All mining claims upon veins or lodes of quartz or other rock in place, bearing gold, silver or other valuable mineral deposits heretofore located, shall be governed as to length along the vein or lode by the customs, regulations and laws in force at the date of such location. [1887 c 87 § 1; RRS § 8615.]

For earlier acts on this subject, see: 1867 pp 146-147, 1869 pp 386-388, 1873 pp 444-446, 1875 pp 126-127, 1877 pp 335-336, 1887 c 87; see also, act of congress, May 10, 1872.

78.08.020 Extent of lode claims. A mining claim located upon any vein or lode of quartz or other rock in place, bearing gold, silver or other valuable mineral deposits, after the approval of *this act* by the governor, whether located by one or more persons, may equal, but shall not exceed, one thousand five hundred feet in length along the vein or lode; but no location of a mining claim shall be made until the discovery of the vein or lode within the limits of the claims located. No claims shall extend more than three hundred feet on each side of the middle of the vein at the surface, nor shall any claims be limited by any mining regulation to less than fifty feet of surface on each side of the middle of such vein or lode at the surface, excepting where adverse rights, existing at the date of the approval of this act, shall make such limitation necessary. The end lines of each claim shall be parallel to each other. [1887 c 87 § 2; RRS § 8616.]

*Reviser’s note: "this act" [1887 c 87], is codified in RCW 78.08.005 through 78.08.040; "date of the approval of this act" was February 2, 1888.

78.08.030 Rights of locators. The locators of all mining locations heretofore made or hereafter made under the provisions of RCW 78.08.005 through 78.08.040, on any mineral vein, lode or ledge, on the public domain, and their heirs and assigns so long as they comply with the laws of the United States and the state and local laws relating thereto, shall have the exclusive right to the possession and enjoyment of all surface included within the lines of their location, and of all veins, lodes and ledges throughout their entire depth, and the top or apex of which lies within the surface lines of such location, extending downward vertically, although such veins, lodes or ledges may so far depart from the perpendicular in their course downward as to extend outside of the vertical side line of said surface location. [1887 c 87 § 3; RRS § 8617.]

78.08.040 Recording instruments affecting claim. All location notices, bonds, assignments and transfers of mining claims shall be recorded in the office of the county auditor of the county where the same is situated within thirty days after the execution thereof. If any such claim be located on ground that is covered wholly or in part with brush or trees, such brush shall be cut and trees be marked or blazed along the lines of such claim to indicate the location of such lines.

[Title 78 RCW (1979 Ed.)—p 3]
(2) Prior to valid discovery the actual possession and right of possession of one diligently engaged in the search for minerals shall be exclusive as regards prospecting during continuance of such possession and diligent search. As used in this section, "diligently engaged" shall mean performing not less than one hundred dollars worth of annual assessment work on or for the benefit of the claim in such year or years it is required under federal law, or any larger amount that may be designated now or later by the federal government for annual assessment work. If at any time the locator of any quartz or lode mining claim heretofore or hereafter located, or his assigns, shall learn that his original certificate was defective or that the requirements of the law had not been complied with before filing, or shall be desirous of changing his surface boundaries or of taking in any additional ground which is subject to location, or in any case the original certificate was made prior to the *passage of this law, and he shall be desirous of securing the benefits of RCW 78.08.050 through **78.08.140, such locator or his assigns may file an amended certificate of location, subject to the provisions of RCW 78.08.050 through **78.08.140, regarding the making of new locations. [1899 c 45 § 5; RRS § 8626.]

Reviser's note: *(1) "passage of this law": 1899 c 45 (H.B. 272) passed the house, February 27, 1899; passed the senate, March 7, 1899, and was approved by the governor March 8, 1899.

Third. Within sixty days from the date of discovery, the discoverer shall perform labor upon such location or claim in developing the same to an amount which shall be equivalent in the aggregate to at least ten dollars worth of such labor for each twenty acres, or fractional part thereof, contained in such location or claim: Provided, however, That nothing in this subdivision shall be held to apply to lands located under the laws of the United States as placer claims for the purpose of the development of petroleum and natural gas and other natural oil products.

decline to lease said claims or properties as provided in
RCW 78.16.010, they shall enter an order to that effect
upon their records and shall fix the duration and terms and conditions of said lease, and in case an option to purchase is given shall fix the purchase price, which shall not be less than the total amount of the taxes, interest and penalties due at the time the property was acquired by the county, and may provide that any royalties paid shall apply and be credited on the purchase price, and said lease or lease and option shall be signed and executed on behalf of said county by said commissioners, or a majority of them. [1907 c 38 § 2; Rem. Supp. 1945 § 11313.]

Upon payment of the full purchase price, in cases where an option to purchase is given, a conveyance shall be executed to the purchaser by the chairman of the board of county commissioners. Such conveyance shall refer to the order of the board authorizing such leasing with the option to purchase, and shall be deemed to convey all the estate, right, title and interest of the county in and to the property sold; and such conveyance, when executed, shall be conclusive evidence of the regularity and validity of all proceedings hereunder. [1907 c 38 § 3; RRS § 11314.]

78.16.040 Option to surrender lands. The lessee under any such petroleum lease shall have the option of surrendering any of the lands included in said lease at any time, and shall thereby be relieved of all liability with respect to such lands except the payment of accrued royalties as provided in said lease. Upon such surrender, the lessee shall have the right for a period of one hundred twenty days following the date of such surrender, to remove all improvements placed by him on the lands which have been surrendered. [1945 c 93 § 2; Rem. Supp. 1945 § 11314–1.]

78.16.050 Disposition of royalties and rentals. Any royalties or rentals received by the said county under any lease entered into under the provisions of this chapter, shall be divided among the various taxing districts entitled thereto, in the same proportion and manner as the purchase money for said lands would have been divided in the event the said properties had been sold. [1945 c 93 § 3; Rem. Supp. 1945 § 11314–2.]

78.16.060 Surface rights. Nothing in this chapter contained shall be construed as giving the county commissioners the right to lease the surface rights of tax-acquired property, except that the lease of any property as in this chapter provided shall give the lessee the right to use such portions of the surface on said land as may be necessary or desirable to it in its business. [1945 c 93 § 4; Rem. Supp. 1945 § 11314–3.]

78.16.070 Damages to owner. In the event said lease shall be for reserved mineral rights on lands previously sold by said county with mineral rights reserved, as provided in chapter 19, Laws of 1943 [RCW 36.34.010], said lease shall contain a provision that no rights shall be exercised under said lease by the lessee, his heirs, executors, administrators, successors or assigns, until provision has been made by the lessee, his heirs, executors, administrators, successors or assigns to pay to the owner of the land upon which the rights reserved to the county are sought to be exercised [exercised], full payment for all damages to said owner by reason of entering upon said land; said rights to be determined as provided for in said chapter 19, Laws of Washington, 1943 [RCW 36.34.010]: Provided, however, That in the event of litigation to determine such damage, the primary term of such lease shall be extended for a period equal to the time required for such litigation, but not to exceed three years. 78.40.262 Resurveys and maps—Expense. The mine inspector may order a survey to be made of the workings of any mine, in addition to the regular annual survey, the results to be extended on the maps of the same and copies thereof, whenever the safety of the workmen, unlawful injury to the surface, unlawful encroachment on adjoining property, or the safety of an adjoining mine requires it.

If the inspector shall believe any map required by this chapter is materially inaccurate or imperfect, he is authorized to make or cause to be made a correct survey and map at the expense of the operating company, the cost recoverable as for debt: Provided, If such test survey shows the operator's map to be practically correct, the state shall be liable for the expense incurred, payable in such manner as other state accounts incurred by the mine inspector. ARTICLE VII HOISTS AND HOISTING

78.40.270 Signaling apparatus required. The owner, operator or agent of every coal mine operated by shaft or slope, shall provide efficient means of signaling between the top and bottom thereof and each intermediate working level, by an electric bell or other equally satisfactory signaling device, and also a uniform code of signals for use therewith.

The operator or the superintendent shall provide, and hereafter maintain in good condition from the top to the bottom of every shaft or slope, and at each alternate intermediate working level from or to which persons or materials are lowered or hoisted, a telephone or metal tube of proper diameter, suitably adjusted to the free passage of sound, through which conversation may be held and understood between persons at the top and bottom of said shaft or slope. [1917 c 36 § 61; RRS § 8696. Prior: 1907 c 105 § 2, part; 1891 c 81 § 16, part; 1887 c 21 § 6, part; 1885 p 132 § 24, part. Formerly RCW 78.36.800.]

78.40.273 Hoisting apparatus—Requirements. For the purpose of hoisting or lowering men in any shaft or slope the owner, operator or agent thereof shall provide:

1. A type of hoisting apparatus of sufficient strength to hold twice the maximum weight of the cage or cars loaded with men at any point on the shaft or slope. Each hoisting apparatus to be equipped with a brake or brakes on each drum of sufficient power to fully control the speed of the cage or cages or cars in such shaft or slope.

2. An efficient indicator that will show at all times the true position of the cage or cages or cars attached to each hoist.

3. An efficient device for the prevention of overwinding shall be attached to every hoisting apparatus hereafter put in service for hoisting or lowering persons in a shaft.

4. A cage with a floor free from all obstructions must be provided for all shafts. Such cage shall be solidly constructed of heavy timber or iron beams for the frame, sufficient to withstand severe shocks under strains, and shall be covered with a substantially supported bonnet of boiler iron to protect persons riding in the cage from anything falling down the shaft. Each cage must be equipped with efficient safety catches to prevent the cage from falling down the shaft in the event of the rope breaking. All rope links or chains attached to cars or cages must be of ample strength with a factor of safety of not less than five to one on the maximum load.

5. On all regular man trips being hoisted on slopes of twenty degrees or more, each car shall be attached to the car ahead by two or more separate connections, each one of which must be of ample strength to hold any load placed upon it by the breaking of the other. And the first car shall be secured to the socket by an extra cable or chain securely attached to the car: Provided, That any other approved safety device may be used in lieu of those herein above in this paragraph (5) mentioned. On all slopes of less than twenty degrees a safety rope shall extend from the main rope to the last car, or other approved safety device that will answer the same purpose.

6. At all shafts, when hoisting men or material, there must be provided a competent person at the top and bottom to have control of the admission of cars, material or persons, to the cage operating in such shaft.

7. Safety gates must be provided at the top and at any intermediate landing of a shaft, or of a slope inclined over sixty degrees from the horizontal, such gates to be so constructed that when closed access to the shaft or slope will be entirely cut off; and such gates to be kept closed at all times when the rope rider or other person in charge of such landing is not present.

8. At distances not to exceed sixty feet on inclined planes or slopes where men are employed during operations suitable holes for refuge must be provided, these to be cut into the strata not less than two and one-half feet deep and four feet wide and five feet high and level with the road. Such holes to be located at points easy of access and to be kept whitewashed. [1917 c 36 § 62; RRS § 8697. Prior: 1907 c 105 § 2, part; 1891 c 81 § 16, part; 1887 c 21 § 6, part. 78.40.276 Strength and inspection of safety devices. All ropes, chains, safety catches, etc., as enumerated above, must be of ample strength to support a strain equivalent to five times the maximum load, and must be kept in safe condition; and, furthermore, they must be inspected at least once in twenty-four hours by a competent person appointed by the superintendent for that purpose, and a record of such examinations, reporting all defects that may have been found, must be written in ink in a book kept for that purpose at the mine office. Any
defects must be corrected immediately and no persons shall be lowered into or hoisted from the mine by defective apparatus; and, furthermore, all coupling links, pins and chains used on main haulage in hoisting or lowering men on a slope shall be annealed once in every three months. Pins and couplings on all other cars must be annealed once a year. [1917 c 36 § 63; RRS § 8698. Prior: 1909 c 117 § 3, part; 1891 c 81 § 4, part. Formerly RCW 78.36.830.]

78.40.279 Testing safety catches. The following tests of safety catches on cages shall be made once every six months: The cage shall be secured by passing a heavy hemp rope through the bridie chain ring or link and fastening both ends of the ropes to guides or to diagonally opposite posis of head frame, drawing the rope taut. A blocking to be passed below the cage to support same before hoisting rope is taut. The hoisting engineer shall then slack away until the cage is suspended on the hemp rope with at least four feet of the slack hoisting rope on top of it. Everything being in readiness the hemp rope shall be suddenly cut. If the safety catches stop the cage before it rests upon the blocking, the apparatus shall be considered efficient. [1917 c 36 § 64; RRS § 8699. Formerly RCW 78.36.840.]

78.40.281 Allowable proximity of structures to ventilating fan or main airway. No building or structure shall be erected within seventy-five feet of any main ventilating fan or main entrance to or exit from main airway slope or drift, except the tipple building and trolley thereto, unless same shall be built of fireproof material, and no fires shall be allowed in or about said tipple or trolley, except it be in a fire box of a boiler: Provided, That this section shall not apply to any shaft or slope heretofore sunk, or to any building heretofore erected, or to prospecting or development work otherwise regulated by this chapter. Whenever by reason of any explosion or any other accident in or about any coal mine, whereby loss of life or serious injury has occurred, or is thought to have occurred, it shall be the duty of the person having charge of the mine to give notice thereof to the mine inspector by telephone or telegraph, and if any person is killed thereby, to the coroner of the county, who shall give due notice to the mine inspector if an inquest is to be held. In case of any major or fatal accident, the resident district officers of the miners' organization shall be notified by telephone or telegraph at the same time the mine inspector is notified, and shall have the privilege of appearing at all investigations held to determine the cause of such accident, and to recommend safety measures for the prevention of accidents. If the coroner shall determine to hold an inquest, the mine inspector shall be allowed to testify and offer such testimony as he shall deem necessary to thoroughly inform the said inquest of the cause of death, and the said inspector shall have authority at any time to appear before such coroner and jury and question or cross-question any witness, and in choosing a jury for the purpose of holding such inquest it shall have the right to be heard on the said inquest of the cause of death, and the said inspector shall have authority at any time to appear before such coroner and jury and question or cross-question any witness, and in choosing a jury for the purpose of holding such inquest it shall have the right to be heard on the said inquest.
shall be the duty of the coroner to impanel a jury, no one of whom shall be directly or indirectly interested. It shall be the duty of the mine inspector upon being notified as herein provided, to immediately repair to the scene of the accident and make such suggestions as may appear necessary to secure the safety of the men, and if the results of the explosion or accident do not require an investigation by the coroner, he shall proceed to investigate and ascertain the cause of the explosion or accident, and make a record thereof, which he shall file as provided for, and to enable him to make the investigation he shall have the power to compel the attendance of persons to testify, and administer oaths or affirmations. The cost of such investigation shall be paid by the county in which the accident occurred, in the same manner as costs of inquests held by coroners or justices of the peace are paid, and copies of evidence taken at inquests shall be furnished the mine inspector. [1939 c 51 § 2; 1917 c 36 § 88; RRS § 8723. Prior: 1891 c 81 § 15; 1887 c 21 § 9. Formerly RCW 78.38.530.]

78.40.354 Certain steampipes to be insulated. No steampipes, through which high pressure steam is conveyed for the purpose of driving pumps or other machinery, shall be laid on traveling or haulage ways, unless they are encased in asbestos or some other suitable material, or so placed that the radiation of heat into the atmosphere of the mine will be prevented as far as possible. [1917 c 36 § 89; RRS § 8724. Formerly RCW 78.34.630.]

The use of steam locomotives shall be prohibited in any mines opened in the state after the passage of this chapter, or in mines already opened that are not now using the same. The use of mining locomotives, pumping engines, hoists, trucks, or any other form of machinery driven or propelled by internal combustion engines, in which power is generated by burning within the cylinder or cylinders, a mixture of air and gas, or air and alcohol, gasoline, fuel oil, oil distillate, or other liquid fuel, within any coal mine or mines, is hereby declared to be unlawful, and any person or persons, body corporate, agent, manager or employer who shall violate any of the provisions of this section shall be guilty of a misdemeanor. [1943 c 211 § 4; 1917 c 36 § 90; Rem. Supp. 1943 § 8725. Formerly RCW 78.34.640.]

78.40.360 Precautions against explosions of dust. In any mine or part of mine where, from the nature of the coal or method of handling the same, an undue quantity of dust is produced either on the roadways or in the working places, which may tend to cause danger of explosion, then all the haulage ways leading thereto and all the haulage roads and working places in such section of the mine, shall be thoroughly and effectively watered by some recognized and approved system of watering, or other treatment equivalent to watering. If, in the opinion of the inspector, an undue quantity of dust is produced and the method employed is not adequate or effective, he may notify the manager in writing and proceed as provided for in *section 9, article II of this act: Provided, however, That the provisions of this section shall not apply to any mine or separate split or panel of such mine if no explosives are permitted and safety lamps are used in such separate part of a mine, unless in the opinion of the inspector this exemption would be dangerous to the persons employed in such section or part of the mine. [1917 c 36 § 91; RRS § 8726. Formerly RCW 78.34.650.]

*Reviser's note: *section 9, article II of this act* (1917 c 36 § 9) is codified in RCW 43.22.210.

78.40.363 Stables in mines—Storage of hay or straw—Lining of pump rooms. It shall not be lawful to provide a horse or mule stable in any mine unless the same is excavated in solid rock, or built, or thoroughly lined with a fireproof material; and all openings to such stables shall be equipped with fireproof doors, free from all obstruction, which can be closed in case of fire. No hay or straw shall be taken into any mine unless pressed and made up into compact bales, which shall be kept in a storehouse built apart from the stable and in the same manner as the stable. Under no circumstances shall the hay or straw be stored in the stable. All permanent underground pump rooms must be thoroughly lined with fireproof material, unless the same are excavated in solid rock. [1917 c 36 § 92; RRS § 8727. Formerly RCW 78.34.660.]

78.40.366 Weight before screening when ton rate employment. It shall be unlawful for any mine owner, lessee or operator of coal mines in the state of Washington, employing miners at ton rates, to pass the output of coal mined by said miners over any screen or other device which will take any part from the value thereof before the same shall have been duly weighed and credited to the employee sending the same to the surface, and accounted for at the legal rate of weights as fixed by the laws of the state of Washington. [1917 c 36 § 93; RRS § 8728. Prior: 1891 c 161 § 1. Formerly RCW 78.32.040.]

78.40.369 Escape shafts, equipment—Signboards. All escapement shafts or slopes over thirty degrees pitch shall be equipped with stairways or ladders having landing places or platforms at reasonable distances apart or, in lieu thereof, such hoisting apparatus as will enable the employees in the mine to make safe and speedy exit in case of danger. At all points where the passageway to the escapement shaft and other places of exit is intersected by other roadways or entries, conspicuous signboards, subject to the approval of the mine inspector, shall be placed indicating the direction it is necessary to take in order to reach such place of exit. [1917 c 36 § 94; RRS § 8729. Prior: 1909 c 117 § 3; 1907 c 105 § 1, part; 1891 c 81 § 3; 1887 c 21 § 3, part. Formerly RCW 78.34.720.]
78.40.372 Width of barrier pillars—Penalty. The operator of every coal mine shall leave barrier pillars at least fifty feet in width along the line of the property he operates; failure to do so shall constitute a gross misdemeanor and he shall be subject to a fine of not less than five hundred dollars nor more than one thousand dollars, or imprisonment of not less than six months: Provided, however, That nothing herein shall be construed as forbidding owners or operators of adjacent properties from extracting all the coal after they have agreed that same might be done. [1917 c 36 § 95; RRS § 8730. Formerly RCW 78.34.670.]

78.40.375 Operator's reports, annual and monthly—Contents—Penalty. 78.40.378 Shelter holes on haulage roads. The operator shall provide that all mechanical haulage roads, driven after this chapter takes effect, where separate traveling ways are not maintained, where general clearance is less than two and one-half feet on one side shall be provided with shelter holes not more than sixty feet apart, giving clearance not less than three feet wide and four feet high along the road. They shall be kept whitewashed. [1917 c 36 § 96; Rem. Supp. 1943 § 8731. Formerly RCW 78.38.570 and 78.38.580.]

All sides of stairs, trestles and platforms around mines shall be provided with hand and guard railing to prevent persons from falling over the sides. [1917 c 36 § 98; RRS § 8733. Formerly RCW 78.34.690.]

**ARTICLE IX DUTIES OF OFFICIALS**

78.40.390 Superintendent to see laws are observed. The superintendent shall, at least once every week, read, examine carefully and countersign all reports entered in the mine record book by the mine foreman, and if he finds on such examination that the law is being violated in any particular, he shall order the mine foreman to stop such violation forthwith, and shall see that his order is complied with. [1917 c 36 § 99; RRS § 8734. Formerly RCW 78.32.400.]

78.40.393 Superintendent, duties as to other officials. The superintendent shall not obstruct the mine foreman or other officials in the fulfillment of any of their duties, as required by this chapter, but he shall direct that the mine foreman and all other employees under him comply
with the law in all its provisions. [1917 c 36 § 100; RRS § 8735. Formerly RCW 78.32.410.]

78.40.396 Superintendent or assistant to visit working places. It shall be the duty of every mine superintendent to visit, or to have his assistant superintendent visit every working place in every mine under his charge once every sixty days: Provided, That the mine foreman shall not be considered as the assistant to the superintendent for this purpose. [1917 c 36 § 101; RRS § 8736. Formerly RCW 78.32.420.]

78.40.399 Operator’s duties—Posting rules and notices. The operator shall keep on hand at the mine a supply of the printed rules and notices and record books required by this chapter. He shall see that the rules and notices are posted in conspicuous places at or near the entrance to the mine and kept in such condition that they will always be legible. [1917 c 36 § 102; RRS § 8737. Prior: 1891 c 81 § 20. Formerly RCW 78.38.500.]

78.40.402 Foreman—Duties as to interior of mines. The mine foreman shall keep a careful watch over the ventilating apparatus, the ventilation, airways, traveling ways, timbering and drainage, and shall see that all stoppings along the airways are properly built. He shall also see that the proper crosscuts or breakthroughs are made in the pillars of all chutes, breasts, rooms, gangways, entries and levels, in accordance with this chapter, and that they are closed when necessary so that the ventilating current can be conducted in sufficient quantities through the last crosscut or breakthrough and to the working places by means of brattices or other devices, and all other duties pertaining to the safety of the men, as provided for in this chapter. [1917 c 36 § 103; RRS § 8738. Formerly RCW 78.32.480.]

78.40.405 Foreman—Duties as to men in mines. The mine foreman shall have charge of all inside workings and of the persons employed therein, in order that all of the provisions of this chapter as far as they relate to his duties concerning the safety of the mine and the persons employed therein be complied with, and the regulations prescribed for each class of workmen under his charge be carried out in the strictest manner possible. [1917 c 36 § 104; RRS § 8739. Formerly RCW 78.32.490.]

78.40.408 Foreman—Records. The mine foreman shall each day write and sign with ink in a book provided for that purpose, a report of the general condition of the mine, which report shall clearly state any unusual danger that may have come under his observation during the day, or any unusual danger reported to him by his assistants, or by the fire bosses. The report shall also state the manner in which the requirements of the law are not complied with.

He, or his assistant, shall also once each week enter plainly with ink in said book a true report of all air measurements required by this chapter, designating the place, the area of each breakthrough and entry separately, the velocity of the air in each breakthrough and entry, and the number of men employed in each separate split of air, with the date when measurements were taken. Said book shall at all times be kept in the main office of the mine for examination by the inspector and by any persons working in the mine. Such examinations made by others than inspectors shall be in the presence of the superintendent or mine foreman.

The mine foreman shall also each day read carefully and countersign in ink all reports entered in the fire bosses' book. [1917 c 36 § 105; RRS § 8740. Formerly RCW 78.32.500.]

78.40.411 Foreman—Duty to drill men on means of escape. In order that men may familiarize themselves with escapements to be used in case of accidents, it shall be the duty of the mine foreman to cause all miners and other underground employees to walk or climb to or from their working places to the surface by way of one of the traveling ways, escapements, or outlets, at least once every six months. [1917 c 36 § 106; RRS § 8741. Formerly RCW 78.32.530.]

78.40.414 Foreman—Duties as to ventilation. When operations are temporarily suspended in a mine, the mine foreman shall see that a danger sign is placed across the mine entrance, which sign shall be sufficient warning for persons not to enter the mine. If the circulation of air through the mine be stopped, each entrance to said mine shall be fenced off in such manner as will ordinarily prevent persons entering said mine, and a danger sign shall be displayed upon said fence at each entrance. The mine foreman shall see that all danger signs used at the mine are in good condition, and if they become defective he shall cause same to be repaired, or notify the superintendent.

In case of accident to a ventilating fan or its machinery whereby the ventilation in a mine is, or is about to be seriously interrupted, the mine foreman shall order the men to withdraw immediately from the mine, and he shall not allow them to return to their work until the ventilation has been restored and the mine has been thoroughly examined by him, or by an assistant mine foreman or fire boss, and reported safe.

In case the operation of the ventilating fan is stopped at a gaseous mine because of the suspension of the operations in the mine, the mine foreman shall not allow the men employed therein to enter the mine until the ventilation has been restored by the operation of the fan for at least twelve hours and the mine has been thoroughly examined by him, or by an assistant mine foreman or fire boss, and reported safe. [1919 c 201 § 5; 1917 c 36 § 107; RRS § 8742. Prior: 1897 c 45 § 8. Formerly RCW 78.32.520.]

78.40.417 Foreman—Weekly examination of mine. Whenever any dangerous condition is known to exist, or is reported by others to the mine foreman, he shall give prompt attention to its removal, and in case it is impracticable to remove the danger at once, he shall post danger signs warning every person whose safety is menaced thereby, to remain away from the place that the dangerous conditions affect. He or his assistant shall
78.40.420 Foreman—Precautions against gas and water. In any working place that is being driven within supposedly dangerous proximity to an abandoned mine suspected of containing explosive gases, or that may contain a dangerous accumulation of water, the mine foreman shall see that at least one bore hole shall be maintained not less than twenty feet in advance of the face; and in a seam of coal on either side of the bore hole, flank holes shall be driven not less than twelve feet in advance, and any place driven to tap water or gas shall not be more than eight feet wide. [1917 c 36 § 109; RRS § 8744. Prior: 1891 c 81 § 14; 1887 c 21 § 5. Formerly RCW 78.32.540.]

78.40.423 Foreman—Duty to check fire bosses. The mine foreman shall see as often as practicable that the fire boss has left his mark, as required by this chapter, in places examined or reported examined. [1917 c 36 § 110; RRS § 8745. Formerly RCW 78.32.560.]

78.40.426 Foreman—Duty to visit working places. The mine foreman, his assistant, or fire boss, shall visit each working place once each shift while the employees are at work, and in addition thereto shall give special care, oversight and attention to the men drawing pillars. [1917 c 36 § 111; RRS § 8746. Formerly RCW 78.32.570.]

78.40.429 Foreman—Duties in case of accidents. It shall be the duty of the mine foreman, or his assistant, in case of injury to employees while at work in the mine, to at once visit the scene of the accident, see that the injured person or persons are given all the aid that can possibly be given which will add to their comfort and safety. After being treated with all the skill known to the foreman or his assistant, the injured person or persons shall be carefully wrapped up and taken to their homes or the hospital. [1917 c 36 § 112; RRS § 8747. Formerly RCW 78.32.550.]

78.40.432 Fire boss—Duties in general. It shall be the duty of the fire boss to examine carefully not more than three hours before a first shift enters the mine, every working place in his charge in which men have not been employed at the working face within ninety minutes previous to the starting time of such shift all open places adjacent to live workings, and every unfenced road to abandoned workings. He shall see that the air current is traveling in its proper course. In making the examination he shall use no other than an approved safety lamp. The fire boss shall examine for all dangers in all portions of the mine under his charge, and after each examination he shall leave at or near the working face of every place examined the date of the examination as evidence that he has performed his duty. [1917 c 36 § 113; RRS § 8748. Formerly RCW 78.32.590.]

78.40.435 Fire boss—Danger signs. At the entrance to and in crosscuts or breakthroughs to any working place where explosive gas is discovered or where there is immediate danger found to exist from any other cause, the fire boss shall place a danger sign, which shall be sufficient warning for persons not to enter.

The danger sign shall consist of a lagging, board or piece of timber, or other obstruction, placed across the entrance to the working place, and in crosscuts and breakthroughs open to such working place, so that it is distinctly visible and marked plainly showing that danger exists beyond. [1917 c 36 § 114; RRS § 8749. Formerly RCW 78.32.600.]

78.40.438 Fire boss—Record of inspections—Procedure upon report of gas. Each fire boss shall, immediately after making his inspection and before the employees are allowed to enter the mine, report on a bulletin board provided for that purpose at the entrance to the mine, a true record of such inspection, designating each place where gas is found, also that all other places are clear. A like report of such inspection shall immediately be made by the fire boss, with ink, in a book kept for that purpose at the mine office on the surface, and in addition shall set forth the time of the inspection, the reason for the presence of any danger found, the means taken and by whom for the removal of same. If explosive gas is found the report shall show as near as possible the amount found, and time the place was clear. The fire bosses' record shall, at all times, be accessible to the mine inspector or his deputy, and to the employees of the mine in the presence of a mine official. The fire boss, mine foreman, or his assistant must reexamine all places in which gas is reported in advance of employees working in such places. After making such examination he shall personally direct the removal of said gas or other danger. Gas shall not be removed by brushing. [1917 c 36 § 115; RRS § 8750. Formerly RCW 78.32.610.]

78.40.441 Shot firers—Reports. In all parts of a mine where explosive gas is being generated, or dust exists in such quantities as to be dangerous or liable to cause an explosion from blowout or windy shots, there shall be employed a sufficient number of competent persons to act as shot firers, whose duty it shall be to fire all shots properly placed by the miners, and refuse to fire any shots improperly placed. No blasts in such part of a mine shall be fired by any other person than a shot firer, fire boss or foreman. Incombustible material for tamping must be used for that purpose, and the mine foreman shall supply same at convenient places inside the mine. Under no circumstances shall coal dust or any other combustible material be used for tamping. Each shot firer shall report to the fire boss, mine foreman, or his assistant, every shot that he has refused to fire, every blown out shot, and every shot that has missed fire, and a record shall be kept of same. [1917 c 36 § 116; RRS § 8751. Formerly RCW 78.38.270 and 78.38.350, part.]
**Shot firing—Restrictions on.** No shot firer or any other person shall fire a shot in any working place if he can detect explosive gas in the place. In dusty mines no shot shall be fired unless the place in which the shot is to be fired is thoroughly wetted or otherwise treated to prevent the existence of any dust for a distance of not less than one hundred feet from the shot to be fired.

When the presence of coal dust is likely to enter into an explosion hazard, the chief mine inspector may require that the dry area be thoroughly rock dusted to the extent that the incombustible content shall be at least seventy percent.

In all advancing entries, counters and haulage inclines where an undue quantity of dry coal dust is present, the chief mine inspector may require that the rock dusting shall be kept within one hundred feet of the working face. The rock dust shall be of such material as will meet the requirements of the U.S. bureau of mines in exclusion of deleterious substances. [1947 c 166 § 4; 1943 c 211 § 8; 1917 c 36 § 118; Rem. Supp. 1947 § 8753. Formerly RCW 78.34.450.]

*Reviser’s note: *this chapter goes into effect*: "this act" used in session law language is changed to "this chapter"; the phrase was first used in the 1917 act, which took effect at midnight, June 6, 1917. The 1947 amendatory act took effect at midnight, June 11, 1947.

**ARTICLE X MINE RESCUE EQUIPMENT**

**Rescue apparatus and supplies—Reports on.** Within one year after *this chapter goes into effect*, every coal mining employer as many as twenty underground men, shall have and maintain ready for use at all times, at least three sets of mine rescue apparatus, and one reviving device, of a type approved by the U.S. bureau of mines.

For each one hundred underground men in addition to the first twenty, one additional apparatus shall be maintained, up to six sets.

At every coal mine where mine rescue equipment is maintained, supplies for same shall be kept on hand to last at least twenty-four hours. The superintendent of the mine, or some person designated by him for that purpose, shall examine each apparatus once each month and report the condition of same, also the amount of supplies on hand at the time of such examination. This report shall be made in writing by the person making the examination and a record of same shall be kept at the mine office and shall be accessible to the mine inspector or his deputy at all times.

Whenever two or more coal mines are operated by the same company within a radius of twenty miles, they shall be considered as one mine. However, mines within a radius of twenty miles and connected by a wagon road or railroad, may agree to equip and maintain one central station, in lieu of the provisions of this section, shall be required to furnish such personnel as the bureau of mines or the state mine inspector may require for adequate training in mine rescue and first aid work, the cost of the training of said personnel to be borne by the mine operator. [1947 c 166 § 4; 1943 c 211 § 8; 1917 c 36 § 118; Rem. Supp. 1947 § 8753. Formerly RCW 78.34.450.]

**Woolen blankets required.** Suitable woolen blankets shall be kept on hand for each stretcher. [1917 c 36 § 120; RRS § 8755. Formerly RCW 78.34.460, part.]

**Medical supplies required.** At all times there shall be provided bandages, splints, and other medical supplies, to render first aid and relief to employees who may be injured. These supplies shall be kept in a suitable room near the entrance to the mine. [1917 c 36 § 121; RRS § 8756. Formerly RCW 78.34.480.]

**First aid kits—Penalties.** At each working level, or entry, of every mine in this state, the operating company shall maintain a box of first aid supplies equivalent to the American Red Cross (industrial) first aid box. If these boxes are kept locked, the keys shall always be near at hand and plainly visible. Such keys may be kept under glass as a fire alarm box key is kept. Additional keys may be given to employees selected by the mine foreman on each level or working section of the mine. The foreman shall keep a list of those who have keys in their possession posted on the (industrial) first aid box nearest their working places. In addition to the above first aid boxes, the operating company of each mine shall furnish each driver or motorman with a metallic covered packet equivalent to those sold by the American Red Cross. At all times when they are underground or at their respective places of employment, said drivers or motormen shall have the metallic packets in their possession. Failure of the operator to provide the supplies required by this section shall constitute a misdemeanor. Any person destroying or stealing any of the first aid supplies shall be guilty of a misdemeanor. [1917 c 36 § 122; RRS § 8757. Formerly RCW 78.34.490.]

**ARTICLE XI POWDER AND EXPLOSIVES**

**Explosives, how and where to be kept.** Every person who has powder or other explosives in a mine shall keep the same in a proper, closed receptacle. Said receptacle shall be kept as far as practicable from the track or chute; and all powder receptacles shall be kept
as far as practicable from each other, and each in a se­
cluded place. Detonators shall at all times be kept in
securely closed cases, separate and apart from other ex­
cluded places. Detonators shall at all times be kept in
as far as practicable from each other, and each in a se­
cluded place. Detonators shall at all times be kept in

Storage of explosives—Issuance to workmen: RCW 78.40.488.

78.40.483 Use of lamps and lighted pipes near explo­
sives—Opening receptacles. Whenever a workman using
an open light is about to open a receptacle
containing explosives, and while handling the explosives,
he shall place and keep his lamp at least five feet distant
from said explosive and in such position that the air
currents cannot convey sparks to it, and at such time no
person shall approach nearer than five feet to any explo­
sive with an open lamp, lighted pipe, or anything con­
taining fire, except safety lamps, unless such explosive is
contained in a proper closed receptacle. No miner,
workman, or other person shall open any receptacle con­
taining an explosive except in the manner prescribed by
the manufacturer thereof, and it shall be unlawful for
any person to have in his possession in any mine any re­
ceptacle containing explosives which has been opened in
violation of this chapter. [1917 c 36 § 124; RRS § 8759.
Formerly RCW 78.38.210 and 78.38.220, part.]

Limitations on storage and handling of explosives: RCW 78.40.651.
Precautions in handling explosives: RCW 78.40.675.

78.40.476 High explosives. No high explosive shall
be stored in any mine and no more shall be taken into
any mine at any one time, by any person, than is re­
quired in one shift. The quantity used shall be subject to
the approval of the mine inspector. [1917 c 36 § 125;
RRS § 8760. Formerly RCW 78.38.230.]

Quantity of explosives allowed in mine: RCW 78.40.648.
Storage of explosives—Issuance to workmen: RCW 78.40.488.

78.40.479 Firing dependent shots—Permit. No
person shall fire a dependent shot in the coal as herein­
after defined. A dependent shot is a shot dependent on
another shot so placed as to make an opening sufficient
for the dependent shot to do its work properly. At mines
where solid shooting is allowed the opening shot shall be
fired first and no dependent shot shall be fired at that
time. In no case shall more than one kind of explosive be
used in the same drill hole: Provided, That in any mine
where the coal bed worked is less than three feet be­tween walls and no gas or dust is present, where it can be
shown to the satisfaction of the mine inspector that the
above rule would prohibit the operating company to
mine the coal at a profit, the mine inspector may grant
him a permit to suit his conditions. [1917 c 36 § 126;
RRS § 8761. Formerly RCW 78.38.310.]

78.40.482 Black powder, how handled. Black powder
for use in mines shall be put up in metallic cans or can­
isters, or receptacles of equally safe material. No black
powder, high explosive, or detonators shall be hauled on
any electric motor trip in any mine, unless the same are
encased in nonconductive boxes or receptacles: Provided,
That they may be hauled in nonconductive car.

No black powder, other than that taken for his own use, shall be hauled on man trips. [1917 c 36 § 127; RRS § 8762. Formerly RCW 78.38.260.]

78.40.485 Needles and tamping bars—Depth of
holes—Unconfined shots—Penalty. The needle used in
preparing a blast of black powder shall be made of
copper, and the tamping bar shall be tipped with at least
five inches of solid copper. All other explosives where a
cap or detonator is used for the purpose of exploding the
blast, shall be tamped with a wooden tamping bar. In no
case shall iron or steel or other metal that is liable to
cause a spark while tamping, be used for the purpose of
explosive any explosive. Neither shall a scraper be used
for tamping. It shall be unlawful for any person to have
in his possession in the mine underground, any iron or
steel needle or tamping bar not tipped as above required.
No hole shall be drilled more than six feet in depth
for the purpose of blasting: Provided, however, That
where mining machines are used holes may be drilled to
the depth of the cut.

Bulldozing, mudcapping, or other unconfined shots shall not be fired in any coal mine, excepting and pro­
vided the confronting situation is such that it cannot
safely be overcome by any other method. In such case,
and then only in the interests of safe practice may such a
shot or shots be placed, and the area within fifty feet
thereof shall be thoroughly wetted down or rock dusted
before firing, and the shot or shots be packed or heavily
capped with rock dust.

workmen—Penalty. Each person, firm or corporation,
engaged in coal mining, requiring the use of powder or
other explosives, shall provide (subject to the approval of
the mine inspector) at or near the entrance of each coal
mine operated, at some suitable place near such work, a
suitable distributing magazine for the storage of such

ARTICLE XII SAFETY LAMPS

78.40.500 Safety lamps—Type—Examination. In every working of a coal mine approaching any place where there is likely to be an accumulation of explosive gases, or in any working place where there is imminent danger from explosive gases, no light or lamp other than a magnetic locked safety lamp or electric lamp shall be allowed or used, except by superintendents, shot lighters or other certified men, who may use such lamps as may be approved by the mine inspector.

Whenever safety lamps are required in any mine they shall be the property of the owner of said mine, and a competent person who shall be appointed for that purpose shall examine every safety lamp immediately before it is taken into the workings for use and ascertain it to be clean, safe and securely locked; and safety lamps shall not be used until they have been examined and found safe, clean and securely locked. [1917 c 36 § 131; RRS § 8766. Prior: 1909 c 57 § 1. Formerly RCW 78.36.010.]

Unauthorized possession of keys to safety lamps—Prosecution: RCW 78.40.660.

78.40.503 Safety lamps—Open lights prohibited, when. At mines where the danger from explosive gas requires the use of safety lamps, no open lights shall be used in that part or district of the mine where safety lamps are in use. [1917 c 36 § 132; RRS § 8767. Formerly RCW 78.36.020.]

78.40.506 Safety lamps—Tampering with lamps or using other lighting devices—Penalty. In any mine where locked safety lamps are used, any person other than those authorized by this chapter, opening or tampering with one of said safety lamps, or found with matches or any lighting device other than safety lamps, shall be guilty of a misdemeanor and upon conviction thereof he shall be fined not less than fifty dollars nor more than two hundred dollars, or imprisonment for a term of not more than one year: Provided, however, This shall not prohibit the use of any flame used in making repairs to any machinery or wires when such repairs are made on the intake air. ARTICLE XIV RULES FOR THE INSTALLATION OF ELECTRICITY

78.40.540 Compliance with rules—Definitions. The operator, superintendent, or mine foreman in charge of any coal mine in which electricity is used as a means of power, shall, within six months after the passage of this chapter, comply with the following rules:

Definitions

Potential: The terms "potential" and "voltage" are synonymous and mean electrical pressure.

Difference of potential: The expression "difference of potential" means the difference of electrical pressure existing between any two points of an electrical system, or between any point of such system and the earth, as determined by a volt meter.

Potential of a circuit: The potential or voltage of a circuit, machine, or any piece of electrical apparatus, is the potential normally existing between the conductors of such circuit or the terminals of such machine or apparatus.

1. Where the conditions of the supply of electricity are such that the difference in potential between any points of the circuit does not exceed three hundred volts, the supply shall be deemed a low voltage supply.

2. Where the conditions of the supply of electricity are such that the difference in the potential between any two points in the circuit may at any time exceed three hundred volts, but does not exceed six hundred volts, the supply shall be deemed a medium voltage supply.

3. Where the conditions of the supply of electricity are such that the difference of potential between any two points in the circuit exceeds six hundred volts, the supply shall be deemed a high voltage supply.

Grounding: Grounding any part of an electric system shall consist in so connecting such part to the earth that there shall be no difference of potential between them.

Underground station: An underground station is herein considered as any place where electrical machinery is permanently installed. [1917 c 36 § 144; RRS § 8779. Formerly RCW 78.36.600.]

78.40.543 Grounding. All metallic coverings, armorings of cables other than trailing cables, and, where installed underground, the frames and bed-plates of generators, transformers and motors, other than low voltage portable motors, shall be efficiently grounded, as shall also the neutral wire of three wire continuous current systems. [1917 c 36 § 145; RRS § 8780. Formerly RCW 78.36.610.]

78.40.546 Voltage underground—Installations—Danger signs. No higher voltage than medium voltage shall be used underground, except for transmission or for application to transformers, or other apparatus, in which the whole of the high voltage circuit is stationary.

In gaseous mines, high voltage transmission cables shall be installed in the intake airways only, and high voltage transformers shall be installed only in suitable chambers ventilated by the intake air which has not passed through or by a gaseous district.

All high voltage machines, apparatus, and lines shall be so marked as to clearly indicate that they are dangerous by the use of the word "danger" placed at frequent intervals. [1917 c 36 § 146; RRS § 8781. Formerly RCW 78.36.620.]

78.40.549 Switchboards. Switchboards: Main and distribution switch and fuse boards, underground, shall be made of incombustible insulating material, such as marble or slate, free from metallic veins, and be fixed in a dry a situation as practicable. [1917 c 36 § 147; RRS § 8782. Formerly RCW 78.36.630.]

78.40.552 Gloves and mats for repairmen. Precaution against shock: Gloves or mats of rubber or other suitable insulating material shall be provided and used by persons so engaged when repairs are made to the live parts of any electrical apparatus, or when the live parts of electrical apparatus have to be handled for the purpose of adjustment. [1917 c 36 § 148; RRS § 8783. Formerly RCW 78.36.640.]

78.40.555 Meddling with electrical system—Penalty. Any person who shall wilfully damage, or, without authority, alter or make connection to any portion of a mine electrical system, shall be guilty of a misdemeanor. [1917 c 36 § 149; RRS § 8784. Formerly RCW 78.36.650.]

78.40.558 Defects to be reported. Report of defective equipment: In the event of a breakdown, or of damage or injury to any portion of the electrical equipment of a mine, or of overheating, or of the appearance of sparks or arcs outside of enclosing casings, or in the event of any portion of the equipment, not a part of the electrical

[Title 78 RCW (1979 Ed.)—p 25]
circuits, becoming alive, every such occurrence shall be promptly reported to the person in charge of the electrical equipment. [1917 c 36 § 150; RRS § 8785. Formerly RCW 78.36.660.]

78.40.561 Underground installations—Authorized personnel only—Fire protection. Underground stations and transformer rooms: Switchboards: All switches, circuit breakers, rheostats, fuses and instruments used in connection with underground motor-generators, rotary converters, high voltage motors, transformers, and low and medium voltage motors of more than fifty horsepower capacity, shall be installed upon a suitable switchboard, or its equivalent. Similar equipment, for low and medium voltage motors of fifty horsepower and less, may be separately installed if mounted upon installing bases of slate or equivalent insulating material.

In underground stations where switchboards are installed, there shall be a passageway in front of the switchboard not less than five feet in width, and if there are any high voltage connections at the back of the switchboard, any passageway behind the switchboard shall not be less than three feet clear.

Unauthorized persons: No person other than one authorized by the mine foreman shall enter a station or transformer room, or interfere with the workings of any apparatus connected therewith.

Fire equipment: Fire equipment of an approved type shall be kept in electrical stations and transformer rooms, ready for immediate use in extinguishing fires. [1917 c 36 § 151; RRS § 8786. Formerly RCW 78.36.670.]

78.40.564 Insulation. Transmission circuits and conductors: Power and light circuits: All high pressure wires used inside of the mines shall be in the form of insulated, lead covered or armored conductors, subject to insulation tests, and with carrying capacity according to the rules of the National Board of Fire Underwriters.

Medium or low pressure conductors may be bare, except in gaseous portions of the mines, where they may be used only on intake air. No bare conductors shall be used in rooms, or beyond the last cut-through in intake entries.

All underground cables and wires, other than trailing cables, unless provided with grounded or metallic covering, shall be supported by means of efficient insulators. Conductors connecting lamps to the power supply shall in all cases be insulated.

Main circuits: Every main circuit coming from generating or transformer stations shall there be provided with switches, fuses or circuit breakers.

In any gaseous mine, or gaseous portion of a mine, the electrical supply shall be brought underground only through such portions of the mine as are ventilated by the intake air, unless in lead incased cables.

Grounded circuits: One side of the grounded circuits shall be very effectively insulated from earth.

Underground trolley: In underground roads the trolley wires shall be securely supported on hangers placed at such intervals that the sag between points of support shall not exceed three inches. The sag between points of support can exceed three inches if the height of the trolley wires above the rail is five feet or more and does not touch the roof when the trolley passes under.

In underground haulage roads where the potential is higher than low voltage, all trolley or other bare power wires which are placed less than six and one-half feet above the top rail, shall be efficiently protected. This protection shall consist in placing boards along the wire, which shall extend below it, or the use of other approved devices that will afford the same protection: Provided, That this rule shall not apply to entries or gangways already driven where the height is less than five feet above the lower rail.

All low pressure trolley wires must be guarded in front of loading chutes, slants, landings and partings where men are required to regularly work or pass under same.

All branch trolley lines shall be fitted with an automatic trolley switch or section insulator and line switch, or some other device that will allow the current to be shut off from such branch headings.

Joints in conductors: All joints in conductors shall be mechanically and electrically efficient, and wherever it is possible to do so, they shall be soldered. Wherever the conductors cannot be soldered together, suitable screw clamps or connectors shall be used. All joints in insulated wire shall, after the joint is complete, be reinsulated to at least the same extent as the remainder of the wire.

Where lead covered or armored cable is used, the lead or armor shall be electrically continuous throughout and shall be efficiently grounded.

Cables entering fittings: The exposed end of cables where they enter fittings of any description, shall be so protected and finished off that moisture cannot enter the cable, or the insulating material, if of an oily or viscous nature, leak.

Where unarmored cables or wires pass through metal frames, or into boxes or motor casings, the holes shall be substantially bushed with insulating bushings, and, where necessary, with gas tight bushings which cannot readily become displaced.

Joints in cables: Where cables other than signal cables are joined, suitable junction boxes shall be used, or the joints shall be soldered and the insulation, armorung, or lead covering replaced in at least as safe a condition as it was originally.

Power wires and cables in shafts: All power wires and cables in hoisting shafts or manway compartments shall be highly insulated and substantially fixed in position.

Cables and wires, unless provided with metallic coverings shall not be fixed to walls or timbers by means of insulated fastenings.

Trailing cables: Trailing cables for portable machines shall be especially flexible, heavily insulated and protected with extra stout braiding, hose pipes or other equally effective covering.

Each trailing cable in use shall be daily examined by the machine operator, for abrasions and other defects, and he shall also be required to carefully observe the trailing cable while in use, and shall at once report any defect to the person in charge of electrical equipment.
In gaseous portions of a mine a fixed terminal box shall be provided at the points where trailing cables are attached to the power supply. This terminal box shall be flameproof and shall contain a switch and fuse on each pole of the circuit. The switch shall be so arranged that it can be operated only from without the box, when the latter is completely closed, and the switch shall also be so constructed that the trailing cables cannot be attached or removed when the switch is closed. [1917 c 36 § 152; RRS § 8787. Formerly RCW 78.36.680.]

78.40.567 Switches, fuses and circuit breakers—Operation and capacity. Switches, fuses and circuit breakers: Operation and capacity: Fuses and automatic circuit breakers shall be so constructed as effectually to interrupt the current on short circuit, or when the current through them exceeds a predetermined value.

Circuit breakers shall be adjusted to trip at from fifty percent to one hundred and fifty percent of their normal rated capacity, and provided with an indicator which shall show at what current the circuit breaker is set to trip.

Fuses shall be stamped or marked, or shall have a label attached indicating the maximum current which they are intended to carry. Fuses shall only be adjusted or replaced by a competent person authorized by the mine foreman.

Feeder circuit breakers: Circuit breakers used to protect feeder circuits shall be set to trip when the current exceeds by more than fifty percent the current carrying capacity of the feeder. In case the feeder is subjected to overloads sufficient to trip the circuit breaker, but of short duration, the circuit breaker may be equipped with a device which shall prevent its acting unless the overload persists for a longer period than ten seconds.

Bases: All switches, circuit breakers and fuses shall have incombustible bases.

Switches: All points at which a circuit, other than a signal circuit, has to be made or broken, shall be provided with proper switches. The use of hooks or other makeshifts is prohibited, except that connection for gathering locomotives, or locomotives and machines used in driving headings or rooms, may be made to the trolley by means of suitable hooks; switches shall be so installed that they cannot be closed by gravity. In any gaseous portions of a mine switches, circuit breakers or fuses shall not be of the open type, but must be enclosed in explosion proof castings, or break under oil. [1917 c 36 § 153; RRS § 8788. Formerly RCW 78.36.690.]

78.40.570 Motors. Every stationary motor underground, together with its starting resistance, shall be protected by a fuse or circuit breaking device on at least one pole for direct current; and all poles for alternating current motors, and by switches arranged to entirely cut off the power from the motor. The above devices shall be installed in a convenient position near the motor.

Motors in coal mines: In any coal mine all motors, unless placed in such rooms as are separately ventilated with intake air, shall have all their current carrying parts, also their starters, terminals and connections, completely closed in explosion proof inclosures made of noninflammable materials. These inclosures shall not be opened except by an authorized person, and then only when the motor is switched off. The power shall not be switched on while the inclosures are open.

Mechanization: In any coal mine, all electrical equipment shall be of permissible type approved by the U.S. bureau of mines, unless used strictly in pure intake air. In by last open cross cut is not to be considered as pure intake air. (1) Frequent inspections must be made. All electrical parts including trailing cables and wiring must be kept in a safe condition. A permissible junction box must be used in connecting the power circuit, unless the connections are made in pure intake air. (2) All bolts, nuts, screws, and other means of fastenings must be in place, properly tightened and secured. The maximum clearance shall not exceed .004 of an inch on all flange fits. (3) Inspections, repairs, or renewals of electrical parts not be made unless the current is disconnected from the power circuit. The power must not be turned on until all parts are properly assembled. (4) Spliced cables must not be used unless the splices are properly made and vulcanized. (5) The frame of all electrical equipment must be connected to an adequate ground. The power wires must not be used for grounding. (6) The power shall not be turned on any piece of electrical equipment until a test for explosive gas has been made, unless said equipment is operated in intake air. (7) A test for gas must be made before starting the mining machine or electric drill and also a test for gas must be made at least every ten minutes while the machine or drill is in operation. (8) Water must be used on the cutter bar of mining machines while in operation in dusty conditions. (9) It is positively forbidden to use mining machines or electrical drills unless they are in good condition. (10) Hand drills shall not be operated on a higher potential than low voltage.

The person in charge of a coal cutter or drilling machine shall not leave the machine while it is working, and shall, before leaving the working place, see that the current is cut off from the trailing cables.

In any portion of a mine if any electric sparking or arc be produced outside of a coal cutting or other portable motor, or by the cable or rails, the machine shall be stopped and not worked again until the defect is repaired, and the occurrence shall be reported to an official of the mine. [1947 c 166 § 5; 1943 c 211 § 10; 1933 c 137 § 1; 1917 c 36 § 154; Rem. Supp. 1947 § 8789. Formerly RCW 78.36.700 and 78.36.710.]

78.40.573 Electric locomotives. Electric locomotives: Trolley system: Electric haulage by locomotives operated by a trolley wire is not permissible in any gaseous portions of a mine, except upon the intake air.

In no case shall the potential used in the trolley system be higher than medium voltage. In mines opened after the passage of this chapter, or mines that are now operating where electricity is not used, when the power is not taken from a station now operating at a mine now operating, the potential shall not be higher than low voltage.
78.40.573 Storage battery system: Storage battery locomotives shall be used in gaseous mines only when the boxes containing the cells and all electrical parts are enclosed in flameproof casings. [1917 c 36 § 155; RRS § 8790. Formerly RCW 78.36.720.]

All contacts, when made or broken, shall be within the case except that the binding posts for making connections to the firing leads may be outside.

No firing machine or battery shall be connected to the shot firing leads until all other steps preparatory to the firing of a shot have been completed, and all persons have moved to a place of safety, and no person other than the shot firer shall make such connection.

Disconnecting of leads: Immediately after the firing of a shot, the firing leads shall be disconnected from the supply or source of electricity, and no person shall approach a shot which has failed to explode until the firing leads have been so disconnected by the shot firer from the device and an interval of five minutes has elapsed since the last attempt to fire the shot.

Special systems: The use of special electrical shot firing systems, or equipment not covered by the foregoing, shall receive the approval of the testing station of the federal bureau of mines. [1917 c 36 § 157; RRS § 8792. Formerly RCW 78.38.360.]

The men shall place their tools in cars provided for that purpose, which cars shall be lowered before or after the men have been lowered. He shall also see that no driver or other person descends the shaft with any horse or mule, unless the said horse or mule is secured in a suitable box or safely penned, and only the driver in charge of said horse or mule shall accompany it in any cage. The topman of a shaft shall see that the springs or keeps for the cage to rest upon are kept in good working order, and when taking the full car off he must be careful that no coal or other material is allowed to fall down the shaft.

(2) The topman of a slope or inclined plane shall see that the safety device is closed at all times, except when cars or trips are passing, and in no case shall said safety device be withdrawn until the cars are coupled to the rope or chain and the proper signal given. He shall carefully inspect each day the rope and chain used for hoisting or lowering men or coal, and shall promptly report to the superintendent any defect discovered, and shall use care in attaching securely the cars to the rope. He shall ring the alarm bell in case of accident.

(3) It shall be the duty of all topmen to report to the superintendent any violation of RCW 78.40.675.

(4) Nothing herein shall be construed to prevent the owner or operator of a coal mine from enforcing any rules or regulations now in effect, or that may be later adopted, which do not conflict with the provisions of this chapter. [1917 c 36 § 216; RRS § 8851. Formerly RCW 78.32.880 and 78.38.220, part.]

78.40.771 Severability—1917 c 36. If it shall be adjudicated that any section or part of a section of this chapter shall be unconstitutional and invalid for any reason, an adjudication of invalidity of said section or part of a section shall not affect the validity of the chapter as a whole, or any part thereof. [1917 c 36 § 219; RRS § 8854.]

78.40.772 Effective date for certain compliance. Every operator of a mine affected by this chapter shall be given six months after this chapter takes effect to make any necessary changes or secure any materials or supplies to comply with the provisions of this chapter. [1917 c 36 § 220; RRS § 8855.]

78.40.773 What constitutes a coal mine—Inspection. No coal mine shall be considered a mine for the purpose of this chapter unless five men or more are employed underground on one shift, nor shall mines employing less than ten men be subject to the provisions of this chapter, except that the inspector of mines shall have the right to enter any of the places where men are at work within such prospect, and if the conditions therein are dangerous to life, the inspector may, and it shall be his duty to stop work on such prospect until such dangerous place is rendered safe, or the same be placed in control of a certified mine foreman: Provided, That all such operators of prospects and places herein in this chapter referred to shall make reports to the state mine inspector as are required to be made by other mines and mine operators under the provisions of this chapter. ARTICLE XIX SAFETY COMMITTEE

78.40.780 Safety committee—Members, officers, records, duties—Appeals to inspector. In every mine a general safety committee shall be selected, composed of the mine superintendent or manager of mines, one man selected by the employees or any association of employees in or around said mine, and a third member selected by these two.

The general safety committee shall elect one of the members to act as chairman and one to act as secretary. The duties of the chairman shall be to preside at all meetings of the general safety committee, enforce its rules and regulations and see that its business is conducted in a prompt and businesslike manner. The secretary shall keep an accurate written record of the proceedings of all meetings, conduct its correspondence and post notices of regular and special meetings and other matters pertaining to safety.

The duties of the general safety committee shall be to investigate all serious and fatal accidents; make bi-monthly examination of the mine, their findings and recommendations to be made in writing, one copy to be sent to the chief state mine inspector. They shall coordinate with the management in the work of supervision of bulletin board service, and the outline and conduct of safety educational activities, arrange the programs for all safety meetings, pass on all safety controversial matters referred to them by subsafety committees. They shall meet with all other safety committees as often as possible, but not less often than once each month, and discuss safety measures, violations of safety rules and practices, and take up any other safety subject that will tend to eliminate accidents and pass on all safety suggestions referred to them by any employer or employee.

Should there be any disagreement among the members of the general safety committee relating to any safety matter brought or referred to them for disposition, either side may appeal to the chief state mine inspector, who shall in this case pass on controversial safety matters. His decision will be final and binding on both parties.

The written records of the general safety committee shall be open for inspection at all times by the chief state mine inspector, or his deputies or any state official connected with accident or safety work. [1927 c 306 § 12; RRS § 8856-1. Formerly RCW 78.34.400 and 78.34.410.]

78.40.783 Subsafety committee—Members, qualifications, duties. At mines employing more than twenty-five men there shall be a subsafety committee at each level or entry, consisting of a mine foreman, assistant mine foreman, or fire boss, and one employee selected by the men working on such level or entry.

The members of this committee shall have had six months' experience in this mine or at mines where similar conditions exist. Workmen serving on safety committee may be changed every two months.

Where workman finds dangerous conditions that he cannot correct himself, he shall report it to the official in charge of that section of the mine. If the condition is not corrected in a reasonable time he shall then call the other member of the safety committee to make an investigation. If the subsafety committee shall fail to agree they shall report to the general safety committee.

All level or entry safety committees shall attend and report at all meetings of the general safety committee.

The workmen's representative on the subsafety committee shall not visit or inspect any part of the mine except when accompanied by the other member of the subsafety committee. If for any reason either member of the committee fails to act on any complaint it shall be
referred to the general safety committee. At all mines employing less than twenty-five men the general safety committee shall have general supervision over all safety matters. [1927 c 306 § 13; RRS § 8856-2. Formerly RCW 78.34.420.]

78.40.786 Outside committee—Members, duties. At each mine employing more than twenty-five men there shall be an outside committee consisting of the outside foreman, master mechanic and two employees selected by the men working on the outside. Workmen serving on outside safety committee may be changed every two months. Where workman finds dangerous or unsafe conditions that he cannot correct himself, he shall report it to the outside foreman. If the condition is not corrected in a reasonable time, he shall report it to one of the workmen's representatives on the safety committee, who shall then call the other members of the safety committee to make an investigation. If the outside safety committee shall fail to agree they shall report it to the general safety committee. The workmen's representatives shall not visit or inspect any part of the outside workings except when accompanied by the outside foreman or master mechanic. If for any reason any member of the committee fails to act upon any complaint called to his attention, it shall be referred to the general safety committees. It shall be understood that all safety committees shall confine themselves to safety measures and accident prevention alone, the sole purpose of their organization being to preserve the life and limb of workmen in and around the mines. [1927 c 306 § 14; RRS § 8856-3. Formerly RCW 78.34.430.]

78.40.789 Safety bulletin boards. It shall be the duty of the mine operators of each mine to establish and maintain a safety bulletin board service, to provide at least one standard bulletin board located in such place as to attract the attention of the greatest number of mine employees, and to post upon such board, all bulletins and such other matters as will be valuable in the educational development of the prevention of accidents.

The number of bulletin boards required and the frequency of displaying new bulletins, or shifting bulletins from board to board, shall be determined by the operator or by the operator and the chief state mine inspector, or by the chief state mine inspector.

Whenever a lesson of value to the mine is determined as the result of an investigation of an accident occurring within such mine, which will be of value in preventing the recurrence of future accidents of similar nature, the same can be given the greatest accident prevention value by being made the subject of a typewritten or other form of bulletin descriptive of the accident, giving the cause of, and recommendations covering measures adopted to prevent accidents of like or similar nature or cause.

The safety bulletin board shall be open to the services of bulletins on mine safety measures only; to the mine safety committee, the state mining board, chief state mine inspector and the employer's report of accidents occurring at the mine during the previous calendar month. [1927 c 306 § 15; RRS § 8856-4. Formerly RCW 78.34.600.]

78.40.791 Rule for loaders in certain mines—Signs. At all mines using the gangway and counter system, a rule shall be enforced to compel the loaders to keep the coal in the chutes above the bulkhead, thereby preventing a short circuit of the air that may create a dangerous condition in some of the working places further inside.

Adequate signs approved by the chief state mine inspector shall be placed at intervals on the gangway calling attention to the foregoing danger. [1927 c 306 § 16; RRS § 8856-5. Formerly RCW 78.34.800.]

78.40.794 Workman to report violations of safety rules. Whenever any workman in or about any mine shall observe any violation of the safety rules and regulations governing the mine, or unsafe conditions or unsafe practice, it shall be his duty to report the same to a member of the safety committee. [1927 c 306 § 17; RRS § 8856-6. Formerly RCW 78.34.810.]

78.40.797 First aid—Education, treatment, records. There shall be developed at each mine a requirement of first aid education that will result in the practical and intensive education in first aid administration of a minimum of ten percent of the employment of said mine. The operating company shall keep a record of all employees who have completed the course of required training in first aid, and a complete copy of such record shall be furnished the chief state mine inspector. All employees shall be educated to report and receive first aid treatment of all injuries, no matter how trivial they shall be. This rule is made to obviate frequent infections that develop from wounds that are trivial in character. This first aid treatment of wounds of trivial character shall be in the hands of a trained first aid man, if more convenient than the mine surgeon, but the first aid attendant shall promptly refer any accident to the mine surgeon when he deems it of sufficiently severe character. [1927 c 306 § 18; RRS § 8856-7. Formerly RCW 78.34.440.]

[Title 78 RCW (1979 Ed.)—p 36]
78.44.010 Legislative finding. The legislature recognizes that the extraction of minerals by surface mining is a basic and essential activity making an important contribution to the economic well-being of the state and nation. At the same time, proper reclamation of surface mined land is necessary to prevent undesirable land and water conditions that would be detrimental to the general welfare, health, safety, and property rights of the citizens of the state. Surface mining takes place in diverse areas where the geologic, topographic, climatic, biologic, and social conditions are significantly different, and reclamation specifications must vary accordingly. It is not practical to extract minerals required by our society without disturbing the surface of the earth and producing waste materials, and the very character of many types of surface mining operations precludes complete restoration of the land to its original condition. Nevertheless, the legislature finds that reclamation of surface mined lands as provided in this chapter will allow the mining of valuable minerals and will provide for the protection and subsequent beneficial use of the mined and reclaimed land. [1970 ex.s. c 64 § 2.]

78.44.020 Purpose. The purpose of this chapter is to provide that the usefulness, productivity, and scenic values of all lands and waters involved in surface mining within the state will receive the greatest practical degree of protection and restoration. It is a further purpose of this chapter to provide a means of cooperation between private and governmental entities in carrying this chapter into effect. [1970 ex.s. c 64 § 3.]

78.44.030 Definitions. As used in this chapter, unless the context indicates otherwise:

1. "Surface mining" shall mean all or any part of the process involved in mining of minerals by removing the overburden and mining directly from the mineral deposits thereby exposed, including open-pit mining of minerals naturally exposed at the surface of the earth, mining by the auger method, and including the production of surface mining refuse. For the purpose of this chapter surface mining shall mean those operations described in this paragraph from which more than ten thousand tons of minerals are produced or more than two acres of land is newly disturbed within a period of twelve consecutive calendar months. Surface mining shall not include excavation or removal of sand, gravel, clay, rock or other materials in remote areas by an owner or holder of a possessory interest in land for the primary purpose of construction or maintenance of access roads to or on such landowner's property. Surface mining shall not include excavation or grading conducted for farming, on-site road construction or other on-site construction, but shall include adjacent or off-site borrow pits except those on landowner's property for use on access roads on such property. Prospecting and exploration activities shall be included within the definition of surface mining when they are of such nature and extent as to exceed the qualifying sizes listed above or when collectively they disturb more than one acre per eight acres of land area.

2. "Unit of surface mined area" shall mean the area of land and water covered by each operating permit that is actually newly disturbed by surface mining during each twelve-month period of time, beginning at the date of issuance of the permit, and shall comprise the area from which overburden and/or minerals have been removed, the area covered by spoil banks, and all additional areas used in surface mining operations which by virtue of such use are thereafter susceptible to excessive erosion.

3. "Abandonment of surface mining" shall mean a cessation of surface mining, not set forth in an operator's plan of operation or by any other sufficient written notice, extending for more than six consecutive months or when, by reason of examination of the premises or by any other means, it becomes the opinion of the department of natural resources that the operation has in fact been abandoned by the operator: Provided, That the operator does not, within thirty days of receipt of written notification from the department of his intent to declare the operation abandoned, submit evidence to the department's satisfaction that the operation is in fact not abandoned.

4. "Minerals" shall mean coal, clay, stone, sand, gravel, metallic ore, and any other similar solid material or substance to be excavated from natural deposits on or in the earth for commercial, industrial, or construction uses.

5. "Overburden" shall mean the earth, rock, and other materials that lie above a natural deposit of mineral.

6. "Surface mining refuse" shall mean all waste soil, rock, mineral, liquid, vegetation, and other material directly resulting from or displaced by the mining, cleaning, or preparation of minerals during the surface mining operations on the operating permit area, and shall include all waste materials deposited on or in the permit area from other sources.

7. "Spoil bank" shall mean a deposit of excavated overburden or mining refuse.

8. "Operator" shall mean any person or persons, any partnership, limited partnership, or corporation, or any association of persons, either natural or artificial, including every public or governmental agency engaged in surface mining operations, whether individually, jointly, or through subsidiaries, agents, employees, or contractors.
(9) "Department" shall mean the board of natural resources.

(10) "Reclamation" shall mean the reasonable protection of all surface resources subject to disruption from surface mining and rehabilitation of the surface resources affected by surface mining. Although both the need for and the practicability of reclamation will control the type and degree of reclamation in any specific instance, the basic objective will be to reestablish on a continuing basis the vegetative cover, soil stability, water conditions, and safety conditions appropriate to the intended subsequent use of the area.

(11) "Reclamation plan" shall mean the operator's written proposal, as required and approved by the department, for reclamation of the affected resources which shall include, but not be limited to:

(a) A statement of the proposed subsequent use of the land after reclamation and satisfactory evidence that all owners of a possessor interest in the land concur with this proposed use;

(b) Evidence that this subsequent use would not be illegal under local zoning regulations;

(c) Proposed practices to protect adjacent surface resources;

(d) Specifications for surface gradient restoration to a surface suitable for the proposed subsequent use of the land after reclamation is completed, and proposed method of accomplishment;

(e) Manner and type of revegetation or other surface treatment of disturbed areas;

(f) Method of prevention or elimination of conditions that will create a public nuisance, endanger public safety, damage property, or be hazardous to vegetation, animal, fish, or human life in or adjacent to the area;

(g) Method of control of contaminants and disposal of surface mining refuse;

(h) Method of diverting surface waters around the disturbed areas;

(i) Method of restoration of stream channels and stream banks to a condition minimizing erosion and siltation and other pollution;

(j) Such maps and other supporting documents as reasonably required by the department; and

(k) A time schedule for reclamation that meets the requirements of RCW 78.44.090. [1970 ex.s. c 64 § 4.]

78.44.040 Administration of chapter. The board of natural resources is charged with the administration of this chapter by utilizing the services of the department of natural resources. In order to implement the chapter's terms and provisions, the department, under the provisions of the administrative procedure act (chapter 34.04 RCW), as now or hereafter amended, may from time to time promulgate those rules and regulations necessary to carry out the purposes of this chapter. [1970 ex.s. c 64 § 5.]

78.44.050 Chapter cumulative and nonexclusive—Other laws not affected. This chapter shall not affect any of the provisions of the state fisheries laws (Title 75 RCW), the state water pollution control laws (Title 90 RCW), the state game laws (Title 77 RCW), or any other state laws, and shall be cumulative and nonexclusive. [1970 ex.s. c 64 § 6.]

78.44.060 Investigations, research, etc.—Dissemination of information. The department shall have the authority to conduct or authorize investigations, research, experiments and demonstrations, and to collect and disseminate information relating to surface mining and reclamation of surface mined lands. [1970 ex.s. c 64 § 7.]

78.44.070 Cooperation with other agencies—Receipt and expenditure of funds. The department may cooperate with other governmental and private agencies in this state and other states and agencies of the federal government, and may reasonably reimburse them for any services the department requests that they provide. The department may also receive any federal funds, state funds and any other funds and expend them for reclamation of land affected by surface mining and for purposes enumerated in RCW 78.44.060. [1970 ex.s. c 64 § 8.]

78.44.080 Operating permits—Required—Applications. After January 1, 1971, no operator shall engage in surface mining without having first obtained an operating permit from the department. Except as otherwise permitted in this section a separate permit shall be required for each separate surface mining operation. Prior to receiving an operating permit from the department an operator must submit an application on a form provided by the department, which shall contain the following information and any other pertinent data required by the department:

(1) Name and address of the legal landowner, any purchaser of the land under a real estate contract, and the operator and, if any of these are corporations or other business entities, the names and addresses of their principal officers and resident agent for service of process;

(2) Materials to be surface mined;

(3) Type of surface mining to be performed;

(4) Expected starting date of surface mining;

(5) Anticipated termination date of the surface mining project;

(6) Expected amount of mineral to be surface mined;

(7) Maximum depth of surface mining;

(8) Size and legal description of the area that will be disturbed by surface mining. If more than ten acres will be disturbed by surface mining or, regardless of the amount of land to be disturbed, if the department finds that conditions warrant it and so requests, a map of the area to be surface mined shall be submitted. The map shall show the boundaries of the area of land which will be affected; topographic detail; the location and names of all streams, roads, railroads, and utility lines on or immediately adjacent to the area; location of proposed access roads to be built in conjunction with the surface mining operation; and the names of the surface and mineral owners of all lands within the surface mining area;

[Title 78 RCW (1979 Ed.)—p 38]
A plan of surface mining that will provide, within limits of normal operational procedure of the industry, for completion of surface mining and associated disturbances on each segment of the area for which a permit is requested so that reclamation can be initiated at the earliest possible time after completion or abandonment of mining on any segment of the permit area. The plan shall provide that reclamation activities shall be completed not more than two years after completion or abandonment of surface mining on each segment of the area for which a permit is requested.

A reclamation plan will be approved by the department if it adequately Provides for the accomplishment of the activities specified in the definition of "reclamation plan", RCW 78.44.030(11), and meets those of the following minimum standards that are applicable:

(1) Excavations made to a depth not less than two feet below the low groundwater mark, which will result in the establishment of a lake of sufficiently large area and depth of water to be useful for residential, recreational, game, or wildlife purposes, shall be reclaimed in the following manner:

(a) All banks in soil, sand, gravel, and other unconsolidated materials shall be sloped to two feet below the low groundwater line at a slope no steeper than one and one-half feet horizontal to one foot vertical;

(b) Portions of solid rock banks shall be stepped or other measures be taken to permit a person to escape from the water.

(2) In all other excavations in soil, sand, gravel, and other unconsolidated materials, the side slopes and the slopes between successive benches shall be no steeper than one and one-half feet horizontal to one foot vertical for their entire length.

(3) The sides of all strip pits and open pits in rock and other consolidated materials shall be no steeper than one foot horizontal to one foot vertical, or other precautions must be taken to provide adequate safety.

(4) The slopes of quarry walls in rock or other consolidated materials shall have no prescribed angle of slope, but where a hazardous condition is created that is not indigenous to the immediate area, the quarry shall be either graded or backfilled to a slope of one foot horizontal to one foot vertical or other precautions must be taken to provide adequate safety.

(5) In strip mining operations the peaks and depressions of the spoil banks shall be reduced to a gently rolling topography which will minimize erosion and which will be in substantial conformity with the immediately surrounding land area.

(6) In no event shall any provision of this section be construed to allow stagnant water to collect or remain on the surface mined area. Suitable drainage systems shall be constructed or installed to avoid such conditions if natural drainage is not possible.

(7) All grading and backfilling shall be made with nonnoxious, nonflammable, noncombustible solids unless approval has been granted by the director for a supervised sanitary fill.

(8) In all types of surface mining, in order to prevent water pollution, all acid-forming surface mining refuse shall be disposed of by covering all acid-forming materials with at least two feet of clean fill. The final surface covering shall be graded so that surface water will drain away from the disposal area.

(9) Vegetative cover will be required in the reclamation plan as appropriate to the future use of the land.

(10) All surface mining that will disturb streams must comply with the requirements of the state fisheries laws (Title 75 RCW), and every application for an operating permit for such operations must have a reclamation plan that shall have been approved by the department of fisheries with regard to operations in streams as required by Title 75 RCW. [1970 ex.s. c 64 § 10.]

**Inspections—Provisional permits—**

**Duration of operating permits—**

**Modification of reclamation plan—**

**Successor operators.** Upon receipt of an application for a permit, the surface mining site must be inspected by a representative of the department. Within twenty-five days of receipt of the application and reclamation plan by the department and receipt of the permit fee, the department shall either issue an operating permit to the applicant or return any incomplete or inadequate application to the applicant along with a description of the deficiencies.

Failure to act within the twenty-five day period on the reclamation plan shall not be cause for a denial of a permit. The department shall set the amount of the bond

---

[Title 78 RCW (1979 Ed.)—p 39]
or other security required for a provisional permit governing the surface mining operation set forth in the application. A provisional permit shall be granted pursuant to conditions prescribed by the department until a plan is approved as long as the operator complies with the bond or security requirements established by the department: Provided, however, That a provisional permit shall not be granted if the department considers the site unsuitable for surface mining.

If the department refuses to approve a reclamation plan in the form submitted by the operator, it shall notify the operator, in writing, stating the reasons for its refusal and listing such additional requirements to the operator's reclamation plan as are necessary for the approval of the plan by the department. Within thirty days, the operator shall either accept such additional requirements as part of the reclamation plan or file notice of appeal. If notice of appeal is filed by the operator, a provisional permit shall be granted as herein specified.

The operating permit shall be granted for the period required to mine the land covered by the plan and shall be valid until the surface mining authorized by the permit is completed or abandoned, unless the permit is suspended by the department as provided in this chapter. The operating permit shall provide that the reclamation plan may be modified, after timely notice and opportunity for hearing, at any time during the term of the permit for any of the following reasons:

1. To modify the requirements so that they will not conflict with existing laws;
2. The department determines that the previously adopted reclamation plan is clearly impossible or impracticable to implement and maintain;
3. The department determines that the previously adopted reclamation plan is obviously not accomplishing the intent of this chapter; or
4. The operator and the department mutually agree to change the reclamation plan.

When one operator succeeds to the interest of another in any uncompleted surface mining operation by sale, assignment, lease, or otherwise, the department may release the first operator from the duties imposed upon him by this chapter as to such operation: Provided, That both operators have complied with the requirements of this chapter and the successor operator assumes the duty of the former operator to complete the reclamation of the land, in which case the department shall transfer the permit to the successor operator upon approval of the successor operator's bond as required under this chapter. [1970 ex.s. c 64 § 11.]

**78.44.110 Fees.** The permit fees required under this chapter shall be as follows:

1. The basic fee for the permit shall be twenty-five dollars per permit year for each separate location, payable with submission of the application and annually thereafter with submission of the report required in RCW 78.44.130.
2. In addition, there shall be a five dollar per acre fee for all acreage exceeding ten acres which was newly disturbed by surface mining during the previous permit year, which acreage fee shall be paid at the time of submission of the report required in RCW 78.44.130. [1970 ex.s. c 64 § 12.]

**78.44.120 Performance bonds and other security.** Upon receipt of an operating permit an operator other than a public or governmental agency shall not commence surface mining until the operator has deposited with the department an acceptable performance bond on forms prescribed and furnished by the department. This performance bond shall be a corporate surety bond executed in favor of the department by a corporation authorized to do business in the state of Washington under the provisions of chapter 48.28 RCW and approved by the department. The bond shall be filed and maintained in an amount equal to the estimated cost of completing the reclamation plan for the area to be surface mined during the next twelve-month period and any previously surface mined area for which a permit has been issued and on which the reclamation has not been satisfactorily completed and approved. If an operator increases the area to be surface mined during the twelve month period, the department may increase the amount of the bond to compensate for the increase. The department shall have the authority to determine the amount of the bond that shall be required, and for any reason may refuse any bond not deemed adequate. In no case shall the amount of the bond be less than one hundred dollars or more than two thousand five hundred dollars per acre or fraction thereof.

The bond shall be conditioned upon the faithful performance of the requirements set forth in this chapter and of the rules and regulations adopted pursuant thereto.

In lieu of the surety bond required by this section the operator may file with the department a cash deposit, negotiable securities acceptable to the department, or an assignment of a savings account or of a savings certificate in a Washington bank on an assignment form prescribed by the department.

Liability under the bond shall be maintained as long as reclamation is not completed in compliance with the approved reclamation plan unless released prior thereto as hereinafter provided. Liability under the bond may be released only upon written notification from the department. Notification shall be given upon completion of compliance or acceptance by the department of a substitute bond. In no event shall the liability of the surety exceed the amount of the surety bond required by this section.

A public or governmental agency shall not be required to post a bond under the terms of this chapter.

A blanket performance bond covering two or more surface mining operations may be submitted by an operator in lieu of separate bonds for each separate operation. [1977 c 66 § 1; 1970 ex.s. c 64 § 13.]

**78.44.130 Reports.** Within thirty days after completion or abandonment of mining on an area under permit or within thirty days after each annual anniversary date of the operating permit, whichever is earlier, or at such later date as may be provided by department rules and
regulations, and each year thereafter until reclamation is completed and approved, the operator shall file a report of activities completed during the preceding year on a form prescribed by the department, which report shall:

1. Identify the operator and permit number;
2. Locate the operation by subdivision, section, township, and range, and with relation to the nearest town or other well known geographic feature;
3. Estimate acreage to be newly disturbed by surface mining in the next twelve-month period; and
4. Update any maps previously submitted or provide such maps as may be specifically requested by the department. Such maps shall show:
   a. The operating permit area;
   b. The unit of surface mined area;
   c. The area to be surface mined during the next twelve-month period;
   d. If completed, the date of completion of surface mining;
   e. If not completed, the area that will not be further disturbed by the mining operations; and
   f. The date of beginning, amount, and current status of reclamation performed during the previous twelve months. An operator operating under a combined operating permit may submit a single annual report, but such report shall include the data required in this section for each separate operating area. [1970 ex.s. c 64 § 14.]

78.44.140 Inspection of permit area—Deficiencies—Extension of performance periods—Performance actions by department—Recovery of expenses—Enforcement. Upon receipt of the operator’s report, and at any other reasonable time the department may elect, the department shall cause the permit area to be inspected to determine if the operator has complied with the reclamation plan and the department’s rules and regulations.

The operator shall proceed with reclamation as scheduled in his reclamation plan. Following any written notice by the department noting deficiencies, the operator shall commence action within thirty days to rectify these deficiencies and shall diligently proceed until the deficiencies are corrected: Provided, That deficiencies that also violate other laws that require earlier rectification shall be corrected in accordance with the applicable time provisions of such laws. The department may extend performance periods referred to in this section and in RCW 78.44.090, for delays clearly beyond the operator’s control, but only when the operator is, in the opinion of the department, making every reasonable effort to comply.

Within thirty days after notification by the operator and when in the judgment of the department reclamation of a unit of surface mined area is properly completed, the mining operator shall be notified in writing and his bond on said area shall be released or decreased proportionately.

If reclamation of surface mined land is not proceeding in accordance with the reclamation plan and the operator has not commenced action to rectify deficiencies within thirty days after notification by the department, or if reclamation is not properly completed in conformance with the reclamation plan within two years after completion or abandonment of surface mining on any segment of the permit area, the department is authorized, with the staff, equipment and material under his control, or by contract with others, to take such actions as are necessary for the reclamation of the surface mined areas. The department shall keep a record of all necessary expenses incurred in carrying out any project or activity authorized under this section, including a reasonable charge for the services performed by the state’s personnel and the state’s equipment and materials utilized.

The department shall notify the operator and his surety by order. The order shall state the amount of necessary expenses incurred by the department in reclaiming the surface mined land and a notice that the amount is due and payable to the department by the operator and the surety.

If the amount specified in the order is not paid within thirty days after receipt of the notice, the attorney general, upon request of the department, shall bring an action on behalf of the state in the superior court for Thurston county or any county in which the persons to whom the order is directed do business to recover the amount specified in the final order of the department. The surety shall be liable to the state to the extent of the bond.

The amount owed the department by the operator for the reclamation performed by the state may be recovered by a lien against the reclaimed property, which may be enforced in the same manner and with the same effect as a mechanic’s lien.

In addition to the other liabilities imposed by this chapter, failure to commence action to rectify deficiencies in reclamation within thirty days after notification by the department or failure satisfactorily to complete reclamation work on any segment of the permit area within two years after completion or abandonment of surface mining on any segment of the permit area shall constitute sufficient grounds for cancellation of a permit and refusal to issue another permit to the delinquent operator until such deficiencies are corrected by the operator. [1970 ex.s. c 64 § 15.]

78.44.150 Operating without permit—Penalty. Any operator conducting surface mining within the state of Washington without a valid operating permit shall be guilty of a gross misdemeanor. Each day of operation shall constitute a separate offense. [1970 ex.s. c 64 § 16.]

78.44.160 Enjoining or stopping illegal operations. When the department finds that an operator is conducting surface mining on an area for which a valid operating permit is not in effect, or is conducting surface mining in any manner not authorized by his operating permit or by the rules and regulations adopted by the department, the department may forthwith order such operator to suspend all such operations until compliance is effected or assured to the satisfaction of the department. In the event the operator fails or declines to obey
such order, the facts may be reported by the department to the attorney general. The attorney general shall forthwith take the necessary legal action to enjoin, or otherwise cause to be stopped, such conduct of surface mining. [1970 ex.s. c 64 § 17.]

78.44.170 Appeals. Appeals from determinations made under this chapter shall be made under the provisions of the administrative procedure act (chapter 34.04 RCW), as now or hereafter amended and shall be considered a contested case within the meaning of the administrative procedure act (chapter 34.04 RCW). [1970 ex.s. c 64 § 18.]

78.44.180 Confidentiality. All reclamation plans, operators' reports and other required information under this chapter shall be for the confidential use of the department which shall by rule or regulation provide for the release thereof to proper interested persons. [1970 ex.s. c 64 § 20.]

78.44.900 Existing operations—Temporary permits. Operators of surface mines in operation on January 1, 1971 shall have ninety days thereafter to submit an application for an operating permit. Any such operator who has timely filed an application for an operating permit but for reasons beyond his control has neither received an operating permit nor had his application denied within twenty-five days after his application has been submitted as provided in RCW 78.44.080, shall have issued to him by the department a temporary operating permit, which, if the applicant is diligently pursuing his application, shall be effective until a regular operating permit is either issued or denied. [1970 ex.s. c 64 § 19.]

78.44.910 Previously mined land. This act shall not direct itself to the reclamation of land mined prior to January 1, 1971. [1970 ex.s. c 64 § 22.]

78.44.920 Effective date—1970 ex.s. c 64. This act shall become effective January 1, 1971. [1970 ex.s. c 64 § 23.]

78.44.930 Severability—1970 ex.s. c 64. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances shall not be affected. [1970 ex.s. c 64 § 24.]

78.52.001 Declaration of purpose. It is hereby declared to be in the public interest to foster, encourage, and promote the development, production, and utilization of oil and gas in the state in such manner as will prevent waste; to authorize and provide for the operation and development of oil and gas properties in such manner as to assure that the maximum economic recovery of oil and gas may be obtained and the rights of owners thereof fully protected; and to encourage, authorize, and provide for cycling, recycling, pressure maintenance and secondary recovery operations in order that the maximum economic recovery of oil and gas may be obtained to the end that landowners, royalty owners, producers, and the general public may realize and enjoy the greatest possible benefits from these vital resources. [1951 c 146 § 1.]

78.52.010 Definitions. For the purposes of this chapter, unless the text otherwise requires, the following terms shall have the following meanings:

(1) "Waste" in addition to its ordinary meaning, shall mean "physical waste" as that term is generally understood in the petroleum industry, and shall include:

(a) The inefficient, excessive or improper use of, or unnecessary dissipation of, reservoir energy; and the locating, spacing, drilling, equipping, operating or producing of any oil or gas well in a manner which results, or tends to result in reducing the quantity of oil or gas to be recovered from any pool in this state under operations conducted in accordance with good oil field engineering practices;

(b) The inefficient above ground storage of oil; and the locating, spacing, drilling, equipping, operating or producing of any oil or gas well in a manner causing, or tending to cause, unnecessary or excessive surface loss or destruction of oil or gas;

(c) Producing oil or gas in such manner as to cause unnecessary water channeling, or coning;

(d) The operation of an oil well with an inefficient gas–oil ratio;

(e) The drowning with water of any pool or part thereof capable of producing oil or gas, except insofar as, and to the extent, authorized by the committee hereunder;

(f) Underground waste;

(g) The creation of unnecessary fire hazards;

(h) The escape into the open air, from a well producing oil or gas, of gas in excess of the amount which is reasonably necessary in the efficient development or production of the well;

(i) The use of gas for the manufacture of carbon black, except as provided in *section 15 hereof; and

(j) Production of oil and gas in excess of the reasonable market demand.

(2) "Oil" shall mean crude petroleum oil, and any other hydrocarbons regardless of gravity, which are produced at the well in liquid form by ordinary production methods or which are the result of condensation of gaseous hydrocarbons before or after they leave the reservoir, other than gas produced in association with oil and commonly known as wet gas.

(3) "Gas" shall mean all natural gas and other fluid or gaseous hydrocarbons not defined as oil in subsection (2) above, including wet gas, dry gas and residue gas as those terms are generally understood in the petroleum industry.

(4) "Pool" shall mean an underground reservoir proven to contain a common accumulation of oil or gas, or both. Each zone of a general structure which is completely separated from any other zone in the structure is covered by the term "pool" as herein used.

(5) "Field" shall mean the general area which is underlaid by at least one pool and shall include the underground reservoir or reservoirs containing oil or gas, or both. The words "field" and "pool" mean the same thing when only one underground reservoir is involved; however, "field", unlike "pool", may relate to two or more pools.

(6) "Lessee" shall mean the lessee under an oil and gas lease, or the owner of any land or mineral rights who conducts or carries on any oil and gas development, exploration and operation thereon, or any person so operating for himself or others.

(7) "Person" shall mean any natural person, corporation, association, partnership, receiver, trustee, executor, administrator, guardian, fiduciary, or representative of any kind. [1951 c 146 § 3.]

*Reviser's note: The reference to "section 15 hereof" (RCW 78.52-.130) seems erroneous. The use of gas for manufacture of carbon black is provided for in 1951 c 146 § 16 (RCW 78.52.140).

78.52.020 Conservation committee created. There is hereby created and established an oil and gas conservation committee, which shall consist of the governor, the land commissioner, and the lieutenant governor together with the director of the department of ecology and the state treasurer. The governor shall be the chairman of this committee, and the commissioner of public lands shall be its executive secretary. The members of the committee may act through designated agents or deputies for the purpose of carrying out the provisions of this chapter. [1971 ex.s. c 180 § 7; 1961 c 300 § 7; 1951 c 146 § 4.]

Severability—Short title—Construction—1971 ex.s. c 180: See RCW 90.48.903, 90.48.906, and 90.48.907.

78.52.025 Hearings in general. The committee shall hold hearings at such times and places as may be found by the committee to be necessary to carry out its duties. The committee may establish its own rules for the conduct of public hearings. [1951 c 146 § 5. Formerly RCW 78.52.060.]

78.52.030 Employment of personnel. The committee shall have the authority and it shall be its duty to employ all personnel necessary to carry out the provisions of this chapter. [1951 c 146 § 6.]

78.52.031 Conduct of hearings——Evidence. The committee shall have the power to summon witnesses, to administer oaths, and to require the production of records, books, and documents for examination at any hearing or investigation conducted by it. No person shall
be excused from attending and testifying, or from produc-
ing books, papers, and records before the committee or a court, or from obedience to the subpoena of the committee or a court, on the ground or for the reason that the testimony or evidence, documentary or otherwise, required of him may tend to incriminate him or subject him to a penalty or forfeiture: Provided, That nothing herein contained shall be construed as requiring any person to produce any books, papers, or records, or to testify in response to any inquiry not pertinent to some question lawfully before such committee or court for determination. No person shall be subjected to criminal prosecution or to any penalty or forfeiture for or on account of any transaction, matter, or thing concerning which, in spite of his objection, he may be required to testify or produce evidence, documentary or otherwise before the committee or court, or in obedience to its subpoena: Provided, however, That no person testifying shall be exempt from prosecution and punishment for perjury committed in so testifying. [1951 c 146 § 7. Formerly RCW 78.52.080.]

78.52.033 Failure of witness to attend or testify—Contempt. In case of failure or refusal on the part of any person to comply with a subpoena issued by the committee or in case of the refusal of any witness to testify as to any matter regarding which he may be interrogated, any superior court in the state, upon the application of the committee, may compel him to comply with such subpoena, and to attend before the committee and produce such records, books, and documents for examination, and to give his testimony and shall have the power to punish for contempt as in the case of disobedience to a like subpoena issued by the court, or for refusal to testify therein. [1951 c 146 § 8. Formerly RCW 78.52.090.]

78.52.035 Attorney for committee. The attorney general shall be the attorney for the committee: Provided, That in cases of emergency, the committee may call upon the prosecuting attorney of the county where the action is to be brought, or defended, to represent the committee until such time as the attorney general may take charge of the litigation. [1951 c 146 § 9. Formerly RCW 78.52.110.]

78.52.040 Duty and powers of committee—In general. It shall be the duty of the committee to administer and enforce the provisions of this chapter, and all rules, regulations and orders promulgated hereunder, and the committee is hereby vested with jurisdiction, power and authority, over all persons and property, public and private, necessary to enforce effectively such duty. [1951 c 146 § 10.]

78.52.050 Rules, regulations and orders—Time and place of hearing. The committee shall have authority to make such reasonable rules, regulations and orders as may be necessary from time to time for the proper administration and enforcement of this chapter. Unless otherwise required by law or by this chapter or by rules of procedure made under this chapter, the committee may make such rules, regulations and orders, after notice, as the basis therefor. The notice may be given by publication in some newspaper of general circulation in the state in a manner and form which may be prescribed by the committee by general rule. The public hearing shall be at the time and in the manner and at the place prescribed by the committee, and any person having any interest in the subject matter of the hearing shall be entitled to be heard. [1951 c 146 § 11.]

78.52.070 Hearing upon petition for hearing—Time for action. Any interested person shall have the right to have the committee call a hearing for the purpose of taking action with respect to any matter within the jurisdiction of the committee by filing a verified written petition therefor, which shall state in substance the matter and reasons for and nature of the action requested. Upon receipt of any such request the committee, if in its judgment a hearing is warranted and justifiable, shall promptly call a hearing thereon, and after such hearing, and with all convenient speed, and in any event within twenty days after the conclusion of such hearing, shall take such action with regard to the subject matter thereof as it may deem appropriate. [1951 c 146 § 12.]

78.52.100 Records—Copies as evidence—Copies to be furnished. All rules, regulations and orders of the committee, all petitions, copies of all notices and actions with affidavits of posting, mailing or publications pertaining thereto, all findings of fact, and transcripts of all hearings shall be in writing and shall be entered in full by the committee in the permanent official records of the office of the commissioner of public lands and shall be open for inspection at all times during reasonable office hours. A copy of any rule, regulation, order, or other official records of the committee, certified by the executive secretary of the committee, shall be received in evidence in all courts of this state with the same effect as the original. The committee is hereby required to furnish for the public on request all rules, regulations, orders, and amendments thereof. [1951 c 146 § 13.]

78.52.120 Drilling permit required. Any person desiring or proposing to drill any well in search of oil or gas, before commencing the drilling of any such well, shall notify the committee upon such form as the committee may prescribe, and shall pay to the state treasurer a fee of one hundred dollars for each such permit. The drilling of any well is prohibited until such notice is given and such fee has been paid as herein provided. The committee shall have the authority to prescribe that the said form indicate the exact location of such well, the name and address of the owner, operator, contractor, driller, and any other person responsible for the conduct of drilling operations, the proposed depth of the well, the elevation of the well above sea level, and such other relevant and reasonable information as the committee may deem necessary or convenient to effectuate the purposes of this chapter. [1951 c 146 § 14.]
78.52.125 Environmental impact statement required when drilling affects surface waters of the state—Drilling may be denied, when. Any person desiring or proposing to drill any well in search of oil or gas, when such drilling would be conducted through or under any surface waters of the state, shall prepare and submit an environmental impact statement upon such form as the department of ecology shall prescribe at least one hundred and twenty days prior to commencing the drilling of any such well. Within ninety days after receipt of such environmental statement the department of ecology shall prepare and submit to each member of the committee a report examining the potential environmental impact of the proposed well and recommendations for committee action thereon. If after consideration of the report the committee determines that the proposed well is likely to have a substantial environmental impact the drilling permit for such well may be denied.

The committee shall require sufficient safeguards to minimize the hazards of pollution of all surface and ground waters of the state. If safeguards acceptable to the committee cannot be provided the drilling permit shall be denied. [1971 ex.s. c 180 § 8.]

Severability—Short title—Construction—1971 ex.s. c 180: See RCW 90.48.903, 90.48.906, and 90.48.907.
Coastal protection fund: RCW 90.48.390 and 90.48.400.
Definitions: RCW 90.48.315.
Rules and regulations: RCW 90.48.380, 90.48.410 and 90.48.907.

78.52.130 Waste prohibited. Waste of oil and gas, as defined in this chapter, is prohibited. [1951 c 146 § 15.]

78.52.140 Carbon black and carbon products—Permit required. The use of gas from a well producing gas only, or from a well which is primarily a gas well, for the manufacture of carbon black or similar products predominantly carbon, is declared to constitute waste prima facie, and such gas well shall not be used for any such purpose unless it is clearly shown, at a public hearing to be held by the committee, on application of the person desiring to use such gas, that waste would not take place by the use of such gas for the purpose or purposes applied for, and that gas which would otherwise be lost is not available for such purpose or purposes, and that the gas to be used cannot be used for a more beneficial purpose, such as for light or fuel purposes, except at prohibitive cost, and that it would be in the public interest to grant such permit. If the committee finds that the applicant has clearly shown a right to use such gas for the purpose or purposes applied for, it shall issue a permit upon such terms and conditions as may be found necessary in order to permit the use of the gas, and at the same time require compliance with the intent of this section. [1951 c 146 § 16.]

78.52.150 Investigations authorized. The committee has authority, and it shall be its duty, to make such investigations as it may deem proper to determine whether waste exists or is imminent or whether other facts exist which justify action by the committee. [1951 c 146 § 17.]

78.52.160 Powers of committee with respect to petroleum industry. The committee has authority to require:
(1) Identification of ownership of oil or gas wells, producing leases, tanks, plants, structures, and facilities for the transportation or refining of oil or gas;
(2) The making and filing of well logs, directional surveys, and reports on well locations, drilling, and production;
(3) The drilling, casing, operating, and plugging of wells in such manner as to prevent the escape of oil or gas out of one pool into another, the intrusion of water into an oil or gas pool, the pollution of fresh water supplies by oil, gas, or salt water, and to prevent blow-outs, cavings, seepages, and fires;
(4) The furnishing of a reasonable bond with good and sufficient surety, conditioned on the performance of the duty to plug each dry or abandoned well;
(5) The operation of wells with efficient gas-oil and water-oil ratios, and to fix these ratios;
(6) That the production of oil and gas from wells be accurately measured by such means and upon such standards as may be prescribed by the committee, and that every person who produces, sells, purchases, acquires, stores, transports, refines, or processes oil or gas in this state shall keep and maintain within this state complete and accurate records thereof, which records shall be available for examination by the committee or its agents at all reasonable times, and that every such person file with the committee such reports as it may prescribe with respect to such oil or gas; and
(7) Compliance with each and all of the applicable statutes of this state and the rules and regulations of the supervisor of forestry for the prevention of unreasonable loss or damage to timber. [1951 c 146 § 18.]

78.52.170 Committee may regulate production, storage, transportation and refining operations. The committee shall have further authority to regulate:
(1) The drilling, producing, spacing, and plugging of wells, and all other operations for the production of oil or gas;
(2) The shooting and chemical treatment of wells;
(3) Operations to increase ultimate recovery such as cycling of gas, the maintenance of pressure, and the introduction of gas, water, or other substances into producing formations;
(4) Disposal of salt water and oil field brines;
(5) The storage, processing, and refining of natural gas and oil produced within this state. [1951 c 146 § 19.]

78.52.180 Production may be restricted. The committee has authority to limit and to prorate oil or gas produced in this state and to restrict future production of oil and gas from any pool in such amounts as will offset and compensate for any production determined by the committee to be in excess of or in violation of "oil allowable" or "gas allowable" as defined herein. [1951 c 146 § 20.]
78.52.190 Classification of wells authorized. The committee also has authority to classify wells as oil or gas wells for purposes material to the interpretation or enforcement of this chapter. [1951 c 146 § 21.]

78.52.200 Well spacing areas—Authorized. When necessary to prevent waste, to avoid the drilling of unnecessary wells, or to protect correlative rights, the committee shall establish well spacing areas. Well spacing areas when established shall be of uniform size and shape for the entire pool, except that when found to be necessary for any of the purposes above—mentioned, the committee is authorized to divide any pool into zones and establish well spacing areas for each zone, which areas may differ in size and shape from those established in any other zone. [1951 c 146 § 22.]

78.52.210 Well spacing areas—Size and shape. The size and the shape of well spacing areas are to be such as will result in the efficient and economical development of the pool as a whole, and the size shall not be smaller than the maximum area that can be efficiently drained by one well, nor greater than forty acres for oil or one hundred sixty acres for gas only. [1951 c 146 § 23.]

78.52.220 Well spacing areas—Location of well. An order establishing well spacing areas for a pool shall specify the size and shape of each area and the location of the permitted well thereon in accordance with a reasonable uniform spacing plan. Upon application and after hearing, if the committee finds that a well drilled at the prescribed location would not produce in paying quantities, or that surface conditions would substantially add to the burden or hazard of drilling such well, the committee is authorized to enter an order permitting the well to be drilled at a location other than that prescribed by such spacing order; however, the committee shall include in the order suitable provisions to prevent the production from the well spacing area of more than its just and equitable share of the oil and gas in the pool. [1951 c 146 § 24.]

78.52.230 Well spacing areas—Order must cover entire pool—Modifications. An order establishing well spacing areas for a pool shall cover all lands determined or believed to be underlaid by such pool, and may be modified by the committee from time to time to include additional areas determined to be underlaid by such pool. When the committee determines that it is necessary for the prevention of waste, or to avoid the drilling of unnecessary wells, or to protect correlative rights, an order establishing well spacing areas in a pool may be modified by the committee to increase the size of well spacing areas in the pool or any zone thereof, or to permit the drilling of additional wells on a reasonably uniform plan in the pool, or any zone thereof. [1951 c 146 § 25.]

78.52.240 Well spacing areas—Combining of interests. When two or more separately owned tracts are embraced within a well spacing area, or when there are separately owned interests in all or a part of the well spacing area, then the owners and lessees thereof may combine their interests for the development and operation of the well spacing area. In the absence of this voluntary combination, the committee, upon the application of any interested person, shall enter an order combining all interests in the well spacing area for the development and operation thereof. Each such combining order shall be made after notice and hearing, and shall be upon terms and conditions that are just and reasonable, and that afford to the owner of each tract or interest in the well spacing area the opportunity to recover or receive, without unnecessary expense or penalty, his just and equitable share. Operations incident to the drilling of a well upon any portion of a well spacing area covered by a combining order shall be deemed, for all purposes, the conduct of such operations upon each separately owned tract in the well spacing area by the several owners thereof. That portion of the production allocated to each tract included in a well spacing area covered by a combining order shall, when produced, be deemed for all purposes to have been produced from such tract by a well drilled thereon. [1951 c 146 § 26.]

78.52.250 Combined interests in well in well spacing area—Allocation of costs. Each such combining order shall make provision for the drilling and operation of a well on the well spacing area, and for the payment of the reasonable actual cost thereof by the owners of interests in the well spacing area, plus a reasonable charge for supervision. In the event of any dispute as to such costs the committee shall determine the proper costs. If one or more of the owners shall drill and operate, or pay the expenses of drilling and operating the well for the benefit of others, then, the owner or owners so drilling or operating shall have a lien on the share of production from the well spacing area accruing to the interest of each of the other owners for the payment of his proportionate share of such expenses. Such lien shall be only against the said share of production, and not against any interest, estate, equity or title of any of the said other owners. All the oil and gas subject to the lien shall be marketed and sold and the proceeds applied in payment of the expenses secured by such lien. [1951 c 146 § 27.]

78.52.260 "Wildcat" or "exploratory" well data confidential. Whenever the committee shall require the making and filing of well logs, directional surveys or reports on the drilling of, subsurface conditions found in, or reports with respect to the substance produced, or capable of being produced from, a "wildcat" or "exploratory" well, as those terms are used in the petroleum industry, such logs, surveys, reports or information shall be kept confidential by the committee for a period of one year, if at the time of filing such logs, surveys, reports or other information, the owner, lessee, or operator of such well requests that such information be kept confidential: Provided, however, That the committee shall have the right to divulge or use such information in a public hearing or suit when it is necessary for the enforcement of the provisions of this chapter or any rule, regulation or order made hereunder. [1951 c 146 § 28.]

[Title 78 RCW (1979 Ed.)—p 46]
78.52.270 Limitation of production to "oil allowable"—Proration. Whenever the total amount of oil which all of the pools in this state can currently produce in accordance with good operating practices, exceeds the amount reasonably required to meet the reasonable market demand, the committee shall limit the oil which may be currently produced in this state to an amount, designated the "oil allowable". The committee shall then prorate this "oil allowable" among the pools on a reasonable basis, avoiding undue discrimination among the pools, and so that waste will be prevented. In determining the "oil allowable", and in prorating such "oil allowable" among the pools in the state, the committee shall take into account the producing conditions and other relevant facts with respect to such pools, including the separate needs for oil and gas, and separate needs for oil of particular kinds or qualities, and shall formulate rules setting forth standards or a program for the determination of the "oil allowable", and shall prorate the "oil allowable" in accordance with such standards or program, and where conditions in one pool or area are substantially similar to those in another pool or area, then the same standards or program shall be applied to such pools or areas so that as far as practicable a uniform program will be followed: Provided, however, That if the amount prorated to a pool as its share of the "oil allowable" is in excess of the amount which the pool can efficiently produce currently, then the committee shall prorate to such pool the maximum amount which can be efficiently produced currently without waste. [1951 c 146 § 29.]

78.52.280 Determining market demand—No undue discrimination in proration of "allowable". The committee shall not be required to determine the reasonable market demand applicable to any single pool of oil except in relation to all pools producing oil of similar kind and quality and in relation to the reasonable market demand. The committee shall prorate the "allowable" in such manner as will prevent undue discrimination against any pool or area in favor of another or others resulting from selective buying or nomination by purchasers. [1951 c 146 § 30.]

78.52.290 Limitation of production to "gas allowable"—Proration. Whenever the total amount of gas which all of the pools in this state can currently produce in accordance with good operating practice exceeds the amount reasonably required to meet the reasonable market demand, the committee shall limit the gas which may be currently produced to an amount, designated as the "gas allowable", which will not exceed the reasonable market demand for gas. The committee shall then prorate the "gas allowable" among the pools on a reasonable basis, avoiding undue discrimination among the pools, and so that waste will be prevented, giving due consideration to location of pipe lines, cost of interconnecting such pipe lines, and other pertinent factors, and insofar as applicable, the provisions of RCW 78.52.270 shall be followed in determining the "gas allowable" and in prorating such "gas allowable" among the pools therein: Provided, however, That in determining the reasonable market demand for gas as between pools, the committee shall give due regard to the fact that gas produced from oil pools is to be regulated in a manner which will protect the reasonable use of gas energy for oil production and promote the most or maximum efficient recovery of oil from such pools. [1951 c 146 § 31.]

78.52.300 Limitation of gas production from one pool. Whenever the total amount of oil which may be currently produced from any pool to an amount less than that which the pool could produce if no restrictions were imposed (whether incidental to, or without, a limitation of the total amount of oil which may be produced in the state) the committee shall prorate the allowable production for the pool among the producers in the pool on a reasonable basis, so that each producer will have opportunity to produce or receive his just and equitable share, subject to the reasonable necessities for the prevention of waste, giving where reasonable, under the circumstances, to each pool with small wells of settled production, allowable production which prevents the premature abandonment of wells in the pool.

All orders establishing the "oil allowable" and "gas allowable" for this state, and all orders prorating such allowables as herein provided, and any changes thereof, for any month or period shall be issued by the committee on or before the fifteenth day of the month preceding the month for which such orders are to be effective, and such orders shall be immediately published in some newspaper of general circulation printed in Olympia, Washington. No orders establishing such allowables, or prorating such allowables, or any changes thereof, shall be issued without first having a hearing, after notice, as provided in this chapter: Provided, however, When in the judgment of the committee, an emergency requiring immediate action is found to exist, the committee is authorized to issue an emergency order under this section which shall have the same effect and validity as if a hearing with respect to the same had been held after due notice. The emergency order permitted by this subsection shall remain in force no longer than thirty days, and in any event it shall expire when the order made after due notice and hearing with respect to the subject matter of the emergency order becomes effective. [1951 c 146 § 32.]

78.52.310 Proration of allowable production in pool—Publication of orders—Emergency orders.

When in the judgment of the committee, an emergency requiring immediate action is found to exist, the committee is authorized to issue an emergency order under this section which shall have the same effect and validity as if a hearing with respect to the same had been held after due notice. The emergency order permitted by this subsection shall remain in force no longer than thirty days, and in any event it shall expire when the order made after due notice and hearing with respect to the subject matter of the emergency order becomes effective. [1951 c 146 § 33.]
Title 78 RCW: Mines, Minerals, and Petroleum

78.52.320 Compliance with limitation or proration required. Whenever the production of oil or gas in this state or any pool therein is limited and the "oil allowable" or "gas allowable" is established and prorated by the committee as provided in RCW 78.52.310, no person shall thereafter produce from any well, pool, lease or property more than the production which is prorated thereto. [1951 c 146 § 34.]

78.52.330 Unit operation of separately owned tracts. To assist in the development of oil and gas in this state and to further the purposes of this chapter, the persons owning interests in separate tracts of land, may validly agree to integrate their interests and manage, operate and develop their land as a unit, subject to the approval of the committee. [1951 c 146 § 35.]

78.52.340 Unit operation for conduct of secondary recovery operations. When in the judgment of the committee production in any pool or field shall have declined to a point where secondary recovery operations are advisable or necessary, if the lessees or owners of oil and gas rights cannot agree on a unit plan of operation covering the pool or field as a whole, the committee may, after a hearing as hereinafter provided, enter and enforce an order for the unit or cooperative development and operation of a field or pool, in connection with the conduct of repressuring or pressure maintenance operations, cycling or recycling operations, including the extraction and separation of liquid hydrocarbons from natural gas in connection therewith, or any other method of operation, including water floods. [1951 c 146 § 36.]

78.52.350 Unit plan—Requisites in general. Any unit plan shall:

(1) Define and identify the unit area to be included in, and subject to, the unit plan;

(2) Contain a statement of the nature and purpose of the operation contemplated;

(3) Provide for the efficient unitized management or control of the operation of the unit area for the recovery and production of oil and gas from the pool affected. Under such a plan the actual operations within the unit area may be carried on, in whole or in part, by the several lessees of land within the unit area, or may be conducted by some particular lessee of a lease in the unit area, who is designated as unit operator, dependent upon what is most beneficial or expedient. The designation of the unit operator shall be by vote of the lessees of land in the unit area in a manner provided in the unit plan; and

(4) Provide for the division of interest and formula for the apportionment and allocation, among and to each of the several separately-owned tracts within the unit area, of a fair, equitable and reasonable share of the production from the pool. [1951 c 146 § 38.]

78.52.360 Unit plan—Provisions for financing and allocation of costs. Any unit plan shall provide for the manner in which the development and operation of the unit area shall or may be financed and the basis, terms and conditions on which the cost thereof shall be apportioned among, and assessed against, the tracts and interests made chargeable therewith, including a detailed accounting procedure governing all charges and credits incident to such operations. Upon and subject to such terms and conditions as to time and rate of interest as may be fair to all concerned, reasonable provisions shall be made in the unit plan for carrying or otherwise financing lessees who are unable to meet their financial obligations under the unit plan. The share of such financing properly and proportionately chargeable to any such lessee may become a lien on such lessee's share of production under the unit plan, but in no event shall any such lien be or operate against any interest, estate, equity or title of any such lessee, but only against the said share of production. [1951 c 146 § 39.]

78.52.370 Unit plan—Additional provisions. Any unit plan shall also:

(1) Provide for the procedure and basis upon which wells, equipment and other properties of the several lessees within the unit area are to be taken over and used, including the method of arriving at the compensation therefor, or of otherwise proportionately equalizing or adjusting the investment of the several lessees in the unit area as of the effective date of the unit plan;

(2) Provide a fair and equitable plan for the general over-all management and control of the unit area. Each lessee of land within the unit area shall be entitled to representation in the general over-all management and control of the unit development and operations. Voting shall be on a fair, equitable, and reasonable basis as provided in such unit plan;

(3) Provide that the obligations or liabilities of the lessees shall at all times be several and not joint or collective, and in no event shall a lessee be chargeable with, obligated, or liable, directly or indirectly, for more than the amount of expenses apportioned or otherwise assessed or charged to his interest in his separately-owned tract pursuant to the unit plan;

(4) Provide that each lessee shall own and take in kind his share of the production allocated under the unit plan;

(5) Provide for possible amendments to the unit plan; and

(6) Contain such other provisions as the lessees may deem appropriate for the prevention of waste or protection of all interested parties. [1951 c 146 § 40.]

78.52.380 Unit plan proposal—Hearing required. All petitions or proposals for the creation of a unit and approval of a unit plan shall be set for public hearing by the committee, and the date of the first of such hearings shall be not less than thirty days, nor more than sixty days, from the filing of such petition or proposal. [1951 c 146 § 41.]

78.52.390 Unit plan proposal—Notice of hearing. Notice of the time and place of the first of such hearings, and a description of the lands within the unit area, shall be given by publication and in the following manner:

[Title 78 RCW (1979 Ed.)—p 48]
(1) Publication on three consecutive days, at least ten days prior to said hearing, in some newspaper of general circulation printed in Olympia, Washington, and by publication on three consecutive days, at least ten days prior to said hearing, in some newspaper of general circulation in the county, or in each county, if there be more than one, in which the lands embraced in the petition are situated; and

(2) Mailing a postal card notice to the last known post office address as shown by the record of the county treasurer in the county where the land is located not less than thirty days prior to the date of the first of such hearings to all persons owning interests in the land within the unit area. [1951 c 146 § 42.]

78.52.400 Unit plan proposal—Hearing, notice of continuance on recess. If the hearing cannot be completed on the first day set for such hearing, the committee shall, before adjournment or recess thereof, publicly announce the time and place at which the hearing will be continued, and such announcement will serve as sufficient notice of such continuance without recourse to the form of public notice as provided above in this section. [1951 c 146 § 43.]

*Reviser's note: The reference to 'this section' seems erroneous. Public notice is provided for in the preceding section (RCW 78.52.390).

78.52.410 Unit plan proposal—Findings and order on hearing. Within fifteen days after completion of the public hearings held in accordance with the procedure and requirements herein provided, the committee shall determine from the facts and evidence presented to it:

(1) Whether the unit plan, attached to such petition, or proposal, for the management and operation of a pool is proper, feasible, equitable, reasonably necessary, is for the common good and will result in the general advantage of the lessees and owners of the oil and gas rights within the pool; will prevent waste; will distribute the oil, and gas produced therewith, recovered from the pool, on a fair and equitable basis; and will increase the ultimate recovery of oil from the pool, and that the estimated additional oil to be recovered from the pool under the unit plan will exceed the estimated additional expense, if any, of the conduction of operations under such unit plan;

(2) Whether the unit plan, attached to such petition, or proposal, for the management and operation of a pool containing gas only is proper, feasible, equitable, reasonably necessary, is for the common good, and will result in the general advantage of the lessees and owners of the gas rights within the pool; will prevent waste; and will distribute the gas recovered from the pool on a fair and equitable basis.

If it is the determination of the committee that the unit plan will accomplish the requirements set forth above, it shall make a finding to that effect, reciting in detail, the considerations upon which such finding is based. [1951 c 146 § 44.]

78.52.420 Unit plan proposal—Leases and contracts conformed to unit plan. From and after the date designated by the committee that a unit plan shall be effective, oil and gas leases upon lands within the unit area, or other contracts pertaining to the development thereof, shall be conformed to meet the provisions and requirements of such unit plan, but otherwise to remain in full force and effect. Operations carried on under and in accordance with such unit plan shall be regarded and considered as fulfillment of and compliance with all of the provisions, covenants, and conditions, expressed or implied, of the several oil and gas leases upon lands within the unit area, or other contracts pertaining to the development thereof, insofar as said leases, or other contracts, may relate to the pool or field subject to such unit plan. The amount of production apportioned and allocated, pursuant to said unit plan, to each separately-owned tract within the unit area, and only that amount, regardless of the location of the well within the unit area from which it may be produced, and regardless of whether it be more or less than the amount of production from the well, if any, on each separately-owned tract, shall for all intents, uses and purposes be regarded as production from such separately-owned tract, and lessees shall not be obligated to pay royalties or make other payments, required by the oil and gas leases or other contracts affecting each such separately-owned tract, on production in excess of that amount apportioned and allocated to such separately-owned tract pursuant to the unit plan. [1951 c 146 § 45.]

78.52.430 Operations contrary to unit plan prohibited. From and after the date designated by the committee that a unit plan shall become effective, the operation of any well producing from the pool within the area subject to said unit plan, by persons other than persons acting under the authority of the unit plan, or except in the manner and to the extent 'provided in such unit plan, shall be unlawful and is hereby prohibited. [1951 c 146 § 46.]

78.52.440 Amendment of unit plan. In any proceeding hereunder in which an order is entered creating a unit and approving a unit plan, the committee shall retain jurisdiction thereof and of all parties in interest for the purpose of amending the unit plan from time to time whenever by reason of changed conditions or otherwise for good cause shown it is made to appear that such amendment is necessary or proper. Any amendment to a unit plan made pursuant hereto shall be effective prospectively only from and after the date on which the order providing for such amendment shall become final. The procedure for any such amendment, including the filing of a petition, the giving of notice and conduct of hearings, shall be the same as that required for the creation of a unit in the same instance, insofar as applicable. [1951 c 146 § 47.]

[Title 78 RCW (1979 Ed.)—p 49]
78.52.450 Participation of public lands in unit plan.
The commissioner of public lands, or other officer or
board having the control and management of state land,
and the proper board or officer of any political, municip­
al, or other subdivision or agency of the state having
control and management of public lands, may, on behalf
of the state or of such political, municipal, or other sub­
division or agency thereof, with respect to land and oil
and gas rights subject to the control and management of
such respective body, board or officer, consent to and
participate in any unit plan. [1951 c 146 § 48.]

78.52.460 Unit plan not deemed monopolistic. No
plan for the operation of a field or pool of oil or gas as a
unit, either whole or in part, created or approved by the
committee hereunder shall be held to violate any of the
statutes of this state prohibiting monopolies or acts, ar­
rangements, agreements, contracts, combinations or con­
spiracies in restraint of trade or commerce. [1951 c 146
§ 49.]

78.52.470 Objections to rule, regulation, order—
Hearing required—Modification. Any person ad­
versely affected by any rule, regulation or order of the
committee may, within thirty days from the effective
date of such rule, regulation or order, apply for a hear­
ing with respect to any matter determined therein; the
application shall be granted or denied by the committee
within fifteen days from the date the same shall be filed,
and if the hearing is not granted within fifteen days it
shall be taken as denied. If a hearing is granted, the
matter shall be set for hearing by the committee within
thirty days after the same is submitted. No cause for
action arising out of any rule, regulation or order of the
committee shall accrue in any court to any party unless
such party makes application for a hearing as herein
provided. Such application shall set forth specifically the
ground on which the applicant considers such rule, reg­
ulation or order to be unlawful or unreasonable. No
party shall, in any court, urge or rely upon any ground
not set forth in said application. A rule, regulation, or
order made in conformity to a decision resulting from a
hearing which abrogates[,] changes or modifies the origi­
nal rule, regulation or order, shall have the same force
and effect as an original. [1951 c 146 § 50.]

78.52.480 Appeal from rule, regulation, order—
Rights of committee. In proceedings for review of a rule,
regulation or order of the committee, the committee
shall be a party to the proceedings and shall have all
rights and privileges granted by this chapter to any other
party to such proceedings. [1951 c 146 § 51.]

78.52.490 Appeal—How taken. Within thirty days
after the application for a hearing is denied, or if the
application is granted, then within thirty days after the
rendition of the decision on the hearing, the applicant
may apply to the superior court of Thurston county for a
review of such rule, regulation, order or decision. The
application for review shall be filed in the office of the
clerk of the superior court of Thurston county and shall
specifically state the grounds for review upon which the
applicant relies and shall designate the rule, regulation,
order or decision sought to be reviewed. The applicant
shall immediately serve a certified copy of said applica­
tion upon the executive secretary of the committee who
shall immediately notify all parties who appeared in the
proceedings before the committee that such application
for review has been filed. [1951 c 146 § 52.]

78.52.500 Transcript—Filing—Scope of re­
view—Appeal. The executive secretary, upon receipt of
said copy of the application for review, shall forthwith
transmit to the clerk of the superior court in which the
application for review has been filed, a certified tran­
script of all pleadings, applications, proceedings, rules,
regulations or orders of the committee and of the evi­
dence heard by the committee on the hearings of the
matter or cause: Provided, That the parties, with the
consent and approval of the committee may stipulate in
writing that only certain portions of the record be tran­
scribed. Said proceedings for review shall be for the
purpose of having the lawfulness or reasonableness of the
rule, regulation, order or decision of the committee,
inquired into and determined, and the superior court
hearing said cause shall have the power to vacate or set
aside such rule, regulation, order or decision on the
ground that it is unlawful or unreasonable. After the
said transcript is filed, the judge of said superior court
may, on his motion, or on application of any parties in­
terested therein, make an order fixing a time for the fil­
ing of the transcript and briefs and shall fix a day for
the hearing of the cause. All proceedings under this sec­
tion shall have precedence in any court in which they
may be pending. An appeal shall lie to the supreme
court or the court of appeals of this state from orders,
judgments and decisions made by the superior court.
The procedure upon the trial of such proceedings in the
superior court and upon appeal to the supreme court or
the court of appeals of this state shall be the same as in
other civil actions, except as herein provided. [1971 c 81
§ 138; 1951 c 146 § 53.]

78.52.510 Hearing the appeal—New or additional
evidence—Effect of affirmation. No new or additional
evidence may be introduced upon the trial of any pro­
cedings for review under the provisions of this chapter,
but the cause shall be heard upon the questions of fact
and law presented by the evidence and exhibits intro­
buled before the committee and certified by it: Provided,
That if it is shown to the satisfaction of the court that
any party to the proceeding has additional material evi­
dence which could not, by the exercise of due diligence,
have been produced at the hearing before the committee,
or which for some good reason it was prevented from
producing at such hearing, or if upon the trial of the
proceeding the court shall find the committee has erro­
neously refused to admit or consider material evidence
offered by any party at the hearing before the committee
the court may, in its discretion, stay the proceedings and
make an order directing the committee to hear and con­
sider such evidence. In such cases, the committee shall
immediately hear and consider such evidence and make
an order modifying, setting aside or affirming its former
rule, regulation, order or decision. A transcript of the additional evidence and the rule, regulation, order or decision of the committee as modified or affirmed, shall immediately be certified and forwarded to the clerk of the superior court in which such proceeding is pending, and said superior court shall on the motion of any interested party, order the trial to proceed upon the transcript as supplemented, so as to enable the court to properly determine if the rule, regulation, order or decision of the committee as originally made, or as modified, is in any respect unlawful or unreasonable. If the rule, regulation, order or decision of the committee is affirmed by the court it shall continue in force and effect as if no appeal were pending. [1951 c 146 § 54.]

78.52.520 Stay, pending appeal. The filing or pendency of the application for review provided for in this chapter shall not in itself stay or suspend the operation of any rule, regulation or order, but the court, in its discretion, may stay or suspend, in whole or in part, the operation of the rule, regulation or order of the committee. [1951 c 146 § 55.]

78.52.530 Violations—Injunctions. Whenever it shall appear that any person is violating any provisions of this chapter, or any rule, regulation or order made by the committee hereunder, and if the committee cannot, without litigation, effectively prevent further violation, the committee may bring suit in the name of the state against such person in the superior court in the county of the residence of the defendant, or in the county of the residence of any defendant if there be more than one defendant, or in the county where the violation is alleged to have occurred, to restrain such person from continuing such violation. In such suit the committee may without bond obtain injunctions prohibitory and mandatory, including temporary restraining orders and preliminary injunctions, as the facts may warrant. [1951 c 146 § 56.]

78.52.540 Violations—Injunctions by private party. In the event the committee should fail to bring suit within thirty days to enjoin any apparent violation of this chapter, or of any rule, regulation or order made by the committee hereunder, then any person or party in interest adversely affected by such violation, who has requested the committee in writing to sue, may, to prevent any or further violation, bring suit for that purpose in the superior court of any county where the committee could have instituted such suit. If, in such suit, the court should hold that injunctive relief should be granted, then the state shall be made a party and shall be substituted for the person who brought the suit, and the injunction shall be issued as if the state had at all times been the complainant. [1951 c 146 § 57.]

78.52.550 Violations—Penalty. Every person who shall violate or knowingly aid and abet the violation of this chapter or any valid orders, rules and regulations issued thereunder, or who fails to perform any act which is herein made his duty to perform, shall be guilty of a gross misdemeanor. [1951 c 146 § 58.]

Reviser's note: Appendix following Title 79 RCW: Subject Index—Public Land Acts of Special or Historical Nature—Not Codified in RCW.

The powers and duties of most of the public agencies mentioned in Title 79 RCW have been transferred, at least in part, to the department of natural resources, see chapter 43.30 RCW (chapter 38, Laws of 1957). The purpose of said chapter, as provided in RCW 43.30.010, is "to provide for more effective and efficient management of the forest and land resources in the state by consolidating into a department of natural resources certain powers, duties and functions of the division of forestry of the department of conservation and development, the board of state land commissioners, the state forest board, all state sustained yield forest committees, director of conservation and development, state capitol committee, director of licenses, secretary of state, tax commission and commissioner of public lands".

The division of forestry of the department of conservation and development, the board of state land commissioners, the state forest board and the state sustained yield forest committees, were abolished in 1957; see RCW 43.30.070 (1957 c 38 § 7).

The interest rate shall be fixed, from time to time, by rule adopted by the board of natural resources and shall not be less than six percent per annum. The applicable rate of interest as fixed at the date of sale and the maximum extension payment shall be set forth in the contract. The method for calculating the unpaid portion of the contract upon which such interest shall be paid by the purchaser shall be set forth in the contract. The department of natural resources shall pay into the state treasury all sums received for such extension and the same shall be credited to the fund to which was credited the original purchase price of the material so sold: And provided further, That any sale of timber, fallen timber, stone, gravel, sand, fill material, or building stone of an appraised value of five hundred dollars or less may be sold directly to the applicant for cash at full appraised value without notice or advertising. It shall be the duty of the commissioner of public lands to, simultaneously with the establishment of harbor lines and the determination of harbor areas in front of any city or town, or as soon thereafter as practicable, survey and plat all tide and shore lands of the first class not heretofore platted, and in platting the same to lay out streets which shall thereby be dedicated to public use, subject to the control of the cities or towns in which they are situated, and establish one or more public waterways not less than fifty nor more than one thousand feet wide, beginning at the outer harbor line and extending inland across the tidelands belonging to the state, which waterways shall include within their boundaries, as near as practicable, all navigable streams running through such tidelands, and shall be located at such other places as in the judgment of the commissioner of public lands may be necessary for the present and future convenience of commerce, and such waterways heretofore established under former laws or hereafter established shall be reserved from sale or lease as public ways for watercraft until vacated as provided in this chapter, and it shall be the duty of the commissioner of public lands to appraise the value of

79.01.436 Tide and shore lands—Plats—Record. The commissioner of public lands shall prepare plats showing all tide and shore lands surveyed, platted and appraised by him in the respective counties, on which shall be marked the location of all such lands, with reference to the lines of the United States survey of the abutting upland, and shall prepare in well bound books a record of his proceedings, including a list of said tide and shore lands surveyed, platted, or replatted, and appraised by him and his appraisal of the same, which plats and books shall be in triplicate, and the commissioner shall file one copy of such plats and records in his office, and file one copy in the office of the county auditor of the county where the lands platted, or replatted, and appraised are situated, and file one copy in the office of the city engineer of the city in which, or within two miles of which, the lands platted, or replatted, are situated. 79.01.440 Tide and shore lands—Appraisal—Record. In appraising tide or shore lands hereafter platted, or replatted, by the commissioner of public lands, the commissioner shall appraise each lot, tract or piece of land separately, and shall enter in a well bound book to be kept in his office a description of each lot, tract or piece of tide or shore land, its full appraised value, the area and rate per acre at which it was appraised, and if any lot is covered in whole or in part by improvements in actual use for commerce, trade, residence, or business, on, or prior to, the date of the plat or replat, the commissioner shall enter the name of the owner, or reputed owner, the nature of the improvements, the area covered by the improvements, the portion of each lot, tract or piece of land covered, and the appraised value of the land covered, with, and exclusive of, the improvements. [1927 c 255 § 110; RRS § 7797-110. Prior: 1897 c 89 § 41; 1895 c 178 § 54. Formerly RCW 79.16.230.]

79.01.444 Tide and shore lands—Notice of filing plat and record of appraisal—Appeal. The commissioner of public lands shall, before filing in his office the plat and record of appraisement of any tide or shore lands platted and appraised by him, cause a notice to be published once each week for four consecutive weeks in a newspaper published and of general circulation in the county wherein the land covered by such plat and record are situated, stating that such plat and record, describing it, is complete and subject to inspection at the office of the commissioner of public lands and will be filed on a certain day to be named in the notice.

Any person claiming a preference right of purchase of any of the tide and shore lands platted and appraised by the commissioner of public lands, and who feels aggrieved at the appraisement fixed by the commissioner upon said lands, or any part thereof, may within sixty days after the filing of such plat and record in the office of the commissioner (which shall be done on the day fixed in said notice), appeal from such appraisement to the superior court of the county in which the tide or shore lands are situated, in the manner provided by this chapter for appeals from orders or decisions.

The prosecuting attorney of any county, or city attorney of any city, in which such lands are situated, shall at the request of the governor, or of ten freeholders of the county or city, in which such lands are situated, appeal on behalf of the state, or the county, or city, from any such appraisement in the manner hereinafter provided.

Notice of such appeal shall be served upon the commissioner of public lands, and it shall be his duty to immediately notify all persons claiming a preference right to purchase the lands the appraisement of which has been appealed from.

Any party, other than the state, county or city, appealing, shall execute a bond to the state with sufficient surety, to be approved by the commissioner of public lands, in the sum of two hundred dollars conditioned for the payment of costs on appeal.

The superior court to which an appeal is taken shall hear evidence as to the value of the lands appraised and enter an order confirming, or raising, or lowering the appraisement appealed from, and the clerk of the court shall file a certified copy thereof in the office of the commissioner of public lands. The appraisement fixed by the court shall be final. [1927 c 255 § 111; RRS § 7797-111. Prior: 1897 c 89 § 44; 1895 c 178 § 57. Formerly RCW 79.16.240.]

79.01.448 Tide and shore lands—Preference right of upland owner—How exercised. Upon plating and appraisal of tide or shore lands of the first class, as in this chapter provided, if the department of natural resources shall deem it for the best public interests to offer said tide or shore lands of the first class for lease, the department shall cause a notice to be served upon the owner of record of land fronting upon the tide or shore lands to be offered for lease if he be a resident of this state, or if he be a nonresident of this state, shall mail to his last known post office address, as reflected in the county records, a copy of the notice notifying him that the state is offering such tide or shore lands for lease, giving a description and the department's appraised fair market value of such tide or shore lands for lease, and notifying such owner that he has a preference right to

[Title 79 RCW (1979 Ed.)—p 26]
apply to lease said tide or shore lands at the appraised value for the lease thereof for a period of sixty days from the date of service or mailing of said notice. If at the expiration of the sixty days from the service or mailing of the notice, as above provided, there being no conflicting applications filed, and the owner of land fronting upon the tide or shore lands offered for lease has failed to avail himself of his preference right to apply to lease or to pay to the department the appraised value for lease of the tide or shore lands described in said notice, then in that event, said tide or shore lands may be offered for lease and leased in the manner provided for the lease of state lands.

If at the expiration of sixty days two or more claimants asserting a preference right to lease shall have filed applications to lease any tract, conflicting with each other, the conflict between the claimants shall be equitably resolved by the department of natural resources as the best interests of the state require in accord with the procedures prescribed by chapter 34.04 RCW. Provided, That any contract purchaser of land or rights, which land qualifies the owner for a preference right under this section, shall have first priority for such preference right.

The foregoing sections are intended to afford a method of procedure, in addition to other methods provided in this chapter for the vacation of streets, alleys, waterways and other public places, all persons interested in the title to such tide or shore lands desired for public places shall join in the dedication of such replat before it shall become effective. 79.01.460 Tide and shore lands—Dedication of replat—All interests must join. If in the preparation of such replat by the commissioner of public lands it becomes desirable to appropriate any tide or shore lands heretofore sold, for use as streets, alleys, waterways or other public places, all persons interested in the title to such tide or shore lands desired for public places shall join in the dedication of such replat before it shall become effective. 79.01.464 Tide and shore lands—Vacation by replat—Preference right of tideland owner. If any street, alley, waterway or other public place heretofore platted is vacated by a replat as in the foregoing sections provided and any new street, alley, waterway or public place is so laid out as to leave unsold tidelands between such new street, alley, waterway or other public place, and tidelands heretofore sold, the owner of said tidelands heretofore sold shall have the preference right, for sixty days after the final approval of such replat, to purchase the unsold tidelands so intervening at the appraised value thereof. [1927 c 255 § 116; RRS § 7797–116. Prior: 1901 c 161 § 1; 1897 c 89 § 40; 1895 c 178 §§ 58, 61. Formerly RCW 79.16.290.]

79.01.468 Tide and shore lands—Vacation procedure cumulative. The foregoing sections are intended to afford a method of procedure, in addition to other methods provided in this chapter for the vacation of streets, alleys, waterways and other public places platted on tide or shore lands. [1927 c 255 § 117; RRS § 7797–117. Formerly RCW 79.16.300.]

79.01.470 First and second class tidelands and shorelands, waterways of state to be sold only to public entities—Leasing—Limitation. (1) This section shall only apply to:

(a) First class tidelands as defined in RCW 79.01.020;
(b) Second class tidelands as defined in RCW 79.01.024;
(c) First class shorelands as defined in RCW 79.01.028; and
(d) Second class shorelands as defined in RCW 79.01.032.

(e) Waterways as defined in RCW 79.01.428.

(2) Notwithstanding any other provision of law, from and after August 9, 1971, all tidelands and shorelands enumerated in subsection (1) owned by the state of Washington shall not be sold except to public entities as may be authorized by law or except as provided in *section 2 of this 1974 amendatory act, and shall not be given away.

(3) Tidelands and shorelands enumerated in subsection (1) may be leased for a period not to exceed fifty–
five years: Provided, That nothing herein shall be construed as modifying or canceling any outstanding lease during its present term.

(4) Nothing herein shall:
(a) be construed to cancel an existing sale contract;
(b) prohibit sale or exchange of beds and shorelands where the water course has changed and the area now has the characteristics of uplands;
(c) prevent exchange involving state-owned tide and shorelands. [1974 ex.s. c 186 § 1; 1971 ex.s. c 217 § 2.]

Reviser’s note: *(1) Section 2 of 1974 ex.s. c 186 was vetoed.
(2) For exception to this section, see RCW 79.01.474.

79.01.471 Construction of RCW 79.01.470—Use and occupancy fee where unauthorized improvements placed on publicly owned aquatic lands. Nothing in RCW 79.01.470 and 79.01.471 shall be construed to prevent the assertion of public ownership rights in publicly owned aquatic lands or the leasing of such lands when such leasing is not contrary to the state-wide public interest.

The department of natural resources may require the payment of a use and occupancy fee in lieu of a lease where improvements have been placed without authorization on publicly owned aquatic lands. [1974 ex.s. c 186 § 3.]

79.01.472 Vacation of waterways—Extension of streets. Whenever any waterway established under the authority of the laws of this state, or any portion of such waterway, shall not have been excavated, or shall not be in use for the purposes of navigation, or shall no longer be required in the public interest to exist as a waterway, such waterway or portion thereof may be vacated by written order of the commissioner of public lands of the state of Washington whenever he shall be requested so to do by ordinance or resolution of the city council of the city in which such waterway is situate, in whole or in part, or, in case such waterway is situate, in whole or in part, in a port district organized under the laws of the state of Washington, whenever he shall be requested so to do by resolution of the port commission of such port district; and upon the making of such order the waterway or portion thereof shall thereupon be deemed to be and shall be thereby vacated: Provided, however, That if the waterway or portion thereof so vacated be navigable water of the United States, or otherwise within the jurisdiction of the United States, a copy of such resolution or ordinance, together with a copy of said order of the commissioner of public lands certified to by him, shall be submitted to the secretary of the army and chief of engineers of the United States for their approval, and if they approve the same such waterway or portion thereof shall thereupon be deemed to be and shall be thereupon vacated.

Upon such vacation occurring, in either of the manners aforesaid, the commissioner of public lands shall notify the city within, or in front of, which, such waterway is located, and the city shall have the right to extend across the portions so vacated any existing streets, or to select therefrom such portions thereof as the city may desire for street purposes, in no case to exceed one hundred fifty feet in width for any one street. Such selection shall be made within sixty days subsequent to the receipt of notice of the vacation of the portion of the waterway so vacated.

Should such city fail to make such selection within such time, or within such time make such selection, the title of the remaining portions of such waterway so vacated shall vest in the state, unless the same be situate within the territorial limits of a port district created under the laws of the state, in which event such title shall vest in said port district. If subsequent to such vacation, the vacated waterway or portion of waterway shall be embraced within the limits of a port district created under the laws of the state, the title to such portions thereof as shall then remain undisposed of by the state shall vest in such port district. Such title so vesting shall be subject to any railroad or street railway crossings existing at the time of such vacation. [1967 ex.s. c 105 § 1; 1927 c 255 § 118; RRS § 7797–118. Prior: 1913 c 171 §§ 1, 2; 1909 c 63 §§ 1 through 3. Formerly RCW 79.16.310.]

Severability—1967 ex.s. c 105: See RCW 79.24.646.

79.01.474 Second class shorelands—Sale. (1) The legislature finds that maintaining public lands in public ownership is often in the public interest. However, when second class shorelands on navigable lakes have minimal public value, the sale of those shorelands to the abutting upland owner may not be contrary to the public interest: Provided, That the purpose of this section is to remove the prohibition contained in RCW 79.01.470 regarding the sale of second class shorelands to abutting owners, whose uplands front upon the shorelands. Nothing contained in this section shall be construed to otherwise affect the rights of interested parties relating to public or private ownership of shorelands within the state.

(2) Notwithstanding the provisions of RCW 79.01.470, the department of natural resources may sell second class shorelands on navigable lakes to abutting owners whose uplands front upon the shorelands in cases where the board of natural resources has determined that these sales would not be contrary to the public interest. These shorelands shall be sold at the fair market value, but not less than five percent of the fair market value of the abutting upland, less improvements, to a maximum depth of one hundred fifty feet landward from the line of ordinary high water.

(3) Review of a decision of the department regarding the sale price established for a shoreland to be sold pursuant to this section may be obtained by the upland owner by filing a petition with the board of tax appeals created in accordance with chapter 82.03 RCW within thirty days of the date the department notified the owner regarding the price. The board of tax appeals shall review such cases in a "contested case" proceeding as described in chapter 34.04 RCW, and the board's review shall be de novo. Decisions of the board of tax appeals regarding fair market values determined pursuant to this section shall be final unless appealed to superior court pursuant to RCW 34.04.130. [1979 c 150 § 1.]
79.01.476 Effect of replat of tide or shore lands. Any replat of tide or shore lands heretofore, or hereafter, platted shall be in full force and effect and shall constitute a vacation of streets, alleys, waterways and other public places theretofore dedicated and the dedication of new streets, alleys, waterways and other public places appearing upon such replat, when the same is recorded and filed as in the case of original plats. [1927 c 255 § 119; RRS § 7797–119. Prior: 1901 c 161 § 1; 1897 c 89 § 40; 1895 c 178 § 53. Formerly RCW 79.16.320.]

79.01.480 Sale of tidelands other than first class. All tidelands, other than first class, shall be offered for sale and sold in the same manner as state lands, other than capitol building lands, but for not less than five dollars per lineal chain, measured on the United States meander line bounding the inner shore limit of such tidelands, and each applicant shall furnish a copy of the United States field notes certified to by the officer in charge thereof, of said meander line with his application, and shall pay one-tenth of the purchase price on the date of sale. [1927 c 255 § 120; RRS § 7797–120. Prior: 1899 c 86 § 1; 1897 c 89 § 48. Formerly RCW 79.16.330.]

79.01.484 Shorelands of second class—Sale or lease when in best public interest—Preference right of upland owner—Procedure upon determining sale or lease not in best public interest or where transfer made for public use—Plating. If application is made to purchase or lease any shorelands of the second class for sale or lease, the department shall cause a notice to be served upon the abutting upland owner if he be a resident of this state, or if the upland owner be a non-resident of this state, shall mail to his last known post office address, as reflected in the county records a copy of a notice notifying him that the state is offering such shorelands for sale or lease, giving a description and the department's appraised fair market value of such shorelands for sale or lease, and notifying such upland owner that he has a preference right to purchase or lease said shorelands at the appraised value thereof for a period of thirty days from the date of the service or mailing of said notice. If at the expiration of the thirty days from the service or mailing of the notice, as above provided, the abutting upland owner has failed to avail himself of his preference right to purchase or lease or to pay to the department the appraised value for sale or lease of the shorelands described in said notice, then in that event, except as otherwise provided in this section, said shorelands may be offered for sale or lease and sold or leased in the manner provided for the sale or lease of state lands.

The department of natural resources shall authorize the sale or lease, whether to abutting upland owners or others, only if such sale or lease would be for the best public interest. It is the intent of the legislature that whenever it is in the best public interest, the shorelands of the second class managed by the department of natural resources shall not be sold but shall be maintained in public ownership for the use and benefit of the people of the state.

If, following an application by the abutting upland owner to either purchase or obtain an exclusive lease at appraised full market value or rental, the department deems that such sale or lease is not in the best public interest; or if property rights in state-owned second class shorelands are at any time withdrawn, sold or assigned in any manner authorized by law to a public agency for a use by the general public, the department shall within one hundred eighty days from receipt of such application to purchase or lease, or on reaching a decision to withdraw, sell, or assign such shorelands to a public agency:

(1) Make a formal finding that the body of water adjacent to such shorelands is navigable;

(2) Find that the state or the public has an overriding interest inconsistent with a sale or exclusive lease to a private person, and specifically identify such interest and the factor or factors amounting to such inconsistency; and

(3) Provide for the review of said decision in accordance with the procedures prescribed by chapter 34.04 RCW.

Notwithstanding the above provisions, the department may cause any of such shorelands to be platted as is provided for the platting of shorelands of the first class, and when so platted such lands shall be sold or leased in the manner provided for the sale or lease of shorelands of the first class. [1969 ex.s. c 54 § 1; 1927 c 255 § 121; RRS § 7797–121. Prior: 1901 c 175 §§ 1 through 5; 1899 c 86 § 1; 1897 c 89 § 252. Formerly RCW 79.16.340.]

79.01.488 Second class tide or shore lands detached from upland by navigable water. Tide or shore lands of the second class which are separated from the upland by navigable waters, shall be sold at not less than five dollars per acre; an applicant to purchase such tide or shore lands shall, at his own expense, survey and cause to be filed with his application a plat of the surveys of the land applied for, which surveys shall be connected with, and the plat shall show, two or more connections with the United States survey of the uplands, and the applicant shall also file the field notes of the survey of said land with his application. The commissioner of public lands shall examine and test said plat and field notes of survey, and if found incorrect or indefinite, he shall cause the same to be corrected or may reject the same and cause a new survey to be made. [1927 c 255 § 122; RRS § 7797–122. Prior: 1907 c 256 § 4; 1897 c 89 § 49; 1895 c 178 §§ 65 through 68. Formerly RCW 79.16.350.]

79.01.492 Accretions—Preference right to purchase. Any accretions that may be added to any tract or tracts of tide or shore lands heretofore sold or that may hereafter be sold, by the state, shall belong to the state and shall not be sold or offered for sale until such accretions shall have been first surveyed under the direction of the commissioner of public lands, and the owner of the adjacent tide or shore lands shall have the preference right to purchase said lands produced by accretion.
for thirty days after the owner of the adjacent tide or shore lands shall be notified by registered mail of his preference right to purchase such accreted lands. [1927 c 255 § 123; RRS § 7797-123. Prior: 1899 c 83 § 1; 1897 c 89 § 51; 1895 c 178 § 81. Formerly RCW 79.16.360.]

79.01.496 Tide or shore lands—Preference rights, time limit on exercise. All preference rights to purchase tide or shore lands awarded by the commissioner of public lands, or by the superior court in case of appeal from the award of the commissioner of public lands, shall be exercised by the parties to whom the award is made within thirty days from the date of the service of notice of the award by registered mail, by the payment to the commissioner of public lands of the sums required by law to be paid for a contract, or deed, as in the case of the sale of state lands, other than capitol building lands, and upon failure to make such payment such preference rights shall expire. [1927 c 255 § 124; RRS § 7797-124. Prior: 1899 c 83 § 1; 1897 c 89 § 51. Formerly RCW 79.16.370.]

79.01.500 Court review of actions. Any applicant to purchase, or lease, any public lands of the state, or any valuable materials thereon, and any person whose property rights or interests will be affected by such sale or lease, feeling himself aggrieved by any order or decision of the board of state land commissioners, or the commissioner of public lands, concerning the same, may appeal therefrom to the superior court of the county in which such lands or materials are situated, by serving upon all parties who have appeared in the proceedings in which the order or decision was made, or their attorneys, a written notice of appeal, and filing such notice, with proof, or admission, of service, with the board, or the commissioner, within thirty days from the date of the order or decision appealed from, and at the time of filing the notice, or within five days thereafter, filing a bond to the state, in the penal sum of two hundred dollars, with sufficient sureties, to be approved by the secretary of the board, or the commissioner, conditioned that the appellant shall pay all costs that may be awarded against him on appeal, or the dismissal thereof. Within thirty days after the filing of notice of appeal, the secretary of the board, or the commissioner, shall certify, under official seal, a transcript of all entries in the records of the board, or the commissioner, together with all processes, pleadings and other papers relating to and on file in the case, except evidence used in such proceedings, and file such transcript and papers, at the expense of the applicant, with the clerk of the court to which the appeal is taken. The hearing and trial of said appeal in the superior court shall be de novo before the court, without a jury, upon the pleadings and papers so certified, but the court may order the pleadings to be amended, or new and further pleadings to be filed. Costs on appeal shall be awarded to the prevailing party as in actions commenced in the superior court, but no costs shall be awarded against the state, the board, or the commissioner. Should judgment be rendered against the appellant, the costs shall be taxed against him and his sureties on the appeal bond, except when the state is the only adverse party, and shall be included in the judgment, upon which execution may issue as in other cases. Any party feeling himself aggrieved by the judgment of the superior court may appeal therefrom to the supreme court or the court of appeals of the state, in the manner, and within the time, for appealing from judgments in actions at law. Unless appeal be taken from the judgment of the superior court, the clerk of said court shall, on demand, certify, under his hand and the seal of the court, a true copy of the judgment, to the board, or the commissioner, which judgment shall thereupon have the same force and effect as if rendered by the board, or the commissioner. In all cases of appeals from orders or decisions of the commissioner of public lands involving the prior right to purchase tidelands of the first class, if the appeal be not prosecuted, heard and determined, within two years from the date of the appeal, the attorney general shall, after thirty days' notice to the appellant of his intention so to do, move the court for a dismissal of the appeal, but nothing herein shall be construed to prevent the dismissal of such appeal at any time in the manner provided by law. 79.01.504 Authority to lease tidelands and harbor areas—Conditions. The power to lease all platted first class tidelands, second class tidelands and all harbor areas belonging to the state and situate upon tidal waters, shall be vested in the commissioner of public lands, who shall have authority to make leases thereof to such persons, upon such terms and conditions and for such length of time, conformably to the state Constitution and this chapter, as he may prescribe. All applications for leases of harbor areas situate upon tidal waters, or tidelands, lying within the limits of a port district shall before the execution of any such lease be referred by the commissioner of public lands to the port commission of such port district who shall make such investigation as it deems advisable, and by resolution make to the commissioner of public lands within sixty days, such recommendations as to the character of the improvements, time of commencement and completion thereof, the percentage for fixing rental, and the terms and conditions of the lease, as to such port commission shall seem proper, which recommendations shall be advisory to but not binding upon the commissioner of public lands. No preference rights are renewed or created under the provisions of this section and the power of the commissioner of public lands to grant or reject an application as the public interest in his judgment may require, is hereby declared, but nothing in this section contained shall be construed to nullify or qualify the provisions of RCW 79.01.508, or 79.01.512. In every lease granted the commissioner of public lands shall insert a provision reserving to the state, port district, county, city or other public agency in the territory where the portion of the harbor area described in such lease is located, the right to assume and thereafter hold such lease upon acquisition of the tidelands contiguous thereto and fronting thereon, without any value for said lease except for improvements

[Title 79 RCW (1979 Ed.)—p 30]
Lease of state-owned fresh water harbor areas: Chapter 53.32 RCW.

79.01.508 Terms of leases. Applications, leases, and bonds of lessees, shall be in such form as the commissioner shall prescribe. Every lease shall provide that the rental shall be payable to the commissioner, and for cancellation by the commissioner upon sixty days' written notice for any breach of the conditions thereof. Every lessee shall furnish a bond, with surety satisfactory to the commissioner, in such penalty as he may prescribe, but not less than five hundred dollars, conditioned for the faithful performance of the terms of the lease and the payment of the rent when due. If the commissioner shall at any time deem any bond insufficient, he may require the lessee to file a new and sufficient bond within thirty days after receiving notice so to do.

Applications for leases of harbor areas upon tidal waters shall be accompanied by such plans and drawings and other data concerning the proposed wharves, docks or other structures or improvements thereof as the commissioner shall require. Every lease of harbor area shall provide that, wharves, docks or other conveniences of navigation and commerce are adequate for the public needs, to be specified in such lease, shall be constructed within such time as may be fixed in each case by the commissioner; that in no case shall the construction be commenced more than two years from the date of such lease and shall be completed within such reasonable time as the commissioner shall fix, any of which times may be extended by the commissioner either before or after their expiration, and the character of the improvements may be changed either before or after completion with the approval of the commissioner. Provided, That if in his opinion the improvements existing upon such harbor area or the tidelands adjacent thereto are adequate for the public needs, the commissioner may require the maintenance of such existing improvements and need not require further improvements. [1927 c 255 § 127; RRS § 7797–127. Prior: 1923 c 171 § 2. Formerly RCW 79.16.030.]

79.01.512 Construction or extension of docks, wharves, etc.—New lease. If the owner of any lease of harbor area upon tidal waters shall desire to construct thereon any wharf, dock or other convenience of navigation or commerce, or to extend, enlarge or improve any existing structure used in connection with such harbor area, and shall deem the required expenditure not warranted by his right to occupy such harbor area during the remainder of the term of his lease, he may make application to the department of natural resources for a new lease of such harbor area for a period not exceeding thirty years. Upon the filing of such application accompanied by such proper plans, drawings or other data, the department shall forthwith investigate the same and if it shall determine that the proposed work or improvement is in the public interest and reasonably adequate for the public needs, it shall by order fix the terms and conditions and the rate of rental for such new lease, such rate of rental to be a fixed percentage during the term of such lease on the true and fair value in money of such harbor area, determined from time to time by the department of natural resources as provided in RCW 79.01.520. The department may propose modifications of the proposed wharf, dock or other convenience or extensions, enlargements or improvements thereon. The department shall, within ninety days from the filing of such application notify the said applicant in writing of the terms and conditions upon which such new lease will be granted, and of the rental to be paid and if the applicant shall within ninety days thereafter elect to accept a new lease of such harbor area upon the terms and under the conditions and at the rental prescribed by the department, the department shall make a new lease for such harbor area for the term applied for and the existing lease shall thereupon be surrendered and canceled. [1969 ex.s. c 97 § 1; 1927 c 255 § 128; RRS § 7797–128. Prior: 1923 c 171 § 3. Formerly RCW 79.16.040.]

79.01.516 Re-leases of harbor areas. Upon the expiration of any lease of harbor area upon tidal waters hereafter expiring the owner thereof may apply for a re-lease of such harbor area for a period not exceeding thirty years. Such application shall be accompanied with maps showing the existing improvements upon such harbor area and the tidelands adjacent thereto and with proper plans, drawings and other data showing any proposed extensions or improvements of existing structures. Upon the filing of such application the department of natural resources shall forthwith investigate the same and if it shall determine that the character of the wharfs, docks or other conveniences of commerce and navigation are reasonably adequate for the public needs and in the public interest, it shall by order fix and determine the terms and conditions upon which such re-lease shall be granted and the rate of rental to be paid which rate shall be a fixed percentage during the term of such lease on the true and fair value in money of such harbor area determined from time to time by the department of natural resources as provided in RCW 79.01.520. [1969 ex.s. c 97 § 2; 1927 c 255 § 129; RRS § 7797–129. Prior: 1923 c 171 § 4. Formerly RCW 79.16.050.]

79.01.520 Department's valuation of harbor areas prior to lease, renewal, or re-lease—Appeal. Prior to the issuance of a lease, renewal lease, or re-lease of harbor area on tidal waters under the preceding sections of this chapter, and every five years thereafter during the life of all leases written after August 11, 1969, and no less frequently than every five years for all prior leases, the department of natural resources shall determine the true and fair value in money of such harbor area (exclusive of the improvements thereon), which value shall be the value at which the property would be taken in payment of a just debt from a solvent debtor. All harbor area leases will stipulate the percentage rate of said values that will be paid as the annual rent during the period until the next reappraisal of the value of the harbor area as established herein: Provided, That the applicant, or
lessee, being dissatisfied with the valuation as fixed by
the department of natural resources shall have the right
of appeal from the findings of the department to a valu-
ation board to be composed of the county commissioner,
the county treasurer and the county assessor of the
county in which the harbor area is located. To perfect
such appeal, notice thereof shall be in writing and a copy
must, within thirty days after receipt of notice of the
department of natural resources' valuation, be personally
served upon each member of the board of county com-
missioners and upon the county treasurer, the county as-
sessor, and the administrator of the department of
natural resources; or such copy may be left at the resi-
dence of such officer with some person of suitable age
and discretion. Service of the notice may be made by
any person qualified to serve a summons in a civil ac-
tion. Within five days following the service of said notice
on the chairman of the board of county commissioners,
said chairman shall fix a time and place for a meeting of
said valuation board and shall notify each of the officers
of said board thereof, which said time shall be not less
than five nor more than ten days from the date of giving
said notice; like notice of the time and place fixed for
said hearing shall also be given the applicant, or lessee,
and the department of natural resources. Except as
otherwise provided in chapter 79.01 RCW, such hearing
will be conducted in compliance with chapter 34.04

said board shall meet and determine, by such means as
it may select, the valuation of the harbor area in ques-
tion. A majority of said officers shall constitute a quo-
rum for the purpose of determining the question, and the
valuation shall be determined by a majority vote of the
members of said board. If a majority of the members of
said board participate in said meeting no question shall
be made as to any irregularity of the giving of the not-
ices required. The meeting of the board and its deliber-
ations and voting shall be open to the public and any
interested parties. The decision of the board of the ques-
tion of valuation shall be final and conclusive on all par-
ties. [1979 1st ex.s. c 97 § 1; 1969 ex.s. c 97 § 3; 1927 c

79.01.521 Rules for lease of harbor areas. Not later
than January 1, 1980, the department of natural re-
sources shall adopt by rule pursuant to chapter 34.04
RCW such appraisal and other procedures and require-
ments as the department deems reasonably necessary to
accomplish the purposes of RCW 79.01.520. These rules
shall include provisions for a reduced annual rental rate
or rates and establish criteria and standards for granting
the reduced rental rate or rates to qualifying lessees
based on the extent to which they encourage public ac-
to and use of the leased property and any improve-
ments thereto. [1979 1st ex.s. c 97 § 3.]

79.01.524 Procedure to re-lease harbor areas. Upon
receipt of the valuation of any tract of harbor area ap-

notify the applicant of the terms and conditions upon
which the re-lease will be granted and of the rental
fixed, and such applicant or his successor in interest
shall have the option for the period of sixty days from
the date of the service of such notice in which to accept
a lease on the terms and conditions and at the rental so
fixed and determined. If such terms and conditions and
rental be accepted a new lease shall be granted for the
term applied for. If such terms and conditions be not
accepted within the time aforesaid or within such further
time, not exceeding three months, as said commissioner
shall grant, the same shall be deemed rejected by the
applicant, and the commissioner shall give eight weeks'
otice by publication in one or more weekly newspapers
printed and of general circulation in the county in which
such harbor area is situate, that a lease of such harbor
area will be sold on said terms and conditions and at
said rental at a time and place specified in such notice
(which shall not be more than three months from the
date of the first publication of said notice) to the person
offering at such public sale to pay the highest sum as a
cash bonus at the time of sale for such lease. Notice of
such sale shall be served upon the applicant at least six
weeks prior to the date thereof. The person paying the
highest sum as a cash bonus shall be entitled to lease
such harbor area. If such lease be not sold at such public
sale the commissioner may at any time or times again
fix the terms, conditions and rental and again advertise
such lease for sale as above provided and upon similar
notice, upon failure to secure any sale of such lease as
above prescribed, the commissioner may issue revocable
leases without requirement of improvements for one year
periods at the minimum rate of two percent. [1927 c 255

79.01.525 Increasing rates for lease of harbor ar-
ares—Expiration date. During the term of an existing
lease and in issuing or renewing leases or re-leaseing
harbor areas pursuant to RCW 79.01.520, the annual
rental fee for a harbor area lease shall not increase at a
rate of more than six percent per year, regardless of the
reappraised value of the harbor area unless the reap-
raisal is conducted by an independent fee appraiser who
is a member of the Appraisal Institute and designated
M.A.I. or a member of the Society of Real Estate Ap-
praisers who is designated S.R.P.A. or S.R.E.A. and
who uses local comparable land values. This section shall
expire and have no further legal effect after July 1,
1982. [1979 1st ex.s. c 97 § 2.]

79.01.528 Regulation of wharfage, dockage and other
tolls. The state of Washington shall ever retain and does
hereby reserve the right to regulate the rates of wharf-

or his assigns upon commerce for any of the purposes for
which the leased area may be used and the right to pre-
vent extortion and discrimination in such use thereof.

The commissioner of public lands shall prior to the issuance of any lease under the provisions of this section fix the annual rental for the lands and prescribe the terms and conditions of the lease. No lease issued under the provisions of this section shall be for a longer term than ten years from the date thereof and every such lease shall be subject to termination upon ninety days' notice to the lessee in the event that the commissioner of public lands shall decide that it is to the best interest of the state that such tide or shore lands be surveyed and platted. Failure to use any lands leased under the provisions of this section for booming purposes, for such purposes, for a period of one year shall work a forfeiture of such lease and such shall revert to the state without any notice to the lessee upon the entry of a declaration of forfeiture in the records of the commissioner of public lands. At the expiration of any lease issued under the provisions of this section, the lessee shall have the preference right to re-lease the lands covered by his original lease for a further term, not exceeding ten years, at such rental and upon such terms and conditions as may be prescribed by the commissioner of public lands. [1927 c 255 § 135; RRS § 7797–135. Prior: 1917 c 148 § 12; 1911 c 86 § 1; 1907 c 233 § 1. Formerly RCW 79.16.100.]

In case any lessee of tide or shore lands, for any purpose except mining of valuable minerals, or coal, or extraction of petrochemicals, or any successor in interest, shall after the expiration of any lease fail to purchase or re-lease from the state the tide or shore lands formerly covered by any lessee when the same are offered for sale or re-lease, then and in that event the commissioner of public lands shall appraise and determine the value of all improvements existing upon such tide or shore lands at the expiration of the lease, which are not capable of removal without damage to the land, including the cost of filling and raising said property above high tide, or high water, whether filled or raised by the lessee or his successors in interest, or by virtue of any contract made with the state, and also including the then value to the land of all existing local improvements paid for by such lessee or his successors in interest. to the superior court of the county wherein said tide or shore lands are situated, within the time and according to the mode prescribed in this chapter for taking appeals from decisions of the commissioner of public lands. In case such tide or shore lands are leased, or sold, to any person, persons or corporation, other than such lessee or his successor in interest, within three years from the expiration of the former lease, the bid of such subsequent lessee or purchaser shall not be accepted until payment is made by such subsequent lessee or purchaser of the appraised value of the improvements as determined by the commissioner of public lands, or as may be determined on appeal, to such former lessee, or his successor in interest. In case such tide or shore lands are not leased, or sold, within three years after the expiration of such former lease, then and in that event, such improvements existing on the lands at the time of any subsequent lease or sale thereof, shall be considered a part of the land, and shall be taken into consideration in appraising the value, or rental value, of the land, and sold, or leased, with the land. The state shall have the right to sell or otherwise dispose of any timber, sand, or gravel, except minerals or materials specifically covered by a mineral prospecting lease or mining contract, found upon the land during the period covered by said lease or contract. The state shall also have the right to enter upon such land and remove same, and shall not be obliged to withhold from any sale any timber for prospecting or mining purposes: Provided, That the lessee shall be permitted to use timber as provided in this chapter and in rules and regulations promulgated by the department of natural resources. [1965 c 56 § 15.]

79.01.652 Coal mining—Leases and option contracts authorized. Any citizen of the United States believing coal to exist upon any of the lands described in the preceding section may apply to the commissioner of public lands for an option contract for any amount not exceeding one section for prospecting purposes, such application to be made by legal subdivision according to the public land surveys. The applicant shall pay to the commissioner of public lands, at the time of filing his application, the sum of one dollar an acre for the lands applied for, but in no case less than fifty dollars. In case
of the refusal of the commissioner to execute an option contract for the lands, any remainder of the sum so paid, after deducting the expense incurred by the commissioner in investigating the character of the land, shall be returned to the applicant. [1927 c 255 § 164; RRS § 7797–164. Prior: 1925 ex.s. c 155 § 2. Formerly RCW 78.24.020.]

Upon the filing of any such application, the commissioner of public lands shall forthwith investigate the character of the lands applied for, and if, from such investigation, he deems it to the best interests of the state he shall enter into an option contract with the applicant.

The holder of any option contract shall be entitled, during the period of one year from the date thereof, to enter upon the lands and carry on such work of exploration, examination and prospecting for coal as may be necessary to determine the presence of coal upon the lands and the feasibility of mining the same. He shall have the right to use such timber found upon the lands and owned by the state as may be necessary for steam purposes and timbering in the examination and prospecting of such lands: Provided, That this provision shall not be construed to require the state to withhold any such timber from sale. No coal shall be removed from such lands during the period of such option contract except for samples and testing. At the expiration of the option contract, the applicant shall fill or cover in a substantial manner all prospect holes and shafts, or surround the same with substantial fences, and shall file with the commissioner of public lands a report showing in detail the result of his investigation and prospecting. 79.01.664 Coal mining—Action to determine damage to surface owner or lessee—Commencement of option contract delayed. In the case of lands which the state may have sold or leased and reserved the mineral rights therein, if the holder of any option contract or lease shall be unable to agree with the owner or prior lessee of the lands, he shall have a right of action in the superior court of the county in which the land is situated to ascertain and determine the amount of damages which will accrue to such owner or lessee of the land by reason of the entry thereon and prospecting for or mining coal, as the case may be. In the event of any such action, the term of the option contract or lease shall begin thirty days after the entry of the final judgment in such action. [1927 c 255 § 166; RRS § 7797–166. Prior: 1925 ex.s. c 155 § 4. Formerly RCW 78.24.070.]

At any time during the life of the option contract, the holder thereof may apply to the commissioner of public lands for a coal mining lease of the lands included therein, or such portion thereof as he may specify, for the purpose of mining and extraction of coal therefrom. Such coal mining lease shall be for such term, not more than twenty years, and in such form as may be prescribed by the commissioner of public lands, shall entitle the lessee to mine and sell and dispose of all coal underlying said lands and to occupy and use so much of the surface thereof as may be necessary for bunkers and other outside works, and for railroads, buildings, appliances and appurtenances in connection with the mining operations. Such lease shall provide for the payment to the state of a royalty, according to the grade of coal, for each ton of two thousand two hundred and forty pounds of merchantable coal taken from the lands, as follows: For lignite coal of the class commonly found in Lewis and Thurston counties, not less than ten cents per ton; for subbituminous coal, not less than fifteen cents per ton; for high grade bituminous and coking coals, not less than twenty cents per ton; but such lease shall provide for the payment each year of a minimum royalty of not less than one nor more than ten dollars an acre for the lands covered thereby: Provided, That the commissioner of public lands may agree with the lessee that said minimum royalty shall be graduated for the different years of said lease so that a lower minimum royalty shall be paid during the earlier years of the term. The minimum royalty fixed in the lease shall be paid in advance each year, and the lessee, at stated periods during the term of the lease, fixed by the commissioner, shall furnish to the commissioner of public lands a written report under oath showing the amount of merchantable coal taken from the land during the period covered by such report and shall remit therewith such sum in excess of the minimum royalty theretofore paid for the current year as may be payable as royalty for the period covered by such report.

Failure on the part of any lessee to comply with the foregoing provisions, or of his lease, shall work a forfeiture of the lease, and no such forfeiture may be waived. The commissioner shall incorporate in every lease such provisions and conditions not inconsistent with the provisions of this chapter and not inconsistent with good coal mining practice as he shall deem necessary and proper for the protection of the state, and, in addition thereto, the commissioner shall be empowered to prescribe such rules and regulations, not inconsistent with this chapter and not inconsistent with good mining practice, governing the manner and methods of mining as in his judgment are necessary and proper. The lessee shall have the right to terminate the lease after thirty days' written notice to the commissioner of public lands and the payment of all royalties and rentals then due. [1927 c 255 § 171; RRS § 7797-171. Prior: 1925 ex.s. c 155 § 9. Formerly RCW 78.24.090.]

Upon the termination of any lease issued under the foregoing provisions, the lessee shall surrender the lands and premises and leave in good order and repair all shafts, slopes, airways, tunnels and watercourses then in use. Unless the coal therein is exhausted, he shall also, as far as it is reasonably practicable so to do, leave open to the face all main entries then in use so that the work of further development and operation may not be unnecessarily hampered. He shall also leave on the premises all buildings and other structures, but shall have the right to, without damage to such buildings and structures, remove all tracks, machinery and other personal property. The commissioner of public lands may on the filing of such application cause the lands to be inspected, and if he deems it for the best interests of the state to re-lease said lands, he shall fix the royalties for the ensuing term in accordance with the foregoing provisions relating to original leases, and issue to the applicant a renewal lease for a further term; such application for a release when received from the lessee, or successor of any lessee, who has in good faith developed and improved the property in a substantial manner during his original lease to be given preference on equal terms against the application of any new applicant. When wheat, barley, rye, corn, other grain or peas are harvested, the lessee shall give written notice to the commissioner that the crop is being harvested, and shall also give to the commissioner the name and address of the warehouse or elevator to which such grain or peas are sold or in which such grain or peas will be stored. The lessee shall also serve on the owner of such warehouse or elevator a written copy of so much of the lease as shall show the percentage of division of the proceeds of such crop as between lessee and lessor. The owner of such warehouse or elevator shall make out two warehouse receipts, one receipt showing the percentage of grain or peas belonging to the state and the other showing the percentage of grain or peas belonging to the lessee, and the respective amounts thereof, and shall deliver to the commissioner the receipt for the state's percentage of such grain or peas within ten days after he has received such instructions. Oil And Gas Leases on State Lands

Reviser's note: The powers and duties of the commissioner of public lands mentioned in this chapter have devolved upon department of natural resources, see reviser's note following Title 79 RCW digest. Franchises on county roads and bridges: Chapter 36.55 RCW. Gas and oil pipeline: Chapter 81.88 RCW. Interstate oil compact commission, governor may join: RCW 43.06.015. Oil and gas conservation: Chapter 78.52 RCW.

79.14.010 Definitions. Whenever used in this chapter, unless the context otherwise requires, words and terms shall have the meaning attributed to them herein:

(1) "Public lands": Lands and areas belonging to or held in trust by the state, including tide and submerged lands of the Pacific Ocean or any arm thereof and lands of every kind and nature including mineral rights reserved to the state.

79.14.020 Leases authorized—Terms—Duration. The commissioner is authorized to lease public lands for the purpose of prospecting for, developing and producing oil, gas or other hydrocarbon substances. Each such lease is to be composed of not more than six hundred forty acres, except a lease on river bed, lake bed, tide and submerged lands which is to be composed of not more than one thousand nine hundred twenty acres. All leases shall contain such terms and conditions as may be prescribed by the rules and regulations adopted by the commissioner in accordance with the provisions of this chapter. All leases shall be for terms of five years and for so long thereafter as lessee shall produce any of said substances from the leased lands, and shall comply with the provisions hereof, or shall be engaged in drilling, deepening, repairing, or redrilling any well thereon, or be thereafter excused therefrom but not to exceed a period of twenty years. The lessee shall have preferential right to a new lease covering such lands for an additional twenty-year period on the same terms and conditions as set forth in such previous lease. [1955 c 131 § 2. Prior: 1937 c 161 §§ 2, 3; 1927 c 255 §§ 175, 176. Formerly RCW 78.28.290.]

79.14.030 Rental fees—Minimum royalties. The commissioner shall require as a prerequisite to the issuing of any lease a rental of fifty cents per acre for the first year of such lease, payable in advance to the commissioner at the time of making application therefor and a like rental of fifty cents per acre annually in advance thereafter so long as such lease remains in force: Provided, That in the event no lease be issued or the lease when issued includes less acreage than that applied for, such rental shall be returned to the applicant insofar as it pertains to lands not included in such lease. Such rental shall cease at such time as royalty accrues to the state from production from such lease. Commencing with the lease year beginning on or after oil, gas or other hydrocarbon substances are first produced in quantities deemed paying quantities by lessee on the land subject to such lease, lessee shall pay a minimum royalty of five dollars per acre or fraction thereof at the expiration of each year, or the difference between the actual royalty paid during the year if less than five dollars per acre and the prescribed minimum royalty of five dollars per acre: Provided, That if such lease is unitized, the minimum royalty shall be payable only on the leased acreage after production is obtained in such paying quantities from such lease. [1955 c 131 § 3. Prior: 1937 c 161 § 4; 1927 c 255 § 176. Formerly RCW 78.28.300.]

79.14.040 Compensation to owners of private rights and to state for surface damage. No lessee shall commence any operation upon lands covered by his lease until such lessee has provided for compensation to owners of private rights therein according to law, or in lieu thereof, filed a surety bond with the commissioner in an amount sufficient in the opinion of the commissioner to cover such compensation until the amount of compensation is determined by agreement, arbitration or judicial decision and has provided for compensation to the state of Washington for damage to the surface rights of the state in accordance with the rules and regulations adopted by the commissioner. [1955 c 131 § 4. Prior: 1937 c 161 § 6; 1927 c 255 § 175. Formerly RCW 78.28.310.]

79.14.050 Drilling operations beyond lease term—Lease provisions. All leases shall provide that if oil, gas or other hydrocarbon substances are not encountered on or before the end of the initial five-year term, the lease shall not terminate if the lessee is then prosecuting drilling operations on the leased lands with due diligence, in which event the same shall remain in force so long as lessee shall keep one string of tools in operation on the leased lands, allowing not to exceed ninety days between the completion of one well and the commencement of the next until such substances are encountered in quantities deemed paying quantities by lessee. All leases shall further provide that if oil, gas or other hydrocarbon substances in paying quantities shall have been discovered on the leased lands prior to the expiration of the initial five-year term, then in the event at any time after the expiration of the initial five-year term production on the leased land shall cease from any cause, the lease shall not terminate provided lessee resumes operations for the drilling of a well or the restoration of production within ninety days from such cessation. The lease shall remain in force during the prosecution of such operations, and if production results therefrom, then so long as production continues. [1955 c 131 § 5. Prior: 1937 c 161 § 7; 1927 c 255 § 180. Formerly RCW 78.28.320.]

79.14.060 Surrender of lease—Liability. Every lessee shall have the option of surrendering his lease as to all or any portion or portions of the land covered thereby at any time and shall be relieved of all liability thereunder with respect to the land so surrendered except for monetary payments theretofore accrued and except for physical damage to the premises embraced by his lease which have been occasioned by his operations.

[Title 79 RCW (1979 Ed.)—p 51]

79.14.070 Royalties. All oil and gas leases issued pursuant to this chapter shall be upon a royalty of not less than twelve and one-half percent of the gross production of all oil, gas or other hydrocarbons produced and saved from the lands covered by such lease. [1955 c 131 § 7. Prior: 1937 c 161 § 9; 1927 c 255 § 176. Formerly RCW 78.28.340.]

79.14.080 Leases of land within a geologic structure. Oil and gas leases shall not be issued on unleased lands which have been classified by the commissioner as being within a known geologic structure of a producing oil or gas field, except as follows: Upon application of any person, the commissioner shall lease in areas not exceeding six hundred forty acres, at public auction, any or all unleased lands within such geologic structure to the person offering the greatest cash bonus therefor at such auction. Notice of the offer of such lands for lease will be given by publication in a newspaper of general circulation in Olympia, Washington, and in such other publications as the commissioner may authorize. The first publication shall be at least thirty days prior to the date of sale. [1955 c 131 § 8. Prior: 1937 c 161 §§ 5, 11. Formerly RCW 78.28.350.]

79.14.090 Cancellation or forfeiture of leases—New leases. The commissioner is hereby authorized to cancel any lease issued as provided herein for nonpayment of rentals or royalties or nonperformance by the lessee of any provision or requirement of the lease: Provided, That before any such cancellation shall be made, the commissioner shall mail to the lessee by registered mail, addressed to the post office address of such lessee shown by the records of the office of the commissioner, a notice of intention to cancel such lease specifying the default for which the lease is subject to cancellation. If lessee shall, within thirty days after the mailing of said notice to the lessee, commence and thereafter diligently and in good faith prosecute the remedying of the default specified in such notice, then no cancellation of the lease shall be entered by the commissioner. Otherwise, the said cancellation shall be made and all rights of the lessee under the lease shall automatically terminate, except that lessee shall retain the right to continue its possession and operation of any well or wells in regard to which lessee is not in default: Provided further, That failure to pay rental and royalty required under leases within the time prescribed therein shall automatically and without notice work a forfeiture of such leases and of all rights thereunder. Upon the expiration, forfeiture, or surrender of any lease, no new lease covering the lands or any of them embraced by such expired, forfeited, or surrendered lease, shall be issued for a period of ten days following the date of such expiration, forfeiture, or surrender. If more than one application for a lease covering such lands or any of them shall be made during such ten-day period the commissioner shall issue a lease to such lands or any of them to the person offering the greatest cash bonus for such lease at a public auction to be held at the time and place and in the manner as the commissioner shall by regulation prescribe. [1955 c 131 § 9. Prior: 1937 c 161 § 12; 1927 c 255 § 179. Formerly RCW 78.28.360.]

79.14.100 Cooperative or unit plans—Communication or drilling agreements. For the purpose of more properly conserving the natural resources of any oil or gas pool, field, or like area, lessees thereon and their representatives may unite with each other, or jointly or separately with others, in collectively adopting and operating under a cooperative [or] unit plan of development or operation of such pool, field, or like area, or any part thereof, whenever determined and certified by commissioner to be necessary or advisable in the public interest. The commissioner is thereunto authorized, in his discretion, with the consent of the holders of leases involved, in order to conform with the terms and conditions of any such cooperative or unit plan to establish, alter, change or revoke exploration, drilling, producing, rental, and royalty requirements of such leases with like consent on the part of the lessees, in connection with the institution and operation of any such cooperative or unit plan as he may deem necessary or proper to secure the proper protection of the public interest.

When separate tracts cannot be independently developed and operated in conformity with an established well spacing or development program, any lease or any portion thereof may be pooled with other lands, whether or not owned by the state of Washington under a communication or drilling agreement providing for an apportionment of production or royalties among the separate tracts of land comprising the drilling or spacing unit when determined by the commissioner to be in the public interest, and operations or production pursuant to such an agreement shall be deemed to be operations or production as to each such lease committed thereto.

The term of any lease that has become the subject of any cooperative or unit plan of development or operation of a pool, field, or like area, which plan has the approval of the commissioner, shall continue in force until the termination of such plan, and in the event such plan is terminated prior to the expiration of any such lease, the original term of such lease shall continue. Any lease under this chapter hereinafter committed to any such plan embracing lands that are in part within and in part outside of the area covered by any such plan, shall be segregated in separate leases as to the lands committed and the land not committed as of the effective date of unitization. [1955 c 131 § 10. Prior: 1937 c 161 § 14. Formerly RCW 78.28.370.]

79.14.110 Customary provisions in leases. The commissioner is authorized to insert in any lease issued under the provisions of this chapter such terms as are customary and proper for the protection of the rights of the state and of the lessee and of the owners of the surface of the leased lands not in conflict with the provisions of this chapter. [1955 c 131 § 11. Prior: 1937 c 161 § 15; 1927 c 255 § 178. Formerly RCW 78.28.380.]
79.14.120 Rules and regulations. The commissioner is required to prescribe and publish, for the information of the public, all reasonable rules and regulations necessary for carrying out the provisions of this chapter. He may amend or rescind any rule or regulation promulgated by him under the authority contained herein: Provided, That no rule or regulation or amendment of the same or any order rescinding any rule or regulation shall become effective until after thirty days from the promulgation of the same by publication in a newspaper of general circulation published at the state capitol and shall take effect and be in force at times specified therein. All rules and regulations of the commissioner and all amendments or revocations of existing rules and regulations shall be recorded in an appropriate book or books, shall be adequately indexed, and shall be kept in the office of the commissioner and shall constitute a public record. Such rules and regulations of the commissioner shall be printed in pamphlet form and furnished to the public free of cost. [1955 c 131 § 12. Prior: 1937 c 161 § 16; 1927 c 255 § 178. Formerly RCW 78.28.390.]

79.14.130 Wells to be located minimum distance from boundaries—Exception. Each lease issued under this chapter shall provide that without the approval of the commissioner, no well shall be drilled on the lands demised thereby in such manner or at such location that the producing interval thereof shall be less than three hundred thirty feet from any of the outer boundaries of the demised lands, except that if the right to oil, gas or other hydrocarbons underlying adjoining lands be vested in private ownership, such approval shall not be required. [1955 c 131 § 13. Prior: 1937 c 161 § 17. Formerly RCW 78.28.400.]

79.14.140 Rights of way over public lands—Payment for timber. Any person granted a lease under the provisions of this chapter shall have a right of way over public lands, as provided by law, when necessary, for the drilling, recovering, saving and marketing of oil, gas or other hydrocarbons. Before any such right of way grant shall become effective, a written application for, and a plat showing the location of, such right of way, and the land necessary for the well site and drilling operations, with reference to adjoining lands, shall be filed with the commissioner. All timber on said right of way and the land necessary for the drilling operation, shall be appraised by the commissioner and paid for in money by the person to whom the lease is granted. [1955 c 131 § 14. Prior: 1937 c 161 § 18. Formerly RCW 78.28.410.]

79.14.150 Sales of timber—Rules. All sales of timber, as prescribed in this chapter, shall be made subject to the right, power and authority of the commissioner to prescribe rules and regulations governing the manner of the removal of the merchantable timber upon any lands embraced within any lease with the view of protecting the same and other timber against destruction or injury by fire or from other causes. Such rules or regulations shall be binding upon the lessee, his successors in interest, and shall be enforced by the commissioner. [1955 c 131 § 15. Prior: 1937 c 161 § 19. Formerly RCW 78.28.420.]

79.14.160 Development after discovery. After the discovery of oil, gas or other hydrocarbons in paying quantities, lessee shall proceed to develop the oil, gas or other hydrocarbons in the lands covered thereby through the drilling of such wells as will efficiently extract the oil, gas or other hydrocarbons therefrom and such development shall take into account the productiveness of the producing horizon, the depth at which it occurs, the average cost of wells, the market requirements obtaining at any given time, and the maintenance of proper oil and gas ratios. [1955 c 131 § 16. Prior: 1937 c 161 § 20. Formerly RCW 78.28.430.]

79.14.170 Spacing and offsetting of wells. All leases shall contain such terms, conditions, and provisions as will protect the interests of the state with reference to spacing of wells for the purpose of offsetting any wells on privately owned lands. [1955 c 131 § 17. Prior: 1937 c 161 § 21. Formerly RCW 78.28.440.]

79.14.180 Lands may be withheld from leasing. Nothing contained in this chapter shall be construed as requiring the commissioner to offer any tract or tracts of land for lease; but the commissioner shall have power to withhold any tract or tracts from leasing for oil, gas or other hydrocarbons, if, in his judgment, the best interest of the state will be served by so doing. [1955 c 131 § 18. Prior: 1937 c 161 § 24. Formerly RCW 78.28.450.]

79.14.190 Payment of royalty share—Royalty in kind. The lessee shall pay to the commissioner the market value at the well of the state's royalty share of oil and other hydrocarbons except gas produced and saved and delivered by lessee from the lease. In lieu of receiving payment for the market value of the state's royalty share of oil, the commissioner may elect that such royalty share of oil be delivered in kind at the mouth of the wells into tanks provided by the commissioner. Lessee shall pay to the commissioner the state's royalty share of the sale price received by the lessee for gas produced and saved and sold from the lease. If such gas is not sold but is used by lessee for the manufacture of gasoline or other products, lessee shall pay to the commissioner the market value of the state's royalty share of the residue gas and other products, less a proper allowance for extraction costs. [1955 c 131 § 19. Prior: 1937 c 161 § 25. Formerly RCW 78.28.460.]

79.14.200 Prior permits validated—Relinquishment for new leases. All exploration permits issued by the commissioner prior to the effective date of this chapter, which have not expired or been legally canceled for nonperformance by the permittees, are hereby declared to be valid and existing contracts with the state of Washington, according to their terms and provisions. The obligation of the state to conform to the terms and provisions of such permits is hereby recognized, and the

[Title 79 RCW (1979 Ed.)—p 53]
commissioner is directed to accept and recognize all such permits according to their express terms and provisions. No repeal or amendment made by this chapter shall affect any right acquired under the law as it existed prior to such repeal or amendment, and such right shall be governed by the law in effect at time of its acquisition. Any permit recognized and confirmed by this section to such repeal or amendment, and such right shall be governed by the law in effect prior thereto. [1955 c 131 § 20. Prior: 1937 c 161 § 26. Formerly RCW 78.28.470.]

*Reviser's note: "effective date of this chapter" was midnight, June 8, 1955; see preface 1955 session laws.

79.14.210 Assignments and subleases of leases. Any oil or gas lease issued under the authority of this chapter may be assigned or subleased as to all or part of the acreage included therein, subject to final approval by the commissioner, and as to either a divided or undivided interest therein to any person. Any assignment or sublease shall take effect as of the first day of the lease month following the date of filing with the commissioner: Provided, however, That the commissioner may, in his discretion, disapprove an assignment of a separate zone or deposit under any lease or of a part of a legal subdivision. Upon approval of any assignment or sublease, the assignee or sublessee shall be bound by the terms of the lease to the same extent as if such assignee or sublessee were the original lessee, any conditions in the assignment or sublease to the contrary notwithstanding. Any partial assignment of any lease shall segregate the assigned and retained portions thereof, and upon approval of such assignment by the commissioner, the assignor shall be released and discharged from all obligations thereafter accruing with respect to the assigned lands. [1955 c 131 § 21. Prior: 1937 c 161 § 27. Formerly RCW 78.28.480.]

79.14.220 Appeal from rulings of commissioner. Any applicant for a lease under this chapter, feeling himself aggrieved by any order or decision, rule or regulation of the commissioner of public lands, concerning the same, may appeal therefrom to the superior court of the county wherein such lands are situated, as provided by RCW 79.01.500. [1955 c 131 § 22. Prior: 1937 c 161 § 28. Formerly RCW 78.28.490.]

79.14.900 Severability—1955 c 131. If any provision or section of this chapter shall be adjudicated to be unconstitutional, such adjudication shall not affect the validity of this chapter as a whole or any part thereof not adjudicated unconstitutional. If any provision of this chapter, or the application of such provision to any person or circumstances is held unconstitutional, invalid or unenforceable, the remainder of this chapter or the application of such provision to persons or circumstances other than those as to which it is held unconstitutional, invalid or unenforceable, shall not be affected thereby. [1955 c 131 § 23. Formerly RCW 78.28.900.]

79.16.460 Excavation of waterways through state lands—Certificate of cost—Lien—Payment. Upon the completion of the work, provided for by said contract, or any part thereof, capable of separate use for the purposes of navigation, according to the terms and conditions of said contract, and within the time provided therein, or such further extension of time as may have been granted by virtue of RCW 79.16.450, the commissioner of public lands shall issue his certificate to the contracting parties, or their assigns, showing the actual cost of the filling in and raising above high tide of all tide and shore lands so filled in and raised above high tide by such completion of said work, or such separate portion thereof, and specifying and describing, with reasonable certainty, the lands so filled in and raised above high tide. Upon the filing in the office of the county auditor of the county or counties in which such lands are situated, of such certificate of the commissioner of public lands, said contracting parties shall acquire a lien, and the same shall thereupon attach, for the amount specified in such certificate, with fifteen percent additional thereon, and with interest on such amount and additional percentage from the date of such certificate at the rate of eight percent per annum until payment: Provided, however, That such lien shall not be operative for an amount exceeding the cost of the work as stated in the contract, or, as the case may be, such portion of said stated cost as shall be proportionate to the part of the work with reference to which the certificate has issued, upon the bonds specified in such certificate. Such lien shall not be in solido, and upon the sale by the state to any person, or by any owner claiming under the state to any other person, of any of the tide and shore lands specified in such certificate, the lien herein granted may be discharged, as hereinbelow provided, as to any such part of said lands separately granted or owned, upon the payment of such part of the amount for which the lien upon the lands was given in the first instance as shall bear the same proportion to said whole amount which the area of such separate part of such lands bears to the area of the whole thereof. The amount due on said lien, or any proportionate part thereof separately payable as above provided, shall be payable by any owner of said lands, or any part thereof separately owned, as the case may be, other than the state, in ten equal annual installments, the first installment at the end of the first year after the sale of such lands, or of such separate portion thereof, by the state; and the remaining installments, one at the end of each year thereafter, with accompanying interest on each of such installments, as hereinbefore provided, to the time of the payment thereof, and such lien may be foreclosed in the manner provided by law for the foreclosure of other liens on real estate for non-payment of the whole amount due, or of any separate installment or installments thereof which shall have become due. If such lands specified in any such certificate shall not be sold by the state, within one year after the date of such certificate, the parties in whose favor such certificate was issued, or their assigns, shall have the option during the next succeeding six months to purchase such lands, or any part thereof, from the state in the manner provided by then existing laws for the sale of tidelands of the state. *This act shall not be so construed as to create any obligation on the part of the state to pay or discharge any lien which may attach to such lands by virtue of the provisions thereof. [1893 c 99 § 4; RRS § 9606.]

Nothing in RCW 79.16.530 through 79.16.560 shall change or modify any of the provisions of the state Constitution or laws of the state which provide for the leasing of harbor areas and the reservation of lands lying in front thereof. [1953 c 164 § 1.]

Construction—1953 c 164: "Nothing in this act is intended to modify or repeal any existing statutes providing for the leasing of the beds of navigable waters of the state for oyster cultivation or extraction of minerals or petroleum and gas." At the expiration of any lease issued under the provisions of RCW 79.16.530 through 79.16.560, the lessee, his successors or assigns, shall have a preference right to re-lease the area covered by the original lease or any portion thereof if the commissioner of public lands deems it to be the best interest of the state to re-lease the same. Such re-lease shall be for such term as specified by the provisions of RCW 79.16-.530 through 79.16.560 and at such rental and upon such conditions as may be prescribed by the commissioner of public lands. If such preference right is not exercised, the rights and obligations of the lessee, the commissioner of public lands, and any subsequent lessee shall be as provided in RCW 79.01.548 relating to failure to re-lease tide or shore lands. Any person who heretofore has occupied and improved an area subject to lease under RCW 79.16.530 through 79.16.560 and has secured a permit for such improvements from the United States army engineers or other federal regulatory agency, shall have the rights and obligations of a lessee under this section upon the filing of a copy of such permit together with plans and specifications of such improvements with the commissioner of public lands. The right of forfeiture shall be exercised by entry of a declaration of forfeiture in the records of the commissioner of public lands. The amount of rock, gravel, sand, or silt taken under the contract or lease shall be reported monthly by the purchaser to the commissioner of public lands and payment therefor made on the basis of the royalty provided in the lease or contract. (1) Incorporated cities and towns;
(2) Diking districts;
(3) Drainage districts;
(4) Port districts;
(5) Irrigation districts;
(6) Water districts;
(7) Sewer districts;
(8) Counties; and
(9) Any municipal corporation or public agency having power to levy local improvement or other assessments which by statute are expressly made applicable to lands of the state. [1971 ex.s. c 234 § 14; 1963 c 20 § 1.]

79.44.010 Public lands subject to local assessments. All lands, including school lands, granted lands, escheated lands, tidelands, shorelands, or other lands, (including harbor areas lying between tide or shore lands and outer harbor line) held or owned by the state of Washington in fee simple (in trust or otherwise), situated within the limits of any assessing district in this state, may be assessed and charged for the cost of local or other improvements specially benefiting such lands which may be ordered by the proper authorities of any such assessing district and may be assessed by any irrigation district to the same extent as private lands within the district are assessed: Provided, That the leasehold, contractual or possessory interest of any person, firm, association, private or municipal corporation in any such lands shall be charged and assessed in the proportional amount such leasehold, contractual or possessory interest is benefited: Provided, further, That no lands of the state shall be included within an irrigation district except as provided in RCW 87.03.025 and 89.12.090. [1963 c 20 § 2; 1919 c 164 § 1; RRS § 8125. Cf. 1909 c 154 §§ 1, 4.]

79.44.020 State to be charged its proportion of cost—Construction of chapter. In all local improvement assessment districts in any assessing district in this state, property in such district, held or owned by the state shall be assessed and charged for its proportion of the cost of such local improvements in the same manner as other property in such district, it being the intention of this chapter that the state shall bear its just and equitable proportion of the cost of local improvements specially benefiting state lands: Provided, That none of the provisions of this chapter shall have the effect, or be construed to have the effect, to alter or modify in any particular any existing lease of any lands or property owned by the state, or release or discharge any lessee of any such lands or property from any of the obligations, covenants or conditions of the contract under which any such lands or property are leased or held by any such lessee. 79.44.030 Apportioning cost on leaseholds. Where state lands are under lease, the proportionate amounts to be assessed against the leasehold interest, and the fee simple interest of the state, shall be fixed with reference to the life of the improvement and the period for which said lease has yet to run. [1919 c 164 § 3; RRS § 8127. Cf. 1909 c 154 § 3; 1907 c 74 § 3.]

with the estimate of the amount to be charged to each lot, tract or parcel of land, or other property owned by the state to be assessed for said improvement, shall be forwarded by registered or certified mail to the director of financial management and to the chief administrative officer of the agency of state government occupying, using, or having jurisdiction over such lands at least thirty days prior to the date fixed for hearing on the resolution or petition initiating said improvement. Such assessing district, shall not have jurisdiction to order such improvement as to the interest of the state in harbor areas and state tidelands until the written consent of the commissioner of public lands to the making of such improvement shall have been obtained, unless other means be provided for paying that portion of the cost which would otherwise be levied on the interest of the state of Washington in and to said tidelands, and nothing herein shall prevent the city from assessing the proportionate cost of said improvement against any leasehold, contractual or possessory interest in and to any tideland or harbor area owned by the state: Provided, however, That in the case of tidelands and harbor areas within the boundaries of any port district, notice of intention to make such improvement shall also be forwarded to the commissioners of said port district. [1979 c 151 § 177; 1963 c 20 § 4; 1919 c 164 § 4; RRS § 8128. Cf. 1909 c 154 § 6.]

79.44.050 Certification of roll—Penalties, interest.

Upon the approval and confirmation of the assessment roll for any local improvement ordered by the proper authorities of any assessing district, the treasurer of such assessing district shall certify and forward to the director of financial management and to the chief administrative officer of the agency of state government occupying, using, or having jurisdiction over the lands, in accordance with such rules and regulations as the director of financial management may provide, a statement of all the lots or parcels of land held or owned by the state and charged on such assessment roll for the cost of such improvement, separately describing each such lot or parcel of the state’s land, with the amount of the local assessment charged against it, or the proportionate amount assessed against the fee simple interest of the state, in case said land has been leased. The chief administrative officer upon receipt of such statement shall cause a proper record to be made in his office of the cost of such improvement upon the lands occupied, used, or under the jurisdiction of his agency.

No penalty shall be provided or enforced against the state, and the interest upon such assessments shall be computed and paid at the rate paid by other property situated in the same improvement district. [1979 c 151 § 178; 1963 c 20 § 5; 1933 c 108 § 1; 1919 c 164 § 5; RRS § 8129. Cf. 1909 c 154 § 6; 1907 c 74 §§ 1, 2, 4, 5.]

79.44.060 Payment procedure—State lands not subject to lien, exception.

When the chief administrative officer of an agency of state government is satisfied that an assessing district has complied with all the conditions precedent to the levy of assessments for district purposes, pursuant to this chapter against state lands occupied, used, or under the jurisdiction of his agency, he shall pay them, together with any interest thereon from any funds specifically appropriated to his agency therefor or from any funds of his agency which under existing law have been or are required to be expended to pay assessments on a current basis. In all other cases, the chief administrative officer shall certify to the director of financial management that the assessment is one properly chargeable to the state. The director of financial management shall pay such assessments from funds available or appropriated to him for this purpose.

Except as provided in RCW 79.44.190 no lands of the state shall be subject to a lien for unpaid assessments, nor shall the interest of the state in any land be sold for unpaid assessments where assessment liens attached to the lands prior to state ownership. [1979 c 151 § 179; 1971 ex.s. c 116 § 2; 1963 c 20 § 6; 1947 c 205 § 1; Rem. Supp. 1947 § 8136a.]

79.44.070 Enforcement against lessee or contract holder.

When any assessing district has made or caused to be made an assessment against such leasehold, contractual or possessory interest for any such local improvement, the treasurer of said assessing district shall immediately give notice to the director of financial management and to the chief administrative officer of the agency having jurisdiction over the lands. Said assessment shall become a lien against the leasehold, contractual or possessory interest in the same manner as the assessments on other property, and its collection may be enforced against such interests as provided by law for the enforcement of other local improvement assessments: Provided, That said assessment shall not be made payable in installments unless the owner of such leasehold, contractual or possessory interest shall first file with such treasurer a satisfactory bond guaranteeing the payment of such installments as they become due. [1979 c 151 § 180; 1963 c 20 § 7; 1919 c 164 § 6; RRS § 8130. Cf. 1909 c 154 § 2.]

79.44.080 Foreclosure against leasehold or contract interest—Cancellation of lease or contract.

Whenever any assessing district shall have foreclosed the lien of any such delinquent assessments, as provided by law, and shall have obtained title to such leasehold, contractual or possessory interest, the director of financial management and the chief administrative officer of the agency having jurisdiction over the lands shall be notified by registered or certified mail of such action and furnished a statement of all assessments against such leasehold, contractual or possessory interest, and the chief administrative officer or director of financial management shall cause the amount of such assessments to be paid as provided in RCW 79.44.060, and upon the receipt of an assignment from such assessing district, the chief administrative officer shall cancel such lease or contract: Provided, however, That unless the assessing district making said local improvement and levying said special assessment shall have used due diligence in the foreclosure thereof, the chief administrative officer and
the director of financial management shall not be required to pay any sum in excess of what they deem to be the special benefits accruing to the state's reversionary interest in said property: And provided further, That if such delinquent assessment or installment shall be against a leasehold interest in fresh water harbor areas within a port district, the chief administrative officer shall notify the commissioners of said port district of the receipt of such assignment, and said commissioners shall forthwith cancel such lease. [1979 c 151 § 181; 1963 c 20 § 8; 1919 c 164 § 7; RRS § 8131.]

79.44.090 Payment by state after forfeiture of lease or contract. If by reason of default in the payment of rentals or installments, or other causes, the state shall cancel any lease or contract against which assessments have been levied as herein provided, the chief administrative officer of the agency having jurisdiction over the lands shall cause such assessments or installments as shall fall due subsequent to the cancellation of said contract or leasehold interest to be paid as provided in RCW 79.44.060, the same as if the assessments or installments thereof had been levied on the state's interest in said lands. [1963 c 20 § 9; 1919 c 164 § 8; RRS § 8132.]

79.44.095 Assessments paid by state to be added to purchase price of land. When any land, other than lands occupied and used in connection with state institutions, owned or held by the state within incorporated cities, towns, diking, drainage or port districts in this state, against which local improvement assessments have been paid, as herein provided for, is offered for sale, there shall be added to the appraised value of such land, as provided by law, such portion of the local improvement assessment paid by the state as shall be deemed to represent the value added to such lands by such improvement for the purpose of sale, which amount so added shall be paid by the purchaser in cash at the time of the sale of said land, in addition to the amounts otherwise due to the state for said land, and no deed shall ever be executed until such local improvement assessments have been paid, and nothing herein shall be construed as canceling any unpaid assessments on the land so sold by the state, but such land shall be sold subject to all assessments unpaid at the time of sale. [1919 c 164 § 9; RRS § 8133. Cf. 1909 c 154 § 7.]

Assessments paid to be added to purchase price of land: RCW 79.01.728.

79.44.100 Assignment of lease or contract to purchaser at foreclosure sale. Whenever any such tide, state, school, granted or other lands situated within the limits of any assessing district, has been included within any local improvement district by such assessing district, and the contract, leasehold or other interest of any individual has been sold to satisfy the lien of such assessment for local improvement, the purchaser of such interest at such sale shall be entitled to receive from the state of Washington, on demand, an assignment of the contract, leasehold or other interest purchased by him, and shall assume, subject to the terms and conditions of the contract or lease, the payment to the state of the amount of the balance which his predecessor in interest was obligated to pay. [1963 c 20 § 10; 1919 c 164 § 10; RRS § 8134. Cf. 1909 c 154 § 10.]

79.44.120 When assessments need not be added in certain cases. Whenever any state school, granted, tide or other public lands of the state shall have been charged with local improvement assessments under any local improvement assessment district in any incorporated city, town, irrigation, diking, drainage, port, weed or pest district, or any other district now authorized by law to levy assessments against state lands, where such assessments are required under existing statutes to be returned to the fund of the state treasury from which said assessments were originally paid, the commissioner of public lands may, and he is hereby authorized, to sell such lands for their appraised valuation without regard to such assessments, anything to the contrary in the existing statutes notwithstanding: Provided, That nothing herein contained shall be construed to alter in any way any existing statute providing for the method of procedure in levying assessments against state lands in any of such local improvement assessment districts. [1937 c 80 § 1; RRS § 7797-192a.]

79.44.130 Local provisions superseded. The provisions of this chapter shall apply to all assessing districts as herein defined, any charter or ordinance provisions to the contrary notwithstanding. [1963 c 20 § 11; 1919 c 164 § 11; RRS § 8135. Cf. 1909 c 154 § 8.]

79.44.140 Application of chapter—Eminent domain assessments. The provisions of this chapter shall apply to all local improvements initiated after June 11, 1919, including assessments to pay the cost and expense of taking and damaging property by the power of eminent domain, as provided by law: Provided, That in case of eminent domain assessments, it shall not be necessary to forward notice of the intention to make such improvement, but the eminent domain commissioners, authorized to make such assessment, shall, at the time of filing the assessment roll with the court in the manner provided by law, forward by registered or certified mail to the director of financial management and to the chief administrative officer of the agency using, occupying or having jurisdiction over the lands a notice of such assessment, and of the day fixed by the court for the hearing thereof: Provided, That no assessment against the state's interest in tidelands or harbor areas shall be binding against the state if the commissioner of public lands shall file a disapproval of the same in court before judgment confirming the roll. [1979 c 151 § 182; 1963 c 20 § 12; 1919 c 164 § 12; RRS § 8136.]

79.44.180 Director of financial management to adopt rules and regulations. The director of financial management shall adopt rules and regulations:

(1) Governing the preparation, certification, and submission of all notices and statements required by chapter 79.44 RCW as now or hereafter amended;
(2) Authorizing and prescribing additional reports, records, and information necessary to achieve budgetary objectives in accordance with chapter 43.88 RCW and any appropriation hereafter made;

(3) Assuring the payment of all assessments properly chargeable to the state; and

(4) Protecting the state against illegal or inequitable assessments. [1979 c 151 § 18; 1963 c 20 § 14.]

79.44.190 Acquisition of property by state or political subdivision which is subject to unpaid assessments or delinquencies—Payment of lien or installments. When real property subject to an unpaid special assessment for a local improvement levied by any political subdivision of the state authorized to form local improvement or utility local improvement districts is acquired by purchase or condemnation by the state or any political subdivision thereof, including but not limited to any special purpose district, the property so acquired shall continue to be subject to the assessment lien.

An assessment lien or installment thereof, delinquent at the time of such acquisition shall be paid at the time of acquisition, and the amount thereof, including any accrued interest and delinquent penalties, shall be withheld from the purchase price or condemnation award by the public body acquiring the property and shall be paid immediately to the county, city, or town treasurer, whichever is applicable, in payment of and discharge of such delinquent installment lien.

Any installment or installments not delinquent at the time of acquisition shall become due and payable in such year and at such date as said installment would have become due if such property had not been so acquired: Provided, That where such property is acquired by the state of Washington, the balance of the assessment shall be paid in full at the time of acquisition.

For the purpose of this section, the “time of acquisition” shall mean the date of completion of the sale, date of condemnation verdict, date of the order of immediate possession and use pursuant to RCW 8.04.090, or the date of judgment, if not tried to a jury. [1971 ex.s. c 116 § 1.]

79.44.900 Severability—1963 c 20. If any provision of this act, or its application to any person or circumstance is held invalid, the remainder of the act, or the application of the provision to other persons or circumstances is not affected. [1963 c 20 § 16.]

79.60.010 Cooperation. The state forest board with regard to state forest board lands, and the commissioner of public lands with regard to state granted lands, are hereby authorized to enter into cooperative agreements with the United States of America, Indian tribes, and private owners of timber land providing for coordinated forest management, including time, rate and method of cutting timber and method of silvicultural practice on a sustained yield unit. Wherever applicable in this chapter, it shall be understood that the state forest board shall have complete authority over state forest board lands and the commissioner of public lands complete authority over state granted land. [1941 c 123 § 2; 1939 c 130 § 1; Rem. Supp. 1941 § 7879–11. Formerly RCW 79.52.070.]

79.60.020 Cooperative units. The state forest board and the commissioner of public lands are hereby authorized and directed to determine, define and declare informally the establishment of a sustained yield unit, comprising the land area to be covered by any such cooperative agreement and include therein such other lands as may be later acquired by the state forest board and included under the cooperative agreement. [1939 c 130 § 2; RRS § 7879–12. Formerly RCW 79.52.080.]

79.60.030 Limitations on agreements. The state shall agree that the cutting from combined national forest and state lands will be limited to the sustained yield capacity of these lands in the management unit as determined by the contracting parties and approved by the state forest board and the commissioner of public lands. Cooperation with the private contracting party or parties shall be contingent on limitation of production to a specified amount as determined by the contracting parties and approved by the state forest board and the commissioner of public lands and shall comply with the other conditions and requirements of such cooperative agreement. [1939 c 130 § 3; RRS § 7879–13. Formerly RCW 79.52.090.]

79.60.040 Easement over state land during life of agreement. The private contracting party or parties shall enjoy the right of easement over state forest board lands and state granted lands included under said cooperative agreement for railway, road and other uses necessary to the carrying out of the agreement. This easement shall be only for the life of the cooperative agreement and shall be granted without charge with the provision that payment shall be made for all merchantable timber cut, removed or damaged in the use of such easement, payment to be based on the contract stumpage price for timber of like value and species and to be made within thirty days from date of cutting, removal and/or damage of such timber and appraisal thereof by the commissioner of public lands and the state forest board. [1941 c 123 § 2; Rem. Supp. 1941 § 7879–13a. Formerly RCW 79.52.110.]
79.60.050 Sale agreements. During the period when any such cooperative agreement is in effect, the timber on the state lands which the state forest board and the commissioner of public lands determine shall be included in the sustained yield unit may, from time to time, be sold at not less than its appraised value as approved by the state forest board and the commissioner of public lands, due consideration being given to existing forest conditions on all lands included in the cooperative management unit and such sales may be made in the discretion of the state forest board and the commissioner of public lands and the contracting party or parties in the cooperative sustained yield agreement. These sale agreements shall contain such provisions as are necessary to effectually permit the state forest board and the commissioner of public lands to carry out the purpose of this section and in other ways afford adequate protection to the public interests involved. [1939 c 130 § 4; RRS § 7879–14. Formerly RCW 79.52.100.]

79.60.060 Minimum price—Alternative bases—Bids and awards. The sale of timber upon state forest board land and state granted land within such sustained yield unit or units shall be made for not less than the appraised value thereof as heretofore provided for the sale of timber on state lands: Provided. That, if in the judgment of the state forest board or the commissioner of public lands, it is to the best interests of the state to do so, said timber or any such sustained yield unit or units may be sold on a stumpage or scale basis for a price per thousand not less than the appraised value thereof. The state forest board and the commissioner of public lands shall reserve the right to reject any and all bids if the intent of this chapter will not be carried out. Permanency of local communities and industries, prospects of fulfillment of contract requirements, and financial position of the bidder shall all be factors included in this decision. [1939 c 130 § 5; RRS § 7879–15. Formerly RCW 79.52.040.]

79.60.070 Contracts—Requirements. A written contract shall be entered into with the successful bidder which shall fix the time when logging operations shall be commenced and concluded and require monthly payments for timber removed as soon as scale sheets have been tabulated and the amount of timber removed during the month determined, or require payments monthly in advance at the discretion of the board or the commissioner. The board and the commissioner shall designate the price per thousand to be paid for each species of timber and shall provide for supervision of logging operations, the methods of scaling and report, and shall require the purchaser to comply with all laws of the state of Washington with respect to fire protection and logging operation of the timber purchased; and shall contain such other provisions as may be deemed advisable. [1939 c 130 § 6; RRS § 7879–16. Formerly RCW 79.52.050, part.]

79.60.080 Transfer or assignment of contract of purchase. No transfer or assignment by the purchaser shall be valid unless the transferee or assignee is acceptable to the commissioner of public lands and the state forest board and the transfer or assignment approved by them in writing. [1941 c 123 § 3; Rem. Supp. 1941 § 7879–16a. Formerly RCW 79.52.120.]

79.60.090 Performance bond—Cash deposit. The purchaser shall, at the time of executing the contract, deliver a performance bond or sureties acceptable in regard to terms and amount to the commissioner of public lands and the state forest board, but such performance bond or sureties shall not exceed ten percent of the estimated value of the timber purchased computed at the stumpage price and at no time shall exceed a total of fifty thousand dollars. The purchaser shall also be required to make a cash deposit equal to twenty percent of the estimated value of the timber purchased, computed at the stumpage bid. Upon failure of the purchaser to comply with the terms of the contract, the performance bond or sureties may be forfeited to the state upon order of the forest board or the commissioner of public lands.

At no time shall the amount due the state for timber actually cut and removed exceed the amount of the deposit as hereinabove set forth. The amount of the deposit shall be returned to the purchaser upon completion and full compliance with the contract by the purchaser, or it may, at the discretion of the purchaser, be applied on final payment on the contract. 79.64.020 Resource management cost account—Created—Specified purposes for use. A resource management cost account in the state general fund is hereby created to be used solely for the purpose of defraying the costs and expenses necessarily incurred by the department in managing and administering public lands and the making and administering of leases, sales, contracts, licenses, permits, easements, and rights of way as authorized under the provisions of this title. Appropriations from the account shall be expended for no other purposes. [1961 c 178 § 2.]

79.64.030 Expenditures of certain funds in account to be for lands of same trust—Use for other lands—Repayment—Accounting. Funds in the account derived from the gross proceeds of leases, sales, contracts, licenses, permits, easements, and rights of way issued by the department and affecting school lands, university lands, agricultural college lands, scientific school lands, normal school lands, capitol building lands, or institutional lands shall be expended by the department solely for the purpose of defraying the costs and expenses necessarily incurred in managing and administering public lands of the same trust: Provided, That such funds may be used for similar costs and expenses in managing and administering other lands managed by the department: Provided further, That such expenditures that have been or may be made on such other lands shall be repaid to the resource management cost account together with interest at the rate provided for in RCW 79.01.216.

An accounting shall be made annually of the accrued expenditures as regards each trust. In the event the accounting determines that expenditures have been made from moneys derived from one category of trust lands for the benefit of another trust or other lands, such expenditure shall be considered a debt against the trust benefited and shall be considered an encumbrance against the property of the trust or trust funds benefited, including property held under chapter 76.12 RCW. RESOURCE MANAGEMENT LAND BANK

Sections
79.66.010 Legislative finding.
79.66.020 Resource management land bank—Created—Purchase of property authorized.
79.66.030 Exchange or sale of property held in resource management land bank.
79.66.040 Management of property held in resource management land bank.
79.66.050 Appropriation of funds from forest development account—Use of income.

79.66.010 Legislative finding. The legislature finds that from time to time it may be desirable for the department of natural resources to sell state lands which have low potential for natural resource management or low income—generating potential or which, because of geographic location or other factors, are inefficient for the department to manage. However, it is also important to acquire lands to replace those sold so that the publicly owned land base will not be depleted. The purpose of this chapter is to provide a means to facilitate such sales and purchases. [1977 ex.s. c 109 § 1.]

79.66.020 Resource management land bank—Created—Purchase of property authorized. The department of natural resources, with the approval of the board of natural resources, is authorized to purchase property at fair market value to be held in a resource management land bank, which is hereby created within the department. Property so purchased shall be property which would be desirable for addition to the public lands...
of the state because of the natural resource production potential of the property. The total acreage held in the resource management land bank shall not exceed one thousand acres. [1977 ex.s. c 109 § 2.]

79.66.030 Exchange or sale of property held in resource management land bank. The department of natural resources, with the approval of the board of natural resources, is authorized to:

(1) Exchange property held in the resource management land bank for any other public lands of equal value administered by the department of natural resources, including any lands held in trust.

(2) Exchange property held in the resource management land bank for property of equal or greater value which is owned publicly or privately, and which has greater natural resource production potential or which could be more easily managed by the department, however, no power of eminent domain is hereby granted to the department; and

(3) Sell property held in the resource management land bank in the manner provided by law for the sale of state lands without any requirement of platting and to use the proceeds to acquire property for the land bank which has greater natural resource production potential or which would be more easily managed by the department. [1977 ex.s. c 109 § 3.]

79.66.040 Management of property held in resource management land bank. The department of natural resources may manage the property held in the resource management land bank in the same manner as state granted lands: Provided, That such properties or interest in such properties shall not be withdrawn, exchanged, transferred, or sold without first obtaining payment of the fair market value of the property or interest therein or obtaining property of equal value in exchange. [1977 ex.s. c 109 § 4.]

79.66.050 Appropriation of funds from forest development account—Use of income. The legislature may authorize appropriation of funds from the forest development account in the general fund for the purposes of this chapter. Income from the sale or management of property in the resource management land bank shall be returned as a recovered expense to the forest development account and may be used to acquire property under RCW 79.66.020. [1977 ex.s. c 109 § 5.]

79.68.010 Concept to be utilized, when. The legislature hereby directs that a multiple use concept be utilized by the department of natural resources in the management and administration of state-owned lands under the jurisdiction of the department where such a concept is in the best interests of the state and the general welfare of the citizens thereof, and is consistent with the applicable trust provisions of the various lands involved. [1971 ex.s. c 234 § 1.]

79.68.020 "Multiple use" defined. "Multiple use" as used in RCW 79.01.128, 79.44.003 and this chapter shall mean the management and administration of state-owned lands under the jurisdiction of the department of natural resources to provide for several uses simultaneously on a single tract and/or planned rotation of one or more uses on and between specific portions of the total ownership consistent with the provisions of RCW 79.68.010. [1971 ex.s. c 234 § 2.]

79.68.040 Department to periodically adjust acreages under sustained yield management program. The department of natural resources shall manage the state-owned lands under its jurisdiction which are primarily valuable for the purpose of growing forest crops on a sustained yield basis insofar as compatible with other statutory directives. To this end, the department shall periodically adjust the acreages designated for inclusion in the sustained yield management program. [1971 ex.s. c 234 § 4.]

79.68.050 Multiple uses compatible with financial obligations of trust management—Other uses permitted, when. Multiple uses additional to and compatible with those basic activities necessary to fulfill the financial obligations of trust management may include but are not limited to:

(1) Recreational areas;
(2) Recreational trails for both vehicular and nonvehicular uses;
(3) Special educational or scientific studies;

[Title 79 RCW (1979 Ed.)—p 83]
(4) Experimental programs by the various public agencies;

(8) Maintenance of historical sites;
(9) Municipal or other public watershed protection;
(10) Greenbelt areas;
(11) Public rights of way;
(12) Other uses or activities by public agencies;
If such additional uses are not compatible with the financial obligations in the management of trust land they may be permitted only if there is compensation from such uses satisfying the financial obligations. [1971 ex.s. c 234 § 5.]

79.68.060 Public lands identified and withdrawn from conflicting uses—Effect—Limitation. For the purpose of providing increased continuity in the management of public lands and of facilitating long range planning by interested agencies, the department of natural resources is authorized to identify and to withdraw from all conflicting uses at such times and for such periods as it shall determine appropriate, limited acreages of public lands under its jurisdiction. Acreages so withdrawn shall be maintained for the benefit of the public, and, in particular, of the public schools, colleges and universities, as areas in which may be observed, studied, enjoyed, or otherwise utilized the natural ecological systems therein, whether such systems be unique or typical to the state of Washington. Nothing herein is intended to or shall modify the department's obligation to manage the land under its jurisdiction in the best interests of the beneficiaries of granted trust lands. [1971 ex.s. c 234 § 6.]

79.68.070 Scope of department's authorized activities. The department of natural resources is hereby authorized to carry out all activities necessary to achieve the purposes of RCW 79.01.128, 79.44.003 and this chapter, including, but not limited to:
(1) Planning, construction and operation of recreational sites, areas, roads and trails, by itself or in conjunction with any public agency;
(2) Planning, construction and operation of special facilities for educational, scientific, or experimental purposes by itself or in conjunction with any other public or private agency;
(3) Improvement of any lands to achieve the purposes of RCW 79.01.128, 79.44.003 and this chapter;
(4) Cooperation with public and private agencies in the utilization of such lands for watershed purposes;
(5) The authority to make such leases, contracts, agreements or other arrangements as are necessary to accomplish the purposes of RCW 79.01.128, 79.44.003 and this chapter: Provided, That nothing herein shall affect any existing requirements for public bidding or auction with private agencies or parties, except that agreements or other arrangements may be made with public schools, colleges, universities, governmental agencies, and nonprofit scientific and educational associations. [1971 ex.s. c 234 § 7.]

79.68.080 Fostering of aquatic environment—Limitation. The department of natural resources shall foster the commercial and recreational use of the aquatic environment for production of food, fibre, income, and public enjoyment from state-owned aquatic lands under its jurisdiction and from associated waters, and to this end the department may develop and improve production and harvesting of seaweeds and shellfish attached to or growing on aquatic land or contained in aquaculture containers, but nothing in this section shall alter the responsibility of other state agencies for their normal management of fish, shellfish, game and water. [1971 ex.s. c 234 § 8.]

79.68.090 Multiple use land resource allocation plan—Adoption—Factors considered. The department of natural resources may adopt a multiple use land resource allocation plan for all or portions of the lands under its jurisdiction providing for the identification and establishment of areas of land uses and identifying those uses which are best suited to achieve the purposes of RCW 79.01.128, 79.44.003 and this chapter. Such plans shall take into consideration the various ecological conditions, elevations, soils, natural features, vegetative cover, climate, geographical location, values, public use potential, accessibility, economic uses, recreational potentials, local and regional land use plans or zones, local, regional, state and federal comprehensive land use plans or studies, and all other factors necessary to achieve the purposes of RCW 79.01.128, 79.44.003 and this chapter. [1971 ex.s. c 234 § 9.]

79.68.100 Conferring with other agencies—Public hearings authorized. The department of natural resources may confer with other public and private agencies to facilitate the formulation of policies and/or plans providing for multiple use concepts. The department of natural resources is empowered to hold public hearings from time to time to assist in achieving the purposes of RCW 79.01.128, 79.44.003 and this chapter. [1971 ex.s. c 234 § 10.]

79.68.110 Compliance with local ordinances, when. The department of natural resources may comply with county or municipal zoning ordinances, laws, rules or regulations affecting the use of state lands under the jurisdiction of the department of natural resources where such regulations are consistent with the treatment of similar private lands. [1971 ex.s. c 234 § 13.]

79.68.120 Land use data bank—Contents, source—Consultants authorized—Use. (1) The department of natural resources shall design expansion of its land use data bank to include additional information that will assist in the formulation, evaluation, and updating of intermediate and long-range goals and policies for land use, population growth and distribution, urban expansion, open space, resource preservation and utilization, and other factors which shape state-wide development patterns and significantly influence the quality of the state's environment. The system shall be designed to
permit inclusion of other lands in the state and will do so as financing and time permit.

(2) Such data bank shall contain any information relevant to the future growth of agriculture, forestry, industry, business, residential communities, and recreation; the wise use of land and other natural resources which are in accordance with their character and adaptability; the conservation and protection of the soil, air, water, and forest resources; the protection of the beauty of the landscape; and the promotion of the efficient and economical uses of public resources.

The information shall be assembled from all possible sources, including but not limited to, the federal government and its agencies, all state agencies, all political subdivisions of the state, all state operated universities and colleges, and any source in the private sector. All state agencies, all political subdivisions of the state, and all state universities and colleges are directed to cooperate to the fullest extent in the collection of data in their possession. Information shall be collected on all areas of the state but collection may emphasize one region at a time.

(3) The data bank shall make maximum use of computerized or other advanced data storage and retrieval methods. The department is authorized to engage consultants in data processing to ensure that the data bank will be as complete and efficient as possible.

(4) The data shall be made available for use by any governmental agency, research organization, university or college, private organization or private person as a tool to evaluate the range of alternatives in land and resource planning in the state. [1971 ex.s.c. 234 § 16.]

79.68.900 Department’s existing authority and powers preserved. Nothing in RCW 79.01.128, 79.44.003 and this chapter shall be construed to affect or repeal any existing authority or powers of the department of natural resources in the management or administration of the lands under its jurisdiction. [1971 ex.s.c. 234 § 12.]

79.68.910 Existing withdrawals for state park and state game purposes preserved. Nothing in RCW 79.01.128, 79.44.003 and this chapter shall be construed to affect, amend, or repeal any existing withdrawal of public lands for state park or state game purposes. [1971 ex.s. c 234 § 15.]

79.70.060 Construction—1972 ex.s.c. 119.

79.70.010 Purpose. The purpose of this chapter is to establish a state system of natural area preserves and a means whereby the preservation of these aquatic and land areas can be accomplished.

All areas within the state, except those which are expressly dedicated by law for preservation and protection in their natural condition, are subject to alteration by human activity. Natural lands, together with the plants and animals living thereon in natural ecological systems, are valuable for the purposes of scientific research, teaching, as habitats of rare and vanishing species, as places of natural historic and natural interest and scenic beauty, and as living museums of the original heritage of the state.

It is, therefore, the public policy of the state of Washington to secure for the people of present and future generations the benefit of an enduring resource of natural areas by establishing a system of natural area reserves, and to provide for the protection of these natural areas. [1972 ex.s.c. 119 § 1.]

79.70.020 Definitions. For the purposes of this chapter:
(1) "Department" shall mean the department of natural resources.
(2) "Natural areas" and "natural area preserves" shall mean such public or private areas of land or water which have retained their natural character, although not necessarily completely natural and undisturbed, or which are important in preserving rare or vanishing flora, fauna, archeological, natural historical or similar features of scientific or educational value.
(3) "Public lands" and "state lands" shall have the meaning set out in RCW 79.01.004.
(4) "Committee" shall mean the Washington state natural preserves advisory committee created in RCW 79.70.050. [1972 ex.s.c. 119 § 2.]

79.70.030 Powers of department. In order to set aside, preserve and protect natural areas within the state, the department is authorized, in addition to any other powers, to:
(1) Establish by rule and regulation the criteria for selection, acquisition, management, protection and use of such natural areas;
(2) Cooperate and contract with any federal, state, or local governmental agency, private organizations or individuals in carrying out the purpose of this chapter;
(3) Acquire by gift, devise, purchase, grant, dedication, or means other than eminent domain, the fee or any lesser right or interest in real property which shall be held and managed as a natural area; and
(4) Acquire by gift, devise, grant or donation any personal property to be used in the acquisition and/or management of natural areas;
(5) Inventory existing public, state and private lands in cooperation with the committee to assess possible natural areas to be preserved within the state. [1972 ex.s.c. 119 § 3.]

79.70.040 Powers as to transactions involving public lands deemed natural areas—Alienation of lands designated natural area preserves. The department is further authorized to purchase, lease, set aside or exchange any...
public land or state-owned trust lands which are deemed to be natural areas. Provided, That the appropriate state land trust receives the fair market value for any interests that are disposed of: Provided, further, That such transactions are approved by the board of natural resources.

An area consisting of public land or state-owned trust lands designated as a natural area preserve shall be held in trust and shall not be alienated except to another public use upon a finding by the department of natural resources of imperative and unavoidable public necessity. [1972 ex.s. c 119 § 5.]

79.72.010 Legislative finding—Purpose. The legislature hereby finds that many rivers of this state, with their immediate environs, possess outstanding natural, scenic, historic, ecological, and recreational values of present and future benefit to the public. The legislature further finds that the policy of permitting the construction of dams and other impoundment facilities at appropriate sections of the rivers of this state needs to be complemented by a policy that would protect and preserve the natural character of such rivers and fulfill other conservation purposes. It is hereby declared to be the policy of this state that certain selected rivers of the state which, with their immediate environs, possess the aforementioned characteristics, shall be preserved in as natural a condition as practical and that overuse of such rivers, which tends to downgrade their natural condition, shall be discouraged.

The purpose of this chapter is to establish a program for managing publicly owned land on rivers included in the state's scenic river system, to indicate the river segments to be initially included in that system, to prescribe a procedure for adding additional components to the system, and to protect the rights of private property owners. [1977 ex.s. c 161 § 1.]

79.72.020 Definitions—Committee of participating agencies. The following terms when used in this chapter shall be defined as follows unless the context clearly requires otherwise:
(1) "Department" means state parks and recreation commission.
(2) "Committee of participating agencies" or "committee" means a committee composed of the executive head, or such executive's designee, of each of the state departments of ecology, fisheries, game, natural resources, and highways, the state parks and recreation commission, the interagency committee for outdoor recreation, the Washington state association of counties, and the association of Washington cities.

When a specific river or river segment of the state's scenic river system is being considered by the committee, a representative of each participating local government associated with that river or river segment shall serve as a member of the committee.
(3) "Participating local government" means the legislative authority of any city or county, a portion of whose territorial jurisdiction is bounded by or includes a river or river segment of the state's scenic river system.
(4) "River" means a flowing body of water or a section, segment, or portion thereof.
(5) "River area" means a river and the land area in its immediate environs as established by the participat­ ing agencies not exceeding a width of one-quarter mile landward from the streamway on either side of the river.
(6) "Scenic easement" means the negotiated right to control the use of land, including the air space above such land, for the purpose of protecting the scenic view throughout the visual corridor.
(7) "Streamway" means that stream–dependent corridor of single or multiple, wet or dry, channel or channels within which the usual seasonal or stormwater run–off peaks are contained, and within which environment the flora, fauna, soil, and topography is dependent on or influenced by the height and velocity of the fluctuating river currents.
(8) "System" means all the rivers and river areas in the state designated by the legislature for inclusion as scenic rivers but does not include tributaries of a designated river unless specifically included by the legislature. The inclusion of a river in the system does not mean that other rivers or tributaries in a drainage basin shall be required to be part of the management program developed for the system unless such rivers and tributaries
within the drainage basin are specifically designated for inclusion by the legislature.

(9) "Visual corridor" means that area which can be seen in a normal summer month by a person of normal vision walking either bank of a river included in the system. Such corridor shall not exceed the river area. [1977 ex.s. c 161 § 2.]

Reviser's note: "department of highways" redesignated as "department of transportation" by 1977 ex.s. c 151. See RCW 47.04.015.

79.72.030 Management policies—Development—Inclusion of management plans—Identification and exclusion of unsuitably developed lands—Boundaries of river areas—Hearings—Chairman—Meetings—Proposals for system additions. (1) The department shall develop and adopt management policies for publicly owned or leased land on the rivers designated by the legislature as being a part of the state's scenic river system and within the associated river areas. The department may adopt regulations identifying river classifications which reflect the characteristics common to various segments of scenic rivers and may adopt management policies consistent with local government's shoreline management master plans appropriate for each such river classification. All such policies shall be subject to review by the committee of participating agencies. Once such a policy has been approved by a majority vote of the committee members, it shall be adopted by the department in accordance with the provisions of chapter 34.04 RCW, as now or hereafter amended. Any variance with such a policy by any public agency shall be authorized only by the approval of the committee of participating agencies by majority vote, and shall be made only to alleviate unusual hardships unique to a given segment of the system.

(2) Any policies developed pursuant to subsection (1) of this section shall include management plans for protecting ecological, economic, recreational, aesthetic, botanical, scenic, geological, hydrological, fish and wildlife, historical, cultural, archaeological, and scientific features of the rivers designated as being in the system. Such policies shall also include management plans to encourage any nonprofit group, organization, association, person, or corporation to develop and adopt programs for the purpose of increasing fish propagation.

(3) The committee of participating agencies shall, by two-thirds majority vote, identify on a river by river basis any publicly owned or leased lands which could be included in a river area of the system but which are developed in a manner unsuitable for land to be managed as part of the system. The department shall exclude lands so identified from the provisions of any management policies implementing the provisions of this chapter.

(4) The committee of participating agencies, by majority vote, shall determine the boundaries which shall define the river area associated with any included river. With respect to the rivers named in RCW 79.72.080, the committee shall make such determination, and those determinations authorized by subsection (3) of this section, within one year of September 21, 1977.

(5) Before making a decision regarding the river area to be included in the system, a variance in policy, or the excluding of land from the provisions of the management policies, the committee shall hold hearings in accord with chapter 34.04 RCW, with at least one public hearing to be held in the general locale of the river under consideration. The department shall cause to be published in a newspaper of general circulation in the area which includes the river or rivers to be considered, a description, including a map showing such river or rivers, of the material to be considered at the public hearing. Such notice shall appear at least twice in the time period between two and four weeks prior to the public hearing.

(6) Meetings of the committee shall be called by the department or by written petition signed by five or more of the committee members. The chairman of the parks and recreation commission or the chairman's designee shall serve as the chairman of any meetings of the committee held to implement the provisions of this chapter. The committee shall seek and receive comments from the public regarding potential additions to the system, shall initiate studies, and may, through the department, submit to any session of the legislature proposals for additions to the state scenic river system. These proposals shall be accompanied by a detailed report on the factors which, in the committee's judgment, make an area a worthy addition to the system. [1977 ex.s. c 161 § 3.]

79.72.040 Administration of management program—Powers, duties and authority of department. (1) The management program for the system shall be administered by the department. The department shall have the responsibility for coordinating the development of the program between affected state agencies and participating local governments, and shall develop, adopt rules and regulations, in accord with chapter 34.04 RCW, for each portion of the system, which shall implement the management policies. In developing rules and regulations for a specific river in the system, the department shall hold at least one public hearing in the general locale of the river under consideration. The department shall cause a brief summary of the proposed rules and regulations to be published twice in a newspaper of general circulation in the area which includes the river to be considered in the period of time between two and four weeks prior to the public hearing. In addition to the foregoing required publication, the department shall also provide notice of the hearings, rules, regulations, and decisions of the department to radio and television stations and major local newspapers in the areas which include the river to be considered.

(2) In addition to any other powers granted to carry out the intent of this chapter, the department is authorized, subject to approval by majority vote of the members of the committee, to: (a) Purchase, within the river area, real property in fee or any lesser right or interest in real property including, but not limited to scenic easements and future development rights, visual corridors, wildlife habitats, unique ecological areas, historical sites, camping and picnic areas, boat launching sites, and/or
easements abutting the river for the purpose of preserving or enhancing the use of the river by the public for fishing, boating, and other water-related activities; and (b) purchase, outside of a river area, public access to the river area.

The right of eminent domain shall not be utilized in any purchase made pursuant to this section.

(3) The department is further authorized: (a) Acquire by gift, devise, grant, or dedication the fee, any purchase made pursuant to this section.

(4) The department is hereby vested with the power to obtain injunctions and other appropriate relief against violations of any provisions of this chapter and any rules and regulations adopted under this section or agreements made under the provisions of this chapter. [1977 ex.s. c 161 § 4.]

79.72.050 State agencies and local governments to pursue policies to conserve and enhance included river areas—Shoreline management act—Private lands—Trust lands. (1) All state government agencies and local governments are hereby directed to pursue policies with regard to their respective activities, functions, powers, and duties which are designed to conserve and enhance the conditions of rivers which have been included in the system, in accordance with the management policies and the rules and regulations adopted by the department for such rivers. Local agencies are directed to pursue such policies with respect to all lands in the river area owned or leased by such local agencies. Nothing in this chapter shall authorize the modification of a shoreline management plan adopted by a local government and approved by the state pursuant to chapter 90.58 RCW without the approval of the department of ecology and local government. The policies adopted pursuant to this chapter shall be integrated, as fully as possible, with those of the shoreline management act of 1971.

(2) Nothing in this chapter shall grant to the committee of participating agencies or the department the power to restrict the use of private land without either the specific written consent of the owner thereof or the acquisition of rights in real property authorized by RCW 79.72.040.

(3) Nothing in this chapter shall prohibit the department of natural resources from exercising its full responsibilities and obligations for the management of state trust lands. [1977 ex.s. c 161 § 5.]

79.72.060 Criteria for inclusion of rivers within system. Rivers of a scenic nature are eligible for inclusion in the system. Ideally, a scenic river:

(1) Is free-flowing without diversions that hinder recreational use;

(2) Has a streamway that is relatively unmodified by riprapping and other stream bank protection;

(3) Has water of sufficient quality and quantity to be deemed worthy of protection;

(4) Has a relatively natural setting and adequate open space;

(5) Requires some coordinated plan of management in order to enhance and preserve the river area; and

(6) Has some lands along its length already in public ownership, or the possibility for purchase or dedication of public access and/or scenic easements. [1977 ex.s. c 161 § 6.]

79.72.070 Authority of departments of fisheries and game unaffected. Nothing contained in this chapter shall affect the authority of the department of fisheries and the department of game to construct facilities or make improvements to facilitate the passage or propagation of fish nor shall anything in this chapter be construed to interfere with the powers, duties, and authority of the department of fisheries or the department of game to regulate, manage, conserve, and provide for the harvest of fish or wildlife within any area designated as being in the state's scenic river system: Provided, That no hunting shall be permitted in any state park. [1977 ex.s. c 161 § 7.]

79.72.080 Rivers designated as part of system. The following rivers of the state of Washington are hereby designated as being in the scenic river system of the state of Washington:

1. The Skykomish river from the junction of the north and south forks of the Skykomish river:

   a. Downstream approximately fourteen miles to its junction with the Sultan river;

   b. Upstream approximately twenty miles on the north fork to the junction of the Tye and Foss rivers;

   c. Upstream approximately eleven miles on the north fork to its junction with Bear creek;

2. The Beckler river from its junction with the south fork of the Skykomish river upstream approximately eight miles to its junction with Rapid river; and

3. The Tye river from its junction with the south fork of the Skykomish river upstream approximately fourteen miles to Tye Lake. [1977 ex.s. c 161 § 8.]

Green river gorge conservation area: RCW 43.51.900–43.51.930.

79.72.090 Inclusion of state's scenic rivers in national wild and scenic river system not precluded. Nothing in this chapter shall preclude a section or segment of the state's scenic rivers included in the system from becoming a part of the national wild and scenic river system. [1977 ex.s. c 161 § 9.]

79.72.100 Game fund moneys not to be used. No funds shall be expended from the game fund to carry out the provisions of this chapter. [1977 ex.s. c 161 § 10.]

79.72.110 Funding. All funds for the implementation of this chapter as now or hereafter amended shall come from the general fund. [1977 ex.s. c 161 § 11.]

79.72.900 Severability—1977 ex.s. c 161. If any provision of this act, or its application to any person of
legal entity or circumstances, is held invalid, the remainder of the act, or the application of the provision to other persons or legal entities or circumstances, shall not be affected. [1977 ex.s. c 161 § 12.]

79.76.020 Short title. This chapter shall be known as the Geothermal Resources Act. [1974 ex.s. c 43 § 2.]

79.76.030 Definitions. For the purposes of this chapter, unless the text otherwise requires, the following terms shall have the following meanings:
(1) "Geothermal resources" means only that natural heat energy of the earth from which it is technologically practical to produce electricity commercially and the medium by which such heat energy is extracted from the earth, including liquids or gases, as well as any minerals contained in any natural or injected fluids, brines and associated gas, but excluding oil, hydrocarbon gas and other hydrocarbon substances.
(2) "Waste", in addition to its ordinary meaning, shall mean "physical waste" as that term is generally understood and shall include:
   (a) The inefficient, excessive, or improper use of, or unnecessary dissipation of, reservoir energy; or the locating, spacing, drilling, equipping, operating or producing of any geothermal energy well in a manner which results, or tends to result, in reducing the quantity of geothermal energy to be recovered from any geothermal area in this state;
   (b) The inefficient above-ground transporting or storage of geothermal energy; or the locating, spacing, drilling, equipping, operating, or producing of any geothermal well in a manner causing, or tending to cause, unnecessary excessive surface loss or destruction of geothermal energy;
   (c) The escape into the open air, from a well of steam or hot water, in excess of what is reasonably necessary in the efficient development or production of a geothermal well.
(3) "Geothermal area" means any land that is, or reasonably appears to be, underlain by geothermal resources.
(4) "Energy transfer system" means the structures and enclosed fluids which facilitate the utilization of geothermal energy. The system includes the geothermal wells, cooling towers, reinjection wells, equipment directly involved in converting the heat energy associated with geothermal resources to mechanical or electrical energy or in transferring it to another fluid, the closed piping between such equipment, wells and towers and that portion of the earth which facilitates the transfer of a fluid from reinjection wells to geothermal wells: Provided, That the system shall not include any geothermal resources which have escaped into or have been released into the nongeothermal ground or surface waters from either man-made containers or through leaks in the structure of the earth caused by or to which access was made possible by any drilling, redrilling, reworking or operating of a geothermal or reinjection well.
(5) "Operator" means the person supervising or in control of the operation of a geothermal resource well, whether or not such person is the owner of the well.
(6) "Owner" means the person who possesses the legal right to drill, convert or operate any well or other facility subject to the provisions of this chapter.

[Title 79 RCW (1979 Ed.)—p 89]
(7) "Person" means any individual, corporation, company, association of individuals, joint venture, partnership, receiver, trustee, guardian, executor, administrator, personal representative, or public agency that is the subject of legal rights and duties.

(8) "Pollution" means any damage or injury to ground or surface waters, soil or air resulting from the unauthorized loss, escape, or disposal of any substances at any well subject to the provisions of this chapter.

(9) "Department" means the department of natural resources.

(10) "Well" means any excavation made for the discovery or production of geothermal resources, or any special facility, converted producing facility, or reactivated or converted abandoned facility used for the reinjection of geothermal resources, or the residue thereof underground.

(11) "Core holes" are holes drilled or excavations made expressly for the acquisition of geological or geophysical data for the purpose of finding and delineating a favorable geothermal area prior to the drilling of a well.

(12) A "completed well" is a well that has been drilled to its total depth, has been adequately cased, and is ready to be either plugged and abandoned, shut-in, or put into production.

(13) "Plug and abandon" means to place permanent plugs in the well in such a way and at such intervals as are necessary to prevent future leakage of fluid from the well to the surface or from one zone in the well to the other, and to remove all drilling and production equipment from the site, and to restore the surface of the site to its natural condition or contour or to such condition as may be prescribed by the department.

(14) "Shut-in" means to adequately cap or seal a well to control the contained geothermal resources for an interim period. [1974 ex.s.c 43 § 3.]

79.76.040 Geothermal resources deemed sui generis.
Notwithstanding any other provision of law, geothermal resources are found and hereby determined to be sui generis, being neither a mineral resource nor a water resource and as such are hereby declared to be the private property of the holder of the title to the surface land above the resource. [1979 1st ex.s.c 2 § 1; 1974 ex.s.c 43 § 4.]

Severability—1979 1st ex.s.c 2: "If any provision of this 1979 act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1979 1st ex.s.c 2 § 2.]

79.76.050 Administration of chapter. (1) The department shall administer and enforce the provisions of this chapter and the rules, regulations, and orders relating to the drilling, operation, maintenance, abandonment and restoration of geothermal areas, to prevent damage to and waste from underground geothermal deposits, and to prevent damage to underground and surface waters, land or air that may result from improper drilling, operation, maintenance or abandonment of geothermal resource wells.

[Title 79 RCW (1979 Ed.)—p 90]
no notice need be published, and no hearing need be held. Such core holes that penetrate more than seven hundred and fifty feet into bedrock shall be deemed geothermal test wells and subject to the payment of a permit fee and to the requirement in subsection (2) of this section for public notices and hearing. In the event geothermal energy is discovered in a core hole, the hole shall be deemed a geothermal well and subject to the permit fee, notices, and hearing. Such core holes as described by this subsection are subject to all other provisions of this chapter, including but not limited to provisions of RCW 79.76.130.

4) All moneys paid to the department under this section shall be deposited with the state treasurer for credit to the general fund. [1974 ex.s. c 43 § 7.]

79.76.080 Drilling permits—Criteria for granting. A permit shall be granted only if the department is satisfied that the area is suitable for the activities applied for; that the applicant will be able to comply with the provisions of this chapter and the rules and regulations enacted hereunder; and that a permit would be in the best interests of the state.

The department shall not allow operation of a well under permit if it finds that the operation of any well will unreasonably decrease ground water available for prior water rights in any aquifer or other ground water source for water for beneficial uses, unless such affected water rights are acquired by condemnation, purchase or other means.

The department shall have the authority to condition the permit as it deems necessary to carry out the provisions of this chapter, including but not limited to conditions to reduce any environmental impact.

A permit shall be granted only if the department is satisfied that the area is suitable for the activities applied for; that the applicant will be able to comply with the provisions of this chapter and all rules and regulations enacted hereunder; and that a permit would be in the best interests of the state.

The department shall not allow operation of a well under permit if it finds that the operation of any well will unreasonably decrease ground water available for prior water rights in any aquifer or other ground water source for water for beneficial uses, unless such affected water rights are acquired by condemnation, purchase or other means.

The department shall have the authority to condition the permit as it deems necessary to carry out the provisions of this chapter, including but not limited to conditions to reduce any environmental impact.

The department shall forward a copy of the permit to the department of ecology within five days of issuance. [1974 ex.s. c 43 § 8.]

79.76.090 Casing requirements. Any operator engaged in drilling or operating a well for geothermal resources shall equip such well with casing of sufficient strength and with such safety devices as may be necessary, in accordance with methods approved by the department.

No person shall remove a casing, or any portion thereof, from any well without prior approval of the department. [1974 ex.s. c 43 § 9.]

79.76.100 Plugging and abandonment of wells—Transfer of jurisdiction to department of ecology. Any well drilled under authority of this chapter from which:

1) It is not technologically practical to derive the energy to produce electricity commercially, or the owner or operator has no intention of deriving energy to produce electricity commercially, and

2) Usable minerals cannot be derived, or the owner or operator has no intention of deriving usable minerals, shall be plugged and abandoned as provided in this chapter or, upon the owner's or operator's written application to the department of natural resources and with the concurrence and approval of the department of ecology, jurisdiction over the well may be transferred to the department of ecology and, in such case, the well shall no longer be subject to the provisions of this chapter but shall be subject to any applicable laws and regulations relating to wells drilled for appropriation and use of ground waters. If an application is made to transfer jurisdiction, a copy of all logs, records, histories, and descriptions shall be provided to the department of ecology by the applicant. [1974 ex.s. c 43 § 10.]

79.76.110 Suspension of drilling, shut-in or removal of equipment for authorized period—Unlawful abandonment. (1) The department may authorize the operator to suspend drilling operations, shut-in a completed well, or remove equipment from a well for the period stated in the department's written authorization. The period of suspension may be extended by the department upon the operator showing good cause for the granting of such extension.

2) If drilling operations are not resumed by the operator, or the well is not put into production, upon expiration of the suspension or shut-in permit, an intention to unlawfully abandon shall be presumed.

3) A well shall also be deemed unlawfully abandoned if, without written approval from the department, drilling equipment is removed.

4) An unlawful abandonment under this chapter shall be entered in the department records and written notice thereof shall be mailed by registered mail both to such operator at his last known address as disclosed by records of the department and to the operator's surety. The department may thereafter proceed against the operator and his surety. [1974 ex.s. c 43 § 11.]

79.76.120 Notification of abandonment or suspension of operations—Required—Procedure. (1) Before any operation to plug and abandon or suspend the operation of any well is commenced, the owner or operator shall submit in writing a notification of abandonment or suspension of operations to the department for approval. No operation to abandon or suspend the operation of a well shall commence without approval by the department. The department shall respond to such notification in writing within ten working days following receipt of the notification.

2) Failure to abandon or suspend operations in accordance with the method approved by the department shall constitute a violation of this chapter, and the department shall take appropriate action under the provisions of RCW 79.76.270. [1974 ex.s. c 43 § 12.]

79.76.130 Performance bond or other security—Required. Every operator who engages in the drilling, redrilling, or deepening of any well shall file with the department a reasonable bond or bonds with good and sufficient surety, or the equivalent thereof, acceptable to the department, conditioned on compliance with the provisions of this chapter and all rules and regulations and permit conditions adopted pursuant to this chapter. This performance bond shall be executed in favor of and approved by the department.

In lieu of a bond the operator may file with the department a cash deposit, negotiable securities acceptable
to the department, or an assignment of a savings account in a Washington bank on an assignment form prescribed by the department. The department, in its discretion, may accept a single surety or security arrangement covering more than one well. [1974 ex.s. c 43 § 13.]

79.76.140 Termination or cancellation of bond or change in other security, when. The department shall not consent to the termination and cancellation of any bond by the operator, or change as to other security given, until the well or wells for which it has been issued have been properly abandoned or another valid bond for such well has been submitted and approved by the department. A well is properly abandoned when abandonment has been approved by the department. [1974 ex.s. c 43 § 14.]

79.76.150 Notification of sale, exchange, etc. The owner or operator of a well shall notify the department in writing within ten days of any sale, assignment, conveyance, exchange, or transfer of any nature which results in any change or addition in the owner or operator of the well on such forms with such information as may be prescribed by the department. [1974 ex.s. c 43 § 15.]

79.76.160 Combining orders, unitization programs and well spacing—Authority of department. The department has the authority, through rules and regulations, to promulgate combining orders, unitization programs, and well spacing, and establish proportionate costs among owners or operators for the operation of such units as the result of said combining orders, if good and sufficient reason is demonstrated that such measures are necessary to prevent the waste of geothermal resources. [1974 ex.s. c 43 § 16.]

79.76.170 Designation of resident agent for service of process. Each owner or operator of a well shall designate a person who resides in this state as his agent upon whom may be served all legal processes, orders, notices, and directives of the department or any court. [1974 ex.s. c 43 § 17.]

79.76.180 General authority of department. The department shall have the authority to conduct or authorize investigations, research, experiments, and demonstrations, cooperate with other governmental and private agencies in making investigations, receive any federal funds, state funds, and other funds and expend them on research programs concerning geothermal resources and their potential development within the state, and to collect and disseminate information relating to geothermal resources in the state: Provided, That the department shall not construct or operate commercial geothermal facilities. [1974 ex.s. c 43 § 18.]

79.76.190 Employment of personnel. The department shall have the authority, and it shall be its duty, to employ all personnel necessary to carry out the provisions of this chapter pursuant to chapter 41.06 RCW. [1974 ex.s. c 43 § 19.]

79.76.200 Drilling records, etc., to be maintained—Inspection—Filing. (1) The owner or operator of any well shall keep or cause to be kept careful and accurate logs, records, descriptions, and histories of the drilling, redrilling, or deepening of the well. (2) All logs, records, histories, and descriptions referred to in subsection (1) of this section shall be kept in the local office of the owner or operator, and together with other reports of the owner or operator shall be subject during business hours to inspection by the department. Each owner or operator, upon written request from the department, shall file with the department a copy of the logs, records, histories, descriptions, or other records or portions thereof pertaining to the geothermal drilling or operation underway or suspended. [1974 ex.s. c 43 § 20.]

79.76.210 Filing of records with department upon completion, abandonment or suspension of operations. Upon completion or plugging and abandonment of any well or upon the suspension of operations conducted with respect to any well for a period of at least six months, one copy of the log, core record, electric log, history, and all other logs and surveys that may have been run on the well, shall be filed with the department within thirty days after such completion, plugging and abandonment, or six months' suspension. [1974 ex.s. c 43 § 21.]

79.76.220 Statement of geothermal resources produced—Filing. The owner or operator of any well producing geothermal resources shall file with the department a statement of the geothermal resources produced. Such report shall be submitted on such forms and in such manner as may be prescribed by the department. [1974 ex.s. c 43 § 22.]

79.76.230 Confidentiality of records. (1) The records of any owner or operator, when filed with the department as provided in this chapter, shall be confidential and shall be open to inspection only to personnel of the department for the purpose of carrying out the provisions of this chapter and to those authorized in writing by such owner or operator, until the expiration of a twenty-four month confidential period to begin at the date of commencement of production or of abandonment of the well. (2) Such records shall in no case, except as provided in this chapter, be available as evidence in court proceedings. No officer, employee, or member of the department shall be allowed to give testimony as to the contents of such records, except as provided in this chapter for the review of a decision of the department or in any proceeding initiated for the enforcement of an order of the department, for the enforcement of a lien created by the enforcement of this chapter, or for use as evidence in criminal proceedings arising out of such records or the statements upon which they are based. [1974 ex.s. c 43 § 23.]

79.76.240 Removal, destruction, alteration, etc., of records prohibited. No person shall, for the purpose of
evading the provision of this chapter or any rule, regulation or order of the department made thereunder, remove from this state, or destroy, mutilate, alter or falsify any such record, account, or writing. [1974 ex.s. c 43 § 24.]

79.76.250 Violations—Modification of permit, when necessary—Departmental order—Issuance—Appeal. Whenever it appears with probable cause to the department that:

(1) A violation of any provision of this chapter, regulation adopted pursuant thereto, or condition of a permit issued pursuant to this chapter has occurred or is about to occur, or

(2) That a modification of a permit is deemed necessary to carry out the purpose of this chapter, the department shall issue a written order in person to the operator or his employees or agents, or by certified mail, concerning the drilling, testing, or other operation conducted with respect to any well drilled, in the process of being drilled, or in the process of being abandoned or in the process of reclamation or restoration, and the operator, owner, or designated agent of either shall comply with the terms of the order and may appeal from the order in the manner provided for in RCW 79.76.280. When the department deems necessary the order may include a shutdown order to remain in effect until the deficiency is corrected. [1974 ex.s. c 43 § 25.]

79.76.260 Liability in damages for violations—Procedure. Any person who violates any of the provisions of this chapter, or fails to perform any duty imposed by this chapter, or violates an order or other determination of the department made pursuant to the provisions of this chapter, and in the course thereof causes the death of, or injury to, fish, animals, vegetation or other resources of the state, shall be liable to pay the state damages including an amount equal to the sum of money necessary to restock such waters, replenish such resources, and otherwise restore the stream, lake, other water source, or land to its condition prior to the injury, as such condition is determined by the department. Such damages shall be recoverable in an action brought by the attorney general on behalf of the people of the state of Washington in the superior court of the county in which such damages occurred: Provided, That if damages occurred in more than one county the attorney general may bring action in any of the counties where the damage occurred. Any moneys so recovered by the attorney general shall be transferred to the department under whose jurisdiction the damaged resource occurs, for the purposes of restoring the resource. [1974 ex.s. c 43 § 26.]

79.76.270 Injunctions—Restraining orders. Whenever it shall appear that any person is violating any provision of this chapter, or any rule, regulation, or order made by the department hereunder, and if the department cannot, without litigation, effectively prevent further violation, the department may bring suit in the name of the state against such person in the court in the county of the residence of such defendant, or in the county of the residence of any defendant if there be more than one defendant, or in the county where the violation is alleged to have occurred, to restrain such person from continuing such violation. In such suit the department may, without bond, obtain injunctions prohibitory and mandatory, including temporary restraining orders and preliminary injunctions, as the facts may warrant. [1974 ex.s. c 43 § 27.]

79.76.280 Judicial review. (1) Any person adversely affected by any rule, regulation, order, or permit entered by the department pursuant to this chapter may obtain judicial review thereof in accordance with the applicable provisions of chapter 34.04 RCW.

(2) The court having jurisdiction, insofar as is practicable, shall give precedence to proceedings for judicial review brought under this chapter. [1974 ex.s. c 43 § 28.]

79.76.290 Violations—Penalty. Violation of any provision of this chapter or of any rule, regulation, order of the department, or condition of any permit made hereunder is punishable, upon conviction, by a fine of not more than two thousand five hundred dollars or by imprisonment in the county jail for not more than six months, or both. [1974 ex.s. c 43 § 29.]

79.76.300 Aiding or abetting violations. No person shall knowingly aid or abet any other person in the violation of any provision of this chapter or of any rule, regulation or order of the department made hereunder. [1974 ex.s. c 43 § 30.]

79.76.900 Severability—1974 ex.s. c 43. If any provision of this 1974 act, or its application to any person or circumstance is held invalid, the remainder of the act, or the application of the provision to other persons or circumstances is not affected. [1974 ex.s. c 43 § 32.]

At any hearing involving any change in any schedule, classification, rule or regulation the effect of which is to increase any rate, charge, rental or toll theretofore charged, the burden of proof to show that such increase is just and reasonable shall be upon the public service company. [1961 c 14 § 80.04.130. Prior: 1941 c 162 § 1; 1937 c 169 § 2; 1933 c 165 § 3; 1915 c 133 § 1; 1911 c 117 § 82; Rem. Supp. 1941 § 10424.]

which each shall bear, and costs of operation and maintenance in the future, or the proportion of charges or revenue each shall receive from such joint service and the rules to govern future operations. If at the expiration of such time such companies shall fail to file with the commission a statement that an agreement has been made for the division or apportionment of such cost, the division of costs of operation and maintenance to be incurred in the future and the proportion of charges or revenue each shall receive from such joint service and the rules to govern future operations, the commission shall have authority, after further hearing, to enter a supplemental order fixing the proportion of such cost or expense to be borne by each company, and the manner in which the same shall be paid and secured. Whenever the commission shall find, after hearing had upon its own motion or upon complaint as herein provided, that any rate, toll, rental or charge which has been the subject of complaint and inquiry is sufficiently remunerative to the public service company affected thereby, it may order that such rate, toll, rental or charge shall not be changed, altered, abrogated or discontinued, nor shall there be any change in the classification which will change or alter such rate, toll, rental or charge without first obtaining the consent of the commission authorizing such change to be made. [1961 c 14 § 80.04.150. Prior: 1911 c 117 § 84; RRS § 10426.]

80.04.160 Rules and regulations. The commission is hereby authorized and empowered to adopt, promulgate and issue rules and regulations covering the transmission and delivery of messages and conversations, and the furnishing and supply of gas, electricity and water, and any and all services concerning the same, or connected therewith; and generally such rules as pertain to the comfort and convenience of the public concerning the subjects treated of in this title. Such rules and regulations shall be promulgated and issued by the commission on its own motion, and shall be served on the public service company affected thereby as other orders of the commission are served. The commission shall, upon receipt of such objections, fix a time and place for hearing the same, and after a full hearing may make such changes or modifications thereto, if any, as the evidence may justify. The commission shall have, and it is hereby given, power to adopt rules to govern its proceedings, and to regulate the mode and manner of all investigations and hearings: Provided, No person desiring to be present at such hearing shall be denied permission. Actions may be instituted to review rules and regulations promulgated under this section as in the case of orders of the commission. [1961 c 14 § 80.04.160. Prior: 1911 c 117 § 85; RRS § 10427.]

The petition shall be in such form as the commission may prescribe and shall set forth specifically the portion or portions on which reconsideration is requested and the grounds and reasons therefor.

If the commission does not grant or deny the petition within ten days from the date of filing, it shall be deemed denied. Application for a writ of review may be made as provided for in RCW 80.04.170, within thirty days after the date of service of the order denying the petition or if no order of denial is entered within thirty days after the date when the petition shall be deemed denied. Should the commission grant the petition for reconsideration, it shall thereafter take such further proceedings and issue such further order or orders as may be appropriate, and application for a writ of review as provided in RCW 80.04.170, may be made within thirty days after the date of service of the order on reconsideration.

A writ of review applied for within the time provided herein may include for review the original order and all supplemental orders relevant thereto: Provided, That an order limited to granting a petition for reconsideration may not be reviewed. [1961 c 14 § 80.04.165. Prior: 1953 c 120 § 1.]

80.04.170 Review of orders. Any complainant or any public service company affected by any findings or order of the commission, and deeming such findings or order to be contrary to law, may, within thirty days after the service of the findings or order upon him or it, apply to the superior court of Thurston county for a writ of review, for the purpose of having the reasonableness and lawfulness of such findings or order inquired into and determined. Such writ shall be made returnable not later than thirty days from and after the date of the issuance thereof, unless upon notice to all parties affected further time be allowed by the court, and shall direct the commission to certify its record in the case to the court. Such cause shall be heard by the court without the intervention of a jury on the evidence and exhibits introduced before the commission and certified to by it. Upon such hearing the superior court shall enter judgment either affirming or setting aside or remanding for further action the findings or order of the commission under review. The reasonable cost of preparing the transcript of testimony taken before the commission shall be assessable as part of the statutory court costs, and the amount thereof, if collected by the commission, shall be deposited in the public service revolving fund. In case such findings or order be set aside, or reversed and remanded, the court shall make specific findings based upon evidence in the record indicating clearly all respects in
which the commission's findings or order are erroneous. [1961 c 14 § 80.04.170. Prior: 1937 c 169 § 3; 1911 c 117 § 86; RRS § 10428.]

80.04.180 Supersedes. The pendency of any writ of review shall not of itself stay or suspend the operation of the order of the commission, but the superior court in its discretion may restrain or suspend, in whole or in part, the operation of the commission's order pending the final hearing and determination of the suit.

No order so restraining or suspending an order of the commission relating to rates, charges, tolls or rentals, or rules or regulations, practices, classifications or contracts affecting the same, shall be made by the superior court otherwise than upon three days' notice and after hearing, and if a supersedeas is granted the order granting the same shall contain a specific finding, based upon evidence submitted to the court making the order, and identified by reference thereto, that great or irreparable damage would otherwise result to the petitioner, and specifying the nature of the damage.

In case the order of the commission under review is superseded by the court, it shall require a bond, with good and sufficient surety, conditioned that such company petitioning for such review shall answer for all damages caused by the delay in the enforcement of the order of the commission, and all compensation for whatever sums for transmission or service any person or corporation shall be compelled to pay pending the review proceedings in excess of the sum such person or corporations would have been compelled to pay if the order of the commission had not been suspended.

The court may, in addition to or in lieu of the bond herein provided for, require such other or further security for the payment of such excess charges or damages as it may deem proper. [1961 c 14 § 80.04.180. Prior: 1933 c 165 § 6; prior: 1931 c 119 § 2; 1911 c 117 § 87; RRS § 10429.]

80.04.190 Appeal to supreme court or court of appeals. The commission, any public service company or any complainant may, after the entry of judgment in the superior court in any action of review, prosecute an appeal to the supreme court or the court of appeals of the state of Washington as in other cases. [1971 ex.s. c 107 § 4; 1961 c 14 § 80.04.190. Prior: 1911 c 117 § 88; RRS § 10430.]

80.04.200 Rehearing before commission. Any public service company affected by any order of the commission, and deeming itself aggrieved, may, after the expiration of two years from the date of such order taking effect, petition the commission for a rehearing upon the matters involved in such order, setting forth in such petition the grounds and reasons for such rehearing, which grounds and reasons may comprise and consist of changed conditions since the issuance of such order, or by showing a result injuriously affecting the petitioner which was not considered or anticipated at the former hearing, or that the effect of such order has been such as was not contemplated by the commission or the petitioner, or for any good and sufficient cause which for any reason was not considered and determined in such former hearing. Upon the filing of such petition, such proceedings shall be had thereon as are provided for hearings upon complaint, and such orders may be reviewed as are other orders of the commission: Provided, That no order superseding the order of the commission denying such rehearing shall be granted by the court pending the review. In case any order of the commission shall not be reviewed, but shall be complied with by the public service company, such petition for rehearing may be filed within six months from and after the date of the taking effect of such order, and the proceedings thereon shall be as in this section provided. The commission, may, in its discretion, permit the filing of a petition for rehearing at any time. No order of the commission upon a rehearing shall affect any right of action or penalty accruing under the original order unless so ordered by the commission. [1961 c 14 § 80.04.200. Prior: 1911 c 117 § 89; RRS § 10431.]

80.04.210 Commission may change orders. The commission may at any time, upon notice to the public service company affected, and after opportunity to be heard as provided in the case of complaints rescind, alter or amend any order or rule made, issued or promulgated by it, and any order or rule rescinding, altering or amending any prior order or rule shall, when served upon the public service company affected, have the same effect as herein provided for original orders and rules. [1961 c 14 § 80.04.210. Prior: 1911 c 117 § 90; RRS § 10432.]

80.04.220 Reparations. When complaint has been made to the commission concerning the reasonableness of any rate, toll, rental or charge for any service performed by any public service company, and the same has been investigated by the commission, and the commission has determined that the public service company has charged an excessive or exorbitant amount for such service, and the commission has determined that any party complainant is entitled to an award of damages, the commission shall order that the public service company pay to the complainant the excess amount found to have been charged, whether such excess amount was charged and collected before or after the filing of said complaint, with interest from the date of the collection of said excess amount. [1961 c 14 § 80.04.220. Prior: 1943 c 258 § 1; 1937 c 29 § 1; Rem. Supp. 1943 § 10433.]

80.04.230 Overcharges, refund of. 80.04.240 Action in court on reparations and overcharges. If the public service company does not comply with the order of the commission for the payment of the overcharge within the time limited in such order, suit may be instituted in any superior court where service may be had upon the said company to recover the amount of the overcharge with interest. It shall be the duty of the commission to certify its record in the case, including all exhibits, to the court. Such record shall be filed with the clerk of said court within thirty days after such suit shall have been started and said suit shall be heard on the evidence and exhibits introduced before the commission and certified to by it. If the complainant shall prevail in such action, the superior court shall enter judgment for the amount of the overcharge with interest and shall allow complainant a reasonable attorney's fee, and the cost of preparing and certifying said record for the benefit of and to be paid to the commission by complainant, and deposited by the commission in the public service revolving fund, said sums to be fixed and collected as a part of the costs of the suit. If the order of the commission shall be found to be contrary to law or erroneous by reason of the rejection of testimony properly offered, the court shall remand the cause to the commission with instructions to receive the testimony so proffered and rejected and enter a new order based upon the evidence theretofore taken and such as is directed to receive. The court may in its discretion remand any cause which is reversed by it to the commission for further action. Appeals to the supreme court shall lie as in other civil cases. All complaints concerning overcharges resulting from collecting unreasonable rates and charges or from collecting amounts in excess of lawful rates shall be filed with the commission within six months in cases involving the collection of unreasonable rates and two years in cases involving the collection of more than lawful rates from the time the cause of action accrues, and the suit to recover the overcharge shall be filed in the superior court within one year from the date of the order of the commission.

The procedure provided in this section is exclusive, and neither the supreme court nor any superior court shall have jurisdiction save in the manner hereinbefore provided. [1961 c 14 § 80.04.240. Prior: 1943 c 258 § 2; 1937 c 29 § 3; Rem. Supp. 1943 § 10433–2.]

80.04.250 Valuation of public service property. The commission shall have power upon complaint or upon its own motion to ascertain and determine the fair value for rate making purposes of the property of any public service company used and useful for service in this state and shall exercise such power whenever it shall deem such valuation or determination necessary or proper under any of the provisions of this title.

The commission shall have the power to make revaluations of the property of any public service company from time to time.

The commission shall, before any hearing is had, notify the complainants and the public service company concerned of the time and place of such hearing by giving at least thirty days' written notice thereof, specifying that at the time and place designated a hearing will be held for the purpose of ascertaining the value of the company's property, used and useful as aforesaid, which notice shall be sufficient to authorize the commission to inquire into and pass upon the matters designated in this section. [1961 c 14 § 80.04.250. Prior: 1933 c 165 § 4; 1913 c 182 § 1; 1911 c 117 § 92; RRS § 10441.]

80.04.260 Summary proceedings. Whenever the commission shall be of opinion that any public service company is failing or omitting, or about to fail or omit, to do anything required of it by law, or by order, direction or requirement of the commission, or is doing anything, or about to do anything, or permitting anything, or about to permit anything to be done contrary to or in violation of law or of any order, direction or requirement of the commission authorized by this title, it shall direct the attorney general to commence an action or proceeding in the superior court of the state of Washington for Thurston county, or in the superior court of any county in which such company may do business, in the name of the state of Washington on the relation of the commission, for the purpose of having such violations or threatened violations stopped and prevented, either by mandamus or injunction. The attorney general shall thereupon begin such action or proceeding by petition to such superior court, alleging the violation complained of, and praying for the appropriate relief by way of mandamus or injunction. It shall thereupon be the duty of the court to specify a time, not exceeding twenty days after the service of the copy of the petition, within which the public service company complained of must answer the petition. In case of default in answer or after answer, the court shall immediately inquire into the facts and circumstances in such manner as the court shall direct, without other or formal pleadings, and without respect to any technical requirement. Such persons or corporations as the court may deem necessary or proper to be joined as parties, in order to make its judgment, order or writ effective, may be joined as parties. The final judgment in any such action or proceeding shall either dismiss the action or proceeding or direct that the writ of mandamus or injunction, or both, issue as prayed for in the petition, or in such other modified form as the court may determine will afford appropriate relief. An appeal may be taken to the supreme court or the court of appeals from such final judgment in the same manner and with the same effect as appeals from judgments of the superior court in actions to review orders of the commission. All provisions of this chapter relating to the time of appeal, the manner of perfecting the same, the filing of briefs, hearings and supersedeas, shall apply to appeals to the supreme court or the court of appeals under the provisions of this section. Such sales shall be at prices and in amounts for each purchaser and upon terms and conditions as set forth in the resolution passed at the stockholders' meeting, or in a resolution passed at a subsequent meeting of the board of trustees if the resolution passed at the stockholders' meeting shall authorize the board to determine prices, amounts, terms, and conditions, except that in either event, a minimum price for the stock must be fixed in the resolution passed at the stockholders' meeting. When a budget has been filed the commission shall examine into and investigate it to determine whether the expenditures therein proposed are fair and reasonable and not contrary to public interest. Adjustments or additions to budget expenditures may be made from time to time during the year by filing a supplementary budget with the commission for its investigation and approval or rejection. [1961 c 14 § 80.04-.300. Prior: 1959 c 248 § 11; prior: 1933 c 165 § 10, part; RRS § 10458–4, part.]

Examination, investigation, and determination of the budget by the commission shall not bar or estop it from later determining whether any of the expenditures made thereunder are fair, reasonable, and commensurate with the service, material, supplies, or equipment received. 80.08.030 Authority to issue. A public service company may issue stock and stock certificates or other evidence of interest or ownership, or bonds, notes or other evidences of indebtedness payable on demand or at periodic periods of more than twelve months after the date thereof, for the following purposes only: The acquisition of property, or the construction, completion, extension, or improvement of its facilities, or the improvement or maintenance of its service, or the issuance of stock dividends, or the discharge or refunding of its obligations, or the reimbursement of moneys actually expended from income or from any other moneys in the treasury of the company not secured by or obtained from the issue of stock or stock certificates or other evidence of interest or ownership, or bonds, notes or other evidence of indebtedness of the company for any of the aforesaid purposes except maintenance of service, in cases where the applicant keeps its accounts and vouchers for such expenditures in such manner as to enable the commission to ascertain the amount of money so expended and the purpose for which the expenditure was made. [1961 c 14 § 80.08.030. Prior: 1953 c 95 § 5; 1937 c 30 § 1; 1933 c 151 § 3; RRS § 10439-3.]

Application for authorization to issue such stocks and stock certificates or other evidence of interest or ownership, and bonds, notes or other evidences of indebtedness shall be made to the commission stating the amount, character, terms and purpose of each proposed issue thereof, and stating such other pertinent details as the commission may require.

To enable it to determine whether it will issue such order, the commission may hold a hearing and may make such additional inquiry or investigation, and examine such witnesses, books, papers, documents and contracts, and require the filing of such data as it may deem of assistance. The commission may by its order grant permission for the issuance of such stocks or stock certificates or other evidence of interest or ownership, or bonds, notes or other evidences of indebtedness in the amount applied for, or in a lesser amount, or not at all, and may attach to the exercise of its permission such condition or conditions as it may deem reasonable and necessary.

The public service company making the application may have the decision or order of the commission reviewed in the courts in the same manner and by the same procedure as any other order or decision of the commission, when the public service company shall deem such decision or order to be in any respect or manner improper, unjust or unreasonable. [1961 c 14 § 80.08.040. Prior: 1933 c 151 § 4; RRS § 10439-4.]

80.08.050 Use of proceeds limited. No public service company shall, without the consent of the commission, apply the issue of any stock or stock certificate or other evidence of interest or ownership, or bond, note or other evidence of indebtedness, or any part thereof, or any proceeds thereof, to any purpose not specified in the commission's order, or to any purpose specified in the commission's order in excess of the amount authorized for such purpose, or issue or dispose of the same on any terms less favorable than those specified in such order, or a modification thereof. 80.16.020 Dealings with affiliated interests must be approved. No contract or arrangement providing for the furnishing of management, supervisory construction, engineering, accounting, legal, financial or similar services, and no contract or arrangement for the purchase, sale, lease or exchange of any property, right, or thing, or for the furnishing of any service, property, right, or thing, other than those above enumerated, hereafter made or entered into between a public service company and any
affiliated interest as defined in this chapter, including open account advances from or to such affiliated interests, shall be valid or effective unless and until such contract or arrangement shall have received the approval of the commission. It shall be the duty of every public service company to file with the commission, a verified copy or a verified summary of any such unwritten contract or arrangement, and also of all such contracts and arrangements, whether written or unwritten, entered into prior to March 18, 1933 and in force and effect at that time. The commission shall approve such contract or arrangement hereafter made or entered into only if it shall clearly appear and be established upon investigation that it is reasonable and consistent with the public interest; otherwise the contract or arrangement shall not be approved. The commission shall not be required to approve any such contract or arrangement unless satisfactory proof is submitted to the commission of the cost to the affiliated interest of rendering the services or of furnishing the property or service described herein. [1961 c 14 § 80.16.020. Prior: 1941 c 160 § 1; 1933 c 152 § 2; Rem. Supp. 1941 § 10440–2.]

In such proceeding the commission shall disallow such payment or compensation, in whole or in part, in the absence of satisfactory proof that it is reasonable in amount. In such proceeding any payment or compensation may be disapproved or disallowed by the commission, in whole or in part, unless satisfactory proof is submitted to the commission of the cost to the affiliated interest of rendering the service or furnishing the property or service above described. [1961 c 14 § 80.16.030. Prior: 1933 c 152 § 3; RRS § 10440–3.]

[1961 c 14 § 80.16.040. Prior: 1933 c 152 § 4; RRS § 10440–4.]

80.16.050 Commission's control is continuing. The commission shall have continuing supervisory control over the terms and conditions of such contracts and arrangements as are herein described so far as necessary to protect and promote the public interest. The commission shall have the same jurisdiction over the modifications or amendment of contracts or arrangements as are herein described as it has over such original contracts or arrangements. The fact that the commission shall have approved entry into such contracts or arrangements as described herein shall not preclude disallowance or disapproval of payments made pursuant thereto, if upon actual experience under such contract or arrangement, it appears that the payments provided for or made were or are unreasonable. Every order of the commission approving any such contract or arrangement shall be expressly conditioned upon the reserved power of the commission to revise and amend the terms and conditions thereof, if, when and as necessary to protect and promote the public interest. [1961 c 14 § 80.16.050. Prior: 1933 c 152 § 5; RRS § 10440–5.]

Whenever the commission shall find upon investigation that any public service company is giving effect to any such contract or arrangement without such contract or arrangement having received the commission's approval, the commission may issue a summary order prohibiting the public service company from treating any payments made under the terms of such contract or arrangement as operating expenses or as capital expenditures for rate or valuation purposes, unless and until such payments shall have received the approval of the commission. [1961 c 14 § 80.16.060. Prior: 1933 c 152 § 6; RRS § 10440–6.]

80.16.070 Summary order on payments after disallowance. Whenever the commission shall find upon investigation that any public service company is making payments to an affiliated interest, although such payments have been disallowed and disapproved by the commission in a proceeding involving the public service company's rates or practices, the commission shall issue a summary order directing the public service company from treating such payments as operating expenses or capital expenditures for rate or valuation purposes, unless and until such payments shall have received the approval of the commission. [1961 c 14 § 80.16.070. Prior: 1933 c 152 § 7; RRS § 10440–7.]

80.16.080 Court action to enforce orders. The superior court of Thurston county is authorized to enforce such orders to cease and desist by appropriate process, including the issuance of a preliminary injunction, upon the suit of the commission. [1961 c 14 § 80.16.080. Prior: 1933 c 152 § 8; RRS § 10440–8.]

80.16.090 Review of orders. Any public service company or affiliated interest deeming any decision or order of the commission to be in any respect or manner improper, unjust or unreasonable may have the same reviewed in the courts in the same manner and by the same procedure as is now provided by law for review of any other order or decision of the commission. [1961 c 14 § 80.16.090. Prior: 1933 c 152 § 9; RRS § 10440–9.]

[1961 c 14 § 80.20.010. Prior: 1953 c 95 § 8; 1939 c 203 § 1; RRS § 10458-6.]

80.20.020 Cost of investigation may be assessed against company. Whenever the commission in any proceeding upon its own motion or upon complaint shall deem it necessary in order to carry out the duties imposed upon it by law to investigate the books, accounts, practices and activities of, or make any valuation or appraisal of the property of any public service company, or to investigate or appraise any phase of its operations, or to render any engineering or accounting service to or in connection with any public service company, and the cost thereof to the commission exceeds in amount the ordinary regulatory fees paid by such public service company during the preceding calendar year or estimated to be paid during the current year, whichever is more, such public service company shall pay the expenses reasonably attributable and allocable to such investigation, valuation, appraisal or services. The commission shall ascertain such expenses, and, after giving notice and an opportunity to be heard, shall render a bill therefor by registered mail to the public service company, either at the conclusion of the investigation, valuation, appraisal or services, or from time to time during its progress. Within thirty days after a bill has been mailed such public service company shall pay to the commission the amount of the bill, and the commission shall transmit such payment to the state treasurer who shall credit it to the public service revolving fund. The total amount which any public service company shall be required to pay under the provisions of this section in any calendar year shall not exceed one percent of the gross operating revenues derived by such public service company from its intrastate operations during the last preceding calendar year. If such company did not operate during all of the preceding year the calculations shall be based upon estimated gross revenues for the current year. [1961 c 14 § 80.20.020. Prior: 1939 c 203 § 2(a); RRS § 10458-6a(a).]

80.20.030 Interest on unpaid assessment—Action to collect. Amounts so assessed against any public service company not paid within thirty days after mailing of the bill therefor, shall draw interest at the rate of six percent per annum from the date of mailing of the bill. Upon failure of the public service company to pay the bill, the attorney general shall proceed in the name of the state by civil action in the superior court for Thurston county against such public service company to collect the amount due, together with interest and costs of suit. [1961 c 14 § 80.20.030. Prior: 1939 c 203 § 2(b); RRS § 10458-6a(b).]

80.20.040 Commission's determination of necessity as evidence. In such action the commission's determination of the necessity of the investigation, valuation, appraisal or services shall be conclusive evidence of such necessity, and its findings and determination of facts expressed in bills rendered pursuant to RCW 80.20.020 through 80.20.060 or in any proceedings determinative of such bills shall be prima facie evidence of such facts. [1961 c 14 § 80.20.040. Prior: 1939 c 203 § 2(c); RRS § 10458-6a(c).]

80.20.050 Order of commission not subject to review. In view of the civil action provided for in RCW 80.20.020 through 80.20.060 any order made by the commission in determining the amount of such bill shall not be reviewable in court, but the mere absence of such right of review shall not prejudice the rights of defendants in the civil action. [1961 c 14 § 80.20.050. Prior: 1939 c 203 § 2(d); RRS § 10458-6a(d).]

80.20.060 Limitation on frequency of investigation. Expenses of a complete valuation, rate and service investigation shall not be assessed against a public service company under this chapter if such company shall have been subjected to and paid the expenses of a complete valuation, rate and service investigation during the preceding five years, unless the properties or operations of the company have materially changed or there has been a substantial change in its value for rate making purposes or in any other circumstances and conditions affecting rates and services: Provided, That the provisions of this section shall not be a limitation on the frequency of assessment of costs of investigation where such investigation results from a tariff filing or tariff filings by a public service company to increase rates. [1971 ex.s. c 143 § 8; 1961 c 14 § 80.20.060. Prior: 1939 c 203 § 2(e); RRS § 10458-6a(e).]

[Title 80 RCW (1979 Ed.)—p 20]
80.24.010 Companies to file reports of gross revenue and pay fees. Every public service company subject to regulation by the commission shall, on or before the first day of April of each year, file with the commission a statement on oath showing its gross operating revenue from intrastate operations for the preceding calendar year or portion thereof and pay to the commission a fee equal to one-tenth of one percent of the first fifty thousand dollars of gross operating revenue, plus two-tenths of one percent of any gross operating revenue in excess of fifty thousand dollars: Provided, That the fee shall in no case be less than one dollar.

The percentage rates of gross operating revenue to be paid in any year may be decreased by the commission for any class of companies subject to the payment of such fees, by general order entered before March 1st of such year, and for such purpose such companies shall be classified as follows:

[1961 c 14 § 80.24.020. Prior: 1955 c 125 § 3; prior: 1939 c 123 § 1, part; 1937 c 158 § 1, part; RRS § 10417, part.]

80.24.030 Intent of legislature—Regulatory cost records to be kept by commission. It is the intent and purpose of the legislature that the several groups of public service companies shall each contribute sufficient in fees to the commission to pay the reasonable cost of regulating the several groups respectively. The commission shall keep accurate records of the costs incurred in regulating and supervising the several groups of companies subject to regulation or supervision and such records shall be open to inspection by all interested parties. The records and data upon which the commission's determination is made shall be considered prima facie correct in any proceeding instituted to challenge the reasonableness or correctness of any order of the commission fixing fees and distributing regulatory expenses. [1961 c 14 § 80.24.030. Prior: 1937 c 158 § 7; RRS § 10417–5.]

[1961 c 14 § 80.28.090. Prior: 1911 c 117 § 30; RRS § 10366.]

Nothing in this title shall be construed to prevent any gas company, electrical company or water company from continuing to furnish its product or the use of its lines, equipment or service under any contract or contracts in force on June 7, 1911, at the rates fixed in such contract or contracts: Provided, That the commission shall have power, in its discretion, to direct by order that such contract or contracts shall be terminated by the company party thereto and thereupon such contract or contracts shall be terminated by such company as and when directed by such order. Any right, privilege, certificate held, owned or obtained by a gas company may be sold, assigned, leased, transferred or inherited as other property, only upon authorization by the commission. The commission shall have power, after hearing, when the applicant requests a certificate to render service in an area already served by a certificate holder under this chapter only when the existing gas company or companies serving such area will not provide the same to the satisfaction of the commission and in all other cases, with or without hearing, to issue said certificate as prayed for; or for good cause shown to refuse to issue same, or to issue it for the partial exercise only of said privilege sought, and may attach to the exercise of the rights granted by said certificate such terms and conditions as, in its judgment, the public convenience and necessity may require.

The commission may, at any time, by its order duly entered after a hearing had upon notice to the holder of any certificate hereunder, and an opportunity to such holder to be heard, at which it shall be proven that such holder wilfully violates or refuses to observe any of its proper orders, rules or regulations, suspend, revoke, alter or amend any certificate issued under the provisions of this section, but the holder of such certificate shall have all the rights of rehearing, review and appeal as to such order of the commission as is provided herein.

Every officer, agent, or employee of any corporation, and every other person who violates or fails to comply with, or who procures, aids or abets in the violation of any of the provisions of this section or who fails to obey, observe or comply with any order, decision, rule or regulation, directive, demand or requirements, or any provision of this section, is guilty of a gross misdemeanor and punishable as such.

Neither this section, RCW 80.28.200, 80.28.210, nor any provisions thereof shall apply or be construed to apply to commerce with foreign nations or commerce among the several states of this union except insofar as the same may be permitted under the provisions of the Constitution of the United States and acts of congress.

The commission shall collect the following miscellaneous fees from gas companies: Application for a certificate of public convenience and necessity or to amend a certificate, twenty-five dollars; application to sell, lease, mortgage or transfer a certificate of public convenience and necessity or any interest therein, ten dollars. [1961 c 14 § 80.28.200. Prior: 1955 c 316 § 5.]

The commission shall have the authority to prescribe rules and regulations to effectuate the purpose of this enactment. Every such person and every such officer, agent and employee of a corporation who, as an individual or as an officer or agent of such corporation, violates or fails to comply with, or who procures, aids, or abets another, or his company, in the violation of, or noncompliance with, any provision of this section or any order, rule or requirement of the commission hereunder, shall be guilty of a gross misdemeanor. Any civil penalty may be compromised by the commission. In determining the amount of the penalty, or the amount agreed upon and compromised, the appropriateness of the penalty to the size of the business of the person charged, the gravity of the violation, and the good faith of the gas company charged in attempting to achieve compliance after notification of the violation, shall be considered. The amount of the penalty, when finally determined, or the amount agreed upon and compromised, may be recovered in a civil action in the superior court of Thurston county or of some other county in which such violator may do business. In all such actions for recovery the procedure and rules of evidence shall be the same as in ordinary civil actions. All penalties recovered under this title shall be paid into the state treasury and credited to the public service revolving fund. [1969 ex.s. c 210 § 3.]

If after such hearing the board shall deem it to be for the public interest to grant such authority in whole or in part, the board may make and enter the proper order granting the authority applied for or such part thereof as the board deems to be for the public interest, and shall require such transmission line and its appurtenances to be placed in such location on or along the road or street as the board finds will cause the least interference with other uses of the road or street. In case any such transmission line is or shall be located in part on private right of way, the owner thereof shall have the right to construct and operate the same across any county road or county street which intersects such private right of way, if such crossing is so constructed and maintained as to do no unnecessary damage: Provided, That any person or corporation constructing such crossing or operating such transmission line on or along such county road or county street shall be liable to the county for all necessary expense incurred in restoring such county road or county street to a suitable condition for travel. The commission for good cause shown may allow changes in rates, charges, tolls, rentals or contracts without requiring the thirty days' notice and publication herein provided for, by an order specifying the change so to be made and the time when it shall take effect, and the manner in which the same shall be filed and published. When any change is made in any rate, toll, contract, rental or charge, the effect of which is to increase any rate, toll, rental or charge then existing, attention shall be directed on the copy filed with the commission to such increase by some character immediately preceding or following the item in such schedule, which character shall be in such form as the commission may designate. [1961 c 14 § 80.36.110. Prior: 1911 c 117 § 37; RRS § 10373.]

[1961 c 14 § 80.36.130. Prior: 1911 c 117 § 40; RRS § 10376.]

80.36.140 Commission to fix rates and services. Whenever the commission shall find, after a hearing had upon its own motion or upon complaint, that the rates, charges, tolls or rentals demanded, exacted, charged or collected by any telegraph company or telephone company for the transmission of messages by telegraph or telephone, or for the rental or use of any telegraph line, telephone line or any telegraph instrument, wire, appliance, apparatus or device or any telephone receiver, transmitter, instrument, wire, cable, apparatus, conduit, machine, appliance or device, or any telephone extension or extension system, or that the rules, regulations or practices of any telegraph company or telephone company affecting such rates, charges, tolls, rentals or service are unjust, unreasonable, unjustly discriminatory or unduly preferential, or in anywise in violation of law, or that such rates, charges, tolls or rentals are insufficient to yield reasonable compensation for the service rendered, the commission shall determine the just and reasonable rates, charges, tolls or rentals to be thereafter observed and in force, and fix the same by order as provided in this title.

This section shall not be construed as conferring on the commission jurisdiction, supervision or control of the rates, service or facilities of any mutual, cooperative or farmer line company or association, except for the purpose of carrying out the provisions of this section. The underground storage of natural gas will promote the economic development of the state and provide for more economic distribution of natural gas to the domestic, commercial and industrial consumers of this state, thereby serving the public interest. [1963 c 201 § 3.]

80.40.030 Eminent domain. Any natural gas company having received an order under RCW 80.40.040 shall have the right of eminent domain to be exercised in the manner provided in and subject to the provisions of chapter 8.20 RCW to acquire for its use for the underground storage of natural gas any underground reservoir, as well as such other property or interests in property as may be required to adequately maintain and utilize the underground reservoir for the underground storage of natural gas, including easements and rights of way for access to and egress from the underground storage reservoir. The right of eminent domain granted hereby shall apply to property or property interests held in private ownership, provided condemnor has exercised good faith in negotiations for private sale or lease. No property shall be taken or damaged until the compensation to be made therefor shall have been ascertained and paid. Any property or interest therein so acquired by any natural gas company shall be used exclusively for the purposes for which it was acquired. Any decree of appropriation hereunder shall define and limit the rights condemned and shall provide for the reversion of such rights to the defendant or defendants or their successors in interest upon abandonment of the underground storage project. Good faith exploration work or development work relative to the storage reservoir is conclusive evidence that its use has not been abandoned. The court may include in such decree such other relevant conditions, covenants and restrictions as it may deem fair and equitable. [1963 c 201 § 4.]
80.40.040 Eminent domain—Application to oil and gas conservation committee prerequisite to eminent domain—Procedure. Any natural gas company desiring to exercise the right of eminent domain to condemn any property or interest in property for the underground storage of natural gas shall first make application to the oil and gas conservation committee for an order approving the proposed project. Notice of such application shall be given by the committee to the utilities and transportation commission, to the director of the department of conservation, to the commissioner of public lands, and to all other persons known to have an interest in the property to be condemned. Said notice shall be given in the manner provided by RCW 8.20.020 as amended. The committee shall publish notice of said application at least once each week for three successive weeks in some newspaper of general circulation in the county or counties where the proposed underground storage project is located. If no written requests for hearing on the application are received by the committee within forty-five days from the date of service of notice of the application and publication thereof, the committee may proceed without hearing and issue its order. If a hearing is requested, a public hearing on the application will be held within the county or one of the counties where the proposed underground storage project is located. Any order approving the proposed underground storage project shall contain findings that (1) the underground storage of natural gas in the lands or property sought to be condemned is in the public interest and welfare; (2) the underground reservoir is reasonably practicable, and the applicant has complied with all applicable oil and gas conservation laws of the state of Washington; (3) the underground reservoir sought to be condemned is non-productive of economically recoverable valuable minerals or materials, or of oil or gas in commercial quantities under either primary or secondary recovery methods, and nonproductive of fresh water in commercial quantities with feasible and reasonable pumping lift; (4) the natural gas company has acquired the right by grant, lease or other agreement to store natural gas under at least sixty-five percent of the area of the surface of the land under which such proposed underground storage reservoir extends; (5) the natural gas company carries public liability insurance or has deposited collateral in amounts satisfactory to the committee or has furnished a financial statement showing assets in a satisfactory amount, to secure payment of any liability resulting from any occurrence arising out of or caused by the operation or use of any underground reservoir or facilities incidental thereto; (6) the underground storage project will not injure, pollute, or contaminate any usable fresh water resources; (7) the underground storage project will not injure, interfere with, or endanger any mineral resources or the development or extraction thereof. The order of the committee may be reviewed in the manner provided by chapter 34.04 RCW: Provided, That if an appeal is not commenced within thirty days of the date of the order of the committee, the same shall be final and conclusive. [1963 c 201 § 5.]

80.40.050 Rights of company using storage—Rights of owners of condemned land and interests therein. All natural gas in an underground reservoir utilized for underground storage, whether acquired by eminent domain or otherwise, shall at all times be the property of the natural gas company utilizing said underground storage, its heirs, successors, or assigns; and in no event shall such gas be subject to any right of the owner of the surface of the land under which said underground reservoir lies or of the owner of any mineral interest therein or of any person other than the said natural gas company, its heirs, successors and assigns to release, produce, take, reduce to possession, or otherwise interfere with or exercise any control thereof: Provided, That the right of condemnation hereby granted shall be without prejudice to the rights of the owner of the condemned lands or of the rights and interest therein to drill or bore through the underground reservoir in such a manner as shall protect the underground reservoir against pollution and against the escape of natural gas in a manner which complies with the orders, rules and regulations of the oil and gas conservation committee issued for the purpose of protecting underground storage and shall be without prejudice to the rights of the owners of said lands or other rights or interests therein as to all other uses thereof. The additional cost of complying with regulations or orders to protect the underground storage shall be paid by the condemnor. [1963 c 201 § 6.]

80.40.060 Leases by county commissioners. The commissioner of public lands is authorized to lease public lands, property, or any interest therein for the purpose of underground storage of natural gas. Any such lease shall be upon such terms and conditions as the said commissioner may deem for the best interests of the state and as are customary and proper for the protection of the rights of the state and of the lessee and of the owners of the surface of the leased lands, and may be for such primary term as said commissioner may determine and as long thereafter as the lessee continues to use such lands, property, or interest therein for underground storage of gas. [1963 c 201 § 7.]

80.40.070 Leases by county commissioners. Whenever it shall appear to the board of county commissioners of any county that it is for the best interests of said county, the taxing districts and the people thereof, that any county-owned or tax-acquired property owned by the county, either absolutely or as trustee, shall be leased for the purpose of underground storage of natural gas therein, said board of county commissioners is hereby authorized to enter into written leases under the terms of which any county-owned lands, property, or interest therein are leased for the aforementioned purposes, with or without an option to purchase the land surface. Any such lease shall be upon such terms and conditions as said county commissioners may deem for the best interests of said county and the taxing districts, and may be for such primary term as said board may determine and as long thereafter as the lessee continues to use the said lands, property, or interest therein for underground storage of natural gas. [1963 c 201 § 8.]
80.40.900 Short title. This act shall be known as the "Underground Natural Gas Storage Act". [1963 c 201 § 9.]

80.40.910 Chapter to be liberally construed. It is intended that the provisions of this chapter shall be liberally construed to accomplish the purposes authorized and provided for. [1963 c 201 § 10.]

80.40.920 Severability—1963 c 201. If any part or parts of this chapter or the application thereof to any person or circumstances is held to be unconstitutional such invalidity shall not affect the validity of the remaining portions of this chapter, or the application thereof to other persons or circumstances. [1963 c 201 § 11.]

80.50.010 Legislative finding—Policy—Intent. The legislature finds that the present and predicted growth in energy demands in the state of Washington requires the development of a procedure for the selection and utilization of sites for energy facilities and the identification of a state position with respect to each proposed site. The legislature recognizes that the selection of sites will have a significant impact upon the welfare of the population, the location and growth of industry and the use of the natural resources of the state.

It is the policy of the state of Washington to recognize the pressing need for increased energy facilities, and to ensure through available and reasonable methods, that the location and operation of such facilities will produce minimal adverse effects on the environment, ecology of the land and its wildlife, and the ecology of state waters and their aquatic life.

It is the intent to seek courses of action that will balance the increasing demands for energy facility location and operation in conjunction with the broad interests of the public. Such action will be based on these premises:
(1) To assure Washington state citizens that, where applicable, operational safeguards are at least as stringent as the criteria established by the federal government and are technically sufficient for their welfare and protection.
(2) To preserve and protect the quality of the environment; to enhance the public's opportunity to enjoy the aesthetic and recreational benefits of the air, water and land resources; to promote air cleanliness; and to pursue beneficial changes in the environment.
(3) To provide abundant energy at reasonable cost. [1975—76 2nd ex.s. c 108 § 28; 1970 ex.s. c 45 § 1.]

Any funds remaining unexpended at the conclusion of application processing shall be refunded to the applicant, or at the applicant's option, credited against required deposits of certificate holders.

(c) Each certificate holder shall pay such reasonable costs as are actually and necessarily incurred by the council for inspection and determination of compliance by the certificate holder with the terms of the certification relative to monitoring the effects of construction and operation of the facility.

Each certificate holder, within thirty days of execution of the site certification agreement, shall deposit twenty thousand dollars, or such other amount as may be specified by council rule, to cover costs provided for by subsection (1)(c) of this section. Reasonable and necessary costs of the council directly attributable to inspection and determination of compliance by the certificate holder with the terms of the certification relative to monitoring the effects of construction and operation of the facility shall be charged against such deposit.

(3) All payments required of the applicant or certificate holder under this section are to be made to the state
treasurer who shall make payments as instructed by the council from the funds submitted. All such funds shall be subject to state auditing procedures. Any unexpended portions thereof shall be returned to the applicant or certificate holder. [1977 ex.s. c 371 § 16.]

80.50.075 Expedited processing of applications. (1) Any person required to file an application for certification of an energy facility pursuant to this chapter may apply to the council for an expedited processing of such an application. The application for expedited processing shall be submitted to the council in such form and manner and accompanied by such information as may be prescribed by council rule. The council may grant an applicant expedited processing of an application for certification upon finding that:

(a) The environmental impact of the proposed energy facility;
(b) The area potentially affected;
(c) The cost and magnitude of the proposed energy facility; and
(d) The degree to which the proposed energy facility represents a change in use of the proposed site are not significant enough to warrant a full review of the application for certification under the provisions of this chapter.

(2) Upon granting an applicant expedited processing of an application for certification, the council shall not be required to:

(a) Commission an independent study, notwithstanding the provisions of RCW 80.50.071; nor

(b) Hold a contested case hearing under chapter 34.04 RCW on the application.

(3) The council shall adopt rules governing the expedited processing of an application for certification pursuant to this section. [1977 ex.s. c 371 § 17.]

80.50.080 Counsel for the environment. After the council has received a site application, the attorney general shall appoint an assistant attorney general as a counsel for the environment. The counsel for the environment shall represent the public and its interest in protecting the quality of the environment. Costs incurred by the counsel for the environment in the performance of these duties shall be charged to the office of the attorney general, and shall not be a charge against the appropriation to the energy facility site evaluation council. He shall be accorded all the rights, privileges and responsibilities of an attorney representing a party in a formal action. This section shall not be construed to prevent any person from being heard or represented by counsel in accordance with the other provisions of this chapter. (2) The council must determine at the initial public hearing whether or not the proposed site is consistent and in compliance with county or regional land use plans or zoning ordinances. If it is determined that the proposed site does conform with existing land use plans or zoning ordinances in effect as of the date of the application, the county or regional planning authority shall not thereafter change such land use plans or zoning ordinances so as to affect the proposed site.

(3) Prior to the issuance of a council recommendation to the governor under RCW 80.50.100 a public hearing, conducted as a contested case under chapter 34.04 RCW, shall be held. At such public hearing any person shall be entitled to be heard in support of or in opposition to the application for certification.

(4) Additional public hearings shall be held as deemed appropriate by the council in the exercise of its functions under this chapter. [1970 ex.s. c 45 § 9.]

80.50.100 Recommendations to governor—Approval or rejection of certification—Reconsideration. (1) The council shall report to the governor its recommendations as to the approval or rejection of an application for certification within twelve months of receipt by the council of such an application, or such later time as is mutually agreed by the council and the applicant. If the council recommends approval of an application for certification, it shall also submit a draft certification agreement with the report. The council shall include conditions in the draft certification agreement to implement the provisions of this chapter, including, but not limited to, conditions to protect state or local governmental or community interests affected by the construction or operation of the energy facility, and conditions designed to recognize the purpose of laws or ordinances, or rules or regulations promulgated thereunder, that are preempted or superseded pursuant to RCW 80.50.110 as now or hereafter amended.

(2) Within sixty days of receipt of the council's report the governor shall take one of the following actions:

(a) Approve the application and execute the draft certification agreement; or

(b) Reject the application; or

(c) Direct the council to reconsider certain aspects of the draft certification agreement.

The council shall reconsider such aspects of the draft certification agreement by reviewing the existing record of the application or, as necessary, by reopening the contested case for the purposes of receiving additional evidence. Such reconsideration shall be conducted expeditiously. The council shall resubmit the draft certification to the governor incorporating any amendments deemed necessary upon reconsideration. Within sixty days of receipt of such draft certification agreement, the governor shall either approve the application and execute the certification agreement or reject the application. The certification agreement shall be binding upon execution by the governor and the applicant.

(3) The rejection of an application for certification by the governor shall be final as to that application but shall not preclude submission of a subsequent application for the same site on the basis of changed conditions or new information. [1977 ex.s. c 371 § 8; 1975–76 2nd ex.s. c 108 § 36; 1970 ex.s. c 45 § 10.]

(2) The state hereby preempts the regulation and certification of the location, construction, and operational conditions of certification of the energy facilities included under RCW 80.50.060 as now or hereafter amended. [1975-'76 2nd ex.s. c 108 § 37; 1970 ex.s. c 45 § 11.]

(2) The certification shall authorize the person named therein to construct and operate the proposed energy facility subject only to the conditions set forth in such certification. 

(3) The issuance of a certification shall be in lieu of any permit, certificate or similar document required by any department, agency, division, bureau, commission, board, or political subdivision of this state, whether a member of the council or not. [1977 ex.s. c 371 § 10; 1975-'76 2nd ex.s. c 108 § 38; 1970 ex.s. c 45 § 12.]

80.50.130 Revocation or suspension of certification—Grounds. Any certification may be revoked or suspended:

(1) For any material false statement in the application or in the supplemental or additional statements of fact or studies required of the applicant when a true answer would have warranted the council's refusal to recommend certification in the first instance; or 

(2) For failure to comply with the terms or conditions of the original certification; or 

(3) For violation of the provisions of this chapter, regulations issued thereunder or order of the council. [1970 ex.s. c 45 § 13.]

(1) The courts are authorized to grant such restraining order, and such temporary and permanent injunctive relief as is necessary to secure compliance with this chapter and/or with a site certification agreement issued pursuant to this chapter or a National Pollutant Discharge Elimination System (hereafter in this section, NPDES) permit issued by the council pursuant to chapter 90.48 RCW. The court may assess civil penalties in an amount not less than five thousand dollars per day nor more than twenty-five thousand dollars per day for each day of construction or operation in violation of this chapter, or in material violation of any site certification agreement issued pursuant to this chapter or in violation of any NPDES permit issued by the council pursuant to chapter 90.48 RCW. The court may charge the expense of an enforcement action relating to a site certification agreement under this section, including, but not limited to, expenses incurred for legal services and expert testimony, against any person found to be in material violation of the provisions of such certification: Provided, That the expenses of a person found not to be in material violation of the provisions of such certification, including, but not limited to, expenses incurred for legal services and expert testimony, may be charged against the person or persons bringing an enforcement action or other action under this section.

Each and every such violation shall be a separate and distinct offense, and in case of a continuing violation, every day's continuance shall be and be deemed to be a separate and distinct violation. Every act of commission or omission which procures, aids, or abets in the violation shall be considered a violation under the provisions of this section and subject to the penalty provided in this section. The penalty provided in this section shall be imposed by a notice in writing, either by certified mail with return receipt requested or by personal service, to the person inuring the same from the council describing such violation with reasonable particularity. The council may, upon written application therefore received within fifteen days after notice imposing any penalty is received by the person incurring the penalty, and when deemed in the best interest to carry out the purposes of this chapter, remit or mitigate any penalty provided in this section upon such terms as the council shall deem proper, and shall have authority to ascertain the facts upon all such applications in such manner and under such regulations as it may deem proper. Any person incurring any penalty under this section may appeal the same to the council. Such appeals shall be filed within thirty days of receipt of notice imposing any penalty unless an application for remission or mitigation is made to the council. In all such actions the procedure and rules of evidence shall be the same as an ordinary civil action except as otherwise provided in this chapter. All penalties recovered under this section shall be paid into the state treasury and credited to the general fund.

(6) Civil proceedings to enforce this chapter may be brought by the attorney general or the prosecuting attorney of any county affected by the violation on his own motion or at the request of the council. Criminal proceedings to enforce this chapter may be brought by the prosecuting attorney of any county affected by the violation on his own motion or at the request of the council.

(5) Every person who violates the provisions of certificates and permits issued or administered by the council shall, by the completion of all review proceedings and the issuance of a final order confirming the penalty in whole or in part, be deemed guilty of a crime, and upon conviction thereof shall be punished by a fine of up to five thousand dollars a day for each such violation. Each and every such violation shall be a separate and distinct offense, and in case of a continuing violation, every day's continuance shall be deemed to be a separate and distinct violation. Every act of commission or omission which procures, aids, or abets in the violation shall be considered a violation under the provisions of this section and subject to the penalty provided in this section. The penalty provided in this section shall be imposed by a notice in writing, either by certified mail with return receipt requested or by personal service, to the person of like nature, the same from the council describing such violation with reasonable particularity. The council may, upon written application therefor received within fifteen days after notice imposing any penalty is received by the person incurring the penalty, and when deemed in the best interest to carry out the purposes of this chapter, remit or mitigate any penalty provided in this section upon such terms as the council shall deem proper, and shall have authority to ascertain the facts upon all such applications in such manner and under such regulations as it may deem proper. Such appeals shall be filed within thirty days of receipt of notice imposing any penalty unless an application for remission or mitigation is made to the council. When an application for remission or mitigation is made, such appeals shall be filed within thirty days of receipt of notice from the council setting forth the disposition of the application. If the amount of any penalty is not paid to the council within thirty days after it becomes due and payable, the attorney general, upon the request of the council, shall bring an action in the name of the state of Washington in the superior court of Thurston county or of any county in which such violator may do business, to recover such penalty. In all such actions the procedure and rules of evidence shall be the same as an ordinary civil action except as otherwise provided in this chapter. All penalties recovered under this section shall be paid into the state treasury and credited to the general fund.

(6) Civil proceedings to enforce this chapter may be brought by the attorney general or the prosecuting attorney of any county affected by the violation on his own motion or at the request of the council.

(7) The remedies and penalties in this section, both civil and criminal, shall be cumulative and shall be in addition to any other penalties and remedies available at law, or in equity, to any person. [1979 1st ex.s. c 254 § 2; 1977 ex.s. c 371 § 12; 1970 ex.s. c 45 § 15.]

Reviser's note: (1) RCW 80.50.150 was amended twice during the 1979 legislative sessions, each without reference to the other. For rule of construction concerning sections amended more than once at consecutive sessions of the same legislature, see RCW 1.12.025.

(2) The above reference to RCW 80.50.090(14) appears to be in error, that section has only four subsections and concerns public hearings, not issuance of permits. RCW 80.50.040(14) relates to issuance of permits.

80.50.160 Availability of information. The council shall make available for public inspection and copying during regular office hours at the expense of any person requesting copies, any information filed or submitted pursuant to this chapter. [1970 ex.s. c 45 § 16.]

(2) The council, upon request of any potential applicant, is authorized, as provided in this section, to conduct a preliminary study of any potential site prior to receipt of an application for site certification. A fee of ten thousand dollars for each potential site, to be applied
toward the cost of any study agreed upon pursuant to subsection (3) of this section, shall accompany the request and shall be a condition precedent to any action on the request by the council.

(3) After receiving a request to study a potential site, the council shall commission its own independent consultant to study matters relative to the potential site. The study shall include, but need not be limited to, the preparation and analysis of environmental impact information for the proposed potential site and any other matter the council and the potential applicant deem essential to an adequate appraisal of the potential site. In conducting the study, the council is authorized to cooperate and work jointly with the county or counties in which the potential site is located, any federal, state, or local governmental agency that might be requested to comment upon the potential site, and any municipal or public corporation having an interest in the matter. The full cost of the study shall be paid by the potential applicant: Provided, That such costs exceeding a total of ten thousand dollars shall be payable subject to the potential applicant giving prior approval to such excess amount.

(4) Any study prepared by the council pursuant to subsection (3) of this section may be used in place of the "detailed statement" required by RCW 43.21C.030(2)(c) by any branch of government except the council created pursuant to chapter 80.50 RCW.

(5) All payments required of the potential applicant under this section are to be made to the state treasurer, who in turn shall pay the consultant as instructed by the council. All such funds shall be subject to state auditing procedures. Any unexpended portions thereof shall be returned to the potential applicant.

(6) Nothing in this section shall change the requirements for an application for site certification or the requirement of payment of a fee as provided in RCW 80.50.070, or change the time for disposition of an application for certification as provided in RCW 80.50.100.

(7) Nothing in this section shall be construed as preventing a city or county from requiring any information it deems appropriate to make a decision approving a particular location. [1977 ex.s. c 371 § 13; 1975–76 2nd ex.s. c 108 § 40; 1974 ex.s. c 110 § 2.]

80.50.180 Proposals and actions by other state agencies and local political subdivisions pertaining to energy facilities exempt from "detailed statement" required by RCW 43.21C.030. Except for actions of the council under chapter 80.50 RCW, all proposals for legislation and other actions of any branch of government of this state, including state agencies, municipal and public corporations, and counties, to the extent the legislation or other action involved approves, authorizes, permits, or establishes procedures solely for approving, authorizing or permitting, the location, financing or construction of any energy facility subject to certification under chapter 80.50 RCW, shall be exempt from the "detailed statement" required by RCW 43.21C.030. Nothing in this section shall be construed as exempting any action of the council from any provision of chapter 43.21C RCW. [1977 ex.s. c 371 § 14.]

80.50.190 Disposition of receipts from applicants. The state general fund shall be credited with all receipts from applicants paid to the state pursuant to chapter 80.50 RCW. Such funds shall be used only by the council for the purposes set forth in chapter 80.50 RCW. All expenditures shall be authorized by law. [1977 ex.s. c 371 § 15.]

All rules of the thermal power plant site evaluation council in effect on March 15, 1976 shall continue in full force and effect until amended or rescinded by the energy facility site evaluation council after March 15, 1976. [1975–76 2nd ex.s. c 108 § 42.]

Severability—Effective date—1975–76 2nd ex.s. c 108: See notes following RCW 43.21F.010.

80.54.010 Definitions. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Attachment" means any wire or cable for the transmission of intelligence by telegraph, telephone, or television, including cable television, light waves, or other phenomena, or for the transmission of electricity
for light, heat, or power, and any related device, apparatus, or auxiliary equipment, installed upon any pole or in any telegraph, telephone, electrical, cable television, or communications right of way, duct, conduit, manhole or handhole, or other similar facilities owned or controlled, in whole or in part, by one or more utilities, where the installation has been made with the consent of the one or more utilities.

(2) "Licensee" means any person, firm, corporation, partnership, company, association, joint stock association, or cooperatively organized association, other than a utility, which is authorized to construct attachments upon, along, under, or across the public ways.

(3) "Utility" means any electrical company, telephone company, or telegraph company, as defined in RCW 80.04.010, and does not include any entity cooperatively organized, or owned by federal, state, or local government, or a subdivision of state or local government. [1979 c 33 § 1.]

**80.54.020 Regulation of rates, terms, and conditions—Criteria.** The commission shall have the authority to regulate in the public interest the rates, terms, and conditions for attachments by licensees or utilities. All rates, terms, and conditions made, demanded, or received by any utility for any attachment by a licensee or by a utility must be just, fair, reasonable, and sufficient. [1979 c 33 § 2.]

**80.54.030 Commission order fixing rates, terms, or conditions.** Whenever the commission shall find, after hearing had upon complaint by a licensee or by a utility, that the rates, terms, or conditions demanded, exacted, charged, or collected by any utility in connection with attachments are unjust, unreasonable, or that the rates or charges are insufficient to yield a reasonable compensation for the attachment, the commission shall determine the just, reasonable, or sufficient rates, terms, and conditions thereafter to be observed and in force and shall fix the same by order. In determining and fixing the rates, terms, and conditions, the commission shall consider the interest of the customers of the attaching utility or licensee, as well as the interest of the customers of the utility upon which the attachment is made. [1979 c 33 § 3.]

**80.54.040 Criteria for just and reasonable rate.** A just and reasonable rate shall assure the utility the recovery of not less than all the additional costs of procuring and maintaining pole attachments, nor more than the actual capital and operating expenses, including just compensation, of the utility attributable to that portion of the pole, duct, or conduit used for the pole attachment, including a share of the required support and clearance space, in proportion to the space used for the pole attachment, as compared to all other uses made of the subject facilities, and uses which remain available to the owner or owners of the subject facilities. [1979 c 33 § 4.]

**80.54.050 Exemptions from chapter.** Nothing in this chapter shall be deemed to apply to any attachment by one or more electrical companies on the facilities of one or more other electrical companies. [1979 c 33 § 5.]

**80.54.060 Adoption of rules.** The commission shall adopt rules, regulations and procedures relative to the implementation of this chapter. [1979 c 33 § 6.]

[1979 c 33 § 7.]

Such detailed report shall contain all the required statistics for the period of twelve months ending on the last day of any particular month prescribed by the commission for any public service company. The commission shall at all times have access to all accounts, records and memoranda kept by public service companies, and may employ special agents or examiners, who shall have power to administer oaths and authority, under the order of the commission, to examine witnesses and to inspect and examine any and all accounts, records and memoranda kept by such companies. [1961 c 14 § 81.04.090. Prior: 1911 c 117 § 78, part; RRS § 10416, part.]

81.04.100 Production of out-of-state books and records. The commission may by order with or without hearing require the production within this state, at such time and place as it may designate, of any books, accounts, papers or records kept by any public service company in any office or place without this state, or at the option of the company verified copies thereof, so that an examination thereof may be made by the commission or under its direction. [1961 c 14 § 81.04.100. Prior: 1933 c 165 § 2; 1911 c 117 § 79; RRS § 10421.]

81.04.110 Complaints—Hearings. Complaint may be made by the commission of its own motion or by any person or corporation, chamber of commerce, board of trade, or any commercial, mercantile, agricultural or manufacturing society, or any body politic or municipal corporation, by petition or complaint in writing, setting forth any act or thing done or omitted to be done by any public service corporation in violation, or claimed to be in violation, of any provision of law or of any order or rule of the commission.

When two or more public service corporations, (meaning to exclude municipal and other public corporations) are engaged in competition in any locality or localities in the state, either may make complaint against the other or others that the rates, charges, rules, regulations or practices of such other or others with or in respect to which the complainant is in competition, are unreasonable, unremerative, discriminatory, illegal, unfair or intending or tending to oppress the complainant, to stifle competition, or to create or encourage the creation of monopoly, and upon such complaint or upon complaint of the commission upon its own motion, the commission shall have power, after notice and hearing as in other cases, to, by its order, subject to appeal as in other cases, correct the abuse complained of by establishing such uniform rates, charges, rules, regulations or practices in lieu of those complained of, to be observed by all of such competing public service corporations in
the locality or localities specified as shall be found reasonable, remunerative, nondiscriminatory, legal, and fair or tending to prevent oppression or monopoly or to encourage competition, and upon any such hearing it shall be proper for the commission to take into consideration the rates, charges, rules, regulations and practices of the public service corporation or corporations complained of in any other locality or localities in the state.

All matters upon which complaint may be founded may be joined in one hearing, and no motion shall be entertained against a complaint for misjoinder of complaints or grievances or misjoinder of parties; and in any review of the courts of orders of the commission the same rule shall apply and pertain with regard to the joinder of complaints and parties as herein provided: Provided, All grievances to be inquired into shall be plainly set forth in the complaint. No complaint shall be dismissed because of the absence of direct damage to the complainant.

Upon the filing of a complaint, the commission shall cause a copy thereof to be served upon the person or corporation complained of, which shall be accompanied by a notice fixing the time when and place where a hearing will be had upon such complaint. The time fixed for such hearing shall not be less than ten days after the date of the service of such notice and complaint, excepting as herein provided. Rules of practice and procedure not otherwise provided for in this title may be prescribed by the commission. [1961 c 14 § 81.04.110. Prior: 1913 c 145 § 1; 1911 c 117 § 80; RRS § 10422.]

81.04.120 Hearings—Order—Record. At the time fixed for the hearing mentioned in RCW 81.04.110, the complainant and the person or corporation complained of shall be entitled to be heard and introduce such evidence as he or it may desire. The commission shall issue process to enforce the attendance of all necessary witnesses. At the conclusion of such hearing the commission shall make and render findings concerning the subject matter and facts inquired into and enter its order thereon. A copy of such order, certified under the seal of the commission, shall be served upon the person or corporation complained of, or his or its attorney, which order shall, of its own force, take effect and become operative twenty days after the service thereof, except as otherwise provided. Where an order cannot, in the judgment of the commission, be complied with within twenty days, the commission may prescribe such additional time as in its judgment is reasonably necessary to comply with the order, and may, on application and for good cause shown, extend the time for compliance fixed in its order. A full and complete record of all proceedings had before the commission, or any member thereof, on any formal hearing had, and all testimony shall be taken down by a stenographer appointed by the commission, and the parties shall be entitled to be heard in person or by attorney. In case of an action to review any order of the commission, a transcript of such testimony, together with all exhibits introduced, and of the record and proceedings in the cause, shall constitute the record of the commission. [1961 c 14 § 81.04.120. Prior: 1911 c 117 § 81; RRS § 10423.]

81.04.130 Suspension of tariff changes. Whenever any public service company shall file with the commission any schedule, classification, rule or regulation, the effect of which is to change any rate, fare, charge, rental or toll theretofore charged, the commission shall have power, either upon its own motion or upon complaint, upon notice, to enter upon a hearing concerning such proposed change and the reasonableness and justness thereof, and, pending such hearing and the decision thereof, the commission may suspend the operation of such rate, fare, charge, rental or toll, if such change is proposed by a common carrier subject to the jurisdiction of the commission for a period not exceeding seven months, and, if proposed by a public service company other than such a common carrier, for a period not exceeding ten months from the time the same would otherwise go into effect, and after a full hearing the commission may make such order in reference thereto as would be provided in a hearing initiated after the same had become effective.

At any hearing involving any change in any schedule, classification, rule or regulation the effect of which is to increase any rate, fare, charge, rental or toll theretofore charged, the burden of proof to show that such increase is just and reasonable shall be upon the public service company: Provided, however, That when any common carrier subject to the jurisdiction of the commission shall file any tariff, classification, rule or regulation the effect of which is to decrease any rate, fare, or charge, the burden of proof to show that such decrease is just and reasonable shall be upon such common carrier. [1961 c 14 § 81.04.130. Prior: 1941 c 162 § 1; 1937 c 169 § 2; 1933 c 165 § 3; 1915 c 133 § 1; 1911 c 117 § 82; Rem. Supp. 1941 § 10424.]

81.04.140 Order requiring joint action. Whenever any order of the commission shall require joint action by two or more public service companies, such order shall specify that the same shall be made at their joint cost, and the companies affected shall have thirty days, or such further time, as the commission may prescribe, within which to agree upon the part or division of cost which each shall bear, and costs of operation and maintenance in the future, or the proportion of charges or revenue each shall receive from such joint service and the rules to govern future operations. If at the expiration of such time such companies shall fail to file with the commission a statement that an agreement has been made for the division or apportionment of such cost, the division of costs of operation and maintenance to be incurred in the future and the proportion of charges or revenue each shall receive from such joint service and the rules to govern future operations, the commission shall have authority, after further hearing, to enter a supplemental order fixing the proportion of such cost or expense to be borne by each company, and the manner in which the same shall be paid and secured. [1961 c 14 § 81.04.140. Prior: 1911 c 117 § 83; RRS § 10425.]

81.04.150 Remunerative rates cannot be changed without approval. Whenever the commission shall find,
after hearing had upon its own motion or upon complaint as herein provided, that any rate, toll, rental or charge which has been the subject of complaint and inquiry is sufficiently remunerative to the public service company affected thereby, it may order that such rate, toll, rental or charge shall not be changed, altered, abrogated or discontinued, nor shall there be any change in the classification which will change or alter such rate, toll, rental or charge without first obtaining the consent of the commission authorizing such change to be made. [1961 c 14 § 81.04.150. Prior: 1911 c 117 § 84; RRS § 10426.]

81.04.160 Rules and regulations. The commission is hereby authorized and empowered to adopt, promulgate and issue rules and regulations covering the bulletining of trains, showing the time of arrival and departure of all trains, and the probable arrival and departure of delayed trains; the conditions to be contained in and become a part of contracts for transportation of persons and property, and any and all services concerning the same, or connected therewith; the time that station rooms and offices shall be kept open; rules governing demurrage and reciprocal demurrage, and to provide reasonable penalties to expedite the prompt movement of freight and release of cars, the limits of express deliveries in cities and towns, and generally such rules as pertain to the comfort and convenience of the public concerning the subjects treated of in this title. Such rules and regulations shall be promulgated and issued by the commission on its own motion, and shall be served on the public service company affected thereby as other orders of the commission are served. Any public service company affected thereby, and deeming such rules and regulations, or any of them, improper, unjust, unreasonable, or contrary to law, may within twenty days from the date of service of such order upon it file objections thereto with the commission, specifying the particular grounds of such objections. The commission shall, upon receipt of such objections, fix a time and place for hearing the same, and after a full hearing may make such changes or modifications thereto, if any, as the evidence may justify. The commission shall have, and it is hereby given, power to adopt rules to govern its proceedings, and to regulate the mode and manner of all investigations and hearings: Provided, No person desiring to be present at such hearing shall be denied permission. Actions may be instituted to review rules and regulations promulgated under this section as in the case of orders of the commission. [1961 c 14 § 81.04.160. Prior: 1911 c 117 § 85; RRS § 10427.]

The petition shall be in such form as the commission may prescribe and shall set forth specifically the

Any complainant or any public service company affected by any findings or order of the commission, and deeming such findings or order to be contrary to law, may, within thirty days after the service of the findings or order upon him or it, apply to the superior court of Thurston county for a writ of review, for the purpose of having the reasonableness and lawfulness of such findings or order inquired into and determined. Such writ shall be made returnable not later than thirty days from and after the date of the issuance thereof, unless upon notice to all parties affected further time be allowed by the court, and shall direct the commission to certify its record in the case to the court. Such cause shall be heard by the court without the intervention of a jury on the evidence and exhibits introduced before the commission and certified to by it. Upon such hearing the superior court shall enter judgment either affirming or setting aside or remanding for further action the findings or order of the commission under review. The reasonable cost of preparing the transcript taken before the commission shall be assessable as part of the statutory court costs, and the amount thereof, if collected by the commission, shall be deposited in the public service revolving fund. In case such findings or order be set aside, or reversed and remanded, the court shall make specific findings based upon evidence in the record indicating clearly all respects in which the commission's findings or order are erroneous. [1961 c 14 § 81.04.170. Prior: 1937 c 169 § 3; 1911 c 117 § 86; RRS § 10428.]

No order so restraining or suspending an order of the commission relating to rates, fares, charges, tolls or
rentals, or rules or regulations, practices, classifications or contracts affecting the same, shall be made by the superior court otherwise than upon three days' notice and after hearing, and if a supersedeas is granted the order granting the same shall contain a specific finding, based upon evidence submitted to the court making the order, and identified by reference thereto, that great or irreparable damage would otherwise result to the petitioner, and specifying the nature of the damage.

In case the order of the commission under review is superseded by the court, it shall require a bond, with good and sufficient surety, conditioned that such company petitioning for such review shall answer for all damages caused by the delay in the enforcement of the order of the commission, and all compensation for whatever sums for transportation any person or corporation shall be compelled to pay pending the review proceedings in excess of the sum such person or corporations would have been compelled to pay if the order of the commission had not been suspended.

The court may, in addition to or in lieu of the bond herein provided for, require such other or further security for the payment of such excess charges or damages as it may deem proper. [1961 c 14 § 81.04.180. Prior: 1933 c 165 § 6; prior: 1931 c 119 § 2; 1911 c 117 § 87; RRS § 10429.]

Upon the filing of such petition, such proceedings shall be had thereon as are provided for hearings upon complaint, and such orders may be reviewed as are other orders of the commission: Provided, That no order superseding the order of the commission denying such rehearing shall be granted by the court pending the review. In case any order of the commission shall not be reviewed, but shall be complied with by the public service company, such petition for rehearing may be filed within six months from and after the date of the taking effect of such order, and the proceedings thereon shall be as in this section provided. Prior: 1911 c 117 § 89; RRS § 10431.]

[1961 c 14 § 81.04.220. Prior: 1911 c 117 § 90; RRS § 10432.]

[1961 c 14 § 81.04.230. Prior: 1937 c 29 § 1; Rem. Supp. 1943 § 10433–1.]

of the claim, or any part or parts thereof, specified in the notice.

If on or before expiration of the two-year period of limitation for the recovery of overcharges, a public service company begins action under RCW 81.28.270 for recovery of charges in respect of the same transportation service, or, without beginning action, collects charges in respect of that service, said period of limitation shall be extended to include ninety days from the time such action is begun or such charges are collected by the carrier.

All complaints against public service companies for the recovery of damages not based on overcharges shall be filed with the commission within six months from the time the cause of action accrues except as hereinafter provided.

The six-month period of limitation for recovery of damages not based on overcharges shall be extended for a like period and under the same conditions as prescribed for recovery of overcharges. If the six-month period for recovery of damages not based on overcharges has expired at the time action is commenced under RCW 81.28.270 for recovery of charges with respect to the same transportation service, or, without beginning such action, charges are collected with respect to that service, complaints therefor shall be filed with the commission within ninety days from the commencement of such action or the collection of such charges by the carrier. [1963 c 59 § 4; 1961 c 14 § 81.04.235. Prior: 1955 c 79 § 5.]

The provisions of this section shall extend to and embrace cases in which the cause of action has heretofore accrued as well as cases in which the cause of action may hereafter accrue. [1961 c 14 § 81.04.236. Prior: 1955 c 79 § 6.]

81.04.240 Action in court on reparations and overcharges. If the public service company does not comply with the order of the commission for the payment of damages or overcharges within the time limited in the order, action may be brought in any superior court where service may be had upon the company to recover the amount of damages or overcharges with interest. The commission shall certify and file its record in the case, with the clerk of the court within thirty days after such action is started and the action shall be heard on the evidence and exhibits introduced before the commission and certified to by it.

If the complainant shall prevail in the action, the court shall enter judgment for the amount of damages or overcharges with interest and shall allow complainant a reasonable attorney's fee, and the cost of preparing and certifying the record for the benefit of and to be paid to the commission by complainant, and deposited by the commission in the public service revolving fund, said sums to be fixed and collected as a part of the costs of the action.

If the order of the commission is found contrary to law or erroneous by reason of the rejection of testimony properly offered, the court shall remand the cause to the commission with instructions to receive the testimony so proffered and rejected and enter a new order based upon the evidence theretofore taken and such as it is directed to receive.

The court may remand any action which is reversed by it to the commission for further action.

Appeals to the supreme court shall lie as in other civil cases. Action to recover damages or overcharges shall be filed in the superior court within one year from the date of the order of the commission.

81.04.250 Determination of rates. The commission shall have the power upon complaint or upon its own motion to prescribe and authorize just and reasonable rates for the transportation of persons or property by carriers, and shall exercise such power whenever and as often as it shall deem necessary or proper. The commission shall, before any hearing is had upon such complaint or motion, notify the complainants and the carrier concerned of the time and place of such hearing by giving at least ten days' written notice thereof, specifying that at the time and place designated a hearing will be held for the purpose of prescribing and authorizing such rates, which notice shall be sufficient to authorize the commission to inquire into and pass upon the matters designated in this section.

In exercising its aforesaid power the commission may use any standard, formula, method or theory of valuation reasonably calculated to arrive at the objective of prescribing and authorizing just and reasonable rates.

In the exercise of said power the commission may in its discretion give consideration in lieu of other factors to the following:

1) To the effect of such rates upon movement of traffic by such carriers;

2) To the public need for adequate transportation facilities, equipment and service at the lowest level of charges consistent with the provision, maintenance and renewal of such facilities, equipment and service; and

3) To the carrier need for revenue of a level which under honest, efficient and economical management is sufficient to cover the cost (including all operating expenses, depreciation accruals, rents and taxes of every kind) of providing adequate transportation service, plus an amount equal to such percentage of said cost as shall be reasonably necessary for the provision, maintenance and renewal of said transportation facilities or equipment and a reasonable profit to the carrier. The relation
of carrier expenses to carrier revenues may be deemed the proper test of a reasonable profit. [1961 c 14 § 81.04.04.250. Prior: 1951 c 75 § 1; 1933 c 165 § 4; 1913 c 182 § 1; 1911 c 117 § 92; RRS § 10441.]

Whenever the commission shall be of opinion that any public service company is failing or omitting, or about to fail or omit, to do anything required of it by law, or by order, direction or requirement of the commission, or is doing anything, or about to do anything, or permitting anything, or about to permit anything to be done contrary to or in violation of law or of any order, direction or requirement of the commission authorized by this title, it shall direct the attorney general to commence an action or proceeding in the superior court of the state of Washington for Thurston county, or in the superior court of any county in which such company may do business, in the name of the state of Washington on the relation of the commission, for the purpose of having such violations or threatened violations stopped and prevented, either by mandamus or injunction. The attorney general shall thereupon begin such action or proceeding by petition to such superior court, alleging the violation complained of, and praying for appropriate relief by way of mandamus or injunction. It shall thereupon be the duty of the court to specify a time, not exceeding twenty days after the service of the copy of the petition, within which the public service company complained of must answer the petition. In case of default in answer or after answer, the court shall immediately inquire into the facts and circumstances in such manner as the court shall direct, without other or formal pleadings, and without respect to any technical requirement. Such persons or corporations as the court may deem necessary or proper to be joined as parties, in order to make its judgment, order or writ effective, may be joined as parties. The final judgment in any such action or proceeding shall either dismiss the action or proceeding or direct that the writ of mandamus or injunction, or both, issue as prayed for in the petition, or in such other modified form as the court may determine will afford appropriate relief. An appeal may be taken to the supreme court or the court of appeals from such final judgment in the same manner and with the same effect as appeals from judgments of the superior court in actions to review orders of the commission. All provisions of this chapter relating to the time of appeal, the manner of perfecting the same, the filing of briefs, hearings and supersedeas, shall apply to appeals to the supreme court or the court of appeals under the provisions of this section. 81.04.270 Merchandise accounts to be kept separate. Any public service company engaging in the sale of merchandise or appliances or equipment shall keep separate accounts, as prescribed by the commission, of its capital employed in such business and of its revenues therefrom and operating expenses thereof. The capital employed in such business shall not constitute a part of the fair value of said company's property for rate making purposes, nor shall the revenues from or operating expenses of such business constitute a part of the operating revenues and expenses of said company as a public service company. [1961 c 14 § 81.04.270. Prior: 1933 c 165 § 8; RRS § 10458-2.]

81.04.280 Purchase and sale of stock by employees. No public service company shall permit any employee to sell, offer for sale, or solicit the purchase of any security of any other person or corporation during such hours as such employee is engaged to perform any duty of such public service company; nor shall any public service company by any means or device require any employee to purchase or contract to purchase any of its securities or those of any other person or corporation; nor shall any public service company require any employee to permit the deduction from his wages or salary of any sum as a payment or to be applied as a payment of any purchase or contract to purchase any security of such public service company or of any other person or corporation. [1961 c 14 § 81.04.280. Prior: 1933 c 165 § 9; RRS § 10458-3.]

81.04.290 Sales of stock to employees and patrons. A corporate public service company, either heretofore or hereafter organized under the laws of this state, may sell to its employees and patrons any increase of its capital stock, or part thereof, without first offering it to existing stockholders: Provided, That such sale is approved by the holders of a majority of the capital stock, at a regular or special meeting held after notice given as to the time, place, and object thereof as provided by law and the bylaws of the company. Such sales shall be at prices and in amounts for each purchaser and upon terms and conditions as set forth in the resolution passed at the stockholders' meeting, or in a resolution passed at a subsequent meeting of the board of trustees if the resolution passed at the stockholders' meeting shall authorize the board to determine prices, amounts, terms, and conditions, except that in either event a minimum price for the stock must be fixed in the resolution passed at the stockholders' meeting. [1961 c 14 § 81.04.290. Prior: 1955 c 79 § 7; 1923 c 110 § 1; RRS § 10344-1.]

Each company shall prepare a budget showing the amount of money which, in its judgment, shall be needed during the ensuing year for maintenance, operation, and construction, classified by accounts as prescribed by the commission, and shall within ten days of the date it is approved by the company file it with the commission for its investigation and approval or rejection. When a budget has been filed with the commission it shall examine into and investigate it to determine whether the expenditures therein proposed are fair and reasonable and not contrary to public interest. Adjustments or additions to budget expenditures may be made from time to time during the year by filing a

The commission may, both as to original and supplementary budgets, prior to the making or contracting for the expenditure of any item therein, and after notice to the company and a hearing thereon, reject any item of the budget. The commission may require any company to furnish further information, data, or detail as to any proposed item of expenditure.

Failure of the commission to object to any item of expenditure within sixty days of the filing of any original budget or within thirty days of the filing of any supplementary budget shall constitute authority to the company to proceed with the making of or contracting for such expenditure, but such authority may be terminated at any time by objection made thereto by the commission prior to the making of or contracting for such expenditure.

Examination, investigation, and determination of the budget by the commission shall not bar or estop it from later determining whether any of the expenditures made thereunder are fair, reasonable, and commensurate with the service, material, supplies, or equipment received. [1961 c 14 § 81.04.310. Prior: 1959 c 248 § 16; prior: 1933 c 165 § 10, part; RRS § 10458–4, part.]

Any company may upon the happening of any emergency caused by fire, flood, explosion, storm, earthquake, riot, or insurrection, or for the immediate preservation or restoration to condition of usefulness of any of its property, the usefulness of which has been destroyed by accident, make the necessary expenditure therefor free from the operation of RCW 81.04.300 through 81.04.330.

Any finding and order entered by the commission shall be in effect until vacated and set aside in proper proceedings for review thereof. [1961 c 14 § 81.04.330. Prior: 1959 c 248 § 18; prior: 1933 c 165 § 10, part; RRS § 10458–4, part.]

81.04.350 Depreciation and retirement accounts. The commission shall have power after hearing to require any or all public service companies to carry proper and adequate depreciation or retirement accounts in accordance with such rules, regulations and forms of accounts as the commission may prescribe. The commission may from time to time ascertain and by order fix the proper and adequate rates of depreciation or retirement of the several classes of property of each public service company. Each public service company shall conform its depreciation or retirement accounts to the rates so prescribed. In fixing the rate of the annual depreciation or retirement charge, the commission may consider the rate and amount theretofore charged by the company for depreciation or retirement.

The commission shall have and exercise like power and authority over all other reserve accounts of public service companies. [1961 c 14 § 81.04.350. Prior: 1937 c 169 § 4; 1933 c 165 § 13; RRS § 10458–7.]

[1961 c 14 § 81.04.360. Prior: 1959 c 285 § 3; 1933 c 165 § 14; RRS § 10458–8.]

The commission shall not be required to approve any such contract or arrangement unless satisfactory proof is submitted to the commission of the cost to the affiliated interest of rendering the services or of furnishing the property or service described herein. [1961 c 14 § 81.16.020. Prior: 1941 c 160 § 1; 1933 c 152 § 1; Rem. Supp. 1941 § 10440–2.]

81.16.030 Payments to affiliated interest disallowed if not reasonable. In any proceeding, whether upon the commission's own motion or upon complaint, involving the rates or practices of any public service company, the commission may exclude from the accounts of such public service company any payment or compensation to an affiliated interest for any services rendered or property or service furnished, as above described, under existing contracts or arrangements with such affiliated interest unless such public service company shall establish the reasonableness of such payment or compensation. In such proceeding the commission shall disallow such payment or compensation, in whole or in part, in the absence of satisfactory proof that it is reasonable in amount. In such proceeding any payment or compensation may be disapproved or disallowed by the commission, in whole or in part, unless satisfactory proof is submitted to the commission of the cost to the affiliated interest of rendering the service or furnishing the property or service above described. [1961 c 14 § 81.16.030. Prior: 1933 c 152 § 3; RRS § 10440–3.]

[Title 81 RCW (1979 Ed.)—p 17]
81.16.040 Satisfactory proof, what constitutes. No proof shall be satisfactory, within the meaning of RCW 81.16.010 through 81.16.030, unless it includes the original (or verified copies) of the relevant cost records and other relevant accounts of the affiliated interest, or such abstract thereof or summary taken therefrom, as the commission may deem adequate, properly identified and duly authenticated: Provided, however, That the commission may, where reasonable, approve or disapprove such contracts or arrangements without the submission of such cost records or accounts. [1961 c 14 § 81.16.040. Prior: 1933 c 152 § 4; RRS § 10440–4.]

81.16.050 Commission's control is continuing. The commission shall have continuing supervisory control over the terms and conditions of such contracts and arrangements as are herein described so far as necessary to protect and promote the public interest. The commission shall have the same jurisdiction over the modifications or amendment of contracts or arrangements as are herein described as it has over such original contracts or arrangements. The fact that the commission shall have approved entry into such contracts or arrangements as described herein shall not preclude disallowance or disapproval of payments made pursuant thereto, if upon actual experience under such contract or arrangement, it appears that the payments provided for or made were or are unreasonable. Every order of the commission approving any such contract or arrangement shall be expressly conditioned upon the reserved power of the commission to revise and amend the terms and conditions thereof, if, when and as necessary to protect and promote the public interest. [1961 c 14 § 81.16.050. Prior: 1933 c 152 § 5; RRS § 10440–5.]

81.16.060 Summary order on nonapproved payments. Whenever the commission shall find upon investigation that any public service company is giving effect to any such contract or arrangement without such contract or arrangement having received the commission's approval, the commission may issue a summary order prohibiting the public service company from treating any payments made under the terms of such contract or arrangement as operating expenses or as capital expenditures for rate or valuation purposes, unless and until such payments shall have received the approval of the commission. [1961 c 14 § 81.16.060. Prior: 1933 c 152 § 6; RRS § 10440–6.]

81.16.070 Summary order on payments after disallowance. Whenever the commission shall find upon investigation that any public service company is making payments to an affiliated interest, although such payments have been disallowed and disapproved by the commission in a proceeding involving the public service company's rates or practices, the commission shall issue a summary order directing the public service company from treating such payments as operating expenses or capital expenditures for rate or valuation purposes, unless and until such payments shall have received the approval of the commission. [1961 c 14 § 81.16.070. Prior: 1933 c 152 § 7; RRS § 10440–7.]

81.16.080 Court action to enforce orders. The superior court of Thurston county is authorized to enforce such orders to cease and desist by appropriate process, including the issuance of a preliminary injunction, upon the suit of the commission. [1961 c 14 § 81.16.080. Prior: 1933 c 152 § 8; RRS § 10440–8.]

81.16.090 Review of orders. Any public service company or affiliated interest deeming any decision or order of the commission to be in any respect or manner improper, unjust or unreasonable may have the same reviewed in the courts in the same manner and by the same procedure as is now provided by law for review of any other order or decision of the commission. [1961 c 14 § 81.16.090. Prior: 1933 c 152 § 9; RRS § 10440–9.]

81.20.010 Definition. As used in this chapter, the term "public service company" means any person, firm, association, or corporation, whether public or private, operating a utility or public service enterprise subject in any respect to regulation by the utilities and transportation commission under the provisions of this title or Title 22 RCW. [1961 c 14 § 81.20.010. Prior: 1953 c 95 § 14; 1939 c 203 § 1; RRS § 10458–6.]

81.20.020 Cost of investigation may be assessed against company. Whenever the commission in any proceeding upon its own motion or upon complaint shall deem it necessary in order to carry out the duties imposed upon it by law to investigate the books, accounts, practices and activities of, or make any valuation or appraisal of the property of any public service company, or to investigate or appraise any phase of its operations, or to render any engineering or accounting service to or in connection with any public service company, and the cost thereof to the commission exceeds in amount the ordinary regulatory fees paid by such public service company during the preceding calendar year or estimated to be paid during the current year, whichever is more, such public service company shall pay the expenses reasonably attributable and allocable to such investigation, valuation, appraisal or services. The commission shall ascertain such expenses, and, after giving notice and an opportunity to be heard, shall render a bill therefor by registered mail to the public service company, either at the conclusion of the investigation, valuation, appraisal or services, or from time to time during its progress. Within thirty days after a bill has been mailed such public service company shall pay to
the commission the amount of the bill, and the com- 
mission shall transmit such payment to the state treasurer 
who shall credit it to the public service revolving fund.
The total amount which any public service company 
shall be required to pay under the provisions of this sec-
tion in any calendar year shall not exceed one percent of 
the gross operating revenues derived by such public 
service company from its intrastate operations during 
the last preceding calendar year. If such company did 
not operate during all of the preceding year the calcula-
tions shall be based upon estimated gross revenues for 
the current year. [1961 c 14 § 81.20.020. Prior: 1939 c 
203 § 2(a); RRS § 10458–6a(a).]

81.20.030 Interest on unpaid assessment—Action 
to collect. Amounts so assessed against any public serv-
ce company not paid within thirty days after mailing of 
the bill therefor, shall draw interest at the rate of six 
percent per annum from the date of mailing of the bill. 
Upon failure of the public service company to pay the 
bill, the attorney general shall proceed in the name of 
the state by civil action in the superior court for 
Thurston county against such public service company to 
collect the amount due, together with interest and costs 
of suit. [1961 c 14 § 81.20.030. Prior: 1939 c 203 § 2(b); 
RRS § 10458–6a(b).]

81.20.040 Commission's determination of necessity 
as evidence. In such action the commission's determina-
tion of the necessity of the investigation, valuation, appra-
sal or services shall be conclusive evidence of such 
necessity, and its findings and determination of facts ex-
pressed in bills rendered pursuant to RCW 81.20.020 
through 81.20.060 or in any proceedings determinative 
of such bills shall be prima facie evidence of such facts. 
[1961 c 14 § 81.20.040. Prior: 1939 c 203 § 2(c); RRS § 
10458–6a(c).]

81.20.050 Order of commission not subject to review.
In view of the civil action provided for in RCW 81.20-
.020 through 81.20.060 any order made by the commis-
sion in determining the amount of such bill shall not be 
reviewable in court, but the mere absence of such right 
of review shall not prejudice the rights of defendants in 
the civil action. [1961 c 14 § 81.20.050. Prior: 1939 c 
203 § 2(d); RRS § 10458–6a(d).]

81.20.060 Limitation on frequency of investigations.
Expenses of a complete valuation, rate and service in-
vestigation shall not be assessed against a public service 
company under this chapter if such company shall have 
been subjected to and paid the expenses of a complete 
valuation, rate and service investigation during the pre-
ceding five years, unless the properties or operations of 
the company have materially changed or there has been 
a substantial change in its value for rate making pur-
poses or in other circumstances and conditions affecting 
rates and services. [1961 c 14 § 81.20.060. Prior: 1939 c 
203 § 2(e); RRS § 10458–6a(e).]
Provided, That the fee paid shall in no case be less than two dollars and fifty cents.

The percentage rate of gross operating revenue to be paid in any period may be decreased by the commission by general order entered before the fifteenth day of the month preceding the month in which such fees are due. [1961 c 14 § 81.24.020. Prior: 1955 c 125 § 5; prior: 1937 c 158 § 2, part; RRS § 10417–1, part.]

81.24.030 Fees of steamboat companies, wharfingers, or warehousemen. Every steamboat company and every wharfinger or warehouseman shall, on or before the first day of April of each year, file with the commission a statement on oath showing its gross operating revenue from intrastate operations for the preceding calendar year, or portion thereof, and pay to the commission a fee of two-fifths of one percent of the amount of gross operating revenue: Provided, That the fee so paid shall in no case be less than five dollars. The percentage rate of gross operating revenue to be paid in any year may be decreased by the commission by general order entered before March 1st of such year. [1961 c 14 § 81.24.030. Prior: 1955 c 125 § 6; prior: 1939 c 123 § 3, part; 1937 c 158 § 4, part; RRS § 10417–3, part.]

81.24.040 Fees of storage warehousemen. Every storage warehouseman shall, on or before the thirty-first day of March, 1950, and of each year thereafter, file with the commission an annual report under oath, on forms to be provided by the commission, showing his gross operating revenue from intrastate operations for the preceding calendar year ending December 31st, or portion thereof, and pay to the commission one percent of such gross operating revenue: Provided, That the fee so paid shall in no case be less than ten dollars: Provided further, That for the year 1950 the amount yet remaining due shall be computed to give credit for amounts paid during that year. The percentage rate of gross operating revenue to be paid in any year may be decreased by the commission by general order entered before March 1st of such year. [1961 c 14 § 81.24.040. Prior: 1955 c 125 § 7; prior: 1949 c 124 § 1, part; 1939 c 123 § 2, part; 1937 c 158 § 3, part; Rem. Supp. 1949 § 10417–2, part.]

81.24.050 Fees to approximate reasonable cost of regulation. In fixing the percentage rates of gross operating revenue to be paid by companies under RCW 81-24.010, 81.24.020, 81.24.030 and 81.24.040, the commission shall consider all moneys then in the public service revolving fund and the fees currently to be paid into such fund, to the end that the fees collected from the companies, or classes of companies, covered by each respective section shall be approximately the same as the reasonable cost of supervising and regulating such companies, or classes of companies, respectively. [1961 c 14 § 81.24.050. Prior: 1955 c 125 § 8; prior: (i) 1939 c 123 § 1, part; 1937 c 158 § 1, part; RRS § 10417, part. (ii) 1937 c 158 § 2, part; RRS § 10417–1, part. (iii) 1939 c 123 § 3, part; 1937 c 158 § 4, part; RRS § 10417–3, part. (iv) 1939 c 123 § 2, part; 1937 c 158 § 3, part; RRS § 10417–2, part. (v) 1949 c 124 § 1, part; Rem. Supp. 1949 § 10417–2, part.]

81.24.060 Intent of legislature—Regulatory cost records to be kept by commission. It is the intent and purpose of the legislature that the several groups of public service companies shall each contribute sufficient in fees to the commission to pay the reasonable cost of regulating the several groups respectively. The commission shall keep accurate records of the costs incurred in regulating and supervising the several groups of companies subject to regulation or supervision and such records shall be open to inspection by all interested parties. The records and data upon which the commission's determination is made shall be considered prima facie correct in any proceeding instituted to challenge the reasonableness or correctness of any order of the commission fixing fees and distributing regulatory expenses. [1961 c 14 § 81.24.060. Prior: 1937 c 158 § 7; RRS § 10417–5.]

81.24.070 Disposition of fees. All moneys collected under the provisions of this chapter shall within thirty days be paid to the state treasurer and by him deposited to the public service revolving fund. [1961 c 14 § 81.24.070. Prior: 1937 c 158 § 6; RRS § 10417–4.]

81.24.080 Penalty for failure to pay fees—Disposition of fees and penalties. Every person, firm, company or corporation, or the officers, agents or employees thereof, failing or neglecting to pay the fees herein required shall be guilty of a misdemeanor. All fines and penalties collected under the provisions of this chapter shall be deposited into the public service revolving fund of the state treasury: Provided, That all fees, fines, forfeitures and penalties collected or assessed by a justice of the state treasury: Provided, That the fee paid shall in no case be less than five dollars. The percentage rate of gross operating revenue to be paid in any year may be decreased by the commission by general order entered before March 1st of such year. [1961 c 14 § 81.24.080. Prior: 1923 c 107 § 2; 1921 c 113 § 3; RRS § 10419.]

shown by printing, filing and publishing new schedules
or shall be plainly indicated upon the schedules in force
at the time and kept open to public inspection. The
commission, for good cause shown, may by order allow
changes in rates without requiring the thirty days' notice
and the publication. When any change is made in any
rate, fare, charge, classification, rule, or regulation, at-

each point upon its route within the state and all points
without the state upon the route of any common carrier,
whenever a through route and joint rate shall have been
established between any two such points. If no joint rate
over a through route has been established, the carrier
operating within this state shall print and file with the
commission the separately established rates, fares,
charges and classifications applied to the through trans-
portation. The schedules printed aforesaid shall plainly
state the places between which property and persons will
be carried, and shall also contain the classification of
passengers or property in force, and shall also state sep-
ately all terminal charges, storage charges, icing
charges or other charges which the commission may re-

device any portion of the rates, fares, or charges so
specified excepting upon order of the commission as
hereinafter provided, nor extend to any shipper or person

No common carrier shall, directly or indirectly, by any special rate, rebate, drawback, or other device or method, charge, demand, collect or receive from any person or corporation a greater or less compensation for any service rendered or to be rendered in the transportation of persons or property, except as authorized in this title, than it charges, demands, collects or receives from any person or corporation for doing a like and contemporaneous service in the transportation of a like kind of traffic under the same or substantially similar circumstances and conditions. Upon application of a common carrier the commission may by order authorize it to charge less for a longer than for a shorter distance for the transportation of persons or property in special cases after investigation by the commission, but the order must specify and prescribe the extent to which the common carrier making such application is relieved from the operation of this section, and only to the extent so specified and prescribed shall any common carrier be relieved from the operation and requirements of this section. [1961 c 14 § 81.28.200. Prior: 1911 c 117 § 22; RRS § 10358.]

No person, corporation, or any officer, agent or employee, of a corporation, shall knowingly or wilfully, directly or indirectly, by false statement or representation as to the cost, value, nature or extent of injury, or by the use of any false billing, bill of lading, receipt, voucher, roll, account, claim, certificate, affidavit or deposition, knowing the same to be false, fictitious or fraudulent, or to upon any false, fictitious or fraudulent statement or entry, obtain or attempt to obtain any allowance, rebate or payment for damage, or otherwise, in connection with or growing out of the transportation of persons or property, or agreement to transport such persons or property, whether with or without the consent or connivance of such common carrier or any of its officers, agents or employees, whereby the compensation of such carrier for such transportation shall be in fact made less than the rates then established and in force therefor.

No person, corporation, or any officer, agent or employee of a corporation, who shall deliver property for transportation within the state to a common carrier, shall seek to obtain or obtain such transportation by any false representation, false statement of false paper or token as to the contents or substance thereof, where the transportation of such property is prohibited by law.

The attorney general of the state of Washington is authorized and directed, whenever he has reasonable grounds to believe that any person, firm or corporation has knowingly accepted or received from any carriers of persons or property subject to the jurisdiction of the commission, either directly or indirectly, any unlawful rebate, discount, deduction, concession, refund or remittance from the rates or charges filed and open to public inspection as provided for in the public service laws of this state, to prosecute a civil action in the name of the people of the state of Washington in the superior court of Thurston county to collect three times the total sum of such rebates, discounts, deductions, concessions, refunds or remittances so accepted or received within three years prior to the commencement of such action.

Whenever the commission shall find, after a hearing had upon its own motion or upon complaint, as herein provided, that the rates, fares or charges demanded, exacted, charged or collected by any common carrier for the transportation of persons or property within the state or in connection therewith, or that the regulations or practices of such common carrier affecting such rates are unjust, unreasonable, unjustly discriminatory, or unduly preferential, or in anywise in violation of the provisions of law, or that such rates, fares or charges are insufficient to yield a reasonable compensation for the service rendered, the commission shall determine the just, reasonable or sufficient rates, fares or charges, regulations or practices to be thereafter observed and enforced and shall fix the same by order. [1961 c 14 § 81.28.230. Prior: 1911 c 117 § 53, part; RRS § 10389, part.]

Such notice shall not be admitted as evidence or used for any purpose against the company giving it in any action for damages growing out of any matter mentioned in the notice. The commission may require reports to be made by any common carrier of all wrecks, collisions, or derailments occurring on its line. [1961 c 14 § 81.28.280. Prior: 1953 c 104 § 3; prior: 1911 c 117 § 63, part; RRS § 10399, part.]

In all actions against persons, companies or corporations, operating steam or electric railroads in the state of Washington, for injury to stock by collision with moving trains, it is prima facie evidence of negligence on the part of such person, company or corporation, to show that the railroad track was not fenced with a substantial fence or protected by a sufficient cattle guard at the place where the stock was injured or killed. [1961 c 14 § 81.52.070. Prior: 1907 c 88 § 3; RRS § 10509.]

81.53.010 Definitions. The term "commission," when used in this chapter, means the utilities and transportation commission of Washington.

The term "highway," when used in this chapter, includes all state and county roads, streets, alleys, avenues, boulevards, parkways and other public places actually open and in use, or to be opened and used, for travel by the public.

The term "railroad," when used in this chapter, means every railroad, including interurban and suburban electric railroads, by whatsoever power operated, for the public use in the conveyance of persons or property for hire, with all bridges, ferries, tunnels, equipment, switches, spurs, sidings, tracks, stations and terminal facilities of every kind, used, operated, controlled, managed, or owned by or in connection therewith. The said term shall also include every logging and other industrial railway owned or operated primarily for the purpose of carrying the property of its owners or operators or of a limited class of persons, with all tracks, spurs and sidings used in connection therewith. The said term shall not include street railways operating within the limits of any incorporated city or town.

The term "railroad company," when used in this chapter, includes every corporation, company, association, joint stock association, partnership or person, its, their or his lessees, trustees or receivers appointed by any court whatsoever, owning, operating, controlling or managing any railroad, as that term is defined in this section.

The term "over-crossing," when used in this chapter, means any point or place where a highway crosses a railroad by passing above the same.

The term "under-crossing," when used in this chapter, means any point or place where a highway crosses a railroad by passing under the same.

The term "over-crossing" or "under-crossing," shall also mean any point or place where one railroad crosses another railroad not at grade.

The term "grade crossing," when used in this chapter, means any point or place where a railroad crosses a highway or a highway crosses a railroad or one railroad crosses another, at a common grade. [1961 c 14 § 81.53.010. Prior: 1959 c 283 § 2; prior: (i) 1913 c 30 § 1; RRS § 10511. (ii) 1941 c 161 § 1; Rem. Supp. 1941 § 10511—1. Formerly RCW 81.52.080, part.]

81.53.020 Grade separation required where practicable. All railroads and extensions of railroads hereafter constructed shall cross existing railroads and highways by passing either over or under the same, when practicable, and shall in no instance cross any railroad or highway at grade without authority first being obtained from the commission to do so. All highways and extensions of highways hereafter laid out and constructed.
shall cross existing railroads by passing either over or under the same, when practicable, and shall in no instance cross any railroad at grade without authority first being obtained from the commission to do so: Provided, That this section shall not be construed to prohibit a railroad company from constructing tracks at grade across other tracks owned or operated by it within established yard limits. In determining whether a separation of grades is practicable, the commission shall take into consideration the amount and character of travel on the railroad and on the highway; the grade and alignment of the railroad and the highway; the cost of separating grades; the topography of the country, and all other circumstances and conditions naturally involved in such an inquiry. [1961 c 14 § 81.53.020. Prior: 1913 c 30 § 2; RRS § 10512. Formerly RCW 81.52.090.]

81.53.030 Petition for crossing—Hearing—Order. Whenever any railroad company desires to cross any highway or railroad at grade, it shall file a written petition with the commission setting forth the reasons why the crossing cannot be made either above or below grade, and whenever the county commissioners of any county, or the municipal authorities of any city, or the state officers authorized to lay out and construct state roads, or state parks and recreation commission, desire to extend any highway across any railroad at grade, they shall file a written petition with the commission, setting forth the reasons why the crossing cannot be made either above or below grade. Upon receiving such petition the commission shall immediately investigate it, giving at least ten days' notice to the railroad company and the county or city affected thereby, of the time and place of such investigation, to the end that all parties interested may be present and heard. If the highway involved is a state road or parkway, the director of highways or state parks and recreation commission shall be notified of the time and place of the hearing. The evidence introduced shall be reduced to writing and be filed by the commission. If the commission finds that it is not practicable to cross the railroad or highway either above or below grade, the commission shall enter a written order in the clause, either granting or denying the right to construct a grade crossing at the point in question. The commission may provide in the order authorizing a grade crossing, or at any subsequent time, that the railroad company shall install and maintain proper signals, warnings, flagmen, interlocking devices, or other devices or means to secure the safety of the public and its employees. In respect to existing railroad grade crossings over highways the construction of which grade crossings was accomplished other than pursuant to a commission order authorizing the same, the commission may in any event require the railroad company to install and maintain, at or near each crossing, on both sides thereof, a sign known as the sawbuck crossing sign with the lettering "Railroad Crossing" inscribed thereon with a suitable inscription indicating the number of tracks. Such a sign shall be of standard design conforming to specifications furnished by the Washington state highway commission. [1961 c 14 § 81.53.030. Prior: 1959 c 283 § 1; 1955 c 310 § 3; prior: 1937 c 22 § 1, part; 1913 c 30 § 3, part; RRS § 10513, part. Formerly RCW 81.52.100.]

Reviser's note: Powers, duties, and functions of director of highways and highway commission transferred to department of transportation; see RCW 47.01.031. Term "director of highways" means secretary of transportation; term "Washington state highway commission" means department of transportation; see RCW 47.04.015.

81.53.040 Supplemental bearing—Change of route. If the commission finds that it is impracticable to construct an over—crossing or under—crossing on the established or proposed highway, and shall find that by deflecting the established or proposed highway a practicable and feasible over—crossing or under—crossing or a safer grade crossing can be provided, it shall continue the hearing and hold a supplemental hearing thereon. At least ten days' notice of the time and place of the supplemental hearing shall be given to all landowners that may be affected by the proposed change in location of the highways. At the supplemental hearing the commission shall inquire into the propriety and necessity of changing and deflecting the highway as proposed. If the proposed change in route of the highway involves the abandonment and vacation of a portion of an established highway, the owners of land contiguous to the portion of the highway to be vacated shall, in like manner, be notified of the time and place of the supplemental hearing. At the conclusion of the hearing, the commission shall enter its findings in writing, and shall determine the location of the crossing which may be constructed, and whether it shall be an under—crossing, over—crossing or grade crossing, and shall determine whether or not any proposed change in the route of an existing highway, or the abandonment of a portion thereof is advisable or necessary to secure an over—crossing, under—crossing, or safer grade crossing. [1961 c 14 § 81.53.040. Prior: 1955 c 310 § 4; prior: 1937 c 22 § 1, part; 1913 c 30 § 3, part; RRS § 10513, part. Formerly RCW 81.52.110.]

81.53.050 Requirements of order on change of route. If the commission finds and determines that a change in route of an existing highway, or vacation of a portion thereof, is necessary or advisable, it shall further find and determine what private property or property rights it is necessary to take, damage, or injuriously affect for the purpose of constructing the highway along a new route, and what private property or property rights, will be affected by the proposed vacation of a portion of an existing highway. The property and property rights found necessary to be taken, damaged, or affected shall be described in the findings with reasonable accuracy. In any action brought to acquire the right to take or damage any such property or property rights, the findings of the commission shall be conclusive as to the necessity therefor. A copy of the findings shall be served upon all parties to the cause. [1961 c 14 § 81.53.050. Prior: 1955 c 310 § 5; 1937 c 22 § 1, part; 1913 c 30 § 3, part; RRS § 10513, part. Formerly RCW 81.52.120.]

81.53.060 Petition for alteration of crossing—Closure of grade crossing without bearing, when. The mayor and city council, or other governing body of any city or town, or the county commissioners of any county
within which there exists any under-crossing, over-crossing or grade crossing, or where any street or highway is proposed to be located or established across any railroad, or any railroad company whose road is crossed by any highway, may file with the commission their or its petition in writing, alleging that the public safety requires the establishment of an under-crossing or over-crossing, or an alteration in the method and manner of an existing crossing and its approaches, or in the style and nature of construction of an existing over-crossing, under-crossing or grade crossing, or a change in the location of an existing highway or crossing, the closing or discontinuance of an existing highway crossing, and the diversion of travel thereon to another highway or crossing, or if not practicable, to change such crossing from grade or to close and discontinue the same, the opening of an additional crossing for the partial diversion of travel and praying that the same may be ordered. If the existing or proposed crossing is on a state road, highway or parkway, the petition may be filed by the director of highways or state parks and recreation commission. Upon such petition being filed, the commission shall fix a time and place for hearing the petition and shall give not less than twenty days' notice thereof to the petitioner, the railroad company and the municipality or county in which the crossing is situate. If the highway involved is a state highway or parkway, like notice shall be given to the director of highways or state parks and recreation commission. If the change petitioned for requires that private lands, property, or property rights be taken, damaged, or injuriously affected to open up a new route for the highway, or requires that any portion of any existing highway be vacated and abandoned, twenty days' notice of the hearing shall be given to the owner or owners of the private lands, property, and property rights which it is necessary to take, damage or injuriously affect, and to the owner or owners of the private lands, property, or property rights that will be affected by the proposed vacation and abandonment of the existing highway. The commission shall also cause said notice of hearing to be published once in some newspaper of general circulation in the community where such crossing is situate, which publication shall appear at least two days prior to the date of hearing. At the time and place fixed in the notice, all persons and parties interested shall be entitled to be heard and introduce evidence: Provided, That in the case of a petition for closure of a grade crossing the commission may order such grade crossing closed without hearing where: (1) notice of the filing of the petition is posted at, or as near as practical to, the crossing; (2) notice of the filing of the petition is published once in some newspaper of general circulation in the community or area where such crossing is situated, which publication shall appear within the same week that the notice referred to in (1) above is posted; and (3) no objections are received by the commission within twenty days from the date of the publication of the notice. [1969 ex.s. c 210 § 8; 1961 c 14 § 81.53.060. Prior: 1937 c 22 § 2, part; 1921 c 138 § 1, part; 1913 c 30 § 4, part; RRS § 10514, part. Formerly RCW 81.52.130.]

81.53.070 Hearing. At the conclusion of the hearing the commission shall make and file its written findings of fact concerning the matters inquired into in like manner as provided for findings of fact upon petition for new crossings. The commission shall also enter its order based upon said findings of fact, which shall specify whether the highway shall continue at grade or whether it shall be changed to cross over or under the railroad in its existing location or at some other point, and whether an over-crossing or under-crossing shall be established at the proposed location of any street or highway or at some other point, or whether the style and nature of construction of an existing crossing shall be changed, or whether said highway shall be closed and travel thereon diverted to another channel, or any other change that the commission may find advisable or necessary: Provided, That in an emergency where a highway is relocated to avoid a grade crossing, or a new crossing is constructed in the vicinity of an existing crossing in the interest of public safety, the commission may order such existing crossing closed without notice or hearing as specified herein. In case the order made requires that private lands, property, or property rights be taken, damaged or injuriously affected, the right to take, damage or injuriously affect the same shall be acquired as hereinafter provided.

Any petition herein authorized may be filed by the commission on its own motion, and proceedings thereon shall be the same as herein provided for the hearing and determination of a petition filed by a railroad company. [1961 c 14 § 81.53.070. Prior: 1937 c 22 § 2, part; 1921 c 138 § 1, part; 1913 c 30 § 4, part; RRS § 10514, part. Formerly RCW 81.52.140.]

81.53.080 Restrictions on structures, railway equipment, in proximity of crossings—Minimum clearance for under-crossings. After February 24, 1937, no building, loading platform, or other structure which will tend to obstruct the vision of travelers on a highway or parkway, of approaching railway traffic, shall be erected or placed on railroad or public highway rights of way within a distance of one hundred feet of any grade crossing located outside the corporate limits of any city or town unless authorized by the commission, and no trains, railway cars or equipment shall be spotted less than one hundred feet from any grade crossing within or without the corporate limits of any city or town except to serve station facilities and existing facilities of industries.

The commission shall have the power to specify the minimum vertical and horizontal clearance of under-crossings constructed, repaired or reconstructed after February 24, 1937, except as to primary state highways. [1969 ex.s. c 210 § 9; 1961 c 14 § 81.53.080. Prior: 1937 c 22 § 2, part; 1921 c 138 § 1, part; 1913 c 30 § 4, part; RRS § 10514, part. Formerly RCW 81.52.150.]

[Title 81 RCW (1979 Ed.)—p 42]
81.53.090 Duty to maintain crossings. When a highway crosses a railroad by an over-crossing or under-crossing, the framework and abutments of the over-crossing or under-crossing, as the case may be, shall be maintained and kept in repair by the railroad company, and the roadway thereover or thereunder and approaches thereto shall be maintained and kept in repair by the county or municipality in which the same are situated, or if the highway is a state road or parkway, the roadway over or under the railroad shall be maintained and kept in repair as provided by law for the maintenance and repair of state roads and parkways.

The railings of over-crossings shall be considered a part of the roadway. Whenever a highway intersects a railroad at common grade, the roadway approaches within one foot of the outside of either rail shall be maintained and kept in repair by highway authority, and the planking or other materials between the rails and for one foot on the outside thereof shall be installed and maintained by the railroad company. At crossings involving more than one track, maintenance by the railroad company shall include that portion of the crossing between and for one foot on the outside of each outside rail. The minimum length of such planking or other materials shall be twenty feet on installation or repairs made after February 24, 1937. [1961 c 14 § 81.53.090. 81.53.091 Underpasses, overpasses constructed with aid of federal funds—Apportionment of maintenance cost between railroad and state. See RCW 47.28.150.

81.53.100 Cost when railroad crosses highway. Whenever, under the provisions of this chapter, new railroads are constructed across existing highways, or highway changes are made for the purpose of avoiding grade crossings on such new railroads, or for the purpose of crossing at a safer and more accessible point than otherwise available, the entire expense of crossing above or below the grade of the existing highway, or changing the route thereof, for the purpose mentioned in this section, shall be paid by the railroad company. [1961 c 14 § 81.53.100. Prior: 1937 c 22 § 4A; 1925 ex.s. c 73 § 1A; 1921 c 138 § 2A; 1913 c 30 § 6A; RRS § 10516A. Formerly RCW 81.52.170.]

81.53.110 Cost when highway crosses railroad. Whenever, under the provisions of this chapter, a new highway is constructed across a railroad, or an existing grade crossing is eliminated or changed (or the style or nature of construction of an existing crossing is changed), the entire expense of constructing a new grade crossing, an overcrossing, under-crossing, or safer grade crossing, or changing the nature and style of construction of an existing crossing, including the expense of constructing approaches to such crossing and the expense of securing rights of way for such approaches, as the case may be, shall be apportioned by the commission between the railroad, municipality or county affected, or if the highway is a state road or parkway, between the railroad and the state, in such manner as justice may require, regard being had for all facts relating to the establishment, reason for, and construction of said improvement. If the highway involved is a state road or parkway, the amount not apportioned to the railroad company shall be paid as provided by law for constructing such state road or parkway. [1961 c 14 § 81.53.110. Prior: 1937 c 22 § 4B; 1925 ex.s. c 73 § 1B; 1921 c 138 § 2B; 1913 c 30 § 6B; RRS § 10516B. Formerly RCW 81.52.180.]

81.53.120 Cost when railroad crosses railroad. Whenever two or more lines of railroad owned or operated by different companies cross a highway, or each other, by an over-crossing, under-crossing, or grade crossing required or permitted by this chapter or by an order of the commission, the portion of the expense of making such crossing not chargeable to any municipality, county or to the state, and the expense of constructing and maintaining such signals, warnings, flagmen, interlocking devices, or other devices or means to secure the safety of the public and the employees of the railroad company, as the commission may require to be constructed and maintained, shall be apportioned between said railroad companies by the commission in such manner as justice may require, regard being had for all facts relating to the establishment, reason for, and construction of such improvement, unless said companies shall mutually agree upon an apportionment. If it becomes necessary for the commission to make an apportionment between the railroad companies, a hearing for that purpose shall be held, at least ten days' notice of which shall be given. [1961 c 14 § 81.53.120. Prior: 1937 c 22 § 4C; 1925 ex.s. c 73 § 1C; 1921 c 138 § 2C; 1913 c 30 § 6C; RRS § 10516C. Formerly RCW 81.52.190.]

81.53.130 Apportionment of cost. In the construction of new railroads across existing highways, the railroads shall do or cause to be done all the work of constructing the crossings and road changes that may be required, and shall acquire and furnish whatever property or easements may be necessary, and shall pay, as provided in RCW 81.53.100 through 81.53.120, the entire expense of such work including all compensation or damages for property or property rights taken, damaged or injuriously affected. In all other cases the construction work may be apportioned by the commission between the parties who may be required to contribute to the cost thereof as the parties may agree, or as the commission may consider advisable. All work within the limits of railroad rights of way shall in every case be done by the railroad company owning or operating the same. The cost of acquiring additional lands, rights or easements to provide for the change of existing crossings shall, unless the parties otherwise agree, in the first instance be paid by the municipality or county within which the crossing is located; or in the case of a state road or parkway, shall be paid in the manner provided by law for paying the cost of acquiring lands, rights or easements for the construction of state roads or parkways. The expense accruing on account of property taken or damaged shall be divided and paid in the manner provided for dividing [Title 81 RCW (1979 Ed.—p 43]
and paying other costs of construction. Upon the completion of the work and its approval by the commission, an accounting shall be had, and if it shall appear that any party has expended more than its proportion of the total cost, a settlement shall be forthwith made. If the parties shall be unable to agree upon a settlement, the commission shall arbitrate, adjust and settle the account after notice to the parties. In the event of failure and refusal of any party to pay its proportion of the expense, the sum with interest from the date of the settlement may be recovered in a civil action by the party entitled thereto. In cases where the commission has settled the account, the finding of the commission as to the amount due shall be conclusive in any civil action brought to recover the same if such finding has not been reviewed or appealed from as herein provided, and the time for review or appeal has expired. If any party shall review or appeal from any finding or order of the commission apportioning the cost between the parties liable therefor, the superior court, the court of appeals, or the supreme court, as the case may be, shall cause judgment to be entered in such review proceedings for such sum or sums as may be found lawfully or justly due by one party to another. [1971 c 81 § 144; 1961 c 14 § 81.53.130. Prior: 1937 c 22 § 5; 1913 c 30 § 7; RRS § 10517. Formerly RCW 81.52.200.]

81.53.140 Time for performance. The commission, in any order requiring work to be done, shall have power to fix the time within which the same shall be performed and completed: Provided, That if any party having a duty to perform within a fixed time under any order of the commission shall make it appear to the commission that the order cannot reasonably be complied with within the time fixed by reason either of facts arising after the entry of the order or of facts existing prior to the entry thereof that were not presented, and with reasonable diligence could not have been sooner presented to the commission, such party shall be entitled to a reasonable extension of time within which to perform the work. An order of the commission refusing to grant an extension of time may be reviewed as provided for the review of other orders of the commission. [1961 c 14 § 81.53.140. Prior: 1913 c 30 § 10; RRS § 10520. Formerly RCW 81.52.210.]

81.53.150 Practice and procedure. Modes of procedure under this chapter, unless otherwise provided in this chapter, shall be as provided in other provisions of this title. The commission is hereby given power to adopt rules to govern its proceedings and to regulate the mode and manner of all investigations and hearings under this chapter. [1961 c 14 § 81.53.150. Prior: 1913 c 30 § 11; RRS § 10521. Formerly RCW 81.52.220.]

81.53.160 Service of process. All notices required to be served by this chapter shall be in writing, and shall briefly state the nature of the matter to be inquired into and investigated. Notices may be served in the manner provided by law for the service of summons in civil cases, or by registered United States mail. When service is made by registered mail, the receipt of the receiving post office shall be sufficient proof of service. When, under the provisions of this chapter, it is necessary to serve notice of hearings before the commission on owners of private lands, property, or property rights, and such owners cannot be found, service may be made by publication in the manner provided by law for the publication of summons in civil actions, except that publication need be made but once each week for three consecutive weeks, and the hearing may be held at any time after the expiration of thirty days from the date of the first publication of the notice. [1961 c 14 § 81.53.160. Prior: 1913 c 30 § 12; RRS § 10522. Formerly RCW 81.52.230.]

81.53.170 Review and appeal. Upon the petition of any party to a proceeding before the commission, any finding or findings, or order or orders of the commission, made under color of authority of this chapter, except as otherwise provided, may be reviewed in the superior court of the county wherein the crossing is situated, and the reasonableness and lawfulness of such finding or findings, order or orders inquired into and determined, as provided in this title for the review of the commission's orders generally. condemnation proceeding prosecuted under the laws relative to the exercise of the power of eminent domain in aid of such state road.

(3) In cases where the commission orders changes in existing crossings to secure an under-crossing, over-crossing, or safer grade crossing, and it is necessary to take, damage, or injuriously affect private lands, property, or property rights to execute the work, the right to take, damage, or injuriously affect such lands, property, or property rights shall be acquired in a condemnation proceeding prosecuted in the name of the state of Washington by the attorney general under the laws relating to the exercise of the power of eminent domain by cities of the first class for street and highway purposes: Provided, That in the cases mentioned in this subdivision the full value of any lands taken shall be awarded, together with damages, if any accruing to the remainder of the land not taken by reason of the severance of the part taken, but in computing the damages to the remainder, if any, the jury shall offset against such damages, if any, the special benefits, if any, accruing to such remainder by reason of the proposed improvement. 81.53.230 No new right of action conferred. Nothing contained in this chapter shall be construed as conferring a right of action for the abandonment or vacation of any existing highway or portion thereof in cases where no right of action exists independent of this chapter. [1961 c 14 § 81.53.230. Prior: 1913 c 30 § 20; RRS § 10530.]

81.53.240 Scope of chapter. Except to the extent necessary to permit participation by first class cities in the grade crossing protective fund, when such an election to participate is made, as provided in RCW 81.53.261 through 81.53.291, chapter 81.53 RCW shall not be operative within the limits of first class cities, and shall not apply to street railway lines operating on or across any street, alley, or other public place within the limits of any city, except that no street car line outside of cities of the first class shall cross a railroad at grade without express authority from the commission. The commission may not change the location of a state highway without the approval of the director of highways, or the location of any crossing thereon adopted or approved by the highway commission, or grant a railroad authority to cross a state highway at grade unless the director of highways consents thereto. 81.53.250 Employment of experts. The commission may employ temporarily such experts, engineers, and inspectors as may be necessary to supervise changes in existing crossings undertaken under this chapter; the expense thereof shall be paid by the railroad upon the request and certificate of the commission, said expense to be included in the cost of the particular change of grade on account of which it is incurred, and apportioned as provided in this chapter.

81.53.261 Crossing signals, warning devices—Petition, motion—Hearing—Order—Costs, apportionment of—Records not evidence for actions—Appeal. Whenever the director of highways or the governing body of any city, town or county, or any railroad company whose road is crossed by any highway, shall deem that the public safety requires signals or other warning devices, other than sawbuck signs, at any crossing of a railroad at common grade by any state or county highway, road, street, alley, avenue, boulevard, parkway or other public place actually open and in use or to be opened and used for travel by the public, he or it shall file with the utilities and transportation commission a petition in writing, alleging that the public safety requires the installation of specified signals or other warning devices at such crossing or specified changes in the method and manner of existing crossing warning devices. Upon receiving such petition, the commission shall promptly set the matter for hearing, giving at least twenty days notice to the railroad company or companies and the county or municipality affected thereby, or the director of highways in the case of a state highway, of the time and place of such hearing. At the time and place fixed in the notice, all persons and parties interested shall be entitled to be heard and introduce evidence, which shall be reduced to writing and filed by the commission. If the commission shall determine from the evidence that public safety does not require the installation of the signal, other warning device or change in the existing warning device specified in the petition, it shall make determinations to that effect and enter an order denying said petition in toto. If the commission shall determine from the evidence that public safety requires the installation of such signals or other warning devices at such crossing or such change in the existing warning devices at said crossing, it shall make determinations to that effect and enter an order directing the installation of such signals or other warning devices or directing that such changes shall be made in existing warning devices. The commission shall also at said hearing apportion the entire cost of installation and maintenance of such signals or other warning devices, other than sawbuck signs, as provided in RCW 81.53.271: Provided, That upon agreement by all parties to waive hearing, the commission shall forthwith enter its order.

No railroad shall be required to install any such signal or other warning device until the public body involved has either paid or executed its promise to pay to the railroad its portion of the estimated cost thereof.

Nothing in this section shall be deemed to foreclose the right of the interested parties to enter into an agreement, franchise or permit arrangement providing for the installation of signals or other warning devices at any such crossing or for the apportionment of the cost of installation and maintenance thereof, or compliance with an existing agreement, franchise or permit arrangement providing for the same.

The hearing and determinations authorized by this section may be instituted by the commission on its own motion, and the proceedings, hearing and consequences thereof shall be the same as for the hearing and determination of any petition authorized by this section.

No part of the record, or a copy thereof, of the hearing and determination provided for in this section and no finding, conclusion or order made pursuant thereto shall be used as evidence in any trial, civil or criminal, arising out of an accident at or in the vicinity of any crossing prior to installation of signals or other warning devices pursuant to an order of the commission as a result of any such investigation.

Any order entered by the utilities and transportation commission under this section shall be subject to review, supersedeas and appeal as provided in RCW 81.04.170 through 81.04.190, respectively.

Nothing in this section shall be deemed to relieve any railroad from liability on account of failure to provide adequate protective devices at any such crossing. [1969 c 134 § 1]

Reviser's note: Powers, duties, and functions of director of highways transferred to department of transportation; see RCW 47.01.031. Term "director of highways" means secretary of transportation; see RCW 47.04.015.

81.53.271 Crossing signals, warning devices—Petition, contents—Apportionment of installation and maintenance costs. The petition shall set forth by description the location of the crossing or crossings, the type of signal or other warning device to be installed, the necessity from the standpoint of public safety for such installation, the approximate cost of installation, and the approximate annual cost of maintenance. If the commission directs the installation of a grade crossing protective device, the cost of which is eligible for federal aid matching funds of at least sixty percent of the installation costs and such federal funds are used, both installation and maintenance costs of the device shall be apportioned in accordance with the provisions of RCW 81.53.295. Otherwise if installation is directed by the commission, it shall apportion the cost of installation and maintenance as provided in this section:

Installation: (1) Sixty percent to the grade crossing protective fund, created by RCW 81.53.281;

(2) Thirty percent to the city, town, county or state; and

(3) Ten percent to the railroad:

Provided, That, if the proposed installation is located at a new crossing requested by a city, town, county or state, forty percent of the cost shall be apportioned to the city, town, county or state, and none to the railroad.

If the proposed installation is located at a new crossing requested by a railroad, then the entire cost shall be apportioned to the railroad. In the event the city, town, county, or state should concurrently petition the commission and secure an order authorizing the closure of an existing crossing or crossings in proximity to the crossing for which installation of signals or other warning devices shall have been directed, the apportionment to the petitioning city, town, county, or state shall be reduced by ten percent of the total cost for each crossing ordered closed and the apportionment from the grade crossing protective fund increased accordingly. This
exception shall not be construed to permit a charge to the
grade crossing protective fund in an amount greater
than the total cost otherwise apportionable to the city,
town, county, or state. No reduction shall be applied
where one crossing is closed and another opened in lieu
thereof, nor to crossings of a private nature.

Maintenance: (1) Twenty-five percent to the grade
crossing protective fund, created by RCW 81.53.281; and

(2) Seventy-five percent to the railroad:

Provided, That if the proposed installation is located
at a new crossing requested by a railroad, then the entire
cost shall be apportioned to the railroad. [1975 1st ex.s.
c 189 § 1; 1973 1st ex.s. c 77 § 1; 1969 c 134 § 2.]

81.53.275 Crossing signals, warning devices—Ap­
portionment when funds not available from grade crossing
protective fund. In the event funds are not available from
the grade crossing protective fund, the commission shall
apportion to the parties on the basis of the benefits to be
derived by the public and the railroad, respectively, that
part of the cost which would otherwise be assigned to
the fund: Provided, That in such instances the city, town,
county or state shall not be assessed more than sixty
percent of the total cost of installation on other than
federal aid designated highway projects: And provided
further, That in such instances the entire cost of main­
tenance shall be apportioned to the railroad. [1969 ex.s.
c 281 § 18; 1969 c 134 § 7.]

81.53.281 Crossing signals, warning devices—
Grade crossing protective fund—Created—Transfer
of funds—Federal funding—Allocations from, pro­
cEDURE—Recovery of costs. There is hereby created in
the state treasury a "grade crossing protective fund," to
which shall be transferred all moneys appropriated for
the purpose of carrying out the provisions of RCW 81­
.53.261, 81.53.271, 81.53.281 and 81.53.291. The
amount of any transfer from the motor vehicle fund to
the grade crossing protective fund and the amount of
any appropriation (exclusive of any reappropriation
of funds appropriated in the prior biennium) from the
grade crossing protective fund for the installation of
grade crossing protective devices in any biennium shall
be reduced by an amount equal to sixty percent of the
cost of the installation of any such device (installed and
apportioned at the direction of the commission pursuant
to RCW 81.53.271), and an amount equal to such re­
duction shall forthwith be transferred back to the motor
vehicle fund, whenever the cost of installation is paid in
part from federal aid matching funds and the total cost
of installation is apportioned in accordance with the
provisions of RCW 81.53.295: Provided, That not more
than twenty-five percent of the transfer from the motor
vehicle fund and the appropriation from the grade cross­
ing protective fund for installation purposes in any bien­
nium shall be reduced as provided in this section as a
result of the installation of grade crossing protective
devices on any highway, road or street on the federal aid
system: Provided further, That whenever the unobligated
balance in the grade crossing protective fund available
for the installation of grade crossing protective devices is
reduced to one hundred thousand dollars in any bien­
nium, the above provisions for reducing the appropria­
tion from said fund and the transfers back to the motor
vehicle fund shall be suspended and the one hundred
thousand dollars remaining in the grade crossing pro­
ective fund shall remain available for expenditure as au­
thorized by appropriation. At the time the commission
makes each allocation of cost to said grade crossing pro­
tective fund, it shall certify that such cost shall be pay­
able out of said fund. Upon completion of the
installation of any such signal or other protective device,
the railroad shall present its claim for reimbursement for
the cost of installation from said fund of the amount al­
located thereto by the commission. The annual cost of
maintenance shall be presented and paid in a like man­
ner. The commission is hereby authorized to recover ad­
ministrative costs from said fund in an amount not to
exceed three percent of the direct appropriation provided
for any biennium, and in the event administrative costs
exceed three percent of the appropriation, the excess
shall be chargeable to regulatory fees paid by railroads
pursuant to RCW 81.24.010. [1975 1st ex.s. c 189 § 2;
1973 c 115 § 4; 1969 c 134 § 3.]

81.53.291 Crossing signals, warning devices—Op­
erational scope—Election by first class cities, pro­
cedure. RCW 81.53.261 through 81.53.291 shall be
operative within the limits of all cities, towns and coun­
ties, except cities of the first class. Cities of the first
class may elect as to each particular crossing whether
RCW 81.53.261 through 81.53.291 shall apply. Such
election shall be made by the filing by such city of a pe­
tition as provided for in RCW 81.53.261 with the utili­
ties and transportation commission, or by a statement
filed with the commission accepting jurisdiction, when
such petition is filed by others. [1969 c 134 § 4.]

81.53.295 Crossing signals, warning devices, etc.—
Federal funds used to pay installation costs—State
and local authority to pay remaining installation costs—
Railroad to pay maintenance costs—Apportionment.
Whenever federal funds are available and are used to
pay a portion of the cost of installing a grade crossing
protective device at a railroad crossing of any state
highway, city or town street, or county road at the then
prevailing federal aid matching rate, the state or local
authority having jurisdiction of such highway, street, or
road shall pay the remaining cost of such installation.
The railroad whose road is crossed by the highway,
street, or road shall thereafter pay the entire cost of
maintaining the device: Provided, That if such device is
installed at the direction of the commission pursuant to
RCW 81.53.271 and results in a reduction in the
amount of the appropriation to the grade crossing pro­
tective fund pursuant to RCW 81.53.281, then the cost
of maintaining the device shall be apportioned by the
commission:

(1) Twenty-five percent to the grade crossing pro­
tective fund, created by RCW 81.53.281, and

(2) Seventy-five percent to the railroad. [1975 1st
ex.s. c 189 § 3.]
81.53.400 Traffic control devices during construction, repair, etc. of crossing or overpass—Required. Whenever any railroad company engages in the construction, maintenance, or repair of a crossing or overpass, the company shall install and maintain traffic control devices adequate to protect the public and railroad employees, subject to the requirements of RCW 81.53.410 and 81.53.420. [1977 ex.s. c 168 § 1.]

81.53.410 Traffic control devices during construction, repair, etc. of crossing or overpass—Standards and conditions. All traffic control devices used under RCW 81.53.400 shall be subject to the following conditions:

(1) Any traffic control devices shall be used at a repair or construction site only so long as the devices are needed or applicable. Any devices that are no longer needed or applicable shall be removed or inactivated so as to prevent confusion;

(2) All barricades, signs, and similar devices shall be constructed and installed in a workmanlike manner;

(3) Bushes, weeds, or any other material or object shall not be allowed to obscure any traffic control devices;

(4) All signs, barricades, and other control devices intended for use during hours of darkness shall be adequately illuminated or reflectorized, with precautions taken to protect motorists from glare; and

(5) Flagpersons shall be provided where necessary to adequately protect the public and railroad employees. The flagpersons shall be responsible and competent and possess at least average intelligence, vision, and hearing. They shall be neat in appearance and courteous to the public. [1977 ex.s. c 168 § 2.]

81.53.420 Traffic control devices during construction, repair, etc. of crossing or overpass—Rules. The utilities and transportation commission shall adopt rules to implement the provisions of RCW 81.53.400 and 81.53.410 pursuant to chapter 34.04 RCW. The commission shall invite the participation of all interested parties in any hearings or proceedings taken under this section, including any parties who request notice of any proceedings.

Any rules adopted under this section and any devices employed under RCW 81.53.410 shall conform to the national standards established by the current manual, including any future revisions, on the Uniform Traffic Control Devices as approved by the American National Standards Institute as adopted by the federal highway administrator of the United States department of transportation.

Rules adopted by the commission shall specifically prescribe the duties, procedures, and equipment to be used by the flagpersons required by RCW 81.53.410.

RCW 81.53.400 through 81.53.420 and rules adopted thereunder shall be enforced by the commission under the provisions of chapter 81.04 RCW: Provided, That rules adopted by the commission shall recognize that cities with a population in excess of four hundred thousand are responsible for specific public thoroughfares and have the specific responsibility and authority for determining the practices relating to safeguarding the public during construction, repair, and maintenance activities. [1977 ex.s. c 168 § 3.]

81.53.900 Effective date—1975 1st ex.s. c 189. This 1975 amendatory act is necessary for the immediate preservation of the public peace, health, and safety, the support of the state government and its existing public institutions, and shall take effect July 1, 1975. [1975 1st ex.s. c 189 § 4.]

81.54.010 Definitions. The term "grade crossing" when used in this chapter means any point or place where a logging or industrial railroad crosses a highway or a highway crosses such railroad or such railroad crosses any other railroad, at a common grade.

The term "over—crossing" when used in this chapter means any point or place where a highway crosses a railroad by passing above the same.

The term "under—crossing" when used in this chapter means any point or place where a highway crosses a railroad by passing under the same.

The term "over—crossing" or "under—crossing" shall also mean any point or place where one railroad crosses another railroad not at grade.

The term "logging" or "industrial" railroad when used in this chapter shall include every railroad owned or operated primarily for the purpose of carrying the property of its owners or operators or a limited class of persons, with all tracks, spurs and sidings used in connection therewith. 81.54.020 Annual inspection of industrial crossings. All grade crossings, under-crossings and over-crossings on the line of every logging and other industrial railway as herein defined shall be inspected annually by the commission as to condition, also maintenance, and safety in the interest of the public, for the purpose that the commission may, if it shall deem it necessary, require such improvements, changes and repairs as in its judgment are proper to the end that adequate safety shall be provided for the public. The commission shall, by order, fix the exact fee based on the cost of rendering such inspection service. All fees collected shall be deposited in the state treasury to the credit of the public service revolving fund. Intersections having one or more tracks shall be treated as a single crossing. Tracks separated a distance in excess of one hundred feet from the nearest track or group of tracks shall constitute an additional crossing. Where two or more independently operated railroads cross each other or the same highway intersection, each independent track shall constitute a separate crossing.

Every person failing to make the report and pay the fees required, shall be guilty of a misdemeanor and in addition be subject to a penalty of twenty-five dollars for each day that the fee remains unpaid after it becomes due. 81.70.120 Unlawful to operate after cancellation, etc.—New certificate. After the cancellation or revocation of a certificate or during the period of its suspension, it shall be unlawful for a charter party carrier of passengers to conduct any operations as such a carrier. The commission may either grant or deny an application for a new certificate whenever it appears that a prior certificate of the applicant has been canceled or revoked pursuant to RCW 81.70.110 or whenever it appears after hearing that as a prior certificate holder the applicant engaged in any unlawful activity set forth in RCW 81.70.110 for which his certificate might have been canceled or revoked. [1969 c 132 § 11; 1965 c 150 § 13.]

81.70.130 Regulatory power. To the extent that such is not inconsistent with the provisions of this chapter, the commission may supervise and regulate every charter party carrier of passengers in the state and may do all things specifically designated in this chapter which are necessary and convenient in the exercise of such power and jurisdiction. [1969 c 132 § 12; 1965 c 150 § 14.]

81.70.140 Applicability of orders, rules, and regulations pertaining to auto transportation companies. To the extent that such are not inconsistent with the provisions of this chapter, all general orders, and rules and regulations applicable to the operation of auto transportation companies under authority of certificates of public convenience and necessity issued pursuant to the provisions of RCW 81.68.010 through 81.68.090, unless otherwise ordered by the commission, shall apply to charter party carriers of passengers. [1965 c 150 § 15.]

81.70.150 Assurance of protection against liability. The commission in granting certificates pursuant to this chapter require charter party carriers of passengers to procure and continue in effect during the life of the certificate adequate protection against liability imposed by law upon the charter party carrier of passengers for the payment of damages for personal bodily injuries including death resulting therefrom, protection against a total liability of the charter party carrier of passengers on account of bodily injuries to or death of one or more persons as a result of any one accident and protection against damage or destruction of property. The minimum requirements for such assurance of protection against liability shall not be less than the requirements which are applicable to operations conducted under certificates of public convenience and necessity issued pursuant to auto transportation companies and the rules and regulations prescribed pursuant thereto shall apply to charter party carriers of passengers. TRANSPORTATION CENTERS

81.75.010 Authorization to own and operate—Purpose.
81.75.020 Method of acquisition and operation prescribed—Grants—Consolidation of activities.
81.75.030 Services available—Terms of usage.
81.75.900 Severability—1977 ex.s. c 217.

81.75.010 Authorization to own and operate—Purpose. It is desirable to a transportation system that convenient and comfortable terminals be established and maintained with the services of all modes of public transportation available to the public at such a center to the extent feasible. It is proper that cities, towns, counties, public transportation benefit area authorities, and municipal corporations of this state be authorized to own and operate transportation centers. [1977 ex.s. c 217 § 1.]

81.75.020 Method of acquisition and operation prescribed—Grants—Consolidation of activities. Through its council or other legislative body, any city, town, county, public transportation benefit area authority, or other municipal corporation, authorized to operate public transportation services, may construct or otherwise acquire intermodal transportation centers by donation, lease, or purchase and may operate or let for purposes of leasing space at fair market value for the services set forth in RCW 81.75.030, and to perform other functions permitted by law, the centers or portions of the centers, for public or private purposes or for compensation or rental upon such conditions as its council or other legislative body shall from time to time prescribe. The city, town, county, public transportation benefit area authority, or municipal corporation, may apply for and receive grants from the federal government for purposes of funding a transportation center and may consolidate a transportation center with other lawful city or town activities. [1977 ex.s. c 217 § 2.]

81.75.030 Services available—Terms of usage. To the extent feasible, the services available to the public at any transportation center may include taxi, auto rental, passenger trains, motor buses, travel agents, restrooms,

food, telegraph, baggage handling, transfer and delivery of light freight and packages, commercial airlines, air charter, place of temporary rest for citizens and travelers (but not overnight), mail, private auto parking for users of public transportation through the transportation center, local transit, limousine, and any other use necessary to the foregoing.

Any city, town, county, public transportation benefit area authority, or municipal corporation, which elects to operate a transportation center shall operate the center for the general public good. The operator may establish the terms of usage for the various modes of transportation and for others that utilize its facilities, may make reasonable rules concerning public and private use, and may exclude all persons therefrom who refuse to comply with the terms or rules of use. The operator may own, operate, maintain, and manage a transportation center, but shall not engage in providing a transportation or other related service at the center unless otherwise authorized by law. [1977 ex.s. c 217 § 3.]

81.75.900    Severability—1977 ex.s. c 217. If any provision of this act, or its application to any person or circumstance is held invalid, the remainder of the act, or the application of the provision to other persons or circumstances is not affected. [1977 ex.s. c 217 § 5.]

81.77.010 Definitions. As used in this chapter:

2) "Public highway" means every street, road, or highway in this state;

3) "Common carrier" means any person who undertakes to transport garbage and refuse, for the collection and/or disposal thereof, by motor vehicle for compensation, whether over regular or irregular routes, or regular or irregular schedules;

4) "Contract carrier" means all garbage and refuse transporters not included under the terms "common carrier" and "private carrier," as herein defined, and further, shall include any person who under special and individual contracts or agreements transports garbage and refuse by motor vehicle for compensation;

5) "Private carrier" means a person who, in his own vehicle, transports garbage or refuse purely as an incidental adjunct to some other established private business owned or operated by him in good faith;

6) "Vehicle" means every device capable of being moved upon a public highway and in, upon, or by which any garbage or refuse is or may be transported or drawn upon a public highway, excepting devices moved by human or animal power or used exclusively upon stationary rail or tracks;

7) "Garbage and refuse collection company" means every person or his lessees, receivers, or trustees, owning, controlling, operating or managing vehicles used in the business of transporting garbage and refuse for collection and/or disposal for compensation, except septic tank pumpers, over any public highway in this state whether as a "common carrier" thereof or as a "contract carrier" thereof. [1961 c 295 § 2.]

81.77.015 Construction of phrase "garbage and refuse." Whenever in this chapter the phrase "garbage and refuse" is used as a qualifying phrase or otherwise it shall be construed as meaning "garbage and/or refuse." [1965 ex.s. c 105 § 5.]

81.77.020 Compliance with chapter required—Exemption for cities and contracts therewith. No person, his lessees, receivers, or trustees, shall engage in the business of operating as a garbage and refuse collection company in this state, except in accordance with the provisions of this chapter: Provided, That the provisions of this chapter shall not apply to the operations of any garbage and refuse collection company under a contract of garbage or refuse disposal with any city or town, nor to any city or town which itself undertakes the disposal of garbage or refuse. [1961 c 295 § 3.]

81.77.030 Supervision and regulation by commission. The commission shall supervise and regulate every garbage and refuse collection company in this state,

1) By fixing and altering its rates, charges, classifications, rules and regulations;

2) By regulating the accounts, service, and safety of operations;

3) By requiring the filing of annual and other reports and data;

4) By supervising and regulating such persons or companies in all other matters affecting the relationship between them and the public which they serve.

The commission, on complaint made on its own motion or by an aggrieved party, at any time, after the holding of a hearing of which the holder of any certificate has had notice and an opportunity to be heard, and at which it shall be proven that the holder has willfully violated or refused to observe any of the commission's orders, rules, or regulations, or has failed to operate as a
garbage and refuse collection company for a period of at least one year preceding the filing of the complaint, may suspend, revoke, alter, or amend any certificate issued under the provisions of this chapter. [1965 ex.s. c 105 § 1; 1961 c 295 § 4.]

81.77.040 Certificate of convenience and necessity—Existing companies. No garbage and refuse collection company shall hereafter operate for the hauling of garbage and refuse for compensation without first having obtained from the commission a certificate declaring that public convenience and necessity require such operation.

Issuance of the certificate of necessity shall be determined upon, but not limited to, the following factors:

- The present service and the cost thereof for the contemplated area to be served;
- An estimate of the cost of the facilities to be utilized in the plant for garbage and refuse collection and disposal, sworn to before a notary public;
- A statement of the assets on hand of the person, firm, association or corporation which will be expended on the purported plant for garbage and refuse collection and disposal, sworn to before a notary public;
- A statement of prior experience, if any, in such field by the petitioner, sworn to before a notary public; and sentiment in the community contemplated to be served as to the necessity for such a service.

When an applicant requests a certificate to operate in a territory already served by a certificate holder under this chapter, the commission may, after hearing, issue the certificate only if the existing garbage and refuse collection company or companies serving the territory will not provide service to the satisfaction of the commission.

In all other cases, the commission may, with or without hearing, issue certificates, or for good cause shown refuse to issue them, or issue them for the partial exercise only of the privilege sought, and may attach to the exercise of the rights granted such terms and conditions as, in its judgment, the public convenience and necessity may require.

Any right, privilege, certificate held, owned, or obtained by a garbage and refuse collection company may be sold, assigned, leased, transferred, or inherited as other property, but only upon authorization by the commission.

Any garbage and refuse collection company which upon July 1, 1961 is operating under authority of a common carrier or contract carrier permit issued under the provisions of chapter 81.80 RCW shall be granted a certificate of necessity without hearing upon compliance with the provisions of this chapter. Such garbage and refuse collection company which has paid the plate fee and gross weight fees required by chapter 81.80 RCW for the year 1961 shall not be required to pay additional like fees under the provisions of this chapter for the remainder of such year. [1961 c 295 § 5.]

81.77.050 Filing fees. Any application for a certificate of public convenience and necessity or amendment thereof, or application to sell, lease, mortgage, or transfer a certificate of public convenience and necessity or any interest therein, shall be accompanied by such filing fee as the commission may prescribe by rule: Provided, That such fee shall not exceed two hundred dollars. [1973 c 115 § 9; 1961 c 295 § 6.]

81.77.060 Liability and property damage insurance—Surety bond. The commission, in granting certificates to operate a garbage and refuse collection company, shall require the owner or operator to first procure liability and property damage insurance from a company licensed to make liability insurance in the state or a surety bond of a company licensed to write surety bonds in the state, on each motor propelled vehicle used or to be used in transporting garbage or refuse for compensation in the amount of not less than twenty-five thousand dollars for any recovery for personal injury by one person, and not less than ten thousand dollars and in such additional amount as the commission shall determine, for all persons receiving personal injury by reason of one act of negligence, and not less than ten thousand dollars for damage to property of any person other than the assured, and to maintain such liability and property damage insurance or surety bond in force on each motor propelled vehicle while so used. Each policy for liability or property damage insurance or surety bond required herein shall be filed with the commission and kept in full force and effect and failure so to do shall be cause for revocation of the delinquent's certificate. [1961 c 295 § 7.]

81.77.070 Public service company law invoked. In all respects in which the commission has power and authority under this chapter, applications and complaints may be made and filed with it, process issued, hearings held, opinions, orders and decisions made and filed, petitions for rehearing filed and acted upon, and petitions for writs of review, to the superior court filed therewith, appeals or mandate filed with the supreme court of this state, considered and disposed of by said courts in the manner, under the conditions, and subject to the limitations, and with the effect specified in this title for public service companies generally. [1961 c 295 § 8.]

81.77.080 Companies to file reports of gross operating revenue and pay fees—Legislative intent—Disposition of revenue. Every garbage and refuse collection company shall, on or before the 1st day of April of each year, file with the commission a statement on oath showing its gross operating revenue from intrastate operations for the preceding calendar year, or portion thereof, and pay to the commission a fee equal to eight-tenths of one percent of the amount of gross operating revenue: Provided, That the fee shall in no case be less than one dollar.

It is the intent of the legislature that the fees collected under the provisions of this chapter shall reasonably approximate the cost of supervising and regulating motor carriers subject thereto, and to that end the utilities and transportation commission is authorized to decrease the schedule of fees provided in this section by general order entered before March 1st of any year in which it determines that the moneys then in the garbage and refuse

collection companies account of the public service revolving fund and the fees currently to be paid will exceed the reasonable cost of supervising and regulating such carriers.

All fees collected under this section or under any other provision of this chapter shall be paid to the commission and shall be by it transmitted to the state treasurer within thirty days to be deposited to the credit of the public service revolving fund. [1971 ex.s.c 143 § 3; 1969 ex.s.c 210 § 11; 1963 c 59 § 12; 1961 c 295 § 9.]

Section 81.80.090 Penalty. Every person who violates or fails to comply with, or who procures, aids, or abets in the violation of any provisions of this chapter, or who fails to obey, or comply with any order, decision, rule, regulation, direction, demand, or requirement of the commission, or any part or provision thereof, is guilty of a gross misdemeanor. [1961 c 295 § 10.]

Section 81.80.100 Scope of chapter with respect to foreign or interstate commerce. Neither this chapter nor any provision thereof shall apply, or be construed to apply, to commerce with foreign nations or commerce among the several states except insofar as the same may be permitted under the provisions of the Constitution of the United States and the acts of congress. [1961 c 295 § 11.]

Section 81.80.110 Temporary certificates. The commission may or without a hearing issue temporary certificates to engage in the business of operating a garbage and refuse collection company, but only after it finds that the issuance of such temporary certificate is consistent with the public interest. Such temporary certificate may be issued for a period up to one hundred eighty days where the area or territory covered thereby is not contained in the certificate of any other garbage and refuse collection company. In all other cases such temporary certificate may be issued for a period not to exceed one hundred twenty days. The commission may prescribe such special rules and regulations and impose such special terms and conditions with reference thereto as in its judgment are reasonable and necessary in carrying out the provisions of this chapter. The commission shall collect a fee of twenty-five dollars for an application for such temporary certificate. [1965 ex.s.c 105 § 2.]

Section 81.80.010 Definitions. When used in this chapter:
(1) "Person" means and includes an individual, firm, copartnership, corporation, company, association or their lessees, trustees or receivers.
(2) "Motor vehicle" means any truck, trailer, semitrailer, tractor, dump truck which uses a hydraulic or mechanical device to dump or discharge its load or any self-propelled or motor driven vehicle used upon any public highway of this state for the purpose of transporting property, but not including baggage, mail and express transported on the vehicles of auto transportation companies carrying passengers.
(3) "Public highway" means every street, road or highway in this state.
(4) "Common carrier" means any person who undertakes to transport property for the general public by
motor vehicle for compensation, whether over regular or irregular routes, or regular or irregular schedules, including motor vehicle operations of other carriers by rail or water and of express or forwarding companies.

(5) "Contract carrier" shall include all motor vehicle operators not included under the terms "common carrier" and "private carrier" as herein defined in paragraphs (4) and (6), and further shall include any person who under special and individual contracts or agreements transports property by motor vehicle for compensation.

(6) A "private carrier" is a person who transports by his own motor vehicle, with or without compensation therefor, property which is owned or is being bought or sold by such person, or property of which such person is the seller, purchaser, lessee or bailee where such transportation is incidental to and in furtherance of some other primary business conducted by such person in good faith.

(7) "Motor carrier" means and includes "common carrier," "contract carrier," "private carrier" and "exempt carrier" as herein defined.

(8) "Exempt carrier" means any person operating a vehicle exempted from certain provisions of this chapter under RCW 81.80.040.

(9) "Vehicle" means every device capable of being moved upon a public highway and in, upon or by which any person or property is or may be transported or drawn upon a public highway, excepting devices moved by human or animal power or used exclusively upon stationary rail or tracks.

"Common carrier" and "contract carrier" shall include persons engaged in the business of providing, contracting for, or undertaking to provide transportation of property for compensation over the public highways of the state of Washington as brokers or forwarders. [1967 c 69 § 1; 1961 c 14 § 81.80.010. Prior: 1937 c 166 § 2; 1935 c 184 § 2; RRS § 6382–2.]

Severability—1967 c 69: "If any provision of this act, or its application to any person or circumstance is held invalid, the remainder of the act, or the application of the provision to other persons or circumstances is not affected." [1967 c 69 § 4.]

81.80.020 Declaration of policy. The business of operating as a motor carrier of freight for compensation along the highways of this state is declared to be a business affected with a public interest. The rapid increase of motor carrier freight traffic and the fact that under the existing law many motor trucks are not effectively regulated have increased the dangers and hazards on public highways and make it imperative that more complete regulation should be employed to the end that the highways may be rendered safer for the use of the general public; that the wear of such highways may be reduced; that congestion on highways may be minimized; that the shippers of the state may be provided with a stabilized service and rate structure; that sound economic conditions in such transportation and among such carriers may be preserved in the public interest; that adequate, economical, and efficient service by motor carriers, and reasonable charges therefor, without unjust discrimination, undue preferences or advantages, or unfair or destructive competitive practices may be promoted; that the common carriage of commodities by motor carrier may be preserved in the public interest; that the relations between, and transportation by and regulation of, motor carriers and other carriers may be improved and coordinated so that the highways of the state of Washington may be properly developed and preserved, and the public may be assured adequate, complete, dependable and stable transportation service in all its phases. [1961 c 14 § 81.80.020. Prior: 1937 c 166 § 1; 1935 c 184 § 1; RRS § 6382–1.]

81.80.030 Hidden transportation charges. Operators of motor vehicles excluded from the term "private carrier," other than "common carriers" shall not be compelled to dedicate their property to the business of public transportation and subject themselves to all the duties and burdens imposed by this chapter upon "common carriers," but where they recover the cost of transportation through price differentials or in any other direct or indirect manner and such transportation cost recovery unreasonably endangers the stability of rates and the essential transportation service involving the movement of commodities over the same route or routes by other types of carriage, then such transportation costs, attempted to be recovered, shall not be less than the rate, fare or charge regularly established by the department for such transportation service if given by other types of carriers, it being the intention of the legislature to foster a stable rate structure free of discriminations for the shippers of the state of Washington. [1961 c 14 § 81.80.030. Prior: 1937 c 166 § 3; RRS § 6382–2a.]

81.80.040 Exempt vehicles. The provisions of this chapter, except where specifically otherwise provided, and except the provisions providing for licenses, shall not apply to:

1. Motor vehicles when operated in transportation exclusively within the corporate limits of any city or town of less than ten thousand population unless contiguous to a city or town of ten thousand population or over, nor between contiguous cities or towns both or all of which are less than ten thousand population;

2. Motor vehicles when operated in transportation wholly within the corporate limits of cities or towns of ten thousand or more but less than thirty thousand population, or between such cities or towns when contiguous, as to which the commission, after investigation and the issuance of an order thereon, has determined that no substantial public interest exists which requires that such transportation be subject to regulation under this chapter;

3. Motor vehicles when transporting exclusively the United States mail or in the transportation of newspapers or periodicals;

4. Motor vehicles owned and operated by the United States, the state of Washington, or any county, city, town, or municipality therein, or by any department of them, or either of them;

[Title 81 RCW (1979 Ed.)—p 65]
(5) Motor vehicles specially constructed for towing disabled vehicles or wrecking and not otherwise used in transporting goods for compensation;

(6) Motor vehicles normally owned and operated by farmers in the transportation of their own farm, orchard, or dairy products, including livestock and plant or animal wastes, from point of production to market, or in the infrequent or seasonal transportation by one farmer for another farmer, if their farms are located within twenty miles of each other, of products of the farm, orchard, or dairy, including livestock and plant or animal wastes, or of supplies or commodities to be used on the farm, orchard, or dairy;

(7) Motor vehicles when transporting exclusively water in connection with construction projects only. [1979 1st ex.s. c 6 § 1; 1963 c 59 § 7; 1961 c 14 § 81.80.040. Prior: 1957 c 205 § 4; 1949 c 133 § 1; 1947 c 263 § 1; 1937 c 166 § 4; 1935 c 184 § 3; Rem. Supp. 1949 § 6382-3.]

81.80.045 Exemption—Freight consolidators. (1) Except as provided in subsections (2) and (3) of this section, the provisions of this chapter shall not apply to the operations of a shipper or a group or association of shippers in consolidating or distributing freight for themselves or for their members on a nonprofit basis for the purpose of securing the benefits of carload, truckload, or other volume rates, when the services of a common carrier are used for the transportation of such shipments.

(2) Every shipper or group or association of shippers claiming this exemption shall file with the commission on an annual basis a statement of nonprofit status and such proof of that status as the commission may by rule require.

(3) The commission may examine the books and records of any shipper or group or association of shippers claiming exemption under this section solely for the purpose of investigating violations of this section. [1979 1st ex.s. c 138 § 1.]

81.80.050 Compliance required. It shall be unlawful for any person to operate as a "motor carrier" on any public highway of this state except in accordance with the provisions of this chapter. [1961 c 14 § 81.80.050. Prior: 1935 c 184 § 4; RRS § 6382-4.]

81.80.060 Combination of services. Every person who engages for compensation to perform a combination of services a substantial portion of which includes transportation of property of others upon the public highways shall be subject to the jurisdiction of the commission as to such transportation and shall not engage upon the same without first having obtained a common carrier or contract carrier permit to do so. An example of such a combination of services shall include, but not be limited to, the delivery of household appliances for others where the delivering carrier also unpacks or uncrates the appliances and makes the initial installation thereof. Every person engaging in such a combination of services shall advise the commission what portion of the consideration is intended to cover the transportation service and if the agreement covering the combination of services is in writing, the rate and charge for such transportation shall be set forth therein. The rates or charges for the transportation services included in such combination of services shall be subject to control and regulation by the commission in the same manner that the rates of common and contract carriers are now controlled and regulated. Any person engaged in extracting and/or processing and, in connection therewith, hauling materials exclusively for the maintenance, construction or improvement of a public highway shall not be deemed to be performing a combination of services. [1969 ex.s. c 210 § 17; 1969 c 33 § 1. Prior: 1967 ex.s. c 145 § 77; 1967 c 69 § 2; 1965 ex.s. c 170 § 40; 1961 c 14 § 81.80.060; prior: 1937 c 166 § 5; RRS § 6382-4a.]

Severability—1967 c 69: See note following RCW 81.80.010.

81.80.070 Grant or denial of permit. No "common carrier," "contract carrier," or "temporary carrier" shall operate for the transportation of property for compensation in this state without first obtaining from the commission a permit so to do. Permits heretofore issued or hereafter issued to any carrier, shall be exercised by said carrier to the fullest extent so as to render reasonable service to the public. Applications for common or contract carrier permits or extensions thereof shall be on file for a period of at least thirty days prior to the granting thereof unless the commission finds that special conditions require the earlier granting thereof.

A permit or extension thereof shall be issued to any qualified applicant therefor, authorizing the whole or any part of the operations covered by the application, if it is found that the applicant is fit, willing, and able properly to perform the services proposed and conform to the provisions of this chapter and the requirements, rules and regulations of the commission thereunder, and that such operations will be consistent with the public interest, and, in the case of common carriers, that the same are or will be required by the present or future public convenience and necessity, otherwise such application shall be denied.

Nothing contained in this chapter shall be construed to confer upon any person or persons the exclusive right or privilege of transporting property for compensation over the public highways of the state. [1963 c 242 § 1; 1961 c 14 § 81.80.070. Prior: 1953 c 95 § 17; 1947 c 264 § 2; 1941 c 163 § 1; 1937 c 166 § 4; 1935 c 184 § 5; Rem. Supp. 1947 § 6382-5.]

81.80.080 Application for permit. Application for permits shall be made to the commission in writing and shall state the ownership, financial condition, equipment to be used and physical property of the applicant, the territory or route or routes in or over which the applicant proposes to operate, the nature of the transportation to be engaged in and such other information as the commission may require, and in case such application is that of a "contract carrier" shall have attached thereto the original or duly verified copies of all contracts to furnish transportation covered by such application. [1961 c 14 § 81.80.080. Prior: 1935 c 184 § 6; RRS § 6382-6.]
**81.80.090 Form of application—Filing fees.** The commission shall prescribe forms of application for permits and for extensions thereof for the use of prospective applicants, and for transfer of permits and for acquisition of control of carriers holding permits, and shall make regulations for the filing thereof. Any such application shall be accompanied by such filing fee as the commission may prescribe by rule:  
*Provided,* That such fee shall not exceed two hundred dollars. [1973 c 115 § 10; 1961 c 14 § 81.80.090. Prior: 1941 c 163 § 2; 1937 c 166 § 7; 1935 c 184 § 7; RRS § 6382–7.]

**81.80.100 Form and contents of permit.** Permits granted by the commission shall be in such form as the commission shall prescribe and shall set forth the name and address of the person to whom the permit is granted, the nature of the transportation service to be engaged in and the principal place of operation, termini or route to be used or territory to be served by the operation. No permit holder shall operate except in accordance with the permit issued to him. [1961 c 14 § 81.80.100. Prior: 1935 c 194 § 8; RRS § 6382–8.]

**81.80.110 Limitation on renewal of application.** No person whose application for a permit has been denied after hearing under any of the provisions of this chapter shall be eligible to renew the application for a period of six months from the date of the order denying such application. [1961 c 14 § 81.80.110. Prior: 1947 c 264 § 3; 1935 c 184 § 9; Rem. Supp. 1947 § 6382–9.]

**81.80.120 Classification of carriers.** The commission may from time to time establish such just and reasonable classifications of the groups of carriers included in the terms "common carriers" and "contract carriers" as the special nature of the services performed by such carriers shall require, and such just and reasonable rules, regulations and requirements, consistent with the provisions of this chapter, to be observed by the carriers so classified or grouped, as the commission deems necessary or advisable in the public interest. [1961 c 14 § 81.80.120. Prior: 1937 c 166 § 8; 1935 c 184 § 10; RRS § 6382–10.]

**81.80.130 Regulatory power of commission over common carriers.** The commission shall supervise and regulate every "common carrier" in this state; make, fix, alter, and amend, just, fair, reasonable, minimum, maximum, or minimum and maximum, rates, charges, classifications, rules, and regulations for all "common carriers"; regulate the accounts, service, and safety of operations thereof; require the filing of reports and other data thereof; and supervise and regulate all "common carriers" in all other matters affecting their relationship with competing carriers of every kind and the shipping and general public:  
*Provided,* The commission may by order approve rates filed by common carriers in respect to certain designated commodities and services when, in the opinion of the commission, it is impractical for the commission to make, fix, or prescribe rates covering such commodities and services. [1961 c 14 § 81.80.130. Prior: 1957 c 205 § 5; 1937 c 166 § 9; 1935 c 184 § 11; RRS § 6382–11.]

**81.80.140 Regulatory power over contract carriers.** The commission is hereby vested with power and authority, and it is hereby made its duty, to supervise and regulate every "contract carrier" in this state; to fix, alter and amend, just, fair and reasonable classifications, rules and regulations and minimum rates and charges of each such "contract carrier"; to regulate the account, service and safety of operations thereof; and require the filing of reports and of other data thereof; and to supervise and regulate such "contract carriers" in all other matters affecting their relationship with both the shipping and the general public. [1961 c 14 § 81.80.140. Prior: 1937 c 166 § 11; 1935 c 184 § 12; RRS § 6382–12.]

**81.80.150 Tariffs to be compiled and sold by commission.** The commission shall make, fix, construct, compile, promulgate, publish, and distribute tariffs containing compilations of rates, charges, classifications, rules and regulations to be used by all common carriers. In compiling such tariffs it shall include within any given tariff compilation such carriers, groups of carriers, commodities, or geographical areas as it determines shall be in the public interest. Such compilations and publications may be made by the commission by compiling the rates, charges, classifications, rules, and regulations now in effect, and as they may be amended and altered from time to time after notice and hearing, by issuing and distributing revised pages or supplements to such tariffs or reissues thereof in accordance with the orders of the commission:  
*Provided,* That the commission, upon good cause shown, may establish temporary rates, charges, or classification changes which may be made permanent only after publication in an applicable tariff for not less than sixty days, and determination by the commission thereafter that the rates, charges or classifications are just, fair and reasonable:  
*Provided further,* That temporary rates shall not be made permanent except upon notice and hearing if within sixty days from date of publication, a shipper or common carrier, or representative of either, shall file with the commission a protest alleging such temporary rates to be unjust, unfair or unreasonable. For purposes of this proviso, the publication of temporary rates in the tariff shall be deemed adequate public notice. Nothing herein shall be construed to prevent the commission from proceeding on its own motion, upon notice and hearing, to fix and determine just, fair and reasonable rates, charges and classifications. The proper tariff, or tariffs, applicable to a carrier’s operations shall be available to the public at each agency and office of all common carriers operating within this state. Such compilations and publications shall be sold by the commission for not to exceed ten dollars for each tariff. Corrections to such publications shall be furnished to all subscribers to tariffs in the form of corrected pages to the tariffs, supplements or reissues thereof. In addition to the initial charge for each tariff, the commission shall charge an annual maintenance fee of not to exceed ten dollars per tariff to cover the cost of issuing [Title 81 RCW (1979 Ed.)—p 67]
corrections or supplements and mailing them to subscribers: Provided, That copies may be furnished free to other regulatory bodies and departments of government and to colleges, schools, and libraries. All copies of the compilations, whether sold or given free, shall be issued and distributed under rules and regulations to be fixed by the commission. Provided further, That the commission may by order authorize common carriers to publish and file tariffs with the commission and be governed thereby in respect to certain designated commodities and services when, in the opinion of the commission, it is impractical for the commission to make, fix, construct, compile, publish and distribute tariffs covering such commodities and services. [1973 c 115 § 11; 1961 c 14 § 81.80.150. Prior: 1959 c 248 § 5; 1957 c 205 § 6; 1947 c 264 § 4; 1941 c 163 § 3; 1937 c 166 § 10; Rem. Supp. 1947 § 6382-11a.]

81.80.170 Temporary permits. The commission may issue temporary permits to temporary "common carriers" or "contract carriers" for a period not to exceed one hundred eighty days, but only after it finds that the issuance of such temporary permits is consistent with the public interest. It may prescribe such special rules and regulations and impose such special terms and conditions with reference thereto as in its judgment are reasonable and necessary in carrying out the provisions of this chapter.

The commission may also issue temporary permits pending the determination of an application filed with the commission for approval of a consolidation or merger of the properties of two or more common carriers or contract carriers or of a purchase or lease of one or more common carriers or contract carriers. [1963 c 242 § 2; 1961 c 14 § 81.80.170. Prior: 1953 c 95 § 18; 1947 c 264 § 5; 1937 c 166 § 12; 1935 c 184 § 14; Rem. Supp. 1947 § 6382-14.]

81.80.175 Permits for farm to market hauling. A permit or extension thereof for hauling unprocessed or unmanufactured agricultural commodities and livestock for a distance not to exceed eighty miles from the point of production to primary markets shall be issued to any qualified applicant therefor, authorizing the whole or part of the operations covered by the application, if it is found that the applicant is fit, willing, and able properly to perform the services proposed and conform to the provisions of this chapter and the requirements, rules and regulations of the commission thereunder, and that such operations will be consistent with the public interest. [1963 c 242 § 5.]

81.80.190 Insurance or deposit of security. The commission shall in the granting of permits to "common carriers" and "contract carriers" under this chapter require such carriers to either procure and file liability and property damage insurance from a company licensed to write such insurance in the state of Washington, or deposit such security, for such limits of liability and upon such terms and conditions as the commission shall determine to be necessary for the reasonable protection of the public against damage and injury for which such carrier may be liable by reason of the operation of any motor vehicle.

In fixing the amount of said insurance policy or policies, or deposit of security, the commission shall give due consideration to the character and amount of traffic and the number of persons affected and the degree of danger which the proposed operation involves. [1961 c 14 § 81.80.190. Prior: 1935 c 184 § 16; RRS § 6382-16.]

81.80.200 Conditions may be attached to permits. The commission is hereby vested with power and authority in issuing permits to any of the carriers classified in accordance with RCW 81.80.120 to attach thereto such terms and conditions and to require such insurance or security as it may deem necessary for the protection of the public highways and to be for the best interest of the shipping and the general public. All such regulations and conditions shall be deemed temporary and may be revoked by the commission upon recommendation of the state or county authorities in charge of highway maintenance or safety when in the judgment of such authorities such revocation is required in order to protect the public or preserve the public highways. [1961 c 14 § 81.80.200. Prior: 1937 c 166 § 14; 1935 c 184 § 17; RRS § 6382-17.]

81.80.211 Hours of operators—Rules and regulations. The commission may adopt rules and regulations relating to the hours of duty of motor carrier drivers and operators. [1961 c 14 § 81.80.211. Prior: 1953 c 95 § 23.]

81.80.220 Tariff rates must be charged. No "common carrier" or "contract carrier" shall collect or receive a greater, less or different remuneration for the transportation of property or for any service in connection therewith than the rates and charges which shall have been legally established and filed with the commission, or as are specified in the contract or contracts filed, as the case may be, nor shall any such carrier refund or remit in any manner or by any device any portion of the rates and charges required to be collected by each tariff or contract or filing with the commission.

The commission may check the records of all carriers under this chapter and of those employing the services of the carrier for the purpose of discovering all discriminations, under or overcharges and rebates, and may suspend or revoke permits for violations of this section.

The commission may refuse to accept any time schedule or tariff or contract that will, in the opinion of the commission, limit the service of a carrier to profitable trips only or to the carrying of high class commodities in competition with other carriers who give a complete service and thus afford one carrier an unfair advantage over a competitor. [1961 c 14 § 81.80.220. Prior: 1937 c 166 § 16; 1935 c 184 § 19; RRS § 6382-19.]

81.80.230 Penalty for rebating. Any person, whether carrier subject to the provisions of this chapter, shipper, or consignee, or any officer, employee, agent, or representative thereof, who shall knowingly offer, grant, or give, or solicit, accept, or receive any rebate, concession,
or discrimination in violation of any provision of this chapter, or who by means of any false statement or representation, or by the use of any false or fictitious bill, bill of lading, receipt, voucher, roll, account, claim, certificate, affidavit, deposition, lease, or bill of sale, or by any other means or device shall knowingly and wilfully assist, suffer or permit any person or persons, natural or artificial, to obtain transportation of property subject to this chapter for less than the applicable rate, fare, or charge, or who shall knowingly and wilfully by any such means or otherwise fraudulently seek to evade or defeat regulation as in this chapter provided for motor carriers shall be deemed guilty of a gross misdemeanor. [1961 c 14 § 81.80.230. Prior: 1947 c 264 § 6; Rem. Supp. 1947 § 6382–19a.]

81.80.240 Joint through rates. The commission shall have power and authority to require a common carrier by motor vehicle, railroad, express or water to establish reasonable through rates with other common carriers by motor vehicle, railroad, express and water, and to provide safe and adequate service, equipment and facilities for the transportation of property; to establish and enforce just and reasonable individual and joint rates, charges and classifications, and just and reasonable regulations and practices relating thereto, and in case of such joint rates, fares and charges to establish just, reasonable and equitable divisions thereof as between the carriers participating therein, which shall not unduly prefer or prejudice any of such participating carriers. In ordering and establishing joint through rates between different types of carriers the commission shall give full effect to the lower cost of transportation of property by any type of carrier and shall reflect such lower cost by differentials under a through rate of the higher cost carrier. [1961 c 14 § 81.80.240. Prior: 1937 c 166 § 17; 1935 c 184 § 20; RRS § 6382–20.]

81.80.250 Bond to protect shippers and consignees. The commission may, under such rules and regulations as it shall prescribe, require any common carrier to file a surety bond, or deposit security, in a sum to be determined by the commission, to be conditioned upon such carrier making compensation to shippers and consignees for all money belonging to shippers and consignees, and coming into the possession of such carrier in connection with its transportation service. Any common carrier which may be required by law to compensate a shipper or consignee for any loss, damage or default for which a connecting common carrier is legally responsible shall be subrogated to the rights of such shipper or consignee under any such bond or deposit of security to the extent of the sum so paid. [1961 c 14 § 81.80.250. Prior: 1935 c 184 § 21; RRS § 6382–21.]

81.80.260 Operation in more than one class. It shall be unlawful for any person to operate any vehicle at the same time in more than one class of operation, except upon approval of the commission and a finding that such operation will be in the public interest.

No "exempt carrier" as such shall transport property for compensation except as hereinabove provided. [1967 c 69 § 3; 1961 c 14 § 81.80.260. Prior: 1935 c 184 § 22; RRS § 6382–22.]

Severability—1967 c 69: See note following RCW 81.80.010.

81.80.270 Transfer, assignment of permits—Acquisition of carrier holding permit, commission approval—Duties on cessation of operation. No permit issued under the authority of this chapter shall be construed to be irrevocable. Nor shall such permit be subject to transfer or assignment except upon a proper showing that property rights might be affected thereby, and then in the discretion of the commission.

No person, partnership or corporation, singly or in combination with any other person, partnership or corporation, whether a carrier holding a permit or otherwise, or any combination of such, shall acquire control or enter into any agreement or arrangement to acquire control of a common or contract carrier holding a permit through ownership of its stock or through purchase, lease or contract to manage the business, or otherwise except after and with the approval and authorization of the commission: Provided, That upon the dissolution of a partnership, which holds a permit, because of the death, bankruptcy, or withdrawal of a partner where such partner's interest is transferred to his spouse or to one or more remaining partners, or in the case of a corporation which holds a permit, in the case of the death of a shareholder where a shareholder's interest upon death is transferred to his spouse or to one or more of the remaining partners, or in the case of the dissolution of a corporation, the commission shall transfer the permit to the newly organized partnership which is substantially composed of the remaining partners, or continue the corporation's permit without making the proceeding subject to hearing and protest. In all other cases any such transaction either directly or indirectly entered into without approval of the commission shall be void and of no effect, and it shall be unlawful for any person seeking to acquire or divest control of such permit to be a party to any such transaction without approval of the commission.

Every carrier who shall cease operation and abandon his rights under the permits issued him shall notify the commission within thirty days of such cessation or abandonment, and return to the commission the identification cards issued to him. [1973 c 115 § 12; 1969 ex.s. c 210 § 12; 1965 ex.s. c 134 § 1; 1963 c 59 § 6; 1961 c 14 § 81.80.270. Prior: 1959 c 248 § 24; 1937 c 166 § 18; 1935 c 184 § 23; RRS § 6382–23.]

81.80.272 Transfer of decedent's interest—Temporary continuance of operations. Except as otherwise provided in RCW 81.80.270 any permit granted to any person under this chapter and held by that person alone or in conjunction with others other than as stockholders in a corporation at the time of his death shall be transferable the same as any other right or interest of the person's estate subject to the following:

(1) Application for transfer shall be made to the commission in such form and contain such information as the commission shall prescribe. The transfer described in any such application shall be approved if it appears from the application or from any hearing held thereon or
from any investigation thereof that the proposed trans­feree is fit, willing and able properly to perform the ser­vices authorized by the permit to be transferred and to con­form to the provisions of this chapter and the require­ments, rules and regulations of the commission thereunder, otherwise the application shall be denied.

(2) Temporary continuance of motor carrier opera­tions without prior compliance with the provisions of this section will be recognized as justified by the public in­terest in cases in which the personal representatives, heirs or surviving spouses of deceased persons desire to continue the operations of the carriers whom they suc­ceed in interest subject to such reasonable rules and regulations as the commission may prescribe.

In case of temporary continuance under this section the successor shall immediately procure insurance or de­posit security as required by RCW 81.80.190.

Immediately upon any such temporary continuance of motor carrier operations and in any event not more than thirty days thereafter the successor shall give notice of the succession by written notice to the commission con­taining such information as the commission shall pre­scribe. [1973 c 115 § 13; 1965 ex.s. c 134 § 2.]

81.80.280 Cancellation of permits. Permits may be canceled, suspended, altered or amended by the com­mission after notice and hearing upon complaint by any interested party, or upon its own motion, when the per­mittee or his or its agent has repeatedly violated this chapter, the rules and regulations of the commission or the motor laws of this state or of the United States, or the permittee has made unlawful rebates or has not con­ducted his operation in accordance with the permit granted him. Any person may at the instance of the commission be enjoined from any violation of the provi­sions of this chapter, or any order, rule or regulation made by the commission pursuant to the terms hereof. If such suit be instituted by the commission no bond shall be required as a condition to the issuance of such in­junction. [1961 c 14 § 81.80.280. Prior: 1935 c 184 § 24; RRS § 6382-24.]

81.80.290 Rules and regulations. The commission shall have power and authority, by general order or other­wise, to prescribe rules and regulations in confor­mity with this chapter to carry out the purposes thereof, applicable to any and all "motor carriers," or to any persons transporting property by motor vehicle for com­pensation even though they do not come within the term "motor carrier" as herein defined.

The commission shall mail each holder of a permit under this chapter a copy of such rules and regulations. [1961 c 14 § 81.80.290. Prior: 1935 c 184 § 25; RRS § 6382-25.]

81.80.300 Identification cab card, identification decal, stamp, or number—Mandatory—Fees, collection, disposition—Rules and regulations. The commission shall prescribe an identification cab card and identification decal or stamp or number which must be carried within the cab of each motive power vehicle of each motor carrier required to have a permit under this chapter.

The identification cab card and the decal or stamp or number provided for herein may be in such form and contain such information as required by the commission.

It shall be unlawful for any "common carrier" or "contract carrier" to operate any motor vehicle within this state unless there is carried within the cab of the motive power vehicle, either operating as a solo vehicle or in combination with trailers, the identification cab card and decal or stamp or number required by this section and the payment by such carrier of a total fee of three dollars for each such decal or stamp or number plus the applicable gross weight fee prescribed by RCW 81.80.320: Provided, That as to equipment operated between points in this state and points outside the state exclusively in interstate commerce, and as to equipment operated between points in this state and points outside the state in interstate commerce as well as points within this state in intrastate commerce, the commission may adopt rules and regulations specifying an alternative schedule of fees for that specified in RCW 81.80.320 as it may find to be reasonable and specifying the method of evidencing payment of such fees.

The commission may adopt rules and regulations im­posing a reduced schedule of fees for short term opera­tions, requiring reports of carriers, and imposing such conditions as the public interest may require with re­spect to the operation of such vehicles.

The commission shall not be required to collect the excise tax prescribed by RCW 82.44.070 for any fees collected under this chapter.

The decal or stamp or number required herein shall be issued annually under the rules and regulations of the commission, and shall be affixed to the identification cab card required by this section not later than February 1st of each year: Provided, That such decal or stamp or number may be issued for the ensuing calendar year on and after the first day of November preceding and may be used from the date of issue until February 1st of the succeeding calendar year for which the same was issued.

It shall be unlawful for the owner of said permit, his agent, servant or employee, or any other person to use or display any identification cab card and decal or stamp or number, the permit number or other insignia of authority from the commission after said permit has expired, been canceled or disposed of, or to operate any vehicle under permit without such identification cab card and decal or stamp or number.

The commission shall collect all fees provided in this section and all such fees shall be deposited in the state treasury to the credit of the public service revolving fund. [1977 ex.s. c 63 § 1; 1971 ex.s. c 143 § 4; 1969 ex.s. c 210 § 13; 1967 c 170 § 1; 1961 c 14 § 81.80.300. Prior: 1935 c 184 § 26; RRS § 6382-26.]

Effective date—1971 ex.s. c 143: "Sections 4, 5, 6 and 7 of this 1971 amendatory act shall take effect on October 31, 1971." [1971 ex.s. c 143 § 9.]

81.80.312 Interchange of trailers, semitrailers, or power units—Interchange agreement, approval, re­strictions—Procedure when no agreement. No carrier
shall interchange its trailers or semitrailers with any other carrier without first filing an interchange agreement with and securing approval thereof by the commission. The interchange agreement providing for the transfer or interchange of trailers or semitrailers pursuant thereto shall be authorized only on through movements between connecting regular route carriers.

It is the intent of the legislature that the fees collected under the provisions of this chapter shall reasonably approximate the cost of supervising and regulating motor carriers subject thereto, and to that end the utilities and transportation commission is authorized to decrease the schedule of fees provided in this section by general order entered before November 1st of any year in which it determines that the moneys then in the motor carrier account of the public service revolving fund and the fees currently to be paid will exceed the reasonable cost of supervising and regulating such carriers during the next succeeding calendar year. Whenever the cost accounting records of the commission indicate that the schedule of fees as previously reduced should be increased such increase, not in any event to exceed the schedule set forth in this section, may be effected by a similar general order entered before November 1st. Any decrease or increase of gross weight fees as herein authorized, shall be made on a proportional basis as applied to the various classifications of equipment.

All fees collected under this section or under any other provision of this chapter shall be paid to the commission and shall be by it transmitted to the state treasurer within thirty days to be deposited to the credit of the public service revolving fund. The commission is hereby empowered to administer and enforce all provisions of this chapter and to inspect the vehicles, books and documents of all "motor carriers" and the books, documents and records of those using the service of the carriers for the purpose of discovering all discriminations and rebates and other information pertaining to the enforcement of this chapter and shall prosecute violations thereof. The commission shall employ such auditors, inspectors, clerks and assistants as it may deem necessary for the enforcement of this chapter, and it shall be the duty of the Washington state patrol to assist in the enforcement of this chapter, and the duty of the attorney general to assign at least one assistant to the exclusive duty of assisting the commission in the enforcement of this chapter, and the prosecution of persons charged with the violation thereof. It shall be the duty of the sheriffs of the counties to make arrests and the county attorneys to prosecute violations of this chapter. [1961 c 14 § 81.80.330. Prior: 1935 c 184 § 29; RRS § 6382–29.]

[1963 c 59 § 10.]

81.80.391 Reciprocity—Apportionment of regulatory fees. The commission, in respect to common carriers engaged in interstate commerce, may enter into reciprocal agreements with other states, the District of Columbia, territories and countries which are authorized to make like agreements, to apportion the regulatory fees of common carriers between Washington and the other states, District of Columbia, territories or countries into which such carriers operate.

The percentage of miles each such carrier operates in Washington as they bear to the total miles each such carrier operates in the other states, District of Columbia, territories and countries involved shall be used by the commission to determine what percentage of each of the carrier's total vehicles shall be attributable to operating in Washington as the basis for computing the total regulatory fees to be paid by each such carrier to the commission.

The commission may require each such carrier to submit under oath such information, records and data as it deems necessary for carrying out the provisions of this section. The commission's determination of the number of vehicles of each carrier to be used as the basis for computing the regulatory fees payable by each carrier shall be final.

81.96.020 Terms and provisions.
81.96.030 Secretary of transportation authorized to serve as state member and execute compact.

81.96.010 Ratification and approval—Adherence. The western regional short-haul air transportation compact proposed for adoption by the states of Alaska, Arizona, California, Colorado, Hawaii, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington, and Wyoming, is hereby ratified and approved and the adherence of this state to the provisions of this compact, upon its ratification and approval by at least six of the other twelve states, is hereby declared. [1972 ex.s. c 36 § 2.]

81.96.020 Terms and provisions. The terms and provisions of the compact referred to in RCW 81.96.010 are as follows:

WESTERN REGIONAL SHORT-HAUL AIR TRANSPORTATION COMPACT

Article I
PURPOSE

The party states recognize that short-haul air transportation is essential to a balanced and efficient transportation system in the West, meeting special needs created by particular geographic and population patterns in both rural and urban areas. They further recognize that it is not economically feasible for the commercial airlines to provide a full complement of short-haul air services or to explore fully the capabilities and limitations of the various types and locations of such services.
They also recognize that careful planning, experimentation, and testing are needed before appropriate short-haul air transportation can be developed for all the situations in which it would be beneficial to the economy and general welfare of the western states. To meet this need, the party states agree that a regional compact should be established for the purpose of organizing and conducting a series of demonstration programs to test the feasibility of new short-haul air transportation concepts in the West.

Article II
REGIONAL COMMISSION

A. There is hereby established an agency of the party states to be known as the Western Regional Short–Haul Air Transportation Commission (hereinafter called the "Commission").

B. The Commission shall be composed of one member from each party state and one federal member, if authorized by federal law, who shall be the Secretary of Transportation or his designee. Each state member shall be appointed, suspended, or removed and shall serve subject to and in accordance with the laws of the state which he represents.

C. The state members shall each be entitled to one vote on the Commission. No action of the Commission shall be binding unless taken at a meeting at which a majority of all members representing the party states are present, and unless a majority of the total number of votes on the Commission are cast in favor thereof. The federal member shall not be entitled to a vote on the Commission unless authorized by a majority vote of the state members. The state members may provide that decisions of the Commission shall require the affirmative vote of the federal member and of a majority of the state members, if such provision is necessary in order to meet the requirements of federal law. In matters coming before the Commission, the state members shall, to the extent practicable, consult with representatives of appropriate local subdivisions within their respective states and the federal member, if any, shall consult with the federal departments and agencies having an interest in the subject matter.

D. The state members of the Commission shall elect annually, from among their number, a chairman and a vice chairman. The state members may provide that the chairman so elected shall be designated as the state co-chairman and the federal member shall be designated as the federal cochairman, if such provision is necessary in order to meet the requirements of federal law.

E. Each state member shall have an alternate appointed in accordance with the laws of the state which he represents. The federal member, if any, shall have an alternate appointed in accordance with federal law. An alternate shall be entitled to vote in the event of the absence, death, disability, removal, or resignation of the state or federal member for whom he is an alternate.

Article III
FUNCTIONS OF THE COMMISSION

A. It shall be the primary function of the Commission to authorize and effect a series of demonstration programs to test the feasibility of new short-haul air transportation concepts in the West. To carry out this function, the Commission shall have power to:

1. Establish basic regional demonstration policy and coordinate with federal policy makers where appropriate;
2. Create a management plan and implement programs through a suitable staff;
3. Designate demonstration arenas and facilities;
4. Select demonstration operators;
5. Establish a funding plan for the demonstration programs selected; and
6. Establish means of monitoring and evaluating the demonstration programs.

Article IV

The Commission shall publish its bylaws, rules, and regulations in convenient form and shall file a copy thereof, and shall also file a copy of any amendment thereto, with the appropriate agency or officer in each of the party states.

B. The Commission may accept, use, and dispose of gifts or donations of services or property, real, personal, or mixed, tangible or intangible, for any of its purposes and functions under this compact.

C. The Commission may enter into and perform such contracts, leases, cooperative agreements, or other transactions as may be necessary in carrying out its functions and on such terms as it may deem appropriate, with any department, agency, or instrumentality of the United States or with any state, or any political subdivision, agency, or instrumentality thereof, or with any person, firm, association, or corporation.

D. In order to obtain information needed to carry out its duties, the Commission may hold hearings, sit and act at such times and places, take such testimony, receive such evidence, and print or otherwise reproduce and distribute so much of its proceedings and reports thereon as it may deem advisable. The chairman of the Commission, or any member designated by the Commission for the purpose, shall have authority to administer oaths when it is determined by the Commission that testimony shall be taken or evidence received under oath.

E. The Commission may arrange for the head of any federal, state, or local department or agency to furnish to the Commission such information as may be available to or procurable by such department or agency, relating to the duties and functions of the Commission.

F. The Commission annually shall make to the Governor of each party state, a report covering the activities of the Commission for the preceding year, and embodying such recommendations as may have been
adopted by the Commission, which report shall be transmitted to the legislature of said state. The Commission may issue such additional reports as it may deem desirable.

Article V
FINANCES

A. The members of the Commission shall serve without compensation from the Commission, but the compensation and expenses of each state member in attending Commission meetings may be paid by the state he represents in accordance with the laws of that state. All other expenses incurred by the Commission shall be paid by the Commission.

B. The Commission shall submit periodically to the executive head or designated officer of each party state a budget of its estimated expenditures for such period as may be required by the laws of that state for presentation to the legislature thereof. Each such budget shall contain specific recommendations of the amount or amounts to be appropriated by each of the party states. The share to be paid by each party state shall be determined by a majority vote of the state members of the Commission. The federal member, if any, shall not participate or vote in such determination. The costs shall be allocated equitably among the party states in accordance with their respective interests.

C. The Commission may meet any of its obligations in whole or in part with funds available to it from the federal government or other sources under Article IV(B) of this compact, provided that the Commission takes specific action setting aside such funds prior to the incurring of any obligation to be met in whole or in part in this manner. Except where the Commission makes use of funds available to it under Article IV(B) of this compact, the Commission shall not incur any obligation prior to the allotment of funds by the party states adequate to meet the same.

Article VI

The Executive Director shall act as secretary-treasurer for the Commission and he, together with such other personnel as the Commission may direct, shall be bonded in such amounts as the Commission may require.

Officers and employees of the Commission shall be eligible for social security coverage in respect to old age and survivors’ insurance provided the Commission takes such steps as may be necessary pursuant to federal law to participate in such program of insurance as a governmental agency or unit. The Commission may establish and maintain or participate in such additional programs of employee benefits as may be appropriate to afford the officers and employees of the Commission terms and conditions of employment similar to those enjoyed by employees of the party states generally. The Commission shall not be bound by any statute or regulation of any party state in the employment or discharge of any officer or employee.

B. The audit authorities of each of the party states and of the appropriate federal departments and agencies, or any of their duly authorized representatives, shall have access for the purpose of audit and examination to any books, documents, papers, and records of the Commission that are pertinent.

C. The Commission shall keep books and records in compliance with federal requirements and standards where necessary to qualify for federal assistance, including records which fully disclose the amount and disposition of the proceeds of federal assistance the Commission has received, the total cost of the plan, program, or project or undertaking in connection with which such assistance is given or used, and the amount and nature of that portion of the cost of the plan, program, or project or undertaking supplied by other sources, and such other records as will facilitate an effective audit.

Article VIII
ELIGIBLE PARTIES, ENTRY INTO FORCE AND WITHDRAWAL

A. Any or all of the states of Alaska, Arizona, California, Colorado, Hawaii, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington, and Wyoming shall be eligible to become party to this compact.

B. As to any eligible party state, this compact shall become effective when its legislature shall have enacted the same into law; provided, that it shall not become initially effective until enacted into law by 7 states.

C. Any party state may withdraw from this compact by enacting a statute repealing the same, but no such withdrawal shall take effect until one year after the Governor of the withdrawing state has given notice to the Governors of all other party states. No withdrawal shall affect any liability already incurred by or chargeable to a party state prior to the time of such withdrawal.

Article IX
CONSTRUCTION AND SEVERABILITY

It is intended that the provisions of this compact shall be reasonably and liberally construed to effectuate its
purposes. The provisions of this compact shall be sev-
erable and if any phrase, clause, sentence, or provision of
this compact is declared to be contrary to the constitu-

*Reviser's note: A literal translation of "section 37 of this act" would be "RCW 83.16.010", but "section 37 of this act" has been translated to "RCW 83.24.025" under authority of RCW 1.08.015(2)(g). A House floor amendment adding several sections to Substitute Senate Bill No. 2181 (1979 1st ex.s. c 209) had the following mandate: "Renumber the remaining sections consecutively and correct any internal references accordingly." When Substitute Senate Bill No. 2181 was enrolled, section 37 had been renumbered as section 51, but the reference to section 37 had not been corrected accordingly. Effective date—Applicability—Severability—1979 1st ex.s. c 209: See notes following RCW 83.04.010. Effective date—1975 1st ex.s. c 158: See note following RCW 82.34.050.

"Sale at retail" or "retail sale" means every sale of tangible personal property (including articles produced, fabricated, or imprinted) to all persons irrespective of the nature of their business and including, among others, without limiting the scope hereof, persons who install, repair, clean,

The term shall include every sale of tangible personal property which is used or consumed or to be used or consumed in the performance of any activity classified as a "sale at retail" or "retail sale" even though such property is resold or utilized as provided in (a), (b), or (c) above following such use. The term also means every sale of tangible personal property to persons engaged in any business which is taxable under RCW 82.04.280, subsections (2) and (7) and RCW 82.04.290.

The term "janitorial services" does not include painting, papering, repairing, furnace or septic tank cleaning, snow removal or sandblasting; (d) the sale of or charge made for labor and services rendered in respect to automobile towing and similar automotive transportation services, but not in respect to those required to report and pay taxes under chapter 82.16 RCW; (e) the sale of and charge made for the furnishing of lodging and all other services by a hotel, rooming house, tourist court, motel, trailer camp, and the granting of any similar license to use real property, as distinguished from the renting or leasing of real property, and it shall be presumed that the occupancy of real property for a continuous period of one month or more constitutes a rental or lease of real property and not a mere license to use or enjoy the same; (f) the sale of or charge made for tangible personal property, labor and services to persons taxable under (a), (b), (c), (d), and (e) above when such sales or charges are for property, labor and services which are used or consumed in whole or in part by such persons in the performance of any activity defined as a "sale at retail" or "retail sale" even though such property, labor and services may be resold after such use or consumption. Nothing contained in this paragraph shall be construed to modify the first paragraph of this section and nothing contained in the first paragraph of this section shall be construed to modify this paragraph.

The term shall also include the renting or leasing of tangible personal property to consumers.

The term shall not include the sale of or charge made for labor and services rendered in respect to the constructing, repairing, decorating, or improving of new or existing buildings or other structures under, upon, or [Title 82 RCW (1979 Ed.)—p 7]
above real property of or for the United States, any instrumentality thereof, or a county or city housing authority created pursuant to chapter 35.82 RCW, including the selling, or attaching of any article of tangible personal property therein or thereto, whether or not such personal property becomes a part of the realty by virtue of installation. Reviser's note: (1) RCW 82.04.2921 was amended and directed to be recodified as a section in chapter 84.33 RCW by section 1, chapter 6, Laws of 1979 as follows: "Section 1. Section 7, chapter 294, Laws of 1971 ex. sess. as last amended by section 1, chapter 347, Laws of 1977 ex. sess. and RCW 82.04.291 are each amended to read as follows and, as amended, shall be recodified as a section of chapter 84.33 RCW.”

(1) Upon every person engaging within this state in business as a harvester of timber; as to such persons the amount of tax with respect to such business shall be equal to the stumpage value of timber harvested for sale or for commercial or industrial use multiplied by the appropriate rate as follows:

(a) For timber harvested between October 1, 1972 and September 30, 1973 inclusive, the rate shall be one and three-tenths percent;

(b) For timber harvested between October 1, 1973 and September 30, 1974 inclusive, the rate shall be two and nine-tenths percent and between October 1, 1974 and (December 31, 1978) June 30, 1981, inclusive, six and one-half percent.

(2) For purposes of this section:

(a) "Harvester" means every person who from his own privately owned land or from the privately owned land of another under a right or license granted by lease or contract, either directly or by contracting with others for the necessary labor or mechanical services fells, cuts or takes timber for sale or for commercial or industrial use. It does not include persons performing under contract the necessary labor or mechanical services for a harvester.

(b) "Timber" means forest trees, standing or down on privately owned land, and except as provided in RCW 84.33.170 includes Christmas trees.
(c) "Stumpage value of timber" means the appropriate stumpage value shown on tables to be prepared by the department of revenue pursuant to subsection (3) of this section.

(d) Timber shall be considered harvested at the time when in the ordinary course of business the quantity thereof by species is first definitively determined. The amount harvested shall be determined by the Scribed Decision and Scale or other prevalent measuring practice adjusted to arrive at substantially equivalent measurements, as approved by the department of revenue.

(3) The department of revenue shall designate areas containing timber having similar growing, harvesting and marketing conditions to be used as units for the preparation and application of stumpage values. Each year on or before December 31 for use the following January and on or before June 30 for use the following July through December 31, the department shall prepare tables of stumpage values of each species or subclassification of timber within such units, which values shall be the amount that each such species or subclassification would sell for at a voluntary sale made in the ordinary course of business for purposes of immediate harvest. Such stumpage values, expressed in terms of a dollar amount per thousand board feet or other unit measure, shall be determined from (a) gross proceeds from sales on the stump of similar timber of like quality and character at similar locations, and in similar quantities, or from (b) gross proceeds from sales of logs adjusted to reflect only the portion of such proceeds attributable to value on the stump immediately prior to harvest, or from a combination of (a) and (b), and shall be determined in a manner which makes reasonable and adequate allowances for age, size, quality, costs of removal, accessibility to point of conversion, market conditions and all other relevant factors. Upon application from any person who plans to harvest damaged timber, the stumpage values for which have been materially reduced from the values shown in the applicable tables due to damage resulting from fire, blow down, ice storm, flood or other sudden unforeseen cause, the department shall revise such tables for any area in which such timber is located and shall specify any additional accounting or other requirements to be complied with in reporting and paying such tax. The preliminary area designations and stumpage value tables and any revisions thereof shall be subject to review by the ways and means committees of the house and senate prior to finalization. Tables of stumpage values shall be signed by the director or his designee and authenticated by the official seal of the department. A copy thereof shall be mailed to anyone who has submitted to the department a written request therefor.

(4) On or before the sixtieth day after the date of final adoption of any stumpage value tables, any harvester may appeal to the board of tax appeals for a revision of stumpage values for an area determined pursuant to subsection (3) of this section.

(5) There are hereby created in the state treasury a state timber tax account A and a state timber tax reserve account in the state general fund and any interest earned on the investment of cash balances shall be deposited in these accounts. The revenues from the tax imposed by this section shall be deposited in state timber tax account A and state timber tax reserve account as follows:

<table>

<tr>
<th>Year of Collection</th>
<th>ACCOUNT A</th>
<th>RESERVE ACCOUNT</th>
</tr>

</tr>
<tr>

</tr>
</tbody>
</table>

(6) In addition to the rates specified in subsection (1) of this section, there shall be imposed on such persons a surtax at a rate of .5% of the stumpage value of timber as specified in such subsection (1) upon timber harvested between October 1, 1972 and September 30, 1974 inclusive. The revenues from such surtax shall be deposited in the state timber tax reserve account. Such surtax shall be reimposed for one year upon timber harvested in any calendar year following any fourth quarter during which transfers from such reserve account pursuant to subsection (3) of RCW 84.33.080 reduce the balance in such account to less than five hundred thousand dollars, but in no event shall such surtax be imposed in any year after 1980.

(7) The tax imposed under this section shall be computed with respect to timber harvested each calendar quarter and shall be due and payable in quarterly installments and remittance thereof shall be made on or before the last day of the month next succeeding the end of the quarterly period in which the tax accrued. The taxpayer on or before such date shall make out a return, upon such forms and setting forth such information as the department of revenue may require, showing the amount of the tax for which he is liable for the preceding quarterly period, and shall sign and transmit the same to the department of revenue, together with a remittance for such amount.

(8) The taxes imposed by this section shall be in addition to any taxes imposed upon the same persons pursuant to one or more of sections RCW 82.04.230 to 82.04.290, inclusive, and RCW 82.04.440, and none of such sections shall be construed to modify or interact with this section in any way, except RCW 82.04.450 and 82.04.490 shall not apply to the taxes imposed by this section.

(9) Any harvester incurring less than ten dollars tax liability under this section in any calendar quarter shall be excused from the payment of such tax, but may be required by the department of revenue to file a return even though no tax may be due.

(2) Pursuant to the direction contained in the above quoted amending clause to RCW 82.04.291, the section has been repositioned as RCW 84.33.071.

(3) Section 6, chapter 6, Laws of 1979 applied the rate of tax retrospectively as follows:

"NEW SECTION. Sec. 6. The tax rate provided in RCW 82.04.291 applies retrospectively to January 1, 1979."

This section appears also as a footnote annotation to RCW 84.33.071.

(4) Although repositioned as a section in chapter 84.33 RCW, the legislature provided in section 6, chapter 95, Laws of 1979 e.s. that the section continue to be administered as an excise tax as follows:

"NEW SECTION. Sec. 6. The provisions of chapter 82.32 RCW, insofar as applicable, shall have full force and application with respect to the tax imposed under RCW 82.04.291, as amended and recodified.

Any reference in chapter 6, Laws of 1979 or any other statute to RCW 82.04.291 shall be deemed to apply to RCW 82.04.291 as renumbered and recodified as a section of chapter 84.33 RCW.

This section is necessary for the immediate preservation of the public peace, health, and safety, the support of state government and its existing public institutions and shall take effect immediately."

The foregoing section has been codified as RCW 84.33.072.

In addition a corporation in order to be exempt under RCW 82.04.430(16) shall satisfy the following conditions:

Where a building is used partly for manufacturing and partly for other purposes the applicable tax credit shall be determined by apportionment of the costs of construction under such rules as the department of revenue shall provide. For purposes of this section the term "buildings" shall mean and include only those structures used to house or shelter manufacturing activities, including the usual lighting, heating, ventilating and sanitary plumbing facilities. Notwithstanding the foregoing, the
term "buildings" shall also include potlines and furnaces used directly in the manufacturing of metals. The phrase "construction of buildings" refers only to new or enlarged buildings and not to the repair or renovation of existing buildings.

This credit shall be allowable only against tax payable by the manufacturer and measured by the value of products or gross proceeds of sales of articles, substances or commodities manufactured in this state, and shall be allowable only against any tax payable which is attributable to manufacturing occurring in the particular factory, mill or manufacturing plant in which such buildings are located.

No tax credit claimed shall be deducted on any return until such claim has been approved by the department of revenue or until ninety days after such claim has been submitted to the department of revenue for approval. This credit shall not be allowable for tax paid on purchases of material, labor or services on which the supplier thereof became entitled to compensation prior to July 1, 1964 or subsequent to January 1, 1971: Provided, That the credit shall be allowable for the tax paid on such purchases pursuant to any contract entered into prior to January 1, 1971 if such tax is paid on such contract purchases prior to July 1, 1972: And provided further, That with respect only to the construction of buildings used directly in the manufacturing of metals, this credit shall be allowable for tax paid on all purchases pursuant to construction which was in progress on January 1, 1971, and was completed after that date.

The value of products, including byproducts, extracted or manufactured shall be determined by the gross proceeds derived from the sale thereof whether such sale is at wholesale or at retail, to which shall be added all subsidies and bonuses received from the purchaser or from any other person with respect to the extraction, manufacture, or sale of such products or byproducts by the seller, except:

(1) Sales of used mobile homes as defined in RCW 28A.45.032 or sales of used mobile homes if the sale thereof to the present user has already been subjected to tax under 28A.45 RCW.

(2) The renting or leasing of mobile homes where such rental agreement or lease exceeds thirty days in duration and where the rental or lease of such mobile home is not conducted jointly with the provision of short term lodging for transients. [1979 1st ex.s. c 266 § 3.]

82.08.035 Exemption for pollution control facilities. See chapter 82.34 RCW.

82.08.040 Consignee, factor, bailee, auctioneer deemed seller. Every consignee, bailee, factor, or auctioneer authorized, engaged, or employed to sell or call for bids on tangible personal property belonging to another, and so selling or calling, shall be deemed the seller of such tangible personal property within the meaning of this chapter and all sales made by such persons are subject to its provisions even though the sale would have been exempt from tax hereunder had it been made directly by the owner of the property sold. Every consignee, bailee, factor, or auctioneer shall collect and remit the amount of tax due under this chapter with respect to sales made or called by him: Provided, That if the owner of the property sold is engaged in the business of selling tangible personal property in this state the tax imposed under this chapter may be remitted by such owner under such rules and regulations as the department of revenue shall prescribe. [1975 1st ex.s. c 278 § 46; 1961 c 15 § 82.08.040. Prior: 1939 c 225 § 8; 1935 c 180 § 18; RRS § 8370-18.]

Construction—Severability—1975 1st ex.s. c 278: See notes following RCW 11.08.160.

82.08.050 Buyer to pay, seller to collect tax—Penalties. The tax hereby imposed shall be paid by the buyer to the seller, and each seller shall collect from the buyer the full amount of the tax payable in respect to each taxable sale in accordance with the schedule of collections adopted by the department pursuant to the provisions of RCW 82.08.060. The tax required by this chapter, to be collected by the seller, shall be deemed to be held in trust by the seller until paid to the department, and any seller who appropriates or converts the tax collected to his own use or to any use other than the payment of the tax to the extent that the money required to be collected is not available for payment on the due date as prescribed in this chapter shall be guilty of a gross misdemeanor.

In case any seller fails to collect the tax herein imposed or having collected the tax, fails to pay it to the
department in the manner prescribed by this chapter, whether such failure is the result of his own acts or the result of acts or conditions beyond his control, he shall, nevertheless, be personally liable to the state for the amount of the tax.

The amount of tax, until paid by the buyer to the seller or to the department, shall constitute a debt from the buyer to the seller and any seller who fails or refuses to collect the tax as required with intent to violate the provisions of this chapter or to gain some advantage or benefit, either direct or indirect, and any buyer who refuses to pay any tax due under this chapter shall be guilty of a misdemeanor. The tax required by this chapter to be collected by the seller shall be stated separately from the selling price and for purposes of determining the tax due from the buyer to the seller and from the seller to the department it shall be conclusively presumed that the selling price quoted in any price list, sales document, contract or other agreement between the parties does not include the tax imposed by this chapter.

Where a buyer has failed to pay to the seller the tax imposed by this chapter and the seller has not paid the amount of the tax to the department, the department may, in its discretion, proceed directly against the buyer for collection of the tax, in which case a penalty of ten percent may be added to the amount of the tax for failure of the buyer to pay the same to the seller, regardless of when the tax may be collected by the department; and all of the provisions of chapter 82.32 RCW, including those relative to interest and penalties, shall apply in addition; and, for the sole purpose of applying the various provisions of chapter 82.32 RCW, the fifteenth day of the month following the tax period in which the purchase was made shall be considered as the due date of the tax. 82.08.060 Collection of tax—Methods and schedules. The department of revenue shall have power to adopt rules and regulations prescribing methods and schedules for the collection of the tax required to be collected by the seller from the buyer under this chapter. The methods and schedules prescribed shall be adopted so as to eliminate the collection of fractions of one cent and so as to provide that the aggregate collections of all taxes by the seller shall, insofar as practicable, equal the amount of tax imposed by this chapter. Such schedules may provide that no tax need be collected from the buyer upon sales below a stated sum and may be amended from time to time to accomplish the purposes set forth herein. [1975 1st ex.s. c 278 § 47; 1961 c 15 § 82.08.060. Prior: 1951 c 44 § 2; 1941 c 76 § 4; 1935 c 180 § 22; Rem. Supp. 1941 § 8370–22.]

82.08.070 Seller's monthly, estimated, annual, etc., returns—Remittances—Reporting procedures and forms. Each seller, on or before the fifteenth day of the month succeeding the end of each monthly period, shall make out a return for the preceding monthly period, upon forms to be provided by the department, setting forth the amount of all sales, nontaxable sales, taxable sales, the amount of tax thereon, and such other information as the department may require, sign, and transmit the same to the department: Provided, That any such taxpayer may elect to remit each month on such forms as the department shall in its discretion prescribe, an estimate of the tax to be due for each month on or before the fifteenth day of the month next succeeding the end of the monthly period in which the tax accrued, and a quarterly return to the department on or before the fifteenth day of the month next succeeding the end of each quarter of every year and shall remit therewith the balance of the actual tax due for the period of the report: Provided further, That every person who shall elect to remit a monthly "estimate of the tax to be due" as hereinabove described shall remit each month at least one-third of the tax paid during the previous quarter or, at least ninety percent of the tax actually collected or owing during the month.

The department may also relieve any taxpayer or class of taxpayers from the obligation of filing monthly returns and may require the return to cover other reporting periods, but in no event shall returns be filed for a period greater than one year.

The department may also, by general rule or regulation, establish conditions for submission of annual or semiannual reconciling returns by such taxpayers or class of taxpayers in lieu of quarterly returns.

The department may also require verified annual returns from any taxpayer, setting forth such additional information as it may deem necessary to correctly determine tax liability.

The department shall, by rule or regulation, establish procedures and forms for reporting consonant with efficient tax administration and accounting procedure to carry into effect the provisions of this chapter.

The department may also require annual returns from any taxpayer, setting forth such additional information as it may deem necessary to correctly determine tax liability. The tax accrued under the provisions of this chapter, whether or not collected from the buyer shall be paid by the seller to the department in installments at the time of transmitting the return above provided for. 82.08.080 Vending machine sales. The department of revenue may authorize a seller to pay the tax levied under this chapter upon sales made through vending machines and similar devices or where sales are made under conditions of business such as to render impracticable the collection of the tax as a separate item and waive collection of the tax from the customer. Where sales are made by receipt of a coin or coins dropped into a receptacle that results in delivery of the merchandise in single
purchases of smaller value than the minimum sale upon which a one cent tax may be collected from the purchaser, according to the schedule provided by the department under authority of RCW 82.08.060, and where the design of the sales device is such that multiple sales of items are not possible or cannot be detected so as practically to assess a tax, in such a case the selling price for the purposes of the tax imposed under RCW 82.08.020 shall be sixty percent of the gross receipts of the vending machine through which such sales are made. No such authority shall be granted except upon application to the department and unless the department, after hearing, finds that the conditions of the applicant's business are such as to render impracticable the collection of the tax in the manner otherwise provided. The department, by regulation, may provide that the applicant, under this section, furnish a proper bond sufficient to secure the payment of the tax. 82.08.100 Tax may be paid on cash receipts basis if books are so kept. The department of revenue, by general regulation, may provide that a taxpayer whose regular books of account are kept on a cash receipts basis may file returns based upon his cash receipts for each reporting period and pay the tax herein provided upon such basis in lieu of reporting and paying the tax on all sales made during such period. [1975 1st ex.s. c 278 § 50; 1961 c 15 § 82.08.100. Prior: 1959 ex.s. c 3 § 9; 1959 c 197 § 5; prior: 1941 c 178 § 9, part; 1939 c 225 § 12, part; 1935 c 180 § 25, part; Rem. 82.08.110 Sales from vehicles. In the case of a person who has no fixed place of business and sells from one or more vehicles, each such vehicle shall constitute a "place of business" within the meaning of chapter 82.32 RCW. [1961 c 15 § 82.08.110. Prior: 1935 c 180 § 26; RRS § 8370–26.]

82.08.120 Rebating or absorption of tax by seller prohibited—Penalty. Whoever, excepting as expressly authorized by this chapter, refunds, remits, or rebates to a buyer, either directly or indirectly and by whatever means, all or any part of the tax levied by this chapter, or makes in any form of advertising, verbal or otherwise, any statements which might infer that he is absorbing the tax or paying the tax for the buyer by an adjustment of prices, or at a price including the tax, or in any other manner whatsoever shall be guilty of a misdemeanor. The violation of this section by any person holding a license granted by the state or any political subdivision thereof shall be sufficient grounds for the cancellation of the license of such person upon written notification by the department of revenue to the proper officer of the department granting the license that such person has violated the provisions of this section. Before any license shall be canceled hereunder, the licensee shall be entitled to a hearing before the department granting the license under such regulations as the department may prescribe. In case the articles used are acquired by bailment, the value of the use of the articles so used shall be in an amount representing a reasonable rental for the use of

In the case of articles manufactured or produced by the user and used in the manufacture or production of products sold or to be sold to the department of defense of the United States, the value of the articles used shall be determined according to the value of the ingredients of such articles.

(2) "Use," "used," "using," or "put to use" shall have their ordinary meaning, and shall mean the first act within this state by which the taxpayer takes or assumes dominion or control over the article of tangible personal property (as a consumer), and include installation, storage, withdrawal from storage, or any other act preparatory to subsequent actual use or consumption within this state;

(5) The meaning ascribed to words and phrases in chapters 82.04 and 82.08 RCW, insofar as applicable, shall have full force and effect with respect to taxes imposed under the provisions of this chapter. "Consumer," in addition to the meaning ascribed to it in chapters 82.04 and 82.08 RCW insofar as applicable, shall also mean any person who distributes or displays, or causes to be distributed or displayed, any article of tangible personal property, except newspapers, the primary purpose of which is to promote the sale of products or services. 82.12.045 Collection of tax on motor vehicles by county auditor or director of licensing—Remittance. In the collection of the use tax on motor vehicles, the department of revenue may designate the county auditors of the several counties of the state as its collecting agents. Upon such designation, it shall be the duty of each county auditor to collect the tax at the time an applicant applies for the registration of, and transfer of title to, the motor vehicle, except in the following instances: (1) Where the applicant exhibits a dealer's report of sale showing that the retail sales tax has been collected by the dealer; (2) where the application is for the renewal of registration; (3) where the applicant presents a written statement signed by the department of revenue, or its duly authorized agent showing that no use tax is legally due; (4) where the applicant presents satisfactory evidence showing that the retail sales tax or the use tax has been paid by him on the vehicle in question. The term "motor vehicle," as used in this section means and includes all motor vehicles, trailers and semitrailers used, or of a type designed primarily to be used, upon the public streets and highways, for the convenience or pleasure of the owner, or for the conveyance, for hire or otherwise, of persons or property, including fixed loads, facilities for human habitation, and vehicles carrying exempt licenses. It shall be the duty of every applicant for registration and transfer of certificate of title who is subject to payment of tax under this section to declare upon his application the value of the vehicle for which application is made, which shall consist of the consideration paid or contracted to be paid thereof. Any person wilfully misrepresenting, or failing or refusing to declare upon his application, such value shall be guilty of a gross misdemeanor.

Each county auditor who acts as agent of the department of revenue shall at the time of remitting license fee receipts on motor vehicles subject to the provisions of this section pay over and account to the state treasurer for all use tax revenue collected under this section, after first deducting as his collection fee the sum of one dollar for each motor vehicle upon which the tax has been collected. All revenue received by the state treasurer under this section shall be credited to the general fund. The auditor's collection fee shall be deposited in the county current expense fund. A duplicate of the county auditor's transmittal report to the state treasurer shall be forwarded forthwith to the department of revenue.

Any applicant who has paid use tax to a county auditor under this section may apply to the department of revenue for refund thereof if he has reason to believe that such tax was not legally due and owing. No refund shall be allowed unless application therefor is received by the department of revenue within two years after payment of the tax. Upon receipt of an application for refund the department of revenue shall consider the same and issue its order either granting or denying it and if refund is denied the taxpayer shall have the right of appeal as provided in RCW 82.32.170, 82.32.180 and 82.32.190.

The provisions of this section shall be construed as cumulative of other methods prescribed in chapters 82-04 to 82.32 RCW, inclusive, for the collection of the tax imposed by this chapter. The department of revenue shall have power to promulgate such rules and regulations as may be necessary to administer the provisions of this section. Any duties required by this section to be performed by the county auditor may be performed by the director of licensing but no collection fee shall be deductible by said director in remitting use tax revenue to the state treasurer. Each taxpayer subject to the provisions of this chapter shall, on or before the fifteenth day of the month succeeding the end of the monthly period in which the tax accrued, file a return with the department of revenue showing in detail the total quantity of tangible personal property used by him within the state during the preceding monthly period subject to the tax herein imposed, and such other information as the department may deem pertinent. Each taxpayer shall remit to the department with his return the amount of tax shown thereon to be due: Provided, That any such taxpayer may elect to remit each month on such forms as the department of revenue shall in its discretion prescribe, an estimate of the tax to be due for each month on or before the fifteenth day of the month next succeeding the end of the monthly period in which the tax accrued, and a quarterly return to the department on or before the fifteenth day of the month next succeeding the end of each quarter of every year and shall remit therewith the balance of the actual tax due for the period of the report: Provided further, That every person who shall elect to remit a monthly "estimate of the tax to be due" as hereinabove described shall remit each month at least one-third of the tax paid during the previous quarter or, ninety percent of the tax actually collected or owing during the month, whichever is greater.

The department of revenue may also relieve any taxpayer or class of taxpayers from the obligation of filing monthly returns and may require the return to cover other reporting periods, but in no event shall returns be filed for a period greater than one year.
The department of revenue may also, by general rule or regulation, establish conditions for submission of annual or semiannual reconciling returns by such taxpayers or class of taxpayers in lieu of quarterly returns.

The department of revenue may also require verified annual returns from any taxpayer, setting forth such additional information as it may deem necessary to correctly determine tax liability.

The department of revenue shall, by rule or regulation, establish procedures and forms for reporting concomitant with efficient tax administration and accounting procedure to carry into effect the provisions of this chapter. Such allowance or redemption may be made, either by giving other stamps in lieu of the stamps so allowed for or redeemed or by refunding the amount of value to the owner thereof; but no allowance or redemption shall be made in any case until the stamps so spoiled or rendered useless have been returned to the department, or until satisfactory proof has been made showing the reason why they cannot be returned. No claim for the redemption of or allowance for stamps shall be allowed unless presented within two years after the purchase of the stamps from the department. (3) "Retail selling price" means the ordinary, customary or usual price paid by the consumer for each package of cigarettes, less the tax levied by this chapter and less any similar tax levied by this state;

(4) "Cigarette" means any roll for smoking made wholly or in part of tobacco, irrespective of size or shape and irrespective of the tobacco being flavored, adulterated, or mixed with any other ingredient, where such roll has a wrapper or cover made of paper or any material, except where such wrapper is wholly or in the greater part made of natural leaf tobacco in its natural state;

(5) "Stamp" means the stamp or stamps or meter impressions by use of which the tax levy under this chapter is paid;

(6) The meaning attributed, in chapter 82.04 RCW, to the words "person," "sale," "business" and "successor" shall apply equally in the provisions of this chapter.

82.24.020 Tax imposed—Rate—Possession, defined. There is levied and there shall be collected as hereinafter provided, a tax upon the sale, use, consumption, handling, possession or distribution of all cigarettes, in an amount equal to the rate of six and one-half mills per cigarette. For purposes of this section, and for purposes of RCW 28A.47.440 and *73.32.130, "possession" shall mean both (1) physical possession by the purchaser and (2) when cigarettes are being transported to or held for the purchaser or his designee by a person other than the purchaser, constructive possession by the purchaser or his designee, which constructive possession shall be deemed to occur at the location of the cigarettes being so transported or held. *Reviser's note: RCW 73.32.130 was repealed by 1979 1st ex.s. c 59 § 3.

Severability—1972 ex.s. c 157: "If any provision of this 1972 amendatory act, or its application to any person or circumstances is held invalid, the remainder of this 1972 amendatory act, or the application of the provision to other persons or circumstances is not affected." [1972 ex.s. c 157 § 8. This applies to the 1972 ex.s. amendments to RCW 28A.47.440, 73.32.130, 82.24.020, 82.24.080, 82.24.130 and to 82.24.250 and 82.24.260.

82.24.025 Additional tax imposed—Rate—Compensation of dealers. There is hereby levied and there shall be collected by the department of revenue from the persons mentioned in and in the manner provided by this chapter, as now or hereafter amended, an excise tax upon the sale, use, consumption, handling, possession, or distribution of cigarettes in an amount equal to the rate of one mill per cigarette, but the provisions of RCW 82.24.070 allowing dealers compensation for affixing stamps shall not apply to this additional tax. Instead, wholesalers and retailers subject to the provisions of this chapter shall be allowed as compensation for their services in affixing the stamps for the additional tax required by this section a sum equal to one percent of the value of the stamps for such additional tax purchased or affixed by them.

All money derived from such tax shall be paid to the state treasurer and credited to the state general fund. [1979 1st ex.s. c 59 § 2.]

82.24.030 Stamps to be affixed—Meter machines authorized. In order to enforce collection of the tax hereby levied, the department of revenue shall design and have printed stamps of such size and denominations as may be determined by the department, such stamps to be affixed on the smallest container or package that will be handled, sold, used, consumed, or distributed, to permit the department to readily ascertain by inspection, whether or not such tax has been paid. Every person shall cause to be affixed on every package of cigarettes on which a tax is due, stamps of an amount equaling the tax due thereon before he sells, offers for sale, uses, consumes, handles, removes, or otherwise disturbs and
distributes the same: Provided, That where it is established to the satisfaction of the department that it is impractical to affix such stamps to the smallest container or package, the department may authorize the affixing of stamps of appropriate denomination to a large container or package.

The department may authorize the use of meter stamping machines for imprinting stamps, which imprinted stamps shall be in lieu of those otherwise provided for under this chapter, and if such use is authorized, shall provide reasonable rules and regulations with respect thereto. Such unstamped stock shall be kept separate and apart from stamped stock: Provided further, That every wholesaler shall, at the time of shipping or delivering any of the articles taxed herein to a point outside of this state, or to a federal instrumentality, or to an Indian tribal organization, make a true duplicate invoice of the same which shall show full and complete details of the sale or delivery, whether or not stamps were affixed thereto, and shall transmit such true duplicate invoice to the main office of the department, at Olympia, not later than the fifteenth day of the following calendar month, and for failure to comply with the requirements of this section the department may revoke the permission granted to the taxpayer to maintain a stock of goods to which the stamps required by this chapter have not been affixed. The department may also revoke this permission to maintain a stock of unstamped goods for sale to a specific Indian tribal organization when it appears that sales of unstamped cigarettes to persons who are not enrolled members of a recognized Indian tribe are taking place, or have taken place, within the exterior boundaries of the reservation occupied by that tribe. [1969 ex.s. c 214 § 1; 1961 c 15 § 82.24.040. Prior: 1959 c 270 § 4; prior: 1949 c 228 § 13, part; 1943 c 156 § 11, part; 1941 c 178 § 13, part; 1939 c 225 § 23, part; 1935 c 180 § 82, part; Rem. Supp. 1949 § 8370–82, part.]

82.24.050 Duty of retailer. Every retailer shall, within a reasonable time after receipt of any of the articles taxed herein, cause the same to have the requisite denomination and amount of stamps affixed to represent the tax imposed herein: Provided, That those articles to which stamps have been properly affixed by a wholesaler or another retailer may be retained by any retailer, and that those articles intended for sale to qualified purchasers may be retained by federal instrumentalities and Indian tribal organizations, without affixing the stamps required by this chapter. [1969 ex.s. c 214 § 2; 1961 c 15 § 82.24.050. Prior: 1959 c 270 § 5; prior: 1949 c 228 § 13, part; 1943 c 156 § 11, part; 1941 c 178 § 13, part; 1939 c 225 § 23, part; 1935 c 180 § 82, part; Rem. Supp. 1949 § 8370–82, part.]

82.24.060 Stamps—How affixed. Stamps shall be affixed in such manner that they cannot be removed from the package or container without being mutilated or destroyed, which stamps so affixed shall be evidence of the tax imposed.

In the case of cigarettes contained in individual packages, as distinguished from cartons or larger units, the stamps shall be affixed securely on each individual article. [1961 c 15 § 82.24.060. Prior: 1959 c 270 § 6; prior: 1949 c 228 § 13, part; 1943 c 156 § 11, part; 1941 c 178 § 13, part; 1939 c 225 § 23, part; 1935 c 180 § 82, part; Rem. Supp. 1949 § 8370–82, part.]

82.24.080 Legislative intent. It is the intent and purpose of this chapter to levy a tax on all of the articles taxed herein, sold, used, consumed, handled, possessed, or distributed within this state and to collect the tax from the person who first sells, uses, consumes, handles, possesses (either physically or constructively, in accordance with RCW 82.24.020) or distributes them in the state. It is further the intent and purpose of this chapter that whenever any of the articles herein taxed is given away for advertising or any other purpose, it shall be taxed in the same manner as if it were sold, used, consumed, handled, possessed, or distributed in this state.

It is also the intent and purpose of this chapter that the tax shall be imposed at the time and place of the first taxable event occurring within this state: Provided, however, That failure to pay the tax with respect to a taxable event shall not prevent tax liability from arising by reason of a subsequent taxable event. [1972 ex.s. c 157 § 4; 1961 c 15 § 82.24.080. Prior: 1959 c 270 § 8;

[1975 1st ex.s. c 278 § 62; 1961 c 15 § 82.24.090. Prior: 1941 c 178 § 14; 1939 c 225 § 24; 1935 c 180 § 84; Rem. Supp. 1941 c 8370–84.]

82.24.110 Other offenses—Penalty. Each of the following acts is a gross misdemeanor and punishable as such:

1. To sell, except as a registered wholesaler or retailer engaged in interstate commerce as to the article being taxed herein, without the stamp first being affixed;

2. To use or have in possession knowingly or intentionally any forged or counterfeit stamps;

3. For any person other than the department of revenue or its duly authorized agent to sell any stamps not affixed to any of the articles taxed herein whether such stamps are genuine or counterfeit;

6. To use any stamps more than once;

7. To refuse to allow the department of revenue or any duly authorized agent thereof, on demand, to make full inspection of any place of business where any of the articles herein taxed are sold or otherwise hinder or prevent such inspection;

9. For any person to make, use, or present or exhibit to the department of revenue or any duly authorized agent thereof, any invoice for any of the articles herein taxed which bears an untrue date or falsely states the nature or quantity of the goods therein invoiced;

10. For any wholesaler or retailer or his agents or employees to fail to produce on demand of the department of revenue all invoices of all the articles herein taxed or stamps bought by him or received in his place of business within five years prior to such demand unless he can show by satisfactory proof that the nonproduction of the invoices was due to causes beyond his control;

11. For any person to receive in this state any shipment of any of the articles taxed herein, when the same are not stamped, for the purpose of avoiding payment of tax. It is presumed that persons other than dealers who purchase or receive shipments of unstamped cigarettes do so to avoid payment of the tax imposed herein.

If any person, subject to the provisions of this chapter or any rules and regulations promulgated by the department of revenue under authority hereof, is found to have failed to affix the stamps required, or to have them affixed as herein provided, or to pay any tax due hereunder, or to have violated any of the provisions of this chapter or rules and regulations promulgated by the department of revenue in the administration hereof, there shall be assessed and collected from such person, in addition to any tax that may be found due, a penalty equal to the amount of any tax found to be due plus interest thereon at the rate of one percent for each thirty days or portion thereof from the date the tax became due, and upon notice mailed to the last known address of the taxpayer said amount shall become due and payable in ten days, at which time the department or its duly authorized agent may make immediate demand upon such person for the payment of all such taxes and penalties. The department, for good reason shown, may remit all or any part of penalties imposed, but the taxpayer must pay all taxes due and interest thereon, at the rate of one percent for each thirty days or portion thereof. The keeping of any unstamped articles coming within the provisions of this chapter shall be prima facie evidence of intent to violate the provisions of this chapter. [1975 1st ex.s. c 278 § 64; 1961 c 15 § 82.24.120. Prior: 1949 c 228 § 15; 1939 c 225 § 25; 1935 c 180 § 87; Rem. Supp. 1949 c 8370–87.]

82.24.130 Contraband—Seizure and sale. Subject to the provisions of RCW 82.24.250, any articles taxed herein found at any point within this state, which articles shall be held, owned or possessed by any person, and not having the stamps affixed to the packages or containers are hereby declared to be contraband goods, and may be seized by the department of revenue, or its duly authorized agent, or by any peace officer of the state, when directed by the department of revenue so to do, without a warrant, and said goods shall be offered by the department of revenue for sale at public auction to the highest bidder after due advertisement, but the department of revenue before delivering any of the goods so seized shall require the person, to whom such articles are sold, to affix the proper amount of stamps. The proceeds of sale of any goods sold hereunder shall be paid to the department of revenue.

The cost of seizure and sale shall be paid out of the proceeds derived from the sale before making remittance.

Any vending machine and any vehicle, not a common carrier, which may be used for the purpose of violating the provisions of this chapter shall likewise be subject to seizure and sale in the same manner.

Notwithstanding the foregoing provisions of this section, articles taxed herein which are in the possession of a wholesaler or retailer, licensed by the department, pursuant to the provisions of chapter 19.91 RCW for a period of time necessary to affix the stamps after receipt of the articles, shall not be considered contraband. [1972 ex.s. c 157 § 5; 1961 c 15 § 82.24.130. Prior: 1941 c 178 § 16; 1935 c 180 § 88; Rem. Supp. 1941 § 8370–88.]

82.24.140 Forfeiture procedure—Seizures—Notice—Claimant’s bond—Court proceedings. In all cases of seizure of any property made subject to forfeiture under the provisions of this chapter, which, in the opinion of the person making the seizure, is of the appraised value of one hundred dollars, or more, the said person shall proceed as follows:

(1) He shall cause a list containing a particular description of the property seized to be prepared in duplicate, and an appraisement thereof to be made by three sworn appraisers to be selected by him, who shall be respectable and disinterested citizens of this state, residing within the county where the seizure was made. Said list and appraisement shall be properly attested by the said person and the said appraisers, for which service each of the said appraisers shall be allowed the sum of one dollar per day for not exceeding two days, to be paid as other costs;

(2) If the property seized is believed, by the person making the seizure, to be of less value than one hundred dollars, no appraisement shall be made;

(3) The person making the seizure shall proceed to give notice thereof for five days, in writing, at three places in the county where the seizure is made. One of the notices shall be posted at the county court house; another at the place where the goods were seized; and the other at some public place. The notice shall describe the property seized, and the time and place and cause of seizure and give the name and place of residence, if known, of the person from whom the property was seized, and shall require any person claiming it to appear and make such claim in writing, within five days from the date of the first posting of such notice. Such person making the seizure shall also deliver to the person from whom the property was seized, and also to the owner, if known, a copy of the said notice;

(4) Any person claiming the said property seized as contraband, within the time specified in the notice, may file with the department of revenue a claim, in writing, stating his interest in the property seized, and may execute a bond to the department of revenue in a penal sum equal to double the value of the property so seized, but in no case shall said bond be less than one hundred dollars, with sureties to be approved by the clerk of the superior court in the county in which the property is seized, conditioned that in case of condemnation of the property seized, the obligor shall pay to the department of revenue the full value of the property so seized, and all costs and expenses of the proceedings to obtain such condemnation, including a reasonable attorney’s fee. And, upon delivery of such bond to the department of revenue, it shall transmit the same with the duplicate list or description of the property seized to the prosecuting attorney of the county in which such seizure was made, and said prosecuting attorney shall prosecute the case to secure the forfeiture of said property in the court having jurisdiction. Upon filing the bond aforesaid, the said property shall be delivered to the claimant pending the outcome of the case: Provided, That he shall at once affix the required stamps thereto;

(5) If no claim is interposed and no bond is filed within the time above specified, such property shall be forfeited, without further proceedings, and the same shall be sold as herein provided, and the proceeds of sale when received by the department of revenue shall be paid into the state treasury as are other funds collected: Provided, That in seizures of property of less value than one hundred dollars, the same may be advertised by the department of revenue with other quantities at Olympia or at any other city or town in which a branch office of the department of revenue is located and disposed of as hereinbefore provided;

(6) In proceedings to secure a confiscation of the property hereinbefore mentioned, where the value of the goods seized at one time is one hundred dollars, or less, the justice court of the place where the property is situated, shall have jurisdiction to try the cause. Where the value of the property seized at one time is more than one hundred dollars, then the superior court of the county where the property is seized shall have jurisdiction to try the cause.

The proceedings against property seized, according to the provisions of this chapter, shall be considered a proceeding in rem unless otherwise herein provided.

Within ten days after filing the bond provided for in subdivision (4) hereof, the claimant shall file a petition in the court having jurisdiction of the cause, and the department of revenue or other party authorized to prosecute the confiscation of said property, shall plead to it as

true name of the consignee or purchaser, and the quantity and brands of the cigarettes so transported. If the cigarettes are consigned to or purchased by any person in this state such purchaser or consignee must be a person who is authorized by chapter 82.24 RCW to possess unstamped cigarettes in this state. In the absence of such invoices or delivery tickets, or, if the name or address of the consignee or purchaser is falsified or if the purchaser or consignee is not authorized by chapter 82.24 RCW to possess unstamped cigarettes, the cigarettes so transported shall be deemed contraband subject to seizure and sale under the provisions of RCW 82.24.130.

Transportation of cigarettes from a point outside this state to a point in some other state will not be considered a violation of this section provided that the person so transporting such cigarettes has in his possession adequate invoices or delivery tickets which give the true name and address of such out-of-state seller or consignor and such out-of-state purchaser or consignee.

In any case where the department or its duly authorized agent, or any peace officer of the state, has knowledge or reasonable grounds to believe that any vehicle is transporting such cigarettes in violation of this section, the department, such agent, or such police officer, is authorized to stop such vehicle and to inspect the same for contraband cigarettes.

Such remittance shall be made at the same time and manner as remittances of the retail sales tax as required under chapters 82.08 and 82.32 RCW. In the event the retailer fails to collect the tax from the buyer or transferee, or fails to remit the same, the retailer shall be personally liable therefor, and shall be subject to the administrative provisions of RCW 82.24.230 with respect to the collection thereof by the department. The provisions of this section shall not relieve the buyer or possessor of unstamped cigarettes from personal liability for the tax imposed by RCW 82.24.020, 28A.47.440 and *73.32.130.

Nothing in this section shall relieve a wholesaler or a retailer from the requirements of affixing stamps pursuant to RCW 82.24.040 and 82.24.050. [1975 1st ex.s. c 22 § 1; 1972 ex.s. c 157 § 7.]

Reviser's note: Throughout chapter 82.29A RCW the term "this 1976 amendatory act" has been changed to "this chapter, RCW 84.36.451 and 84.40.175." This 1976 amendatory act [1975—76 2nd ex.s. c 61] also repealed chapter 82.29 RCW, RCW 84.36.450, 84.36.455 and 84.36.460.

82.29A.010 Legislative findings and recognition. The legislature hereby recognizes that properties of the state of Washington, counties, school districts, and other municipal corporations are exempted by Article 7, section 1 of the state Constitution from property tax obligations, but that private lessees of such public properties receive substantial benefits from governmental services provided by units of government.

The legislature further recognizes that a uniform method of taxation should apply to such leasehold interests in publicly owned property.

The legislature finds that lessees of publicly owned property are entitled to those same governmental services and does hereby provide for a leasehold excise tax to fairly compensate governmental units for services

[Title 82 RCW (1979 Ed.)—p 50]
82.29A.020 Definitions. As used in this chapter the following terms shall be defined as follows, unless the context otherwise requires:

(1) "Leasehold interest" shall mean an interest in publicly owned real or personal property which exists by virtue of any lease, permit, license, or any other agreement, written or verbal, between the public owner of the property and a person who would not be exempt from property taxes if that person owned the property in fee, granting possession and use, to a degree less than fee simple ownership. Provided, That no interest in personal property (excluding land or buildings) which is owned by the United States, whether or not as trustee, or by any foreign government shall constitute a leasehold interest hereunder when the right to use such property is granted pursuant to a contract solely for the manufacture or production of articles for sale to the United States or any foreign government. The term "leasehold interest" shall include the rights of use or occupancy by others of property which is owned in fee or held in trust by a public corporation, commission, or authority created under RCW 35.21.730 or 35.21.660 if the property is listed on or is within a district listed on any federal or state register of historical sites. The term "leasehold interest" shall not include road or utility easements or rights of access, occupancy or use granted solely for the purpose of removing materials or products purchased from a public owner or the lessee of a public owner.

(2) "Taxable rent" shall mean contract rent as defined in subsection (a) of this subsection in all cases where the lease or agreement has been established or renegotiated through competitive bidding, or negotiated or renegotiated in accordance with statutory requirements regarding the rent payable, or negotiated or renegotiated under circumstances, established by public record, clearly showing that the contract rent was the maximum attainable by the lessor: Provided, That after January 1, 1986, with respect to any lease which has been in effect for ten years or more without renegotiation, taxable rent may be established by procedures set forth in subsection (b) of this subsection. All other leasehold interests shall be subject to the determination of taxable rent under the terms of subsection (b) of this subsection.

(a) "Contract rent" shall mean the amount of consideration due as payment for a leasehold interest, including: The total of cash payments made to the lessor or to another party for the benefit of the lessor according to the requirements of the lease or agreement; expenditures for the protection of the lessor's interest when required by the terms of the lease or agreement; expenditures for improvements to the property to the extent that such improvements become the property of the lessor. Where the consideration conveyed for the leasehold interest is made in combination, with payment for concession or other rights granted by the lessor, only that portion of such payment which represents consideration for the leasehold interest shall be part of contract rent.

"Contract rent" shall not include: (i) Expenditures made by the lessee, which under the terms of the lease or agreement, are to be reimbursed by the lessor to the lessee; (ii) expenditures made by the lessee for the replacement or repair of facilities due to fire or other casualty or for alterations or additions made necessary by an action of government taken after the date of the execution of the lease or agreement; (iii) improvements added to publicly owned property by a sublessee under an agreement executed prior to January 1, 1976, which have been taxed as personal property of the sublessee prior to January 1, 1976, or improvements made by a sublessee of the same lessee under a similar agreement executed prior to January 1, 1976, and such improvements shall be taxable to the sublessee as personal property; (iv) improvements added to publicly owned property if such improvements are being taxed as personal property to any person.

Any prepaid contract rent shall be considered to have been paid in the year due and not in the year actually paid with respect to prepayment for a period of more than one year. Expenditures for improvements with a useful life of more than one year which are included as part of contract rent shall be treated as prepaid contract rent and prorated over the useful life of the improvement or the remaining term of the lease or agreement if the useful life is in excess of the remaining term of the lease or agreement. Rent prepaid prior to January 1, 1976, shall be prorated from the date of prepayment.

With respect to a "product lease", the value of agricultural products received as rent shall be the value at the place of delivery as of the fifteenth day of the month of delivery; with respect to all other products received as contract rent, the value shall be that value determined at the time of sale under terms of the lease.

(b) If it shall be determined by the department of revenue, upon examination of a lessee's accounts or those of a lessor of publicly owned property, that a lessee is occupying or using publicly owned property in such a manner as to create a leasehold interest and that such leasehold interest has not been established through competitive bidding, or negotiated in accordance with statutory requirements regarding the rent payable, or negotiated under circumstances, established by public record, clearly showing that the contract rent was the maximum attainable by the lessor, the department may establish a taxable rent computation for use in determining the tax payable under authority granted in this chapter based upon the following criteria: (i) Consideration shall be given to rental being paid to other lessors by lessees of similar property for similar purposes over similar periods of time; (ii) consideration shall be given to what would be considered a fair rate of return on the market value of the property leased less reasonable deductions for any restrictions on use, special operating requirements or provisions for concurrent use by the lessee, another person or the general public.

(3) "Product lease" as used in this chapter shall mean a lease of property for use in the production of agricultural or marine products to the extent that such lease provides for the contract rent to be paid by the delivery of a stated percentage of the production of such agricultural or marine products to the credit of the lessor or the
payment to the lessor of a stated percentage of the proceeds from the sale of such products.

(4) "Renegotiated" means a change in the lease agreement which changes the agreed time of possession, restrictions on use, the rate of the cash rental or of any other consideration payable by the lessee to or for the benefit of the lessor, other than any such change required by the terms of the lease or agreement. In addition "renegotiated" shall mean a continuation of possession by the lessee beyond the date when, under the terms of the lease agreement, the lessee had the right to vacate the premises without any further liability to the lessor.

(5) "City" means any city or town. [1979 1st ex.s. c 196 § 11; 1975–76 2nd ex.s. c 61 § 2.]

Effective date—1979 1st ex.s. c 196: See note following RCW 82.04.240.

82.29A.030 Tax imposed—Rate—Credit. There is hereby levied and shall be collected a leasehold excise tax on the act or privilege of occupying or using publicly owned real or personal property through a leasehold interest on and after January 1, 1976, at a rate of twelve percent of taxable rent: Provided, That after the computation of the tax there shall be allowed credit for any tax collected pursuant to RCW 82.29A.040. [1975–76 2nd ex.s. c 61 § 3.]

82.29A.040 Counties and cities authorized to impose tax—Maximum rate—Credit—Collection. The legislative body of any county or city is hereby authorized to levy and collect a leasehold excise tax on the act or privilege of occupying or using publicly owned real or personal property through a leasehold interest in publically owned property within the territorial limits of such county or city. The tax levied by a county under authority of this section shall not exceed six percent and the tax levied by a city shall not exceed four percent of taxable rent: Provided, That any county ordinance levying such tax shall contain a provision allowing a credit against the county tax for the full amount of any city tax imposed upon the same taxable event.

The department of revenue shall perform the collection of such taxes on behalf of such county or city. [1975–76 2nd ex.s. c 61 § 4.]

82.29A.050 Payment—Due dates—Collection and remittance—Liability—Reporting. (1) The leasehold excise taxes provided for in RCW 82.29A.030 and 82.29A.040 shall be paid by the lessee to the lessor and the lessor shall collect such tax and remit the same to the department of revenue. The tax shall be payable at the same time as payments are due to the lessor for use of the property from which the leasehold interest arises, and in the case of payment of contract rent to a person other than the lessor, at the time of payment. The tax payment shall be accompanied by such information as the department of revenue may require. In the case of prepaid contract rent the payment may be prorated in accordance with instructions of the department of revenue and the prorated portion of the tax shall be due, one-half not later than May 31 and the other half not later than November 30 each year.

(2) The lessee receiving taxes payable under the provisions of this chapter shall remit the same together with a return provided by the department, to the department of revenue on or before the fifteenth day of the month following the month in which the tax is collected. The department may relieve any taxpayer or class of taxpayers from the obligation of filing monthly returns and may require the return to cover other reporting periods, but in no event shall returns be filed for a period greater than one year. The lessor shall be fully liable for collection and remittance of the tax. The amount of tax until paid by the lessee to the lessor shall constitute a debt from the lessee to the lessor. The tax required by this chapter shall be stated separately from contract rent, and if not so separately stated for purposes of determining the tax due from the lessee to the lessor and from the lessor to the department, the contract rent does not include the tax imposed by this chapter. Where a lessee has failed to pay to the lessor the tax imposed by this chapter and the lessor has not paid the amount of the tax to the department, the department may, in its discretion, proceed directly against the lessee for collection of the tax: Provided, That taxes due where contract rent has not been paid shall be reported by the lessor to the department and the lessee alone shall be liable for payment of the tax to the department.

(3) Each person having a leasehold interest subject to the tax provided for in this chapter arising out of a lease of federally owned or federal trust lands shall report and remit the tax due directly to the department of revenue in the same manner and at the same time as the lessor would be required to report and remit the tax if such lessor were a state public entity. [1975–76 2nd ex.s. c 61 § 5.]

82.29A.060 Administration—Audits. All administrative provisions in chapters 82.02 and 82.32 RCW, as now or hereafter amended shall be applicable to taxes imposed pursuant to this chapter: Provided, That this section shall not authorize the issuance of any levy upon any property owned by the public lessor.

In selecting leasehold excise tax returns for audit the department of revenue shall give priority to any return an audit of which is specifically requested in writing by the county assessor or treasurer or other chief financial officer of any city or county affected by such return. Notwithstanding the provisions of RCW 82.32.330, findings of fact and determinations of the amount of taxable rent made pursuant to the provisions of this chapter shall be open to public inspection at all reasonable times. [1975–76 2nd ex.s. c 61 § 6.]

82.29A.070 Disposition of revenue. All moneys received by the department of revenue from taxes levied under provisions of RCW 82.29A.030 shall be transmitted to the state treasurer and deposited in the general fund. [1975–76 2nd ex.s. c 61 § 7.]
82.29A.080 Counties and cities to contract with state for administration and collection—Local leasehold excise tax revolving fund. The counties and cities shall contract, prior to the effective date of an ordinance imposing a leasehold excise tax, with the department of revenue for administration and collection. The department of revenue shall deduct a percentage amount, as provided by such contract, not to exceed two percent of the taxes collected, for administration and collection expenses incurred by the department. The remainder of any portion of any tax authorized by RCW 82.29A.040 which is collected by the department of revenue shall be deposited by the state department of revenue in a special fund under the custody of the state treasurer to be known as the local leasehold excise tax revolving fund. [1975–’76 2nd ex.s. c 61 § 8.]

82.29A.090 Distributions to counties and cities. Bi-monthly the state treasurer shall make distribution from the local leasehold excise tax revolving fund to the counties and cities the amount of tax collected on behalf of each county or city. [1975–’76 2nd ex.s. c 61 § 9.]

82.29A.100 Distributions by county treasurers. Any moneys received by a county from the leasehold excise tax provided for under RCW 82.29A.040 shall be distributed proportionately by the county treasurer in accordance with RCW 84.56.230 as though such moneys were receipts from regular ad valorem property tax levies within such county: Provided, That no distribution shall be made to the state or any city: And provided further, That the pro rata calculation for proportionate distribution to taxing districts shall not include consideration of any rate(s) of levy by the state or any city. [1975–’76 2nd ex.s. c 61 § 10.]

82.29A.110 Consistency and uniformity of local leasehold tax with state leasehold tax—Model ordinance. It is the intent of this chapter that any local leasehold excise tax adopted pursuant to this chapter be as consistent and uniform as possible with the state leasehold excise tax. It is further the intent of this chapter that the local leasehold excise tax shall be imposed upon an individual taxable event simultaneously with the imposition of the state leasehold excise tax upon the same taxable event. The department shall, as soon as practicable, and with the assistance of the appropriate associations of county prosecutors and city attorneys, draft a model ordinance. [1975–’76 2nd ex.s. c 61 § 11.]

82.29A.120 Allowable credits. After computation of the taxes imposed pursuant to RCW 82.29A.030 and 82.29A.040 there shall be allowed the following credits in determining the tax payable:

(1) With respect to a leasehold interest arising out of any lease or agreement, the terms of which were binding on the lessee prior to July 1, 1970, where such lease or agreement has not been renegotiated since that date, and excluding from such credit (a) any leasehold interest arising out of any lease of property covered by the provisions of RCW 28B.20.394 and (b) any lease or agreement including options to renew which extends beyond January 1, 1985, as follows:

The provisions of this chapter shall apply with respect to the taxes imposed under chapters 82.04 through *82.28 RCW of this title in such manner and to such extent as indicated in each such chapter. [1961 c 15 § 82.32.010. Prior: 1935 c 180 § 185; RRS § 8370–185.]

*Reviser's note: Chapter 82.28 RCW was repealed by 1973 1st ex.s. c 218 § 29.

82.32.020 Definitions. For the purposes of this chapter:

The meaning attributed in chapters 82.01 through *82.28 RCW to the words and phrases "tax year," "taxable year," "person," "company," "gross proceeds of sales," "gross income of the business," "business," "engaging in business," "successor," "gross operating revenue," "gross income," "taxpayer," and "value of products" shall apply equally to the provisions of this chapter. [1961 c 15 § 82.32.020. Prior: 1935 c 180 § 186; RRS § 8370–186.]

*Reviser's note: Chapter 82.28 RCW was repealed by 1973 1st ex.s. c 218 § 29.

82.32.030 Registration certificates. If any person engages in any business or performs any act upon which a tax is imposed by the preceding chapters, he shall, whether taxable or not, under such rules and regulations as the department of revenue shall prescribe, file and pay the tax accrued to the taxpayer's account. Any device described herein which does not display a registration certificate for such devices to any applicant thereof shall be considered as part of the proceeds of the sale. [1979 1st ex.s. c 95 § 1; 1975 1st ex.s. c 278 § 77; 1961 c 15 § 82.32.030. Prior: 1941 c 178 § 19, part; 1937 c 227 § 16, part; 1935 c 180 § 187, part; Rem. Supp. 1941 § 8370–187, part.]

Construction—Severability—1975 1st ex.s. c 278: See notes following RCW 11.08.160.

82.32.040 Certificates for mechanical devices. Each mechanical device, the operator of which is taxable under *chapter 82.28 RCW, shall be considered a separate place of business and a separate registration certificate shall be obtained for each such device. The issuance of any certificate for such devices to any applicant therefor may be denied by the department, if the department, after hearing, finds that the conditions of the applicant's business or prior record as a taxpayer place in jeopardy the collection of the tax. The department may require that any applicant for a certificate of registration for any such device furnish a proper surety bond sufficient to secure the payment of any tax imposed. It shall be unlawful for any person to operate such device or permit it to be operated on his premises unless a certificate of registration has been obtained and is conspicuously displayed upon such device, or for any person to operate any such device under a forged certificate of registration or under a certificate of registration not issued for such device or to the operator thereof or under a certificate of registration which has been revoked, or for any person upon making application for a certificate of registration to fail or refuse to give any information requested by the department or to give false information with intent to conceal the true name or address of the owner or operator of such device.

Any person violating the provisions of this section shall be guilty of a misdemeanor.

Any device described herein which does not display a certificate of registration, or any device which displays a forged certificate of registration or a certificate of registration not issued for such device or to the operator thereof or revoked certificate of registration, is hereby declared to be contraband and may be seized by the department, or by any peace officer of the state, when directed by the department so to do, without warrant, and shall be offered for sale by the department in the same manner as property distrained under warrant for the satisfaction of delinquent taxes. The proceeds of sale shall be paid to the department and credited to the account of miscellaneous revenue: Provided, That the costs of the seizure and sale shall be paid out of the proceeds before making remittance.

Any money contained in such devices may be removed before the device is offered for sale and the amount thereof shall be considered as part of the proceeds of the sale. [1971 ex.s. c 299 § 15; 1961 c 15 § 82.32.040. Prior: 1941 c 178 § 19; 1937 c 227 § 16, part; 1935 c 180 § 187, part; Rem. Supp. 1941 § 8370–187, part.]

*Reviser's note: Chapter 82.28 RCW was repealed by 1973 1st ex.s. c 218 § 29.

82.32.050 Deficient and delinquent payments—Penalties and interest—Limitations. If upon examination of any returns or from other information obtained by the department it appears that a tax or penalty has
been paid less than that properly due, the department shall assess against the taxpayer such additional amount found to be due and as to assessments made on and after May 1, 1965, including assessments for additional tax or penalties due prior to that date shall add thereto interest at the rate of nine percent per annum from the last day of the year in which the deficiency is incurred until date of payment. The department shall notify the taxpayer by mail of the additional amount and the same shall become due and shall be paid within ten days from the date of the notice, or within such further time as the department may provide. If payment is not received by the department by the due date specified in the notice, or any extension thereof, the department shall add a penalty of ten percent of the amount of the additional tax found due. If the department finds that all or any part of the deficiency resulted from an intent to evade the tax payable hereunder, a further penalty of fifty percent of the additional tax found to be due shall be added.

No assessment or correction of an assessment for additional taxes due may be made by the department more than four years after the close of the tax year, except (1) against a taxpayer who has not registered as required by this chapter, (2) upon a showing of fraud or of misrepresentation of a material fact by the taxpayer, or (3) where a taxpayer has executed a written waiver of such limitation. [1971 ex.s. c 299 § 16; 1965 ex.s. c 141 § 1; 1961 c 15 § 82.32.050. Prior: 1951 1st ex.s. c 9 § 5; 1949 c 228 § 20; 1945 c 249 § 9; 1939 c 225 § 27; 1937 c 227 § 17; 1935 c 180 § 188; Rem. Supp. 1949 § 8370–189.]

Effective dates—Severability—1971 ex.s. c 299: See notes following RCW 82.04.050.

82.32.060 Excess payment—Credit or refund—Payment of judgments for refund. If, upon receipt of an application by a taxpayer for a refund or for an audit of his records, or upon an examination of the returns or records of any taxpayer, it is determined by the department that within the statutory period for assessment of taxes prescribed by RCW 82.32.050 a tax has been paid in excess of that properly due, the excess amount paid within such period shall be credited to the taxpayer's account or shall be refunded to the taxpayer, at his option. No refund or credit shall be made for taxes paid more than four years prior to the beginning of the calendar year in which the refund application is made or examination of records is completed.

Notwithstanding the foregoing limitations there shall be refunded or credited to taxpayers engaged in the performance of United States government contracts or subcontracts the amount of any tax paid, measured by that portion of the amounts received from the United States, which taxpayer is required by contract or applicable federal statute to refund or credit to the United States, if claim for such refund is filed by the taxpayer with the department within one year of the date that the amount of the refund or credit due to the United States is finally determined and filed within four years of the date on which the tax was paid: Provided, That no interest shall be allowed on such refund.

Any such refunds shall be made by means of vouchers approved by the department and by the issuance of state warrants drawn upon and payable from such funds as the legislature may provide.

Any judgment for which a recovery is granted by any court of competent jurisdiction, not appealed from, for tax, penalties, and interest which were paid by the taxpayer, and costs, in a suit by any taxpayer shall be paid in like manner, upon the filing with the department of a certified copy of the order or judgment of the court. Except as to the credits in computing tax authorized by RCW 82.04.435, interest at the rate of three percent per annum shall be allowed by the department and by any court on the amount of any refund or recovery allowed to a taxpayer for taxes, penalties, or interest paid by him after May 1, 1949, and interest at the same rate shall be allowed on any judgment recovered by a taxpayer for taxes, penalties, or interest paid after such date. [1979 1st ex.s. c 95 § 4; 1971 ex.s. c 299 § 17; 1965 ex.s. c 173 § 27; 1963 c 22 § 1; 1961 c 15 § 82.32.060. Prior: 1951 1st ex.s. c 9 § 6; 1949 c 228 § 21; 1935 c 180 § 189; Rem. Supp. 1949 § 8370–189.]

Effective dates—Severability—1971 ex.s. c 299: See notes following RCW 82.04.050.

82.32.070 Records to be preserved—Examination—Estoppel to question assessment. Every person liable for any fee or tax imposed by chapters 82.04 through *82.28 RCW shall keep and preserve, for a period of five years, suitable records as may be necessary to determine the amount of any tax for which he may be liable, which records shall include copies of all federal income tax and state tax returns and reports made by him. All his books, records, and invoices shall be open for examination at any time by the department of revenue. In the case of an out-of-state person or concern which does not keep the necessary books and records within this state, it shall be sufficient if it produces within the state such books and records as shall be required by the department of revenue, or permits the examination by an agent authorized or designated by the department of revenue at the place where such books and records are kept. Any person who fails to comply with the requirements of this section shall be forever barred from questioning, in any court action or proceedings, the correctness of any assessment of taxes made by the department of revenue based upon any period for which such books, records, and invoices have not been so kept and preserved.

Any person claiming a credit against the tax imposed by chapter 82.04 RCW by reason of the provisions of RCW 82.04.435 shall keep and preserve until the claim has been verified or allowed by the department of revenue sufficient books, records and invoices to prove the right to and amount of such claim for credit, and no such claim shall be allowed by the department of revenue unless such books, records and invoices have been kept and preserved. [1967 ex.s. c 89 § 2; 1961 c 15 § 82.32.070. Prior: 1951 1st ex.s. c 9 § 7; 1935 c 180 § 190; RRS § 8370–190.]

82.32.080 Payment by check—Mailing returns or remittances—Time extension—Payments must accompany return. Payment of the tax may be made by uncertified check under such regulations as the department shall prescribe, but, if a check so received is not paid by the bank on which it is drawn, the taxpayer, by whom such check is tendered, shall remain liable for payment of the tax and for all legal penalties, the same as if such check had not been tendered.

A return or remittance which is transmitted to the department by United States mail shall be deemed filed or received on the date shown by the post office cancellation mark stamped upon the envelope containing it.

The department, for good cause shown, may extend the time for making and filing any return, and may grant such reasonable additional time within which to make and file returns as it may deem proper, but any permanent extension granting the taxpayer a reporting date without penalty more than ten days beyond the due date, and any extension in excess of thirty days shall be conditional on deposit with the department of an amount to be determined by the department which shall be approximately equal to the estimated tax liability for the reporting period or periods for which the extension is granted. In the case of a permanent extension or a temporary extension of more than thirty days the deposit shall be deposited within the state treasury with other tax funds and a credit recorded to the taxpayer’s account which may be applied to taxpayer’s liability upon cancellation of the permanent extension or upon reporting of the tax liability where an extension of more than thirty days has been granted.

The department shall review the requirement for deposit at least annually and may require a change in the amount of the deposit required when it believes that such amount does not approximate the tax liability for the reporting period or periods for which the extension is granted.

The department shall keep full and accurate records of all funds received and disbursed by it. Subject to the provisions of RCW 82.32.105 and 82.32.350, the department shall apply the payment of the taxpayer first against penalties and interest, and then upon the tax, without regard to any direction of the taxpayer.

The department may refuse to accept any return which is not accompanied by a remittance of the tax shown to be due thereon. When such return is not accepted, the taxpayer shall be deemed to have failed or refused to file a return and shall be subject to the procedures provided in RCW 82.32.100 and to the penalties provided in RCW 82.32.090. No penalty so added shall be less than two dollars.

If payment of any tax is received within the first ten days of the month next succeeding the month in which the tax is payable, the amount of such payment shall be credited to, and shall be treated for all purposes as having been collected during, the fiscal year which includes the month preceding the month in which such due date falls.

If a warrant be issued by the department of revenue for the collection of taxes, increases, and penalties, there shall be added thereto a penalty of five percent of the amount of the tax, but not less than five dollars.

Notwithstanding the foregoing, the aggregate of penalties imposed under this chapter for failure to file a return, late payment of any tax, increase, or penalty, or issuance of a warrant shall not exceed twenty-five percent of the tax due, or seven dollars, whichever is greater. Notwithstanding the provisions of RCW 82.32.090 to the contrary, beginning July 1, 1986, if payment of any tax is received within the first ten days of the month next succeeding the month in which the due date falls, the amount of such payment shall be credited to, and shall be treated for all purposes as having been collected during, the fiscal year in which such due date falls. [1975-76 2nd ex.s. c 70 § 1.]

82.32.100 Failure to file returns—Assessment of tax by department—Penalties. If any person fails or refuses to make any return or to make available for examination the records required by this chapter, the department shall proceed, in such manner as it may deem best, to obtain facts and information on which to base its estimate of the tax; and to this end the department may examine the books, records, and papers of any such person and may take evidence, on oath, of any person, relating to the subject of inquiry.

As soon as the department procures such facts and information as it is able to obtain upon which to base the assessment of any tax payable by any person who has failed or refused to make a return, it shall proceed to determine and assess against such person the tax and penalties due, but such action shall not deprive such person from appealing to the superior court as hereinafter provided. To the assessment the department shall add, the penalties provided in RCW 82.32.090. The department shall notify the taxpayer by mail of the total amount of such tax, penalties, and interest, and the total amount shall become due and shall be paid within ten days from the date of such notice.

No assessment or correction of an assessment may be made by the department more than four years after the close of the tax year, except (1) against a taxpayer who has not registered as required by this chapter, (2) upon a showing of fraud or of misrepresentation of a material fact by the taxpayer, or (3) where a taxpayer has executed a written waiver of such limitation. 82.32.105 Waiver or cancellation of interest or penalties. If the department of revenue finds that the payment by a taxpayer of a tax less than that properly due or the failure of a taxpayer to pay any tax by the due date was the result of circumstances beyond the control of the taxpayer, the department of revenue shall waive or cancel any interest or penalties imposed under this chapter with respect to such tax. The department of revenue shall prescribe rules for the waiver or cancellation of interest or penalties imposed by this chapter. Notwithstanding the foregoing the amount of any interest which has been waived, canceled or refunded prior to May 1, 1965 shall not be reassessed according to the provisions of this chapter. The persons summoned may be required to testify and produce any books, papers, records, or data required by the department with respect to any tax, or the liability of any person therefor.

The director of the department of revenue, or any duly authorized agent thereof, shall have power to administer an oath to the person required to testify; and any person giving false testimony after the administration of such oath shall be guilty of perjury in the first degree.

If any person summoned as a witness before the department, or its authorized agent, fails or refuses to obey the summons, or refuses to testify or answer any material questions, or to produce any book, record, paper, or data when required to do so, he shall be guilty of contempt, and the department shall thereupon institute proceedings in the superior court of Thurston county, or of the county in which such person resides, to punish him as for contempt of court. Failure of the taxpayer to receive such notice
or order whether served or mailed shall not release the taxpayer from any tax or any increases or penalties thereon. [1979 1st ex.s. c 95 § 2; 1975 1st ex.s. c 278 § 81; 1967 c 237 § 20; 1961 c 15 § 82.32.130. Prior: 1935 c 180 § 196; RRS § 8370–196.]

No successor shall be liable for any tax due from the person from whom he has acquired a business or stock of goods if he gives written notice to the department of revenue of such acquisition and no assessment is issued by the department of revenue within six months of receipt of such notice against the former operator of the business and a copy thereof mailed to such successor. records, and invoices as required in this chapter and chapter 82.24 RCW, having paid any tax as required and feeling aggrieved by the amount of the tax may appeal to the superior court of Thurston county, within the time limitation for a refund provided in chapter 82.32 RCW. In the appeal the taxpayer shall set forth the amount of the tax imposed upon him which he concedes to be the correct tax and the reason why the tax should be reduced or abated. The appeal shall be perfected by serving a copy of the notice of appeal upon the department within the time herein specified and by filing the original thereof with proof of service with the clerk of the superior court of Thurston county. Within ten days after filing notice of appeal, the taxpayer shall file with the clerk of the superior court a good and sufficient surety bond payable to the state in the sum of two hundred dollars, conditioned to diligently prosecute the appeal and pay the state all costs that may be awarded if the appeal of the taxpayer is not sustained.

The trial in the superior court on appeal shall be de novo and without the necessity of any pleadings other than the notice of appeal. The burden shall rest upon the taxpayer to prove that the tax as paid by him is incorrect, either in whole or in part, and to establish the correct amount of the tax. In such proceeding the taxpayer shall be deemed the plaintiff, and the state, the defendant; and both parties shall be entitled to subpoena the attendance of witnesses as in other civil actions and to produce evidence that is competent, relevant, and material to determine the correct amount of the tax that should be paid by the taxpayer. Either party shall be allowed to appeal to the supreme court or the court of appeals in the same manner as other civil actions are appealed to those courts.

It shall not be necessary for the taxpayer to protest against the payment of any tax or to make any demand to have the same refunded or to petition the director for a hearing in order to appeal to the superior court, but no court action or proceeding of any kind shall be maintained by the taxpayer to recover any tax paid, or any part thereof, except as herein provided.

The provisions of this section shall not apply to any tax payment which has been the subject of an appeal to the board of tax appeals with respect to which appeal a formal hearing has been elected. If any tax, increase, or penalty or any portion thereof is not paid within fifteen days after it becomes due, the department of revenue may issue a warrant under its official seal directed to the sheriff of any county of the state, commanding him to levy upon and sell the real and/or personal property of the taxpayer found within his county, or so much thereof as may be necessary, for the payment of the amount of such warrant, together with interest thereon at the rate of one percent of the amount of such warrant for each thirty days or portion thereof after the date of such warrant, plus the cost of executing the warrant, and return the warrant to the department of revenue and pay to it the money collected by virtue thereof within sixty days after the receipt of the warrant. If, however, the department of revenue believes that a taxpayer is about to cease business, leave the state, or remove or dissipate the assets out of which taxes or penalties might be satisfied and that any tax or penalty will not be paid when due, it may declare the tax or penalty to be immediately due and payable and may issue a warrant immediately.

If any warrant issued under this chapter is not paid within thirty days after it has been filed with the clerk of the superior court, or if any taxpayer shall, for three consecutive reporting periods, be delinquent in the transmission to the department of revenue of retail sales tax collected by him, the department of revenue may by order issued under its official seal, revoke the certificate of registration of the taxpayer against whom the warrant was issued, and, if such order is entered, a copy thereof shall be posted in a conspicuous place at the main entrance to the taxpayer's place of business and shall remain posted until such time as the warrant has been paid. Any certificate so revoked shall not be reinstated, nor shall a new certificate of registration be issued to the taxpayer, until the amount due on the warrant has been
paid, or provisions for payment satisfactory to the department of revenue have been entered, and until the taxpayer has deposited with the department of revenue such security for payment of any taxes, increases, and penalties, due or which may become due in an amount and under such terms and conditions as the department of revenue may require, but the amount of the security shall not be greater than one-half the estimated average annual liability of the taxpayer. [1967 ex.s. c 89 § 3; 1961 c 15 § 82.32.210. Prior: 1955 c 389 § 38; prior: 1951 1st ex.s. c 9 § 13; 1949 c 228 § 225, part; 1937 c 227 § 20, part; 1935 c 180 § 202, part; Rem. Supp. 1949 § 8370–202, part.]

82.32.220 Execution of warrant—Lien—Satisfaction. The sheriff shall file with the clerk of the superior court of his county a copy of the warrant, and thereupon the clerk shall enter in the judgment docket, the name of the taxpayer mentioned in the warrant and in appropriate columns the amount of the tax or portion thereof and any increases and penalties for which the warrant is issued and the date when such copy is filed, and thereupon the amount of such warrant so docketed shall become a specific lien upon all goods, wares, merchandise, fixtures, equipment, or other personal property used in the conduct of the business of the taxpayer against whom such warrant is issued, including property owned by third persons who have a beneficial interest, direct or indirect, in the operation of the business, and no sale or transfer of such personal property shall in any way affect such lien. The lien shall not be superior, however, to bona fide interests of third persons which had vested prior to the filing of the warrant when such third persons do not have a beneficial interest, direct or indirect, in the operation of the business, other than the securing of the payment of a debt or the receiving of a regular rental on equipment: Provided, however, That the phrase "bona fide interests of third persons" shall not include any mortgage of real or personal property or any other credit transaction that results in the mortgage or the holder of the security acting as trustee for unsecured creditors of the taxpayer mentioned in the warrant who executed such chattel or real property mortgage or the document evidencing such credit transaction. The amount of such warrant so docketed shall thereupon also become a lien upon the title to and interest in all other real and personal property of the taxpayer against whom it is issued the same as a judgment in a civil case duly docketed in the office of such clerk, and the sheriff shall thereupon proceed upon the same in all respects and with like effect as prescribed by law with respect to execution or other process issued against rights or property upon judgments of the superior court. Such warrants so docketed shall be sufficient to support the issuance of writs of garnishment in favor of the state in the manner provided by law in the case of judgments wholly or partially unsatisfied.

The sheriff shall be entitled to fees as provided by law for his services in levying execution on a superior court judgment and the clerk shall be entitled to a filing fee as provided by law, which shall be added to the amount of the warrant.

The proceeds received from any sale shall be credited upon the amount due under the warrant and when the final amount due is received, together with interest, penalties, and costs, the judgment docket shall show the claim for taxes to be satisfied and the clerk of the court shall so note upon the docket. Any surplus received from any sale of property shall be paid to the taxpayer or to any lien holder entitled thereto. If the return on the warrant shows that the same has not been satisfied in full, the amount of the deficiency shall remain the same as a judgment against the taxpayer which may be collected in the same manner as the original amount of the warrant. 82.32.230 Agent of the department of revenue may execute. In the discretion of the department of revenue, a warrant of like terms, force, and effect may be issued and directed to any agent of the department authorized to collect taxes, and in the execution thereof such agent shall have all the powers conferred by law upon sheriffs, but shall not be entitled to any fee or compensation in excess of the actual expenses paid in the performance of such duty, which shall be added to the amount of the warrant. 82.32.235 Notice and order to withhold and deliver property due or owned by taxpayer—Bond—Judgment by default. In addition to the remedies provided in this chapter the department is hereby authorized to issue to any person, or to any political subdivision or department of the state, a notice and order to withhold and deliver property of any kind whatsoever when there is reason to believe that there is in the possession of such person, political subdivision or department, property which is or shall become due, owing, or belonging to any taxpayer against whom a warrant has been filed.

The notice and order to withhold and deliver shall be served by the sheriff of the county wherein the service is made, or by his deputy, or by any duly authorized representative of the department. Any person, or any political subdivision or department upon whom service has been made is hereby required to answer the notice within twenty days exclusive of the day of service, under oath and in writing, and shall make true answers to the matters inquired of in the notice.

In the event there is in the possession of any such person or political subdivision or department, any property which may be subject to the claim of the department, such property shall be delivered forthwith to the department of revenue or its duly authorized representative upon demand to be held in trust by the department.
for application on the indebtedness involved or for return, without interest, in accordance with final determination of liability or nonliability, or in the alternative, there shall be furnished a good and sufficient bond satisfactory to the department conditioned upon final determination of liability.

Should any person or political subdivision fail to make answer to an order to withhold and deliver within the time prescribed herein, it shall be lawful for the court, after the time to answer such order has expired, to render judgment by default against such person or political subdivision for the full amount claimed by the department in the notice to withhold and deliver, together with costs. 82.32.240 Tax constitutes debt—Priority of lien. Any tax due and unpaid and all increases and penalties thereon, shall constitute a debt to the state and may be collected by court proceedings in the same manner as any other debt in like amount, which remedy shall be in addition to any and all other existing remedies.

In all cases of probate, insolvency, assignment for the benefit of creditors, or bankruptcy, involving any taxpayer, the claim of the state for said taxes and all increases and penalties thereon shall be a lien upon all real and personal property of the taxpayer, and the mere existence of such cases or conditions shall be sufficient to create such lien without any prior or subsequent action by the state, and in all such cases it shall be the duty of all administrators, executors, guardians, receivers, trustees in bankruptcy or assignees for the benefit of creditors, to notify the department of revenue of such administration, receivership or assignment within thirty days from the date of their appointment and qualification.

The lien provided for by this section shall attach as of the date of the assignment for the benefit of creditors or of the initiation of the probate, insolvency, or bankruptcy proceedings: Provided, That this sentence shall not be construed as affecting the validity or priority of any earlier lien that may have attached previously in favor of the state under any other section of this title.

Any administrator, executor, guardian, receiver or assignee for the benefit of creditors not giving the notification as provided for above shall become personally liable for payment of the taxes and all increases and penalties thereon. In making such determination, the appropriate control agency shall afford to the applicant an opportunity for a hearing: Provided, That if the local or regional air pollution control agency fails to act or if the applicant feels aggrieved by the action of the local or regional air pollution control agency, such applicant may appeal to the state air pollution control board pursuant to rules and regulations established by that board. (1) On and after July 30, 1967, an application for a determination of the cost of an existing or newly completed pollution control facility may be filed with the department in such manner and in such form as may be prescribed by the department. The application shall contain the final cost figures for the installation of the facility and reasonable supporting documents and other proof as required by the department. In the event such facility is not already covered by a certificate issued for the purpose of authorizing the tax exemption or credit provided for in this chapter, the department shall seek the approval of the facility from the appropriate control agency. The department shall determine the final cost of the pollution control facility and issue a supplement to the existing certificate or an original certificate stating the cost of the pollution control facility; Provided, That the cost of an existing pollution control facility shall be the depreciated value thereof at the time of application filed pursuant to this section.

The amount of such credit shall be two percent of the cost of a facility covered by the certificate for each year the certificate remains in force. Such credits shall be cumulative and shall be subject only to the following limitations:

(a) No credit exceeding fifty percent of the taxes payable under chapters 82.04, 82.12 and 82.16 RCW shall be allowed in any reporting period;

(3) Applicants and certificate holders shall provide the department with information showing the net commercial value of materials captured or recovered by a facility and shall make all pertinent books and records available for examination by the department for the purposes of determining the credit provided by this chapter. (1) The certificate or supplement thereto was obtained by fraud or misrepresentation, or the holder of the certificate has failed substantially without good cause to proceed with the construction, reconstruction, installation or acquisition of a facility or without good cause has failed substantially to operate the facility for the purpose specified by the appropriate control agency in which case the department shall modify or revoke the certificate. If the certificate and/or supplement are revoked, all applicable taxes from which an exemption has been secured under this chapter or against which the credit provided for by this chapter has been claimed shall be immediately due and payable with the maximum interest and penalties prescribed by applicable law. No statute of limitations shall operate in the event of fraud or misrepresentation.

(2) The facility covered by the certificate or supplement thereto is no longer operated primarily for the purpose of the control or reduction of water pollution or the control, capture, and removal of pollutants from the air, as the case may be, or is no longer suitable or reasonably adequate to meet the intent and purposes of chapter 70.94 RCW or chapter 90.48 RCW, in which case the certificate shall be modified or revoked.

COGENERATION FACILITIES—TAX CREDITS

Sections 82.35.010 Intent. 82.35.020 Definitions. 82.35.030 Application for cogeneration tax credit certificate—Contents—Approval—Issuance of certificate—Review of certificate—Issuance of modified certificate or supplement—Rules—Expiration of section. 82.35.040 Issuance of certificate—Limitations—Tabulation of costs incurred—Administrative rules. 82.35.050 Credit against taxes—Conditions—Amount—Limitations. 82.35.060 Modified certificates and supplements to existing certificates—Expiration of section. 82.35.070 Issuance of certificate or supplement and notice of refusal to issue certificate or supplement—Certified mail. 82.35.080 Revocation of certificate—Grounds—Continuance of certificate—Liability for money saved—Technical assistance. 82.35.900 Severability—1979 1st ex.s. c 191.

82.35.010 Intent. The state of Washington has a large and growing need for electrical energy. The state of Washington possesses a great potential for the generation of electrical or mechanical power and useful heat energy through the process of cogeneration. It is the purpose and intent of the legislature to promote the growth of cogeneration in the state of Washington. [1979 1st ex.s. c 191 § 1.]

Effectiveness monitor—Study—Report: "The house and senate energy and utilities committees are authorized and directed to monitor the effectiveness of the business and occupation tax credit and property tax exemption for cogeneration facilities as an incentive for the implementation of cogeneration, and to study the cost and effectiveness of alternative state incentives for cogeneration, including, but not limited to direct grants, loans, other tax incentives, and partial funding for feasibility studies. The committees shall report their findings and recommendations to the forty-seventh legislature of the state of Washington convened in regular session." [1979 1st ex.s. c 191 § 12.]

82.35.020 Definitions. As used in this chapter, the following terms have the meanings indicated unless the context clearly requires otherwise.

(1) "Cogeneration" means the sequential generation of electrical or mechanical power and useful heat from the same primary energy source or fuel.

(2) "Cogeneration facility" means any machinery, equipment, structure, process, or property, or any part thereof, installed or acquired for the primary purpose of cogeneration by a person or corporation other than an electric utility.

(3) "Certificate" means a cogeneration tax credit certificate granted by the department.

(4) "Cost" means only the cost of a cogeneration facility which is in addition to the cost that the applicant otherwise would incur to meet the applicant's demands for useful heat. "Cost" does not include expenditures which are offset by cost savings, including but not limited to savings resulting from early retirement of existing equipment.

(5) "Department" means the department of revenue.

(6) "Electric utility" means any person, corporation, or governmental subdivision authorized and operating under the Constitution and laws of the state of Washington which is primarily engaged in the generation or sale of electric energy.

(7) "Office" means the state energy office. [1979 1st ex.s. c 191 § 2.]
82.35.030 Application for cogeneration tax credit certificate—Contents—Approval—Issuance of certificate—Review of certificate or supplement—Rules—Expiration of section. (1) An application for a certificate shall be filed with the department. The application shall contain the estimated or actual cost, plans, and specifications of the cogeneration facility, including all materials incorporated or to be incorporated therein, and a list describing and showing all expenditures made by the applicant for the purpose of cogeneration, together with the operating procedure for the facility, and if the facility has not been constructed, a time schedule for the acquisition and installation or attachment of the cogeneration facility and the proposed operating procedure for the cogeneration facility.

(2) The department shall provide a copy of the application to the energy office within ten days after receipt thereof. Within sixty days after receipt of the application from the department, the office shall approve the application but only if it first determines that construction of the cogeneration facility began or will begin after September 1, 1979, that the cogeneration facility is designed and is operated or will be operated primarily for cogeneration, and that the cogeneration facility is suitable, reasonably adequate, and meets the intent and purposes of this chapter.

(3) Within ten days after approval of the application, the office shall provide a copy thereof to the department. Within thirty days after receipt thereof the department shall issue the certificate but only if it finds that the cost data in the application is accurate. If the application contains estimated cost data, the certificate shall be conditioned upon the applicant providing sufficient information for the department to determine the actual cost of the cogeneration facility on the date it becomes operational. Within sixty days after the cogeneration facility is operational the department shall review the certificate. If the actual cost of the cogeneration facility is less than the cost shown in the certificate, the department shall issue a modified certificate or a supplement to the original certificate, showing the actual cost of the cogeneration facility.

(4) The department, with the approval of the office, may adopt rules specifying the administrative procedures applicable to applications for certification, the form and manner in which the applications shall be filed and additional information to be contained therein. The rules shall apply to administrative procedures before both the office and the department. An applicant shall have the opportunity for a hearing before the office and the department in respect to their respective decisions granting or denying approval or certification.

This section shall expire on December 31, 1984. [1979 1st ex.s. c 191 § 3.]

82.35.040 Issuance of certificate—Limitations—Tabulation of costs incurred—Administrative rules. (1) No certificate or supplement may be issued after December 31, 1984.

(2) The department shall keep a running tabulation of the total cogeneration facility costs incurred or planned to be incurred pursuant to certificates or supplements issued under this chapter. The department may not issue any new certificate or any supplement if the certificate or supplement would result in the tabulation exceeding one hundred million dollars. Nothing in this section shall be deemed to bar any certificate holder from amending the certificate or obtaining a supplement thereto so long as the amendment or supplement is issued prior to December 1, 1984, and does not increase the total amount of cogeneration facility costs incurred or planned to be incurred under the original certificate.

(3) The department may adopt any rules under chapter 34.04 RCW it considers necessary for the administration of this chapter. [1979 1st ex.s. c 191 § 4.]

82.35.050 Credit against taxes—Conditions—Amount—Limitations. When a cogeneration facility is operational and a certificate pertaining thereto has been issued, a credit may be claimed against taxes imposed under chapter 82.04 RCW, if the due date for payment of the taxes is after the effective date of the certificate: Provided, That the date on which the facility is operational is no more than four years after the date of issuance of the certificate. The amount of the credit shall be two percent of the cost of a facility covered by the certificate for each year the certificate remains in force. The credits shall be cumulative and shall be subject only to the following limitations:

(1) The tax credit shall apply to capital costs only and shall not apply to operating costs.

(2) A person, firm, corporation, or organization which acquires a cogeneration facility shall be entitled to the credit only to the extent that it has previously not been taken. Under no circumstances may a credit be taken more than once against any cost or portion thereof of a cogeneration facility.

(3) No credit exceeding fifty percent of the taxes payable under chapter 82.04 RCW shall be allowed in any reporting period.

(4) The total cumulative amount of the credits allowed for any cogeneration facility covered by a certificate shall not exceed fifty percent of the cost of the cogeneration facility.

(5) The total cumulative amount of credits against state taxes authorized by this chapter shall be reduced by the total amount of any federal investment credit or other federal tax credit actually received by the certificate holder applicable to the cogeneration facility. This reduction shall be made as an offset against the credit claimed in the first reporting period following the allowance of the investment credit, or other credit, and thereafter as an offset against any credit balance as it shall become available to the certificate holder. [1979 1st ex.s. c 191 § 5.]

82.35.060 Modified certificates and supplements to existing certificates—Expiration of section. If subsequent to the issuance of a certificate for a cogeneration facility and prior to December 31, 1984, a determination is made to modify or replace the cogeneration facility, the holder of the certificate may file an application for a
modified certificate or supplement to the existing certificate covering the modified or replacement cogeneration facility in accordance with the procedures set forth in this chapter for original certificates and supplements. After the issuance by the department of any modified certificate or supplement, all subsequent tax credits and exemptions for the cogeneration facility shall be based on the modified certificate or supplement and shall be exclusively based on the cost shown in the modified or supplemented certificate.

This section shall expire on December 31, 1984. [1979 1st ex.s. c 191 § 6.]

82.35.070 Issuance of certificate or supplement and notice of refusal to issue certificate or supplement—Certified mail. The department shall send a certificate or supplement, when issued, by certified mail to the applicant. Notice of the department's refusal to issue a certificate or supplement shall likewise be sent to the applicant by certified mail. [1979 1st ex.s. c 191 § 7.]

82.35.080 Revocation of certificate—Grounds—Continuance of certificate—Liability for money saved—Technical assistance. (1) Except as provided in subsection (2) of this section, the department shall revoke any certificate issued under this chapter if it finds that any of the following have occurred with respect to the certificate:

(a) The certificate was obtained by fraud or deliberate misrepresentation;

(b) The certificate was obtained through the use of inaccurate data but without any intention to commit fraud or misrepresentation;

(c) The facility was constructed or operated in violation of any provision of this chapter or provision imposed by the department as a condition of certification; or

(d) The cogeneration facility is no longer capable of being operated for the primary purpose of cogeneration.

(2) If the department finds that there are few inaccuracies under subsection (1)(b) of this section and that cumulatively they are insignificant in terms of the cost or operation of the facility or that the inaccurate data is not attributable to carelessness or negligence and its inclusion was reasonable under the circumstances, then the department may provide for the continuance of the certificate and whatever modification it considers in the public interest.

(3) Any person, firm, corporation, or organization that obtains a certificate revoked under this section shall be liable for the total amount of money saved by claiming the credits and exemptions provided under this chapter and RCW 84.36.485. The total amount of the credits shall be collected as delinquent business and occupation taxes, and the total of the exemptions shall be collected and distributed as delinquent property taxes. Interest shall accrue on the amounts of the credits and exemptions from the date the taxes were otherwise due.

(4) The office shall provide technical assistance to the department in carrying out its responsibilities under this section. [1979 1st ex.s. c 191 § 8.]

82.35.900 Severability—1979 1st ex.s. c 191. If any provision of this 1979 act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected. [1979 1st ex.s. c 191 § 13.]

82.36.025 Computation of motor vehicle fuel tax rate—Department of licensing determination—When—Limitations—Factors—Notice of unanticipated federal funds. (1) (a) During the fifth month of each fiscal half-year ending June 30th and December 31st of each year, the department of licensing shall compute a motor vehicle fuel tax rate to the nearest one-half cent per gallon of motor vehicle fuel by multiplying twenty-one and one-half percent times the weighted average retail sales price of motor vehicle fuel, per gallon, sold within the state in the third month of such fiscal half-year. The department of licensing shall determine the weighted average retail sales price of motor vehicle fuel by state-wide sampling and survey techniques designed to reflect such prices for the third month of such fiscal half-year. The department shall establish reasonable guidelines for its sampling and survey methods.

(b) Subject to provisions of subsections (2) and (3) of this section the excise tax rate computed in the manner provided in subsection (1) of this section shall apply to the sale, distribution, or use of motor vehicle fuel beginning the fiscal half-year following computation of the rate and shall remain in effect for each succeeding fiscal half-year until a subsequent computation requires a change in the rate. For the first fiscal half-year after July 1, 1977, the motor vehicle fuel tax shall be eleven cents per gallon.

(2) (a) The motor vehicle fuel tax rate for any fiscal half-year shall not exceed twelve cents per gallon nor exceed a rate as computed in this subsection.

(b) Each fiscal half-year at the time the department of licensing computes the excise tax rate for the ensuing fiscal half-year of a biennium, the department shall estimate the total aggregate motor vehicle fuel tax revenues and the total of all other state revenues which will accrue to the motor vehicle fund during the full biennium. The estimated total aggregate motor vehicle fuel tax revenues for the biennium shall include those revenues which have accrued to the motor vehicle fund for the half-year or half-years of the biennium that have then elapsed plus revenues which the department determines will accrue during the remaining fiscal half-years of the biennium, assuming the sale, distribution, and use of motor vehicle fuel and special fuel within the state for the remaining fiscal half-years of the biennium shall be at the same volume as during the fiscal half-year just ended, adjusted however for the historic variations in sales, distribution, and use according to half-yearly periods and for projected trends, and at the weighted average retail sales price of motor vehicle fuel as last determined by the department of licensing. The estimated total of all other state revenues to accrue to the motor vehicle fund during the biennium shall include those revenues (other than the aggregate motor vehicle fuel tax revenues) which have accrued to the motor vehicle fund for the half-year or half-years of the biennium that have then elapsed plus revenues which the department of transportation with the concurrence of the office of financial management determines will accrue during the remaining fiscal half-years of the biennium, assuming that collections of such revenues for the remaining fiscal half-years of the biennium shall be at the same level as during the fiscal half-year just ended, adjusted however for historic variations in collections according to half-yearly periods and for projected trends, and shall include state revenues in the motor vehicle fund balance as of the end of the prior biennium as certified by the state treasurer, less an appropriate minimum balance for the biennium as determined by the department of transportation with the concurrence of the office of financial management and the proceeds of the sale of bonds but shall not include reimbursements to the motor vehicle fund for services performed by the department of transportation for others.

(c) If the estimated biennial aggregate motor vehicle fuel tax revenues as computed in paragraph (b) of this
subsection, exceed the total of all appropriations, reappropriations, and transfers of state revenues from the motor vehicle fund for the biennium (less the estimated total of all other state revenues which will accrue to the motor vehicle fund during the biennium as computed in paragraph (b) of this subsection) by more than five percent thereof, the rate of the motor vehicle fuel tax (computed as provided in subsection (1) of this section) shall be reduced by one-half cent increments, commencing at the beginning of the ensuing fiscal half-year, as may be necessary to reduce such estimated total revenues for the full biennium to within the total of such appropriations, reappropriations, and transfers plus five percent thereof.

(3) (a) Notwithstanding any other provisions of this section the excise tax rate for any fiscal half-year shall not be less than nine cents per gallon nor less than the rate as computed in this subsection.

(b) Each fiscal half-year at the time the department of licensing computes the excise tax rate for the ensuing fiscal half-year of a fiscal year, the department shall estimate the total aggregate motor vehicle fuel tax revenues which will accrue to the motor vehicle fund during such fiscal year in the same manner that such revenues are estimated for a full biennium. If such estimated aggregate motor vehicle fuel tax revenues for the fiscal year are less than an amount equal to the aggregate motor vehicle fuel tax revenues collected during the fiscal year ending June 30, 1973, increased by six percent per year compounded annually for each year which has elapsed from June 30, 1973, to June 30th of the fiscal year for which estimated aggregate motor vehicle fuel tax revenues were computed, the department shall increase the rate of the excise tax by one-half cent increments, but not to exceed a total excise tax of twelve cents per gallon, commencing at the beginning of the ensuing fiscal half-year as necessary to produce estimated aggregate motor vehicle fuel tax revenues for such fiscal year as great as such revenues collected during the 1973 fiscal year increased by six percent per year compounded annually from June 30, 1973, to June 30th of the fiscal year for which such minimum half-yearly tax rate is being computed.

(4) (a) Except as otherwise provided in paragraph (b) of this subsection, if the department of transportation receives notification that unanticipated federal funds in excess of one million dollars above appropriations of federal funds from the motor vehicle fund for a biennium will be received for expenditure during that biennium, the department of transportation shall give notice to the governor and the standing committees on transportation of the house and senate of its determination. If both the governor and the standing committees concur in the department of transportation's determination, the unanticipated federal funds shall not be considered by the department of licensing in computing the estimated total of all other state revenues to accrue during the biennium under paragraph (b) of subsection (2) of this section.

(b) Upon receipt by the department of transportation of notification that unanticipated federal funds in excess of one million dollars above appropriations of federal funds from the motor vehicle fund for a biennium will be received for expenditure during that biennium, if the department of transportation determines that such funds or any part thereof may not legally or operationally be substituted for purposes for which state motor vehicle fund moneys have been appropriated, or determines that substitution of such federal funds for state funds would delay the construction of needed highway improvements, the department of transportation shall forthwith notify the governor and the standing committees on transportation of the house and senate of its determination. If both the governor and the standing committees concur in the department of transportation's determination, the unanticipated federal funds shall not be considered by the department of licensing in computing the estimated total of all other state revenues to accrue during the biennium under paragraph (b) of subsection (2) of this section.

If any distributor fails to file such report, the director shall proceed forthwith to determine from the best available sources, the amount of motor vehicle fuel sold, distributed, or used by such distributor for the unreported period, and said determination shall be presumed to be correct for that period until proved by competent evidence to be otherwise. The director shall immediately assess the excise tax in the amount so determined, adding thereto a penalty of ten percent for failure to report. Such penalty shall be cumulative of other penalties herein provided. All statements filed with the director, as required in this section, shall be public records.

The amount of excise tax for each month shall be paid to the director on or before the twenty-fifth day of the next month thereafter, and if not paid prior thereto, shall become delinquent at the close of business on that day, and a penalty of one percent of such excise tax must be added thereto for delinquency. Provided. That in no case shall the penalty be more than five hundred dollars. Any motor vehicle fuel tax, penalties, and interest payable under the provisions of this chapter shall bear interest at the rate of one-half of one percent per month, or fraction thereof, from the first day of the calendar month after the close of the monthly period for which
the amount or any portion thereof should have been paid until the date of payment: Provided, That the interest charge on the unpaid excise tax shall be waived when such interest is less than five dollars: And provided further, That the department may waive the interest on the unpaid excise tax when the interest exceeds five dollars and the department determines that the cost of processing the collection of the interest exceeds the amount of interest due.

[1961 c 15 § 82.36.050. Prior: 1957 c 247 § 4; 1947 c 135 § 1; Rem. Supp. 1947 § 8327—8a.]

82.36.060 Application for distributor's license—Bond or security. Every person, before becoming a distributor or continuing in business as a distributor, shall make an application to the department for a license authorizing the applicant to engage in business as a distributor. Applications for such licenses shall be made to the department on forms to be furnished by the department, and shall be accompanied by a fee of ten dollars.

Before granting any license authorizing any person to engage in business as a distributor, the department shall require applicant to file with the department, in such form as shall be prescribed by the department, a corporate surety bond duly executed by the applicant as principal, payable to the state and conditioned for faithful performance of all the requirements of this chapter, including the payment of all taxes, penalties, and other obligations arising out of this chapter. The total amount of the bond or bonds, required of any distributor shall be fixed by the department and may be increased or reduced by the department at any time subject to the limitations herein provided. In fixing the total amount of the bond or bonds required of any distributor, the department shall require a bond or bonds equivalent in total amount to twice the estimated monthly excise tax determined in such manner as the department may deem proper. If at any time the estimated excise tax to become due during the succeeding month amounts to more than fifty percent of the established bond, the department shall require additional bonds or securities to maintain the marginal ratio herein specified or shall demand excise tax payments to be made weekly or semimonthly to meet the requirements hereof.

In lieu of a bond in excess of five thousand dollars the distributor may file with the department a property statement setting forth a complete description of all his property and the values thereof, and showing the amount of any indebtedness or encumbrance thereon to the end that the department may ascertain whether or not the distributor can be compelled to respond in twice the amount of the taxes due or to become due hereunder. If the department determines that the distributor can be compelled to respond in twice the amount of the tax the department may accept such statement in lieu of a bond. The department may at any time demand from the distributor a new property statement and may at any time if the department deems the property of the distributor insufficient to secure the payment of twice the amount of the taxes require the distributor to furnish a bond in such amount as will secure the payment of twice the amount of the taxes.

The total amount of the bond or bonds required of any distributor shall never be less than five thousand dollars nor more than fifty thousand dollars.

No recoveries on any bond or the execution of any new bond shall invalidate any bond and no revocation of any license shall effect the validity of any bond but the total recoveries under any one bond shall not exceed the amount of the bond.

In lieu of any such bond or bonds in total amount as herein fixed, a distributor may deposit with the state treasurer, under such terms and conditions as the department may prescribe, a like amount of lawful money of the United States or bonds or other obligations of the United States, the state, or any county of the state, of an actual market value not less than the amount so fixed by the department.

Any surety on a bond furnished by a distributor as provided herein shall be released and discharged from any and all liability to the state accruing on such bond after the expiration of thirty days from the date upon which such surety has lodged with the department a written request to be released and discharged, but this provision shall not operate to relieve, release, or discharge the surety from any liability already accrued or which shall accrue before the expiration of the thirty day period. The department shall promptly, upon receiving any such request, notify the distributor who furnished the bond; and unless the distributor, on or before the expiration of the thirty day period, files a new bond, or makes a deposit in accordance with the requirements of
this section, the department shall forthwith cancel the distributor's license. Whenever a new bond is furnished by a distributor, the department shall cancel his old bond as soon as the department and the attorney general are satisfied that all liability under the old bond has been fully discharged.

The department may require a distributor to give a new or additional surety bond or to deposit additional securities of the character specified in this section if, in its opinion, the security of the surety bond heretofore filed by such distributor, or the market value of the properties deposited as security by the distributor, shall become impaired or inadequate; and upon the failure of the distributor to give such new or additional surety bond or to deposit additional securities within thirty days after being requested so to do by the department, the department shall forthwith cancel his license.
