Wiley Slough Restoration (08-1-028)

The appropriation in this section is subject to the following conditions and limitations: The department shall not expend any amounts of the appropriations in this section prior to July 1, 2008. The department shall submit a report to the appropriate committees of the legislature by January 1, 2008, to mitigate the loss of upland habitat, including waterfowl management capabilities, and the loss of outdoor recreation opportunities within the proposed Wiley Slough intertidal restoration area. The report shall contain:

(1) Options to mitigate the proposed loss of upland habitat, which may include but are not limited to: Retention of a portion of the currently proposed intertidal restoration area as upland habitat; identification and acquisition of nearby property for new or enhanced upland habitat; and other approaches that will mitigate the loss of upland habitat that will be incurred as a result of the completed intertidal restoration;

(2) A plan to retain and enhance recreation opportunities that will be lost as a result of the completed intertidal restoration; and

(3) A proposed budget to implement options to mitigate the loss of upland habitat and retain and enhance recreation opportunities. The proposed budget shall identify local, state, federal, and private grant opportunities that might support the proposed budget.

The report shall be developed with the immediate involvement of the user groups affected by the proposed loss of upland habitat and recreation opportunities. The legislature finds that progress in restoring the estuary at Wiley Slough is dependent on a community-supported plan that balances the goals of estuary restoration and improved salmon habitat with current uses of the proposed restoration area. Community investment and support for this restoration project is essential and the department must take a new approach to productively engage the community affected by the loss of upland habitat and recreation opportunities. It is the intent of the legislature that this project shall not move forward until the affected community is involved in the development of a revised Wiley Slough restoration plan and addresses these concerns and has wide community support.

NEW SECTION, Sec. 3204. FOR THE DEPARTMENT OF NATURAL RESOURCES

Trust Land Transfer (08-2-005)

The appropriations in this section are subject to the following conditions and limitations:

(1) The total appropriation is provided to the department solely to transfer from trust status, or enter into fifty year leases for, certain trust lands of statewide significance deemed appropriate for state park, fish and wildlife habitat, natural area preserve, natural resources conservation area, open space, housing and essential government services, or recreation purposes. The approved list of projects is identified in the LEAP capital document 2007-5, developed March 20, 2007.

(2) Property transferred under this section shall be appraised and transferred at fair market value. The value of the timber transferred shall be deposited by the department to the common school construction account in the same manner as timber revenues from other common school trust lands. No deduction shall be made for the resource management cost account under RCW 79.64.040. The value of the land transferred shall be deposited in the natural resources real property replacement account. These funds shall be expended by the department for the exclusive purpose of acquiring forest lands of equal value to be managed as common school trust land.

(3) Property subject to lease agreements under this section shall be appraised at fair market value. Lease terms shall be fifty years with options to renew for an additional fifty years. Lease payments shall be lump sum payments for the entire term of the lease at the beginning of the lease. The department shall calculate such lump sum payments using professional appraisal standards. These lease payments may not exceed the fee simple purchase price based on current fair market value and shall be deposited by the department to the common school construction account in the same manner as lease revenues from other common school trust lands. No deduction shall be made for the resource management cost account under RCW 79.64.040.

(4) All reasonable costs incurred by the department to implement this section are authorized to be paid out of the appropriations. Authorized costs include the actual cost of appraisals, staff time, environmental reviews, surveys, and other similar costs.

(5) Intergrant exchanges between common school and other trust lands of equal value may occur if the exchange is in the interest of each trust, as determined by the board of natural resources.

(6) Prior to or concurrent with conveyance of these properties, the department, with full cooperation of the receiving

agencies, shall execute and record a real property instrument that dedicates the transferred properties to the purposes identified in subsection (1) of this section. Transfer and lease agreements for properties identified in subsection (1) of this section must include terms that restrict the use of the property to the intended purpose. Transfer and lease agreements may include provisions for receiving agencies to request alternative uses of the property, provided the alternative uses are compatible with the original intended public purpose and the department and legislature approves such uses.

(7) The department and receiving agencies shall work in good faith to carry out the intent of this section. However, the department or receiving agencies may remove a property from the transfer list based on new, substantive information, if it is determined that transfer of the property is not in the statewide interest of either the common school trust or the receiving agency.

(8) The department shall execute trust land transfers that, after the deduction of reasonable costs as provided in subsection (4) of this section, eighty percent of the total value of transferred property is timber value and is deposited in the common school construction account. To achieve the eighty percent requirement, the department may choose to lease properties originally intended as transfers.

(9) On June 30, 2009, the state treasurer shall transfer all remaining uncommitted funds from this appropriation to the common school construction account and the appropriations in this section shall be reduced by an equivalent amount.

Conversion Land Acquisition (08-1-950)

The appropriations in this section are subject to the following conditions and limitations: The appropriations are provided solely for acquisition of working forest lands at risk of conversion to nonforest uses. The legislature finds that the chronic loss of working forest lands threatens the long-term prospects of the timber products industry, which in turn threatens the long-term economic return for the beneficiaries of state trust lands. Acquisition of these conversion lands is intended to help stabilize the primary source of revenue to trust land beneficiaries. The department shall submit a report to the appropriate committees of the legislature by October 1, 2008, indicating the lands purchased under this section, showing the locations, acres, purchase price, and within that purchase price, the value of the property attributed to the future value of timber harvests given an expected rate of return for timber lands, and the value of the property attributed to future development of the property. It is the intention of the legislature to lease the development rights of these conversion lands and retain them as long-term working forest lands under the sustainable harvest plan. Working forest lands acquired under this section shall be managed at a level equal to or greater than seventy-five percent of the expected harvest under the sustainable harvest plan. The appropriation provided in this section shall lapse unless chapter . . . (House Bill No. 2395 (An act relating to leasing state lands and development rights on state lands to public agencies), Laws of 2007, or similar provisions contained in other legislation, is enacted prior to June 30, 2007. No amounts appropriated in this section shall be expended on the central cascade land exchange unless one of the two following conditions are met: (1) The four Stemilt parcels in T21R20E are excluded from the exchange; or (2) the four Stemilt parcels in T21R20E are included in the exchange and the department and Chelan county, as chair of the Stemilt partnership, agree on a plan for eventual ownership, disposition, and management of the four Stemilt parcels. The department shall manage cash balances in the natural resources real property replacement account such that cash balances are sufficient for the treasurer transfers required in section 6030 of this act. The department may also transfer funds from the land bank subaccount of the resource management cost account to the natural resources real property replacement account to ensure sufficient cash balances.

The appropriation in this section is subject to the following conditions and limitations:

(1) Pursuant to definitions and provisions in section 925, chapter 26, Laws of 2003 1st sp. sess., the appropriation is provided solely to maintain facilities housing educational and general programs and to maintain its major building systems and campus infrastructure. Preventive Facility Maintenance and Building System Repairs (08-1-150)

The appropriation in this section is subject to the following conditions and limitations:

(1) Pursuant to definitions and provisions in section 925, chapter 26, Laws of 2003 1st sp. sess., the appropriation is provided solely to maintain facilities housing educational and general programs and to maintain its major building systems and campus infrastructure. Building maintenance, mechanical adjustments, repairs, and minor works for the facility or its major building systems and campus infrastructure must extend the remaining useful life of the facility or keep it safe and functioning normally.

(2) With this appropriation, the intent is to improve the average condition of state facilities as compared to the baseline conditions documented in report 03-1 of the joint legislative audit and review committee. Preventive facility maintenance project funds must be allocated at the state board's discretion to achieve the performance goal stated in this subsection (2), with particular attention given to buildings currently rated in superior to adequate condition so as to maximize useful life given both the passage of time and intensity with which the space is used.

(3) Section 6004 of this act does not apply to this appropriation.

(4) There is no intent to reappropriate amounts not expended by June 30, 2009.

Higher Education Cost Escalation (08-2-850)

The appropriation in this section is subject to the following conditions and limitations: The appropriation is provided solely for the state board for community and technical colleges to assist public community and technical colleges in managing unanticipated cost escalation for projects bid during the 2007-2009 biennium. Not more than \$750,000 shall be made available to any single project and amounts provided for this purpose must be matched equally from other resources. The board shall manage the distribution of funds to ensure that the requesting college has managed its project within the current appropriation through preparation of bid documents and that the scope of the project is no greater than was originally specified in the design. Prior to the office of financial management approving use of a minor works appropriation as a match, and its transfer to the project with unanticipated cost escalation, the board shall require the college to describe what it has done to identify and develop alternative resources for a match, and the specific minor works projects that would be deferred as a result of the transfer. The board will report to the office of financial

management and the appropriate fiscal committees of the legislature on the use of these funds.

**PART 6
MISCELLANEOUS AND SUPPLEMENTAL
PROVISIONS**

NEW SECTION. Sec. 6001. (1) Allotments for appropriations in this act shall be provided in accordance with the capital project review requirements adopted by the office of financial management. The office of financial management shall notify the house of representatives capital budget committee and the senate ways and means committee of allotment releases based on review by the office of financial management. No expenditure may be incurred or obligation entered into for appropriations in this act until the office of financial management has given final approval to the allotment of the funds to be expended or encumbered. For allotments under this act, the allotment process includes, in addition to the statement of proposed expenditures for the current biennium, a category or categories for any reserve amounts and amounts expected to be expended in future biennia. Projects that will be employing alternative public works construction procedures under chapter 39.10 RCW are subject to the allotment procedures defined in this section and RCW 43.88.110. Contracts shall not be executed that call for expenditures in excess of the approved allotment, and the total amount shown in such contracts for the cost of future work that has not been appropriated shall not exceed the amount identified for such work in the level of funding approved by the office of financial management at the completion of predesign.

(2) The legislature intends that each project be defined as proposed to the legislature in the governor's budget document, unless it clearly appears from the legislative history that the legislature intended to define the scope of a project in a different way.

NEW SECTION. Sec. 6002. To ensure that major construction projects are carried out in accordance with legislative and executive intent, appropriations in this act in excess of \$5,000,000 shall not be expended or encumbered until the office of financial management has reviewed and approved the agency's predesign. The predesign document shall include but not be limited to program, site, and cost analysis in accordance with the predesign manual adopted by the office of financial management. To improve monitoring of major construction projects, progress reports shall be submitted by the agency administering the project to the office of financial management and to the fiscal committees of the house of representatives and senate. Reports will be submitted on July 1st and December 31st each year in a format to be developed by the office of financial management.

NEW SECTION. Sec. 6003. (1) To ensure minor works appropriations are carried out in accordance with legislative intent, funds appropriated in this act shall not be allotted until project lists are on file at the office of financial management, the house of representatives capital budget committee, and the senate ways and means committee. All projects must meet the criteria included in subsection (2)(a) of this section. Revisions

ONE-HUNDRED FOURTH DAY, APRIL 21, 2007

2007 REGULAR SESSION

to the lists must be filed with the office of financial management, the house of representatives capital budget committee, and the senate ways and means committee and include an explanation of variances from the prior lists before funds may be expended on the revisions.

(2)(a) Minor works projects are single line appropriations that include multiple projects of a similar nature and that are valued between \$25,000 and \$1,000,000 each, with the exception of higher education minor works projects that may be valued up to \$2,000,000. These projects can generally be completed within two years of the appropriation with the funding provided. Agencies are prohibited from including projects on their minor works lists that are a phase of a larger project, and that if combined over a continuous period of time, would exceed \$1,000,000, or \$2,000,000 for higher education minor works projects. Improvements for accessibility in compliance with the Americans with disabilities act may be included in any of the above minor works categories.

(b) Minor works appropriations shall not be used for, among other things: Studies, except for technical or engineering reviews or designs that lead directly to and support a project on the same minor works list; planning; design outside the scope of work on a minor works list; moveable, temporary, and traditionally funded operating equipment not in compliance with the equipment criteria established by the office of financial management; software not dedicated to control of a specialized system; moving expenses; land or facility acquisition; or to supplement funding for projects with funding shortfalls unless expressly authorized elsewhere in this act. The office of financial management may make an exception to the limitations described in this subsection (2)(b) for exigent circumstances after notifying the legislative fiscal committees and waiting ten days for comments by the legislature regarding the proposed exception.

(3) It is generally not the intent of the legislature to make future appropriations for capital expenditures or for maintenance and operating expenses for an acquisition project or a significant expansion project that is initiated through the minor works process and therefore does not receive a policy and fiscal analysis by the legislature. Minor works projects are intended to be one-time expenditures that do not require future state resources to complete.

NEW SECTION. Sec. 6004. (1) The office of financial management may authorize a transfer of appropriation authority provided for a capital project that is in excess of the amount required for the completion of such project to another capital project for which the appropriation is insufficient. No such transfer may be used to expand the capacity of any facility beyond that intended by the legislature in making the appropriation. Such transfers may be effected only between capital appropriations to a specific department, commission, agency, or institution of higher education and only between capital projects that are funded from the same fund or account. No transfers may occur between projects to local government agencies except where the grants are provided within a single omnibus appropriation and where such transfers are specifically authorized by the implementing statutes that govern the grants.

(2) The office of financial management may find that an amount is in excess of the amount required for the completion of a project only if: (a) The project as defined in the notes to the budget document is substantially complete and there are funds remaining; or (b) bids have been let on a project and it appears to a substantial certainty that the project as defined in the notes to the budget document can be completed within the biennium for less than the amount appropriated in this act.

(3) For the purposes of this section, the intent is that each project be defined as proposed to the legislature in the governor's budget document, unless it clearly appears from the legislative history that the legislature intended to define the scope of a project in a different way.

(4) Transfers of funds to an agency's infrastructure savings appropriation are subject to review and approval by the office of financial management. Expenditures from an infrastructure savings appropriation are limited to projects that have a primary purpose to correct infrastructure deficiencies or conditions that: (a) Adversely affect the ability to utilize the infrastructure for its current programmatic use; (b) reduce the life expectancy of the infrastructure; or (c) increase the operating costs of the infrastructure for its current programmatic use. Eligible infrastructure projects may include structures and surface improvements, site amenities, utility systems outside building footprints and natural environmental changes or requirements as part of an environmental regulation, a declaration of emergency for an infrastructure issue in conformance with RCW 43.88.250, or infrastructure planning as part of a facility master plan.

(5) A report of any transfer effected under this section, except emergency projects or any transfer under \$250,000, shall be filed with the legislative fiscal committees of the senate and house of representatives by the office of financial management at least thirty days before the date the transfer is effected. The office of financial management shall report all emergency or smaller transfers within thirty days from the date of transfer.

NEW SECTION. Sec. 6005. (1) It is expected that projects be ready to proceed in a timely manner depending on the type or phase of the project or program that is the subject of the appropriation in this act. Except for major projects that customarily may take more than two biennia to complete from predesign to the end of construction, or large infrastructure grant or loan programs supporting projects that often take more than two biennia to complete, the legislature generally does not intend to reappropriate funds more than once, particularly for smaller grant programs, local/community projects, and minor works.

(2) Agencies shall expedite the expenditure of reappropriations and appropriations in this act in order to: (a) Rehabilitate infrastructure resources; (b) accelerate environmental rehabilitation and restoration projects for the improvement of the state's natural environment; (c) reduce additional costs associated with acquisition and construction inflationary pressures; and (d) provide additional employment opportunities associated with capital expenditures.

(3) To the extent feasible, agencies are directed to accelerate expenditure rates at their current level of permanent employees and shall use contracted design and construction services wherever necessary to meet the goals of this section.

NEW SECTION. Sec. 6006. The legislature finds that the state's public four-year institutions and the higher education coordinating board have made substantial progress in developing a process to create a single prioritized list of capital project requests as required under RCW 28B.76.220. The legislature also recognizes that continuing work by the institutions and the board is needed to refine the methodology for determining the ranking of project requests, and that this work will benefit from additional legislative guidance. Therefore, the higher education coordinating board and the public four-year institutions, in developing and submitting the single prioritized project list of capital project requests under RCW 28B.76.220, shall use the following guidelines:

(1) Representatives of the board shall participate in the process of scoring projects using the criteria in the board's

ONE-HUNDRED FOURTH DAY, APRIL 21, 2007

biennial budget guidelines. Representatives of the board shall also review the preliminary project list to verify the scoring and ranking of projects. As required under RCW 28B.76.210, institutions must submit the preliminary project list to the board by August 1st of each even-numbered year to enable this review. Any disagreements over project scorings or rankings shall be resolved as provided under RCW 28B.76.220(4).

(2) The higher education coordinating board's biennial budget guidelines and the prioritization process shall place greater emphasis on:

(a) Early critical review of project proposals at the predesign phase, rather than deferring critical review and prioritization to the design or construction phases of a project; and

(b) The capital budget bow wave for a six-year period, beginning with the 2009-2011 biennium through the 2013-2015 biennium.

(3) When projects are aggregated into single line-item requests, each project must meet the definition of minor works according to section 6003(2)(a) of this act. All major projects must be listed and ranked as individual line-item requests.

(4) The scoring and ranking of projects shall not be based on assigning an equal number of overall points to each public four-year institution, but shall reflect an assignment of points to individual projects based on the priorities and criteria in this section and in the board's biennial budget guidelines.

(5) Projects shall not be ranked on the basis of a project funding source.

(6) In consultation with the appropriate fiscal and policy committees of the legislature, the board shall identify statewide priorities for higher education capital investments and incorporate those priorities into its biennial budget guidelines. The statewide priorities shall address the need for higher education capital projects to:

(a) Implement a specific legislatively authorized program or planning priority;

(b) Reduce the backlog of deferred building or system preservation, renewal, or replacement;

(c) Provide additional capacity or adaptation of space for high demand instructional or research programs;

(d) Provide additional instructional program capacity for under-served geographic regions or populations; and

(e) Reflect institutional planning priorities and areas of emphasis.

(7) The higher education coordinating board's biennial budget guidelines shall include a quantitative method for scoring projects on the identified priorities. The quantitative method shall include use of the facility condition index developed by the joint legislative audit and review committee for assessing building or system condition, and use of the board's space utilization and allocation standards for assessing the need for additional capacity.

(8) The council of presidents, in consultation with the board, shall report by September 1, 2007, to the appropriate legislative fiscal committees on the use of a proportionality factor in the scoring and ranking of projects. The report shall include:

(a) A definition of proportionality as it has been used in the scoring and ranking of projects for funding in the 2007-2009 biennium and may be used for subsequent biennia;

(b) A method for measuring proportionality in a valid and consistent manner; and

(c) An explanation of how proportionality relates to the statewide priorities established in subsection (6) of this section, including an assessment of the extent to which it promotes the achievement of these statewide priorities.

2007 REGULAR SESSION

NEW SECTION. Sec. 6007. The Washington state auditor shall perform an audit of the Seattle public library and the secretary of state with regard to expenditures related to the facility located at 2021 9th Avenue, Seattle, Washington that houses the Washington talking book and braille library and city of Seattle functions. The audit shall be completed and results available to the legislature by September 1, 2007.

NEW SECTION. Sec. 6008. Eastern Washington University is authorized to sell its Spokane center. Proceeds from the sale must be deposited into the higher education construction account. Proceeds may be used to acquire or design a facility on or adjacent to the Riverpoint higher education campus for the university's Spokane-based program offerings. Eastern Washington University must report to the office of financial management and the appropriate fiscal committees of the legislature upon the sale of the center and with regard to expenditure of the proceeds.

NEW SECTION. Sec. 6009. The office of financial management, in consultation with the department of general administration, shall identify capital projects that may benefit from an energy analysis to determine whether there are alternate, more economical, and energy efficient means of completing the work. The office of financial management shall hold appropriations in allotment reserve on the following types of capital projects until this analysis can be completed: Heating, ventilation, and air conditioning modifications, chiller plants, steam plants, boilers, chilled water or steam lines, building control systems, lighting improvements, or other major energy using systems that may warrant additional analysis. Agencies receiving appropriations for such projects are encouraged to utilize energy performance contracts or alternative financing for equipment in lieu of state appropriated funds. The office of financial management may transfer funds remaining in allotment reserve to infrastructure savings projects within the agency that has realized savings from energy efficiency alternatives.

NEW SECTION. Sec. 6010. State agencies, including institutions of higher education, shall allot and report full-time equivalent staff for capital projects in a manner comparable to staff reporting for operating expenditures.

NEW SECTION. Sec. 6011. Due to the intended replacement of the building adjoining Capital Way and 11th avenue, the department of general administration shall not charge the facility depreciation component of lease charges for nonprofit tenants in that facility during the 2007-2009 biennium.

NEW SECTION. Sec. 6012. Executive Order No. 05-05, archaeological and cultural resources, was issued effective November 10, 2005. Agencies and higher education institutions shall comply with the requirements set forth in this executive order.

NEW SECTION. Sec. 6013. ACQUISITION OF PROPERTIES AND FACILITIES THROUGH FINANCIAL CONTRACTS. NEW SECTION. Sec. 6017. The amounts shown under the headings "Prior Biennia," "Future Biennia," and "Total" in this act are for informational purposes only and do not constitute legislative approval of these amounts. "Prior biennia" typically refers to the immediate prior biennium for reappropriations, but may refer to multiple biennia in the case of specific projects. A "future biennia" amount is an estimate of what may be appropriated for the project or program in the 2009-2011 biennium and the following three biennia; an amount of zero does not necessarily constitute legislative intent to not provide funding for the project or program in the future.

NEW SECTION. Sec. 6018. (1) "Reappropriations" in this act are appropriations and, unless the context clearly provides otherwise, are subject to the relevant conditions and limitations applicable to appropriations. Reappropriations shall be limited to the unexpended balances remaining on June 30, 2007, from the 2005-2007 biennial appropriations for each project.

(2) "Reappropriations" from the water quality capital account in this act shall be limited to the unexpended balance remaining as of the end of fiscal year 2007 from the water quality account in the 2005-2007 biennial appropriations for each project in this act.

(3) "Reappropriations" in sections 5001, 5002, 5003, and 5005 of this act shall be reduced in this act to the unexpended balances remaining as of the end of fiscal year 2007 for the 2005-2007 biennial appropriation in sections 602, 604, and 607, chapter 488, Laws of 2005, and section 194, chapter 371, Laws of 2006.

NEW SECTION. Sec. 6019. The water quality capital account is created in the state treasury pursuant to chapter . . . (House Bill No. 1137), Laws of 2007. In this act, appropriations from the water quality capital account are defined as appropriations from that account. If chapter . . . NEW SECTION. Sec. 6020. To carry out the provisions of this act, the governor may assign responsibility for predesign, design, construction, and other related activities to any appropriate agency.

NEW SECTION. Sec. 6021. If any federal moneys appropriated by this act for capital projects are not received by the state, the department or agency to which the moneys were appropriated may replace the federal moneys with funds available from private or local sources. No replacement may occur under this section without the prior approval of the director of financial management in consultation with the senate ways and means committee and the house of representatives capital budget committee.

NEW SECTION. Sec. 6022. (1) Unless otherwise stated, for all appropriations under this act that require a match of nonstate money or in-kind contributions, the following requirement, consistent with RCW 43.88.150, shall apply: Expenditures of state money shall be timed so that the state share of project expenditures never exceeds the intended state share of total project costs.

(2) Provision of the full amount of required matching funds is not required to permit the expenditure of capital budget appropriations for phased projects if a proportional amount of the required matching funds is provided for each distinct, identifiable phase of the project.

NEW SECTION. Sec. 6023. Any capital improvements or capital projects involving construction or major expansion of a state office facility, including, but not limited to, district headquarters, detachment offices, and off-campus faculty offices, must be reviewed by the department of general administration for possible consolidation, colocation, and compliance with state office standards before allotment of funds. The intent of the requirement imposed by this section is to eliminate duplication and reduce total office space requirements where feasible, while ensuring proper service to the public.

NEW SECTION. Sec. 6024. The department of general administration shall not sell or otherwise dispose of the Tacoma Rhodes center until after June 30, 2009, except that the department of general administration may sell the building to another state agency, a state institution, or political subdivision of the state, including a municipal corporation before June 30, 2009. The department shall use its statutory authority to maximize state occupancy of the facility by directing agencies to move into the Tacoma Rhodes center when leases of nonstate-owned facilities expire and when the Tacoma Rhodes center space can reasonably accommodate those agencies.

NEW SECTION. Sec. 6025. NONTAXABLE AND TAXABLE BOND PROCEEDS. Portions of the appropriation authority granted by this act from the state building construction account, or any other account receiving bond proceeds, may be transferred to the state taxable building construction account as deemed necessary by the state finance committee to comply with the federal internal revenue service rules and regulations pertaining to the use of nontaxable bond proceeds. (1) The emergency reserve fund is established in the state treasury. During each fiscal year, the state treasurer shall transfer an amount from the state general fund to the emergency reserve fund. The amount transferred shall equal the amount by which total state revenue for the general fund and related funds exceeds the state expenditure limit, multiplied by the percentage that general fund expenditures are of total expenditures from the general fund and related funds. Transfers shall be made at the end of each fiscal quarter based on projections of state revenues, expenditures, and the state expenditure limit. The treasurer shall make transfers between these accounts as necessary to reconcile actual annual revenues and the expenditure limit for fiscal year 2000 and thereafter.

(2) The legislature may appropriate moneys from the emergency reserve fund only with approval of at least two-thirds of the members of each house of the legislature, and then only if the appropriation does not cause total expenditures to exceed the state expenditure limit under this chapter.

(3) The emergency reserve fund balance shall not exceed five percent of annual general fund--state revenues as projected by the official state revenue forecast. Any balance in excess of five percent shall be transferred on a quarterly basis by the state treasurer as follows: Seventy-five percent to the student achievement fund hereby created in the state treasury and twenty-five percent to the general fund balance. The treasurer shall make transfers between these accounts as necessary to

reconcile actual annual revenues for fiscal year 2000 and thereafter. When per-student state funding for the maintenance and operation of K-12 education meets a level of no less than ninety percent of the national average of total funding from all sources per student as determined by the most recent published data from the national center for education statistics of the United States department of education, as calculated by the office of financial management, further deposits to the student achievement fund shall be required only to the extent necessary to maintain the ninety-percent level. Remaining funds are part of the general fund balance and these funds are subject to the expenditure limits of this chapter.

(4) The education construction fund is hereby created in the state treasury.

(a) Funds may be appropriated from the education construction fund exclusively for common school construction or higher education construction. During the 2007-2009 fiscal biennium, funds may also be used for higher education facilities preservation and maintenance.

(b) Funds may be appropriated for any other purpose only if approved by a two-thirds vote of each house of the legislature and if approved by a vote of the people at the next general election. An appropriation approved by the people under this subsection shall result in an adjustment to the state expenditure limit only for the fiscal period for which the appropriation is made and shall not affect any subsequent fiscal period.

(5) Funds from the student achievement fund shall be appropriated to the superintendent of public instruction strictly for distribution to school districts to meet the provisions set out in the student achievement act. Allocations shall be made on an equal per full-time equivalent student basis to each school district.

development fund may be spent only after appropriation. The board shall prepare a prioritized list of proposed projects of up to fifty million dollars as part of the department's 2007-09 biennial budget request. The board may provide an additional alternate job development fund project list of up to ten million dollars. The legislature may remove projects from the list recommended by the board. The legislature may not change the prioritization of projects recommended for funding by the board, but may add projects from the alternate list in order of priority, as long as the total funding does not exceed fifty million dollars.

Energy Freedom Program (06-2-851)

The appropriation in this section is subject to the following conditions and limitations:

(1)(a) The appropriation is provided solely for low-interest loans to political subdivisions for renewable energy projects including the development of biofuel oilseed crushers, supporting infrastructure, and facilities. The political subdivision may negotiate an appropriate agreement with the bioenergy industry for the use of the oilseed crushers, supporting infrastructure, and facilities.

(b) For purposes of this section, political subdivision means any port district, county, city, town, special purpose district, and any other municipal corporations or quasi-municipal corporations in the state.

(2) The appropriation is provided solely for the following list of projects:

Project	Recommendation
Spokane Conservation district	((<u>\$2,000,000</u>)) <u>\$1,779,000</u>
Port of Warden	\$2,500,000
Odessa public development authority	((<u>\$2,500,000</u>)) <u>\$3,500,000</u>
((Port of Columbia county	<u>\$2,500,000</u> <u>\$0</u>
Port of Sunnyside	\$750,000
<u>A political subdivision working with the DeRuyter Farms anaerobic digester project</u>	<u>\$1,973,000</u>
Total	((<u>\$10,250,000</u>)) <u>\$10,502,000</u>

(3) All agreements negotiated between the political subdivision and the bioenergy industry for use of the oilseed crushers, supporting infrastructure, or facilities funded in this section must provide for at least a fifty percent match by the industry partner. The industry match may include, but is not limited to, investments in rail, buildings, refining capacity, or seed stock.

(4) All other project funds must be disbursed prior to energy freedom loans, except where required on a matching basis by other federal or state programs.

ONE-HUNDRED FOURTH DAY, APRIL 21, 2007

2007 REGULAR SESSION

(5) The department shall disburse loans to the political subdivision on a reimbursement basis only.

(6) The department may defer loan repayment for up to twenty-four months or until the projects start to receive revenue from operations, whichever is sooner.

(7) Upon written notice to the political subdivision, the department may suspend or cancel its loans if any of the following occur:

(a) The political subdivision fails to make satisfactory and reasonable progress to complete the project, or the department concludes the political subdivision will be unable to complete the project or any portion of it; or

(b) The political subdivision or bioenergy industry partners have made misrepresentations in any information furnished to the department or the legislature in connection with the project.

(8) In the event that any portion of the loan has been paid to the political subdivision under this section at the time of breach, or failure of the political subdivision to satisfactorily perform, the department may require that the full amount of the loan, or a portion thereof, be repaid within a period specified by the department.

(9) Future loan repayments shall be deposited into the energy freedom account created in section 6, chapter . . . (Engrossed Third Substitute House Bill No. 2939), Laws of 2006.

(10) It is the intent of the legislature to provide loans for the development of a Washington state biodiesel industry based on Washington grown oilseed. The legislature is aware that in the development of this industry, the start-up process may necessitate the use of other oilseeds until Washington state growers plant sufficient crops to support this industry. The legislature also understands the realities of weather and market conditions in this process. The conversion to maximum Washington grown oilseed must be accomplished as quickly as possible. The political subdivision shall: (a) Develop a plan for outreach to local growers and an estimate of when maximum Washington state oilseed-based production will be reached; (b) develop a goal for the political subdivision to return a portion of the biofuel to local oilseed producers; and (c) report this information to the department of agriculture by December 1, 2006. The department shall report on the implementation of this section by January 1, 2007, to the appropriate committees of the legislature.

(11) If legislation is enacted by June 30, 2009, that moves the energy freedom program to the department of community, trade, and economic development, then the amounts in this section are appropriated to the department of community, trade, and economic development.

MESSAGE FROM THE HOUSE

April 10, 2007

MR. PRESIDENT:

The House has passed ENGROSSED SUBSTITUTE SENATE BILL NO. 6023, with the following amendment: 6023-S.E AMH ENG H3532.E

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 6058. (1) The legislature maintains a strong commitment to high expectations and high academic achievement for all students. The legislature finds that Washington schools and students are making significant progress in improving achievement in reading and writing. Schools are adapting instruction and providing remediation for students who need additional assistance. Reading and writing are being taught across the curriculum. Therefore, the legislature does not intend to make changes to the Washington assessment of student learning or high school graduation requirements in reading and writing.

(2) However, students are having difficulty improving their academic achievement in mathematics and science, particularly as measured by the high school Washington assessment of student learning. The legislature finds that corrections are needed in the state's high school assessment system that will

ONE-HUNDRED FIFTH DAY, APRIL 22, 2007

2007 REGULAR SESSION

improve alignment between learning standards, instruction, diagnosis, and assessment of students' knowledge and skills in high school mathematics and science. The legislature further finds there is a sense of urgency to make these corrections and intends to revise high school graduation requirements in mathematics and science only for the minimum period for corrections to be fully implemented.

Sec. 6059. RCW 28A.655.061 and 2006 c 115 s 4 are each amended to read as follows:

(1) The high school assessment system shall include but need not be limited to the Washington assessment of student learning, opportunities for a student to retake the content areas of the assessment in which the student was not successful, and if approved by the legislature pursuant to subsection (10) of this section, one or more objective alternative assessments for a student to demonstrate achievement of state academic standards. The objective alternative assessments for each content area shall be comparable in rigor to the skills and knowledge that the student must demonstrate on the Washington assessment of student learning for each content area.

(2) Subject to the conditions in this section, a certificate of academic achievement shall be obtained by most students at about the age of sixteen, and is evidence that the students have successfully met the state standard in the content areas included in the certificate. With the exception of students satisfying the provisions of RCW 28A.155.045 or section 4 of this act, acquisition of the certificate is required for graduation from a public high school but is not the only requirement for graduation.

(3) Beginning with the graduating class of 2008, with the exception of students satisfying the provisions of RCW 28A.155.045, a student who meets the state standards on the reading, writing, and mathematics content areas of the high school Washington assessment of student learning shall earn a certificate of academic achievement. If a student does not successfully meet the state standards in one or more content areas required for the certificate of academic achievement, then the student may retake the assessment in the content area up to four times at no cost to the student. If the student successfully meets the state standards on a retake of the assessment then the student shall earn a certificate of academic achievement. Once objective alternative assessments are authorized pursuant to subsection (10) of this section, a student may use the objective alternative assessments to demonstrate that the student successfully meets the state standards for that content area if the student has ~~((retaken))~~ taken the Washington assessment of student learning at least once. If the student successfully meets the state standards on the objective alternative assessments then the student shall earn a certificate of academic achievement.

(4) Beginning with the graduating class of ~~((2010))~~ 2013, a student must meet the state standards in science in addition to the other content areas required under subsection (3) of this section on the Washington assessment of student learning or the objective alternative assessments in order to earn a certificate of academic achievement.

(5) The state board of education may not require the acquisition of the certificate of academic achievement for students in home-based instruction under chapter 28A.200 RCW, for students enrolled in private schools under chapter 28A.195 RCW, or for students satisfying the provisions of RCW 28A.155.045.

(6) A student may retain and use the highest result from each successfully completed content area of the high school assessment.

(7) ~~((Beginning in 2006,))~~ School districts must make available to students the following options:

(a) To retake the Washington assessment of student learning up to four times in the content areas in which the student did not meet the state standards if the student is enrolled in a public school; or

(b) To retake the Washington assessment of student learning up to four times in the content areas in which the student did not meet the state standards if the student is enrolled in a high school completion program at a community or technical college. The superintendent of public instruction and the state board for

community and technical colleges shall jointly identify means by which students in these programs can be assessed.

(8) Students who achieve the standard in a content area of the high school assessment but who wish to improve their results shall pay for retaking the assessment, using a uniform cost determined by the superintendent of public instruction.

(9) ~~((Subject to available funding, the superintendent shall pilot opportunities for retaking the high school assessment beginning in the 2004-05 school year. Beginning no later than September 2006,))~~ Opportunities to retake the assessment at least twice a year shall be available to each school district.

(10)(a) The office of the superintendent of public instruction shall develop options for implementing objective alternative assessments, which may include an appeals process, for students to demonstrate achievement of the state academic standards. The objective alternative assessments shall be comparable in rigor to the skills and knowledge that the student must demonstrate on the Washington assessment of student learning and be objective in its determination of student achievement of the state standards. Before any objective alternative assessments in addition to those authorized in RCW 28A.655.065 or (b) of this subsection are used by a student to demonstrate that the student has met the state standards in a content area required to obtain a certificate, the legislature shall formally approve the use of any objective alternative assessments through the omnibus appropriations act or by statute or concurrent resolution.

(b)(i) A student's score on the mathematics or reading portion of the preliminary scholastic assessment test (PSAT)~~((;))~~ or on the mathematics, reading or English, or writing portion of the scholastic assessment test (SAT)~~((;))~~ or the American college test (ACT) may be used as an objective alternative assessment under this section for demonstrating that a student has met or exceeded the ~~((mathematics))~~ state standards for the certificate of academic achievement. The state board of education shall identify the scores students must achieve on the ~~((mathematics))~~ relevant portion of the PSAT, SAT, or ACT to meet or exceed the state standard ~~((for mathematics))~~ in the relevant content area on the Washington assessment of student learning. The state board of education shall identify the first scores by December 1, ~~((2006, and thereafter))~~ 2007. After the first scores are established, the state board may increase but not decrease the scores required for students to meet or exceed the state standards ~~((for mathematics))~~.

(ii) The superintendent of public instruction shall implement an alternative assessment for mathematics that presents the mathematics essential academic learning requirements in segments; is comparable in content and rigor to the tenth grade mathematics assessment when all segments are considered together; is reliable and valid; and can be used to determine a student's academic performance level. The segmented mathematics assessment authorized under this subsection (10)(b)(i) may be used as an objective alternative assessment under this section for demonstrating that a student has met the mathematics standards for the certificate of academic achievement.

(11) By December 15, 2004, the house of representatives and senate education committees shall obtain information and conclusions from recognized, independent, national assessment experts regarding the validity and reliability of the high school Washington assessment of student learning for making individual student high school graduation determinations.

(12) To help assure continued progress in academic achievement as a foundation for high school graduation and to assure that students are on track for high school graduation, each school district shall prepare plans for students as provided in this subsection (12).

(a) Student learning plans are required for eighth through twelfth grade students who were not successful on any or all of the content areas of the Washington assessment for student learning during the previous school year. The plan shall include the courses, competencies, and other steps needed to be taken by the student to meet state academic standards and stay on track for graduation. ~~((This requirement shall be phased in as follows:~~

ONE-HUNDRED FIFTH DAY, APRIL 22, 2007

2007 REGULAR SESSION

~~(i) Beginning no later than the 2004-05 school year ninth grade students as described in this subsection (12)(a) shall have a plan.~~

~~(ii) Beginning no later than the 2005-06 school year and every year thereafter eighth grade students as described in this subsection (12)(a) shall have a plan.~~

~~(iii)) (i) The parent or guardian shall be notified, preferably through a parent conference, of the student's results on the Washington assessment of student learning, actions the school intends to take to improve the student's skills in any content area in which the student was unsuccessful, strategies to help them improve their student's skills, and the content of the student's plan.~~

~~(iv)) (ii) Progress made on the student plan shall be reported to the student's parents or guardian at least annually and adjustments to the plan made as necessary.~~

~~(b) (Beginning with the 2005-06 school year and every year thereafter,) All fifth grade students who were not successful in one or more of the content areas of the fourth grade Washington assessment of student learning shall have a student learning plan.~~

~~(i) The parent or guardian of ((a)) the student ((described in this subsection (12)(b))) shall be notified, preferably through a parent conference, of the student's results on the Washington assessment of student learning, actions the school intends to take to improve the student's skills in any content area in which the student was unsuccessful, and provide strategies to help them improve their student's skills.~~

~~(ii) Progress made on the student plan shall be reported to the student's parents or guardian at least annually and adjustments to the plan made as necessary.~~

Sec. 6060. RCW 28A.155.045 and 2004 c 19 s 104 are each amended to read as follows:

Beginning with the graduating class of 2008, students served under this chapter, who are not appropriately assessed by the high school Washington assessment system as defined in RCW 28A.655.061, even with accommodations, may earn a certificate of individual achievement. The certificate may be earned using multiple ways to demonstrate skills and abilities commensurate with their individual education programs. The determination of whether the high school assessment system is appropriate shall be made by the student's individual education program team. Except as provided in section 4 of this act, for these students, the certificate of individual achievement is required for graduation from a public high school, but need not be the only requirement for graduation. When measures other than the high school assessment system as defined in RCW 28A.655.061 are used, the measures shall be in agreement with the appropriate educational opportunity provided for the student as required by this chapter. The superintendent of public instruction shall develop the guidelines for determining which students should not be required to participate in the high school assessment system and which types of assessments are appropriate to use.

When measures other than the high school assessment system as defined in RCW 28A.655.061 are used for high school graduation purposes, the student's high school transcript shall note whether that student has earned a certificate of individual achievement.

Nothing in this section shall be construed to deny a student the right to participation in the high school assessment system as defined in RCW 28A.655.061, and, upon successfully meeting the high school standard, receipt of the certificate of academic achievement.

NEW SECTION. Sec. 6061. A new section is added to chapter 28A.655 RCW to read as follows:

(1) Beginning with the graduating class of 2008 and through the graduating class of 2012, students may graduate from high school without earning a certificate of academic achievement or a certificate of individual achievement if they:

(a) Have not successfully met the mathematics standard on the high school Washington assessment of student learning, an approved objective alternative assessment, or an alternate assessment developed for eligible special education students;

(b) Have successfully met the state standard in the other content areas required for a certificate under RCW 28A.655.061 or 28A.155.045;

(c) Have met all other state and school district graduation requirements; and

(d)(i) For the graduating class of 2008, successfully earn one additional high school mathematics credit after the student's eleventh grade year designed to increase the individual student's mathematics proficiency toward meeting or exceeding the mathematics standards assessed on the high school Washington assessment of student learning; and

(ii) For the remaining graduating classes under this section, successfully earn two additional mathematics credits after the student's tenth grade year designed to increase the individual student's mathematics proficiency toward meeting or exceeding the mathematics standards assessed on the high school Washington assessment of student learning.

(2) This section expires August 31, 2013.

Sec. 6062. RCW 28A.655.070 and 2005 c 497 s 106 are each amended to read as follows:

(1) The superintendent of public instruction shall develop essential academic learning requirements that identify the knowledge and skills all public school students need to know and be able to do based on the student learning goals in RCW 28A.150.210, develop student assessments, and implement the accountability recommendations and requests regarding assistance, rewards, and recognition of the state board of education.

(2) The superintendent of public instruction shall:

(a) Periodically revise the essential academic learning requirements, as needed, based on the student learning goals in RCW 28A.150.210. Goals one and two shall be considered primary. To the maximum extent possible, the superintendent shall integrate goal four and the knowledge and skill areas in the other goals in the essential academic learning requirements; and

(b) Review and prioritize the essential academic learning requirements and identify, with clear and concise descriptions, the grade level content expectations to be assessed on the Washington assessment of student learning and used for state or federal accountability purposes. The review, prioritization, and identification shall result in more focus and targeting with an emphasis on depth over breadth in the number of grade level content expectations assessed at each grade level. Grade level content expectations shall be articulated over the grades as a sequence of expectations and performances that are logical, build with increasing depth after foundational knowledge and skills are acquired, and reflect, where appropriate, the sequential nature of the discipline. The office of the superintendent of public instruction, within seven working days, shall post on its web site any grade level content expectations provided to an assessment vendor for use in constructing the Washington assessment of student learning.

(3) In consultation with the state board of education, the superintendent of public instruction shall maintain and continue to develop and revise a statewide academic assessment system in the content areas of reading, writing, mathematics, and science for use in the elementary, middle, and high school years designed to determine if each student has mastered the essential academic learning requirements identified in subsection (1) of this section. School districts shall administer the assessments under guidelines adopted by the superintendent of public instruction. The academic assessment system ~~((shall))~~ may include a variety of assessment methods, including criterion-referenced and performance-based measures.

(4) If the superintendent proposes any modification to the essential academic learning requirements or the statewide assessments, then the superintendent shall, upon request, provide opportunities for the education committees of the house of representatives and the senate to review the assessments and proposed modifications to the essential academic learning requirements before the modifications are adopted.

5)((~~+~~)) The assessment system shall be designed so that the results under the assessment system are used by educators as tools to evaluate instructional practices, and to initiate appropriate educational support for students who have not

2007 REGULAR SESSION

mastered the essential academic learning requirements at the appropriate periods in the student's educational development.

~~((b) Assessments measuring the essential academic learning requirements in the content area of science shall be available for mandatory use in middle schools and high schools by the 2003-04 school year and for mandatory use in elementary schools by the 2004-05 school year unless the legislature takes action to delay or prevent implementation of the assessment.))~~

(6) By September 2007, the results for reading and mathematics shall be reported in a format that will allow parents and teachers to determine the academic gain a student has acquired in those content areas from one school year to the next.

(7) To assist parents and teachers in their efforts to provide educational support to individual students, the superintendent of public instruction shall provide as much individual student performance information as possible within the constraints of the assessment system's item bank. The superintendent shall also provide to school districts:

(a) Information on classroom-based and other assessments that may provide additional achievement information for individual students; and

(b) A collection of diagnostic tools that educators may use to evaluate the academic status of individual students. The tools shall be designed to be inexpensive, easily administered, and quickly and easily scored, with results provided in a format that may be easily shared with parents and students.

(8) To the maximum extent possible, the superintendent shall integrate knowledge and skill areas in development of the assessments.

(9) Assessments for goals three and four of RCW 28A.150.210 shall be integrated in the essential academic learning requirements and assessments for goals one and two.

(10) The superintendent shall develop assessments that are directly related to the essential academic learning requirements, and are not biased toward persons with different learning styles, racial or ethnic backgrounds, or on the basis of gender.

(11) The superintendent shall consider methods to address the unique needs of special education students when developing the assessments under this section.

(12) The superintendent shall consider methods to address the unique needs of highly capable students when developing the assessments under this section.

(13) The superintendent shall post on the superintendent's web site lists of resources and model assessments in social studies, the arts, and health and fitness.

Sec. 6063. RCW 28A.655.063 and 2006 c 115 s 5 are each amended to read as follows:

Subject to the availability of funds appropriated for this purpose, ~~((school districts shall reimburse))~~ the office of the superintendent of public instruction shall provide funds to school districts, arrange for students to receive a testing fee waiver, or make other arrangements to compensate students for the cost of taking the tests in RCW 28A.655.061(10)(b) when the students take the tests for the purpose of using the ((mathematics)) results as an objective alternative assessment.

Sec. 6064. RCW 28A.655.200 and 2006 c 117 s 4 are each amended to read as follows:

(1) ~~((In the absence of mandatory, statewide, norm-referenced assessments,))~~ The legislature intends to permit school districts to offer norm-referenced assessments, make diagnostic tools available to school districts, and provide funding for diagnostic assessments to enhance ~~((guidance and planning for students and to))~~ student learning at all grade levels and provide early intervention before the high school Washington assessment of student learning.

(2) In addition to the diagnostic assessments provided under ~~((subsection (5) of))~~ this section, school districts may, at their own expense, administer norm-referenced assessments to students.

(3) ~~((By September 1, 2005, subject to available funds,))~~ The office of the superintendent of public instruction shall post on its web site for voluntary use by school districts, a guide of diagnostic assessments. The assessments in the guide, to the extent possible, shall include the characteristics listed in subsection (4) of this section.

(4) Beginning September 1, 2007, the office of the superintendent of public instruction shall make diagnostic assessments in reading, writing, mathematics, and science in elementary and middle school grades available to school districts ((diagnostic assessments that)). Subject to funds appropriated for this purpose, the office of the superintendent of public instruction shall also provide funding to school districts for administration of diagnostic assessments to help improve student learning, identify academic weaknesses, enhance student planning and guidance, and develop targeted instructional strategies to assist students before the high school Washington assessment of student learning. To the greatest extent possible, the assessments shall be:

(a) Aligned to the state's grade level expectations;

(b) Individualized to each student's performance level;

(c) Administered efficiently to provide results either immediately or within two weeks;

(d) Capable of measuring individual student growth over time and allowing student progress to be compared to other students across the country;

(e) Readily available to parents; and

(f) Cost-effective.

(5) ~~((Beginning with the 2006-07 school year, the superintendent of public instruction shall reimburse school districts for administration of diagnostic assessments in grade nine for the purpose of identifying academic weaknesses, enhancing student planning and guidance, and developing targeted instructional strategies to assist students before the high school Washington assessment of student learning.))~~

~~((6))~~ The office of the superintendent of public instruction ~~((is encouraged to))~~ shall offer training at statewide and regional staff development activities ~~((training opportunities that would assist practitioners))~~ in:

(a) The interpretation of diagnostic assessments; and

(b) Application of instructional strategies that will increase student learning based on diagnostic assessment data.

NEW SECTION. Sec. 6065. A new section is added to chapter 28A.655 RCW to read as follows:

(1) The legislature's intent for the high school assessment system in mathematics and science is that students receive instruction through credited high school courses in the content areas to be assessed and have their knowledge and skills assessed after they complete the courses. End-of-course assessments in mathematics and science should, at a minimum, cover the content of algebra I, geometry, and biology, and be based on state learning standards. However, school districts should be responsible for designing and implementing courses that align with state learning standards, state-recommended curricula, and end-of-course assessments. School districts should also have the opportunity to provide instruction in the assessed content areas through integrated courses. To the extent feasible, the assessments should be able to be administered online. Results should be returned in a timely manner and should provide diagnostic information to improve curriculum, instruction, and remediation for struggling students. Furthermore, changes to the high school Washington assessment of student learning to achieve the legislative intent expressed under this subsection should be implemented on an expedited timeline in order to apply to the graduating class of 2013.

(2)(a) The state board of education, in consultation with the superintendent of public instruction, shall examine and recommend changes to the high school Washington assessment of student learning in the content areas of mathematics and science. The examination shall address the issues identified in subsection (1) of this section.

(b) In conducting its examination, the state board of education shall seek input from independent national assessment experts; examine the experience of other states that have implemented end-of-course assessments; and use a deliberative public process to ensure adequate input from teachers, school and district administrators, the business community, parents, and other interested individuals and organizations.

(c) In any request for proposals for a new testing contractor for the Washington assessment of student learning, the superintendent of public instruction shall include the changes

ONE-HUNDRED FIFTH DAY, APRIL 22, 2007

being examined by the state board of education so that additional information about the cost and feasibility of end-of-course assessments and implementation timelines can be provided by prospective testing contractors.

(d) The state board of education shall submit a report to the superintendent of public instruction and the education committees of the legislature by January 10, 2008, with findings from the examination under this subsection (2) and recommendations for changes to the high school Washington assessment in mathematics and science that implement the legislative intent expressed under subsection (1) of this section and a timeline for expedited implementation of the recommended changes no later than the 2010-11 school year.

(e) If the state board of education finds that the legislative intent expressed under subsection (1) of this section cannot feasibly be implemented by the 2010-11 school year, the state board shall state the specific reasons for such a finding, along with supporting evidence, and recommend a revised timeline.

(3) This section expires June 30, 2008.

NEW SECTION. Sec. 6066. A new section is added to chapter 28A.655 RCW to read as follows:

(1) In allocating state funds for the promoting academic success program, the legislature has recognized that high school students whose scores represent a near miss of the state standard on the Washington assessment of student learning require fewer remedial resources to ensure that they meet the state standard on the next attempt. However, there is significant variation among the remaining students whose scores represent a far miss of the state standard regarding their levels of knowledge and skills, and consequently the levels of remediation they will need.

(2) School districts receiving funding allocations through the promoting academic success program for high school students scoring more than one standard error of measurement from meeting the state standard shall assign more resources per student to support students scoring at level one on the Washington assessment of student learning than are assigned to support students scoring at level two."

MESSAGE FROM THE HOUSE

April 20, 2007

MR. PRESIDENT:

The House refused to grant a conference on ENGROSSED SECOND SUBSTITUTE SENATE BILL NO 5659. Under suspension of the rules, the bill was returned to second reading for purpose of an amendment: 5659-S2.E AMH H3108.4, and the House passed the bill as amended.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. FINDINGS AND DECLARATIONS. The legislature finds that, although family leave laws have assisted individuals to balance the demands of the workplace with their family responsibilities, more needs to be done to achieve the goals of parent and child bonding, workforce stability, and economic security. In particular, the legislature finds that many individuals do not have access to family leave laws, and those who do may not be in a financial position to take family leave that is unpaid, and that employer-paid benefits meet only a relatively small part of this need. The legislature declares it to be in the public interest to establish a program that: (1) Allows parents to bond with a newborn or newly placed child; (2) provides limited and additional income support for a reasonable period while an individual is away from work on family leave; (3) reduces the impact on state income support programs by increasing an individual's ability to provide caregiving services for a child while maintaining an employment relationship; and (4) establishes a wage replacement benefit to be coordinated with current existing state and federal family leave laws.

NEW SECTION. Sec. 2. JOINT LEGISLATIVE TASK FORCE. (1)(a) The joint legislative task force on family leave insurance is established, with thirteen members as provided in this subsection.

(i) The chair and the ranking member of the senate labor, commerce, research and development committee.

(ii) The chair and the ranking member of the house commerce and labor committee.

(iii) The majority leader of the senate shall appoint one member from each of the two largest caucuses of the senate.

(iv) The speaker of the house of representatives shall appoint one member from each of the two largest caucuses of the house of representatives.

(v) The majority leader of the senate and the speaker of the house of representatives jointly shall appoint four nonlegislative members of the task force, which shall include one member representing large business, one member representing small business, one member representing labor, and one member representing advocates for family leave.

(vi) The governor shall appoint one member of the task force.

(b) The department of labor and industries and the employment security department shall cooperate with the task force and shall each maintain a liaison representative, who shall be a nonvoting member.

(c) The majority leader of the senate and the speaker of the house of representatives jointly shall appoint the cochairs of the task force from among the legislative members of the task force. The cochairs shall convene the initial meeting of the task force. A steering committee consisting of the legislative members of the task force shall advise the cochairs on the meetings and other activities of the task force.

(2) The task force shall study the establishment of a family leave insurance program including, but not limited to, the following:

(a) The manner in which the benefits and the administrative costs should be financed;

(b) The manner in which the program should be implemented and administered;

(c) Any government efficiencies that should be adopted to improve program administration and reduce program costs; and

(d) The impacts, if any, of the family leave insurance program on the unemployment compensation system, and options for mitigating such impacts.

(3) Staff support for the task force must be provided by the senate committee services and the house of representatives office of program research. The task force may hire additional staff with specific technical expertise if such expertise is necessary to carry out the mandates of this study, and only if an appropriation is specifically provided for this purpose.

(4) Legislative members of the task force must be reimbursed for travel expenses in accordance with RCW 44.04.120. Nonlegislative members, except those representing an employer or organization, are entitled to be reimbursed for travel expenses in accordance with RCW 43.03.050 and 43.03.060.

(5) The expenses of the task force must be paid jointly by the senate and the house of representatives. Task force expenditures are subject to approval by the senate facilities and operations committee and the house of representatives executive rules committee, or their successor committees.

(6) The task force shall report its findings and recommendations, which shall include recommendations as to the specific manner in which the benefits and the administrative costs should be financed as well as proposed legislation, to the legislature by January 1, 2008.

(7) This section expires July 1, 2009.

NEW SECTION. Sec. 3. DEFINITIONS. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Application year" means the twelve-month period beginning on the first day of the calendar week in which an individual files an application for family leave insurance benefits and, thereafter, the twelve-month period beginning with the first day of the calendar week in which the individual next files an application for family leave insurance benefits after the expiration of the individual's last preceding application year.

NEW SECTION. Sec. 4. FAMILY LEAVE INSURANCE PROGRAM. (1) The department shall establish and administer a family leave insurance program and pay family leave insurance benefits as specified in this chapter.

(2) The department shall establish procedures and forms for filing claims for benefits under this chapter. The department shall notify the employer within five business days of a claim being filed under section 5 of this act.

(3) The department shall use information sharing and integration technology to facilitate the disclosure of relevant information or records by the employment security department, so long as an individual consents to the disclosure as required under section 5(4) of this act.

(4) Information contained in the files and records pertaining to an individual under this chapter are confidential and not open to public inspection, other than to public employees in the performance of their official duties. However, the individual or an authorized representative of an individual may review the records or receive specific information from the records on the presentation of the signed authorization of the individual. An employer or the employer's duly authorized representative may review the records of an individual employed by the employer in connection with a pending claim. At the department's discretion, other persons may review records when such persons are rendering assistance to the department at any stage of the proceedings on any matter pertaining to the administration of this chapter.

(5) The department shall develop and implement an outreach program to ensure that individuals who may be eligible to receive family leave insurance benefits under this chapter are made aware of these benefits. Outreach information shall explain, in an easy to understand format, eligibility requirements, the claims process, weekly benefit amounts, maximum benefits payable, notice requirements, reinstatement and nondiscrimination rights, confidentiality, and coordination of leave under this chapter and other laws, collective bargaining agreements, and employer policies. Outreach information shall be available in English and other primary languages as defined in RCW 74.04.025.

NEW SECTION. Sec. 5. ELIGIBILITY FOR BENEFITS. Beginning October 1, 2009, family leave insurance benefits are payable to an individual during a period in which the individual is unable to perform his or her regular or customary work because he or she is on family leave if the individual:

(1) Files a claim for benefits in each week in which the individual is on family leave, and as required by rules adopted by the director;

(2) Has been employed for at least six hundred eighty hours in employment during the individual's qualifying year;

(3) Establishes an application year. An application year may not be established if the qualifying year includes hours worked before establishment of a previous application year;

(4) Consents to the disclosure of information or records deemed private and confidential under chapter 50.13 RCW. Initial disclosure of this information and these records by the employment security department to the department is solely for purposes related to the administration of this chapter. Further disclosure of this information or these records is subject to section 4(3) of this act;

(5) Discloses whether or not he or she owes child support obligations as defined in RCW 50.40.050; and

(6) Documents that he or she has provided the employer from whom family leave is to be taken with written notice of the individual's intention to take family leave in the same manner as an employee is required to provide notice in RCW 49.78.250.

NEW SECTION. Sec. 6. DISQUALIFICATION FROM BENEFITS. An individual is disqualified from family leave insurance benefits beginning with the first day of the calendar week, and continuing for the next fifty-two consecutive weeks, in which the individual willfully made a false statement or misrepresentation regarding a material fact, or willfully failed to report a material fact, to obtain benefits under this chapter.

NEW SECTION. Sec. 7. DURATION OF BENEFITS. (1) The maximum number of weeks during which family leave insurance benefits are payable in an application year is five weeks. However, benefits are not payable during a waiting period consisting of the first seven calendar days of family leave taken in an application year, whether the first seven calendar days of family leave are employer paid or unpaid.

(2)(a) The first payment of benefits must be made to an individual within two weeks after the claim is filed or the family leave began, whichever is later, and subsequent payments must be made semimonthly thereafter.

(b) The payment of benefits under this chapter shall not be considered a binding determination of the obligations of the department under this chapter. The acceptance of compensation by the individual shall likewise not be considered a binding determination of his or her rights under this chapter. Whenever any payment of benefits under this chapter has been made and timely appeal therefrom has been made where the final decision is that the payment was improper, the individual shall repay it and recoupment may be made from any future payment due to the individual on any claim under this chapter. The director may exercise his or her discretion to waive, in whole or in part, the amount of any such payments where the recovery would be against equity and good conscience.

(c) If an individual dies before he or she receives a payment of benefits, the payment shall be made by the department and distributed consistent with the terms of the decedent's will or, if the decedent dies intestate, consistent with the terms of RCW 11.04.015.

NEW SECTION. Sec. 8. AMOUNT OF BENEFITS. The amount of family leave insurance benefits shall be determined as follows:

(1) The weekly benefit shall be two hundred fifty dollars per week for an individual who at the time of beginning family leave was regularly working thirty-five hours or more per week.

(2) If an individual who at the time of beginning family leave was regularly working thirty-five hours or more per week is on family leave for less than thirty-five hours but at least eight hours in a week, the individual's weekly benefit shall be .025 times the maximum weekly benefit times the number of hours of family leave taken in the week. Benefits are not payable for less than eight hours of family leave taken in a week.

(3) For an individual who at the time of beginning family leave was regularly working less than thirty-five hours per week, the department shall calculate a prorated schedule for a weekly benefit amount and a minimum number of hours of family leave that must be taken in a week for benefits to be payable, with the prorated schedule based on the amounts and the calculations specified under subsections (1) and (2) of this section.

(4) If an individual discloses that he or she owes child support obligations under section 5 of this act and the department determines that the individual is eligible for benefits, the department shall notify the applicable state or local child support enforcement agency and deduct and withhold an amount from benefits in a manner consistent with RCW 50.40.050.

(5) If the internal revenue service determines that family leave insurance benefits under this chapter are subject to federal income tax and an individual elects to have federal income tax deducted and withheld from benefits, the department shall deduct and withhold the amount specified in the federal internal revenue code in a manner consistent with section 9 of this act.

NEW SECTION. Sec. 9. FEDERAL INCOME TAX. (1) If the internal revenue service determines that family leave insurance benefits under this chapter are subject to federal income tax, the department must advise an individual filing a new claim for family leave insurance benefits, at the time of filing such claim, that:

ONE-HUNDRED FIFTH DAY, APRIL 22, 2007

2007 REGULAR SESSION

(a) The internal revenue service has determined that benefits are subject to federal income tax;

(b) Requirements exist pertaining to estimated tax payments;

(c) The individual may elect to have federal income tax deducted and withheld from the individual's payment of benefits at the amount specified in the federal internal revenue code; and

(d) The individual is permitted to change a previously elected withholding status.

(2) Amounts deducted and withheld from benefits must remain in the family leave insurance account until transferred to the federal taxing authority as a payment of income tax.

(3) The director shall follow all procedures specified by the federal internal revenue service pertaining to the deducting and withholding of income tax.

NEW SECTION. Sec. 10. ADJUSTMENT TO BENEFITS. If family leave insurance benefits are paid erroneously or as a result of willful misrepresentation, or if a claim for family leave benefits is rejected after benefits are paid, RCW 51.32.240 shall apply, except that appeals are governed by section 14 of this act, penalties are paid into the family leave insurance account, and the department shall seek repayment of benefits from the recipient.

NEW SECTION. Sec. 11. LEAVE AND EMPLOYMENT PROTECTION. (1) During a period in which an individual receives family leave insurance benefits or earns waiting period credits under this chapter, the individual is entitled to family leave and, at the established ending date of leave, to be restored to a position of employment with the employer from whom leave was taken.

(2) The individual entitled to leave under this section shall be restored to a position of employment in the same manner as an employee entitled to leave under chapter 49.78 RCW is restored to a position of employment, as specified in RCW 49.78.280.

(3) This section applies only to an individual if:

(a) The employer from whom the individual takes family leave employs more than twenty-five employees; and

(b) The individual has been employed for at least twelve months by that employer, and for at least one thousand two hundred fifty hours of service with that employer during the previous twelve-month period.

(4) This section shall be enforced as provided in chapter 49.78 RCW.

NEW SECTION. Sec. 12. EMPLOYMENT BY SAME EMPLOYER. If spouses or people involved in a legal relationship established under chapter 26.-- RCW (sections 1, 2, and 4 through 8, chapter . . . (Substitute Senate Bill No. 5336), Laws of 2007) who are entitled to leave under this chapter are employed by the same employer, the employer may require that spouses or people involved in such a relationship governed by Title 26 RCW not take such leave concurrently.

NEW SECTION. Sec. 13. ELECTIVE COVERAGE. (1) An employer of individuals not covered by this chapter or a self-employed person, including a sole proprietor, partner, or joint venturer, may elect coverage under this chapter for all individuals in its employ for an initial period of not less than three years or a subsequent period of not less than one year immediately following another period of coverage. The employer or self-employed person must file a notice of election in writing with the director, as required by the department. The election becomes effective on the date of filing the notice.

(2) An employer or self-employed person who has elected coverage may withdraw from coverage within thirty days after the end of the three-year period of coverage, or at such other times as the director may prescribe by rule, by filing written notice with the director, such withdrawal to take effect not sooner than thirty days after filing the notice. Within five days of filing written notice of the withdrawal with the director, an employer must provide written notice of the withdrawal to all individuals in the employer's employ.

NEW SECTION. Sec. 14. APPEALS. (1) A person aggrieved by a decision of the department under this chapter must file a notice of appeal with the director, by mail or personally, within thirty days after the date on which a copy of the department's decision was communicated to the person.

Upon receipt of the notice of appeal, the director shall request the assignment of an administrative law judge in accordance with chapter 34.05 RCW to conduct a hearing and issue a proposed decision and order. The hearing shall be conducted in accordance with chapter 34.05 RCW.

(2) The administrative law judge's proposed decision and order shall be final and not subject to further appeal unless, within thirty days after the decision is communicated to the interested parties, a party petitions for review by the director. If the director's review is timely requested, the director may order additional evidence by the administrative law judge. On the basis of the evidence before the administrative law judge and such additional evidence as the director may order to be taken, the director shall render a decision affirming, modifying, or setting aside the administrative law judge's decision. The director's decision becomes final and not subject to further appeal unless, within thirty days after the decision is communicated to the interested parties, a party files a petition for judicial review as provided in chapter 34.05 RCW. The director is a party to any judicial action involving the director's decision and shall be represented in the action by the attorney general.

(3) If, upon administrative or judicial review, the final decision of the department is reversed or modified, the administrative law judge or the court in its discretion may award reasonable attorneys' fees and costs to the prevailing party. Attorneys' fees and costs owed by the department, if any, are payable from the family leave insurance account.

NEW SECTION. Sec. 15. PROHIBITED ACTS. An employer, temporary help company, employment agency, employee organization, or other person may not discharge, expel, or otherwise discriminate against a person because he or she has filed or communicated to the employer an intent to file a claim, a complaint, or an appeal, or has testified or is about to testify or has assisted in any proceeding, under this chapter, at any time, including during the waiting period described in section 7 of this act and the period in which the person receives family leave insurance benefits under this chapter. This section shall be enforced as provided in RCW 51.48.025.

NEW SECTION. Sec. 16. COORDINATION OF LEAVE. (1)(a) Leave taken under this act must be taken concurrently with any leave taken under the federal family and medical leave act of 1993 (Act Feb. 5, 1993, P.L. 103-3, 107 Stat. 6) or under chapter 49.78 RCW.

(b) An employer may require that leave taken under this act be taken concurrently or otherwise coordinated with leave allowed under the terms of a collective bargaining agreement or employer policy, as applicable, for the birth or placement of a child. The employer must give individuals in its employ written notice of this requirement.

(2)(a) This act does not diminish an employer's obligation to comply with a collective bargaining agreement or employer policy, as applicable, that provides greater leave for the birth or placement of a child.

(b) An individual's right to leave under this act may not be diminished by a collective bargaining agreement entered into or renewed or an employer policy adopted or retained after the effective date of this section. Any agreement by an individual to waive his or her rights under this act is void as against public policy.

NEW SECTION. Sec. 17. NO CONTINUING ENTITLEMENT OR CONTRACTUAL RIGHT. This chapter does not create a continuing entitlement or contractual right. The legislature reserves the right to amend or repeal all or part of this chapter at any time, and a benefit or other right granted under this chapter exists subject to the legislature's power to amend or repeal this chapter. There is no vested private right of any kind against such amendment or repeal.

NEW SECTION. Sec. 18. RULES. The director may adopt rules as necessary to implement this chapter. In adopting rules, the director shall maintain consistency with the rules adopted to implement the federal family and medical leave act, and chapter 49.78 RCW, to the extent such rules are not in conflict with this chapter.

ONE-HUNDRED FIFTH DAY, APRIL 22, 2007

2007 REGULAR SESSION

NEW SECTION. Sec. 19. ACCOUNT. The family leave insurance account is created in the custody of the state treasurer. Expenditures from the account may be used only for the purposes of the family leave insurance program. Only the director of the department of labor and industries or the director's designee may authorize expenditures from the account. The account is subject to the allotment procedures under chapter 43.88 RCW. An appropriation is required for administrative expenses, but not for benefit payments.

NEW SECTION. Sec. 20. INVESTMENT OF FAMILY LEAVE INSURANCE ACCOUNT. Whenever, in the judgment of the state investment board, there shall be in the family leave insurance account funds in excess of that amount deemed by the state investment board to be sufficient to meet the current expenditures properly payable therefrom, the state investment board shall have full power to invest, reinvest, manage, contract, or sell or exchange investments acquired with such excess funds in the manner prescribed by RCW 43.84.150, and not otherwise.

Sec. 21. RCW 43.79A.040 and 2006 c 311 s 21 and 2006 c 120 s 2 are each reenacted and amended to read as follows:

(1) Money in the treasurer's trust fund may be deposited, invested, and reinvested by the state treasurer in accordance with RCW 43.84.080 in the same manner and to the same extent as if the money were in the state treasury.

(2) All income received from investment of the treasurer's trust fund shall be set aside in an account in the treasury trust fund to be known as the investment income account.

(3) The investment income account may be utilized for the payment of purchased banking services on behalf of treasurer's trust funds including, but not limited to, depository, safekeeping, and disbursement functions for the state treasurer or affected state agencies. The investment income account is subject in all respects to chapter 43.88 RCW, but no appropriation is required for payments to financial institutions. Payments shall occur prior to distribution of earnings set forth in subsection (4) of this section.

(4)(a) Monthly, the state treasurer shall distribute the earnings credited to the investment income account to the state general fund except under (b) and (c) of this subsection.

REMARKS BY THE PRESIDENT

ENGROSSED SECOND SUBSTITUTE HOUSE BILL NO. 2284, by House Committee on Commerce & Labor (originally

President Owen: "Ladies and gentlemen, the President has an announcement to make. Some of us served with a very fine gentleman, John O'Brien, who is the longest-serving member of any Legislature, I believe in the United States, in the history of this country. He served in one way or another, from 1939 to 1993, in the House of Representatives. He was Majority Leader and Caucus Chairman, he was Minority Floor Leader, Speaker of the House, acting Speaker, Majority Leader, Minority Leader, Chairman, Majority Executive Committee, Democratic Parliamentary Leader, Speaker Pro Tempore, serving in all those positions. Bishop Tyson had called my office just recently to inform us that John O'Brien just died and so we're saddened by the loss of this great Washingtonian. He served, like I said, from except for two years, he had a slight break, he served from 1939 until 1993 so we will miss the great John O'Brien."

Because he was very much a parliamentarian, he ran a class for freshman in the House when I was there in 1985. I can remember my first session there I had a particular bill that I couldn't get a chair to get a hearing for so I went to John O'Brien and asked him what I could do about it. I said 'There's not way I can get a hearing' and he said, 'What you need to do is go to ninth order and pull the bill to the floor.' So that's where I got my first real training on how to work the process and learned an awful lot from him and I just wanted to share that story with everybody that he was full of good information."

REPLY BY THE PRESIDENT

President Owen: "Senator Hargrove, and how did that work for you?"

PERSONAL PRIVILEGE

Senator Hargrove: "Mr. President, if you noticed how we managed to get offender re-entry passed this session, you can see that those lessons are still sticking."

MOTION

Strike everything after the enacting clause and insert the following:

"**NEW SECTION. Sec. 1.** The legislature finds that the goal of Washington's education reform is for all students to meet rigorous academic standards so that they are prepared for success in college, work, and life. Educators know that not all students learn at the same rate or in the same way. Some students will take longer to meet the state's standards for high school graduation. Older students who cannot graduate with their peers need an appropriate learning environment and flexible programming that enables them simultaneously to earn a diploma, work, and pursue other training options. Providing learning options in locations in addition to high schools will

2007 REGULAR SESSION

encourage older students to complete their diplomas. Therefore the legislature intends to create a pilot high school completion program at two community and technical colleges for older students who have not yet received a diploma but are eligible for state basic education support.

Sec. 2. RCW 28B.50.535 and 1991 c 238 s 58 are each amended to read as follows:

A community or technical college may issue a high school diploma or certificate, subject to rules ~~((and regulations promulgated))~~ adopted by the superintendent of public instruction and the state board of education.

NEW SECTION. Sec. 3. A new section is added to chapter 28B.50 RCW to read as follows:

(1) A pilot program is created for two community or technical colleges to make available courses or a program of study, on the college campus, designed to enable students under the age of twenty-one who have completed all state and local high school graduation requirements except the certificate of academic achievement or certificate of individual achievement to complete their high school education and obtain a high school diploma.

(a) The colleges participating in the pilot program in this section may make courses or programs under this section available by entering into contracts with local school districts to deliver the courses or programs. Colleges participating in the pilot program that offer courses or programs under contract shall be reimbursed for each enrolled eligible student as provided in the contract, and the high school diploma shall be issued by the local school district;

(b) Colleges participating in the pilot program may deliver courses or programs under this section directly. Colleges that deliver courses or programs directly shall be reimbursed for each enrolled eligible student as provided in section 4 of this act, and the high school diploma shall be issued by the college;

(c) Colleges participating in the pilot program may make courses or programs under this section available through a combination of contracts with local school districts, collaboration with educational service districts, and direct service delivery. Colleges participating in the pilot program may also make courses or programs under this section available for students at locations in addition to the college campus; or

(d) Colleges participating in the pilot program may enter into regional partnerships to carry out the provisions of this subsection (1).

(2) Regardless of the service delivery method chosen, colleges participating in the pilot program shall ensure that all eligible students located in school districts within their college district as defined in RCW 28B.50.040 have an opportunity to enroll in a course or program under this section.

(3) Colleges participating in the pilot program shall not require students enrolled under this section to pay tuition or services and activities fees; however this waiver of tuition and services and activities fees shall be in effect only for those courses that lead to a high school diploma.

(4) Nothing in this section or section 4 of this act precludes a community or technical college from offering courses or a program of study for students other than eligible students as defined by section 4 of this act to obtain a high school diploma, nor is this section or section 4 of this act intended to restrict diploma completion programs offered by school districts or educational service districts. Community and technical colleges and school districts are encouraged to consult with educational service districts in the development and delivery of programs and courses required under this section.

(5) Community and technical colleges participating in the pilot program shall not be required to administer the Washington assessment of student learning.

NEW SECTION. Sec. 4. A new section is added to chapter 28A.600 RCW to read as follows:

(1) For purposes of this section and section 3 of this act, "eligible student" means a student who has completed all state and local high school graduation requirements except the certificate of academic achievement under RCW 28A.655.061 or the certificate of individual achievement under RCW 28A.155.045, who is less than age twenty-one as of September

(2) An eligible student may enroll in courses or a program of study made available by a community or technical college participating in the pilot program created under section 3 of this act for the purpose of obtaining a high school diploma.

(3) For eligible students in courses or programs delivered directly by the community or technical college participating in the pilot program under section 3 of this act and only for enrollment in courses that lead to a high school diploma, the superintendent of public instruction shall transmit to the colleges participating in the pilot program an amount per each full-time equivalent college student at statewide uniform rates. The amount shall be the sum of (a), (b), (c), and (d) of this subsection, as applicable.

(a) The superintendent shall separately calculate and allocate moneys appropriated for basic education under RCW 28A.150.260 for purposes of making payments under this section. The calculations and allocations shall be based upon the estimated statewide annual average per full-time equivalent high school student allocations under RCW 28A.150.260, excluding small high school enhancements, and applicable rules adopted under chapter 34.05 RCW.

(b) The superintendent shall allocate an amount equal to the per funded student state allocation for the learning assistance program under chapter 28A.165 RCW for each full-time equivalent college student or a pro rata amount for less than full-time enrollment.

(c) The superintendent shall allocate an amount equal to the per full-time equivalent student allocation for the student achievement program under RCW 28A.505.210 for each full-time equivalent college student or a pro rata amount for less than full-time enrollment.

(d) For eligible students who meet eligibility criteria for the state transitional bilingual instruction program under chapter 28A.180 RCW, the superintendent shall allocate an amount equal to the per student state allocation for the transitional bilingual instruction program or a pro rata amount for less than full-time enrollment.

(4) The superintendent may adopt rules establishing enrollment reporting, recordkeeping, and accounting requirements necessary to ensure accountability for the use of basic education, learning assistance, and transitional bilingual program funds under this section for the pilot program created under section 3 of this act.

(5) All school districts in the geographic area of the two community and technical colleges selected pursuant to section 8 of this act to participate in the pilot program shall provide information about the high school completion option under section 3 of this act to students in grades ten, eleven, and twelve and the parents or guardians of those students.

Sec. 5. RCW 28A.655.061 and 2006 c 115 s 4 are each amended to read as follows:

(1) The high school assessment system shall include but need not be limited to the Washington assessment of student learning, opportunities for a student to retake the content areas of the assessment in which the student was not successful, and if approved by the legislature pursuant to subsection (10) of this section, one or more objective alternative assessments for a student to demonstrate achievement of state academic standards. The objective alternative assessments for each content area shall be comparable in rigor to the skills and knowledge that the student must demonstrate on the Washington assessment of student learning for each content area.

2007 REGULAR SESSION

(2) Subject to the conditions in this section, a certificate of academic achievement shall be obtained by most students at about the age of sixteen, and is evidence that the students have successfully met the state standard in the content areas included in the certificate. With the exception of students satisfying the provisions of RCW 28A.155.045, acquisition of the certificate is required for graduation from a public high school but is not the only requirement for graduation.

(3) Beginning with the graduating class of 2008, with the exception of students satisfying the provisions of RCW 28A.155.045, a student who meets the state standards on the reading, writing, and mathematics content areas of the high school Washington assessment of student learning shall earn a certificate of academic achievement. If a student does not successfully meet the state standards in one or more content areas required for the certificate of academic achievement, then the student may retake the assessment in the content area up to four times at no cost to the student. If the student successfully meets the state standards on a retake of the assessment then the student shall earn a certificate of academic achievement. Once objective alternative assessments are authorized pursuant to subsection (10) of this section, a student may use the objective alternative assessments to demonstrate that the student successfully meets the state standards for that content area if the student has retaken the Washington assessment of student learning at least once. If the student successfully meets the state standards on the objective alternative assessments then the student shall earn a certificate of academic achievement.

(4) Beginning with the graduating class of 2010, a student must meet the state standards in science in addition to the other content areas required under subsection (3) of this section on the Washington assessment of student learning or the objective alternative assessments in order to earn a certificate of academic achievement.

(5) The state board of education may not require the acquisition of the certificate of academic achievement for students in home-based instruction under chapter 28A.200 RCW, for students enrolled in private schools under chapter 28A.195 RCW, or for students satisfying the provisions of RCW 28A.155.045.

(6) A student may retain and use the highest result from each successfully completed content area of the high school assessment.

(7) Beginning in 2006, school districts must make available to students the following options:

(a) To retake the Washington assessment of student learning up to four times in the content areas in which the student did not meet the state standards if the student is enrolled in a public school; or

(b) To retake the Washington assessment of student learning up to four times in the content areas in which the student did not meet the state standards if the student is enrolled in a high school completion program at a community or technical college. The superintendent of public instruction and the state board for community and technical colleges shall jointly identify means by which students in these programs can be assessed.

(8) Students who achieve the standard in a content area of the high school assessment but who wish to improve their results shall pay for retaking the assessment, using a uniform cost determined by the superintendent of public instruction.

(9) Subject to available funding, the superintendent shall pilot opportunities for retaking the high school assessment beginning in the 2004-05 school year. Beginning no later than September 2006, opportunities to retake the assessment at least twice a year shall be available to each school district.

(10)(a) The office of the superintendent of public instruction shall develop options for implementing objective alternative assessments, which may include an appeals process, for students to demonstrate achievement of the state academic standards. The objective alternative assessments shall be comparable in rigor to the skills and knowledge that the student must demonstrate on the Washington assessment of student learning and be objective in its determination of student achievement of the state standards. Before any objective alternative assessments in addition to those authorized in RCW 28A.655.065 or (b) of

this subsection are used by a student to demonstrate that the student has met the state standards in a content area required to obtain a certificate, the legislature shall formally approve the use of any objective alternative assessments through the omnibus appropriations act or by statute or concurrent resolution.

(b) A student's score on the mathematics portion of the preliminary scholastic assessment test (PSAT), the scholastic assessment test (SAT), or the American college test (ACT) may be used as an objective alternative assessment under this section for demonstrating that a student has met or exceeded the mathematics standards for the certificate of academic achievement. The state board of education shall identify the scores students must achieve on the mathematics portion of the PSAT, SAT, or ACT to meet or exceed the state standard for mathematics. The state board of education shall identify the first scores by December 1, 2006, and thereafter may increase but not decrease the scores required for students to meet or exceed the state standard for mathematics.

(11) By December 15, 2004, the house of representatives and senate education committees shall obtain information and conclusions from recognized, independent, national assessment experts regarding the validity and reliability of the high school Washington assessment of student learning for making individual student high school graduation determinations.

(12) To help assure continued progress in academic achievement as a foundation for high school graduation and to assure that students are on track for high school graduation, each school district shall prepare plans for students as provided in this subsection (12).

(a) Student learning plans are required for eighth through twelfth grade students who were not successful on any or all of the content areas of the Washington assessment for student learning during the previous school year. The plan shall include the courses, competencies, and other steps needed to be taken by the student to meet state academic standards and stay on track for graduation. If applicable, the plan shall also include the high school completion pilot program created under section 3 of this act. This requirement shall be phased in as follows:

(i) Beginning no later than the 2004-05 school year ninth grade students as described in this subsection (12)(a) shall have a plan.

(ii) Beginning no later than the 2005-06 school year and every year thereafter eighth grade students as described in this subsection (12)(a) shall have a plan.

(iii) The parent or guardian shall be notified, preferably through a parent conference, of the student's results on the Washington assessment of student learning, actions the school intends to take to improve the student's skills in any content area in which the student was unsuccessful, strategies to help them improve their student's skills, and the content of the student's plan.

(iv) Progress made on the student plan shall be reported to the student's parents or guardian at least annually and adjustments to the plan made as necessary.

(b) Beginning with the 2005-06 school year and every year thereafter, all fifth grade students who were not successful in one or more of the content areas of the fourth grade Washington assessment of student learning shall have a student learning plan.

(i) The parent or guardian of a student described in this subsection (12)(b) shall be notified, preferably through a parent conference, of the student's results on the Washington assessment of student learning, actions the school intends to take to improve the student's skills in any content area in which the student was unsuccessful, and provide strategies to help them improve their student's skills.

(ii) Progress made on the student plan shall be reported to the student's parents or guardian at least annually and adjustments to the plan made as necessary.

REMARKS BY THE PRESIDENT

President Owen: "Ladies and gentlemen of the Senate, two years ago the President came out with the President's observations of the session and I didn't do one last year and I was encouraged by members to do this again. So, I do have the President's observations of 2007 and the accompanying certificates if you so desire to hear them, and if you are good natured. So the President's observations of 2007:

The Senator most likely to be mistaken by the President for the Senator who sits behind said Senator, Senator Hobbs.

The Senator most likely to be mistaken by the President for the Senator who sits in front of said Senator, Senator Marr.

The Senators most likely to remain patiently seated throughout the debate and voting and not draw attention to themselves, Senators Berkey, Senator Fraser, Senator Kauffman, Senator Morton, and except for during the budget, Senator Prentice.

The Senator most likely to speak against a bill before 'reluctantly' voting for it, Senator Carrell.

The Senator most likely to rise to 'reluctantly speak against the bill' but with compassion, Senator Clements.

We have two awards in this category:

The Senator most likely to believe that the President is unaware that he is causing trouble by disrupting the speeches of new Senators through such antics as disconnecting microphones, acting childish and otherwise doing things he thinks are clever without the President noticing but, of course, the President does notice because the Senator is not quite as smooth as he thinks he is, Senator Poulsen and Senator Hatfield.

The Senator most likely to quote an obscure author, Senator Jacobsen and, of course, Those mostly likely to not be sure to whom Senator Jacobsen is quoting or if it's accurate but are reluctant to admit their own ignorance, all the rest of us.

The Senator most likely to give the most comprehensive and profound analysis on the least comprehensive and profound bill, Senator Kohl-Welles.

The Senator most likely to tear the curtains down when rushing to the floor to vote, Senator Weinstein, runner up would be Senator Hargrove.

And we have a rare triple crown sweep, the Senator most likely to not be at his seat when a vote begins, Senator Benton.

The Senator most likely to not be at his seat when a vote ends, Senator Benton.

The Senator most likely to call the most attention to himself when he finally does vote, Senator Benton, runner up, Senator Roach.

And we have an upset in this next category this year. In a stunning turn of events, Senator Honeyford has been displaced and we have a new winner for the Senator most likely to vote no on everything: Senator Holmquist.

After a bill passes, the Senator most likely to thank everyone including the parking attendants, the pages in the dining room, any other staff she missed and even some guys she ran into on the elevator on her way to the floor, Senator Haugen.

The Senator most likely to tell a joke that confuses one-third of the body, Senator Pridemore.

The Senator most likely to excuse someone who is present on the floor, Senator Brandland.

The Senator most likely to make up a new word because the present words available in the English language do not adequately capture his passion, Senator Clements.

And the Senator most likely to make the wrong motion on the floor but insists she is right, Senator McAuliffe.

So ends the President's observations this year."

PERSONAL PRIVILEGE

Senator Fraser: "Mr. President, a lot of you know I have a wonderful session aide, Ellie Dornan, and today she turns eighty-two on this very day. She has been my session aide ever since I've been in the Senate so that makes fifteen years. For those of you that know her, know she is a person of incomparable good cheer, great humor, irreplaceable wisdom, dispensed to callers and visitors. Just a wonderful addition to our office during the sessions. She's actually worked in the Senate, off and on, for decades. She has lots of wisdom to dispense and it's my great pleasure to wish her a happy birthday and to let you know there are refreshments in the office."

INTRODUCTION OF SPECIAL GUESTS

The President wished Mrs. Ellie Dornan a Happy Birthday who was seated in the gallery.

PARLIAMENTARY INQUIRY

Senator Honeyford: "In your awards, you mentioned that I was replaced but I didn't know that I'd ever received that award before."

ONE-HUNDRED FIFTH DAY, APRIL 22, 2007
REPLY BY THE PRESIDENT

2007 REGULAR SESSION

President Owen: "It was a concensus award."

PERSONAL PRIVILEGE

Senator Kohl-Welles: "Thank you Mr. President. Well I had an occasion recently to speak with Senator Ted Kennedy from Massachusetts and when he found out that I represent a district from Seattle and from the Washington State Senate the first thing he said to me was, 'Seattle, Washington State. Mt. Rainier, Lou and Jim Whittaker. And he went on to tell about the wonderful Whittaker brothers and Ingrid, the wife of Lou Whittaker and the wonderful things that they have done for this state in championing and mountaineering and Mt. Rainier and how he and our U. S. Senator, Patty Murray, are working hard to get funding into the federal budget for the mountain museum that the Whittaker's have been working on. I thought that was just really very exciting and moving to have a U. S. Senator say that. The first thing about our state."

MESSAGE FROM THE HOUSE

April 22, 2007

MR. PRESIDENT:

Under suspension of rules ENGROSSED SUBSTITUTE SENATE BILL NO. 6023 was returned to second reading for purpose of an amendment: 6023-S.E AMH H3668.3, and passed the House as amended by the House.

Strike everything after the enacting clause and insert the following:

"**NEW SECTION. Sec. 1.** (1) The legislature maintains a strong commitment to high expectations and high academic achievement for all students. The legislature finds that Washington schools and students are making significant progress in improving achievement in reading and writing. Schools are adapting instruction and providing remediation for students who need additional assistance. Reading and writing are being taught across the curriculum. Therefore, the legislature does not intend to make changes to the Washington assessment of student learning or high school graduation requirements in reading and writing.

(2) However, students are having difficulty improving their academic achievement in mathematics and science, particularly as measured by the high school Washington assessment of

2007 REGULAR SESSION

student learning. The legislature finds that corrections are needed in the state's high school assessment system that will improve alignment between learning standards, instruction, diagnosis, and assessment of students' knowledge and skills in high school mathematics and science. The legislature further finds there is a sense of urgency to make these corrections and intends to revise high school graduation requirements in mathematics and science only for the minimum period for corrections to be fully implemented.

Sec. 2. RCW 28A.655.061 and 2006 c 115 s 4 are each amended to read as follows:

(1) The high school assessment system shall include but need not be limited to the Washington assessment of student learning, opportunities for a student to retake the content areas of the assessment in which the student was not successful, and if approved by the legislature pursuant to subsection (10) of this section, one or more objective alternative assessments for a student to demonstrate achievement of state academic standards. The objective alternative assessments for each content area shall be comparable in rigor to the skills and knowledge that the student must demonstrate on the Washington assessment of student learning for each content area.

(2) Subject to the conditions in this section, a certificate of academic achievement shall be obtained by most students at about the age of sixteen, and is evidence that the students have successfully met the state standard in the content areas included in the certificate. With the exception of students satisfying the provisions of RCW 28A.155.045 or section 4 of this act, acquisition of the certificate is required for graduation from a public high school but is not the only requirement for graduation.

(3) Beginning with the graduating class of 2008, with the exception of students satisfying the provisions of RCW 28A.155.045, a student who meets the state standards on the reading, writing, and mathematics content areas of the high school Washington assessment of student learning shall earn a certificate of academic achievement. If a student does not successfully meet the state standards in one or more content areas required for the certificate of academic achievement, then the student may retake the assessment in the content area up to four times at no cost to the student. If the student successfully meets the state standards on a retake of the assessment then the student shall earn a certificate of academic achievement. Once objective alternative assessments are authorized pursuant to subsection (10) of this section, a student may use the objective alternative assessments to demonstrate that the student successfully meets the state standards for that content area if the student has ~~((retaken))~~ taken the Washington assessment of student learning at least once. If the student successfully meets the state standards on the objective alternative assessments then the student shall earn a certificate of academic achievement.

(4) Beginning no later than with the graduating class of ~~((2010))~~ 2013, a student must meet the state standards in science in addition to the other content areas required under subsection (3) of this section on the Washington assessment of student learning or the objective alternative assessments in order to earn a certificate of academic achievement. The state board of education may adopt a rule that implements the requirements of this subsection (4) beginning with a graduating class before the graduating class of 2013, if the state board of education adopts the rule by September 1st of the freshman school year of the graduating class to which the requirements of this subsection (4) apply. The state board of education's authority under this subsection (4) does not alter the requirement that any change in performance standards for the tenth grade assessment must comply with RCW 28A.305.130.

(5) The state board of education may not require the acquisition of the certificate of academic achievement for students in home-based instruction under chapter 28A.200 RCW, for students enrolled in private schools under chapter 28A.195 RCW, or for students satisfying the provisions of RCW 28A.155.045.

(6) A student may retain and use the highest result from each successfully completed content area of the high school assessment.

(7) ~~((Beginning in 2006,))~~ School districts must make available to students the following options:

(a) To retake the Washington assessment of student learning up to four times in the content areas in which the student did not meet the state standards if the student is enrolled in a public school; or

(b) To retake the Washington assessment of student learning up to four times in the content areas in which the student did not meet the state standards if the student is enrolled in a high school completion program at a community or technical college. The superintendent of public instruction and the state board for community and technical colleges shall jointly identify means by which students in these programs can be assessed.

(8) Students who achieve the standard in a content area of the high school assessment but who wish to improve their results shall pay for retaking the assessment, using a uniform cost determined by the superintendent of public instruction.

(9) ~~((Subject to available funding, the superintendent shall pilot opportunities for retaking the high school assessment beginning in the 2004-05 school year. Beginning no later than September 2006,))~~ Opportunities to retake the assessment at least twice a year shall be available to each school district.

(10)(a) The office of the superintendent of public instruction shall develop options for implementing objective alternative assessments, which may include an appeals process for students' scores, for students to demonstrate achievement of the state academic standards. The objective alternative assessments shall be comparable in rigor to the skills and knowledge that the student must demonstrate on the Washington assessment of student learning and be objective in its determination of student achievement of the state standards. Before any objective alternative assessments in addition to those authorized in RCW 28A.655.065 or (b) of this subsection are used by a student to demonstrate that the student has met the state standards in a content area required to obtain a certificate, the legislature shall formally approve the use of any objective alternative assessments through the omnibus appropriations act or by statute or concurrent resolution.

(b)(i) A student's score on the mathematics ~~((portion of the preliminary scholastic assessment test (PSAT)))~~, reading or English, or writing portion of the scholastic assessment test (SAT)(;) or the American college test (ACT) may be used as an objective alternative assessment under this section for demonstrating that a student has met or exceeded the ~~((mathematics))~~ state standards for the certificate of academic achievement. The state board of education shall identify the scores students must achieve on the ~~((mathematics))~~ relevant portion of the ((PSAT;)) SAT(;) or ACT to meet or exceed the state standard ~~((for mathematics))~~ in the relevant content area on the Washington assessment of student learning. The state board of education shall identify the first scores by December 1, ~~((2006, and thereafter))~~ 2007. After the first scores are established, the state board may increase but not decrease the scores required for students to meet or exceed the state standards ((for mathematics)).

(ii) Until August 31, 2008, a student's score on the mathematics portion of the preliminary scholastic assessment test (PSAT) may be used as an objective alternative assessment under this section for demonstrating that a student has met or exceeded the state standard for the certificate of academic achievement. The state board of education shall identify the score students must achieve on the mathematics portion of the PSAT to meet or exceed the state standard in that content area on the Washington assessment of student learning.

(iii) A student who scores at least a three on the grading scale of one to five for selected advance placement examinations may use the score as an objective alternative assessment under this section for demonstrating that a student has met or exceeded state standards for the certificate of academic achievement. A score of three on the advance placement examinations in

calculus or statistics may be used as an alternative assessment for the mathematics portion of the Washington assessment of student learning. A score of three on the advance placement examinations in English language and composition may be used as an alternative assessment for the writing portion of the Washington assessment of student learning. A score of three on the advance placement examinations in English literature and composition, macroeconomics, microeconomics, psychology, United States history, world history, United States government and politics, or comparative government and politics may be used as an alternative assessment for the reading portion of the Washington assessment of student learning.

(11) By December 15, 2004, the house of representatives and senate education committees shall obtain information and conclusions from recognized, independent, national assessment experts regarding the validity and reliability of the high school Washington assessment of student learning for making individual student high school graduation determinations.

(12) To help assure continued progress in academic achievement as a foundation for high school graduation and to assure that students are on track for high school graduation, each school district shall prepare plans for students as provided in this subsection (12).

(a) Student learning plans are required for eighth through twelfth grade students who were not successful on any or all of the content areas of the Washington assessment for student learning during the previous school year. The plan shall include the courses, competencies, and other steps needed to be taken by the student to meet state academic standards and stay on track for graduation. ~~((This requirement shall be phased in as follows:~~

~~— (i) Beginning no later than the 2004-05 school year ninth grade students as described in this subsection (12)(a) shall have a plan.~~

~~— (ii) Beginning no later than the 2005-06 school year and every year thereafter eighth grade students as described in this subsection (12)(a) shall have a plan.~~

~~— (iii) (i) The parent or guardian shall be notified, preferably through a parent conference, of the student's results on the Washington assessment of student learning, actions the school intends to take to improve the student's skills in any content area in which the student was unsuccessful, strategies to help them improve their student's skills, and the content of the student's plan.~~

~~((iv)) (ii) Progress made on the student plan shall be reported to the student's parents or guardian at least annually and adjustments to the plan made as necessary.~~

~~(b) ((Beginning with the 2005-06 school year and every year thereafter,)) All fifth grade students who were not successful in one or more of the content areas of the fourth grade Washington assessment of student learning shall have a student learning plan.~~

~~(i) The parent or guardian of ((a)) the student ((described in this subsection (12)(b)) shall be notified, preferably through a parent conference, of the student's results on the Washington assessment of student learning, actions the school intends to take to improve the student's skills in any content area in which the student was unsuccessful, and provide strategies to help them improve their student's skills.~~

~~(ii) Progress made on the student plan shall be reported to the student's parents or guardian at least annually and adjustments to the plan made as necessary.~~

Sec. 3. RCW 28A.155.045 and 2004 c 19 s 104 are each amended to read as follows:

Beginning with the graduating class of 2008, students served under this chapter, who are not appropriately assessed by the high school Washington assessment system as defined in RCW 28A.655.061, even with accommodations, may earn a certificate of individual achievement. The certificate may be earned using multiple ways to demonstrate skills and abilities commensurate with their individual education programs. The determination of whether the high school assessment system is appropriate shall be made by the student's individual education

program team. Except as provided in section 4 of this act, for these students, the certificate of individual achievement is required for graduation from a public high school, but need not be the only requirement for graduation. When measures other than the high school assessment system as defined in RCW 28A.655.061 are used, the measures shall be in agreement with the appropriate educational opportunity provided for the student as required by this chapter. The superintendent of public instruction shall develop the guidelines for determining which students should not be required to participate in the high school assessment system and which types of assessments are appropriate to use.

When measures other than the high school assessment system as defined in RCW 28A.655.061 are used for high school graduation purposes, the student's high school transcript shall note whether that student has earned a certificate of individual achievement.

Nothing in this section shall be construed to deny a student the right to participation in the high school assessment system as defined in RCW 28A.655.061, and, upon successfully meeting the high school standard, receipt of the certificate of academic achievement.

NEW SECTION. Sec. 4. A new section is added to chapter 28A.655 RCW to read as follows:

(1) Beginning with the graduating class of 2008 and through no later than the graduating class of 2012, students may graduate from high school without earning a certificate of academic achievement or a certificate of individual achievement if they:

(a) Have not successfully met the mathematics standard on the high school Washington assessment of student learning, an approved objective alternative assessment, or an alternate assessment developed for eligible special education students;

(b) Have successfully met the state standard in the other content areas required for a certificate under RCW 28A.655.061 or 28A.155.045;

(c) Have met all other state and school district graduation requirements; and

(d)(i) For the graduating class of 2008, successfully earn one additional high school mathematics credit or career and technical course equivalent, including courses offered at skill centers, after the student's eleventh grade year intended to increase the student's mathematics proficiency toward meeting or exceeding the mathematics standards assessed on the high school Washington assessment of student learning and continue to take the appropriate mathematics assessment at least once annually until graduation; and

(ii) For the remaining graduating classes under this section, successfully earn two additional mathematics credits or career and technical course equivalent, including courses offered at skill centers, after the student's tenth grade year intended to increase the student's mathematics proficiency toward meeting or exceeding the mathematics standards assessed on the high school Washington assessment of student learning and continue to take the appropriate mathematics assessment at least once annually until graduation.

(2) The state board of education may adopt a rule that ends the application of this section with a graduating class before the graduating class of 2012, if the state board of education adopts the rule by September 1st of the freshman school year of the graduating class to which the provisions of this section no longer apply. The state board of education's authority under this section does not alter the requirement that any change in performance standards for the tenth grade assessment must comply with RCW 28A.305.130.

(3) This section expires August 31, 2013.

Sec. 5. RCW 28A.655.070 and 2005 c 497 s 106 are each amended to read as follows:

(1) The superintendent of public instruction shall develop essential academic learning requirements that identify the knowledge and skills all public school students need to know and be able to do based on the student learning goals in RCW 28A.150.210, develop student assessments, and implement the

ONE-HUNDRED FIFTH DAY, APRIL 22, 2007

2007 REGULAR SESSION

accountability recommendations and requests regarding assistance, rewards, and recognition of the state board of education.

(2) The superintendent of public instruction shall:

(a) Periodically revise the essential academic learning requirements, as needed, based on the student learning goals in RCW 28A.150.210. Goals one and two shall be considered primary. To the maximum extent possible, the superintendent shall integrate goal four and the knowledge and skill areas in the other goals in the essential academic learning requirements; and

(b) Review and prioritize the essential academic learning requirements and identify, with clear and concise descriptions, the grade level content expectations to be assessed on the Washington assessment of student learning and used for state or federal accountability purposes. The review, prioritization, and identification shall result in more focus and targeting with an emphasis on depth over breadth in the number of grade level content expectations assessed at each grade level. Grade level content expectations shall be articulated over the grades as a sequence of expectations and performances that are logical, build with increasing depth after foundational knowledge and skills are acquired, and reflect, where appropriate, the sequential nature of the discipline. The office of the superintendent of public instruction, within seven working days, shall post on its web site any grade level content expectations provided to an assessment vendor for use in constructing the Washington assessment of student learning.

(3) In consultation with the state board of education, the superintendent of public instruction shall maintain and continue to develop and revise a statewide academic assessment system in the content areas of reading, writing, mathematics, and science for use in the elementary, middle, and high school years designed to determine if each student has mastered the essential academic learning requirements identified in subsection (1) of this section. School districts shall administer the assessments under guidelines adopted by the superintendent of public instruction. The academic assessment system ~~(shall)~~ may include a variety of assessment methods, including criterion-referenced and performance-based measures.

(4) If the superintendent proposes any modification to the essential academic learning requirements or the statewide assessments, then the superintendent shall, upon request, provide opportunities for the education committees of the house of representatives and the senate to review the assessments and proposed modifications to the essential academic learning requirements before the modifications are adopted.

~~5)((a))~~ The assessment system shall be designed so that the results under the assessment system are used by educators as tools to evaluate instructional practices, and to initiate appropriate educational support for students who have not mastered the essential academic learning requirements at the appropriate periods in the student's educational development.

~~((b) Assessments measuring the essential academic learning requirements in the content area of science shall be available for mandatory use in middle schools and high schools by the 2003-04 school year and for mandatory use in elementary schools by the 2004-05 school year unless the legislature takes action to delay or prevent implementation of the assessment.))~~

(6) By September 2007, the results for reading and mathematics shall be reported in a format that will allow parents and teachers to determine the academic gain a student has acquired in those content areas from one school year to the next.

(7) To assist parents and teachers in their efforts to provide educational support to individual students, the superintendent of public instruction shall provide as much individual student performance information as possible within the constraints of the assessment system's item bank. The superintendent shall also provide to school districts:

(a) Information on classroom-based and other assessments that may provide additional achievement information for individual students; and

(b) A collection of diagnostic tools that educators may use to evaluate the academic status of individual students. The tools

shall be designed to be inexpensive, easily administered, and quickly and easily scored, with results provided in a format that may be easily shared with parents and students.

(8) To the maximum extent possible, the superintendent shall integrate knowledge and skill areas in development of the assessments.

(9) Assessments for goals three and four of RCW 28A.150.210 shall be integrated in the essential academic learning requirements and assessments for goals one and two.

(10) The superintendent shall develop assessments that are directly related to the essential academic learning requirements, and are not biased toward persons with different learning styles, racial or ethnic backgrounds, or on the basis of gender.

(11) The superintendent shall consider methods to address the unique needs of special education students when developing the assessments under this section.

(12) The superintendent shall consider methods to address the unique needs of highly capable students when developing the assessments under this section.

(13) The superintendent shall post on the superintendent's web site lists of resources and model assessments in social studies, the arts, and health and fitness.

Sec. 6. RCW 28A.655.065 and 2006 c 115 s 1 are each amended to read as follows:

(1) The legislature has made a commitment to rigorous academic standards for receipt of a high school diploma. The primary way that students will demonstrate that they meet the standards in reading, writing, mathematics, and science is through the Washington assessment of student learning. Only objective assessments that are comparable in rigor to the state assessment are authorized as an alternative assessment. Before seeking an alternative assessment, the legislature expects students to make a genuine effort to meet state standards, through ~~((retaking the Washington assessment of student learning))~~ regular and consistent attendance at school~~((s))~~ and participation in extended learning and other assistance programs.

(2) Under RCW 28A.655.061, beginning in the 2006-07 school year, the superintendent of public instruction shall implement objective alternative assessment methods as provided in this section for students to demonstrate achievement of the state standards in content areas in which the student has not yet met the standard on the high school Washington assessment of student learning. A student may access an alternative if the student meets applicable eligibility criteria in RCW 28A.655.061 and this section and other eligibility criteria established by the superintendent of public instruction, including but not limited to attendance criteria and participation in the remediation or supplemental instruction contained in the student learning plan developed under RCW 28A.655.061. A school district may waive attendance and/or remediation criteria for special, unavoidable circumstances.

(3) For the purposes of this section, "applicant" means a student seeking to use one of the alternative assessment methods in this section.

(4) One alternative assessment method shall be a combination of the applicant's grades in applicable courses and the applicant's highest score on the high school Washington assessment of student learning, as provided in this subsection. A student is eligible to apply for the alternative assessment method under this subsection (4) if the student has a cumulative grade point average of at least 3.2 on a four point grading scale. The superintendent of public instruction shall determine which high school courses are applicable to the alternative assessment method and shall issue guidelines to school districts.

(a) Using guidelines prepared by the superintendent of public instruction, a school district shall identify the group of students in the same school as the applicant who took the same high school courses as the applicant in the applicable content area. From the group of students identified in this manner, the district shall select the comparison cohort that shall be those students who met or slightly exceeded the state standard on the Washington assessment of student learning.

ONE-HUNDRED FIFTH DAY, APRIL 22, 2007

2007 REGULAR SESSION

(b) The district shall compare the applicant's grades in high school courses in the applicable content area to the grades of students in the comparison cohort for the same high school courses. If the applicant's grades are equal to or above the mean grades of the comparison cohort, the applicant shall be deemed to have met the state standard on the alternative assessment.

(c) An applicant may not use the alternative assessment under this subsection (4) if there are fewer than six students in the comparison cohort.

(5) The superintendent of public instruction shall develop an alternative assessment method that shall be an evaluation of a collection of work samples prepared and submitted by the applicant, as provided in this subsection and, for career and technical applicants, the additional requirements of subsection (6) of this section.

(a) The superintendent of public instruction shall develop guidelines for the types and number of work samples in each content area that may be submitted as a collection of evidence that the applicant has met the state standard in that content area. Work samples may be collected from academic, career and technical, or remedial courses and may include performance tasks as well as written products. The superintendent shall submit the guidelines for approval by the state board of education.

(b) The superintendent shall develop protocols for submission of the collection of work samples that include affidavits from the applicant's teachers and school district that the samples are the work of the applicant and a requirement that a portion of the samples be prepared under the direct supervision of a classroom teacher. The superintendent shall submit the protocols for approval by the state board of education.

(c) The superintendent shall develop uniform scoring criteria for evaluating the collection of work samples and submit the scoring criteria for approval by the state board of education. Collections shall be scored at the state level or regionally by a panel of educators selected and trained by the superintendent to ensure objectivity, reliability, and rigor in the evaluation. An educator may not score work samples submitted by applicants from the educator's school district. If the panel awards an applicant's collection of work samples the minimum required score, the applicant shall be deemed to have met the state standard on the alternative assessment.

(d) Using an open and public process that includes consultation with district superintendents, school principals, and other educators, the state board of education shall consider the guidelines, protocols, scoring criteria, and other information regarding the collection of work samples submitted by the superintendent of public instruction. The collection of work samples may be implemented as an alternative assessment after the state board of education has approved the guidelines, protocols, and scoring criteria and determined that the collection of work samples: (i) Will meet professionally accepted standards for a valid and reliable measure of the grade level expectations and the essential academic learning requirements; and (ii) is comparable to or exceeds the rigor of the skills and knowledge that a student must demonstrate on the Washington assessment of student learning in the applicable content area. The state board shall make an approval decision and determination no later than December 1, 2006, and thereafter may increase the required rigor of the collection of work samples.

(e) By September of 2006, the superintendent of public instruction shall develop informational materials for parents, teachers, and students regarding the collection of work samples and the status of its development as an alternative assessment method. The materials shall provide specific guidance regarding the type and number of work samples likely to be required, include examples of work that meets the state learning standards, and describe the scoring criteria and process for the collection. The materials shall also encourage students in the graduating class of 2008 to begin creating a collection if they

believe they may seek to use the collection once it is implemented as an alternative assessment.

(6)(a) For students enrolled in a career and technical education program approved under RCW 28C.04.110, the superintendent of public instruction shall develop additional guidelines for a collection of work samples that evidences that the collection:

(i) Is relevant to the student's particular career and technical program;

(ii) Focuses on the application of academic knowledge and skills within the program;

(iii) Includes completed activities or projects where demonstration of academic knowledge is inferred; and

(iv) Is related to the essential academic learning requirements and state standards that students must meet to earn a certificate of academic achievement or certificate of individual achievement, but also represents the knowledge and skills that successful individuals in the career and technical field of the approved program are expected to possess.

(b) To meet the state standard on the alternative assessment under this subsection (6), an applicant must also attain the state or nationally recognized certificate or credential associated with the approved career and technical program.

(c) The superintendent shall consult with community and technical colleges, employers, the work force training and education coordinating board, apprenticeship programs, and other regional and national experts in career and technical education to create an appropriate collection of work samples and other evidence of a career and technical student's knowledge and skills on the state academic standards.

(7) The superintendent of public instruction shall study the feasibility of using existing mathematics assessments in languages other than English as an additional alternative assessment option. The study shall include an estimation of the cost of translating the tenth grade mathematics assessment into other languages and scoring the assessments should they be implemented.

(8) The superintendent of public instruction shall implement:

(a) By June 1, 2006, a process for students to appeal the score they received on the high school assessments; and

(b) By January 1, 2007, guidelines and appeal processes for waiving specific requirements in RCW 28A.655.061 pertaining to the certificate of academic achievement and to the certificate of individual achievement for students who: (i) Transfer to a Washington public school in their junior or senior year with the intent of obtaining a public high school diploma, or (ii) have special, unavoidable circumstances.

(9) The state board of education shall examine opportunities for additional alternative assessments, including the possible use of one or more standardized norm-referenced student achievement tests and the possible use of the reading, writing, or mathematics portions of the ACT ASSET and ACT COMPASS test instruments as objective alternative assessments for demonstrating that a student has met the state standards for the certificate of academic achievement. The state board shall submit its findings and recommendations to the education committees of the legislature by January 10, 2008.

(10) The superintendent of public instruction (~~may~~) shall adopt rules to implement this section.

Sec. 7. RCW 28A.655.063 and 2006 c 115 s 5 are each amended to read as follows:

Subject to the availability of funds appropriated for this purpose, the office of the superintendent of public instruction shall provide funds to school districts (~~shall~~) to reimburse students for the cost of taking the tests in RCW 28A.655.061(10)(b) when the students take the tests for the purpose of using the (~~mathematics~~) results as an objective alternative assessment. The office of the superintendent of public instruction may, as an alternative to providing funds to school districts, arrange for students to receive a testing fee waiver or make other arrangements to compensate the students.

ONE-HUNDRED FIFTH DAY, APRIL 22, 2007

2007 REGULAR SESSION

Sec. 8. RCW 28A.655.200 and 2006 c 117 s 4 are each amended to read as follows:

(1) ~~((In the absence of mandatory, statewide, norm-referenced assessments,))~~ The legislature intends to permit school districts to offer norm-referenced assessments, make diagnostic tools available to school districts, and provide funding for diagnostic assessments to enhance ~~((guidance and planning for students and to))~~ student learning at all grade levels and provide early intervention before the high school Washington assessment of student learning.

(2) In addition to the diagnostic assessments provided under ~~((subsection (5) of))~~ this section, school districts may, at their own expense, administer norm-referenced assessments to students.

(3) ~~((By September 1, 2005, subject to available funds,))~~ The office of the superintendent of public instruction shall post on its web site for voluntary use by school districts, a guide of diagnostic assessments. The assessments in the guide, to the extent possible, shall include the characteristics listed in subsection (4) of this section.

(4) Beginning September 1, 2007, the office of the superintendent of public instruction shall make diagnostic assessments in reading, writing, mathematics, and science in elementary, middle, and high school grades available to school districts ((diagnostic assessments that)). Subject to funds appropriated for this purpose, the office of the superintendent of public instruction shall also provide funding to school districts for administration of diagnostic assessments to help improve student learning, identify academic weaknesses, enhance student planning and guidance, and develop targeted instructional strategies to assist students before the high school Washington assessment of student learning. To the greatest extent possible, the assessments shall be:

- (a) Aligned to the state's grade level expectations;
- (b) Individualized to each student's performance level;
- (c) Administered efficiently to provide results either immediately or within two weeks;
- (d) Capable of measuring individual student growth over time and allowing student progress to be compared to other students across the country;
- (e) Readily available to parents; and
- (f) Cost-effective.

(5) ~~((Beginning with the 2006-07 school year, the superintendent of public instruction shall reimburse school districts for administration of diagnostic assessments in grade nine for the purpose of identifying academic weaknesses, enhancing student planning and guidance, and developing targeted instructional strategies to assist students before the high school Washington assessment of student learning.~~

~~((6))~~ The office of the superintendent of public instruction ~~((is encouraged to))~~ shall offer training at statewide and regional staff development activities ~~((training opportunities that would assist practitioners))~~ in:

- (a) The interpretation of diagnostic assessments; and
- (b) Application of instructional strategies that will increase student learning based on diagnostic assessment data.

NEW SECTION. Sec. 9. A new section is added to chapter 28A.655 RCW to read as follows:

(1)(a) The legislature's intent is to make significant improvements in the high school Washington assessment of student learning in the content areas of mathematics and science before requiring students to meet the state standard on the assessment for graduation purposes.

(b) The legislature believes that a high school assessment system where students receive instruction through credited high school mathematics and science courses and have their knowledge and skills assessed after they complete the courses would be a superior assessment system for mathematics and science to the current form of the Washington assessment of student learning. The legislature also believes that end-of-course assessments would offer more timely results, better diagnostic information, and improved alignment between curriculum, instruction, and assessment. End-of-course

assessments in mathematics should cover the content of at least algebra I and geometry. End-of-course assessments in science should cover the content of at least biology, but also address other science content areas.

(c) However, the legislature acknowledges that replacing the current form of the Washington assessment of student learning in mathematics and science with end-of-course assessments represents a significant change that should be thoroughly evaluated and that an implementation timeline to shift to end-of-course assessments no later than for the graduating class of 2013 should be carefully developed.

(2) The state board of education, in consultation with the superintendent of public instruction, shall examine and recommend changes to the high school Washington assessment of student learning in the content areas of mathematics and science. The state board of education may contract with one or more independent national consultants to conduct the examination. The primary change to be examined shall be replacing the current high school Washington assessment of student learning with a limited series of end-of-course assessments in mathematics and science. The examination of end-of-course assessments shall include:

- (a) An objective analysis of the potential strengths and weaknesses of end-of-course assessments as the primary high school assessment tool for student and school accountability;
- (b) Analysis of the possible impact of end-of-course assessments on curriculum and instruction in mathematics and science;
- (c) The appropriate mathematics and science content to be covered by end-of-course assessments;
- (d) Recommended implementation timelines and issues to be addressed in replacing the current assessment; and
- (e) An analysis of the costs of adopting end-of-course assessments.

(3) In any request for proposals for a new testing contractor for the Washington assessment of student learning, the superintendent of public instruction shall include the possible changes being examined by the state board of education so that additional information about the cost and feasibility of the changes can be provided by prospective testing contractors.

(4) The state board of education shall submit a report to the superintendent of public instruction and the education committees of the legislature by January 10, 2008. The report shall contain findings from the examination under this section, recommendations for changes to the high school Washington assessment of student learning in mathematics and science, and a timeline for expedited implementation of the recommended changes.

(5) The legislature intends that the changes recommended by the state board of education under this section shall be able to be implemented no later than the 2010-11 school year in order to apply to the graduating class of 2013. If the state board of education finds that the changes cannot feasibly be implemented by the 2010-11 school year, the state board shall state the specific reasons for such a finding, along with supporting evidence, and recommend a revised expedited timeline.

(6) This section expires June 30, 2009.

NEW SECTION. Sec. 10. A new section is added to chapter 28A.655 RCW to read as follows:

(1) Before the 2007-08 school year, each educational service district shall implement an appeals panel or panels comprised of teachers, principals, and members of the business community with relevant knowledge or expertise to review and decide appeals submitted by students who did not meet the state standard on the tenth grade Washington assessment of student learning or an objective alternative assessment in one or more of the content areas assessed. The appeal under this section shall be an appeal by a student to demonstrate that he or she has the level of understanding of a content area assessed on the Washington assessment of student learning necessary to meet the state standard but was unable to demonstrate that understanding on the assessment or alternative assessment. An appeals panel must issue a determination of whether the appeal

ONE-HUNDRED FIFTH DAY, APRIL 22, 2007

2007 REGULAR SESSION

is approved or denied within sixty days of receiving an appeal application.

(2) A student is eligible to access the appeals process under this section if the student is in his or her junior or senior year of high school; has retaken the Washington assessment of student learning or has taken an alternative assessment in the content area in which the student is appealing; has participated in the remediation or supplemental instruction contained in the student learning plan developed under RCW 28A.655.061; and meets at least one of the following additional eligibility requirements:

(a) The student has met or is on track to meet all other state and local graduation requirements except for meeting the state standard on the Washington assessment of student learning;

(b) The student has completed a career and technical education industry certification program, or is on track to enter an articulated postsecondary program in an accredited community or technical college that leads to industry certification;

(c) The student is eligible for assessment accommodations, including accommodations for students with individualized education programs, students with plans developed pursuant to section 504 of the rehabilitation act of 1973, and English language learners. For students appealing under this subsection (2)(c), the panel shall consider, at a minimum, whether the appropriate assessment accommodation was provided; or

(d) The student is an English language learner who has been in the United States for fewer than three years.

(3) The educational service districts shall jointly submit an annual report to the legislature on the number and types of appeals received and approved.

(4) The state board of education shall adopt rules to implement this section by August 1, 2007. The rules shall include uniform criteria to be used by the appeals panels in making the panels' determinations. The criteria shall include review of the student's cumulative grade point average for those courses required for high school graduation; whether the student had regular and consistent attendance at school; the student's high school and beyond plan; and the student's culminating project. The state board of education may include additional criteria if necessary and shall determine how much weight shall be given to each criteria.

NEW SECTION. Sec. 11. A new section is added to chapter 28A.655 RCW to read as follows:

English language learners who score below level four on the Washington language proficiency test or the equivalent level of the evaluation used by the superintendent of public instruction to assess the English and academic proficiency of English language learners under RCW 28A.180.090 shall not be required to take the Washington assessment of student learning, except as required by federal law. However, these students are still subject to the graduation requirements established in RCW 28A.655.061.

NEW SECTION. Sec. 12. (1) The superintendent of public instruction and the workforce training and education coordinating board shall jointly convene and staff an advisory committee to identify career and technical education curricula that will assist in preparing students for the state assessment system and provide the opportunity to obtain a certificate of academic achievement.

(2) The advisory committee shall consist of the following nine members:

(a) Four members of the legislature, with two members each appointed by the respective caucuses of the house of representatives and the senate;

(b) One representative from the career and technical education section of the office of the superintendent of public instruction;

(c) One member appointed by the workforce training and education coordinating board; and

(d) Three members appointed by the superintendent of public instruction and the workforce training and education coordinating board based on recommendations from the career and technical education community.

(3) The advisory committee shall appoint a chair from among the nonlegislative members.

(4) Legislative members of the advisory committee shall be reimbursed for travel expenses in accordance with RCW 44.04.120. Nonlegislative members, except those representing an employer or organization, are entitled to be reimbursed for travel expenses in accordance with RCW 43.03.050 and 43.03.060.

(5) By January 15, 2008, the advisory committee shall provide an initial report to the governor and the legislature and, if necessary, a work plan with additional reporting deadlines, which shall not extend beyond December 15, 2008.

NEW SECTION. Sec. 13. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately."

PERSONAL PRIVILEGE

Senator Keiser: "Well, since the days are passing I thought it might be appropriate to read a dispatch that was recently published. I thought we might all enjoy the information. If I may? 'Dreaming of Sine Die. Legislative days are falling like hour glass sands, committees are discussing interim plans. The cherry blossoms are in bloom, Sine Die is coming soon, many constituencies have had their way, the onions, the frogs but not Lief Erikson Day. The Governor is signing bills into law, win-win solutions, common-sense approaches, blah, blah, blah. Though the 2007 session is fleeting, there's good little bills on second reading, budget writers may yet spend a few more mills, Senator Jacobsen may yet drop a few more bills but this sessions welcome has been out worn, Representative Roach has already blown his horn. The bell tolls when the House stops breaking for caucuses and when Representative Bailey stops fighting emergency clauses.' That is compliments of Chris Mullett Olympia Dispatch. Thought we might all enjoy."

PERSONAL PRIVILEGE

Senator Jacobsen: "I feel I've been impugned on my bills. I did do a little vote count here. I signed-I got seven with my own signature but I counted up and there's about thirteen more that passed in one shape or more. So, I would put the total up about thirteen. Of course, I'm counting the poet laureate which I introduced years ago. But I would claim that my theory of chaos does work."

2007 REGULAR SESSION

Senator McAuliffe: "Thank you Mr. President. I neglected to recognize the people who did most of the work on Senate Bill No. 6023. Many of us worked very hard on the floor of the Senate, I mean in the Senate Education Committee, and no one worked as hard as my Vice Chair, Senator Rodney Tom. I appreciate very much the work he did but I do have to tell you that I think we have broken a record for how many times a bill was drafted. Senate Bill No. 6023 was drafted thirty-seven times and I want to thank my staff both who worked so hard, Heather Lewis-Lechner from our caucus and the staff on the Senate Education Committee, particularly Susan Mielke, for all their work. I want to show my full appreciation for that. Thank you."

REPORT OF THE CONFERENCE REPORT
Substitute House Bill No. 1128
April 21, 2007

MR. PRESIDENT:
MR. SPEAKER:

We of your conference committee, to whom was referred Substitute House Bill No. 1128, have had the same under consideration and recommend that all previous amendments not be adopted and that the following striking amendment be adopted:

Strike everything after the enacting clause and insert the following:

(2) Unless the context clearly requires otherwise, the definitions in this section apply throughout this act.

(a) "Fiscal year 2008" or "FY 2008" means the fiscal year ending June 30, 2008.

(b) "Fiscal year 2009" or "FY 2009" means the fiscal year ending June 30, 2009.

(c) "FTE" means full time equivalent.

(d) "Lapse" or "revert" means the amount shall return to an unappropriated status.

(e) "Provided solely" means the specified amount may be spent only for the specified purpose. Unless otherwise specifically authorized in this act, any portion of an amount provided solely for a specified purpose which is not expended subject to the specified conditions and limitations to fulfill the specified purpose shall lapse.

**PART I
GENERAL GOVERNMENT**

NEW SECTION. Sec. 101. FOR THE HOUSE OF REPRESENTATIVES

General Fund--State Appropriation (FY 2008) . . .	\$34,522,000
General Fund--State Appropriation (FY 2009) . . .	\$35,598,000
Pension Funding Stabilization Account	
Appropriation	\$560,000

The appropriations in this subsection are subject to the following conditions and limitations:

ONE-HUNDRED FIFTH DAY, APRIL 22, 2007

persons and services not covered by the medicaid program. These funds shall be distributed proportionally to each regional support network's percentage of the total state population.

(b) \$16,900,000 of the general fund--state appropriation for fiscal year 2008 and \$16,900,000 of the general fund--state appropriation for fiscal year 2009 are provided solely for the department and regional support networks to contract for development and initial implementation of high-intensity program for active community treatment (PACT) teams, and other proven program approaches that the department concurs will enable the regional support network to achieve significant reductions during fiscal year 2008 and thereafter in the number of beds the regional support network would otherwise need to use at the state hospitals.

(c) The number of nonforensic beds allocated for use by regional support networks at eastern state hospital shall be 222 per day throughout fiscal year 2008. Beginning January 1, 2009, the number of nonforensic beds allocated for use by regional support networks at eastern state hospital shall be 192 per day. The number of nonforensic beds allocated for use by regional support networks at western state hospital shall be 777 per day during the first and second quarters of fiscal year 2008, and 677 per day from January 2008 through August 2008. Beginning January 2008, beds in the program for adaptive living skills (PALS) are not included in the preceding bed allocations. Beginning that month, the department shall separately charge regional support networks for persons served in the PALS program and for use of state hospital beds for short-term commitments.

(d) From the general fund--state appropriations in this subsection, the secretary of social and health services shall assure that regional support networks reimburse the aging and disability services administration for the general fund--state cost of medicaid personal care services that enrolled regional support network consumers use because of their psychiatric disability.

(e) Within amounts appropriated in this subsection, the department shall contract with the Clark county regional support network for development and operation of a project demonstrating collaborative methods for providing intensive mental health services in the school setting for severely emotionally disturbed children who are medicaid eligible. Project services shall be delivered by teachers and teaching assistants who qualify as, or who are under the supervision of, mental health professionals meeting the requirements of chapter 275-57 WAC. The department shall increase medicaid payments to the regional support network by the amount necessary to cover the necessary and allowable costs of the demonstration, not to exceed the upper payment limit specified for the regional support network in the department's medicaid waiver agreement with the federal government after meeting all other medicaid spending requirements assumed in this subsection. The regional support network shall provide the required nonfederal share of the increased medicaid payment provided for operation of this project.

(f) At least \$902,000 of the federal block grant funding appropriated in this subsection shall be used for the continued operation of the mentally ill offender pilot program.

(g) \$5,000,000 of the general fund--state appropriation for fiscal year 2008 and \$5,000,000 of the general fund--state appropriation for fiscal year 2009 are provided solely for mental health services for mentally ill offenders while confined in a county or city jail and for facilitating access to programs that offer mental health services upon release from confinement. The department is authorized to transfer up to \$418,000 of these amounts each fiscal year to the economic services program for purposes of facilitating prompt access after their release from confinement to medical and income assistance services for which defendants and offenders may be eligible.

(h) \$1,500,000 of the general fund--state appropriation for fiscal year 2008 and \$1,500,000 of the general fund--state

appropriation for fiscal year 2009 are provided solely for grants for innovative mental health service delivery projects. Such projects may include, but are not limited to, clubhouse programs and projects for integrated health care and behavioral health services for general assistance recipients. These amounts shall supplement, and not supplant, local or other funding currently being used for activities funded under the projects authorized in this subsection.

(i) The department is authorized to continue to expend federal block grant funds and special purpose federal grants through direct contracts, rather than through contracts with regional support networks, and to allocate such funds through such formulas as it shall adopt.

(j) The department is authorized to continue to contract directly, rather than through contracts with regional support networks, for children's long-term inpatient facility services.

(k) \$2,250,000 of the general fund--state appropriation for fiscal year 2008, \$2,250,000 of the general fund--state appropriation for fiscal year 2009, and \$4,500,000 of the general fund--federal appropriation are provided solely for the continued operation of community residential and support services for persons who are older adults or who have co-occurring medical and behavioral disorders and who have been discharged or diverted from a state psychiatric hospital. These funds shall be used to serve individuals whose treatment needs constitute substantial barriers to community placement, who no longer require active psychiatric treatment at an inpatient hospital level of care, and who no longer meet the criteria for inpatient involuntary commitment. Coordination of these services will be done in partnership between the mental health program and the aging and disability services administration.

(l) \$750,000 of the general fund--state appropriation for fiscal year 2008 and \$750,000 of the general fund--state appropriation for fiscal year 2009 are provided solely to continue performance-based incentive contracts to provide appropriate community support services for individuals with severe mental illness who were discharged from the state hospitals as part of the expanding community services initiative. (m) \$2,979,000 of the general fund--state appropriation for fiscal year 2008, \$3,249,000 of the general fund--state appropriation for fiscal year 2009, and \$2,040,000 of the general fund--federal appropriation are provided solely to modify the department's proposed new payment rates for medicaid inpatient psychiatric services. Under the department's proposed rate system, effective August 1, 2007, each hospital's inpatient psychiatric payment rate would have been set at a percentage of that hospital's estimated per diem cost for psychiatric inpatient care during the most recent rebasing year. Within the amount provided in this subsection (1)(m), beginning August 1, 2007, each hospital's inpatient psychiatric payment rate shall instead be set at the greater of a percentage of: (i) The hospital's estimated per diem cost for psychiatric inpatient care during the most recent rebasing year; or (ii) the statewide average per diem cost for psychiatric inpatient care during the most recent rebasing year, adjusted for regional wage differences and for differences in medical education costs. At least thirty days prior to implementing adjustments to regional support network medicaid capitation rates and nonmedicaid allocations to account for changes in psychiatric inpatient payment rates, the department shall report on the proposed adjustments to the appropriations committee of the house of representatives and the ways and means committee of the senate.

(n) \$6,267,000 of the general fund--state appropriation for fiscal year 2008 and \$6,462,000 of the general fund--federal appropriation for fiscal year 2009 are provided solely to increase nonmedicaid psychiatric inpatient payment rates over fiscal year 2005 levels. It is expected that nonmedicaid rates will be set at approximately 85 percent of each hospital's medicaid psychiatric inpatient rate. The federal portion of these rate increases is contingent upon federal approval. (i) The legislature intends and expects that regional support networks and community mental health agencies will use at least 67 percent of the amounts provided in this subsection(1)(o) to increase compensation for direct care personnel above and beyond usual and customary wage increases. To this end, regional support networks shall report to the department by October 15, 2007, on planned uses of the rate increases within their network area. The report shall describe the direct care job classifications to which increases are to be provided; the number of full-time equivalent personnel employed in each classification; the annualized dollar and percentage increases to be provided each classification; the annualized dollar value of the direct care compensation increases provided, in total and as a percentage of the total rate increase; and the number of personnel in each job classification covered by a collective bargaining agreement. The department shall summarize and analyze the regional plans, and report findings, options, and recommendations to the legislature by December 1, 2007. (ii) Regional support networks shall maintain documentation of how the rate increases have been applied. Such documentation shall be subject to audit by the department. (iii) For purposes of this subsection (1)(o), "direct care staff" means persons employed by community mental health agencies whose primary responsibility is providing direct treatment and support to people with mental illness, or whose primary responsibility is providing direct support to such staff in areas such as client scheduling, client intake, client reception, client records-keeping, and facilities maintenance.

(p) \$2,021,000 of the general fund--state appropriation for fiscal year 2008 and \$1,683,000 of the general fund--state appropriation for fiscal year 2009 are provided solely for the implementation of Substitute House Bill No. 1456 (mental health professionals). If the bill is not enacted by June 30, 2007, the amounts provided in this subsection shall lapse. For purposes of organizing and delivering training as required by the bill, the department may retain up to fifteen percent of the amount appropriated for fiscal year 2008, and up to ten percent of the amount appropriated for fiscal year 2009. The remainders shall be distributed to regional support networks proportional to each network's percentage of the total state population.

The department shall ensure that the average cost per day for all program services other than start-up costs shall not exceed \$300. In order to maximize the number of clients served and ensure the cost-effectiveness of the waiver programs, the department will strive to limit new client placement expenditures to 90 percent of the budgeted daily rate. Pension Funding Stabilization Account--State Appropriation	\$646,000
TOTAL APPROPRIATION	\$8,312,963,000

The appropriations in this section are subject to the following conditions and limitations:

(1) Based on quarterly expenditure reports and caseload forecasts, if the department estimates that expenditures for the medical assistance program will exceed the appropriations, the department shall take steps including but not limited to reduction of rates or elimination of optional services to reduce expenditures so that total program costs do not exceed the annual appropriation authority.

(5) In accordance with RCW 74.46.625, \$6,000,000 of the general fund--federal appropriation is provided solely for supplemental payments to nursing homes operated by public hospital districts. The public hospital district shall be responsible for providing the required nonfederal match for the supplemental payment, and the payments shall not exceed the maximum allowable under federal rules. It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate-setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments.

(6) \$1,111,000 of the health services account appropriation for fiscal year 2008, \$1,110,000 of the health services account appropriation for fiscal year 2009, \$5,402,000 of the general fund--federal appropriation, \$1,590,000 of the general fund--state appropriation for fiscal year 2008, and \$1,591,000 of the general fund--state appropriation for fiscal year 2009 are provided solely for grants to rural hospitals. (7) \$10,546,000 of the health services account appropriation for fiscal year 2008, \$10,546,000 of the health services account--state appropriation for fiscal year 2009, and \$19,725,000 of the general fund--federal appropriation are provided solely for grants to nonrural hospitals. The department shall distribute the funds under a formula that provides a relatively larger share of the available funding to hospitals that (a) serve a disproportionate share of low-income and medically indigent patients and (b) have relatively smaller net financial margins, to the extent allowed by the federal medicaid program.

(8) The department shall continue the inpatient hospital certified public expenditures program for the 2007-2009 biennium. The program shall apply to all public hospitals, including those owned or operated by the state, except those classified as critical access hospitals or state psychiatric institutions. The department shall submit a report to the governor and legislature by November 1, 2007, that evaluates whether savings continue to exceed costs for this program. If the certified public expenditures program in its current form is no longer cost-effective to maintain, the department shall submit a report to the governor and legislature detailing cost-effective alternative uses of local, state, and federal resources as a replacement for this program. During fiscal year 2008 and fiscal year 2009, hospitals in the program shall be paid and shall retain (a) one hundred percent of the federal portion of the allowable hospital cost for each medicaid inpatient fee-for-service claim payable by medical assistance; and (b) one hundred percent of the federal portion of the maximum disproportionate share hospital payment allowable under federal regulations. Inpatient medicaid payments shall be established using an allowable methodology that approximates the cost of claims submitted by the hospitals. Payments made to each hospital in the program in each fiscal year of the biennium shall be compared to a baseline amount that is the total of (a) the total payment for claims for services rendered during the fiscal year calculated according to the methodology employed by the legislature in the omnibus appropriations act for implementation in fiscal year 2008 and (b) disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005 that pertain to fiscal year 2005. If payments during the fiscal year exceed the hospital's baseline amount, no additional payments will be made to the hospital except the federal portion of allowable disproportionate share hospital payments for which the hospital can certify allowable match. If payments during the fiscal year are less than the baseline amount, the hospital will be paid a state grant equal to the difference between payments during the fiscal year and the applicable baseline amount. Payment of the state grant shall be made in the applicable fiscal year and is subject to an interim cost settlement within eleven months after the end of the fiscal year. A final cost settlement shall be performed within two years after the end of the related fiscal year. To the extent that a final cost settlement determines that a hospital has received funds in excess of what it would have received under the methodology in place in fiscal year 2008 as described in this subsection, the hospital must repay these amounts to the state when requested. \$74,066,000 of the general fund--state appropriation for fiscal year 2008, of which \$6,570,000 is appropriated in section 204(1) of this act and the balance in this section, and \$59,776,000 of the general fund--state appropriation for fiscal year 2009, of which \$6,570,000 is appropriated in section 204(1) of this act and the balance in this

The amounts are conditioned on the department satisfying the requirements of section 902 of this act.

(10) When a person is ineligible for medicaid solely by reason of residence in an institution for mental diseases, the department shall provide the person with the same benefits as he or she would receive if eligible for medicaid, using state-only funds to the extent necessary.

(11) The department is authorized to use funds appropriated in this section to purchase goods and supplies through direct contracting with vendors when the department determines it is cost-effective to do so.

Addition of the mental health service component authorized in this subsection is contingent upon the managed care contractor or the participating counties providing, alone or in combination, matching funds in cash or in kind, in an amount equal to one-ninth of the amounts appropriated in this subsection. The mental health service component may include care coordination, mental health services, and integrated medical and mental health service delivery for general assistance clients with mental health disorders, as well as primary care provider training and education. (17) The department shall conduct a study to determine the financial impact associated with continuing to cover brand name medications versus the same medication in its generic form. The study shall account for all rebates paid to the state on each product studied up until the point where the generic form is less expensive, net of federally required rebates. The department shall submit its report to the legislative fiscal committees by December 1, 2007.

(18) \$198,000 of the general fund--state appropriation for fiscal year 2008 and \$268,000 of the general fund--state appropriation for fiscal year 2009 are provided solely for the first two years of a four-year project by the Seattle-King county health department to improve management of symptoms and reduce complications related to asthma among medicaid eligible children. The department shall contract with the Seattle-King county health department to have trained community health workers visit medicaid eligible children in their homes to identify and reduce exposure to asthma triggers, improve clients' self-management skills, and coordinate clients' care with their primary care and specialty providers. The contract shall include an evaluation of the impact of the services provided under the contract on urgent physician's visits, emergency room utilization, and inpatient hospitalization.

(19) \$2,450,000 of the general fund--state appropriation for fiscal year 2008 and \$1,950,000 of the general fund--state appropriation for fiscal year 2009 are provided solely for development and implementation of an outreach program as provided in chapter 5, Laws of 2007 (Second Substitute Senate Bill No. 5093, health services for children). (b) As used in this subsection, the column headings "BA+(N)" refer to the number of credits earned since receiving the baccalaureate degree.

(c) For credits earned after the baccalaureate degree but before the masters degree, any credits in excess of forty-five credits may be counted after the masters degree. Thus, as used in this subsection, the column headings "MA+(N)" refer to the total of:

(i) Credits earned since receiving the masters degree; and

(ii) Any credits in excess of forty-five credits that were earned after the baccalaureate degree but before the masters degree.

(5) For the purposes of this section:

(a) "BA" means a baccalaureate degree.

(b) "MA" means a masters degree.

(c) "PHD" means a doctorate degree.

(d) "Years of service" shall be calculated under the same rules adopted by the superintendent of public instruction.

(e) "Credits" means college quarter hour credits and equivalent in-service credits computed in accordance with RCW 28A.415.020 and 28A.415.023.

(6) No more than ninety college quarter-hour credits received by any employee after the baccalaureate degree may be used to determine compensation allocations under the state salary allocation schedule and LEAP documents referenced in this act, or any replacement schedules and documents, unless:

(a) The employee has a masters degree; or

(b) The credits were used in generating state salary allocations before January 1, 1992.

(7) The certificated instructional staff base salary specified for each district in LEAP Document 2 and the salary schedules in subsection (4)(a) of this section include two learning improvement days. A school district is eligible for the learning improvement day funds only if the learning improvement days have been added to the 180-day contract year. If fewer days are added, the additional learning improvement allocation shall be adjusted accordingly. The additional days shall be limited to specific activities identified in the state required school improvement plan related to improving student learning that are consistent with education reform implementation, and shall not be considered part of basic education. The principal in each school shall assure that the days are used to provide the necessary school-wide, all staff professional development that is tied directly to the school improvement plan. The school principal and the district superintendent shall maintain documentation as to their approval of these activities. The length of a learning improvement day shall not be less than the length of a full day under the base contract. The superintendent of public instruction shall ensure that school districts adhere to the intent and purposes of this subsection.

(8) The salary allocation schedules established in this section are for allocation purposes only except as provided in RCW 28A.400.200(2) and subsection (7) of this section.

ONE-HUNDRED FIFTH DAY, APRIL 22, 2007

2007 REGULAR SESSION

(3) Each fiscal year appropriation includes such funds as are necessary to complete the school year ending in the fiscal year and for prior fiscal year adjustments.

(4) The superintendent of public instruction shall distribute state funds to school districts based on two categories: (a) The first category includes (i) children birth through age two who are eligible for the optional program for special education eligible developmentally delayed infants and toddlers, and (ii) students eligible for the mandatory special education program and who are age three or four, or five and not yet enrolled in kindergarten; and (b) the second category includes students who are eligible for the mandatory special education program and who are age five and enrolled in kindergarten and students age six through 21.

(5)(a) For the 2007-08 and 2008-09 school years, the superintendent shall make allocations to each district based on the sum of:

(i) A district's annual average headcount enrollment of students ages birth through four and those five year olds not yet enrolled in kindergarten, as defined in subsection (4) of this section, multiplied by the district's average basic education allocation per full-time equivalent student, multiplied by 1.15; and

(ii) A district's annual average full-time equivalent basic education enrollment multiplied by the funded enrollment percent determined pursuant to subsection (6)(b) of this section, multiplied by the district's average basic education allocation per full-time equivalent student multiplied by 0.9309.

(b) For purposes of this subsection, "average basic education allocation per full-time equivalent student" for a district shall be based on the staffing ratios required by RCW 28A.150.260 and shall not include enhancements, secondary vocational education, or small schools.

(6) The definitions in this subsection apply throughout this section.

(a) "Annual average full-time equivalent basic education enrollment" means the resident enrollment including students enrolled through choice (RCW 28A.225.225) and students from nonhigh districts (RCW 28A.225.210) and excluding students residing in another district enrolled as part of an interdistrict cooperative program (RCW 28A.225.250).

In the determination of need, the committee shall also consider additional available revenues from

federal sources. Differences in program costs attributable to district philosophy, service delivery choice, or accounting practices are not a legitimate basis for safety net awards.

(b) The committee shall then consider the extraordinary high cost needs of one or more individual special education students. Differences in costs attributable to district philosophy, service delivery choice, or accounting practices are not a legitimate basis for safety net awards.

(c) Using criteria developed by the committee, the committee shall then consider extraordinary costs associated with communities that draw a larger number of families with children in need of special education services.

(d) The maximum allowable indirect cost for calculating safety net eligibility may not exceed the federal restricted indirect cost rate for the district plus one percent.

(e) Safety net awards must be adjusted for any audit findings or exceptions related to special education funding.

Prior to revising any standards, procedures, or rules, the superintendent shall consult with the office of financial management and the fiscal committees of the legislature.

NEW SECTION. Sec. 959. A new section is added to chapter 28A.630 RCW to read as follows:

(1)(a) Research has shown that early, intensive interventions can significantly improve reading, written language, and mathematics skills for children who are struggling academically. This early research-based assistance has been successful in reducing the number of children who require specialized programs. Research further suggests that the disabilities of many students with mild and moderate disabilities are correctable through strategic early intervention and the students do not necessitate special education eligibility. However, by being effective in reducing the number of students eligible for these programs, school district funding is reduced.

(b) The purpose of the program in this section is to continue support to the existing pilot districts and to encourage other school districts to participate as pilot districts to improve the implementation of high quality general education research-based core instructional programs to meet the needs of students struggling academically, while reducing the number of students inappropriately referred and placed in special education under the specific learning disability eligibility category because of ineffective instructional practices. This will allow special education programs to concentrate specially designed instruction on students who truly require special education services. The goal of this assistance is to effectively address reading, written language, and mathematics difficulties resulting in a substantially greater proportion of students meeting the progressively increasing performance standards for both the aggregate and disaggregated subgroups under federal law.

(c) The participating pilot districts implementing the special services pilot program have met the goals of the pilot program resulting in (i) a substantial number of underachieving students meeting the progressively increasing reading performance standards and (ii) a reduction in the number of children who require special education.

(2) Seven school districts may participate in the special services pilot program, including two school districts already participating and five additional school districts. The special services pilot program shall begin in the 2007-08 school year and conclude in the 2010-11 school year.

(3) School districts participating in the pilot program shall receive state special education funding in accordance with state special education funding formulas and a separate pilot program appropriation from sources other than special education funds. The separate appropriation shall be: (a) The school district's estimated state special education funding for the current year based on the school district's average percentage of students age three through twenty-one who were eligible for special education services for the school year before participation as a pilot program as reported to the office of the superintendent of public instruction; minus (b) the school district's actual state special education funding based on the district's current percentage of students age three through twenty-one eligible for special education services as reported to the superintendent of public instruction.

The superintendent shall adjust the factors in (a) of this subsection for one or more participating school districts, where legislative changes to the special education funding formula impact the funding mechanism of this program.

(4) Participation in the pilot program shall not increase or decrease a district's ability to access the safety net for high-cost students by virtue of the district's participation in the program. Districts participating in the pilot program shall have access to the special education safety net using a modified application approach for the office of the superintendent of public instruction demonstration of financial need. The superintendent shall create a modified application to include all special education revenues received by the district, all pilot program funding, expenditures for students with individual education programs, and expenditures for students generating pilot program revenue. Districts participating in the pilot program that seek safety net funding shall convincingly demonstrate to

ONE-HUNDRED FIFTH DAY, APRIL 22, 2007

the safety net committee that any change in demonstrated need is not attributable to their participation in this pilot program.

(5) School districts participating in the program must agree to:

(a) Implement the program as part of the school district's general education curriculum for all students;

(b) Use a multitiered service delivery system to provide scientific research-based instructional interventions addressing individual student needs in the areas of reading, written language, or mathematics;

(c) Develop and implement an assessment system to conduct universal screening, progress monitoring, targeted assessments, and outcome assessments to identify the reading, written language, or mathematics needs of each student and to monitor student progress;

(d) Incorporate student-specific data obtained through the pilot program when conducting an evaluation to determine if the student has a disability;

(e) Assure that parents are informed of: The amount and nature of student performance data that is collected and the general education services that are provided; the strategies for increasing the student's rate of learning; the parents' right to make a referral for special education evaluation if they suspect the student has a disability; and the parents' right to have input into designed interventions;

(f) Assure that parents are provided assessments of achievement at reasonable intervals addressing student progress during instruction;

(g) Actively engage parents as partners in the learning process;

(h) Comply with state special education requirements; and

(i) Participate and provide staff expertise in the design and implementation of an evaluation of the program as determined by the superintendent of public instruction. Districts shall annually review and report progress, including objective measures or indicators that show the progress towards achieving the purpose and goal of the program, to the office of the superintendent of public instruction.

(6) By December 15, 2010, the superintendent of public instruction shall submit a report to the governor and appropriate committees of the legislature that summarizes the effectiveness of the pilot program in this section. The report shall also include a recommendation as to whether or not the pilot program should be continued, expanded, or otherwise modified.

(7) This section expires June 30, 2011.

NEW SECTION. Sec. 960. The governor's committee on disability issues and employment is supported through resources provided by state agencies. Within appropriations contained in this act, the office of financial management shall direct agencies that report directly to the governor to enter into contracts with the governor's committee on disability issues and employment for a total level not to exceed \$377,000 for fiscal year 2008 and \$398,000 for fiscal year 2009.

Whenever possible, recommendations in the report shall site to specific evidence-based or promising programs to support the recommendation, or to sources such as the Washington institute for public policy, the national institute for justice, or the bureau of justice assistance.

Legislative members of the task force shall be reimbursed for travel expenses in accordance with RCW 44.04.120.

Sec. 1101. 2006 c 372 s 201 (uncodified) is amended to read as follows: **FOR THE DEPARTMENT OF SOCIAL**

ONE-HUNDRED FIFTH DAY, APRIL 22, 2007

2007 REGULAR SESSION

AND HEALTH SERVICES. (1) Appropriations made in this act to the department of social and health services shall initially be allotted as required by this act. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose.

(2) The department of social and health services shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(3)(a) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act. However, after May 1, ~~((2006))~~ 2007, unless specifically prohibited by this act, the department may transfer general fund--state appropriations for fiscal year ~~((2006))~~ 2007 among programs after approval by the director of financial management. However, the department shall not transfer state moneys that are provided solely for a specified purpose except as expressly provided in (b) of this subsection.

(b) To the extent that transfers under (a) of this subsection are insufficient to fund actual expenditures in excess of fiscal year ~~((2006))~~ 2007 caseload forecasts and utilization assumptions in the medical assistance, long-term care, foster care, adoption support, and child support programs, the department may transfer state moneys that are provided solely for a specified purpose, other than family support appropriations for the developmental disabilities program in section 205(1)(e) of this act and family reconciliation services appropriations for the children and family services program in section 202(20) of this act, after approval by the director of financial management.

(c) The department shall not transfer funds, ~~((and the director of financial management shall not approve the transfer))~~ unless the transfer is consistent with the objective of conserving, to the maximum extent possible, the expenditure of state funds ~~((and not federal funds))~~. The director of financial management shall notify the appropriate fiscal committees of the senate and house of representatives in writing seven days prior to approving any allotment modifications or transfers under this subsection. The written notification shall include a narrative explanation and justification of the changes, along with expenditures and allotments by budget unit and appropriation, both before and after any allotment modifications or transfers.

(4) The department is authorized to expend up to \$4,700,000 of its general fund--state appropriation for fiscal year 2007 for any reductions in federal funding in fiscal year 2006 for targeted case management services for children who are in the care of the state. The director of financial management shall notify the appropriate fiscal committees of the senate and house of representatives in writing seven days prior to approving any allotment modifications under this subsection.

(5) The department is authorized to develop an integrated health care program designed to slow the progression of illness and disability and better manage Medicaid expenditures for the aged and disabled population. Under this Washington Medicaid integration partnership (WMIP) the department may combine and transfer such Medicaid funds appropriated under sections

204, 206, 208, and 209 of this act as may be necessary to finance a unified health care plan for the WMIP program enrollment. The WMIP pilot projects shall not exceed a daily enrollment of 6,000 persons during the 2005-2007 biennium. The amount of funding assigned to the pilot projects from each program may not exceed the average per capita cost assumed in this act for individuals covered by that program, actuarially adjusted for the health condition of persons enrolled in the pilot, times the number of clients enrolled in the pilot. In implementing the WMIP pilot projects, the department may: (a) Withhold from calculations of "available resources" as set forth in RCW 71.24.025 a sum equal to the capitated rate for individuals enrolled in the pilots; and (b) employ capitation financing and risk-sharing arrangements in collaboration with health care service contractors licensed by the office of the insurance commissioner and qualified to participate in both the Medicaid and Medicare programs. The department shall conduct an evaluation of the WMIP, measuring changes in participant health outcomes, changes in patterns of service utilization, participant satisfaction, participant access to services, and the state fiscal impact.

(6) In accordance with RCW 74.39A.300, the appropriations to the department of social and health services in this act are sufficient to implement the compensation and fringe benefits of the collective bargaining agreement reached between the governor and the exclusive bargaining representative of individual providers of home care services.

General Fund--State Appropriation (FY 2006)	\$260,292,000
General Fund--State Appropriation (FY 2007) ((\$283,039,000))	\$278,724,000

	\$6,100,000
TOTAL APPROPRIATION ((\$889,632,000))	\$883,129,000

The appropriations in this subsection are subject to the following conditions and limitations:

(a) \$103,400,000 of the general fund--state appropriation for fiscal year 2006 is provided solely for persons and services not covered by the medicaid program. The department shall distribute this amount among the regional support networks according to a formula that, consistent with RCW 71.24.035(13), assures continuation of fiscal year 2003 levels of nonmedicaid service in each regional support network area for the following service categories in the following priority order: (i) Crisis and commitment services; (ii) community inpatient services; and (iii) residential care services, including personal care and emergency housing assistance. The formula shall also ensure that each regional support network's combined state and federal allocation is no less than the amount it was due under the fiscal year 2005 allocation methodology. The remaining

ONE-HUNDRED FIFTH DAY, APRIL 22, 2007

amounts shall be distributed based upon a formula that incorporates each regional support network's percentage of the state's population.

(b) \$100,959,000 of the general fund--state appropriation for fiscal year 2007 is provided solely for persons and services not covered by the medicaid program. Consistent with RCW 71.24.035(13), these funds shall be distributed proportional to each regional support network's percentage of the total state population.

(c) (~~(\$10,882,000)~~) \$10,512,000 of the general fund--state appropriation for fiscal year 2007 and (~~(\$10,922,000)~~) \$10,550,000 of the general fund--federal appropriation are provided solely to increase medicaid capitation rates (i) by three and one-half percent, for regional support networks whose fiscal year 2006 capitation rates are above the statewide population-weighted average; and (ii) to the statewide population-weighted average, for regional support networks whose fiscal year 2006 capitation rates are below that level. Regional support networks may elect to receive all or a portion of the general fund--state share of the funding for which they qualify under this subsection (1)(c) as an increase in nonmedicaid rather than medicaid funding. Regional support networks choosing to obtain funding in this way must notify the department of their decision no later than June 1, 2006.

(d) (~~(\$359,000)~~) \$2,175,000 of the general fund--state appropriation for fiscal year 2007 is provided solely to ensure that no regional support network's combined state and federal allocation is less than the amount it was due under the fiscal year 2006 allocation methodology.

(e) \$750,000 of the general fund--state appropriation for fiscal year 2007 is provided solely for grants to hospitals that are unable to receive disproportionate share hospital funding due to the federal funding restrictions on "institutions for mental disease." These funds shall be allocated among eligible hospitals proportional to the amount the hospital would have received from the disproportionate share hospital grants funded under section 209 of this 2006 act if the federal funding restriction were not in effect.

(f) \$85,000 of the general fund--state appropriation for fiscal year 2007 is provided solely for a contract with the national alliance for the mentally ill of greater Seattle to assist people who are recovering from a major mental illness to participate in development of a group residence for women.

(g) \$2,825,000 of the general fund--state appropriation for fiscal year 2007 is provided solely to refund to regional support networks fifty percent of the "liquidated damages" amount that was withheld from payments to the regional support network during fiscal years 2002 through 2005 because the regional support network used more than its allocated number of state hospital days of care. The payments directed in this subsection (1)(g) are contingent upon agreement by the regional support network that the funds shall be used only for mental health services. The payments directed in this subsection do not apply to regional support networks to which such refunds have been directed by court order prior to the effective date of this 2006 act.

(h) The department shall refund to the regional support networks 100 percent of the "liquidated damages" that have been withheld from payments to the regional support network during fiscal year 2006 for periods prior to the effective date of this act. The payments directed in this subsection (1)(h) do not apply to regional support networks to which such refunds have been directed by court order prior to the effective date of this act.

(i) \$3,238,000 of the general fund--state appropriation for fiscal year 2007 is provided solely for the department and regional support networks to contract for development and initial implementation of high-intensity program for active community treatment (PACT) teams, and other proven program approaches which the department concurs will enable the regional support network to achieve significant reductions during fiscal year 2008 and thereafter in the number of beds the

regional support network would otherwise need to use at the state hospitals.

(j) The number of nonforensic beds allocated for use by regional support networks at eastern state hospital shall average 222 per day throughout fiscal year 2007. The number of nonforensic beds allocated for use by regional support networks at western state hospital shall average 727 during the first quarter of fiscal year 2007, 757 during the second quarter of fiscal year 2007, and 777 during the third and fourth quarters of fiscal year 2007. During fiscal year 2007, the department shall not separately charge regional support networks for use of state hospital beds for short-term commitments, or for persons served in the program for adaptive living skills (PALS), but the days of care provided for such commitments and in the PALS program shall count against the regional support network's state hospital allocation. The legislature intends to authorize separate charges for the PALS program beginning in January 2008.

(k) From the general fund--state appropriations in this subsection, the secretary of social and health services shall assure that regional support networks reimburse the aging and disability services administration for the general fund--state cost of medicaid personal care services that enrolled regional support network consumers use because of their psychiatric disability.

(l) Within amounts appropriated in this subsection, the department shall contract with the Clark county regional support network for development and operation of a project demonstrating collaborative methods for providing intensive mental health services in the school setting for severely emotionally disturbed children who are medicaid eligible. Project services shall be delivered by teachers and teaching assistants who qualify as, or who are under the supervision of, mental health professionals meeting the requirements of chapter 275-57 WAC. The department shall increase medicaid payments to the regional support network by the amount necessary to cover the necessary and allowable costs of the demonstration, not to exceed the upper payment limit specified for the regional support network in the department's medicaid waiver agreement with the federal government after meeting all other medicaid spending requirements assumed in this subsection. The regional support network shall provide the required nonfederal share of the increased medicaid payment provided for operation of this project.

(m) \$3,100,000 of the general fund--state appropriation for fiscal year 2006 and \$3,375,000 of the general fund--state appropriation for fiscal year 2007 are provided solely to establish a base community psychiatric hospitalization payment rate. The base payment rate shall be \$400 per indigent patient day at hospitals that accept commitments under the involuntary treatment act, and \$550 per medicaid patient day at free-standing psychiatric hospitals that accept commitments under the involuntary treatment act. The department shall allocate these funds among the regional support networks to reflect projected expenditures at the enhanced payment level by hospital and region.

(n) At least \$902,000 of the federal block grant funding appropriated in this subsection shall be used for the continued operation of the mentally ill offender pilot program.

(o) \$5,000,000 of the general fund--state appropriation for fiscal year 2006 and \$5,000,000 of the general fund--state appropriation for fiscal year 2007 are provided solely for mental health services for mentally ill offenders while confined in a county or city jail and for facilitating access to programs that offer mental health services upon mentally ill offenders' release from confinement. These amounts shall supplement, and not supplant, local or other funding or in-kind resources currently being used for these purposes. The department is authorized to transfer such amounts as are necessary, which are not to exceed \$418,000 of the general fund--state appropriation for fiscal year 2006 and \$418,000 of the general fund--state appropriation for fiscal year 2007, to the economic services program for the purposes of implementing section 12 of Engrossed Second Substitute House Bill No. 1290 (community mental health)

Such projects may include, but are not limited to, clubhouse programs and projects for integrated health care and behavioral health services for general assistance recipients. These amounts shall supplement, and not supplant, local or other funding currently being used for activities funded under the projects authorized in this subsection.

(q) The department is authorized to continue to expend federal block grant funds, and special purpose federal grants, through direct contracts, rather than through contracts with regional support networks; and to distribute such funds through a formula other than the one established pursuant to RCW 71.24.035(13).

(r) The department is authorized to continue to contract directly, rather than through contracts with regional support networks, for children's long-term inpatient facility services.

(s) \$2,250,000 of the general fund--state appropriation for fiscal year 2006, \$2,250,000 of the general fund--state appropriation for fiscal year 2007, and \$4,500,000 of the general fund--federal appropriation are provided solely for the continued operation of community residential and support services for persons who are older adults or who have co-occurring medical and behavioral disorders and who have been discharged or diverted from a state psychiatric hospital. These funds shall be used to serve individuals whose treatment needs constitute substantial barriers to community placement, who no longer require active psychiatric treatment at an inpatient hospital level of care, and who no longer meet the criteria for inpatient involuntary commitment. Coordination of these services will be done in partnership between the mental health program and the aging and disability services administration. The funds are not subject to the standard allocation formula applied in accordance with RCW 71.24.035(13)(a).

(t) \$750,000 of the general fund--state appropriation for fiscal year 2006 and \$750,000 of the general fund--state appropriation for fiscal year 2007 are provided to continue performance-based incentive contracts to provide appropriate community support services for individuals with severe mental illness who have been discharged from the state hospitals. These funds will be used to enhance community residential and support services provided by regional support networks through other state and federal funding.

(u) \$539,000 of the general fund--state appropriation for fiscal year 2007 is provided solely to assist with the one-time start-up costs of two evaluation and treatment facilities. Funding for ongoing program operations shall be from existing funds that would otherwise be expended upon short-term treatment in state or community hospitals.

(v) \$550,000 of the general fund--state appropriation for fiscal year 2006 and \$150,000 of the general fund--state appropriation for fiscal year 2007 are provided solely for enhancing rates to a facility that (i) is a licensed nursing home; (ii) is considered to be an "Institution for Mental Diseases" under centers for medicare and medicaid services criteria; (iii) specializes in long-term rehabilitation services for people with chronic mental illness who are chronically medically-compromised; and (iv) provides services to a minimum of 48 consumers funded by a regional support network. These amounts shall be provided in coordination with and under the auspices of a regional support network and shall enhance, and not supplant, other funding or in-kind resources currently being used for these purposes. These funds shall be used to cover costs incurred throughout fiscal year 2006 and fiscal year 2007 and ensure adequate compensation for extra medical care services, personal care services, and other incidental costs that are not fully covered in the current rate paid to the facility.

(w) \$450,000 of the general fund--state appropriation for fiscal year 2007 is provided solely for the mental health

division, in collaboration with the children's administration and the juvenile rehabilitation services administration, to establish a pilot program to provide evidence-based mental health services to children. (ii) Pilot site proposals shall be required to include: A designated lead agency and a commitment to work with community partners, including consumer/family representatives and representatives of the local mental health, juvenile justice, and child welfare systems and, at the applicant's discretion, may also include representatives of other child-serving systems such as health care and education; identification of areas of potential need based upon input from community partners; identification of the service or services that the pilot site would implement based upon community needs and resources; and demonstration of a commitment to participate in efforts that will ensure adherence to the chosen evidence-based practices and evaluate outcomes of implementation of the evidence-based practices.

(iii) The department shall contract with the University of Washington school of medicine's department of psychiatry and behavioral sciences division of public behavioral health and justice to provide support and assistance in all phases of the pilot program, including initiating, implementing, training providers, providing quality assurance, and monitoring implementation and outcomes.

The department shall implement the four new waiver programs such that decisions about enrollment levels and the amount, duration, and scope of services maintain expenditures within appropriations. The department shall electronically report to the appropriate committees of the legislature, within 45 days following each fiscal year quarter, the number of persons served with these additional community services, where they were residing, what kinds of services they were receiving prior to placement, and the actual expenditures for all community services to support these clients.

	<u>\$124,000</u>
TOTAL APPROPRIATION (\$7,709,386,000)	<u>\$7,580,223,000</u>

The appropriations in this section are subject to the following conditions and limitations:

- (1) Based on quarterly expenditure reports and caseload forecasts, if the department estimates that expenditures for the medical assistance program will exceed the appropriations, the department shall take steps including but not limited to reduction of rates or elimination of optional services to reduce expenditures so that total program costs do not exceed the annual appropriation authority.
- (2) The department shall continue to extend medicaid eligibility to children through age 18 residing in households with incomes below 200 percent of the federal poverty level.
- (3) In determining financial eligibility for medicaid-funded services, the department is authorized to disregard recoveries by

Holocaust survivors of insurance proceeds or other assets, as defined in RCW 48.104.030.

(4) Sufficient amounts are appropriated in this section for the department to continue podiatry services for medicaid-eligible adults.

(5) Sufficient amounts are appropriated in this section for the department to provide an adult dental benefit that is equivalent to the benefit provided in the 2003-05 biennium.

(6) In accordance with RCW 74.46.625, \$6,000,000 of the general fund--federal appropriation is provided solely for supplemental payments to nursing homes operated by public hospital districts. The public hospital district shall be responsible for providing the required nonfederal match for the supplemental payment, and the payments shall not exceed the maximum allowable under federal rules. It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate-setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments.

(7) \$2,221,000 of the health services account appropriation, \$5,402,000 of the general fund--federal appropriation, \$1,590,000 of the general fund--state appropriation for fiscal year 2006, and \$1,591,000 of the general fund--state appropriation for fiscal year 2007 are provided solely for grants to rural hospitals. The department shall distribute the funds under a formula that provides a relatively larger share of the available funding to hospitals that (a) serve a disproportionate share of low-income and medically indigent patients and (b) have relatively smaller net financial margins, to the extent allowed by the federal medicaid program.

(8) \$21,092,000 of the health services account appropriation and \$19,725,000 of the general fund--federal appropriation are provided solely for grants to nonrural hospitals. The department shall distribute the funds under a formula that provides a relatively larger share of the available funding to hospitals that (a) serve a disproportionate share of low-income and medically indigent patients and (b) have relatively smaller net financial margins, to the extent allowed by the federal medicaid program.

(9) In response to the federal directive to eliminate intergovernmental transfer transactions effective June 30, 2005, the department is directed to implement the inpatient hospital certified public expenditures program for the 2005-07 biennium. The program shall apply to all public hospitals, including those owned or operated by the state, except those classified as critical access hospitals or state psychiatric institutions. Hospitals in the program shall be paid and shall retain (a) one hundred percent of the federal portion of each medicaid inpatient fee-for-service claim payable by the medical assistance administration; and (b) one hundred percent of the federal portion of the maximum disproportionate share hospital payment allowable under federal regulations. Medicaid fee-for-service claim amounts shall be established by applying the department's ratio of costs to charges payment methodology. The department shall provide participating hospitals with the information and instructions needed by the hospital to certify the public expenditures required to qualify for the federal portions of both the medicaid inpatient fee-for-service payments and the disproportionate share hospital payments. In the event that any part of the program including, but not limited to, allowable certified public expenditures, is disallowed by the federal government, the department shall not seek recoupment of payments from the hospitals, provided the hospitals have complied with the directions of the department for participation in the program. The legislature intends that hospitals in the program receive no less in combined state and federal payments than they would have received under the methodology that was in place during fiscal year 2005. The department shall therefore make additional grant payments, not to exceed the amounts specified in this subsection, to hospitals whose total payments under the

ONE-HUNDRED FIFTH DAY, APRIL 22, 2007

2007 REGULAR SESSION

program would otherwise be less than the total state and federal payments they would have received under the methodology in effect during fiscal year 2005. Payments under these new state grant and upper payment limit programs shall not exceed \$54,054,000 from general fund--state appropriations in fiscal year 2006, of which \$5,600,000 is appropriated in section 204(1) of this 2006 act and the balance in this section; (~~(\$47,474,000)~~) \$64,417,000 from general fund--state appropriations in fiscal year 2007, of which \$5,600,000 is appropriated in section 204(1) of this 2006 act and the balance in this section; and (~~(\$11,328,000)~~) \$7,386,000 from the general fund--federal appropriations in this section.

(10) \$4,077,000 of the general fund--state appropriation for fiscal year 2006, (~~(\$4,847,000)~~) \$3,294,000 of the general fund--state appropriation for fiscal year 2007, and (~~(\$70,100,000)~~) \$57,565,000 of the general fund--federal appropriation are provided solely for development and implementation of a replacement system for the existing medicaid management information system.

(11) \$188,000 of the general fund--state appropriation for fiscal year 2006, \$37,000 of the general fund--state appropriation for fiscal year 2007, and \$225,000 of the general fund--federal appropriation are provided solely for the department to contract for an independent analysis of the medical assistance administration's current system for establishing hospital inpatient payment rates, and for recommendations on a new or updated system. The department shall submit an interim report of study findings by December 1, 2005, and a final report by November 15, 2006. The interim report shall include a comparison of the strengths and weaknesses of the current rate-setting system relative to those used by other state, federal, and private payers. The final report shall include recommendations on the design and implementation of a new or updated system that will promote equity among hospitals, access to quality care and improved health outcomes for patients, and cost-control and efficiency for taxpayers. The study should make use of complete and current cost data from a wide variety of hospitals, recognize unique aspects of hospital service delivery structures and medicaid payment systems in Washington, recognize impacts on productivity and quality of care that may result from hospital compensation, recruitment, and retention policies, and provide opportunities for comment and participation by key interest groups in the identification and assessment of alternatives.

(12) Payment rates for hospital inpatient and outpatient services shall be increased by an average of 1.3 percent effective July 1, 2005, and by an average of an additional 1.3 percent effective July 1, 2006. The inpatient increases shall be provided only on the portion of a hospital's rate that excludes medical education and outlier costs, and shall be allocated so that hospitals with lower costs of care (excluding medical education and outlier costs) receive larger percentage increases than those with higher costs of care. The inpatient increases shall be allocated in three percentage increments, with the lowest-cost hospitals receiving the largest percentage rate increase, highest-cost hospitals receiving the smallest percentage increase, and medium-cost hospitals receiving the average of the highest and the lowest percentage rate increase. Increases shall not be provided to those hospitals that are certified as critical access. Sufficient funds are appropriated in this section for Healthy Options contractors to increase hospital payment rates commensurate with the increases in fee-for-service payment rates.

(13) When a person is ineligible for medicaid solely by reason of residence in an institution for mental diseases, the department shall provide the person with the same benefits as he or she would receive if eligible for medicaid, using state-only funds to the extent necessary.

(14) The medical assistance administration is authorized to use funds appropriated in this section to purchase goods and supplies through direct contracting with vendors when the administration determines it is cost-effective to do so.

(15) The legislature affirms that it is in the state's interest for Harborview medical center to remain an economically viable component of the state's health care system.

(16) By October 1, 2005, the department shall recommend to the governor and legislature at least two pilot project designs which seem likely to reduce avoidable emergency room utilization at no net cost to the state within the projects' first eighteen months of operation.

(17) Within funds appropriated in this section, the department shall participate in the health technology assessment program required in section 213(6) of this act.

(18) The department is also required to participate in the joint health purchasing project described in section 213(7) of this act.

(19) The department shall, within available resources, continue operation of the medical care services care management pilot project for clients receiving general assistance benefits in King and Pierce counties. The project may use a full or partial capitation model that includes a mechanism for shared savings. The department shall provide a report to the appropriate committees of the legislature by January 1, 2006, on costs, savings, and any outcomes or quality measures associated with the pilot programs during the first year of operation.

(20) By October 1, 2005, the department shall report to the appropriate committees of the legislature on the potential fiscal and programmatic costs and benefits associated with an expansion of managed care pilot programs to SSI and other eligible medicaid elderly and disabled persons.

(21) By November 15, 2006, the department of social and health services, in consultation with the department of revenue and the health care authority, shall report to the health care and fiscal committees of the legislature on options for providing financial incentives for private practice physicians to serve uninsured, medicare, and medicaid patients. The report shall include an assessment of the relative costs and effectiveness of strategies including, but not limited to, tax credits and payment rate increases. The report shall further suggest alternative mechanisms and thresholds for varying tax credits and payment enhancements according to the extent to which a provider serves uninsured, medicare, and medicaid patients.

(22) The department is directed to pursue all available administrative remedies to dispute and reverse recent large retroactive charges by the federal medicare program for payment of medicare part B premiums on behalf of medicaid recipients, to the extent that such premiums are for periods when medicare coverage was in fact never provided the beneficiaries, and their care was instead fully covered by the state medicaid program. The department shall report to the fiscal committees of the legislature by December 1, 2006, on the actions it has taken to dispute and reverse these charges.

(23) \$66,000 of the general fund--state appropriation for fiscal year 2007 and \$66,000 of the general fund--federal appropriation are provided solely to implement Second Substitute House Bill No. 2002 (foster care support services). If the bill is not enacted by June 30, 2006, the amount provided in this subsection shall lapse.

(24) \$255,000 of the general fund--state appropriation for fiscal year 2007 and \$2,107,000 of the general fund--federal appropriation are provided solely to increase the availability of family planning services at the department of social and health services' community service offices. Resources will be prioritized for those offices where pregnancy rates are higher than the statewide average.

(25) \$17,000 of the general fund--state appropriation for fiscal year 2006, \$53,000 of the general fund--state appropriation for fiscal year 2007, and \$70,000 of the general fund--federal appropriation are provided solely for conducting a study of the employment status of enrollees in the basic health plan and the medical assistance program, pursuant to Engrossed Substitute House Bill No. 3079 (health care services). If the bill is not enacted by June 30, 2006, the amounts provided in this subsection shall lapse.

(1) Funding for special education programs is provided on an excess cost basis, pursuant to RCW 28A.150.390. School districts shall ensure that special education students as a class receive their full share of the general apportionment allocation accruing through sections 502 and 504 of this act. To the extent a school district cannot provide an appropriate education for special education students under chapter 28A.155 RCW through the general apportionment allocation, it shall provide services through the special education excess cost allocation funded in this section.

(2)(a) The superintendent of public instruction shall use the excess cost methodology developed and implemented for the 2001-02 school year using the S-275 personnel reporting system and all related accounting requirements to ensure that:

2007 REGULAR SESSION

(5)(a) For the 2005-06 and 2006-07 school years, the superintendent shall make allocations to each district based on the sum of:

(i) A district's annual average headcount enrollment of developmentally delayed infants and toddlers ages birth through two, multiplied by the district's average basic education allocation per full-time equivalent student, multiplied by 1.15; and

(ii) A district's annual average full-time equivalent basic education enrollment multiplied by the funded enrollment percent determined pursuant to subsection (6)(b) of this section, multiplied by the district's average basic education allocation per full-time equivalent student multiplied by 0.9309.

(b) For purposes of this subsection, "average basic education allocation per full-time equivalent student" for a district shall be based on the staffing ratios required by RCW 28A.150.260 and shall not include enhancements, secondary vocational education, or small schools.

(6) The definitions in this subsection apply throughout this section.

(a) "Annual average full-time equivalent basic education enrollment" means the resident enrollment including students enrolled through choice (RCW 28A.225.225) and students from nonhigh districts (RCW 28A.225.210) and excluding students residing in another district enrolled as part of an interdistrict cooperative program (RCW 28A.225.250).

Safety net funds shall be awarded by the state safety net oversight committee subject to the following conditions and limitations:

(a) The committee shall consider unmet needs for districts that can convincingly demonstrate that all legitimate expenditures for special education exceed all available revenues from state funding formulas. In the determination of need, the committee shall also consider additional available revenues from federal sources. Differences in program costs attributable to district philosophy, service delivery choice, or accounting practices are not a legitimate basis for safety net awards.

(b) The committee shall then consider the extraordinary high cost needs of one or more individual special education students. Differences in costs attributable to district philosophy, service delivery choice, or accounting practices are not a legitimate basis for safety net awards.

(c) The maximum allowable indirect cost for calculating safety net eligibility may not exceed the federal restricted indirect cost rate for the district plus one percent.

(d) Safety net awards shall be adjusted based on the percent of potential medicaid eligible students billed as calculated by the superintendent in accordance with chapter 318, Laws of 1999.

(e) Safety net awards must be adjusted for any audit findings or exceptions related to special education funding.

(9) The superintendent of public instruction may adopt such rules and procedures as are necessary to administer the special education funding and safety net award process. This amount is in lieu of money provided through the home and hospital allocation and the special education program.

(12) A maximum of \$1,000,000 of the general fund--federal appropriation is provided for projects to provide special education students with appropriate job and independent living skills, including work experience where possible, to facilitate their successful transition out of the public school system. The funds provided by this subsection shall be from federal discretionary grants.

The ombudsman program will provide data, information, and appropriate recommendations to the office of superintendent of public instruction, school districts, educational service districts, state need projects, and the parent and teacher information center.

(14) The superintendent shall maintain the percentage of federal flow-through to school districts at 85 percent. In addition to other purposes, school districts may use increased federal funds for high-cost students, for purchasing regional special education services from educational service districts, and for staff development activities particularly relating to inclusion issues.

(15) A maximum of \$1,200,000 of the general fund--federal appropriation may be expended by the superintendent for projects related to use of inclusion strategies by school districts for provision of special education services.

(18) A school district may carry over from one year to the next year up to 10 percent of the general fund--state funds allocated under this program; however, carryover funds shall be expended in the special education program.

(1) The appropriation~~(s)~~ in this section ~~((are))~~ is provided solely to make adjustments to agency appropriations to reflect the costs associated with the entry of employees into the public safety employees' retirement system as created by chapter 242, Laws of 2004.

(2) To facilitate the transfer of moneys from dedicated funds and accounts, the state treasurer is directed to transfer sufficient moneys from each dedicated fund or account to the special account retirement contribution increase revolving account in accordance with schedules provided by the office of financial management.

NEW SECTION. Sec. 1621. A new section is added to 2005 c 518 (uncodified) to read as follows: **FOR THE OFFICE OF FINANCIAL MANAGEMENT--TECHNOLOGY FUNDING**

General Fund--State Appropriation (FY 2007) . . . \$26,277,000

Special Technology Funding Revolving Account

Appropriation (FY 2008) \$37,964,000

TOTAL APPROPRIATION . . . \$64,241,000

The appropriations in this section are provided solely for deposit to and expenditure from the data processing revolving account and are subject to the following conditions and limitations:

(1) The appropriations in this section, for expenditure to the data processing revolving account, are to be known as the

"information technology funding pool" and are under the joint control of the department of information services and the office of financial management. The department of information services shall review information technology proposals and work jointly with the office of financial management to determine the projects to be funded and the amounts and timing of release of funds. To facilitate the transfer of moneys from dedicated funds and accounts, the state treasurer is directed to transfer sufficient moneys from each dedicated fund or account to the special technology funding revolving account, hereby created in the state treasury, in accordance with schedules provided by the office of financial management pursuant to LEAP Document ITA-2007 as developed by the legislative evaluation and program committee on April 20, 2007, at 13:01 hours.

(2) In exercising this authority, the department of information services and the office of financial management shall:

(a) Seek opportunities to reduce costs and achieve economies of scale by leveraging statewide investments in systems and data and other common or enterprise-wide solutions within and across state agencies that include standard software, hardware, and other information technology systems infrastructure, and common data definitions and data stores that promote the sharing of information across agencies whenever possible;

(b) Ensure agencies incorporate project management best practices and consider lessons learned from other information technology projects; and

(c) Develop criteria for the evaluation of information technology project funding proposals to include the determination of where common or coordinated technology or data solutions may be established, and identification of projects that cross fiscal biennia or are dependent on other prior, current, or future related investments.

(3) In allocating funds for the routine replacement of software and hardware, the information services board and office of financial management shall presume that agencies should have sufficient funding in their base allocation to pay for such replacement and that any allocations out of these funds are for extraordinary maintenance costs.

(4) Funds appropriated in this section shall not be released for information technology projects with a risk-severity assessment level two or greater under the policies of the information services board until a feasibility study has been completed and approved by the information services board. If the feasibility study indicates a need for funding exceeding that allocated for the current biennium, justification of increased project costs shall be incorporated in an annual report from the department of information services to the information services board, the office of financial management, and the legislative evaluation and accountability program committee. Implementation funds shall not be released until the project is approved by the legislature.

(5) Funds in the 2007-09 biennium may only be expended on the projects listed on LEAP Document IT-2007, as generated by the legislative evaluation and accountability program committee on April 20, 2007, at 13:01 hours. Future biennia allocations from the information technology funding pool shall be determined jointly by the department of information services and the office of financial management.

(6) Beginning December 1, 2008, and every biennium thereafter, the department of information services shall submit a statewide information technology plan to the office of financial management and the legislative evaluation and accountability program committee that supports a consolidated funding request. In alternate years, a plan addendum shall be submitted that reflects any modified funding pool request requiring action in the ensuing supplemental budget session.

(7) The department of information services shall report to the office of financial management and the legislative evaluation and accountability program committee by October 1, 2007, and

(8) State agencies shall report project performance in consistent and comparable terms using common methodologies to calculate project performance by measuring work accomplished (scope and schedule) against work planned and project cost against planned budget. The department of information services shall provide implementation guidelines and oversight of project performance reporting.

(9) The information services board shall require all agencies receiving funds appropriated in this section to account for project expenses included in an information technology portfolio report submitted annually to the department of information services, the office of financial management, and the legislative evaluation and accountability program committee by October 1st of each year. The department of information services, with the advice and approval of the office of financial management, shall establish criteria for complete and consistent reporting of expenditures from these funds and project staffing levels.

(10) In consultation with the legislative evaluation and accountability program committee, the department of information services shall develop criteria for evaluating requests for these funds and shall report annually to the office of financial management and the legislative evaluation and accountability program committee by November 1st the status of distributions and expenditures from this pool.

(6) Beginning July 1, 2008, an additional and cumulative motor vehicle fuel tax rate of one and one-half cents per gallon (~~applies to the sale, distribution, or use of~~) on motor vehicle fuel shall be imposed on motor vehicle fuel licensees, other than motor vehicle fuel distributors.

NEW SECTION. Sec. 5. A new section is added to chapter 82.36 RCW to read as follows:

International fuel tax agreement licensees, or persons operating motor vehicles under other reciprocity agreements entered into with the state of Washington, are liable for and must pay the tax under RCW 82.36.020 to the department on motor vehicle fuel used to operate motor vehicles on the highways of this state. This provision does not apply if the tax under RCW 82.36.020 has previously been imposed and paid by the international fuel tax agreement licensee or if the use of such fuel is exempt from the tax under this chapter.

Sec. 6. RCW 82.36.027 and 1998 c 176 s 9 are each amended to read as follows:

A terminal operator is jointly and severally liable for (~~remitting~~) payment of the tax imposed under RCW 82.36.020(1) if, at the time of removal:

(3) The position holder has an expired internal revenue service notification certificate issued under 26 C.F.R. Part 48; or

Sec. 7. RCW 82.36.029 and 1998 c 176 s 10 are each amended to read as follows:

Upon the taxable removal of motor vehicle fuel by a licensed supplier and upon importation by a licensed importer, the licensee who acquired or removed the motor vehicle fuel, other than a motor vehicle fuel exporter, shall be entitled to a deduction from the tax liability on the gallonage of taxable motor vehicle fuel removed or imported in order to account for handling losses, as follows: For a motor vehicle fuel supplier (~~acting as a distributor~~), one-quarter of one percent; and for (~~all other licensees~~) a licensed importer, thirty one-hundredths of one percent. For those licensees required to file tax reports, the handling loss deduction shall be reported on tax reports filed with the department. (~~For motor vehicle fuel distributors, the handling loss deduction shall be shown on the invoice provided to the motor vehicle fuel distributor by the seller.~~)

Sec. 8. RCW 82.36.031 and 1998 c 176 s 11 are each amended to read as follows:

For the purpose of determining the amount of liability for the tax imposed under this chapter, and to periodically update license information, each licensee, other than a motor vehicle fuel distributor or an international fuel tax agreement licensee, shall file monthly tax reports with the department, on a form prescribed by the department. An international fuel tax licensee shall file quarterly tax reports with the department, on a form prescribed by the department.

A report shall be filed with the department even though no motor vehicle fuel tax is due for the reporting period. Each tax report shall contain a declaration by the person making the same, to the effect that the statements contained therein are true and made under penalties of perjury, which declaration has the same force and effect as a verification of the report and is in lieu of the verification. The report shall show information as the department may require for the proper administration and enforcement of this chapter. Tax reports shall be filed on or before the twenty-fifth day of the next succeeding calendar month following the period to which the reports relate. If the final filing date falls on a Saturday, Sunday, or legal holiday the next secular or business day shall be the final filing date.

The department, if it deems it necessary in order to ensure payment of the tax imposed under this chapter, or to facilitate the administration of this chapter, may require the filing of reports and tax remittances at shorter intervals than one month.

Sec. 9. RCW 82.36.045 and 1998 c 176 s 16 are each amended to read as follows:

(1) If the department determines that the tax reported by a licensee is deficient, the department shall assess the deficiency on the basis of information available to it, and shall add a penalty of two percent of the amount of the deficiency.

(2) If a licensee, or person acting as such, fails, neglects, or refuses to file a motor vehicle fuel tax report the department shall, on the basis of information available to it, determine the tax liability of the licensee or person for the period during which no report was filed. The department shall add the penalty provided in subsection (1) of this section to the tax. An assessment made by the department under this subsection or subsection (1) of this section is presumed to be correct. In any case, where the validity of the assessment is questioned, the burden is on the person who challenges the assessment to establish by a fair preponderance of evidence that it is erroneous or excessive, as the case may be.

(3) If a licensee or person acting as such files a false or fraudulent report with intent to evade the tax imposed by this

ONE-HUNDRED FIFTH DAY, APRIL 22, 2007

2007 REGULAR SESSION

chapter, the department shall add to the amount of deficiency a penalty equal to twenty-five percent of the deficiency, in addition to the penalty provided in subsections (1) and (2) of this section and all other penalties prescribed by law.

(4) Motor vehicle fuel tax, penalties, and interest payable under this chapter bears interest at the rate of one percent per month, or fraction thereof, from the first day of the calendar month after the amount or any portion of it should have been paid until the date of payment. If a licensee or person acting as such establishes by a fair preponderance of evidence that the failure to pay the amount of tax due was attributable to reasonable cause and was not intentional or willful, the department may waive the penalty. The department may waive the interest when it determines the cost of processing or collection of the interest exceeds the amount of interest due.

(5) Except in the case of a fraudulent report, neglect or refusal to make a report, or failure to pay or to pay the proper amount, the department shall assess the deficiency under subsection (1) or (2) of this section within five years from the last day of the succeeding calendar month after the reporting period for which the amount is proposed to be determined or within five years after the return is filed, whichever period expires later.

(6) Except in the case of violations of filing a false or fraudulent report, if the department deems mitigation of penalties and interest to be reasonable and in the best interest of carrying out the purpose of this chapter, it may mitigate such assessments upon whatever terms the department deems proper, giving consideration to the degree and extent of the lack of records and reporting errors. The department may ascertain the facts regarding recordkeeping and payment penalties in lieu of more elaborate proceedings under this chapter.

(7) A licensee or person acting as such against whom an assessment is made under subsection (1) or (2) of this section may petition for a reassessment within thirty days after service upon the licensee of notice of the assessment. If the petition is not filed within the thirty-day period, the amount of the assessment becomes final at the expiration of that period.

If a petition for reassessment is filed within the thirty-day period, the department shall reconsider the assessment and, if the petitioner has so requested in its petition, shall grant the petitioner an oral hearing and give the petitioner twenty days' notice of the time and place of the hearing. The department may continue the hearing from time to time. The decision of the department upon a petition for reassessment becomes final thirty days after service of notice upon the petitioner.

An assessment made by the department becomes due and payable when it becomes final. If it is not paid to the department when due and payable, the department shall add a penalty of ten percent of the amount of the tax.

(8) In a suit brought to enforce the rights of the state under this chapter, the assessment showing the amount of taxes, penalties, interest, and cost unpaid to the state is prima facie evidence of the facts as shown.

(9) A notice of assessment required by this section must be served personally or by certified or registered mail. If it is served by mail, service shall be made by deposit of the notice in the United States mail, postage prepaid, addressed to the respondent at the most current address furnished to the department.

~~((10) The tax imposed by this chapter, if required to be collected by the seller, is held in trust by the licensee until paid to the department, and a licensee who appropriates or converts the tax collected to his or her own use or to any use other than the payment of the tax to the extent that the money required to be collected is not available for payment on the due date as prescribed in this chapter is guilty of a felony, or gross misdemeanor in accordance with the theft and anticipatory provisions of Title 9A RCW. A person, partnership, corporation, or corporate officer who fails to collect the tax imposed by this section, or who has collected the tax and fails to~~

~~pay it to the department in the manner prescribed by this chapter, is personally liable to the state for the amount of the tax.))~~

Sec. 10. RCW 82.36.060 and 2001 c 270 s 5 are each amended to read as follows:

(1) An application for a license issued under this chapter shall be made to the department on forms to be furnished by the department and shall contain such information as the department deems necessary.

(2) Every application for a license must contain the following information to the extent it applies to the applicant:

(a) Proof as the department may require concerning the applicant's identity, including but not limited to his or her fingerprints or those of the officers of a corporation making the application;

(b) The applicant's form and place of organization including proof that the individual, partnership, or corporation is licensed to do business in this state;

(c) The qualification and business history of the applicant and any partner, officer, or director;

(d) The applicant's financial condition or history including a bank reference and whether the applicant or any partner, officer, or director has ever been adjudged bankrupt or has an unsatisfied judgment in a federal or state court;

(e) Whether the applicant has been adjudged guilty of a crime that directly relates to the business for which the license is sought and the time elapsed since the conviction is less than ten years, or has suffered a judgment within the preceding five years in a civil action involving fraud, misrepresentation, or conversion and in the case of a corporation or partnership, all directors, officers, or partners.

(3) An applicant for a license as a motor vehicle fuel importer must list on the application each state, province, or country from which the applicant intends to import motor vehicle fuel and, if required by the state, province, or country listed, must be licensed or registered for motor vehicle fuel tax purposes in that state, province, or country.

(4) An applicant for a license as a motor vehicle fuel exporter must list on the application each state, province, or country to which the exporter intends to export motor vehicle fuel received in this state by means of a transfer outside of the bulk transfer-terminal system and, if required by the state, province, or country listed, must be licensed or registered for motor vehicle fuel tax purposes in that state, province, or country.

(5) An applicant for a license as a motor vehicle fuel supplier must have a federal certificate of registry that is issued under the internal revenue code and authorizes the applicant to enter into federal tax-free transactions on motor vehicle fuel in the terminal transfer system.

(6) After receipt of an application for a license, the director may conduct an investigation to determine whether the facts set forth are true. The director shall require a fingerprint record check of the applicant through the Washington state patrol criminal identification system and the federal bureau of investigation before issuance of a license. The results of the background investigation including criminal history information may be released to authorized department personnel as the director deems necessary. The department shall charge a license holder or license applicant a fee of fifty dollars for each background investigation conducted.

An applicant who makes a false statement of a material fact on the application may be prosecuted for false swearing as defined by RCW 9A.72.040.

(7) Except as provided by subsection (8) of this section, before granting any license issued under this chapter, the department shall require applicant to file with the department, in such form as shall be prescribed by the department, a corporate surety bond duly executed by the applicant as principal, payable to the state and conditioned for faithful performance of all the requirements of this chapter, including the payment of all taxes,

penalties, and other obligations arising out of this chapter. The total amount of the bond or bonds shall be fixed by the department and may be increased or reduced by the department at any time subject to the limitations herein provided. In fixing the total amount of the bond or bonds, the department shall require a bond or bonds equivalent in total amount to twice the estimated monthly excise tax determined in such manner as the department may deem proper. If at any time the estimated excise tax to become due during the succeeding month amounts to more than fifty percent of the established bond, the department shall require additional bonds or securities to maintain the marginal ratio herein specified or shall demand excise tax payments to be made weekly or semimonthly to meet the requirements hereof.

The total amount of the bond or bonds required of any licensee shall never be less than five thousand dollars nor more than one hundred thousand dollars.

No recoveries on any bond or the execution of any new bond shall invalidate any bond and no revocation of any license shall effect the validity of any bond but the total recoveries under any one bond shall not exceed the amount of the bond.

In lieu of any such bond or bonds in total amount as herein fixed, a licensee may deposit with the state treasurer, under such terms and conditions as the department may prescribe, a like amount of lawful money of the United States or bonds or other obligations of the United States, the state, or any county of the state, of an actual market value not less than the amount so fixed by the department.

Any surety on a bond furnished by a licensee as provided herein shall be released and discharged from any and all liability to the state accruing on such bond after the expiration of thirty days from the date upon which such surety has lodged with the department a written request to be released and discharged, but this provision shall not operate to relieve, release, or discharge the surety from any liability already accrued or which shall accrue before the expiration of the thirty day period. The department shall promptly, upon receiving any such request, notify the licensee who furnished the bond; and unless the licensee, on or before the expiration of the thirty day period, files a new bond, or makes a deposit in accordance with the requirements of this section, the department shall forthwith cancel the license. Whenever a new bond is furnished by a licensee, the department shall cancel the old bond as soon as the department and the attorney general are satisfied that all liability under the old bond has been fully discharged.

The department may require a licensee to give a new or additional surety bond or to deposit additional securities of the character specified in this section if, in its opinion, the security of the surety bond theretofore filed by such licensee, or the market value of the properties deposited as security by the licensee, shall become impaired or inadequate; and upon the failure of the licensee to give such new or additional surety bond or to deposit additional securities within thirty days after being requested so to do by the department, the department shall forthwith cancel his or her license.

(8) The department may waive the requirements of subsection (7) of this section for licensed distributors if, upon determination by the department, the licensed distributor has sufficient resources, assets, other financial instruments, or other means, to adequately make payments on the estimated monthly motor vehicle fuel tax payments, penalties, and interest arising out of this chapter. The department shall adopt rules to administer this subsection. An application for an international fuel tax agreement license must be made to the department. The application must be filed upon a form prescribed by the department and contain such information as the department may require. The department shall charge a fee of ten dollars per set of international fuel tax agreement decals issued to each applicant or licensee. The department shall transmit the fee to the state treasurer for deposit in the motor vehicle fund.

Sec. 11. RCW 82.36.080 and 1998 c 176 s 20 are each amended to read as follows:

(1) It shall be unlawful for any person to engage in business in this state as any of the following unless the person is the holder of an uncanceled license issued by the department authorizing the person to engage in that business:

- (a) Motor vehicle fuel supplier;
- (b) Motor vehicle fuel distributor;
- (c) Motor vehicle fuel exporter;
- (d) Motor vehicle fuel importer; ((or))
- (e) Motor vehicle fuel blender; or
- (f) International fuel tax agreement licensee.

(2) A person engaged in more than one activity for which a license is required must have a separate license classification for each activity, but a motor vehicle fuel supplier is not required to obtain a separate license classification for any other activity for which a license is required.

(3) If any person acts as a licensee without first securing the license required herein the excise tax shall be immediately due and payable on account of all motor vehicle fuel distributed or used by the person. The director shall proceed forthwith to determine from the best available sources, the amount of the tax, and the director shall immediately assess the tax in the amount found due, together with a penalty of one hundred percent of the tax, and shall make a certificate of such assessment and penalty. In any suit or proceeding to collect the tax or penalty, or both, such certificate shall be prima facie evidence that the person therein named is indebted to the state in the amount of the tax and penalty therein stated. Any tax or penalty so assessed may be collected in the manner prescribed in this chapter with reference to delinquency in payment of the tax or by an action at law, which the attorney general shall commence and prosecute to final determination at the request of the director. The foregoing remedies of the state shall be cumulative and no action taken pursuant to this section shall relieve any person from the penal provisions of this chapter.

Sec. 12. RCW 82.36.160 and 1998 c 176 s 27 are each amended to read as follows:

Every licensee shall maintain in the office of his or her principal place of business in this state, for a period of five years, records of motor vehicle fuel received, sold, distributed, or used by the licensee, in such form as the director may prescribe, together with invoices, bills of lading, and other pertinent papers as may be required under the provisions of this chapter.

~~((Every dealer purchasing motor vehicle fuel taxable under this chapter for the purpose of resale, shall maintain within this state, for a period of two years a record of motor vehicle fuels received, the amount of tax paid to the licensee as part of the purchase price, together with delivery tickets, invoices, and bills of lading, and such other records as the director shall require.))~~

Sec. 13. RCW 82.36.180 and 1998 c 176 s 30 are each amended to read as follows:

The director, or duly authorized agents, may make such examinations of the records, stocks, facilities, and equipment of any licensee, ~~((and service stations;))~~ and make such other investigations as deemed necessary in carrying out the provisions of this chapter. If such examinations or investigations disclose that any reports of licensees theretofore filed with the director pursuant to the requirements of this chapter have shown incorrectly the gallonage of motor vehicle fuel distributed or the tax ~~((accruing))~~ liability thereon, the director may make such changes in subsequent reports and payments of such licensees as deemed necessary to correct the errors disclosed.

Every such licensee or such other person not maintaining records in this state so that an audit of such records may be made by the director or a duly authorized representative shall be required to make the necessary records available to the director upon request and at a designated office within this state; or, in lieu thereof, the director or a duly authorized representative shall

proceed to any out-of-state office at which the records are prepared and maintained to make such examination.

NEW SECTION. Sec. 14. A new section is added to chapter 82.36 RCW to read as follows:

Motor vehicle fuel that is used exclusively for racing and is illegal for use on the public highways of this state under state or federal law is exempt from the tax imposed under this chapter.

Sec. 15. RCW 82.36.320 and 1961 c 15 s 82.36.320 are each amended to read as follows:

Any person claiming refund on motor vehicle fuel used other than in motor vehicles as herein provided (~~and any person purchasing motor vehicle fuel from a dealer who is claiming refund on account of the sale of such fuel under RCW 82.36.305~~) may be required by the director to also furnish information regarding the amount of motor vehicle fuel purchased from other sources or for other purposes during the period reported for which no refund is claimed.

Sec. 16. RCW 82.36.340 and 1961 c 15 s 82.36.340 are each amended to read as follows:

The director may in order to establish the validity of any claim for refund require the claimant (~~or, in the case of a dealer filing a claim for refund as provided by RCW 82.36.305, the person to whom such fuel was sold,~~) to furnish such additional proof of the validity of the claim as the director may determine, and may examine the books and records of the claimant or said person to whom the fuel was sold for such purpose. The records shall be sufficient to substantiate the accuracy of the claim and shall be in such form and contain such information as the director may require. The failure to maintain such records or to accede to a demand for an examination of such records may be deemed by the director as sufficient cause for denial of all right to the refund claimed on account of the transaction in question.

Sec. 17. RCW 82.36.370 and 1998 c 176 s 42 are each amended to read as follows:

(1) A refund shall be made in the manner provided in this chapter or a credit given to a licensee allowing for the excise tax paid or accrued on all motor vehicle fuel which is lost or destroyed, while (~~applicant shall be the owner thereof~~) the licensee was the owner, through fire, lightning, flood, wind storm, or explosion.

(2) A refund shall be made in the manner provided in this chapter or a credit given allowing for the excise tax paid or accrued on all motor vehicle fuel of five hundred gallons or more which is lost or destroyed, while (~~applicant shall be~~) the licensee was the owner thereof, through leakage or other casualty except evaporation, shrinkage or unknown causes: PROVIDED, That the director shall be notified in writing as to the full circumstances surrounding such loss or destruction and the amount of the loss or destruction within thirty days from the day of discovery of such loss or destruction.

(3) Recovery for such loss or destruction under either subsection (1) or (2) must be susceptible to positive proof thereby enabling the director to conduct such investigation and require such information as the director may deem necessary.

In the event that the director is not satisfied that the fuel was lost or destroyed as claimed, wherefore required information or proof as required hereunder is not sufficient to substantiate the accuracy of the claim, the director may deem as sufficient cause the denial of all right relating to the refund or credit for the excise tax on motor vehicle fuel alleged to be lost or destroyed.

Sec. 18. RCW 82.36.380 and 2003 c 358 s 13 are each amended to read as follows:

(1) It is unlawful for a person or corporation to:

(a) Evade a tax or fee imposed under this chapter;

(b) File a false statement of a material fact on a motor fuel license application or motor fuel refund application;

(c) Act as a motor fuel importer, motor fuel blender, or motor fuel supplier unless the person holds an uncanceled motor fuel license issued by the department authorizing the person to engage in that business;

(d) Knowingly assist another person to evade a tax or fee imposed by this chapter;

(e) Knowingly operate a conveyance for the purpose of hauling, transporting, or delivering motor vehicle fuel in bulk and not possess an invoice, bill of sale, or other statement showing the name, address, and tax license number of the seller or consignor, the destination, the name, address, and tax license number of the purchaser or consignee, and the number of gallons.

(2) A violation of subsection (1) of this section is a class C felony under chapter 9A.20 RCW. In addition to other penalties and remedies provided by law, the court shall order a person or corporation found guilty of violating subsection (1) of this section to:

(a) Pay the tax or fee evaded plus interest, commencing at the date the tax or fee was first due, at the rate of twelve percent per year, compounded monthly; and

(b) Pay a penalty of one hundred percent of the tax evaded, to the multimodal transportation account of the state.

(3) The tax imposed by this chapter is held in trust by the licensee until paid to the department, and a licensee who appropriates the tax to his or her own use or to any use other than the payment of the tax on the due date as prescribed in this chapter is guilty of a felony or gross misdemeanor in accordance with the theft and anticipatory provisions of Title 9A RCW. A person, partnership, corporation, or corporate officer who fails to pay to the department the tax imposed by this chapter is personally liable to the state for the amount of the tax.

Sec. 19. RCW 82.36.450 and 1995 c 320 s 2 are each amended to read as follows:

~~(The department of licensing may enter into an agreement with any federally recognized Indian tribe located on a reservation within this state regarding the imposition, collection, and use of this state's motor vehicle fuel tax, or the budgeting or use of moneys in lieu thereof, upon terms substantially the same as those in the consent decree entered by the federal district court (Eastern District of Washington) in *Confederated Tribes of the Colville Reservation v. DOL, et al.*, District Court No. *CY-92-248-JLO.*)~~

(1) The governor may enter into an agreement with any federally recognized Indian tribe located on a reservation within this state regarding motor vehicle fuel taxes included in the price of fuel delivered to a retail station wholly owned and operated by a tribe, tribal enterprise, or tribal member licensed by the tribe to operate a retail station located on reservation or trust property. The agreement may provide mutually agreeable means to address any tribal immunities or any preemption of the state motor vehicle fuel tax.

(2) The provisions of this section do not repeal existing state/tribal fuel tax agreements or consent decrees in existence on the effective date of this act. The state and the tribe may agree to substitute an agreement negotiated under this section for an existing agreement or consent decree, or to enter into an agreement using a methodology similar to the state/tribal fuel tax agreements in effect on the effective date of this act.

(3) If a new agreement is negotiated, the agreement must:

(a) Require that the tribe or the tribal retailer acquire all motor vehicle fuel only from persons or companies operating lawfully in accordance with this chapter as a motor vehicle fuel distributor, supplier, importer, or blender, or from a tribal distributor, supplier, importer, or blender lawfully doing business according to all applicable laws;

(b) Provide that the tribe will expend fuel tax proceeds or equivalent amounts on: Planning, construction, and maintenance of roads, bridges, and boat ramps; transit services and facilities; transportation planning; police services; and other highway-related purposes;

(c) Include provisions for audits or other means of ensuring compliance to certify the number of gallons of motor vehicle fuel purchased by the tribe for resale at tribal retail stations, and the use of fuel tax proceeds or their equivalent for the purposes

ONE-HUNDRED FIFTH DAY, APRIL 22, 2007

identified in (b) of this subsection. Compliance reports must be delivered to the director of the department of licensing.

(4) Information from the tribe or tribal retailers received by the state or open to state review under the terms of an agreement shall be deemed to be personal information under RCW 42.56.230(3)(b) and exempt from public inspection and copying.

(5) The governor may delegate the power to negotiate fuel tax agreements to the department of licensing.

(6) The department of licensing shall prepare and submit an annual report to the legislature on the status of existing agreements and any ongoing negotiations with tribes.

NEW SECTION. Sec. 20. A new section is added to chapter 82.36 RCW to read as follows:

It is the intent and purpose of this chapter that the tax shall be imposed at the time and place of the first taxable event and upon the first taxable person within this state. Any person whose activities would otherwise require payment of the tax imposed by RCW 82.36.020 but who is exempt from the tax nevertheless has a precollection obligation for the tax that must be imposed on the first taxable event within this state. Failure to pay the tax with respect to a taxable event shall not prevent tax liability from arising by reason of a subsequent taxable event.

Sec. 21. RCW 82.38.030 and 2005 c 314 s 102 are each amended to read as follows:

(1) There is hereby levied and imposed upon special fuel ~~((users))~~ licensees, other than special fuel distributors, a tax at the rate of twenty-three cents per gallon of special fuel, or each one hundred cubic feet of compressed natural gas, measured at standard pressure and temperature.

(2) Beginning July 1, 2003, an additional and cumulative tax rate of five cents per gallon of special fuel, or each one hundred cubic feet of compressed natural gas, measured at standard pressure and temperature shall be imposed on special fuel ~~((users))~~ licensees, other than special fuel distributors. This subsection (2) expires when the bonds issued for transportation 2003 projects are retired.

(3) Beginning July 1, 2005, an additional and cumulative tax rate of three cents per gallon of special fuel, or each one hundred cubic feet of compressed natural gas, measured at standard pressure and temperature shall be imposed on special fuel ~~((users))~~ licensees, other than special fuel distributors.

(4) Beginning July 1, 2006, an additional and cumulative tax rate of three cents per gallon of special fuel, or each one hundred cubic feet of compressed natural gas, measured at standard pressure and temperature shall be imposed on special fuel ~~((users))~~ licensees, other than special fuel distributors.

(5) Beginning July 1, 2007, an additional and cumulative tax rate of two cents per gallon of special fuel, or each one hundred cubic feet of compressed natural gas, measured at standard pressure and temperature shall be imposed on special fuel ~~((users))~~ licensees, other than special fuel distributors.

(6) Beginning July 1, 2008, an additional and cumulative tax rate of one and one-half cents per gallon of special fuel, or each one hundred cubic feet of compressed natural gas, measured at standard pressure and temperature shall be imposed on special fuel ~~((users))~~ licensees, other than special fuel distributors.

(7) Taxes are imposed when:

(a) Special fuel is removed in this state from a terminal if the special fuel is removed at the rack unless the removal is to a licensed exporter for direct delivery to a destination outside of the state, or the removal is ~~((to))~~ by a special fuel ~~((distributor))~~ supplier for direct delivery to an international fuel tax agreement licensee under RCW 82.38.320;

(b) Special fuel is removed in this state from a refinery if either of the following applies:

(i) The removal is by bulk transfer and the refiner or the owner of the special fuel immediately before the removal is not a licensee; or

(ii) The removal is at the refinery rack unless the removal is to a licensed exporter for direct delivery to a destination outside

of the state, or the removal is to a special fuel ~~((distributor))~~ supplier for direct delivery to an international fuel tax agreement licensee under RCW 82.38.320;

(c) Special fuel enters into this state for sale, consumption, use, or storage, unless the fuel enters this state for direct delivery to an international fuel tax agreement licensee under RCW 82.38.320, if either of the following applies:

(i) The entry is by bulk transfer and the importer is not a licensee; or

(ii) The entry is not by bulk transfer;

(d) Special fuel is sold or removed in this state to an unlicensed entity unless there was a prior taxable removal, entry, or sale of the special fuel;

(e) Blended special fuel is removed or sold in this state by the blender of the fuel. The number of gallons of blended special fuel subject to tax is the difference between the total number of gallons of blended special fuel removed or sold and the number of gallons of previously taxed special fuel used to produce the blended special fuel;

(f) Dyed special fuel is used on a highway, as authorized by the internal revenue code, unless the use is exempt from the special fuel tax;

(g) Dyed special fuel is held for sale, sold, used, or is intended to be used in violation of this chapter;

(h) Special fuel purchased by an international fuel tax agreement licensee under RCW 82.38.320 is used on a highway; and

(i) Special fuel is sold by a licensed special fuel supplier to a special fuel distributor, special fuel importer, or special fuel blender and the special fuel is not removed from the bulk transfer-terminal system.

~~((8)) The tax imposed by this chapter, if required to be collected by the licensee, is held in trust by the licensee until paid to the department, and a licensee who appropriates or converts the tax collected to his or her own use or to any use other than the payment of the tax to the extent that the money required to be collected is not available for payment on the due date as prescribed in this chapter is guilty of a felony, or gross misdemeanor in accordance with the theft and anticipatory provisions of Title 9A RCW. A person, partnership, corporation, or corporate officer who fails to collect the tax imposed by this section, or who has collected the tax and fails to pay it to the department in the manner prescribed by this chapter, is personally liable to the state for the amount of the tax.)~~

Sec. 22. RCW 82.38.032 and 1998 c 176 s 52 are each amended to read as follows:

~~((The tax under RCW 82.38.030, if not previously imposed and paid, must be paid over to the department by special fuel users and persons licensed under the international fuel tax agreement or other fuel tax reciprocity agreements entered into with the state of Washington, on the use of special fuel to operate motor vehicles on the highways of this state, unless the use is exempt from the tax under this chapter.)) International fuel tax agreement licensees, or persons operating motor vehicles under other reciprocity agreements entered into with the state of Washington, are liable for and must pay the tax under RCW 82.38.030 to the department on special fuel used to operate motor vehicles on the highways of this state. This provision does not apply if the tax under RCW 82.38.030 has previously been imposed and paid by the international fuel tax agreement licensee or if the use of such fuel is exempt from the tax under this chapter.~~

Sec. 23. RCW 82.38.035 and 2005 c 314 s 107 are each amended to read as follows:

(1) A licensed supplier shall ~~((remit))~~ be liable for and pay tax on special fuel to the department as provided in RCW 82.38.030(7)(a). On a two-party exchange, or buy-sell agreement between two licensed suppliers, the receiving exchange partner or buyer shall ~~((remit))~~ be liable for and pay the tax.

(3) ~~((Am))~~ A licensed importer shall ~~((remit)) be liable for and pay~~ tax to the department on special fuel imported into this state as provided in RCW 82.38.030(7)(c).

(4) A licensed blender shall ~~((remit)) be liable for and pay~~ tax to the department on the removal or sale of blended special fuel as provided in RCW 82.38.030(7)(e).

(5) A licensed dyed special fuel user shall ~~((remit)) be liable for and pay~~ tax to the department on the use of dyed special fuel as provided in RCW 82.38.030(7)(f).

(6) Nothing in this chapter prohibits the licensee liable for payment of the tax under this chapter from including as a part of the selling price an amount equal to such tax.

Sec. 24. RCW 82.38.050 and 1990 c 250 s 82 are each amended to read as follows:

~~((Except as otherwise provided in this chapter, every special fuel user shall be liable for the tax on special fuel used in motor vehicles leased to the user for thirty days or more and operated on the highways of this state to the same extent and in the same manner as special fuel used in his own motor vehicles and operated on the highways of this state. PROVIDED, That))~~ A lessor who is engaged regularly in the business of leasing or renting for compensation motor vehicles and equipment he owns without drivers to carriers or other lessees for interstate operation, may be deemed to be the special fuel user when he supplies or pays for the special fuel consumed in such vehicles, and such lessor may be issued ~~((a))~~ an international fuel tax agreement license ((as a special fuel user)) when application and bond have been properly filed with and approved by the department for such license. Any lessee may exclude motor vehicles of which he or she is the lessee from reports and liabilities pursuant to this chapter, but only if the motor vehicles in question have been leased from a lessor holding a valid ~~((special fuel user's))~~ international fuel tax agreement license.

~~((Every such lessor shall file with the application for a special fuel user's license one copy of the lease form or service contract the lessor enters into with the various lessees of the lessor's motor vehicles.))~~ When the ~~((special fuel user's))~~ license has been secured, such lessor shall make and assign to each motor vehicle leased for interstate operation a photocopy of such license to be carried in the cab compartment of the motor vehicle and on which shall be typed or printed on the back the unit or motor number of the motor vehicle to which it is assigned and the name of the lessee. Such lessor shall be responsible for the proper use of such photocopy of the license issued and its return to the lessor with the motor vehicle to which it is assigned.

The lessor shall be responsible for fuel tax licensing and reporting, as required by this chapter, on the operation of all motor vehicles leased to others for less than thirty days.

Sec. 25. RCW 82.38.100 and 1999 c 270 s 2 are each amended to read as follows:

(1) Any special fuel user operating a motor vehicle into this state for commercial purposes may make application for a trip permit that shall be good for a period of three consecutive days beginning and ending on the dates specified on the face of the permit issued, and only for the vehicle for which it is issued.

(2) Every permit shall identify, as the department may require, the vehicle for which it is issued and shall be completed in its entirety, signed, and dated by the operator before operation of the vehicle on the public highways of this state. Correction of data on the permit such as dates, vehicle license number, or vehicle identification number invalidates the permit. A violation of, or a failure to comply with, this subsection is a gross misdemeanor.

(3) For each permit issued, there shall be collected a filing fee of one dollar, an administrative fee of ten dollars, and an excise tax of nine dollars. Such fees and tax shall be in lieu of the special fuel tax otherwise assessable against the permit

holder for importing and using special fuel in a motor vehicle on the public highways of this state, and no report of mileage shall be required with respect to such vehicle. Trip permits will not be issued if the applicant has outstanding fuel taxes, penalties, or interest owing to the state or has had a special fuel license revoked for cause and the cause has not been removed.

(4) Blank permits may be obtained from field offices of the department of transportation, ~~((Washington state patrol,))~~ department of licensing, or other agents appointed by the department. The department may appoint county auditors or businesses as agents for the purpose of selling trip permits to the public. County auditors or businesses so appointed may retain the filing fee collected for each trip permit to defray expenses incurred in handling and selling the permits.

(5) A surcharge of five dollars is imposed on the issuance of trip permits. The portion of the surcharge paid by motor carriers must be deposited in the motor vehicle fund for the purpose of supporting vehicle weigh stations, weigh-in-motion programs, and the commercial vehicle information systems and networks program. The remaining portion of the surcharge must be deposited in the motor vehicle fund for the purpose of supporting congestion relief programs. All other fees and excise taxes collected by the department for trip permits shall be credited and deposited in the same manner as the special fuel tax collected under this chapter and shall not be subject to exchange, refund, or credit.

Sec. 26. RCW 82.38.130 and 1998 c 176 s 65 are each amended to read as follows:

The department may revoke the license of any licensee for any of the grounds constituting cause for denial of a license set forth in RCW 82.38.120 or for other reasonable cause. Before revoking such license the department shall notify the licensee to show cause within twenty days of the date of the notice why the license should not be revoked: PROVIDED, That at any time prior to and pending such hearing the department may, in the exercise of reasonable discretion, suspend such license.

The department shall cancel any special fuel license immediately upon surrender thereof by the holder.

Any surety on a bond furnished by a licensee as provided in this chapter shall be released and discharged from any and all liability to the state accruing on such bond after the expiration of forty-five days from the date which such surety shall have lodged with the department a written request to be released and discharged, but this provision shall not operate to relieve, release, or discharge the surety from any liability already accrued or which shall accrue before the expiration of the forty-five day period. The department shall promptly, upon receiving any such request, notify the licensee who furnished the bond, and unless the licensee, on or before the expiration of the forty-five day period, files a new bond, in accordance with this section, the department ~~((forthwith))~~ shall cancel the ~~((special fuel dealer's or special fuel user's))~~ license.

The department may require a new or additional surety bond of the character specified in RCW 82.38.020(3) if, in its opinion, the security of the surety bond therefor filed by such licensee, shall become impaired or inadequate. Upon failure of the licensee to give such new or additional surety bond within forty-five days after being requested to do so by the department, or after he or she shall fail or refuse to file reports and remit or pay taxes at the intervals fixed by the department, the department forthwith shall cancel his or her license.

Sec. 27. RCW 82.38.140 and 1998 c 176 s 66 are each amended to read as follows:

(1) Every licensee and every person importing, manufacturing, refining, ~~((dealing in,))~~ transporting, blending, or storing special fuel in this state shall keep for a period of not less than five years open to inspection at all times during the business hours of the day to the department or its authorized representatives, a complete record of all special fuel purchased or received and all of such products sold, delivered, or used by them. Such records shall show:

- (g) The name, address, and special fuel license number of the purchaser if the special fuel tax is not collected on the sale or delivery;
- (h) The inventories of special fuel on hand at each place of business at the end of each month.

(2)(a) All international fuel tax agreement licensees and dyed special fuel users authorized to use dyed special fuel on highway in vehicles licensed for highway operation shall maintain detailed mileage records on an individual vehicle basis.

(b) Such operating records shall show both on-highway and off-highway usage of special fuel on a daily basis for each vehicle.

(c) In the absence of operating records that show both on-highway and off-highway usage of special fuel on a daily basis for each vehicle, fuel consumption must be computed under RCW 82.38.060.

(3) The department may require a person other than a licensee engaged in the business of selling, purchasing, distributing, storing, transporting, or delivering special fuel to submit periodic reports to the department regarding the disposition of the fuel. The reports must be on forms prescribed by the department and must contain such information as the department may require.

(4) Every person operating any conveyance for the purpose of hauling, transporting, or delivering special fuel in bulk shall have and possess during the entire time the person is hauling special fuel, an invoice, bill of sale, or other statement showing the name, address, and license number of the seller or consigner, the destination, name, and address of the purchaser or consignee, license number, if applicable, and the number of gallons. The person hauling such special fuel shall at the request of any law enforcement officer or authorized representative of the department, or other person authorized by law to inquire into, or investigate those types of matters, produce for inspection such invoice, bill of sale, or other statement and shall permit such official to inspect and gauge the contents of the vehicle.

Sec. 28. RCW 82.38.150 and 1998 c 176 s 67 are each amended to read as follows:

For the purpose of determining the amount of liability for the tax herein imposed, and to periodically update license information, each licensee, other than a special fuel distributor, an international fuel tax agreement licensee, or a dyed special fuel user, shall file monthly tax reports with the department, on forms prescribed by the department.

Dyed special fuel users whose estimated yearly tax liability is two hundred fifty dollars or less, shall file a report yearly, and dyed special fuel users whose estimated yearly tax liability is more than two hundred fifty dollars, shall file reports quarterly. Special fuel users licensed under the international fuel tax agreement shall file reports quarterly. ~~((Special fuel distributors))~~ Heating oil dealers subject to the pollution liability insurance agency fee and reporting requirements shall remit pollution liability insurance agency returns and any associated payment due to the department annually.

The department shall establish the reporting frequency for each applicant at the time the special fuel license is issued. If it becomes apparent that any licensee is not reporting in accordance with the above schedule, the department shall change the licensee's reporting frequency by giving thirty days' notice to the licensee by mail to the licensee's address of record.

A report shall be filed with the department even though no special fuel was used, or tax is due, for the reporting period. Each tax report shall contain a declaration by the person making the same, to the effect that the statements contained therein are true and are made under penalties of perjury, which declaration shall have the same force and effect as a verification of the report and is in lieu of such verification. The report shall show such information as the department may reasonably require for the proper administration and enforcement of this chapter. ~~((For counties within which an additional excise tax on special fuel has been levied by that jurisdiction under RCW 82.80.010, the report must show the quantities of special fuel sold, distributed, or withdrawn from bulk storage by the reporting dealer or user within the county's boundaries and the tax liability from its levy.))~~ A licensee shall file a tax report on or before the twenty-fifth day of the next succeeding calendar month following the period to which it relates.

Subject to the written approval of the department, tax reports may cover a period ending on a day other than the last day of the calendar month. Taxpayers granted approval to file reports in this manner will file such reports on or before the twenty-fifth day following the end of the reporting period. No change to this reporting period will be made without the written authorization of the department.

If the final filing date falls on a Saturday, Sunday, or legal holiday the next secular or business day shall be the final filing date. Such reports shall be considered filed or received on the date shown by the post office cancellation mark stamped upon an envelope containing such report properly addressed to the department, or on the date it was mailed if proof satisfactory to the department is available to establish the date it was mailed.

The department, if it deems it necessary in order to insure payment of the tax imposed by this chapter, or to facilitate the administration of this chapter, has the authority to require the filing of reports and tax remittances at shorter intervals than one month if, in its opinion, an existing bond has become insufficient.

Sec. 29. RCW 82.38.180 and 1998 c 176 s 71 are each amended to read as follows:

Any person who has purchased special fuel on which tax has been paid ~~((a special fuel tax either directly or to the vendor from whom it was purchased))~~ may file a claim with the department for a refund of the tax ~~((so paid and shall be reimbursed and repaid the amount of))~~ for:

(1) ~~((Any))~~ Taxes previously paid on special fuel used for purposes other than for the propulsion of motor vehicles upon the public highways in this state.

(2) ~~((Any))~~ Taxes previously paid on special fuel exported for use outside of this state. Special fuel carried from this state in the fuel tank of a motor vehicle is deemed to be exported from this state. Special fuel distributed to a federally recognized Indian tribal reservation located within the state of Washington is not considered exported outside this state.

(3) ~~((Any))~~ Tax, penalty, or interest erroneously or illegally collected or paid.

(4) ~~((Any))~~ Taxes previously paid on all special fuel which is lost or destroyed, while ~~((applicant))~~ the licensee shall be the owner thereof, through fire, lightning, flood, wind storm, or explosion.

(5) ~~((Any))~~ Taxes previously paid on all special fuel of five hundred gallons or more which is lost or destroyed while ~~((applicant))~~ the licensee shall be the owner thereof, through leakage or other casualty except evaporation, shrinkage, or unknown causes.

(6) ~~((Any))~~ Taxes previously paid on special fuel that is inadvertently mixed with dyed special fuel.

Recovery for such loss or destruction under either subsection (4), (5), or (6) of this section must be susceptible to positive proof thereby enabling the department to conduct such investigation and require such information as ~~((they))~~ it may deem necessary. In the event that the department is not satisfied

ONE-HUNDRED FIFTH DAY, APRIL 22, 2007

that the fuel was lost, destroyed, or contaminated as claimed because information or proof as required hereunder is not sufficient to substantiate the accuracy of the claim, ~~((they))~~ it may deem such as sufficient cause to deny all right relating to the refund or credit for the excise tax paid on special fuel alleged to be lost or destroyed.

No refund or claim for credit shall be approved by the department unless the gallons of special fuel claimed as nontaxable satisfy the conditions specifically set forth in this section and the nontaxable event or use occurred during the period covered by the refund claim. Refunds or claims for credit ~~((by sellers or users of special fuel))~~ shall not be allowed for anticipated nontaxable use or events.

Sec. 30. RCW 82.38.270 and 2003 c 358 s 14 are each amended to read as follows:

(1) It is unlawful for a person or corporation to:

(a) Have dyed diesel in the fuel supply tank of a vehicle that is licensed or required to be licensed for highway use or maintain dyed diesel in bulk storage for highway use, unless the person or corporation maintains an uncanceled dyed diesel user license or is otherwise exempted by this chapter;

(b) Evade a tax or fee imposed under this chapter;

(c) File a false statement of a material fact on a special fuel license application or special fuel refund application;

(d) Act as a special fuel importer, special fuel blender, or special fuel supplier unless the person holds an uncanceled special fuel license issued by the department authorizing the person to engage in that business;

(e) Knowingly assist another person to evade a tax or fee imposed by this chapter;

(f) Knowingly operate a conveyance for the purpose of hauling, transporting, or delivering special fuel in bulk and not possess an invoice, bill of sale, or other statement showing the name, address, and tax license number of the seller or consignor, the destination, the name, address, and tax license number of the purchaser or consignee, and the number of gallons.

(2)(a) A single violation of subsection (1)(a) of this section is a gross misdemeanor under chapter 9A.20 RCW.

(b) Multiple violations of subsection (1)(a) of this section and violations of subsection (1)(b) through (f) of this section are a class C felony under chapter 9A.20 RCW.

(3) In addition to other penalties and remedies provided by law, the court shall order a person or corporation found guilty of violating subsection (1)(b) through (f) of this section to:

(a) Pay the tax or fee evaded plus interest, commencing at the date the tax or fee was first due, at the rate of twelve percent per year, compounded monthly; and

(b) Pay a penalty of one hundred percent of the tax evaded, to the multimodal transportation account of the state.

(4) The tax imposed by this chapter is held in trust by the licensee until paid to the department, and a licensee who appropriates the tax to his or her own use or to any use other than the payment of the tax on the due date as prescribed in this chapter is guilty of a felony or gross misdemeanor in accordance with the theft and anticipatory provisions of Title 9A RCW. A person, partnership, corporation, or corporate officer who fails to pay to the department the tax imposed by this chapter is personally liable to the state for the amount of the tax.

Sec. 31. RCW 82.38.310 and 1995 c 320 s 3 are each amended to read as follows:

~~((The department of licensing may enter into an agreement with any federally recognized Indian tribe located on a reservation within this state regarding the imposition, collection, and use of this state's special fuel tax, or the budgeting or use of moneys in lieu thereof, upon terms substantially the same as those in the consent decree entered by the federal district court (Eastern District of Washington) in *Confederated Tribes of the Colville Reservation v. DOL, et al.*, District Court No. CY 92-248 JLO.))~~ (1) The governor may enter into an agreement with any federally recognized Indian tribe located on a reservation within this state regarding special fuel taxes included in the

2007 REGULAR SESSION

price of fuel delivered to a retail station wholly owned and operated by a tribe, tribal enterprise, or tribal member licensed by the tribe to operate a retail station located on reservation or trust property. The agreement may provide mutually agreeable means to address any tribal immunities or any preemption of the state special fuel tax.

(2) The provisions of this section do not repeal existing state/tribal fuel tax agreements or consent decrees in existence on the effective date of this act. The state and the tribe may agree to substitute an agreement negotiated under this section for an existing agreement or consent decree, or to enter into an agreement using a methodology similar to the state/tribal fuel tax agreements in effect on the effective date of this act.

(3) If a new agreement is negotiated, the agreement must:

(a) Require that the tribe or the tribal retailer acquire all special fuel only from persons or companies operating lawfully in accordance with this chapter as a special fuel distributor, supplier, importer, or blender, or from a tribal distributor, supplier, importer, or blender lawfully doing business according to all applicable laws;

(b) Provide that the tribe will expend fuel tax proceeds or equivalent amounts on: Planning, construction, and maintenance of roads, bridges, and boat ramps; transit services and facilities; transportation planning; police services; and other highway-related purposes;

(c) Include provisions for audits or other means of ensuring compliance to certify the number of gallons of special fuel purchased by the tribe for resale at tribal retail stations, and the use of fuel tax proceeds or their equivalent for the purposes identified in (b) of this subsection. Compliance reports must be delivered to the director of the department of licensing.

(4) Information from the tribe or tribal retailers received by the state or open to state review under the terms of an agreement shall be deemed personal information under RCW 42.56.230(3)(b) and exempt from public inspection and copying.

(5) The governor may delegate the power to negotiate fuel tax agreements to the department of licensing.

(6) The department of licensing shall prepare and submit an annual report to the legislature on the status of existing agreements and any ongoing negotiations with tribes.

Sec. 32. RCW 82.38.320 and 1998 c 176 s 83 are each amended to read as follows:

(1) An international fuel tax agreement licensee who meets the qualifications in subsection (2) of this section may be given special authorization by the department to purchase special fuel delivered into bulk storage without payment of the special fuel tax at the time the fuel is purchased. The special authorization applies only to full truck-trailer loads filled at a terminal rack and delivered directly to the bulk storage facilities of the special authorization holder. The licensee shall pay special fuel tax on the fuel at the time the licensee files their international fuel tax agreement tax return and accompanying schedule with the department. The accompanying schedule shall be provided in a form and manner determined by the department and shall contain information on purchases and usage of all nondyed special fuel purchased during the reporting period. In addition, by the fifteenth day of the month following the month in which fuel under the special authorization was purchased, the licensee must report to the department, the name of the seller and the number of gallons purchased for each purchase of such fuel, and any other information as the department may require.

(2) To receive or maintain special authorization under subsection (1) of this section, the following conditions regarding the international fuel tax agreement licensee must apply:

(a) During the period encompassing the four consecutive calendar quarters immediately preceding the fourth calendar quarter of the previous year, the number of gallons consumed outside the state of Washington as reported on the licensee's international fuel tax agreement tax returns must have been equal to at least twenty percent of the nondyed special fuel

gallons, including fuel used on-road and off-road, purchased by the licensee in the state of Washington, as reported on the accompanying schedules required under subsection (1) of this section;

(b) The licensee must have been licensed under the provisions of the international fuel tax agreement during each of the four consecutive calendar quarters immediately preceding the fourth calendar quarter of the previous year; and

(c) The licensee has not violated the reporting requirements of this section.

(3) Only a licensed special fuel supplier or special fuel importer may sell special fuel to a special authorization holder in the manner prescribed by this section.

~~(4) A special fuel ((distributor)) supplier or importer who sells special fuel under the special authorization provisions of this section is not liable for the special fuel tax on the fuel. ((By the fifteenth day of the month following the month in which the fuel was sold, the special fuel distributor shall report to the department, the name and special authorization number of the purchaser and the number of gallons sold for each purchase of such special fuel, and any other information as the department may require.))~~ The special fuel supplier or importer will report such sales, in a manner prescribed by the department, at the time the special fuel supplier or importer submits the monthly tax report.

~~((4) A supplier selling special fuel under the provisions of this section shall not be responsible for taxes due for special fuel purchased under the provisions of this section.~~

~~(5) An international fuel tax agreement licensee who qualifies for a special authorization under this section for calendar year 1999 is not subject to the special fuel user requirements of RCW 82.38.289.)~~

NEW SECTION. Sec. 33. A new section is added to chapter 82.38 RCW to read as follows:

It is the intent and purpose of this chapter that the tax shall be imposed at the time and place of the first taxable event and upon the first taxable person within this state. Any person whose activities would otherwise require payment of the tax imposed by RCW 82.38.030 but who is exempt from the tax nevertheless has a precollection obligation for the tax that must be imposed on the first taxable event within this state. Failure to pay the tax with respect to a taxable event shall not prevent tax liability from arising by reason of a subsequent taxable event.

NEW SECTION. Sec. 34. The following acts or parts of acts are each repealed:

This bill will help the Washington State Patrol retain its experienced troopers. When the bill was moving through the legislature, they were concerned that a trooper may turn 60 years old between July 1, 2007 the first day this bill could be effective, and the standard effective date, which is 90 days after a bill is signed into law. The Washington State Patrol has since determined that no troopers will turn 60 years old during this period of time, and that no trooper will face the mandatory retirement age prior to the effective date of this bill. The emergency clause is therefore unnecessary.

For these reasons, I have vetoed Section 2 of Senate Bill No. 5313.
With the exception of Sections 2, Senate Bill No. 5313 is approved.

PARTIAL VETO ON ENGROSSED SECOND SUBSTITUTE SENATE BILL NO. 5930

May 2, 2007

To the Honorable President and Members,
The Senate of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Sections 59 and 74, Engrossed Second Substitute Senate Bill No. 5930 entitled:

"AN ACT Relating to providing high quality, affordable health care to Washingtonians based on the recommendations of the blue ribbon commission on health care costs and access."

I am pleased to support Engrossed Second Substitute Senate Bill No. 5930, an act relating to providing high quality, affordable health care to Washingtonians based on the recommendations of the Blue Ribbon Commission on Health Care Costs and Access.

Section 59 of the bill establishes a nine-member board charged with designing and managing the Washington Health Insurance Partnership (WHP). This section duplicates a comparable board established under Engrossed Second Substitute House Bill No. 1569, which passed during the 2007 legislative session. Section 74 of this bill is an emergency clause, and would allow certain sections of the bill to become effective on July 1. Section 74 is not essential to the proper and timely implementation of the bill.

For these reasons, I have vetoed Sections 59 and 74 of Engrossed Second Substitute Senate Bill No. 5930.
With the exception of Sections 59 and 74, Engrossed Second Substitute Senate Bill No. 5930 is approved.

Respectfully submitted,
CHRISTINE O. GREGOIRE, GovernorMESSAGE FROM THE GOVERNOR
PARTIAL VETO ON ENGROSSED SUBSTITUTE SENATE BILL NO. 6001

May 3, 2007

To the Honorable President and Members,
The Senate of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Section 6, Engrossed Substitute Senate Bill No. 6001 entitled:

"AN ACT Relating to mitigating the impacts of climate change."

Section 6 of this bill is unnecessary. It was inserted when the bill contemplated minor adjustments to the Energy Facility Site Evaluation Council's permit process. But those adjustments were ultimately removed from the bill. The Governor currently has ample existing authority without Section 6.

For these reasons, I have vetoed Section 6 of Engrossed Substitute Senate Bill No. 6001.
With the exception of Section 6, Engrossed Substitute Senate Bill No. 6001 is approved.

Respectfully submitted,
CHRISTINE O. GREGOIRE, Governor

MESSAGE FROM THE GOVERNOR
PARTIAL VETO ON ENGROSSED SECOND SUBSTITUTE SENATE BILL NO. 5923

May 7, 2007

To the Honorable President and Members,
The Senate of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Section 11, Engrossed Second Substitute Senate Bill No. 5923 entitled:

"AN ACT Relating to aquatic invasive species enforcement and control."

Aquatic invasive species pose significant risks to the marine and fresh waters of the state. It is imperative that we continue to prevent their introduction, as they are extremely difficult and costly to eradicate once established. This bill provides the clear policy, the compliance programs and the necessary funding to ensure our success in this effort.

However, I am vetoing Section 11 of Engrossed Second Substitute Senate Bill No. 5923 which would permanently establish the Ballast Water Work Group and significantly expand its duties. The Work Group has been an excellent source of expertise and advice but it is not currently in the position to take on all of the responsibilities outlined in the bill. In addition, we have in place the Washington Invasive Species Council to provide policy direction, planning and coordination for addressing invasive species in the state.

I appreciate the need for cooperation and support from many stakeholders and agencies in order to succeed with this program. I understand that Director Koenings will establish advisory and technical groups, as needed, to implement this bill and will work closely with the Invasive Species Council to coordinate our state response to the threat of invasive species.

For these reasons, I have vetoed Section 11 of Engrossed Second Substitute Senate Bill No. 5923.

With the exception of Section 11, Engrossed Second Substitute Senate Bill No. 5923 is approved.

Respectfully submitted,
CHRISTINE O. GREGOIRE, Governor

PARTIAL VETO ON SUBSTITUTE SENATE BILL NO. 5108

May 8, 2007

To the Honorable President and Members,
The Senate of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Sections 6 and 7, Substitute Senate Bill No. 5108 entitled:

"AN ACT Relating to farmland preservation."

This bill creates the Office of Farmland Preservation. Sections 6 and 7 are overly broad and do not appear to be related to the underlying bill, as it prohibits the use of eminent domain by governmental entities for wetland mitigation purposes on agricultural land. Furthermore, if enacted, Section 6 and 7 create unintended and undesirable consequences to numerous transportation and development projects across the state, including the ability to meet state and federal permit requirements to continue dredging of the lower Columbia River.

I understand that the Army Corp of Engineers, state agencies, Port officials, local legislators and Southwest Washington families are meeting to explore alternative to condemnation for mitigation related to the Columbia Deepening Project. This is a much more productive avenue than the provisions Sections 6 and 7 provide.

For these reasons, I have vetoed Sections 6 and 7 of Substitute Senate Bill No. 5108.

With the exception of Sections 6 and 7, Substitute Senate Bill No. 5108 is approved.

Respectfully submitted,
CHRISTINE O. GREGOIRE, Governor

SUBSTITUTE SENATE BILL NO. 5320

May 8, 2007

To the Honorable President and Members,
The Senate of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Section 5, Substitute Senate Bill No. 5320 entitled:

"AN ACT Relating to creating an office of public guardianship as an independent agency of the judiciary."

I am a strong proponent of government management accountability and performance. To this extent, I believe we must be judicious in the creation of new boards and commissions. This bill calls for the creation of a 17 member advisory committee to the new Office of Public Guardianship.

The creation of the Office of Public Guardianship does not necessitate creating a 17 member Advisory Committee. The Office is created within the Administrative Offices of the Courts and the director is selected by, and serves at the pleasure of, the Supreme Court. These entities are capable of providing adequate oversight of the Office and performing the duties outlined in the bill for the advisory committee.

For these reasons, I have vetoed Section 5 of Substitute Senate Bill No. 5320.

With the exception of Section 5, Substitute Senate Bill No. 5320 is approved.

SUBSTITUTE SENATE BILL NO. 5718

May 8, 2007

To the Honorable President and Members,
The Senate of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Sections 15 and 16, Substitute Senate Bill No. 5718 entitled:

"AN ACT Relating to penalties for engaging in the commercial sexual abuse of minors."

The language establishing funding priorities for the Prostitution Prevention and Intervention Account (Account) in sections 15 and 16 could present technical challenges if funding is ever appropriated for the specific purposes. The Account was created in 1995 and has had very little historical activity. Funding is not provided in either this legislation or in the legislative budget. The Legislature could provide specific direction when or if specific funding is ever provided.

For these reasons, I have vetoed Sections 15 and 16 of Substitute Senate Bill No. 5718.

With the exception of Sections 15 and 16, Substitute Senate Bill No. 5718 is approved.

ENGROSSED SUBSTITUTE SENATE BILL NO. 5774

May 8, 2007

To the Honorable President and Members,
The Senate of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Sections 6 and 7, Engrossed Substitute Senate Bill No. 5774 entitled:

"AN ACT Relating to revising background check processes."

Sections 6 and 7 of this bill establishes a work group, to be convened by the Department of Social and Health Services. The work group's responsibilities include reviewing current laws, rules and practices with respect to sharing confidential information, analyzing how state agencies use background check information to make employment decisions, and examining the need for and feasibility of verifying citizenship or immigration status of persons for whom background checks are required. The work group is to complete an interim report by December 1, 2007, and provide a final report to the Legislature and the Governor by July 1, 2008. The duties of this work group would be redundant with the work completed by the Joint Task Force on Criminal Background Check Processes, which ended two and a half years of work last December.

Furthermore, the 2007-2009 operating budget as passed by the Legislature does not contain funding to support the operations of the contemplated work group.

For these reasons, I have vetoed Sections 6 and 7 of Engrossed Substitute Senate Bill No. 5774.

With the exception of Sections 6 and 7, Engrossed Substitute Senate Bill No. 5774 is approved.

MESSAGE FROM THE GOVERNOR
PARTIAL VETO ON ENGROSSED SUBSTITUTE SENATE BILL NO. 6023

May 8, 2007

To the Honorable President and Members
The Senate of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Sections 9, 10, 11 and 13, Engrossed Substitute Senate Bill No. 6023 entitled:

"AN ACT Relating to the Washington assessment of student learning."

Sections 1 through 7 of this bill provide for the adjustment of high school assessment provisions related to state high school graduation requirements. These include specific changes related to mathematics and science, as well as the addition of several alternative assessments and modifications of two other alternative assessments. Section 8 expands the provision of diagnostic assessments to assist students in developing the skills required to be demonstrated on state assessments. Section 12 creates an advisory committee to identify curricula that will assist in preparing students for the state assessment system.

Section 9 of this bill directs the State Board of Education, in consultation with the Superintendent of Public Instruction, to study, examine and recommend changes to the high school assessments in mathematics and science, focusing on replacement of the current assessments with specifically identified end-of-course assessments. The study's recommendation topics and timelines are structured to point to implementing end-of-course assessments as the predetermined outcome. For this reason, I am vetoing Section 9.

However, I am well aware of the strong legislative interest in this subject, specifically related to mathematics and science assessments. I have asked the State Board of Education to conduct a broad, objective study of end-of-course assessments. In the course of this study they will examine the various end-of-course assessment systems used by other states; their purposes; the subjects assessed and how they align with state standards, curriculum, and instruction; whether the exams are used singly or in combination with other assessments for graduation decision purposes; how the exams integrate with an entire assessment system (all grades and subject); implementation issues; costs and lessons learned. Additionally, OSPI will ask potential test vendors to provide information regarding cost and technical aspects of implementing end-of-course assessments and that information will be shared with the State Board. The State Board of Education will provide recommendations based upon their study and present the study information and recommendations by January 15, 2008.

Section 10 of this bill provides for the implementation of appeals panels in each education service district for students who have not been successful in meeting state standards through the high school assessment system. The appeals criteria specified in the legislation does not relate to the student's knowledge and skill of the state standards. Therefore, I do not support this activity. Additionally, I am concerned that such a system will not yield consistent results from appeals board to appeals board.

Section 11 of this bill sets forth the threshold for student English skills required for participation in the state assessment system, with the exception that meeting standards through the state assessment system remains a requirement for high school graduation. However, in practice, the provision of excusing students from the assessments has no effect since the federal statute sets requirements for student participation for federal accountability purposes. When the federal statutes are changed, state participation requirements will be adjusted. While this provision is well-meaning, having it in statute will be confusing to students and parents.

Section 13 of this bill is an emergency clause. I am vetoing Section 13, as the issues in this legislation do not rise to the level of an emergency that requires the immediate revision of state laws.

For these reasons, I have vetoed Sections 9, 10, 11 and 13 of Engrossed Substitute Senate Bill No. 6023.

With the exception of Sections 9, 10, 11 and 13, Engrossed Substitute Senate Bill No. 6023 is approved.

Respectfully submitted,
CHRISTINE O. GREGOIRE, Governor

MESSAGE FROM THE GOVERNOR
PARTIAL VETO ON ENGROSSED SECOND SUBSTITUTE SENATE BILL NO. 5841

May 9, 2007

To the Honorable President and Members,
The Senate of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Sections 6 and 7, Engrossed Second Substitute Senate Bill No. 5841 entitled:

"AN ACT Relating to enhancing student learning opportunities and student achievement."

Sections 1 through 5 of this bill addresses changes to the basic education act goals and authorizes new programs to further student learning opportunities. Specifically, all day kindergarten, primary grade foundational programs, English language learners, and community learning opportunities are addressed. Each of the new programs are provided with implementing resources in the biennial operating budget.

Sections 6 and 7 of the bill, however, cannot be implemented. Those sections create a new career pathways program and a world languages supervisor within the Office of the Superintendent of Public Instruction (OSPI). Neither the program nor the OSPI supervisor were provided with financial support in the biennial operating budget. Additionally, a proposed duty supervisor to implement memoranda of understanding with ministries of education in other countries and conduct other related activities raises concerns about proper international relations protocol.

For these reasons, I have vetoed Sections 6 and 7 of Engrossed Second Substitute Senate Bill No. 5841.

With the exception of Section 6 and 7, Engrossed Second Substitute Senate Bill No. 5841 is approved.

Respectfully submitted,
CHRISTINE O. GREGOIRE, Governor

PARTIAL VETO ON SECOND SUBSTITUTE SENATE BILL NO. 5955

May 9, 2007

To the Honorable President and Members,
The Senate of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Sections 3 through 6, Second Substitute Senate Bill No. 5955 entitled:

"AN ACT Relating to educator preparation, professional development, and compensation."

Sections 3 through 6 of this bill provide for the creation of a math, science and targeted secondary reading initiative. Section 3 describes the initiative's tiered support system that provides resources and intervention to schools and districts on a grant basis depending on levels of need. Section 4 outlines specific activities. Section 5 addresses distribution of targeted assistance funds. And, Section 6 identifies certain duties of participating Education School Districts. While provisions of the initiative are well-meaning, no funding was provided for their implementation.

For these reasons, I have vetoed Sections 3 through 6 of Second Substitute Senate Bill No. 5955.

With the exception of Sections 3 through 6, Second Substitute Senate Bill No. 5955 is approved.

Respectfully submitted,
CHRISTINE O. GREGOIRE, Governor

MESSAGE FROM THE GOVERNOR
PARTIAL VETO ON ENGROSSED SECOND SUBSTITUTE SENATE BILL NO. 6117

May 11, 2007

To the Honorable President and Members,
The Senate of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Section 4, Engrossed Second Substitute Senate Bill No. 6117 entitled:

"AN ACT Relating to reclaimed water."

Section 4 of this bill would establish procedures for determining when a water reuse project would impair existing water rights, and would change the standard for mitigating any such impairment. Based on legal advice, I believe this section could have unintended consequences to existing water rights. The remainder of Section 4 of the bill would also create a new task force to address the state's water reuse program including water right impairment issues.

I have vetoed Section 4 of Engrossed Second Substitute Senate Bill No. 6117 because of that portion of it that changes the standard for mitigating impairment of existing water rights.

Section 3 of the bill establishes new requirements for considering reclaimed water during watershed planning and land use decisions, which will eventually need to be harmonized with other statutes in order to ensure effective implementation. I believe this work is still needed and important to accomplish. Accordingly, I am directing the Department of Ecology to work with legislative leadership to address water right impairment from water reuse projects, reclaimed water planning and other issues raised in Sections 3 and 4 of the bill and to provide a report and recommendations to the Governor and appropriate standing committees of the legislature by December 31, 2007.

With the exception of Section 4, Engrossed Second Substitute Senate Bill No. 6117 is approved.

Respectfully submitted,
CHRISTINE O. GREGOIRE, Governor

MESSAGE FROM THE GOVERNOR
PARTIAL VETO ON SECOND SUBSTITUTE SENATE BILL NO. 5790

May 14, 2007

To the Honorable President and Members,
The Senate of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Section 8, Second Substitute Senate Bill No. 5790 entitled:

"AN ACT Relating to skill centers."

Sections 1 through 7 of this bill provide for further development of skill center programs, program access for additional students, state level coordination of the skill center program, and a funding formula for the programs.

Section 8 of this bill amends RCW 84.52.068, which specifies the amount of property tax revenues deposited into the Student Achievement Account. The Superintendent of Public Instruction is directed to ensure that skill centers receive moneys generated by skill center students.

The Student Achievement Fund was created by Initiative 728 in 2000. School districts receive allocations from this fund based on the number of students enrolled in the district. The amount to be allocated per student is specified in RCW 28A. 505.220. One source of funding for this allocation is a deposit of state property tax revenues. RCW 84.52.068 specifies the amount of property tax revenues per student to deposit into the Student Achievement Fund. Because the property tax deposit is less than the total per student allocation from the Student Achievement Fund, other sources of revenue are also used to ensure full funding for the allocations.

Although the intent of Section 8 is to ensure that skill centers receive their share of the total Student Achievement Fund allocation, the provision relates to the property tax deposit only. The language of the section therefore fails to accomplish its intended goal.

For this reason, I have vetoed Section 8 of Second Substitute Senate Bill No. 5790.

With the exception of Section 8, Second Substitute Senate Bill No. 5790 is approved.

Respectfully submitted,
CHRISTINE O. GREGOIRE, Governor

MESSAGE FROM THE GOVERNOR
PARTIAL VETO ON SENATE BILL NO. 5272

May 15, 2007

To the Honorable President and Members,
The Senate of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Section 7, Senate Bill No. 5272 entitled:

"AN ACT Relating to the administration of fuel taxes."

This bill eliminates current statutory language from state motor vehicle and special fuel tax statutes declaring that motor vehicle and special fuel taxes are imposed on the end user. It also authorizes the Governor, or the gubernatorial designee, to enter into fuel tax compact agreements with federally recognized tribes operating or licensing retail stations on reservations or trust lands.

Section 7 of the bill limits the handling loss for fuel to licensed suppliers and licensed importers. Without Section 7, fuel distributors retain the handling loss that had been available to them prior to the passage of this legislation. The handling loss allowance is provided as an offset for evaporation and shrinkage that occurs in the transfer of fuel from the terminal racks to fuel tank trucks.

For these reasons, I have vetoed Section 7 of Senate Bill No. 5272.

With the exception of Section 7, Senate Bill No. 5272 is approved.

Respectfully submitted,
CHRISTINE O. GREGOIRE, Governor

MESSAGE FROM THE GOVERNOR
PARTIAL VETO ON ENGROSSED SUBSTITUTE SENATE BILL NO. 6099

May 15, 2007

To the Honorable President and Members,
The Senate of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Sections 4 and 5, Engrossed Substitute Senate Bill No. 6099 entitled:

"AN ACT Relating to the state route number 520 bridge replacement and HOV project."

This bill is an important step in making progress on the replacement of the State Route 520 bridge. The bill declares that the bridge should be replaced with four general purpose lanes and two high occupancy vehicle lanes. It also creates a mediation process for resolving concerns regarding community impact caused by the bridge replacement.

Section 4 of this bill permits the project's mediator to ask an engineering firm to conduct an independent review of tubes and tunnels under Lake Washington, a partial tunnel from Interstate 5 to the west end of the SR 520 bridge, and a proposal to move SR 520 from its current alignment through the Arboretum. The bill requires that the mediator submit a report to the Joint Transportation Committee and the Governor regarding the results of the independent review by September 1, 2007.

I have decided to veto Section 4 due to the permissive nature of the bill language and the insufficient amount of time available to conduct the independent design review. Instead, the contract for the mediator will require the mediator to ask an engineering firm to conduct an independent review of the three alternative designs for the project, rather than simply permitting the mediator to conduct the review. Additionally, the contract will require completing of the independent review by December 1, 2007. Mandating the review while providing additional time for the work will provide sufficient time for an engineering firm to perform a thorough review of the proposed alternative designs.

Section 5 of the legislation prohibits any on-site construction of the SR520 project. This section has good intentions, but could inadvertently prevent the Department of Transportation (Department) from moving forward on projects outside of the actual bridge replacement. While I have vetoed Section 5, I am directing the Department not to commence any bridge construction until the mitigation and finance plans are submitted to the Governor and Legislature by 2008.

For these reasons, I have vetoed Sections 4 and 5 of Engrossed Substitute Senate Bill No. 6099.

With the exception of Sections 4 and 5, Engrossed Substitute Senate Bill No. 6099 is approved.

Respectfully submitted,
CHRISTINE O. GREGOIRE, Governor

MESSAGE FROM THE GOVERNOR
SUBSTITUTE SENATE BILL NO. 6156

May 15, 2007

To the Honorable President and Members,
The Senate of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Sections 1 and 2, Substitute Senate Bill No. 6156 entitled:

"AN ACT Relating to State Government."

This bill allows for the creation of Community Preservation and Development Authorities, specifically creates a Pioneer Square-International District Community Preservation and Development Authority within the city of Seattle, and establishes a method for creating additional such authorities. I strongly support the efforts of local communities to influence development of their own areas and believe this is one good way to accomplish that.

Sections 1 and 2 provide the legislative intent and findings in addition to the definitions for this act. I am concerned that these sections of the bill are overly broad and may lead to unintended consequences regarding public projects across our state. I do not believe that vetoing these sections will in any way hinder the creation of the Pioneer Square-International District Community Preservation and Development Authority provided for in Section 8. If the Legislature chooses to revisit this legislation with an eye toward expanding it beyond the Pioneer Square-International District Community Preservation and Development Authority, then I will work with interested members of the Legislature to improve this act.

For these reasons, I have vetoed Sections 1 and 2 of Substitute Senate Bill No. 6156.

With the exception of Sections 1 and 2, Substitute Senate Bill No. 6156 is approved.

Respectfully submitted,
CHRISTINE O. GREGOIRE, Governor
