NEW SECTION. Sec. 6. Federal and state law require the balancing of the privacy interests of individuals with the government's interest in the protection of children and vulnerable adults. The legislature finds that a comprehensive background check which includes both civil and criminal information is a valuable tool in safeguarding vulnerable adults and children from preventable risk.

(2)(a) The work group shall include but not be limited to the following members, chosen by the chief executive officer of each entity:

"NEW SECTION. Sec. 1. The legislature finds that current law does not explicitly provide for reunification of a child with

2007 REGULAR SESSION

his or her parent or parents after termination of parental rights even in cases where a child is not expected to get the benefits of being adopted into a new family or of having a permanent adult guardian. A child can remain in this status even if there has been a significant change of circumstances in a parent's situation and the minor child's preference is to reunite with his or her parent. There may be cases in which a child will no longer be at risk of abuse or neglect by a former parent and it is in the best interests of a child who is legally free to be reunited with his or her parent.

NEW SECTION. Sec. 2. A new section is added to chapter 13.34 RCW to read as follows:

(1) A child may petition the juvenile court to reinstate the previously terminated parental rights of his or her parent under the following circumstances:

(a) The child was previously found to be a dependent child under this chapter;

(b) The child's parent's rights were terminated in a proceeding under this chapter; and

(c) The child has not achieved his or her permanency plan within three years of a final order of termination, or if the final order was appealed, within three years of exhaustion of any right to appeal the order terminating parental rights.

(2) The child may file the petition prior to the expiration of this three-year period if the department or the supervising or custodial agency that is responsible for the custody or supervision of the child and the child stipulate that the child is not likely to achieve his or her permanency plan.

(3) A child seeking to petition under this section shall be provided counsel at no cost to the child.

(4) The petition must be signed by the child in the absence of a showing of good cause as to why the child could not do so.

(5) If, after a threshold hearing to consider the parent's apparent fitness and interest in reinstatement of parental rights, it appears that the best interests of the child may be served by reinstatement of parental rights, the juvenile court shall order that a hearing be held.

(6) The court shall give prior notice for any proceeding under this section, or cause prior notice to be given, to the department, the child's attorney, and the child. The court shall also order the department to give prior notice of any hearing to the child's former parent whose parental rights are the subject of the petition, any parent whose rights have not been terminated, the child's current foster parent, relative caregiver, guardian or custodian, and the child's tribe, if applicable.

(7) The juvenile court shall grant the petition if it finds by clear and convincing evidence that the child has not achieved his or her permanency plan and is not likely to imminently achieve his or her permanency plan and that reinstatement of parental rights is in the child's best interest. In determining whether reinstatement is in the child's best interest the court shall consider, but is not limited to, the following:

(a) Whether the parent whose rights are to be reinstated is a fit parent and has remedied his or her deficits as provided in the record of the prior termination proceedings and prior termination order;

(b) The age and maturity of the child, and the ability of the child to express his or her preference;

(c) Whether the reinstatement of parental rights will present a risk to the child's health, welfare, or safety; and

(d) Other material changes in circumstances, if any, that may have occurred which warrant the granting of the petition.

(8) In determining whether the child has or has not achieved his or her permanency plan or whether the child is likely to achieve his or her permanency plan, the department shall provide the court, and the court shall review, information related to any efforts to achieve the permanency plan including efforts to achieve adoption or a permanent guardianship.

(9) The court shall grant the petition and dismiss the dependency only if the child and the parent or parents who were the subject of a petition under this section and whose parental rights were reinstated agree that the child will return to the legal custody of the parent or parents and the court finds that returning to the legal custody of the parent or parents is in the best interests of the child and will not present a risk to the

child's health, welfare, or safety. The court shall order the department to provide services necessary to ensure the child's health, welfare, and safety, including a home study, as the child transitions back into the parent's legal custody.

(10) The granting of the petition under this section does not vacate or otherwise affect the validity of the original termination order.

(11) Any parent whose rights are reinstated under this section shall not be liable for any child support owed to the department pursuant to RCW 13.34.160 for the time period from the date of termination of parental rights to the date parental rights are reinstated.

(12) The state, the department, and its employees are not liable for civil damages resulting from any act or omission in the provision of services under this section, unless the act or omission constitutes gross negligence. This section does not create any duty and shall not be construed to create a duty where none exists. This section does not create a cause of action against the state, the department, or its employees concerning the original termination.

NEW SECTION. Sec. 3. This act is retroactive and applies to any child who is under the jurisdiction of the juvenile court at the time of the hearing regardless of the date parental rights were terminated.

Sec. 4. RCW 13.34.200 and 2003 c 227 s 7 are each amended to read as follows:

(1) Upon the termination of parental rights pursuant to RCW 13.34.180, all rights, powers, privileges, immunities, duties, and obligations, including any rights to custody, control, visitation, or support existing between the child and parent shall be severed and terminated and the parent shall have no standing to appear at any further legal proceedings concerning the child, except as provided in section 2 of this act: PROVIDED, That any support obligation existing prior to the effective date of the order terminating parental rights shall not be severed or terminated. The rights of one parent may be terminated without affecting the rights of the other parent and the order shall so state.

(2) An order terminating the parent and child relationship shall not disentitle a child to any benefit due the child from any third person, agency, state, or the United States, nor shall any action under this chapter be deemed to affect any rights and benefits that an Indian child derives from the child's descent from a member of a federally recognized Indian tribe.

(3) An order terminating the parent-child relationship shall include a statement addressing the status of the child's sibling relationships and the nature and extent of sibling placement, contact, or visits."

MOTION

SIXTY-SIXTH DAY, MARCH 14, 2007

2007 REGULAR SESSION

Senator Keiser moved that the following striking amendment by Senators Keiser, Brown and Kohl-Welles be adopted:

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 1. FINDINGS AND DECLARATIONS. The legislature finds that, although family and medical leave laws have assisted individuals to balance the demands of the workplace with their family responsibilities, more needs to be done to achieve the goals of family care, children and family health, workforce stability, and economic security. In particular, the legislature finds that many individuals employed by employers with less than fifty employees do not have access to family and medical leave laws, and those who do may not be in a financial position to take family and medical leave that is unpaid, and that employer-paid benefits, including family and medical leave and disability benefits, meet only a relatively small part of this need. The legislature declares it to be in the public interest to establish a program that: (1) Allows parents to bond with a newborn or newly placed child, and workers to care for seriously ill family members, regardless of the size of their employer; (2) provides limited and additional income support for a reasonable period while an individual is away from work on family and medical leave; (3) reduces the impact on state income support programs by increasing an individual's ability to provide caregiving services for family members while maintaining an employment relationship; and (4) establishes a wage replacement benefit to be coordinated with current existing state and federal family and medical leave laws.

NEW SECTION. Sec. 2. DEFINITIONS. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Application year" means the twelve-month period beginning on the first day of the calendar week in which an individual files an application for family and medical leave insurance benefits and, thereafter, the twelve-month period beginning with the first day of the calendar week in which the individual next files an application for family and medical leave insurance benefits after the expiration of the individual's last preceding application year.

(2) "Average weekly wage" means the same as in RCW 50.04.355.

(3) "Calendar quarter" means the same as in RCW 50.04.050.

(4) "Child," "department," "director," "health care provider," "parent," "serious health condition," and "spouse" mean the same as in RCW 49.78.020.

(5) "Employer" means: (a) The same as in RCW 50.04.080; and (b) the state and its political subdivisions.

(6) "Employment" has the meaning provided in RCW 50.04.100.

(7) "Family and medical leave" means leave for a family member's serious health condition and leave for the birth or placement of a child.

(8) "Family and medical leave insurance benefits" means the benefits payable under sections 6 and 7 of this act.

(9) "Family member" means a child, spouse or domestic partner, or the parent of the individual, or a person involved in a legal relationship governed by Title 26 RCW.

(10) "Federal family and medical leave act" means the federal family and medical leave act of 1993 (Act Feb. 5, 1993, P.L. 103-3, 107 Stat. 6).

(11) "Premium" or "premiums" means payments required by this chapter to be made to the department for the family and medical leave insurance account under section 20 of this act.

(12) "Qualifying year" means the first four of the last five completed calendar quarters or the last four completed calendar quarters immediately preceding the first day of the individual's application year.

(13) "Regularly working" means the average number of hours per workweek that an individual worked in the two quarters of the individual's qualifying year in which total wages were highest.

NEW SECTION. Sec. 3. FAMILY AND MEDICAL LEAVE INSURANCE PROGRAM. (1) The department shall establish and administer a family and medical leave insurance program and pay family and medical leave insurance benefits as specified in this chapter.

(2) The department shall establish procedures and forms for filing claims for benefits under this chapter. The department shall notify the employer within five business days of a claim being filed under section 4 of this act.

(3) The department may require that a claim for benefits under this chapter be supported by a certification issued by the health care provider providing health care to the individual or individual's family member, as applicable.

(4) The department shall use information sharing and integration technology to facilitate the disclosure of relevant information or records by the employment security department, so long as an individual consents to the disclosure as required under section 4(4) of this act.

(5) Information contained in the files and records pertaining to an individual under this chapter are confidential and not open to public inspection, other than to public employees in the performance of their official duties. However, the individual or an authorized representative of an individual may review the records or receive specific information from the records on the presentation of the signed authorization of the individual. An employer or the employer's duly authorized representative may review the records of an individual employed by the employer in connection with a pending claim. At the department's discretion, other persons may review records when such persons are rendering assistance to the department at any stage of the proceedings on any matter pertaining to the administration of this chapter.

(6) The department shall develop and implement an outreach program to ensure that individuals who may be eligible to receive family and medical leave insurance benefits under this chapter are made aware of these benefits. Outreach information shall explain, in an easy to understand format, eligibility requirements, the claims process, weekly benefit amounts, maximum benefits payable, notice and medical certification requirements, reinstatement and nondiscrimination rights, confidentiality, and the relationship between employment protection, leave from employment, and wage replacement benefits under this chapter and other laws, collective bargaining agreements, and employer policies. Outreach information shall be available in English and other primary languages as defined in RCW 74.04.025.

NEW SECTION. Sec. 4. ELIGIBILITY FOR BENEFITS. Beginning October 1, 2009, family and medical leave insurance benefits are payable to an individual during a period in which the individual is unable to perform his or her regular or customary work because he or she is on family and medical leave if the individual:

(2) Has been employed for at least six hundred eighty hours in employment during the individual's qualifying year;

(3) Establishes an application year. An application year may not be established if the qualifying year includes hours worked before establishment of a previous application year;

(4) Consents to the disclosure of information or records deemed private and confidential under chapter 50.13 RCW. Initial disclosure of this information and these records by the employment security department to the department is solely for purposes related to the administration of this chapter. Further disclosure of this information or these records is subject to sections 3(4) and 14(2)(b) of this act;

(5) Discloses whether or not he or she owes child support obligations as defined in RCW 50.40.050;

(6) Documents that he or she has provided the employer from whom family and medical leave is to be taken with written notice of the individual's intention to take family and medical leave in the same manner as an employee is required to provide notice in RCW 49.78.250; and

SIXTY-SIXTH DAY, MARCH 14, 2007

2007 REGULAR SESSION

To be valid, the disclosure authorization must satisfy the requirements set forth in RCW 70.02.030.

NEW SECTION. Sec. 5. DISQUALIFICATION FROM BENEFITS. An individual is disqualified from family and medical leave insurance benefits beginning with the first day of the calendar week, and continuing for the next fifty-two consecutive weeks, in which the individual:

(1) Willfully made a false statement or misrepresentation regarding a material fact, or willfully failed to report a material fact, to obtain benefits under this chapter; or

(2) With respect to family and medical leave, is suffering from a serious health condition resulting from the individual's perpetration of a gross misdemeanor or felony.

NEW SECTION. Sec. 6. DURATION OF BENEFITS. (1) The maximum number of weeks during which family and medical leave insurance benefits are payable in an application year is five weeks. However, benefits are not payable during a waiting period consisting of the first seven calendar days of family and medical leave taken in an application year with respect to a particular type of family and medical leave, whether the first seven calendar days of family and medical leave are employer paid or unpaid.

(2)(a) The first payment of benefits must be made to an individual within two weeks after the claim is filed or the family and medical leave began, whichever is later, and subsequent payments must be made semimonthly thereafter.

(b) The payment of benefits under this chapter shall not be considered a binding determination of the obligations of the department under this chapter. The acceptance of compensation by the individual shall likewise not be considered a binding determination of his or her rights under this chapter. Whenever any payment of benefits under this chapter has been made and timely appeal therefrom has been made where the final decision is that the payment was improper, the individual shall repay it and recoupment may be made from any future payment due to the individual on any claim under this chapter. The director may exercise his or her discretion to waive, in whole or in part, the amount of any such payments where the recovery would be against equity and good conscience.

(c) If an individual dies before he or she receives a payment of benefits, the payment shall be made to the surviving spouse, the child or children if there is no surviving spouse, or a person with whom the individual is involved in a relationship governed by Title 26 RCW. If there is no surviving spouse, child or children, or a person with whom the individual is involved in a relationship governed by Title 26 RCW, the payment shall be made by the department and distributed consistent with the terms of the decedent's will or, if the decedent dies intestate, consistent with the terms of RCW 11.04.015.

NEW SECTION. Sec. 7. AMOUNT OF BENEFITS. The amount of family and medical leave insurance benefits shall be determined as follows:

(1) For weeks of family and medical leave beginning before July 1, 2010, the weekly benefit shall be two hundred fifty dollars per week for an individual who at the time of beginning family and medical leave was regularly working thirty-five hours or more per week. By June 30, 2010, and by each subsequent June 30th, the department shall calculate to the nearest dollar an adjusted maximum weekly benefit to account for inflation using the consumer price index for urban wage earners and clerical workers, CPI-W, or a successor index, for the twelve completed calendar months before each June 30th as calculated by the United States department of labor. The adjusted maximum weekly benefit takes effect for weeks of family and medical leave beginning after the relevant June 30th.

(2) If an individual who at the time of beginning family and medical leave was regularly working thirty-five hours or more per week is on family and medical leave for less than thirty-five hours but at least eight hours in a week, the individual's weekly benefit shall be .025 times the maximum weekly benefit times

the number of hours of family and medical leave taken in the week. Benefits are not payable for less than eight hours of family and medical leave taken in a week.

(3) For an individual who at the time of beginning family and medical leave was regularly working less than thirty-five hours per week, the department shall calculate a prorated schedule for a weekly benefit amount and a minimum number of hours of family and medical leave that must be taken in a week for benefits to be payable, with the prorated schedule based on the amounts and the calculations specified under subsections (1) and (2) of this section.

(4) If an individual discloses that he or she owes child support obligations under section 4 of this act and the department determines that the individual is eligible for benefits, the department shall notify the applicable state or local child support enforcement agency and deduct and withhold an amount from benefits in a manner consistent with RCW 50.40.050.

(5) If the internal revenue service determines that family and medical leave insurance benefits under this chapter are subject to federal income tax and an individual elects to have federal income tax deducted and withheld from benefits, the department shall deduct and withhold the amount specified in the federal internal revenue code in a manner consistent with section 8 of this act.

NEW SECTION. Sec. 8. FEDERAL INCOME TAX. (1) If the internal revenue service determines that family and medical leave insurance benefits under this chapter are subject to federal income tax, the department must advise an individual filing a new claim for family and medical leave insurance benefits, at the time of filing such claim, that:

(a) The internal revenue service has determined that benefits are subject to federal income tax;

(b) Requirements exist pertaining to estimated tax payments;

(c) The individual may elect to have federal income tax deducted and withheld from the individual's payment of benefits at the amount specified in the federal internal revenue code; and

(d) The individual is permitted to change a previously elected withholding status.

(2) Amounts deducted and withheld from benefits must remain in the family and medical leave insurance account until transferred to the federal taxing authority as a payment of income tax.

(3) The director shall follow all procedures specified by the federal internal revenue service pertaining to the deducting and withholding of income tax.

NEW SECTION. Sec. 9. ADJUSTMENT TO BENEFITS. If family and medical leave insurance benefits are paid erroneously or as a result of willful misrepresentation, or if a claim for family and medical leave benefits is rejected after benefits are paid, RCW 51.32.240 shall apply, except that appeals are governed by section 15 of this act, penalties are paid into the family and medical leave insurance account, and the department shall seek repayment of benefits from the recipient.

NEW SECTION. Sec. 10. LEAVE AND EMPLOYMENT PROTECTION. (1) During a period in which an individual receives family and medical leave insurance benefits or earns waiting period credits under this chapter, the individual is entitled to family and medical leave and, at the established ending date of leave, to be restored to a position of employment with the employer from whom leave was taken.

(2) Regardless of the number of employees employed by the employer, the individual entitled to leave under this section shall be restored to a position of employment in the same manner as an employee entitled to leave under chapter 49.78 RCW is restored to a position of employment, as specified in RCW 49.78.280.

(3) This section applies only to an individual who has been employed for at least twelve months by the employer from whom family and medical leave is taken, and for at least one thousand two hundred fifty hours of service with the employer during the previous twelve-month period.

(4) This section shall be enforced as provided in chapter 49.78 RCW.

NEW SECTION. Sec. 11. EMPLOYMENT BY SAME EMPLOYER. If spouses or people involved in a legal

2007 REGULAR SESSION

relationship governed by Title 26 RCW entitled to leave under this chapter are employed by the same employer, the employer may require that spouses or people involved in a legal relationship governed by Title 26 RCW not take such leave concurrently, if such leave is taken: (1) For the birth or placement of a child; or (2) for a parent's serious health condition.

NEW SECTION. Sec. 12. ELECTIVE COVERAGE. (1) An employer of individuals not covered by this chapter or a self-employed person, including a sole proprietor, partner, or joint venturer, may elect coverage under this chapter for all individuals in its employ for an initial period of not less than three years or a subsequent period of not less than one year immediately following another period of coverage. The employer or self-employed person must file a notice of election in writing with the director, as required by the department. The election becomes effective on the date of filing the notice.

(2) An employer or self-employed person who has elected coverage may withdraw from coverage within thirty days after the end of the three-year period of coverage, or at such other times as the director may prescribe by rule, by filing written notice with the director, such withdrawal to take effect not sooner than thirty days after filing the notice. Within five days of filing written notice of the withdrawal with the director, an employer must provide written notice of the withdrawal to all individuals in the employer's employ.

(3) The department may cancel elective coverage if the employer or self-employed person fails to make required payments or reports. The department may collect due and unpaid premiums and may levy an additional premium for the remainder of the period of coverage. The cancellation shall be effective no later than thirty days from the date of the notice in writing advising the employer or self-employed person of the cancellation. Within five days of receiving written notice of the cancellation from the director, an employer must provide written notice of the cancellation to all individuals in the employer's employ.

NEW SECTION. Sec. 13. AMOUNT OF PREMIUMS. (1) Beginning January 1, 2009, for each individual, each employer shall pay a premium of two cents per hour worked, up to a maximum of forty hours per week, to the department. Each employer shall deduct from the pay of each individual the full amount that the employer is required to pay for the individual.

(2) Payments shall be made in the manner and at such intervals as the department directs for deposit in the family and medical leave insurance account. In the payment of premiums, a fractional part of a cent shall be disregarded unless it amounts to one-half cent or more, in which case it shall be increased to one cent.

(3) The director shall adjust the amount of the premium from time to time to ensure that the amount is the lowest rate necessary to pay family and medical leave insurance benefits and administrative costs, and maintain actuarial solvency in accordance with recognized insurance principles, of the family and medical leave insurance program on a current basis, and to repay loaned funds from the supplemental pension fund, if any, as required in section 23 of this act.

NEW SECTION. Sec. 14. REPORTING AND RECORDKEEPING. (1) In the form and at the times specified by the director, an employer shall make reports, furnish information, and remit premiums as required by section 13 of this act to the department. If the employer is a temporary help company that provides employees on a temporary basis to its customers, the temporary help company is considered the employer for purposes of this section. However, if the temporary help company fails to remit the required premiums, the customer to whom the employees were provided is liable for paying the premiums.

(2)(a) An employer must keep at his or her place of business a record of employment from which the information needed by the department for purposes of this chapter may be obtained. This record shall at all times be open to the inspection of the director or department employees designated by the director.

(b) Information obtained from employer records under this chapter is confidential and not open to public inspection, other

than to public employees in the performance of their official duties. However, an interested party shall be supplied with information from employer records to the extent necessary for the proper presentation of the case in question. An employer may authorize inspection of its records by written consent.

(3) The requirements relating to the assessment and collection of family and medical leave insurance premiums are the same as the requirements relating to the assessment and collection of industrial insurance premiums under Title 51 RCW, including but not limited to penalties, interest, and department lien rights and collection remedies. These requirements apply to:

(a) An employer that fails under this chapter to make the required reports, or fails to remit the full amount of the premiums when due;

(b) An employer that willfully makes a false statement or misrepresentation regarding a material fact, or willfully fails to report a material fact, to avoid making the required reports or remitting the full amount of the premiums when due under this chapter;

(c) A public entity that engages in work or lets a contract for work, in the manner specified in RCW 51.12.050;

(d) A person, firm, or corporation who lets a contract for work, in the manner specified in RCW 51.12.070;

(e) A successor, as defined in RCW 51.08.177, in the manner specified in RCW 51.16.200; and

(f) An officer, member, manager, or other person having control or supervision of payment and/or reporting of family and medical leave insurance, or who is charged with the responsibility for the filing of returns, in the manner specified in RCW 51.48.055.

(4) Notwithstanding subsection (3) of this section, appeals are governed by section 15 of this act.

NEW SECTION. Sec. 15. APPEALS. (1) A person aggrieved by a decision of the department under this chapter must file a notice of appeal with the director, by mail or personally, within thirty days after the date on which a copy of the department's decision was communicated to the person. Upon receipt of the notice of appeal, the director shall request the assignment of an administrative law judge in accordance with chapter 34.05 RCW to conduct a hearing and issue a proposed decision and order. The hearing shall be conducted in accordance with chapter 34.05 RCW.

(2) The administrative law judge's proposed decision and order shall be final and not subject to further appeal unless, within thirty days after the decision is communicated to the interested parties, a party petitions for review by the director. If the director's review is timely requested, the director may order additional evidence by the administrative law judge. On the basis of the evidence before the administrative law judge and such additional evidence as the director may order to be taken, the director shall render a decision affirming, modifying, or setting aside the administrative law judge's decision. The director's decision becomes final and not subject to further appeal unless, within thirty days after the decision is communicated to the interested parties, a party files a petition for judicial review as provided in chapter 34.05 RCW. The director is a party to any judicial action involving the director's decision and shall be represented in the action by the attorney general.

(3) If, upon administrative or judicial review, the final decision of the department is reversed or modified, the administrative law judge or the court in its discretion may award reasonable attorneys' fees and costs to the prevailing party. Attorneys' fees and costs owed by the department, if any, are payable from the family and medical leave insurance account.

NEW SECTION. Sec. 16. PROHIBITED ACTS. An employer, temporary help company, employment agency, employee organization, or other person may not discharge, expel, or otherwise discriminate against a person because he or she has filed or communicated to the employer an intent to file a claim, a complaint, or an appeal, or has testified or is about to testify or has assisted in any proceeding, under this chapter, at any time, including during the waiting period described in section 6 of this act and the period in which the person receives

family and medical leave insurance benefits under this chapter. This section shall be enforced as provided in RCW 51.48.025.

NEW SECTION. Sec. 17. COORDINATION WITH OTHER LAWS, AGREEMENTS, AND POLICIES. (1) Employment protection under other laws. If an individual is entitled to employment protection under this chapter and under the federal family and medical leave act, chapter 49.78 RCW, or other applicable federal, state, or local law, the individual is entitled to employment protection under the other applicable law most favorable to the individual.

(2) Leave from employment under other laws. Except as provided in this subsection, if an individual is entitled to family and medical leave under this chapter and under the federal family and medical leave act, chapter 49.78 RCW, or other applicable federal, state, or local law, the employer may require that leave under this chapter be taken concurrently with leave under other applicable laws. The employer must give individuals in its employ written notice of this requirement. An individual may not increase the duration of his or her leave from employment by tacking on leave under this chapter to leave under other applicable laws. Leave from employment under this chapter is in addition to leave from employment during which benefits are paid or are payable under Title 51 RCW or other applicable federal or state industrial insurance laws.

(3) Wage replacement benefits under other laws. In any week in which an individual is earning waiting period credits or receiving benefits under chapter 7.68 RCW, Title 50 RCW, or Title 51 RCW, or other applicable federal or state crime victims' compensation, unemployment compensation, industrial insurance, or disability insurance laws, the individual is disqualified from receiving family leave insurance benefits under this chapter.

(4) Collective bargaining agreements and employer policies. (a) This chapter does not diminish an employer's obligation to comply with a collective bargaining agreement or employer policy, as applicable, that provides greater employment protection, leave from employment, or wage replacement benefits than under this chapter.

(b) An individual's rights to employment protection, leave from employment, and wage replacement benefits under this chapter may not be diminished by a collective bargaining agreement entered into or renewed or an employer policy adopted or retained after the effective date of this section. Any agreement by an individual to waive his or her rights under this chapter is void as against public policy.

(c) If an employer provides wage replacement benefits to an individual while on family and medical leave through disability insurance or any other means, the individual may elect whether first to receive such benefits or receive family and medical leave insurance benefits under this chapter. An individual may not be required to receive the individual's wage replacement benefits, if any, before receiving family and medical leave insurance benefits under this chapter. In no case shall the individual's weekly benefit exceed the individual's average weekly wage.

NEW SECTION. Sec. 18. NO CONTINUING ENTITLEMENT OR CONTRACTUAL RIGHT. This chapter does not create a continuing entitlement or contractual right. The legislature reserves the right to amend or repeal all or part of this chapter at any time, and a benefit or other right granted under this chapter exists subject to the legislature's power to amend or repeal this chapter. There is no vested private right of any kind against such amendment or repeal.

NEW SECTION. Sec. 19. RULES. The director may adopt rules as necessary to implement this chapter. In adopting rules, the director shall maintain consistency with the rules adopted to implement the federal family and medical leave act, and chapter 49.78 RCW, to the extent such rules are not in conflict with this chapter.

NEW SECTION. Sec. 20. ACCOUNT. The family and medical leave insurance account is created in the custody of the state treasurer. All receipts from the premium imposed under section 13 of this act or the penalties imposed under section 14 of this act must be deposited in the account. Expenditures from the account may be used only for the purposes of the family and medical leave insurance program. Only the director or the

director's designee may authorize expenditures from the account. The account is subject to the allotment procedures under chapter 43.88 RCW. An appropriation is required for administrative expenses, but not for benefit payments.

NEW SECTION. Sec. 21. INVESTMENT OF FAMILY AND MEDICAL LEAVE INSURANCE ACCOUNT. Whenever, in the judgment of the state investment board, there shall be in the family and medical leave insurance account funds in excess of that amount deemed by the state investment board to be sufficient to meet the current expenditures properly payable therefrom, the state investment board shall have full power to invest, reinvest, manage, contract, or sell or exchange investments acquired with such excess funds in the manner prescribed by RCW 43.84.150, and not otherwise.

Sec. 22. RCW 43.79A.040 and 2006 c 311 s 21 and 2006 c 120 s 2 are each reenacted and amended to read as follows:

(1) Money in the treasurer's trust fund may be deposited, invested, and reinvested by the state treasurer in accordance with RCW 43.84.080 in the same manner and to the same extent as if the money were in the state treasury.

(2) All income received from investment of the treasurer's trust fund shall be set aside in an account in the treasury trust fund to be known as the investment income account.

(3) The investment income account may be utilized for the payment of purchased banking services on behalf of treasurer's trust funds including, but not limited to, depository, safekeeping, and disbursement functions for the state treasurer or affected state agencies. The investment income account is subject in all respects to chapter 43.88 RCW, but no appropriation is required for payments to financial institutions. Payments shall occur prior to distribution of earnings set forth in subsection (4) of this section.

(4)(a) Monthly, the state treasurer shall distribute the earnings credited to the investment income account to the state general fund except under (b) and (c) of this subsection.

NEW SECTION. Sec. 23. LOANS. If necessary to ensure that money is available in the family and medical leave insurance account for the initial administration of the family and medical leave insurance program and the payment of benefits under this act, the director of labor and industries may, from time to time before July 1, 2009, lend funds from the supplemental pension fund to the family and medical leave insurance account. These loaned funds may be expended solely for the purposes of administering the program and paying benefits under this act. PERSONAL PRIVILEGE

Senator Clements: "Thank you and I'll be brief. I think its worth saying, just the tone and tenor of this body. In 1995 there was a very fine minority leader in the House, I think today's he's a judge. I don't know if he wears his cowboy boots under his robe or not. But there was a point where we're having a great debate and there was a fine representative from the thirty-fourth district and we were doing budget and he wanted something in the budget for a school lunch program or after school program. He was having great difficulty getting that appropriation. I rose on the floor and, I think the good Senator will remember, and we got that budget item but the minority leader said something to me that I'll never, ever forget. He said to me that in time when you're in the majority and you have great power and you do things that create great tension between both caucuses. There will be some, only some, that will go on and some won't forget or forgive and I think when we do legislation on this body, when we put ourselves in a position like that I always worry and I'm not saying this legislation does it but it is the type of thing that this Senator's always cautious of as I debate issues as long as I serve here. Thank you."

(1) The aquatic invasive species prevention account is created in the state treasury. Moneys directed to the account from RCW 88.02.050 must be deposited in the account. Expenditures from the account may only be used as provided in this section. Moneys in the account may be spent only after appropriation.

(2) Funds in the aquatic invasive species prevention account may be appropriated to the department to develop an aquatic invasive species prevention program for recreational and commercial watercraft. Funds must be expended as follows:

(a) To inspect recreational and commercial watercraft, watercraft ~~((trailers))~~ transportation equipment, and outboard motors ~~((at selected boat launching sites));~~

(b) To educate general law enforcement officers on how to enforce state laws relating to preventing the spread of aquatic invasive species;

(c) To evaluate and survey the risk posed by marine recreational and commercial watercraft in spreading aquatic invasive species into Washington state waters;

(d) To evaluate the risk posed by float planes in spreading aquatic invasive species into Washington state waters; and

(e) To implement an aquatic invasive species early detection and rapid response plan.

(3) Funds in the aquatic invasive species enforcement account created in RCW 43.43.400 may be appropriated to the department and Washington state patrol to develop an aquatic invasive species enforcement program for recreational and commercial watercraft. The department shall provide training to Washington state patrol employees working at port of entry weigh stations on how to inspect recreational and commercial watercraft for the presence of zebra mussels and other aquatic invasive species. The department ~~((shall also cooperatively work with the Washington state patrol to set up random check stations to inspect watercraft at areas of high boating activity))~~ is authorized to require persons transporting recreational and commercial watercraft to stop at check stations. Check stations must be plainly marked by signs, operated by at least one uniformed fish and wildlife officer, and operated in a safe manner. Any person stopped at a check station who possesses watercraft or equipment that is contaminated with prohibited aquatic animal or plant species is exempt from the criminal penalties found in RCW 77.15.253 and 77.15.290, and watercraft forfeiture provided for under section 7 of this act, if that person complies with all department directives for the proper decontamination of the watercraft and equipment.

(4) The department shall submit a biennial report to the appropriate legislative committees describing the actions taken to implement this section along with suggestions on how to better fulfill the intent of chapter 464, Laws of 2005. The first report is due December 1, 2007.

NEW SECTION. Sec. 3. A new section is added to chapter 77.12 RCW to read as follows:

(1) The department shall post signs warning vessel owners of the threat of aquatic invasive species, the penalties associated with introduction of a prohibited aquatic animal or plant species, and the proper contact information for obtaining a free inspection. The signs must be posted at all ports of entry to the

state and at all boat launches owned or leased by the department. The signs should provide enough information for the public to discern whether the vessel has been operated in an area that would warrant the need for an inspection. The department shall include the same information on the department's internet site. In order to reduce the need for unnecessary inspections, the department may develop a process to assist the public in determining whether a vessel inspection is warranted via telephonic audio menu. The department shall consult with the state patrol and the department of transportation regarding proper placement and authorization for sign posting. The department must coordinate with the department of parks and recreation to include such information in all boating-related materials provided to the boating public. The department may coordinate with other states on inspection requirements and may determine when other state inspections meet Washington standards.

(2) All port districts, privately or publicly owned marinas, state parks, and other state agencies or political subdivisions that own or lease a boat launch must display a sign as described under subsection (1) of this section. The department shall provide the signs to all port districts, privately or publicly owned marinas, state parks, and other state agencies managing boat launches. Signs must be posted in a location near the boat launch to provide maximum visibility to the public.

(3) The department or its designee shall provide an inspection of a watercraft to the person requesting the inspection. The department or its designee shall provide an inspection receipt verifying that the watercraft is not contaminated.

(4) The department shall provide training to all department employees that are deployed in the field to provide for efficient and timely response and inspections of recreational and commercial watercraft.

Sec. 4. RCW 77.15.253 and 2002 c 281 s 4 are each amended to read as follows:

(5) Unlawful release of a regulated aquatic animal species is a gross misdemeanor.

(6) A person is guilty of unlawful release of an unlisted aquatic animal species if he or she releases an unlisted aquatic animal species into state waters without requesting a commission designation under RCW 77.12.020.

(7) Unlawful release of an unlisted aquatic animal species is a gross misdemeanor.

(8) This section does not apply to:

(a) The transportation or release of organisms in ballast water;

NEW SECTION. Sec. 7. A new section is added to chapter 77.15 RCW to read as follows:

(1) A person is guilty of unlawfully introducing a prohibited aquatic animal species if the person fails to:

(a) Have a vessel inspected by state patrol officers or state fish and wildlife officers prior to launching the vessel in Washington waters; and

NEW SECTION. Sec. 8. A new section is added to chapter 77.12 RCW to read as follows:

The department shall develop a programmatic environmental impact statement to address the department's plan for treatment and immediate response to the introduction to Washington waters of a prohibited aquatic invasive species.

Sec. 9. RCW 77.120.010 and 2000 c 108 s 2 are each amended to read as follows:

The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Ballast tank" means any tank or hold on a vessel used for carrying ballast water, whether or not the tank or hold was designed for that purpose.

(2) "Ballast water" means any water and matter taken on board a vessel to control or maintain trim, draft, stability, or stresses of the vessel, without regard to the manner in which it is carried.

(3) "Empty/refill exchange" means to pump out, until the tank is empty or as close to empty as the master or operator determines is safe, the ballast water taken on in ports, estuarine, or territorial waters, and then refilling the tank with open sea waters.

(4) "Exchange" means to replace the water in a ballast tank using either flow through exchange, empty/refill exchange, or other exchange methodology recommended or required by the United States coast guard.

(5) "Flow through exchange" means to flush out ballast water by pumping in midocean water at the bottom of the tank and continuously overflowing the tank from the top until three full volumes of water have been changed to minimize the number of original organisms remaining in the tank.

(6) "Nonindigenous species" means any species or other viable biological material that enters an ecosystem beyond its natural range.

(7) "Open sea exchange" means an exchange that occurs fifty or more nautical miles offshore. If the United States coast guard requires a vessel to conduct an exchange further offshore, then that distance is the required distance for purposes of compliance with this chapter.

(8) "Recognized marine trade association" means those trade associations in Washington state that promote improved ballast water management practices by educating their members on the provisions of this chapter, participating in regional ballast water coordination through the Pacific ballast water group, assisting the department in the collection of ballast water exchange forms, and the monitoring of ballast water. This includes members of the Puget Sound marine committee for Puget Sound and the Columbia river steamship operators association for the Columbia river.

(9) "Sediments" means any matter settled out of ballast water within a vessel.

(10) "Untreated ballast water" includes exchanged or unexchanged ballast water that has not undergone treatment, boat, barge, or other floating craft.

(11) "Vessel" means a ((self-propelled)) ship ((in commerce)), boat, barge, or other floating craft of three hundred gross tons or more, United States and foreign, carrying, or capable of carrying, ballast water into the coastal waters of the state after operating outside of the coastal waters of the state, except those vessels described in RCW 77.120.020.

(12) "Voyage" means any transit by a vessel destined for any Washington port.

(13) "Waters of the state" means any surface waters, including internal waters contiguous to state shorelines within the boundaries of the state.

SIXTY-SIXTH DAY, MARCH 14, 2007

2007 REGULAR SESSION

Sec. 10. RCW 77.120.020 and 2000 c 108 s 3 are each amended to read as follows:

(1) This chapter applies to all vessels carrying ballast water into the waters of the state from a voyage, except:

(a) A vessel of the United States department of defense or United States coast guard subject to the requirements of section 1103 of the national invasive species act of 1996, or any vessel of the armed forces, as defined in 33 U.S.C. Sec. 1322(a)(14), that is subject to the uniform national discharge standards for vessels of the armed forces under 33 U.S.C. Sec. 1322(n);

(b) A vessel ~~((+))~~ that discharges ballast water or sediments only at the location where the ballast water or sediments originated, if the ballast water or sediments do not mix with ballast water or sediments from areas other than open sea waters ~~(; or (ii) that does not discharge ballast water in Washington waters); and~~

(c) A vessel in innocent passage, merely traversing the ((internal waters of Washington in the Strait of Juan de Fuca, bound for a port in Canada,)) territorial sea of the United States and not entering or departing a United States port, ((or a vessel in innocent passage, which is a vessel merely traversing the territorial sea of the United States and not entering or departing a United States port,)) or not navigating the internal waters of the United States~~(; and~~

~~(d) A crude oil tanker that does not exchange or discharge ballast water into the waters of the state), and that does not discharge ballast water into the waters of the state.~~

(2) This chapter does not authorize the discharge of oil or noxious liquid substances in a manner prohibited by state, federal, or international laws or regulations. Ballast water containing oil, noxious liquid substances, or any other pollutant shall be discharged in accordance with the applicable requirements.

(3) The master or operator in charge of a vessel is responsible for the safety of the vessel, its crew, and its passengers. Nothing in this chapter relieves the master or operator in charge of a vessel of the responsibility for ensuring the safety and stability of the vessel or the safety of the crew and passengers.

Sec. 11. RCW 77.120.030 and 2004 c 227 s 3 are each amended to read as follows:

(1) The owner or operator in charge of any vessel covered by this chapter is required to ensure that the vessel under their ownership or control does not discharge ballast water into the waters of the state except as authorized by this section.

~~((+)) Discharge into waters of the state is authorized if the vessel has conducted an open sea exchange of ballast water. A vessel is exempt from this requirement if the vessel's master reasonably determines that such a ballast water exchange operation will threaten the safety of the vessel or the vessel's crew, or is not feasible due to vessel design limitations or equipment failure. If a vessel relies on this exemption, then it may discharge ballast water into waters of the state, subject to any requirements of treatment under subsection (2) of this section and subject to RCW 77.120.040.~~

(2) ~~((After July 1, 2007,)) Discharge of ballast water into waters of the state is authorized only if there has been an open sea exchange or if the vessel has treated its ballast water to meet standards set by the department consistent with applicable state and federal laws. ((When weather or extraordinary circumstances make access to treatment unsafe to the vessel or crew, the master of a vessel may delay compliance with any treatment required under this subsection until it is safe to complete the treatment.~~

~~(3) Masters, owners, operators, or persons-in-charge shall submit to the department an interim ballast water management report by July 1, 2006, in the form and manner prescribed by the department. The report shall describe actions needed to implement the ballast water requirements in subsection (2) of this section, including treatment methods applicable to the class of the vessel. Reports may include a statement that there are no treatment methods applicable to the vessel for which the report is being submitted.~~

~~(4) The ballast water work group created in section 1, chapter 282, Laws of 2002 shall develop recommendations for~~

~~the interim ballast water management report. The recommendations must include, but are not limited to:~~

~~(a) Actions that the vessel owner or operator will take to implement the ballast water requirements in subsection (2) of this section, including treatment methods applicable to the class of the vessel;~~

~~(b) Necessary plan elements when there are not treatment methods applicable to the vessel for which the report is being submitted, or which would meet the requirements of this chapter; and~~

~~(c) The method, form, and content of reporting to be used for such reports.~~

(3) The department, in consultation with the ballast water work group, or similar collaborative forum, shall adopt by rule standards for the discharge of ballast water into the waters of the state and their implementation timelines. The standards are intended to ensure that the discharge of ballast water poses minimal risk of introducing nonindigenous species. In developing these standards, the department shall consider the extent to which the requirement is technologically and practically feasible. Where practical and appropriate, the standards must be compatible with standards set by the United States coast guard, the federal clean water act (33 U.S.C. Sec. 1251-1387), or the international maritime organization.

(4) If the master, operator, or person in charge of a vessel decides that the open sea exchange or treatment of ballast waters would threaten the safety of the vessel, its crew, or its passengers, because of adverse weather, vessel design limitations, equipment failure, or any other extraordinary conditions, the master, operator, or person in charge of a vessel must chemically treat the ballast water prior to discharge to ensure that aquatic invasive species are destroyed. A master, operator, or person in charge of a vessel who relies on this exemption must file documentation defined by the department, subject to: (a) Payment of a fee not to exceed five thousand dollars; (b) discharging only the minimal amount of ballast water operationally necessary; (c) documenting the location of the discharge, chemical used to treat the ballast water, and amount of chemical applied; (d) ensuring that ballast water records accurately reflect any reasons for not complying with the mandatory requirements; and (e) any other requirements identified by the department by rule as provided in subsections (3) and (6) of this section.

(5) For treatment technologies requiring shipyard modification ((that cannot reasonably be performed prior to July 1, 2007, the department shall provide the vessel owner or operator with an extension to the first scheduled drydock or shipyard period following July 1, 2007)), the department may enter into a compliance plan with the vessel owner. The compliance plan must include a timeline consistent with drydock and shipyard schedules for completion of the modification. The department shall adopt rules for compliance plans under this subsection.

(6) For an exemption claimed in subsection (4) of this section, the department shall adopt rules for defining exemption conditions, requirements, compliance plans, and recommended chemicals for treatment and corresponding dose concentration levels to meet the intent of this section.

~~((6)) (7) The department shall make every effort to align ballast water standards with adopted international and federal standards while ensuring that the goals of this chapter are met.~~

~~((7)) (8) The requirements of this section do not apply to a vessel discharging ballast water or sediments that originated solely within the waters of Washington state, the Columbia river system, or the internal waters of British Columbia south of latitude fifty degrees north, including the waters of the Straits of Georgia and Juan de Fuca.~~

~~((8)) (9) Open sea exchange is an exchange that occurs fifty or more nautical miles offshore. If the United States coast guard requires a vessel to conduct an exchange further offshore, then that distance is the required distance for purposes of compliance with this chapter.~~

Sec. 13. RCW 77.120.070 and 2000 c 108 s 8 are each amended to read as follows:

(1) ((Except as limited by subsection (2) or (3) of this section,)) The department may establish by rule schedules for any penalty allowed in this chapter. The schedules may provide for the incremental assessment of a penalty based on criteria established by rule.

(2) The director or the director's designee may impose a civil penalty or warning for a violation of the requirements of this chapter on the owner or operator in charge of a vessel who fails to comply with the requirements imposed under RCW 77.120.030 and 77.120.040. The penalty shall not exceed ~~((five))~~ twenty-seven thousand five hundred dollars for each day of a continuing violation. The owner or operator subject to such a penalty may contest the determination by requesting an adjudicative proceeding within twenty days. Any determination not timely contested is final and may be reduced to a judgment enforceable in any court with jurisdiction. If the department prevails using any judicial process to collect a penalty under this section, the department shall also be awarded its costs and reasonable attorneys' fees.

SIXTY-SIXTH DAY, MARCH 14, 2007

2007 REGULAR SESSION

~~((2) The civil penalty for a violation of reporting requirements of RCW 77.120.040 shall not exceed five hundred dollars per violation.~~

~~((4)) (3) The department, in cooperation with the United States coast guard, may enforce the requirements of this chapter.~~

NEW SECTION. Sec. 14. A new section is added to chapter 77.120 RCW to read as follows:

The department may assess a fee for any exemptions allowed under this chapter. Such a fee may not exceed five thousand dollars. The department may establish by rule schedules for any fee allowed in this chapter. The schedules may provide for the incremental assessment of a penalty based on criteria established by rule.

NEW SECTION. Sec. 15. A new section is added to chapter 77.120 RCW to read as follows:

(2) The account is subject to allotment procedures under chapter 43.88 RCW, but an appropriation is not required. Only the director or the director's designee may authorize expenditures from the account. Expenditures from the account may be used only to carry out the purposes of this chapter or support the goals of this chapter through research and monitoring except:

(a) Expenditures may not be used for the salaries of permanent department employees; and

PERSONAL PRIVILEGE

Senator Rasmussen: "Well, today we have the Navy leadership from Puget Sound in the capitol and in our gallery and so we're really proud certainly to support the Navy and all their endeavors. I also want to mention that the Navy band will be here and playing on the Capitol grounds so I would hope that we would all find some time to enjoy, if we get a break from our busy schedule today. I want to recognize the fine leadership of our Navy, Admiral French, and all our wonderful support from the Navy for our Puget Sound in the State of Washington."

INTRODUCTION OF SPECIAL GUESTS

The President welcomed and introduced members of the United States Navy who were seated in the gallery.

INTRODUCTION OF SPECIAL GUESTS

The President welcomed and introduced former Secretary of State, Ralph Munro, who was seated in the gallery.

PERSONAL PRIVILEGE

Senator Zarelli: "Thank you Mr. President. Well this is a special day for me, as well to honor Admiral French and his leadership team from the Puget Sound area down to the capitol. Being an eight-year veteran of the United States Navy myself, I wanted to share a few things that maybe many members of the Senate are not familiar with and that is that United States Navy is probably the most diverse branch of the military service that we have in this country. Many folks don't know that the Navy Seals are a lot of times the first into action. We think of special forces but, Mr. President, I would say that the Navy Seals are usually that special force that first go in to clear the area for the rest. The Navy Seabees builds things. Bridges, buildings, roads-everything that you might see built. Whether it be transportation or other infrastructure, is usually accomplished by the Navy Seabees. Of course the Air Force, we all know that we have a branch of service called the Air Force but Mr. President but I would argue that the United States Navy indeed has the largest air force in the world in the form of combat jets that fly off those big beautiful cities called aircraft carriers. So these are a few things that I thought I would share with the members of the body today and also restate what an honor it is to have you, Admiral, and your leadership team and we thank you for all that you are doing in representing in the fine men and women who are standing up and fighting for the United States of America. Thank you."

PERSONAL PRIVILEGE

Senator Honeyford: "Thank you Mr. President. First I'd like to thank the Admiral and staff and all who serve in our Armed Forces for the protection of our freedoms and, secondly, I'd like to mention that during the Heritage Caucus this morning at 7 a.m. or about 7:30 they made a presentation about one of the things they're doing in the Bremerton Yards is the preservation of historic buildings there and that was a very interesting presentation. I very much appreciate it. I'm sorry that most of you missed it. So, thank you."

PERSONAL PRIVILEGE

Senator Haugen: "Thank you Mr. President. Well, I would like to add that I'm really pleased to have leadership from the Navy here today and what I want to say is thank you to the Navy. I happen to represent Whidby Island. Naval Station

SIXTY-SIXTH DAY, MARCH 14, 2007

2007 REGULAR SESSION

which, I think is the best Naval stations in this state and I can tell you that the men and women who are stationed on that base are true contributors to their community. There isn't a school or any other activity that goes on within the whole Whidby Island area that there not people from that base out supporting. They're extraordinary, good citizens and I think we are so fortunate to have a very large military presence in the State of Washington and I am truly privileged to represent, I think, the most outstanding Whidby Island Naval Base."

PERSONAL PRIVILEGE

Senator Rockefeller: "Mr. President, I would like to join the adulates that are being extended by other members. As a legislator from Kitsap, I especially appreciate the fact that the Navy is a wonderful neighbor to our community and in fact constitute a significant part of our community and we respect them. We value them. We applaud their service to our country and we value each and every member of the service and the many civilians who make this a very fundamental part of the Kitsap County economy and our national security so we thank you for that."

PERSONAL PRIVILEGE

Senator Fraser: "Thank you Mr. President. I had the opportunity to visit with many of the officers who are visiting us today and I found them to be very thoughtful and sensitive to the communities they serve. Very professional and I'm so pleased that they have a chance to visit the legislature today."

PERSONAL PRIVILEGE

Senator McCaslin: "It's an honor to see you folks. My father served in World War I in the Navy. My older brother served in World War II in the Navy and I served in the World War II as a Navy radioman second class. I never saw too many of you folks. Most of the people I associated with, they had the two stripes on their shirt. I forgot what they called it. I do remember the thirteen buttons and I don't know if ever you folks there went through the thirteen buttons but that was work all day long. I didn't need it as much as I do now but it's an honor to see you and it's an honor your serving our country. I salute you all. Thank you."

SENATE BILL NO. 6032, by Senators Kohl-Welles, McCaslin, Kline, Regala and Keiser

Concerning the medical use of marijuana.

MOTION

On motion of Senator Kohl-Welles, Substitute Senate Bill No. 6032 was substituted for Senate Bill No. 6032 and the substitute bill was placed on the second reading and read the second time.

MOTION

Senator Kohl-Welles moved that the following striking amendment by Senators Kohl-Welles, Keiser, Carrell and Pflug be adopted:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature intends to clarify the law on medical marijuana so that the lawful use of this substance is not impaired and medical practitioners are able to exercise their best professional judgment in the delivery of medical treatment, qualifying patients may fully participate in the medical use of marijuana, and designated providers may assist patients in the manner provided by this act without fear of state criminal prosecution. This act is also intended to provide clarification to law enforcement and to all participants in the judicial system.

Sec. 2. RCW 69.51A.005 and 1999 c 2 s 2 are each amended to read as follows:

The people of Washington state find that some patients with terminal or debilitating illnesses, under their physician's care, may benefit from the medical use of marijuana. Some of the illnesses for which marijuana appears to be beneficial include chemotherapy-related nausea and vomiting in cancer patients; AIDS wasting syndrome; severe muscle spasms associated with multiple sclerosis and other spasticity disorders; epilepsy; acute or chronic glaucoma; and some forms of intractable pain.

The people find that humanitarian compassion necessitates that the decision to authorize the medical use of marijuana by patients with terminal or debilitating illnesses is a personal, individual decision, based upon their physician's professional medical judgment and discretion.

Therefore, the people of the state of Washington intend that:

Qualifying patients with terminal or debilitating illnesses who, in the judgment of their physicians, ~~((would))~~ may benefit from the medical use of marijuana, shall not be found guilty of a crime under state law for their possession and limited use of marijuana;

Persons who act as ~~((primary caregivers))~~ designated providers to such patients shall also not be found guilty of a

SIXTY-SIXTH DAY, MARCH 14, 2007

crime under state law for assisting with the medical use of marijuana; and

Physicians also be excepted from liability and prosecution for the authorization of marijuana use to qualifying patients for whom, in the physician's professional judgment, medical marijuana may prove beneficial.

(1) Advising a qualifying patient about the risks and benefits of medical use of marijuana or that the qualifying patient may benefit from the medical use of marijuana where such use is within a professional standard of care or in the individual physician's medical judgment; or

(2) Providing a qualifying patient with valid documentation, based upon the physician's assessment of the qualifying patient's medical history and current medical condition, that the ~~((potential benefits of the))~~ medical use of marijuana ~~((would likely outweigh the health risks for the))~~ may benefit a particular qualifying patient.

Sec. 5. RCW 69.51A.040 and 1999 c 2 s 5 are each amended to read as follows:

He has completed his Eagle Badge project by creating a Powerpoint presentation about Tourette's Syndrome for the purpose of educating the community on the disorder. He's made three presentation to the Pasco School District nurses, counselors and principles and each participant received a copy of the program. Copies are available at the Neurological Resource Center in Richland and the President has one as well if any member would like to see his presentation on Tourette's Syndrome. It's my great honor and privilege to be able to present to you for the report of the State of Washington and the Boy Scouts, Eagle Scout Brad Gorenson."

REMARKS BY MR. BRAD GORENSEN

Brad Gorenson: "I'm here to give the 2007 Washington Boy Scout report to the State. The mission of the Boy Scouts of America is to prepare young people to make ethical and moral choices over their life times through the efforts of over twenty-eight thousand dedicated volunteers. More than ninety-seven thousand youths in Washington State participated in scouting programs during 2006. Cub Scouting, for boys in first through fifth grade, served thirty-three thousand five hundred forty one. Forty-seven percent participated in a camping program. Boy scouting, for eleven to seventeen years old, reached twenty-two thousand seven hundred and seventy-three boys. Fifty-six percent participated in an outdoor camping adventure. One-thousand one-hundred seventy-six young men earned their Eagle Scout Award, The highest rank a Scout can achieve. Venturing, a co-ed high adventure program for kids age fourteen to twenty, served eight-thousand one-hundred thirty-nine. Learning for Life, also co-ed, is a classroom and work site based character educational program which served thirty-two thousand seven hundred sixty. Scout Reach is an outreach initiative focusing on developing programs in the inner city and lower income communities. Soccer and scouting aimed at the Hispanic community and children of incarcerated parents are two of the most significant programs offered in Washington State. Together our programs reach sixteen percent of the market share making it one of the largest youth-serving programs in the state. Good Turn for America, serve to others. The Boys Scout of America was founded on the premise to be a good citizen you must serve others. That belief led to the creation of Good Turn for America, national service initiative that addresses the issue of hunger, homelessness and poor health, is the collaborative effort with Habitat for Humanity, the American Red Cross and Salvation Army. In 2006, Washington Scouts and volunteers donated more than one-hundred eight-thousand three hundred ninety eight hours of community service to our state.

2007 REGULAR SESSION

That is volunteered time valued at over three million two-hundred eighteen thousand six hundred and thirty four. Boy Scouts of America looking to the future. Accordingly to research conducted by Harris Interactive released in May of 2005, one out of every two American males has had an affiliation with the scouting program. Their combined contributions touch our lives every day by continuing to recruit quality leadership, inviting youths of all backgrounds to join and offering a fun and exciting program. We seek to help ordinary young people to become extraordinary adults."

PERSONAL PRIVILEGE

Senator Delvin: "Thank you Mr. President. I'm tempted like the former speaker from the fourth district to name names so I won't do that, violate that rule this morning. I want to talk about a group that's visiting our campus today. I've been associated with their group this last year but in the past I've supported their fund raisers in the community at the Boys & Girls Club. Last year I was honored to be asked to be on their board of directors for Benton Franklin County Boys & Girls Club and it truly is an honor to be on that board and see the good work and help that organization. That organization provides a lot of outreach to a lot of youth in our communities through character and leadership programs, educational careers programs, health and life skills programs and of course arts and sports and fitness and others too. Today, though, we have a group of special Boy & Girls Clubs members, the Youth of the Year from their individual Boys & Girls Club and I think the Governor announced to the Youth of the Year for the Boy & Girls Club and again I just want to point out that this is a good organization in your communities and I would encourage all the members of the Senate anytime that you have a chance to participate with your local Boys & Girls Club in any way, be it a fund raiser or helping out in one of their centers. Take the time to do that. It's a good organization. The kids are great to hang out with and just encourage you to do that. Thank you Mr. President."

REPLY BY THE PRESIDENT

President Owen: "Thank you, it is correct that, this morning fourteen of Washington's best and brightest were at the Governor's Mansion and I'd like you to meet some of these people who have met incredible challenges and made major contributions to their community. Each one of these was selected in their region as the Boys & Girls Clubs Youth of the Year for that region and then a finalist was chosen and presented this morning."

INTRODUCTION OF SPECIAL GUESTS

The President welcomed and introduced members of the Boys & Girls Club who were seated in the gallery.

Trust Land Transfer (08-2-005)

The appropriations in this section are subject to the following conditions and limitations:

(1) The total appropriation is provided to the department solely to transfer from trust status, or enter into fifty year leases for, certain trust lands of statewide significance deemed appropriate for state park, fish and wildlife habitat, natural area preserve, natural resources conservation area, open space, or recreation purposes. The approved list of projects is identified in the LEAP capital document 2007-4, developed March 20, 2007.

(2) Property transferred under this section shall be appraised and transferred at fair market value. The value of the timber transferred shall be deposited by the department to the common school construction account in the same manner as timber revenues from other common school lands. No deduction shall be made for the resource management cost account under RCW 79.64.040. The value of the land transferred shall be deposited in the natural resources real property replacement account. These funds shall be expended by the department for the exclusive purpose of acquiring forest lands of equal value to be managed as common school trust land.

(3) Property subject to lease agreements under this section shall be appraised at fair market value. Lease payments shall be lump sum payments for the entire term of the lease at the beginning of the lease. The department shall calculate such lump sum payments using professional appraisal standards. These lease payments may not exceed the fee simple purchase price based on current fair market value and shall be deposited by the department to the common school construction account in the same manner as lease revenues from other common school trust lands. No deduction shall be made for the resource management cost account under RCW 79.64.040.

(4) All reasonable costs incurred by the department to implement this section are authorized to be paid out of the appropriations. Authorized costs include the actual cost of appraisals, staff time, environmental reviews, surveys, and other similar costs.

(5) Intergrant exchanges between common school and other trust lands of equal value may occur if the exchange is in the interest of each trust, as determined by the board of natural resources.

(6) Prior to or concurrent with conveyance of these properties, the department, with full cooperation of the receiving agencies, shall execute and record a real property instrument that dedicates the transferred properties to the purposes identified in subsection (1) of this section. Transfer and lease agreements for properties identified in subsection (1) of this section must include terms that restrict the use of the property to the intended purpose. Transfer and lease agreements may include provisions for receiving agencies to request alternative uses of the property, provided the alternative uses are compatible with the original intended public purpose and the department and legislature approves such uses.

(7) The department and receiving agencies shall work in good faith to carry out the intent of this section. However, the department or receiving agencies may remove a property from the transfer list based on new, substantive information, if it is

determined that transfer of the property is not in the statewide interest of either the common school trust or the receiving agency.

(8) The department shall execute trust land transfers that, after the deduction of reasonable costs as provided in subsection (4) of this section, eighty percent of the total value of transferred property is timber value and is deposited in the common school construction account. To achieve the eighty percent requirement, the department may choose to lease properties originally intended as transfers.

(9) On June 30, 2009, the state treasurer shall transfer all remaining uncommitted funds from this appropriation to the common school construction account and the appropriations in this section shall be reduced by an equivalent amount.

Conversion Land Acquisition (08-1-950)

The appropriations in this section are subject to the following conditions and limitations: The appropriations are provided solely for acquisition of working forest lands at risk of conversion to nonforest uses. The legislature finds that the chronic loss of working forest lands threatens the long-term prospects of the timber products industry, which in turn threatens the long-term economic return for the beneficiaries of state trust lands. Acquisition of these conversion lands is intended to help stabilize the primary source of revenue to trust land beneficiaries. The department shall submit a report to the appropriate committees of the legislature by October 1, 2008, indicating the lands purchased under this section, showing the locations, acres, purchase price, and within that purchase price, the value of the property attributed to the future value of timber harvests given an expected rate of return for timber lands, and the value of the property attributed to future development of the property. It is the intention of the legislature to lease the development rights of these conversion lands and retain them as long-term working forest lands under the sustainable harvest plan. Working forest lands acquired under this section shall be managed at a level equal to or greater than seventy-five percent of the expected harvest under the sustainable harvest plan. The appropriation provided in this section shall lapse unless chapter

Preventive Facility Maintenance and Building System Repairs (08-1-150)

The appropriation in this section is subject to the following conditions and limitations:

(1) Pursuant to definitions and provisions in section 925, chapter 26, Laws of 2003 1st sp. sess., the appropriation is provided solely to maintain facilities housing educational and general programs and to maintain its major building systems and campus infrastructure. Building maintenance, mechanical adjustments, repairs, and minor works for the facility or its major building systems and campus infrastructure must extend the remaining useful life of the facility or keep it safe and functioning normally.

(2) With this appropriation, the intent is to improve the average condition of state facilities as compared to the baseline conditions documented in report 03-1 of the joint legislative audit and review committee. Preventive facility maintenance project funds must be allocated at the state board's discretion to achieve the performance goal stated in this subsection (2), with particular attention given to buildings currently rated in superior to adequate condition so as to maximize useful life given both the passage of time and intensity with which the space is used.

(3) Section 6003 of this act does not apply to this appropriation.

(4) There is no intent to reappropriate amounts not expended by June 30, 2009.

The appropriation in this section is subject to the following conditions and limitations: The appropriation is provided solely for the state board for community and technical colleges to establish a process for allocating funds to projects that have experienced unanticipated cost escalation for projects bid during the 2007-2009 biennium. Not more than \$750,000 shall be made available to any single project and amounts provided for this purpose must be matched equally from nonstate resources. The board shall manage the distribution of funds to ensure that the requesting college has managed its project within the current appropriation through preparation of bid documents and that the scope of the project is no greater than was originally specified in the design. The board will report to the office of financial management and the appropriate fiscal committees of the legislature on the use of these funds.

PART 6 MISCELLANEOUS AND SUPPLEMENTAL PROVISIONS

NEW SECTION. Sec. 6001. (1) Allotments for appropriations in this act shall be provided in accordance with the capital project review requirements adopted by the office of financial management. The office of financial management shall notify the house of representatives capital budget committee and

EIGHTY-THIRD DAY, MARCH 31, 2007

2007 REGULAR SESSION

the senate ways and means committee of allotment releases based on review by the office of financial management. No expenditure may be incurred or obligation entered into for appropriations in this act until the office of financial management has given final approval to the allotment of the funds to be expended or encumbered. For allotments under this act, the allotment process includes, in addition to the statement of proposed expenditures for the current biennium, a category or categories for any reserve amounts and amounts expected to be expended in future biennia. Projects that will be employing alternative public works construction procedures under chapter 39.10 RCW are subject to the allotment procedures defined in this section and RCW 43.88.110. Contracts shall not be executed that call for expenditures in excess of the approved allotment, and the total amount shown in such contracts for the cost of future work that has not been appropriated shall not exceed the amount identified for such work in the level of funding approved by the office of financial management at the completion of predesign.

(2) The legislature intends that each project be defined as proposed to the legislature in the governor's budget document, unless it clearly appears from the legislative history that the legislature intended to define the scope of a project in a different way.

NEW SECTION. Sec. 6002. To ensure that major construction projects are carried out in accordance with legislative and executive intent, appropriations in this act in excess of \$5,000,000 shall not be expended or encumbered until the office of financial management has reviewed and approved the agency's predesign. The predesign document shall include but not be limited to program, site, and cost analysis in accordance with the predesign manual adopted by the office of financial management. To improve monitoring of major construction projects, progress reports shall be submitted by the agency administering the project to the office of financial management and to the fiscal committees of the house of representatives and senate. Reports will be submitted on July 1st and December 31st each year in a format to be developed by the office of financial management.

NEW SECTION. Sec. 6003. (1) To ensure minor works appropriations are carried out in accordance with legislative intent, funds appropriated in this act shall not be allotted until project lists are on file at the office of financial management, the house of representatives capital budget committee, and the senate ways and means committee. All projects must meet the criteria included in subsection (2)(a) of this section. Revisions to the lists must be filed with the office of financial management, the house of representatives capital budget committee, and the senate ways and means committee and include an explanation of variances from the prior lists before funds may be expended on the revisions. No expenditure may be incurred or obligation entered into for minor works appropriations until the office of financial management has approved the allotment of the funds to be expended.

(2)(a) Minor works projects are single line appropriations that include multiple projects of a similar nature and that are valued between \$25,000 and \$1,000,000 each, with the exception of higher education minor works projects that may be valued up to \$2,000,000. These projects can generally be completed within two years of the appropriation with the funding provided. Agencies are prohibited from including projects on their minor works lists that are a phase of a larger project, and that if combined over a continuous period of time, would exceed \$1,000,000, or \$2,000,000 for higher education minor works projects. Improvements for accessibility in compliance with the Americans with disabilities act may be included in any of the above minor works categories.

(b) Minor works appropriations shall not be used for, among other things: Studies, except for technical or engineering reviews or designs that lead directly to and support a project on the same minor works list; planning; design outside the scope of

work on a minor works list; moveable, temporary, and traditionally funded operating equipment not in compliance with the equipment criteria established by the office of financial management; software not dedicated to control of a specialized system; moving expenses; land or facility acquisition; or to supplement funding for projects with funding shortfalls unless expressly authorized elsewhere in this act. The office of financial management may make an exception to the limitations described in this subsection (2)(b) for exigent circumstances after notifying the legislative fiscal committees and waiting ten days for comments by the legislature regarding the proposed exception.

(3) It is generally not the intent of the legislature to make future appropriations for capital expenditures or for maintenance and operating expenses for an acquisition project or a significant expansion project that is initiated through the minor works process and therefore does not receive a policy and fiscal analysis by the legislature. Minor works projects are intended to be one-time expenditures that do not require future state resources to complete.

NEW SECTION. Sec. 6004. (1) The office of financial management may authorize a transfer of appropriation authority provided for a capital project that is in excess of the amount required for the completion of such project to another capital project for which the appropriation is insufficient. No such transfer may be used to expand the capacity of any facility beyond that intended by the legislature in making the appropriation. Such transfers may be effected only between capital appropriations to a specific department, commission, agency, or institution of higher education and only between capital projects that are funded from the same fund or account. No transfers may occur between projects to local government agencies except where the grants are provided within a single omnibus appropriation and where such transfers are specifically authorized by the implementing statutes that govern the grants.

(2) The office of financial management may find that an amount is in excess of the amount required for the completion of a project only if: (a) The project as defined in the notes to the budget document is substantially complete and there are funds remaining; or (b) bids have been let on a project and it appears to a substantial certainty that the project as defined in the notes to the budget document can be completed within the biennium for less than the amount appropriated in this act.

(3) For the purposes of this section, the intent is that each project be defined as proposed to the legislature in the governor's budget document, unless it clearly appears from the legislative history that the legislature intended to define the scope of a project in a different way.

(4) Transfers of funds to an agency's infrastructure savings appropriation are subject to review and approval by the office of financial management. Expenditures from an infrastructure savings appropriation are limited to projects that have a primary purpose to correct infrastructure deficiencies or conditions that: (a) Adversely affect the ability to utilize the infrastructure for its current programmatic use; (b) reduce the life expectancy of the infrastructure; or (c) increase the operating costs of the infrastructure for its current programmatic use. Eligible infrastructure projects may include structures and surface improvements, site amenities, utility systems outside building footprints and natural environmental changes or requirements as part of an environmental regulation, a declaration of emergency for an infrastructure issue in conformance with RCW 43.88.250, or infrastructure planning as part of a facility master plan.

(5) A report of any transfer effected under this section, except emergency projects or any transfer under \$250,000, shall be filed with the legislative fiscal committees of the senate and house of representatives by the office of financial management at least thirty days before the date the transfer is effected. The office of financial management shall report all emergency or smaller transfers within thirty days from the date of transfer.

NEW SECTION. Sec. 6005. (1) It is expected that projects be ready to proceed in a timely manner depending on the type or phase of the project or program that is the subject of the appropriation in this act. Except for major projects that customarily may take more than two biennia to complete from predesign to the end of construction, or large infrastructure grant or loan programs supporting projects that often take more than two biennia to complete, the legislature generally does not intend to reappropriate funds more than once, particularly for smaller grant programs, local/community projects, and minor works.

(2) Agencies shall expedite the expenditure of reappropriations and appropriations in this act in order to: (a) Rehabilitate infrastructure resources; (b) accelerate environmental rehabilitation and restoration projects for the improvement of the state's natural environment; (c) reduce additional costs associated with acquisition and construction inflationary pressures; and (d) provide additional employment opportunities associated with capital expenditures.

(3) To the extent feasible, agencies are directed to accelerate expenditure rates at their current level of permanent employees and shall use contracted design and construction services wherever necessary to meet the goals of this section.

NEW SECTION. Sec. 6006. The legislature finds that the state's public four-year institutions and the higher education coordinating board have made substantial progress in developing a process to create a single prioritized list of capital project requests as required under RCW 28B.76.220. The legislature also recognizes that continuing work by the institutions and the board is needed to refine the methodology for determining the ranking of project requests, and that this work will benefit from additional legislative guidance. Therefore, the higher education coordinating board and the public four-year institutions, in developing and submitting the single prioritized project list of capital project requests under RCW 28B.76.220, shall use the following guidelines:

(1) Representatives of the board shall participate in the process of scoring projects using the criteria in the board's biennial budget guidelines. Representatives of the board shall also review the preliminary project list to verify the scoring and ranking of projects. As required under RCW 28B.76.210, institutions must submit the preliminary project list to the board by August 1st of each even-numbered year to enable this review. Any disagreements over project scorings or rankings shall be resolved as provided under RCW 28B.76.220(4).

(2) The higher education coordinating board's biennial budget guidelines and the prioritization process shall place greater emphasis on:

(a) Early critical review of project proposals at the predesign phase, rather than deferring critical review and prioritization to the design or construction phases of a project; and

(b) The capital budget bow wave for a six-year period, beginning with the 2009-2011 biennium through the 2013-2015 biennium.

(3) When projects are aggregated into single line-item requests, each project must meet the definition of minor works according to section 6003(2)(a) of this act. All major projects must be listed and ranked as individual line-item requests.

(4) The scoring and ranking of projects shall not be based on assigning an equal number of overall points to each public four-year institution, but shall reflect an assignment of points to individual projects based on the priorities and criteria in this section and in the board's biennial budget guidelines.

(5) Projects shall not be ranked on the basis of a project funding source.

(6) In consultation with the appropriate fiscal and policy committees of the legislature, the board shall identify statewide priorities for higher education capital investments and incorporate those priorities into its biennial budget guidelines. The statewide priorities shall address the need for higher education capital projects to:

(a) Implement a specific legislatively authorized program or planning priority;

(b) Reduce the backlog of deferred building or system preservation, renewal, or replacement;

(c) Provide additional capacity or adaptation of space for high demand instructional or research programs;

(d) Provide additional instructional program capacity for under-served geographic regions or populations; and

(e) Reflect institutional planning priorities and areas of emphasis.

(7) The higher education coordinating board's biennial budget guidelines shall include a quantitative method for scoring projects on the identified priorities. The quantitative method shall include use of the facility condition index developed by the joint legislative audit and review committee for assessing building or system condition, and use of the board's space utilization and allocation standards for assessing the need for additional capacity.

(8) The council of presidents, in consultation with the board, shall report by September 1, 2007, to the appropriate legislative fiscal committees on the use of a proportionality factor in the scoring and ranking of projects. The report shall include:

(a) A definition of proportionality as it has been used in the scoring and ranking of projects for funding in the 2007-2009 biennium and may be used for subsequent biennia;

(b) A method for measuring proportionality in a valid and consistent manner; and

(c) An explanation of how proportionality relates to the statewide priorities established in subsection (6) of this section, including an assessment of the extent to which it promotes the achievement of these statewide priorities.

NEW SECTION. Sec. 6007. The Washington state auditor shall perform an audit of the Seattle public library and the secretary of state with regard to expenditures related to the facility located at 2021 9th Avenue, Seattle, Washington that houses the Washington talking book and braille library and city of Seattle functions. The audit shall be completed and results available to the legislature by September 1, 2007.

NEW SECTION. Sec. 6008. Eastern Washington University is authorized to sell its Spokane center. Proceeds from the sale must be deposited into the higher education construction account. Proceeds may be used to acquire or design a facility on or adjacent to the Riverpoint higher education campus for the university's Spokane-based program offerings. Eastern Washington University must report to the office of financial management and the appropriate fiscal committees of the legislature upon the sale of the center and with regard to expenditure of the proceeds.

NEW SECTION. Sec. 6009. The office of financial management, in consultation with the department of general administration, shall identify capital projects that may benefit from an energy analysis to determine whether there are alternate, more economical, and energy efficient means of completing the work. The office of financial management shall hold appropriations in allotment reserve on the following types of capital projects until this analysis can be completed: Heating, ventilation, and air conditioning modifications, chiller plants, steam plants, boilers, chilled water or steam lines, building control systems, lighting improvements, or other major energy using systems that may warrant additional analysis. Agencies receiving appropriations for such projects are encouraged to utilize energy performance contracts or alternative financing for equipment in lieu of state appropriated funds. The office of financial management may transfer funds remaining in allotment reserve to infrastructure savings projects within the agency that has realized savings from energy efficiency alternatives.

NEW SECTION. Sec. 6010. The effective use of state-supported space in higher education is an important factor in assessing both effective management and priorities for capital funding. It is also recognized that the facilities of the state vary significantly among the community colleges, the comprehensive

EIGHTY-THIRD DAY, MARCH 31, 2007

regional universities, and the research universities. It is further recognized that the existing higher education coordinating board space study does a good job of highlighting the use of a portion of the space for a specific chosen set of uses.

In order for the legislature to have a better awareness of all uses of all state-supported space, the council of presidents shall prepare an assessment of facilities use that covers the full scope of uses for all types of state-funded spaces. This assessment should start with the higher education coordinating board report and build upon this to include additional uses, space types, and methodologies, including methodologies and practices used by other higher education institutions.

To the extent possible, it would be helpful for this assessment to use the same definitions of space types and uses. Based upon the differences in mission and function, the assessment may be divided to look at the comprehensive regional universities along with The Evergreen State College in one group and the research universities as a second group.

The council of presidents shall coordinate this effort with the office of financial management, staff from the appropriate fiscal and higher education committees of the legislature, and the higher education coordinating board. The assessment shall be completed and delivered to the legislature by January 1, 2008.

NEW SECTION. Sec. 6011. State agencies, including institutions of higher education, shall allot and report full-time equivalent staff for capital projects in a manner comparable to staff reporting for operating expenditures.

NEW SECTION. Sec. 6012. Due to the intended replacement of the building adjoining Capital Way and 11th avenue, the department of general administration shall not charge the facility depreciation component of lease charges for nonprofit tenants in that facility during the 2007-2009 biennium.

NEW SECTION. Sec. 6013. Executive Order No. 05-05, archaeological and cultural resources, was issued effective November 10, 2005. Agencies and higher education institutions shall comply with the requirements set forth in this executive order.

NEW SECTION. Sec. 6014. ACQUISITION OF PROPERTIES AND FACILITIES THROUGH FINANCIAL CONTRACTS. The following agencies may enter into financial contracts, paid from any funds of an agency, appropriated or nonappropriated, for the purposes indicated and in not more than the principal amounts indicated, plus financing expenses and required reserves pursuant to chapter 39.94 RCW. When securing properties under this section, agencies shall use the most economical financial contract option available, including long-term leases, lease-purchase agreements, lease-development with option to purchase agreements or financial contracts using certificates of participation. Expenditures made by an agency for one of the indicated purposes before the issue date of the authorized financial contract and any certificates of participation therein are intended to be reimbursed from proceeds of the financial contract and any certificates of participation therein to the extent provided in the agency's financing plan approved by the state finance committee.

State agencies may enter into agreements with the department of general administration and the state treasurer's office to develop requests to the legislature for acquisition of properties and facilities through financial contracts. The agreements may include charges for services rendered.

Those noninstructional facilities of higher education institutions authorized in this section to enter into financial contracts are not eligible for state funded maintenance and operations. In approving a financing contract not providing for the use of certificates of participation, the state finance committee should be reasonably certain that the contract is excluded from the computation of indebtedness, particularly that the contract is not backed by the full faith and credit of the state, and the legislature is expressly not obligated to appropriate funds to make payments. For purposes of this section, "financing contract" includes but is not limited to a certificate of participation and tax exempt financing similar to that authorized in RCW 47.79.140.

NEW SECTION. Sec. 6016. The amounts shown under the headings "Prior Biennia," "Future Biennia," and "Total" in this

2007 REGULAR SESSION

act are for informational purposes only and do not constitute legislative approval of these amounts. "Prior biennia" typically refers to the immediate prior biennium for reappropriations, but may refer to multiple biennia in the case of specific projects. A "future biennia" amount is an estimate of what may be appropriated for the project or program in the 2009-2011 biennium and the following three biennia; an amount of zero does not necessarily constitute legislative intent to not provide funding for the project or program in the future.

NEW SECTION. Sec. 6017. (1) "Reappropriations" in this act are appropriations and, unless the context clearly provides otherwise, are subject to the relevant conditions and limitations applicable to appropriations. Reappropriations shall be limited to the unexpended balances remaining on June 30, 2007, from the 2005-2007 biennial appropriations for each project.

(2) "Reappropriations" from the water quality capital account in this act shall be limited to the unexpended balance remaining as of the end of fiscal year 2007 from the water quality account in the 2005-2007 biennial appropriations for each project in this act.

(Z-0356.3/07)), Laws of 2007 (water quality capital account). In this act, appropriations from the water quality capital account are defined as appropriations from that account. If chapter . . . ([House][Senate] Bill No. . . . (Z-0356.3/07)), Laws of 2007 (water quality capital account) is not enacted by June 30, 2007, appropriations in this act either from that account or into that account shall lapse.

NEW SECTION. Sec. 6019. To carry out the provisions of this act, the governor may assign responsibility for predesign, design, construction, and other related activities to any appropriate agency.

No replacement may occur under this section without the prior approval of the director of financial management in consultation with the senate ways and means committee and the house of representatives capital budget committee.

NEW SECTION. Sec. 6021. (1) Unless otherwise stated, for all appropriations under this act that require a match of nonstate money or in-kind contributions, the following requirement, consistent with RCW 43.88.150, shall apply: Expenditures of state money shall be timed so that the state share of project expenditures never exceeds the intended state share of total project costs.

(2) Provision of the full amount of required matching funds is not required to permit the expenditure of capital budget appropriations for phased projects if a proportional amount of the required matching funds is provided for each distinct, identifiable phase of the project.

NEW SECTION. Sec. 6022. Any capital improvements or capital projects involving construction or major expansion of a state office facility, including, but not limited to, district headquarters, detachment offices, and off-campus faculty offices, must be reviewed by the department of general administration for possible consolidation, colocation, and compliance with state office standards before allotment of funds. The intent of the requirement imposed by this section is to eliminate duplication and reduce total office space requirements where feasible, while ensuring proper service to the public.

(xii) Development and demonstration of alternative management technologies designed to carry out the top two hazardous waste management priorities of RCW 70.105.150.

(3) The following moneys shall be deposited into the local toxics control account: Those revenues which are raised by the tax imposed under RCW 82.21.030 and which are attributable to that portion of the rate equal to thirty-seven one-hundredths of one percent.

(a) Moneys deposited in the local toxics control account shall be used by the department for grants or loans to local governments for the following purposes in descending order of priority: (i) Remedial actions; (ii) hazardous waste plans and programs under chapter 70.105 RCW; (iii) solid waste plans and programs under chapters 70.95, 70.95C, 70.95I, and 70.105 RCW; (iv) funds for a program to assist in the assessment and cleanup of sites of methamphetamine production, but not to be used for the initial containment of such sites, consistent with the responsibilities and intent of RCW 69.50.511; and (v) cleanup and disposal of hazardous substances from abandoned or derelict vessels that pose a threat to human health or the environment. Transfers shall be made at the end of each fiscal quarter based on projections of state revenues, expenditures, and the state expenditure limit. The treasurer shall make transfers between these accounts as necessary to reconcile actual annual revenues and the expenditure limit for fiscal year 2000 and thereafter.

(2) The legislature may appropriate moneys from the emergency reserve fund only with approval of at least two-thirds of the members of each house of the legislature, and then only if the appropriation does not cause total expenditures to exceed the state expenditure limit under this chapter.

Any balance in excess of five percent shall be transferred on a quarterly basis by the state treasurer as follows: Seventy-five percent to the student achievement fund hereby created in the state treasury and twenty-five percent to the general fund balance. sources per student as determined by the most recent published data from the national center for education statistics of the United States department of education, as calculated by the office of financial management, further deposits to the student achievement fund shall be required only to the extent necessary to maintain the ninety-percent level. Remaining funds are part of the general fund balance and these funds are subject to the expenditure limits of this chapter.

(4) The education construction fund is hereby created in the state treasury.

(a) Funds may be appropriated from the education construction fund exclusively for common school construction or higher education construction. During the 2007-2009 fiscal biennium, funds may also be used for higher education facilities preservation and maintenance.

(b) Funds may be appropriated for any other purpose only if approved by a two-thirds vote of each house of the legislature and if approved by a vote of the people at the next general election. An appropriation approved by the people under this subsection shall result in an adjustment to the state expenditure limit only for the fiscal period for which the appropriation is made and shall not affect any subsequent fiscal period.

(5) Funds from the student achievement fund shall be appropriated to the superintendent of public instruction strictly for distribution to school districts to meet the provisions set out in the student achievement act. Allocations shall be made on an equal per full-time equivalent student basis to each school district.

Project	Recommendation
Spokane Conservation district	(\$2,000,000) <u>\$1,779,000</u>
Port of Warden	\$2,500,000

EIGHTY-THIRD DAY, MARCH 31, 2007

2007 REGULAR SESSION

(3) All agreements negotiated between the political subdivision and the bioenergy industry for use of the oilseed crushers, supporting infrastructure, or facilities funded in this section must provide for at least a fifty percent match by the industry partner. The industry match may include, but is not limited to, investments in rail, buildings, refining capacity, or seed stock.

(4) All other project funds must be disbursed prior to energy freedom loans, except where required on a matching basis by other federal or state programs.

(5) The department shall disburse loans to the political subdivision on a reimbursement basis only.

(6) The department may defer loan repayment for up to twenty-four months or until the projects start to receive revenue from operations, whichever is sooner.

(7) Upon written notice to the political subdivision, the department may suspend or cancel its loans if any of the following occur:

(a) The political subdivision fails to make satisfactory and reasonable progress to complete the project, or the department concludes the political subdivision will be unable to complete the project or any portion of it; or

(b) The political subdivision or bioenergy industry partners have made misrepresentations in any information furnished to the department or the legislature in connection with the project.

(8) In the event that any portion of the loan has been paid to the political subdivision under this section at the time of breach, or failure of the political subdivision to satisfactorily perform, the department may require that the full amount of the loan, or a portion thereof, be repaid within a period specified by the department.

(9) Future loan repayments shall be deposited into the energy freedom account created in section 6, chapter . . . (Engrossed Third Substitute House Bill No. 2939), Laws of 2006.

(10) It is the intent of the legislature to provide loans for the development of a Washington state biodiesel industry based on Washington grown oilseed. The legislature is aware that in the development of this industry, the start-up process may necessitate the use of other oilseeds until Washington state growers plant sufficient crops to support this industry. The legislature also understands the realities of weather and market conditions in this process. The conversion to maximum Washington grown oilseed must be accomplished as quickly as possible. The political subdivision shall: (a) Develop a plan for outreach to local growers and an estimate of when maximum Washington state oilseed-based production will be reached; (b) develop a goal for the political subdivision to return a portion of the biofuel to local oilseed producers; and (c) report this information to the department of agriculture by December 1, 2006. The department shall report on the implementation of this section by January 1, 2007, to the appropriate committees of the legislature.

SUBSTITUTE HOUSE BILL NO. 2394 as amended by the Senate, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

SECOND READING

ENGROSSED SECOND SUBSTITUTE HOUSE BILL NO. 1461, by House Committee on Appropriations (originally sponsored by Representatives Morrell, Miloscia, O'Brien, Ericks, Hunt, Sells, Green, Flannigan, Williams, Kenney, Appleton, Ormsby, Quall, Haigh, Hasegawa and Lantz)

Addressing manufactured/mobile home community registrations and dispute resolution.

The measure was read the second time.

MOTION

Senator Kastama moved that the following committee striking amendment by the Committee on Consumer Protection & Housing be adopted.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. (1) The legislature finds that there are factors unique to the relationship between a manufactured/mobile home tenant and a manufactured/mobile home community landlord. Once occupancy has commenced, the difficulty and expense in moving and relocating a manufactured/mobile home can affect the operation of market forces and lead to an inequality of the bargaining position of the parties. Once occupancy has commenced, a tenant may be subject to violations of the manufactured/mobile home landlord-tenant act without an adequate remedy at law. This chapter is created for the purpose of protecting the public, fostering fair and honest competition, and regulating the factors unique to the relationship between the manufactured/mobile home tenant and the manufactured/mobile home community landlord.

(2) The legislature finds that taking legal action against a manufactured/mobile home community landlord for violations of the manufactured/mobile home landlord-tenant act can be a costly and lengthy process, and that many people cannot afford to pursue a court process to vindicate statutory rights. Manufactured/mobile home community landlords will also benefit by having access to a process that resolves disputes quickly and efficiently.

(3)(a) Therefore, it is the intent of the legislature to provide an equitable as well as a less costly and more efficient way for manufactured/mobile home tenants and manufactured/mobile home community landlords to resolve disputes, and to provide a mechanism for state authorities to quickly locate manufactured/mobile home community landlords.

(b) The legislature intends to authorize the department of licensing to register manufactured/mobile home communities and collect a registration fee.

(c) The legislature intends to authorize the attorney general to:

(i) Produce and distribute educational materials regarding the manufactured/mobile home landlord-tenant act and the

2007 REGULAR SESSION

manufactured/mobile home dispute resolution program created in section 3 of this act;

(ii) Administer the dispute resolution program by taking complaints, conducting investigations, making determinations, issuing fines and other penalties, and participating in administrative dispute resolutions, when necessary, when there are alleged violations of the manufactured/mobile home landlord-tenant act; and

(iii) Collect and annually report upon data related to disputes and violations, and make recommendations on modifying chapter 59.20 RCW, to the appropriate committees of the legislature.

NEW SECTION. Sec. 2. For purposes of this chapter:

(1) "Complainant" means a landlord, community owner, or tenant, who has a complaint alleging a violation of chapter 59.20 RCW;

(2) "Department" means the department of licensing;

(3) "Director" means the director of licensing;

(4) "Landlord" or "community owner" means the owner of a mobile home park or a manufactured housing community and includes the agents of a landlord;

(5) "Manufactured home" means a single-family dwelling built according to the United States department of housing and urban development manufactured home construction and safety standards act, which is a national preemptive building code. (6) "Mobile home" means a factory-built dwelling built prior to June 15, 1976, to standards other than the United States department of housing and urban development code, and acceptable under applicable state codes in effect at the time of construction or introduction of the home into the state. Mobile homes have not been built since the introduction of the United States department of housing and urban development manufactured home construction and safety act;

(7) "Manufactured/mobile home" means either a manufactured home or a mobile home;

(8) "Manufactured/mobile home lot" means a portion of a manufactured/mobile home community designated as the location of one mobile home, manufactured home, or park model and its accessory buildings, and intended for the exclusive use as a primary residence by the occupants of that mobile home, manufactured home, or park model;

(9) "Mobile home park," "manufactured housing community," or "manufactured/mobile home community" means any real property that is rented or held out for rent to others for the placement of two or more mobile homes, manufactured homes, park models, or recreational vehicles for the primary purpose of production of income, except where the real property is rented or held out for rent for seasonal recreational purposes only and is not used for year-round occupancy;

(10) "Owner" means one or more persons, jointly or severally, in whom is vested:

(a) All or part of the legal title to the real property; or

(b) All or part of the beneficial ownership, and a right to present use and enjoyment of the real property;

(11) "Park model" means a recreational vehicle intended for permanent or semi-permanent installation and is used as a permanent residence;

(12) "Recreational vehicle" means a travel trailer, motor home, truck camper, or camping trailer that is primarily used as a permanent residence located in a mobile home park or manufactured housing community;

2007 REGULAR SESSION

(14) "Tenant" means any person, except a transient as defined in RCW 59.20.030, who rents a mobile home lot.

NEW SECTION. Sec. 3. (1) The attorney general shall administer a manufactured/mobile home dispute resolution program.

(2) The purpose of the manufactured/mobile home dispute resolution program is to provide manufactured/mobile home community landlords and tenants with a cost-effective and time-efficient process to resolve disputes regarding alleged violations of the manufactured/mobile home landlord-tenant act.

(3) The attorney general under the manufactured/mobile home dispute resolution program shall:

(a) Produce educational materials regarding chapter 59.20 RCW and the manufactured/mobile home dispute resolution program, including a notice in a format that a landlord can reasonably post in a manufactured/mobile home community that summarizes tenant rights and responsibilities, includes information on how to file a complaint with the attorney general, and includes a toll-free telephone number and web site address that landlords and tenants can use to seek additional information and communicate complaints;

(b) Distribute the educational materials described in (a) of this subsection to all known landlords and information alerting landlords that:

(i) All landlords must post the notice provided by the attorney general that summarizes tenant rights and responsibilities and includes information on how to file complaints, in a clearly visible location in all common areas of manufactured/mobile home communities, including in each clubhouse;

(ii) The attorney general may visually confirm that the notice is appropriately posted; and

(iii) The attorney general may issue a fine or other penalty if the attorney general discovers that the landlord has not appropriately posted the notice or that the landlord has not maintained the posted notice so that it is clearly visible to tenants;

(c) Distribute the educational materials described in (a) of this subsection to any complainants and respondents, as requested;

(d) Perform dispute resolution activities, including investigations, negotiations, determinations of violations, and imposition of fines or other penalties as described in section 4 of this act;

(e) Create and maintain a database of manufactured/mobile home communities that have had complaints filed against them. For each manufactured/mobile home community in the database, the following information must be contained, at a minimum:

- (i) The number of complaints received;
- (ii) The nature and extent of the complaints received;
- (iii) The violation of law complained of; and
- (iv) The manufactured/mobile home dispute resolution program outcomes for each complaint;

(f) Provide an annual report to the appropriate committees of the legislature on the data collected under this section, including program performance measures and recommendations regarding how the manufactured/mobile home dispute resolution program may be improved, by December 31st, beginning in 2007.

(4) The manufactured/mobile home dispute resolution program, including all of the duties of the attorney general under the program as described in this section, shall be funded by the collection of fines, other penalties, and fees deposited into the manufactured/mobile home dispute resolution program account created in section 8 of this act, and all other sources directed to the manufactured/mobile home dispute resolution program.

NEW SECTION. Sec. 4. (1) An aggrieved party has the right to file a complaint with the attorney general alleging a violation of chapter 59.20 RCW.

(2) Upon receiving a complaint under this act, the attorney general must:

(a) Inform the complainant of any notification requirements under RCW 59.20.080 for tenant violations or RCW 59.20.200 for landlord violations and encourage the complainant to appropriately notify the respondent of the complaint; and

(b) If a statutory time period is applicable, inform the complainant of the time frame that the respondent has to remedy the complaint under RCW 59.20.080 for tenant violations or RCW 59.20.200 for landlord violations.

(3) After receiving a complaint under this act, the attorney general shall initiate the manufactured/mobile home dispute resolution program by investigating the alleged violations at its discretion and, if appropriate, facilitating negotiations between the complainant and the respondent.

(4)(a) Complainants and respondents shall cooperate with the attorney general in the course of an investigation by (i) responding to subpoenas issued by the attorney general, which may consist of providing access to papers or other documents, and (ii) providing access to the manufactured/mobile home facilities relevant to the investigation. Complainants and respondents must respond to attorney general subpoenas within thirty days.

(b) Failure to cooperate with the attorney general in the course of an investigation is a violation of this chapter.

(5) If after an investigation the attorney general determines that an agreement cannot be negotiated between the parties, the attorney general shall make a written determination on whether a violation of chapter 59.20 RCW has occurred.

(a) If the attorney general finds by a written determination that a violation of chapter 59.20 RCW has occurred, the attorney general shall deliver a written notice of violation to the respondent who committed the violation by certified mail. The notice of violation must specify the violation, the corrective action required, the time within which the corrective action must be taken, the penalties including fines, other penalties, and actions that will result if corrective action is not taken within the specified time period, and the process for contesting the determination, fines, penalties, and other actions included in the notice of violation through an administrative hearing. The attorney general must deliver to the complainant a copy of the notice of violation by certified mail.

(b) If the attorney general finds by a written determination that a violation of chapter 59.20 RCW has not occurred, the attorney general shall deliver a written notice of nonviolation to both the complainant and the respondent by certified mail. The notice of nonviolation must include the process for contesting the determination included in the notice of nonviolation through an administrative hearing.

(6) Corrective action must take place within fifteen business days of the respondent's receipt of a notice of violation, except as required otherwise by the attorney general, unless the respondent has submitted a timely request for an administrative hearing to contest the notice of violation as required under subsection (8) of this section. If a respondent, which includes either a landlord or a tenant, fails to take corrective action within the required time period and the attorney general has not received a timely request for an administrative hearing, the attorney general may impose a fine, up to a maximum of two hundred fifty dollars per violation per day, for each day that a violation remains uncorrected. The attorney general must consider the severity and duration of the violation and the violation's impact on other community residents when determining the appropriate amount of a fine or the appropriate penalty to impose on a respondent. If the respondent shows upon timely application to the attorney general that a good faith effort to comply with the corrective action requirements of the notice of violation has been made and that the corrective action has not been completed because of mitigating factors beyond the respondent's control, the attorney general may delay the imposition of a fine or penalty.

(7) The attorney general may issue an order requiring the respondent, or its assignee or agent, to cease and desist from an

EIGHTY-THIRD DAY, MARCH 31, 2007

unlawful practice and take affirmative actions that in the judgment of the attorney general will carry out the purposes of this chapter. The affirmative actions may include, but are not limited to, the following:

(a) Refunds of rent increases, improper fees, charges, and assessments collected in violation of this chapter;

(b) Filing and utilization of documents that correct a statutory or rule violation; and

(c) Reasonable action necessary to correct a statutory or rule violation.

(8) A complainant or respondent may request an administrative hearing before an administrative law judge under chapter 34.05 RCW to contest:

(a) A notice of violation issued under subsection (5)(a) of this section or a notice of nonviolation issued under subsection (5)(b) of this section;

(b) A fine or other penalty imposed under subsection (6) of this section; or

(c) An order to cease and desist or an order to take affirmative actions under subsection (7) of this section.

The complainant or respondent must request an administrative hearing within fifteen business days of receipt of a notice of violation, notice of nonviolation, fine, other penalty, order, or action. If an administrative hearing is not requested within this time period, the notice of violation, notice of nonviolation, fine, other penalty, order, or action constitutes a final order of the attorney general and is not subject to review by any court or agency.

(9) If an administrative hearing is initiated, the respondent and complainant shall each bear the cost of his or her own legal expenses.

(10) The administrative law judge appointed under chapter 34.12 RCW shall:

(a) Hear and receive pertinent evidence and testimony;

(b) Decide whether the evidence supports the attorney general finding by a preponderance of the evidence; and

(c) Enter an appropriate order within thirty days after the close of the hearing and immediately mail copies of the order to the affected parties.

The order of the administrative law judge constitutes the final agency order of the attorney general and may be appealed to the superior court under chapter 34.05 RCW.

(11) When the attorney general imposes a fine, refund, or other penalty against a respondent, the respondent may not seek any recovery or reimbursement of the fine, refund, or other penalty from a complainant or from other manufactured/mobile home tenants.

(12) All receipts from the imposition of fines or other penalties collected under this section other than those due to a complainant must be deposited into the manufactured/mobile home dispute resolution program account created in section 8 of this act.

(13) This section is not exclusive and does not limit the right of landlords or tenants to take legal action against another party as provided in chapter 59.20 RCW or otherwise. Exhaustion of the administrative remedy provided in this chapter is not required before a landlord or tenants may bring a legal action. This section does not apply to unlawful detainer actions initiated under RCW 59.20.080 prior to the filing and service of an unlawful detainer court action; however, a tenant is not precluded from seeking relief under this chapter if the complaint claims the notice of termination violates RCW 59.20.080 prior to the filing and service of an unlawful detainer action.

NEW SECTION. Sec. 5. The attorney general, director, or individuals acting on behalf of the attorney general or director are immune from suit in any action, civil or criminal, based upon any disciplinary actions or other official acts performed in the course of their duties under this chapter, except their intentional or willful misconduct.

NEW SECTION. Sec. 6. (1) The department shall annually register all manufactured/mobile home communities. Each

2007 REGULAR SESSION

community must be registered separately. The department must deliver by certified mail registration notifications to all known manufactured/mobile home community landlords. Registration information packets must include:

(a) Registration forms; and

(b) Registration assessment information, including registration due dates and late fees, and the collections procedures, liens, and charging costs to tenants.

(2) To apply for registration, the landlord of a manufactured/mobile home community must file with the department an application for registration on a form provided by the department and must pay a registration fee as described in subsection (3) of this section. The department may require the submission of information necessary to assist in identifying and locating a manufactured/mobile home community and other information that may be useful to the state, which must include, at a minimum:

(a) The names and addresses of the owners of the manufactured/mobile home community;

(b) The name and address of the manufactured/mobile home community;

(c) The name and address of the landlord and manager of the manufactured/mobile home community;

(d) The number of lots within the manufactured/mobile home community that are subject to chapter 59.20 RCW; and

(e) The addresses of each manufactured/mobile home lot within the manufactured/mobile home community that is subject to chapter 59.20 RCW.

(3) Each manufactured/mobile home community landlord shall pay to the department:

(a) A one-time master application fee for the first year of registration and, in subsequent years, an annual master renewal application fee, as provided in RCW 19.02.075; and

(b) An annual registration assessment of ten dollars for each manufactured/mobile home that is subject to chapter 59.20 RCW within a manufactured/mobile home community. Manufactured/mobile home community landlords may charge a maximum of five dollars of this assessment to tenants. Nine dollars of the registration assessment for each manufactured/mobile home shall be deposited into the manufactured/mobile home dispute resolution program account created in section 8 of this act to fund the costs associated with the manufactured/mobile home dispute resolution program. The remaining one dollar shall be deposited into the master license fund created in RCW 19.02.210. The annual registration assessment must be reviewed once each biennium by the department and the attorney general and may be adjusted to reasonably relate to the cost of administering this chapter. The registration assessment may not exceed ten dollars, but if the assessment is reduced, the portion allocated to the manufactured/mobile home dispute resolution program account and the master license fund shall be adjusted proportionately.

(4) Initial registrations of mobile/manufactured housing communities must be filed with the department before November 1, 2007, or within three months of the availability of mobile home lots for rent within the community. The manufactured/mobile home community is subject to a delinquency fee of two hundred fifty dollars for late initial registrations. The delinquency fee shall be deposited in the master license fund. Renewal registrations that are not renewed by the expiration date as assigned by the department are subject to delinquency fees under RCW 19.02.085.

(5) Thirty days after sending late fee notices to a noncomplying landlord, the department may refer the past due account to a collection agency. If there is no response from a noncomplying landlord after sixty days in collections, the department may file an action to enforce payment of unpaid registration assessments and late fees in the superior court for Thurston county or in the county in which the manufactured/mobile home community is located. If the department prevails, the manufactured/mobile home community

landlord shall pay the department's costs, including reasonable attorneys' fees, for the enforcement proceedings.

(6) Registration is effective on the date determined by the department, and the department shall issue a registration number to each registered manufactured/mobile home community. The department must provide an expiration date, assigned by the department, to each manufactured/mobile home community who registers.

NEW SECTION. Sec. 7. The department must have the capability to compile, update, and maintain the most accurate database possible of all the manufactured/mobile home communities in the state, which must include all of the information collected under section 6 of this act, except for the addresses of each manufactured/mobile home lot within the manufactured/mobile home community that is subject to chapter 59.20 RCW, which must be made available to the attorney general and the department of community, trade, and economic development in a format to be determined by a collaborative agreement between the department of licensing and the attorney general.

NEW SECTION. Sec. 8. The manufactured/mobile home dispute resolution program account is created in the custody of the state treasurer. All receipts from sources directed to the manufactured/mobile home dispute resolution program must be deposited in the account. Expenditures from the account may be used only for the costs associated with administering the manufactured/mobile home dispute resolution program. Only the attorney general or the attorney general's designee may authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures.

NEW SECTION. Sec. 9. A new section is added to chapter 34.12 RCW to read as follows:

When requested by the attorney general, the chief administrative law judge shall assign an administrative law judge to conduct proceedings under Title 59 RCW.

NEW SECTION. Sec. 10. Sections 1 through 8 of this act constitute a new chapter in Title 59 RCW.

NEW SECTION. Sec. 11. The attorney general may take the necessary steps to ensure that this act is implemented on its effective date."

POINT OF INQUIRY

Senator Clements: "Would Senator Kohl-Welles yield to a question? It's my understanding that this bill applies only to cranes used in construction and that activities involving routine maintenance are exempt from this bill. So, for example, a private railroad performing routine maintenance on its rail lines would be exempt. Is that correct?"

Senator Kohl-Welles: "Yes, thank you Senator for that question. That is correct, the bill establishes certification requirements for construction cranes and qualifications for construction crane operators only. We've had staff attorneys look into this at length and routine maintenance does not constitute construction and your example, a private railroad that uses a crane to replace ties or rails in order to maintain and establish track is not subject to regulation under this bill because that activity is considered maintenance. However, if the private railroad were to use a crane to replace structural members on a railroad bridge for example to build a new spur or railway or to build a structure, it would be subject to regulation under the bill because those activities would be considered construction activities."

Senator Clements and Franklin spoke in favor of passage of the bill.

NEW SECTION. Sec. 602. INFORMATION SYSTEMS PROJECTS. Agencies shall comply with the following requirements regarding information systems projects when specifically directed to do so by this act.

(1) Agency planning and decisions concerning information technology shall be made in the context of its information technology portfolio. "Information technology portfolio" means a strategic management approach in which the relationships between agency missions and information technology investments can be seen and understood, such that: Technology efforts are linked to agency objectives and business plans; the

EIGHTY-THIRD DAY, MARCH 31, 2007

impact of new investments on existing infrastructure and business functions are assessed and understood before implementation; and agency activities are consistent with the development of an integrated, nonduplicative statewide infrastructure.

(2) Agencies shall use their information technology portfolios in making decisions on matters related to the following:

(a) System refurbishment, acquisitions, and development efforts;

(b) Setting goals and objectives for using information technology in meeting legislatively-mandated missions and business needs;

(c) Assessment of overall information processing performance, resources, and capabilities;

(d) Ensuring appropriate transfer of technological expertise for the operation of any new systems developed using external resources; and

(e) Progress toward enabling electronic access to public information.

(3) Each project will be planned and designed to take optimal advantage of Internet technologies and protocols. Agencies shall ensure that the project is in compliance with the architecture, infrastructure, principles, policies, and standards of digital government as maintained by the information services board.

(4) The agency shall produce a feasibility study for information technology projects at the direction of the information services board and in accordance with published department of information services policies and guidelines. At a minimum, such studies shall include a statement of: (a) The purpose or impetus for change; (b) the business value to the agency, including an examination and evaluation of benefits, advantages, and cost; (c) a comprehensive risk assessment based on the proposed project's impact on both citizens and state operations, its visibility, and the consequences of doing nothing; (d) the impact on agency and statewide information infrastructure; and (e) the impact of the proposed enhancements to an agency's information technology capabilities on meeting service delivery demands.

(5) The agency shall produce a comprehensive management plan for each project. The plan or plans shall address all factors critical to successful completion of each project. The plan(s) shall include, but is not limited to, the following elements: A description of the problem or opportunity that the information technology project is intended to address; a statement of project objectives and assumptions; a definition and schedule of phases, tasks, and activities to be accomplished; and the estimated cost of each phase. The planning for the phased approach shall be such that the business case justification for a project needs to demonstrate how the project recovers cost or adds measurable value or positive cost benefit to the agency's business functions within each development cycle.

(6) The agency shall produce quality assurance plans for information technology projects. Consistent with the direction of the information services board and the published policies and guidelines of the department of information services, the quality assurance plan shall address all factors critical to successful completion of the project and successful integration with the agency and state information technology infrastructure. At a minimum, quality assurance plans shall provide time and budget benchmarks against which project progress can be measured, a specification of quality assurance responsibilities, and a statement of reporting requirements. The quality assurance plans shall set out the functionality requirements for each phase of a project.

(7) A copy of each feasibility study, project management plan, and quality assurance plan shall be provided to the department of information services, the office of financial management, and legislative fiscal committees. The plans and studies shall demonstrate a sound business case that justifies the

2007 REGULAR SESSION

investment of taxpayer funds on any new project, an assessment of the impact of the proposed system on the existing information technology infrastructure, the disciplined use of preventative measures to mitigate risk, and the leveraging of private-sector expertise as needed. Authority to expend any funds for individual information systems projects is conditioned on the approval of the relevant feasibility study, project management plan, and quality assurance plan by the department of information services and the office of financial management.

(8) Quality assurance status reports shall be submitted to the department of information services, the office of financial management, and legislative fiscal committees at intervals specified in the project's quality assurance plan.

Current biennium funding for each project is a line item appropriation, while the outer year funding allocations represent a sixteen year balanced plan. Unless otherwise provided in this act, the director of financial management may authorize a transfer of spending allocation within the appropriation provided and between projects funded with transportation 2003 account (nickel account) appropriations, transportation partnership account appropriations, or multimodal transportation account appropriations, in order to manage project spending and efficiently deliver all projects in the respective program under the following conditions and limitations:

(a) Transfers may only be made within each specific fund source referenced on the respective project list;

(b) Transfers from a project may not be made as a result of the reduction of the scope of a project, nor shall a transfer be made to support increases in the scope of a project;

(c) Each transfer between projects may only occur if the director of financial management finds that any resulting change will not hinder the completion of the projects as approved by the legislature;

(d) Transfers to a project may be made without an offsetting project reduction if the office of financial management finds there is sufficient appropriation authority to accommodate the allocation increase;

(e) Transfers of less than \$500,000 may be made by the department without approval from the office of financial management;

(f) Transfers may not occur to projects not identified on the applicable project list; and

(g) Transfers may not be made while the legislature is in session.

When the board determines that the demand for pilots requires entry of an applicant into the training program it shall issue a training license to that applicant, but under no circumstances may an applicant be issued a training license more than four years after taking the written entry examination. The training license authorizes the trainee to do such actions as are specified in the training program.

After the completion of the training program the board shall evaluate the trainee's performance and knowledge. Any person who willfully gives advance knowledge of information contained on a pilot examination or other evaluation exercise is guilty of a gross misdemeanor.

(6) Pilots are licensed under this section for a term of five years from and after the date of the issuance of their respective state licenses. The fees established under this subsection may be increased in excess of the fiscal growth factor as provided in RCW 43.135.055 through the fiscal year ending June 30, 2009. The fees must be deposited in the state treasury to the credit of the pilotage account. The board may assess partially active or inactive pilots a reduced fee.

(7) All pilots and applicants are subject to an annual physical examination by a physician chosen by the board. The

physician shall examine the applicant's heart, blood pressure, circulatory system, lungs and respiratory system, eyesight, hearing, and such other items as may be prescribed by the board. After consultation with a physician and the United States coast guard, the board shall establish minimum health standards to ensure that pilots licensed by the state are able to perform their duties. Within ninety days of the date of each annual physical examination, and after review of the physician's report, the board shall make a determination of whether the pilot or applicant is fully able to carry out the duties of a pilot under this chapter. The board may in its discretion check with the appropriate authority for any convictions of offenses involving drugs or the personal consumption of alcohol in the prior twelve months.

(8) The board may require vessel simulator training for a pilot applicant and shall require vessel simulator training for a licensed pilot subject to RCW 88.16.105. The board shall also require vessel simulator training in the first year of active duty for a new pilot and at least once every five years for all active pilots.

(9) The board shall prescribe, pursuant to chapter 34.05 RCW, such reporting requirements and review procedures as may be necessary to assure the accuracy and validity of license and service claims. (3) Any federal moneys available for acquisition of right of way for future construction under the provisions of section 108 of Title 23, United States Code.

(4) During the 2007-09 fiscal biennium, the legislature may transfer from the advance right of way revolving fund to the motor vehicle account amounts as reflect the excess fund balance of the advance right of way revolving fund.

The purpose of the study is to facilitate policy discussions and decisions by members of the legislature regarding the Washington state ferry system. The legislature recognizes there is a need within the Washington state ferry system for predictable cash flows, transparency, assessment of organizational structure, verification that the Washington state ferry system is operating at maximum efficiency, and better labor relations. (a) The study shall be guided by a 18 member task force consisting of the chairs and ranking members of the house of representatives and senate transportation committees, a designee of the director of the office of financial management, a member of the transportation commission, a designee of the secretary of transportation, a representative of organized labor, and ten stakeholders to be appointed by the governor as follows: Six representatives of ferry user communities, two representatives of public transportation agencies, and two representatives of commercial ferry operators.

The institute shall also evaluate the costs and benefits of programs and policies showing the greatest positive impact on teenage driving safety.

((6)) (5) The committee shall conduct an evaluation of the department of transportation surface transportation program enhancement grant program. The evaluation will include (a) information about the categories of projects submitted for consideration; (b) a review of the allocation of funds awarded across the categories of STP enhancement eligible activities; (c) a review of the criteria used to score projects; and (d) a finding by the committee whether certain categories of projects are disproportionately funded or unfunded.

TOTAL APPROPRIATION . . .	(\$48,316,000)
	<u>\$47,317,000</u>

The appropriations in this section are subject to the following conditions and limitations:

(1) In order to qualify for state planning funds available to regional transportation planning organizations under this section, a regional transportation planning organization containing any county with a population in excess of one million shall provide voting membership on its executive board to any incorporated principal city of a metropolitan statistical area within the region, as designated by the United States census bureau, and to any incorporated city within the region with a population in excess of eighty thousand as of July 1, 2005. Additionally, a regional transportation planning organization described under this subsection shall conduct a review of its executive board membership criteria to ensure that the criteria appropriately reflects a true and comprehensive representation of the organization's jurisdictions of significance within the region.

(2) \$175,000 of the motor vehicle account--state appropriation is provided to the department in accordance with RCW 46.68.110(2) and 46.68.120(3) and shall be used by the department to support the processing and analysis of the backlog of city and county collision reports by January 2006. The amount provided in this subsection shall lapse if federal funds become available for this purpose.

(3) \$150,000 of the multimodal transportation account--state appropriation is provided solely for the implementation of Engrossed Second Substitute House Bill No. 1565. If Engrossed Second Substitute House Bill No. 1565 is not enacted by June 30, 2005, the amount provided in this subsection shall lapse.

(4) The department of transportation shall evaluate the number of spaces available for long-haul truck parking relative to current and projected future needs. The department of transportation shall also explore options for augmenting the number of spaces available, including, but not limited to, expanding state-owned rest areas or modifying regulations governing the use of these facilities, utilizing weigh stations and park and ride lots, and encouraging the expansion of the private sector's role. Finally, the department shall explore the utility of coordinating with neighboring states on long-haul truck parking and evaluate methodologies for alleviating any air quality issues relative to the issue. The department must report to the transportation committees of the legislature by December 1, 2005, on the options, strategies, and recommendations for long-haul truck parking.

(5) \$50,000 of the multimodal transportation account--state appropriation is provided solely for evaluating high-speed passenger transportation facilities and services, including rail or magnetic levitation transportation systems, to connect airports as a means to more efficiently utilize airport capacity, as well as connect major population and activity centers. This evaluation shall be coordinated with the airport capacity and facilities market analysis conducted pursuant to Engrossed Substitute Senate Bill No. 5121 and results of the evaluation shall be submitted by July 1, 2007. If Engrossed Substitute Senate Bill

No. 5121 is not enacted by June 30, 2005, or if federal funds are not received by March 1, 2006, for the purpose of implementing Engrossed Substitute Senate Bill No. 5121, the amount provided in this subsection shall lapse.

(6) \$700,000 of the motor vehicle account--state appropriation is provided solely for completing funding for a route development plan of U.S. route 2.

(7) The department shall conduct a study of the resources allocated to each of the seven department regions and the corresponding workloads. Given the magnitude of the investments in the Puget Sound region, particular emphasis shall be given to reviewing the resources allocated and corresponding workloads with respect to the urban corridors region and the northwest region. Based on the results of this study, the department shall submit recommendations by December 1, 2006, to the legislature and the office of financial management regarding reallocating resources and revising regional boundaries within the department, as appropriate, in order to better coincide allocated resources with designated regional boundaries.

(8) \$750,000 of the multimodal transportation account--state appropriation is provided solely for implementing Engrossed Substitute House Bill No. 2871. If Engrossed Substitute House Bill No. 2871 is not enacted by June 30, 2006, the amount provided in this subsection shall lapse. The regional transportation commission's duties to develop, complete, and submit a governance proposal to the 2007 legislature are highly time sensitive. As a result, the legislature finds that competitive bidding is not cost-effective or appropriate for personal service contracts entered into by the commission, and that the director of the office of financial management should, by the director's authority under RCW 39.29.011(5), exempt any such personal service contract from the competitive bidding requirements of chapter 39.29 RCW.

(9) \$2,300,000 of the transportation partnership account--state appropriation is provided solely for the costs of the regional transportation investment district (RTID) and department of transportation project oversight. The department shall provide support from its urban corridors region to assist in preparing project costs, expenditure plans, and modeling. The department shall not deduct a management reserve, nor charge management or overhead fees. These funds are provided as a loan to the RTID and shall be repaid to the state motor vehicle account within one year following the certification of the election results related to the RTID.

(10) \$100,000 of the motor vehicle account--state appropriation is provided solely to the department in accordance with RCW 46.68.110(2) and 46.68.120(3) and shall be used by the department solely to conduct an analysis of expanding the transportation concurrency requirements prescribed under the growth management act, chapter 36.70A RCW, to include development impacts on level of service standards applicable to state-owned transportation facilities, including state highways and state ferry routes. The objective of the analysis is to determine how to ensure that jurisdictional divisions do not defeat growth management act concurrency goals. The department shall convene a committee to oversee the analysis, with the committee comprised of, at a minimum, four members of the transportation committees of the legislature, four members of the appropriate land use committees of the legislature, and one member each from the association of Washington cities and the Washington state association of counties, or a designee thereof. The completed study, including recommendations, must be submitted to the appropriate standing committees of the legislature, and to the office of financial management, by December 1, 2006.

(11) The department of transportation, the Washington state economic revenue forecast council, and the office of financial management shall review and adopt a method of forecasting motor vehicle and special fuel prices, revenue, and the amount of consumption that has an increased rate of accuracy as

EIGHTY-THIRD DAY, MARCH 31, 2007

compared to the existing method. The three agencies shall submit a report to the transportation committees of the legislature by December 1, 2006, outlining the methods researched and the criteria utilized to select and adopt the new fuel forecasting method.

(12) \$150,000 of the multimodal transportation account--state appropriation is provided solely for a transportation demand management program, developed by the Whatcom council of governments, to further reduce drive-alone trips and maximize the use of sustainable transportation choices. The community based program must focus on all trips, not only commute trips, by providing education, assistance, and incentives to four target audiences: (a) Large work sites; (b) employees of businesses in downtown areas; (c) school children; and (d) residents of Bellingham.

The department shall promptly close out grants when projects have been completed, and identify where unused grant funds remain because actual project costs were lower than estimated in the grant award. When funds become available either because grant awards have been rescinded for lack of sufficient project activity or because completed projects returned excess grant funds upon project closeout, the department shall expeditiously extend new grant awards to qualified alternative projects identified on the list.

(b) Pursuant to the grant program established in RCW 47.66.030, the department shall issue a call for projects and/or service proposals. The appropriations in this section are subject to the following conditions and limitations:

(1) To manage some projects more efficiently, federal funds may be transferred from program Z to programs I and P and state funds shall be transferred from programs I and P to program Z to replace those federal funds in a dollar-for-dollar match. Any project that has been awarded traffic and pedestrian safety improvement grant funds, but does not report activity on the project within one year of grant award should be reviewed by the department to determine whether the grant should be terminated. The department must promptly close out grants when projects have been completed, and identify where unused grant funds remain because actual project costs were lower than estimated in the grant award. The department shall expeditiously extend new grant awards to qualified projects when funds become available either because grant awards have been rescinded for lack of sufficient project activity or because completed projects returned excess grant funds upon project closeout.

(6) The motor vehicle account--state appropriation includes up to \$905,000 in unexpended proceeds from the sale of bonds authorized by RCW 47.10.843.

provided solely for a specified purpose to be used for other than that purpose.

(2) The department of social and health services shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(3) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act.

(4) The department is authorized to develop an integrated health care program designed to slow the progression of illness and disability and better manage medicaid expenditures for the aged and disabled population. Under this Washington medicaid integration partnership (WMIP) the department may combine and transfer such medicaid funds appropriated under sections 204, 206, 208, and 209 of this act as may be necessary to finance a unified health care plan for the WMIP program enrollment. The WMIP pilot projects shall not exceed a daily enrollment of 13,000 persons during the 2007-2009 biennium. The amount of funding assigned to the pilot projects from each program may not exceed the average per capita cost assumed in this act for individuals covered by that program, actuarially adjusted for the health condition of persons enrolled in the pilot, times the number of clients enrolled in the pilot. In implementing the WMIP pilot projects, the department may: (a) Withhold from calculations of "available resources" as set forth in RCW 71.24.025 a sum equal to the capitated rate for individuals enrolled in the pilots; and (b) employ capitation financing and risk-sharing arrangements in collaboration with health care service contractors licensed by the office of the insurance commissioner and qualified to participate in both the medicaid and medicare programs. The department shall conduct an evaluation of the WMIP, measuring changes in participant health outcomes, changes in patterns of service utilization, participant satisfaction, participant access to services, and the state fiscal impact.

TOTAL APPROPRIATION	\$1,002,653,000

The appropriations in this subsection are subject to the following conditions and limitations:

(a) \$105,583,000 of the general fund--state appropriation for fiscal year 2008 and \$106,707,000 of the general fund--state appropriation for fiscal year 2009 are provided solely for persons and services not covered by the medicaid program. These funds shall be distributed proportionally to each regional support network's percentage of the total state population. Included in these amounts are inflationary increases of 1.6 percent effective July 2007 and an additional 1.0 percent effective July 2008.

(b) \$16,900,000 of the general fund--state appropriation for fiscal year 2008 and \$16,900,000 of the general fund--state appropriation for fiscal year 2009 are provided solely for the department and regional support networks to contract for development and initial implementation of high-intensity program for active community treatment (PACT) teams, and other proven program approaches which the department concurs will enable the regional support network to achieve significant reductions during fiscal year 2008 and thereafter in the number of beds the regional support network would otherwise need to use at the state hospitals.

(c) The number of nonforensic beds allocated for use by regional support networks at eastern state hospital shall be 222 per day throughout fiscal year 2008. Beginning January 1, 2009, the number of nonforensic beds allocated for use by regional support networks at eastern state hospital shall be 192 per day. The number of nonforensic beds allocated for use by regional support networks at western state hospital shall be 777 per day during the first and second quarters of fiscal year 2008, and 677 per day from January 2008 through August 2008. (d) From the general fund--state appropriations in this subsection, the secretary of social and health services shall assure that regional support networks reimburse the aging and disability services administration for the general fund--state cost of medicaid personal care services that enrolled regional support network consumers use because of their psychiatric disability.

(e) Within amounts appropriated in this subsection, the department shall contract with the Clark county regional support network for development and operation of a project demonstrating collaborative methods for providing intensive mental health services in the school setting for severely emotionally disturbed children who are medicaid eligible. Project services shall be delivered by teachers and teaching assistants who qualify as, or who are under the supervision of, mental health professionals meeting the requirements of chapter 275-57 WAC. The department shall increase medicaid payments to the regional support network by the amount necessary to cover the necessary and allowable costs of the demonstration, not to exceed the upper payment limit specified for the regional support network in the department's medicaid waiver agreement with the federal government after meeting all other medicaid

EIGHTY-THIRD DAY, MARCH 31, 2007

2007 REGULAR SESSION

spending requirements assumed in this subsection. The regional support network shall provide the required nonfederal share of the increased medicaid payment provided for operation of this project.

(f) At least \$902,000 of the federal block grant funding appropriated in this subsection shall be used for the continued operation of the mentally ill offender pilot program.

(g) \$5,147,000 of the general fund--state appropriation for fiscal year 2008 and \$5,242,000 of the general fund--state appropriation for fiscal year 2009 are provided solely for mental health services for mentally ill offenders while confined in a county or city jail and for facilitating access to programs that offer mental health services upon mentally ill offenders' release from confinement. (h) \$1,548,000 of the general fund--state appropriation for fiscal year 2008 and \$1,579,000 of the general fund--state appropriation for fiscal year 2009 are provided solely for grants for innovative mental health service delivery projects. Such projects may include, but are not limited to, clubhouse programs and projects for integrated health care and behavioral health services for general assistance recipients. These amounts shall supplement, and not supplant, local or other funding currently being used for activities funded under the projects authorized in this subsection.

(i) The department is authorized to continue to expend federal block grant funds and special purpose federal grants through direct contracts, rather than through contracts with regional support networks, and to allocate such funds through such formulas as it shall adopt.

(j) The department is authorized to continue to contract directly, rather than through contracts with regional support networks, for children's long-term inpatient facility services.

(k) \$2,250,000 of the general fund--state appropriation for fiscal year 2008, \$2,250,000 of the general fund--state appropriation for fiscal year 2009, and \$4,500,000 of the general fund--federal appropriation are provided solely for the continued operation of community residential and support services for persons who are older adults or who have co-occurring medical and behavioral disorders and who have been discharged or diverted from a state psychiatric hospital. These funds shall be used to serve individuals whose treatment needs constitute substantial barriers to community placement, who no longer require active psychiatric treatment at an inpatient hospital level of care, and who no longer meet the criteria for inpatient involuntary commitment. Coordination of these services will be done in partnership between the mental health program and the aging and disability services administration.

(l) \$774,000 of the general fund--state appropriation for fiscal year 2008 and \$789,000 of the general fund--state appropriation for fiscal year 2009 are provided to continue performance-based incentive contracts to provide appropriate community support services for individuals with severe mental illness who were discharged from the state hospitals as part of the expanding community services initiative during the 2003-05 biennium. (m) \$796,000 of the general fund--state appropriation for fiscal year 2008, \$1,422,000 of the general fund--state appropriation for fiscal year 2009, and \$908,000 of the general fund--federal appropriation are provided solely to phase-in new payment rates for medicaid psychiatric inpatient services. Under the new system, consistent with the way rates are set for the treatment of physical illnesses, payment rates for psychiatric inpatient care are to be set at the statewide industry average per diem cost, adjusted for regional wage differences and for differences in capital costs. To facilitate the transition to this

new system, for hospitals that are expected to provide over 200 patient days of inpatient psychiatric care per year, rates shall not increase by more than an additional 10 percent each year, nor decrease by more than an additional 5 percent each year, until all hospitals are paid at the adjusted statewide average rate.

(n) \$5,077,000 of the general fund--state appropriation for fiscal year 2008 and \$5,077,000 of the general fund--state appropriation for fiscal year 2009 are provided solely to increase payment rates for nonmedicaid psychiatric inpatient services above fiscal year 2005 levels. (o) \$3,093,000 of the general fund--state appropriation and \$1,902,000 of the general fund--federal appropriation for fiscal year 2008 are provided solely to increase compensation for community mental health direct care staff effective January 2008. \$9,454,000 of the general fund--state appropriation and \$5,905,000 of the general fund--federal appropriation for fiscal year 2009 are provided solely to continue the January 2008 increase, and to provide an additional compensation increase for direct care staff effective January 2009. As used in this subsection, "direct care staff" means persons employed by community mental health agencies whose primary responsibility is providing direct treatment and support to people with mental illness. The term excludes employees whose duties are primarily administrative, and contractors. In order to obtain compensation pass-through funding, a community mental health agency must first provide a plan and budget to its regional support network demonstrating how the full amount of the pass-through, except for the appropriate employer share of applicable payroll taxes, will be used to increase wages or benefits for direct care staff. Upon approval of the plan, in order to access the funds, the agency must submit to the regional support network and to the department of social and health services a legally binding written certification that it will increase compensation for its direct care staff as provided in the plan and budget. An agency's plan shall be approved and it shall be deemed to have met the certification requirement by submitting an executed collective bargaining agreement that increases compensation for direct care staff by an amount commensurate with the additional funding provided. If judged appropriate by the regional support network or the department, participating agencies shall be audited to determine whether their certification has been fulfilled.

(p) Within funds provided in this subsection (1), medicaid capitation rates shall be increased by 1.6 percent effective July 2007, and by an additional 1.0 percent effective July 2008.

(q) \$2,071,000 of the general fund--state appropriation for fiscal year 2008 and \$1,733,000 of the general fund--state appropriation for fiscal year 2009 are provided solely for the implementation of Substitute House Bill No. 1456 (mental health professionals). If the bill is not enacted by June 30, 2007, the amounts provided in this subsection shall lapse. For purposes of organizing and delivering training as required by the bill, the department may retain up to fifteen percent of the amount appropriated for fiscal year 2008, and up to ten percent of the amount appropriated for fiscal year 2009. The remainders shall be distributed to regional support networks proportional to each network's percentage of the total state population.

If this can be accomplished, additional clients may be served with excess funds if the total projected carry-forward expenditures do not exceed the amounts estimated. The department shall electronically report to the appropriate committees of the legislature, within 45 days following each fiscal year quarter, the number of persons served with these additional community services, where they were residing, what kinds of services they were receiving prior to placement, and the actual expenditures for all community services to support these clients.

Washington college of forestry resources for additional research and technical assistance on the future of Washington forests. Reports shall be submitted by June 30, 2009, to the appropriate committees of the legislature on the following topics:

(a) An assessment by the center for international trade in forest products of the highest valued markets for timber products and recommendations for forest management approaches that would improve the position of Washington's forest and timber products industry in those high-valued markets. The college and the department shall also develop a pilot project on the Olympic experimental forest to test the economic viability of selective harvest of certain high-valued trees at such low intensity and with minimal-impact harvest techniques such that the forest ecosystem values are not diminished.

The college shall coordinate with Washington State University efforts to identify what new biological, chemical, and engineering technologies are emerging for converting forest biomass to clean and efficient energy.

(d) Recommendations for the college's northwest environmental forum for retaining the highest valued working forest lands at risk of conversion to nonforest uses. These recommendations should include an examination of means to enhance biodiversity through strategic retention of certain lands, as well as economic incentives for landowners to retain lands as working forests and provide ecosystem services. The recommendations shall prioritize forest lands in the Cascade foothills, which include the area generally encompassing the nonurbanized lands within the Cascade mountain range and drainages lying between three hundred and three thousand feet above mean sea level, and located within Whatcom, Skagit, Snohomish, King, Pierce, Thurston, and Lewis counties.

(b) The number of classified staff units determined in subsection (3) of this section multiplied by 1.152. This factor is intended to adjust allocations so that, for the purposes of distributing insurance benefits, full-time equivalent classified employees may be calculated on the basis of 1440 hours of work per year, with no individual employee counted as more than one full-time equivalent.

(6)(a) For nonemployee-related costs associated with each certificated staff unit allocated under subsection (2)(a), (b), and (d) through (h) of this section, there shall be provided a maximum of \$9,703 per certificated staff unit in the 2007-08 school year and a maximum of \$9,907 per certificated staff unit in the 2008-09 school year.

(8) Any school district board of directors may petition the superintendent of public instruction by submission of a resolution adopted in a public meeting to reduce or delay any portion of its basic education allocation for any school year. The superintendent of public instruction shall approve such reduction or delay if it does not impair the district's financial condition. Any delay shall not be for more than two school years. The funds shall be allocated at a rate not to exceed \$500 per full-time equivalent student enrolled in those programs; and

(e) \$4,714,000 of the education legacy trust account appropriation for fiscal year 2008 and \$4,673,000 of the education legacy trust account appropriation for fiscal year 2009 are provided solely for allocations for equipment replacement in vocational programs and skills centers. Each year of the biennium, the funding shall be allocated based on \$75 per full-time equivalent vocational student and \$125 per full-time equivalent skills center student.

(f) \$2,991,000 of the general fund--state appropriation for fiscal year 2008 and \$4,403,000 of the general fund--state appropriation for fiscal year 2009 are provided solely for the implementation of Second Substitute Senate Bill No. 5790 (regarding skills centers). (b) As used in this subsection, the column headings "BA+(N)" refer to the number of credits earned since receiving the baccalaureate degree.

(c) For credits earned after the baccalaureate degree but before the masters degree, any credits in excess of forty-five credits may be counted after the masters degree. Thus, as used in this subsection, the column headings "MA+(N)" refer to the total of:

- (i) Credits earned since receiving the masters degree; and
- (ii) Any credits in excess of forty-five credits that were earned after the baccalaureate degree but before the masters degree.

(5) For the purposes of this section:

- (a) "BA" means a baccalaureate degree.
- (b) "MA" means a masters degree.
- (c) "PHD" means a doctorate degree.

(d) "Years of service" shall be calculated under the same rules adopted by the superintendent of public instruction.

(e) "Credits" means college quarter hour credits and equivalent in-service credits computed in accordance with RCW 28A.415.020 and 28A.415.023.

(6) No more than ninety college quarter-hour credits received by any employee after the baccalaureate degree may be used to determine compensation allocations under the state salary allocation schedule and LEAP documents referenced in this act, or any replacement schedules and documents, unless:

- (a) The employee has a masters degree; or
- (b) The credits were used in generating state salary allocations before January 1, 1992.

(7) The certificated instructional staff base salary specified for each district in LEAP Document 2 and the salary schedules in subsection (4)(a) of this section include two learning improvement days. A school district is eligible for the learning improvement day funds only if the learning improvement days have been added to the 180- day contract year. If fewer days are added, the additional learning improvement allocation shall be adjusted accordingly. The additional days shall be limited to specific activities identified in the state required school improvement plan related to improving student learning that are consistent with education reform implementation, and shall not be considered part of basic education. The principal in each school shall assure that the days are used to provide the necessary school- wide, all staff professional development that is tied directly to the school improvement plan. The school principal and the district superintendent shall maintain documentation as to their approval of these activities. The length of a learning improvement day shall not be less than the length of a full day under the base contract. The superintendent of public instruction shall ensure that school districts adhere to the intent and purposes of this subsection.

(8) The salary allocation schedules established in this section are for allocation purposes only except as provided in RCW 28A.400.200(2) and subsection (7) of this section.

General Fund--State Appropriation (FY 2009) ..	\$344,618,000
General Fund--Federal Appropriation	\$771,000
TOTAL APPROPRIATION ...	\$505,964,000

The appropriations in this section are subject to the following conditions and limitations:

- (1) \$439,468,000 is provided solely for the following:

(b) Additional salary increases as necessary to fund the base salaries for certificated instructional staff as listed for each district in LEAP Document 2, defined in section 503(2)(b) of this act. Allocations for these salary increases shall be provided to all 262 districts that are not grandfathered to receive salary allocations above the statewide salary allocation schedule, and to certain grandfathered districts to the extent necessary to ensure that salary allocations for districts that are currently grandfathered do not fall below the statewide salary allocation schedule. These additional salary increases will result in a decrease in the number of grandfathered districts from the current thirty-four to twenty-four in the 2007-08 school year and to thirteen in the 2008-09 school year.

(c) Additional salary increases to certain districts as necessary to fund the per full-time-equivalent salary allocations for certificated administrative staff as listed for each district in LEAP Document 2, defined in section 503(2)(b) of this act. (f) The appropriations in this section include the increased portion of salaries and incremental fringe benefits for all relevant state-funded school programs in part V of this act. Increases for general apportionment (basic education) are based on the salary allocation schedules and methodology in sections 502 and 503 of this act. Increases for special education result from increases in each district's basic education allocation per student. Increases for educational service districts and institutional education programs are determined by the superintendent of public instruction using the methodology for

General Fund--Federal Appropriation	\$435,735,000
TOTAL APPROPRIATION .	\$1,551,120,000

The appropriations in this section are subject to the following conditions and limitations:

(1) Funding for special education programs is provided on an excess cost basis, pursuant to RCW 28A.150.390. School districts shall ensure that special education students as a class receive their full share of the general apportionment allocation accruing through sections 502 and 504 of this act. To the extent a school district cannot provide an appropriate education for special education students under chapter 28A.155 RCW through the general apportionment allocation, it shall provide services through the special education excess cost allocation funded in this section.

(2)(a) The superintendent of public instruction shall ensure that:

- (i) Special education students are basic education students first;
- (ii) As a class, special education students are entitled to the full basic education allocation; and
- (iii) Special education students are basic education students for the entire school day.

(b) All districts shall use the excess cost methodology first developed and implemented for the 2001-02 school year using the S-275 personnel reporting system and all related accounting requirements.

(3) Each fiscal year appropriation includes such funds as are necessary to complete the school year ending in the fiscal year and for prior fiscal year adjustments.

(4) The superintendent of public instruction shall distribute state funds to school districts based on two categories: (a) The first category includes (i) children birth through age two who are eligible for the optional program for special education eligible developmentally delayed infants and toddlers, and (ii) students eligible for the mandatory special education program and who are age three or four, or five and not yet enrolled in kindergarten; and (b) the second category includes students who are eligible for the mandatory special education program and who are age five and enrolled in kindergarten and students age six through 21.

(5)(a) For the 2007-08 and 2008-09 school years, the superintendent shall make allocations to each district based on the sum of:

(i) A district's annual average headcount enrollment of students ages birth through four and those five year olds not yet enrolled in kindergarten, as defined in subsection (4) of this section, multiplied by the district's average basic education allocation per full-time equivalent student, multiplied by 1.15; and

(ii) A district's annual average full-time basic education enrollment multiplied by the funded enrollment percent determined pursuant to subsection (6)(b) of this section, multiplied by the district's average basic education allocation per full-time equivalent student multiplied by 0.9309.

(b) For purposes of this subsection, "average basic education allocation per full-time equivalent student" for a district shall be based on the staffing ratios required by RCW 28A.150.260 and shall not include enhancements, secondary vocational education, or small schools.

(6) The definitions in this subsection apply throughout this section.

(a) "Annual average full-time equivalent basic education enrollment" means the resident enrollment including students enrolled through choice (RCW 28A.225.225) and students from

nonhigh districts (RCW 28A.225.210) and excluding students residing in another district enrolled as part of an interdistrict cooperative program (RCW 28A.225.250).

(b) "Enrollment percent" means the district's resident special education annual average enrollment, excluding the birth through age four enrollment and those five year olds not yet enrolled in kindergarten, as a percent of the district's annual average full-time equivalent basic education enrollment.

Safety net funds shall be awarded by the state safety net oversight committee subject to the following conditions and limitations:

(a) The committee shall consider unmet needs for districts that can convincingly demonstrate that all legitimate expenditures for special education exceed all available revenues from state funding formulas. In the determination of need, the committee shall also consider additional available revenues from federal sources. Differences in program costs attributable to district philosophy, service delivery choice, or accounting practices are not a legitimate basis for safety net awards.

(b) The committee shall then consider the extraordinary high cost needs of one or more individual special education students. Differences in costs attributable to district philosophy, service delivery choice, or accounting practices are not a legitimate basis for safety net awards.

(c) Using criteria developed by the committee, the committee shall then consider extraordinary costs associated with communities that draw a larger number of families with children in need of special education services.

(d) The maximum allowable indirect cost for calculating safety net eligibility may not exceed the federal restricted indirect cost rate for the district plus one percent.

(e) Safety net awards must be adjusted for any audit findings or exceptions related to special education funding.

(9) The superintendent of public instruction may adopt such rules and procedures as are necessary to administer the special education funding and safety net award process. Prior to revising any standards, procedures, or rules, the superintendent shall consult with the office of financial management and the fiscal committees of the legislature.

(12) A maximum of \$678,000 may be expended from the general fund--state appropriations to fund 5.43 full-time equivalent teachers and 2.1 full-time equivalent aides at children's orthopedic hospital and medical center. This amount is in lieu of money provided through the home and hospital allocation and the special education program.

(13) A maximum of \$1,000,000 of the general fund--federal appropriation is provided for projects to provide special education students with appropriate job and independent living skills, including work experience where possible, to facilitate their successful transition out of the public school system. The funds provided by this subsection shall be from federal discretionary grants.

The ombudsman program will provide data, information, and appropriate recommendations to the office of superintendent of public instruction, school districts, educational service districts, state need projects, and the parent and teacher information center.

(15) The superintendent shall maintain the percentage of federal flow-through to school districts at 85 percent. In addition to other purposes, school districts may use increased federal funds for high-cost students, for purchasing regional special education services from educational service districts, and for staff development activities particularly relating to inclusion issues.

(16) A maximum of \$1,200,000 of the general fund--federal appropriation may be expended by the superintendent for projects related to use of inclusion strategies by school districts for provision of special education services.

(17) The superintendent, consistent with the new federal IDEA reauthorization, shall continue to educate school districts on how to implement a birth-to-three program and review the cost effectiveness and learning benefits of early intervention.

(18) A school district may carry over from one year to the next year up to 10 percent of the general fund--state funds allocated under this program; however, carryover funds shall be expended in the special education program.
