(2) The legislature recognizes that, because of the sensitivity of data collected by signature gatherers and the need to ensure public safety, it is important there be a level of accountability for those employed to collect signatures and those who employ signature gatherers as required for other employers and employees engaged in the political process in Washington.

(3) The legislature recognizes that the public has a right to know which entities are compensating individuals to gather signatures in Washington state, just as the public has a right to know which entities compensate lobbyists or contribute to political campaigns.

(4) The legislature further recognizes that it should be easier for voters and property owners to contact entities that compensate signature gatherers when signature gatherers cause problems such as harassment of customers to mitigate those problems.

(5) The legislature recognizes that requiring disclosure by the entities that compensate for petition signatures is consistent with Washington's existing disclosure laws, promotes transparency in government, and will result in more accurate information.

NEW SECTION. Sec. 2. A new section is added to chapter 42.17A RCW to read as follows:

(1) Any ballot measure sponsor or political committee that employs, or expects to employ, any person for the purpose of compensating individuals for gathering signatures on a state or local initiative, referendum, or recall petition in this state must, at the time of registration or within ten days of employing the person, disclose to the commission:

Creating a community aviation revitalization board.

MOTION

On motion of Senator Honeyford, Substitute Senate Bill No. 5328 was substituted for Senate Bill No. 5328 and the substitute bill was placed on the second reading and read the second time.

MOTION

Senator Honeyford moved that the following striking amendment no. 387 by Senator Honeyford be adopted:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. **Sec. 1.** The legislature finds that providing additional funding mechanisms for public use airports that primarily support general aviation activities to implement revenue-generating initiatives is in the best interests of the state. The legislature further finds that a revolving loan program would benefit smaller airport development while providing a self-sustaining resource.

NEW SECTION. **Sec. 2.** (1) The community aviation revitalization board is created to exercise the powers granted under this chapter.

(2) The board must consist of the capital budget chair and ranking minority member of the capital budget committee of the house of representatives and the senate ways and means committee, and a representative from both the department of transportation's aviation division and the department of commerce. The board must also consist of the following members appointed by the secretary of transportation: One port district official, one county official, one city official, one representative of airport managers, and one representative of an aviation pilots association or organization. The appointive members must initially be appointed to terms as follows: Two members for two-year terms, and three members for three-year terms which must include the chair. Thereafter, each succeeding term must be for three years. The chair of the board must be selected by the secretary of transportation. The members of the board must elect one of their members to serve as vice chair. The director of commerce and the secretary of transportation must serve as nonvoting advisory members of the board.

(3) Management services, including fiscal and contract services, must be provided by the department of transportation to assist the board in implementing this chapter.

(4) Legislative members of the board are reimbursed for travel expenses in accordance with RCW 44.04.120. Nonlegislative members are not entitled to be reimbursed for travel expenses if they are elected officials or are participating on behalf of an employer, governmental entity, or other organization. Any reimbursement for other nonlegislative members is subject to chapter 43.03 RCW.

(5) If a vacancy occurs by death, resignation, or otherwise of appointive members of the board, the secretary of transportation must fill the vacancy for the unexpired term. Members of the board may be removed for malfeasance or misfeasance in office, upon specific written charges by the secretary of transportation, under chapter 34.05 RCW.

(6) A member appointed by the secretary of transportation may not be absent from more than fifty percent of the regularly scheduled meetings in any one calendar year. Any member who exceeds this absence limitation is deemed to have withdrawn from the office and may be replaced by the secretary of transportation.

(7) A majority of members currently appointed constitutes a quorum.

(8) The board must meet three times a year or as deemed necessary by the department of transportation.

(9) Staff support to the board must be provided by the department of transportation as needed.

NEW SECTION. Sec. 3. (1) Each member of the house of representatives who is appointed to the community aviation revitalization board under section 2 of this act may designate another member from the house of representatives to take his or her place on the board for meetings at which the member will be absent, as long as the designated member belongs to the same caucus. The designee has all of the same powers to vote and participate in board deliberations as the other board members.

(2) Each member of the senate who is appointed to the community aviation revitalization board under section 2 of this act may designate another member from the senate to take his or her place on the board for meetings at which the member will be absent, as long as the designated member belongs to the same caucus. The designee has all of the same powers to vote and participate in board deliberations as the other board members.

(3) Each agency head of an executive agency who is appointed to serve as a nonvoting advisory member of the board under section 2 of this act may designate an agency employee to take his or her place on the board for meetings at which the agency head will be absent. The designee has all of the same powers to participate in board deliberations as the other board members, but does not have voting powers.

NEW SECTION. Sec. 4. In addition to other applicable provisions of law pertaining to conflicts of interest of public officials, any community aviation revitalization board member, appointive or otherwise, may not participate in any decision on any board contract in which the board member has any interests, direct or indirect, with any firm, partnership, corporation, or association that would be the recipient of any aid under this chapter. If such participation occurs, the board must void the transaction and the involved member is subject to further sanctions as provided by law. The board must adopt a code of ethics for its members, which must be designed to protect the state and its citizens from any unethical conduct by the board.

NEW SECTION. Sec. 5. The community aviation revitalization board may:

(1) Adopt bylaws for the regulation of its affairs and the conduct of its business;

(2) Adopt an official seal and alter the seal at its pleasure;

(3) Utilize the services of other governmental agencies;

(4) Accept from any federal agency loans or grants for the planning or financing of any project and enter into an agreement with the agency respecting the loans or grants;

(5) Conduct examinations and investigations and take testimony at public hearings of any matter material for its information that will assist in determinations related to the exercise of the board's lawful powers;

(6) Accept any gifts, grants, loans of funds, property, or financial or other aid in any form from any other source on any terms and conditions that are not in conflict with this chapter;

(7) Enter into agreements or other transactions with and accept grants and the cooperation of any governmental agency in furtherance of this chapter;

(8) Adopt rules under chapter 34.05 RCW as necessary to carry out the purposes of this chapter; and

(9) Perform all acts and things necessary or convenient to carry out the powers expressly granted or implied under this chapter.

NEW SECTION. Sec. 6. (1) The community aviation revitalization board may make direct loans to public use airport sponsors for the purpose of improvements at public use airports that primarily support general aviation activities. The board may provide loans to privately owned airports for the purpose of airport improvements only if the state is receiving commensurate public benefit. The board must require guaranteed public access to an airport for the life of the loan plus ten years as a condition of all loans. For purposes of this subsection, "public use airports that primarily support general aviation activities" means all public use airports not listed as having more than fifty thousand annual commercial air service passenger enplanements as published by the federal aviation administration.

(2) An application for loan funds under this section must be made in the form and manner as the board may prescribe. When evaluating loan applications, the board must prioritize applications that provide conclusive justification that completion of the loan application project will create revenue-generating opportunities. The board is not limited to, but must also use, the following expected outcome conditions when evaluating loan applications:

(a) A specific private development or expansion is ready to occur and will occur only if the aviation facility improvement is made;

(b) The loan application project results in the creation of jobs or private sector capital investment as determined by the board;

(c) The loan application project improves opportunities for the successful maintenance, operation, or expansion of an airport or adjacent airport business park;

(d) The loan application project results in the creation or retention of long-term economic opportunities; and

(e) The loan application project results in leveraging additional federal funding for an airport.

(3)(a) If the board chooses to require a local match, the board must develop guidelines for local participation and allowable match and activities.

(b) An application must:

(i) Be supported by the port district, city, or county in which the project is located; and

(ii) Clearly identify the source of funds intended to repay the loan.

NEW SECTION. Sec. 7. The public use general aviation airport loan program, when authorized by the community aviation revitalization board, is subject to the following conditions:

(1) The total outstanding amount that the board may dispense at any time pursuant to this section must not exceed the moneys

available from the public use general aviation airport loan revolving account.

(2) On contracts made for public use general aviation airport loans, the board must determine the interest rate that loans must bear. The interest rate must not exceed the amount needed to cover the administrative expenses of the board and the loan program. The board may provide reasonable terms and conditions for the repayment of loans, with the repayment of a loan to begin no later than three years after the award date of the loan. The loans must not exceed twenty years in duration.

(3) The repayment of any loan made from the public use general aviation airport loan revolving account under the contracts for aviation loans must be paid into the public use general aviation airport loan revolving account.

NEW SECTION. Sec. 8. To enhance competition for loans and the quality of projects for which loans are sought, the community aviation revitalization board must take such reasonable measures as are necessary to familiarize government officials and members of the public with this chapter, particularly the board's authority to make loans.

Sec. 9. 2018 c 2 s 7028 (uncodified) is amended to read as follows:

The public use general aviation airport loan revolving account is created in the custody of the state treasurer. All receipts from moneys collected under this chapter must be deposited into the account. Sec. 13. RCW 80.36.650 and 2016 c 145 s 1 are each amended to read as follows:

(1) A state universal communications services program is established. The program is established to protect public safety and welfare under the authority of the state to regulate telecommunications under Article XII, section 19 of the state Constitution. The purpose of the program is to support continued provision of basic telecommunications services under rates, terms, and conditions established by the commission ~~((during the time over which incumbent communications providers in the state are adapting to changes in federal universal service fund and intercarrier compensation support))~~ and the provision, enhancement, and maintenance of broadband services, recognizing that the incumbent public network functions to provide all communications services including, but not limited to, voice and broadband services.

(2) Under the program, eligible communications providers may receive distributions from the universal communications services account created in RCW 80.36.690 in exchange for the affirmative agreement to provide continued telecommunications services under the rates, terms, and conditions established by the commission under this chapter and broadband services for the period covered by the distribution. The commission must implement and administer the program under terms and conditions established in RCW 80.36.630 through 80.36.690. Expenditures for the program may not exceed five million dollars per fiscal year; provided, however, that if less than five million dollars is expended in any fiscal year, the unexpended portion must be carried over to subsequent fiscal years and, unless fully expended, must be available for program expenditures in such subsequent fiscal years in addition to the five million dollars allotted for each of those subsequent fiscal years.

(3) A communications provider is eligible to receive distributions from the account if:

(a) The communications provider is: (i) An incumbent local exchange carrier serving fewer than forty thousand access lines in the state; or (ii) a radio communications service company providing wireless two-way voice communications service and broadband services to less than the equivalent of forty thousand access lines in the state. For purposes of determining the access line threshold in this subsection, the access lines or equivalents of all wireline affiliates must be counted as a single threshold, if the lines or equivalents are located in Washington;

(b) ~~The ((customers of the communications provider are at risk of rate instability or service interruptions or cessations absent a distribution to the provider that will allow the provider to maintain rates reasonably close to the benchmark))~~ communications provider has adopted a plan to provide, enhance, or maintain broadband service in its service area; and

(c) The communications provider meets any other requirements established by the commission pertaining to the provision of communications services, including basic telecommunications services.

(4)(a) ~~Distributions to eligible communications providers are based on ((a benchmark established by the commission. The benchmark is the rate the commission determines to be a reasonable amount customers should pay for basic residential service provided over the incumbent public network. However, if an incumbent local exchange carrier is charging rates above the benchmark for the basic residential service, that provider may not seek distributions from the fund for the purpose of reducing those rates to the benchmark))~~ criterion established by the commission.

(b) ~~If the program does not have sufficient funds to fully fund the distribution formula set out in (a) of this subsection, distributions must be reduced on a pro rata basis using the amounts calculated for that year's program support as the basis of the pro rata calculations.~~

(c) To receive a distribution under the program, an eligible communications provider must affirmatively consent to continue providing communications services to its customers under rates, terms, and conditions established by the commission pursuant to this chapter for the period covered by the distribution.

(5) The program is funded from amounts deposited by the legislature in the universal communications services account established in RCW 80.36.690. The commission must operate the program within amounts appropriated for this purpose and deposited in the account.

(6) The commission must periodically review the accounts and records of any communications provider that receives distributions under the program to ensure compliance with the program and monitor the providers' use of the funds.

(7) ~~((The commission must establish an advisory board, consisting of a reasonable balance of representatives from different types of communications providers and consumers, to advise the commission on any rules and policies governing the operation of the program.~~

~~((8))~~ The program terminates on June 30, ~~((2019))~~ 2029, and no distributions may be made after that date.

~~((9))~~ (8) This section expires July 1, ~~((2020))~~ 2030.

Sec. 14. RCW 80.36.660 and 2013 2nd sp.s. c 8 s 204 are each amended to read as follows:

(1) To implement the program, the commission must adopt rules for the following purposes:

(a) Operation of the program, including criteria for: Eligibility for distributions; use of the funds; identification of any reports or data that must be filed with the commission, including, but not

Sec. 15. RCW 80.36.670 and 2013 2nd sp.s. c 8 s 205 are each amended to read as follows:

Senator Schoesler moved that the following amendment no. 656 by Senators Schoesler and Sheldon be adopted:

Beginning on page 20, line 4 of the amendment, strike all of section 18 and insert the following:

"Sec. 18. RCW 53.08.370 and 2000 c 81 s 7 are each amended to read as follows:

(1) A rural port district in existence on June 8, 2000, a port district located in a county that borders a foreign nation, and a port district located in a county that borders the Columbia river that has completed feasibility studies for a wholesale telecommunications network, may construct, purchase, acquire, develop, finance, lease, license, handle, provide, add to, contract for, interconnect, alter, improve, repair, operate, and maintain any telecommunications facilities within or without the district's limits for the following purposes:

(a) For the district's own use; and

(b) For the provision of wholesale telecommunications services within or without the district's limits. Nothing in this subsection shall be construed to authorize ~~((rural))~~ eligible port districts to provide telecommunications services to end users.

(2) ~~((A rural))~~ Except as provided in subsection (7) of this section, port districts providing wholesale telecommunications services under this section shall ensure that rates, terms, and conditions for such services are not unduly or unreasonably discriminatory or preferential. Rates, terms, and conditions are discriminatory or preferential when a ~~((rural))~~ port district offering such rates, terms, and conditions to an entity for wholesale telecommunications services does not offer substantially similar rates, terms, and conditions to all other entities seeking substantially similar services.

(3) When a ~~((rural))~~ port district establishes a separate utility function for the provision of wholesale telecommunications services under this section, it shall account for any and all revenues and expenditures related to its wholesale telecommunications facilities and services separately from revenues and expenditures related to its internal telecommunications operations. Any revenues received from the provision of wholesale telecommunications services must be dedicated to the utility function that includes the provision of wholesale telecommunications services for costs incurred to build and maintain the telecommunications facilities until such time as any bonds or other financing instruments executed after June 8, 2000, and used to finance the telecommunications facilities are discharged or retired.

(4) When a ~~((rural))~~ port district establishes a separate utility function for the provision of wholesale telecommunications services under this section, all telecommunications services rendered by the separate function to the district for the district's internal telecommunications needs shall be charged at its true and full value. A ~~((rural))~~ port district may not charge its nontelecommunications operations rates that are preferential or discriminatory compared to those it charges entities purchasing wholesale telecommunications services.

(5) A ~~((rural))~~ port district under this section shall not exercise powers of eminent domain to acquire telecommunications facilities or contractual rights held by any other person or entity to telecommunications facilities.

(6) Except as otherwise specifically provided, a ~~((rural))~~ port district may exercise any of the powers granted to it under this title and other applicable laws in carrying out the powers authorized under this section. Nothing in chapter 81, Laws of 2000 limits any existing authority of a rural port district under this title.

(7) A port district under this section may select a telecommunications company to operate all or a portion of the port district's telecommunications facilities. The company may be the exclusive provider of telecommunications services to end users under terms specified in the contract with the port district. For purposes of this section, "telecommunications company" means any for-profit entity owned by investors that sells telecommunications services to end users. Nothing in this subsection (7) is intended to limit or otherwise restrict any other authority provided by law.

Sec. 19. RCW 53.08.380 and 2000 c 81 s 9 are each amended to read as follows:

(1) A person or entity that has requested wholesale telecommunications services from a rural port district or port district as identified in RCW 53.08.370(1) may petition the commission under the procedures set forth in RCW 80.04.110 (1) through (3) if it believes the district's rates, terms, and conditions are unduly or unreasonably discriminatory or preferential, except as provided in RCW 53.08.370. The person or entity shall provide the district notice of its intent to petition the commission and an opportunity to review within thirty days the rates, terms, and conditions as applied to it prior to submitting its petition. In

determining whether a district is providing discriminatory or preferential rates, terms, and conditions, the commission may consider such matters as service quality, technical feasibility of connection points on the district's telecommunications facilities, time of response to service requests, system capacity, and other matters reasonably related to the provision of wholesale telecommunications services. If the commission, after notice and hearing, determines that a rural port district's rates, terms, and conditions are unduly or unreasonably discriminatory or preferential, it shall issue a final order finding noncompliance with this section and setting forth the specific areas of apparent noncompliance. An order imposed under this section shall be enforceable in any court of competent jurisdiction.

(2) The commission may order a rural port district or port district as identified in RCW 53.08.370(1) to pay a share of the costs incurred by the commission in adjudicating or enforcing this section.

(~~Grants may also be authorized for purposes designated in this chapter, but only when, and to the extent that, a loan is not reasonably possible, given the limited resources of the local government or the federally recognized Indian tribe, and subject to a finding by the board that financial circumstances require grant assistance to enable the project to move forward.~~) However, no more than ~~((25))~~ 50 percent of all financial assistance approved by the board in any biennium may consist of grants to local governments and federally recognized Indian tribes.

(4) Application for funding must be made in the form and manner as the board may prescribe. In making grants or loans the board must conform to the following requirements:

~~((g) An application must demonstrate convincing evidence that the median hourly wage of the private sector jobs created after the project is completed will exceed the countywide median hourly wage.~~

~~(h) The board must prioritize each proposed project according to:~~

~~(i) The relative benefits provided to the community by the jobs the project would create, not just the total number of jobs it would create after the project is completed, but also giving consideration to the unemployment rate in the area in which the jobs would be located;~~

~~(ii) The rate of return of the state's investment, including, but not limited to, the leveraging of private sector investment, anticipated job creation and retention, and expected increases in state and local tax revenues associated with the project;~~

REMARKS BY THE PRESIDENT PRO TEMPORE

President Pro Tempore Keiser: "Now, I just want to say she persisted, I'm persisting too. And we have worked together for twenty years on PBMs [pharmacy benefit managers], on balanced billing, on the individual market and that ever-loving nursing

home rate issue. I gotta say, I'm passing that one on. Thank you so much for all of your help, all of your persistence, and all of your kindness."

The senate rose and recognized former Senator Linda Evans Parlette who was present at the rostrum.

With the permission of the senate, business was suspended to allow Senator Evans Parlette to address the senate.

REMARKS BY FORMER SENATOR LINDA EVANS
PARLETTE

Former Senator Parlette: "Thank you very much. I have to tell you this was a *total* surprise. Senator Keiser you spoke about the nursing home bills, so years ago one of my constituents, Jerry Tretwold [former president, WA Health Care Association], who lobbied once in a while on nursing home issues. I was complaining and saying, 'You know, it just isn't fair, those of us who live so far away and we can't go home for Valentine's Day.' So, lo and behold, the Nursing Home Association started this reception for those of us who could not go home, those of us women. And I thought, well I should ask Representative Cody, because we both shared the gavel in 1999 and 2000, to co-sponsor this with me. And so last year, Representative Cody invited me back. Last year my husband joined me. I'll just kind of give you an update on that situation. This year Representative Cody called again and said, 'Linda, you have to come over for the Valentine's reception.' So that is why I am here and I didn't expect this at all. So, I thought I could sneak out of the Senate without being roasted, but I guess you guys got even. So, thank you.

So, I also would like to thank you for the many cards. It was a shock for me to learn as long as with my husband last year about his illness. Many of you don't know but my husband flew in Vietnam and over twenty years ago he found out he had chronic lymphatic leukemia. And he thought that was Agent Orange related. Naturally the VA turned down his claim. But last year, when he got the diagnosis on July 19 of acute myeloid leukemia, the first thing he did was reopen that claim. Now, it is still pending, but we know now, years later, that they did have Agent Orange in Thailand where he was stationed. He was a co-pilot and stationed there for some time. So time will tell on what happens. It's hard to understand when those who have served our country have to deal with so much difficulty in dealing with the Veterans Administration, but we will wait and see what happens.

I put all of this in perspective and think well, I guess a car accident would have been worse. At least we did have some time to get our affairs in order. When you are married to an attorney it is probably like being married to a cobbler, the cobbler's kids have no shoes. Our wills were thirty-one years old, so we had a lot of work to do in a short time. But I just want to thank you. I received so many cards from all of you and I have to tell you it's been a privilege to serve sixteen years in the Senate, four years in the House. God bless all of you and make sure, in the interim, you do whatever you want to do because you never – don't let this job interfere with your life too much. Thank you very much."

Eligibility under this section ceases immediately if this criteria is not met.

(iii) Faculty may establish or maintain eligibility for benefits by working for more than one institution of higher education. When faculty work for more than one institution of higher education, those institutions shall prorate the employer contribution costs, or if eligibility is reached through one institution, that institution will pay the full employer contribution. Faculty working for more than one institution must alert his or her employers to his or her potential eligibility in order to establish eligibility.

(iv) The employing agency must provide written notice to faculty who are potentially eligible for benefits under this subsection (4)(c) of their potential eligibility.

(v) To be eligible for maintenance of benefits through averaging under (c)(ii) of this subsection, faculty must provide written notification to his or her employing agency or agencies of his or her potential eligibility.

(h) Insurance coverage for all eligible employees begins on the first day of the month following the date when eligibility for benefits is established. If the date eligibility is established is the first working day of a month, insurance coverage begins on that date.

(i) Eligibility for an employee whose work circumstances are described by more than one of the eligibility categories in (a) through (e) of this subsection shall be determined solely by the criteria of the category that most closely describes the employee's work circumstances.

(j) Except for an employee eligible for benefits under (b) or (c)(ii) of this subsection, an employee who has established eligibility for benefits under this section shall remain eligible for benefits each month in which he or she is in pay status for eight or more hours, if (i) he or she remains in a benefits-eligible position and (ii) leave from the benefits-eligible position is approved by the employing agency. A benefits-eligible seasonal employee is eligible for the employer contribution in any month of his or her season in which he or she is in pay status eight or more hours during that month. Eligibility ends if these conditions are not met, the employment relationship is terminated, or the employee voluntarily transfers to a noneligible position.

(k) For the purposes of this subsection, the public employees' benefits board shall define "benefits-eligible position."

(5) The public employees' benefits board may authorize premium contributions for an employee and the employee's dependents in a manner that encourages the use of cost-efficient managed health care systems.

(iii) Any impact of enrollment in alternatives to the most comprehensive plan, including the high deductible health plan with a health savings account, upon the cost of health benefits for those employees who have chosen to remain enrolled in the most comprehensive plan.

(7) Notwithstanding any other provision of this chapter, for any open enrollment period following August 24, 2011, the public employees' benefits board shall offer a high deductible health plan in conjunction with a health savings account developed under subsection (6) of this section.

(8) Employees shall choose participation in one of the health care benefit plans developed by the public employees' benefits board and may be permitted to waive coverage under terms and conditions established by the public employees' benefits board.

(a) Participation of eligible employees or retired employees and retired school employees in any long-term care insurance plan made available by the public employees' benefits board is voluntary and shall not be subject to binding arbitration under chapter 41.56 RCW. Participation is subject to reasonable underwriting guidelines and eligibility rules established by the public employees' benefits board and the health care authority.

(b) The employee, retired employee, and retired school employee are solely responsible for the payment of the premium rates developed by the health care authority. The health care authority is authorized to charge a reasonable administrative fee in addition to the premium charged by the long-term care insurer, which shall include the health care authority's cost of administration, marketing, and consumer education materials prepared by the health care authority and the office of the insurance commissioner.

(c) To the extent administratively possible, the state shall establish an automatic payroll or pension deduction system for the payment of the long-term care insurance premiums.

(f) In developing the long-term care insurance benefit designs, the public employees' benefits board shall include an alternative plan of care benefit, including adult day services, as approved by the office of the insurance commissioner.

(g) The health care authority, with the cooperation of the office of the insurance commissioner, shall develop a consumer education program for the eligible employees, retired employees, and retired school employees designed to provide education on the potential need for long-term care, methods of financing long-term care, and the availability of long-term care insurance products including the products offered by the public employees' benefits board.

Senator O'Ban moved that the following striking amendment no. 615 by Senator O'Ban be adopted:

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 10.95.040 and 1981 c 138 s 4 are each amended to read as follows:

(1) If a person is charged with aggravated first degree murder as defined by RCW 10.95.020 and the victim was a law enforcement officer as provided in RCW 10.95.020(1), the prosecuting attorney shall file written notice of a special sentencing proceeding to determine whether or not the death penalty should be imposed when there is reason to believe that there are not sufficient mitigating circumstances to merit leniency.

(2) The notice of special sentencing proceeding shall be filed and served on the defendant or the defendant's attorney within thirty days after the defendant's arraignment upon the charge of aggravated first degree murder unless the court, for good cause shown, extends or reopens the period for filing and service of the notice. Except with the consent of the prosecuting attorney, during the period in which the prosecuting attorney may file the notice of special sentencing proceeding, the defendant may not tender a plea of guilty to the charge of aggravated first degree murder nor may the court accept a plea of guilty to the charge of aggravated first degree murder or any lesser included offense.

(3) If a notice of special sentencing proceeding is not filed and served as provided in this section, the prosecuting attorney may not request the death penalty.

Sec. 2. RCW 10.95.050 and 1981 c 138 s 5 are each amended to read as follows:

(1) If a defendant is adjudicated guilty of aggravated first degree murder and the victim was a law enforcement officer as provided in RCW 10.95.020(1), whether by acceptance of a plea of guilty, by verdict of a jury, or by decision of the trial court sitting without a jury, a special sentencing proceeding shall be held if a notice of special sentencing proceeding was filed and served as provided by RCW 10.95.040. No sort of plea, admission, or agreement may abrogate the requirement that a special sentencing proceeding be held.

(2) A jury shall decide the matters presented in the special sentencing proceeding unless a jury is waived in the discretion of the court and with the consent of the defendant and the prosecuting attorney.

(3) If the defendant's guilt was determined by a jury verdict, the trial court shall reconvene the same jury to hear the special sentencing proceeding. The proceeding shall commence as soon as practicable after completion of the trial at which the defendant's guilt was determined. If, however, unforeseen circumstances make it impracticable to reconvene the same jury to hear the special sentencing proceeding, the trial court may dismiss that jury and convene a jury pursuant to subsection (4) of this section.

(4) If the defendant's guilt was determined by plea of guilty or by decision of the trial court sitting without a jury, or if a retrial of the special sentencing proceeding is necessary for any reason including but not limited to a mistrial in a previous special sentencing proceeding or as a consequence of a remand from an appellate court, the trial court shall impanel a jury of twelve persons plus whatever alternate jurors the trial court deems necessary. The defense and prosecution shall each be allowed to peremptorily challenge twelve jurors. If there is more than one

defendant, each defendant shall be allowed an additional peremptory challenge and the prosecution shall be allowed a like number of additional challenges. If alternate jurors are selected, the defense and prosecution shall each be allowed one peremptory challenge for each alternate juror to be selected and if there is more than one defendant each defendant shall be allowed an additional peremptory challenge for each alternate juror to be selected and the prosecution shall be allowed a like number of additional challenges."

On page 1, line 4 of the title, after "murder" strike the remainder of the title and insert "unless the victim was a law enforcement officer; amending RCW 10.95.040 and 10.95.050; and prescribing penalties."

POINT OF ORDER

Senator Pedersen: "Thank you Mr. President. I will try not to take that much time. I think this is pretty straight forward. The purpose or the object of this bill is to eliminate the death penalty. The purpose of the amendment is to retain the death penalty, albeit for a more limited set of cases. But, for that reason, I believe that it does not meet the scope and object test and that it ought to be set aside. Thank you."

Senator O'Ban: "Thank you Mr. President. The underlying issue is: Do we retain or do we eliminate, after how many scores of years, the death penalty? That is the issue before us. The amendment before the body right now, I haven't had a chance to brief it, but if we eliminate the death penalty should we keep it for aggravated first degree murder of law enforcement. Certainly, that is before this body and is not scoped out. It is a question before this body of will it vote to eliminate the death penalty except for victims that happen to be law enforcement officers? I haven't had a chance to make the argument on the merits of that. I won't do that before this body now, but certainly that is well within the scope and I would add Mr. President that this bill came out of Law & Justice. This very amendment was presented before that body, was not ruled out of scope, it should not be done so here today."

President Habib: "Senator O'Ban, would you like to speak to, in your remaining time, the object?"

Senator O'Ban: "The object of the bill, as I understand it, is to eliminate the death penalty and it, I'm looking at the section it refers to a number of statutory provisions which deal with the death penalty. And so this is well within the keeping of that object. And, that is, it would not eliminate the death penalty for a subset of victims, subset of cases."

RULING BY THE PRESIDENT

President Habib: "The President is going to rule right now. And because, in keeping with Lieutenant Governor Owen's precedent and practice, we will be issuing a formal opinion on this for the guidance of senators in the future but, because we are up against an important deadline this afternoon, I'm going to rule on this right now so we can continue the debate and more formal guidance can be given in writing to senators.

The President finds that, as to the scope of this amendment, it does fit solidly with the scope of the underlying bill. It is actually subset of the underlying bill with respect to the scope that is at question. In other words, clearly, any case in which the death penalty would be sought, with respect to this class of crime, would be subset of all cases for which death penalty could be sought and which are addressed in this bill. However, with

respect to the object, with which Senator O'Ban just agreed, the object of the bill is to eliminate the death penalty. This is a well-known and well-worn public debate in our country, in our state. The Governor has taken executive action that mirrors this sort of act, this sort of position.

And, so, it's very clear that the maker of the bill desired to get the state out of the death penalty business; to no longer have the death penalty exist. The President finds that is a substantively different purpose than a sentencing bill which would establish sentence enhancements or decreasing sentences for certain types of crimes for which you could then have negotiated amendments reducing or expanding, I suppose, reducing specifically within the scope, what happened and retain the object of the bill. In this case, the object of the bill is to eliminate the death penalty and, in so far as this amendment is within scope, it actually violates that object by proposing the death penalty remain. And, therefore, the President finds that, while it is within scope, this striking amendment offered by Senator O'Ban is not within the object of the underlying bill."

WRITTEN RULING: In ruling on the points of order raised by Senator Pedersen on the scope and object of Senate Bill 6052, the President finds and rules as follows:

Senate Bill 6052 seeks to entirely eliminate the death penalty from the Revised Code of Washington. Section 1 of the bill strikes all language that provides for the death penalty as a possible sentence for individuals convicted of aggravated first degree murder, and Section 2 repeals the eighteen subsequent provisions that set forth statutory procedures for sentencing a person convicted of aggravated first degree murder to death.

The scope of the bill—the death penalty—is reasonably broad. However, the object of the bill—its aim, purpose, and end goal—is specific and narrow. It is to revise Washington's sentencing laws to eliminate the death penalty, establishing the sentence for aggravated first degree murder as life in prison without the possibility of parole.

This intent is made clear to the President by the bill's construction and plain language. The bill erases all references to the death penalty from Washington's sentencing laws, and clarifies that sentencing for individuals convicted of aggravated first degree murder must be life in prison without the possibility of parole.

The President takes seriously that in crafting the bill, the drafters made the decision to eradicate all legislative language pertaining to the death penalty, and also that the underlying bill exclusively contains provisions concerned with criminal sentencing, not with the elements of any criminal offense.

Therefore, the President finds that the drafter's clear intent is to enact a sentencing reform, one that would eliminate the death penalty entirely, and mandate life in prison without the possibility of parole as the sole sentence for aggravated first degree murder.

Guided by this reading of the scope and object of the bill, the President makes the following rulings regarding Amendments No. 615, No. 616, and No. 681.

Amendment No. 615 seeks to amend RCW 10.95.040 to retain the death penalty as a sentencing option for persons who have been convicted of aggravated first degree murder in cases where the victim is a law enforcement officer as provided in RCW 10.95.020(1).

While the President finds that the amendment does fit within the scope of the underlying bill by nature of its pertaining to the death penalty, he notes that its aim is to maintain the availability of the death penalty under a specific condition.

Retaining the death penalty in any form under any circumstance is in direct contradiction with the bill's object, which is to entirely eliminate the death penalty.

THIRTY EIGHTH DAY, FEBRUARY 14, 2018

2018 REGULAR SESSION

In addition to looking at the object of the underlying bill, the President believes it is instructive to follow senate precedent and look to the object of the amendment, in order to determine whether there exists a conflict between the two.

Aggravated first degree murder is defined in the RCWs as first degree murder that takes place under certain enumerated circumstances. There currently exists no distinction in state law between the first degree murder of a law enforcement officer, and first degree murder under the other enumerated aggravating circumstances. They are all considered aggravated first degree murder.

The amendment seeks to provide that first degree murder under one circumstance would be treated differently than all other aggravated first degree murders for the purpose of sentencing.

In retaining the death penalty for those convicted of murdering a law enforcement officer, the amendment would effectively create a new criminal offense (first degree murder of a law enforcement officer). The underlying bill is a sentencing bill—it is not a bill that concerns itself with the definition of a criminal offense.

This creation of a new criminal offense, which is the object of the amendment before us, thus has no foundation in the underlying bill—which is concerned solely with the sentencing available for the existing criminal offense of aggravated first degree murder—and therefore violates any reasonable reading of its object.

Were it so inclined, the legislature could separately establish a new criminal offense, first degree murder of a law enforcement officer, as well as available sentencing options for that offense, but to do so in the form of amendatory language to SB 6052 would change the object of the bill. The amendment is therefore out of order and Senator Pedersen’s point is well-taken.

POINT OF ORDER

Senator Fain: “Thank you Mr. President. Pursuant to Rule 32, it is empowered, members of the chamber, to overrule a decision of the President and I am not going to do that at this particular time but I do think, Mr. President, that it is incumbent upon me to point out that I believe that that ruling may create some problems for us in the future. For instance, if a piece of legislation was offered that eliminated the speed limit on a particular highway and an amendment was adopted or proposed in this chamber that instead said we are going to set the speed limit at 70 miles per hour that, with your ruling, you have set a precedent that that would no longer be within the scope or object of the bill, or, in your case, the object of the bill. I am very concerned that that has grossly limited the ability to amend legislation on the floor of the Senate. And so I wanted to make those points out loud. I wanted to make sure the entire chamber was aware of the type of precedence that this setting here today because I do believe it will substantially change the nature of this body. Thank you Mr. President.”

REPLY BY THE PRESIDENT

President Habib: “Senator Fain, I will briefly address that. I know we are up against a deadline, but I will briefly address your remarks simply to say that, I think, legislators should take very seriously any bill which has as its object something in totality. Such as eliminating the speed limit. Of course, if that were the object of the bill, one would question whether that bill would be successful on final passage. And, I think we would all agree, that it would likely fail. If it were, if it were extreme in its totality or, but that does not mean that there are not bills whose

purpose of object is to be extreme and the President finds that in this case the object of this bill is to have a total elimination of the death penalty. And the senators can decide upon final passage whether or not taking it a step that is entire like that is what they seek to do. But it is not within the object to start carving out instances where the death penalty will remain.”

MOTION

Senator Fain: “Mr. President, you have convinced me. Pursuant to Rule 32, I now appeal the decision of the President and ask the body, Shall the decision of the President stand as the judgement of the Senate?”

Senator Keiser assumed the chair.

The President Pro Tempore declared the question before the Senate to be: Shall the decision of the President that Senator Pedersen’s point of order that striking amendment no. 615 by Senator O’Ban is beyond the scope and object of Senate Bill No. 6052 be well-taken stand as the judgement of the senate?

Senator Sheldon demanded a roll call.

The President Pro Tempore declared that one-sixth of the members supported the demand and the demand was sustained.

Senator Liias spoke in favor of the decision.

Senator O’Ban spoke against the decision.

MOTION

On motion of Senator Liias, further consideration of Senate Bill No. 6052 was deferred and the bill held its place on the second reading calendar.

MOTION

At 3:46 p.m., on motion of Senator Liias, the Senate was declared to be at ease subject to the call of the President.

The Senate was called to order at 4:02 p.m. by President Pro Tempore Keiser.

The senate resumed consideration of Senate Bill No. 6052 which had been deferred earlier in the day.

The President Pro Tempore declared the question before the Senate to be: Shall the decision of the President that Senator Pedersen’s point of order that striking amendment no. 615 by Senator O’Ban is beyond the scope and object of Senate Bill No. 6052 be well-taken stand as the judgement of the senate?

ROLL CALL

The Secretary called the roll on the decision of the President that Senator Petersen’s point of order be well-taken and the decision of the President was allowed to stand as the judgement of the Senate by the following vote: Yeas, 25; Nays, 23; Absent, 0; Excused, 1.

Voting yea: Senators Billig, Carlyle, Chase, Cleveland, Conway, Darneille, Dhingra, Frockt, Hasegawa, Hobbs, Hunt, Keiser, Kuderer, Liias, McCoy, Mullet, Nelson, Palumbo,

Pedersen, Ranker, Rolfes, Saldaña, Takko, Van De Wege and Wellman

Voting nay: Senators Angel, Bailey, Becker, Braun, Brown, Ericksen, Fain, Fortunato, Hawkins, Honeyford, King, Miloscia, O'Ban, Padden, Rivers, Schoesler, Sheldon, Short, Wagoner, Walsh, Warnick, Wilson and Zeiger

Excused: Senator Baumgartner.

The decision by the President of the Point of Order by Senator Pedersen, having received the necessary majority, was declared to be the judgement of the senate.

The President resumed the chair.

REMARKS BY SENATOR FAIN

Senator Fain: "Thank you Mr. President. Do you want to grab a beer later?" [Laughter]

REPLY BY THE PRESIDENT

President Habib: "If not appealed by any member of the body. [Laughter] This is the kind of president people like to get a beer with."

MOTION

Senator Padden moved that the following striking amendment no. 616 by Senator Padden be adopted:

Strike everything after the enacting clause and insert the following:

"**Sec. 1.** RCW 10.95.040 and 1981 c 138 s 4 are each amended to read as follows:

(1) If a person is charged with aggravated first degree murder as defined by RCW 10.95.020 and the victim was a corrections officer as provided in RCW 10.95.020(1), the prosecuting attorney shall file written notice of a special sentencing proceeding to determine whether or not the death penalty should be imposed when there is reason to believe that there are not sufficient mitigating circumstances to merit leniency.

(2) The notice of special sentencing proceeding shall be filed and served on the defendant or the defendant's attorney within thirty days after the defendant's arraignment upon the charge of aggravated first degree murder unless the court, for good cause shown, extends or reopens the period for filing and service of the notice. Except with the consent of the prosecuting attorney, during the period in which the prosecuting attorney may file the notice of special sentencing proceeding, the defendant may not tender a plea of guilty to the charge of aggravated first degree murder nor may the court accept a plea of guilty to the charge of aggravated first degree murder or any lesser included offense.

(3) If a notice of special sentencing proceeding is not filed and served as provided in this section, the prosecuting attorney may not request the death penalty.

Sec. 2. RCW 10.95.050 and 1981 c 138 s 5 are each amended to read as follows:

(1) If a defendant is adjudicated guilty of aggravated first degree murder and the victim was a corrections officer as provided in RCW 10.95.020(1), whether by acceptance of a plea of guilty, by verdict of a jury, or by decision of the trial court sitting without a jury, a special sentencing proceeding shall be held if a notice of special sentencing proceeding was filed and served as provided by RCW 10.95.040. No sort of plea,

admission, or agreement may abrogate the requirement that a special sentencing proceeding be held.

(2) A jury shall decide the matters presented in the special sentencing proceeding unless a jury is waived in the discretion of the court and with the consent of the defendant and the prosecuting attorney.

(3) If the defendant's guilt was determined by a jury verdict, the trial court shall reconvene the same jury to hear the special sentencing proceeding. The proceeding shall commence as soon as practicable after completion of the trial at which the defendant's guilt was determined. If, however, unforeseen circumstances make it impracticable to reconvene the same jury to hear the special sentencing proceeding, the trial court may dismiss that jury and convene a jury pursuant to subsection (4) of this section.

(4) If the defendant's guilt was determined by plea of guilty or by decision of the trial court sitting without a jury, or if a retrial of the special sentencing proceeding is necessary for any reason including but not limited to a mistrial in a previous special sentencing proceeding or as a consequence of a remand from an appellate court, the trial court shall impanel a jury of twelve persons plus whatever alternate jurors the trial court deems necessary. The defense and prosecution shall each be allowed to peremptorily challenge twelve jurors. If there is more than one defendant, each defendant shall be allowed an additional peremptory challenge and the prosecution shall be allowed a like number of additional challenges. If alternate jurors are selected, the defense and prosecution shall each be allowed one peremptory challenge for each alternate juror to be selected and if there is more than one defendant each defendant shall be allowed an additional peremptory challenge for each alternate juror to be selected and the prosecution shall be allowed a like number of additional challenges."

On page 1, line 4 of the title, after "murder" strike the remainder of the title and insert "unless the victim was a corrections officer; amending RCW 10.95.040 and 10.95.050; and prescribing penalties."

POINT OF ORDER

Senator Pedersen: "I would request a ruling on scope and object of this amendment as well, in particular the object. Thank you Mr. President. I think the issue is identical with this amendment as it was with the previous amendment. It retains the death penalty for a class of cases and so is outside the object of the bill."

Senator Padden: "Thank you Mr. President. I just want to indicate that this was the amendment that would deal with the killing of a corrections officer by somebody who is an inmate, as happened in January of 2011 with Jayme Biendl and Byron Scherf. I really think that this would give you a chance, Mr. President, as we often do, to reconsider things and for much of the same reasons as Senator O'Ban indicated earlier, you know, that this amendment should be within scope and object and I would ask you to consider ruling that way."

President Habib: "Senator Padden, in your remaining time, can you, and I ask this recognizing that you are not only a seasoned senator but also a jurist, former jurist, can you distinguish this amendment from the previous amendment and the ruling on the previous amendment?"

Senator Padden: "Well, I think the only difference, Mr. President is that I think this amendment is in, you already ruled on scope, that the amendment was in scope, so the issue is object and I think it is in substantial compliance with the object of the

THIRTY EIGHTH DAY, FEBRUARY 14, 2018

2018 REGULAR SESSION

bill because it is just a very, very small number of people that this would ever apply to. I am guessing less than a handful. And so I do believe that it is in substantial compliance with the object of the bill to eliminate the death penalty. If you are eliminating it for 99.8 percent or 99.9 percent of the population out there.”

RULING BY THE PRESIDENT

President Habib: “The President finds, appreciates arguments on both sides, and finds, pursuant to my ruling on the previous amendment, that this amendment, the amendment before, by Senator Padden, does fit within the scope of the underlying bill however, does contradict the object of the underlying bill. That object being the elimination of the death penalty in its entirety not to create a sentencing regime or to make distinctions about various crimes and their potential sentences but rather to make a structural shift as, away from the using the death penalty as a mode of punishment altogether.”

WRITTEN RULING: Amendment No. 616 retains the death penalty as an option for aggravated first degree murder in cases where the victim is a corrections officer as provided in RCW 10.95.020(1). As with the previous amendment, this fits within the scope of the bill, but for the same reasons listed above it violates the object, which is to revise sentencing laws to wholly abolish the death penalty.

For these reason, the President finds that the amendment would change the object of the bill, and the amendment is therefore out of order and Senator Pedersen’s point is well-taken.

MOTION

Senator Rivers moved that the following striking amendment no. 681 by Senator Rivers be adopted:

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 1. RCW 10.95.040 (Special sentencing proceeding—Notice—Filing—Service) and 1981 c 138 s 4 are each repealed.

Sec. 1. RCW 10.95.050 and 1981 c 138 s 5 are each amended to read as follows:

(1) If a defendant is adjudicated guilty of aggravated first degree murder and has made a request for the death penalty in lieu of a sentence of life without parole, whether by acceptance of a plea of guilty, by verdict of a jury, or by decision of the trial court sitting without a jury, a special sentencing proceeding shall be held (~~if a notice of special sentencing proceeding was filed and served as provided by RCW 10.95.040~~). No sort of plea, admission, or agreement may abrogate the requirement that a special sentencing proceeding be held.

(2) A jury shall decide the matters presented in the special sentencing proceeding unless a jury is waived in the discretion of the court and with the consent of the defendant and the prosecuting attorney.

(3) If the defendant's guilt was determined by a jury verdict, the trial court shall reconvene the same jury to hear the special sentencing proceeding. The proceeding shall commence as soon as practicable after completion of the trial at which the defendant's guilt was determined. If, however, unforeseen circumstances make it impracticable to reconvene the same jury to hear the special sentencing proceeding, the trial court may dismiss that jury and convene a jury pursuant to subsection (4) of this section.

(4) If the defendant's guilt was determined by plea of guilty or by decision of the trial court sitting without a jury, or if a retrial

of the special sentencing proceeding is necessary for any reason including but not limited to a mistrial in a previous special sentencing proceeding or as a consequence of a remand from an appellate court, the trial court shall impanel a jury of twelve persons plus whatever alternate jurors the trial court deems necessary. The defense and prosecution shall each be allowed to peremptorily challenge twelve jurors. If there is more than one defendant, each defendant shall be allowed an additional peremptory challenge and the prosecution shall be allowed a like number of additional challenges. If alternate jurors are selected, the defense and prosecution shall each be allowed one peremptory challenge for each alternate juror to be selected and if there is more than one defendant each defendant shall be allowed an additional peremptory challenge for each alternate juror to be selected and the prosecution shall be allowed a like number of additional challenges.”

On page 1, line 4 of the title, after "murder" strike the remainder of the title and insert "unless the defendant has requested the death penalty; amending RCW 10.95.050; repealing RCW 10.95.040; and prescribing penalties.”

POINT OF ORDER

Senator Pedersen: “Thank you Mr. President. I would request that you make a ruling of the scope and object of this amendment as well. Thank you Mr. President. I think that the argument on this amendment is identical to the argument on the previous amendments. It does not eliminate the death penalty. In fact, it seeks to carve out an exception and retain the death penalty in certain cases. So, I believe it is outside the object consistent with your prior rulings.”

Senator Rivers: “Thank you Mr. President, I respectfully disagree. This amendment is allows a prisoner, someone who has been convicted to decide whether they would like to live or not. And it gives them the ability to make that decision for themselves. So, I think that it absolutely in line with this. It’s an option that is available. You know, Wesley Allen Dodd in the early 70s requested to be put to death and his wish was granted. In fact, he was the first hanging. I don’t think we should hang people, by the way, but he was the first hanging in our state in a hundred years I think. And so I think that this bill is absolutely in line. It’s the right of that individual to make this choice and so I offer this amendment.”

RULING BY THE PRESIDENT

President Habib: “Thank you. Again, the President finds, this amendment is slightly different than the previous two and, again, there will be a one omnibus published ruling on all three of these. This amendment is slightly different. And the President does find that, pursuant to my ruling on the previous two points of order, that this amendment does violate the object of the bill for the same reasons in so far as the object was to eliminate the death penalty not to establish a sentencing reform bill but structurally to move the state out of the death penalty as other states have done but, in addition, the President finds that, though it’s not necessary to reach this ruling, that this amendment also poses some questions about scope as well in so far as it seeks to establish a way for defendants to request a different type of sentence, it’s a type of procedural mechanism that is not anticipated in the bill. The President doesn’t know whether it exists in other contexts in the law but it’s certainly not anticipated in the bill and, therefore, may also be out of scope. In any case, not necessary to reach a precedential ruling on that. Suffice it to

say that it does violate the object of the underlying bill as did the previous two amendments before the senate.”

WRITTEN RULING: Amendment No. 681 retains the death penalty as an option for aggravated first degree murder when the defendant has requested the death penalty.

The President finds that the object of the underlying bill—revising sentencing laws to eliminate the death penalty—is at most only tangentially related to what defendants in these cases may desire for themselves. As such, introducing an entirely new sentencing mechanism, one based on defendant input, falls far outside the policy objective of the underlying bill.

The amendment, therefore, exceeds the object of the bill, and Senator Pedersen’s point is well- taken.

MOTION

On motion of Senator Walsh, the rules were suspended, Senate Bill No. 6052 was advanced to third reading, the second reading considered the third and the bill was placed on final passage.

Senators Walsh and Miloscia spoke in favor of passage of the bill.

Senators Schoesler, Padden, O’Ban, Becker and Sheldon spoke against passage of the bill.

MOTION

Senator Liias demanded that the previous question be put.

The President declared that at least two additional senators joined the demand and the demand was sustained.

The President declared the question before the Senate to be, “Shall the main question be now put?”

The motion by Senator Liias carried and the previous question was put by a rising vote.

The President declared the question before the Senate to be the final passage of Senate Bill No. 6052.

ROLL CALL

The Secretary called the roll on the final passage of Senate Bill No. 6052 and the bill passed the Senate by the following vote: Yeas, 26; Nays, 22; Absent, 0; Excused, 1.

MOTION

On motion of Senator Fain, the motion by Senator Fain that Second Substitute Senate Bill No. 6268, an act relating to creating the orca protection act, be made a special order of business was withdrawn.

The Senate resumed consideration of Second Substitute Senate Bill No. 6268 which had been deferred earlier in the day.

MOTION

Senator Ranker moved that the following amendment no. 647 by Senators Ranker, Rolfes and Van De Wege be adopted:

On page 2, line 6, after "active." insert "In the event that orca whales are not present in marine waters of Puget Sound, emphasis will be placed on patrols that protect living marine resources in northern Puget Sound."

POINT OF ORDER

Senator Fain: “Thank you Mr. President, I appreciate the opportunity to speak on my point of order. I rise to a point of scope and object on this particular amendment. The underlying bill explicitly references the orca protection act. In fact, if you were to read the entirety of the bill, you will find that there is, in fact, no other mention of marine or other whales that are actually listed in the act. It is specific to, it is specific to orcas in fact. And so, while we are talking about whales certainly, the entirety of the bill is about orcas. Now, this amendment Mr. President as I look at it here, has to do with the Department of Fish and Wildlife and their patrols emphasizing marine resource protection when orcas are not present. So, Mr. President, the question that I have and the point of order that I am bringing is that, if the entirety of the underlying bill is about orca protection and the amendment that is in front of us is about deploying these resources to other things, to marine resource protection when orcas are *not* present, it just seems that it is wildly out of the object of the bill per the President’s previous ruling. Thank you Mr. President.”

PARLIAMENTARY INQUIRY

Senator Liias: "Thank you Mr. President. Did we defer action on Senate Bill 6362?"

POINT OF ORDER

Senator Ericksen: "Thank you Mr. President. I would request a scope and object ruling on this amendment. It appears to me that this amendment exempts a certain classification from the bill. Your previous ruling tonight says it's outside the object if you exempt a certain category, as in the death penalty bill to exempt crimes committed against law enforcement officers. This particular amendment exempts an entire class of universities from the underlying bill which I believe is outside the object of the underlying bill."

President Habib: "Senator Liias."

Senator Liias: "Thank you Mr. President. I appreciate the gentleman's concern. The underlying bill does list a variety of exemptions from the consumer protections that are included in the bill. So, this is adding one more exemption to a list that is already contained within the bill so I believe that it falls squarely within the scope and object of the bill before us."

RULING BY THE PRESIDENT

President Habib: "Senator Ericksen, as to your point of order on the scope and object of the amendment, the President finds that, as was stated by Senator Liias, where there are, where the object of the bill is to, is made clear by distinguishing certain or itemizing certain classifications, groups, entities then adding or

subtracting does not violate scope and object. Adding would violate scope if it were of a substantially different kind and there are, there is prior precedent of all of these questions. The difference, and I know, having voted to overturn and appeal the ruling of the President, there is now suddenly much zealous adoption of the President's position on the previous ruling. Nevertheless, there is a distinction in that instance. The object of the bill was not to carve out or make specific exemptions or itemize lists, but was to entirely make a policy shift for which itemizing would actually violate, which would violate that object. This is of a very different kind and the President finds the point of, finds Senator Ericksen's point out of order."

Senator Liias spoke in favor of adoption of the amendment.

The President declared the question before the Senate to be the adoption of amendment no. 660 by Senator Liias on page 19, line 7 to Second Substitute Senate Bill No. 6029.

Modifying basic education provisions.

MOTION

On motion of Senator Wellman, Second Substitute Senate Bill No. 6362 was substituted for Senate Bill No. 6362 and the substitute bill was placed on the second reading and read the second time.

MOTION

Senator Wellman moved that the following striking amendment no. 670 by Senator Wellman be adopted:

Strike everything after the enacting clause and insert the following:

"PART I: PROGRAM FUNDING

Sec. 101. RCW 28A.150.260 and 2017 3rd sp.s. c 13 s 402 are each amended to read as follows:

The purpose of this section is to provide for the allocation of state funding that the legislature deems necessary to support school districts in offering the minimum instructional program of basic education under RCW 28A.150.220. The allocation shall be determined as follows:

(1) The governor shall and the superintendent of public instruction may recommend to the legislature a formula for the distribution of a basic education instructional allocation for each common school district.

(2)(a) The distribution formula under this section shall be for allocation purposes only. Except as may be required under subsections (4)(b) and (c) and (9) of this section, chapter 28A.155, 28A.165, 28A.180, or 28A.185 RCW, or federal laws and regulations, nothing in this section requires school districts to use basic education instructional funds to implement a particular

instructional approach or service. Nothing in this section requires school districts to maintain a particular classroom teacher-to-student ratio or other staff-to-student ratio or to use allocated funds to pay for particular types or classifications of staff. Nothing in this section entitles an individual teacher to a particular teacher planning period.

(b) To promote transparency in state funding allocations, the superintendent of public instruction must report state per-pupil allocations for each school district for the general apportionment, special education, learning assistance, transitional bilingual, highly capable, and career and technical education programs. The superintendent must also report state general apportionment per-pupil allocations by grade for each school district. The superintendent must report this information in a user-friendly format on the main page of the office's web site and on school district apportionment reports. School districts must include a link to the superintendent's per-pupil allocations report on the main page of the school district's web site. In addition, the budget documents published by the legislature for the enacted omnibus operating appropriations act must report statewide average per-pupil allocations for general apportionment and the categorical programs listed in this subsection.

(3)(a) To the extent the technical details of the formula have been adopted by the legislature and except when specifically provided as a school district allocation, the distribution formula for the basic education instructional allocation shall be based on minimum staffing and nonstaff costs the legislature deems necessary to support instruction and operations in prototypical schools serving high, middle, and elementary school students as provided in this section. The use of prototypical schools for the distribution formula does not constitute legislative intent that schools should be operated or structured in a similar fashion as the prototypes. Prototypical schools illustrate the level of resources needed to operate a school of a particular size with particular types and grade levels of students using commonly understood terms and inputs, such as class size, hours of instruction, and various categories of school staff. It is the intent that the funding allocations to school districts be adjusted from the school prototypes based on the actual number of annual average full-time equivalent students in each grade level at each school in the district and not based on the grade-level configuration of the school to the extent that data is available. The allocations shall be further adjusted from the school prototypes with minimum allocations for small schools and to reflect other factors identified in the omnibus appropriations act.

(b) For the purposes of this section, prototypical schools are defined as follows:

(i) A prototypical high school has six hundred average annual full-time equivalent students in grades nine through twelve;

(ii) A prototypical middle school has four hundred thirty-two average annual full-time equivalent students in grades seven and eight; and

(iii) A prototypical elementary school has four hundred average annual full-time equivalent students in grades kindergarten through six.

(4)(a)(i) The minimum allocation for each level of prototypical school shall be based on the number of full-time equivalent classroom teachers needed to provide instruction over the minimum required annual instructional hours under RCW 28A.150.220 and provide at least one teacher planning period per school day, and based on the following general education average class size of full-time equivalent students per teacher:

| | |
|--------------------------------------|-------|
| General education average class size | |
| Grades K-3 | 17.00 |
| Grade 4 | 27.00 |

| | |
|-------------|-------|
| Grades 5-6 | 27.00 |
| Grades 7-8 | 28.53 |
| Grades 9-12 | 28.74 |

(ii) The minimum class size allocation for each prototypical high school shall also provide for enhanced funding for class size reduction for two laboratory science classes within grades nine through twelve per full-time equivalent high school student multiplied by a laboratory science course factor of 0.0833, based on the number of full-time equivalent classroom teachers needed to provide instruction over the minimum required annual instructional hours in RCW 28A.150.220, and providing at least one teacher planning period per school day:

| | |
|---------------------------------------|-------|
| Laboratory science average class size | |
| Grades 9-12 | 19.98 |

(b)(i) Beginning September 1, 2018, funding for average K-3 class sizes in this subsection (4) may be provided only to the extent of, and proportionate to, the school district's demonstrated actual class size in grades K-3, up to the funded class sizes.

(ii) The office of the superintendent of public instruction shall develop rules to implement this subsection (4)(b).

(c)(i) The minimum allocation for each prototypical middle and high school shall also provide for full-time equivalent classroom teachers based on the following number of full-time equivalent students per teacher in career and technical education:

| | |
|---|-------|
| Career and technical education average class size | |
| Approved career and technical education offered at the middle school and high school level | 23.00 |
| Skill center programs meeting the standards established by the office of the superintendent of public instruction | 20.00 |

(ii) Funding allocated under this subsection (4)(c) is subject to RCW 28A.150.265.

(d) In addition, the omnibus appropriations act shall at a minimum specify:

(i) A high-poverty average class size in schools where more than fifty percent of the students are eligible for free and reduced-price meals; and

(ii) A specialty average class size for advanced placement and international baccalaureate courses.

(5) The minimum allocation for each level of prototypical school shall include allocations for the following types of staff in addition to classroom teachers:

| | Elementary School | Middle School | High School |
|---|-------------------|---------------|-------------|
| Principals, assistant principals, and other certificated building-level administrators | 1.253 | 1.353 | 1.880 |
| Teacher-librarians, a function that includes information literacy, technology, and media to support school library media programs | 0.663 | 0.519 | 0.523 |
| Health and social services: | | | |
| School nurses | 0.076 | 0.060 | 0.096 |

| Psychologists | 0.017 | 0.002 | 0.007 |
| Guidance counselors, a function that includes parent outreach and graduation advising | 0.493 | 1.216 | 2.539 |

| | | | |

| Office support and other noninstructional aides | 2.012 | 2.325 | 3.269 |
| Custodians | 1.657 | 1.942 | 2.965 |
| Classified staff providing student and staff safety | 0.079 | 0.092 | 0.141 |
| Parent involvement coordinators | 0.0825 | 0.00 | 0.00 |

(6)(a) The minimum staffing allocation for each school district to provide district-wide support services shall be allocated per one thousand annual average full-time equivalent students in grades K-12 as follows:

| | |
|--------------------------------------|-------|
| Staff per 1,000 K-12 students | |
| Technology | 0.628 |
| Facilities, maintenance, and grounds | 1.813 |
| Warehouse, laborers, and mechanics | 0.332 |

(b) The minimum allocation of staff units for each school district to support certificated and classified staffing of central administration shall be 5.30 percent of the staff units generated under subsections (4)(a) and (5) of this section and (a) of this subsection.

(7) The distribution formula shall include staffing allocations to school districts for career and technical education and skill center administrative and other school-level certificated staff, as specified in the omnibus appropriations act.

(8)(a) Except as provided in (b) of this subsection, the minimum allocation for each school district shall include allocations per annual average full-time equivalent student for the following materials, supplies, and operating costs as provided in the 2017-18 school year, after which the allocations shall be adjusted annually for inflation as specified in the omnibus appropriations act:

(9) In addition to the amounts provided in subsection (8) of this section and subject to RCW 28A.150.265, the omnibus appropriations act shall provide an amount based on full-time equivalent student enrollment in each of the following:

THIRTY EIGHTH DAY, FEBRUARY 14, 2018

2018 REGULAR SESSION

(a) Exploratory career and technical education courses for students in grades seven through twelve;

(b) Preparatory career and technical education courses for students in grades nine through twelve offered in a high school; and

(c) Preparatory career and technical education courses for students in grades eleven and twelve offered through a skill center.

(10) In addition to the allocations otherwise provided under this section, amounts shall be provided to support the following programs and services:

(a)(i) To provide supplemental instruction and services for students who are not meeting academic standards through the learning assistance program under RCW 28A.165.005 through 28A.165.065, allocations shall be based on the district percentage of students in grades K-12 who were eligible for free or reduced-price meals in the prior school year. The minimum allocation for the program shall provide for each level of prototypical school resources to provide, on a statewide average, 2.3975 hours per week in extra instruction with a class size of fifteen learning assistance program students per teacher.

A qualifying school means a school in which the three-year rolling average of the prior year total annual average enrollment that qualifies for free or reduced-price meals equals or exceeds fifty percent or more of its total annual average enrollment. The minimum allocation for this additional high poverty-based allocation must provide for each level of prototypical school resources to provide, on a statewide average, 1.1 hours per week in extra instruction with a class size of fifteen learning assistance program students per teacher, under RCW 28A.165.055, school districts must distribute the high poverty-based allocation to the schools that generated the funding allocation.

(b)(i) To provide supplemental instruction and services for students whose primary language is other than English, allocations shall be based on the head count number of students in each school who are eligible for and enrolled in the transitional bilingual instruction program under RCW 28A.180.010 through 28A.180.080. The minimum allocation for each level of prototypical school shall provide resources to provide, on a statewide average, 4.7780 hours per week in extra instruction for students in grades kindergarten through six and 6.7780 hours per week in extra instruction for students in grades seven through twelve, with fifteen transitional bilingual instruction program students per teacher. Notwithstanding other provisions of this subsection (10), the actual per-student allocation may be scaled to provide a larger allocation for students needing more intensive intervention and a commensurate reduced allocation for students needing less intensive intervention, as detailed in the omnibus appropriations act.

(ii) To provide supplemental instruction and services for students who have exited the transitional bilingual program, allocations shall be based on the head count number of students in each school who have exited the transitional bilingual program within the previous two years based on their performance on the English proficiency assessment and are eligible for and enrolled in the transitional bilingual instruction program under RCW 28A.180.040(1)(g). The minimum allocation for each prototypical school shall provide resources to provide, on a statewide average, 3.0 hours per week in extra instruction with fifteen exited students per teacher.

(c) To provide additional allocations to support programs for highly capable students under RCW 28A.185.010 through 28A.185.030, allocations shall be based on 5.0 percent of each school district's full-time equivalent basic education enrollment. The minimum allocation for the programs shall provide resources to provide, on a statewide average, 2.1590 hours per week in extra instruction with fifteen highly capable program students per teacher.

(11) The allocations under subsections (4)(a), (5), (6), and (8) of this section shall be enhanced as provided under RCW 28A.150.390 on an excess cost basis to provide supplemental instructional resources for students with disabilities.

(12)(a) For the purposes of allocations for prototypical high schools and middle schools under subsections (4) and (10) of this section that are based on the percent of students in the school who are eligible for free and reduced-price meals, the actual percent of such students in a school shall be adjusted by a factor identified in the omnibus appropriations act to reflect underreporting of free and reduced-price meal eligibility among middle and high school students.

(b) Allocations or enhancements provided under subsections (4), (7), and (9) of this section for exploratory and preparatory career and technical education courses shall be provided only for courses approved by the office of the superintendent of public instruction under chapter 28A.700 RCW.

(13)(a) This formula for distribution of basic education funds shall be reviewed biennially by the superintendent and governor. The recommended formula shall be subject to approval, amendment or rejection by the legislature.

(b) In the event the legislature rejects the distribution formula recommended by the governor, without adopting a new distribution formula, the distribution formula for the previous school year shall remain in effect.

(c) The enrollment of any district shall be the annual average number of full-time equivalent students and part-time students as provided in RCW 28A.150.350, enrolled on the first school day of each month, including students who are in attendance pursuant to RCW 28A.335.160 and 28A.225.250 who do not reside within the servicing school district. The definition of full-time equivalent student shall be determined by rules of the superintendent of public instruction and shall be included as part of the superintendent's biennial budget request. The definition shall be based on the minimum instructional hour offerings required under RCW 28A.150.220. Any revision of the present definition shall not take effect until approved by the house ways and means committee and the senate ways and means committee.

(d) The office of financial management shall make a monthly review of the superintendent's reported full-time equivalent students in the common schools in conjunction with RCW 43.62.050.

Sec. 102. RCW 28A.150.390 and 2017 3rd sp.s. c 13 s 406 are each amended to read as follows:

(1) The superintendent of public instruction shall submit to each regular session of the legislature during an odd-numbered year a programmed budget request for special education programs for students with disabilities. Funding for programs operated by local school districts shall be on an excess cost basis from appropriations provided by the legislature for special education programs for students with disabilities and shall take account of state funds accruing through RCW 28A.150.260 (4)(a), (5), (6), and (8) and 28A.150.415.

(2) The excess cost allocation to school districts shall be based on the following:

(a) A district's annual average headcount enrollment of students ages birth through four and those five year olds not yet

enrolled in kindergarten who are eligible for and enrolled in special education, multiplied by the district's base allocation per full-time equivalent student, multiplied by 1.15; and

(b) A district's annual average full-time equivalent basic education enrollment, multiplied by the district's funded enrollment percent, multiplied by the district's base allocation per full-time equivalent student, multiplied by ~~((0.9309))~~ 0.9609.

(3) As used in this section:

(a) "Base allocation" means the total state allocation to all schools in the district generated by the distribution formula under RCW 28A.150.260 (4)(a), (5), (6), and (8) and 28A.150.415, to be divided by the district's full-time equivalent enrollment.

(b) "Basic education enrollment" means enrollment of resident students including nonresident students enrolled under RCW 28A.225.225 and students from nonhigh districts enrolled under RCW 28A.225.210 and excluding students residing in another district enrolled as part of an interdistrict cooperative program under RCW 28A.225.250.

(c) "Enrollment percent" means the district's resident special education annual average enrollment, excluding students ages birth through four and those five year olds not yet enrolled in kindergarten, as a percent of the district's annual average full-time equivalent basic education enrollment.

(d) "Funded enrollment percent" means the lesser of the district's actual enrollment percent or thirteen and five-tenths percent.

NEW SECTION. Sec. 103. A new section is added to chapter 28A.160 RCW to read as follows:

(1) Subject to the availability of amounts appropriated for this specific purpose, a transportation alternate funding grant program is created.

(2) As part of the award process for the grants, the superintendent of public instruction must include a review of the school district's efficiency rating, key performance indicators, and local school district characteristics such as unique geographic constraints, low enrollment, geographic density of students, or whether the district is a nonhigh district.

Sec. 104. RCW 28A.165.055 and 2017 3rd sp.s. c 13 s 405 are each amended to read as follows:

(1) The funds for the learning assistance program shall be appropriated in accordance with RCW 28A.150.260 and the omnibus appropriations act. The distribution formula is for school district allocation purposes only, except as provided in RCW 28A.150.260(10)(a)(ii), but all funds appropriated for the learning assistance program must be expended for the purposes of RCW 28A.165.005 through 28A.165.065.

(2) A district's high poverty-based allocation is generated by its qualifying schools ~~((buildings))~~ as defined in RCW 28A.150.260(10) and must be expended by the district for those ~~((buildings))~~ schools. This funding must supplement and not supplant the district's expenditures under this chapter for those schools ~~((buildings))~~.

PART II: COMPENSATION

NEW SECTION. Sec. 201. The legislature recognizes that Initiative Measure No. 1433 was approved by the voters of the state of Washington in 2016 requiring employers to provide paid sick leave to each of its employees. The legislature acknowledges that the enactment of this initiative contributes to the costs of operations of the state's public schools and intends to provide funding in the omnibus appropriations act to support school districts with these additional costs.

Sec. 202. RCW 28A.150.410 and 2017 3rd sp.s. c 13 s 101 are each amended to read as follows:

(1) Through the 2017-18 school year, the legislature shall establish for each school year in the appropriations act a statewide salary allocation schedule, for allocation purposes only, to be used to distribute funds for basic education certificated instructional staff salaries under RCW 28A.150.260. For the purposes of this section, the staff allocations for classroom teachers, teacher-librarians, guidance counselors, and student health services staff under RCW 28A.150.260 are considered allocations for certificated instructional staff.

(2) Through the 2017-18 school year, salary allocations for state-funded basic education certificated instructional staff shall be calculated by the superintendent of public instruction by determining the district's average salary for certificated instructional staff, using the statewide salary allocation schedule and related documents, conditions, and limitations established by the omnibus appropriations act.

(3) Through the 2017-18 school year, no more than ninety college quarter-hour credits received by any employee after the baccalaureate degree may be used to determine compensation allocations under the state salary allocation schedule and LEAP documents referenced in the omnibus appropriations act, or any replacement schedules and documents, unless:

(a) The employee has a master's degree; or

(b) The credits were used in generating state salary allocations before January 1, 1992.

(4) Beginning in the 2007-08 school year and through the 2017-18 school year, the calculation of years of service for occupational therapists, physical therapists, speech-language pathologists, audiologists, nurses, social workers, counselors, and psychologists regulated under Title 18 RCW may include experience in schools and other nonschool positions as occupational therapists, physical therapists, speech-language pathologists, audiologists, nurses, social workers, counselors, or psychologists. The calculation shall be that one year of service in a nonschool position counts as one year of service for purposes of this chapter, up to a limit of two years of nonschool service. Nonschool years of service included in calculations under this subsection shall not be applied to service credit totals for purposes of any retirement benefit under chapter 41.32, 41.35, or 41.40 RCW, or any other state retirement system benefits.

(5) By the ~~((2019-20))~~ 2018-19 school year, the minimum state allocation for salaries for certificated instructional staff in the basic education program must be increased ~~((beginning in the 2018-19 school year))~~ to provide a statewide average allocation of sixty-four thousand dollars adjusted for inflation from the 2017-18 school year.

(6) By the ~~((2019-20))~~ 2018-19 school year, the minimum state allocation for salaries for certificated administrative staff in the basic education program must be increased ~~((beginning in the 2018-19 school year))~~ to provide a statewide average allocation of ninety-five thousand dollars adjusted for inflation from the 2017-18 school year.

(7) By the ~~((2019-20))~~ 2018-19 school year, the minimum state allocation for salaries for classified staff in the basic education program must be increased ~~((beginning in the 2018-19 school year))~~ to provide a statewide average allocation of forty-five thousand nine hundred twelve dollars adjusted by inflation from the 2017-18 school year.

(8) ~~((To implement the new minimum salary allocations in subsections (5) through (7) of this section, the legislature must fund fifty percent of the increased salary allocation in the 2018-19 school year and the entire increased salary allocation in the 2019-20 school year.))~~ For school year 2018-19, a district's minimum state allocation for salaries is the greater of the district's

2018 REGULAR SESSION

2017-18 state salary allocation, adjusted for inflation, or the district's allocation based on the state salary level specified in subsections (5) through (7) of this section, and as further specified in the omnibus appropriations act.

(9) Beginning with the 2018-19 school year, state allocations for salaries for certificated instructional staff, certificated administrative staff, and classified staff must be adjusted for regional differences in the cost of hiring staff. Adjustments for regional differences must be specified in the omnibus appropriations act for each school year through at least school year 2022-23. For school years 2018-19 through school year 2022-23, the school district regionalization factors are based on the median single-family residential value of each school district and proximate school district median single-family residential value as described in RCW 28A.150.412.

(10) Beginning with the 2023-24 school year and every ~~((six))~~ four years thereafter, the minimum state salary allocations and school district regionalization factors for certificated instructional staff, certificated ~~((administration—[administrative]))~~ administrative staff, and classified staff must be reviewed and rebased, as provided under RCW 28A.150.412, to ensure that state salary allocations continue to align with staffing costs for the state's program of basic education.

(11) For the purposes of this section, "inflation" has the meaning provided in RCW 28A.400.205 for "inflationary adjustment index."

Sec. 203. RCW 28A.150.412 and 2017 3rd sp.s. c 13 s 104 are each amended to read as follows:

(1) Beginning with the 2023 regular legislative session, and every ~~((six))~~ four years thereafter, the legislature shall review and rebase state basic education compensation allocations compared to school district compensation data, regionalization factors, what inflationary measure is the most representative of actual market experience for school districts, and other economic information. The legislature shall revise the minimum allocations ~~((and))~~, regionalization factors, and inflationary measure if necessary to ensure that state basic education allocations continue to provide market-rate salaries and that regionalization adjustments reflect actual economic differences between school districts.

(2)(a) For school districts with single-family residential values above the statewide median residential value, regionalization factors for school years 2018-19 through school year 2022-23 are as follows:

- (i) For school districts in tercile 1, state salary allocations for school district employees are regionalized by six percent;
- (ii) For school districts in tercile 2, state salary allocations for school district employees are regionalized by twelve percent; and
- (iii) For school districts in tercile 3, state salary allocations for school district employees are regionalized by eighteen percent.

(b) For school districts sharing a boundary with any school district with a regionalization factor more than one tercile higher, the regionalization factor for the district with the lower regionalization factor must be increased by six percent, if the lower district is located west of the crest of the Cascade mountains.

(c) Additional school district adjustments are identified in the omnibus appropriations act, and these adjustments are partially reduced or eliminated by the 2022-23 school year as follows:

- (i) Adjustments that increase the regionalization factor to a value that is greater than the tercile 3 regionalization factor must be reduced by two percentage points each school year beginning with school year 2020-21, through 2022-23.
- (ii) Adjustments that increase the regionalization factor to a value that is less than or equal to the tercile 3 regionalization

factor must be reduced by one percentage point each school year beginning with school year 2020-21, through 2022-23.

(3) To aid the legislature in reviewing and rebasing regionalization factors, the department of revenue shall, by November 1, 2022, and by November 1st every ~~((six))~~ four years thereafter, determine the median single-family residential value of each school district as well as the median value of proximate districts within fifteen miles of the boundary of the school district for which the median residential value is being calculated.

(4) No district may receive less state funding for the minimum state salary allocation as compared to its prior school year salary allocation as a result of adjustments that reflect updated regionalized salaries.

(5) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Median residential value of each school district" means the median value of all single-family residential parcels included within a school district and any other school district that is proximate to the school district.

(b) "Proximate to the school district" means within fifteen miles of the boundary of the school district for which the median residential value is being calculated.

(c) "School district employees" means state-funded certificated instructional staff, certificated administrative staff, and classified staff.

(d) "School districts in tercile 1" means school districts with median single-family residential values in the first tercile of districts with single-family residential values above the statewide median residential value.

(e) "School districts in tercile 2" means school districts with median single-family residential values in the second tercile of districts with single-family residential values above the statewide median residential value.

(f) "School districts in tercile 3" means school districts with median single-family residential values in the third tercile of districts with single-family residential values above the statewide median residential value.

(g) "Statewide median residential value" means the median value of single-family residential parcels located within all school districts, reduced by five percent.

NEW SECTION. Sec. 204. (1) For the 2018-19 school year and subject to the availability of amounts appropriated for this specific purpose, a salary safety net grant program is created to provide districts additional funding for salaries if they can demonstrate, at a minimum, that the district's total certificated instructional staff state salary allocation is negatively impacting the district's ability to recruit and retain staff and:

- (a) The district's total certificated instructional staff average experience is significantly higher than the statewide median; or
- (b) The district can demonstrate the regionalization factor applied to the district is inappropriately low because of circumstances unique to the district such as restrictions on staff mobility combined with an affordability index higher than their current regionalization factor.

(2) The total grant funding awarded to a district by the superintendent of public instruction under this section may not be greater than a two percent increase to the statewide average certificated instructional staff salary allocation to the district.

(3) The superintendent of public instruction shall report back to the legislature by December 2019, on the number and types of salary safety net grants awarded, the districts receiving the grants, the rationale for the award, and any recommendations for modifications to the state's salary or regionalization formula that would address the issues identified for the districts receiving the awards.

(4) This section expires January 1, 2020.

Sec. 205. RCW 28A.400.006 and 2017 3rd sp.s. c 13 s 703 are each amended to read as follows:

(1) A school district may not ~~((provide any)) increase average total school district expenditures for certificated administrative staff ((with a percentage increase to total salary)) for the 2018-19 school year ((, including supplemental contracts, that exceeds the previous calendar year's annual average consumer price index, using the official current base compiled by the bureau of labor statistics, United States department of labor, for the city of Seattle. ~~(2) Changes to any terms of an employment contract for nonrepresented employees must comply with the same requirements established in this section.~~

~~(3) This section expires August 31, 2019.~~

Sec. 206. RCW 28A.400.200 and 2017 3rd sp.s. c 13 s 103 are each amended to read as follows:

(1) Every school district board of directors shall fix, alter, allow, and order paid salaries and compensation for all district employees in conformance with this section.

(b) Through the 2018-19 school year, fringe benefit contributions for certificated instructional staff shall be included as salary under (a)(i) of this subsection only to the extent that the district's actual average benefit contribution exceeds the amount of the insurance benefits allocation, less the amount remitted by districts to the health care authority for retiree subsidies, provided per certificated instructional staff unit in the state operating appropriations act in effect at the time the compensation is payable. For purposes of this section, fringe benefits shall not include payment for unused leave for illness or injury under RCW 28A.400.210; employer contributions for old age survivors insurance, workers' compensation, unemployment compensation, and retirement benefits under the Washington state retirement system; or employer contributions for health benefits in excess of the insurance benefits allocation provided per certificated instructional staff unit in the state operating appropriations act in effect at the time the compensation is payable. A school district may not use state funds to provide employer contributions for such excess health benefits.

(c) Salary and benefits for certificated instructional staff in programs other than basic education shall be consistent with the salary and benefits paid to certificated instructional staff in the basic education program.

(4)(a) Salaries and benefits for certificated instructional staff may exceed the limitations in subsection (3) of this section only by separate contract for additional time, for additional responsibilities, or for incentives. (a) The inflationary increase shall be calculated by applying the rate of the yearly increase in the inflationary adjustment index to any state-funded salary base used in state funding formulas for teachers and other school district employees. Beginning with the ~~((2020-21))~~ 2019-20 school year, each school district shall be provided an inflationary adjustment allocation sufficient to grant this inflationary increase.

No later than the end of the school year, each school district shall certify to the superintendent of public instruction that it has spent funds provided for inflationary increases on salaries and salary-related benefits.

(c) Any funded inflationary increase shall be included in the salary base used to determine inflationary increases for school employees in subsequent years. For teachers and other certificated instructional staff, the rate of the annual inflationary increase funded for certificated instructional staff shall be applied to the base salary used with the statewide salary allocation methodology established under RCW 28A.150.410 and to any other salary allocation methodologies used to recognize school district personnel costs.

(ii) "Energy audit" means a survey of a building or complex which identifies the type, size, energy use level, and major energy using systems; which determines appropriate energy conservation maintenance or operating procedures and assesses any need for the acquisition and installation of energy conservation measures, including solar energy and renewable resource measures.

(iii) "Energy capital improvement" means the installation, or modification of the installation, of energy conservation measures in a building which measures are primarily intended to reduce energy consumption or allow the use of an alternative energy source.

(d) Those energy capital improvements which are identified as being cost-effective in the audits authorized by this section.

(e) Purchase or installation of additional major items of equipment and furniture: PROVIDED, That vehicles shall not be purchased with capital projects fund money.

However, to the extent the funds are used for the purpose under this subsection (2)(g), the school district shall transfer to the district's general fund the portion of the capital projects fund used for this purpose. The office of the superintendent of public instruction shall develop accounting guidelines for these transfers in accordance with internal revenue service regulations. (1) Beginning in calendar year 2019 and each calendar year thereafter, the state must provide state local effort assistance funding to supplement school district enrichment levies as provided in this section.

(2) For an eligible school district, annual local effort assistance funding is equal to the school district's maximum local effort assistance multiplied by a fraction equal to the school district's actual enrichment levy divided by the school district's maximum allowable enrichment levy.

(3) The state local effort assistance funding provided under this section is not part of the state's program of basic education deemed by the legislature to comply with the requirements of Article IX, section 1 of the state Constitution.

(4) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Eligible school district" means a school district whose maximum allowable enrichment levy divided by the school district's total student enrollment in the prior school year is less than the state local effort assistance threshold.

(b) For the purpose of this section, "inflation" means ((inflation as defined in RCW 84.55.005)), for any school year, the rate of

the yearly increase of the previous calendar year's annual average consumer price index for all urban consumers, Seattle area, using the official current base compiled by the bureau of labor statistics, United States department of labor.

(c) "Maximum allowable enrichment levy" means the maximum levy permitted by RCW 84.52.0531.

(d) "Maximum local effort assistance" means ~~((the school district's student enrollment in the prior school year multiplied by))~~ the difference ~~((of))~~ between the following:

(i) The school district's actual prior school year enrollment multiplied by the state local effort assistance threshold; and ((#))

(ii) The school district's maximum allowable enrichment levy ((divided by the school district's student enrollment in the prior school year)).

(e) "Prior school year" means the most recent school year completed prior to the year in which the state local effort assistance funding is to be distributed.

(f) "State local effort assistance threshold" means one thousand five hundred dollars per student, ~~((adjusted))~~ increased for inflation beginning in calendar year 2020.

(g) "Student enrollment" means the average annual resident full-time equivalent student enrollment.

(h) "Resident" means a student who:

(i) Resides within the geographic boundaries of the school district; or

(ii) Transfers into the district by choice under RCW 28A.225.225; except students who participate in an online course or online school program as defined in RCW 28A.250.010, and do not also attend a school within the district, are excluded from the definition.

(5) The home district of a student who transfers into another district by choice under chapter 28A.225 RCW shall not receive local effort assistance funding under this section.

(6) For districts in a high/nonhigh relationship, the enrollments of the nonhigh resident students attending the high school shall only be counted by the nonhigh school districts for purposes of funding under this section.

(7) For school districts participating in an innovation academy cooperative established under RCW 28A.340.080, enrollments of students attending the academy shall be adjusted so that each participant district receives its proportional share of student enrollments for purposes of funding under this section.

Sec. 304. RCW 28A.505.240 and 2017 3rd sp.s. c 13 s 204 are each amended to read as follows:

(1) As required by RCW 84.52.053(4), before a school district may submit an enrichment levy ~~((including a transportation vehicle enrichment levy))~~ under RCW 84.52.053 to the voters, it must have received approval from the office of the superintendent of public instruction of an expenditure plan for the district's enrichment levy and other local revenues as defined in RCW 28A.150.276. Within thirty days after receiving the plan the office of the superintendent of public instruction must notify the school district whether the spending plan is approved. If the office of the superintendent of public instruction rejects a district's proposed spending plan, then the district may submit a revised spending plan, and the superintendent must approve or reject the revised submission within thirty days. The office of the superintendent of public instruction may approve a spending plan only if it determines that the enrichment levy and other local revenues as defined in RCW 28A.150.276(1) will be used solely for permitted enrichment activities as provided in RCW 28A.150.276(2).

(2)(a) Except as provided in (b) of this subsection, after a school district has received voter approval for a levy for an enrichment levy under RCW 84.52.053, a school district may change its spending plan for the voter-approved levy by

submitting a revised spending plan to the office of the superintendent of public instruction for review and approval. To revise a previously approved spending plan, the district must provide notice and an opportunity for review and comment at an open meeting of the school board, and the board must adopt the revised spending plan by resolution. The board must then submit the plan to the office of the superintendent of public instruction. Within thirty days after receiving the revised spending plan the office must notify the school district whether the revised spending plan is approved. The office of the superintendent of public instruction may approve a revised spending plan only if it determines that the enrichment levy and other local revenues as defined in RCW 28A.150.276(1) will be used solely for permitted enrichment activities as provided in RCW 28A.150.276(2).

(b) If the superintendent has approved expenditures for specific purposes under (a) of this subsection, a district may change the relative amounts to be spent for those respective purposes for the same levy in subsequent years without having to first receive approval for the change from the office of the superintendent of public instruction if the district adopts the change as part of its annual budget proposal after a public hearing under RCW 28A.505.060.

(3) This section applies to taxes levied for collection beginning in calendar year 2020 and thereafter.

NEW SECTION. Sec. 305. A new section is added to chapter 84.52 RCW to read as follows:

For districts in a high/nonhigh relationship, if the district is subject to the maximum per pupil limit under RCW 84.52.0531, the high school district's maximum levy amount must be reduced by an amount equal to the estimated amount of the nonhigh payment due to the high school district under RCW 28A.545.030(3) and 28A.545.050 for the school year commencing the year of the levy.

Sec. 306. RCW 84.52.053 and 2017 3rd sp.s. c 13 s 201 are each amended to read as follows:

(1) The limitations imposed by RCW 84.52.050 through 84.52.056, and 84.52.043 shall not prevent the levy of taxes by school districts, when authorized so to do by the voters of such school district in the manner and for the purposes and number of years allowable under Article VII, section 2(a) and Article IX, section 1 of the Constitution of this state. Elections for such taxes shall be held in the year in which the levy is made or, in the case of propositions authorizing two-year through four-year levies for enrichment funding for a school district, authorizing two-year levies for transportation vehicle funds established in RCW 28A.160.130 ~~((through calendar year 2019, authorizing two year levies for transportation vehicle enrichment beginning with calendar year 2020,))~~ or authorizing two-year through six-year levies to support the construction, modernization, or remodeling of school facilities, which includes the purposes of RCW 28A.320.330(2) (f) and (g), in the year in which the first annual levy is made. School district levies authorized under this section shall only be used for enrichment beyond the state-provided funding in the omnibus appropriations act for the basic education program components under RCW 28A.150.200, 28A.150.220, 28A.150.260, 28A.150.390, or 28A.160.180.

(2)(a) Once additional tax levies have been authorized for enrichment funding for a school district for a two-year through four-year period as provided under subsection (1) of this section, no further additional tax levies for enrichment funding for the district for that period may be authorized, except for additional levies to provide for subsequently enacted increases affecting the district's maximum levy.

(b) Notwithstanding (a) of this subsection, any school district that is required to annex or receive territory pursuant to a dissolution of a financially insolvent school district pursuant to RCW 28A.315.225 may call either a replacement or supplemental levy election within the school district, including the territory annexed or transferred, as follows:

(i) An election for a proposition authorizing two-year through four-year levies for enrichment funding for a school district may be called and held before the effective date of dissolution to replace existing enrichment levies and to provide for increases due to the dissolution.

(ii) An election for a proposition authorizing additional tax levies may be called and held before the effective date of dissolution to provide for increases due to the dissolution.

(iii) In the event a replacement levy election under (b)(i) of this subsection is held but does not pass, the affected school district may subsequently hold a supplemental levy election pursuant to (b)(ii) of this subsection if the supplemental levy election is held before the effective date of dissolution. In the event a supplemental levy election is held under (b)(ii) of this subsection but does not pass, the affected school district may subsequently hold a replacement levy election pursuant to (b)(i) of this subsection if the replacement levy election is held before the effective date of dissolution. Failure of a replacement levy or supplemental levy election does not affect any previously approved and existing enrichment levy within the affected school district or districts.

(c) For the purpose of applying the limitation of this subsection (2), a two-year through six-year levy to support the construction, modernization, or remodeling of school facilities shall not be deemed to be a tax levy for enrichment funding for a school district.

(3) A special election may be called and the time therefor fixed by the board of school directors, by giving notice thereof by publication in the manner provided by law for giving notices of general elections, at which special election the proposition authorizing such excess levy shall be submitted in such form as to enable the voters favoring the proposition to vote "yes" and those opposed thereto to vote "no."

(4)(a) Beginning September 1, ~~((2019))~~ 2018, school districts may use enrichment levies ~~((and transportation vehicle enrichment levies))~~ solely to enrich the state's statutory program of basic education as authorized under RCW 28A.150.276.

(b) Beginning with propositions for enrichment levies ~~((and transportation vehicle enrichment levies))~~ for collection in calendar year 2020 and thereafter, a district must receive approval of an enrichment levy expenditure plan from the superintendent of public instruction under RCW 28A.505.240 before submission of the proposition to the voters.

Sec. 307. RCW 84.52.0531 and 2017 3rd sp.s. c 13 s 203 are each amended to read as follows:

(1) Beginning with taxes levied for collection in 2019, the maximum dollar amount which may be levied by or for any school district for enrichment levies under RCW 84.52.053 is equal to the lesser of one dollar and fifty cents per thousand dollars of the assessed value of property in the school district or the maximum per-pupil limit.

(2) The definitions in this subsection apply to this section unless the context clearly requires otherwise.

(a) For the purpose of this section, "inflation" means ((inflation as defined in RCW 84.55.005)), for any school year, the rate of the yearly increase of the previous calendar year's annual average consumer price index for all urban consumers, Seattle area, using the official current base compiled by the bureau of labor statistics, United States department of labor.

THIRTY EIGHTH DAY, FEBRUARY 14, 2018

2018 REGULAR SESSION

(b) "Maximum per-pupil limit" means two thousand five hundred dollars, multiplied by the number of average annual resident full-time equivalent students enrolled in the school district in the prior school year. Beginning with property taxes levied for collection in 2020, the maximum per-pupil limit shall be increased by inflation.

(c) "Prior school year" means the most recent school year completed prior to the year in which the levies are to be collected.

(d) "Resident" means a student who:

(i) Resides within the geographic boundaries of the school district; or

(ii) Transfers into the district by choice under RCW 28A.225.225; except students who participate in an online course or online school program as defined in RCW 28A.250.010, and do not also attend a school within the district or receive direct instruction from district certificated instructional staff, are excluded from the definition.

(3) The home district of a student who transfers into another district by choice under chapter 28A.225 RCW shall not receive levy revenues under this section.

(4) For districts in a high/nonhigh relationship, the enrollments of the nonhigh resident students attending the high school shall only be counted by the nonhigh school districts for purposes of funding under this section.

(5) For school districts participating in an innovation academy cooperative established under RCW 28A.340.080, enrollments of students attending the academy shall be adjusted so that each participant district receives its proportional share of student enrollments for purposes of funding under this section.

(6) Beginning with propositions for enrichment levies for collection in calendar year 2020 and thereafter, a district must receive approval of an enrichment levy expenditure plan under RCW 28A.505.240 before submission of the proposition to the voters.

~~((4))~~ (7) The superintendent of public instruction shall develop rules and regulations and inform school districts of the pertinent data necessary to carry out the provisions of this section.

~~((5))~~ (8) Beginning with taxes levied for collection in ~~((2020))~~ 2018, enrichment levy revenues must be deposited in a separate subfund of the school district's general fund pursuant to RCW 28A.320.330, and are subject to the restrictions of RCW 28A.150.276 and the audit requirements of RCW 43.09.2856.

~~((6))~~ (9) Funds collected from ~~((transportation vehicle enrichment levies shall not be subject to the levy limitations in))~~ levies for transportation vehicles, construction, modernization, or remodeling of school facilities as established in RCW 84.52.053 are not subject to the levy limitations in subsections (1) through (6) of this section.

In the case of a school district or fire protection district proposition for a particular period, the dollar amount and the corresponding estimate of the dollar rate of tax levy shall be set forth for each of the years in that period. The

dollar amount for each annual levy in the particular period may be equal or in different amounts.

(2) For school districts levying the maximum enrichment funding levy rate of one dollar and fifty cents as authorized by RCW 84.52.053 and 84.52.0531, the additional tax shall be set forth in terms of the dollar rate of tax levy on the ballot of the proposition to be submitted to the voters.

PART IV: OTHER POLICIES

NEW SECTION. **Sec. 401.** (1) For the 2018–19 and 2019–20 school years, a school district qualifies for a hold harmless payment if the sum of the school district's state basic education allocations plus its enrichment levy and local effort assistance under chapter 13, Laws of 2017 3rd sp. sess. is less than the sum of state basic education allocations, local maintenance and operation levy, and local effort assistance provided under the law as it existed on January 1, 2017. For the purposes of this section, the local levy is limited to the lesser of the voter-approved levy as of January 1, 2017, or the maximum levy allowed under the law as of January 1, 2017.

(2) This section expires December 31, 2020.

Sec. 402. RCW 28A.150.392 and 2017 3rd sp.s. c 13 s 407 are each amended to read as follows:

(1)(a) To the extent necessary, funds shall be made available for safety net awards for districts with demonstrated needs for special education funding beyond the amounts provided through the special education funding formula under RCW 28A.150.390.

(b) If the federal safety net awards based on the federal eligibility threshold exceed the federal appropriation in any fiscal year, then the superintendent shall expend all available federal discretionary funds necessary to meet this need.

(2) Safety net funds shall be awarded by the state safety net oversight committee subject to the following conditions and limitations:

(a) The committee shall award additional funds for districts that can convincingly demonstrate that all legitimate expenditures for special education exceed all available revenues from state funding formulas.

(b) In the determination of need, the committee shall consider additional available revenues from federal sources.

(c) Differences in program costs attributable to district philosophy(~~(service delivery choice,))~~) or accounting practices are not a legitimate basis for safety net awards.

(d) In the determination of need, the committee shall require that districts demonstrate that they are maximizing their eligibility for all state revenues related to services for special education-eligible students and all federal revenues from federal impact aid, medicaid, and the individuals with disabilities education act-Part B and appropriate special projects. Awards associated with (e) and (f) of this subsection shall not exceed the total of a district's specific determination of need.

(e) The committee shall then consider the extraordinary high cost needs of one or more individual special education students. Differences in costs attributable to district philosophy(~~(service delivery choice,))~~) or accounting practices are not a legitimate basis for safety net awards.

(f) Using criteria developed by the committee, the committee shall then consider extraordinary costs associated with communities that draw a larger number of families with children in need of special education services, which may include consideration of proximity to group homes, military bases, and regional hospitals. Safety net awards under this subsection (2)(f) shall be adjusted to reflect amounts awarded under (e) of this subsection.

(g) The maximum allowable indirect cost for calculating safety net eligibility may not exceed the federal restricted indirect cost rate for the district plus one percent.

(h) Safety net awards shall be adjusted based on the percent of potential medicaid eligible students billed as calculated by the superintendent of public instruction in accordance with chapter 318, Laws of 1999.

(i) Safety net awards must be adjusted for any audit findings or exceptions related to special education funding.

(3) The superintendent of public instruction shall adopt such rules and procedures as are necessary to administer the special education funding and safety net award process. By September 1, ~~((2019))~~ 2018, the superintendent shall review and revise the rules to achieve full and complete implementation of the requirements of this subsection and subsection (4) of this section including revisions to the rules that provide easier access by districts to the safety net funds by reducing the required annual threshold that must be exceeded for high cost students and additional flexibility to access community impact awards. Before revising any standards, procedures, or rules, the superintendent shall consult with the office of financial management and the fiscal committees of the legislature. In adopting and revising the rules, the superintendent shall ensure the application process to access safety net funding is streamlined, timelines for submission are not in conflict, feedback to school districts is timely and provides sufficient information to allow school districts to understand how to correct any deficiencies in a safety net application, and that there is consistency between awards approved by school district and by application period. The office of the superintendent of public instruction shall also provide technical assistance to school districts in preparing and submitting special education safety net applications.

(4) On an annual basis, the superintendent shall survey districts regarding their satisfaction with the safety net process and consider feedback from districts to improve the safety net process. Each year by December 1st, the superintendent shall prepare and submit a report to the office of financial management and the appropriate policy and fiscal committees of the legislature that summarizes the survey results and those changes made to the safety net process as a result of the school district feedback.

(5) The safety net oversight committee appointed by the superintendent of public instruction shall consist of:

(a) One staff member from the office of the superintendent of public instruction;

(b) Staff of the office of the state auditor who shall be nonvoting members of the committee; and

(c) One or more representatives from school districts or educational service districts knowledgeable of special education programs and funding.

(1) Beginning with the ~~((2018-19))~~ 2019-20 school year, the legislature shall begin phasing in funding for professional learning days for certificated instructional staff. The state allocation must be used solely for the purpose of providing professional learning. At a minimum, the state must allocate funding for:

(a) One professional learning day in the ~~((2018-19))~~ 2019-20 school year;

(b) Two professional learning days in the ~~((2019-20))~~ 2020-21 school year; and

(c) Three professional learning days in the ~~((2020-21))~~ 2021-22 school year.

(2) The office of the superintendent of public instruction shall calculate each school district's professional learning allocation as

provided in subsection (1) of this section separate from the minimum state allocation for salaries as specified in RCW 28A.150.410 and associated fringe benefits on the apportionment reports provided to each local educational agency. The professional learning allocation shall be equal to the proportional increase resulting from adding the professional learning days provided in subsection (1) of this section to the required minimum number of school days in RCW 28A.150.220(5)(a) applied to the school district's minimum state allocation for salaries and associated fringe benefits for certificated instructional staff as specified in the omnibus appropriations act. Professional learning allocations shall be included in per-pupil calculations for programs funded on a per student rate calculation.

(3) Nothing in this section entitles an individual certificated instructional staff to any particular number of professional learning days.

~~((3))~~ (4) Nothing in this section requires a school district to fund additional professional learning in excess of what is funded by this allotment.

(5) The professional learning days must meet the definitions and standards provided in RCW 28A.415.430, 28A.415.432, and 28A.415.434.

(6) The use of the funding provided under this section must be audited as part of the regular financial audits of school districts by the state auditor's office to ensure compliance with the limitations and conditions of this section.

Sec. 404. RCW 28A.710.280 and 2016 c 241 s 128 are each amended to read as follows:

(1) The legislature intends that state funding for charter schools be distributed equitably with state funding provided for other public schools.

(2) For eligible students enrolled in a charter school established and operating in accordance with this chapter, the superintendent of public instruction shall transmit to each charter school an amount calculated as provided in this section and based on the statewide average ~~((staff mix factor))~~ salaries set forth in RCW 28A.150.410 for certificated instructional staff adjusted by the regionalization factor that applies to the school district in which the charter school is geographically located, including any enrichment to those statutory formulae that is specified in the omnibus appropriations act. The amount must be the sum of (a) and (b) of this subsection ~~((as applicable))~~.

(a) The superintendent shall, for purposes of making distributions under this section, separately calculate and distribute to charter schools moneys appropriated for general apportionment under the same ratios as in RCW 28A.150.260.

(b) The superintendent also shall, for purposes of making distributions under this section, and in accordance with the applicable formulae for categorical programs specified in (b)(i) through (v) of this subsection (2) and any enrichment to those statutory formulae that is specified in the omnibus appropriations act, separately calculate and distribute moneys appropriated by the legislature to charter schools for:

(i) Supplemental instruction and services for underachieving students through the learning assistance program under RCW 28A.165.005 through 28A.165.065;

(ii) Supplemental instruction and services for eligible and enrolled students and exited students whose primary language is other than English through the transitional bilingual instruction program under RCW 28A.180.010 through 28A.180.080;

THIRTY EIGHTH DAY, FEBRUARY 14, 2018

2018 REGULAR SESSION

(v) Pupil transportation services to and from school in accordance with RCW 28A.160.150 through 28A.160.180. Distributions for pupil transportation must be calculated on a per eligible student basis based on the allocation for the previous school year to the school district in which the charter school is located.

(3) The superintendent of public instruction must adopt rules necessary for the distribution of funding required by this section and to comply with federal reporting requirements.

Sec. 405. RCW 28A.715.040 and 2013 c 242 s 5 are each amended to read as follows:

(1) A school that is the subject of a state-tribal education compact must report student enrollment. Reporting must be done in the same manner and use the same definitions of enrolled students and annual average full-time equivalent enrollment as is required of school districts. The reporting requirements in this subsection are required for a school to receive state or federal funding that is allocated based on student characteristics.

(2) Funding for a school that is the subject of a state-tribal education compact shall be apportioned by the superintendent of public instruction according to the schedule established under RCW 28A.510.250, including general apportionment, special education, categorical, and other nonbasic education moneys. Allocations for certificated instructional staff must be based on the statewide average ((staff mix ratio of the school, as calculated by the superintendent of public instruction using the statewide salary allocation schedule and related documents, conditions, and limitations established by the omnibus appropriations act)) salary set forth in RCW 28A.150.410, adjusted by the regionalization factor that applies to the school district in which the school is located. Allocations for classified staff and certificated administrative staff must be based on the salary allocations of the school district in which the school is located(~~subject to conditions and limitations established by the omnibus appropriations act~~) as set forth in RCW 28A.150.410, adjusted by the regionalization factor that applies to the school district in which the school is located. Nothing in this section requires a school that is the subject of a state-tribal education compact to use the statewide salary allocation schedule. Such a school is eligible to apply for state grants on the same basis as a school district.

(3) Any moneys received by a school that is the subject of a state-tribal education compact from any source that remain in the school's accounts at the end of any budget year must remain in the school's accounts for use by the school during subsequent budget years.

Sec. 406. RCW 43.09.2856 and 2017 3rd sp.s. c 13 s 503 are each amended to read as follows:

(1) Beginning with the 2019-20 school year, to ensure that school district local revenues are used solely for purposes of enriching the state's statutory program of basic education, the state auditor's regular financial audits of school districts must include a review of the expenditure of school district local revenues for compliance with RCW 28A.150.276, including the spending plan approved by the superintendent of public instruction under RCW 28A.505.240 and its implementation, and any supplemental contracts entered into under RCW 28A.400.200.

(2) If an audit under subsection (1) of this section results in findings that a school district has failed to comply with these requirements, then within ninety days of completing the audit the auditor must report the findings to the superintendent of public instruction, the office of financial management, and the education and operating budget committees of the legislature.

(3) The use of the state allocation provided for professional learning under RCW 28A.150.415 must be audited as part of the regular financial audits of school districts by the state auditor's office to ensure compliance with the limitations and conditions of RCW 28A.150.415.

Sec. 407. RCW 28A.600.310 and 2015 c 202 s 4 are each amended to read as follows:

(1)(a) Eleventh and twelfth grade students or students who have not yet received the credits required for the award of a high school diploma and are eligible to be in the eleventh or twelfth grades may apply to a participating institution of higher education to enroll in courses or programs offered by the institution of higher education.

(b) The course sections and programs offered as running start courses must also be open for registration to matriculated students at the participating institution of higher education and may not be a course consisting solely of high school students offered at a high school campus.

(c) A student receiving home-based instruction enrolling in a public high school for the sole purpose of participating in courses or programs offered by institutions of higher education shall not be counted by the school district in any required state or federal accountability reporting if the student's parents or guardians filed a declaration of intent to provide home-based instruction and the student received home-based instruction during the school year before the school year in which the student intends to participate in courses or programs offered by the institution of higher education. Students receiving home-based instruction under chapter 28A.200 RCW and students attending private schools approved under chapter 28A.195 RCW shall not be required to meet the student learning goals, obtain a certificate of academic achievement or a certificate of individual achievement to graduate from high school, or to master the essential academic learning requirements. However, students are eligible to enroll in courses or programs in participating universities only if the board of directors of the student's school district has decided to participate in the program. Participating institutions of higher education, in consultation with school districts, may establish admission standards for these students. If the institution of higher education accepts a secondary school pupil for enrollment under this section, the institution of higher education shall send written notice to the pupil and the pupil's school district within ten days of acceptance. The notice shall indicate the course and hours of enrollment for that pupil.

(2)(a) In lieu of tuition and fees, as defined in RCW 28B.15.020 and 28B.15.041:

(i) Running start students shall pay to the community or technical college all other mandatory fees as established by each community or technical college and, in addition, the state board for community and technical colleges may authorize a fee of up to ten percent of tuition and fees as defined in RCW 28B.15.020 and 28B.15.041; and

(ii) All other institutions of higher education operating a running start program may charge running start students a fee of up to ten percent of tuition and fees as defined in RCW 28B.15.020 and 28B.15.041 in addition to technology fees.

(b) The fees charged under this subsection (2) shall be prorated based on credit load.

(c) Students may pay fees under this subsection with advanced college tuition payment program tuition units at a rate set by the advanced college tuition payment program governing body under chapter 28B.95 RCW.

(3)(a) The institutions of higher education must make available fee waivers for low-income running start students. Each institution must establish a written policy for the determination of

low-income students before offering the fee waiver. A student shall be considered low income and eligible for a fee waiver upon proof that the student is currently qualified to receive free or reduced-price lunch. Acceptable documentation of low-income status may also include, but is not limited to, documentation that a student has been deemed eligible for free or reduced-price lunches in the last five years, or other criteria established in the institution's policy.

(b) Institutions of higher education, in collaboration with relevant student associations, shall aim to have students who can benefit from fee waivers take advantage of these waivers. Institutions shall make every effort to communicate to students and their families the benefits of the waivers and provide assistance to students and their families on how to apply. Information about waivers shall, to the greatest extent possible, be incorporated into financial aid counseling, admission information, and individual billing statements. Institutions also shall, to the greatest extent possible, use all means of communication, including but not limited to web sites, online catalogues, admission and registration forms, mass email messaging, social media, and outside marketing to ensure that information about waivers is visible, compelling, and reaches the maximum number of students and families that can benefit.

(4) The pupil's school district shall transmit to the institution of higher education an amount per each full-time equivalent college student at statewide uniform rates for vocational and nonvocational students. The superintendent of public instruction shall separately calculate and allocate moneys appropriated for basic education under RCW 28A.150.260 to school districts for purposes of making such payments and for granting school districts seven percent thereof to offset program related costs. ~~((The calculations and allocations shall be based upon the estimated statewide annual average per full-time equivalent high school student allocations under RCW 28A.150.260, excluding small high school enhancements, and applicable rules adopted under chapter 34.05 RCW.))~~

(a) In school year 2017-18, the superintendent of public instruction shall allocate six thousand five hundred seventy dollars per full-time equivalent college student to the pupil's school district. Each school year thereafter, this allocation shall be increased by the rate of inflation, as defined in RCW 28A.400.205.

(b) For running start career and technical education students, the superintendent of public instruction shall allocate an additional twelve and one-half percent of the base amount established in (a) of this subsection.

(c) The superintendent of public instruction, participating institutions of higher education, and the state board for community and technical colleges shall consult on the calculation and distribution of the funds. The funds received by the institution of higher education from the school district shall not be deemed tuition or operating fees and may be retained by the institution of higher education. A student enrolled under this subsection shall be counted for the purpose of meeting enrollment targets in accordance with terms and conditions specified in the omnibus appropriations act.

Sec. 408. RCW 28A.505.140 and 2017 3rd sp.s. c 13 s 602 are each amended to read as follows:

(1) Notwithstanding any other provision of law, the superintendent of public instruction shall adopt such rules as will ensure proper budgetary procedures and practices, including monthly financial statements consistent with the provisions of RCW 43.09.200, and this chapter. By the ~~((2019-20))~~ 2018-19 school year, the rules must require school districts to provide separate accounting of state and local revenues to expenditures.

(2) If the superintendent of public instruction determines upon a review of the budget of any district that said budget does not comply with the budget procedures established by this chapter or by rules adopted by the superintendent of public instruction, or the provisions of RCW 43.09.200, the superintendent shall give written notice of this determination to the board of directors of the local school district.

(3) The local school district, notwithstanding any other provision of law, shall, within thirty days from the date the superintendent of public instruction issues a notice pursuant to subsection (2) of this section, submit a revised budget which meets the requirements of RCW 43.09.200, this chapter, and the rules of the superintendent of public instruction.

Sec. 409. RCW 28A.510.250 and 2017 3rd sp.s. c 13 s 1004 are each amended to read as follows:

(1) On or before the last business day of September 1969 and each month thereafter, the superintendent of public instruction shall apportion from the state general fund to the several educational service districts of the state the proportional share of the total annual amount due and apportionable to such educational service districts for the school districts thereof as follows:

| | | | |
|-----------|----------------------|--------|----------------------------|
| September | 9% | March | ((9%)) 8% |
| October | 8% | April | ((9%)) 8.5% |
| November | 5% | May | 5% |
| December | 9% | June | 6.0% |
| January | 8.5% | July | 12.5% |
| February | ((9%)) 8% | August | ((10.0%)) 12.5% |

The annual amount due and apportionable shall be the amount apportionable for all apportionment credits estimated to accrue to the schools during the apportionment year beginning September 1st and continuing through August 31st. Appropriations made for school districts for each year of a biennium shall be apportioned according to the schedule set forth in this section for the fiscal year starting September 1st of the then calendar year and ending August 31st of the next calendar year, except as provided in subsection (2) of this section. The apportionment from the state general fund for each month shall be an amount which will equal the amount due and apportionable to the several educational service districts during such month: PROVIDED, That any school district may petition the superintendent of public instruction for an emergency advance of funds which may become apportionable to it but not to exceed ten percent of the total amount to become due and apportionable during the school districts apportionment year. The superintendent of public instruction shall determine if the emergency warrants such advance and if the funds are available therefor. If the superintendent determines in the affirmative, he or she may approve such advance and, at the same time, add such an amount to the apportionment for the educational service district in which the school district is located: PROVIDED, That the emergency advance of funds and the interest earned by school districts on the investment of temporary cash surpluses resulting from obtaining such advance of state funds shall be deducted by the superintendent of public instruction from the remaining amount apportionable to said districts during that apportionment year in which the funds are advanced.

(2) In the 2010-11 school year, the June apportionment payment to school districts shall be reduced by one hundred twenty-eight million dollars, and an additional apportionment payment shall be made on July 1, 2011, in the amount of one hundred twenty-eight million dollars. This July 1st payment shall be in addition to the regularly calculated July apportionment payment.

MOTION

Senator Braun moved that the following amendment no. 672 by Senator Braun be adopted:

On page 1, after line 2 of the amendment, insert the following:

"NEW SECTION. **Sec. 1.** (1) The legislature finds that major education funding reform legislation (Engrossed House Bill No. 2242) was enacted in 2017, along with the appropriations necessary to support these funding reforms, resulting in unprecedented increases to state K-12 funding allocations. The legislature further finds that estimated 2019-2021 expenditures under Engrossed House Bill No. 2242 compared to 2011-2013 K-12 appropriations will be a 13.2 billion dollar increase—an increase of 98.5 percent. The legislature further finds that the court ruled in its November 15, 2017, order that it is satisfied that the new salary model established by Engrossed House Bill No. 2242 provides for full state funding of basic education salaries sufficient to recruit and retain competent teachers, administrators, and staff consistent with the standards established for constitutional compliance. The legislature further finds that the court took exception that the 2017-2019 budget funds only half of the salary increase called for by the new model by the 2018-19 school year, deferring full funding until the 2019-20 school year. The legislature further finds that the 2017 legislature made decisions regarding local school district levies based on expectations regarding state and local funding levels as the state transitions to the new funding structure. The legislature further finds that fully implementing state salary allocations in the 2018-19 school year substantially alters the carefully calibrated balance

between state and local sources of funding for school districts as the state transitions to the new funding structure.

(2) It is the intent of the legislature to recalibrate the balance of state and local funding for school districts in light of the court's latest order. More specifically, it is the legislature's intent, in its effort to fully comply with the court and bring final closure to *McCleary v. State*, to fully implement the salary allocations in Engrossed House Bill No. 2242 in school year 2018-19, accelerate the implementation of certain accounting and budget transparency requirements, and to reduce local school district levies by an amount equal to the increased state salary allocations that will be made to school districts in school year 2018-19."

On page 27, line 5 of the amendment, after "(4)" insert "In calendar year 2019, local effort assistance distributions under this section may not be reduced due to the reduction in school district levy authority under RCW 84.52.0531(10).

(5)"

Renumber the remaining subsections consecutively and correct any internal references accordingly.

On page 31, line 22 of the amendment, after "~~levies~~" strike all material through "2020" on line 23 and insert "for collection in calendar year 2020) submitted to the voters in calendar year 2019"

On page 31, line 30 of the amendment, after "amount" strike "which" and insert "~~((which))~~ that"

On page 32, line 8 of the amendment, after "limit" strike "shall" and insert "~~((shall))~~ must"

On page 32, line 36 of the amendment, after "instruction" strike "shall" and insert "~~((shall))~~ must"

On page 33, after line 9 of the amendment, insert the following:

"(10) For calendar year 2019, a school district's levy authority must be reduced by the amount of the additional state salary allocation payable to the school district as a result of section 202, chapter . . . Laws of 2018 (section 202 of this act). The reduction amount under this subsection (10) must be specified on LEAP Document 4 provided on the web site of the legislative evaluation and accountability program committee. State matching funds for local effort assistance under chapter 28A.500 RCW may not be reduced due to the reduction in school district levy authority under this subsection (10)."

On page 45, after line 6 of the amendment, insert the following:

"Sec. 410. RCW 84.56.020 and 2017 c 142 s 1 are each amended to read as follows:

(1) The county treasurer must be the receiver and collector of all taxes extended upon the tax rolls of the county, whether levied for state, county, school, bridge, road, municipal or other purposes, and also of all fines, forfeitures or penalties received by any person or officer for the use of his or her county. No treasurer may accept tax payments or issue receipts for the same until the treasurer has completed the tax roll for the current year's collection and provided notification of the completion of the roll. Notification may be accomplished electronically, by posting a notice in the office, or through other written communication as determined by the treasurer. All real and personal property taxes and assessments made payable by the provisions of this title are due and payable to the county treasurer on or before the thirtieth day of April and, except as provided in this section, are delinquent after that date.

(2) Each tax statement must include a notice that checks for payment of taxes may be made payable to "Treasurer of County" or other appropriate office, but tax statements may not include any suggestion that checks may be made payable to the name of the individual holding the office of treasurer nor any other individual.

(3) When the total amount of tax or special assessments on personal property or on any lot, block or tract of real property payable by one person is fifty dollars or more, and if one-half of such tax is paid on or before the thirtieth day of April, the remainder of such tax, except as provided in subsection (5) of this section, is due and payable on or before the following thirty-first day of October and is delinquent after that date.

(4) When the total amount of tax or special assessments on any lot, block or tract of real property or on any mobile home payable by one person is fifty dollars or more, and if one-half of such tax is paid after the thirtieth day of April but before the thirty-first day of October, together with the applicable interest and penalty on the full amount of tax payable for that year, the remainder of such tax, except as provided in subsection (5) of this section, is due and payable on or before the following thirty-first day of October and is delinquent after that date.

(5)(a) For local school property taxes levied under RCW 84.52.0531 due and payable for collection in 2018, the remainder of the tax is due and payable as follows:

(i) The 2018 payment percent is due and payable on or before the thirty-first day of October 2018 and is delinquent after that date;

(ii) The 2019 payment percent is due and payable on or before the thirtieth day of April 2019 and is delinquent after that date; and

(iii) The 2019 payment percent is due and payable on or before the thirty-first day of October 2019 and is delinquent after that date.

(b) The definitions in this subsection (5)(b) apply throughout this subsection (5) unless the context clearly requires otherwise.

(i) "2018 payment percent" means the percentage determined by multiplying the 2019 payment percent by two and subtracting the result from 100 percent.

(ii) "2019 payment percent" means the percentage determined by dividing the reduction amount for the school district as provided in RCW 84.52.0531(10) by the school district's total amount of tax levied under RCW 84.52.0531 for collection in 2018. If the numerator is larger than the denominator, then "2019 payment percent" equals fifty percent. If the denominator is zero, this subsection (5) does not apply.

(6) Except as provided in (c) of this subsection, delinquent taxes under this section are subject to interest at the rate of twelve percent per annum computed on a monthly basis on the amount of tax delinquent from the date of delinquency until paid. Interest must be calculated at the rate in effect at the time of the tax payment, regardless of when the taxes were first delinquent. In addition, delinquent taxes under this section are subject to penalties as follows:

(a) A penalty of three percent of the amount of tax delinquent is assessed on the tax delinquent on June 1st of the year in which the tax is due.

(b) An additional penalty of eight percent is assessed on the delinquent tax amount on December 1st of the year in which the tax is due.

(c) If a taxpayer is successfully participating in a payment agreement under subsection ~~((42))~~ (13)(b) of this section or a partial payment program pursuant to subsection ~~((43))~~ (14) of this section, the county treasurer may not assess additional penalties on delinquent taxes that are included within the payment agreement. Interest and penalties that have been assessed prior to the payment agreement remain due and payable as provided in the payment agreement.

~~((6))~~ (7)(a) When real property taxes become delinquent and prior to the filing of the certificate of delinquency, the treasurer is authorized to assess and collect tax foreclosure avoidance costs.

(b) For the purposes of this section, "tax foreclosure avoidance costs" means those direct costs associated with the administration of properties subject to and prior to foreclosure. Tax foreclosure avoidance costs include:

(i) Compensation of employees for the time devoted to administering the avoidance of property foreclosure; and

(ii) The cost of materials, services, or equipment acquired, consumed, or expended in administering tax foreclosure avoidance prior to the filing of a certificate of delinquency.

(c) When tax foreclosure avoidance costs are collected, such costs must be credited to the county treasurer service fund account, except as otherwise directed.

(d) For purposes of chapter 84.64 RCW, any taxes, interest, or penalties deemed delinquent under this section remain delinquent until such time as all taxes, interest, and penalties for the tax year in which the taxes were first due and payable have been paid in full.

~~((7))~~ (8) Subsection ~~((5))~~ (6) of this section notwithstanding, no interest or penalties may be assessed during any period of armed conflict regarding delinquent taxes imposed on the personal residences owned by active duty military personnel who are participating as part of one of the branches of the military involved in the conflict and assigned to a duty station outside the territorial boundaries of the United States.

~~((8))~~ (9) During a state of emergency declared under RCW 43.06.010(12), the county treasurer, on his or her own motion or at the request of any taxpayer affected by the emergency, may grant extensions of the due date of any taxes payable under this section as the treasurer deems proper.

~~((9))~~ (10) All collections of interest on delinquent taxes must be credited to the county current expense fund.

~~((40))~~ (11) For purposes of this chapter, "interest" means both interest and penalties unless the context clearly requires otherwise.

~~((44))~~ (12) The direct cost of foreclosure and sale of real property, and the direct fees and costs of distraint and sale of personal property, for delinquent taxes, must, when collected, be credited to the operation and maintenance fund of the county treasurer prosecuting the foreclosure or distraint or sale; and must be used by the county treasurer as a revolving fund to defray the cost of further foreclosure, distraint, and sale because of delinquent taxes without regard to budget limitations and not subject to indirect costs of other charges.

~~((42))~~ (13)(a) For purposes of this chapter, and in accordance with this section and RCW 36.29.190, the treasurer may collect taxes, assessments, fees, rates, interest, and charges by electronic billing and payment. Electronic billing and payment may be used as an option by the taxpayer, but the treasurer may not require the use of electronic billing and payment. Electronic bill presentment and payment may be on a monthly or other periodic basis as the treasurer deems proper for delinquent tax year payments only or for prepayments of current tax. All prepayments must be paid in full by the due date specified in (c) of this subsection. Payments on past due taxes must include collection of the oldest delinquent year, which includes interest and taxes within a twelve-month period, prior to filing a certificate of delinquency under chapter 84.64 RCW or distraint pursuant to RCW 84.56.070.

(b) The treasurer may provide, by electronic means or otherwise, a payment agreement that provides for payment of current year taxes, inclusive of prepayment collection charges. The treasurer may provide, by electronic means or otherwise, a payment agreement for payment of past due delinquencies, which must also require current year taxes to be paid timely. The payment agreement must be signed by the taxpayer and treasurer prior to the sending of an electronic or alternative bill, which includes a payment plan for current year taxes. The treasurer may

THIRTY EIGHTH DAY, FEBRUARY 14, 2018

2018 REGULAR SESSION

accept partial payment of current and delinquent taxes including interest and penalties using electronic bill presentment and payments.

(c) All taxes upon real and personal property made payable by the provisions of this title are due and payable to the treasurer on or before the thirtieth day of April and, except as otherwise provided in this section, are delinquent after that date. ~~((The))~~ Except as provided in subsection (5) of this section, any remainder of the tax is due and payable on or before the following thirty-first of October and is delinquent after that date. All other assessments, fees, rates, and charges are delinquent after the due date.

(d) A county treasurer may authorize payment of past due property taxes, penalties, and interest under this chapter by electronic funds transfers on a monthly basis. Delinquent taxes are subject to interest and penalties, as provided in subsection ~~((5))~~ (6) of this section.

(e) The treasurer must pay any collection costs, investment earnings, or both on past due payments or prepayments to the credit of a county treasurer service fund account to be created and used only for the payment of expenses incurred by the treasurer, without limitation, in administering the system for collecting prepayments.

~~((13))~~ (14) In addition to the payment program in subsection ~~((12))~~ (13)(b) of this section, the treasurer may accept partial payment of current and delinquent taxes including interest and penalties by any means authorized.

~~((14) For purposes of this section unless the context clearly requires otherwise, the following definitions apply:))~~ (15) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Electronic billing and payment" means statements, invoices, or bills that are created, delivered, and paid using the internet. The term includes an automatic electronic payment from a person's checking account, debit account, or credit card.

(b) "Internet" has the same meaning as provided in RCW 19.270.010.

(c) "Remainder of the tax" means the remaining tax due after at least one-half of the tax due for the year is paid by April 30th of the year in which the taxes are due, or after at least one-half of the tax due for the year plus applicable penalties and interest is paid after April 30th but before October 31st of the year in which the tax is due.

Sec. 411. RCW 36.35.110 and 2013 c 221 s 2 are each amended to read as follows:

(1) No claims are allowed against the county from any municipality, school district, road district or other taxing district for taxes levied on property acquired by the county by tax deed under the provisions of this chapter, but all taxes must at the time of deeding the property be thereby canceled. However, the proceeds of any sale of any property acquired by the county by tax deed must first be applied to reimburse the county for the costs of foreclosure and sale. The remainder of the proceeds, if any, must be applied to pay any amounts deferred under chapter 84.37 or 84.38 RCW on the property, including accrued interest, and outstanding at the time the county acquired the property by tax deed. The remainder of the proceeds, if any, must be justly apportioned to the various funds existing at the date of the sale, in the territory in which such property is located, according to the tax levies of the year last in process of collection.

(2) For purposes of this section, "costs of foreclosure and sale" means those costs of foreclosing on the property that, when collected, are subject to RCW 84.56.020~~((9))~~ (12), and the direct costs incurred by the county in selling the property.

NEW SECTION. **Sec. 412.** The office of the superintendent of public instruction may waive the requirements to implement the changes in sections 302 and 408 of this act by the 2018-19 school year if the school district can reasonably show undue hardship."

(2) It is the intent of the legislature to recalibrate the balance of state and local funding for school districts in light of the court's latest order. More specifically, it is the legislature's intent, in its effort to fully comply with the court and bring final closure to *McCleary v. State*, to fully implement the salary allocations in Engrossed House Bill No. 2242 in school year 2018-19, accelerate the implementation of certain accounting and budget transparency requirements, and to reduce local school district levies by an amount equal to the increased state salary allocations that will be made to school districts in school year 2018-19."

On page 27, line 5 of the amendment, after "(4)" insert "In calendar year 2019, local effort assistance distributions under this section may not be reduced due to the reduction in school district levy authority under RCW 84.52.0531(10)."

The reduction amount under this subsection (10) must be specified on LEAP Document 4 provided on the web site of the legislative evaluation and accountability program committee. State matching funds for local effort assistance under chapter 28A.500 RCW may not be reduced due to the reduction in school district levy authority under this subsection (10)."

On page 45, after line 6 of the amendment, insert the following: "**Sec. 410.** RCW 84.56.020 and 2017 c 142 s 1 are each amended to read as follows:

(1) The county treasurer must be the receiver and collector of all taxes extended upon the tax rolls of the county, whether levied for state, county, school, bridge, road, municipal or other purposes, and also of all fines, forfeitures or penalties received by any person or officer for the use of his or her county. No treasurer may accept tax payments or issue receipts for the same until the treasurer has completed the tax roll for the current year's collection and provided notification of the completion of the roll. Notification may be accomplished electronically, by posting a notice in the office, or through other written communication as

determined by the treasurer. All real and personal property taxes and assessments made payable by the provisions of this title are due and payable to the county treasurer on or before the thirtieth day of April and, except as provided in this section, are delinquent after that date.

(2) Each tax statement must include a notice that checks for payment of taxes may be made payable to "Treasurer of County" or other appropriate office, but tax statements may not include any suggestion that checks may be made payable to the name of the individual holding the office of treasurer nor any other individual.

(3) When the total amount of tax or special assessments on personal property or on any lot, block or tract of real property payable by one person is fifty dollars or more, and if one-half of such tax is paid on or before the thirtieth day of April, the remainder of such tax, except as provided in subsection (5) of this section, is due and payable on or before the following thirty-first day of October and is delinquent after that date.

(4) When the total amount of tax or special assessments on any lot, block or tract of real property or on any mobile home payable by one person is fifty dollars or more, and if one-half of such tax is paid after the thirtieth day of April but before the thirty-first day of October, together with the applicable interest and penalty on the full amount of tax payable for that year, the remainder of such tax, except as provided in subsection (5) of this section, is due and payable on or before the following thirty-first day of October and is delinquent after that date.

(5)(a) For local school property taxes levied under RCW 84.52.0531 due and payable for collection in 2018, the remainder of the tax is due and payable as follows:

(i) The 2018 payment percent is due and payable on or before the thirty-first day of October 2018 and is delinquent after that date;

(ii) The 2019 payment percent is due and payable on or before the thirtieth day of April 2019 and is delinquent after that date;

(iii) The 2019 payment percent is due and payable on or before the thirty-first day of October 2019 and is delinquent after that date.

(b) The definitions in this subsection (5)(b) apply throughout this subsection (5) unless the context clearly requires otherwise.

(i) "2018 payment percent" means the percentage determined by multiplying the 2019 payment percent by two and subtracting the result from 100 percent.

(ii) "2019 payment percent" means the percentage determined by dividing the reduction amount for the school district as provided in RCW 84.52.0531(10) by the school district's total amount of tax levied under RCW 84.52.0531 for collection in 2018. If the numerator is larger than the denominator, then "2019 payment percent" equals fifty percent. If the denominator is zero, this subsection (5) does not apply.

(6) Except as provided in (c) of this subsection, delinquent taxes under this section are subject to interest at the rate of twelve percent per annum computed on a monthly basis on the amount of tax delinquent from the date of delinquency until paid. Interest must be calculated at the rate in effect at the time of the tax payment, regardless of when the taxes were first delinquent. In addition, delinquent taxes under this section are subject to penalties as follows:

(a) A penalty of three percent of the amount of tax delinquent is assessed on the tax delinquent on June 1st of the year in which the tax is due.

(b) An additional penalty of eight percent is assessed on the delinquent tax amount on December 1st of the year in which the tax is due.

(c) If a taxpayer is successfully participating in a payment agreement under subsection ~~((42))~~ (13)(b) of this section or a partial payment program pursuant to subsection ~~((43))~~ (14) of this section, the county treasurer may not assess additional penalties on delinquent taxes that are included within the payment agreement. Interest and penalties that have been assessed prior to the payment agreement remain due and payable as provided in the payment agreement.

~~((6))~~ (7)(a) When real property taxes become delinquent and prior to the filing of the certificate of delinquency, the treasurer is authorized to assess and collect tax foreclosure avoidance costs.

(b) For the purposes of this section, "tax foreclosure avoidance costs" means those direct costs associated with the administration of properties subject to and prior to foreclosure. Tax foreclosure avoidance costs include:

(i) Compensation of employees for the time devoted to administering the avoidance of property foreclosure; and

(ii) The cost of materials, services, or equipment acquired, consumed, or expended in administering tax foreclosure avoidance prior to the filing of a certificate of delinquency.

(c) When tax foreclosure avoidance costs are collected, such costs must be credited to the county treasurer service fund account, except as otherwise directed.

(d) For purposes of chapter 84.64 RCW, any taxes, interest, or penalties deemed delinquent under this section remain delinquent until such time as all taxes, interest, and penalties for the tax year in which the taxes were first due and payable have been paid in full.

~~((7))~~ (8) Subsection ~~((5))~~ (6) of this section notwithstanding, no interest or penalties may be assessed during any period of armed conflict regarding delinquent taxes imposed on the personal residences owned by active duty military personnel who are participating as part of one of the branches of the military involved in the conflict and assigned to a duty station outside the territorial boundaries of the United States.

~~((8))~~ (9) During a state of emergency declared under RCW 43.06.010(12), the county treasurer, on his or her own motion or at the request of any taxpayer affected by the emergency, may grant extensions of the due date of any taxes payable under this section as the treasurer deems proper.

~~((9))~~ (10) All collections of interest on delinquent taxes must be credited to the county current expense fund.

~~((40))~~ (11) For purposes of this chapter, "interest" means both interest and penalties unless the context clearly requires otherwise.

~~((44))~~ (12) The direct cost of foreclosure and sale of real property, and the direct fees and costs of distraint and sale of personal property, for delinquent taxes, must, when collected, be credited to the operation and maintenance fund of the county treasurer prosecuting the foreclosure or distraint or sale; and must be used by the county treasurer as a revolving fund to defray the cost of further foreclosure, distraint, and sale because of delinquent taxes without regard to budget limitations and not subject to indirect costs of other charges.

~~((42))~~ (13)(a) For purposes of this chapter, and in accordance with this section and RCW 36.29.190, the treasurer may collect taxes, assessments, fees, rates, interest, and charges by electronic billing and payment. Electronic billing and payment may be used as an option by the taxpayer, but the treasurer may not require the use of electronic billing and payment. Electronic bill presentment and payment may be on a monthly or other periodic basis as the treasurer deems proper for delinquent tax year payments only or for prepayments of current tax. All prepayments must be paid in full by the due date specified in (c) of this subsection. Payments on past due taxes must include collection of the oldest delinquent

year, which includes interest and taxes within a twelve-month period, prior to filing a certificate of delinquency under chapter 84.64 RCW or distraint pursuant to RCW 84.56.070.

(b) The treasurer may provide, by electronic means or otherwise, a payment agreement that provides for payment of current year taxes, inclusive of prepayment collection charges. The treasurer may provide, by electronic means or otherwise, a payment agreement for payment of past due delinquencies, which must also require current year taxes to be paid timely. The payment agreement must be signed by the taxpayer and treasurer prior to the sending of an electronic or alternative bill, which includes a payment plan for current year taxes. The treasurer may accept partial payment of current and delinquent taxes including interest and penalties using electronic bill presentment and payments.

(c) All taxes upon real and personal property made payable by the provisions of this title are due and payable to the treasurer on or before the thirtieth day of April and, except as otherwise provided in this section, are delinquent after that date. ~~((The))~~ Except as provided in subsection (5) of this section, any remainder of the tax is due and payable on or before the following thirty-first of October and is delinquent after that date. All other assessments, fees, rates, and charges are delinquent after the due date.

(d) A county treasurer may authorize payment of past due property taxes, penalties, and interest under this chapter by electronic funds transfers on a monthly basis. Delinquent taxes are subject to interest and penalties, as provided in subsection ~~((5))~~ (6) of this section.

(e) The treasurer must pay any collection costs, investment earnings, or both on past due payments or prepayments to the credit of a county treasurer service fund account to be created and used only for the payment of expenses incurred by the treasurer, without limitation, in administering the system for collecting prepayments.

~~((43))~~ (14) In addition to the payment program in subsection ~~((42))~~ (13)(b) of this section, the treasurer may accept partial payment of current and delinquent taxes including interest and penalties by any means authorized.

~~((14) For purposes of this section unless the context clearly requires otherwise, the following definitions apply:)~~ (15) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Electronic billing and payment" means statements, invoices, or bills that are created, delivered, and paid using the internet. The term includes an automatic electronic payment from a person's checking account, debit account, or credit card.

(b) "Internet" has the same meaning as provided in RCW 19.270.010.

(c) "Remainder of the tax" means the remaining tax due after at least one-half of the tax due for the year is paid by April 30th of the year in which the taxes are due, or after at least one-half of the tax due for the year plus applicable penalties and interest is paid after April 30th but before October 31st of the year in which the tax is due.

Sec. 411. RCW 36.35.110 and 2013 c 221 s 2 are each amended to read as follows:

(1) No claims are allowed against the county from any municipality, school district, road district or other taxing district for taxes levied on property acquired by the county by tax deed under the provisions of this chapter, but all taxes must at the time of deeding the property be thereby canceled. However, the proceeds of any sale of any property acquired by the county by tax deed must first be applied to reimburse the county for the costs of foreclosure and sale. The remainder of the proceeds, if any,

must be applied to pay any amounts deferred under chapter 84.37 or 84.38 RCW on the property, including accrued interest, and outstanding at the time the county acquired the property by tax deed. The remainder of the proceeds, if any, must be justly apportioned to the various funds existing at the date of the sale, in the territory in which such property is located, according to the tax levies of the year last in process of collection.

(2) For purposes of this section, "costs of foreclosure and sale" means those costs of foreclosing on the property that, when collected, are subject to RCW 84.56.020~~((9))~~ (12), and the direct costs incurred by the county in selling the property.

NEW SECTION. Sec. 412. The office of the superintendent of public instruction may waive the requirements to implement the changes in sections 302 and 408 of this act by the 2018-19 school year if the school district can reasonably show undue hardship."

Senators Braun, Ericksen and Ranker spoke in favor of adoption of the amendment to the striking amendment.

Senator Rolfe spoke against adoption of the amendment to the striking amendment.

POINT OF ORDER

Senator Schoesler: "Thank you Mr. President, I believe the speaker is impugning the motives of this side of the aisle and the public."

RULING BY THE PRESIDENT

President Habib: "Senator Schoesler, I will be the first to cut any senator off who is doing that. Senator Ranker has not yet mentioned, he has not yet mentioned anyone in the room or anyone in the chamber. Senator Ranker, please get to your point and I will admonish everybody, please, whether you are reaching the point of impugning motives or not, keep the debate on the topic before the Senate. That is your, those are your rules to debate the matter that is before the Senate. And, in deference to members, I have not tried to be overly aggressive on this bill but we don't need to re-litigate last year on either side of the aisle. Let's discuss the amendment that Senator Braun has brought before us. Senator Ranker please continue."

Senator Ranker concluded his remarks.

REMARKS BY THE PRESIDENT

President Habib: "Senator Ranker, I am going to ask members, you know, and I remember last year. I was, there were those who did not like when I asked that we not intentionally needle each other with terms like 'income tax' and Senator Ranker, I remember maybe you were on the other side of that discussion. Let's not needle one another with terms like quote 'Republican property tax' or for that matter 'Democrat anything tax.' Whatever, you all know what you are doing. Let's be respectful. Let's not re-litigate the past. Let's have a debate on the amendment that Senator Braun has brought before us. This is public policy. It deserves to be debated and let's debate it."

Senator Fortunato spoke in favor of adoption of the amendment to the striking amendment.

The President declared the question before the Senate to be the adoption of amendment no. 673 by Senator Braun on page 1, after line 2 to striking amendment no. 670 by Senator Wellman.

The motion by Senator Braun did not carry and amendment no. 673 was not adopted by voice vote.

MOTION

Senator Braun moved that the following amendment no. 674 by Senator Braun be adopted:

On page 1, after line 2 of the amendment, insert the following:

"NEW SECTION. Sec. 1. (1) The legislature finds that major education funding reform legislation (Engrossed House Bill No. 2242) was enacted in 2017, along with the appropriations necessary to support these funding reforms, resulting in unprecedented increases to state K-12 funding allocations. The legislature further finds that estimated 2019-2021 expenditures under Engrossed House Bill No. 2242 compared to 2011-2013 K-12 appropriations will be a 13.2 billion dollar increase—an increase of 98.5 percent. The legislature further finds that the court ruled in its November 15, 2017, order that it is satisfied that the new salary model established by Engrossed House Bill No. 2242 provides for full state funding of basic education salaries sufficient to recruit and retain competent teachers, administrators, and staff consistent with the standards established for constitutional compliance. The legislature further finds that the court took exception that the 2017-2019 budget funds only half of the salary increase called for by the new model by the 2018-19 school year, deferring full funding until the 2019-20 school year. The legislature further finds that the 2017 legislature made decisions regarding local school district levies based on expectations regarding state and local funding levels as the state transitions to the new funding structure. The legislature further finds that fully implementing state salary allocations in the 2018-19 school year substantially alters the carefully calibrated balance between state and local sources of funding for school districts as the state transitions to the new funding structure.

(2) It is the intent of the legislature to recalibrate the balance of state and local funding for school districts in light of the court's latest order. More specifically, it is the legislature's intent, in its effort to fully comply with the court and bring final closure to *McCleary v. State*, to fully implement the salary allocations in Engrossed House Bill No. 2242 in school year 2018-19, accelerate the implementation of certain accounting and budget transparency requirements, and to reduce local school district levies by an amount equal to the increased state salary allocations that will be made to school districts in school year 2018-19."

On page 27, line 5 of the amendment, after "(4)" insert "In calendar year 2019, local effort assistance distributions under this section may not be reduced due to the reduction in school district levy authority under RCW 84.52.0531(10).

(5)"

Renumber the remaining subsections consecutively and correct any internal references accordingly.

THIRTY EIGHTH DAY, FEBRUARY 14, 2018

2018 REGULAR SESSION

On page 32, line 36 of the amendment, after "instruction" strike "shall" and insert "~~((shall))~~ must"

On page 33, after line 9 of the amendment, insert the following:
"(10) For calendar year 2019, a school district's levy authority must be reduced by seventy-five percent of the amount of the additional state salary allocation payable to the school district as a result of section 202, chapter . . . , Laws of 2018 (section 202 of this act). The reduction amount under this subsection (10) must be specified on LEAP Document 4 provided on the web site of the legislative evaluation and accountability program committee. State matching funds for local effort assistance under chapter 28A.500 RCW may not be reduced due to the reduction in school district levy authority under this subsection (10)."

On page 45, after line 6 of the amendment, insert the following:
"Sec. 410. RCW 84.56.020 and 2017 c 142 s 1 are each amended to read as follows:

(1) The county treasurer must be the receiver and collector of all taxes extended upon the tax rolls of the county, whether levied for state, county, school, bridge, road, municipal or other purposes, and also of all fines, forfeitures or penalties received by any person or officer for the use of his or her county. No treasurer may accept tax payments or issue receipts for the same until the treasurer has completed the tax roll for the current year's collection and provided notification of the completion of the roll. Notification may be accomplished electronically, by posting a notice in the office, or through other written communication as determined by the treasurer. All real and personal property taxes and assessments made payable by the provisions of this title are due and payable to the county treasurer on or before the thirtieth day of April and, except as provided in this section, are delinquent after that date.

(2) Each tax statement must include a notice that checks for payment of taxes may be made payable to "Treasurer of County" or other appropriate office, but tax statements may not include any suggestion that checks may be made payable to the name of the individual holding the office of treasurer nor any other individual.

(3) When the total amount of tax or special assessments on personal property or on any lot, block or tract of real property payable by one person is fifty dollars or more, and if one-half of such tax is paid on or before the thirtieth day of April, the remainder of such tax, except as provided in subsection (5) of this section, is due and payable on or before the following thirty-first day of October and is delinquent after that date.

(4) When the total amount of tax or special assessments on any lot, block or tract of real property or on any mobile home payable by one person is fifty dollars or more, and if one-half of such tax is paid after the thirtieth day of April but before the thirty-first day of October, together with the applicable interest and penalty on the full amount of tax payable for that year, the remainder of such tax, except as provided in subsection (5) of this section, is due and payable on or before the following thirty-first day of October and is delinquent after that date.

(5)(a) For local school property taxes levied under RCW 84.52.0531 due and payable for collection in 2018, the remainder of the tax is due and payable as follows:

(i) The 2018 payment percent is due and payable on or before the thirty-first day of October 2018 and is delinquent after that date;

(ii) The 2019 payment percent is due and payable on or before the thirtieth day of April 2019 and is delinquent after that date; and

(iii) The 2019 payment percent is due and payable on or before the thirty-first day of October 2019 and is delinquent after that date.

(b) The definitions in this subsection (5)(b) apply throughout this subsection (5) unless the context clearly requires otherwise.

(i) "2018 payment percent" means the percentage determined by multiplying the 2019 payment percent by two and subtracting the result from 100 percent.

(ii) "2019 payment percent" means the percentage determined by dividing the reduction amount for the school district as provided in RCW 84.52.0531(10) by the school district's total amount of tax levied under RCW 84.52.0531 for collection in 2018. If the numerator is larger than the denominator, then "2019 payment percent" equals fifty percent. If the denominator is zero, this subsection (5) does not apply.

(6) Except as provided in (c) of this subsection, delinquent taxes under this section are subject to interest at the rate of twelve percent per annum computed on a monthly basis on the amount of tax delinquent from the date of delinquency until paid. Interest must be calculated at the rate in effect at the time of the tax payment, regardless of when the taxes were first delinquent. In addition, delinquent taxes under this section are subject to penalties as follows:

(a) A penalty of three percent of the amount of tax delinquent is assessed on the tax delinquent on June 1st of the year in which the tax is due.

(b) An additional penalty of eight percent is assessed on the delinquent tax amount on December 1st of the year in which the tax is due.

(c) If a taxpayer is successfully participating in a payment agreement under subsection ~~((42))~~ (13)(b) of this section or a partial payment program pursuant to subsection ~~((43))~~ (14) of this section, the county treasurer may not assess additional penalties on delinquent taxes that are included within the payment agreement. Interest and penalties that have been assessed prior to the payment agreement remain due and payable as provided in the payment agreement.

~~((6))~~ (7)(a) When real property taxes become delinquent and prior to the filing of the certificate of delinquency, the treasurer is authorized to assess and collect tax foreclosure avoidance costs.

(b) For the purposes of this section, "tax foreclosure avoidance costs" means those direct costs associated with the administration of properties subject to and prior to foreclosure. Tax foreclosure avoidance costs include:

(i) Compensation of employees for the time devoted to administering the avoidance of property foreclosure; and

(ii) The cost of materials, services, or equipment acquired, consumed, or expended in administering tax foreclosure avoidance prior to the filing of a certificate of delinquency.

(c) When tax foreclosure avoidance costs are collected, such costs must be credited to the county treasurer service fund account, except as otherwise directed.

(d) For purposes of chapter 84.64 RCW, any taxes, interest, or penalties deemed delinquent under this section remain delinquent until such time as all taxes, interest, and penalties for the tax year in which the taxes were first due and payable have been paid in full.

~~((7))~~ (8) Subsection ~~((5))~~ (6) of this section notwithstanding, no interest or penalties may be assessed during any period of armed conflict regarding delinquent taxes imposed on the personal residences owned by active duty military personnel who are participating as part of one of the branches of the military involved in the conflict and assigned to a duty station outside the territorial boundaries of the United States.

~~((8))~~ (9) During a state of emergency declared under RCW 43.06.010(12), the county treasurer, on his or her own motion or at the request of any taxpayer affected by the emergency, may grant extensions of the due date of any taxes payable under this section as the treasurer deems proper.

~~((9))~~ (10) All collections of interest on delinquent taxes must be credited to the county current expense fund.

~~((40))~~ (11) For purposes of this chapter, "interest" means both interest and penalties unless the context clearly requires otherwise.

~~((44))~~ (12) The direct cost of foreclosure and sale of real property, and the direct fees and costs of distraint and sale of personal property, for delinquent taxes, must, when collected, be credited to the operation and maintenance fund of the county treasurer prosecuting the foreclosure or distraint or sale; and must be used by the county treasurer as a revolving fund to defray the cost of further foreclosure, distraint, and sale because of delinquent taxes without regard to budget limitations and not subject to indirect costs of other charges.

~~((42))~~ (13)(a) For purposes of this chapter, and in accordance with this section and RCW 36.29.190, the treasurer may collect taxes, assessments, fees, rates, interest, and charges by electronic billing and payment. Electronic billing and payment may be used as an option by the taxpayer, but the treasurer may not require the use of electronic billing and payment. Electronic bill presentment and payment may be on a monthly or other periodic basis as the treasurer deems proper for delinquent tax year payments only or for prepayments of current tax. All prepayments must be paid in full by the due date specified in (c) of this subsection. Payments on past due taxes must include collection of the oldest delinquent year, which includes interest and taxes within a twelve-month period, prior to filing a certificate of delinquency under chapter 84.64 RCW or distraint pursuant to RCW 84.56.070.

(b) The treasurer may provide, by electronic means or otherwise, a payment agreement that provides for payment of current year taxes, inclusive of prepayment collection charges. The treasurer may provide, by electronic means or otherwise, a payment agreement for payment of past due delinquencies, which must also require current year taxes to be paid timely. The payment agreement must be signed by the taxpayer and treasurer prior to the sending of an electronic or alternative bill, which includes a payment plan for current year taxes. The treasurer may accept partial payment of current and delinquent taxes including interest and penalties using electronic bill presentment and payments.

(c) All taxes upon real and personal property made payable by the provisions of this title are due and payable to the treasurer on or before the thirtieth day of April and, except as otherwise provided in this section, are delinquent after that date. ~~((The))~~ Except as provided in subsection (5) of this section, any remainder of the tax is due and payable on or before the following thirty-first of October and is delinquent after that date. All other assessments, fees, rates, and charges are delinquent after the due date.

(d) A county treasurer may authorize payment of past due property taxes, penalties, and interest under this chapter by electronic funds transfers on a monthly basis. Delinquent taxes are subject to interest and penalties, as provided in subsection ~~((5))~~ (6) of this section.

(e) The treasurer must pay any collection costs, investment earnings, or both on past due payments or prepayments to the credit of a county treasurer service fund account to be created and used only for the payment of expenses incurred by the treasurer, without limitation, in administering the system for collecting prepayments.

~~((43))~~ (14) In addition to the payment program in subsection ~~((42))~~ (13)(b) of this section, the treasurer may accept partial payment of current and delinquent taxes including interest and penalties by any means authorized.

~~((14) For purposes of this section unless the context clearly requires otherwise, the following definitions apply:))~~ (15) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Electronic billing and payment" means statements, invoices, or bills that are created, delivered, and paid using the internet. The term includes an automatic electronic payment from a person's checking account, debit account, or credit card.

(b) "Internet" has the same meaning as provided in RCW 19.270.010.

(c) "Remainder of the tax" means the remaining tax due after at least one-half of the tax due for the year is paid by April 30th of the year in which the taxes are due, or after at least one-half of the tax due for the year plus applicable penalties and interest is paid after April 30th but before October 31st of the year in which the tax is due.

Sec. 411. RCW 36.35.110 and 2013 c 221 s 2 are each amended to read as follows:

PERSONAL PRIVILEGE

Senator Lias: Thank you Mr. President. I will just take a brief point of personal privilege. I appreciate you noting the school shooting in Florida. I did just want to highlight for our members that in my district we actually had an attempt that was uncovered by our local authorities. In fact, it was a young man who was planning an attack against the high school my sister went to. And thanks to great work by Everett Police Department and a brave call by his own grandmother to alert the authorities to the plot and the weapons that he was amassing, it appears that attack has been averted. But unfortunately these threats are not just in distant places, they are a threat here. I know we are not supposed to talk about bills but I want to applaud Senator Padden for our school safety bill. We need to continue to do more to make sure our schools are safe for our kids, especially kids here close to home. So, I wanted to applaud the Everett Police Department and that family member for taking action."

REMARKS BY REAR ADMIRAL GARY MAYES

Rear Admiral Gary Mayes: "Good morning! Madame President, thank you for the kind introduction.

As Commander, Navy Region Northwest, it is my distinct honor and privilege to be here again – two years in a row, that's pretty good, on the floor of the Senate for Washington State Navy Day. I am so humbled.

The United States is and will always be a Maritime Nation, thus requiring a strong Navy to protect its shores and interests around the World. The State of Washington is a Maritime state and is home to the United States Navy's third largest Fleet concentration area.

Navy Region Northwest is over 192,000 Sailors, civilian employees, family members, retirees and contractors across the region.

Washington State's second largest employment sector is defense. As it was said earlier, with over \$12 billion infused into the state economy annually, the Navy accounts for approximately sixty percent of this total.

Your record of legislative support of the Navy and other services speaks for itself – you've continued to focus on

legislation helping military families more easily become a part of Washington's workforce and school system, helping veterans transition in to the civilian economy, and enabling our Navy Operations and training to be more compatible with the surrounding communities. I appreciate all the work this august body does to make Washington an even better homeport for the Navy.

Madame President, I'm glad you recognized the individuals that I brought with me today so I will not read their names again. [The Navy's best of the best and their Commanding Officers: From Naval Hospital Bremerton, Captain Johannes Bailey and Command Master Chief James Reynolds with their Sailor of the Year Hospital Corpsman First Class Nicholas Geisinger; from Naval Station Everett, Captain Mark Lakamp and Command Master Chief Brian Wojcicki with their Sailor of the Year Master at Arms First Class Thomas Murphy; from Naval Air Station Whidbey Island Captain Geoff Moore and Command Master Chief Shane Cardon and their Sailor of the Year Navy, Navy Career Counselor First Class Rodney Scheppler and the Navy Region Northwest Staff Sailor of the Year is Religious Program Specialist First Class Myron Andrews.]

Today, and every day, your Navy is operating around the world, and around the clock accomplishing its mission. Much of the Navy's success in the Pacific can be directly attributed to the dedication and patriotism from the people of the great State of Washington. On behalf of the Navy, 'Thank you Washington for the continued support of the United States Navy.' Thank you."

The President Pro Tempore thanked Admiral Mayes for his remarks and for the outstanding service and duties performed by the U.S. Navy .

**PART II
HUMAN SERVICES**

Sec. 201. 2017 3rd sp.s. c 1 s 201 (uncodified) is amended to read as follows:

FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES

(1) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act. Appropriations made in this act to the department of social and health services shall initially be

FORTY SEVENTH DAY, FEBRUARY 23, 2018

2018 REGULAR SESSION

allotted as required by this act. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose.

(2) The department of social and health services shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(3) The legislature finds that medicaid payment rates, as calculated by the department pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

(4) The department shall to the maximum extent practicable use the same system for delivery of spoken-language interpreter services for social services appointments as the one established for medical appointments in the health care authority. When contracting directly with an individual to deliver spoken language interpreter services, the department shall only contract with language access providers who are working at a location in the state and who are state-certified or state-authorized, except that when such a provider is not available, the department may use a language access provider who meets other certifications or standards deemed to meet state standards, including interpreters in other states.

(5) Information technology projects or investments and proposed projects or investments impacting time capture, payroll and payment processes and systems, eligibility, case management, and authorization systems within the department of social and health services are subject to technical oversight by the office of the chief information officer.

(6)(a) The department shall facilitate enrollment under the medicaid expansion for clients applying for or receiving state funded services from the department and its contractors. Prior to open enrollment, the department shall coordinate with the health care authority to provide referrals to the Washington health benefit exchange for clients that will be ineligible for medicaid.

(b) To facilitate a single point of entry across public and medical assistance programs, and to maximize the use of federal funding, the health care authority, the department of social and health services, and the health benefit exchange will coordinate efforts to expand HealthPlanfinder access to public assistance and medical eligibility staff. The department shall complete medicaid

applications in the HealthPlanfinder for households receiving or applying for public assistance benefits.

(7) In accordance with RCW 71.24.380, the health care authority and the department are authorized to purchase medical and behavioral health services through integrated contracts upon request of all of the county authorities in a regional service area to become an early adopter of fully integrated purchasing of medical and behavioral health services. The department may combine and transfer such amounts appropriated under sections 204, 208, and 213 of this act as may be necessary to fund early adopter contracts. The amount of medicaid funding transferred from each program may not exceed the average per capita cost assumed in this act for individuals covered by that program, actuarially adjusted for the health condition of persons enrolled, times the number of clients enrolled. The amount of non-medicaid funding transferred from sections 204 and 208 may not exceed the amount that would have been contracted with a behavioral health organization if the county authorities had not requested to become an early adopter of fully integrated purchasing. These limits do not apply to the amounts provided in section 204(1)(s) of this act. If any funding that this act provides solely for a specific purpose is transferred under this subsection, that funding must be used consistently with the provisions and conditions for which it was provided.

(8) In accordance with RCW 71.24.380, the department is authorized to purchase mental health and substance use disorder services through integrated contracts with behavioral health organizations. The department may combine and transfer such amounts appropriated under sections 204 and 208 of this act as may be necessary to finance these behavioral health organization contracts. If any funding that this act provides solely for a specific purpose is transferred under this subsection, that funding must be used consistently with the provisions and conditions for which it was provided.

(9)(a) The appropriations to the department of social and health services in this act must be expended for the programs and in the amounts specified in this act. However, after May 1, 2018, unless prohibited by this act, the department may transfer general fund—state appropriations for fiscal year 2018 among programs after approval by the director of the office of financial management. However, the department may not transfer state moneys that are provided solely for a specified purpose except as expressly provided in (b) of this subsection.

(b) To the extent that transfers under (a) of this subsection are insufficient to fund actual expenditures in excess of fiscal year 2018 caseload forecasts and utilization assumptions in the long-term care, foster care, adoptions support, medical personal care, and child support programs, the department may transfer state moneys that are provided solely for a specified purpose. The department may not transfer funds, and the director of the office of financial management may not approve the transfer, unless the transfer is consistent with the objective of conserving, to the maximum extent possible, the expenditure of state funds. The director of the office of financial management shall notify the appropriate fiscal committees of the senate and house of representatives in writing seven days prior to approving any allotment modifications or transfers under this subsection. The written notification shall include a narrative explanation and justification of the changes, along with expenditures and allotments by budget unit and appropriation, both before and after any allotment modifications or transfers.

| TOTAL APPROPRIATION | <u>\$198,653,000</u> |
| | <u>\$198,413,000</u> |

The appropriations in this section are subject to the following conditions and limitations:

(1) \$331,000 of the general fund—state appropriation for fiscal year 2018 and \$331,000 of the general fund—state appropriation for fiscal year 2019 are provided solely for deposit in the county criminal justice assistance account for costs to the criminal justice system associated with the implementation of chapter 338, Laws of 1997 (juvenile code revisions). The amounts provided in this subsection are intended to provide funding for county adult court costs associated with the implementation of chapter 338, Laws of 1997 and shall be distributed in accordance with RCW 82.14.310.

(2) \$2,841,000 of the general fund—state appropriation for fiscal year 2018 and \$2,841,000 of the general fund—state appropriation for fiscal year 2019 are provided solely for grants to county juvenile courts for the following juvenile justice programs identified by the Washington state institute for public policy (institute) in its report: "Inventory of Evidence-based, Research-based, and Promising Practices for Prevention and Intervention Services for Children and Juveniles in the Child Welfare, Juvenile Justice, and Mental Health Systems." Additional funding for this purpose is provided through an interagency agreement with the health care authority. County juvenile courts shall apply to the juvenile rehabilitation administration for funding for program-specific participation and the administration shall provide grants to the courts consistent with the per-participant treatment costs identified by the institute.

(3) \$1,537,000 of the general fund—state appropriation for fiscal year 2018 and \$1,537,000 of the general fund—state appropriation for fiscal year 2019 are provided solely for expansion of the following juvenile justice treatments and therapies in juvenile rehabilitation administration programs identified by the Washington state institute for public policy in its report: "Inventory of Evidence-based, Research-based, and Promising Practices for Prevention and Intervention Services for Children and Juveniles in the Child Welfare, Juvenile Justice, and Mental Health Systems." The administration may concentrate delivery of these treatments and therapies at a limited number of programs to deliver the treatments in a cost-effective manner.

(4)(a) \$6,198,000 of the general fund—state appropriation for fiscal year 2018 and \$6,198,000 of the general fund—state appropriation for fiscal year 2019 are provided solely to implement evidence- and research-based programs through community juvenile accountability grants, administration of the grants, and evaluations of programs funded by the grants. In addition to funding provided in this subsection, funding to implement alcohol and substance abuse treatment programs for locally committed offenders is provided through an interagency agreement with the health care authority.

(b) The juvenile rehabilitation administration shall administer a block grant to county juvenile courts for the purpose of serving youth as defined in RCW 13.40.510(4)(a) in the county juvenile justice system. Funds dedicated to the block grant include: Consolidated juvenile service (CJS) funds, community juvenile accountability act (CJAA) grants, chemical dependency/mental health disposition alternative (CDDA), and suspended disposition alternative (SDA). The juvenile rehabilitation administration shall follow the following formula and must prioritize evidence-based programs and disposition alternatives and take into account juvenile courts program-eligible youth in conjunction with the number of youth served in each approved evidence-based program or disposition alternative: (i) Thirty-seven and one-half

percent for the at-risk population of youth ten to seventeen years old; (ii) fifteen percent for the assessment of low, moderate, and high-risk youth; (iii) twenty-five percent for evidence-based program participation; (iv) seventeen and one-half percent for minority populations; (v) three percent for the chemical dependency and mental health disposition alternative; and (vi) two percent for the suspended dispositional alternatives. Funding for the special sex offender disposition alternative (SSODA) shall not be included in the block grant, but allocated on the average daily population in juvenile courts. Funding for the evidence-based expansion grants shall be excluded from the block grant formula. Funds may be used for promising practices when approved by the juvenile rehabilitation administration and juvenile courts, through the community juvenile accountability act committee, based on the criteria established in consultation with Washington state institute for public policy and the juvenile courts.

(c) If Second Substitute House Bill No. 1280 (referred and diverted youth) is enacted, then the administration must implement a stop-loss policy when allocating funding under (b) of this subsection in the 2017-2019 fiscal biennium. Under the stop-loss policy, funding formula changes may not result in a funding loss for any juvenile court of more than two percent from one year to the next. The committee in (d) of this subsection must establish a minimum base level of funding for juvenile courts with lower numbers of at-risk youth age 10 – 17. The administration must report to the legislature by December 1, 2018, about how funding is used for referred youth and the impact of that use on overall use of funding. If the bill is not enacted by July 31, 2017, this subsection is null and void.

(d) The juvenile rehabilitation administration and the juvenile courts shall establish a block grant funding formula oversight committee with equal representation from the juvenile rehabilitation administration and the juvenile courts. The purpose of this committee is to assess the ongoing implementation of the block grant funding formula, utilizing data-driven decision making and the most current available information. The committee will be co-chaired by the juvenile rehabilitation administration and the juvenile courts, who will also have the ability to change members of the committee as needed to achieve its purpose. The committee may make changes to the formula categories in (b) of this subsection if it determines the changes will increase statewide service delivery or effectiveness of evidence-based program or disposition alternative resulting in increased cost/benefit savings to the state, including long-term cost/benefit savings. The committee must also consider these outcomes in determining when evidence-based expansion or special sex offender disposition alternative funds should be included in the block grant or left separate.

(e) The juvenile courts and administrative office of the courts must collect and distribute information and provide access to the data systems to the juvenile rehabilitation administration and the Washington state institute for public policy related to program and outcome data. The juvenile rehabilitation administration and the juvenile courts must work collaboratively to develop program outcomes that reinforce the greatest cost/benefit to the state in the implementation of evidence-based practices and disposition alternatives.

(5) \$98,000 of the general fund—state appropriation for fiscal year 2018 and \$98,000 of the general fund—state appropriation for fiscal year 2019 are provided solely to the juvenile block grant funding formula oversight committee described in subsection (4)(d) of this section to contract with research entities to: (a) Assist juvenile justice programs identified as promising practices or research-based in undergoing the research necessary to demonstrate that the program is evidence-based; and (b) establish

an annual, county-level evaluation of existing evidence-based juvenile justice programs.

(6) \$557,000 of the general fund—state appropriation for fiscal year 2018 and \$557,000 of the general fund—state appropriation for fiscal year 2019 are provided solely for funding of the teamchild project.

(7) \$283,000 of the general fund—state appropriation for fiscal year 2018 and \$283,000 of the general fund—state appropriation for fiscal year 2019 are provided solely for the juvenile detention alternatives initiative.

(8) \$500,000 of the general fund—state appropriation for fiscal year 2018 and \$500,000 of the general fund—state appropriation for fiscal year 2019 are provided solely for a grant program focused on criminal street gang prevention and intervention. The juvenile rehabilitation administration may award grants under this subsection. The juvenile rehabilitation administration shall give priority to applicants who have demonstrated the greatest problems with criminal street gangs. Applicants composed of, at a minimum, one or more local governmental entities and one or more nonprofit, nongovernmental organizations that have a documented history of creating and administering effective criminal street gang prevention and intervention programs may apply for funding under this subsection. Each entity receiving funds must report to the juvenile rehabilitation administration on the number and types of youth served, the services provided, and the impact of those services on the youth and the community.

(9) The juvenile rehabilitation institutions may use funding appropriated in this subsection to purchase goods and supplies through hospital group purchasing organizations when it is cost-effective to do so.

(10) \$75,000 of the general fund—state appropriation for fiscal year 2018 is provided solely for the department to coordinate the examination of data associated with juvenile gang and firearm offenses. The review of data must include information from the administrative office of the courts, the office of the superintendent of public instruction, the office of financial management—education research data center, the Washington association of sheriffs and police chiefs, the caseload forecast council, and the department of corrections. For the purpose of carrying out the data review, named organizations are authorized to share data to include details of criminal arrest and conviction data. The department shall report to the governor and the appropriate legislative committees by February 1, 2018, with any recommendations for public policy that increases public safety.

| TOTAL APPROPRIATION | <u>\$1,847,502,000</u> <u>\$881,856,000</u> |

The appropriations in this subsection are subject to the following conditions and limitations:

(a) For the purposes of this subsection, amounts provided for behavioral health organizations shall also be available for the health care authority to contract with entities that assume the responsibilities of behavioral health organizations in regions in which the health care authority is purchasing medical and behavioral health services through fully integrated contracts pursuant to RCW 71.24.380.

(b) ~~(\$6,590,000 of the general fund—state appropriation for fiscal year 2018~~~~(, \$6,590,000 of the general fund—state appropriation for fiscal year 2019,))~~ and ~~(\$7,620,000)~~ \$3,810,000 of the general fund—federal appropriation are provided solely for the department and behavioral health organizations to continue to contract for implementation of high-intensity programs for assertive community treatment (PACT) teams. In determining the proportion of medicaid and nonmedicaid funding provided to behavioral health organizations with PACT teams, the department shall consider the differences between behavioral health organizations in the percentages of services and other costs associated with the teams that are not reimbursable under medicaid. The department may allow behavioral health organizations which have nonmedicaid reimbursable costs that are higher than the nonmedicaid allocation they receive under this section to supplement these funds with local dollars or funds received under ~~((g))~~ (f) of this subsection. The department and behavioral health organizations shall maintain consistency with all essential elements of the PACT evidence-based practice model in programs funded under this section.

(c) From the general fund—state appropriations in this subsection, the department shall assure that behavioral health organizations reimburse the department of social and health services aging and long term support administration for the general fund—state cost of medicaid personal care services that enrolled behavioral health organization consumers use because of their psychiatric disability.

(d) ~~(\$3,520,000)~~ \$1,760,000 of the general fund—federal appropriation is provided solely for the department to maintain a pilot project to put peer bridging staff into each behavioral health organization as part of the state psychiatric liaison teams to promote continuity of service as individuals return to their communities. The department must collect data and submit a report to the office of financial management and the appropriate committees of the legislature on the impact of peer staff on state hospital discharges and community placements by December 1, 2017.

~~(e) (\$6,858,000 of the general fund—state appropriation for fiscal year 2019 and \$4,023,000 of the general fund—federal appropriation are provided solely for new crisis triage or stabilization centers. The department must seek proposals from behavioral health organizations for the use of these funds based on regional priorities. Services in these facilities may include crisis stabilization and intervention, individual counseling, peer support, medication management, education, and referral assistance. The department shall monitor each center's~~

~~effectiveness at lowering the rate of state psychiatric hospital admissions.~~

~~(f))~~ (f)) \$15,862,000 of the general fund—state appropriation for fiscal year 2018 is provided solely to assist behavioral health organizations with the costs of providing services to medicaid clients receiving services in psychiatric facilities classified as institutions of mental diseases. The department must distribute these amounts proportionate to the number of bed days for medicaid clients in institutions for mental diseases that were excluded from behavioral health organization fiscal year 2018 capitation rates because they exceeded the amounts allowed under federal regulations. The department must also use these amounts to directly pay for costs that are ineligible for medicaid reimbursement in institutions of mental disease facilities for American Indian and Alaska Natives who opt to receive behavioral health services on a fee for service basis. The amounts used for these individuals must be reduced from the allocation of the behavioral health organization where the individual resides. If a behavioral health organization receives more funding through this subsection than is needed to pay for the cost of their medicaid clients in institutions for mental diseases, they must use the remainder of the amounts to provide other services not covered under the medicaid program. The department must apply for a waiver from the center for medicaid and medicare services to allow for the full cost of stays in institutions of mental diseases to be included in fiscal year 2019 behavioral health organization capitation rates. The department must submit a report on the status of the waiver to the office of financial management and the appropriate committees of the legislature by December 1, 2017.

~~((g))~~ (f) \$81,930,000 of the general fund—state appropriation for fiscal year 2018 ~~((and \$81,930,000 of the general fund—state appropriation for fiscal year 2019 are))~~ is provided solely for persons and services not covered by the medicaid program. To the extent possible, levels of behavioral health organization spending shall be maintained in the following priority order: Crisis and commitment services; community inpatient services; and residential care services, including personal care and emergency housing assistance. These amounts must be distributed to behavioral health organizations proportionate to the fiscal year 2017 allocation of flexible nonmedicaid funds. The department must include the following language in medicaid contracts with behavioral health organizations unless they are provided formal notification from the center for medicaid and medicare services that the language will result in the loss of federal medicaid participation: "The contractor may voluntarily provide services that are in addition to those covered under the state plan, although the cost of these services cannot be included when determining payment rates unless including these costs are specifically allowed under federal law or an approved waiver."

~~((h))~~ (g) The department is authorized to continue to contract directly, rather than through contracts with behavioral health organizations for children's long-term inpatient facility services.

~~((i))~~ (h) \$1,125,000 of the general fund—state appropriation for fiscal year 2018 ~~((and \$1,125,000 of the general fund—state appropriation for fiscal year 2019 are))~~ is provided solely for the Spokane county behavioral health organization to implement services to reduce utilization and the census at eastern state hospital. (B) Crisis outreach and diversion services to stabilize in the community individuals in crisis who are at risk of requiring inpatient care or jail services;

(C) Mental health services provided in nursing facilities to individuals with dementia, and consultation to facility staff treating those individuals; and

(D) Services at the sixteen-bed evaluation and treatment facility.

At least annually, the Spokane county behavioral health organization shall assess the effectiveness of these services in reducing utilization at eastern state hospital, identify services that are not optimally effective, and modify those services to improve their effectiveness.

~~((+))~~ (i) \$1,204,000 of the general fund—state appropriation for fiscal year 2018 ~~((and \$1,204,000 of the general fund—state appropriation for fiscal year 2019 are))~~ is provided solely to reimburse Pierce and Spokane counties for the cost of conducting 180-day commitment hearings at the state psychiatric hospitals.

~~((+))~~ (j) Behavioral health organizations may use local funds to earn additional federal medicaid match, provided the locally matched rate does not exceed the upper-bound of their federally allowable rate range, and provided that the enhanced funding is used only to provide medicaid state plan or waiver services to medicaid clients. Additionally, behavioral health organizations may use a portion of the state funds allocated in accordance with (g) of this subsection to earn additional medicaid match, but only to the extent that the application of such funds to medicaid services does not diminish the level of crisis and commitment, community inpatient, residential care, and outpatient services presently available to persons not eligible for medicaid.

~~((+))~~ (k) \$2,291,000 of the general fund—state appropriation for fiscal year 2018 ~~((and \$2,291,000 of the general fund—state appropriation for fiscal year 2019 are))~~ is provided solely for mental health services for mentally ill offenders while confined in a county or city jail and for facilitating access to programs that offer mental health services upon release from confinement. The department must collect information from the behavioral health organizations on their plan for using these funds, the numbers of individuals served, and the types of services provided and submit a report to the office of financial management and the appropriate fiscal committees of the legislature by December 1st of each year of the biennium.

~~((+))~~ (l) Within the amounts appropriated in this section, funding is provided for the department to develop and phase in intensive mental health services for high needs youth consistent with the settlement agreement in *T.R. v. Dreyfus and Porter*.

~~((+))~~ (m) The department must establish minimum and maximum funding levels for all reserves allowed under behavioral health organization contracts and insert contract language that clearly states the requirements and limitations. The department must monitor and ensure that behavioral health organization reserves do not exceed maximum levels. The department must monitor behavioral health organization revenue and expenditure reports and must require a behavioral health organization to submit a corrective action plan on how it will spend its excess reserves within a reasonable period of time, when its reported reserves exceed maximum levels established under the contract. The department must review and approve such plans and monitor to ensure compliance. If the department determines that a behavioral health organization has failed to provide an adequate excess reserve corrective action plan or is not complying with an approved plan, the department must reduce payments to the behavioral health organization in accordance with remedial actions provisions included in the contract. These reductions in payments must continue until the department determines that the behavioral health organization has come into substantial compliance with an approved excess reserve corrective action plan.

The department must increase both medicaid and nonmedicaid psychiatric per-diem reimbursement rates for these providers within these amounts. The amounts in this subsection include funding for additional hold harmless payments resulting from the rate increase. The department shall prioritize increases for hospitals not currently paid based on provider specific costs using a similar methodology used to set rate for existing inpatient facilities and the latest available cost report information. Rate increases for providers must be set so as not to exceed the amounts provided within this subsection. The rate increase related to nonmedicaid clients must be done to maintain the provider at the same percentage as currently required under WAC 182-550-4800.

The department must seek proposals and contract directly for these services rather than contracting through behavioral health organizations. The department must coordinate with the department of social and health services in developing the contract requirements, selecting contractors, and establishing processes for identifying patients that will be admitted to these facilities. The department must not use any of the amounts provided under this subsection for contracts with facilities that are subject to federal funding restrictions that apply to institutions of mental diseases, unless they have received a waiver that allows for full federal participation in these facilities.

~~((+))~~ \$1,133,000 of the general fund—state appropriation for fiscal year 2019 and \$1,297,000 of the general fund—federal appropriation are provided solely to increase the number of psychiatric residential treatment beds for individuals transitioning from psychiatric inpatient settings. In developing further updates for medicaid managed care rates for behavioral health services, the department must include and make available all applicable documents and analysis to legislative staff from the fiscal committees throughout the process. The department must require the actuaries to develop and submit rate ranges for each behavioral health organization prior to certification of specific rates.

The contracted beds provided under ~~((+))~~ (p) of this subsection shall be allocated to the behavioral health organizations in lieu of beds at the state hospitals and be incorporated in their allocation of state hospital patient days of care for the purposes of calculating reimbursements pursuant to RCW 71.24.310. In contracting for community evaluation and treatment services, the department may not use these resources in facilities that meet the criteria to be classified under federal law as institutions for mental diseases. If the department is unable to come to a contract agreement with a designated behavioral health organization for any of the services identified above, it may consider contracting for that service in another region that has the need for such service.

The license fees may not exceed the department's annual licensing and oversight activity costs and shall include the department's cost of paying providers for the amount of the license fee attributed to medicaid clients.

(i) The current annual renewal license fee for adult family homes shall be \$225 per bed beginning in fiscal year 2018 and \$225 per bed beginning in fiscal year 2019. A processing fee of \$2,750 shall be charged to each adult family home when the home is initially licensed. This fee is nonrefundable. A processing fee of \$700 shall be charged when adult family home providers file a change of ownership application.

(ii) The current annual renewal license fee for assisted living facilities shall be \$106 per bed beginning in fiscal year 2018 and \$106 per bed beginning in fiscal year 2019.

(d) \$787,000 of the general fund—state appropriation for fiscal year 2018, \$2,183,000 of the general fund—state appropriation for fiscal year 2019, and \$3,714,000 of the general fund—federal appropriation are provided solely for the homecare agency parity impacts of the agreement between the governor and the service employees international union healthcare 775nw. Funding is contingent upon the enactment of Senate Bill No. 5969 (transparency in public employee collective bargaining). (e) The department may authorize a one-time waiver of all or any portion of the licensing and processing fees required under RCW 70.128.060 in any case in which the department determines that an adult family home is being relicensed because of exceptional circumstances, such as death or incapacity of a provider, and that to require the full payment of the licensing and processing fees would present a hardship to the applicant. In these situations the department is also granted the authority to waive the required residential administrator training for a period of 120 days if necessary to ensure continuity of care during the relicensing process.

(f) Community residential cost reports that are submitted by or on behalf of contracted agency providers are required to include information about agency staffing including health insurance, wages, number of positions, and turnover.

(g) \$650,000 of the general fund—state appropriation for fiscal year 2018, \$650,000 of the general fund—state appropriation for fiscal year 2019, and \$800,000 of the general fund—federal appropriation are provided solely for the development and implementation of eight enhanced respite beds across the state for children. These services are intended to provide families and caregivers with a break in caregiving, the opportunity for behavioral stabilization of the child, and the ability to partner with the state in the development of an individualized service plan that allows the child to remain in his or her family home. The department must provide the legislature with a respite utilization report in January of each year that provides information about the number of children who have used enhanced respite in the preceding year, as well as the location and number of days per month that each respite bed was occupied.

(h) \$900,000 of the general fund—state appropriation for fiscal year 2018 and \$900,000 of the general fund—state appropriation for fiscal year 2019 are provided solely for the development and implementation of eight community respite beds across the state for adults. These services are intended to provide families and caregivers with a break in caregiving and the opportunity for stabilization of the individual in a community-based setting as an alternative to using a residential habilitation center to provide planned or emergent respite. The department must provide the

legislature with a respite utilization report by January of each year that provides information about the number of individuals who have used community respite in the preceding year, as well as the location and number of days per month that each respite bed was occupied.

(i) \$100,000 of the general fund—state appropriation for fiscal year 2018, \$95,000 of the general fund—state appropriation for fiscal year 2019, and \$195,000 of the general fund—federal appropriation are provided solely for discharge case managers stationed at the state psychiatric hospitals. Discharge case managers will transition clients ready for hospital discharge into less restrictive alternative community placements. The transition of clients ready for discharge will free up bed capacity at the state psychiatric hospitals.

(j) \$1,239,000 of the general fund—state appropriation for fiscal year 2018, \$2,055,000 of the general fund—state appropriation for fiscal year 2019, and \$3,218,000 of the general fund—federal appropriation are provided solely to create new community alternative placement beds that prioritize the transition of clients who are ready for discharge from the state psychiatric hospitals, but who have additional long-term care or developmental disability needs.

(i) Community alternative placement beds include enhanced service facility beds, adult family home beds, skilled nursing facility beds, shared supportive housing beds, state operated living alternative beds, and assisted living facility beds.

(ii) Each client must receive an individualized assessment prior to leaving one of the state psychiatric hospitals. The individualized assessment must identify and authorize personal care, nursing care, behavioral health stabilization, physical therapy, or other necessary services to meet the unique needs of each client. It is the expectation that, in most cases, staffing ratios in all community alternative placement options described in (j)(i) of this subsection will need to increase to meet the needs of clients leaving the state psychiatric hospitals. If specialized training is necessary to meet the needs of a client before he or she enters a community placement, then the person centered service plan must also identify and authorize this training.

(iii) When reviewing placement options, the department must consider the safety of other residents, as well as the safety of staff, in a facility. An initial evaluation of each placement, including any documented safety concerns, must occur within thirty days of a client leaving one of the state psychiatric hospitals and entering one of the community placement options described in (j)(i) of this subsection. At a minimum, the department must perform two additional evaluations of each placement during the first year that a client has lived in the facility.

(iv) During fiscal year 2018, in a presentation to the select committee on quality improvement in state hospitals, the department must describe the process of fielding and subsequently investigating complaints of abuse, neglect, and exploitation within the community alternative placement options described in (j)(i) of this subsection. At a minimum, the presentation must include data about the number of complaints, and the nature of complaints, over the preceding five fiscal years.

(v) During fiscal year 2019, in a presentation to the select committee on quality improvement in state hospitals, the department must provide an update about clients placed out of the state psychiatric hospitals into the community alternative placement options described in (j)(i) of this subsection. At a minimum, for each setting, the presentation must include data about the number of placements, average daily rate, complaints fielded, and complaints investigated. The presentation must also include information about modifications, including the placement of clients into alternate settings, that occurred due to the evaluations required under (j)(iii) of this subsection.

In developing bed capacity, the department shall consider the complex needs of individuals waiting for discharge from the state psychiatric hospitals.

(k) \$738,000 of the general fund—state appropriation for fiscal year 2018, \$1,963,000 of the general fund—state appropriation for fiscal year 2019, and \$2,701,000 of the general fund—federal appropriation are provided solely for expanding the number of clients receiving services under the basic plus medicaid waiver. Approximately six hundred additional clients are anticipated to graduate from high school during the 2017-2019 fiscal biennium and will receive employment services under this expansion.

Information technology projects or investments and proposed projects or investments impacting time capture, payroll and payment processes and systems, eligibility, case management, and authorization systems within the health care authority are subject to technical oversight by the office of the chief information officer.

The health care authority shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The health care authority may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the health care authority receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

The appropriations to the health care authority in this act shall be expended for the programs and in the amounts specified in this act. To the extent that appropriations in this section are insufficient to fund actual expenditures in excess of caseload forecasts and utilization assumptions, the authority, after May 1, 2018, may transfer general fund—state appropriations for fiscal year 2018 that are provided solely for a specified purpose. The authority may not transfer funds, and the director of the office of financial management shall not approve the transfer, unless the transfer is consistent with the objective of conserving, to the maximum extent possible, the expenditure of state funds. The director of the office of financial management shall notify the appropriate fiscal committees of the senate and house of representatives in writing seven days prior to approving any allotment modifications or transfers under this subsection. The written notification must include a narrative explanation and justification of changes, along with expenditures and allotments by budget unit and appropriation, both before and after any allotment modifications and transfers.

The appropriations in this section are subject to the following conditions and limitations:

(a) \$256,645,000 of the general fund—state appropriation for fiscal year 2018 and \$264,704,000 of the general fund—state appropriation for fiscal year 2019 are provided solely for the authority to implement a single, standard medicaid preferred drug list to be used by all contracted medicaid managed health care systems, on or before January 1, 2018. The preferred drug list shall be developed in consultation with all contracted managed health care systems and the state pharmacy and therapeutics committee or drug utilization review board and shall further the goals and objectives of the medicaid program. The list shall be designed to maximize federal rebates and supplemental rebates and ensure access to clinically effective and appropriate drug therapies under each class. Entities eligible for 340B drug pricing shall continue to operate under their current pricing agreement, unless otherwise required by federal laws or regulations. The authority may utilize external consultants with expertise in evidence-based drug class reviews, pharmacy benefit management, and purchasing to assist with the completion of this development and implementation. The authority shall require each managed care organization that has contracted with the authority to provide care to medicaid beneficiaries to use the established preferred drug list; and shall prohibit each managed care organization and any of its agents from negotiating or collecting rebates for any medications listed in the state's medicaid single preferred drug list whether preferred or nonpreferred. To assist in the implementation of the single preferred drug list, contracted medicaid managed health care systems shall provide the authority drug-specific financial information in a format and frequency determined by the authority to include the actual amounts paid to pharmacies for prescription drugs dispensed to covered individuals compared to the cost invoiced to the health plan and individual rebates collected for prescription drugs dispensed to medicaid members. During the 2017-2019 fiscal biennium, the administration of the prescription drug benefit for medicaid managed health care

systems shall be carried out by a single pharmacy benefits manager under the prescription drug purchasing consortium with full transparency of all rebates, supplemental rebates, and associated administrative costs. It is the intent of the legislature to continue this policy in subsequent biennia. Information disclosed to the authority by the manufacturer pursuant to this provision shall only be used for the purposes of developing and implementing a single, standard state preferred drug list in accordance with this provision. The authority, medicaid managed care organizations, and all other parties shall maintain the confidentiality of drug-specific financial and other proprietary information and such information shall not be subject to the Washington public records act. The authority shall provide a report to the governor and appropriate committees of the legislature by November 15, 2018, and by November 15, 2019, including a comparison of the amount spent in the previous two fiscal years to expenditures under the new system by, at a minimum, fund source, total expenditure, drug class, and top twenty-five drugs. The data provided to the authority shall be aggregated in any report by the authority, the legislature, or the office of financial management so as not to disclose the proprietary or confidential drug-specific information, or the proprietary or confidential information that directly or indirectly identifies financial information linked to a single manufacturer. It is the intent of the legislature to revisit this policy in subsequent biennia to determine whether it is in the best interest of the state.

(b) ~~(\$118,813,000)~~ \$113,356,000 of the general fund—state appropriation for fiscal year 2018 and ~~(\$120,265,000)~~ \$140,578,000 of the general fund—state appropriation for fiscal year 2019 are provided solely for holding managed care capitation rates flat at calendar year 2017 levels in state fiscal years and calendar years 2018 and 2019.

(c) \$122,244,000 of the general fund—state appropriation for fiscal year 2018 and \$116,038,000 of the general fund—state appropriation for fiscal year 2019 are provided solely for the authority through the competitive procurement process, to contract with licensed dental health plans or managed health care plans on a prepaid or fixed-sum risk basis to provide carved-out managed dental care services on a statewide basis that will result in greater efficiency and will facilitate better access and oral health outcomes for medicaid enrollees. Except in areas where only a single plan is available, the authority must contract with at least two plans. The authority shall include in the contracts: (i) Quarterly reporting requirements to include medicaid utilization and encounter data by current dental technology (CDT) code; (ii) a direction to increase the dental provider network; (iii) a commitment to retain innovative programs that improve access and care such as the access to baby and child dentistry program; (iv) a program to reduce emergency room use for dental purposes; (v) a requirement to ensure that dental care is being coordinated with the primary care provider of the patient to ensure integrated care; (vi) a provision that no less than eighty-five percent of the contracting fee be used to directly offset the cost of providing direct patient care as opposed to administrative costs; and (vii) a provision to ensure the contracting fee shall be sufficient to compensate county health departments and federally qualified health centers for dental patient care. The plan(s) awarded this contract must absorb all start-up costs associated with moving the program from fee-for-service to managed care and shall commit to achieving an overall savings to the program based on 2016 fee-for-service experience. In order to comply with state insurance underwriting standards, the authority shall ensure that savings offered by dental plans are actuarially sound. Starting January 31, 2019, and every year thereafter through December 2024, the authority shall submit an annual report to the governor and the

appropriate committees of the legislature detailing how the contracted entities have met the requirements of the contract. The report shall include specific information to include utilization, how the contracted entities have increased their dental provider networks, how the emergency room use for dental purposes has been reduced, and how dental care has been integrated with patients' primary care providers. If after the end of five years the data reported does not demonstrate sufficient progress to address the stated contracted goals, the legislature will reevaluate whether carved-out dental managed care needs to be replaced with a different delivery model. The authority is authorized to seek any necessary state plan amendments or federal waivers to implement this subsection. Additional dental program savings achieved by the plans beyond those assumed in the 2017-2019 omnibus appropriations act will be used to increase dental provider reimbursement rates. By October 30, 2018, the authority shall report to the governor and the appropriate committees of the legislature anticipated savings related to reduction in dental emergency department visits and utilization once managed care dental coverage begins.

(d) (~~(\$1,540,849,000)~~) \$1,481,719,000 of the general fund—state appropriation for fiscal year 2018 and (~~(\$1,585,513,000)~~) \$1,540,891,000 of the general fund—state appropriation for fiscal year 2019 are provided solely for medicaid services and the medicaid program. However, the authority shall not accept or expend any federal funds received under a medicaid transformation waiver under healthier Washington except as described in (e) and (f) of this subsection until specifically approved and appropriated by the legislature. To ensure compliance with legislative directive budget requirements and terms and conditions of the waiver, the authority shall implement the waiver and reporting requirements with oversight from the office of financial management. The legislature finds that appropriate management of the innovation waiver requires better analytic capability, transparency, consistency, timeliness, accuracy, and lack of redundancy with other established measures and that the patient must be considered first and foremost in the implementation and execution of the demonstration waiver. In order to effectuate these goals, the authority shall: (i) Require the Dr. Robert Bree collaborative and the health technology assessment program to reduce the administrative burden upon providers by only requiring performance measures that are nonduplicative of other nationally established measures. The joint select committee on health care oversight will evaluate the measures chosen by the collaborative and the health technology assessment program for effectiveness and appropriateness; (ii) develop a patient satisfaction survey with the goal to gather information about whether it was beneficial for the patient to use the center of excellence location in exchange for additional out-of-pocket savings; (iii) ensure patients and health care providers have significant input into the implementation of the demonstration waiver, in order to ensure improved patient health outcomes; and (iv) in cooperation with the department of social and health services, consult with and provide notification of work on applications for federal waivers, including details on waiver duration, financial implications, and potential future impacts on the state budget, to the joint select committee on health care oversight prior to submitting waivers for federal approval. By federal standard, the medicaid transformation demonstration waiver shall not exceed the duration originally granted by the centers for medicare and medicaid services and any programs created or funded by this waiver do not create an entitlement.

(e) No more than (~~(\$479,600,000)~~) \$486,683,000 of the general fund—federal appropriation and no more than (~~(\$154,289,000)~~) \$129,103,000 of the general fund—local appropriation may be expended for transformation through accountable communities of

health described in initiative 1 of the medicaid transformation demonstration waiver under healthier Washington, including preventing youth drug use, opioid prevention and treatment, and physical and behavioral health integration. The authority shall not increase general fund—state expenditures under this initiative. The director shall report to the joint select committee on health care oversight no less than quarterly, and include details for each accountable community of health, on the financial status and measurable health outcomes. The director shall also report to the fiscal committees of the legislature all of the expenditures under this subsection and shall provide such fiscal data in the time, manner, and form requested by the legislative fiscal committees. By December 15, 2019, the authority in collaboration with each accountable community of health shall demonstrate how it will be self-sustaining by the end of the demonstration waiver period, including sources of outside funding, and provide this reporting to the joint select committee on health care oversight. If by the third year of the demonstration waiver there are not measurable, improved patient outcomes and financial returns, the Washington state institute for public policy will conduct an audit of the accountable communities of health, in addition to the process set in place through the independent evaluation required by the agreement with centers for medicare and medicaid services. Prior to the 2018 legislative session, the human services, health care, and judiciary committees of the legislature will convene a joint work session to review models in the delivery system and the impacts on medical liability. The work sessions should include integrated delivery models with multiple health care providers and medical malpractice insurance carriers.

(f) No more than (~~(\$42,584,000)~~) \$38,425,000 of the general fund—federal appropriation may be expended for supported housing and employment services described in initiative 3a and 3b of the medicaid transformation demonstration waiver under healthier Washington. ~~((g))~~ (h) Sufficient amounts are appropriated in this subsection to implement the medicaid expansion as defined in the social security act, section 1902(a)(10)(A)(i)(VIII).

~~((h))~~ (i) The legislature finds that medicaid payment rates, as calculated by the health care authority pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that the cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

~~((i))~~ (j) Based on quarterly expenditure reports and caseload forecasts, if the health care authority estimates that expenditures for the medical assistance program will exceed the appropriations, the health care authority shall take steps including but not limited to reduction of rates or elimination of optional services to reduce expenditures so that total program costs do not exceed the annual appropriation authority.

~~((j))~~ (k) In determining financial eligibility for medicaid-funded services, the health care authority is authorized to disregard recoveries by Holocaust survivors of insurance proceeds or other assets, as defined in RCW 48.104.030.

~~((k))~~ (l) The legislature affirms that it is in the state's interest for Harborview medical center to remain an economically viable component of the state's health care system.

~~((l))~~ (m) When a person is ineligible for medicaid solely by reason of residence in an institution for mental diseases, the health care authority shall provide the person with the same benefits as he or she would receive if eligible for medicaid, using state-only funds to the extent necessary.

~~((m))~~ (n) \$4,261,000 of the general fund—state appropriation for fiscal year 2018, \$4,261,000 of the general fund—state appropriation for fiscal year 2019, and \$8,522,000 of the general fund—federal appropriation are provided solely for low-income disproportionate share hospital payments.

~~((n))~~ (o) Within the amounts appropriated in this section, the health care authority shall provide disproportionate share hospital payments to hospitals that provide services to children in the children's health program who are not eligible for services under Title XIX or XXI of the federal social security act due to their citizenship status.

~~((o))~~ (p) \$6,000,000 of the general fund—federal appropriation is provided solely for supplemental payments to nursing homes operated by public hospital districts. The public hospital district shall be responsible for providing the required nonfederal match for the supplemental payment, and the payments shall not exceed the maximum allowable under federal rules. It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate-setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments. The supplemental payments are subject to retrospective interim and final cost settlements based on the nursing homes' as-filed and final medicare cost reports. The timing of the interim and final cost settlements shall be at the health care authority's discretion. During either the interim cost settlement or the final cost settlement, the health care authority shall recoup from the public hospital districts the supplemental payments that exceed the medicaid cost limit and/or the medicare upper payment limit. The health care authority shall apply federal rules for identifying the

eligible incurred medicaid costs and the medicare upper payment limit.

The health care authority shall submit reports to the governor and legislature by November 1, 2017, and by November 1, 2018, that evaluate whether savings continue to exceed costs for this program. If the certified public expenditures (CPE) program in its current form is no longer cost-effective to maintain, the health care authority shall submit a report to the governor and legislature detailing cost-effective alternative uses of local, state, and federal resources as a replacement for this program. During fiscal year 2018 and fiscal year 2019, hospitals in the program shall be paid and shall retain one hundred percent of the federal portion of the allowable hospital cost for each medicaid inpatient fee-for-service claim payable by medical assistance and one hundred percent of the federal portion of the maximum disproportionate share hospital payment allowable under federal regulations. Inpatient medicaid payments shall be established using an allowable methodology that approximates the cost of claims submitted by the hospitals. Payments made to each hospital in the program in each fiscal year of the biennium shall be compared to a baseline amount. The baseline amount will be determined by the total of (i) the inpatient claim payment amounts that would have been paid during the fiscal year had the hospital not been in the CPE program based on the reimbursement rates developed, implemented, and consistent with policies approved in the 2017-2019 biennial operating appropriations act and in effect on July 1, 2015, (ii) one-half of the indigent assistance disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005, and (iii) all of the other disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005 to the extent the same disproportionate share hospital programs exist in the 2017-2019 fiscal biennium. If payments during the fiscal year exceed the hospital's baseline amount, no additional payments will be made to the hospital except the federal portion of allowable disproportionate share hospital payments for which the hospital can certify allowable match. If payments during the fiscal year are less than the baseline amount, the hospital will be paid a state grant equal to the difference between payments during the fiscal year and the applicable baseline amount. Payment of the state grant shall be made in the applicable fiscal year and distributed in monthly payments. The grants will be recalculated and redistributed as the baseline is updated during the fiscal year. The grant payments are subject to an interim settlement within eleven months after the end of the fiscal year. A final settlement shall be performed. To the extent that either settlement determines that a hospital has received funds in excess of what it would have received as described in this subsection, the hospital must repay the excess amounts to the state when requested. ~~(\$10,575,000)~~ \$359,000 of the general fund—state appropriation for fiscal year 2018 and ~~(\$13,185,000)~~ \$361,000 of the general fund—state appropriation for fiscal year 2019 are provided solely for state grants for the participating hospitals.

The reports should include baseline and benchmark information from the previous two fiscal years and should be inclusive of, but not limited to, services recommended under the United States preventative services task force, advisory committee on immunization practices, early and periodic screening, diagnostic, and treatment (EPSDT) guidelines, and other relevant preventative and vaccination medicaid guidelines and requirements.

The appropriations in this subsection are subject to the following conditions and limitations:

(a) \$6,590,000 of the general fund—state appropriation for fiscal year 2019 and \$3,810,000 of the general fund—federal appropriation are provided solely for the authority and behavioral health organizations to continue to contract for implementation of high-intensity programs for assertive community treatment (PACT) teams. In determining the proportion of medicaid and nonmedicaid funding provided to behavioral health organizations with PACT teams, the authority shall consider the differences between behavioral health organizations in the percentages of services and other costs associated with the teams that are not reimbursable under medicaid. The authority may allow behavioral health organizations which have nonmedicaid reimbursable costs that are higher than the nonmedicaid allocation they receive under this section to supplement these funds with local dollars or funds received under (e) of this subsection. The authority and behavioral health organizations shall maintain consistency with all essential elements of the PACT evidence-based practice model in programs funded under this section.

(b) From the general fund—state appropriations in this subsection, the authority shall assure that behavioral health organizations reimburse the department of social and health services aging and long term support administration for the general fund—state cost of medicaid personal care services that enrolled behavioral health organization consumers use because of their psychiatric disability.

(c) \$1,760,000 of the general fund—federal appropriation is provided solely for the authority to maintain a pilot project to put peer bridging staff into each behavioral health organization as part of the state psychiatric liaison teams to promote continuity of service as individuals return to their communities.

The authority must seek proposals from behavioral health organizations for the use of these funds based on regional priorities. Services in these facilities may include crisis stabilization and intervention, individual counseling, peer support, medication management, education, and referral assistance. The authority shall monitor each center's effectiveness at lowering the rate of state psychiatric hospital admissions.

(e) \$81,930,000 of the general fund—state appropriation for fiscal year 2019 is provided solely for persons and services not covered by the medicaid program. To the extent possible, levels of behavioral health organization spending must be maintained in

the following priority order: Crisis and commitment services; community inpatient services; and residential care services, including personal care and emergency housing assistance. These amounts must be distributed to behavioral health organizations proportionate to the fiscal year 2017 allocation of flexible nonmedicaid funds. The authority must include the following language in medicaid contracts with behavioral health organizations unless they are provided formal notification from the center for medicaid and medicare services that the language will result in the loss of federal medicaid participation: "The contractor may voluntarily provide services that are in addition to those covered under the state plan, although the cost of these services cannot be included when determining payment rates unless including these costs are specifically allowed under federal law or an approved waiver."

(f) The authority is authorized to continue to contract directly, rather than through contracts with behavioral health organizations for children's long-term inpatient facility services.

(g) \$1,125,000 of the general fund—state appropriation for fiscal year 2019 is provided solely for the Spokane county behavioral health organization to implement services to reduce utilization and the census at eastern state hospital. Such services shall include:

(i) High intensity treatment team for persons who are high utilizers of psychiatric inpatient services, including those with co-occurring disorders and other special needs;

(ii) Crisis outreach and diversion services to stabilize in the community individuals in crisis who are at risk of requiring inpatient care or jail services;

(i) Behavioral health organizations may use local funds to earn additional federal medicaid match, provided the locally matched rate does not exceed the upper-bound of their federally allowable rate range, and provided that the enhanced funding is used only to provide medicaid state plan or waiver services to medicaid clients. Additionally, behavioral health organizations may use a portion of the state funds allocated in accordance with (e) of this subsection to earn additional medicaid match, but only to the extent that the application of such funds to medicaid services does not diminish the level of crisis and commitment, community inpatient, residential care, and outpatient services presently available to persons not eligible for medicaid.

(j) \$2,291,000 of the general fund—state appropriation for fiscal year 2019 is provided solely for mental health services for mentally ill offenders while confined in a county or city jail and for facilitating access to programs that offer mental health services upon release from confinement. FORTY SEVENTH DAY, FEBRUARY 23, 2018

2018 REGULAR SESSION

(k) Within the amounts appropriated in this section, funding is provided for the authority to develop and phase in intensive mental health services for high needs youth consistent with the settlement agreement in *T.R. v. Dreyfus and Porter*.

(l) The authority must establish minimum and maximum funding levels for all reserves allowed under behavioral health organization contracts and insert contract language that clearly states the requirements and limitations. The authority must monitor and ensure that behavioral health organization reserves do not exceed maximum levels. The authority must monitor behavioral health organization revenue and expenditure reports and must require a behavioral health organization to submit a corrective action plan on how it will spend its excess reserves within a reasonable period of time, when its reported reserves exceed maximum levels established under the contract. The authority must review and approve such plans and monitor to ensure compliance. If the authority determines that a behavioral health organization has failed to provide an adequate excess reserve corrective action plan or is not complying with an approved plan, the authority must reduce payments to the behavioral health organization in accordance with remedial actions provisions included in the contract. These reductions in payments must continue until the authority determines that the behavioral health organization has come into substantial compliance with an approved excess reserve corrective action plan.

(m) \$3,079,000 of the general fund—state appropriation for fiscal year 2019 and \$2,892,000 of the general fund—federal appropriation are provided solely for the authority to increase rates for community hospitals that provide a minimum of two hundred medicaid psychiatric inpatient days. The authority must increase both medicaid and nonmedicaid psychiatric per-diem reimbursement rates for these providers within these amounts. The amounts in this subsection include funding for additional hold harmless payments resulting from the rate increase. The authority shall prioritize increases for hospitals not currently paid based on provider specific costs using a similar methodology used to set rates for existing inpatient facilities and the latest available cost report information. Rate increases for providers must be set so as not to exceed the amounts provided within this subsection. The rate increase related to nonmedicaid clients must be done to maintain the provider at the same percentage as currently required under WAC 182-550-4800.

(n) \$100,000 of the general fund—state appropriation for fiscal year 2019 is provided solely for the authority to collaborate with tribal governments and develop a plan for establishing an evaluation and treatment facility that will specialize in providing care specifically to the American Indian and Alaska Native population. The plan must include options for maximizing federal participation and ensuring that utilization will be based on medical necessity.

(o) \$7,103,000 of the general fund—state appropriation for fiscal year 2019 and \$8,052,000 of the general fund—federal appropriation are provided solely for the authority to contract with community hospitals or freestanding evaluation and treatment centers to provide up to forty-eight long-term inpatient care beds as defined in RCW 71.24.025. The authority must seek proposals and contract directly for these services rather than contracting through behavioral health organizations. The authority must not use any of the amounts provided under this subsection for contracts with facilities that are subject to federal funding restrictions that apply to institutions of mental diseases, unless they have received a waiver that allows for full federal participation in these facilities.

(p) \$1,133,000 of the general fund—state appropriation for fiscal year 2019 and \$1,297,000 of the general fund—federal appropriation are provided solely to increase the number of psychiatric residential treatment beds for individuals transitioning from psychiatric inpatient settings. The authority must seek proposals from behavioral health organizations for the use of these amounts and coordinate with the department of social and health services in awarding these funds. The authority must not allow for any of the amounts provided under this subsection to be used for services in facilities that are subject to federal funding restrictions that apply to institutions of mental diseases, unless they have received a waiver that allows for full federal participation in these facilities.

The authority must work with the actuaries responsible for certifying behavioral health capitation rates to adjust average salary assumptions in order to implement this increase. In developing further updates for medicaid managed care rates for behavioral health services, the authority must include and make available all applicable documents and analysis to legislative staff from the fiscal committees throughout the process. The authority must require the actuaries to develop and submit rate ranges for each behavioral health organization prior to certification of specific rates.

(r) The number of beds allocated for use by behavioral health organizations at eastern state hospital shall be one hundred ninety two per day. The number of nonforensic beds allocated for use by behavioral health organizations at western state hospital shall be five hundred fifty-seven per day. In fiscal year 2019, the authority must reduce the number of beds allocated for use by behavioral health organizations at western state hospital by thirty beds to allow for the repurposing of a civil ward at western state hospital to provide forensic services. The contracted beds provided under (o) of this subsection shall be allocated to the behavioral health organizations in lieu of beds at the state hospitals and be incorporated in their allocation of state hospital patient days of care for the purposes of calculating reimbursements pursuant to RCW 71.24.310. It is the intent of the legislature to continue the policy of expanding community based alternatives for long term civil commitment services that allow for state hospital beds to be prioritized for forensic patients.

(s) \$11,405,000 of the general fund—state appropriation for fiscal year 2019 and \$8,840,000 of the general fund—federal appropriation are provided solely to maintain enhancements of community mental health services. The authority must contract these funds for the operation of community programs in which the authority determines there is a need for capacity that allows individuals to be diverted or transitioned from the state hospitals including but not limited to: (i) Community hospital or free standing evaluation and treatment services providing short-term detention and commitment services under the involuntary treatment act to be located in the geographic areas of the King behavioral health organization, the Spokane behavioral health organization outside of Spokane county, and the Thurston Mason behavioral health organization; (ii) one new full program of an assertive community treatment team in the King behavioral health organization and two new half programs of assertive community treatment teams in the Spokane behavioral health organization and the Pierce behavioral health organization; and (iii) three new recovery support services programs in the Great Rivers behavioral health organization, the greater Columbia behavioral health organization, and the north sound behavioral health

In contracting for community evaluation and treatment services, the authority may not use these resources in facilities that meet the criteria to be classified under federal law as institutions for mental diseases. If the authority is unable to come to a contract agreement with a designated behavioral health organization for any of the services identified above, it may consider contracting for that service in another region that has the need for such service.

(t) \$1,296,000 of the general fund—state appropriation for fiscal year 2019 is provided solely for clubhouse programs. The authority shall ensure that \$400,000 is used for the biennium for support of the Spokane clubhouse program and the remaining funds must be used for support of new clubhouse programs. The authority must develop options and cost estimates for implementation of clubhouse programs statewide through a medicaid state plan amendment or a medicaid waiver and submit a report to the office of financial management and the appropriate committees of the legislature by December 1, 2018.

The appropriations in this section are subject to the following conditions and limitations:

Limiting disclosure of information about the religious affiliation of individuals.

MOTION

On page 2, line 26, after "part of a" strike "targeted" and insert "criminal"

On page 2, at the beginning of line 29, strike "clear"

POINT OF ORDER

Senator Fain: "Thank you Madam President. I rise to a point of order as to the scope, but more importantly, the object of the amendment before the chamber. I have some brief remarks to make."

President Keiser: "You have remarks, Senator Fain?"

Senator Fain: "Thank you Madam President. I will try to be brief in this. Under the Lieutenant Governor's recent ruling on the object of a bill, it was rather narrow in its definition in its written ruling, and so the particular amendment we have before us, I think it fits into the narrowness of which the Lieutenant Governor was speaking of when he made his ruling. In particular

the underlying bill is about limiting the disclosure of particular identifying religious information about an individual, whereas the amendment that came out of the Committee on Law & Justice is actually about expanding that, or actually taking away some of that limitations. Synonymous to the death penalty bill we had that was about the limitation of the death penalty or the abolishment of the death penalty, the amendments that were offered at that time were about taking a step back from the full total act that was being proposed under the underlying bill. The Lieutenant Governor's ruling really rejected, you know, fifty years of precedence in terms of how we interpret what the object of the bill is. Typically the object of the bill has been determined based on not turning the intent of the legislation on its head. So if the bill is to do one thing it's saying, it would not say that the bill is designed to not do that one thing. But this was a very narrow interpretation and so I am hoping that we can take a very brief moment to evaluate what the impacts of that ruling are. In this particular case, Madam President, the object, as I said, of this bill is about limiting disclosure. The amendment would actually open that up in a quite synonymous way as the death penalty bill did. The language of the Lieutenant Governor ruling talks about the intention of the drafter and what they are trying to accomplish in a particular piece of legislation. And clearly this amendment is not trying to accomplish the same thing that the underlying drafter was intending to do. I think that the intention of the amendment would be certainly within the object of the bill under any classical interpretation of an object ruling but, under the very narrow change that was authored in the February 14th memo by the Lieutenant Governor, I think it finds itself outside of that object. I happen to believe it is probably an appropriate amendment and one that should be considered on the Senate floor, but I do believe it is important to, at this time, ask for clarification from the presiding officer as to whether or not this amendment is appropriately before the body at this time. Thank you Madam President."

Senator Liias: "Thank you Madam President. We weren't prepared to discuss this, so I will reserve the right to respond."

MOTION

On motion of Senator Liias, further consideration of Engrossed House Bill No. 2097 was deferred and the bill held its place on the day's second reading calendar.

PARLIAMENTARY INQUIRY

Senator Padden: "Thank you Madam President. We have, as is the case, passed out on our desks, orders of consideration. I have a list seven before me. I guess I would ask the Secretary of the Senate not to pass these out until they have the recommendations from not only just the majority members of the Senate, but the minority. That is traditionally been the practice in here and for some reason this order was rushed out. I would point out, Madam President, I was just given that order of consideration this morning when I walked into the Senate Chambers by the honorable Chair of the committee. We had a full discussion in our caucus, it's an important issue. And I come out and here the recommendation is already printed and on our desk and passed out without the minority recommendation on the list. I think that is improper and I would ask that we review our procedures because we are going to have a lot of concurrences and we need all three recommendations listed on each one. Thank you very much Madam President."

Senator Liias: "If I could just provide a brief explanation, Madam President? I apologize to my friend for getting the order of consideration out a little early. It is true that it came out slightly before I received the form back. I, trying to balance getting the orders out so folks see what bills could be up for action with receiving those. So, as we do future concurrences, we will work on calibrating that process a little bit better but was trying to just provide some sense for members of what bills may be, we may take action on this morning. Thank you for that comment and we will learn and do a little bit better next time."

MOTION

Senator Ranker moved that the following committee striking amendment by the Committee on Higher Education & Workforce Development be adopted:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. **Sec. 1.** The legislature finds that an educated workforce is essential for the state's economic development. By 2020 seventy percent of available jobs in Washington will require at least a postsecondary credential. According to the 2015 A Skilled and Educated Workforce report, bachelor degree production in high-demand fields, such as science, technology, engineering, mathematics, and health, does not meet the demand of Washington's employers. The state has also set educational attainment goals to recognize the need and benefits of an educated workforce. College degree holders have higher incomes, better financial health, and are more likely to be homeowners than those who do not have college degrees. In fact, young adults aged twenty-two to thirty-five with a college degree are fifty percent more likely to own a home than those without a degree.

However, the legislature finds that the cost of higher education has risen dramatically in recent years. Between 2003 and 2013, the price index of tuition rose eighty percent, three times the increase in the consumer price index and nearly double the increase in the medical price index over the same period. The legislature also finds that students are financing their education with more student loan debt. According to the institute for college access and success' project on student debt, in 2014 fifty-eight percent of recent graduates in Washington had debt, and the average federal student loan debt load for a student graduating from a four-year public or private institution of higher education was twenty-four thousand eight hundred dollars. This is an increase of forty-two percent since 2004, when the average debt load was seventeen thousand four hundred dollars. These averages do not take into account additional private loans that many students take out to supplement their federal loans.

Student loan debt can greatly impact the economic benefits of earning a college degree. Surveys indicate that people burdened by student loan debt are less likely to buy a home; get married and start a family; start a small business; pursue lower paying professions such as teaching, nonprofit work, or social work; or even continue their education. The legislature finds that these

decisions create a chain reaction of economic and social impact to the state.

The legislature recognizes that student loan debt is very different from other forms of debt, such as auto loans and home mortgages, for a variety of reasons. With most debt, borrowers know beforehand how much their monthly payment will be. However, student loans are more complicated because a student may borrow different amounts term to term and make decisions on an incremental basis as their financial aid packages, work, and living situations change. In addition, student loans may have origination fees, accumulated and capitalized interest, grace and forbearance periods, and income-based repayment options that all change the monthly payment amount. The legislature recognizes that another major difference with student loan debt is the unknown factor: Students take out the debt without having a clear idea of their future income and other financial obligations. Lastly, if a student has trouble repaying a student loan, the loans are not secured with physical property that can be sold, and in the event of bankruptcy, are nearly impossible to discharge.

According to the United States department of education, Washington students are defaulting on their federal student loans at roughly the same rate as the national average. For the cohort that entered into repayment on their federal student loans in 2013, ten percent, or seven thousand seven hundred forty-six students, fell into default during the fiscal year ending September 30, 2016, just under the national average of eleven percent.

The consequences of default can haunt student loan borrowers for years unless they are able to rehabilitate their loans. These consequences may include suspension of the borrower's professional license; excessive contact from collection agencies; garnishment of wages and bank accounts; as well as seizing of the borrower's tax refund and other federal payments, such as social security retirement, and disability benefits. Defaulting on a student loan damages a borrower's credit, making it difficult to qualify for a mortgage or auto loan, rent an apartment, and even find employment, closing people off from the resources they need for financial stability.

The legislature acknowledges that the state currently allows regulators of twenty-six professions to suspend the professional licenses or certificates of student loan borrowers who have defaulted on their loans. In 2015 the department of licensing reported one hundred ten license suspensions for student loan default within the eleven professions it regulates, most of which were in the field of cosmetology. Twenty-one states have similar laws, but recently some states have repealed their laws or introduced legislation to do so, recognizing that license suspension hinders a borrower's ability to repay. It is the legislature's intent to repeal the statutes regarding professional license or certificate suspension and intends for those who had their license or certificate suspended to be eligible to have their license or certificate reinstated.

The legislature also finds that Washington state has high postjudgment interest rates and generous wage and bank account garnishment rates that negatively impact private student loan borrowers who default. Studies indicate that wage and bank account garnishment contributes to financial and employment instability, unemployment, bankruptcy, homelessness, and chronic stress. Washington's high interest and garnishment rates also increase the courts' caseload by making it more attractive for lenders of private student loans to sue a borrower in court and obtain a judgment than to negotiate an agreement or settlement with the borrower.

Washington state's postjudgment interest rate was set at twelve percent in 1980 when the prime interest rate was fifteen percent. The current prime interest rate stands at three and one-half percent.

In addition, the state's current postjudgment rate on torts is around three percent.

Regarding wage garnishment, many states, such as Texas, Pennsylvania, and South Carolina do not allow for wage garnishment for consumer debt. For federal student loans, the department of education can garnish up to fifteen percent of a borrower's disposable income, but not more than thirty times the minimum wage. In Washington, a borrower can have twenty-five percent of his or her disposable earnings garnished, or thirty-five times the federal minimum wage. As for bank account exemptions, Massachusetts protects two thousand five hundred dollars from garnishment compared to Washington's current exemption of five hundred dollars. To put this figure into perspective, the average rent in the Seattle metropolitan area is two thousand eighty-seven dollars.

Therefore, it is the legislature's intent to help student loan borrowers in default avoid loss of professional license or certification, which hinders repayment. It is also the legislature's intent to help student loan borrowers in default to maintain financial stability and to avoid the hardships of bank account and wage garnishment by making the postjudgment interest rate for private student loan debt more comparable to the market rate and by increasing the exemptions for bank account and wage garnishments.

Sec. 205. RCW 6.27.105 and 2012 c 159 s 4 are each amended to read as follows:

(1) A writ that is issued for a continuing lien on earnings shall be substantially in the following form, but:

(a) If the writ is issued under an order or judgment for child support, the following statement shall appear conspicuously in the caption: "This garnishment is based on a judgment or order for child support(±)";

(b) If the writ is issued under an order or judgment for private student loan debt, the following statement shall appear conspicuously in the caption: "This garnishment is based on a judgment or order for private student loan debt"; and

(c) If the writ is issued by an attorney, the writ shall be revised as indicated in subsection (2) of this section:

"IN THE COURT OF THE STATE OF WASHINGTON IN AND FOR THE COUNTY OF

Plaintiff, No.
vs. WRIT OF GARNISHMENT FOR CONTINUING LIEN ON EARNINGS
Defendant

Garnishee THE STATE OF WASHINGTON TO:

Garnishee

AND TO: Defendant

The above-named plaintiff has applied for a writ of garnishment against you, claiming that the above-named defendant is indebted to plaintiff and that the amount to be held to satisfy that indebtedness is \$, consisting of:

Table with 2 columns: Description and Amount. Rows include: Balance on Judgment or Amount of Claim, Interest under Judgment from to, Per Day Rate of Estimated Interest, Taxable Costs and Attorneys' Fees, Estimated Garnishment Costs: Filing and Ex Parte Fees, Service and Affidavit Fees, Postage and Costs of Certified Mail, Answer Fee or Fees, Garnishment Attorney Fee, Other.

THIS IS A WRIT FOR A CONTINUING LIEN. THE GARNISHEE SHALL HOLD the nonexempt portion of the defendant's earnings due at the time of service of this writ and shall also hold the defendant's nonexempt earnings that accrue through the last payroll period ending on or before SIXTY days after the date of service of this writ. HOWEVER, IF THE GARNISHEE IS PRESENTLY HOLDING THE NONEXEMPT PORTION OF THE DEFENDANT'S EARNINGS UNDER A PREVIOUSLY SERVED WRIT FOR A CONTINUING LIEN, THE GARNISHEE SHALL HOLD UNDER THIS WRIT only the defendant's nonexempt earnings that accrue from the date the previously served writ or writs terminate and through the last

payroll period ending on or before sixty days after the date of termination of the previous writ or writs. IN EITHER CASE, THE GARNISHEE SHALL STOP WITHHOLDING WHEN THE SUM WITHHELD EQUALS THE AMOUNT STATED IN THIS WRIT OF GARNISHMENT.

YOU ARE HEREBY COMMANDED, unless otherwise directed by the court, by the attorney of record for the plaintiff, or by this writ, not to pay any debt, whether earnings subject to this garnishment or any other debt, owed to the defendant at the time this writ was served and not to deliver, sell, or transfer, or recognize any sale or transfer of, any personal property or effects of the defendant in your possession or control at the time when this writ was served. Any such payment, delivery, sale, or transfer is void to the extent necessary to satisfy the plaintiff's claim and costs for this writ with interest.

YOU ARE FURTHER COMMANDED to answer this writ according to the instructions in this writ and in the answer forms and, within twenty days after the service of the writ upon you, to mail or deliver the original of such answer to the court, one copy to the plaintiff or the plaintiff's attorney, and one copy to the defendant, at the addresses listed at the bottom of this writ.

If, at the time this writ was served, you owed the defendant any earnings (that is, wages, salary, commission, bonus, tips, or other compensation for personal services or any periodic payments pursuant to a nongovernmental pension or retirement program), the defendant is entitled to receive amounts that are exempt from garnishment under federal and state law. You must pay the exempt amounts to the defendant on the day you would customarily pay the compensation or other periodic payment. As more fully explained in the answer, the basic exempt amount is the greater of seventy-five percent of disposable earnings or a minimum amount determined by reference to the employee's pay period, to be calculated as provided in the answer. However, if this writ carries a statement in the heading ((that)) of either: "This garnishment is based on a judgment or order for child support," the basic exempt amount is fifty percent of disposable earnings; or "This garnishment is based on a judgment or order for private student loan debt." the basic exempt amount is the greater of eighty-five percent of disposable earnings or fifty times the minimum hourly wage of the highest minimum wage law in the state at the time the earnings are payable.

YOU MAY DEDUCT A PROCESSING FEE FROM THE REMAINDER OF THE EMPLOYEE'S EARNINGS AFTER WITHHOLDING UNDER THIS WRIT. THE PROCESSING FEE MAY NOT EXCEED TWENTY DOLLARS FOR THE FIRST ANSWER AND TEN DOLLARS AT THE TIME YOU SUBMIT THE SECOND ANSWER.

If you owe the defendant a debt payable in money in excess of the amount set forth in the first paragraph of this writ, hold only the amount set forth in the first paragraph and any processing fee if one is charged and release all additional funds or property to defendant.

IF YOU FAIL TO ANSWER THIS WRIT AS COMMANDED, A JUDGMENT MAY BE ENTERED AGAINST YOU FOR THE FULL AMOUNT OF THE PLAINTIFF'S CLAIM AGAINST THE DEFENDANT WITH ACCRUING INTEREST, ATTORNEY FEES, AND COSTS WHETHER OR NOT YOU OWE ANYTHING TO THE DEFENDANT. IF YOU PROPERLY ANSWER THIS WRIT, ANY JUDGMENT AGAINST YOU WILL NOT EXCEED THE AMOUNT OF ANY NONEXEMPT DEBT OR THE VALUE OF ANY NONEXEMPT PROPERTY OR EFFECTS IN YOUR POSSESSION OR CONTROL.

JUDGMENT MAY ALSO BE ENTERED AGAINST THE DEFENDANT FOR COSTS AND FEES INCURRED BY THE PLAINTIFF.

MOTION

Senator Cleveland moved that the following committee striking amendment by the Committee on Health & Long Term Care be adopted:

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 1. LEGISLATIVE FINDINGS.

(1) Abuse, fatal overdoses, and poisonings from prescription and over-the-counter medicines used in the home have emerged as an epidemic in recent years. Poisoning is the leading cause of unintentional injury-related death in Washington, and more than ninety percent of poisoning deaths are due to drug overdoses. Poisoning by prescription and over-the-counter medicines is also one of the most common means of suicide and suicide attempts, with poisonings involved in more than twenty-eight thousand suicide attempts between 2004 and 2013.

(2) Home medicine cabinets are the most common source of prescription drugs that are diverted and misused. Studies find about seventy percent of those who abuse prescription medicines obtain the drugs from family members or friends, usually for free. People who are addicted to heroin often first abused prescription opiate medicines. Unused, unwanted, and expired medicines that accumulate in homes increase risks of drug abuse, overdoses, and preventable poisonings.

(3) A safe system for the collection and disposal of unused, unwanted, and expired medicines is a key element of a comprehensive strategy to prevent prescription drug abuse, but disposing of medicines by flushing them down the toilet or placing them in the garbage can contaminate groundwater and other bodies of water, contributing to long-term harm to the environment and animal life.

(4) The legislature therefore finds that it is in the interest of public health to establish a single, uniform, statewide system of regulation for safe and secure collection and disposal of medicines through a uniform drug "take-back" program operated and funded by drug manufacturers.

NEW SECTION. Sec. 2. DEFINITIONS. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

A covered manufacturer may establish and implement a drug take-back program independently, as part of a group of covered manufacturers, or through membership in a drug take-back organization.

NEW SECTION. Sec. 4. IDENTIFICATION OF COVERED MANUFACTURERS. (1) No later than ninety days after the effective date of this section, a drug wholesaler that sells a drug in or into Washington must provide a list of drug manufacturers to the department in a form agreed upon with the department. A drug wholesaler must provide an updated list to the department on January 15th of each year.

(2) No later than ninety days after the effective date of this section, a retail pharmacy, private label distributor, or repackager must provide written notification to the department identifying the drug manufacturer from which the retail pharmacy, private label distributor, or repackager obtains a drug that it sells under its own label.

(3)(a) No later than one hundred twenty days after receipt of a drug take-back program proposal, the department shall either approve or reject the proposal in writing to the applicant. The department may extend the deadline for approval or rejection of a proposal for good cause. If the department rejects the proposal, it shall provide the reason for rejection.

(b) No later than ninety days after receipt of a notice of rejection under (a) of this subsection, the applicant shall submit a revised proposal to the department. The department shall either approve or reject the revised proposal in writing to the applicant within ninety days after receipt of the revised proposal, including the reason for rejection, if applicable.

(c) If the department rejects a revised proposal, the department may:

(i) Require the program operator to submit a further revised proposal;

(ii) Develop and impose changes to some or all of the revised proposal to address deficiencies;

(4) The program operator must initiate operation of an approved drug take-back program no later than one hundred eighty days after approval of the proposal by the department.

(5)(a) Proposed changes to an approved drug take-back program that substantially alter program operations must have prior written approval of the department. Changes requiring prior approval of the department include changes to participating covered manufacturers, collection methods, achievement of the service convenience goal described in section 6 of this act, policies and procedures for handling covered drugs, education and promotion methods, and selection of disposal facilities.

(b) For changes to a drug take-back program that do not substantially alter program operations, a program operator must notify the department at least seven days before implementing the change. Changes that do not substantially alter program operations include changes to collection site locations, methods for scheduling and locating periodic collection events, and methods for distributing prepaid, preaddressed mailers.

(c) A program operator must notify the department of any changes to the official point of contact for the program no later than fifteen days after the change. A program operator must notify the department of any changes in ownership or contact

information for participating covered manufacturers no later than ninety days after such change.

(6) No later than four years after a drug take-back program initiates operations, and every four years thereafter, the program operator must submit an updated proposal to the department describing any substantive changes to program elements described in subsection (2) of this section. The department shall approve or reject the updated proposal using the process described in subsection (3) of this section.

(7) The department shall make all proposals submitted under this section available to the public and shall provide an opportunity for written public comment on each proposal.

NEW SECTION. **Sec. 6. COLLECTION SYSTEM.**

(1)(a) At least one hundred twenty days prior to submitting a proposal under section 5 of this act, a program operator must notify potential authorized collectors of the opportunity to serve as an authorized collector for the proposed drug take-back program. A program operator must commence good faith negotiations with a potential authorized collector no later than thirty days after the potential authorized collector expresses interest in participating in a proposed program.

(b) A person or entity may serve as an authorized collector for a drug take-back program voluntarily or in exchange for compensation, but nothing in this chapter requires a person or entity to serve as an authorized collector.

(c) A drug take-back program must include as an authorized collector any retail pharmacy, hospital or clinic with an on-site pharmacy, or law enforcement agency that offers to participate in the program without compensation and meets the requirements of subsection (2) of this section. Such a pharmacy, hospital, clinic, or law enforcement agency must be included as an authorized collector in the program no later than ninety days after receiving the offer to participate.

(d) A drug take-back program may also locate collection sites at:

(i) A long-term care facility where a pharmacy, or a hospital or clinic with an on-site pharmacy, operates a secure collection receptacle;

(ii) A substance use disorder treatment program, as defined in RCW 71.24.025; or

(iii) Any other authorized collector willing to participate as a collection site and able to meet the requirements of subsection (2) of this section.

(2)(a) A collection site must accept all covered drugs from covered entities during the hours that the authorized collector is normally open for business with the public.

(b) A collection site located at a long-term care facility may only accept covered drugs that are in the possession of individuals who reside or have resided at the facility.

(c) A collection site must use secure collection receptacles in compliance with state and federal law, including any applicable on-site storage and collection standards adopted by rule pursuant to chapter 70.95 or 70.105 RCW and United States drug enforcement administration regulations. The program operator must provide a service schedule that meets the needs of each collection site to ensure that each secure collection receptacle is serviced as often as necessary to avoid reaching capacity and that collected covered drugs are transported to final disposal in a timely manner, including a process for additional prompt collection service upon notification from the collection site. Secure collection receptacle signage must prominently display a toll-free telephone number and web site for the program so that members of the public may provide feedback on collection activities.

FIFTY FIRST DAY, FEBRUARY 27, 2018

2018 REGULAR SESSION

(d) An authorized collector must comply with applicable provisions of chapters 70.95 and 70.105 RCW, including rules adopted pursuant to those chapters that establish collection and transportation standards, and federal laws and regulations governing the handling of covered drugs, including United States drug enforcement administration regulations.

(3)(a) A drug take-back program's collection system must be safe, secure, and convenient on an ongoing, year-round basis and must provide equitable and reasonably convenient access for residents across the state.

(b) In establishing and operating a collection system, a program operator must give preference to locating collection sites at retail pharmacies, hospitals or clinics with on-site pharmacies, and law enforcement agencies.

(c)(i) Each population center must have a minimum of one collection site, plus one additional collection site for every fifty thousand residents of the city or town located within the population center. Collection sites must be geographically distributed to provide reasonably convenient and equitable access to all residents of the population center.

(ii) On islands and in areas outside of population centers, a collection site must be located at the site of each potential authorized collector that is regularly open to the public, unless the program operator demonstrates to the satisfaction of the department that a potential authorized collector is unqualified or unwilling to participate in the drug take-back program, in accordance with the requirements of subsection (1) of this section.

(iii) For purposes of this section, "population center" means a city or town and the unincorporated area within a ten-mile radius from the center of the city or town.

(d) A program operator must establish mail-back distribution locations or hold periodic collection events to supplement service to any area of the state that is underserved by collection sites, as determined by the department, in consultation with the local health jurisdiction. The program operator, in consultation with the department, local law enforcement, the local health jurisdiction, and the local community, must determine the number and locations of mail-back distribution locations or the frequency and location of these collections events, to be held at least twice a year, unless otherwise determined through consultation with the local community. The program must arrange any periodic collection events in advance with local law enforcement agencies and conduct periodic collection events in compliance with United States drug enforcement administration regulations and protocols and applicable state laws.

(e) Upon request, a drug take-back program must provide a mail-back program free of charge to covered entities and to retail pharmacies that offer to distribute prepaid, preaddressed mailing envelopes for the drug take-back program. A drug take-back program must permit covered entities to request prepaid, preaddressed mailing envelopes through the program's web site, the program's toll-free telephone number, and a request to a pharmacist at a retail pharmacy distributing the program's mailing envelopes.

(f) The program operator must provide alternative collection methods for any covered drugs, other than controlled substances, that cannot be accepted or commingled with other covered drugs in secure collection receptacles, through a mail-back program, or at periodic collection events, to the extent permissible under applicable state and federal laws. The department shall review and approve of any alternative collection methods prior to their implementation.

NEW SECTION. **Sec. 7. DRUG TAKE-BACK PROGRAM PROMOTION.** (1) A drug take-back program must develop and provide a system of promotion, education, and public

outreach about the safe storage and secure collection of covered drugs. This system may include signage, written materials to be provided at the time of purchase or delivery of covered drugs, and advertising or other promotional materials. At a minimum, each program must:

(a) Promote the safe storage of legend drugs and nonlegend drugs by residents before secure disposal through a drug take-back program;

(b) Discourage residents from disposing of covered drugs in solid waste collection, sewer, or septic systems;

(c) Promote the use of the drug take-back program so that where and how to return covered drugs is widely understood by residents, pharmacists, retail pharmacies, health care facilities and providers, veterinarians, and veterinary hospitals;

(d) Establish a toll-free telephone number and web site publicizing collection options and collection sites and discouraging improper disposal practices for covered drugs, such as flushing them or placing them in the garbage;

(e) Prepare educational and outreach materials that: Promote safe storage of covered drugs; discourage the disposal of covered drugs in solid waste collection, sewer, or septic systems; and describe how to return covered drugs to the drug take-back program. The materials must use plain language and explanatory images to make collection services and discouraged disposal practices readily understandable to all residents, including residents with limited English proficiency;

(f) Disseminate the educational and outreach materials described in (e) of this subsection to pharmacies, health care facilities, and other interested parties for dissemination to covered entities;

(g) Work with authorized collectors to develop a readily recognizable, consistent design of collection receptacles, as well as clear, standardized instructions for covered entities on the use of collection receptacles. The department may provide guidance to program operators on the development of the instructions and design; and

(h) Annually report on its promotion, outreach, and public education activities in its annual report required by section 10 of this act.

(2) If more than one drug take-back program is approved by the department, the programs must coordinate their promotional activities to ensure that all state residents can easily identify, understand, and access the collection services provided by any drug take-back program. Coordination efforts must include providing residents with a single toll-free telephone number and single web site to access information about collection services for every approved program.

(3) Pharmacies and other entities that sell medication in the state are encouraged to promote secure disposal of covered drugs through the use of one or more approved drug take-back programs. Upon request, a pharmacy must provide materials explaining the use of approved drug take-back programs to its customers. The program operator must provide pharmacies with these materials upon request and at no cost to the pharmacy.

(4) The department, the health care authority, the department of social and health services, the department of ecology, and any other state agency that is responsible for health, solid waste management, and wastewater treatment shall, through their standard educational methods, promote safe storage of prescription and nonprescription drugs by covered entities, secure disposal of covered drugs through a drug take-back program, and the toll-free telephone number and web site for approved drug take-back programs. Local health jurisdictions and local government agencies are encouraged to promote approved drug take-back programs.

(5) The department:

(a) Shall conduct a survey of covered entities and a survey of pharmacists, health care providers, and veterinarians who interact with covered entities on the use of medicines after the first full year of operation of the drug take-back program, and again every two years thereafter. Survey questions must: Measure consumer awareness of the drug take-back program; assess the extent to which collection sites and other collection methods are convenient and easy to use; assess knowledge and attitudes about risks of abuse, poisonings, and overdoses from drugs used in the home; and assess covered entities' practices with respect to unused, unwanted, or expired drugs, both currently and prior to implementation of the drug take-back program; and

(b) May, upon review of results of public awareness surveys, direct a program operator for an approved drug take-back program to modify the program's promotion and outreach activities to better achieve widespread awareness among Washington state residents and health care professionals about where and how to return covered drugs to the drug take-back program.

NEW SECTION. Sec. 8. DISPOSAL AND HANDLING OF COVERED DRUGS. (1) Covered drugs collected under a drug take-back program must be disposed of at a permitted hazardous waste disposal facility that meets the requirements of 40 C.F.R. parts 264 and 265, as they exist on the effective date of this section.

(2) If use of a hazardous waste disposal facility described in subsection (1) of this section is unfeasible based on cost, logistics, or other considerations, the department, in consultation with the department of ecology, may grant approval for a program operator to dispose of some or all collected covered drugs at a permitted large municipal waste combustor facility that meets the requirements of 40 C.F.R. parts 60 and 62, as they exist on the effective date of this section.

(3) A program operator may petition the department for approval to use final disposal technologies or processes that provide superior environmental and human health protection than that provided by the technologies described in subsections (1) and (2) of this section, or equivalent protection at less cost. In reviewing a petition under this subsection, the department shall take into consideration regulations or guidance issued by the United States environmental protection agency on the disposal of pharmaceutical waste. The department, in consultation with the department of ecology, shall approve a disposal petition under this section if the disposal technology or processes described in the petition provides equivalent or superior protection in each of the following areas:

- (a) Monitoring of any emissions or waste;
- (b) Worker health and safety;
- (c) Air, water, or land emissions contributing to persistent, bioaccumulative, and toxic pollution; and
- (d) Overall impact to the environment and human health.

(4) If a drug take-back program encounters a safety or security problem during collection, transportation, or disposal of covered drugs, the program operator must notify the department as soon as practicable after encountering the problem.

NEW SECTION. Sec. 9. PROGRAM FUNDING. (1) A covered manufacturer or group of covered manufacturers must pay all administrative and operational costs associated with establishing and implementing the drug take-back program in which they participate. Such administrative and operational costs include, but are not limited to: Collection and transportation supplies for each collection site; purchase of secure collection receptacles for each collection site; ongoing maintenance or replacement of secure collection receptacles when requested by

authorized collectors; prepaid, preaddressed mailers; compensation of authorized collectors, if applicable; operation of periodic collection events, including the cost of law enforcement staff time; transportation of all collected covered drugs to final disposal; environmentally sound disposal of all collected covered drugs in compliance with section 8 of this act; and program promotion and outreach.

(2) A program operator, covered manufacturer, authorized collector, or other person may not charge:

(a) A specific point-of-sale fee to consumers to recoup the costs of a drug take-back program; or

(b) A specific point-of-collection fee at the time covered drugs are collected from covered entities.

NEW SECTION. Sec. 10. ANNUAL PROGRAM REPORT. (1) By July 1st after the first full year of implementation, and each July 1st thereafter, a program operator must submit to the department a report describing implementation of the drug take-back program during the previous calendar year. The report must include:

(a) A list of covered manufacturers participating in the drug take-back program;

(b) The amount, by weight, of covered drugs collected, including the amount by weight from each collection method used;

(c) The following details regarding the program's collection system: A list of collection sites with addresses; the number of mailers provided; locations where mailers were provided, if applicable; dates and locations of collection events held, if applicable; and the transporters and disposal facility or facilities used;

(d) Whether any safety or security problems occurred during collection, transportation, or disposal of covered drugs, and if so, completed and anticipated changes to policies, procedures, or tracking mechanisms to address the problem and improve safety and security;

(e) A description of the public education, outreach, and evaluation activities implemented;

(f) A description of how collected packaging was recycled to the extent feasible;

(g) A summary of the program's goals for collection amounts and public awareness, the degree of success in meeting those goals, and if any goals have not been met, what effort will be made to achieve those goals the following year; and

(h) The program's annual expenditures, itemized by program category.

(2) Within thirty days after each annual period of operation of an approved drug take-back program, the program operator shall submit an annual collection amount report to the department that provides the total amount, by weight, of covered drugs collected from each collection site during the prior year.

(3) The department shall make reports submitted under this section available to the public through the internet.

NEW SECTION. Sec. 11. ENFORCEMENT AND PENALTIES. (1) The department may audit or inspect the activities and records of a drug take-back program to determine compliance with this chapter or investigate a complaint.

(2)(a) The department shall send a written notice to a covered manufacturer that fails to participate in a drug take-back program as required by this chapter. The notice must provide a warning regarding the penalties for violation of this chapter.

(b) A covered manufacturer that receives a notice under this subsection (2) may be assessed a penalty if, sixty days after receipt of the notice, the covered manufacturer continues to sell a covered drug in or into the state without participating in a drug take-back program approved under this chapter.

(3)(a) The department may send a program operator a written notice warning of the penalties for noncompliance with this chapter if it determines that the program operator's drug take-back program is in violation of this chapter or does not conform to the proposal approved by the department. The department may assess a penalty on the program operator and participating covered manufacturers if the program does not come into compliance by thirty days after receipt of the notice.

(b) The department may immediately suspend operation of a drug take-back program and assess a penalty if it determines that the program is in violation of this chapter and the violation creates a condition that, in the judgment of the department, constitutes an immediate hazard to the public or the environment.

(4)(a) The department shall send a written notice to a drug wholesaler or a retail pharmacy that fails to provide a list of drug manufacturers to the department as required by section 4 of this act. The notice must provide a warning regarding the penalties for violation of this chapter.

(b) A drug wholesaler or retail pharmacy that receives a notice under this subsection may be assessed a penalty if, sixty days after receipt of the notice, the drug wholesaler or retail pharmacy fails to provide a list of drug manufacturers.

(5) In enforcing the requirements of this chapter, the department:

(a) May require an informal administrative conference;

(b) May require a person or entity to engage in or refrain from engaging in certain activities pertaining to this chapter;

(c) May, in accordance with RCW 43.70.095, assess a civil fine of up to two thousand dollars. Each day upon which a violation occurs or is permitted to continue constitutes a separate violation. In determining the appropriate amount of the fine, the department shall consider the extent of harm caused by the violation, the nature and persistence of the violation, the frequency of past violations, any action taken to mitigate the violation, and the financial burden to the entity in violation; and

(d) May not prohibit a covered manufacturer from selling a drug in or into the state of Washington.

NEW SECTION. Sec. 12. DEPARTMENT FEE. (1)(a) By July 1, 2019, the department shall: Determine its costs for the administration, oversight, and enforcement of the requirements of this chapter, including the survey required under section 20 of this act; pursuant to RCW 43.70.250, set fees at a level sufficient to recover the costs associated with administration, oversight, and enforcement; and adopt rules establishing requirements for program operator proposals.

(b) The department shall not impose any fees in excess of its actual administrative, oversight, and enforcement costs. The fees collected from each program operator in calendar year 2020 and any subsequent year may not exceed ten percent of the program's annual expenditures as reported to the department in the annual report required by section 10 of this act and determined by the department.

(c) Adjustments to the department's fees may be made annually and shall not exceed actual administration, oversight, and enforcement costs. Adjustments for inflation may not exceed the percentage change in the consumer price index for all urban consumers in the United States as calculated by the United States department of labor as averaged by city for the twelve-month period ending with June of the previous year.

(d) The department shall collect fees from each program operator by October 1, 2019, and annually thereafter.

(2) All fees collected under this section must be deposited in the secure drug take-back program account established in section 13 of this act.

NEW SECTION. Sec. 13. SECURE DRUG TAKE-BACK PROGRAM ACCOUNT. The secure drug take-back program account is created in the state treasury. All receipts received by the department under this chapter must be deposited in the account. Moneys in the account may be spent only after appropriation. Expenditures from the account may be used by the department only for administering and enforcing this chapter.

NEW SECTION. Sec. 14. ANTITRUST IMMUNITY. The activities authorized by this chapter require collaboration among covered manufacturers. These activities will enable safe and secure collection and disposal of covered drugs in Washington state and are therefore in the best interest of the public. The benefits of collaboration, together with active state supervision, outweigh potential adverse impacts. Therefore, the legislature intends to exempt from state antitrust laws, and provide immunity through the state action doctrine from federal antitrust laws, activities that are undertaken, reviewed, and approved by the department pursuant to this chapter that might otherwise be constrained by such laws. The legislature does not intend and does not authorize any person or entity to engage in activities not provided for by this chapter, and the legislature neither exempts nor provides immunity for such activities.

NEW SECTION. Sec. 15. FEDERAL LAW. This chapter is void if a federal law, or a combination of federal laws, takes effect that establishes a national program for the collection of covered drugs that substantially meets the intent of this chapter, including the creation of a funding mechanism for collection, transportation, and proper disposal of all covered drugs in the United States.

NEW SECTION. Sec. 16. LOCAL LAWS. (1)(a) For a period of twelve months after a drug take-back program approved under section 5 of this act begins operating, a county may enforce a grandfathered ordinance. During that twelve-month period, if a county determines that a covered manufacturer is in compliance with its grandfathered ordinance, the department shall find the covered manufacturer in compliance with the requirements of this chapter with respect to that county.

(b) In any county enforcing a grandfathered ordinance as described in (a) of this subsection, the program operator of an approved drug take-back program must work with the county and the department to incorporate the local program into the approved drug take-back program on or before the end of the twelve-month period.

(2) After the effective date of this section, a political subdivision may not enact or enforce a local ordinance that requires a retail pharmacy, clinic, hospital, or local law enforcement agency to provide for collection and disposal of covered drugs from covered entities.

(3) At the end of the twelve-month period provided in subsection (1) of this section, this chapter preempts all existing or future laws enacted by a county, city, town, or other political subdivision of the state regarding a drug take-back program or other program for the collection, transportation, and disposal of covered drugs, or promotion, education, and public outreach relating to such a program.

(4) For purposes of this section, "grandfathered ordinance" means a pharmaceutical product stewardship or drug take-back ordinance that: (a) Is in effect on the effective date of this section; and (b) the department determines meets or exceeds the requirements of this chapter with respect to safe and secure collection and disposal of unwanted medicines from residents, including the types of drugs covered by the program, the convenience of the collection system for residents, and required promotion of the program.

NEW SECTION. Sec. 17. PUBLIC DISCLOSURE. Proprietary information submitted to the department under this chapter is exempt from public disclosure under RCW 42.56.270. The department may use and disclose such information in summary or aggregated form that does not directly or indirectly identify financial, production, or sales data of an individual covered manufacturer or drug take-back organization.

NEW SECTION. Sec. 18. RULE MAKING. The department shall adopt any rules necessary to implement and enforce this chapter.

NEW SECTION. Sec. 19. REPORT TO LEGISLATURE. (1) No later than thirty days after the department first approves a drug take-back program under section 5 of this act, the department shall submit an update to the legislature describing rules adopted under this chapter and the approved drug take-back program.

(2) By November 15th after the first full year of operation of an approved drug take-back program and biennially thereafter, the department shall submit a report to the legislature. The report must:

- (a) Describe the status of approved drug take-back programs;
- (b) Evaluate the secure medicine collection and disposal system and the program promotion, education, and public outreach requirements established by this chapter;
- (c) Evaluate, in conjunction with an academic institution that is not an agency of the state and is qualified to conduct and evaluate research relating to prescription and nonprescription drug use and abuse and environmental impact, to the extent feasible, the impact of approved drug take-back programs on: Awareness and compliance of residents with safe storage of medicines in the home and secure disposal of covered drugs; rates of misuse, abuse, overdoses, and poisonings from prescription and nonprescription drugs; and diversions of covered drugs from sewer, solid waste, and septic systems. To conduct this evaluation, the department and the academic institution may rely on available data sources, including the public awareness surveys required under this chapter, and the prescription drug monitoring program and public health surveys such as the Washington state healthy youth survey. The department and the academic institution may also consult with other state and local agencies and interested stakeholders; and
- (d) Provide any recommendations for legislation.

NEW SECTION. Sec. 20. (1)(a) The department shall contract with the statewide program of poison and drug information services identified in RCW 18.76.030 to conduct a survey of residents to measure whether the secure medicine collection and disposal system and the program promotion, education, and public outreach requirements established in this chapter have led to statistically significant changes in: (i) Resident attitudes and behavior on safe storage and secure disposal of prescription and nonprescription medications used in the home; and (ii) the rates of abuse or misuse of or accidental exposure to prescription and nonprescription drugs.

(b) The survey of residents must include telephone follow-up with users of the program's emergency telephone service. The survey must be conducted before the secure medicine collection and disposal system is implemented and again no earlier than four years after the system is implemented.

(2) The statewide program of poison and drug information services shall report the survey results to the legislature and the department of health within six months of completion of the survey.

(3) This section expires July 1, 2026.
