RCW 43.136.010 Legislative findings--Intent.
The legislature recognizes that tax preferences are enacted by the legislature to meet objectives which are determined to be in the public interest. The legislature finds, however, that some tax preferences may not be efficient or equitable tools for the achievement of current
legislative objectives. The legislature finds that unless it can be demonstrated that the public interest is served by the continued existence of tax preferences, they should be terminated or modified. The legislature further finds that periodic evaluations of tax preferences are needed to determine if their continued existence is in the public interest.

It is the intent of the legislature to establish a mechanism for scheduling periodic evaluations of tax preferences together with a system for their termination, continuation, or modification. By this mechanism, the legislature intends to ensure that thorough periodic evaluations are made and that those tax preferences which do not continue to serve the public interest are terminated or modified.

The *legislative budget committee shall review each tax preference for termination by the processes provided in this chapter. The review shall be completed and a report prepared on or before June 30th of the year prior to the date established for termination. Upon completion of its report, the *legislative budget committee shall transmit copies of the report to the department of revenue. Upon completion of its report the department of revenue shall transmit copies of its report to the *legislative budget committee. The *legislative budget committee shall prepare a final report that includes the reports of both the department of revenue and the *legislative budget committee. The *legislative budget committee and the department of revenue shall, upon request, make available to each other all working papers, studies, and other documents which relate to reports required under this section. The *legislative budget committee shall transmit the final report to all members of the legislature, to the governor, and to the state library.

In reviewing a tax preference, the *legislative budget committee shall develop information needed by the legislature to determine if the tax preference should be terminated as scheduled, modified, or reestablished without modification. The *legislative budget committee shall consider, but not be limited to, the following factors in the review.

(1) The persons or organizations whose state tax liabilities are directly affected by the tax preference.

(2) Legislative objectives that might provide a justification for the tax preference.

(3) Evidence that the existence of the tax preference has contributed to the achievement of any of the objectives identified in subsection (2) of this section.

(4) The extent to which continuation of the tax preference beyond its scheduled termination date might contribute to any of the objectives identified in subsection (2) of this section.

(5) Fiscal impacts of the tax preference, including past impacts and expected future impacts if it is not terminated as scheduled.

(6) The extent to which termination of the tax preference would affect the distribution of liability for payment of state taxes.

(2) Following the joint hearing, the committees may separately hold additional meetings or hearings to come to a final determination as to whether a continuation, modification, or termination of a tax preference is in the public interest. If a committee determines that a tax preference should be continued or modified, it shall make the determination as a bill. No more
than one tax preference shall be reestablished or modified in any one bill.

pursuant to the Geothermal Steam Act of 1970 (30 U.S.C. Sec. 1001 et. seq.) in order to accomplish the following general objectives:

1. Reduction of dependence on nonrenewable energy and stimulation of the state's economy through development of geothermal energy.
2. Mitigation of the social, economic, and environmental impacts of geothermal development.
3. Financial assistance to counties to offset the costs of providing public services and facilities necessitated by the development of geothermal resources within their jurisdictions.
4. Maintenance of the productivity of renewable resources through the investment of proceeds from these resources.

RCW 43.143.005 Legislative findings.
(1) Washington's coastal waters, seabed, and shorelines are among the most valuable and fragile of its natural resources.
(2) Ocean and marine-based industries and activities, such as fishing, aquaculture, tourism, and marine transportation have played a major role in the history of the state and will continue to be important in the future.
(3) Washington's coastal waters, seabed, and shorelines are faced with conflicting use demands. Some uses may pose unacceptable environmental or social risks at certain times.
(4) The state of Washington has primary jurisdiction over the management of coastal and ocean natural resources within three miles of its coastline. From three miles seaward to the boundary of the two hundred mile exclusive economic zone, the United States federal government has primary jurisdiction. Since protection, conservation, and development of the natural resources in the exclusive economic zone directly affect Washington's economy and environment, the state has an inherent interest in how these resources are managed.
[1997 c 152 § 1; 1989 1st ex.s. c 2 § 8.]

RCW 43.143.010 Legislative policy and intent--Moratorium on leases for oil and gas exploration, development, or production--Appeals from regulation of recreational uses--Participation in federal ocean and marine resource decisions.
(1) The purpose of this chapter is to articulate policies and establish guidelines for the exercise of state and local management authority over Washington's coastal waters, seabed, and shorelines.
(2) There shall be no leasing of Washington's tidal or submerged lands extending from mean high tide seaward three miles along the Washington coast from Cape Flattery south to Cape Disappointment, nor in Grays Harbor, Willapa Bay, and the Columbia river downstream from the Longview bridge, for purposes of oil or gas exploration, development, or production.

(3) When conflicts arise among uses and activities, priority shall be given to resource uses and activities that will not adversely impact renewable resources over uses which are likely to have an adverse impact on renewable resources.

(4) It is the policy of the state of Washington to actively encourage the conservation of liquid fossil fuels, and to explore available methods of encouraging such conservation.

(5) It is not currently the intent of the legislature to include recreational uses or currently existing commercial uses involving fishing or other renewable marine or ocean resources within the uses and activities which must meet the planning and review criteria set forth in RCW 43.143.030. It is not the intent of the legislature, however, to permanently exclude these uses from the requirements of RCW 43.143.030. If information becomes available which indicates that such uses should reasonably be covered by the requirements of RCW 43.143.030, the permitting government or agency may require compliance with those requirements, and appeals of that decision shall be handled through the established appeals procedure for that permit or approval.

(6) The state shall participate in federal ocean and marine resource decisions to the fullest extent possible to ensure that the decisions are consistent with the state's policy concerning the use of those resources.

### RCW 43.143.020 Definitions.

Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter:

(1) "Coastal counties" means Clallam, Jefferson, Grays Harbor, and Pacific counties.

(2) "Coastal waters" means the waters of the Pacific Ocean seaward from Cape Flattery south to Cape Disappointment, from mean high tide seaward two hundred miles.

[1989 1st ex.s. c 2 § 10.]

### RCW 43.143.030 Planning and project review criteria.

(1) When the state of Washington and local governments develop plans for the management, conservation, use, or development of natural resources in Washington's coastal waters, the policies in RCW 43.143.010 shall guide the decision-making process.

(2) Uses or activities that require federal, state, or local government permits or other approvals and that will adversely impact renewable resources, marine life, fishing, aquaculture, recreation, navigation, air or water quality, or other existing ocean or coastal uses, may be permitted only if the criteria below are met or exceeded:
(a) There is a demonstrated significant local, state, or national need for the proposed use or activity;

(b) There is no reasonable alternative to meet the public need for the proposed use or activity;

(c) There will be no likely long-term significant adverse impacts to coastal or marine resources or uses;

(d) All reasonable steps are taken to avoid and minimize adverse environmental impacts, with special protection provided for the marine life and resources of the Columbia river, Willapa Bay and Grays Harbor estuaries, and Olympic national park;

(e) All reasonable steps are taken to avoid and minimize adverse social and economic impacts, including impacts on aquaculture, recreation, tourism, navigation, air quality, and recreational, commercial, and tribal fishing;

(f) Compensation is provided to mitigate adverse impacts to coastal resources or uses;

(g) Plans and sufficient performance bonding are provided to ensure that the site will be rehabilitated after the use or activity is completed; and

(h) The use or activity complies with all applicable local, state, and federal laws and regulations.

Notes:
Radioactive Waste Storage and Transportation Act of 1980: Chapter 70.99 RCW.

RCW 43.145.010    Compact.

The Northwest Interstate Compact on Low-Level Radioactive Waste Management is hereby enacted into law and entered into by the state of Washington as a party, and is in full force and effect between the state and other states joining the compact in accordance with the terms of the compact.

NORTHWEST INTERSTATE COMPACT ON LOW-LEVEL RADIOACTIVE WASTE MANAGEMENT

ARTICLE I--Policy and Purpose

The party states recognize that low-level radioactive wastes are generated by essential activities and services that benefit the citizens of the states. It is further recognized that the protection of the health and safety of the citizens of the party states and the most economical management of low-level radioactive wastes can be accomplished through cooperation of the states in minimizing the amount of handling and transportation required to dispose of such wastes and through the cooperation of the states in providing facilities that serve the region. It is the policy of the party states to undertake the necessary cooperation to protect the health and safety of the citizens of the party states and to provide for the most economical management of low-level radioactive wastes on a continuing basis. It is the purpose of this compact to provide the means for such a cooperative effort among the party states so that the protection of the citizens of the states and the maintenance of the viability of the states' economies will be enhanced while sharing the responsibilities of radioactive low-level waste management.

ARTICLE II--Definitions

As used in this compact:
(1) "Facility" means any site, location, structure, or property used or to be used for the storage, treatment, or disposal of low-level waste, excluding federal waste facilities;
(2) "Low-level waste" means waste material which contains radioactive nuclides emitting primarily beta or gamma radiation, or both, in concentrations or quantities which exceed
aplicable federal or state standards for unrestricted release. Low-level waste does not include waste containing more than ten nanocuries of transuranic contaminants per gram of material, nor spent reactor fuel, nor material classified as either high-level waste or waste which is unsuited for disposal by near-surface burial under any applicable federal regulations;

(3) "Generator" means any person, partnership, association, corporation, or any other entity whatsoever which, as a part of its activities, produces low-level radioactive waste;

(4) "Host state" means a state in which a facility is located.

ARTICLE III--Regulatory Practices

Each party state hereby agrees to adopt practices which will require low-level waste shipments originating within its borders and destined for a facility within another party state to conform to the applicable packaging and transportation requirements and regulations of the host state. Such practices shall include:

(1) Maintaining an inventory of all generators within the state that have shipped or expect to ship low-level waste to facilities in another party state;

(2) Periodic unannounced inspection of the premises of such generators and the waste management activities thereon;

(3) Authorization of the containers in which such waste may be shipped, and a requirement that generators use only that type of container authorized by the state;

(4) Assurance that inspections of the carriers which transport such waste are conducted by proper authorities, and appropriate enforcement action taken for violations;

(5) After receiving notification from a host state that a generator within the party state is in violation of applicable packaging or transportation standards, the party state will take appropriate action to assure that such violations do not recur. Such action may include inspection of every individual low-level waste shipment by that generator.

Each party state may impose fees upon generators and shippers to recover the cost of the inspections and other practices under this Article. Nothing in this Article shall be construed to limit any party state's authority to impose additional or more stringent standards on generators or carriers than those required under this Article.

ARTICLE IV--Regional Facilities

Section 1. Facilities located in any party state, other than facilities established or maintained by individual low-level waste generators for the management of their own low-level waste, shall accept low-level waste generated in any party state if such waste has been packaged and transported according to applicable laws and regulations.

Section 2. No facility located in any party state may accept low-level waste generated outside of the region comprised of the party states, except as provided in Article V.

Section 3. Until such time as Section 2 takes effect as provided in Article VI, facilities located in any party state may accept low-level waste generated outside of any of the party states...
only if such waste is accompanied by a certificate of compliance issued by an official of the state in which such waste shipment originated. Such certificate shall be in such form as may be required by the host state, and shall contain at least the following:

(1) The generator's name and address;
(2) A description of the contents of the low-level waste container;
(3) A statement that the low-level waste being shipped has been inspected by the official who issued the certificate or by his agent or by a representative of the United States Nuclear Regulatory Commission, and found to have been packaged in compliance with applicable federal regulations and such additional requirements as may be imposed by the host state;
(4) A binding agreement by the state of origin to reimburse any party state for any liability or expense incurred as a result of an accidental release of such waste during shipment or after such waste reaches the facility.

Section 4. Each party state shall cooperate with the other party states in determining the appropriate site of any facility that might be required within the region comprised of the party states, in order to maximize public health and safety while minimizing the use of any one party state as the host of such facilities on a permanent basis. Each party state further agrees that decisions regarding low-level waste management facilities in their region will be reached through a good faith process which takes into account the burdens borne by each of the party states as well as the benefits each has received.

Section 5. The party states recognize that the issue of hazardous chemical waste management is similar in many respects to that of low-level waste management. Therefore, in consideration of the state of Washington allowing access to its low-level waste disposal facility by generators in other party states, party states such as Oregon and Idaho which host hazardous chemical waste disposal facilities will allow access to such facilities by generators within other party states. Nothing in this compact may be construed to prevent any party state from limiting the nature and type of hazardous chemical or low-level wastes to be accepted at facilities within its borders or from ordering the closure or [of] such facilities, so long as such action by a host state is applied equally to all generators within the region composed of the party states.

Section 6. Any host state may establish a schedule of fees and requirements related to its facility, to assure that closure, perpetual care, and maintenance and contingency requirements are met, including adequate bonding.

ARTICLE V--Northwest Low-level Waste Compact Committee

The governor of each party state shall designate one official of that state as the person responsible for administration of this compact. The officials so designated shall together comprise the Northwest low-level waste compact committee. The committee shall meet as required to consider matters arising under this compact. The parties shall inform the committee of existing regulations concerning low-level waste management in their states, and shall afford all parties a reasonable opportunity to review and comment upon any proposed modifications in
such regulations. Notwithstanding any provision of Article IV to the contrary, the committee may enter into arrangements with states, provinces, individual generators, or regional compact entities outside the region comprised of the party states for access to facilities on such terms and conditions as the committee may deem appropriate. However, it shall require a two-thirds vote of all such members, including the affirmative vote of the member of any party state in which a facility affected by such arrangement is located, for the committee to enter into such arrangement.

ARTICLE VI--Eligible Parties and Effective Date

Section 1. Each of the following states is eligible to become a party to this compact: Alaska, Hawaii, Idaho, Montana, Oregon, Utah, Washington, and Wyoming. As to any eligible party, this compact shall become effective upon enactment into law by that party, but it shall not become initially effective until enacted into law by two states. Any party state may withdraw from this compact by enacting a statute repealing its approval.

Section 2. After the compact has initially taken effect pursuant to Section 1, any eligible party state may become a party to this compact by the execution of an executive order by the governor of the state. Any state which becomes a party in this manner shall cease to be a party upon the final adjournment of the next general or regular session of its legislature or July 1, 1983, whichever occurs first, unless the compact has by then been enacted as a statute by that state.

Section 3. Section 2 of Article IV of this compact shall take effect on July 1, 1983, if consent is given by Congress. As provided in Public Law 96-573, Congress may withdraw its consent to the compact after every five-year period.

ARTICLE VII--Severability

If any provision of this compact, or its application to any person or circumstance, is held to be invalid, all other provisions of this compact, and the application of all of its provisions to all other persons and circumstances, shall remain valid; and to this end the provisions of this compact are severable.

[1981 c 124 § 1.]

RCW 43.145.020  Requirements of Washington representative to Northwest low-level waste compact committee.

The person designated as the Washington representative to the committee as specified in Article V shall adhere to all provisions of the low-level radioactive waste compact. In considering special conditions or arrangements for access to the state's facilities from wastes generated outside of the region, the committee member shall ensure at a minimum, that the provisions of Article IV, Section 3 are complied with. After 1992 the Washington representative may approve access to the state's facility only for the states currently members of the Rocky
Revised Code of Washington 2000

Mountain compact or states which generate less than one thousand cubic feet of waste annually and are contiguous with a state which is a member of the Northwest compact.

RCW 43.146.010 Pacific States Agreement on Radioactive Materials Transportation Management.

The Pacific States Agreement on Radioactive Materials Transportation Management is hereby enacted into law and entered into by the state of Washington as a party, and is in full force and effect between the state and other states joining the agreement in accordance with its terms.

PACIFIC STATES AGREEMENT ON RADIOACTIVE MATERIALS TRANSPORTATION MANAGEMENT

ARTICLE I--Policy and Purpose

The party states recognize that protection of the health and safety of citizens and the environment, and the most economical transportation of radioactive materials, can be accomplished through cooperation and coordination among neighboring states. It is the purpose of this agreement to establish a committee comprised of representatives from each party state to further cooperation between the states on emergency response and to coordinate activities by the states to eliminate unnecessary duplication of rules and regulations regarding the transportation and handling of radioactive material.

The party states intend that this agreement facilitate both interstate commerce and protection of public health and the environment. To accomplish this goal, the party states direct the committee to develop model regulatory standards for party states to act upon and direct the committee to coordinate decisions by party states relating to the routing and inspection of
ARTICLE II--Definitions

As used in this agreement:

(1) "Carrier" includes common, private, and contract carriers.

(2) "Hazardous material" means a substance or material which has been determined by the United States department of transportation to be capable of posing an unreasonable risk to health, safety, and property when transported in commerce, and which has been so designated.

(3) "Radioactive material" has the meaning given that term in federal department of transportation regulations found in 49 C.F.R. Sec. 173, and includes, but is not limited to, high-level radioactive waste, low-level radioactive waste, and spent nuclear fuel, as defined in section 2 of the nuclear waste policy act of 1982 (96 Stat. 2202; 42 U.S.C.A. Sec. 10101).

(4) "Transportation" means the transport by any means of radioactive material destined for or derived from any location, and any loading, unloading, or storage incident to such transport. "Transportation" does not include permanent storage or disposal of the material.

ARTICLE III--Regulatory Practices

Section 1. The party states agree to develop model standards, not in conflict with federal law or regulations, for carriers of radioactive material to provide information regarding:

1. The amount and kind of material transported;
2. The mode of transportation and, to the extent feasible, the route or routes and the time schedule;

THE PACIFIC NORTHWEST ECONOMIC REGION

ARTICLE I—Policy and Purpose

States and provinces participating in the Pacific Northwest Economic Region shall seek to develop and establish policies that: Promote greater regional collaboration among the seven entities; enhance the overall competitiveness of the region in international and domestic markets; increase the economic well-being of all citizens in the region; and improve the quality of life of
the citizens of the Pacific Northwest.

States and provinces recognize that there are many public policy areas in which cooperation and joint efforts would be mutually beneficial. These areas include, but are not limited to: International trade; economic development; human resources; the environment and natural resources; energy; and education. Parties to this agreement shall work diligently to establish collaborative activity in these and other appropriate policy areas where such cooperation is deemed worthwhile and of benefit to the participating entities. Participating states and provinces also agree that there are areas in which cooperation may not be feasible.

The substantive actions of the Pacific Northwest Economic Region may take the form of uniform legislation enacted by two or more states and/or provinces or policy initiatives endorsed as appropriate by participating entities. It shall not be necessary for all states and provinces to participate in each initiative.

This agreement establishing the Pacific Northwest Economic Region shall become effective when it is executed by one state, one province, and one additional state and/or province in a form deemed appropriate by each entity. The legislator members of the executive committee from each state or province shall be chosen by the legislator members of that state or province. The four governor or premier members of the executive committee shall be chosen by the governors and premiers from among the governors and premiers on the delegate council. [1993 c 108 § 1; 1991 c 251 § 2.]

RCW 43.147.020 Finding.
The legislature finds that there is a new emerging global economy in which countries and
regions located in specific areas of the world are forging new cooperative arrangements.

The legislature finds that these new cooperative arrangements are increasing the competitiveness of the participating countries and regions, thus increasing the economic benefits and the overall quality of life for the citizens of the individual countries and regions.

The legislature also finds that the Pacific Northwest states of Alaska, Idaho, Montana, Oregon, and Washington and the Canadian provinces of Alberta and British Columbia are in a strategic position to act together, as a region, thus increasing the overall competitiveness of the individual states and provinces that will provide substantial economic benefits for all of their citizens.

[1991 c 251 § 1.]

**RCW 43.147.030  Cooperative activities encouraged.**

It is the intent of chapter 251, Laws of 1991 to direct and encourage the establishment of cooperative activities between the seven legislative bodies of the region. The state representatives to the Pacific Northwest Economic Region shall work through appropriate channels to advance consideration of proposals developed by this body.

[1991 c 251 § 3.]

**RCW 43.147.040  Interlibrary sharing--Finding.**

In chapter 251, Laws of 1991, the legislature enacted into law the Pacific Northwest economic region agreement and made the state of Washington a party along with member states Alaska, Idaho, Montana, and Oregon, and member Canadian provinces Alberta and British Columbia. The legislature recognized that the member states and provinces of the Pacific Northwest economic region are in a strategic position to act together, as a region, thus increasing the overall competitiveness of the members and providing substantial economic benefits for all of their citizens.

For those reasons, in chapter 251, Laws of 1991, the legislature also encouraged the establishment of cooperative activities between the seven legislative bodies of the Pacific Northwest economic region. The member states and provinces now desire to engage in such cooperation by electronically sharing twenty-two million volumes from certain of their respective universities. The member states and provinces have determined that such interlibrary sharing will provide substantial economic benefit for their citizens. The legislature agrees, specifically also finding that such interlibrary sharing furthers a major component of education strategy in the 1990's and twenty-first century, namely providing increased access to knowledge via technology.

[1993 c 485 § 1.]

**RCW 43.150.010 Legislative findings.**

1. The legislature finds that:
   a. Large numbers of Washington's citizens are actively engaged in carrying forward the ethic of service and voluntary activities that benefit their citizens, their communities, and the entire state;
   b. This contribution continues to provide the equivalent of hundreds of millions of dollars in services that might otherwise create a need for additional tax collections;
   c. Many Washington citizens have yet to become fully involved in the life of their communities; many societal needs exist that could and should be met by new citizen service initiatives;
   d. The state of Washington needs to continue to encourage and expand the ethic of civic...
responsibility among its citizenry, through individuals working on their own, and through local
and state-wide organizations, both governmental and private and nonprofit agencies;

(e) This ethic of citizen service benefits those who serve and those who receive services;
in both cases there is the betterment of all Washington communities;

(f) Public and private agencies depend in large measure on the efforts of volunteers for
the accomplishment of their missions and actively seek to increase these efforts;

(g) State agencies can and should extend their service delivery programs through the
increased use of and support for volunteers;

(h) The national and community service act of 1990 provides an opportunity for
Washington to support citizen service and volunteer activities in Washington;

(i) Business, industry, communities, schools, and labor in Washington state are
increasingly interested in opportunities for community service and in developing the volunteer
and service ethic;

(j) While providing both tangible and intangible benefits, volunteers in turn need respect
and support for their efforts;

(k) The state itself, through the programs and services of its agencies as well as through
the provisions of law and rule making, can and should provide a primary role and focus for
encouraging the ethic of citizen service and support for volunteer efforts and programs;

(l) Planned and coordinated recognition, information, training, and technical assistance
for volunteer and citizen service efforts through a state-wide center for voluntary action have
been proven to be effective means of multiplying the resources volunteers bring to the needs of
their communities; and

(m) It is important that Washington state position itself to raise volunteerism to the
highest attainable levels, and along with the private sector, become a voice in the role citizen
service will take in providing solutions to societal needs.

(2) Therefore, the legislature, in recognition of these findings, enacts the center for
volunteerism and citizen service act to ensure that the state of Washington actively promotes the
ethic of service and makes every appropriate effort to encourage effective involvement of
individuals in their communities and of volunteers who supplement the services of private,
nonprofit community agencies and organizations, agencies of local government throughout the
state, and the state government.

RCW 43.155.010 Legislative findings and policy.

The legislature finds that there exists in the state of Washington over four billion dollars worth of critical projects for the planning, acquisition, construction, repair, replacement, rehabilitation, or improvement of streets and roads, bridges, water systems, and storm and sanitary sewage systems. The December, 1983 Washington state public works report prepared by the planning and community affairs agency documented that local governments expect to be capable of financing over two billion dollars worth of the costs of those critical projects but will not be able to fund nearly half of the documented needs.

The legislature further finds that Washington's local governments have unmet financial needs for solid waste disposal, including recycling, and encourages the board to make an equitable geographic distribution of the funds.

It is the policy of the state of Washington to encourage self-reliance by local governments in meeting their public works needs and to assist in the financing of critical public works projects by making loans, financing guarantees, and technical assistance available to local governments for these projects.

During the 1995-97 fiscal biennium, moneys in the public works assistance account may be appropriated for transfer to the flood control assistance account to be used for flood control assistance, including grants under chapter 86.26 RCW. To the extent that moneys in the public works assistance account are not appropriated during the 1995-97 fiscal biennium for public works or flood control assistance, the legislature may direct their transfer to the state general fund. In awarding grants under chapter 86.26 RCW, the department of ecology shall give strong preference to local governments that have: (1) Implemented, or are in the process of implementing, an ordinance that establishes a flood plain policy that is substantially more stringent than minimum federal requirements; (2) completed a comprehensive flood control plan meeting the requirements of RCW 86.12.200; or (3) constructed, or are in the process of constructing, a system of overtopping dikes or levees that allow public access.

RCW 43.155.060 Public works financing powers--Competitive bids on projects.

In order to aid the financing of public works projects, the board may:

(1) Make low-interest or interest-free loans to local governments from the public works assistance account or other funds and accounts for the purpose of assisting local governments in financing public works projects. The board may require such terms and conditions and may charge such rates of interest on its loans as it deems necessary or convenient to carry out the purposes of this chapter. Money received from local governments in repayment of loans made under this section shall be paid into the public works assistance account for uses consistent with this chapter.

(2) Pledge money in the public works assistance account, or money to be received by the public works assistance account, to the repayment of all or a portion of the principal of or interest on obligations issued by local governments to finance public works projects. The board shall not pledge any amount greater than the sum of money in the public works assistance account plus money to be received from the payment of the debt service on loans made from that account, nor shall the board pledge the faith and credit or the taxing power of the state or any agency or subdivision thereof to the repayment of obligations issued by any local government.

(3) Create such subaccounts in the public works assistance account as the board deems necessary to carry out the purposes of this chapter.
(4) Provide a method for the allocation of loans and financing guarantees and the provision of technical assistance under this chapter.

All local public works projects aided in whole or in part under the provisions of this chapter shall be put out for competitive bids, except for emergency public works under RCW 43.155.065 for which the recipient jurisdiction shall comply with this requirement to the extent feasible and practicable. The competitive bids called for shall be administered in the same manner as all other public works projects put out for competitive bidding by the local governmental entity aided under this chapter.

RCW 43.155.065  Emergency public works projects.

The board may make low-interest or interest-free loans to local governments for emergency public works projects. Emergency public works projects shall include the construction, repair, reconstruction, replacement, rehabilitation, or improvement of a public water system that is in violation of health and safety standards and is being operated by a local government on a temporary basis. The loans may be used to help fund all or part of an emergency public works project less any reimbursement from any of the following sources: (1) Federal disaster or emergency funds, including funds from the federal emergency management agency; (2) state disaster or emergency funds; (3) insurance settlements; or (4) litigation. Emergency loans may be made only from those funds specifically appropriated from the public works assistance account for such purpose by the legislature. The amount appropriated from the public works assistance account for emergency loan purposes shall not exceed five percent of the total amount appropriated from this account in any biennium.

RCW 43.155.068  Loans for preconstruction activities.

(1) The board may make low-interest or interest-free loans to local governments for preconstruction activities on public works projects before the legislature approves the construction phase of the project. Preconstruction activities include design, engineering, bid-document preparation, environmental studies, right of way acquisition, and other preliminary phases of public works projects as determined by the board. The purpose of the loans authorized in this section is to accelerate the completion of public works projects by allowing preconstruction activities to be performed before the approval of the construction phase of the project by the legislature.

(2) Projects receiving loans for preconstruction activities under this section must be evaluated using the priority process and factors in *RCW 43.155.070(2). The receipt of a loan for preconstruction activities does not ensure the receipt of a construction loan for the project under this chapter. Construction loans for projects receiving a loan for preconstruction activities under...
this section are subject to legislative approval under *RCW 43.155.070 (4) and (5). The board shall adopt a single application process for local governments seeking both a loan for preconstruction activities under this section and a construction loan for the project.

(3) Preconstruction activity loans under this section may be made only from those funds specifically appropriated from the public works assistance account for such a purpose by the legislature.

[1995 c 363 § 2.]

Notes:

*Reviser's note: RCW 43.155.070 was amended by 1999 c 164 § 602, changing subsections (2), (4), and (5) to subsections (4), (6), and (7), respectively.

Finding--Purpose--1995 c 363: "The legislature finds that there continues to exist a great need for capital projects to plan, acquire, design, construct, and repair local government streets, roads, bridges, water systems, and storm and sanitary sewage systems. It is the purpose of this act to accelerate the construction of these projects under the public works assistance program." [1995 c 363 § 1.]

**RCW 43.155.070 Eligibility, priority, limitations, and exceptions.**

(1) To qualify for loans or pledges under this chapter the board must determine that a local government meets all of the following conditions:

(a) The city or county must be imposing a tax under chapter 82.46 RCW at a rate of at least one-quarter of one percent;

(b) The local government must have developed a long-term plan for financing public works needs; and

(c) The local government must be using all local revenue sources which are reasonably available for funding public works, taking into consideration local employment and economic factors.

(2) Except where necessary to address a public health need or substantial environmental degradation, a county, city, or town planning under RCW 36.70A.040 must have adopted a comprehensive plan, including a capital facilities plan element, and development regulations as required by RCW 36.70A.040. This subsection does not require any county, city, or town planning under RCW 36.70A.040 to adopt a comprehensive plan or development regulations before requesting or receiving a loan or loan guarantee under this chapter if such request is made before the expiration of the time periods specified in RCW 36.70A.040. A county, city, or town planning under RCW 36.70A.040 which has not adopted a comprehensive plan and development regulations within the time periods specified in RCW 36.70A.040 is not prohibited from receiving a loan or loan guarantee under this chapter if the comprehensive plan and development regulations are adopted as required by RCW 36.70A.040 before submitting a request for a loan or loan guarantee.

(3) In considering awarding loans for public facilities to special districts requesting funding for a proposed facility located in a county, city, or town planning under RCW 36.70A.040, the board shall consider whether the county, city, or town planning under RCW 36.70A.040 in whose planning jurisdiction the proposed facility is located has adopted a
comprehensive plan and development regulations as required by RCW 36.70A.040.

(4) The board shall develop a priority process for public works projects as provided in this section. The intent of the priority process is to maximize the value of public works projects accomplished with assistance under this chapter. The board shall attempt to assure a geographical balance in assigning priorities to projects. The board shall consider at least the following factors in assigning a priority to a project:

(a) Whether the local government receiving assistance has experienced severe fiscal distress resulting from natural disaster or emergency public works needs;

(b) Whether the project is critical in nature and would affect the health and safety of a great number of citizens;

(c) The cost of the project compared to the size of the local government and amount of loan money available;

(d) The number of communities served by or funding the project;

(e) Whether the project is located in an area of high unemployment, compared to the average state unemployment;

(f) Whether the project is the acquisition, expansion, improvement, or renovation by a local government of a public water system that is in violation of health and safety standards, including the cost of extending existing service to such a system;

(g) The relative benefit of the project to the community, considering the present level of economic activity in the community and the existing local capacity to increase local economic activity in communities that have low economic growth; and

(h) Other criteria that the board considers advisable.

(5) Existing debt or financial obligations of local governments shall not be refinanced under this chapter. Each local government applicant shall provide documentation of attempts to secure additional local or other sources of funding for each public works project for which financial assistance is sought under this chapter.

(6) Before November 1 of each year, the board shall develop and submit to the appropriate fiscal committees of the senate and house of representatives a description of the loans made under RCW 43.155.065, 43.155.068, and subsection (9) of this section during the preceding fiscal year and a prioritized list of projects which are recommended for funding by the legislature, including one copy to the staff of each of the committees. The list shall include, but not be limited to, a description of each project and recommended financing, the terms and conditions of the loan or financial guarantee, the local government jurisdiction and unemployment rate, demonstration of the jurisdiction's critical need for the project and documentation of local funds being used to finance the public works project. The list shall also include measures of fiscal capacity for each jurisdiction recommended for financial assistance, compared to authorized limits and state averages, including local government sales taxes; real estate excise taxes; property taxes; and charges for or taxes on sewerage, water, garbage, and other utilities.

(7) The board shall not sign contracts or otherwise financially obligate funds from the public works assistance account before the legislature has appropriated funds for a specific list of
The legislature may remove projects from the list recommended by the board. The legislature shall not change the order of the priorities recommended for funding by the board.

(8) Subsection (7) of this section does not apply to loans made under RCW 43.155.065, 43.155.068, and subsection (9) of this section.

(9)(a) Loans made for the purpose of capital facilities plans shall be exempted from subsection (7) of this section. In no case shall the total amount of funds utilized for capital facilities plans and emergency loans exceed the limitation in RCW 43.155.065.

(b) For the purposes of this section "capital facilities plans" means those plans required by the growth management act, chapter 36.70A RCW, and plans required by the public works board for local governments not subject to the growth management act.

(10) To qualify for loans or pledges for solid waste or recycling facilities under this chapter, a city or county must demonstrate that the solid waste or recycling facility is consistent with and necessary to implement the comprehensive solid waste management plan adopted by the city or county under chapter 70.95 RCW.

ECONOMIC DEVELOPMENT--PUBLIC FACILITIES LOANS AND GRANTS

Sections
43.160.010 Legislative declaration (as amended by 1999 c 94).
43.160.010 Legislative declaration (as amended by 1999 c 164).
Notes:  
Public disclosure: RCW 42.17.310.

RCW 43.160.010  Legislative declaration (as amended by 1999 c 94).

(1) The legislature finds that it is the public policy of the state of Washington to direct financial resources toward the fostering of economic development through the stimulation of investment and job opportunities and the retention of sustainable existing employment for the general welfare of the inhabitants of the state. Reducing unemployment and reducing the time citizens remain jobless is important for the economic welfare of the state. A valuable means of fostering economic development is the construction of public facilities which contribute to the stability and growth of the state's economic base. Strengthening the economic base through issuance of industrial development bonds, whether single or umbrella, further serves to reduce unemployment. Consolidating issues of industrial development bonds when feasible to reduce costs additionally advances the state's purpose to improve economic vitality. Expenditures made
for these purposes as authorized in this chapter are declared to be in the public interest, and constitute a proper use of public funds. A community economic revitalization board is needed which shall aid the development of economic opportunities. The general objectives of the board should include:

(a) Strengthening the economies of areas of the state which have experienced or are expected to experience chronically high unemployment rates or below average growth in their economies;

(b) Encouraging the diversification of the economies of the state and regions within the state in order to provide greater seasonal and cyclical stability of income and employment;

(c) Encouraging wider access to financial resources for both large and small industrial development projects;

(d) Encouraging new economic development or expansions to maximize employment;

(e) Encouraging the retention of viable existing firms and employment; and

(f) Providing incentives for expansion of employment opportunities for groups of state residents that have been less successful relative to other groups in efforts to gain permanent employment.

(2) The legislature also finds that the state's economic development efforts can be enhanced by, in certain instances, providing funds to improve state highways in the vicinity of new industries considering locating in this state or existing industries that are considering significant expansion.

(a) The legislature finds it desirable to provide a process whereby the need for diverse public works improvements necessitated by planned economic development can be addressed in a timely fashion and with coordination among all responsible governmental entities.

(b) It is the intent of the legislature to create an economic development account within the motor vehicle fund from which expenditures can be made by the department of transportation for state highway improvements necessitated by planned economic development. All such transportation improvements (must first be) on state highways that have been approved by the transportation commission and the community economic revitalization board must be approved by the transportation commission in accordance with the procedures established by RCW 43.160.074 and 47.01.280 to receive funding. (It is further the intent of the legislature that such improvements not jeopardize any other planned highway construction projects. The improvements are intended to be of limited size and cost, and to include such items as additional turn lanes, signalization, illumination, and safety improvements.)

(3) The legislature also finds that the state's economic development efforts can be enhanced by providing funds to improve markets for those recyclable materials representing a large fraction of the waste stream. The legislature finds that public facilities which result in private construction of processing or remanufacturing facilities for recyclable materials are eligible for consideration from the board.

(4) The legislature finds that sharing economic growth state-wide is important to the welfare of the state. Rural natural resource impact areas do not share in the economic vitality of the Puget Sound region. Infrastructure is one of several ingredients that are critical for economic
development. Rural natural resource impact areas generally lack the infrastructure necessary to
diversify and revitalize their economies. It is, therefore, the intent of the legislature to increase
the availability of funds to help provide infrastructure to rural natural resource impact areas.

Legislative finding--Effective dates--1999 c 94: See notes following RCW 43.84.092.

RCW 43.160.010 Legislative declaration (as amended by 1999 c 164).

(1) The legislature finds that it is the public policy of the state of Washington to direct
financial resources toward the fostering of economic development through the stimulation of
investment and job opportunities and the retention of sustainable existing employment for the
general welfare of the inhabitants of the state. Reducing unemployment and reducing the time
citizens remain jobless is important for the economic welfare of the state. A valuable means of
fostering economic development is the construction of public facilities which contribute to the
stability and growth of the state's economic base. Strengthening the economic base through
issuance of industrial development bonds, whether single or umbrella, further serves to reduce
unemployment. Consolidating issues of industrial development bonds when feasible to reduce
costs additionally advances the state's purpose to improve economic vitality. Expenditures made
for these purposes as authorized in this chapter are declared to be in the public interest, and
constitute a proper use of public funds. A community economic revitalization board is needed
which shall aid the development of economic opportunities. The general objectives of the board
should include:

(a) Strengthening the economies of areas of the state which have experienced or are
expected to experience chronically high unemployment rates or below average growth in their
economies;
(b) Encouraging the diversification of the economies of the state and regions within the
state in order to provide greater seasonal and cyclical stability of income and employment;
(c) Encouraging wider access to financial resources for both large and small industrial
development projects;
(d) Encouraging new economic development or expansions to maximize employment;
(e) Encouraging the retention of viable existing firms and employment; and
(f) Providing incentives for expansion of employment opportunities for groups of state
residents that have been less successful relative to other groups in efforts to gain permanent
employment.

(2) The legislature also finds that the state's economic development efforts can be
enhanced by, in certain instances, providing funds to improve state highways (in the vicinity of
new), county roads, or city streets for industries considering locating or expanding in this state
(or existing industries that are considering significant expansion).

(a) The legislature finds it desirable to provide a process whereby the need for diverse
public works improvements necessitated by planned economic development can be addressed in a timely fashion and with coordination among all responsible governmental entities.

(b) It is the intent of the legislature to create an economic development account within the motor vehicle fund from which expenditures can be made by the department of transportation for state highway improvements necessitated by planned economic development. All (such) transportation improvements on state highways must first be approved by the state transportation commission and the community economic revitalization board in accordance with the procedures established by RCW 43.160.074 and 47.01.280. (It is further the intent of the legislature that such improvements not jeopardize any other planned highway construction projects. The improvements are intended to be of limited size and cost, and to include such items as additional turn lanes, signalization, illumination, and safety improvements.)

(3) The legislature also finds that the state's economic development efforts can be enhanced by, in certain instances, providing funds to assist development of telecommunications infrastructure that supports business development, retention, and expansion in rural natural resources impact areas and rural counties of the state.

(4) The legislature also finds that the state's economic development efforts can be enhanced by providing funds to improve markets for those recyclable materials representing a large fraction of the waste stream. The legislature finds that public facilities which result in private construction of processing or remanufacturing facilities for recyclable materials are eligible for consideration from the board.

(5) The legislature finds that sharing economic growth state-wide is important to the welfare of the state. Rural counties and rural natural resources impact areas do not share in the economic vitality of the Puget Sound region. The ability of these communities to pursue business and job retention, expansion, and development opportunities depends on their capacity to ready necessary economic development project plans, sites, permits, and infrastructure for private investments. Project-specific planning, predevelopment, and infrastructure (is one of several) are critical ingredients (that are critical) for economic development. Rural counties and rural natural resources impact areas generally lack (the infrastructure) these necessary tools and resources to diversify and revitalize their economies. It is, therefore, the intent of the legislature to increase the (availability of funds to help provide infrastructure to rural natural resource impact areas) amount of funding available through the community economic revitalization board for rural counties and rural natural resources impact areas, and to authorize flexibility for available resources in these areas to help fund planning, predevelopment, and construction costs of infrastructure and facilities and sites that foster economic vitality and diversification.

Reviser's note: RCW 43.160.010 was amended twice during the 1999 legislative session, each without reference to the other. For rule of construction concerning sections amended more than once during the same legislative session, see RCW 1.12.025.

Findings--Intent--1999 c 164: "The legislature finds that while Washington's economy is currently
prospering, economic growth continues to be uneven, particularly as between metropolitan and rural areas. This has created in effect two Washingtons. One afflicted by inadequate infrastructure to support and attract investment, another suffering from congestion and soaring housing prices. **RCW 43.160.060 Loans and grants to political subdivisions for public facilities authorized--Application--Requirements for financial assistance.**

The board is authorized to make direct loans to political subdivisions of the state for the purposes of assisting the political subdivisions in financing the cost of public facilities, including development of land and improvements for public facilities, project-specific environmental, capital facilities, land use, permitting, feasibility[,] and marketing studies and plans; project design, site planning, and analysis; project debt and revenue impact analysis; as well as the construction, rehabilitation, alteration, expansion, or improvement of the facilities. A grant may also be authorized for purposes designated in this chapter, but only when, and to the extent that, a loan is not reasonably possible, given the limited resources of the political subdivision and the finding by the board that financial circumstances require grant assistance to enable the project to move forward.

Application for funds shall be made in the form and manner as the board may prescribe. In making grants or loans the board shall conform to the following requirements:

(1) The board shall not provide financial assistance:

(a) For a project the primary purpose of which is to facilitate or promote a retail shopping development or expansion.

(b) For any project that evidence exists would result in a development or expansion that would displace existing jobs in any other community in the state.

(c) For the acquisition of real property, including buildings and other fixtures which are a part of real property.

(2) The board shall only provide financial assistance:

(a) For those projects which would result in specific private developments or expansions (i) in manufacturing, production, food processing, assembly, warehousing, advanced technology, research and development, and industrial distribution; (ii) for processing recyclable materials or for facilities that support recycling, including processes not currently provided in the state, including but not limited to, de-inking facilities, mixed waste paper, plastics, yard waste, and problem-waste processing; (iii) for manufacturing facilities that rely significantly on recyclable materials, including but not limited to waste tires and mixed waste paper; (iv) which support the relocation of businesses from nondistressed urban areas to rural counties or rural natural resources impact areas; or (v) which substantially support the trading of goods or services outside
of the state's borders.

(b) For projects which it finds will improve the opportunities for the successful maintenance, establishment, or expansion of industrial or commercial plants or will otherwise assist in the creation or retention of long-term economic opportunities.

(c) When the application includes convincing evidence that a specific private development or expansion is ready to occur and will occur only if the public facility improvement is made.

(3) The board shall prioritize each proposed project according to:

(a) The relative benefits provided to the community by the jobs the project would create, not just the total number of jobs it would create after the project is completed and according to the unemployment rate in the area in which the jobs would be located; and

(b) The rate of return of the state's investment, that includes the expected increase in state and local tax revenues associated with the project.

(4) A responsible official of the political subdivision shall be present during board deliberations and provide information that the board requests.

Before any financial assistance application is approved, the political subdivision seeking the assistance must demonstrate to the community economic revitalization board that no other timely source of funding is available to it at costs reasonably similar to financing available from the community economic revitalization board.

RCW 43.163.005 Purpose--Construction.

Economic development is essential to the health, safety, and welfare of all Washington citizens by broadening and strengthening state and local tax bases, providing meaningful employment opportunities and thereby enhancing the quality of life. Economic development increasingly is dependent upon the ability of small-sized and medium-sized businesses and farms to finance growth and trade activities. Many of these businesses face an unmet need for capital that limits their growth. These unmet capital needs are a problem in both urban and rural areas which cannot be solved by the private sector alone. There presently exist some federal programs, private credit enhancements and other financial tools to complement the private banking industry in providing this needed capital. More research is needed to develop effective strategies to enhance access to capital and thereby stimulate economic development.

It is the purpose of this chapter to establish a state economic development finance authority to act as a financial conduit that, without using state funds or lending the credit of the state or local governments, can issue nonrecourse revenue bonds, and participate in federal, state, and local economic development programs to help facilitate access to needed capital by Washington businesses that cannot otherwise readily obtain needed capital on terms and rates comparable to large corporations, and can help local governments obtain capital more efficiently. It is also a primary purpose of this chapter to encourage the employment and retention of Washington workers at meaningful wages and to develop innovative approaches to the problem of unmet capital needs. This chapter is enacted to accomplish these and related purposes and shall be construed liberally to carry out its purposes and objectives.

RCW 43.163.130   Nonrecourse revenue bonds--Issuance.

(1) The authority may issue its nonrecourse revenue bonds in order to obtain the funds to carry out the programs authorized in this chapter. The bonds shall be special obligations of the authority, payable solely out of the special fund or funds established by the authority for their repayment.

(2) Any bonds issued under this chapter may be secured by a financing document between the authority and the purchasers or owners of such bonds or between the authority and a corporate trustee, which may be any trust company or bank having the powers of a trust company within or without the state.

(a) The financing document may pledge or assign, in whole or in part, the revenues and funds held or to be received by the authority, any present or future contract or other rights to receive the same, and the proceeds thereof.
(b) The financing document may contain such provisions for protecting and enforcing the rights, security, and remedies of bondowners as may be reasonable and proper, including, without limiting the generality of the foregoing, provisions defining defaults and providing for remedies in the event of default which may include the acceleration of maturities, restrictions on the individual rights of action by bondowners, and covenants setting forth duties of and limitations on the authority in conduct of its programs and the management of its property.

(c) In addition to other security provided in this chapter or otherwise by law, bonds issued by the authority may be secured, in whole or in part, by financial guaranties, by insurance or by letters of credit issued to the authority or a trustee or any other person, by any bank, trust company, insurance or surety company or other financial institution, within or without the state. The authority may pledge or assign, in whole or in part, the revenues and funds held or to be received by the authority, any present or future contract or other rights to receive the same, and the proceeds thereof, as security for such guaranties or insurance or for the reimbursement by the authority to any issuer of such letter of credit of any payments made under such letter of credit.

(3) Without limiting the powers of the authority contained in this chapter, in connection with each issue of its obligation bonds, the authority shall create and establish one or more special funds, including, but not limited to debt service and sinking funds, reserve funds, project funds, and such other special funds as the authority deems necessary, useful, or convenient.

(4) Any security interest created against the unexpended bond proceeds and against the special funds created by the authority shall be immediately valid and binding against the money and any securities in which the money may be invested without authority or trustee possession. The security interest shall be prior to any party having any competing claim against the moneys or securities, without filing or recording under *Article 9 of the Uniform Commercial Code, Title 62A RCW, and regardless of whether the party has notice of the security interest.

(5) The bonds may be issued as serial bonds, term bonds or any other type of bond instrument consistent with the provisions of this chapter. The bonds shall bear such date or dates; mature at such time or times; bear interest at such rate or rates, either fixed or variable; be payable at such time or times; be in such denominations; be in such form; bear such privileges of transferability, exchangeability, and interchangeability; be subject to such terms of redemption; and be sold at public or private sale, in such manner, at such time or times, and at such price or prices as the authority shall determine. The bonds shall be executed by the manual or facsimile signatures of the authority's chair and either its secretary or executive director, and may be authenticated by the trustee (if the authority determines to use a trustee) or any registrar which may be designated for the bonds by the authority.

(6) Bonds may be issued by the authority to refund other outstanding authority bonds, at or prior to maturity of, and to pay any redemption premium on, the outstanding bonds. Bonds issued for refunding purposes may be combined with bonds issued for the financing or refinancing of new projects. Pending the application of the proceeds of the refunding bonds to the redemption of the bonds to be redeemed, the authority may enter into an agreement or agreements with a corporate trustee regarding the interim investment of the proceeds and the application of the proceeds and the earnings on the proceeds to the payment of the principal of
and interest on, and the redemption of, the bonds to be redeemed.

(7) The bonds of the authority may be negotiable instruments under Title 62A RCW.

(8) Neither the members of the authority, nor its employees or agents, nor any person executing the bonds shall be personally liable on the bonds or be subject to any personal liability or accountability by reason of the issuance of the bonds.

(9) The authority may purchase its bonds with any of its funds available for the purchase. The authority may hold, pledge, cancel or resell the bonds subject to and in accordance with agreements with bondowners.

Community economic revitalization board to cooperate with committee: RCW 43.160.115.
Public disclosure: RCW 42.17.310.
RCW 43.168.010  Legislative findings and declaration.

The legislature finds that:

(1) The economic health and well-being of the state, particularly in areas of high unemployment, economic stagnation, and poverty, is of substantial public concern.

(2) The consequences of minimal economic activity and persistent unemployment and underemployment are serious threats to the safety, health, and welfare of residents of these areas, decreasing the value of private investments and jeopardizing the sources of public revenue.

(3) The economic and social interdependence of communities and the vitality of industrial and economic activity necessitates, and is in part dependent on preventing substantial dislocation of residents and rebuilding the diversification of the areas' economy.

(4) The ability to remedy problems in stagnant areas of the state is beyond the power and control of the regulatory process and influence of the state, and the ordinary operations of private enterprise without additional governmental assistance are insufficient to adequately remedy the problems of poverty and unemployment.

(5) The revitalization of depressed communities requires the stimulation of private investment, the development of new business ventures, the provision of capital to ventures sponsored by local organizations and capable of growth in the business markets, and assistance to viable, but under-financed, small businesses in order to create and preserve jobs that are sustainable in the local economy.

Therefore, the legislature declares there to be a substantial public purpose in providing capital to promote economic development and job creation in areas of economic stagnation, unemployment, and poverty. To accomplish this purpose, the legislature hereby creates the rural Washington loan fund and vests in the department of community, trade, and economic development the authority to spend federal funds to stimulate the economy of distressed areas.

RCW 43.168.031 State development loan fund committee--Terminated June 30, 1994--Powers and duties transferred.
The Washington state development loan fund committee shall be terminated on June 30, 1994, and its powers and duties transferred to the director of the department of community, trade, and economic development.
[1995 c 399 § 92; 1988 c 186 § 7.]
RCW 43.168.040  Approval of applications for federal community development block grant funds for projects.

Subject to the restrictions contained in this chapter, the committee is authorized to approve applications of local governments for federal community development block grant funds which the local governments would use to make loans to finance business projects within their jurisdictions. Applications approved by the committee under this chapter shall conform to applicable federal requirements.

[1987 c 461 § 3; 1985 c 164 § 4.]

RCW 43.168.050  Application approval--Conditions and limitations.

(1) The committee may only approve an application providing a loan for a project which the committee finds:

(a) Will result in the creation of employment opportunities, the maintenance of threatened employment, or development or expansion of business ownership by minorities and women;

(b) Has been approved by the director as conforming to federal rules and regulations governing the spending of federal community development block grant funds;

(c) Will be of public benefit and for a public purpose, and that the benefits, including increased or maintained employment, improved standard of living, the employment of disadvantaged workers, and development or expansion of business ownership by minorities and women, will primarily accrue to residents of the area;

(d) Will probably be successful;

(e) Would probably not be completed without the loan because other capital or financing at feasible terms is unavailable or the return on investment is inadequate.

(2) The committee shall, subject to federal block grant criteria, give higher priority to economic development projects that contain provisions for child care.

(3) The committee may not approve an application if it fails to provide for adequate reporting or disclosure of financial data to the committee. The committee may require an annual or other periodic audit of the project books.

(4) The committee may require that the project be managed in whole or in part by a local development organization and may prescribe a management fee to be paid to such organization by the recipient of the loan or grant.

(5)(a) Except as provided in (b) of this subsection, the committee shall not approve any application which would result in a loan or grant in excess of three hundred fifty thousand dollars.

(b) The committee may approve an application which results in a loan or grant of up to seven hundred thousand dollars if the application has been approved by the director.

(6) The committee shall fix the terms and rates pertaining to its loans.

(7) Should there be more demand for loans than funds available for lending, the committee shall provide loans for those projects which will lead to the greatest amount of
employment or benefit to a community. In determining the "greatest amount of employment or benefit" the committee shall also consider the employment which would be saved by its loan and the benefit relative to the community, not just the total number of new jobs or jobs saved.

(8) To the extent permitted under federal law the committee shall require applicants to provide for the transfer of all payments of principal and interest on loans to the *Washington state development loan fund created under this chapter. Under circumstances where the federal law does not permit the committee to require such transfer, the committee shall give priority to applications where the applicants on their own volition make commitments to provide for the transfer.

(9) The committee shall not approve any application to finance or help finance a shopping mall.

(10) For loans not made to minority and women-owned businesses, the committee shall make at least eighty percent of the appropriated funds available to projects located in distressed areas, and may make up to twenty percent available to projects located in areas not designated as distressed. For loans not made to minority and women-owned businesses, the committee shall not make funds available to projects located in areas not designated as distressed if the fund's net worth is less than seven million one hundred thousand dollars.

(11) If an objection is raised to a project on the basis of unfair business competition, the committee shall evaluate the potential impact of a project on similar businesses located in the local market area. A grant may be denied by the committee if a project is not likely to result in a net increase in employment within a local market area.

(12) For loans to minority and women-owned businesses who do not meet the credit criteria, the committee may consider nontraditional credit standards to offset past discrimination that has precluded full participation of minority or women-owned businesses in the economy. For applicants with high potential who do not meet the credit criteria, the committee shall consider developing alternative borrowing methods. For applicants denied loans due to credit problems, the committee shall provide financial counseling within available resources and provide referrals to credit rehabilitation services. In circumstances of competing applications, priority shall be given to members of eligible groups which previously have been least served by this fund.

RCW 43.170.010 Legislative findings.

The legislature recognizes the numerous benefits to the state's economic base from the establishment of small businesses by innovators and inventors and the numerous benefits
provided by inventors and innovators through industrial diversification, broadening of the economic base, and providing financial benefits to our citizens and new products to the nation's consumers.

It is estimated that ninety-five percent of all inventions and innovations are never authoritatively considered primarily because inventors are unfamiliar with the business environment or financial structure necessary for implementing their proposals.

The legislature therefore recognizes a need to encourage and assist innovators and inventors.

MINORITY AND WOMEN-OWNED BUSINESSES--SMALL BUSINESS BONDING ASSISTANCE PROGRAM

RCW 43.172.005  Intent.

It is the intent of the legislature to combat discrimination in the economy.

(1) The legislature finds that discrimination is in part responsible for:

(a) The disproportionately small percentage of the state's businesses that are owned by minorities and women;

(b) The limited and unequal opportunity minority and women entrepreneurs and business owners have to procure small business financing; and

(c) The difficulty many minority and women-owned contracting businesses have in securing bonds and contract work.

(2) The legislature further finds that:

(a) Many minority and women entrepreneurs and business owners lack training in how to establish and operate a business. This lack of training inhibits their competitiveness when they apply for business loans, bonds, and contracts;

(b) Minorities and women are an increasingly expanding portion of the population and work force. In order for these individuals to fully contribute to the society and economy it is necessary to ensure that minority and women entrepreneurs and business owners are provided an equal opportunity to procure small business financing, bonds, and contracts; and

(c) The growth of small businesses will have a favorable impact on the Washington economy by creating jobs, increasing competition in the marketplace, and expanding tax revenues. Access to financial markets, bonds, and contracts by entrepreneurs and small business owners is vital to this process. Without reasonable access to financing, bonds, and contracts, talented and aggressive entrepreneurs and small business owners are cut out of the economic system and the state's economy suffers.

(3) Therefore, the legislature declares there to be a substantial public purpose in providing technical assistance in the areas of marketing, finance, and management, and access to capital.
resources, bonds, and contracts, to help start or expand a minority or women-owned business, and specifically to encourage and make possible greater participation by minorities and women in international trade, public works and construction, and public facility concessions. To accomplish these purposes, it is the intent of the legislature to:

(a) Develop or contract for training courses in financing, marketing, managing, accounting, and recordkeeping for a small business and to make these programs available to minority and women entrepreneurs and small business owners;

(b) Make public works and construction projects, public facility concessions, and purchase of goods and services accessible to a greater number of minority and women-owned businesses;

(c) Provide for the lending of nonstate funds to qualified minority and women entrepreneurs and business owners in order to provide the maximum practicable opportunity for innovative minority and women entrepreneurs and business owners to compete for small business financing; and

(d) Provide professional services assistance grants and bond guarantees on behalf of qualified contractors in order to provide the maximum practicable opportunity for minority and women-owned contracting businesses to participate in the Washington state economy by bidding and completing various public and private contracting jobs.

RCW 43.180.010  Declaration of public policies--Purpose.

It is declared to be the public policy of the state and a recognized governmental function to assist in making affordable and decent housing available throughout the state and by so doing to contribute to the general welfare. Decent housing for the people of our state is a most important public concern. Interest rates and construction costs have made it impossible for many
Washington citizens to purchase their own homes. Older people, disabled persons, and low and moderate income families often cannot afford to rent decent housing. There exists throughout the state a serious shortage of safe, sanitary and energy efficient housing available at prices within the financial means of our citizens. General economic development within the state is also impeded by a lack of affordable housing. The state's economy, which is dependent on the timber, wood products, and construction industries, has been damaged by inadequate investment in housing construction and rehabilitation. The result has been high unemployment and economic hardship affecting the prosperity of all the people of the state, particularly those in the wood products industry.

It is the purpose of this chapter to establish a state housing finance commission to act as a financial conduit which, without using public funds or lending the credit of the state or local government, can issue nonrecourse revenue bonds and participate in federal, state, and local housing programs and thereby make additional funds available at affordable rates to help provide housing throughout the state. It is also a primary purpose of this chapter to encourage the use of Washington state forest products in residential construction. This chapter is enacted to accomplish these and related purposes and shall be liberally construed to carry out its purposes and objectives.

[1983 c 161 § 1.]

**Revised Code of Washington 2000**

RCW 43.180.090 Selection of bond counsel--Written policies to be adopted.

(1) The commission shall adopt written policies to provide for the selection of bond counsel. The policies shall provide for the creation and maintenance of a roster of attorneys whom the commission believes possess the requisite special expertise and professional standing to provide bond counsel opinions which would be accepted by the underwriters, bondholders, and other members of the financial community, and which would be in furtherance of the public interest in obtaining the lowest possible interest rates on the bonds issued by the commission. Any attorney may apply to have his or her name placed on the roster, but may not be placed on the roster unless the attorney demonstrates to the commission's satisfaction that the attorney would issue the kind of opinions required by this section.

(2) Prior to selecting an attorney or attorneys to provide bond counsel services, the commission shall provide all attorneys on the roster with a notice of its intentions to select bond counsel and shall invite each of them to submit to the commission his or her fee schedule for providing bond counsel services. The commission shall have wide discretion in selecting the attorney or attorneys it considers to be most appropriate to provide the services, but in the exercise of this discretion the commission shall consider all submitted fee schedules and the public interest in achieving both savings in bond counsel fees and issuance of bonds on terms most favorable to the commission. At least once every two calendar years, the commission shall select anew an attorney or attorneys to serve as bond counsel. However, the commission may retain an attorney for longer than two years when necessary to complete work on a particular bond issue. An attorney previously retained may be selected again but only after the commission has provided other attorneys on the roster with an opportunity to be selected and has made the fee schedule review required under this subsection. In addition to or as an alternative to retaining counsel for a period of time, the commission may appoint an attorney to serve as counsel in respect to only a particular bond issue.

[1983 c 161 § 9.]
RCW 43.180.100  Selection of underwriters--Written policies to be adopted.

(1) The commission shall adopt written policies to provide for the selection of underwriters. The policies shall provide for the creation of a roster of underwriters whom the commission believes possess the requisite special expertise and professional standing to provide bond marketing services which would be accepted by bondholders and other members of the financial community, and which would be in furtherance of the public interest in marketing the commission's bonds at the lowest possible costs. Any underwriter may apply to have its name placed on the roster, but may not be placed on the roster unless it demonstrates to the commission's satisfaction that it meets the requirements of this section.

(2) Whenever the commission decides that it needs the services of an underwriter, it shall provide all underwriters on the roster with a notice of its intentions and shall invite each of them to submit to the commission an itemization of its fees and other charges for providing underwriting services on the issue. The itemization shall be by categories designed by the commission. The commission shall have wide discretion in selecting the underwriter it considers to be most appropriate to provide the services, but in the exercise of this discretion the commission shall consider the underwriter's fees and other charges and the public interest in achieving both savings in the total costs of underwriting services and issuance of bonds on terms most favorable to the commission.

[1983 c 161 § 10.]

RCW 43.180.110  Review of initial policies adopted under RCW 43.180.090 and 43.180.100--Adoption--Change.

The commission shall submit the initial policies adopted under RCW 43.180.090 and 43.180.100 to the chief clerk of the house and the secretary of the senate for transmittal to and review by the appropriate standing committees and the joint administrative rules review committee. By January 1, 1984 the commission shall have adopted policies in the form of rules and regulations under chapter 34.05 RCW. Such rules and regulations may only be changed or revised in accordance with chapter 34.05 RCW.

[1983 c 161 § 11.]

RCW 43.180.120  Rules for fair allocation of bond proceeds for nonrental single family housing.

The legislature recognizes that the demand for mortgage loans for nonrental single family housing will probably greatly exceed the supply of bond proceeds available to satisfy the demand. Therefore, the commission shall adopt rules providing procedures to assure that the bond proceeds available for that kind of housing shall be made available to qualified mortgagors in a fair and equitable manner.

[1983 c 161 § 12.]
**RCW 43.180.130 Protection of bondholders--Mortgage insurance.**

The commission is encouraged to adopt policies which will assure that bondholders will be protected against the failure to make mortgage payments financed under this chapter. Such policies may require, among other things, mortgage insurance.

[1983 c 161 § 13.]

**RCW 43.180.140 Rules for energy efficiency.**

The commission shall adopt rules providing for financing assistance to implement cost-effective energy efficiency improvements.

[1983 c 161 § 14.]

**RCW 43.180.150 Bond issues--Terms--Issuance--Purchase, etc.**

1. The commission's bonds shall bear such date or dates, mature at such time or times, be in such denominations, be in such form, be registered or registrable in such manner, be made transferable, exchangeable, and interchangeable, be payable in such medium of payment, at such place or places, be subject to such terms of redemption, bear such fixed or variable rate or rates of interest, be payable at such time or times, and be sold in such manner and at such price or prices, as the commission determines. The bonds shall be executed by the chair, by either its duly elected secretary or its treasurer, and by the trustee or paying agent if the commission determines to use a trustee or paying agent for the bonds. Execution of the bonds may be by manual or facsimile signature.

2. The bonds of the commission shall be subject to such terms, conditions, covenants, and protective provisions as are found necessary or desirable by the commission, including, but not limited to, pledges of the commission's assets, setting aside of reserves, limitations on additional forms of indebtedness, and the mortgaging of all or any part of the commission's real or personal property, then owned or thereafter acquired, and other provisions the commission finds are necessary or desirable for the security of bond holders.

3. Any security interest created in the unexpended bond proceeds and in the special funds created by the commission shall be immediately valid and binding against such moneys and any securities in which such moneys may be invested without commission or trustee possession thereof, and the security interest shall be prior to any party having any competing claim in such moneys or securities, without filing or recording pursuant to *chapter 62A.9 RCW and regardless of whether the party has notice of the security interest.

4. When issuing bonds, the commission may provide for the future issuance of additional bonds or parity debt on a parity with outstanding bonds, and the terms and conditions of their issuance. The commission may refund or advance refund any bond of the commission in accordance with chapter 39.53 RCW or issue bonds with a subordinate lien against the fund or

funds securing outstanding bonds.

(5) The chair of the state finance committee or the chair's designee shall be notified in advance of the issuance of bonds by the commission in order to promote the orderly offering of obligations in the financial markets.

(7) The commission may, out of any fund available therefor, purchase its bonds in the open market.

RCW 43.180.170 Bond issues--Disposition of proceeds--Special fund.

Proceeds from the sale of all bonds issued under this chapter received by the commission shall be deposited forthwith by the commission in any trust company, savings bank, savings and loan association, or bank having the powers of a trust company within or without the state, in a special fund or funds established for the particular purposes for which the bonds were issued and sold, which money shall not be funds of the state of Washington. Such fund or funds shall at all times be segregated and set apart from all other funds and held in trust for the purposes for which such bonds were issued as determined by the commission. Money other than bond sale proceeds received by the commission for these same purposes, such as private contributions or grants from the federal government, may be deposited in such fund or funds. Proceeds received from the sale of the bonds may also be used to defray the expenses of the commission in connection with and incidental to the issuance and sale of bonds, as well as expenses for studies, surveys, estimates, plans, inspections, and examinations of or incidental to the purposes for which the bonds were issued, and other costs advanced therefor by third parties or by the commission. In lieu of the commission receiving and handling these moneys in the manner outlined in this section, the commission may appoint trustees, depositaries, paying agents, and other financial institutions
within or without the state to perform the functions outlined and to receive, hold, disburse, invest, and reinvest such funds on its behalf and for the protection of the bondholders.

The commission may establish a bond fund or funds, and a reserve, sinking fund and other accounts therein, for payment of principal and interest and for other special requirements of the bonds as determined by the commission. In lieu of the commission receiving and handling these moneys as outlined in this section, the commission may appoint trustees, depositaries, paying agents, and other financial institutions to perform the functions outlined and to receive, hold, disburse, invest, and reinvest such funds on its behalf and for the protection of the bondholders. RCW 43.185.010 Findings.

The legislature finds that current economic conditions, federal housing policies and declining resources at the federal, state, and local level adversely affect the ability of low and very low-income persons to obtain safe, decent, and affordable housing.

The legislature further finds that members of over one hundred twenty thousand households live in housing units which are overcrowded, lack plumbing, are otherwise threatening to health and safety, and have rents and utility payments which exceed thirty percent of their income.

The legislature further finds that minorities, rural households, and migrant farm workers require housing assistance at a rate which significantly exceeds their proportion of the general population.

The legislature further finds that one of the most dramatic housing needs is that of persons needing special housing-related services, such as the mentally ill, recovering alcoholics, frail elderly persons, families with members who have disabilities, and single parents. These services include medical assistance, counseling, chore services, and child care.

The legislature further finds that housing assistance programs in the past have often failed to help those in greatest need.

The legislature declares that it is in the public interest to establish a continuously renewable resource known as the housing trust fund and housing assistance program to assist low and very low-income citizens in meeting their basic housing needs, and that the needs of very low-income citizens should be given priority and that whenever feasible, assistance should be in
the form of loans.

**RCW 43.185.015 Housing assistance program.**

There is created within the department the housing assistance program to carry out the purposes of this chapter.

**RCW 43.185.030 Washington housing trust fund.**

There is hereby created in the state treasury an account to be known as the Washington housing trust fund. The housing trust fund shall include revenue from the sources established by this chapter, appropriations by the legislature, private contributions, repayment of loans, and all other sources.

RCW 43.190.030 Office of state long-term care ombudsman created--Powers and duties--Rules.

There is created the office of the state long-term care ombudsman. The department of community, trade, and economic development shall contract with a private nonprofit organization to provide long-term care ombudsman services as specified under, and consistent with, the federal older Americans act as amended, federal mandates, the goals of the state, and the needs of its citizens. The department of community, trade, and economic development shall ensure that all program and staff support necessary to enable the ombudsman to effectively protect the interests of residents, patients, and clients of all long-term care facilities is provided by the nonprofit organization that contracts to provide long-term care ombudsman services. The department of community, trade, and economic development shall adopt rules to carry out this chapter and the long-term care ombudsman provisions of the federal older Americans act, as amended, and applicable federal regulations. The long-term care ombudsman program shall have the following powers and duties:

(1) To provide services for coordinating the activities of long-term care ombudsmen throughout the state;
(2) Carry out such other activities as the department of community, trade, and economic development deems appropriate;
(3) Establish procedures consistent with RCW 43.190.110 for appropriate access by long-term care ombudsmen to long-term care facilities and patients' records, including procedures to protect the confidentiality of the records and ensure that the identity of any complainant or resident will not be disclosed without the written consent of the complainant or resident, or upon court order;
(4) Establish a state-wide uniform reporting system to collect and analyze data relating to complaints and conditions in long-term care facilities for the purpose of identifying and resolving significant problems, with provision for submission of such data to the department of social and health services and to the federal department of health and human services, or its successor...
agency, on a regular basis; and

(5) Establish procedures to assure that any files maintained by ombudsman programs shall be disclosed only at the discretion of the ombudsman having authority over the disposition of such files, except that the identity of any complainant or resident of a long-term care facility shall not be disclosed by such ombudsman unless:

(a) Such complainant or resident, or the complainant's or resident's legal representative, consents in writing to such disclosure; or

(b) Such disclosure is required by court order.

Notes:

Effective date--1988 c 119 § 2: "Section 2 of this act shall take effect July 1, 1989." [1988 c 119 § 5.]

Legislative findings--1988 c 119: "The legislature recognizes that the state long-term care ombudsman program and the office of the state long-term care ombudsman, located within the department of social and health services, have brought into serious question the ability of that office to serve as an effective mechanism on the state level for investigating and resolving complaints made by or on behalf of residents of long-term care facilities. The legislature further finds it necessary to exercise its options under the federal older Americans act and identify an organization, outside of the department of social and health services and independent of any other state agency, to provide, through contract, long-term care ombudsman services." [1988 c 119 § 1.]

Survey--1988 c 119: "The committee on health care of the house of representatives shall conduct a survey and analysis of the appropriate placement outside of state government of the office of the state long-term care ombudsman. The survey shall ascertain how the contracted placement of the office will most effectively allow it to meet its responsibilities under chapter 43.190 RCW. A draft of the findings shall be submitted to the governor and the legislature before the first Friday in November 1988 and the final findings, conclusions, and recommendations shall be submitted in a report to the governor and the legislature no later than December 30, 1988.

The survey required shall include, but is not limited to, a complete assessment of how independently contracting the program outside state government will provide the office with an effective means for resolving complaints and building program accountability and integrity facilitating local involvement and contributing to long-term care policy development. The study shall also clearly identify and describe how this model for administering the duties and responsibilities of the ombudsman will affect the ability of the office to function as mandated under the federal older Americans act, and provide suggestions that will assist the office to coordinate information and assistance, to the fullest degree possible, with citizen groups, the general public, the nursing home industry, and local volunteer programs. The survey shall further specify the operational program details necessary for adopting the proposed independently contracted plan." [1988 c 119 § 3.]

Nuclear energy and radiation: Chapter 70.98 RCW.

Page 11146 Printed on 3/5/2012
RCW 43.200.010  Finding--Purpose.
The legislature finds that the safe transporting, handling, storage, or otherwise caring for radioactive wastes is required to protect the health, safety, and welfare of the citizens of the state of Washington. It is the purpose of this chapter to establish authority for the state to exercise appropriate oversight and care for the safe management and disposal of radioactive wastes; to consult with the federal government and other states on interim or permanent storage of these radioactive wastes; and to carry out the state responsibilities under the federal nuclear waste policy act of 1982.

[1983 1st ex.s. c 19 § 1.]

RCW 43.200.015  Definitions.
As used in this chapter, the following terms have the meanings indicated unless the context clearly requires otherwise.

(1) "High-level radioactive waste" means "high-level radioactive waste" as the term is defined in 42 U.S.C. Sec. 10101 (P.L. 97-425).

(2) "Low-level radioactive waste" means waste material that contains radioactive nuclides emitting primarily beta or gamma radiation, or both, in concentrations or quantities that exceed applicable federal or state standards for unrestricted release. Low-level waste does not include waste containing more than one hundred nanocuries of transuranic contaminants per gram of material, nor spent nuclear fuel, nor material classified as either high-level radioactive waste or waste that is unsuited for disposal by near-surface burial under any applicable federal regulations.

(3) "Radioactive waste" means both high-level and low-level radioactive waste.

(4) "Spent nuclear fuel" means spent nuclear fuel as the term is defined in 42 U.S.C. Sec. 10101.

(5) "Department" means the department of ecology.

[1989 c 322 § 1; 1985 c 293 § 1; 1984 c 161 § 1.]

RCW 43.200.020  Participation authority regarding federal statutes--Federal financial assistance.
The department of ecology is designated as the executive branch agency for participation in the federal nuclear waste policy act of 1982 and the federal low-level radioactive waste policy act of 1980, however the legislature retains an autonomous role with respect to participation in all aspects of the federal nuclear waste policy act of 1982. The department may receive federal financial assistance for carrying out radioactive waste management activities, including assistance for expenses, salaries, travel, and monitoring and evaluating the program of repository exploration and siting undertaken by the federal government.
RCW 43.200.030 Cooperation required.  
All departments, agencies, and officers of this state and its subdivisions shall cooperate with the department of ecology in the furtherance of any of its activities pursuant to this chapter.

RCW 43.200.040 Nuclear waste board created--Membership--Compensation and travel expenses.

Notes:  
Reviser's note:  RCW 43.200.040 was amended by 1989 1st ex.s. c 9 § 219 without reference to its repeal by 1989 c 322 § 7, effective July 23, 1989. It has been decodified for publication purposes pursuant to RCW 1.12.025.

RCW 43.200.070 Rules.

The department of ecology shall adopt such rules as are necessary to carry out responsibilities under this chapter. The department of ecology is authorized to adopt such rules as are necessary to carry out its responsibilities under chapter 43.145 RCW.

RCW 43.200.080 Additional powers and duties of director--Site closure account--Perpetual surveillance and maintenance account.

The director of ecology shall, in addition to the powers and duties otherwise imposed by law, have the following special powers and duties:

1. To fulfill the responsibilities of the state under the lease between the state of Washington and the federal government executed September 10, 1964, covering one thousand acres of land lying within the Hanford reservation near Richland, Washington. The department of ecology may sublease to private or public entities all or a portion of the land for specific purposes or activities which are determined, after public hearing, to be in agreement with the terms of the lease and in the best interests of the citizens of the state consistent with any criteria that may be developed as a requirement by the legislature;

2. To assume the responsibilities of the state under the perpetual care agreement between the state of Washington and the federal government executed July 29, 1965 and the sublease between the state of Washington and the site operator of the Hanford low-level radioactive waste disposal facility. In order to finance perpetual surveillance and maintenance under the agreement and ensure site closure under the sublease, the department of ecology shall impose and collect fees from parties holding radioactive materials for waste management purposes. The fees shall be
established by rule adopted under chapter 34.05 RCW and shall be an amount determined by the department of ecology to be necessary to defray the estimated liability of the state. Such fees shall reflect equity between the disposal facilities of this and other states. A site closure account and a perpetual surveillance and maintenance account is hereby created in the state treasury. The site closure account shall be exclusively available to reimburse, to the extent that moneys are available in the account, the site operator for its costs plus a reasonable profit as agreed by the operator and the state, or to reimburse the state licensing agency and any agencies under contract to the state licensing agency for their costs in final closure and decommissioning of the Hanford low-level radioactive waste disposal facility. If a balance remains in the account after satisfactory performance of closure and decommissioning, this balance shall be transferred to the perpetual surveillance and maintenance account. The perpetual surveillance and maintenance account shall be used exclusively by the state to meet post-closure surveillance and maintenance costs, or for otherwise satisfying surveillance and maintenance obligations. Appropriations are required to permit expenditures and payment of obligations from the site closure account and the perpetual surveillance and maintenance account. All moneys, including earnings from the investment of balances in the site closure and the perpetual surveillance and maintenance account, less the allocation to the state treasurer's service fund, pursuant to RCW 43.08.190 accruing under the authority of this section shall be directed to the site closure account until December 31, 1992. Thereafter receipts including earnings from the investment of balances in the site closure and the perpetual surveillance and maintenance account, less the allocation to the state treasurer's service fund, pursuant to RCW 43.08.190 shall be directed to the site closure account and the perpetual surveillance and maintenance account as specified by the department. Additional moneys specifically appropriated by the legislature or received from any public or private source may be placed in the site closure account and the perpetual surveillance and maintenance account;

(3) To assure maintenance of such insurance coverage by state licensees, lessees, or sublessees as will adequately, in the opinion of the director, protect the citizens of the state against nuclear accidents or incidents that may occur on privately or state-controlled nuclear facilities;

(4) To institute a user permit system and issue site use permits, consistent with regulatory practices, for generators, packagers, or brokers using the Hanford low-level radioactive waste disposal facility. The costs of administering the user permit system shall be borne by the applicants for site use permits. The site use permit fee shall be set at a level that is sufficient to fund completely the executive and legislative participation in activities related to the Northwest Interstate Compact on Low-Level Radioactive Waste Management;

(5) To make application for or otherwise pursue any federal funds to which the state may be eligible, through the federal resource conservation and recovery act or any other federal programs, for the management, treatment or disposal, and any remedial actions, of wastes that are both radioactive and hazardous at all Hanford low-level radioactive waste disposal facilities; and

(6) To develop contingency plans for duties and options for the department and other state agencies related to the Hanford low-level radioactive waste disposal facility based on various projections of annual levels of waste disposal. These plans shall include an analysis of
expected revenue to the state in various taxes and funds related to low-level radioactive waste disposal and the resulting implications that any increase or decrease in revenue may have on state agency duties or responsibilities. The plans shall be updated annually.

[1999 c 372 § 12; 1991 sp.s. c 13 § 60; 1990 c 21 § 6; 1989 c 418 § 2; 1986 c 2 § 1; 1983 1st ex.s. c 19 § 8.]

Suspension and reinstatement of site use permits: RCW 70.98.085.

RCW 43.200.170 Waste disposal surcharges and penalty surcharges--Disposition.
The governor may assess surcharges and penalty surcharges on the disposal of waste at the Hanford low-level radioactive waste disposal facility. The surcharges may be imposed up to the maximum extent permitted by federal law. Ten dollars per cubic foot of the moneys received under this section shall be transmitted monthly to the site closure account established under RCW 43.200.080. The rest of the moneys received under this section shall be deposited in the general fund.

[1990 c 21 § 3; 1986 c 2 § 3.]

The department of ecology shall be the state agency responsible for implementation of the federal low-level radioactive waste policy amendments act of 1985, including:

(1) Collecting and administering the surcharge assessed by the governor under RCW 43.200.170;

(2) Collecting low-level radioactive waste data from disposal facility operators, generators, intermediate handlers, and the federal department of energy;

(3) Developing and operating a computerized information system to manage low-level radioactive waste data;

(4) Denying and reinstating access to the Hanford low-level radioactive waste disposal facility pursuant to the authority granted under federal law;

(5) Administering and/or monitoring (a) the maximum waste volume levels for the Hanford low-level radioactive waste disposal facility, (b) reactor waste allocations, (c) priority allocations under the Northwest Interstate Compact on Low-Level Radioactive Waste Management, and (d) adherence by other states and compact regions to federal statutory deadlines; and

(6) Coordinating the state's low-level radioactive waste disposal program with similar programs in other states.

[1998 c 245 § 81; 1986 c 2 § 4.]
RCW 43.200.190  Studies on site closure and perpetual care and maintenance requirements and on adequacy of insurance coverage.

The department of ecology shall perform studies, by contract or otherwise, to define site closure and perpetual care and maintenance requirements for the Hanford low-level radioactive waste disposal facility and to assess the adequacy of insurance coverage for general liability, radiological liability, and transportation liability for the facility.

[1998 c 245 § 82; 1986 c 2 § 6.]

RCW 43.200.200  Review of potential damage--Financial assurance.

(1) The director of the department of ecology shall periodically review the potential for bodily injury and property damage arising from the transportation and disposal of commercial low-level radioactive waste under permits issued by the state.

(2) The director may require permit holders to demonstrate financial assurance in an amount that is adequate to protect the state and its citizens from all claims, suits, losses, damages, or expenses on account of injuries to persons and property damage arising or growing out of the transportation or disposal of commercial low-level radioactive waste. The financial assurance may be in the form of insurance, cash deposits, surety bonds, corporate guarantees, and other acceptable instruments or guarantees determined by the director to be acceptable evidence of financial assurance.

(3) In making the determination of the appropriate level of financial assurance, the director shall consider:

(a) The nature and purpose of the activity and its potential for injury and damages to or claims against the state and its citizens;

(b) The current and cumulative manifested volume and radioactivity of waste being packaged, transported, buried, or otherwise handled;

(c) The location where the waste is being packaged, transported, buried, or otherwise handled, including the proximity to the general public and geographic features such as geology and hydrology, if relevant; and

(d) The legal defense cost, if any, that will be paid from the required financial assurance amount.

(4) The director may establish different levels of required financial assurance for various classes of permit holders.

(5) The director shall establish by rule the instruments or mechanisms by which a permit applicant or holder may demonstrate financial assurance as required by RCW 43.200.210.

[1998 c 245 § 83; 1992 c 61 § 1; 1990 c 82 § 1; 1986 c 191 § 1.]

RCW 43.200.210  Immunity of state--Demonstration of financial assurance--Suspension of permit.
(1) The department of ecology shall require that any person who holds or applies for a permit under this chapter indemnify and hold harmless the state from claims, suits, damages, or expenses on account of injuries to or death of persons and property damage, arising or growing out of any operations and activities for which the person holds the permit, and any necessary or incidental operations.

(2) The department of ecology shall refuse to issue or shall suspend the permit of any person required by this section to demonstrate adequate financial assurance who fails to demonstrate compliance with this section. The permit shall not be issued or reinstated until the person demonstrates compliance with this section.

(3) The department of ecology shall require (a) that any person required to demonstrate financial assurance maintain with the agency current copies of any insurance policies, certificates of insurance, or any other documents sufficient to evidence compliance with this section, (b) that the agency be notified of any changes in the instruments of financial assurance or financial condition of the person, and (c) that the state be named as an insured party on any insurance policy used to comply with this section. This subsection shall not apply to any person subject to the same requirements under RCW 70.98.095.

RCW 43.200.220 Site closure fee—Generally.

Beginning January 1, 1993, the department of ecology may impose a reasonable site closure fee if necessary to be deposited in the site closure account established under RCW 43.200.080. The department may continue to collect moneys for the site closure account until the account contains an amount sufficient to complete the closure plan, as specified in the radioactive materials license issued by the department of health.

Notes:

Rate regulation anticipated—1990 c 21: "State and national policy directs that the management of low-level radioactive waste shall be accomplished by a system of interstate compacts and the development of regional disposal sites. The Northwest regional compact, comprised of the states of Alaska, Hawaii, Idaho, Montana, Oregon, Utah, and Washington, has as its disposal facility the low-level radioactive waste disposal site located near Richland, Washington. This site is expected to be the sole site for disposal of low-level radioactive waste for compact members effective January 1, 1993. Future closure of this site will require significant financial resources.

Low-level radioactive waste is generated by essential activities and services that benefit the citizens of the state. Washington state's low-level radioactive waste disposal site has been used by the nation and the Northwest compact as a disposal site since 1965. The public has come to rely on access to this site for disposal of low-level radioactive waste, which requires separate handling from other solid and hazardous wastes. The price of disposing of low-level radioactive waste at the Washington state low-level radioactive waste disposal site is anticipated to increase when the federal low-level radioactive waste policy amendments act of 1985 is implemented and waste generated outside the Northwest compact states is excluded. To protect Washington and other Northwest compact states' businesses and services, such as electrical production, medical and university research, and private industries, upon which the public relies, there may be a need to regulate the rates charged by the operator of Washington's low-level radioactive waste disposal site." [1990 c 21 § 1.]
Low-level waste disposal rate regulation study: RCW 81.04.520.

RCW 43.200.230 Fees for waste generators.
The director of the department of ecology shall require that generators of waste pay a fee for each cubic foot of waste disposed at any facility in the state equal to six dollars and fifty cents. The fee shall be imposed specifically on the generator of the waste and shall not be considered to apply in any way to the low-level site operator's disposal activities. The fee shall be allocated in accordance with RCW 43.200.233 and 43.200.235. This subsection shall be invalidated and the authorization to collect a surcharge removed if the legislature or any administrative agency of the state of Washington prior to January 1, 1993, (1) imposes fees, assessments, or charges other than perpetual care and maintenance, site surveillance, and site closing fees currently applicable to the Hanford commercial low-level waste site operator's activities, (2) imposes any additional fees, assessments, or charges on generators using the Hanford commercial low-level waste site, or (3) increases any existing fees, assessments, or charges.

A portion of the surcharge received under RCW 43.200.230 shall be remitted monthly to the county in which the low-level radioactive waste disposal facility is located in the following manner:

(1) During 1993, six dollars and fifty cents per cubic foot of waste;
(2) During 1994, three dollars and twenty-five cents per cubic foot of waste; and
(3) During 1995 and thereafter, two dollars per cubic foot of waste.

Nuclear waste site--Election for disapproval: Chapter 29.91 RCW.

RCW 43.205.010  Findings.
The legislature and the people of the state of Washington find that:
(1) In order to solve the problem of high-level radioactive waste disposal, congress established a process for selecting two sites for the safe, permanent, and regionally equitable disposal of such waste.
(2) The process of selecting three sites as final candidates, including the Hanford reservation, for a first high-level nuclear waste repository by the United States department of energy violated the intent and the mandate of congress.
(3) The United States department of energy has prematurely deferred consideration of numerous potential sites and disposal media that its own research indicates are more appropriate, safer, and less expensive.
(4) Placement of a repository at Hanford without methodical and independently verified scientific evaluation will pose a threat to the health and safety of the people and the environment of this state.
(5) The selection process is flawed and not credible because it did not include independent experts in the selection of the sites and in the review of that selection, as recommended by the National Academy of Sciences.
(6) By postponing indefinitely all site specific work for a second repository, the United States department of energy has not complied with the intent of congress expressed in the Nuclear Waste Policy Act, Public Law 97-425, and the fundamental compromise which enabled its enactment.

[1986 ex.s. c 1 § 1.]
RCW 43.205.020 Duties relating to the site selection process for a high-level nuclear waste repository.

In order to achieve complete compliance with federal law and protect the health, safety, and welfare of the people of the state of Washington, the governor, the legislature, other state-wide elected officials, and the nuclear waste board shall use all legal means necessary to:

1. Suspend the preliminary site selection process for a high-level nuclear waste repository, including the process of site characterization, until there is compliance with the intent of the Nuclear Waste Policy Act;
2. Reverse the secretary of energy's decision to postpone indefinitely all site specific work on locating and developing a second repository for high-level nuclear waste;
3. Insist that the United States department of energy's site selection process, when resumed, considers all acceptable geologic media and results in safe, scientifically justified, and regionally and geographically equitable high-level nuclear waste disposal;
4. Demand that federal budget actions fully and completely follow the intent of the Nuclear Waste Policy Act; and
5. Continue to pursue alliances with other states and interested parties, particularly with Pacific Northwest governors, legislatures, and other parties, affected by the site selection and transportation of high-level nuclear waste.

RCW 43.210.010  Findings.
The legislature finds:

(1) The exporting of goods and services from Washington to international markets is an important economic stimulus to the growth, development, and stability of the state's businesses in both urban and rural areas, and that these economic activities create needed jobs for Washingtonians.

(2) Impediments to the entry of many small and medium-sized businesses into export markets have restricted growth in exports from the state.

(3) Particularly significant impediments for many small and medium-sized businesses are the lack of easily accessible information about export opportunities and financing alternatives.

(4) There is a need for a small business export finance assistance center which will specialize in providing export assistance to small and medium-sized businesses throughout the state in acquiring information about export opportunities and financial alternatives for exporting.

Notes:

Intent--1990 1st ex.s. c 17: "The legislature finds that the Puget Sound region is experiencing economic prosperity and the challenges associated with rapid growth; much of the rest of the state is not experiencing economic prosperity, and faces challenges associated with slow economic growth. It is the intent of the legislature to encourage economic prosperity and balanced economic growth throughout the state.

In order to accomplish this goal, growth must be managed more effectively in the Puget Sound region, and rural areas must build local capacity to accommodate additional economic activity in their communities. Where possible, rural economies and low-income areas should be linked with prosperous urban economies to share economic growth for the benefit of all areas and the state.

To accomplish this goal it is the intent of the legislature too: (1) Assure equitable opportunities to secure prosperity for distressed areas, rural communities, and disadvantaged populations by promoting urban-rural economic links, and by promoting value-added product development, business networks, and increased exports from rural areas; (2) improve the economic development service delivery system to be better able to serve these areas, communities, and populations; (3) redirect the priorities of the state's economic development programs to focus economic development efforts into areas and sectors of the greatest need; (4) build local capacity so that communities are better able to plan for growth and achieve self-reliance; (5) administer grant programs to promote new feasibility studies and project development on projects of interest to rural areas or areas outside of the Puget Sound region; and (6) develop a coordinated economic investment strategy involving state economic development programs, businesses, educational and vocational training institutions, local governments and local economic development organizations, ports, and others." **Notes:**

Reviser's note: This section was amended by 1999 c 151 § 1301 and by 1999 c 280 § 3, each without reference to the other. Both amendments are incorporated in the publication of this section under RCW 1.12.025(2). For rule of construction, see RCW 1.12.025(1).

**RCW 43.220.060 Powers and duties--Effect on employed workers--Use of facilities, supplies, instruments, and tools of supervising agency.**

(1) Each state department identified in RCW 43.220.020 shall have the following powers and duties to carry out its functions relative to the Washington conservation corps:

(a) Recruiting and employing staff, corps members, corps member leaders, and specialists;

(b) Executing agreements for furnishing the services of the corps to carry out conservation corps programs to any federal, state, or local public agency, any local organization as specified in this chapter in concern with the overall objectives of the conservation corps;

(c) Applying for and accepting grants or contributions of funds from any private source;
(d) Determining a preference for those projects which will provide long-term benefits to
the public, will provide productive training and work experiences to the members involved, will
be labor-intensive, may result in payments to the state for services performed, and can be
promptly completed; and

(e) Entering into agreements with community colleges within the state's community and
technical college system and other educational institutions or independent nonprofit agencies to
provide special education in basic skills, including reading, writing, and mathematics for those
conservation corps members who may benefit by participation in such classes. Classes shall be
scheduled after corps working hours. Participation by members is not mandatory but shall be
strongly encouraged. The participation shall be a primary factor in determining whether the
opportunity for corps membership beyond one year shall be offered. Instruction related to the
specific role of the department in resource conservation shall also be offered, either in a
classroom setting or as is otherwise appropriate.

(2) The assignment of corps members shall not result in the displacement of currently
employed workers, including partial displacement such as reduction in hours of nonovertime
work, wages, or other employment benefits. Supervising agencies that participate in the program
may not terminate, lay-off, or reduce the working hours of any employee for the purpose of using
a corps member with available funds. In circumstances where substantial efficiencies or a public
purpose may result, supervising agencies may use corps members to carry out essential agency
work or contractual functions without displacing current employees.

(3) Facilities, supplies, instruments, and tools of the supervising agency shall be made
available for use by the conservation corps to the extent that such use does not conflict with the
normal duties of the agency. The agency may purchase, rent, or otherwise acquire other necessary
tools, facilities, supplies, and instruments.

RCW 43.220.070 Corps membership--Eligibility, terms, etc.

(1) Conservation corps members shall be unemployed residents of the state between
eighteen and twenty-five years of age at the time of enrollment who are citizens or lawful
permanent residents of the United States. The age requirements may be waived for corps leaders
and specialists with special leadership or occupational skills; such members shall be given
special responsibility for providing leadership, character development, and sense of community
responsibility to the corps members, groups, and work crews to which they are assigned. The
upper age requirement may be waived for residents who have a sensory or mental handicap.
Special effort shall be made to recruit minority and disadvantaged youth who meet selection
criteria of the conservation corps. Preference shall be given to youths residing in areas, both
urban and rural, in which there exists substantial unemployment exceeding the state average
unemployment rate.

(2) The legislature finds that people with developmental disabilities would benefit from
experiencing a meaningful work experience, and learning the value of labor and of membership
in a productive society.

The legislature urges state agencies that are participating in the Washington conservation corps program to consider for enrollment in the program people who have developmental disabilities, as defined in RCW 71A.10.020.

If an agency chooses to enroll people with developmental disabilities in its Washington conservation corps program, the agency may apply to the United States Department of Labor, Employment Standards Administration for a special subminimum wage certificate in order to be allowed to pay enrollees with developmental disabilities according to their individual levels of productivity.

(3) Corps members shall not be considered state employees. Other provisions of law relating to civil service, hours of work, rate of compensation, sick leave, unemployment compensation, state retirement plans, and vacation leave do not apply to the Washington conservation corps except for the crew supervisors, who shall be project employees, and the administrative and supervisory personnel.

(4) Enrollment shall be for a period of six months which may be extended for additional six-month periods by mutual agreement of the corps and the corps member, not to exceed two years. Corps members shall be reimbursed at the minimum wage rate established by state or federal law, whichever is higher, which may be increased by up to five percent for each additional six-month period worked: PROVIDED, That if agencies elect to run a residential program, the appropriate costs for room and board shall be deducted from the corps member's paycheck as provided in chapter 43.220 RCW.

(5) Corps members are to be available at all times for emergency response services coordinated through the department of community, trade, and economic development or other public agency. Duties may include sandbagging and flood cleanup, search and rescue, and other functions in response to emergencies.

Notes:

Legislative finding--1990 c 71: "The legislature finds that the Washington conservation corps has proven to be an effective method to provide meaningful work experience for many of the state's young persons. Because of recent, and possible future, increases in the minimum wage laws, it is necessary to make an adjustment in the limitation that applies to corps member reimbursements." [1990 c 71 § 1.]

Severability--1986 c 266: See note following RCW 38.52.005.

RCW 43.220.080 Selection of corps members--Development of corps program.

Conservation corps members shall be selected based on their orientation towards public service, development of job skills and productive work habits, and character development. Special effort shall be made at the time of initial screening to explain rigorous productivity standards and special expectations and obligations of corps membership. An employment agreement shall be entered into by the corps member, indicating the member's understanding of, and willingness to abide by, such standards.
In the development of the corps program, consideration shall be given to providing corps members with a beneficial and meaningful work experience. Standards of productivity, behavior, and punctuality shall be developed and observed. Consideration shall be given to the development of a program that deserves the respect of the public, both in terms of service provided and personal development of corps members.

**RCW 43.235.900 Conflict with federal requirements--2000 c 50.**
If any part of this act is found to be in conflict with federal requirements that are a prescribed condition to the allocation of federal funds to the state, the conflicting part of this act is inoperative solely to the extent of the conflict and with respect to the agencies directly affected, and this finding does not affect the operation of the remainder of this act in its application to the agencies concerned. Rules adopted under this act must meet federal requirements that are a necessary condition to the receipt of federal funds by the state.

[2000 c 50 § 9.]
RCW 43.250.010   Purpose.

The purpose of this chapter is to enable political subdivisions, community and technical college districts, and the state board for community and technical colleges as established in chapter 28B.50 RCW to participate with the state in providing maximum opportunities for the investment of surplus public funds consistent with the safety and protection of such funds. The legislature finds and declares that the public interest is found in providing maximum prudent investment of surplus funds, thereby reducing the need for additional taxation. The legislature also recognizes that not all political subdivisions are able to maximize the return on their temporary surplus funds. The legislature therefore provides in this chapter a mechanism whereby political subdivisions, community and technical colleges, and the state board for community and technical colleges may, at their option, utilize the resources of the state treasurer's office to maximize the potential of surplus funds while ensuring the safety of public funds.

**RCW 43.270.010 Intent.**

The legislature recognizes that state-wide efforts aimed at reducing the incidence of substance abuse must be increased. The legislature further recognizes that the most effective strategy for reducing the impact of alcohol and other drug abuse is through the collaborative efforts of educators, law enforcement, local government officials, local treatment providers, and concerned community and citizens' groups.

The legislature intends to support the development and activities of community mobilization strategies against substance abuse through the following efforts:

1. Provide funding support for prevention, treatment, and enforcement activities identified by communities that have brought together education, treatment, local government, law enforcement, and other key elements of the community;

2. Provide technical assistance and support to help communities develop and carry out effective activities; and

3. Provide communities with opportunities to share suggestions for state program operations and budget priorities.

[1989 c 271 § 315.]
RCW 43.270.020  **Grant program--Activities funded.**

There is established in the office of the governor a grant program to provide incentive for and support for communities to develop targeted and coordinated strategies to reduce the incidence and impact of substance abuse.

Activities which may be funded through this grant program include those which:

(1) Prevent substance abuse through educational and self-esteem efforts, development of positive alternatives, intervention with high-risk groups, and other prevention strategies;

(2) Support effective treatment by increasing access to and availability of treatment opportunities, particularly for underserved or highly impacted populations, developing aftercare and support mechanisms, and other strategies to increase the availability and effectiveness of treatment;

(3) Provide meaningful consequences for participation in illegal activity and promote safe and healthy communities through support of law enforcement strategies;

(4) Create or build on efforts by existing community programs, coordinate their efforts, and develop cooperative efforts or other initiatives to make most effective use of resources to carry out the community's strategy against substance abuse; and

(5) Other activities which demonstrate both feasibility and a rationale for how the activity will achieve measurable results in the strategy against substance abuse.

[1989 c 271 § 316.]

**Notes:**

**Report to legislature--1989 c 271 § 316:** "The governor shall report to the legislature by January 1, 1991, regarding the operations of the grant program authorized in section 316 of this act. At a minimum, the report shall include the following:

(1) Number of grants awarded and the amount of each grant;

(2) Recipients of grants, including the communities in which they are based;

(3) Purposes for which the grants were awarded;

(5) An assessment of the effect that the activities of *this act* had on encouraging and supporting coordinated community action against substance abuse;

(6) Recommendations for further funding by the state; and

(7) Recommendations regarding future operations of the program, including criteria for awarding grants."

[1989 c 271 § 324.] For codification of "this act" [1989 c 271], see Codification Tables, Volume 0.

RCW 43.270.030  **Content of application.**

of the community, particularly those whose responsibilities in law enforcement, treatment, prevention, or other community efforts provide direct, ongoing contact with substance abusers.

[1989 c 271 § 317.]

**RCW 43.270.040 Coordinated strategies.**

This grant program will be available to communities of any geographic size but will encourage and reward communities which develop coordinated or complimentary strategies within geographic areas such as county areas or groups of county areas which correspond to units of government with significant responsibilities in the area of substance abuse, existing coalitions, or other entities important to the success of a community’s strategy against substance abuse.

The governor shall make awards, subject to funds appropriated by the legislature, under the following terms:
(1) In order to be eligible for consideration, applications must demonstrate, at a minimum:
   (a) That proposals submitted for funding are based on and address specific objectives contained in a coordinated strategy of prevention, treatment, and law enforcement against substance abuse;
   (b) Evidence of active participation in preparation of the proposal and specific commitments to implementing the community-wide agenda by leadership from at least education, law enforcement, local government, tribal government, and treatment entities in the community, and the opportunity for meaningful involvement from others such as neighborhood and citizen groups, businesses, human service, health and job training organizations, and other key elements of the community, particularly those whose responsibilities in law enforcement, treatment, prevention, or other community efforts provide direct, ongoing contact with substance abusers, or those at risk for substance abuse;
   (c) That they have met the requirements listed in RCW 43.270.050;
   (d) Evidence of additional local resources committed to its strategy totaling at least twenty-five percent of funds awarded under this section.    (e) That the funds applied for, if received, will not be used to replace funding for existing activities.
(2) In order to encourage and reward communities which develop coordinated or complementary strategies within geographic areas which correspond to units of government with significant responsibilities in the area of substance abuse, up to fifty percent of funds appropriated for the purposes of this chapter may be awarded on a per capita basis to eligible applications reflecting coordinated strategy from a county area or group of county areas. The governor may establish minimum allotments per eligible county areas up to fifteen thousand dollars; and
(3) No less than fifty percent of funds appropriated under this chapter shall be awarded on a competitive basis for activities by communities not participating in a county-wide strategy and
activities identified by county-wide strategies but not funded through per capita grants. Eligible applications will be assessed and compared by a peer review committee whose members have experience in prevention, treatment, law enforcement, and other community efforts against substance abuse using the following criteria:

(b) The extent to which key elements of the community are involved in and committed to the coordinated strategy;

The peer review committee will advise the governor on the extent to which each eligible applicant has met these criteria. The governor will distribute available funds based on this information.

(4) The governor shall distribute fifty percent of the initial appropriation for the purposes of this chapter no later than October 1, 1989, and the remainder no later than July 1, 1990.

RCW 43.280.010 Intent.
The legislature recognizes the need to increase the services available to the victims of sex offenders. The legislature also recognizes that these services are most effectively planned and provided at the local level through the combined efforts of concerned community and citizens groups, treatment providers, and local government officials. The legislature further recognizes that adequate treatment for victims is not only a matter of justice for the victim, but also a method by which additional abuse can be prevented.

The legislature intends to enhance the community-based treatment services available to the victims of sex offenders by:

(1) Providing consolidated funding support for local treatment programs which provide services to victims of sex offenders;
(2) Providing technical assistance and support to help communities plan for and provide treatment services;
(3) Providing sexual assault services with a victim-focused mission, and consistent standards, policies, and contracting and reporting requirements; and
(4) Providing communities and local treatment providers with opportunities to share information about successful prevention and treatment programs.

[1996 c 123 § 2; 1990 c 3 § 1201.]

Notes:
RCW 43.280.011  Intent, approval of committee recommendations, distribution of services--1996 c 123.

The Washington state sexual assault services advisory committee issued a report to the department of community, trade, and economic development and the department of social and health services in June of 1995. The committee made several recommendations to improve the delivery of services to victims of sexual abuse and assault: (1) Consolidate the administration and funding of sexual assault and abuse services in one agency instead of splitting those functions between the department of social and health services and the department of community, trade, and economic development; (2) adopt a funding allocation plan to pool all funds for sexual assault services and to distribute them across the state to ensure the delivery of core and specialized services; (3) establish service, data collection, and management standards and outcome measurements for recipients of grants; and (4) create a data collection system to gather pertinent data concerning the delivery of sexual assault services to victims.

The legislature approves the recommendations of the advisory committee and consolidates the functions and funding for sexual assault services in the department of community, trade, and economic development to implement the advisory committee's recommendations.

The legislature does not intend to effect a reduction in service levels within available funding by transferring department of social and health services' powers and duties to the department of community, trade, and economic development. At a minimum, the department of community, trade, and economic development shall distribute the same percentage of the services it provides victims of sexual assault and abuse, pursuant to RCW 43.280.020, 70.125.080, and 74.14B.060, to children as were distributed to children through these programs in fiscal year 1996.

(1) The department of fish and wildlife may exchange the tidelands and shorelands it manages with private or public landowners if the exchange is in the public interest.

(2) As used in this section, an exchange of tidelands and shorelands is in the public interest if the exchange would provide significant fish and wildlife habitat or public access to the state's waterways.

[1997 c 209 § 3.]

Notes:

Finding--1997 c 209: "The legislature finds that the department of fish and wildlife manages a large amount of public land and that the department may have opportunities to improve the quality of its land holdings by participating in an exchange with private landowners or other public entities. The legislature declares that it is in the public interest to allow the department to exchange land with private landowners or with public entities if the
exchange would provide significant fish and wildlife habitat or public access to the state's waterways." [1997 c 209 § 1.]

Effective date--1997 c 209: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately [April 25, 1997]." [1997 c 209 § 4.]

RCW 43.300.080 Cost-reimbursement agreements for complex projects.

(1) The department may enter into a written cost-reimbursement agreement with a permit applicant for a complex project to recover from the applicant the reasonable costs incurred by the department in carrying out the requirements of this chapter, as well as the requirements of other relevant laws, as they relate to permit coordination, environmental review, application review, technical studies, and permit processing. The cost-reimbursement agreement shall identify the specific tasks, costs, and schedule for work to be conducted under the agreement. For purposes of this section, a complex project is a project for which an environmental impact statement is required under chapter 43.21C RCW.

(2) The written cost-reimbursement agreement shall be negotiated with the permit applicant. Under the provisions of a cost-reimbursement agreement, funds from the applicant shall be used by the department to contract with an independent consultant to carry out the work covered by the cost-reimbursement agreement. The department may also use funds provided under a cost-reimbursement agreement to assign current staff to review the work of the consultant, to provide necessary technical assistance when an independent consultant with comparable technical skills is unavailable, and to recover reasonable and necessary direct and indirect costs that arise from processing the permit. The department shall, in developing the agreement, ensure that final decisions that involve policy matters are made by the agency and not by the consultant. The department shall make an estimate of the number of permanent staff hours to process the permits, and shall contract with consultants to replace the time and functions committed by these permanent staff to the project. The billing process shall provide for accurate time and cost accounting and may include a billing cycle that provides for progress payments. Use of cost-reimbursement agreements shall not reduce the current level of staff available to work on permits not covered by cost-reimbursement agreements. The department may not use any funds under a cost-reimbursement agreement to replace or supplant existing funding. The restrictions of chapter 42.52 RCW apply to any cost-reimbursement agreement, and to any person hired as a result of a cost-reimbursement agreement.

(3) The department may not enter into any new cost-reimbursement agreements on or after July 1, 2005. The department may continue to administer any cost-reimbursement agreement which was entered into before July 1, 2005, until the project is completed.

YOUTH GANGS

RCW 43.310.005 Finding.
The legislature finds and declares that:

(1) The number of youth who are members and associates of gangs and commit gang violence has significantly increased throughout the entire greater Puget Sound, Spokane, and other areas of the state;

(2) Youth gang violence has caused a tremendous strain on the progress of the communities impacted. The loss of life, property, and positive opportunity for growth caused by youth gang violence has reached intolerable levels. Increased youth gang activity has seriously strained the budgets of many local jurisdictions, as well as threatened the ability of the educational system to educate our youth;

(3) Among youth gang members the high school drop-out rate is significantly higher than among nongang members. Since the economic future of our state depends on a highly educated and skilled work force, this high school drop-out rate threatens the economic welfare of our future work force, as well as the future economic growth of our state;

(4) The unemployment rate among youth gang members is higher than that among the general youth population. The unusual unemployment rate, lack of education and skills, and the increased criminal activity could significantly impact our future prison population;
(5) Most youth gangs are subcultural. This implies that gangs provide the nurturing, discipline, and guidance to gang youth and potential gang youth that is generally provided by communities and other social systems. The subcultural designation means that youth gang participation and violence can be effectively reduced in Washington communities and schools through the involvement of community, educational, criminal justice, and employment systems working in a unified manner with parents and individuals who have a firsthand knowledge of youth gangs and at-risk youth; and

(6) A strong unified effort among parents and community, educational, criminal justice, and employment systems would facilitate: (a) The learning process; (b) the control and reduction of gang violence; (c) the prevention of youth joining negative gangs; and (d) the intervention into youth gangs.

[1993 c 497 § 1.]

**RCW 43.310.007  Intent--Prevention and intervention pilot programs.**

It is the intent of the legislature to cause the development of positive prevention and intervention pilot programs for elementary and secondary age youth through cooperation between individual schools, local organizations, and government. It is also the intent of the legislature that if the prevention and intervention pilot programs are determined to be effective in reducing problems associated with youth gang violence, that other counties in the state be eligible to receive special state funding to establish similar positive prevention and intervention programs.

[1993 c 497 § 2.]

**RCW 43.310.010  Definitions.**

Unless the context otherwise requires, the following definitions shall apply throughout RCW 43.310.005 through 43.310.040 and *sections 5 and 7 through 10, chapter 497, Laws of 1993:

(1) "School" means any public school within a school district any portion of which is in a county with a population of over one hundred ninety thousand.

(2) "Community organization" means any organization recognized by a city or county as such, as well as private, nonprofit organizations registered with the secretary of state.

(3) "Gang risk prevention and intervention pilot program" means a community-based positive prevention and intervention program for gang members, potential gang members, at-risk youth, and elementary through high school-aged youth directed at all of the following:

(a) Reducing the probability of youth involvement in gang activities and consequent violence.

(b) Establishing ties, at an early age, between youth and community organizations.

(c) Committing local business and community resources to positive programming for youth.

(d) Committing state resources to assist in creating the gang risk prevention and
intervention pilot programs.

(4) "Cultural awareness retreat" means a program that temporarily relocates at-risk youth or gang members and their parents from their usual social environment to a different social environment, with the specific purpose of having them performing activities which will enhance or increase their positive behavior and potential life successes.

**RCW 43.310.020 Gang risk prevention and intervention pilot programs--Request for proposals.**

(1) The department of community, trade, and economic development may recommend existing programs or contract with either school districts or community organizations, or both, through a request for proposal process for the development, administration, and implementation in the county of community-based gang risk prevention and intervention pilot programs.

(2) Proposals by the school district for gang risk prevention and intervention pilot program grant funding shall begin with school years no sooner than the 1994-95 session, and last for a duration of two years.

(3) The school district or community organization proposal shall include:

(a) A description of the program goals, activities, and curriculum. The description of the program goals shall include a list of measurable objectives for the purpose of evaluation by the department of community, trade, and economic development. To the extent possible, proposals shall contain empirical data on current problems, such as drop-out rates and occurrences of violence on and off campus by school-age individuals.

(b) A description of the individual school or schools and the geographic area to be affected by the program.

(7) The use of specified state resources, as requested.

(8) Full service schools under section 9 of this act.

(2) To develop youth decision-making ability.

(3) To assist with career development and educational development.

(4) To help develop respect for the community, and ethnic origin.

**RCW 43.31C.005  Findings--Declaration.**

(1) The legislature finds that:
   a. There are geographic areas within communities that are characterized by a lack of employment opportunities, an average income level that is below the median income level for the surrounding community, a lack of affordable housing, deteriorating infrastructure, and a lack of facilities for community services, job training, and education;
   b. Strategies to encourage reinvestment in these areas by assisting local businesses to become stronger and area residents to gain economic power involve a variety of activities and partnerships;
   c. Reinvestment in these areas cannot be accomplished with only governmental resources and require a comprehensive approach that integrates various incentives, programs, and initiatives to meet the economic, physical, and social needs of the area;
   d. Successful reinvestment depends on a local government's ability to coordinate public resources in a cohesive, comprehensive strategy that is designed to leverage long-term private investment in an area;
   e. Reinvestment can strengthen the overall tax base through increased tax revenue from expanded and new business activities and physical property improvement;
   f. Local governments, in cooperation with area residents, can provide leadership as well as planning and coordination of resources and necessary supportive services to address reinvestment in the area; and
   g. It is in the public interest to adopt a targeted approach to revitalization and enlist the resources of all levels of government, the private sector, community-based organizations, and community residents to revitalize an area.

(2) The legislature declares that the purposes of the community empowerment zone act are to:
   a. Encourage reinvestment through strong partnerships and cooperation between all levels of government, community-based organizations, area residents, and the private sector;
   b. Involve the private sector and stimulate private reinvestment through the judicious use of public resources;
   c. Target governmental resources to those areas of greatest need; and
   d. Include all levels of government, community individuals, organizations, and the private sector in the policy-making process.

(iii) The potential for revitalization of the area as a result of designation as a community empowerment zone.

(iv) Other factors the director deems necessary.

(c) The determination of the director as to the areas designated as community empowerment zones shall be final.

(2) The local government must provide a description of its strategy for meeting the needs identified in subsection (1) of this section. (3) The local government must submit an annual progress report to the department that details the extent to which the local government is working to meet the needs identified in the five-year community empowerment plan. The department may not approve changes to a community empowerment zone that are not in conformity with this chapter.

(3)(a) The termination of an area's designation as a community empowerment zone under subsection (1)(b) of this section is not effective until the department issues a finding stating the reasons for the termination, which may include lack of commitment of resources to activities in the community empowerment zone by the public, private, and community-based sectors. The local government may file an appeal to the department's findings within sixty days of the notice to terminate the area's designation. The department must notify the local government of the results within thirty days of the filing of the appeal.

RCW 43.320.005 Finding.

The legislature finds that, given the overlap of powers and products in the companies regulated, the consolidation of the agencies regulating financial institutions and securities into one department will better serve the public interest through more effective use of staff expertise. Therefore, for the convenience of administration and the centralization of control and the more effective use of state resources and expertise, the state desires to combine the regulation of financial institutions and securities into one department.

[1993 c 472 § 1.]

RCW 43.320.007 Regulatory reform--Findings--Construction--1994 c 256.

(1) The legislature finds that the financial services industry is experiencing a period of rapid change with the development and delivery of new products and services and advances in technology.

(2) The legislature further finds it in the public interest to strengthen the regulation, supervision, and examination of business entities furnishing financial services to the people of this state and that this can be accomplished by streamlining and focusing regulation to reduce costs, increase effectiveness, and foster efficiency by eliminating requirements that are not necessary for the protection of the public.
The provisions of chapter 256, Laws of 1994 should not be construed to limit the ability of the director of financial institutions to implement prudent regulation, prevent unsafe, unsound, and fraudulent practices, and undertake necessary enforcement actions to protect the public and promote the public interest.

[1994 c 256 § 1.]

**RCW 43.320.010  Department created.**

The department of financial institutions shall be structured to reflect the unique differences in the types of institutions and areas it regulates.

RCW 43.330.005 Intent.

The legislature finds that the long-term economic health of the state and its citizens depends upon the strength and vitality of its communities and businesses. It is the intent of this chapter to create a merged department of community, trade, and economic development that fosters new partnerships for strong and sustainable communities. The consolidation of the department of trade and economic development and the department of community development into one department will: Streamline access to services by providing a simpler point of entry for state programs; provide focused and flexible responses to changing economic conditions; generate greater local capacity to respond to both economic growth and environmental challenges; and increase accountability to the public, the executive branch, and the legislature.

A new department can bring together a focused effort to: Manage growth and achieve sustainable development; diversify the state's economy and export goods and services; provide greater access to economic opportunity; stimulate private sector investment and entrepreneurship;
provide stable family-wage jobs and meet the diverse needs of families; provide affordable housing and housing services; construct public infrastructure; protect our cultural heritage; and promote the health and safety of the state's citizens.

The legislature further finds that as a result of the rapid pace of global social and economic change, the state and local communities will require coordinated and creative responses by every segment of the community. The state can play a role in assisting such local efforts by reorganizing state assistance efforts to promote such partnerships. The department has a primary responsibility to provide financial and technical assistance to the communities of the state, to assist in improving the delivery of federal, state, and local programs, and to provide communities with opportunities for productive and coordinated development beneficial to the well-being of communities and their residents. It is the intent of the legislature in this consolidation to maximize the use of local expertise and resources in the delivery of community and economic development services.

[1993 c 280 § 1.]

**RCW 43.330.007 Management responsibility.**

The purpose of this chapter is to establish the broad outline of the structure of the department of community, trade, and economic development, leaving specific details of its internal organization and management to those charged with its administration. Notes:

Intent--1999 c 384: "The legislature recognizes that the main and most enduring support for persons with
developmental disabilities, along with public resources, is their immediate and extended families. The legislature
recognizes that these families are searching for ways to provide for the long-term continuing care of their disabled
family member when the family can no longer provide that care. It is the intent of the legislature to encourage and
assist families to engage in long-range financial planning and to contribute to the lifetime care of their disabled
family member. To further these objectives, this chapter is enacted to finance lifetime services and supports for
persons with developmental disabilities through an endowment funded jointly by the investment of public funds and
dedicated family contributions.

The establishment of this endowment is not intended to diminish the state's responsibility for funding
services currently available to future endowment participants, subject to available funding, nor is it the intent of the
legislature, by the creation of this public/private endowment, to impose additional, unintended financial liabilities on
the public." [2000 c 120 § 1; 1999 c 384 § 1.]

investment and operating costs associated with the investment of money shall be paid under
RCW 43.33A.160 and 43.84.160. With the exception of these expenses, the earnings from the
investment of the money shall be retained by the fund.

(2) All investments made by the state investment board shall be made with the exercise of
that degree of judgment and care under RCW 43.33A.140 and the investment policy established
by the state investment board.

(3) As deemed appropriate by the investment board, money in the fund may be
commingled for investment with other funds subject to investment by the board.

RCW 43.330.220 Developmental disabilities endowment--Endowment principles.  
The design, implementation, and administration of the developmental disabilities endowment shall be governed by the following principles:

(1) The design and operation of the endowment should reward families who set aside resources for their child's future care and provide incentives for continued caregiving by the family.

(2) The endowment should encourage financial planning and reward caregiving by a broad range of families, not just those who have substantial financial resources.

(3) Families should not feel compelled to contribute to the endowment in order to meet the needs of continuing care for their child.

(4) All families should have equal access to developmental disabilities services not funded through the endowment regardless of whether they contribute to the endowment.

(5) Services funded through the endowment should be stable, ongoing, of reasonable quality, and respectful of individual and family preferences.

(6) Endowment resources should be expended economically in order to benefit as many families as possible.

(7) Endowment resources should be managed prudently so that families can be confident that their agreement with the endowment on behalf of their child will be honored.

(8) The private financial contribution on behalf of each person receiving services from the endowment shall be at least equal to the state's contribution to the endowment.

(9) In order to be matched with funding from the state's contribution to the endowment, the private contribution on behalf of a beneficiary must be sufficient to support the beneficiary's approved service plan for a significant portion of the beneficiary's anticipated remaining lifetime.

(10) The rate that state appropriations to the endowment are used to match private contributions shall be such that each legislative appropriation to the developmental disabilities endowment trust fund, including principal and investment income, is not depleted in a period of less than five years.

(11) Private contributions made on behalf of a particular individual, and the associated state match, shall only be used for services provided upon that person's behalf.

(12) State funds contributed to the developmental disabilities endowment trust fund are to
support the individual trust accounts established by individual private contributions made by families or other interested persons for named individual beneficiaries.

(13) The governing board shall explore methods to solicit private donations. The governing board shall explore mechanisms to support individuals with developmental disabilities who do not have individual private contributions made on their behalf. The governing board shall establish policies for the use of any private donations.

(14) Types of services funded by money managed through the developmental disabilities endowment trust fund shall be approved by the governing board or its designee.

**RCW 43.330.904** Transfer of certain state energy office powers, duties, and functions--References to director--Appointment of assistant director.

(1) All powers, duties, and functions of the state energy office relating to energy resource policy and planning and energy facility siting are transferred to the department of community, trade, and economic development. All references to the director or the state energy office in the Revised Code of Washington shall be construed to mean the director or the department of community, trade, and economic development when referring to the functions transferred in this section.

The director shall appoint an assistant director for energy policy, and energy policy staff shall have no additional responsibilities beyond activities concerning energy policy.

(b) Any appropriations made to the state energy office for carrying out the powers, functions, and duties transferred shall, on July 1, 1996, be transferred and credited to the department of community, trade, and economic development.

(c) Whenever any question arises as to the transfer of any funds, books, documents, records, papers, files, software, data base, equipment, or other tangible property used or held in the exercise of the powers and the performance of the duties and functions transferred, the director of financial management shall make a determination as to the proper allocation and certify the same to the state agencies concerned.

(3) All employees of the state energy office engaged in performing the powers, functions, and duties pertaining to the energy facility site evaluation council are transferred to the jurisdiction of the department of community, trade, and economic development. All employees engaged in energy facility site evaluation council duties classified under chapter 41.06 RCW, the state civil service law, are assigned to the department of community, trade, and economic development to perform their usual duties upon the same terms as formerly, without any loss of rights, subject to any action that may be appropriate thereafter in accordance with the laws and rules governing state civil service.

[1996 c 186 § 101.]

Notes:

Findings--Intent--1996 c 186: "The legislature finds responsibilities of state government need to be limited to core services in support of public safety and welfare. Services provided by the Washington state energy office are primarily advisory and can be eliminated. The legislature further finds a need to redefine the state's role in energy-related regulatory functions. The state may be better served by allowing regulatory functions to be performed by other appropriate entities, simplifying state government while maintaining core services. Further, it is the intent of the legislature that the state continue to receive oil overcharge restitution funds for our citizens while every effort is being made to maximize federal funds available for energy conservation purposes." **RCW 44.28.005 Definitions.**

Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

1. "Legislative auditor" means the executive officer of the joint legislative audit and review committee.

2. "Economy and efficiency audits" means performance audits that establish: (a) Whether a state agency or unit of local government receiving state funds is acquiring, protecting, and using its resources such as personnel, property, and space economically and efficiently; (b) the causes of inefficiencies or uneconomical practices; and (c) whether the state agency or local government has complied with significant laws and rules in acquiring, protecting, and using its resources.

3. "Final compliance report" means a written document, as approved by the joint committee, that states the specific actions a state agency or unit of local government receiving state funds has taken to implement recommendations contained in the final performance audit report and the preliminary compliance report. Any recommendations, including proposed legislation and changes in the agency's rules and practices or the local government's practices, based on testimony received, must be included in the final compliance report.

4. "Final performance audit report" means a written document adopted by the joint legislative audit and review committee that contains the findings and proposed recommendations made in the preliminary performance audit report, the final recommendations adopted by the joint committee, any comments to the preliminary performance audit report by the joint committee, and any comments to the preliminary performance audit report by the state agency or local government that was audited.

5. "Joint committee" means the joint legislative audit and review committee.

6. "Local government" means a city, town, county, special purpose district, political subdivision, municipal corporation, or quasi-municipal corporation, including a public corporation created by such an entity.

7. "Performance audit" means an objective and systematic assessment of a state agency or any of its programs, functions, or activities, or a unit of local government receiving state funds, by an independent evaluator in order to help public officials improve efficiency, effectiveness, and accountability. Performance audits include economy and efficiency audits and program audits. A performance audit of a local government may only be made to determine whether the local government is using state funds for their intended purpose in an efficient and effective manner.

8. "Performance measures" are a composite of key indicators of a program's or activity's inputs, outputs, outcomes, productivity, timeliness, and/or quality. They are means of evaluating...
policies and programs by measuring results against agreed upon program goals or standards.

(9) "Preliminary compliance report" means a written document that states the specific actions a state agency or unit of local government receiving state funds has taken to implement any recommendations contained in the final performance audit report.

(10) "Preliminary performance audit report" means a written document prepared for review and comment by the joint legislative audit and review committee after the completion of a performance audit. The preliminary performance audit report must contain the audit findings and any proposed recommendations to improve the efficiency, effectiveness, or accountability of the state agency or local government audited.

(11) "Program audits" means performance audits that determine: (a) The extent to which desired outcomes or results are being achieved; (b) the causes for not achieving intended outcomes or results; and (c) compliance with significant laws and rules applicable to the program.

(12) "State agency" or "agency" means a state agency, department, office, officer, board, commission, bureau, division, institution, or institution of higher education. "State agency" includes all elective offices in the executive branch of state government.

[1996 c 288 § 2.]

Notes:

**Findings and intent--1996 c 288:** "The public expects the legislature to address citizens' increasing demand for the basic services of state government, while limiting the growth in spending. The public demands that public officials and state employees be accountable to provide maximum value for every dollar entrusted to state government. The public believes that it is possible to improve the responsiveness of state government and to save the taxpayers' money, and that efficiency and effectiveness should result in savings.

The legislature, public officials, state employees, and citizens need to know the extent to which state agencies, programs, and activities are achieving the purposes for which they were created. It is essential to compare the conditions, problems, and priorities that led to the creation of government programs with current conditions, problems, and priorities, and to examine the need for and performance of those programs in the current environment.

Along with examining the performance of state agencies and programs, the legislature, public officials, state employees, and citizens must also consider the effect that state government programs can reasonably expect to have on citizens' lives, how the level of programs and services of Washington state government compares with that of other states, and alternatives for service delivery, including other levels of government and the private sector including not-for-profit organizations. It is essential that the legislature, public officials, state employees, and citizens share a common understanding of the role of state government. The performance and relative priority of state agency programs and activities must be the basis for managing and allocating resources within Washington state government.

It is the intent of the legislature to strengthen the role of the current legislative budget committee so that it may more effectively examine how efficiently state agencies perform their responsibilities and whether the agencies are achieving their goals, and whether units of local government are using state funds for their intended purpose in an efficient and effective manner. It is also the intent of the legislature to enact a clear set of definitions for different types of audits in order to eliminate confusion with regard to government reviews." [1996 c 288 § 1.]

**RCW 44.28.010 Committee created--Members.**

The joint legislative audit and review committee is created, which shall consist of eight senators and eight representatives from the legislature. The senate members of the committee

If before the close of a regular session during an odd-numbered year, the governor issues a proclamation convening the legislature into special session, or the legislature by resolution convenes the legislature into special session, following such regular session, then such appointments shall be made as a matter of closing business of such special session. Members shall be subject to confirmation, as to the senate members by the senate, and as to the house members by the house. In the event of a failure to appoint or confirm joint committee members, the members of the joint committee from either house in which there is a failure to appoint or confirm shall be elected by the members of such house.

**RCW 44.28.083 Performance audit work plans.**

(1) During the regular legislative session of each odd-numbered year, beginning with 1997, the joint legislative audit and review committee shall develop and approve a performance audit work plan for the subsequent sixteen to twenty-four-month period and an overall work plan that identifies state agency programs for which formal evaluation appears necessary. Among the factors to be considered in preparing the work plans are:

(a) Whether a program newly created or significantly altered by the legislature warrants continued oversight because (i) the fiscal impact of the program is significant, or (ii) the program represents a relatively high degree of risk in terms of reaching the stated goals and objectives for that program;

(b) Whether implementation of an existing program has failed to meet its goals and objectives by any significant degree; and

(c) Whether a follow-up audit would help ensure that previously identified recommendations for improvements were being implemented.

(2) The project description for each performance audit must include start and completion dates, the proposed approach, and cost estimates.

(3) The legislative auditor may consult with the chairs and staff of appropriate legislative committees, the state auditor, and the director of financial management in developing the performance audit work plan.

(4) The performance audit work plan and the overall work plan may include proposals to
employ contract resources. As conditions warrant, the performance audit work plan and the overall work plan may be amended from time to time. All performance audit work plans shall be transmitted to the appropriate fiscal and policy committees of the senate and the house of representatives no later than the sixtieth day of the regular legislative session of each odd-numbered year, beginning with 1997. All overall work plans shall be transmitted to the appropriate fiscal and policy committees of the senate and the house of representatives.

Notes:

Short title--1993 c 406: See note following RCW 43.88.020.

RCW 44.28.088 Performance audit reports--Preliminary, final.

(1) When the legislative auditor has completed a performance audit authorized in the performance audit work plan, the legislative auditor shall transmit the preliminary performance audit report to the affected state agency or local government and the office of financial management for comment. The agency or local government and the office of financial management shall provide any response to the legislative auditor within thirty days after receipt of the preliminary performance audit report unless a different time period is approved by the joint committee. The legislative auditor shall incorporate the response of the agency or local government and the office of financial management into the final performance audit report.

(2) Before releasing the results of a performance audit to the legislature or the public, the legislative auditor shall submit the preliminary performance audit report to the joint committee for its review, comments, and final recommendations. Any comments by the joint committee must be included as a separate addendum to the final performance audit report. Upon consideration and incorporation of the review, comments, and recommendations of the joint committee, the legislative auditor shall transmit the final performance audit report to the affected agency or local government, the director of financial management, the leadership of the senate and the house of representatives, and the appropriate standing committees of the house of representatives and the senate and shall publish the results and make the report available to the public. For purposes of this section, "leadership of the senate and the house of representatives" means the speaker of the house, the majority leaders of the senate and the house of representatives, the minority leaders of the senate and the house of representatives, the caucus chairs of both major political parties of the senate and the house of representatives, and the floor leaders of both major political parties of the senate and the house of representatives.

performance audit recommendations. The agency or local government may attach its comments to the joint committee's preliminary compliance report as a separate addendum.

(2) Within three months after the issuance of the preliminary compliance report, the joint committee may hold at least one public hearing and receive public testimony regarding the findings and recommendations contained in the preliminary compliance report. The joint committee may waive the public hearing requirement if the preliminary compliance report demonstrates that the agency or local government is in compliance with the audit recommendations. The joint committee shall issue any final compliance report within four weeks after the public hearing or hearings. The legislative auditor shall transmit the final compliance report in the same manner as a final performance audit is transmitted under RCW 44.28.088.

committee. The director shall provide the standard contract to county auditors.

(c) The contracts provided for in (a) and (b) of this subsection must contain at a minimum provisions that:

(i) Describe the responsibilities, and where applicable, the liability, of each party relating to the service expectations and levels, equipment to be supplied by the department, and equipment maintenance;

(ii) Require the specific type of insurance or bonds so that the state is protected against any loss of collected motor vehicle tax revenues or loss of equipment;

(iii) Specify the amount of training that will be provided by the state, the county auditor, or subagents;

(iv) Describe allowable costs that may be charged to vehicle licensing activities as provided for in (d) of this subsection;

(v) Describe the causes and procedures for termination of the contract, which may include mediation and binding arbitration.

(d) The department shall develop procedures that will standardize and prescribe allowable costs that may be assigned to vehicle licensing and vessel registration and title activities performed by county auditors.

(e) The contracts may include any provision that the director deems necessary to ensure acceptable service and the full collection of vehicle and vessel tax revenues.

(f) The director may waive any provisions of the contract deemed necessary in order to ensure that readily accessible service is provided to the citizens of the state.

(4)(a) At any time any application is made to the director, the county auditor, or other agent pursuant to any law dealing with licenses, registration, or the right to operate any vehicle or vessel upon the public highways or waters of this state, excluding applicants already paying such fee under RCW 46.16.070 or 46.16.085, the applicant shall pay to the director, county auditor, or other agent a fee of three dollars for each application in addition to any other fees required by law.

If the fee is paid to another agent of the director, the fee shall be used by the agent to defray his or her expenses in handling the application.

(5) A subagent shall collect a service fee of (a) seven dollars and fifty cents for changes in
a certificate of ownership, with or without registration renewal, or verification of record and preparation of an affidavit of lost title other than at the time of the title application or transfer and (b) three dollars for registration renewal only, issuing a transit permit, or any other service under this section.

(6) If the fee is collected by the state patrol as agent for the director, the fee so collected shall be certified to the state treasurer and deposited to the credit of the state patrol highway account. If the fee is collected by the department of transportation as agent for the director, the fee shall be certified to the state treasurer and deposited to the credit of the motor vehicle fund. All such fees collected by the director or branches of his office shall be certified to the state treasurer and deposited to the credit of the highway safety fund.

(7) Any county revenues that exceed the cost of providing vehicle licensing and vessel registration and title activities in a county, calculated in accordance with the procedures in subsection (3)(d) of this section, shall be expended as determined by the county legislative authority during the process established by law for adoption of county budgets.

(8) The director may adopt rules to implement this section.

RCW 46.08.065  Publicly owned vehicles to be marked--Exceptions.

(1) It is unlawful for any public officer having charge of any vehicle owned or controlled by any county, city, town, or public body in this state other than the state of Washington and used in public business to operate the same upon the public highways of this state unless and until there shall be displayed upon such automobile or other motor vehicle in letters of contrasting color not less than one and one-quarter inches in height in a conspicuous place on the right and left sides thereof, the name of such county, city, town, or other public body, together with the

This section shall not apply to vehicles of a sheriff's office, local police department, or any vehicles used by local peace officers under public authority for special undercover or confidential investigative purposes. This subsection shall not apply to: (a) Any municipal transit vehicle operated for purposes of providing public mass transportation; (b) any vehicle governed by the requirements of subsection (4) of this section; nor to (c) any motor vehicle on loan to a school district for driver training purposes. It shall be lawful and constitute compliance with the provisions of this section, however, for the governing body of the appropriate county, city, town, or public body other than the state of Washington or its agencies to adopt and use a distinctive insignia which shall be not less than six inches in diameter across its smallest dimension and which shall be displayed conspicuously on the right and left sides of the vehicle. Such insignia shall be in a color or colors contrasting with the vehicle to which applied for maximum visibility. The name of the public body owning or operating the vehicle shall also be included as part of or displayed above such approved insignia in colors contrasting with the vehicle in letters not less than one and one-quarter inches in height. Immediately below the lettering identifying the public entity and agency operating the vehicle or below an approved insignia shall appear the words "for official use only" in letters at least one inch high in a color contrasting with the color of the vehicle. The appropriate governing body may provide by rule or ordinance for marking of passenger motor vehicles as prescribed in subsection (2) of this section or for exceptions to the marking requirements for local governmental agencies for the same purposes and under the same circumstances as permitted for state agencies under subsection (3) of this section.

(2) Except as provided by subsections (3) and (4) of this section, passenger motor vehicles owned or controlled by the state of Washington, and purchased after July 1, 1989, must be plainly and conspicuously marked on the lower left-hand corner of the rear window with the name of the operating agency or institution or the words "state motor pool," as appropriate, the words "state of Washington -- for official use only," and the seal of the state of Washington or the appropriate agency or institution insignia, approved by the department of general administration. Markings must be on a transparent adhesive material and conform to the standards established by the department of general administration. For the purposes of this section, "passenger motor vehicles" means sedans, station wagons, vans, light trucks, or other motor vehicles under ten thousand pounds gross vehicle weight.

(3) Subsection (2) of this section shall not apply to vehicles used by the Washington state patrol for general undercover or confidential investigative purposes. Traffic control vehicles of the Washington state patrol may be exempted from the requirements of subsection (2) of this section at the discretion of the chief of the Washington state patrol. The department of general administration shall adopt general rules permitting other exceptions to the requirements of subsection (2) of this section for other vehicles used for law enforcement, confidential public health work, and public assistance fraud or support investigative purposes, for vehicles leased or rented by the state on a casual basis for a period of less than ninety days, and those provided for in RCW 46.08.066(3). subsection (2) of this section.

(4) Any motorcycle, vehicle over 10,000 pounds gross vehicle weight, or other vehicle that for structural reasons cannot be marked as required by subsection (1) or (2) of this section that is owned or controlled by the state of Washington or by any county, city, town, or other public body in this state and used for public purposes on the public highways of this state shall be conspicuously marked in letters of a contrasting color with the words "State of Washington" or the name of such county, city, town, or other public body, together with the name of the department or office that owns or controls the vehicle.

The term does not include a motor vehicle having a model year designation of a calendar year that is at least six years before the calendar year in which the vehicle was wrecked, destroyed, or damaged.

RCW 46.12.101 Transfer of ownership--Requirements--Penalty, exceptions.
A transfer of ownership in a motor vehicle is perfected by compliance with the requirements of this section.

(1) If an owner transfers his or her interest in a vehicle, other than by the creation, deletion, or change of a security interest, the owner shall, at the time of the delivery of the vehicle, execute an assignment to the transferee and provide an odometer disclosure statement under RCW 46.12.124 on the certificate of ownership or as the department otherwise prescribes, and cause the certificate and assignment to be transmitted to the transferee. The owner shall notify the department or its agents or subagents, in writing, on the appropriate form, of the date of the sale or transfer, the name and address of the owner and of the transferee, the transferee's driver's license number if available, and such description of the vehicle, including the vehicle identification number, the license plate number, or both, as may be required in the appropriate form provided or approved for that purpose by the department. The report of sale will be deemed properly filed if all information required in this section is provided on the form and includes a department-authorized notation that the document was received by the department, its agents, or subagents on or before the fifth day after the sale of the vehicle, excluding Saturdays, Sundays, and state and federal holidays. Agents and subagents shall immediately electronically transmit the seller's report of sale to the department. Reports of sale processed and recorded by the department's agents or subagents may be subject to fees as specified in RCW 46.01.140 (4)(a) or (5)(b).

(2) The requirements of subsection (1) of this section to provide an odometer disclosure statement apply to the transfer of vehicles held for lease when transferred to a lessee and then to the lessor at the end of the leasehold and to vehicles held in a fleet when transferred to a purchaser.

(3) Except as provided in RCW 46.70.122 the transferee shall within fifteen days after delivery to the transferee of the vehicle, execute the application for a new certificate of ownership in the same space provided therefor on the certificate or as the department prescribes,
and cause the certificates and application to be transmitted to the department.

(4) Upon request of the owner or transferee, a secured party in possession of the certificate of ownership shall, unless the transfer was a breach of its security agreement, either deliver the certificate to the transferee for transmission to the department or, when the secured party receives the owner's assignment from the transferee, it shall transmit the transferee's application for a new certificate, the existing certificate, and the required fee to the department. Compliance with this section does not affect the rights of the secured party.

(5) If a security interest is reserved or created at the time of the transfer, the certificate of ownership shall be retained by or delivered to the person who becomes the secured party, and the parties shall comply with the provisions of RCW 46.12.170.

(6) If the purchaser or transferee fails or neglects to make application to transfer the certificate of ownership and license registration within fifteen days after the date of delivery of the vehicle, he or she shall on making application for transfer be assessed a twenty-five dollar penalty on the sixteenth day and two dollars additional for each day thereafter, but not to exceed one hundred dollars. The director may by rule establish conditions under which the penalty will not be assessed when an application for transfer is delayed for reasons beyond the control of the purchaser. Conditions for not assessing the penalty may be established for but not limited to delays caused by:

(a) The department requesting additional supporting documents;
(b) Extended hospitalization or illness of the purchaser;
(c) Failure of a legal owner to release his or her interest;
(d) Failure, negligence, or nonperformance of the department, auditor, or subagent.
Failure or neglect to make application to transfer the certificate of ownership and license registration within forty-five days after the date of delivery of the vehicle is a misdemeanor.

(8) Once each quarter the department shall report to the department of revenue a list of those vehicles for which a seller's report has been received but no transfer of title has taken place.

Upon receipt of the certificate of ownership for the vehicle, or upon receipt of written confirmation that only an electronic record of ownership exists or that the certificate of ownership has been lost or destroyed, the selling dealer or new security interest holder shall promptly submit the same to the department together with an application for a new certificate of ownership containing the name and address of the secured party and tender the required fee as provided in RCW 46.12.095(1).

If the department is not satisfied as to the ownership of the vehicle or that there are no undisclosed security interests in it, the department may register the vehicle but shall either:

1. Withhold issuance of a certificate of ownership for a period of three years or until the applicant presents documents reasonably sufficient to satisfy the department as to the applicant's ownership of the vehicle and that there are no undisclosed security interests in it; or

2. As a condition of issuing a certificate of ownership, require the applicant to file with the department a bond for a period of three years in the form prescribed by the department and executed by the applicant. The bond shall be in an amount equal to one and one-half times the value of the vehicle as determined by the department and conditioned to indemnify any prior owner and secured party and any subsequent purchaser of the vehicle or person acquiring any security interest in it, and their respective successors in interest, against any expense, loss or damage, including reasonable attorney's fees, by reason of the issuance of the certificate of ownership of the vehicle or on account of any defect in or undisclosed security interest upon the right, title and interest of the applicant in and to the vehicle. Any such interested person has a right of action to recover on the bond for any breach of its conditions, but the aggregate liability of the surety to all persons shall not exceed the amount of the bond. At the end of three years or prior thereto if the vehicle is no longer registered in this state or when satisfactory evidence of ownership is surrendered to the department, the owner may apply to the department for a replacement certificate of ownership without reference to the bond.

**RCW 46.12.160 Refusal or cancellation of certificate--Notice--Penalty for subsequent operation.**

If the department determines at any time that an applicant for certificate of ownership or for a certificate of license registration for a vehicle is not entitled thereto, the department may refuse to issue such certificate or to license the vehicle and may, for like reason, after notice, and in the exercise of discretion, cancel license registration already acquired or any outstanding certificate of ownership. Notice of cancellation may be accomplished by sending a notice by first class mail using the last known address in department records for the registered or legal vehicle owner or owners, and recording the transmittal on an affidavit of first class mail. It shall then be unlawful for any person to remove, drive, or operate the vehicle until a proper certificate of ownership or license registration has been issued, and any person removing, driving, or operating

**RCW 46.12.170 Procedure when security interest is granted on vehicle.**

If, after a certificate of ownership is issued, a security interest is granted on the vehicle described therein, the registered owner or secured party shall, within ten days thereafter, present an application to the department, to which shall be attached the certificate of ownership last issued covering the vehicle, or such other documentation as may be required by the department, which application shall be upon a form approved by the department and shall be accompanied by a fee of one dollar and twenty-five cents in addition to all other fees. The department, if satisfied that there should be a reissue of the certificate, shall note such change upon the vehicle records and issue to the secured party a new certificate of ownership.

Whenever there is no outstanding secured obligation and no commitment to make advances and incur obligations or otherwise give value, the secured party must assign the certificate of ownership to the debtor or the debtor's assignee or transferee, and transmit the certificate to the department with an accompanying fee of one dollar and twenty-five cents in addition to all other fees. The department shall then issue a new certificate of ownership and transmit it to the owner. If the affected secured party fails to either assign the certificate of ownership to the debtor or the debtor's assignee or transferee or transmit the certificate of ownership to the department within ten days after proper demand, that secured party shall be liable to the debtor or the debtor's assignee or transferee for one hundred dollars, and in addition for any loss caused to the debtor or the debtor's assignee or transferee by such failure.

RCW 46.16.006 "Registration year" defined--Registration months--"Last day of the month."
   (1) The term "registration year" for the purposes of chapters 46.16, *82.44, and *82.50
RCW means the effective period of a vehicle license issued by the department. Such year commences at 12:01 a.m. on the date of the calendar year designated by the department and ends at 12:01 a.m. on the same date of the next succeeding calendar year. If a vehicle license previously issued in this state has expired and is renewed with a different registered owner, a new registration year is deemed to commence upon the date the expired license is renewed in order that the renewed license be usable for a full twelve-month period.

(2) Each registration year may be divided into twelve registration months. Each registration month commences on the day numerically corresponding to the day of the calendar month on which the registration year begins, and terminates on the numerically corresponding day of the next succeeding calendar month.

(3) Where the term "last day of the month" is used in chapters 46.16, 82.44, and 82.50 RCW in lieu of a specified day of any calendar month it means the last day of such calendar month or months irrespective of the numerical designation of that day.

(4) If the final day of a registration year or month falls on a Saturday, Sunday, or legal holiday, such period extends through the end of the next business day.

[1992 c 222 § 1; 1983 c 27 § 1; 1981 c 214 § 1; 1975 1st ex.s. c 118 § 1.]

Notes:

*Reviser's note: Chapter 82.50 RCW and the majority of chapter 82.44 RCW were repealed by 2000 c 1 § 3, effective January 1, 2000.

Effective date--1975 1st ex.s. c 118: "This 1975 amendatory act shall take effect on January 1, 1977: PROVIDED, That the director of the department of motor vehicles may, prior to such effective date, undertake and perform duties and conduct activities necessary for the timely implementation of this 1975 amendatory act on such date." [1975 1st ex.s. c 118 § 19.]

Severability--1975 1st ex.s. c 118: "If any provision of this 1975 amendatory act is declared unconstitutional, or the applicability thereof to any person or circumstances is held invalid, the constitutionality of the remainder of this 1975 amendatory act and the applicability thereof to persons and circumstances shall not be affected thereby." [1975 1st ex.s. c 118 § 18.]

RCW 46.16.010 Licenses and plates required--Penalties--Exceptions.

(1) It is unlawful for a person to operate any vehicle over and along a public highway of this state without first having obtained and having in full force and effect a current and proper vehicle license and display vehicle license number plates therefor as by this chapter provided. Failure to make initial registration before operation on the highways of this state is a misdemeanor, and any person convicted thereof must be punished by a fine of no less than three hundred thirty dollars, no part of which may be suspended or deferred.

Failure to renew an expired registration before operation on the highways of this state is a traffic infraction.

(2) The licensing of a vehicle in another state by a resident of this state, as defined in RCW 46.16.028, evading the payment of any tax or license fee imposed in connection with registration, is a gross misdemeanor punishable as follows:

amount of delinquent taxes and fees, no part of which may be suspended or deferred;

(b) For a second or subsequent offense, up to one year in the county jail and a fine equal to four times the amount of delinquent taxes and fees, no part of which may be suspended or deferred;

(c) For fines levied under (b) of this subsection, an amount equal to the avoided taxes and fees owed will be deposited in the vehicle licensing fraud account created in the state treasury;

(d) The avoided taxes and fees shall be deposited and distributed in the same manner as if the taxes and fees were properly paid in a timely fashion.

(3) These provisions shall not apply to the following vehicles:

(a) Electric-assisted bicycles;

(b) Farm vehicles if operated within a radius of fifteen miles of the farm where principally used or garaged, farm tractors and farm implements including trailers designed as cook or bunk houses used exclusively for animal herding temporarily operating or drawn upon the public highways, and trailers used exclusively to transport farm implements from one farm to another during the daylight hours or at night when such equipment has lights that comply with the law;

(c) Spray or fertilizer applicator rigs designed and used exclusively for spraying or fertilization in the conduct of agricultural operations and not primarily for the purpose of transportation, and nurse rigs or equipment auxiliary to the use of and designed or modified for the fueling, repairing, or loading of spray and fertilizer applicator rigs and not used, designed, or modified primarily for the purpose of transportation;

It includes, but is not limited to, road construction and maintenance machinery so designed and used such as portable air compressors, air drills, asphalt spreaders, bituminous mixers, bucket loaders, track laying tractors, ditches, leveling graders, finishing machines, motor graders, paving mixers, road rollers, scarifiers, earth moving scrapers and carryalls, lighting plants, welders, pumps, power shovels and draglines, self-propelled and tractor-drawn earth moving equipment and machinery, including dump trucks and tractor-dump trailer combinations which either (i) are in excess of the legal width, or (ii) which, because of their length, height, or unladen weight, may not be moved on a public highway without the permit specified in RCW 46.44.090 and which are not operated laden except within the boundaries of the project limits as defined by the contract, and other similar types of construction equipment, or (iii) which are driven or moved upon a public highway only for the purpose of crossing such highway from one property to another, provided such movement does not exceed
five hundred feet and the vehicle is equipped with wheels or pads which will not damage the roadway surface.

Exclusions:
"Special highway construction equipment" does not include any of the following:

Dump trucks originally designed to comply with the legal size and weight provisions of this code notwithstanding any subsequent modification which would require a permit, as specified in RCW 46.44.090, to operate such vehicles on a public highway, including trailers, truck-mounted transit mixers, cranes and shovels, or other vehicles designed for the transportation of persons or property to which machinery has been attached.

(4) The following vehicles, whether operated solo or in combination, are exempt from license registration and displaying license plates as required by this chapter:

Legislative intent--1989 c 192: "The legislature recognizes that there are residents of this state who intentionally register motor vehicles in other states to evade payment of taxes and fees required by the laws of this state. This results in a substantial loss of revenue to the state. It is the intent of the legislature to impose a stronger criminal penalty upon those residents who defraud the state, thereby enhancing compliance with the registration laws of this state and further enhancing enforcement and collection efforts.

In order to encourage voluntary compliance with the registration laws of this state, administrative penalties associated with failing to register a motor vehicle are waived until September 1, 1989. It is not the intent of the legislature to waive traffic infraction or criminal traffic violations imposed prior to July 23, 1989." [1989 c 192 § 1.]

Effective date--1989 c 192 § 2: "Section 2 of this act shall take effect September 1, 1989." [1989 c 192 § 3.]

Every truck, motor truck, truck tractor, and tractor exceeding 6,000 pounds empty scale weight registered under chapter 46.16, 46.87, or 46.88 RCW shall be licensed for not less than one hundred fifty percent of its empty weight unless the amount would be in excess of the legal limits prescribed for such a vehicle in RCW 46.44.041 or 46.44.042, in which event the vehicle shall be licensed for the maximum weight authorized for such a vehicle or unless the vehicle is used only for the purpose of transporting any well drilling machine, air compressor, rock crusher, conveyor, hoist, donkey engine, cook house, tool house, bunk house, or similar machine or structure attached to or made a part of such vehicle.

The following provisions apply when increasing gross or combined gross weight for a vehicle licensed under this section:

(a) The new license fee will be one-twelfth of the fee listed above for the new gross weight, multiplied by the number of months remaining in the period for which licensing fees have been paid, including the month in which the new gross weight is effective.

(b) Upon surrender of the current certificate of registration or cab card, the new licensing fees due shall be reduced by the amount of the licensing fees previously paid for the same period for which new fees are being charged.

(2) The proceeds from the fees collected under subsection (1) of this section shall be distributed in accordance with RCW 46.68.035.

RCW 46.16.090  **Gross weight fees on farm vehicles--Penalty.**

Motor trucks, truck tractors, and tractors may be specially licensed based on the declared gross weight thereof for the various amounts set forth in the schedule provided in RCW 46.16.070 less twenty-three dollars; divide the difference by two and add twenty-three dollars, when such vehicles are owned and operated by farmers, but only if the following condition or conditions exist:

(1) When such vehicles are to be used for the transportation of the farmer's own farm, orchard, or dairy products, or the farmer's own private sector cultured aquatic products as defined in RCW 15.85.020, from point of production to market or warehouse, and of supplies to be used on the farmer's farm. Fish other than those that are such private sector cultured aquatic products and forestry products are not considered as farm products; and/or

(2) When such vehicles are to be used for the infrequent or seasonal transportation by one farmer for another farmer in the farmer's neighborhood of products of the farm, orchard, dairy, or aquatic farm owned by the other farmer from point of production to market or warehouse, or supplies to be used on the other farm, but only if transportation for another farmer is for compensation other than money. Farmers shall be permitted an allowance of an additional eight thousand pounds, within the legal limits, on such vehicles, when used in the transportation of the farmer's own farm machinery between the farmer's own farm or farms and for a distance of not more than thirty-five miles from the farmer's farm or farms.

The department shall prepare special insignia which shall be placed upon all such vehicles to indicate that the vehicle is specially licensed, or may, in its discretion, substitute a special license plate for such vehicle for such designation.

Operation of such a specially licensed vehicle in transportation upon public highways in violation of the limitations of this section is a traffic infraction.

Notes:

**Application--1989 c 156:** See note following RCW 46.16.070.

**Effective date--1986 c 18; 1985 c 380:** See RCW 46.87.901.
RCW 46.16.111  **Gross weight, how computed.**

The gross weight in the case of any motor truck, tractor, or truck tractor shall be the scale weight of the motor truck, tractor, or truck tractor, plus the scale weight of any trailer, semitrailer, converter gear, or pole trailer to be towed thereby, to which shall be added the weight of the maximum load to be carried thereon or towed thereby as set by the licensee in the application if it does not exceed the weight limitations prescribed by chapter 46.44 RCW. If the sum of the scale weight and maximum load of the trailer is not greater than four thousand pounds, that sum shall not be computed as part of the gross weight of any motor truck, tractor, or truck tractor. Where the trailer is a utility trailer, travel trailer, horse trailer, or boat trailer, for the personal use of the owner of the truck, tractor, or truck tractor, and not for sale or commercial purposes, the gross weight of such trailer and its load shall not be computed as part of the gross weight of any motor truck, tractor, or truck tractor. The weight of any camper is exempt from the determination of gross weight in the computation of any licensing fees required under RCW 46.16.070.

The gross weight in the case of any bus, auto stage, or for hire vehicle, except taxicabs, with a seating capacity over six, shall be the scale weight of each bus, auto stage, and for hire vehicle plus the seating capacity, including the operator's seat, computed at one hundred and fifty pounds per seat.

If the resultant gross weight, according to this section, is not listed in RCW 46.16.070, it shall be increased to the next higher gross weight so listed pursuant to chapter 46.44 RCW.

RCW 46.16.121  **Seating capacity fees on stages, for hire vehicles.**

In addition to other fees for the licensing of vehicles, there shall be paid and collected annually, for each auto stage and for hire vehicle, except taxicabs, with a seating capacity of six or less the sum of fifteen dollars.

However, in the case of each auto stage propelled by steam, electricity, natural gas, diesel oil, butane, or propane, the payment required in this section is twenty cents per one hundred miles of such operation. The commission shall transmit all sums so collected to the state treasurer, who shall deposit the same in the motor vehicle fund. Any person failing to make any payment required by this section is subject to a penalty of one hundred percent of the payment due in this section, in addition to any penalty provided for failure to submit a report. Any penalties so collected shall be credited to the public service revolving fund.

Notes: Severability--Effective dates--1967 ex.s. c 83: See RCW 47.26.900 and 47.26.910.

**RCW 46.16.135** Monthly license fee--Penalty.

The annual vehicle licensing fees as provided in RCW 46.16.070 for any motor vehicle or combination of vehicles having a declared gross weight in excess of twelve thousand pounds may be paid for any full registration month or months at one-twelfth of the usual annual fee plus two dollars, this sum to be multiplied by the number of full months for which the fees are paid if for less than a full year. An additional fee of two dollars shall be collected each time a license fee is paid.

Operation of a vehicle licensed under the provisions of this section by any person upon the public highways after the expiration of the monthly license is a traffic infraction, and in addition the person shall be required to pay a license fee for the vehicle involved covering an entire registration year's operation, less the fees for any registration month or months of the registration year already paid. If, within five days, no license fee for a full registration year has been paid as required aforesaid, the Washington state patrol, county sheriff, or city police shall impound such vehicle in such manner as may be directed for such cases by the chief of the Washington state patrol, until such requirement is met.

**RCW 46.16.140** Overloading licensed capacity--Additional
license—Penalties—Exceptions.

It is a traffic infraction for any person to operate, or cause, permit, or suffer to be operated upon a public highway of this state any bus, auto stage, motor truck, truck tractor, or tractor, with passengers, or with a maximum gross weight, in excess of that for which the motor vehicle or combination is licensed.

Any person who operates or causes to be operated upon a public highway of this state any motor truck, truck tractor, or tractor with a maximum gross weight in excess of the maximum gross weight for which the vehicle is licensed shall be deemed to have set a new maximum gross weight and shall, in addition to any penalties otherwise provided, be required to purchase a new license covering the new maximum gross weight, and any failure to secure such new license is a traffic infraction. No such person may be permitted or required to purchase the new license for a gross weight or combined gross weight which would exceed the maximum gross weight or combined gross weight allowed by law. This section does not apply to for hire vehicles, buses, or auto stages operating principally within cities and towns.

RCW 46.16.160 Vehicle trip permits--Restrictions and requirements--Fees and taxes--Penalty--Rules.

(1) The owner of a vehicle which under reciprocal relations with another jurisdiction would be required to obtain a license registration in this state or an unlicensed vehicle which would be required to obtain a license registration for operation on public highways of this state may, as an alternative to such license registration, secure and operate such vehicle under authority of a trip permit issued by this state in lieu of a Washington certificate of license registration, and licensed gross weight if applicable. The licensed gross weight may not exceed eighty thousand pounds for a combination of vehicles nor forty thousand pounds for a single unit vehicle with three or more axles. Trip permits may also be issued for movement of mobile homes pursuant to RCW 46.44.170. For the purpose of this section, a vehicle is considered unlicensed if the licensed gross weight currently in effect for the vehicle or combination of vehicles is not adequate for the load being carried. Vehicles registered under RCW 46.16.135 shall not be operated under authority of trip permits in lieu of further registration within the same registration year.

(2) Each trip permit shall authorize the operation of a single vehicle at the maximum legal weight limit for such vehicle for a period of three consecutive days commencing with the day of first use. No more than three such permits may be used for any one vehicle in any period of thirty consecutive days, except that in the case of a recreational vehicle as defined in RCW 43.22.335, no more than two trip permits may be used for any one vehicle in a one-year period. Every permit shall identify, as the department may require, the vehicle for which it is issued and shall be completed in its entirety and signed by the operator before operation of the vehicle on the public highways of this state. Correction of data on the permit such as dates, license number, or vehicle identification number invalidates the permit. The trip permit shall be displayed on the vehicle to which it is issued as prescribed by the department.

(3) Vehicles operating under authority of trip permits are subject to all laws, rules, and regulations affecting the operation of like vehicles in this state.

(4) Prorate operators operating commercial vehicles on trip permits in Washington shall retain the customer copy of such permit for four years.

(5) Trip permits may be obtained from field offices of the department of transportation, Washington state patrol, department of licensing, or other agents appointed by the department. For each permit issued, there shall be collected a filing fee as provided by RCW 46.01.140, an administrative fee of eight dollars, and an excise tax of one dollar. If the filing fee amount of one
Revised Code of Washington 2000

dollar prescribed by RCW 46.01.140 is increased or decreased after January 1, 1981, the
administrative fee shall be adjusted to compensate for such change to insure that the total amount
collected for the filing fee, administrative fee, and excise tax remain at ten dollars. These fees
and taxes are in lieu of all other vehicle license fees and taxes. No exchange, credits, or refunds
may be given for trip permits after they have been purchased.

(6) The department may appoint county auditors or businesses as agents for the purpose
of selling trip permits to the public. County auditors or businesses so appointed may retain the
filing fee collected for each trip permit to defray expenses incurred in handling and selling the
permits.

(7) A violation of or a failure to comply with any provision of this section is a gross
misdemeanor.

(8) The department of licensing may adopt rules as it deems necessary to administer this
section.

(9) A surcharge of five dollars is imposed on the issuance of trip permits. The portion of
the surcharge paid by motor carriers must be deposited in the motor vehicle fund for the purpose
of supporting vehicle weigh stations, weigh-in-motion programs, and the commercial vehicle
information systems and networks program. The remaining portion of the surcharge must be
deposited in the motor vehicle fund for the purpose of supporting congestion relief programs. All
other administrative fees and excise taxes collected under the provisions of this chapter shall be
forwarded by the department with proper identifying detailed report to the state treasurer who
shall deposit the administrative fees to the credit of the motor vehicle fund and the excise taxes to
the credit of the general fund. Filing fees will be forwarded and reported to the state treasurer by
the department as prescribed in RCW 46.01.140.

(2) Application for the renewal of a vehicle license shall be made to the director or his agents, including county auditors, by the registered owner on a form prescribed by the director. The application must be accompanied by the certificate of registration for the last registration period in which the vehicle was registered in Washington unless the applicant submits a preprinted application mailed from Olympia, and the payment of such license fees and excise tax as may be required by law. For the purposes of this section, "listed" standing, stopping, and parking violations include only those violations for which notice has been received from local agencies by the department one hundred twenty days or more before the date the vehicle license expires and that are placed on the records of the department. Notice of such violations received by the department later than one hundred twenty days before that date that are not satisfied shall be considered by the department in connection with any applications for license renewal in any subsequent license year. The renewal application may be processed by the department or its agents only if the applicant:

unused portion of the licensing fee paid for the vehicle or may transfer such credit to the new owner if desired:

(1) The licensing fee paid for the motor vehicle will be reduced by one-twelfth for each calendar month and fraction thereof elapsing between the first month of the current registration year in which the motor vehicle was registered and the month the registrant surrenders the vehicle's registration certificate for the registration year to the department or an authorized agent of the department.

Notes:

Reviser's note: This section was amended by 1997 c 241 § 10 and by 1997 c 291 § 6, each without reference to the other. Both amendments are incorporated in the publication of this section under RCW 1.12.025(2). For rule of construction, see RCW 1.12.025(1).

Finding--1997 c 291: "The legislature finds that the proliferation of special license plate series has decreased the ready identification of vehicles by law enforcement, and increased the amount of computer programming conducted by the department of licensing, thereby increasing costs. Furthermore, rarely has the actual demand for special license plates met the requesters' projections. Most importantly, special plates detract from the primary purpose of license plates, that of vehicle identification." [1997 c 291 § 1.]

Knowingly providing false information in conjunction with the application is a gross misdemeanor punishable under chapter 9A.20 RCW. The following statement must appear on each application form immediately below the physician's signature and immediately below the applicant's signature: "A disabled parking permit may be issued only for a medical necessity that severely affects mobility (RCW 46.16.381). Knowingly providing false information on this application is a gross misdemeanor. The penalty is up to one year in jail and a fine of up to $5,000 or both."

(3) Persons who qualify for special parking privileges are entitled to receive from the department of licensing a removable windshield placard bearing the international symbol of access and an individual serial number, along with a special identification card bearing the name and date of birth of the person to whom the placard is issued, and the placard's serial number. By July 1, 2001, the department shall incorporate a photograph of the holder of the disabled parking permit into all special identification cards issued after that date. The department, in conjunction with the governor's committee on disability issues and employment, shall assess options for issuing a photo identification card to each person who qualifies for a permanent parking placard, a temporary parking placard, or a special disabled parking license plate and report findings to the legislative transportation committee no later than December 31, 2000. Instead of regular motor vehicle license plates, disabled persons are entitled to receive special license plates bearing the international symbol of access for one vehicle registered in the disabled person's name. Public transportation authorities, nursing homes, boarding homes, senior citizen centers, private nonprofit agencies, and cabulance services are responsible for insuring that the special placards and license plates are not used improperly and are responsible for all fines and penalties for improper use.

(4) Whenever the disabled person transfers or assigns his or her interest in the vehicle, the special license plates shall be removed from the motor vehicle. If another vehicle is acquired by the disabled person and the vehicle owner qualifies for a special plate, the plate shall be attached to the vehicle, and the director shall be immediately notified of the transfer of the plate. If another vehicle is not acquired by the disabled person, the removed plate shall be immediately surrendered to the director.

(5) The special license plate shall be renewed in the same manner and at the time required for the renewal of regular motor vehicle license plates under this chapter. No special license plate may be issued to a person who is temporarily disabled. A person who has a condition expected to improve within six months may be issued a temporary placard for a period not to exceed six months. If the condition exists after six months a new temporary placard shall be issued upon receipt of a new certification from the disabled person's physician. The permanent parking placard and identification card of a disabled person shall be renewed at least every five years, as required by the director, by satisfactory proof of the right to continued use of the privileges. In the event of the permit holder's death, the parking placard and identification card must be immediately surrendered to the department. The department shall match and purge its disabled permit data base with available death record information at least every twelve months.

(6) Each person who has been issued a permanent disabled parking permit on or before July 1, 1998, must renew the permit no later than July 1, 2003, subject to a schedule to be set by the department, or the permit will expire.

(7) Additional fees shall not be charged for the issuance of the special placards or the identification cards. No additional fee may be charged for the issuance of the special license plates except the regular motor vehicle registration fee and any other fees and taxes required to be paid upon registration of a motor vehicle.

(8) Any unauthorized use of the special placard, special license plate, or identification card is a traffic infraction with a monetary penalty of two hundred fifty dollars.

(9) It is a parking infraction, with a monetary penalty of two hundred fifty dollars for a person to make inaccessible the access aisle located next to a space reserved for physically disabled persons. The clerk of the court shall report all violations related to this subsection to the department.
(10) It is a parking infraction, with a monetary penalty of two hundred fifty dollars for any person to park a vehicle in a parking place provided on private property without charge or on public property reserved for physically disabled persons without a special license plate or placard. If a person is charged with a violation, the person shall not be determined to have committed an infraction if the person produces in court or before the court appearance the special license plate or placard required under this section. A local jurisdiction providing nonmetered, on-street parking places reserved for physically disabled persons may impose by ordinance time restrictions of no less than four hours on the use of these parking places. A local jurisdiction may impose by ordinance time restrictions of no less than four hours on the use of nonreserved, on-street parking spaces by vehicles displaying the special parking placards. All time restrictions must be clearly posted.

The court may also impose an additional penalty sufficient to reimburse the local jurisdiction for any costs it may have incurred in removal and storage of the improperly parked vehicle.

(12) Except as provided by subsection (2) of this section, it is a traffic infraction with a monetary penalty of two hundred fifty dollars for any person willfully to obtain a special license plate, placard, or identification card in a manner other than that established under this section.

Volunteers must be at least twenty-one years of age. The law enforcement agency appointing volunteers may establish any other qualifications the agency deems desirable.

(b) An agency appointing volunteers under this section must provide training to the volunteers before authorizing them to issue notices of infractions.

(c) A notice of infraction issued by a volunteer appointed under this subsection has the same force and effect as a notice of infraction issued by a police officer for the same offense.

(d) A police officer or a volunteer may request a person to show the person's identification card or special parking placard when investigating the possibility of a violation of this section. If the request is refused, the person in charge of the vehicle may be issued a notice of infraction for a violation of this section.

(14) For second or subsequent violations of this section, in addition to a monetary fine, the violator must complete a minimum of forty hours of:

(a) Community service for a nonprofit organization that serves the disabled community or persons having disabling diseases; or

(b) Any other community service that may sensitize the violator to the needs and obstacles faced by persons who have disabilities.

RCW 46.16.560 Personalized license plates--Defined.

Personalized license plates, as used in this chapter, means license plates that have displayed upon them the registration number assigned to the vehicle or camper for which such registration number was issued in a combination of letters or numbers, or both, requested by the owner of the vehicle or camper in accordance with this chapter.

[1975 c 59 § 1; 1973 1st ex.s. c 200 § 2.]

Notes:
Personalized license plates--Legislative declaration: "It is declared to be the public policy of the state of Washington to direct financial resources of this state toward the support and aid of the wildlife resources existing within the state of Washington in order that the general welfare of these inhabitants of the state be served. For the purposes of *this chapter, wildlife resources are understood to be those species of wildlife other than that managed by the department of fisheries under their existing jurisdiction as well as all unclassified marine fish, shellfish, and marine invertebrates which shall remain under the jurisdiction of the director of fisheries. The legislature further finds that the preservation, protection, perpetuation, and enhancement of such wildlife resources of the state is of major concern to it, and that aid for a satisfactory environment and ecological balance in this state for such wildlife resources serves a public interest, purpose, and desire.

It is further declared that such preservation, protection, perpetuation, and enhancement can be fostered through financial support derived on a voluntary basis from those citizens of the state of Washington who wish to assist in such objectives; that a desirable manner of accomplishing this is through offering personalized license plates for certain vehicles and campers the fees for which are to be directed to the state treasury to the credit of the state **game fund for the furtherance of the programs, policies, and activities of the state **game department in preservation, protection, perpetuation, and enhancement of the wildlife resources that abound within the geographical limits of the state of Washington.

In particular, the legislature recognizes the benefit of this program to be specifically directed toward those species of wildlife including but not limited to song birds, protected wildlife, rare and endangered wildlife, aquatic life, and specialized-habitat types, both terrestrial and aquatic, as well as all unclassified marine fish, shellfish, and marine invertebrates which shall remain under the jurisdiction of the director of fisheries that exist within the limits of the state of Washington." [1975 c 59 § 7; 1973 1st ex.s. c 200 § 1. Formerly RCW 77.12.175.]

Reviser's note: *(1) The term "this chapter" refers to chapter 77.12 RCW, where this section was originally codified, pursuant to legislative directive, as RCW 77.12.175. It was subsequently decodified by 1980 c 78
§ 32.

[1975 c 59 § 5; 1973 1st ex.s. c 200 § 8.]

**RCW 46.16.595  Personalized license plates--Transfer or surrender upon sale or release of vehicle--Penalty.**

(2) On the basis of the evaluation the department may:

(ii) Limitations on the type of motor vehicle that the licensee may operate; or
(iii) Other restrictions determined by the department to be appropriate to assure the

(5) Operating a motor vehicle in violation of the restrictions imposed in a restricted
license is a traffic infraction.

Notes:

Reviser's note--Sunset Act application: The intermediate driver's license program is subject to review, termination, and possible extension under chapter 43.131 RCW, the Sunset Act. See RCW 43.131.397. RCW 46.20.075, 46.20.267, and 28A.220.070; 2000 c 115 § 1 (uncodified); and the 2000 c 115 amendments to RCW 46.20.105, 46.20.161, 46.20.311, and 46.20.342 are scheduled for future repeal under RCW 43.131.398.

Finding--2000 c 115: "The legislature has recognized the need to develop a graduated licensing system in light of the disproportionately high incidence of motor vehicle crashes involving youthful motorists. This system will improve highway safety by progressively developing and improving the skills of younger drivers in the safest possible environment, thereby reducing the number of vehicle crashes." [2000 c 115 § 1.]

Effective date--2000 c 115 §§ 1-10: "Sections 1 through 10 of this act take effect July 1, 2001." [2000 c 115 § 14.]

[1999 c 6 § 17; 1977 ex.s. c 27 § 2.]

Notes:

Intent--1999 c 6: See note following RCW 46.04.168.
Purpose--1977 ex.s. c 27: "The legislature finds that the falsification of cards and licenses is a serious
social problem creating economic hardship and problems which impede the efficient conduct of commerce and
government. The legislature is particularly concerned that the increasing use of false drivers' licenses and identicards
to purchase liquor, to cash bad checks, and to obtain food stamps and other benefits is causing the loss of liquor
licenses, the loss of jobs, the loss of income, and the loss of human life in addition to significant monetary losses in
business and government. It is the purpose of RCW 46.20.114 to require an effective means of rendering drivers'
licenses and identicards as immune as possible from alteration and counterfeiting in order to promote the public
health and safety of the people of this state." [1977 ex.s. c 27 § 1.]

RCW 46.20.117 Identicards.
(1) Issuance. The department shall issue an identicard, containing a picture, if the
applicant:
(a) Does not hold a valid Washington driver's license;
(b) Proves his or her identity as required by RCW 46.20.035; and
(c) Pays the required fee. The fee is four dollars unless an applicant is a recipient of
continuing public assistance grants under Title 74 RCW, who is referred in writing by the
secretary of social and health services. For those persons the fee must be the actual cost of
production of the identicard.

(2) Design and term. The identicard must:
(a) Be distinctly designed so that it will not be confused with the official driver's license;
and
(b) Expire on the fifth anniversary of the applicant's birthdate after issuance.

(3) Cancellation. The department may cancel an identicard if the holder of the identicard
used the card or allowed others to use the card in violation of RCW 46.20.0921.

Notes:

Intent--1999 c 6: See note following RCW 46.04.168.

the health, safety, and welfare of the people by improving the operation and administration of state government."

RCW 46.20.118 Negative file.
The department shall maintain a negative file. It shall contain negatives of all pictures
taken by the department of licensing as authorized by RCW 46.20.070 through 46.20.119. Negatives in the file shall not be available for public inspection and copying under chapter 42.17 RCW. The department may make the file available to official governmental enforcement agencies to assist in the investigation by the agencies of suspected criminal activity. The department may also provide a print to the driver's next of kin in the event the driver is deceased.

[1990 c 250 § 37; 1981 c 22 § 1; 1979 c 158 § 149; 1969 ex.s. c 155 § 5.]

Notes:
Severability--1990 c 250: See note following RCW 46.16.301.
Purpose--1969 ex.s. c 155: "The identification of the injured or the seriously ill is often difficult. The need for an identification file to facilitate use by proper law enforcement officers has hampered law enforcement. Personal identification for criminal, personal and commercial reasons is becoming most important at a time when it is increasingly difficult to accomplish. The legislature finds that the public health and welfare requires a standard and readily recognizable means of identification of each person living within the state. The legislature further finds that the need for an identification file by law enforcement agencies must be met. The use of photographic drivers' licenses will greatly aid the problem, but some means of identification must be provided for persons who do not possess a driver's license. The purpose of this 1969 amendatory act is to provide for the positive identification of persons, both through an expanded use of drivers' licenses and also through issue of personal identification cards for nondrivers."
[1969 ex.s. c 155 § 1.]
Effective date--1969 ex.s. c 155: "This 1969 amendatory act shall take effect September 1, 1969." [1969 ex.s. c 155 § 7.]

RCW 46.20.119 Reasonable rules.
The rules and regulations adopted pursuant to RCW 46.20.070 through 46.20.119 shall be reasonable in view of the purposes to be served by RCW 46.20.070 through 46.20.119.

RCW 46.20.120 Examinations--Waiver--Out-of-state renewals--Fees.
An applicant for a new or renewed driver's license must successfully pass a driver licensing examination to qualify for a driver's license. The department shall give examinations at places and times reasonably available to the people of this state.

(1) Waiver. The department may waive:
(a) All or any part of the examination of any person applying for the renewal of a driver's license unless the department determines that the applicant is not qualified to hold a driver's license under this title; or
(b) The actual demonstration of the ability to operate a motor vehicle if the applicant:
(i) Surrenders a valid driver's license issued by the person's previous home state; and
(ii) Is otherwise qualified to be licensed.

(2) Fee. Each applicant for a new license must pay an examination fee of seven dollars.
(a) The examination fee is in addition to the fee charged for issuance of the license.
(b) "New license" means a license issued to a driver:
(i) Who has not been previously licensed in this state; or
(ii) Whose last previous Washington license has been expired for more than five years.

(3) A person whose license expired or will expire on or after January 1, 1998, while he or she was or is living outside the state may:
   (a) Apply to the department to extend the validity of his or her license for no more than twelve months. If the person establishes to the department's satisfaction that he or she is unable to return to Washington before the date his or her license expires, the department shall extend the person's license. The department may grant consecutive extensions, but in no event may the cumulative total of extensions exceed twelve months. An extension granted under this section does not change the expiration date of the license for purposes of RCW 46.20.181. The department shall charge a fee of five dollars for each license extension;
   (b) Apply to the department to renew his or her license by mail. If the person establishes to the department's satisfaction that he or she is unable to return to Washington within twelve months of the date that his or her license expires, the department shall renew the person's license by mail. If a person qualifies for a mail-in renewal he or she is not required to pass an examination nor provide an updated photograph. He or she must, however, pay the fee required by RCW 46.20.181 plus an additional five-dollar mail-in renewal fee. A license renewed by mail that does not include a photograph of the licensee must be labeled "not valid for identification purposes."

(4) If a person's driver's license is extended or renewed under subsection (3) of this section while he or she is outside the state, he or she must submit to the examination required under this section within sixty days of returning to this state. The department will not assess a penalty or examination fee for the examination.

RCW 46.20.305 Incompetent, unqualified driver--Reexamination--Physician's certificate--Action by department.

(1) The department, having good cause to believe that a licensed driver is incompetent or otherwise not qualified to be licensed may upon notice require him or her to submit to an examination.

(2) The department shall require a driver reported under RCW 46.52.070 (2) and (3) to submit to an examination. The examination must be completed no later than one hundred twenty days after the accident report required under RCW 46.52.070(2) is received by the department unless the department, at the request of the operator, extends the time for examination.

(3) The department may in addition to an examination under this section require such person to obtain a certificate showing his or her condition signed by a licensed physician or other proper authority designated by the department.

(4) Upon the conclusion of an examination under this section the department shall take driver improvement action as may be appropriate and may suspend or revoke the license of such person or permit him or her to retain such license, or may issue a license subject to restrictions as permitted under RCW 46.20.041. The department may suspend or revoke the license of such person who refuses or neglects to submit to such examination.

(5) The department may require payment of a fee by a person subject to examination under this section. The department shall set the fee in an amount that is sufficient to cover the
RCW 46.20.308  Implied consent--Test refusal--Procedures.

(1) Any person who operates a motor vehicle within this state is deemed to have given consent, subject to the provisions of RCW 46.61.506, to a test or tests of his or her breath or blood for the purpose of determining the alcohol concentration or presence of any drug in his or her breath or blood if arrested for any offense where, at the time of the arrest, the arresting officer has reasonable grounds to believe the person had been driving or was in actual physical control of a motor vehicle while under the influence of intoxicating liquor or any drug or was in violation of RCW 46.61.503.

(2) The test or tests of breath shall be administered at the direction of a law enforcement officer having reasonable grounds to believe the person to have been driving or in actual physical control of a motor vehicle within this state while under the influence of intoxicating liquor or any drug or the person to have been driving or in actual physical control of a motor vehicle while having alcohol in a concentration in violation of RCW 46.61.503 in his or her system and being under the age of twenty-one. However, in those instances where the person is incapable due to physical injury, physical incapacity, or other physical limitation, of providing a breath sample or where the person is being treated in a hospital, clinic, doctor's office, emergency medical vehicle, ambulance, or other similar facility in which a breath testing instrument is not present or where the officer has reasonable grounds to believe that the person is under the influence of a drug, a blood test shall be administered by a qualified person as provided in RCW 46.61.506(4). The officer shall inform the person of his or her right to refuse the breath or blood test, and of his or her right to have additional tests administered by any qualified person of his or her choosing as provided in RCW 46.61.506. The officer shall warn the driver that:

(a) His or her license, permit, or privilege to drive will be revoked or denied if he or she refuses to submit to the test;

(b) His or her license, permit, or privilege to drive will be suspended, revoked, or denied if the test is administered and the test indicates the alcohol concentration of the person's breath or blood is 0.08 or more, in the case of a person age twenty-one or over, or in violation of RCW 46.61.502, 46.61.503, or 46.61.504 in the case of a person under age twenty-one; and

(c) His or her refusal to take the test may be used in a criminal trial.

(3) Except as provided in this section, the test administered shall be of the breath only. If an individual is unconscious or is under arrest for the crime of vehicular homicide as provided in RCW 46.61.520 or vehicular assault as provided in RCW 46.61.522, or if an individual is under arrest for the crime of driving while under the influence of intoxicating liquor or drugs as provided in RCW 46.61.502, which arrest results from an accident in which there has been serious bodily injury to another person, a breath or blood test may be administered without the
consent of the individual so arrested.

(4) Any person who is dead, unconscious, or who is otherwise in a condition rendering him or her incapable of refusal, shall be deemed not to have withdrawn the consent provided by subsection (1) of this section and the test or tests may be administered, subject to the provisions of RCW 46.61.506, and the person shall be deemed to have received the warnings required under subsection (2) of this section.

(5) If, following his or her arrest and receipt of warnings under subsection (2) of this section, the person arrested refuses upon the request of a law enforcement officer to submit to a test or tests of his or her breath or blood, no test shall be given except as authorized under subsection (3) or (4) of this section.

(6) If, after arrest and after the other applicable conditions and requirements of this section have been satisfied, a test or tests of the person's blood or breath is administered and the test results indicate that the alcohol concentration of the person's breath or blood is 0.08 or more if the person is age twenty-one or over, or is in violation of RCW 46.61.502, 46.61.503, or 46.61.504 if the person is under the age of twenty-one, or the person refuses to submit to a test, the arresting officer or other law enforcement officer at whose direction any test has been given, or the department, where applicable, if the arrest results in a test of the person's blood, shall:

(a) Serve notice in writing on the person on behalf of the department of its intention to suspend, revoke, or deny the person's license, permit, or privilege to drive as required by subsection (7) of this section;

(b) Serve notice in writing on the person on behalf of the department of his or her right to a hearing, specifying the steps he or she must take to obtain a hearing as provided by subsection (8) of this section;

(c) Mark the person's Washington state driver's license or permit to drive, if any, in a manner authorized by the department;

(d) Serve notice in writing that the marked license or permit, if any, is a temporary license that is valid for sixty days from the date of arrest or from the date notice has been given in the event notice is given by the department following a blood test, or until the suspension, revocation, or denial of the person's license, permit, or privilege to drive is sustained at a hearing pursuant to subsection (8) of this section, whichever occurs first. No temporary license is valid to any greater degree than the license or permit that it replaces; and

(e) Immediately notify the department of the arrest and transmit to the department within seventy-two hours, except as delayed as the result of a blood test, a sworn report or report under a declaration authorized by RCW 9A.72.085 that states:

(i) That the officer had reasonable grounds to believe the arrested person had been driving or was in actual physical control of a motor vehicle within this state while under the influence of intoxicating liquor or drugs, or both, or was under the age of twenty-one years and had been driving or was in actual physical control of a motor vehicle while having an alcohol concentration in violation of RCW 46.61.503;

(ii) That after receipt of the warnings required by subsection (2) of this section the person refused to submit to a test of his or her blood or breath, or a test was administered and the results
indicated that the alcohol concentration of the person's breath or blood was 0.08 or more if the person is age twenty-one or over, or was in violation of RCW 46.61.502, 46.61.503, or 46.61.504 if the person is under the age of twenty-one; and

(iii) Any other information that the director may require by rule.

(7) The department of licensing, upon the receipt of a sworn report or report under a declaration authorized by RCW 9A.72.085 under subsection (6)(e) of this section, shall suspend, revoke, or deny the person's license, permit, or privilege to drive or any nonresident operating privilege, as provided in RCW 46.20.3101, such suspension, revocation, or denial to be effective beginning sixty days from the date of arrest or from the date notice has been given in the event notice is given by the department following a blood test, or when sustained at a hearing pursuant to subsection (8) of this section, whichever occurs first.

(8) A person receiving notification under subsection (6)(b) of this section may, within thirty days after the notice has been given, request in writing a formal hearing before the department. The person shall pay a fee of one hundred dollars as part of the request. If the request is mailed, it must be postmarked within thirty days after receipt of the notification. Upon timely receipt of such a request for a formal hearing, including receipt of the required one hundred dollar fee, the department shall afford the person an opportunity for a hearing. The department may waive the required one hundred dollar fee if the person is an indigent as defined in RCW 10.101.010. Except as otherwise provided in this section, the hearing is subject to and shall be scheduled and conducted in accordance with RCW 46.20.329 and 46.20.332. The hearing shall be conducted in the county of the arrest, except that all or part of the hearing may, at the discretion of the department, be conducted by telephone or other electronic means. The hearing shall be held within sixty days following the arrest or following the date notice has been given in the event notice is given by the department following a blood test, unless otherwise agreed to by the department and the person, in which case the action by the department shall be stayed, and any valid temporary license marked under subsection (6)(c) of this section extended, if the person is otherwise eligible for licensing. For the purposes of this section, the scope of the hearing shall cover the issues of whether a law enforcement officer had reasonable grounds to believe the person had been driving or was in actual physical control of a motor vehicle within this state while under the influence of intoxicating liquor or any drug or had been driving or was in actual physical control of a motor vehicle within this state while having alcohol in his or her system in a concentration in violation of RCW 46.61.503 and was under the age of twenty-one, whether the person was placed under arrest, and (a) whether the person refused to submit to the test or tests upon request of the officer after having been informed that such refusal would result in the revocation of the person's license, permit, or privilege to drive, or (b) if a test or tests were administered, whether the applicable requirements of this section were satisfied before the administration of the test or tests, whether the person submitted to the test or tests, or whether a test was administered without express consent as permitted under this section, and whether the test or tests indicated that the alcohol concentration of the person's breath or blood was 0.08 or more if the person was age twenty-one or over at the time of the arrest, or was in violation of RCW 46.61.502, 46.61.503, or 46.61.504 if the person was under the age of twenty-one at the
time of the arrest. The sworn report or report under a declaration authorized by RCW 9A.72.085 submitted by a law enforcement officer is prima facie evidence that the officer had reasonable grounds to believe the person had been driving or was in actual physical control of a motor vehicle within this state while under the influence of intoxicating liquor or drugs, or both, or the person had been driving or was in actual physical control of a motor vehicle within this state while having alcohol in his or her system in a concentration in violation of RCW 46.61.503 and was under the age of twenty-one and that the officer complied with the requirements of this section.

A hearing officer shall conduct the hearing, may issue subpoenas for the attendance of witnesses and the production of documents, and shall administer oaths to witnesses. The hearing officer shall not issue a subpoena for the attendance of a witness at the request of the person unless the request is accompanied by the fee required by RCW 5.56.010 for a witness in district court. The sworn report or report under a declaration authorized by RCW 9A.72.085 of the law enforcement officer and any other evidence accompanying the report shall be admissible without further evidentiary foundation and the certifications authorized by the criminal rules for courts of limited jurisdiction shall be admissible without further evidentiary foundation. The person may be represented by counsel, may question witnesses, may present evidence, and may testify. The department shall order that the suspension, revocation, or denial either be rescinded or sustained.

(9) If the suspension, revocation, or denial is sustained after such a hearing, the person whose license, privilege, or permit is suspended, revoked, or denied has the right to file a petition in the superior court of the county of arrest to review the final order of revocation by the department in the same manner as an appeal from a decision of a court of limited jurisdiction. Notice of appeal must be filed within thirty days after the date the final order is served or the right to appeal is waived. Notwithstanding RCW 46.20.334, RALJ 1.1, or other statutes or rules referencing de novo review, the appeal shall be limited to a review of the record of the administrative hearing. The appellant must pay the costs associated with obtaining the record of the hearing before the hearing officer. The filing of the appeal does not stay the effective date of the suspension, revocation, or denial. A petition filed under this subsection must include the petitioner's grounds for requesting review. Upon granting petitioner's request for review, the court shall review the department's final order of suspension, revocation, or denial as expeditiously as possible. The review must be limited to a determination of whether the department has committed any errors of law. The superior court shall accept those factual determinations supported by substantial evidence in the record: (a) That were expressly made by the department; or (b) that may reasonably be inferred from the final order of the department. The superior court may reverse, affirm, or modify the decision of the department or remand the case back to the department for further proceedings. The decision of the superior court must be in writing and filed in the clerk's office with the other papers in the case. The court shall state the reasons for the decision. If judicial relief is sought for a stay or other temporary remedy from the department's action, the court shall not grant such relief unless the court finds that the appellant is likely to prevail in the appeal and that without a stay the appellant will suffer irreparable injury. If the court stays the suspension, revocation, or denial it may impose conditions on such stay.
(10) If a person whose driver's license, permit, or privilege to drive has been or will be suspended, revoked, or denied under subsection (7) of this section, other than as a result of a breath or blood test refusal, and who has not committed an offense for which he or she was granted a deferred prosecution under chapter 10.05 RCW, petitions a court for a deferred prosecution on criminal charges arising out of the arrest for which action has been or will be taken under subsection (7) of this section, the court may direct the department to stay any actual or proposed suspension, revocation, or denial for at least forty-five days but not more than ninety days. If the court stays the suspension, revocation, or denial, it may impose conditions on such stay. If the person is otherwise eligible for licensing, the department shall issue a temporary license, or extend any valid temporary license marked under subsection (6) of this section, for the period of the stay. If a deferred prosecution treatment plan is not recommended in the report made under RCW 10.05.050, or if treatment is rejected by the court, or if the person declines to accept an offered treatment plan, or if the person violates any condition imposed by the court, then the court shall immediately direct the department to cancel the stay and any temporary marked license or extension of a temporary license issued under this subsection.

A suspension, revocation, or denial imposed under this section, other than as a result of a breath or blood test refusal, shall be stayed if the person is accepted for deferred prosecution as provided in chapter 10.05 RCW for the incident upon which the suspension, revocation, or denial is based. If the deferred prosecution is terminated, the stay shall be lifted and the suspension, revocation, or denial reinstated. If the deferred prosecution is completed, the stay shall be lifted and the suspension, revocation, or denial canceled.

(11) When it has been finally determined under the procedures of this section that a nonresident's privilege to operate a motor vehicle in this state has been suspended, revoked, or denied, the department shall give information in writing of the action taken to the motor vehicle administrator of the state of the person's residence and of any state in which he or she has a license.

Legislative finding, intent--1983 c 165: "The legislature finds that previous attempts to curtail the incidence of driving while intoxicated have been inadequate. The legislature further finds that property loss, injury, and death caused by drinking drivers have reached unacceptable levels. This act is intended to convey the seriousness with which the legislature views this problem. To that end the legislature seeks to insure swift and certain punishment for those who drink and drive. The legislature does not intend to discourage or deter courts and other agencies from directing or providing treatment for problem drinkers. However, it is the intent that such treatment, where appropriate, be in addition to and not in lieu of the sanctions to be applied to all those convicted of driving while intoxicated." RCW 46.20.311 Duration of license sanctions--Reissuance or renewal. (Effective until July 1, 2001.)

(1)(a) The department shall not suspend a driver's license or privilege to drive a motor vehicle on the public highways for a fixed period of more than one year, except as specifically permitted under RCW 46.20.342 or other provision of law. Except for a suspension under RCW 46.20.289, 46.20.291(5), or 74.20A.320, whenever the license or driving privilege of any person is suspended by reason of a conviction, a finding that a traffic infraction has been committed, pursuant to chapter 46.29 RCW, or pursuant to RCW 46.20.291 or 46.20.308, the suspension shall remain in effect until the person gives and thereafter maintains proof of financial responsibility for the future as provided in chapter 46.29 RCW. If the suspension is the result of a violation of RCW 46.61.502 or 46.61.504, the department shall determine the person's eligibility for licensing based upon the reports provided by the alcoholism agency or probation department designated under RCW 46.61.5056 and shall deny reinstatement until enrollment and participation in an approved program has been established and the person is otherwise qualified. Whenever the license or driving privilege of any person is suspended as a result of certification of noncompliance with a child support order under chapter 74.20A RCW or a residential or visitation order, the suspension shall remain in effect until the person provides a release issued by the department of social and health services stating that the person is in compliance with the order.

(b)(i) The department shall not issue to the person a new, duplicate, or renewal license until the person pays a reissue fee of twenty dollars.
(ii) If the suspension is the result of a violation of RCW 46.61.502 or 46.61.504, or is the result of administrative action under RCW 46.20.308, the reissue fee shall be one hundred fifty dollars.

(2)(a) Any person whose license or privilege to drive a motor vehicle on the public highways has been revoked, unless the revocation was for a cause which has been removed, is not entitled to have the license or privilege renewed or restored until: (i) After the expiration of one year from the date the license or privilege to drive was revoked; (ii) after the expiration of the applicable revocation period provided by RCW 46.20.3101 or 46.61.5055; (iii) after the expiration of two years for persons convicted of vehicular homicide; or (iv) after the expiration of the applicable revocation period provided by RCW 46.20.265.

(b)(i) After the expiration of the appropriate period, the person may make application for a new license as provided by law together with a reissue fee in the amount of twenty dollars.

(ii) If the revocation is the result of a violation of RCW 46.20.308, 46.61.502, or 46.61.504, the reissue fee shall be one hundred fifty dollars. If the revocation is the result of a violation of RCW 46.61.502 or 46.61.504, the department shall determine the person's eligibility for licensing based upon the reports provided by the alcoholism agency or probation department designated under RCW 46.61.5056 and shall deny reissuance of a license, permit, or privilege to drive until enrollment and participation in an approved program has been established and the person is otherwise qualified.

(c) Except for a revocation under RCW 46.20.265, the department shall not then issue a new license unless it is satisfied after investigation of the driving ability of the person that it will be safe to grant the privilege of driving a motor vehicle on the public highways, and until the person gives and thereafter maintains proof of financial responsibility for the future as provided in chapter 46.29 RCW. For a revocation under RCW 46.20.265, the department shall not issue a new license unless it is satisfied after investigation of the driving ability of the person that it will be safe to grant that person the privilege of driving a motor vehicle on the public highways.

(3)(a) Whenever the driver's license of any person is suspended pursuant to Article IV of the nonresident violators compact or RCW 46.23.020 or 46.20.289 or 46.20.291(5), the department shall not issue to the person any new or renewal license until the person pays a reissue fee of twenty dollars.

(b) If the suspension is the result of a violation of the laws of this or any other state, province, or other jurisdiction involving (i) the operation or physical control of a motor vehicle upon the public highways while under the influence of intoxicating liquor or drugs, or (ii) the refusal to submit to a chemical test of the driver's blood alcohol content, the reissue fee shall be one hundred fifty dollars.

If the suspension is the result of a violation of RCW 46.61.502 or 46.61.504, the department shall determine the person's eligibility for licensing based upon the reports provided by the alcoholism agency or probation department designated under RCW 46.61.5056 and shall deny reinstatement until enrollment and participation in an approved program has been established and the person is otherwise qualified. (ii) If the suspension is the result of a violation of RCW 46.61.502 or 46.61.504, or is the result of administrative action under RCW 46.20.308, the reissue fee shall be one hundred fifty dollars.

(2)(a) Any person whose license or privilege to drive a motor vehicle on the public highways has been revoked, unless the revocation was for a cause which has been removed, is not entitled to have the license or privilege renewed or restored until: (i) After the expiration of one year from the date the license or privilege to drive was revoked; (ii) after the expiration of the applicable revocation period provided by RCW 46.20.3101 or 46.61.5055; (iii) after the

(ii) If the revocation is the result of a violation of RCW 46.20.308, 46.61.502, or 46.61.504, the reissue fee shall be one hundred fifty dollars. If the revocation is the result of a violation of RCW 46.61.502 or 46.61.504, the department shall determine the person's eligibility for licensing based upon the reports provided by the alcoholism agency or probation department designated under RCW 46.61.5056 and shall deny reissuance of a license, permit, or privilege to drive until enrollment and participation in an approved program has been established and the person is otherwise qualified.

(c) Except for a revocation under RCW 46.20.265, the department shall not then issue a new license unless it is satisfied after investigation of the driving ability of the person that it will be safe to grant the privilege of driving a motor vehicle on the public highways, and until the person gives and thereafter maintains proof of financial responsibility for the future as provided in chapter 46.29 RCW. For a revocation under RCW 46.20.265, the department shall not issue a new license unless it is satisfied after investigation of the driving ability of the person that it will be safe to grant that person the privilege of driving a motor vehicle on the public highways.

(xvi) An administrative action taken by the department under chapter 46.20 RCW; or
(xvii) A conviction of a local law, ordinance, regulation, or resolution of a political subdivision of this state, the federal government, or any other state, of an offense substantially similar to a violation included in this subsection.

(c) A person who violates this section when his or her driver's license or driving privilege is, at the time of the violation, suspended or revoked solely because (i) the person must furnish proof of satisfactory progress in a required alcoholism or drug treatment program, (ii) the person must furnish proof of financial responsibility for the future as provided by chapter 46.29 RCW, (iii) the person has failed to comply with the provisions of chapter 46.29 RCW relating to uninsured accidents, (iv) the person has failed to respond to a notice of traffic infraction, failed to appear at a requested hearing, violated a written promise to appear in court, or has failed to comply with the terms of a notice of traffic infraction or citation, as provided in RCW 46.20.289, (v) the person has committed an offense in another state that, if committed in this state, would

Alcohol violator--Probationary license.

(1) Upon receipt of an abstract indicating a deferred prosecution has been granted under RCW 10.05.060, or upon receipt of a notice of conviction of RCW 46.61.502 or 46.61.504, the department of licensing shall order the person to surrender any nonprobationary Washington state driver's license that may be in his or her possession. The department shall revoke the license, permit, or privilege to drive of any person who fails to surrender it as required by this section for one year, unless the license has been previously surrendered to the department, a law enforcement officer, or a court, or the person has completed an affidavit of lost, stolen, destroyed, or previously surrendered license, such revocation to take effect thirty days after notice is given of the requirement for license surrender.

(2) The department shall place a person's driving privilege in probationary status as required by RCW 10.05.060 or 46.61.5055 for a period of five years from the date the probationary status is required to go into effect.

The department shall not
issue the probationary license unless the person is otherwise qualified for licensing, and the
person must renew the probationary license on the same cycle as the person's regular license
would have been renewed until the expiration of the five-year probationary status period imposed
under subsection (2) of this section.

(4) For each original issue or renewal of a probationary license under this section, the
department shall charge a fee of fifty dollars in addition to any other licensing fees required.
Except for when renewing a probationary license, the department shall waive the requirement to
obtain an additional probationary license and the fifty-dollar fee if the person has a probationary
license in his or her possession at the time a new probationary license is required.

(5) A probationary license shall enable the department and law enforcement personnel to
determine that the person is on probationary status. The fact that a person's driving privilege is in
probationary status or that the person has been issued a probationary license shall not be a part of
the person's record that is available to insurance companies.

RCW 46.20.391 Application--Eligibility--Restrictions--Cancellation.

(1) Any person licensed under this chapter who is convicted of an offense relating to
motor vehicles for which suspension or revocation of the driver's license is mandatory, other than
vehicular homicide or vehicular assault, or who has had his or her license suspended under RCW 46.20.3101 (2)(a) or (3)(a), may submit to the department an application for an occupational driver's license. The department, upon receipt of the prescribed fee and upon determining that the petitioner is engaged in an occupation or trade that makes it essential that the petitioner operate a motor vehicle, may issue an occupational driver's license and may set definite restrictions as provided in RCW 46.20.394. No person may petition for, and the department shall not issue, an occupational driver's license that is effective during the first thirty days of any suspension or revocation imposed either for a violation of RCW 46.61.502 or 46.61.504 or under RCW 46.20.3101 (2)(a) or (3)(a), or for both a violation of RCW 46.61.502 or 46.61.504 and under RCW 46.20.3101 (2)(a) or (3)(a) where the action arises from the same incident. A person aggrieved by the decision of the department on the application for an occupational driver's license may request a hearing as provided by rule of the department.

(2)(a) A person licensed under this chapter whose driver's license is suspended administratively due to failure to appear or pay a traffic ticket under RCW 46.20.289; a violation of the financial responsibility laws under chapter 46.29 RCW; or for multiple violations within a specified period of time under RCW 46.20.291, may apply to the department for an occupational driver's license if the applicant demonstrates to the satisfaction of the department that one of the following additional conditions are met:

(i) The applicant is in an apprenticeship program or an on-the-job training program for which a driver's license is required;

(ii) The applicant presents evidence that he or she has applied for a position in an apprenticeship or on-the-job training program and the program has certified that a driver's license is required to begin the program, provided that a license granted under this provision shall be in effect no longer than fourteen days;

(iii) The applicant is in a program that assists persons who are enrolled in a WorkFirst program pursuant to chapter 74.08A RCW to become gainfully employed and the program requires a driver's license; or

(iv) The applicant is undergoing substance abuse treatment or is participating in meetings of a twelve-step group such as Alcoholics Anonymous.

(b) If the suspension is for failure to respond, pay, or comply with a notice of traffic infraction or conviction, the applicant must enter into a payment plan with the court.

(c) An occupational driver's license issued to an applicant described in (a) of this subsection shall be valid for the period of the suspension or revocation but not more than two years.

(d) Upon receipt of evidence that a holder of an occupational driver's license granted under this subsection is no longer enrolled in an apprenticeship or on-the-job training program, the director shall give written notice by first class mail to the driver that the occupational driver's license shall be canceled. The effective date of cancellation shall be fifteen days from the date of mailing the notice. If at any time before the cancellation goes into effect the driver submits evidence of continued enrollment in the program, the cancellation shall be stayed. If the cancellation becomes effective, the driver may obtain, at no additional charge, a new
occupational driver's license upon submittal of evidence of enrollment in another program that meets the criteria set forth in this subsection.

(e) The department shall not issue an occupational driver's license under (a)(iv) of this subsection if the applicant is able to receive transit services sufficient to allow for the applicant's participation in the programs referenced under (a)(iv) of this subsection.

(3) An applicant for an occupational driver's license is eligible to receive such license only if:

(a) Within one year immediately preceding the date of the offense that gave rise to the present conviction, the applicant has not committed any offense relating to motor vehicles for which suspension or revocation of a driver's license is mandatory; and

(b) Within seven years immediately preceding the date of the offense that gave rise to the present conviction or incident, the applicant has not committed any of the following offenses: (i) Driving or being in actual physical control of a motor vehicle while under the influence of intoxicating liquor; (ii) vehicular homicide under RCW 46.61.520; or (iii) vehicular assault under RCW 46.61.522; and

(c) The applicant is engaged in an occupation or trade that makes it essential that he or she operate a motor vehicle, except as allowed under subsection (2)(a) of this section; and

(d) The applicant files satisfactory proof of financial responsibility under chapter 46.29 RCW.

(4) The director shall cancel an occupational driver's license upon receipt of notice that the holder thereof has been convicted of operating a motor vehicle in violation of its restrictions, or of a separate offense that under chapter 46.20 RCW would warrant suspension or revocation of a regular driver's license. The cancellation is effective as of the date of the conviction, and continues with the same force and effect as any suspension or revocation under this title.

ALCOHOL DETECTION DEVICES

RCW 46.20.710 Legislative finding.
The legislature finds and declares:
   (1) There is a need to reduce the incidence of drivers on the highways and roads of this
   state who, because of their use, consumption, or possession of alcohol, pose a danger to the
   health and safety of other drivers;
   (2) One method of dealing with the problem of drinking drivers is to discourage the use
   of motor vehicles by persons who possess or have consumed alcoholic beverages;
   (3) The installation of an ignition interlock breath alcohol device or other biological or
   technical device will provide a means of deterring the use of motor vehicles by persons who have
   consumed alcoholic beverages;
   (4) Ignition interlock and other biological and technical devices are designed to
   supplement other methods of punishment that prevent drivers from using a motor vehicle after
   using, possessing, or consuming alcohol;
   (5) It is economically and technically feasible to have an ignition interlock or other
   biological or technical device installed in a motor vehicle in such a manner that the vehicle will
   not start if the operator has recently consumed alcohol.

[1994 c 275 § 21; 1987 c 247 § 1.]

Notes:
Drivers convicted of alcohol offenses.

(1) The court may order that after a period of suspension, revocation, or denial of driving privileges, and for up to as long as the court has jurisdiction, any person convicted of any offense involving the use, consumption, or possession of alcohol while operating a motor vehicle may drive only a motor vehicle equipped with a functioning ignition interlock or other biological or technical device.

(2) If a person is convicted of a violation of RCW 46.61.502 or 46.61.504 or an equivalent local ordinance and it is: (a) The person's first conviction or a deferred prosecution under chapter 10.05 RCW and his or her alcohol concentration was at least 0.15, or by reason of the person's refusal to take a test offered pursuant to RCW 46.20.308 there is no test result indicating the person's alcohol concentration; or (b) the person's second or subsequent conviction; or (c) the person's first conviction and the person has a previous deferred prosecution under chapter 10.05 RCW or it is a deferred prosecution under chapter 10.05 RCW and the person has a previous conviction, the court shall order that after any applicable period of suspension, revocation, or denial of driving privileges, the person may drive only a motor vehicle equipped with a functioning ignition interlock or other biological or technical device. The court may waive the requirement for the use of such a device if the court makes a specific finding in writing that such devices are not reasonably available in the local area. Nothing in this section may be interpreted as entitling a person to more than one deferred prosecution.

(3) The court shall establish a specific calibration setting at which the ignition interlock or other biological or technical device will prevent the motor vehicle from being started and the period of time that the person shall be subject to the restriction. In the case of a person under subsection (2) of this section, the period of time of the restriction will be as follows:

(a) For a person (i) who is subject to RCW 46.61.5055 (1)(b), (2), or (3), or who is subject to a deferred prosecution program under chapter 10.05 RCW, and (ii) who has not previously been restricted under this section, a period of not less than one year;

(b) For a person who has previously been restricted under (a) of this subsection, a period of not less than five years;

(c) For a person who has previously been restricted under (b) of this subsection, a period of not less than ten years.

For purposes of this section, "convicted" means being found guilty of an offense or being placed on a deferred prosecution program under chapter 10.05 RCW.

The driver license compact prepared pursuant to resolutions of the western governors' conference and the western interstate committee on highway policy problems of the council of
state governments is hereby entered into and enacted into law, the terms and provisions of which shall be as follows:

DRIVER LICENSE COMPACT

ARTICLE I--Findings and Declaration of Policy

(a) The party states find that:
   (1) The safety of their streets and highways is materially affected by the degree of compliance with state laws and local ordinances relating to the operation of motor vehicles.
   (2) Violation of such a law or ordinance is evidence that the violator engages in conduct which is likely to endanger the safety of persons and property.
   (3) The continuance in force of a license to drive is predicated upon compliance with laws and ordinances relating to the operation of motor vehicles, in whichever jurisdiction the vehicle is operated.

(b) It is the policy of each of the party states to:
   (1) Promote compliance with the laws, ordinances, and administrative rules and regulations relating to the operation of motor vehicles by their operators in each of the jurisdictions where such operators drive motor vehicles.
   (2) Make the reciprocal recognition of licenses to drive and eligibility therefor more just and equitable by considering the over-all compliance with motor vehicle laws, ordinances and administrative rules and regulations as a condition precedent to the continuance or issuance of any license by reason of which the licensee is authorized or permitted to operate a motor vehicle in any of the party states.

ARTICLE II--Definitions

As used in this compact:
(a) "State" means a state, territory or possession of the United States, the District of Columbia, or the Commonwealth of Puerto Rico.
(b) "Home state" means the state which has issued and has the power to suspend or revoke the use of the license or permit to operate a motor vehicle.
(c) "Conviction" means a conviction of any offense related to the use or operation of a motor vehicle which is prohibited by state law, municipal ordinance or administrative rule or regulation, or a forfeiture of bail, bond or other security deposited to secure appearance by a person charged with having committed any such offense, and which conviction or forfeiture is required to be reported to the licensing authority.

ARTICLE III--Reports of Conviction

The licensing authority of a party state shall report each conviction of a person from
another party state occurring within its jurisdiction to the licensing authority of the home state of
the licensee. Such report shall clearly identify the person convicted; describe the violation
specifying the section of the statute, code or ordinance violated; identify the court in which action
was taken; indicate whether a plea of guilty or not guilty was entered, or the conviction was a
result of the forfeiture of bail, bond or other security; and shall include any special findings made
in connection therewith.

ARTICLE IV--Effect of Conviction

(a) The licensing authority in the home state, for the purposes of suspension, revocation
or limitation of the license to operate a motor vehicle, shall give the same effect to the conduct
reported, pursuant to Article III of this compact, as it would if such conduct had occurred in the
home state, in the case of convictions for:

(1) Vehicular homicide;
(2) Driving a motor vehicle while under the influence of intoxicating liquor or a narcotic
drug, or under the influence of any other drug to a degree which renders the driver incapable of
safely driving a motor vehicle;
(3) Any felony in the commission of which a motor vehicle is used;
(4) Failure to stop and render aid in the event of a motor vehicle accident resulting in the
death or personal injury of another.

(b) If the laws of a party state do not provide for offenses or violations denominated or
described in precisely the words employed in subdivision (a) of this Article, such party state shall
construe the denominations and descriptions appearing in subdivision (a) hereof as being
applicable to and identifying those offenses or violations of a substantially similar nature and the
laws of such party state shall contain such provisions as may be necessary to ensure that full
force and effect is given to this Article.

ARTICLE V--Applications for New Licenses

Upon application for a license to drive, the licensing authority in a party state shall
ascertain whether the applicant has ever held, or is the holder of a license to drive issued by any
other party state. The licensing authority in the state where application is made shall not issue a
license to drive to the applicant if:

(1) The applicant has held such a license, but the same has been suspended by reason, in
whole or in part, of a violation and if such suspension period has not terminated.
(2) The applicant has held such a license, but the same has been revoked by reason, in
whole or in part, of a violation and if such revocation has not terminated, except that after the
expiration of one year from the date the license was revoked, such person may make application
for a new license if permitted by law. The licensing authority may refuse to issue a license to any
such applicant if, after investigation, the licensing authority determines that it will not be safe to
grant to such person the privilege of driving a motor vehicle on the public highways.
(3) The applicant is the holder of a license to drive issued by another party state and currently in force unless the applicant surrenders such license.

ARTICLE VI--Applicability of Other Laws

Except as expressly required by provisions of this compact, nothing contained herein shall be construed to affect the right of any party state to apply any of its other laws relating to licenses to drive to any person or circumstance, nor to invalidate or prevent any driver license agreement or other cooperative arrangement between a party state and a non-party state.

ARTICLE VII--Compact Administrator and Interchange of Information

(a) The head of the licensing authority of each party state shall be the administrator of this compact for his state. The administrators, acting jointly, shall have the power to formulate all necessary and proper procedures for the exchange of information under this compact.

(b) The administrator of each party state shall furnish to the administrator of each other party state any information or documents reasonably necessary to facilitate the administration of this compact.

ARTICLE VIII--Entry into Force and Withdrawal

(a) This compact shall enter into force and become effective as to any state when it has enacted the same into law.

(b) Any party state may withdraw from this compact by enacting a statute repealing the same, but no such withdrawal shall take effect until six months after the executive head of the withdrawing state has given notice of the withdrawal to the executive heads of all other party states. No withdrawal shall affect the validity or applicability by the licensing authorities of states remaining party to the compact of any report of conviction occurring prior to the withdrawal.

ARTICLE IX--Construction and Severability

This compact shall be liberally construed so as to effectuate the purposes thereof. The provisions of this compact shall be severable and if any phrase, clause, sentence or provision of this compact is declared to be contrary to the constitution of any party state or of the United States or the applicability thereof to any government, agency, person or circumstance is held invalid, the validity of the remainder of this compact and the applicability thereof to any government, agency, person or circumstance shall not be affected thereby. If this compact shall be held contrary to the constitution of any state party thereto, the compact shall remain in full force and effect as to the remaining states and in full force and effect as to the state affected as to all severable matters.
RCW 46.21.020  "Licensing authority" defined--Duty to furnish information.

As used in the compact, the term "licensing authority" with reference to this state, shall mean the department of licensing. Said department shall furnish to the appropriate authorities of any other party state any information or documents reasonably necessary to facilitate the administration of Articles III, IV, and V of the compact.

RCW 46.21.030  Expenses of compact administrator.

The compact administrator provided for in Article VII of the compact shall not be entitled to any additional compensation on account of his service as such administrator, but shall be entitled to expenses incurred in connection with his duties and responsibilities as such administrator, in the same manner as for expenses incurred in connection with any other duties or responsibilities of his office or employment.

RCW 46.21.040  "Executive head" defined.

As used in the compact, with reference to this state, the term "executive head" shall mean governor.

RCW 46.23.010  Compact established--Provisions.

The nonresident violator compact, hereinafter called "the compact," is hereby established in the form substantially as follows, and the Washington state department of licensing is authorized to enter into such compact with all other jurisdictions legally joining therein:
Article I -- Findings, Declaration of Policy, and Purpose

(a) The party jurisdictions find that:

(1) In most instances, a motorist who is cited for a traffic violation in a jurisdiction other than his home jurisdiction: Must post collateral or bond to secure appearance for trial at a later date; or if unable to post collateral or bond, is taken into custody until the collateral or bond is posted; or is taken directly to court for his trial to be held.

(2) In some instances, the motorist's driver's license may be deposited as collateral to be returned after he has complied with the terms of the citation.

(3) The purpose of the practices described in paragraphs (1) and (2) above is to ensure compliance with the terms of a traffic citation by the motorist who, if permitted to continue on his way after receiving the traffic citation, could return to him [his] home jurisdiction and disregard his duty under the terms of the traffic citation.

(4) A motorist receiving a traffic citation in his home jurisdiction is permitted, except for certain violations, to accept the citation from the officer at the scene of the violation and to immediately continue on his way after promising or being instructed to comply with the terms of the citation.

(5) The practice described in paragraph (1) above, causes unnecessary inconvenience and, at times, a hardship for the motorist who is unable at the time to post collateral, furnish a bond, stand trial, or pay the fine, and thus is compelled to remain in custody until some arrangement can be made.

(6) The deposit of a driver's license as a bail bond, as described in paragraph (2) above, is viewed with disfavor.

(7) The practices described herein consume an undue amount of law enforcement time.

(b) It is the policy of the party jurisdictions to:

(1) Seek compliance with the laws, ordinances, and administrative rules and regulations relating to the operation of motor vehicles in each of the jurisdictions.

(2) Allow motorists to accept a traffic citation for certain violations and proceed on their way without delay whether or not the motorist is a resident of the jurisdiction in which the citation was issued.

(3) Extend cooperation to its fullest extent among the jurisdictions for obtaining compliance with the terms of a traffic citation issued in one jurisdiction to a resident of another jurisdiction.

(4) Maximize effective utilization of law enforcement personnel and assist court systems in the efficient disposition of traffic violations.

(c) The purpose of this compact is to:

(1) Provide a means through which the party jurisdictions may participate in a reciprocal program to effectuate the policies enumerated in paragraph (b) above in a uniform and orderly
manner.

(2) Provide for the fair and impartial treatment of traffic violators operating within party jurisdictions in recognition of the motorist's right of due process and the sovereign status of a party jurisdiction.

Article II -- Definitions

As used in the compact, the following words have the meaning indicated, unless the context requires otherwise.

(1) "Citation" means any summons, ticket, notice of infraction, or other official document issued by a police officer for a traffic offense containing an order which requires the motorist to respond.

(2) "Collateral" means any cash or other security deposited to secure an appearance for trial, following the issuance by a police officer of a citation for a traffic offense.

(3) "Court" means a court of law or traffic tribunal.

(4) "Driver's license" means any license or privilege to operate a motor vehicle issued under the laws of the home jurisdiction.

(5) "Home jurisdiction" means the jurisdiction that issued the driver's license of the traffic violator.

(6) "Issuing jurisdiction" means the jurisdiction in which the traffic citation was issued to the motorist.

(7) "Jurisdiction" means a state, territory, or possession of the United States, the District of Columbia, or the Commonwealth of Puerto Rico.

(8) "Motorist" means a driver of a motor vehicle operating in a party jurisdiction other than the home jurisdiction.

(9) "Personal recognizance" means an agreement by a motorist made at the time of issuance of the traffic citation that he will comply with the terms of that traffic citation.

(10) "Police officer" means any individual authorized by the party jurisdiction to issue a citation for a traffic offense.

(11) "Terms of the citation" means those options expressly stated upon the citation.

Article III -- Procedure for Issuing Jurisdiction

(a) When issuing a citation for a traffic violation or infraction, a police officer shall issue the citation to a motorist who possesses a driver's license issued by a party jurisdiction and shall not, subject to the exceptions noted in paragraph (b) of this article, require the motorist to post collateral to secure appearance, if the officer receives the motorist's personal recognizance that he or she will comply with the terms of the citation.

(b) Personal recognizance is acceptable only if not prohibited by law. If mandatory appearance is required, it must take place immediately following issuance of the citation.

(c) Upon failure of a motorist to comply with the terms of a traffic citation, the
appropriate official shall report the failure to comply to the licensing authority of the jurisdiction in which the traffic citation was issued. The report shall be made in accordance with procedures specified by the issuing jurisdiction and insofar as practical shall contain information as specified in the compact manual as minimum requirements for effective processing by the home jurisdiction.

(d) Upon receipt of the report, the licensing authority of the issuing jurisdiction shall transmit to the licensing authority in the home jurisdiction of the motorist the information in a form and content substantially conforming to the compact manual.

(e) The licensing authority of the issuing jurisdiction may not suspend the privilege of a motorist for whom a report has been transmitted.

(f) The licensing authority of the issuing jurisdiction shall not transmit a report on any violation if the date of transmission is more than six months after the date on which the traffic citation was issued.

(g) The licensing authority of the issuing jurisdiction shall not transmit a report on any violation where the date of issuance of the citation predates the most recent of the effective dates of entry for the two jurisdictions affected.

Article IV -- Procedure for Home Jurisdiction

(a) Upon receipt of a report of a failure to comply from the licensing authority of the issuing jurisdiction, the licensing authority of the home jurisdiction shall notify the motorist and initiate a suspension action, in accordance with the home jurisdiction's procedures, to suspend the motorist's driver's license until satisfactory evidence of compliance with the terms of the traffic citation has been furnished to the home jurisdiction licensing authority. Due process safeguards will be accorded.

(b) The licensing authority of the home jurisdiction shall maintain a record of actions taken and make reports to issuing jurisdictions as provided in the compact manual.

Article V -- Applicability of Other Laws

Except as expressly required by provisions of this compact, nothing contained herein shall be construed to affect the right of any party jurisdiction to apply any of its other laws relating to licenses to drive to any person or circumstance, or to invalidate or prevent any driver license agreement or other cooperative arrangement between a party jurisdiction and a nonparty jurisdiction.

Article VI -- Compact Administrator Procedures

(a) For the purpose of administering the provisions of this compact and to serve as a governing body for the resolution of all matters relating to the operation of this compact, a board of compact administrators is established. The board shall be composed of one representative
from each party jurisdiction to be known as the compact administrator. The compact administrator shall be appointed by the jurisdiction executive and will serve and be subject to removal in accordance with the laws of the jurisdiction he represents. A compact administrator may provide for the discharge of his duties and the performance of his functions as a board member by an alternate. An alternate may not be entitled to serve unless written notification of his identity has been given to the board.

(b) Each member of the board of compact administrators shall be entitled to one vote. No action of the board shall be binding unless taken at a meeting at which a majority of the total number of votes on the board are cast in favor. Action by the board shall be only at a meeting at which a majority of the party jurisdictions are represented.

(c) The board shall elect annually, from its membership, a chairman and a vice chairman.

(c) The notification requirements contained in (a) and (b) of this subsection as they relate to the federal, provincial, territorial, or municipal laws of Canada become effective only when the federal law or federal rules are changed to require the notification or a bilateral or multilateral agreement is entered into between the state of Washington and any Canadian province implementing essentially the same standards of regulation and penalties of all parties as encompassed in this chapter.

(2) A driver whose driver's license is suspended, revoked, or canceled by a state, who loses the privilege to drive a commercial motor vehicle in a state for any period, or who is

   purpose.

(2) No person may drive a commercial motor vehicle while his or her driving privilege is
suspended, revoked, or canceled, while subject to disqualification, or in violation of an

development and justification for fees charged by any third party.

(2) The department may waive the skills test specified in this section for a commercial
driver's license applicant who meets the requirements of 49 C.F.R. part 383.77.
Revised Code of Washington 2000

(3) A commercial driver's license or commercial driver's instruction permit may not be issued to a person while the person is subject to a disqualification from driving a commercial motor vehicle, or while the person's driver's license is suspended, revoked, or canceled in any state, nor may a commercial driver's license be issued to a person who has a commercial driver's license issued by any other state unless the person first surrenders all such licenses, which must be returned to the issuing state for cancellation.

(3) The law enforcement officer requesting the test under subsection (1) of this section shall warn the person requested to submit to the test that a refusal to submit will result in that person being disqualified from operating a commercial motor vehicle under RCW 46.25.090.

(4) If the person refuses testing, or submits to a test that discloses an alcohol concentration of 0.04 or more, the law enforcement officer shall submit a sworn report to the department certifying that the test was requested pursuant to subsection (1) of this section and that the person refused to submit to testing, or submitted to a test that disclosed an alcohol concentration of 0.04 or more.

(5) Upon receipt of the sworn report of a law enforcement officer under subsection (4) of this section, the department shall disqualify the driver from driving a commercial motor vehicle under RCW 46.25.090, subject to the hearing provisions of RCW 46.20.329 and 46.20.332. The hearing shall be conducted in the county of the arrest. For the purposes of this section, the hearing shall cover the issues of whether a law enforcement officer had reasonable grounds to
believe the person had been driving or was in actual physical control of a commercial motor vehicle within this state while having alcohol in the person's system, whether the person refused to submit to the test or tests upon request of the officer after having been informed that the refusal would result in the disqualification of the person from driving a commercial motor vehicle, and, if the test was administered, whether the results indicated an alcohol concentration of 0.04 percent or more. The department shall order that the disqualification of the person either be rescinded or sustained. Any decision by the department disqualifying a person from driving a commercial motor vehicle is stayed and does not take effect while a formal hearing is pending under this section or during the pendency of a subsequent appeal to superior court so long as there is no conviction for a moving violation or no finding that the person has committed a traffic infraction that is a moving violation during the pendency of the hearing and appeal. If the disqualification of the person is sustained after the hearing, the person who is disqualified may file a petition in the superior court of the county of arrest to review the final order of disqualification by the department in the manner provided in RCW 46.20.334.

SECURITY FOLLOWING ACCIDENT

RCW 46.29.060 Application of sections requiring deposit of security and suspensions for failure to deposit security.

The provisions of this chapter, requiring deposit of security and suspensions for failure to deposit security, subject to certain exemptions, shall apply to the driver and owner of any vehicle of a type subject to registration under the motor vehicle laws of this state which is in any manner involved in an accident within this state, which accident has resulted in bodily injury or death of any person or damage to the property of any one person to an apparent extent equal to or greater than the minimum amount established by rule adopted by the director. The director shall adopt rules establishing the property damage threshold at which the provisions of this chapter apply with respect to the deposit of security and suspensions for failure to deposit security. Beginning October 1, 1987, the property damage threshold shall be five hundred dollars. The thresholds shall be revised when necessary, but not more frequently than every two years. The revisions shall only be for the purpose of recognizing economic changes as reflected by an inflationary index recommended by the office of financial management. The revisions shall be guided by the change in the index for the time period since the last revision and by the threshold established by the chief of the Washington state patrol for the filing of accident reports as provided in RCW 46.52.030.
RCW 46.29.070  Department to determine amount of security required--Notices.

(1) The department, not less than twenty days after receipt of a report of an accident as described in the preceding section, shall determine the amount of security which shall be sufficient in its judgment to satisfy any judgment or judgments for damages resulting from such accident as may be recovered against each driver or owner. Such determination shall not be made with respect to drivers or owners who are exempt under succeeding sections of this chapter from the requirements as to security and suspension.

(2) The department shall determine the amount of security deposit required of any person upon the basis of the reports or other information submitted. In the event a person involved in an accident as described in this chapter fails to make a report or submit information indicating the extent of his injuries or the damage to his property within one hundred eighty days after the accident and the department does not have sufficient information on which to base an evaluation of such injuries or damage, then the department after reasonable notice to such person, if it is possible to give such notice, otherwise without such notice, shall not require any deposit of security for the benefit or protection of such person.

(3) The department after receipt of report of any accident referred to herein and upon determining the amount of security to be required of any person involved in such accident or to be required of the owner of any vehicle involved in such accident shall give written notice to every such person of the amount of security required to be deposited by him and that an order of suspension will be made as hereinafter provided not less than twenty days and not more than sixty days after the sending of such notice unless within said time security be deposited as required by said notice.

RCW 46.29.080  Exceptions as to requirement of security.

The requirements as to security and suspension in this chapter shall not apply:

(1) To the driver or owner if the owner had in effect at the time of the accident an automobile liability policy or bond with respect to the vehicle involved in the accident, except that a driver shall not be exempt under this subsection if at the time of the accident the vehicle was being operated without the owner's permission, express or implied;

(2) To the driver, if not the owner of the vehicle involved in the accident, if there was in effect at the time of the accident an automobile liability policy or bond with respect to his driving of vehicles not owned by him;

(3) To the driver, if not the owner of the vehicle involved in the accident, if there was in effect at the time of the accident an automobile liability policy or bond as to which there is a
bona fide dispute concerning coverage of such driver as evidenced by the pendency of litigation seeking a declaration of said driver's coverage under such policy or bond;

(4) To the driver, whether or not the owner, if there is a bona fide claim on the part of the driver that there was in effect at the time of the accident, an automobile liability policy or bond insuring or covering such driver;

(5) To any person qualifying as a self-insurer under RCW 46.29.630 or to any person operating a vehicle for such self-insurer;

(6) To the driver or the owner of a vehicle involved in an accident wherein no injury or damage was caused to the person or property of anyone other than such driver or owner;

(7) To the driver or owner of a vehicle which at the time of the accident was parked, unless such vehicle was parked at a place where parking was at the time of the accident prohibited under any applicable law or ordinance;

(8) To the owner of a vehicle if at the time of the accident the vehicle was being operated without his permission, express or implied, or was parked by a person who had been operating such vehicle without such permission, except if the vehicle was operated by his minor child or spouse;

(9) To the owner of a vehicle involved in an accident if at the time of the accident such vehicle was owned by or leased to the United States, this state or any political subdivision of this state or a municipality thereof, or to the driver of such vehicle if operating such vehicle with permission; or

(10) To the driver or the owner of a vehicle in the event at the time of the accident the vehicle was being operated by or under the direction of a police officer who, in the performance of his duties, shall have assumed custody of such vehicle.

[1965 c 124 § 1; 1963 c 169 § 8.]

**RCW 46.29.090 Requirements as to policy or bond.**

(1) No policy or bond is effective under RCW 46.29.080 unless issued by an insurance company or surety company authorized to do business in this state, except as provided in subsection (2) of this section, nor unless such policy or bond is subject, if the accident has resulted in bodily injury or death, to a limit, exclusive of interest and costs, of not less than twenty-five thousand dollars because of bodily injury to or death of one person in any one accident and, subject to said limit for one person, to a limit of not less than fifty thousand dollars because of bodily injury to or death of two or more persons in any one accident, and if the accident has resulted in injury to, or destruction of, property to a limit of not less than ten thousand dollars because of injury to or destruction of property of others in any one accident.

(2) No policy or bond is effective under RCW 46.29.080 with respect to any vehicle which was not registered in this state or was a vehicle which was registered elsewhere than in this state at the effective date of the policy or bond or the most recent renewal thereof, unless the insurance company or surety company issuing such policy or bond is authorized to do business in this state, or if said company is not authorized to do business in this state, unless it executes a
power of attorney authorizing the director of licensing to accept service on its behalf of notice or process in any action upon such policy or bond arising out of such accident.

(3) The department may rely upon the accuracy of the information in a required report of an accident as to the existence of insurance or a bond unless and until the department has reason to believe that the information is erroneous.

Effective date--1967 ex.s. c 3: "This amendatory act shall take effect on July 1, 1968." [1967 ex.s. c 3 § 6.]

**RCW 46.29.100 Form and amount of security.**

(1) The security required under this chapter shall be in such form and in such amount as the department may require, but in no case in excess of the limits specified in RCW 46.29.090 in reference to the acceptable limits of a policy or bond.

(2) Every depositor of security shall designate in writing every person in whose name such deposit is made and may at any time change such designation, but any single deposit of security shall be applicable only on behalf of persons required to furnish security because of the same accident.

[1963 c 169 § 10.]

**RCW 46.29.110 Failure to deposit security--Suspensions.**

If a person required to deposit security under this chapter fails to deposit such security within sixty days after the department has sent the notice as hereinbefore provided, the department shall thereupon suspend:

(1) The driver's license of each driver in any manner involved in the accident;

(2) The driver's license of the owner of each vehicle of a type subject to registration under the laws of this state involved in the accident;

(3) If the driver or owner is a nonresident, the privilege of operating within this state a vehicle of a type subject to registration under the laws of this state.

Such suspensions shall be made in respect to persons required by the department to deposit security who fail to deposit such security except as otherwise provided under succeeding sections of this chapter.

Notes:
Severability--1990 c 250: See note following RCW 46.16.301.

**RCW 46.29.120 Release from liability.**

(1) A person shall be relieved from the requirement for deposit of security for the benefit
or protection of another person injured or damaged in the accident in the event he is released from liability by such other person.

(2) In the event the department has evaluated the injuries or damage to any minor the department may accept, for the purposes of this chapter only, evidence of a release from liability executed by a natural guardian or a legal guardian on behalf of such minor without the approval of any court or judge.

[1965 c 124 § 2; 1963 c 169 § 12.]

**RCW 46.29.130**  
**Adjudication of nonliability.**

A person shall be relieved from the requirement for deposit of security in respect to a claim for injury or damage arising out of the accident in the event such person has been finally adjudicated not to be liable in respect to such claim.

[1963 c 169 § 13.]

**RCW 46.29.140**  
**Agreements for payment of damages.**

(1) Any two or more of the persons involved in or affected by an accident as described in RCW 46.29.060 may at any time enter into a written agreement for the payment of an agreed amount with respect to all claims of any of such persons because of bodily injury to or death or property damage arising from such accident, which agreement may provide for payment in installments, and may file a signed copy thereof with the department.

(2) The department, to the extent provided by any such written agreement filed with it, shall not require the deposit of security and shall terminate any prior order of suspension, or, if security has previously been deposited, the department shall immediately return such security to the depositor or his personal representative.

(3) In the event of a default in any payment under such agreement and upon notice of such default the department shall take action suspending the license of such person in default as would be appropriate in the event of failure of such person to deposit security when required under this chapter.

(4) Such suspension shall remain in effect and such license shall not be restored unless and until:

(a) Security is deposited as required under this chapter in such amount as the department may then determine,

(b) When, following any such default and suspension, the person in default has paid the balance of the agreed amount,

(c) When, following any such default and suspension, the person in default has resumed installment payments under an agreement acceptable to the creditor, or

(d) Three years have elapsed following the accident and evidence satisfactory to the department has been filed with it that during such period no action at law upon such agreement has been instituted and is pending.
RCW 46.29.150 Payment upon judgment.
The payment of a judgment arising out of an accident or the payment upon such judgment
of an amount equal to the maximum amount which could be required for deposit under this
chapter shall, for the purposes of this chapter, release the judgment debtor from the liability
evidenced by such judgment.

RCW 46.29.160 Termination of security requirement.
The department, if satisfied as to the existence of any fact which under RCW 46.29.120,
46.29.130, 46.29.140 or 46.29.150 would entitle a person to be relieved from the security
requirements of this chapter, shall not require the deposit of security by the person so relieved
from such requirement, or if security has previously been deposited by such person, the
department shall immediately return such deposit to such person or to his personal representative.

RCW 46.29.170 Duration of suspension.
Unless a suspension is terminated under other provisions of this chapter, any order of
suspension by the department under this chapter shall remain in effect and no license shall be
renewed for or issued to any person whose license is so suspended until:

(1) Such person shall deposit or there shall be deposited on his behalf the security
required under this chapter, or

(2) Three years have elapsed following the date of the accident resulting in such
suspension and evidence satisfactory to the department has been filed with it that during such
period no action for damages arising out of the accident resulting in such suspension has been
instituted.

An affidavit of the applicant that no action at law for damages arising out of the accident
has been filed against him or, if filed, that it is not still pending shall be prima facie evidence of
that fact. The department may take whatever steps are necessary to verify the statement set forth
in any said affidavit.

RCW 46.29.180 Application to nonresidents, unlicensed drivers, unregistered vehicles,
and accidents in other states.
(1) In case the driver or the owner of a vehicle of a type subject to registration under the
laws of this state involved in an accident within this state has no driver's license in this state, then
such driver shall not be allowed a driver's license until he has complied with the requirements of
this chapter to the same extent that would be necessary if, at the time of the accident, he had held
a license or been the owner of a vehicle registered in this state.

(2) When a nonresident's driving privilege is suspended pursuant to RCW 46.29.110, the
department shall transmit a certified copy of the record or abstract of such action to the official in
charge of the issuance of licenses and registration certificates in the state in which such
nonresident resides, if the law of such other state provided for action in relation thereto similar to
that provided for in subsection (3) of this section.

(3) Upon receipt of such certification that the driving privilege of a resident of this state
has been suspended or revoked in any such other state pursuant to a law providing for its
suspension or revocation for failure to deposit security for the payment of judgments arising out
of a motor vehicle accident, under circumstances which would require the department to suspend
a nonresident's driving privilege had the accident occurred in this state, the department shall
suspend the license of such resident. Such suspension shall continue until such resident furnishes
evidence of his compliance with the law of such other state relating to the deposit of such
security.

[1967 c 32 § 38; 1963 c 169 § 18.]

RCW 46.29.190 Authority of department to decrease amount of security.
The department may reduce the amount of security ordered in any case if in its judgment
the amount ordered is excessive. In case the security originally ordered has been deposited, the
excess deposit over the reduced amount ordered shall be returned to the depositor or his personal
representative forthwith.

[1965 c 124 § 3; 1963 c 169 § 19.]

RCW 46.29.200 Correction of action by department.
Whenever the department has taken any action or has failed to take any action under this
chapter by reason of having received erroneous information, then upon receiving correct
information within three years after the date of an accident the department shall take appropriate
action to carry out the purposes and effect of this chapter. The foregoing, however, shall not be
deemed to require the department to reevaluate the amount of any deposit required under this
chapter.

[1981 c 309 § 5; 1963 c 169 § 23.]

Certain matters not evidence in civil suits.

The report required following an accident, the action taken by the department pursuant to this chapter, the findings, if any, of the department upon which such action is based, and the security filed as provided in this chapter, shall not be referred to in any way, and shall not be any evidence of the negligence or due care of either party, at the trial of any action at law to recover damages.

[1963 c 169 § 24.]
The provisions of this chapter requiring the deposit of proof of financial responsibility for the future, subject to certain exemptions, shall apply with respect to persons who have been convicted of or forfeited bail for certain offenses under motor vehicle laws, or who have failed to pay judgments upon causes of action arising out of ownership, maintenance or use of vehicles of a type subject to registration under the laws of this state, or who having driven or owned a vehicle involved in an accident are required to deposit security under the provisions of RCW 46.29.070.

**RCW 46.29.270 Meaning of "judgment" and "state."**

The following words and phrases when used in this chapter shall, for the purpose of this chapter, have the meanings respectively ascribed to them in this section.

1. The term "judgment" shall mean: Any judgment which shall have become final by expiration without appeal of the time within which an appeal might have been perfected, or by final affirmation on appeal, rendered by a court of competent jurisdiction of any state or of the United States, upon a cause of action arising out of the ownership, maintenance or use of any vehicle of a type subject to registration under the laws of this state, for damages, including damages for care and loss of services, because of bodily injury to or death of any person, or for damages because of injury to or destruction of property, including the loss of use thereof, or upon a cause of action on an agreement of settlement for such damages. The first page of a judgment must include a judgment summary that states damages are awarded under this section and the clerk of the court must give notice as outlined in RCW 46.29.310.

2. The term "state" shall mean: Any state, territory, or possession of the United States, the District of Columbia, or any province of the Dominion of Canada.
RCW 46.29.280  Suspension continues until proof furnished.
Whenever, under any law of this state, the license of any person is suspended or revoked by reason of a conviction, forfeiture of bail, or finding that a traffic infraction has been committed, the suspension or revocation hereinbefore required shall remain in effect and the department shall not issue to such person any new or renewal of license until permitted under the motor vehicle laws of this state, and not then unless and until such person shall give and thereafter maintain proof of financial responsibility for the future. Upon receiving notice of the termination or cancellation of proof of financial responsibility for the future, the department shall resuspend or rerevoke the person's driving privilege until the person again gives and thereafter maintains proof of financial responsibility for the future.

RCW 46.29.290  Action in respect to unlicensed person.
If a person has no license, but by final order or judgment is convicted of or forfeits any bail or collateral deposited to secure an appearance for trial for any offense requiring the suspension or revocation of license, no license shall be thereafter issued to such person unless he shall give and thereafter maintain proof of financial responsibility for the future.

RCW 46.29.300  Action in respect to nonresidents.
Whenever the department suspends or revokes a nonresident's driving privilege by reason of a conviction, forfeiture of bail, or finding that a traffic infraction has been committed such privilege shall remain so suspended or revoked unless such person shall have previously given or shall immediately give and thereafter maintain proof of financial responsibility for the future.

RCW 46.29.310  When courts to report nonpayment of judgments.
Whenever any person fails within thirty days to satisfy any judgment, then it shall be the duty of the clerk of the court, or of the judge of a court which has no clerk, in which any such judgment is rendered within this state to forward immediately to the department the following:

1. A certified copy or abstract of such judgment;
2. A certificate of facts relative to such judgment;
(3) Where the judgment is by default, a certified copy or abstract of that portion of the record which indicates the manner in which service of summons was effectuated and all the measures taken to provide the defendant with timely and actual notice of the suit against him.

[1969 ex.s. c 44 § 1; 1963 c 169 § 31.]

RCW 46.29.320 Further action with respect to nonresidents.
If the defendant named in any certified copy or abstract of a judgment reported to the department is a nonresident, the department shall transmit those certificates furnished to it under RCW 46.29.310 to the official in charge of the issuance of licenses and registrations of the state of which the defendant is a resident.

[1969 ex.s. c 44 § 2; 1963 c 169 § 32.]

RCW 46.29.330 Suspension for nonpayment of judgments.
The department upon receipt of the certificates provided for by RCW 46.29.310, on a form provided by the department, shall forthwith suspend the license and any nonresident's driving privilege of any person against whom such judgment was rendered, except as otherwise provided in this chapter.

[1990 c 250 § 52; 1969 ex.s. c 44 § 3; 1967 c 32 § 40; 1963 c 169 § 33.]

Severability--1990 c 250: See note following RCW 46.16.301.

RCW 46.29.340 Exception in relation to government vehicles.
The provisions of RCW 46.29.330 shall not apply with respect to any such judgment arising out of an accident caused by the ownership or operation, with permission, of a vehicle owned or leased to the United States, this state or any political subdivision of this state or a municipality thereof.

[1963 c 169 § 34.]

RCW 46.29.350 Exception when consent granted by judgment creditor.
If the judgment creditor consents in writing, in such form as the department may prescribe, that the judgment debtor be allowed a license or nonresident's driving privilege, the same may be allowed by the department, in its discretion, for six months from the date of such consent and thereafter until such consent is revoked in writing, notwithstanding default in the payment of such judgment, or of any installments thereof prescribed in RCW 46.29.400, provided the judgment debtor furnishes proof of financial responsibility.

[1967 c 32 § 41; 1963 c 169 § 35.]
RCW 46.29.360 Exception when insurer liable.

No license or nonresident's driving privilege of any person shall be suspended under the provisions of this chapter if the department shall find that an insurer was obligated to pay the judgment upon which suspension is based, at least to the extent and for the amounts required in this chapter, but has not paid such judgment for any reason. A finding by the department that an insurer is obligated to pay a judgment shall not be binding upon such insurer and shall have no legal effect whatever except for the purpose of administering this section. If the department finds that no insurer is obligated to pay such a judgment, the judgment debtor may file with the department a written notice of his intention to contest such finding by an action in the superior court. In such a case the license or the nonresident's driving privilege of such judgment debtor shall not be suspended by the department under the provisions of this chapter for thirty days from the receipt of such notice nor during the pendency of any judicial proceedings brought in good faith to determine the liability of an insurer so long as the proceedings are being diligently prosecuted to final judgment by such judgment debtor. Whenever in any judicial proceedings it shall be determined by any final judgment, decree or order that an insurer is not obligated to pay any such judgment, the department, notwithstanding any contrary finding theretofore made by it, shall forthwith suspend the license and any nonresident's driving privilege of any person against whom such judgment was rendered, as provided in RCW 46.29.330.

[1967 c 32 § 42; 1963 c 169 § 36.]

RCW 46.29.370 Suspension continues until judgments paid and proof given.

Such license and nonresident's driving privilege shall remain so suspended and shall not be renewed, nor shall any such license be thereafter issued in the name of such person, including any such person not previously licensed, unless and until every such judgment is stayed, satisfied in full or to the extent hereinafter provided and until the said person gives proof of financial responsibility subject to the exemptions stated in RCW 46.29.350, 46.29.360 and 46.29.400.

[1967 c 32 § 43; 1963 c 169 § 37.]

RCW 46.29.390 Payments sufficient to satisfy requirements.

(1) Judgments herein referred to are, for the purpose of this chapter only, deemed satisfied:

more persons as the result of any one accident; or
  (c) When ten thousand dollars has been credited upon any judgment or judgments rendered in excess of that amount because of injury to or destruction of property of others as a result of any one accident.  

(2) Payments made in settlements of any claims because of bodily injury, death, or property damage arising from such accident shall be credited in reduction of the amounts provided for in this section.

  (2) The department shall not suspend a license or nonresident's driving privilege, and shall restore any license or nonresident's driving privilege suspended following nonpayment of a judgment, when the judgment debtor gives proof of financial responsibility and obtain such an order permitting the payment of such judgment in installments, and while the payment of any said installments is not in default.

[1967 c 32 § 44; 1963 c 169 § 40.]

RCW 46.29.410  Action if breach of agreement.

  Any person required to deposit security under RCW 46.29.070, for the benefit or protection of another person injured or damaged in an accident, shall in addition be required to give proof of financial responsibility for the future. The department shall give written notice of such additional requirement to every such person at the time and in the manner provided in RCW 46.29.070 for giving notice of the requirement for security.

[1963 c 169 § 42.]
RCW 46.29.430 Additional proof required--Suspension or revocation for failure to give proof.

If a person required to give proof of financial responsibility under RCW 46.29.420 fails to give such proof within sixty days after the department has sent notice as hereinbefore provided, the department shall suspend, or continue in effect any existing suspension or revocation of, the license or any nonresident's driving privilege of the person.

Notes:
Severability--1990 c 250: See note following RCW 46.16.301.

RCW 46.29.440 Additional proof required--Suspension to continue until proof given and maintained.

Such license or nonresident's driving privilege shall remain so suspended and shall not be renewed, nor shall any such license be thereafter issued in the name of such person, including any such person not previously licensed, unless and until such person shall give and thereafter maintain proof of financial responsibility for the future. The furnishing of such proof shall permit such person to operate only a motor vehicle covered by such proof. The department shall endorse appropriate restrictions on the license held by such person or may issue a new license containing such restrictions.

[1967 c 32 § 47; 1965 c 124 § 6; 1963 c 169 § 44.]

RCW 46.29.450 Alternate methods of giving proof.

Proof of financial responsibility when required under this chapter, with respect to such a vehicle or with respect to a person who is not the owner of such a vehicle, may be given by filing:

(1) A certificate of insurance as provided in RCW 46.29.460 or 46.29.470;
(2) A bond as provided in RCW 46.29.520;
(3) A certificate of deposit of money or securities as provided in RCW 46.29.550; or
(4) A certificate of self-insurance, as provided in RCW 46.29.630, supplemented by an agreement by the self-insurer that, with respect to accidents occurring while the certificate is in force, he will pay the same amounts that an insurer would have been obliged to pay under an owner's motor vehicle liability policy if it had issued such a policy to said self-insurer.

[1963 c 169 § 45.]

RCW 46.29.460 Certificate of insurance as proof.

Proof of financial responsibility for the future may be furnished by filing with the
Revised Code of Washington 2000

department the written certificate of any insurance carrier duly authorized to do business in this
state certifying that there is in effect a motor vehicle liability policy for the benefit of the person
required to furnish proof of financial responsibility. Such certificate shall give the effective date
of such motor vehicle liability policy, which date shall be the same as the effective date of the
certificate, and shall designate by explicit description or by appropriate reference all vehicles
covered thereby, unless the policy is issued to a person who is not the owner of a motor vehicle.

[1963 c 169 § 46.]

RCW 46.29.470  Certificate furnished by nonresident as proof.
A nonresident may give proof of financial responsibility by filing with the department a
written certificate or certificates of an insurance carrier authorized to transact business in the
state in which the vehicle, or vehicles, owned by such nonresident is registered, or in the state in
which such nonresident resides, if he does not own a vehicle, provided such certificate otherwise
conforms with the provisions of this chapter, and the department shall accept the same upon
condition that said insurance carrier complies with the following provisions with respect to the
policies so certified:

(1) Said insurance carrier shall execute a power of attorney authorizing the director to
accept service on its behalf of notice or process in any action arising out of a motor vehicle
accident in this state;

(2) Said insurance carrier shall agree in writing that such policies shall be deemed to
conform with the laws of this state relating to the terms of motor vehicle liability policies issued
therein.

[1963 c 169 § 47.]

RCW 46.29.480  Default by nonresident insurer.
If any insurance carrier not authorized to transact business in this state, which has
qualified to furnish proof of financial responsibility, defaults in any said undertakings or
agreements, the department shall not thereafter accept as proof any certificate of said carrier
whether theretofore filed or thereafter tendered as proof, so long as such default continues.

[1963 c 169 § 48.]

RCW 46.29.490  "Motor vehicle liability policy" defined.

(1) Certification. A "motor vehicle liability policy" as said term is used in this chapter
means an "owner's policy" or an "operator's policy" of liability insurance, certified as provided in
RCW 46.29.460 or 46.29.470 as proof of financial responsibility for the future, and issued,
except as otherwise provided in RCW 46.29.470, by an insurance carrier duly authorized to
transact business in this state, to or for the benefit of the person named in the policy as insured.

(2) Owner's policy. Such owner's policy of liability insurance:
(a) Shall designate by explicit description or by appropriate reference all vehicles with respect to which coverage is to be granted by the policy; and

(b) Shall insure the person named therein and any other person, as insured, using any such vehicle or vehicles with the express or implied permission of such named insured, against loss from the liability imposed by law for damages arising out of the ownership, maintenance, or use of such vehicle or vehicles within the United States of America or the Dominion of Canada, subject to limits exclusive of interest and costs, with respect to each such vehicle as follows: Twenty-five thousand dollars because of bodily injury to or death of one person in any one accident and, subject to said limit for one person, fifty thousand dollars because of bodily injury to or death of two or more persons in any one accident, and ten thousand dollars because of injury to or destruction of property of others in any one accident.

(3) Operator's policy. Such operator's policy of liability insurance shall insure the person named as insured therein against loss from the liability imposed upon him by law for damages arising out of the use by him of any motor vehicle not owned by him, within the same territorial limits and subject to the same limits of liability as are set forth above with respect to an owner's policy of liability insurance.

(4) Required statements in policies. Such motor vehicle liability policy shall state the name and address of the named insured, the coverage afforded by the policy, the premium charged therefor, the policy period, and the limits of liability, and shall contain an agreement or be endorsed that insurance is provided under the policy in accordance with the coverage defined in this chapter as respects bodily injury and death or property damage, or both, and is subject to all the provisions of this chapter.

(5) Policy need not insure workers' compensation, etc. Such motor vehicle liability policy need not insure any liability under any workers' compensation law nor any liability on account of bodily injury or death of an employee of the insured while engaged in the employment, other than domestic, of the insured, or while engaged in the operation, maintenance, or repair of any such vehicle nor any liability for damage to property owned by, rented to, in charge of, or transported by the insured.

(6) Provisions incorporated in policy. Every motor vehicle liability policy is subject to the following provisions which need not be contained therein:

(a) The liability of the insurance carrier with respect to the insurance required by this chapter becomes absolute whenever injury or damage covered by said motor vehicle liability policy occurs; said policy may not be canceled or annulled as to such liability by any agreement between the insurance carrier and the insured after the occurrence of the injury or damage; no statement made by the insured or on his behalf and no violation of said policy defeats or voids said policy.

(b) The satisfaction by the insured of a judgment for such injury or damage shall not be a condition precedent to the right or duty of the insurance carrier to make payment on account of such injury or damage.

(c) The insurance carrier may settle any claim covered by the policy, and if such settlement is made in good faith, the amount thereof is deductible from the limits of liability...
specified in subdivision (b) of subsection (2) of this section.

(d) The policy, the written application therefor, if any, and any rider or endorsement which does not conflict with the provisions of this chapter constitutes the entire contract between the parties.

(7) Excess or additional coverage. Any policy which grants the coverage required for a motor vehicle liability policy may also grant any lawful coverage in excess of or in addition to the coverage specified for a motor vehicle liability policy, and such excess or additional coverage is not subject to the provisions of this chapter. With respect to a policy which grants such excess or additional coverage the term "motor vehicle liability policy" applies only to that part of the coverage which is required by this section.

(8) Reimbursement provision permitted. Any motor vehicle liability policy may provide that the insured shall reimburse the insurance carrier for any payment the insurance carrier would not have been obligated to make under the terms of the policy except for the provisions of this chapter.

(9) Proration of insurance permitted. Any motor vehicle liability policy may provide for the prorating of the insurance thereunder with other valid and collectible insurance.

(10) Multiple policies. The requirements for a motor vehicle liability policy may be fulfilled by the policies of one or more insurance carrier which policies together meet such requirements.

(11) Binders. Any binder issued pending the issuance of a motor vehicle liability policy is deemed to fulfill the requirements for such a policy.

RCW 46.29.500 Notice of cancellation or termination of certified policy.

When an insurance carrier has certified a motor vehicle liability policy under RCW 46.29.460 or 46.29.470 the insurance so certified shall not be canceled or terminated until at least ten days after a notice of cancellation or termination of the insurance so certified shall be filed in the department, except that such a policy subsequently procured and certified shall, on the effective date of its certification, terminate the insurance previously certified with respect to any vehicle designated in both certificates.

[1963 c 169 § 50.]

RCW 46.29.510 Chapter not to affect other policies.

(1) This chapter shall not be held to apply to or affect policies of automobile insurance against liability which may now or hereafter be required by any other law of this state, and such policies, if they contain an agreement or are endorsed to conform with the requirements of this chapter, may be certified as proof of financial responsibility under this chapter.
(2) This chapter shall not be held to apply to or affect policies insuring solely the insured named in the policy against liability resulting from the maintenance or use by persons in the insured's employ or on his behalf of vehicles not owned by the insured.

[1963 c 169 § 51.]

**RCW 46.29.520 Bond as proof.**

Proof of financial responsibility may be evidenced by the bond of a surety company duly authorized to transact business within this state, or a bond with at least two individual sureties each owning real estate within this state, and together having equities equal in value to at least twice the amount of the bond, which real estate shall be scheduled in the bond approved by a judge of the superior court, which said bond shall be conditioned for payment of the amounts specified in RCW 46.29.260. Such bond shall be filed with the department and shall not be cancellable except after ten days written notice to the department.

[1963 c 169 § 52.]

**RCW 46.29.530 When bond constitutes a lien.**

Before a bond with individual sureties is accepted by the department it shall be recorded as other instruments affecting real property in the county or counties wherein any real estate scheduled in such bond is located. Such bond shall constitute a lien from the date of such recording in favor of the state upon the real estate so scheduled of any surety, which lien shall exist in favor of any holder of a final judgment against the person who has filed such bond, for damages, including damages for care and loss of services, because of bodily injury to or death of any person, or for damage because of injury to or destruction of property, including the loss of use thereof, resulting from the ownership, maintenance, use or operation of a vehicle of a type subject to registration under the laws of this state after such bond was filed.

[1963 c 169 § 53.]

**RCW 46.29.540 Action on bond.**

If a judgment, rendered against the principal on any bond described in RCW 46.29.520, shall not be satisfied within thirty days after it has become final, the judgment creditor may, for his own use and benefit and at his sole expense, bring an action or actions in the name of the state against the company or persons executing such bond, including an action or proceeding to foreclose any lien that may exist upon the real estate of a person who has executed such bond. Such an action to foreclose a lien shall be prosecuted in the same manner as an action to foreclose a mortgage on real estate.

[1963 c 169 § 54.]
**RCW 46.29.550  Money or securities as proof.**

Proof of financial responsibility may be evidenced by the certificate of the state treasurer that the person named therein has deposited with him sixty thousand dollars in cash, or securities such as may legally be purchased by savings banks or for trust funds of a market value of sixty thousand dollars. The state treasurer shall not accept any such deposit and issue a certificate therefor and the department shall not accept such certificate unless accompanied by evidence that there are no unsatisfied judgments of any character against the depositor in the county where the depositor resides.

[1980 c 117 § 7; 1967 ex.s. c 3 § 5; 1963 c 169 § 55.]

Effective date--1967 ex.s. c 3: See note following RCW 46.29.090.

**RCW 46.29.560  Application of deposit.**

Such deposit shall be held by the state treasurer to satisfy, in accordance with the provisions of this chapter, any execution on a judgment issued against such person making the deposit, for damages, including damages for care and loss of services, because of bodily injury to or death of any person, or for damages because of injury to or destruction of property, including the loss of use thereof, resulting from the ownership, maintenance, use or operation of a vehicle of a type subject to registration under the laws of this state after such deposit was made. Money or securities so deposited shall not be subject to attachment or execution unless such attachment or execution shall arise out of a suit for damages as aforesaid. Any interest or other income accruing to such money or securities, so deposited, shall be paid by the state treasurer to the depositor, or his order, as received.

[1963 c 169 § 56.]

**RCW 46.29.570  Owner may give proof for others.**

The owner of a motor vehicle may give proof of financial responsibility on behalf of his employee or a member of his immediate family or household in lieu of the furnishing of proof by any said person. The furnishing of such proof shall permit such person to operate only a motor vehicle covered by such proof. The department shall endorse appropriate restrictions on the license held by such person, or may issue a new license containing such restrictions.

[1963 c 169 § 57.]

**RCW 46.29.580  Substitution of proof.**

The department shall consent to the cancellation of any bond or certificate of insurance or the department shall direct and the state treasurer shall return any money or securities to the person entitled thereto upon the substitution and acceptance of other adequate proof of financial
responsibility pursuant to this chapter.

[1963 c 169 § 58.]

**RCW 46.29.590 Other proof required, when.**

Whenever any proof of financial responsibility filed under the provisions of this chapter no longer fulfills the purposes for which required, the department shall, for the purpose of this chapter, require other proof as required by this chapter and shall suspend the license and registration pending filing of such other proof.

[1963 c 169 § 59.]

**RCW 46.29.600 Duration of proof—When proof may be canceled or returned.**

(1) The department shall upon request consent to the immediate cancellation of any bond or certificate of insurance, or the department shall direct and the state treasurer shall return to the person entitled thereto any money or securities deposited pursuant to this chapter as proof of financial responsibility, or the department shall waive the requirement of filing proof, in any of the following events:

(a) At any time after three years from the date such proof was required when, during the three-year period preceding the request, the department has not received record of a conviction, forfeiture of bail, or finding that a traffic infraction has been committed which would require or permit the suspension or revocation of the license of the person by or for whom such proof was furnished; or

(b) In the event of the death of the person on whose behalf such proof was filed or the permanent incapacity of such person to operate a motor vehicle; or

(c) In the event the person who has given proof surrenders his license to the department;

46.30.901 Effective date--1989 c 353.

RCW 46.30.010 Legislative intent.  
It is a privilege granted by the state to operate a motor vehicle upon the highways of this state. The legislature recognizes the threat that uninsured drivers are to the people of the state. In
order to alleviate the threat posed by uninsured drivers it is the intent of the legislature to require that all persons driving vehicles registered in this state satisfy the financial responsibility requirements of this chapter. By enactment of this chapter it is not the intent of the legislature to modify, amend, or invalidate existing insurance contract terms, conditions, limitations, or exclusions or to preclude insurance companies from using similar terms, conditions, limitations, or exclusions in future contracts.

[1989 c 353 § 1.]

**RCW 46.30.020 Liability insurance or other financial responsibility required--Violations--Exceptions.**

(1) (a) No person may operate a motor vehicle subject to registration under chapter 46.16 RCW in this state unless the person is insured under a motor vehicle liability policy with liability limits of at least the amounts provided in RCW 46.29.090, is self-insured as provided in RCW 46.29.630, is covered by a certificate of deposit in conformance with RCW 46.29.550, or is covered by a liability bond of at least the amounts provided in RCW 46.29.090. Written proof of financial responsibility for motor vehicle operation must be provided on the request of a law enforcement officer in the format specified under RCW 46.30.030.

(b) A person who drives a motor vehicle that is required to be registered in another state that requires drivers and owners of vehicles in that state to maintain insurance or financial responsibility shall, when requested by a law enforcement officer, provide evidence of financial responsibility or insurance as is required by the laws of the state in which the vehicle is registered.

(c) When asked to do so by a law enforcement officer, failure to display an insurance identification card as specified under RCW 46.30.030 creates a presumption that the person does not have motor vehicle insurance.

(d) Failure to provide proof of motor vehicle insurance is a traffic infraction and is subject to penalties as set by the supreme court under RCW 46.63.110 or community service.

(2) If a person cited for a violation of subsection (1) of this section appears in person before the court and provides written evidence that at the time the person was cited, he or she was in compliance with the financial responsibility requirements of subsection (1) of this section, the citation shall be dismissed. In lieu of personal appearance, a person cited for a violation of subsection (1) of this section may, before the date scheduled for the person's appearance before the court, submit by mail to the court written evidence that at the time the person was cited, he or she was in compliance with the financial responsibility requirements of subsection (1) of this section, in which case the citation shall be dismissed without cost, except that the court may assess court administrative costs of twenty-five dollars at the time of dismissal.

(3) The provisions of this chapter shall not govern:

(a) The operation of a motor vehicle registered under RCW 46.16.305(1), governed by RCW 46.16.020, or registered with the Washington utilities and transportation commission as common or contract carriers; or
Revised Code of Washington 2000

(4) RCW 46.29.490 shall not be deemed to govern all motor vehicle liability policies required by this chapter but only those certified for the purposes stated in chapter 46.29 RCW.

RCW 46.30.030 Insurance identification card.

(1) Whenever an insurance company issues or renews a motor vehicle liability insurance policy, the company shall provide the policyholder with an identification card as specified by the department of licensing. At the policyholder's request, the insurer shall provide the policyholder a card for each vehicle covered under the policy.

(2) The department of licensing shall adopt rules specifying the type, style, and content of insurance identification cards to be used for proof of compliance with RCW 46.30.020, including the method for issuance of such identification cards by persons or organizations providing proof of compliance through self-insurance, certificate of deposit, or bond. The chief of the Washington state patrol is authorized to adopt by regulation, federal standards relating to motor vehicles and vehicle equipment, issued pursuant to the National Traffic and Motor Vehicle Safety Act of 1966, or any amendment to said act, notwithstanding any provision in Title 46 RCW inconsistent with such standards. RCW 46.37.010  Scope and effect of regulations--General penalty.
(1) It is a traffic infraction for any person to drive or move or for the owner to cause or knowingly permit to be driven or moved on any highway any vehicle or combination of vehicles which is in such unsafe condition as to endanger any person, or which does not contain those
parts or is not at all times equipped with such lamps and other equipment in proper condition and
adjustment as required in this chapter or in regulations issued by the chief of the Washington
state patrol, or which is equipped in any manner in violation of this chapter or the state patrol's
regulations, or for any person to do any act forbidden or fail to perform any act required under
this chapter or the state patrol's regulations.

(2) Nothing contained in this chapter or the state patrol's regulations shall be construed to
prohibit the use of additional parts and accessories on any vehicle not inconsistent with the
provisions of this chapter or the state patrol's regulations.

(3) The provisions of the chapter and the state patrol's regulations with respect to
equipment on vehicles shall not apply to implements of husbandry, road machinery, road rollers,
or farm tractors except as herein made applicable.

(4) No owner or operator of a farm tractor, self-propelled unit of farm equipment, or
implement of husbandry shall be guilty of a crime or subject to penalty for violation of RCW
46.37.160 as now or hereafter amended unless such violation occurs on a public highway.

(5) It is a traffic infraction for any person to sell or offer for sale vehicle equipment which
is required to be approved by the state patrol as prescribed in RCW 46.37.005 unless it has been
approved by the state patrol.

(6) The provisions of this chapter with respect to equipment required on vehicles shall not
apply to motorcycles or motor-driven cycles except as herein made applicable.

(7) This chapter does not apply to vehicles used by the state parks and recreation
commission exclusively for park maintenance and operations upon public highways within state
parks.

(8) Notices of traffic infraction issued to commercial drivers under the provisions of this
chapter with respect to equipment required on commercial motor vehicles shall not be considered
for driver improvement purposes under chapter 46.20 RCW.

(9) Whenever a traffic infraction is chargeable to the owner or lessee of a vehicle under
subsection (1) of this section, the driver shall not be arrested or issued a notice of traffic
infraction unless the vehicle is registered in a jurisdiction other than Washington state, or unless
the infraction is for an offense that is clearly within the responsibility of the driver.

(10) Whenever the owner or lessee is issued a notice of traffic infraction under this
section the court may, on the request of the owner or lessee, take appropriate steps to make the
driver of the vehicle, or any other person who directs the loading, maintenance, or operation of
the vehicle, a codefendant. If the codefendant is held solely responsible and is found to have
committed the traffic infraction, the court may dismiss the notice against the owner or lessee.

RCW 46.37.215 Hazard warning lamps.
(1) Any vehicle may be equipped with lamps for the purpose of warning other operators of other vehicles of the presence of a vehicular traffic hazard requiring the exercise of unusual care in approaching, overtaking, or passing.

(2) After June 1, 1978, every motor home, bus, truck, truck tractor, trailer, semitrailer, or pole trailer eighty inches or more in overall width or thirty feet or more in overall length shall be equipped with lamps meeting the requirements of this section.

(3) Vehicular hazard warning signal lamps used to display such warning to the front shall be mounted at the same level and as widely spaced laterally as practicable, and shall display simultaneously flashing amber light: PROVIDED, That on any vehicle manufactured prior to January 1, 1969, the lamps showing to the front may display simultaneously flashing white or amber lights, or any shade of color between white and amber. The lamps used to display such warning to the rear shall be mounted at the same level and as widely spaced laterally as practicable, and shall show simultaneously flashing amber or red lights, or any shade of color.
between amber and red. These warning lights shall be visible from a distance of not less than five hundred feet in normal sunlight.

RCW 46.37.220 Multiple-beam road-lighting equipment.

Except as hereinafter provided, the head lamps or the auxiliary driving lamp or the auxiliary passing lamp or combination thereof on motor vehicles shall be so arranged that the driver may select at will between distributions of light projected to different elevations, and such lamps may be so arranged that such selection can be made automatically subject to the following limitations:

(1) There shall be an uppermost distribution of light, or composite beam, so aimed and of such intensity as to reveal persons and vehicles at a distance of four hundred fifty feet ahead for all conditions of loading;

(2) There shall be a lowermost distribution of light, or composite beam, so aimed and of sufficient intensity to reveal persons and vehicles at a distance of one hundred fifty feet ahead; and on a straight level road under any conditions of loading none of the high intensity portion of the beam shall be directed to strike the eyes of an approaching driver;

(3) Every new motor vehicle registered in this state after January 1, 1948, which has multiple-beam road-lighting equipment shall be equipped with a beam indicator, which shall be lighted whenever the uppermost distribution of light from the head lamps is in use, and shall not otherwise be lighted. Said indicator shall be so designed and located that when lighted it will be readily visible without glare to the driver of the vehicle so equipped.

RCW 46.37.230 Use of multiple-beam road-lighting equipment.

(1) Whenever a motor vehicle is being operated on a roadway or shoulder adjacent thereto during the times specified in RCW 46.37.020, the driver shall use a distribution of light, or composite beam, directed high enough and of sufficient intensity to reveal persons and vehicles at a safe distance in advance of the vehicle, subject to the following requirements and limitations:

(2) Whenever a driver of a vehicle approaches an oncoming vehicle within five hundred feet, such driver shall use a distribution of light, or composite beam, so aimed that the glaring rays are not projected into the eyes of the oncoming driver. The lowermost distribution of light, or composite beam, specified in RCW 46.37.220(2) shall be deemed to avoid glare at all times,
regardless of road contour and loading.

(3) Whenever the driver of a vehicle approaches another vehicle from the rear within three hundred feet such driver shall use a distribution of light permissible under this chapter other than the uppermost distribution of light specified in RCW 46.37.220(1).

RCW 46.37.240 Single-beam road-lighting equipment.

Head lamp systems which provide only a single distribution of light shall be permitted on all farm tractors regardless of date of manufacture, and on all other motor vehicles manufactured and sold prior to one year after March 18, 1955, in lieu of multiple-beam road-lighting equipment herein specified if the single distribution of light complies with the following requirements and limitations:

(1) The head lamps shall be so aimed that when the vehicle is not loaded none of the high intensity portion of the light shall at a distance of twenty-five feet ahead project higher than a level of five inches below the level of the center of the lamp from which it comes, and in no case higher than forty-two inches above the level on which the vehicle stands at a distance of seventy-five feet ahead;

(2) The intensity shall be sufficient to reveal persons and vehicles at a distance of at least two hundred feet.

RCW 46.37.260 Alternate road lighting equipment.

Any motor vehicle may be operated under the conditions specified in RCW 46.37.020 when equipped with two lighted lamps upon the front thereof capable of revealing persons and objects one hundred feet ahead in lieu of lamps required in RCW 46.37.220 or 46.37.240: PROVIDED, HOWEVER, That at no time shall it be operated at a speed in excess of twenty miles per hour.

(1) At all times specified in RCW 46.37.020, at least two lighted lamps shall be displayed, one on each side at the front of every motor vehicle, except when such vehicle is parked subject to the regulations governing lights on parked vehicles.

(2) Whenever a motor vehicle equipped with head lamps as herein required is also equipped with any auxiliary lamps or a spot lamp or any other lamp on the front thereof projecting a beam of intensity greater than three hundred candlepower, not more than a total of two of any such additional lamps on the front of a vehicle shall be lighted at any one time when upon a highway.

**RCW 46.37.320 Authority of state patrol regarding lighting devices or other safety equipment.**

(1) The chief of the state patrol is hereby authorized to adopt and enforce rules establishing standards and specifications governing the performance of lighting devices and their installation, adjustment, and aiming, when in use on motor vehicles, and other safety equipment, components, or assemblies of a type for which regulation is required in this chapter or in rules adopted by the state patrol. Such rules shall correlate with and, so far as practicable, conform to federal motor vehicle safety standards adopted pursuant to the national traffic and motor vehicle safety act of 1966 (15 U.S.C. Sec. 1381 et seq.) covering the same aspect of performance, or in the absence of such federal standards, to the then current standards and specifications of the society of automotive engineers applicable to such equipment: PROVIDED, That the sale, installation, and use of any headlamp meeting the standards of either the society of automotive engineers or the United Nations agreement concerning motor vehicle equipment and parts done at Geneva on March 20, 1958, or as amended and adopted by the Canadian standards association (CSA standard D106.2), as amended, shall be lawful in this state.

(2) Every manufacturer who sells or offers for sale lighting devices or other safety equipment subject to requirements established by the state patrol shall, if the lighting device or safety equipment is not in conformance with applicable federal motor vehicle safety standards, provide for submission of such lighting device or safety equipment to any recognized organization or agency such as, but not limited to, the American national standards institute, the society of automotive engineers, or the American association of motor vehicle administrators, as the agent of the state patrol. Issuance of a certificate of compliance for any lighting device or item of safety equipment by that agent is deemed to comply with the standards set forth by the state patrol. Such certificate shall be issued by the agent of the state before sale of the product within the state.

(3) The state patrol may at any time request from the manufacturer a copy of the test data showing proof of compliance of any device with the requirements established by the state patrol and additional evidence that due care was exercised in maintaining compliance during production. If the manufacturer fails to provide such proof of compliance within sixty days of notice from the state patrol, the state patrol may prohibit the sale of the device in this state until acceptable proof of compliance is received by the state patrol.
(4) The state patrol or its agent may purchase any lighting device or other safety equipment, component, or assembly subject to this chapter or rules adopted by the state patrol under this chapter, for purposes of testing or retesting the equipment as to its compliance with applicable standards or specifications.

RCW 46.37.330 Revocation of certificate of approval on devices--Reapproval, conditions.

(1) When the state patrol has reason to believe that an approved device does not comply with the requirements of this chapter or regulations issued by the state patrol, it may, after giving thirty days' previous notice to the person holding the certificate of approval for such device in this state, conduct a hearing upon the question of compliance of said approved device. After said hearing the state patrol shall determine whether said approved device meets the requirements of this chapter and regulations issued by the state patrol. If said device does not meet the requirements of this chapter or the state patrol's regulations it shall give notice to the one to whom the certificate of approval has been issued of the state patrol's intention to suspend or revoke the certificate of approval for such device in this state.

(2) If at the expiration of ninety days after such notice the person holding the certificate of approval for such device has failed to satisfy the state patrol that said approved device as thereafter to be sold or offered for sale meets the requirements of this chapter or the state patrol's regulations, the state patrol shall suspend or revoke the approval issued therefor and shall require the withdrawal of all such devices from the market and may require that all said devices sold since the notification be replaced with devices that do comply.

(3) When a certificate of approval has been suspended or revoked pursuant to this chapter or regulations by the state patrol, the device shall not be again approved unless and until it has been submitted for reapproval and it has been demonstrated, in the same manner as in an application for an original approval, that the device fully meets the requirements of this chapter or regulations issued by the state patrol. The state patrol may require that all previously approved items are being effectively recalled and removed from the market as a condition of reapproval.

RCW 46.37.340  **Braking equipment required.**

Every motor vehicle, trailer, semitrailer, and pole trailer, and any combination of such vehicle operating upon a highway within this state shall be equipped with brakes in compliance with the requirements of this chapter.

(1) Service brakes--adequacy. Every such vehicle and combination of vehicles, except special mobile equipment as defined in RCW 46.04.552, shall be equipped with service brakes complying with the performance requirements of RCW 46.37.351 and adequate to control the movement of and to stop and hold such vehicle under all conditions of loading, and on any grade incident to its operation.

(2) Parking brakes--adequacy. Every such vehicle and combination of vehicles shall be equipped with parking brakes adequate to hold the vehicle on any grade on which it is operated, under all conditions of loading, on a surface free from snow, ice, or loose material. The parking brakes shall be capable of being applied in conformance with the foregoing requirements by the driver's muscular effort or by spring action or by equivalent means. Their operation may be assisted by the service brakes or other source of power provided that failure of the service brake actuation system or other power assisting mechanism will not prevent the parking brakes from being applied in conformance with the foregoing requirements. The parking brakes shall be so designed that when once applied they shall remain applied with the required effectiveness despite exhaustion of any source of energy or leakage of any kind. The same brake drums, brake shoes and lining assemblies, brake shoe anchors, and mechanical brake shoe actuation mechanism normally associated with the wheel brake assemblies may be used for both the service brakes and the parking brakes. If the means of applying the parking brakes and the service brakes are connected in any way, they shall be so constructed that failure of any one part shall not leave the vehicle without operative brakes.

(3) Brakes on all wheels. Every vehicle shall be equipped with brakes acting on all wheels except:

   (a) Trailers, semitrailers, or pole trailers of a gross weight not exceeding three thousand pounds, provided that:
      
      (i) The total weight on and including the wheels of the trailer or trailers shall not exceed forty percent of the gross weight of the towing vehicle when connected to the trailer or trailers; and
      
      (ii) The combination of vehicles consisting of the towing vehicle and its total towed load, is capable of complying with the performance requirements of RCW 46.37.351;

   (b) Trailers, semitrailers, or pole trailers manufactured and assembled prior to July 1, 1965, shall not be required to be equipped with brakes when the total weight on and including the wheels of the trailer or trailers does not exceed two thousand pounds;

   (c) Any vehicle being towed in driveaway or towaway operations, provided the combination of vehicles is capable of complying with the performance requirements of RCW 46.37.351;
(d) Trucks and truck tractors manufactured before July 25, 1980, and having three or more axles need not have brakes on the front wheels, except that when such vehicles are equipped with at least two steerable axles, the wheels of one steerable axle need not have brakes. Trucks and truck tractors manufactured on or after July 25, 1980, and having three or more axles are required to have brakes on the front wheels, except that when such vehicles are equipped with at least two steerable axles, the wheels of one steerable axle need not have brakes. Such trucks and truck tractors may be equipped with an automatic device to reduce the front-wheel braking effort by up to fifty percent of the normal braking force, regardless of whether or not antilock system failure has occurred on any axle, and:

(i) Must not be operable by the driver except upon application of the control that activates the braking system; and

(ii) Must not be operable when the pressure that transmits brake control application force exceeds eighty-five pounds per square inch (psi) on air-mechanical braking systems, or eighty-five percent of the maximum system pressure in vehicles utilizing other than compressed air.

All trucks and truck tractors having three or more axles must be capable of complying with the performance requirements of RCW 46.37.351;

(e) Special mobile equipment as defined in RCW 46.04.552 and all vehicles designed primarily for off-highway use with braking systems which work within the power train rather than directly at each wheel;

(f) Vehicles manufactured prior to January 1, 1930, may have brakes operating on only two wheels.

(g) For a forklift manufactured after January 1, 1970, and being towed, wheels need not have brakes except for those on the rearmost axle so long as such brakes, together with the brakes on the towing vehicle, shall be adequate to stop the combination within the stopping distance requirements of RCW 46.37.351.

(4) Automatic trailer brake application upon breakaway. Every trailer, semitrailer, and pole trailer equipped with air or vacuum actuated brakes and every trailer, semitrailer, and pole trailer with a gross weight in excess of three thousand pounds, manufactured or assembled after January 1, 1964, shall be equipped with brakes acting on all wheels and of such character as to be applied automatically and promptly, and remain applied for at least fifteen minutes, upon breakaway from the towing vehicle.

(5) Tractor brakes protected. Every motor vehicle manufactured or assembled after January 1, 1964, and used to tow a trailer, semitrailer, or pole trailer equipped with brakes, shall be equipped with means for providing that in case of breakaway of the towed vehicle, the towing vehicle will be capable of being stopped by the use of its service brakes.

(6) Trailer air reservoirs safeguarded. Air brake systems installed on trailers manufactured or assembled after January 1, 1964, shall be so designed that the supply reservoir used to provide air for the brakes shall be safeguarded against backflow of air from the reservoir through the supply line.

(7) Two means of emergency brake operation.
(a) Air brakes. After January 1, 1964, every towing vehicle equipped with air controlled brakes, in other than driveaway or towaway operations, and all other vehicles equipped with air controlled brakes, shall be equipped with two means for emergency application of the brakes. One of these means shall apply the brakes automatically in the event of a reduction of the vehicle's air supply to a fixed pressure which shall be not lower than twenty pounds per square inch nor higher than forty-five pounds per square inch. The other means shall be a manually controlled device for applying and releasing the brakes, readily operable by a person seated in the driving seat, and its emergency position or method of operation shall be clearly indicated. In no instance may the manual means be so arranged as to permit its use to prevent operation of the automatic means. The automatic and the manual means required by this section may be, but are not required to be, separate.

(b) Vacuum brakes. After January 1, 1964, every towing vehicle used to tow other vehicles equipped with vacuum brakes, in operations other than driveaway or towaway operations, shall have, in addition to the single control device required by subsection (8) of this section, a second control device which can be used to operate the brakes on towed vehicles in emergencies. The second control shall be independent of brake air, hydraulic, and other pressure, and independent of other controls, unless the braking system be so arranged that failure of the pressure upon which the second control depends will cause the towed vehicle brakes to be applied automatically. The second control is not required to provide modulated braking.

(8) Single control to operate all brakes. After January 1, 1964, every motor vehicle, trailer, semitrailer, and pole trailer, and every combination of such vehicles, equipped with brakes shall have the braking system so arranged that one control device can be used to operate all service brakes. This requirement does not prohibit vehicles from being equipped with an additional control device to be used to operate brakes on the towed vehicles. This regulation does not apply to driveaway or towaway operations unless the brakes on the individual vehicles are designed to be operated by a single control in the towing vehicle.

(9) Reservoir capacity and check valve.

(a) Air brakes. Every bus, truck, or truck tractor with air operated brakes shall be equipped with at least one reservoir sufficient to insure that, when fully charged to the maximum pressure as regulated by the air compressor governor cut-out setting, a full service brake application may be made without lowering such reservoir pressure by more than twenty percent. Each reservoir shall be provided with means for readily draining accumulated oil or water.

(b) Vacuum brakes. After January 1, 1964, every truck with three or more axles equipped with vacuum assist type brakes and every truck tractor and truck used for towing a vehicle equipped with vacuum brakes shall be equipped with a reserve capacity or a vacuum reservoir sufficient to insure that, with the reserve capacity or reservoir fully charged and with the engine stopped, a full service brake application may be made without depleting the vacuum supply by more than forty percent.

(c) Reservoir safeguarded. All motor vehicles, trailers, semitrailers, and pole trailers, when equipped with air or vacuum reservoirs or reserve capacity as required by this section, shall have such reservoirs or reserve capacity so safeguarded by a check valve or equivalent device.
that in the event of failure or leakage in its connection to the source of compressed air or vacuum, the stored air or vacuum shall not be depleted by the leak or failure.

(10) Warning devices.

(a) Air brakes. Every bus, truck, or truck tractor using compressed air for the operation of its own brakes or the brakes on any towed vehicle, shall be provided with a warning signal, other than a pressure gauge, readily audible or visible to the driver, which will operate at any time the primary supply air reservoir pressure of the vehicle is below fifty percent of the air compressor governor cut-out pressure. In addition, each such vehicle shall be equipped with a pressure gauge visible to the driver, which indicates in pounds per square inch the pressure available for braking.

(b) Vacuum brakes. After January 1, 1964, every truck tractor and truck used for towing a vehicle equipped with vacuum operated brakes and every truck with three or more axles using vacuum in the operation of its brakes, except those in driveaway or towaway operations, shall be equipped with a warning signal, other than a gauge indicating vacuum, readily audible or visible to the driver, which will operate at any time the vacuum in the vehicle's supply reservoir or reserve capacity is less than eight inches of mercury.

(c) Combination of warning devices. When a vehicle required to be equipped with a warning device is equipped with both air and vacuum power for the operation of its own brakes or the brakes on a towed vehicle, the warning devices may be, but are not required to be, combined into a single device which will serve both purposes. A gauge or gauges indicating pressure or vacuum shall not be deemed to be an adequate means of satisfying this requirement.

**RCW 46.37.351 Performance ability of brakes.**

Every motor vehicle and combination of vehicles, at all times and under all conditions of loading, upon application of the service brakes, shall be capable of:

(1) Developing a braking force that is not less than the percentage of its gross weight tabulated herein for its classification,

(2) Decelerating to a stop from not more than twenty miles per hour at not less than the feet per second per second tabulated herein for its classification, and

(3) Stopping from a speed of twenty miles per hour in not more than the distance tabulated herein for its classification, such distance to be measured from the point at which movement of the service brake pedal or control begins.

**RCW 46.37.360 Maintenance of brakes--Brake system failure indicator.**

(1) All brakes shall be maintained in good working order and shall be so adjusted as to operate as equally as practicable with respect to the front and back wheels and to wheels on opposite sides of the vehicle.

(2) All passenger cars manufactured on or after January 1, 1968, and other types of vehicles manufactured on or after September 1, 1975, shall be equipped with brake system failure indicator lamps which shall be maintained in good working order. The brake system shall demonstrate good working order and integrity by the application of a force of one hundred twenty-five pounds to the brake pedal for ten seconds without the occurrence of any of the following:

(i) Illumination of the brake system failure indicator lamp;

(ii) A decrease of more than eighty percent of service brake pedal height as measured from its free position to the floorboard or any other object which restricts service brake pedal travel;

(iii) Failure of any hydraulic line or other part.

(3) Brake hoses shall not be mounted so as to contact the vehicle body or chassis. In addition, brake hoses shall not be cracked, chafed, flattened, abraded, or visibly leaking. Protection devices such as "rub rings" shall not be considered part of the hose or tubing.
(4) Disc and drum condition. If the drum is embossed with a maximum safe diameter dimension or the rotor is embossed with a minimum safety thickness dimension, the drum or disc shall be within the appropriate specifications. These dimensions will be found on motor vehicles manufactured since January 1, 1971, and may be found on vehicles manufactured for several years prior to that time. If the drums and discs are not embossed, the drums and discs shall be within the manufacturer's specifications.

(5) Friction materials. On each brake the thickness of the lining or pad shall not be less than one thirty-second of an inch over the rivet heads, or the brake shoe on bonded linings or pads. Brake linings and pads shall not have cracks or breaks that extend to rivet holes except minor cracks that do not impair attachment. Drum brake linings shall be securely attached to brake shoes. Disc brake pads shall be securely attached to shoe plates.

(6) Backing plates and caliper assemblies shall not be deformed or cracked. System parts shall not be broken, misaligned, missing, binding, or show evidence of severe wear. Automatic adjusters and other parts shall be assembled and installed correctly.

RCW 46.37.365 Hydraulic brake fluid—Defined—Standards and specifications.

(1) The term "hydraulic brake fluid" as used in this section shall mean the liquid medium through which force is transmitted to the brakes in the hydraulic brake system of a vehicle.

(2) Hydraulic brake fluid shall be distributed and serviced with due regard for the safety of the occupants of the vehicle and the public.

(3) The chief of the Washington state patrol shall, in compliance with the provisions of chapter 34.05 RCW, the administrative procedure act, which govern the adoption of rules, adopt and enforce regulations for the administration of this section and shall adopt and publish standards and specifications for hydraulic brake fluid which shall correlate with, and so far as practicable conform to, the then current standards and specifications of the society of automotive engineers applicable to such fluid.

(4) No person shall distribute, have for sale, offer for sale, or sell any hydraulic brake fluid unless it complies with the requirements of this section and the standard specifications adopted by the state patrol. No person shall service any vehicle with brake fluid unless it complies with the requirements of this section and the standards and specifications adopted by the state patrol.

(5) Subsections (3) and (4) of this section shall not apply to petroleum base fluids in vehicles with brake systems designed to use them.

   (a) Incorporate winged projections; or
   (b) Constitute a hazard to pedestrians and cyclists.
For the purposes of this section, a wheel nut is defined as an exposed nut which is mounted at the center or hub of a wheel, and is not one of the ordinary hexagonal nuts which secure a wheel to an axle and are normally covered by a hub cap or wheel disc.
(2) Tire rims and wheel discs shall have no visible cracks, elongated bolt holes, or indications of repair by welding. In addition, the lateral and radial runout of each rim bead area shall not exceed one-eighth of an inch of total indicated runout.
(3) King pins or ball joints shall not be worn to the extent that front wheels tip in or out more than one-quarter of an inch at the lower edge of the tire.

(2) No tire on a vehicle moved on a highway may have on its periphery any block, flange, cleat, or spike or any other protuberance of any material other than rubber which projects beyond the tread of the traction surface of the tire, except that it is permissible to use farm machinery equipped with pneumatic tires or solid rubber tracks having protuberances that will not injure the highway, and except also that it is permissible to use tire chains or metal studs imbedded within the tire of reasonable proportions and of a type conforming to rules adopted by the state patrol, upon any vehicle when required for safety because of snow, ice, or other conditions tending to cause a vehicle to skid. It is unlawful to use metal studs imbedded within the tire between April 1st and November 1st. The state department of transportation may, from time to time, determine additional periods in which the use of tires with metal studs imbedded therein is lawful.

(3) The state department of transportation and local authorities in their respective jurisdictions may issue special permits authorizing the operation upon a highway of traction engines or tractors having movable tracks with transverse corrugations upon the periphery of the movable tracks or farm tractors or other farm machinery, the operation of which upon a highway would otherwise be prohibited under this section.

RCW 46.37.425 Tires--Unsafe--State patrol's authority--Penalty.

No person shall drive or move or cause to be driven or moved any vehicle, the tires of which have contact with the driving surface of the road, subject to registration in this state, upon the public highways of this state unless such vehicle is equipped with tires in safe operating condition in accordance with requirements established by this section or by the state patrol.

The state patrol shall promulgate rules and regulations setting forth requirements of safe operating condition of tires capable of being employed by a law enforcement officer by visual inspection of tires mounted on vehicles including visual comparison with simple measuring gauges. These rules shall include effects of tread wear and depth of tread.

A tire shall be considered unsafe if it has:

(1) Any ply or cord exposed either to the naked eye or when cuts or abrasions on the tire are probed; or
(2) Any bump, bulge, or knot, affecting the tire structure; or
(3) Any break repaired with a boot; or
(4) A tread depth of less than 2/32 of an inch measured in any two major tread grooves at three locations equally spaced around the circumference of the tire, or for those tires with tread wear indicators, a tire shall be considered unsafe if it is worn to the point that the tread wear indicators contact the road in any two major tread grooves at three locations equally spaced around the circumference of the tire; or
(5) A legend which indicates the tire is not intended for use on public highways such as, "not for highway use" or "for racing purposes only"; or
(6) Such condition as may be reasonably demonstrated to render it unsafe; or
(7) If not matched in tire size designation, construction, and profile to the other tire and/or tires on the same axle, except for temporary-use spare tires that meet federal standards that are installed and used in accordance with the manufacturer's instructions.
No person, firm, or corporation shall sell any vehicle for use on the public highways of this state unless the vehicle is equipped with tires that are in compliance with the provisions of this section. If the tires are found to be in violation of the provisions of this section, the person, firm, or corporation selling the vehicle shall cause such tires to be removed from the vehicle and shall equip the vehicle with tires that are in compliance with the provisions of this section.

It is a traffic infraction for any person to operate a vehicle on the public highways of this state, or to sell a vehicle for use on the public highways of this state, which is equipped with a tire or tires in violation of the provisions of this section or the rules and regulations promulgated by the state patrol hereunder: PROVIDED, HOWEVER, That if the violation relates to items (1) to (7) inclusive of this section then the condition or defect must be such that it can be detected by a visual inspection of tires mounted on vehicles, including visual comparison with simple measuring gauges.

[1971 c 77 § 4.]

RCW 46.37.430 Safety glazing--Sunscreening or coloring.

(1) No person may sell any new motor vehicle as specified in this title, nor may any new motor vehicle as specified in this title be registered unless such vehicle is equipped with safety glazing material of a type that meets or exceeds federal standards, or if there are none, standards approved by the Washington state patrol. The foregoing provisions apply to all passenger-type motor vehicles, including passenger buses and school buses, but in respect to trucks, including truck tractors, the requirements as to safety glazing material apply to all glazing material used in doors, windows, and windshields in the drivers' compartments of such vehicles except as provided by subsection (4) of this section.

(2) The term "safety glazing materials" means glazing materials so constructed, treated, or combined with other materials as to reduce substantially, in comparison with ordinary sheet glass or plate glass, the likelihood of injury to persons by objects from exterior sources or by these safety glazing materials when they may be cracked or broken.

(3) The director of licensing shall not register any motor vehicle which is subject to the provisions of this section unless it is equipped with an approved type of safety glazing material, and he or she shall suspend the registration of any motor vehicle so subject to this section which the director finds is not so equipped until it is made to conform to the requirements of this section.

(4) No person may sell or offer for sale, nor may any person operate a motor vehicle registered in this state which is equipped with, any camper manufactured after May 23, 1969,
unless such camper is equipped with safety glazing material of a type conforming to rules adopted by the state patrol wherever glazing materials are used in outside windows and doors.

(5) No film sunscreening or coloring material that reduces light transmittance to any degree may be applied to the surface of the safety glazing material in a motor vehicle unless it meets the following standards for such material:

(a) The maximum level of film sunscreening material to be applied to any window, except the windshield, shall have a total reflectance of thirty-five percent or less, plus or minus three percent, and a light transmission of thirty-five percent or more, plus or minus three percent, when measured against clear glass resulting in a minimum of twenty-four percent light transmission on AS-2 glazing where the vehicle is equipped with outside rearview mirrors on both the right and left. Installation of more than a single sheet of film sunscreening material to any window is prohibited. The same maximum levels of film sunscreen material may be applied to windows to the immediate right and left of the driver on limousines and passenger buses used to transport persons for compensation and vehicles identified by the manufacturer as multi-use, multipurpose, or other similar designation. All windows to the rear of the driver on such vehicles may have film sunscreening material applied that has less than thirty-five percent light transmittance, if the light reflectance is thirty-five percent or less and the vehicle is equipped with outside rearview mirrors on both the right and left. A person or business tinting windows for profit who tints windows within restricted areas of the glazing system shall supply a sticker to be affixed to the driver's door post, in the area adjacent to the manufacturer's identification tag. Installation of this sticker certifies that the glazing application meets this chapter's standards for light transmission, reflectance, and placement requirements. Stickers must be no smaller than three-quarters of an inch by one and one-half inches, and no larger than two inches by two and one-half inches. The stickers must be of sufficient quality to endure exposure to harsh climate conditions. The business name and state tax identification number of the installer must be clearly visible on the sticker.

(b) A greater degree of light reduction is permitted on all windows and the top six inches of windshields of a vehicle operated by or carrying as a passenger a person who possesses a written verification from a licensed physician that the operator or passenger must be protected from exposure to sunlight for physical or medical reasons.

(c) Windshield application. A greater degree of light reduction is permitted on the top six-inch area of a vehicle's windshield. Clear film sunscreening material that reduces or eliminates ultraviolet light may be applied to windshields.

(d) When film sunscreening material is applied to any window except the windshield, outside mirrors on both the left and right sides shall be located so as to reflect to the driver a view of the roadway, through each mirror, a distance of at least two hundred feet to the rear of the vehicle.

(e) The following types of film sunscreening material are not permitted:

(i) Mirror finish products;
(ii) Red, gold, yellow, or black material; or
(iii) Film sunscreening material that is in liquid preapplication form and brushed or
sprayed on.

Nothing in this section prohibits the use of shaded or heat-absorbing safety glazing material in which the shading or heat-absorbing characteristics have been applied at the time of manufacture of the safety glazing material and which meet federal standards and the standards of the state patrol for such safety glazing materials.

(6) It is a traffic infraction for any person to operate a vehicle for use on the public highways of this state, if the vehicle is equipped with film sunscreening or coloring material in violation of this section.

(7) Owners of vehicles with film sunscreening material applied to windows to the rear of the driver, prior to June 7, 1990, must comply with the requirements of this section and RCW 46.37.435 by July 1, 1993.

(1) Whenever any motor truck, passenger bus, truck tractor over eighty inches in overall width, trailer, semitrailer, or pole trailer is disabled upon the traveled portion of any highway or the shoulder thereof outside any municipality at any time when lighted lamps are required on vehicles, the driver of such vehicle shall display the following warning devices upon the highway during the time the vehicle is so disabled on the highway except as provided in subsection (2) of this section:

(a) A lighted fusee, a lighted red electric lantern, or a portable red emergency reflector shall be immediately placed at the traffic side of the vehicle in the direction of the nearest approaching traffic.

(b) As soon thereafter as possible but in any event within the burning period of the fusee (fifteen minutes), the driver shall place three liquid-burning flares (pot torches), three lighted red electric lanterns, or three portable red emergency reflectors on the traveled portion of the highway in the following order:

(i) One, approximately one hundred feet from the disabled vehicle in the center of the lane occupied by such vehicle and toward traffic approaching in that lane.

(ii) One, approximately one hundred feet in the opposite direction from the disabled vehicle and in the center of the traffic lane occupied by such vehicle.

(iii) One at the traffic side of the disabled vehicle not less than ten feet rearward or forward thereof in the direction of the nearest approaching traffic. If a lighted red electric lantern or a red portable emergency reflector has been placed at the traffic side of the vehicle in accordance with subdivision (a) of this subsection, it may be used for this purpose.

(2) Whenever any vehicle referred to in this section is disabled within five hundred feet of
a curve, hillcrest, or other obstruction to view, the warning signal in that direction shall be so placed as to afford ample warning to other users of the highway, but in no case less than five hundred feet from the disabled vehicle.

(3) Whenever any vehicle of a type referred to in this section is disabled upon any roadway of a divided highway during the time that lights are required, the appropriate warning devices prescribed in subsections (1) and (5) of this section shall be placed as follows:

One at a distance of approximately two hundred feet from the vehicle in the center of the lane occupied by the stopped vehicle and in the direction of traffic approaching in that lane; one at a distance of approximately one hundred feet from the vehicle, in the center of the lane occupied by the vehicle and in the direction of traffic approaching in that lane; and one at the traffic side of the vehicle and approximately ten feet from the vehicle in the direction of the nearest approaching traffic.

(4) Whenever any vehicle of a type referred to in this section is disabled upon the traveled portion of a highway or the shoulder thereof outside any municipality at any time when the display of fusees, flares, red electric lanterns, or portable red emergency reflectors is not required, the driver of the vehicle shall display two red flags upon the roadway in the lane of traffic occupied by the disabled vehicle, one at a distance of approximately one hundred feet in advance of the vehicle, and one at a distance of approximately one hundred feet to the rear of the vehicle.

(5) Whenever any motor vehicle used in the transportation of explosives or any cargo tank truck used for the transportation of any flammable liquid or compressed flammable gas, or any motor vehicle using compressed gas as a fuel, is disabled upon a highway of this state at any time or place mentioned in subsection (1) of this section, the driver of such vehicle shall immediately display the following warning devices: One red electric lantern or portable red emergency reflector placed on the roadway at the traffic side of the vehicle, and two red electric lanterns or portable red reflectors, one placed approximately one hundred feet to the front and one placed approximately one hundred feet to the rear of this disabled vehicle in the center of the traffic lane occupied by such vehicle. Flares, fusees, or signals produced by flame shall not be used as warning devices for disabled vehicles of the type mentioned in this subsection.

(6) Whenever any vehicle, other than those described in subsection (1) of this section, is disabled upon the traveled portion of any highway or shoulder thereof outside any municipality, the state patrol or the county sheriff shall, upon discovery of the disabled vehicle, place a reflectorized warning device on the vehicle. The warning device and its placement shall be in accordance with rules adopted by the state patrol. Neither the standards for, placement or use of, nor the lack of placement or use of a warning device under this subsection gives rise to any civil liability on the part of the state of Washington, the state patrol, any county, or any law enforcement agency or officer.

(7) The flares, fusees, red electric lanterns, portable red emergency reflectors, and flags to be displayed as required in this section shall conform with the requirements of RCW 46.37.440 applicable thereto.

RCW 46.38.010  Compact enacted--Provisions.

The vehicle equipment safety compact prepared pursuant to resolutions of the western governors’ conference and the western interstate committee on highway policy problems of the council of state governments, is hereby enacted into law and entered into with all other jurisdictions legally joining therein in the form substantially as follows:

VEHICLE EQUIPMENT SAFETY COMPACT

ARTICLE I--Findings and Purposes

(a) The party states find that:

(1) Accidents and deaths on their streets and highways present a very serious human and economic problem with a major deleterious effect on the public welfare.

(2) There is a vital need for the development of greater interjurisdictional cooperation to achieve the necessary uniformity in the laws, rules, regulations and codes relating to vehicle equipment, and to accomplish this by such means as will minimize the time between the development of demonstrably and scientifically sound safety features and their incorporation into vehicles.

(b) The purposes of this compact are to:

(1) Promote uniformity in regulation of and standards for equipment.

(2) Secure uniformity of law and administrative practice in vehicular regulation and related safety standards to permit incorporation of desirable equipment changes in vehicles in the interest of greater traffic safety.

(3) To provide means for the encouragement and utilization of research which will facilitate the achievement of the foregoing purposes, with due regard for the findings set forth in subdivision (a) of this Article.

(c) It is the intent of this compact to emphasize performance requirements and not to determine the specific detail of engineering in the manufacture of vehicles or equipment except to the extent necessary for the meeting of such performance requirements.

ARTICLE II--Definitions
As used in this compact:

(a) "Vehicle" means every device in, upon or by which any person or property is or may be transported or drawn upon a highway, excepting devices moved by human power or used exclusively upon stationary rails or tracks.

(b) "State" means a state, territory or possession of the United States, the District of Columbia, or the Commonwealth of Puerto Rico.

(c) "Equipment" means any part of a vehicle or any accessory for use thereon which affects the safety of operation of such vehicle or the safety of the occupants.

ARTICLE III--The Commission

(a) There is hereby created an agency of the party states to be known as the "Vehicle Equipment Safety Commission" hereinafter called the Commission. The Commission shall be composed of one commissioner from each party state who shall be appointed, serve and be subject to removal in accordance with the laws of the state which he represents. If authorized by the laws of his party state, a commissioner may provide for the discharge of his duties and the performance of his functions on the Commission, either for the duration of his membership or for any lesser period of time, by an alternate. No such alternate shall be entitled to serve unless notification of his identity and appointment shall have been given to the Commission in such form as the Commission may require. Each commissioner, and each alternate, when serving in the place and stead of a commissioner, shall be entitled to be reimbursed by the Commission for expenses actually incurred in attending Commission meetings or while engaged in the business of the Commission.

(b) The commissioners shall be entitled to one vote each on the Commission. No action of the Commission shall be binding unless taken at a meeting at which a majority of the total number of votes on the Commission are cast in favor thereof. Action of the Commission shall be only at a meeting at which a majority of the commissioners, or their alternates, are present.

(c) The Commission shall have a seal.

(d) The Commission shall elect annually, from among its members, a chairman, a vice chairman and a treasurer. The Commission may appoint an Executive Director and fix his duties and compensation. Such Executive Director shall serve at the pleasure of the Commission, and together with the Treasurer shall be bonded in such amount as the Commission shall determine. The Executive Director also shall serve as secretary. If there be no Executive Director, the Commission shall elect a Secretary in addition to the other officers provided by this subdivision.

(e) Irrespective of the civil service, personnel or other merit system laws of any of the party states, the Executive Director with the approval of the Commission, or the Commission if there be no Executive Director, shall appoint, remove or discharge such personnel as may be necessary for the performance of the Commission's functions, and shall fix the duties and compensation of such personnel.

(f) The Commission may establish and maintain independently or in conjunction with any one or more of the party states, a suitable retirement system for its full time employees.
Employees of the Commission shall be eligible for social security coverage in respect of old age and survivor's insurance provided that the Commission takes such steps as may be necessary pursuant to the laws of the United States, to participate in such program of insurance as a governmental agency or unit. The Commission may establish and maintain or participate in such additional programs of employee benefits as may be appropriate.

(g) The Commission may borrow, accept or contract for the services of personnel from any party state, the United States, or any subdivision or agency of the aforementioned governments, or from any agency of two or more of the party states or their subdivisions.

(h) The Commission may accept for any of its purposes and functions under this compact any and all donations, and grants of money, equipment, supplies, materials, and services, conditional or otherwise, from any state, the United States, or any other governmental agency and may receive, utilize, and dispose of the same.

(i) The Commission may establish and maintain such facilities as may be necessary for the transacting of its business. The Commission may acquire, hold, and convey real and personal property and any interest therein.

(j) The Commission shall adopt bylaws for the conduct of its business and shall have the power to amend and rescind these bylaws. The Commission shall publish its bylaws in convenient form and shall file a copy thereof and a copy of any amendment thereto, with the appropriate agency or officer in each of the party states. The bylaws shall provide for appropriate notice to the commissioners of all Commission meetings and hearings and the business to be transacted at such meetings or hearings. Such notice shall also be given to such agencies or officers of each party state as the laws of such party state may provide.

(k) The Commission annually shall make to the governor and legislature of each party state a report covering the activities of the Commission for the preceding year, and embodying such recommendations as may have been issued by the Commission. The Commission may make such additional reports as it may deem desirable.

ARTICLE IV--Research and Testing

The Commission shall have power to:
(a) Collect, correlate, analyze and evaluate information resulting or derivable from research and testing activities in equipment and related fields.
(b) Recommend and encourage the undertaking of research and testing in any aspect of equipment or related matters when, in its judgment, appropriate or sufficient research or testing has not been undertaken.
(c) Contract for such equipment research and testing as one or more governmental agencies may agree to have contracted for by the Commission, provided that such governmental agency or agencies shall make available the funds necessary for such research and testing.
(d) Recommend to the party states changes in law or policy with emphasis on uniformity of laws and administrative rules, regulations or codes which would promote effective governmental action or coordination in the prevention of equipment-related highway accidents or
the mitigation of equipment-related highway safety problems.

ARTICLE V--Vehicular Equipment

(a) In the interest of vehicular and public safety, the Commission may study the need for or desirability of the establishment of or changes in performance requirements or restrictions for any item of equipment. As a result of such study, the Commission may publish a report relating to any item or items of equipment, and the issuance of such a report shall be a condition precedent to any proceedings or other action provided or authorized by this Article. No less than sixty days after the publication of a report containing the results of such study, the Commission upon due notice shall hold a hearing or hearings at such place or places as it may determine.

(b) Following the hearing or hearings provided for in subdivision (a) of this Article, and with due regard for standards recommended by appropriate professional and technical associations and agencies, the Commission may issue rules, regulations or codes embodying performance requirements or restrictions for any item or items of equipment covered in the report, which in the opinion of the Commission will be fair and equitable and effectuate the purposes of this compact.

(c) Each party state obligates itself to give due consideration to any and all rules, regulations and codes issued by the Commission and hereby declares its policy and intent to be the promotion of uniformity in the laws of the several party states relating to equipment.

(d) The Commission shall send prompt notice of its action in issuing any rule, regulation or code pursuant to this Article to the appropriate motor vehicle agency of each party state and such notice shall contain the complete text of the rule, regulation or code.

(e) If the constitution of a party state requires, or if its statutes provide, the approval of the legislature by appropriate resolution or act may be made a condition precedent to the taking effect in such party state of any rule, regulation or code. In such event, the commissioner of such party state shall submit any Commission rule, regulation or code to the legislature as promptly as may be in lieu of administrative acceptance or rejection thereof by the party state.

(f) Except as otherwise specifically provided in or pursuant to subdivisions (e) and (g) of this Article, the appropriate motor vehicle agency of a party state shall in accordance with its constitution or procedural laws adopt the rule, regulation or code within six months of the sending of the notice, and, upon such adoption, the rule, regulation or code shall have the force and effect of law therein.

(g) The appropriate motor vehicle agency of a party state may decline to adopt a rule, regulation or code issued by the Commission pursuant to this Article if such agency specifically finds, after public hearing on due notice, that a variation from the Commission's rule, regulation or code is necessary to the public safety, and incorporates in such finding the reasons upon which it is based. Any such finding shall be subject to review by such procedure for review of administrative determinations as may be applicable pursuant to the laws of the party state. Upon request, the Commission shall be furnished with a copy of the transcript of any hearings held pursuant to this subdivision.
ARTICLE VI--Finance

(a) The Commission shall submit to the executive head or designated officer or officers of each party state a budget of its estimated expenditures for such period as may be required by the laws of that party state for presentation to the legislature thereof.

(b) Each of the Commission's budgets of estimated expenditures shall contain specific recommendations of the amount or amounts to be appropriated by each of the party states. The total amount of appropriations under any such budget shall be apportioned among the party states as follows: one-third in equal shares; and the remainder in proportion to the number of motor vehicles registered in each party state. In determining the number of such registrations, the Commission may employ such source or sources of information as, in its judgment present the most equitable and accurate comparisons among the party states. Each of the Commission's budgets of estimated expenditures and requests for appropriations shall indicate the source or sources used in obtaining information concerning vehicular registrations.

(c) The Commission shall not pledge the credit of any party state. The Commission may meet any of its obligations in whole or in part with funds available to it under Article III (h) of this compact, provided that the Commission takes specific action setting aside such funds prior to incurring any obligation to be met in whole or in part in such manner. Except where the Commission makes use of funds available to it under Article III (h) hereof, the Commission shall not incur any obligation prior to the allotment of funds by the party states adequate to meet the same.

(d) The Commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the Commission shall be subject to the audit and accounting procedures established under its rules. However, all receipts and disbursements of funds handled by the Commission shall be audited yearly by a qualified public accountant and the report of the audit shall be included in and become part of the annual reports of the Commission.

(e) The accounts of the Commission shall be open at any reasonable time for inspection by duly constituted officers of the party states and by any persons authorized by the Commission.

(f) Nothing contained herein shall be construed to prevent Commission compliance with laws relating to audit or inspection of accounts by or on behalf of any government contributing to the support of the Commission.

ARTICLE VII--Conflict of Interest

(a) The Commission shall adopt rules and regulations with respect to conflict of interest for the commissioners of the party states, and their alternates, if any, and for the staff of the Commission and contractors with the Commission to the end that no member or employee or contractor shall have a pecuniary or other incompatible interest in the manufacture, sale or distribution of motor vehicles or vehicular equipment or in any facility or enterprise employed by the Commission or on its behalf for testing, conduct of investigations or research. In addition to
any penalty for violation of such rules and regulations as may be applicable under the laws of the violator's jurisdiction of residence, employment or business, any violation of a Commission rule or regulation adopted pursuant to this Article shall require the immediate discharge of any violating employee and the immediate vacating of membership, or relinquishing of status as a member on the Commission by any commissioner or alternate. In the case of a contractor, any violation of any such rule or regulation shall make any contract of the violator with the Commission subject to cancellation by the Commission.

(b) Nothing contained in this Article shall be deemed to prevent a contractor for the Commission from using any facilities subject to his control in the performance of the contract even though such facilities are not devoted solely to work of or done on behalf of the Commission; nor to prevent such a contractor from receiving remuneration or profit from the use of such facilities.

ARTICLE VIII--Advisory and Technical Committees

The Commission may establish such advisory and technical committees as it may deem necessary, membership on which may include private citizens and public officials, and may cooperate with and use the services of any such committees and the organizations which the members represent in furthering any of its activities.

ARTICLE IX--Entry Into Force and Withdrawal

(a) This compact shall enter into force when enacted into law by any six or more states. Thereafter, this compact shall become effective as to any other state upon its enactment thereof.

(b) Any party state may withdraw from this compact by enacting a statute repealing the same, but no such withdrawal shall take effect until one year after the executive head of the withdrawing state has given notice in writing of the withdrawal to the executive heads of all other party states. No withdrawal shall affect any liability already incurred by or chargeable to a party state prior to the time of such withdrawal.

ARTICLE X--Construction and Severability

This compact shall be liberally construed so as to effectuate the purposes thereof. The provisions of this compact shall be severable and if any phrase, clause, sentence or provision of this compact is declared to be contrary to the Constitution of any state or of the United States or the applicability thereof to any government, agency, person or circumstance is held invalid, the validity of the remainder of this compact and the applicability thereof to any government, agency, person or circumstance shall not be affected thereby. If this compact shall be held contrary to the constitution of any state participating herein, the compact shall remain in full force and effect as to the remaining party states and in full force and effect as to the state affected as to all severable
matters.

INTERSTATE COMPACT FOR SCHOOL BUS SAFETY

Sections
46.39.010  Compact enacted--Provisions.

RCW 46.39.010  Compact enacted--Provisions.

The "Interstate Compact for School Bus Safety" is hereby enacted into law and entered into with all other jurisdictions legally joining therein in the form substantially as follows:

INTERSTATE COMPACT FOR
SCHOOL BUS SAFETY

ARTICLE I
FINDINGS AND PURPOSES

(a) The party states find that:
(1) School transportation is an integral part of our education systems. The increasing volume of traffic on streets and highways, with larger numbers of school children being transported each year, presents a serious problem in safety that requires regulation and control.
(2) During recent years the various states have each developed their own rules, regulations and standards which govern the operation of school buses in the individual states, thus creating vast differences in construction standards and operational procedures.
(3) Standardization by means of interstate cooperation, exchange of information, and the promulgation of uniform practices among the states can do much to mitigate present hazards and at the same time generate cost reductions and improved service.
(b) The purposes of this compact are to:
(1) Promote uniformity in regulation of and standards for school bus equipment.
(2) Secure uniformity of law and administrative practices in school bus vehicle regulation and related safety standards, incorporating desirable equipment changes in the interest of greater school bus safety.
(3) Establish a means whereby the states party to this compact shall jointly agree on certain school bus minimum standards and procedures including, without limitation by the enumeration, the following:
(i) Items which affect the motorist, such as use of lights, signs, and signaling devices that control traffic;
(ii) Procedural activities of school bus drivers in controlling traffic; and in the loading and unloading of buses;

(iii) Construction and other specifications which can lead to lower initial costs and the interchangeability of school buses among states;

(iv) A framework within which the party states may develop uniform driver training programs; and

(v) Development of accurate and uniform accident statistical reporting among the party states.

(4) Encourage and utilize research which will facilitate achievement of the foregoing purposes, with due regard for the findings set forth in subsection (a) of this Article.

(5) It is recognized that there are inherent differences in transportation needs in each of the party states. It shall not be the purpose of this compact to abridge, impair or adversely affect the jurisdiction or authority of the individual states to regulate and control their own school transportation systems.

(6) Investigate the safety and economic advantage of children being transported.

ARTICLE II
DEFINITIONS

(a) "State" means a state, territory or possession of the United States, the District of Columbia, the Commonwealth of Puerto Rico, and any other special commonwealth as may be established by the Government of the United States.

(b) "School bus" shall have the same meaning as provided in RCW 46.04.521.

(c) "Equipment" means the equipment required for school buses under chapter 46.37 RCW.

ARTICLE III
THE COMMISSION

The commissioners from each State shall be chosen in the manner and for the terms provided by the laws of the States from which they shall be appointed, provided that at least one member shall be appointed from the State agency which has primary responsibility for pupil transportation in that State. Any commissioner may be removed or suspended from office as provided by the law of the State from which he shall be appointed. The commissioners representing the United States shall be appointed by the President of the United States, or in such other manner as may be provided by Congress. expenses incurred in and incidental to the performance of their duties; but nothing herein shall prevent the appointment of an officer or employee of any State or of the United States Government.

(b) Each state delegation shall be entitled to one vote, and the presence of commissioners from a majority of the party states shall constitute a quorum for the transaction of business at any meeting of the Commission. A majority vote of the quorum will be required to adopt any measure before the Commission. The commissioners representing the United States Government shall act in an advisory capacity and shall not have voting powers.

(c) The Commission shall have a seal.

(d) The Commission shall elect annually, from among its members, a chairman, a vice chairman, and a treasurer. The Commission shall appoint an Executive Director who shall serve at its pleasure and who shall also act as Secretary, and who, together with the Treasurer, shall be bonded in such amounts as the Commission may require.

(e) The Executive Director, with the approval of the Commission, shall appoint and remove or discharge such personnel as may be necessary for the performance of the Commission's functions irrespective of the civil service, personnel or other merit system laws of any of the party states.

(f) The Commission may establish and maintain, independently or in conjunction with any one or more of the party states, a suitable retirement system for its full-time employees. The Commission may establish and maintain or participate in such additional programs of employee benefits as may be appropriate.

(g) The Commission may borrow, accept, or contract for the services of personnel from any state or the United States or any subdivision or agency thereof, from any interstate agency, or from any institution, person, firm or corporation.

(h) The Commission may establish and maintain such facilities as may be necessary for the transacting of its business. The Commission may acquire, hold, and convey real and personal property and any interest therein.

The Commission shall publish its bylaws, rules, and regulations in convenient form and shall file a copy thereof and shall also file a copy of any amendment thereto, with the appropriate agency or officer in each of the party states.

(j) The Commission annually shall make to the governor and the legislature of each party state, a report covering the activities of the Commission for the preceding year, and embodying such recommendations as may have been adopted by the Commission. The Commission may issue such additional reports as it may deem desirable.

ARTICLE IV
FUNCTIONS AND ACTIVITIES

(a) The Commission shall have power to perform the following functions and activities
that relate to school bus transportation:

(1) Recommend and encourage research, testing and training activities to the extent the Commission finds necessary.

(2) Contract for research, testing and training activities on behalf of the Commission itself or for one or more governmental agencies if they provide special funding for that purpose.

(3) Engage directly in such activities to the extent approved by the Commission.

(4) Recommend to the party states of needed changes in law or policy with emphasis on uniformity of laws and administrative rules, regulations or codes which would promote effective governmental action or coordination of school bus construction, equipment, safety programs, and school bus driver training.

(5) The Commission shall send prompt notice of its action in issuing any rule, regulation or code pursuant to this article to the appropriate agency of each party state and such notice shall contain the complete text of the rule, regulation or code.

(6) Each party state, recognizing that to carry out the intent of this compact, obligates itself to adopt in identical terms, all rules, regulations and specifications which are standardized through due process to the States.

(b) The Commission may establish such advisory and technical committees as may be necessary, membership on which may include public officials and private citizens. The Commission may also cooperate with other governmental agencies and interstate organizations and with organizations representing the private sector.

ARTICLE V
FINANCE

(a) Moneys necessary to finance the Commission in carrying out its duties shall be provided through appropriations from the states party to this compact, said payments to be in direct proportion to the number of school buses registered in the respective party states. The initial rate of payment shall be figured at $0.50 per bus, provided that no state shall contribute less than $500.00 per annum. The annual contribution of each state above the minimum shall be figured to the nearest one hundred dollars. Subsequent budgets shall be determined by the Commission, and the cost thereof allocated in the same proportion as the initial budget.

(b) The Commission may accept for any of its purposes under this compact any and all donations, and grants of money, equipment, supplies, materials, and services (conditional and otherwise) from any state or the United States or any subdivision or agency thereof, or interstate agency, or from any institution, person, firm, or corporation, and may receive, utilize and dispose of the same.

ARTICLE VI
ENTRY INTO FORCE AND WITHDRAWAL

(a) This compact shall enter into immediate force and effect as to any state when enacted
by it into law, and such state shall thereafter be a party thereto with any and all states joining therein.

(b) It is the purpose of this compact to provide the necessary legal basis for implementation and adoption by each party state of the standardized rules, regulations and specifications as adopted by the Commission. Consistent with the laws of each party state, there shall be a "compact administrator" who, acting jointly with like officials of other party states, shall promulgate necessary rules, regulations and specifications within that state to carry out the actions and directives of the Commission.

(c) Any state party to this compact may, by legislative act after one year's notice to the Commission, withdraw from the compact. The compact may also be terminated at any time by the unanimous agreement of the several party states. Withdrawal shall not relieve a state from its obligations hereunder prior to the effective withdrawal date.

(d) If any state shall at any time default in the performance of any of its obligations assumed herein or with respect to any obligation imposed upon said state as authorized by and in compliance with the terms and provisions of this compact, all rights, privileges and benefits of such defaulting state and its members on the Commission shall be suspended after the date of such default. Such suspension shall in no manner release such defaulting state from any accrued obligation or otherwise affect this compact or the rights, duties, privileges or obligations of the remaining states thereunder.

ARTICLE VII
SEVERABILITY

(a) The provisions of this compact shall be severable and if any phrase, clause, sentence or provision of this compact is declared to be unconstitutional or the applicability thereof to any state, agency, person or circumstances is held invalid, the constitutionality of the remainder of this compact and the applicability thereof to any other state, agency, person or circumstances shall not be affected thereby. It is the legislative intent that the provisions of this compact be reasonably and liberally construed.

RCW 46.44.015  Tow truck exemptions.

The limitations of RCW 46.44.010, 46.44.020, 46.44.030, 46.44.034, 46.44.041, 46.44.042, 46.44.050, and 46.44.080 do not apply to the movement of a tow truck, as defined in RCW 46.55.010, if the tow truck is performing the initial tow truck service, as defined in RCW 46.55.010, regardless of the destination, for a vehicle disabled on the public streets and highways of this state: PROVIDED, That an overweight permit has been obtained by the tow truck operator with such permit being available on a twenty-four hour basis by telephone.

[1991 c 276 § 1.]

RCW 46.44.020  Maximum height--Impaired clearance signs.

It is unlawful for any vehicle unladen or with load to exceed a height of fourteen feet above the level surface upon which the vehicle stands. This height limitation does not apply to authorized emergency vehicles or repair equipment of a public utility engaged in reasonably necessary operation. The provisions of this section do not relieve the owner or operator of a vehicle or combination of vehicles from the exercise of due care in determining that sufficient vertical clearance is provided upon the public highways where the vehicle or combination of vehicles is being operated; and no liability may attach to the state or to any county, city, town, or other political subdivision by reason of any damage or injury to persons or property by reason of the existence of any structure over or across any public highway where the vertical clearance
above the roadway is fourteen feet or more; or, where the vertical clearance is less than fourteen feet, if impaired clearance signs of a design approved by the state department of transportation are erected and maintained on the right side of any such public highway in accordance with the manual of uniform traffic control devices for streets and highways as adopted by the state department of transportation under chapter 47.36 RCW. If any structure over or across any public highway is not owned by the state or by a county, city, town, or other political subdivision, it is the duty of the owner thereof when billed therefor to reimburse the state department of transportation or the county, city, town, or other political subdivision having jurisdiction over the highway for the actual cost of erecting and maintaining the impaired clearance signs, but no liability may attach to the owner by reason of any damage or injury to persons or property caused by impaired vertical clearance above the roadway.

RCW 46.44.030 Maximum lengths.

It is unlawful for any person to operate upon the public highways of this state any vehicle having an overall length, with or without load, in excess of forty feet. This restriction does not apply to (1) a municipal transit vehicle, (2) auto stage, private carrier bus, school bus, or motor home with an overall length not to exceed forty-six feet, or (3) an articulated auto stage with an overall length not to exceed sixty-one feet.

It is unlawful for any person to operate upon the public highways of this state any combination consisting of a tractor and semitrailer that has a semitrailer length in excess of fifty-three feet or a combination consisting of a tractor and two trailers in which the combined length of the trailers exceeds sixty-one feet, with or without load.

It is unlawful for any person to operate on the highways of this state any combination consisting of a truck and trailer, or log truck and stinger-steered pole trailer, with an overall length, with or without load, in excess of seventy-five feet. However, a combination of vehicles transporting automobiles or boats may have a front overhang of three feet and a rear overhang of four feet beyond this allowed length. "Stinger-steered," as used in this section, means the coupling device is located behind the tread of the tires of the last axle of the towing vehicle.

These length limitations do not apply to vehicles transporting poles, pipe, machinery, or other objects of a structural nature that cannot be dismembered and operated by a public utility when required for emergency repair of public service facilities or properties, but in respect to night transportation every such vehicle and load thereon shall be equipped with a sufficient number of clearance lamps on both sides and marker lamps upon the extreme ends of any projecting load to clearly mark the dimensions of the load.

The length limitations described in this section are exclusive of safety and energy
conservation devices, such as mud flaps and splash and spray suppressant devices, refrigeration units or air compressors, and other devices that the department determines to be necessary for safe and efficient operation of commercial vehicles. No device excluded under this paragraph from the limitations of this section may have, by its design or use, the capability to carry cargo.

**Severability--1967 ex.s. c 145:** See RCW 47.98.043.

**RCW 46.44.034 Maximum lengths--Front and rear protrusions.**

(1) The load, or any portion of any vehicle, operated alone upon the public highway of this state, or the load, or any portion of the front vehicle of a combination of vehicles, shall not extend more than three feet beyond the front wheels of such vehicle, or the front bumper, if equipped with front bumper. This subsection does not apply to a front-loading garbage truck or recycling truck while on route and actually engaged in the collection of solid waste or recyclables at speeds of twenty miles per hour or less.

(2) No vehicle shall be operated upon the public highways with any part of the permanent structure or load extending in excess of fifteen feet beyond the center of the last axle of such vehicle. This subsection does not apply to "specialized equipment" designated under 49 U.S.C. Sec. 2311 that is operated on the interstate highway system, those designated portions of the federal-aid primary system, and routes constituting reasonable access from such highways to terminals and facilities for food, fuel, repairs, and rest.

**RCW 46.44.036 Combination of units--Limitation.**

Except as provided in RCW 46.44.037, it is unlawful for any person to operate upon the public highways of this state any combination of vehicles consisting of more than two vehicles. For the purposes of this section a truck tractor-semi-trailer or pole trailer combination will be considered as two vehicles but the addition of another axle to the tractor of a truck tractor-semi-trailer or pole trailer combination in such a way that it supports a proportional share of the load of the semi-trailer or pole trailer shall not be deemed a separate vehicle but shall be considered a part of the truck tractor. For the purposes of this section a converter gear used in converting a semi-trailer to a full trailer shall not be deemed a separate vehicle but shall be
considered a part of the trailer.

(1) A combination consisting of a truck tractor, a semitrailer, and another semitrailer or a full trailer. In this combination a converter gear used to convert a semitrailer into a full trailer shall be considered to be a part of the full trailer and not a separate vehicle. A converter gear being pulled without load and not used to convert a semitrailer into a full trailer may be substituted in lieu of a full trailer or a semitrailer in any lawful combination;

(2) A combination not exceeding seventy-five feet in overall length consisting of four trucks or truck tractors used in driveaway service where three of the vehicles are towed by the fourth in triple saddlemount position;

(3) A combination consisting of a truck tractor carrying a freight compartment no longer than eight feet, a semitrailer, and another semitrailer or full trailer that meets the legal length requirement for a truck and trailer combination set forth in RCW 46.44.030.

Subject to such terms and conditions as it shall consider proper and on such highways as it shall deem suitable, and when it finds it to be in the public interest, the state department of transportation may by special permit authorize the operation of vehicles and combinations of vehicles other than school buses which exceed the restrictions set forth in RCW 46.44.010, 46.44.020, 46.44.030, and 46.44.036. The fee for such permits shall be those set forth in RCW 46.44.0941.

**RCW 46.44.041 Maximum gross weights--Wheelbase and axle factors.**

No vehicle or combination of vehicles shall operate upon the public highways of this state with a gross load on any single axle in excess of twenty thousand pounds, or upon any group of axles in excess of that set forth in the following table, except that two consecutive sets of tandem axles may carry a gross load of thirty-four thousand pounds each, if the overall distance between the first and last axles of such consecutive sets of tandem axles is thirty-six feet or more.

Maximum load in pounds carried on any group of 2 or more consecutive axles.

When inches are involved: Under six inches take lower, six inches or over take higher. The maximum load on any axle in any group of axles shall not exceed the single axle or tandem axle allowance as set forth in the table above.

The maximum axle and gross weights specified in this section are subject to the braking requirements set up for the service brakes upon any motor vehicle or combination of vehicles as provided by law.

Loads of not more than eighty thousand pounds which may be legally hauled in the state bordering this state which also has a sales tax, are legal in this state when moving to a port district within four miles of the bordering state except on the interstate system. This provision does not allow the operation of a vehicle combination consisting of a truck tractor and three trailers.

Notwithstanding anything contained herein, a vehicle or combination of vehicles in operation on January 4, 1975, may operate upon the public highways of this state, including the interstate system within the meaning of section 127 of Title 23, United States Code, with an overall gross weight upon a group of two consecutive sets of dual axles which was lawful in this state under the laws, regulations, and procedures in effect in this state on January 4, 1975.
RCW 46.44.042 Maximum gross weights—Axle and tire factors.

Subject to the maximum gross weights specified in RCW 46.44.041, it is unlawful to operate any vehicle upon the public highways with a gross weight, including load, upon any tire concentrated upon the surface of the highway in excess of six hundred pounds per inch width of such tire. An axle manufactured after July 31, 1993, carrying more than ten thousand pounds gross weight must be equipped with four or more tires. Effective January 1, 1997, an axle carrying more than ten thousand pounds gross weight must have four or more tires, regardless of date of manufacture. Instead of the four or more tires per axle requirements of this section, an axle may be equipped with two tires limited to five hundred pounds per inch width of tire. This section does not apply to vehicles operating under oversize or overweight permits, or both, issued under RCW 46.44.090, while carrying a nonreducible load.

The following equipment may operate at six hundred pounds per inch width of tire: (1) A nonliftable steering axle or axles on the power unit; (2) a tiller axle on fire fighting apparatus; (3) a rear booster trailing axle equipped with two tires on a ready-mix concrete transit truck; and (4) a straddle trailer manufactured before January 1, 1996, equipped with single-tire axles or a single axle using a walking beam supported by two in-line single tires and used exclusively for the transport of fruit bins between field, storage, and processing. A straddle trailer manufactured after January 1, 1996, meeting this use criteria may carry five hundred fifteen pounds per inch width of tire on sixteen and one-half inch wide tires.

For the purpose of this section, the width of tire in case of solid rubber or hollow center cushion tires, so long as the use thereof may be permitted by the law, shall be measured between the flanges of the rim. For the purpose of this section, the width of tires in case of pneumatic tires shall be the maximum overall normal inflated width as stipulated by the manufacturer when inflated to the pressure specified and without load thereon.

The department of transportation, under rules adopted by the transportation commission with respect to state highways, and a local authority, with respect to a public highway under its jurisdiction, may extend the weight table in RCW 46.44.041 to one hundred fifteen thousand pounds. However, the extension must be in compliance with federal law, and vehicles operating under the extension must be in full compliance with the 1997 axle and tire requirements under this section.
RCW 46.44.043  Cement trucks--Axle loading controls.

The switch that controls the raising and lowering of the retractable rear booster or tag axle on a ready-mix cement truck may be located within the reach of the driver's compartment as long as the variable control, used to adjust axle loadings by regulating air pressure or by other means, is out of the reach of the driver's compartment.

[1994 c 305 § 1.]

RCW 46.44.047  Excess weight--Logging trucks--Special permits--County or city permits--Fees--Discretion of arresting officer.

A three axle truck tractor and a two axle pole trailer combination engaged in the operation of hauling logs may exceed by not more than six thousand eight hundred pounds the legal gross weight of the combination of vehicles when licensed, as permitted by law, for sixty-eight thousand pounds: PROVIDED, That the distance between the first and last axle of the vehicles in combination shall have a total wheelbase of not less than thirty-seven feet, and the weight upon two axles spaced less than seven feet apart shall not exceed thirty-three thousand six hundred pounds.

Such additional allowances shall be permitted by a special permit to be issued by the department of transportation valid only on state primary or secondary highways authorized by the department and under such rules, regulations, terms, and conditions prescribed by the department. The fee for such special permit shall be fifty dollars for a twelve-month period beginning and ending on April 1st of each calendar year. Permits may be issued at any time, but if issued after July 1st of any year the fee shall be thirty-seven dollars and fifty cents. If issued on or after October 1st the fee shall be twenty-five dollars, and if issued on or after January 1st the fee shall be twelve dollars and fifty cents. A copy of such special permit covering the vehicle involved shall be carried in the cab of the vehicle at all times. Upon the third offense within the duration of the permit for violation of the terms and conditions of the special permit, the special permit shall be canceled. The vehicle covered by such canceled special permit shall not be eligible for a new special permit until thirty days after the cancellation of the special permit issued to said vehicle. The fee for such renewal shall be at the same rate as set forth in this section which covers the original issuance of such special permit. Each special permit shall be assigned to a three-axle truck tractor in combination with a two-axle pole trailer. When the department issues a duplicate permit to replace a lost or destroyed permit and where the department transfers a permit, a fee of fourteen dollars shall be charged for each such duplicate issued or each such transfer.

All fees collected hereinabove shall be deposited with the state treasurer and credited to the motor vehicle fund.

Permits involving city streets or county roads or using city streets or county roads to reach or leave state highways, authorized for permit by the department may be issued by the city or county or counties involved. A fee of five dollars for such city or county permit may be assessed.
by the city or by the county legislative authority which shall be deposited in the city or county road fund. The special permit provided for herein shall be known as a "log tolerance permit" and shall designate the route or routes to be used, which shall first be approved by the city or county engineer involved. Authorization of additional route or routes may be made at the discretion of the city or county by amending the original permit or by issuing a new permit. Said permits shall be issued on a yearly basis expiring on March 31st of each calendar year. Any person, firm, or corporation who uses any city street or county road for the purpose of transporting logs with weights authorized by state highway log tolerance permits, to reach or leave a state highway route, without first obtaining a city or county permit when required by the city or the county legislative authority shall be subject to the penalties prescribed by RCW 46.44.105. For the purpose of determining gross weight the actual scale weight taken by the officer shall be prima facie evidence of such total gross weight. In the event the gross weight is in excess of the weight permitted by law, the officer may, within his discretion, permit the operator to proceed with his vehicles in combination.

The chief of the state patrol, with the advice of the department, may make reasonable rules and regulations to aid in the enforcement of the provisions of this section.

RCW 46.44.049  Effect of weight on highways--Study authorized.

The department of transportation may make and enter into agreements with the federal government or any state or group of states or agencies thereof, or any nonprofit association, on a joint or cooperative basis, to study, analyze, or test the effects of weight on highway construction. The studies or tests may be made either by designating existing highways or the construction of test strips including natural resource roads to the end that a proper solution of the many problems connected with the imposition on highways of motor vehicle weights may be determined.

The studies may include the determination of values to be assigned various highway-user groups according to their gross weight or use.

RCW 46.44.080 Local regulations--State highway regulations.

Local authorities with respect to public highways under their jurisdiction may prohibit the
operation thereon of motor trucks or other vehicles or may impose limits as to the weight thereof,
or any other restrictions as may be deemed necessary, whenever any such public highway by
reason of rain, snow, climatic or other conditions, will be seriously damaged or destroyed unless
the operation of vehicles thereon be prohibited or restricted or the permissible weights thereof
reduced: PROVIDED, That whenever a highway has been closed generally to vehicles or
specified classes of vehicles, local authorities shall by general rule or by special permit authorize
the operation thereon of school buses, emergency vehicles, and motor trucks transporting
perishable commodities or commodities necessary for the health and welfare of local residents
under such weight and speed restrictions as the local authorities deem necessary to protect the
highway from undue damage: PROVIDED FURTHER, That the governing authorities of
incorporated cities and towns shall not prohibit the use of any city street designated by the transportation commission as forming a part of the route of any primary state highway through any such incorporated city or town by vehicles or any class of vehicles or impose any restrictions or reductions in permissible weights unless such restriction, limitation, or prohibition, or reduction in permissible weights be first approved in writing by the department of transportation.

The local authorities imposing any such restrictions or limitations, or prohibiting any use or reducing the permissible weights shall do so by proper ordinance or resolution and shall erect or cause to be erected and maintained signs designating the provisions of the ordinance or resolution in each end of the portion of any public highway affected thereby, and no such ordinance or resolution shall be effective unless and until such signs are erected and maintained.

The department shall have the same authority as hereinabove granted to local authorities to prohibit or restrict the operation of vehicles upon state highways. The department shall give public notice of closure or restriction. The department may issue special permits for the operation of school buses and motor trucks transporting perishable commodities or commodities necessary for the health and welfare of local residents under specified weight and speed restrictions as may be necessary to protect any state highway from undue damage.

RCW 46.44.091 Special permits--Gross weight limit.

(1) Except as otherwise provided in subsections (3) and (4) of this section, no special permit shall be issued for movement on any state highway or route of a state highway within the
limits of any city or town where the gross weight, including load, exceeds the following limits:

(a) Twenty-two thousand pounds on a single axle or on dual axles with a wheelbase between the first and second axles of less than three feet six inches;

(b) Forty-three thousand pounds on dual axles having a wheelbase between the first and second axles of not less than three feet six inches but less than seven feet;

(c) On any group of axles or in the case of a vehicle employing two single axles with a wheelbase between the first and last axle of not less than seven feet but less than ten feet, a weight in pounds determined by multiplying six thousand five hundred times the distance in feet between the center of the first axle and the center of the last axle of the group;

(d) On any group of axles with a wheelbase between the first and last axle of not less than ten feet but less than thirty feet, a weight in pounds determined by multiplying two thousand two hundred times the sum of twenty and the distance in feet between the center of the first axle and the center of the last axle of the group;

(e) On any group of axles with a wheelbase between the first and last axle of thirty feet or greater, a weight in pounds determined by multiplying one thousand six hundred times the sum of forty and the distance in feet between the center of the first axle and the center of the last axle of the group.

(2) The total weight of a vehicle or combination of vehicles allowable by special permit under subsection (1) of this section shall be governed by the lesser of the weights obtained by using the total number of axles as a group or any combination of axles as a group.

(3) The weight limitations pertaining to single axles may be exceeded to permit the movement of equipment operating upon single pneumatic tires having a rim width of twenty inches or more and a rim diameter of twenty-four inches or more or dual pneumatic tires having a rim width of sixteen inches or more and a rim diameter of twenty-four inches or more and specially designed vehicles manufactured and certified for special permits prior to July 1, 1975.

(4) Permits may be issued for weights in excess of the limitations contained in subsection (1) of this section on highways or sections of highways which have been designed and constructed for weights in excess of such limitations, or for any shipment duly certified as necessary by military officials, or by officials of public or private power facilities, or when in the opinion of the department of transportation the movement or action is a necessary movement or action: PROVIDED, That in the judgment of the department of transportation the structures and highway surfaces on the routes involved are capable of sustaining weights in excess of such limitations and it is not reasonable for economic or operational considerations to transport such excess weights by rail or water for any substantial distance of the total mileage applied for.

(5) Permits may be issued for the operation of fire trucks on the public highways if the maximum gross weight on any single axle does not exceed twenty-four thousand pounds and the gross weight on any tandem axle does not exceed forty-three thousand pounds.

(6) Application shall be made in writing on special forms provided by the department of transportation and shall be submitted at least thirty-six hours in advance of the proposed movement. An application for a special permit for a gross weight of any combination of vehicles exceeding two hundred thousand pounds shall be submitted in writing to the department of
transportation at least thirty days in advance of the proposed movement.

RCW 46.44.092 Special permits--Overall width limits, exceptions--Application for permit.

Special permits may not be issued for movements on any state highway outside the limits of any city or town in excess of the following widths:

On two-lane highways, fourteen feet;
On multiple-lane highways where a physical barrier serving as a median divider separates opposing traffic lanes, twenty feet;
On multiple-lane highways without a physical barrier serving as a median divider, thirty-two feet.

These limits apply except under the following conditions:
(1) In the case of buildings, the limitations referred to in this section for movement on any two lane state highway other than the national system of interstate and defense highways may be exceeded under the following conditions: (a) Controlled vehicular traffic shall be maintained in one direction at all times; (b) the maximum distance of movement shall not exceed five miles; additional contiguous permits shall not be issued to exceed the five-mile limit: PROVIDED, That when the department of transportation, pursuant to general rules adopted by the transportation commission, determines a hardship would result, this limitation may be exceeded upon approval of the department of transportation; (c) prior to issuing a permit a qualified transportation department employee shall make a visual inspection of the building and route involved determining that the conditions listed herein shall be complied with and that structures or overhead obstructions may be cleared or moved in order to maintain a constant and uninterrupted movement of the building; (d) special escort or other precautions may be imposed to assure movement is made under the safest possible conditions, and the Washington state patrol shall be advised when and where the movement is to be made;
(2) Permits may be issued for widths of vehicles in excess of the preceding limitations on highways or sections of highways which have been designed and constructed for width in excess of such limitations;
(3) Permits may be issued for vehicles with a total outside width, including the load, of nine feet or less when the vehicle is equipped with a mechanism designed to cover the load pursuant to RCW 46.61.655;
(4) These limitations may be rescinded when certification is made by military officials, or
by officials of public or private power facilities, or when in the opinion of the department of transportation the movement or action is a necessary movement or action: PROVIDED FURTHER, That in the judgment of the department of transportation the structures and highway surfaces on the routes involved are capable of sustaining widths in excess of such limitation;

(5) These limitations shall not apply to movement during daylight hours on any two lane state highway where the gross weight, including load, does not exceed eighty thousand pounds and the overall width of load does not exceed sixteen feet: PROVIDED, That the minimum and maximum speed of such movements, prescribed routes of such movements, the times of such movements, limitation upon frequency of trips (which limitation shall be not less than one per week), and conditions to assure safety of traffic may be prescribed by the department of transportation or local authority issuing such special permit.

The applicant for any special permit shall specifically describe the vehicle or vehicles and load to be operated or moved and the particular state highways for which permit to operate is requested and whether such permit is requested for a single trip or for continuous operation.

RCW 46.44.096 Special permits--Determining fee--To whom paid.

In determining fees according to RCW 46.44.0941, mileage on state primary and secondary highways shall be determined from the planning survey records of the department of transportation, and the gross weight of the vehicle or vehicles, including load, shall be declared by the applicant. Overweight on which fees shall be paid will be gross loadings in excess of loadings authorized by law or axle loadings in excess of loadings authorized by law, whichever is the greater. Loads which are overweight and oversize shall be charged the fee for the overweight permit without additional fees being assessed for the oversize features.

Special permits issued under RCW 46.44.047, 46.44.0941, or 46.44.095, may be obtained from offices of the department of transportation, ports of entry, or other agents appointed by the department.

The department may appoint agents for the purposes of selling special motor vehicle permits, temporary additional tonnage permits, and log tolerance permits. Agents so appointed may retain three dollars and fifty cents for each permit sold to defray expenses incurred in handling and selling the permits. If the fee is collected by the department of transportation, the department shall certify the fee so collected to the state treasurer for deposit to the credit of the motor vehicle fund.

The department may select a third party contractor, by means of competitive bid, to perform the department's permit issuance function, as provided under RCW 46.44.090. Factors the department shall consider, but is not limited to, in the selection of a third party contractor are economic benefit to both the department and the motor carrier industry, and enhancement of the overall level of permit service. For purposes of this section, "third party contractor" means a business entity that is authorized by the department to issue special permits. The transportation commission may adopt rules specifying the criteria that a business entity must meet in order to qualify as a third party contractor under this section.
Fees established in RCW 46.44.0941 shall be paid to the political body issuing the permit if the entire movement is to be confined to roads, streets, or highways for which that political body is responsible. When a movement involves a combination of state highways, county roads, and/or city streets the fee shall be paid to the state department of transportation. When a movement is confined within the city limits of a city or town upon city streets, including routes of state highways on city streets, all fees shall be paid to the city or town involved. A permit will not be required from city or town authorities for a move involving a combination of city or town streets and state highways when the move through a city or town is being confined to the route of the state highway. When a move involves a combination of county roads and city streets the fee shall be paid to the county authorities, but the fee shall not be collected nor the county permit issued until valid permits are presented showing that the city or town authorities approve of the move in question. When the movement involves only county roads the fees collected shall be paid to the county involved. Fees established shall be paid to the political body issuing the permit if the entire use of the vehicle during the period covered by the permit shall be confined to the roads, streets, or highways for which that political body is responsible.

RCW 46.44.098 Increase in federal limits on sizes and weights--Increases by commission.
If the congress of the United States further amends section 127, Title 23 of the United States Code, authorizing increased sizes and weights, the Washington state department of transportation may authorize the operation of vehicles and combinations of vehicles upon completed portions of the interstate highway system and other designated state highways if determined to be capable of accommodating the increased sizes and weights in excess of those prescribed in RCW 46.44.041, or as provided in RCW 46.44.010 and 46.44.037. The permitted increases shall not in any way exceed the federal limits which would jeopardize the state's allotment of federal funds.

RCW 46.44.105 Enforcement procedures--Penalties--Rules.
(1) Violation of any of the provisions of this chapter is a traffic infraction, and upon the first finding thereof shall be assessed a basic penalty of not less than fifty dollars; and upon a
second finding thereof shall be assessed a basic penalty of not less than seventy-five dollars; and upon a third or subsequent finding shall be assessed a basic penalty of not less than one hundred dollars.

(2) In addition to the penalties imposed in subsection (1) of this section, any person violating RCW 46.44.041, 46.44.042, 46.44.047, 46.44.090, 46.44.091, or 46.44.095 shall be assessed a penalty for each pound overweight, as follows:

(a) One pound through four thousand pounds overweight is three cents for each pound;

(b) Four thousand one pounds through ten thousand pounds overweight is one hundred twenty dollars plus twelve cents per pound for each additional pound over four thousand pounds overweight;

(c) Ten thousand one pounds through fifteen thousand pounds overweight is eight hundred forty dollars plus sixteen cents per pound for each additional pound over ten thousand pounds overweight;

(d) Fifteen thousand one pounds through twenty thousand pounds overweight is one thousand six hundred forty dollars plus twenty cents per pound for each additional pound over fifteen thousand pounds overweight;

(e) Twenty thousand one pounds and more is two thousand six hundred forty dollars plus thirty cents per pound for each additional pound over twenty thousand pounds overweight.

Upon a first violation in any calendar year, the court may suspend the penalty for five hundred pounds of excess weight for each axle on any vehicle or combination of vehicles, not to exceed a two thousand pound suspension. In no case may the basic penalty assessed in subsection (1) of this section or the additional penalty assessed in subsection (2) of this section, except as provided for the first violation, be suspended.

(3) Whenever any vehicle or combination of vehicles is involved in two violations of RCW 46.44.041, 46.44.042, 46.44.047, 46.44.090, 46.44.091, or 46.44.095 during any twelve-month period, the court may suspend the certificate of license registration of the vehicle or combination of vehicles for not less than thirty days. Upon a third or succeeding violation in any twelve-month period, the court shall suspend the certificate of license registration for not less than thirty days. Whenever the certificate of license registration is suspended, the court shall secure such certificate and immediately forward the same to the director with information concerning the suspension.

(4) Any person found to have violated any posted limitations of a highway or section of highway shall be assessed a monetary penalty of not less than one hundred and fifty dollars, and the court shall in addition thereto upon second violation within a twelve-month period involving the same power unit, suspend the certificate of license registration for not less than thirty days.

(5) It is unlawful for the driver of a vehicle to fail or refuse to stop and submit the vehicle and load to a weighing, or to fail or refuse, when directed by an officer upon a weighing of the vehicle to stop the vehicle and otherwise comply with the provisions of this section. It is unlawful for a driver of a commercial motor vehicle as defined in RCW 46.32.005, other than the driver of a bus as defined in RCW 46.32.005(2) or a vehicle with a gross vehicle or combination weight not over sixteen thousand pounds and not transporting hazardous materials in accordance
with RCW 46.32.005(3), to fail or refuse to stop at a weighing station when proper traffic control signs indicate scales are open.

Any police officer is authorized to require the driver of any vehicle or combination of vehicles to stop and submit to a weighing either by means of a portable or stationary scale and may require that the vehicle be driven to the nearest public scale. Whenever a police officer, upon weighing a vehicle and load, determines that the weight is unlawful, the officer may require the driver to stop the vehicle in a suitable location and remain standing until such portion of the load is removed as may be necessary to reduce the gross weight of the vehicle to the limit permitted by law. If the vehicle is loaded with grain or other perishable commodities, the driver shall be permitted to proceed without removing any of the load, unless the gross weight of the vehicle and load exceeds by more than ten percent the limit permitted by this chapter. The owner or operator of the vehicle shall care for all materials unloaded at the risk of the owner or operator.

Any vehicle whose driver or owner represents that the vehicle is disabled or otherwise unable to proceed to a weighing location shall have its load sealed or otherwise marked by any police officer. The owner or driver shall be directed that upon completion of repairs, the vehicle shall submit to weighing with the load and markings and/or seal intact and undisturbed. Failure to report for weighing, appearing for weighing with the seal broken or the markings disturbed, or removal of any cargo prior to weighing is unlawful. Any person so convicted shall be fined one thousand dollars, and in addition the certificate of license registration shall be suspended for not less than thirty days.

(6) Any other provision of law to the contrary notwithstanding, district courts having venue have concurrent jurisdiction with the superior courts for the imposition of any penalties authorized under this section.

(7) For the purpose of determining additional penalties as provided by subsection (2) of this section, "overweight" means the poundage in excess of the maximum allowable gross weight or axle/axle grouping weight prescribed by RCW 46.44.041, 46.44.042, 46.44.047, 46.44.091, and 46.44.095.

(8) The penalties provided in subsections (1) and (2) of this section shall be remitted as provided in chapter 3.62 RCW or RCW 10.82.070. For the purpose of computing the basic penalties and additional penalties to be imposed under subsections (1) and (2) of this section, the convictions shall be on the same vehicle or combination of vehicles within a twelve-month period under the same ownership.

(9) Any state patrol officer or any weight control officer who finds any person operating a vehicle or a combination of vehicles in violation of the conditions of a permit issued under RCW 46.44.047, 46.44.090, and 46.44.095 may confiscate the permit and forward it to the state department of transportation which may return it to the permittee or revoke, cancel, or suspend it without refund. The department of transportation shall keep a record of all action taken upon permits so confiscated, and if a permit is returned to the permittee the action taken by the department of transportation shall be endorsed thereon. Any permittee whose permit is suspended or revoked may upon request receive a hearing before the department of transportation or person designated by that department. After the hearing the department of transportation may reinstate
any permit or revise its previous action.

Every permit issued as provided for in this chapter shall be carried in the vehicle or combination of vehicles to which it refers and shall be open to inspection by any law enforcement officer or authorized agent of any authority granting such a permit.

Upon the third finding within a calendar year of a violation of the requirements and conditions of a permit issued under RCW 46.44.095, the permit shall be canceled, and the canceled permit shall be immediately transmitted by the court or the arresting officer to the department of transportation. The vehicle covered by the canceled permit is not eligible for a new permit for a period of thirty days.

(10) For the purposes of determining gross weights the actual scale weight taken by the arresting officer is prima facie evidence of the total gross weight.
