JOURNAL OF THE SENATE

EXTRAORDINARY SESSION

OF THE

TWENTY-THIRD LEGISLATURE

FIRST DAY.

OLYMPIA, WASH., Monday, December 4, 1933.
SENATE CHAMBER,

Pursuant to proclamation of the Governor, the Senate of the State of Washington was called to order in extraordinary session at 11:00 o'clock, a. m., Monday, December 4th, 1933, by Lieutenant Governor Victor A. Meyers.

Reverend Samuel Everton, Minister of the Central Baptist Church of Olympia, offered prayer.

Senator Steele, Mayor of Olympia, welcomed the Senate to the City, and assured them the key presented to the Senators at the last session was still in their possession and hoped that they would not fail to use it whenever necessary.

The Acting Secretary read:

MESSAGES FROM THE SECRETARY OF STATE.

DEPARTMENT OF STATE,
OLYMPIA, WASH., December 4, 1933.

To the President of the Senate, Senate Chamber, Olympia, Washington.

I herewith transmit certified copies of certain vetoed sections of Senate Bills No's. 72, 219, 238 and 381, being Chapters 184, 115, 183 and 192 of the 1933 Session Laws of the State of Washington, together with a certified copy of the veto message attached to each bill.

Respectfully,
ERNEST N. HUTCHINSON, *Secretary of State.*

DEPARTMENT OF STATE,
OLYMPIA, WASH., December 4, 1933.

To the Honorable, the Senate of the State of Washington, Olympia, Washington.

I am transmitting herewith, as required by Section 12, Article III of the Constitution of the State of Washington, certain bills, listed below, that were passed by the Senate and the House in the Twenty-third session (the Regular 1933 session) of the Legislature, and vetoed by the Governor, together with the veto message attached to each bill.

They are Senate Bills No's. 10, 12, 32, Substitute Senate Bill No. 44, Senate Bills Nos. 159, 191, 205, 262 and 390.

Respectfully,
ERNEST N. HUTCHINSON, *Secretary of State.*

The Secretary read:

STATE OF WASHINGTON, EXECUTIVE DEPARTMENT,
OLYMPIA, WASH., March 16, 1933.

To the Honorable, the Senate of the State of Washington:
(*Through the Secretary of State.*)

I am filing herewith, to be transmitted to the Senate at the next session of the Legislature, without my approval Senate Bill No. 390, entitled: "An Act relating to actions in Justice Courts, providing for the issuance of criminal complaints and amending Chapter 172 of the Laws of 1854 (Section 1925 Remington's Compiled Statutes of Washington), and adding an additional section to be known as Section 1925-1."

This act was intended to correct the practice in some counties of filing in Justice Courts in remote corners of the county small criminal cases arising in a city or town of the county so that the arresting officer could more easily prosecute the case against

the accused, and so that the accused would have more difficulty in defending by reason of inconvenience to his witnesses in attending the trial.

The bill, however, is a redraft of Section 1925 of Remington's Compiled Statutes which is an important section giving Justices of the Peace power to issue warrants in small criminal cases. In the redraft such power is not preserved, but is left out. While I believe the omission to carry into this bill a restatement of that power was due to an oversight on the part of the draftsman of the bill, the omission would have serious consequences if the bill were approved, because I believe it would increase the work of the Superior Courts and the costs of criminal proceedings therein and would have a tendency to clutter up the Superior Courts with relatively unimportant cases which should be tried in Justice Courts.

For these reasons Senate Bill No. 390 is vetoed.

Respectfully submitted,

CLARENCE D. MARTIN, *Governor of Washington.*

On motion of Senator Don Cary Smith, the veto message of the Governor was ordered spread upon the journal and Senate Bill No. 390 was referred to the Committee on Judiciary.

The Secretary read:

STATE OF WASHINGTON, EXECUTIVE DEPARTMENT,
OLYMPIA, WASH., March 17, 1933.

To the Honorable, the Senate of the State of Washington:

(Through the Secretary of State.)

I am filing herewith, to be transmitted to the Senate at the next session of the Legislature, without my approval, Senate Bill No. 191, entitled: "An Act dedicating to the City of Seattle certain lands lying within Section 16, Township 25 North, Range 4 East, W. M., for street and/or boulevard purposes."

The land sought to be dedicated to the City of Seattle was given to the state for university purposes of the University of Washington. If this bill should be approved and the lands used for street or boulevard purposes, the use made of the land would be for swift moving vehicles, and the personal safety of students of the University would be menaced while passing across this proposed street from the campus, which lies westerly, and the athletic fields, including the stadium and gymnasium, which lies easterly of this proposed street.

This matter was taken up with the university by the City of Seattle last summer and consent by the university to this proposed dedication was refused at that time. By reason of the urgency of other business, the bill escaped the attention of the university authorities until after it had passed the Senate and House. The president and regents of the university are opposed to the bill.

For these reasons, Senate Bill No. 191 is vetoed.

Respectfully submitted,

CLARENCE D. MARTIN, *Governor.*

On motion of Senator Don Cary Smith, the veto message of the Governor was ordered spread upon the journal and Senate Bill No. 191 was referred to the Committee on State Grants, School and Tide Lands.

The Secretary read:

STATE OF WASHINGTON, EXECUTIVE DEPARTMENT,
OLYMPIA, WASH., March 18, 1933.

To the Honorable, the Senate of the State of Washington:

(Through the Secretary of State.)

I am filing herewith, to be transmitted to the Senate at the next session of the Legislature, without my approval, Senate Bill No. 262, entitled: "An Act providing for payment by the state to the counties for their proportion of state taxes in allowance for expense in civil actions involving the state, its departments, officers and employees, on a per diem basis."

This bill relates to legal actions to which the state is a party and provides that the state shall allow to the county where the trial is to be held \$75.00 per day for each day, or portion thereof, occupied by any such action.

The bill applies to all counties, but is intended chiefly for the relief of Thurston County, in which most actions involving the state are tried. Thurston County con-

tends this a burden upon it. It estimates that this bill would yield it approximately \$8,000 per annum. However, it would seem that if having the state capital entails some burden, it likewise carries with it considerable benefits.

The method provided in this bill for payment through credits against the amount of money due the state from the counties would lead to confusion. The charge would be a general fund item. The state at present makes no levy for such a purpose as this.

No appropriation has been made to cover the cost to be assumed and it is doubtful whether such cost could be legally paid except through the state treasurer and pursuant to a regular appropriation. The act, while providing for an expenditure of money by the state, attempts to avoid the appearance thereof by incepting the money before it reaches the state treasurer, and I think attempts to set up an unsound method of handling state finances. The state auditor concurs in this.

For these reasons Senate Bill No. 262 is vetoed.

Respectfully submitted,

CLARENCE D. MARTIN, *Governor.*

On motion of Senator Don Cary Smith, the veto message of the Governor was ordered spread upon the journal and Senate Bill No. 262 was referred to the Committee on Judiciary.

The Secretary read:

STATE OF WASHINGTON, EXECUTIVE DEPARTMENT,
OLYMPIA, WASH., March 18, 1933.

To the Honorable, the Senate of the State of Washington:
(Through the Secretary of State.)

I am filing herewith, to be transmitted to the Senate at the next session of the Legislature, without my approval, Senate Bill No. 205, entitled: "An Act relating to insurance and amending Section 1, Chapter 37, Laws 1915 (Section 7145, Remington's Compiled Statutes)."

This bill is exactly the same as the present law, except that it strikes out the following part of it: "Provided, That nothing in this act shall be considered as prohibiting duly licensed bona fide recording agents from exchanging with each other any of the lines of business enumerated in this section for which such agent is licensed, and paying or dividing commission on business so exchanged." It is a very general and common practice in insurance companies in all localities to permit an agent, licensed by the state as the representative of an insurance company authorized to transact business in the state, to place lines of insurance such as he is authorized to write with similar licensed agents or other companies.

The principal reason for it is that agents often have to place for their clients larger amounts of insurance than can be written in the company or companies of which they are the licensed representatives. By eliminating the proviso, the licensed agent will simply be deprived of transacting what is now an important part of his business, unless he can afford to pay the higher broker's license fee of \$100.00.

The amendment would unjustly deprive many agents, legitimately engaged in the insurance business and properly qualified, of an important part of their business or would place on them the expense of a heavy fee. Any merit or advantage in the proposed amendment will not offset the imposed hardship.

For these reasons, Senate Bill No. 205 is vetoed.

Respectfully submitted,

CLARENCE D. MARTIN, *Governor.*

On motion of Senator Don Cary Smith the veto message of the Governor was ordered spread upon the journal and Senate Bill No. 205 was referred to the Committee on Insurance.

The Secretary read:

STATE OF WASHINGTON, EXECUTIVE DEPARTMENT,
OLYMPIA, WASH., March 18, 1933.

To the Honorable, the Senate of the State of Washington:
(Through the Secretary of State.)

I am filing herewith, to be transmitted to the Senate at the next session of the Legislature, without my approval, Senate Bill No. 32, entitled: "An Act relating to

motor vehicles and trailers; requiring licenses and providing fees therefor; providing for and requiring the licensing of dealers of motor vehicles, fixing the fees therefor, and amending Section 15 of Chapter 96 of the Laws of 1921 (Section 6326 of Remington's Compiled Statutes); as amended by Section 1 of Chapter 140 of the Laws of 1931, and repealing Section 16, Chapter 96, Laws of 1921 as amended by Section 2, Chapter 181, Laws of 1923 as amended by Section 1, Chapter 80, Laws of 1929, and declaring when this act shall take effect."

The provisions of this bill substantially as stated are embodied in Senate Bill No. 63. To avoid conflict and duplication, Senate Bill No. 32 is vetoed.

Respectfully submitted,

CLARENCE D. MARTIN, *Governor.*

On motion of Senator Don Cary Smith, the veto message of the Governor was ordered spread upon the journal and Senate Bill No. 32 was referred to the Committee on Roads and Bridges.

The Secretary read:

STATE OF WASHINGTON, EXECUTIVE DEPARTMENT,
OLYMPIA, WASH., March 18, 1933.

*To the Honorable, the Senate of the State of Washington:
(Through the Secretary of State.)*

I am filing herewith, to be submitted to the Senate at the next session of the Legislature, without my approval, Senate Bill No. 12, entitled: "An Act to provide an institution for the confinement, cure, care and rehabilitation of drug addicts, and providing for the government, maintenance and control thereof, and providing for the admission and commitment of drug addicts thereto, and providing penalties for unlawfully conniving to have persons adjudged drug addicts, and providing penalties for procuring the escape or aiding or abetting the escape of inmates thereof and/or the harboring and concealing of escaped inmates thereof."

Without exception, we all sympathize with the unfortunate condition of the drug addict, and while it may be expedient and advisable some time in the future to establish and maintain an institution where members of society thus unfortunately afflicted may be cared for, I am not persuaded that it is wise at this time to add additional burdens of taxes, which must result from the approval of this act.

For these reasons, Senate Bill No. 12 is vetoed.

Respectfully submitted,

CLARENCE D. MARTIN, *Governor.*

On motion of Senator Don Cary Smith, the veto message of the Governor was ordered spread upon the journal and Senate Bill No. 12 was referred to the Committee on State Penal and Reformatory Institutions.

The Secretary read:

STATE OF WASHINGTON, EXECUTIVE DEPARTMENT,
OLYMPIA, WASH., March 20, 1933.

*To the Honorable, the Senate of the State of Washington:
(Through the Secretary of State.)*

I am filing herewith, to be transmitted to the Senate at the next session of the Legislature, without my approval, Senate Bill No. 159, entitled: "An Act relating to the colony of the State Soldiers' Home at Orting and providing for the admission of Annie McPhail Broadwood to membership therein."

This act provided that Annie McPhail Broadwood shall be admitted to membership in the colony of the State Soldiers' Home at Orting when her son, a disabled Spanish-American War veteran, shall be admitted.

Under the regulations governing the colony of the State Soldiers' Home, the son is permitted to have his mother accompany him whenever he takes membership in the colony. Therefore, this act is unnecessary.

For this reason, Senate Bill No. 159 is vetoed.

Respectfully submitted,

CLARENCE D. MARTIN, *Governor.*

On motion of Senator Don Cary Smith, the veto message of the Governor was ordered spread upon the journal and Senate Bill No. 159 was referred to the Committee on State Charitable Institutions.

The Secretary read:

STATE OF WASHINGTON, EXECUTIVE DEPARTMENT,
OLYMPIA, WASH., March 21, 1933.

To the Honorable, the Senate of the State of Washington:
(Through the Secretary of State.)

I am filing herewith, to be transmitted to the Senate at the next session of the Legislature, without my approval, Senate Bill No. 10, entitled: "An Act requiring licenses for the operation, maintenance, opening or establishment of stores in this state, prescribing the license and filing fees to be paid therefor, and the powers and duties of the state director of licenses in connection therewith, prescribing penalties for the violation thereof; making an appropriation and declaring that this act shall take effect June 1, 1933."

Since all the stores covered by this bill are licensed, and taxed at a much heavier rate, under the provisions of House Bill No. 92, which I have signed, I see no occasion for the enactment of the bill. If this bill becomes law, all the stores, whether single or chain, would be subjected to an additional burden which I do not think it just to impose.

I am, therefore, vetoing Senate Bill No. 10.

Respectfully submitted,
CLARENCE D. MARTIN, *Governor.*

On motion of Senator Don Cary Smith, the veto message of the Governor was ordered spread upon the journal and Senate Bill No. 10 was referred to the Committee on Judiciary.

The Secretary read:

STATE OF WASHINGTON, EXECUTIVE DEPARTMENT,
OLYMPIA, WASH., March 20, 1933.

To the Honorable, the Senate of the State of Washington:
(Through the Secretary of State.)

I am filing herewith, to be transmitted to the Senate at the next session of the Legislature, without my approval, Substitute Senate Bill No. 44, entitled: "An Act relating to and regulating the practices of hairdressing and beauty culture and the conducting of schools for the teaching of such practices, providing for the licensing of persons to practice hairdressing and beauty culture, and to conduct schools for the teaching thereof, creating a State Board of Hairdressers and Beauty Culturists, providing penalties, amending Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18 and 19 of Chapter 281 of the Laws of 1927, and declaring an emergency."

This bill amends Chapter 281, Laws of 1927, so as to create a new state board of hairdressers and beauty culturists, setting up a new scheme of regulating and licensing of the business of hairdressing and beauty culture, and declaring an emergency.

Heretofore this business has been under the direction and control of the department of licenses, but this bill takes it out of the control of that department and puts it under the control of a new state board, and classifies the business and the persons connected with it and defines certain terms.

The bill places far-reaching restrictions upon the right to engage in the business and the qualifications of persons desiring to enter the same. One of the most important restrictions is that no person shall be licensed as a manager unless he has had an operator's license in this state for at least three years, and no person can conduct a beauty shop unless he or she be a manager, or has the shop conducted by a manager. Obviously, under those provisions, hundreds of beauty shop proprietors and young women in this state would be thrown out of work who may now be earning at least a part of their livelihood. In these times of stress and suffering from unemployment, the unquestioned policy of this state should be against limiting the opportunity of our people to enjoy gainful employment, and we should avoid all unnecessary barriers to free and unrestricted employment commensurate with the health and safety

of the people. Existing law reasonably safeguards the public in its relationship to the business of hairdressing and beauty culture.

For these reasons, Substitute Senate Bill No. 44 is vetoed.

Respectfully submitted,

CLARENCE D. MARTIN, *Governor*.

On motion of Senator Don Cary Smith, the veto message of the Governor was ordered spread upon the journal and Substitute Senate Bill No. 44 was ordered referred to the Committee on Revenue and Taxation.

THE PRESIDENT: "Members of the Legislature: At this time we have the pleasure of hearing a message from his Excellency Clarence D. Martin, Governor of the State of Washington. Governor Martin."

THE GOVERNOR: "Mr. President, Mr. Speaker, and to the Honorable, The Members of the Legislature and my fellow citizens of Washington:

"It was with the utmost reluctance that I deemed it necessary and advisable to call a special session of the Legislature. Not only was I mindful of the expense to the taxpayers, who certainly are neither in position nor mood to carry needless increases in the cost of government, but also was I restrained by the realization that a session at this time of the year, coming on top of the problems of winter and

the holidays, would mean economic and domestic inconvenience to many members of your Honorable Bodies.

"Yet, while reluctant to call you from your homes and your everyday work, I found myself convinced that the State of Washington, because of the repeal of the Eighteenth Amendment and the lack of a uniform and popular system of liquor control, was confronted by a social, moral and economic problem that required your prompt and thoughtful consideration.

"Once so convinced, it was my responsibility and duty to proclaim an extraordinary session of the Legislature, which was done with the confidence that you would understand, be considerate of each other's personal difficulties and sacrifices, and share my concern for the best possible solution of the liquor problem. Moreover, I was satisfied that your constituents, mindful of the fact that sacrifice is the test of service, would not be unappreciative of your special contribution for the betterment of the Commonwealth.

"So, now that you are here, I just want you to know that I will do everything possible to minimize your personal inconvenience. I also can assure you that the elective officers and code directors, in fact all of us who make up the administrative branch of the government, will cooperate to make pleasant your stay in the Capitol and Olympia. You may expect helpful cooperation at every turn.

"Before discussing the question of liquor control, the purpose for which this session is convened, I want to comply with my constitutional duty and personal desire to report on the condition of the affairs of the state. It is gratifying and reassuring to note that, notwithstanding uncertainties and difficulties throughout the country, this year has found Washington going forward, not backward. Economic recovery is not as pronounced and widespread as we might hope, but business and employment have made measurable gains, and we have no reason to doubt further improvement. My belief is that Washington's economic progress will gain momentum during the coming year.

SOCIAL PROGRESS.

"Then, too, we may show pardonable pride in the social and spiritual progress of Washington. The last ten months have revealed deep humane and neighborly qualities among our people. There is a widespread and uncomplaining disposition among our people to bear one another's burden, to share employment, to help the elderly dependents, to maintain education for children, to relieve the hungry, neglected and distressed. Because of the rise of this sentiment, to subordinate the philosophy of every man for himself, the malcontents and agitators are unheard and unfollowed, and Washington stands relieved from the threats of insurrection and other disturbing discontent that were so evident during and immediately after the last session of this Legislature. Consequently, we may today be grateful for the spirit and courage that enable our people to keep the faith and carry on toward the higher economic, social and spiritual goal of Washington.

CREDIT TO LEGISLATURE.

"Much of the credit for this turn in the spirit and purpose of the people of Washington must be given to this Legislature. While it is true that certain materialistic and reactionary forces are disposed to scoff and belittle the liberalism and thoughtfulness of the 1933 Legislature, the record speaks for itself. I am ready to stand on it. I challenge reactionarism to cite any previous legislature, administration or period that has contributed one-half so much for the social and wholesome betterment of the people and the Commonwealth.

"Furthermore, this Legislature, by the enactment of the emergency relief and relief bond measures, gave a demonstration of self-help and cooperation that encouraged the Federal Government to give, loan and pledge more than one hundred millions of dollars for direct relief, work relief and power development in the State of Washington. Naturally we must be grateful for the helping hand of the Federal Government.

HUNGRY ARE FED.

"Let us remember another thing: Since this administration and this Legislature took office, no man, woman or child has been required to go hungry. Every family or person eligible for unemployment relief has been furnished the necessities of life.

EMERGENCY RELIEF.

"Operations under the Emergency Relief Commission, the first major enactment by this Legislature, have reached larger proportions than many thought would be necessary or possible. So far, since this agency was created last January, more than \$10,000,000 have been spent or obligated for the relief of the unemployed and hungry. Of this total, more than \$9,000,000 was contributed by the Federal Government, while local public and private sources supplied a little more than \$1,000,000. The peak of the relief burden was reached in June when 65,000 families and 44,000 single persons were on the relief rolls, and I am pleased to report that the relief rolls reduced steadily until October when 32,000 families and 17,000 single persons required direct help. In addition, the emergency relief administration, with the help of the County Welfare boards, has provided relief service for transients, distributed surplus commodities, taken charge of the civil works program; and, with the cooperation of the state forestry offices, has worked on the selection and enrollment of nearly 10,000 men for the citizens' conservation camps.

"These operations have been handled with a total administrative cost of \$30,000, up to November, for which the Legislature appropriated \$20,000, the balance being supplied from Federal grants. The state emergency relief administration has an average monthly payroll of 1095 employes, nearly all of whom are drawn from the ranks of the unemployed.

"While there have been some doubts and criticisms of the state emergency relief administration, still it should be remembered that the Federal relief administration, which provides more than 90 per cent of the money, imposes conditions and restrictions that must and should be respected. Seemingly, too, the Federal Government has no serious complaints, because it is significant that, while other states have been called to task and denied, pending compliance with certain conditions, the Governor of Washington obtained emergency grants of \$500,000 and \$750,000 merely by making telegraphic requests.

REPORT ON BOND ISSUE.

"Prudent and beneficial allocations have been made under the \$10,000,000 bond issue. So far nearly \$6,500,000 has been allotted or earmarked, leaving around \$3,500,000, which, you may be sure, will be conserved for only emergency purposes. One allocation of \$750,000 has provided work relief in each of the 39 counties. Then, an allocation of nearly \$2,000,000 was matched with county and Federal money to create a work relief program of \$5,000,000, reaching into every section of the state. Practically \$2,000,000 was provided for necessary buildings, replacements and improvements for state institutions, including substantial sums for the University of Washington and Washington State College, which have been supplemented, either by definite allotments or pledges, by nearly \$750,000 from the Federal Government. More than \$1,000,000 has been allocated to the Department of Highways for construction and betterments on the state highway system, and, it might be well to note, many of the county allotments were for road purposes, too. Work projects made possible by funds from the bond issue have provided employment for more than 4,500, and, it is safe to say, this total will be doubled, if not tripled, when all of the authorized projects are placed under progress.

"It might be well, before passing to other subjects, to reflect for a moment on the fact that the enactment of the Emergency Relief Commission and the passage of the bond issue made Washington stand out as one of the most foresighted and progressive of states. Many other legislatures meeting last January failed to make such provisions, resulting in numerous special sessions throughout the United States, most of which were called hurriedly on demands from the Federal Government. It seems that the people should recognize and commend this wisdom and spirit on the part of this Legislature.

EXCELLENT SCHOOL RECORD.

"It now is my privilege to recite a record that is dear to my heart, a record that will gladden the hearts of the members of your Honorable Bodies and arouse the enthusiasm of our people. Washington's common school system has come through the economic depression to stand out as the foremost school system in the United States—due to the enactment by this Legislature of the equalization program and the emergency business tax, which was necessary to replace some of the revenues

lost by the adoption of the 40-mill limit tax, and to the prudent administration and direction by the Department of Public Instruction.

"In my special message to the regular meeting of this Legislature, when I pleaded for legislation and an emergency tax to save the common schools and cherished 'barefoot schoolboy' principle, I made this request and expression of confidence: 'Now I do not believe public education and those engaged in public education should be immune from the policy of economic revision and retrenchment, and I feel that education should show good faith by voluntarily making revisions and concessions to the needs of the times. I am confident that those engaged in education will go the limit toward economy.'

"Today, I am happy to say that those in charge of public education have played the game. Five years ago the annual school budget totaled more than \$29,000,000. This year the school budget is less than \$20,000,000. Moreover, this has been accomplished without impairing the efficiency of childhood and youth, and stands as a tribute to equalization, better management and splendid sacrifice on the part of teachers.

WASHINGTON SCHOOLS KEPT OPEN.

"Perhaps Washington's position in public education may be illustrated best by comparison with the record of the rest of the United States, which I detail without an unseemingly sense of superiority, but with a measure of pardonable pride:

"More than 2,250,000 children of school age in the United States are being denied schooling, but not one of these unfortunate children resides in Washington.

"Nearly 2,000 rural schools remain unopened, but not one of these closed schools is in the State of Washington.

"Several hundred city schools are operating on shortened terms and more than 700 rural schools will have to close before Christmas, but none of these impaired schools is in the State of Washington.

"Sixteen schools of higher learning have been discontinued during the year, but fortunately none in Washington.

"More than 250 school districts have defaulted debts totaling \$40,000,000, but no school debts have been repudiated in Washington.

"My fellow citizens, I am proud to say no Washington school is closed, no child of Washington is being denied the privilege of public education. There is a record no other state can excel, a record that only two or three states can even claim to equal. Now I do not mention this for the purpose of new legislation, but rather to stimulate our pride so we may be inspired to stand guard to see that no materialistic or reactionary force can intrude to mar this enviable record.

TEACHERS' SALARIES TOO LOW.

"I regret, however, that Washington lags in one phase of public education. It is found that one out of every four teachers in the United States now employed is being paid less than \$750 a year, which also is true in this state. In fact, we have nearly 1,000 teachers working for \$50 a month or less. While I do not want to be regarded as an advocate of excessive salaries, especially in times like these, still I believe it is imprudent to reduce teachers' salaries to such low levels. My belief is that the success of the public schools depends a lot on the spirit and enthusiasm of the teachers, which can hardly be maintained by salaries that are not sufficient to relieve the worries of living. Of course this is not a legislative problem, but I mention it with the hope that, as good citizens, you will show some concern for underpaid teachers when you return to your homes.

PUBLIC SERVICE DEPARTMENT FUNCTIONS FOR PEOPLE.

"You will remember that in my inaugural message I proposed a change in the policy of the Department of Public Works, urging that the department stop waiting for consumers to complain, but rather move on its own initiative to protect the people by requiring proper revision of utility rates. Your Honorable Bodies co-operated by providing necessary legislation. Now, then, I am pleased to report that the department has been vitalized and is functioning in strict accordance with our orders—revising rates, regulating valuations, preventing inflation of capitalizations, and otherwise seeing that the people are not required to pay tribute for utility services.

"Immediately after adjournment of the regular session, the department opened its drive for just and fair utility rates. So far 49 cases have been filed, of which 48 were filed on the initiative of the department. This includes investigations of five major power companies and two major telephone companies, which are under progress, and a completed investigation for revision of street lighting rates in 150 communities throughout the state. Hearings on these cases will be started in the course of a few weeks.

BIG SAVINGS FOR CONSUMERS.

"So far, the department has issued 12 orders, requiring rate reductions of from 5 to 40 per cent, saving around \$400,000 a year for the consumers. In addition, orders are being prepared in 14 other cases. Then, in the interstate field, the department opposed increases in rail rates, opposed surcharges on a number of commodities, and managed by these proceedings to save more than \$400,000 annually for the shippers of Washington. Moreover, by virtue of the occupational taxes upon public utilities, the utilities have been required to absorb more than \$2,225,000 annually in state and federal taxes.

"Likewise, the department is functioning vigorously in the transportation field under the so-called truck law passed by your Honorable Bodies. With the cooperation of the state patrol, the department has handled applications involving 10,000 trucks, has made more than 1,300 investigations, conducted nearly 300 hearings. This work is being conducted with tact and a constant regard for the intent of the Legislature.

HIGHWAY PROGRESS.

"It is gratifying to report remarkable progress by the Department of Highways. In the first six months of 1932, administration costs of the Olympia offices totaled \$114,000, which was cut to \$48,000 for the first six months of 1933. Yet, notwithstanding this sharp curtailment of operating costs, the department has more than \$5,000,000 worth of work under contract, providing employment for more than 8,000 men, which total will be greatly increased under contracts now in the making. While highway appropriations were drastically reduced by this Legislature, the department is doing more work than ever before, chiefly because of competent and tireless management being ready to take advantage of every opportunity for federal funds. First, the department promptly qualified to handle \$6,000,000 under the federal public works program, then was prepared to handle \$1,400,000 under the federal civil works program and more than \$1,000,000 provided from the state bond issue. In other words, the Department of Highways, despite drastic reductions in overhead, now is handling \$8,400,000 more than provided or contemplated by the Legislature.

INDUSTRIAL INSURANCE GAINS.

"You will be pleased to learn that the Department of Labor and Industries is emerging from a three-year period of deficiency. The last six months have shown a net gain of \$281,000, the first sustained gain in three years. This is due to energetic management and some increase in the industrial payrolls. It is significant, for instance, that 1,945 firm accounts, previously not required to make returns, now are contributing their just dues to the industrial insurance funds.

CAPITAL IMPROVEMENTS.

"The Legislature was advised of serious need of capital improvements at the three State hospitals and the penitentiary, but, because of the need for rigid economy, was able to provide only around \$500,000 for the most imperative needs. This was a fortunate appropriation inasmuch as it permitted us later on to take advantage of the matching provisions of the State and Federal relief administrations. Under this arrangement we are carrying out a building program at these four institutions that will total more than \$1,800,000. This building program provided the first work relief for both the skilled and unskilled unemployed. Not only did it provide timely work for hundreds of our worthy citizens, but it also effected large savings for the taxpayers. Completion of this program will place these four major institutions on a par with the best in the United States.

RECLAMATION IS HELPED.

"Good progress has been made toward the refinancing and reconstruction of distressed irrigation, diking and drainage districts. You will recall the regular session made \$1,250,000 available for this purpose, money that was lying idle in the reclamation revolving fund, and you are advised that \$943,000 has been utilized during recent months. So far more than \$235,000 has been loaned for the reconstruction of 20 irrigation, diking and drainage districts, and more than \$685,000 has been provided for refinancing seven irrigation districts. This help has been extended to districts on both sides of the mountains and undoubtedly is proving beneficial to thousands of our farmers.

GRAND COULEE PROJECT ASSURED.

"You will be interested to know that the Columbia Basin Commission, which was created during the regular session, has performed a noteworthy service and practically completed its work. First, because of the direct interest of President Roosevelt, the Grand Coulee power dam project was given a federal allotment of \$63,000,000, and work on the project is under way. Then, the commission succeeded in having the Federal Government adopt the project. In other words, the state no longer has any financial responsibility or obligation so far as the Grand Coulee project is concerned. Its development, however, should be extremely beneficial, not only to the people of Washington, but also to the whole of the Pacific Northwest.

STATE BANKS MADE SAFE.

"Your prompt cooperation by enacting emergency banking legislation was decidedly helpful, and banks under state supervision have undergone a marked change for the better. The stabilization act has been of great assistance toward reorganization of banks. Of the 55 banks stabilized, the department has permitted the reopening of 33 on an unrestricted basis as sound institutions, and probably 18 others will be permitted to reopen as sound banks before the end of the year. Liquidation of closed banks is proceeding in an orderly manner. So I am pleased to report that no state bank licensed after the bank holiday proclamation has been required to suspend, that the state banking situation is improving steadily and that the people and business now may have the utmost confidence in our banking institutions.

HIGHER EDUCATIONAL PROBLEM.

"I now direct your attention to a problem looming before some of our institutions of higher learning, which may prove to be unavoidable during this biennium. Let it be said to the credit of these institutions that they are keeping within their budgets, notwithstanding the fact that appropriations for the educational institutions were reduced \$2,500,000 below the appropriations for the last biennium. Their problem is not that of keeping within their appropriations, but rather that of the uncertainty of tax payments, which are running below expectations. The situation is aggravated by the provision that prohibits even a temporary deficiency, limiting them to the expenditure of money on hand. If tax payments should increase, the threat would be minimized or eliminated, but there is no assurance of an immediate gain in tax payments. I mention this because I think it is something we should have in mind.

GENERAL FUND PROSPECT.

"Likewise, in spite of a showing of substantial economy, there is a possibility of a deficiency in the general fund. Notwithstanding drastic reductions in appropriations from this fund by the Legislature, totaling nearly \$2,000,000 on comparable items in the departmental appropriations, most of the departments are spending even less than appropriated. Yet we face the possibility of a deficiency at the close of the biennium that may reach \$1,500,000. There are two notable reasons for the prospective deficiency. First, the failure in 1932 to make the customary and required tax levy for 1933; and, second, a decrease in tax payments that is greater than anticipated. This situation is mentioned because I feel the Legislature should be fully informed on all administrative matters.

LIQUOR CONTROL.

"My belief is that we should be frank and resolute in our consideration of the liquor problem. Members of your Honorable Bodies will be under pressure from many sources. Some will suggest that enactment of liquor control be deferred. Others will propose that any plan, if enacted, should be suspended and referred to the people. Still others will point out opportunities for excessive profits or taxes. Some will come to the front with suggestions for the return of the old-fashioned saloon.

"But I urge you to regard such proposals with suspicion. For the most part, they will be specious propositions to cause confusion and delay, intended to defeat proper liquor control and to put the Legislature and the Administration in popular contempt. Let us disregard such counsels.

"It seems to me we must recognize and accept our responsibility. The people are looking to this Legislature to work out a reasonable solution of the liquor problem, and it is evident, too, that they are expecting some form of state control. To do less, will be to disappoint the people and to write a record of failure. Let us not fail.

"You will be helped in your deliberations by the report of the State Advisory Liquor Control Commission, which commission was formed by the Governor to study the most practical and successful systems and to suggest a plan that might be acceptable in principle. Members of the commission served without pay, worked diligently, submerged personal prejudices and turned out a report that deserves consideration. You will understand that the liquor control bill in the report is not submitted as the final word, but is submitted to provide a working basis for the Legislature. I am sure you will understand and appreciate the spirit and purpose of the report.

PRINCIPLES OF LIQUOR CONTROL.

"Regardless of differences of opinions on details there are several fundamental principles of control that should be established. Therefore, I recommend the following principles and suggestions for your consideration:

"1. State monopoly or state control of hard liquor, which is necessary to eliminate private profit.

"2. Exclusive state licensing of beer and wine.

"3. Make cost to consumer as low as possible and practicable, which is necessary to make bootlegging unprofitable.

"4. Distribute revenues among the state, counties and municipalities.

"5. Remove control so far from politics as possible. The management and responsibility must be separate, visible and absolute, not confused with other duties and responsibilities, so the people may know whom to hold accountable.

"Finally, whatever plan is adopted must be designed and intended for strict enforcement. We must have a system within the public approval, because no system can succeed if it does not command the public respect. I am convinced that unless we provide sane, strict state control, the people will not be drinking any legal liquor in a few years—that a makeshift, loose, unenforceable system will cause the people to again vote out liquor. The state control plan must have the respect and support of reasonable wets and reasonable dries.

CONCLUSION.

"You know, of course, that there was considerable pressure against the calling of a special session of this Legislature, and invariably those who protested sought to arouse distrust and fear by propounding two questions: 'Can you limit the session?' and 'Can you control the Legislature?'

"Both of these questions were disregarded, not only because it is not the Governor's responsibility to limit or control, but also because such questions naturally constitute a reflection on the intelligence, integrity and loyalty of the Legislature. I have faith in the spirit and purposes of this Legislature.

"It is true that the people generally are hoping for a business-like session, and I believe this sentiment is shared by a large proportion of the members of your Honorable Bodies. It should be remembered, however, that you are a deliberative body and that the people expect you to be consistent with sound policy and the immediate necessity of the common welfare. I am confident that good judgment will prevail.

"So far as control is concerned, it is entirely up to your membership. I have no desire to dictate or dominate. My conception of the purpose and safety of our system of government is that the Governor must confine himself to executive matters and that the Legislature must be the master of its own houses. You are not accountable to the Governor. You are accountable only to your constituents and your conscience. So I do not presume to be responsible for your deliberations and decisions. No member has been asked to sign a pledge. No member has been required to make any commitment. On the contrary, I have sought to relieve some members who might fancy themselves to be under obligation to the Governor. The exact situation is that no member is obligated to me and I am obligated to no member.

"This does not mean, however, that we cannot counsel together and work together. I invite cooperation. I trust the members of your Honorable Bodies will feel free to drop into the Executive office at any time, and I should be pleased to be permitted to visit either of your chambers whenever I have a moment for fellowship. My belief is that if we work together and expedite matters we will complete a session that will mean much for the good of the Commonwealth, set a worthy example for subsequent legislatures and earn the respect of the people.

"I thank you so much."

SECTION 1. A statewide emergency productive of widespread unemployment and disorganization of industry, which burdens commerce, affects the public welfare and undermines the standards of living of the people of the State of Washington hereby is declared to exist, and it hereby is recognized that such an emergency exists throughout the nation. It hereby is declared to be the policy of this state to provide for the general welfare by cooperating with and assisting the national government in promoting the organization of industry for the purpose of cooperative action among trade groups, to induce and maintain united action of labor and management under adequate governmental sanction and supervision, to eliminate unfair competitive practices, to promote the fullest possible utilization of the present productive capacity of industry, to avoid undue restriction of production except as may be temporarily required, to increase the consumption of industrial and agricultural products, increasing purchasing power, to reduce and relieve unemployment, to improve standards of labor, and otherwise to rehabilitate industry and conserve natural resources, and otherwise as announced in the Act of Congress, entitled: "An Act to encourage national industrial recovery, to foster fair competition, and to provide for the construction of certain useful public works, and for other purposes" approved June 16, 1933, and known as the "National Industrial Recovery Act."

SEC. 2. To effectuate the policy of this act, the Governor hereby is authorized to consent that the President of the United States may utilize state and local officers and employees of the State of Washington and of its subdivisions in effectuating the policies of the National Industrial Recovery Act, in accordance with the provisions of Section 2 (a) of said act.

SEC. 3. (a) No person, firm, corporation or association, shall refrain from complying with the provisions of any code of fair competition, agreement or license, approved, prescribed, or issued under the terms of the National Industrial Recovery Act on the ground that he or it is not engaged in transactions in, or affecting "interstate or foreign commerce" as defined in paragraph (d) of Section 7 of Title I of the National Industrial Recovery Act.

(b) The terms and conditions of any code of fair competition, agreement or license approved, prescribed or issued under the terms of the National Industrial Recovery Act for any trade or industry thereof, shall be considered as the standards of fair competition for such trade or industry or subdivision thereof in all of its transactions within the State of Washington. The violation of such standards by any person engaged in such trade or industry or subdivision within the State of Washington shall be deemed the use of unfair methods of competition,

Provided, however, That nothing in this act contained shall be held to affect or supersede any contract or agreement as to any standard or standards of conditions of employment agreed upon or established by means of collective bargaining between employers and employees, or by and between or with organizations of employers or of employees, where any such standard of condition of employment is higher or more advantageous to employees under such collective agreement than the corresponding standard provided under a fair code of competition established under the National Industrial Recovery Act, and where such standard otherwise will promote and effectuate the policy of said act, or to prevent employers and employees from making any such contracts or agreements which do not violate the terms of such code.

SEC. 4. (a) When a code of fair competition has been approved or prescribed by the President under the National Industrial Recovery Act, any violation of any provi-

sion thereof in any transaction within this state not in or affecting "interstate or foreign commerce" within the definition thereof as aforesaid, shall be a misdemeanor and, upon conviction thereof, an offender shall be fined not more than five hundred dollars (\$500) for each offense, and each day such violation continues shall be deemed a separate offense.

Such action may be filed and prosecuted by the Attorney General of the State of Washington or by the Prosecuting Attorney of the county in which such violation may occur, in the name of the people of the State of Washington.

Provided, however, That nothing in this act shall be construed by any public official or court as denying or declaring illegal the right of workers to organize and bargain collectively through representatives of their own choosing without interference, restraint or coercion of employers of labor or their agents, in the designation of such representatives, or in self organization or in other concerted activities for the purpose of collective bargaining or other mutual aid or protection; that no employe and no one seeking employment shall be required as a condition of employment to join any company union or to refrain from joining, organizing or assisting a labor organization of his own choosing; that no provisions of this act shall be construed to repeal or in any way modify the terms of the public works labor provisions now in effect in the State of Washington or heretofore approved or of any other law for the protection of works in the state. The provisions of this act shall instead be construed to supplement such laws.

SEC. 5. While this act is in effect, or in the case of a license while paragraph (a) of Section 4 of Title I of the National Industrial Recovery Act is in effect, and for sixty days thereafter, any code of fair competition, agreement or license approved, prescribed or issued under the terms of the National Industrial Recovery Act, and any action complying with the provisions thereof, including the acts of any person or persons interested in any trade or industry or subdivision thereof in meeting, conferring or agreeing upon any code of fair competition taken during such period, shall be exempt from the provisions of any law of the State of Washington in conflict with this act, or any court order or decree issued thereunder, whether or not such trade or industry or subdivision thereof is engaged in transactions in or affecting "interstate or foreign commerce" as heretofore defined.

SEC. 6. In furtherance of the purposes and policies of this act and of the National Industrial Recovery Act, any department of this state and the governing body of any subdivision, municipal corporation or district, and any public officer or person charged with letting contracts for (1) the construction, alteration or repair of public works, or (2) the purchasing of materials or supplies for public use, or (3) the utilization of transportation or services, other than personal services, for public use, shall let such contracts only to those persons, natural or artificial, who agree in and by the terms of such contracts to use or supply only articles, materials and supplies mined, produced, manufactured or supplied, or such services furnished, by a person who is a party to or subject to a code of fair competition, agreement or license, approved, prescribed or issued under the terms of the National Industrial Recovery Act for the trade or industry or subdivision thereof mining, producing, manufacturing or supplying such articles, materials or supplies, or furnishing such services. Any practices in violation of such contracts shall be deemed the use of unfair methods of competition within the meaning of this act.

SEC. 7. This act shall remain in full force and effect until June 16, 1935, unless terminated sooner, as provided in paragraph (c) of Section 2 of Title I of the National Industrial Recovery Act, if the President shall by proclamation or Congress shall by joint resolution declare that the national emergency recognized by this act, and the National Industrial Recovery Act has ended.

SEC. 8. If any provision of this act or the application thereof to any person or circumstance is held invalid, the remainder of this act, and the application of such

provisions to other persons or circumstances, shall remain in full force and effect and shall not be affected thereby.

SEC. 9. This act may be known and cited as the Washington State Industrial Recovery Act.

MESSAGE FROM THE GOVERNOR.

STATE OF WASHINGTON, EXECUTIVE DEPARTMENT,
OLYMPIA, WASH., January 4, 1934.

To the Honorable, the Senate of the State of Washington:

I am returning herewith without my approval as to Sections 2 and 3, but with my approval as to all of the other sections, Senate Bill No. 72, entitled:

"An Act relating to the Department of Conservation and Development of the State of Washington and to the state reclamation revolving fund which is administered by said department; enlarging the powers and duties of the director of said department in regard to said fund, and amending Section 5 of Chapter 158 of the Laws of 1919 as amended by Chapter 132 of the Laws of 1923 (same being Section 3008 of Remington's Compiled Statutes of Washington); providing for the disposition of monies received by the State of Washington from certain fees; providing that same be paid into the State Reclamation Revolving Fund; and amending Section 3 of Chapter 105,

Laws of 1929; exempting the Columbia Basin Commission or its assignee, the United States Bureau of Reclamation, from payment of fees in connection with the appropriation and use of waters of the Columbia river for development of the Grand Coulee project, and amending Section 44, Chapter 117, Laws of 1917, as amended, being Section 7399 of Remington's Compiled Statutes; making an appropriation from the State Reclamation Revolving Fund for the financing of irrigation and diking and/or drainage improvement districts, as set forth in and provided by Chapter 16 of the Session Laws of 1933, regular session, and providing that this act shall take effect immediately."

This act is necessary to conform to the policy of the Reconstruction Finance Corporation and United States government in relation to the sale or pledge of our Reclamation District Bonds. With the main purposes of the bill I am in full accord.

However, Sections 2 and 3 of this bill involve a diversion of revenues from the General Fund to the "State Reclamation Revolving Fund." The estimated receipts involved in these two sections, for this biennium, would approximate \$100,000.00. The 1933 Legislature appropriated some \$162,936.00 from the General Fund to supply salaries, wages, operations, etc., for the Department of Conservation and Development.

In view of this appropriation, I deem it inadvisable to divert the revenues which under the present law would go to the General Fund. It would result in a further and unwarranted depletion of our General Fund. This fund must be sustained to protect the appropriations already made for the the current biennium.

When the 1935 Legislature considers the appropriation for the Department of Conservation and Development, without doubt they will be willing to consider making the appropriations for this department from the "State Reclamation Revolving Fund," and in turn consider a bill that will divert to the Reclamation Fund the receipts of this department.

Accordingly, I am vetoing Sections 2 and 3 of said Senate Bill No. 72. The remaining sections of the bill are hereby approved.

Respectfully submitted,

CLARENCE D. MARTIN, *Governor.*

Senator Houser moved that the veto message of the Governor be spread at large upon the journal and that Senate Bill No. 72 be rereferred to the Committee on Reclamation and Irrigation.

The motion carried.

At this time Senator Houser arose on a point of personal privilege and requested that the following protest be entered upon the record:

MR. PRESIDENT:

In conformity to the provisions of Rule No. 51 of the Senate, I desire to enter herewith my protest against the action of the Senate in the passage of Senate Bill No. 7, and request that this protest be entered in the journal.

The passage of this act is the most flagrant violation of the will of the people ever carried into effect by any legislature in the history of the Commonwealth. The people of the State of Washington twice expressed their disapproval of prohibition and the attendant effects which followed in their wake, both times by overwhelming majorities. At both elections the men and women of this state clearly conveyed the demand that all attempts to destroy the personal liberties of the individual must be abolished.

Today we witness the sorry spectacle of the chosen representatives of these same people enacting another prohibition law to take the place of the prohibitive legislation which the voters so decisively repealed. This bill is just another prohibition law and the same hypocrisy of those who drink wet and vote dry is forcing its enactment. Under its provisions the State of Washington would undertake to do what the National government failed to do—enforce prohibition.

The people by their ballot demanded the end of graft, bribery and corruption of public officials which grew to be a national scandal under the Eighteenth Amendment. The machinery set up by this bill provides means and methods of graft, bribery and corruption far greater than occurred under national prohibition.

Under the provisions of this act, if it ever becomes a law, the State of Washington would be the nesting place of bootlegging and the home port of rotten politics and corrupt politicians, the mecca of the speakeasy, the blind tiger and the back alley joint.

If I had cast my vote for this bill in view of the action of the people upon this question, I would feel that I had violated the trust imposed by the people and joined in a scurvy trick to thwart the will of the majority.

God protect the people of the State of Washington if they must continue to be represented by legislators who can so easily thrust aside the plain mandate of the voters.

PAUL W. HOUSER,
Senator 31st District.

Senator Chamberlin requested that he be recorded as concurring in the protest of Senator Houser.

The Secretary read:

MESSAGE FROM THE HOUSE.

HOUSE OF REPRESENTATIVES,
 OLYMPIA, WASH., January 12, 1934.

MR. PRESIDENT:

The House has adopted the report of the Conference Committee on Engrossed Substitute House Bill No. 64, and passed the bill as amended by the Senate.

S. R. HOLCOMB, *Chief Clerk.*

Senator Howard arose on a point of personal privilege and requested that the following protest to Senator Houser's protest be entered in the journal:

The Honorable President of the Senate and Senators:

In accordance with Rule 51, I desire to have these remarks entered in the journal.

The Steele bill, Senate Bill No. 7, represents the honest, earnest effort of the members of the Senate and the House to enact a regulatory liquor control bill.

A man who had been for many years a wholesaler of liquor in an eastern city, but who is now retired from the business, early in the session said to me: "You hear a great deal of noise about the liquor question. The noise is made by about 2% of the population, and the fellows that are making practically all the noise are the ones that want to get into the liquor business. The other 98% of the population are at home attending to their affairs and hoping that the efforts of the legislature will produce a workable law."

I want to say at this time that I believe that this law represents the opinion of the 98% of the people of this state. This will not suit the organized, articulate 2% of our population, but I believe it will meet the approval of the 98% unorganized, inarticulate part of the Commonwealth. That has been the motive in the minds of the legislators as they framed this liquor law.

When the framers of initiative petition No. 61 drew the law which repealed the bone dry law of the state, they knew the gravity and responsibility of this matter. They wrote their own law without let or hindrance from anyone. Yet, the first statement made the selling of liquor to a minor a felony, repealed all liquor laws, and then said: "Provided, That the repeals herein provided for shall not be construed or held to revive or make effective any statute or law providing for the licensing and operation of saloons."

I am quite certain that so far as a proper law and an absolute control of the liquor question is concerned, the matter is one of trial and error. We have a sane law; we have a liberal law; we have not let down the flood-gates for the unrestrained control of liquor selling, and it is the firm belief that this measure is a workable measure and that if given a trial will render satisfactory results to the people who are concerned in the matter of liquor control.

E. L. HOWARD,

Senator 46th District.

Senator Dawson wished to be recorded as concurring in Senator Howard's protest.

The Secretary read:

Senate Concurrent Resolution No. 8, by Senator Lovejoy:

ON

VETOED BILLS

OF THE

TWENTY-THIRD LEGISLATURE

EXTRAORDINARY SESSION

1933

GOVERNOR'S MESSAGES ON SENATE BILLS VETOED

January 4, 1934.

To the Honorable,

The Senate of the State of Washington:

I am returning herewith without my approval as to Sections 2 and 3, but with my approval as to all of the other sections, Senate Bill No. 72, entitled:

"An Act relating to the Department of Conservation and Development of the State of Washington and to the state reclamation revolving fund which is administered by said department; enlarging the powers and duties of the director of said department in regard to said fund, and amending Section 5 of Chapter 158 of the Laws of 1919 as amended by Chapter 132 of the Laws of 1923 (same being Section 3008 of Remington's Compiled Statutes of Washington); providing for the disposition of monies received by the State of Washington from certain fees; providing that same be paid into the state reclamation revolving fund; and amending Section 3 of Chapter 105, Laws of 1929; exempting the Columbia Basin Commission or its assignee, the United States Bureau of Reclamation, from payment of fees in connection with the appropriation and use of waters of the Columbia river for development of the Grand Coulee project, and amending Section 44, Chapter 117, Laws of 1917, as amended, being Section 7399 of Remington's Compiled Statutes; making an appropriation from the state reclamation revolving fund for the financing of irrigation and diking and/or drainage improvement districts, as set forth in and provided by Chapter 16 of the Session Laws of 1933, regular session, and providing that this act shall take effect immediately."

This act is necessary to conform to the policy of the Reconstruction Finance Corporation and United States government in relation to the sale or pledge of our Reclamation District Bonds. With the main purposes of the bill I am in full accord.

However, Sections 2 and 3 of this bill involve a diversion of revenues from the General Fund to the "State Reclamation Revolving Fund." The estimated receipts involved in these two sections, for this biennium, would approximate \$100,000.00. The 1933 Legislature appropriated some \$162,936.00 from the General Fund to supply salaries, wages, operations, etc., for the Department of Conservation and Development.

In view of this appropriation, I deem it inadvisable to divert the revenues which under the present law would go to the General Fund. It would result in a further and unwarranted depletion of our General Fund. This fund must be sustained to protect the appropriations already made for the current biennium.

When the 1935 Legislature considers the appropriation for the Department of Conservation and Development, without doubt they will be willing to consider making the appropriations for this department from the "State Reclamation Revolving Fund," and in turn consider a bill that will divert to the Reclamation Fund the receipts of this department.

Accordingly, I am vetoing Sections 2 and 3 of said Senate Bill No. 72. The remaining sections of the bill are hereby approved.

Respectfully submitted,

CLARENCE D. MARTIN,
Governor.

January 23, 1934.

To the Honorable,

The Senate of the State of Washington:
(Through the Secretary of State.)

I am filing herewith, to be transmitted to the Senate at the next session of the Legislature, without my approval as to a certain item, Senate Bill No. 7, entitled:

“An Act relating to intoxicating liquors, providing for the control and regulation thereof, creating state offices, defining crimes and providing penalties therefor, providing for the disposition of public funds and declaring that this act shall take effect immediately.”

This bill is approved with the exception of item 3 of Section 64, which is vetoed.

My primary reason for vetoing this provision is that it does not accomplish the purpose for which it was designed.

It is suggested by those who insist on this provision that “it will remove liquor control from politics.” Seemingly the theory is that the three members of the board, once chosen and appointed solely by the Governor, would stand detached and independent and would not stoop to indulge in so-called politics.

It is a commendable ideal, but an uncertain practicality.

The weakness of the theory and system is that the members of the board would stand detached and independent, responsible to nobody, accountable to nobody. For one thing, they would stand with their human frailties unfortified against venal temptations and the subtle and specious influences of special interests. For another, unrestrained and unafraid of prompt removal, they might stand so independently as to become disdainful and arrogant towards the people and the Governor, gradually creating an oligarchy.

Practical wisdom and experience indicate that neither course would lead the board from politics. On the contrary, either course might lead the board into politics, not the common politics over which the people hold the corrective hand and controlling power, but back to the old-fashioned “liquor politics”—than which no form of politics can be more reprehensible, more vicious and more destructive of public trust and public character.

While this provision permits removal for inefficiency, misfeasance or malfeasance, it also specifies a process that is slow, cumbersome and doubtful. Removal proceedings can be started only on specific written charges by the Governor, the accused member being permitted to continue in office until tried and convicted by a specially created judicial tribunal. This system is wrong in principle. In the first place, I doubt the propriety of dragging the judiciary into controversies between the Governor and his

appointees. The functions thus devolved upon the chief justice and judges of the superior court would not be judicial, but purely administrative. It is wrong, too, because these judges would, of necessity, be governed by technical rules and would resolve every doubt in favor of the member whose removal was sought. The Governor might become morally certain of an appointee's unfitness and yet be unable to establish the fact to the satisfaction of the board of judges governed by technical rules of evidence. Then, there are many forms of unwholesome and reprehensible conduct in office that do not constitute a tangible crime against the public trust and the public honor. Yet, even if the occasion should arise where a board member is guilty of tangible delinquency and ought to be removed, the judicial method provided is so complicated that the necessary removal could be long delayed and probably eventually defeated. Plenty of politics can be played and protected behind such a process.

It is suggested, too, that this system of removal was designed to keep liquor issues out of contests for the governorship and to protect the Governor. Unfortunately, undesirable issues and problems are the fate of every citizen who seeks to serve as Governor, and they can not be ruled out by a legislative order. Likewise, it is folly to devise systems to protect the Governor from the responsibilities of the public business. The truth is that if the public business is being mismanaged, or if appointed state officers fail in their duty, the public at large looks to the Governor and expects him to do something to remedy the situation.

This is especially true of Washington's venture into the liquor business. Right or wrong, the prevailing sentiment throughout the state is that the Governor is responsible for the success or failure of the new liquor system. It likewise is true that the way to keep public business out of politics is to have it function properly—for the common good, not for the privileged few or special interests—and proper functioning is contingent on proper responsibility. But we can not have proper responsibility by dividing the appointive and removal authority.

Therefore, I am willing to accept the responsibility and I am willing to accept the accountability. This is especially essential during the experimental stages of state liquor control, because the directors of the business must be kept sensitive and responsive to desired changes if we are to work out a system of liquor control that will be satisfactory to the substantial majority of the people.

So item 3 of Section 64 is vetoed.

Respectfully submitted,

CLARENCE D. MARTIN,

Governor.

January 24, 1934.

To the Honorable,

The Senate of the State of Washington:
(Through the Secretary of State.)

I am filing herewith, to be transmitted to the Senate at the next session of the Legislature, without my approval, Senate Bill No. 75, entitled:

"An Act creating and establishing a state fire fund for insurance of public buildings and property of political subdivisions of the State of Washington, which now carries fire insurance or may hereafter do so; fixing the powers and duties of the state insurance commissioner in connection therewith; providing for the maintenance thereof and the payment and adjustment of losses; authorizing the state insurance commissioner to employ necessary help and incur and pay such other expenses as may be necessary, also purchase other insurance on certain classes of risks, limiting the amount of expense that may be incurred and repealing all acts in conflict herewith."

Briefly, this measure attempts to establish an insurance system for the governmental and political subdivisions of the state, but, while the sponsors seemingly were spurred by the worthy purpose of economy for the taxpayers, it is regrettable that the bill was not prepared to more accurately reflect their purpose and to recognize the prevailing economic conditions in Washington.

It is apparent, even to the layman, that the bill is improperly drawn, being ambiguous in many respects and not adapted to conditions and situations in Washington; undoubtedly, the result would be misunderstandings and doubtful operation during the period when it would most urgently require public confidence and support.

Obviously, too, it is an inopportune time to begin an experiment in public insurance. While such a policy and system might mean a measure of economy in the long run, it would require, as does any new enterprise or business, an immediate investment or preliminary outlay that unquestionably would be a hardship on many public subdivisions just at the time when they are making a hard struggle, if not a losing fight, to make both ends meet. Thus, it seems to me, the sponsors of the plan are risking unnecessary misunderstanding by launching their plan at this time, probably not stopping to realize that failure now might defeat the ultimate enactment and success of a more suitable and practical system of state insurance.

Therefore, I am constrained to veto Senate Bill No. 75.

Respectfully submitted,

CLARENCE D. MARTIN,
Governor.

January 24, 1934.

To the Honorable,

The Senate of the State of Washington:
(Through the Secretary of State.)

I am filing herewith, to be transmitted to the Senate at the next session of the Legislature, without my approval, Senate Bill No. 73, entitled:

“An Act relating to the removal of Regents and Trustees of the University of Washington or Washington State College.”

It is evident that the advocates of Senate Bill No. 73 had in mind the insuring of a more secure tenure of office for the regents, and, in turn, a continuity of administration for the University and State College. This act, however, completely divests the Governor of the power of removal of the regents of these institutions.

The purpose of this act might better be accomplished by a law which would preserve the power of the Governor to remove. But, if any Governor should attempt wholesale and unwarranted removals, then some provision of law for the review of such arbitrary action might be wholesome.

Inasmuch as I have full confidence in the present boards of regents, and realizing that no emergency exists in the administration of either of these institutions to require action by the extraordinary session of the Legislature, I feel that this act may well be vetoed, and that more matured consideration might be given this question at the next regular session of the Legislature.

These institutions of higher learning are sustained by the public and their affairs should be administered by regents in sympathy with the aspirations of the people and the taxpayers who support them. The people speak through their Governor. I cannot bring myself to approve a law which completely removes the regents from responsibility to the Governor, and, through him, from their responsibility to the taxpayers.

Therefore, Senate Bill No. 73 is vetoed.

Respectfully submitted,

CLARENCE D. MARTIN,
Governor.

GOVERNOR'S MESSAGE ON HOUSE BILL VETOED

January 4, 1934.

To the Honorable,

The House of Representatives
of the State of Washington:

I am returning without my approval as to Section 22, but with my approval as to all of the other sections, House Bill No. 180, entitled:

“An Act declaring the existence of a state and national agricultural emergency, declaring the policy of the Legislature, approving and adopting the provisions of the National Agricultural Act and any marketing agreement approved or prescribed by the Secretary of Agriculture of the United States, defining marketing agreements, restricting the authority of the state

or any municipal corporation within the state to purchase material and supplies, providing for the regulation and enforcement of marketing agreements, establishing standards of fair competition, empowering the Director of Agriculture, with the approval of the Governor, to make rules and regulations to control the production, storage, transportation, sale and distribution of agricultural commodities and to issue licenses licensing the persons handling or processing agricultural products, prescribing the methods and the persons entitled to licenses, granting jurisdiction to courts for the trial and prosecution of any violation of this act, directing the Attorney General and any prosecuting attorney within the state to prosecute any violation of this act, prescribing methods of issuing licenses and revocation thereof, creating Board of Review, making it unlawful for any persons to engage in the handling, process or wholesaling of agricultural products without a license, prescribing the amount of license fees to be paid, making appropriation for the administration of this act, defining agricultural commodities and persons engaged in the handling thereof, defining the time when this act shall cease to be in effect, declaring this act an emergency and repealing Section 6242 of Remington's Revised Statutes, and for other purposes."

The general purpose of this bill, as the title indicates, is to restore the normal currents of commerce in the commodities of the basic industry of agriculture. To do this the bill provides for the establishing and maintaining a balance between production and consumption of agricultural commodities; for the stimulation of marketing conditions; and for the increasing of the purchasing power of the farmer. The bill seeks to bring about a readjustment between farm production, marketing and consumption for the common good of producer and consumer. To this end, the bill also seeks cooperation between the state and the national government in regard to the restoration of agriculture through the National Agricultural Adjustment Act.

However, Section 22 of the bill provides for the repeal of Section 6242 of Remington's Revised Statutes of the State of Washington, which is an act prohibiting combinations to fix the price of various agricultural products. Unless the repeal of this section of the prior law is essential to the operation of House Bill No. 180, the same should not be repealed, as it is a wholesome provision of law. I am advised, however, that the repeal of said Section 6242 is not necessary to permit the carrying out of the provisions and intentions of House Bill No. 180. The Attorney General also advises me in respect to whether or not Section 22 of this bill should be vetoed as follows:

"This section specifically repeals Rem. Rev. Stat., Section 6242, which is the statute against combinations and fixing prices on certain agricultural products. We are of the opinion that Section 22 can be vetoed without impairing the efficiency of the balance of the act. Section 22 is not essential to the act for the reason that the provisions of House Bill No. 180 supersede Section 6242, Rem. Rev. Stat., in so far as it comes in conflict with this act.

"In this connection we call attention to the limited duration of the act, as by its own terms, it expires not later than two years after its enactment.

"If Section 22 is allowed to stand, it will be a permanent repeal of Rem.

Rev. Stat. 6242, which will not be revived at the termination of the two-year period during which the new act is to be in effect.

"If Section 22 is vetoed or otherwise taken out of the act, Rem. Rev. Stat. would not be repealed, but would be suspended during the period of the operation of the law and at the expiration of that period would automatically come into effect to prevent the fixing of prices on those certain products from that time on the same as if House Bill No. 180 had never been enacted."

For these reasons Section 22 of said House Bill No. 180 is vetoed. The remainder of the bill is hereby approved.

Respectfully submitted,

CLARENCE D. MARTIN,
Governor.
