70.116.010 Legislative declaration. The legislature hereby finds that an adequate supply of potable water for domestic, commercial, and industrial use is vital to the health and well-being of the people of the state. Readily available water for use in public water systems is limited and should be developed and used efficiently with a minimum of loss or waste.
In order to maximize efficient and effective development of the state’s public water supply systems, the department of social and health services shall assist water purveyors by providing a procedure to coordinate the planning of the public water supply systems. [1977 1st ex.s. c 142 § 1.]

70.116.020 Declaration of purpose. The purposes of this chapter are:
(1) To provide for the establishment of critical water supply service areas related to water utility planning and development;
(2) To provide for the development of minimum planning and design standards for critical water supply service areas to insure that water systems developed in these areas are consistent with regional needs;
(3) To assist in the orderly and efficient administration of state financial assistance programs for public water systems; and
(4) To assist public water systems to meet reasonable standards of quality, quantity and pressure. [1977 1st ex.s. c 142 § 2.]

70.116.030 Definitions. Unless the context clearly requires otherwise, the following terms when used in this chapter shall be defined as follows:
(1) "Coordinated water system plan" means a plan for public water systems within a critical water supply service area which identifies the present and future
(2) "Critical water supply service area" means a geographical area which is characterized by a proliferation of small, inadequate water systems, or by water supply problems which threaten the present or future water quality or reliability of service in such a manner that efficient and orderly development may best be achieved through coordinated planning by the water utilities in the area.

(3) "Public water system" means any system providing water intended for, or used for, human consumption or other domestic uses. It includes, but is not limited to, the source, treatment for purifying purposes only, storage, transmission, pumping, and distribution facilities where water is furnished to any community, or number of individuals, or is made available to the public for human consumption or domestic use, but excluding water systems serving one single family residence. However, systems existing on September 21, 1977 which are owner operated and serve less than ten single family residences or which serve only one industrial plant shall be excluded from this definition and the provisions of this chapter.

(4) "Purveyor" means any agency or subdivision of the state or any municipal corporation, firm, company, mutual or cooperative association, institution, partnership, or person or any other entity, that owns or operates for wholesale or retail service a public water system. It also means the authorized agents of any such entities.

(5) "Secretary" means the secretary of the department of social and health services or the secretary's authorized representative.

(6) "Service area" means a specific geographical area serviced or for which service is planned by a purveyor.

70.116.050 Development of water system plans for critical water supply service areas. (1) Each purveyor within the boundaries of a critical water supply service area shall develop a water system plan for the purveyor's future service area if such a plan has not already been developed: Provided, That nonmunicipally owned public water systems are exempt from the planning requirements of this chapter, except for the establishment of service area boundaries if they: (a) Were in existence as of September 21, 1977; and (b) have no plans for water service beyond their existing service area, and (c) meet minimum quality and pressure design criteria established by the state board of health: Provided further, That if the county legislative authority permits a change in development that will increase the demand for water service of such a system beyond the existing system's ability to provide minimum water service, the purveyor shall develop a water system plan in accordance with this section. The establishment of future service area boundaries shall be in accordance with RCW 70.116.070.

(2) After the boundaries of a critical water supply service area have been established pursuant to RCW...
70.116.040, the committee established in RCW 70.116.040 shall participate in the development of a coordinated water system plan for the designated area. Such a plan shall incorporate all water system plans developed pursuant to subsection (1) of this section. The plan shall provide for maximum integration and coordination of public water system facilities consistent with the protection and enhancement of the public health and well-being.

(3) Those portions of a critical water supply service area not yet served by a public water system shall have a coordinated water system plan developed by existing purveyors based upon permitted densities in county plans, ordinances, and/or growth policies for a minimum of five years beyond the date of establishment of the boundaries of the critical water supply service area.

(4) To insure that the plan incorporates the proper designs to protect public health, the secretary shall adopt regulations pursuant to chapter 34.04 RCW concerning the scope and content of coordinated water system plans, and shall ensure, as minimum requirements, that such plans:

(a) Are reviewed by the appropriate local governmental agency to insure that the plan is not inconsistent with the land use plans, shoreline master programs, and/or developmental policies of the general purpose local government or governments whose jurisdiction the water system plan affects.

(b) Recognize all water resource plans, water quality plans, and water pollution control plans which have been adopted by units of local, regional, and state government.

(c) Incorporate the fire protection standards developed pursuant to RCW 70.116.080.

(d) Identify the future service area boundaries of the public water system or systems included in the plan within the critical water supply service area.

(e) Identify feasible emergency inter-ties between adjacent purveyors.

(5) If a "water general plan" for a critical water supply service area or portion thereof has been prepared pursuant to chapter 36.94 RCW and such a plan meets the requirements of subsections (1) and (4) of this section, such a plan shall constitute the coordinated water system plan for the applicable geographical area.

(6) Prior to the submission of a coordinated water system plan to the secretary for approval of the design of the proposed facilities pursuant to RCW 70.116.060, the plan shall be reviewed for consistency with subsection (4) of this section by the legislative authorities of the counties in which the critical water supply service area is located. If within sixty days of receipt of the plan, the legislative authorities find any segment of a proposed service area of a purveyor's plan or any segment of the coordinated water system plan to be inconsistent with any current land use plans, shoreline master programs, and/or developmental policies of the general purpose local government or governments whose jurisdiction the water system plan affects, the secretary shall not approve that portion of the plan until the inconsistency is resolved between the local government and the purveyor. If no comments have been received from the legislative authorities within sixty days of receipt of the plan, the secretary may consider the plan for approval. [1977 1st ex.s. c 142 § 5.]

70.116.060 Approval of coordinated water system plan—Limitations following approval. (1) A coordinated water system plan shall be submitted to the secretary for design approval within two years of the establishment of the boundaries of a critical water supply service area.

(2) The secretary shall not approve those portions of a coordinated water system plan which fail to meet the requirements for future service area boundaries as set forth in RCW 70.116.070.

(3) Following the approval of a coordinated water system plan by the secretary:

(a) All purveyors constructing or proposing to construct public water system facilities within the area covered by the plan shall comply with the plan.

(b) No other purveyor shall establish a public water system within the area covered by the plan, unless the secretary determines that existing purveyors are unable to provide the service. If such a determination is made, the secretary may require the new public water system to be constructed in accordance with the construction standards and specifications embodied in the coordinated water system plan approved for the area.

(4) The secretary may deny proposals to establish or to expand any public water system within a critical water supply service area for which there is not an approved coordinated water system plan at any time after two years of the establishment of the critical water supply service area: Provided, That service connections shall not be considered expansions. [1977 1st ex.s. c 142 § 6.]

70.116.070 Service area boundaries within critical water supply area. (1) The service area boundaries of public water systems within the critical water supply service area shall be determined by written agreement among the purveyors and with the approval of the appropriate legislative authority. Failure of the legislative authority to file with the secretary objections to the proposed service area boundaries within sixty days of receipt of the proposed boundary agreement may be construed as approval of the agreement.

(2) If no service area boundary agreement has been established within a reasonable period of time, or if the legislative authority has filed with the secretary objections in writing as provided in subsection (1) of this section, the secretary shall hold a public hearing thereon. The secretary shall provide notice of the hearing by certified mail to each purveyor providing service in the critical water supply service area, to each county legislative authority having jurisdiction in the area and to the public. The secretary shall provide public notice pursuant to the provisions of chapter 65.16 RCW. Such notice shall be given at least twenty days prior to the hearing. The hearing may be continued from time to time and, at the termination thereof, the secretary may restrict the

[1977 RCW Supp—page 705]
expansion of service of any purveyor within the area if the secretary finds such restriction is necessary to provide the greatest protection of the public health and well-being. [1977 1st ex.s. c 142 § 7.]

70.116.080 Performance standards relating to fire protection. The secretary shall adopt performance standards relating to fire protection to be incorporated into the design and construction of public water systems. The standards shall be consistent with recognized national standards. The secretary shall adopt regulations pertaining to the application and enforcement of the standards: Provided, That the regulations shall require the application of the standards for new and expanding systems only. The standards shall apply in critical water supply service areas unless the approved coordinated plan provides for nonfire flow systems. [1977 1st ex.s. c 142 § 8.]

70.116.090 Assumption of jurisdiction or control of public water system by city, town, or code city. The assumption of jurisdiction or control of any public water system or systems by a city, town, or code city, shall be subject to the provisions of chapter 35.13A RCW, and the provisions of this chapter shall be superseded by the provisions of chapter 35.13A RCW regarding such an assumption of jurisdiction. [1977 1st ex.s. c 142 § 9.]

70.116.100 Bottled water exempt. Nothing in this chapter shall apply to water which is bottled or otherwise packaged in a container for human consumption or domestic use, or to the treatment, storage and transportation facilities used in the processing of the bottled water or the distribution of the bottles or containers of water. [1977 1st ex.s. c 142 § 10.]

70.116.110 Rate making authority preserved. Nothing in this chapter shall be construed to alter in any way the existing authority of purveyors and municipal corporations to establish, administer and apply water rates and rate provisions. [1977 1st ex.s. c 142 § 11.]

70.116.120 Short title. This chapter shall be known and may be cited as the "Public Water System Coordination Act of 1977". [1977 1st ex.s. c 142 § 12.]

70.116.900 Severability—1977 1st ex.s. c 142. If any provision of this chapter, or its application to any person or circumstance is held invalid, the remainder of the chapter, or the application of the provision to other persons or circumstances is not affected. [1977 1st ex.s. c 142 § 13.]

70.118.010 Legislative declaration. The legislature finds that over one million, two hundred thousand persons in the state are not served by sanitary sewers and that they must rely on septic tank systems. The failure of large numbers of such systems has resulted in significant health hazards, loss of property values, and water quality degradation. The legislature further finds that
Title 70: Public Health and Safety

failure of such systems could be reduced by utilization of nonwater-carried sewage disposal systems, or other alternative methods of effluent disposal, as a correctional measure. Waste water volume diminution and disposal of most of the high bacterial waste through composting or other alternative methods of effluent disposal would result in restorative improvement or correction of existing substandard systems. [1977 1st ex.s. c 133 § 1.]

70.118.020 Definitions. As used in this chapter, the terms defined in this section shall have the meanings indicated unless the context clearly indicates otherwise.

(1) "Nonwater-carried sewage disposal devices" means any device that stores and treats nonwater-carried human urine and feces.

(2) "Alternative methods of effluent disposal" means systems approved by the department of social and health services, including at least, mound systems, alternating drain fields, anaerobic filters, evapotranspiration systems, and aerobic systems.

(3) "Failure" means: (a) Effluent has been discharged on the surface of the ground prior to approved treatment; or (b) effluent has percolated to the surface of the ground; or (c) effluent has contaminated or threatens to contaminate a ground water supply. [1977 1st ex.s. c 133 § 2.]

70.118.030 Local boards of health—Duties. Local boards of health shall identify failing septic tank drainfield systems in the normal manner and will use reasonable effort to determine new failures. Discretionary judgment will be made in implementing corrections by specifying nonwater-carried sewage disposal devices or other alternative methods of treatment and effluent disposal as a measure of ameliorating existing substandard conditions. Local regulations shall be consistent with the intent and purposes stated herein. [1977 1st ex.s. c 133 § 3.]

70.118.040 Local boards of health—Authority to waive sections of local plumbing and/or building codes. With the advice of the secretary of the department of social and health services, local boards of health are hereby authorized to waive applicable sections of local plumbing and/or building codes that might prohibit the use of an alternative method for correcting a failure. [1977 1st ex.s. c 133 § 4.]

70.119.010 Legislative declaration. The legislature declares that competent operation of a public water supply system is necessary for the protection of the consumers' health, and therefore it is of vital interest to the public. In order to protect the public health and conserve and protect the water resources of the state, it is necessary to provide for the classifying of all public water supply systems; to require the examination and certification of the persons responsible for the supervision and operation of such systems; and to provide for the promulgation of rules and regulations to carry out this chapter. [1977 1st ex.s. c 99 § 1.]
consumption or domestic use, but excluding all water supply systems serving one single family residence.

(8) "Purification plant" means that portion of a public water supply system which treats or improves the physical, chemical or bacteriological quality of the system's water to bring the water into compliance with state board of health standards.

(9) "Secretary" means the secretary of the department of social and health services. [1977 1st ex.s. c 99 § 2.]

70.119.030 Certified operators required for certain public water supply systems. (1) All public water supply systems which serve either:

(a) One hundred services in use at any one time; or

(b) Twenty-five or more persons which are supplied from a stream, lake or other surface water supply source and which are required by law to use a water filtration system;

are required to have a certified operator designated by the employing or appointing official as the person responsible for active daily technical direction and supervision. The certified operators shall be in charge of the technical direction and supervision of a public water system's operation, or an operating shift of such a system, or a major segment of a system necessary for monitoring or improving the quality of water. The operator shall be certified as provided in RCW 70.119.050.

(2) The amount of time that a certified operator shall be required to be present shall be based upon the time required to properly operate and maintain the public water supply system as designed and constructed in accordance with RCW 43.20.050.

(3) Operators not required to be certified by this chapter are encouraged to become certified on a voluntary basis. [1977 1st ex.s. c 99 § 3.]

70.119.040 Exclusions from chapter. Nothing in this chapter shall apply to:

(1) Industrial water supply systems which do not supply water to residences for domestic use and are under the jurisdictional requirements of the Washington Industrial Safety and Health Act of 1973, chapter 49.17 RCW, as now or hereafter amended; or

(2) The preparation, distribution, or sale of bottled water or water similarly packaged. [1977 1st ex.s. c 99 § 4.]

70.119.050 Rules and regulations—Secretary to adopt. The secretary shall adopt, with the approval of the board, such rules and regulations as may be necessary for the administration of this chapter and shall enforce such rules and regulations. The rules and regulations shall include provisions establishing minimum qualifications and procedures for the certification of operators, criteria for determining the kind and nature of continued professional growth required for renewal of certification under RCW 70.119.100(2), and provisions for classifying water purification plants and distribution systems.

Rules and regulations adopted under the provisions of this section shall be adopted in accordance with the provisions of chapter 34.04 RCW. [1977 1st ex.s. c 99 § 5.]

70.119.060 Public water supply systems—Secretary to categorize. The secretary shall further categorize all public water supply systems with regard to the size, type, source of water, and other relevant physical conditions affecting purification plants and distribution systems to assist in identifying the skills, knowledge and experience required for the certification of operators for each category of such systems. PUBLIC AND PRIVATE FACILITIES FOR MENTALLY ILL

72.23.070 Voluntary patients—Right to receive—Application—Review of condition and status—Minors, commitment procedure and requirements, rights. Pursuant to rules and regulations established by the department, a public or private facility may receive any person who is a suitable person for care and treatment as mentally ill, or for observation as to the existence of mental illness, upon the receipt of a written application of the person, or others on his behalf, in accordance with the following requirements:

(a) The facility must be certified by the department of social and health services or any federal agency will not require certification.

(b) A petition shall be filed with the juvenile court by the person's parent, parents, limited guardian as authorized, guardian, or by the juvenile court itself. The petition shall set forth the reasons why commitment is necessary and what alternative courses of treatment have been explored. The juvenile court shall then conduct a hearing, at which the person under eighteen years of age shall be represented by an attorney, to determine whether commitment is clearly in the best interests of the person sought to be committed, and that no less restrictive alternative exists: Provided, That, if in the opinion of the designated county mental health professional a minor presents an imminent likelihood of serious harm to himself or others, he may be temporarily detained for up to seventy-two hours by a licensed facility pending petition to the juvenile court for further commitment.

(c) If the juvenile court determines that commitment is clearly necessary, it will issue an order approving such petition. If the juvenile court determines that a less restrictive alternative is desirable, it may order that alternatives be followed.

(d) If a person under the age of eighteen years is committed to a state or private facility pursuant to this section, the juvenile court recommending commitment shall require a report from the facility every one hundred eighty days that sets forth such facts as the juvenile court may require. Upon receipt of the report, the juvenile court shall undertake a review of the status of such person to determine whether or not it is still clearly in the best interests of the patient that he remain in the facility. If the juvenile court determines that further commitment is not clearly in the best interests of the patient, it shall order release upon such conditions as it deems necessary.

(e) Every person under the age of eighteen shall have all the rights provided for persons eighteen years of age or over under this chapter as now or hereafter amended except those rights specifically modified by this section: Provided, That the juvenile court rather than the superior court shall be responsible for any proceedings. A voluntarily admitted minor over thirteen years of age shall have the right to release on the next judicial day from the date of request unless a petition is filed in juvenile court by the professional person in charge of the facility or his designee on the grounds that the juvenile is dangerous to himself or others or that it would be in the best interests of the juvenile that he remain in the facility. Furthermore, should the patient and his parent, parents, limited guardian as authorized, or guardian both request his release, he shall be immediately released unless the professional person in charge of the facility objects immediately in writing to the juvenile court on the grounds that the person is dangerous to himself or others and that it would not be in the patient's best interests to be released. Should this occur,
the juvenile court shall hold a hearing on the issue within five judicial days and determine whether the person should be released.

(f) Nothing in this section shall prohibit the professional person in charge of the facility in which the person is being treated from releasing him at any time when, in the opinion of said professional person, further commitment would no longer be in the best interests of the patient.

Whenever a person is released by the professional person in charge of a facility under this section, said person shall, in writing, notify the juvenile court which committed the person for treatment.

(4) In the case of a person eighteen years of age or over for whom a limited guardian or guardian of the person has been appointed, such application shall be made by said limited guardian or guardian, when so authorized by proper court order in the limited guardianship or guardianship proceedings. (c) The terms and provisions of this compact shall be a part of any contract entered into by the authority of or pursuant thereto, and nothing in any such contract shall be inconsistent therewith.

ARTICLE IV—Procedures and Rights

(a) Whenever the duly constituted judicial or administrative authorities in a state party to this compact, and which has entered into a contract pursuant to Article III, shall decide that confinement in, or transfer of an inmate to, an institution within the territory of another party state is necessary in order to provide adequate quarters and care or desirable in order to provide an appropriate program of rehabilitation or treatment, said officials may direct that the confinement be within an institution within the territory of said other party state, the receiving state to act in that regard solely as agent for the ending state.

(b) The appropriate officials of any state party to this compact shall have access, at all reasonable times, to any institution in which it has a contractual right to confine inmates for the purpose of inspecting the facilities thereof and visiting such of its inmates as may be confined in the institution.

(c) Inmates confined in an institution pursuant to the terms of this compact shall at all times be subject to the jurisdiction of the sending state and may at any time be removed therefrom for transfer to a prison or other institution within the sending state, for transfer to another institution in which the sending state may have a contractual or other right to confine inmates, for release on probation or parole, for discharge, or for any other purpose permitted by the laws of the sending state; provided that the sending state shall continue to be obligated to such payments as may be required pursuant to the terms of any contract entered into under the terms of Article III.

(d) Each receiving state shall provide regular reports to each sending state on the inmates of that sending state in institutions pursuant to this compact including a conduct record of each inmate and certify said record to the official designated by the sending state, in order that each inmate may have the benefit of his or her record in determining and altering the disposition of said inmate in accordance with the law which may obtain in the sending state and in order that the same may be a source of information for the sending state.
(e) All inmates who may be confined in an institution pursuant to the provisions of this compact shall be treated in a reasonable and humane manner and shall be cared for and treated equally with such similar inmates of the receiving state as may be confined in the same institution. The fact of confinement in a receiving state shall not deprive any inmate so confined of any legal rights which said inmate would have had if confined in an appropriate institution of the sending state.

(f) Any hearing or hearings to which an inmate confined pursuant to this compact may be entitled by the laws of the sending state may be had before the appropriate authorities of the sending state, or of the receiving state if authorized by the sending state. The receiving state shall provide adequate facilities for such hearings as may be conducted by the appropriate officials of a sending state. In the event such hearing or hearings are had before officials of the receiving state, the governing law shall be that of the sending state and a record of the hearing or hearings as prescribed by the sending state shall be made. Said record together with any recommendations of the hearing officials shall be transmitted forthwith to the official or officials before whom the hearing would have been had if it had taken place in the sending state. In any and all proceedings had pursuant to the provisions of this subdivision, the officials of the receiving state shall act solely as agents of the sending state and no final determination shall be made in any matter except by the appropriate officials of the sending state. Costs of records made pursuant to this subdivision shall be borne by the sending state.

(g) Any inmate confined pursuant to this compact shall be released within the territory of the sending state unless the inmate, and the sending and receiving states, shall agree upon release in some other place. The sending state shall bear the cost of such return to its territory.

(h) Any inmate confined pursuant to the terms of this compact shall have any and all rights to participate in and derive any benefits or incur or be relieved of any obligations or have such obligations modified or his status changed on account of any action or proceeding in which he could have participated if confined in any appropriate institution of the sending state located within such state.

(i) The parent, guardian, trustee, or other person or persons entitled under the laws of the sending state to act for, advise, or otherwise function with respect to any inmate shall not be deprived of or restricted in his exercise of any power in respect of any inmate confined pursuant to the terms of this compact.

ARTICLE V—Acts Not Reviewable In Receiving State; Extradition

(a) Any decision of the sending state in respect of any matter over which it retains jurisdiction pursuant to this compact shall be conclusive upon and not reviewable within the receiving state, but if at the time the sending state seeks to remove an inmate from an institution in the receiving state there is pending against the inmate within such state any criminal charge or if the inmate is suspected of having committed within such state a criminal offense, the inmate shall not be returned without the consent of the receiving state until discharged from prosecution or other form of proceeding, imprisonment or detention for such offense. The duly accredited officers of the sending state shall be permitted to transport inmates pursuant to this compact through any and all states party to this compact without interference.

(b) Any inmate who escapes from an institution in which he is confined pursuant to this compact shall be deemed a fugitive from the sending state and from the state in which the institution is situated. In the case of an escape to a jurisdiction other than the sending or receiving state, the responsibility for institution of extradition proceedings shall be that of the sending state, but nothing contained herein shall be construed to prevent or affect the activities of officers and agencies of any jurisdiction directed toward the apprehension and return of an escapee.

ARTICLE VI—Federal Aid

Any state party to this compact may accept federal aid for use in connection with an institution or program, the use of which is or may be affected by this compact or any contract pursuant thereto and any inmate in a receiving state pursuant to this compact may participate in any such federally aided program or activity for which the sending and receiving states have made contractual provision; provided that if such program or activity is not part of the customary correctional regimen the express consent of the appropriate official of the sending state shall be required therefor.

ARTICLE VII—Entry Into Force

This compact shall enter into force and become effective and binding upon the states so acting when it has been enacted into law by any two contiguous states from among the states of Alaska, Arizona, California, Colorado, Hawaii, Idaho, Montana, Nebraska, Nevada, New Mexico, Oregon, Utah, Washington and Wyoming. For the purposes of this article, Alaska and Hawaii shall be deemed contiguous to each other; to any and all of the states of California, Oregon and Washington; and to Guam. Thereafter, this compact shall enter into force and become effective and binding as to any other of said states, or any other state contiguous to at least one party state upon similar action by such state. Guam may become party to this compact by taking action similar to that provided for joinder by any other eligible party state and upon the consent of Congress to such joinder. For the purposes of this article, Guam shall be deemed contiguous to Alaska, Hawaii, California, Oregon and Washington.

ARTICLE VIII—Withdrawal and Termination

This compact shall continue in force and remain binding upon a party state until it shall have enacted a statute repealing the same and providing for the sending of formal written notice of withdrawal from the compact to the appropriate officials of all other party states. An actual withdrawal shall not take effect until two years after the notices provided in said statute have been sent.
Such withdrawal shall not relieve the withdrawing state from its obligations assumed hereunder prior to the effective date of withdrawal. Before the effective date of withdrawal, a withdrawing state shall remove to its territory, at its own expense, such inmates as it may have confined pursuant to the provisions of this compact.

**ARTICLE IX—Other Arrangements Unaffected**

Nothing contained in this compact shall be construed to abrogate or impair any agreement or other arrangement which a party state may have with a non-party state for the confinement, rehabilitation or treatment of inmates nor to repeal any other laws of a party state authorizing the making of cooperative institutional arrangements.

**ARTICLE X—Construction and Severability**

The provisions of this compact shall be liberally construed and shall be severable. If any phrase, clause, sentence or provision of this compact is declared to be contrary to the constitution of any participating state or of the United States or the applicability thereof to any government, agency, person or circumstance is held invalid, the validity of the remainder of this compact and the applicability thereof to any government, agency, person or circumstance shall not be affected thereby. If this compact shall be held contrary to the constitution of any state participating therein, the compact shall remain in full force and effect as to the remaining states and in full force and effect as to the state affected as to all severable matters. 74.09.550 Nursing homes, reports, audits, rates—Legislative declaration. The legislature finds that reliability of financial information is dependent upon the application of generally accepted accounting principles and adherence to published rules of the department of social and health services. To assure that these accounting principles and rules are being applied to reports submitted by nursing homes, the legislature finds it necessary to require certain reports submitted by nursing homes to be audited by the department of social and health services in the manner prescribed in RCW 74.09.560 and 74.09.570. [1977 1st ex.s. c 260 § 1.]

Severability—1977 1st ex.s. c 260: "If any provision of this act, or its application to any person or circumstance is held invalid, the remainder of the act, or the application of the provision to other persons or circumstances is not affected." [1977 1st ex.s. c 260 § 8.] This applies to RCW 74.09.550 through 74.09.600.

74.09.560 Nursing homes—Annual cost reports to be audited by department of social and health services.
All annual cost reports submitted to the state by a nursing home shall be audited annually through a field audit conducted by auditors under contract with or employed by the department of social and health services. The secretary of the department of social and health services shall establish an audit manual and program which shall require that all audits, conducted either through contract or by department employees:
1. Comply with generally accepted auditing standards prescribed by the American institute of certified public accountants;
2. Include a written opinion as to whether allowable costs included in the report are presented fairly in accordance with generally accepted accounting principles and department rules, and whether, in all material respects, allowable costs are documented, reasonable, and related to patient care;
3. Are conducted by accounting firms or auditors who, during the period of the auditors' professional engagement or employment and during the period covered by the financial statements, do not have nor are committed to acquire any direct or indirect financial interest in the ownership, financing, or operation of a nursing home in this state;
4. Are conducted by accounting firms or auditors who, as a condition of the contract or employment, are not allowed to have nursing home clients during or within two years of termination of their contract or employment;
5. Are conducted by auditors who are otherwise independent as determined by the standards of independence established by the American institute of certified public accountants;
6. Are supervised by a certified public accountant;
7. Are completed within one year after the annual cost report is submitted by the nursing home; and
8. Provide to the nursing home complete written interpretations which explain in detail the application of all relevant contract provisions, regulations, auditing standards, rate formulae, and departmental policies, with explanations and examples, and which are sufficient to permit the nursing home to calculate with reasonable certainty those costs which are allowable and the settlement to which the nursing home is entitled. [1977 1st ex.s. c 260 § 2.]

Severability—1977 1st ex.s. c 260: See note following RCW 74.09.550.

74.09.570 Audit disallowances—Procedures—Availability of certain information on nursing homes. (1) The department of social and health services shall prepare a written summary of any audit disallowance which
exceeds five hundred dollars. Where the department pays rates or proposes settlement of accounts at less than the nursing home's actual reported costs, which have been verified by audit, the department shall for each cost center, as determined under department rules, advise the nursing home management of the rules and regulations justifying reimbursement at less than actual cost. Where the nursing home is pursuing judicial or administrative remedies in good faith regarding reimbursement settlement issues the department shall not withhold from the nursing home current payment amounts the department claims to be due from the nursing home.

(2) All financial reports and information submitted by nursing homes to the department of social and health services and all final audit narratives and summaries reviewing the submitted material shall be available for public inspection. By December 31, 1979, all nursing homes shall submit annual cost reports based on their federal tax year, which shall coincide with a common fiscal year as determined by the secretary of the department of social and health services.

(3) The department shall, without identifying individual nursing homes, make available to the public full information regarding its cost-finding and rate-setting methodology for nursing home care. The information shall include, but not necessarily be limited to, the following:

(a) Ranges, averages, and median costs for all cost centers;
(b) Departmental budget projections which reflect probable economic trends;
(c) Computer models and programs, with related documentation sufficient to explain them, used or proposed by the department to evaluate cost reports, establish cost projections, establish rates, or, in whole or in part, determine settlements; and
(d) All raw data relied upon by the department for any such cost-finding or rate-setting activities.

The department shall, prior to April 1 of each year, file with the senate ways and means and house appropriations committees, and make available to the public, a comprehensive report concerning all of the above matters. [1977 1st ex.s. c 260 § 3.]

Severability—1977 1st ex.s. c 260: See note following RCW 74.09.550.

74.09.580 Nursing home payment system—Individually-based and class-based rates—Refunds. The nursing home payment system under this chapter shall provide for individually-based or class-based rates which shall be the maximum reimbursement for each nursing home for the period for which the rates are assigned. Operators of nursing homes shall refund all portions of payments received which exceed actual audited costs and all portions of payments received which are attributable to unreasonable or nonallowable costs as determined by federal or state regulations. [1977 1st ex.s. c 260 § 4.]

Severability—1977 1st ex.s. c 260: See note following RCW 74.09.550.

74.09.590 Payment rates—Conditions. Payment rates shall:
(1) Not be set lower prospectively than the level which may reasonably be expected to reimburse in full for actual allowable costs under federal regulations for a nursing home which is economically and efficiently operated;
(2) Realistically take into account economic conditions and trends during the time period covered by the rates;
(3) Be at least annually redetermined;
(4) Permit as allowable those expenses necessary to meet all items of expense which operators of nursing homes must incur to provide federally defined skilled or intermediate care services;
(5) Meet the reasonable cost of patient assessment activity as required by the department; and
(6) Meet the reasonable cost of accounting requirements.

Reasonable costs shall be determined independently of the level of funding available, in accordance with federal regulations and guidelines. [1977 1st ex.s. c 260 § 5.]

Severability—1977 1st ex.s. c 260: See note following RCW 74.09.550.

74.09.600 Post audit examinations by state auditor. Nothing in this chapter shall preclude the state auditor from conducting post audit examinations of public funds pursuant to RCW 43.09.330 or other applicable law. [1977 1st ex.s. c 260 § 6.]

74.13.020 Definitions—"Child", "child welfare services". (Effective July 1, 1978.) As used in Title 74 RCW, child welfare services shall be defined as public social services including adoption services which strengthen, supplement, or substitute for, parental care and supervision for the purpose of:

(1) Preventing or remedying, or assisting in the solution of problems which may result in the neglect, abuse, exploitation, or delinquency of children;
(2) Protecting and caring for homeless, dependent, or neglected children;
(3) Assisting children who are in conflict with their parents, and assisting parents who are in conflict with their children with services designed to resolve such conflicts;
(4) Protecting and promoting the welfare of children, including the strengthening of their own homes where possible, or, where needed;

74.13.031 Duties of department—Crisis intervention services—Accepting juveniles for temporary residential care or alternative residential placement—Establishment of child welfare and day care advisory committee—Duty of juvenile court. (Effective July 1, 1978.) The department shall have the duty to provide child welfare services as defined in RCW 74.13.020, and shall:

(1) Develop, administer, and supervise a plan that establishes, extends aid to, and strengthens services for the protection and care of homeless, dependent children, neglected children, or juvenile offenders.

(2) Investigate complaints of neglect, abuse, or abandonment of children by parents, guardians, custodians, or persons serving in loco parentis, and on the basis of the findings of such investigation, offer child welfare services in relation to the problem to such parents, guardians, custodians or persons serving in loco parentis, and/or bring the situation to the attention of an appropriate court, or another community agency. If the investigation reveals that a crime may have been committed, notify the appropriate law enforcement agency.

(3) Offer, on a voluntary basis, crisis intervention to families who are in conflict.

Crisis intervention services (a) shall consist of an interview or series of interviews with the child or his or her family, as needed, conducted within a brief period of time by qualified professional persons, and designed to alleviate personal or family situations which present a serious and imminent threat to the health or stability of the child or the family; and (b) may include, but are not limited to, the provision of or referral to services for suicide prevention, psychiatric or other medical care, or psychological, welfare, legal, educational, or other social services, as appropriate to the needs of the child and the family.

Nothing in this section shall prohibit an officer of the child welfare services from referring any child who, as a result of a mental or emotional disorder, or intoxication by alcohol or other drugs, is suicidal, seriously assaultive or seriously destructive towards others, or otherwise similarly evidences an immediate need for emergency medical evaluation and possible care, to a community mental health center pursuant to RCW 72.23.070.

(4) Have authority to accept for temporary residential care in a foster family home or group care facility licensed pursuant to chapter 74.15 RCW a child who has been taken into limited custody pursuant to RCW 13.30.020: Provided, That a juvenile shall in no event remain in temporary residential care for a period longer than seventy-two hours from the time of the juvenile's initial contact with the law enforcement officer except as otherwise provided in this section. Upon accepting the child, the staff of the facility shall notify the child's parents or custodian of his or her whereabouts, physical and emotional condition, and the circumstances surrounding his or her placement and shall undertake to make arrangements for the child's return home.

In every case crisis intervention services shall be provided as needed and the staff of the temporary facility shall seek to effect the child's return home or alternative living arrangement agreeable to the child and the parent or custodian as soon as practicable.

(a) If, after his or her admission to a temporary residential facility, a child who is absent from home without permission and his or her parent or custodian agrees to the child's return home, the staff of the facility shall arrange transportation for the juvenile, as soon as practicable, to the county of residence of the parent or custodian, at the latter's expense to the extent of his or her ability to pay.

(b) If the child refuses to return home and if no other living arrangements agreeable to the child and the parent or custodian can be made, the staff of the facility shall arrange transportation for the child to a temporary nonsecure residential facility in the county of residence of the parent or custodian, at the expense of the latter to the extent of his or her ability to pay. If there is no such facility in the county of that residence, the nearest such facility to that residence shall be used.

(c) If a child's legal residence is outside the state of Washington and such child refuses to return home, the provisions of RCW 13.24.010 shall apply.

(d) If the parent or custodian refuses to permit the child to return home, and no other living arrangement agreeable to the child and the parent or custodian can be made, staff of the child welfare services section shall notify the juvenile court to appoint legal counsel for the child and shall file a dependency petition in the juvenile court in the jurisdiction of the residence of the parent or custodian.

(e) If a child and his or her parent or guardian agree to an arrangement for alternative residential placement, such placement may continue as long as there is agreement. During any alternative residential placement, there shall be provided to the child and to his or her family such services as may be appropriate to the particular case, to the end that the child may be reunited with the family as soon as practicable.

(f) If such child and his or her parent or custodian cannot agree to an arrangement for alternative residential placement in the first instance, or cannot agree to the continuation of such placement, the child or his or her parent or custodian may file with the juvenile court

[1977 RCW Supp—page 727]
a petition to approve alternative residential placement pursuant to RCW 13.32.020. The child shall remain in the placement where he or she is located at the time a petition to approve alternative residential placement is filed until a placement decision is made pursuant to RCW 13.32.040.

(g) In no event shall alternative residential placement for a child in conflict with his or her family be arranged in a secure detention facility or in a secure institution except as provided in this subsection and RCW 13.34.140. A child in conflict with his or her parents may be detained in a secure detention facility operated by a county for a maximum of seventy--two hours if:

(i) The staff of the child welfare services section find that the child taken into limited custody has previously been placed in alternative residential care and has run away from such placement and that it is likely that the child will run away from another and different residential placement; or

(ii) The child refuses to return home and refuses to be placed in alternative residential care.

During such detention, efforts shall be continued to the end that the child may be returned home or other living arrangements agreeable to the child and his or her parent, guardian, or custodian are made. If an agreement concerning living arrangements for the child cannot be reached a petition shall be filed within forty--eight hours after initial detention of the child, pursuant to subsection (4)(f) of this section. The hearing on the petition shall be held within seventy--two hours, excluding Sundays and holidays, of the initial detention of the child. If the hearing on the petition is not held within these time limits the child shall be released from detention.

(5) Cooperate with other public and voluntary agencies and organizations in the development and coordination of programs and activities in behalf of children including but not limited to contracting with private and public entities to provide basic education and vocational training and crisis intervention services.

(6) Have authority to accept custody of children from parents, guardians, and/or juvenile courts, to provide child welfare services including placement for adoption, and to provide for the physical care of such children and to make payment of maintenance costs if needed.

(7) Have authority to purchase care for children and shall follow in general the policy of using properly approved private agency services for the actual care and supervision of such children insofar as they are available, paying for care of such children as are accepted by the department as eligible for support at reasonable rates established by the department.

(8) Establish a child welfare and day care advisory committee who shall act as an advisory committee to the state advisory committee and to the secretary in the development of policy on all matters pertaining to child welfare, day care, licensing of child care agencies, and services related thereto.

(9) Notwithstanding any other provision of chapter 13.30 RCW, RCW 74.13.020, and this section, all services to be provided by the department of social and health services under subsections (3) and (4) of this section, subject to the limitations of these subsections, may be provided by any program offering such services funded pursuant to Title II of the federal juvenile justice and delinquency prevention act of 1974 (P.L. No. 93--415; 42 U.S.C. 5634 et seq.). [1977 1st ex.s. c 291 § 22; 1975--76 2nd ex.s. c 71 § 4; 1973 1st ex.s. c 101 § 2; 1967 c 172 § 17.]

Such services should be designed to restore individuals to, or maintain them at, the level of independent living they are capable of attaining. The long range economic development goals for the state of Washington shall include the restoration of salmon runs to provide an increased supply of this valuable renewable resource for the benefit of commercial and recreational users and the economic well-being of the state. For the purpose of providing funds for the planning, acquisition, construction, improvement, and operation of salmon enhancement facilities within the state it is the intent of the legislature that the revenues received from fees from the issuance of vessel delivery permits, charter boat licenses, trolling gear licenses, Gill net gear licenses, purse seine gear licenses, reef net gear licenses, anadromous salmon angling licenses and all moneys received from all privilege fees and fish sales taxes collected on fresh or frozen salmon or parts thereof be utilized to fund such costs.

The salmon enhancement program funded by commercial and recreational fishing fees and taxes shall be for the express benefit of all persons whose fishing activities fall under the management authority of the Washington department of fisheries and who actively participate in the funding of the enhancement costs through the fees and taxes set forth in chapters 75.28 and 75.32 RCW or through other adequate funding methods. 75.18.110 Salmon enhancement facilities program—Requirements and factors to be considered—Salmon advisory council. (1) The department shall not acquire, construct, or substantially improve any salmon enhancement facility unless the requirements of this section are met.

(a) The productivity of any salmon propagation facility is very dependent on water quantity and quality. Since there is a limited number of water sources which meet the critical needs of a facility it is imperative that these sources are acquired. Therefore, site acquisitions and preliminary design shall be considered by the department as generally having priority over project development.

(b) Prior to expending any moneys for the construction and development of any particular salmon propagation facility, except for site acquisition and preliminary design, the department shall, with the advice of the advisory council created in subsection (2) of this section, give consideration to the following factors with respect to that facility:

(i) The department's management authority over propagated salmon;

(ii) The level of expected Canadian interception on the propagated salmon and whether this would be acceptable;

(iii) Whether an acceptable agreement has been reached on the status of treaty Indian salmon harvest; and

(iv) Whether there can be a maximum harvest of propagated salmon with a tolerable impact on other salmonid stocks, both natural and artificial, and on their environment. The department shall consult on this matter with the department of game.

(2) To aid and advise the department in the performance of its functions as specified by this section with regard to the salmon enhancement program, a salmon advisory council is hereby created. The advisory council shall consist of ten members appointed by the governor; the director of the department of fisheries, who shall be chairman; the director of the department of game, or the director's designee; one member of the senate to be appointed by the president of the senate; and one member of the house of representatives to be appointed by the speaker of the house of representatives. Of the members appointed by the governor, two shall represent...
troll fishermen; two shall represent gill net fishermen, of which one shall be from the Puget Sound area and one from the southwest Washington area; one shall represent purse seine fishermen; one shall represent owners of charter boats; two shall represent sportsmen; and two shall represent fish processors, of which one shall represent fresh or frozen fish processors and one shall represent canneries.

The advisory council shall be convened by the director prior to the decision to expend any funds for construction and development of any salmon propagation facility. The council shall advise the director with regard to the considerations listed in subsection (1)(b) of this section and any other factors the council deems relevant with respect to the proposed facility.

Vacancies shall be filled in the same manner as original appointments. Except for the director of the department of game and legislative members, members shall receive reimbursement through the department of fisheries for travel expenses incurred in the performance of their duties in accordance with RCW 43.03.050 and 43.03.060 as now existing or hereafter amended.

The director of the department of game, or the director's designee, shall receive reimbursement through the department of game for travel expenses incurred in the performance of his or her duties in accordance with RCW 43.03.050 and 43.03.060 as now existing or hereafter amended. The legislative members shall be deemed engaged in legislative business while in attendance upon the business of the council and shall be limited to such allowances therefor as otherwise provided in RCW 44.04.120 as now existing or hereafter amended. 75.28.500 Program to purchase fishing vessels, gear, licenses and permits—Finding and intent. The legislature finds that the protection, welfare, and economic well-being of the commercial fishing industry is important to the people of this state. There presently exists an overabundance of commercial fishing gear in our state waters which causes great pressure on the fishing resources. This results in great economic waste to the state and prohibits conservation and harvesting programs from achieving their goals. This adverse situation has been compounded by the federal court decisions, United States of America et al. v. State of Washington et al., Civil No. 9213, United States District Court for Western District of Washington, February 12, 1974, and in Sohappy v. Smith, 302 F. Supp. 899 (D. 75.30.010 Legislative findings. The legislature finds that the wise management and economic health of the state's salmon fishery are of continued importance to the people of the state and to the economy of the state as a whole. The legislature finds that charter boats licensed by the state for use by the state's charter boat fishing industry have increased in quantity. The legislature finds that limitations on the number of licensed charter boats will tend to improve the management of the charter boat fishery and the economic health of the charter boat industry. The state therefore must use its authority to regulate the number of licensed boats in use by the state's charter boat industry in a manner provided in this chapter so that management and economic health of the salmon fishery may be improved. [1977 1st ex.s. c 106 § 1.]

Severability—1977 1st ex.s. c 106: "If any provision of this 1977 amendatory act, or its application to any person or circumstance is held invalid, the remainder of the act, or the application of the provision to other persons or circumstances is not affected." [1977 1st ex.s. c 106 § 10.]

Expiration date—1977 1st ex.s. c 106 §§ 1-6: "The provisions of sections 1 through 6 of this 1977 amendatory act shall expire on December 31, 1980, and shall be null and void and without any further force and effect on such date without any further action by the legislature." [1977 1st ex.s. c 106 § 11.]

75.30.020 Moratorium on issuance of licenses—Renewals—Transfers. For the purposes of this chapter, the term "charter boat" shall refer only to those charter boats from which salmon are taken. On and after May 28, 1977, the department shall initiate a moratorium on the issuance of charter boat licenses by issuing such licenses only to those boats whose owners can prove by means of good and sufficient documentary evidence that the boat was licensed pursuant to RCW 75.28.095 between January 1, 1974, and January 1, 1977. No charter boat shall be entitled to more than one charter boat license.

Such boats shall be entitled to receive and renew the charter boat license for each year during the period from May 28, 1977 through December 31, 1980. A charter boat license for which no application is made to the department or which is not renewed in any year automatically expires and shall not be renewed further.

Nothing herein shall be construed to be contrary to the provisions of Title 75 RCW or any rule promulgated thereunder. All such charter boat licenses shall be transferable. [1977 1st ex.s. c 106 § 2.]

[1977 RCW Supp—page 742]

75.30.040 Duty of department to evaluate and recommend phase II approach. On and after May 28, 1977, the department, in cooperation with representatives of the charter boat industry, shall continually evaluate the provisions of RCW 75.30.010, 75.30.020, and 75.30.030 and recommend to the legislature prior to January 1, 1980, a phase II approach to regulate gear entry into this state's charter boat fishery. [1977 1st ex.s. c 106 § 4.]

Severability—1977 1st ex.s. c 106: See note following RCW 75.30.010.

The members of such review board shall be reimbursed for travel expenses as provided in RCW 43.03.050 and 43.03.060 as now existing or hereafter amended. The director may promulgate rules concerning the operation of such review boards in accordance with chapter 34.04 RCW. [1977 1st ex.s. c 106 § 5.]

Expiration date—1977 1st ex.s. c 106 §§ 1–6: See note following RCW 75.30.010.

75.30.060 Hearings. Any person aggrieved by a decision of the department made pursuant to the terms of this chapter may voluntarily request that a board of review be impaneled to hear such person's case. The board of review may make such other recommendations and determinations as are consistent with the terms of this chapter.

Hearings before review boards shall be informal, the rules of evidence shall not be applicable to the proceedings, and the records shall be kept thereof as provided by chapter 34.04 RCW. After the presentation of a case each review board shall inform the director and the initiating party in writing concerning whether or not the review board recommends that the charter boat license be issued and the reason for such recommendation. Upon receipt of the review board's findings the director may order such relief as the director deems appropriate under the circumstances.

Nothing in this section shall be construed: (1) To impair an aggrieved person's right to proceed under chapter 34.04 RCW; or (2) to impose any liability on members of a review board for their action pursuant to this section. [1977 1st ex.s. c 106 § 6.]

The forester may at his discretion, subject to the approval of the board, appoint trained forest assistants, possessing technical qualifications, and may employ necessary clerical assistants, and fix the amount of their respective salaries, which shall be payable in equal monthly installments to each assistant so appointed or employed.

He shall act as secretary of the board, or he may delegate that duty to one of his assistants. He shall, acting under the supervision of the board, and whenever he may deem it necessary to the best interests of the state, cooperate in forest surveys, in forest studies, in forest products studies, in forest fire fighting and patrol, and in the preparation of plans for the protection, management, replacement of trees, wood lots, and timber tracts, with any of the several departments of the governments of other states, and with the government or with the departments of the government of the United States with the Dominion of Canada, or with any province thereof, and with counties, towns, corporations, and individuals within the state of Washington.

He shall, subject to the rules and regulations of the board, have direct charge and supervision of all matters pertaining to forestry, including the forest fire service of the state.

The term "forest fire service" as used in *this act* shall be held to include all wardens, rangers and help especially employed for preventing or fighting forest fires.

In times of emergency or unusual danger the forester is empowered to mass the forest fire service of the state where its presence might be required by reason of forest fires, and to take charge of, and direct the work of suppressing such fires.

The forester shall enforce all laws for the preservation of the forests within the state, investigate the origin of all forest fires, and vigorously prosecute all violators of *this act.*

The forester shall furnish notices calling attention to the dangers from forest fires, and to the penalties for the violation of *this act;* such notices to be posted in conspicuous places by the wardens or rangers in all timbered districts along roads and trails, streams and lakes, frequented by tourists, campers, hunters and fishermen, and in other visited regions.

It shall be the duty of the forester to institute inquiry into the extent, kind, value and condition of all timber lands within the state; the amount of acres, and the value of the timber that is cut and removed each year, to determine what state lands are chiefly valuable for growing timber; the extent to which timber lands are being destroyed by fire; and also to examine into the production, quality and quantity of second growth timber, with a view to ascertaining conditions for reforestation. [1977 c 75 § 88; 1911 c 125 § 4; RRS § 5784. Prior: 1905 c 164 § 4; 1903 c 114 § 8. Formerly RCW 76.04.010, part, and 76.04.050.]

Reviser's note: (1) The 1941 Code Committee divided and codified this section as RCW 76.04.050 and 76.04.010 which latter section was subsequently amended by 1951 c 58 § 1. In particular the definition of "forest fire service" contained herein should be compared with the definition in RCW 76.04.010.

(2) **"this act"**, see note following RCW 76.04.030.

(3) "board", "forester", see note following RCW 76.04.020.

76.04.350 Owners to protect forests. Every owner of forest land in the state of Washington shall furnish or provide therefor, during the season of the year when there is danger of forest fires, adequate protection against the spread of fire thereon or therefrom which shall meet with the approval of the department of natural resources. [1977 1st ex.s. c 102 § 3; 1941 c 168 § 2; 1917 c 105 § 1; Rem. Supp. 1941 § 5804.]

76.04.360 Fire patrol assessments—Lien—Supervisor's bond. If any owner of forest land neglects or fails to provide adequate fire protection therefor as
required by RCW 76.04.350, the department shall provide such protection therefor, notwithstanding the provisions of RCW 76.04.520, at a cost to the owner of not to exceed eighteen cents an acre per year on lands west of the summit of the Cascade mountains and fourteen cents an acre per year on lands east of the summit of the Cascade mountains.

For the purpose of chapter 76.04 RCW, the supervisor may divide the forest lands of the state, or any part thereof, into districts, for patrol and assessment purposes, may classify lands according to the character of timber prevailing, and the fire hazard existing, and place unprotected lands under the administration of the proper district. Such cost must be justified by a showing of budgets on demand of twenty-five owners of forest land in the county concerned at public hearing. Any amounts paid or contracted to be paid by the supervisor of the department of natural resources for this purpose from any funds at his disposal shall be a lien upon the property patrolled and protected, and unless reimbursed by the owner within ten days after October 1st of the year in which they were incurred, on which date the supervisor of the department of natural resources shall be prepared to make statement thereof upon request to any forest owner whose own protection has not been previously approved by him as adequate, shall be reported by the supervisor of the department of natural resources to the assessor of the county in which the property is situated who shall extend the amounts upon the tax rolls covering the property, or the county assessor may upon authorization from the supervisor of the department of natural resources levy the forest patrol assessment against the amounts of unimproved land as shown in each ownership on the county assessor's records and the assessor may then segregate on his records to provide the necessary funds at his disposal shall be a lien upon the property involved. Upon the collection of such assessments, the county assessor may then prepare to make statement thereof upon demand of twenty-five owners of forest land in the county concerned at public hearing. Any amounts paid or contracted to be paid by the supervisor of the department of natural resources for this purpose from any funds at his disposal shall be a lien upon the property patrolled and protected, and unless reimbursed by the owner within ten days after October 1st of the year in which they were incurred, on which date the supervisor of the department of natural resources shall be prepared to make statement thereof upon request to any forest owner whose own protection has not been previously approved by him as adequate, shall be reported by the supervisor of the department of natural resources to the assessor of the county in which the property is situated who shall extend the amounts upon the tax rolls covering the property, or the county assessor may upon authorization from the supervisor of the department of natural resources levy the forest patrol assessment against the amounts of unimproved land as shown in each ownership on the county assessor's records and the assessor may then segregate on his records to provide the improved land and improvements thereon carry the millage levy designated to support the rural fire protection districts as provided for in chapter 52.04 RCW. The amounts assessed shall be collected at the time, in the same manner, by the same procedure, and with the same penalties attached that the next general state and county taxes on the same property are collected, except that errors in assessments may be corrected at any time by the supervisor of the department of natural resources certifying them to the treasurer of the county in which the land involved is situated. Upon the collection of such assessments the county treasurer shall transmit them to the supervisor of the department of natural resources to be applied against expenses incurred in carrying out the provisions of this section.

The supervisor of the department of natural resources shall include in the assessment a sum not to exceed one-half of one cent per acre, to cover the necessary and reasonable cost of office and clerical work incurred in the enforcement of these provisions. He may also expend any sums collected from owners of forest lands or received from any other source for necessary office and clerical expense in connection with the enforcement of RCW 76.04.370.

When land against which forest patrol assessments are outstanding is acquired for delinquent taxes and sold at public auction, the state shall have a prior lien on the proceeds of sale over and above the amount necessary to satisfy the county's delinquent tax judgment, and the county treasurer in case the proceeds of sale exceed the amount of the delinquent tax judgment shall forthwith remit to the supervisor of the department of natural resources the amount of the outstanding patrol assessments.

All public bodies owning or administering forest lands shall pay the forest patrol assessments provided in this section and the special forest fire suppression account assessments under RCW 76.04.515. The forest patrol assessments and special forest fire suppression account assessments shall be payable by public bodies from any available funds within thirty days following receipt of the written notice from the department which is given after October 1st of the year in which the protection was provided. Unpaid assessments shall not be exempt against the publicly owned land but shall constitute a debt by the public body to the department and shall be subject to interest charges in the same amount as other unpaid forest patrol assessments.

A public body, having failed to previously pay forest patrol assessments required of it by this section, which fails to suppress a fire on or originating from forest lands owned or administered by it shall be liable for the costs of suppression incurred by the department or its agent and shall not be entitled to reimbursement of any costs incurred by the public body in the suppression activities.

The supervisor of the department of natural resources shall furnish the surety company bond under RCW 43.30.170 (6), conditioned for the faithful performance of his duties and for a faithful accounting for all sums received and expended thereunder, which bond shall be approved by the attorney general. [1977 1st ex.s. c 102 § 1. Prior: 1973 1st ex.s. c 195 § 87; 1973 1st ex.s. c 182 § 1; 1971 ex.s. c 207 § 14; 1959 c 123 § 1; 1955 c 142 § 14, 1951 c 58 § 8; 1925 ex.s. c 43 § 6; 1923 c 184 § 10; 1921 c 64 § 1; 1917 c 105 § 2; RRS § 5805.]

Construction—1971 ex.s. c 207: See note following RCW 76.04.010.

76.04.390 Negligent starting of fires—Permitting existence of extreme fire hazard or forest debris—Liability for costs—Recovery. Any person, firm, or corporation negligently responsible for the starting or existence of a fire which spreads on forest land, including permitting the existence of an extreme fire hazard under RCW 76.04.370, as now or hereafter amended, after failure to abate, isolate, or reduce, as required in *this 1971 amendatory act, or for the existence of forest debris subject to RCW 76.04.310 as now or hereafter amended, and which contributes to the spread of said fire, shall be liable for any expense made necessary by such negligence, incurred by the state, a municipality, or a forest protective association, in fighting such fire, together with costs of investigation and litigation including reasonable attorneys' fees and taxable court costs, provided that any such expense was authorized or subsequently approved by the department of natural resources. The department or agency incurring such
expense shall have a lien for the same against any property of said person, firm, or corporation liable as above provided by filing a claim of lien naming said person, firm, or corporation describing the property against which the lien is claimed, specifying the amount expended on the lands on which the fire fighting took place and the period during which the expenses were incurred, and signed by the claimant with post office address. No claim of lien shall be valid unless filed with the county auditor of the county in which the property sought to be charged is located within a period of ninety days after the expenses of the claimant were incurred. The claimant may recover said expenses incurred in a civil action against said person, firm, or corporation liable therefor, and shall have in addition the lien remedy above provided. Said lien may be foreclosed in the same manner as a mechanic’s lien is foreclosed under the statutes of the state of Washington. [1977 1st ex.s. c 102 § 4; 1971 ex.s. c 207 § 6; 1923 c 184 § 11, part; RRS § 5806-1.]

REFORESTATION

76.12.110 Forest development account. There is created a forest development account in the state general fund. The state treasurer shall keep an account of all sums deposited therein and expended or withdrawn therefrom. Any sums placed in the account shall be pledged for the purpose of paying interest and principal on the bonds issued by the board, and for the purchase of land for growing timber. Any bonds issued shall constitute a first and prior claim and lien against the account for the payment of principal and interest. No sums for the above purposes shall be withdrawn or paid out of the account except upon approval of the board.

Appropriations may be made by the legislature from the forest development account to the department of natural resources for the purpose of carrying on the activities of the department on state forest lands, lands managed on a sustained yield basis as provided for in RCW 79.68.040, and for reimbursement of expenditures that have been made or may be made from the resource management cost account in the management of state forest lands. [1971 1st ex.s. c 159 § 1; 1959 c 314 § 1; 1951 c 149 § 1; 1933 c 118 § 2; 1923 c 154 § 6; RRS § 5812-6.]

Before a permit form is validated by the sheriff or the sheriff's representative, sufficient personal identification may be required to reasonably identify the person mailing or presenting the permit form and the sheriff may conduct such other investigations as deemed necessary to determine the validity of the information alleged on the form. When the sheriff or sheriff's representative is reasonably satisfied as to the truth of such information, the form shall be validated with the sheriff's validation stamp provided by the department of natural resources. Upon validation, the form shall become the harvesting permit authorizing the harvesting, possession and/or transportation of specialized forest products. (2) Except while on federal lands, it shall be unlawful for any person (a) to possess and/or (b) to transport within the state of Washington any cedar products except processed cedar products, or any cedar salvage without having in his possession a harvesting permit or a true copy thereof evidencing his title to or authority to have possession of the materials being so possessed or so transported. [1977 1st ex.s. c 147 § 6; 1967 ex.s. c 47 § 8.]

76.48.092 Surrender of copy of harvesting permit to permittee following stipulated use—Penalty. 76.48.096 Cedar processors—Purchase from suppliers not having harvesting permit unlawful. It shall be unlawful for any cedar processor to purchase cedar products subsequent to the harvest and prior to the retail sale of such products, unless the supplier of such products displays either a harvesting permit which appears to be valid or what appears to be a true copy of such a permit bearing an original signature of the permittee. [1977 1st ex.s. c 147 § 12.]

76.48.098 Cedar processors—Display of valid registration certificate required. Every cedar processor shall prominently display a valid registration certificate obtained from the department of revenue pursuant to RCW 82.32.030 at each location where such processor receives cedar products. Permittees shall sell cedar products only to processors displaying registration certificates which appear to be valid. [1977 1st ex.s. c 147 § 13.]

76.48.100 Exemptions. The provisions of this chapter shall not apply to:

Whenever any law enforcement officer has probable cause to believe that a person is harvesting or is in possession of or transporting specialized forest products in violation of the provisions of this chapter, he may, at the time of making an arrest, seize and take possession of any such specialized forest products found. The law enforcement officer shall provide reasonable protection for the specialized forest products involved during the period of litigation or he shall dispose of such specialized forest products at the discretion or order of the court before which the arrested person is ordered to appear.

Upon any disposition of the case by the court, the court shall make a reasonable effort to return the specialized forest products to their rightful owner or pay the proceeds of any sale of specialized forest products less any reasonable expenses of such sale to the rightful owner. If for any reason, the proceeds of such sale cannot be disposed of to the rightful owner, such proceeds, less the reasonable expenses of the sale, shall be paid to the treasurer of the county in which the specialized forest products are sold. The county treasurer shall deposit the same in the county general fund. The return of the specialized forest products or the payment of the proceeds of any sale of products seized to the owner shall not preclude the court from imposing any fine or penalty upon the violator for the violation of the provisions of this chapter. [1977 1st ex.s. c 147 § 8; 1967 ex.s. c 47 § 12.]

77.12.010 Policy of protection enunciated. The wild animals and wild birds in the state of Washington and the game fish in the waters thereof are the property of the state. The game animals, fur-bearing animals, game birds, nongame birds, harmless or song birds, and game fish shall be preserved, protected, and perpetuated. Such game animals, fur-bearing animals, game birds, nongame birds, harmless or song birds, and game fish shall only be taken at such times or places, by such means, in such manner, or in such quantities as will in the judgment of the commission maximize public recreational...
opportunities but not impair the supply thereof: Provided, however, That nothing contained herein shall be construed to infringe on the right of a private property owner to control his private property. [1977 c 74 § 1; 1955 c 36 § 77.12.010. Prior: 1947 c 275 § 11; Rem. Supp. 1947 § 5992-21.]

77.12.150 Seasons—Opening and closing—Bag limits. The director, with the approval of the commission, may entirely close, or shorten any season for game animals, fur-bearing animals, game birds, or game fish within the respective game areas, and after a season has been closed or shortened, reopen it, and also fix daily, weekly, or season bag limits on game animals, fur-bearing animals, game birds, or game fish within any game area.

Whenever the director finds that game animals have increased in numbers in any locality of the state to such an extent that they are damaging public or private property, or over-grazing their range, the commission may establish a special hunting season, designate the area and the number and sex of the animals that may be killed by a licensed hunter therein, promulgate necessary rules and regulations, and determine by lot the number of hunters that may hunt within such area and the conditions and requirements incident thereto. The drawing shall take place at a time and place previously determined by the director. Notice of the establishing of such special hunting season and of the drawing shall be given in the manner provided for the publishing of orders opening or closing seasons.

The exercise of power herein granted to close or reopen regular or special seasons, or fix bag limits, shall be by a written order signed by the director promulgated in accordance with chapter 34.04 RCW. 77.12.201 Counties may elect to relinquish fines and receive payments in lieu of taxes. The board of county commissioners of each county may elect, upon written notice given to the director prior to January 1st of any year, to obtain for the following year an amount in lieu of real estate taxes on game lands equal to that which would be paid on similar parcels of real estate situated in the county. Upon such election the total of all fines and bail forfeitures received by the county during the following year under RCW 77.12.170 shall be transmitted to the director and the distribution procedure established by chapter 3.62 RCW shall not apply to the fines and forfeitures. The election shall continue until the game department is notified differently prior to January 1st of any year. [1977 1st ex.s. c 59 § 1; 1965 ex.s. c 97 § 2.]

77.12.280 Damages caused by game—Maximum payment—Settlement final—Arbitration procedure, advisory awards. No payment of any such claim shall be made in excess of one thousand dollars, and in the event any claim is not adjusted, compromised, or settled and paid by the commission for a sum up to such amount, and within one year from the filing of such claim the same may be filed with the chief fiscal officer of the executive branch. Contents of all such claims shall conform to the tort claim filing requirements found in RCW 4.92.100 as now or hereafter amended. The chief fiscal officer of the executive branch shall recommend to the legislature whether such claims should be approved or rejected. If the legislature approves a claim the same shall be paid from appropriations specifically provided for such purpose by law. The payment of any claim by the commission shall be full and final payment upon such claim.

In the event that any valid claim for damages as provided for in RCW 77.12.270 has been refused or has not been compromised, adjusted, settled and paid by the commission within one hundred and twenty days of the filing of the claim for damages with the commission as provided for in RCW 77.12.290, either the claimant or the commission may serve upon the other personally or by registered mail a notice of an intention to arbitrate; said notice shall contain the name of a person, selected as one arbitrator. Within ten days of receiving such a notice to arbitrate the person upon whom such notice was served shall serve personally or by registered mail upon the other party the name of an arbitrator. The two arbitrators, within seven days of the naming of the second arbitrator shall select a third arbitrator, said arbitrator not to be an employee or commissioner of the state game department. In the event that the two arbitrators as selected by the parties to the dispute cannot agree upon a third arbitrator, either party to the dispute may petition the superior court in the county in which the claim arose, asking said court to select the third arbitrator and upon receiving such a petition the court shall appoint a third arbitrator. Any filing fee or court costs arising from the foregoing petition shall be shared equally by the claimant and the department of game.

The award of the arbitrators shall be advisory only; it shall be written and filed with the department of game at its office in Seattle, King county, Washington, not later than ninety days following the naming of the third arbitrator.

79.66.050 Appropriation of funds from forest development account—Use of income.

79.66.010 Legislative finding. The legislature finds that from time to time it may be desirable for the department of natural resources to sell state lands which have low potential for natural resource management or low income-generating potential or which, because of geographic location or other factors, are inefficient for the department to manage. However, it is also important to acquire lands to replace those sold so that the publicly owned land base will not be depleted. The purpose of this chapter is to provide a means to facilitate such sales and purchases. [1977 1st ex.s. c 109 § 1.]

79.66.020 Resource management land bank—Created—Purchase of property authorized. The department of natural resources, with the approval of the board of natural resources, is authorized to purchase property at fair market value to be held in a resource management land bank, which is hereby created within the department. Property so purchased shall be property which would be desirable for addition to the public lands of the state because of the natural resource production potential of the property. 79.66.030 Exchange or sale of property held in resource management land bank. The department of natural resources, with the approval of the board of natural resources, is authorized to:

79.72.010 Legislative finding—Purpose. The legislature hereby finds that many rivers of this state, with their immediate environs, possess outstanding natural, scenic, historic, ecological, and recreational values of present and future benefit to the public. The legislature further finds that the policy of permitting the construction of dams and other impoundment facilities at appropriate sections of the rivers of this state needs to be complemented by a policy that would protect and preserve the natural character of such rivers and fulfill other conservation purposes. It is hereby declared to be the policy of this state that certain selected rivers of the state which, with their immediate environs, possess the aforementioned characteristics, shall be preserved in as a natural condition as practical and that overuse of such rivers, which tends to downgrade their natural condition, shall be discouraged.

The purpose of this chapter is to establish a program for managing publicly owned land on rivers included in the state's scenic river system, to indicate the river segments to be initially included in that system, to prescribe a procedure for adding additional components to the system, and to protect the rights of private property owners. [1977 1st ex.s. c 161 § 1.]

79.72.020 Definitions—Committee of participating agencies. The following terms when used in this chapter shall be defined as follows unless the context clearly requires otherwise:

(1) "Department" means state parks and recreation commission.

(2) "Committee of participating agencies" or "committee" means a committee composed of the executive head, or such executive's designee, of each of the state departments of ecology, fisheries, game, natural resources, and highways, the state parks and recreation commission, the interagency committee for outdoor recreation, the Washington state association of counties, and the association of Washington cities.

When a specific river or river segment of the state's scenic river system is being considered by the committee, a representative of each participating local government associated with that river or river segment shall serve as a member of the committee.

(3) "Participating local government" means the legislative authority of any city or county, a portion of whose territorial jurisdiction is bounded by or includes a river or river segment of the state's scenic river system.

(4) "River" means a flowing body of water or a section, segment, or portion thereof.

(5) "River area" means a river and the land area in its immediate environs as established by the participating agencies not exceeding a width of one-quarter mile landward from the streamway on either side of the river.

(6) "Scenic easement" means the negotiated right to control the use of land, including the air space above such land, for the purpose of protecting the scenic view throughout the visual corridor.

(7) "Streamway" means that stream—dependent corridor of single or multiple, wet or dry, channel or channels within which the usual seasonal or stormwater run-off peaks are contained, and within which environment the flora, fauna, soil, and topography is dependent on or influenced by the height and velocity of the fluctuating river currents.

(8) "System" means all the rivers and river areas in the state designated by the legislature for inclusion as scenic rivers but does not include tributaries of a designated river unless specifically included by the legislature. The inclusion of a river in the system does not mean that other rivers or tributaries in a drainage basin shall be required to be part of the management program developed for the system unless such rivers and tributaries within the drainage basin are specifically designated for inclusion by the legislature.

(9) "Visual corridor" means that area which can be seen in a normal summer month by a person of normal vision walking either bank of a river included in the system. Such corridor shall not exceed the river area. [1977 1st ex.s. c 161 § 2.]

Revisor's note: "department of highways" redesignated as "department of transportation" by 1977 1st ex.s. c 151. See RCW 47.04.015.

79.72.030 Management policies—Development—Inclusion of management plans—Identification and exclusion of unsuitably developed lands—Boundaries of river areas—Meetings—Chairman—Studies—Proposals for system additions. (1) The department shall develop and adopt management policies for publicly owned or leased land on the rivers designated by the legislature as being a part of the state's scenic river system and within the associated river areas. The department may adopt regulations identifying river classifications which reflect the characteristics common to various segments of scenic rivers and may adopt management policies consistent

[1977 RCW Supp—page 759]
with local government's shoreline management master plans appropriate for each such river classification. All such policies shall be subject to review by the committee of participating agencies. Once such a policy has been approved by a majority vote of the committee members, it shall be adopted by the department in accordance with the provisions of chapter 34.04 RCW, as now or hereafter amended. Any variance with such a policy by any public agency shall be authorized only by the approval of the committee of participating agencies by majority vote, and shall be made only to alleviate unusual hardships unique to a given segment of the system.

(2) Any policies developed pursuant to subsection (1) of this section shall include management plans for protecting ecological, economic, recreational, aesthetic, botanical, scenic, geological, hydrological, fish and wildlife, historical, cultural, archaeological, and scientific features of the rivers designated as being in the system. Such policies shall also include management plans to encourage any nonprofit group, organization, association, person, or corporation to develop and adopt programs for the purpose of increasing fish propagation.

(3) The committee of participating agencies shall, by two-thirds majority vote, identify on a river by river basis any publicly owned or leased lands which could be included in a river area of the system but which are developed in a manner unsuitable for land to be managed as part of the system. The department shall exclude lands so identified from the provisions of any management policies implementing the provisions of this chapter.

(4) The committee of participating agencies, by majority vote, shall determine the boundaries which shall define the river area associated with any included river. With respect to the rivers named in RCW 79.72.080, the committee shall make such determinations, and those determinations authorized by subsection (3) of this section, within one year of September 21, 1977.

(5) Before making a decision regarding the river area to be included in the system, a variance in policy, or the excluding of land from the provisions of the management policies, the committee shall hold hearings in accord with chapter 34.04 RCW, with at least one public hearing to be held in the general locale of the river under consideration. The department shall cause to be published in a newspaper of general circulation in the area which includes the river to be considered in the period of time between two and four weeks prior to the public hearing. In addition to the foregoing required publication, the department shall also provide notice of the hearings, rules, regulations, and decisions of the department to radio and television stations and major local newspapers in the areas which include the river to be considered.

(2) In addition to any other powers granted to carry out the intent of this chapter, the department is authorized, subject to approval by majority vote of the members of the committee, to: (a) Purchase, within the river area, real property in fee or any lesser right or interest in real property including, but not limited to scenic easements and future development rights, visual corridors, wildlife habitats, unique ecological areas, historical sites, camping and picnic areas, boat launching sites, and/or easements abutting the river for the purpose of preserving or enhancing the river or facilitating the use of the river by the public for fishing, boating and other water related activities; and (b) purchase, outside of a river area, public access to the river area.

The right of eminent domain shall not be utilized in any purchase made pursuant to this section.

(3) The department is further authorized to: (a) Acquire by gift, devise, grant, or dedication the fee, an option to purchase, a right of first refusal or any other lesser right or interest in real property and upon acquisition such real property shall be held and managed within the scenic river system; and (b) accept grants, contributions, or funds from any agency, public or private, or individual for the purposes of this chapter.

(4) The department is hereby vested with the power to obtain injunctions and other appropriate relief against violations of any provisions of this chapter and any rules and regulations adopted under this section or agreements made under the provisions of this chapter. [1977 1st ex.s. c 161 § 4.]
79.72.050 State agencies and local governments to pursue policies to conserve and enhance included river areas—Shoreline management act—Private lands—Trust lands. (1) All state government agencies and local governments are hereby directed to pursue policies with regard to their respective activities, functions, powers, and duties which are designed to conserve and enhance the conditions of rivers which have been included in the system, in accordance with the management policies and the rules and regulations adopted by the department for such rivers. Local agencies are directed to pursue such policies with respect to all lands in the river area owned or leased by such local agencies.

Nothing in this chapter shall authorize the modification of a shoreline management plan adopted by a local government and approved by the state pursuant to chapter 90.58 RCW without the approval of the department of ecology and local government. The policies adopted pursuant to this chapter shall be integrated, as fully as possible, with those of the shoreline management act of 1971.

(2) Nothing in this chapter shall grant to the committee of participating agencies or the department the power to restrict the use of private land without either the specific written consent of the owner thereof or the acquisition of rights in real property authorized by RCW 79.72.040.

(3) Nothing in this chapter shall prohibit the department of natural resources from exercising its full responsibilities and obligations for the management of state trust lands. [1977 1st ex.s. c 161 § 5.]

79.72.060 Criteria for inclusion of rivers within system. Rivers of a scenic nature are eligible for inclusion in the system. Ideally, a scenic river:

(1) Is free-flowing without diversions that hinder recreational use;

(2) Has a streamway that is relatively unmodified by riprapping and other stream bank protection;

(3) Has water of sufficient quality and quantity to be deemed worthy of protection;

(4) Has a relatively natural setting and adequate open space;

(5) Requires some coordinated plan of management in order to enhance and preserve the river area; and

(6) Has some lands along its length already in public ownership, or the possibility for purchase or dedication of public access and/or scenic easements. [1977 1st ex.s. c 161 § 6.]

79.72.070 Authority of departments of fisheries and game unaffected. Nothing contained in this chapter shall affect the authority of the department of fisheries and the department of game to construct facilities or make improvements to facilitate the passage or propagation of fish nor shall anything in this chapter be construed to interfere with the powers, duties, and authority of the department of fisheries or the department of game to regulate, manage, conserve, and provide for the harvest of fish or wildlife within any area designated as being in the state's scenic river system: Provided, That no hunting shall be permitted in any state park. [1977 1st ex.s. c 161 § 7.]

79.72.080 Rivers designated as part of system. The following rivers of the state of Washington are hereby designated as being in the scenic river system of the state of Washington:

(1) The Skykomish river from the junction of the north and south forks of the Skykomish river:

(a) Downstream approximately fourteen miles to its junction with the Sultan river;

(b) Upstream approximately twenty miles on the south fork to the junction of the Tye and Foss rivers;

79.72.090 Inclusion of state's scenic rivers in national wild and scenic river system not precluded. Nothing in this chapter shall preclude a section or segment of the state's scenic rivers included in the system from becoming a part of the national wild and scenic river system. [1977 1st ex.s. c 161 § 9.]

79.72.100 Game fund moneys not to be used. No funds shall be expended from the game fund to carry out the provisions of this chapter. [1977 1st ex.s. c 161 § 10.]

79.72.110 Funding. All funds for the implementation of this chapter as now or hereafter amended shall come from the general fund. [1977 1st ex.s. c 161 § 11.]

79.72.900 Severability—1977 1st ex.s. c 161. If any provision of this act, or its application to any person of legal entity or circumstances, is held invalid, the remainder of the act, or the application of the provision to other persons or legal entities or circumstances, shall not be affected. 80.50.071 Council to receive applications—Fees or charges for application processing or certification monitoring. (1) The council shall receive all applications for energy facility site certification. The following fees or charges for application processing or certification monitoring shall be paid by the applicant or certificate holder:

(a) A fee of twenty-five thousand dollars for each proposed site, to be applied toward the cost of the independent consultant study authorized in this subsection, shall accompany the application and shall be a condition precedent to any further consideration or action on the application by the council. The council shall commission its own independent consultant study to measure the consequences of the proposed energy facility on the environment for each site application. The council shall direct the consultant to study any matter which it deems essential to an adequate appraisal of the site. The full cost of the study shall be paid by the applicant: Provided, That said costs exceeding a total of the twenty-five thousand dollars paid pursuant to subsection (1)(a) of this section shall be payable to the applicant giving prior approval to such excess amount.

(b) Each applicant shall, in addition to the costs of the independent consultant provided by subsection (1)(a)
80.50.071 Title 80: Public Utilities

of this section, pay such reasonable costs as are actually and necessarily incurred by the council in processing the application. Such costs shall include, but are not limited to, costs of a hearing examiner, a court reporter, additional staff salaries, wages and employee benefits, goods and services, travel expenses within the state and miscellaneous expenses, as arise directly from processing such application.

Each applicant shall, at the time of application submission, deposit twenty thousand dollars, or such lesser amount as may be specified by council rule, to cover costs provided for by subsection (1)(b) of this section. Reasonable and necessary costs of the council directly attributable to application processing shall be charged against such deposit.

The council shall submit to each applicant a statement of such expenditures actually made during the preceding calendar quarter which shall be in sufficient detail to explain such expenditures. The applicant shall pay the state treasurer the amount of such statement to restore the total amount on deposit to the originally established level: Provided, That such applicant may, at the request of the council, increase the amount of funds on deposit to cover anticipated expenses during peak periods of application processing. Any funds remaining unexpended at the conclusion of application processing shall be refunded to the applicant, or at the applicant’s option, credited against required deposits of certificate holders.

(c) Each certificate holder shall pay such reasonable costs as are actually and necessarily incurred by the council for inspection and determination of compliance by the certificate holder with the terms of the certification relative to monitoring the effects of construction and operation of the facility.

Each certificate holder, within thirty days of execution of the site certification agreement, shall deposit twenty thousand dollars, or such other amount as may be specified by council rule, to cover costs provided for by subsection (1)(c) of this section. Reasonable and necessary costs of the council directly attributable to inspection and determination of compliance by the certificate holder with the terms of the certification relative to monitoring the effects of construction and operation of the facility shall be charged against such deposit.

The council shall submit to each certificate holder a statement of such expenditures actually made during the preceding calendar quarter which shall be in sufficient detail to explain such expenditures. The certificate holder shall pay the state treasurer the amount of such statement to restore the total amount on deposit to the originally established level: Provided, That if the actual, reasonable, and necessary expenditures for inspection and determination of compliance in the preceding calendar quarter have exceeded the amount of funds on deposit, such excess costs shall be paid by the certificate holder.

(2) If an applicant or certificate holder fails to provide the initial deposit, or if subsequently required payments are not received within thirty days following receipt of the statement from the council, the council may (a) in the case of the applicant, suspend processing of the application until payment is received; or (b) in the case of a certificate holder, suspend the certification.

(3) All payments required of the applicant or certificate holder under this section are to be made to the state treasurer who shall make payments as instructed by the council from the funds submitted. All such funds shall be subject to state auditing procedures. Any unexpended portions thereof shall be returned to the applicant or certificate holder. [1977 1st ex.s. c 371 § 16.]

80.50.075 Expedited processing of applications. (1) Any person required to file an application for certification of an energy facility pursuant to this chapter may apply to the council for an expedited processing of such an application. The application for expedited processing shall be submitted to the council in such form and manner and accompanied by such information as may be prescribed by council rule. The council may grant an applicant expedited processing of an application for certification upon finding that:

(a) The environmental impact of the proposed energy facility;

(b) The area potentially affected;

(c) The cost and magnitude of the proposed energy facility; and

(d) The degree to which the proposed energy facility represents a change in use of the proposed site are not significant enough to warrant a full review of the application for certification under the provisions of this chapter.

(2) Upon granting an applicant expedited processing of an application for certification, the council shall not be required to:

(a) Commission an independent study, notwithstanding the provisions of RCW 80.50.071; nor

(b) Hold a contested case hearing under chapter 34.04 RCW on the application.

80.50.080 Counsel for the environment. After the council has received a site application, the attorney general shall appoint an assistant attorney general as a counsel for the environment. The counsel for the environment shall represent the public and its interest in protecting the quality of the environment. Costs incurred by the counsel for the environment in the performance of these duties shall be charged to the office of the attorney general, and shall not be a charge against the appropriation to the energy facility site evaluation council. He shall be accorded all the rights, privileges and responsibilities of an attorney representing a party in a formal action. This section shall not be construed to prevent any person from being heard or represented by counsel in accordance with the other provisions of this chapter. [1977 1st ex.s. c 371 § 6; 1970 ex.s. c 45 § 8.]

80.50.100 Recommendations to governor—Approval or rejection of certification—Reconsideration. (1) The council shall report to the governor its recommendations as to the approval or rejection of an
application for certification within twelve months of receipt by the council of such an application, or such later time as is mutually agreed by the council and the applicant. If the council recommends approval of an application for certification, it shall also submit a draft certification agreement with the report. The council shall include conditions in the draft certification agreement to implement the provisions of this chapter, including, but not limited to, conditions to protect state or local governmental or community interests affected by the construction or operation of the energy facility, and conditions designed to recognize the purpose of laws or ordinances, or rules or regulations promulgated thereunder, that are preempted or superseded pursuant to RCW 80.50.110 as now or hereafter amended.

(2) Within sixty days of receipt of the council's report the governor shall take one of the following actions:
(a) Approve the application and execute the draft certification agreement; or
(b) Reject the application; or
(c) Direct the council to reconsider certain aspects of the draft certification agreement.

The council shall reconsider such aspects of the draft certification agreement by reviewing the existing record of the application or, as necessary, by reopening the contested case for the purposes of receiving additional evidence. Such reconsideration shall be conducted expeditiously. The council shall resubmit the draft certification to the governor incorporating any amendments deemed necessary upon reconsideration. Within sixty days of receipt of such draft certification agreement, the governor shall either approve the application and execute the certification agreement or reject the application. The certification agreement shall be binding upon execution by the governor and the applicant.

(4) The council shall resubmit the draft certification agreement with the report. The council shall include conditions in the draft certification agreement to implement the provisions of this chapter, including, but not limited to, conditions to protect state or local governmental or community interests affected by the construction or operation of the energy facility, and conditions designed to recognize the purpose of laws or ordinances, or rules or regulations promulgated thereunder, that are preempted or superseded pursuant to RCW 80.50.110 as now or hereafter amended.

(5) The rejection or approval of an application for certification by the council shall be subject to judicial review pursuant to the provisions of chapter 34.04 RCW.

(6) The governor shall either approve the application and execute the draft certification agreement, or reject the application. The certification agreement shall be binding upon execution by the governor and the applicant.

80.50.120 Effect of certification. (1) Subject to the conditions set forth therein any certification shall bind the state and each of its departments, agencies, divisions, bureaus, commissions, boards, and political subdivisions, whether a member of the council or not, as to the approval of the site and the construction and operation of the proposed energy facility.

(2) The certification shall authorize the person named therein to construct and operate the proposed energy facility subject only to the conditions set forth in such certification.

(3) The issuance of a certification shall be in lieu of any permit, certificate or similar document required by any department, agency, division, bureau, commission, board, or political subdivision of this state, whether a member of the council or not. [1977 1st ex.s. c 371 § 10; 1975–76 2nd ex.s. c 108 § 38; 1970 ex.s. c 45 § 12.]

80.50.140 Review. (1) The approval or rejection of an application for certification by the governor shall be subject to judicial review pursuant to the provisions of chapter 34.04 RCW.

(2) Objections raised by any party in interest concerning procedural error by the council shall be filed with the council within sixty days of the commission of such error, or within thirty days of the first public hearing or meeting of the council at which the general subject matter to which the error is related is discussed, whichever comes later, or such objection shall be deemed waived for purposes of judicial review as provided in this section.

(3) The rules and regulations adopted by the council shall be subject to judicial review pursuant to the provisions of chapter 34.04 RCW. [1977 1st ex.s. c 371 § 11; 1970 ex.s. c 45 § 14.]

80.50.150 Enforcement of compliance. (1) The courts are authorized to grant such restraining orders, and such temporary and permanent injunctive relief as is necessary to secure compliance with this chapter and/or with a site certification agreement issued pursuant to this chapter. The court may assess civil penalties in an amount not less than one thousand dollars per day nor more than twenty-five thousand dollars per day for each day of construction or operation in material violation of this chapter, or in material violation of any site certification agreement issued pursuant to this chapter. The court may charge the expenses of an enforcement action relating to a site certification agreement under this section, including, but not limited to, expenses incurred for legal services and expert testimony, against any person found to be in material violation of the provisions of such certification: Provided, That the expenses of a person found not to be in material violation of the provisions of such certification, including, but not limited to, expenses incurred for legal services and expert testimony, may be charged against the person or persons bringing an enforcement action or other action under this section.

(2) Wilful violation of any provision of this chapter shall be a gross misdemeanor.

(3) Civil proceedings to enforce this chapter may be brought by the attorney general or the prosecuting attorney of any county affected by the violation on his own motion or at the request of the council. Criminal proceedings to enforce this chapter may be brought by the prosecuting attorney of any county affected by the violation on his own motion or at the request of the council.

(4) The remedies and penalties in this section, both civil and criminal, shall be cumulative and shall be in addition to any other penalties and remedies available at law, or in equity, to any person. [1977 1st ex.s. c 371 § 12; 1970 ex.s. c 45 § 15.]

(2) The council, upon request of any potential applicant, is authorized, as provided in this section, to conduct a preliminary study of any potential site prior to receipt of an application for site certification. A fee of ten thousand dollars for each potential site, to be applied toward the cost of any study agreed upon pursuant to subsection (3) of this section, shall accompany the request and shall be a condition precedent to any action on the request by the council.

(3) After receiving a request to study a potential site, the council shall commission its own independent consultant to study matters relative to the potential site. The study shall include, but need not be limited to, the preparation and analysis of environmental impact information for the proposed potential site and any other matter the council and the potential applicant deem essential to an adequate appraisal of the potential site. In conducting the study, the council is authorized to cooperate and work jointly with the county or counties in which the potential site is located, any federal, state, or local governmental agency that might be requested to comment upon the potential site, and any municipal or public corporation having an interest in the matter. The full cost of the study shall be paid by the potential applicant: Provided, That such costs exceeding a total of ten thousand dollars shall be payable subject to the potential applicant giving prior approval to such excess amount.

(4) Any study prepared by the council pursuant to subsection (3) of this section may be used in place of the "detailed statement" required by RCW 43.21C.030(2)(c) by any branch of government except the council created pursuant to chapter 80.50 RCW.

(5) All payments required of the potential applicant under this section are to be made to the state treasurer, who in turn shall pay the consultant as instructed by the council. All such funds shall be subject to state auditing procedures. Any unexpended portions thereof shall be returned to the potential applicant.

(6) Nothing in this section shall change the requirements for an application for site certification or the requirement of payment of a fee as provided in RCW 80.50.070, or change the time for disposition of an application for certification as provided in RCW 80.50.100.

(7) Nothing in this section shall be construed as preventing a city or county from requiring any information it deems appropriate to make a decision approving a particular location. [1977 1st ex.s. c 371 § 13; 1975-76 2nd ex.s. c 108 § 40; 1974 ex.s. c 110 § 2.]

81.75.010  Authorization to own and operate—Purpose. It is desirable to a transportation system that convenient and comfortable terminals be established and maintained with services of all modes of public transportation available to the public at such a center to the extent feasible. It is proper that cities, towns, counties, public transportation benefit area authorities, and municipal corporations of this state be authorized to own and operate transportation centers. [1977 1st ex.s. c 217 § 1.]

[1977 1st ex.s. c 324 § 1; 1975–76 2nd ex.s. c 130 § 3.]

82.04.291 Tax on harvesters of timber—Rates—Definitions—Stumpage values—Revised tables—Appeals—State timber tax account A and state timber reserve account—Surtax—Payment of tax. (1) Upon every person engaging within this state in business as a harvester of timber, as to such persons the amount of tax with respect to such business shall be equal to the stumpage value of timber harvested for sale or for commercial or industrial use multiplied by the appropriate rate as follows:
(a) For timber harvested between October 1, 1972 and September 30, 1973 inclusive, the rate shall be one and three-tenths percent;
(b) For timber harvested between October 1, 1973 and September 30, 1974 inclusive, the rate shall be two and nine-tenths percent and between October 1, 1974 and December 31, 1978, inclusive, six and one-half percent;
(2) For purposes of this section:
(a) "Harvester" means every person who from his own privately owned land or from the privately owned land of another under a right or license granted by lease or contract, either directly or by contracting with others for the necessary labor or mechanical services fells, cuts or takes timber for sale or for commercial or industrial use. It does not include persons performing under contract the necessary labor or mechanical services for a harvester.
(b) "Timber" means forest trees, standing or down on privately owned land, and except as provided in RCW 84.33.170 includes Christmas trees.
(c) "Stumpage value of timber" means the appropriate stumpage value shown on tables to be prepared by the department of revenue pursuant to subsection (3) of this section.
(d) Timber shall be considered harvested at the time when in the ordinary course of business the quantity thereof by species is first definitely determined. The amount harvested shall be determined by the Scribner Decimal C Scale or other prevalent measuring practice adjusted to arrive at substantially equivalent measurements, as approved by the department of revenue.
(3) The department of revenue shall designate areas containing timber having similar growing, harvesting and marketing conditions to be used as units for the preparation and application of stumpage values. Each year on or before December 31 for use the following January through June 30, and on or before June 30 for use the following July through December 31, the department shall prepare tables of stumpage values of each species or subclassification of timber within such units, which values shall be the amount that each such species or subclassification would sell for at a voluntary sale made in the ordinary course of business for purposes of immediate harvest. Such stumpage values, expressed in terms of a dollar amount per thousand board feet or other unit measure, shall be determined from (a) gross
proceeds from sales on the stump of similar timber of like quality and character at similar locations, and in similar quantities, or from (b) gross proceeds from sales of logs adjusted to reflect only the portion of such proceeds attributable to value on the stump immediately prior to harvest, or from a combination of (a) and (b), and shall be determined in a manner which makes reasonable and adequate allowances for age, size, quality, costs of removal, accessibility to point of conversion, market conditions and all other relevant factors. Upon application from anyone who plans to harvest damaged timber, the stumpage values for which have been materially reduced from the values shown in the applicable tables due to damage resulting from fire, blow down, ice storm, flood or other sudden unforeseen cause, the department shall revise such tables for any area in which such timber is located and shall specify any additional accounting or other requirements to be complied with in reporting and paying such tax. The preliminary area designations and stumpage value tables and any revisions thereof shall be subject to review by the ways and means committees of the house and senate prior to finalization. Tables of stumpage values shall be signed by the director or his designee and authenticated by the official seal of the department. A copy thereof shall be mailed to anyone who has submitted to the department a written request therefor.

(4) On or before the sixthtieth day after the date of final adoption of any stumpage value tables, any harvester may appeal to the board of tax appeals for a revision of stumpage values for an area determined pursuant to subsection (3) of this section.

(5) There are hereby created in the state treasury a state timber tax reserve account in the state general fund and any interest earned on the investment of cash balances shall be deposited in these accounts. The revenues from the tax imposed by subsection (1) of this section shall be deposited in state timber tax account A and a state timber tax reserve account in the state general fund, and means committees of the house and senate prior to finalization. Tables of stumpage values shall be signed by the director or his designee and authenticated by the official seal of the department. A copy thereof shall be mailed to anyone who has submitted to the department a written request therefor.

(6) In addition to the rates specified in subsection (1) of this section, there shall be imposed upon such persons a surtax at a rate of .5% of the stumpage value of timber as specified in such subsection (1) upon timber harvested between October 1, 1972 and September 30, 1974 inclusive. The revenues from such surtax shall be deposited in the state timber tax reserve account. Such surtax shall be reimposed for one year upon timber harvested in any calendar year following any fourth quarter during which transfers from such reserve account pursuant to subsection (3) of RCW 84.33.080 reduce the balance in such account to less than five hundred thousand dollars, but in no event shall such surtax be imposed in any year after 1980.

(7) The tax imposed under this section shall be computed with respect to timber harvested each calendar quarter and shall be due and payable in quarterly installments and remittance therefor shall be made on or before the last day of the month next succeeding the end of the quarterly period in which the tax accrued. The taxpayer on or before such date shall make out a return, upon such forms and setting forth such information as the department of revenue may require, showing the amount of the tax for which he is liable for the preceding quarterly period, and shall sign and transmit the same to the department of revenue, together with a remittance for such amount.

(8) The taxes imposed by this section shall be in addition to any taxes imposed upon the same persons pursuant to one or more of sections RCW 82.04.230 to 82.04.290, inclusive, and RCW 82.04.440, and none of such sections shall be construed to modify or interact with this section in any way, except RCW 82.04.450 and 82.04.490 shall not apply to the taxes imposed by this section.

(9) Any harvester incurring less than ten dollars tax liability under this section in any calendar quarter shall be excused from the payment of such tax, but may be required by the department of revenue to file a return even though no tax may be due. Reviser's note: The "department of motor vehicles" redesignated the "department of licensing" and "director of motor vehicles" redesignated "director of licensing" by 1977 1st ex.s. c 334. See RCW 46.01.020.

Effective dates—1977 1st ex.s. c 317: "This 1977 amendatory act is necessary for the immediate preservation of the public health, safety, and welfare, the support of the state government and its existing public institutions, and shall take effect on July 1, 1977, except for section 9, which shall take effect on September 1, 1977." [1977 1st ex.s. c 317 § 24.] For sections becoming effective July 1, 1977, see the following note, except that amendments to RCW 46.68.100 take effect September 1, 1977.

Severability—1977 1st ex.s. c 317: "If any provision of this 1977 amendatory act, or its application to any person or circumstance is held invalid, the remainder of the act, or the application of the provision to other persons or circumstances is not affected." [1977 1st ex.s. c 317 § 23.] This applies to the amendments to RCW 35.77.010, 46.68.090, 46.68.100, 46.68.150, 47.26.040, 47.26.080, 47.26.180, 47.26.190, 47.26.240, 47.26.270, 47.26.405, 47.26.420, 47.26.424, 47.26.425, 82.36.010, 82.36.020, 82.36.100, 82.37.030, 82.38.030 and to RCW 46.68.115, 47.26.4251, and 82.36.025.

82.36.020 Tax imposed—Rate to be computed—Allocation of proceeds. Every distributor shall pay, in addition to any other taxes provided by law, an excise tax to the director at a rate computed in the manner provided in RCW 82.36.025 for each gallon of motor vehicle fuel sold, distributed, or used by him in the state as well as on each gallon upon which he has assumed liability for payment of the tax under the provisions of RCW 82.36.100. Provided, That under such regulations as the director may prescribe sales or distribution of motor vehicle fuel may be made by one licensed distributor to another licensed distributor free of the tax. In the computation of the tax, one-quarter of one percent of the net gallonage otherwise taxable shall be deducted by the distributor before computing the tax due, on account of the losses sustained through handling. Any person paying such excise tax who, in turn, sells or distributes such fuel to another, whether or not for use, shall include the tax as part of the selling price of the fuel. Any person thereafter paying a price for such fuel which includes an increment for the tax imposed hereunder, and who subsequently resells said fuel, shall include the increment so paid as part of the selling price of the fuel. The tax imposed hereunder shall be in addition to any other tax required by law, and shall not be imposed under circumstances in which the tax is prohibited by the Constitution or laws of the United States. The tax herein imposed shall be collected and paid to the state but once in respect to any motor vehicle fuel. An invoice shall be rendered by a distributor to a purchaser for each distribution of motor vehicle fuel.

The proceeds of the motor vehicle fuel excise tax collected on the net gallonage after the deduction provided for herein and after the deductions for refunds and costs of collection as provided in RCW 46.68.090 as now or hereafter amended, shall be distributed as provided in RCW 46.68.100, as now or hereafter amended. [1977 1st ex.s. c 317 § 2; 1974 ex.s. c 28 § 1. 82.36.025 Computation of motor vehicle fuel tax rate—Department of motor vehicles determination—When—Limitations—Factors—Notice of unanticipated federal funds. (1) (a) During the fifth month of each fiscal half-year ending June 30th and December 31st of each year, the department of motor vehicles shall compute a motor vehicle fuel tax rate to the nearest one-half cent per gallon of motor vehicle fuel by multiplying twenty-one and one-half percent times the weighted average retail sales price of motor vehicle fuel, per gallon, sold within the state in the third month of such fiscal half-year. The department of motor vehicles shall determine the weighted average retail sales price of motor vehicle fuel by state-wide sampling and survey techniques designed to reflect such prices for the third month of such fiscal half-year. The department shall establish reasonable guidelines for its sampling and survey methods.

(b) Subject to provisions of subsections (2) and (3) of this section the excise tax rate computed in the manner provided in subsection (1) of this section shall apply to the sale, distribution, or use of motor vehicle fuel beginning the fiscal half-year following computation of the rate and shall remain in effect for each succeeding fiscal half-year until a subsequent computation requires a change in the rate. For the first fiscal half-year after July 1, 1977, the motor vehicle fuel tax shall be eleven cents per gallon.

(2) (a) The motor vehicle fuel tax rate for any fiscal half-year shall not exceed twelve cents per gallon nor exceed a rate as computed in this subsection.

(b) Each fiscal half-year at the time the department of motor vehicles computes the excise tax rate for the ensuing fiscal half-year of a biennium, the department shall estimate the total aggregate motor vehicle fuel tax revenues and the total of all other state revenues which will accrue to the motor vehicle fund during the full biennium. The estimated total aggregate motor vehicle fuel tax revenues for the biennium shall include those revenues which have accrued to the motor vehicle fund for the half-year or half-years of the biennium that have then elapsed plus revenues which the department determines will accrue during the remaining fiscal half-years of the biennium, assuming the sale, distribution, and use of motor vehicle fuel and special fuel within the state for the remaining fiscal half-years of the biennium shall be at the same volume as during the fiscal half-year last ended, adjusted however for the historic variations in sales, distribution, and use according to half-yearly periods and for projected trends, and at the weighted average retail sales price of motor vehicle fuel as last determined by the department of motor vehicles. The estimated total of all other state revenues to accrue to the motor vehicle fund during the biennium shall include those revenues (other than the aggregate motor vehicle fuel tax revenues) which have accrued to the motor vehicle fund for the half-year or half-years of the biennium that have then elapsed plus revenues which the department of highways with the concurrence of the office of program planning and fiscal management determines will accrue during the remaining fiscal half-years of the biennium, assuming that collections of such revenues for the remaining fiscal half-years of the biennium shall be at the same level as during the fiscal half-year just ended, adjusted however for historic variations in collections according to half-yearly periods and for projected trends, and shall include state revenues in the motor vehicle fund balance as of the end of the prior biennium as certified by the state treasurer, less an appropriate minimum balance for the biennium as determined by the department of highways with the concurrence of the office of program planning and fiscal management and the proceeds of the sale of bonds but shall not include reimbursements to the motor vehicle fund for services performed by the department of highways for others.

(c) If the estimated biennial aggregate motor vehicle fuel tax revenues as computed in paragraph (b) of this subsection, exceed the total of all appropriations, reappropriations, and transfers of state revenues from the motor vehicle fund for the biennium (less the estimated total of all other state revenues which will accrue to the motor vehicle fund during the biennium as computed in paragraph (b) of this subsection) by more than five percent thereof, the rate of the motor vehicle fuel tax (computed as provided in subsection (1) of this section) shall be reduced by one-half cent increments, commencing at the beginning of the ensuing fiscal half-year, as may be necessary to reduce such estimated total revenues for the full biennium to within the total of such appropriations, reappropriations, and transfers plus five percent thereof.

(3) (a) Notwithstanding any other provisions of this section the excise tax rate for any fiscal half-year shall not be less than nine cents per gallon nor less than the rate as computed in this subsection.

(b) Each fiscal half-year at the time the department of motor vehicles computes the excise tax rate for the ensuing fiscal half-year of a fiscal year, the department shall estimate the total aggregate motor vehicle fuel tax revenues which will accrue to the motor vehicle fund during such fiscal year in the same manner that such revenues are estimated for a full biennium. If such estimated aggregate motor vehicle fuel tax revenues for the fiscal year are less than an amount equal to the aggregate motor vehicle fuel tax revenues collected during the
fiscal year ending June 30, 1973, increased by six percent per year compounded annually for each year which has elapsed from June 30, 1973, to June 30th of the fiscal year for which estimated aggregate motor vehicle fuel tax revenues were computed, the department shall increase the rate of the excise tax by one-half cent increments, but not to exceed a total excise tax of twelve cents per gallon, commencing at the beginning of the ensuing fiscal half-year as necessary to produce estimated aggregate motor vehicle fuel tax revenues for such fiscal year as great as such revenues collected during the 1973 fiscal year increased by six percent per year compounded annually from June 30, 1973, to June 30th of the fiscal year for which such minimum half-yearly tax rate is being computed.

(4) (a) Except as otherwise provided in paragraph (b) of this subsection, if the department of highways receives notification that unanticipated federal funds in excess of one million dollars above appropriations of federal funds from the motor vehicle fund for a biennium will be received for expenditure during that biennium, the highway commission shall give notice of the amount of such unanticipated funds to the department of motor vehicles which shall include such amount in the computation of the estimated total of all other state revenues to accrue during the biennium under paragraph (b) of subsection (2) of this section for purposes of computing the maximum rate of motor vehicle fuel tax as provided in this section.

(b) Upon receipt by the department of highways of notification that unanticipated federal funds in excess of one million dollars above appropriations of federal funds from the motor vehicle fund for a biennium will be received for expenditure during that biennium, if the highway commission determines that such funds or any part thereof may not legally or operationally be substituted for purposes for which state motor vehicle fund moneys have been appropriated, or determines that substitution of such federal funds for state funds would delay the construction of needed highway improvements, the highway commission shall forthwith notify the governor and the standing committees on transportation of the house and senate of its determination. If both the governor and the standing committees concur in the commission's determination, the unanticipated federal funds shall not be considered by the department of motor vehicles in computing the estimated total of all other state revenues to accrue during the biennium under paragraph (b) of subsection (2) of this section. [1977 1st ex.s. c 317 § 6.]

82.36.040 Payment of tax—Penalty for delinquency. The amount of excise tax for each month shall be paid to the director on or before the twenty-fifth day of the next month thereafter, and if not paid prior thereto, shall become delinquent at the close of business on that day, and a penalty of one percent of such excise tax must be added thereto for delinquency: Provided, That in no case shall the penalty be more than five hundred dollars. If such tax and penalty is not received on or before the close of business on the last day of the month in which the payment is due an additional penalty of ten percent must be added thereto in addition to penalty above provided for.

Any motor vehicle fuel tax, penalties, and interest payable under the provisions of this chapter shall bear interest at the rate of one-half of one percent per month, or fraction thereof, from the first day of the calendar month after the close of the monthly period for which the amount or any portion thereof should have been paid until the date of payment: Provided, That the interest charge on the unpaid excise tax shall be waived when such interest is less than five dollars: And provided further, That the department may waive the interest on the unpaid excise tax when the interest exceeds five dollars and the department determines that the cost of processing the collection of the interest exceeds the amount of interest due.

In any suit brought to enforce the rights of the state hereunder, the certificate of the director showing the amount of taxes, penalties, interest and cost unpaid by any distributor and that the same are due and unpaid to the state shall be prima facie evidence of the facts as shown. The proceeds of the tax imposed by this section shall be distributed in the manner provided for the distribution of the motor vehicle fuel excise tax in RCW 82.36.020 as now or hereafter amended. However, a distributor licensed under the provisions of this chapter may deliver motor vehicle fuel to an importer in individual quantities of five hundred gallons or less and assume the liability for payment of the tax to this state. The permit shall bear a permit number and all applications for refund shall bear the number of the permit under which it is claimed. (2) Said tax shall be collected by the special fuel dealer and shall be paid over to the department as hereinafter provided: (a) With respect to all special fuel delivered by a special fuel dealer into supply tanks of motor vehicles or into storage facilities used for the fueling of motor vehicles at unattended service stations in this state; or (b) in all other transactions with a special fuel dealer to special fuel users who are authorized by the department as hereinafter provided, to purchase fuel without payment of tax to the bonded special fuel dealer. They shall, upon complaint in writing of any party aggrieved, reduce the valuation of each class of personal property enumerated on the detail and assessment list of the current year, which in their opinion is returned above its true and fair value, to such price or sum as they believe to be the true and fair value thereof; and, upon like complaint, they shall reduce the aggregate valuation of the personal property of such individual who, in their opinion, has been assessed at too large a sum, to such sum or amount as they believe was the true and fair value of his personal property.

The clerk of the board shall keep an accurate journal or record of the proceedings and orders of said board in a book kept for that purpose, showing the facts and evidence upon which their action is based, and the said record shall be published the same as other proceedings of county legislative authority, and shall make a true record of the changes of the descriptions and assessed values ordered by the county board of equalization. The assessor shall correct the real and personal assessment rolls in accordance with the changes made by the said county board of equalization, and he shall make duplicate abstracts of such corrected values, one copy of which shall be retained in his office, and one copy forwarded to the state board of equalization on or before the fifth day of August next following the meeting of the county board of equalization.

For the purpose of subsection (2) of this section, the superintendent of public instruction may grant local school districts authority to exceed the levy limitations imposed by said subsection: Provided, That said limitations can only be exceeded by an amount that will insure local school districts the ability to raise a total excess levy dollar amount per annual average full time equivalent student which when combined with the basic education allocation is equal to but does not exceed one hundred and four percent of the previous school year's comparable dollars per annual average full time equivalent student.

The superintendent of public instruction shall develop rules and regulations and inform school districts of the pertinent data necessary to carry out the provisions of *this 1977 amendatory act. [1977 1st ex.s. c 325 § 4.]

*Reviser's note: "this 1977 amendatory act" [1977 1st ex.s. c 325] consists of amendments to RCW 84.52.052 and 84.52.054 and to RCW 84.52.053 and 84.52.0531.

The lien for the property taxes assessed on a mobile home shall be terminated and absolved for the year subsequent to the year of its removal from the state, when notice is given to the county treasurer describing the mobile home, if all property taxes due at the time of removal are satisfied. The taxes assessed upon each item of personal property assessed shall be a lien upon such personal property except mobile homes as above provided from and after the date upon which the same is listed with and valued by the county assessor, and no sale or transfer of such personal property shall in any way affect the lien for such taxes upon such property. The taxes assessed upon personal property shall be a lien upon each item of personal property of the person assessed, distrained by the treasurer as provided in RCW 84.56.070, from and after the date of the distrain and no sale or transfer of such personal property so distrained shall in any way affect the lien for such taxes upon such property. *Reviser's note: The case of Payne v. State, 156 Wash. 31 states that the provisions of this section relating to the service of summons on the county auditor were repeated by implication by 1909 c 154 § 6 which provided for such service upon the commissioner of public lands. Subsequently 1919 c 164 was enacted containing similar provisions and providing for service upon the auditor. This was amended by 1963 c 20 §§ 4 and 5 to provide for service upon the budget director and the chief administrative officer of the agency having jurisdiction over such land. The budget director was changed to the director of program planning and fiscal management (chapter 43.41 RCW). The office of program planning and fiscal management was redesignated the office of financial management by 1971 ex.s. c 114 (RCW 43.41.035).

At such election shall be submitted to the electors of said district possessing the qualifications prescribed by law the question of whether or not the bonds of said district in the amount of and of the maturities determined by the board of directors shall be issued. Bonds issued under the provisions of this act shall be serial bonds payable in legal currency of the United States in such series and amounts as shall be determined and declared by the board of directors in the resolution calling the election: Provided, That the first series shall mature not later than ten years and the last series not later than forty years from the date thereof: Provided further, That bonds, authorized by a special election held in the district under the provisions of a former statute, which has subsequent to said authorization been amended, but not issued prior to the amendment of said former statute, may be issued in the form provided in said former statute, and any such bonds heretofore or hereafter so issued and sold are hereby confirmed and validated.

Notice of such bond election must be given by publication of such notice in some newspaper published in the county where the office of the board of directors of such district is required to be kept, once a week for at least two weeks (three times). Such notices must specify the time of holding the election, and the amount and maturities of bonds proposed to be issued; and said election must be held and the results thereof determined and declared in all respects as nearly as practicable in conformity with the provisions of law governing the election of the district officers: Provided, That no informality in conducting such election shall invalidate the same, if the election shall have been otherwise fairly conducted. office of the county treasurer of the county in which the
office of the board of directors is situated, or if the
board of directors shall so determine at the fiscal agency
of the state of Washington in New York City, said place
of payment to be designated in the bond. The bonds may

in its discretion determine, except that bonds other than
bond number one of any issue shall be in a denomination
that is a multiple of one hundred dollars. Said bonds
shall be negotiable in form, signed by the president and
secretary, and the seal of the district shall be affixed
thereto. The county treasurer shall register said bonds
before the issuance thereof in a book kept for that pur-
pose, and shall certify on each thereof under his seal
that it has been so registered. The printed, engraved, or
lithographed facsimile signatures of the president and
secretary of the district's board of directors and the
county treasurer shall be sufficient signatures on the
bonds or coupons: Provided, That such facsimile signa-
tures on the bonds may be used only after the filing, by
the officer whose facsimile signature is to be used, with
the secretary of state of his manual signature certified
by him under oath, whereupon that officer's facsimile
signature has the same legal effect as his manual signa-
ture: Provided, further, That either the president of the
board of directors' or the secretary's signature on the
bonds shall be manually subscribed: And provided fur-
ther, That whenever such facsimile reproduction of the
signature of any officer is used in place of the manual
signature of such officer, the district's board of directors
shall specify in a written order or requisition to the
printer, engraver, or lithographer the number of bonds
or coupons upon which such facsimile signature is to be
printed, engraved, or lithographed and the manner of
numbering the bonds or coupons upon which such signa-
ture shall be placed. Within ninety days after the com-

such bonds or coupons, the plate or plates used for the
purpose of fixing the facsimile signature shall be de-

the electors at the bond election, any bond issue may be
exchanged in whole or in part, at par, for any or all of a
valid outstanding bond issue of the district when such
interest or exchange of the bond authorized under the
district, and the amount of said last bond issue exchanged,
if any of that required for exchange purposes, may be
sold as in the case of an original issue. The bonds of any
issue authorized to be exchanged in whole or in part for
outstanding bonds shall state on their face the amount of
such issue so exchanged, and shall contain a certificate
of the treasurer of the district as to the amount of the
bonds exchanged, and that said outstanding bonds have
been surrendered and canceled: Provided further, That
where bonds have been authorized and unsold, the board
of directors may submit to the qualified voters of the
district the question of canceling said previous authori-
ization, which question shall be submitted upon the same
notice and under the same regulations as govern the
submission of the original question of authorizing a bond
issue. At such election the ballots shall contain the words
"Cancellation Yes," and "Cancellation No," or words
equivalent thereto. If at such election a majority of the
votes shall be "Cancellation Yes," the said issue shall be
thereby canceled and no bonds may be issued thereun-
der. If the majority of said ballots shall be "Cancellation
No," said original authorization shall continue in force
with like effect as though said cancellation election had
not been held: Provided, That bonds deposited with the
United States in payment or in pledge may call for the
payment of such interest at such rate or rates, may be of
such denominations, and call for the repayment of the
principal at such times as may be agreed upon between
the board and the secretary of the interior.

Each issue shall be numbered consecutively as issued,
and the bonds of each issue shall be numbered consecu-
tively and bear date at the time of their issue. Coupons
for the interest shall be attached to each bond, signed by
the president of the board and the secretary. The signa-

appear by printed, engraved or lithographed facsimile.
Said bonds shall express upon their face that they were
issued by authority of this act, stating its title and date
of approval, and shall also state the number of issue of
which such bonds are a part. The secretary shall keep a
record of bonds sold, their number, the date of sale, the
price received and the name of the purchaser. In case
the money received by the sale of all bonds issued be
insufficient for the completion of plans of the canals and
works adopted, and additional bonds be not voted, or a
contract calling for additional payment to the United
States be not authorized and made, as the case may be,
it shall be the duty of the board of directors to provide
for the completion of said plans by levy of assessments
therefor. It shall be lawful for any irrigation districts
which have heretofore issued and sold bonds under the
law then in force, to issue in place thereof an amount of
bonds not in excess of such previous issue, and to sell the
same, or any part thereof, as hereinafter provided, or
exchange the same, or any part thereof, with the holders
of such previously issued bonds which may be outstanding,
upon such terms as may be agreed upon between the
board of directors of the district and the holders of such
outstanding bonds: Provided, That the question of such

The legislature further finds and declares that it is a policy of the state of Washington to have pilots experienced in the handling of vessels aboard vessels in certain of the state waters with prescribed qualifications and licenses issued by the state.

It is the intent of the legislature to ensure against the loss of lives, loss or damage to property and vessels, and to protect the marine environment through the establishment of a board of pilotage commissioners representing the interests of the people of the state of Washington.

It is the further intent of the legislature not to place in jeopardy Washington's position as an able competitor for waterborne commerce from other ports and nations of the world, but rather to continue to develop and encourage such commerce. [1977 1st ex.s. c 337 § 1.]

The pilot shall have thirty days from the date on which notice is served to request a full hearing before a hearing officer on the issue of suspension, revocation, or withholding of his pilot's license. The board's proposed suspension, revocation, or withholding of a license shall become final upon the expiration of thirty days from the date notice is served, unless a hearing has been requested prior to that time. When a hearing is requested the board shall appoint a hearing officer who shall be an active member of the Washington state bar association and, in the opinion of the board, has sufficient experience and familiarity with pilotage matters to be able to conduct a fair and impartial hearing. The hearing shall be governed by the provisions of chapter 34.04 RCW. To formulate and adopt a sound policy for the reclamation and development of the agricultural resources of the state, and from time to time select for reclamation and development such lands as may be deemed advisable, and the director may in his discretion advise as to the formation and assist in the organization of reclamation districts under the laws of this state;

To purchase the bonds of any reclamation district whose project is approved by the director and which is found to be upon a sound financial basis, to contract with any such district for making surveys and furnishing engineering plans and supervision for the construction of its project, or for constructing or completing its project and to advance money to the credit of the district for any or all of such purposes, and to accept the bonds, coupon notes or coupon warrants of such district in payment therefor, and to expend the moneys appropriated from the reclamation account in the purchase of such bonds, notes or warrants or in carrying out such contracts: Provided, That interest not to exceed the annual rate provided for in the bonds, notes or warrants agreed to be purchased, shall be charged and received for all moneys advanced to the district prior to the delivery of the bonds, notes or warrants and the amount of such interest shall be included in the purchase price of such bonds, notes or warrants: Provided further, That no district, the bonds, notes or warrants of which have been purchased by the state under the provisions of the state reclamation act, shall thereafter during the life of said bonds, notes or warrants make expenditures of any kind from the bond or coupon warrant funds of the district or incur obligations chargeable against such funds or issue any additional coupon notes without previous written approval of the director of ecology of the state of Washington, and any obligations incurred without such approval shall be void;

To sell and dispose of any reclamation district bonds acquired by the director, at public or private sale, and to pay the proceeds of such sale into the reclamation account: Provided, That such bonds shall not be sold for less than the purchase price plus accrued interest, except in case of a sale to an agency supplied with money by the United States of America, or to the United States of America in furtherance of refunding operations of any irrigation district, diking or drainage district, or diking or drainage improvement district, now pending or hereafter carried on by such district, in which case the director shall have authority to sell any bonds of such district owned by the state of Washington under the provisions of the state reclamation act, to the United States of America, or other federal agency on such terms as said United States of America, or other federal agency shall prescribe for bonds of the same issue of such district as that held by the state of Washington in connection with such refunding operations;

To borrow money upon the security of any bonds, including refunding bonds, of any reclamation district, acquired by the director, on such terms and rate of interest and over such period of time as the director may see fit, and to hypothecate and pledge reclamation district bonds or refunding bonds acquired by the director as security for such loan. Such loans shall have, as their sole security, the bonds so pledged and the revenues therefrom, and the director shall not have authority to pledge the general credit of the state of Washington: Provided, That in reloaning any money so borrowed, or obtained from a sale of bonds it shall be the duty of the director to fix such rates of interest as will prevent impairment of the reclamation revolving account;

To purchase delinquent general tax or delinquent special assessment certificates chargeable against lands included within any reclamation district obligated to the state under the provisions of the state reclamation act, and to purchase lands included in such districts and placed on sale on account of delinquent taxes or delinquent assessments with the same rights, privileges and powers with respect thereto as a private holder and owner of said certificates, or as a private purchaser of said lands: Provided, That the director shall be entitled to a delinquent tax certificate upon application to the proper county treasurer therefor without the necessity of a resolution of the board of county commissioners authorizing the issuance of certificates of delinquency required by law in the case of the sale of such certificates to private purchasers;

To sell said delinquent certificates or the lands acquired at sale on account of delinquent taxes or delinquent assessments at public or private sale, and on such conditions as the director shall determine;

To, whenever the director shall deem it advisable, require any district with which he may contract, to provide such safeguards as he may deem necessary to assure bona fide settlement and development of the lands within such district, by securing from the owners of lands therein agreements to limit the amount of their holdings to such acreage as they can properly farm and to sell their excess land holdings at reasonable prices;

To employ all necessary experts, assistants and employees and fix their compensation and to enter into

any and all contracts and agreements necessary to carry
out the purposes of this chapter.
To have the assistance, cooperation and services of,

the governing authorities of all state institutions are
hereby authorized and directed to cooperate with the
director in furthering the purpose of this chapter;
To cooperate with the United States in any plan of
land reclamation, land settlement or agricultural develop-
ment which the congress of the United States may
provide and which may effect the development of agri-
cultural resources within the state of Washington, and
the director shall have full power to carry out the provi-
sions of any cooperative land settlement act that may be
enacted by the United States. [1977 c 75 § 93; 1972

order directing summons to be issued, and fixing the
return day thereof, which shall be not less than sixty nor
more than ninety days, after the making of such order:
Provided, That for good cause, the court, at the request
of the supervisor, may modify said time period. A sum-

court, signed and attested by the clerk thereof, in the
name of the state of Washington, as plaintiff, against all

90.08.040 Stream patrolmen—Appointment—Powers. Where water rights of a stream have been adju-
dicated a stream patrolman shall be appointed by the
director of the department of ecology upon application
of water users having adjudicated water rights in each
particular water resource making a reasonable showing
of the necessity therefor, which application shall have
been approved by the district water master if one has
been appointed, at such time, for such stream, and for
such periods of service as local conditions may indicate
to be necessary to provide the most practical supervision
and to secure to water users and owners the best protec-
tion in their rights.

The stream patrolman shall have the same powers as
a water master appointed under RCW 90.03.060, but his
district shall be confined to the regulation of waters of a
designated stream or streams. Such patrolman shall be
under the supervision of the director or his designated
representative. He shall also enforce such special rules

patrolman shall be borne by the water users receiving
the benefits and shall be paid to the county or counties
in the following manner:

The county or counties may assess each water user for
his proportionate share of the total stream patrolman
expense in the same ratio that the amount of water
diverted by him bears to the total amount diverted from
the stream during each season, on an annual basis, to
recover all such county expenses. The stream patrolman
shall keep an accurate record of the amount of water
diverted by each water user coming under his supervi-
sion. On the first of each month the stream patrolman
shall present his record of water diversion to the county
or counties for the preceding month. Where the water
users are organized into an irrigation district or water
users' association, such organization may enter into an
agreement with the county or counties for direct pay-
ment to the stream patrolman in order to minimize
administrative costs. [1977 c 22 § 3; 1925 ex.s. c 162 §

SHORELINE MANAGEMENT ACT OF 1971

90.58.140 Development permits—Grounds for granting—Administration by local government, conditions—Applications—Notices—Recission—When permits not required—Approval when permit for variance or conditional use. (1) No development shall be undertaken on the shorelines of the state except those which are consistent with the policy of this chapter and, after adoption or approval, as appropriate, the applicable guidelines, regulations or master program.
(2) No substantial development shall be undertaken on shorelines of the state without first obtaining a permit from the government entity having administrative jurisdiction under this chapter.
A permit shall be granted:
(a) From June 1, 1971 until such time as an applicable master program has become effective, only when the development proposed is consistent with: (i) The policy of RCW 90.58.020; and (ii) after their adoption, the guidelines and regulations of the department; and (iii) so far as can be ascertained, the master program being developed for the area;
(b) After adoption or approval, as appropriate, by the department of an applicable master program, only when the development proposed is consistent with the applicable master program and the provisions of chapter 90.58 RCW.
(3) Local government shall establish a program, consistent with rules adopted by the department, for the administration and enforcement of the permit system provided in this section. The administration of the system so established shall be performed exclusively by local government.
(4) Local government shall require notification of the public of all applications for permits governed by any permit system established pursuant to subsection (3) of this section by ensuring that:
(a) A notice of such an application is published at least once a week on the same day of the week for two consecutive weeks in a legal newspaper of general circulation within the area in which the development is proposed; and
(b) Additional notice of such an application is given by at least one of the following methods:
(i) Mailing of the notice to the latest recorded real property owners as shown by the records of the county assessor within at least three hundred feet of the boundary of the property upon which the substantial development is proposed;
(ii) Posting of the notice in a conspicuous manner on the property upon which the project is to be constructed; or
(iii) Any other manner deemed appropriate by local authorities to accomplish the objectives of reasonable notice to adjacent landowners and the public.
Such notices shall include a statement that any person desiring to submit written comments concerning an application, or desiring to receive a copy of the final order concerning an application as expeditiously as possible after the issuance of the order, may submit such comments or such requests for orders to the local government within thirty days of the last date the notice is to be published pursuant to subsection (a) of this subsection. Local government shall forward, in a timely manner following the issuance of an order, a copy of the order to each person who submits a request for such order.
If a hearing is to be held on an application, notices of such a hearing shall include a statement that any person may submit oral or written comments on an application at such hearing.
(5) Such system shall include provisions to assure that construction pursuant to a permit will not begin or be authorized until thirty days from the date the final order was filed as provided in subsection (6) of this section; or until all review proceedings are terminated if such proceedings were initiated within thirty days from the date of filing as defined in subsection (6) of this section except as follows:
(a) In the case of any permit issued to the state of Washington, department of highways, for the construction and modification of the SR 90 (I-90) bridges across Lake Washington, such construction may begin after thirty days from the date of filing;
(b) If a permit is granted by the local government and (i) the granting of the permit is appealed to the shorelines hearings board within thirty days of the date of filing, (ii) the hearings board approves the granting of the permit by the local government or approves a portion of the substantial development for which the local government issued the permit, and (iii) an appeal for judicial
review of the hearings board decision is filed pursuant to
the provisions of chapter 34.04 RCW, the permittee may
request, within ten days of the filing of the appeal with
the court, a hearing before the court to determine
whether construction may begin pursuant to the permit
approved by the hearings board or to a revised permit
issued pursuant to the order of the hearings board. If, at
the conclusion of the hearing, the court finds that con-
struction pursuant to such a permit would not involve a
significant, irreversible damaging of the environment,
the court may allow the permittee to begin such con-
struction pursuant to the approved or revised permit as
the court deems appropriate. The court may require the
permittee to post bonds, in the name of the local gov-
ernment that issued the permit, sufficient to remove the
substantial development or to restore the environment if
the permit is ultimately disapproved by the courts, or to
alter the substantial development if such alteration is
ultimately ordered by the courts: Provided, That con-
struction pursuant to a permit revised at the direction of
the hearings board may begin only on that portion of the
substantial development for which the local government
had originally issued the permit and construction pursu-
ant to such a revised permit on other portions of the
substantial development may not begin until after all
review proceedings are terminated. In such a hearing
before the court, the burden of proving whether such
construction may involve significant irreversible damage
to the environment and demonstrating whether such
construction would or would not be appropriate shall be
on the appellant;

(c) If a permit is granted by the local government and
the granting of the permit is appealed directly to the
superior court for judicial review pursuant to the provi-
sed in RCW 90.58.180(1) as now or hereafter amended, the
permittee may request the court to remand the appeal to
the shorelines hearings board, in which case the appeal
shall be so remanded and construction pursuant to such
a permit shall be governed by the provisions of subsec-
tion (b) of this subsection or may otherwise begin after
review proceedings before the hearings board are termi-
nated if judicial review is not thereafter requested pur-
suant to the provisions of chapter 34.04 RCW;

If a permittee begins construction pursuant to subsec-
tions (a), (b) or (c) of this subsection, such construction
shall begin at the permittee's own risk. If, as a result of
judicial review, the courts order the removal of any por-
tion of the construction or the restoration of any portion
of the environment involved or require the alteration of
any portion of a substantial development constructed
pursuant to a permit, the permittee shall be barred from
recovering damages or costs involved in adhering to such
requirements from the local government that granted the
permit, the hearings board, or any appellant or
intervener.

(6) Any ruling on an application for a permit under
authority of this section, whether it be an approval or a
denial, shall, concurrently with the transmittal of the
ruling to the applicant, be filed with the department and
the attorney general. With regard to a permit other than
a permit governed by subsection (12) of this section,"date of filing" as used herein shall mean the date of
actual receipt by the department. With regard to a per-
mit for a variance or a conditional use, "date of filing"
shall mean the date a decision of the department rend-
ered on the permit pursuant to subsection (12) of this
section is transmitted by the department to the local
government. The department shall notify in writing the
local government and the applicant of the date of filing.

(7) Applicants for permits under this section shall
have the burden of proving that a proposed substantial
development is consistent with the criteria which must
be met before a permit is granted. In any review of the
granting or denial of an application for a permit as pro-
vided in RCW 90.58.180 (1) and (2) as now or hereafter
amended, the person requesting the review shall have the
burden of proof.

(8) Any permit may, after a hearing with adequate
notice to the permittee and the public, be rescinded by
the issuing authority upon the finding that a permittee
has not complied with conditions of a permit. In the
event the department is of the opinion that such non-
compliance exists, the department shall provide written
notice to the local government and the permittee. If
the department is of the opinion that such noncompliance
continues to exist thirty days after the date of the notice,
and the local government has taken no action to rescind
the permit, the department may petition the hearings
board for a rescission of such permit upon written notice
of such petition to the local government and the permit-
tee: Provided, That the request by the department is
made to the hearings board within fifteen days of the
termination of the thirty day notice to the local
government.

(9) The holder of a certification from the governor
pursuant to chapter 80.50 RCW shall not be required to
obtain a permit under this section.

(10) No permit shall be required for any development
on shorelines of the state included within a preliminary
or final plat approved by the applicable state agency or
local government prior to April 1, 1971, if:

(a) The final plat was approved after April 13, 1961,
or the preliminary plat was approved after April 30,
1969; and

(b) The development is completed within two years
after the effective date of this chapter.

(11) The applicable state agency or local government
is authorized to approve a final plat with respect to
shorelines of the state included within a preliminary plat
approved after April 30, 1969, and prior to April 1,
1971: Provided, That any substantial development within
the platted shorelines of the state is authorized by a
permit granted pursuant to this section, or does not
require a permit as provided in subsection (10) of this
section, or does not require a permit because of substan-
tial development occurred prior to June 1, 1971.

(12) Any permit for a variance or a conditional use by
local government under approved master programs must
be submitted to the department for its approval or dis-
approval. [1977 1st ex.s. c 358 § 1; 1975—76 2nd ex.s. c

90.62.010 Legislative finding—Purposes. (1) It is the sense of the legislature that the heavy burdens placed upon persons proposing to undertake certain types of projects in this state through requirements to obtain numerous permits and related documents from various state and local agencies are undesirable and should be alleviated. The legislature further finds that present methods for obtaining public views in relation to applications to state and local agencies pertaining to these projects are cumbersome and place undue hardships on members of the public thereby thwarting the public's ability to present such views.

(2) The purposes of this chapter are to:
(a) Provide for an optional procedure to assist those who, in the course of satisfying the requirements of state and local government prior to undertaking a project which contemplates the use of the state's air, land, or water resources, must obtain a number of permits, by establishing a mechanism in state government which will coordinate administrative decision-making procedures, and related quasi judicial and judicial review, pertaining to such documents.

(b) Provide to members of the public a better and easier opportunity to present their views comprehensively on proposed uses of natural resource and related environmental matters prior to the making of decisions on such uses by state or local agencies.

(c) Provide to members of the public who desire to carry out the aforementioned projects within the state of Washington a greater degree of certainty in terms of permit requirements of state and local government.

(d) Provide better coordination and understanding between state and local agencies in the administration of the various programs relating to air, water, and land resources.

(e) Establish the opportunity for members of the public to obtain information pertaining to requirements of federal and state law which must be satisfied prior to undertaking a project in the state. [1977 c 54 § 1; 1973 1st ex.s. c 185 § 1.]

90.62.020 Definitions. For purposes of this chapter the following words mean, unless the context clearly dictates otherwise:
(1) "Board" means the pollution control hearings board.
(2) "Department" means the department of ecology.
(3) "Local government" means a county, city or town.
(4) "Permit" means any license, permit, certificate, certification, approval, compliance schedule, or other similar document pertaining to any regulatory or management program related to the protection, conservation, or use of, or interference with, the natural resources of land, air or water in the state, which is required to be obtained from a state agency prior to constructing or operating a project in the state of Washington. Permit shall also mean a substantial development permit under RCW 90.58.140 and any permit, required by a local government for a project, that the local government has chosen to process pursuant to RCW 90.62.100(2) as now or hereafter amended. Nothing in this chapter shall relate to a permit issued by the department of labor and industries or by the utilities and transportation commission; nor to the granting of proprietary interests in publicly owned property such as sales, leases, easements, use permits and licenses.

(5) "Person" means any individual, municipal, public, or private corporation, or other entity however denominated, including a state agency and county.

(6) "Processing" and "processing of applications" mean the entire process to be followed in relation to the making of decisions on an application for a permit and review thereof as provided in RCW 90.62.040 through 90.62.080.

(7) "Project" means any new activity or any expansion of or addition to an existing activity, fixed in location, for which permits are required prior to construction or operation from (a) two or more state agencies as defined in subsection (8) of this section, or (b) one or more state agencies and a local government, if the local government is processing permits or requests for variances or rezones pursuant to the procedure established by the provisions of this chapter, as provided by RCW 90.62.100(2) as now or hereafter amended. Such construction or operation may include, but need not be limited to, industrial and commercial operations and developments. For the purpose of part (a) of this subsection, the submission of plans and specifications for a hydraulic project or other work to the departments of fisheries and game pursuant to RCW 75.20.100 shall be considered to be an application for a permit required by one state agency.

(8) "State agency" means any state department, commission, board or other agency of the state however titled. For the limited purposes of this chapter only "state agency" shall also mean (a) any local or regional air pollution control authority established under chapter 70.94 RCW and (b) any local government when said government is acting in its capacity as a decision maker.
on an application for a permit pursuant to RCW 90.58-140. [1977 c 54 § 2; 1973 1st ex.s. c 185 § 2.]

### 90.62.040 Master application for proposed project—Contents—Notice to state agencies—Agency permit forms sent applicant—Return of forms to department with local government certification

(1) Any person proposing a project may submit a master application to the department requesting the issuance of all permits necessary prior to the construction and operation of the project in the state of Washington. The master application shall be on a form furnished by the department and shall contain precise information as to the location of the project, and shall describe the nature of the project including any discharges of wastes proposed therefrom and any uses of, or interferences with, natural resources contemplated.

(2) Upon receipt of a properly completed master application, the department shall immediately notify in writing each state agency having a possible interest in the master application arising from requirements pertaining to a permit program under its jurisdiction. The notification from the department shall be accompanied by a copy of the master application together with the date by which the agency shall respond to the notice. Each notified agency shall respond in writing to the department within the specified date, not exceeding fifteen days from receipt, as determined by the department, advising (a)(i) whether the agency does or does not have an interest in the master application, and (a)(ii) if the response to (a)(i) of this subsection is affirmative, the permit program or programs under the agency's jurisdiction to which the project described in the master application is pertinent, and whether, in relation to the master application, a public hearing as provided in RCW 90.62.050 and 90.62.060 would or would not be of value taking into consideration the overall public interest. Each notified state agency which (b)(i) responds within the specified date that it does not have an interest in the master application or (b)(ii) does not respond as required above within the specified date, shall not subsequently require a permit of the applicant for the project described in the master application; provided the bar to requiring a permit subsequently shall not be applicable if the master application provided the notified agency contained false, misleading, or deceptive information, or other information, or lack thereof, which would reasonably lead an agency to misjudge its interest in a master application.

(3) The department shall send application forms relating to permit programs identified in affirmative responses under subsection (2) of this section to the applicant within five working days of the date specified by the department pursuant to subsection (2) of this section with a direction to complete and return them to the department within a reasonable time as specified by the department.

(4) When such applications, properly completed, have been returned to the department, each of the applications shall be transmitted to the appropriate state agency for the performance of its responsibilities of decision making in accordance with the procedures of this chapter. No such completed applications shall be accepted by the department for transmittal unless they are accompanied by (a) the certification of local government provided for in RCW 90.62.100 as now or hereafter amended, or (b) a statement of the local government indicating that such certification would require rezoning, the granting of a variance or issuance of a conditional use permit and the local government has chosen to utilize the procedures provided by this chapter to process the request for the rezoning or variance or the application for the conditional use permit as provided by RCW 90.62.100(2) as now or hereafter amended.

(5) For the purpose of establishing priority dates upon water right permits and certificates issued pursuant to rulings on applications under chapters 90.03 and 90.44 RCW and processed under this chapter, the priority date shall be the date of submitting the master application to the department or the county office as provided in RCW 90.62.120(2). [1977 c 54 § 3; 1973 1st ex.s. c 185 § 4.]

### 90.62.050 Notice of proposed project—Publication—Contents—Public hearing

(1) The department, within a reasonable time after transmittal under RCW 90.62.040(4), shall cause a notice to be published at the applicant's expense once each week on the same day of the week for two consecutive weeks in a newspaper of general circulation within each county in which the project is proposed to be constructed or operated. The notice shall describe the nature of the master application including, with reasonable specificity, the project proposed, its location, the various permits applied for, and the agency having jurisdiction over each such permit. Except as provided in RCW 90.62.050(2), the notice shall also state the time and place of the public hearing (to be held not less than fifteen days after the date of last publication of the notice). It shall further state that a copy of the master application and a copy of all permit applications for the project are available for public inspection in the office for environmental permit applications of each county in which the project is proposed to be constructed or operated, as well as at the Olympia office and appropriate regional office of the department, together with such other locations as the department may designate.

(2) If the responses received by the department from state agencies under RCW 90.62.040(2) unanimously state the position that a public hearing in relation to a master application would not be of value taking into consideration the overall public interest, and the department, after a careful evaluation, taking into consideration all interests involved, including the opportunities for members of the public to present views, concludes likewise, the provisions of subsection (1) of this section pertaining to the time and place of a public hearing shall not be included in the notice. In place thereof the notice shall state that members of the public may present relevant views and supporting materials in writing to the department in relation to any of the permits applied for within twenty days after the last date of publication of the notice in a newspaper. [1977 c 54 § 4; 1973 1st ex.s. c 185 § 5.]
90.62.060  Public hearing—Procedure—Agency participation—Final decisions. (1) Except as provided in RCW 90.62.050(2), prior to any final decision on any permit applications relating to a project subject to the procedures of this chapter, a public hearing shall be held in the county in which all or a major part of the proposed project is to be constructed or operated, such hearing to be held pursuant to notice made under RCW 90.62.050(1). At any such hearing the applicant may submit any relevant information and material in support of his applications, and members of the public may present relevant views and supporting materials in relation to any or all of the applications being considered.

(2)  Each agency having an application for a permit before it as described in the notice in RCW 90.62.050(1) shall be represented at the public hearing by its chief administrative officer or his designee. The director of the department, or a hearing officer duly appointed by him, shall chair the hearing; however, the representative of any agency (other than the department) within whose jurisdiction a specific application lies shall conduct the portion of the hearing pertaining to submission of information, views, and supporting materials which are relevant to that application. The chairman may, when appropriate, continue a hearing from time to time and place to place. The hearing shall be recorded in any manner suitable for transcription as determined by the department.

(3)  No provisions of chapter 34.04 RCW shall apply to the hearing provided for by this section. Said hearing shall be conducted for the purpose of obtaining information for the assistance of the agencies but shall not be considered a trial or adversary proceeding.

(4)  Upon completion of the public hearing the chairman, after consultation with the agency representatives, shall establish the date by which all agencies shall forward their final decisions on applications before them to the department: Provided, That this date may be extended by the chairman for reasonable cause. Every final decision shall set forth the basis for the conclusion reached together with a final order denying the application for a permit or granting it, subject to such conditions of approval as the deciding agency may have power to impose.

(5)  In situations where a notice is provided pursuant to RCW 90.62.050(2) and no public hearing is conducted, the department shall, after twenty days after the last notice publication in the newspaper, submit a copy of all views and supporting material received by it to each agency having an application for a permit before it as described in the notice. Concurrently therewith, the department shall notify each agency, in writing, of the date by which final decisions on applications shall be forwarded to the department: Provided, That this date may be extended by the department for reasonable cause. Each such final decision shall consist of the same contents as provided for final decisions in RCW 90.62.060(4).

(6)  As soon as all final decisions are received by the department from the various participating agencies, as provided in RCW 90.62.060(4) and (5), the department shall incorporate them, without modification, into one document and transmit the same to the applicant either personally or by registered mail.

(7)  Each agency having jurisdiction to approve or deny an application for a permit shall have continuing power as vested in it prior to enactment of this chapter to make such determinations. Nothing in RCW 90.62.030 through 90.62.060 shall lessen or reduce such powers, and such sections shall modify only the procedures to be followed in the carrying out of such powers.

(8)  An agency may in the performance of its responsibilities of decision making under this chapter, request or receive additional information from an applicant and others prior or subsequent to a public hearing as necessary to the performance thereof. [1977 c 54 § 5; 1973 1st ex.s. c 185 § 6.]

90.62.080  Board review of agency final decision, procedure—Appeal of local government decision—Judicial review. (1)  Any person aggrieved by any final decision of a state agency, as defined in RCW 90.62.020(8) as now or hereafter amended, contained in the document issued by the department pursuant to RCW 90.62.060(6) may obtain review thereof by filing a request, with the board, within thirty days of the transmittal under RCW 90.62.060(6) by the department of ecology of the document, for all final decisions other than a final decision relating to the granting or denial of a substantial development permit pursuant to RCW 90.58.140 in which case the filing of such request shall be with the shorelines hearings board. The board shall review all final decisions other than a final decision on a substantial development permit which shall be reviewed by the shorelines hearings board. In the event a request for review includes a final decision involving a substantial development permit and other permits, there shall be single staged hearing of the permits by the boards. The board shall be authorized to adopt rules and regulations implementing such staged hearings and the filing of requests so as to eliminate all unnecessary duplication.

(2)  Any hearing held pursuant to this section by the pollution control hearings board or the shorelines hearings board or by the boards jointly shall be a de novo quasi judicial hearing and shall be conducted pursuant to the procedures provided in chapter 34.04 RCW.

(3)  The board or boards shall make written findings of fact based upon a preponderance of the evidence and shall prepare written conclusions of law and an order, which order may affirm with or without condition, remand for further proceedings, or reverse the appealed decision in accordance with the findings and conclusions.

(4)  Judicial review of decisions of the boards shall be controlled by RCW 43.21B.180 through 43.21B.200 except as they relate to decisions pertaining to substantial development permits under RCW 90.58.140 which shall be controlled by RCW 90.58.180.

(5)  (a)  Any person aggrieved by and desiring to appeal any final decision of a local government contained in the document issued by the department pursuant to RCW 90.62.060(6) as now or hereafter amended shall obtain review thereof in the same manner as would...
apply had the local government not utilized the procedures provided by this chapter.

(b) The provisions of subsection (5) (a) of this section shall not apply to a decision concerning any permit required by a "state agency" as that term is defined in RCW 90.62.020(8) as now or hereafter amended. [1977 c 54 § 6; 1973 1st exs. c 185 § 8.]

90.62.090 Application, scope, construction of chapter—Continuation of fee schedules—Collection. (1) Notwithstanding any other statutes relating to the processing of an application for permits, the procedures, including timing requirements and approval requirements related thereto, set forth in this chapter shall be exclusive in relation to applications for permits filed pursuant to RCW 90.62.040. The procedures of this chapter shall be in lieu of any procedures otherwise provided by statute, existing or hereafter enacted, to be followed by an agency in ruling upon an application for a permit for a project under this chapter.

(2) The procedures of this chapter are applicable only to projects as defined in RCW 90.62.020(7) and only through the completion of final decisions under RCW 90.62.060 and of review proceedings of RCW 90.62.080 and any ancillary proceedings. This chapter shall have no applicability to any applications for permit renewals, amendments, extensions, or other similar documents, or for replacing permits which are required subsequent to the completion of the decisions and proceedings under RCW 90.62.060 and 90.62.080 and any ancillary proceedings. For purposes of this section "ancillary proceedings" shall mean all proceedings, quasi judicial and judicial, held pursuant to any order of remand or similar order by the board or a court in relation to a final decision of an agency made hereunder and held in response to the order of remand or similar order.

(3) Fee schedules previously and expressly established or authorized by statute in relation to any application for a permit shall continue to be applicable even though processed under this chapter. The department shall collect such fees and forward them to the appropriate agency. [1977 c 54 § 7; 1973 1st exs. c 185 § 9.]

90.62.100 Compliance with local zoning ordinances and plans—Scope—Certification—Other laws not affected. (1) No completed applications returned to the department of ecology pursuant to RCW 90.62.040(3) as now or as hereafter amended shall be accepted by the department for transmittal pursuant to RCW 90.62.040 as now or hereafter amended unless they are accompanied by a certification from the pertinent local government that the project is in compliance with all zoning ordinances, and associated comprehensive plans, administered by said local government relating to the location of the project or are accompanied by the statement described in RCW 90.62.040(4)(b) as now or hereafter amended: Provided, That if the local government has no such ordinances or plans the certification from local government shall so state and issue. For purposes of this section master programs of chapter 90.58 RCW are not zoning ordinances administered by local government. Local governments are authorized to accept applications for certifications as provided in this section and are directed to rule upon the same expeditiously to insure the purposes of this chapter are accomplished fully. Upon certification, the local government may not change such zoning ordinances so as to affect the proposed project until the procedures of this chapter, including any board or court reviews, are completed. The provisions of the state environmental policy act relating to the preparation of detailed impact statements shall not be applicable to the action approving or denying certifications authorized in this section.

(2) (a) Upon receiving an application for certification for a project pursuant to subsection (1) of this section, the local government may, at its discretion, choose to process, pursuant to the procedures provided by this chapter, requests for variances or rezones or applications for conditional use permits or any other permits or any combination thereof that may be required by the local government for the project described on a master application. The procedures established by this chapter shall satisfy the procedural requirements for any requests or applications so processed.

(b) The provisions of subsection (2)(a) of this section shall not apply to any permit required by a "state agency" as that term is defined in RCW 90.62.020(8) as now or hereafter amended.

(3) Nothing in this chapter shall modify in any manner whatsoever the applicability or inapplicability of any land use regulation statutes or local zoning ordinances to lands of any state agency.

(4) Approval of an application for certification as provided in this section shall not eliminate any requirements of the Shoreline Management Act of 1971 or any other statutes administered by a local government. A ruling by local government denying an application for certification shall not be appealable under this chapter. Provided, That the denial of an application for certification pursuant to subsection (1) of this section shall not preclude the applicant from filing a permit application under any other available statute or procedure. [1977 c 54 § 8; 1973 1st exs. c 185 § 10.]

90.62.130 Modifications to master application—Authorized—Rules to set forth guidelines, limitations. It is anticipated that in processing permits as provided by this chapter the participating agencies may identify modifications to the project described in a master application, and subsequently completed individual applications submitted pursuant to RCW 90.62.040 as now or hereafter amended, which modifications would be necessary to satisfy the permit requirements of all of the participating agencies. The department of ecology shall, by rules and regulations adopted pursuant to chapter 34.04 RCW, establish guidelines for determining the extent to which such modifications can be approved under the original application without the applicant's having to resubmit a master application. Such guidelines shall require, among other provisions, that an applicant resubmit a master application if the modifications proposed by the participating agencies to the applicant's proposed project would have required one or more of the participating agencies to require the applicant to submit
a new application reflecting such modifications if the application for the permit had not been submitted under this chapter. [1977 c 54 § 9.]

90.62.908 Severability—1977 c 54. If any provision of this 1977 amendatory act, or its application to any person or circumstance is held invalid, the remainder of the act, or the application of the provision to other persons or circumstances is not affected. [1977 c 54 § 10.]

Chapter 90.66
FAMILY FARM WATER ACT

90.66.010 Short title. This chapter shall be known and may be cited as the "Family Farm Water Act". [Initiative Measure No. 59 § 1 (Approved November 8, 1977).]

90.66.020 Prior existing rights to withdraw and use public waters not affected. Nothing in this chapter shall affect any right to withdraw and use public waters if such rights were in effect prior to *the effective date of the act, and nothing herein shall modify the priority of any such existing right. [Initiative Measure No. 59 § 2 (Approved November 8, 1977).]

*Reviser's note: "the effective date of the act", see note following RCW 90.66.020.

90.66.030 Public policy enunciated—Maximum benefit from use of public waters—Irrigation. The people of the state of Washington recognize that it is in the public interest to conserve and use wisely the public surface and ground waters of the state in a manner that will assure the maximum benefit to the greatest possible number of its citizens. The maximum benefit to the greatest number of citizens through the use of water for the irrigation of agricultural lands will result from providing for the use of such water on family farms. To assure that future permits issued for the use of public waters for irrigation of agricultural lands will be made on the basis of deriving such maximum benefits, in addition to any other requirements in the law, all permits for the withdrawal of public waters for the purpose of irrigating agricultural lands after *the effective date of this act shall be issued in accord with the provisions of this chapter. [Initiative Measure No. 59 § 3 (Approved November 8, 1977).]

*Reviser's note: "the effective date of this act", see note following RCW 90.66.020.

90.66.040 Definitions. For the purposes of this chapter, the following definitions shall be applicable:

1) "Family farm" means a geographic area including not more than two thousand acres of irrigated agricultural lands, whether contiguous or noncontiguous, the controlling interest in which is held by a person having a controlling interest in no more than two thousand acres of irrigated agricultural lands in the state of Washington which are irrigated under rights acquired after *the effective date of this act.

2) "Person" means any individual, corporation, partnership, limited partnership, organization, or other entity whatsoever, whether public or private. The term "person" shall include as one person all corporate or partnership entities with a common ownership of more than one-half of the assets of each of any number of such entities.

3) "Controlling interest" means a property interest that can be transferred to another person, the percentage interest so transferred being sufficient to effect a change in control of the landlord's rights and benefits. Ownership of property held in trust shall not be deemed a controlling interest where no part of the trust has been established through expenditure or assignment of assets of the beneficiary of the trust and where the rights of the family farm permit which is a part of the trust cannot be transferred to another by the beneficiary of the trust under terms of the trust. Each trust of a separate donor origin shall be treated as a separate entity and the administration of property under trust shall not represent a controlling interest on the part of the trust officer.

4) "Department" means the department of ecology of the state of Washington.

5) "Application", "permit" and "public waters" shall have the meanings attributed to these terms in chapters 90.03 and 90.44 RCW.

6) "Public water entity" means any public or governmental entity with authority to administer and operate a system to supply water for irrigation of agricultural lands. [Initiative Measure No. 59 § 4 (Approved November 8, 1977).]

*Reviser's note: "the effective date of this act", see note following RCW 90.66.020.

90.66.050 Classes of permits for withdrawal of public waters for irrigation purposes—Conditions—Requirements. After *the effective date of this act, all permits for the withdrawal of public waters for the purpose of irrigating agricultural lands shall be classified as follows and issued with the conditions set forth in this chapter:

*[1977 RCW Supp—page 825]
Title 90: Water Rights—Environment

90.66.050  Title 90: Water Rights—Environment

(1) "Family farm permits". Such permits shall limit the use of water withdrawn for irrigation of agricultural lands to land qualifying as a family farm.

(2) "Family farm development permits". Such permits may be issued to persons without any limit on the number of acres to be irrigated during a specified period of time permitted for the development of such land into family farms and the transfer of the controlling interest of such irrigated lands to persons qualifying for family farm permits. The initial period of time allowed for development and transfer of such lands to family farm status shall not exceed ten years. Such time limit may be extended by the department for not to exceed an additional ten years upon a showing to the department that an additional period of time is needed for orderly development and transfer of controlling interests to persons who can qualify for family farm permits.

(3) "Publicly owned land permits". Such permits shall be issued only to governmental entities permitting the irrigation of publicly owned lands.

(4) "Public water entity permits". Such permits may be issued to public water entities under provisions requiring such public water entity, with respect to delivery of water for use in the irrigation of agricultural lands, to make water deliveries under the same provisions as would apply if separate permits were issued for persons eligible for family farm permits, permits to develop family farms, or for the irrigation of publicly owned land: Provided, however, That such provisions shall not apply with respect to water deliveries on federally authorized reclamation projects if such federally authorized projects provide for acreage limitations in water delivery contracts. [Initiative Measure No. 59 § 5 (Approved November 8, 1977)].

*Reviser's note: *The effective date of this act*, see note following RCW 90.66.020.

90.66.060  Withdrawal of water under family farm permit—Conditioned upon complying with definition of family farm—Suspension of permit, procedures, time.

(1) The right to withdraw water for use for the irrigation of agricultural lands under authority of a family farm permit shall have no time limit but shall be conditioned upon the land being irrigated complying with the definition of a family farm as defined at the time the permit is issued: Provided, however, That if the acquisition by any person of land and water rights by gift, devise, bequest, or by way of bona fide satisfaction of a debt, would otherwise cause land being irrigated pursuant to a family farm permit to lose its status as a family farm, such acquisition shall be deemed to have no effect upon the status of family farm water permits pertaining to land held or acquired by the person acquiring such land and water rights if all lands held or acquired are again in compliance with the definition of a family farm within five years from the date of such acquisition.

(2) If the department determines that water is being withdrawn under a family farm permit for use on land not in conformity with the definition of a family farm, the department shall notify the holder of such family farm permit by personal service of such fact and the permit shall be suspended two years from the date of receipt of notice unless the person having a controlling interest in said land satisfies the department that such land is again in conformity with the definition of a family farm. The department may, upon a showing of good cause and reasonable effort to attain compliance on the part of the person having the controlling interest in such land, extend the two year period prior to suspension. If conformity is not achieved prior to five years from the date of notice the rights of withdrawal shall be canceled. [Initiative Measure No. 59 § 6 (Approved November 8, 1977)].

90.66.070  Transfer of property entitled to water under permit—Rights—Requirements.

(1) At any time that the holder of a family farm development permit or a publicly owned land permit shall transfer the controlling interest of all or any portion of the land entitled to water under such permit to a person who can qualify to receive water for irrigation of such land under a family farm permit, the department shall, upon request, issue a family farm permit to such person under the same conditions as would have been applicable if such request had been made at the time of the granting of the original family farm development permit. If the permit under which water is available is held by a public water entity prior to the transfer of the controlling interest to a person who qualifies for a family farm permit, such entity shall continue delivery of water to such land without any restriction on the length of time of delivery not applicable generally to all its water customers.

(2) The issuance of a family farm permit secured through the acquisition of land and water rights from the holder of a family farm development permit, or from the holder of a publicly owned land permit, where water delivery prior to the transfer is from a public water entity, may be conditioned upon the holder of the family farm permit issued continuing to receive water through the facilities of the public water entity. [Initiative Measure No. 59 § 7 (Approved November 8, 1977)].

90.66.080  Rules and regulations—Decisions, review. The department is hereby empowered to promulgate such rules as may be necessary to carry out the provisions of this chapter. Decisions of the department, other than rule making, shall be subject to review in accordance with chapter 43.21B RCW. [Initiative Measure No. 59 § 8 (Approved November 8, 1977)].

Pollution control hearings board of the state: Chapter 43.21B RCW.

90.66.900  Liberal construction—Initiative Measure No. 59. This chapter is exempted from the rule of strict construction and it shall be liberally construed to give full effect to the objectives and purposes for which it was enacted. [Initiative Measure No. 59 § 9 (Approved November 8, 1977)].

90.66.910  Severability—Initiative Measure No. 59. If any provision of this act, or its application to any person, organization, or circumstance is held invalid or unconstitutional, the remainder of the act, or the application of the provision to other persons, organizations, or
circumstances is not affected. [Initiative Measure No. 59 § 10 (Approved November 8, 1977).]
