Provided, That, if the proposed installation is located at a new crossing requested by a city, town, county, or state, forty percent of the cost shall be apportioned to the city, town, county, or state, and none to the railroad. If the proposed installation is located at a new crossing requested by a railroad, then the entire cost shall be apportioned to the railroad. In the event the city, town, county, or state should concurrently petition the commission and secure an order authorizing the closure of an existing crossing or crossings in proximity to the crossing for which installation of signals or other warning devices shall have been directed, the apportionment to the petitioning city, town, county, or state shall be reduced by ten percent of the total cost for each crossing ordered closed and the apportionment from the grade crossing protective fund increased accordingly. This exception shall not be construed to permit a charge to the grade crossing protective fund in an amount greater than the total cost otherwise apportionable to the city, town, county, or state. No reduction shall be applied where one crossing is closed and another opened in lieu thereof, nor to crossings of a private nature.

Maintenance: (1) Twenty-five percent to the grade crossing protective fund, created by RCW 81.53.281; and

There is hereby created in the state treasury a "grade crossing protective fund," to which shall be transferred all moneys appropriated for the purpose of carrying out the provisions of RCW 81.53.261, 81.53.271, 81.53.281, 81.53.291, and 81.53.295. At the time the commission makes each allocation of cost to said grade crossing protective fund, it shall certify that such cost shall be payable out of said fund. When federal-aid highway funds are not involved, the railroad shall, upon completion of the installation of any such signal or other protective device and related work, present its claim for reimbursement for the cost of installation and related work from said fund of the amount allocated thereto by the commission. The annual cost of maintenance shall be presented and paid in a like manner. When federal-aid highway funds are involved, the department of transportation shall, upon entry of an order by the commission requiring the installation or upgrading of a grade crossing protective device, submit to the commission an estimate for the cost of the proposed installation and related work. Upon receipt of the estimate the commission shall pay to the department of transportation the percentage of the estimate specified in RCW 81.53.295, as now or hereafter amended, to be used as the grade crossing protective fund portion of the cost of the installation and related work. The commission is hereby authorized to recover administrative costs from said fund in an amount not to exceed three percent of the direct appropriation provided for any biennium, and in the event administrative costs exceed three percent of the appropriation, the excess shall be chargeable to regulatory fees paid by railroads pursuant to RCW 81.24.010.

Within ninety days of the end of each fiscal year, the commission shall report to the legislative transportation committee, and the senate and house committees on transportation, the status of the grade crossing protective fund, including revenue sources, fund balances, and expenditures. Whenever federal-aid highway funds are available and are used to pay a portion of the cost of installing a grade crossing protective device, and related work, at a railroad crossing of any state highway, city or town street, or county road at the then prevailing federal-aid matching rate, the grade crossing protective fund shall pay ten percent of the remaining cost of such installation and related work. The state or local authority having jurisdiction of such highway, street, or road shall pay the balance of the remaining cost of such installation and related work. The railroad whose road is crossed by the highway, street, or road shall thereafter pay the entire cost of maintaining the device. [1982 c 94 § 4; 1975 1st ex.s. c 189 § 3.]

82.02.030	Additional tax rates.

82.02.020 State preempts certain tax fields—Fees prohibited for the development of land or buildings—Voluntary payments by developers authorized—Limitations—Exceptions. Except only as expressly provided in RCW 67.28.180 and 67.28.190 and the provisions of chapter 82.14 RCW, the state preempts the field of imposing taxes upon retail sales of tangible personal property, the use of tangible personal property, parimutuel wagering authorized pursuant to RCW 67.16.060, conveyances, and cigarettes, and no county, town, or other municipal subdivision shall have the right to impose taxes of that nature. No county, city, town, or other municipal corporation shall impose any tax, fee, or charge, either direct or indirect, on the construction or reconstruction of residential buildings, commercial buildings, industrial buildings, or on any other building or building space or appurtenance thereto, or on the development, subdivision, classification, or reclassification of land. However, this section does not preclude dedications of land or easements pursuant to RCW 58.17.110 within the proposed development or plat which the county, city, town, or other municipal corporation can demonstrate are reasonably necessary as a direct result of the proposed development or plat to which the dedication of land or easement is to apply.

This section does not prohibit voluntary agreements with counties, cities, towns, or other municipal corporations that allow a payment in lieu of a dedication of land or to mitigate a direct impact that has been identified as a consequence of a proposed development, subdivision, or plat: *Provided*, That any such voluntary agreement shall be subject to the following provisions:

(1) The payment shall be held in a reserve account and may only be expended to fund a capital improvement agreed upon by the parties to mitigate the identified, direct impact;

(2) The payment shall be expended in all cases within five years of collection; and

(3) Any payment not so expended shall be refunded with interest at the rate applied to judgments to the property owners of record at the time of the refund; however, if the payment is not expended within five years due to delay attributable to the developer, the payment shall be refunded without interest.

No county, city, town, or other municipal corporation shall require any payment as part of such a voluntary agreement which the county, city, town, or other municipal corporation cannot establish is reasonably necessary as a direct result of the proposed development or plat.

Nothing in this section prohibits cities, towns, counties, or other municipal corporations from collecting reasonable fees from an applicant for a permit or other

governmental approval to cover the cost to the city, town, county, or other municipal corporation of processing applications, inspecting and reviewing plans, or preparing detailed statements required by chapter 43.21C RCW.

This section does not limit the existing authority of any county, city, town, or other municipal corporation to impose special assessments on property specifically benefited thereby in the manner prescribed by law.

Nothing in this section prohibits counties, cities, or towns from imposing or permits counties, cities, or towns to impose water, sewer, natural gas, drainage utility, and drainage system charges: *Provided*, That no such charge shall exceed the proportionate share of such utility or system's capital costs which the county, city, or town can demonstrate are attributable to the property being charged: *Provided further*, That these provisions shall not be interpreted to expand or contract any existing authority of counties, cities, or towns to impose such charges.

This section does not apply to special purpose districts formed and acting pursuant to Titles 54, 56, 57, or 87 RCW, nor is the authority conferred by these titles affected. 82.14.080 Deposit of tax prior to due date—Credit against future tax or assessment—When fund designation permitted—Use of tax revenues received in connection with large construction projects. The taxes provided by this chapter may be deposited by any taxpayer prior to the due date thereof with the treasurer or other legal depository for the benefit of the funds to which they belong to be credited against any future tax or assessment that may be levied or become due from the taxpayer: *Provided*, That the taxpayer may with the concurrence of the legislative authority designate a particular fund of such county or city against which such prepayment of tax or assessment is made. Such prepayment of taxes or assessments shall not be considered to be a debt for the purpose of the limitation of indebtedness imposed by law on a county or city.

By agreement made pursuant to chapter 39.34 RCW, counties or cities may utilize tax revenues received under the authority of this chapter in connection with large construction projects, including energy facilities as defined in RCW 80.50.020, for any purpose within their power or powers, privileges or authority exercised or capable of exercise by such counties or cities including, but not limited to, the purpose of the mitigation of socioeconomic impacts that may be caused by such large construction projects: *Provided*, That the taxable event need

not take place within the jurisdiction where the socio-economic impact occurs if an intergovernmental agreement provides for redistribution. [1982 c 211 § 2.]

82.14.090 Payment of tax prior to taxable event—When permitted—Deposit with treasurer—Credit against future tax—When fund designation permitted. When permitted by resolution or ordinance, any tax authorized by this chapter may be paid prior to the taxable event to which it may be attributable. Such prepayment shall be made by deposit with the treasurer or other legal depository for the benefit of the funds to which they belong. They shall be credited by any county or city against any future tax that may become due from a taxpayer: *Provided*, That the taxpayer with the concurrence of the legislative authority may designate a particular fund of such county or city against which such prepayment of tax is made. Prepayment of taxes under this section shall not relieve any taxpayer from remitting the full amount of any tax imposed under the authority of this chapter upon the occurrence of the taxable event. [1982 c 211 § 3.]

82.14.200 County sales and use tax equalization account—Created—Allocation procedure. There is created in the state general fund a special account to be known as the "county sales and use tax equalization account." Into this account shall be placed a portion of all motor vehicle excise tax receipts as provided in RCW 82.44.150(2). Funds in this account shall be allocated by the state treasurer according to the following procedure:

(1) Prior to April 1st of each year the director of revenue shall inform the state treasurer of the total and the per capita levels of revenues for the unincorporated area of each county and the state-wide weighted average per capita level of revenues for the unincorporated areas of all counties imposing the sales and use tax authorized under RCW 82.14.030(1) for the previous calendar year.

(2) At such times as distributions are made under RCW 82.44.150, as now or hereafter amended, the state treasurer shall apportion to each county imposing the sales and use tax under RCW 82.14.030(1) at the maximum rate and receiving less than one hundred fifty thousand dollars from the tax for the previous calendar year, an amount from the county sales and use tax equalization account sufficient, when added to the amount of revenues received the previous calendar year by the county, to equal one hundred fifty thousand dollars.

(3) Subsequent to the distributions under subsection (2) of this section and at such times as distributions are made under RCW 82.44.150, as now or hereafter amended, the state treasurer shall apportion to each county imposing the sales and use tax under RCW 82.14.030(1) at the maximum rate and receiving less than seventy percent of the state-wide weighted average per capita level of revenues for the unincorporated areas of all counties as determined by the department of revenue under subsection (1) of this section, an amount from

the county sales and use tax equalization account sufficient, when added to the per capita level of revenues for the unincorporated area received the previous calendar year by the county, to equal seventy percent of the state-wide weighted average per capita level of revenues for the unincorporated areas of all counties determined under subsection (1) of this section, subject to reduction under subsections (5) and (6) of this section. When computing distributions under this section, any distribution under subsection (2) of this section shall be considered revenues received from the tax imposed under RCW 82.14.030(1) for the previous calendar year.

(4) Subsequent to the distributions under subsection (3) of this section and at such times as distributions are made under RCW 82.44.150, as now or hereafter amended, the state treasurer shall apportion to each county imposing the sales and use tax under RCW 82.14.030(2) at the maximum rate and receiving a distribution under subsection (3) of this section, a third distribution from the county sales and use tax equalization account. The distribution to each qualifying county shall be equal to the distribution to the county under subsection (3) of this section, subject to the reduction under subsections (5) and (6) of this section. To qualify for the distributions under this subsection, the county must impose the tax under RCW 82.14.030(2) for the entire calendar year. Counties imposing the tax for less than the full year shall qualify for prorated allocations under this subsection proportionate to the number of months of the year during which the tax is imposed.

(5) Revenues distributed under this section in any calendar year shall not exceed an amount equal to seventy percent of the state-wide weighted average per capita level of revenues for the unincorporated areas of all counties during the previous calendar year. If distributions under subsection (3) or (4) of this section cannot be made because of this limitation, then distributions under subsection (3) or (4) of this section shall be reduced ratably among the qualifying counties.

(6) If inadequate revenues exist in the county sales and use tax equalization account to make the distributions under subsection (3) or (4) of this section, then the distributions under subsection (3) or (4) of this section shall be reduced ratably among the qualifying counties. At such time during the year as additional funds accrue to the county sales and use tax equalization account, additional distributions shall be made under subsections (3) and (4) of this section to the counties.

(7) If the level of revenues in the county sales and use tax equalization account exceeds the amount necessary to make the distributions under subsections (2) through (4) of this section, then the additional revenues shall be credited and transferred to the state general fund. [1982 1st ex.s. c 49 § 21.]

(1) Prior to April 1st of each year the director of revenue shall inform the state treasurer of the total and the per capita levels of revenues for each city and the state-wide weighted average per capita level of revenues for all cities imposing the sales and use tax authorized under RCW 82.14.030(1) for the previous calendar year.

(2) At such times as distributions are made under RCW 82.44.150, as now or hereafter amended, the state treasurer shall apportion to each city not imposing the sales and use tax under RCW 82.14.030(2) an amount from the municipal sales and use tax equalization account equal to the amount distributed to the city under RCW 82.44.150(3)(a) multiplied by thirty-five sixty-fifths.

(3) Subsequent to the distributions under subsection (2) of this section, and at such times as distributions are made under RCW 82.44.150, as now or hereafter amended, the state treasurer shall apportion to each city imposing the sales and use tax under RCW 82.14.030(1) at the maximum rate and receiving less than seventy percent of the state-wide weighted average per capita level of revenues for all cities as determined by the department of revenue under subsection (1) of this section, an amount from the municipal sales and use tax equalization account sufficient, when added to the per capita level of revenues received the previous calendar year by the city, to equal seventy percent of the state-wide weighted average per capita level of revenues for all cities determined under subsection (1) of this section, subject to reduction under subsection (5) of this section.

(4) Subsequent to the distributions under subsection (3) of this section, and at such times as distributions are made under RCW 82.44.150, as now or hereafter amended, the state treasurer shall apportion to each city imposing the sales and use tax under RCW 82.14.030(2) at the maximum rate and receiving a distribution under subsection (3) of this section, a third distribution from the municipal sales and use tax equalization account. The distribution to each qualifying city shall be equal to the distribution to the city under subsection (3) of this section, subject to the reduction under subsection (5) of this section. To qualify for the distributions under this subsection, the city must impose the tax under RCW 82.14.030(2) for the entire calendar year. Cities imposing the tax for less than the full year shall qualify for prorated allocations under this subsection proportionate to the number of months of the year during which the tax is imposed.

(5) If inadequate revenues exist in the municipal sales and use tax equalization account to make the distributions under subsection (3) or (4) of this section, then the distributions under subsection (3) or (4) of this section shall be reduced ratably among the qualifying cities. At such time during the year as additional funds accrue to the municipal sales and use tax equalization account, additional distributions shall be made under subsections (3) and (4) of this section to the cities.

(6) If the level of revenues in the municipal sales and use tax equalization account exceeds the amount necessary to make the distributions under subsections (2) through (4) of this section, then the additional revenues shall be apportioned among the several cities within the state ratably on the basis of population as last determined by the office of financial management: *Provided*, That no such distribution shall be made to those cities receiving a distribution under subsection (2) of this section. [1982 2nd ex.s. c 9 § 1; 1981 c 144 § 2; 1965 ex.s. c 173 § 20; 1961 c 293 § 12; 1961 c 15 § 82.16.010. Effective date—1982 2nd ex.s. c 9: "This act is necessary for the immediate preservation of the public peace, health, and safety, the support of the state government and its existing public institutions, and shall take effect August 1, 1982." [1982 2nd ex.s. c 9 § 4.] "This act" consists of the 1982 2nd ex.s. c 9 amendments to RCW 82.04.120, 82.16.010, and 82.16.050.

Intent—1981 c 144: "The legislature recognizes that there have been significant changes in the nature of the telephone business in recent years. Once solely the domain of regulated monopolies, the telephone business has now been opened up to competition with respect to most of its services and equipment. As a result of this competition, the state and local excise tax structure in the state of Washington has become discriminatory when applied to regulated telephone company transactions that are similar in nature to those consummated by nonregulated competitors. Telephone companies are forced to operate at a significant state and local tax disadvantage when compared to these nonregulated competitors.

To remedy this situation, it is the intent of the legislature to place telephone companies and nonregulated competitors of telephone companies on an equal excise tax basis with regard to the providing of similar goods and services. Therefore competitive telephone services shall for excise tax purposes only, unless otherwise provided, be treated as retail sales under the applicable state and local business and occupation and sales and use taxes. This shall not affect any requirement that regulated telephone companies have under Title 80 RCW, unless otherwise provided.

Nothing in this act affects the authority and responsibility of the Washington utilities and transportation commission to set fair, just, reasonable, and sufficient rates for telephone service." [1981 c 144 § 1.]

Severability—1981 c 144: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1981 c 144 § 12.]

Effective date—1981 c 144: "This act shall take effect on January 1, 1982." [1981 c 144 § 13.]

The above three annotations apply to the 1981 c 144 amendments to RCW 82.16.010, 82.04.050, 82.14.020, 80.04.270, 35.21.710, and 35A.82.050 and to RCW 35.21.712, 35A.82.055, 35.21.714, and 35A.82.060.

Sections

82.27.020 Excise tax imposed—Deduction—Measure of tax—Rates—Temporary additional tax imposed.

82.27.020 Excise tax imposed—Deduction—Measure of tax—Rates—Temporary additional tax imposed. (1) In addition to all other taxes, licenses, or fees provided by law there is established an excise tax on the possession of food fish and shellfish for commercial purposes as provided in this chapter. The tax is levied upon and shall be collected from the owner of the food fish or shellfish whose possession constitutes the taxable event. The taxable event is the first possession by an owner after the food fish or shellfish have been landed. Processing and handling of food fish and shellfish by a person who is not the owner is not a taxable event to the processor or handler.

(2) A person in possession of food fish and shellfish and liable to this tax may deduct from the price paid to the person from which such food fish or shellfish (except

oysters) are purchased an amount equal to a tax at one-half the rate levied in this section upon these products.

(3) The measure of the tax is the price paid by the first person in possession of the food fish or shellfish. If the food fish or shellfish are acquired other than by purchase or are purchased under conditions where the purchase price does not represent the value of the food fish or shellfish or these products are transferred outside the state without sale, the measure of the tax shall be determined as nearly as possible according to the selling price of similar products of like quality and character under rules adopted by the department of revenue.

(4) The tax shall be equal to the measure of the tax multiplied by the rates for food fish and shellfish as follows:

- (a) Chinook, coho, and chum salmon: Five percent.
- (b) Pink and sockeye salmon: Three percent.
- (c) Other food fish and shellfish, except oysters: Two percent.
- (d) Oysters: Seven one-hundredths of one percent.

(5) From and after the first day of July, 1982, until and including the thirtieth day of June, 1983, an additional tax is imposed equal to the rate specified in RCW 82.02.030 multiplied by the tax payable under subsection (4) of this section. [1982 1st ex.s. c 35 § 10; 1980 c 98 § 2.]

If any person engages in any business or performs any act upon which a tax is imposed by the preceding chapters, he shall, whether taxable or not, under such rules and regulations as the department of revenue shall prescribe, apply for and obtain from the department a registration certificate upon payment of fifteen dollars. Such registration certificate shall be personal and nontransferable and shall be valid as long as the taxpayer continues in business and pays the tax accrued to the state. In case business is transacted at two or more separate places by one taxpayer, a separate registration certificate for each place at which business is transacted with the public shall be required, but, for such additional certificates no additional payment shall be required. Each certificate shall be numbered and shall show the name, residence, and place and character of business of the taxpayer and such other information as the department of revenue deems necessary and shall be posted in a conspicuous place at the place of business for which it is issued. Where a place of business of the taxpayer is changed, the taxpayer must return to the department the existing certificate, and a new certificate will be issued for the new place of business free of charge. The estimated amount of tax remitted shall be at least the greater of ninety percent of the tax actually due for the month or one-third of the tax due during the corresponding quarter of the previous year. Each taxpayer filing an estimated return shall file a separate quarterly return on the last day of the month after the end of each calendar quarter. Each quarterly return shall be on forms prescribed by the department, include such information as the department may require to correctly determine tax liability during the quarter, and be accompanied by a remittance of the balance of the tax actually due for the quarter.

Form—Contents. An application for a certificate shall be filed with the department not later than November 30, 1981, and in such manner and in such form as may be prescribed by the department. The application shall contain estimated or actual costs, plans and specifications of the facility including all materials incorporated or to be incorporated therein and a list describing, and showing the cost, of all equipment acquired or to be acquired by the applicant for the purpose of pollution control, together with the operating procedure for the facility, or a time schedule for the acquisition and installation or attachment of the facility and the proposed operating procedure for such facility. 82.34.060 Application for final cost determination as to existing or new facility—Filing—Form—Contents—Approval—Determination of costs—Credits against taxes imposed by chapters 82.04, 82.12, 82.16 RCW—Limitations. (1) On and after July 30, 1967, an application for a determination of the cost of an existing or newly completed pollution control facility may be filed with the department in such manner and in such form as may be prescribed by the department. The

application shall contain the final cost figures for the installation of the facility and reasonable supporting documents and other proof as required by the department. In the event such facility is not already covered by a certificate issued for the purpose of authorizing the tax exemption or credit provided for in this chapter, the department shall seek the approval of the facility from the appropriate control agency. For any application for a certificate or supplement which was filed with the department not later than November 30, 1981, the department shall determine the final cost of the pollution control facility and issue a supplement to the existing certificate or an original certificate stating the cost of the pollution control facility: *Provided*, That the cost of an existing pollution control facility shall be the depreciated value thereof at the time of application filed pursuant to this section.

(2) When the operation of a facility has commenced and a certificate pertaining thereto has been issued, a credit may be claimed against taxes imposed pursuant to chapters 82.04, 82.12 and 82.16 RCW. The amount of such credit shall be two percent of the cost of a facility covered by the certificate for each year the certificate remains in force. Such credits shall be cumulative and shall be subject only to the following limitations:

(a) No credit exceeding fifty percent of the taxes payable under chapters 82.04, 82.12 and 82.16 RCW shall be allowed in any reporting period;

(b) The net commercial value of any materials captured or recovered through use of a facility shall, first, reduce the credit allowable in the current reporting period and thereafter be applied to reduce any credit balance allowed and not yet utilized: *Provided*, That for the purposes of this chapter the determination of "net commercial value" shall not include a deduction for the cost or depreciation of the facility.

(c) The total cumulative amount of such credits allowed for any facility covered by a certificate shall not exceed fifty percent of the cost of such facility.

(d) The total cumulative amount of credits against state taxes authorized by this chapter shall be reduced by the total amount of any federal investment credit or other federal tax credit actually received by the certificate holder applicable to the facility. This reduction shall be made as an offset against the credit claimed in the first reporting period following the allowance of such investment credit, and thereafter as an offset against any credit balance as it shall become available to the certificate holder.

(3) Applicants and certificate holders shall provide the department with information showing the net commercial value of materials captured or recovered by a facility and shall make all pertinent books and records available for examination by the department for the purposes of determining the credit provided by this chapter. [1981 2nd ex.s. c 9 § 3; 1967 ex.s. c 139 § 6.]

82.34.080 Modification or replacement of facility. If subsequent to the issuance of a certificate or supplement

for a facility, a determination is made to modify or replace such facility, the holder thereof may file an application for a new certificate or supplement covering such modified or replacement facility in accordance with the procedures set forth in this chapter for original certificates and supplements thereto: *Provided*, That an application for a new certificate or supplement covering such modified or replacement facility must be filed with the department not later than November 30, 1981. After the issuance by the department of any new certificate or supplement, all subsequent tax exemptions and credits for the modified or replacement facility shall be based thereon. [1981 2nd ex.s. c 9 § 4; 1967 ex.s. c 139 § 8.]

82.34.901 Severability—1981 2nd ex.s. c 9. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected. [1981 2nd ex.s. c 9 § 5.]

82.35.030 Application for cogeneration tax credit certificate—Contents—Approval—Issuance of certificate—Review of certificate—Issuance of modified certificate or supplement—Rules—Expiration of section. (1) An application for a certificate shall be filed with the department. The application shall contain the estimated or actual cost, plans, and specifications of the cogeneration facility, including all materials incorporated or to be incorporated therein, and a list describing and showing all expenditures made by the applicant for the purpose of cogeneration, together with the operating procedure for the facility, and if the facility has not been constructed, a time schedule for the acquisition and installation or attachment of the cogeneration facility and the proposed operating procedure for the cogeneration facility.

(2) The department shall provide a copy of the application to the energy office within ten days after receipt thereof. Within sixty days after receipt of the application from the department, the office shall approve the application but only if it first determines that construction of the cogeneration facility began or will begin after September 1, 1978, that the cogeneration facility is designed and is operated or will be operated primarily for cogeneration, and that the cogeneration facility is suitable, reasonably adequate, and meets the intent and purposes of this chapter.

(3) Within ten days after approval of the application, the office shall provide a copy thereof to the department. Within thirty days after receipt thereof the department shall issue the certificate but only if it finds that the cost data in the application is accurate.

If the application contains estimated cost data, the certificate shall be conditioned upon the applicant providing sufficient information for the department to determine the actual cost of the cogeneration facility on the date it becomes operational. Within sixty days after the cogeneration facility is operational the department shall review the certificate. If the actual cost of the cogeneration facility is less than the cost shown in the certificate, the department shall issue a modified certificate or a supplement to the original certificate, showing the actual cost of the cogeneration facility.

(4) The department, with the approval of the office, may adopt rules specifying the administrative procedures applicable to applications for certification, the form and manner in which the applications shall be filed and additional information to be contained therein. The rules shall apply to administrative procedures before both the office and the department. An applicant shall have the opportunity for a hearing before the office and the department in respect to their respective decisions granting or denying approval or certification.

This section shall expire on December 31, 1984. [1982 1st ex.s. c 2 § 2; 1979 ex.s. c 191 § 3.]

82.35.040 Issuance of certificate—Limitations—Tabulation of costs incurred—Administrative rules. (1) No certificate or supplement may be issued after December 31, 1984. No certificate including a supplement thereto may be issued for cogeneration facility costs in excess of ten million dollars for any application submitted under this chapter.

(2) The department shall keep a running tabulation of the total cogeneration facility costs incurred or planned to be incurred pursuant to certificates or supplements issued under this chapter. The department may not issue any new certificate or any supplement if the certificate or supplement would result in the tabulation exceeding one hundred million dollars. Nothing in this section shall be deemed to bar any certificate holder from amending the certificate or obtaining a supplement thereto so long as the amendment or supplement is issued prior to December 1, 1984, and does not increase the total amount of cogeneration facility costs incurred or planned to be incurred under the original certificate.

(3) The department may adopt any rules under chapter 34.04 RCW it considers necessary for the administration of this chapter. [1982 1st ex.s. c 2 § 3; 1979 ex.s. c 191 § 4.]

82.35.050 Credit against taxes—Conditions—Amount—Limitations. When a cogeneration facility is operational and a certificate pertaining thereto has been issued, a credit may be claimed against taxes imposed under chapter 82.04 RCW, if the due date for payment of the taxes is after the effective date of the certificate:

Provided, That the date on which the facility is operational is no more than four years after the date of issuance of the certificate. The amount of the credit shall be three percent of the cost of a facility covered by the certificate for each year the certificate remains in force. The credits shall be cumulative and shall be subject only to the following limitations:

(1) The tax credit shall apply to capital costs only and shall not apply to operating costs.

(2) A person, firm, corporation, or organization which acquires a cogeneration facility shall be entitled to the credit only to the extent that it has previously not been taken. Under no circumstances may a credit be taken more than once against any cost or portion thereof of a cogeneration facility.

(3) No credit exceeding fifty percent of the taxes payable under chapter 82.04 RCW shall be allowed in any reporting period.

(4) The total cumulative amount of the credits allowed for any cogeneration facility covered by a certificate shall not exceed fifty percent of the cost of the cogeneration facility less the total amount of federal investment credit or other federal tax credits applicable to the cogeneration facility.

(5) State credits shall not become available until one year after final cost verification by the department. [1982 1st ex.s. c 2 § 1; 1979 ex.s. c 191 § 5.]

82.41.010 Purpose. It is the purpose of this chapter to simplify the confusing, unnecessarily duplicative, and burdensome motor fuel use tax licensing, reporting, and remittance requirements imposed on motor carriers involved in interstate commerce by authorizing the state of Washington to participate in a multistate motor fuel tax agreement for the administration, collection, and enforcement of those states' motor fuel use taxes. [1982 c 161 § 1.]

82.41.020 Definitions. As used in this chapter unless the context clearly requires otherwise:

- (1) "Department" means the department of licensing;
- (2) "Motor fuel" means all combustible gases and liquids used for the generation of power for propulsion of motor vehicles;
- (3) "Motor carrier" means an individual, partnership, firm, association, or private or public corporation engaged in interstate commercial operation of motor vehicles, any part of which is within this state or any other state which is party to an agreement under this chapter;
- (4) "State" means a state, territory, or possession of the United States, the District of Columbia, a foreign country, or a state or province of a foreign country;
- (5) "Base state" means the state in which the motor carrier is legally domiciled, or in the case of a motor carrier who has no legal domicile, the state from or in which the motor carrier's vehicles are most frequently dispatched, garaged, serviced, maintained, operated, or otherwise controlled;
- (6) "Agreement" means a motor fuel tax agreement under this chapter;
- (7) "Licensee" means a motor carrier who has been issued a fuel tax license under a motor fuel tax agreement. [1982 c 161 § 2.]

82.41.030 Motor fuel tax cooperative agreement authorized—Prohibition. The department may enter into a motor fuel tax cooperative agreement with another state or states which provides for the administration, collection, and enforcement of each state's motor fuel taxes on motor fuel used by motor carriers. The agreement shall not contain any provision which exempts any motor vehicle, owner, or operator from complying with the laws, rules, and regulations pertaining to vehicle

licensing, size, weight, load, or operation of motor vehicles upon the public highways of this state. [1982 c 161 § 3.]

82.41.040 Determination of amount of tax collected on behalf of this state. The amount of the tax imposed and collected on behalf of this state under an agreement entered into under this chapter shall be determined as provided in chapters 82.37 and 82.38 RCW. [1982 c 161 § 4.]

82.41.050 Provisions of agreement. An agreement entered into under this chapter may provide for:

- (1) Defining the classes of motor vehicles upon which taxes are to be collected under the agreement;
- (2) Establishing methods for base state fuel tax licensing, license revocation, and tax collection from motor carriers on behalf of the states which are parties to the agreement;
- (3) Establishing procedures for the granting of credits or refunds on the purchase of excess tax-paid fuel;
- (4) Defining conditions and criteria relative to bonding requirements, including criteria for exemption from bonding;
- (5) Establishing tax reporting periods not to exceed one calendar quarter, and tax report due dates not to exceed one calendar month after the close of the reporting period;
- (6) Penalties and interest for filing of tax reports after the due dates prescribed by the agreement;
- (7) Establishing procedures for forwarding of fuel taxes, penalties, and interest collected on behalf of another state to that state;
- (8) Recordkeeping requirements for licensees; and
- (9) Any additional provisions which will facilitate the administration of the agreement. [1982 c 161 § 5.]

82.41.060 Credits—Refunds. Any licensee purchasing more tax-paid motor fuel in this state than the licensee uses in this state during the course of a reporting period shall be permitted a credit against future tax liability for the excess tax-paid fuel purchased. Upon request, this credit may be refunded to the licensee by the department in accordance with the agreement. [1982 c 161 § 6.]

82.41.070 Audits. The agreement may require the department to perform audits of licensees, or persons required to be licensed, based in this state to determine whether motor fuel taxes to be collected under the agreement have been properly reported and paid to each state party to the agreement. The agreement may authorize other states to perform audits on licensees, or persons required to be licensed, based in their states on behalf of the state of Washington and forward the audit findings to the department. Such findings may be served upon the licensee or such other person in the same manner as audits performed by the department.

The agreement shall not preclude the department from auditing the records of any person who has used motor fuels in this state. Any licensee or person required

to be licensed from whom the department has requested records shall make the records available at the location designated by the department or may request the department to audit such records at that licensee's or person's place of business. If the place of business is located outside this state, the department may require the licensee or such other person to reimburse the department for authorized per diem and travel expenses. [1982 c 161 § 7.]

82.41.080 Investigatory power. The department may initiate and conduct investigations as may be reasonably necessary to establish the existence of any alleged violations of or noncompliance with this chapter or any rules issued hereunder.

For the purpose of any investigation or proceeding under this chapter, the director or any officer designated by the director may administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, and require the production of any books, papers, correspondence, memoranda, agreements, or other documents or records which the director deems relevant or material to the inquiry.

In case of contumacy by or refusal to obey a subpoena issued to any person, any court of competent jurisdiction, upon application by the director, may issue to that person an order requiring him to appear before the director, or the officer designated by the director, to produce testimony or other evidence touching the matter under investigation or in question. The failure to obey an order of the court may be punishable by contempt. [1982 c 161 § 8.]

82.41.090 Appeal procedures. The agreement shall specify procedures by which a licensee may appeal a license revocation or audit assessment by the department. Such appeal procedures shall be in accordance with chapters 34.04 and 82.38 RCW. [1982 c 161 § 9.]

82.41.100 Exchange of information. The agreement may require each state to forward to other states any information available which relates to the acquisition, sale, use, or movement of motor fuels by any licensee or person required to be licensed. The department may further disclose to other states information which relates to the persons, offices, motor vehicles and other real and personal property of persons licensed or required to be licensed under the agreement. [1982 c 161 § 10.]

82.41.110 Construction and application. This chapter shall be applied and construed to effectuate its general purpose to make uniform the law with respect to the subject of this chapter among states enacting it for the purpose of participating in a multistate motor fuel tax agreement. [1982 c 161 § 11.]

82.41.120 Implementing rules required. The department shall adopt such rules as are necessary to implement this chapter and any agreement entered into under this chapter. [1982 c 161 § 12.]

82.42.020 Aircraft fuel tax imposed—Exception—Rate to be computed. There is hereby levied, and there shall be collected by every distributor of aircraft fuel, an excise tax at the rate computed under RCW 82.42.025 on each gallon of aircraft fuel sold, delivered or used in this state: *Provided however*, That such aircraft fuel excise tax shall not apply to fuel for aircraft that both operate from a private, non-state-funded airfield during at least ninety-five percent of the aircraft's normal use and are used principally for the application of pesticides, herbicides, or other agricultural chemicals: *Provided further*, That there shall be collected from every consumer or user of aircraft fuel either the use tax imposed by RCW 82.12.020, as amended, or the retail sales tax imposed by RCW 82.08.020, as amended, collection procedure to be as prescribed by law and/or rule or regulation of the department of revenue. 82.42.025 Computation of aircraft fuel tax rate. (1) During the fifth month of each fiscal half-year ending June 30th and December 31st of each year, the department of licensing shall compute an aircraft fuel tax rate to the nearest one-half cent per gallon of aircraft fuel by multiplying three percent times the weighted average retail sales price of aircraft fuel, per gallon, sold within the state in the third month of the fiscal half-year. The department shall determine the weighted average retail sales price of aircraft fuel by state-wide sampling and survey techniques designed to reflect these prices for the third month of the fiscal half-year. The department shall establish reasonable guidelines for its sampling and survey methods.

(2) The excise tax rate computed under subsection (1) of this section shall apply to the sale, distribution, or use of aircraft fuel beginning the fiscal half-year following computation of the rate and shall remain in effect for each succeeding fiscal half-year until a subsequent computation requires a change in the rate. For the first fiscal half-year after June 30, 1982, the aircraft fuel tax shall be five cents per gallon. [1982 1st ex.s. c 25 § 3.]

82.44.150 Apportionment and distribution of motor vehicle excise taxes generally (as amended by 1982 1st ex.s. c 35). (1) The director of licensing shall on the twenty-fifth day of February, May, August and November of each year, commencing with November, 1971, advise the state treasurer of the total amount of motor vehicle excise taxes remitted to the department of licensing during the preceding calendar quarter ending on the last day of March, June, September and December, respectively, except for those payable under RCW 82.44.020(5), 82.44.030, and 82.44.070, from motor vehicle owners residing within each municipality which has levied a tax under RCW 35.58.273, which amount of excise taxes shall be determined by the director as follows:

The total amount of motor vehicle excise taxes remitted to the department, except those payable under RCW 82.44.020(5), 82.44.030, and 82.44.070, from each county shall be multiplied by a fraction, the numerator of which is the population of the municipality residing in such county, and the denominator of which is the total population of the county in which such municipality or portion thereof is located. The product of this computation shall be the amount of excise taxes from motor vehicle owners residing within such municipality or portion thereof. Where the municipality levying a tax under RCW 35.58.273 is located in more than one county, the above computation shall be made by county, and the combined products shall provide the total amount of motor vehicle excise taxes from motor vehicle owners residing in the municipality as a whole. Population figures required for these computations shall be supplied to the director by the office of financial management, who shall adjust the fraction annually.

(2) On the first day of the months of January, April, July, and October of each year, the state treasurer based upon information provided by the department of licensing shall make the following apportionment and distribution of motor vehicle excise taxes deposited in the general fund except taxes collected under RCW 82.44.020(5). A sum equal to seventeen percent thereof shall be paid to cities and towns in the proportions and for the purposes hereinafter set forth; a sum equal to seventy percent of all motor vehicle excise tax receipts, except taxes collected under RCW 82.44.020(5), shall be allocable to the state school equalization fund and credited and transferred each year in the following order of priority:

(a) The amount required and certified by the state finance committee each year as being necessary for payment of principal of and interest on bonds authorized by RCW 28A.47.760 through 28A.47.774 in the ensuing twelve months and any additional amounts required by the covenants of such bonds shall be transferred from the state school equalization fund to the 1963 public school building bond retirement fund.

(b) Any remaining amounts in the state school equalization fund from the motor vehicle excise taxes not required for debt service on the above bond issues shall be transferred and credited to the general fund.

(3) The amount payable to cities and towns shall be apportioned among the several cities and towns within the state ratably, on the basis of the population as last determined by the office of financial management.

(4) When so apportioned, the amount payable to each such city and town shall be transmitted to the city treasurer thereof, and shall be utilized by such city or town for the purposes of police and fire protection and the preservation of the public health therein, and not otherwise. In case it be adjudged that revenue derived from the excise tax imposed by this chapter cannot lawfully be apportioned or distributed to cities or towns, all moneys directed by this section to be apportioned and distributed to cities and towns shall be credited and transferred to the state general fund.

(5) On the first day of the months of January, April, July, and October of each year, the state treasurer, based upon information provided by the department of licensing, shall remit motor vehicle excise tax revenues imposed and collected under RCW 35.58.273 as follows:

(a) The amount required to be remitted by the state treasurer to the treasurer of any municipality levying the tax shall not exceed in any calendar year the amount of locally-generated tax revenues, excluding the excise tax imposed under RCW 35.58.273 for the purposes of this

section, which shall have been budgeted by the municipality to be collected in such calendar year for any public transportation purposes including but not limited to operating costs, capital costs, and debt service on general obligation or revenue bonds issued for these purposes; and

(b) In no event may the amount remitted in a single calendar quarter exceed the amount collected on behalf of the municipality under RCW 35.58.273 during the calendar quarter next preceding the immediately preceding quarter.

(6) At the close of each calendar year accounting period, but not later than April 1, each municipality that has received motor vehicle excise taxes under subsection (5) of this section shall transmit to the director of licensing and the state auditor a written report showing by source the previous year's budgeted tax revenues for public transportation purposes as compared to actual collections. Any municipality that has not submitted the report by April 1 shall cease to be eligible to receive motor vehicle excise taxes under subsection (5) of this section until the report is received by the director of licensing. If a municipality has received more or less money under subsection (5) of this section for the period covered by the report than it is entitled to receive by reason of its locally-generated collected tax revenues, the director of licensing shall, during the next ensuing quarter that the municipality is eligible to receive motor vehicle excise tax funds, increase or decrease the amount to be remitted in an amount equal to the difference between the locally-generated budgeted tax revenues and the locally-generated collected tax revenues. In no event may the amount remitted for a calendar year exceed the amount collected on behalf of the municipality under RCW 35.58.273 during that same calendar year. At the time of the next fiscal audit of each municipality, the state auditor shall verify the accuracy of the report submitted and notify the director of licensing of any discrepancies.

(7) The motor vehicle excise taxes imposed under RCW 35.58.273 and required to be remitted under this section shall be remitted without legislative appropriation.

(8) Any municipality levying and collecting a tax under RCW 35.58.273 which does not have an operating, public transit system or a contract for public transportation services in effect within one year from the initial effective date of the tax shall return to the state treasurer all motor vehicle excise taxes received under subsection (5) of this section. Severability—Effective dates—1982 1st ex.s. c 35: See notes following RCW 82.08.020.

82.44.150 Apportionment and distribution of motor vehicle excise taxes generally (as amended by 1982 1st ex.s. c 49). (1) The director of licensing shall on the twenty-fifth day of February, May, August and November of each year, commencing with November, 1971, advise the state treasurer of the total amount of motor vehicle excise taxes remitted to the department of licensing during the preceding calendar quarter ending on the last day of March, June, September and December, respectively, except for those payable under RCW 82.44.030 and 82.44.070, from motor vehicle owners residing within each municipality which has levied a tax under RCW 35.58.273, which amount of excise taxes shall be determined by the director as follows:

The total amount of motor vehicle excise taxes remitted to the department, except those payable under RCW 82.44.030 and 82.44.070, from each county shall be multiplied by a fraction, the numerator of which is the population of the municipality residing in such county, and the denominator of which is the total population of the county in which such municipality or portion thereof is located. The product of this computation shall be the amount of excise taxes from motor vehicle owners residing within such municipality or portion thereof. Where the municipality levying a tax under RCW 35.58.273 is located in more than one county, the above computation shall be made by county, and the combined products shall provide the total amount of motor vehicle excise taxes from motor vehicle owners residing in the municipality as a whole. Population figures required for these computations shall be supplied to the director by the office of financial management, who shall adjust the fraction annually.

(2) On the first day of the months of January, April, July, and October of each year, the state treasurer based upon information provided

by the department of licensing shall make the following apportionment and distribution of motor vehicle excise taxes deposited in the general fund. A sum equal to seventeen percent thereof shall be paid to cities and towns in the proportions and for the purposes hereinafter set forth; a sum equal to two percent of all motor vehicle excise tax receipts shall be allocable to the county sales and use tax equalization account under RCW 82.14.200; and a sum equal to seventy percent of all motor vehicle excise tax receipts shall be allocable to the state school equalization fund and credited and transferred each year in the following order of priority:

(a) The amount required and certified by the state finance committee each year as being necessary for payment of principal of and interest on bonds authorized by RCW 28A.47.760 through 28A.47.774 in the ensuing twelve months and any additional amounts required by the covenants of such bonds shall be transferred from the state school equalization fund to the 1963 public school building bond retirement fund.

(b) Any remaining amounts in the state school equalization fund from the motor vehicle excise taxes not required for debt service on the above bond issues shall be transferred and credited to the general fund.

(3) The amount payable to cities and towns shall be apportioned among the several cities and towns within the state according to the following formula:

(a) Sixty-five percent of the sum specified in subsection (2) of this section to be paid to cities and towns shall be apportioned ratably on the basis of population as last determined by the office of financial management.

(b) Thirty-five percent of the sum specified in subsection (2) of this section to be paid to cities and towns shall be apportioned to cities and towns under RCW 82.14.210.

(4) When so apportioned, the amount payable to each such city and town shall be transmitted to the city treasurer thereof, and shall be utilized by such city or town for the purposes of police and fire protection and the preservation of the public health therein, and not otherwise. In case it be adjudged that revenue derived from the excise tax imposed by this chapter cannot lawfully be apportioned or distributed to cities or towns, all moneys directed by this section to be apportioned and distributed to cities and towns shall be credited and transferred to the state general fund.

(5) On the first day of the months of January, April, July, and October of each year, the state treasurer, based upon information provided by the department of licensing, shall remit motor vehicle excise tax revenues imposed and collected under RCW 35.58.273 as follows:

(a) The amount required to be remitted by the state treasurer to the treasurer of any municipality levying the tax shall not exceed in any calendar year the amount of locally-generated tax revenues, excluding the excise tax imposed under RCW 35.58.273 for the purposes of this section, which shall have been budgeted by the municipality to be collected in such calendar year for any public transportation purposes including but not limited to operating costs, capital costs, and debt service on general obligation or revenue bonds issued for these purposes; and

(b) In no event may the amount remitted in a single calendar quarter exceed the amount collected on behalf of the municipality under RCW 35.58.273 during the calendar quarter next preceding the immediately preceding quarter.

(6) At the close of each calendar year accounting period, but not later than April 1, each municipality that has received motor vehicle excise taxes under subsection (5) of this section shall transmit to the director of licensing and the state auditor a written report showing by source the previous year's budgeted tax revenues for public transportation purposes as compared to actual collections. Any municipality that has not submitted the report by April 1 shall cease to be eligible to receive motor vehicle excise taxes under subsection (5) of this section until the report is received by the director of licensing. If a municipality has received more or less money under subsection (5) of this section for the period covered by the report than it is entitled to receive by reason of its locally-generated collected tax revenues, the director of licensing shall, during the next ensuing quarter that the municipality is eligible to receive motor vehicle excise tax funds, increase or decrease the amount to be remitted in an amount equal to the difference between the locally-generated budgeted tax revenues and the locally-generated collected tax revenues. In no event may the amount remitted for a calendar year exceed the amount collected on behalf of the municipality under RCW 35.58.273 during that same calendar year. At the time of the next fiscal audit of each municipality, the state auditor

shall verify the accuracy of the report submitted and notify the director of licensing of any discrepancies.

(7) The motor vehicle excise taxes imposed under RCW 35.58.273 and required to be remitted under this section shall be remitted without legislative appropriation.

(8) Any municipality levying and collecting a tax under RCW 35.58.273 which does not have an operating, public transit system or a contract for public transportation services in effect within one year from the initial effective date of the tax shall return to the state treasurer all motor vehicle excise taxes received under subsection (5) of this section. (3) If the personal representative has obtained an extension of time for payment of the federal tax, the personal representative may elect to extend the time for payment of the tax due under this chapter in accordance with the extension. (b) The taxes due under this chapter have been paid as prescribed in RCW 83.100.050, and the request for a release includes the sworn statement of the personal representative that in fact all taxes due have been paid.

(2) The obtaining of this release shall give to the personal representative sufficient authority to effectuate the transfer of all property composing the decedent's estate. [1981 2nd ex.s. c 7 § 83.100.080 (Initiative Measure No. 402, approved November 3, 1981).]

83.100.090 Amended returns—Final determination. (1) If the personal representative files an amended federal return, the personal representative shall immediately file with the department an amended Washington report with a true copy of the amended federal return. 83.100.110 Sale of property to pay tax—Creation of lien. (1) A personal representative may sell so much of any property as is necessary to pay the taxes due under this chapter. A personal representative may sell so much of any property specifically bequeathed or devised as is necessary to pay the proportionate amount of the taxes due on the transfer of the property and the fees and expenses of the sale, unless the legatee or devisee

pays the personal representative the proportionate amount of the taxes due.

(2) Unless any tax due is sooner paid in full, it shall be a lien upon the gross estate of the decedent for a period of ten years from the date of death, except that such part of the gross estate as is used for the payment of charges against the estate and expenses of its administration, allowed by any court having jurisdiction thereof, shall be divested of the lien. Liens created under this subsection shall be qualified as follows:

(a) The limitation period, as described in this subsection, shall in each case be extended for a period of time equal to the period of pendency of litigation of questions affecting the determination of the amount of tax due, provided a lis pendens has been filed with the auditor of the county in which the property is located;

(b) Any part of the gross estate which is transferred to a bona fide purchaser shall be divested of the lien and the lien shall be transferred to the proceeds arising out of the transfer; and

(c) A mortgage on property pursuant to an order of court for payment of charges against the estate and expenses of administration shall constitute a lien upon the property prior and superior to the tax lien, which tax lien shall attach to the proceeds. [1981 2nd ex.s. c 7 § 83.100.110 (Initiative Measure No. 402, approved November 3, 1981).]

83.100.120 Liability for failure to pay tax before distribution or delivery. (1) Any personal representative who distributes any property without first paying, securing another's payment of, or furnishing security for payment of the taxes due under this chapter is personally liable for the taxes due to the extent of the value of any property that may come or may have come into the possession of the personal representative. Security for payment of the taxes due under this chapter shall be in an amount equal to or greater than the value of all property that is or has come into the possession of the personal representative, as of the time the security is furnished.

(2) Any person who has the control, custody, or possession of any property and who delivers any of the property to the personal representative or legal representative of the decedent outside Washington without first paying, securing another's payment of, or furnishing security for payment of the taxes due under this chapter is liable for the taxes due under this chapter to the extent of the value of the property delivered. Security for payment of the taxes due under this chapter shall be in an amount equal to or greater than the value of all property delivered to the personal representative or legal representative of the decedent outside Washington by such a person.

(3) For the purposes of this section, persons who do not have possession of a decedent's property include anyone not responsible primarily for paying the tax due under this section or their transferees, which includes but is not limited to mortgagees or pledgees, stockbrokers or stock transfer agents, banks and other depositories of checking and savings accounts, safe-deposit companies, and life insurance companies.

(4) For the purposes of this section, any person who has the control, custody, or possession of any property and who delivers any of the property to the personal representative or legal representative of the decedent may rely upon the release certificate or the release of nonliability certificate, furnished by the department to the personal representative, as evidence of compliance with the requirements of this chapter, and make such deliveries and transfers as the personal representative may direct without being liable for any taxes due under this chapter. [1981 2nd ex.s. c 7 § 83.100.120 (Initiative Measure No. 402, approved November 3, 1981).]

83.100.130 Refund for overpayment. Whenever it is determined that a personal representative has overpaid the tax due under this chapter, the department may refund the amount of the overpayment, together with interest at the then existing statutory rate of interest. No claim for refund may be initiated more than one year after the date the federal tax has been first paid. [1981 2nd ex.s. c 7 § 83.100.130 (Initiative Measure No. 402, approved November 3, 1981).]

83.100.140 Criminal acts relating to estate tax returns. Any person who wilfully fails to file a Washington estate tax return when required by this chapter or who wilfully files a false return commits a gross misdemeanor as defined in chapter [Title] 9A RCW and shall be punished as provided in Title 9A RCW for the perpetration of a gross misdemeanor. [1981 2nd ex.s. c 7 § 83.100.140 (Initiative Measure No. 402, approved November 3, 1981).]

83.100.150 Administration by department—Action for collection of tax—Appeal. (1) The department may collect the tax provided for in this chapter, including applicable interest and penalties, and shall represent this state in all matters pertaining to the same, either before courts or in any other manner. The department, through the attorney general, may institute proceedings for the collection of this tax and any interest and penalties on the tax. The superior court for any county which has assumed lawful jurisdiction over the property of the decedent for general probate or administration purposes under the laws of Washington shall have jurisdiction to hear and determine all questions in relation to the tax arising under the provisions of this chapter. If no probate or administration proceedings have been taken out in any court of this state, the superior court for the county in which the decedent was a resident, if the decedent was a domiciliary, or, if the decedent was a non-domiciliary, any court which has sufficient jurisdiction over the property of the decedent, the transfer of which is taxable, to issue probate or administration proceedings thereon, had the same been justified by the legal status of the property or had the same been applied for, shall have jurisdiction. Any such court first acquiring jurisdiction shall retain the same to the exclusion of every other.

(2) Nothing in this chapter denies the right of appellate review as provided by law and the Washington appellate rules. [1981 2nd ex.s. c 7 § 83.100.150 (Initiative Measure No. 402, approved November 3, 1981).]

84.08.060 Additional powers—Power over county boards of equalization—Reconvening—Limitation on increase in property value in appeals to board of tax appeals from county board of equalization. The department of revenue shall have power to direct and to order any county board of equalization to raise or lower the valuation of any taxable property, or to add any property to the assessment list, or to perform or complete any other duty required by statute. The department of revenue may require any such board of equalization to reconvene after its adjournment for the purpose of performing any order or requirement made by the department of revenue and may make such orders as it shall determine to be just and necessary. The department may require any county board of equalization to reconvene at any time for the purpose of performing or completing any duty or taking any action it might lawfully have performed or taken at any of its previous regular July, November or April meetings. If such board of equalization shall fail or refuse forthwith to comply with any such order or requirement of the department of revenue, the department of revenue shall have power to take any other appropriate action, or to make such correction or change in the assessment list, and such corrections and changes shall be a part of the record of the proceedings of the said board of equalization: *Provided*, That in all cases where the department of revenue shall raise the valuation of any property or add property to the assessment list, it shall give notice either for the same time and in the same manner as is now required in like cases of county boards of equalization, or if it shall deem such method of giving notice impracticable it shall give notice by publication thereof in a newspaper of general circulation within the county in which the property affected is situated once each week for two consecutive weeks, and the department of revenue shall not proceed to raise such valuation or add such property to the assessment list until a period of five days shall have elapsed subsequent to the date of the last publication of such notice: *Provided further*, That appeals to the board of tax appeals by any taxpayer or taxing unit concerning any action of the county board of equalization shall not raise the valuation of the property to an amount greater than the larger of either the valuation of the property by the county assessor or the valuation of the property assigned by the county board of equalization. Such notice shall give the legal description of each tract of land involved, or a general description in case of personal property; the tax record-owner thereof; the assessed value thereof determined by the county board of equalization in case the property is on the assessment roll; and the assessed value thereof as determined by the department of revenue and shall state that the department of revenue proposes to increase the assessed valuation of such property to the amount stated and to add such property to the assessment list at the assessed valuation stated. (2) For purposes of this section:

(3) The department of revenue shall designate areas containing timber having similar growing, harvesting and marketing conditions to be used as units for the preparation and application of stumpage values. Each year on or before December 31 for use the following January through June 30, and on or before June 30 for use the following July through December 31, the department shall prepare tables of stumpage values of each species or subclassification of timber within such units, which values shall be the amount that each such species or subclassification would sell for at a voluntary sale made in the ordinary course of business for purposes of immediate harvest. Such stumpage values, expressed in terms of a dollar amount per thousand board feet or other unit measure, shall be determined from (a) gross proceeds from sales on the stump of similar timber of like quality and character at similar locations, and in similar quantities, or from (b) gross proceeds from sales of logs adjusted to reflect only the portion of such proceeds attributable to value on the stump immediately prior to harvest, or from a combination of (a) and (b), and shall be determined in a manner which makes reasonable and adequate allowances for age, size, quality, costs of removal, accessibility to point of conversion, market conditions and all other relevant factors. Upon application from any person who plans to harvest damaged timber, the stumpage values for which have been materially reduced from the values shown in the applicable tables due to damage resulting from fire, blow down, ice storm, flood or other sudden unforeseen cause, the department shall revise such tables for any area in which such timber is located and shall specify any additional accounting or other requirements to be complied with in reporting and paying such tax. The preliminary area designations and stumpage value tables and any revisions thereof shall be subject to review by the ways and means committees of the house and senate prior to finalization. Tables of stumpage values shall be signed by the director or his designee and authenticated by the official seal of the department. A copy thereof shall be mailed to anyone who has submitted to the department a written request therefor.

(4) On or before the sixtieth day after the date of final adoption of any stumpage value tables, any harvester may appeal to the board of tax appeals for a revision of stumpage values for an area determined pursuant to subsection (3) of this section.

(5) There are hereby created in the state treasury a state timber tax account A and a state timber tax reserve account in the state general fund and any interest

earned on the investment of cash balances shall be deposited in these accounts. The revenues from the tax imposed by subsection (1) of this section on timber harvested from privately owned land shall be deposited in state timber tax account A and state timber tax reserve account as follows:

<i>Year of Collection</i>	<i>ACCOUNT A</i>	<i>RESERVE ACCOUNT</i>
1973 and thereafter	100%	0%

The revenues from the tax imposed by subsection (1) of this section on timber harvested from publicly owned land shall be deposited in the state general fund.

(6) The tax imposed under this section shall be computed with respect to timber harvested each calendar quarter and shall be due and payable in quarterly installments and remittance therefor shall be made on or before the last day of the month next succeeding the end of the quarterly period in which the tax accrued. The taxpayer on or before such date shall make out a return, upon such forms and setting forth such information as the department of revenue may require, showing the amount of the tax for which he is liable for the preceding quarterly period, and shall sign and transmit the same to the department of revenue, together with a remittance for such amount.

(7) The taxes imposed by this section shall be in addition to any taxes imposed upon the same persons pursuant to one or more of sections RCW 82.04.230 to 82.04.290, inclusive, and RCW 82.04.440, and none of such sections shall be construed to modify or interact with this section in any way, except RCW 82.04.450 and 82.32.045 shall not apply to the taxes imposed by this section.

(8) Any harvester incurring less than ten dollars tax liability under this section in any calendar quarter shall be excused from the payment of such tax, but may be required by the department of revenue to file a return even though no tax may be due. Effective date—Applicability—1982 2nd ex.s. c 4: See note following RCW 84.33.030.

Purpose—1981 c 148: "(1) One of the purposes of this act is to establish the values for ad valorem tax purposes of bare forest land which is primarily devoted to and used for growing and harvesting timber without consideration of other potential uses of the land and to provide a procedure for adjusting the values in future years to reflect economic changes which may affect the value established in this act.

(2) Chapter 294, Laws of 1971 ex. sess., as originally enacted, required the department of revenue annually to analyze forest land transactions to ascertain the market value of bare forest land purchased and used exclusively for growing and harvesting timber. Most transactions involving forest land include mature and immature timber with no segregation by the parties between the amounts paid for timber and bare land. The examination of these transactions by the department to ascertain the prices being paid for only the bare land has proven to be very difficult, time consuming, and subject to recurring legal challenge. Samples are small in relation to the total acreage of forest land involved and the administrative time and costs required for the annual analyses are excessive in relation to the changes from year to year which have been observed in the value of bare forest land. This

act eliminates most of these administrative costs by establishing the current bare forest land values and by providing a procedure for periodic adjustment of the values which does not require continuing and costly analysis of the numerous forest land transactions throughout the state." [1981 c 148 § 11.] "This act" consists of the 1981 c 148 amendments to RCW 84.33.071, 84.33.050, 84.33.090, 84.33.110, 84.33.115, 84.33.116, 84.33.120, 84.33.130, 84.33.140, 84.34.060, 82.32-.010, and 1980 c 154 § 14 (uncodified); the repeal of RCW 84.33.111, 84.33.117, and 84.33.150; and this quoted section.

Severability—1981 c 148: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1981 c 148 § 15.]

Effective dates—1981 c 148: "This act is necessary for the immediate preservation of the public peace, health, and safety, the support of the state government and its existing public institutions, and shall take effect immediately [May 14, 1981], except for section 13 of this act which shall take effect September 1, 1981." [1981 c 148 § 16.] "Section 13 of this act" is an amendment to 1980 c 154 § 14 (uncodified) and is noted following RCW 82.45.010.

Retrospective application of tax rate: "The tax rate provided in RCW 82.04.291 applies retrospectively to January 1, 1979." [1979 c 6 § 6.] RCW 82.04.291 was recodified as RCW 84.33.071 by 1979 c 6 § 1.

Severability—1974 ex.s. c 187: "If any provision of this 1974 amendatory act, or its application to any person or circumstance is held invalid, the remainder of the act, or the application of the provision to other persons or circumstances is not affected." [1974 ex.s. c 187 § 20.]

84.33.073 Definitions. As used in RCW 84.33.073 and 84.33.074, the following terms have the meanings indicated unless the context clearly requires otherwise.

(1) "Small harvester" means every person who from his own land or from the land of another under a right or license granted by lease or contract, either directly or by contracting with others for the necessary labor or mechanical services, fells, cuts, or takes timber for sale or for commercial or industrial use in an amount not exceeding five hundred thousand board feet in a calendar quarter and not exceeding one million board feet in a calendar year. It does not include persons performing under contract the necessary labor or mechanical services for a harvester, and it does not include harvesters of forest products classified by the department of revenue as special forest products including Christmas trees, posts, shake boards and bolts, and shingle blocks.

(2) "Timber" means forest trees, standing or down, on privately or publicly owned land.

(3) "Harvesting and marketing costs" means only those costs directly associated with harvesting the timber from the land and delivering it to the buyer and may include the costs of disposing of logging residues but it does not include any other costs which are not directly and exclusively related to harvesting and marketing of the timber such as costs of permanent roads or costs of reforesting the land following harvest. [1982 2nd ex.s. c 4 § 3; 1981 c 146 § 1.]

Effective date—Applicability—1982 2nd ex.s. c 4: See note following RCW 84.33.030.

Effective date—1981 c 146: "This act shall take effect January 1, 1982." [1981 c 146 § 3.]

Severability—1981 c 146: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1981 c 146 § 4.]

84.40.040	Time and manner of listing.

84.40.025 Access to property required. For the purpose of assessment and valuation of all taxable property in each county, any real or personal property in each county shall be subject to visitation, investigation, examination, discovery, and listing at any reasonable time by the county assessor of the county or by any employee thereof designated for this purpose by the assessor.

In any case of refusal to such access, the assessor shall request assistance from the department of revenue which may invoke the power granted by chapter 84.08 RCW. [1982 1st ex.s. c 46 § 10.]

84.40.040 Time and manner of listing. The assessor shall begin the preliminary work for each assessment not later than the first day of December of each year in all counties in the state. He shall also complete the duties of listing and placing valuations on all property by May 31st of each year, except that the listing and valuation of construction under RCW 36.21.040 through 36.21.080 shall be completed by August 31st of each year, and in the following manner, to wit:

He shall actually determine as nearly as practicable the true and fair value of each tract or lot of land listed for taxation and of each improvement located thereon and shall enter one hundred percent of the value of such land and of the total value of such improvements, together with the total of such one hundred percent valuations, opposite each description of property on his assessment list and tax roll.

He shall make an alphabetical list of the names of all persons in his county liable to assessment of personal property, and require each person to make a correct list and statement of such property according to the standard form prescribed by the department of revenue, which statement and list shall include, if required by the form, the year of acquisition and total original cost of personal property in each category of the prescribed form, and shall be signed and verified under penalty of perjury by the person listing the property. Such list and statement shall be filed on or before the last day of March, but the assessor, upon written request filed on or before such date and for good cause shown therein, shall allow a reasonable extension of time for filing. The assessor shall on or before the 1st day of January of each year mail a notice to all such persons at their last known address that such statement and list is required, such notice to be accompanied by the form on which the statement or list is to be made: *Provided*, That the notice mailed by the assessor to each taxpayer each year shall, if practicable, include the statement and list of personal property of the taxpayer for the preceding year. Upon receipt of such statement and list the assessor shall thereupon determine the true and fair value of the property included in such statement and enter one hundred

percent of the same in the assessment books opposite the name of the party assessed; and in making such entry in his assessment list, he shall give the name and post office address of the party listing the property, and if the party resides in a city the assessor shall give the street and number or other brief description of his residence or place of business. The assessor may, after giving written notice of his action to the person to be assessed, add to the assessment list any taxable property which, in his judgment, should be included in such list. 84.41.041 Physical inspection and valuation of taxable property required—Adjustments during intervals based on statistical data. Each county assessor shall cause taxable real property to be physically inspected and valued at least once every six years in accordance with RCW 84.41.030, and in accordance with a plan filed with and approved by the department of revenue. Such revaluation plan shall provide that a reasonable portion of all taxable real property within a county shall be revalued and these newly-determined values placed on the assessment rolls each year. If the revaluation plan provides for physical inspection at least once each four

years, during the intervals between each physical inspection of real property, the valuation of such property may be adjusted to its current true and fair value, such adjustments to be based upon appropriate statistical data. If the revaluation plan provides for physical inspection less frequently than once each four years, during the intervals between each physical inspection of real property, the valuation of such property shall be adjusted to its current true and fair value, such adjustments to be made once each year and to be based upon appropriate statistical data.

The assessor may require property owners to submit pertinent data respecting taxable property in their control including data respecting any sale or purchase of said property within the past five years, the cost and characteristics of any improvement on the property and other facts necessary for appraisal of the property. 84.48.075 County indicated ratio—Determination by department—Submission of preliminary ratio to assessor—Rules—Use classes—Review of preliminary ratio—Certification—Examination of assessment procedures—Adjustment of ratio. (1) The department of revenue shall annually, prior to the first Monday in August, determine and submit to each assessor a preliminary indicated ratio for each county: *Provided*, That the department shall establish rules and

regulations pertinent to the determination of the indicated ratio, the indicated real property ratio and the indicated personal property ratio: *Provided further*, That these rules and regulations may provide that data, as is necessary for said determination, which is available from the county assessor of any county and which has been audited as to its validity by the department, shall be utilized by the department in determining the indicated ratio.

(2) To such extent as is reasonable, the department may define use classes of property for the purposes of determination of the indicated ratio. Such use classes may be defined with respect to property use and may include agricultural, open space, timber and forest lands.

(3) The department shall review each county's preliminary ratio with the assessor, a landowner, or an owner of an intercounty public utility or private car company of that county, if requested by the assessor, a landowner, or an owner of an intercounty public utility or private car company of that county, respectively, between the first and third Mondays of August. Prior to equalization of assessments pursuant to RCW 84.48.080 and after the third Monday of August, the department shall certify to each county assessor the real and personal property ratio for that county.

(4) The department of revenue shall also examine procedures used by the assessor to assess real and personal property in the county, including calculations, use of prescribed value schedules, and efforts to locate all taxable property in the county. If any examination by the department discloses other than market value is being listed on the county assessment rolls of the county by the assessor and, after due notification by the department, is not corrected, the department of revenue shall, in accordance with rules adopted by the department, adjust the ratio of that type of property, which adjustment shall be used for determining the county's indicated ratio. [1982 1st ex.s. c 46 § 7; 1977 ex.s. c 284 § 3.]

Purpose—Intent—1977 ex.s. c 284: "It is the intent of the legislature that the methodology used in the equalization of property values for the purposes of the state levy, public utility assessment, and other purposes, shall be designed to ensure uniformity and equity in taxation throughout the state to the maximum extent possible.

It is the purpose of this 1977 amendatory act to provide certain guidelines for the determination of the ratio of assessed value to the full true and fair value of the general property in each county." [1977 ex.s. c 284 § 1.] "This 1977 amendatory act" consists of the enactment of RCW 84.48.075 and this quoted section and of the 1977 ex.s. c 284 amendment to RCW 82.03.130.

84.48.080 Equalization of assessments—Taxes for state purposes—Procedure—Levy and apportionment—Record. Annually during the month of August, the department of revenue shall examine and compare the returns of the assessment of the property in the several counties of the state, and the assessment of the property of railroad and other companies assessed by the department, and proceed to equalize the same, so that each county in the state shall pay its due and just proportion of the taxes for state purposes for such assessment year, according to the ratio the valuation of the property in each county bears to the total valuation of all property in the state.

[1982 RCW Supp—page 678]

First. The department shall classify all property, real and personal, and shall raise and lower the valuation of any class of property in any county to a value that shall be equal, so far as possible, to the true and fair value of such class as of January 1st of the current year for the purpose of ascertaining the just amount of tax due from each county for state purposes. Such classification may be on the basis of types of property, geographical areas, or both.

Second. The department shall keep a full record of its proceedings and the same shall be published annually by the department.

The department shall levy the state taxes authorized by law: *Provided*, That the amount levied in any one year for general state purposes shall not exceed the lawful dollar rate on the dollar of the assessed value of the property of the entire state, which assessed value shall be one hundred percent of the true and fair value of such property in money. The department shall apportion the amount of tax for state purposes levied by the department, among the several counties, in proportion to the valuation of the taxable property of the county for the year as equalized by the department: *Provided*, That for purposes of this apportionment, the department shall recompute the previous year's levy and the apportionment thereof to correct for changes and errors in taxable values reported to the department after October 1 of the preceding year and shall adjust the apportioned amount of the current year's state levy for each county by the difference between the apportioned amounts established by the original and revised levy computations for the previous year. For purposes of this section, changes in taxable values mean a final adjustment made by a county board of equalization, the state board of tax appeals, or a court of competent jurisdiction and shall include additions of omitted property, other additions or deletions from the assessment or tax rolls, or a change in the indicated ratio of a county. Errors in taxable values mean errors corrected by a final reviewing body.

The department shall have authority to adopt rules and regulations to enforce obedience to its orders in all matters in relation to the returns of county assessments, the equalization of values, and the apportionment of the state levy by the department.

After the completion of the duties hereinabove prescribed, the director of the department shall certify the record of the proceedings of the department under this section, the tax levies made for state purposes and the apportionment thereof among the counties, and the certification shall be available for public inspection. All assessments on said roll shall become delinquent on the first day of May following the filing of the roll unless the assessments are paid on or before the thirtieth day of April of said year: *Provided*, That if an assessment is ten dollars or more for said year and if one-half of the assessment is paid on or before the thirtieth day of April, the remainder shall be due and payable on or before the thirty-first day of October following and shall be delinquent after that date. All delinquent assessments shall bear interest at the rate of twelve percent per annum computed on a monthly basis from the date of delinquency until paid.

It shall be the duty of the treasurer of the district to furnish upon request of the owner, or any person interested, a statement showing any and all assessments levied as shown by the assessment roll in his office upon land described in such request. SHORELINE MANAGEMENT ACT OF 1971

90.58.500 Exemption from this chapter for emergency recovery operations from Mt. St. Helens eruption authorized—Expiration of section.

90.58.020 Legislative findings—State policy enunciated—Use preference. The legislature finds that the shorelines of the state are among the most valuable and fragile of its natural resources and that there is great concern throughout the state relating to their utilization, protection, restoration, and preservation. In addition it finds that ever increasing pressures of additional uses are being placed on the shorelines necessitating increased coordination in the management and development of the shorelines of the state. The legislature further finds that much of the shorelines of the state and the uplands adjacent thereto are in private ownership; that unrestricted construction on the privately owned or publicly owned shorelines of the state is not in the best public interest; and therefore, coordinated planning is necessary in order to protect the public interest associated with the shorelines of the state while, at the same time, recognizing and protecting private property rights consistent with the public interest. There is, therefore, a clear and urgent demand for a planned, rational, and concerted effort, jointly performed by federal, state, and local governments, to prevent the inherent harm in an uncoordinated and piecemeal development of the state's shorelines.

It is the policy of the state to provide for the management of the shorelines of the state by planning for and fostering all reasonable and appropriate uses. This policy is designed to insure the development of these shorelines in a manner which, while allowing for limited reduction of rights of the public in the navigable waters, will promote and enhance the public interest. This policy contemplates protecting against adverse effects to the public health, the land and its vegetation and wildlife, and the waters of the state and their aquatic life, while protecting generally public rights of navigation and corollary rights incidental thereto.

The legislature declares that the interest of all of the people shall be paramount in the management of shorelines of state-wide significance. The department, in adopting guidelines for shorelines of state-wide significance, and local government, in developing master programs for shorelines of state-wide significance, shall give preference to uses in the following order of preference which:

- (1) Recognize and protect the state-wide interest over local interest;
- (2) Preserve the natural character of the shoreline;
- (3) Result in long term over short term benefit;
- (4) Protect the resources and ecology of the shoreline;
- (5) Increase public access to publicly owned areas of the shorelines;
- (6) Increase recreational opportunities for the public in the shoreline;
- (7) Provide for any other element as defined in RCW 90.58.100 deemed appropriate or necessary.

In the implementation of this policy the public's opportunity to enjoy the physical and aesthetic qualities of natural shorelines of the state shall be preserved to the greatest extent feasible consistent with the overall best interest of the state and the people generally. To this end uses shall be preferred which are consistent with control of pollution and prevention of damage to the natural environment, or are unique to or dependent upon use of the state's shoreline. Alterations of the natural condition of the shorelines of the state, in those limited instances when authorized, shall be given priority for single family residences, ports, shoreline recreational uses including but not limited to parks, marinas, piers, and other improvements facilitating public access to shorelines of the state, industrial and commercial developments which are particularly dependent on their location on or use of the shorelines of the state and other development that will provide an opportunity for substantial numbers of the people to enjoy the shorelines of the state. Alterations of the natural condition of the shorelines and wetlands of the state shall be recognized by the department. Shorelines and wetlands of the state shall be appropriately classified and these classifications shall be revised when circumstances warrant regardless of whether the change in circumstances occurs through man-made causes or natural causes. Any areas resulting from alterations of the natural condition of the shorelines and wetlands of the state no longer meeting the definition of "shorelines of the state" shall not be subject to the provisions of chapter 90.58 RCW.

Permitted uses in the shorelines of the state shall be designed and conducted in a manner to minimize, insofar as practical, any resultant damage to the ecology and environment of the shoreline area and any interference with the public's use of the water. [1982 1st ex.s. c 13 § 1; 1971 ex.s. c 286 § 2.]

- (c) "Shorelines of the state" are the total of all "shorelines" and "shorelines of state-wide significance" within the state;

- (d) "Shorelines" means all of the water areas of the state, including reservoirs, and their associated wetlands, together with the lands underlying them; except (i) shorelines of state-wide significance; (ii) shorelines on segments of streams upstream of a point where the mean annual flow is twenty cubic feet per second or less and the wetlands associated with such upstream segments; and (iii) shorelines on lakes less than twenty acres in size and wetlands associated with such small lakes;

(iv) Those lakes, whether natural, artificial, or a combination thereof, with a surface acreage of one thousand acres or more measured at the ordinary high water mark;

(v) Those natural rivers or segments thereof as follows:

(A) Any west of the crest of the Cascade range downstream of a point where the mean annual flow is measured at one thousand cubic feet per second or more,

(B) Any east of the crest of the Cascade range downstream of a point where the annual flow is measured at two hundred cubic feet per second or more, or those portions of rivers east of the crest of the Cascade range downstream from the first three hundred square miles of drainage area, whichever is longer;

(vi) Those wetlands associated with (i), (ii), (iv), and (v) of this subsection (2)(e);

(f) "Wetlands" or "wetland areas" means those lands extending landward for two hundred feet in all directions as measured on a horizontal plane from the ordinary high water mark; floodways and contiguous floodplain areas landward two hundred feet from such floodways; and all marshes, bogs, swamps, and river deltas associated with the streams, lakes, and tidal waters which are subject to the provisions of this chapter; the same to be designated as to location by the department of ecology: *Provided*, That any county or city may determine that portion of a one-hundred-year-flood plain to be included in its master program as long as such portion includes, as a minimum, the floodway and the adjacent land extending landward two hundred feet therefrom;

(g) "Floodway" means those portions of the area of a river valley lying streamward from the outer limits of a watercourse upon which flood waters are carried during periods of flooding that occur with reasonable regularity, although not necessarily annually, said floodway being identified, under normal condition, by changes in surface soil conditions or changes in types or quality of vegetative ground cover condition. The floodway shall not include those lands that can reasonably be expected to be protected from flood waters by flood control devices maintained by or maintained under license from the federal government, the state, or a political subdivision of the state.

(3) Procedural terms:

(a) "Guidelines" means those standards adopted to implement the policy of this chapter for regulation of use of the shorelines of the state prior to adoption of master programs. Such standards shall also provide criteria to local governments and the department in developing master programs;

ENVIRONMENTAL COORDINATION PROCEDURES ACT

Sections

90.62.010	Legislative finding—Purposes.
90.62.060	Public hearing—Procedure—Agency participation—Final decisions.

90.62.010 Legislative finding—Purposes. (1) It is the sense of the legislature that the heavy burdens placed upon persons proposing to undertake certain types of projects in this state through requirements to obtain numerous permits and related documents from various state and local agencies are undesirable and should be alleviated. The legislature further finds that present methods for obtaining public views in relation to applications to state and local agencies pertaining to

these projects are cumbersome and place undue hardships on members of the public thereby thwarting the public's ability to present such views.

(2) The purposes of this chapter are to:

(a) Provide for an optional procedure to assist those who, in the course of satisfying the requirements of state and local government prior to undertaking a project which contemplates the use of the state's air, land, or water resources, must obtain a number of permits, by establishing a mechanism in state government which will coordinate administrative decision-making procedures, and related quasi judicial and judicial review, pertaining to such documents.

(b) Provide to members of the public a better and easier opportunity to present their views comprehensively on proposed uses of natural resource and related environmental matters prior to the making of decisions on such uses by state or local agencies.

(c) Provide to members of the public who desire to carry out the aforementioned projects within the state of Washington a greater degree of certainty in terms of permit requirements of state and local government and when final decisions about the permits would be made.

(d) Provide better coordination and understanding between state and local agencies in the administration of the various programs relating to air, water, and land resources.

(e) Establish the opportunity for members of the public to obtain information pertaining to requirements of federal and state law which must be satisfied prior to undertaking a project in the state. [1982 c 179 § 1; 1977 c 54 § 1; 1973 1st ex.s. c 185 § 1.]

90.62.060 Public hearing—Procedure—Agency participation—Final decisions. (1) Except as provided in RCW 90.62.050(2), prior to any final decision on any permit applications relating to a project subject to the procedures of this chapter, a public hearing shall be held in the county in which all or a major part of the proposed project is to be constructed or operated, such hearing to be held pursuant to notice made under RCW 90.62.050(1). At any such hearing the applicant may submit any relevant information and material in support of his applications, and members of the public may present relevant views and supporting materials in relation to any or all of the applications being considered.

(2) Each agency having an application for a permit before it as described in the notice in RCW 90.62.050(1) shall be represented at the public hearing by its chief administrative officer or his designee. The director of the department, or a hearing officer duly appointed by him, shall chair the hearing; however, the representative of any agency (other than the department) within whose jurisdiction a specific application lies shall conduct the portion of the hearing pertaining to submission of information, views, and supporting materials which are relevant to that application. The chairman may, when appropriate, continue a hearing from time to time and place to place. The hearing shall be recorded in any manner suitable for transcription as determined by the department.

(3) No provisions of chapter 34.04 RCW shall apply to the hearing provided for by this section. Said hearing shall be conducted for the purpose of obtaining information for the assistance of the agencies but shall not be considered a trial or adversary proceeding.

(4) Upon completion of the public hearing the chairman, after consultation with the agency representatives, shall establish the date by which all agencies shall forward their final decisions on applications before them to the department: *Provided*, That this date shall not be more than one hundred twenty days after completion of the public hearing, unless the chairman and the applicant mutually agree upon a later date: *Provided further*, That subsequent to the hearing the chairman and the applicant may agree, prior to the expiration of the one-hundred twenty day period or the agreed upon later date, that the date for agencies to forward their final decisions may be extended. If such agreement is reached, the affected agencies shall be notified in writing by the chairman. Failure of an agency to forward a decision by the established date constitutes unconditional approval by that agency of the application. Every final decision shall set forth the basis for the conclusion reached together with a final order denying the application for a permit or granting it, subject to such conditions of approval as the deciding agency may have power to impose.

(5) In situations where a notice is provided pursuant to RCW 90.62.050(2) and no public hearing is conducted, the department shall, after twenty days after the last notice publication in the newspaper, submit a copy of all views and supporting material received by it to each agency having an application for a permit before it as described in the notice. Concurrently therewith, the department shall notify each agency, in writing, of the date by which final decisions on applications shall be forwarded to the department: *Provided*, That this date shall not be more than one hundred fifty days after the last required publication of notice in the newspaper unless the department and the applicant mutually agree upon a later date: *Provided further*, That subsequent to the last required publication, the chairman and the applicant may agree, prior to the expiration of the one-hundred fifty day period or the agreed upon later date, that the date for agencies to forward their final decisions may be extended. If such agreement is reached, the affected agencies shall be notified in writing by the chairman. Failure of an agency to forward a decision by the established date shall constitute unconditional approval by that agency of the application. Each such final decision shall consist of the same contents as provided for final decisions in RCW 90.62.060(4).

(6) As soon as all final decisions are received by the department from the various participating agencies, as provided in RCW 90.62.060(4) and (5), the department shall incorporate them, without modification, into one document and transmit the same to the applicant either personally or by registered mail.

(7) Each agency having jurisdiction to approve or deny an application for a permit shall have continuing power as vested in it prior to enactment of this chapter

to make such determinations. Nothing in RCW 90.62-.030 through 90.62.060 shall lessen or reduce such powers, and such sections shall modify only the procedures to be followed in the carrying out of such powers.

(8) An agency may in the performance of its responsibilities of decision making under this chapter, request or receive additional information from an applicant and others prior or subsequent to a public hearing as necessary to the performance thereof. [1982 c 179 § 2; 1977 c 54 § 5; 1973 1st ex.s. c 185 § 6.]
