(1) In addition to the coverage provided in RCW 51.16.250, death benefits shall be payable in accordance with RCW 51.32.050 when a transportation network company driver's death results from an injury occurring while the driver is:

(a) Logged onto the transportation network company's digital network as available for work;

(b) Physically inside the transportation network company driver's vehicle or within the immediate proximity of the transportation network company driver's vehicle; and

(c) Not otherwise covered by this title.

(2) As applicable, for the purposes of this section, the definitions in RCW 49.46.300 apply.

(3) For the purposes of this section, the applicable statute of limitations begins upon the driver's death.

(4) The department may adopt rules to implement this section.

**Sec. 2.** RCW 51.16.250 and 2022 c 281 s 11 are each amended to read as follows:

(1) Beginning January 1, 2023, the department shall assess premiums for transportation network companies, as defined in RCW 49.46.300, in accordance with RCW 51.16.035 and this section, for workers' compensation coverage applicable to drivers, as defined in RCW 49.46.300, while the driver is engaged in passenger platform time and dispatch platform time, as those terms are defined in RCW 49.46.300.

(2) For the purposes of calculating the premium for drivers under subsection (1) of this section, the department shall multiply the total number of hours spent by drivers in passenger platform time and dispatch platform time on the transportation network company's driver platform by the rates established for taxicab companies. The department may subsequently adjust premiums in accordance with department rules.

(3) For a death that is covered under section 1 of this act, the cost of the benefits must be included in the consideration of rate increases for the risk class and not attributed to a single transportation network company. Such cost shall not be included in the calculation of any individual transportation network

The sufficiency of such statement shall be subject to the approval of the director: PROVIDED, That the director may in his or her discretion and for the effective administration of this title require a transportation network company in individual instances to furnish a supplementary report containing the name of each individual driver, his or her hours engaged in passenger platform time and dispatch platform time on the transportation network company's driver platform, and his or her compensation: PROVIDED FURTHER, That the department may promulgate rules and regulations in accordance with chapter 34.05 RCW to establish other reporting periods and payment due dates in lieu of reports and payments following each calendar quarter, and may also establish terms and conditions for payment of premiums and assessments based on estimated passenger platform time and dispatch platform time on the transportation network company's driver platform, with such payments being subject to approval as to sufficiency of the estimated passenger platform time and dispatch platform time on the transportation network company's driver platform by the department, and also subject to appropriate periodic adjustments made by the department based on actual passenger platform time and dispatch platform time on the transportation network company's driver platform.

~~((4))~~ (5) The department may adopt rules to carry out the purposes of this section, including rules providing for alternative reporting requirements.

~~((5))~~ (6) This section does not apply to any worker who is not a driver, and who is employed by the transportation network company. For those workers the processes for determining coverage, calculating premiums, reporting requirements, reporting periods, and payment due dates are subject to the provisions of this title that apply generally to employers and workers.

NEW SECTION. Sec. 3. financial resources to address its many challenges and that community members and businesses may want to offer their help in partnership with the state for the removal of fish barriers that are on lands owned by state or local governments. The legislature also finds that it is desirable to coordinate any such private donations with existing fish barrier removal projects on lands owned by state or local governments.

Therefore, the legislature intends to facilitate the removal of fish barriers on lands owned by state or local governments by creating the adopt a fish passage program through which state or local governments may receive such donations and to acknowledge project donors through appropriate public signage.

**NEW SECTION. Sec. 2.** A new section is added to chapter 77.95 RCW to read as follows:

(1) The Washington state department of transportation and every county, city, and town may accept any money or property donated, devised, or bequeathed to it that is donated for the purpose of fish barrier removal. The Washington state department of transportation and local governments may determine the value of any property donated, devised, or bequeathed for the purpose of recognizing fish barrier removal donations in this section.

(2) Subject to subsection (3) of this section, and upon completion of the related project, the Washington state department of transportation, counties, cities, and towns receiving donations for removing a fish barrier must install a clearly marked sign that acknowledges the individual donors and that is consistent with the requirements of RCW 47.40.105.

(3) Signs installed under subsection (2) of this section must be of a uniform design approved by the recreation and conservation office and may only include the words "adopt-a-fish passage," the names of project donors, and the species of fish affected by the project. Signage is also subject to the following limitations:

(a) The donor's name may not be displayed more predominantly than the remainder of the sign message.

(b) Trademarks or business logos may be displayed.

(c) To the extent that the Washington state department of transportation and local governments determine that the number of donors for individual projects would interfere with the signage requirements of subsection (2) of this section or the requirements of RCW 47.40.105, the Washington state department of transportation and local governments may determine the number of donors listed on signs but must endeavor to recognize the donors that provide the largest donations.

(d) The Washington state department of transportation and local governments receiving private donations under this section must only install signage pursuant to this section for individual donations that are equal in value to at least \$10,000.

(e) Notwithstanding other provisions of this subsection, a donor is not eligible to have their name displayed on the sign if the applicant's name: (i) Endorses or opposes a particular candidate for public office; (ii) advocates a position on a specific political issue, initiative, referendum, or piece of legislation; (iii) includes a reference to a political party; or (iv) includes a reference to anything that may be considered or construed to be obscene or offensive to the general public.

(4) To the extent feasible and with the goal of expediting fish barrier removals, the Washington state department of transportation, counties, cities, and towns receiving donations under this section must coordinate donations with any grant applications made for state grant funding for fish barrier removal pursuant to RCW 77.95.170. The recreation and conservation office must publish and maintain a list of fish barrier removal projects that are suited to receiving private donations pursuant to this section. Donations received under this section are eligible for use as match for other funding sources, including state and federal grants.

(5) Upon completion of a project funded with private donations pursuant to this section, the Washington state department of transportation or local government that owns the completed project must notify the recreation and conservation office. Upon receiving such a notification, the recreation and conservation office must gather information regarding the project sponsors, location, fish species affected, and the amounts of individual donations that supported the project. The recreation and conservation office must publish and maintain this information with the project list under subsection (4) of this section.

(6) For each individual donation equal to at least \$100,000 in value pursuant to this section, the recreation and conservation office must provide to the donor a recognition plaque that meets the following criteria: (a) The plaque must be signed by the governor; and (b) the plaque must include the name of the donor, the words "adopt-a-fish passage program," the location and name of the project funded, the amount and year of the donation, and the fish species affected.

**Sec. 3.** RCW 47.40.105 and 1990 c 258 s 3 are each amended to read as follows:

Local government legislative authorities may enact local "adopt-a-highway sign" and "adopt-a-fish passage" programs which are not inconsistent with state or federal law.

**NEW SECTION. Sec. 4.** A new section is added to chapter 47.40 RCW to read as follows:

(a) Continuing education provider status may be revoked for providers that meet any of the following criteria:

(i) Providers that receive a substantial number of complaints filed against the provider, as determined by the board;

(ii) Providers found to not be in substantial compliance with RCW 28A.410.277; or

(iii) Providers found to offer course material that is not in substantial alignment with the cultural competency, diversity, equity, and inclusion standards of practices adopted in RCW 28A.410.260, as determined by the board.

(b) Entities authorized to submit a complaint under this section are limited to the following:

- (i) Educators;
- (ii) Local education agencies;

- (viii) Labor organizations representing teachers.

(2) By December 1, 2024, the professional educator standards board in consultation with the office of the superintendent of public instruction must submit to the relevant committees of the legislature a report on how to implement an auditing system of continuing education providers and other recommendations for improving the clock hour system.

(3) For the purposes of this section, "approved provider" and "provider" have the same meaning as "approved in-service education agency" in WAC 181-85-045, but apply only to providers of administrator or teacher continuing education programs focused on either equity-based school practices or the national professional standards for education leaders."

On page 1, line 5 of the title, after "teachers;" strike the remainder of the title and insert "amending RCW 28A.410.277; and adding a new section to chapter 28A.410 RCW."

Providing capital financial assistance to small school districts with demonstrated funding challenges.

The measure was read the second time.

#### MOTION

Senator Wellman moved that the following committee striking amendment by the Committee on Ways & Means be adopted:

Strike everything after the enacting clause and insert the following:

"**NEW SECTION. Sec. 1.** The legislature intends to create a new grant program through which small, financially distressed school districts that generally do not participate in the current school construction assistance program will be able to get the

2024 REGULAR SESSION

necessary funds to modernize or rebuild their school buildings.

**NEW SECTION. Sec. 2.** A new section is added to chapter 28A.525 RCW to read as follows:

(1) Supplementary modernization and new construction grants and planning grants for financially distressed school districts must be awarded and determined in accordance with this section.

(2) Applicant eligibility criteria. Subject to subsection (4) of this section, only school districts that have a student headcount enrollment of 1,000 students or fewer are eligible for grants under this section.

(3) Project eligibility criteria.

(a) Projects funded under this section must meet the following conditions: (i) Projects must comprehensively modernize or replace instructional buildings that are at least 30 years old and that are recorded as poor or unsatisfactory condition by the office of the superintendent of public instruction; and (ii) projects must not exceed 110 percent of the statewide average cost per square foot for new construction or modernization, as applicable, and as estimated by the advisory committee and approved by the office of the superintendent of public instruction.

(b) To meet the project eligibility criteria for comprehensive modernization specified under (a) of this subsection, projects must correct critical physical deficiencies and essential safety concerns, including: (i) Seismic vulnerabilities; (ii) failing or broken building and site systems; (iii) deficiencies of infrastructure and components; (iv) barriers to program accessibility; (v) deteriorated exterior conditions; and (vi) deficiencies in interior classroom spaces. Project approaches may include modernizing, repairing, reconfiguring, or replacing existing buildings, constructing new buildings, and upgrading deteriorated and outdated site infrastructure.

(c) School districts applying for a grant under this section must submit separate applications for each individual school.

(4) Other eligibility criteria. School districts with incomplete or outdated building inventories, natural hazard assessments, and condition information as required by the office of the superintendent of public instruction are not eligible to apply for construction grants under this section but may apply for planning grants. Building inventory and condition information must be provided by an independent consultant certified by the office of the superintendent of public instruction. A seismic building assessment must be conducted by an engineer licensed as a structural engineer in Washington state.

(5) Eligible use of grants. A grant awarded pursuant to this section may only be used for the following purposes: (a) The collection of the required information in subsection (4) of this section; (b) all pre-design and design costs including value engineering and constructability review; and (c) all related costs associated with the project except school district administration costs as determined by the office of the superintendent of public instruction.

(6) Required grant list.

(a) The superintendent of public instruction must propose a list of prioritized planning and construction grants pursuant to this section for school districts meeting the eligibility requirements established in subsection (2) of this section to the governor by September 1st of even-numbered years, beginning on September 1, 2024. This list must include: (i) A description of the proposed project; (ii) the proposed planning grant amount, when applicable; (iii) the proposed construction grant amount, when applicable; (iv) the anticipated school construction assistance program amount; (v) the anticipated local share of project cost; and (vi) the estimated total project cost.

(b) The superintendent of public instruction and the governor may determine the level of funding in their omnibus capital

appropriations act requests to support grants under this section, but their funding requests must follow the prioritized list prepared by the advisory committee unless new information determines that a specific project is no longer viable as proposed.

(7) Planning grant requirements and prioritization. Subject to the availability of amounts appropriated for this specific purpose, the office of the superintendent of public instruction must assist eligible school districts that are interested in applying for a construction grant under this section by providing technical assistance and planning grants. School districts seeking planning grants under this section must provide a brief statement describing existing school conditions, building system and site deficiencies, current and five-year projected student headcount enrollment, student achievement measures, and financial constraints. If applications for planning grants exceed funds available, the office of the superintendent of public instruction may prioritize planning grant requests with primary consideration given to school district financial capacity and facility conditions.

(8) Construction grant requirements and prioritization.

(a) School districts applying for a construction grant under this section must have received and completed a planning grant under subsection (7) of this section or have completed construction documents including drawings, specifications, total project cost estimates, contract and procurement requirements, and other materials required by the advisory committee, as part of the construction grant application process.

(b) Subject to the availability of amounts appropriated for this specific purpose, the advisory committee must prioritize applications from school districts with the lowest remaining debt capacity, most significant building deficiencies, and lowest headcount enrollment. The advisory committee may weigh these factors as appropriate given the pool of applicants and the extent each factor deviates from the statewide average.

(9) Eligibility and prioritization recommendations. The advisory committee may propose changes to the eligibility threshold and grant application prioritization criteria to the legislature as they learn more about the characteristics of school districts that are unable to replace or modernize their aging school facilities.

(10) Share of project costs. School districts receiving a grant under this section must provide a district share in accordance with the following requirements:

(a) Except as provided for under (b) and (c) of this subsection, to receive a grant under this section a school district must provide, for each grant awarded, a district share of project cost equal to at least 50 percent of the district's remaining debt capacity pursuant to RCW 39.36.020.

(b) To the extent that the district share requirement under (a) of this subsection would, at the time of application, require the estimated school district property tax rate increment associated with the grant to exceed a threshold of \$1.75 per \$1,000 of assessed property value, the office of the superintendent of public instruction must reduce the required district share to achieve an estimated property tax rate equal to this threshold.

(c) A school district may use federal funding, other nonstate grant funding, and private donations to pay for its share under this subsection. When calculating a district's share requirement under (a) of this subsection, the superintendent of public instruction must reduce the district's required share in a manner directly proportionate to the amount of nonstate and nonschool district funding provided to support the state grant.

(d) To determine the property tax rate threshold under (b) of this subsection, the office of the superintendent of public instruction must calculate the property tax rate increment associated with the grant based on the estimated annualized debt

service costs for general obligation bonds issued with an average maturity of no less than 20 years and the interest rate for state of Washington general obligation bonds issued most closely to the date of application for the grant.

(11) Coordination with the school construction assistance program and local cost share. To the extent that a school district awarded a grant under this section is also eligible for funding under the school construction assistance program provided by RCW 28A.525.162 through 28A.525.180, the office of the superintendent of public instruction must coordinate grant funding between the programs and ensure that total state funding from a grant under this section and a school construction assistance program grant does not exceed total project costs minus the school district's share calculated under subsection (10) of this section. School districts that receive grants under this section may use the grant to fund the required local funding equal to or greater than the difference between the total approved project cost and the amount of state funding assistance computed provided by RCW 28A.525.162 through 28A.525.180. However, school districts coordinating grants provided in this section with school construction assistance program funding are required to contribute not less than the school district's required share as calculated under subsection (10) of this section.

(12) Disbursement of grant funds and reporting requirements. The office of the superintendent of public instruction must award grants under this section to school districts. The grants must not be awarded until the recipient has identified available local and other resources sufficient to complete the approved project considering the amount of state grant funding. The grant must specify reporting requirements for the district and must include:

(a) Updating all school inventory and condition data considered necessary by the office of the superintendent of public instruction;

(b) Submitting a final project report as specified by the office of the superintendent of public instruction in consultation with the advisory committee and approved by the school facilities citizen advisory panel created under RCW 28A.525.025; and

(c) Implementing and maintaining an asset preservation program for the facility receiving grant funding as required by the office of the superintendent of public instruction's asset preservation program.

(13) For the purposes of this section, "advisory committee" means the advisory committee created under RCW 28A.525.159.

**Sec. 3.** RCW 28A.525.159 and 2020 c 299 s 1 are each amended to read as follows:

(1) School construction assistance program grants for small school districts and state-tribal education compact schools must be determined in accordance with this section.

(2) Eligibility. School districts and state-tribal education compact schools with enrollments that are less than or equal to one thousand students are eligible for small school district modernization grants. The advisory committee specified in subsection (4)(a) of this section may recommend amendments to the eligibility threshold as they learn more about the characteristics of school districts and state-tribal education compact schools that are unable to modernize their aging school facilities. Districts with incomplete information in the inventory and condition of schools data system are not eligible to apply for construction grants but may apply for planning grants.

(3) The office of the superintendent of public instruction must assist eligible school districts and state-tribal education compact schools that are interested in applying for a small school district modernization grant under this section by providing technical assistance and planning grants within appropriations for this purpose. Districts and state-tribal education compact schools seeking planning grants must provide a brief statement of the school condition, its deficiencies, student enrollment, student

achievement measures, and financial limitations of the district or state-tribal education compact school. If applications for planning grants exceed funds available, the office of the superintendent of public instruction may prioritize the recipients of planning grants in order to help districts and state-tribal education compact schools with the most serious apparent building deficiencies, and the most limited financial capacity.

(4) Prioritized construction grants and advisory committee.

(a) The superintendent of public instruction must propose a list of prioritized grants to the governor by September 1st of even-numbered years. The superintendent of public instruction must appoint an advisory committee to separately prioritize applications from small school districts and state-tribal education compact schools and from financially distressed school districts for grants under section 2 of this act. Committee members must have experience in financing, managing, repairing, and improving school facilities in small school districts or state-tribal education compact schools but must not be involved in ~~((a small school district modernization program))~~ grant request under this section or section 2 of this act for the biennium under consideration. The office of the superintendent of public instruction must provide administrative and staff support to the ~~((advisory))~~ advisory committee and coordinate activities to minimize costs to the extent practicable. The office of the superintendent of public instruction in consultation with the advisory committee must design a grant application process with specific criteria for prioritizing grant requests.

(b) The advisory committee created in (a) of this subsection must evaluate final applications from eligible school districts and state-tribal education compact schools. The advisory committee must submit a prioritized list of grants to the superintendent of public instruction. The list must prioritize applications to achieve the greatest improvement of school facilities, in the districts and state-tribal education compact schools with the most limited financial capacity, for projects that are likely to improve student health, safety, and academic performance for the largest number of students for the amount of state grant support. The advisory committee must develop specific criteria to achieve the prioritization. The submitted prioritized list must describe the project, the proposed state funding level, and the estimated total project cost including other funding and in-kind resources. The list must also indicate student achievement measures that will be used to evaluate the benefits of the project. The superintendent of public instruction and the governor may determine the level of funding in their omnibus capital appropriations act requests to support small school district modernization grants, but their funding requests must follow the prioritized list prepared by the advisory committee unless new information determines that a specific project is no longer viable as proposed.

(5) Coordination with the school construction assistance program.

(a) The full administrative and procedural process of school construction assistance program funding under RCW 28A.525.162 through 28A.525.180 may be streamlined by the office of the superintendent of public instruction in order to coordinate eligible school construction assistance program funding with the small school district modernization grants. Such coordination must ensure that total state funding from both grants does not exceed total project costs minus available local resources.

(b) Projects seeking small school district modernization grants must meet the requirements for a school construction assistance program grant except for the following: (i) The estimated cost of the project may be less than forty percent of the estimated replacement value of the facility, and (ii) local funding assistance percentage requirements of the school construction assistance

FIFTY SECOND DAY, FEBRUARY 28, 2024

2024 REGULAR SESSION

program do not apply. However, available district and state-tribal education compact school resources are considered in prioritizing small school district modernization grants.

(6) Disbursement of grant funds and reporting requirements. The office of the superintendent of public instruction must award grants to school districts and state-tribal education compact schools. The grant must not be awarded until the district or state-tribal education compact school has identified available local and other resources sufficient to complete the approved project considering the amount of the state grant. The grant must specify reporting requirements from the district or state-tribal education compact school, which must include updating all pertinent information in the inventory and condition of schools data system and submitting a final project report as specified by the office of the superintendent of public instruction in consultation with the school facilities ~~((citizens [citizen]))~~ citizen advisory panel specified in RCW 28A.525.025.

**Sec. 4.** RCW 28A.515.320 and 2023 c 470 s 2006 are each amended to read as follows:

(1) The common school construction fund is to be used exclusively for the purpose of financing the construction of facilities for the common schools. The sources of said fund shall be: ~~((+))~~ (a) Those proceeds derived from sale or appropriation of timber and other crops from school and state land other than those granted for specific purposes; ~~((2))~~ (b) the interest accruing on the permanent common school fund less the allocations to the state treasurer's service fund pursuant to RCW 43.08.190 and the state investment board expense account pursuant to RCW 43.33A.160 together with all rentals and other revenue derived therefrom and from land and other property devoted to the permanent common school fund; ~~((3))~~ (c) all moneys received by the state from the United States under the provisions of section 191, Title 30, United States Code, Annotated, and under section 810, chapter 12, Title 16, (Conservation), United States Code, Annotated, except moneys received before June 30, 2001, and when thirty megawatts of geothermal power is certified as commercially available by the receiving utilities and the department of commerce, eighty percent of such moneys, under the Geothermal Steam Act of 1970 pursuant to RCW 43.140.030; and ~~((4))~~ (d) such other sources as the legislature may direct. That portion of the common school construction fund derived from interest on the permanent common school fund may be used to retire such bonds as may be authorized by law for the purpose of financing the construction of facilities for the common schools.

(2) The interest accruing on the permanent common school fund less the allocations to the state treasurer's service fund pursuant to RCW 43.08.190 and the state investment board expense account pursuant to RCW 43.33A.160 together with all rentals and other revenues accruing thereto pursuant to subsection ~~((2))~~ (1)(b) of this section prior to July 1, 1967, shall be exclusively applied to the current use of the common schools.

(3) To the extent that the moneys in the common school construction fund are in excess of the amount necessary to allow fulfillment of the purpose of said fund, the excess shall be available for deposit to the credit of the permanent common school fund or available for the current use of the common schools, as the legislature may direct. Any money from the common school construction fund which is made available for the current use of the common schools shall be restored to the fund by appropriation, including interest income forgone, before the end of the next fiscal biennium following such use.

(4) Appropriations for the small school districts project prioritized list submitted under RCW 28A.525.159 are the first priority of appropriations from the common school construction

fund, after payment of principal and interest on the bonds authorized in RCW 28A.527.040 from that portion of the common school construction fund derived from interest on the permanent common school fund. Appropriations from the common school construction fund must be prioritized as follows, as fund balance allows:

(a) Beginning with appropriations enacted for the 2025-2027 fiscal biennium, no less than \$60,000,000 of new appropriations in the biennial capital budget must be used to fund the small school districts project prioritized list, and any remaining amounts in the common school construction fund may be appropriated for other common school construction purposes.

(b) Beginning with appropriations enacted for the 2027-2029 fiscal biennium, no less than \$70,000,000 of new appropriations in the biennial capital budget must be used to fund the small school districts project prioritized list, and any remaining amounts in the common school construction fund may be appropriated for other common school construction purposes.

(c) Beginning with appropriations enacted for the 2029-2031 fiscal biennium and each biennium thereafter, no less than \$80,000,000 of new appropriations in the biennial capital budget must be used to fund the small school districts project prioritized list, and any remaining amounts in the common school construction fund may be appropriated for other common school construction purposes."

On page 1, line 2 of the title, after "challenges;" strike the remainder of the title and insert "amending RCW 28A.525.159 and 28A.515.320; adding a new section to chapter 28A.525 RCW; and creating a new section."
