I am also signing Part VI dealing with technical assistance in its entirety. These provisions will encourage cooperative relationships between agencies and the regulated community. It has always been my firm belief that people will comply with the rules as long as they understand them, and these provisions will make it easier to know how to comply.

I am also signing sections 901 through 905 which allow the recovery of reasonable attorney's fees from the state. The purpose of these sections is to allow individuals and small businesses access to the courts to challenge agency actions by authorizing courts to award attorney's fees when agency actions are successfully challenged. I believe it is important to allow access to our judicial system for those who may not have the necessary financial resources. I am concerned, however, that these provisions, in combination with the rule adoption criteria process in section 201, may create a significant incentive to challenge agency rules and other agency actions in the hope of recovering attorney's fees. These challenges are likely to be fought out over procedural issues rather than policy issues, and the potential fiscal impact of these provisions are significant. This will have to be monitored over time to determine the effects of these sections.

I am signing provisions establishing a process for an appeal to the governor if an agency refuses to begin rule making proceedings, for a streamlined rule repeal process, and for simplification of rule making for less significant rules.

I am also signing provisions directing the Department of Licensing to establish pilot programs on combined state and local business licensing. This provision is real regulatory reform. These pilot programs will assist businesses in obtaining permits and licenses from multiple jurisdictions, thus addressing one of the major complaints of both small and large businesses.

I am signing section 802 which changes the standard of judicial review of agency rules from the current standard that the rule "could not conceivably have been the product of a rational decision maker" to "arbitrary and capricious." This appears to be consistent with the Washington Supreme Court decision in Neah Bay Chamber of commerce v. Department of Fisheries, 119 W. 2d 464 (1992). There is some language in the intent section that indicates that a different standard of review was intended. Consistent with the rationale of the Part I grants of authority sections, in which agencies are prohibited from relying on intent statements to develop substantive regulatory programs, the legislature cannot create a different standard of judicial review in an intent section than the standard created in the substantive section 802. Any other reading would suggest an amendment by reference of RCW 34.05.570. I am, therefore, approving section 802 with

the understanding that the standard for review will be arbitrary and capricious as articulated by the Washington State Supreme Court.

Turning now to other provisions of the bill, Part I concerns the authority of some agencies to adopt rules. Many in the business community and in the legislature complain about the liberty they believe agencies take with their authority to implement legislation. This has led to an effort to modify what are referred to as "broad grants of rule making authority." The task force struggled with this issue and recommended a solution for future legislation. However, it was unable to find a solution for existing statutes that would not lead to unanticipated consequences. This legislation does not avoid those problems.

Upon careful consideration and after consulting with members of the legislature and with others, I have concluded that sections 101-109 and section 111 only limit the authority of an agency to adopt rules when there is no statutory authority, other than an intent section, for an agency to act. If an agency has been given authority to carry out specific statutory directives in a particular area, even though the statute does not provide explicit authority to adopt rules as part of its regulatory scheme, these provisions do not prohibit an agency from adopting rules to implement the legislature's expressed intent that the agency carry out its statutory responsibilities. The language of these sections prohibits agencies from adopting rules solely in reliance on an intent section in combination with the statute establishing the agency. Intent sections should not be used by the agencies or by the legislature as the sole authority to create substantive rules or law.

Section 112 is similar to sections 101-111 except that it contains additional provisions intended to address the issue of prevailing wage. The Department of Labor and Industries' authority to adopt rules governing prevailing wage issues is under attack in the courts. The department is currently in litigation over its authority to adopt rules under the prevailing wage statute. This section includes language indicating it is the intent of the legislature to retain the status quo. This very statement recognizes the possibility that the department's authority is in doubt. This stands to undermine the department's position in ongoing litigation.

Sections 113-116 relate to the authority of the Insurance Commissioner. Unlike the language in sections 101-109 and section 111, these sections directly restrict the commissioner's use of specific rulemaking authority to develop rules. For example, section 115 allows the commissioner to make rules regarding aspects of health care service contractor practices, including the maintenance of adequate insurance and cash deposits. It is the heart of the authority to regulate health care service contractors. The amendment would not allow the commissioner to rely on that section for rulemaking authority. Section 116 is the authority to regulate health maintenance organizations. This language provides that the commissioner may not rely on this specific authority. As I read this, it would leave the commissioner in the position where the commissioner's ability to regulate important aspects of the health insurance industry would be severely compromised. Removing this authority could create significant risk to consumers. Similarly, section 114 provides authority to regulate against unfair and deceptive practices. This is the heart of the commissioner's consumer protection authority. The commissioner must be able to act quickly as new circumstances arise to protect the public. I cannot sign sections that would significantly reduce the ability of the Insurance Commissioner to act for the public good.

It is important to note the difference in the language used in sections 101-111 and in sections 113-116 dealing with the Insurance Commissioner. In the commissioner's sections, the legislature clearly intended to limit the use of the grant of rule making authority. In sections 101-109 and section 111, however, there is no restriction on the use of the general grant of rule making authority in combination with other substantive provisions of law. It is because of this distinction that I am signing sections 101-109 and section 111.

Section 110 dealing with the Forest Practices Board creates problems due to the placement of the proviso language. This section is a specific grant of rule making authority (in the same manner as section 115 related to the Insurance Commissioner). It also contemplates that the board may specifically rely on RCW 76.09.010 which contains specific directives to the board regarding the development of comprehensive

forest practices regulations as the basis for rules. This proviso, as placed, appears to give authority for rule making, then to take it away, then to give it back. It is so ambiguous as to create complete uncertainty for most of the board's regulations.

Section 119 exempts the agencies covered by sections 101 through 116 from the prospective grants of authority requirements of section 118 which apply to all agencies. We must ensure all agencies, including the Department of Labor and Industries, the Insurance Commissioner, and the Forest Practices Board, will be subject to the prospective restrictions on grants of authority in section 118.

It is important to note that the very significant provisions of this bill related to technical assistance, rule adoptions criteria, and judicial review all apply to the Department of Labor and Industries, the Insurance Commissioner and the Forest Practices.

Section 504 gives the Joint Administrative Rules Review Committee (JARRC) the ability, by a majority vote, to establish a rebuttable presumption in judicial proceedings that a rule does not comply with the legislature's intent. The burden of proof to establish that a rule was within legislative intent would be shifted to the agency from the individual challenging the rule. This would mean that 5 legislators out of a total of 147 members could determine legislative intent, regardless of their participation in the policy committees that developed the underlying legislation upon which the rule is based.

I have serious concerns about the constitutionality of section 504. This section violates the provisions of the state constitution which require legislative acts be done by the entire legislature with presentment to the governor for approval. Moreover, this violates the separation of powers doctrine, in that it intrudes unduly into those constitutional powers reserved for the executive and judicial branches of government. This is based primarily on the decision of the United States Supreme Court in Immigration & Naturalization Service v. Chadha, 462 U.S. 919 (1983), and the analysis of the overwhelming majority of state and federal court opinions on the subject.

It is my hope that the legislature will work with all interested parties to develop an alternative model to assure the appropriate legislative, executive, and judicial branch roles in reviewing agency rules. I have signed Engrossed Substitute Senate Bill No. 6037 today which commits to study an independent rules review commission as a possible alternative to JARRC. I intend to work with the legislature in exploring this option. In addition, the legislature retains the right to reject an agency rule through a bill adopted by both the House of Representatives and the Senate which goes to the governor for approval. This is consistent with the inherent constitutional principles concerning the appropriate role of the three branches of government.

There are other provisions relating to JARRC which give me great concern for similar reasons. One is in section 201(5)(a)(ii) which purports to allow JARRC to require any agency rule to be bound by the elaborate rule making criteria in section 201. This is not just for "significant legislative rules," as recommended by the task force, but for any rule. This includes interpretive and procedural rules which are within the unique province of agencies to adopt. However, because this provision is in section 201, I must either veto that entire section or allow this JARRC intrusion into executive branch affairs. I have reluctantly opted for the latter approach, in spite of the unconstitutional nature of this provision.

Section 404 allows JARRC to require agencies to prepare a small business economic impact statement when adopting rules to conform to federal law or regulation. This provision also raises constitutional questions; however, a veto of this section would result in the elimination of the underlying exemption from the automatic requirement for agencies to develop these statements. This would impose an unreasonable burden on state agencies. If JARRC seeks to implement this provision, I trust it will do so with appropriate restraint and with a view toward cooperation with the executive agencies. It is with that understanding, that I am approving this provision.

For these reasons, I have vetoed sections 110, 112, 113, 114, 115, 116, 119, and 504 of Engrossed Substitute House Bill No. 1010.

With the exception of sections 110, 112, 113, 114, 115, 116, 119, and 504, Engrossed Substitute House Bill No. 1010 is approved."

(f) The secretary of social and health services shall assure that any reductions in state grants to recover state payments subsequently reimbursed through federal sources are targeted to those providers at which federal recoveries will actually occur. The report shall be presented so that each quarter of the 1993-95 biennium and the 1991-93 biennium is identified separately, each regional support network is identified separately, costs are identified separately, and each service type is identified separately. Service types shall include at least residential programs, employment programs, and other service types that lead to normalizing activities.

(h) The health services account appropriation is provided solely for services to children eligible for services as a result of the 1994 expansion of medicaid eligibility to two hundred percent of the federal poverty level.

If the waiver request is not approved by the federal health care financing administration, the secretary is authorized to use up to \$18,000,000 of the general fund—state appropriation to develop intermediate care facilities for the mentally retarded, personal care, rehabilitative, and other services reimbursable under medicaid without a waiver of federal rules. The secretary shall report to the ways and means committee of the senate and the appropriations committee of the house of representatives by February 1, 1994, on the outcome of these efforts.

Staff allocations for small school enrollments in grades K-6 shall be the greater of that generated under (a) of this subsection, or under (d) and (e) of this subsection. Certificated staffing allocations shall be as follows:

equivalent students been included in the normal enrollment count for that particular month;

(c) On the basis of full time equivalent enrollment in vocational education programs and skill center programs approved by the superintendent of public instruction, 0.92 certificated instructional staff units and 0.08 certificated administrative staff units for each 16.67 full time equivalent vocational students;

(5) Insurance benefit allocations shall be calculated at the rates specified in section 504 of this act, based on:

(a) The number of certificated staff units determined in subsection (2) of this section; and

(b) The number of classified staff units determined in subsection (3) of this section multiplied by 1.152. This factor is intended to adjust allocations so that, for the purposes of distributing insurance benefits, full time equivalent classified employees may be calculated on the basis of 1440 hours of work per year, with no individual employee counted as more than one full time equivalent.

(8) Any school district board of directors may petition the superintendent of public instruction by submission of a resolution adopted in a public meeting to reduce or delay any portion of its basic education allocation for any school year. The superintendent of public instruction shall approve such reduction or delay if it does not impair the district's financial condition. Any delay shall not be for more than two school years. Any reduction or delay shall have no impact on levy authority pursuant to RCW 84.52.0531 and local effort assistance pursuant to chapter 28A.500 RCW.

The expenditure of the funds shall be determined at each school site by the school building staff, parents, and the community where site-based decision-making has been adopted or, where not adopted, by the building staff including itinerant teachers. Expenditures on technology investments by a school site should, to the greatest extent possible, be consistent with the district's technology plan. School districts shall distribute all funds received without deduction for indirect costs. Funds

provided by this subsection do not fall within the definition of basic education under Article IX of the state Constitution.

(11) For the purposes of RCW 84.52.0531, the increase per full time equivalent student in state basic education appropriations provided under this act, including appropriations for salary and benefits increases, is 1.0 percent from the 1992-93 school year to the 1993-94 school year, and 1.0 percent from the 1993-94 school year to the 1994-95 school year.

Be it enacted by the Legislature of the State of Washington:

NEW SECTION. **Sec. 1.** The legislature supports the recommendations of the state fish and wildlife commission with regard to the commission's

responsibilities in the merged department of fish and wildlife. It is the intent of the legislature that, beginning July 1, 1996, the commission assume regulatory authority for food fish and shellfish in addition to its existing authority for game fish and wildlife. It is also the intent of the legislature to provide to the commission the authority to review and approve department agreements, to review and approve the department's budget proposals, to adopt rules for the department, and to select commission staff and the director of the department.

The legislature finds that all fish, shellfish, and wildlife species should be managed under a single comprehensive set of goals, policies, and objectives, and that the decision-making authority should rest with the fish and wildlife commission. The commission acts in an open and deliberative process that encourages public involvement and increases public confidence in department decision-making.

**Sec. 2.** RCW 43.17.020 and 1993 sp.s. c 2 s 17, 1993 c 472 s 18, and 1993 c 280 s 19 are each reenacted and amended to read as follows:

(1) Except for the north fork of the Lewis river and the White Salmon river, all streams and rivers tributary to the Columbia river downstream from McNary dam are established as an anadromous fish sanctuary. This sanctuary is created to preserve and develop the food fish and game fish resources in these streams and rivers and to protect them against undue industrial encroachment.

(2) Within the sanctuary area:

(a) It is unlawful to construct a dam greater than twenty-five feet high within the migration range of anadromous fish as determined by the ~~((director))~~ commission.

(b) Except by order of the ~~((director))~~ commission, it is unlawful to divert water from rivers and streams in quantities that will reduce the respective stream flow below the annual average low flow, based upon data published in United States geological survey reports.

(3) The ~~((director))~~ commission may acquire and abate a dam or other obstruction, or acquire any water right vested on a sanctuary stream or river, which is in conflict with the provisions of subsection (2) of this section.

(4) Subsection (2)(a) of this section does not apply to the sediment retention structure to be built on the North Fork Toutle river by the United States army corps of engineers.

(1) It is unlawful to take geoduck clams for commercial purposes outside the harvest area designated in a current department of natural resources geoduck harvesting agreement issued under RCW 79.96.080. It is unlawful to commercially harvest geoduck clams from bottoms that are shallower than eighteen feet below mean lower low water (0.0. ft.), or that lie in an area bounded by the line of ordinary high tide (mean high tide) and a line two hundred yards seaward from and parallel to the line of ordinary high tide. This section does not apply

to the harvest of private sector cultured aquatic products as defined in RCW 15.85.020.

(2) Commercial geoduck harvesting shall be done with a hand-held, manually operated water jet or suction device guided and controlled from under water by a diver. Periodically, the ~~((director))~~ commission shall determine the effect of each type or unit of gear upon the geoduck population or the substrate they inhabit. The ~~((director))~~ commission may require modification of the gear or stop its use if it is being operated in a wasteful or destructive manner or if its operation may cause permanent damage to the bottom or adjacent shellfish populations.

**Sec. 30.** RCW 75.24.130 and 1983 1st ex.s. c 46 s 89 are each amended to read as follows:

The ~~((director))~~ commission may examine the clam, mussel, and oyster beds located on aquatic lands belonging to the state and request the commissioner of public lands to withdraw these lands from sale and lease for the purpose of establishing reserves or public beaches. The ~~((director))~~ commission shall conserve, protect, and develop these reserves and the oyster, shrimp, clam, and mussel beds on state lands.

**Sec. 31.** RCW 75.25.095 and 1990 c 34 s 2 are each amended to read as follows:

~~((Notwithstanding RCW 75.25.090,))~~ The ~~((director))~~ commission may adopt rules designating times and places for the purposes of family fishing days when a recreational fishing license is not required to fish for food fish or shellfish. All other applicable laws and rules shall remain in effect.

**Sec. 32.** RCW 75.30.060 and 1983 1st ex.s. c 46 s 139 are each amended to read as follows:

A person aggrieved by a decision of the department under this chapter may request administrative review under the informal procedure established by this section.

In an informal hearing before a review board, the rules of evidence do not apply. A record of the proceeding shall be kept as provided by chapter 34.05 RCW. After hearing the case the review board shall notify in writing the ~~((director))~~ commission and the initiating party whether the review board agrees or disagrees with the department's decision and the reasons for the board's findings. Upon receipt of the board's findings the ~~((director))~~ commission may order such relief as the ~~((director))~~ commission deems appropriate under the circumstances.

Nothing in this section: (1) Impairs an aggrieved person's right to proceed under chapter 34.05 RCW; or (2) imposes a liability on members of a review board for their actions under this section.

**Sec. 33.** RCW 75.50.010 and 1993 sp.s. c 2 s 45 are each amended to read as follows:

Currently, many of the salmon stocks of Washington state are critically reduced from their sustainable level. The best interests of all fishing groups and the citizens as a whole are served by a stable and productive salmon resource. Immediate action is needed to reverse the severe decline of the resource and to insure its very survival. The legislature finds a state of emergency exists and that immediate action is required to restore its fishery.

Disagreement and strife have dominated the salmon fisheries for many years. Conflicts among the various fishing interests have only served to erode the resource. It is time for the state of Washington to make a major commitment to increasing productivity of the resource and to move forward with an effective rehabilitation and enhancement program. The ~~((department))~~ commission is directed to dedicate its efforts and the efforts of the department to seek resolution to the many conflicts that involve the resource.

Success of the enhancement program can only occur if projects efficiently produce salmon or restore habitat. The expectation of the program is to optimize the efficient use of funding on projects that will increase artificially and naturally produced salmon, restore and improve habitat, or identify ways to increase the survival of salmon. The full utilization of state resources and cooperative efforts with interested groups are essential to the success of the program.

**Sec. 34.** RCW 75.50.020 and 1985 c 458 s 2 are each amended to read as follows:

(1) The ~~((director))~~ commission shall develop long-term regional policy statements regarding the salmon fishery resources before December 1, 1985. The ~~((director))~~ commission shall consider the following in formulating and updating regional policy statements:

- (a) Existing resource needs;
- (b) Potential for creation of new resources;
- (c) Successful existing programs, both within and outside the state;
- (d) Balanced utilization of natural and hatchery production;
- (e) Desires of the fishing interest;
- (f) Need for additional data or research;
- (g) Federal court orders; and
- (h) Salmon advisory council recommendations.

(2) The ~~((director))~~ commission shall review and update each policy statement at least once each year.

**Sec. 35.** RCW 75.50.030 and 1985 c 458 s 3 are each amended to read as follows:

(1) The ~~((director))~~ commission shall develop a detailed salmon enhancement plan with proposed enhancement projects. The plan and the regional policy statements shall be submitted to the secretary of the senate and chief clerk of the house of representatives for legislative distribution by June 30, 1986. The enhancement plan and regional policy statements shall be provided by June 30, 1986, to the natural resources committees of the house of representatives and the

senate. The ~~((director))~~ commission shall provide a maximum opportunity for the public to participate in the development of the salmon enhancement plan. To insure full participation by all interested parties, the ~~((director))~~ commission shall solicit and consider enhancement project proposals from Indian tribes, sports fishermen, commercial fishermen, private aquaculturists, and other interested groups or individuals for potential inclusion in the salmon enhancement plan. Joint or cooperative enhancement projects shall be considered for funding.

(2) The following criteria shall be used by the ~~((director))~~ commission in formulating the project proposals:

- (a) Compatibility with the long-term policy statement;
- (b) Benefit/cost analysis;
- (c) Needs of all fishing interests;
- (d) Compatibility with regional plans, including harvest management plans;
- (e) Likely increase in resource productivity;
- (f) Direct applicability of any research;
- (g) Salmon advisory council recommendations;
- (h) Compatibility with federal court orders;
- (i) Coordination with the salmon and steelhead advisory commission program;
- (j) Economic impact to the state;
- (k) Technical feasibility; and
- (l) Preservation of native salmon runs.

(3) The ~~((director))~~ commission shall not approve projects that serve as replacement funding for projects that exist prior to May 21, 1985, unless no other sources of funds are available.

(4) The ~~((director))~~ commission shall prioritize various projects and establish a recommended implementation time schedule.

**Sec. 36.** RCW 75.50.040 and 1985 c 458 s 4 are each amended to read as follows:

Upon approval by the legislature of funds for its implementation, the ~~((director))~~ commission shall monitor the progress of projects detailed in the salmon enhancement plan.

The ~~((director))~~ commission shall be responsible for establishing criteria which shall be used to measure the success of each project in the salmon enhancement plan.

**Sec. 37.** RCW 75.50.050 and 1987 c 505 s 72 are each amended to read as follows:

The ~~((director))~~ commission shall report to the legislature on or before October 30th of each year ~~((through 1994))~~ on the progress and performance of each project. The report shall contain an analysis of the successes and failures of the program to enable optimum development of the program. The report shall include estimates of funding levels necessary to operate the projects in future years.

The (~~director~~) commission shall submit the reports and any additional recommendations to the chairs of the committees on ways and means and the committees on natural resources of the senate and house of representatives.

**Sec. 38.** RCW 75.50.070 and 1993 sp.s. c 2 s 46 are each amended to read as follows:

The legislature finds that it is in the best interest of the salmon resource of the state to encourage the development of regional fisheries enhancement groups. The accomplishments of one existing group, the Grays Harbor fisheries enhancement task force, have been widely recognized as being exemplary. The legislature recognizes the potential benefits to the state that would occur if each region of the state had a similar group of dedicated citizens working to enhance the salmon resource.

The legislature authorizes the formation of regional fisheries enhancement groups. These groups shall be eligible for state financial support and shall be actively supported by the commission and the department. The regional groups shall be operated on a strictly nonprofit basis, and shall seek to maximize the efforts of volunteer and private donations to improve the salmon resource for all citizens of the state.

**Sec. 39.** RCW 75.50.100 and 1993 sp.s. c 17 s 11 and 1993 c 340 s 53 are each reenacted and amended to read as follows:

The dedicated regional fisheries enhancement group account is created in the custody of the state treasurer. Only the (~~director~~) commission or the (~~director's~~) commission's designee may authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88 RCW, but no appropriation is required for expenditures.

A surcharge of one dollar shall be collected on each recreational personal use food fish license sold in the state. A surcharge of one hundred dollars shall be collected on each commercial salmon fishery license, each salmon delivery license, and each salmon charter license sold in the state. The department shall study methods for collecting and making available, an annual list, including names and addresses, of all persons who obtain recreational and commercial salmon fishing licenses. This list may be used to assist formation of the regional fisheries enhancement groups and allow the broadest participation of license holders in enhancement efforts. The results of the study shall be reported to the house of representatives fisheries and wildlife committee and the senate environment and natural resources committee by October 1, 1990. All receipts shall be placed in the regional fisheries enhancement group account and shall be used exclusively for regional fisheries enhancement group projects for the purposes of RCW 75.50.110. Funds from the regional fisheries enhancement group account shall not serve as replacement funding for department operated salmon projects that exist on January 1, 1991.

All revenue from the department's sale of salmon carcasses and eggs that return to group facilities shall be deposited in the regional fisheries enhancement

group account for use by the regional fisheries enhancement group that produced the surplus. The ~~((director))~~ commission shall adopt rules to implement this section pursuant to chapter 34.05 RCW.

**Sec. 40.** RCW 75.50.110 and 1990 c 58 s 4 are each amended to read as follows:

A regional fisheries enhancement group advisory board is established to make recommendations to the ~~((director))~~ commission. The advisory board shall make recommendations regarding regional enhancement group rearing project proposals and funding of those proposals. The members shall be appointed by the ~~((director))~~ commission and consist of two commercial fishing representatives, two recreational fishing representatives, and three at-large positions. The advisory board membership shall include two members serving ex officio to be nominated, one through the Northwest Indian fisheries commission, and one through the Columbia river intertribal fish commission.

The department may use account funds to provide agency assistance to the groups. The level of account funds used by the department shall be determined by the ~~((director))~~ commission after review and recommendation by the regional fisheries enhancement group advisory board and shall not exceed twenty percent of annual contributions to the account.

**Sec. 41.** RCW 75.50.130 and 1993 sp.s. c 2 s 48 are each amended to read as follows:

The ~~((director))~~ commission shall prepare a salmon recovery plan for the Skagit river. The plan shall include strategies for employing displaced timber workers to conduct salmon restoration and other tasks identified in the plan. The plan shall incorporate the best available technology in order to achieve maximum restoration of depressed salmon stocks. The plan must encourage the restoration of natural spawning areas and natural rearing of salmon but must not preclude the development of an active hatchery program.

**Sec. 42.** RCW 75.52.050 and 1984 c 72 s 5 are each amended to read as follows:

The ~~((director of each department))~~ commission shall establish by rule:

(1) The procedure for entering a cooperative agreement and the application forms for a permit to release fish or wildlife required by RCW 75.08.295 or 77.16.150. The procedure shall indicate the information required from the volunteer group as well as the process of review by the department. The process of review shall include the means to coordinate with other agencies and Indian tribes when appropriate and to coordinate the review of any necessary hydraulic permit approval applications.

(2) The procedure for providing within forty-five days of receipt of a proposal a written response to the volunteer group indicating the date by which an acceptance or rejection of the proposal can be expected, the reason why the date was selected, and a written summary of the process of review. The response should also include any suggested modifications to the proposal which

would increase its likelihood of approval and the date by which such modified proposal could be expected to be accepted. If the proposal is rejected, the department must provide in writing the reasons for rejection. The volunteer group may request the director or the director's designee to review information provided in the response.

(3) The priority of the uses to which eggs, seed, juveniles, or brood stock are put. Use by cooperative projects shall be second in priority only to the needs of programs of the department or of other public agencies within the territorial boundaries of the state. Sales of eggs, seed, juveniles, or brood stock have a lower priority than use for cooperative projects.

(4) The procedure for notice in writing to a volunteer group of cause to revoke the agreement for the project and the procedure for revocation. Revocation shall be documented in writing to the volunteer group. Cause for revocation may include: (a) The unavailability of adequate biological or financial resources; (b) the development of unacceptable biological or resource management conflicts; or (c) a violation of agreement provisions. Notice of cause to revoke for a violation of agreement provisions may specify a reasonable period of time within which the volunteer group must comply with any violated provisions of the agreement.

(5) An appropriate method of distributing among volunteer groups fish, bird, or animal food or other supplies available for the program.

**Sec. 43.** RCW 77.16.135 and 1993 sp.s. c 2 s 74 are each amended to read as follows:

(1) The (~~director~~) commission shall revoke all licenses and privileges extended under Title 77 RCW of a person convicted of assault on a state wildlife agent or other law enforcement officer provided that:

AN ACT Relating to sales and use tax on manufacturing machinery and equipment, pollution control equipment, and high technology research and development; amending RCW 82.04.190, 82.60.040, 82.60.045, 82.60.065, 82.60.070, 82.61.010, and 82.63.010; reenacting and amending RCW 82.60.020; adding a new section to chapter 82.08 RCW; adding a new section to chapter 82.12 RCW; adding a new section to chapter 82.63 RCW; creating new sections; repealing RCW 82.61.020, 82.61.040, 82.63.040, and 82.63.050; providing an effective date; and declaring an emergency.

Be it enacted by the Legislature of the State of Washington:

NEW SECTION. Sec. 1. The legislature finds and declares that:

(1) The health, safety, and welfare of the people of the state of Washington are heavily dependent upon the continued encouragement, development, and expansion of opportunities for family wage employment in our state's private sector;

(2) The state's private sector must be encouraged to commit to continuous improvement of process, products, and services and to deliver high-quality, high-value products through technological innovations and high-performance work organizations;

(3) The state's opportunities for increased economic dealings with other states and nations of the world are dependent on supporting and attracting a diverse, stable, and competitive economic base of private sector employers;

(4) The state's current policy of applying its sales and use taxes to machinery, equipment, and installation labor used in manufacturing, research and development, and other activities has placed our state's private sector at a competitive disadvantage with other states and serves as a significant disincentive to the continuous improvement of products, technology, and modernization necessary for the preservation, stabilization, and expansion of employment and to ensure a stable economy; and

(5) It is vital to the continued development of economic opportunity in this state, including the development of new businesses and the expansion or modernization of existing businesses, that the state of Washington provide tax incentives to entities making a commitment to sites and operations in this state.

**NEW SECTION. Sec. 2.** A new section is added to chapter 82.08 RCW to read as follows:

(1) The tax levied by RCW 82.08.020 shall not apply to sales to a manufacturer or processor for hire of machinery and equipment used directly in a manufacturing operation, or to sales of or charges made for labor and services rendered in respect to installing the machinery and equipment, but only when the purchaser provides the seller with an exemption certificate in a form and manner prescribed by the department by rule, and the purchaser provides the department with a duplicate of the certificate or a summary of exempt sales as the department may require. The seller shall retain a copy of the certificate for the seller's files.

(2) For purposes of this section and section 3 of this act:

(a) "Machinery and equipment" means industrial fixtures, devices, and support facilities. "Machinery and equipment" includes pollution control equipment installed and used in a manufacturing operation to prevent air pollution, water pollution, or contamination that might otherwise result from the manufacturing operation.

(b) "Machinery and equipment" does not include:

- (i) Hand tools;
- (ii) Property with a useful life of less than one year;
- (iii) Repair parts required to restore machinery and equipment to normal working order;
- (iv) Replacement parts that do not increase productivity, improve efficiency, or extend the useful life of the machinery and equipment; or

(v) Building fixtures that are not integral to the manufacturing operation that are permanently affixed to and become a physical part of a building, such as

utility systems for heating, ventilation, air conditioning, communications, plumbing, or electrical.

(c) Machinery and equipment is "used directly" in a manufacturing operation if the machinery and equipment:

(i) Acts upon or interacts with an item of tangible personal property;

(ii) Conveys, transports, handles, or temporarily stores an item of tangible personal property at the manufacturing site;

(iii) Controls, guides, measures, verifies, aligns, regulates, or tests tangible personal property;

(iv) Provides physical support for or access to tangible personal property;

(v) Produces power for, or lubricates machinery and equipment;

(vi) Produces another item of tangible personal property for use in the manufacturing operation; or

(vii) Places tangible personal property in the container, package, or wrapping in which the tangible personal property is normally sold or transported.

(d) "Manufacturing operation" means the manufacturing of articles, substances, or commodities for sale as tangible personal property. The manufacturing operation begins at the point where the raw materials enter the manufacturing site and ends at the point where the finished product leaves the manufacturing site. The term also includes that portion of a cogeneration project that is used to generate power for consumption within the manufacturing site of which the cogeneration project is an integral part. The term does not include research and development, the production of electricity by a light and power business as defined in RCW 82.16.010, or the preparation of food products on the premises of a person selling food products at retail.

(e) "Cogeneration" means the simultaneous generation of electrical energy and low-grade heat from the same fuel.

NEW SECTION. Sec. 3. A new section is added to chapter 82.12 RCW to read as follows:

The provisions of this chapter shall not apply in respect to the use by a manufacturer or processor for hire of machinery and equipment used directly in a manufacturing operation, but only when the user provides the department with:

(1) An exemption certificate in a form and manner prescribed by the department within sixty days of the first use of the machinery and equipment in this state; or

(2) An annual summary listing the machinery and equipment by January 31 of the year following the calendar year in which the machinery and equipment is first used in this state.

Sec. 4. RCW 82.04.190 and 1986 c 231 s 2 are each amended to read as follows:

Nothing contained in this or any other subsection of this definition shall be construed to modify any other definition of "consumer";

Nothing contained in this or any other subsection of this definition shall be construed to modify any other definition of "consumer."

Sec. 5. RCW 82.60.020 and 1994 sp.s. c 7 s 704 and 1994 sp.s. c 1 s 1 are each reenacted and amended to read as follows:

## CHAPTER 4

[Engrossed Substitute House Bill 1093]

### STREAMLINING PURCHASING PROVISIONS FOR STATE FERRIES

AN ACT Relating to streamlining purchasing provisions for state agencies including Washington state ferries; amending RCW 47.56.030 and 47.60.140; repealing RCW 47.60.651, 47.60.653, 47.60.655, 47.60.657, 47.60.659, and 47.60.661; and declaring an emergency.

Be it enacted by the Legislature of the State of Washington:

**Sec. 1.** RCW 47.56.030 and 1977 ex.s. c 151 s 66 are each amended to read as follows:

The department of transportation shall have full charge of the construction of all toll bridges and other toll facilities including the Washington state ferries, and the operation and maintenance thereof. The transportation commission shall determine and establish the tolls and charges thereon, and shall perform all duties and exercise all powers relating to the financing, refinancing, and fiscal management of all toll bridges and other toll facilities including the Washington state ferries, and bonded indebtedness in the manner provided by law. The department shall have full charge of design of all toll facilities. The department shall proceed with the construction of such toll bridges and other facilities and the approaches thereto by contract in the manner of state highway construction immediately upon there being made available funds for such work and shall

prosecute such work to completion as rapidly as practicable. The department is authorized to negotiate contracts for any amount without bid in order to make repairs to ferries or ferry terminal facilities or removal of such facilities whenever continued use of ferries or ferry terminal facilities constitutes a real or immediate danger to the traveling public or precludes prudent use of such ferries or facilities.

The department shall proceed with the procurement of materials, supplies, services, and equipment needed for the support, maintenance, and use of a ferry, ferry terminal, or other facility operated by Washington state ferries, in accordance with chapter 43.19 RCW except as follows:

(1) When the secretary of the department of transportation determines in writing that the use of invitation for bid is either not practicable or not advantageous to the state and it may be necessary to make competitive evaluations, including technical or performance evaluations among acceptable proposals to complete the contract award, a contract may be entered into by use of a competitive sealed proposals method, and a formal request for proposals solicitation. Such formal request for proposals solicitation shall include a functional description of the needs and requirements of the state and the significant factors.

(2) When purchases are made through a formal request for proposals solicitation the contract shall be awarded to the responsible proposer whose competitive sealed proposal is determined in writing to be the most advantageous to the state taking into consideration price and other evaluation factors set forth in the request for proposals. No significant factors may be used in evaluating a proposal that are not specified in the request for proposals. Factors that may be considered in evaluating proposals include but are not limited to: Price maintainability; reliability; commonality; performance levels; life cycle cost if applicable under this section; cost of transportation or delivery; delivery schedule offered; installation cost; cost of spare parts; availability of parts and service offered; and the following:

(a) The ability, capacity, and skill of the proposer to perform the contract or provide the service required;

(b) The character, integrity, reputation, judgment, experience, and efficiency of the proposer;

(c) Whether the proposer can perform the contract within the time specified;

(d) The quality of performance of previous contracts or services;

(e) The previous and existing compliance by the proposer with laws relating to the contract or services;

(f) Objective, measurable criteria defined in the request for proposal. These criteria may include but are not limited to items such as discounts, delivery costs, maintenance services costs, installation costs, and transportation costs; and

(g) Such other information as may be secured having a bearing on the decision to award the contract.

When purchases are made through a request for proposal process, proposals received shall be evaluated based on the evaluation factors set forth in the request for proposal. When a life cycle cost analysis is used, the life cycle cost of a proposal shall be given at least the same relative importance as the initial price element specified in the request of proposal documents. The department may reject any and all proposals received. If the proposals are not rejected, the award shall be made to the proposer whose proposal is most advantageous to the department, considering price and the other evaluation factors set forth in the request for proposal.

(3) The legislative transportation committee shall review the secretary's use of the request for proposals solicitation for Washington state ferries projects to determine if the process established under this act is appropriate. The results of the review, including recommendations for modification of the request for proposal process, shall be reported to the house of representatives and senate transportation committees by January 1, 1997.

Sec. 2. RCW 47.60.140 and 1987 c 69 s 1 are each amended to read as follows:

(1) The department is empowered to operate such ferry system, including all operations, whether intrastate or international, upon any route or routes, and toll bridges as a revenue-producing and self-liquidating undertaking. The department has full charge of the construction, rehabilitation, rebuilding, enlarging, improving, operation, and maintenance of the ferry system, including toll bridges, approaches, and roadways incidental thereto that may be authorized by the department, including the collection of tolls and other charges for the services and facilities of the undertaking. The department has the exclusive right to enter into leases and contracts for use and occupancy by other parties of the concessions and space located on the ferries, wharves, docks, approaches, and landings, but, except as provided in subsection (2) of this section, no such leases or contracts may be entered into for more than ~~((five years, nor without public advertisement for bids as may be prescribed by the department. However, except as provided in subsection (2) of this section, the Colman Doek facilities may be leased for a period not to exceed))~~ ten years, nor without a competitive contract process, except as otherwise provided in this section. The competitive process shall be either an invitation for bids in accordance with the process established by chapter 43.19 RCW, or a request for proposals in accordance with the process established by RCW 47.56.030.

(2) As part of a joint development agreement under which a public or private developer constructs or installs improvements on ferry system property, the department may lease all or part of such property and improvements to such developers for that period of time, not to exceed fifty-five years, or not to exceed thirty years for those areas located within harbor areas, which the department determines is necessary to allow the developer to make reasonable recovery on its initial investment. Any lease entered into as provided for in this subsection that involves state aquatic lands shall conform with the Washington state

Constitution and applicable statutory requirements as determined by the department of natural resources. That portion of the lease rate attributable to the state aquatic lands shall be distributed in the same manner as other lease revenues derived from state aquatic lands as provided in RCW 79.24.580.

**NEW SECTION. Sec. 3.** The following acts or parts of acts are each repealed:

If such differential increases in the 1987-89 fiscal biennium or the 1985-87 offset by bargaining unit is insufficient to meet the required deduction, the amount available for compensation shall be reduced by bargaining unit by the amount of such increase or the 1985-87 shortage in the required offset. The purpose of the benefits contribution plan established in this chapter is to attract and retain individuals in governmental service by permitting them to enter into agreements with the state to provide for benefits pursuant to 26 U.S.C. Sec. 125 and other applicable sections of the internal revenue code.

(2) Nothing in the benefits contribution plan constitutes an employment agreement between the participant and the state, and nothing contained in the

Prior to making an election to participate in the benefit contribution plan, the eligible person shall be informed in writing of all the benefits and contributions that will occur as a result of such election.

(d) The authority shall provide in the benefits contribution plan that a participant may enroll, terminate, or change his or her election after the plan year has begun if there is a significant change in a participant's status, as provided by 26 U.S.C. Sec. 125 and the regulations adopted under that section and defined by the authority.

(4) The authority shall establish as part of the benefits contribution plan the procedures for and effect of withdrawal from the plan by reason of retirement, death, leave of absence, or termination of employment. To the extent possible under federal law, the authority shall protect participants from forfeiture of rights under the plan.

The school district board of directors may require any student participating in extracurricular interschool activities to, as a condition of participation, document evidence of insurance or purchase insurance that will provide adequate coverage, as determined by the school district board of directors, for medical expenses incurred as a result of injury sustained while participating in the extracurricular activity. In establishing such a requirement, the district shall adopt regulations for waiving or reducing

the premiums of such coverage as may be offered through the school district to students participating in extracurricular activities, for those students whose families, by reason of their low income, would have difficulty paying the entire amount of such insurance premiums. The district board shall adopt regulations for waiving or reducing the insurance coverage requirements for low-income students in order to assure such students are not prohibited from participating in extracurricular interschool activities.

(4) All contracts for insurance or protection written to take advantage of the provisions of this section shall provide that the beneficiaries of such contracts may utilize on an equal participation basis the services of those practitioners licensed pursuant to chapters 18.22, 18.25, 18.53, 18.57, and 18.71 RCW.

(7) Insurance contributions to the authority for payment of premiums under contracts authorized by the state health care authority. However, enrollment or assignment by the state health care authority to participate in a health care benefit plan, as required by RCW 41.05.065(5), shall authorize a payroll deduction of premium contributions without a written consent under the terms and conditions established by the public employees benefits board.

(8) Deductions to a bank, savings bank, or savings and loan association if (a) the bank, savings bank, or savings and loan association is authorized to do business in this state; and (b) twenty-five or more employees of a single agency, or fewer, if a lesser number is established by such agency, or a total of one hundred or more state employees of several agencies have authorized a deduction for payment to the same bank, savings bank, or savings and loan association.

Contributions, paid by the county, the municipality, or other political subdivision for their employees, shall include an amount determined by the authority to pay such administrative expenses of the authority as are necessary to administer the plans for employees of those groups. Contributions to be paid by school districts or educational service districts shall be adjusted by the authority to reflect that retired school employees are covered under RCW 41.05.250, and are not covered under RCW 41.05.080. All such contributions will be paid into the public employees' health insurance account.

(2) The contributions of any department, division, or separate agency of the state government, and such county, municipal, or other political subdivisions as are covered by this chapter, shall be set by the authority, subject to the approval of the governor for availability of funds as specifically appropriated by the legislature for that purpose. ### PROPERTY TAX EXEMPTIONS FOR SENIOR CITIZENS AND PERSONS RETIRED BECAUSE OF PHYSICAL DISABILITY—REVISIONS

AN ACT Relating to the property taxation of senior citizens and persons retired because of physical disability; amending RCW 84.36.381 and 84.36.383; adding a new section to chapter 84.40 RCW; creating new sections; repealing 1994 sp.s. c 8 s 3 (uncodified); providing an effective date; and declaring an emergency.

Be it enacted by the Legislature of the State of Washington:

**Sec. 1.** RCW 84.36.381 and 1994 sp.s. c 8 s 1 are each amended to read as follows:

A person shall be exempt from any legal obligation to pay all or a portion of the amount of excess and regular real property taxes due and payable in the

year following the year in which a claim is filed, and thereafter, in accordance with the following:

(1) The property taxes must have been imposed upon a residence which was occupied by the person claiming the exemption as a principal place of residence as of the time of filing: PROVIDED, That any person who sells, transfers, or is displaced from his or her residence may transfer his or her exemption status to a replacement residence, but no claimant shall receive an exemption on more than one residence in any year: PROVIDED FURTHER, That confinement of the person to a hospital or nursing home shall not disqualify the claim of exemption if:

(a) The residence is temporarily unoccupied;

(b) The residence is occupied by a spouse and/or a person financially dependent on the claimant for support; or

(c) The residence is rented for the purpose of paying nursing home or hospital costs;

(2) The person claiming the exemption must have owned, at the time of filing, in fee, as a life estate, or by contract purchase, the residence on which the property taxes have been imposed or if the person claiming the exemption lives in a cooperative housing association, corporation, or partnership, such person must own a share therein representing the unit or portion of the structure in which he or she resides. For purposes of this subsection, a residence owned by a marital community or owned by cotenants shall be deemed to be owned by each spouse or cotenant, and any lease for life shall be deemed a life estate;

(3) The person claiming the exemption must be sixty-one years of age or older on December 31st of the year in which the exemption claim is filed, or must have been, at the time of filing, retired from regular gainful employment by reason of physical disability: PROVIDED, That any surviving spouse of a person who was receiving an exemption at the time of the person's death shall qualify if the surviving spouse is fifty-seven years of age or older and otherwise meets the requirements of this section;

(4) The amount that the person shall be exempt from an obligation to pay shall be calculated on the basis of combined disposable income, as defined in RCW 84.36.383. If the person claiming the exemption was retired for two months or more of the assessment year, the combined disposable income of such person shall be calculated by multiplying the average monthly combined disposable income of such person during the months such person was retired by twelve. If the income of the person claiming exemption is reduced for two or more months of the assessment year by reason of the death of the person's spouse, or when other substantial changes occur in disposable income that are likely to continue for an indefinite period of time, the combined disposable income of such person shall be calculated by multiplying the average monthly combined disposable income of such person after such occurrences by twelve. If it is necessary to estimate income to comply with this subsection, the assessor

may require confirming documentation of such income prior to May 31 of the year following application;

(5)(a) A person who otherwise qualifies under this section and has a combined disposable income of twenty-eight thousand dollars or less shall be exempt from all excess property taxes; and

(b)(i) A person who otherwise qualifies under this section and has a combined disposable income of eighteen thousand dollars or less but greater than fifteen thousand dollars shall be exempt from all regular property taxes on the greater of thirty thousand dollars or thirty percent of the valuation of his or her residence, but not to exceed fifty thousand dollars of the valuation of his or her residence; or

Such saved or displaced money shall be used for programs for the underrepresented gender class; and

(b) Second, (i) to nonmembers of the underrepresented gender class who participate in intercollegiate athletics, where such waivers result in saved or displaced money that can be used for athletic programs for members of the underrepresented gender class. Such saved or displaced money shall be used for programs for the underrepresented gender class; or (ii) to members of the underrepresented gender class who participate in intercollegiate athletics, where such waivers do not result in any saved or displaced money that can be used for athletic programs for members of the underrepresented gender class.

**Sec. 10.** RCW 28B.15.820 and 1993 c 385 s 1 and 1993 c 173 s 1 are each reenacted and amended to read as follows:

(1) Each institution of higher education, (~~except~~) including technical colleges, shall deposit (~~two~~) a minimum of three and one-half percent of revenues collected from tuition and services and activities fees in an institutional financial aid fund that is hereby created and which shall be held locally. Moneys in the fund shall be used only for the following purposes: (a) To make guaranteed long-term loans to eligible students as provided in subsections (3) through (8) of this section; (b) to make short-term loans as provided in subsection (9) of this section; or (c) to provide financial aid to needy students as provided in subsection (10) of this section.

(2) An "eligible student" for the purposes of subsections (3) through (8) and (10) of this section is a student registered for at least six credit hours or the equivalent, who is eligible for resident tuition and fee rates as defined in RCW 28B.15.012 through 28B.15.013, and who is a "needy student" as defined in RCW 28B.10.802.

(3) The amount of the guaranteed long-term loans made under this section shall not exceed the demonstrated financial need of the student. Each institution shall establish loan terms and conditions which shall be consistent with the terms of the guaranteed loan program established by 20 U.S. Code Section 1071 et seq., as now or hereafter amended. All loans made shall be guaranteed by the Washington student loan guaranty association or its successor agency. Institutions are hereby granted full authority to operate as an eligible lender under the guaranteed loan program.

(4) Before approving a guaranteed long-term loan, each institution shall analyze the ability of the student to repay the loan based on factors which include, but are not limited to, the student's accumulated total education loan burdens and the employment opportunities and average starting salary characteristics of the student's chosen fields of study. The institution shall counsel the student on the advisability of acquiring additional debt, and on the availability of other forms of financial aid.

(5) Each institution is responsible for collection of guaranteed long-term loans made under this section and shall exercise due diligence in such collection, maintaining all necessary records to insure that maximum repayments are made. Institutions shall cooperate with other lenders and the Washington student loan guaranty association, or its successor agency, in the coordinated collection of guaranteed loans, and shall assure that the guarantability of the loans is not violated. Collection and servicing of guaranteed long-term loans under this section shall be performed by entities approved for such servicing by the Washington student loan guaranty association or its successor agency; PROVIDED, That institutions be permitted to perform such servicing if specifically recognized to do so by the Washington student loan guaranty association or its successor agency. Collection and servicing of guaranteed long-term loans made by community colleges under subsection (1) of this section shall

be coordinated by the state board for community and technical colleges and shall be conducted under procedures adopted by the state board.

(6) Receipts from payment of interest or principal or any other subsidies to which institutions as lenders are entitled, that are paid by or on behalf of borrowers of funds under subsections (3) through (8) of this section, shall be deposited in each institution's financial aid fund and shall be used to cover the costs of making the guaranteed long-term loans under this section and maintaining necessary records and making collections under subsection (5) of this section: PROVIDED, That such costs shall not exceed five percent of aggregate outstanding loan principal. Institutions shall maintain accurate records of such costs, and all receipts beyond those necessary to pay such costs, shall be deposited in the institution's financial aid fund.

(7) The governing boards of the state universities, the regional universities, and The Evergreen State College, and the state board for community and technical colleges, on behalf of the community colleges and technical colleges, shall each adopt necessary rules and regulations to implement this section.

(8) First priority for any guaranteed long-term loans made under this section shall be directed toward students who would not normally have access to educational loans from private financial institutions in Washington state, and maximum use shall be made of secondary markets in the support of loan consolidation.

(9) Short-term loans, not to exceed one year, may be made from the institutional financial aid fund to students enrolled in the institution. No such loan shall be made to any student who is known by the institution to be in default or delinquent in the payment of any outstanding student loan. A short-term loan may be made only if the institution has ample evidence that the student has the capability of repaying the loan within the time frame specified by the institution for repayment.

(10) Any moneys deposited in the institutional financial aid fund that are not used in making long-term or short-term loans may be used by the institution for locally-administered financial aid programs for needy students, such as need-based institutional employment programs or need-based tuition and fee scholarship or grant programs. These funds shall be used in addition to and not to replace institutional funds that would otherwise support these locally-administered financial aid programs. First priority in the use of these funds shall be given to needy students who have accumulated excessive educational loan burdens. An excessive educational loan burden is a burden that will be difficult to repay given employment opportunities and average starting salaries in the student's chosen fields of study. Second priority in the use of these funds shall be given to needy single parents, to assist these students with their educational expenses, including expenses associated with child care and transportation.

**Sec. 11.** RCW 28B.50.095 and 1991 c 238 s 36 are each amended to read as follows:

In addition to other powers and duties, the college board may issue rules and regulations permitting a student to register at more than one community and technical college, provided that such student shall pay tuition and fees as if the student were registered at a single college, but not to exceed tuition and fees charged a full-time student as established ~~((by RCW 28B.15.502))~~ under chapter 28B.15 RCW.

## CHAPTER 10

[Engrossed Substitute Senate Bill 5408]

### SCHOOL BUS ACQUISITIONS

AN ACT Relating to school bus acquisitions; amending RCW 28A.160.200 and 28A.335.190; adding a new section to chapter 28A.160 RCW; creating a new section; providing an effective date; and declaring an emergency.

Be it enacted by the Legislature of the State of Washington:

**NEW SECTION. Sec. 1.** A new section is added to chapter 28A.160 RCW to read as follows:

(1) The superintendent of public instruction, in consultation with the regional transportation coordinators of the educational service districts, shall establish a minimum number of school bus categories considering the capacity and type of vehicles required by school districts in Washington. The superintendent, in consultation with the regional transportation coordinators of the educational service districts, shall establish competitive specifications for each category of school bus. The categories shall be developed to produce minimum long-range operating costs, including costs of equipment and all costs in operating the vehicles. The categories, for purposes of comparative studies, will be at a minimum the same as those in the beginning of the 1994-95 school year. The competitive specifications shall meet federal motor vehicle safety standards, minimum state specifications as established by rule by the superintendent, and supported options as determined by the superintendent in consultation with the regional transportation coordinators of the educational service districts.

(2) After establishing school bus categories and competitive specifications, the superintendent of public instruction shall solicit competitive price quotes from school bus dealers to be in effect for one year and establish a list of the lowest competitive price quotes obtained under this subsection.

(3) The superintendent shall base the level of reimbursement to school districts and educational service districts for school buses on the lowest quote in each category.

(4) Notwithstanding RCW 28A.335.190, school districts and educational service districts may purchase at the quoted price directly from the dealer who

is providing the lowest competitive price quote on the list established under subsection (2) of this section. School districts and educational service districts may make their own selections for school buses, but shall be reimbursed at the rates determined under this section and RCW 28A.160.200. District-selected options shall not be reimbursed by the state.

(5) This section does not prohibit school districts or educational service districts from conducting their own competitive bid process.

(6) The superintendent of public instruction may adopt rules under chapter 34.05 RCW to implement this section.

**Sec. 2.** RCW 28A.160.200 and 1990 c 33 s 146 are each amended to read as follows:

~~((The superintendent shall determine the vehicle acquisition allocation in the following manner:~~

~~(1) By May 1st of each year, the superintendent shall develop preliminary categories of student transportation vehicles to ensure adequate student transportation fleets for districts. The superintendent shall take into consideration the types of vehicles purchased by individual school districts in the state. The categories shall include, but not be limited to, variables such as vehicle capacity, type of chassis, type of fuel, engine and body type, special equipment, and life of vehicle. The categories shall be developed in conjunction with the local districts and shall be applicable to the following school year. The categories shall be designed to produce minimum long-range operating costs, including costs of equipment and all costs incurred in operating the vehicles. Each category description shall include the estimated state-determined purchase price, which shall be based on the actual costs of the vehicles purchased for that comparable category in the state during the preceding twelve months and the anticipated market price for the next school fiscal year. By June 15th of each year, the superintendent shall notify districts of the preliminary vehicle categories and state-determined purchase price for the ensuing school year. By October 15th of each year, the superintendent shall finalize the categories and the associated state-determined purchase price and shall notify districts of any changes. While it is the responsibility of each district to select each student transportation vehicle to be purchased by the district, each district shall be paid a sum based only on the amount of the state-determined purchase price and inflation as recognized by the reimbursement schedule established in this section as set by the superintendent for the category of vehicle purchased.~~

~~(2))~~ (1) The superintendent shall develop a reimbursement schedule to pay districts for the cost of student transportation vehicles purchased after September 1, 1982. While it is the responsibility of each district to select and pay for each student transportation vehicle purchased by the district, each district shall be paid a sum based on the category of vehicle, anticipated lifetime of vehicles of this category, and state reimbursement rate for the category plus inflation as recognized by the reimbursement schedule established in this section as set by the superintendent. Categories and reimbursement rates of vehicles shall be

those established under section 1 of this act. The accumulated value of the payments and the potential investment return thereon shall be designed to be equal to the replacement ~~((value))~~ cost of the vehicle less its salvage value at the end of its anticipated lifetime. The superintendent shall revise at least annually the reimbursement payments based on the current and anticipated future cost of comparable categories of transportation equipment. Reimbursements to school districts for approved transportation equipment shall be placed in a separate ~~((vehicle))~~ transportation vehicle fund established for each school district under RCW 28A.160.130. However, educational service districts providing student transportation services pursuant to RCW 28A.310.180(4) and receiving moneys generated pursuant to this section shall establish and maintain a separate ~~((vehicle))~~ transportation vehicle account in the educational service district's general expense fund for the purposes and subject to the conditions under RCW 28A.160.130 and 28A.320.300.

~~((3))~~ (2) To the extent possible, districts shall operate vehicles acquired under this section not less than the number of years or useful lifetime now, or hereafter, assigned to the ~~((class))~~ category of vehicles by the superintendent. School districts shall properly maintain the transportation equipment acquired under the provisions of this section, in accordance with rules established by the office of the superintendent of public instruction. If a district fails to follow generally accepted standards of maintenance and operation, the superintendent of public instruction shall penalize the district by deducting from future reimbursements under this section an amount equal to the original cost of the vehicle multiplied by the fraction of the useful lifetime or miles the vehicle failed to operate.

~~((4))~~ (3) The superintendent shall annually develop a depreciation schedule to recognize the cost of depreciation to districts contracting with private carriers for student transportation. Payments on this schedule shall be a straight line depreciation based on the original cost of the appropriate category of vehicle.

**Sec. 3.** RCW 28A.335.190 and 1994 c 212 s 1 are each amended to read as follows:

(1) When, in the opinion of the board of directors of any school district, the cost of any furniture, supplies, equipment, building, improvements, or repairs, or other work or purchases, except books, will equal or exceed the sum of fifty thousand dollars, complete plans and specifications for such work or purchases shall be prepared and notice by publication given in at least one newspaper of general circulation within the district, once each week for two consecutive weeks, of the intention to receive bids therefor and that specifications and other information may be examined at the office of the board or any other officially designated location: PROVIDED, That the board without giving such notice may make improvements or repairs to the property of the district through the shop and repair department of such district when the total of such improvements or repair does not exceed the sum of (a) fifteen thousand dollars, for districts with fifteen thousand five hundred or more full-time equivalent students; or (b) for districts

with fewer than fifteen thousand five hundred full-time equivalent students, fifteen thousand dollars if more than one craft or trade is involved with the school district improvement or repair, or ten thousand dollars if a single craft or trade is involved with the school district improvement or repair. The cost of any public work, improvement or repair for the purposes of this section shall be the aggregate of all amounts to be paid for labor, material, and equipment on one continuous or interrelated project where work is to be performed simultaneously or in close sequence. The bids shall be in writing and shall be opened and read in public on the date and in the place named in the notice and after being opened shall be filed for public inspection.

(2) Every purchase of furniture, equipment or supplies, except books, the cost of which is estimated to be in excess of fifteen thousand dollars, shall be on a competitive basis. The board of directors shall establish a procedure for securing telephone and/or written quotations for such purchases. Whenever the estimated cost is from fifteen thousand dollars up to fifty thousand dollars, the procedure shall require quotations from at least three different sources to be obtained in writing or by telephone, and recorded for public perusal. Whenever the estimated cost is in excess of fifty thousand dollars, the public bidding process provided in subsection (1) of this section shall be followed.

(3) Every building, improvement, repair or other public works project, the cost of which is estimated to be in excess of (a) fifteen thousand dollars, for districts with fifteen thousand five hundred or more full-time equivalent students; or (b) for districts with fewer than fifteen thousand five hundred full-time equivalent students, fifteen thousand dollars if more than one craft or trade is involved with the school district improvement or repair, or ten thousand dollars if a single craft or trade is involved with the school district improvement or repair, shall be on a competitive bid process. All such projects estimated to be less than fifty thousand dollars may be awarded to a contractor on the small works roster. The small works roster shall be comprised of all responsible contractors who have requested to be on the list. The board of directors shall establish a procedure for securing telephone and/or written quotations from the contractors on the small works roster to assure establishment of a competitive price and for awarding contracts to the lowest responsible bidder. Such procedure shall require that a good faith effort be made to request quotations from all contractors on the small works roster who have indicated the capability of performing the kind of public works being contracted. Immediately after an award is made, the bid quotations obtained shall be recorded, open to public inspection, and available by telephone inquiry. The small works roster shall be revised at least once each year by publishing notice of such opportunity in at least one newspaper of general circulation in the district. Responsible contractors shall be added to the list at any time they submit a written request. Whenever the estimated cost of a public works project is fifty thousand dollars or more, the public bidding process provided in subsection (1) of this section shall be followed.

(4) The contract for the work or purchase shall be awarded to the lowest responsible bidder as defined in RCW 43.19.1911 but the board may by resolution reject any and all bids and make further calls for bids in the same manner as the original call. On any work or purchase the board shall provide bidding information to any qualified bidder or the bidder's agent, requesting it in person.

(5) In the event of any emergency when the public interest or property of the district would suffer material injury or damage by delay, upon resolution of the board declaring the existence of such an emergency and reciting the facts constituting the same, the board may waive the requirements of this section with reference to any purchase or contract: PROVIDED, That an "emergency", for the purposes of this section, means a condition likely to result in immediate physical injury to persons or to property of the school district in the absence of prompt remedial action.

(6) This section does not apply to the direct purchase of school buses by school districts and educational services in accordance with section 1 of this act.

NEW SECTION. Sec. 4. (1) By December 15, 1996, the superintendent of public instruction, in consultation with the legislative budget committee, shall prepare a report comparing:

- (a) The reimbursement schedule in effect for the 1994-95 school year with the reimbursement schedule adopted for the 1995-96 school year;
- (b) The expected state savings from using the 1995-96 schedule; and
- (c) The price quotes received by the superintendent of public instruction with the prices obtained by school districts and educational service districts.

(2) The report shall be submitted to the fiscal committees of the house of representatives and the senate.

NEW SECTION. Sec. 5. (1) Section 1 of this act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately.

(2) Section 2 of this act shall take effect September 1, 1995.

Passed the Senate May 2, 1995.

Passed the House May 1, 1995.

Approved by the Governor June 14, 1995.

(1) For excess levies for collection in calendar year 1992, the maximum dollar amount shall be calculated pursuant to the laws and rules in effect in November 1991.

(2) For the purpose of this section, the basic education allocation shall be determined pursuant to RCW 28A.150.250, 28A.150.260, and 28A.150.350: PROVIDED, That when determining the basic education allocation under subsection (4) of this section, nonresident full time equivalent pupils who are participating in a program provided for in chapter 28A.545 RCW or in any other program pursuant to an interdistrict agreement shall be included in the enrollment of the resident district and excluded from the enrollment of the serving district.

(3) For excess levies for collection in calendar year 1993 and thereafter, the maximum dollar amount shall be the sum of (a) and (b) of this subsection minus (c) of this subsection:

(a) The district's levy base as defined in subsection (4) of this section multiplied by the district's maximum levy percentage as defined in subsection (5) of this section;

(b) In the case of nonhigh school districts only, an amount equal to the total estimated amount due by the nonhigh school district to high school districts pursuant to chapter 28A.545 RCW for the school year during which collection of the levy is to commence, less the increase in the nonhigh school district's basic education allocation as computed pursuant to subsection (1) of this section due to the inclusion of pupils participating in a program provided for in chapter 28A.545 RCW in such computation;

(c) The maximum amount of state matching funds under RCW 28A.500.010 for which the district is eligible in that tax collection year.

(4) For excess levies for collection in calendar year 1993 and thereafter, a district's levy base shall be the sum of allocations in (a) through (c) of this subsection received by the district for the prior school year, including allocations for compensation increases, plus the sum of such allocations multiplied by the percent increase per full time equivalent student as stated in the state basic education appropriation section of the biennial budget between the prior school year and the current school year and divided by fifty-five percent. A district's levy base shall not include local school district property tax levies or other local

revenues, or state and federal allocations not identified in (a) through (c) of this subsection.

(v) Food services; and

(c) Any other federal allocations for elementary and secondary school programs, including direct grants, other than federal impact aid funds and allocations in lieu of taxes.

(5) For excess levies for collection in calendar year 1993 and thereafter, a district's maximum levy percentage shall be determined as follows:

(a) Multiply the district's maximum levy percentage for the prior year by the district's levy base as determined in subsection (4) of this section;

(b) Reduce the amount in (a) of this subsection by the total estimated amount of any levy reduction funds as defined in subsection (6) of this section which are to be allocated to the district for the current school year;

(c) Divide the amount in (b) of this subsection by the district's levy base to compute a new percentage;

(d) The percentage in (c) of this subsection or twenty percent, whichever is greater, shall be the district's maximum levy percentage for levies collected in that calendar year; and

(e) For levies to be collected in calendar years 1994 (~~and 1995~~) through 1997, the maximum levy rate shall be the district's maximum levy percentage for 1993 plus four percent reduced by any levy reduction funds. For levies collected in (~~1996~~) 1998, the prior year shall mean 1993.

(6) "Levy reduction funds" shall mean increases in state funds from the prior school year for programs included under subsection (4) of this section: (a) That are not attributable to enrollment changes, compensation increases, or inflationary adjustments; and (b) that are or were specifically identified as levy reduction funds in the appropriations act. If levy reduction funds are dependent on formula factors which would not be finalized until after the start of the current school year, the superintendent of public instruction shall estimate the total amount of levy reduction funds by using prior school year data in place of current school year data. Levy reduction funds shall not include moneys received by school districts from cities or counties.

Passed the Senate May 23, 1995.

(8) The term shall not include the sale of or charge made for labor and services rendered in respect to the constructing, repairing, decorating, or improving of new or existing buildings or other structures under, upon, or above real property of or for the United States, any instrumentality thereof, or a county or city housing authority created pursuant to chapter 35.82 RCW, including the installing, or attaching of any article of tangible personal property therein or thereto, whether or not such personal property becomes a part of the realty by virtue of installation. Nor shall the term include the sale of services or charges made for the clearing of land and the moving of earth of or for the United States, any instrumentality thereof, or a county or city housing authority.

*\*Sec. 3. RCW 82.04.290 and 1995 c 229 s 3 are each amended to read as follows:*

*(1) Upon every person engaging within this state in the business of providing selected business services other than or in addition to those enumerated in RCW 82.04.250 or 82.04.270; as to such persons the amount of tax on account of such activities shall be equal to the gross income of the business multiplied by the rate of 2.5 percent.*

*(2) Upon every person engaging within this state in banking, loan, security, investment management, investment advisory, or other financial businesses, other than or in addition to those enumerated in subsection (3) of*

this section; as to such persons, the amount of the tax with respect to such business shall be equal to the gross income of the business, multiplied by the rate of 1.70 percent.

(3) Upon every person engaging within this state in the business of providing international investment management services, as to such persons, the amount of tax with respect to such business shall be equal to the gross income or gross proceeds of sales of the business multiplied by a rate of 0.275 percent.

(4) Upon every person engaging within this state in the business of providing massage services; as to such persons, the amount of the tax with respect to such business shall be equal to the gross income of the business, multiplied by the rate of 0.471 percent.

(5) Upon every person engaging within this state in any business activity other than or in addition to those enumerated in RCW 82.04.230, 82.04.240, 82.04.250, 82.04.255, 82.04.260, 82.04.270, and 82.04.280, and subsections (1)(~~(1-2)~~, and ~~(3)~~) through (4) of this section; as to such persons the amount of tax on account of such activities shall be equal to the gross income of the business multiplied by the rate of 2.0 percent. This section includes, among others, and without limiting the scope hereof (whether or not title to materials used in the performance of such business passes to another by accession, confusion or other than by outright sale), persons engaged in the business of rendering any type of service which does not constitute a "sale at retail" or a "sale at wholesale." The value of advertising, demonstration, and promotional supplies and materials furnished to an agent by his principal or supplier to be used for informational, educational and promotional purposes shall not be considered a part of the agent's remuneration or commission and shall not be subject to taxation under this section.

\*Sec. 3 was vetoed. See message at end of chapter.

\*Sec. 4. RCW 82.04.2201 and 1995 c 229 s 2 are each amended to read as follows:

There is levied and shall be collected for the period July 1, 1993, through June 30, 1997, from every person for the act or privilege of engaging in business activities, as a part of the tax imposed under RCW 82.04.220 through 82.04.280 and 82.04.290 (3) and (~~(4)~~) (5), except RCW 82.04.250(1) and 82.04.260(15), an additional tax equal to 4.5 percent multiplied by the tax payable under those sections.

To facilitate collection of these additional taxes, the department of revenue is authorized to adjust the basic rates of persons to which this section applies in such manner as to reflect the amount to the nearest one-thousandth of one percent of the additional tax hereby imposed, adjusting ten-thousandths equal to or greater than five ten-thousandths to the greater thousandth.

\*Sec. 4 was vetoed. See message at end of chapter.

**NEW SECTION.** Sec. 5. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect July 1, 1995.

Passed the Senate May 23, 1995.

Passed the House May 23, 1995.

Approved by the Governor June 14, 1995, with the exception of certain items which were vetoed.

Filed in Office of Secretary of State June 14, 1995.

Note: Governor's explanation of partial veto is as follows:

"I am returning herewith, without my approval as to sections 3 and 4, Second Engrossed Senate Bill No. 5555 entitled:

"AN ACT Relating to taxation of massage services;"

Second Engrossed Senate Bill No. 5555 provides that massage services no longer would be subject to the retail sales tax, but would continue to be taxed at the same business and occupation tax rate as retailers.

Massage services were added to the list of services subject to the retail sales tax in 1993. The state further agreed that medically-ordered massage was part of physical therapy services and should remain taxable under the service classification. Massage therapists performing both medically-ordered massage and discretionary massage services were forced to report under two classifications.

Massage therapists have argued since the change in 1993 that they are health care professionals and should be taxed, as are most other health care professionals, under the service classification of the business and occupation tax.

Although the bill orders massage services to be taxed under the new, special rate, it does not end the distinction between medically-ordered massage and discretionary massage.

Thus, in order to return the massage therapists to the tax status they enjoyed prior to the 1993 legislative session, I am vetoing sections 3 and 4 of Second Engrossed Senate Bill No. 5555. This will have the effect of removing massage services from the retail sales tax, making all massage services taxable at a single rate. With this veto, massage services will be taxed under the service and other business and occupation tax.

For these reasons, I have vetoed sections 3 and 4 of Second Engrossed Senate Bill No. 5555.

With the exception of sections 3 and 4, Second Engrossed Senate Bill No. 5555 is approved."

[Senate Bill 6010]

### LEARNING ASSISTANCE PROGRAM

AN ACT Relating to the learning assistance program; amending RCW 28A.165.070; and declaring an emergency.

Be it enacted by the Legislature of the State of Washington:

**Sec. I.** RCW 28A.165.070 and 1993 sp.s. c 24 s 520 are each amended to read as follows:

Each school district which has established an approved program shall be eligible, as determined by the superintendent of public instruction, for state funds made available for the purposes of such programs.

(1) For the ~~((1993-94 and 1994-95))~~ 1995-96 school year~~((s))~~ and thereafter, the superintendent of public instruction shall distribute funds appropriated for the learning assistance program in accordance with the biennial appropriations act. The distribution formula shall be based upon an assessment of students and a poverty factor.

~~(2) ((For the 1995-96 school year and thereafter and unless modified under subsection (4) of this section, the superintendent of public instruction shall make use of data derived from the basic skills tests in determining the amount of funds for which a district may be eligible. Funds shall be distributed according to the district's total full-time equivalent enrollment in kindergarten through grade nine and the percentage of the district's students taking the basic skills tests who scored in the lowest quartile as compared with national norms. In making this calculation, the superintendent of public instruction may use an average over the immediately preceding five or fewer years of the district's percentage scoring in the lowest quartile. The superintendent of public instruction shall also deduct the number of students at these age levels who are identified as specific learning disabled and are generating state funds for special education programs conducted pursuant to RCW 28A.155.010 through 28A.155.100, in distributing state funds for learning assistance.~~

~~(3))~~ The distribution ~~((formula in this section))~~ of funds is for allocation purposes only.

~~((4))~~ (3) The superintendent of public instruction shall recommend to the legislature a new allocation formula ~~((for use in the 1995-97 fiscal biennium))~~ that uses additional elements consistent with performance-based education and the new assessment system developed by the commission on student learning. ~~((The superintendent may request a delay in development of the new allocation formula if the commission's assessment system is not available for use in the 1995-97 biennium))~~ The superintendent of public instruction shall develop the recommendations for a new allocation formula not later than the 1997-98 school year, based upon the initial implementation of the assessment system for reading, writing, communication, and mathematics.

***\*NEW SECTION. Sec. 2. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately.***

\*Sec. 2 was vetoed. See message at end of chapter.

Passed the Senate May 16, 1995.

Passed the House May 23, 1995.

Approved by the Governor June 14, 1995, with the exception of certain items which were vetoed.

Filed in Office of Secretary of State June 14, 1995.

Note: Governor's explanation of partial veto is as follows:

"I am returning herewith, without my approval as to section 2, Senate Bill No. 6010 entitled:

"AN ACT Relating to the learning assistance program;"

Senate Bill No. 6010 changes the state funding formula for the learning assistance program beginning with the 1995-96 school year. Section 2 contains an emergency clause indicating this act is necessary "for the immediate preservation of the public peace, health, or safety, or support of the state government." However, the new formula starts with the beginning of the 1995-96 school year, which is not until September 1, 1995. Preventing this bill from being subject to a referendum under Article II, section 1(b) of the state Constitution unnecessarily denies the people of this state their power, at their own option, to approve or reject this bill at the polls.

For this reason, I am vetoing section 2 of Senate Bill No. 6010.

With the exception of section 2, Senate Bill No. 6010 is approved."

## CHAPTER 14

[Second Engrossed Substitute Senate Bill 6049]

### FINANCING OF PUBLIC STADIUMS USED BY PROFESSIONAL SPORTS TEAMS

AN ACT Relating to financing of public stadiums used by professional sports teams; amending RCW 36.100.010, 36.100.020, 36.100.030, 36.100.060, 35.21.280, 36.38.010, and 67.28.180; adding new sections to chapter 36.100 RCW; adding a new section to chapter 82.14 RCW; providing an effective date; and declaring an emergency.

Be it enacted by the Legislature of the State of Washington:

**Sec. 1.** RCW 36.100.010 and 1995 c . . . (Substitute Senate Bill No. 5127) s 1 are each amended to read as follows:

(1) A public facilities district may be created in any county and shall be coextensive with the boundaries of the county.

(2) A public facilities district shall be created upon adoption of a resolution providing for the creation of such a district by the county legislative authority in which the proposed district is located.

(3) A public facilities district is a municipal corporation, an independent taxing "authority" within the meaning of Article VII, section 1 of the state Constitution, and a "taxing district" within the meaning of Article VII, section 2 of the state Constitution.

(4) No taxes authorized under this chapter may be assessed or levied unless a majority of the voters of the public facilities district has ~~((validated the creation of the public facilities district at a general or special election. A single ballot proposition may both authorize the creation of a public facilities district and the imposition of the sales and use tax under RCW 82.14.048 or both the creation of a public facilities district and the imposition of the excise tax under RCW 36.100.040))~~ approved such tax at a general or special election. A single ballot proposition may both validate the imposition of the sales and use tax under RCW 82.14.048 and the excise tax under RCW 36.100.040.

(5) A public facilities district shall constitute a body corporate and shall possess all the usual powers of a corporation for public purposes as well as all other powers that may now or hereafter be specifically conferred by statute,

including, but not limited to, the authority to hire employees, staff, and services, to enter into contracts, and to sue and be sued.

(6) The county legislative authority may transfer property to the public facilities district as part of the process of creating the public facilities district under this chapter.

**Sec. 2.** RCW 36.100.020 and 1995 c . . . (Substitute Senate Bill No. 5127) s 2 are each amended to read as follows:

(1) A public facilities district shall be governed by a board of directors consisting of five or seven members as provided in this section. If the largest city in the county has a population that is at least forty percent of the total county population, the board of directors of the public facilities district shall consist of five members selected as follows: ~~((+))~~ (a) Two members appointed by the county legislative authority to serve for four-year staggered terms; ~~((2))~~ (b) two members appointed by the city council of the largest city in the county to serve for four-year staggered terms; and ~~((3))~~ (c) one person to serve for a four-year term who is selected by the other directors. If the largest city in the county has a population of less than forty percent of the total county population, the county legislative authority shall establish in the resolution creating the public facilities district whether the board of directors of the public facilities district ~~((have))~~ has either five or seven members, and the county legislative authority shall appoint the members of the board of directors to reflect the interests of cities and towns in the county, as well as the unincorporated area of the county. However, if the largest city in the county has a population of less than forty percent of the total county population, and the county operates under a county charter, which provides for an elected county executive, the members shall be appointed by the county executive subject to confirmation by the county legislative authority.

(2) At least one member on the board of directors shall be representative of the lodging industry in the public facilities district before the public facilities district imposes the excise tax under RCW 36.100.040.

(3) Members of the board of directors shall serve four-year terms of office, except that two of the initial five board members or three of the initial seven board members shall serve two-year terms of office.

(4) A vacancy shall be filled in the same manner as the original appointment was made and the person appointed to fill a vacancy shall serve for the remainder of the unexpired term of the office for the position to which he or she was appointed.

(5) A director may be removed from office ~~((for cause))~~ by action of at least two-thirds of the members of the ~~((county legislative))~~ authority which made the appointment.

**Sec. 3.** RCW 36.100.030 and 1995 c . . . (Substitute Senate Bill No. 5127) s 3 are each amended to read as follows:

(1) A public facilities district is authorized to acquire, construct, own, remodel, maintain, equip, reequip, repair, and operate sports facilities, entertainment facilities, or convention facilities, or any combination of such facilities, together with contiguous parking facilities. The taxes that are provided for in this chapter may only be imposed for these purposes.

(2) A public facilities district may enter into agreements under chapter 39.34 RCW for the joint provision and operation of such facilities and may enter into contracts under chapter 39.34 RCW where any party to the contract provides and operates such facilities for the other party or parties to the contract.

(3) Notwithstanding the establishment of a career, civil, or merit service system, a public facility district may contract with a public or private entity for the operation or management of its public facilities.

(4) A public facilities district is authorized to use the supplemental alternative public works contracting procedures set forth in chapter 39.10 RCW in connection with the design, construction, reconstruction, remodel, or alteration of any of its public facilities.

(5) A public facilities district may impose charges and fees for the use of its facilities, and may accept and expend or use gifts, grants, and donations.

**Sec. 4.** RCW 36.100.060 and 1995 c . . . (Substitute Senate Bill No. 5127) s 5 are each amended to read as follows:

(1) To carry out the purpose of this chapter, a public facilities district may issue general obligation bonds, not to exceed an amount, together with any outstanding nonvoter approved general obligation indebtedness, equal to (~~three-eighths~~) one-half of one percent of the value of taxable property within the district, as the term "value of taxable property" is defined in RCW 39.36.015. A facilities district additionally may issue general obligation bonds for capital purposes only, together with any outstanding general obligation indebtedness, not to exceed an amount equal to one and one-fourth percent of the value of the taxable property within the district, as the term "value of taxable property" is defined in RCW 39.36.015, when authorized by the voters of the public facilities district pursuant to Article VIII, section 6 of the state Constitution, and to provide for the retirement thereof by excess property tax levies as provided in this chapter.

(2) General obligation bonds may be issued with a maturity of up to thirty years, and shall be issued and sold in accordance with the provisions of chapter 39.46 RCW.

(3) The general obligation bonds may be payable from the operating revenues of the public facilities district in addition to the tax receipts of the district.

(4) The excise tax imposed pursuant to RCW 36.100.040 shall terminate upon final payment of all bonded indebtedness for its public facilities.

**NEW SECTION.** **Sec. 5.** No direct or collateral attack on any public facilities district purported to be authorized or created in conformance with this

chapter may be commenced more than thirty days after creation by the county legislative authority.

**NEW SECTION.** Sec. 6. (1) The governing board of a public facilities district may apply for deferral of taxes on the construction of buildings, site preparation, and the acquisition of related machinery and equipment for a new public facility. Application shall be made to the department of revenue in a form and manner prescribed by the department of revenue. The application shall contain information regarding the location of the public facility, estimated or actual costs, time schedules for completion and operation, and other information required by the department of revenue. The department of revenue shall approve the application within sixty days if it meets the requirements of this section.

(2) The department of revenue shall issue a sales and use tax deferral certificate for state and local sales and use taxes due under chapters 82.08, 82.12, and 82.14 RCW on the public facility. The use of the certificate shall be governed by rules established by the department of revenue.

(3) The public facilities district shall begin paying the deferred taxes in the fifth year after the date certified by the department of revenue as the date on which the public facility is operationally complete. The first payment is due on December 31st of the fifth calendar year after such certified date, with subsequent annual payments due on December 31st of the following nine years. Each payment shall equal ten percent of the deferred tax.

(4) The department of revenue may authorize an accelerated repayment schedule upon request of the public facilities district.

(5) Interest shall not be charged on any taxes deferred under this section for the period of deferral, although all other penalties and interest applicable to delinquent excise taxes may be assessed and imposed for delinquent payments under this section. The debt for deferred taxes is not extinguished by insolvency or other failure of the public facilities district.

(6) Applications and any other information received by the department of revenue under this section are not confidential and are subject to disclosure. Chapter 82.32 RCW applies to the administration of this section.

(7) As used in this section, "public facility" means a baseball stadium with a retractable roof or canopy and natural turf.

**NEW SECTION.** Sec. 7. A new section is added to chapter 82.14 RCW to read as follows:

(1) The legislative authority of a county with a population of one million or more operating under a county charter may impose a special stadium sales and use tax by resolution adopted on or before December 31, 1995, for collection following its approval by a majority of the voters in the county at a general or special election.

(2) The rate of the tax shall equal one-tenth of one percent of the selling price in the case of a sales tax, or value of the article used in the case of a use

tax. The tax imposed under this section shall not be credited against any other tax imposed upon the same taxable event.

(3) The revenue from the tax imposed under this section shall be used for the purpose of principal and interest payments on bonds issued by a public facilities district, created within the county under chapter 36.100 RCW, to acquire, construct, own, remodel, maintain, equip, reequip, repair, and operate a baseball stadium with a retractable roof or canopy and natural turf. If the revenue from the tax imposed under this section exceeds the amount needed for such principal and interest payments in any year, the excess shall be used solely for either or both: (a) Early retirement of the bonds issued for the baseball stadium; or (b) retirement of bonds issued for expanding, remodeling, repairing, or reequipping of a multipurpose stadium that has a seating capacity over forty-five thousand.

(4) The tax authorized under this section may be collected only after the county executive has certified to the department of revenue that a professional major league baseball team has made a binding and legally enforceable contractual commitment to:

(a) Play at least ninety percent of its home games in the stadium for a period of time not shorter than the term of the bonds issued to finance the initial construction of the stadium;

(b) Contribute principal of forty-five million dollars toward the bonded cost of construction of the stadium, which contribution shall be made during a term not to exceed the term of the bonds issued to finance the initial construction of the stadium. If all or part of the contribution is made after the date of issuance of the bonds, the team shall contribute an additional amount equal to the accruing interest on the deferred portion of the contribution, calculated at the interest rate on the bonds maturing in the year in which the deferred contribution is made; and

(c) Share a portion of the profits generated by the baseball team from the operation of the professional franchise for a period of time equal to the term of the bonds issued to finance the initial construction of the stadium, after offsetting any losses incurred by the baseball team after the effective date of this act. Such profits and the portion to be shared shall be defined by agreement between the public facilities district and the baseball team. The shared profits shall be used to retire the bonds issued to finance the initial construction of the stadium. If the bonds are retired before the expiration of their term, the shared profits shall be paid to the public facilities district.

(5) The tax imposed under this section shall expire when the bonds issued for the construction of the new public facilities are retired, but not later than twenty years after the tax is first collected.

**Sec. 8.** RCW 35.21.280 and 1965 c 7 s 35.21.280 are each amended to read as follows:

Every city and town may levy and fix a tax of not more than one cent on twenty cents or fraction thereof to be paid by the person who pays an admission

charge to any place: PROVIDED, No city or town shall impose such tax on persons paying an admission to any activity of any elementary or secondary school. This includes a tax on persons who are admitted free of charge or at reduced rates to any place for which other persons pay a charge or a regular higher charge for the same privileges or accommodations. A city that is located in a county with a population of one million or more may not levy a tax on events in stadia constructed on or after January 1, 1995, that are owned by county government or a public facilities district under chapter 36.100 RCW and that have seating capacities over forty thousand. The city or town may require anyone who receives payment for an admission charge to collect and remit the tax to the city or town.

The term "admission charge" includes:

- (1) A charge made for season tickets or subscriptions;
- (2) A cover charge, or a charge made for use of seats and tables reserved or otherwise, and other similar accommodations;
- (3) A charge made for food and refreshment in any place where free entertainment, recreation or amusement is provided;
- (4) A charge made for rental or use of equipment or facilities for purposes of recreation or amusement; if the rental of the equipment or facilities is necessary to the enjoyment of a privilege for which a general admission is charged, the combined charges shall be considered as the admission charge;
- (5) Automobile parking charges if the amount of the charge is determined according to the number of passengers in the automobile.

**Sec. 9.** RCW 36.38.010 and 1963 c 4 s 36.38.010 are each amended to read as follows:

(1) Any county may by ordinance enacted by its (~~board of~~) county (~~commissioners~~) legislative authority, levy and fix a tax of not more than one cent on twenty cents or fraction thereof to be paid for county purposes by persons who pay an admission charge to any place, including a tax on persons who are admitted free of charge or at reduced rates to any place for which other persons pay a charge or a regular higher charge for the same or similar privileges or accommodations; and require that one who receives any admission charge to any place shall collect and remit the tax to the county treasurer of the county: PROVIDED, No county shall impose such tax on persons paying an admission to any activity of any elementary or secondary school.

(2) As used in this chapter, the term "admission charge" includes a charge made for season tickets or subscriptions, a cover charge, or a charge made for use of seats and tables, reserved or otherwise, and other similar accommodations; a charge made for food and refreshments in any place where any free entertainment, recreation, or amusement is provided; a charge made for rental or use of equipment or facilities for purpose of recreation or amusement, and where the rental of the equipment or facilities is necessary to the enjoyment of a privilege for which a general admission is charged, the combined charges shall be considered as the admission charge. It shall also include any automobile parking

charge where the amount of such charge is determined according to the number of passengers in any automobile.

(3) The tax herein authorized shall not be exclusive and shall not prevent any city or town within the taxing county, when authorized by law, from imposing within its corporate limits a tax of the same or similar kind: PROVIDED, That whenever the same or similar kind of tax is imposed by any such city or town, no such tax shall be levied within the corporate limits of such city or town by the ~~((board of)) county ((commissioners))~~, except that the legislative authority of a county with a population of one million or more may exclusively levy a tax on events in stadiums constructed on or after January 1, 1995, that are owned by county government or a public facilities district under chapter 36.100 RCW and that have seating capacities over forty thousand at the rate of not more than one cent on twenty cents or fraction thereof.

(4) By contract, the county shall obligate itself to provide the revenue from the tax authorized by this section on events in stadia owned, managed, or operated by a public facilities district, having seating capacities over forty thousand, and constructed on or after January 1, 1995, to the public facilities district.

**Sec. 10.** RCW 67.28.180 and 1995 c . . . (Engrossed Substitute Senate Bill No. 5943) s 8 are each amended to read as follows:

(1) Subject to the conditions set forth in subsections (2) and (3) of this section, the legislative body of any county or any city, is authorized to levy and collect a special excise tax of not to exceed two percent on the sale of or charge made for the furnishing of lodging by a hotel, rooming house, tourist court, motel, trailer camp, and the granting of any similar license to use real property, as distinguished from the renting or leasing of real property: PROVIDED, That it shall be presumed that the occupancy of real property for a continuous period of one month or more constitutes a rental or lease of real property and not a mere license to use or to enjoy the same.

(2) Any levy authorized by this section shall be subject to the following:

(a) Any county ordinance or resolution adopted pursuant to this section shall contain, in addition to all other provisions required to conform to this chapter, a provision allowing a credit against the county tax for the full amount of any city tax imposed pursuant to this section upon the same taxable event.

(b) In the event that any county has levied the tax authorized by this section and has, prior to June 26, 1975, either pledged the tax revenues for payment of principal and interest on city revenue or general obligation bonds authorized and issued pursuant to RCW 67.28.150 through 67.28.160 or has authorized and issued revenue or general obligation bonds pursuant to the provisions of RCW 67.28.150 through 67.28.160, such county shall be exempt from the provisions of (a) of this subsection, to the extent that the tax revenues are pledged for payment of principal and interest on bonds issued at any time pursuant to the provisions of RCW 67.28.150 through 67.28.160: PROVIDED, That so much of such pledged tax revenues, together with any investment earnings thereon, not

immediately necessary for actual payment of principal and interest on such bonds may be used: (i) In any county with a population of one million or more, for repayment either of limited tax levy general obligation bonds or of any county fund or account from which a loan was made, the proceeds from the bonds or loan being used to pay for constructing, installing, improving, and equipping stadium capital improvement projects, and to pay for any engineering, planning, financial, legal and professional services incident to the development of such stadium capital improvement projects, regardless of the date the debt for such capital improvement projects was or may be incurred; or (ii) in other counties, for county-owned facilities for agricultural promotion. A county is exempt under this subsection in respect to city revenue or general obligation bonds issued after April 1, 1991, only if such bonds mature before January 1, 2013.

As used in this subsection (2)(b), "capital improvement projects" may include, but not be limited to a stadium restaurant facility, restroom facilities, artificial turf system, seating facilities, parking facilities and scoreboard and information system adjacent to or within a county owned stadium, together with equipment, utilities, accessories and appurtenances necessary thereto. The stadium restaurant authorized by this subsection (2)(b) shall be operated by a private concessionaire under a contract with the county.

(c) No city within a county exempt under subsection (2)(b) of this section may levy the tax authorized by this section so long as said county is so exempt: PROVIDED, That in the event that any city in such county has levied the tax authorized by this section and has, prior to June 26, 1975, authorized and issued revenue or general obligation bonds pursuant to the provisions of RCW 67.28.150 through 67.28.160, such city may levy the tax so long as the tax revenues are pledged for payment of principal and interest on bonds issued at any time pursuant to the provisions of RCW 67.28.150 through 67.28.160.

(3) Any levy authorized by this section by a county that has levied the tax authorized by this section and has, prior to June 26, 1975, either pledged the tax revenues for payment of principal and interest on city revenue or general obligation bonds authorized and issued pursuant to RCW 67.28.150 through 67.28.160 or has authorized and issued revenue or general obligation bonds pursuant to the provisions of RCW 67.28.150 through 67.28.160 shall be subject to the following:

(a) Taxes collected under this section in any calendar year in excess of five million three hundred thousand dollars shall only be used as follows:

(i) Seventy-five percent from January 1, 1992, through December 31, 2000, and seventy percent from January 1, 2001, through December 31, 2012, for art museums, cultural museums, heritage museums, the arts, and the performing arts. Moneys spent under this subsection (3)(a)(i) shall be used for the purposes of this subsection (3)(a)(i) in all parts of the county.

(ii) Twenty-five percent from January 1, 1992, through December 31, 2000, and thirty percent from January 1, 2001, through December 31, 2012, for the following purposes and in a manner reflecting the following order of priority:

Stadium capital improvements, as defined in subsection (2)(b) of this section; acquisition of open space lands; youth sports activities; and tourism promotion.

Be it enacted by the Legislature of the State of Washington:

**Sec. 1.** RCW 46.20.355 and 1995 c . . . (SSB 5141) s 4 are each amended to read as follows:

(1) Upon placing a license, permit, or privilege to drive in probationary status under RCW 46.20.—(2)(a) (section 3(2)(a), chapter . . . (SSB 5141), Laws of 1995), or upon receipt of an abstract indicating a deferred prosecution has been granted under RCW 10.05.060, or upon receipt of a notice of conviction of RCW 46.61.502 or 46.61.504, the department of licensing shall order the person to surrender any Washington state driver's license that may be in his or her possession. The department shall revoke the license, permit, or privilege to drive of any person who fails to surrender it as required by this section for one year, unless the license has been previously surrendered to the department, a law enforcement officer, or a court, or the person has completed an affidavit of lost, stolen, destroyed, or previously surrendered license, such revocation to take effect thirty days after notice is given of the requirement for license surrender.

(2) The department shall place a person's driving privilege in probationary status as required by RCW 10.05.060 ~~((or))~~, 46.20.308, or 46.61.— (section 5, chapter . . . (SSB 5141), Laws of 1995) for a period of five years from the date the probationary status is required to go into effect.

(3) Following receipt of an abstract indicating a deferred prosecution has been granted under RCW 10.05.060, or following receipt of a sworn report under RCW 46.20.308 that requires immediate placement in probationary status under RCW 46.20.—(2)(a) (section 3(2)(a), chapter . . . (SSB 5141), Laws of 1995), or upon reinstatement or reissuance of a driver's license suspended or revoked as the result of a conviction of RCW 46.61.502 or 46.61.504, the department shall require the person to obtain a probationary license in order to operate a motor vehicle in the state of Washington, except as otherwise exempt under RCW 46.20.025. The department shall not issue the probationary license unless the person is otherwise qualified for licensing, and the person must renew the probationary license on the same cycle as the person's regular license would have been renewed until the expiration of the five-year probationary status period imposed under subsection (2) of this section.

(4) For each original issue or renewal of a probationary license under this section, the department shall charge a fee of fifty dollars in addition to any other licensing fees required. Except for when renewing a probationary license, the department shall waive the fifty-dollar fee if the person has a probationary license in his or her possession at the time a new probationary license is required.

(5) A probationary license shall enable the department and law enforcement personnel to determine that the person is on probationary status. (1) Establish a balanced range of (~~community-based~~) health, social, and supportive services that deliver long-term care services to chronically, functionally disabled persons of all ages;

(2) Ensure that functional (~~disability~~) ability shall be the determining factor in defining long-term care service needs and that these needs will be determined by a uniform system for comprehensively assessing functional disability;

(3) Ensure that services are provided in the most independent living situation consistent with individual needs;

(4) Ensure that long-term care service options shall be developed and made available that enable functionally disabled persons to continue to live in their homes or other community residential facilities while in the care of their families or other volunteer support persons;

(5) Ensure that long-term care services are coordinated in a way that minimizes administrative cost, eliminates unnecessarily complex organization, minimizes program and service duplication, and maximizes the use of financial resources in directly meeting the needs of persons with functional limitations;

(6) Develop a systematic plan for the coordination, planning, budgeting, and administration of long-term care services now fragmented between the division of developmental disabilities, division of mental health, aging and adult services administration, division of children and family services, division of vocational rehabilitation, office on AIDS, division of health, and bureau of alcohol and substance abuse;

(7) Encourage the development of a state-wide long-term care case management system that effectively coordinates the plan of care and services provided to eligible clients;

(8) Ensure that individuals and organizations affected by or interested in long-term care programs have an opportunity to participate in identification of needs and priorities, policy development, planning, and development, implementation, and monitoring of state supported long-term care programs;

(9) Support educational institutions in Washington state to assist in the procurement of federal support for expanded research and training in long-term care; and

(10) Facilitate the development of a coordinated system of long-term care education that is clearly articulated between all levels of higher education and reflective of both in-home care needs and institutional care needs of functionally disabled persons.

*\*Sec. 11. RCW 74.39.040 and 1989 c 427 s 13 are each amended to read as follows:*

~~*((1) A long-term care commission is created. It shall consist of:*~~

~~*(a) Four legislators who shall serve on the executive committee, one from each of the two largest caucuses in the house of representatives and the senate who shall be selected by the president of the senate and the speaker of the house of representatives;*~~

~~*(b) Six members, to be selected by the executive committee, who shall be authorities in gerontology, developmental disabilities, neurological impairments, physical disabilities, mental illness, nursing, long-term care service delivery, long-term care service financing, systems development, or systems analysis;*~~

~~*(c) Three members, to be selected by the executive committee, who represent long-term care consumers, services providers, or advocates;*~~

~~*(d) Two members, to be selected by the executive committee, who represent county government;*~~

~~(e) One member, to be selected by the secretary of social and health services, to represent the department of social and health services long-term care programs, including at least developmental disabilities, mental health, aging and adult services, AIDS, children's services, alcohol and substance abuse, and vocational rehabilitation; and~~

~~(f) Two members, to represent the governor, who shall serve on the executive committee.~~

~~The legislative members shall select a chair from the membership of the commission.~~

~~The commission shall be staffed, to the extent possible, by staff from the appropriate senate and house of representatives committees.~~

~~The commission may form technical advisory committees to assist it with any particular matters deemed necessary by the commission.~~

~~The commission and technical advisory committee members shall receive no compensation, but except for publicly funded agency staff, shall, to the extent funds are available, be reimbursed for their expenses while attending any meetings in the same manner as legislators engaged in interim committee business as specified in RCW 41.04.120.~~

~~The commission may receive appropriations, grants, gifts, and other payments from any governmental or other public or private entity or person which it may use to defray the cost of its operations or to contract for technical assistance, with the approval of the senate committee on facilities and operations and the house of representatives executive rules committee.~~

~~(2) The long-term care commission shall develop legislation and recommend administrative actions necessary to achieve the following long-term care reforms:~~

~~(a) The systematic coordination, planning, budgeting, and administration of long-term care services currently administered by the department of social and health services, division of developmental disabilities, aging and adult services administration, division of vocational rehabilitation, office on AIDS, division of health, and the bureau of alcohol and substance abuse;~~

~~(b)) The legislature finds the intent of the 1989 legislature to reform statutory provisions of long-term care for persons of all ages with chronic functional disability, although not enacted, continues to be applicable. The need to streamline the current bureaucratic fragmentation of chronic health services for the person with functional disabilities and facilitate the development of client centered, accessible, high quality, cost-effective, and appropriate long-term care services options for persons with functional disabilities is even more pressing today. The legislature further finds that if we are going to meet the significant and growing chronic care needs in the next two decades, rapid fundamental changes will need to take place in the way we finance, organize, and provide long-term care services to the functionally disabled. The public demands, and it is the intent of the legislature to reduce the cost and size of~~

government and provide efficient and effective public service to the persons most impaired by chronic functional disability.

To realize the need for a cost-effective, uniform, and fully integrated long-term care system while simultaneously reducing the size and cost of government, the legislative budget committee, in coordination with the Washington health care policy board, shall develop a working plan for long-term care reform, including recommendations and statutory changes, by December 12, 1995, to accomplish the following:

(1) Reorganize and consolidate, on a noncategorical basis, all disease or age-specific (categorical) organizational entities of state administration and their regional elements pertaining to chronic care services to persons with functional mental and physical disabilities, including but not limited to: In the department of social and health services: Health and rehabilitative services and aging and adult services; in the department of health: Aids chronic care and boarding homes; the department of services to the blind; in the department of veterans affairs: Nursing facilities; and in all other state agencies that provide chronic long-term health care services;

(2) Implement a streamlined client centered administrative and delivery system for long-term care services state-wide that incorporates all long-term care services for the person with functional disabilities to include the functionally disabled, developmentally disabled, mentally ill, traumatically brain injured, and others with chronic functional disabilities. The system shall be a single point entry system administered at the local level that allows the person with functional disabilities to obtain needs determination, eligibility screening, priority setting, and services information and assistance. The system shall be designed so that acute health care services are effectively coordinated with long-term care services. The system shall recognize and respect the individuality and dignity of all functionally disabled individuals and promote self-reliance and the preference for the assistance and comfort provided by families, friends, and community volunteers. It shall also recognize the importance of community organizations and the public and private infrastructure in the delivery of care and support. All major points of access into the long-term care system shall be identified and integrated into the system to insure that clients are fully informed of the most appropriate least expensive care options;

(3) Provision of long-term care services to persons based on their functional disabilities noncategorically and in the most independent living situation consistent with the person's needs and preferences;

((e)) (4) A consistent definition of appropriate roles and responsibilities for state and local government, regional organizations, and private organizations in the planning, administration, financing, and delivery of long-term care services;

~~((#))~~ (5) Technical assistance to enable local communities to have greater participation and control in the planning, administration, and provision of long-term care services;

~~((#))~~ (6) A case management system that coordinates an appropriate and cost-effective plan of care and services for eligible functionally disabled persons based on their individual needs and preferences;

~~((#))~~ (7) A sufficient supply of quality institutional and noninstitutional residential alternatives for functionally disabled persons, and supports for the providers of such services;

~~((#))~~ (8) Public and private alternative funding for long-term care services, ~~((such as federal Title XIX funding of personal care services through the limited-casualty program for the medically needy and other optional services)) that includes the promotion of affordable stand alone long-term care insurance options or as part of overall health care insurance benefits, a uniform fee copayment scale for client participation in state-funded, long-term care programs, and private, long-term care insurance;~~

~~((#))~~ (9) A systematic and balanced long-term care services payment and reimbursement system, including a case mix nursing home reimbursement, that will provide access to needed services while controlling the rate of cost increases for such services;

~~((#))~~ (10) Active involvement of volunteers and advocacy groups;

~~((#))~~ (11) An integrated data base that provides long-term care client tracking;

~~((#))~~ (12) A coordinated education system for long-term care to insure client safety and quality of services; ~~(and~~

(#)) (13) Administratively separate the nonmeans tested economic and social welfare and advocacy programs of the older Americans act, 42 U.S.C. Chap 35 and 45 C.F.R. 1321 et seq. from the need and means tested programs for persons with functional disabilities;

(14) Review all activities mandated and expenditures authorized by the senior citizens services act, chapter 74.38 RCW; and identify which funds are being used for functionally disabled seniors and identify how these senior citizens services act funds can be directed to programs serving the most disabled elderly; and

(15) Other issues deemed appropriate by the ~~((implementation team)) joint committee on health systems oversight.~~

The ~~((commission))~~ legislative budget committee shall report to the legislature with its findings, recommendations, and proposed legislation by December ~~((1, 1990)) 12, 1995.~~

\*Sec. 11 was vetoed. See message at end of chapter.

**Sec. 44.** RCW 18.51.300 and 1981 1st ex.s. c 2 s 24 are each amended to read as follows:

Unless specified otherwise by the department, a nursing home shall retain and preserve all records which relate directly to the care and treatment of a patient for a period of no less than (~~ten~~) eight years following the most recent discharge of the patient; except the records of minors, which shall be retained and preserved for a period of no less than three years following attainment of the age of eighteen years, or ten years following such discharge, whichever is longer.

If a nursing home ceases operations, it shall make immediate arrangements, as approved by the department, for preservation of its records.

The department shall by regulation define the type of records and the information required to be included in the records to be retained and preserved under this section; which records may be retained in photographic form pursuant to chapter 5.46 RCW.

**NEW SECTION. Sec. 45.** A new section is added to chapter 18.88A RCW to read as follows:

The legislature recognizes that nurses have been successfully delegating nursing care tasks to family members and auxiliary staff for many years. The opportunity for a nurse to delegate to nursing assistants qualifying under section 46 of this act may enhance the viability and quality of care in community health settings for long-term care services and to allow citizens to live as independently as possible with maximum safeguards.

**NEW SECTION. Sec. 46.** A new section is added to chapter 18.88A RCW to read as follows:

(1) A nurse may delegate specific care tasks to nursing assistants meeting the requirements of this section and who provide care to individuals in community residential programs for the developmentally disabled certified by the department of social and health services under chapter 71A.12 RCW, to individuals residing in adult family homes licensed under chapter 70.128 RCW, and to individuals residing in boarding homes licensed under chapter 18.20 RCW contracting with the department of social and health services to provide assisted living services pursuant to RCW 74.39A.010.

(2) For the purposes of this section, "nursing assistant" means a nursing assistant-registered or a nursing assistant-certified. Nothing in this section may be construed to affect the authority of nurses to delegate nursing tasks to other persons, including licensed practical nurses, as authorized by law.

(3) Before commencing any specific nursing care tasks authorized under this chapter, the nursing assistant must (a) provide to the delegating nurse a certificate of completion issued by the department of social and health services indicating the completion of basic core training as provided in this section, (b) be regulated by the department of health pursuant to this chapter, subject to the uniform disciplinary act under chapter 18.130 RCW, and (c) meet any additional training requirements identified by the nursing care quality assurance commission and authorized by this section.

(4) A nurse may delegate the following care tasks:

- (a) Oral and topical medications and ointments;
- (b) Nose, ear, eye drops, and ointments;
- (c) Dressing changes and catheterization using clean techniques as defined by the nursing care quality assurance commission;
- (d) Suppositories, enemas, ostomy care;
- (e) Blood glucose monitoring;
- (f) Gastrostomy feedings in established and healed condition.

(5) On or before September 1, 1995, the nursing care quality assurance commission, in conjunction with the professional nursing organizations, shall develop rules for nurse delegation protocols and by December 5, 1995, identify training beyond the core training that is deemed necessary for the delegation of complex tasks and patient care.

(6) Nursing task delegation protocols are not intended to regulate the settings in which delegation may occur but are intended to ensure that nursing care services have a consistent standard of practice upon which the public and profession may rely and to safeguard the authority of the nurse to make independent professional decisions regarding the delegation of a task. Protocols shall include at least the following:

(a) Ensure that determination of the appropriateness of delegation of a nursing task is at the discretion of the nurse;

(b) Allow delegation of a nursing care task only for patients who have a stable and predictable condition. "Stable and predictable condition" means a situation, as defined by rule by the nursing care quality assurance commission, in which the patient's clinical and behavioral status is known and does not require frequent presence and evaluation of a registered nurse;

(c) Assure that the delegations of nursing tasks pursuant to this chapter have the written informed consent of the patient consistent with the provisions for informed consent under chapter 7.70 RCW, as well as with the consent of the delegating nurse and nursing assistant. The delegating nurse shall inform patients of the level of training of all care providers in the setting;

(d) Verify that the nursing assistant has completed the core training;

(e) Require assessment by the nurse of the ability and willingness of the nursing assistant to perform the delegated nursing task in the absence of direct nurse supervision and to refrain from delegation if the nursing assistant is not able or willing to perform the task;

(f) Require the nurse to analyze the complexity of the nursing task that is considered for delegation and determine the appropriate level of training and any need of additional training for the nursing assistant;

(g) Require the teaching of the nursing care task to the nursing assistant including return demonstration under observation while performing the task;

(h) Require a plan of nursing supervision and reevaluation of the delegated nursing task. "Nursing supervision" means that the registered nurse monitors by direct observation the skill and ability of the nursing assistant to perform delegated nursing tasks. Frequency of supervision is at the discretion of the registered nurse but shall occur at least every sixty days;

(i) Require instruction to the nursing assistant that the delegated nursing task is specific to a patient and is not transferable;

(j) Require documentation and written instruction related to the delegated nursing task be provided to the nursing assistant and a copy maintained in the patient record;

(k) Ensure that the nursing assistant is prepared to effectively deal with the predictable outcomes of performing the nursing task;

(l) Include in the delegation of tasks an awareness of the nature of the condition requiring treatment, risks of the treatment, side effects, and interaction of prescribed medications;

(m) Require documentation in the patient's record of the rationale for delegating or not delegating nursing tasks.

(7) A basic core training curriculum on providing care for individuals in community residential programs for the developmentally disabled certified by the department of social and health services under chapter 71A.12 RCW shall be in addition to the training requirements specified in subsection (5) of this section. Basic core training shall be developed and adopted by rule by the secretary of the department of social and health services. The department of social and health services shall appoint an advisory panel to assist in the development of core training comprised of representatives of the following:

(a) The division of developmental disabilities;

(b) The nursing care quality assurance commission;

(c) Professional nursing organizations;

(d) A state-wide organization of community residential service providers whose members are programs certified by the department under chapter 71A.12 RCW.

(8) A basic core training curriculum on providing care to residents in residential settings licensed under chapter 70.128 RCW, or in assisted living pursuant to RCW 74.39A.010 shall be mandatory for nursing assistants prior to assessment by a nurse regarding the ability and willingness to perform a delegated nursing task. Core training shall be developed and adopted by rule by the secretary of the department of social and health services, in conjunction with an advisory panel. The advisory panel shall be comprised of representatives from, at a minimum, the following:

(a) The nursing care quality assurance commission;

(b) Professional nurse organizations;

(c) A state-wide association of community residential service providers whose members are programs certified by the department under chapter 71A.12 RCW;

(d) Aging consumer groups;

(e) Associations representing homes licensed under chapters 70.128 and 18.20 RCW; and

(f) Associations representing home health, hospice, and home care agencies licensed under chapter 70.127 RCW.

**NEW SECTION.** Sec. 47. A new section is added to chapter 18.88A RCW to read as follows:

On or before December 1, 1995, the department of health and the department of social and health services, in consultation with the nursing care quality assurance commission, shall develop and clarify program and reimburse-

ment policies, as well as clarify barriers to current delegation, relating to the ability and authority of a nurse to delegate care tasks in the programs and services operating under their authority.

The nursing care quality assurance commission shall develop model forms that will assist in standardizing the practice of delegation.

**NEW SECTION.** Sec. 48. A new section is added to chapter 18.88A RCW to read as follows:

(1) The nurse and nursing assistant shall be accountable for their own individual actions in the delegation process. Nurses acting within the protocols of their delegation authority shall be immune from liability for any action performed in the course of their delegation duties. Nursing assistants following written delegation instructions from registered nurses performed in the course of their accurately written, delegated duties shall be immune from liability.

(2) No person may coerce a nurse into compromising patient safety by requiring the nurse to delegate if the nurse determines it is inappropriate to do so. Nurses shall not be subject to any employer reprisal or disciplinary action by the Washington nursing care quality assurance commission for refusing to delegate tasks or refusing to provide the required training for delegation if the nurse determines delegation may compromise patient safety. Nursing assistants shall not be subject to any employer reprisal or disciplinary action by the nursing care quality assurance commission for refusing to accept delegation of a nursing task. No community residential program, adult family home, or boarding home contracting to provide assisted-living services may discriminate or retaliate in any manner against a person because the person made a complaint or cooperated in the investigation of a complaint.

(3) The department of social and health services shall impose a civil fine of not less than two hundred fifty dollars nor more than one thousand dollars on a community residential program, adult family home, or boarding home under this act that knowingly permits an employee to perform a nursing task except as delegated by a nurse pursuant to this act.

**NEW SECTION.** Sec. 49. A new section is added to chapter 18.88A RCW to read as follows:

The aging and adult services administration of the department of social and health services shall establish a toll-free telephone number for receiving complaints regarding delegation of specific nursing tasks to nursing assistants, in conjunction with any other such system maintained for long-term care services. Complaints specifically related to nurse-delegation shall be referred to the nursing care quality assurance commission for appropriate disposition in accordance with established procedures.

(3) This section does not prohibit (a) the nursing care of the sick, without compensation, by an unlicensed person who does not hold himself or herself out to be a registered nurse, ~~((or))~~ (b) the practice of licensed practical nursing by a licensed practical nurse, or (c) the practice of a nursing assistant, providing delegated nursing tasks under chapter 18.88A RCW.

(4) Certification is voluntary for nursing assistants working in health care facilities other than nursing homes unless otherwise required by state or federal law or regulation.

(b) Such transfer establishes a period of ineligibility for such service under state or federal laws or regulations; and

(c) The department provides coverage for such services during the period of ineligibility because the failure to provide such coverage would result in an undue hardship for the applicant or recipient.

(2) The civil fine imposed under this section shall be imposed in a judicial proceeding initiated by the department and shall equal (a) up to one hundred fifty percent of the amount the department expends for the care of the applicant or recipient during the period of ineligibility attributable to the amount transferred to the person subject to the civil fine plus (b) the department's court costs and legal fees.

(2) The department may hire such other agencies and professionals on a contingency basis or otherwise as are necessary and cost-effective to collect bad debts owed to the department for long-term care services.

**Sec. 58.** RCW 11.40.010 and 1994 c 221 s 25 are each amended to read as follows:

Every personal representative shall, after appointment and qualification, give a notice to the creditors of the deceased, stating such appointment and qualification as personal representative and requiring all persons having claims against the deceased to serve the same on the personal representative or the estate's attorney of record, and file an executed copy thereof with the clerk of the court, within four months after the date of the first publication of such notice described in this section or within four months after the date of the filing of the copy of such notice with the clerk of the court, whichever is the later, or within the time otherwise provided in RCW 11.40.013. The four-month time period after the later of the date of the first publication of the notice to creditors or the date of the filing of such notice with the clerk of the court is referred to in this chapter as the "four-month time limitation." Such notice shall be given as follows:

(1) The personal representative shall give actual notice, as provided in RCW 11.40.013, to such creditors who become known to the personal representative within such four-month time limitation;

(2) The personal representative shall cause such notice to be published once in each week for three successive weeks in the county in which the estate is being administered; ~~(and)~~

Except as otherwise provided in RCW 11.40.011 or 11.40.013, any claim not filed within the four-month time limitation shall be forever barred, if not already barred by any otherwise applicable statute of limitations. This bar is effective as to claims against both the decedent's probate assets and nonprobate assets as described in RCW 11.18.200. Proof by affidavit of the giving and publication of such notice shall be filed with the court by the personal representative.

Acts of a notice agent in complying with chapter 221, Laws of 1994 may be adopted and ratified by the personal representative as if done by the personal representative in complying with this chapter, except that if at the time of the appointment and qualification of the personal representative a notice agent had commenced nonprobate notice to creditors under chapter 11.42 RCW, the personal representative shall give published notice as provided in RCW 11.42.180.

**Sec. 59.** RCW 11.42.020 and 1994 c 221 s 32 are each amended to read as follows:

(1) The notice agent may give nonprobate notice to the creditors of the decedent if:

(a) As of the date of the filing of a copy of the notice with the clerk of the superior court for the notice county, the notice agent has no knowledge of the appointment and qualification of a personal representative in the decedent's estate in the state of Washington or of another person becoming a notice agent; and

(b) According to the records of the clerk of the superior court for the notice county as of 8:00 a.m. on the date of the filing, no personal representative of the decedent's estate had been appointed and qualified and no cause number regarding the decedent had been issued to any other notice agent by the clerk under RCW 11.42.010.

(2) The notice must state that all persons having claims against the decedent shall: (a) Serve the same on the notice agent if the notice agent is a resident of the state of Washington upon whom service of all papers may be made, or on the nonprobate resident agent for the notice agent, if any, or on the attorneys of record of the notice agent at their respective address in the state of Washington; and (b) file an executed copy of the notice with the clerk of the superior court for the notice county, within: (i)(A) Four months after the date of the first publication of the notice described in this section; or (B) four months after the date of the filing of the copy of the notice with the clerk of the superior court for the notice county, whichever is later; or (ii) the time otherwise provided in RCW 11.42.050. The four-month time period after the later of the date of the first publication of the notice to creditors or the date of the filing of the notice with the clerk of the court is referred to in this chapter as the "four-month time limitation."

(3) The notice agent shall declare in the notice in affidavit form or under the penalty of perjury under the laws of the state of Washington as provided in RCW 9A.72.085 that: (a) The notice agent is entitled to give the nonprobate notice under subsection (1) of this section; and (b) the notice is being given by the notice agent as permitted by this section.

(4) The notice agent shall sign the notice and file it with the clerk of the superior court for the notice county. The notice must be given as follows:

(a) The notice agent shall give actual notice as to creditors of the decedent who become known to the notice agent within the four-month time limitation as required in RCW 11.42.050;

(b) The notice agent shall cause the notice to be published once in each week for three successive weeks in the notice county; ~~((and))~~

(c) The notice agent shall file a copy of the notice with the clerk of the superior court for the notice county; and

(d) The notice agent shall mail a copy of the notice, including the decedent's social security number, to the state of Washington, department of social and health services, office of financial recovery.

(5) A claim not filed within the four-month time limitation is forever barred, if not already barred by an otherwise applicable statute of limitations, except as provided in RCW 11.42.030 or 11.42.050. The bar is effective to bar claims against both the probate estate of the decedent and nonprobate assets that were subject to satisfaction of the decedent's general liabilities immediately before the decedent's death. If a notice to the creditors of a decedent is published by more than one notice agent and the notice agents are not acting jointly, the four-month time limitation means the four-month time limitation that applies to the notice

agent who first publishes the notice. Proof by affidavit or perjury declaration made under RCW 9A.72.085 of the giving and publication of the notice must be filed with the clerk of the superior court for the notice county by the notice agent.

**Sec. 62.** RCW 18.39.250 and 1989 c 390 s 3 are each amended to read as follows:

(1) Any funeral establishment selling funeral merchandise or services by prearrangement funeral service contract and accepting moneys therefore shall establish and maintain one or more prearrangement funeral service trusts under Washington state law with two or more designated trustees, for the benefit of the beneficiary of the prearrangement funeral service contract or may join with one or more other Washington state licensed funeral establishments in a "master trust" provided that each member of the "master trust" shall comply individually with the requirements of this chapter.

(2) Up to ten percent of the cash purchase price of each prearrangement funeral service contract, excluding sales tax, may be retained by the funeral establishment unless otherwise provided in this chapter. If the prearrangement funeral service contract is canceled within thirty calendar days of its signing, then the purchaser shall receive a full refund of all moneys paid under the contract.

(3) At least ninety percent of the cash purchase price of each prearrangement funeral service contract, paid in advance, excluding sales tax, shall be placed in the trust established or utilized by the funeral establishment. Deposits to the prearrangement funeral service trust shall be made not later than the twentieth day of the month following receipt of each payment made on the last ninety percent of each prearrangement funeral service contract, excluding sales tax.

(4) All prearrangement funeral service trust moneys shall be deposited in an insured account in a qualified public depository or shall be invested in instruments issued or insured by any agency of the federal government if these securities are held in a public depository. The account shall be designated as the prearrangement funeral service trust of the funeral establishment for the benefit of the beneficiaries named in the prearrangement funeral service contracts. The prearrangement funeral service trust shall not be considered as, nor shall it be used as, an asset of the funeral establishment.

(5) After deduction of reasonable fees for the administration of the trust, taxes paid or withheld, or other expenses of the trust, all interest, dividends, increases, or accretions of whatever nature earned by a trust shall be kept unimpaired and shall become a part of the trust. Adequate records shall be maintained to allocate the share of principal and interest to each contract. Fees deducted for the administration of the trust shall not exceed one percent of the face amount of the prearrangement funeral service contract per annum. In no instance shall the administrative charges deducted from the prearrangement funeral service trust reduce, diminish, or in any other way lessen the value of the trust so that the services or merchandise provided for under the contract are reduced, diminished, or in any other way lessened.

(6) Except as otherwise provided in this chapter, the trustees of a prearrangement funeral service trust shall permit withdrawal of all funds deposited under a prearrangement funeral service contract, plus accruals thereon, under the following circumstances and conditions:

(a) If the funeral establishment files a verified statement with the trustees that the prearrangement funeral merchandise and services covered by the contract have been furnished and delivered in accordance therewith; or

(b) If the funeral establishment files a verified statement with the trustees that the prearrangement funeral merchandise and services covered by the contract have been canceled in accordance with its terms.

(7) Subsequent to the thirty calendar day cancellation period provided for in this chapter, any purchaser or beneficiary who has a revocable prearrangement funeral service contract has the right to demand a refund of the amount in trust.

(8) Prearrangement funeral service contracts which have or should have an account in a prearrangement funeral service trust may be terminated by the board if the funeral establishment goes out of business, becomes insolvent or bankrupt, makes an assignment for the benefit of creditors, has its prearrangement funeral service certificate of registration revoked, or for any other reason is unable to fulfill the obligations under the contract. In such event, or upon demand by the purchaser or beneficiary of the prearrangement funeral service contract, the funeral establishment shall refund to the purchaser or beneficiary all moneys deposited in the trust and allocated to the contract unless otherwise ordered by a court of competent jurisdiction. The purchaser or beneficiary may, in lieu of a refund, elect to transfer the prearrangement funeral service contract and all amounts in trust to another funeral establishment licensed under this chapter which will agree, by endorsement to the contract, to be bound by the contract and to provide the funeral merchandise or services. Election of this option shall not relieve the defaulting funeral establishment of its obligation to the purchaser or beneficiary for any amounts required to be, but not placed, in trust.

(9) Prior to the sale or transfer of ownership or control of any funeral establishment which has contracted for prearrangement funeral service contracts, any person, corporation, or other legal entity desiring to acquire such ownership or control shall apply to the director in accordance with RCW 18.39.145. Persons and business entities selling or relinquishing, and persons and business entities purchasing or acquiring ownership or control of such funeral establishments shall each verify and attest to a report showing the status of the prearrangement funeral service trust or trusts on the date of the sale. This report shall be on a form prescribed by the board and shall be considered part of the application for a funeral establishment license. In the event of failure to comply with this subsection, the funeral establishment shall be deemed to have gone out of business and the provisions of subsection (8) of this section shall apply.

(10) Prearrangement funeral service trust moneys shall not be used, directly or indirectly, for the benefit of the funeral establishment or any director, officer, agent, or employee of the funeral establishment including, but not limited to, any encumbrance, pledge, or other use of prearrangement funeral service trust moneys as collateral or other security.

(11)(a) If, at the time of the signing of the prearrangement funeral service contract, the beneficiary of the trust is a recipient of public assistance as defined

in RCW 74.04.005, or reasonably anticipates being so defined, the contract may provide that the trust will be irrevocable. If after the contract is entered into, the beneficiary becomes eligible or seeks to become eligible for public assistance under Title 74 RCW, the contract may provide for an election by the beneficiary, or by the purchaser on behalf of the beneficiary, to make the trust irrevocable thereafter in order to become or remain eligible for such assistance.

(b) The department of social and health services shall notify the trustee of any prearrangement service trust that the department has a claim on the estate of a beneficiary for long-term care services. Such notice shall be renewed at least every three years. The trustees upon becoming aware of the death of a beneficiary shall give notice to the department of social and health services, office of financial recovery, who shall file any claim there may be within thirty days of the notice.

(12) Every prearrangement funeral service contract financed through a prearrangement funeral service trust shall contain language which:

(a) Informs the purchaser of the prearrangement funeral service trust and the amount to be deposited in the trust;

(b) Indicates if the contract is revocable or not in accordance with subsection (11) of this section;

(c) Specifies that a full refund of all moneys paid on the contract will be made if the contract is canceled within thirty calendar days of its signing;

(d) Specifies that, in the case of cancellation by a purchaser or beneficiary eligible to cancel under the contract or under this chapter, up to ten percent of the contract amount may be retained by the seller to cover the necessary expenses of selling and setting up the contract;

(e) Identifies the trust to be used and contains information as to how the trustees may be contacted.

(3) A resident shall be transferred or discharged only for medical reasons, the resident's welfare or request, the welfare of other residents, or nonpayment. A resident may not be discharged for nonpayment if the discharge would be prohibited by the medicaid program.

(4) If a resident chooses to remain in the nursing facility, the department shall respect that choice, provided that if the resident is a medicaid recipient, the resident continues to require a nursing facility level of care.

(5) If the department determines that a resident no longer requires a nursing facility level of care, the resident shall not be discharged from the nursing facility until at least thirty days after written notice is given to the resident, the resident's surrogate decision maker and, if appropriate, a family member or the resident's representative. A form for requesting a hearing to appeal the discharge decision shall be attached to the written notice. The written notice shall include at least the following:

(a) The reason for the discharge;

(b) A statement that the resident has the right to appeal the discharge; and

(c) A health care facility (or portion thereof) if (i) the facility is or will be leased by a health maintenance organization or combination of health maintenance organizations which has, in the service area of the organization or the service areas of the organizations in the combination, an enrollment of at least fifty thousand individuals and, on the date the application is submitted under subsection (2) of this section, at least fifteen years remain in the term of the lease, (ii) the facility is or will be geographically located so that the service will be reasonably accessible to such enrolled individuals, and (iii) at least seventy-five percent of the patients who can reasonably be expected to receive the tertiary health service will be individuals enrolled with such organization; if, with respect to such offering or obligation by a nursing home, the department has, upon application under subsection (2) of this section, granted an exemption from such requirement to the organization, combination of organizations, or facility.

(2) A health maintenance organization, combination of health maintenance organizations, or health care facility shall not be exempt under subsection (1) of this section from obtaining a certificate of need before offering a tertiary health service unless:

(b) The application contains such information respecting the organization, combination, or facility and the proposed offering or obligation by a nursing home as the department may require to determine if the organization or combination meets the requirements of subsection (1) of this section or the facility meets or will meet such requirements; and

(c) The department approves such application. The department shall approve or disapprove an application for exemption within thirty days of receipt of a completed application. In the case of a proposed health care facility (or portion thereof) which has not begun to provide tertiary health services on the

date an application is submitted under this subsection with respect to such facility (or portion), the facility (or portion) shall meet the applicable requirements of subsection (1) of this section when the facility first provides such services. The department shall approve an application submitted under this subsection if it determines that the applicable requirements of subsection (1) of this section are met.

(3) A health care facility (or any part thereof) with respect to which an exemption was granted under subsection (1) of this section may not be sold or leased and a controlling interest in such facility or in a lease of such facility may not be acquired and a health care facility described in (1)(c) which was granted an exemption under subsection (1) of this section may not be used by any person other than the lessee described in (1)(c) unless:

(5)(a) The department shall not require a certificate of need for the construction, development, or other establishment of a nursing home, or the addition of beds to an existing nursing home, that is owned and operated by a continuing care retirement community that:

(i) Offers services only to contractual members;

(ii) Provides its members a contractually guaranteed range of services from independent living through skilled nursing, including some assistance with daily living activities;

(iii) Contractually assumes responsibility for the cost of services exceeding the member's financial responsibility under the contract, so that no third party, with the exception of insurance purchased by the retirement community or its members, but including the medicaid program, is liable for costs of care even if the member depletes his or her personal resources;

(iv) Has offered continuing care contracts and operated a nursing home continuously since January 1, 1988, or has obtained a certificate of need to establish a nursing home;

(vii) Has obtained a professional review of pricing and long-term solvency within the prior five years which was fully disclosed to members.

(b) A continuing care retirement community shall not be exempt under this subsection from obtaining a certificate of need unless:

(ii) The application documents to the department that the continuing care retirement community qualifies for exemption.

(c) The sale, lease, acquisition, or use of part or all of a continuing care retirement community nursing home that qualifies for exemption under this subsection shall require prior certificate of need approval to qualify for licensure as a nursing home unless the department determines such sale, lease, acquisition, or use is by a continuing care retirement community that meets the conditions of (a) of this subsection.

(6) A rural hospital, as defined by the department, reducing the number of licensed beds to become a rural primary care hospital under the provisions of Part A Title XVIII of the Social Security Act Section 1820, 42 U.S.C., 1395c et seq. may, within three years of the reduction of beds licensed under chapter 70.41 RCW, increase the number of licensed beds to no more than the previously licensed number without being subject to the provisions of this chapter.

(7) A rural health care facility licensed under RCW 70.175.100 formerly licensed as a hospital under chapter 70.41 RCW may, within three years of the effective date of the rural health care facility license, apply to the department for a hospital license and not be subject to the requirements of RCW 70.38.105(4)(a) as the construction, development, or other establishment of a new hospital, provided there is no increase in the number of beds previously licensed under chapter 70.41 RCW and there is no redistribution in the number of beds used for acute care or long-term care, the rural health care facility has been in continuous operation, and the rural health care facility has not been purchased or leased.

(8)(a) A nursing home that voluntarily reduces the number of its licensed beds to provide assisted living, licensed boarding home care, adult day care, adult day health, respite care, hospice, outpatient therapy services, congregate meals, home health, or senior wellness clinic, or to reduce to one or two the number of beds per room or to otherwise enhance the quality of life for residents in the nursing home, may convert the original facility or portion of the facility back, and thereby increase the number of nursing home beds to no more than the

previously licensed number of nursing home beds without ~~((being subject to the provisions of this chapter except under RCW 70.38.105(4)(d)))~~ obtaining a certificate of need under this chapter, provided the facility has been in continuous operation and has not been purchased or leased. Any conversion to the original licensed bed capacity, or to any portion thereof, shall comply with the same life and safety code requirements as existed at the time the nursing home voluntarily reduced its licensed beds; unless waivers from such requirements were issued, in which case the converted beds shall reflect the conditions or standards that then existed pursuant to the approved waivers.

(b) To convert beds back to nursing home beds under this subsection, the nursing home must:

(i) Give notice of its intent to preserve conversion options to the department of health no later than thirty days after the effective date of the license reduction; and

(ii) Give notice to the department of health and to the department of social and health services of the intent to convert beds back. If construction is required for the conversion of beds back, the notice of intent to convert beds back must be given no later than two years prior to the effective date of license modification reflecting the restored beds; otherwise, the notice must be given no later than one year prior to the effective date of license modification reflecting the restored beds.

A health care facility, or any part thereof, with respect to which a certificate of need was issued under this subsection may not be sold or leased and a controlling interest in such facility or in a lease of such facility may not be acquired unless the department issues a certificate of need approving the sale, acquisition, or lease.

(4) Until the final expiration of the state health plan as provided under RCW 70.38.919, the decision of the department on a certificate of need application shall be consistent with the state health plan in effect, except in emergency circumstances which pose a threat to the public health. Categories of projects subject to concurrent review include at least new health care facilities, new services, and expansion of existing health care facilities. The department shall specify time periods for the submission of applications for certificates of need subject to concurrent review, which shall not exceed ninety days. Review of concurrent applications shall start fifteen days after the conclusion of the time period for submission of applications subject to concurrent review. (8) Review periods for certificate of need applications other than those subject to concurrent review shall be limited to ninety days. Review periods

(b) An expansion of a service subject to review beyond that originally approved;

(c) An increase in bed capacity;

(d) A significant reduction in the scope of a nursing home project without a commensurate reduction in the cost of the nursing home project, or a cost increase (as represented in bids on a nursing home construction project or final cost estimates acceptable to the person to whom the certificate of need was issued) if the total of such increases exceeds twelve percent or fifty thousand dollars, whichever is greater, over the maximum capital expenditure approved. The review of reductions or cost increases shall be restricted to the continued conformance of the nursing home project with the review criteria pertaining to financial feasibility and cost containment.

(12) An application for a certificate of need for a nursing home capital expenditure which is determined by the department to be required to eliminate

or prevent imminent safety hazards or correct violations of applicable licensure and accreditation standards shall be approved.

~~(13) (In the case of an application for a certificate of need to replace existing nursing home beds, all criteria must be met on the same basis as an application for a certificate of need for a new nursing home, except that the need criteria shall be deemed met if the applicant is an existing licensee who proposes to replace existing beds that the licensee has operated for at least one year with the same or fewer number of beds in the same planning area))~~ (a) Replacement of existing nursing home beds in the same planning area by an existing licensee who has operated the beds for at least one year shall not require a certificate of need under this chapter. The licensee shall give written notice of its intent to replace the existing nursing home beds to the department and shall provide the department with information as may be required pursuant to rule. Replacement of the beds by a party other than the licensee is subject to certificate of need review under this chapter, except as otherwise permitted by subsection (14) of this section.

(b) When an entire nursing home ceases operation, ((its beds shall be treated as existing nursing home beds for purposes of replacement)) the licensee or any other party who has secured an interest in the beds may reserve his or her interest in the beds for eight years or until a certificate of need to replace them is issued, whichever occurs first. However, the nursing home, licensee, or any other party who has secured an interest in the beds must give notice of its intent to retain the beds to the department of health no later than thirty days after the effective date of the facility's closure. Certificate of need review shall be required for any party who has reserved the nursing home beds except that the need criteria shall be deemed met when the applicant is the licensee who had operated the beds for at least one year, who has operated the beds for at least one year immediately preceding the reservation of the beds, and who is replacing the beds in the same planning area.

(14) In the event that a licensee, who has provided the department with notice of his or her intent to replace nursing home beds under subsection (13)(a) of this section, engages in unprofessional conduct or becomes unable to practice with reasonable skill and safety by reason of mental or physical condition, pursuant to chapter 18.130 RCW, or dies, the building owner shall be permitted to complete the nursing home bed replacement project, provided the building owner has secured an interest in the beds.

Such amounts of money shall be recoverable in an action brought by the attorney general on behalf of the state in the superior court of any county in which the unauthorized undertaking occurred. Any amounts of money so recovered by the attorney general shall be deposited in the state general fund.

**Sec. 82.** RCW 74.34.010 and 1984 c 97 s 7 are each amended to read as follows:

The legislature finds that frail elders and vulnerable adults may be subjected to abuse, neglect, exploitation, or abandonment. The legislature finds that there are a number of adults sixty years of age or older who lack the ability to perform or obtain those services necessary to maintain or establish their well-being. The legislature finds that many frail elders and vulnerable adults have health problems that place them in a dependent position. The legislature further finds that a significant number of frail elders and vulnerable adults have mental and verbal limitations that leave them vulnerable and incapable of asking for help and protection.

It is the intent of the legislature to prevent or remedy the abuse, neglect, exploitation, or abandonment of persons sixty years of age or older who have a functional, mental, or physical inability to care for or protect themselves.

It is the intent of the legislature to assist frail elders and vulnerable adults by providing these persons with the protection of the courts and with the least-

restrictive services, such as home care, and by preventing or reducing inappropriate institutional care. The legislature finds that it is in the interests of the public health, safety, and welfare of the people of the state to provide a procedure for identifying these vulnerable persons and providing the services and remedies necessary for their well-being.

**Sec. 83.** RCW 74.34.100 and 1986 c 187 s 4 are each amended to read as follows:

The legislature finds that frail elders and vulnerable adults(~~(-)~~) who are (~~(physically or emotionally)~~) abused, neglected, abandoned, or (~~(financially)~~) exploited may need the protection of the courts. The legislature further finds that many of these elderly or vulnerable persons may be homebound or otherwise may be unable to represent themselves in court or to retain legal counsel in order to obtain the relief available to them under this chapter.

It is the intent of the legislature to improve access to the courts for victims of abuse, neglect, exploitation, and abandonment in order to better protect the state's frail elderly and vulnerable adults.

**Sec. 84.** RCW 74.34.020 and 1984 c 97 s 8 are each amended to read as follows:

(4) "Department" means the department of social and health services.

This action shall be available where the defendant is or was a corporation, trust, unincorporated association, partnership, administrator, employee, agent, officer, partner, or director of a long-term care facility, such as a nursing home or boarding home, that is licensed or required to be licensed under chapter 18.20, 18.51, 72.36, or 70.128 RCW, or of a home health, hospice, or home care agency licensed or required to be licensed under chapter 70.127 RCW, as now or subsequently designated.

(2) It is the intent of the legislature, however, that where there is a dispute about the care or treatment of a frail elder or vulnerable adult, the parties should use the least formal means available to try to resolve the dispute. Where feasible, parties are encouraged but not mandated to employ direct discussion with the health care provider, use of the long-term care ombudsman or other intermediaries, and, when necessary, recourse through licensing or other regulatory authorities.

(3) In an action brought under this section, a prevailing plaintiff shall be awarded his or her actual damages, together with the costs of the suit, including a reasonable attorney's fee. The term "costs" includes, but is not limited to, the reasonable fees for a guardian, guardian ad litem, and experts, if any, that may be necessary to the litigation of a claim brought under this section.

**NEW SECTION.** Sec. 86. A new section is added to chapter 74.34 RCW to read as follows:

A petition for an order for protection or an action for damages under this chapter may be brought by the plaintiff, or where necessary, by his or her family members and/or guardian or legal fiduciary, or as otherwise provided under this chapter. The death of the plaintiff shall not deprive the court of jurisdiction over a petition or claim brought under this chapter. Upon petition, after the death of the vulnerable person, the right to initiate or maintain the action shall be transferred to the executor or administrator of the deceased, for the benefit of the surviving spouse, child or children, or other heirs set forth in chapter 4.20 RCW.

The agreements shall cover such subjects as the appropriate roles and responsibilities of the department and community-based agencies in identifying and responding to reports of ~~((elderly))~~ abuse, the provision of case-management services, standardized data collection procedures, and related coordination activities.

**Sec. 88.** RCW 74.34.030 and 1986 c 187 s 1 are each amended to read as follows:

**Sec. 99.** RCW 74.46.420 and 1993 sp.s. c 13 s 7 are each amended to read as follows:

The following principles are inherent in RCW 74.46.430 through 74.46.590:

(1) ~~((Reimbursement))~~ Effective July 1, 1995, through June 30, 1998, nursing facility payment rates will be set or adjusted for economic trends and conditions annually and prospectively on a per ((patient)) resident day basis ((on a two-year cycle corresponding to each state biennium; and)), in accordance with the principles and methods set forth in this chapter, to take effect July 1st of each year.

~~(2) ((The rates, in the nursing services, food, administrative, and operational cost centers, shall be adjusted downward or upward when set effective July 1 of the first fiscal year of the two year rate setting cycle and adjusted again downward or upward effective July 1 of the second fiscal year of the rate setting cycle for economic trends and conditions)) July 1, 1995, component rates in the nursing services, food, administrative, and operational cost centers shall be cost-rebased utilizing desk-reviewed and adjusted costs reported for calendar year 1994, for all nursing facilities submitting at least six months of cost data. Such component rates for July 1, 1995, shall also be adjusted downward or upward for economic trends and conditions as provided in this section. Component rates in property and return on investment (ROI) shall be reset annually as provided in this chapter.~~

(3) The July 1, 1995, component rates ((for the first year of each biennium)) in the nursing services, food, administrative, and operational cost centers shall be adjusted for economic trends and conditions by the change in the implicit price deflator for personal consumption expenditures index published by the bureau of labor statistics of the United States department of labor (IPD index). The period used to measure the IPD increase or decrease to be applied to these ((first year biennial)) July 1, 1995, rate((s)) components shall be ((the)) calendar year ((preceding the July 1 commencement of the state biennium)) 1994.

~~(4) ((The July 1 rates for the second year of each biennium shall be adjusted)) July 1, 1996, component rates in the nursing services, food, administrative, and operational cost centers shall not be cost-rebased, but shall be the component rates assigned to each nursing facility in effect on June 30, 1996, adjusted downward or upward for economic trends and conditions by the change in the nursing home input price index without capital costs published by the health care financing administration of the department of health and human services((;)) (HCFA index((, however, any increase shall be multiplied by one and one half))). The period to be used to measure the HCFA index increase ((to be multiplied by one and one half and applied)) or decrease to be applied to these ((second year biennial)) June 30, 1996, component rates shall ((also)) be ((the)) calendar year ((preceding the July 1 commencement of the state biennium: PROVIDED, However, That in the event the change in the HCFA index measured over the following calendar year, the one terminating six months after the start of the state biennium, is twenty five percent greater or less than the change in the HCFA index measured over the calendar year preceding commencement of the state biennium, the department shall use the HCFA index increase multiplied by one and one half or decrease in such following calendar year to inflate or decrease nursing facilities' nursing services, food, administrative, and operational rates for July 1 of the second biennial year)) 1994.~~

(5) July 1, 1997, component rates in the nursing services, food, administrative, and operational cost centers shall not be cost-rebased, hut shall be the component rates assigned to each nursing facility in effect on June 30, 1997, adjusted downward or upward for economic trends and conditions by the change

in the nursing home input price index without capital costs published by the health care financing administration of the department of health and human services (HCFA index), multiplied by a factor of 1.25. The period to be used to measure the HCFA increase or decrease to be applied to these rate components for July 1, 1997, rate setting shall be calendar year 1996.

(6) If either the implicit price deflator (IPD) index or the health care financing administration (HCFA) index specified in this section ceases to be published in the future, the department shall select ((by rule)) and use in its place or their place one or more measures of change from the same or an alternate source or sources ((for)) utilizing the same or comparable time periods specified in this section.

**Sec. 100.** RCW 74.46.430 and 1993 sp.s. c 13 s 8 are each amended to read as follows:

(1) The department, as provided by this chapter, will determine prospective ((cost-related reimbursement)) payment rates for services provided to medical care recipients. Each rate so determined shall represent the contractor's maximum compensation within each cost center and for return on investment for each ((patient)) resident day for such medical care recipient.

(2) ((As required,)) The department may modify such maximum per ((patient)) resident day rates, consistent with this chapter, pursuant to the administrative ((review provisions of)) appeals or exception procedure authorized by RCW 74.46.780.

(3) For July 1, 1995, and all following rates, the maximum prospective ((reimbursement)) component payment rates for the nursing services, food, administrative, operational, and property cost centers, and the return on investment (ROI) component rate for each nursing facility shall be established based upon a minimum licensed bed facility occupancy level of ((eighty-five)) ninety percent, except for rate adjustments as provided for in RCW 74.46.460(6).

(4) The minimum ninety percent facility occupancy shall be used to calculate individual rates, to calculate the median cost limits (MCLs) for the metropolitan statistical area (MSA) and nonmetropolitan statistical area (non-MSA) peer groups, and to array facilities by costs in calculating the variable return portion of the return on investment rate component (ROI).

(5) All contractors shall be required to adjust and maintain wages for all employees to a minimum hourly wage of four dollars and seventy-six cents per hour beginning January 1, 1988, and five dollars and fifteen cents per hour beginning January 1, 1989.

**Sec. 101.** RCW 74.46.450 and 1993 sp.s. c 13 s 9 are each amended to read as follows:

(1) Prospective reimbursement rates for a new contractor, as defined by the department in rule, will be established within sixty days following receipt by the department of the properly completed projected budget required by RCW 74.46.670. Such reimbursement rates will become effective as of the effective

date of the contract and shall remain in effect until ~~((adjusted or))~~ the new contractor's rate in all cost areas can be reset ((as provided in this chapter)) effective July 1st using a cost report of that contractor containing at least six months' data from the prior calendar year, regardless of whether reported costs for other contractors for the prior calendar year in question will be used to rebase their July 1st rates.

(2) Such reimbursement rates will be based on ~~((the contractor's projected cost of operations and on costs and))~~ payment rates of the prior contractor, if any, or of other contractors in comparable circumstances.

(3) ~~((If a properly completed budget is not received at least sixty days prior to the effective date of the contract,))~~ The department will establish ((preliminary)) a new contractor's initial component rates based on the ((other)) factors specified in subsections (2) and (4) of this section. These ((preliminary)) initial rates will remain in effect until adjusted or reset as provided in this chapter.

(4) ~~The department is authorized to develop policies and procedures in rule ((to address the computation of rates for the first and second fiscal years of each biennium, including steps necessary to prorate rate adjustments for economic trends and conditions as authorized in RCW 74.46.420, for contractors having less than twelve months of cost report data for the prior calendar year))~~ that comply with the policies and purposes of this chapter to establish factors by which a new contractor's rate will be set, for example, occupancy level or proration of rate adjustments for economic trends and conditions as authorized in RCW 74.46.420. However, a new contractor, whose medicaid contract was effective in calendar year 1994; and whose nursing facility occupancy during calendar year 1994 increased by at least five percent over that of the prior owner, shall have its July 1995 rate for nursing services, food, administrative, operational, and property cost centers, and the return on investment (ROI) based upon a minimum facility occupancy of eighty-five percent.

**Sec. 102.** RCW 74.46.460 and 1993 sp.s. c 13 s 10 are each amended to read as follows:

(1) Each contractor's ~~((reimbursement))~~ nursing services, food, administrative, and operational component payment rates will be ((determined or)) adjusted for economic trends and conditions prospectively at least once during each calendar year, as provided in this chapter, to be effective July 1st((-)); PROVIDED, That except for the rates of new contractors as defined by the department, a ((contractor's)) nursing facility's cost-rebased rate for ((the first fiscal year of each biennium)) July 1, 1995, must be established upon ((its)) the facility's own ((prior calendar period)) cost report of at least six months of adjusted and/or audited cost data from the calendar year 1994.

(2) Subject to the provisions of subsections (3) through (6) of this section, rates may be adjusted ((as determined)) by the department at the request of the nursing facility to cover the medicaid share of incremental costs necessary to address and take into account variations in the distribution of all medicaid and nonmedicaid patient classifications or changes in all medicaid or nonmedicaid

patient characteristics from the prior reporting year, program changes required by the department, or changes in staffing levels at a facility required by the department. Rates may also be adjusted to cover costs associated with placing a nursing home in receivership which costs are not covered by the rate of the former contractor, including: Compensation of the receiver, reasonable expenses of receivership and transition of control, and costs incurred by the receiver in carrying out court instructions or rectifying deficiencies found. Rates shall be adjusted as provided in this section for any capitalized additions or replacements made as a condition for licensure or certification. Rates shall be adjusted as provided in this section for capitalized improvements done under RCW 74.46.465.

(3) Except for rate adjustments granted for economic trends and conditions as authorized in this chapter to be effective each July 1st, all rate adjustments granted by the department for any other purpose, including those granted for capitalized additions or replacements or for staffing, whether made or not made as a condition of licensure or certification, shall be limited in total amount each fiscal year to the total current legislative appropriation, if any, specifically made to fund the medicaid share of such adjustments for the fiscal year.

(4) The department is authorized to adopt rules to ensure that funding granted for additional staffing will be cost-effective in providing increased quantity and quality of services to nursing facility residents and to ensure that spending limitations will not be exceeded.

(5) Funds disbursed representing rate adjustments granted under authority of this section and not spent by the contractor for the purposes granted are subject to immediate recovery by the department by means of recoupment from current contract payments or any other means authorized by law and contractors shall pay interest on such unused or misused funds at the rate of one percent per month from the date of disbursement to the date of recovery. If a contractor requests an administrative review of a department recovery action under rules established under RCW 74.46.780, such request shall not stay recoupment from current facility contract payments or other recovery.

(6) All rate component adjustments to fund the medicaid share of nursing facility new construction or refurbishing projects costing in excess of one million two hundred thousand dollars, or projects requiring state or federal approval, shall be based upon a minimum facility occupancy of eighty-five percent for the nursing services, food, administrative, operational, and property cost centers, and the return on investment (ROI), during the initial rate period in which the adjustment is granted, and shall be based upon a minimum facility occupancy of ninety percent for the nursing services, food, administrative, operational, and property cost centers, and the return on investment (ROI), for all rate periods thereafter.

**Sec. 103.** RCW 74.46.470 and 1993 sp.s. c 13 s 11 are each amended to read as follows:

(1) A contractor's ((reimbursement)) nursing facility per resident day component rates for medical care recipients ((with)) shall be determined as provided in this chapter utilizing net invested funds and desk-reviewed cost report data within the following cost centers:

- (a) Nursing services;
- (b) Food;
- (c) Administrative;
- (d) Operational; and
- (e) Property.

(2) There shall be for the time period January 1988 through June 1990 only an enhancement cost center established to reimburse contractors for specific legislatively authorized enhancements for nonadministrative wages and benefits to ensure that such enhancements are used exclusively for the legislatively authorized purposes. For purposes of settlement, funds appropriated to this cost center shall only be used for expenditures for which the legislative authorization is granted. Such funds may be used only in the following circumstances:

(a) The contractor has increased expenditures for which legislative authorization is granted to at least the highest level paid in any of the last three cost years, plus, beginning July 1, 1987, any percentage inflation adjustment as was granted each year under RCW 74.46.495; and

(b) All funds shifted from the enhancement cost center are shown to have been expended for legislatively authorized enhancements.

(3) If the contractor does not spend the amount appropriated to this cost center in the legislatively authorized manner, then the amounts not appropriately spent shall be recouped at preliminary or final settlement pursuant to RCW 74.46.160.

(4) For purposes of this section, "nonadministrative wages and benefits" means wages and payroll taxes paid with respect to, and the employer share of the cost of benefits provided to, employees in job classes specified in an appropriation, which may not include administrators, assistant administrators, or administrators in training.

(5) Amounts expended in the enhancement cost center in excess of the minimum wage established under RCW 74.46.430 are subject to all provisions contained in this chapter.

**Sec. 104.** RCW 74.46.481 and 1993 sp.s. c 13 s 12 are each amended to read as follows:

(1) The nursing services cost center shall include for reporting and audit purposes all costs related to the direct provision of nursing and related care, including fringe benefits and payroll taxes for the nursing and related care personnel, and the cost of nursing supplies. The department shall adopt by administrative rule a definition of "related care". For rates effective after June 30, 1991, nursing services costs, as reimbursed within this chapter, shall not include costs of any purchased nursing care services, including registered nurse, licensed practical nurse, and nurse assistant services, obtained through service

contract arrangement in excess of the amount of compensation paid for such hours of nursing care service had they been paid at the average hourly wage, including related taxes and benefits, for in-house nursing care staff of like classification at the same nursing facility, as reported in the most recent cost report period.

(2) The department shall adopt through administrative rules a method for establishing a nursing services cost center rate consistent with the principles stated in this section.

(3) Utilizing regression or other statistical technique, the department shall determine a reasonable limit on facility nursing staff taking into account facility patient characteristics. For purposes of this section, facility nursing staff refers to registered nurses, licensed practical nurses and nursing assistants employed by the facility or obtained through temporary labor contract arrangements. Effective January 1, 1988, the hours associated with the training of nursing assistants and the supervision of that training for nursing assistants shall not be included in the calculation of facility nursing staff. In selecting a measure of patient characteristics, the department shall take into account:

(a) The correlation between alternative measures and facility nursing staff; and

(b) The cost of collecting information for and computation of a measure. If regression is used, the limit shall be set at predicted nursing staff plus 1.75 regression standard errors. If another statistical method is utilized, the limit shall be set at a level corresponding to 1.75 standard errors above predicted staffing computed according to a regression procedure. A regression calculated shall be effective for the entire biennium.

(4) No facility shall receive reimbursement for nursing staff levels in excess of the limit. However, nursing staff levels established under subsection (3) of this section shall not apply to the nursing services cost center reimbursement rate only for the pilot facility especially designed to meet the needs of persons living with AIDS as defined by RCW 70.24.017 and specifically authorized for this purpose under the 1989 amendment to the Washington state health plan.

(5) ~~((Every two years when rates are set at the beginning of each new biennium))~~ For July 1, 1995, rate setting only, the department shall divide into two peer groups nursing facilities located in the state of Washington providing services to medicaid residents: (a) Those facilities located within a metropolitan statistical area as defined and determined by the United States office of management and budget or other applicable federal office (MSA) and (b) those not located in such an area (non-MSA). The facilities in each peer group shall then be arrayed from lowest to highest by magnitude of per ~~((patient))~~ resident day desk-reviewed, adjusted nursing services cost from the ~~((prior))~~ 1994 calendar report year, regardless of whether any such adjustments are contested by the nursing facility, and the median or fiftieth percentile cost for each peer group shall be determined. Nursing services component rates for facilities within each peer group ~~((for the first year of the biennium))~~ shall be set at the lower of

the facility's desk-reviewed, adjusted per ~~((patient))~~ resident day nursing services cost from the ~~((prior))~~ 1994 report period or the median cost for the facility's peer group, utilizing the same calendar year report data plus twenty-five percent. This rate shall be reduced or inflated as authorized by RCW 74.46.420. However, the per patient day peer group median cost plus twenty-five percent limit shall not apply to the nursing services cost center reimbursement rate only for the pilot facility especially designed to meet the needs of persons living with AIDS as defined by RCW 70.24.017 and specifically authorized for this purpose under the 1989 amendment to the Washington state health plan.

~~(6) ((If a nursing facility is impacted by the limit authorized in subsection (5) of this section, it shall not receive a prospective rate in nursing services for July 1, 1993, less than the same facility's prospective rate in nursing services as of June 30, 1993, adjusted by any increase in the implicit price deflator for personal consumption expenditures, IPD index, as measured over the period authorized by RCW 74.46.420(3)).~~

~~(7)) For rates effective July 1, 1996, a nursing facility's noncost-rebased component rate in nursing services ((for the second year of each biennium)) shall be that facility's nursing services component rate ((as of July 1 of the first year of that biennium)) existing on June 30, 1996, reduced or inflated as authorized by RCW 74.46.420. ((The alternating procedures prescribed in this section for a facility's two July 1 nursing services rates occurring within each biennium shall be followed in the same order for each succeeding biennium.)) The July 1, 1996, nursing services component rate used to calculate the return on investment (ROI) component rate shall be the inflated prospective nursing services rate as of June 30, 1996, excluding any rate increases granted pursuant to RCW 74.46.460.~~

(7) For rates effective July 1, 1997, a nursing facility's noncost-rebased component rate in nursing services shall be that facility's nursing services component rate existing on June 30, 1997, reduced or inflated as authorized by RCW 74.46.420. The July 1, 1997, nursing services component rate used to calculate the return on investment (ROI) component rate shall be the inflated prospective nursing services rate as of June 30, 1997, excluding any rate increases granted pursuant to RCW 74.46.460.

(8) Median cost((s)) limits for peer groups shall be calculated initially for July 1, 1995, rate setting as provided in this chapter on the basis of ((the most recent)) adjusted 1994 nursing services cost report information available to the department prior to the calculation of the new rates for July 1, 1995 ((of the first fiscal year of each biennium)), regardless of whether the adjustments are contested or subject to pending administrative or judicial review. Median costs for peer groups shall be recalculated as provided in this chapter on the basis of the most recent adjusted cost information available to the department on October 31, 1995 ((of the first fiscal year of each biennium)), and shall apply retroactively to ((the prior)) July 1, 1995, rates, regardless of whether the adjustments are contested or subject to pending administrative or judicial review. Median cost((s)) limits, once calculated using October 31, 1995, adjusted cost informa-

tion shall not be adjusted to reflect subsequent administrative or judicial rulings, whether final or not.

(9) The department is authorized to determine on a systematic basis facilities with unmet patient care service needs. The department may increase the nursing services cost center prospective rate for a facility beyond the level determined in accordance with subsection (6) of this section if the facility's actual and reported nursing staffing is one standard error or more below predicted staffing as determined according to the method selected pursuant to subsection (3) of this section and the facility has unmet patient care service needs: PROVIDED, That prospective rate increases authorized by this subsection shall be funded only from legislative appropriations made for this purpose during the periods authorized by such appropriations or other laws and the increases shall be conditioned on specified improvements in patient care at such facilities.

(10) The department shall establish a method for identifying patients with exceptional care requirements and a method for establishing or negotiating on a consistent basis rates for such patients.

(11) The department, in consultation with interested parties, shall adopt rules to establish the criteria the department will use in reviewing any requests by a contractor for a prospective rate adjustment to be used to increase the number of nursing staff. These rules shall also specify the time period for submission and review of staffing requests: PROVIDED, That a decision on a staffing request shall not take longer than sixty days from the date the department receives such a complete request. In establishing the criteria, the department may consider, but is not limited to, the following:

(a) Increases in debility levels of contractors' residents determined in accordance with the department's assessment and reporting procedures and requirements utilizing the minimum data set;

(b) Staffing patterns for similar facilities in the same peer group;

(c) Physical plant of contractor; and

(d) Survey, inspection of care, and department consultation results.

**Sec. 105.** RCW 74.46.490 and 1993 sp.s. c 13 s 13 are each amended to read as follows:

(1) The food cost center shall include for reporting purposes all costs for bulk and raw food and beverages purchased for the dietary needs of medical care recipients.

(2) ~~((Every two years when rates are set at the beginning of each new biennium))~~ For July 1, 1995, rate setting only, the department shall divide into two peer groups nursing facilities located in the state of Washington providing services to medicaid residents: (a) Those facilities located within a metropolitan statistical area as defined and determined by the United States office of management and budget or other applicable federal office (MSA) and (b) those not located in such an area (non-MSA). The facilities in each peer group shall then be arrayed from lowest to highest by magnitude of per ~~((patient))~~ resident day desk-reviewed, adjusted food cost from the ~~((prior))~~ 1994 calendar report

year, regardless of whether any such adjustments are contested by the nursing facility, and the median or fiftieth percentile cost for each peer group shall be determined. Food component rates for facilities within each peer group (~~for the first year of the biennium~~) shall be set at the lower of the facility's desk-reviewed, adjusted per (~~patient~~) resident day food cost from the (~~prior~~) 1994 report period or the median cost for the facility's peer group, using the same calendar year report data, plus twenty-five percent. This rate shall be reduced or inflated as authorized by RCW 74.46.420.

(3) For rates effective July 1, 1996, a nursing facility's noncost-rebased food component rate (~~for the second year of each biennium~~) shall be that facility's food component rate (~~as of July 1 of the first year of that biennium~~) existing on June 30, 1996, reduced or inflated as authorized by RCW 74.46.420. (~~The alternating procedures prescribed in this section for a facility's two July 1 food rates occurring within each biennium shall be followed in the same order for each succeeding biennium.~~) The July 1, 1996, food component rate used to calculate the return on investment (ROI) component rate shall be the inflated prospective food component rate as of June 30, 1996, excluding any rate increases granted pursuant to RCW 74.46.460.

(4) For rates effective July 1, 1997, a nursing facility's noncost-rebased food component rate shall be that facility's food component rate existing on June 30, 1997, reduced or inflated as authorized by RCW 74.46.420. The July 1, 1997, food component rate used to calculate the return on investment (ROI) component rate shall be the inflated prospective food component rate as of June 30, 1997, excluding any rate increases granted pursuant to RCW 74.46.460.

~~((4))~~ (5) Median cost((s)) limits for peer groups shall be calculated initially for July 1, 1995, rate setting as provided in this chapter on the basis of (~~the most recent~~) adjusted 1994 food cost report information available to the department prior to the calculation of the new rates for July 1, 1995 (~~of the first fiscal year of each biennium~~), regardless of whether the adjustments are contested or subject to pending administrative or judicial review. Median costs for peer groups shall be recalculated as provided in this chapter on the basis of the most recent adjusted cost information available to the department on October 31, 1995 (~~of the first fiscal year of each biennium~~), and shall apply retroactively to (~~the prior~~) July 1, 1995, rates, regardless of whether the adjustments are contested or subject to pending administrative or judicial review. Median cost((s)) limits, once calculated utilizing October 31, 1995, adjusted cost information, shall not be adjusted to reflect subsequent administrative or judicial rulings, whether final or not.

**Sec. 106.** RCW 74.46.500 and 1993 sp.s. c 13 s 14 are each amended to read as follows:

(1) The administrative cost center shall include for cost reporting purposes all administrative, oversight, and management costs whether facility on-site or allocated in accordance with a department-approved joint-cost allocation methodology. Such costs shall be identical to the cost report line item costs

categorized under "general and administrative" in the "administration and operations" combined cost center existing prior to January 1, 1993, except for nursing supplies and purchased medical records.

(2) ~~((Every two years when rates are set at the beginning of each new biennium))~~ For July 1, 1995, rate setting only, the department shall divide into two peer groups nursing facilities located in the state of Washington providing services to medicaid residents: (a) Those facilities located within a metropolitan statistical area as defined and determined by the United States office of management and budget or other applicable federal office (MSA) and (b) those not located in such an area (non-MSA). The facilities in each peer group shall then be arrayed from lowest to highest by magnitude of per ~~((patient))~~ resident day desk-reviewed, adjusted administrative cost from the ~~((prior))~~ 1994 calendar report year, regardless of whether any such adjustments are contested by the nursing facility, and the median or fiftieth percentile cost for each peer group shall be determined. Administrative component rates for facilities within each peer group ~~((for the first year of the biennium))~~ shall be set at the lower of the facility's desk-reviewed, adjusted per ~~((patient))~~ resident day administrative cost from the ~~((prior))~~ 1994 report period or the median cost for the facility's peer group, utilizing the same calendar year report data, plus ten percent. This rate shall be reduced or inflated as authorized by RCW 74.46.420.

(3) For rates effective July 1, 1996, a nursing facility's noncost-rebased administrative component rate ~~((for the second year of each biennium))~~ shall be that facility's administrative component rate ~~((as of July 1 of the first year of that biennium))~~ existing on June 30, 1996, reduced or inflated as authorized by RCW 74.46.420. ~~((The alternating procedures prescribed in this section for a facility's two July 1 administrative rates occurring within each biennium shall be followed in the same order for each succeeding biennium.))~~ The July 1, 1996, administrative component rate used to calculate the return on investment (ROI) component rate shall be the inflated prospective administrative component rate as of June 30, 1996, excluding any rate increases granted pursuant to RCW 74.46.460.

(4) For rates effective July 1, 1997, a nursing facility's noncost-rebased administrative component rate shall be that facility's administrative component rate existing on June 30, 1997, reduced or inflated as authorized by RCW 74.46.420. The Jul 1 1997 administrative component rate used to calculate the return on investment (ROI) component rate shall be the inflated prospective administrative component rate as of June 30 1997, excluding any rate increases granted pursuant to RCW 74.46.460.

~~((+))~~ (5) Median cost(s) limits for peer groups shall be calculated initially for July 1, 1995, rate setting as provided in this chapter on the basis of ~~((the most recent))~~ adjusted 1994 administrative cost report information available to the department prior to the calculation of the new rates for July 1, 1995 ~~((of the first fiscal year of each biennium))~~, regardless of whether the adjustments are contested or subject to pending administrative or judicial review. Median costs for peer groups shall be recalculated as provided in this chapter on the basis of

the most recent adjusted cost information available to the department on October 31, 1995 ~~((of the first fiscal year of each biennium))~~, and shall apply retroactively to ~~((the prior))~~ July 1, 1995, rates, regardless of whether the adjustments are contested or subject to pending administrative or judicial review. Median cost~~(s)~~ limits, once calculated utilizing October 31, 1995, adjusted cost information, shall not be adjusted to reflect subsequent administrative or judicial rulings, whether final or not.

**Sec. 107.** RCW 74.46.505 and 1993 sp.s. c 13 s 15 are each amended to read as follows:

(1) The operational cost center shall include for cost reporting purposes all allowable costs of the daily operation of the facility not included in nursing services and related care, food, administrative, or property costs, whether such costs are facility on-site or allocated in accordance with a department-approved joint-cost allocation methodology.

(2) ~~((Every two years when rates are set at the beginning of each new biennium))~~ For July 1, 1995, rate setting only, the department shall divide into two peer groups nursing facilities located in the state of Washington providing services to medicaid residents: (a) Those facilities located within a metropolitan statistical area as defined and determined by the United States office of management and budget or other applicable federal office (MSA) and (b) those not located in such an area (non-MSA). The facilities in each peer group shall then be arrayed from lowest to highest by magnitude of per ~~((patient))~~ resident day desk-reviewed, adjusted operational cost from the ~~((prior))~~ 1994 calendar report year, regardless of whether any such adjustments are contested by the nursing facility, and the median or fiftieth percentile cost for each peer group shall be determined. Operational component rates for facilities within each peer group ~~((for the first year of the biennium))~~ shall be set at the lower of the facility's desk-reviewed, adjusted per ~~((patient))~~ resident day operational cost from the ~~((prior))~~ 1994 report period or the median cost for the facility's peer group, utilizing the same calendar year report data, plus twenty-five percent. This rate shall be reduced or inflated as authorized by RCW 74.46.420.

(3) For rates effective July 1, 1996, a nursing facility's noncost-rebased operational component rate ~~((for the second year of each biennium))~~ shall be that facility's operational component rate ~~((as of July 1 of the first year of that biennium)) existing on June 30, 1996, reduced or inflated as authorized by RCW 74.46.420. ~~((The alternating procedures prescribed in this section for a facility's two July 1 operational rates occurring within each biennium shall be followed in the same order for each succeeding biennium.))~~ The July 1, 1996, operational component rate used to calculate the return on investment (ROI) component rate shall be the inflated prospective operational component rate as of June 30, 1996, excluding any rate increases granted pursuant to RCW 74.46.460.~~

(4) For rates effective July 1, 1997, a nursing facility's noncost-rebased operational component rate shall be that facility's operational component rate existing on June 30, 1997, reduced or inflated as authorized by RCW 74.46.420.

The July 1, 1997, operational component rate used to calculate the return on investment (ROI) component rate shall be the inflated prospective operational component rate as of June 30, 1997, excluding any rate increases granted pursuant to RCW 74.46.460.

~~((4))~~ (5) Median cost((s)) limits for peer groups shall be calculated initially for July 1, 1995, rate setting as provided in this chapter on the basis of ~~((the most recent))~~ adjusted 1994 operational cost report information available to the department prior to the calculation of the new rate for July 1, 1995 ~~((of the first fiscal year of each biennium))~~, regardless of whether the adjustments are contested or subject to pending administrative or judicial review. Median costs for peer groups shall be recalculated as provided in this chapter on the basis of the most recent adjusted cost information available to the department on October 31, 1995 ~~((of the first fiscal year of each biennium))~~, and shall apply retroactively to ~~((the prior))~~ July 1, 1995, rates, regardless of whether the adjustments are contested or subject to pending administrative or judicial review. Median cost((s)) limits, once calculated utilizing October 31, 1995, adjusted cost information, shall not be adjusted to reflect subsequent administrative or judicial rulings, whether final or not.

**Sec. 108.** RCW 74.46.510 and 1993 sp.s. c 13 s 16 are each amended to read as follows:

(1) The property cost center rate for each facility shall be determined by dividing the sum of the reported allowable prior period actual depreciation, subject to RCW 74.46.310 through 74.46.380, adjusted for any capitalized additions or replacements approved by the department, and the retained savings from such cost center, as provided in RCW 74.46.180, by the greater of a facility's total ((patient)) resident days for the facility in the prior period or resident days as calculated on ninety or eighty-five percent facility occupancy as applicable. If a capitalized addition or retirement of an asset will result in a different licensed bed capacity during the ensuing period, the prior period total ~~((patient))~~ resident days used in computing the property cost center rate shall be adjusted to anticipated ~~((patient))~~ resident day level.

(2) A nursing facility's property rate shall be rebased annually, effective July 1, in accordance with this section and this chapter ~~((regardless of whether the rate is for the first or second year of the biennium))~~.

(3) When a certificate of need for a new facility is requested, the department, in reaching its decision, shall take into consideration per-bed land and building construction costs for the facility which shall not exceed a maximum to be established by the secretary.

**Sec. 109.** RCW 74.46.530 and 1993 sp.s. c 13 s 17 are each amended to read as follows:

(1) The department shall establish for each medicaid nursing facility a return on investment (ROI) rate composed of two parts: A financing allowance and a variable return allowance. The financing allowance part of a facility's return on

investment component rate shall be rebased annually, effective July 1, in accordance with the provisions of this section and this chapter~~((, regardless of whether the rate is for the first or second year of the biennium))~~.

(a) The financing allowance shall be determined by multiplying the net invested funds of each facility by .10, and dividing by the ~~((contractor's))~~ greater of a nursing facility's total ((patient)) resident days from the most recent cost report period or resident days calculated on ninety percent or eighty-five percent facility occupancy as applicable. If a capitalized addition or retirement of an asset will result in a different licensed bed capacity during the ensuing period, the prior period total ~~((patient))~~ resident days used in computing the financing and variable return allowances shall be adjusted to the anticipated ~~((patient))~~ resident day level.

(b) In computing the portion of net invested funds representing the net book value of tangible fixed assets, the same assets, depreciation bases, lives, and methods referred to in RCW 74.46.330, 74.46.350, 74.46.360, 74.46.370, and 74.46.380, including owned and leased assets, shall be utilized, except that the capitalized cost of land upon which the facility is located and such other contiguous land which is reasonable and necessary for use in the regular course of providing ~~((patient))~~ resident care shall also be included. Subject to provisions and limitations contained in this chapter, for land purchased by owners or lessors before July 18, 1984, capitalized cost of land shall be the buyer's capitalized cost. For all partial or whole rate periods after July 17, 1984, if the land is purchased after July 17, 1984, capitalized cost shall be that of the owner of record on July 17, 1984, or buyer's capitalized cost, whichever is lower. In the case of leased facilities where the net invested funds are unknown or the contractor is unable to provide necessary information to determine net invested funds, the secretary shall have the authority to determine an amount for net invested funds based on an appraisal conducted according to RCW 74.46.360(1).

(c) In determining the variable return allowance:

(i) ~~((Every two years at the start of each new biennium))~~ For July 1, 1995, rate setting only, the department, without utilizing peer groups, ~~((with))~~ shall first rank all facilities in numerical order from highest to lowest according to their per ~~((patient))~~ resident day adjusted or audited, or both, allowable costs for nursing services, food, administrative, and operational costs combined for the ~~((previous))~~ 1994 calendar year cost report period.

(ii) The department shall then compute the variable return allowance by multiplying the appropriate percentage amounts, which shall not be less than one percent and not greater than four percent, by the sum of the facility's nursing services, food, administrative, and operational rate components. The percentage amounts will be based on groupings of facilities according to the rankings prescribed in (i) of this subsection (1)(c). The percentages calculated and assigned will remain the same for the ~~((next))~~ variable return allowance paid in ((the second year of the biennium)) all July 1, 1996, and July 1, 1997, rates as

well. Those groups of facilities with lower per diem costs shall receive higher percentage amounts than those with higher per diem costs.

(d) The sum of the financing allowance and the variable return allowance shall be the return on investment rate for each facility, and shall be added to the prospective rates of each contractor as determined in RCW 74.46.450 through 74.46.510.

(e) In the case of a facility which was leased by the contractor as of January 1, 1980, in an arm's-length agreement, which continues to be leased under the same lease agreement, and for which the annualized lease payment, plus any interest and depreciation expenses associated with contractor-owned assets, for the period covered by the prospective rates, divided by the contractor's total (~~(patient)~~) resident days, minus the property cost center determined according to RCW 74.46.510, is more than the return on investment rate determined according to subsection (1)(d) of this section, the following shall apply:

(i) The financing allowance shall be recomputed substituting the fair market value of the assets as of January 1, 1982, as determined by the department of general administration through an appraisal procedure, less accumulated depreciation on the lessor's assets since January 1, 1982, for the net book value of the assets in determining net invested funds for the facility. A determination by the department of general administration of fair market value shall be final unless the procedure used to make such determination is shown to be arbitrary and capricious.

(ii) The sum of the financing allowance computed under subsection (1)(e)(i) of this section and the variable allowance shall be compared to the annualized lease payment, plus any interest and depreciation associated with contractor-owned assets, for the period covered by the prospective rates, divided by the contractor's total (~~(patient)~~) resident days, minus the property cost center rate determined according to RCW 74.46.510. The lesser of the two amounts shall be called the alternate return on investment rate.

(iii) The return on investment rate determined according to subsection (1)(d) of this section or the alternate return on investment rate, whichever is greater, shall be the return on investment rate for the facility and shall be added to the prospective rates of the contractor as determined in RCW 74.46.450 through 74.46.510.

(f) In the case of a facility which was leased by the contractor as of January 1, 1980, in an arm's-length agreement, if the lease is renewed or extended pursuant to a provision of the lease, the treatment provided in subsection (1)(e) of this section shall be applied except that in the case of renewals or extensions made subsequent to April 1, 1985, reimbursement for the annualized lease payment shall be no greater than the reimbursement for the annualized lease payment for the last year prior to the renewal or extension of the lease.

(2) Each biennium, beginning in 1985, the secretary shall review the adequacy of return on investment rates in relation to anticipated requirements for maintaining, reducing, or expanding nursing care capacity. The secretary shall

report the results of such review to the legislature and make recommendations for adjustments in the return on investment rates utilized in this section, if appropriate.

**Sec. 110.** RCW 74.46.560 and 1983 1st ex.s. c 67 s 30 are each amended to read as follows:

The department will notify each contractor in writing of its prospective ~~((reimbursement))~~ payment rates by the effective dates of the rates. Unless otherwise specified at the time it is issued, ~~((the))~~ a rate will be effective from the first day of the month in which it is issued until a new rate becomes effective. If a rate is changed as the result of an appeals or exception procedure established in accordance with RCW 74.46.780, it will be effective as of the date the appealed rate became effective.

**Sec. 111.** RCW 74.46.570 and 1983 1st ex.s. c 67 s 31 are each amended to read as follows:

(1) Prospective rates are subject to adjustment by the department as a result of errors or omissions by the department or by the contractor. The department will notify the contractor in writing of each adjustment and of the effective date of the adjustment, and of any amount due to the department or to the contractor as a result of the rate adjustment.

(2) If a contractor claims an error or omission based upon incorrect cost reporting, amended cost report pages shall be prepared and submitted by the contractor. Amended pages shall be accompanied by a certification signed by the licensed administrator of the nursing facility and a written justification explaining why the amendment is necessary. The certification and justification shall meet such criteria as are adopted by the department. Such amendments may be used to revise a prospective rate but shall not be used to revise a settlement if submitted after commencement of the field audit. All changes determined to be material by the department shall be subject to field audit. If changes are found to be incorrect or otherwise unacceptable, any rate adjustment based thereon shall be null and void and resulting payments or payment increases shall be subject to refund.

(3) The contractor shall pay an amount owed the department resulting from an error or omission as determined by the department on or after July 1, 1995, or commence repayment in accordance with a schedule determined and agreed to in writing by the department, within sixty days after receipt of notification of the rate adjustment~~((, unless the contractor contests the department's determination in accordance with the procedures set forth in RCW 74.46.780. If the determination is contested, the contractor shall pay or commence repayment within sixty days after completion of these proceedings))~~. If a refund as determined by the department is not paid when due, the amount thereof may be deducted from current payments by the department. However, neither a timely filed request to pursue the department's administrative appeals or exception

procedure nor commencement of judicial review, as may be available to the contractor in law, shall delay recovery.

(4) The department shall pay any amount owed the contractor as a result of a rate adjustment within thirty days after the contractor is notified of the rate adjustment.

(5) No adjustments will be made to a rate more than one hundred twenty days after the final audit narrative and summary for the period the rate was effective is sent to the contractor or, if no audit is held, more than one hundred twenty days after the preliminary settlement becomes the final settlement, except when a settlement is reopened as provided in RCW 74.46.170(3).

**Sec. 112.** RCW 74.46.640 and 1983 1st ex.s. c 67 s 34 are each amended to read as follows:

(1) Payments to a contractor may be withheld by the department in each of the following circumstances:

(a) A required report is not properly completed and filed by the contractor within the appropriate time period, including any approved extension. Payments will be released as soon as a properly completed report is received;

(b) State auditors, department auditors, or authorized personnel in the course of their duties are refused access to a nursing (~~(home)~~) facility or are not provided with existing appropriate records. Payments will be released as soon as such access or records are provided;

(c) A refund in connection with a preliminary or final settlement or rate adjustment is not paid by the contractor when due. The amount withheld will be limited to the unpaid amount of the refund and any accumulated interest owed to the department as authorized by this chapter; (~~and~~)

(d) Payment for the final (~~(thirty)~~) sixty days of service under a contract will be held in the absence of adequate alternate security acceptable to the department pending final settlement when the contract is terminated; and

(e) Payment for services at any time during the contract period in the absence of adequate alternate security acceptable to the department, if a contractor's net medicaid overpayment liability for one or more nursing facilities or other debt to the department, as determined by preliminary settlement, final settlement, civil fines imposed by the department, third-party liabilities or other source, reaches or exceeds fifty thousand dollars, whether subject to good faith dispute or not, and for each subsequent increase in liability reaching or exceeding twenty-five thousand dollars. Payments will be released as soon as practicable after acceptable security is provided or refund to the department is made.

(2) No payment will be withheld until written notification of the suspension is provided to the contractor, stating the reason (~~(therefor)~~) for the withholding, except that neither a request to pursue the administrative appeals or exception procedure established by the department in rule nor commencement of judicial review, as may be available to the contractor in law, shall delay suspension of payment.

**Sec. 113.** RCW 74.46.690 and 1985 c 361 s 3 are each amended to read as follows:

(1) When a facility contract is terminated for any reason, the old contractor shall submit final reports as required by RCW 74.46.040.

(2) Upon notification of a contract termination, the department shall determine by preliminary or final settlement calculations the amount of any overpayments made to the contractor, including overpayments disputed by the contractor. If preliminary or final settlements are unavailable for any period up to the date of contract termination, the department shall make a reasonable estimate of any overpayment or underpayments for such periods. The reasonable estimate shall be based upon prior period settlements, available audit findings, the projected impact of prospective rates, and other information available to the department. The department shall also determine and add in the total of all other debts owed to the department regardless of source, including, but not limited to, interest owed to the department as authorized by this chapter, civil fines imposed by the department, or third-party liabilities.

(3) The old contractor shall provide security, in a form deemed adequate by the department, ~~((#))~~ equal to the total amount of determined and estimated overpayments and all other debts from any source, whether or not the overpayments are the subject of good faith dispute. Security shall consist of:

(a) Withheld payments due the contractor; or

(b) A surety bond issued by a bonding company acceptable to the department; or

(c) An assignment of funds to the department; or

(d) Collateral acceptable to the department; or

(e) A purchaser's assumption of liability for the prior contractor's overpayment; ~~((#))~~

(f) A promissory note secured by a deed of trust; or

(g) Any combination of (a), (b), (c), (d), ~~((#))~~ (e), or (f) of this subsection.

(4) A surety bond or assignment of funds shall:

(a) Be at least equal in amount to determined or estimated overpayments, whether or not the subject of good faith dispute, minus withheld payments;

(b) Be issued or accepted by a bonding company or financial institution licensed to transact business in Washington state;

(c) Be for a term, as determined by the department, sufficient to ensure effectiveness after final settlement and the exhaustion of any administrative appeals or exception procedure and judicial remedies, as may be available to and sought by the contractor, regarding payment, settlement, civil fine, interest assessment, or other debt issues; PROVIDED, That the bond or assignment shall initially be for a term of at least five years, and shall be forfeited if not renewed thereafter in an amount equal to any remaining combined overpayment ~~((# dispute))~~ and debt liability as determined by the department;

(d) Provide that the full amount of the bond or assignment, or both, shall be paid to the department if a properly completed final cost report is not filed in

accordance with this chapter, or if financial records supporting this report are not preserved and made available to the auditor; and

(e) Provide that an amount equal to any recovery the department determines is due from the contractor (~~(at)~~) from settlement or from any other source of debt to the department, but not exceeding the amount of the bond and assignment, shall be paid to the department if the contractor does not pay the refund and debt within sixty days following receipt of written demand (~~(or the conclusion of administrative or judicial proceedings to contest settlement issues)~~) for payment from the department to the contractor.

(5) The department shall release any payment withheld as security if alternate security is provided under subsection (3) of this section in an amount equivalent to determined and estimated overpayments.

(6) If the total of withheld payments, bonds, and assignments is less than the total of determined and estimated overpayments, the unsecured amount of such overpayments shall be a debt due the state and shall become a lien against the real and personal property of the contractor from the time of filing by the department with the county auditor of the county where the contractor resides or owns property, and the lien claim has preference over the claims of all unsecured creditors.

(7) The contractor shall file a properly completed final cost report in accordance with the requirements of this chapter, which shall be audited by the department. A final settlement shall be determined within ninety days following completion of the audit process, including completion of any administrative appeals or exception procedure review of the audit requested by the contractor, but not including completion of any judicial review available to and commenced by the contractor.

(8) Following determination of settlement for all periods, security held pursuant to this section shall be released to the contractor after all overpayments, erroneous payments, and debts determined in connection with final settlement, or otherwise, including accumulated interest owed the department, have been paid by the contractor. (~~(If the contractor contests the settlement determination in accordance with RCW 74.46.170, the department shall hold the security, not to exceed the amount of estimated unrecovered overpayments being contested, pending completion of the administrative appeal process.)~~)

(9) If, after calculation of settlements for any periods, it is determined that overpayments exist in excess of the value of security held by the state, the department may seek recovery of these additional overpayments as provided by law.

(10) (~~(If a contract is terminated solely in order for the same owner to contract with the department to deliver services to another classification of medical care recipients at the same facility, the contractor is not required to submit final cost reports, and security shall not be required)~~) Regardless of whether a contractor intends to terminate its medicaid contracts, if a contractor's net medicaid overpayments and erroneous payments for one or more settlement

periods, and for one or more nursing facilities, combined with debts due the department, reaches or exceeds a total of fifty thousand dollars, as determined by preliminary settlement, final settlement, civil fines imposed by the department, third-party liabilities or by any other source, whether such amounts are subject to good faith dispute or not, the department shall demand and obtain security equivalent to the total of such overpayments, erroneous payments, and debts and shall obtain security for each subsequent increase in liability reaching or exceeding twenty-five thousand dollars. Such security shall meet the criteria in subsections (3) and (4) of this section, except that the department shall not accept an assumption of liability. The department shall withhold all or portions of a contractor's current contract payments or impose liens, or both, if security acceptable to the department is not forthcoming. The department shall release a contractor's withheld payments or lift liens, or both, if the contractor subsequently provides security acceptable to the department. This subsection shall apply to all overpayments and erroneous payments determined by preliminary or final settlements issued on or after July 1, 1995, regardless of what payment periods the settlements may cover and shall apply to all debts owed the department from any source, including interest debts, which become due on or after July 1, 1995.

**Sec. 114.** RCW 74.46.770 and 1983 1st ex.s. c 67 s 39 are each amended to read as follows:

(1) For all nursing facility medicaid payment rates effective on or after July 1, 1995, and for all settlements and audits issued on or after July 1, 1995, regardless of what periods the settlements or audits may cover, if a contractor wishes to contest the way in which a rule ((or contract provision)) relating to the ((prospective cost-related reimbursement)) medicaid payment rate system was applied to the contractor by the department, it shall ((first)) pursue the ((administrative review process set forth in)) appeals or exception procedure established by the department in rule authorized by RCW 74.46.780.

(2) ((The administrative review and fair hearing process in RCW 74.46.780 need not be exhausted if a contractor wishes to challenge the legal validity of a statute, rule, or contract provision.)) If a contractor wishes to challenge the legal validity of a statute, rule, or contract provision or wishes to bring a challenge based in whole or in part on federal law, including but not limited to issues of procedural or substantive compliance with the federal medicaid minimum payment standard for long-term care facility services, the appeals or exception procedure established by the department in rule may not be used for these purposes. This prohibition shall apply regardless of whether the contractor wishes to obtain a decision or ruling on an issue of validity or federal compliance or wishes only to make a record for the purpose of subsequent judicial review.

(3) If a contractor wishes to challenge the legal validity of a statute, rule, or contract provision relating to the medicaid payment rate system, or wishes to

bring a challenge based in whole or in part on federal law, it must bring such action de novo in a court of proper jurisdiction as may be provided by law.

**Sec. 115.** RCW 74.46.780 and 1989 c 175 s 159 are each amended to read as follows:

~~((1) Within twenty-eight days after a contractor is notified of an action or determination it wishes to challenge, the contractor shall request in writing that the secretary review such determination. The request shall be signed by the contractor or the licensed administrator of the facility, shall identify the challenged determination and the date thereof, and shall state as specifically as practicable the grounds for its contention that the determination was erroneous. Copies of any documentation on which the contractor intends to rely to support its position shall be included with the request.~~

~~(2) After receiving a request meeting the above criteria, the secretary or his designee will contact the contractor to schedule a conference for the earliest mutually convenient time. The conference shall be scheduled for no later than ninety days after a properly completed request is received unless both parties agree in writing to a specified later date.~~

~~(3) The contractor and appropriate representatives of the department shall attend the conference. In addition, representatives selected by the contractor may attend and participate. The contractor shall provide to the department in advance of the conference any documentation on which it intends to rely to support its contentions. The parties shall clarify and attempt to resolve the issues at the conference. If additional documentation is needed to resolve the issues, a second session of the conference shall be scheduled for not later than twenty-eight days after the initial session unless both parties agree in writing to a specific later date.~~

~~(4) A written decision by the secretary will be furnished to the contractor within sixty days after the conclusion of the conference.~~

~~(5) If the contractor desires review of an adverse decision of the secretary, it shall within twenty-eight days following receipt of such decision file a written application for an adjudicative proceeding. The proceeding is governed by chapter 34.05 RCW, the Administrative Procedure Act.)~~ For all nursing facility medicaid payment rates effective on or after July 1, 1995, and for all audits completed and settlements issued on or after July 1, 1995, regardless of what periods the payment rates, audits, or settlements may cover, the department shall establish in rule, consistent with federal requirements for nursing facilities participating in the medicaid program, an appeals or exception procedure that allows individual nursing care providers an opportunity to submit additional evidence and receive prompt administrative review of payment rates with respect to such issues as the department deems appropriate.

**Sec. 116.** 1995 c 260 s 12 (uncodified) is amended to read as follows:  
Sections 7 through 11 of this act shall take effect ~~((January))~~ July 1, 1996.

**Sec. 117.** RCW 70.128.120 and 1995 c 260 s 5 are each amended to read as follows:

An adult family home provider shall have the following minimum qualifications:

- (1) Twenty-one years of age or older;
- (2) Good moral and responsible character and reputation;
- (3) Literacy;
- (4) Management and administrative ability to carry out the requirements of this chapter;
- (5) Satisfactory completion of department-approved initial training and continuing education training as specified by the department in rule;
- (6) Satisfactory completion of department-approved, or equivalent, special care training before a provider may provide special care services to a resident;
- (7) Not been convicted of any crime listed in RCW 43.43.830 and 43.43.842; and
- (8) Effective July 1, 1996, registered with the department of health.

**NEW SECTION.** **Sec. 118.** If any part of this act is found to be in conflict with federal requirements that are a prescribed condition to the allocation of federal funds to the state, the conflicting part of this act is inoperative solely to the extent of the conflict and with respect to the agencies directly affected, and this finding does not affect the operation of the remainder of this act in its application to the agencies concerned. The rules under this act shall meet federal requirements that are a necessary condition to the receipt of federal funds by the state.

**NEW SECTION.** **Sec. 119.** If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

**NEW SECTION.** **Sec. 120.** This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect July 1, 1995.

Passed the House May 18, 1995.

Passed the Senate May 22, 1995.

Approved by the Governor June 15, 1995, with the exception of certain items which were vetoed.

Filed in Office of Secretary of State June 15, 1995.

Note: Governor's explanation of partial veto is as follows:

"I am returning herewith, without my approval as to sections 11, 42, and 73, Engrossed Second Substitute House Bill No. 1908 entitled:

"AN ACT Relating to long-term care;"

Engrossed Second Substitute House Bill No. 1908 is far-reaching legislation representing the efforts of many to reform Washington's Long Term Care service delivery system. The legislature's efforts to expand options for individuals who could be served in community settings, improve the quality of care for those being served in community programs, and revise the nursing facility payment system are to be applauded.

Section 11 directs the Legislative Budget Committee (LBC) to develop a working plan for long term care reform by December 12, 1995. The LBC is to design an integrated, single point of entry system for the delivery of services to all users of long term care. This plan is directed to implement many of the findings included in the report completed by the Long Term Care Commission in 1991. In the intervening years the legislature has not chosen to adopt the recommendations of the Long Term Care Commission regarding integration of services. One of the primary reasons this proposal was not adopted was that it would have significant cost. Because of the wide array of long-term care issues which were addressed in this legislation, this section did not receive full public scrutiny in the 1995 legislative session. I would like to see more debate on the topic before such a major undertaking goes forward.

Section 42 extends the requirements for the Department of Social and Health Services (DSHS) to inspect nursing homes from every 12 months to at least every 18 months. Additionally, DSHS is prevented from conducting nursing facility inspections for 12 months after a citation-free inspection. This prohibition violates federal requirements that the state inspect facilities any time there is reason to believe a facility may be providing substandard care. While I am vetoing this section, I am directing DSHS to use its resources efficiently and to not inspect citation-free facilities more frequently than every 12 months unless it has cause to believe problems have developed in the interim.

Section 73 provides nursing homes an additional extension of up to 60 months to apply for a Certificate of Need if the facility is located in an economically distressed area. Because the Certificate of Need considers financial feasibility, an extension would not necessarily make financing easier to obtain in an economically distressed area. Additionally, facilities in operation could utilize the Certificate of Need to minimize competition.

For these reasons, I have vetoed sections 11, 42, and 73 of Engrossed Second Substitute House Bill No. 1908.

With the exception of sections 11, 42, and 73, Engrossed Second Substitute House Bill No. 1908 is approved."

## CHAPTER 19

[Second Engrossed Second Substitute House Bill 2010]

### CORRECTIONS REFORM

AN ACT Relating to corrections; amending RCW 72.09.010, 72.09.015, 72.09.130, 4.24.130, 72.10.010, 72.10.020, 9.94A.137, 9.95.210, 9.92.060, and 72.09.100; adding new sections to chapter 72.09 RCW; adding a new section to chapter 43.17 RCW; adding new sections to chapter 9.95 RCW; creating new sections; repealing RCW 72.09.020; prescribing penalties; and declaring an emergency.

Be it enacted by the Legislature of the State of Washington:

**NEW SECTION.** **Sec. 1.** The legislature finds the increasing number of inmates incarcerated in state correctional institutions, and the expenses associated with their incarceration, require expanded efforts to contain corrections costs. Cost containment requires improved planning and oversight, and increased accountability and responsibility on the part of inmates and the department.

The legislature further finds motivating inmates to participate in meaningful education and work programs in order to learn transferable skills and earn basic privileges is an effective and efficient way to meet the penological objectives of the corrections system.

The purpose of this act is to assure that the department fulfills its mission to reduce offender recidivism, to mirror the values of the community by clearly linking inmate behavior to receipt of privileges, and to prudently manage the

resources it receives through tax dollars. This purpose is accomplished through the implementation of specific cost-control measures and creation of a planning and oversight process that will improve the department's effectiveness and efficiencies.

Sec. 2. RCW 72.09.010 and 1981 c 136 s 2 are each amended to read as follows:

It is the intent of the legislature to establish a comprehensive system of corrections for convicted law violators within the state of Washington to accomplish the following objectives.

(1) The system should ensure the public safety. The system should be designed and managed to provide the maximum feasible safety for the persons and property of the general public, the staff, and the inmates.

(2) The system should punish the offender for violating the laws of the state of Washington. This punishment should generally be limited to the denial of liberty of the offender.

(3) The system should positively impact offenders by stressing personal responsibility and accountability and by discouraging recidivism.

(4) The system should treat all offenders fairly and equitably without regard to race, religion, sex, national origin, residence, or social condition.

~~((4))~~ (5) The system, as much as possible, should reflect the values of the community including:

(a) Avoiding idleness. Idleness is not only wasteful but destructive to the individual and to the community.

(b) Adoption of the work ethic. It is the community expectation that all ~~((citizens))~~ individuals should work and through their efforts benefit both themselves and the community.

(c) Providing opportunities for self improvement. All individuals should have opportunities to grow and expand their skills and abilities so as to fulfill their role in the community.

(d) ~~((Providing tangible rewards for accomplishment.))~~ Linking the receipt or denial of privileges to responsible behavior and accomplishments. The individual who works to improve himself or herself and the community should be rewarded for these efforts. As a corollary, there should be no rewards for no effort.

(e) Sharing in the obligations of the community. All citizens, the public and inmates alike, have a personal and fiscal obligation in the corrections system. All communities must share in the responsibility of the corrections system.

~~((5))~~ (6) The system should provide for prudent management of resources. The avoidance of unnecessary or inefficient public expenditures on the part of offenders and the department is essential. Offenders must be accountable to the department, and the department to the public and the legislature. The human and fiscal resources of the community are limited. The management and use of these resources can be enhanced by wise investment, productive programs, the reduction of duplication and waste, and the joining together of all involved

parties in a common endeavor. Since (~~virtually all~~) most offenders return to the community, it is wise for the state and the communities to make an investment in effective rehabilitation programs for offenders and the wise use of resources.

~~((6))~~ (7) The system should provide for restitution. Those who have damaged others, persons or property, have a responsibility to make restitution for these damages.

~~((7))~~ (8) The system should be accountable to the citizens of the state. In return, the individual citizens and local units of government must meet their responsibilities to make the corrections system effective.

~~((8))~~ (9) The system should meet those national standards which the state determines to be appropriate.

NEW SECTION. Sec. 4. A new section is added to chapter 72.09 RCW to read as follows:

(1) An inmate shall not be denied access to services or supplies required by state or federal law solely on the basis of his or her inability to pay for them.

(2) The department shall record all lawfully authorized assessments for services or supplies as a debt to the department and shall recoup the assessments when the inmate's institutional account exceeds the indigency standard.

NEW SECTION. Sec. 5. A new section is added to chapter 72.09 RCW to read as follows:

(1) The legislature intends that all inmates be required to participate in department-approved education programs, work programs, or both, unless exempted under subsection (3) of this section. Eligible inmates who refuse to participate in available education or work programs available at no charge to the inmates shall lose privileges according to the system established under RCW 72.09.130. Eligible inmates who are required to contribute financially to an education or work program and refuse to contribute shall be placed in another work program. Refusal to contribute shall not result in a loss of privileges. The legislature recognizes more inmates may agree to participate in education and work programs than are available. The department must make every effort to achieve maximum public benefit by placing inmates in available and appropriate education and work programs.

(2) The department shall, to the extent possible and considering all available funds, prioritize its resources to meet the following goals for inmates in the order listed:

(a) Achievement of basic academic skills through obtaining a high school diploma or its equivalent and achievement of vocational skills necessary for purposes of work programs and for an inmate to qualify for work upon release;

(b) Additional work and education programs based on assessments and placements under subsection (4) of this section; and

(c) Other work and education programs as appropriate.

(3) The department shall establish, by rule, objective medical standards to determine when an inmate is physically or mentally unable to participate in available education or work programs. When the department determines an inmate is permanently unable to participate in any available education or work program due to a medical condition, the inmate is exempt from the requirement under subsection (1) of this section. When the department determines an inmate is temporarily unable to participate in an education or work program due to a medical condition, the inmate is exempt from the requirement of subsection (1) of this section for the period of time he or she is temporarily disabled. The department shall periodically review the medical condition of all temporarily disabled inmates to ensure the earliest possible entry or reentry by inmates into available programming.

(4) The department shall establish, by rule, standards for participation in department-approved education and work programs. The standards shall address the following areas:

(a) Assessment. The department shall assess all inmates for their basic academic skill levels using a professionally accepted method of scoring reading, math, and language skills as grade level equivalents. The department shall determine an inmate's education history, work history, and vocational or work skills. The initial assessment shall be conducted, whenever possible, within the first thirty days of an inmate's entry into the correctional system, except that initial assessments are not required for inmates who are sentenced to life without the possibility of release, assigned to an intensive management unit within the first thirty days after entry into the correctional system, are returning to the correctional system within one year of a prior release, or whose physical or mental condition renders them unable to complete the assessment process. The department shall track and record changes in the basic academic skill levels of all inmates reflected in any testing or assessment performed as part of their education programming;

(b) Placement. The department shall follow the policies set forth in subsection (1) of this section in establishing criteria for placing inmates in education and work programs. The department shall, to the extent possible, place all inmates whose composite grade level score for basic academic skills is below the eighth grade level in a combined education and work program. The placement criteria shall include at least the following factors:

(i) An inmate's release date and custody level, except an inmate shall not be precluded from participating in an education or work program solely on the basis of his or her release date;

(ii) An inmate's education history and basic academic skills;

(iii) An inmate's work history and vocational or work skills;

(iv) An inmate's economic circumstances, including but not limited to an inmate's family support obligations; and

(v) Where applicable, an inmate's prior performance in department-approved education or work programs;

(c) Performance and goals. The department shall establish, and periodically review, inmate behavior standards and program goals for all education and work programs. Inmates shall be notified of applicable behavior standards and program goals prior to placement in an education or work program and shall be removed from the education or work program if they consistently fail to meet the standards or goals;

(d) Financial responsibility. (i) The department shall establish a formula by which inmates, based on their ability to pay, shall pay all or a portion of the costs or tuition of certain programs. Inmates shall, based on the formula, pay a portion of the costs or tuition of participation in:

(A) Second and subsequent vocational programs associated with an inmate's work programs; and

(B) An associate of arts or baccalaureate degree program when placement in a degree program is the result of a placement made under this subsection;

(ii) Inmates shall pay all costs and tuition for participation in:

(A) Any postsecondary academic degree program which is entered independently of a placement decision made under this subsection; and

(B) Second and subsequent vocational programs not associated with an inmate's work program.

Enrollment in any program specified in (d)(ii) of this subsection shall only be allowed by correspondence or if there is an opening in an education or work program at the institution where an inmate is incarcerated and no other inmate who is placed in a program under this subsection will be displaced; and

(e) Notwithstanding any other provision in this section, an inmate sentenced to life without the possibility of release:

(i) Shall not be required to participate in education programming; and

(ii) May receive not more than one postsecondary academic degree in a program offered by the department or its contracted providers.

If an inmate sentenced to life without the possibility of release requires prevocational or vocational training for a work program, he or she may participate in the training subject to this section.

(5) The department shall coordinate education and work programs among its institutions, to the greatest extent possible, to facilitate continuity of programming among inmates transferred between institutions. Before transferring an inmate enrolled in a program, the department shall consider the effect the transfer will have on the inmate's ability to continue or complete a program. This subsection shall not be used to delay or prohibit a transfer necessary for legitimate safety or security concerns.

(6) Before construction of a new correctional institution or expansion of an existing correctional institution, the department shall adopt a plan demonstrating

how cable, closed-circuit, and satellite television will be used for education and training purposes in the institution. The plan shall specify how the use of television in the education and training programs will improve inmates' preparedness for available work programs and job opportunities for which inmates may qualify upon release.

(7) The department shall adopt a plan to reduce the per-pupil cost of instruction by, among other methods, increasing the use of volunteer instructors and implementing technological efficiencies. The plan shall be adopted by December 1996 and shall be transmitted to the legislature upon adoption. The department shall, in adoption of the plan, consider distance learning, satellite instruction, video tape usage, computer-aided instruction, and flexible scheduling of offender instruction.

(8) Following completion of the review required by section 27(3) of this act the department shall take all necessary steps to assure the vocation and education programs are relevant to work programs and skills necessary to enhance the employability of inmates upon release.

**Sec. 6.** RCW 72.09.130 and 1981 c 136 s 17 are each amended to read as follows:

(1) The department shall adopt, by rule, a system ~~((providing incentives for good conduct and disincentives for poor conduct))~~ that clearly links an inmate's behavior and participation in available education and work programs with the receipt or denial of earned early release days and other privileges. The system ~~((may))~~ shall include increases or decreases in the degree of liberty granted the inmate within the programs operated by the department, access to or withholding of privileges available within correctional institutions, and recommended increases or decreases in the number of earned early release days that an inmate can earn for good conduct and good performance.

(2) Earned early release days shall be recommended by the department as a ~~((form of tangible))~~ reward for accomplishment. The system shall be fair, measurable, and understandable to offenders, staff, and the public. At least once in each twelve-month period, the department shall inform the offender in writing as to his or her conduct and performance. This written evaluation shall include reasons for awarding or not awarding recommended earned early release days for good conduct and good performance. ~~((The term "good performance" as used in this section means successfully performing a work, work training, or educational task to levels of expectation as specified in writing by the department. The term "good conduct" as used in this section refers to compliance with department rules.~~

~~Within one year after July 1, 1981, the department shall adopt, and provide a written description of, the system.))~~ An inmate is not eligible to receive earned early release days during any time in which he or she refuses to participate in an available education or work program into which he or she has been placed under section 5 of this act.

(3) The department shall provide ~~((a copy of this description to))~~ each offender in its custody a written description of the system created under this section.

NEW SECTION. Sec. 7. A new section is added to chapter 72.09 RCW to read as follows:

To the greatest extent practical, all inmates shall contribute to the cost of privileges. The department shall establish standards by which inmates shall contribute a portion of the department's capital costs of providing privileges, including television cable access, extended family visitation, weight lifting, and other recreational sports equipment and supplies. The standards shall also require inmates to contribute a significant portion of the department's operating costs directly associated with providing privileges, including staff and supplies. Inmate contributions may be in the form of individual user fees assessed against an inmate's institution account, deductions from an inmate's gross wages or gratuities, or inmates' collective contributions to the institutional welfare/betterment fund. The department shall make every effort to maximize individual inmate contributions to payment for privileges. The department shall not limit inmates' financial support for privileges to contributions from the institutional welfare/betterment fund. The standards shall consider the assets available to the inmates, the cost of administering compliance with the contribution requirements, and shall promote a responsible work ethic.

NEW SECTION. Sec. 8. A new section is added to chapter 72.09 RCW to read as follows:

When an inmate receives any funds in addition to his or her wages or gratuities, the additional funds shall be subject to the deductions in RCW 72.09.111(1)(a) and the priorities established in chapter 72.11 RCW.

NEW SECTION. Sec. 9. A new section is added to chapter 72.09 RCW to read as follows:

(1) The department shall establish a uniform policy on the privilege of extended family visitation. Not fewer than sixty days before making any changes in any policy on extended family visitation, the department shall: (a) Notify the appropriate legislative committees of the proposed change; and (b) notify the committee created under section 23 of this act of the proposed change. The department shall seek the advice of the committee established under section 23 of this act and other appropriate committees on all proposed changes and shall, before the effective date of any change, offer the committees an opportunity to provide input on proposed changes.

(2) In addition to its duties under chapter 34.05 RCW, the department shall provide the committee established under section 23 of this act and other appropriate committees of the legislature a written copy of any proposed adoption, revision, or repeal of any rule relating to extended family visitation. Except for adoption, revision, or repeal of a rule on an emergency basis, the

copy shall be provided not fewer than thirty days before any public hearing scheduled on the rule.

**NEW SECTION.** Sec. 10. A new section is added to chapter 72.09 RCW to read as follows:

An inmate found by the superintendent in the institution in which the inmate is incarcerated to have committed an aggravated assault against another person, under rules adopted by the department, is prohibited from participating in weight lifting for a period of two years from the date the finding is made. At the conclusion of the two-year period the superintendent shall review the inmate's infraction record to determine if additional weight-lifting prohibitions are appropriate. If, based on the review, it is determined by the superintendent that the inmate poses a threat to the safety of others or the order of the facility, or otherwise does not meet requirements for the weight-lifting privilege, the superintendent may impose an additional reasonable restriction period.

**NEW SECTION.** Sec. 11. A new section is added to chapter 72.09 RCW to read as follows:

Purchases of recreational equipment following the effective date of this act shall be cost-effective and, to the extent possible, minimize an inmate's ability to substantially increase muscle mass. Dietary supplements made for the sole purpose of increasing muscle mass shall not be available for purchase by inmates unless prescribed by a physician for medical purposes or for inmates officially competing in department-sanctioned competitive weight lifting.

**NEW SECTION.** Sec. 12. A new section is added to chapter 72.09 RCW to read as follows:

No inmate may acquire or possess a television for personal use for at least sixty days following completion of his or her intake and evaluation process at the Washington Corrections Center or the Washington Corrections Center for Women.

**NEW SECTION.** Sec. 13. A new section is added to chapter 72.09 RCW to read as follows:

The secretary shall, in consultation with the attorney general, adopt by rule a uniform policy that prohibits receipt or possession of anything that is determined to be contraband. The rule shall provide consistent maximum protection of legitimate penological interests, including prison security and order and deterrence of criminal activity. The rule shall protect the legitimate interests of the public and inmates in the exchange of ideas. The secretary shall establish a method of reviewing all incoming and outgoing material, consistent with constitutional constraints, for the purpose of confiscating anything determined to be contraband. The secretary shall consult regularly with the committee created under section 23 of this act on the development of the policy and implementation of the rule.

Sec. 14. RCW 4.24.130 and 1995 c 246 s 34 are each amended to read as follows:

(1) Any person desiring a change of his or her name or that of his or her child or ward, may apply therefor to the district court of the judicial district in which he or she resides, by petition setting forth the reasons for such change; thereupon such court in its discretion may order a change of the name and thenceforth the new name shall be in place of the former.

(2) An offender under the jurisdiction of the department of corrections who applies to change his or her name under subsection (1) of this section shall submit a copy of the application to the department of corrections not fewer than five days before the entry of an order granting the name change. No offender under the jurisdiction of the department of corrections at the time of application shall be granted an order changing his or her name if the court finds that doing so will interfere with legitimate penological interests, except that no order shall be denied when the name change is requested for religious or legitimate cultural reasons or in recognition of marriage or dissolution of marriage. An offender under the jurisdiction of the department of corrections who receives an order changing his or her name shall submit a copy of the order to the department of corrections within five days of the entry of the order. Violation of this subsection is a misdemeanor.

(3) The district court shall collect the fees authorized by RCW 36.18.010 for filing and recording a name change order, and transmit the fee and the order to the county auditor. The court may collect a reasonable fee to cover the cost of transmitting the order to the county auditor.

~~((2))~~ (4) Name change petitions may be filed and shall be heard in superior court when the person desiring a change of his or her name or that of his or her child or ward is a victim of domestic violence as defined in RCW 26.50.010(1) and the person seeks to have the name change file sealed due to reasonable fear for his or her safety or that of his or her child or ward. Upon granting the name change, the superior court shall seal the file if the court finds that the safety of the person seeking the name change or his or her child or ward warrants sealing the file. In all cases filed under this subsection, whether or not the name change petition is granted, there shall be no public access to any court record of the name change filing, proceeding, or order, unless the name change is granted but the file is not sealed.

NEW SECTION. Sec. 15. A new section is added to chapter 72.09 RCW to read as follows:

The department may require an offender who obtains an order under RCW 4.24.130 to use the name under which he or she was committed to the department during all official communications with department personnel and in all matters relating to the offender's incarceration or community supervision. An offender officially communicating with the department may also use his or her new name in addition to the name under which he or she was committed. Violation of this section is a misdemeanor.

(1) Upon entry into the correctional system, offenders shall receive an initial medical examination. The department shall prepare a health profile for each offender that includes at least the following information: (a) An identification of the offender's serious medical and dental needs; (b) an evaluation of the offender's capacity for work and recreation; and (c) a financial assessment of the offender's ability to pay for all or a portion of his or her health care services from personal resources or private insurance.

(b) To discourage unwarranted use of health care services caused by unnecessary visits to health care providers, offenders shall participate in the costs of their health care services by paying a nominal amount of no less than three dollars per visit, as determined by the secretary. Under the authority granted in RCW 72.01.050(2), the secretary may authorize the superintendent to collect this amount directly from an offender's institution account. All copayments collected from offenders' institution accounts shall be deposited into the general fund.

(c) Offenders are required to make copayments for initial health care visits that are offender initiated and, by rule adopted by the department, may be charged a copayment for subsequent visits related to the medical condition which caused the initial visit. Offenders are not required to pay for emergency

treatment or for visits initiated by health care staff or treatment of those conditions that constitute a serious health care need.

(d) No offender may be refused any health care service because of indigence.

(e) At no time shall the withdrawal of funds for the payment of a medical service copayment result in reducing an offender's institution account to an amount less than the level of indigency as defined in chapter 72.09 RCW.

(3)(a) The department shall report annually to the legislature the following information for the fiscal year preceding the report: (i) The total number of health care visits made by offenders; (ii) the total number of copayments assessed; (iii) the total dollar amount of copayments collected; (iv) the total number of copayments not collected due to an offender's indigency; and (v) the total number of copayments not assessed due to the serious or emergent nature of the health care treatment or because the health care visit was not offender initiated.

(b) The first report required under this section shall be submitted not later than October 1, 1996, and shall include, at a minimum, all available information collected through the second half of fiscal year 1996. This subsection (3)(b) shall expire December 1, 1996.

(b) The acquisition of replenishment personal hygiene items is the responsibility of inmates, except that indigent inmates shall not be denied adequate personal hygiene items based on their inability to pay for them.

(c) The policy shall provide that the replenishment personal hygiene items be distributed to inmates only in authorized quantities and at intervals that reflect prudent use and customary wear and consumption of the items.

(5) The following become a debt and are subject to section 4 of this act:

(b) All charges for replenishment personal hygiene items that are not collected when the item is distributed.

NEW SECTION. Sec. 18. The department shall adopt rules to implement RCW 72.10.020.

NEW SECTION. Sec. 19. The office of financial management shall contract with a private research company to conduct a review of the department of corrections health services delivery and administration to determine whether alternative methods, including other organizational models of service delivery and administration, could be more efficiently achieved by contracting with private vendors and whether there are more cost-efficient methods of providing nonprescription medications. The study shall include an analysis of the impact

expanded privatization of administration or delivery of the services would have on the quality of health services and on critical components of the system including but not limited to eye and dental care and laboratory services. The study shall be submitted to the legislature by December 1, 1996. The decision to implement any recommendations made in the report shall be made by the legislature.

**Sec. 20.** RCW 9.94A.137 and 1993 c 338 s 4 are each amended to read as follows:

(1)(a) An offender is eligible to be sentenced to a work ethic camp if the offender:

~~((a))~~ (i) Is sentenced to a term of total confinement of not less than ~~((twenty-two))~~ sixteen months or more than thirty-six months~~((+~~

~~(b) Is between the ages of eighteen and twenty-eight years)); and~~

~~((e))~~ (ii) Has no current or prior convictions for any sex offenses or for violent offenses other than drug offenses for manufacturing, possession, delivery, or intent to deliver a controlled substance.

(b) The length of the work ethic camp shall be at least one hundred twenty days and not more than one hundred eighty days. Because of the conversion ratio, earned early release time shall not accrue to offenders who successfully complete the program.

(2) If the sentencing judge determines that the offender is eligible for the work ethic camp and is likely to qualify under subsection (3) of this section, the judge shall impose a sentence within the standard range and may recommend that the offender serve the sentence at a work ethic camp. The sentence shall provide that if the offender successfully completes the program, the department shall convert the period of work ethic camp confinement at the rate of one day of work ethic camp confinement to three days of total standard confinement. ~~((The court shall also provide that upon completion of the work ethic camp program, the offender shall be released on community custody for any remaining time of total confinement.))~~ In sentencing an offender to the work ethic camp, the court shall specify: (a) That upon completion of the work ethic camp the offender shall be released on community custody for any remaining time of total confinement; (b) the applicable conditions of supervision on community custody status as required by RCW 9.94A.120(9)(b) and authorized by RCW 9.94A.120(9)(c); and (c) that violation of the conditions may result in a return to total confinement for the balance of the offender's remaining time of confinement.

(3) The department shall place the offender in the work ethic camp program, subject to capacity, unless: (a) The department determines that the offender has physical or mental impairments that would prevent participation and completion of the program(=); (b) the department determines that the offender's custody level prevents placement in the program; or (c) the offender refuses to agree to the terms and conditions of the program.

(4) An ~~((inmate))~~ offender who fails to complete the work ethic camp program, who is administratively terminated from the program, or who otherwise

violates any conditions of supervision, as defined by the department, shall be reclassified to serve the unexpired term of his or her sentence as ordered by the sentencing judge and shall be subject to all rules relating to earned early release time.

~~(5) ((The length of the work ethic camp program shall be at least one hundred twenty days and not more than one hundred eighty days. Because of the conversion ratio, earned early release time shall not accrue to offenders who successfully complete the program.~~

(6)) During the last two weeks prior to release from the work ethic camp program the department shall provide the offender with comprehensive transition training.

NEW SECTION. Sec. 21. A new section is added to chapter 72.09 RCW to read as follows:

(1) The department is authorized to establish a camp for alien offenders and shall be ready to assign offenders to the camp not later than January 1, 1997. The secretary shall locate the camp within the boundaries of an existing department facility.

(2) The secretary, in consultation with the committee established in section 23 of this act, shall prepare a report to the legislature by December 1, 1995, on an implementation plan for the camp. The plan shall include recommendations on meeting the following goals: (a) Expedited deportation of alien offenders; (b) reduced daily costs of incarceration; (c) enhanced public benefit through an emphasis on inmate work and exemption from education programs other than those programs necessary for offenders to understand and follow directions; (d) minimum access to privileges; and (e) maximized use of nonstate resources for the costs of incarceration.

(3) In preparing the plan, the secretary shall address at least the following: (a) Eligibility criteria for prompt admission to the camp; (b) whether to have a minimum and maximum length of stay in the camp; (c) operational elements including residential arrangements, inmate conduct and programming standards, and achieving maximum cooperation with the United States government to expedite deportation of alien offenders and reduce the likelihood that alien offenders who complete the camp will avoid deportation; (d) mitigating adverse impacts the camp may have on other offender programs; (e) meeting the goals set forth in this section; and (f) any state law and fiscal issues that are necessary for implementation of the camp.

(4) The department shall consult with all appropriate public safety organizations and the committee created under section 23 of this act in developing the plan.

\*NEW SECTION. Sec. 22. A new section is added to chapter 72.09 RCW to read as follows:

(1) *The secretary shall establish, at each institution with an inmate population of more than one hundred, a corrections advisory team. The team*

Additionally, the secretary shall seek authorization from the appropriate federal agencies to expand the acreage available for use at McNeil Island. The secretary shall initiate the request for waivers by August 1, 1995, and shall advise the committee created under section 23 of this act of the waiver request and any response to the request.

**Sec. 29.** RCW 9.95.210 and 1995 c 33 s 6 are each amended to read as follows:

(1) In granting probation, the court may suspend the imposition or the execution of the sentence and may direct that the suspension may continue upon such conditions and for such time as it shall designate, not exceeding the maximum term of sentence or two years, whichever is longer.

(2) In the order granting probation and as a condition thereof, the court may in its discretion imprison the defendant in the county jail for a period not exceeding one year and may fine the defendant any sum not exceeding the statutory limit for the offense committed, and court costs. As a condition of probation, the court shall require the payment of the penalty assessment required by RCW 7.68.035. The court may also require the defendant to make such monetary payments, on such terms as it deems appropriate under the circumstances, as are necessary: ~~((4))~~ (a) To comply with any order of the court for the payment of family support~~((2))~~; (b) to make restitution to any person or persons who may have suffered loss or damage by reason of the commission of the crime in question or when the offender pleads guilty to a lesser offense or fewer offenses and agrees with the prosecutor's recommendation that the offender be required to pay restitution to a victim of an offense or offenses which are not prosecuted pursuant to a plea agreement~~((3))~~; (c) to pay such fine as may be imposed and court costs, including reimbursement of the state for costs of extradition if return to this state by extradition was required~~((4))~~; (d) following consideration of the financial condition of the person subject to possible electronic monitoring, to pay for the costs of electronic monitoring if that monitoring was required by the court as a condition of release from custody

(3) The court shall order restitution in all cases where the victim is entitled to benefits under the crime victims' compensation act, chapter 7.68 RCW. If the court does not order restitution and the victim of the crime has been determined to be entitled to benefits under the crime victims' compensation act, the department of labor and industries, as administrator of the crime victims' compensation program, may petition the court within one year of imposition of the sentence for entry of a restitution order. Upon receipt of a petition from the department of labor and industries, the court shall hold a restitution hearing and shall enter a restitution order.

(4) In granting probation, the court (~~(shall)~~) may order the probationer to report to the secretary of corrections or such officer as the secretary may designate and as a condition of the probation to follow (~~(implicitly)~~) the instructions of the secretary.

The secretary of corrections will promulgate rules and regulations for the conduct of the person during the term of probation. For defendants found guilty in district court, like functions as the secretary performs in regard to probation may be performed by probation officers employed for that purpose by the county legislative authority of the county wherein the court is located.

Sec. 30. RCW 9.92.060 and 1987 c 202 s 142 are each amended to read as follows:

necessary ~~((1))~~; (a) To comply with any order of the court for the payment of family support ~~((2))~~; (b) to make restitution to any person or persons who may have suffered loss or damage by reason of the commission of the crime in question or when the offender pleads guilty to a lesser offense or fewer offenses and agrees with the prosecutor's recommendation that the offender be required to pay restitution to a victim of an offense or offenses which are not prosecuted pursuant to a plea agreement ~~((3))~~; (c) to pay any fine imposed and not suspended and the court or other costs incurred in the prosecution of the case, including reimbursement of the state for costs of extradition if return to this state by extradition was required ~~((4))~~; and ~~((4))~~ (d) to contribute to a county or interlocal drug fund. ~~((In no case shall a sentence be suspended under the provisions of this section unless the person if sentenced to confinement in a penal institution be placed under the charge of a parole officer, who is a duly appointed and acting officer of the institution to which the person is sentenced. (3) As a condition of the suspended sentence, the court may order the probationer to report to the secretary of corrections or such officer as the secretary may designate and as a condition of the probation to follow the instructions of the secretary.

(4) If restitution to the victim has been ordered under subsection (2)(b) of this section and the court has ordered supervision, the officer supervising the probationer shall make a reasonable effort to ascertain whether restitution has been made as ordered. If the court has ordered supervision and restitution has not been made, the officer shall inform the prosecutor of that violation of the terms of the suspended sentence not less than three months prior to the termination of the suspended sentence.

NEW SECTION. Sec. 31. A new section is added to chapter 9.95 RCW to read as follows:

(1) The Washington state law and justice advisory council, appointed under RCW 72.09.300(7), shall by October 1, 1995, develop proposed standards for the supervision of misdemeanor probationers sentenced by superior courts under RCW 9.92.060 or 9.95.210. In developing the standards, the council shall consider realistic current funding levels or reasonable expansions thereof, the recommendations of the department of corrections, county probation departments, superior and district court judges, and the misdemeanor corrections association. The supervision standards shall establish classifications of misdemeanor probationers based upon the seriousness of the offense, the perceived risks to the community, and other relevant factors. The standards may provide discretion to officials supervising misdemeanor probationers to adjust the supervision standards, for good cause, based upon individual circumstances surrounding the probationer. The supervision standards shall include provisions for reciprocal supervision of offenders who are sentenced in counties other than their counties of residence.

(2) The department of corrections shall report to the legislature by December 1, 1995, the estimated cost of fully implementing the proposed standards. The report shall rank by relative costs each of the elements of the proposed standards and shall identify the total daily supervision cost per offender. The report shall also include an accounting of the amount of supervision fees assessed and collected by the department under section 32 of this act.

**NEW SECTION. Sec. 32.** A new section is added to chapter 9.95 RCW to read as follows:

Whenever a defendant convicted of a misdemeanor or gross misdemeanor is placed on probation under RCW 9.92.060 or 9.95.210, and the defendant is supervised by the department of corrections, the department may assess and collect from the defendant for the duration of the term of supervision a monthly assessment not to exceed one hundred dollars per month. This assessment shall be paid to the department and shall be applied, along with funds appropriated by the legislature, toward the payment or part payment of the cost of supervising the defendant.

**Sec. 33.** RCW 72.09.100 and 1994 c 224 s 1 are each amended to read as follows:

It is the intent of the legislature to vest in the department the power to provide for a comprehensive inmate work program and to remove statutory and other restrictions which have limited work programs in the past. For purposes of establishing such a comprehensive program, the legislature recommends that the department consider adopting any or all, or any variation of, the following classes of work programs:

(1) **CLASS I: FREE VENTURE INDUSTRIES.** The employer model industries in this class shall be operated and managed in total or in part by any profit or nonprofit organization pursuant to an agreement between the organization and the department. The organization shall produce goods or services for sale to both the public and private sector.

The customer model industries in this class shall be operated and managed by the department to provide Washington state manufacturers or businesses with products or services currently produced or provided by out-of-state or foreign suppliers. The correctional industries board of directors shall review these proposed industries before the department contracts to provide such products or services. The review shall include an analysis of the potential impact of the proposed products and services on the Washington state business community and labor market.

The department of corrections shall supply appropriate security and custody services without charge to the participating firms.

Inmates who work in free venture industries shall do so at their own choice. They shall be paid a wage comparable to the wage paid for work of a similar nature in the locality in which the industry is located, as determined by the director of correctional industries. If the director cannot reasonably determine

the comparable wage, then the pay shall not be less than the federal minimum wage.

An inmate who is employed in the class I program of correctional industries shall not be eligible for unemployment compensation benefits pursuant to any of the provisions of Title 50 RCW until released on parole or discharged.

(2) CLASS II: TAX REDUCTION INDUSTRIES. Industries in this class shall be state-owned and operated enterprises designed to reduce the costs for goods and services for tax-supported agencies and for nonprofit organizations. The industries selected for development within this class shall, as much as possible, match the available pool of inmate work skills and aptitudes with the work opportunities in the free community. The industries shall be closely patterned after private sector industries but with the objective of reducing public support costs rather than making a profit. The products and services of this industry, including purchased products and services necessary for a complete product line, may be sold to public agencies, to nonprofit organizations, and to private contractors when the goods purchased will be ultimately used by a public agency or a nonprofit organization. Clothing manufactured by an industry in this class may be donated to nonprofit organizations that provide clothing free of charge to low-income persons. Correctional industries products and services shall be reviewed by the correctional industries board of directors before offering such products and services for sale to private contractors. The board of directors shall conduct a yearly marketing review of the products and services offered under this subsection. Such review shall include an analysis of the potential impact of the proposed products and services on the Washington state business community. To avoid waste or spoilage and consequent loss to the state, when there is no public sector market for such goods, byproducts and surpluses of timber, agricultural, and animal husbandry enterprises may be sold to private persons, at private sale. Surplus byproducts and surpluses of timber, agricultural and animal husbandry enterprises that cannot be sold to public agencies or to private persons may be donated to nonprofit organizations. All sales of surplus products shall be carried out in accordance with rules prescribed by the secretary.

Security and custody services shall be provided without charge by the department of corrections.

Inmates working in this class of industries shall do so at their own choice and shall be paid for their work on a gratuity scale which shall not exceed the wage paid for work of a similar nature in the locality in which the industry is located and which is approved by the director of correctional industries.

Subject to approval of the correctional industries board, provisions of RCW 41.06.380 prohibiting contracting out work performed by classified employees shall not apply to contracts with Washington state businesses entered into by the department of corrections through class II industries.

(3) CLASS III: INSTITUTIONAL SUPPORT INDUSTRIES. Industries in this class shall be operated by the department of corrections. They shall be designed and managed to accomplish the following objectives:

(a) Whenever possible, to provide basic work training and experience so that the inmate will be able to qualify for better work both within correctional industries and the free community. It is not intended that an inmate's work within this class of industries should be his or her final and total work experience as an inmate.

(b) Whenever possible, to provide forty hours of work or work training per week.

(c) Whenever possible, to offset tax and other public support costs.

Supervising, management, and custody staff shall be employees of the department.

All able and eligible inmates who are assigned work and who are not working in other classes of industries shall work in this class.

Except for inmates who work in work training programs, inmates in this class shall be paid for their work in accordance with an inmate gratuity scale. The scale shall be adopted by the secretary of corrections.

(4) CLASS IV: COMMUNITY WORK INDUSTRIES. Industries in this class shall be operated by the department of corrections. They shall be designed and managed to provide services in the inmate's resident community at a reduced cost. The services shall be provided to public agencies, to persons who are poor or infirm, or to nonprofit organizations.

Inmates in this program shall reside in facilities owned by, contracted for, or licensed by the department of corrections. A unit of local government shall provide work supervision services without charge to the state and shall pay the inmate's wage.

The department of corrections shall reimburse participating units of local government for liability and workers compensation insurance costs.

Inmates who work in this class of industries shall do so at their own choice and shall receive a gratuity which shall not exceed the wage paid for work of a similar nature in the locality in which the industry is located.

(5) CLASS V: COMMUNITY SERVICE PROGRAMS. Programs in this class shall be subject to supervision by the department of corrections. The purpose of this class of industries is to enable an inmate, placed on community supervision, to work off all or part of a community service order as ordered by the sentencing court.

Employment shall be in a community service program operated by the state, local units of government, or a nonprofit agency.

To the extent that funds are specifically made available for such purposes, the department of corrections shall reimburse nonprofit agencies for workers compensation insurance costs.

***\*NEW SECTION. Sec. 34. The legislature requires reductions in department of corrections staffing levels appropriated by the 1995-97 omnibus appropriations act be implemented so as to preserve the safe and orderly operation of the institutions, including the safety of staff, visitors, and inmates and to protect public safety. To accomplish this, the department shall target***

*staff reductions in: (1) Exempt positions within the department's headquarters and division of prisons such as assistant secretaries, assistants to the secretary, superintendents, associate superintendents, and federal and state liaisons; and (2) management positions of lieutenant and above as classified by the department of personnel.*

\*Sec. 34 was vetoed. See message at end of chapter.

**\*NEW SECTION.** *Sec. 35. A new section is added to chapter 72.09 RCW to read as follows:*

*The ratio of recreational leader positions 2, 3, and 4 to average daily inmate population within the department shall be maintained as established pursuant to the 1995 omnibus appropriations act.*

\*Sec. 35 was vetoed. See message at end of chapter.

**NEW SECTION.** *Sec. 36. RCW 72.09.020 and 1988 c 153 s 7 & 1981 c 136 s 7 are each repealed.*

**NEW SECTION.** *Sec. 37. This act shall be known as the department of corrections cost-efficiency and inmate responsibility omnibus act.*

**NEW SECTION.** *Sec. 38. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.*

**\*NEW SECTION.** *Sec. 39. If specific funding for the purpose of this act, referencing this act by bill number, is not provided by June 30, 1995, in the omnibus appropriations act, this act shall be null and void.*

\*Sec. 39 was vetoed. See message at end of chapter.

**NEW SECTION.** *Sec. 40. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately.*

Passed the House May 18, 1995.

Passed the Senate May 22, 1995.

Approved by the Governor June 15, 1995, with the exception of certain items which were vetoed.

Filed in Office of Secretary of State June 15, 1995.

Note: Governor's explanation of partial veto is as follows:

"I am returning herewith, without my approval as to sections 22, 26, 34, 35, and 39, Second Engrossed Second Substitute House Bill No. 2010 entitled:

"AN ACT Relating to Corrections;"

Second Engrossed Second Substitute House Bill No. 2010 represents hard work and strong commitment. I applaud the 1995 legislature for taking on the rigorous task of examining ways to make inmates more accountable and the Department of Corrections more efficient. This legislation is far reaching and required an appreciation and understanding of varied and often conflicting philosophies and agendas. While I note some concerns with this legislation, it is vital to note my great confidence in our accomplishing the goals addressed.

I will begin by addressing an important issue raised in section 21, which I am not vetoing. This section authorizes the Department of Corrections to establish a camp for alien offenders. The Department of Corrections is also directed to develop an

implementation plan for the camp by December 1, 1995 and be ready to assign offenders to a camp, if any is established, by January 1, 1997. Section 21, on its face, applies to all alien offenders, whether documented or undocumented, and whether or not the offenses for which they are incarcerated leave them subject to deportation. Further, the goals for the camp — to expedite deportation and reduce costs — envision early release by the Department of Corrections and rapid deportation by federal officials. It is clear that a great deal of continued state and federal effort and cooperation will be necessary before this vision is realized.

Of most importance, however, is the need to avoid any appearance that the state of Washington is sending an anti-alien message generally. We have all seen the regrettable results of cost saving or efficiency measures escalating into issues of discrimination or even ethnic separation. I have been assured, however, that no such message should be read into the language of this section. I have received a letter signed by Representative Ballasiotes on behalf of the members of the conference committee who worked so hard on the details of this legislation. She states that only "non-legal" alien offenders are or ever were to be considered for participation in the proposed camp.

It is with that understanding that I approve this section. The Department of Corrections will have much needed time and flexibility to work with federal officials and return to the legislature with plans and concerns. I share the desire expressed by Representative Ballasiotes that we work closely together on further development and implementation. We will do so.

Section 22 requires the Department to create a "Corrections Advisory Team" at each institution with more than 100 offenders. While I strongly support the advisory value of stakeholders in the cost-effective operation of our prisons, there are a number of reasons for removing this section. First, the mandated advisory teams are duplicative of existing oversight represented by state and local labor-management committees provided for in collective bargaining agreements; state and local law and justice planning committees provided for in RCW 72.09.300; the correctional industries board provided in RCW 72.09.070; and the institutional, community advisory committees authorized under RCW 43.88.500-515.

The advisory teams mandated by this section generate added costs to the taxpayers for team support services, travel expenses, per diem costs, and backfill expenses related to mandated staff membership. Further, in the absence of any mandate that these teams work together relative to the total operation of the prison system, there is high risk that program fragmentation would occur, exacerbating rather than reducing system inefficiencies and costs. In spite of the veto of this section, we must work together to promote operational efficiencies and I strongly encourage cooperation between management and line level employees at each institution through existing mechanisms.

Section 26 is divided into four subsections requiring that four different studies be conducted. The drafting in certain subsections is unclear as to exactly what is to be studied and no funds are provided to conduct them. Although technical and fiscal concerns as outlined below dictate a veto of this section, I will direct the affected agencies to work with legislators and legislative staff, to the greatest extent possible without additional resources, to provide the legislature with all of the information requested.

Subsection 1 directs the State Auditor to review the Department of Corrections budgeting process and operating budget request for the 1995-97 biennium. The agency budget request is a part of a complex budget process that ultimately produces several sections in an appropriations act. The Department of Corrections' budget is reviewed by the Office of Financial Management in preparation for my budget recommendation, and then reviewed by both House and Senate Committees. It is unclear what the Auditor is to make recommendations on. If the intent was to perform a performance audit, it is not stated here. Budget development and related policy implications are the arena of the executive branch and the legislature. The role of the Auditor is to ensure the legal implementation of those budgets.

Subsection 2 directs the Department of Transportation to review the feasibility and desirability of privatizing the Department of Corrections marine fleet, operation, or both. The Department of Transportation has expressed a willingness to conduct this feasibility

study within existing resources, and will report to the legislature as outlined in this subsection.

Subsection 3 directs the Office of Financial Management and the Department of General Administration to review the food planning model developed by the Department of Corrections for possible expansion to a uniform state-wide system. I will direct these agencies to examine this topic and communicate their findings to the legislature.

Subsection 4 directs the printing and duplicating management center of the Department of General Administration (GA) to review the feasibility and desirability of establishing a class II correctional industry within one or more correctional institutions. The printing and duplicating management center of GA no longer exists. In addition, Correctional Industries already operates printing facilities pursuant to agreements with the State Printer. With regard to the development of a printer's apprentice program, the Department of Corrections has consistently worked to expand apprentice programs across the entire continuum of Correctional Industries programs.

Section 34 conflicts with the assumptions contained in Section 223 (Department of Corrections) of Engrossed Substitute House Bill 1410, the Omnibus Appropriations Act. Staff reductions and efficiencies will be implemented consistent with the assumptions in the Omnibus Appropriations Act.

Section 35 places into statute the staffing ratios for recreational leader positions 2, 3, and 4 as provided for in the omnibus appropriations act. This approach fails to account for the expansion to new facilities or the changing environment within the corrections system. In addition, the language is inconsistent with other sections of this act which direct Correctional Industries (CI) to study the possibility of a work program to provide opportunities for support staffing in recreation and fitness programs. All of these could result in changes in these staffing levels. The Omnibus Appropriations Act is the appropriate vehicle to deal with this issue, placing it under a biennial review.

Section 39 states that this bill shall be null and void if it is not referenced in the biennial budget. Section 40 declares an emergency and states that the bill shall take effect immediately. These two sections are inconsistent. If a bill is "necessary for the immediate preservation of the public peace, health, and safety" it cannot also be subject to the uncertainties of the appropriation process. There are some elements of this bill that will provide immediate benefits and are consistent with the immediate implementation provided by section 40. Therefore, I am vetoing section 39.

For these reasons, I am vetoing sections 22, 26, 34, 35 and 39 of Second Engrossed Second Substitute House Bill No. 2010.

With the exception of sections 22, 26, 34, 35 and 39, Second Engrossed Second Substitute House Bill No. 2010 is approved."

The secretary of state may propose an alternative date for the primary no later than the first day of August of the year before the year in which a president is to be nominated and elected.

(2) No later than the first day of September of the year before the year in which a presidential nominee is selected, the state committee of any major political party that will use the primary results for candidates of that party may propose an alternative date for that primary.

(3) If an alternative date is proposed under subsection (1) or (2) of this section a committee consistin of the chair and the vice-chair of the state committee of each major political party, the secretary of state, the majority leader and minority leader of the senate, and the speaker and the minority leader of the house of representatives shall meet and, if affirmed by a two-thirds vote of the members of the committee, the date of the primary shall be changed. The committee shall meet and decide on the proposed alternate date not later than the first day of October of the year before the year in which a presidential nominee is selected. The secretary of state shall convene and preside over the meeting of the committee. A committee member other than a legislator may appoint, in writing, a designee to serve on his or her behalf. A legislator who is a member of the committee may appoint, in writing, another legislator to serve on his or her behalf.

(4) If an alternate date is approved under this section, the secretary of state shall adopt rules under RCW 29.19.070 to adjust the deadlines in RCW 29.19.030 and related provisions of this chapter to correspond with the date that has been approved.

NEW SECTION. Sec. 2. A new section is added to chapter 29.19 RCW to read as follows:

A primary ballot, containing the names of all the candidates who have qualified for a place on the ballot under RCW 29.19.030, must be provided for nonaffiliated voters.

(3) The ballot must list alphabetically the names of all candidates for the office of president. The ballot must indicate the political party of each candidate adjacent to the name of that candidate. Each ballot must include a blank space to allow the voter to write in the name of any other candidate.

(4) A presidential primary ballot with votes for more than one candidate is void, and notice to this effect, stated in clear, simple language and printed in large type, must appear on the face of each presidential primary ballot or on or about each voting device.

**NEW SECTION. Sec. 3.** A new section is added to chapter 29.19 RCW to read as follows:

(1) A major political party may, under national or state party rules, base the allocation of delegates from this state to the national nominating convention of that party in whole or in part on the participation in precinct caucuses and conventions conducted under the rules of that party.

(2) If requested by a major political party, the secretary of state shall adopt rules under RCW 29.19.070 to provide for any declaration required by that party.

(3) Voters who subscribe to a specific political party declaration under this section must be given ballots that are readily distinguishable from those given to other voters. Votes cast by persons making these declarations must be tabulated and reported separately from other votes cast at the primary and may be used by a major political party in its allocation of delegates under the rules of that party.

(4) For a political party that requires a specific voter declaration under this section, the secretary of state shall prescribe rules for providing, to the state and county committees of that political party, a copy of the declarations or a list of the voters who participated in the presidential nominating process of that party.

**Sec. 4.** RCW 29.19.070 and 1989 c 4 s 7 are each amended to read as follows:

The secretary of state as chief election officer may make rules in accordance with chapter 34.05 RCW (~~or its statutory successor~~) to facilitate the operation, accomplishment, and purpose of this chapter. The secretary of state shall adopt rules consistent with this chapter to comply with national or state political party rules.

**Sec. 5.** RCW 29.19.080 and 1989 c 4 s 8 are each amended to read as follows:

Subject to available funds specifically appropriated for this purpose, whenever a presidential (~~preference~~) primary (~~election~~) is held as provided by this chapter, the state of Washington shall assume all costs of holding the (~~election~~) primary if it is held alone. If any other election or elections are held at the same time, the state is liable only for (~~its~~) a prorated share of the costs. The county auditor shall determine the (~~election~~) costs, including the state's prorated share, if applicable, in the same manner as provided under RCW 29.13.045 and shall file a certified claim (~~therefore~~) with the secretary of state. The secretary of state shall (~~compile such claims for presentation to the next succeeding legislature in the same manner as other legislative relief claims~~) include in his or her biennial budget requests sufficient funds to carry out this

section. Reimbursements for primary costs must be from appropriations specifically provided by law for that purpose.

## CHAPTER 13

[Second Engrossed Substitute Senate Bill 5000]

### PROPERTY TAX REDUCTIONS

AN ACT Relating to property tax reductions; amending RCW 84.48.080 and 84.52.010; adding a new section to chapter 84.55 RCW; and creating a new section.

Be it enacted by the Legislature of the State of Washington:

NEW SECTION. **Sec. 1.** With property valuations continuing to increase, property taxes have been steadily increasing. At the same time, personal incomes have not continued to rise at the same rate. Property taxes are becoming increasingly more difficult to pay. Many residential property owners complain about the overall level of taxes and about the continuing increase in tax from year to year. Taxpayers want property tax relief. The legislature intends to establish an on-going program of state property tax reductions the amount of

which is to be determined by the legislature on a yearly basis based on the level of general fund tax revenues.

**NEW SECTION.** Sec. 2. A new section is added to chapter 84.55 RCW to read as follows:

(1) The state property tax levy for collection in 1996 shall be reduced by 4.7187 percent of the levy amount that would otherwise be allowed under this chapter without regard to this section or any other tax reduction legislation enacted in 1995.

(2) The tax reduction provided in this section is in addition to any other tax reduction legislation that may be enacted by the legislature.

(3) State levies for collection after 1996 shall be set at the amount that would be allowed otherwise under this chapter if the state levy for collection in 1996 had been set without the reduction under subsection (1) of this section.

Sec. 3. RCW 84.48.080 and 1994 c 301 s 43 are each amended to read as follows:

(1) Annually during the months of September and October, the department of revenue shall examine and compare the returns of the assessment of the property in the several counties of the state, and the assessment of the property of railroad and other companies assessed by the department, and proceed to equalize the same, so that each county in the state shall pay its due and just proportion of the taxes for state purposes for such assessment year, according to the ratio the valuation of the property in each county bears to the total valuation of all property in the state.

First. The department shall classify all property, real and personal, and shall raise and lower the valuation of any class of property in any county to a value that shall be equal, so far as possible, to the true and fair value of such class as of January 1st of the current year for the purpose of ascertaining the just amount of tax due from each county for state purposes. In equalizing personal property as of January 1st of the current year, the department shall use the assessment level of the preceding year. Such classification may be on the basis of types of property, geographical areas, or both. For purposes of this section, for each county that has not provided the department with an assessment return by December 1st, the department shall proceed, using facts and information and in a manner it deems appropriate, to estimate the value of each class of property in the county.

Second. The department shall keep a full record of its proceedings and the same shall be published annually by the department.

(2) The department shall levy the state taxes authorized by law(~~and~~ ~~PROVIDED, That~~). The amount levied in any one year for general state purposes shall not exceed the lawful dollar rate on the dollar of the assessed value of the property of the entire state, which assessed value shall be one hundred percent of the true and fair value of such property in money. The department shall apportion the amount of tax for state purposes levied by the

department, among the several counties, in proportion to the valuation of the taxable property of the county for the year as equalized by the department: PROVIDED, That for purposes of this apportionment, the department shall recompute the previous year's levy and the apportionment thereof to correct for changes and errors in taxable values reported to the department after October 1 of the preceding year and shall adjust the apportioned amount of the current year's state levy for each county by the difference between the apportioned amounts established by the original and revised levy computations for the previous year. For purposes of this section, changes in taxable values mean a final adjustment made by a county board of equalization, the state board of tax appeals, or a court of competent jurisdiction and shall include additions of omitted property, other additions or deletions from the assessment or tax rolls, any assessment return provided by a county to the department subsequent to December 1st, or a change in the indicated ratio of a county. Errors in taxable values mean errors corrected by a final reviewing body.

In addition to computing a levy under this subsection that is reduced under section 2 of this act, the department shall compute a hypothetical levy without regard to the reduction under section 2 of this act. This hypothetical levy shall also be apportioned among the several counties in proportion to the valuation of the taxable property of the county for the year, as equalized by the department, in the same manner as the actual levy and shall be used by the county assessors for the purpose of recomputing and establishing a consolidated levy under RCW 84.52.010.

(3) The department shall have authority to adopt rules and regulations to enforce obedience to its orders in all matters in relation to the returns of county assessments, the equalization of values, and the apportionment of the state levy by the department.

(4) After the completion of the duties (~~hereinabove~~) prescribed in this section, the director of the department shall certify the record of the proceedings of the department under this section, the tax levies made for state purposes and the apportionment thereof among the counties, and the certification shall be available for public inspection.

**Sec. 4.** RCW 84.52.010 and 1995 c 99 s 2 are each amended to read as follows:

Except as is permitted under RCW 84.55.050, all taxes shall be levied or voted in specific amounts.

The rate percent of all taxes for state and county purposes, and purposes of taxing districts coextensive with the county, shall be determined, calculated and fixed by the county assessors of the respective counties, within the limitations provided by law, upon the assessed valuation of the property of the county, as shown by the completed tax rolls of the county, and the rate percent of all taxes levied for purposes of taxing districts within any county shall be determined, calculated and fixed by the county assessors of the respective counties, within the

limitations provided by law, upon the assessed valuation of the property of the taxing districts respectively.

When a county assessor finds that the aggregate rate of tax levy on any property, that is subject to the limitations set forth in RCW 84.52.043 or 84.52.050, (~~as now or hereafter amended,~~) exceeds the limitations provided in either of these sections, the assessor shall recompute and establish a consolidated levy in the following manner:

(1) The full certified rates of tax levy for state, county, county road district, and city or town purposes shall be extended on the tax rolls in amounts not exceeding the limitations established by law; however any state levy shall take precedence over all other levies and shall not be reduced for any purpose other than that required by RCW 84.55.010. If, as a result of the levies imposed under RCW 84.52.069, 84.34.230, the portion of the levy by a metropolitan park district that was protected under RCW 84.52.— (section 1, chapter 99, Laws of 1995), and 84.52.105, the combined rate of regular property tax levies that are subject to the one percent limitation exceeds one percent of the true and fair value of any property, then these levies shall be reduced as follows: (a) The portion of the levy by a metropolitan park district that is protected under RCW 84.52.— (section 1, chapter 99, Laws of 1995) shall be reduced until the combined rate no longer exceeds one percent of the true and fair value of any property or shall be eliminated; (b) if the combined rate of regular property tax levies that are subject to the one percent limitation still exceeds one percent of the true and fair value of any property, then the levies imposed under RCW 84.34.230, 84.52.105, and any portion of the levy imposed under RCW 84.52.069 that is in excess of thirty cents per thousand dollars of assessed value, shall be reduced on a pro rata basis until the combined rate no longer exceeds one percent of the true and fair value of any property or shall be eliminated; and (c) if the combined rate of regular property tax levies that are subject to the one percent limitation still exceeds one percent of the true and fair value of any property, then the thirty cents per thousand dollars of assessed value of tax levy imposed under RCW 84.52.069 shall be reduced until the combined rate no longer exceeds one percent of the true and fair value of any property or eliminated.

(2) The certified rates of tax levy subject to these limitations by all junior taxing districts imposing taxes on such property shall be reduced or eliminated as follows to bring the consolidated levy of taxes on such property within the provisions of these limitations:

(a) First, the certified property tax levy rates of those junior taxing districts authorized under RCW 36.68.525, 36.69.145, and 67.38.130 shall be reduced on a pro rata basis or eliminated;

*(4) Up to \$1,430,000 of the motor vehicle fund—state appropriation contained in this section shall be used for evaluations that mutually benefit cities, counties, and the state department of transportation. The evaluations may include fuel tax evasion, license fraud, access management, regional mobility, and miscellaneous cost/benefit measures, as determined by the legislative transportation committee. Of this amount, up to \$750,000 may be used to develop a regional mobility plan that includes, but is not limited to, highways, paratransit, ridesharing, targeted telecommuting, no-fare transit, and vanpool subsidies on a least cost basis; a high occupancy vehicle lane completion analysis; and recommended statutory changes that would allow the plan to be submitted to a public vote by the regional transit authority.*

**Sec. 514.** RCW 43.211.005 and 1991 c 200 s 401 are each amended to read as follows:

(1) The legislature declares that Washington's waters have irreplaceable value for the citizens of the state. These waters are vital habitat for numerous and diverse marine life and wildlife and the source of recreation, aesthetic pleasure, and pride for Washington's citizens. These waters are also vital for much of Washington's economic vitality.

The legislature finds that the transportation of oil on these waters creates a great potential hazard to these important natural resources. ~~((The legislature also finds that there is no state agency responsible for maritime safety to ensure this state's interest in preserving these resources.~~

~~The legislature therefore finds that in order to protect these waters it is necessary to establish an office of marine safety which will have the responsibility to promote the safety of marine transportation in Washington.))~~

(2) The legislature finds that the long-term environmental health of the state's waters depends upon the strength and vitality of its oil spill prevention and response program. It is the intent of this section and sections 515 through 524 of this act to create an integrated oil spill prevention and response program that fosters planning, coordination, and incidence command. To that end, the merger of the office of marine safety with the department of ecology will: Ensure coordination via streamlining the marine safety functions of two agencies into one; provide a focused prevention and response program under a single administration; generate efficient incidence command to meet challenges

threatening marine safety and the environment; and increase accountability owed to the public, the executive branch, and the legislature.

(3) It is the intent of the legislature that the merger of the office of marine safety with the department of ecology be accomplished in an organizational manner that maintains a priority focus and position for the oil spill prevention and response program. The merger shall allow for ready identification of the program by the public and ensure no diminution in the state's commitment to marine safety and environmental protection.

Before this deposit, the sum shall be reduced by an amount equal to the amount distributed under (a) of this subsection for each of the municipalities within the counties to which this subsection (2)(b) applies; however, any transfer under this subsection (2)(b) must be greater than zero;

Before this deposit, the sum shall be reduced by an amount equal to the amount distributed under (a) of this subsection for each of the municipalities within the counties to which this subsection (2)(c) applies; however, any transfer under this subsection (2)(c) must be greater than zero; and

(d) To the general fund, for revenues distributed after June 30, 1993, and to the transportation fund, for revenues distributed after June 30, 1995, a sum equal to the difference between (i) the special excise tax levied and collected under RCW 35.58.273 by those municipalities authorized to levy and collect a

Any municipality that has not submitted the report by April 1 shall cease to be eligible to receive motor vehicle excise taxes under subsection (3) of this section until the report is received by the director of licensing. If a municipality has received more or less money under subsection (3) of this section for the period covered by the report than it is entitled to receive by reason of its locally-generated collected tax revenues, the director of licensing shall, during the next ensuing quarter that the municipality is eligible to receive motor vehicle excise tax funds, increase or decrease the amount to be remitted in an amount equal to the difference between the locally-generated budgeted tax revenues and the locally-generated collected tax revenues. In no event may the amount remitted for a calendar year exceed the amount collected on behalf of the municipality under RCW 35.58.273 during that same calendar year excluding the sales and use tax equalization distributions provided under RCW 82.14.046. The total expenditures under this section from all fund sources, including funds transferred under section 18(5) of this act, shall not exceed \$35,500,000. The general fund—state expenditure under this section and sections 18, 21, and 22 of this act, cumulatively, shall not exceed \$93,925,000.

NEW SECTION. Sec. 534. It is the intent of the legislature that the department of transportation may implement a voluntary retirement incentive program that is cost neutral provided that such program is approved by the director of financial management.

NEW SECTION. Sec. 535. GENERALLY ACCEPTED ACCOUNTING PRINCIPLES. The appropriations of moneys and the designation of funds and accounts by this and other acts of the 1995 legislature shall be construed in a manner consistent with legislation enacted by the 1985, 1987, 1989, 1991, and 1993 legislatures to conform state funds and accounts with generally accepted accounting principles.

*\*Sec. 537. RCW 81.104.140 and 1992 c 101 s 25 are each amended to read as follows:*

*(1) Agencies authorized to provide high capacity transportation service, including transit agencies and regional transit authorities, are hereby granted dedicated funding sources for such systems. These dedicated funding sources, as set forth in RCW 81.104.150, 81.104.160, and 81.104.170, are authorized only for agencies located in ~~((a) each county with a population of two hundred ten thousand or more and (b) each county with a population of from one hundred twenty five thousand to less than two hundred ten thousand except for those counties that do not border a county with a population as described under (a) of this subsection. In any county with a population of one million or more or in any county having a population of four hundred~~*

~~thousand or more bordering a county with a population of one million or more, these funding sources may be imposed only by a regional transit authority))~~ any county that has a population of one hundred seventy-five thousand or more and has an interstate highway within its borders. A vote within the boundaries of a regional transit authority to authorize imposition of these dedicated funding sources may not occur prior to February 1, 1996.

(2) Agencies planning to construct and operate a high capacity transportation system should also seek other funds, including federal, state, local, and private sector assistance.

(3) Funding sources should satisfy each of the following criteria to the greatest extent possible:

- (a) Acceptability;
- (b) Ease of administration;
- (c) Equity;
- (d) Implementation feasibility;
- (e) Revenue reliability; and
- (f) Revenue yield.

(4) Agencies participating in regional high capacity transportation system development are authorized to levy and collect the following voter-approved local option funding sources:

- (a) Employer tax as provided in RCW 81.104.150;
- (b) Special motor vehicle excise tax as provided in RCW 81.104.160; and
- (c) Sales and use tax as provided in RCW 81.104.170.

Revenues from these taxes may be used only to support those purposes prescribed in subsection (10) of this section. Before the date of an election authorizing an agency to impose any of the taxes enumerated in this section and authorized in RCW 81.104.150, 81.104.160, and 81.104.170, the agency must comply with the process prescribed in RCW 81.104.100 (1) and (2) and 81.104.110. No construction on exclusive right of way may occur before the requirements of RCW 81.104.100(3) are met.

(5) Authorization in subsection (4) of this section shall not adversely affect the funding authority of transit agencies not provided for in this chapter. Local option funds may be used to support implementation of interlocal agreements with respect to the establishment of regional high capacity transportation service. Except when a regional transit authority exists, local jurisdictions shall retain control over moneys generated within their boundaries, although funds may be commingled with those generated in other areas for planning, construction, and operation of high capacity transportation systems as set forth in the agreements.

(6) Agencies planning to construct and operate high capacity transportation systems may contract with the state for collection and transference of voter-approved local option revenue.

(7) Dedicated high capacity transportation funding sources authorized in RCW 81.104.150, 81.104.160, and 81.104.170 shall be subject to voter approval

by a simple majority. A single ballot proposition may seek approval for one or more of the authorized taxing sources. ~~((The ballot title shall reference the document identified in subsection (8) of this section.))~~

~~(8) ((Agencies shall provide to the registered voters in the area a document describing the systems plan and the financing plan set forth in RCW 81.104.100. It shall also describe the relationship of the system to regional issues such as development density at station locations and activity centers, and the interrelationship of the system to adopted land use and transportation demand management goals within the region. This document shall be provided to the voters at least twenty days prior to the date of the election)) When making public representations about revenues available to support a proposed project, regional transit authorities shall not assume, nor imply the availability of state funds unless those funds have been specifically authorized. Any assumptions of federal funds shall be based on authorizations in the current six-year transportation authorization law.~~

(9) For any election in which voter approval is sought for a high capacity transportation system plan and financing plan pursuant to RCW 81.104.040, a local voter's pamphlet shall be produced as provided in chapter 29.81A RCW.

(10) Agencies providing high capacity transportation service shall retain responsibility for revenue encumbrance, disbursement, and bonding. Funds may be used for any purpose relating to planning, construction, and operation of high capacity transportation systems and commuter rail systems, personal rapid transit, busways, bus sets, and entrained and linked buses.

Sec. 538. RCW 82.44.150 and 1994 c 241 s 1 are each amended to read as follows:

(1) The director of licensing shall, on the twenty-fifth day of February, May, August, and November of each year, advise the state treasurer of the total amount of motor vehicle excise taxes imposed by RCW 82.44.020 (1) and (2) remitted to the department during the preceding calendar quarter ending on the last day of March, June, September, and December, respectively, except for those payable under RCW 82.44.030, from motor vehicle owners residing within each municipality which has levied a tax under RCW 35.58.273, which amount of excise taxes shall be determined by the director as follows:

The total amount of motor vehicle excise taxes remitted to the department, except those payable under RCW 82.44.020(3) and 82.44.030, from each county shall be multiplied by a fraction, the numerator of which is the population of the municipality residing in such county, and the denominator of which is the total population of the county in which such municipality or portion thereof is located. The product of this computation shall be the amount of excise taxes from motor vehicle owners residing within such municipality or portion thereof. Where the municipality levying a tax under RCW 35.58.273 is located in more than one county, the above computation shall be made by county, and the combined products shall provide the total amount of motor vehicle excise taxes from motor

vehicle owners residing in the municipality as a whole. Population figures required for these computations shall be supplied to the director by the office of financial management, who shall adjust the fraction annually.

(2) On the first day of the months of January, April, July, and October of each year, the state treasurer based upon information provided by the department shall, from motor vehicle excise taxes deposited in the general fund, under RCW 82.44.110(1)(g), make the following deposits:

(a) To the high capacity transportation account created in RCW 47.78.010, a sum equal to four and five-tenths percent of the special excise tax levied under RCW 35.58.273 by those municipalities authorized to levy a special excise tax within ~~((i)) each county ((with a population of two hundred ten thousand or more and (ii) each county with a population of from one hundred twenty five thousand to less than two hundred ten thousand except for those counties that do not border a county with a population as described in subsection (i) of this subsection))~~ that has a population of one hundred seventy-five thousand or more and has an interstate highway within its borders; except that in a case of a municipality located in a county that has a population of one hundred seventy-five thousand or more that does not have an interstate highway located within its borders, that sum shall be deposited in the passenger ferry account;

(b) To the central Puget Sound public transportation account created in RCW 82.44.180, for revenues distributed after December 31, 1992, within a county with a population of one million or more and a county with a population of from two hundred thousand to less than one million bordering a county with a population of one million or more, a sum equal to the difference between (i) the special excise tax levied and collected under RCW 35.58.273 by those municipalities authorized to levy and collect a special excise tax subject to the requirements of subsections (3) and (4) of this section and (ii) the special excise tax that the municipality would otherwise have been eligible to levy and collect at a tax rate of .815 percent and been able to match with locally generated tax revenues, other than the excise tax imposed under RCW 35.58.273, budgeted for any public transportation purpose. Before this deposit, the sum shall be reduced by an amount equal to the amount distributed under (a) of this subsection for each of the municipalities within the counties to which this subsection (2)(b) applies; however, any transfer under this subsection (2)(b) must be greater than zero;

(c) To the public transportation systems account created in RCW 82.44.180, for revenues distributed after December 31, 1992, within counties not described in (b) of this subsection, a sum equal to the difference between (i) the special excise tax levied and collected under RCW 35.58.273 by those municipalities authorized to levy and collect a special excise tax subject to the requirements of subsections (3) and (4) of this section and (ii) the special excise tax that the municipality would otherwise have been eligible to levy and collect at a tax rate of .815 percent and been able to match with locally generated tax revenues, other than the excise tax imposed under RCW 35.58.273, budgeted for any public

transportation purpose. Before this deposit, the sum shall be reduced by an amount equal to the amount distributed under (a) of this subsection for each of the municipalities within the counties to which this subsection (2)(c) applies; however, any transfer under this subsection (2)(c) must be greater than zero; and

(d) To the general fund, for revenues distributed after June 30, 1993, and to the transportation fund, for revenues distributed after June 30, 1995, a sum equal to the difference between (i) the special excise tax levied and collected under RCW 35.58.273 by those municipalities authorized to levy and collect a special excise tax subject to the requirements of subsections (3) and (4) of this section and (ii) the special excise tax that the municipality would otherwise have been eligible to levy and collect at a tax rate of .815 percent notwithstanding the requirements set forth in subsections (3) through (6) of this section, reduced by an amount equal to distributions made under (a), (b), and (c) of this subsection and RCW 82.14.046.

(3) On the first day of the months of January, April, July, and October of each year, the state treasurer, based upon information provided by the department, shall remit motor vehicle excise tax revenues imposed and collected under RCW 35.58.273 as follows:

(a) The amount required to be remitted by the state treasurer to the treasurer of any municipality levying the tax shall not exceed in any calendar year the amount of locally-generated tax revenues, excluding (i) the excise tax imposed under RCW 35.58.273 for the purposes of this section, which shall have been budgeted by the municipality to be collected in such calendar year for any public transportation purposes including but not limited to operating costs, capital costs, and debt service on general obligation or revenue bonds issued for these purposes; and (ii) the sales and use tax equalization distributions provided under RCW 82.14.046; and

(b) In no event may the amount remitted in a single calendar quarter exceed the amount collected on behalf of the municipality under RCW 35.58.273 during the calendar quarter next preceding the immediately preceding quarter, excluding the sales and use tax equalization distributions provided under RCW 82.14.046.

(4) At the close of each calendar year accounting period, but not later than April 1, each municipality that has received motor vehicle excise taxes under subsection (3) of this section shall transmit to the director of licensing and the state auditor a written report showing by source the previous year's budgeted tax revenues for public transportation purposes as compared to actual collections. Any municipality that has not submitted the report by April 1 shall cease to be eligible to receive motor vehicle excise taxes under subsection (3) of this section until the report is received by the director of licensing. If a municipality has received more or less money under subsection (3) of this section for the period covered by the report than it is entitled to receive by reason of its locally-generated collected tax revenues, the director of licensing shall, during the next ensuing quarter that the municipality is eligible to receive motor vehicle excise tax funds, increase or decrease the amount to be remitted in an amount equal to

the difference between the locally-generated budgeted tax revenues and the locally-generated collected tax revenues. In no event may the amount remitted for a calendar year exceed the amount collected on behalf of the municipality under RCW 35.58.273 during that same calendar year excluding the sales and use tax equalization distributions provided under RCW 82.14.046. At the time of the next fiscal audit of each municipality, the state auditor shall verify the accuracy of the report submitted and notify the director of licensing of any discrepancies.

(5) The motor vehicle excise taxes imposed under RCW 35.58.273 and required to be remitted under this section and RCW 82.14.046 shall be remitted without legislative appropriation.

(6) Any municipality levying and collecting a tax under RCW 35.58.273 which does not have an operating, public transit system or a contract for public transportation services in effect within one year from the initial effective date of the tax shall return to the state treasurer all motor vehicle excise taxes received under subsection (3) of this section.

Such agencies shall form a regional policy committee with proportional representation based upon population distribution within the designated service area and a representative of the department of transportation, or such agencies may use the designated metropolitan planning organization as the regional policy committee.

Transit agencies participating in joint regional policy committees shall seek voter approval within their own service boundaries of a high capacity transportation system plan and financing plan. \*Sec. 547. RCW 81.104.160 and 1992 c 194 s 13 and 1992 c 101 s 27 are each reenacted and amended to read as follows:

(1) Cities that operate transit systems, county transportation authorities, metropolitan municipal corporations, and public transportation benefit areas(~~(and regional transit authorities)~~) may submit an authorizing proposition to the voters, and if approved, may levy and collect an excise tax, at a rate approved by the voters, but not exceeding eighty one-hundredths of one percent on the value, under chapter 82.44 RCW, of every motor vehicle owned by a resident of the taxing district, solely for the purpose of providing high capacity transportation service. In any county imposing a motor vehicle excise tax surcharge pursuant to RCW 81.100.060, the maximum tax rate under this section shall be reduced to a rate equal to eighty one-hundredths of one percent on the value less the equivalent motor vehicle excise tax rate of the surcharge imposed pursuant to RCW 81.100.060. This rate shall not apply to vehicles licensed under RCW 46.16.070 except vehicles with an unladen weight

of six thousand pounds or less, RCW 46.16.079, (~~46.16.080~~), 46.16.085, or 46.16.090.

(2) An agency imposing a tax under subsection (1) of this section may also impose a sales and use tax solely for the purpose of providing high capacity transportation service, in addition to the tax authorized by RCW 82.14.030, upon retail car rentals within the agency's jurisdiction that are taxable by the state under chapters 82.08 and 82.12 RCW. The rate of tax shall bear the same ratio to the rate imposed under RCW 82.08.020(2) as the excise tax rate imposed under subsection (1) of this section bears to the excise tax rate imposed under RCW 82.44.020 (1) and (2). The base of the tax shall be the selling price in the case of a sales tax or the rental value of the vehicle used in the case of a use tax. The revenue collected under this subsection shall be used in the same manner as excise taxes under subsection (1) of this section.

\*Sec. 547 was vetoed. See message at end of chapter.

\*Sec. 548. RCW 81.104.170 and 1992 c 101 s 28 are each amended to read as follows:

Cities that operate transit systems, county transportation authorities, metropolitan municipal corporations, and public transportation benefit areas(~~and regional transit authorities~~) may submit an authorizing proposition to the voters and if approved by a majority of persons voting, fix and impose a sales and use tax in accordance with the terms of this chapter, solely for the purpose of providing high capacity transportation service.

The tax authorized pursuant to this section shall be in addition to the tax authorized by RCW 82.14.030 and shall be collected from those persons who are taxable by the state pursuant to chapters 82.08 and 82.12 RCW upon the occurrence of any taxable event within the taxing district. The maximum rate of such tax shall be approved by the voters and shall not exceed one percent of the selling price (in the case of a sales tax) or value of the article used (in the case of a use tax). The maximum rate of such tax that may be imposed shall not exceed nine-tenths of one percent in any county that imposes a tax under RCW 82.14.340(~~or within a regional transit authority if any county within the authority imposes a tax under RCW 82.14.340~~).

The program shall be destination oriented, addressing not only the service needs of urban areas but those of less populated areas throughout the region. It shall include necessary freeway expansion, including the use of special purpose lanes to expedite commerce and for other purposes. It shall also consider programs developed for certain areas such as fare-free programs, and tax incentives for business and individuals designed to reduce trips, in order to reduce traffic congestion and to ensure mobility.*

*The process shall include input from cities and counties, public ports, large employers in the area, the department of transportation, and the legislature.*

\*Sec. 555 was vetoed. See message at end of chapter.

**\*NEW SECTION.** *Sec. 556. Section 537, chapter . . ., Laws of 1995 1st sp. sess. (this act) shall expire on May 31, 1996.*

\*Sec. 556 was vetoed. See message at end of chapter.

**\*Sec. 557.** *RCW 81.112.030 and 1994 c 44 s 1 are each amended to read as follows:*

*Two or more contiguous counties each having a population of four hundred thousand persons or more may establish a regional transit authority to develop and operate a high capacity transportation system as defined in chapter 81.104 RCW.*

*The authority shall be formed in the following manner:*

(1) *The joint regional policy committee created pursuant to RCW 81.104.040 shall adopt a system and financing plan, including the definition of the service area. This action shall be completed by September 1, 1992, contingent upon satisfactory completion of the planning process defined in RCW 81.104.100. The final system plan shall be adopted no later than June 30, 1993. In addition to the requirements of RCW 81.104.100, the plan for the proposed system shall provide explicitly for a minimum portion of new tax revenues to be allocated to local transit agencies for interim express services. Upon adoption the joint regional policy committee shall immediately transmit the plan to the county legislative authorities within the adopted service area.*

(2) *The legislative authorities of the counties within the service area shall decide by resolution whether to participate in the authority. This action shall be completed within forty-five days following receipt of the adopted plan or by August 13, 1993, whichever comes first.*

(3) *Each county that chooses to participate in the authority shall appoint its board members as set forth in RCW 81.112.040 and shall submit its list of members to the secretary of the Washington state department of transportation. These actions must be completed within thirty days following each county's decision to participate in the authority.*

(4) *The secretary shall call the first meeting of the authority, to be held within thirty days following receipt of the appointments. At its first meeting, the authority shall elect officers and provide for the adoption of rules and other operating procedures.*

(5) *The authority is formally constituted at its first meeting and the board shall begin taking steps toward implementation of the system and financing plan adopted by the joint regional policy committee. If the joint regional policy committee fails to adopt a plan by June 30, 1993, the authority shall proceed to do so based on the work completed by that date by the joint regional policy committee. Upon formation of the authority, the joint regional policy committee shall cease to exist. The authority may make minor modifications to the plan as deemed necessary and shall at a minimum review local transit agencies' plans to ensure feeder service/high capacity transit service integration, ensure fare integration, and ensure avoidance of parallel competitive services. The authority shall also conduct a minimum thirty-day public comment period.*

(6) *If the authority determines that major modifications to the plan are necessary before the initial ballot proposition is submitted to the voters, the authority may make those modifications with a favorable vote of two-thirds of the entire membership. Any such modification shall be subject to the review process set forth in RCW 81.104.110. The modified plan shall be transmitted to the legislative authorities of the participating counties. The legislative authorities shall have forty-five days following receipt to act by motion or ordinance to confirm or rescind their continued participation in the authority.*

(7) *If any county opts to not participate in the authority, but two or more contiguous counties do choose to continue to participate, the authority's board shall be revised accordingly. The authority shall, within forty-five days, redefine the system and financing plan to reflect elimination of one or more counties, and submit the redefined plan to the legislative authorities of the remaining counties for their decision as to whether to continue to participate. This action shall be completed within forty-five days following receipt of the redefined plan.*

(8) *The authority shall place on the ballot within two years of the authority's formation, a single ballot proposition to authorize the imposition of taxes to support the implementation of an appropriate phase of the plan within its service area. In addition to the system plan requirements contained in RCW 81.104.100(2)(d), the system plan approved by the authority's board before the submittal of a proposition to the voters shall identify the system, and an estimate of the cost of that system, of which the phase is a component and also contain an equity element which:*

(a) *Identifies revenues anticipated to be generated by corridor and by county within the authority's boundaries;*

(b) *Identifies the phasing of construction and operation of high capacity system facilities, services, and benefits in each corridor. Phasing decisions should give priority to jurisdictions which have adopted transit-supportive land use plans; and*

(c) *Identifies the degree to which revenues generated within each county will benefit the residents of that county, and identifies when such benefits will accrue.*

*A simple majority of those voting within the boundaries of the authority is required for approval. If the vote is affirmative, the authority shall begin implementation of the projects identified in the proposition. However, the authority may not submit any authorizing proposition for voter-approved taxes prior to July 1, 1993, nor a second proposition prior to February 1, 1996; nor may the authority issue bonds or form any local improvement district prior to ((July 1, 1993)) February 1, 1996.*

(9) *If the vote on a proposition fails, the board may redefine the proposition, make changes to the authority boundaries, and make corresponding changes to the composition of the board. If the composition of the board is changed, the participating counties shall revise the membership of the board accordingly. The board may then submit the revised proposition or a different proposition to the voters. No single proposition may be submitted to the voters more than twice. The authority may place additional propositions on the ballot to impose taxes to support additional phases of plan implementation.*

*If the authority is unable to achieve a positive vote on a proposition within two years from the date of the first election on a proposition, the board may, by resolution, reconstitute the authority as a single-county body. With a two-*

*thirds vote of the entire membership of the voting members, the board may also dissolve the authority.*

\*Sec. 557 was vetoed. See message at end of chapter.

NEW SECTION. **Sec. 558.** A new section is added to chapter 47.60 RCW to read as follows:

There is hereby established in the transportation fund the passenger ferry account. Money in the account shall be used for capital improvements for passenger ferry projects including, but not limited to, pedestrian and transit facilities at ferry terminals and passenger-only ferry vessels. Moneys in the account shall be expended with legislative appropriation.

*\*NEW SECTION. Sec. 559. Sections 539 through 556 of this act shall take effect the earlier of: (1) May 31, 1996, unless a high capacity transportation system plan, with funding, as authorized under RCW 81.104.140 is approved by a majority of the voters within the boundaries of a regional transit authority, authorized under chapter 81.112 RCW, by May 31, 1996, then sections 539 through 556 of this act shall not take effect; or (2) the last day of the month following the month in which a high capacity transportation system plan, with funding, as authorized under RCW 81.104.140 is rejected by a majority of the voters within the boundaries of a regional transit authority, authorized under chapter 81.112 RCW, after January 31, 1996.*

\*Sec. 559 was vetoed. See message at end of chapter.

*\*NEW SECTION. Sec. 560. Sections 537 through 558 of this act expire June 30, 1997.*

\*Sec. 560 was vetoed. See message at end of chapter.

NEW SECTION. **Sec. 561.** If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

NEW SECTION. **Sec. 562.** (1) Except for sections 514 through 524 and 539 through 556 of this act, this act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect July 1, 1995.

(2) Sections 514 through 524 of this act shall take effect January 1, 1996.

Passed the House May 25, 1995.  
Passed the Senate May 25, 1995.  
Approved by the Governor June 16, 1995, with the exception of certain items which were vetoed.  
Filed in Office of Secretary of State June 15, 1995.

Note: Governor's explanation of partial veto is as follows:

"I am returning herewith, without my approval as to sections 2(2); 105(2); 106 (lines 3-10); 107 (lines 14-18); 207(1); 207(2); 207(3); 207(4); 208(4); 217 (lines 26-27); 217 (lines 32-33); 217(17); 228(2); 228(4); 305; 504; 529; 531; 532; 537; 539; 540; 542-557; 559 and 560, Second Engrossed Substitute House Bill No. 2080 entitled:

"AN ACT Relating to transportation funding and appropriations;"

The provisions of Second Engrossed Substitute House Bill No. 2080 not meeting my approval are addressed as follows:

**Section 2(2), page 2, Transportation Appropriations**

This proviso states that legislation with a fiscal impact enacted in the 1995 session that is not assumed in this bill is not funded in the transportation budget. The language is ambiguous and I am concerned that this administrative restriction sets a bad precedent. Several bills could meet this criterion, including Substitute Senate Bill 5119, Cost-Of-Living Allowances For Retirement Purposes. Failure to veto this proviso could disrupt pension systems that are funded by the transportation agencies included in this budget bill.

**Section 105(2), page 4, Task Force on Office of Marine Safety**

This language requires the Legislative Transportation Committee to convene a task force to study the cost savings associated with the transfer of the Office of Marine Safety into the Department of Ecology, examine any funding shortfalls in the Oil Spill Administration Account, and evaluate ongoing oil spill planning and prevention needs. Because the legislature may conduct studies at any time without such specific direction, I am vetoing this subsection. However, I recognize that there is a significant problem with the revenues for the Oil Spill Administration Account.

Therefore, I am directing the Office of Financial Management, the Department of Revenue and the Department of Ecology to coordinate a study on oil spill funding, including the issue of the tax credits and whether current distribution of the nickel-per-barrel tax that funds the two oil spill accounts is adequate.

**Section 106, lines 3-10, page 5, Transfer to the Tort Claims Revolving Fund**

This proviso limits the transfer of transportation funds to the tort claim revolving fund only as claims are settled or adjudicated to final conclusion. Current law requires

that the tort claim revolving fund be used only to pay claims resulting from incidents on or before June 30, 1990. This change would return us to the administrative inefficiencies and costs associated with the "pay as you go" system for tort claims that was in place prior to 1990, adding a new layer of complication to an already complicated system. The reconciliation and reporting requirement would likely delay both settlement and judgment payments, and also could increase the cost of claims by requiring penalty interest payments. In addition, the state could lose an otherwise advantageous settlement opportunity if we are unable to meet time requirements on settlement demands. In order to limit administrative burdens, I will direct the Department of General Administration to transfer the amount specified in this proviso for motor vehicle and marine operating accounts into the tort claims revolving fund based on actuarial projections of claims settlements. The transfers shall be made quarterly into the tort claim revolving fund, or as necessary to meet cash flow needs.

**Section 107, lines 14-18, page 5, State Parks and Recreation Commission - Operating Maintenance**

This proviso limits expenditure of state funds by the State Parks and Recreation Commission for maintenance, repair, or snow and ice removal on county or private roads. I believe the intent was to limit the \$927,000 motor vehicle fund appropriation in this section. However, the way the section is written allows for much broader interpretation. I am concerned that this proviso could restrict expenditure of any funds appropriated to the Parks Commission to maintain county or private roads. The Commission often signs mutually beneficial agreements with cities and counties for snow removal or road maintenance, which allows the Commission to remove snow or maintain a limited portion of city or county roads. Such agreements may save taxpayer dollars in such instances as providing access to Snow Parks for snowmobile riders and cross country skiers. The Commission needs to maintain the flexibility to make such beneficial decisions.

**Section 207(1) and 207(2), page 9, Transportation Commission Work Days**

This proviso limits Washington State Transportation Commission members to seven working days per month and limits the Commission Chairperson to 9.5 working days per month. In addition, the total appropriation for Commission member work days is limited to \$45,000 in fiscal year 1997, which further reduces member working days to only five days per month. This type of limitation on state boards is unprecedented and will hinder statewide coordination of transportation issues.

The Transportation Commission is a class four board as defined by RCW 43.03.250. The Commission has rule-making authority, performs quasi-judicial functions, and is responsible for the administration, budget, and policy direction of a major state department. These duties are sensitive and vital to the operation of the state and place a significant demand on each member's time - usually in excess of 100 hours per year. Commission members should not be limited to a specified number of work days to carry out their duties as long as their overall operating budget expenditures are within the appropriation level provided.

**Section 207(3), page 9, Transportation Commission Studies**

This proviso prohibits the Washington State Transportation Commission from conducting studies or hiring consultants without prior approval from the Legislative Transportation Committee. This represents an unprecedented attempt by the legislature to exercise ongoing management control over an executive branch function. The legislature has already reduced the agency's budget 42 percent from 1993-95 levels. As long as the Commission stays within its available appropriation, Legislative approval on individual expenditures is unnecessary.

**Section 207(4), page 9, Transportation Commission Meetings Outside the State**

This proviso will prohibit the Washington State Transportation Commission from holding meetings outside of the state. It is overly restrictive and unnecessary. Although I have ordered state employees to limit their out-of-state travel, I support the Transportation Commission's leadership role in statewide and regional transportation issues. Our transportation needs do not end at the state's borders. Transportation Commission members must have the flexibility to meet with policy makers from such places as Oregon, Idaho and British Columbia, as long as travel costs remain within the agency's total budget.

**Section 208(4), page 10, Selling and Purchase of State Patrol Aircraft**

This proviso to the Washington State Patrol appropriation forbids the sale and purchase of aircraft pending a Legislative Transportation Commission study of the statewide air fleet and the feasibility of consolidation. This proviso unnecessarily delays and reduces savings to the state that would occur from the sale of the State Patrol jet. Further, the proviso does not set forth a date for completion of the study. This lack of certainty could indefinitely prohibit the Patrol from buying and selling aircraft, which impinges on appropriate executive administrative responsibilities.

The legislature had sufficient time during the regular session and two special sessions to study the merits of selling the State Patrol jet. Taxpayers should not have to pay extra for equipment that exceeds the requirements of the agency. I take this action today because the longer we delay, the less we stand to save.

**Section 217, lines 26-27 and lines 32-33, page 14, Highway Improvements**

**Section 217(17), page 19, Highway Improvements - HOV Lanes**

**Section 531, pages 62-64, and Section 532, page 64, Funding Sources for HOV Lanes**

These provisions dedicate an appropriation of High Capacity Transportation Account and Central Puget Sound Public Transportation Account revenues for high occupancy vehicle (HOV) lane construction projects. The two accounts were created for high capacity transportation programs provided by local transit agencies and should not be transferred for any other use.

**Section 228(2), page 31, Federal Enhancement Grants**

This subsection designates federal enhancement grants for abandoned freight rail corridors and improvements to the King Street Station in Seattle. Identifying specific projects in the appropriation bill circumvents an established public review and citizen-involved project selection process based on regional priorities. When the Intermodal Surface Transportation Efficiency Act (ISTEA) passed in 1991, local and state jurisdictions in Washington mutually agreed upon a procedure for project prioritization and selection for this federal funding source. This process has been successfully in place since that time. With this proviso, the enhancement project selection process is sidestepped - contrary to the spirit of ISTEA. A veto of this language gives the project selection authority back to the committee that has already approved and prioritized a list of eligible projects for the 1995-97 biennium.

The funding provided in section 228(2) remains appropriated to the Department of Transportation, the pass-through agency for grants awarded by the Enhancement Selection Committee, as they deem appropriate.

**Section 228(4), page 31, Transportation Related Studies**

This proviso lists several studies selected by the Legislature costing \$1,430,000. The funding source used in this section is dedicated by statute for statewide studies that mutually benefit cities, counties and the Department of Transportation. This year, for the first time, the three jurisdictions had no say in how this money would be spent.

In addition, the proviso specifies \$750,000 for a regional mobility alternative plan related to the Regional Transportation Authority (RTA). This is not an appropriate

expenditure of these funds and is not necessary since the Puget Sound Regional Council approved its 1995 Update to VISION 2020 and the 1995 Metropolitan Transportation Plan as required by the federal Intermodal Surface Transportation Efficiency Act.

I have directed the Department of Transportation to place the \$1,430,000 in unallotted reserve. At the end of the biennium, the funds shall be refunded to the individual jurisdictions as provided by RCW 46.68.110(2) and RCW 46.68.120(3).

#### Section 305, page 37, General Administration — Capital

This section appropriates \$2.5 million motor vehicle account appropriation to cover the Department of Transportation's share of the cost of repairing the plaza garage. However, this amount can only be spent if the capital budget provides \$1.7 million to the Department of General Administration for elevator and escalator repairs in the transportation building. The 1995-97 capital budget does not include such an appropriation; therefore this condition cannot be met, leaving the \$2.5 million for repairing the plaza garage unavailable. Completing structural and other improvements to the plaza garage, including the area commonly known as the DOT garage, is an important project and design work must begin immediately. Therefore, I have asked the Office of Financial Management and the Department of General Administration to work with the Department of Transportation, the Legislative Transportation Committee, the House Capital Budget Committee and the Senate Ways and Means Committee to identify an affordable approach to resolving the safety concerns in all garage areas, and to address accessibility concerns in the transportation building.

#### Section 504, page 45, Consolidation of Financial Functions

This proviso calls for a study of the feasibility of combining the financial accounting systems for the Department of Transportation, the Transportation Improvement Board and the County Road Administration Board. I see no advantage in performing this study unless the work is done by an independent consultant or another non-transportation agency. Since funding was not provided for an independent study, and the financial systems in place for all three agencies appear to function adequately, this study is not necessary.

#### Section 529, page 57-61, Passenger Ferry Account

This proviso removes Kitsap County from the high capacity transit tax authority of the Regional Transportation Authority. It is identical to Section 538 of this legislation and is therefore unnecessary.

#### Sections 537, 539, 540, 542-557, 559 and 560 Regional Transportation Authority

These sections repeal the Regional Transportation Authority (RTA) and amend substantive portions of the High Capacity Transportation Act of 1990 (RCW 81.104) and the RTA enabling legislation (RCW 81.112). Such a significant shift in state policy in resolving the mobility problems in the central Puget Sound region must be done prudently in a bill directly dealing with this issue, and after thorough consideration of the long-range implications.

I also believe it is premature at this point to change the structure of the regional authority. I am concerned that the RTA be given sufficient time and funds to continue its mandated tasks and that voters be given an opportunity to review a revised regional transportation plan. Rather than a repeal of the RTA, I urge the RTA to work with the Department of Transportation, the Legislative Transportation Committee, counties, cities and transit districts in the area to develop a viable proposal. Should future revision of RTA responsibilities, structure and authority of these agencies be necessary, specific legislation should be introduced to accomplish the agreed-upon changes.

For these reasons, I have vetoed sections 2(2); 105(2); 106 (lines 3-10); 107 (lines 14-18); 207(1); 207(2); 207(3); 207(4); 208(4); 217 (lines 26-27); 217 (lines 32-33);

217(17); 228(2); 228(4); 305; 504; 529; 531; 532; 537; 539; 540; 542-557; 559 and 560 of Second Engrossed Substitute House Bill No. 2080.

With the exception of sections 2(2); 105(2); 106 (lines 3-10); 107 (lines 14-18); 207(1); 207(2), 207(3); 207(4); 208(4); 217 (lines 26-27); 217 (lines 32-33); 217(17); 228(2); 228(4); 305; 504; 529; 531; 532; 537; 539; 540; 542-557; 559 and 560, Second Engrossed Substitute House Bill No. 2080 is approved."

[Substitute Senate Bill 5364]

### TRANSPORTATION BONDS

AN ACT Relating to transportation bonds; amending RCW 47.10.834, 47.10.836, 47.10.837, 47.10.838, 47.10.839, and 47.10.841; amending 1994 c 183 s 1 (uncodified); repealing RCW 47.10.840; and declaring an emergency.

Be it enacted by the Legislature of the State of Washington:

**Sec. 1.** 1994 c 183 s 1 (uncodified) is amended to read as follows:

The legislature finds and declares:

Successful implementation of the public-private transportation initiatives program authorized in chapter 47.46 RCW may require the financial participation of the state in projects authorized in that chapter.

The participation may take the form of loans, loan guarantees, user charge guarantees, including incidental costs incurred by the department in direct support of activities required under chapter 47.46 RCW, or such other cash contribution arrangements as may improve the ability of the private entities sponsoring the projects to obtain financing.

It is in the best interests of the people of the state that state funding of possible financial participation in the projects authorized under chapter 47.46 RCW be in the form of long-term bonds. In order to repay expenditures incurred in the 1993-1995 biennium, up to two million two hundred thousand dollars of these bonds may be expended on highway improvement projects, under chapter 47.05 RCW.

**Sec. 2.** RCW 47.10.834 and 1994 c 183 s 2 are each amended to read as follows:

In order to provide funds necessary to implement the public-private transportation initiatives authorized by chapter 47.46 RCW, there shall be issued and sold upon the request of the Washington state transportation commission a total of twenty-five million six hundred twenty-five thousand dollars of general obligation bonds of the state of Washington.

**Sec. 3.** RCW 47.10.836 and 1994 c 183 s 4 are each amended to read as follows:

(1) The proceeds from the sale of bonds authorized by RCW 47.10.834 through 47.10.841 that are in support of possible loans as specified under RCW 47.10.835 shall be deposited into the ~~((transportation revolving loan account, hereby created, in the transportation))~~ motor vehicle fund. The proceeds shall be available only for the purposes of making loans to entities authorized to

undertake projects selected under chapter 47.46 RCW as enumerated in RCW 47.10.835, including incidental costs incurred by the department in direct support of activities required under chapter 47.46 RCW, for the payment of bond anticipation notes, if any, and for the payment of bond issuance costs, including the costs of underwriting.

(2) The proceeds from the sale of bonds authorized by RCW 47.10.834 through 47.10.841 that are in support of all forms of cash contributions to projects selected under chapter 47.46 RCW, including incidental costs incurred by the department in direct support of activities required under chapter 47.46 RCW, except loans shall be deposited into the ~~((transportation))~~ motor vehicle fund. The proceeds shall be available only for the purposes of making any contributions except loans to projects selected under chapter 47.46 RCW, for the payment of bond anticipation notes, if any, and for the payment of bond issuance costs, including the costs of underwriting.

(3) Up to two million two hundred thousand dollars of the proceeds from the sale of bonds authorized by RCW 47.10.834 through 47.10.841 may be expended on highway improvement projects under chapter 47.05 RCW and for the payment of bond issuance cost, including the cost of underwriting. Such proceeds shall be deposited into the motor vehicle fund.

**Sec. 4.** RCW 47.10.837 and 1994 c 183 s 5 are each amended to read as follows:

Principal and interest payments made on loans ~~((from the transportation loan revolving account as))~~ authorized by chapter 47.46 RCW shall be deposited into the ~~((transportation loan revolving account))~~ motor vehicle fund and shall be available for the payment of principal and interest on bonds authorized by RCW 47.10.834 through 47.10.841 and for such other purposes as may be specified by law.

**Sec. 5.** RCW 47.10.838 and 1994 c 183 s 6 are each amended to read as follows:

(1) Bonds issued under the authority of RCW 47.10.834 through 47.10.841 shall distinctly state that they are a general obligation of the state of Washington, shall pledge the full faith and credit of the state to the payment of the principal thereof and the interest thereon, and shall contain an unconditional promise to pay such principal and interest as the same shall become due.

(2) The principal and interest on the bonds issued for the purposes enumerated in RCW 47.10.836 shall be first payable in the manner provided in RCW 47.10.834 through 47.10.841 from the proceeds of the state excise ~~((tax on motor vehicles imposed by RCW 82.44.020(2)))~~ taxes on motor vehicle and special fuels imposed by chapters 82.36 and 82.38 RCW. Proceeds of those excise taxes are pledged to the payment of any bonds and the interest thereon issued under the authority of RCW 47.10.834 through 47.10.841, and the legislature agrees to continue to impose ~~((this))~~ these excise ~~((tax))~~ taxes on motor vehicle~~((s))~~ and special fuels in amounts sufficient to pay, when due, the

principal and interest on all bonds issued under the authority of RCW 47.10.834 through 47.10.841.

**Sec. 6.** RCW 47.10.839 and 1994 c 183 s 7 are each amended to read as follows:

(1) Both principal and interest on the bonds issued for the purposes of RCW 47.10.834 through 47.10.841 are payable from the highway bond retirement fund. ~~((The state finance committee may provide that a special account be created in the fund to facilitate payment of the principal and interest.))~~

(2) The state finance committee shall, on or before June 30th of each year certify to the state treasurer the amount required for principal and interest on the bonds issued for the purposes specified in RCW 47.10.836 in accordance with the bond proceedings. The state treasurer shall withdraw revenues from the ~~((transportation))~~ motor vehicle fund and deposit into the highway bond retirement fund ~~((, or a special account in the fund,))~~ such amounts, and at such times, as are required by the bond proceedings.

(3) Any funds required for bond retirement or interest on the bonds authorized by RCW 47.10.834 through 47.10.841 shall be taken from that portion of the ~~((transportation))~~ motor vehicle fund that results from the imposition of excise taxes on motor vehicle ~~((s))~~ and special fuels which is, or may be appropriated to the department of transportation for state highway purposes. Funds required shall never constitute a charge against any other allocations of motor vehicle ~~((excise))~~ fuel and special fuel tax revenues to the state, counties, cities, or towns ~~((, and transit agencies))~~ unless the amount arising from excise taxes on motor vehicle ~~((s))~~ and special fuels distributed to the state in the ~~((transportation))~~ motor vehicle fund proves insufficient to meet the requirements for bond retirement or interest on any such bonds.

(4) Any payments for bond retirement or interest on the bonds taken from other revenues from the motor vehicle ~~((excise))~~ fuel and special fuel taxes that are distributable to the state, counties, cities, or towns ~~((, and transit agencies))~~ shall be repaid from the first revenues from the motor vehicle ~~((excise))~~ fuel or special fuel taxes distributed to the ~~((transportation))~~ motor vehicle fund not required for bond retirement or interest on the bonds.

**Sec. 7.** RCW 47.10.841 and 1994 c 183 s 9 are each amended to read as follows:

Bonds issued under the authority of RCW 47.10.834 through ~~((47.10.840))~~ 47.10.839 and this section and any other general obligation bonds of the state of Washington that have been or that may be authorized and that pledge motor vehicle ~~((excise))~~ and special fuels taxes for the payment of principal and interest thereon are an equal charge against the revenues from the motor vehicle and special fuels excise taxes.

**NEW SECTION.** **Sec. 8.** RCW 47.10.840 and 1994 c 183 s 8 are each repealed.

**NEW SECTION.** Sec. 9. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

**NEW SECTION.** Sec. 10. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately.

**Grays Harbor dredging (88-3-006)**

The reappropriation in this section is subject to the following conditions and limitations:

(1) The reappropriation is provided solely for the state's share of costs for Grays Harbor dredging, dike construction, bridge relocation, and related expenses.

(2) Expenditure of moneys from this reappropriation is contingent on the authorization of \$40,000,000 and an initial appropriation of at least \$13,000,000 from the United States army corps of engineers and the authorization of at least \$10,000,000 from the local government for the project. Up to \$3,500,000 of the local government contribution for the first year on the project may be composed of property, easements, rent adjustments, and other expenditures specifically for the purposes of this appropriation if approved by the army corps of engineers. State funds shall be disbursed at a rate not to exceed one dollar for every four dollars of federal funds expended by the army corps of engineers and one dollar from other nonstate sources.

(3) Expenditure of moneys from this reappropriation is contingent on a cost-sharing arrangement and the execution of a local cooperation agreement between the port of Grays Harbor and the army corps of engineers pursuant to P.L. 99-662, the federal water resources development act of 1986, whereby the corps of engineers will construct the project as authorized by that federal act.

(4) The port of Grays Harbor shall make the best possible effort to acquire additional project funding from nonstate public grants and/or other governmental sources other than those in subsection (2) of this section. Any money, up to

\$10,000,000 provided from such sources other than those in subsection (2) of this section, shall be used to reimburse or replace state building construction account money. In the event the project cost is reduced, any resulting reduction or reimbursement of nonfederal costs realized by the port of Grays Harbor shall be shared proportionally with the state.

The appropriation in this section is subject to the following conditions and limitations:

(1) \$150,000.00 of the state building construction account appropriation is provided solely for the master plan for the improvements to the hatchery. The master plan's primary consideration is to identify, prioritize, and design improvements which will aid in the continued production of salmon at this facility. The master plan shall also focus on improvements which will enable this facility with the merger of the departments to aid in wild stock restoration for migratory fish species previously under management of the department of wildlife. It shall also consider the educational, cultural, watershed management, research, tourism, tribal interests, and community development aspects of the hatchery. This master plan shall incorporate participation and recommendations from the Issaquah fishery management task force. A report is due to the legislature by January 1996.

(2) State dollars for construction and improvements shall be matched by at least \$1.00 from nonstate sources for each dollar provided by the state. Up to \$150,000.00 of the construction and improvement appropriation shall be immediately released and combined with matching funds to expedite in-stream improvements which meet the following criteria: Improvements will be designed and constructed which: (a) Facilitate better fish passage for utilization of up-stream habitat; (b) provide for flexible management strategies for a variety of fish stocks including small runs, threatened or endangered species and game fish; (c) minimally impact future operating expenses while reaching these objectives; and (d) provide for raising of the pumps at the lower intake and make other improvements which protect in-stream structures from seasonal high water.

(3) The remainder of the funds may be spent for hatchery improvements following approval of the master plan by the office of financial management.

**Public school building construction (96-2-001)**

The appropriations in this subsection are subject to the following conditions and limitations:

- (1) Not more than \$210,000,000 from this appropriation may be obligated in fiscal year 1996 for school district project design and construction.
- (2) A maximum of \$630,000 may be expended for three full-time equivalent field staff with construction and architectural experience to assist in evaluation project requests and reviewing information reported by school districts and certifying the building condition data submitted by school districts.
- (3) From the appropriation in this section the state board shall maintain a reserve contingency fund for emergency repair projects for school buildings which present imminent health and safety hazards to building occupants. Expenditures shall not exceed \$5,000,000 per fiscal year. The board shall establish policies for recovery of expenditures from subsequent releases of funds approved by the school board to any school district receiving funds under this subsection (3), from any insurance payments for the same repair projects for which a school district has received funds under this subsection (3), and from local funding sources.
- (4) \$250,000 of the appropriation in this section may be expended for the office of the superintendent of public instruction and the office of financial management to jointly contract with qualified specially trained teams to conduct a value engineering and a constructability review on at least five pilot school

facility construction projects. The purpose of the pilot program is to determine the potential advantages and savings of value engineering and constructability review processes on school facility construction. The pilot projects shall be wholly paid from this appropriation without a requirement for local matching, and project sites shall be selected jointly by the superintendent of public instruction and the office of financial management on the basis of size, geographical area, and grade level. The results of the pilot program and recommendations on the use of value engineering and constructability reviews and how the current value engineering process can be improved shall be reported to the state board of education and the legislature by January 1997.

(5) The state board shall conduct a study of school districts with less than twenty-five percent taxable property in the district. The study shall identify the school districts with less than twenty-five percent taxable property and for the identified districts calculate the percentage of state match for financial assistance for school facilities, compare the school levy rate per one thousand dollars of taxable property to the state average, verify the number of unhoused students, and make an assessment of the condition of existing school buildings in the district. The state board shall make recommendations to the 1996 legislature on potential state policy changes.

**NEW SECTION. Sec. 805.** The amounts shown under the headings "Prior Biennia," "Future Biennia," and "Total" in this act are for informational purposes only and do not constitute legislative approval of these amounts.

**NEW SECTION. Sec. 806.** "Reappropriations" in this act are appropriations and, unless the context clearly provides otherwise, are subject to the

relevant conditions and limitations applicable to appropriations. Reappropriations shall be limited to the unexpended balances remaining on June 30, 1995, in the 1993-95 biennial appropriations for each project.

**NEW SECTION.** Sec. 807. To carry out the provisions of this act, the governor may assign responsibility for predesign, design, construction, and other related activities to any appropriate agency.

**NEW SECTION.** Sec. 808. If any federal moneys appropriated by this act for capital projects are not received by the state, the department or agency to which the moneys were appropriated may replace the federal moneys with funds available from private or local sources. No replacement may occur under this section without the prior approval of the director of financial management in consultation with the senate committee on ways and means and the house of representatives committee on capital budget.

**NEW SECTION.** Sec. 809. (1) Unless otherwise stated, for all appropriations under this act that require a match of nonstate money or in-kind contributions, the following requirement, consistent with RCW 43.88.150, shall apply: Expenditures of state money shall be timed so that the state share of project expenditures never exceeds the intended state share of total project costs.

(2) Provision of the full amount of required matching funds is not required to permit the expenditure of capital budget appropriations for phased projects if a proportional amount of the required matching funds is provided for each distinct, identifiable phase of the project.

**NEW SECTION.** Sec. 810. Notwithstanding any other provisions of law, for the 1995-97 biennium, transfers of reimbursement by the state treasurer to the general fund from the community college capital projects account for debt service payments made under Title 28B RCW shall occur only after such debt service payment has been made and only to the extent that funds are actually available to the account. Any unpaid reimbursements shall be a continuing obligation against the community college capital projects account until paid. The state board for community and technical colleges need not accumulate any specific balance in the community college capital projects account in anticipation of transfers to reimburse the general fund.

**NEW SECTION.** Sec. 811. Any capital improvements or capital projects involving construction or major expansion of a state office facility, including, but not limited to, district headquarters, detachment offices, and off-campus faculty offices, shall be reviewed by the office of financial management and the department of general administration for possible consolidation, collocation, and compliance with state office standards before allotment of funds. The intent of the requirement imposed by this section is to eliminate duplication and reduce total office space requirements where feasible, while ensuring proper service to the public.

**NEW SECTION. Sec. 812.** The governor, through the office of financial management, may authorize a transfer of appropriation authority provided for a capital project that is in excess of the amount required for the completion of such project to another capital project for which the appropriation is insufficient. No such transfer may be used to expand the capacity of any facility beyond that intended by the legislature in making the appropriation. Such transfers may be effected only between capital appropriations to a specific department, commission, agency, or institution of higher education and only between capital projects that are funded from the same fund or account. No transfers may occur between projects to local government agencies except where the grants are provided within a single omnibus appropriation and where such transfers are specifically authorized by the implementing statutes which govern the grants.

For purposes of this section, the governor may find that an amount is in excess of the amount required for the completion of a project only if: (1) The project as defined in the notes to the budget document is substantially complete and there are funds remaining; or (2) bids have been let on a project and it appears to a substantial certainty that the project as defined in the notes to the budget document can be completed within the biennium for less than the amount appropriated in this act.

For the purposes of this section, the legislature intends that each project be defined as proposed to the legislature in the governor's budget document, unless it clearly appears from the legislative history that the legislature intended to define the scope of a project in a different way.

A report of any transfer effected under this section except emergency projects or any transfer under \$250,000 shall be filed with the legislative fiscal committees of the senate and house of representatives by the director of financial management at least thirty days before the date the transfer is effected. The director shall report all emergency or smaller transfers within thirty days from the date of transfer.

**NEW SECTION. Sec. 813.** To ensure that major construction projects are carried out in accordance with legislative and executive intent, appropriations in this act referencing this section or in excess of \$5,000,000 shall not be expended until the office of financial management has reviewed the agency's predesign and other documents and approved an allotment for the project. The predesign document shall include but not be limited to program, site, and cost analysis in accordance with the predesign manual adopted by the office of financial management.

**NEW SECTION. Sec. 814.** Allotments for appropriations shall be provided in accordance with the capital project review requirements adopted by the office of financial management. The office of financial management shall notify the house of representatives capital budget committee and the senate ways and means committee of allotment releases based on review by the office of financial management.

**NEW SECTION. Sec. 815.** Appropriations for design and construction of facilities on higher education branch campuses shall proceed only after funds are allotted to institutions of higher education on the basis of: (1) Comparable unit cost standards, as determined by the office of financial management in consultation with the higher education coordinating board; (2) costs consistent with other higher education teaching facilities in the state; (3) student full-time equivalent enrollment levels as established by the office of financial management in consultation with the higher education coordinating board; and (4) branch campus facility utilization policies and standards as determined by the office of financial management in consultation with the higher education coordinating board. The office of financial management shall report to the appropriate committees of the legislature, by December 1, 1996, the standards, policies and enrollment levels used as the basis for allotting funds for branch campus design and construction.

**NEW SECTION. Sec. 816.** The department of information services shall act as lead agency in coordinating video telecommunications services for state agencies. As lead agency, the department shall develop standards and common specifications for leased and purchased telecommunications equipment and assist state agencies in developing a video telecommunications expenditure plan. No agency may spend any portion of any appropriation in this act for new video telecommunications equipment, new video telecommunications transmission, or new video telecommunications systems without first complying with chapter 43.105 RCW, including but not limited to RCW 43.105.041(2), and without first submitting a video telecommunications equipment expenditure plan, in accordance with the policies of the department of information services, for review and assessment by the department of information services under RCW 43.105.052. Before any such expenditure by a public school, a video telecommunications expenditure plan shall be approved by the superintendent of public instruction. The office of the superintendent of public instruction shall submit the plans to the department of information services in a form prescribed by the department. The office of the superintendent of public instruction shall coordinate the use of the video telecommunications in public schools by providing educational information to local school districts and shall assist local school districts and educational service districts in telecommunications planning and curriculum development. Before any such expenditure by a public institution of postsecondary education, a telecommunications expenditure plan shall be approved by the higher education coordinating board. The higher education coordinating board shall coordinate the use of video telecommunications for instruction and instructional support in postsecondary education, including the review and approval of instructional telecommunications course offerings.

**NEW SECTION. Sec. 817.** The department of natural resources shall submit economic assumptions and forecast methodology for trust revenues to the economic and revenue forecast work group. The supervisor of the economic and

revenue forecast council shall include the forecast of trust revenues in the economic and revenue forecasts described in RCW 82.33.020.

NEW SECTION. Sec. 818. No moneys in this act shall be used to develop facilities for juvenile offenders at Rainier school.

NEW SECTION. Sec. 819. STUDYING THE FEASIBILITY OF ESTABLISHING A POOLED REVENUE DISTRIBUTION SYSTEM FOR STATE TRUST LANDS. The board of natural resources shall evaluate the feasibility of establishing a pooled revenue distribution system for state lands, as defined in RCW 79.01.004, to provide a more consistent and predictable revenue stream to trust beneficiaries. For the purposes of this section, a "pooled revenue distribution system" means a system that distributes revenues to each trust beneficiary based on the proportional net present value of revenue forecasted for each trust ownership over a defined time period. Actual revenue distribution to each trust during a fiscal period would be based on the assigned proportional benefit multiplied by the actual total revenues produced from all state lands during the period. The board shall report to the legislature on its evaluation, including any recommendations for implementation, by November 1, 1995. Passed the House May 24, 1995.

Passed the Senate May 25, 1995.

Approved by the Governor June 16, 1995, with the exception of certain items which were vetoed.

Filed in Office of Secretary of State June 16, 1995.

Note: Governor's explanation of partial veto is as follows:

"I am returning herewith, without my approval as to sections 243(3), 249(2), 276(5), and 327(5), Second Engrossed Substitute House Bill No. 1070 entitled:

"AN ACT Relating to the capital budget;"

The 1995-97 capital budget enacted by the legislature defers maintenance on some existing facilities and initiates a number of major new projects and programs. The future cost of continuing these new initiatives will create more competition for declining resources under the statutory debt limit. I am concerned about the high future costs inherent in this approach to the capital budget and will work diligently with the legislature in the future to ensure that an appropriate balance is struck between new program needs and protection of existing assets.

Section 243(3), page 43, Green Hill School (Department of Social and Health Services)

The proviso language of section 243(3) requires that residential housing units constructed at Green Hill School must "accommodate a sustained operating capacity of at least 42 residents." This proviso dictates design capacity before critical master planning for the Green Hill site has been completed. Residential space should be suitable for a

variety of security levels and their attendant programming needs, as well as changes in use of the facility. Every effort will be made by the Department to achieve the most appropriate and cost-effective design capacity allowed by programming and site restrictions and a highest and best use analysis of existing structures on the campus.

**Section 249(2), page 45, Camp Bonneville (Department of Social and Health Services)**

The proviso language of section 249(2) enables the Department of Social and Health Services to use up to \$5,000 of the appropriation for minor works at Juvenile Rehabilitation group homes for the purpose of acquiring the federal military base at Camp Bonneville for a future juvenile rehabilitation facility should it be closed. Recently, the community has indicated an interest in pursuing more appropriate alternatives for the base. Although the proviso is permissive, it may present unnecessary competition to the community effort.

**Section 276(5), page 52, Larch Corrections Center (Department of Corrections)**

The proviso language of section 276(5) prohibits the Department of Corrections from housing alien offenders at the Larch Corrections Center on or after January 1, 1996. Due to the impact of current drug sentencing laws, a large proportion of the alien offender population is eligible for minimum security classification. As part of the Department's strategy for effectively managing offenders, alien offenders are distributed throughout the minimum security camps in the system. Excluding this population from the Larch Corrections Center would result in a disproportionate number of alien offenders in the other minimum camps resulting in ethnic and racial imbalances, which could lead to increased offender management problems. In addition, this restriction could result in minimum custody alien offenders assigned to medium custody facilities, resulting in higher costs for these offenders than is necessary.

**Section 327(5), page 61, Washington Wildlife and Recreation Program (Interagency Committee For Outdoor Recreation)**

The proviso language of section 327(5) requires that all new acquisitions under the Washington Wildlife and Recreation Program (WWRP) fall under the state's eminent domain statutes. The original issue which this language was intended to address has been dealt with administratively, leaving this proviso unnecessary.

For these reasons, I have vetoed the proviso language of sections 243(3), 249(2), 276(5), and 327(5), Second Engrossed Substitute House Bill No. 1070.

With the exceptions of sections 243(3), 249(2), 276(5), and 327(5), Second Engrossed Substitute House Bill No. 1070 is approved."

(3) On each date on which any interest or principal and interest payment is due on bonds issued for the purposes of section 2(4) of this act, the state treasurer shall transfer from the public safety and education account to the general fund of the state treasury the amount computed in subsection (2) of this section for the bonds issued for the purposes of section 2(4) of this act.

(4) On each date on which any interest or principal and interest payment is due on bonds issued for the purposes of section 2(5) of this act, the board of regents of the University of Washington shall cause to be paid out of University of Washington nonappropriated local funds to the state treasurer for deposit into the general fund of the state treasury the amount computed in subsection (2) of this section for bonds issued for the purposes of section 2(5) of this act.

(5) Bonds issued under this section and sections 1 and 2 of this act shall state that they are a general obligation of the state of Washington, shall pledge the full faith and credit of the state to the payment of the principal thereof and the interest thereon, and shall contain an unconditional promise to pay the principal and interest as the same shall become due.

(6) The owner and holder of each of the bonds or the trustee for the owner and holder of any of the bonds may by mandamus or other appropriate proceeding require the transfer and payment of funds as directed in this section.

NEW SECTION. Sec. 4. The legislature may provide additional means for raising moneys for the payment of the principal of and interest on the bonds authorized in section 1 of this act, and section 3 of this act shall not be deemed to provide an exclusive method for the payment.

NEW SECTION. Sec. 5. The bonds authorized in section 1 of this act shall be a legal investment for all state funds or funds under state control and for all funds of any other public body.

Sec. 6. RCW 39.52.010 and 1984 c 186 s 36 are each amended to read as follows:

Any county, city, or town in the state of Washington which now has or may hereafter have an outstanding indebtedness evidenced by warrants or bonds, including warrants or bonds of any county, city, or town which are special fund obligations of and constitute a lien upon the waterworks or other public utilities of such county, city, or town, and are payable only from the income or funds derived or to be derived therefrom, whether issued originally within the limitations of the Constitution of this state, or of any law thereof, or whether such outstanding indebtedness has been or may hereafter be validated or legalized in the manner prescribed by law, may, by its corporate authorities, provide by ordinance or resolution for the issuance of funding bonds with which to take up and cancel such outstanding indebtedness in the manner hereinafter described, said bonds to constitute general obligations of such county, city, or town: PROVIDED, That special fund obligations payable only from the income funds of the public utility, shall not be refunded by the issuance of general municipal bonds where voter approval is required before general municipal bonds may be issued for such public utility purposes, unless such general municipal bonds shall have been previously authorized. Nothing in this chapter shall be so construed as to prevent any such county, city, or town from funding its indebtedness as now provided by law.

Sec. 7. RCW 39.52.020 and 1984 c 186 s 37 are each amended to read as follows:

No bonds issued under this chapter shall be issued for a longer period than twenty years. Nothing in this chapter shall be deemed to authorize the issuing of any funding bonds which exceeds any constitutional or statutory limitations of indebtedness. Such bonds shall be issued and sold in accordance with chapters 39.46 and 39.53 RCW, exclusive of RCW 39.53.120.

**NEW SECTION.** Sec. 8. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

(17) Not more than \$458,000 of the general fund—state appropriation may be expended for the operation of the Pacific northwest export assistance project. The department will continue to implement a plan for assessing fees for services provided by the project. It is the intent of the legislature that the revenues raised to defray the expenditures of this program will be increased to fifty percent of the expenditures in fiscal year 1996 and seventy-five percent of the expenditures in fiscal year 1997. Beginning in fiscal year 1998, the legislature intends that this program will be fully self-supporting.

(18) \$4,804,000 of the public safety and education account appropriation is provided solely for contracts with qualified legal aid programs for civil indigent legal representation pursuant to RCW 43.08.260. It is the intent of the legislature to ensure that legal aid programs receiving funds appropriated in this act pursuant to RCW 43.08.260 comply with all applicable restrictions on use of these funds. To this end, during the 1995-97 fiscal biennium the department shall monitor compliance with the authorizing legislation, shall oversee the implementation of this subsection, and shall report directly to the appropriations committee of the house of representatives and the ways and means committee of the senate.

(a) It is the intent of the legislature to improve communications between legal aid programs and persons affected by the activities of legal aid programs. There is established for the 1995-97 fiscal biennium a task force on agricultural interests/legal aid relations. The task force shall promote better understanding and cooperation between agricultural interests and legal aid programs and shall provide a forum for discussion of issues of common concern. The task force shall not involve itself in pending litigation.

(i) The task force shall consist of the following sixteen members: Four representatives of agricultural organizations, to be appointed by the legislator

members; two individuals who represent the corresponding interests of legal clients, to be appointed by organizations designated by the three legal services programs; two representatives of Evergreen Legal Services, to be appointed by its board of directors; one representative each from Puget Sound Legal Assistance Foundation and Spokane Legal Services Center, each to be appointed by its directors; one member from each of the majority and minority caucuses of the house of representatives, to be appointed by the speaker of the house of representatives; one member from each of the majority and minority caucuses of the senate, to be appointed by the president of the senate; and two members of the supreme court-appointed access to justice board, to be appointed by the board. During fiscal year 1996, the task force shall be chaired by a legislative member, to be selected by the task force members. During fiscal year 1997, the committee shall be chaired by a nonlegislator member, to be selected by the task force members.

(ii) All costs associated with the meetings shall be borne by the individual task force members or by the organizations that the individuals represent. No task force member shall be eligible for reimbursement of expenses under RCW 43.03.050 or 43.03.060. Nothing in this subsection prevents the legal aid programs from using funds appropriated in this act to reimburse their representatives or the individuals representing legal clients.

(iii) The task force will meet at least four times during the first year of the biennium and as frequently as necessary thereafter at mutually agreed upon times and locations. Any member of the task force may place items on meeting agendas. Members present at the first two task force meetings shall agree upon a format for subsequent meetings.

(b) The legislature recognizes that farmworkers have the right to receive basic information and to consult with attorneys at farm labor camps without fear of intimidation or retaliation. It is the intent of the legislature and in the interest of the public to ensure the safety of all persons affected by legal aid programs' farm labor camp outreach activities. Legal aid program employees have the legal right to enter the common areas of a labor camp or to request permission of employees to enter their dwellings. Employees living in grower supplied housing have the right to refuse entry to anyone including attorneys unless they have a warrant. Individual employees living in employer supplied housing do not have the right to force legal aid program employees to leave common areas of housing (outside) as long as one person who resides in the associated dwellings wants that person to be there. Any legal aid program employee wishing to visit employees housed on grower property has the right to enter the driveway commonly used by the housing occupants. This means that if agricultural employees must use a grower's personal driveway to get to their housing, legal aid program employees also may use that driveway to access the housing without a warrant so long as at least some of the housing is occupied. When conducting outreach activities that involve entry onto labor camps, legal aid programs shall establish and abide by policies regarding conduct of outreach activities. The

policies shall include a requirement that legal aid program employees identify themselves to persons whom they encounter at farm labor camps. The legal aid programs shall provide copies of their current outreach policies to known agricultural organizations and shall provide copies upon request to any owner of property on which farmworkers are housed. Legal aid program employees involved in outreach activities shall attempt to inform operators of licensed farm labor camps or their agents, and known grower organizations of the approximate time frame for outreach activities and shall cooperate with operators of farm labor camps at which farmworkers are housed in assuring compliance with all pertinent laws and ordinances, including those related to trespass and harassment. Employers who believe that Evergreen Legal Services Outreach Guidelines have been violated shall promptly provide all available information on the alleged violation to the director of Evergreen Legal Services and to the chair of the Task Force on Agricultural Interests/Legal Aid Relations. Evergreen Legal Services will promptly investigate any alleged violations of the outreach guidelines and inform the complaining party of the result. If the resolution of the investigation is not satisfactory to the complainant, the matter shall be placed on the Task Force agenda for discussion at the next scheduled meeting. Employers who believe that Evergreen Legal Services staff members have trespassed should immediately contact local law enforcement authorities.

(c) It is the intent of the legislature to provide the greatest amount of legal services to the largest number of clients by discouraging inefficient use of state funding for indigent legal representation. To this end, it is the intent of the legislature that, prior to the commencement of litigation against any private employer relating to the terms and conditions of employment legal aid programs receiving funds appropriated in this act make good faith written demand for the requested relief, a good faith offer of settlement or an offer to submit to nonbinding arbitration prior to filing a lawsuit, unless the making of the offer is, in the opinion of the director of the legal services program or his/her designee, clearly prejudicial to: (i) The health, safety, or security of the client; or (ii) the timely availability of judicial relief. The director of the legal aid program may designate not more than two persons for purposes of making the determination of prejudice permitted by this section.

(d)(i) The legislature encourages legal aid programs to devote their state and nonstate funding to the basic, daily legal needs of indigent persons. No funds appropriated under this act may be used for legal representation and activities outside the scope of RCW 43.08.260.

(ii) No funds appropriated in this act may be used for lobbying as defined in RCW 43.08.260(3). Legal aid programs receiving funds appropriated in this act shall comply with all restrictions on lobbying contained in Federal Legal Services Corporation Act (P.L. 99-951) and regulations promulgated thereunder.

(e) No funds appropriated in this act may be used by legal aid programs for representation of undocumented aliens.

(f) The legislature recognizes the duty of legal aid programs to preserve inviolate and prevent the disclosure of, in the absence of knowing and voluntary client consent, client information protected by the United States Constitution, the Washington Constitution, the attorney-client privilege, or any applicable attorney rule of professional conduct. However, to the extent permitted by applicable law, legal aid programs receiving funds appropriated in this act shall, upon request, provide information on their activities to the department and to legislators for purposes of monitoring compliance with authorizing legislation and this subsection.

(g) Nothing in this subsection is intended to limit the authority of existing entities, including but not limited to the Washington state bar association, the public disclosure commission, and the Federal Legal Services Corporation, to resolve complaints or disputes within their jurisdiction.

Solely for the purposes of this subsection, allocated classroom teachers shall be equal to the number of certificated instructional staff units allocated under subsection (2) of this section, multiplied by the ratio between the number of actual basic education certificated teachers and the number of actual basic education certificated instructional staff reported state-wide for the 1994-95 school year.

(8) Any school district board of directors may petition the superintendent of public instruction by submission of a resolution adopted in a public meeting to reduce or delay any portion of its basic education allocation for any school year. The superintendent of public instruction shall approve such reduction or delay if it does not impair the district's financial condition. Any delay shall not be for more than two school years. Any reduction or delay shall have no impact on levy authority pursuant to RCW 84.52.0531 and local effort assistance pursuant to chapter 28A.500 RCW.

(9) The superintendent may distribute a maximum of \$3,122,000 outside the basic education formula during fiscal years 1996 and 1997 as follows:

(11) If two or more school districts consolidate and each district was receiving additional basic education formula staff units pursuant to subsection (2) (b) through (h) of this section, the following shall apply:

(a) For three school years following consolidation, the number of basic education formula staff units shall not be less than the number of basic education formula staff units received by the districts in the school year prior to the consolidation; and

(b) For the fourth through eighth school years following consolidation, the difference between the basic education formula staff units received by the districts for the school year prior to consolidation and the basic education formula staff units after consolidation pursuant to subsection (2) (a) through (h) of this section shall be reduced in increments of twenty percent per year.

**NEW SECTION. Sec. 503. FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION—BASIC EDUCATION EMPLOYEE COMPENSATION**

(1) The following calculations determine the salaries used in the general fund allocations for certificated instructional, certificated administrative, and classified staff units under section 502 of this act:

(a) Salary allocations for certificated instructional staff units shall be determined for each district by multiplying the district's certificated instructional derived base salary shown on LEAP Document 12C, by the district's average staff mix factor for basic education certificated instructional staff in that school year, computed using LEAP Document 1A; and

(b) Salary allocations for certificated administrative staff units and classified staff units for each district shall be based on the district's certificated administrative and classified salary allocation amounts shown on LEAP Document 12C.

(2) For the purposes of this section:

(a) "Basic education certificated instructional staff" is defined as provided in RCW 28A.150.100;

(b) "LEAP Document 1A" means the computerized tabulation establishing staff mix factors for basic education certificated instructional staff according to education and years of experience, as developed by the legislative evaluation and accountability program committee on April 8, 1991, at 13:35 hours; and

(c) "LEAP Document 12C" means the computerized tabulation of 1995-96 and 1996-97 school year salary allocations for basic education certificated administrative staff and basic education classified staff and derived base salaries for basic education certificated instructional staff as developed by the legislative evaluation and accountability program committee on May 21, 1995, at 23:35 hours.

(3) Incremental fringe benefit factors shall be applied to salary adjustments at a rate of 20.07 percent for certificated staff and 15.27 percent for classified staff for both years of the biennium.

(6) No more than ninety college quarter-hour credits received by any employee after the baccalaureate degree may be used to determine compensation allocations under the state salary allocation schedule and LEAP documents referenced in this act, or any replacement schedules and documents, unless:

(a) The employee has a masters degree; or

(b) The credits were used in generating state salary allocations before January 1, 1992.

(7)(a) Credits earned by certificated instructional staff after September 1, 1995, shall be counted only if the content of the course: (i) Is consistent with the school district's strategic plan for improving student learning; (ii) is consistent with a school-based plan for improving student learning developed under section 520(2) of this act for the school in which the individual is assigned; (iii) pertains to the individual's current assignment or expected assignment for the following school year; (iv) is necessary for obtaining an endorsement as prescribed by the state board of education; (v) is specifically required for obtaining advanced levels of certification; or (vi) is included in a college or university degree program that pertains to the individual's current assignment, or potential future assignment, as a certificated instructional staff.

(b) Once credits earned by certificated instructional staff have been determined to meet one or more of the criteria in (a) of this subsection, the credits shall be counted even if the individual transfers to other school districts.

(b) The appropriation in this section provides salary increase and incremental fringe benefit allocations for the following programs based on formula adjustments as follows:

(i) For pupil transportation, an increase of \$0.77 per weighted pupil-mile for the 1995-96 school year and maintained for the 1996-97 school year;

(ii) For learning assistance, an increase of \$11.24 per eligible student for the 1995-96 school year and maintained for the 1996-97 school year;

(4) The rates specified in this section are subject to revision each year by the legislature.

**NEW SECTION. Sec. 505. INCREMENT SALARY INCREASES** The appropriations in sections 502 through 519 of this act contain \$27,880,000 in fiscal year 1996 and \$63,950,000 in fiscal year 1997 for funding of experience and education increments for certificated instructional staff. This provides an average salary increase of 1.55 percent per year.

**NEW SECTION. Sec. 506. FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION—FOR PUPIL TRANSPORTATION**

General Fund—State Appropriation (FY 1996) . . . . .	\$	3,000,000
--	----	-----------

Ch. 18 WASHINGTON LAWS, 1995 2nd Sp. Sess.

General Fund—State Appropriation (FY 1997) . . . . .	\$	3,000,000
General Fund—Federal Appropriation . . . . .	\$	183,619,000
TOTAL APPROPRIATION . . . . .	\$	189,619,000

**NEW SECTION. Sec. 508. SUPERINTENDENT OF PUBLIC INSTRUCTION—FOR SPECIAL EDUCATION PROGRAMS**

General Fund—State Appropriation (FY 1996) . . . . .	\$	380,179,000
General Fund—State Appropriation (FY 1997) . . . . .	\$	373,289,000
General Fund—Federal Appropriation . . . . .	\$	98,684,000
TOTAL APPROPRIATION . . . . .	\$	852,152,000

The appropriations in this section are subject to the following conditions and limitations:

(1) The general fund—state appropriation includes such funds as are necessary for the remaining months of the 1994-95 school year.

(2) In recognition of the need for increased flexibility at the local district level to facilitate the provision of appropriate education to children with disabilities, and the need for substantive educational reform for a significant portion of the school population, the funding formula for special education is modified. These changes result from a 1994 study and recommendations by the institute for public policy and the legislative budget committee, aided by the office of the superintendent of public instruction and the statewide task force for the development of special education funding alternatives. The new formula is for allocation purposes only and is not intended to prescribe or imply any particular pattern of special education service delivery other than that contained in a properly formulated, locally determined, individualized education program.

(3) The superintendent of public instruction shall distribute state funds to school districts based on two categories, the mandatory special education program for special education students ages three to twenty-one and the optional birth through age two program for developmentally delayed infants and toddlers. The superintendent shall review current state eligibility criteria for the fourteen special education categories and consider changes which would reduce assessment time and administrative costs associated with the special education program.

(4) For the 1995-96 and 1996-97 school years, the superintendent shall distribute state funds to each district based on the sum of:

(a) A district's annual average headcount enrollment of developmentally delayed infants and toddlers ages birth through two, times the district's average basic education allocation per full-time equivalent student, times 1.15; and

(b) A district's annual average full-time equivalent basic education enrollment times the enrollment percent, times the district's average basic education allocation per full-time equivalent student times 0.9309.

(5) The definitions in this subsection apply throughout this section.

(a) "Average basic education allocation per full-time equivalent student" for a district shall be based on the staffing ratios required by RCW 28A.150.260

(i.e., 49/1000 certificated instructional staff in grades K-3, and 46/1000 in grades 4-12), and shall not include enhancements for K-3, secondary vocational education, or small schools.

(b) "Annual average full-time equivalent basic education enrollment" means the resident enrollment including students enrolled through choice (RCW 28A.225.225) and students from nonhigh districts (RCW 28A.225.210) and excluding students residing in another district enrolled as part of an interdistrict cooperative program (RCW 28A.225.250).

(c) "Enrollment percent" shall mean the district's resident special education annual average enrollment including those students counted under the special education demonstration projects, excluding the birth through age two enrollment, as a percent of the district's annual average full-time equivalent basic education enrollment. For the 1995-96 and the 1996-97 school years, each district's enrollment percent shall be:

(i) For districts whose enrollment percent for 1994-95 was at or below 12.7 percent, the lesser of the district's actual enrollment percent for the school year for which the allocation is being determined or 12.7 percent.

(ii) For districts whose enrollment percent for 1994-95 was above 12.7 percent, the lesser of:

(A) The district's actual enrollment percent for the school year for which the special education allocation is being determined; or

(B) The district's actual enrollment percent for the school year immediately prior to the school year for which the special education allocation is being determined; or

(C) For 1995-96, the 1994-95 enrollment percent reduced by 25 percent of the difference between the district's 1994-95 enrollment percent and 12.7. For 1996-97, the 1994-95 enrollment percent reduced by 50 percent of the difference between the district's 1994-95 enrollment percent and 12.7.

(6) A minimum of \$4.5 million of the general fund—federal appropriation shall be expended for safety net funding to meet the extraordinary needs of individual special education students.

(7) From the general fund—state appropriation, \$14,600,000 is provided for the 1995-96 school year, and \$19,575,000 for the 1996-97 school year, for safety net purposes for districts with demonstrable funding needs for special education beyond the combined amounts provided in subsection (4) of this section. The superintendent of public instruction shall, by rule, establish procedures and standards for allocation of safety net funds. School districts shall submit their requests for safety net funds to the appropriate regional committee established by the superintendent of public instruction. Regional committees shall make recommendations to the state oversight committee for approval. The following conditions and limitations shall be applicable to school districts requesting safety net funds:

(a) For a school district requesting state safety net funds due to special characteristics of the district and costs of providing services which differ

significantly from the assumptions contained in the funding formula, the procedures and standards shall permit relief only if a district can demonstrate at a minimum that:

(i) Individualized education plans are appropriate and are properly and efficiently prepared and formulated;

(ii) The district is making a reasonable effort to provide appropriate program services for special education students utilizing state funds generated by the apportionment and special education funding formulas;

(iii) The district's programs are operated in a reasonably efficient manner and that the district has adopted a plan of action to contain or eliminate any unnecessary, duplicative, or inefficient practices;

(iv) Indirect costs charged to this program do not exceed the allowable percent for the federal special education program;

(v) Any available federal funds are insufficient to address the additional needs; and

(vi) The costs of any supplemental contracts are not charged to this program for purposes of making these determinations.

(b) For districts requesting safety net funds due to federal maintenance of effort requirements, the procedures and standards shall permit relief only if a district can demonstrate at a minimum that:

(i) Individualized education plans are appropriate and are properly and efficiently prepared and formulated;

(ii) The district is making a reasonable effort to provide appropriate program services for special education students utilizing state funds generated by the apportionment and special education funding formulas; and

(iii) Calculations made in accordance with subsection (8) of this section with respect to state fund allocations justify a need for additional funds for compliance with federal maintenance of effort requirements.

(8)(a) For purposes of making safety net determinations pursuant to subsection (7) of this section, the superintendent shall make available to each school district, from available data, prior to June 1st of each year:

(i) The district's 1994-95 enrollment percent;

(ii) For districts with a 1994-95 enrollment percent over 12.7 percent, the maximum 1995-96 enrollment percent, and prior to 1996-97 the maximum 1996-97 enrollment percent;

(iii) The estimate to be used for purposes of subsection (7) of this section of each district's 1994-95 special education allocation showing the excess cost and the basic education portions; and

(iv) If necessary, a process for each district to estimate the 1995-96 school year excess cost allocation for special education and the portion of the basic education allocation formerly included in the special education allocation. This process may utilize the allocations generated pursuant to subsection (4) of this section, each district's 1994-95 estimated basic education backout percent for the 1994-95 school year, and state compensation increases for 1995-96.

(b) The superintendent, in consultation with the state auditor, shall take all necessary steps to successfully transition to the new formula and minimize paperwork at the district level associated with maintenance of effort calculations. The superintendent shall develop such rules and procedures as are necessary to implement this process for the 1995-96 school year, and may use the same process for the 1996-97 school year if found necessary for federal maintenance of effort calculations.

(9) Prior to adopting any standards, procedures, or processes required to implement this section, the superintendent shall consult with the office of financial management and the fiscal committees of the legislature.

(10) Membership of the regional committees may include, but not be limited to:

(a) A representative of the superintendent of public instruction;

(b) One or more representatives from school districts including board members, superintendents, special education directors, and business managers; and

(c) One or more staff from an educational service district.

(11) The state oversight committee appointed by the superintendent of public instruction shall consist of:

(a) Staff of the office of superintendent of public instruction;

(b) Staff of the office of the state auditor;

(c) Staff from the office of the financial management; and

(d) One or more representatives from school districts or educational service districts knowledgeable of special education programs and funding.

(12) The institute for public policy, in cooperation with the superintendent of public instruction, the office of financial management, and the fiscal committees of the legislature, shall evaluate the operation of the safety nets under subsections (6) and (7) of this section and shall prepare an interim report by December 15, 1995, and a final report on the first school year of operation by October 15, 1996.

(13) A maximum of \$678,000 may be expended from the general fund—state appropriation to fund 5.43 full-time equivalent teachers and 2.1 full-time equivalent aides at Children's orthopedic hospital and medical center. This amount is in lieu of money provided through the home and hospital allocation and the special education program.

(14) \$1,000,000 of the general fund—federal appropriation is provided solely for projects to provide special education students with appropriate job and independent living skills, including work experience where possible, to facilitate their successful transition out of the public school system. The funds provided by this subsection shall be from federal discretionary grants.

(15) Not more than \$80,000 of the general fund—federal appropriation shall be expended for development of an inservice training program to identify students with dyslexia who may be in need of special education.

department of ecology shall give strong preference to local governments that have: (1) Implemented, or are in the process of implementing, an ordinance that establishes a flood plain policy that is substantially more stringent than minimum federal requirements; (2) completed a comprehensive flood control plan meeting the requirements of RCW 86.12.200; or (3) constructed, or are in the process of constructing, a system of overtopping dikes or levees that allow public access.

**Sec. 919.** RCW 69.50.520 and 1994 sp.s. c 7 s 910 are each amended to read as follows:

The violence reduction and drug enforcement account is created in the state treasury. All designated receipts from RCW 9.41.110(~~(5)~~)(7), 66.24.210(4), 66.24.290(3), 69.50.505(h)(1), 82.08.150(5), 82.24.020(2), 82.64.020, and section 420, chapter 271, Laws of 1989 shall be deposited into the account. Expenditures from the account may be used only for funding services and programs under chapter 271, Laws of 1989 and chapter 7, Laws of 1994 (~~(1st)~~) sp. sess., including state incarceration costs. After July 1, 1997, at least seven and one-half percent of expenditures from the account shall be used for providing grants to community networks under chapter 70.190 RCW by the family policy council.

**Sec. 920.** RCW 70.146.020 and 1993 sp.s. c 24 s 923 are each amended to read as follows:

Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Account" means the water quality account in the state treasury.

(2) "Department" means the department of ecology.

(3) "Eligible cost" means the cost of that portion of a water pollution control facility that can be financed under this chapter excluding any portion of a facility's cost attributable to capacity that is in excess of that reasonably required to address one hundred ten percent of the applicant's needs for water pollution control existing at the time application is submitted for assistance under this chapter.

(4) "Water pollution control facility" or "facilities" means any facilities or systems for the control, collection, storage, treatment, disposal, or recycling of wastewater, including but not limited to sanitary sewage, storm water, residential, commercial, industrial, and agricultural wastes, which are causing water quality degradation due to concentrations of conventional, nonconventional, or toxic pollutants. Water pollution control facilities include all equipment, utilities, structures, real property, and interests in and improvements on real property necessary for or incidental to such purpose. Water pollution control facilities also include such facilities, equipment, and collection systems as are necessary to protect federally designated sole source aquifers.

(5) "Water pollution control activities" means actions taken by a public body for the following purposes: (a) To prevent or mitigate pollution of underground water; (b) to control nonpoint sources of water pollution; (c) to restore the water quality of fresh water lakes; and (d) to maintain or improve water quality through

the use of water pollution control facilities or other means. During the ((1993-1995)) 1995-1997 fiscal biennium, "water pollution control activities" includes activities by state agencies to protect public drinking water supplies and sources.

(6) "Public body" means the state of Washington or any agency, county, city or town, conservation district, other political subdivision, municipal corporation, quasi-municipal corporation, and those Indian tribes now or hereafter recognized as such by the federal government.

(7) "Water pollution" means such contamination, or other alteration of the physical, chemical, or biological properties of any waters of the state, including change in temperature, taste, color, turbidity, or odor of the waters, or such discharge of any liquid, gaseous, solid, radioactive, or other substance into any waters of the state as will or is likely to create a nuisance or render such waters harmful, detrimental, or injurious to the public health, safety, or welfare, or to domestic, commercial, industrial, agricultural, recreational, or other legitimate beneficial uses, or to livestock, wild animals, birds, fish, or other aquatic life.

(8) "Nonpoint source water pollution" means pollution that enters any waters of the state from any dispersed water-based or land-use activities, including, but not limited to, atmospheric deposition, surface water runoff from agricultural lands, urban areas, and forest lands, subsurface or underground sources, and discharges from boats or other marine vessels.

(9) "Sole source aquifer" means the sole or principal source of public drinking water for an area designated by the administrator of the environmental protection agency pursuant to Public Law 93-523, Sec. 1424(b).

**Sec. 921.** RCW 70.146.030 and 1991 sp.s. c 13 s 61 are each amended to read as follows:

(1) The water quality account is hereby created in the state treasury. Moneys in the account may be used only in a manner consistent with this chapter. Moneys deposited in the account shall be administered by the department of ecology and shall be subject to legislative appropriation. Moneys placed in the account shall include tax receipts as provided in RCW 82.24.027, 82.26.025, and 82.32.390, principal and interest from the repayment of any loans granted pursuant to this chapter, and any other moneys appropriated to the account by the legislature.

(2) The department may use or permit the use of any moneys in the account to make grants or loans to public bodies, including grants to public bodies as cost-sharing moneys in any case where federal, local, or other funds are made available on a cost-sharing basis, for water pollution control facilities and activities, or for purposes of assisting a public body to obtain an ownership interest in water pollution control facilities and/or to defray a part of the payments made by a public body to a service provider under a service agreement entered into pursuant to RCW 70.150.060, within the purposes of this chapter and for related administrative expenses. No more than three percent of the moneys deposited in the account may be used by the department to pay for the administration of the grant and loan program authorized by this chapter.

(3) The department shall present a progress report each biennium on the use of moneys from the account to the chairs of the committees on ways and means of the senate and house of representatives, including one copy to the staff of each of the committees.

(4) During the fiscal biennium ending June 30, 1997, moneys in the account may be transferred by the legislature to the water right permit processing account.

**Sec. 922.** RCW 74.14C.065 and 1992 c 214 s 11 are each amended to read as follows:

Any federal funds made available under RCW 74.14C.060 shall be used to supplement and shall not supplant state funds to carry out the purposes of this chapter. However, during the 1995-97 fiscal biennium, federal funds made available under RCW 74.14C.060 may be used to supplant state funds to carry out the purposes of this chapter.

**Sec. 923.** RCW 79.24.580 and 1994 c 219 s 12 are each amended to read as follows:

After deduction for management costs as provided in RCW 79.64.040 and payments to towns under RCW 79.92.110(2), all moneys received by the state from the sale or lease of state-owned aquatic lands and from the sale of valuable material from state-owned aquatic lands shall be deposited in the aquatic lands enhancement account which is hereby created in the state treasury. After appropriation, these funds shall be used solely for aquatic lands enhancement projects; for the purchase, improvement, or protection of aquatic lands for public purposes; for providing and improving access to such lands; and for volunteer cooperative fish and game projects. During the fiscal biennium ending June 30, 1995, the funds may be appropriated for shellfish management, enforcement, and enhancement and for developing and implementing plans for population monitoring and restoration of native wild salmon stock. During the fiscal biennium ending June 30, 1997, the funds may be appropriated for shellfish management, enforcement, and enhancement and for developing and implementing plans for population monitoring and restoration of native wild salmon stock.

**NEW SECTION. Sec. 924. FISCAL YEAR EXPENDITURE LIMITS.** An agency's total general fund—state expenditures by fiscal year shall not exceed the amount approved by the office of financial management (OFM) in expenditure plans authorized under RCW 43.88.070 and 43.88.110. OFM shall ensure that these plans conform with fiscal year expenditures in the OFM budget database as updated to reflect legislative appropriations and governor's vetoes. In no case shall the state-wide total of agency allotments exceed the Initiative 601 expenditure limit. The allotments of elected officials must match the GFS fiscal year split contained in the updated OFM database.

***\*NEW SECTION. Sec. 925. Unless otherwise required by law, no moneys appropriated in this act may be expended for mandatory diversity training for state employees. No moneys appropriated in this act may be***

*expended for voluntary diversity training offered to state employees where a record is made of attendance or nonattendance or where state employees may be subject to reprimand or other disciplinary action for participating or not participating.*

\*Sec. 925 was vetoed. See message at end of chapter.

**NEW SECTION. Sec. 926.** If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

**NEW SECTION. Sec. 927.** This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions. Section 807 of this act shall take effect immediately. The remainder of the act shall take effect July 1, 1995.

Passed the House May 24, 1995.

Passed the Senate May 24, 1995.

Approved by the Governor June 16, 1995, with the exception of certain items which were vetoed.

Filed in Office of Secretary of State June 16, 1995.

Note: Governor's explanation of partial veto is as follows:

"I am returning herewith, without my approval as to sections 126(13); 139(4); 146 (lines 11-21); 201(3); 205(5)(d); 205(5)(e); 206(2); 206(3); 207(1)(c); 207(2)(c)(i); 207(2)(c)(iii); 219(5); 219(6); 303(2); 303(10); 308; 309(3); 311 (beginning with the word "subject" on line 20, and ending with the word "section" on line 28); 914; 916; 917; and 925, Engrossed Substitute House Bill No. 1410 entitled:

"AN ACT Relating to fiscal matters; making appropriations and authorizing expenditures for the operations of state agencies for the fiscal biennium beginning July 1, 1995 and ending June 30, 1997;"

Engrossed Substitute House Bill No. 1410, the state operating budget, will fund public schools, colleges, universities and other important public services for the next two years. The legislature deserves great credit for working through their differences and coming to agreement on some very difficult issues. Nonetheless, I am very concerned with certain items included in this budget.

**Section 126(13), page 16, Marketplace Program (Department of Community, Trade, and Economic Development)**

This provision would require the Department of Community, Trade, and Economic Development to invest \$150,000 General Fund—State in the Marketplace program. While I believe this to be a worthwhile program, I am concerned that this level of expenditure would require reductions in other important trade activities conducted by the Department. I have asked the agency to report to me on the performance of the Marketplace program and recommend an expenditure plan for the 1995-97 Biennium.

**Section 139(4), page 24, Study the Feasibility of Rewriting Titles 82 and 84 RCW (Department of Revenue)**

This subsection directs the Department of Revenue to study the feasibility of rewriting Titles 82 and 84 RCW "for clarity and ease of understanding" and report its findings to the legislature in the 1996 session. The Department did not, however, receive "sufficient funds" to conduct this study, as stated in this provision. While both the Department and I think this is a very important project and goal, it is unreasonable to expect the Department to undertake this additional task along with the other increased responsibilities mandated by regulatory reform, without funding for this purpose.

**Section 146, lines 11-21, page 27, Certified Public Accountants' Account (Board of Accountancy)**

This section requires the Board of Accountancy to spend \$50,000 of the Certified Public Accountants' appropriation to study the financial and enrollment impact of a Board proposal to increase the educational requirements for CPA certification. The Board of Accountancy proposed the new requirements to keep Washington accountants competitive and properly educated. While that proposal has merit, I share the legislature's concern that imposing additional educational requirements on students seeking to qualify for professional certification will cost students and the state additional money and potentially reduce access to higher education. The budget proviso prohibits the Board from implementing the proposed rule until a study is completed of its likely effect on public and private higher education institutions and presented to the higher education and fiscal committees of the legislature. The study is to be conducted in cooperation with the Higher Education Coordinating Board (HECB).

While I agree with the intent of this proviso, I am vetoing it because the required study will not cost \$50,000. The HECB estimates that the study can be done for about \$20,000. The amount not spent on the study can be used for giving CPA exams. Because I think the study is important, I will ask the Board of Accountancy to delay implementation of the increased educational requirements until the HECB and the Board of Accountancy complete a study of the financial and enrollment impact of the proposed changes to CPA certification requirements. The study should provide the legislature and Board of Accountancy with objective information regarding costs and enrollments associated with this important decision.

**Section 201(3), page 30, Special Authorization for Prescription Drugs and Medications (Department of Social and Health Services)**

This subsection prohibits the Department of Social and Health Services (DSHS) from requiring special authorization before prescription drugs and medications can be prescribed to Medicaid eligible recipients for non-medical reasons. This language would limit the state's ability to curb the growth of health care costs, while also causing serious problems for those charged with ensuring that medications with high risk of abuse and misuse are distributed appropriately. Retaining the ability to require authorization for certain drugs will help control costs and is an important tool in preventing drug abuse.

I believe the original intent of this proviso was to terminate the Washington State Supplemental Drug Discount (WSSDD) program. However, this goal is achieved in section 209(6) of this act, which I have approved. Therefore, as of July 1, 1995, the Supplemental Drug Discount Program is discontinued.

**Section 205(5)(d), pages 37 and 38, Out of Home Services (Department of Social and Health Services, Developmental Disabilities)**

This section requires DSHS to serve an additional 150 persons in out-of-home community residential care during the 1995-97 Biennium, with service priority given to those currently residing with elderly parents or relatives. The provision of expanded services at a reduced cost is a laudable goal; in fact, my budget included a similar expectation. However, the stipulation that these services must be "out-of-home" conflicts with parental choice and personal preferences. I am vetoing this section; however, I am directing the Department to provide either out-of-home or in-home community residential services to at least 150 additional persons, with due consideration given to personal and family choices and priority given to those residing with elderly parents or relatives.

**Section 205(5)(e), page 38, and Section 206(2), page 39, Medicaid Personal Care Services (Department of Social and Health Services; Developmental Disabilities, and Aging and Adult Services Administration)**

These sections attempt to control growth in the Medicaid Personal Care program through adjustments to eligibility standards and service levels. While I agree that Personal Care growth must be managed, the Department must take a more flexible and coordinated approach than limiting expenditures within individual programs. The Department is unable to adjust eligibility criteria within one program without affecting clients and services in another program. Section 205(5)(f) of the operating budget bill requires DSHS to evaluate the feasibility of redesigning the Medicaid Personal Care program for the developmental disabilities community. This study should provide the Department and the legislature with enough information to generate viable options in addressing the future of the Personal Care program.

**Sections 206(3), page 39, Community Options Program Entry System (Department of Social and Health Services, Aging and Adult Services Administration)**

This section limits growth in the Community Options Program Entry System (COPES) through adjustments to eligibility standards and service levels or the terms of the federal waiver. This proviso would limit the Department's ability to implement the reforms of the Long Term Care system embodied in E2SHB 1908. Furthermore, adjusting the eligibility standards within COPES would similarly affect the rules for eligibility within nursing homes.

**Section 207(1)(c), page 40, General Assistance for Pregnancy Program (Department of Social and Health Services, Economic Services)**

This proviso limits the General Assistance for Pregnancy program (GA-S) to \$7.7 million as specified in RCW 74.04.005 as amended by Substitute House Bill No. 2083. This bill was not approved by the legislature and the proviso alone, without statutory change, offers neither sufficient specificity nor legal authority to limit program eligibility. Therefore, the Department of Social and Health Services will continue to provide assistance to all eligible pregnant women as specified in current statute.

**Section 207(2)(c)(i) and (iii), page 41, Systematic Alien Verification for Entitlements System (SAVE) (Department of Social and Health Services, Economic Services Program)**

These subsections require DSHS to reinstate the Systematic Alien Verification for Entitlements System (SAVE) program by September 30, 1995. There is also a requirement to post signs at every community service office letting applicants and recipients know that illegal aliens will be reported to the United States Immigration and Naturalization Services and that SAVE is in use in the office. The Department's past experience with the SAVE program has established that it is an inefficient and costly method of identifying fraudulent applications for assistance. The federal government has also come to the conclusion that the SAVE program costs twice as much as is saved.

This administration in no way supports granting benefits to persons who are not eligible for assistance. The Department has effective mechanisms currently in place to ensure that benefits are delivered to those truly in need, and not to those who are intent on defrauding the state.

**Section 219 (5), page 50, Claims Unit for State Employees (Department of Labor and Industries)**

Section 219(5) directs the Department of Labor and Industries (L&I) to report to the appropriate policy and fiscal committees of the legislature with a plan for establishing within existing resources a designated claims unit to specialize in claims by state employees.

This proviso is in conflict with the agency's efforts to decentralize claims management. The agency has just started to implement the Long-Term Disability and Managed Care pilot projects as directed by the legislature. The results from these two pilot projects will be used to improve the Department's overall claims programs.

Additionally, creating a claims unit for state employees would foster a perception that a worker's compensation program managed by state government is planning to give special preference to government agencies at the expense of private industry ratepayers. I believe that any improvements made to the claims program should benefit all workers and employers, not just state employees.

**Section 219(6), page 50, Regulatory Reform (Department of Labor and Industries)**

Section 219(6) prohibits L&I from spending its appropriated funds to implement rules that do not comply with the Regulatory Fairness Act under RCW 19.85 or that have been determined by the Joint Administrative Rules Review Committee to be outside of legislative intent.

As with section 504 of ESHB 1010, which I just recently vetoed, this proviso is unconstitutional. It violates the state constitutional provisions requiring legislative acts to be passed by the entire legislature with presentment to the Governor for approval. By restricting funds for rule enforcement and ignoring the statutory judicial review process, this proviso violates the separation of power doctrine by unduly encroaching upon those constitutional powers reserved for the executive and judicial branches of government.

**Section 303(2), page 59, Water Rights Claims Filing (Department of Ecology)**

Section 303(2) provides funding for the implementation of SHB 1327, which was not passed by the legislature. I am directing the Department of Ecology to use these funds for the Water Resources program.

**Section 303(10), page 61, Yakima Adjudication (Department of Ecology)**

Section 303(10) provides an additional \$500,000 from the Water Right Permit Processing Account for additional staff and resources for the Yakima adjudication of water rights. Although I recognize the importance of the Yakima adjudication, there are

currently \$1,854,000 in General Fund—State resources devoted to this effort. The Department was provided woefully inadequate resources to address critical water quantity issues throughout the state. Therefore, I am directing the Department of Ecology to use \$500,000 of the Water Right Permit Processing Account for the Water Resources program. The remaining \$1,854,000 of the General Fund—State appropriation shall be used to continue the Yakima Adjudication.

**Section 308, page 63-64, Office of Marine Safety**

I am vetoing this section because funding for the Office of Marine Safety (OMS) has been included in the transportation budget. The transportation budget, 2ESHB 2080, contains statutory language that would merge OMS into the Department of Ecology (DOE) on January 1, 1996. In accordance with that merger, the transportation budget provides funding for OMS from July 1, 1995 through December 31, 1995 and funding for the Department of Ecology to sustain the merged oil spill prevention program for the remainder of the biennium.

Although the OMS will be merged into DOE, I am committed to maintaining a strong and viable program aimed at preventing oil spills on our marine waters. I support maintaining a high level, visible and priority focus on these issues through a division of oil spill prevention and response at the Department of Ecology. Moreover, I am committed to ensuring that full funding be available for the program, pending legislative remedy, should any situation arise placing appropriations for this program in jeopardy.

**Section 309(3), page 64, Flood Damage Reduction (Department of Fish and Wildlife)**

This appropriation to the Department of Fish and Wildlife is for the implementation of E2SSB 5632 regarding flood damage reduction. Although I have signed this legislation, I have vetoed the sections for which this funding was intended. Since no additional funding was provided to the Department for this activity, I am vetoing this budget proviso.

**Section 311, beginning with the word "subject" on line 20 and ending with the word "section" on line 28, page 69, Resource Management (Department of Natural Resources)**

The limiting language in this section places a condition upon the Department of Natural Resources' (DNR) appropriation from the Resource Management Cost Account (RMCA) that prohibits the agency from expending any moneys, from any source, to implement a long-term management agreement with the federal government such as a Habitat Conservation Plan (HCP), without a specific appropriation for that purpose and a prior report to the legislative committees on natural resources. Although requiring a report is a proper legislative prerogative, this language constrains the vast majority of the agency's RMCA appropriation, which supports the preponderance of agency activities upon state trust land. Expenditures from this account should not be dependent upon what the agency does or does not do with respect to just one of those activities, such as implementation of a long-term management agreement with the federal government. An HCP is an important tool that can be used to protect species while allowing predictable and stable timber harvest on state trust lands. This limiting condition presents an overly broad constraint upon an agency's operations.

**Section 914, pages 138-140, Prohibition on the Use of Toxics Control Accounts for Public Participation Grants (Department of Ecology)**

This section prohibits the expenditure of funds for public participation grants, except for those assisting in the implementation of ESHB 1810. I am vetoing this section because I believe it is important to maintain public financial support for non-governmental entities engaged in local environmental projects. This program has proven its value in sustaining citizen oversight activities at sites ranging from the Hanford and Commencement Bay cleanups to the Everett Smelter site. It also provides funding for industry associations to educate their members about pollution prevention and waste reduction

practices. In restoring funds for public participation grants, I want to ensure that citizens continue to have a strong voice in this era of changing environmental challenges.

**Section 916, page 141, Prohibition on Expenditures for the Northwest Marine Straits Sanctuary**

In 1988, Congress directed the National Oceanographic and Atmospheric Agency (NOAA) to conduct a study on whether the Northwest Straits area of Washington should be considered for inclusion in the federal Marine Sanctuary program. The state has insisted that it be an equal partner with NOAA in any such study, in part to ensure that the interests of those in the study area are included in the process. This study is long overdue and the state and NOAA are now working closely in this study process. A study on feasibility and options is quite distinct from any decision to include the Northwest Straits in the Marine Sanctuary program. The study should be allowed to move forward. The state's role in participating in this process is essential and for this reason I am vetoing section 916.

**Section 917, page 141, Rules for Spotted Owl Protection**

This section prevents any state agency from spending any funds appropriated in this act to establish or publish rules that exceed federal requirements for habitat protection for northern spotted owls. This limitation would prevent the Forest Practices Board or the Board of Natural Resources from taking legitimate actions that they may deem appropriate for the protection of owls or other species. If the Legislature wishes to prohibit either the Forest Practices Board or the Board of Natural Resources from taking such action, it should provide such instruction directly. Limiting action through the budget bill is not appropriate.

**Section 925, page 145, Mandatory Diversity Training Prohibition**

This section prohibits the use of appropriated funds for mandatory diversity training of state employees. This prohibition is inconsistent with the tenets of my Executive Order 93-07 in that it fails to recognize the reality of today's increasingly diverse workforce, clientele and population and the corresponding training needs and requirements. As an employer, Washington State is responsible for ensuring that our employees have the necessary training to do their jobs. This provision would present serious obstacles to agencies' ability to carry out essential human resource management obligations.

In addition to noting those provisions I have vetoed, I would like to comment on a troubling provision I have determined appropriate to approve. Section 209(16) of this bill authorizes the Department of Social and Health Services to provide no more than five chiropractic service visits per person per year for those eligible recipients with acute conditions. This language is troubling in that the legislature provided no additional funding to the Department for chiropractic services. Moreover, this proviso appears to be in conflict with federal statutes which do not permit states to impose such specific limits on services.

I have decided to not veto this language because I do not wish to definitely preclude DSHS from offering chiropractic services to eligible recipients. However, I feel there needs to be work done to clarify several issues. I am directing the Department of Social and Health Services to work with chiropractors and other medical providers to develop an approach which would provide cost-effective chiropractic services for medical assistance recipients. I would like the results of this study by December 1995 so, if necessary, additional funding could be provided by the 1996 Legislature.

For these reasons, I have vetoed sections 126(13); 139(4); 146 (lines 11-21); 201(3); 205(5)(d); 205(5)(e); 206(2); 206(3); 207(1)(c); 207(2)(c)(i); 207(2)(c)(iii); 219(5); 219(6); 303(2); 303(10); 308; 309(3); 311 (beginning with the word "subject" on line 20, and ending with the word "section" on line 28); 914; 916; 917; and 925 of Engrossed Substitute House Bill No. 1410.

With the exception of sections 126(13); 139(4); 146 (lines 11-21); 201(3); 205(5)(d); 205(5)(e); 206(2); 206(3); 207(1)(c); 207(2)(c)(i); 207(2)(c)(iii); 219(5); 219(6); 303(2); 303(10); 308; 309(3); 311 (beginning with the word "subject" on line 20, and ending with the word "section" on line 28); 914; 916; 917; and 925, Engrossed Substitute House Bill No. 1410 is approved."

## CHAPTER 19

[Third Engrossed Substitute House Bill 1317]

### TRANSPORTATION SYSTEMS AND FACILITIES

AN ACT Relating to transportation systems and facilities; amending RCW 47.46.010, 47.46.030, 47.46.040, and 47.46.050; and declaring an emergency.

Be it enacted by the Legislature of the State of Washington:

**Sec. 1.** RCW 47.46.010 and 1993 c 370 s 1 are each amended to read as follows:

The legislature finds and declares:

It is essential for the economic, social, and environmental well-being of the state and the maintenance of a high quality of life that the people of the state have an efficient transportation system.

The ability of the state to provide an efficient transportation system will be enhanced by a public-private sector program providing for private entities to undertake all or a portion of the study, planning, design, development, financing, acquisition, installation, construction or improvement, operation, and maintenance of transportation systems and facility projects.

A public-private initiatives program will provide benefits to both the public and private sectors. Public-private initiatives provide a sound economic investment opportunity for the private sector. Such initiatives will provide the state with increased access to property development and project opportunities, financial and development expertise, and will supplement state transportation revenues, allowing the state to use its limited resources for other needed projects.

The public-private initiatives program, to the fullest extent possible, should encourage and promote business and employment opportunities for Washington state citizens.

The public-private initiatives program (~~should~~) shall be implemented in cooperation (~~and~~), consultation ((with)), and with the support of the affected communities and local jurisdictions.

The secretary of transportation should be permitted and encouraged to test the feasibility of building privately funded transportation systems and facilities or segments thereof through the use of innovative agreements with the private sector. The secretary of transportation should be vested with the authority to solicit, evaluate, negotiate, and administer public-private agreements with the private sector relating to the planning, construction, upgrading, or reconstruction of transportation systems and facilities.

Agreements negotiated under a public-private initiatives program will not bestow on private entities an immediate right to construct and operate the

proposed transportation facilities. Rather, agreements will grant to private entities the opportunity to design the proposed facilities, demonstrate public support for proposed facilities, and complete the planning processes required in order to obtain a future decision by the department of transportation and other state and local lead agencies on whether the facilities should be permitted and built.

Agreements negotiated under the public-private initiatives program should establish the conditions under which the private developer may secure the approval necessary to develop and operate the proposed transportation facilities; create a framework to attract the private capital necessary to finance their development; ensure that the transportation facilities will be designed, constructed, and operated in accordance with applicable local, regional, state, and federal laws and the applicable standards and policies of the department of transportation; and require a demonstration that the proposed transportation facility has the support of the affected communities and local jurisdictions.

The legislature finds that the Puget Sound congestion pricing project, selected under this chapter, raises major transportation policy, economic, and equity concerns. These relate to the integrity of the state's high-occupancy vehicle program; the cost-effective movement of freight and goods; the diversion of traffic to local streets and arterials; and possible financial hardship to commuters. The legislature further finds that these potential economic and social impacts require comprehensive legislative review prior to advancement of the project and directs that the secretary not proceed with the implementation of the project without prior approval of the legislature.

The department of transportation should be encouraged to take advantage of new opportunities provided by federal legislation under section 1012 of the Intermodal Surface Transportation Efficiency Act of 1991 (ISTEA). That section establishes a new program authorizing federal participation in construction or improvement or improvement of publicly or privately owned toll roads, bridges, and tunnels, and allows states to leverage available federal funds as a means for attracting private sector capital.

**Sec. 2.** RCW 47.46.030 and 1993 c 370 s 3 are each amended to read as follows:

(1) The secretary or a designee shall solicit proposals from, and negotiate and enter into agreements with, private entities to undertake as appropriate, together with the department and other public entities, all or a portion of the study, planning, design, construction, operation, and maintenance of transportation systems and facilities, using in whole or in part private sources of financing.

The public-private initiatives program may develop up to six demonstration projects. Each proposal shall be weighed on its own merits, and each of the six agreements shall be negotiated individually, and as a stand-alone project. ~~((The commission shall approve each of the selected projects.~~

~~Proposals and demonstration projects may be selected by the public and private sectors at their discretion. All projects designed, constructed, and~~

~~operated under this authority must comply with all applicable rules and statutes in existence at the time the agreement is executed, including but not limited to the following provisions: Chapter 39.12 RCW, this title, RCW 41.06.380, chapter 47.64 RCW, RCW 49.60.180, and 49 C.F.R. Part 21.~~

~~The secretary or a designee shall consult with legal, financial, and other experts within and outside state government in the negotiation and development of the agreements.))~~

(2) If project proposals selected prior to September 1, 1994, are terminated by the public or private sectors, the department shall not select any new projects, including project proposals submitted to the department prior to September 1, 1994, and designated by the transportation commission as placeholder projects, after the effective date of this act, until June 30, 1997.

The department, in consultation with the legislative transportation committee, shall conduct a program and fiscal audit of the public-private initiatives program for the biennium ending June 30, 1997. The department shall submit a progress report to the legislative transportation committee on the program and fiscal audit by June 30, 1996, with preliminary and final audit reports due December 1, 1996, and June 30, 1997, respectively.

The department shall develop and submit a proposed public involvement plan to the 1997 legislature to identify the process for selecting new potential projects and the associated costs of implementing the plan. The legislature must adopt the public involvement plan before the department may proceed with any activity related to project identification and selection. Following legislative adoption of the public involvement plan, the department is authorized to implement the plan and to identify potential new projects.

The public involvement plan for projects selected after June 30, 1997, shall, at a minimum, identify projects that: (a) Have the potential of achieving overall public support among users of the projects, residents of communities in the vicinity of the projects, and residents of communities impacted by the projects; (b) meet a state transportation need; (c) provide a significant state benefit; and (d) provide competition among proposers and maximum cost benefits to users. Prospective projects may include projects identified by the department or submitted by the private sector.

Projects that meet the minimum criteria established under this section and the requirements of the public involvement plan developed by the department and approved by the legislature shall be submitted to the Washington state transportation commission for its review. The commission, in turn, shall submit a list of eligible projects to the legislative transportation committee for its consideration. Forty-five days after the submission to the legislative transportation committee of the list of eligible projects, the secretary is authorized to solicit proposals for the eligible project.

(3) Prior to entering into agreements with private entities under the requirements of RCW 47.46.040 for any project proposal selected before September 1, 1994, or after June 30, 1997, except as provided for in subsections

(10) and (11) of this section, the department shall require an advisory vote as provided under subsections (4) through (9) of this section.

(4) In preparing for the advisory vote, the department shall conduct a comprehensive analysis of traffic patterns and economic impact to define the geographical boundary of the project area that is affected by the imposition of tolls or user fees authorized under this chapter. The area so defined is referred to in this section as the affected project area. In defining the affected project area, the department shall, at a minimum, undertake: (a) A comparison of the estimated percentage of residents of communities in the vicinity of the project and in other communities impacted by the project who could be subject to tolls or user fees and the estimated percentage of other users and transient traffic that could be subject to tolls or user fees; (b) an analysis of the anticipated traffic diversion patterns; (c) an analysis of the potential economic impact resulting from proposed toll rates or user fee rates imposed on residents, commercial traffic, and commercial entities in communities in the vicinity of and impacted by the project; (d) an analysis of the economic impact of tolls or user fees on the price of goods and services generally; and (e) an analysis of the relationship of the project to state transportation needs and benefits.

(5)(a) After determining the definition of the affected project area, the department shall establish a committee comprised of individuals who represent cities and counties in the affected project area; organizations formed to support or oppose the project; and users of the project. The committee shall be named the public-private local involvement committee, and be known as the local involvement committee.

(b) The members of the local involvement committee shall be: (i) An elected official from each city within the affected project area; (ii) an elected official from each county within the affected project area; (iii) two persons from each county within the affected project area who represent an organization formed in support of the project, if the organization exists; (iv) two persons from each county within the affected project area who represent an organization formed to oppose the project, if the organization exists; and (v) four public members active in a state-wide transportation organization. If the committee makeup results in an even number of committee members, there shall be an additional appointment of an elected official from the county in which all, or the greatest portion of the project is located.

(c) City and county elected officials shall be appointed by a majority of the members of the city or county legislative authorities of each city or county within the affected project area, respectively. The county legislative authority of each county within the affected project area shall identify and validate organizations officially formed in support of or in opposition to the project and shall make the appointments required under this section from a list submitted by the chair of the organizations. Public members shall be appointed by the governor. All appointments to the local involvement committee shall be made and submitted to the department of transportation no later than January 1, 1996,

for projects selected prior to September 1, 1994, and no later than thirty days after the affected project area is defined for projects selected after June 30, 1997. Vacancies in the membership of the local involvement committee shall be filled by the appointing authority under (b)(i) through (v) of this subsection for each position on the committee.

(d) The local involvement committee shall serve in an advisory capacity to the department on all matters related to the execution of the advisory vote.

(e) Members of the local involvement committee serve without compensation and may not receive subsistence, lodging expenses, or travel expenses.

(6) The department shall conduct a minimum thirty-day public comment period on the definition of the geographical boundary of the project area. The department, in consultation with the local involvement committee, shall make adjustments, if required, to the definition of the geographical boundary of the affected project area, based on comments received from the public. Within fourteen calendar days after the public comment period, the department shall set the boundaries of the affected project area in units no smaller than a precinct as defined in RCW 29.01.120.

(7) The department, in consultation with the local involvement committee, shall develop a description for selected project proposals. After developing the description of the project proposal, the department shall publish the project proposal description in newspapers of general circulation for seven calendar days in the affected project area. Within fourteen calendar days after the last day of the publication of the project proposal description, the department shall transmit a copy of the map depicting the affected project area and the description of the project proposal to the county auditor of the county in which any portion of the affected project area is located.

(8) The department shall provide the legislative transportation committee with progress reports on the status of the definition of the affected project area and the description of the project proposal.

(9) Upon receipt of the map and the description of the project proposal, the county auditor shall, within thirty days, verify the precincts that are located within the affected project area. The county auditor shall prepare the text identifying and describing the affected project area and the project proposal using the definition of the geographical boundary of the affected project area and the project description submitted by the department and shall set an election date for the submission of a ballot proposition authorizing the imposition of tolls or user fees to implement the proposed project within the affected project area, which date may be the next succeeding general election to be held in the state, or at a special election, if requested by the department. The text of the project proposal must appear in a voter's pamphlet for the affected project area. The department shall pay the costs of publication and distribution. The special election date must be the next date for a special election provided under RCW 29.13.020 that is at least sixty days but, if authorized under RCW 29.13.020, no more than ninety

days after the receipt of the final map and project description by the auditor. The department shall pay the cost of an election held under this section.

(10) Subsections (4) through (9) of this section shall not apply to project proposals selected prior to September 1, 1994, that have no organized public opposition as demonstrated by the submission to the department of original petitions bearing at least five thousand signatures of individuals opposing the project, collected and submitted after September 1, 1994, and by thirty calendar days after the effective date of this act.

(11) Subsections (4) through (9) of this section shall not apply to project proposals selected after June 30, 1997, that have no organized public opposition as demonstrated by the submission to the department of original petitions bearing at least five thousand signatures of individuals opposing the project, collected and submitted by ninety calendar days after project selection.

Sec. 3. RCW 47.46.040 and 1993 c 370 s 4 are each amended to read as follows:

(1) All projects designed, constructed, and operated under this authority must comply with all applicable rules and statutes in existence at the time the agreement is executed, including but not limited to the following provisions: Chapter 39.12 RCW, this title, RCW 41.06.380, chapter 47.64 RCW, RCW 49.60.180, and 49 C.F.R. Part 21.

(2) The secretary or a designee shall consult with legal, financial, and other experts within and outside state government in the negotiation and development of the agreements.

(3) Agreements shall provide for private ownership of the projects during the construction period. After completion and final acceptance of each project or discrete segment thereof, the agreement shall provide for state ownership of the transportation systems and facilities and lease to the private entity unless the state elects to provide for ownership of the facility by the private entity during the term of the agreement.

The state shall lease each of the demonstration projects, or applicable project segments, to the private entities for operating purposes for up to fifty years.

(4) The department may exercise any power possessed by it to facilitate the development, construction, financing operation, and maintenance of transportation projects under this chapter. Agreements for maintenance services entered into under this section shall provide for full reimbursement for services rendered by the department or other state agencies. Agreements for police services for projects, involving state highway routes, developed under ~~((the agreement may))~~ agreements shall be entered into with ~~((any qualified law enforcement agency, and shall provide for full reimbursement for services rendered by that agency))~~ the Washington state patrol. The agreement for police services shall provide that the state patrol will be reimbursed for costs on a comparable basis with the costs incurred for comparable service on other state highway routes. The department may provide services for which it is reimbursed, including but not limited to

preliminary planning, environmental certification, and preliminary design of the demonstration projects.

(5) The plans and specifications for each project constructed under this section shall comply with the department's standards for state projects. A facility constructed by and leased to a private entity is deemed to be a part of the state highway system for purposes of identification, maintenance, and enforcement of traffic laws and for the purposes of applicable sections of this title. Upon reversion of the facility to the state, the project must meet all applicable state standards. Agreements shall address responsibility for reconstruction or renovations that are required in order for a facility to meet all applicable state standards upon reversion of the facility to the state.

(6) For the purpose of facilitating these projects and to assist the private entity in the financing, development, construction, and operation of the transportation systems and facilities, the agreements may include provisions for the department to exercise its authority, including the lease of facilities, rights of way, and airspace, exercise of the power of eminent domain, granting of development rights and opportunities, granting of necessary easements and rights of access, issuance of permits and other authorizations, protection from competition, remedies in the event of default of either of the parties, granting of contractual and real property rights, liability during construction and the term of the lease, authority to negotiate acquisition of rights of way in excess of appraised value, and any other provision deemed necessary by the secretary.

(7) The agreements entered into under this section may include provisions authorizing the state to grant necessary easements and lease to a private entity existing rights of way or rights of way subsequently acquired with public or private financing. The agreements may also include provisions to lease to the entity airspace above or below the right of way associated or to be associated with the private entity's transportation facility. In consideration for the reversion rights in these privately constructed facilities, the department may negotiate a charge for the lease of airspace rights during the term of the agreement for a period not to exceed fifty years. If, after the expiration of this period, the department continues to lease these airspace rights to the private entity, it shall do so only at fair market value. The agreement may also provide the private entity the right of first refusal to undertake projects utilizing airspace owned by the state in the vicinity of the public-private project.

(8) Agreements under this section may include any contractual provision that is necessary to protect the project revenues required to repay the costs incurred to study, plan, design, finance, acquire, build, install, operate, enforce laws, and maintain toll highways, bridges, and tunnels and which will not unreasonably inhibit or prohibit the development of additional public transportation systems and facilities. Agreements under this section must secure and maintain liability insurance coverage in amounts appropriate to protect the project's viability and may address state indemnification of the private entity for design and construction liability where the state has approved relevant design and construction plans.

(9) Agreements shall include a process that provides for public involvement in decision making with respect to the development of the projects.

(10)(a) In carrying out the public involvement process required in subsection (9) of this section, the private entity shall proactively seek public participation through a process appropriate to the characteristics of the project that assesses and demonstrates public support among: Users of the project, residents of communities in the vicinity of the project, and residents of communities impacted by the project.

(b) The private entity shall conduct a comprehensive public involvement process that provides, periodically throughout the development and implementation of the project, users and residents of communities in the affected project area an opportunity to comment upon key issues regarding the project including, but not limited to: (i) Alternative sizes and scopes; (ii) design; (iii) environmental assessment; (iv) right of way and access plans; (v) traffic impacts; (vi) tolling or user fee strategies and tolling or user fee ranges; (vii) project cost; (viii) construction impacts; (ix) facility operation; and (x) any other salient characteristics.

(c) If the affected project area has not been defined, the private entity shall define the affected project area by conducting, at a minimum: (i) A comparison of the estimated percentage of residents of communities in the vicinity of the project and in other communities impacted by the project who could be subject to tolls or user fees and the estimated percentage of other users and transient traffic that could be subject to tolls or user fees; (ii) an analysis of the anticipated traffic diversion patterns; (iii) an analysis of the potential economic impact resulting from proposed toll rates or user fee rates imposed on residents, commercial traffic and commercial entities in communities in the vicinity of and impacted by the project; (iv) an analysis of the economic impact of tolls or user fees on the price of goods and services generally; and (v) an analysis of the relationship of the project to state transportation needs and benefits.

The agreement may require an advisory vote by users of and residents in the affected project area.

(d) In seeking public participation, the private entity shall establish a local involvement committee or committees comprised of residents of the affected project area, individuals who represent cities and counties in the affected project area, organizations formed to support or oppose the project, if such organizations exist, and users of the project. The private entity shall, at a minimum, establish a committee as required under the specifications of RCW 47.46.030(5)(b) (ii) and (iii) and appointments to such committee shall be made no later than thirty days after the project area is defined.

(e) Local involvement committees shall act in an advisory capacity to the department and the private entity on all issues related to the development and implementation of the public involvement process established under this section.

(f) The department and the private entity shall provide the legislative transportation committee and local involvement committees with progress reports

on the status of the public involvement process including the results of an advisory vote, if any occurs.

(1) Nothing in this chapter limits the right of the secretary and his or her agents to render such advice and to make such recommendations as they deem to be in the best interests of the state and the public.

Sec. 4. RCW 47.46.050 and 1993 c 370 s 5 are each amended to read as follows:

(1) The department may enter into agreements using federal, state, and local financing in connection with the projects, including without limitation, grants, loans, and other measures authorized by section 1012 of ISTEA, and to do such things as necessary and desirable to maximize the funding and financing, including the formation of a revolving loan fund to implement this section.

(2) Agreements entered into under this section shall authorize the private entity to lease the facilities within a designated area or areas from the state and to impose user fees or tolls within the designated area to allow a reasonable rate of return on investment, as established through a negotiated agreement between the state and the private entity. The negotiated agreement shall determine a maximum rate of return on investment, based on project characteristics. If the negotiated rate of return on investment is not affected, the private entity may establish and modify toll rates and user fees.

(3) Agreements may establish "incentive" rates of return beyond the negotiated maximum rate of return on investment. The incentive rates of return shall be designed to provide financial benefits to the affected public jurisdictions and the private entity, given the attainment of various safety, performance, or transportation demand management goals. The incentive rates of return shall be negotiated in the agreement.

(4) Agreements shall require that over the term of the ownership or lease the user fees or toll revenues be applied only to payment of the private entity's capital outlay costs for the project, including project development costs, interest expense, the costs associated with design, construction, operations, toll collection, maintenance and administration of the ~~((facility))~~ project, reimbursement to the state for all costs associated with an election as required under RCW 47.46.030, the costs of project review and oversight, technical and law enforcement services, establishment of a fund to assure the adequacy of maintenance expenditures, and a reasonable return on investment to the private entity. ~~((The use of any excess toll revenues or user fees may be negotiated between the parties.~~

~~After expiration of the lease of a facility to a private entity, the secretary may continue to charge user fees or tolls for the use of the facility, with these revenues to be used for operations and maintenance of the facility, or to be paid to the local transportation planning agency, or any combination of such uses.))~~  
A negotiated agreement shall not extend the term of the ownership or lease beyond the period of time required for payment of the private entity's capital outlay costs for the project under this subsection.

NEW SECTION. Sec. 5. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately.

PROPOSED CONSTITUTIONAL AMENDMENTS, 1995 SSJR 8210

PROPOSED CONSTITUTIONAL AMENDMENT  
ADOPTED AT THE 1995 REGULAR SESSION  
FOR SUBMISSION TO THE VOTERS  
AT THE STATE GENERAL ELECTION, NOVEMBER 1995

SUBSTITUTE SENATE JOINT RESOLUTION 8210

BE IT RESOLVED, BY THE SENATE AND HOUSE OF REPRESENTATIVES OF THE STATE OF WASHINGTON, IN LEGISLATIVE SESSION ASSEMBLED:

THAT, At the next general election to be held in this state there shall be submitted to the qualified voters of the state for their approval and ratification, or rejection, an amendment to Article IV, section 3 of the Constitution of the state of Washington to read as follows:

Article IV, section 3. The judges of the supreme court shall be elected by the qualified electors of the state at large at the general state election at the times and places at which state officers are elected, unless some other time be provided by the legislature. The first election of judges of the supreme court shall be at the election which shall be held upon the adoption of this Constitution and the judges elected thereat shall be classified by lot, so that two shall hold their office for the term of three years, two for the term of five years, and one for the term of seven years. The lot shall be drawn by the judges who shall for that purpose assemble at the seat of government, and they shall cause the result thereof to be certified to the secretary of state, and filed in his office. ~~The ((judge having the shortest term to serve not holding his office by appointment or election to fill a vacancy, shall be))~~ supreme court shall select a chief justice from its own membership to serve for a four-year term at the pleasure of a majority of the court as prescribed by supreme court rule.
