 U.S.C. Sec. 1357(g), also known as 287(g) agreements.

(12)(a) No state agency or local government or law enforcement officer may enter into an immigration detention agreement. All immigration detention agreements must be terminated no later than one hundred eighty days after the effective date of this section, except as provided in (b) of this subsection.

(b) Any immigration detention agreement in effect prior to January 1, 2019, and under which a payment was made between July 1, 2017, and December 31, 2018, may remain in effect until the date of completion or December 31, 2021, whichever is earlier.

(13) No state or local law enforcement agency or school resource officer may enter into or renew a contract for the provision of language services from federal

immigration authorities, nor may any language services be accepted from such for free or otherwise.

(14) The department of corrections may not give federal immigration authorities access to interview individuals about federal immigration violations while they are in custody, except as required by state or federal law or by court order, unless such individuals consent to be interviewed in writing. Before agreeing to be interviewed, individuals must be advised that they will not be punished or suffer retaliation for declining to be interviewed.

(15) Subsections (3) through (6) of this section do not apply to individuals who are in the physical custody of the department of corrections.

(16) Nothing in this section prohibits the collection, use, or disclosure of information that is:

- (a) Required to comply with state or federal law; or
- (b) In response to a lawfully issued court order.

NEW SECTION. Sec. 7. To ensure state and law enforcement agencies are able to foster the community trust necessary to maintain public safety, within twelve months of the effective date of this section, the attorney general must, in consultation with appropriate stakeholders, publish model policies, guidance, and training recommendations consistent with this act and state and local law, aimed at ensuring that state and local law enforcement duties are carried out in a manner that limits, to the fullest extent practicable and consistent with federal and state law, engagement with federal immigration authorities for the purpose of immigration enforcement. All state and local law enforcement agencies must either:

(1) Adopt policies consistent with that guidance; or

(2) Notify the attorney general that the agency is not adopting the guidance and model policies, state the reasons that the agency is not adopting the model policies and guidance, and provide the attorney general with a copy of the agency's policies to ensure compliance with this act.

NEW SECTION. Sec. 8. No section of this act is intended to limit or prohibit any state or local agency or officer from:

(1) Sending to, or receiving from, federal immigration authorities the citizenship or immigration status of a person, or maintaining such information, or exchanging the citizenship or immigration status of an individual with any other federal, state, or local government agency, in accordance with 8 U.S.C. Sec. 1373; or

(2) Complying with any other state or federal law.

NEW SECTION. Sec. 9. If any part of this act is found to be in conflict with federal requirements that are a prescribed condition to the allocation of federal funds to the state, the conflicting part of this act is inoperative solely to the extent of the conflict and with respect to the agencies

directly affected, and this finding does not affect the operation of the remainder of this act in its application to the agencies concerned. Rules adopted under this act must meet federal requirements that are a necessary condition to the receipt of federal funds by the state.

NEW SECTION. Sec. 10. The following acts or parts of acts are each repealed:

(1) RCW 10.70.140 (Aliens committed—Notice to immigration authority) and 1992 c 7 s 29 & 1925 ex.s. c 169 s 1; and

(2) RCW 10.70.150 (Aliens committed—Copies of clerk's records) and 1925 ex.s. c 169 s 2.

NEW SECTION. Sec. 11. If specific funding for the purposes of this act, referencing this act by bill or chapter number, is not provided by June 30, 2019, in the omnibus appropriations act, this act is null and void.

NEW SECTION. Sec. 12. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately."

SB 5508 Prime Sponsor, Senator Fortunato: Clarifying background check requirements for an application for a concealed pistol license. Reported by Committee on Civil Rights & Judiciary

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"**Sec. 1.** RCW 9.41.070 and 2018 c 226 s 2 and 2018 c 201 s 6002 are each reenacted and amended to read as follows:

(1) The chief of police of a municipality or the sheriff of a county shall within thirty days after the filing of an application of any person, issue a license to such person to carry a pistol concealed on his or her person within this state for five years from date of issue, for the purposes of protection or while engaged in business, sport, or while traveling. However, if the applicant does not have a valid permanent Washington driver's license or Washington state identification card or has not been a resident of the state for the previous consecutive ninety days, the issuing authority shall have up to sixty days after the filing of the application to issue a license. The issuing authority shall not refuse to accept completed applications for concealed pistol licenses during regular business hours.

The applicant's constitutional right to bear arms shall not be denied, unless:

(a) He or she is ineligible to possess a firearm under the provisions of RCW 9.41.040 or 9.41.045, or is prohibited from possessing a firearm under federal law;

(b) The applicant's concealed pistol license is in a revoked status;

(c) He or she is under twenty-one years of age;

(d) He or she is subject to a court order or injunction regarding firearms pursuant to chapter((s)) 7.90, 7.92, or 7.94 RCW, or RCW 9A.46.080, 10.14.080, 10.99.040, 10.99.045, 26.09.050, 26.09.060, 26.10.040, 26.10.115, ((26.26.130)) 26.26B.020, 26.50.060, 26.50.070, or 26.26.590;

(e) He or she is free on bond or personal recognizance pending trial, appeal, or sentencing for a felony offense;

(f) He or she has an outstanding warrant for his or her arrest from any court of competent jurisdiction for a felony or misdemeanor; or

(g) He or she has been ordered to forfeit a firearm under RCW 9.41.098(1)(e) within one year before filing an application to carry a pistol concealed on his or her person.

No person convicted of a felony may have his or her right to possess firearms restored or his or her privilege to carry a concealed pistol restored, unless the person has been granted relief from disabilities by the attorney general under 18 U.S.C. Sec. 925(c), or RCW 9.41.040 (3) or (4) applies.

(2)(a) The issuing authority shall conduct a check through the national instant criminal background check system, the Washington state patrol electronic database, the health care authority electronic database, and with other agencies or resources as appropriate, to determine whether the applicant is ineligible under RCW 9.41.040 or 9.41.045 to possess a firearm, or is prohibited from possessing a firearm under federal law, and therefore ineligible for a concealed pistol license.

(b) The issuing authority shall deny a permit to anyone who is found to be prohibited from possessing a firearm under federal or state law.

(c) (a) and (b) of this subsection ((applies)) apply whether the applicant is applying for a new concealed pistol license or to renew a concealed pistol license.

(d) A background check for an original license must be conducted through the Washington state patrol criminal identification section and shall include a national check from the federal bureau of investigation through the submission of fingerprints. The results will be returned to the issuing authority. The applicant may request and receive a copy of the results of the background check from the issuing authority. If the applicant seeks to amend or correct their record, the applicant must contact the Washington state patrol for a Washington state record or the federal bureau of investigation for records from other jurisdictions.

(3) Any person whose firearms rights have been restricted and who has been granted relief from disabilities by the attorney general under 18 U.S.C. Sec. 925(c) or who is exempt under 18 U.S.C. Sec. 921(a)(20)(A) shall have his or her right to acquire, receive, transfer, ship, transport, carry, and possess firearms in accordance with Washington state law restored except as otherwise prohibited by this chapter.

(4) The license application shall bear the full name, residential address, telephone number at the option of the applicant, email address at the option of the applicant, date and place of birth, race, gender, description, a complete set of fingerprints, and signature of the licensee, and the licensee's driver's license number or state identification card number if used for identification in applying for the license. A signed application for a concealed pistol license shall constitute a waiver of confidentiality and written request that the health care authority, mental health institutions, and other health care facilities release information relevant to the applicant's eligibility for a concealed pistol license to an inquiring court or law enforcement agency.

The application for an original license shall include a complete set of fingerprints to be forwarded to the Washington state patrol.

The license and application shall contain a warning substantially as follows:

CAUTION: Although state and local laws do not differ, federal law and state law on the possession of firearms differ. If you are prohibited by federal law from possessing a firearm, you may be prosecuted in federal court. A state license is not a defense to a federal prosecution.

The license shall contain a description of the major differences between state and federal law and an explanation of the fact that local laws and ordinances on firearms are preempted by state law and must be consistent with state law.

The application shall contain questions about the applicant's eligibility under RCW 9.41.040 and federal law

to possess a pistol, the applicant's place of birth, and whether the applicant is a United States citizen. If the applicant is not a United States citizen, the applicant must provide the applicant's country of citizenship, United States issued alien number or admission number, and the basis on which the applicant claims to be exempt from federal prohibitions on firearm possession by aliens. The applicant shall not be required to produce a birth certificate or other evidence of citizenship. A person who is not a citizen of the United States shall, if applicable, meet the additional requirements of RCW 9.41.173 and produce proof of compliance with RCW 9.41.173 upon application. The license may be in triplicate or in a form to be prescribed by the department of licensing.

A photograph of the applicant may be required as part of the application and printed on the face of the license.

The original thereof shall be delivered to the licensee, the duplicate shall within seven days be sent to the director of licensing and the triplicate shall be preserved for six years, by the authority issuing the license.

The department of licensing shall make available to law enforcement and corrections agencies, in an on-line format, all information received under this subsection.

(5) The nonrefundable fee, paid upon application, for the original five-year license shall be thirty-six dollars plus additional charges imposed by the federal bureau of investigation that are passed on to the applicant. No other state or local branch or unit of government may impose any additional charges on the applicant for the issuance of the license.

The fee shall be distributed as follows:

(8) Payment shall be by cash, check, or money order at the option of the applicant. Additional methods of payment may be allowed at the option of the issuing authority.

(9)(a) A licensee may renew a license if the licensee applies for renewal within ninety days before or after the expiration date of the license. A license so renewed shall take effect on the expiration date of the prior license. A licensee renewing after the expiration date of the license must pay a late renewal penalty of ten dollars in addition to the renewal fee specified in subsection (6) of this section. The fee shall be distributed as follows:

(i) Three dollars shall be deposited in the state wildlife account and used exclusively first for the printing and distribution of a pamphlet on the legal limits of the use of firearms, firearms safety, and the preemptive nature of state law, and subsequently the support of volunteer instructors in the basic firearms safety training program conducted by the department of fish and wildlife. The pamphlet shall be given to each applicant for a license; and

(ii) Seven dollars shall be paid to the issuing authority for the purpose of enforcing this chapter.

(b) Beginning with concealed pistol licenses that expire on or after August 1, 2018, the department of licensing shall mail a renewal notice approximately ninety days before the license expiration date to the licensee at the address listed on the concealed pistol license application, or to the licensee's new address if the licensee has notified the department of licensing of a change of address. The notice must contain the date the concealed pistol license will expire, the amount of renewal fee, the penalty for late renewal, and instructions on how to renew the license.

(10) Notwithstanding the requirements of subsections (1) through (9) of this section, the chief of police of the municipality or the sheriff of the county of the applicant's residence may issue a temporary emergency license for good cause pending review under subsection (1) of this section. Temporary emergency licenses shall be easily distinguishable from regular licenses.

(11) A political subdivision of the state shall not modify the requirements of this section or chapter, nor may a political subdivision ask the applicant to voluntarily submit any information not required by this section.

(12) A person who knowingly makes a false statement regarding citizenship or identity on an application for a concealed pistol license is guilty of false swearing under RCW 9A.72.040. In addition to any other penalty provided for by law, the concealed pistol license of a person

who knowingly makes a false statement shall be revoked, and the person shall be permanently ineligible for a concealed pistol license.

(13) A person may apply for a concealed pistol license:

(a) To the municipality or to the county in which the applicant resides if the applicant resides in a municipality;

(b) To the county in which the applicant resides if the applicant resides in an unincorporated area; or

(c) Anywhere in the state if the applicant is a nonresident.

(14) Any person who, as a member of the armed forces, including the national guard and armed forces reserves, is unable to renew his or her license under subsections (6) and (9) of this section because of the person's assignment, reassignment, or deployment for out-of-state military service may renew his or her license within ninety days after the person returns to this state from out-of-state military service, if the person provides the following to the issuing authority no later than ninety days after the person's date of discharge or assignment, reassignment, or deployment back to this state: (a) A copy of the person's original order designating the specific period of assignment, reassignment, or deployment for out-of-state military service, and (b) if appropriate, a copy of the person's discharge or amended or subsequent assignment, reassignment, or deployment order back to this state. Sec. 2. RCW 36.160.100 and 2015 3rd sp.s. c 24 s 502 are each amended to read as follows:

~~((1))~~ A program created under this chapter must develop and provide a public school cultural access program, as provided in RCW 36.160.110.

~~((2))~~ To the extent practicable consistent with available resources, the public school cultural access element of a program of a county described in RCW 36.160.110(2) must include the following attributes:

~~(a)~~ Provide benefits designed to increase public school student access to the programming offered and facilities operated by regional and community-based cultural organizations receiving funding under this chapter, giving priority to the activities in the order described in (c) of this subsection;

~~(b)~~ Offer benefits to every public school in the county while scaling the range of benefits available to and the frequency of opportunities to participate by any particular school to coincide with the relative percentage of

students attending the school who participate in the national free or reduced-price school meals program;

~~(c)~~ Benefits provided under the public school cultural access program must include, without limitation:

~~(i)~~ Providing directly or otherwise funding and arranging for transportation for all public school students at participating schools to attend and participate annually in the age appropriate programs and activities offered by such organizations;

~~(ii)~~ Should funding available under this program for student transportation be inadequate in any one year due to more demand for student transportation than can be funded, increasing the subsequent annual percentage allocation to the public school cultural access program up to two percent so as to provide sufficient funds to ensure adequate funding of student transportation;

~~(iii)~~ Establishing and operating, within funding provided to support the public school cultural access program under this subsection, of a centralized service available to regional and community based cultural organizations receiving funding under this chapter and public schools in the county to coordinate opportunities for public school student access to the programs and activities offered by the organizations both at the facilities and venues operated by the organizations and through programs and experiences provided by the organizations at schools and elsewhere;

~~(vii)~~ Building meaningful partnerships with public schools and cultural organizations in order to maximize participation in school access programs and activities and ensure their relevance and effectiveness;

~~(d)~~ When a program determines that its program element required under (c)(i) through (vii) of this subsection has achieved sufficient scale and participation among public schools located within its boundaries and that it has resources remaining to devote to additional public school cultural access programs without diminishing such participation, the county may develop and financially support other public school cultural access activities in conjunction with cultural organizations receiving funds

~~under this chapter; public school districts; and other public or nonprofit organizations that support cultural access. Any funding for development and support of such activities provided to cultural organizations receiving funds under this subsection must only be used to supplement the public benefits provided by such organizations as required under this chapter and may not be used by such organizations to replace or diminish funding for such required public benefits;~~

~~(f) Compilation of an annual report documenting the reach and evaluating the effectiveness of program funded public school cultural access efforts, including information about the numbers and types of students who participated in the program and recommendations to the county for improvements.)~~

Sec. 3. RCW 36.160.110 and 2015 3rd sp.s. c 24 s 601 are each amended to read as follows:

~~((+))~~ A program in a county ~~((with a population of less than one million five hundred thousand))~~ must allocate the proceeds of taxes authorized under RCW 82.14.525 and 84.52.821 as follows:

~~((a))~~ (1) If any start-up funding has been provided to the program under RCW 36.160.040 with the expectation that the funding will be repaid, the program must annually reserve from total funds available funding sufficient to provide for repayment of such start-up funding until any such start-up funding has been fully repaid;

~~((b))~~ (2) The funding determined by the county forming such a program to be reserved for program costs, including direct administrative costs, and repaying any start-up funding provided under RCW 36.160.040. Information disclosing the amount of funding to be reserved for program administrative costs must be included in any proposition submitted to voters under RCW 82.14.525 or 84.52.821;

~~((c))~~ (3) The county must determine the percentage of total funds available annually to be reserved for a public school cultural access program, including transportation needs to implement the public school cultural access program, established and managed by the county to increase access to cultural activities and programming for public school students resident in the county. ~~((d))~~ (4) Remaining funds available annually, including all funds not initially reserved under ~~((a), (b), and (c) of this subsection))~~ subsections (1), (2), and (3) of this section as well as funds not distributed by the county from

the reserved funds, must be distributed by the county to the entity designated by the legislative authority of the county creating the program. The county must determine:

~~((i))~~ (a) Guidelines, consistent with the requirements of this chapter, it deems necessary or appropriate for determining the eligibility of cultural organizations to receive funding under this chapter;

~~((ii))~~ (b) Criteria for the award of funds to eligible cultural organizations, including the public benefits to be derived from projects submitted for funding;

~~((iii))~~ (c) The amount of funding to be allocated to support designated entity administrative costs;

~~((iv))~~ (d) Criteria for the identification by the county or, if so directed by the county, by the designated entity of any cultural organization or organizations that would receive annual distributions of funds in such amounts determined by the county or, if so directed by the county, the designated entity; and

~~((v))~~ (e) Procedures to be used by the designated entity in awarding funding to other cultural organizations that may, but are not required to include a periodic competitive process for awarding funds for particular purposes or projects proposed by eligible cultural organizations;

~~((e))~~ (5) In evaluating requests for funding authorized under this chapter, the designated entity responsible for the distribution of the funds must consider the public benefits that any cultural organizations represented will be derived from proposed projects. At the conclusion of a project approved for funding, such organization is required to report to the designated entity on the public benefits realized;

~~((f))~~ (6) Funds distributed to cultural organizations may be used to support cultural and educational activities, programs, and initiatives; public benefits and communications; and basic operations. Funds may also be used for: ~~((i))~~ (a) Capital expenditures or acquisitions including, but not limited to, the acquisition of or construction of improvements to real property; and ~~((ii))~~ (b) technology, equipment, and supplies reasonably related to or necessary for a project otherwise eligible for funding under this chapter. Program guidelines may also determine the circumstances under which funds may be used to fund start-up expenses of new community-based cultural organizations;

~~((g))~~ (7) If the county or designated entity determine the eligibility of a cultural organization to receive funding or the relative magnitude of the funding it receives on the basis of its budget, revenues, or expenses, any determination with respect to a qualifying state-related cultural organization must exclude any state funding received by the organization or for the institution it supports.

~~((2))~~ A county with a population of more than one million five hundred thousand must allocate the proceeds of the taxes authorized under RCW 82.14.525 as follows:

~~(a) If any start-up funding has been provided to the program under RCW 36.160.040 with the expectation that the funding will be repaid, the program must annually reserve from total funds available annually funding sufficient to provide for repayment of such start-up funding until any such start-up funding has been fully repaid;~~

~~(b) After allocating any funds as required in (a) of this subsection, up to one and one fourth percent of total funds available annually may be used for program administrative costs;~~

~~(c) After allocating funds as required in (a) and (b) of this subsection, ten percent of remaining funds available annually must be used to fund a public school cultural access program to be administered by the program, subject to RCW 36.160.100(2);~~

~~(d) Seventy percent of total remaining funds available annually excluding funds initially reserved under (a), (b), and (c) of this subsection must be reserved for distribution by the program to regional cultural organizations that are cultural organizations that own, operate, or support cultural facilities or provide performances, exhibits, educational programs, experiences, or entertainment that widely benefit and are broadly attended by the public, subject to further definition under guidelines adopted by the program. A regional cultural organization may also generally be characterized under program guidelines as a financially stable, substantial organization with full-time support and program staff, maintaining a broad-based membership, having year-round or enduring seasonal operations, being a substantial financial contributor to the development, operation, and maintenance of the organization's principal venue or venues, and providing substantial public benefits. The funding must be provided only to those regional cultural organizations that the program determines, on an annual basis, to have met the following guidelines:~~

~~(i) For at least the preceding three years, the organization has been continuously in good standing as a nonprofit corporation under the laws of the state of Washington;~~

~~(ii) The organization has its principal location or locations and conducts the majority of its activities within the county area primarily for the benefit of county residents;~~

~~(iii) The organization has not declared bankruptcy or suspended or substantially curtailed operations for a period longer than six months during the preceding two years;~~

~~(iv) The organization provided to the program audited annual financial statements for at least its two most recent fiscal years;~~

~~(v) Over the three preceding years, the organization has minimum average annual revenues of at least one million two hundred fifty thousand dollars. The program must annually and cumulatively adjust the minimum revenues by the annual percentage change in the consumer price index for the prior year for the Seattle Tacoma Bellevue, Washington metropolitan statistical area for all urban consumer, all goods, as published by the United States~~

~~department of labor, bureau of labor statistics. The minimum revenues requirement, adjusted for inflation as provided in this section, remains effective through the date on which the initial tax authorized by the voters under RCW 82.14.525 or 84.52.821 expires. Thereafter, the program must, at the beginning of each subsequent period of funding as approved by the voters, establish initial minimum average annual revenues of not less than the amount of the minimum revenues required during the final year of the immediately preceding period of funding;~~

~~(vi) For purposes of determining the eligibility of a regional organization to receive funding or the relative magnitude of the funding it receives on the basis of its revenues, any determination with respect to a qualifying state-related cultural organization must exclude any state funding received by the organization or for the institution it supports; and~~

~~(vii) Any additional guidelines, consistent with RCW 36.160.020 and this section, as the program deems necessary or appropriate for determining the eligibility of prospective regional cultural organizations to receive funding under this section and for establishing the amount of funding any organization may receive;~~

~~(e) Funds available under (d) of this subsection must be distributed among eligible regional cultural organizations based on an annual ranking of eligible organizations by the combined size of their average annual revenues and their average annual attendance, both over the three preceding years. However, an organization's attendance must have twice the weight of the organization's revenues in determining its relative ranking. Available funds must be distributed proportionally among eligible organizations, consistent with the ranking, such that the organization with the largest combined revenues and weighted attendance would receive the most funding and the organization with the smallest combined revenues and weighted attendance would receive the least funding. However, no organization may receive funds in excess of fifteen percent of its average annual revenues over the three preceding years;~~

~~(f) Funds distributed to regional cultural organizations under (d) of this subsection must be used to support cultural and educational activities, programs and initiatives, public benefits and communications, and basic operations.~~

~~(i) At least twenty percent of funds distributed to any regional cultural organizations under (d) of this subsection must be used to participate in the program's public school cultural access program required under RCW 36.160.100. ~~(ii) No funds distributed to regional cultural organizations under (d) of this subsection may be used for capital expenditures or acquisitions including, but not limited to, the acquisition of or the construction of improvements to real property;~~

~~(g) Prior to December 31st of each year, each regional cultural organization receiving funds authorized~~

~~under this chapter pursuant to a program allocation formula must provide a report to the program, including:~~

~~(iii) A report on public benefits it provided, and its participation in the public school cultural access program, during the current year;~~

~~(h) Remaining funds available annually, including funds not initially reserved under (a) through (d) of this subsection as well as funds not distributed by the program from the reserved funds must be distributed by the program to the public agency designated by the legislative authority of the county creating such a program;~~

Designated public agencies must adopt:~~

~~(A) Guidelines, consistent with the requirements of this chapter, it deems necessary or appropriate for determining the eligibility of community based cultural organizations to receive funding under this chapter and for establishing the amount of funding any organization may receive;~~

~~(B) Criteria for the award of funds to eligible community based cultural organizations, including the public benefits to be derived from projects submitted for funding; and~~

~~(C) Procedures for conducting, at least annually, a competitive process for the award of available funding;~~

This program shall be limited to the reimbursement provided in this section.

(3) An employee is only entitled to receive the reimbursement provided in this section if the secretary of children, youth, and families, or the secretary's designee, or the secretary of social and health services, or the secretary's designee, finds that each of the following has occurred:

(a) A person has assaulted the employee while the employee was in the course of performing his or her official duties and, as a result thereof, the employee has sustained demonstrated physical injuries which have required the employee to miss days of work;

(b) The assault cannot be attributable to any extent to the employee's negligence, misconduct, or failure to comply with any rules or conditions of employment; and

(4) The reimbursement authorized under this section shall be as follows:

(5) Reimbursement under this section may not last longer than three hundred sixty-five consecutive days after the date of the injury.

(6) The employee shall not be entitled to the reimbursement provided in subsection (4) of this section for any workday for which the secretary, or the secretary's designee, finds that the employee has not diligently pursued his or her compensation remedies under chapter 51.32 RCW.

(7) The reimbursement shall only be made for absences which the secretary, or the secretary's designee, believes are justified.

(8) While the employee is receiving reimbursement under this section, he or she shall continue to be classified as a state employee and the reimbursement amount shall be considered as salary or wages.

(9) All reimbursement payments required to be made to employees under this section shall be made by the department. The payments shall be considered as a salary or wage expense and shall be paid by the department in the same manner and from the same appropriations as other salary and wage expenses of the department.

(2) Revenues to the ~~((child welfare system))~~ department of children, youth, and families contracted services performance improvement account consist of: (a) Legislative appropriations; and (b) any other public or private funds appropriated to or deposited in the account.

Sec. 17. RCW 74.13.350 and 2011 c 309 s 34 are each amended to read as follows:

(1) It is the intent of the legislature that parents are responsible for the care and support of children with developmental disabilities. The legislature recognizes that, because of the intense support required to care for a child with developmental disabilities, the help of an out-of-home placement may be needed. It is the intent of the legislature that, when the sole reason for the out-of-home placement is the child's developmental disability, such services be offered by the department to these children and their families through a voluntary placement agreement. In these cases, the parents shall retain legal custody of the child.

~~((As used in this section, "voluntary placement agreement" means a written agreement between the department and a child's parent or legal guardian authorizing the department to place the child in a licensed facility.))~~ (2) Under the terms of ~~((this))~~ a voluntary placement agreement, the parent or legal guardian shall retain legal custody and the department shall be responsible for the child's placement and care. The agreement shall at a minimum specify the legal status of the child and the rights and obligations of the parent or legal guardian, the child, and the department while the child is in placement. The agreement must be signed by the child's parent or legal guardian and the department to be in effect, except that an agreement regarding an Indian child shall not be valid unless executed in accordance with RCW 13.38.150. Any party to a voluntary placement agreement may terminate the agreement at any time. Upon termination of the agreement, the child shall be returned to the care of the child's parent or legal guardian unless the child has been taken into custody pursuant to RCW 13.34.050 or 26.44.050, placed in shelter care pursuant to RCW 13.34.060, or placed in foster care pursuant to RCW 13.34.130.

~~((As used in this section, "out of home placement" and "out of home care" mean the placement of a child in a foster family home or group care facility licensed under chapter 74.15 RCW.))~~

(3) Whenever the department places a child in out-of-home care under a voluntary placement pursuant to this section, the department shall have the responsibility for the child's placement and care. The department shall develop a permanency plan of care for the child no later than sixty days from the date that the department assumes responsibility for the child's placement and care. Within the first one hundred eighty days of the placement, the department shall obtain a judicial determination pursuant to RCW 13.04.030(1)(j) and 13.34.270 that the placement is in the best interests of the child. If the child's out-of-home placement ends before one hundred eighty days have elapsed, no judicial determination under RCW 13.04.030(1)(b) is required. The permanency planning hearings shall review whether the child's best

interests are served by continued out-of-home placement and determine the future legal status of the child.

(4) The department shall provide for periodic administrative reviews as required by federal law. A review may be called at any time by either the department, the parent, or the legal guardian.

(5) Nothing in this section shall prevent the department of children, youth, and families from filing a dependency petition if there is reason to believe that the child is a dependent child as defined in RCW 13.34.030.

(6) The department shall adopt rules providing for the implementation of chapter 386, Laws of 1997 and the transfer of responsibility for out-of-home placements from the dependency process under chapter 13.34 RCW to the process under this chapter.

(7) It is the intent of the legislature that the department undertake voluntary out-of-home placement in cases where the child's developmental disability is such that the parent, guardian, or legal custodian is unable to provide the necessary care for the child, and the parent, guardian, or legal custodian has determined that the child would benefit from placement outside of the home. If the department does not accept a voluntary placement agreement signed by the parent, a petition may be filed and an action pursued under chapter 13.34 RCW. The department shall inform the parent, guardian, or legal custodian in writing of their right to civil action under chapter 13.34 RCW.

(8) Nothing in this section prohibits the department of children, youth, and families from seeking support from parents of a child, including a child with a developmental disability if the child has been placed into care as a result of an action under chapter 13.34 RCW, when state or federal funds are expended for the care and maintenance of that child or when the department receives an application for services from the physical custodian of the child, unless the department of children, youth, and families finds that there is good cause not to pursue collection of child support against the parent or parents.

(9) For the purposes of this section:

(a) Unless the context clearly requires otherwise, "department" means the department of social and health services.

(b) "Out-of-home placement" and "out-of-home care" mean the placement of a child in a foster family home or group care facility licensed under chapter 74.15 RCW.

(c) "Voluntary placement agreement" means a written agreement between the department of social and health services and a child's parent or legal guardian authorizing the department to place the child in a licensed facility.

Sec. 20. RCW 74.15.030 and 2017 3rd sp.s. c 6 s 409 are each amended to read as follows:

The secretary shall have the power and it shall be the secretary's duty:

(1) In consultation with the children's services advisory committee, and with the advice and assistance of persons representative of the various type agencies to be licensed, to designate categories of facilities for which separate or different requirements shall be developed as may be appropriate whether because of variations in the ages, sex and other characteristics of persons served, variations in the purposes and services offered or size or structure of the agencies to be licensed hereunder, or because of any other factor relevant thereto;

(6) To prescribe the procedures and the form and contents of reports necessary for the administration of this chapter and RCW 74.13.031 and to require regular reports from each licensee;

(3) Records retained or produced by any juvenile justice or care agency may be released to other participants in the juvenile justice or care system only when an investigation or case involving the juvenile in question is being pursued by the other participant or when that other participant is assigned the responsibility of supervising the juvenile. Records covered under this section and maintained by the juvenile courts which relate to the official actions of the agency may be entered in the statewide judicial information system. However, truancy records associated with a juvenile who has no other case history, and records of a juvenile's parents who have no other case history, shall be removed from the judicial information system when the juvenile is no longer subject to the compulsory attendance laws in chapter 28A.225 RCW. (b) Additional information may only be released with the written consent of the subject of the investigation and the juvenile alleged to be the victim of abandonment or abuse and neglect, or the parent, custodian, guardian, or personal representative of the juvenile, or by court order obtained with notice to all interested parties.

(5) Any disclosure of records or information by the department of social and health services or the department of children, youth, and families, pursuant to this section shall not be deemed a waiver of any confidentiality or privilege attached to the records or information by operation of any state or federal statute or regulation, and any recipient of such records or information shall maintain it in such a manner as to comply with such state and federal statutes and regulations and to protect against unauthorized disclosure.

(6) A contracting agency or service provider of the department of social and health services or the department of children, youth, and families, that provides counseling, psychological, psychiatric, or medical services may release to the office of the family and children's ombuds information or records relating to services provided to a juvenile who is dependent under chapter 13.34 RCW without the consent of the parent or guardian of the juvenile, or of the juvenile if the juvenile is under the age of thirteen years, unless such release is otherwise specifically prohibited by law.

(b) If the information or record has been obtained by a juvenile justice or care agency in connection with the provision of counseling, psychological, psychiatric, or medical services to the juvenile, when the services have been sought voluntarily by the juvenile, and the juvenile has a legal right to receive those services without the consent of any person or agency, then the information or record may not be disclosed to the juvenile's parents without the informed consent of the juvenile unless otherwise authorized by law; or

(c) That the department of children, youth, and families or the department of social and health services may

(8) A juvenile or his or her parent denied access to any records following an agency determination under subsection (7) of this section may file a motion in juvenile court requesting access to the records. The court shall grant the motion unless it finds access may not be permitted according to the standards found in subsection (7)(a) and (b) of this section.

(9) The person making a motion under subsection (8) of this section shall give reasonable notice of the motion to all parties to the original action and to any agency whose records will be affected by the motion.

(10) Subject to the rules of discovery in civil cases, any party to a proceeding seeking a declaration of dependency or a termination of the parent-child relationship and any party's counsel and the guardian ad litem of any party, shall have access to the records of any natural or adoptive child of the parent, subject to the limitations in subsection (7) of this section. Sec. 23. RCW 28B.117.030 and 2018 c 232 s 4 are each amended to read as follows:

(1) The office shall design and, to the extent funds are appropriated for this purpose, implement, passport to

careers with two programmatic pathways: The passport to college promise program and the passport to apprenticeship opportunities program. Both programs offer supplemental scholarship and student assistance for students who were under the care of the state foster care system, tribal foster care system, or federal foster care system, and verified unaccompanied youth or young adults who have experienced homelessness.

(2) The office shall convene and consult with an advisory committee to assist with program design and implementation. The committee shall include but not be limited to former foster care and unaccompanied homeless youth and their advocates; representatives from the state board for community and technical colleges, public and private agencies that assist current and former foster care recipients and unaccompanied youth or young adults experiencing homelessness in their transition to adulthood; student support specialists from public and private colleges and universities; the state workforce training and education coordinating board; the employment security department; and the state apprenticeship council.

(3) To the extent that sufficient funds have been appropriated for this purpose, a student is eligible for assistance under this section if he or she:

(a)(i) Was in the care of the state foster care system, tribal foster care system, or federal foster care system in Washington state at any time before age twenty-one subsequent to the following:

- (A) Age fifteen as of July 1, 2018;
- (B) Age fourteen as of July 1, 2019; and
- (C) Age thirteen as of July 1, 2020; or

(ii) Beginning July 1, 2019, was verified on or after July 1st of the prior academic year as an unaccompanied youth experiencing homelessness, before age twenty-one;

(b) Is a resident student, as defined in RCW 28B.15.012(2), or if unable to establish residency because of homelessness or placement in out-of-state foster care under the interstate compact for the placement of children, has residency determined through verification by the office;

(c) Is enrolled with or will enroll on at least a half-time basis with an institution of higher education or a registered apprenticeship or recognized preapprenticeship in Washington state by the age of twenty-one;

(d) Is making satisfactory academic progress toward the completion of a degree, certificate program, or registered apprenticeship or recognized preapprenticeship, if receiving supplemental scholarship assistance;

(e) Has not earned a bachelor's or professional degree; and

(f) Is not pursuing a degree in theology.

(4) The office shall define a process for verifying unaccompanied homeless status for determining eligibility under subsection (3)(a)(ii) of this section. The office may use a letter from the following persons or entities to provide verification: A high school or school district McKinney-

Vento liaison; the director or designated staff member of an emergency shelter, transitional housing program, or homeless youth drop-in center; or other similar professional case manager or school employee. Students who have no formal connection with such a professional may also submit to the office an essay that describes their experience with homelessness and the barriers it created to their academic progress. The office may consider this essay in lieu of a letter of homelessness determination and may interview the student if further information is needed to verify eligibility.

(5) A passport to college promise program is created.

(a) A passport to college promise scholarship under this section:

(i) Shall not exceed resident undergraduate tuition and fees at the highest-priced public institution of higher education in the state; and

(ii) Shall not exceed the student's financial need, when combined with all other public and private grant, scholarship, and waiver assistance the student receives.

(b) An eligible student may receive a passport to college promise scholarship under this section for a maximum of five years after the student first enrolls with an institution of higher education or until the student turns age twenty-six, whichever occurs first. If a student turns age twenty-six during an academic year, and would otherwise be eligible for a scholarship under this section, the student shall continue to be eligible for a scholarship for the remainder of the academic year.

(c) The office, in consultation with and with assistance from the state board for community and technical colleges, shall perform an annual analysis to verify that those institutions of higher education at which students have received a scholarship under this section have awarded the student all available need-based and merit-based grant and scholarship aid for which the student qualifies.

(d) In designing and implementing the passport to college promise student support program under this section, the office, in consultation with and with assistance from the state board for community and technical colleges, shall ensure that a participating college or university:

(i) Has a viable plan for identifying students eligible for assistance under this section, for tracking and enhancing their academic progress, for addressing their unique needs for assistance during school vacations and academic interims, and for linking them to appropriate sources of assistance in their transition to adulthood;

(ii) Receives financial and other incentives for achieving measurable progress in the recruitment, retention, and graduation of eligible students.

(e) To the extent funds are appropriated for this specific purpose, the office shall contract with at least one nongovernmental entity to provide services to support effective program implementation, resulting in increased postsecondary completion rates for passport scholars.

(6) The passport to apprenticeship opportunities program is created. The office shall:

(a) Identify students and applicants who are eligible for services under RCW 28B.117.030 through coordination of certain agencies as detailed in RCW 28B.117.040;

(b) Provide financial assistance through the nongovernmental entity or entities in RCW 28B.117.055 for registered apprenticeship and recognized preapprenticeship entrance requirements and occupational-specific costs that does not exceed the individual's financial need; and

(c) Extend financial assistance to any eligible applicant for a maximum of six years after first enrolling with a registered apprenticeship or recognized preapprenticeship, or until the applicant turns twenty-six, whichever occurs first.

(7) Recipients may utilize passport to college promise or passport to apprenticeship opportunities at different times, but not concurrently. The total award an individual may receive in any combination of the programs shall not exceed the equivalent amount that would have been awarded for the individual to attend a public university for five years with the highest annual tuition and state-mandated fees in the state.

(8) Personally identifiable information shared pursuant to this section retains its confidentiality and may not be further disclosed except as allowed under state and federal law.

Sec. 24. RCW 28B.117.040 and 2018 c 232 s 5 are each amended to read as follows:

Effective operation of the passport to careers program requires early and accurate identification of former foster care youth and unaccompanied youth experiencing homelessness so that they can be linked to the financial and other assistance that will help them succeed in college or in a registered apprenticeship or recognized preapprenticeship. To that end:

(1) All institutions of higher education that receive funding for student support services under RCW 28B.117.030 shall include on their applications for admission or on their registration materials a question asking whether the applicant has been in state, tribal, or federal foster care in Washington state or experienced unaccompanied homelessness under the parameters in ~~((subsection (3)(a) of this section))~~ RCW 28B.117.030(3)(a), as determined by the office, with an explanation that financial and support services may be available. All other institutions of higher education are strongly encouraged to include such a question and explanation. No institution may consider whether an applicant may be eligible for a scholarship or student support services under this chapter when deciding whether the applicant will be granted admission.

(2) With substantial input from the office of the superintendent of public instruction, the department of social and health services and the department of children, youth, and families shall devise and implement procedures for efficiently, promptly, and accurately identifying students and applicants who are eligible for services under RCW

28B.117.030, and for sharing that information with the office, the institutions of higher education, and the nongovernmental entity or entities identified in RCW 28B.77.250, 28B.117.030(5)(e), and 28B.117.055. The procedures shall include appropriate safeguards for consent by the applicant or student before disclosure. This information retains its confidentiality under chapter 13.50 RCW and federal law and may not be further disclosed except as allowed under state and federal law.

(3) Nothing in this chapter allows the sharing of confidential information that is prohibited by state or federal law.

Sec. 25. RCW 26.26A.410 and 2018 c 6 s 503 are each amended to read as follows:

(1) The petitioner shall give notice of a proceeding to adjudicate parentage to the following individuals:

(a) The woman who gave birth to the child, unless a court has adjudicated that she is not a parent;

(b) An individual who is a parent of the child under this chapter;

(c) A presumed, acknowledged, or adjudicated parent of the child; and

(d) An individual whose parentage of the child is to be adjudicated.

(2) An individual entitled to notice under subsection (1) of this section has a right to intervene in the proceeding.

(3) Lack of notice required by subsection (1) of this section does not render a judgment void. Lack of notice does not preclude an individual entitled to notice under subsection (1) of this section from bringing a proceeding under RCW 26.26A.450(2).

(4) In cases where the child is dependent or alleged to be dependent under chapter 13.34 RCW, the petitioner shall give notice to the state agency administering the plan under Title IV-E of the social security act.

NEW SECTION. Sec. 26. A new section is added to chapter 43.216 RCW to read as follows:

(1) The legislature encourages the child welfare division of the department to incorporate reflective supervision principles and recognizes that the cumulative stress of child welfare work, workload for caseworkers and supervisors, organizational support levels, access to resources, insufficient training, limited direct service time, lack of clear expectations, limited access to technology, and burdensome paperwork contribute to high turnover. Child welfare workers who experience secondary, work-related trauma should be given the necessary support to process intense emotional events and the tools to build resiliency.

(2) The department shall provide a report on the department's current efforts to improve workplace culture to the relevant committees of the legislature in compliance with RCW 43.01.036 by December 1, 2019. The report must

include results and activities related to the department's organizational change management initiatives, efforts related to the federal program improvement plan, and the department's existing peer support program.

(3) The department and any external entity responsible for providing child welfare worker training shall provide a report on current child welfare worker training to the relevant committees of the legislature in compliance with RCW 43.01.036 by September 1, 2019, that includes:

(a) A review of the effectiveness of the current course curriculum for supervisors;

(b) An evaluation of the preparedness of new child welfare workers;

(c) An inventory of the trauma-informed trainings for child welfare workers and supervisors;

(d) An inventory of the reflective supervision principles embedded within trainings for child welfare workers and supervisors; and

(e) An inventory of the department's efforts to systemize peer support for child welfare workers and supervisors.

(4) The department shall provide a training improvement plan to the relevant committees of the legislature in compliance with RCW 43.01.036 by January 1, 2020, based on the report required under subsection (3) of this section that describes the recommended frequency of trainings and other recommended improvements to child welfare worker training.

(5) For purposes of this section, "child welfare worker" means an employee of the department whose job includes supporting or providing child welfare services as defined in RCW 74.13.020 or child protective services as defined in RCW 26.44.020.

(6) This section expires July 1, 2021.

Sec. 27. RCW 74.14B.010 and 2018 c 58 s 79 are each amended to read as follows:

(1) ~~((Caseworkers employed in children services))~~ Child welfare workers shall meet minimum standards established by the department. Comprehensive training for ~~((caseworkers))~~ child welfare workers shall be completed before such ~~((caseworkers))~~ child welfare workers are assigned to case-carrying responsibilities ~~((without direct supervision))~~ as the sole worker assigned to a particular case. Intermittent, part-time, and standby child welfare workers shall be subject to the same minimum standards and training.

(2) Ongoing specialized training shall be provided for ~~((persons))~~ child welfare workers responsible for investigating child sexual abuse. Training participants shall have the opportunity to practice interview skills and receive feedback from instructors.

(3) The department, the criminal justice training commission, the Washington association of sheriffs and police chiefs, and the Washington association of prosecuting

attorneys shall design and implement statewide training that contains consistent elements for persons engaged in the interviewing of children, including law enforcement, prosecution, and child protective services.

(4) The training required by this section shall: (a) Be based on research-based practices and standards; (b) minimize the trauma of all persons who are interviewed during abuse investigations; (c) provide methods of reducing the number of investigative interviews necessary whenever possible; (d) assure, to the extent possible, that investigative interviews are thorough, objective, and complete; (e) recognize needs of special populations, such as persons with developmental disabilities; (f) recognize the nature and consequences of victimization; (g) require investigative interviews to be conducted in a manner most likely to permit the interviewed persons the maximum emotional comfort under the circumstances; (h) address record retention and retrieval; ~~((and))~~ (i) address documentation of investigative interviews; and (j) include self-care for child welfare workers.

(5) The identification of domestic violence is critical in ensuring the safety of children in the child welfare system. ~~((As a result))~~ It is also critical for child welfare workers to support victims of domestic violence while victims continue to care for their children, when possible, as domestic violence perpetrated against someone other than the child does not constitute negligent treatment or maltreatment in and of itself as provided in RCW 26.44.020. For these reasons, ongoing domestic violence training and consultation shall be provided to ~~((caseworkers))~~ child welfare workers, including how to use the department's practice guide to domestic violence.

(6) By January 1, 2021, the department shall:

(a) Develop and implement an evidence-informed curriculum for supervisors providing support to child welfare workers to better prepare candidates for effective supervisory and leadership roles within the department;

(b) Develop specialized training for child welfare workers that includes simulation and coaching designed to improve clinical and analytical skills;

(7) For purposes of this section, "child welfare worker" means an employee of the department whose job includes supporting or providing child welfare services as defined in RCW 74.13.020 or child protective services as defined in RCW 26.44.020.

NEW SECTION. Sec. 28. A new section is added to chapter 43.216 RCW to read as follows:

(1) The department shall provide child welfare workers and those supervising child welfare workers with access to:

(a) A critical incident protocol that establishes a process for appropriately responding to traumatic or high stress incidents in a manner that provides employees with proper mental health and stress management support, guidance, and education; and

(b) Peer counseling from someone trained in providing peer counseling and support.

(2) The department shall systematically collect workforce data regarding child welfare workers including staff turnover, workload distribution, exit interviews, and regular staff surveys to assess organizational culture and psychological safety.

(3) The department shall make a concerted effort to increase efficiency through the reduction of paperwork.

(4) The department shall develop a scientifically based method for measuring the direct service time of child welfare workers and contracted resources.

(5) The department shall convene a technical work group to develop a workload model including standardized ratios for supervisors, clerical, and other child welfare worker support staff and child welfare worker caseload ratios by case type.

(a) The technical work group must include:

(i) Two child welfare worker representatives, one from west of the crest of the Cascade mountain range, and one from east of the crest of the Cascade mountain range;

(ii) Fiscal staff from the department;

(iii) Human resources staff from the department; and

(iv) A representative from the office of financial management.

(b) The department shall provide a report to the relevant committees of the legislature in compliance with RCW 43.01.036 by December 1, 2019, that includes a description of the workload model recommended by the technical work group and the steps the department is taking to implement this model.

(c) The technical work group established in this section shall continue to meet and provide an annual report to the relevant committees of the legislature in compliance with RCW 43.01.036 by December 1st of each year regarding any recommended modifications to the workload model and steps the department is taking to implement those changes.

(6) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Child welfare worker" means an employee of the department whose job includes supporting or providing child welfare services as defined in RCW 74.13.020 including those providing family assessment response services as defined in RCW 26.44.020 or child protective services as defined in RCW 26.44.020.

(b) "Critical incident" means an incident that is unusual and involves a perceived or actual threat of harm to an individual which includes but is not limited to child fatalities or near fatalities."

2SSB 5021 Prime Sponsor, Committee on Ways & Means: Granting interest arbitration to certain department of corrections employees. Reported by Committee on Appropriations

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. A new section is added to chapter 41.80 RCW to read as follows:

(1) In order to maintain dedicated and uninterrupted services to the supervision of criminal offenders that are in state correctional facilities and on community supervision, it is the legislature's intent to grant certain employees of the department of corrections interest arbitration rights as an alternative means of settling disputes.

(2) This section applies only to employees covered by chapter 41.06 RCW working for the department of corrections, except confidential employees as defined in RCW 41.80.005, members of the Washington management service, internal auditors, and nonsupervisory marine department employees.

(3) Negotiations between the employer and the exclusive bargaining representative of a unit of employees shall be commenced at least five months before submission of the budget to the legislature. If no agreement has been reached sixty days after the commencement of such negotiations then, at any time thereafter, either party may declare that an impasse exists and may submit the dispute to the commission for mediation, with or without the concurrence of the other party. The commission shall appoint a mediator, who shall promptly meet with the representatives of the parties, either jointly or separately, and shall take such other steps as he or she may deem appropriate in order to persuade the parties to resolve their differences and effect an agreement. A mediator, however, does not have a power of compulsion. The mediator may consider only matters that are subject to bargaining under this chapter.

(4) If an agreement is not reached following a reasonable period of negotiations and mediation, and the director, upon recommendation of the assigned mediator, finds that the parties remain at impasse, then an arbitrator must be appointed to resolve the dispute. The issues for determination by the arbitrator must be limited to the issues certified by the executive director.

(5) Within ten working days after the first Monday in September of every odd-numbered year, the governor or the governor's designee and the bargaining representatives for any bargaining units covered by this section shall attempt to agree on an interest arbitrator to be used if the parties are not successful in negotiating a comprehensive collective bargaining agreement. The parties will select an arbitrator by mutual agreement or by alternatively striking names from a regional list of seven qualified arbitrators provided by the federal mediation and conciliation service.

(a) The fees and expenses of the arbitrator, the court reporter, if any, and the cost of the hearing room, if any, will be shared equally between the parties. Each party is responsible for the costs of its attorneys, representatives and witnesses, and all other costs related to the development and presentation of their case.

(b) Immediately upon selecting an interest arbitrator, the parties shall cooperate to reserve dates with the arbitrator for a potential hearing between August 1st and September 15th of the following even-numbered year. The parties shall

also prepare a schedule of at least five negotiation dates, absent an agreement to the contrary.

(c) The parties shall execute a written agreement before December 15th of the odd-numbered year setting forth the name of the arbitrator and the dates reserved for bargaining and arbitration.

(d)(i) The arbitrator must hold a hearing and provide reasonable notice of the hearing to the parties to the dispute. The hearing must be informal and each party has the opportunity to present evidence and make arguments. The arbitrator may not present the case for a party to the proceedings.

(ii) The rules of evidence prevailing in judicial proceedings may be considered, but are not binding, and any oral testimony or documentary evidence or other data deemed relevant by the arbitrator may be received in evidence. A recording of the proceedings must be taken.

(iii) The arbitrator may administer oaths, require the attendance of witnesses, and require the production of such books, papers, contracts, agreements, and documents deemed by the arbitrator to be material to a just determination of the issues in dispute. If a person refuses to obey a subpoena issued by the arbitrator, or refuses to be sworn or to make an affirmation to testify, or a witness, party, or attorney for a party is guilty of contempt while in attendance at a hearing, the arbitrator may invoke the jurisdiction of the superior court in the county where the labor dispute exists, and the court may issue an appropriate order. Any failure to obey the order may be punished by the court as a contempt thereof.

(6) The arbitrator may consider only matters that are subject to bargaining under RCW 41.80.020(1), and may not consider those subjects listed under RCW 41.80.020 (2) and (3) and 41.80.040.

(a) In making its determination, the arbitrator shall take into consideration the following factors:

(i) The financial ability of the department of corrections to pay for the compensation and benefit provisions of a collective bargaining agreement;

(ii) The constitutional and statutory authority of the employer;

(iii) Stipulations of the parties;

(iv) Comparison of the wages, hours, and conditions of employment of personnel involved in the proceedings with the wages, hours, and conditions of employment of like personnel of like state government employers of similar size in the western United States;

(v) The ability of the department of corrections to retain employees;

(vi) The overall compensation presently received by department of corrections employees, including direct wage compensation, vacations, holidays, and other paid excused time, pensions, insurance benefits, and all other direct or indirect monetary benefits received;

April 6, 2019

(vii) Changes in any of the factors listed in this subsection during the pendency of the proceedings; and

(viii) Such other factors which are normally or traditionally taken into consideration in the determination of matters that are subject to bargaining under RCW 41.80.020(1).

(b) The decision of an arbitrator under this section is subject to RCW 41.80.010(3).

(7) During the pendency of the proceedings before the arbitrator, existing wages, hours, and other conditions of employment shall not be changed by action of either party without the consent of the other but a party may so consent without prejudice to his or her rights or position under chapter 41.56 RCW.

(8)(a) If the representative of either or both the employees and the state refuses to submit to the procedures set forth in subsections (3), (4), and (5) of this section, the parties, or the commission on its own motion, may invoke the jurisdiction of the superior court for the county in which the labor dispute exists and the court may issue an appropriate order. A failure to obey the order may be punished by the court as a contempt thereof.

(b) A decision of the arbitrator is final and binding on the parties, and may be enforced at the instance of either party, the arbitrator, or the commission in the superior court for the county where the dispute arose. However, the decision of the arbitrator is not binding on the legislature and, if the legislature does not approve the funds necessary to implement provisions pertaining to the compensation and fringe benefit provision of an interest arbitration award, the provisions are not binding on the state or department of corrections.

(9) Subject to the provisions of this section, the parties shall follow the commission's procedures for interest arbitration.

NEW SECTION. Sec. 2. If specific funding for the purposes of this act, referencing this act by bill or chapter number, is not provided by June 30, 2019, in the omnibus appropriations act, this act is null and void."

NEW SECTION. Sec. 3. A new section is added to chapter 41.80 RCW to read as follows:

The intent and purpose of sections 4 through 10 of this act is to recognize that there exists a public policy in the state of Washington against strikes by uniformed personnel as a means of settling their labor disputes; that the uninterrupted and dedicated service of these classes of employees is vital to the welfare and public safety of the state of Washington; and that to promote such dedicated and uninterrupted public service there should exist an effective and adequate alternative means of settling disputes.

NEW SECTION. Sec. 4. A new section is added to chapter 41.80 RCW to read as follows:

(1) Negotiations between the employer and the exclusive bargaining representative of a unit of uniformed personnel shall be commenced at least five months prior to the submission of the budget to the legislature. If no agreement has been reached sixty days after the commencement of such negotiations then, at any time thereafter, either party may declare that an impasse exists and may submit the dispute to the commission for mediation, with or without the concurrence of the other party. The commission shall appoint a mediator, who shall promptly meet with the representatives of the parties, either jointly or separately, and shall take such other steps as he or she may deem appropriate in order to persuade the parties to resolve their differences and effect an agreement. A mediator, however, does not have a power of compulsion. The mediator may consider only matters that are subject to bargaining under this chapter.

(2) If an agreement has not been reached following a reasonable period of negotiations and mediation, and the executive director, upon the recommendation of the assigned mediator, finds that the parties remain at impasse, then the executive director shall certify the issues for interest arbitration. The issues for determination by the arbitration panel shall be limited to the issues certified by the executive director.

NEW SECTION. Sec. 5. A new section is added to chapter 41.80 RCW to read as follows:

(1) Within ten working days after the first Monday in September of every odd-numbered year, the state's bargaining representative and the exclusive bargaining representative for the appropriate bargaining unit shall attempt to agree on an interest arbitration panel consisting of three members to be used if the parties are not successful in negotiating a comprehensive collective bargaining agreement. Each party shall name one person to serve as its

arbitrator on the arbitration panel. The two members so appointed shall meet within seven days following the appointment of the later appointed member to attempt to choose a third member to act as the neutral chair of the arbitration panel. Upon the failure of the arbitrators to select a neutral chair within seven days, the two appointed members shall use one of the two following options in the appointment of the third member, who shall act as chair of the panel: (a) By mutual consent, the two appointed members may jointly request the commission to, and the commission shall, appoint a third member within two days of such a request. Costs of each party's appointee shall be borne by each party respectively; other costs of the arbitration proceedings shall be borne by the commission; or (b) either party may apply to the commission, the federal mediation and conciliation service, or the American arbitration association to provide a list of five qualified arbitrators from which the neutral chair shall be chosen. Each party shall pay the fees and expenses of its arbitrator, and the fees and expenses of the neutral chair shall be shared equally between the parties.

(2) Immediately upon selecting an interest arbitration panel, the parties shall cooperate to reserve dates with the arbitration panel for potential arbitration between August 1st and September 15th of the following even-numbered year. The parties shall also prepare a schedule of at least five negotiation dates for the following year, absent an agreement to the contrary. The parties shall execute a written agreement before November 1st of each odd-numbered year setting forth the names of the members of the arbitration panel and the dates reserved for bargaining and arbitration. This subsection imposes minimum obligations only and is not intended to define or limit a party's full, good faith bargaining obligation under other sections of this chapter.

(3) If the parties are not successful in negotiating a comprehensive collective bargaining agreement, a hearing shall be held. The hearing shall be informal and each party shall have the opportunity to present evidence and make argument. No member of the arbitration panel may present the case for a party to the proceedings. The rules of evidence prevailing in judicial proceedings may be considered, but are not binding, and any oral testimony or documentary evidence or other data deemed relevant by the chair of the arbitration panel may be received in evidence. A recording of the proceedings shall be taken. The arbitration panel has the power to administer oaths, require the attendance of witnesses, and require the production of such books, papers, contracts, agreements, and documents as may be deemed by the panel to be material to a just determination of the issues in dispute. If any person refuses to obey a subpoena issued by the arbitration panel, or refuses to be sworn or to make an affirmation to testify, or any witness, party, or attorney for a party is guilty of any contempt while in attendance at any hearing held under this section, the arbitration panel may invoke the jurisdiction of the superior court in the county where the labor dispute exists, and the court has jurisdiction to issue an appropriate order. Any failure to obey the order may be punished by the court as a contempt thereof. The hearing conducted by the arbitration panel shall be concluded within twenty-five days following the selection or

designation of the neutral chair of the arbitration panel, unless the parties agree to a longer period.

(4) The neutral chair shall consult with the other members of the arbitration panel, and, within thirty days following the conclusion of the hearing, the neutral chair shall make written findings of fact and a written determination of the issues in dispute, based on the evidence presented. A copy thereof shall be served on the commission, on each of the other members of the arbitration panel, and on each of the parties to the dispute.

(5) Except as provided in this subsection, the written determination shall be final and binding upon both parties.

(a) The written determination is subject to review by the superior court upon the application of either party solely upon the question of whether the decision of the panel was arbitrary or capricious.

(b) The written determination is not binding on the legislature and, if the legislature does not approve the funds necessary to implement provisions pertaining to compensation and fringe benefits of an arbitrated collective bargaining agreement, is not binding on the state.

(6) The arbitration panel may consider only matters that are subject to bargaining under this chapter.

NEW SECTION. Sec. 6. A new section is added to chapter 41.80 RCW to read as follows:

An interest arbitration panel created pursuant to section 5 of this act, in the performance of its duties under this chapter, exercises a state function and is, for the purposes of this chapter, a state agency. Chapter 34.05 RCW does not apply to proceedings before an interest arbitration panel under this chapter.

NEW SECTION. Sec. 7. A new section is added to chapter 41.80 RCW to read as follows:

In making its determination, the panel shall be mindful of the legislative purpose enumerated in section 3 of this act and, as additional standards or guidelines to aid it in reaching a decision, shall take into consideration the following factors:

(1) The constitutional and statutory authority of the employer;

(2) Stipulations of the parties;

(3) Comparison of the hours and conditions of employment of personnel involved in the proceedings with the hours and conditions of employment of like personnel of like employers of similar size on the west coast of the United States;

(4) Changes in any of the circumstances under subsections (1) through (3) of this section during the pendency of the proceedings; and

(5) Such other factors, not confined to the factors under subsections (1) through (4) of this section, that are

normally or traditionally taken into consideration in the determination of matters that are subject to bargaining under this chapter.

NEW SECTION. Sec. 8. A new section is added to chapter 41.80 RCW to read as follows:

During the pendency of the proceedings before the arbitration panel, existing wages, hours, and other conditions of employment shall not be changed by action of either party without the consent of the other but a party may so consent without prejudice to his rights or position under sections 4 through 10 of this act.

NEW SECTION. Sec. 9. A new section is added to chapter 41.80 RCW to read as follows:

(1) If the representative of either or both the uniformed personnel and the employer refuse to submit to the procedures set forth in sections 4 and 5 of this act, the parties, or the commission on its own motion, may invoke the jurisdiction of the superior court for the county in which the labor dispute exists and such court shall have jurisdiction to issue an appropriate order. A failure to obey such order may be punished by the court as a contempt thereof.

(2) Except as provided in this subsection, a decision of the arbitration panel shall be final and binding on the parties, and may be enforced at the instance of either party, the arbitration panel or the commission in the superior court for the county where the dispute arose.

(a) The written determination is subject to review by the superior court upon the application of either party solely upon the question of whether the decision of the panel was arbitrary or capricious.

(b) The written determination is not binding on the legislature and, if the legislature does not approve the funds necessary to implement provisions pertaining to compensation and fringe benefits of an arbitrated collective bargaining agreement, is not binding on the state.

NEW SECTION. Sec. 10. A new section is added to chapter 41.80 RCW to read as follows:

The right of uniformed personnel to engage in any strike, work slowdown, or stoppage is not granted. An employee organization recognized as the exclusive bargaining representative of uniformed personnel subject to this chapter that willfully disobeys a lawful order of enforcement by a superior court pursuant to this section and section 9 of this act, or willfully offers resistance to such order, whether by strike or otherwise, is in contempt of court as provided in chapter 7.21 RCW. An employer that willfully disobeys a lawful order of enforcement by a superior court pursuant to section 9 of this act or willfully offers resistance to such order is in contempt of court as provided in chapter 7.21 RCW.

NEW SECTION. Sec. 11. A new section is added to chapter 41.80 RCW to read as follows:

(1) By January 1, 2020, the public employment relations commission shall review the appropriateness of the bargaining units that consist of or include uniformed personnel and exist on the effective date of this section. If the commission determines that an existing bargaining unit is not appropriate pursuant to RCW 41.80.070, the commission may modify the unit.

(2) The exclusive bargaining representatives certified to represent the bargaining units that consist of or include uniformed personnel and exist on the effective date of this section shall continue as the exclusive bargaining representative without the necessity of an election as of the effective date of this section. However, there may be proceedings concerning representation under this chapter thereafter.

E2SSB 5120 Prime Sponsor, Committee on Ways & Means: Contracting with for-profit correctional facilities for the transfer or placement of offenders. Reported by Committee on Public Safety

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that the type of institution an individual is incarcerated in can

have a direct impact on rates of recidivism. The legislature further finds that incarcerating persons in private correctional entities, which have business models dependent on rates of incarceration, may increase the likelihood of those persons recidivating. The legislature resolves that public safety and financial and humanitarian interests are furthered by decreased rates of recidivism. The legislature intends to eliminate the utilization of private correctional entities by Washington state and to allow utilization of private correctional entities in only the most narrow and rare circumstances, in cases of emergency and when security and safety demand.

NEW SECTION. Sec. 2. A new section is added to chapter 72.68 RCW to read as follows:

(1) Except as provided in subsection (2) of this section and RCW 72.68.010(2), the secretary, any county government, city government, or county sheriff's department, is prohibited from utilizing a contract with a private correctional entity for the transfer or placement of offenders.

(2) This section does not apply to:

(a) State work release centers, juvenile residential facilities, nonprofit community-based alternative juvenile detention facilities, or nonprofit community-based alternative adult detention facilities that provide separate care or special treatment, operated in whole or in part by for-profit contractors;

(c) Tribal entities.

Sec. 3. RCW 72.09.050 and 1999 c 309 s 1902 and 1999 c 309 s 924 are each reenacted and amended to read as follows:

The secretary shall manage the department of corrections and shall be responsible for the administration of adult correctional programs, including but not limited to the operation of all state correctional institutions or facilities used for the confinement of convicted felons. In addition, the secretary shall have broad powers to enter into agreements with any federal agency, or any other state, or any Washington state agency or local government providing for the operation of any correctional facility or program for persons convicted of felonies or misdemeanors or for juvenile offenders. Such agreements for counties with local law and justice councils shall be required in the local law and justice plan pursuant to RCW 72.09.300. The agreements may provide for joint operation or operation by the department of corrections, alone, for by any of the other governmental entities, alone. ~~((Beginning February 1, 1999, the secretary may expend funds appropriated for the 1997-1999 biennium to enter into agreements with any local government or private organization in any other state,~~

~~providing for the operation of any correctional facility or program for persons convicted of felonies. Between July 1, 1999, and June 30, 2001, the secretary may expend funds appropriated for the 1999-01 biennium to enter into agreements with any local government or private organization in any other state, providing for the operation of any correctional facility or program for persons convicted of felonies.))~~ The secretary may employ persons to aid in performing the functions and duties of the department. The secretary may delegate any of his or her functions or duties to department employees, including the authority to certify and maintain custody of records and documents on file with the department. The secretary is authorized to promulgate standards for the department of corrections within appropriation levels authorized by the legislature.

Pursuant to the authority granted in chapter 34.05 RCW, the secretary shall adopt rules providing for inmate restitution when restitution is determined appropriate as a result of a disciplinary action.

Sec. 4. RCW 72.68.040 and 2012 c 117 s 500 are each amended to read as follows:

(1) The secretary may contract with the authorities of the federal government, or the authorities of any state of the United States, private companies in other states, or any county or city in this state providing for the detention in an institution or jail operated by such entity, for prisoners convicted of a felony in the courts of this state and sentenced to a term of imprisonment therefor in a state correctional institution for convicted felons under the jurisdiction of the department. Except as provided in subsection (2) of this section, after the making of a contract under this section, prisoners sentenced to a term of imprisonment in a state correctional institution for convicted felons may be conveyed by the superintendent or his or her assistants to the institution or jail named in the contract. The prisoners shall be delivered to the authorities of the institution or jail, there to be confined until their sentences have expired or they are otherwise discharged by law, paroled, or until they are returned to a state correctional institution for convicted felons for further confinement.

(2) A prisoner may not be conveyed to a private correctional entity except under the circumstances identified in RCW 72.68.010(2) or section 2(2) of this act.

Sec. 5. RCW 72.68.010 and 2000 c 62 s 2 are each amended to read as follows:

(1) Whenever in its judgment the best interests of the state or the welfare of any prisoner confined in any penal institution will be better served by his or her transfer to another institution or to a foreign country of which the prisoner is a citizen or national, the secretary may effect such transfer consistent with applicable federal laws and treaties. The secretary has the authority to transfer offenders between in-state correctional facilities, or to out-of-state ~~((to private or~~) governmental institutions, if the secretary determines that transfer is in the best interest of the state or the offender.

(2) The secretary has the authority to transfer offenders to an out-of-state private correctional entity only if the governor finds that an emergency exists such that the population of a state correctional facility exceeds its reasonable, maximum capacity resulting in safety and security concerns, the governor has considered all other legal options to address capacity including those pursuant to RCW 9.94A.870, and the secretary determines that transfer is in the best interest of the state or the offender.

(3) The determination of what is in the best interest of the state or offender may include but is not limited to considerations of overcrowding, emergency conditions, or hardship to the offender. In determining whether the transfer will impose a hardship on the offender, the secretary shall consider: (a) The location of the offender's family and whether the offender has maintained contact with members of his or her family; (b) whether, if the offender has maintained contact, the contact will be significantly disrupted by the transfer due to the family's inability to maintain the contact as a result of the transfer; and (c) whether the offender is enrolled in a vocational or educational program that cannot reasonably be resumed if the offender is returned to the state.

~~((2))~~ (4) If directed by the governor, the secretary shall, in carrying out this section and RCW 43.06.350, adopt rules under chapter 34.05 RCW to effect the transfer of prisoners requesting transfer to foreign countries.

Sec. 6. RCW 72.68.001 and 1981 c 136 s 114 are each amended to read as follows:

NEW SECTION. Sec. 7. A new section is added to chapter 70.48 RCW to read as follows:

A governing unit may not utilize a contract with a private correctional entity for the transfer or placement of offenders except as provided in section 2(2) of this act. For purposes of this section, "private correctional entity" has the same meaning as in RCW 72.68.001.

SSB 5247 Prime Sponsor, Committee on Ways & Means: Addressing catastrophic incidents that are natural or human-caused emergencies. Reported by Committee on Housing, Community Development & Veterans

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. (1) The legislature finds that the widespread impact of damage, casualties, and displacement of people resulting from a catastrophic incident makes it one of the most important topics in emergency management today. A catastrophic incident can result in tens of thousands of casualties and displaced people, and significantly disrupt the functioning of our infrastructure and economy; will almost immediately exceed the resources normally available to state, tribal, local, and private sector authorities for response; and will significantly disrupt governmental operations, schools, and the availability of emergency services. The characteristics of the precipitating event will severely aggravate the response strategy and quickly exhaust the capabilities and resources available in the impacted area, requiring significant resources from outside the area.

(2) The legislature further finds that joint local, state, and federal agencies must plan and prepare to provide extraordinary levels of lifesaving, life-sustaining, and other resources necessary to respond to the no notice or short notice hazard represented by a seismic catastrophic incident. Schools with their large number of vulnerable children, will need focused additional assistance to plan for seismic risks.

Sec. 2. RCW 38.52.010 and 2017 c 312 s 3 are each amended to read as follows:

As used in this chapter:

(1)(a) "Catastrophic incident" means any natural or human-caused incident, including terrorism and enemy attack, that results in extraordinary levels of mass casualties, damage, or disruption severely affecting the population, infrastructure, environment, economy, or government functions.

(b) "Catastrophic incident" does not include an event resulting from individuals exercising their rights, under the first amendment, of freedom of speech, and of the people to peaceably assemble.

(2) "Communication plan," as used in RCW 38.52.070, means a section in a local comprehensive

emergency management plan that addresses emergency notification of life safety information.

~~((2))~~ (3) "Continuity of operations planning" means the internal effort of an organization to assure that the capability exists to continue essential functions and services in response to a comprehensive array of potential emergencies or disasters.

~~((3))~~ (4) "Department" means the state military department.

~~((4))~~ (5) "Director" means the adjutant general.

~~((5))~~ (6) "Emergency management" or "comprehensive emergency management" means the preparation for and the carrying out of all emergency functions, other than functions for which the military forces are primarily responsible, to mitigate, prepare for, respond to, and recover from emergencies and disasters, and to aid victims suffering from injury or damage, resulting from disasters caused by all hazards, whether natural, technological, or human-caused, and to provide support for search and rescue operations for persons and property in distress. However, "emergency management" or "comprehensive emergency management" does not mean preparation for emergency evacuation or relocation of residents in anticipation of nuclear attack.

~~((6))~~ (7)(a) "Emergency or disaster" as used in all sections of this chapter except RCW 38.52.430 shall mean an event or set of circumstances which: (i) Demands immediate action to preserve public health, protect life, protect public property, or to provide relief to any stricken community overtaken by such occurrences, or (ii) reaches such a dimension or degree of destructiveness as to warrant the governor declaring a state of emergency pursuant to RCW 43.06.010.

(b) "Emergency" as used in RCW 38.52.430 means an incident that requires a normal police, coroner, fire, rescue, emergency medical services, or utility response as a result of a violation of one of the statutes enumerated in RCW 38.52.430.

~~((7))~~ (8) "Emergency response" as used in RCW 38.52.430 means a public agency's use of emergency services during an emergency or disaster as defined in subsection ~~((6))~~ (7)(b) of this section.

~~((8))~~ (9) "Emergency worker" means any person who is registered with a local emergency management organization or the department and holds an identification card issued by the local emergency management director or the department for the purpose of engaging in authorized emergency management activities or is an employee of the state of Washington or any political subdivision thereof who is called upon to perform emergency management activities.

~~((9))~~ (10) "Executive head" and "executive heads" means the county executive in those charter counties with an elective office of county executive, however designated, and, in the case of other counties, the county legislative authority. In the case of cities and towns, it means the mayor in those cities and towns with mayor-council or commission forms of government, where the mayor is directly elected,

and it means the city manager in those cities and towns with council manager forms of government. Cities and towns may also designate an executive head for the purposes of this chapter by ordinance.

~~((40))~~ (11) "Expense of an emergency response" as used in RCW 38.52.430 means reasonable costs incurred by a public agency in reasonably making an appropriate emergency response to the incident, but shall only include those costs directly arising from the response to the particular incident. Reasonable costs shall include the costs of providing police, coroner, firefighting, rescue, emergency medical services, or utility response at the scene of the incident, as well as the salaries of the personnel responding to the incident.

~~((41))~~ (12) "Incident command system" means: (a) An all-hazards, on-scene functional management system that establishes common standards in organization, terminology, and procedures; provides a means (unified command) for the establishment of a common set of incident objectives and strategies during multiagency/multijurisdiction operations while maintaining individual agency/jurisdiction authority, responsibility, and accountability; and is a component of the national interagency incident management system; or (b) an equivalent and compatible all-hazards, on-scene functional management system.

~~((42))~~ (13) "Injury" as used in this chapter shall mean and include accidental injuries and/or occupational diseases arising out of emergency management activities.

~~((43))~~ (14) "Life safety information" means information provided to people during a response to a life-threatening emergency or disaster informing them of actions they can take to preserve their safety. Such information may include, but is not limited to, information regarding evacuation, sheltering, sheltering-in-place, facility lockdown, and where to obtain food and water.

~~((44))~~ (15) "Local director" means the director of a local organization of emergency management or emergency services.

~~((45))~~ (16) "Local organization for emergency services or management" means an organization created in accordance with the provisions of this chapter by state or local authority to perform local emergency management functions.

~~((46))~~ (17) "Political subdivision" means any county, city or town.

~~((47))~~ (18) "Public agency" means the state, and a city, county, municipal corporation, district, town, or public authority located, in whole or in part, within this state which provides or may provide firefighting, police, ambulance, medical, or other emergency services.

~~((48))~~ (19) "Radio communications service company" has the meaning ascribed to it in RCW 82.14B.020.

~~((49))~~ (20) "Search and rescue" means the acts of searching for, rescuing, or recovering by means of ground, marine, or air activity any person who becomes lost, injured,

or is killed while outdoors or as a result of a natural, technological, or human-caused disaster, including instances involving searches for downed aircraft when ground personnel are used. Nothing in this section shall affect appropriate activity by the department of transportation under chapter 47.68 RCW.

Sec. 3. RCW 38.52.030 and 2018 c 26 s 2 are each amended to read as follows:

(1) The director may employ such personnel and may make such expenditures within the appropriation therefor, or from other funds made available for purposes of emergency management, as may be necessary to carry out the purposes of this chapter.

(2) The director, subject to the direction and control of the governor, shall be responsible to the governor for carrying out the program for emergency management of this state. The director shall coordinate the activities of all organizations for emergency management within the state, and shall maintain liaison with and cooperate with emergency management agencies and organizations of other states and of the federal government, and shall have such additional authority, duties, and responsibilities authorized by this chapter, as may be prescribed by the governor.

(3) The director shall develop and maintain a comprehensive, all-hazard emergency plan and a catastrophic incident emergency response plan for the state which shall include an analysis of the natural, technological, or human-caused hazards which could affect the state of Washington, and shall include the procedures to be used during emergencies for coordinating local resources, as necessary, and the resources of all state agencies, departments, commissions, and boards. The comprehensive emergency management plan shall direct the department in times of state emergency to administer and manage the state's emergency operations center. This will include representation from all appropriate state agencies and be available as a single point of contact for the authorizing of state resources or actions, including emergency permits. The comprehensive emergency management plan must specify the use of the incident command system for multiagency/multijurisdiction operations. The comprehensive, all-hazard emergency plan authorized under this subsection may not include preparation for emergency evacuation or relocation of residents in anticipation of nuclear attack. This plan shall be known as the comprehensive emergency management plan.

(4) Subject to the availability of amounts appropriated for this specific purpose, the director may develop guidance, in consultation with the office of the superintendent of public instruction, that may be used by local school districts in developing, maintaining, training, and exercising catastrophic incident plans.

(5) In accordance with the comprehensive emergency management plans and the programs for the emergency management of this state, the director shall procure supplies and equipment, institute training programs and public information programs, and shall take all other

preparatory steps, including the partial or full mobilization of emergency management organizations in advance of actual disaster, to insure the furnishing of adequately trained and equipped forces of emergency management personnel in time of need.

~~((5))~~ (6) The director shall make such studies and surveys of the industries, resources, and facilities in this state as may be necessary to ascertain the capabilities of the state for emergency management, and shall plan for the most efficient emergency use thereof.

~~((6))~~ (7) The emergency management council shall advise the director on all aspects of the communications and warning systems and facilities operated or controlled under the provisions of this chapter.

~~((8))~~ (9) The director shall appoint a state coordinator of search and rescue operations to coordinate those state resources, services and facilities (other than those for which the state director of aeronautics is directly responsible) requested by political subdivisions in support of search and rescue operations, and on request to maintain liaison with and coordinate the resources, services, and facilities of political subdivisions when more than one political subdivision is engaged in joint search and rescue operations.

~~((9))~~ (10) The director, subject to the direction and control of the governor, shall prepare and administer a state program for emergency assistance to individuals within the state who are victims of a natural, technological, or human-caused disaster, as defined by RCW 38.52.010~~((6))~~ (7). Such program may be integrated into and coordinated with disaster assistance plans and programs of the federal government which provide to the state, or through the state to any political subdivision thereof, services, equipment, supplies, materials, or funds by way of gift, grant, or loan for purposes of assistance to individuals affected by a disaster. Further, such program may include, but shall not be limited to, grants, loans, or gifts of services, equipment, supplies, materials, or funds of the state, or any political subdivision thereof, to individuals who, as a result of a disaster, are in need of assistance and who meet standards of eligibility for disaster assistance established by the department of social and health services: PROVIDED, HOWEVER, That nothing herein shall be construed in any manner inconsistent with the provisions of Article VIII, section 5 or section 7 of the Washington state Constitution.

~~((40))~~ (11) The director shall appoint a state coordinator for radioactive and hazardous waste emergency response programs. The coordinator shall consult with the state radiation control officer in matters relating to radioactive materials. The duties of the state coordinator for radioactive and hazardous waste emergency response programs shall include:

(a) Assessing the current needs and capabilities of state and local radioactive and hazardous waste emergency response teams on an ongoing basis;

(b) Coordinating training programs for state and local officials for the purpose of updating skills relating to emergency mitigation, preparedness, response, and recovery;

(c) Utilizing appropriate training programs such as those offered by the federal emergency management agency, the department of transportation and the environmental protection agency; and

(d) Undertaking other duties in this area that are deemed appropriate by the director.

~~((11))~~ (12) The director is responsible to the governor to lead the development and management of a program for interagency coordination and prioritization of continuity of operations planning by state agencies. Each state agency is responsible for developing an organizational continuity of operations plan that is updated and exercised annually in compliance with the program for interagency coordination of continuity of operations planning.

~~((12))~~ (13) The director shall maintain a copy of the continuity of operations plan for election operations for each county that has a plan available."

(e) A procedure for conducting annual inspections of, at a minimum, a random sample of hemp producers to verify hemp is not produced in violation of this chapter; and

(f) A certification that the state has the resources and personnel to carry out the practices and procedures described in this section.

(3) The proposal for the state's plan may include any other practice or procedure established to the extent the practice or procedure is consistent with the agriculture improvement act of 2018.

(4) Hemp and processed hemp produced in accordance with this chapter or produced lawfully under the laws of another state, tribe, or country may be transferred and sold within this state, outside of this state, and internationally.

(5) The whole hemp plant may be used as food. The department shall regulate the processing of hemp for food products that are allowable under federal law in the same manner as other food processing under chapters 15.130 and 69.07 RCW and may adopt rules as necessary to properly regulate the processing of hemp for food products including, but not limited to, establishing standards for creating hemp extracts used for food. The department shall not consider foods containing hemp to be adulterated when produced in compliance with state law and the rules adopted by the department. Nothing in this chapter authorizes the production of hemp food products that are not allowed under federal law.

NEW SECTION. Sec. 5. The department must develop a postharvest test protocol for testing hemp under this chapter that includes testing of whole plant samples or other testing protocol identified in regulations established by the United States department of agriculture, including the testing procedures for delta-9 tetrahydrocannabinol concentration levels of hemp produced by producers under the state plan.

NEW SECTION. Sec. 6. (1) The department must issue hemp producer licenses to applicants qualified under this chapter and the agriculture improvement act of 2018. The department may adopt rules pursuant to this chapter and chapter 34.05 RCW as necessary to license persons to grow hemp under a commercial hemp program.

(2) The plan must identify qualifications for license applicants, to include adults and corporate persons and to exclude persons with felony convictions as required under the agriculture improvement act of 2018.

(3) The department must establish license fees in an amount that will fund the implementation of this chapter and sustain the hemp program. The department may adopt rules establishing fees for tetrahydrocannabinol testing, inspections, and additional services required by the United States department of agriculture. License fees and any money received by the department under this chapter must be deposited in the hemp regulatory account created in section 8 of this act.

NEW SECTION. Sec. 7. A person producing hemp pursuant to this chapter must notify the department of the source of the hemp seed or clones solely for the purpose of maintaining a record of the sources of seeds and clones being used or having been used for hemp production in this state. Hemp seed is an agricultural seed.

NEW SECTION. Sec. 8. The hemp regulatory account is created in the custody of the state treasurer. All receipts from fees established under this chapter must be deposited into the account. Expenditures from the account may be used only for implementing this chapter. Only the director of the state department of agriculture or the director's designee may authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures.

NEW SECTION. Sec. 9. Washington State University may, within existing resources, develop and make accessible an internet-based application designed to assist hemp producers by providing regional communications concerning recommended planting times for hemp crops in this state.

NEW SECTION. Sec. 10. (1) There is no distance requirement, limitation, or buffer zone between any licensed hemp producer or hemp processing facility licensed or authorized under this chapter and any marijuana producer or marijuana processor licensed under chapter 69.50 RCW. No rule may establish such a distance requirement, limitation, or buffer zone without the evaluation of sufficient data showing impacts to either crop as a result of cross-pollination.

(2) Notwithstanding subsection (1) of this section, in an effort to prevent cross-pollination between hemp plants produced under this chapter and marijuana plants produced under chapter 69.50 RCW, the department, in consultation with the liquor and cannabis board, must review the state's policy regarding cross-pollination and pollen capture to ensure an appropriate policy is in place, and must modify policies or establish new policies as appropriate. Under any such policy, when a documented conflict involving cross-pollination exists between two farms or production facilities growing or producing hemp or marijuana, the farm or production facility operating first in time shall have the right to continue operating and the farm or production facility operating second in time must cease growing or producing hemp or marijuana, as applicable.

NEW SECTION. Sec. 11. (1) The department must use expedited rule making to adopt the state hemp plan submitted to the United States department of agriculture. As allowed under this section, rule making by the department to adopt the approved hemp plan qualifies as expedited rule making under RCW 34.05.353. Upon the submittal of the plan to the United States department of agriculture, the department may conduct initial expedited rule making under

RCW 34.05.353 to establish rules to allow hemp licenses to be issued without delay.

(2) On the effective date of rules adopted by the department regulating hemp production under chapter 15,--- RCW (the new chapter created in section 17 of this act), a licensed hemp producer under this chapter may immediately produce hemp pursuant to chapter 15,--- RCW (the new chapter created in section 17 of this act) with all the privileges of a hemp producer licensed under chapter 15,--- RCW (the new chapter created in section 17 of this act).

At the time of a vacancy, the owner shall insure that the smoke detection device is operational prior to the reoccupancy of the dwelling unit.

(4)(a) For any dwelling unit sold on or after the effective date of this section that does not have at least one smoke detection device, the seller shall provide at least one smoke detection device in the dwelling unit before the buyer or any other person occupies the dwelling unit following such sale. A violation of this subsection does not affect the transfer of the title, ownership, or possession of the dwelling unit.

(b) Real estate brokers licensed under chapter 18.85 RCW are not liable in any civil, administrative, or other proceeding for the failure of any seller or other property owner to comply with the requirements of this section.

~~((5))~~ (b) Any owner failing to comply with this section shall be punished by a fine of five thousand dollars if, after such failure, a fire causes property damage, personal injury, or death to a tenant or a member of a tenant's household. All moneys received pursuant to (a) or (b) of this subsection, except for administrative costs for enforcing the fine, shall be deposited into the smoke detection device awareness account created in section 2 of this act. Enforcement shall occur after a fire occurs and when it is evident that the dwelling unit sold on or after the effective date of this section did not have at least one smoke detection device. The following may enforce this subsection:

(i) The chief of the fire department if the dwelling unit is located within a city or town; or

(ii) The county fire marshal or other fire official so designated by the county legislative authority if the dwelling unit is located within unincorporated areas of a county.

NEW SECTION. Sec. 2. A new section is added to chapter 43.44 RCW to read as follows:

The smoke detection device awareness account is created in the custody of the state treasurer. All receipts from fines imposed pursuant to RCW 43.44.110(5) must be deposited into the account. Expenditures from the account may be used only for the purposes of raising public awareness of owners and tenants' duties pertaining to smoke detection devices under RCW 43.44.110 and of the danger to life and property resulting from a failure to comply with those duties and for administrative costs related to enforcement of the fine created in RCW 43.44.110(5)(b). Only the Washington state patrol, through the director of fire protection or the director of fire protection's authorized deputy, may authorize expenditures from the account. The account is subject to the allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures.

MAJORITY recommendation: Do pass as amended by Committee on Appropriations and without amendment by Committee on Education.

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 28A.300.542 and 2016 c 157 s 2 are each amended to read as follows:

(1) Subject to the availability of amounts appropriated for this specific purpose, the office of the superintendent of public instruction shall create a competitive grant process to evaluate and award state-funded grants to school districts to increase identification of ~~((homeless))~~ students experiencing homelessness and the capacity of the districts to provide support ~~((, which may include education liaisons, for homeless students))~~ for students experiencing homelessness. Funds may be used in a manner that is complementary to federal McKinney-Vento funds and consistent with allowable uses as determined by the office of the superintendent of public instruction. The process must complement any similar federal grant program or programs in order to minimize agency overhead and administrative costs for the superintendent of public instruction and school districts. School districts may access both federal and state funding to identify and support ~~((homeless))~~ students experiencing homelessness.

(2) Award criteria for the state grants must be based on the demonstrated need of the school district and may consider the number or overall percentage, or both, of homeless children and youths enrolled in preschool, elementary, and secondary schools in the school district, and the ability of the local school district to meet these needs. Award criteria for these must also be based on the quality of the applications submitted. ~~((Preference))~~ Selected grantees must reflect geographic diversity across the state. Greater weight must be given to districts that demonstrate a commitment to:

(a) Partnering with local housing and community-based organizations with experience in serving the needs of students experiencing homelessness or students of color;

(b) Serving the needs of unaccompanied youth; and

(c) Implementing evidence-informed strategies to address the opportunity gap and other systemic inequities that negatively impact students experiencing homelessness and students of color. Specific strategies may include, but are not limited to:

(i) Enhancing the cultural responsiveness of current and future staff;

(ii) Ensuring all staff, faculty, and school employees are actively trained in trauma-informed care;

(iii) Providing inclusive programming by intentionally seeking and utilizing input from the population being served;

(iv) Using a multidisciplinary approach when serving students experiencing homelessness and their families;

(v) Intentionally seeking and utilizing input from the families and students experiencing homelessness about how district policies, services, and practices can be improved; and

(vi) Identifying data elements and systems needed to monitor progress in eliminating disparities in academic outcomes for students experiencing homelessness with their housed peers.

(3) At the end of each academic year, districts receiving grants ~~((must measure during the academic year how often each student physically moves, what services families or unaccompanied youth could access, and whether or not a family or unaccompanied youth received stable housing by the end of the school year))~~ shall monitor and report on the academic outcomes for students served by the grants. The academic outcomes are those recommended by the office of the superintendent of public instruction. The office of the superintendent of public instruction shall review the reports submitted by the districts and assist school districts in using these data to identify gaps and needs, and develop sustainable strategies to improve academic outcomes for students experiencing homelessness.

(4) ~~((Homeless))~~ Students experiencing homelessness are defined as students without a fixed, regular, and adequate nighttime residence ~~((as set forth))~~ in accordance with the definition of homeless children and youths in the federal McKinney-Vento homeless ~~((education))~~ assistance act ~~((P.L. 100-77; 101 Stat. 482))~~, 42 U.S.C. (1) \$6,000,000 of the motor vehicle account—state appropriation is provided solely for low-cost enhancements. The department shall give priority to low-cost enhancement projects that improve safety or provide congestion relief. By December 15th of each odd-numbered year, the department shall provide a report to the legislature listing all low-cost enhancement projects completed in the prior fiscal biennium.

(2) When regional transit authority construction activities are visible from a state highway, the department shall allow the regional transit authority to place safe and appropriate signage informing the public of the purpose of the construction activity.

(3) The department must make signage for low-height bridges a high priority.

(4)(a) During the 2019-2021 fiscal biennium, the department shall continue a pilot program that expands private transportation providers' access to high occupancy vehicle lanes. Under the pilot program, when the department reserves a portion of a highway based on the number of passengers in a vehicle, the following vehicles must be authorized to use the reserved portion of the highway if the vehicle has the capacity to carry eight or more passengers, regardless of the number of passengers in the vehicle: (i) Auto transportation company vehicles regulated under chapter 81.68 RCW; (ii) passenger charter carrier vehicles regulated under chapter 81.70 RCW, except marked or unmarked stretch limousines and stretch sport utility vehicles as defined under department of licensing rules; (iii) private nonprofit transportation provider vehicles regulated under chapter 81.66 RCW; and (iv) private employer transportation service vehicles. For purposes of this subsection, "private employer transportation service" means regularly scheduled, fixed-route transportation service that is offered by an employer for the benefit of its employees. Nothing in this subsection is intended to authorize the conversion of public infrastructure to private, for-profit purposes or to otherwise create an entitlement or other claim by private users to public infrastructure.

(b) The department shall expand the high occupancy vehicle lane access pilot program to vehicles that deliver or collect blood, tissue, or blood components for a blood-collecting or distributing establishment regulated under chapter 70.335 RCW. Under the pilot program, when the department reserves a portion of a highway based on the number of passengers in a vehicle, blood-collecting or distributing establishment vehicles that are clearly and identifiably marked as such on all sides of the vehicle are considered emergency vehicles and must be authorized to use the reserved portion of the highway.

(c) The department shall expand the high occupancy vehicle lane access pilot program to private, for hire vehicles regulated under chapter 81.72 RCW that have been specially manufactured, designed, or modified for the transportation of a person who has a mobility disability and uses a wheelchair or other assistive device. Under the pilot program, when the department reserves a portion of a highway based on the number of passengers in a vehicle, wheelchair-accessible taxicabs that are clearly and identifiably marked as such on all sides of the vehicle are considered public transportation vehicles and must be authorized to use the reserved portion of the highway.

(d) Nothing in this subsection (5) is intended to exempt these vehicles from paying tolls when they do not meet the occupancy requirements established by the department for high occupancy toll lanes.

The reason for the geographic selection of Spokane and Whatcom counties is based on the high utilization of studded tires in these jurisdictions. The public information campaigns must primarily focus on making the consumer aware of the safety implications for other drivers, road deterioration, financial impact for taxpayers, and, secondarily, the alternatives to studded tires. The Whatcom county pilot public information campaign must begin by September 1, 2020. (b) The funds provided in this subsection from the Alaskan Way viaduct replacement project account—state appropriation are provided through a transfer from the motor vehicle account—state in section 408(26), chapter 313, Laws of 2017. These funds are a loan to the Alaskan Way viaduct replacement project account—state, and the legislature assumes that these funds will be reimbursed to the motor vehicle account—state at a later date when the portion of state route number 99 that is the deep bore tunnel is operational.

(c) The department must provide a project status report to the office of financial management and the transportation committees of the legislature on at least a calendar quarterly basis. The report must include, but is not limited to:

(i) Detailed information about the planned and actual scope, schedule, and budget;

(ii) Status of key vendor and other project deliverables; and

(iii) A description of significant changes to planned deliverables or system functions over the life of the project.

(d) The department shall continue to work with the office of financial management, office of the chief information officer, and the transportation committees of the legislature on the project management plan that includes a provision for independent verification and validation of contract deliverables from the successful bidder and a provision for quality assurance that includes reporting independently to the office of the chief information officer on an ongoing basis during system implementation.

(7) The department shall make detailed quarterly reports to the governor and the transportation committees of the legislature on the following:

(a) The use of consultants in the tolling program, including the name of the contractor, the scope of work, the

type of contract, timelines, deliverables, any new task orders, and any extensions to existing consultant contracts;

(b) The nonvendor costs of administering toll operations, including the costs of staffing the division, consultants and other personal service contracts required for technical oversight and management assistance, insurance, payments related to credit card processing, transponder purchases and inventory management, facility operations and maintenance, and other miscellaneous nonvendor costs; and

(c) The vendor-related costs of operating tolled facilities, including the costs of the customer service center, cash collections on the Tacoma Narrows bridge, electronic payment processing, and toll collection equipment maintenance, renewal, and replacement.

(d) The toll adjudication process, including a summary table for each toll facility that includes:

(i) The number of notices of civil penalty issued;

(ii) The number of recipients who pay before the notice becomes a penalty;

(iii) The number of recipients who request a hearing and the number who do not respond;

(iv) Workload costs related to hearings;

(v) The cost and effectiveness of debt collection activities; and

(vi) Revenues generated from notices of civil penalty.

(8) ~~(\$13,179,000)~~ \$12,720,000 of the Interstate 405 express toll lanes operations account—state appropriation is provided solely for operational costs related to the express toll lane facility. The office of financial management shall place \$6,808,000 of the amount provided in this subsection in unallotted status. The office of financial management may only release the funds to the department upon the passage of a 2018 supplemental transportation budget.

(9) In 2021, toll equipment on the Tacoma Narrows Bridge will have reached the end of its operational life. During the 2017-2019 fiscal biennium, the department plans to issue a request for proposals as the first stage of a competitive procurement process that will replace the toll equipment and select a new tolling operator for the Tacoma Narrows Bridge. The request for proposals and subsequent competitive procurement must incorporate elements that prioritize the overall goal of lowering costs per transaction for the facility, such as incentives for innovative approaches which result in lower transactional costs, requests for efficiencies on the part of the bidder that lower operational costs, and incorporation of technologies such as self-serve credit card machines or other point-of-payment technologies that lower costs or improve operational efficiencies.

(10) ~~(\$5,583,000 of the Alaskan Way viaduct replacement project account state appropriation is provided solely for the new state route number 99 tunnel toll facility's expected proportional share of collecting toll~~

revenues, operating customer services, and maintaining toll collection systems for the last seven months of the biennium. Due to the uncertainty of the new state route number 99 tunnel toll facility timeline, the legislature is holding the other tolled facilities' administrative cost shares constant for this biennium. The legislature expects to see appropriate reductions to the other toll facility accounts once tolling on the new state route number 99 tunnel toll facility commences and any previously incurred costs for start up of the new facility are charged back to the Alaskan Way viaduct replacement project account. The office of financial management shall closely monitor the application of the cost allocation model and ensure that the new state route number 99 tunnel toll facility is adequately sharing costs and the other toll facility accounts are not being overspent or subsidizing the new state route number 99 tunnel toll facility.

~~((1) \$1,849,000))~~ \$849,000 of the Alaskan Way viaduct replacement project account—state appropriation is provided solely for the costs associated with the sale of transponders for the opening of the new state route number 99 tunnel toll facility in Seattle. ~~((The office of financial management shall place \$510,000 of the amount provided in this subsection in unallotted status. The office of financial management may only release the funds to the department if it determines the transponder inventory will otherwise not be sufficient for facility ramp up.))~~

that if any portion of the labor system replacement project is leveraged in the future for the time, leave, and labor distribution of any other agencies, the motor vehicle account will be reimbursed proportionally for the development of the system since amounts expended from the motor vehicle account must be used exclusively for highway purposes in conformance with Article II, section 40 of the state Constitution. This must be accomplished through a loan arrangement with the current interest rate under the terms set by the office of the state treasurer at the time the system is deployed to additional agencies. If the motor vehicle account is not reimbursed for future use of the system, it is further the intent of the legislature that reductions will be made to central service agency charges accordingly.

(2) \$2,296,000 of the motor vehicle account—state appropriation is provided solely for the development of ferries network systems support.

(3) \$365,000 of the motor vehicle account—state appropriation is provided solely for the department to contract with a consultant to develop a plan, in consultation with the office of financial management, and cost estimate to modernize and migrate the department's business applications from an agency-based data center to the state data center or a cloud-based environment.

(b) The work group must consider, at a minimum, and make recommendations on the feasibility of electric or hybrid-electric flight given: Federal certification requirements; current and anticipated advancements to battery technology; infrastructure requirements and capacity impacts at primary airports; the need for and feasibility of industry incentives; the potential for public-private partnerships; impacts to revenues generated from aviation fuel sales; educational requirements for maintaining electric or hybrid-electric powered aircraft; homeland security checkpoint requirements; public acceptance of the technology; a cost comparison of fossil fuel and electric or hybrid-electric aircraft engines; emission reduction potential; and policy changes needed to facilitate electric or hybrid-electric powered aircraft use for commercial air travel in Washington state.

\$57,163,000

The appropriations in this section are subject to the following conditions and limitations:

(1) \$300,000 of the motor vehicle account—state appropriation is provided solely for the completion of property value determinations for surplus properties to be sold. The value determinations must be completed by agency staff if available; otherwise, the agency may contract out for these services. The real estate services division of the department must recover the cost of its efforts from the sale of surplus property. Proceeds for surplus property sales must fund additional future sales, and the real estate services division shall prioritize staff resources to meet revenue assumptions for surplus property sales.

(2) The legislature recognizes that the trail known as the Rocky Reach Trail, and its extensions, serve to separate motor vehicle traffic from pedestrians and bicyclists, increasing motor vehicle safety on state route number 2 and the coincident section of state route number 97. Consistent with chapter 47.30 RCW and pursuant to RCW 47.12.080, the legislature declares that transferring portions of WSDOT Inventory Control (IC) No. 2-09-04686 containing the trail and associated buffer areas to the Washington state parks and recreation commission is consistent with the public interest. The legislature directs the department to transfer the property to the Washington state parks and recreation commission.

(a) The department must be paid fair market value for any portions of the transferred real property that is later abandoned, vacated, or ceases to be publicly maintained for trail purposes.

(b) Prior to completing the transfer in this subsection (2), the department must ensure that provisions are made to accommodate private and public utilities and any facilities that predate the department's acquisition of the property, at no cost to those entities. Prior to completing the transfer, the department shall also ensure that provisions, by fair market assessment, are made to accommodate other private and public utilities and any facilities that have been legally allowed by permit or other instrument.

(c) The department may sell any adjoining property that is not necessary to support the Rocky Reach Trail and adjacent buffer areas only after the transfer of trail-related property to the Washington state parks and recreation commission is complete. Adjoining property owners must be given the first opportunity to acquire such property that abuts their property, and applicable boundary line or other adjustments must be made to the legal descriptions for recording purposes.

(3) With respect to Parcel 12 of the real property conveyed by the state of Washington to the city of Mercer Island under that certain quitclaim deed, dated April 19, 2000, recorded in King county under recording no. 20000425001234, the requirement in the deed that the property be used for road/street purposes only will be deemed satisfied by the department of transportation so long as commuter parking, as part of the vertical development of the property, is one of the significant uses of the property.

(1) \$35,000 of the multimodal transportation account—state appropriation is provided solely for the public-private partnerships program to conduct an outreach effort to assess interest in a public-private partnership to rebuild the Anacortes ferry terminal. The public-private partnerships program shall issue a request for letters of interest, similar to the request issued in 2009, in a public-private partnership to rebuild the Anacortes ferry terminal by combining the ferry terminal functions and structure with one or more commercial ventures, including, but not limited to, ventures to provide lodging, conference and meeting facilities, food service, shopping, or other retail operations. The public-private partnerships program shall notify the transportation committees of the legislature upon release of the request for letters of interest and shall provide the transportation committees of the legislature with a summary of the information collected once the letters of interest have been received.

(iii) Consider concepts and options found in the design development described in the 2013-2015 capital budget (chapter 19, Laws of 2013 2nd sp. sess.), including connections to Pier 48 as a future public park;

(iv) Consider rooftop public access for panoramic views of the Puget Sound and Olympic mountains; and

(v) Consider exhibits of the history and heritage of the vicinity.

(b) By November 15, 2017, the public-private partnerships program must provide a report to the governor and the transportation committees of the legislature on the program's findings and recommendations.

(5) \$75,000 of the multimodal transportation account—state appropriation is provided solely for the department to contract with the Puget Sound Clean Air Agency to conduct a study that identifies and evaluates opportunities to facilitate low-income utilization of electric vehicles. The study must include, but is not limited to, development and evaluation of an electric vehicle car-sharing program for low-income housing sites that is designed to maximize the use of electric vehicles by residents of these sites, and that must consider any infrastructure needs that will need to be met to support the use of electric vehicles at these sites. The department must provide a report detailing the findings of this study to the transportation committees of the legislature by December 1, 2018.

The appropriations in this section are subject to the following conditions and limitations:

(1) \$6,000,000 of the motor vehicle account—state appropriation is provided solely for low-cost enhancements. The department shall give priority to low-cost enhancement projects that improve safety or provide congestion relief. By December 15th of each odd-numbered year, the department shall provide a report to the legislature listing all low-cost enhancement projects completed in the prior fiscal biennium.

(2) When regional transit authority construction activities are visible from a state highway, the department shall allow the regional transit authority to place safe and appropriate signage informing the public of the purpose of the construction activity.

(3) The department must make signage for low-height bridges a high priority.

(4) \$50,000 of the motor vehicle account—state appropriation is provided solely for the department to coordinate with the appropriate local jurisdictions for development and implementation of a historic route 10 signage program on Interstate 90 from the Columbia River to the Idaho state border.

(5)(a) During the 2017-2019 fiscal biennium, the department shall continue a pilot program that expands private transportation providers' access to high occupancy vehicle lanes. Under the pilot program, when the department reserves a portion of a highway based on the number of passengers in a vehicle, the following vehicles must be authorized to use the reserved portion of the highway if the vehicle has the capacity to carry eight or more passengers, regardless of the number of passengers in the vehicle: (i) Auto transportation company vehicles regulated under chapter 81.68 RCW; (ii) passenger charter carrier vehicles regulated under chapter 81.70 RCW, except marked or unmarked stretch limousines and stretch sport utility vehicles as defined under department of licensing rules; (iii) private nonprofit transportation provider vehicles regulated under chapter 81.66 RCW; and (iv) private employer transportation service vehicles. For purposes of this subsection, "private employer transportation service" means regularly scheduled, fixed-route transportation service that is offered by an employer for the benefit of its employees. Nothing in this subsection is intended to authorize the conversion of public infrastructure to private, for-profit purposes or to otherwise create an entitlement or other claim by private users to public infrastructure.

(b) The department shall expand the high occupancy vehicle lane access pilot program to vehicles that deliver or collect blood, tissue, or blood components for a blood-collecting or distributing establishment regulated under chapter 70.335 RCW. Under the pilot program, when the department reserves a portion of a highway based on the number of passengers in a vehicle, blood-collecting or distributing establishment vehicles that are clearly and identifiably marked as such on all sides of the vehicle are considered emergency vehicles and must be authorized to use the reserved portion of the highway.

(c) The department shall expand the high occupancy vehicle lane access pilot program to private, for hire vehicles regulated under chapter 81.72 RCW that have been specially manufactured, designed, or modified for the transportation of a person who has a mobility disability and uses a wheelchair or other assistive device. Under the pilot program, when the department reserves a portion of a highway based on the number of passengers in a vehicle, wheelchair-accessible taxicabs that are clearly and identifiably marked as such on all sides of the vehicle are considered public transportation vehicles and must be authorized to use the reserved portion of the highway.

(d) Nothing in this subsection (5) is intended to exempt these vehicles from paying tolls when they do not meet the occupancy requirements established by the department for high occupancy toll lanes.

The reason for the geographic selection of Spokane county for the pilot is based on the high utilization of studded tires in this jurisdiction. The public information campaign must primarily focus on making the consumer aware of the road deterioration, financial impact for taxpayers, the safety implications for other drivers, and, secondarily, the alternatives to studded tires. The pilot must begin by September 1, 2018. By January 14, 2019, the department shall provide the transportation committees of the legislature an update on the pilot public information program. (1) The department shall investigate opportunities for a transit-oriented development pilot project at the existing Kingsgate park and ride at Interstate 405 and 132nd. The department must coordinate with the city of Kirkland and other key stakeholders to determine the feasibility and cost of transit-oriented development at Kingsgate. A report on the process and outcomes is due to the transportation committees of the legislature no later than December 1, 2017.

(2) \$100,000 of the motor vehicle account—state appropriation and \$250,000 of the motor vehicle account—federal appropriation are provided solely for a study that details a cost estimate for replacing the westbound U.S. 2 trestle and recommends a series of financing options to address that cost and to satisfy debt service requirements.

In conducting the study, the department shall work in close collaboration with a stakeholder group that includes, but is not limited to, Snohomish county, the port of Everett, economic alliance Snohomish county, the cities of Everett, Lake Stevens, Marysville, Snohomish, and Monroe, and affected transit agencies.

The department shall quantify both the cost of replacing the westbound trestle structure and making mobility and capacity improvements to maximize the use of the structure in the years leading up to full replacement. Financing options that should be examined and quantified include public-private partnerships, public-public partnerships, a transportation benefit district tailored to the specific incorporated and unincorporated area, loans and grants, and other alternative financing measures available at the state or federal level.

The department shall also evaluate ways in which the costs of alternative financing can be debt financed.

The department shall complete the study and submit a final report and recommendations to the transportation committees of the legislature, including recommendations on statutory changes needed to implement available financing options, by January 8, 2018.

(3) \$181,000 of the motor vehicle account—state appropriation is provided solely for the department, in coordination with the University of Washington department of mechanical engineering, to study measures to reduce noise impacts from bridge expansion joints. The study must examine testing methodologies and project timelines and costs. A final report must be submitted to the transportation committees of the legislature by October 15, 2018.

(4) \$200,000 of the motor vehicle account—state appropriation is provided solely for implementation of a practical solutions study for the state route number 162 and state route number 410 interchange, based on the recommendations of the SR-162 Study/Design project (L2000107). The study must include short, medium, and long-term phase recommendations and must be submitted to the transportation committees of the legislature by January 1, 2019.

(5) \$500,000 of the motor vehicle account—state appropriation is provided solely for implementation of a

state route number 518 corridor study to be conducted in partnership with the Port of Seattle, Sound Transit and other regional entities. The department must study practical solutions to address high vehicle volumes and delays in the corridor including evaluation of solutions to the rapid growth of traffic in the corridor and how that growth impacts access to the Seattle-Tacoma international airport and the surrounding communities. The study must be submitted to the transportation committees of the legislature by ~~(June)~~ November 30, 2019.

(6) \$500,000 of the motor vehicle account—state appropriation and \$50,000 of the motor vehicle account—local appropriation are provided solely for implementation of a corridor study to identify potential improvements between exit 116 and exit 99 of Interstate 5. The study should further develop mid- and long-term strategies from the corridor sketch, and identify potential US 101/I-5 interchange improvements, a strategic plan for the Nisqually River bridges, regional congestion relief options, and ecosystem benefits to the Nisqually River estuary for salmon productivity and flood control.

(7) Among the options studied as part of the SR 410 Corridor Study, the department shall examine the mobility and safety benefits of replacing or expanding the White River bridge between Enumclaw and Buckley to four lanes and removing the trestle.

(8) Within existing resources, the department shall meet with local stakeholders in south Pierce county and North Thurston county to discuss potential solutions to traffic congestion; emergency management concerns regarding routes away from natural disasters and around incidents similar to the train derailment that occurred on December 18, 2017; and what state transportation investments would benefit the economic development of the area. The department shall provide regular updates on its progress to the joint transportation committee.

The appropriations in this section are subject to the following conditions and limitations:

(1) \$52,679,000 of the multimodal transportation account—state appropriation is provided solely for a grant program for special needs transportation provided by transit agencies and nonprofit providers of transportation. Of this amount:

(a) \$12,000,000 of the multimodal transportation account—state appropriation is provided solely for grants to nonprofit providers of special needs transportation. Grants for nonprofit providers must be based on need, including the availability of other providers of service in the area, efforts to coordinate trips among providers and riders, and the cost effectiveness of trips provided. Of the amount provided in this subsection (1)(a), \$25,000 of the multimodal transportation account—state appropriation is provided solely for the ecumenical christian helping hands organization for special needs transportation services.

(b) \$40,679,000 of the multimodal transportation account—state appropriation is provided solely for grants to transit agencies to transport persons with special transportation needs. To receive a grant, the transit agency must, to the greatest extent practicable, have a maintenance of effort for special needs transportation that is no less than the previous year's maintenance of effort for special needs transportation. Grants for transit agencies must be prorated based on the amount expended for demand response service and route deviated service in calendar year 2015 as reported in the "Summary of Public Transportation - 2015" published by the department of transportation. No transit agency may receive more than thirty percent of these distributions.

(2) \$32,223,000 of the rural mobility grant program account—state appropriation is provided solely for grants to aid small cities in rural areas as prescribed in RCW 47.66.100.

(3)(a) \$10,702,000 of the multimodal transportation account—state appropriation is provided solely for a vanpool grant program for: (i) Public transit agencies to add vanpools or replace vans; and (ii) incentives for employers to increase employee vanpool use. The grant program for public transit agencies will cover capital costs only; operating costs for public transit agencies are not eligible for funding under this grant program. Additional employees may not be hired from the funds provided in this section for the vanpool grant program, and supplanting of transit funds currently funding vanpools is not allowed. The department shall encourage grant applicants and recipients to leverage funds other than state funds.

(b) At least \$1,600,000 of the amount provided in this subsection must be used for vanpool grants in congested corridors.

(4) \$24,107,000 of the regional mobility grant program account—state appropriation is reappropriated and provided solely for the regional mobility grant projects identified in LEAP Transportation Document ((2018)) 2019-2 ALL PROJECTS as developed March ((§)) 25, ((2018)) 2019, Program - Public Transportation Program (V). Of the amounts provided in this subsection, \$757,000 of the regional mobility grant program account—state appropriation is reappropriated for the Kitsap Transit, SR 305 Interchange Improvements at Suquamish Way Park and Ride (Project 20130101).

(5)(a) ((~~\$77,679,000~~)) \$56,333,000 of the regional mobility grant program account—state appropriation is provided solely for the regional mobility grant projects identified in LEAP Transportation Document ((2018)) 2019-2 ALL PROJECTS as developed March ((§)) 25, ((2018)) 2019, Program - Public Transportation Program (V). The department shall review all projects receiving grant awards under this program at least semiannually to determine whether the projects are making satisfactory progress. Any project that has been awarded funds, but does not report activity on the project within one year of the grant award, must be reviewed by the department to determine whether the grant should be terminated. The department shall promptly close out grants when projects have been completed, and any remaining funds must be used only to fund projects identified in the LEAP transportation document referenced in this subsection. The department shall provide annual status reports on December 15, 2017, and December 15, 2018, to the office of financial management and the transportation committees of the legislature regarding the projects receiving the grants. It is the intent of the legislature to appropriate funds through the regional mobility grant program only for projects that will be completed on schedule. A grantee may not receive more than twenty-five percent of the amount appropriated in this subsection. The department shall not approve any increases or changes to the scope of a project for the purpose of a grantee expending remaining funds on an awarded grant.

(b) In order to be eligible to receive a grant under (a) of this subsection during the 2017-2019 fiscal biennium, a transit agency must establish a process for private transportation providers to apply for the use of park and ride facilities. For purposes of this subsection, (i) "private

transportation provider" means: An auto transportation company regulated under chapter 81.68 RCW; a passenger charter carrier regulated under chapter 81.70 RCW, except marked or unmarked stretch limousines and stretch sport utility vehicles as defined under department of licensing rules; a private nonprofit transportation provider regulated under chapter 81.66 RCW; or a private employer transportation service provider; and (ii) "private employer transportation service" means regularly scheduled, fixed-route transportation service that is offered by an employer for the benefit of its employees.

(6) Funds provided for the commute trip reduction (CTR) program may also be used for the growth and transportation efficiency center program.

(a) \$500,000 of the multimodal transportation account—state appropriation is provided solely for a voluntary pilot program to expand public-private partnership CTR incentives to make measurable reductions in off-peak, weekend, and nonwork trips. Ridesharing may be integrated into grant proposals. The department shall prioritize grant proposals that focus on the Interstate 90, Interstate 5, state route number 167, or Interstate 405 corridor. The department shall offer competitive trip-reduction grants. The department shall report to the transportation committees of the legislature by December 1, 2018, on the pilot program's impacts to the transportation system and potential improvements to the CTR grant program.

(b) \$1,000,000 of the multimodal transportation account—state appropriation is provided solely for the department to direct a pilot transit pass incentive program. Businesses and nonprofit organizations located in a county adjacent to Puget Sound with a population of more than seven hundred thousand that have never offered transit subsidies to employees are eligible to apply to the program for a fifty percent rebate on the cost of employee transit subsidies provided through the regional ORCA fare collection system. No single business or nonprofit organization may receive more than ten thousand dollars from the program.

(i) Businesses and nonprofit organizations may apply and be awarded funds prior to purchasing a transit subsidy, but the department may not provide reimbursement until proof of purchase or a contract has been provided to the department.

(ii) The department shall report to the transportation committees of the legislature on the impact of the program by June 30, 2019, and may adopt rules to administer the program; and

(c) \$30,000 of the state vehicle parking account—state appropriation is provided solely for the STAR pass program for state employees residing in Mason and Grays Harbor Counties. Use of the pass is for public transportation between Mason County and Thurston County,

and Grays Harbor and Thurston County. The pass may also be used within Grays Harbor County.

(8) \$20,891,000 of the multimodal transportation account—state appropriation is provided solely for connecting Washington transit projects identified in LEAP Transportation Document ((2018)) 2019-2 ALL PROJECTS as developed March ((5)) 25, ((2018)) 2019. It is the intent of the legislature that entities identified to receive funding in the LEAP document referenced in this subsection receive the amounts specified in the time frame specified in that LEAP document. If an entity has already completed a project in the LEAP document referenced in this subsection before the time frame identified, the entity may substitute another transit project or projects that cost a similar or lesser amount.

(9) \$2,000,000 of the multimodal transportation account—state appropriation is provided solely for transit coordination grants.

(10) \$250,000 of the multimodal transportation account—state appropriation is provided solely for King county for a pilot program to provide certain students in the Highline and Lake Washington school districts with an ORCA card during the summer. To be eligible for an ORCA card under this program, a student must also be in high school, be eligible for free and reduced-price lunches, and have a job or other responsibility during the summer. King county must provide a report to the department and the transportation committees of legislature by December 15, 2018, regarding: The annual student usage of the pilot program, available ridership data, the cost to expand the program to other King county school districts, the cost to expand the program to student populations other than high school or eligible for free and reduced-price lunches, opportunities for subsidized ORCA cards or local grant or matching funds, and any additional information that would help determine if the pilot program should be extended or expanded.

(11) The department shall not require more than a ten percent match from nonprofit transportation providers for state grants.

(12)(a) For projects funded as part of the 2015 connecting Washington transportation package listed on the LEAP transportation document identified in subsection (4) of this section, if the department expects to have substantial reappropriations for the 2019-2021 fiscal biennium, the department may, on a pilot basis, apply funding from a project with an appropriation that cannot be used for the current fiscal biennium to advance one or more of the following projects:

(i) King County Metro - RapidRide Expansion, Burien-Delridge (G2000031);

(v) City of Seattle - Northgate Transit Center Pedestrian Bridge (G2000041).

(b) At least ten business days before advancing a project pursuant to this subsection, the department must notify the office of financial management and the transportation committees of the legislature. The advancement of a project may not hinder the delivery of the projects for which the reappropriations are necessary for the 2019-2021 fiscal biennium.

(13) \$300,000 of the multimodal transportation account—state appropriation is provided solely for Pierce Transit to procure and install digital transit information technology at various transit centers, in order to provide transit riders with real-time arrival and departure information.

(13) \$7,769,000 of the transportation partnership account—state appropriation, \$6,744,000 of the transportation 2003 account (nickel account)—state appropriation, \$215,000 of the motor vehicle account—federal appropriation, and \$5,000,000 of the special category C account—state appropriation are provided solely for the US 395/North Spokane Corridor project (600010A). Any future savings on the project must stay on the US 395/Interstate 90 corridor and be made available to the current phase of the North Spokane corridor project or any future phase of the project in 2017-2019.

(14) (~~(\$27,415,000)~~) \$4,220,000 of the transportation partnership account—state appropriation (~~and \$13,158,000~~), \$353,000 of the transportation 2003 account (nickel account)—state appropriation, and \$16,000 of the motor vehicle account—local appropriation are provided solely for the I-405/Kirkland Vicinity Stage 2 - Widening project (8BI1002). This project must be completed as soon as practicable as a design-build project. Any future savings on this project or other Interstate 405 corridor projects must stay on the Interstate 405 corridor and be made available to either the I-405/SR 167 Interchange - Direct Connector project (140504C), the I-405 Renton to Bellevue project (M00900R), or the I-405/SR 522 to I-5 Capacity Improvements project (L2000234) in the 2017-2019 fiscal biennium.

(15) \$4,960,000 of the transportation partnership account—state appropriation and \$3,000,000 of the

Interstate 405 express toll lanes operations account—state appropriation are provided solely for the I-405/SR 522 to I-5 Capacity Improvements project (L2000234) for activities related to adding capacity on Interstate 405 between state route number 522 and Interstate 5, with the goals of increasing vehicle throughput and aligning project completion with the implementation of bus rapid transit in the vicinity of the project. The transportation partnership account—state appropriation funding is a transfer or a reappropriation of a transfer from the I-405/Kirkland Vicinity Stage 2 - Widening project due to savings, and will start an additional phase of this I-405 project.

(16)(a) The SR 520 Bridge Replacement and HOV project (8BI1003) is supported over time from multiple sources, including a \$300,000,000 TIFIA loan, \$924,615,000 in Garvee bonds, toll revenues, state bonds, interest earnings, and other miscellaneous sources.

(b) (~~(\$78,958,000)~~) \$49,353,000 of the transportation partnership account—state appropriation, \$12,296,000 of the motor vehicle account—federal appropriation, and (~~(\$232,000)~~) \$50,000 of the motor vehicle account—local appropriation are provided solely for the SR 520 Bridge Replacement and HOV project (8BI1003).

(c) When developing the financial plan for the project, the department shall assume that all maintenance and operation costs for the new facility are to be covered by tolls collected on the toll facility and not by the motor vehicle account.

(17) The department shall itemize all future requests for the construction of buildings on a project list and submit them through the transportation executive information system as part of the department's annual budget submittal. It is the intent of the legislature that new facility construction must be transparent and not appropriated within larger highway construction projects.

(18) Any advisory group that the department convenes during the 2017-2019 fiscal biennium must consider the interests of the entire state of Washington.

(19) It is the intent of the legislature that for the I-5 JBLM Corridor Improvements project (M00100R), the department shall actively pursue \$50,000,000 in federal funds to pay for this project to supplant state funds in the future. \$50,000,000 in connecting Washington account funding must be held in unallotted status during the 2021-2023 fiscal biennium. These funds may only be used after the department has provided notice to the office of financial management that it has exhausted all efforts to secure federal funds from the federal highway administration and the department of defense.

(20) (~~(\$93,651,000)~~) \$133,651,000 of the connecting Washington account—state appropriation is provided solely for the SR 167/SR 509 Puget Sound Gateway project (M00600R).

(a) Any savings on the project must stay on the Puget Sound Gateway corridor until the project is complete.

(b) Proceeds from the sale of any surplus real property acquired for the purpose of building the SR 167/SR 509 Puget Sound Gateway (M00600R) project must be deposited into the motor vehicle account for the purpose of constructing the project.

(21)(a) In making budget allocations to the Puget Sound Gateway project, the department shall implement the project's construction as a single corridor investment. The department shall develop a coordinated corridor construction and implementation plan for state route number 167 and state route number 509 in collaboration with affected stakeholders. Specific funding allocations must be based on where and when specific project segments are ready for construction to move forward and investments can be best optimized for timely project completion. Emphasis must be placed on avoiding gaps in fund expenditures for either project.

(b) The secretary of transportation must develop a memorandum of understanding with local project stakeholders that identifies a schedule for stakeholders to provide local matching funds for the Puget Sound Gateway project. Criteria for eligibility of local match includes matching funds and equivalent in-kind contributions including, but not limited to, land donations. The memorandum of understanding must be finalized by July 1, 2018. The department must submit a copy of the memorandum of understanding to the transportation committees of the legislature and report regularly on the status of the requirements outlined in this subsection (21)(b) and (c) of this subsection.

(c) During the course of developing the memorandum of understanding, the department must evaluate the project schedules to determine if there are any benefits to be gained by moving the project schedule forward. It is the legislature's intent that if the department identifies any savings after the funding gap on the base project is closed as part of the proposal to expedite the project, that these cost savings shall go toward construction of a full single-point urban interchange at the junction of state route number 161 (Meridian avenue) and state route number 167 and a full single-point urban interchange at the junction of state route number 509 and 188th Street. If the department receives additional funds from an outside source for this project after the funding gap on the base project is closed, the funds must be applied toward the completion of these two full single-point urban interchanges.

(d) For the SR 167/SR 509 Puget Sound Gateway project (M00600R) the department is strongly encouraged to work to relocate any significant businesses currently located within the planned path of the state route number 509/Interstate 5 under-crossing to a location within the Kent city limits. The department shall provide regular updates on its progress to the joint transportation committee and affected stakeholders.

(e) In designing the state route number 509/state route number 516 interchange component of the SR 167/SR 509 Puget Sound Gateway project (M00600R), the department shall make every effort to utilize the preferred "4B" design.

(22) It is the intent of the legislature that, for the I-5/North Lewis County Interchange project (L2000204), the department develop and design the project with the objective of significantly improving access to the industrially zoned properties in north Lewis county. The design must consider the county's process of investigating alternatives to improve such access from Interstate 5 that began in March 2015.

(23)(a) (~~(\$2,000,000)~~) \$1,992,000 of the transportation partnership account—state appropriation and \$942,000 of the motor vehicle account—state appropriation are provided solely for the U.S. 2 Trestle IJR project (L1000158).

(b) Of the amounts provided in this subsection, \$942,000 of the motor vehicle account—state appropriation is provided solely for the department to complete an interchange justification report (IJR) for the U.S. 2 trestle, covering the state route number 204 and 20th Street interchanges at the end of the westbound structure.

(a) The department shall develop the IJR in close collaboration with affected local jurisdictions, including Snohomish county and the cities of Everett, Lake Stevens, Marysville, Snohomish, and Monroe.

(b) Within the amount provided for the IJR, the department must address public outreach and the overall operational approval of the IJR.

(c) The department shall complete the IJR and submit the final report to the governor and the transportation committees of the legislature by July 1, 2018.

(24)(a) The legislature recognizes that the city of Mercer Island has unique access issues that require the use of Interstate 90 to leave the island and that this access may be affected by the I-90/Two-Way Transit and HOV Improvements project. One of the most heavily traveled on-ramps from Mercer Island to the westbound Interstate 90 general purpose lanes is from Island Crest Way. The department must continue to consult with the city of Mercer Island and the other signatories to the 1976 memorandum of agreement to preserve access provided to Mercer Island by the Island Crest Way on-ramp, and thus grandfather in the current use of the on-ramp for both high occupancy vehicles as well as vehicles seeking to access the general purpose lanes of Interstate 90. The department must consider all reasonable access solutions, including allowing all vehicles to use the Island Crest Way on-ramp to access the new high occupancy vehicle lane with a reasonable and safe distance provided for single-occupancy vehicles to merge into the general purpose lanes.

(b) A final access solution for Mercer Island must consider the following criteria: Safety; operational effects on all users, including maintaining historic access to Interstate 90 provided from Mercer Island by Island Crest Way; enforcement requirements; and compliance with state and federal law.

(c) The department may not restrict by occupancy the westbound on-ramp from Island Crest Way until a final access solution that meets the criteria in (b) of this subsection has been reached.

(25) (~~(\$3,258,000)~~ \$3,222,000) of the Interstate 405 express toll lanes operations account—state appropriation is provided solely for the I-405 NB Hard Shoulder Running – SR 527 to I-5 project (L1000163).

(26) The legislature finds that there are sixteen companies involved in wood preserving in the state that employ four hundred workers and have an annual payroll of fifteen million dollars. Before the department's switch to steel guardrails, ninety percent of the twenty-five hundred mile guardrail system was constructed of preserved wood and one hundred ten thousand wood guardrail posts were produced annually for state use. Moreover, the policy of using steel posts requires the state to use imported steel. Given these findings, where practicable, and until June 30, 2019, the department shall include the design option to use wood guardrail posts, in addition to steel posts, in new guardrail installations. The selection of posts must be consistent with the agency design manual policy that existed before December 2009.

(27) For the SR 526 Corridor Improvements project (N52600R), the department shall look holistically at the state route number 526 corridor from the state route number 526/Interstate 5 interchange at the east end to the southwest Everett industrial area and Boeing's west access road on the west end. The department, working with affected jurisdictions and stakeholders, shall select project elements that best maximize mobility and congestion relief in the corridor and draw from project elements identified in a practical solutions process.

(28)(a) For projects funded as part of the 2015 connecting Washington transportation package listed on the LEAP transportation document identified in subsection (1) of this section, if the department expects to have substantial reappropriations for the 2019-2021 fiscal biennium, the department may, on a pilot basis, apply funding from a project with an appropriation that cannot be used for the current fiscal biennium to advance one or more of the following projects:

(i) SR 20/Sharpes Corner Vicinity Intersection (L1000112);

(ii) I-5/Marvin Road/SR 510 Interchange (L1100110);

(iii) I-5/Northbound On-ramp at Bakerview (L2000119);

(iv) US 395/Ridgeline Intersection (L2000127);

(v) I-90/Eastside Restripe Shoulders (L2000201);

(vi) SR 240/Richland Corridor Improvements (L2000202);

(vii) SR 14/Bingen Overpass (L2220062);

(viii) US Hwy 2 Safety (N00200R);

(ix) SR 520/148th Ave NE Overlake Access Ramp (L1100101);

(x) SR 28/SR 285 North Wenatchee Area Improvements (L2000061);

(xi) I-5/Rebuild ChamberWay Interchange Improvements (L2000223);

(xii) SR 28 East Wenatchee Corridor Improvements (T10300R);

(xiii) SR 3 Freight Corridor (T30400R); or

(xiv) SR 510/Yelm Loop Phase 2 (T32700R).

(b) At least ten business days before advancing a project pursuant to this subsection, the department must notify the office of financial management and the transportation committees of the legislature. The advancement of a project may not hinder the delivery of the projects for which the reappropriations are necessary for the 2019-2021 fiscal biennium.

(29) Within existing resources and in consultation with local communities, the department shall begin planning efforts, including traffic data collection, analysis and evaluation, scoping, and environmental review, for roundabouts at the intersection of state route number 900 and SE May Valley Road and at the intersection of state route number 169 and Cedar Grove Road SE.

(30) The legislature continues to prioritize the replacement of the state's aging infrastructure and recognizes the importance of reusing and recycling construction aggregate and recycled concrete materials in our transportation system.

To accomplish Washington state's sustainability goals in transportation and in accordance with RCW 70.95.805, the legislature reaffirms its direction to the department to lead the way in advancing the reuse and recycling of construction aggregate and recycled concrete materials whenever readily available, to use these recycled products when cost competitive, and to work with industry implementation partners to remove obstacles that unnecessarily preclude or inhibit their use and implement strategies for the reuse and recycling of construction aggregate and recycled concrete materials.

Specific steps and efforts made to achieve these objectives and accomplishments shall be included in the annual report to the legislature as required by RCW 70.95.807.

(31) Within existing resources, the department shall implement a safety solution after evaluating barrier and mitigation options on state route number 167 between the intersections with 50th Ave E and E 40th Street in Pierce county to prevent vehicles from leaving the roadway and entering private property below the grade of the highway.

(32) \$350,000 of the motor vehicle account—state appropriation is provided solely for implementation of chapter 288 (Substitute Senate Bill No. 5806), Laws of 2017 (I-5 Columbia river bridge), listed as Replacement Bridge on Interstate 5 across the Columbia River project number (L2000259).

(33) For the SR 520 Seattle Corridor Improvements – West End project (M00400R), the legislature recognizes the department must acquire the entirety of parcel number 1-23190 for construction of the project. The department shall

work with its design-build contractor to ensure to the maximum extent practicable that the building housing any grocery store or market currently located on parcel number 1-23190 will be preserved. The legislature recognizes the city of Seattle has requirements in the project area that the department must address and that those requirements may affect the use of parcel number 1-23190 and may affect the ability of the department to preserve any grocery store or market currently located on the property. The department shall meet and confer regularly with residents in the vicinity of the parcel regarding the status of the project and its effects on any grocery store or market currently located on the property. The legislature strongly encourages the city to utilize maximum flexibility in how the department meets the city's requirements and to be an equal partner in efforts to preserve any grocery store or market on parcel number 1-23190.

\$931,055,000

Any federal funds gained through efficiencies, adjustments to the federal funds forecast, additional congressional action not related to a specific project or purpose, or the federal funds redistribution process must then be applied to highway and bridge preservation activities.

(4) Within the motor vehicle account—state appropriation and motor vehicle account—federal appropriation, the department may transfer funds between programs I and P, except for funds that are otherwise restricted in this act. The department shall submit a report on fiscal year funds transferred in the prior fiscal year using this subsection as part of the department's annual budget submittal.

(8) \$3,000,000 of the motor vehicle account—state appropriation is provided solely for extraordinary costs incurred from litigation awards, settlements, or dispute mitigation activities not eligible for funding from the self-insurance fund. The amount provided in this subsection must be held in unallotted status until the department submits a request to the office of financial management that includes documentation detailing litigation-related expenses. The office of financial management may release the funds only when it determines that all other funds designated for litigation awards, settlements, and dispute mitigation activities have been exhausted. No funds provided in this subsection may be expended on any legal fees related to the SR 99/Alaskan Way viaduct replacement project.

(9) \$20,755,000 of the motor vehicle account—federal appropriation and \$844,000 of the motor vehicle account—state appropriation are provided solely for the preservation of structurally deficient bridges or bridges that are at risk of becoming structurally deficient. (i) Identify changes in the demographics of users of the system;

(ii) Review route timetables and propose adjustments that take into consideration ridership volume, vessel load times, proposed and current passenger-only ferry system ridership, and other operational needs;

(iii) Review vessel needs by route and propose a vessel replacement schedule, vessel retirement schedule, and

estimated number of vessels needed. This analysis should also articulate a reserve vessel strategy;

\$5,388,000

(iv) Identify the characteristics most appropriate for replacement vessels, such as passenger and car-carrying capacity, while taking into consideration other cost-driving factors. These factors should include:

FOR THE DEPARTMENT OF TRANSPORTATION—RAIL—PROGRAM Y—CAPITAL

\$710,000

Transportation Infrastructure Account—State
Appropriation(~~(\$7,575,000)~~)

Multimodal Transportation Account—State

	<u>\$43,175,000</u>
TOTAL	APPROPRIATION
.....	<u>\$147,591,000</u>
	<u>\$124,238,000</u>

The appropriations in this section are subject to the following conditions and limitations:

(1) Except as provided otherwise in this section, the entire appropriations in this section are provided solely for the projects and activities as listed by project and amount in LEAP Transportation Document (~~(2018)~~) 2019-2 ALL PROJECTS as developed March (~~(5, 2018)~~) 25, 2019, Program - Rail Program (Y).

(2) (~~(\$7,009,000)~~) \$5,000,000 of the transportation infrastructure account—state appropriation is provided solely for new low-interest loans approved by the department through the freight rail investment bank (FRIB) program. The department shall issue FRIB program loans with a repayment period of no more than ten years, and charge only so much interest as is necessary to recoup the department's costs to administer the loans. The department shall report annually to the transportation committees of the legislature and the office of financial management on all FRIB loans issued.

(3) \$7,017,000 of the multimodal transportation account—state appropriation and \$24,000 of the essential rail assistance account—state appropriation are provided solely for new statewide emergent freight rail assistance projects identified in the LEAP transportation document referenced in subsection (1) of this section.

(4) \$367,000 of the transportation infrastructure account—state appropriation and \$1,100,000 of the multimodal transportation account—state appropriation are provided solely to reimburse Highline Grain, LLC for approved work completed on Palouse River and Coulee City (PCC) railroad track in Spokane county between the BNSF Railway Interchange at Cheney and Geiger Junction and must be administered in a manner consistent with freight rail assistance program projects. The value of the public benefit of this project is expected to meet or exceed the cost of this project in: Shipper savings on transportation costs; jobs saved in rail-dependent industries; and/or reduced future costs to repair wear and tear on state and local highways due to fewer annual truck trips (reduced vehicle miles traveled). The amounts provided in this subsection are not a commitment for future legislatures, but it is the legislature's intent that future legislatures will work to approve biennial appropriations until the full \$7,337,000 cost of this project is reimbursed.

(5)(a) \$686,000 of the essential rail assistance account—state appropriation, \$422,000 of the multimodal transportation account—state appropriation, and \$21,000 of the transportation infrastructure account—state appropriation are provided solely for the purpose of the rehabilitation and maintenance of the Palouse river and Coulee City railroad line (F01111B).

(b) Expenditures from the essential rail assistance account—state in this subsection may not exceed the combined total of:

(i) Revenues and transfers deposited into the essential rail assistance account from leases and sale of property relating to the Palouse river and Coulee City railroad; and

(ii) Revenues transferred from the miscellaneous program account to the essential rail assistance account, pursuant to RCW 47.76.360, for the purpose of sustaining the grain train program by maintaining the Palouse river and Coulee City railroad.

(6) The department shall issue a call for projects for the freight rail assistance program, and shall evaluate the applications in a manner consistent with past practices as specified in section 309, chapter 367, Laws of 2011. By November 15, 2018, the department shall submit a prioritized list of recommended projects to the office of financial management and the transportation committees of the legislature.

(7) For projects funded as part of the 2015 connecting Washington transportation package identified on the LEAP transportation document identified in subsection (1) of this section, if the department expects to have substantial reappropriations for the 2019-2021 fiscal biennium, the department may, on a pilot basis, apply funding from a project with an appropriation that cannot be used for the current fiscal biennium to advance the South Kelso Railroad Crossing project (L1000147). At least ten business days before advancing a project pursuant to this subsection, the department must notify the office of financial management and the transportation committees of the legislature. The advancement of a project may not hinder the delivery of the projects for which the reappropriations are necessary for the 2019-2021 fiscal biennium.

(8) It is the intent of the legislature to encourage the department to pursue federal grant opportunities leveraging up to \$6,696,000 in connecting Washington programmed funds to be used as a state match to improve the state-owned Palouse river and Coulee City system. The amount listed in this subsection is not a commitment for future legislatures, but is the legislature's intent that future legislatures will work to approve biennial appropriations up to a state match share not to exceed \$6,696,000 of a grant award.

The department shall continue to work with the Washington state freight advisory committee to improve project screening and validation to support project prioritization and selection, including during the freight mobility plan update in 2017. The department may compete for funding under this program and shall provide an updated prioritized freight project list when submitting its 2019-2021 budget request. To the greatest extent practicable, the department shall follow the Washington state freight advisory committee recommendation to allocate ten percent of the funds in this subsection to multimodal projects as permitted under the fixing America's surface transportation (FAST) act.

(6) It is the expectation of the legislature that the department will be administering a local railroad crossing safety grant program for \$7,400,000 in federal funds during the 2017-2019 fiscal biennium. Of the amounts identified in this subsection, a minimum of \$500,000 must be for railroad grade-crossing safety grants at locations where multiple

Correct the title.

On page 362, after line 35, insert the following:

"Sec. 972. RCW 74.46.561 and 2017 c 286 s 2 are each amended to read as follows:

(1) The legislature adopts a new system for establishing nursing home payment rates beginning July 1, 2016. Any payments to nursing homes for services provided after June 30, 2016, must be based on the new system. The new system must be designed in such a manner as to decrease administrative complexity associated with the payment methodology, reward nursing homes providing care for high acuity residents, incentivize quality care for residents of nursing homes, and establish minimum staffing standards for direct care.

(2) The new system must be based primarily on industry-wide costs, and have three main components: Direct care, indirect care, and capital.

(3) The direct care component must include the direct care and therapy care components of the previous system, along with food, laundry, and dietary services. Direct care must be paid at a fixed rate, based on one hundred percent or greater of statewide case mix neutral median costs, but shall be set so that a nursing home provider's direct care rate does not exceed one hundred eighteen percent of its base year's direct care allowable costs except if the provider is below the minimum staffing standard established in RCW 74.42.360(2). Direct care must be performance-adjusted for acuity every six months, using case mix principles. Direct care must be regionally adjusted using county wide wage index information available through the United States department of labor's bureau of labor statistics. There is no minimum occupancy for direct care. The direct care component rate allocations calculated in accordance with this section must be adjusted to the extent necessary to comply with RCW 74.46.421.

(4) The indirect care component must include the elements of administrative expenses, maintenance costs, and housekeeping services from the previous system. A minimum occupancy assumption of ninety percent must be applied to indirect care. Indirect care must be paid at a fixed rate, based on ninety percent or greater of statewide median costs. The indirect care component rate allocations calculated in accordance with this section must be adjusted to the extent necessary to comply with RCW 74.46.421.

(5) The capital component must use a fair market rental system to set a price per bed. The capital component must be adjusted for the age of the facility, and must use a minimum occupancy assumption of ninety percent.

(a) Beginning July 1, 2016, the fair rental rate allocation for each facility must be determined by multiplying the allowable nursing home square footage in (c) of this subsection by the RS means rental rate in (d) of this subsection and by the number of licensed beds yielding the gross unadjusted building value. An equipment allowance of ten percent must be added to the unadjusted building value. The sum of the unadjusted building value and equipment allowance must then be reduced by the average age of the facility as determined by (e) of this subsection using a depreciation rate of one and one-half percent. The depreciated building and equipment plus land valued at ten percent of the gross unadjusted building value before depreciation must then be multiplied by the rental rate at seven and one-half percent to yield an allowable fair rental value for the land, building, and equipment.

(b) The fair rental value determined in (a) of this subsection must be divided by the greater of the actual total facility census from the prior full calendar year or imputed census based on the number of licensed beds at ninety percent occupancy.

(c) For the rate year beginning July 1, 2016, all facilities must be reimbursed using four hundred square feet. For the rate year beginning July 1, 2017, allowable nursing facility square footage must be determined using the total nursing facility square footage as reported on the medicaid cost reports submitted to the department in compliance with this chapter. The maximum allowable square feet per bed may not exceed four hundred fifty.

(d) Each facility must be paid at eighty-three percent or greater of the median nursing facility RS means construction index value per square foot for Washington state. The department may use updated RS means construction index information when more recent square footage data becomes available. The statewide value per square foot must be indexed based on facility zip code by multiplying the statewide value per square foot times the appropriate zip code based index. For the purpose of implementing this section, the value per square foot effective July 1, 2016, must be set so that the weighted average FRV [fair rental value] rate is not less than ten dollars and eighty cents ppd [per patient day]. The capital component rate allocations calculated in accordance with this section must be adjusted to the extent necessary to comply with RCW 74.46.421.

(e) The average age is the actual facility age reduced for significant renovations. Significant renovations are defined

as those renovations that exceed two thousand dollars per bed in a calendar year as reported on the annual cost report submitted in accordance with this chapter. For the rate beginning July 1, 2016, the department shall use renovation data back to 1994 as submitted on facility cost reports. Beginning July 1, 2016, facility ages must be reduced in future years if the value of the renovation completed in any year exceeds two thousand dollars times the number of licensed beds. The cost of the renovation must be divided by the accumulated depreciation per bed in the year of the renovation to determine the equivalent number of new replacement beds. The new age for the facility is a weighted average with the replacement bed equivalents reflecting an age of zero and the existing licensed beds, minus the new bed equivalents, reflecting their age in the year of the renovation. At no time may the depreciated age be less than zero or greater than forty-four years.

(f) A nursing facility's capital component rate allocation must be rebased annually, effective July 1, 2016, in accordance with this section and this chapter.

(g) A quality incentive must be offered as a rate enhancement beginning July 1, 2016.

(a) An enhancement no larger than five percent and no less than one percent of the statewide average daily rate must be paid to facilities that meet or exceed the standard established for the quality incentive. All providers must have the opportunity to earn the full quality incentive payment.

(b) The quality incentive component must be determined by calculating an overall facility quality score composed of four to six quality measures. For fiscal year 2017 there shall be four quality measures, and for fiscal year 2018 there shall be six quality measures. Initially, the quality incentive component must be based on minimum data set quality measures for the percentage of long-stay residents who self-report moderate to severe pain, the percentage of high-risk long-stay residents with pressure ulcers, the percentage of long-stay residents experiencing one or more falls with major injury, and the percentage of long-stay residents with a urinary tract infection. Quality measures must be reviewed on an annual basis by a stakeholder work group established by the department. Upon review, quality measures may be added or changed. The department may risk adjust individual quality measures as it deems appropriate.

(c) The facility quality score must be point based, using at a minimum the facility's most recent available three-quarter average CMS [centers for medicare and medicaid services] quality data. Point thresholds for each quality measure must be established using the corresponding statistical values for the quality measure (QM) point determinants of eighty QM points, sixty QM points, forty QM points, and twenty QM points, identified in the most recent available five-star quality rating system technical user's guide published by the center for medicare and medicaid services.

(d) Facilities meeting or exceeding the highest performance threshold (top level) for a quality measure receive twenty-five points. Facilities meeting the second highest performance threshold receive twenty points. Facilities meeting the third level of performance threshold

receive fifteen points. Facilities in the bottom performance threshold level receive no points. Points from all quality measures must then be summed into a single aggregate quality score for each facility.

(e) Facilities receiving an aggregate quality score of eighty percent of the overall available total score or higher must be placed in the highest tier (tier V), facilities receiving an aggregate score of between seventy and seventy-nine percent of the overall available total score must be placed in the second highest tier (tier IV), facilities receiving an aggregate score of between sixty and sixty-nine percent of the overall available total score must be placed in the third highest tier (tier III), facilities receiving an aggregate score of between fifty and fifty-nine percent of the overall available total score must be placed in the fourth highest tier (tier II), and facilities receiving less than fifty percent of the overall available total score must be placed in the lowest tier (tier I).

(f) The tier system must be used to determine the amount of each facility's per patient day quality incentive component. The per patient day quality incentive component for tier IV is seventy-five percent of the per patient day quality incentive component for tier V, the per patient day quality incentive component for tier III is fifty percent of the per patient day quality incentive component for tier V, and the per patient day quality incentive component for tier II is twenty-five percent of the per patient day quality incentive component for tier V. Facilities in tier I receive no quality incentive component.

(g) Tier system payments must be set in a manner that ensures that the entire biennial appropriation for the quality incentive program is allocated.

(h) Facilities with insufficient three-quarter average CMS [centers for medicare and medicaid services] quality data must be assigned to the tier corresponding to their five-star quality rating. Facilities with a five-star quality rating must be assigned to the highest tier (tier V) and facilities with a one-star quality rating must be assigned to the lowest tier (tier I). The use of a facility's five-star quality rating shall only occur in the case of insufficient CMS [centers for medicare and medicaid services] minimum data set information.

(i) The quality incentive rates must be adjusted semiannually on July 1 and January 1 of each year using, at a minimum, the most recent available three-quarter average CMS [centers for medicare and medicaid services] quality data.

(j) Beginning July 1, 2017, the percentage of short-stay residents who newly received an antipsychotic medication must be added as a quality measure. The department must determine the quality incentive thresholds for this quality measure in a manner consistent with those outlined in (b) through (h) of this subsection using the centers for medicare and medicaid services quality data.

(k) Beginning July 1, 2017, the percentage of direct care staff turnover must be added as a quality measure using the centers for medicare and medicaid services' payroll-based journal and nursing home facility payroll data. Turnover is

defined as an employee departure. The department must determine the quality incentive thresholds for this quality measure using data from the centers for medicare and medicaid services' payroll-based journal, unless such data is not available, in which case the department shall use direct care staffing turnover data from the most recent medicaid cost report.

(7) Reimbursement of the safety net assessment imposed by chapter 74.48 RCW and paid in relation to medicaid residents must be continued.

(8) The direct care and indirect care components must be rebased in even-numbered years, beginning with rates paid on July 1, 2016. In addition, rates paid beginning on July 1, 2019, must be rebased on the 2017 calendar year cost report. Rates paid on July 1, 2016, must be based on the 2014 calendar year cost report. On a percentage basis, after rebasing, the department must confirm that the statewide average daily rate has increased at least as much as the average rate of inflation, as determined by the skilled nursing facility market basket index published by the centers for medicare and medicaid services, or a comparable index. If after rebasing, the percentage increase to the statewide average daily rate is less than the average rate of inflation for the same time period, the department is authorized to increase rates by the difference between the percentage increase after rebasing and the average rate of inflation.

(9) The direct care component provided in subsection (3) of this section is subject to the reconciliation and settlement process provided in RCW 74.46.022(6). Beginning July 1, 2016, pursuant to rules established by the department, funds that are received through the reconciliation and settlement process provided in RCW 74.46.022(6) must be used for technical assistance, specialized training, or an increase to the quality enhancement established in subsection (6) of this section. The legislature intends to review the utility of maintaining the reconciliation and settlement process under a price-based payment methodology, and may discontinue the reconciliation and settlement process after the 2017-2019 fiscal biennium.

(10) Compared to the rate in effect June 30, 2016, including all cost components and rate add-ons, no facility may receive a rate reduction of more than one percent on July 1, 2016, more than two percent on July 1, 2017, or more than five percent on July 1, 2018. To ensure that the appropriation for nursing homes remains cost neutral, the department is authorized to cap the rate increase for facilities in fiscal years 2017, 2018, and 2019."

POINT OF ORDER

Representative Stonier requested a scope and object ruling on amendment (457) to SHB 1109.

SPEAKER'S RULING

Mr. Speaker (Representative Lovick presiding): Amendment 457 includes an appropriation for rulemaking.

It also prescribes in detail the substantive regulatory law that must be included in the rules adopted. The scope and object of a budget bill does not extend to substantive law.

The Speaker therefore finds and rules that the amendment is beyond the scope and object of the bill. The point of order is well taken.

Representative Shea moved the adoption of amendment (490):
