42.30.070 Times and places for meetings—Emergencies—Exception. The governing body of a public agency shall provide the time for holding regular meetings by ordinance, resolution, bylaws, or by whatever other rule is required for the conduct of business by that body. Unless otherwise provided for in the act under which the public agency was formed, meetings of the governing body need not be held within the boundaries of the territory over which the public agency exercises jurisdiction. If at any time any regular meeting falls on a holiday, such regular meeting shall be held on the next business day. If by reason of fire, flood, earthquake, or other emergency, it shall be unsafe to meet in the place designated, the meetings may be held for the duration of the emergency at such place as is designated by the presiding officer of the governing body: Provided, That the notice requirements of this chapter shall be suspended during such emergency. It shall not be a violation of the requirements of this chapter for a majority of the members of a governing body to travel together or gather for purposes other than a regular meeting or a special meeting as these terms are used in this chapter: Provided, That they take no action as defined in this chapter. [1973 c 66 § 1; 1971 ex.s. c 250 § 7.]

42.30.075 Schedule of regular meetings—Publication in state register—Notice of change—"Regular" meetings defined. State agencies which hold regular meetings shall file with the code reviser a schedule of the time and place of such meetings on or before January of each year for publication in the Washington state register. Notice of any change from such meeting schedule shall be published in the state register for distribution at least twenty days prior to the rescheduled meeting date. For the purposes of this section "regular" meetings shall mean recurring meetings held in accordance with a periodic schedule declared by statute or rule. [1977 ex.s. c 240 § 12.]
42.30.080 Special meetings. A special meeting may be called at any time by the presiding officer of the governing body of a public agency or by a majority of the members of the governing body by delivering personally or by mail written notice to each member of the governing body; and to each local newspaper of general circulation and to each local radio or television station which has on file with the governing body a written request to be notified of such special meeting or of all special meetings. Such notice must be delivered personally or by mail at least twenty-four hours before the time of such meeting as specified in the notice. The call and notice shall specify the time and place of the special meeting and the business to be transacted. Final disposition shall not be taken on any other matter at such meetings by the governing body. Such written notice may be dispensed with as to any member who at or prior to the time the meeting convenes files with the clerk or secretary of the governing body a written waiver of notice. Such waiver may be given by telegram. Such written notice may also be dispensed with as to any member who is actually present at the meeting at the time it convenes. The notices provided in this section may be dispensed with in the event a special meeting is called to deal with an emergency involving injury or damage to persons or property or the likelihood of such injury or damage, when time requirements of such notice would make notice impractical and increase the likelihood of such injury or damage. [1971 ex.s. c 250 § 8.]

42.30.090 Adjournments. The governing body of a public agency may adjourn any regular, adjourned regular, special or adjourned special meeting to a time and place specified in the order of adjournment. Less than a quorum may so adjourn from time to time. If all members are absent from any regular or adjourned regular meeting the clerk or secretary of the governing body may declare the meeting adjourned to a stated time and place. He shall cause a written notice of the adjournment to be given in the same manner as provided in RCW 42.30.080 for special meetings, unless such notice is waived as provided for special meetings. Whenever any meeting is adjourned a copy of the order or notice of adjournment shall be conspicuously posted immediately after the time of the adjournment on or near the door of the place where the regular, adjourned regular, special or adjourned special meeting was held. When a regular or adjourned regular meeting is adjourned as provided in this section, the resulting adjourned regular meeting is a regular meeting for all purposes. When an order of adjournment of any meeting fails to state the hour at which the adjourned meeting is to be held, it shall be held at the hour specified for regular meetings by ordinance, resolution, bylaw, or other rule. [1971 ex.s. c 250 § 9.]

42.30.100 Continuances. Any hearing being held, noticed, or ordered to be held by a governing body at any meeting may by order or notice of continuance be continued or recontinued to any subsequent meeting of the governing body in the same manner and to the same extent set forth in RCW 42.30.090 for the adjournment of meetings. [1971 ex.s. c 250 § 10.]

42.30.110 Executive sessions. Nothing contained in this chapter shall be construed to prevent a governing body from holding executive sessions during a regular or special meeting to consider matters affecting national security; to consider the selection of a site or the acquisition of real estate by lease or purchase, when publicity regarding such consideration would cause a likelihood of increased price; to consider the disposition of real estate by lease or sale, when publicity regarding such consideration would cause a likelihood of decreased price; to consider the appointment, employment, or dismissal of a public officer or employee; or to hear complaints or charges brought against such officer or employee by another public officer, person, or employee unless such officer or employee requests a public hearing. The governing body also may exclude from any such public meeting or executive session, during the examination of a witness on any such matter, any or all other witnesses in the matter being investigated by the governing body. If executive sessions are held to discuss the disposition by sale or lease of real estate, the discussion shall be limited to the minimum selling or leasing price. [1979 c 42 § 1; 1973 c 66 § 2; 1971 ex.s. c 250 § 11.]

42.30.120 Violations—Personal liability—Penalty. Each member of the governing body who attends a meeting of such governing body where action is taken in violation of any provision of this chapter applicable to him, with knowledge of the fact that the meeting is in violation thereof, shall be subject to personal liability in the form of a civil penalty in the amount of one hundred dollars. The civil penalty shall be assessed by a judge of the superior court and an action to enforce this penalty may be brought by any person. A violation of this chapter does not constitute a crime and assessment of the civil penalty by a judge shall not give rise to any disability or legal disadvantage based on conviction of a criminal offense. [1973 c 66 § 3; 1971 ex.s. c 250 § 12.]

42.30.130 Violations—Mandamus or injunction. Any person may commence an action either by mandamus or injunction for the purpose of stopping violations or preventing threatened violations of this chapter by members of a governing body. [1971 ex.s. c 250 § 13.]

42.30.140 Chapter controlling—Application. If any provision of this chapter conflicts with the provisions of any other statute, the provisions of this chapter shall control: Provided, That this chapter shall not apply to:

(1) The proceedings concerned with the formal issuance of an order granting, suspending, revoking, or denying any license, permit, or certificate to engage in any business, occupation or profession or to any disciplinary
proceedings involving a member of such business, occupation or profession, or to receive a license for a sports activity or to operate any mechanical device or motor vehicle where a license or registration is necessary; or

(2) That portion of a meeting of a quasi--judicial body which relates to a quasi--judicial matter between named parties as distinguished from a matter having general effect on the public or on a class or group; or

(3) Matters governed by Title 34 RCW, the administrative procedure act, except as expressly provided in RCW 34.04.025; or

(4) That portion of a meeting during which the governing body is planning or adopting the strategy or position to be taken by such governing body during the course of any collective bargaining, professional negotiations, grievance or mediation proceedings, or reviewing the proposals made in such negotiations or proceedings while in progress. [1973 c 66 § 4; 1971 ex.s. c 250 § 14.]

42.30.200 Governing body of recognized student association at college or university—Chapter applicability to. The multimember student board which is the governing body of the recognized student association at a given campus of a public institution of higher education is hereby declared to be subject to the provisions of the open public meetings act as contained in this chapter, as now or hereafter amended. For the purposes of this section, "recognized student association" shall mean any body at any of the state's colleges and universities which selects officers through a process approved by the student body and which represents the interests of students. Any such body so selected shall be recognized by and registered with the respective boards of trustees and regents of the state's colleges and universities: Provided, That there be no more than one such association representing undergraduate students, no more than one such association representing graduate students, and no more than one such association representing each group of professional students so recognized and registered at any of the state's colleges or universities. [1980 c 49 § 1.]

42.30.900 Short title. This chapter may be cited as the "Open Public Meetings Act of 1971". [1971 ex.s. c 250 § 16.]

42.30.910 Construction—1971 ex.s. c 250. The purposes of this chapter are hereby declared remedial and shall be liberally construed. [1971 ex.s. c 250 § 18.]

42.30.920 Severability—1971 ex.s. c 250. If any provision of this act, or its application to any person or circumstance is held invalid, the remainder of the act, or the application of the provision to other persons or circumstances is not affected. [1971 ex.s. c 250 § 19.]

Initial policy determinations for the functions described in RCW 43.19.1905 shall be developed and published within the 1975–77 biennium by the director, after consultation with the supply management advisory board for guidance and compliance by all state agencies, including educational institutions, involved in purchasing

43.19.19052 and material control. Modifications to these initial supply management policies established during the 1975–77 biennium shall be instituted by the director, after consultation with the advisory board, in future biennia as required to maintain an efficient and up-to-date state supply management system. The director shall transmit to the governor and the legislature in June 1976 and June 1977 a progress report which indicates the degree of accomplishment of each of these assigned duties, and which summarizes specific achievements obtained in increased effectiveness and dollar savings or cost avoidance within the overall state purchasing and material control system. The second progress report in June 1977 shall include a comprehensive supply management plan which includes the recommended organization of a state-wide purchasing and material control system and development of an orderly schedule for implementing such recommendation. In the interim between these annual progress reports, the director shall furnish periodic reports to the office of financial management and the legislative budget committee for review of progress being accomplished in achieving increased efficiencies and dollar savings or cost avoidance.

It is the intention of the legislature that measurable improvements in the effectiveness and economy of supply management in state government shall be achieved during the 1975–77 biennium, and each biennium thereafter. All agencies, departments, offices, divisions, boards, and commissions and educational, correctional, and other types of institutions are required to cooperate with and support the development and implementation of improved efficiency and economy in purchasing and material control. To effectuate this legislative intention, the director, in consultation with the supply management advisory board, and through the state purchasing and material control director, shall have the authority to direct and require the submittal of data from all state organizations concerning purchasing and material control matters. [1979 c 151 § 98; 1975–’76 2nd ex.s. c 21 § 6.]

43.19.19054 Exemptions from state-wide policy for purchasing and material control. The provisions of RCW 43.19.1905 shall not apply to materials, supplies, and equipment purchased for resale to other than public agencies by state agencies, including educational institutions. In addition, RCW 43.19.1905 shall not apply to liquor purchased by the state for resale under the provisions of Title 66 RCW. [1975–’76 2nd ex.s. c 21 § 7.]

Severability—1975–’76 2nd ex.s. c 21: See note following RCW 43.19.180.

43.19.1906 Competitive bids—Sealed bids, exceptions. Insofar as practicable, all purchases and sales shall be based on competitive bids and a formal sealed bid procedure shall be used as standard procedure for all purchases and contracts for purchases and sales executed by the state purchasing and material control director and under the powers granted by RCW 43.19.190 through 43.19.1939, as now or hereafter amended. This requirement shall also apply to purchases and contracts for purchases and sales executed by agencies, including educational institutions, under delegated authority granted in accordance with provisions of RCW 43.19.190 as now or hereafter amended. However, formal sealed bidding shall not be necessary for:

(1) Emergency purchases if such sealed bidding procedure would prevent or hinder the emergency from being met appropriately;

(2) Purchases not exceeding twenty-five hundred dollars: Provided, That the state director of general administration shall establish procedures to assure that purchases made by or on behalf of the various state agencies shall not be made so as to avoid the twenty-five hundred dollar bid limitation: Provided further, That the state purchasing and material control director is authorized to reduce this formal sealed bid limit of twenty-five hundred dollars to a lower dollar amount for purchases by individual state agencies, including purchases of specialized equipment, instructional, and research materials by colleges and universities, if considered necessary to maintain full disclosure of competitive procurement or otherwise to achieve overall state efficiency and economy in purchasing and material control. Quotations from two hundred dollars to twenty-five hundred dollars shall be secured from enough vendors to assure establishment of a competitive price. A record of competition for all such purchases from two hundred dollars to twenty-five hundred dollars shall be documented for audit purposes on a standard state form approved by the forms management office under RCW 43.19.510. Purchases up to two hundred dollars may be made without competitive bids based on buyer experience and knowledge of the market in achieving maximum quality at minimum cost: Provided, That this two hundred dollar direct buy limit without competitive bids may be increased incrementally as required to a maximum of four hundred dollars by unanimous vote by all members of the state supply management advisory board, if warranted by increases in purchasing costs due to inflationary trends;

(3) Purchases which are clearly and legitimately limited to a single source of supply and purchases involving special facilities, services, or market conditions, in which instances the purchase price may be best established by direct negotiation;

(4) Purchases of insurance and bonds by the risk management office under RCW 43.19.1935 as now or hereafter amended;

(5) Purchases and contracts for vocational rehabilitation clients of the department of social and health services: Provided, That this exemption shall be effective only when the state purchasing and material control director, after consultation with the director of the division of vocational rehabilitation and appropriate department of social and health services procurement personnel, declares that such purchases may be best executed through direct negotiation with one or more suppliers in order to expeditiously meet the special needs of the state's vocational rehabilitation clients; and

[Title 43 RCW—p 48] (1981 Ed.)
(6) Purchases by universities for hospital operation made by participating in contracts for materials, supplies, and equipment entered into by cooperative hospital service organizations as defined in section 501(e) of the Internal Revenue Code, or its successor. [1980 c 103 § 2; 1979 ex.s. c 14 § 1; 1977 ex.s. c 270 § 5; 1975–76 2nd ex.s. c 21 § 8; 1965 c 8 § 43.19.1906. Prior: 1959 c 178 § 4.]

Severability—1980 c 103: See note following RCW 43.19.190.

43.19.1908 Bids—Solicitation, notices—Qualified bidders—Writing. Competitive bidding required by RCW 43.19.190 through 43.19.1939 shall be solicited by public notice, and through the sending of notices by mail to bidders on the appropriate list of bidders who shall have qualified by application to the division of purchasing. Bids may be solicited by the purchasing division from any source thought to be of advantage to the state. All bids shall be in writing and conform to rules of the division of purchasing. [1965 c 8 § 43.19.1908. Prior: 1959 c 178 § 5.]

43.19.1911 Letting contract—Lowest responsible bidder, determination—Public inspection of bids. When purchases are made through competitive bidding, the contract shall be let to the lowest responsible bidder, subject to any preferences provided by law to Washington products and vendors, taking into consideration the quality of the articles proposed to be supplied, their conformity with specifications, the purposes for which required, and the times of delivery: Provided, That whenever there is reason to believe that the lowest acceptable bid is not the best price obtainable, all bids may be rejected and the division of purchasing may call for new bids or enter into direct negotiations to achieve the best possible price. Each bid with the name of the bidder shall be entered of record and each record, with the successful bid indicated, shall, after letting of the contract, be open to public inspection. In determining "lowest responsible bidder", in addition to price, the following elements shall be given consideration:

1. The ability, capacity and skill of the bidder to perform the contract or provide the service required;
2. The character, integrity, reputation, judgment, experience and efficiency of the bidder;
3. Whether the bidder can perform the contract within the time specified;
4. The quality of performance of previous contracts or services;
5. The previous and existing compliance by the bidder with laws relating to the contract or services;
6. Such other information as may be secured having a bearing on the decision to award the contract: Provided, That in considering bids for purchase, manufacture, or lease, and in determining the "lowest responsible bidder," whenever there is reason to believe that applying the "life cycle costing" technique to bid evaluation would result in lowest total cost to the state, first consideration shall be given by state purchasing activities to the bid with the lowest life cycle cost which complies with specifications. "Life cycle cost" means the total cost of an item to the state over its estimated useful life, including costs of selection, acquisition, operation, maintenance, and where applicable, disposal, as far as these costs can reasonably be determined, minus the salvage value at the end of its estimated useful life. The "estimated useful life" of an item means the estimated time from the date of acquisition to the date of replacement or disposal, determined in any reasonable manner. [1980 c 172 § 8; 1965 c 8 § 43.19.1911. Prior: 1959 c 178 § 6.]

43.19.1913 Rejection of bid for previous unsatisfactory performance. The division of purchasing may reject the bid of any bidder who has failed to perform satisfactorily a previous contract with the state. [1965 c 8 § 43.19.1913. Prior: 1959 c 178 § 7.]

43.19.1915 Bidder's bond—Annual bid bond. When any bid has been accepted, the division of purchasing may require of the successful bidder a bond payable to the state in such amount with such surety or sureties as determined by the division of purchasing, conditioned that he will fully, faithfully and accurately execute the terms of the contract into which he has entered. The bond shall be filed in the office of the division of purchasing. Bidders who regularly do business with the state shall be permitted to file with the division of purchasing an annual bid bond in an amount established by the division and such annual bid bond shall be acceptable as surety in lieu of furnishing surety with individual bids. [1965 c 8 § 43.19.1915. Prior: 1959 c 178 § 8.]

43.19.1917 Records of equipment owned by state—Inspection—"State equipment" defined. All state agencies, including educational institutions, shall maintain a perpetual record of ownership of state owned equipment, which shall be available for the inspection and check of those officers who are charged by law with the responsibility for auditing the records and accounts of the state organizations owning the equipment, or to such other special investigators and others as the governor may direct. In addition, these records shall be made available to members of the legislature, the legislative committees, and legislative staff on request.

All state agencies, including educational institutions, shall account to the office of financial management upon request for state equipment owned by, assigned to, or otherwise possessed by them and maintain such records as the office of financial management deems necessary for proper accountability therefor. The office of financial management shall publish a procedural directive for compliance by all state agencies, including educational institutions, which establishes a standard method of
maintaining records for state owned equipment, including the use of standard state forms. This published directive also includes instructions for reporting to the division of purchasing all state equipment which is excess to the needs of state organizations owning such equipment. The term "state equipment" means all items of machines, tools, furniture, or furnishings other than expendable supplies and materials as defined by the office of financial management. [1979 c 88 § 3; 1975–’76 2nd ex.s. c 21 § 9; 1969 ex.s. c 53 § 2; 1965 c 8 § 43-19.1917. Prior: 1959 c 178 § 9.]

43.19.1919 Sale, exchange, of unneeded personal property—Authority—Procedure—Restrictions. The division of purchasing shall sell or exchange personal property belonging to the state for which the agency, office, department, or educational institution having custody thereof has no further use, at public or private sale, and cause the moneys realized from the sale of any such property to be paid into the fund from which such property was purchased or, if such fund no longer exists, into the state central fund: Provided, Sales of capital assets may be made by the division of purchasing and a credit established in central stores for future purchases of central stores for future purchases of capital items as provided for in RCW 43.19.19 through 43.19.19.39, as now or hereafter amended: Provided further, That personal property, excess to a state agency, including educational institutions, shall not be sold or disposed of prior to reasonable efforts by the division of purchasing to determine if other state agencies have a requirement for such personal property. Such determination shall follow sufficient notice to all state agencies to allow adequate time for them to make their needs known: Provided further, That this section shall not apply to personal property acquired by a state organization under federal grants and contracts if in conflict with special title provisions contained in such grants or contracts. [1975–’76 2nd ex.s. c 21 § 11; 1965 c 8 § 43.19.19.19. Prior: 1959 c 178 § 10.]

43.19.19361 Risk management—State program of—Principles. It is the policy of the state for the management of risks to which it is exposed to apply the following principles consistently in a state program of risk management:

(1) To identify those liability and property risks which may have a significant economic impact on the state;

(4) To assume risks to the maximum extent practical;

(5) To provide flexibility within the state program to meet the unique requirements of any state agency for insurance coverage or service;

(6) To purchase commercial insurance:

(a) When the size and nature of the potential loss make it in the best interest of the state to purchase commercial insurance; or

(b) When the fiduciary of encumbered property insists on commercial insurance; or

(c) When the interest protected is not a state interest and an insurance company is desirable as an intermediary; or

(d) When services provided by an insurance company are considered necessary; or

(e) When services or coverages provided by an insurance company are cost-effective; or

(f) When otherwise required by statute. [1977 ex.s. c 270 § 1.]

43.19.668 Energy conservation—Legislative finding—Declaration. The legislature finds and declares that the buildings, facilities, equipment, and vehicles owned or leased by state government consume significant amounts of energy and that energy conservation actions to provide for efficient energy use in these buildings, facilities, equipment, and vehicles will reduce the costs of state government. In order for the operations of state government to provide the citizens of this state an example of energy use efficiency, the legislature further finds and declares that state government should undertake an aggressive program designed to reduce energy use in state buildings, facilities, equipment, and vehicles within a reasonable period of time. [1980 c 172 § 1.]

43.19.669 Energy conservation—Purpose. It is the purpose of RCW 43.19.670 through 43.19.685 to require energy audits in state-owned buildings, to require energy audits as a lease condition in all new, renewed, and renegotiated leases of buildings by the state, to undertake such modifications and installations as are necessary to maximize the efficient use of energy in these buildings, and to establish a policy for the purchase of state vehicles, equipment, and materials which results in efficient energy use by the state. [1980 c 172 § 2.]

43.19.670 Energy conservation—Definitions. As used in RCW 43.19.670 through 43.19.685, the following terms have the meanings indicated unless the context clearly requires otherwise.

heating system; electrical or mechanical furnace ignitions systems which replace standing gas pilot lights; and utility plant system conversion measures including conversion of existing oil- and gas-fired boiler installations to alternative energy sources;

(h) Caulking and weatherstripping;

(i) Replacement or modification of lighting fixtures which increase the energy efficiency of the lighting system;

[1980 c 172 § 3.]

43.19.675 Energy audits of state-owned buildings required—Completion dates—Findings compiled. The director of general administration, in cooperation with the director of the state energy office, shall conduct, by contract or other arrangement, an energy audit for each state-owned building. (2) By December 31, 1981, for the capitol campus and December 31, 1983, for all other state-owned buildings, the director of general administration, in cooperation with the director of the state energy office, shall prepare and transmit to the governor and the legislature an implementation plan for energy conservation measures identified for any state-owned building by the energy audit for the building. The implementation plan shall specify the annual tasks and budget required to complete all acquisitions and installations necessary to satisfy the recommendations of the energy audit within five years of April 4, 1980. The director shall also include in the implementation plan an estimate of the savings in energy costs over the life of each building. [1980 c 172 § 5.]

43.19.685 Lease covenants, conditions, and terms to be developed. The director of general administration shall develop lease covenants, conditions, and terms which:

(3) Obligate the lessor to acquire and install during the term of the lease any energy conservation measure identified in the audit.

These lease covenants, conditions, and terms shall be incorporated into all new, renewed, and renegotiated leases. [1980 c 172 § 6.]

### 43.21.250 Steam electric generating plant—Study—Construction—Duty of advisory committee

The director of conservation shall continue the study of the state power commission made in 1956 relating to the construction of a steam power electric generating plant, and if the construction of a steam electric generating plant is found to be feasible by the director of conservation, the director of conservation may construct such plant at a site determined by him to be feasible and operate it as a state owned facility. The advisory committee provided for in RCW 43.21.240 shall advise the director of conservation in connection with the steam electric generating plant provided for herein. [1965 c 8 § 43.21.250. Prior: 1957 c 275 § 3.]

### 43.21.260 Steam electric generating plant—Statement of intention—Construction by public utility, operating agency, or the department, procedure—Powers of director of commerce and economic development

Before the director of conservation shall construct said steam generating facility within the state, or make application for any permit, license or other right necessary thereto, he shall give notice thereof by publishing once a week for four consecutive weeks in a newspaper of general circulation in the county or counties in which such project is located a statement of intention setting forth the general nature, extent and location of the project. If any public utility in the state or any operating agency desires to construct such facility, such utility or operating agency shall notify the director of conservation thereof within ten days after the last date of publication.
of such notice. If the director of conservation determines that it is in the best public interest that the director of conservation proceed with such construction rather than the public utility or operating agency, he shall so notify the director of commerce and economic development, who shall set a date for hearing thereon. If after considering the evidence introduced the director of commerce and economic development finds that the public utility or operating agency making the request intends to immediately proceed with such construction and is financially capable of carrying out such construction and further finds that the plan of such utility or operating agency is equally well adapted to serve the public interest, he shall enter an order so finding and such order shall divest the director of conservation of authority to proceed further with such construction or acquisition until such time as the other public utility or agency voluntarily causes an assignment of its right or interest in the project to the director of conservation or fails to procure any further required governmental permit, license or authority or having procured such, has the same revoked or withdrawn, in accordance with the laws and regulations of such governmental entity, in which event the director of conservation shall have the same authority to proceed as though the director had originally entered an order so authorizing the director of conservation to proceed. If, after considering the evidence introduced, the director of commerce and economic development finds that the public utility or agency making the request does not intend to immediately proceed with such construction or acquisition or is not financially capable of carrying out such construction or acquisition, or finds that the plan of such utility or operating agency is not equally well adapted to serve the public interest, he shall then enter an order so finding and authorizing the director of conservation to proceed with the construction or acquisition of the facility. [1965 c 8 § 43.21.260. Prior: 1957 c 275 § 4.]

43.21.270 Steam electric generating plant—Powers of director in constructing, operating and maintaining. In order to construct, operate and maintain the single steam power electric generating plant provided for in RCW 43.21.250 the director of conservation shall have authority:

(1) To generate, produce, transmit, deliver, exchange, purchase or sell electric energy and to enter into contracts for any or all such purposes.

(2) To construct, condemn, purchase, lease, acquire, add to, extend, maintain, improve, operate, develop and regulate such steam electric power plant, work and facilities for the generation and/or transmission of electric energy and to take, condemn, purchase, lease and acquire any real or personal, public or private property, franchise and property rights, including but not limited to state, county and school lands and properties, for any of the purposes herein set forth and for any facilities or works necessary or convenient for use in the construction, maintenance or operation of such work, plant and facilities; providing that the director of conservation shall not be authorized to acquire by condemnation any plant, work and facility owned and operated by any city or district, or by a privately owned public utility.

(3) To apply to the appropriate agencies of the state of Washington, the United States or any state thereof, or to any other proper agency for such permits, licenses or approvals as may be necessary, and to construct, maintain and operate facilities in accordance with such licenses or permits, and to obtain, hold and use such licenses and permits in the same manner as any other person or operating unit.

(4) To establish rates for electric energy sold or transmitted by the director of conservation. When any revenue bonds or warrants are outstanding the director of conservation shall have the power and shall be required to establish and maintain and collect rates or charges for electric energy furnished or supplied by the director of conservation which shall be fair and nondiscriminatory and adequate to provide revenues sufficient for the payment of the principal and interest on such bonds or warrants and all payments which the director of conservation is obligated to set aside in any special fund or funds created for such purposes, and for the proper operation and maintenance of the public utility owned by the director of conservation and all necessary repairs, replacements and renewals thereof.

(5) To employ legal, engineering and other professional services and fix the compensation of a managing director and such other employees as the director of conservation may deem necessary to carry on its business, and to delegate to such manager or other employees such authority as the director shall determine. Such manager and employees shall be appointed for an indefinite time and be removable at the will of the director. [1965 c 8 § 43.21.270. Prior: 1957 c 275 § 5.]

43.21.280 Steam electric generating plant—Eminent domain. For the purpose of carrying out any or all of the powers herein granted the director of conservation shall have the power of eminent domain for the acquisition of either real or personal property used or useful in connection with the construction of facilities authorized hereunder. Actions in eminent domain pursuant to RCW 43.21.250 through 43.21.410 shall be brought in the name of the state in any court of competent jurisdiction under the procedure set out in chapter 8.04 RCW. The director of conservation may institute condemnation proceedings in the superior court of any county in which any of the property sought to be condemned is located or in which the owner thereof does business, and the court in any such action shall have jurisdiction to condemn property wherever located within the state. It shall not be necessary to allege or prove any offer to purchase or inability to agree with the owners thereof for the purchase of any such property in said proceedings. Upon the filing of a petition for condemnation, as provided in this section, the court may issue an order restraining the removal from the jurisdiction of the state of any personal property sought to be acquired by the proceedings during the pendency thereof. The court shall further have the power to issue such orders or process as shall be
necessary to place the director of conservation into possession of any property condemned. [1965 c 8 § 43.21-280. Prior: 1957 c 275 § 6.]

43.21.290 Steam electric generating plant—State not financially obligated—Separation and expenditure of funds. The director of conservation shall have no right or power to impose any debt nor to suffer or create any financial obligation upon the state of Washington or its subdivisions in the execution of RCW 43.21.250 through 43.21.410.

No revenues received by the director of conservation for the sale of electricity or otherwise, shall be expended except for the payment of lawful obligations of the director of conservation and all such revenues and receipts shall be kept and maintained in a separate fund. [1965 c 8 § 43.21.290. Prior: 1957 c 275 § 7.]

43.21.300 Steam electric generating plant—Revenue bonds and warrants. For the purposes provided for in RCW 43.21.250 through 43.21.410, the state finance committee shall, upon being notified to do so by the director of conservation, issue revenue bonds or warrants payable from the revenues from the steam electric plant provided for in RCW 43.21.250. When the director of conservation deems it advisable that he acquire or construct said steam electric plant or make additions or betterments thereto, he shall so notify the state finance committee and he shall also notify the state finance committee as to the plan proposed, together with the estimated cost thereof. The state finance committee, upon receiving such notice, shall provide for the construction thereof and the issuance of revenue bonds or warrants therefor by a resolution which shall specify and adopt the system or plan proposed, and declare the estimated cost thereof, as nearly as may be, including as part of the cost, funds necessary for working capital for the operation of such utility and the payment of the expenses incurred in the acquisition or construction thereof. Such resolution shall specify that utility revenue bonds are to be issued to defray the cost thereof and the amount of such bonds to be issued. Bonds issued under the provisions of RCW 43.21.250 through 43.21.410 shall distinctly state that they are not a general obligation of the state. [1965 c 8 § 43.21.300. Prior: 1957 c 275 § 8.]

43.21.310 Steam electric generating plant—Special funds—Payment of bonds, interest. When the state finance committee issues revenue bonds as provided in RCW 43.21.300, it shall, as a part of the plan and system, request the state treasurer to establish a special fund or funds to defray the cost of the steam electric utility, or additions or betterments thereto or extensions thereof. The state finance committee may obligate and bind the director of conservation to set aside and pay to the state treasurer for deposit into such fund or funds a fixed proportion of the gross revenue of the steam electric utility and all additions or betterments thereto or extensions thereof, or any fixed amount out of, and not exceeding the fixed proportion of such revenue, or a fixed amount without regard to any fixed proportion, or an amount of the revenue equal to a fixed percentage of the aggregate principal amount of revenue bonds at any time issued against the special fund or funds. It may issue and sell utility bonds payable as to both principal and interest only out of such fund or funds.

The revenue bonds shall be payable at such places and times, both as to principal and interest, and bear interest at such rates payable semiannually as the state finance committee shall determine. [1965 c 8 § 43.21.310. Prior: 1957 c 275 § 9.]

43.21.320 Steam electric generating plant—Considerations in issuance of bonds, limitations. In the issuance of any bonds hereunder the state finance committee shall have due regard to the cost of operation and maintenance of the steam electric utility as acquired, constructed or added to, and to any proportion or amount of the revenue previously pledged as a fund for the payment of revenue bonds. It shall not require to be set aside into the fund a greater amount or proportion of the revenue than in its judgment and as agreed to by the director of conservation will be available over and above the cost of maintenance and operation and any amount or proportion of the revenue so previously pledged. Revenue bonds and interest thereon issued against such fund shall be a valid claim of the holder thereof only as against the fund and the proportion or amount of the revenue pledged thereto, but shall constitute a prior charge over all other charges or claims whatsoever against the fund and the proportion or amount of the revenues pledged thereto. Each revenue bond shall state on its face that it is payable from a special fund, naming the fund and the resolution creating it. [1965 c 8 § 43.21.320. Prior: 1957 c 275 § 10.]

43.21.330 Steam electric generating plant—Resolution authorizing issuance of bonds, contents, covenants. The resolution of the state finance committee authorizing the issuance of revenue bonds shall specify the title of the bonds as determined by the state finance committee, and may contain covenants by the committee to protect and safeguard the security and the rights of the holders thereof, including covenants as to, among other things:

(1) The purpose or purposes to which the proceeds of the sale of the revenue bonds may be applied and the use and disposition thereof;

(2) The use and disposition of the gross revenue of the steam electric utility and any additions or betterments thereto or extensions thereof, the cost of which is to be defrayed with such proceeds, including the creation and maintenance of funds for working capital to be used in the operation of the steam electric utility and for renewals and replacements thereof;

(3) The amount, if any, of additional revenue bonds payable from such fund which may be issued and the terms and conditions on which such additional revenue bonds or warrants may be issued;

(4) The establishment and maintenance of adequate rates and charges for electric power and energy and...
other services, facilities, and commodities, sold, furnished or supplied by the steam electric utility;

(5) The operation, maintenance, management, accounting and auditing of the electric utility;

(6) The terms upon which the revenue bonds, or any of them, may be redeemed at the election of the agency;

(7) Limitations upon the right to dispose of the steam electric utility or any part thereof without providing for the payment of the outstanding revenue bonds; and

(8) The appointment of trustees, depositaries, and paying agents to receive, hold, disburse, invest, and reinvest all or any part of the income, revenue, receipts and profits derived by the director of conservation from the operation, ownership, and management of its steam electric utility. [1965 c 8 § 43.21.330. Prior: 1957 c 275 § 11.]

43.21.340 Steam electric generating plant—Sale of bonds. All bonds issued under or by authority of RCW 43.21.250 through 43.21.410 shall be sold to the highest and best bidder after such advertising for bids as the state finance committee may deem proper. The state finance committee may reject any and all bids so submitted and thereafter sell such bonds so advertised under such terms and conditions as the state finance committee may deem most advantageous to its own interests. [1970 ex.s. c 56 § 61; 1969 ex.s. c 232 § 32; 1965 c 8 § 43.21.340. Prior: 1957 c 275 § 12.]

Effective date—Purpose—1970 ex.s. c 56: See notes following RCW 39.44.030.

Validation—Saving—Severability—1969 ex.s. c 232: See notes following RCW 39.44.030.

43.21.350 Steam electric generating plant—Examination, registration of bonds by state auditor—Defects, irregularities. Prior to the issuance and delivery of any revenue bonds, such bonds and a certified copy of the resolution authorizing them shall be delivered to the state auditor together with any additional information that he may require. When the bonds have been examined they shall be registered by the auditor in books to be kept by him for that purpose, and a certificate of registration shall be endorsed upon each bond and signed by the auditor or a deputy appointed by him for the purpose. The bonds shall then be prima facie valid and binding obligations of the state finance committee in accordance with their terms, notwithstanding any defects or irregularities in the authorization and issuance of the bonds, or in the sale, execution or delivery thereof. [1965 c 8 § 43.21.350. Prior: 1957 c 275 § 13.]

43.21.360 Steam electric generating plant—Rates or charges. When revenue bonds are outstanding the director of conservation shall establish, maintain, and collect rates or charges for electric power and energy, and other services, facilities and commodities sold and supplied by the director of conservation which shall be fair and nondiscriminatory and adequate to provide revenue sufficient to pay the principal of and interest on revenue bonds outstanding, and all payments which the director of conservation is obligated to make to the state treasurer for deposit in any special fund or funds created for such purpose, and for the proper operation and maintenance of the utility and all necessary repairs, replacements and renewals thereof. [1965 c 8 § 43.21.360. Prior: 1957 c 275 § 14.]

43.21.370 Steam electric generating plant—Refunding revenue bonds. When the state finance committee has outstanding revenue bonds, the state finance committee, with the concurrence of the director of conservation, may by resolution provide for the issuance of refunding revenue bonds with which to refund the outstanding revenue bonds, or any part thereof at maturity, or before maturity if they are by their terms or by other agreement, subject to call for prior redemption, with the right in the state finance committee to combine various series and issues of the outstanding revenue bonds by a single issue of refunding revenue bonds. The refunding bonds shall be payable only out of a special fund created out of the gross revenue of the steam electric utility, and shall only be a valid claim as against such special fund and the amount or proportion of the revenue of the utility pledged to said fund. The rate of interest on refunding revenue bonds shall not exceed the rate of interest on revenue bonds refunded thereby. The state finance committee may exchange the refunding revenue bonds for the revenue bonds which are being refunded, or it may sell them in such manner as it deems for its best interest. Except as specifically provided in this section, the refunding revenue bonds shall be issued in accordance with the provisions contained in RCW 43.21.250 through 43.21.410 with respect to revenue bonds. All revenue bonds, including refunding revenue bonds, shall be signed by the governor and the state auditor under the seal of the state, one of which signatures shall be made manually and the other signature may be in printed facsimile, and any coupons may have printed or lithographic facsimile of the signatures of such officers. [1965 c 8 § 43.21.380. Prior: 1957 c 275 § 16.]

43.21.390 Steam electric generating plant—Provisions of law, resolution, a contract with bondholder—Enforcement. The provisions of RCW 43.21.250 through 43.21.410 and any resolution providing for the issuance of revenue bonds shall constitute a contract with the holder or holders from time to time of the revenue bonds of the state finance committee. Such provisions of RCW 43.21.250 through 43.21.410 and of any such resolution shall be enforceable by any such bondholders by appropriate action in any court of competent jurisdiction. [1965 c 8 § 43.21.390. Prior: 1957 c 275 § 17.]

43.21.400 Steam electric generating plant—Bonds are legal security, investment, negotiable. All revenue bonds issued hereunder shall be legal securities, which may be used by a bank or trust company for deposit
with the state treasurer, or by a county or city or town treasurer, as security for deposits in lieu of a surety bond under any law relating to deposits of public moneys. They shall constitute legal investments for trustees and other fiduciaries other than corporations doing a trust business in this state, and for savings and loan associations, banks and insurance companies doing business in this state. All revenue bonds and all coupons appertaining thereto shall be negotiable instruments within the meaning and for all purposes of the negotiable instruments law. [1965 c 8 § 43.21.400. Prior: 1957 c 275 § 18.]

43.21.410 Steam electric generating plant—Director not authorized to acquire other facilities or engage in retail distribution. Nothing in RCW 43.21.250 through 43.21.410 shall authorize or empower the director of conservation to purchase or acquire any transmission or distribution system or facilities or to engage in the retail distribution of electric energy, or to purchase or acquire any operating hydroelectric generating plant owned by any city or district, or by a privately owned public utility, or which hereafter may be acquired by any city or district by condemnation. [1965 c 8 § 43.21.410. Prior: 1957 c 275 § 19.]

43.21A.010 Legislative declaration of state policy on environment and utilization of natural resources. The legislature recognizes and declares it to be the policy of this state, that it is a fundamental and inalienable right of the people of the state of Washington to live in a healthful and pleasant environment and to benefit from the proper development and use of its natural resources. The legislature further recognizes that as the population of our state grows, the need to provide for our increasing industrial, agricultural, residential, social, recreational, economic and other needs will place an increasing responsibility on all segments of our society to plan, coordinate, restore and regulate the utilization of our natural resources in a manner which will protect and conserve our clean air, our pure and abundant waters, and the natural beauty of the state. [1970 ex.s. c 62 § 1.]

Savings—Other powers and rights not affected—Permits, standards, not affected—1970 ex.s. c 62: "The provisions of this act shall not impair or supersede the powers or rights of any person, committee, association, public, municipal or private corporations, state or local governmental agency, federal agency, or political subdivision of the state of Washington under any other law except as specifically provided herein. Pollution control permits, water quality standards, air pollution permits, air quality standards, and permits for disposal of solid waste materials of this state are not changed hereby and the laws governing the same are to be protected and preserved." [1970 ex.s. c 62 § 61.]

Effective date—1970 ex.s. c 62: "This 1970 amendatory act shall take effect on July 1, 1970." [1970 ex.s. c 62 § 64.]
43.21A.000 Purpose. In recognition of the responsibility of state government to carry out the policies set forth in RCW 43.21A.010, it is the purpose of this chapter to establish a single state agency with the authority to manage and develop our air and water resources in an orderly, efficient, and effective manner and to carry out a coordinated program of pollution control involving these and related land resources. To this end a department of ecology is created by this chapter to undertake, in an integrated manner, the various water regulation, management, planning and development programs now authorized to be performed by the department of water resources and the water pollution control commission, the air regulation and management program now performed by the state air pollution control board, the solid waste regulation and management program authorized to be performed by state government as provided by chapter 70.95 RCW, and such other environmental, management protection and development programs as may be authorized by the legislature. [1970 Ex.s. c 62 § 2.]

43.21A.030 Definitions. As used in this chapter, unless the context indicates otherwise:

(1) "Department" means the department of ecology.

(2) "Director" means the director of the department of ecology.

(3) "Commission" means the ecological commission. [1970 Ex.s. c 62 § 3.]

43.21A.250 Pollution control hearings board of the state as affecting department, director and commission. See chapter 43.21B RCW.

43.21A.400 Department of environmental quality means department of ecology. Wherever in the statutes of this state, including any enactment at this 1970 extraordinary session, the department of environmental quality is referred to such reference shall mean the state department of ecology created herein. [1970 ex.s. c 62 § 62.]

43.21A.405 Marine pollution—Baseline study program—Legislative finding and declaration. The legislature recognizes that there exists a great risk of potential damage from oil pollution of the waters of the state of Washington and further declares that immediate steps must be undertaken to reduce this risk. The legislature also is aware that such danger is expected to increase in future years in proportion to the increase in the size and cargo capacity of ships, barges, and other waterborne carriers, the construction and operational characteristics of these carriers, the density of waterborne traffic, and the need for a greater supply of petroleum products.

A program of systematic baseline studies to be conducted by the department of ecology has been recognized as a vital part of the efforts to reduce the risk of oil pollution of marine waters, and the legislature recognizes that many factors combine to make this effort one of considerable magnitude and difficulty. The marine shoreline of the state is about two thousand seven hundred miles long, a greater length than the combined coastlines of Oregon and California. There are some three million acres of submerged land and more than three hundred islands in these marine waters. The average depth of Puget Sound is two hundred twenty feet. There is a great diversity of animal life in the waters of the state. These waters have a multitude of uses by both humans and nonhumans, and the interaction between man's activities and natural processes in these waters varies greatly with locale. [1973 2nd ex.s. c 30 § 1.]

Oil pollution: RCW 90.48.315–90.48.360.
Shoreline management act: Chapter 90.58 RCW.

43.21A.410 Marine pollution—Baseline study program established—Utilization of related programs—Coordination—Contracts. As part of the state effort to prevent and control oil pollution, a continuing, comprehensive program of systematic baseline studies for the waters of the state shall be established by the department of ecology. Full utilization of related historical data shall be made in planning these studies. Data from these and other scientific investigations made pursuant to RCW 43.21A.405 through 43.21A.420 should, whenever possible, have multiple use, including use as supporting evidence of environmental damage resulting from oil pollution, as indicators of the potential or existing risks and impacts of oil pollution, as aids to developing a methodology for implementing the reduction of risks, and as aids to maintaining water quality standards.

A baseline study program shall take full advantage of the data and information produced by related programs, such as the marine ecosystems analysis (MESA) program of the national oceanic and atmospheric administration, studies and inventories made pursuant to the state shorelines management act of 1971, and others. All phases of the program, including planning, operations, data analysis, interpretation, storage, retrieval, and dissemination phases, shall be coordinated to the greatest possible extent with appropriate governmental, academic, and industrial organizations. Whenever possible, the department shall contract with existing state agencies, boards, commissions, and institutions of higher education for the scientific investigation programs to be conducted. [1973 2nd ex.s. c 30 § 2.]

43.21A.415 Marine pollution—Baseline study program—Scope of data base produced. The data base produced by such studies should include chemical, physical, and biological parameters of the waters, complete information on marine pollution accidents, and an economic evaluation of the marine resources and shoreline properties that may be damaged or impaired by oil pollution. Where oceanographic and water quality instrumentation is used to gather data, such instruments shall be standardized and intercalibrated. [1973 2nd ex.s. c 30 § 3.]

43.21A.420 Marine pollution—Baseline study program—Priority factors. In planning the state baseline studies program, priority shall be given to those waters (1) in which the greatest risk of damage from oil spills exists; (2) which contain marine and fresh water life that is particularly sensitive to toxins contained in crude oil, oil products, and oil wastes; and (3) which are used or may be used for the harvesting, gathering, or production of food or food products. [1973 2nd ex.s. c 30 § 4.]

43.21A.430 Catalytic converters in police, ambulance or emergency aid vehicles—Department's powers restricted in respect thereto. The department of ecology may not adopt, maintain in effect, or enforce any rule requiring the installation or maintenance of a catalytic converter in the exhaust system of any motor vehicle

### 43.21C.010 Purposes.

The purposes of this chapter are: (1) To declare a state policy which will encourage productive and enjoyable harmony between man and his environment; (2) to promote efforts which will prevent or eliminate damage to the environment and biosphere; (3) and stimulate the health and welfare of man; and (4) to enrich the understanding of the ecological systems and natural resources important to the state and nation. [1971 ex.s. c 109 § 1.]

### 43.21C.020 Legislative recognitions—Declaration—Responsibility.

1. The legislature, recognizing that man depends on his biological and physical surroundings for food, shelter, and other needs, and for cultural enrichment as well; and recognizing further the profound impact of man's activity on the interrelations of all components of the natural environment, particularly the profound influences of population growth, high-density urbanization, industrial expansion, resource [Title 43 RCW—p 88] (1981 Ed.)
utilization and exploitation, and new and expanding technological advances and recognizing further the critical importance of restoring and maintaining environmental quality to the overall welfare and development of man, declares that it is the continuing policy of the state of Washington, in cooperation with federal and local governments, and other concerned public and private organizations, to use all practicable means and measures, including financial and technical assistance, in a manner calculated to: (a) Foster and promote the general welfare; (b) to create and maintain conditions under which man and nature can exist in productive harmony; and (c) fulfill the social, economic, and other requirements of present and future generations of Washington citizens.

(2) In order to carry out the policy set forth in this chapter, it is the continuing responsibility of the state of Washington and all agencies of the state to use all practicable means, consistent with other essential considerations of state policy, to improve and coordinate plans, functions, programs, and resources to the end that the state and its citizens may:

(a) Fulfill the responsibilities of each generation as trustee of the environment for succeeding generations;
(b) Assure for all people of Washington safe, healthful, productive, and aesthetically and culturally pleasing surroundings;
(c) Attain the widest range of beneficial uses of the environment without degradation, risk to health or safety, or other undesirable and unintended consequences;
(d) Preserve important historic, cultural, and natural aspects of our national heritage;
(e) Maintain, wherever possible, an environment which supports diversity and variety of individual choice;
(f) Achieve a balance between population and resource use which will permit high standards of living and a wide sharing of life's amenities; and
(g) Enhance the quality of renewable resources and approach the maximum attainable recycling of depletable resources.

(3) The legislature recognizes that each person has a fundamental and inalienable right to a healthful environment and that each person has a responsibility to contribute to the preservation and enhancement of the environment. [1971 ex.s. c 109 § 2.]

43.21C.030 Guidelines for state agencies, local governments--Statements--Reports--Advice--Information. The legislature authorizes and directs that, to the fullest extent possible: (1) The policies, regulations, and laws of the state of Washington shall be interpreted and administered in accordance with the policies set forth in this chapter, and (2) all branches of government of this state, including state agencies, municipal and public corporations, and counties shall:

(a) Utilize a systematic, interdisciplinary approach which will insure the integrated use of the natural and social sciences and the environmental design arts in planning and in decision making which may have an impact on man's environment;
(b) Identify and develop methods and procedures, in consultation with the department of ecology and the ecological commission, which will insure that presently unquantified environmental amenities and values will be given appropriate consideration in decision making along with economic and technical considerations;
(c) Include in every recommendation or report on proposals for legislation and other major actions significantly affecting the quality of the environment, a detailed statement by the responsible official on:
   (i) the environmental impact of the proposed action;
   (ii) any adverse environmental effects which cannot be avoided should the proposal be implemented;
   (iii) alternatives to the proposed action;
   (iv) the relationship between local short-term uses of man's environment and the maintenance and enhancement of long-term productivity; and
   (v) any irreversible and irretrievable commitments of resources which would be involved in the proposed action should it be implemented;
(d) Prior to making any detailed statement, the responsible official shall consult with and obtain the comments of any public agency which has jurisdiction by law or special expertise with respect to any environmental impact involved. Copies of such statement and the comments and views of the appropriate federal, province, state, and local agencies, which are authorized to develop and enforce environmental standards, shall be made available to the governor, the department of ecology, the ecological commission, and the public, and shall accompany the proposal through the existing agency review processes;
(e) Study, develop, and describe appropriate alternatives to recommended courses of action in any proposal which involves unresolved conflicts concerning alternative uses of available resources;
(f) Recognize the world-wide and long-range character of environmental problems and, where consistent with state policy, lend appropriate support to initiatives, resolutions, and programs designed to maximize international cooperation in anticipating and preventing a decline in the quality of mankind's world environment;
(g) Make available to the federal government, other states, provinces of Canada, municipalities, institutions, and individuals, advice and information useful in restoring, maintaining, and enhancing the quality of the environment;
(h) Initiate and utilize ecological information in the planning and development of natural resource-oriented projects. [1971 ex.s. c 109 § 3.]

43.21C.032 Restoration of interim transportation services—Hood Canal bridge—Reconstruction of permanent bridge—Exemption from RCW 43.21C.030(2)(c). Nothing in RCW 43.21C.030(2)(c) shall be construed to require the preparation of a detailed statement or the making of a threshold determination for any decision or any action commenced prior to December 31, 1982, pertaining to (1) the restoration of interim transportation services, as may be necessary as a consequence of the destruction of the Hood Canal
bridge, including, but not limited to, improvements to
highways, development of park and ride facilities, and
development of ferry terminal facilities until a new or
reconstructed Hood Canal bridge is open to traffic; and
(2) the reconstruction of a permanent bridge at the site
of the original Hood Canal bridge. [1980 c 2 § 2; 1979
ex.s. c 84 § 2.]

Intent—1980 c 2; 1979 ex.s. c 84: "The legislature finds that high
tides and hurricane force winds on February 13, 1979, caused condi-
tions resulting in the catastrophic destruction of the Hood Canal
bridge on state route 104, a state highway on the federal-aid system;
and, as a consequence, the state of Washington has sustained a sudden
and complete failure of a major segment of highway system with a di-
sastrous impact on transportation services between the counties of
Washington's Olympic peninsula and the remainder of the state. The
governor has by proclamation found that these conditions constitute an
emergency. To minimize the economic loss and hardship to residents of
the Puget Sound and Olympic peninsula regions, it is the intent of this
act to authorize the department of transportation to undertake imme-
diately all necessary actions to restore interim transportation services
across Hood Canal and Puget Sound and upon the Kitsap and Olym-
pic peninsulas and to design and reconstruct a permanent bridge at the
site of the original Hood Canal bridge. The department of transporta-
tion is directed to proceed with such actions in an environmentally re-
ponsible manner that would meet the substantive objectives of the
state environmental policy act and the shorelines management act, and
shall consult with the department of ecology in the planning process.
The exemptions from the state environmental policy act and the shore-
lines management act contained in RCW 43.21C.032 and 90.58.030
are intended to approve and ratify the timely actions of the depart-
ment determining that a detailed statement must be prepared pursuant to
this chapter. The evaluation shall be made within ten days from the date
the department receives the application. A Class IV forest prac-
tice application must be approved or disapproved by the department within thirty calendar days from the
date the department receives the application, unless the department determines that a detailed statement must be
made, in which case the application must be approved or disapproved by the department within sixty days from the
date the department receives the application, unless the commissioner of public lands, through the promul-
gation of a formal order, determines that the process cannot be completed within such period. This section
shall not be construed to prevent any local or regional governmental entity from determining that a detailed
statement must be prepared for an action regarding a Class IV forest practice taken by that governmental en-
tity concerning the land on which forest practices will be
conducted.

This section shall cease to exist on June 30, 1983, unless extended by law for an additional period of time. [1981 c 290 § 1.]

State energy office: Chapter 43.21F RCW.

43.21G.010 Legislative finding—Intent. The legislature finds that energy in various forms is increasingly subject to possible shortages and supply disruptions, to the point that there may be foreseen an emergency situation, and that without the ability to institute appropriate emergency measures to regulate the production, distribution, and use of energy, a severe impact on the public health, safety, and general welfare of our state's citizens may occur. The prevention or mitigation of such energy shortages or disruptions and their effects is necessary for preservation of the public health, safety, and general welfare of the citizens of this state.

It is the intent of this chapter to:

1. Establish necessary emergency powers for the governor and define the situations under which such powers are to be exercised;
2. Provide penalties for violations of this chapter.

It is further the intent of the legislature that in developing proposed orders under the powers granted in RCW 43.21G.040 as now or hereafter amended the governor may utilize, on a temporary or ad hoc basis, the knowledge and expertise of persons experienced in the technical aspects of energy supply, distribution, or use. Such utilization shall be in addition to support received by the governor from the state energy office under RCW 43.21F.045 and 43.21F.065 and from other state agencies. [1981 c 295 § 11; 1977 ex.s. c 328 § 1; 1975–76 2nd ex.s. c 108 § 15.]

Severability—1977 ex.s. c 328: "If any provision of this 1977 amendatory act, or its application to any person or circumstance is held invalid, the remainder of the act, or the application of the provision to other persons or circumstances is not affected." [1977 ex.s. c 328 § 20.]

43.21G.020 Definitions. As used in this chapter:
1. "Energy supply facility" means a facility which produces, extracts, converts, transports, or stores energy.
2. "Energy" means any of the following, individually or in combination: Petroleum fuels; other liquid fuels; natural or synthetic fuel gas; solid carbonaceous fuels; fissionable nuclear material, or electricity.
3. "Person" means an individual, partnership, joint venture, private or public corporation, association, firm, public service company, political subdivision, municipal corporation, government agency, public utility district, joint operating agency or any other entity, public or private, however organized.
4. "Committee" means the joint committee on energy and utilities created by RCW 44.39.010 as now or hereafter amended.
5. "Distributor" means any person, private corporation, partnership, individual proprietorship, utility, including investor-owned utilities, joint operating agencies, municipal utility, public utility district, or cooperative, which engages in or is authorized to engage in the activity of generating, transmitting, or distributing energy in this state.
6. "Regulated distributor" means a public service company as defined in chapter 80.04 RCW which engages in or is authorized to engage in the activity of generating, transmitting, or distributing energy in this state.
7. "Energy supply alert" means a situation which threatens to disrupt or diminish the supply of energy to the extent that the public health, safety, and general welfare may be jeopardized.
8. "Energy emergency" means a situation in which the unavailability or disruption of the supply of energy poses a clear and foreseeable danger to the public health, safety, and general welfare.
(9) "State or local governmental agency" means any county, city, town, municipal corporation, political sub­division of the state, or state agency. [1977 ex.s. c 328 § 2; 1975–76 2nd ex.s. c 108 § 16.]

Severability—1977 ex.s. c 328: See note following RCW 43.21G.010.

43.21G.030 Intent in developing energy production, allocation, and consumption programs. It is the intent of the legislature that the governor shall, in developing plans for the production, allocation, and consumption of energy, give high priority to supplying vital public services including, but not limited to, essential governmental operations, public health and safety functions, emergency services, public mass transportation systems, fish production, food production and processing facilities, including the provision of water to irrigated agriculture, and energy supply facilities, during a condition of energy supply alert or energy emergency. In developing any such plans, provisions should be made for the equitable distribution of energy among the geographic areas of the state.

It is further the intent of the legislature that the governor shall, to the extent possible, encourage and rely upon voluntary programs and local and regional programs for the production, allocation, and consumption of energy and that involvement of energy users and producers be secured in implementing such programs. [1977 ex.s. c 328 § 3; 1975–76 2nd ex.s. c 108 § 17.]

Severability—1977 ex.s. c 328: See note following RCW 43.21G.010.

43.21G.040 Governor's energy emergency powers—Energy supply alert—Construction of chapter—Expiration of powers. (1) The governor may subject to the definitions and limitations provided in this chapter:

(a) Upon finding that an energy supply alert exists within this state or any part thereof, declare a condition of energy supply alert; or

(b) Upon finding that an energy emergency exists within this state or any part thereof, declare a condition of energy emergency. A condition of energy emergency shall terminate thirty consecutive days after the declaration of such condition if the legislature is not in session at the time of such declaration and if the governor fails to convene the legislature pursuant to Article III, section 7 of the Constitution of the state of Washington within thirty consecutive days of such declaration. If the legislature is in session or convened, in accordance with this subsection, the duration of the condition of energy emergency shall be limited in accordance with subsection (3) of this section.

Upon the declaration of a condition of energy supply alert or energy emergency, the governor shall present to the committee any proposed plans for programs, controls, standards, and priorities for the production, allocation, and consumption of energy during any current or anticipated condition of energy emergency, any proposed plans for the suspension or modification of existing rules of the Washington Administrative Code, and any other relevant matters the governor deems desirable. The governor shall review any recommendations of the committee concerning such plans and matters.

The governor shall review the status of such plans annually with the house of representatives and senate standing committees on energy and utilities.

Upon the declaration of a condition of energy supply alert or energy emergency, the emergency powers as set forth in this chapter shall become effective only within the area described in the declaration.

(2) A condition of energy supply alert shall terminate ninety consecutive days after the declaration of such condition unless:

(a) Extended by the governor upon issuing a finding that the energy supply alert continues to exist, and with prior approval of such an extension by the committee; or

(b) Extended by the governor based on a declaration by the president of the United States of a national state of emergency in regard to energy supply; or

(c) Upon the request of the governor, extended by declaration of the legislature by concurrent resolution of a continuing energy supply alert.

In the event any such initial extension is implemented, the condition shall terminate one hundred and fifty consecutive days after the declaration of such condition. One or more subsequent extensions may be implemented through the extension procedures set forth in this subsection. In the event any such subsequent extension is implemented, the condition shall terminate sixty consecutive days after the implementation of such extension.

(3) A condition of energy emergency shall terminate forty-five consecutive days after the declaration of such condition unless:

(a) Extended by the governor upon issuing a finding that the energy emergency continues to exist, and with prior approval of such an extension by the committee; or

(b) Extended by the governor based on a declaration by the president of the United States of a national state of emergency in regard to energy supply; or

(c) Upon the request of the governor, extended by declaration of the legislature by concurrent resolution of a continuing energy emergency.

In the event any such initial extension is implemented, the condition shall terminate ninety consecutive days after the declaration of such condition. One or more subsequent extensions may be implemented through the extension procedures set forth in this subsection. In the event any such subsequent extension is implemented, the condition shall terminate forty-five consecutive days after the implementation of such extension.

(4) A condition of energy supply alert or energy emergency shall cease to exist upon a declaration to that effect by either of the following: (a) The governor; or (b) the legislature, by concurrent resolution, if in regular or special session: Provided, That the governor shall terminate a condition of energy supply alert or energy emergency when the energy supply situation upon which the declaration of a condition of energy supply alert or energy emergency was based no longer exists.

(5) In a condition of energy supply alert, the governor may, as deemed necessary to preserve and protect the
public health, safety, and general welfare, and to minimize, to the fullest extent possible, the injurious economic, social, and environmental consequences of such energy supply alert, issue orders to: (a) Suspend or modify existing rules of the Washington Administrative Code of any state agency relating to the consumption of energy by such agency or to the production of energy, and (b) direct any state or local governmental agency to implement programs relating to the consumption of energy by the agency which have been developed by the governor or the agency and reviewed by the committee.

(6) In addition to the powers in subsection (5) of this section, in a condition of energy emergency, the governor may, as deemed necessary to preserve and protect the public health, safety, and general welfare, and to minimize, to the fullest extent possible, the injurious economic, social, and environmental consequences of such an emergency, issue orders to: (a) Implement programs, controls, standards, and priorities for the production, allocation, and consumption of energy; (b) suspend and modify existing pollution control standards and requirements or any other standards or requirements affecting or affected by the use of energy, including those relating to air or water quality control; and (c) establish and implement regional programs and agreements for the purposes of coordinating the energy programs and actions of the state with those of the federal government and of other states and localities.

The governor shall immediately transmit the declaration of a condition of energy supply alert or energy emergency and the findings upon which the declaration is based and any orders issued under the powers granted in this chapter to the committee.

Nothing in this chapter shall be construed to mean that any program, control, standard, priority or other policy created under the authority of the emergency powers authorized by this chapter shall have any continuing legal effect after the cessation of the condition of energy supply alert or energy emergency.

If any provision of this chapter is in conflict with any other provision, limitation, or restriction which is now in effect under any other law of this state, including, but not limited to, chapter 34.04 RCW, this chapter shall govern and control, and such other law or rule or regulation promulgated thereunder shall be deemed superseded for the purposes of this chapter.

Because of the emergency nature of this chapter, all actions authorized or required hereunder, or taken pursuant to any order issued by the governor, shall be exempted from any and all requirements and provisions of the state environmental policy act of 1971, chapter 43.21G RCW, including, but not limited to, the requirement for environmental impact statements.

Except as provided in this section nothing in this chapter shall exempt a person from compliance with the provisions of any other law, rule, or directive unless specifically ordered by the governor. 43.21G.080 Compliance by distributors—Fair and just reimbursement. The governor may order any distributor to take such action on his behalf as may be required to implement orders issued pursuant to this chapter as now or hereafter amended: Provided, That orders to regulated distributors shall be issued by the Washington utilities and transportation commission in conformance with orders of the governor. No distributor shall be liable for actions taken in accordance with such orders issued by the governor or the Washington utilities and transportation commission.

All allocations of energy from one distributor to another distributor pursuant to orders issued or as a result of actions taken under this chapter as now or hereafter expire on June 30, 1985. [1981 c 281 § 1; 1980 c 87 § 23; 1979 ex.s. c 158 § 1; 1977 ex.s. c 328 § 4; 1975–76 2nd ex.s. c 108 § 18.]

43.21G.090 Empowers the governor. The governor or the agency and reviewed by the committee.

Severability—1981 c 281: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1981 c 281 § 3.]

In the nearly half a century which has elapsed since the Alaska–Yukon–Pacific Exposition, this state has progressed markedly in agriculture, trade, and manufacturing, and the University of Washington on whose site the exposition was held has become one of the great universities of the world. The department, with the authorization of the world fair commission, is further directed to undertake such
activities as are deemed necessary to effectuate the purposes of this act [1961 c 152; 1957 c 174], to the end that a successful world fair or exposition is produced.

The department is further authorized to make all necessary plans and surveys for such acquisition and construction, and any such plans shall be subject to the approval of the world fair commission. [1965 c 8 § 43.31.520. Prior: 1961 c 152 § 3; 1957 c 174 § 3.]

It is the sense of the legislature that the heavy burdens placed upon persons proposing to undertake certain types of businesses in this state through requirements to obtain numerous permits and related documents from various state agencies are undesirable and should be alleviated.  The legislature further finds that present methods for obtaining such permits from state agencies are cumbersome and place undue hardships on persons attempting to go into business for themselves.  The legislature further finds that multiple inspections related to these permits by the various state agencies is also a burden on many businesses which should be alleviated.

It is hereby declared to be the policy of the state that a pilot program be established to seek to alleviate these problems for one type of business, grocery stores, with
the intent that additional businesses will be assisted as the mechanics of this pilot program are established and proven workable. [1975–76 2nd ex.s. c 68 § 1.]

(1) Any person proposing a new grocery operation after June 30, 1976 shall submit a master application to the department requesting the issuance of all permits necessary prior to opening a new operation in the state of Washington. The master application shall be on a form furnished by the department and shall contain in consolidated form all information necessary for the various state agencies to issue a permit. These provisions shall apply to persons seeking to continue an existing operation after January 1, 1977.

(2) Upon receipt of a properly completed master application the department shall immediately send a copy to each state agency with potential jurisdiction over the proposed operation. Each notified agency shall respond in writing to the department within a reasonable time, as determined by the department, advising the department and the applicant (a) that it approves the application; (b) that it approves with certain conditions as specified; or, (c) that it denies the application with reasons given for the denial.

The department will then issue a master permit covering all the approvals and conditions excluding any denials. It shall be the responsibility of the applicant to make appeals on conditions imposed or on permit denials through that normal appeal process established by the agency with jurisdiction for the issuances of such permit.

(3) A total fee based on the sum of fees for individual permits requested will accompany each master application and will be collected by the department and used to reimburse the various state agencies as per their schedules. The issuance of a master permit shall be in lieu of any permit, certificate, or similar document required by any agency listed in subsection (4) of this section.

(5) All individual permits covered by RCW 43.31.870 through 43.31.910 shall expire according to a staggered schedule to be specified by the department of commerce and economic development. Costs for permits issued in the interim will be prorated according to the time each permit is in force.

(6) Starting January 1, 1977, annual renewals for all individual permits will be replaced by a master permit issued by the department of commerce and economic development. Renewals will be automatically granted under conditions originally imposed unless one of the regulatory agencies informs the department of revised restrictions to be imposed prior to such issuance. 43.37.160 Fees—Sanctions for failure to pay. The fee to be paid by each applicant for a permit shall be equivalent to one and one-half percent of the estimated cost of such operation, the estimated cost to be computed by the department from the evidence available to it. The fee is due and payable to the department as of the date of the issuance of the permit; however, if the applicant is able to give to the department satisfactory security for the payment of the balance, he may be permitted to commence the operation, and a permit may be issued therefor, upon the payment of not less than fifty percent of the fee. The balance due shall be paid within three months from the date of the termination of the operation as prescribed in the permit. Failure to pay a permit fee as required shall be grounds for suspension or revocation of the license of the delinquent permit holder and grounds for refusal to renew his license or to issue any further permits to such person. [1973 c 64 § 13; 1965 c 8 § 43.37.160. Prior: 1957 c 245 § 16.]

Further, the department shall require written reports from such organizations as are exempted from license, permit, and liability requirements as provided in RCW 43.37.090.

(3) The reports and records in the custody of the department shall be open for public examination. [1973 c 64 § 14; 1965 c 8 § 43.37.170. Prior: 1957 c 245 § 17.]

43.37.180 Revocation, suspension, modification of license or permit. (1) The department may suspend or revoke any license or permit issued if it appears that the licensee no longer possesses the qualifications necessary for the issuance of a new license or permit. The department may suspend or revoke any license or permit if it appears that the licensee has violated any of the provisions of this chapter. Such suspension or revocation shall occur only after notice to the licensee and a reasonable opportunity granted such licensee to be heard respecting the grounds of the proposed suspension or revocation. The department may refuse to renew the license of, or to issue another permit to, any applicant who has failed to comply with any provision of this chapter.

(2) The department may modify the terms of a permit after issuance thereof if the licensee is first given notice and a reasonable opportunity for a hearing respecting the grounds for the proposed modification and if it appears to the department that it is necessary for the protection of the health or the property of any person to make the modification proposed. [1973 c 64 § 15; 1965 c 8 § 43.37.180. Prior: 1957 c 245 § 18.]

43.37.190 Liability of state denied—Legal rights of private persons not affected. [1973 c 64 § 16; 1965 c 8 § 43.37.190. Prior: 1957 c 245 § 19.]

43.37.200 Penalty. Any person violating any of the provisions of this chapter or any lawful regulation or order issued pursuant thereto, shall be guilty of a misdemeanor; and a continuing violation is punishable as a separate offense for each day during which it occurs. [1965 c 8 § 43.37.200. Prior: 1957 c 245 § 20.]

43.37.210 Legislative declaration. The legislature finds and declares that when prolonged lack of precipitation or shortages of water supply in the state cause severe hardships affecting the health, safety, and welfare of the people of the state, a program to increase precipitation is occasionally needed for the generation of hydroelectric power, for domestic purposes, and to alleviate hardships created by the threat of forest fires and shortages of water for agriculture. Cloud seeding has been demonstrated to be such a program of weather modification with increasing scientific certainty. [1981 c 278 § 1.]

43.37.215 Program of emergency cloud seeding authorized. The director of ecology may establish by rule under chapter 34.04 RCW a program of emergency cloud seeding. The director may include in these rules standards and guidelines for determining the situations which warrant cloud seeding and the means to be used for cloud seeding. [1981 c 278 § 2.]
the department shall exempt a licensee from the requirements of RCW 43.37.110 (2) and (6) and RCW 43.37.140. [1981 c 278 § 3.] Actions during state of emergency exempt from chapter 43.21C RCW: RCW 43.21C.210.

43.37.900 Revolving account abolished. The weather modification board revolving account is hereby abolished. Any funds remaining in such account shall be transferred to the general fund. [1973 c 64 § 17.]

43.37.910 Effective date—1973 c 64. The effective date of this 1973 amendatory act shall be July 1, 1973. [1973 c 64 § 18.]

43.41.030 Purpose. The legislature finds that the need for long-range state program planning and for the short-range planning carried on through the budget process, complement each other. The biennial budget submitted to the legislature must be considered in the light of the longer-range plans and goals of the state. The effectiveness of the short-range plan presented as budget proposals, cannot be measured without being aware of these longer-range goals. Thus efficient management requires that the planning and fiscal activities of state government be integrated into a unified process. It is the purpose of this chapter to bring these functions together in a new division of the office of the governor to be called the office of financial management. [1979 c 151 § 112; 1969 ex.s. c 239 § 1.]

43.41.035 Office of program planning and fiscal management redesignated office of financial management. From and after September 21, 1977, the office of program planning and fiscal management shall be known and designated as the office of financial management. [1977 ex.s. c 114 § 1.]

43.41.040 Definitions. As used in this chapter, unless the context indicates otherwise:

1. "Office" means the office of financial management.

2. "Director" means the director of financial management. [1979 c 151 § 110; 1969 ex.s. c 239 § 2.]

43.41.050 Office of financial management created—Transfer of powers, duties, and functions. There is created in the office of the governor, the office of financial management which shall be composed of the present central budget agency and the state planning, program management, and population and research divisions of the present planning and community affairs agency. Any powers, duties and functions assigned to the central budget agency, or any state planning, program management, or population and research functions assigned to the present planning and community affairs agency by the 1969 legislature, shall be transferred to the office of financial management. [1979 c 151 § 111; 1969 ex.s. c 239 § 3.]

43.41.060 Director—Appointment—Salary—Vacancy—Delegation of powers and duties. The executive head of the office of financial management shall be the director, who shall be appointed by the governor with the consent of the senate, and who shall serve at the pleasure of the governor. He shall be paid a salary to be fixed by the governor in accordance with the provisions of RCW 43.03.040. If a vacancy occurs in his position while the senate is not in session, the governor shall make a temporary appointment until the next meeting of the senate, when he shall present to that body his nomination for the office. The director may delegate such of his powers, duties and functions to other officers and employees of the department as he may deem necessary to the fulfillment of the purposes of this chapter. [1979 c 151 § 112; 1969 ex.s. c 239 § 4.]

43.41.070 Personnel. The director shall have the power to employ such personnel as may be necessary for the general administration of the office: Provided, That, except as elsewhere specified in this chapter, such employment is in accordance with the rules of the state civil service law, chapter 41.06 RCW. (4) After the completion of each actuarial valuation, the retirement board shall determine or redetermine the normal contribution rate and such contribution rate shall become effective in the ensuing biennium. Until the unfunded liability contribution shall have been discontinued, such normal contribution rate shall be computed to be sufficient, when applied to the present value of the future compensation of the average new member entering the system, to provide for the payment of all prospective pension benefits in respect of such member.

After the unfunded liability contributions have been discontinued, such normal contribution rate shall be determined as the uniform and constant percentage of the prospective compensation of all members in the retirement system at the date of such valuation which is equivalent to the excess of the fundable employer liability over the amount of funds currently standing to the credit of the retirement fund.

(5) After the completion of each actuarial valuation, the retirement board shall determine or redetermine the unfunded liability contribution rate, and such rate shall become effective in the ensuing biennium. The unfunded liability contribution rate shall not be less than the uniform and constant percentage of the prospective compensation of all members in the retirement system for the forty-year period following the date of such valuation which is equivalent to the unfunded liability. The unfunded liability shall be determined at such date as the excess of the fundable employer liability over the sum of the present value of the future normal contributions payable in respect of all members in the retirement system at that date, and the amount of all funds currently standing to the credit of the retirement fund. The unfunded liability contributions shall continue until there remains no unfunded liability.

(6) The retirement board shall estimate biennially the amount required to maintain the retirement fund for the ensuing biennium. [1973 1st ex.s. c 180 § 2; 1965 c 8 § 43.43.220. Prior: 1961 c 93 § 1; 1957 c 162 § 2; 1951 c 140 § 3; 1947 c 250 § 11; Rem. Supp. 1947 § 6362–91.]

The payment of these contributions will entitle the member to service credit as provided in RCW 43.43.260(2). [1975–

[1965 ex.s. c 48 § 2.]

SEASHORE CONSERVATION AREA

43.51.650 Declaration of principles. The beaches bounding the Pacific Ocean from the Straits of Juan de Fuca to Cape Disappointment at the mouth of the Columbia River constitute some of the last unspoiled seashore remaining in the United States. They provide the public with almost unlimited opportunities for recreational activities, like swimming, surfing and hiking; for outdoor sports, like hunting, fishing, clamming, and boating; for the observation of nature as it existed for hundreds of years before the arrival of white men; and for relaxation away from the pressures and tensions of modern life. In past years, these recreational activities have been enjoyed by countless Washington citizens, as well as by tourists from other states and countries. The number of people wishing to participate in such recreational activities grows annually. This increasing public pressure makes it necessary that the state dedicate the use of the ocean beaches to public recreation and to provide certain recreational and sanitary facilities. Non-recreational use of the beach must be strictly limited. Even recreational uses must be regulated in order that Washington's unirved seashore may be saved for our children in much the same form as we know it today. [1967 c 120 § 1.]
Repeal and savings—1967 c 120: "Chapter 78, Laws of 1929 (un-codified) is hereby repealed: Provided, That the title of anyone who has purchased property under this act shall not be affected." [1967 c 120 § 10.]

43.51.655 Seashore conservation area—Established. There is established for the recreational use and enjoyment of the public the Washington State Seashore Conservation Area. It shall include all lands now or hereafter under state ownership or control lying between Cape Disappointment and Leadbetter Point; between Toko Point and the South jetty on Point Chehalis; and between Damon Point and the Makah Indian Reservation and occupying the area between the line of ordinary high tide and the line of extreme low tide, as these lines now are or may hereafter be located, and, where applicable, between the Seashore Conservation Line, as established by survey of the Washington state parks and recreation commission, and the line of extreme low tide, as these lines now are or may hereafter be located; and shall also include all state-owned nontrust accreted lands along the ocean: Provided, That no such conservation area shall include any lands within the established boundaries of any Indian reservation. [1969 ex.s. c 55 § 1; 1967 c 120 § 2.]

Construction—1969 ex.s. c 55: "No provision of this 1969 amendatory act shall be construed as affecting any private or public property rights." [1969 ex.s. c 55 § 8.] This applies to RCW 43.51.655–43.51.675, 43.51.685 and to the repeal of RCW 43.51.690–43.51.705.

43.51.660 Jurisdiction over and administration of area. Except as otherwise provided in RCW 43.51.650 through 43.51.685, the Washington State Seashore Conservation Area shall be under the jurisdiction of the Washington state parks and recreation commission, which shall administer RCW 43.51.650 through 43.51.685 in accordance with the powers granted it herein and under the appropriate provisions of chapter 43.51 RCW. [1969 ex.s. c 55 § 2; 1967 c 120 § 3.]

43.51.665 Principles and purposes to be followed in administering area. The Washington state parks and recreation commission shall administer the Washington State Seashore Conservation Area in harmony with the broad principles set forth in RCW 43.51.650. Where feasible, the area shall be preserved in its present state; everywhere it shall be maintained in the best possible condition for public use. All forms of public outdoor recreation shall be permitted and encouraged in the area, unless specifically excluded or limited by the commission. While the primary purpose in the establishment of the area is to preserve the coastal beaches for public recreation, other uses shall be allowed as provided in RCW 43.51.650 through 43.51.685, or when found not inconsistent with public recreational use by the Washington state parks and recreation commission. [1969 ex.s. c 55 § 3; 1967 c 120 § 4.]

43.51.670 Cooperation and assistance of federal, state and local agencies. In administering the Washington State Seashore Conservation Area, the Washington state parks and recreation commission shall seek the cooperation and assistance of federal agencies, other state agencies, and local political subdivisions. All state agencies, and the governing officials of each local subdivision shall cooperate with the commission in carrying out its duties. Except as otherwise provided in RCW 43.51.650 through 43.51.685, and notwithstanding any other provision of law, other state agencies and local subdivisions shall perform duties in the Washington State Seashore Conservation Area which are within their normal jurisdiction, except when such performance clearly conflicts with the purposes of RCW 43.51.650 through 43.51.685. [1969 ex.s. c 55 § 4; 1967 c 120 § 5.]

43.51.675 Powers and authority of department of fisheries and department of game not interfered with. Nothing in RCW 43.51.650 through 43.51.685 shall be construed to interfere with the powers, duties and authority of the department of fisheries to regulate the conservation or taking of food fish and shellfish. Nor shall anything in RCW 43.51.650 through 43.51.685 be construed to interfere with the powers, duties and authority of the state department of game or the state game commission to regulate, manage, conserve, and provide for the harvest of wildlife within such area, notwithstanding the provisions of *RCW 9.61.040: Provided, however, That no hunting shall be permitted in any state park. [1969 ex.s. c 55 § 5; 1967 c 120 § 6.]

*Reviser's note: "RCW 9.61.040" was repealed by 1975 1st ex.s. c 260 § 9A.92.010.

43.51.680 Control of traffic on ocean beach highways—Regulation. For the protection and conservation of natural resources, and for the safety and enjoyment of the public using the beaches, the Washington state parks and recreation commission, after agreement with the Washington state highway commission, shall establish reasonable regulations for the use and control of vehicular traffic on and along the ocean beach highways as designated and established under RCW 79.16.130, 79.16.160, and 79.16.170. The Washington state parks and recreation commission shall cooperate with county sheriffs and the state patrol in enforcing such traffic regulations: Provided, That automobile driving shall be permitted on the beaches subject to the authority of the department of fisheries to prohibit driving over clam beds. [1967 c 120 § 7; 1961 c 12 § 46.08.180. Prior: 1951 c 271 § 46. Formerly RCW 46.08.180.]

*Reviser's note: Powers, duties, and functions of the Washington state highway commission transferred to department of transportation; see RCW 47.01.031. Term "Washington state highway commission" means department of transportation; see RCW 47.04.015.

43.51.685 Accreted lands—Jurisdiction—Oil, gas and mining leases on accreted or conservation area lands—Sale of sand—Lease and removal permits. Jurisdiction over the accreted nontrust lands in which the state has an interest along the ocean is hereby transferred from the department of natural resources to the state parks and recreation commission. No such accreted
lands shall be sold, leased, or otherwise disposed of, except as herein provided. The department of natural resources may lease the lands within the Washington State Seashore Conservation Area as well as the accreted lands along the ocean in state ownership for the exploration and production of oil and gas: Provided, That oil drilling rigs and equipment will not be placed on the seashore conservation area or state-owned accreted lands. Sale of sand from accretions shall be made to supply the needs of cranberry growers for cranberry bogs in the vicinity and shall not be prohibited if found by the state parks and recreation commission to be reasonable, and not generally harmful or destructive to the character of the land: Provided further, That the state parks and recreation commission may grant mining leases for the removal of "black sands" (minerals) from any state-owned nontrust accreted lands and tidelands between the north jetty at the mouth of the Columbia River and a line due west from the North Head Lighthouse: Provided further, That the state parks and recreation commission may grant leases and permits for the removal of sands for construction purposes from any lands within the Washington State Seashore Conservation Area: Provided further, That net income from such leases shall be deposited in the general fund. [1969 ex.s. c 55 § 6; 1967 c 120 § 8.]

GREEN RIVER GORGE CONSERVATION AREA

43.51.900 Declaration. The Green River Gorge, between the town of Kanasket and the Kummer bridge in King county, is a twelve mile spectacularly winding gorge with steep to overhanging rock walls reaching heights of from one hundred fifty to three hundred feet. The beauty and natural features of the gorge are generally confined within the canyon rim. This twelve mile gorge area contains many examples of unique biological and geological features for educational and recreational interpretation, almost two miles of Eocene sediment rocks and fossils are exposed revealing one of the most complete stratigraphic sections to be found in the region. The area, a unique recreational attraction with more than one million seven hundred thousand people living within an hour's driving time, is presently used by hikers, geologists, fishermen, kayakers and canoeists, picnickers and swimmers, and those seeking the solitude offered by this unique area. Abutting and adjacent landowners generally have kept the gorge lands in their natural state; however, economic and urbanization pressures for development are rapidly increasing. Local and state outdoor recreation plans show a regional need for resources and facilities which could be developed in this area. A twelve mile strip incorporating the visual basins of the Green River from the Kummer bridge to Palmer needs to be acquired and developed as a conservation area to preserve this unique area for the recreational needs of the region. [1969 ex.s. c 162 § 1.]

43.51.910 Green River Gorge conservation area created. There is hereby created a Washington state parks and recreation commission conservation area to be known as "Green River Gorge conservation area". [1969 ex.s. c 162 § 2.]

43.51.920 Acquisition of real property, easements, or rights authorized. In addition to all other powers and duties prescribed by law, the state parks and recreation commission is authorized and directed to acquire such real property, easements, or rights in the Green River Gorge in King county, together with such real property, easements, and rights as is necessary for such park and conservation purposes in any manner authorized by law for the acquisition of lands for parks and parkway purposes. Except for such real property as is necessary and convenient for development of picnic or camping areas and their related facilities, it is the intent of this section that such property shall be acquired to preserve, as much as possible, the gorge within the canyon rim in its natural pristine state. [1969 ex.s. c 162 § 3.]

43.51.930 Acquisition of real property, easements, or rights authorized—Rights of other state agencies not to be infringed upon. Nothing herein shall be construed as authorizing or directing the state parks and recreation commission to acquire any real property, easements, or rights in the Green River Gorge in King county which are now held by any state agency for the purposes of outdoor recreation, conservation, fish, or wildlife management or public hunting or fishing without the approval of such agency. [1969 ex.s. c 162 § 4.]

MOUNT SI CONSERVATION AREA

43.51.940 Legislative declaration. Mt. Si and Little Si in King county offer unique scenic, natural, and geological features which can be viewed from the I-90 highway. They also afford outstanding recreational opportunities enjoyed by the citizens of this state and tourists alike. The legislature recognizes the importance of guarding portions of this area from those types of development which would permanently alter the area's natural form and beauty. It further recognizes the necessity of setting forth procedures to manage the area, to enhance the opportunities afforded the state's citizens, one-half of whom live within one-half hour driving time of Mt. Si, and to safeguard to the extent possible the scenic, natural, geological, game habitat, and recreational values therein, and to safeguard and promote the upper Snoqualmie River valley's economy in which the recreational use of Mt. Si plays a pivotal role. Therefore, the legislature declares this area to be of state-wide significance for the foregoing purposes to be enhanced and safeguarded in accordance with the procedures set forth in *this 1977 amendatory act. [1977 ex.s. c 306 § 1; 1975--76 2nd ex.s. c 88 § 1.]

*Revisor's note: *this 1977 amendatory act* consists of RCW 43.51.942 through 43.51.945, the repeal of RCW 43.51.941, and the 1977 amendment to RCW 43.51.940.

Interagency committee for outdoor recreation—Budget consideration: "The interagency committee for outdoor recreation is directed to consider the inclusion of an amount not to exceed two million seven hundred fifty thousand dollars for purposes of this 1977 amendatory

[Title 43 RCW—p 198]
act in its 1979-81 biennium budget request: Provided, That such attendant expenses of determining fair market value as described in RCW 43.51.944 shall be considered an eligible project acquisition cost." [1977 ex.s. c 306 § 5.]

Appropriation—1977 ex.s. c 306: "There is appropriated to the parks and recreation commission from the general fund, the sum of thirty-five thousand dollars, to be used exclusively for the purpose of accomplishing appraisals under this 1977 amendatory act, or so much thereof as may be necessary, and to the department of natural resources from the general fund, the sum of six thousand five hundred dollars, or so much thereof as may be necessary, to carry out the purposes of RCW 43.51.944." [1977 ex.s. c 306 § 9.]

The foregoing annotations apply to RCW 43.51.942 through 43.51.945, the repeal of RCW 43.51.941, and the 1977 amendment to RCW 43.51.940.

43.51.942 "Mt. Si Conservation Area"—Created. There is hereby created a "Mt. Si Conservation Area" to include approximately twenty-five hundred acres of state, United States government, and privately owned lands within Sections 25, 26, 35, and 36, Township 24 North, Range 8 East, W.M., and Sections 2, 3, 10, 11, and 12 of Township 23 North, Range 8 East, W.M., as identified for inclusion in the conservation area and described more specifically by the Mt. Si citizen advisory subcommittee in their published report of December 6, 1976, to the Washington state department of natural resources and the Washington state parks and recreation commission as contained in the report filed by those agencies to the house and senate committees on parks and recreation, filed December 1976. [1977 ex.s. c 306 § 2.]

43.51.943 Mt. Si Conservation Area—Management. The state department of natural resources and the state parks and recreation commission have joined together in excellent cooperation in the conducting of this study along with the citizen advisory subcommittee and have joined together in cooperation with the state department of game to accomplish other projects of multidisciplinary concern, and because it may be in the best interests of the state to continue such cooperation, the state parks and recreation commission, the department of natural resources, and the department of game are hereby directed to consider both short and long term objectives, the expertise of each agency's staff, and alternatives such as reasonably may be expected to safeguard the conservation area's values as described in RCW 43.51.940 giving due regard to efficiency and economy of management: Provided, That the interests conveyed to or by the state agencies identified in this section shall be managed by the department of natural resources until such time as the state parks and recreation commission or other public agency is managing public recreation areas and facilities located in such close proximity to the conservation area described in RCW 43.51.942 so as to make combined management of those areas and facilities and transfer of management of the conservation area more efficient and economical than continued management by the department of natural resources. At that time the department of natural resources is directed to negotiate with the appropriate public agency for the transfer of those management responsibilities for the interests obtained within the conservation area under *this 1977 amendatory act: Provided further, That the state agencies identified in this section may, by mutual agreement, undertake management of portions of the conservation area as they may from time to time determine in accordance with those rules and regulations established for natural area preserves under chapter 79.70 RCW, for natural and conservation areas under present WAC 352-16-020(3) and (6), and under chapter 77.12 RCW. [1977 ex.s. c 306 § 3.]

(1) The full market value for department of natural resources' managed trust lands or interest therein within the conservation area shall be determined by the department of natural resources for any lands or interests to be dedicated or leased as provided herein. The department of natural resources shall determine the value of dedicating such lands or interests in lands as it may determine to be necessary to carry out the purposes of *this 1977 amendatory act* either by execution of fifty-five year scenic or development easements or by execution of fifty-five year leases, including such conditions as may be necessary to carry out the purposes of *this 1977 amendatory act*. Any lease issued pursuant to *this 1977 amendatory act* may be subject to renewal under the provisions of **RCW 79.01.276** as presently existing or hereafter amended. Nothing in *this 1977 amendatory act* shall be deemed to alter or affect normal management on lands owned by the state for which no dedication by easement or lease has been made and it is further recognized that no restrictions on management of such lands shall be required unless the applicable trust relating to such lands shall have been compensated.

The completed report of the cost of obtaining the desired interest in these lands shall be presented by the department of natural resources to the interagency committee for outdoor recreation and a summary of the report to the senate and house committees on parks and recreation by December 31, 1978.

For the purposes provided for in this chapter, an operating agency shall have power to issue revenue bonds or warrants payable from the revenues of the utility properties operated by it. However, for revenue bonds or warrants issued by an operating agency, the provisions under RCW 54.24.030 relating to additional or alternate methods for payment may be made a part of the contract with the holders of any revenue bonds or warrants of an operating agency. The board may authorize the managing director or the treasurer of the operating agency to sell revenue bonds or warrants maturing one year or less from the date of issuance, and to fix the interest rate or rates on such revenue bonds or warrants with such restrictions as the board shall prescribe. [1981 1st ex.s. c 1 § 2; 1965 c 8 § 43.52.3411. Prior: 1957 c 295 § 6.]

43.52.343 Revenue bonds or warrants—Sale by negotiation or advertisement and bid. All bonds issued by an operating agency shall be sold and delivered in such manner, at such rate or rates of interest and for such
price or prices and at such time or times as the board shall deem in the best interests of the operating agency, whether by negotiation or to the highest and best bidder after such advertising for bids as the board of the operating agency may deem proper. Provided, That the board may reject any and all bids so submitted and thereafter sell such bonds so advertised under such terms and conditions as it may deem most advantageous to its own interests. [1981 1st ex.s. c 1 § 3; 1965 c 8 § 43.52- .343. Prior: 1957 c 295 § 7; 1955 c 258 § 10.]

Severability—1981 1st ex.s. c 1: See note following RCW 43.52.250.

43.52.350 Operating agencies to provide fishways, facilities and hatcheries—Contracts. An operating agency shall, at the time of the construction of any dam or obstruction, construct and shall thereafter maintain and operate such fishways, fish protective facilities and hatcheries as the director of game and the director of fisheries may jointly find necessary to permit anadromous fish to pass any dam or other obstruction operated by the operating agency or to replace fisheries damaged or destroyed by such dam or obstruction and an operating agency is further authorized to enter into contracts with the department of game and the department of fisheries to provide for the construction and/or operation of such fishways, facilities and hatcheries. [1977 ex.s. c 184 § 5; 1965 c 8 § 43.52.350. Prior: 1953 c 281 § 11.]

43.52.360 Operating agency—Formation—Additional projects—Appeals—Membership, withdrawal—Dissolution. Any two or more cities or public utility districts or combinations thereof may form an operating agency (herein sometimes called a joint operating agency) for the purpose of acquiring, constructing, operating and owning plants, systems and other facilities and extensions thereof, for the generation and/or transmission of electric energy and power. Each such agency shall be a municipal corporation of the state of Washington with the right to sue and be sued in its own name.

Application for the formation of an operating agency shall be made to the director of the department of ecology (herein sometimes referred to as the director) after the adoption of a resolution by the legislative body of any city or public utility district to be initial members thereof authorizing said city or district to participate. Such application shall set forth (1) the name and address of each participant, together with a certified copy of the resolution authorizing its participation; (2) a general description of the project and the principal project works, including dams, reservoirs, power houses and transmission lines; (3) the general location of the project and, if a hydroelectric project, the name of the stream on which such proposed project is to be located; (4) if the project is for the generation of electricity, the proposed use or market for the power to be developed; (5) a general statement of the electric loads and resources of each of the participants; (6) a statement of the proposed method of financing the preliminary engineering and other studies and the participation therein by each of the participants.

Within ten days after such application is filed with the director of the department of ecology notice thereof shall be published by the director once a week for four consecutive weeks in a newspaper of general circulation in the county or counties in which such project is to be located, setting forth the names of the participants and the general nature, extent and location of the project. Any public utility wishing to do so may object to such application by filing an objection, setting forth the reasons therefor, with the director of the department of ecology not later than ten days after the date of last publication of such notice.

Within ninety days after the date of last publication the director shall either make findings thereon or have instituted a hearing thereon. In event the director has neither made findings nor instituted a hearing within ninety days of the date of last publication, or if such hearing is instituted within such time but no findings are made within one hundred and twenty days of the date of such last publication, the application shall be deemed to have been approved and the operating agency established. If it shall appear (a) that the statements set forth in said application are substantially correct; (b) that the contemplated project is such as is adaptable to the needs, both actual and prospective, of the participants and such other public utilities as indicate a good faith intention by contract or by letter of intent to participate in the use of such project; (c) that no objection to the formation of such operating agency has been filed by any other public utility which prior to and at the time of the filing of the application for such operating agency had on file a permit or license from an agency of the state or an agency of the United States, whichever has primary jurisdiction, for the construction of such project; (d) that adequate provision will be made for financing the preliminary engineering, legal and other costs necessary thereto; the director shall make findings to that effect and enter an order creating such operating agency, establishing the name thereof and the specific project for the construction and operation for which such operating agency is formed. Such order shall not be construed to constitute a bar to any other public utility proceeding according to law to procure any required governmental permits, licenses or authority, but such order shall establish the competency of the operating agency to proceed according to law to procure such permits, licenses or authority.

No operating agency shall undertake projects in addition to those for which it was formed without the approval of the legislative bodies of a majority of the members thereof. In the event that an operating agency desires to undertake such a hydroelectric project at a site or sites upon which any publicly or privately owned public utility has a license or permit or has a prior application for a license or permit pending with any commission or agency, state or federal, having jurisdiction thereof, application to construct such additional project
shall be made to the director of the department of ecology in the same manner, subject to the same requirements and with the same notice as required for an initial agency and project and shall not be constructed until an order authorizing the same shall have been made by the director in the manner provided for such original application.

Any party who has joined in filing the application for, or objections against, the creation of such operating agency and/or the construction of an additional project, and who feels aggrieved by any order or finding of the director shall have the right to appeal to the superior court in the manner set forth in RCW 43.52.430.

After the formation of an operating agency, any other city or district may become a member thereof upon application to such agency after the adoption of a resolution of its legislative body authorizing said city or district to participate, and with the consent of the operating agency by the affirmative vote of the majority of its members. Any member may withdraw from an operating agency, and thereupon such member shall forfeit any and all rights or interest which it may have in such operating agency or in any of the assets thereof: Provided, That all contractual obligations incurred while a member shall remain in full force and effect. An operating agency may be dissolved by the unanimous agreement of the members, and the members, after making provisions for the payment of all debts and obligations, shall thereupon hold the assets thereof as tenants in common. [1977 ex.s. c 184 § 6; 1965 c 8 § 43.52.360. Prior: 1957 c 295 § 1; 1955 c 258 § 3; 1953 c 281 § 12.]

Each representative shall have one vote and shall have, in addition thereto, one vote for each block of electric energy equal to ten percent of the total energy generated by the agency during the preceding year purchased by the member represented by such representative. Each member may appoint an alternative representative to serve in the absence or disability of its representative. Each representative shall serve at the pleasure of the member. The board of an operating agency shall elect from its members a president, vice president and secretary, who shall serve at the pleasure of the board. The president and secretary shall perform the same duties with respect to the operating agency as are provided by law for the president and secretary, respectively, of public utility districts, and such other duties as may be provided by motion, rule or resolution of the board. The board of an operating agency shall adopt rules for the conduct of its meetings and the carrying out of its business, and adopt an official seal. All proceedings of an operating agency shall be by motion or resolution and shall be recorded in the minute book which shall be a public record. A majority of the board members shall constitute a quorum for the transaction of business. A majority of the votes which the members present are entitled to cast shall be necessary and sufficient to pass any motion or resolution: Provided, That such board members are entitled to cast a majority of the votes of all members of the board. The members of the board of an operating agency may be compensated by such agency as is provided in RCW 43.52.290: Provided, That the per diem compensation to any member shall not exceed five thousand dollars in any year except for board members who are elected to serve on an executive board established under RCW 43.52.374, in which case per diem compensation to any member shall not exceed ten thousand dollars in any year.

(2) If an operating agency is constructing a nuclear power plant under a site certification agreement under chapter 80.50 RCW, the powers and duties of the board of directors are limited to the following:

(a) Final authority on any decision of the operating agency to purchase, acquire, construct, or sell any power plants, works, and facilities;

The board of an operating agency by rule may create an executive committee to be composed of not less than three nor more than seven members of the board. The board may provide by rule for the composition of the executive committee so as to afford, in its judgment, fair representation to the member public utility districts and cities. The executive committee shall administer the business of the board during intervals between its meetings in accordance with its rules, motions or resolutions. The executive committee shall have authority to acquire or construct only such properties as may be provided for by motion or resolution of the board. The terms of office of the members of the executive committee and the method of filling vacancies therein shall be fixed by the rules of the board of
the operating agency. [1965 c 8 § 43.52.373. Prior: 1957 c 295 § 3.]

43.52.374 Operating agency executive board—Members—Terms—Rules—Proceedings. (1) With the exception of the powers and duties of the board of directors described in RCW 43.52.370(2), the management and control of an operating agency constructing a nuclear power plant under a site certification agreement entered into under chapter 80.50 RCW is vested in an executive board established under this subsection and consisting of eleven members.

(a) Seven members of the executive board shall be elected to four-year terms by the board of directors from among the members of the board of directors. The board of directors may provide by rule for the composition of the seven members of the executive board elected from among the members of the board of directors so as to afford fair representation which reflects the member public utility districts' and cities' participation in the joint operating agency's projects. The board of directors may also provide by rule for the removal of a member of the executive board, including the outside directors. Members of the board of directors may be elected to serve successive terms on the executive board.

(b) Four members of the executive board shall be outside directors and shall be selected and appointed by the board of directors. The outside directors shall:

(i) Serve four-year terms on the executive board. However, of the initial members of the executive board, the board of directors shall choose by lot two outside directors to serve two-year terms and two to serve four-year terms. Thereafter, all outside directors shall be appointed for four-year terms. All outside directors are eligible for reappointment;

(ii) Receive per diem compensation and travel expenses on the same basis as the seven members elected from the board of directors. The outside directors may be paid additional compensation as established by the board of directors;

(iii) Not be an officer or employee of, or in any way affiliated with, the Bonneville power administration or any electric utility conducting business in the states of Washington, Oregon, Idaho, or Montana;

(iv) Not be involved in the financial affairs of the operating agency as an underwriter or financial adviser of the operating agency or any of its members or any of the participants in any of the operating agency's plants; and

(v) Be representative of policy makers in business, finance, or science or be recognized experts in the construction or management of such facilities as the operating agency is constructing or operating.

(c) The president of the board of directors shall be a nonvoting member of the executive board and shall serve as the presiding officer of the executive board.

(2) Nothing in this chapter shall be construed to mean that an operating agency is in any manner an agency of the state.

(3) The eleven members of the executive board shall be selected with the objective of establishing an executive board which has the resources to effectively carry out its responsibilities. To the extent reasonably possible, the membership and operation of the executive board should be patterned after boards of directors of large private corporations.

(4) The executive board shall adopt rules for the conduct of its meetings and the carrying out of its business. All proceedings shall be by motion or resolution and shall be recorded in the minute book, which shall be a public record.

(5) With respect to any operating agency existing on July 28, 1981, to which the provisions of this section are applicable:

(a) The board of directors shall elect seven members to the executive board no later than sixty days after July 28, 1981; and

(b) The board of directors shall select and appoint the initial outside directors and the executive board shall hold its organizational meeting no later than ninety days after July 28, 1981, and the powers and duties prescribed in RCW 43.52.375, 43.52.378, and this section shall devolve upon the executive board at that time.

(6) The executive board shall select and employ a managing director of the operating agency and may delegate to the managing director such authority for the management and control of the operating agency as the executive board deems appropriate. The managing director's employment is terminable at the will of the executive board.

(7) Any executive board created under this section shall cease to function upon the initiation of regular operations of the nuclear power plant over which it has exercised construction management powers and duties. If the operating agency is constructing two or more nuclear power plants simultaneously, the executive board shall cease exercising all powers as to each plant as it becomes operational. [1981 1st ex.s. c 3 § 2.]

43.52.375 Treasurer—Auditor—Official bonds—Funds. The board of each joint operating agency shall by resolution appoint a treasurer. If the joint operating agency is constructing a nuclear power plant under a site certification agreement entered into under chapter 80.50 RCW, the appointment of the treasurer shall be on the recommendation of the executive board established under RCW 43.52.374. Before entering upon his duties the treasurer shall give bond to the operating agency, with a surety company authorized to write such bonds in this state as surety, in an amount which the board finds by resolution will protect the operating agency against loss, conditioned that all funds which he receives as such treasurer will be faithfully kept and accounted for and for the faithful discharge of his duties. The amount of such bond may be decreased or increased from time to time as the board may by resolution direct. The board shall also appoint an auditor and may require him to give a bond with a surety company authorized to do business in the state of Washington in such amount as it shall by resolution prescribe, conditioned for the
faithful discharge of his duties. If the joint operating agency is constructing a nuclear power plant under a site certification agreement under chapter 80.50 RCW, the auditor shall be appointed by the executive board. The premiums on the bonds of the auditor and the treasurer shall be paid by the operating agency. The board may provide for coverage of said officers and other persons on the same bond.

All funds of the joint operating agency shall be paid to the treasurer and shall be disbursed by him only on warrants issued by the auditor upon orders or vouchers approved by the board: Provided, That the board by resolution may authorize the executive committee or executive board to approve or disapprove vouchers presented to defray salaries of employees and other expenses of the operating agency arising in the usual and ordinary course of its business and expenses incurred by the executive committee or executive board in the performance of such duties as the operating agency may authorize it to perform. All moneys of the operating agency shall be deposited forthwith by the treasurer in such depositaries, and with such securities as are designated by rules of the board. The treasurer shall establish a general fund and such special funds as shall be created by the board, into which he shall place all money of the joint operating agency as the board by resolution or motion may direct. [1981 1st ex.s. c 3 § 3; 1965 c 8 § 43.52.375. Prior: 1957 c 295 § 4.]

43.52.378 Executive board—Appointment of administrative auditor—Retention of firm for performance audits—Duties of auditor and firm—Reports. The executive board of any operating agency constructing a nuclear power plant under a site certification agreement issued pursuant to chapter 80.50 RCW shall appoint an administrative auditor. The administrative auditor shall be deemed an officer under chapter 42.23 RCW. The appointment of the administrative auditor shall be in addition to the appointment of the auditor for the issuance of warrants and other purposes as provided in RCW 43.52.375. The executive board shall retain a qualified firm or firms to conduct performance audits, including such engineering expertise as the executive board deems necessary, which is in fact independent and does not have any interest, direct or indirect, in any contract with the operating agency other than its employment hereunder. No member or employee of any such firm shall be connected with the operating agency as an officer, employee, or contractor. The administrative auditor and the firm or firms shall be independently and directly responsible to the executive board of the operating agency. The executive board shall require a firm to conduct continuing audits of the methods, procedures and organization used by the operating agency to control costs, schedules, productivity, contract amendments, project design and any other topics deemed desirable by the executive board. The executive board may also require a firm to analyze particular technical aspects of the operating agency's projects and contract amendments. The firm or firms shall provide advice to the executive board in its management and control of the operating agency. At least once each year, the firm or firms shall prepare and furnish a report of its actions and recommendations to the executive board for the purpose of enabling it to attain the highest degree of efficiency in the management and control of any thermal power project under construction or in operation. The administrative auditor shall assist the firm or firms in the performance of its duties. The administrative auditor and the firm or firms shall consult regularly with the executive board and furnish any information or data to the executive board which the administrative auditor, firm, or executive board deems helpful in accomplishing the purpose above stated. The administrative auditor shall perform such other duties as the executive board shall prescribe to accomplish the purposes of this section.

In addition to the powers and duties conferred by chapter 44.28 RCW, the legislative budget committee shall evaluate such management audits as to adequacy and effectiveness of procedure and shall consult with and make reports and recommendations to the executive board. The operating agency shall reimburse the legislative budget committee for all costs of furnishing such services. The operating agency shall file a copy of each firm's reports, and the legislative budget committee shall file a copy of each of its reports or recommendations in a timely manner, prepared in accordance with this section, with the respective chairmen of the senate and house energy and utilities committees. Upon the concurrent request of the chairmen of the senate or house energy and utilities committees, the operating agency shall report to the committees on a quarterly basis. [1981 1st ex.s. c 3 § 4; 1979 ex.s. c 220 § 1.]

Upon the concurrent request of the chairmen of the committees on energy and utilities of the senate and house of representatives, the executive board shall report to the committees on a semi-annual basis. The purpose will be to furnish reports on project schedules, budgets, progress, and other matters deemed relevant by the committees. [1981 1st ex.s. c 3 § 5.]

43.52.380 Member's preference to buy energy—Apportionment—Surplus. Members shall have a preference right to the purchase of all electric energy generated by an operating agency. As between members, the amount of electric energy to which each shall be entitled shall be computed annually and shall be based on the same percentage as the purchases of such member bore to the total generation of the operating agency for the preceding year. Surplus electric energy, that is energy not contracted for by the members, may be sold to any public utility authorized by law to distribute and sell electric energy. [1965 c 8 § 43.52.380. Prior: 1953 c 281 § 14.]

state. It shall not acquire nor operate any electric distribution properties nor condemn any properties owned by a public utility which are operated for the generation and transmission of electric power and energy or are being developed for such purposes with due diligence under a valid license or permit, nor purchase or acquire any operating hydroelectric generating plant owned by any city or district on June 11, 1953, or which may be acquired by any city or district by condemnation on or after January 1, 1957, nor levy taxes, issue general obligation bonds, or create subdistricts. It may enter into any contracts, leases or other undertakings deemed necessary or proper and acquire by purchase or condemnation any real or personal property used or useful for its corporate purposes. An operating agency may sell steam or water not required by it for the generation of power and may construct or acquire any facilities it deems necessary for that purpose.

An operating agency may make contracts for any term relating to the purchase, sale, interchange or wheeling of power with the government of the United States or any agency thereof and with any municipal corporation or public utility, within or without the state, and may purchase or deliver power anywhere pursuant to any such contract. An operating agency may acquire any coal-bearing lands for the purpose of assuring a long-term, adequate supply of coal to supply its needs, both actual and prospective, for the generation of power and may make such contracts with respect to the extraction, sale or disposal of coal that it deems proper.

Any member of an operating agency may advance or contribute funds to an agency as may be agreed upon by the agency and the member, and the agency shall repay such advances or contributions from proceeds of revenue bonds, from operating revenues or from any other funds of the agency, together with interest not to exceed six percent per annum. Any party in interest deeming itself aggrieved by any order of the director of the department of ecology may appeal to the superior court of Thurston county by serving upon the director and filing with clerk of said court within thirty days after the entry of the order a notice of appeal. The director shall, within ten days after service of the notice of appeal, file with the clerk of the court a return containing a true copy of the order appealed from, together with a transcript of the record of the proceeding before the director, after which the appeal shall be at issue. The appeal shall be heard and decided by the court upon the record before the director and the court may either affirm, set aside, or remand the order appealed from for further proceedings. Appeal may be had to the supreme court or the court of appeals as in the case of civil appeals. [1977 exs. c. 184 § 10; 1971 c 81 § 113; 1965 c 8 § 43.52.430. Prior: 1953 c 281 § 19.]

Nothing contained in this chapter shall be construed to amend, modify or repeal in any manner any of the terms and provisions of section 1, chapter 9, Laws of 1949, RCW 75.20.010, commonly known as the "Columbia River Sanctuary Act", and all matter herein contained shall be expressly subject to such act. [1965 c 8 § 43.52.440. Prior: 1953 c 281 § 23.]

### 43.52.450 Chapter requirements are cumulative—Preservation of rights—Not subject to utilities and transportation commission

Any joint operating agency formed under this chapter shall pay in lieu of taxes payments in the same amounts as paid by public utility districts. Such payments shall be distributed in accordance with the provisions applicable to public utility districts: Provided, however, That such tax shall not apply to steam generated electricity produced by a nuclear steam powered electric generating facility constructed or acquired by a joint operating agency and in operation prior to May 17, 1971. [1971 ex.s.c. 75 § 1; 1965 c 8 § 43.52.460. Prior: 1957 c 295 § 10.]

Except as provided in RCW 43.52.360, the validity of the organization of any joint
The joint operating agency on May 14, 1981, the date that the joint operating agency is created. If the validity of the existence of any joint operating agency is not challenged within that period, by the filing and service of a petition or complaint in the action, the state shall be barred forever from questioning the validity of the joint operating agency by reason of any defect claimed to exist in the organization thereof, and it shall be deemed validly organized for all purposes. Any joint operating agency heretofore (March 26, 1957) attempted to be organized pursuant to chapter 43.52 RCW and which has maintained its existence since the date of such attempted organization, is hereby declared legal and valid and its organization and creation are validated and confirmed. [1965 c 8 § 43.52.470. Prior: 1957 c 295 § 11.]

43.52.490 Operating agency—Powers with respect to contract amendments for nuclear generating projects and associated facilities—Limitations—Expiration of section. An operating agency shall have the power to amend a contract previously let for the construction of a nuclear generating project and associated facilities, by change order or other writing, if the managing director certifies to the executive board or executive committee that and the executive board or executive committee finds in an open public meeting that:

(1) Such amendment is necessary to comply with applicable regulations or standards of any state or federal governmental agency, or with any change in plans or specifications recommended by the architect—engineer in charge of the project or under his (its) direction or by the managing director for the purpose of improving the safety or feasibility of the project or expediting completion of the project on the most advantageous terms in the public interest;

(2) Such amendment does not provide for a type of construction basically different from that provided for in such contract;

(3) The plans and specifications for work to be performed under the contract amendment are at least fifty percent complete; and

(4) Such amendment specifies that the contractor will be compensated for actual work performed valued at its contracted cost.

Nothing in *this 1981 act* may be construed to bear on the validity of any contract amendment executed under the law as it existed prior to May 14, 1981, or to affect any judicial proceeding arising from actions taken under such law.

This section shall expire on December 31, 1987, or on the date that construction is completed on those nuclear generating projects which are under construction by any joint operating agency on May 14, 1981, whichever is sooner. [1981 c 173 § 1; 1977 ex.s. c 28 § 2.]

*Revisor's note: *"this 1981 act" consists of the 1981 c 173 amendment to RCW 43.52.490, of RCW 43.52.495, 43.52.500, 43.52.505, 43.52.510, and 43.52.515, of the repeal of RCW 43.52.480, of an expiration section and of a severability section which are footnoted after RCW 43.52.495, and of an emergency clause (uncodified).

Severability—1981 c 173: See note following RCW 43.52.495.

43.52.495 Legislative declaration—Intent. It is the long-established policy of the state of Washington that competitive bidding for construction and procurement contracts for public improvements is the best practice and is in the public interest in assuring the citizens of the state the lowest cost in obtaining these improvements. However, the legislature declares that for certain work during the final stages of construction and startup of a nuclear generating project and associated facilities it will permit award of contracts through competitive negotiation when competitive bidding is not practicable or not advantageous.

The legislature intends that negotiated contracts be limited to the final stages of construction and startup of a nuclear generating project and associated facilities. [1981 c 173 § 2.]

Expiration—1981 c 173: "Sections 2 through 5 of this act shall expire on December 31, 1987, or on the date that construction is completed on those nuclear generating projects which are under construction by any joint operating agency on the effective date of this act, whichever is sooner." [1981 c 173 § 8.]* "Sections 2 through 5 of this act" are codified as RCW 43.52.495, 43.52.500, 43.52.505, and 43.52.510. "The effective date of this act" is May 14, 1981.

Severability—1981 c 173: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1981 c 173 § 9.]

43.52.500 Additional powers of an operating agency—Negotiated contracts—Conditions. In addition to the powers of an operating agency under other provisions of law, an operating agency may enter into a contract for work to be performed during the final stages of construction and startup through negotiation without competitive bids only if all the following conditions are first satisfied:

(1) The executive board or executive committee of the operating agency has adopted a procedure to determine when a project has reached the final stages of construction and startup. A project shall not be considered to have reached the final stages of completion and startup unless the managing director certifies that the project is approximately eighty percent or more complete calculated by the method used to determine this percentage for the purpose of disclosing relevant information under 15 U.S.C. Sec. 77 et seq. as existing on May 14, 1981.

(2) The managing director certifies in writing to the executive board or executive committee that the executive board or executive committee finds that executing a negotiated contract will accomplish completion and startup more economically, expeditiously, or safely than executing a competitively bid contract.

(3) The selection of a contractor was made in accordance with procedures adopted by the executive board or executive committee requiring competitive proposals, the request for which states the relative importance of the various evaluation factors, including professional competence of offerors, the technical merits of offers, and the price.

(4) The joint operating agency retains authority and responsibility for inspection, testing, and compliance with applicable regulations or standards of any state or federal governmental agency.

[Title 43 RCW—p 213]
(5) The operating agency has defined in writing the roles, responsibilities, and obligations of the new contractor and any contractor who commenced any work to be reworked, performed by, or completed by the new contractor. [1981 c 173 § 3.]

Expiration—Severability—1981 c 173: See notes following RCW 43.52.495.

An operating agency may provide in any negotiated contract for payment of cost and compensation in the form of reimbursement of actual contractor's costs recognized as allowable under the contract, plus a profit or fee as set forth in the contract, only if there is compliance with the following requirements:

(1) The managing director certifies to the executive board or executive committee that it is not feasible to determine in advance what a fixed or unit contract price should be for the work, materials, or equipment to be covered by the proposed contract, either because of difficulty in defining and detailing the scope of the work to be performed, the materials, or equipment required;

(2) The executive board or executive committee finds in an open public meeting held under chapter 42.30 RCW that the contract is likely to be less costly than contracts of other types or that it is impracticable to obtain the work, materials, or equipment required except under the contract;

(3) The contract provides that:

(a) The contractor shall submit cost or pricing data and shall certify that, to the best of its knowledge and belief, the cost and pricing data submitted were accurate, complete, and current as of a mutually agreed upon date which is prior to the pricing of the negotiated contract;

(b) The operating agency and the state auditor shall audit the books and records of the contractor, its subcontractors under the contract, or any person who has submitted cost or pricing data in connection with the obtaining of the contract or the performance of the contract as necessary to determine compliance with relevant provisions of law;

(c) The contract price or compensation, including any profit or fee, shall be adjusted to exclude any significant sum by which the price was increased because contractor-furnished cost or pricing data was inaccurate, incomplete, or not current as of the date agreed upon between the parties; and

(d) Notice is given to the contractor that the provisions of chapters 42.20 and 42.23 RCW apply to employees and officers of the operating agency; and

(4) Standards or guidelines are set forth in the contract for the determination of what the compensation payable to the contractor shall be, which shall not be based upon cost—plus—a—percentage—of—cost. [1981 c 173 § 4.]

The administrative auditor shall file with the executive board or executive committee of the operating agency a quarterly report relating to compliance by the operating agency with RCW 43.52.490 through 43.52.505. The administrative auditor shall file copies of the report with the legislative budget committee, which shall file a copy of each report with the respective chairpersons of the energy and utilities committees of the senate and house of representatives under RCW 43.52.378. [1981 c 173 § 5.]

Expiration—Severability—1981 c 173: See notes following RCW 43.52.495.

43.52.515 Application of Titles 9 and 9A RCW. All of the provisions of Titles 9 and 9A RCW apply to actions of a joint operating agency. [1981 c 173 § 6.]

Members of the security force may be supplied with uniforms and badges indicating their position as security force members if the uniforms and badges do not closely resemble the uniforms or badges of any law enforcement agency or other agency possessing law enforcement powers in the surrounding area of the nuclear power plant exclusion area. Members of the security force shall enroll in and successfully complete a training program approved by the criminal justice training commission which does not conflict with any requirements of the United States nuclear regulatory commission for the training of security personnel at nuclear power plants. All costs incurred by the criminal justice training commission in the preparation, delivery, or certification of the training programs shall be paid by the operating agency. [1981 c 301 § 1.]

[1981 c 301 § 2.]

43.52.530 Security force—Powers and duties—Rules on speed, operation, location of vehicles authorized. (1) Members of an operating agency security force authorized under RCW 43.52.520 may use reasonable force to detain, search, or remove persons who enter or remain without permission within the nuclear power plant site exclusion area or whenever, upon probable cause, it appears to a member of the security force that a person has committed or is attempting to commit a crime. Should any person be detained, the security force shall immediately notify the law enforcement agency, having jurisdiction over the nuclear power plant site, of...
the detainment. The security force is authorized to detain the person for a reasonable time until custody can be transferred to a law enforcement officer. Members of a security force may use that force necessary in the protection of persons and properties located within the confines of the nuclear power plant site exclusion area.

(2) An operating agency may adopt and enforce rules controlling the speed, operation, and location of vehicles on property owned or occupied by the operating agency. Such rules shall be conspicuously posted and persons violating the rules may be expelled or detained.

43.63A.010 Purpose. The legislature finds that (1) the rapid growth being experienced by many communities within the state presents new and significant problems for governmental units in providing the necessary public services and in planning and developing desirable living and working areas; (2) the full and effective use of the many programs of the federal government affecting community development necessitates full cooperation and coordination of existing state and local governmental agencies; (3) the coordination of existing state activities which affect the communities of the state requires the establishment of machinery within the state government to administer new and existing programs to meet these problems; (4) it is the urgent responsibility of the state to assist communities in meeting these problems in whatever way possible including technical and financial assistance. It is therefore the purpose of this chapter to establish a state agency for state planning, to aid in providing financial and technical assistance to the communities of the state and to otherwise assist in such community planning and development in order to promote health and living standards and conditions that the welfare of the people of the state require. In the course of considering applications under this chapter, the department of ecology shall make known to other state agencies possibilities which may arise to provide public benefits such as recreation or fish and wildlife enhancement in connection with proposed projects. Such agencies, including the department of ecology, are authorized to participate in said projects provided agency funds are made available to pay the full cost of their participation. [1975 1st ex.s. c 295 § 14.]

EMERGENCY WATER WITHDRAWAL AND FACILITIES

43.83B.300 Legislative finding—General obligation bonds authorized—Issuance, terms—Appropriation required. The legislature finds that it is necessary to provide the department of ecology with emergency powers to authorize withdrawals of public surface and ground waters, including dead storage within reservoirs, on a temporary basis, and construction of facilities in relation thereto, in order to alleviate emergency water supply conditions arising from the drought forecast for the state of Washington during the summer and fall of 1977.

The legislature further finds that there is a continuing agricultural water supply shortage in many areas of the state and that, in relation to the lessening of that unsatisfactory condition, there is an urgent need to both improve water supply facilities and replace other such facilities.

In order to provide needed capital for the planning, acquisition, construction, and improvement of water supply facilities to withdraw and distribute water to alleviate unsatisfactory water supply conditions arising from droughts occurring from time to time in the state of Washington, the state finance committee is authorized to issue general obligation bonds of the state of Washington in the sum of eighteen million dollars, or so much thereof as may be required to finance such projects, and all costs incidental thereto. No bonds authorized by this section and RCW 43.83B.360 through 43.83B.375 shall be offered for sale without prior legislative appropriation, and these bonds shall be paid and discharged within thirty years of the date of issuance in accordance with Article VIII, section 1 of the state Constitution. [1979 ex.s. c 263 § 1; 1977 ex.s. c 1 § 1.]

Severability—1979 ex.s. c 263: "If any provision of this 1979 amendatory act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1979 ex.s. c 263 § 5.]

43.83B.305 Priority of domestic and irrigation uses. Domestic and irrigation uses of public surface and ground waters shall be given priority in determining "beneficial uses" for the purposes of RCW 43.83B.310. [1977 ex.s. c 1 § 2.]

43.83B.310 Department of ecology authorized to issue emergency withdrawal permits for any beneficial use—Findings, conditions, limitations. In addition to the powers previously vested in the department of ecology to permit the withdrawal of public surface and ground waters by chapters 90.03 and 90.44 RCW, the department of ecology is authorized to permit withdrawals of public surface and ground waters, including dead storage within reservoirs, on a temporary basis, for any period ending not later than September 30, 1977,
for any beneficial use. The department may issue such emergency permits if, after investigation and after providing appropriate federal, state, and local governmental bodies an opportunity to comment, the following are found:

(1) The waters proposed for withdrawal are to be used in relation to beneficial use involving a previously established activity or purpose; and

(2) The previously established activity or purpose was furnished water through rights applicable to the use of a public water body which are not exercisable due to the lack of water arising from natural drought conditions; and

(3) The proposed withdrawal will not reduce flows or levels below essential minimums necessary (a) to assure the maintenance of fisheries requirements, and (b) to protect federal and state interests including, among others, power generation, navigation, and existing water rights.

All permits issued hereunder shall contain provisions which allow for termination of authorized withdrawals, in whole or in part, whenever withdrawals will conflict with flows and levels as provided in subsection (3) of this section. [1977 ex.s. c 1 § 3.]

43.83B.315 Department of social and health services authorized to issue emergency withdrawal permits for municipal and industrial facilities—Findings, conditions, limitations. In addition to any other powers previously vested in the department of social and health services, the department is authorized to permit withdrawal of public surface and ground waters for municipal and industrial water supply and distribution facilities to alleviate emergency water supply conditions arising from the drought forecast for the state during the summer and fall of 1977. Such authorization shall be on a temporary basis for any period ending not later than September 30, 1977. The department may issue such emergency permits if, after investigation and after providing appropriate federal, state, and local governmental bodies an opportunity to comment, the following are found:

(1) The waters proposed for withdrawal are to be used in relation to beneficial use involving a previously established activity or purpose; and

(2) The previously established activity or purpose was furnished water through rights applicable to the use of a public water body which are not exercisable due to the lack of water arising from natural drought conditions; and

(3) The proposed withdrawal will not reduce flows or levels below essential minimums necessary (a) to assure the maintenance of fisheries requirements, and (b) to protect federal and state interests including, among others, power generation, navigation, and existing water rights.

All permits issued hereunder shall contain provisions which allow for termination of authorized withdrawals, in whole or in part, whenever withdrawals will conflict with flows and levels as provided in subsection (3) of this section. [1977 ex.s. c 1 § 4.]

43.83B.320 Zoning, building and construction permits, public bidding requirements waived—Short term easements or property interests on public lands. (1) As to projects and water withdrawal permits issued or authorized or both under RCW 43.83B.310 and 43.83B.315, the requirements of chapter 43.21C RCW and all local zoning ordinances, plans, and local building and construction permit ordinances are waived and inapplicable. Notwithstanding any other provisions of law, water projects and related withdrawal permits, authorized or issued pursuant to RCW 43.83B.310 or 43.83B.315 shall not be subject to any public notice requirements. Permits issued under RCW 43.83B.310 and 43.83B.315 shall be in lieu of all environmental protection and natural resource regulation permits, certificates, and other approvals and authorization documents required under state statutes including, but not limited to, RCW 90.58.140, 75.20.100, and 86.16.080, as well as all other similar permits required under local ordinances. All state departments or other agencies having jurisdiction over state or other public lands which are required to be used in carrying out projects related to water withdrawal permits, issued pursuant to RCW 43.83B.310 and 43.83B.315, shall provide short term easements or other appropriate property interests upon the payment of the fair market value: Provided, That this mandate shall not apply to any lands of the state which are reserved for a special purpose or use which cannot properly be carried out if such a property interest were to be conveyed.

(2) Upon request of the department of ecology or the department of social and health services, the department of general administration may waive any public bidding requirements otherwise provided by law, for any project authorized by RCW 43.83B.310 or 43.83B.315 and financed with funds appropriated in RCW 43.83B.300 through 43.83B.385, 43.83B.901, and 43.83B.210 if the department of general administration determines that (a) an emergency condition exists, and (b) if the request for a waiver is not approved the public interest will be significantly affected in a detrimental manner. The department of general administration shall rule upon requests for waiver submitted to it within five working days. If the department fails to rule within said five–day period the request shall be deemed approved and a waiver deemed to be granted. The department of general administration, after obtaining the views of the department of ecology and the department of social and health services, shall adopt rules to implement this section. Notwithstanding any other provision of RCW 43.83B.300 through 43.83B.385, 43.83B.901, and 43.83B.210, this subsection shall terminate on September 30, 1977. [1977 ex.s. c 1 § 5.]

43.83B.325 Effect upon existing water rights, establishment of water rights, withdrawal of water. (1) Nothing in RCW 43.83B.300 through 43.83B.345 shall authorize any interference whatsoever with existing water rights.

(2) Nothing in RCW 43.83B.300 through 43.83B.345 shall authorize the establishment of rights to withdrawal
of waters of a permanent nature or of rights with any priority.

(3) Nothing in RCW 43.83B.300 through 43.83B.345 shall authorize the establishment of a water right under RCW 90.03.250 or 90.44.060.

(4) Nothing in RCW 43.83B.300 through 43.83B.345 shall preclude any person from filing an application pursuant to RCW 90.03.250 or 90.44.060: Provided, however, That any such application for withdrawal rights as to withdrawals made under authority of RCW 43.83B-.300 through 43.83B.345 shall be subject to all applicable laws and rules as though RCW 43.83B.300 through 43.83B.345 had not existed. [1977 ex.s. c 1 § 6.]

43.83B.330 Rules. (1) The department of ecology shall adopt such rules as are necessary and appropriate to carry out the powers provided in RCW 43.83B.300 through 43.83B.385, 43.83B.901, and 43.83B.210.

(2) The department of social and health services shall adopt such rules as are necessary and appropriate to carry out the powers provided in RCW 43.83B.300 through 43.83B.385, 43.83B.901, and 43.83B.210. [1977 ex.s. c 1 § 7.]

43.83B.335 Civil penalties. The power is granted to the department of ecology to levy civil penalties of up to one hundred dollars per day for violation of any of the provisions of this chapter and chapters 90.03, 90.22, and 90.44 RCW, and rules, permits, and similar documents and regulatory orders of the department of ecology adopted or issued pursuant to such chapters. The procedures of RCW 90.48.144 shall be applicable to all phases of the levying of a penalty as well as review and appeal of the same. [1977 ex.s. c 1 § 8.]

43.83B.340 Temporary personnel. The department of ecology is authorized to employ necessary temporary personnel until September 30, 1977, in project-related fields, including, but not limited to, engineering, hydrology, geology, and natural or water resources, not to exceed five full time equivalent staff years to carry out the provisions of RCW 43.83B.300 through 43.83B.345. Such temporary personnel shall be funded only through the biennial appropriations to the department, and not by funds provided by RCW 43.83B.300 through 43.83B.385, 43.83B.901, and 43.83B.210. [1977 ex.s. c 1 § 9.]

43.83B.345 Rates of charges for water—Payment into bond redemption fund—Grants and loans—Contracts. (1) The department of ecology shall, by rule, establish rates of charges for all waters delivered from such facilities as constructed by the department with funds provided in RCW 43.83B.385 (2) or (3). Where the department provides water to public or municipal corporations or other governmental bodies having authority to distribute water, the payment for the water may be made pursuant to contract over a period not exceeding twenty-five years from the date of delivery. In all other cases, the department shall obtain payment for waters prior to its delivery to a purchaser. All payments received shall be deposited into the state emergency water projects bond redemption fund of 1977.

(2) Public bodies, eligible to obtain funds through grants or loans or combinations thereof under the provisions of RCW 43.83B.300 through 43.83B.345 and 43.83B.210 as now or hereafter amended, are authorized to enter into contracts with the department of ecology for the purpose of repaying loans authorized by RCW 43.83B.380 and 43.83B.385 and for the purpose of purchasing water under this section.

(3) The department of ecology is authorized to enter into appropriate contracts to ensure effective delivery of water and the operation and maintenance of facilities constructed pursuant RCW 43.83B.300 through 43.83B.385, 43.83B.901, and 43.83B.210. [1977 ex.s. c 1 § 10.]

43.83B.355 Form, sale, conditions, etc., of bonds—"Water supply facilities for water withdrawal and distribution" defined. The state finance committee is authorized to prescribe the form of the bonds authorized in RCW 43.83B.300, the time of sale of all or any portion or portions of such bonds, and the conditions of sale and issuance thereof.

The bonds shall pledge the full faith and credit of the state of Washington and contain an unconditional promise to pay the principal and interest when due. The committee may provide that the bonds, or any of them, may be called prior to the due date thereof under such terms and conditions as it may determine. The state finance committee may authorize the use of facsimile signatures in the issuance of the bonds.

As used in RCW 43.83B.300, and 43.83B.355 through 43.83B.375, the term "water supply facilities for water withdrawal and distribution" shall mean municipal, industrial, and agricultural water supply and distribution systems including, but not limited to, all equipment, utilities, structures, real property, and interest in and improvements on real property necessary for or incidental to the acquisition, construction, installation, improvement, or use of any water supply or distribution system furnishing water for agricultural, municipal or industrial purposes. [1977 ex.s. c 1 § 12.]

At the time the state finance committee determines to issue such bonds authorized in RCW 43.83B.300, and 43.83B.355 through 43.83B.375 or a portion thereof, it may, pending the issuance thereof, issue in the name of the state, temporary notes in anticipation of the money to be derived from the sale of the bonds, which notes shall be designated as "bond anticipation notes". The proceeds from the sale of bonds and notes authorized by RCW 43.83B.300, and 43.83B.355 through 43.83B.375 shall be deposited in the state emergency water projects revolving account, hereby created in the general fund in the state treasury, and shall be used exclusively for the purposes.

The state finance committee, on or before June 30th of each year, shall certify to the state treasurer the amount needed in the ensuing twelve months, to meet bond retirement and interest requirements. Not less than thirty days prior to the date on which any such interest or principal and interest payment is due, the state treasurer shall withdraw from any general state revenues received in the state treasury and deposit in the 1977 emergency water projects bond redemption fund an amount equal to the amount certified by the state finance committee to be due on such payment date.

The owner and holder of each of the bonds or the trustee for any of the bonds, by mandamus or other appropriate proceeding, may require and compel the transfer and payment of funds as directed herein. [1977 ex.s. c 1 § 15.]

43.83B.375 Bonds legal investment for public funds. The bonds authorized by RCW 43.83B.300, and 43.83B.355 through 43.83B.375 shall be a legal investment for all state funds under state control and all funds of municipal corporations. [1977 ex.s. c 1 § 16.]

The municipal and industrial water supply and distribution facilities receiving funds from the appropriations contained in this section shall comply with the eligible costs criteria, health and design standards, and contract performance requirements of the municipal and industrial funding program under chapter 43.83B RCW. All projects shall be evaluated by applying the said chapter’s evaluation and prioritization criteria to insure that only projects related to water shortage problems receive funding. The projects funded shall be limited to those projects providing interties with adjacent utilities, an expanded source of supply, conservation projects which will conserve or maximize efficiency of the existing supply, or a new source of supply. The department may expend funds from the appropriations contained in subsections (1), (2), and (3) of this section to make loans or combinations of loans and grants to public bodies as defined in RCW 43.83B.050. Public funds, deposit and investment, public depositaries: Chapter 39-58 RCW.

43.86A.010 Finding—Objectives. The legislature finds that a procedure should be established for the management of short term treasury surplus funds by the state treasurer in order to insure a maximum return while they are on deposit in public depositaries. The objectives of this procedure are to minimize noninterest earning demand deposits and provide fair compensation to banks for services rendered to the state through the investment of state funds in time deposits. [1973 c 123 § 1.]

43.86A.020 Surplus funds held as demand deposits to be limited. After March 19, 1973, the state treasurer shall limit surplus funds held as demand deposits to an amount necessary for current operating expenses including direct warrant redemption payments, investments and revenue collection. The state treasurer may hold such additional funds as demand deposits as he deems necessary to insure efficient treasury management. [1973 c 123 § 2.]

43.86A.030 Time certificate of deposit investment program—Funds available for—Allocation. Funds held in public depositaries not as demand deposits as provided in RCW 43.86A.020 and 43.86A.030, shall be
available for a time certificate of deposit investment program according to the following formula: The state treasurer shall apportion to all participating depositories an amount equal to five percent of the three year average mean of general state revenues as certified in accordance with Article VIII, section 1(b) of the state Constitution, or fifty percent of the total surplus treasury investment availability, whichever is less. Within thirty days after certification, those funds determined to be available according to this formula for the time certificate of deposit investment program shall be deposited in qualified public depositories. These deposits shall be allocated among the participating depositories on a basis to be determined by the state treasurer. The formula so devised shall be a matter of public record giving consideration to, but not limited to deposits, assets, loans, capital structure, investments or some combination of these factors. [1973 c 123 § 3.]

43.86A.040 Other investment powers of state treasurer not limited. Except as provided in RCW 43.86A.020 and 43.86A.030, nothing in this chapter shall be construed as a limitation upon the powers of the state treasurer to determine the amount of surplus treasury funds which may be invested in time certificates of deposit. [1973 c 123 § 4.]

43.86A.050 Implementation of chapter by state treasurer. The state treasurer shall devise the necessary formule and methodology to implement the provisions of this chapter. Periodically, but at least once every six months, the state treasurer shall review all rules and shall adopt, amend or repeal them as may be necessary. These rules and a list of time certificate of deposit allocations shall be published in the treasurer's monthly financial report as required under the provisions of RCW 43.08.150. [1973 c 123 § 5.]

43.88.100 Executive hearings. The governor may provide for hearings on all agency requests for expenditures to enable him to make determinations as to the need, value or usefulness of activities or programs requested by agencies. The governor may require the attendance of proper agency officials at his hearings and it shall be their duty to disclose such information as may be required to enable the governor to arrive at his final determination. [1965 c 8 § 43.88.100. Prior: 1959 c 328 § 10.]

43.88.110 Expenditure programs—Allotments—Reserves. Subdivisions (1) and (2) of this section set forth the expenditure programs and the allotment and reserve procedures to be followed by the executive branch for public funds. Allotments of an appropriation for any fiscal period shall conform to the terms, limits, or conditions of the appropriation.

(1) Before the beginning of the fiscal period, all agencies shall submit to the governor a statement of proposed agency expenditures at such times and in such form as may be required by the governor. The statement of proposed expenditures shall show, among other things, the requested allotments of public funds for the ensuing fiscal period for the agency concerned on a monthly basis for the entire fiscal period. The governor shall review the requested allotments in the light of the agency's plan of work and, with the advice of the director of financial management, the governor may revise or alter agency allotments: Provided, That revision of allotments shall not be made for agencies headed by elective officials. The aggregate of the allotments for an appropriation shall not exceed the total appropriation.

(2) Except for agencies headed by elective officials, approved allotments may be revised during the course of the fiscal period in accordance with the regulations issued pursuant to this chapter. If at any time during the fiscal period the governor shall ascertain that available revenues for the applicable period will be less than the respective appropriations, the governor shall revise the allotments concerned so as to prevent the making of expenditures in excess of available revenues. To the same end, and with the exception stated in this section for allotments involving agencies headed by elective officials, the governor is authorized to withhold and to assign to, and to remove from, a reserve status any portion of an agency appropriation which in the governor's discretion is not needed for the allotment. No expenditures shall be made from any portion of an appropriation which has been assigned to a reserve status except as provided in this section.

(3) It is expressly provided that all agencies shall be required to maintain accounting records and to report thereon in the manner prescribed in this chapter and under the regulations issued pursuant to this chapter. The director of financial management shall monitor agency expenditures to prevent spending patterns which inflate agency expenditures during the second year of a biennium.

(4) The director of financial management may exempt certain public funds from the allotment controls established under this chapter if it is not practical or necessary to allot the funds. Allotment control exemptions expire at the end of the fiscal biennium for which they are granted. The director of financial management shall report any exemptions granted under this subsection to the legislative fiscal committees. [1981 c 270 § 5; 1979 c 151 § 138; 1975 1st exs. c 293 § 6; 1965 c 8 § 43.88-110. Prior: 1959 c 328 § 11.]

Effective date—Severability—1981 c 270: See notes following RCW 43.88.010.

43.88.111 Entry of allotments into central accounting system—Revision of allotments. (1) The director of financial management shall enter approved allotments into the central accounting system within ninety days after the effective date of any act making an appropriation. In the case of the omnibus appropriation bill or bills, this shall be completed within ninety days and in no event later than September 1st following enactment. For the department of social and health services and any agency having primary jurisdiction over adult corrections, the allotment plan shall include monthly estimates of primary budget drivers such as workloads, caseloads, and population statistics for budget areas as specified by the director of financial management.

Exceptions for the timely filing of allotments by agencies under this section may be made only by the
written authorization of the director of financial management, who shall report the authorization to the legislative fiscal committees.

(2) Allotments of public funds shall not be revised retroactively. Allotments may be revised for future months, but the revised allotments of an appropriation shall not exceed the total amount appropriated. If the director of financial management believes that a revised allotment which conforms to the amount appropriated will not accurately reflect the actual expected expenditure requirements, then the agency, or budget unit within the agency, shall in a timely manner provide to the director of financial management a second estimate of anticipated monthly expenditures without regard to the amount appropriated. After an appropriate review, the director of financial management shall provide a copy of the agency's second estimate and the director of financial management's comments thereon to the legislative evaluation and accountability program committee. [1981 c 270 § 6.]

Effective date—Severability—1981 c 270: See notes following RCW 43.88.010.

43.88.112 Revision of allotments for funds appropriated to the superintendent of public instruction. If at any time during the fiscal period the governor certifies that available revenues for the applicable period will be less than the respective appropriations, the governor shall revise the allotments for the total funds which are appropriated to the superintendent of public instruction for support of state-wide programs and which ultimately will be distributed to local school districts so as to prevent the making of expenditures in excess of available revenues. [1981 c 270 § 7.]

Effective date—Severability—1981 c 270: See notes following RCW 43.88.010.

43.88.115 Reductions in general fund expenditures for elected public officials and educational agencies. Either the legislative budget committee or the standing committees on ways and means of the house and senate are authorized and may order reductions in general fund expenditures for other elected public officials and all public educational agencies and their facilities up to the amount of reductions which are required by agencies under the control of the governor, to the end that while the independence of such elective offices and educational agencies be assured, necessary measures of economy shall be shared by all agencies concerned with the functions of government. [1975 1st ex.s. c 293 § 7; 1971 ex.s. c 263 § 1.]

43.88.120 Revenue estimates. Before the submittal of the budget document as required in RCW 43.88.060, any agency engaged in the collection of revenues shall prepare statements of revenue collections and estimates for the current and ensuing biennium. The estimates shall be updated quarterly and submitted to the governor. The director of financial management may waive the quarterly update requirement for revenue sources if the director determines that quarterly updates are not practical or necessary. A copy of such collection reports, revenue estimates, and waivers shall be simultaneously submitted to the legislative budget committee and the committees on ways and means of the senate and house of representatives. [1981 c 270 § 8; 1973 1st ex.s. c 100 § 7; 1965 c 8 § 43.88.120. Prior: 1959 c 328 § 12.]

43.88.130 When contracts and expenditures prohibited. No agency shall expend or contract to expend any money or incur any liability in excess of the amounts appropriated for that purpose: Provided, That nothing in this section shall prevent the making of contracts or the spending of money for capital improvements, nor the making of contracts of lease or for service for a period exceeding the fiscal period in which such contract is made, when such contract is permitted by law. Any contract made in violation of this section shall be null and void. [1965 c 8 § 43.88.130. Prior: 1959 c 328 § 13.]

43.88.140 Lapsing of appropriations. All appropriations shall lapse at the end of the fiscal period for which the appropriations are made to the extent that they have not been expended or lawfully obligated. [1981 c 270 § 9; 1965 c 8 § 43.88.140. Prior: 1959 c 328 § 14.]

Effective date—Severability—1981 c 270: See notes following RCW 43.88.010.

43.88.150 Priority of expenditures—Appropriated and nonappropriated funds. For those agencies which make expenditures from both appropriated and nonappropriated funds, the governor shall direct such agencies to charge their expenditures in such ratio, as between appropriated and nonappropriated funds, as will conserve appropriated funds. [1981 c 270 § 10; 1965 c 8 § 43.88.150. Prior: 1959 c 328 § 15.]

43.88.160 Fiscal management—Powers and duties of officers and agencies (as amended by 1981 c 270). This section sets forth the major fiscal duties and responsibilities of officers and agencies of the executive branch. The regulations issued by the governor pursuant to this chapter shall provide for a comprehensive, orderly basis for fiscal management and control, including efficient accounting and reporting therefor, for the executive branch of the state government and may include, in addition, such requirements as will generally promote more efficient public management in the state.

(1) Governor; director of financial management. The governor, through the director of financial management, shall devise and supervise a modern and complete accounting system for each agency to the end that all revenues, expenditures, receipts, disbursements, resources and obligations of the state shall be properly and systematically accounted for. The accounting system shall include the development of accurate, timely records and reports of all financial affairs of the state. The system shall also provide for comprehensive central accounts in the office of financial management. The director of financial management shall adopt and periodically update an accounting procedures manual. Any agency maintaining its own accounting and reporting system shall comply with the updated accounting procedures manual and the rules of the director adopted under this chapter. An agency may receive a waiver from complying with this requirement if the
make a cash deposit or furnish surety bond coverage to the state as shall be fixed in an amount by law, or if not fixed by law, then in such amounts as shall be fixed by the director of the department of general administration but in no case shall such required cash deposit or surety bond be less than an amount which will fully indemnify the state against any and all losses on account of breach of promise to fully perform such services: And provided further, That no payments shall be made in advance for any equipment maintenance services to be performed more than three months after such payment. Any such bond so furnished shall be conditioned that the person, firm or corporation receiving the advance payment will apply it toward performance of the contract and the responsibility for recovery of erroneous or improper payments made under this section shall lie with the agency head or the agency head's designee in accordance with regulations issued pursuant to this chapter.

(3) The state auditor shall:
   (a) Report to the legislature the results of current post audits that have been made of the financial transactions of each agency; to this end he may, in the auditor's discretion, examine the books and accounts of any agency, official or employee charged with the receipt, custody or safekeeping of public funds. The current post audit of each agency may include a section on recommendations to the legislature as provided in subsection (2)(c) of this section.
   (b) Give information to the legislature, whenever required, upon any subject relating to the financial affairs of the state.
   (c) Make the auditor's official report on or before the thirty-first of December which precedes the meeting of the legislature. The report shall be for the last complete fiscal period and shall include at least the following:

Determinations as to whether agencies, in making expenditures, complied with the laws of this state: Provided, That nothing in this act shall be construed to grant the state auditor the right to perform performance audits. A performance audit for the purpose of this act shall be the examination of the effectiveness of the administration, its efficiency and its adequacy in terms of the programs of departments or agencies as previously approved by the legislature. The authority and responsibility to conduct such an examination shall be vested in the legislative budget committee as prescribed in RCW 44.28.085 as now or hereafter amended.

He shall advise and confer with agencies including appropriate standing committees of the legislature as may be designated by the speaker of the house and the president of the senate regarding the fiscal impact of such plans and any pay or classification plans, except that for those agencies no amendment or alteration of said plans may be made without the approval of the agency concerned; Agencies headed by elective officials.

It shall be unlawful for the treasurer to issue any warrant or check for public funds in the treasury except upon forms duly prescribed by the director of financial management. Said forms shall provide for authentication and certification by the agency head or his designee that the services have been rendered or the materials have been furnished, or, in the case of services for periodic maintenance services to be performed on state owned equipment, that a written contract for such periodic maintenance services is currently in effect and copies thereof are on file with the office of financial management; and the treasurer shall not be liable under his surety bond for erroneous or improper payments so made: Provided, That when services are lawfully paid for in advance of full performance by any private individual or business entity other than as provided for by RCW 42.24.035, such individual or entity other than central stores rendering such services shall make a cash deposit or furnish surety bond coverage to the state as shall be fixed by the amount by law, or if not fixed by law, then in such amounts as shall be fixed by the director of the department of general administration but in no case shall such required cash deposit or surety bond be less than an amount which will fully indemnify the state against any and all losses on account of breach of promise to fully perform such services: And provided further, That no payments shall be made in advance for any equipment maintenance services to be performed more than three months after such payment. [Title 43 RCW—p 286] (1981 Ed.)
43.88.170 Refunds of erroneous or excessive payments. Whenever any law which provides for the collection of fees or other payment by an agency does not authorize the refund of erroneous or excessive payments thereof, refunds may be made or authorized by the agency which collected the fees or payments of all such amounts received by the agency in consequence of error, either of fact or of law. The regulations issued by the governor pursuant to this chapter shall prescribe the procedure to be employed in making refunds. [1965 c 8 § 43.88.170. Prior: 1959 c 328 § 17.]

Refunds: RCW 43.01.072-43.01.075.

43.88.180 When appropriations required or not required. Appropriations shall not be required for refunds, as provided in RCW 43.88.170, nor in the case of payments other than for administrative expenses or capital improvements to be made from trust funds specifically created by law to discharge awards, claims, annuities and other liabilities of the state. Said trust funds shall include, but shall not be limited to, the accident fund, medical aid fund, retirement system fund, Washington state patrol retirement fund and unemployment trust fund. Appropriations may be required in the case of public service enterprises defined for the purposes of this section as proprietary functions conducted by an agency of the state. Such service units where created shall be self-supporting operations featuring continuous turnover of working capital. The regulations issued by the governor pursuant to this chapter shall prescribe the procedures to be employed by agencies in accounting and reporting for revolving funds and may provide for the keeping of such funds in the custody of the treasurer. [1965 c 8 § 43.88.190. Prior: 1959 c 328 § 19.]

When the director of financial management authorizes the creation of such fund or account, he shall forthwith give written notice of the fact to the standing committees on ways and means of the house and senate. [1979 c 151 § 140; 1977 ex.s. c 169 § 109; 1975 1st ex.s. c 293 § 9; 1969 ex.s. c 248 § 1.]

(2) Whenever any such application, contract, agreement, or state plan is amended, such agency shall notify each such officer of such action in the same manner as prescribed or requested pursuant to subsection (1) of this section.

(3) Such agency shall promptly furnish such progress reports in relation to each such application, contract, agreement, or state plan as may be requested following the date of the filing of the application, contract, agreement, or state plan; and shall also file with such officer a final report as to the final disposition of each such application, contract, agreement, or state plan if such is requested. 43.88.210 Transfer of certain powers and duties. It is the intent of this chapter to assign to the governor's office authority for developing and maintaining budgeting, accounting, reporting and other systems necessary for effective expenditure and revenue control among agencies.

To this end:

1. All powers and duties and functions of the state auditor relating to the disbursement of public funds by warrant or check are hereby transferred to the state treasurer as the governor may direct but no later than ninety days after the start of the next fiscal biennium, and the state auditor shall deliver to the state treasurer all books, records, accounts, equipment, or other property relating to such function. In all cases where any question shall arise as to the proper custody of any such books, records, accounts, equipment or property, or pending business, the governor shall determine the question;

2. In all cases where reports, notices, certifications, vouchers, disbursements and similar statements are now required to be given to any agency the duties and responsibilities of which are being assigned or reassigned by this chapter, the same shall be given to the agency or agencies in the manner provided for in this chapter.

43.88.220 Federal law controls in case of conflict—Rules. If any part of this chapter shall be found to be in conflict with federal requirements and a prescribed condition to the allocation of federal funds to the state, such conflicting part of this chapter is hereby declared to be inoperative solely to the extent of such conflict and with respect to the agencies directly affected, and such finding or determination shall not affect the operation of the remainder of this chapter in its application to the agencies concerned. The rules and regulations under this chapter shall meet federal requirements which are a necessary condition to the receipt of federal funds by the state.

43.88.230 Legislative agencies and committees deemed part of legislative branch. For the purposes of this chapter, the statute law committee, the legislative budget committee, the legislative transportation committee, the legislative evaluation and accountability program committee, the office of state actuary, and all legislative standing committees of both houses shall be deemed a part of the legislative branch of state government.

43.88.240 Exemption of certain fruit, dairy, agricultural commissions. This chapter shall not apply to the Washington state apple advertising commission, the Washington state fruit commission, the Washington tree fruit research commission, the Washington state beef commission, the Washington state dairy products commission, or any agricultural commodity commission created under the provisions of chapters 15.65 and 15.66 RCW: Provided, That all such commissions shall submit estimates and such other necessary information as may be required for the development of the budget and shall also be subject to audit by the appropriate state auditing agency or officer.

43.88.250 Emergency expenditures. Whenever an emergency shall arise necessitating an expenditure for the preservation of peace, health or safety, or for the carrying on of the necessary work required by law of any state agency for which insufficient or no appropriations have been made, the head of such agency shall submit to the governor, duplicate copies of a sworn statement, setting forth the facts constituting the emergency and the estimated amount of money required therefor. If the governor approves such estimate in whole or in part, the governor shall indorse on each copy of the statement the governor's approval, together with a statement of the amount approved as an allocation from any appropriation available for allocation for emergency purposes and transmit one copy to the head of the agency thereby authorizing the emergency expenditures.

43.88.260 Deficiencies prohibited. It shall be unlawful for any agency head or disburse officer to incur any deficiency and any appointive officer or employee violating the provisions of this section shall be subject to summary removal.

43.88.270 Penalty for violations. Any officer or employee violating, or wilfully refusing or failing to comply with, any provision of this chapter shall be guilty of a misdemeanor.

43.88.280 Fiscal responsibilities of state officers and employees—"State officer or employee" defined. As used in RCW 43.88.290 and 43.88.300 the term "state officer or employee" includes the members of the governing body of any state agency, as state agency is defined in RCW 43.88.020(4) and those generally known as executive management but excludes nonsupervisory state employees covered by civil service under chapters 41.06 and 28B.16 RCW.

Effective date—1977 ex.s. c 320: "This act is necessary for the immediate preservation of the public peace, health, and safety, the support of the state government and its existing public institutions, and shall take effect July 1, 1977." 1977 ex.s. c 320 § 6.

43.88.290 Fiscal responsibilities of state officers and employees—Prohibitions relative to appropriations and expenditures. No state officer or employee shall intentionally or negligently: Over—expend or over—encumber any appropriation made by law; fail to properly account for any expenditures by fund, program, or fiscal period; or expend funds contrary to the terms, limits, or conditions of any appropriation made by law.
43.88.300 Fiscal responsibilities of state officers and employees—Violations—Civil penalties—Forfeiture. (1) Where there is reason to believe that a present or former state officer or employee has violated or threatens to violate RCW 43.88.290, the attorney general may initiate an appropriate civil action for the enforcement of RCW 43.88.280 through 43.88.320 or to prevent any such violation. The action may be brought in the county where the alleged violator resides, or the county where the violation is alleged to have occurred or is threatened.

(2) For each violation of RCW 43.88.290 the attorney general shall seek to recover and the court may award the following damages on behalf of the state of Washington:

(a) From each person found in violation of RCW 43.88.290 a civil penalty in the amount of five hundred dollars, or all costs, including reasonable attorney's fees incurred by the state in said action, whichever is greater;

(b) Any damages sustained by the state as a result of the conduct constituting said violation.

In addition to the other penalties contained in this section, judgment against any person, other than an elected official, for violating RCW 43.88.290 may include a declaration of forfeiture of such person's office or employment, to take effect immediately. [1977 ex.s. c 320 § 3.]

Effective date—1977 ex.s. c 320: See note following RCW 43.88.280.

43.88.310 Fiscal responsibilities of state officers and employees—Duties of legislative auditor, attorney general. (1) The legislative auditor, with the concurrence of the legislative budget committee, may file with the attorney general any audit exceptions or other findings of any performance audit, management study, or special report prepared for the legislative budget committee, any standing or special committees of the house or senate, or the entire legislature which indicate a violation of RCW 43.88.290.

(2) The attorney general shall promptly review each filing received from the legislative auditor and proceed to act thereon as provided in RCW 43.88.300. If for any reason the attorney general is unable to proceed the attorney general shall report this fact and the reasons therefor to the legislative budget committee. [1977 ex.s. c 320 § 4.]

Effective date—1977 ex.s. c 320: See note following RCW 43.88.280.

43.88.320 Fiscal responsibilities of state officers and employees—Civil penalties additional to other penalties. The civil penalties provided by RCW 43.88.280 through 43.88.320 are in addition to any other penalties which may be provided by law. [1977 ex.s. c 320 § 5.]
43.88.520 Legislative declaration. The legislature finds that during periods of recession or slowing economic growth, receipts of state revenues may decline below projections, yet the demand for state services does not correspondingly lessen and may in fact increase. There is need for a means to assure that services required in such periods can be maintained at or near the level anticipated by the legislature when making appropriations. The legislature therefore finds that a budget stabilization account into which will be deposited state revenues during favorable periods of economic activity will provide a resource for the stable financing of essential state services during periods of revenue shortfall. [1981 c 280 § 1.]

Effective date—1981 c 280: "This act is necessary for the immediate preservation of the public peace, health, and safety, the support of the state government and its existing public institutions, and shall take effect July 1, 1981." [1981 c 280 § 10.]
Severability—1981 c 280: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1981 c 280 § 9.]

43.88.525 Budget stabilization account—Created—Deposits—Request for transfers to account. A budget stabilization account is hereby created as an account in the general fund of the state treasury for the purposes set forth in RCW 43.88.520 through 43.88.540. There shall be deposited into the stabilization account the revenues described in RCW 43.88.530 and such other amounts as the legislature may from time to time direct to be deposited in the account. The governor's biennial budget document for the 1983-85 biennium and for each succeeding biennium shall contain a request for necessary transfers from the general fund to the budget stabilization account of those revenues identified in RCW 43.88.530. [1981 c 280 § 2.]

Effective date—Severability—1981 c 280: See notes following RCW 43.88.520.

43.88.530 Budget stabilization account—Transfers to account. Transfers to the stabilization account shall equal one percent of general state revenues as established by appropriation. Unless waived pursuant to RCW 43.88.535, transfers shall be made by the state treasurer during each biennium in eight equal amounts not later than the last day of each quarter commencing September 30, 1983.

The state treasurer pursuant to appropriation shall transfer the unobligated cash surplus in the general fund to the budget stabilization account during each biennium when the amount of the account equals or exceeds five percent of general state revenues for the biennium. [1981 c 280 § 3.]

Effective date—Severability—1981 c 280: See notes following RCW 43.88.520.
43.88.535 Budget stabilization account—Transfers to general fund—Expenditure—Waiver of deposits.

To provide for the continuation of agency programs at or near levels of existing appropriations when state revenues decline below projections, such funds in the stabilization account as are necessary for that purpose may be transferred to the general fund in the state treasury and expended as follows:

(1) Pursuant to separate appropriation by the legislature; or

(2) By executive order of the governor, when the legislature is not in session, pursuant to an appropriation to the governor's office for that purpose, setting forth conditions and limitations on the transfer and use of the moneys. The governor's executive order shall contain a statement of the conditions requiring the transfer to the general fund and the limitations on the expenditure of the funds within the terms of the appropriation: Provided, That no moneys shall be transferred and used unless approved by the legislative budget committee.

The legislature by appropriation may provide for, or the governor may authorize, the waiver of deposits in any biennium to the stabilization account in the event of a transfer from the account to the general fund during such biennium. [1981 c 280 § 4.]

Effective date—Severability—1981 c 280: See notes following RCW 43.88.520.

43.88.540 Budget stabilization account—Resumption of deposits. Subsequent to a transfer to the general fund from the stabilization account, resumption of further deposits to the stabilization account shall be made during the biennium when projections of state revenues, as determined pursuant to this section, demonstrate that resumption of deposits can be made.

The director of financial management as agent of the governor shall identify the revenue forecasts to be utilized and the timing of resumption of deposits to the stabilization account. [1981 c 280 § 5.]

Effective date—Severability—1981 c 280: See notes following RCW 43.88.520.

43.88.910 Effective date—1975 1st ex.s. c 293.

This 1975 amendatory act is necessary for the immediate preservation of the public peace, health, and safety, the support of the state government and its existing public institutions, and shall take effect on July 1, 1975. [1975 1st ex.s. c 293 § 23.]

Chapter 43.88A

43.88A.010 Legislative declaration.

The legislature hereby recognizes the necessity of developing a uniform and coordinated procedure for determining the expected fiscal impact of bills and resolutions on state government. The legislature also recognizes that developing such statements of fiscal impact, which shall be known as fiscal notes, requires the designation of a state agency to be principally responsible therefor. [1977 ex.s. c 25 § 1.]

43.88A.020 Fiscal notes—Preparation—Contents—Duties of office of financial management. The office of financial management shall, in cooperation with appropriate legislative committees and legislative staff, establish a procedure for the provision of fiscal notes on the expected impact of bills and resolutions which increase or decrease or tend to increase or decrease state government revenues or expenditures. Such fiscal notes shall indicate by fiscal year the impact for the remainder of the biennium in which the bill or resolution will first take effect as well as a cumulative forecast of the fiscal impact for the succeeding four fiscal years.

In establishing the fiscal impact called for pursuant to this chapter, the office of financial management shall coordinate the development of fiscal notes with all state agencies affected. [1979 c 151 § 146; 1977 ex.s. c 25 § 2.]

43.88A.030 Fiscal notes—Distribution. When a fiscal note is prepared and approved as to form, accuracy, and completeness by the office of financial management, which depicts the expected fiscal impact of a bill or resolution, copies shall be filed immediately with:

(1) The chairperson of the committee to which the bill or resolution was referred upon introduction in the house of origin;

(2) The senate committee on ways and means, or its successor;

(3) The house committees on revenue and appropriations, or their successors; and

(4) The legislative budget committee.
Whenever possible, such fiscal note shall be provided prior to or at the time the bill or resolution is first heard by the committee of reference in the house of origin.

When a fiscal note has been prepared for a bill or resolution, a copy of the fiscal note shall be placed in the bill books or otherwise attached to the bill or resolution and shall remain with the bill or resolution throughout the legislative process insofar as possible. [1979 ex.s. c 112 § 1; 1979 c 151 § 147; 1977 ex.s. c 25 § 3.]

43.88A.040 Fiscal notes—Preparation upon request of any legislator. The office of financial management shall also provide a fiscal note on any legislative proposal at the request of any legislator. Such fiscal note shall be returned to the requesting legislator, and copies shall be filed with the appropriate legislative committees pursuant to RCW 43.88A.030 at the time such proposed legislation is introduced in either house. [1979 c 151 § 148; 1977 ex.s. c 25 § 4.]

43.88A.030 Fiscal notes. Nothing in this chapter shall prevent either house of the legislature from acting on any bill or resolution before it as otherwise provided by the state Constitution, by law, and by the rules and joint rules of the senate and house of representatives, nor shall the lack of any fiscal note as provided in this chapter or any error in the accuracy thereof affect the validity of any measure otherwise duly passed by the legislature. [1977 ex.s. c 25 § 5.]

Oceanographic commission, declaration of purpose relating to study of liquefied natural gas: "The legislature finds and declares that the safe and prompt delivery of energy producing fuels is of paramount importance to the economy of the state. Recognizing the complex problems to be solved and the hazards to be averted as well as the potential for the substantial benefits to be achieved makes apparent the need for a study to determine the safety and jurisdictional problems of typical liquefied natural gas ports, liquefied petroleum gas ports, and liquefied natural gas regasification sites on the waters of the state of Washington. It is, therefore, the declared policy and intent of this legislation to fund an initial study of the matter." [1977 ex.s. c 315 § 1.]

Oceanographic commission to conduct liquefied natural gas and liquefied petroleum gas hazards management study: "(1) The oceanographic commission shall conduct a liquefied natural gas and liquefied petroleum gas hazards management study to determine:

(a) The nature of typical transport and port facilities used to receive marine shipments of liquefied natural gas and liquefied petroleum gas and facilities for subsequent regasification of liquefied natural gas;

(b) Representative sites for liquefied natural gas and liquefied petroleum gas port facilities based upon the size of vessels and harbor facilities and in terms of safely dealing with the hazardous properties of liquefied natural gas and liquefied petroleum gas;

(c) The hazardous properties of liquefied natural gas and liquefied petroleum gas and subsequent safeguards which the state may require in liquefied natural gas and liquefied petroleum gas port facilities;

(d) The responsibilities of federal, state, and local governments in siting and operating liquefied natural gas and liquefied petroleum gas port facilities and liquefied natural gas regasification facilities;
(e) Whether at the representative locations for the facility the state and local governments have the resources to effectively manage the hazards by such means as fire protection and security; and
(f) Any other areas of importance which the oceanographic commission feels would have an impact on a liquefied natural gas or a liquefied petroleum gas port facility or a liquefied natural gas regasification facility.

(2) After conducting a search for studies, reports, or other literature relating to liquefied natural gas and liquefied petroleum gas hazards management, the commission shall submit a report to the house and senate energy and utilities committees concerning the material available and the reasons for the commission's decision whether or not to proceed with the remainder of the study.

(3) The findings of this study shall be reported to the legislature by the second Monday in January, 1979. [1977 c 315 § 2.]

43.94.010 Declaration. The state of Washington is geographically endowed with a seacoast centered adjacent to a vast continental shelf area and an inland sea known as Puget Sound which constitutes the largest salt water harbor in the world. Situated in a temperate climate, this virtually unspoiled area with its developments in industrial and educational fields presents a natural base for expanding efforts to uncover and utilize the potentially rich food, oil and mineral natural resources of the western Pacific Ocean continental shelf, to locate and harvest abundant fish and marine life, to develop fish farms and aquatic agriculture through the utilization of the estuaries and bays of Puget Sound, to conduct studies of marine and aquatic life, to research and develop seafood uses and seafood processing plants, to locate a temperate zone marine laboratory, to collect and distribute living marine organisms for marine and biological research, and to conduct research into weather forecasting and modification. A permanent organization is vitally needed to fully exploit the strategic position of this state as a natural base for these activities with due regard to the ancillary needs of providing planned waterfront development, public recreation, conservation, and prevention of water pollution and to assist the University of Washington and other participating institutions in the development and operation of local and regional programs under the National Sea Grant College and Program Act of 1966. [1967 c 243 § 1.]

Effective date—1967 c 243: "The effective date of this act is July 1, 1967." [1967 c 243 § 7.]

43.94.020 Commission created—Composition—Terms—Vacancies—Expenses. The position of any legislative member shall be deemed vacated whenever such member ceases to be a member of the house or senate from which he was appointed. Any vacancies occurring in the membership of the commission shall be filled for the remainder of the unexpired term by the appointive power of the position vacated. Members shall serve without compensation but shall be reimbursed for necessary travel and other expenses incurred in the performance of their duties as commission members on the same basis as provided under RCW 44.04-120, as now or hereafter amended. [1967 c 243 c 2.]

Any nonprofit corporation so formed shall be known and designated as the Oceanographic Institute of Washington.

The Oceanographic Institute of Washington shall, subject to the advice and consent of the commission, coordinate, promote and carry out such policies for oceanographic programs and development as may be formulated by the commission. In the coordination, promotion and carrying out of commission policies, the institute shall have in addition to powers prescribed in chapter 24.04 RCW, the power to accept, use and expend such public funds as may be lawfully made available to it for such purposes by the federal or state governments, or any political subdivision or municipal corporation, and such other powers and duties as may be lawfully delegated to it by the commission.

43.96B.010 Declaration of purpose. The Alaska–Yukon–Pacific and the Century 21 Expositions held in Seattle in 1909 and 1962, respectively, contributed substantially to the growth of this state and the eminence which it enjoys by exhibiting to our sister states and the world at large our agriculture, trade, and manufacturing capabilities. In the almost ten years that have elapsed since Century 21, man's place in nature and his relation to his environment has become the most critical concern of our state and nation. Today all sectors of society question man's ability to relate himself to the environment in a manner which will continue to support life on this planet. Because of this state's unique natural endowments, the state of Washington is capable of demonstrating to the nation and the world at large that man can live in harmony with his environment. It is therefore fitting that another exposition be held in the state of Washington which will demonstrate to people everywhere our great natural resources, our great forests and
rivers, and our great outdoor recreational capabilities. It is also fitting that this exposition be held in the city of Spokane, the queen city of the Inland Empire, which in 1974 will celebrate the commencement of its second hundred years of growth. [1971 ex.s. c 1 § 1.]

43.96B.020 Approval and adoption of report and recommendations. A complete study, investigation, and report of the feasibility and desirability of such an exposition has been made and this report and its recommendations on participation of the state of Washington in such an exposition is hereby approved and adopted. [1971 ex.s. c 1 § 2.]

43.96B.030 Name of exposition. The exposition shall be known and called "Expo '74". [1971 ex.s. c 1 § 3.]

43.96B.040 Expo '74 commission—Created—Membership—Meetings. There is created the Expo '74 commission to consist of fifteen members to be selected as follows: Five by the governor, of whom one shall be designated by the governor as chairman of the commission, three by the president of the senate (lieutenant governor) and three by the speaker of the house of representatives to serve until April 30, 1975, the lieutenant governor, the speaker of the house of representatives, one member of the board of county commissioners of Spokane county to be appointed by such board, and one member of the Spokane city council to be appointed by such council. The commission shall serve without compensation and shall meet at such time as it is called by the governor or by the chairman of the commission. [1971 ex.s. c 1 § 4.]

43.96B.050 Members may be directors of nonprofit corporation—Duty to stage exposition. The members of the exposition commission may become directors of Expo '74, a nonprofit corporation organized under the provisions of chapter 24.03 RCW and may remain directors of the corporation as long as they are members of the commission or until their successors are appointed and qualified. The exposition commission through the nonprofit corporation shall stage an exposition in the city of Spokane during the year 1974 or as soon thereafter as deemed practical by the commission and shall carry out the purposes of the exposition by suitable exhibits. [1971 ex.s. c 1 § 5.]

43.96B.060 Cooperation with agencies, political subdivisions, states, federal and foreign governments enjoined. The department of commerce and economic development and the department of ecology, as well as all other interested departments and agencies, shall cooperate with the exposition commission to the end that the exposition to be conducted by the commission shall become a memorable success.

The exposition commission and all other state departments and agencies are further enjoined to cooperate in all respects with the city of Spokane and with other departments, agencies, political subdivisions, and municipal corporations of this state. The department of commerce and economic development and the exposition commission shall cooperate with the government of the United States and with governments or agencies of other states or foreign countries or their lesser subdivisions to the extent required to secure their participation in the exposition. [1971 ex.s. c 1 § 6.]

43.96B.070 Acquisition of site—Acquisition, lease, or construction of buildings for state use—Plans and surveys. The state building authority is authorized to acquire by gift, purchase, lease, or condemnation a site in the city of Spokane or in the vicinity of Havermalle Island and to construct or otherwise acquire or lease a building or buildings and appurtenant improvements at a cost to the building authority to approximate but not to exceed the sum of seven million five hundred thousand dollars thereon for use by the state for purposes to be prescribed hereafter by the legislature and to be used temporarily as a portion of the grounds and a building for an exposition known as "Expo '74."

The state building authority is further authorized to make all necessary plans and surveys for such acquisition and construction and any such plans shall be subject to the approval of the department of commerce and economic development and the Expo '74 commission created by the legislature. The authority may delegate responsibility for such plans and surveys to the department of general administration or the department of commerce and economic development. The provisions of RCW 43.19.450 shall govern with regard to such delegation. [1971 ex.s. c 3 § 1.]

43.96B.080 Acquisition of site by department of commerce and economic development. In furtherance of the purposes of RCW 43.96B.070 through 43.96B.140 and in lieu of the acquisition of the building site by the state building authority, the department of commerce and economic development may acquire such site by gift, purchase or condemnation. [1971 ex.s. c 3 § 2.]

43.96B.090 Lease of land by state building authority from department or construction of buildings—Lease or release of buildings to department. The state building authority may contract with the department of commerce and economic development to lease land from such department acquired by such department for the purpose of erecting thereon the building or buildings as requested by such department for the purposes specified in RCW 43.96B.070 or the authority may, on land acquired by the authority, construct such building or buildings and appurtenant facilities. Such building or buildings, together with the land upon which it shall be built, shall be leased or released by the authority to the department of commerce and economic development at any time prior to or subsequent to the commencement of construction thereof for a term of years not to exceed seventy-five at reasonable rental rates. [1971 ex.s. c 3 § 3.]

43.96B.100 Leasing by department authorized. The department of commerce and economic development is
authorized to enter into a lease as provided in RCW 43.96B.070 through 43.96B.140. The lease shall provide for the building or buildings erected to become or remain the sole property of the department upon termination of the lease. [1971 ex.s. c 3 § 4.]

43.96B.110 Rental rates. The provisions of *RCW 43.75.060 shall apply with respect to the fixing of rental rates for the building or buildings leased by the state building authority to the department of commerce and economic development. [1971 ex.s. c 3 § 5.]

*Reviser's note: *RCW 43.75.060* was repealed by 1973 c 9 § 8.

43.96B.120 Determination of building costs—Right of department to purchase buildings and land, terminate lease. Upon the completion of construction of the building or buildings, the authority shall make a determination of the cost thereof and the amount required to reimburse the authority for its expenditures in connection therewith. The department of commerce and economic development shall have the right to purchase the interest of the authority in any building or buildings and land pertaining thereto at any time and to terminate the lease thereon by paying to the authority the amount agreed upon by the authority and the department. [1971 ex.s. c 3 § 6.]

43.96B.130 Use of site and buildings by Expo '74 commission. The department of commerce and economic development is authorized to lease or otherwise permit for a temporary period the site and building or buildings herein provided for to be used by the Expo '74 commission in conducting or assisting to be conducted such exposition. [1971 ex.s. c 3 § 7.]

43.96B.140 Declaration of public purpose. The acquisition and development of a site and the purchase, construction, or acquisition by any lawful means of the building or buildings, equipment, and appurtenances therefor suitable for use as a site for an exposition and for the future use by the state in promoting and fostering the well-being of its citizens is declared to be a state public purpose. [1971 ex.s. c 3 § 8.]

43.96B.150 Transfer of title to site and facilities. (1) The department of general administration is authorized and directed to transfer fee simple ownership of the Expo '74 site and facilities to the city of Spokane, Washington, subject to acceptance by the city. The property to be transferred consists of the opera house, convention center, and grounds, acquired and built under the authority of chapter 43.96B RCW, with the following approximate legal boundaries:

That portion of the southeast quarter of section 18, township 25 N., range 43 E.W.M. in the city and county of Spokane, Washington described as follows: That land bounded by the north line of Spokane Falls Boulevard (formerly Trent Avenue); the east line of Washington Street; a line two hundred eighty feet north of and parallel to the north line of Spokane Falls Boulevard; and the west line of Spokane Falls Court, extended north.

(2) Payment or other compensation shall not be required from the city of Spokane as consideration for the transfer under subsection (1) of this section. [1979 ex.s. c 25 § 2.]

Purpose—1979 ex.s. c 25: "The Washington state legislature in its forty-second session in the year of 1971 did in its wisdom and for the benefit of the entire state pass legislation which provided for the construction, and the payment thereof of certain buildings which served as the centerpiece of an International Exposition in the city of Spokane in the year of 1974.

The leaders of business throughout the state did most kindly support the citizens and the legislators of Spokane in suggesting a funding source in the form of a surcharge of twenty-five percent on the corporate business license/filing fee. This surtax enabled the state department of general administration to construct the magnificent opera house and convention center which has enabled the city to attract many thousands of tourists who otherwise may never have come to our state.

Following the most successful operation of the International Exposition, which saw five million visitors pass through its gates, with an estimated tax benefit to the state of 9.2 million dollars, the city incurred the obligation of removing the state's exhibit from its space and converting the area to a convention center. The total expenditure of the city of 5.4 million dollars represents 60.6 percent of the construction costs.

The operation of the opera house and convention center was assumed by the city and under the supervision of the sports, entertainment, arts and convention advisory board (SEACAB) and it has attracted an increasing number of patrons each year. Despite the increased usage the revenues fail to meet the operating costs: By one hundred ninety-two thousand dollars in 1975; two hundred ninety-five thousand dollars in 1976; three hundred twenty-eight thousand dollars in 1977; and two hundred ninety-five thousand dollars in 1978. Notwithstanding these recurred losses the citizens of Spokane are grateful to the state for the rich heritage of Expo '74 which was made possible by the legislature. The city now seeks title to the opera house and convention center, and the legislature acknowledges that it passes to the city the liability for maintenance and operation of the facility. The surtax on the corporate business license/filing fee remains in effect and the transfer of the ownership provided for in RCW 43.96B.150 has no general fund impact." [1979 ex.s. c 25 § 1.]

STATE PAVILION—BOND ISSUE

43.96B.200 Legislative finding. The legislature finds that an expansion of the state pavilion at Expo '74 initially authorized for construction by the 1971 legislature is consistent with the purposes of the exposition and the needs of the state of Washington in order that the facility produced will both more adequately serve the state during the exposition and as a permanent structure for the benefit of the state afterwards. [1973 1st ex.s. c 116 § 1.]

43.96B.205 Bond issue—Authorized. For the purpose of providing additional space for the Washington State Pavilion at Expo '74 as determined to be necessary by the Expo '74 commission, including the planning, acquisition, construction, remodeling and equipping, together with all improvements and enhancements of said project, the state finance committee is authorized to issue general obligation bonds of the state of Washington in the sum of two million nine hundred thousand dollars, or so much thereof as may be required, to finance the projects defined in RCW 43.96B.200 through 43.96B.245 and all costs incidental thereto. Such bonds shall be paid and discharged within thirty years of the date of [Title 43 RCW—p 297]
issuance in accordance with Article VIII, section 1 of the state Constitution. [1973 1st ex.s. c 116 § 2.]

43.96B.210 Bond issue—Issuance and sale of bonds—Form, terms, conditions, etc.—Authority of state finance committee. The issuance, sale and retirement of said bonds shall be under the supervision and control of the state finance committee. Disposition of off-road vehicle use permit fees: RCW 46.09.110
Outdoor recreation account moneys appropriated, 1971 act: See note following RCW 46.09.010.
Outdoor recreational facilities: Chapter 43.98 RCW.

43.99.010 Purpose. Washington is uniquely endowed with fresh and salt waters rich in scenic and recreational value. This outdoor heritage enriches the lives of citizens, attracts new residents and businesses to the state, and is a major support of its expanding tourist industry. Rising population, increased income and leisure time, and the rapid growth of boating and other water sports have greatly increased the demand for water related recreation, while waterfront land is rapidly rising in value and disappearing from public use. There is consequently an urgent need for the acquisition or improvement of waterfront land on fresh and salt water suitable for marine recreational use by Washington residents and visitors. To meet this need, it is necessary and proper that the portion of motor vehicle fuel taxes paid by boat owners and operators on fuel consumed in their watercraft and not reclaimed as presently provided by law should be expended for the acquisition or improvement of marine recreation land on the Pacific Ocean, Puget Sound, bays, lakes, rivers, reservoirs and other fresh and salt waters of the state. [1965 c 5 § 1.]

43.99.020 Definition of terms. Definitions: As used in this chapter:

(1) "Marine recreation land" means any land with or without improvements which (a) provides access to, or in whole or in part borders on, fresh or salt water suitable for recreational use by watercraft, or (b) may be used to create, add to, or make more usable, bodies of water, waterways, or land, for recreational use by watercraft.

(2) "Public body" means any county, city, town, port district, park and recreation district, metropolitan park district, or other municipal corporation which is authorized to acquire or improve public outdoor recreation land, and shall also mean Indian tribes now or hereafter recognized as such by the federal government for participation in the land and water conservation program.

(3) "Tax on marine fuel" means motor vehicle fuel tax which is (a) tax on fuel used in, or sold or distributed for use in, any watercraft, (b) refundable pursuant to chapter 82.36 RCW, and (c) paid to the director of licensing with respect to taxable sales, distributions, or uses occurring on or after December 3, 1964.

(4) "Watercraft" means any boat, vessel, or other craft used for navigation on or through water.

(5) "Committee" means the interagency committee for outdoor recreation. [1979 c 158 § 108; 1972 exs. c 56 § 1; 1965 c 5 § 2.]

Construction—1972 exs. c 56: "The provisions of this 1972 amendatory act are intended to be remedial and procedural and shall be construed to apply retroactively." [1972 exs. c 56 § 2.] This applies to the 1972 exs. amendment to this section.

43.99.030 Determination of proportion of motor vehicle fuel tax moneys derived from tax on marine fuel—Studies—Costs. From time to time, but at least once each four years, the director of licensing shall determine the amount or proportion of moneys paid to him as motor vehicle fuel tax which is tax on marine fuel. The director shall make or authorize the making of studies, surveys, or investigations to assist him in making such determination, and shall hold one or more public hearings on the findings of such studies, surveys, or investigations prior to making his determination. The studies, surveys, or investigations conducted pursuant to this section shall encompass a period of twelve consecutive months each time. The final determination by the director shall be implemented as of the first day of the calendar month, which date falls closest to the mid-point of the time period for which the study data were collected. The director may delegate his duties and authority under this section to one or more persons of the department of licensing if he finds such delegation necessary and proper to the efficient performance of these duties. Costs of carrying out the provisions of this section shall be paid from the marine fuel tax refund account created in RCW 43.99.040, upon legislative appropriation. [1979 c 158 § 109; 1975–76 2nd exs. c 50 § 1; 1969 exs. c 74 § 1; 1965 c 5 § 3.]

43.99.040 Marine fuel tax refund account—Motor vehicle fund moneys derived from tax on marine fuel—Refunding and placement in marine fuel tax refund account—Exception. There is created the marine fuel tax refund account in the general fund. From time to time, but at least once each biennium, the director of licensing shall request the state treasurer to refund from the motor vehicle fund amounts which have been determined to be tax on marine fuel. The state treasurer shall refund such amounts and place them in the marine fuel tax refund account to be held for those entitled thereto pursuant to chapter 82.36 RCW and RCW 43.99.050, except that he shall not refund and place in the marine fuel tax refund account for any period for which a determination has been made pursuant to RCW 43.99.030 more than the greater of the following amounts: (1) an amount equal to two percent of all moneys paid to him as motor vehicle fuel tax for such period, (2) an amount

(1981 Ed.)
necessary to meet all approved claims for refund of tax on marine fuel for such period. [1979 c 158 § 110; 1965 c 5 § 4.]

43.99.050 Marine fuel tax refund account—Claims for refunds paid from. Claims submitted pursuant to chapter 82.36 RCW for refund of tax on marine fuel which has been placed in the marine fuel tax refund account shall, if approved, be paid from that account. [1965 c 5 § 5.]

There is created the outdoor recreation account in the general fund, in which shall be deposited all moneys received from the marine fuel tax refund account pursuant to RCW 43.99.070, the proceeds of the bond issue authorized by *chapter 12, Laws of 1963, extraordinary session, and any moneys made available to the state of Washington by the federal government for outdoor recreation not specifically designated for another fund or agency.

Grants, gifts, or other financial assistance awarded or designated for a particular purpose, or proceeds received from public bodies as administrative cost contributions, may be received and, when appropriated by the legislature, may be expended in accordance with the general budget and accounting act. [1967 ex.s. c 62 § 1; 1965 c 5 § 6.]

*Reviser's note: "chapter 12, Laws of 1963, extraordinary session" is codified as chapter 43.98 RCW, RCW 43.31.620 and 43.31.740.

43.99.070 Outdoor recreation account—Transfers of moneys to from marine fuel tax account. Upon expiration of the time limited by RCW 82.36.330 for claiming of refunds of tax on marine fuel, the state of Washington shall succeed to the right to such refunds. From time to time, but at least once each biennium, the director of licensing, after taking into account past and anticipated claims for refunds from and deposits to the marine fuel tax refund account and the costs of carrying out the provisions of RCW 43.99.030, shall request the state treasurer to transfer to the outdoor recreation account such of the moneys in the marine fuel tax refund account as shall not be required for payment of such refund claims or costs, and the state treasurer shall make such transfer. [1979 c 158 § 111; 1965 c 5 § 7.]

43.99.080 Outdoor recreation account—Distribution of moneys transferred. Moneys transferred to the outdoor recreation account from the marine fuel tax refund account may be used when appropriated by the legislature, as well as any federal or other funds now or hereafter available, to pay the necessary administrative and coordinative costs of the interagency committee for outdoor recreation established by RCW 43.99.110. All moneys so transferred, except those appropriated as aforesaid, shall be divided into two equal shares and shall be used to benefit watercraft recreation in this state as follows:

(1) One share by the state for (a) acquisition of title to, or any interests or rights in, marine recreation land, (b) capital improvement of marine recreation land, or (e) matching funds in any case where federal or other funds are made available on a matching basis for purposes described in (a) or (b);

(2) One share as grants to public bodies to help finance (a) acquisition of title to, or any interests or rights in, marine recreation land, or (b) capital improvement of marine recreation land. A public body is authorized to use a grant, together with its own contribution, as matching funds in any case where federal or other funds are made available for purposes described in (a) or (b).

The committee may prescribe further terms and conditions for the making of grants in order to carry out the purposes of this chapter. [1979 ex.s. c 140 § 1; 1965 ex.s. c 136 § 1; 1965 c 5 § 8.]

43.99.095 Interest on funds granted by committee to be returned to outdoor recreation account. Interest earned on funds granted or made available by the committee shall not be expended by the recipient but shall be returned to the outdoor recreation account of the general fund for disbursement by the committee in accordance with general budget and accounting procedure. Outdoor recreational facilities—1963 bond act: Chapter 43.98 RCW.

43.99A.010 Declaration of purpose. The state of Washington possesses unsurpassed natural wealth in the form of mountains, forests, and waters, ideal not only for recreation, but for supplying the special kind of spiritual regeneration that only close association with the outdoors can provide. As the state grows in population, this wilderness is increasingly threatened; prompt action is necessary to preserve it before much of it permanently disappears. Further, the physical expansion of our cities and towns has made it imperative that outdoor breathing space be set aside and permanently reserved for the people who live in them. Such breathing space may take the form of "green belts" especially planned to relieve the monotony of miles of uninterrupted urban or suburban development, or it may take the form of traditional parks. In any case, it must be acquired as soon as possible, while land is still available; and where appropriate, this land must be developed in order to meet the recreational needs of growing numbers of potential users. [1967 ex.s. c 126 § 1.]

43.99A.020 General obligation bonds authorized. For the purpose of providing funds for the acquisition and development of outdoor recreational areas and facilities in this state, the state finance committee is authorized to issue general obligation bonds of the state of Washington in the sum of forty million dollars or so
much thereof as may be required to finance the projects described in RCW 43.99A.070 and 43.99A.080. These bonds shall be paid and discharged within twenty years of the date of issuance. [1970 ex.s. c 40 § 1; 1967 ex.s. c 126 § 2.]

Adoption and ratification—1970 ex.s. c 40: The amendment to RCW 43.99A.020 and 43.99A.030 by 1970 ex.s. c 40 was adopted and ratified by the people at the November 3, 1970 general election (Referendum Bill No. 21).

Effective, when—1970 ex.s. c 40: "Sections 1 and 2 of this 1970 amendatory act shall not become effective unless this act is adopted and ratified at the referendum election provided for in section 3 of this 1970 amendatory act." [1970 ex.s. c 40 § 4.]

Referral of act to electorate, when—1970 ex.s. c 40: "In the event all of the bonds authorized by RCW 43.99A.010 through 43.99A.110 have not been issued on or before September 2, 1970, then this act shall be submitted to the people for their adoption and ratification, or rejection, at the general election to be held in this state on the Tuesday next succeeding the first Monday in November, 1970, in accordance with the provisions of section 3, Article VIII of the state Constitution; and in accordance with the provisions of section 1, Article II of the state Constitution as amended, and the laws adopted to facilitate the operation thereof." [1970 ex.s. c 40 § 3.]

The above annotations together with RCW 43.99A.020 and 43.99A.030 as amended in 1970 ex.s. c 40 constitute "this 1970 amendatory act".

43.99A.030 Form of bonds—Rate of interest—Sale and issuance. The state finance committee is authorized to prescribe the form of the bonds, the maximum rate of interest the same shall bear, the time of sale of all or any portion of them, and the conditions of their sale and issuance. None of the bonds herein authorized shall be sold for less than their par value. [1970 ex.s. c 40 § 2; 1967 ex.s. c 126 § 3.]

Reviser's note: See notes following RCW 43.99A.020.

43.99A.040 Full faith and credit of state pledged—Call prior to due date—Facsimile signatures. The bonds shall pledge the full faith and credit of the state of Washington and shall contain an unconditional promise to pay the principal and interest when due. The committee may provide that the bonds, or any of them, may be called prior to their due date under such terms and conditions as it may determine. The state finance committee may authorize the use of facsimile signatures in the issuance of the bonds. [1967 ex.s. c 126 § 4.]

43.99A.050 Disposition of proceeds of sale. The proceeds from the sale of bonds authorized by this chapter shall be deposited in the outdoor recreation account of the general fund and shall be used exclusively for the purposes of carrying out the provisions of the chapter and for payment of the expense incurred in the issuance and sale of the bonds. [1967 ex.s. c 126 § 5.]

43.99A.060 Outdoor recreational bond redemption fund of 1967—Created—Use—Sales tax revenues deposited in. The outdoor recreational bond redemption fund of 1967 is created in the state treasury. This fund shall be exclusively devoted to the payment of interest on and retirement of the bonds authorized by this chapter. The state finance committee shall, on or before June 30th of each year, certify to the state treasurer the amount needed in the ensuing twelve months to meet bond retirement and interest requirements, and on July 1st of each year the state treasurer shall deposit such amount in the outdoor recreational bond redemption fund from moneys transmitted to the state treasurer by the department of revenue and certified by the department of revenue to be sales tax collections. Such amount certified by the state finance committee to the state treasurer shall be a prior charge against all retail sales tax revenues of the state of Washington, except that portion thereof heretofore pledged for the payment of bond principal and interest.

The owner and holder of each of the bonds or the trustee for any of the bonds may by mandamus or other appropriate proceeding require the transfer and payment of funds as directed herein. [1971 c 37 § 1; 1967 ex.s. c 126 § 6.]

43.99A.070 Proceeds from sale of bonds—Administration—Disposition and use. The proceeds from the sale of bonds deposited in the outdoor recreation account of the general fund under the terms of RCW 43.99A.050 shall be administered by the interagency committee for outdoor recreation. All such proceeds shall be divided into two equal shares. One share shall be allocated for the acquisition and development of outdoor recreation areas and facilities on behalf of the state as the legislature may direct by appropriation. The other share shall be allocated to public bodies as defined in RCW 43.99A.020 for the acquisition and development of outdoor recreational areas and facilities within the jurisdiction of such public bodies. The interagency committee for outdoor recreation is authorized to use or permit the use of any funds derived from the sale of bonds authorized under this chapter as matching funds in any case where federal or other funds are made available on a matching basis for projects within the purposes of this chapter. [1967 ex.s. c 126 § 7.]

43.99A.080 Construction of phrase "acquisition and development of outdoor recreational areas and facilities". As used in this chapter, the phrase "acquisition and development of outdoor recreational areas and facilities" shall be liberally construed in accordance with the broad interpretation suggested by RCW 43.99A.010. It shall include, but shall not be limited to, acquisition of fee simple or any lesser interests in land, and the development of outdoor areas and facilities for either a single recreational use or multiple recreational uses. The preservation of land or water areas in an unspoiled or undeveloped state shall be among the alternatives permissible under this chapter. [1967 ex.s. c 126 § 8.]

43.99A.090 Legislature may provide additional means for payment of bonds. The legislature may provide additional means for raising moneys for the payment of the principal and interest of the bonds authorized herein, and this chapter shall not be deemed to provide an exclusive method for such payment. [1967 ex.s. c 126 § 9.]

(1981 Ed.)
43.99F.010 Declaration. The long-range development goals for the state of Washington must include the protection of the resources and environment of the state, the health and safety of its people, and the beneficial uses of water by providing facilities and systems, among others, for the general control, collection, treatment, or disposal of nonradioactive solid and nonradioactive liquid waste materials. The purpose of this chapter is to assist the state and local governments in providing that protection but it is not the purpose of this chapter to provide funding for facilities which encourage development. [1980 c 159 § 1.]

43.99F.020 General obligation bonds—Authorized—Issuance, sale, terms—Appropriation required. For the purpose of providing funds for the planning, design, acquisition, construction, and improvement of public waste disposal and management facilities in this state, the state finance committee is authorized to issue, at any time prior to January 1, 1990, general obligation bonds of the state of Washington in the sum of four hundred fifty million dollars, or so much thereof as may be required, to finance the improvements defined in this chapter and all costs incidental thereto. The department may not use or permit the use of any funds derived from the sale of bonds authorized by this chapter for: (1) the support of a solid waste recycling activity or service in a locale if the department determines that the activity or service is reasonably available to persons within that locale from private enterprise; or (2) the construction of municipal wastewater facilities unless said facilities have been approved by a general purpose unit of local government in accordance with chapter 36.94 RCW, chapter 35.67 RCW, or RCW 56.08.020. These bonds shall be paid and discharged within thirty years of the date of issuance. No bonds authorized by this chapter shall be offered for sale without prior legislative appropriation of the proceeds of the bonds to be sold. [1980 c 159 § 2.]

43.99F.030 Deposit of proceeds in state and local improvements revolving account, Waste Disposal Facilities, 1980—Use. The proceeds from the sale of bonds authorized by this chapter shall be deposited in the state and local improvements revolving account, Waste Disposal Facilities, 1980 hereby created in the general fund and shall be used exclusively for the purpose specified in this chapter and for payment of the expenses incurred in the issuance and sale of the bonds. [1980 c 159 § 3.]

43.99F.040 Administration of proceeds. The proceeds from the sale of the bonds deposited in the state and local improvements revolving account, Waste Disposal Facilities, 1980 of the general fund under the terms of this chapter shall be administered by the state department of ecology subject to legislative appropriation. The department may use or permit the use of any funds derived from the sale of bonds authorized under this chapter to accomplish the purpose for which the bonds are issued by direct expenditures and by grants or loans to public bodies, including grants to public bodies as cost-sharing funds in any case where federal, local, or other funds are made available on a cost-sharing basis for improvements within the purposes of this chapter. The department shall ensure that funds derived from the sale of bonds authorized under this chapter do not constitute more than seventy-five percent of the total cost of any waste disposal or management facility. Not more than two percent of the proceeds of the bond issue may be used by the department of ecology in relation to the administration of the expenditures, grants, and loans.

At least one hundred fifty million dollars of the proceeds of the bonds authorized by this chapter shall be used exclusively for waste management systems capable of producing renewable energy or energy savings as a result of the management of the wastes. "Renewable energy" means, but is not limited to, the production of steam, hot water for steam heat, electricity, cogeneration, gas, or fuel through the use of wastes by incineration, refuse-derived fuel processes, pyrolysis, hydrolysis, or bioconversion, and energy savings through material recovery from waste source separation and/or recycling.

The department of ecology shall present a progress report of actual projects committed by the department to the senate committee on ways and means and the house of representatives committee on appropriations no later than November 30th of each year.

Integration of the management and operation of systems for solid waste disposal with systems of liquid waste disposal holds promise of improved waste disposal efficiency and greater environmental protection and restoration. To encourage the planning for and development of such integration, the department may provide for special grant incentives to public bodies which plan for or operate integrated waste disposal management systems. [1980 c 159 § 4.]

43.99F.050 Definitions. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

43.130.010 Purpose. When either for fiscal reasons, obsolescence or other extraordinary reasons, it becomes necessary to close a state facility, as defined by RCW 43.130.020(2), the state has a responsibility to provide certain benefits to affected employees.

It is the purpose of this chapter to establish an economic impact act for the state of Washington to meet the emergency situation now in existence for state employees affected by the closure of state facilities, as defined in RCW 43.130.020. [1973 2nd ex.s. c 37 § 1.]

43.130.020 Definitions. For purposes of this chapter:
(1) "Employees" includes those persons performing services for the state on a salaried or hourly basis including, but not limited to, persons in "classified service" as defined in RCW 41.06.020(3) and those persons defined as exempt from the state civil service laws pursuant to RCW 41.06.070.
(2) The term "closure of a state facility" means the termination of services being provided by a facility operated by the department of social and health services or in conjunction with the department of natural resources, when such facility is terminated for fiscal reasons, obsolescence, or other extraordinary reasons.
(3) "Classified employees" means those employees performing classified service as defined in RCW 41.06.020(3). [1973 2nd ex.s. c 37 § 2.]

43.130.030 Excluded employment and employees. Excluded employment and excluded employees under this chapter include, but are not limited to, the following:
(1) State employment related to a single project under a program separately financed by a grant of nonstate funds, federal funds or state funds, or by a combination of such funding, which is designed to provide training or employment opportunities, expertise or additional manpower related to the project or which, because of the
n nature of the project funding requirements, is not intended as a permanent program.

(2) Activities at least seventy-five percent federally funded by a categorical grant for a specific purpose and any other activities terminated because of actions taken by the federal government or other funding sources other than the state of Washington in eliminating or substantially limiting funding sources, except to the extent that the federal government or such other funding sources may permit the use of nonstate funds to pay for any employee benefits authorized pursuant to this chapter.

(3) The following categories of employees are excluded from benefits under this chapter:
   (a) employees refusing transfer to vacant positions in the same or a like job classification and at not more than one full range lower than the same salary range;
   (b) classified employees having other than permanent status in the classified service;
   (c) employees having less than three years’ consecutive state service as an employee, except that such employees shall nonetheless be eligible for the benefits provided in subsections (1), (2), (4) and (5) of RCW 43.130.040.
   (d) nothing in this chapter shall affect any other rights currently held by classified employees regarding reduction in force procedures and subsequent reemployment. [1973 2nd ex.s. c 37 § 3.]

43.130.040 Benefits. In order to carry out the purposes of this chapter, the state shall take every reasonable step at its disposal to provide alternative employment and to minimize the economic loss of state employees affected by the closure of state facilities. Affected state employees shall be paid benefits as specified in this section.

(1) Relocation expenses covering the movement of household goods, incurred by the necessity of an employee moving his domicile to be within reasonable commuting distance of a new job site, shall be paid by the state to employees transferring to other state employment by reason of the closure of a facility.

(2) Relocation leave shall be allowed up to five working days’ leave with pay for the purpose of locating new residence in the area of employment.

(3) The state shall reimburse the transferring employee to the extent of any unavoidable financial loss suffered by an employee who sells his home at a price less than the true and fair market value as determined by the county assessor not exceeding three thousand dollars: Provided, That this right of reimbursement must be exercised, and sale of the property must be accomplished, within a period of two years from the date other state employment is accepted.

(4) For employees in facilities which have been terminated who do not choose to participate in the transfer program set forth in the preceding subsections, the following terminal pay plan shall be available:
   (a) For qualifying employees, for each one year of continuous state service, one week (five working days) of regular compensation shall be provided.
   (b) Regular compensation as used in subsection (a) hereof shall include salary compensation at the rate being paid to the employees at the time operation of the facility is terminated.
   (c) Terminal pay as set forth in subsections (a) and (b) hereof shall be paid to the employee at the termination of the employees last month of employment or within thirty days after the effective date of this 1973 act, whichever is later: Provided, That from the total amount of terminal pay, the average sum of unemployment compensation that the qualifying employee is eligible to receive multiplied by the total number of weeks of terminal pay minus one week shall be deducted.
   (d) Those employees electing the early retirement benefits as stated in subsection (5) of this section shall not be eligible for the terminal pay provisions as set forth in this subsection.

(5) As an option to transferring to other state employment an employee may elect early retirement under the following conditions:
   (a) Notwithstanding the age requirements of RCW 41.40.180, any affected employee under this chapter who has attained the age of fifty-five years, with at least five years creditable service, shall be immediately eligible to retire, with no actuarial reduction in the amount of his pension benefit.
   (b) Notwithstanding the age requirements of RCW 41.40.180, any affected employee under this chapter who has attained the age of forty-five years, with at least five years creditable service, shall be immediately eligible to retire with an actuarial reduction in the amount of his pension benefit of three percent for each complete year that such employee is under fifty-five years of age.
   (c) Employees who elect to retire pursuant to RCW 41.40.180 shall be eligible to retire while on authorized leave of absence not in excess of one hundred and twenty days.
   (d) Employees who elect to retire under the provisions of this section shall not be eligible for any retirement benefit in a year following a year in which their employment income was in excess of six thousand dollars. This six thousand dollars base shall be adjusted annually beginning in 1974 by such cost of living adjustments as are applied by the public employees' retirement system to membership retirement benefits. The public employees retirement system board shall adopt necessary rules and regulations to implement the provisions of this subsection. [1973 2nd ex.s. c 37 § 4.]

affected by the closure of a state facility as defined in RCW 43.130.020(2) who were employed as of May 1, 1973 at such facility, and who are still in employment of the state or on an official leave of absence as of the effective date of this 1973 act who would otherwise qualify for the enumerated benefits of this chapter are hereby declared eligible for such benefits under the following conditions:

(a) such employee must be actively employed by the state of Washington or on an official leave of absence on the effective date of this 1973 act, and unless the early retirement or terminal pay provisions of this chapter are elected, continue to be employed or to be available for employment in a same or like job classification at not less than one full range lower than the same salary range for a period of at least thirty days thereafter;

Upon the determination of the amount necessary to offset said increased cost, the retirement board shall bill the department of personnel for the amount of the increased cost: Provided, That such billing shall not exceed eight hundred sixty-one thousand dollars. Such billing shall be paid by the department as, and the same shall be, a proper charge against any moneys available or appropriated to the department for this purpose. [1973 2nd ex.s. c 37 § 6.]

43.130.900 Severability—1973 2nd ex.s. c 37. If any provision of this 1973 act, or its application to any person or circumstance is held invalid, the remainder of the act, or the application of the provision to other persons or circumstances is not affected. [1973 2nd ex.s. c 37 § 8.]

43.130.910 Emergency—Operative dates—Termination of benefits. This 1973 act is necessary for the immediate preservation of the public peace, health and safety, the support of state government and its existing public institutions and shall take effect immediately: Provided however, That each of the provisions of this 1973 act shall be operative and in effect only for employees of those state facilities closed after May 1, 1973 and prior to September 14, 1974: Provided further, That benefits under section 4(3) of this 1973 act shall be available until September 14, 1975. [Title 43 RCW—p 334] (1981 Ed.)
This annotation applies to chapter 43.131 RCW and the legislature finds that state agencies may fail to deliver services as effectively and efficiently as is expected by the general public and as originally contemplated by the legislature. It further finds that state government actions have produced a substantial increase in numbers of agencies, growth of programs, and proliferation of rules and regulations, and that the entire process has evolved without sufficient legislative and executive oversight, regulatory accountability, or a system of checks and balances. The legislature further finds that by establishing a system for the termination, modification, or reestablishment of state agencies, coupled with a system of scheduled review of such agencies, it will be in a better position to evaluate the need for the continued existence of existing and future state agencies. The legislature recognizes that the executive branch shares in this duty and responsibility to assure that state government operates in an efficient, orderly, and responsive manner. [1977 ex.s. c 289 § 2.]

43.131.030 Definitions. As used in this chapter the following words and phrases shall have the following meanings unless the context clearly requires otherwise.

(1) "Committees of reference" means the standing legislative committees designated by the respective rules committees of the senate and house of representatives to consider termination, modification, or reestablishment of state agencies pursuant to this chapter.

(2) "Person" includes every natural person, firm, partnership, corporation, association, or organization.

(3) "Regulatory entity" means any board, commission, agency, division, or other unit or subunit of state government which licenses or regulates one or more professions, occupations, industries, businesses, or other endeavors in the state of Washington.

(4) "State agency" includes every state office, department, board, commission, regulatory entity and agency of the state, and where provided by law, programs and activities involving less than the full responsibility of a state agency. [1977 ex.s. c 289 § 3.]

43.131.040 Reestablishment of state agency scheduled for termination—Review. Any state agency scheduled for termination by the processes provided in this chapter may be reestablished by the legislature for a period of time specified by law, but not to exceed six years. At the end of such period of time the legislature shall again review such state agency in a manner consistent with the provisions of this chapter and RCW 43.06.010 and reestablish, modify, or consolidate such state agency or allow it to be terminated. [1977 ex.s. c 289 § 4.]

43.131.050 Legislative budget committee and office of financial management—Duties—Reports required. The legislative budget committee shall cause to be conducted a program and fiscal review of each state agency scheduled for termination by the processes provided in this chapter. Such program and fiscal review shall be completed and a report prepared on or before June 30th of the year prior to the date established for termination. Upon completion of its report, the legislative budget committee shall transmit copies of the report to the office of financial management. The office of financial management may then conduct its own program.
43.131.050 Title 43 RCW: State Government—Executive

and fiscal review of the agency scheduled for termination and shall prepare a report on or before September 30th of the year prior to the date established for termination. Upon completion of its report the office of financial management shall transmit copies of its report to the legislative budget committee. The legislative budget committee shall prepare a final report that includes the reports of both the office of financial management and the legislative budget committee. The legislative budget committee and the office of financial management shall, upon request, make available to each other all working papers, studies, and other documents which relate to reports required under this section. The legislative budget committee shall transmit the final report to all members of the legislature, to the state agency concerned, to the governor, and to the state library. [1979 c 22 § 1; 1977 ex.s. c 289 § 5.]

43.131.060 Legislative budget committee review of regulatory entity—Factors for consideration. In conducting the review of a regulatory entity, the legislative budget committee shall consider, but not be limited to, the following factors where applicable:

1. The extent to which the regulatory entity has permitted qualified applicants to serve the public;
2. The extent to which the regulatory entity restricts or inhibits competition or otherwise adversely affects the state's economic climate;
3. The extent to which the system of regulation has contributed directly or indirectly to increasing or decreasing the costs of any goods or services involved;
4. The duties of the regulatory entity and the costs incurred in carrying out such duties;
5. Whether the regulatory entity has operated in the public interest, including the extent to which the regulatory entity has:
   a. Sought and achieved public participation in making its rules and decisions including consideration of recommending appointment of one or more "public" members to the entity;
   b. Processed to completion in a timely and equitable manner the formal complaints filed with it;
   c. Implemented an effective system of evaluating the impact on the public of its rules and decisions regarding economy, availability, and improvement of the services rendered to the persons it regulates;
   d. Initiated administrative procedures or recommended statutory changes to the legislature that would benefit the public as opposed to the persons it regulates; and
   e. Identified the needs and problems of the recipients of goods and services provided by those regulated;
6. The extent to which persons regulated by the regulatory entity have been encouraged to participate in assessing problems in their profession, occupation, or industry which affect the public;
7. The impact and effectiveness of the regulatory entity with respect to the problems or needs the entity was intended to address;
8. The consequences of eliminating or modifying the program of the regulatory entity;
9. The extent to which the regulatory entity duplicates the activities of other regulatory entities or of the private sector, where appropriate; and
10. The extent to which the absence or modification of regulation would adversely affect the public health, safety, or welfare. [1977 ex.s. c 289 § 6.]

43.131.070 Legislative budget committee review of a state agency other than a regulatory entity—Factors for consideration. In conducting the review of a state agency other than a regulatory entity, the legislative budget committee shall consider, but not be limited to, the following factors where applicable:

1. The extent to which the state agency has complied with legislative intent;
2. The extent to which the state agency is operating in an efficient and economical manner which results in optimum performance;
3. The extent to which the state agency is operating in the public interest by effectively providing a needed service that should be continued rather than modified, consolidated, or eliminated;
4. The extent to which the state agency duplicates the activities of other state agencies or of the private sector, where appropriate; and
5. The extent to which the termination or modification of the state agency would adversely affect the public health, safety, or welfare. [1977 ex.s. c 289 § 7.]

43.131.080 Committees of reference—Powers and duties. (1) Following receipt of the final report from the legislative budget committee, the appropriate committees of reference in the senate and the house of representatives shall jointly hold a public hearing to consider the final report and any related data. The committees shall also receive testimony from representatives of the state agency involved, which shall have the burden of demonstrating a public need for its continued existence; and from the governor or the governor's designee, and other interested parties, including the general public.

(2) When requested jointly by the presiding members of the appropriate senate and house committees of reference, a regulatory entity under review shall mail an announcement of the joint hearing to the persons it regulates who have requested notice of agency rule-making proceedings as provided in RCW 34.04.025(1)(a), as now existing or hereafter amended, or who have requested notice of hearings held pursuant to the provisions of this section. On request of either presiding member, such mailing shall include an explanatory statement not exceeding one page in length prepared and supplied by the member's committee.

(3) The presiding members of the senate committee on ways and means and the house committee on appropriations may designate one or more liaison members to each committee of reference in their respective chambers for purposes of participating in the joint hearing and in subsequent committee of reference discussions and to seek a coordinated approach between the committee of reference and the committee they represent in a liaison capacity.
(4) Following the joint hearing by the committees of reference, such committees may separately hold additional meetings or hearings to come to a final determination as to whether a state agency has demonstrated a public need for its continued existence or whether modifications in existing procedures are needed. In the event that a committee of reference concludes that a state agency shall be reestablished or modified or its functions transferred elsewhere, it shall make such determination as a bill. No more than one state agency shall be reestablished or modified in any one bill. [1977 ex.s. c 289 § 8.]

43.131.090 Termination of state agency—Procedures—Employee transfers—Property disposition—Funds and moneys—Rules—Contracts. If terminated, a state agency shall continue in existence until June 30th of the next succeeding year for the purpose of concluding its affairs: Provided, That the powers and authority of the state agency shall not be reduced or otherwise limited during this period. Unless otherwise provided:

(1) All employees of terminated state agencies classified under chapter 41.06 RCW, the state civil service law, shall be transferred as appropriate or as otherwise provided in the procedures adopted by the personnel board pursuant to RCW 41.06.150;

(2) All documents and papers, equipment, or other tangible property in the possession of the terminated state agency shall be delivered to the custody of the agency assuming the responsibilities of the terminated agency or if such responsibilities have been eliminated, documents and papers shall be delivered to the state archivist and equipment or other tangible property to the department of general administration;

(3) All funds held by, or other moneys due to, the terminated state agency shall revert to the fund from which they were appropriated, or if that fund is abolished to the general fund;

(4) Notwithstanding the provisions of RCW 34.04.940, all rules made by a terminated state agency shall be repealed, without further action by the state agency, at the end of the period provided in this section, unless assumed and reaffirmed by the agency assuming the related legal responsibilities of the terminated state agency;

(5) All contractual rights and duties of a state agency shall be assigned or delegated to the agency assuming the responsibilities of the terminated state agency, or if there is none to such agency as the governor shall direct. [1977 ex.s. c 289 § 9.]

43.131.100 Termination of state agency—Pending business—Savings. This chapter shall not affect the right to institute or prosecute any cause of action by or against a state agency terminated pursuant to this chapter if the cause of action arose prior to the end of the period provided in RCW 43.131.090. Such causes of action may be instituted, prosecuted, or defended in the name of the state of Washington by the office of the attorney general. Any hearing or other proceeding pending before a state agency to be terminated and not completed before the end of the period provided in RCW 43.131.090, may be completed by the agency assuming the responsibilities of the terminated state agency. [1977 ex.s. c 289 § 10.]

43.131.110 Committees—Reference to include successor. Any reference in this chapter to a committee of the legislature including the legislative budget committee shall also refer to the successor of that committee. [1977 ex.s. c 289 § 11.]

43.131.120 Select joint committee—Appointment—Duties. (1) The speaker of the house of representatives and the president of the senate shall jointly appoint a select joint committee consisting of ten members of the legislature within thirty days of June 17, 1977. The speaker shall appoint three members of the majority party and two members of the minority party. The president shall appoint three members of the majority party and two members of the minority party. The committee shall be responsible for the development of legislation which provides a schedule for the termination of state agencies in a manner consistent with the terms of this chapter and of RCW 43.06.010 as now or hereafter amended. The termination of such state agencies shall occur over a period of four years, beginning on June 30, 1981. In the development of such legislation, the select joint committee shall:

(a) Identify state agencies which might appropriately be scheduled for termination and arrange for automatic termination of state agencies, with a reasonable number of state agencies to be terminated on June 30, 1981, and a reasonable number of state agencies to be terminated on June 30, 1983; no more than one state agency shall be so identified or scheduled for automatic termination in any one section of such legislation;

(b) Seek to schedule state agencies with like goals, objectives, or functions for termination on the same date so as to better assure identification of duplicative activities and provide for appropriate modification or consolidation of state agencies to avoid future duplication; and

(c) Seek to schedule state agencies for termination in a manner which assures that as many committees of reference as possible have sufficient opportunity to develop experience in conducting reviews as provided pursuant to the terms of this chapter, and which assures that no such committee is given responsibility for review of an unreasonable number of state agencies during any legislative session.

(2) In identifying those state agencies to be scheduled for termination, the select joint committee shall consider, but not be limited to, the following factors where applicable:

(a) The extent to which the burden of compliance on the executive and legislative branches with the terms of this chapter is reasonable;

(b) The extent to which a state agency may serve the interests of a particular profession, occupation, or industry as opposed to the interests of the public;
(c) The extent to which a state agency may have outlived its original statutory purpose; and

(d) The potential for fiscal savings.

(3) The select joint committee shall also be responsible for assisting in the implementation of the terms and provisions of this chapter and shall establish proposed procedures which facilitate legislative review as required by this chapter for presentation to the legislature. Such committee shall recommend legislative rules which assure effective and appropriate consideration of all bills and reports regarding termination, modification, consolidation, or reauthorization of state agencies scheduled for termination.

(4) Proposed legislation, recommendations, and findings shall be submitted to the legislature as soon as is practicable, but no later than the first day the legislature is in session after January 1, 1978. [1979 c 22 § 2; 1977 ex.s. c 289 § 12.]

### 43.131.130 Legislature—Powers unaffected by enactment of chapter.

Nothing in this chapter or RCW 43.06.010 as now or hereafter amended, shall prevent the legislature from abolishing or modifying a state agency scheduled for termination prior to the agency's established termination date or from abolishing or modifying any other state agency. [1977 ex.s. c 289 § 13.]

Tax Revenue Limitations

43.135.010 Findings—Intent. The people of the state of Washington hereby find and declare:

(1) The continuing increases in our state tax burden and the corresponding growth of state government is contrary to the interest of the people of the state of Washington.

(2) It is necessary to limit the rate of growth of state government while assuring adequate funding of essential services, including basic education as defined by the legislature.

(3) It is therefore the intent of this chapter to:
(a) Establish a limit which will assure that the growth rate of state tax revenue does not exceed the growth rate of state personal income;
(b) Assure that local governments are provided funds adequate to render those services deemed essential by their citizens;
(c) Assure that the state does not impose, on any taxing district, responsibility for new programs or increased levels of service under existing programs unless the costs thereof are paid by the state;
(d) Provide for adjustment of the limit when costs of a program are transferred between the state and another political entity; and
(e) Establish a procedure for exceeding this limit in emergency situations. [1980 c 1 § 1 (Initiative Measure No. 62, approved November 6, 1979).]

43.135.020 Definitions. As used in this chapter, the following terms have the meanings indicated unless otherwise required.

(1) "State tax revenue" means all state moneys received in the treasury from every source except those revenues excluded for the term "general state revenues" by Article VIII, section (1)(c) of the state Constitution other than the state property tax levied for the support of the common schools under RCW 84.52.065, as now or hereafter amended.

(2) "State personal income" means the dollar amount published as total personal income of persons of the state for the calendar year by the United States Department of Commerce or its successor agency.

(3) "State tax revenue limit" or "limit" means the state tax revenue limit created by this chapter.

(4) "Taxing district" means those districts included within the term "taxing district" under RCW 84.04.120, as now or hereafter amended.

(5) "State personal income ratio" for any calendar year means the quotient formed by dividing (a) state personal income for the calendar year under consideration by (b) the state personal income for the immediately preceding calendar year. [1980 c 1 § 2 (Initiative Measure No. 62, approved November 6, 1979).]

43.135.030 State tax revenue limit. (1) The state tax revenue limit for any fiscal year shall be the previous fiscal year's state tax revenue multiplied by the average state personal income ratio for the three calendar years immediately preceding the beginning of the fiscal year for which the limit is being computed.

(2) For purposes of computing the state tax revenue limit for the fiscal year beginning July 1, 1980, the phrase "the previous fiscal year's state tax revenue limit" means the state tax revenue collected in the fiscal year beginning July 1, 1978, multiplied by the average state personal income ratio for the calendar years 1976, 1977, and 1978. [1980 c 1 § 3 (Initiative Measure No. 62, approved November 6, 1979).]

43.135.040 Taxes, fees, charges to be set—Estimated revenue to be within revenue limit. Except as provided in RCW 43.135.050, taxes, fees, and charges on persons, property, and activities shall be imposed, levied, or set by the legislature in such a manner that the estimated state tax revenue for each fiscal year of the next biennium will not exceed the state tax revenue limit for that fiscal year: PROVIDED, The legislature may at any time adjust such taxes, fees, and charges for the second fiscal year of the biennium. [1980 c 1 § 4 (Initiative Measure No. 62, approved November 6, 1979).]

43.135.050 When revenue limit may be exceeded—Conditions. (1) The state tax revenue limit for any fiscal year may be exceeded in order to meet an emergency as declared by the legislature by two-thirds vote of each house. The legislature, by two-thirds vote of each house, shall set forth the circumstances constituting the emergency and the amount of state tax revenue in excess of the applicable state tax revenue limit necessary to meet the emergency.

(2) Any amount of state tax revenue authorized by subsection (1) of this section in excess of the state tax revenue limit shall be authorized only for the fiscal year in which the vote is taken and/or the next succeeding fiscal year, as directed by the legislature.

(3) Except where the emergency results from a court order, the amount of state tax revenue authorized under

(1981 Ed.)
section (1) of this section in excess of the limit shall not be used in the revenue base used to compute the state tax revenue limit for subsequent years. [1980 c 1 § 5 (Initiative Measure No. 62, approved November 6, 1979).]

43.135.060 Prohibition of new or extended programs without reimbursement—Prohibition on decreasing proportion of state tax revenue consisting of appropriations to taxing districts—Transfer of programs—Determination of costs. (1) The legislature shall not impose responsibility for new programs or increased levels of service under existing programs on any taxing district unless the districts are reimbursed for the costs thereof by the state.

(2) That proportion of state tax revenue which consists of direct state appropriations to taxing districts taken as a group shall not be decreased below that proportion appropriated in the two biennium immediately preceding January 1, 1980: Provided, This proportion shall be decreased in any fiscal year only if: (a) The legislature decreases the state tax revenue limit for that fiscal year by an amount equal to the dollar amount of any decrease in direct state appropriations to taxing districts taken as a whole; or (b) the state tax revenue limit has been increased under RCW 43.135.050(3) or 43.135.060(3) and the decrease of the proportion is commensurate with the increase in the state tax revenue limit.

(3) If by order of any court, or legislative enactment, the costs of federal or taxing district program are transferred to or from the state, the otherwise applicable state tax revenue limit shall be increased or decreased, as the case may be, by the dollar amount of the costs of the program.

(4) The legislature, in consultation with the office of financial management or its successor agency, shall determine the costs of any new programs or increased levels of service under existing programs imposed on any taxing district transferred to or from the state. [1980 c 1 § 6 (Initiative Measure No. 62, approved November 6, 1979).]

43.135.070 Priority of principal and interest on state indebtedness—Revenue collected in excess of limit. The legislature shall, prior to any other appropriation, provide for the payment of the principal and interest of the indebtedness of the state. State tax revenue collected in any fiscal year in excess of the state tax revenue limit for that fiscal year shall be included as part of the state tax revenue for the succeeding fiscal year. [1980 c 1 § 7 (Initiative Measure No. 62, approved November 6, 1979).]

43.135.900 Severability—1980 c 1. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected. [1980 c 1 § 8 (Initiative Measure No. 62, approved November 6, 1979).]

43.135.901 Effective date—Applicability—1980 c 1. This act shall take effect on January 1, 1980: Provided, That the first fiscal year for which the state tax revenue limit shall be in effect is the fiscal year beginning on July 1, 1980. [1980 c 1 § 9 (Initiative Measure No. 62, approved November 6, 1979).]

(3) Financial assistance to counties to offset the costs of providing public services and facilities necessitated by the development of geothermal resources within their jurisdictions.

(4) Maintenance of the productivity of renewable resources through the investment of proceeds from these resources. [1981 c 158 § 1.]

43.140.020 Definitions. As used in this chapter:
(1) "County of origin" means any county in which the United States bureau of land management has leased lands for geothermal development.

(2) "Geothermal energy" means the natural heat of the earth and the medium by which this heat is extracted from the earth, including liquids or gases, as well as any minerals contained in any natural or injected fluids, brines, and associated gas but excluding oil, hydrocarbon gas, and other hydrocarbon substances. [1981 c 158 § 2.]

43.140.030 Geothermal account—Deposit of revenues. There is created the geothermal account in the general fund of the state treasury. All expenditures from this account are subject to appropriation and chapter 43.88 RCW.

All revenues received by the state treasurer under section 35 of the Mineral Lands Leasing Act of 1920, as amended (30 U.S.C. Sec. 191), with respect to activities

of the United States bureau of land management undertaken pursuant to the Geothermal Steam Act of 1970 (30 U.S.C. Sec. 1001 et. seq.) shall be deposited in the geothermal account of the general fund immediately upon receipt. [1981 c 158 § 3.]

43.140.040 Geothermal account—Limitations on distributions. Distribution of funds from the geothermal account of the general fund shall be subject to the following limitations:

(1) Thirty percent to the department of natural resources for geothermal exploration and assessment;

(2) Thirty percent to the Washington state energy office or its statutory successor for the purpose of encouraging the development of geothermal energy; and

(3) Forty percent to the county of origin for mitigating impacts caused by geothermal energy exploration, assessment, and development. [1981 c 158 § 4.]

43.140.050 Distribution of funds to county of origin. The state treasurer shall be responsible for distribution of funds to the county of origin. Each county's share of rentals and royalties from a lease including lands in more than one county shall be computed on the basis of the ratio that the acreage within each county has to the total acreage in the lease. The Washington state energy office or its statutory successor shall obtain the necessary information to make the distribution of funds on such a basis. [1981 c 158 § 5.]

43.140.060 Appropriation for exploration and assessment of geothermal energy—Reimbursement. The legislature hereby appropriates one hundred forty-eight thousand dollars from the general fund of the state treasury to the department of natural resources for the purpose of exploration and assessment of geothermal energy within the state of Washington. The department of natural resources shall reimburse the general fund from its share of the revenues credited to the geothermal account up to one hundred forty-eight thousand dollars. Geothermal Steam Act revenues credited to the department's share of the geothermal account in excess of one hundred forty-eight thousand dollars shall be expended by the department of natural resources for the purpose of exploration and assessment of geothermal energy within the state of Washington. NORTHWEST INTERSTATE COMPACT ON LOW-LEVEL RADIOACTIVE WASTE MANAGEMENT

Sections
43.145.010 Compact.
43.145.020 Requirements of Washington representative to Northwest low-level waste compact committee.

Radioactive Waste Storage and Transportation Act of 1980: Chapter 70.99 RCW.

43.145.010 Compact. The Northwest Interstate Compact on Low-Level Radioactive Waste Management is hereby enacted into law and entered into by the state of Washington as a party, and is in full force and effect between the state and other states joining the compact in accordance with the terms of the compact.

NORTHWEST INTERSTATE COMPACT ON LOW-LEVEL RADIOACTIVE WASTE MANAGEMENT

ARTICLE I—Policy and Purpose

The party states recognize that low-level radioactive wastes are generated by essential activities and services that benefit the citizens of the states. It is further recognized that the protection of the health and safety of the citizens of the party states and the most economical management of low-level radioactive wastes can be accomplished through cooperation of the states in minimizing the amount of handling and transportation required to dispose of such wastes and through the cooperation of the states in providing facilities that serve the region. It is the policy of the party states to undertake the necessary cooperation to protect the health and safety of the citizens of the party states and to provide for the most economical management of low-level radioactive wastes on a continuing basis. It is the purpose of this compact to provide the means for such a cooperative effort among the party states so that the protection of the citizens of the states and the maintenance of the viability of the states' economies will be enhanced while sharing the responsibilities of radioactive low-level waste management.

ARTICLE II—Definitions

As used in this compact:

(1) "Facility" means any site, location, structure, or property used or to be used for the storage, treatment, or disposal of low-level waste, excluding federal waste facilities;

(2) "Low-level waste" means waste material which contains radioactive nuclides emitting primarily beta or gamma radiation, or both, in concentrations or quantities which exceed applicable federal or state standards for unrestricted release. Low-level waste does not include waste containing more than ten nanocuries of transuranic contaminants per gram of material, nor spent reactor fuel, nor material classified as either high-level waste or waste which is unsuited for disposal by near-surface burial under any applicable federal regulations;

(3) "Generator" means any person, partnership, association, corporation, or any other entity whatsoever which, as a part of its activities, produces low-level radioactive waste;

(4) "Host state" means a state in which a facility is located.

(1981 Ed.)
ARTICLE III—Regulatory Practices

Each party state hereby agrees to adopt practices which will require low-level waste shipments originating within its borders and destined for a facility within another party state to conform to the applicable packaging and transportation requirements and regulations of the host state. Such practices shall include:

1. Maintaining an inventory of all generators within the state that have shipped or expect to ship low-level waste to facilities in another party state;
2. Periodic unannounced inspection of the premises of such generators and the waste management activities thereon;
3. Authorization of the containers in which such waste may be shipped, and a requirement that generators use only that type of container authorized by the state;
4. Assurance that inspections of the carriers which transport such waste are conducted by proper authorities, and appropriate enforcement action taken for violations;
5. After receiving notification from a host state that a generator within the party state is in violation of applicable packaging or transportation standards, the party state will take appropriate action to assure that such violations do not recur. Such action may include inspection of every individual low-level waste shipment by that generator.

Each party state may impose fees upon generators and shippers to recover the cost of the inspections and other practices under this Article. Nothing in this Article shall be construed to limit any party state’s authority to impose additional or more stringent standards on generators or carriers than those required under this Article.

ARTICLE IV—Regional Facilities

Section 1. Facilities located in any party state, other than facilities established or maintained by individual low-level waste generators for the management of their own low-level waste, shall accept low-level waste generated in any party state if such waste has been packaged and transported according to applicable laws and regulations.

Section 2. No facility located in any party state may accept low-level waste generated outside of the region comprised of the party states, except as provided in Article V.

Section 3. Until such time as Section 2 takes effect as provided in Article VI, facilities located in any party state may accept low-level waste generated outside of any of the party states only if such waste is accompanied by a certificate of compliance issued by an official of the state in which such waste shipment originated. Such certificate shall be in such form as may be required by the host state, and shall contain at least the following:

1. The generator’s name and address;
2. A description of the contents of the low-level waste container;
3. A statement that the low-level waste being shipped has been inspected by the official who issued the certificate or by his agent or by a representative of the United States Nuclear Regulatory Commission, and found to have been packaged in compliance with applicable federal regulations and such additional requirements as may be imposed by the host state;
4. A binding agreement by the state of origin to reimburse any party state for any liability or expense incurred as a result of an accidental release of such waste during shipment or after such waste reaches the facility.

Section 4. Each party state shall cooperate with the other party states in determining the appropriate site of any facility that might be required within the region comprised of the party states, in order to maximize public health and safety while minimizing the use of any one party state as the host of such facilities on a permanent basis. Each party state further agrees that decisions regarding low-level waste management facilities in their region will be reached through a good faith process which takes into account the burdens borne by each of the party states as well as the benefits each has received.

Section 5. The party states recognize that the issue of hazardous chemical waste management is similar in many respects to that of low-level waste management. Therefore, in consideration of the state of Washington allowing access to its low-level waste disposal facility by generators in other party states, party states such as Oregon and Idaho which host hazardous chemical waste disposal facilities will allow access to such facilities by generators within other party states. Nothing in this compact may be construed to prevent any party state from limiting the nature and type of hazardous chemical or low-level wastes to be accepted at facilities within its borders or from ordering the closure or [of] such facilities, so long as such action by a host state is applied equally to all generators within the region composed of the party states.

Section 6. Any host state may establish a schedule of fees and requirements related to its facility, to assure that closure, perpetual care, and maintenance and contingency requirements are met, including adequate bonding.

ARTICLE V—Northwest Low-Level Waste Compact Committee

The governor of each party state shall designate one official of that state as the person responsible for administration of this compact. The officials so designated shall together comprise the Northwest low-level waste compact committee. The committee shall meet as required to consider matters arising under this compact. The parties shall inform the committee of existing regulations concerning low-level waste management in their states, and shall afford all parties a reasonable opportunity to review and comment upon any proposed modifications in such regulations. Notwithstanding any provision of Article IV to the contrary, the committee may enter into arrangements with states, provinces, individual generators, or regional compact entities outside the region comprised of the party states for access to facilities on such terms and conditions as the committee may deem appropriate. However, it shall require a two-
thirds vote of all such members, including the affirmative vote of the member of any party state in which a facility affected by such arrangement is located, for the committee to enter into such arrangement.

ARTICLE VI—Eligible Parties and Effective Date

Section 1. Each of the following states is eligible to become a party to this compact: Alaska, Hawaii, Idaho, Montana, Oregon, Utah, Washington, and Wyoming. As to any eligible party, this compact shall become effective upon enactment into law by that party, but it shall not become initially effective until enacted into law by two states. Any party state may withdraw from this compact by enacting a statute repealing its approval.

Section 2. After the compact has initially taken effect pursuant to Section 1, any eligible party state may become a party to this compact by the execution of an executive order by the governor of the state. Any state which becomes a party in this manner shall cease to be a party upon the final adjournment of the next general or regular session of its legislature or July 1, 1983, whichever occurs first, unless the compact has by then been enacted as a statute by that state.

Section 3. Section 2 of Article IV of this compact shall take effect on July 1, 1983, if consent is given by Congress. As provided in Public Law 96–573, Congress may withdraw its consent to the compact after every five-year period.

ARTICLE VII—Severability

If any provision of this compact, or its application to any person or circumstance, is held to be invalid, all other provisions of this compact, and the application of all of its provisions to all other persons and circumstances, shall remain valid; and to this end the provisions of this compact are severable. [1981 c 124 § 1.]

43.145.020 Requirements of Washington representative to Northwest low-level waste compact committee. The person designated as the Washington representative to the committee as specified in Article V shall adhere to all provisions of the low-level radioactive waste compact. In considering special conditions or arrangements for access to the state’s facilities from wastes generated outside of the region, the committee member shall ensure at a minimum, that the provisions of Article IV, Section 3 are complied with. The Washington representative shall approve access of such wastes to the state’s facility only if there is no other feasible alternative available. [1981 c 124 § 2.]

Revisor's note: Sections 69 through 81, section 86, and portions of section 82 of chapter 288, Laws of 1981, providing for congressional redistricting and reapportionment were vetoed by the governor. Section 82 is codified as RCW 44.07B.900. See chapter 44.07A RCW in the 1979 edition of the Revised Code of Washington for the congressional district boundaries that were established by the 1972 federal court plan and order, United States district court, western district of Washington, case 9668, filed April 21, 1972, at Seattle, with minor adjustments by the legislature in 1974 with the enactment of chapter 123, Laws of 1974.
44.07B.001 Legislative intent. It is the intent of the legislature to reapportion and redistrict the congressional and legislative districts of the state of Washington in accordance with the Constitution and laws of the United States and the state of Washington. It is the intent to encompass within each congressional and legislative district, as nearly as practicable, an equal number of state inhabitants as enumerated in the 1980 federal decennial census. [1981 c 288 § 1.]

Reviser’s note: Sections 69 through 81, section 86, and portions of section 82 of chapter 288, Laws of 1981, providing for congressional redistricting and reapportionment were vetoed by the governor. See note following chapter digest.

44.07B.002 Population determined on basis of 1980 federal census. In every case the population of the congressional and legislative districts created has been ascertained on the basis of the total number of persons found inhabiting such areas as of April 1, 1980, under the 1980 federal decennial census. The legislature hereby declares that no practical means have been found to more accurately determine the population inhabiting such areas other than through the 1980 federal decennial census data. [1981 c 288 § 2.]

Reviser’s note: Sections 69 through 81, section 86, and portions of section 82 of chapter 288, Laws of 1981, providing for congressional redistricting and reapportionment were vetoed by the governor. See note following chapter digest.

44.07B.003 Exclusion of transient military personnel. The legislature finds that the 1980 federal decennial census specifically excluded transient military personnel from the count of Washington state inhabitants and hereby declares that such exclusion is proper, necessary, and sufficient to meet the requirements of Article I, section 2 of the United States Constitution and Article II, section 3 of the Washington state Constitution. [1981 c 288 § 3.]

44.07B.004 Policy—Cascade mountains as natural barrier. As a matter of state policy, the legislature hereby declares that legislative district division shall be determined by the legislature with the restriction that the Cascade mountains shall be recognized as a natural barrier, and no district may cross said barrier, except in the case of Skamania county. Skamania county crosses the Cascade mountains with its population mainly oriented towards the Columbia river. [1981 c 288 § 4.]

44.07B.005 Adjustments of areas—Census—Military personnel. (1) Any area not specifically included within the boundaries of any of the districts as described in this chapter and which is completely surrounded by a particular district, shall be a part of that district. Any such area not completely surrounded by a particular district shall be a part of the district having the smallest number of inhabitants and having territory contiguous to such area.

(2) Any area described in this chapter as specifically embraced in two or more noninclusive districts shall be a part of the adjacent district having the smallest number of inhabitants and shall not be a part of the other district or districts.

(3) Any area specifically mentioned as embraced within a district but separated from such district by one or more other districts, shall be assigned as though it had not been included in any district specifically described.

(4) The 1980 United States federal decennial census shall be used for determining the number of inhabitants under this chapter.

(5) If any court of competent jurisdiction requires transient military personnel that were not included in the United States census bureau data to be included, these persons shall be included in the population of the district or districts from which the persons were excluded. [1981 c 288 § 5.]

44.07B.006 District description terminology. For the purposes of this chapter, districts shall be described in terms of:

(1) Official United States census bureau tracts, enumeration districts, block numbering areas, block groups, or *county census divisions established by the United States bureau of the census in the 1980 federal decennial census;

(2) Counties, municipalities, or other political subdivisions or parts of political subdivisions as they existed on April 1, 1980;

The board shall, on the basis of these documents and any final statement made by the person charged, render a final decision as to whether the facts justify a finding of unethical conduct. A final decision must be agreed upon by at least six members of the board. The board shall notify the appropriate law enforcement agency directly if the board makes a finding that it has reasonable grounds to believe that a criminal violation has occurred.

(i) If the board in its final decision determines that the facts support a finding of unethical conduct, it shall include in its decision a specific recommendation for disciplinary action which may include but is not necessarily limited to: (i) In the case of a legislator, reprimand, censure, or expulsion, and when applicable, restitution; and (ii) in the case of a legislative employee, reprimand, suspension, or dismissal, and when applicable, restitution. Revenue Sources—Disorganization Election

45.80.070 Final account—Payment of demands—Disposition of funds—Order of dissolution—Transfer of cemetery properties. When an election has resulted in an affirmative vote to disorganize the townships in a county, the chairman of the board of county commissioners shall take the following actions in the order indicated:

First, he shall pay all lawful demands against the townships, and then file a final account together with all vouchers, with the clerk of the superior court;

Second, if prior to the election a tax levy has been made by one or more of the townships, for collection the year following the election, and if a pro rata reduction has been caused in the levy of any junior taxing district in the county which would [not] have been required had the township made no levy, the chairman shall order the county treasurer to collect the township levy and to disburse to the junior taxing district whose levy was reduced by proration the sum of money by which its levy was so reduced; if the township levy is not sufficient for such payments, any available funds to the credit of the township shall be so paid;

Third, the chairman shall pay any remaining township funds to the county treasurer to be deposited to the credit of the several taxing districts of the county (except the state and county) in the following allocations: Each such taxing district of the county shall receive a share that bears the same proportion to the total amount as its assessed valuation within the township times its authorized levy last in process of collection (excepting excess levies) bears to the total assessed valuation of such taxing districts within the township times the total authorized levy (excepting excess levies) of such districts. Upon approval by the court of said final account the court shall sign proper orders dissolving said township;

Fourth, he shall transfer all cemetery properties, facilities, and funds, real and personal, together with all funds designated or intended for endowment care, perpetual care, or similar purposes to the cemetery authority succeeding to the operation and maintenance of such cemetery. All gifts and donations shall be applied strictly according to the requirements stipulated by the donor. Where donor has not otherwise specified, such funds shall be presumed to be endowment care funds within the meaning of chapter 68.44 RCW, and are to be devoted exclusively to the care, improvement, or embellishment of the cemetery or other purposes authorized by RCW 68.40.060.
