(1) No evidence as to the speed of any vehicle operated upon a public highway by any person arrested for violation of any of the laws of this state regarding speed or of any orders, rules, or regulations of any city or town or other political subdivision relating thereto shall be admitted in evidence in any court at a subsequent trial of such person in case such evidence relates to or is based upon the maintenance or use of a speed trap except as provided in subsection (2) of this section. A "speed trap," within the meaning of this section, is a particular section of or distance on any public highway, the length of which has been or is measured off or otherwise designated or determined, and the limits of which are within the vision of any officer or officers who calculate the speed of a vehicle passing through such speed trap by using the lapsed time during which such vehicle travels between the entrance and exit of such speed trap.

(2) Evidence shall be admissible against any person arrested or issued a notice of a traffic infraction for violation of any of the laws of this state or of any orders, rules, or regulations of any city or town or other political subdivision regarding speed if the same is determined by a particular section of or distance on a public highway, the length of which has been accurately measured off or otherwise designated or determined and either: (a) The limits of which are controlled by a mechanical, electrical, or other device capable of measuring or recording the speed of a vehicle passing within such limits; or (b) a timing device is operated from an aircraft, which timing device when used to measure the elapsed time of a vehicle passing over such a particular section of or distance upon a public highway indicates the speed of a vehicle.

(a) In the case of a person whose alcohol concentration was less than 0.15, or for whom for reasons other than the person's refusal to take a test offered pursuant to RCW 46.20.308 there is no test result indicating the person's alcohol concentration:

(i) By imprisonment for not less than one day nor more than one year. Twenty-four consecutive hours of the imprisonment may not be suspended or deferred unless the court finds that the imposition of this mandatory minimum sentence would impose a substantial risk to the offender's physical or mental well-being. The court may also require the offender's electronic home monitoring device to include an alcohol detection breathalyzer, and the court may restrict the amount of alcohol the offender may consume during the time the offender is on electronic home monitoring; and

(ii) By a fine of not less than five hundred dollars nor more than five thousand dollars. Five hundred dollars of the fine may not be suspended or deferred unless the court finds the offender to be indigent; and

(iii) By a court-ordered restriction under RCW 46.20.720.

(2) A person who is convicted of a violation of RCW 46.61.502 or 46.61.504 and who has one prior offense within seven years shall be punished as follows:

(a) In the case of a person whose alcohol concentration was less than 0.15, or for whom for reasons other than the person's refusal to take a test offered pursuant to RCW 46.20.308 there is no test result indicating the person's alcohol concentration:

(i) By imprisonment for not less than thirty days nor more than one year and sixty days of electronic home monitoring. The offender shall pay for the cost of the electronic monitoring. The county or municipality where the penalty is being imposed shall determine the cost. The court may also require the offender's electronic home monitoring device include an alcohol detection breathalyzer, and may restrict the amount of alcohol the offender may consume during the time the offender is on electronic home monitoring. Thirty days of imprisonment and sixty days of electronic home monitoring may not be suspended or deferred unless the court finds that the imposition of this mandatory minimum sentence would impose a substantial risk to the offender's physical or mental well-being. Whenever the mandatory minimum sentence is suspended or deferred, the court shall state in writing the reason for granting the suspension or deferral and the facts upon which the suspension or deferral is based; and

(ii) By a fine of not less than five hundred dollars nor more than five thousand dollars. Five hundred dollars of the fine may not be suspended or deferred unless the court finds the offender to be indigent; and

(iii) By a court-ordered restriction under RCW 46.20.720; or

(b) In the case of a person whose alcohol concentration was at least 0.15, or for whom by reason of the person's refusal to take a test offered pursuant to RCW 46.20.308 there is no test result indicating the person's alcohol concentration:

(i) By imprisonment for not less than forty-five days nor more than one year and ninety days of electronic home monitoring. The offender shall pay for the cost of the electronic monitoring. The county or municipality where the penalty is being imposed shall determine the

cost. The court may also require the offender's electronic home monitoring device include an alcohol detection breathalyzer, and may restrict the amount of alcohol the offender may consume during the time the offender is on electronic home monitoring. Forty-five days of imprisonment and ninety days of electronic home monitoring may not be suspended or deferred unless the court finds that the imposition of this mandatory minimum sentence would impose a substantial risk to the offender's physical or mental well-being. Whenever the mandatory minimum sentence is suspended or deferred, the court shall state in writing the reason for granting the suspension or deferral and the facts upon which the suspension or deferral is based; and

(ii) By a fine of not less than seven hundred fifty dollars nor more than five thousand dollars. Seven hundred fifty dollars of the fine may not be suspended or deferred unless the court finds the offender to be indigent; and

(iii) By a court-ordered restriction under RCW 46.20.720.

(3) A person who is convicted of a violation of RCW 46.61.502 or 46.61.504 and who has two or more prior offenses within seven years shall be punished as follows:

(a) In the case of a person whose alcohol concentration was less than 0.15, or for whom for reasons other than the person's refusal to take a test offered pursuant to RCW 46.20.308 there is no test result indicating the person's alcohol concentration:

(i) By imprisonment for not less than ninety days nor more than one year and one hundred twenty days of electronic home monitoring. The offender shall pay for the cost of the electronic monitoring. The county or municipality where the penalty is being imposed shall determine the cost. The court may also require the offender's electronic home monitoring device include an alcohol detection breathalyzer, and may restrict the amount of alcohol the offender may consume during the time the offender is on electronic home monitoring. Ninety days of imprisonment and one hundred twenty days of electronic home monitoring may not be suspended or deferred unless the court finds that the imposition of this mandatory minimum sentence would impose a substantial risk to the offender's physical or mental well-being. Whenever the mandatory minimum sentence is suspended or deferred, the court shall state in writing the reason for granting the suspension or deferral and the facts upon which the suspension or deferral is based; and

(ii) By a fine of not less than one thousand dollars nor more than five thousand dollars. One thousand dollars of the fine may not be suspended or deferred unless the court finds the offender to be indigent; and

(iii) By a court-ordered restriction under RCW 46.20.720; or

(b) In the case of a person whose alcohol concentration was at least 0.15, or for whom by reason of the person's refusal to take a test offered pursuant to RCW 46.20.308 there is no test result indicating the person's alcohol concentration:

(i) By imprisonment for not less than one hundred twenty days nor more than one year and one hundred fifty days of electronic home monitoring. The offender shall pay for the cost of the electronic monitoring. The county or municipality where the penalty is being imposed shall determine the cost. The court may also require the offender's electronic home monitoring device include an alcohol detection breathalyzer, and may restrict the amount of alcohol the offender may consume during the time the offender is on electronic home monitoring. One hundred

twenty days of imprisonment and one hundred fifty days of electronic home monitoring may not be suspended or deferred unless the court finds that the imposition of this mandatory minimum sentence would impose a substantial risk to the offender's physical or mental well-being. Whenever the mandatory minimum sentence is suspended or deferred, the court shall state in writing the reason for granting the suspension or deferral and the facts upon which the suspension or deferral is based; and

(ii) By a fine of not less than one thousand five hundred dollars nor more than five thousand dollars. One thousand five hundred dollars of the fine may not be suspended or deferred unless the court finds the offender to be indigent; and

(iii) By a court-ordered restriction under RCW 46.20.720.

(4) In exercising its discretion in setting penalties within the limits allowed by this section, the court shall particularly consider the following:

(a) Whether the person's driving at the time of the offense was responsible for injury or damage to another or another's property; and

(b) Whether the person was driving or in physical control of a vehicle with one or more passengers at the time of the offense.

(5) An offender punishable under this section is subject to the alcohol assessment and treatment provisions of RCW 46.61.5056.

(6) The license, permit, or nonresident privilege of a person convicted of driving or being in physical control of a motor vehicle while under the influence of intoxicating liquor or drugs must:

(a) If the person's alcohol concentration was less than 0.15, or if for reasons other than the person's refusal to take a test offered under RCW 46.20.308 there is no test result indicating the person's alcohol concentration:

(i) Where there has been no prior offense within seven years, be suspended or denied by the department for ninety days;

(ii) Where there has been one prior offense within seven years, be revoked or denied by the department for two years; or

(iii) Where there have been two or more prior offenses within seven years, be revoked or denied by the department for three years;

(b) If the person's alcohol concentration was at least 0.15, or if by reason of the person's refusal to take a test offered under RCW 46.20.308 there is no test result indicating the person's alcohol concentration:

(i) Where there has been no prior offense within seven years, be revoked or denied by the department for one year;

(ii) Where there has been one prior offense within seven years, be revoked or denied by the department for nine hundred days; or

(iii) Where there have been two or more prior offenses within seven years, be revoked or denied by the department for four years.

For purposes of this subsection, the department shall refer to the driver's record maintained under RCW 46.52.120 when determining the existence of prior offenses.

(7) After expiration of any period of suspension, revocation, or denial of the offender's

license, permit, or privilege to drive required by this section, the department shall place the offender's driving privilege in probationary status pursuant to RCW 46.20.355.

(8)(a) In addition to any nonsuspendable and nondeferrable jail sentence required by this section, whenever the court imposes less than one year in jail, the court shall also suspend but shall not defer a period of confinement for a period not exceeding five years. The court shall impose conditions of probation that include: (i) Not driving a motor vehicle within this state without a valid license to drive and proof of financial responsibility for the future; (ii) not driving a motor vehicle within this state while having an alcohol concentration of 0.08 or more within two hours after driving; and (iii) not refusing to submit to a test of his or her breath or blood to determine alcohol concentration upon request of a law enforcement officer who has reasonable grounds to believe the person was driving or was in actual physical control of a motor vehicle within this state while under the influence of intoxicating liquor. The court may impose conditions of probation that include nonrepetition, installation of an ignition interlock or other biological or technical device on the probationer's motor vehicle, alcohol or drug treatment, supervised probation, or other conditions that may be appropriate. The sentence may be imposed in whole or in part upon violation of a condition of probation during the suspension period.

(b) For each violation of mandatory conditions of probation under (a)(i) and (ii) or (a)(i) and (iii) of this subsection, the court shall order the convicted person to be confined for thirty days, which shall not be suspended or deferred.

(c) For each incident involving a violation of a mandatory condition of probation imposed under this subsection, the license, permit, or privilege to drive of the person shall be suspended by the court for thirty days or, if such license, permit, or privilege to drive already is suspended, revoked, or denied at the time the finding of probation violation is made, the suspension, revocation, or denial then in effect shall be extended by thirty days. The court shall notify the department of any suspension, revocation, or denial or any extension of a suspension, revocation, or denial imposed under this subsection.

(9) A court may waive the electronic home monitoring requirements of this chapter when:

(a) The offender does not have a dwelling, telephone service, or any other necessity to operate an electronic home monitoring system;

(b) The offender does not reside in the state of Washington; or

(c) The court determines that there is reason to believe that the offender would violate the conditions of the electronic home monitoring penalty.

Whenever the mandatory minimum term of electronic home monitoring is waived, the court shall state in writing the reason for granting the waiver and the facts upon which the waiver is based, and shall impose an alternative sentence with similar punitive consequences. The alternative sentence may include, but is not limited to, additional jail time, work crew, or work camp.

Whenever the combination of jail time and electronic home monitoring or alternative sentence would exceed three hundred sixty-five days, the offender shall serve the jail portion of the sentence first, and the electronic home monitoring or alternative portion of the sentence shall be reduced so that the combination does not exceed three hundred sixty-five days.

(10) An offender serving a sentence under this section, whether or not a mandatory minimum term has expired, may be granted an extraordinary medical placement by the jail administrator subject to the standards and limitations set forth in *RCW 9.94A.728(4).

(11) For purposes of this section:

RCW 46.61.50571 Alcohol violators--Mandatory appearances.

(1) A defendant who is charged with an offense involving driving while under the influence as defined in RCW 46.61.502, driving under age twenty-one after consuming alcohol

as defined in RCW 46.61.503, or being in physical control of a vehicle while under the influence as defined in RCW 46.61.504, shall be required to appear in person before a judicial officer within one judicial day after the arrest if the defendant is served with a citation or complaint at the time of the arrest. A court may by local court rule waive the requirement for appearance within one judicial day if it provides for the appearance at the earliest practicable day following arrest and establishes the method for identifying that day in the rule.

(2) A defendant who is charged with an offense involving driving while under the influence as defined in RCW 46.61.502, driving under age twenty-one after consuming alcohol as defined in RCW 46.61.503, or being in physical control of a vehicle while under the influence as defined in RCW 46.61.504, and who is not served with a citation or complaint at the time of the incident, shall appear in court for arraignment in person as soon as practicable, but in no event later than fourteen days after the next day on which court is in session following the issuance of the citation or the filing of the complaint or information.

(3) At the time of an appearance required by this section, the court shall determine the necessity of imposing conditions of pretrial release according to the procedures established by court rule for a preliminary appearance or an arraignment.

(4) Appearances required by this section are mandatory and may not be waived.

Notes:

Effective date--1998 c 214: See note following RCW 46.61.5055.

RCW 46.61.5058 Alcohol violators--Vehicle seizure and forfeiture.

(1) Upon the arrest of a person or upon the filing of a complaint, citation, or information in a court of competent jurisdiction, based upon probable cause to believe that a person has violated RCW 46.61.502 or 46.61.504 or any similar municipal ordinance, if such person has a prior offense within seven years as defined in RCW 46.61.5055, and where the person has been provided written notice that any transfer, sale, or encumbrance of such person's interest in the vehicle over which that person was actually driving or had physical control when the violation occurred, is unlawful pending either acquittal, dismissal, sixty days after conviction, or other termination of the charge, such person shall be prohibited from encumbering, selling, or transferring his or her interest in such vehicle, except as otherwise provided in (a), (b), and (c) of this subsection, until either acquittal, dismissal, sixty days after conviction, or other termination of the charge. The prohibition against transfer of title shall not be stayed pending the determination of an appeal from the conviction.

(a) A vehicle encumbered by a bona fide security interest may be transferred to the secured party or to a person designated by the secured party;

(b) A leased or rented vehicle may be transferred to the lessor, rental agency, or to a person designated by the lessor or rental agency; and

(c) A vehicle may be transferred to a third party or a vehicle dealer who is a bona fide purchaser or may be subject to a bona fide security interest in the vehicle unless it is established that (i) in the case of a purchase by a third party or vehicle dealer, such party or dealer had actual

notice that the vehicle was subject to the prohibition prior to the purchase, or (ii) in the case of a security interest, the holder of the security interest had actual notice that the vehicle was subject to the prohibition prior to the encumbrance of title.

(2) On conviction for a violation of either RCW 46.61.502 or 46.61.504 or any similar municipal ordinance where the person convicted has a prior offense within seven years as defined in RCW 46.61.5055, the motor vehicle the person was driving or over which the person had actual physical control at the time of the offense, if the person has a financial interest in the vehicle, is subject to seizure and forfeiture pursuant to this section.

(3) A vehicle subject to forfeiture under this chapter may be seized by a law enforcement officer of this state upon process issued by a court of competent jurisdiction. Seizure of a vehicle may be made without process if the vehicle subject to seizure has been the subject of a prior judgment in favor of the state in a forfeiture proceeding based upon this section.

(4) Seizure under subsection (3) of this section automatically commences proceedings for forfeiture. The law enforcement agency under whose authority the seizure was made shall cause notice of the seizure and intended forfeiture of the seized vehicle to be served within fifteen days after the seizure on the owner of the vehicle seized, on the person in charge of the vehicle, and on any person having a known right or interest in the vehicle, including a community property interest. The notice of seizure may be served by any method authorized by law or court rule, including but not limited to service by certified mail with return receipt requested. Service by mail is complete upon mailing within the fifteen-day period after the seizure. Notice of seizure in the case of property subject to a security interest that has been perfected on a certificate of title shall be made by service upon the secured party or the secured party's assignee at the address shown on the financing statement or the certificate of title.

(5) If no person notifies the seizing law enforcement agency in writing of the person's claim of ownership or right to possession of the seized vehicle within forty-five days of the seizure, the vehicle is deemed forfeited.

(6) If a person notifies the seizing law enforcement agency in writing of the person's claim of ownership or right to possession of the seized vehicle within forty-five days of the seizure, the law enforcement agency shall give the person or persons a reasonable opportunity to be heard as to the claim or right. The hearing shall be before the chief law enforcement officer of the seizing agency or the chief law enforcement officer's designee, except where the seizing agency is a state agency as defined in RCW 34.12.020, the hearing shall be before the chief law enforcement officer of the seizing agency or an administrative law judge appointed under chapter 34.12 RCW, except that any person asserting a claim or right may remove the matter to a court of competent jurisdiction. Removal may only be accomplished according to the rules of civil procedure. The person seeking removal of the matter must serve process against the state, county, political subdivision, or municipality that operates the seizing agency, and any other party of interest, in accordance with RCW 4.28.080 or 4.92.020, within forty-five days after the person seeking removal has notified the seizing law enforcement agency of the person's claim of ownership or right to possession. The court to which the matter is to be removed shall be the district court when the aggregate value of the vehicle is within the jurisdictional limit set forth in RCW 3.66.020. A hearing before the seizing agency and any appeal therefrom shall be under

Title 34 RCW. In a court hearing between two or more claimants to the vehicle involved, the prevailing party shall be entitled to a judgment for costs and reasonable attorneys' fees. The burden of producing evidence shall be upon the person claiming to be the legal owner or the person claiming to have the lawful right to possession of the vehicle. The seizing law enforcement agency shall promptly return the vehicle to the claimant upon a determination by the administrative law judge or court that the claimant is the present legal owner under Title 46 RCW or is lawfully entitled to possession of the vehicle.

(7) When a vehicle is forfeited under this chapter the seizing law enforcement agency may sell the vehicle, retain it for official use, or upon application by a law enforcement agency of this state release the vehicle to that agency for the exclusive use of enforcing this title; provided, however, that the agency shall first satisfy any bona fide security interest to which the vehicle is subject under subsection (1)(a) or (c) of this section.

(8) When a vehicle is forfeited, the seizing agency shall keep a record indicating the identity of the prior owner, if known, a description of the vehicle, the disposition of the vehicle, the value of the vehicle at the time of seizure, and the amount of proceeds realized from disposition of the vehicle.

(9) Each seizing agency shall retain records of forfeited vehicles for at least seven years.

(10) Each seizing agency shall file a report including a copy of the records of forfeited vehicles with the state treasurer each calendar quarter.

(11) The quarterly report need not include a record of a forfeited vehicle that is still being held for use as evidence during the investigation or prosecution of a case or during the appeal from a conviction.

(12) By January 31st of each year, each seizing agency shall remit to the state treasurer an amount equal to ten percent of the net proceeds of vehicles forfeited during the preceding calendar year. Money remitted shall be deposited in the public safety and education account.

(13) The net proceeds of a forfeited vehicle is the value of the forfeitable interest in the vehicle after deducting the cost of satisfying a bona fide security interest to which the vehicle is subject at the time of seizure; and in the case of a sold vehicle, after deducting the cost of sale, including reasonable fees or commissions paid to independent selling agents.

(14) The value of a sold forfeited vehicle is the sale price. The value of a retained forfeited vehicle is the fair market value of the vehicle at the time of seizure, determined when possible by reference to an applicable commonly used index, such as the index used by the department of licensing. A seizing agency may, but need not, use an independent qualified appraiser to determine the value of retained vehicles. If an appraiser is used, the value of the vehicle appraised is net of the cost of the appraisal.

RCW 46.61.506 Persons under influence of intoxicating liquor or drug--Evidence--Tests--Information concerning tests.

(1) Upon the trial of any civil or criminal action or proceeding arising out of acts alleged to have been committed by any person while driving or in actual physical control of a vehicle while under the influence of intoxicating liquor or any drug, if the person's alcohol concentration is less than 0.08, it is evidence that may be considered with other competent evidence in determining whether the person was under the influence of intoxicating liquor or any drug.

(2) The breath analysis shall be based upon grams of alcohol per two hundred ten liters of breath. The foregoing provisions of this section shall not be construed as limiting the introduction of any other competent evidence bearing upon the question whether the person was under the influence of intoxicating liquor or any drug.

(3) Analysis of the person's blood or breath to be considered valid under the provisions of this section or RCW 46.61.502 or 46.61.504 shall have been performed according to methods approved by the state toxicologist and by an individual possessing a valid permit issued by the state toxicologist for this purpose. The state toxicologist is directed to approve satisfactory techniques or methods, to supervise the examination of individuals to ascertain their qualifications and competence to conduct such analyses, and to issue permits which shall be subject to termination or revocation at the discretion of the state toxicologist.

(4) When a blood test is administered under the provisions of RCW 46.20.308, the withdrawal of blood for the purpose of determining its alcoholic or drug content may be performed only by a physician, a registered nurse, or a qualified technician. This limitation shall not apply to the taking of breath specimens.

(5) The person tested may have a physician, or a qualified technician, chemist, registered nurse, or other qualified person of his or her own choosing administer one or more tests in addition to any administered at the direction of a law enforcement officer. The failure or inability to obtain an additional test by a person shall not preclude the admission of evidence relating to the test or tests taken at the direction of a law enforcement officer.

(6) Upon the request of the person who shall submit to a test or tests at the request of a law enforcement officer, full information concerning the test or tests shall be made available to him or her or his or her attorney.

(1) Whenever a child who is less than sixteen years of age is being transported in a motor vehicle that is in operation and that is required by RCW 46.37.510 to be equipped with a safety belt system in a passenger seating position, the driver of the vehicle shall keep the child properly restrained as follows:

(b) If the child is less than one year of age or weighs less than twenty pounds, the child shall be properly restrained in a rear-facing infant seat;

(c) If the child is more than one but less than four years of age or weighs less than forty pounds but at least twenty pounds, the child shall be properly restrained in a forward facing child safety seat restraint system;

(d) If the child is less than six but at least four years of age or weighs less than sixty pounds but at least forty pounds, the child shall be properly restrained in a child booster seat;

(f) Enforcement of (a) through (e) of this subsection is subject to a visual inspection by law enforcement to determine if the child restraint system in use is appropriate for the child's individual height, weight, and age. The visual inspection for usage of a forward facing child safety seat must ensure that the seat in use is equipped with a four-point shoulder harness system. The visual inspection for usage of a booster seat must ensure that the seat belt properly fits across the child's lap and the shoulder strap crosses the center of the child's chest. The visual inspection for the usage of a seat belt by a child must ensure that the lap belt properly fits across the child's lap and the shoulder strap crosses the center of the child's chest. In determining violations, consideration to the above criteria must be given in conjunction with the provisions of (a) through (e) of this subsection. The driver of a vehicle transporting a child who is under the age of six years old or weighs less than sixty pounds, when the vehicle is equipped with a passenger side air bag supplemental restraint system, and the air bag system is activated, shall transport the child in the back seat positions in the vehicle where it is practical to do so.

(2) A person violating subsection (1)(a) through (e) of this section may be issued a notice of traffic infraction under chapter 46.63 RCW. If the person to whom the notice was issued presents proof of acquisition of an approved child passenger restraint system or a child booster seat, as appropriate, within seven days to the jurisdiction issuing the notice and the person has not previously had a violation of this section dismissed, the jurisdiction shall dismiss the notice of traffic infraction.

(3) Failure to comply with the requirements of this section shall not constitute negligence by a parent or legal guardian; nor shall failure to use a child restraint system be admissible as evidence of negligence in any civil action.

(4) This section does not apply to: (a) For hire vehicles, (b) vehicles designed to transport sixteen or less passengers, including the driver, operated by auto transportation companies, as defined in RCW 81.68.010, (c) vehicles providing customer shuttle service between parking, convention, and hotel facilities, and airport terminals, and (d) school buses.

(5) As used in this section "child booster seat" means a child passenger restraint system that meets the Federal Motor Vehicle Safety Standards set forth in 49 C.F.R. 571.213 that is designed to elevate a child to properly sit in a federally approved lap/shoulder belt system.

(6) The requirements of subsection (1)(a) through (e) of this section do not apply in any seating position where there is only a lap belt available and the child weighs more than forty pounds.

Notes:

Intent--2000 c 190: "The legislature recognizes that fewer than five percent of all drivers use child booster seats for children over the age of four years. The legislature also recognizes that seventy-one percent of deaths resulting from car accidents could be eliminated if every child under the age of sixteen used an appropriate child safety seat, booster seat, or seat belt. The legislature further recognizes the National Transportation Safety Board's recommendations that promote the use of booster seats to increase the safety of children under eight years of age. Therefore, it is the legislature's intent to decrease deaths and injuries to children by promoting safety education and injury prevention measures, as well as increasing public awareness on ways to maximize the protection of children in vehicles." RCW 46.63.110 Monetary penalties.

(1) A person found to have committed a traffic infraction shall be assessed a monetary penalty. No penalty may exceed two hundred and fifty dollars for each offense unless authorized by this chapter or title.

(2) The supreme court shall prescribe by rule a schedule of monetary penalties for designated traffic infractions. This rule shall also specify the conditions under which local courts may exercise discretion in assessing fines and penalties for traffic infractions. The legislature respectfully requests the supreme court to adjust this schedule every two years for inflation.

(3) There shall be a penalty of twenty-five dollars for failure to respond to a notice of traffic infraction except where the infraction relates to parking as defined by local law, ordinance, regulation, or resolution or failure to pay a monetary penalty imposed pursuant to this chapter. A local legislative body may set a monetary penalty not to exceed twenty-five dollars for failure to respond to a notice of traffic infraction relating to parking as defined by local law, ordinance, regulation, or resolution. The local court, whether a municipal, police, or district court, shall impose the monetary penalty set by the local legislative body.

(4) Monetary penalties provided for in chapter 46.70 RCW which are civil in nature and penalties which may be assessed for violations of chapter 46.44 RCW relating to size, weight, and load of motor vehicles are not subject to the limitation on the amount of monetary penalties which may be imposed pursuant to this chapter.

(5) Whenever a monetary penalty is imposed by a court under this chapter it is immediately payable. If the person is unable to pay at that time the court may, in its discretion, grant an extension of the period in which the penalty may be paid. If the penalty is not paid on or before the time established for payment the court shall notify the department of the failure to pay the penalty, and the department shall suspend the person's driver's license or driving privilege until the penalty has been paid and the penalty provided in subsection (3) of this section has been paid.

(6) In addition to any other penalties imposed under this section and not subject to the limitation of subsection (1) of this section, a person found to have committed a traffic infraction shall be assessed a fee of five dollars per infraction. Under no circumstances shall this fee be reduced or waived. Revenue from this fee shall be forwarded to the state treasurer for deposit in the emergency medical services and trauma care system trust account under RCW 70.168.040.

(7)(a) In addition to any other penalties imposed under this section and not subject to the limitation of subsection (1) of this section, a person found to have committed a traffic infraction other than of RCW 46.61.527 shall be assessed an additional penalty of ten dollars. The court may not reduce, waive, or suspend the additional penalty unless the court finds the offender to be indigent. If a community service program for offenders is available in the jurisdiction, the court shall allow offenders to offset all or a part of the penalty due under this subsection (7) by participation in the community service program.

(b) Revenue from the additional penalty must be remitted under chapters 2.08, 3.46, 3.50, 3.62, 10.82, and 35.20 RCW. Money remitted under this subsection to the state treasurer must be deposited as provided in RCW 43.08.250. The balance of the revenue received by the county or city treasurer under this subsection must be deposited into the county or city current expense

fund. Moneys retained by the city or county under this subsection shall constitute reimbursement for any liabilities under RCW 43.135.060.

prohibited--Penalty--Citation audit.

Every traffic enforcement agency in this state shall provide in appropriate form traffic citations containing notices to appear which shall be issued in books with citations in quadruplicate and meeting the requirements of this section.

The chief administrative officer of every such traffic enforcement agency shall be responsible for the issuance of such books and shall maintain a record of every such book and each citation contained therein issued to individual members of the traffic enforcement agency and shall require and retain a receipt for every book so issued.

Every traffic enforcement officer upon issuing a traffic citation to an alleged violator of any provision of the motor vehicle laws of this state or of any traffic ordinance of any city or town shall deposit the original or a copy of such traffic citation with a court having competent jurisdiction over the alleged offense or with its traffic violations bureau.

Upon the deposit of the original or a copy of such traffic citation with a court having competent jurisdiction over the alleged offense or with its traffic violations bureau as aforesaid, said original or copy of such traffic citation may be disposed of only by trial in said court or other official action by a judge of said court, including forfeiture of the bail or by the deposit of sufficient bail with or payment of a fine to said traffic violations bureau by the person to whom such traffic citation has been issued by the traffic enforcement officer.

It shall be unlawful and official misconduct for any traffic enforcement officer or other officer or public employee to dispose of a traffic citation or copies thereof or of the record of the issuance of the same in a manner other than as required herein.

The chief administrative officer of every traffic enforcement agency shall require the return to him of a copy of every traffic citation issued by an officer under his supervision to an alleged violator of any traffic law or ordinance and of all copies of every traffic citation which has been spoiled or upon which any entry has been made and not issued to an alleged violator.

Such chief administrative officer shall also maintain or cause to be maintained in connection with every traffic citation issued by an officer under his supervision a record of the disposition of the charge by the court or its traffic violations bureau in which the original or copy of the traffic citation was deposited.

Any person who cancels or solicits the cancellation of any traffic citation, in any manner other than as provided in this section, shall be guilty of a misdemeanor.

Every record of traffic citations required in this section shall be audited monthly by the appropriate fiscal officer of the government agency to which the traffic enforcement agency is responsible.

RCW 46.64.015 Citation and notice to appear in court--Issuance--Contents--Written promise--Arrest--Detention.

Whenever any person is arrested for any violation of the traffic laws or regulations which is punishable as a misdemeanor or by imposition of a fine, the arresting officer may serve upon him or her a traffic citation and notice to appear in court. Such citation and notice shall conform

to the requirements of RCW 46.64.010, and in addition, shall include spaces for the name and address of the person arrested, the license number of the vehicle involved, the driver's license number of such person, if any, the offense or violation charged, the time and place where such person shall appear in court, and a place where the person arrested may sign. Such spaces shall be filled with the appropriate information by the arresting officer. The arrested person, in order to secure release, and when permitted by the arresting officer, must give his or her written promise to appear in court as required by the citation and notice by signing in the appropriate place the written citation and notice served by the arresting officer, and if the arrested person is a nonresident of the state, shall also post a bond, cash security, or bail as required under RCW 46.64.035. An officer may not serve or issue any traffic citation or notice for any offense or violation except either when the offense or violation is committed in his or her presence or when a person may be arrested pursuant to RCW 10.31.100, as now or hereafter amended. The detention arising from an arrest under this section may not be for a period of time longer than is reasonably necessary to issue and serve a citation and notice, except that the time limitation does not apply under any of the following circumstances:

(1) Where the arrested person refuses to sign a written promise to appear in court as required by the citation and notice provisions of this section;

(2) Where the arresting officer has probable cause to believe that the arrested person has committed any of the offenses enumerated in RCW 10.31.100(3), as now or hereafter amended;

(3) When the arrested person is a nonresident and is being detained for a hearing under RCW 46.64.035.

RCW 46.64.030 Procedure governing arrest and prosecution.

The provisions of this title with regard to the apprehension and arrest of persons violating this title shall govern all police officers in making arrests without a warrant for violations of this title for offenses either committed in their presence or believed to have been committed based on probable cause pursuant to RCW 10.31.100, but the procedure prescribed herein shall not otherwise be exclusive of any other method prescribed by law for the arrest and prosecution of a person for other like offenses.

[1979 ex.s. c 28 § 3; 1975 c 56 § 2; 1967 c 32 § 72; 1961 c 12 § 46.64.030. Prior: 1937 c 189 § 147; RRS § 6360-147.]

RCW 46.64.035 Posting of security or bail by nonresident--Penalty.

Any nonresident of the state of Washington who is issued a notice of infraction or a citation for a traffic offense may be required to post either a bond or cash security in the amount of the infraction penalty or to post bail. The court shall by January 1, 1990, accept, in lieu of bond or cash security, valid major credit cards issued by a bank or other financial institution or automobile club card guaranteed by an insurance company licensed to conduct business in the state. If payment is made by credit card the court is authorized to impose, in addition to any penalty or fine, an amount equal to the charge to the court for accepting such cards. If the person cannot post the bond, cash security, or bail, he or she shall be taken to a magistrate or judge for a hearing at the first possible working time of the court. If the person refuses to comply with this section, he or she shall be guilty of a misdemeanor. This section does not apply to residents of states that have entered into a reciprocal agreement as outlined in RCW 46.23.020.

[1987 c 345 § 3.]

RCW 46.64.040 Nonresident's use of highways--Resident leaving state--Secretary of state as attorney in fact.

The acceptance by a nonresident of the rights and privileges conferred by law in the use of the public highways of this state, as evidenced by his or her operation of a vehicle thereon, or the operation thereon of his or her vehicle with his or her consent, express or implied, shall be deemed equivalent to and construed to be an appointment by such nonresident of the secretary of state of the state of Washington to be his or her true and lawful attorney upon whom may be served all lawful summons and processes against him or her growing out of any accident, collision, or liability in which such nonresident may be involved while operating a vehicle upon the public highways, or while his or her vehicle is being operated thereon with his or her consent, express or implied, and such operation and acceptance shall be a signification of the nonresident's agreement that any summons or process against him or her which is so served shall be of the same legal force and validity as if served on the nonresident personally within the state of Washington. Likewise each resident of this state who, while operating a motor vehicle on the public highways of this state, is involved in any accident, collision or liability and thereafter within three years departs from this state appoints the secretary of state of the state of Washington as his or her lawful attorney for service of summons as provided in this section for

nonresidents. Service of such summons or process shall be made by leaving two copies thereof with a fee established by the secretary of state by rule with the secretary of state of the state of Washington, or at the secretary of state's office, and such service shall be sufficient and valid personal service upon said resident or nonresident: PROVIDED, That notice of such service and a copy of the summons or process is forthwith sent by registered mail with return receipt requested, by plaintiff to the defendant at the last known address of the said defendant, and the plaintiff's affidavit of compliance herewith are appended to the process, together with the affidavit of the plaintiff's attorney that the attorney has with due diligence attempted to serve personal process upon the defendant at all addresses known to him or her of defendant and further listing in his or her affidavit the addresses at which he or she attempted to have process served. However, if process is forwarded by registered mail and defendant's endorsed receipt is received and entered as a part of the return of process then the foregoing affidavit of plaintiff's attorney need only show that the defendant received personal delivery by mail: PROVIDED FURTHER, That personal service outside of this state in accordance with the provisions of law relating to personal service of summons outside of this state shall relieve the plaintiff from mailing a copy of the summons or process by registered mail as hereinbefore provided. The secretary of state shall forthwith send one of such copies by mail, postage prepaid, addressed to the defendant at the defendant's address, if known to the secretary of state. The court in which the action is brought may order such continuances as may be necessary to afford the defendant reasonable opportunity to defend the action. The fee paid by the plaintiff to the secretary of state shall be taxed as part of his or her costs if he or she prevails in the action. The secretary of state shall keep a record of all such summons and processes, which shall show the day of service.

by their conduct and record have demonstrated their indifference for the safety and welfare of others and their disrespect for the laws of the state, the orders of her courts and the statutorily required acts of her administrative agencies; and

(3) To discourage repetition of criminal acts by individuals against the peace and dignity of the state and her political subdivisions and to impose increased and added deprivation of the privilege to operate motor vehicles upon habitual offenders who have been convicted repeatedly of violations of traffic laws.

Severability--1971 ex.s. c 284: "If any provision of this 1971 amendatory act, or its application to any person or circumstance is held invalid, the remainder of the act, or the application of the provision to other persons or circumstances is not affected." [1971 ex.s. c 284 § 17.]

(1) Three or more convictions, singularly or in combination, of the following offenses:

(a) Vehicular homicide as defined in RCW 46.61.520;

(f) Reckless driving as defined in RCW 46.61.500;

(g) Being in physical control of a motor vehicle while under the influence of intoxicating liquor or any drug as defined in RCW 46.61.504; or

(h) Attempting to elude a pursuing police vehicle as defined in RCW 46.61.024;

(2) Twenty or more convictions or findings that the person committed a traffic infraction for separate and distinct offenses, singularly or in combination, in the operation of a motor vehicle that are required to be reported to the department of licensing other than the offenses of

driving with an expired driver's license and not having a driver's license in the operator's immediate possession. Such convictions or findings shall include those for offenses enumerated in subsection (1) of this section when taken with and added to those offenses described herein but shall not include convictions or findings for any nonmoving violation. RCW 46.65.065 Revocation of habitual offender's license--Request for hearing, scope--Right to appeal.

(1) Whenever a person's driving record, as maintained by the department, brings him or her within the definition of an habitual traffic offender, as defined in RCW 46.65.020, the department shall forthwith notify the person of the revocation in writing by certified mail at his or her address of record as maintained by the department. If the person is a nonresident of this state, notice shall be sent to the person's last known address. Notices of revocation shall inform the recipient thereof of his or her right to a formal hearing and specify the steps which must be taken in order to obtain a hearing. Within fifteen days after the notice has been given, the person may, in writing, request a formal hearing. If such a request is not made within the prescribed time the right to a hearing is waived. A request for a hearing stays the effectiveness of the revocation.

(2) Upon receipt of a request for a hearing, the department shall schedule a hearing in the county in which the person making the request resides, and if [the] person is a nonresident of this state, the hearing shall be held in Thurston county. The department shall give at least ten days notice of the hearing to the person.

(3) The scope of the hearings provided by this section is limited to the issues of whether the certified transcripts or abstracts of the convictions, as maintained by the department, show that the requisite number of violations have been accumulated within the prescribed period of time as set forth in RCW 46.65.020 and whether the terms and conditions for granting stays, as provided in RCW 46.65.060, have been met.

(4) Upon receipt of the hearing officer's decision, an aggrieved party may appeal to the superior court of the county in which he or she resides, or, in the case of a nonresident of this state, in the superior court of Thurston county, for review of the revocation. Notice of appeal

must be filed within thirty days after receipt of the hearing officer's decision or the right to appeal is waived. Review by the court shall be de novo and without a jury.

(5) The filing of a notice of appeal does not stay the effective date of the revocation.

Whenever any license fee, paid under the provisions of this title, has been erroneously paid, either wholly or in part, the payor is entitled to have refunded the amount so erroneously paid. A license fee is refundable in one or more of the following circumstances: (1) If the vehicle for which the renewal license was purchased was destroyed before the beginning date of the registration period for which the renewal fee was paid; (2) if the vehicle for which the renewal license was purchased was permanently removed from the state before the beginning date of the registration period for which the renewal fee was paid; (3) if the vehicle license was purchased after the owner has sold the vehicle; (4) if the vehicle is currently licensed in Washington and is subsequently licensed in another jurisdiction, in which case any full months of Washington fees between the date of license application in the other jurisdiction and the expiration of the Washington license are refundable; or (5) if the vehicle for which the renewal license was purchased is sold before the beginning date of the registration period for which the renewal fee was paid, and the payor returns the new, unused, never affixed license renewal tabs to the department before the beginning of the registration period for which the registration was

purchased. Upon the refund being certified to the state treasurer by the director as correct and being claimed in the time required by law the state treasurer shall mail or deliver the amount of each refund to the person entitled thereto. No claim for refund shall be allowed for such erroneous payments unless filed with the director within three years after such claimed erroneous payment was made.

If due to error a person has been required to pay a vehicle license fee under this title and an excise tax under Title 82 RCW that amounts to an overpayment of ten dollars or more, that person shall be entitled to a refund of the entire amount of the overpayment, regardless of whether a refund of the overpayment has been requested. If due to error the department or its agent has failed to collect the full amount of the license fee and excise tax due and the underpayment is in the amount of ten dollars or more, the department shall charge and collect such additional amount as will constitute full payment of the tax and fees.

Any person who makes a false statement under which he or she obtains a refund to which he or she is not entitled under this section is guilty of a gross misdemeanor.

(1) An equal distribution factor of ten percent of such funds shall be paid to each county;

(2) A population factor of thirty percent of such funds shall be paid to each county in direct proportion that the county's total equivalent population, as computed pursuant to RCW 46.68.124(1), is to the total equivalent population of all counties;

(3) A road cost factor of thirty percent of such funds shall be paid to each county in direct proportion that the county's total annual road cost, as computed pursuant to RCW 46.68.124(2), is to the total annual road costs of all counties;

(4) A money need factor of thirty percent of such funds shall be paid to each county in direct proportion that the county's money need factor, as computed pursuant to RCW 46.68.124(3), is to the total of money need factors of all counties.

[1982 c 33 § 2.]

RCW 46.68.124 Distribution of amount to counties--Population, road cost, money need, computed--Allocation percentage adjustment.

(1) The equivalent population for each county shall be computed as the sum of the population residing in the county's unincorporated area plus twenty-five percent of the population residing in the county's incorporated area. Population figures required for the computations in this subsection shall be certified by the director of the office of financial management on or before July 1st of each odd-numbered year.

(2) The total annual road cost for each county shall be computed as the sum of one twenty-fifth of the total estimated county road replacement cost, plus the total estimated annual maintenance cost. Appropriate costs for bridges and ferries shall be included. The county road administration board shall be responsible for establishing a uniform system of roadway categories for both maintenance and construction and also for establishing a single statewide cost per mile rate for each roadway category. The total annual cost for each county will be based on

the established statewide cost per mile and associated mileage for each category. The mileage to be used for these computations shall be as shown in the county road log as maintained by the county road administration board as of July 1, 1985, and each two years thereafter. Each county shall be responsible for submitting changes, corrections, and deletions as regards the county road log to the county road administration board. Such changes, corrections, and deletions shall be subject to verification and approval by the county road administration board prior to inclusion in the county road log.

(3) The money need factor for each county shall be the county's total annual road cost less the following four amounts:

(a) One-half the sum of the actual county road tax levied upon the valuation of all taxable property within the county road districts pursuant to RCW 36.82.040, including any amount of such tax diverted under chapter 39.89 RCW, for the two calendar years next preceding the year of computation of the allocation amounts as certified by the department of revenue;

(b) One-half the sum of all funds received by the county road fund from the federal forest reserve fund pursuant to RCW 28A.520.010 and 28A.520.020 during the two calendar years next preceding the year of computation of the allocation amounts as certified by the state treasurer;

(c) One-half the sum of timber excise taxes received by the county road fund pursuant to chapter 84.33 RCW in the two calendar years next preceding the year of computation of the allocation amounts as certified by the state treasurer;

(d) One-half the sum of motor vehicle license fees and motor vehicle and special fuel taxes refunded to the county, pursuant to RCW 46.68.080 during the two calendar years next preceding the year of computation of the allocation amounts as certified by the state treasurer.

(4) The state treasurer and the department of revenue shall furnish to the county road administration board the information required by subsection (3) of this section on or before July 1st of each odd-numbered year.

(5) The county road administration board, shall compute and provide to the counties the allocation factors of the several counties on or before September 1st of each year based solely upon the sources of information herein before required: PROVIDED, That the allocation factor shall be held to a level not more than five percent above or five percent below the allocation factor in use during the previous calendar year. Upon computation of the actual allocation factors of the several counties, the county road administration board shall provide such factors to the state treasurer to be used in the computation of the counties' fuel tax allocation for the succeeding calendar year. The state treasurer shall adjust the fuel tax allocation of each county on January 1st of every year based solely upon the information provided by the county road administration board.

RCW 46.70.021 License required for dealers or manufacturers--Penalties.

It is unlawful for any person, firm, or association to act as a vehicle dealer or vehicle manufacturer, to engage in business as such, serve in the capacity of such, advertise himself, herself, or themselves as such, solicit sales as such, or distribute or transfer vehicles for resale in this state, without first obtaining and holding a current license as provided in this chapter, unless the title of the vehicle is in the name of the seller. A person or firm engaged in buying and offering for sale, or buying and selling five or more vehicles in a twelve-month period, or in any other way engaged in dealer activity without holding a vehicle dealer license, is guilty of a gross misdemeanor, and upon conviction is subject to a fine of up to five thousand dollars for each violation and up to one year in jail. A second offense is a class C felony punishable under chapter 9A.20 RCW. A violation of this section is also a per se violation of chapter 19.86 RCW and is considered a deceptive practice. The department of licensing, the Washington state patrol, the attorney general's office, and the department of revenue shall cooperate in the enforcement of this section. A distributor, factory branch, or factory representative shall not be required to have a vehicle manufacturer license so long as the vehicle manufacturer so represented is properly licensed pursuant to this chapter. Nothing in this chapter prohibits financial institutions from cooperating with vehicle dealers licensed under this chapter in dealer sales or leases. However, financial institutions shall not broker vehicles and cooperation is limited to organizing, promoting, and financing of such dealer sales or leases.

RCW 46.70.023 Place of business.

(1) An "established place of business" requires a permanent, enclosed commercial building located within the state of Washington easily accessible at all reasonable times. The business of a vehicle dealer must be lawfully carried on at an established place of business in accordance with the terms of all applicable building code, zoning, and other land-use regulatory ordinances. A vehicle dealer may display a vehicle for sale only at its established place of business, licensed subagency, or temporary subagency site, except at auction. The dealer shall

keep the building open to the public so that the public may contact the vehicle dealer or the dealer's salespersons at all reasonable times. The books, records, and files necessary to conduct the business shall be kept and maintained at that place. The established place of business shall display an exterior sign with the business name and nature of the business, such as auto sales, permanently affixed to the land or building, with letters clearly visible to the major avenue of traffic. A room or rooms in a hotel, rooming house, or apartment house building or part of a single or multiple-unit dwelling house may not be considered an "established place of business" unless the ground floor of such a dwelling is devoted principally to and occupied for commercial purposes and the dealer offices are located on the ground floor. A mobile office or mobile home may be used as an office if it is connected to utilities and is set up in accordance with state law. A state-wide trade association representing manufactured housing dealers shall be permitted to use a manufactured home as an office if the office complies with all other applicable building code, zoning, and other land-use regulatory ordinances. This subsection does not apply to auction companies that do not own vehicle inventory or sell vehicles from an auction yard.

(2) An auction company shall have office facilities within the state. The books, records, and files necessary to conduct the business shall be maintained at the office facilities. All storage facilities for inventory shall be listed with the department, and shall meet local zoning and land use ordinances. An auction company shall maintain a telecommunications system.

(3) Auction companies shall post their vehicle dealer license at each auction where vehicles are offered, and shall provide the department with the address of the auction at least three days before the auction.

(4) If a dealer maintains a place of business at more than one location or under more than one name in this state, he or she shall designate one location as the principal place of business of the firm, one name as the principal name of the firm, and all other locations or names as subagencies. A subagency license is required for each and every subagency: PROVIDED, That the department may grant an exception to the subagency requirement in the specific instance where a licensed dealer is unable to locate their used vehicle sales facilities adjacent to or at the established place of business. This exception shall be granted and defined under the promulgation of rules consistent with the Administrative Procedure Act.

(5) All vehicle dealers shall maintain ownership or leasehold throughout the license year of the real property from which they do business. The dealer shall provide the department with evidence of ownership or leasehold whenever the ownership changes or the lease is terminated.

(6) A subagency shall comply with all requirements of an established place of business, except that subagency records may be kept at the principal place of business designated by the dealer. Auction companies shall comply with the requirements in subsection (2) of this section.

(7) A temporary subagency shall meet all local zoning and building codes for the type of merchandising being conducted. The dealer license certificate shall be posted at the location. No other requirements of an established place of business apply to a temporary subagency. Auction companies are not required to obtain a temporary subagency license.

(8) A wholesale vehicle dealer shall have office facilities in a commercial building within this state, and all storage facilities for inventory shall be listed with the department, and shall meet local zoning and land use ordinances. A wholesale vehicle dealer shall maintain a

telecommunications system. An exterior sign visible from the nearest street shall identify the business name and the nature of business. When two or more vehicle dealer businesses share a location, all records, office facilities, and inventory, if any, must be physically segregated and clearly identified.

(9) A retail vehicle dealer shall be open during normal business hours, maintain office and display facilities in a commercially zoned location or in a location complying with all applicable building and land use ordinances, and maintain a business telephone listing in the local directory. When two or more vehicle dealer businesses share a location, all records, office facilities, and inventory shall be physically segregated and clearly identified.

(10) A subagency license is not required for a mobile home dealer to display an on-site display model, a consigned mobile home not relocated from its site, or a repossessed mobile home if sales are handled from a principal place of business or subagency. A mobile home dealer shall identify on-site display models, repossessed mobile homes, and those consigned at their sites with a sign that includes the dealer's name and telephone number.

(11) Every vehicle dealer shall advise the department of the location of each and every place of business of the firm and the name or names under which the firm is doing business at such location or locations. If any name or location is changed, the dealer shall notify the department of such change within ten days. The license issued by the department shall reflect the name and location of the firm and shall be posted in a conspicuous place at that location by the dealer.

(12) A vehicle dealer's license shall upon the death or incapacity of an individual vehicle dealer authorize the personal representative of such dealer, subject to payment of license fees, to continue the business for a period of six months from the date of the death or incapacity.

[1997 c 432 § 1; 1996 c 282 § 1; 1995 c 7 § 1; 1993 c 307 § 5; 1991 c 339 § 28; 1989 c 301 § 2; 1986 c 241 § 4.]

RCW 46.70.025 Established place of business--Waiver of requirements.

The director may by rule waive any requirements pertaining to a vehicle dealer's established place of business if such waiver both serves the purposes of this chapter and is necessary due to unique circumstances such as a location divided by a public street or a highly specialized type of business.

[1986 c 199 § 1.]

RCW 46.70.027 Accountability of dealer for employees--Actions for damages on violation of chapter.

A vehicle dealer is accountable for the dealer's employees, sales personnel, and managerial personnel while in the performance of their official duties. Any violations of this chapter or applicable provisions of chapter 46.12 or 46.16 RCW committed by any of these employees subjects the dealer to license penalties prescribed under RCW 46.70.101. A retail purchaser, consignor who is not a motor vehicle dealer, or a motor vehicle dealer who has purchased from a wholesale dealer, who has suffered a loss or damage by reason of any act by a

dealer, salesperson, managerial person, or other employee of a dealership, that constitutes a violation of this chapter or applicable provisions of chapter 46.12 or 46.16 RCW may institute an action for recovery against the dealer and the surety bond as set forth in RCW 46.70.070. However, under this section, motor vehicle dealers who have purchased from wholesale dealers may only institute actions against wholesale dealers and their surety bonds.

[1989 c 337 § 12; 1986 c 241 § 5.]

RCW 46.70.028 Consignment.

Dealers who transact dealer business by consignment shall obtain a consignment contract for sale and shall comply with applicable provisions of chapter 46.70 RCW. The dealer shall place all funds received from the sale of the consigned vehicle in a trust account until the sale is completed, except that the dealer shall pay any outstanding liens against the vehicle from these funds. Where title has been delivered to the purchaser, the dealer shall pay the amount due a consignor within ten days after the sale. However, in the case of a consignment from a licensed vehicle dealer from any state, the wholesale auto auction shall pay the consignor within twenty days.

RCW 46.70.029 Listing dealers, transaction of business.

Listing dealers shall transact dealer business by obtaining a listing agreement for sale, and the buyer's purchase of the mobile home shall be handled as dealer inventory. All funds from the purchaser shall be placed in a trust account until the sale is completed, except that the dealer shall pay any outstanding liens against the mobile home from these funds. Where title has been delivered to the purchaser, the listing dealer shall pay the amount due a seller within ten days after the sale of a listed mobile home. A complete account of all funds received and disbursed shall be given to the seller or consignor after the sale is completed. The sale of listed mobile homes imposes the same duty under RCW 46.70.122 on the listing dealer as any other sale.

Requirements of "established place of business": RCW 46.70.023.

RCW 46.70.042 Application for license--Retention by department--Confidentiality.

Every application for license shall be retained by the department for a period of three years and shall be confidential information for the use of the department, the attorney general or the prosecuting attorney only: PROVIDED, That upon a showing of good cause therefor any court in which an action is pending by or against the applicant or licensee, may order the director to produce and permit the inspection and copying or photographing the application and any accompanying statements.

[1967 ex.s. c 74 § 14.]

RCW 46.70.045 Denial of license.

The director may deny a license under this chapter when the application is a subterfuge that conceals the real person in interest whose license has been denied, suspended, or revoked for cause under this chapter and the terms have not been fulfilled or a civil penalty has not been paid, or the director finds that the application was not filed in good faith. This section does not preclude the department from taking an action against a current licensee.

[1997 c 432 § 2.]

RCW 46.70.051 Issuance of license--Private party dissemination of vehicle data base.

(1) After the application has been filed, the fee paid, and bond posted, if required, the department shall, if no denial order is in effect and no proceeding is pending under RCW 46.70.101, issue the appropriate license, which license, in the case of a vehicle dealer, shall designate the classification of the dealer. Nothing prohibits a vehicle dealer from obtaining licenses for more than one classification, and nothing prevents any vehicle dealer from dealing in other classes of vehicles on an isolated basis.

(2) An auction company licensed under chapter 18.11 RCW may sell at auction all classifications of vehicles under a motor vehicle dealer's license issued under this chapter including motor vehicles, miscellaneous type vehicles, and mobile homes and travel trailers.

(3) At the time the department issues a vehicle dealer license, the department shall provide to the dealer a current, up-to-date vehicle dealer manual that may be provided electronically setting forth the various statutes and rules applicable to vehicle dealers. In addition, at the time any such license is renewed under RCW 46.70.083, the department shall provide the dealer with any updates or current revisions to the vehicle dealer manual. These updates or current revisions may be provided electronically.

(4) The department may contract with responsible private parties to provide them elements of the vehicle data base on a regular basis. The private parties may only disseminate this information to licensed vehicle dealers.

(a) Subject to the disclosure agreement provisions of RCW 46.12.380 and the requirements of Executive Order 97-01, the department may provide to the contracted private parties the following information:

(i) All vehicle and title data necessary to accurately disclose known title defects, brands, or flags and odometer discrepancies;

(ii) All registered and legal owner information necessary to determine true ownership of the vehicle and the existence of any recorded liens, including but not limited to liens of the department of social and health services or its successor; and

(iii) Any data in the department's possession necessary to calculate the motor vehicle excise tax, license, and registration fees including information necessary to determine the applicability of regional transit authority excise and use tax surcharges.

(b) The department may provide this information in any form the contracted private party and the department agree upon, but if the data is to be transmitted over the Internet or similar public network from the department to the contracted private party, it must be encrypted.

(c) The department shall give these contracted private parties advance written notice of any change in the information referred to in (a)(i), (ii), or (iii) of this subsection, including information pertaining to the calculation of motor vehicle excise taxes.

(d) The department shall revoke a contract made under this subsection (4) with a private party who disseminates information from the vehicle data base to anyone other than a licensed vehicle dealer. A private party who obtains information from the vehicle data base under a contract with the department and disseminates any of that information to anyone other than a

licensed vehicle dealer is guilty of a gross misdemeanor punishable under chapter 9A.20 RCW.

(e) Nothing in this subsection (4) authorizes a vehicle dealer or any other organization or entity not otherwise appointed as a vehicle licensing subagent under RCW 46.01.140 to perform any of the functions of a vehicle licensing subagent so appointed.

[2001 c 272 § 4; 1997 c 432 § 4; 1996 c 282 § 2; 1993 c 307 § 7; 1989 c 301 § 3; 1973 1st ex.s. c 132 § 6; 1971 ex.s. c 74 § 2; 1967 ex.s. c 74 § 7.]

If any licensee fails or neglects to apply for such renewal within thirty days after the expiration of the license, or assigned renewal date under a staggered licensing system, the license shall be declared canceled by the director, in which case the licensee will be required to apply for an original license and pay the fee required for the original license.

(3) The fee for the transfer to another location of any license classification issued pursuant to this chapter shall be twenty-five dollars.

(4) The fee for vehicle dealer license plates and manufacturer license plates shall be the amount required by law for vehicle license plates exclusive of excise tax, except those specified in *RCW 82.44.030, and gross weight and tonnage fees.

Any retail purchaser, consignor who is not a motor vehicle dealer, or a motor vehicle dealer who has purchased from, sold to, or otherwise transacted business with a wholesale dealer, who has suffered any loss or damage by reason of any act by a dealer which constitutes a violation of this chapter shall have the right to institute an action for recovery against such dealer and the surety upon such bond. However, under this section, motor vehicle dealers who have purchased from, sold to, or otherwise transacted business with wholesale dealers may only institute actions against wholesale dealers and their surety bonds. Successive recoveries against said bond shall be permitted, but the aggregate liability of the surety to all persons shall in no event exceed the amount of the bond. Upon exhaustion of the penalty of said bond or cancellation of the bond by the surety the vehicle dealer license shall automatically be deemed canceled.

Mobile home manufacturers and mobile home dealers who sell mobile homes to be assembled on site and used as residences in this state shall conform to the following requirements:

(1) No new manufactured home may be sold unless the purchaser is provided with a manufacturer's written warranty for construction of the home in compliance with the Magnuson-Moss Warranty Act (88 Stat. 2183; 15 U.S.C. Sec. 47 et seq.; 15 U.S.C. Sec. 2301 et seq.).

and (c) the systems test of the home has been completed subsequent to the installation of the home, or fifteen days has elapsed since the transport of the home to the site where it will be installed, whichever is earlier. RCW 46.70.180 Unlawful acts and practices.

Each of the following acts or practices is unlawful:

(1) To cause or permit to be advertised, printed, displayed, published, distributed, broadcasted, televised, or disseminated in any manner whatsoever, any statement or representation with regard to the sale, lease, or financing of a vehicle which is false, deceptive, or misleading, including but not limited to the following:

(a) That no down payment is required in connection with the sale of a vehicle when a down payment is in fact required, or that a vehicle may be purchased for a smaller down payment than is actually required;

(b) That a certain percentage of the sale price of a vehicle may be financed when such financing is not offered in a single document evidencing the entire security transaction;

(c) That a certain percentage is the amount of the service charge to be charged for financing, without stating whether this percentage charge is a monthly amount or an amount to be charged per year;

(d) That a new vehicle will be sold for a certain amount above or below cost without computing cost as the exact amount of the factory invoice on the specific vehicle to be sold;

(e) That a vehicle will be sold upon a monthly payment of a certain amount, without including in the statement the number of payments of that same amount which are required to liquidate the unpaid purchase price.

(2) To incorporate within the terms of any purchase and sale or lease agreement any statement or representation with regard to the sale, lease, or financing of a vehicle which is false, deceptive, or misleading, including but not limited to terms that include as an added cost to the selling price or capitalized cost of a vehicle an amount for licensing or transfer of title of that

vehicle which is not actually due to the state, unless such amount has in fact been paid by the dealer prior to such sale.

(3) To set up, promote, or aid in the promotion of a plan by which vehicles are to be sold or leased to a person for a consideration and upon further consideration that the purchaser or lessee agrees to secure one or more persons to participate in the plan by respectively making a similar purchase and in turn agreeing to secure one or more persons likewise to join in said plan, each purchaser or lessee being given the right to secure money, credits, goods, or something of value, depending upon the number of persons joining the plan.

(4) To commit, allow, or ratify any act of "bushing" which is defined as follows: Taking from a prospective buyer or lessee of a vehicle a written order or offer to purchase or lease, or a contract document signed by the buyer or lessee, which:

(a) Is subject to the dealer's, or his or her authorized representative's future acceptance, and the dealer fails or refuses within three calendar days, exclusive of Saturday, Sunday, or legal holiday, and prior to any further negotiations with said buyer or lessee, either (i) to deliver to the buyer or lessee the dealer's signed acceptance, or (ii) to void the order, offer, or contract document and tender the return of any initial payment or security made or given by the buyer or lessee, including but not limited to money, check, promissory note, vehicle keys, a trade-in, or certificate of title to a trade-in; or

(b) Permits the dealer to renegotiate a dollar amount specified as trade-in allowance on a vehicle delivered or to be delivered by the buyer or lessee as part of the purchase price or lease, for any reason except:

(i) Failure to disclose that the vehicle's certificate of ownership has been branded for any reason, including, but not limited to, status as a rebuilt vehicle as provided in RCW 46.12.050 and 46.12.075; or

(ii) Substantial physical damage or latent mechanical defect occurring before the dealer took possession of the vehicle and which could not have been reasonably discoverable at the time of the taking of the order, offer, or contract; or

(iii) Excessive additional miles or a discrepancy in the mileage. "Excessive additional miles" means the addition of five hundred miles or more, as reflected on the vehicle's odometer, between the time the vehicle was first valued by the dealer for purposes of determining its trade-in value and the time of actual delivery of the vehicle to the dealer. "A discrepancy in the mileage" means (A) a discrepancy between the mileage reflected on the vehicle's odometer and the stated mileage on the signed odometer statement; or (B) a discrepancy between the mileage stated on the signed odometer statement and the actual mileage on the vehicle; or

(c) Fails to comply with the obligation of any written warranty or guarantee given by the dealer requiring the furnishing of services or repairs within a reasonable time.

(5) To commit any offense relating to odometers, as such offenses are defined in RCW 46.37.540, 46.37.550, 46.37.560, and 46.37.570. A violation of this subsection is a class C felony punishable under chapter 9A.20 RCW.

(6) For any vehicle dealer or vehicle salesperson to refuse to furnish, upon request of a prospective purchaser or lessee, for vehicles previously registered to a business or governmental entity, the name and address of the business or governmental entity.

(7) To commit any other offense under RCW 46.37.423, 46.37.424, or 46.37.425.

(8) To commit any offense relating to a dealer's temporary license permit, including but not limited to failure to properly complete each such permit, or the issuance of more than one such permit on any one vehicle. However, a dealer may issue a second temporary permit on a vehicle if the following conditions are met:

(a) The lienholder fails to deliver the vehicle title to the dealer within the required time period;

(b) The dealer has satisfied the lien; and

(c) The dealer has proof that payment of the lien was made within two calendar days, exclusive of Saturday, Sunday, or a legal holiday, after the sales contract has been executed by all parties and all conditions and contingencies in the sales contract have been met or otherwise satisfied.

(9) For a dealer, salesperson, or mobile home manufacturer, having taken an instrument or cash "on deposit" from a purchaser or lessee prior to the delivery of the bargained-for vehicle, to commingle the "on deposit" funds with assets of the dealer, salesperson, or mobile home manufacturer instead of holding the "on deposit" funds as trustee in a separate trust account until the purchaser or lessee has taken delivery of the bargained-for vehicle. Delivery of a manufactured home shall be deemed to occur in accordance with RCW 46.70.135(5). Failure, immediately upon receipt, to endorse "on deposit" instruments to such a trust account, or to set aside "on deposit" cash for deposit in such trust account, and failure to deposit such instruments or cash in such trust account by the close of banking hours on the day following receipt thereof, shall be evidence of intent to commit this unlawful practice: PROVIDED, HOWEVER, That a motor vehicle dealer may keep a separate trust account which equals his or her customary total customer deposits for vehicles for future delivery. For purposes of this section, "on deposit" funds received from a purchaser of a manufactured home means those funds that a seller requires a purchaser to advance before ordering the manufactured home, but does not include any loan proceeds or moneys that might have been paid on an installment contract.

(10) For a dealer or manufacturer to fail to comply with the obligations of any written warranty or guarantee given by the dealer or manufacturer requiring the furnishing of goods and services or repairs within a reasonable period of time, or to fail to furnish to a purchaser or lessee, all parts which attach to the manufactured unit including but not limited to the undercarriage, and all items specified in the terms of a sales or lease agreement signed by the seller and buyer or lessee.

(11) For a vehicle dealer to pay to or receive from any person, firm, partnership, association, or corporation acting, either directly or through a subsidiary, as a buyer's agent for consumers, any compensation, fee, purchase moneys or funds that have been deposited into or withdrawn out of any account controlled or used by any buyer's agent, gratuity, or reward in connection with the purchase, sale, or lease of a new motor vehicle.

(12) For a buyer's agent, acting directly or through a subsidiary, to pay to or to receive from any motor vehicle dealer any compensation, fee, gratuity, or reward in connection with the purchase, sale, or lease of a new motor vehicle. In addition, it is unlawful for any buyer's agent to engage in any of the following acts on behalf of or in the name of the consumer:

(a) Receiving or paying any purchase moneys or funds into or out of any account controlled or used by any buyer's agent;

(b) Signing any vehicle purchase orders, sales contracts, leases, odometer statements, or title documents, or having the name of the buyer's agent appear on the vehicle purchase order, sales contract, lease, or title; or

(c) Signing any other documentation relating to the purchase, sale, lease, or transfer of any new motor vehicle.

It is unlawful for a buyer's agent to use a power of attorney obtained from the consumer to accomplish or effect the purchase, sale, lease, or transfer of ownership documents of any new motor vehicle by any means which would otherwise be prohibited under (a) through (c) of this subsection. However, the buyer's agent may use a power of attorney for physical delivery of motor vehicle license plates to the consumer.

Further, it is unlawful for a buyer's agent to engage in any false, deceptive, or misleading advertising, disseminated in any manner whatsoever, including but not limited to making any claim or statement that the buyer's agent offers, obtains, or guarantees the lowest price on any motor vehicle or words to similar effect.

(13) For a buyer's agent to arrange for or to negotiate the purchase, or both, of a new motor vehicle through an out-of-state dealer without disclosing in writing to the customer that the new vehicle would not be subject to chapter 19.118 RCW. This subsection also applies to leased vehicles. In addition, it is unlawful for any buyer's agent to fail to have a written agreement with the customer that: (a) Sets forth the terms of the parties' agreement; (b) discloses to the customer the total amount of any fees or other compensation being paid by the customer to the buyer's agent for the agent's services; and (c) further discloses whether the fee or any portion of the fee is refundable.

(14) Being a manufacturer, other than a motorcycle manufacturer governed by chapter 46.94 RCW, to:

(a) Coerce or attempt to coerce any vehicle dealer to order or accept delivery of any vehicle or vehicles, parts or accessories, or any other commodities which have not been voluntarily ordered by the vehicle dealer: PROVIDED, That recommendation, endorsement, exposition, persuasion, urging, or argument are not deemed to constitute coercion;

(b) Cancel or fail to renew the franchise or selling agreement of any vehicle dealer doing business in this state without fairly compensating the dealer at a fair going business value for his or her capital investment which shall include but not be limited to tools, equipment, and parts inventory possessed by the dealer on the day he or she is notified of such cancellation or termination and which are still within the dealer's possession on the day the cancellation or termination is effective, if: (i) The capital investment has been entered into with reasonable and prudent business judgment for the purpose of fulfilling the franchise; and (ii) the cancellation or nonrenewal was not done in good faith. Good faith is defined as the duty of each party to any franchise to act in a fair and equitable manner towards each other, so as to guarantee one party freedom from coercion, intimidation, or threats of coercion or intimidation from the other party: PROVIDED, That recommendation, endorsement, exposition, persuasion, urging, or argument are not deemed to constitute a lack of good faith;

(c) Encourage, aid, abet, or teach a vehicle dealer to sell or lease vehicles through any false, deceptive, or misleading sales or financing practices including but not limited to those practices declared unlawful in this section;

(d) Coerce or attempt to coerce a vehicle dealer to engage in any practice forbidden in this section by either threats of actual cancellation or failure to renew the dealer's franchise agreement;

(e) Refuse to deliver any vehicle publicly advertised for immediate delivery to any duly licensed vehicle dealer having a franchise or contractual agreement for the retail sale or lease of new and unused vehicles sold or distributed by such manufacturer within sixty days after such dealer's order has been received in writing unless caused by inability to deliver because of shortage or curtailment of material, labor, transportation, or utility services, or by any labor or production difficulty, or by any cause beyond the reasonable control of the manufacturer;

(f) To provide under the terms of any warranty that a purchaser or lessee of any new or unused vehicle that has been sold or leased, distributed for sale or lease, or transferred into this state for resale or lease by the vehicle manufacturer may only make any warranty claim on any item included as an integral part of the vehicle against the manufacturer of that item.

Nothing in this section may be construed to impair the obligations of a contract or to prevent a manufacturer, distributor, representative, or any other person, whether or not licensed under this chapter, from requiring performance of a written contract entered into with any licensee hereunder, nor does the requirement of such performance constitute a violation of any of the provisions of this section if any such contract or the terms thereof requiring performance, have been freely entered into and executed between the contracting parties. This paragraph and subsection (14)(b) of this section do not apply to new motor vehicle manufacturers governed by chapter 46.96 RCW.

(15) Unlawful transfer of an ownership interest in a motor vehicle as defined in RCW 19.116.050.

(16) To knowingly and intentionally engage in collusion with a registered owner of a vehicle to repossess and return or resell the vehicle to the registered owner in an attempt to avoid a suspended license impound under chapter 46.55 RCW. However, compliance with chapter 62A.9A RCW in repossessing, selling, leasing, or otherwise disposing of the vehicle, including providing redemption rights to the debtor, is not a violation of this section.

The automotive repair industry supports good communication between auto repair facilities and their customers. The legislature recognizes that improved communications and accurate representations between automotive repair facilities and the customers will: Increase consumer confidence; reduce the likelihood of disputes arising; clarify repair facility lien interests; and promote fair and nondeceptive practices, thereby enhancing the safety and reliability of motor vehicles serviced by auto repair facilities in the state of Washington.

(2) Whether or not a written estimate is required, parts and labor provided by an automotive repair facility shall be clearly and accurately recorded in writing on an invoice and shall include, in addition to the information listed in subsection (1) of this section, the following information: A description of the repair or maintenance services performed on the vehicle; a list of all parts supplied, identified by name and part number, if available, part kit description or recognized package or shop supplies, if any, and an indication whether the parts supplied are rebuilt, or used, if applicable or where collision repair is involved, aftermarket body parts or nonoriginal equipment manufacturer body parts, if applicable; the price per part charged, if any, and the total amount charged for all parts; the total amount charged for all labor, if any; and the total charge. (3) Notwithstanding subsection (2) of this section, if the repair work is performed under warranty or without charge to the customer, other than an applicable deductible, the repair facility shall provide either an itemized list of the parts supplied, or describe the service performed on the vehicle, but the repair facility is not required to provide any pricing information for parts or labor.

If a customer at the time of authorization of the repair requests the return of a part that must be returned to the manufacturer, remanufacturer,

Face-to-face contact means actual in-person discussion between the customer or his or her designee and the agent or employee of the automotive repair facility authorized to intake vehicles or components. RCW 46.72.001 Finding and intent.

The legislature finds and declares that privately operated for hire transportation service is a vital part of the transportation system within the state. Consequently, the safety, reliability, and stability of privately operated for hire transportation services are matters of state-wide importance. The regulation of privately operated for hire transportation services is thus an essential governmental function. Therefore, it is the intent of the legislature to permit political subdivisions of the state to regulate for hire transportation services without liability under federal antitrust laws.

RCW 46.72A.010 Finding and intent.

The legislature finds and declares that privately operated limousine transportation service

is a vital part of the transportation system within the state and provides prearranged transportation services to state residents, tourists, and out-of-state business people. Consequently, the safety, reliability, and stability of privately operated limousine transportation services are matters of state-wide importance. The regulation of privately operated limousine transportation services is thus an essential governmental function. Therefore, it is the intent of the legislature to permit the department and a port district in a county with a population of one million or more to regulate limousine transportation services without liability under federal antitrust laws.

[1996 c 87 § 4.]

Notes:

Transfer of powers, duties, and functions--1996 c 87: "(1) All powers, duties, and functions of the utilities and transportation commission pertaining to the regulation of limousines and limousine charter party carriers are transferred to the department of licensing. All references to the utilities and transportation commission in the Revised Code of Washington shall be construed to mean the director or the department of licensing when referring to the functions transferred in this section.

(2)(a) All reports, documents, surveys, books, records, files, papers, or written material in the possession of the utilities and transportation commission pertaining to the powers, functions, and duties transferred shall be delivered to the custody of the department of licensing. All cabinets, furniture, office equipment, motor vehicles, and other tangible property employed by the utilities and transportation commission in carrying out the powers, functions, and duties transferred shall be made available to the department of licensing. All funds, credits, or other assets held in connection with the powers, functions, and duties transferred shall be assigned to the department of licensing.

(b) Any appropriations made to the utilities and transportation commission for carrying out the powers, functions, and duties transferred shall, on June 6, 1996, be transferred and credited to the department of licensing.

(c) Whenever any question arises as to the transfer of any personnel, funds, books, documents, records, papers, files, equipment, or other tangible property used or held in the exercise of the powers and the performance of the duties and functions transferred, the director of financial management shall make a determination as to the proper allocation and certify the same to the state agencies concerned.

(3) All rules and all pending business before the utilities and transportation commission pertaining to the powers, functions, and duties transferred shall be continued and acted upon by the department of licensing. All existing contracts and obligations shall remain in full force and shall be performed by the department of licensing.

(4) The transfer of the powers, duties, and functions of the utilities and transportation commission shall not affect the validity of any act performed before June 6, 1996.

(5) If apportionments of budgeted funds are required because of the transfers directed by this section, the director of financial management shall certify the apportionments to the agencies affected, the state auditor, and the state treasurer. Each of these shall make the appropriate transfer and adjustments in funds and appropriation accounts and equipment records in accordance with the certification." [1996 c 87 § 22.]

RCW 46.72A.020 Office required--Exception.

All limousine carriers must operate from a main office and may have satellite offices. However, no office may be solely in a vehicle of any type. All arrangements for the carrier's services must be made through its offices and dispatched to the carrier's vehicles. Under no circumstances may customers or customers' agents make arrangements for immediate rental of a carrier's vehicle with the driver of the vehicle, even if the driver is an owner or officer of the company, with the single exception of stand-hail limousines only at a facility owned and

operated by a port district in a county with a population of one million or more that are licensed and restricted by the rules and policies set forth by the port district.

[1996 c 87 § 5.]

RCW 46.72A.030 Regulation--Inspection.

(1) The department, in conjunction with the Washington state patrol, shall regulate limousine carriers with respect to entry, safety of equipment, chauffeur qualifications, and operations. The department shall adopt rules and require such reports as are necessary to carry out this chapter.

(2) In addition, a port district in a county with a population of one million or more may regulate limousine carriers with respect to entry, safety of equipment, chauffeur qualifications, and operations. The county in which the port district is located may adopt ordinances and rules to assist the port district in enforcement of limousine regulations only at port facilities. In no event may this be construed to grant the county the authority to regulate limousines within its jurisdiction. The port district may not set limousine rates, but the limousine carriers shall file their rates and schedules with the port district.

(3) The department, a port district in a county with a population of at least one million, or a county in which the port district is located may enter into cooperative agreements for the joint regulation of limousines.

(4) The Washington state patrol shall annually conduct a vehicle inspection of each limousine licensed under this chapter, except when a port district regulates limousine carriers under subsection (2) of this section, that port district or county in which the port [district] is located shall conduct the annual vehicle inspection. The patrol, the port district, or the county may impose an annual vehicle inspection fee.

[1996 c 87 § 6.]

RCW 46.72A.040 State preemption.

Except when a port district regulates limousine carriers under RCW 46.72A.030, the state of Washington fully occupies and preempts the entire field of regulation over limousine carriers as regulated by this chapter. Cities, towns, and counties or other municipalities may enact only those laws and ordinances relating to limousine carriers that are consistent with this chapter.

[1996 c 87 § 7.]

RCW 46.72A.050 Business license, vehicle certificates required.

No limousine carrier may operate a limousine upon the highways of this state without first obtaining a business license from the department. The applicant shall forward an application for a business license to the department along with a fee established by rule. Upon approval of the application, the department shall issue a business license and unified business identifier

authorizing the carrier to operate limousines upon the highways of this state.

In addition, a limousine carrier shall annually obtain, upon payment of the appropriate fee, a vehicle certificate for each limousine operated by the carrier.

[1996 c 87 § 8.]

RCW 46.72A.060 Insurance--Amount--Penalty.

The department shall require limousine carriers to obtain and continue in effect, liability and property damage insurance from a company licensed to sell liability insurance in this state for each limousine used to transport persons for compensation.

The department shall fix the amount of the insurance policy or policies, giving consideration to the character and amount of traffic, the number of persons affected, and the degree of danger that the proposed operation involves. The limousine carrier must maintain the liability and property damage insurance in force on each motor-propelled vehicle while so used.

Failure to file and maintain in effect this insurance is a gross misdemeanor.

[1996 c 87 § 9.]

RCW 46.72A.070 Vehicle certificates--Issuance of new or duplicate certificate--Penalty.

If the limousine carrier substitutes a liability and property damage insurance policy after a vehicle certificate has been issued, a new vehicle certificate is required. The limousine carrier shall submit the substituted policy to the department for approval, together with a fee. If the department approves the substituted policy, the department shall issue a new vehicle certificate.

If a vehicle certificate has been lost, destroyed, or stolen, a duplicate vehicle certificate may be obtained by filing an affidavit of loss and paying a fee. A limousine carrier who operates a vehicle without first having received a vehicle certificate as required by this chapter is guilty of a misdemeanor on the first offense and a gross misdemeanor on a second or subsequent offense.

[1996 c 87 § 10.]

RCW 46.72A.080 Advertising--Penalty.

(1) No limousine carrier may advertise without listing the carrier's unified business identifier issued by the department in the advertisement and specifying the type of service offered as provided in RCW 46.04.274. No limousine carrier may advertise or hold itself out to the public as providing taxicab transportation services.

(2) All advertising, contracts, correspondence, cards, signs, posters, papers, and documents that show a limousine carrier's name or address shall list the carrier's unified business identifier and the type of service offered. The alphabetized listing of limousine carriers appearing in the advertising sections of telephone books or other directories and all advertising that shows the carrier's name or address must show the carrier's current unified business identifier.

(3) Advertising in the alphabetical listing in a telephone directory need not contain the

carrier's certified business identifier.

(4) Advertising by electronic transmission need not contain the carrier's unified business identifier if the carrier provides it to the person selling the advertisement and it is recorded in the advertising contract.

(5) It is a gross misdemeanor for a person to (a) falsify a unified business identifier or use a false or inaccurate unified business identifier; (b) fail to specify the type of service offered; or (c) advertise or otherwise hold itself out to the public as providing taxicab transportation services in connection with a solicitation or identification as an authorized limousine carrier.

[1997 c 193 § 1; 1996 c 87 § 11.]

RCW 46.72A.090 Chauffeurs--Criteria for.

The limousine carrier shall certify to the appropriate regulating authority that each chauffeur hired to operate a limousine meets the following criteria: (1) Is at least twenty-one years of age; (2) holds a valid Washington state driver's license; (3) has successfully completed a training course approved by the department; (4) has successfully passed a written examination; (5) has successfully completed a background check performed by the Washington state patrol; and (6) has submitted a medical certificate certifying the individual's fitness as a chauffeur. Upon initial application and every three years thereafter, a chauffeur must file a physician's certification with the limousine carrier validating the individual's fitness to drive a limousine. The department shall determine the scope of the examination. The director may require a chauffeur to be reexamined at any time.

The limousine carrier shall keep on file and make available for inspection all documents required by this section.

[1996 c 87 § 12.]

RCW 46.72A.100 Actions against license--Chauffeur.

The department may suspend, revoke, or refuse to issue a license if it has good reason to believe that one of the following is true of a chauffeur hired to drive a limousine: (1) The person has been convicted of an offense of such a nature as to indicate that he or she is unfit to qualify as a chauffeur; (2) the person is guilty of committing two or more offenses for which mandatory revocation of a driver's license is provided by law; (3) the person has been convicted of vehicular homicide or vehicular assault; (4) the person is intemperate or addicted to narcotics.

[1996 c 87 § 13.]

RCW 46.72A.110 Deposit of fees.

The department shall transmit all fees received under this chapter, together with a proper identifying report, to the state treasurer to be deposited by the state treasurer in the master license fund.

[1996 c 87 § 14.]

RCW 46.72A.120 Rules and fees.

The department may adopt and enforce such rules, including the setting of fees, as may be consistent with and necessary to carry out this chapter. The fees must approximate the cost of administration.

[1996 c 87 § 15.]

RCW 46.72A.130 Continued operation of existing limousines.

A vehicle operated as a limousine under *chapter 81.90 RCW before April 1, 1996, may continue to operate as a limousine even though it may not meet the definition of limousine in RCW 46.04.274 as long as the owner is the same as the registered owner on April 1, 1996, and the vehicle and limousine carrier otherwise comply with this chapter.

(1) No place of business shall be established nor any business of a driver training school conducted or solicited within one thousand feet of an office or building owned or leased by the department of licensing in which examinations for drivers' licenses are conducted. The distance of one thousand feet shall be measured along the public streets by the nearest route from the place of business to such building.

(2) Any automobile used by a driver training school or an instructor for instruction purposes must be equipped with:

(a) Dual controls for foot brake and clutch, or foot brake only in a vehicle equipped with an automatic transmission;

(b) An instructor's rear view mirror; and

(c) A sign displayed on the back or top, or both, of the vehicle not less than twenty inches in horizontal width or less than ten inches in vertical height and having the words "student driver" or "instruction car," or both, in legible, printed, English letters at least two and one-half inches in height near the top and the name of the school in similarly legible letters not less than one inch in height placed somewhere below the aforementioned words, and the street number and name and the telephone number in similarly legible letters at least one inch in height placed next below the name of the school. The lettering and background colors shall be of contrasting shades so as to be clearly readable at one hundred feet in clear daylight. The sign shall be displayed at all times when instruction is being given.

To classify as a branch office or classroom the facility must be within a thirty-five mile radius of the established place of business. Nothing in this subsection may be construed as limiting the authority of local governments to grant conditional use permits or variances from zoning ordinances.

(7) No driver training school or instructor shall conduct any type of instruction or training on a course used by the department of licensing for testing applicants for a Washington driver's license.

(8) Each driver training school shall maintain records on all of its students, including the student's name and address, the starting and ending dates of instruction, the student's instruction permit or driver's license number, the type of training given, and the total number of hours of instruction. Filing an appeal shall stay the action pending the hearing and the director's decision. Upon conclusion of the hearing, the advisory committee shall notify the director of its findings of fact and recommended action. Within ten days of receipt of the advisory committee's findings and recommendation, the director shall issue a decision on the appeal.

(1) A license may, however, be temporarily suspended by the director without notice pending any prosecution, investigation, or hearing where such emergency action is warranted. A licensee or applicant entitled to a hearing shall be given due notice thereof.

(2) The sending of a notice of a hearing by registered mail to the last known address of a licensee or applicant in accordance with chapter 34.05 RCW shall be deemed due notice.

(3) The director or the director's authorized representative shall preside over the advisory committee during the hearing and shall have the power to subpoena witnesses, administer oaths to witnesses, take testimony of any person, and cause depositions to be taken. of this state.

[1987 c 244 § 8; 1963 c 106 § 1.]

RCW 46.85.020 Definitions.

The definitions set forth in this section apply throughout this chapter unless the context clearly requires otherwise.

(2) "Owner" means a person, business firm, or corporation who holds the legal title to a vehicle, or in the event a vehicle is the subject of an agreement for the conditional sale thereof with the right of purchase upon performance of the conditions stated in the agreement and with an immediate right of possession vested in the conditional vendee, or in the event a vehicle is subject to a lease, contract, or other legal arrangement vesting right of possession or control, for security or otherwise, or in the event a mortgagor of a vehicle is entitled to possession, then the owner shall be deemed to be such person in whom is vested right of possession or control.

(3) "Properly registered," as applied to place of registration, means:

(a) The jurisdiction where the person registering the vehicle has his legal residence; or

(b) In the case of a commercial vehicle, the jurisdiction in which it is registered if the commercial enterprise in which such vehicle is used has a place of business therein, and, if the vehicle is most frequently dispatched, garaged, serviced, maintained, operated, or otherwise controlled in or from such place of business, and, the vehicle has been assigned to such place of business; or

(c) In the case of a commercial vehicle, the jurisdiction where, because of an agreement or arrangement between two or more jurisdictions, or pursuant to a declaration, the vehicle has been registered as required by said jurisdiction.

In case of doubt or dispute as to the proper place of registration of a vehicle, the department shall make the final determination, but in making such determination, may confer with departments of the other jurisdictions affected.

The department of licensing shall have the authority to execute agreements, arrangements, or declarations to carry out the provisions of chapter 46.87 RCW and this chapter.

If the department enters into a multistate proportional registration agreement which requires this state to perform acts in a quasi agency relationship, the department may collect and

forward applicable registration fees and applications to other jurisdictions on behalf of the applicant or on behalf of another jurisdiction and may take such other action as will facilitate the administration of such agreement.

If the department enters into a multistate proportional registration agreement which prescribes procedures applicable to vehicles not specifically described in chapter 46.87 RCW, such as but not limited to "owner-operator" or "rental" vehicles, it shall promulgate rules taking exception to or accomplishing the procedures prescribed in such agreement.

It is the purpose and intent of this subsection to facilitate the membership in the International Registration Plan and at the same time allow the department to continue to participate in such agreements and compacts as may be necessary and desirable in addition to the International Registration Plan.

The department may enter into an agreement or arrangement with the duly authorized representatives of another jurisdiction, granting to vehicles or to owners of vehicles which are properly registered or licensed in such jurisdiction and for which evidence of compliance is supplied, benefits, privileges, and exemptions from the payment, wholly or partially, of any taxes, fees, or other charges imposed upon such vehicles or owners with respect to the operation or ownership of such vehicles under the laws of this state. Such an agreement or arrangement shall provide that vehicles properly registered or licensed in this state when operated upon highways of such other jurisdiction shall receive exemptions, benefits, and privileges of a similar kind or to a similar degree as are extended to vehicles properly registered or licensed in such jurisdiction when operated in this state. Each such agreement or arrangement shall, in the judgment of the department, be in the best interest of this state and the citizens thereof and shall be fair and equitable to this state and the citizens thereof, and all of the same shall be determined on the basis and recognition of the benefits which accrue to the economy of this state from the uninterrupted flow of commerce.

RCW 46.87.010 Applicability--Implementation.

This chapter applies to proportional registration and reciprocity granted under the provisions of the International Registration Plan (IRP) and the Uniform Vehicle Registration, Proration, and Reciprocity Agreement (Western Compact). This chapter shall become effective and be implemented beginning with the 1988 registration year; however, if Washington is not then registering vehicles under the provisions of the IRP, the effective date and implementation date for the IRP shall both be delayed until such time as Washington begins registering vehicles under the provisions of the IRP.

(1) Provisions and terms of the IRP and the Western Compact, as applicable, shall prevail unless given a different meaning in chapter 46.04 RCW, this chapter, or in rules adopted under the authority of this chapter.

(2) The director may adopt and enforce rules deemed necessary to implement and administer this chapter.

(3) Beginning with the first registration year in which the state of Washington begins registering fleets under provisions of the IRP, owners having a fleet of apportionable vehicles operating in two or more IRP member jurisdictions may elect to proportionally register the vehicles of the fleet under the provisions of the IRP and this chapter in lieu of full or temporary registration as provided for in chapters 46.16 or 46.88 RCW.

(4) Owners having a fleet of commercial vehicles operating and registered in at least one Western Compact member jurisdiction other than Washington may elect to proportionally register the vehicles of the fleet under provisions of the Western Compact and this chapter in lieu of full or temporary registration as provided for in chapter 46.16 or 46.88 RCW.

(5) If a due date or an expiration date established under authority of this chapter falls on a Saturday, Sunday, or a state legal holiday, such period is automatically extended through the end of the next business day.

RCW 46.87.020 Definitions.

Terms used in this chapter have the meaning given to them in the International Registration Plan (IRP), the Uniform Vehicle Registration, Proration, and Reciprocity Agreement (Western Compact), chapter 46.04 RCW, or as otherwise defined in this section. Definitions given to terms by the IRP and the Western Compact, as applicable, shall prevail unless given a different meaning in this chapter or in rules adopted under authority of this chapter.

(1) "Apportionable vehicle" has the meaning given by the IRP, except that it does not include vehicles with a declared gross weight of twelve thousand pounds or less. Apportionable vehicles include trucks, tractors, truck tractors, road tractors, and buses, each as separate and licensable vehicles. For IRP jurisdictions that require the registration of nonmotor vehicles, this term may include trailers, semitrailers, and pole trailers as applicable, each as separate and licensable vehicles.

(2) "Cab card" is a certificate of registration issued for a vehicle by the registering jurisdiction under the Western Compact. Under the IRP, it is a certificate of registration issued by the base jurisdiction for a vehicle upon which is disclosed the jurisdictions and registered gross weights in such jurisdictions for which the vehicle is registered.

(3) "Commercial vehicle" is a term used by the Western Compact and means any vehicle, except recreational vehicles, vehicles displaying restricted plates, and government owned or leased vehicles, that is operated and registered in more than one jurisdiction and is used or maintained for the transportation of persons for hire, compensation, or profit, or is designed, used, or maintained primarily for the transportation of property and:

(a) Is a motor vehicle having a declared gross weight in excess of twenty-six thousand pounds; or

(b) Is a motor vehicle having three or more axles with a declared gross weight in excess of twelve thousand pounds; or

(c) Is a motor vehicle, trailer, pole trailer, or semitrailer used in combination when the gross weight or declared gross weight of the combination exceeds twenty-six thousand pounds combined gross weight. The nonmotor vehicles mentioned are only applicable to those jurisdictions requiring the registration of such vehicles.

Although a two-axle motor vehicle, trailer, pole trailer, semitrailer, or any combination of such vehicles with an actual or declared gross weight or declared combined gross weight exceeding twelve thousand pounds but not more than twenty-six thousand is not considered to be a commercial vehicle, at the option of the owner, such vehicles may be considered as "commercial vehicles" for the purpose of proportional registration. The nonmotor vehicles mentioned are only applicable to those jurisdictions requiring the registration of such vehicles.

Commercial vehicles include trucks, tractors, truck tractors, road tractors, and buses. Trailers, pole trailers, and semitrailers, will also be considered as commercial vehicles for those jurisdictions who require registration of such vehicles.

(4) "Credentials" means cab cards, apportioned plates (for Washington-based fleets), and validation tabs issued for proportionally registered vehicles.

(5) "Declared combined gross weight" means the total unladen weight of any combination of vehicles plus the weight of the maximum load to be carried on the combination of vehicles as set by the registrant in the application pursuant to chapter 46.44 RCW and for which registration fees have been or are to be paid.

(6) "Declared gross weight" means the total unladen weight of any vehicle plus the weight of the maximum load to be carried on the vehicle as set by the registrant in the application pursuant to chapter 46.44 RCW and for which registration fees have been or are to be paid. In the case of a bus, auto stage, or a passenger-carrying for hire vehicle with a seating capacity of more than six, the declared gross weight shall be determined by multiplying the average load factor of one hundred and fifty pounds by the number of seats in the vehicle, including the driver's seat, and add this amount to the unladen weight of the vehicle. If the resultant gross weight is not listed in RCW 46.16.070, it will be increased to the next higher gross weight so listed pursuant to chapter 46.44 RCW.

(7) "Department" means the department of licensing.

(8) "Fleet" means one or more commercial vehicles in the Western Compact and one or more apportionable vehicles in the IRP.

(9) "In-jurisdiction miles" means the total miles accumulated in a jurisdiction during the preceding year by vehicles of the fleet while they were a part of the fleet.

(10) "IRP" means the International Registration Plan.

(11) "Jurisdiction" means and includes a state, territory or possession of the United States, the District of Columbia, the Commonwealth of Puerto Rico, a foreign country, and a state or province of a foreign country.

(12) "Owner" means a person or business firm who holds the legal title to a vehicle, or if a vehicle is the subject of an agreement for its conditional sale with the right of purchase upon performance of the conditions stated in the agreement and with an immediate right of possession vested in the conditional vendee, or if a vehicle is subject to a lease, contract, or other legal arrangement vesting right of possession or control, for security or otherwise, or if a mortgagor of a vehicle is entitled to possession, then the owner is deemed to be the person or business firm in whom is vested right of possession or control.

(13) "Preceding year" means the period of twelve consecutive months immediately before July 1st of the year immediately before the commencement of the registration or license year for which apportioned registration is sought.

(14) "Properly registered," as applied to the place of registration under the provisions of the Western Compact, means:

(a) In the case of a commercial vehicle, the jurisdiction in which it is registered if the commercial enterprise in which the vehicle is used has a place of business therein, and, if the vehicle is most frequently dispatched, garaged, serviced, maintained, operated, or otherwise controlled in or from that place of business, and the vehicle has been assigned to that place of business; or

(b) In the case of a commercial vehicle, the jurisdiction where, because of an agreement or arrangement between two or more jurisdictions, or pursuant to a declaration, the vehicle has been registered as required by that jurisdiction.

In case of doubt or dispute as to the proper place of registration of a commercial vehicle, the department shall make the final determination, but in making such determination, may confer with departments of the other jurisdictions affected.

(15) "Prorate percentage" is the factor that is applied to the total proratable fees and taxes to determine the apportionable or prorate fees required for registration in a particular jurisdiction. It is determined by dividing the in-jurisdiction miles for a particular jurisdiction by the total miles. This term is synonymous with the term "mileage percentage."

(16) "Registrant" means a person, business firm, or corporation in whose name or names a vehicle or fleet of vehicles is registered.

(17) "Registration year" means the twelve-month period during which the registration plates issued by the base jurisdiction are valid according to the laws of the base jurisdiction.

(18) "Total miles" means the total number of miles accumulated in all jurisdictions during the preceding year by all vehicles of the fleet while they were a part of the fleet. Mileage accumulated by vehicles of the fleet that did not engage in interstate operations is not included in the fleet miles.

(19) "Western Compact" means the Uniform Vehicle Registration, Proration, and Reciprocity Agreement.

RCW 46.87.022 Rental trailers, converter gears.

Owners of rental trailers and semitrailers over six thousand pounds gross vehicle weight, and converter gears used solely in pool fleets shall fully register a portion of the pool fleet in this state. To determine the percentage of total fleet vehicles that must be registered in this state, divide the gross revenue received in the preceding year for the use of the rental vehicles arising from rental transactions occurring in this state by the total revenue received in the preceding year for the use of the rental vehicles arising from rental transactions in all jurisdictions in which the vehicles are operated. Apply the resulting percentage to the total number of vehicles that shall be registered in this state. Vehicles registered in this state shall be representative of the vehicles in the fleet according to age, size, and value.

Notes:

Severability--1990 c 250: See note following RCW 46.16.301.

RCW 46.87.023 Rental car businesses.

(1) Rental car businesses must register with the department of licensing. This registration

must be renewed annually by the rental car business.

(2) Rental cars must be titled and registered under the provisions of chapters 46.12 and 46.16 RCW. The vehicle must be identified at the time of application with the rental car company business number issued by the department.

(3) Use of rental cars is restricted to the rental customer unless otherwise provided by rule.

(4) The department may suspend or cancel the exemptions, benefits, or privileges granted under this section to a rental car business that violates the laws of this state relating to the operation or registration of vehicles or rules lawfully adopted thereunder. The department may initiate and conduct audits, investigations, and enforcement actions as may be reasonably necessary for administering this section.

(5) The department shall adopt such rules as may be necessary to administer and enforce the provisions of this section.

RCW 46.87.025 Vehicles titled in owner's name.

All vehicles being added to an existing Washington-based fleet or those vehicles that make up a new Washington-based fleet shall be titled in the name of the owner at time of registration, or evidence of filing application for title for such vehicles in the name of the owner shall accompany the application for proportional registration.

RCW 46.87.030 Part-year registration--Credit for unused fees.

(1) When application to register an apportionable or commercial vehicle is made, the Washington prorated fees may be reduced by one-twelfth for each full registration month that has elapsed at the time a temporary authorization permit (TAP) was issued or if no TAP was issued, at such time as an application for registration is received in the department. If a vehicle is being added to a currently registered fleet, the prorate percentage previously established for the fleet for such registration year shall be used in the computation of the proportional fees and taxes due.

(2) If any vehicle is withdrawn from a proportionally registered fleet during the period for which it is registered under this chapter, the registrant of the fleet shall notify the department on appropriate forms prescribed by the department. The department may require the registrant to surrender credentials that were issued to the vehicle. If a motor vehicle is permanently withdrawn from a proportionally registered fleet because it has been destroyed, sold, or otherwise completely removed from the service of the fleet registrant, the unused portion of the

licensing fee paid under RCW 46.16.070 with respect to the vehicle reduced by one-twelfth for each calendar month and fraction thereof elapsing between the first day of the month of the current registration year in which the vehicle was registered and the date the notice of withdrawal, accompanied by such credentials as may be required, is received in the department, shall be credited to the fleet proportional registration account of the registrant. Credit shall be applied against the licensing fee liability for subsequent additions of motor vehicles to be proportionally registered in the fleet during such registration year or for additional licensing fees due under RCW 46.16.070 or to be due upon audit under RCW 46.87.310. If any credit is less than fifteen dollars, no credit will be entered. In lieu of credit, the registrant may choose to transfer the unused portion of the licensing fee for the motor vehicle to the new owner, in which case it shall remain with the motor vehicle for which it was originally paid. In no event may any amount be credited against fees other than those for the registration year from which the credit was obtained nor is any amount subject to refund.

[1997 c 183 § 3; 1993 c 307 § 13; 1987 c 244 § 18; 1986 c 18 § 23; 1985 c 380 § 3.]

RCW 46.87.040 Purchase of additional gross weight.

Additional gross weight may be purchased for proportionally registered motor vehicles to the limits authorized under chapter 46.44 RCW. Reregistration at the higher gross weight (maximum gross weights under this chapter are fifty-four thousand pounds for a solo three-axle truck or one hundred five thousand five hundred pounds for a combination) for the balance of the registration year, including the full registration month in which the vehicle is initially licensed at the higher gross weight. The apportionable or proportional fee initially paid to the state of Washington, reduced for the number of full registration months the license was in effect, will be deducted from the total fee to be paid to this state for licensing at the higher gross weight for the balance of the registration year. No credit or refund will be given for a reduction of gross weight.

RCW 46.87.050 Deposit of fees.

Such fees shall be deposited pursuant to RCW 46.68.035, 82.44.110, and 82.44.170.

RCW 46.87.060 Apportionment of fees, formula.

RCW 46.87.070 Registration of trailers, semitrailers, pole trailers.

(1) Washington-based trailers, semitrailers, or pole trailers shall be licensed in this state under the provisions of chapter 46.16 RCW except as herein provided. If these vehicles are being operated in jurisdictions that require the registration of such vehicles, the applicable vehicles may be considered as apportionable or commercial vehicles for the purpose of registration in those jurisdictions and this state. This provision does not apply to trailers, semitrailers, or pole trailers which have been issued permanent plates.

(2) Trailers, semitrailers, and pole trailers which are properly based in jurisdictions other than Washington, and which display currently registered license plates from such jurisdictions will be granted vehicle license reciprocity in this state without the need of further vehicle license registration. If pole trailers are not required to be licensed separately by a member jurisdiction, such vehicles may be operated in this state without displaying a current base license plate.

RCW 46.87.080 Cab cards, validation tabs, special license plates--Design, procedures--Issuance, refusal, revocation.

(1) Upon making satisfactory application and payment of applicable fees and taxes for proportional registration under this chapter, the department shall issue a cab card and validation tab for each vehicle, and to vehicles of Washington-based fleets, two distinctive apportionable license plates for each motor vehicle and one such plate for each trailer, semitrailer, pole trailer, or converter gear listed on the application. License plates shall be displayed on vehicles as required by RCW 46.16.240. The number and plate shall be of a design, size, and color determined by the department. The plates shall be treated with reflectorized material and clearly marked with the words "WASHINGTON" and "APPORTIONED," both words to appear in full and without abbreviation.

(2) The cab card serves as the certificate of registration for a proportionally registered vehicle. The face of the cab card shall contain the name and address of the registrant as contained in the records of the department, the license plate number assigned to the vehicle by

the base jurisdiction, the vehicle identification number, and such other description of the vehicle and data as the department may require. The cab card shall be signed by the registrant, or a designated person if the registrant is a business firm, and shall at all times be carried in or on the vehicle to which it was issued. In the case of nonpowered vehicles, the cab card may be carried in or on the vehicle supplying the motive power instead of in or on the nonpowered vehicle.

(3) The apportioned license plates are not transferrable from vehicle to vehicle unless otherwise determined by rule and shall be used only on the vehicle to which they are assigned by the department for as long as they are legible or until such time as the department requires them to be removed and returned to the department.

(4) Distinctive validation tab(s) of a design, size, and color determined by the department shall be affixed to the apportioned license plate(s) as prescribed by the department to indicate the month, if necessary, and year for which the vehicle is registered. Foreign-based vehicles proportionally registered in this state under the provisions of the Western Compact shall display the validation tab on a backing plate or as otherwise prescribed by the department.

(5) Renewals shall be effected by the issuance and display of such tab(s) after making satisfactory application and payment of applicable fees and taxes.

(6) Fleet vehicles so registered and identified shall be deemed to be fully licensed and registered in this state for any type of movement or operation. However, in those instances in which a grant of authority is required for interstate or intrastate movement or operation, no such vehicle may be operated in interstate or intrastate commerce in this state unless the owner has been granted interstate operating authority by the interstate commerce commission in the case of interstate operations or intrastate operating authority by the Washington utility and transportation commission in the case of intrastate operations and unless the vehicle is being operated in conformity with that authority.

(7) The department may issue temporary authorization permits (TAPs) to qualifying operators for the operation of vehicles pending issuance of license identification. A fee of one dollar plus a one dollar filing fee shall be collected for each permit issued. The permit fee shall be deposited in the motor vehicle fund, and the filing fee shall be deposited in the highway safety fund. The department may adopt rules for use and issuance of the permits.

(8) The department may refuse to issue any license or permit authorized by subsection (1) or (7) of this section to any person: (a) Who formerly held any type of license or permit issued by the department pursuant to chapter 46.16, 46.85, 46.87, 82.36, or 82.38 RCW that has been revoked for cause, which cause has not been removed; or (b) who is a subterfuge for the real party in interest whose license or permit issued by the department pursuant to chapter 46.16, 46.85, 46.87, 82.36, or 82.38 RCW and has been revoked for cause, which cause has not been removed; or (c) who, as an individual licensee, or officer, director, owner, or managing employee of a nonindividual licensee, has had a license or permit issued by the department pursuant to chapter 46.16, 46.85, 46.87, 82.36, or 82.38 RCW which has been revoked for cause, which cause has not been removed; or (d) who has an unsatisfied debt to the state assessed under either chapter 46.16, 46.85, 46.87, 82.36, 82.38, or 82.44 RCW.

(9) The department may revoke the license or permit authorized by subsection (1) or (7) of this section issued to any person for any of the grounds constituting cause for denial of

licenses or permits set forth in subsection (8) of this section.

(10) Before such refusal or revocation under subsection (8) or (9) of this section, the department shall grant the applicant a hearing and at least ten days written notice of the time and place of the hearing.

NOTES:

RCW 46.87.085 Staggered renewal periods.

The department may extend or diminish vehicle license registration periods for the purpose of staggering renewal periods. The extension or diminishment of a vehicle license registration period must be by rule of the department. The rule shall provide for the collection of proportionally increased or decreased vehicle license registration fees and of excise or other taxes required to be paid at the time of registration.

It is the intent of the legislature that there shall be neither a significant net gain nor loss of revenue to the state general fund or the motor vehicle fund as the result of implementing and maintaining a staggered vehicle registration system.

[1993 c 307 § 17.]

RCW 46.87.090 Apportioned vehicle license plates, cab card, validation tabs--Replacement--Fees.

(1) To replace an apportioned vehicle license plate(s), cab card, or validation tab(s) due to loss, defacement, or destruction, the registrant shall apply to the department on forms furnished for that purpose. The application, together with proper payment and other documentation as indicated, shall be filed with the department as follows:

(a) Apportioned plate(s) - a fee of ten dollars shall be charged for vehicles required to display two apportioned plates or five dollars for vehicles required to display one apportioned plate. The cab card of the vehicle for which a plate is requested shall accompany the application. The department shall issue a new apportioned plate(s) with validation tab(s) and a new cab card upon acceptance of the completed application form, old cab card, and the required replacement fee.

(b) Cab card - a fee of two dollars shall be charged for each card. If this is a duplicate cab card, it will be noted thereon.

(c) Validation year tab(s) - a fee of two dollars shall be charged for each vehicle.

(2) All fees collected under this section shall be deposited to the motor vehicle fund.

RCW 46.87.120 Mileage data for applications--Nonmotor vehicles.

(1) The initial application for proportional registration of a fleet shall state the mileage data with respect to the fleet for the preceding year in this and other jurisdictions. If no operations were conducted with the fleet during the preceding year, the application shall contain a full statement of the proposed method of operation and estimates of annual mileage in each of the jurisdictions in which operation is contemplated. The registrant shall determine the in-jurisdiction and total miles to be used in computing the fees and taxes due for the fleet. The department may evaluate and adjust the estimate in the application if it is not satisfied as to its correctness. The department shall require a minimum estimated mileage of one trip state-line-to-state-line in each jurisdiction the carrier registers for operations.

(2) Fleets will consist of either motor vehicles or nonmotor vehicles, but not a mixture of both.

(3) In instances where the use of mileage accumulated by a nonmotor vehicle fleet is impractical, for the purpose of calculating prorate percentages, the registrant may request another method and/or unit of measure to be used in determining the prorate percentages. Upon receiving such request, the department may prescribe another method and/or unit of measure to be used in lieu of mileage that will ensure each jurisdiction that requires the registration of nonmotor vehicles its fair share of vehicle licensing fees and taxes.

(4) When operations of a Washington-based fleet is materially changed through merger, acquisition, or extended authority, the registrant shall notify the department, which shall then require the filing of an amended application setting forth the proposed operation by use of estimated mileage for all jurisdictions. The department may adjust the estimated mileage by audit or otherwise to an actual travel basis to insure proper fee payment. The actual travel basis may be used for determination of fee payments until such time as a normal mileage year is available under the new operation. Under the provisions of the Western Compact, this subsection applies to any fleet proportionally registered in Washington irrespective of the fleet's base jurisdiction.

RCW 46.87.130 Vehicle transaction fee.

In addition to all other fees prescribed for the proportional registration of vehicles under this chapter, the department shall collect a vehicle transaction fee each time a vehicle is added to a Washington-based fleet, and each time the proportional registration of a Washington-based vehicle is renewed. The transaction fee is also applicable to all foreign-based vehicles for which this state calculates and assesses fees/taxes for the state of Washington. The exact amount of the vehicle transaction fee shall be fixed by rule but shall not exceed ten dollars. This fee shall be deposited in the motor vehicle fund.

Notes:

Effective dates--1987 c 244: See note following RCW 46.12.020.

RCW 46.87.140 Application--Filing, contents--Fees and taxes--Assessments, due date.

(1) Any owner engaged in interstate operations of one or more fleets of apportionable or commercial vehicles may, in lieu of registration of the vehicles under chapter 46.16 RCW, register and license the vehicles of each fleet under this chapter by filing a proportional registration application for each fleet with the department. The nonmotor vehicles of Washington-based fleets which are operated in IRP jurisdictions that require registration of such vehicles may be proportionally registered for operation in those jurisdictions as herein provided. The application shall contain the following information and such other information pertinent to vehicle registration as the department may require:

(a) A description and identification of each vehicle of the fleet. Motor vehicles and nonpower units shall be placed in separate fleets.

(b) If registering under the provisions of the IRP, the registrant shall also indicate member jurisdictions in which registration is desired and furnish such other information as those member jurisdictions require.

(c) An original or renewal application shall also be accompanied by a mileage schedule for each fleet.

(2) Each application shall, at the time and in the manner required by the department, be supported by payment of a fee computed as follows:

(a) Divide the in-jurisdiction miles by the total miles and carry the answer to the nearest thousandth of a percent (three places beyond the decimal, e.g. 10.543%). This factor is known as the prorate percentage.

(b) Determine the total proratable fees and taxes required for each vehicle in the fleet for which registration is requested, based on the regular annual fees and taxes or applicable fees and taxes for the unexpired portion of the registration year under the laws of each jurisdiction for which fees or taxes are to be calculated.

Washington-based nonmotor vehicles shall normally be fully licensed under the provisions of chapter 46.16 RCW. If these vehicles are being operated in jurisdictions that require the registration of such vehicles, the applicable vehicles may be considered as apportionable vehicles for the purpose of registration in those jurisdictions and this state. The prorate percentage for which registration fees and taxes were paid to such jurisdictions may be credited toward the one hundred percent of registration fees and taxes due this state for full licensing. Applicable fees and taxes for vehicles of Washington-based fleets are those prescribed under RCW 46.16.070, 46.16.085, 82.38.075, and *82.44.020, as applicable. If, during the registration period, the lessor of an apportioned vehicle changes and the vehicle remains in the fleet of the registrant, the department shall only charge those fees prescribed for the issuance of new apportioned license plates, validation tabs, and cab card.

(c) Multiply the total, proratable fees or taxes for each motor vehicle by the prorate percentage applicable to the desired jurisdiction and round the results to the nearest cent. Fees and taxes for nonmotor vehicles being prorated will be calculated as indicated in (b) of this

subsection.

(d) Add the total fees and taxes determined in (c) of this subsection for each vehicle to the nonproratable fees required under the laws of the jurisdiction for which fees are being calculated. Nonproratable fees required for vehicles of Washington-based fleets are the administrative fee required by RCW 82.38.075, if applicable, and the vehicle transaction fee pursuant to the provisions of RCW 46.87.130.

(e) Add the total fees and taxes determined in (d) of this subsection for each vehicle listed on the application. Assuming the fees and taxes calculated were for Washington, this would be the amount due and payable for the application under the provisions of the Western Compact. Under the provisions of the IRP, the amount due and payable for the application would be the sum of the fees and taxes referred to in (d) of this subsection, calculated for each member jurisdiction in which registration of the fleet is desired.

(3) All assessments for proportional registration fees are due and payable in United States funds on the date presented or mailed to the registrant at the address listed in the proportional registration records of the department. The registrant may petition for reassessment of the fees or taxes due under this section within thirty days of the date of original service as provided for in this chapter.

Nothing in this subsection precludes anyone from applying for a refund of such overpayment if the overpayment is less than ten dollars. Conversely, if the department or its agents has failed to charge and collect the full amount of fees or taxes pursuant to this chapter, which underpayment is in the amount of ten dollars or more, the department shall charge and collect such additional amount as will constitute full payment of the fees and taxes due.

RCW 46.87.220 Gross weight computation.

The gross weight in the case of a motor truck, tractor, or truck tractor is the scale weight of the motor truck, tractor, or truck tractor, plus the scale weight of any trailer, semitrailer, converter gear, or pole trailer to be towed by it, to which shall be added the weight of the maximum load to be carried on it or towed by it as set forth by the licensee in the application providing it does not exceed the weight limitations prescribed by chapter 46.44 RCW.

The gross weight in the case of a bus, auto stage, or for hire vehicle, except a taxicab, with a seating capacity over six, is the scale weight of the bus, auto stage, or for hire vehicle plus the seating capacity, including the operator's seat, computed at one hundred and fifty pounds per seat.

If the resultant gross weight, according to this section, is not listed in RCW 46.16.070, it will be increased to the next higher gross weight so listed pursuant to chapter 46.44 RCW.

RCW 46.87.290 Refusal, cancellation of application, cab card--Procedures, penalties.

If the department determines at any time that an applicant for proportional registration of a vehicle or a fleet of vehicles is not entitled to a cab card for a vehicle or fleet of vehicles, the department may refuse to issue the cab card(s) or to license the vehicle or fleet of vehicles and may for like reason, after notice, and in the exercise of discretion, cancel the cab card(s) and license plate(s) already issued. The department shall send the notice of cancellation by first class mail, addressed to the owner of the vehicle in question at the owner's address as it appears in the proportional registration records of the department, and record the transmittal on an affidavit of first class mail. It is then unlawful for any person to remove, drive, or operate the vehicle(s) until a proper certificate(s) of registration or cab card(s) has been issued. Any person removing, driving, or operating the vehicle(s) after the refusal of the department to issue a cab card(s), certificate(s) of registration, license plate(s), or the revocation or cancellation of the cab card(s), certificate(s) of registration, or license plate(s) is guilty of a gross misdemeanor. At the discretion of the department, a vehicle that has been moved, driven, or operated in violation of this section may be impounded by the Washington state patrol, county sheriff, or city police in a manner directed for such cases by the chief of the Washington state patrol until proper registration and license plate have been issued.

The suspension, revocation, cancellation, or refusal by the director, or the director's designee, of a license plate(s), certificate(s) of registration, or cab card(s) provided for in this chapter is conclusive unless the person whose license plate(s), certificate(s) of registration, or cab card(s) is suspended, revoked, canceled, or refused appeals to the superior court of Thurston county, or at the person's option if a resident of Washington, to the superior court of his or her county of residence, for the purpose of having the suspension, revocation, cancellation, or refusal of the license plate(s), certificate(s) of registration, or cab card(s) set aside. Notice of appeal shall be filed within ten calendar days after service of the notice of suspension, revocation, cancellation, or refusal. Upon the filing of the appeal, the court shall issue an order to the director to show cause why the license(s) should not be granted or reinstated. The director shall respond to the order within ten days after the date of service of the order upon the director. Service shall be in the manner prescribed for service of summons and complaint in other civil

actions. Upon the hearing on the order to show cause, the court shall hear evidence concerning matters related to the suspension, revocation, cancellation, or refusal of the license plate(s), certificate(s) of registration, or cab card(s) and shall enter judgment either affirming or setting aside the suspension, revocation, cancellation, or refusal.

RCW 46.87.310 Application records--Preservation, contents, audit--Additional assessments, penalties, refunds.

Any owner whose application for proportional registration has been accepted shall preserve the records on which the application is based for a period of four years following the preceding year or period upon which the application is based. These records shall be complete and shall include, but not be limited to, the following: Copies of proportional registration applications and supplements for all jurisdictions in which the fleet is prorated; proof of proportional or full registration with other jurisdictions; vehicle license or trip permits; temporary authorization permits; documents establishing the latest purchase year and cost of each fleet vehicle in ready-for-the-road condition; weight certificates indicating the unladen, ready-for-the-road, weight of each vehicle in the fleet; periodic summaries of mileage by fleet and by individual vehicles; individual trip reports, driver's daily logs, or other source documents maintained for each individual trip that provide trip dates, points of origin and destinations, total miles traveled, miles traveled in each jurisdiction, routes traveled, vehicle equipment number, driver's full name, and all other information pertinent to each trip. Upon request of the department, the owner shall make the records available to the department at its designated office for audit as to accuracy of records, computations, and payments. The department shall assess and collect any unpaid fees and taxes found to be due the state and provide credits or refunds for overpayments of Washington fees and taxes as determined in accordance with formulas and other requirements prescribed in this chapter. If the owner fails to maintain complete records as required by this section, the department shall attempt to reconstruct or reestablish such records. However, if the department is unable to do so and the missing or incomplete records involve mileages accrued by vehicles while they are part of the fleet, the department may assess an amount not to exceed the difference between the Washington proportional fees and taxes paid and one hundred percent of the fees and taxes. Further, if the owner fails to maintain complete records as required by this section, or if the department determines that the owner should have registered more vehicles in this state under this chapter, the department may deny the owner the right of any further benefits provided by this chapter until any final audit or assessment made under this chapter has been satisfied.

The department may audit the records of any owner and may make arrangements with agencies of other jurisdictions administering motor vehicle registration laws for joint audits of any such owner. No assessment for deficiency or claim for credit may be made for any period for which records are no longer required. Any fees, taxes, penalties, or interest found to be due and

owing the state upon audit shall bear interest at the rate of one percent per month, or fraction thereof, from the first day of the calendar month after the amount should have been paid until the date of payment. If the audit discloses a deliberate and willful intent to evade the requirements of payment under RCW 46.87.140, a penalty of ten percent shall also be assessed.

If the audit discloses that an overpayment to the state in excess of ten dollars has been made, the department shall certify the overpayment to the state treasurer who shall issue a warrant for the overpayment to the vehicle operator. Overpayments shall bear interest at the rate of eight percent per annum from the date on which the overpayment is incurred until the date of payment.

RCW 46.87.320 Departmental audits, investigations--Subpoenas.

The department may initiate and conduct audits and investigations as may be reasonably necessary to establish the existence of any alleged violations of or noncompliance with this chapter or any rules adopted under it.

For the purpose of any audit, investigation, or proceeding under this chapter the director or any designee of the director may administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, and require the production of any books, paper, correspondence, memoranda, agreements, or other documents or records that the department deems relevant or material to the inquiry.

In case of contumacy or refusal to obey a subpoena issued to any person, any court of competent jurisdiction upon application by the department, may issue an order requiring that person to appear before the director or the officer designated by the director to produce testimony or other evidence touching the matter under audit, investigation, or in question. Failure to obey an order of the court may be punishable by contempt.

RCW 46.87.330 Assessments--When due, penalties--Reassessment--Petition, notice, service--Injunctions, writs of mandate restricted.

An owner of proportionally registered vehicles against whom an assessment is made under RCW 46.87.310 may petition for reassessment thereof within thirty days after service of notice of the assessment upon the owner of the proportionally registered vehicles. If the petition is not filed within the thirty-day period, the amount of the assessment becomes final at the expiration of that time period.

If a petition for reassessment is filed within the thirty-day period, the department shall reconsider the assessment and, if the petitioner has so requested in the petition, shall grant the

petitioner an oral hearing and give the petitioner ten days notice of the time and place of the hearing. The department may continue the hearing from time to time. The decision of the department upon a petition for reassessment becomes final thirty days after service upon the petitioner of notice of the decision.

Every assessment made under RCW 46.87.310 becomes due and payable at the time it is served on the owner. If the assessment is not paid in full when it becomes final, the department shall add a penalty of ten percent of the amount of the assessment.

Any notice of assessment, reassessment, oral hearing, or decision required by this section shall be served personally or by mail. If served by mail, service is deemed to have been accomplished on the date the notice was deposited in the United States mail, postage prepaid, addressed to the owner of the proportionally registered vehicles at the owner's address as it appears in the proportional registration records of the department.

No injunction or writ of mandate or other legal or equitable process may be issued in any suit, action, or proceeding in any court against any officer of the state to prevent or enjoin the collection under this chapter of any fee or tax or any amount of fee or tax required to be collected, except as specifically provided for in chapter 34.05 RCW.

RCW 46.87.335 Mitigation of assessments.

Except in the case of violations of filing a false or fraudulent application, if the department deems mitigation of penalties, fees, and interest to be reasonable and in the best interests of carrying out the purpose of this chapter, it may mitigate such assessments upon whatever terms the department deems proper, giving consideration to the degree and extent of the lack of records and reporting errors. The department may ascertain the facts regarding recordkeeping and payment penalties in lieu of more elaborate proceedings under this chapter.

[1994 c 262 § 15; 1991 c 339 § 5.]

RCW 46.87.340 Assessments--Lien for nonpayment.

If an owner of proportionally registered vehicles liable for the remittance of fees and taxes imposed by this chapter fails to pay the fees and taxes, the amount thereof, including any interest, penalty, or addition to the fees and taxes together with any additional costs that may accrue, constitutes a lien in favor of the state upon all franchises, property, and rights to property, whether the property is employed by the person for personal or business use or is in the hands of a trustee, receiver, or assignee for the benefit of creditors, from the date the fees and taxes were due and payable until the amount of the lien is paid or the property is sold to pay the lien. The lien has priority over any lien or encumbrance whatsoever, except the lien of other state taxes having priority by law, and except that the lien is not valid as against any bona fide

mortgagee, pledgee, judgment creditor, or purchaser whose rights have attached before the time the department has filed and recorded notice of the lien as provided in this chapter.

In order to avail itself of the lien created by this section, the department shall file with any county auditor a statement of claim and lien specifying the amount of delinquent fees and taxes, penalties, and interest claimed by the department. From the time of filing for record, the amount required to be paid constitutes a lien upon all franchises, property, and rights to property, whether real or personal, then belonging to or thereafter acquired by the person in the county. Any lien as provided in this section may also be filed in the office of the secretary of state. Filing in the office of the secretary of state is of no effect, however, until the lien or a copy of it has been filed with the county auditor in the county where the property is located. When a lien is filed in compliance with this section and with the secretary of state, the filing has the same effect as if the lien had been duly filed for record in the office of each county auditor of this state.

RCW 46.87.350 Delinquent obligations--Notice--Restriction on credits or property--Default judgments--Lien.

If an owner of proportionally registered vehicles for which an assessment has become final is delinquent in the payment of an obligation imposed under this chapter, the department may give notice of the amount of the delinquency by registered or certified mail to all persons having in their possession or under their control any credits or other personal property belonging to the vehicle owner or owing any debts to the owner, at the time of the receipt by them of the notice. Thereafter, a person so notified shall neither transfer nor make other disposition of those credits, personal property, or debts until the department consents to a transfer or other disposition. A person so notified shall, within twenty days after receipt of the notice, advise the department of any and all such credits, personal property, or debts in their possession, under their control or owing by them, as the case may be, and shall forthwith deliver such credits, personal property, or debts to the department or its duly authorized representative to be applied to the indebtedness involved.

If a person fails to answer the notice within the time prescribed by this section, it is lawful for the court upon application of the department and after the time to answer the notice has expired, to render judgment by default against the person for the full amount claimed by the department in the notice to withhold and deliver, together with costs.

Upon service, the notice and order to withhold and deliver constitutes a continuing lien on property of the taxpayer. The department shall include in the caption of the notice to withhold and deliver "continuing lien." The effective date of a notice to withhold and deliver served under this section is the date of service of the notice.

RCW 46.87.360 Delinquent obligations--Collection by department--Seizure of property, notice, sale.

Whenever the owner of proportionally registered vehicles is delinquent in the payment of an obligation imposed under this chapter, and the delinquency continues after notice and demand for payment by the department, the department may proceed to collect the amount due from the owner in the following manner: The department shall seize any property subject to the lien of the fees, taxes, penalties, and interest and sell it at public auction to pay the obligation and any and all costs that may have been incurred because of the seizure and sale. Notice of the intended sale and its time and place shall be given to the delinquent owner and to all persons appearing of record to have an interest in the property. The notice shall be given in writing at least ten days before the date set for the sale by registered or certified mail addressed to the owner as appearing in the proportional registration records of the department and, in the case of any person appearing of record to have an interest in such property, addressed to that person at their last known residence or place of business. In addition, the notice shall be published at least ten days before the date set for the sale in a newspaper of general circulation published in the county in which the property seized is to be sold. If there is no newspaper in the county, the notice shall be posted in three public places in the county for a period of ten days. The notice shall contain a description of the property to be sold, a statement of the amount due under this chapter, the name of the owner of the proportionally registered vehicles, and the further statement that unless the amount due is paid on or before the time fixed in the notice the property will be sold in accordance with law.

The department shall then proceed to sell the property in accordance with law and the notice, and shall deliver to the purchaser a bill of sale or deed that vests title in the purchaser. If upon any such sale the moneys received exceed the amount due to the state under this chapter from the delinquent owner, the excess shall be returned to the delinquent owner and his receipt obtained for it. The department may withhold payment of the excess to the delinquent owner if a person having an interest in or lien upon the property has filed with the department their notice of the lien or interest before the sale, pending determination of the rights of the respective parties thereto by a court of competent jurisdiction. If for any reason the receipt of the delinquent owner is not available, the department shall deposit the excess with the state treasurer as trustee for the delinquent owner.

RCW 46.87.370 Warrant for final assessments--Lien on property.

Whenever any assessment has become final in accordance with this chapter, the department may file with the clerk of any county within this state a warrant in the amount of fees, taxes, penalties, interest, and a filing fee under RCW 36.18.012(10). The clerk of the county in which the warrant is filed shall immediately designate a superior court cause number

for the warrant, and the clerk shall cause to be entered in the judgment docket under the superior court cause number assigned to the warrant the name of the delinquent owner of proportionally registered vehicles mentioned in the warrant, the amount of the fees, taxes, penalties, interest, and filing fee, and the date when the warrant was filed. The aggregate amount of the warrant as docketed constitutes a lien upon the title to, and interest in, all real and personal property of the named person against whom the warrant is issued, the same as a judgment in a civil case duly docketed in the office of the clerk. A warrant so docketed is sufficient to support the issuance of writs of execution and writs of garnishment in favor of the state in the manner provided by law in the case of civil judgment wholly or partially unsatisfied. The clerk of the court is entitled to a filing fee under RCW 36.18.012(10), which shall be added to the amount of the warrant.

RCW 46.90.005 Purpose.

The purpose of this chapter is to encourage highway safety and uniform traffic laws by authorizing the department of licensing to adopt a comprehensive compilation of sound, uniform traffic laws to serve as a guide which local authorities may adopt by reference or any part thereof, including all future amendments or additions thereto. Any local authority which adopts that body of rules by reference may at any time exclude any section or sections of those rules that it does not desire to include in its local traffic ordinance. The rules are not intended to deny any local authority its legislative power, but rather to enhance safe and efficient movement of traffic throughout the state by having current, uniform traffic laws available.

RCW 46.94.001 Short title.

This chapter shall be known as the motorcycle dealers' franchise act.

[1985 c 472 § 1.]

RCW 46.94.005 Legislative intent.

The legislature recognizes it is in the best public interest for manufacturers and dealers of motorcycles to conduct business with each other in a fair, efficient, and competitive manner. The legislature declares the public interest is best served by dealers being assured of the ability to manage their business enterprises under a contractual obligation with manufacturers where dealers do not experience unreasonable interference, receive adequate allocations of merchandise in a timely manner at competitive prices, and transfer ownership of their business without undue constraints. It is the intent of the legislature to impose a regulatory scheme and to regulate competition in the motorcycle industry to the extent necessary to balance fairness and efficiency. These actions will assure the public that motorcycle dealers will devote their best competitive efforts and resources to the sale and service of the manufacturer's products which the dealer has been granted the right to sell and service.

[1985 c 472 § 2.]

(8) "Franchise" means an oral or written contract, to include a dealer agreement, either expressed or implied, between a franchisor and a motorcycle dealer which purports to fix the legal rights and liabilities between the parties and under which (a) the dealer is granted the right to purchase and resell motorcycles manufactured, distributed, or imported by the franchisor; (b) the dealer's business is associated with the trademark, trade name, commercial symbol, or advertisement designating the franchisor or the products distributed by the franchisor; and (c) the dealer's business relies on the franchisor for a continued supply of motorcycles, parts, and accessories.

(9) "Franchisor" means any person who enters into a franchise with a motorcycle dealer.

(10) "Manufacturer" means any person, firm, association, corporation, or trust that manufactures or provides assemblies for motorcycles.

(12) "Motorcycle dealer" or "dealer" means a person operating under a dealer agreement or franchise with a franchisor who is engaged regularly in the business of buying, selling, exchanging, offering, brokering, or leasing with an option to purchase new or used motorcycles in the state, with a place of business in the state.

(13) "New motorcycle" means a motorcycle that has been sold or transferred to a motorcycle dealer and that has not been used for other than demonstration purposes, and on which the original title has not been issued from the motorcycle dealer. RCW 46.94.020 Prohibited trade practices.

Acts or conduct described in this section constitute prohibited trade practices that cannot be waived. It is a prohibited trade practice for a franchisor or its manufacturers, distributors, subsidiaries, or other agents:

(1) To require, coerce or attempt to require, or coerce, either directly or indirectly, any motorcycle dealer to:

(a) Accept, buy, or order any motorcycle, part or accessory, or any other commodity or service not voluntarily ordered, or requested, or to buy, order, or pay anything of value for such items in order to obtain any motorcycle part, accessory, or other commodity which has been voluntarily ordered or requested;

(b) Order or accept delivery of any motorcycle with special features, accessories, or equipment not included in the list price of the motorcycle as advertised by the manufacturer, except items which have been voluntarily requested or ordered by the dealer, and except items required by law;

(c) Enter into any agreement or understanding resulting in a reduction of the dealer's allocation of motorcycles for reasons other than reduced production levels causing uniformly and proportionally applied reductions to all dealers;

(d) Enter into any agreement or sales promotion program by threatening to terminate the franchise of the dealer;

(e) Refrain from participation in the management, investment, acquisition, or sale of any other related product or product line of motor vehicles, parts, or accessories;

(f) Enter into any agreement violating this chapter; or

(g) Enter into an agreement by which the franchisor, manufacturer, factory branch, factory representative, distributor, distributor branch, or distributor representative can directly solicit the dealer's customers.

(2) To terminate, refuse to renew, fail to extend, or fail to renew any franchise without good cause. Good cause includes but is not limited to:

(a) The amount of business transacted by the dealer as compared to the amount of business available to the dealer;

(b) The investment necessarily made and obligations necessarily incurred by the dealer in the performance of the franchise;

(c) The degree of the dealer's investment, including but not limited to the dealer's purchase or lease of real property for the dealership, the training given to the dealer's employees, and the amount of equipment purchased for the dealership;

(d) The adequacy of the dealer's new motorcycle sales and service facilities, equipment, and parts;

(e) The qualifications and performance of the management, sales, and service personnel to provide the consumer with reasonably good service and care of new motorcycles;

(f) The failure of the dealer to substantially comply in good faith with the reasonable

requirements of the franchise;

(g) The adequacy of the franchisor's actual quantities delivered of motorcycles, parts, and accessories compared to quantities promised by the franchisor;

(h) The effect on the retail motorcycle business and the consuming public in the dealer's market area;

(i) Whether the dealer has exercised prudent business judgment.

The dealer shall be notified, in writing, not less than ninety days before termination or nonrenewal with reasons for the actions. If the termination or nonrenewal is based on termination or discontinuance of the product line, the dealer shall be notified not less than one hundred eighty days prior to termination or nonrenewal. All existing franchises shall continue operation under a newly appointed distributor upon the termination of an existing distributor unless a mutual agreement of termination is filed between the new distributor and the affected dealer.

(3) To require a change in capital structure, or means of financing, if the dealer at all times meets the reasonable, written, and uniformly applied capital standards determined by the manufacturer, franchisor, or distributor;

(4) To prevent or attempt to prevent a dealer from making reasonable changes in the capital structure of a dealership or the means by which the dealership is financed if the dealer meets the reasonable, written, and uniformly applied capital requirements determined by the manufacturer, franchisor, or distributor;

(5) To unreasonably require a change in the location of the dealership or any substantial alterations to the place of business;

(6) To condition renewal or extension of the franchise on substantial renovation of the existing place of business or on the construction, purchase, acquisition, or lease of a new place of business unless written notice is first provided one hundred eighty days prior to the date of renewal or extension and the franchisor demonstrates the reasonableness of the requested actions. The franchisor shall agree to supply the dealer with an adequate quantity of motorcycles, parts, and accessories to meet the sales level necessary to support the overhead resulting from substantial renovation, construction, acquisition, or lease of a new place of business;

(7) To adopt, establish, or implement a plan or system, or to modify an existing plan or system, for the distribution or allocation of motorcycles which is arbitrary, in bad faith, or unconscionable and which damages the dealer or the dealer's customers;

(8) To fail or refuse to disclose to the dealer, after written request, the basis upon which new motorcycles of the same line are currently or will in the future be allocated or distributed to dealers;

(9) To fail or refuse to disclose to dealers, after written request, the total number of new motorcycles of a given model which the manufacturer, franchisor, or distributor has sold during the current model year within the dealer's marketing district, zone, or region;

(10) To refuse or fail to deliver any motorcycle, part, or accessory in reasonable quantities, and within a reasonable time after receipt of the order from the dealer, that is specifically advertised as being immediately available. It is not a prohibited trade practice when the failure to deliver is caused by an act of God, strike, material shortage, or other cause over

which the manufacturer, distributor, or franchisor has no control;

(11) To offer a renewal, replacement, or succeeding franchise containing terms substantially modifying the sales and service obligations or capital requirements of the motorcycle dealer, other than as provided for in this chapter;

(12) To sell or lease or offer to sell or lease to a dealer a new motorcycle, including any motorcycle under a sales promotion plan, at a lower price than offered or sold to another similarly situated dealer for the same model, except where the dealer is offered, sold, or leased a new motorcycle at a discount in exchange for providing valuable services to the franchisor, manufacturer, or distributor and except in those instances where a dealer orders motorcycles in sufficient numbers to qualify for volume discounts and as long as discounts are available to all dealers;

(13) To prevent, attempt to prevent, or unreasonably disapprove any motorcycle dealer from changing executive management control of the dealer's motorcycle business, unless the change results in control by a person not of good moral character or who does not meet the manufacturer, distributor, or franchisor's existing and reasonable, written, and uniformly applied capital standards. The dealer shall be given written notice of the reasons for rejection within thirty days of receipt of notice from the dealer of a proposed change;

(14) To reject, prevent, or attempt to prevent any person from selling or transferring a controlling interest to any other person unless the buyer or transferee does not qualify under appropriate state law as a licensed dealer, is not of good moral character, does not meet the manufacturer, distributor, or franchisor's existing and reasonable, written, and uniformly applied capital standards, or does not meet the written and uniformly applied manufacturer, distributor, or franchisor business experience standards for the market area. The dealer shall be given written notice setting forth the reasons for rejection of the proposed sale or transfer within thirty days of notice by the dealer of the sale or transfer;

(15) To fail to hold harmless and indemnify any motorcycle dealer against losses, including lawsuits and court costs, arising from: (a) The manufacture or performance of any motorcycle, part, or accessory if the lawsuit involves representations by the manufacturer, distributor, or franchisor on the manufacture or performance of a motorcycle without negligence on the part of the motorcycle dealer; (b) damage to merchandise in transit where the manufacturer, distributor, or franchisor specifies the carrier; (c) the manufacturer, distributor, or franchisor's failure to jointly defend product liability suits concerning the motorcycle, part, or accessory provided to the dealer; or (d) any other act performed by the manufacturer, distributor, or franchisor;

(16) To unfairly prevent or attempt to prevent a motorcycle dealer from receiving reasonable compensation for the value of a motorcycle;

(17) To release confidential information provided by the motorcycle dealer to the manufacturer, distributor, or franchisor without the written prior consent of the dealer;

(18) To fail to pay to a motorcycle dealer, within a reasonable time following receipt of a valid claim, any payment agreed to be made by the manufacturer, distributor, or franchisor on grounds that a new motorcycle, or a prior year's model, is in the dealer's inventory at the time of introduction of new model motorcycles;

(19) To deny any dealer the right of free association with any other dealer for any lawful purpose;

(20) To artificially and intentionally create a shortage of any motorcycle make, model, or series that results in the inequitable distribution of the make, model, or series to dealers;

(21) To charge increased prices without having given written notice to the dealers at least fifteen days prior to the effective date of the price increases;

(22) To permit factory authorized warranty service to be performed upon motorcycles or accessories by persons other than their franchised motorcycle dealers;

(23) To unreasonably interfere with a dealer's performance under the franchise agreement's sale quota by withholding sufficient deliveries of motorcycles; or

(24) To own, operate, or control any motorcycle dealer or place of business selling at retail in the state.

[1985 c 472 § 4.]

RCW 46.94.030 Succession to business by designated family member.

(1) The manufacturer, distributor, or franchisor shall not prevent, attempt to prevent, refuse to give effect to, attempt to refuse to give effect to, or in any way hinder the succession to the ownership, management, control, or continuance of a dealer's motorcycle business by a designated family member upon the death or incapacity of the dealer, except as otherwise provided in this chapter.

(2) A designated family member, at his or her discretion, may succeed the dealer in ownership or management control under the existing agreement. The designated family member shall provide notice to the franchisor, in writing, of the intention to succeed to the franchise within one hundred twenty days after the dealer's death or incapacity. The designated family member shall agree to be bound by the terms of the original franchise. The designated family member shall meet the reasonable, written, and uniformly applied conditions applied by the franchisor under the existing franchise.

(3) A designated family member may only be rejected for succession on reasonable grounds. The franchisor shall provide written notice to the designated family member within sixty days of receipt of notice of the intention to succeed. The notice shall state the specific grounds for refusal, termination, or nonrenewal of the franchise and shall not take effect less than ninety days after receipt of the notice by the designated family member. If notice is not served within the designated time period, the franchise shall continue in effect with the designated family member.

(4) The designated family member may appeal to the appropriate court within ninety days of receipt of notice of refusal, termination, or nonrenewal. The franchisor has the burden of proving reasonable grounds. A designated family member prevailing in such action shall recover reasonable costs and attorney's fees.

(5) A dealer may designate any person as the recipient of the franchise by making a

notarized statement in accordance with RCW 46.94.010(2). The statement shall be filed with the franchisor. The statement shall be controlling and binding on all heirs and testamentary successors. The recipient shall agree to be bound by the terms of the original franchise. The recipient shall meet the reasonable, written, and uniformly applied conditions applied by the franchisor under the existing franchise.

[1985 c 472 § 5.]

Reviser's note: See note at beginning of chapter digest.

RCW 46.94.040 Compensation for warranty, delivery, preparation expenses.

(1) The manufacturer, distributor, or franchisor shall compensate the dealer for labor, parts, and other expenses incurred to comply with the manufacturer, distributor, or franchisor's warranty agreements, and for work and services performed in connection with delivery and preparation of motorcycles received from the manufacturer, distributor, or franchisor. The compensation shall not be less than the rates reasonably charged by the dealer for like services and parts to retail customers.

(2) All claims for compensation made by the dealer shall be paid within thirty days after approval and shall be approved or disapproved within thirty days of their receipt by the manufacturer, distributor, or franchisor.

Any denial of claim shall be in writing and shall set forth the specific grounds for denial.

(3) A claim that has been approved and paid shall not be charged back to the dealer unless it is established the claim was false or fraudulent, that the repairs were not properly made or were unnecessary to correct the defective condition, or the dealer failed to reasonably substantiate the claim.

[1985 c 472 § 8.]

Notes:

Reviser's note: See note at beginning of chapter digest.

RCW 46.94.050 Prohibited financial practices.

No manufacturer, distributor, or franchisor shall require or coerce any dealer to sell, assign, or transfer a retail sales installment contract, or require the dealer to act as an agent for any manufacturer, distributor, or franchisor in the securing of a promissory note, a security agreement given in connection with the sale of a motorcycle, or securing of a policy of insurance for a motorcycle. The manufacturer, distributor, or franchisor may not condition delivery of motorcycles, parts, or accessories upon the dealer's assignment, sale, or other transfer of sales installment contracts to specific finance companies.

[1985 c 472 § 9.]

RCW 46.94.060 Civil remedies.

Any person injured by a violation of this chapter may bring a civil action in a court of

competent jurisdiction to enjoin further violations or to recover damages. Injunctive relief may be granted in an action brought under this chapter without the dealer being required to post a bond if, in the opinion of the court, there exists a likelihood the dealer may prevail upon the merits.

RCW 46.96.010 Legislative findings.

The legislature finds and declares that the distribution and sale of motor vehicles in this state vitally affect the general economy of the state and the public interest and public welfare, that provision for warranty service to motor vehicles is of substantial concern to the people of this state, that the maintenance of fair competition among dealers and others is in the public interest, and that the maintenance of strong and sound dealerships is essential to provide continuing and necessary reliable services to the consuming public in this state and to provide stable employment to the citizens of this state. The legislature further finds that there is a substantial disparity in bargaining power between automobile manufacturers and their dealers, and that in order to promote the public interest and the public welfare, and in the exercise of its police power, it is necessary to regulate the relationship between motor vehicle dealers and motor vehicle manufacturers, importers, distributors, and their representatives doing business in this state, not only for the protection of dealers but also for the benefit for the public in assuring the continued availability and servicing of automobiles sold to the public.

The legislature recognizes it is in the best interest for manufacturers and dealers of motor vehicles to conduct business with each other in a fair, efficient, and competitive manner. The legislature declares the public interest is best served by dealers being assured of the ability to manage their business enterprises under a contractual obligation with manufacturers where dealers do not experience unreasonable interference and are assured of the ability to transfer ownership of their business without undue constraints. It is the intent of the legislature to impose a regulatory scheme and to regulate competition in the motor vehicle industry to the extent necessary to balance fairness and efficiency. These actions will permit motor vehicle dealers to better serve consumers and allow dealers to devote their best competitive efforts and resources to the sale and services of the manufacturer's products to consumers.

RCW 46.96.020 Definitions.

In addition to the definitions contained in RCW 46.70.011, which are incorporated by reference into this chapter, the definitions set forth in this section apply only for the purposes of this chapter.

(1) A "new motor vehicle" is a vehicle that has not been titled by a state and ownership of which may be transferred on a manufacturer's statement of origin (MSO).

(2) "New motor vehicle dealer" means a motor vehicle dealer engaged in the business of buying, selling, exchanging, or otherwise dealing in new motor vehicles or new and used motor vehicles at an established place of business, under a franchise, sales and service agreement, or contract with the manufacturer of the new motor vehicles. However, the term "new motor vehicle dealer" does not include a miscellaneous vehicle dealer as defined in RCW 46.70.011(3)(c) or a motorcycle dealer as defined in chapter 46.94 RCW.

(3) "Franchise" means one or more agreements, whether oral or written, between a manufacturer and a new motor vehicle dealer, under which the new motor vehicle dealer is authorized to sell, service, and repair new motor vehicles, parts, and accessories under a common name, trade name, trademark, or service mark of the manufacturer.

"Franchise" includes an oral or written contract and includes a dealer agreement, either expressed or implied, between a manufacturer and a new motor vehicle dealer that purports to fix the legal rights and liabilities between the parties and under which (a) the dealer is granted the right to purchase and resell motor vehicles manufactured, distributed, or imported by the manufacturer; (b) the dealer's business is associated with the trademark, trade name, commercial symbol, or advertisement designating the franchisor or the products distributed by the manufacturer; and (c) the dealer's business relies on the manufacturer for a continued supply of motor vehicles, parts, and accessories.

(4) "Good faith" means honesty in fact and fair dealing in the trade as defined and interpreted in RCW 62A.2-103.

(5) "Designated successor" means:

(a) The spouse, biological or adopted child, grandchild, parent, brother, or sister of the owner of a new motor vehicle dealership who, in the case of the owner's death, is entitled to inherit the ownership interest in the new motor vehicle dealership under the terms of the owner's will or similar document, and if there is no such will or similar document, then under applicable intestate laws;

(b) A qualified person experienced in the business of a new motor vehicle dealer who has been nominated by the owner of a new motor vehicle dealership as the successor in a written, notarized, and witnessed instrument submitted to the manufacturer; or

(c) In the case of an incapacitated owner of a new motor vehicle dealership, the person who has been appointed by a court as the legal representative of the incapacitated owner's property.

(6) "Owner" means a person holding an ownership interest in the business entity operating as a new motor vehicle dealer and who is the designated dealer in the new motor vehicle franchise agreement.

(7) "Person" means every natural person, partnership, corporation, association, trust, estate, or any other legal entity.

[1989 c 415 § 2.]

RCW 46.96.030 Termination, cancellation, nonrenewal of franchise restricted.

Notwithstanding the terms of a franchise and notwithstanding the terms of a waiver, no manufacturer may terminate, cancel, or fail to renew a franchise with a new motor vehicle dealer, unless the manufacturer has complied with the notice requirements of RCW 46.96.070 and an administrative law judge has determined, if requested in writing by the new motor vehicle dealer within the applicable time period specified in RCW 46.96.070 (1), (2), or (3), after hearing, that there is good cause for the termination, cancellation, or nonrenewal of the franchise and that the manufacturer has acted in good faith, as defined in this chapter, regarding the termination, cancellation, or nonrenewal.

[1989 c 415 § 3.]

RCW 46.96.040 Determination of good cause, good faith--Petition, notice, decision, appeal.

A new motor vehicle dealer who has received written notification from the manufacturer of the manufacturer's intent to terminate, cancel, or not renew the franchise may file a petition with the department for a determination as to the existence of good cause and good faith for the termination, cancellation, or nonrenewal of a franchise. The petition shall contain a short statement setting forth the reasons for the dealer's objection to the termination, cancellation, or nonrenewal of the franchise. Upon the filing of the petition and the receipt of the filing fee, the department shall promptly notify the manufacturer that a timely petition has been filed and shall request the appointment of an administrative law judge under chapter 34.12 RCW to conduct a hearing. The franchise in question shall continue in full force and effect pending the administrative law judge's decision. If the decision of the administrative law judge terminating, canceling, or failing to renew a dealer's franchise is appealed by a dealer, the franchise in question shall continue in full force and effect until the appeal to superior court is finally determined or until the expiration of one hundred eighty days from the date of issuance of the administrative law judge's written decision, whichever is less. Nothing in this section precludes a manufacturer or dealer from petitioning the superior court for a stay or other relief pending judicial review.

[1989 c 415 § 4.]

RCW 46.96.050 Determination of good cause, good faith--Hearing, decision, procedures--Judicial review.

(1) The administrative law judge shall conduct the hearing and render a final decision as expeditiously as possible, but in any event not later than one hundred eighty days after a petition is filed. If the termination, cancellation, or nonrenewal is under RCW 46.96.070(2), the administrative law judge shall give the proceeding priority consideration and shall render a final decision not later than sixty days after a petition is filed.

(2) The administrative law judge shall conduct the hearing as an adjudicative proceeding in accordance with the procedures provided for in the Administrative Procedure Act, chapter 34.05 RCW. The administrative law judge shall render the final decision and shall enter a final order. Except as otherwise provided in RCW 34.05.446 and 34.05.449, all hearing costs shall be borne on an equal basis by the parties to the hearing.

(3) A party to a hearing under this chapter may be represented by counsel. A party to a hearing aggrieved by the final order of the administrative law judge concerning the termination, cancellation, or nonrenewal of a franchise may seek judicial review of the order in the superior court in the manner provided for in RCW 34.05.510 through 34.05.598. A petitioner for judicial review need not exhaust all administrative appeals or administrative review processes as a prerequisite for seeking judicial review under this section.

[1989 c 415 § 5.]

RCW 46.96.060 Good cause, what constitutes--Burden of proof.

(1) Notwithstanding the terms of a franchise or the terms of a waiver, and except as otherwise provided in RCW 46.96.070(2) (a) through (d), good cause exists for termination, cancellation, or nonrenewal when there is a failure by the new motor vehicle dealer to comply with a provision of the franchise that is both reasonable and of material significance to the franchise relationship, if the new motor vehicle dealer was notified of the failure within one hundred eighty days after the manufacturer first acquired knowledge of the failure and the new motor vehicle dealer did not correct the failure after being requested to do so.

If, however, the failure of the new motor vehicle dealer relates to the performance of the new motor vehicle dealer in sales, service, or level of customer satisfaction, good cause is the failure of the new motor vehicle dealer to comply with reasonable performance standards determined by the manufacturer in accordance with uniformly applied criteria, and:

(a) The new motor vehicle dealer was advised, in writing, by the manufacturer of the failure;

(b) The notice under this subsection stated that notice was provided of a failure of performance under this section;

(c) The manufacturer provided the new motor vehicle dealer with specific, reasonable goals or reasonable performance standards with which the dealer must comply, together with a suggested timetable or program for attaining those goals or standards, and the new motor vehicle dealer was given a reasonable opportunity, for a period not less than one hundred eighty days, to comply with the goals or standards; and

(d) The new motor vehicle dealer did not substantially comply with the manufacturer's performance standards during that period and the failure to demonstrate substantial compliance was not due to market or economic factors within the new motor vehicle dealer's relevant market area that were beyond the control of the dealer.

(2) The manufacturer has the burden of proof of establishing good cause and good faith for the termination, cancellation, or nonrenewal of the franchise under this section.

[1989 c 415 § 6.]

RCW 46.96.070 Notice of termination, cancellation, or nonrenewal.

Before the termination, cancellation, or nonrenewal of a franchise, the manufacturer shall give written notification to both the department and the new motor vehicle dealer. The notice shall be by certified mail or personally delivered to the new motor vehicle dealer and shall state the intention to terminate, cancel, or not renew the franchise, the reasons for the termination, cancellation, or nonrenewal, and the effective date of the termination, cancellation, or nonrenewal. The notice shall be given:

(1) Not less than ninety days before the effective date of the termination, cancellation, or nonrenewal;

(2) Not less than fifteen days before the effective date of the termination, cancellation, or nonrenewal with respect to any of the following that constitute good cause for termination,

cancellation, or nonrenewal:

(a) Insolvency of the new motor vehicle dealer or the filing of any petition by or against the new motor vehicle dealer under bankruptcy or receivership law;

(b) Failure of the new motor vehicle dealer to conduct sales and service operations during customary business hours for seven consecutive business days, except for acts of God or circumstances beyond the direct control of the new motor vehicle dealer;

(c) Conviction of the new motor vehicle dealer, or principal operator of the dealership, of a felony punishable by imprisonment; or

(d) Suspension or revocation of a license that the new motor vehicle dealer is required to have to operate the new motor vehicle dealership where the suspension or revocation is for a period in excess of thirty days;

(3) Not less than one hundred eighty days before the effective date of termination, cancellation, or nonrenewal, where the manufacturer intends to discontinue sale and distribution of the new motor vehicle line.

[1989 c 415 § 7.]

RCW 46.96.080 Payments by manufacturer to dealer for inventory, equipment, etc.

(1) Upon the termination, cancellation, or nonrenewal of a franchise by the manufacturer under this chapter, the manufacturer shall pay the new motor vehicle dealer, at a minimum:

(a) Dealer cost plus any charges by the manufacturer for distribution, delivery, and taxes, less all allowances paid or credited to the dealer by the manufacturer, of unused, undamaged, and unsold new motor vehicles in the new motor vehicle dealer's inventory that were acquired from the manufacturer or another new motor vehicle dealer of the same line make within the previous twelve months;

(b) Dealer cost for all unused, undamaged, and unsold supplies, parts, and accessories in original packaging, except that in the case of sheet metal, a comparable substitute for original packaging may be used, if the supply, part, or accessory was acquired from the manufacturer or from another new motor vehicle dealer ceasing operations as a part of the new motor vehicle dealer's initial inventory as long as the supplies, parts, and accessories appear in the manufacturer's current parts catalog, list, or current offering;

(c) Dealer cost for all unused, undamaged, and unsold inventory, whether vehicles, parts, or accessories, the purchase of which was required by the manufacturer;

(d) The fair market value of each undamaged sign owned by the new motor vehicle dealer that bears a common name, trade name, or trademark of the manufacturer, if acquisition of the sign was recommended or required by the manufacturer and the sign is in good and usable condition less reasonable wear and tear, and has not been depreciated by the dealer more than fifty percent of the value of the sign;

(e) The fair market value of all equipment, furnishings, and special tools owned or leased by the new motor vehicle dealer that were acquired from the manufacturer or sources approved by the manufacturer and that were recommended or required by the manufacturer and are in good and usable condition, less reasonable wear and tear. However, if the equipment,

furnishings, or tools are leased by the new motor vehicle dealer, the manufacturer shall pay the new motor vehicle dealer such amounts that are required by the lessor to terminate the lease under the terms of the lease agreement; and

(f) The cost of transporting, handling, packing, and loading of new motor vehicles, supplies, parts, accessories, signs, special tools, equipment, and furnishings.

To the extent the franchise agreement provides for payment or reimbursement to the new motor vehicle dealer in excess of that specified in this section, the provisions of the franchise agreement shall control.

(2) The manufacturer shall pay the new motor vehicle dealer the sums specified in subsection (1) of this section within ninety days after the tender of the property, if the new motor vehicle dealer has clear title to the property and is in a position to convey that title to the manufacturer.

[1989 c 415 § 8.]

RCW 46.96.090 Payments by manufacturer for dealership facilities.

(1) In the event of a termination, cancellation, or nonrenewal under this chapter, except for termination, cancellation, or nonrenewal under RCW 46.96.070(2), the manufacturer shall, at the request and option of the new motor vehicle dealer, also pay to the new motor vehicle dealer:

(a) A sum equivalent to rent for the unexpired term of the lease or one year, whichever is less, or such longer term as provided in the franchise, if the new motor vehicle dealer is leasing the new motor vehicle dealership facilities from a lessor other than the manufacturer; or

(b) A sum equivalent to the reasonable rental value of the new motor vehicle dealership facilities for one year or until the facilities are leased or sold, whichever is less, if the new motor vehicle dealer owns the new motor vehicle dealership facilities.

(2) The rental payment required under subsection (1) of this section is only required to the extent that the facilities were used for activities under the franchise and only to the extent the facilities were not leased for unrelated purposes. If payment under subsection (1) of this section is made, the manufacturer is entitled to possession and use of the new motor vehicle dealership facilities for the period rent is paid.

[1989 c 415 § 9.]

RCW 46.96.100 Mitigation of damages.

RCW 46.96.030 through 46.96.090 do not relieve a new motor vehicle dealer from the obligation to mitigate the dealer's damages upon termination, cancellation, or nonrenewal of the franchise.

[1989 c 415 § 10.]

RCW 46.96.105 Warranty work.

(1) Each manufacturer shall specify in its franchise agreement, or in a separate written agreement, with each of its dealers licensed in this state, the dealer's obligation to perform warranty work or service on the manufacturer's products. Each manufacturer shall provide each of its dealers with a schedule of compensation to be paid to the dealer for any warranty work or service, including parts, labor, and diagnostic work, required of the dealer by the manufacturer in connection with the manufacturer's products.

(2) All claims for warranty work for parts and labor made by dealers under this section shall be paid by the manufacturer within thirty days following receipt, provided the claim has been approved by the manufacturer. The manufacturer has the right to audit claims for warranty work and to charge the dealer for any unsubstantiated, incorrect, or false claims for a period of one year following payment. However, the manufacturer may audit and charge the dealer for any fraudulent claims during any period for which an action for fraud may be commenced under applicable state law.

(3) All claims submitted by dealers on the forms and in the manner specified by the manufacturer shall be either approved or disapproved within thirty days following their receipt. The manufacturer shall notify the dealer in writing of any disapproved claim, and shall set forth the reasons why the claim was not approved. Any claim not specifically disapproved in writing within thirty days following receipt is approved, and the manufacturer is required to pay that claim within thirty days of receipt of the claim.

[1998 c 298 § 1.]

Notes:

Severability--1998 c 298: See note following RCW 19.118.021.

RCW 46.96.110 Designated successor to franchise ownership.

(1) Notwithstanding the terms of a franchise, an owner may appoint a designated successor to succeed to the ownership of the new motor vehicle dealer franchise upon the owner's death or incapacity.

(2) Notwithstanding the terms of a franchise, a designated successor of a deceased or incapacitated owner of a new motor vehicle dealer franchise may succeed to the ownership interest of the owner under the existing franchise, if:

(a) In the case of a designated successor who meets the definition of a designated successor under RCW 46.96.020(5)(a), but who is not experienced in the business of a new motor vehicle dealer, the person will employ an individual who is qualified and experienced in the business of a new motor vehicle dealer to help manage the day-to-day operations of the motor vehicle dealership; or in the case of a designated successor who meets the definition of a designated successor under RCW 46.96.020(5) (b) or (c), the person is qualified and experienced in the business of a new motor vehicle dealer and meets the normal, reasonable, and uniformly applied standards for grant of an application as a new motor vehicle dealer by the manufacturer; and

(b) The designated successor furnishes written notice to the manufacturer of his or her

intention to succeed to the ownership of the new motor vehicle dealership within sixty days after the owner's death or incapacity; and

(c) The designated successor agrees to be bound by all terms and conditions of the franchise.

(3) The manufacturer may request, and the designated successor shall promptly provide, such personal and financial information as is reasonably necessary to determine whether the succession should be honored.

(4) A manufacturer may refuse to honor the succession to the ownership of a new motor vehicle dealer franchise by a designated successor if the manufacturer establishes that good cause exists for its refusal to honor the succession. If the designated successor of a deceased or incapacitated owner of a new motor vehicle dealer franchise fails to meet the requirements set forth in subsections (2)(a), (b), and (c) of this section, good cause for refusing to honor the succession is presumed to exist. If a manufacturer believes that good cause exists for refusing to honor the succession to the ownership of a new motor vehicle dealer franchise by a designated successor, the manufacturer shall serve written notice on the designated successor and on the department of its refusal to honor the succession no earlier than sixty days from the date the notice is served. The notice must be served not later than sixty days after the manufacturer's receipt of:

(a) Notice of the designated successor's intent to succeed to the ownership interest of the new motor vehicle dealer's franchise; or

(b) Any personal or financial information requested by the manufacturer.

(5) The notice in subsection (4) of this section shall state the specific grounds for the refusal to honor the succession. If the notice of refusal is not timely and properly served, the designated successor may continue the franchise in full force and effect, subject to termination only as otherwise provided under this chapter.

(6) Within twenty days after receipt of the notice or within twenty days after the end of any appeal procedure provided by the manufacturer, whichever is greater, the designated successor may file a petition with the department protesting the refusal to honor the succession. The petition shall contain a short statement setting forth the reasons for the designated successor's protest. Upon the filing of a protest and the receipt of the filing fee, the department shall promptly notify the manufacturer that a timely protest has been filed and shall request the appointment of an administrative law judge under chapter 34.12 RCW to conduct a hearing. The manufacturer shall not terminate or otherwise discontinue the existing franchise until the administrative law judge has held a hearing and has determined that there is good cause for refusing to honor the succession. If an appeal is taken, the manufacturer shall not terminate or discontinue the franchise until the appeal to superior court is finally determined or until the expiration of one hundred eighty days from the date of issuance of the administrative law judge's written decision, whichever is less. Nothing in this section precludes a manufacturer or dealer from petitioning the superior court for a stay or other relief pending judicial review.

(7) The manufacturer has the burden of proof to show that good cause exists for the refusal to honor the succession.

(8) The administrative law judge shall conduct the hearing and render a final decision as

expeditiously as possible, but in any event not later than one hundred eighty days after a protest is filed.

(9) The administrative law judge shall conduct any hearing concerning the refusal to the succession as provided in RCW 46.96.050(2) and all hearing costs shall be borne as provided in that subsection. A party to such a hearing aggrieved by the final order of the administrative law judge may appeal as provided and allowed in RCW 46.96.050(3).

(10) This section does not preclude the owner of a new motor vehicle dealer franchise from designating any person as his or her successor by a written, notarized, and witnessed instrument filed with the manufacturer. In the event of a conflict between such a written instrument that has not been revoked by written notice from the owner to the manufacturer and this section, the written instrument governs.

[1989 c 415 § 11.]

RCW 46.96.140 Relevant market area--Definition--New or relocated dealerships, notice of.

(1) For the purposes of this section, and throughout this chapter, the term "relevant market area" is defined as follows:

(a) If the population in the county in which the proposed new or relocated dealership is to be located is four hundred thousand or more, the relevant market area is the geographic area within a radius of eight miles around the proposed site;

(b) If the population in the county in which the proposed new or relocated dealership is to be located is two hundred thousand or more and less than four hundred thousand, the relevant market area is the geographic area within a radius of twelve miles around the proposed site;

(c) If the population in the county in which the proposed new or relocated dealership is to be located is less than two hundred thousand, the relevant market area is the geographic area within a radius of sixteen miles around the proposed site.

In determining population for this definition, the most recent census by the United States Bureau of Census or the most recent population update, either from the National Planning Data Corporation or other similar recognized source, shall be accumulated for all census tracts either wholly or partially within the relevant market area.

(2) For the purpose of RCW 46.96.140 through 46.96.180, the term "motor vehicle dealer" does not include dealerships who exclusively market vehicles 19,000 pounds gross vehicle weight and above.

(3) Notwithstanding the terms of a franchise and notwithstanding the terms of a waiver, if a manufacturer intends or proposes to enter into a franchise to establish an additional new motor vehicle dealer or to relocate an existing new motor vehicle dealer within or into a relevant market area in which the same line make of motor vehicle is then represented, the manufacturer shall provide at least sixty days advance written notice to the department and to each new motor vehicle dealer of the same line make in the relevant market area, of the manufacturer's intention to establish an additional new motor vehicle dealer or to relocate an existing new motor vehicle dealer within or into the relevant market area. The notice shall be sent by certified mail to each

such party and shall include the following information:

- (a) The specific location at which the additional or relocated motor vehicle dealer will be established;
- (b) The date on or after which the additional or relocated motor vehicle dealer intends to commence business at the proposed location;
- (c) The identity of all motor vehicle dealers who are franchised to sell the same line make vehicles as the proposed dealer and who have licensed locations within the relevant market area;
- (d) The names and addresses, if available, of the owners of and principal investors in the proposed additional or relocated motor vehicle dealership; and
- (e) The specific grounds or reasons for the proposed establishment of an additional motor vehicle dealer or relocation of an existing dealer.

[1994 c 274 § 1.]

RCW 46.96.150 Protest of new or relocated dealership--Hearing--Arbitration.

(1) Within thirty days after receipt of the notice under RCW 46.96.140, or within thirty days after the end of an appeal procedure provided by the manufacturer, whichever is greater, a new motor vehicle dealer so notified or entitled to notice may file a petition with the department protesting the proposed establishment or relocation. The petition shall contain a short statement setting forth the reasons for the dealer's objection to the proposed establishment or relocation. Upon the filing of a protest and the receipt of the filing fee, the department shall promptly notify the manufacturer that a timely protest has been filed and shall request the appointment of an administrative law judge under chapter 34.12 RCW to conduct a hearing. The manufacturer shall not establish or relocate the new motor vehicle dealer until the administrative law judge has held a hearing and has determined that there is good cause for permitting the proposed establishment or relocation. When more than one protest is filed against the establishment or relocation of the same dealer, the administrative law judge shall consolidate the hearings to expedite disposition of the matter.

(2) If a manufacturer provides in the franchise agreement or by written statement distributed and provided to its dealers for arbitration under the Washington Arbitration Act, chapter 7.04 RCW, as a mechanism for resolving disputes relating to the establishment of an additional new motor vehicle dealer or the relocation of a new motor vehicle dealer, then the provisions of this section and RCW 46.96.170 relating to hearings by an administrative law judge do not apply, and a dispute regarding the establishment of an additional new motor vehicle dealer or the relocation of an existing new motor vehicle dealer shall be determined in an arbitration proceeding conducted in accordance with the Washington Arbitration Act, chapter 7.04 RCW. The thirty-day period for filing a protest under this section still applies except that the protesting dealer shall file his protest with the manufacturer within thirty days after receipt of the notice under RCW 46.96.140.

(3) The dispute shall be referred for arbitration to such arbitrator as may be agreed upon by the parties to the dispute. If the parties cannot agree upon a single arbitrator within thirty days from the date the protest is filed, the protesting dealer will select an arbitrator, the manufacturer

will select an arbitrator, and the two arbitrators will then select a third. If a third arbitrator is not agreed upon within thirty days, any party may apply to the superior court, and the judge of the superior court having jurisdiction will appoint the third arbitrator. The protesting dealer will pay the arbitrator selected by him, and the manufacturer will pay the arbitrator it selected. The expense of the third arbitrator and all other expenses of arbitration will be shared equally by the parties. Attorneys' fees and fees paid to expert witnesses are not expenses of arbitration and will be paid by the person incurring them.

(4) Notwithstanding the terms of a franchise or written statement of the manufacturer and notwithstanding the terms of a waiver, the arbitration will take place in the state of Washington in the county where the protesting dealer has his principal place of business. RCW 46.96.160 applies to a determination made by the arbitrator or arbitrators in determining whether good cause exists for permitting the proposed establishment or relocation of a new motor vehicle dealer, and the manufacturer has the burden of proof to establish that good cause exists for permitting the proposed establishment or relocation. After a hearing has been held, the arbitrator or arbitrators shall render a decision as expeditiously as possible, but in any event not later than one hundred twenty days from the date the arbitrator or arbitrators are selected or appointed. The manufacturer shall not establish or relocate the new motor vehicle dealer until the arbitration hearing has been held and the arbitrator or arbitrators have determined that there is good cause for permitting the proposed establishment or relocation. The written decision of the arbitrator is binding upon the parties unless modified, corrected, or vacated under the Washington Arbitration Act. Any party may appeal the decision of the arbitrator under the Washington Arbitration Act, chapter 7.04 RCW.

(5) If the franchise agreement or the manufacturer's written statement distributed and provided to its dealers does not provide for arbitration under the Washington Arbitration Act as a mechanism for resolving disputes relating to the establishment of an additional new motor vehicle dealer or the relocation of a new motor vehicle dealer, then the hearing provisions of this section and RCW 46.96.170 apply. Nothing in this section is intended to preclude a new motor vehicle dealer from electing to use any other dispute resolution mechanism offered by a manufacturer.

[1994 c 274 § 2.]

RCW 46.96.160 Factors considered by administrative law judge.

In determining whether good cause exists for permitting the proposed establishment or relocation of a new motor vehicle dealer of the same line make, the administrative law judge shall take into consideration the existing circumstances, including, but not limited to:

(1) The extent, nature, and permanency of the investment of both the existing motor vehicle dealers of the same line make in the relevant market area and the proposed additional or relocating new motor vehicle dealer, including obligations reasonably incurred by the existing dealers to perform their obligations under their respective franchises;

(2) The growth or decline in population and new motor vehicle registrations during the past five years in the relevant market area;

- (3) The effect on the consuming public in the relevant market area;
- (4) The effect on the existing new motor vehicle dealers in the relevant market area, including any adverse financial impact;
- (5) The reasonably expected or anticipated vehicle market for the relevant market area, including demographic factors such as age of population, income, education, size class preference, product popularity, retail lease transactions, or other factors affecting sales to consumers in the relevant market area;
- (6) Whether it is injurious or beneficial to the public welfare for an additional new motor vehicle dealer to be established;
- (7) Whether the new motor vehicle dealers of the same line make in the relevant market area are providing adequate competition and convenient customer care for the motor vehicles of the same line make in the relevant market area, including the adequacy of motor vehicle sales and service facilities, equipment, supply of vehicle parts, and qualified service personnel;
- (8) Whether the establishment of an additional new motor vehicle dealer would increase competition and be in the public interest;
- (9) Whether the manufacturer is motivated principally by good faith to establish an additional or new motor vehicle dealer and not by noneconomic considerations;
- (10) Whether the manufacturer has denied its existing new motor vehicle dealers of the same line make the opportunity for reasonable growth, market expansion, establishment of a subagency, or relocation;
- (11) Whether the protesting dealer or dealers are in substantial compliance with their dealer agreements or franchises; and
- (12) Whether the manufacturer has complied with the requirements of RCW 46.96.140 and 46.96.150.

In considering the factors set forth in this section, the administrative law judge shall give the factors equal weight, and in making a determination as to whether good cause exists for permitting the proposed establishment or relocation of a new motor vehicle dealer of the same line make, the administrative law judge must find that at least nine of the factors set forth in this section weigh in favor of the manufacturer and in favor of the proposed establishment or relocation of a new motor vehicle dealer.

[1994 c 274 § 3.]

RCW 46.96.170 Hearing--Procedures, costs, appeal.

(1) The manufacturer has the burden of proof to establish that good cause exists for permitting the proposed establishment or relocation.

(2) The administrative law judge shall conduct any hearing as provided in RCW 46.96.050(2), and all hearing costs shall be borne as provided in that subsection. The administrative law judge shall render the final decision as expeditiously as possible, but in any event not later than one hundred twenty days after a protest is filed. If more than one protest is filed, the one hundred twenty days commences to run from the date the last protest is filed. A party to such a hearing aggrieved by the final order of the administrative law judge may appeal

as provided and allowed in RCW 46.96.050(3).

[1994 c 274 § 4.]

RCW 46.96.180 Exceptions.

RCW 46.96.140 through 46.96.170 do not apply:

(1) To the sale or transfer of the ownership or assets of an existing new motor vehicle dealer where the transferee proposes to engage in business representing the same line make at the same location or within two miles of that location;

(2) To the relocation of an existing new motor vehicle dealer within the dealer's relevant market area, if the relocation is not at a site within eight miles of any new motor vehicle dealer of the same line make;

(3) If the proposed new motor vehicle dealer is to be established at or within two miles of a location at which a former new motor vehicle dealer of the same line make had ceased operating within the previous twenty-four months;

(4) Where the proposed relocation is two miles or less from the existing location of the relocating new motor vehicle dealer; or

(5) Where the proposed relocation is to be further away from all other existing new motor vehicle dealers of the same line make in the relevant market area.

[1994 c 274 § 5.]

RCW 46.96.185 Unfair practices.

(1) Notwithstanding the terms of a franchise agreement, a manufacturer, distributor, factory branch, or factory representative, or an agent, officer, parent company, wholly or partially owned subsidiary, affiliated entity, or other person controlled by or under common control with a manufacturer, distributor, factory branch, or factory representative, shall not:

(a) Discriminate between new motor vehicle dealers by selling or offering to sell a like vehicle to one dealer at a lower actual price than the actual price offered to another dealer for the same model similarly equipped;

(b) Discriminate between new motor vehicle dealers by selling or offering to sell parts or accessories to one dealer at a lower actual price than the actual price offered to another dealer;

(c) Discriminate between new motor vehicle dealers by using a promotion plan, marketing plan, or other similar device that results in a lower actual price on vehicles, parts, or accessories being charged to one dealer over another dealer;

(d) Discriminate between new motor vehicle dealers by adopting a method, or changing an existing method, for the allocation, scheduling, or delivery of new motor vehicles, parts, or accessories to its dealers that is not fair, reasonable, and equitable. Upon the request of a dealer, a manufacturer, distributor, factory branch, or factory representative shall disclose in writing to the dealer the method by which new motor vehicles, parts, and accessories are allocated, scheduled, or delivered to its dealers handling the same line or make of vehicles;

(e) Give preferential treatment to some new motor vehicle dealers over others by refusing

or failing to deliver, in reasonable quantities and within a reasonable time after receipt of an order, to a dealer holding a franchise for a line or make of motor vehicles sold or distributed by the manufacturer, distributor, factory branch, or factory representative, a new vehicle, parts, or accessories, if the vehicle, parts, or accessories are being delivered to other dealers, or require a dealer to purchase unreasonable advertising displays or other materials, or unreasonably require a dealer to remodel or renovate existing facilities as a prerequisite to receiving a model or series of vehicles;

(f) Compete with a new motor vehicle dealer by acting in the capacity of a new motor vehicle dealer, or by owning, operating, or controlling, whether directly or indirectly, a motor vehicle dealership in this state. It is not, however, a violation of this subsection for:

(i) A manufacturer, distributor, factory branch, or factory representative to own or operate a dealership for a temporary period, not to exceed two years, during the transition from one owner of the dealership to another where the dealership was previously owned by a franchised dealer and is currently for sale to any qualified independent person at a fair and reasonable price. The temporary operation may be extended for one twelve-month period on petition of the temporary operator to the department. The matter will be handled as an adjudicative proceeding under chapter 34.05 RCW. A dealer who is a franchisee of the petitioning manufacturer or distributor may intervene and participate in a proceeding under this subsection (1)(f)(i). The temporary operator has the burden of proof to show justification for the extension and a good faith effort to sell the dealership to an independent person at a fair and reasonable price;

(ii) A manufacturer, distributor, factory branch, or factory representative to own or operate a dealership in conjunction with an independent person in a bona fide business relationship for the purpose of broadening the diversity of its dealer body and enhancing opportunities for qualified persons who are part of a group who have historically been underrepresented in its dealer body, or other qualified persons who lack the resources to purchase a dealership outright, and where the independent person: (A) Has made a significant, bona fide capital investment in the dealership that is subject to loss; (B) has an ownership interest in the dealership; and (C) operates the dealership under a bona fide written agreement with the manufacturer, distributor, factory branch, or factory representative under which he or she will acquire all of the ownership interest in the dealership within a reasonable period of time and under reasonable terms and conditions. The manufacturer, distributor, factory branch, or factory representative has the burden of proof of establishing that the acquisition of the dealership by the independent person was made within a reasonable period of time and under reasonable terms and conditions;

(iii) A manufacturer, distributor, factory branch, or factory representative to own or operate a dealership in conjunction with an independent person in a bona fide business relationship where the independent person: (A) Has made a significant, bona fide capital investment in the dealership that is subject to loss; (B) has an ownership interest in the dealership; and (C) operates the dealership under a bona fide written agreement with the manufacturer, distributor, factory branch, or factory representative under which he or she will acquire all of the ownership interest in the dealership within a reasonable period of time and

under reasonable terms and conditions. The manufacturer, distributor, factory branch, or factory representative has the burden of proof of establishing that the acquisition of the dealership by the independent person was made within a reasonable period of time and under reasonable terms and conditions. The number of dealerships operated under this subsection (1)(f)(iii) may not exceed four percent rounded up to the nearest whole number of a manufacturer's total of new motor vehicle dealer franchises in this state;

(iv) A truck manufacturer to own, operate, or control a new motor vehicle dealership that sells only trucks of that manufacturer's line make with a gross vehicle weight rating of 12,500 pounds or more, and the truck manufacturer has been continuously engaged in the retail sale of the trucks at least since January 1, 1993; or

(v) A manufacturer to own, operate, or control a new motor vehicle dealership trading exclusively in a single line make of the manufacturer if (A) the manufacturer does not own, directly or indirectly, in the aggregate, in excess of forty-five percent of the total ownership interest in the dealership, (B) at the time the manufacturer first acquires ownership or assumes operation or control of any such dealership, the distance between any dealership thus owned, operated, or controlled and the nearest new motor vehicle dealership trading in the same line make of vehicle and in which the manufacturer has no ownership or control is not less than fifteen miles and complies with the applicable provisions in the relevant market area sections of this chapter, (C) all of the manufacturer's franchise agreements confer rights on the dealer of that line make to develop and operate within a defined geographic territory or area, as many dealership facilities as the dealer and the manufacturer agree are appropriate, and (D) as of January 1, 2000, the manufacturer had no more than four new motor vehicle dealers of that manufacturer's line make in this state, and at least half of those dealers owned and operated two or more dealership facilities in the geographic territory or area covered by their franchise agreements with the manufacturer;

(g) Compete with a new motor vehicle dealer by owning, operating, or controlling, whether directly or indirectly, a service facility in this state for the repair or maintenance of motor vehicles under the manufacturer's new car warranty and extended warranty. Nothing in this subsection (1)(g), however, prohibits a manufacturer, distributor, factory branch, or factory representative from owning or operating a service facility for the purpose of providing or performing maintenance, repair, or service work on motor vehicles that are owned by the manufacturer, distributor, factory branch, or factory representative;

(h) Use confidential or proprietary information obtained from a new motor vehicle dealer to unfairly compete with the dealer. For purposes of this subsection (1)(h), "confidential or proprietary information" means trade secrets as defined in RCW 19.108.010, business plans, marketing plans or strategies, customer lists, contracts, sales data, revenues, or other financial information.

(2) Subsection (1)(a), (b), and (c) of this section do not apply to sales to a motor vehicle dealer: (a) For resale to a federal, state, or local government agency; (b) where the vehicles will be sold or donated for use in a program of driver's education; (c) where the sale is made under a manufacturer's bona fide promotional program offering sales incentives or rebates; (d) where the sale of parts or accessories is under a manufacturer's bona fide quantity discount program; or (e)

where the sale is made under a manufacturer's bona fide fleet vehicle discount program. For purposes of this subsection, "fleet" means a group of fifteen or more new motor vehicles purchased or leased by a dealer at one time under a single purchase or lease agreement for use as part of a fleet, and where the dealer has been assigned a fleet identifier code by the department of licensing.

(3) The following definitions apply to this section:

(a) "Actual price" means the price to be paid by the dealer less any incentive paid by the manufacturer, distributor, factory branch, or factory representative, whether paid to the dealer or the ultimate purchaser of the vehicle.

(b) "Control" or "controlling" means (i) the possession of, title to, or control of ten percent or more of the voting equity interest in a person, whether directly or indirectly through a fiduciary, agent, or other intermediary, or (ii) the possession, direct or indirect, of the power to direct or cause the direction of the management or policies of a person, whether through the ownership of voting securities, through director control, by contract, or otherwise, except as expressly provided under the franchise agreement.

(c) "Motor vehicles" does not include trucks that are 14,001 pounds gross vehicle weight and above or recreational vehicles as defined in RCW 43.22.335.

(d) "Operate" means to manage a dealership, whether directly or indirectly.

(e) "Own" or "ownership" means to hold the beneficial ownership of one percent or more of any class of equity interest in a dealership, whether the interest is that of a shareholder, partner, limited liability company member, or otherwise. To hold an ownership interest means to have possession of, title to, or control of the ownership interest, whether directly or indirectly through a fiduciary, agent, or other intermediary.

(4) A violation of this section is deemed to affect the public interest and constitutes an unlawful and unfair practice under chapter 19.86 RCW. A person aggrieved by an alleged violation of this section may petition the department to have the matter handled as an adjudicative proceeding under chapter 34.05 RCW.

[2000 c 203 § 1.]

RCW 46.96.190 Prohibited practices by manufacturer.

A manufacturer shall not coerce, threaten, intimidate, or require a new motor vehicle dealer, as a condition to granting or renewing a franchise, to waive, limit, or disclaim a right that the dealer may have to protest the establishment or relocation of another motor vehicle dealer in the relevant market area as provided in RCW 46.96.150.

[1994 c 274 § 6.]

RCW 46.96.200 Sale, transfer, or exchange of franchise.

(1) Notwithstanding the terms of a franchise, a manufacturer shall not unreasonably withhold consent to the sale, transfer, or exchange of a franchise to a qualified buyer who meets the normal, reasonable, and uniformly applied standards established by the manufacturer for the

appointment of a new dealer or is capable of being licensed as a new motor vehicle dealer in the state of Washington. A decision or determination made by the administrative law judge as to whether a qualified buyer is capable of being licensed as a new motor vehicle dealer in the state of Washington is not conclusive or determinative of any ultimate determination made by the department of licensing as to the buyer's qualification for a motor vehicle dealer license. A manufacturer's failure to respond in writing to a request for consent under this subsection within sixty days after receipt of a written request on the forms, if any, generally used by the manufacturer containing the information and reasonable promises required by a manufacturer is deemed to be consent to the request. A manufacturer may request, and, if so requested, the applicant for a franchise (a) shall promptly provide such personal and financial information as is reasonably necessary to determine whether the sale, transfer, or exchange should be approved, and (b) shall agree to be bound by all reasonable terms and conditions of the franchise.

(2) If a manufacturer refuses to approve the sale, transfer, or exchange of a franchise, the manufacturer shall serve written notice on the applicant, the transferring, selling, or exchanging new motor vehicle dealer, and the department of its refusal to approve the transfer of the franchise no later than sixty days after the date the manufacturer receives the written request from the new motor vehicle dealer. If the manufacturer has requested personal or financial information from the applicant under subsection (1) of this section, the notice shall be served not later than sixty days after the receipt of all of such documents. Service of all notices under this section shall be made by personal service or by certified mail, return receipt requested.

(3) The notice in subsection (2) of this section shall state the specific grounds for the refusal to approve the sale, transfer, or exchange of the franchise.

(4) Within twenty days after receipt of the notice of refusal to approve the sale, transfer, or exchange of the franchise by the transferring new motor vehicle dealer, the new motor vehicle dealer may file a petition with the department to protest the refusal to approve the sale, transfer, or exchange. The petition shall contain a short statement setting forth the reasons for the dealer's protest. Upon the filing of a protest and the receipt of the filing fee, the department shall promptly notify the manufacturer that a timely protest has been filed, and the department shall arrange for a hearing with an administrative law judge as the presiding officer to determine if the manufacturer unreasonably withheld consent to the sale, transfer, or exchange of the franchise.

(5) In determining whether the manufacturer unreasonably withheld its approval to the sale, transfer, or exchange, the manufacturer has the burden of proof that it acted reasonably. A manufacturer's refusal to accept or approve a proposed buyer who otherwise meets the normal, reasonable, and uniformly applied standards established by the manufacturer for the appointment of a new dealer, or who otherwise is capable of being licensed as a new motor vehicle dealer in the state of Washington, is presumed to be unreasonable.

(6) The administrative law judge shall conduct a hearing and render a final decision as expeditiously as possible, but in any event not later than one hundred twenty days after a protest is filed. Only the selling, transferring, or exchanging new motor vehicle dealer and the manufacturer may be parties to the hearing.

(7) The administrative law judge shall conduct any hearing as provided in RCW 46.96.050(2), and all hearing costs shall be borne as provided in that subsection. Only the

manufacturer and the selling, transferring, or exchanging new motor vehicle dealer may appeal the final order of the administrative law judge as provided in RCW 46.96.050(3).

(8) This section and RCW 46.96.030 through 46.96.110 apply to all franchises and contracts existing on July 23, 1989, between manufacturers and new motor vehicle dealers as well as to all future franchises and contracts between manufacturers and new motor vehicle dealers.

(9) RCW 46.96.140 through 46.96.190 apply to all franchises and contracts existing on October 1, 1994, between manufacturers and new motor vehicle dealers as well as to all future franchises and contracts between manufacturers and new motor vehicle dealers.

[1994 c 274 § 7; 1989 c 415 § 18. Formerly RCW 46.96.120.]

RCW 46.96.210 Petition and hearing--Filing fee, costs, security.

The department shall determine and establish the amount of the filing fee required in RCW 46.96.040, 46.96.110, 46.96.150, and 46.96.200. The fees shall be set in accordance with RCW 43.24.086.

The department may also require the petitioning or protesting party to give security, in such sum as the department deems proper but not in any event to exceed one thousand dollars, for the payment of such costs as may be incurred in conducting the hearing as required under this chapter. The security may be given in the form of a bond or stipulation or other undertaking with one or more sureties.

At the conclusion of the hearing, the department shall assess, in equal shares, each of the parties to the hearing for the cost of conducting the hearing. Upon receipt of payment of the costs, the department shall refund and return to the petitioning party such excess funds, if any, initially posted by the party as security for the hearing costs. If the petitioning party provided security in the form of a bond or other undertaking with one or more sureties, the bond or other undertaking shall then be exonerated and the surety or sureties under it discharged.

If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

RCW 47.01.011 Legislative declaration.

The legislature hereby recognizes the following imperative needs within the state: To create a state-wide transportation development plan which identifies present status and sets goals for the future; to coordinate transportation modes; to promote and protect land use programs required in local, state and federal law; to coordinate transportation with the economic development of the state; to supply a broad framework in which regional, metropolitan, and local transportation needs can be related; to facilitate the supply of federal and state aid to those areas which will most benefit the state as a whole; to provide for public involvement in the transportation planning and development process; to administer programs within the jurisdiction of this title relating to the safety of the state's transportation systems; and to coordinate and implement national transportation policy with the state transportation planning program.

The legislature finds and declares that placing all elements of transportation in a single department is fully consistent with and shall in no way impair the use of moneys in the motor vehicle fund exclusively for highway purposes.

Through this chapter, a unified department of transportation is created. To the jurisdiction of this department will be transferred the present powers, duties, and functions of the department of highways, the highway commission, the toll bridge authority, the aeronautics commission, and the canal commission, and the transportation related powers, duties, and functions of the *planning and community affairs agency.

Identification of environmental costs of transportation projects--Pilot project--1993 c 59:

"Recognizing the importance of maintaining the quality of life in Washington state, the citizens of this state demand protection and preservation of our scarce natural resources. Citizens also demand an efficient and effective transportation system. The departments of transportation, ecology, fisheries, and wildlife and the Puget Sound water quality authority have worked jointly to develop cooperative approaches for mitigating environmental impacts resulting from transportation projects. Nevertheless, many transportation projects are costing more than was budgeted due to unanticipated and extensive environmental considerations. It is the intent of the legislature to find a process for accessing, budgeting, and accounting for environmental costs related to significant transportation projects in order to determine whether the environmental costs exceed the transportation benefits of a project.

Therefore, the department of transportation shall undertake a pilot program in at least one transportation district that will serve as a case study for the entire department. The department shall identify and cost out the discrete environmental elements of a representative sampling of transportation projects. The environmental elements should include, but not necessarily be limited to, wetlands, storm water, hazardous waste, noise, fish, and wildlife. The department shall also consider an assessment of the cost impacts resulting from delays associated with permitting requirements.

It is the intent of the legislature that the environmental cost estimates be developed during a detailed scoping process that will include preliminary engineering and design. After the detailed scoping process and design report is complete, the department shall submit project-specific recommendations and cost estimates to the transportation commission before approval is granted for the construction phase of the projects.

Based upon the findings of the pilot program the transportation commission shall recommend policies to the legislative transportation committee regarding: (1) The current practice of appropriating design and construction dollars simultaneously; (2) identification of reasonable thresholds for environmental costs; (3) budget and accounting modifications that may be warranted in order to accurately capture environmental costs associated with transportation projects; and (4) modification to the priority array statutes, chapter 47.05 RCW." [1993 c 59 § 1.]

RCW 47.01.260 Authority of department.

(1) The department of transportation shall exercise all the powers and perform all the duties necessary, convenient, or incidental to the planning, locating, designing, constructing, improving, repairing, operating, and maintaining state highways, including bridges and other structures, culverts, and drainage facilities and channel changes necessary for the protection of state highways, and shall examine and allow or disallow bills for any work or services performed or materials, equipment, or supplies furnished.

(2) Subject to the limitations of RCW 4.24.115, the department, in the exercise of any of its powers, may include in any authorized contract a provision for indemnifying the other contracting party against specific loss or damages arising out of the performance of the contract.

(3) The department is authorized to acquire property as provided by law and to construct and maintain thereon any buildings or structures necessary or convenient for the planning, design, construction, operation, maintenance, and administration of the state highway system and to acquire property and to construct and maintain any buildings, structures, appurtenances, and facilities necessary or convenient to the health and safety and for the accommodation of persons traveling upon state highways.

(4) The department is authorized to engage in planning surveys and may collect, compile, and analyze statistics and other data relative to existing and future highways and highway needs

throughout the state, and shall conduct research, investigations, and testing as it deems necessary to improve the methods of construction and maintenance of highways and bridges.

RCW 47.01.280 Application for improvements to existing highways.

(1) Upon receiving an application for improvements to an existing state highway or highways pursuant to RCW 43.160.074 from the community economic revitalization board, the transportation commission shall, in a timely manner, determine whether or not the proposed state highway improvements:

- (a) Meet the safety and design criteria of the department of transportation;
- (b) Will impair the operational integrity of the existing highway system;
- (c) Will affect any other improvements planned by the department; and
- (d) Will be consistent with its policies developed pursuant to RCW 47.01.071.

(2) Upon completion of its determination of the factors contained in subsection (1) of this section and any other factors it deems pertinent, the transportation commission shall forward its approval, as submitted or amended or disapproval of the proposed improvements to the board, along with any recommendation it may wish to make concerning the desirability and feasibility of the proposed development. If the transportation commission disapproves any proposed improvements, it shall specify its reasons for disapproval.

(3) Upon notification from the board of an application's approval pursuant to RCW 43.160.074, the transportation commission shall direct the department of transportation to carry out the improvements in coordination with the applicant.

(4) The transportation commission shall notify the legislative transportation committee of all state highway improvements to be carried out pursuant to RCW 43.160.074 and this section.

RCW 47.01.290 Environmental review of transportation projects.

The legislature recognizes that environmental review of transportation projects is a

continuous process that should begin at the earliest stages of planning and continue through final project construction. Early and extensive involvement of the relevant environmental regulatory authorities is critical in order to avoid significant changes in substantially completed project design and engineering. It is the expectation of the legislature that if a comprehensive environmental approach is integrated throughout various transportation processes, onerous, duplicative, and time-consuming permit processes will be minimized.

[1965 ex.s. c 167 § 6.]

RCW 47.02.070 Bonds--Statement describing nature of obligation--Pledge of excise taxes.

Bonds issued under the provisions of this chapter shall distinctly state that they are not a general obligation of the state but are payable in the manner provided in this chapter from the proceeds of state excise taxes on motor vehicle fuels imposed by chapter 82.36 and *chapter 82.40 RCW. The proceeds of such excise taxes are hereby pledged to the payment of any bonds and the interest thereon issued under the provisions of this chapter and the legislature hereby agrees to continue to impose the same excise taxes on motor vehicle fuels in amounts sufficient to pay, when due, the principal and interest on all bonds issued under the provisions of this chapter.

[1965 ex.s. c 167 § 7.]

Notes:

*Reviser's note: Chapter 82.40 RCW was repealed by 1971 ex.s. c 175 § 33; for later enactment, see chapter 82.38 RCW.

Any funds required to repay such bonds, or the interest thereon when due, shall be taken

from that portion of the motor vehicle fund which results from the imposition of excise taxes on motor vehicle fuels and which is, or may be appropriated to the department for state highway purposes, and shall never constitute a charge against any allocations of such funds to counties, cities, and towns unless and until the amount of the motor vehicle fund arising from the excise taxes on motor vehicle fuels and available for state highway purposes proves insufficient to meet the requirements for bond retirement or interest on any such bonds.

[1984 c 7 § 84; 1965 ex.s. c 167 § 8.]

Notes:

Severability--1984 c 7: See note following RCW 47.01.141.

RCW 47.02.090 Bonds--Repayment procedure--Highway bond retirement fund.

At least one year prior to the date any interest is due and payable on such bonds or before the maturity date of any bonds, the state finance committee shall estimate the percentage of the receipts in money of the motor vehicle fund, resulting from collection of excise taxes on motor vehicle fuels, for each month of the year which will be required to meet interest or bond payments under the provisions of this chapter when due, and shall notify the state treasurer of such estimated requirement. The state treasurer shall thereafter from time to time each month as such funds are paid into the motor vehicle fund, transfer such percentage of the monthly receipts from excise taxes on motor vehicle fuels of the motor vehicle fund to the highway bond retirement fund, which fund shall be available solely for payment of such interest or bonds when due. If in any month it shall appear that the estimated percentage of money so made is insufficient to meet the requirements for interest or bond retirement, the treasurer shall notify the state finance committee forthwith and such committee shall adjust its estimates so that all requirements for interest and principal of all bonds issued shall be fully met at all times.

[1965 ex.s. c 167 § 9.]

RCW 47.02.100 Bonds--Sums in excess of retirement requirements--Use.

Whenever the percentage of the motor vehicle fund arising from excise taxes on motor fuels payable into the highway bond retirement fund shall prove more than is required for the payment of interest on bonds when due or current retirement of bonds, or in the event there is appropriated from time to time additional amounts to be placed in the said bond retirement fund, any excess may, in the discretion of the state finance committee, be available for the prior redemption of any bonds or remain available in the fund to reduce the requirements upon the fuel excise tax portion of the motor vehicle fund at the next interest or bond payment period.

[1965 ex.s. c 167 § 10.]

RCW 47.02.110 Bonds--Appropriation from motor vehicle fund.

There is hereby appropriated from the motor vehicle fund to the state highway

commission for the biennium ending June 30, 1967, the sum of four million dollars, or so much thereof as may be necessary to carry out the provisions of this chapter, but no money shall be available under this appropriation from said fund unless a like amount of bonds provided for herein are sold and the money derived therefrom deposited to the credit of such fund.

[1965 ex.s. c 167 § 11.]

RCW 47.02.120 District 1 headquarters bonds--Issuance and sale.

Bonds authorized by RCW 47.02.120 through 47.02.190 shall be sold in such manner, at such time or times, in such amounts, and at such price as the state finance committee shall determine. Except for the purpose of repaying the loan from the motor vehicle fund, no such bonds may be offered for sale without prior legislative appropriation of the net proceeds of the sale of the bonds.

The state finance committee shall consider the issuance of short-term obligations in lieu of long-term obligations for the purposes of more favorable interest rates, lower total interest costs, and increased marketability and for the purpose of retiring the bonds during the life of the

The state treasurer shall withdraw revenues from the motor vehicle fund and deposit in the highway bond retirement fund, or a special account in the fund, such amounts, and at such times, as are required by the bond proceedings.

Any funds required for bond retirement or interest on the bonds authorized by RCW 47.02.120 through 47.02.190 shall be taken from that portion of the motor vehicle fund that results from the imposition of excise taxes on motor vehicle and special fuels and that is distributed to the state under RCW 46.68.130. Funds required shall never constitute a charge against any other allocations of motor vehicle fuel and special fuel tax revenues to the state, counties, cities, and towns unless the amount arising from excise taxes on motor vehicle and special fuels distributed to the state under RCW 46.68.130 proves insufficient to meet the requirements for bond retirement or interest on any such bonds.

RCW 47.04.210 Reimbursable transportation expenditures--Processing and accounting.

Federal funds that are administered by the department of transportation and are passed through to municipal corporations or political subdivisions of the state and moneys that are received as total reimbursement for goods, services, or projects constructed by the department of transportation are removed from the transportation budget. To process and account for these expenditures a new treasury trust account is created to be used for all department of transportation one hundred percent federal and local reimbursable transportation expenditures. This new account is nonbudgeted and nonappropriated. At the same time, federal and private local appropriations and full-time equivalents in subprograms R2, R3, T6, Y6, and Z2 processed through this new account are removed from the department of transportation's 1997-99 budget.

The department of transportation may make expenditures from the account before receiving federal and local reimbursements. However, at the end of each biennium, the account must maintain a zero or positive cash balance. In the twenty-fourth month of each biennium the department of transportation shall calculate and transfer sufficient cash from either the motor vehicle fund or the multimodal transportation account to cover any negative cash balances. The amount transferred is calculated based on expenditures from each fund. In addition, any interest charges accruing to the new account must be distributed to the motor vehicle fund and the multimodal transportation account.

The department of transportation shall provide an annual report to the legislative

transportation committee and the office of financial management on expenditures and full-time equivalents processed through the new account. The report must also include recommendations for process changes, if needed.

RCW 47.05.010 Declaration of purpose.

The legislature finds that solutions to state highway deficiencies have become increasingly complex and diverse and that anticipated transportation revenues will fall substantially short of the amount required to satisfy all transportation needs. Difficult investment trade-offs will be required.

It is the intent of the legislature that investment of state transportation funds to address deficiencies on the state highway system be based on a policy of priority programming having as

its basis the rational selection of projects and services according to factual need and an evaluation of life cycle costs and benefits and which are systematically scheduled to carry out defined objectives within available revenue.

The priority programming system shall ensure preservation of the existing state highway system, provide mobility for people and goods, support the state's economy, and promote environmental protection and energy conservation.

The priority programming system shall implement the state-owned highway component of the state-wide multimodal transportation plan, consistent with local and regional transportation plans, by targeting state transportation investment to appropriate multimodal solutions which address identified state highway system deficiencies.

The priority programming system for improvements shall incorporate a broad range of solutions that are identified in the state-wide multimodal transportation plan as appropriate to address state highway system deficiencies including but not limited to highway expansion, efficiency improvements, nonmotorized transportation facilities, high occupancy vehicle facilities, transit facilities and services, rail facilities and services, and transportation demand management programs.

RCW 47.05.021 Functional classification of highways.

(1) The transportation commission is hereby directed to conduct periodic analyses of the entire state highway system, report thereon to the chairs of the transportation committees of the senate and house of representatives, including one copy to the staff of each of the committees, biennially and based thereon, to subdivide, classify, and subclassify according to their function and importance all designated state highways and those added from time to time and periodically review and revise the classifications into the following three functional classes:

(a) The "principal arterial system" shall consist of a connected network of rural arterial routes with appropriate extensions into and through urban areas, including all routes designated as part of the interstate system, which serve corridor movements having travel characteristics indicative of substantial state-wide and interstate travel;

(b) The "minor arterial system" shall, in conjunction with the principal arterial system, form a rural network of arterial routes linking cities and other activity centers which generate long distance travel, and, with appropriate extensions into and through urban areas, form an integrated network providing interstate and interregional service; and

(c) The "collector system" shall consist of routes which primarily serve the more important intercounty, intracounty, and intraurban travel corridors, collect traffic from the system of local access roads and convey it to the arterial system, and on which, regardless of traffic volume, the predominant travel distances are shorter than on arterial routes.

(2) In making the functional classification the transportation commission shall adopt and give consideration to criteria consistent with this section and federal regulations relating to the functional classification of highways, including but not limited to the following:

(a) Urban population centers within and without the state stratified and ranked according

to size;

(b) Important traffic generating economic activities, including but not limited to recreation, agriculture, government, business, and industry;

(c) Feasibility of the route, including availability of alternate routes within and without the state;

(d) Directness of travel and distance between points of economic importance;

(e) Length of trips;

(f) Character and volume of traffic;

(g) Preferential consideration for multiple service which shall include public transportation;

(h) Reasonable spacing depending upon population density; and

(i) System continuity.

(3) The transportation commission shall designate state highways of state-wide significance under RCW 47.06.140, and shall submit a list of such facilities for adoption by the 1999 legislature. This state-wide system shall include at a minimum interstate highways and other state-wide principal arterials that are needed to connect major communities across the state and support the state's economy.

(4) The transportation commission shall designate a freight and goods transportation system. This state-wide system shall include state highways, county roads, and city streets. The commission, in cooperation with cities and counties, shall review and make recommendations to the legislature regarding policies governing weight restrictions and road closures which affect the transportation of freight and goods.

Section 2 of this 1977 act shall take effect July 1, 1979." [1977 ex.s. c 130 § 3.] "Section 1 of this 1977 act" is codified as RCW 47.05.021; "Section 2 of this 1977 act" repealed RCW 47.05.020.

RCW 47.05.030 Six-year programs--Investments, improvements, preservation.

The transportation commission shall adopt a comprehensive six-year investment program specifying program objectives and performance measures for the preservation and improvement programs defined in this section. In the specification of investment program objectives and performance measures, the transportation commission, in consultation with the Washington state department of transportation, shall define and adopt standards for effective programming and prioritization practices including a needs analysis process. The needs analysis process shall

ensure the identification of problems and deficiencies, the evaluation of alternative solutions and trade-offs, and estimations of the costs and benefits of prospective projects. The investment program shall be revised biennially, effective on July 1st of odd-numbered years. The investment program shall be based upon the needs identified in the state-owned highway component of the state-wide multimodal transportation plan as defined in RCW 47.01.071(3).

(1) The preservation program shall consist of those investments necessary to preserve the existing state highway system and to restore existing safety features, giving consideration to lowest life cycle costing. The comprehensive six-year investment program for preservation shall identify projects for two years and an investment plan for the remaining four years.

(2) The improvement program shall consist of investments needed to address identified deficiencies on the state highway system to improve mobility, safety, support for the economy, and protection of the environment. The six-year investment program for improvements shall identify projects for two years and major deficiencies proposed to be addressed in the six-year period giving consideration to relative benefits and life cycle costing. The transportation commission shall give higher priority for correcting identified deficiencies on those facilities classified as facilities of state-wide significance as defined in RCW 47.06.140.

The transportation commission shall approve and present the comprehensive six-year investment program to the legislature in support of the biennial budget request under RCW 44.40.070 and 44.40.080.

In developing program objectives and performance measures, the transportation commission shall evaluate investment trade-offs between the preservation and improvement programs. In making these investment trade-offs, the commission shall evaluate, using cost-benefit techniques, roadway and bridge maintenance activities as compared to roadway and bridge preservation program activities and adjust those programs accordingly.

The commission shall allocate the estimated revenue between preservation and improvement programs giving primary consideration to the following factors:

(1) The relative needs in each of the programs and the system performance levels that can be achieved by meeting these needs;

(2) The need to provide adequate funding for preservation to protect the state's investment in its existing highway system;

(3) The continuity of future transportation development with those improvements previously programmed; and

(4) The availability of dedicated funds for a specific type of work.

RCW 47.05.051 Six-year comprehensive investment program--Priority selection criteria--Improvement program criteria--Departure from criteria.

The comprehensive six-year investment program shall be based upon the needs identified in the state-owned highway component of the state-wide multimodal transportation plan as defined in RCW 47.01.071(3) and priority selection systems that incorporate the following criteria:

(1) Priority programming for the preservation program shall take into account the following, not necessarily in order of importance:

- (a) Extending the service life of the existing highway system;
- (b) Ensuring the structural ability to carry loads imposed upon highways and bridges; and

(2) Priority programming for the improvement program shall take into account the following:

- (a) Support for the state's economy, including job creation and job preservation;
- (b) The cost-effective movement of people and goods;
- (c) Accident and accident risk reduction;
- (d) Protection of the state's natural environment;
- (e) Continuity and systematic development of the highway transportation network;
- (f) Consistency with local comprehensive plans developed under chapter 36.70A RCW;
- (g) Consistency with regional transportation plans developed under chapter 47.80 RCW;

- (j) Feasibility of financing the full proposed improvement;
- (k) Commitments established in previous legislative sessions;
- (l) Relative costs and benefits of candidate programs;
- (m) Major projects addressing capacity deficiencies which prioritize allowing for preliminary engineering shall be reprioritized during the succeeding biennium, based upon updated project data. Reprioritized projects may be delayed or canceled by the transportation commission if higher priority projects are awaiting funding; and
- (n) Major project approvals which significantly increase a project's scope or cost from original prioritization estimates shall include a review of the project's estimated revised priority rank and the level of funding provided. Projects may be delayed or canceled by the transportation commission if higher priority projects are awaiting funding.

(3) The commission may depart from the priority programming established under subsections (1) and (2) of this section: (a) To the extent that otherwise funds cannot be utilized feasibly within the program; (b) as may be required by a court judgment, legally binding

agreement, or state and federal laws and regulations; (c) as may be required to coordinate with federal, local, or other state agency construction projects; (d) to take advantage of some substantial financial benefit that may be available; (e) for continuity of route development; or (f) because of changed financial or physical conditions of an unforeseen or emergent nature. The commission or secretary of transportation shall maintain in its files information sufficient to show the extent to which the commission has departed from the established priority.

(4) The commission shall identify those projects that yield freight mobility benefits or that alleviate the impacts of freight mobility upon affected communities.

Environmental review of transportation projects: RCW 47.01.290.

RCW 47.06.010 Findings.

The legislature recognizes that the ownership and operation of Washington's transportation system is spread among federal, state, and local government agencies, regional transit agencies, port districts, and the private sector. The legislature also recognizes that transportation planning authority is shared on the local, regional, and state levels, and that this planning must be a comprehensive and coordinated effort. While significant authority for transportation planning is vested with local agencies and regional transportation planning organizations under the growth management act, the legislature recognizes that certain transportation issues and facilities cross local and regional boundaries and are vital to the state-wide economy and the cross-state mobility of people and goods. Therefore, the state has an appropriate role in developing state-wide transportation plans that address state jurisdiction facilities and services as well as transportation facilities and services of state interest. These plans shall serve as a guide for short-term investment needs and provide a long-range vision for transportation system development.

[1993 c 446 § 1.]

RCW 47.06.020 Role of department.

The specific role of the department in transportation planning shall be (1) ongoing coordination and development of state-wide transportation policies that guide all Washington transportation providers; (2) ongoing development of a state-wide multimodal transportation plan that includes both state-owned and state-interest facilities and services; (3) coordinating the state high-capacity transportation planning and regional transportation planning programs; and (4) conducting special transportation planning studies that impact state transportation facilities or relate to transportation facilities and services of state-wide significance. Specific requirements for each of these state transportation planning components are described in this chapter.

[1993 c 446 § 2.]

RCW 47.06.030 Transportation policy plan.

The commission shall develop a state transportation policy plan that (1) establishes a vision and goals for the development of the state-wide transportation system consistent with the state's growth management goals, (2) identifies significant state-wide transportation policy issues, and (3) recommends state-wide transportation policies and strategies to the legislature to fulfill the requirements of RCW 47.01.071(1). The state transportation policy plan shall be the product of an ongoing process that involves representatives of significant transportation interests

and the general public from across the state. The plan shall address how the department of transportation will meet the transportation needs and expedite the completion of industrial projects of state-wide significance.

Notes:

Industrial project of state-wide significance--Defined: RCW 43.157.010.

RCW 47.06.040 State-wide multimodal transportation plan.

The department shall develop a state-wide multimodal transportation plan under RCW 47.01.071(3) and in conformance with federal requirements, to ensure the continued mobility of people and goods within regions and across the state in a safe, cost-effective manner. The state-wide multimodal transportation plan shall consist of:

(1) A state-owned facilities component, which shall guide state investment for state highways including bicycle and pedestrian facilities, and state ferries; and

(2) A state-interest component, which shall define the state interest in aviation, marine ports and navigation, freight rail, intercity passenger rail, bicycle transportation and pedestrian walkways, and public transportation, and recommend actions in coordination with appropriate public and private transportation providers to ensure that the state interest in these transportation modes is met.

The plans developed under each component must be consistent with the state transportation policy plan and with each other, reflect public involvement, be consistent with regional transportation planning, high-capacity transportation planning, and local comprehensive plans prepared under chapter 36.70A RCW, and include analysis of intermodal connections and choices. A primary emphasis for these plans shall be the relief of congestion, the preservation of existing investments, the improvement of traveler safety, the efficient movement of freight and goods, and the improvement and integration of all transportation modes to create a seamless intermodal transportation system for people and goods.

In the development of the state-wide multimodal transportation plan, the department shall identify and document potential affected environmental resources, including, but not limited to, wetlands, storm water runoff, flooding, air quality, fish passage, and wildlife habitat. The department shall conduct its environmental identification and documentation in coordination with all relevant environmental regulatory authorities, including, but not limited to, local governments. The department shall give the relevant environmental regulatory authorities an opportunity to review the department's environmental plans. The relevant environmental regulatory authorities shall provide comments on the department's environmental plans in a timely manner. Environmental identification and documentation as provided for in RCW 47.01.300 and this section is not intended to create a private right of action or require an environmental impact statement as provided in chapter 43.21C RCW.

Notes:

Severability--1998 c 175: See RCW 47.06A.900.

RCW 47.06.050 State-owned facilities component.

The state-owned facilities component of the state-wide transportation plan shall consist of:

(1) The state highway system plan, which identifies program and financing needs and recommends specific and financially realistic improvements to preserve the structural integrity of the state highway system, ensure acceptable operating conditions, and provide for enhanced access to scenic, recreational, and cultural resources. The state highway system plan shall contain the following elements:

(a) A system preservation element, which shall establish structural preservation objectives for the state highway system including bridges, identify current and future structural deficiencies based upon analysis of current conditions and projected future deterioration, and recommend program funding levels and specific actions necessary to preserve the structural integrity of the state highway system consistent with adopted objectives. This element shall serve as the basis for the preservation component of the six-year highway program and the two-year biennial budget request to the legislature;

(b) A capacity and operational improvement element, which shall establish operational objectives, including safety considerations, for moving people and goods on the state highway system, identify current and future capacity, operational, and safety deficiencies, and recommend program funding levels and specific improvements and strategies necessary to achieve the operational objectives. In developing capacity and operational improvement plans the department shall first assess strategies to enhance the operational efficiency of the existing system before recommending system expansion. Strategies to enhance the operational efficiencies include but are not limited to access management, transportation system management, demand management, and high-occupancy vehicle facilities. The capacity and operational improvement element must conform to the state implementation plan for air quality and be consistent with regional transportation plans adopted under chapter 47.80 RCW, and shall serve as the basis for the capacity and operational improvement portions of the six-year highway

program and the two-year biennial budget request to the legislature;

(c) A scenic and recreational highways element, which shall identify and recommend designation of scenic and recreational highways, provide for enhanced access to scenic, recreational, and cultural resources associated with designated routes, and recommend a variety of management strategies to protect, preserve, and enhance these resources. The department, affected counties, cities, and towns, regional transportation planning organizations, and other state or federal agencies shall jointly develop this element;

(d) A paths and trails element, which shall identify the needs of nonmotorized transportation modes on the state transportation systems and provide the basis for the investment of state transportation funds in paths and trails, including funding provided under chapter 47.30 RCW.

(2) The state ferry system plan, which shall guide capital and operating investments in the state ferry system. The plan shall establish service objectives for state ferry routes, forecast travel demand for the various markets served in the system, and develop strategies for ferry system investment that consider regional and state-wide vehicle and passenger needs, support local land use plans, and assure that ferry services are fully integrated with other transportation services. The plan shall assess the role of private ferries operating under the authority of the utilities and transportation commission and shall coordinate ferry system capital and operational plans with these private operations. The ferry system plan must be consistent with the regional transportation plans for areas served by the state ferry system, and shall be developed in conjunction with the ferry advisory committees.

[1993 c 446 § 5.]

RCW 47.06.060 Aviation plan.

The plan shall also identify existing intercity rail rights of way that should be preserved for future transportation use.

[1993 c 446 § 8.]

RCW 47.06.090 Intercity passenger rail plan.

RCW 47.06.140 Transportation facilities and services of state-wide significance--Level of service standards.

The legislature declares the following transportation facilities and services to be of state-wide significance: The interstate highway system, interregional state principal arterials including ferry connections that serve state-wide travel, intercity passenger rail services, intercity high-speed ground transportation, major passenger intermodal terminals excluding all airport facilities and services, the freight railroad system, the Columbia/Snake navigable river system, marine port facilities and services that are related solely to marine activities affecting international and interstate trade, and high-capacity transportation systems serving regions as defined in RCW 81.104.015. The department, in cooperation with regional transportation planning organizations, counties, cities, transit agencies, public ports, private railroad operators, and private transportation providers, as appropriate, shall plan for improvements to transportation facilities and services of state-wide significance in the state-wide multimodal plan. Improvements to facilities and services of state-wide significance identified in the state-wide multimodal plan are essential state public facilities under RCW 36.70A.200.

The department of transportation, in consultation with local governments, shall set level of service standards for state highways and state ferry routes of state-wide significance. Although the department shall consult with local governments when setting level of service standards, the department retains authority to make final decisions regarding level of service standards for state highways and state ferry routes of state-wide significance. In establishing level of service standards for state highways and state ferry routes of state-wide significance, the department shall consider the necessary balance between providing for the free interjurisdictional movement of people and goods and the needs of local communities using these facilities.

47.06A.900 Severability--1998 c 175.

RCW 47.06A.001 Findings.

The legislature finds that:

(1) Washington state is uniquely positioned as a gateway to the global economy. As the most trade-dependent state in the nation, per capita, Washington's economy is highly dependent on an efficient multimodal transportation network in order to remain competitive.

(2) The vitality of the state's economy is placed at risk by growing traffic congestion that impedes the safe and efficient movement of goods. The absence of a comprehensive and coordinated state policy that facilitates freight movements to local, national, and international markets limits trade opportunities.

(3) Freight corridors that serve international and domestic interstate and intrastate trade, and those freight corridors that enhance the state's competitive position through regional and global gateways are strategically important. In many instances, movement of freight on these corridors is diminished by: Barriers that block or delay access to intermodal facilities where freight is transferred from one mode of transport to another; conflicts between rail and road traffic; constraints on rail capacity; highway capacity constraints, congestion, and condition; waterway system depths that affect capacity; and institutional, regulatory, and operational barriers.

(4) Rapidly escalating population growth is placing an added burden on streets, roads, and highways that serve as freight corridors. Community benefits from economic activity associated with freight movement often conflict with community concerns over safety, mobility, [and] environmental quality. Efforts to minimize community impacts in areas of high freight movements that encourage the active participation of communities in the early stages of proposed public and private infrastructure investments will facilitate needed freight mobility improvements.

(5) Ownership of the freight mobility network is fragmented and spread across various public jurisdictions, private companies, and state and national borders. Transportation projects have grown in complexity and size, requiring more resources and longer implementation time frames. Currently, there is no comprehensive and integrated framework for planning the freight mobility needs of public and private stakeholders in the freight transportation system. A coordinated planning process should identify new infrastructure investments that are integrated by public and private planning bodies into a multimodal and multijurisdictional network in all areas of the state, urban and rural, east and west. The state should integrate freight mobility goals with state policy on related issues such as economic development, growth management, and environmental management.

(6) State investment in projects that enhance or mitigate freight movements, should pay special attention to solutions that utilize a corridor solution to address freight mobility issues with important transportation and economic impacts beyond any local area. The corridor approach builds partnerships and fosters coordinated planning among jurisdictions and the public

and private sectors.

(7) It is the policy of the state of Washington that limited public transportation funding and competition between freight and general mobility improvements for the same fund sources require strategic, prioritized freight investments that reduce barriers to freight movement, maximize cost-effectiveness, yield a return on the state's investment, require complementary investments by public and private interests, and solve regional freight mobility problems. State financial assistance for freight mobility projects must leverage other funds from all potential partners and sources, including federal, county, city, port district, and private capital.

(1) "Board" means the freight mobility strategic investment board created in RCW 47.06A.030.

(2) "Department" means the department of transportation.

(3) "Freight mobility" means the safe, reliable, and efficient movement of goods within and through the state to ensure the state's economic vitality.

(4) "Local governments" means cities, towns, counties, special purpose districts, port districts, and any other municipal corporations or quasi-municipal corporations in the state excluding school districts.

(5) "Public entity" means a state agency, city, town, county, port district, or municipal or regional planning organization.

(6) "Strategic freight corridor" means a transportation corridor of great economic importance within an integrated freight system that:

(a) Serves international and domestic interstate and intrastate trade;

(b) Enhances the state's competitive position through regional and global gateways;

(c) Carries freight tonnages of at least:

(i) Four million gross tons annually on state highways, city streets, and county roads;

(ii) Five million gross tons annually on railroads; or

(iii) Two and one-half million net tons on waterways; and

(d) Has been designated a strategic corridor by the board under RCW 47.06A.020(3).

However, new alignments to, realignments of, and new links to strategic corridors that enhance freight movement may qualify, even though no tonnage data exists for facilities to be built in the future.

[1998 c 175 § 2.]

RCW 47.06A.020 Board--Duties.

(1) The board shall:

(a) Adopt rules and procedures necessary to implement the freight mobility strategic

investment program;

(b) Solicit from public entities proposed projects that meet eligibility criteria established in accordance with subsection (4) of this section; and

(c) Review and evaluate project applications based on criteria established under this section, and prioritize and select projects comprising a portfolio to be funded in part with grants from state funds appropriated for the freight mobility strategic investment program. In determining the appropriate level of state funding for a project, the board shall ensure that state funds are allocated to leverage the greatest amount of partnership funding possible. After selecting projects comprising the portfolio, the board shall submit them as part of its budget request to the office of financial management and the legislature. The board shall ensure that projects submitted as part of the portfolio are not more appropriately funded with other federal, state, or local government funding mechanisms or programs. The board shall reject those projects that appear to improve overall general mobility with limited enhancement for freight mobility.

The board shall provide periodic progress reports on its activities to the office of financial management and the legislative transportation committee.

(2) The board may:

(a) Accept from any state or federal agency, loans or grants for the financing of any transportation project and enter into agreements with any such agency concerning the loans or grants;

(b) Provide technical assistance to project applicants;

(c) Accept any gifts, grants, or loans of funds, property, or financial, or other aid in any form from any other source on any terms and conditions which are not in conflict with this chapter;

(d) Adopt rules under chapter 34.05 RCW as necessary to carry out the purposes of this chapter; and

(e) Do all things necessary or convenient to carry out the powers expressly granted or implied under this chapter.

(3) The board shall designate strategic freight corridors within the state. The board shall update the list of designated strategic corridors not less than every two years, and shall establish a method of collecting and verifying data, including information on city and county-owned roadways.

(4) From June 11, 1998, through the biennium ending June 30, 2001, the board shall utilize threshold project eligibility criteria that, at a minimum, includes the following:

(a) The project must be on a strategic freight corridor;

(b) The project must meet one of the following conditions:

(i) It is primarily aimed at reducing identified barriers to freight movement with only incidental benefits to general or personal mobility; or

(ii) It is primarily aimed at increasing capacity for the movement of freight with only incidental benefits to general or personal mobility; or

(iii) It is primarily aimed at mitigating the impact on communities of increasing freight movement, including roadway/railway conflicts; and

(c) The project must have a total public benefit/total public cost ratio of equal to or greater than one.

(5) From June 11, 1998, through the biennium ending June 30, 2001, the board shall use the multicriteria analysis and scoring framework for evaluating and ranking eligible freight mobility and freight mitigation projects developed by the freight mobility project prioritization committee and contained in the January 16, 1998, report entitled "Project Eligibility, Priority and Selection Process for a Strategic Freight Investment Program." The prioritization process shall measure the degree to which projects address important program objectives and shall generate a project score that reflects a project's priority compared to other projects. The board shall assign scoring points to each criterion that indicate the relative importance of the criterion in the overall determination of project priority. After June 30, 2001, the board may supplement and refine the initial project priority criteria and scoring framework developed by the freight mobility project prioritization committee as expertise and experience is gained in administering the freight mobility program.

(6) It is the intent of the legislature that each freight mobility project contained in the project portfolio submitted by the board utilize the greatest amount of nonstate funding possible. The board shall adopt rules that give preference to projects that contain the greatest levels of financial participation from nonprogram fund sources. The board shall consider twenty percent as the minimum partnership contribution, but shall also ensure that there are provisions allowing exceptions for projects that are located in areas where minimal local funding capacity exists or where the magnitude of the project makes the adopted partnership contribution financially unfeasible.

(7) The board shall develop and recommend policies that address operational improvements that primarily benefit and enhance freight movement, including, but not limited to, policies that reduce congestion in truck lanes at border crossings and weigh stations and provide for access to ports during nonpeak hours.

[1999 c 216 § 1; 1998 c 175 § 3.]

RCW 47.06A.030 Board--Creation--Membership.

(1) The freight mobility strategic investment board is created. The board shall convene by July 1, 1998.

(2) The board is composed of twelve members. The following members are appointed by the governor for terms of four years, except that five members initially are appointed for terms of two years: (a) Two members, one of whom is from a city located within or along a strategic freight corridor, appointed from a list of at least four persons nominated by the association of Washington cities or its successor; (b) two members, one of whom is from a county having a strategic freight corridor within its boundaries, appointed from a list of at least four persons nominated by the Washington state association of counties or its successor; (c) two members, one of whom is from a port district located within or along a strategic freight corridor, appointed from a list of at least four persons nominated by the Washington public ports association or its successor; (d) one member representing the office of financial management; (e) one member

appointed as a representative of the trucking industry; (f) one member appointed as a representative of the railroads; (g) the secretary of the department of transportation; (h) one member representing the steamship industry; and (i) one member of the general public. In appointing the general public member, the governor shall endeavor to appoint a member with special expertise in relevant fields such as public finance, freight transportation, or public works construction. The governor shall appoint the general public member as chair of the board. In making appointments to the board, the governor shall ensure that each geographic region of the state is represented.

(3) Members of the board shall be reimbursed for reasonable and customary travel expenses as provided in RCW 43.03.050 and 43.03.060.

(4) If a vacancy on the board occurs by death, resignation, or otherwise, the governor shall fill the vacant position for the unexpired term. Each vacancy in a position appointed from lists provided by the associations and departments under subsection (2) of this section must be filled from a list of at least four persons nominated by the relevant association or associations.

(5) The appointments made in subsection (2) of this section are not subject to confirmation.

[1999 c 216 § 2; 1998 c 175 § 4.]

RCW 47.06A.040 Board--Administration and staffing.

The board, at its option, may either appoint an executive director, who shall serve at its pleasure and whose salary shall be set by the board or make provisions ensuring the responsibilities of the executive director are carried out by an existing transportation-related state agency or by private contract. Staff support to the board shall be provided by the department of transportation, the transportation improvement board, and the county road administration board, or their successor agencies.

[1999 c 216 § 3; 1998 c 175 § 5.]

RCW 47.06A.050 Allocation of funds.

(1) For the purpose of allocating funds for the freight mobility strategic investment program, the board shall allocate the first fifty-five percent of funds to the highest priority projects, without regard to location.

(2) The remaining funds shall be allocated equally among three regions of the state, defined as follows:

(a) The Puget Sound region includes King, Pierce, and Snohomish counties;

(b) The western Washington region includes Clallum, Jefferson, Island, Kitsap, San Juan, Skagit, Whatcom, Clark, Cowlitz, Grays Harbor, Lewis, Mason, Pacific, Skamania, Thurston, and Wahkiakum counties; and

(c) The eastern Washington region includes Adams, Chelan, Douglas, Ferry, Grant, Lincoln, Okanogan, Pend Oreille, Spokane, Stevens, Whitman, Asotin, Benton, Columbia, Franklin, Garfield, Kittitas, Klickitat, Walla Walla, and Yakima counties.

(3) If a region does not have enough qualifying projects to utilize its allocation of funds, the funds will be made available to the next highest priority project, without regard to location.

(4) In the event that a proposal contains projects in more than one region, for purposes of assuring that equitable geographic distributions are made under subsection (2) of this section, the board shall evaluate the proposal and proportionally assign the benefits that are attributable to each region.

(5) If the board identifies a project for funding, but later determines that the project is not ready to proceed at the time the legislature's funding decision is pending, the board shall recommend removing the project from consideration and the next highest priority project shall be substituted in the project portfolio. Any project removed from funding consideration because it is not ready to proceed shall retain its position on the priority project list and is eligible to be recommended for funding in the next project portfolio submitted by the board.

[1998 c 175 § 6.]

RCW 47.06A.060 Grants and loans.

In order to aid the financing of eligible freight mobility projects, the board may:

(1) Make grants or loans from funds appropriated for the freight mobility strategic investment program for the purpose of financing freight mobility projects. The board may require terms and conditions as it deems necessary or convenient to carry out the purposes of this chapter.

(2) The state shall not bear the financial burden for project costs unrelated to the movement of freight. Project amenities unrelated to the movement of freight may not be submitted to the board as part of a project proposal under the freight mobility strategic investment program.

(3) All freight mobility projects aided in whole or in part under this chapter must have a public entity designated as the lead project proponent.

[1998 c 175 § 7.]

RCW 47.06A.070 Records.

The board shall keep proper records and shall be subject to audit by the state auditor.

[1998 c 175 § 8.]

RCW 47.06A.080 Port district development plans.

Port districts in the state shall submit their development plans to the relevant regional transportation planning organization or metropolitan planning organization, the department, and affected cities and counties to better coordinate the development and funding of freight mobility projects.

[1998 c 175 § 9.]

RCW 47.06A.900 Severability--1998 c 175.

If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

RCW 47.06B.010 Finding--Intent. *(Effective until June 30, 2008.)*

The legislature finds that transportation systems for persons with special needs are not operated as efficiently as possible. In some cases, programs established by the legislature to assist persons with special needs can not be accessed due to these inefficiencies and coordination barriers.

It is the intent of the legislature that public transportation agencies, pupil transportation programs, private nonprofit transportation providers, and other public agencies sponsoring programs that require transportation services coordinate those transportation services. Through coordination of transportation services, programs will achieve increased efficiencies and will be able to provide more rides to a greater number of persons with special needs.

[1999 c 385 § 1; 1998 c 173 § 1.]

RCW 47.06B.012 Definitions. *(Effective until June 30, 2008.)*

The definitions in this section apply throughout this chapter.

(1) "Persons with special transportation needs" means those persons, including their personal attendants, who because of physical or mental disability, income status, or age are unable to transport themselves or purchase transportation.

(2) "Special needs coordinated transportation" is transportation for persons with special transportation needs that is developed through a collaborative community process involving transportation providers; human service programs and agencies; consumers; social, educational, and health service providers; employer and business representatives; employees and employee representatives; and other affected parties.

[1999 c 385 § 2.]

RCW 47.06B.015 Program for Agency Coordinated Transportation. (*Effective until June 30, 2008.*)

In order to increase efficiency, to reduce waste and duplication, to enable people to access social and health services, to provide a basic level of mobility, and to extend and improve transportation services to people with special transportation needs, the state shall implement the Program for Agency Coordinated Transportation. The program will improve transportation efficiency and effectiveness to maximize the use of community resources so that more people can be served within available funding levels.

The Program for Agency Coordinated Transportation will facilitate a state-wide approach to coordination and will support the development of community-based coordinated transportation systems that exhibit the following characteristics:

(1) Organizations serving persons with special transportation needs share responsibility for ensuring that customers can access services.

(2) There is a single entry process for customers to use to have trips arranged and scheduled, so the customer does not have to contact different locations based on which sponsoring agency or program is paying for the trip.

(3) A process is in place so that when decisions are made by service organizations on facility siting or program policy implementation, the costs of client transportation and the potential effects on the client transportation costs of other agencies or programs are considered. Affected agencies are given an opportunity to influence the decision if the potential impact is negative.

(4) Open local market mechanisms give all providers who meet minimum standards an opportunity to participate in the program, and, in addition, allow for cost comparisons so that purchasers can select the least expensive trip most appropriate to the customer's needs.

(5) There is flexibility in using the available vehicles in a community so that the ability to transport people is not restricted by categorical claims to vehicles.

(6) There is maximum sharing of operating facilities and administrative services, to avoid duplication of costly program elements.

(7) Trip sponsors and service providers have agreed on a process for allocating costs and billing when they share use of vehicles.

(8) Minimum standards exist for at least safety, driver training, maintenance, vehicles, and technology to eliminate barriers that may prevent sponsors from using each other's vehicles or serving each other's clients.

(9) The system is user friendly. The fact that the system is supported by a multitude of

programs and agencies with different eligibility, contracting, service delivery, payment, and funding structures does not negatively affect the customer's ability to access service.

(10) Support is provided for research, technology improvements, and sharing of best practices from other communities, so that the system can be continually improved.

(11) There are performance goals and an evaluation process that leads to continuous system improvement.

[1999 c 385 § 3.]

RCW 47.06B.020 Agency council on coordinated transportation--Creation, membership, staff. (Effective until June 30, 2004.)

(1) The agency council on coordinated transportation is created. The council is composed of nine voting members and eight nonvoting, legislative members.

(b) Four members from the senate, two from each of the two largest caucuses, appointed by the president of the senate, two members of the transportation committee and two members of the ways and means committee.

(4) Gubernatorial appointees of the council will serve two-year terms. Members may not receive compensation for their service on the council, but will be reimbursed for actual and necessary expenses incurred in performing their duties as members as set forth in RCW 43.03.220.

(5) The secretary of transportation or a designee shall serve as the chair.

(6) The department of transportation shall provide necessary staff support for the council.

(7) The council may receive gifts, grants, or endowments from public or private sources that are made from time to time, in trust or otherwise, for the use and benefit of the purposes of the council and spend gifts, grants, or endowments or income from the public or private sources according to their terms, unless the receipt of the gifts, grants, or endowments violates RCW 42.17.710.

[1998 c 173 § 2.]

RCW 47.06B.030 Council--Duties (as amended by 1999 c 372). (Effective until June 30, 2008.)

RCW 47.06C.010 Findings--Intent. (Expires March 31, 2003.)

The legislature finds that the public health and safety of its citizens, the natural resources, and the environment are vital interests of the state that need to be protected and preserved. The legislature further finds that the safety of the traveling public and the state's economic well-being are vital interests that depend upon the development of cost-effective and efficient transportation systems planned, designed, constructed, and maintained through expedited permit decision-making processes.

It is the intent of the legislature to achieve transportation permit reform that expedites the delivery of statewide significant transportation projects through a streamlined approach to environmental permit decision making. To optimize the limited resources available for transportation system improvements and environmental protection, state regulatory and natural resource agencies, public and private sector interests, Indian tribes, and the department of transportation must work cooperatively to establish common goals, minimize project delays, develop consistency in the application of environmental standards, maximize environmental

benefits through coordinated investment strategies, and eliminate duplicative processes through assigned responsibilities of selected permit drafting and compliance activities between state and federal agencies.

Therefore, the transportation permit efficiency and accountability committee is created. The committee shall integrate current environmental standards, but may not create new environmental standards. The committee shall conduct three environmental permit streamlining pilot projects and create a process to develop general permits. Additionally, the committee shall seek federal delegation to the state where appropriate to streamline transportation projects.

[2001 1st sp.s. c 2 § 1.]

RCW 47.06C.020 Definitions. (Expires March 31, 2003.)

The definitions in this section apply throughout this chapter unless the context indicates otherwise.

(1) "Assigned responsibilities" means those components of developing and implementing environmental permits, including but not limited to, environmental review and assessment, selected permit drafting, and selected on-site compliance activities that may be conducted by the department.

(2) "Best available information" means the existing sources of data, including limiting factors analyses required under chapter 77.85 RCW that can be used to make informed decisions regarding environmental conditions within a watershed.

(3) "Best management practices" means currently available and generally accepted techniques, including new technologies or strategies that seek to reduce the negative impacts of transportation facilities, projects, and services on communities and the environment, and promote more efficient and effective use of transportation facilities.

(4) "Committee" means the transportation permit efficiency and accountability committee created in RCW 47.06C.030.

(5) "Least cost planning" means the use of best available information within a watershed basin applied to transportation decision making in the planning, permit decision making, and mitigation phases of a project.

(6) "Low-impact development project" means an activity or series of actions that conform to a comprehensive land use planning and engineering design approach with a goal of maintaining or restoring existing natural habitat functions and hydrologic regime of urban and developing watersheds. These projects incorporate strategic watershed planning with site-specific management techniques to reduce development impacts to better replicate natural watershed hydrology and water quality, while allowing for development or infrastructure rehabilitation to occur.

(7) "One-stop permit decision making" means a coordinated permit decision-making process that streamlines environmental review and permit decision making for transportation projects by providing concurrent, consolidated review by each agency required to review the project.

(8) "Programmatic approach" means a permit or other action that covers a geographic or statewide area and applies to a variety of projects, activities, or locales. A programmatic

approach may allow actions to proceed without individual approval by each permit decision-making agency.

(9) "Transportation project of statewide significance" means a surface transportation project or combination of surface transportation projects, that crosses multiple city or county jurisdictional boundaries or connects major state destinations in support of the state's economy and is so designated by the department of transportation and approved by the transportation committees of the senate and house of representatives. The transportation committees of the senate and house of representatives may also jointly designate these projects. The pilot projects established in this chapter are examples of transportation projects of statewide significance, but transportation projects of statewide significance are not limited to the pilot projects.

(10) "Watershed" means a water resource inventory area.

(1) The committee consists of nine voting members, including two members from the house of representatives, one from each of the two largest caucuses; two senators, one from each of the two largest caucuses; one member designated by the secretary of transportation; one member designated by the director of fish and wildlife; one member designated by the director of ecology; one member designated by the Association of Washington Cities; and one member designated by the Washington State Association of Counties. The committee shall elect a chair from the four legislators appointed to the committee.

(2) The committee also includes eight nonvoting members, including one member designated by the Northwest Indian Fisheries Commission; one member designated by the Columbia River Intertribal Fisheries Commission; one member designated by the Consulting Engineers Council of Washington; one member designated by the Associated General Contractors of Washington; one member designated by the Association of Washington Business; one member designated by the Washington State Building and Construction Trades Council; one member designated by statewide environmental organizations; and one member designated by the State Fish and Wildlife Commission, to represent the interests of citizens engaged in fish and wildlife recovery.

(3) A representative from the department of natural resources and representatives from federal regulatory and transportation agencies, including the Environmental Protection Agency, National Marine Fisheries Service, United States Army Corps of Engineers, Federal Highways Administration, and United States Fish and Wildlife Service must be invited to participate in committee deliberations as nonvoting members.

(4) The committee may create technical subcommittees as needed. Technical subcommittees created for a specific pilot project or pilot projects must include, but are not limited to, representatives of local governments from jurisdictions affected by those projects. Recommendations made by a technical subcommittee must be approved by a majority of the voting members of the committee.

(5) Nonvoting members will not be compensated but will receive reimbursement for travel expenses in accordance with RCW 43.03.050 and 43.03.060.

(6) The department of transportation office of environmental affairs shall provide administrative and clerical assistance to the committee.

(7) No vote of the committee may overrule existing statutes, regulations, or local ordinances.

[2001 1st sp.s. c 2 § 3.]

RCW 47.06C.040 Committee responsibilities. (Expires March 31, 2003.)

(1) The committee and its authorized technical subcommittees shall develop a one-stop permit decision-making process that uses interdisciplinary review of transportation projects of statewide significance to streamline and expedite permit decision making. The committee shall collaborate with appropriate agencies and parties to identify existing environmental standards, to assess the application of those standards, and develop an integrated permitting process based upon environmental standards and best management practices, which may use prescriptive or performance standards, for transportation projects of statewide significance that can be applied with certainty, consistency, and assurance of swift permit action, while taking into account the varying environmental conditions throughout the state.

(2) The committee shall give notice to the legislative authority of each affected county and city of the projects that are designated as transportation projects of statewide significance.

(3) The committee shall create a technical subcommittee with representation at a minimum from the department of fish and wildlife, the department of ecology, and the department of transportation.

(a) Within six months from the first meeting of the committee, the subcommittee shall create a process to develop a programmatic approach for transportation projects. The committee shall review the department's construction project list to determine which projects or activities may be included in the programmatic approach and develop agreements to cover those projects or activities. At a minimum, this process must require that decisions on minor variations to the requirements of a programmatic approach must be provided by the permit decision-making agencies within twenty-one days of submittal.

(b) The technical subcommittee's recommendations must be approved by a majority of the voting members of the committee.

(4) The committee shall explore the development of a consolidated local permit process.

(5) The committee shall develop and prioritize a list of permit streamlining opportunities, specifically identifying substantive and procedural duplications and recommendations for resolving those duplications. The committee shall evaluate current laws and regulations and develop recommendations on ways to minimize the lapsing of permits. The committee shall evaluate flexible approaches that maximize transportation and environmental interests and make recommendations regarding where those approaches should be implemented. The committee shall report its findings and recommendations to the legislature by January 15, 2002.

(6) The committee shall undertake the following activities to develop a watershed approach to environmental mitigation:

(a) Develop methodologies for analyzing environmental impacts and applying compensatory mitigation consistent with a watershed-based approach before final design, including least cost methodology and low-impact development methodology;

(b) Assess models to collate and access watershed data to support early agency involvement in transportation planning and reviews under the national Environmental Policy Act and the State Environmental Policy Act; and

(c) Use existing best available information from watershed planning efforts, lead entities, regional fisheries enhancement groups, and other recognized entities as deemed appropriate by the committee, to determine potential mitigation requirements for projects within a watershed. Priority consideration should be given to the use of the state's alternative mitigation policy guidance to best link transportation mitigation needs with local watershed and lead entity project lists.

(7) The committee shall seek federal delegation to the state where appropriate to streamline permit processes for transportation projects of statewide significance including: Delegation of section 404 permit authority under the Clean Water Act; nonfederal lead agency status under the federal Endangered Species Act; section 106 cultural resource designation under the National Historic Preservation Act; and other appropriate authority that when delegated should result in permit streamlining.

(8) The committee shall develop a dispute resolution process to resolve conflicts in interpretation of environmental standards and best management practices, mitigation requirements, permit requirements, assigned responsibilities, and other related issues by September 1, 2001. The dispute resolution process may not abrogate or supplant any appeal right of any party under existing statutes. The dispute resolution process must be designed to include federal agencies if they choose to participate.

(9) The committee shall develop preliminary models and strategies for agencies to test how best to maximize the environmental investment of transportation funds on a watershed basis. After agencies test the models and strategies developed by the committee, the committee shall evaluate the models and strategies and make recommendations to the legislature.

(10) The committee shall develop a consistent methodology for the timely and predictable submittal and evaluation of completed plans and specifications detailing project elements that impact environmental resources as well as proposed mitigation measures during the preliminary specifications and engineering phase of project development and submit information on the consistent methodology to the legislature.

(11) The committee shall provide a summary report to the legislature on September 15, 2001, and every six months thereafter.

[2001 1st sp.s. c 2 § 4.]

RCW 47.06C.050 Pilot projects. (*Expires March 31, 2003.*)

(1) The committee shall select and conduct permit reform pilot projects in three locales: (a) Urban near built-out conditions; (b) urban centers serving as crucial rural connectors; and (c) rural corridors critical to statewide economic productivity. The pilot projects must test the assignment of responsibilities such as selected permit drafting and selected compliance activities

to the department.

(2) The committee shall commence efforts to apply streamlining lessons learned from the streamlined permit process for the pilot projects to as many other transportation projects of statewide significance as quickly as possible. In reporting to the legislature, the committee may recommend statutory or regulatory changes that would result in streamlining for future projects.

(3) The department and permitting agencies shall apply an interim interdisciplinary permit review process for the pilot projects as set forth in this section. This process must provide coordinated review and approval of permit applications; provide coordinated and consolidated public hearings where required by one or more regulatory agencies under state law; and coordinate timelines for permit decision making.

(4) The committee shall give notice to the legislative authority of each affected county and city of the projects the committee has designated as pilot projects. Each county and city notified must be offered the opportunity to participate in the pilot projects as provided for in this chapter. The department shall provide funding assistance for participation.

(5) The committee shall develop a dispute resolution process to resolve conflicts in interpretation of environmental standards and best management practices, mitigation requirements, permit requirements, assigned responsibilities, the streamlined process for pilot projects set forth in this section, and other related issues by September 1, 2001. The dispute resolution process may not abrogate or supplant any appeal right of any party under existing statutes. The dispute resolution process must be designed to include federal agencies if they choose to participate. The dispute resolution process must be applied to the pilot projects.

(6) The streamlined process for the pilot projects must be based on the following model:

(a) Step 1: The department and permitting agencies will agree on coordination for environmental review under the state and national environmental policy acts, including document preparation, public comment opportunities, and timelines.

(b) Step 2: For each project, the department will convene a meeting of all entities with permitting authority to review:

(i) The proposed conceptual design for the project and alternative routes, construction approaches, or mitigation approaches;

(ii) All known reviewing entities, permit application and approval requirements, and timelines; and

(iii) A coordinated timeline that allows all statutory requirements to be met.

(c) Step 3: The department will draft all necessary permits to proceed with the preferred alternative using relevant agreements with permitting agencies.

(d) Step 4: The department will provide public notice in conformity with all applicable statutes and regulations and allow the required time for public hearings and written comments.

(e) Step 5: The department may revise the draft permits after consideration of public comments and applying all relevant agreed upon standards.

(f) Step 6: All permits will be disseminated to permitting agencies for final review. All reviews will be completed within forty-five days, at which time the permitting agencies will act upon the permit and either approve the permit or return it without approval.

(g) Step 7: If the permit is returned to the department without approval, the permitting

agencies will have one opportunity to identify errors or omissions and any remaining specific deficiencies or circumstances not previously addressed by agreements between the department and agencies that must be met or addressed to be compliant with applicable law. The department may revise the permit as warranted and resubmit the permit to the permitting agency, which will have fifteen days from receipt of the revised permit to take final action.

(h) Step 8: Disputes related to permit decisions will be addressed by the dispute resolution process established by the committee.

[2001 1st sp.s. c 2 § 5.]

RCW 47.06C.060 Local government participation. (Expires March 31, 2003.)

(1) This section establishes procedures for city, town, and county governments to participate in the processes identified in this chapter to provide for coordinated, multijurisdictional environmental review and permitting decisions for pilot projects and transportation projects of statewide significance.

(2) Each city, town, and county within whose boundaries is located or partially located one or more projects identified in subsection (1) of this section, shall elect whether or not to participate in coordinated processes for environmental review and permitting of those projects as required in this chapter. If the city, town, or county elects to participate, it may do so as either a participating entity or as an assigning entity.

(a) If a city, town, or county elects to be considered as a participating entity, the committee must then include a representative designated by the city, town, or county in the coordinated review of the project. The department shall compensate the jurisdiction for technical support required for participation in the process. The jurisdiction will also be eligible for reimbursement for permit fees set by local ordinances and other agreed upon costs associated with the issuance of project permits.

(b) For the purposes of expediting the permit process, a city, town, or county may elect to assign its permit responsibilities under chapter 39.34 RCW to the department simultaneously with its notification to the department as specified in this section. The city, town, or county electing to assign its responsibilities shall enter into an agreement with the department to define the local permit requirements that must be met. Permits issued under the negotiated agreement are presumed to at least meet local environmental permit requirements. A city, town, or county choosing to use this option is eligible for a permit fee set by local ordinances associated with the issuance of the project permits.

(3) If the city, town, or county elects not to participate in the coordinated processes for the pilot projects designated in this chapter or transportation projects of statewide significance the department will issue the locally required permits, when allowable. The department shall comply with all provisions of city, town, and county ordinances, and the department permit approval is presumed to at least meet the local environmental review and permit requirements.

(4) Any city, town, or county shall notify the department within sixty days of receipt of the committee's notification of project designation, as to whether it elects to be considered as a participating entity or an assigning entity, or elects not to participate in the coordinated process provided in this chapter.

(5) The committee shall review and evaluate the process by which local governments review and approve pilot projects and transportation projects of statewide significance, and shall provide recommendations to the legislature to improve the coordination of the local process with state and federal reviews as part of the reports required by this chapter.

(6) A city, town, or county is not liable for decisions made by the department that result in a failure to comply with city, town, or county ordinances except as provided in the interlocal agreements, and the department shall defend and answer to any actions or complaints challenging the validity of permits issued under this section.

[2001 1st sp.s. c 2 § 6.]

RCW 47.06C.070 Interim permit process. (Expires March 31, 2003.)

Until integrated standards and best management practices have been adopted by the committee, the department may use the following process for transportation projects of statewide significance, including projects requested by a project sponsor.

(1) Step 1: Conceptual description. The department will identify project purposes, the approximate location or alternative locations, and the federal, state, and local agencies that might have authority to review and approve the project or portions of it at any such locations, and a preliminary interagency communication list identifying agencies that may be interested in the proposed project and, where known, contact persons in such agencies. If the department is going to proceed with step 2 or to abandon the project, it may complete step 1 by: (a) Providing a summary of the outcome to all agencies on the list; and (b) making the summary available to the public.

(2) Step 2: Early involvement of other agencies. (a) At any time after completing step 1, the department will provide notice to all agencies on the interagency communication list and the public. Within thirty days, or a longer time if specified by the department, each state, local, and federal agency will be encouraged to identify:

(i) A primary contact person to coordinate future communications with the department and other interested agencies regarding the project, or indicate that it has no interest in the project and need not remain on the project information list;

(ii) Its role with respect to the proposed project;

(iii) Additional alternative locations the department should consider and the roles it would expect to have with the project at those locations;

(iv) Other agencies it believes should be added to the list for the project; and

(v) Other information the agency requests the department to consider.

(b) After all state and local agencies on the list have responded, or at least ten days after expiration of the specified response time, the department may complete step 2 by: (i) Proposing one or more conceptual designs for the project at a proposed location and any alternative locations then being considered; (ii) providing a summary of the results of step 2, including a statement that the department considers step 2 to be complete or complete except for specified issues remaining to be resolved with specified agencies, to all agencies on the interagency communication list; and (iii) making the summary available to the public.

(3) Step 3: Identify environmental reviews, permits, and other approvals, application

procedures, and decision standards. (a) At any time after completing step 2, the department may initiate step 3 by notice to all agencies on the list and the public. This notice may include a threshold determination on whether an environmental impact statement (EIS) or supplemental EIS will be prepared or an environmental checklist and request for comments on what steps should be taken to comply with chapter 43.21C RCW, the State Environmental Policy Act (SEPA). Within thirty days, or a longer time if specified by the department, each state, local, and federal agency will be encouraged to identify:

- (i) The procedures under which it expects environmental reviews of the project to occur;
- (ii) All permits and other approvals it might require for the project at each alternative location and conceptual design;
- (iii) What is needed for the department to file a complete application for each permit or other approval;
- (iv) The laws, regulations, ordinances, and policies it would administer with respect to the project at each alternative location and conceptual design; and
- (v) Other information the agency requests the department to consider in deciding whether, when, where, or how to proceed with the project.

(b) After all state and local agencies on the list have responded, or at least ten days after expiration of the specified response time, the department may complete step 3 by:

- (i) Adopting a list of all environmental reviews, permits, and other approvals it believes are needed for the project under each alternative being considered;
- (ii) Providing all agencies on the list a copy of that list and a summary of the other results of step 3, including a statement that the department considers step 3 to be complete or complete except for specified issues remaining to be resolved with specified agencies; and
- (iii) Making the list and summary available to the public.

(c) The list and summary will be presumed to accurately identify all environmental reviews, permits, and other approvals needed for each alternative described, what is required for applications to be considered complete, and the standards under which applications will be reviewed and approved, unless an aggrieved agency or person files objections within thirty days after the list and summary are distributed.

(4) Step 4: Tentative selection of preferred alternative. (a) At any time after completing step 3, the department may initiate step 4 by notice to all agencies on the list and the public. This notice may be accompanied by a scoping notice for an EIS or supplemental EIS or, if available, be accompanied by a draft EIS or supplemental EIS. It also may be accompanied by the department's preliminary analysis of the advantages and disadvantages of each identified alternative, or other information that may be helpful to other interested agencies and the public in identifying advantages and disadvantages. Within fourteen days, or a longer time if specified by the department, each state, local, and federal agency will be encouraged to identify:

- (i) For each identified alternative, the specific features it considers significant with respect to its role in environmental reviews, permits, or other approvals for the project; the reasons these features are significant, and any concerns it may have about the alternative because of potential adverse impacts of these features on resources or social policies within its jurisdiction;

(ii) For each feature for which it raises concerns, recommendations on how the potential adverse impacts could be avoided, minimized, and mitigated;

(iii) For each feature for which it raises concerns, an assessment of the relative ranking of each alternative with respect to whether and to what extent these concerns apply;

(iv) Recommendations the agency may have as to which alternatives should be retained or dropped from further consideration, and ways in which alternatives might be modified or combined to address its concerns, recognizing that final decisions can be made only through the applicable environmental review, permit, and other approval processes and the agency making them is not bound with respect to any future decisions it may make regarding the project;

(v) Other information the agency requests the department to consider in deciding whether, when, where, or how to proceed with the project.

(b) After all state and local agencies on the list have responded, or at least ten days after expiration of the specified response time, the department may complete step 4 by:

(i) Selecting a preferred alternative for purposes of all environmental reviews, permits, and other approvals needed for the project;

(ii) Providing all agencies on the list a description of the preferred alternative and summary of the other results of step 4, including a statement that the department considers step 4 to be complete or complete except for specified issues remaining to be resolved with specified agencies; and

(iii) Making the preferred alternative and summary available to the public. The preferred alternative will be identified in all environmental reviews, permits, and other approvals needed for the project.

(5) Step 5: Completing environmental reviews and applications for permits and other approvals. (a) At any time after completing step 4, the department may initiate step 5 by notice to all agencies on the list and the public. A draft EIS or supplemental EIS, the department's draft plans and specifications for the project, and draft applications for some or all permits and other approvals may be provided with the notice or when they subsequently become available. Within thirty days, or a longer time if specified by the department, each state, local, and federal agency will be encouraged to identify:

(i) All concerns it previously raised regarding the alternative, and other alternatives still under consideration, that have not been resolved to its satisfaction;

(ii) Additional concerns it may have, particularly concerns resulting from additional information about the project location and design, and other new information received since the completion of step 4;

(iii) Additional environmental reviews, permits, or other approvals needed for the preferred alternative because of changes in laws, regulations, or policies or changes in the project location or design since these issues were last reviewed in step 3 or 4;

(iv) Changes in applicable requirements for complete applications for permits or other approvals under its jurisdiction since these issues were last reviewed in step 3 or 4;

(v) Other changes in applicable laws, regulations, ordinances, or policies administered by the agency since these issues were last reviewed in step 3 or 4;

(vi) Whether a draft application proposed by the department for a permit or other

approval from the agency is complete, and if not, what additional information or other changes are needed for it to be complete.

(b) When all state and local agencies on the list have responded, or at least ten days after expiration of the specified response time, the department may complete step 5 by:

(i) Completing some or all environmental review processes and draft application forms for permits and other approvals that it reasonably believes to be complete;

(ii) Providing all agencies on the interagency communication list with environmental review and application documents and a summary of the other results of step 5, including a statement that the department considers step 5 to be complete or complete except for specified issues remaining to be resolved with specified agencies; and

(iii) Making the completed environmental review documents and summary available to the public. The preferred alternative will be identified in all environmental reviews, permits, and other approvals needed for the project.

(c) However, if an interested agency or aggrieved person files objections within fourteen days after the preferred alternative and summary are distributed, the objections will be addressed in subsequent environmental reviews and agency decisions regarding the project.

(6) Step 6: Completing the environmental review, permit, and other approval processes.

(a) At any time after completing step 5, the department may initiate step 6 by notice to all agencies on the list and the public and filing applications for some or all permits and other approvals needed for the project. Within thirty days, or a longer time if specified by the department, each state, local, and federal agency will be encouraged to:

(i) Acknowledge receipt of draft environmental review documents provided to them and provide comments on them;

(ii) Acknowledge receipt of final environmental review documents and determine that they are adequate for purposes of their roles regarding the project or specify what additional information or changes are needed for them to be considered adequate;

(iii) Acknowledge receipt of each application filed with them and determine that the application is complete or specify what additional information or changes are needed for it to be considered complete;

(iv) Acknowledge that the applications submitted to them will be processed under the laws, regulations, ordinances, and policies previously identified under steps 3, 4, and 5 or specify what changes have occurred in the governing standards that were in effect on the date a complete application was filed and thus apply to the project;

(v) Identify the significant steps necessary for the agency to reach a final decision on applications and the estimated time needed for each step;

(vi) Identify ways its decision-making process might be made more efficient and effective through additional coordination with other agencies, with any recommendations for such methods as joint solicitation and review of public comments and jointly conducting public hearings.

(b) It is recognized that step 6 may require an iterative process with several drafts of various environmental review documents and applications being considered and revised, and that changes in project location or design resulting from the permit decisions of one agency may

require revising applications or even reopening permit decisions of other agencies. All state and local agencies are expected, and federal agencies are encouraged, to communicate and cooperate to minimize the number of iterations required and make the process as efficient and effective as possible. Unless significant new information is obtained, decisions made under step 6 should not be reopened except at the request of the department, and the most recent information available under steps 3, 4, and 5 should be presumed accurate until significant new information becomes available.

(c) If all environmental reviews have not been completed and all permits and other approvals obtained within forty-five days after step 6 is initiated, the department, by notice to all agencies on the list and the public, may set a deadline for completing reviews and decisions. At any time after the deadline, the department may terminate the coordination process of this section as to some or all of the reviews and decisions that are still not completed.

[2001 1st sp.s. c 2 § 7.]

RCW 47.06C.080 Department organization and administrative actions. (*Expires March 31, 2003.*)

The legislature finds that an essential component of streamlined permit decision making is the ability of the department to demonstrate the capacity to meet environmental responsibilities. Therefore, the legislature directs that:

(1) The department may amend its operating practices applicable to obtaining project permits when:

(a) Agreements on standards or best management practices as appropriate, are reached under RCW 47.06C.040;

(b) The committee determines that streamlining procedures and methodologies implemented for pilot projects consistent with RCW 47.06C.050 warrant broader application;

(c) The committee determines that the assignment of responsibilities between regulating agencies and the department is appropriate for broader use.

(2) The department may develop permits for review by permitting agencies when agreement on the standards and best management practices covered by such permits have been reached under RCW 47.06C.040. Regulating agencies shall review permits based upon the agreed upon standards and timelines developed in RCW 47.06C.040, as well as any other applicable existing standards.

(3) Qualified environmental staff within the department shall lead the development of all environmental documentation associated with department projects and permit activities in accordance with the department's project delivery tools.

(4) The department shall conduct special prebid meetings for projects that are environmentally complex. In addition, the department shall review environmental considerations related to these projects during the preconstruction meeting held with the contractor who is awarded the bid.

(5) Environmental staff at the department shall conduct field inspections to ensure that project activities are performed under permit conditions. These inspectors:

(a) May issue stop work orders when compliance with permit standards are not being

met; and

(b) For this portion of their job duties, are accountable to the director of environmental affairs of the department.

(6) Failure to comply with a stop work order may result in civil penalties being assessed against the department and individuals involved. Willful violation of a stop work notice issued by the department is subject to civil penalties assessed on the agency as well as the individuals involved. Persistent violations by the department may result in loss of permit drafting and program management responsibilities.

[2001 1st sp.s. c 2 § 8.]

RCW 47.06C.090 Training and compliance. (Expires March 31, 2003.)

The legislature expects the department to continue its efforts to improve training and compliance. The department shall:

(1) Provide training in environmental procedures and permit requirements for those responsible for project delivery activities;

(2) Require wetland mitigation sites to be designed by a qualified interdisciplinary team that meets training requirements developed by the department's environmental affairs office in consultation with the department of ecology. Environmental mitigation site improvements must have oversight by environmental staff;

(3) Develop an environmental compliance data system to track all permit conditions;

(4) Report all noncompliance activities to applicable agencies of jurisdiction along with a remedy plan;

(5) Fund the departments of ecology, natural resources, and fish and wildlife, operating under their permit-granting authority to conduct audits of the department's permit drafting and compliance activities. The department of ecology must collate the audits in an annual report to the legislature;

(6) Seek federal funding for dedicated technical staff at federal permit decision-making agencies and for state costs associated with implementation of this chapter;

(7) Fund dedicated technical staff at federal permit decision-making entities, as appropriate, and the state departments of ecology, natural resources, community, trade, and economic development, and fish and wildlife to implement the requirements of this chapter;

(8) Fund a technical specialist at the Northwest Indian Fisheries Commission and the Columbia River Intertribal Fisheries Commission for the purpose of implementing this chapter;

(9) Reimburse local jurisdictions for costs associated with local participation on the committee and technical subcommittees.

[2001 1st sp.s. c 2 § 9.]

RCW 47.06C.100 Cost reimbursement. (Expires March 31, 2003.)

The committee shall negotiate a method of cost reimbursement for the costs associated with carrying out the purposes of this chapter, including prior departmental agreements with permitting agencies to cover their costs for transportation projects of statewide significance.

RCW 47.10.010 First priority highway projects--Declaration of.

Reconstruction of primary state highway No. 1 from Oregon to British Columbia, construction of four traffic lanes at Snoqualmie Pass, construction of an adequate highway bridge from Pasco to Kennewick and construction of county arterial highways and farm to market roads in Grant, Franklin and Adams counties to coincide with the opening of lands for settlement in the Columbia Basin irrigation project, are declared to be highway projects of the first priority. The construction of such projects is required in the interest of the public safety and for the orderly development of the state. The reimbursement of the motor vehicle fund for money used to purchase Agate Pass Bridge bonds will also make possible other war emergency or high priority highway construction. The threat of war makes acceleration of construction a vital necessity at this time.

[1961 c 13 § 47.10.010. Prior: 1951 c 121 § 1.]

RCW 47.10.020 Bond issue authorized--Use of motor vehicle fund.

To provide funds for accelerating construction of these first priority projects, and to reimburse the motor vehicle fund for money expended for Agate Pass Bridge construction there shall be issued and sold limited obligation bonds of the state of Washington in the sum of sixty-six million seven hundred three thousand, six hundred and twenty-five dollars. The issuance, sale and retirement of said bonds shall be under the general supervision and control of the state finance committee. The state finance committee shall, when notified by the Washington state highway commission, provide for the issuance of coupon or registered bonds to be dated, issued and sold from time to time in such amounts as may be necessary to the orderly progress of construction of the first priority projects: PROVIDED, That if funds are available in the motor vehicle fund in an amount greater than is necessary to pay current demands such funds may be used to finance these first priority projects until such time as bonds are sold, as provided by law, at which time the motor vehicle fund shall be reimbursed.

RCW 47.10.080 Highway bond retirement fund.

At least one year prior to the date any interest is due and payable on such bonds or before the maturity date of any bonds, the state finance committee shall estimate, subject to the provisions of RCW 47.10.070, the percentage of the receipts in money of the motor vehicle fund, resulting from collection of excise taxes on motor vehicle fuels, for each month of the year which will be required to meet interest or bond payments hereunder when due, and shall notify the state treasurer of such estimated requirement. If in any month it shall appear that the estimated percentage of money so made is insufficient to meet the requirements for interest or bond retirement, the treasurer shall notify the state finance committee forthwith and such committee shall adjust its estimates so that all requirements for interest and principal of all bonds issued shall be fully met at all times.

ADDITIONAL BONDS--1953 ACT

RCW 47.10.150 Declaration of necessity for additional funds.

Increased construction costs for highway and bridge construction since the enactment of a highway bond issue by the 1951 legislature makes necessary additional money with which to complete the sections of primary state highway No. 1 planned from funds allocated under RCW 47.10.010 through 47.10.140 and it is vital to the economy of the state and the safety of the traffic that these sections shall be completed to relieve traffic congestions, to add capacity in event of war, and to presently insure greater safety to highway users; the rapid increase of traffic across Snoqualmie Pass necessitates continued improvement of primary state highway No. 2 to provide four-lane paving contiguous to Snoqualmie Pass as the funds will permit; the rapid increase of traffic and the facilitation of movement of military forces and equipment from the military centers of the state makes imperative the construction of a highway from primary state highway No. 2 beginning approximately four miles west of North Bend thence southwesterly by the most feasible route by the way of Auburn to a junction with primary state highway No. 1 in the vicinity of Milton; said highway to follow approximately the route surveyed by the director of highways and covered in the report filed by him with the 1951 legislature commonly known as the "Echo Lake Route," as the funds provided for herein will permit; the construction of secondary state highways in to the Columbia Basin area is immediately necessary to provide needed state arterial highways for the irrigated lands of the Columbia Basin areas to market centers and thereby encourage the full development of the basin project. The construction of such projects is required in the interest of the public safety and for the orderly development of the state. The threat of war makes acceleration of construction a vital necessity at this time.

To provide funds for accelerating construction of these priority projects there shall be

issued and sold limited obligation bonds of the state of Washington in the sum of eighteen million dollars. The issuance, sale and retirement of said bonds shall be under the general supervision and control of the state finance committee. The state finance committee shall, when notified by the Washington state highway commission, provide for the issuance of coupon or registered bonds to be dated, issued and sold from time to time in such amounts as may be necessary to the orderly progress of construction of the first priority projects: PROVIDED, That if funds are available in the motor vehicle fund in an amount greater than is necessary to pay current demands such funds may be used to finance these first priority projects until such time as bonds are sold, as provided by law, at which time the motor vehicle fund shall be reimbursed.

Upon request being made by the transportation commission, the state finance committee shall supervise and provide for the issuance, sale, and retirement of the bonds authorized by RCW 47.10.790 in accordance with the provisions of chapter 39.42 RCW. The amount of such bonds issued and sold under the provisions of RCW 47.10.790 through 47.10.798 in any biennium may not exceed the amount of a specific appropriation therefor. Promissory notes or other obligations issued under this section shall not constitute a debt or the contracting of indebtedness under any constitutional or

statutory indebtedness limitation if their payment is conditioned upon the failure of the state to pay the principal of or interest on the bonds with respect to which the promissory notes or other obligations relate. The state finance committee may authorize the issuance of short-term obligations in lieu of long-term obligations for the purposes of more favorable interest rates, lower total interest costs, and increased marketability and for the purposes of retiring the bonds during the life of the project for which they were issued.

[1986 c 290 § 6; 1979 ex.s. c 180 § 2.]

RCW 47.10.792 Bond proceeds--Deposit and use.

The proceeds from the sale of the bonds authorized by RCW 47.10.790 shall be deposited in the motor vehicle fund and such proceeds shall be available only for the purposes enumerated in RCW 47.10.790, for the payment of bond anticipation notes, if any, and for the payment of the expense incurred in the drafting, printing, issuance, and sale of such bonds. Bonds issued under the provisions of RCW 47.10.790 shall distinctly state that they are a general obligation of the state of Washington, shall pledge the full faith and credit of the state to the payment of the principal thereof and the interest thereon, and shall contain an unconditional promise to pay such principal and interest as the same shall become due. The principal of and interest on such bonds shall be first payable in the manner provided in RCW 47.10.790 through 47.10.798 from the proceeds of the state excise taxes on motor vehicle and special fuels imposed by chapters 82.36 and 82.38 RCW. Proceeds of such excise taxes are hereby pledged to the payment of any bonds and the interest thereon issued under the provisions of RCW 47.10.790 through 47.10.798, and the legislature hereby agrees to continue to impose the same excise taxes on motor vehicle and special fuels in amounts sufficient to pay, when due, the principal and interest on all bonds issued under the provisions of RCW 47.10.790 through 47.10.798.

state highway purposes proves insufficient to meet the requirements for bond retirement or interest on any such bonds.

[1979 ex.s. c 180 § 5.]

RCW 47.10.795 Repayment procedure--Bond retirement fund.

At least one year prior to the date any interest is due and payable on such bonds or before the maturity date of such bonds, the state finance committee shall estimate, subject to the provisions of RCW 47.10.794, the percentage of the receipts in money of the motor vehicle fund resulting from collection of excise taxes on motor vehicle and special fuels, for each month of the year which shall be required to meet interest or bond payments when due and shall notify the treasurer of such estimated requirement. The state treasurer shall thereafter from time to time each month as such funds are paid into the motor vehicle fund, transfer such percentage of the monthly receipts from excise taxes on motor vehicle and special fuels of the motor vehicle fund to the highway bond retirement fund heretofore created in the state treasury, which funds shall be available solely for payment of the principal of and interest on the bonds when due. If in any month it shall appear that the estimated percentage of moneys so made is insufficient to meet the requirements for payment of the principal thereof or interest thereon, the treasurer shall notify the state finance committee forthwith, and such committee shall adjust its estimates so that all requirements for the interest on and principal of all bonds issued shall be fully met at all times.

Except as otherwise provided by statute, general obligation bonds issued under authority

of legislation enacted during the 45th session of the legislature and thereafter and which pledge motor vehicle and special fuel excise taxes for the payment of principal and interest thereon shall be an equal charge against the revenues from such motor vehicle and special fuel excise taxes.

[1979 ex.s. c 180 § 9.]

RCW 47.10.799 Appropriation--Expenditure limited to bond sale proceeds.

There is hereby appropriated from the motor vehicle fund to the department of transportation for the biennium ending June 30, 1981, the sum of ten million dollars, or so much thereof as may be necessary, to carry out the provisions of RCW 47.10.790: PROVIDED, That the money available for expenditure under this appropriation may not exceed the amount of money derived from the sale of ten million dollars of bonds authorized by RCW 47.10.790 and deposited to the credit of the motor vehicle fund.

[1993 c 432 § 3.]

RCW 47.10.822 Statement of general obligation--Pledge of excise taxes.

Bonds issued under the authority of RCW 47.10.819 through 47.10.824 shall distinctly state that they are a general obligation of the state of Washington, shall pledge the full faith and credit of the state to the payment of the principal thereof and the interest thereon, and shall contain an unconditional promise to pay such principal and interest as the same shall become due. The principal and interest on the bonds shall be first payable in the manner provided in RCW 47.10.819 through 47.10.824 from the proceeds of the state excise taxes on motor vehicle and special fuels imposed by chapters 82.36 and 82.38 RCW. Proceeds of such excise taxes are hereby pledged to the payment of any bonds and the interest thereon issued under the authority of RCW 47.10.819 through 47.10.824, and the legislature agrees to continue to impose these excise taxes on motor vehicle and special fuels in amounts sufficient to pay, when due, the principal and interest on all bonds issued under the authority of RCW 47.10.819 through 47.10.824.

[1995 c 274 § 9; 1993 c 432 § 4.]

RCW 47.10.823 Designation of funds to repay bonds and interest.

Both principal and interest on the bonds issued for the purposes of RCW 47.10.819 through 47.10.824 shall be payable from the highway bond retirement fund. The state finance committee may provide that a special account be created in the fund to facilitate payment of the principal and interest. The state finance committee shall, on or before June 30th of each year, certify to the state treasurer the amount required for principal and interest on the bonds in accordance with the bond proceedings. The state treasurer shall withdraw revenues from the motor vehicle fund and deposit in the highway bond retirement fund, or a special account in the fund, such amounts, and at such times, as are required by the bond proceedings.

Any funds required for bond retirement or interest on the bonds authorized by RCW 47.10.819 through 47.10.824 shall be taken from that portion of the motor vehicle fund that results from the imposition of excise taxes on motor vehicle and special fuels and which is, or may be appropriated to the department of transportation for state highway purposes. Funds required shall never constitute a charge against any other allocations of motor vehicle fuel and special fuel tax revenues to the state, counties, cities, and towns unless the amount arising from excise taxes on motor vehicle and special fuels distributed to the state in the motor vehicle fund proves insufficient to meet the requirements for bond retirement or interest on any such bonds.

Any payments for bond retirement or interest on the bonds taken from other revenues from the motor vehicle fuel or special fuel taxes that are distributed to the state, counties, cities,

and towns, shall be repaid from the first revenues from the motor vehicle fuel or special fuel taxes distributed to the motor vehicle fund not required for bond retirement or interest on the bonds.

[1993 c 432 § 5.]

RCW 47.10.824 Equal charge against fuel tax revenues.

Bonds issued under the authority of RCW 47.10.819 through 47.10.823 and this section and any other general obligation bonds of the state of Washington that have been or that may be authorized and that pledge motor vehicle and special fuels excise taxes for the payment of principal and interest thereon shall be an equal charge against the revenues from such motor vehicle and special fuels excise taxes.

[1993 c 432 § 6.]

RCW 47.10.825 Severability--1993 c 432.

If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

PUBLIC-PRIVATE TRANSPORTATION INITIATIVES--1994 ACT

RCW 47.10.834 Issuance and sale of general obligation bonds.

In order to provide funds necessary to implement the public-private transportation initiatives authorized by chapter 47.46 RCW, there shall be issued and sold upon the request of the Washington state transportation commission a total of twenty-five million six hundred twenty-five thousand dollars of general obligation bonds of the state of Washington.

[1995 2nd sp.s. c 15 § 2; 1994 c 183 § 2.]

Notes:

Severability--1995 2nd sp.s. c 15: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1995 2nd sp.s. c 15 § 9.]

Effective date--1995 2nd sp.s. c 15: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately [June 16, 1995]." [1995 2nd sp.s. c 15 § 10.]

Finding--1994 c 183: "The legislature finds and declares:
Successful implementation of the public-private transportation initiatives program authorized in chapter 47.46 RCW may require the financial participation of the state in projects authorized in that chapter.

The participation may take the form of loans, loan guarantees, user charge guarantees, including incidental costs incurred by the department in direct support of activities required under chapter 47.46 RCW, or such other

cash contribution arrangements as may improve the ability of the private entities sponsoring the projects to obtain financing.

It is in the best interests of the people of the state that state funding of possible financial participation in the projects authorized under chapter 47.46 RCW be in the form of long-term bonds. In order to repay expenditures incurred in the 1993-1995 biennium, up to two million two hundred thousand dollars of these bonds may be expended on highway improvement projects, under chapter 47.05 RCW." [1995 2nd sp.s. c 15 § 1; 1994 c 183 § 1.]

RCW 47.10.835 Administration and amount of sale.

Upon the request of the transportation commission, the state finance committee shall supervise and provide for the issuance, sale, and retirement of the bonds authorized by RCW 47.10.834 through 47.10.841 in accordance with chapter 39.42 RCW. Bonds authorized by RCW 47.10.834 through 47.10.841 shall be sold in such manner, at such time or times, in such amounts, and at such price as the state finance committee shall determine. No such bonds may be offered for sale without prior legislative appropriation of the net proceeds of the sale of the bonds. In making such appropriation of the net proceeds of the sale of the bonds, the legislature shall specify what portion of the appropriation is provided for possible loans and what portion of the appropriation is provided for other forms of cash contributions to projects.

The state finance committee shall consider the issuance of short-term obligations in lieu of long-term obligations for the purposes of more favorable interest rates, lower total interest costs, and increased marketability and for the purpose of retiring the bonds during the life of the project for which they were issued.

[1994 c 183 § 3.]

RCW 47.10.836 Proceeds--Deposit and use.

(1) The proceeds from the sale of bonds authorized by RCW 47.10.834 through 47.10.841 that are in support of possible loans as specified under RCW 47.10.835 shall be deposited into the motor vehicle fund. The proceeds shall be available only for the purposes of making loans to entities authorized to undertake projects selected under chapter 47.46 RCW as enumerated in RCW 47.10.835, including incidental costs incurred by the department in direct support of activities required under chapter 47.46 RCW, for the payment of bond anticipation notes, if any, and for the payment of bond issuance costs, including the costs of underwriting.

(2) The proceeds from the sale of bonds authorized by RCW 47.10.834 through 47.10.841 that are in support of all forms of cash contributions to projects selected under chapter 47.46 RCW, including incidental costs incurred by the department in direct support of activities required under chapter 47.46 RCW, except loans shall be deposited into the motor vehicle fund. The proceeds shall be available only for the purposes of making any contributions except loans to projects selected under chapter 47.46 RCW, for the payment of bond anticipation notes, if any, and for the payment of bond issuance costs, including the costs of underwriting.

(3) Up to two million two hundred thousand dollars of the proceeds from the sale of bonds authorized by RCW 47.10.834 through 47.10.841 may be expended on highway improvement projects under chapter 47.05 RCW and for the payment of bond issuance cost,

including the cost of underwriting. Such proceeds shall be deposited into the motor vehicle fund.

RCW 47.12.010 Acquisition of property authorized--Condemnation actions--Cost.

Whenever it is necessary to secure any lands or interests in land for a right of way for any state highway, or for the drainage thereof or construction of a protection therefor or so as to afford unobstructed vision therefor toward any railroad crossing or another public highway crossing or any point of danger to public travel or to provide a visual or sound buffer between highways and adjacent properties or for the purpose of acquiring sand pits, gravel pits, borrow pits, stone quarries, or any other land for the extraction of materials for construction or maintenance or both, or for any site for the erection upon and use as a maintenance camp, of any state highway, or any site for other necessary structures or for structures for the health and accommodation of persons traveling or stopping upon the state highways of this state, or any site for the construction and maintenance of structures and facilities adjacent to, under, upon, within, or above the right of way of any state highway for exclusive or nonexclusive use by an urban public transportation system, or for any other highway purpose, together with right of way to reach such property and gain access thereto, the department of transportation is authorized to acquire such lands or interests in land in behalf of the state by gift, purchase, or condemnation.

In case of condemnation to secure such lands or interests in land, the action shall be brought in the name of the state of Washington in the manner provided for the acquiring of property for the public uses of the state, and in such action the selection of the lands or interests in land by the secretary of transportation shall, in the absence of bad faith, arbitrary, capricious, or fraudulent action, be conclusive upon the court and judge before which the action is brought that said lands or interests in land are necessary for public use for the purposes sought. The cost and expense of such lands or interests in land may be paid as a part of the cost of the state highway for which such right of way, drainage, unobstructed vision, sand pits, gravel pits, borrow pits, stone quarries, maintenance camp sites, and structure sites or other lands are acquired.

(2) At any time after the final adoption of a right of way plan or other plan requiring the acquisition of lands or interests in lands for any purpose as authorized in subsection (1) of this section, the department of transportation may file with the department of natural resources a notice setting forth its intent to acquire jurisdiction of the lands or interests in lands under the jurisdiction of the department of natural resources required for right of way or other highway purposes related to the construction or improvement of such state highway, toll facility, or ferry terminal or docking facility.

(3) The department of transportation at the time of filing its notice of intent as provided

in subsection (2) of this section shall file therewith a written statement showing the total amount of just compensation to be paid for the property in the event of settlement. The offer shall be based upon the department of transportation approved appraisal of the fair market value of the property to be acquired. In no event may the offer of settlement be referred to or used during any arbitration proceeding or trial conducted for the purpose of determining the amount of just compensation.

(4) Just compensation and/or fair market value for the purposes of this section shall be determined in accordance with applicable federal and state constitutional, statutory, and case law relating to the condemnation of private and public property for public purposes.

(5) If the department of natural resources does not accept the offer of the department of transportation, the department of transportation may nonetheless pay to the department of natural resources the amount of its offer and obtain immediate possession and use of the property pending the determination of just compensation in the manner hereinafter provided.

(6) If the amount of just compensation is not agreed to, either the department of natural resources or the department of transportation may request in writing the appointment of an arbitrator for the purpose of determining the amount of compensation to be paid by the department of transportation for the acquisition of jurisdiction over the lands or interests in lands or rights therein. In that event the department of natural resources and the department of transportation may jointly agree on an arbitrator to determine the compensation, and his determination shall be final and conclusive upon both departments. The costs of the arbitrator shall be borne equally by the parties. If the department of natural resources and the department of transportation are unable to agree on the selection of an arbitrator within thirty days after a request therefor is made, either the department of transportation or the department of natural resources may file a petition with the superior court for Thurston county for the purpose of determining the amount of just compensation to be paid. The matter shall be tried by the court pursuant to the procedures set forth in RCW 8.04.080.

(7) Whenever the department of transportation has acquired immediate possession and use of property by payment of the amount of its offer to the department of natural resources, and the arbitration award or judgment of the court for the acquisition exceeds the payment for immediate possession and use, the department of transportation shall forthwith pay the amount of such excess to the department of natural resources with interest thereon from the date it obtained immediate possession. If the arbitration or court award is less than the amount previously paid by the department of transportation for immediate possession and use, the department of natural resources shall forthwith pay the amount of the difference to the department of transportation.

(8) Upon the payment of just compensation, as agreed to by the department of transportation and the department of natural resources, or as determined by arbitration or by judgment of the court, and other costs or fees as provided by statute, the department of natural resources shall cause to be executed and delivered to the department of transportation an instrument transferring jurisdiction over the lands or interests in lands, or rights to remove material from the lands, to the department of transportation.

(9) Except as provided in RCW 47.12.026, whenever the department of transportation

ceases to use any lands or interests in lands acquired in the manner set forth in this section for the purposes mentioned herein, the department of natural resources may reacquire jurisdiction over the lands or interests in land by paying the fair market value thereof to the department of transportation. If the two departments are unable to agree on the fair market value of the lands or interests in lands, the market value shall be determined and the interests therein shall be transferred in accordance with the provisions and procedures set forth in subsections (4) through (8) of this section.

In that event the department of transportation shall pay to the department of natural resources, as just compensation for the acquisition, the fair market value of the property, including the beds of any navigable waters, to be determined in accordance with procedures set forth in RCW 47.12.023.

RCW 47.12.140 Severance and sale of timber and other personalty--Removal of nonmarketable materials.

Whenever the department has acquired any lands for transportation purposes, except state granted lands, upon which are located any structures, timber, or other thing of value attached to the land that the department deems it best to sever from the land and sell as personal property, the same may be disposed of by one of the following means:

(1) The department may sell the personal property at public auction after due notice has been given in accordance with general rules adopted by the secretary. The department may set minimum prices that will be accepted for any item offered for sale at public auction as provided in this section and may prescribe terms or conditions of sale. If an item is offered for sale at the auction and no satisfactory bids are received or the amount bid is less than the minimum set by the department, the department may sell the item at private sale for the best price that it deems obtainable, but not less than the highest price bid at the public auction. The proceeds of all sales under this section must be placed in the motor vehicle fund.

(2) The department may issue permits to residents of this state to remove specified quantities of standing or downed trees and shrubs, rock, sand, gravel, or soils that have no market value in place and that the department desires to be removed from state-owned lands that are under the jurisdiction of the department. An applicant for a permit must certify that the materials so removed are to be used by the applicant and that they will not be disposed of to any other person. Removal of materials under the permit must be in accordance with rules adopted by the department. The fee for a permit is two dollars and fifty cents, which fee must be deposited in the motor vehicle fund. The department may adopt rules providing for special access to limited access facilities for the purpose of removal of materials under permits authorized in this section.

(3) The department may sell timber or logs to an abutting landowner for cash at full appraised value, but only after each other abutting owner (if any), as shown in the records of the county assessor, is notified in writing of the proposed sale. If more than one abutting owner requests in writing the right to purchase the timber within fifteen days after receiving notice of

the proposed sale, the timber must be sold in accordance with subsection (1) of this section.

(4) The department may sell timber or logs having an appraised value of one thousand dollars or less directly to interested parties for cash at the full appraised value without notice or advertising. If the timber is attached to state-owned land, the department shall issue a permit to the purchaser of the timber to allow for the removal of the materials from state land. The permit fee is two dollars and fifty cents.

The secretary of transportation shall execute each conveyance, which shall be duly acknowledged, necessary to accomplish such exchange.

RCW 47.12.160 Acquisition of land outside highway right of way to minimize damage.

Whenever a part of a parcel of land is to be acquired for state highway purposes and the remainder lying outside of the right of way is to be left in such shape or condition as to be of little value to its owner or to give rise to claims or litigation concerning severance or other damage, and its value does not exceed the probable amount of the severance claims or damages, the department may acquire by gift, purchase, or condemnation the whole parcel and may sell that portion lying outside of the highway right of way or may exchange the same for other property needed for highway purposes. The provisions of this section do not apply if the taking of that portion of the land lying outside of the highway right of way would deprive any adjacent owner of an existing right of ingress and egress to his property.

RCW 47.12.180 Additional financing methods for property and engineering costs--Formal declarations.

It is declared to be the public policy of the state of Washington to provide for the acquisition of real property and engineering costs necessary for the improvement of the state highway system, in advance of actual construction, for the purposes of eliminating costly delays in construction, reducing hardship to owners of the property, and eliminating economic waste occasioned by the improvement of such property immediately prior to its acquisition for highway uses.

The legislature therefore finds and declares that purchase and condemnation of real property necessary for the state highway system and engineering costs, reasonably in advance of programmed construction, is a public use and purpose and a highway purpose.

The department is hereby authorized to purchase or condemn any real property or property rights therein which it deems will be necessary for the improvement of routes on the state highway system by the method provided in RCW 47.12.180 through 47.12.240 or alternatively by the method provided in RCW 47.12.242 through 47.12.246. Neither method may be used to condemn property or property rights in advance of programmed construction until the department has complied with hearing procedures required for the location or relocation of the type of highway for which the property is to be condemned.

The term "advance right of way acquisition" means the acquisition of property and property rights, generally not more than ten years in advance of programmed highway construction projects, together with the engineering costs necessary for such advance right of way acquisition. Any property or property rights purchased must be in designated highway transportation corridors and be for projects approved by the commission as part of the state's six-year plan or included in the state's route development planning effort.

[1991 c 291 § 1; 1969 ex.s. c 197 § 6.]

RCW 47.12.244 Advance right of way revolving fund.

There is created the "advance right of way revolving fund" in the custody of the treasurer, into which the department is authorized to deposit directly and expend without appropriation:

(1) An initial deposit of ten million dollars from the motor vehicle fund included in the department of transportation's 1991-93 budget;

(2) All moneys received by the department as rental income from real properties that are not subject to federal aid reimbursement, except moneys received from rental of capital facilities properties as defined in *chapter 47.13 RCW; and

(3) Any federal moneys available for acquisition of right of way for future construction under the provisions of section 108 of Title 23, United States Code.

RCW 47.12.246 Reimbursement to advance right of way revolving fund.

(1) After any properties or property rights are acquired from funds in the advance right of way revolving fund, the department shall manage the properties in accordance with sound business practices. Funds received from interim management of the properties shall be deposited in the advance right of way revolving fund.

(2) When the department proceeds with the construction of a highway which will require the use of any of the property so acquired, the department shall reimburse the advance right of way revolving fund, from other funds available to it, the current appraised value of the property or property rights required for the project together with damages caused to the remainder by the acquisition after offsetting against all such compensation and damages the special benefits, if any, accruing to the remainder by reason of the state highway being constructed.

(3) When the department determines that any properties or property rights acquired from funds in the advance right of way revolving fund will not be required for a highway construction project the department may sell the property at fair market value in accordance with

requirements of RCW 47.12.063. All proceeds of such sales shall be deposited in the advance right of way revolving fund.

(4) Deposits in the fund may be reexpended as provided in RCW 47.12.180, 47.12.200 through 47.12.230, and 47.12.242 through 47.12.248 without further or additional appropriations.

RCW 47.12.283 Sale of real property authorized--Procedure--Disposition of proceeds.

(1) Whenever the department of transportation determines that any real property owned by the state of Washington and under the jurisdiction of the department is no longer required for highway purposes and that it is in the public interest to do so, the department may, in its discretion, sell the property under RCW 47.12.063 or under subsections (2) through (6) of this section.

(2) Whenever the department determines to sell real property under its jurisdiction at public auction, the department shall first give notice thereof by publication on the same day of the week for two consecutive weeks, with the first publication at least two weeks prior to the date of the auction, in a legal newspaper of general circulation in the area where the property to be sold is located. The notice shall be placed in both the legal notices section and the real estate classified section of the newspaper. The notice shall contain a description of the property, the time and place of the auction, and the terms of the sale. The sale may be for cash or by real estate contract.

(3) The department shall sell the property at the public auction, in accordance with the terms set forth in the notice, to the highest and best bidder providing the bid is equal to or higher than the appraised fair market value of the property.

(4) If no bids are received at the auction or if all bids are rejected, the department may, in its discretion, enter into negotiations for the sale of the property or may list the property with a licensed real estate broker. No property shall be sold by negotiations or through a broker for less than the property's appraised fair market value. Any offer to purchase real property pursuant to this subsection shall be in writing and may be rejected at any time prior to written acceptance by the department.

(5) Before the department shall approve any offer for the purchase of real property having an appraised value of more than ten thousand dollars, pursuant to subsection (4) of this section, the department shall first publish a notice of the proposed sale in a local newspaper of general circulation in the area where the property is located. The notice shall include a description of the property, the selling price, the terms of the sale, including the price and

interest rate if sold by real estate contract, and the name and address of the department employee or the real estate broker handling the transaction. The notice shall further state that any person may, within ten days after the publication of the notice, deliver to the designated state employee or real estate broker a written offer to purchase the property for not less than ten percent more than the negotiated sale price, subject to the same terms and conditions. A subsequent offer shall not be considered unless it is accompanied by a deposit of twenty percent of the offer in the form of cash, money order, cashiers check, or certified check payable to the Washington state treasurer, to be forfeited to the state (for deposit in the motor vehicle fund) if the offeror fails to complete the sale if the offeror's offer is accepted. If a subsequent offer is received, the first offeror shall be informed by registered or certified mail sent to the address stated in his offer. The first offeror shall then have ten days, from the date of mailing the notice of the increased offer, in which to file with the designated state employee or real estate broker a higher offer than that of the subsequent offeror. After the expiration of the ten day period, the department shall approve in writing the highest and best offer which the department then has on file.

(6) All moneys received pursuant to this section, less any real estate broker's commissions paid pursuant to RCW 47.12.320, shall be deposited in the motor vehicle fund.

RCW 47.12.287 Exchange of real property authorized--Conveyance by deed.

The department of transportation is hereby authorized to enter into an exchange agreement with the owner of real property required for highway purposes to convey to such owner real property, owned by the state and under the department's jurisdiction, as full or part consideration for property to be acquired for highway purposes. Such an exchange agreement may relate back and apply to any exchange of property previously agreed to and partially executed (pursuant to an earlier exchange agreement found to be void for want of a governor's deed as required by prior law), and shall be subject to such agreed terms and conditions as are authorized by RCW 47.12.063(3) as now existing or hereafter amended. Any conveyance from the state of Washington made pursuant to this section shall be by deed executed by the secretary of transportation, which shall be duly acknowledged.

RCW 47.12.330 Advanced environmental mitigation--Authorized.

For the purpose of environmental mitigation of transportation projects, the department may acquire or develop, or both acquire and develop, environmental mitigation sites in advance of the construction of programmed projects. The term "advanced environmental mitigation" means mitigation of adverse impacts upon the environment from transportation projects before their design and construction. Advanced environmental mitigation consists of the acquisition of property; the acquisition of property, water, or air rights; the development of property for the purposes of improved environmental management; engineering costs necessary for such purchase and development; and the use of advanced environmental mitigation sites to fulfill project environmental permit requirements. Advanced environmental mitigation must be conducted in a manner that is consistent with the definition of mitigation found in the council of environmental quality regulations (40 C.F.R. Sec. 1508.20) and the governor's executive order on wetlands (EO 90-04). Advanced environmental mitigation is for projects approved by the transportation commission as part of the state's six-year plan or included in the state highway system plan. Advanced environmental mitigation must give consideration to activities related to

fish passage, fish habitat, wetlands, and flood management. Advanced environmental mitigation may also be conducted in partnership with federal, state, or local government agencies, tribal governments, interest groups, or private parties. Partnership arrangements may include joint acquisition and development of mitigation sites, purchasing and selling mitigation bank credits among participants, and transfer of mitigation site title from one party to another. Specific conditions of partnership arrangements will be developed in written agreements for each applicable environmental mitigation site.

[1998 c 181 § 2; 1997 c 140 § 2.]

Notes:

Findings--1998 c 181: "The legislature finds that fish passage, fish habitat, wetlands, and flood management are critical issues in the effective management of watersheds in Washington. The legislature also finds that the state of Washington invests a considerable amount of resources on environmental mitigation activities related to fish passage, fish habitat, wetlands, and flood management. The department of transportation's advanced environmental mitigation revolving account established under RCW 47.12.340, is a key funding component in bringing environmental mitigation together with comprehensive watershed management." [1998 c 181 § 1.]

Intent--1997 c 140: "It is the intent of chapter 140, Laws of 1997 to provide environmental mitigation in advance of the construction of programmed projects where desirable and feasible, [which] will provide a more efficient and predictable environmental permit process, increased benefits to environmental resources, and a key tool in using the watershed approach for environmental impact mitigation. The legislative transportation committee, through its adoption of the December 1994 report "Environmental Cost Savings and Permit Coordination Study," encourages state agencies to use a watershed approach based on a water resource inventory area in an improved environmental mitigation and permitting process. Establishment of an advanced transportation environmental mitigation revolving account would help the state to improve permit processes and environmental protection when providing transportation services." [1997 c 140 § 1.]

RCW 47.12.340 Advanced environmental mitigation revolving account.

The advanced environmental mitigation revolving account is created in the custody of the treasurer, into which the department shall deposit directly and may expend without appropriation:

- (1) An initial appropriation included in the department of transportation's 1997-99 budget, and deposits from other identified sources;
- (2) All moneys received by the department from internal and external sources for the purposes of conducting advanced environmental mitigation; and
- (3) Interest gained from the management of the advanced environmental mitigation revolving account.

Notes:

Intent--1997 c 140: See note following RCW 47.12.330.

RCW 47.12.350 Advanced environmental mitigation--Site management--Reimbursement of account.

(1) After advanced environmental mitigation is conducted from funds in the advanced environmental mitigation revolving account, the advanced environmental mitigation sites must be managed in accordance with any permits, agreements, or other legal documents under which the subject advanced environmental mitigation is conducted.

(2) When the department or any of its transportation partners proceeds with the construction of a transportation project that will use advanced environmental mitigation sites to meet the environmental mitigation needs of a project, the advanced environmental mitigation revolving account shall be reimbursed from those transportation project funds appropriated for the use of the advanced environmental mitigation sites. Reimbursements to the advanced environmental mitigation revolving account must be paid at a rate that captures:

(a) Projected land acquisition costs for environmental mitigation for the subject transportation project;

(b) Advanced environmental mitigation site development costs;

(c) Advanced environmental mitigation site operational costs (e.g., site monitoring);

(d) Administrative costs for the management of the advanced environmental revolving account.

These costs must be adjusted based on inflation, as appropriate.

When only a portion of an advanced environmental mitigation site is used, the reimbursement rate charged to the purchasing party will be prorated for the portion used.

Notes:

Intent--1997 c 140: See note following RCW 47.12.330.

RCW 47.12.360 Advanced environmental mitigation--Reports.

By January 1st of each odd-numbered year, the department shall report to the legislative transportation committee and the office of financial management:

(1) Which properties were purchased and why;

(2) Expenditures for the acquired parcels; and

(3) Estimated savings from these actions.

RCW 47.14.010 Legislative finding, intent.

The legislature finds that in numerous areas throughout the state, rapid expansion of residential, commercial, industrial, and business activities is producing increased traffic levels. The legislature further finds that many property owners have exhibited a willingness to donate real property or property rights for transportation improvements to accommodate such increases in traffic. The legislature recognizes that the cost of right of way acquisition is often a significant, and even a prohibitive cost element in many transportation improvement projects.

The legislature seeks to encourage the voluntary donation of right of way to the state, counties, cities, and towns for transportation improvements recognizing that such donations can result in direct benefits to property owners, developers, and the community at large.

It is the intent of the legislature to further facilitate the department of transportation's authority under RCW 47.12.010, 47.24.030, and 47.52.050 to accept donations of right of way for state transportation purposes. The legislature further intends to facilitate the authority of a city, town, or county to accept donations of right of way for other transportation purposes.

The legislature therefore declares it to be in the best interest and welfare of the citizens of Washington for the state department of transportation, and for counties, cities, and towns to actively foster and encourage donations of right of way by willing donors in all areas where transportation improvements are to be made. In addition, and in lieu of monetary compensation for property needed for right of way purposes, the legislature seeks to provide incentives to potential donors such as are set forth in RCW 47.14.030 and 47.14.040.

[1987 c 267 § 1.]

RCW 47.14.020 Definitions.

The definitions set forth in this section apply throughout this chapter.

(1) "Right of way" means the area of land designated for transportation purposes.

(2) "Airspace" means the space above and below the gradeline of all highways, roads, and streets, and the area alongside the traveled way and within approved right of way lines.

[1987 c 267 § 2.]

RCW 47.14.030 Credit against transportation benefit district assessment.

The governing body of a transportation benefit district may give credit for all or any portion of any real property donation against an assessment, charge, or other required financial

contribution for transportation improvements within a transportation benefit district established under RCW 36.73.020 or 35.21.225. The credit granted shall be available against any assessment, charge or other required financial contribution for any transportation purpose which utilizes the donated property.

[1987 c 267 § 3.]

RCW 47.14.040 Advertising signs on donated parcel.

The department or the county, city, or town to which the right of way is donated shall, upon request, grant the donor an airspace lease or a permit for the purpose of erecting or maintaining, or both, one or more signs advertising a business of the donor that is conducted on premises adjacent to the donated parcel unless the sign or signs would be detrimental to the safety and operation of the highway, road, or street. This provision applies to all highways, roads, and streets other than limited access highways and streets, where it applies only until the donated parcel becomes part of a completed operating facility. Except as provided in this section, any such sign shall conform to the requirements of all other applicable federal, state, and local laws and ordinances. The lease agreement or permit shall take into consideration applicable county and city zoning ordinances and may provide for compensation for removal of the sign in accordance with applicable federal, state, and local laws and ordinances. The lease agreement or permit shall specify the conditions for signage.

[1987 c 267 § 4.]

RCW 47.14.050 Department's duties.

The department shall:

- (1) Give priority to the refinement and modification of right of way procedures and policies dealing with donation;
- (2) Reduce or simplify paperwork requirements resulting from right of way procurement;
- (3) Increase communication and education efforts as a means to solicit and encourage voluntary right of way donations;
- (4) Enhance communication and coordination with local governments through agreements of understanding that address state acceptance of right of way donations secured under zoning, use permits, subdivision, and associated police power authority of local government.

[1998 c 245 § 96; 1987 c 267 § 5.]

RCW 47.14.900 Construction.

Nothing in this chapter may be construed to contravene the requirements of chapter 8.26 RCW.

[1987 c 267 § 6.]

RCW 47.14.910 Severability--1987 c 267.

If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

RCW 47.17.001 Criteria for changes to system.

In considering whether to make additions, deletions, or other changes to the state highway system, the legislature shall be guided by the following criteria as contained in the Road Jurisdiction Committee Phase I report to the legislature dated January 1987:

(1) A rural highway route should be designated as a state highway if it meets any of the following criteria:

(a) Is designated as part of the national system of interstate and defense highways (popularly called the interstate system); or

(b) Is designated as part of the system of numbered United States routes; or

(c) Contains an international border crossing that is open twelve or more hours each day.

(2) A rural highway route may be designated as a state highway if it is part of an integrated system of roads and:

(a) Carries in excess of three hundred thousand tons annually and provides primary access to a rural port or intermodal freight terminal;

(b) Provides a major cross-connection between existing state highways;

(c) Connects places exhibiting one or more of the following characteristics:

(i) A population center of one thousand or greater;

(ii) An area or aggregation of areas having a population equivalency of one thousand or more, such as, but not limited to, recreation areas, military installations, and so forth;

(iii) A county seat;

(iv) A major commercial-industrial terminal in a rural area with a population equivalency of one thousand or greater; or

(d) Is designated as a scenic and recreational highway.

(3) An urban highway route that meets any of the following criteria should be designated as part of the state highway system:

(a) Is designated as part of the interstate system;

(b) Is designated as part of the system of numbered United States routes;

(c) Is an urban extension of a rural state highway into or through an urban area and is necessary to form an integrated system of state highways;

(d) Is a principal arterial that is a connecting link between two state highways and serves regionally oriented through traffic in urbanized areas with a population of fifty thousand or greater, or is a spur that serves regionally oriented traffic in urbanized areas.

(4) The following guidelines are intended to be used as a basis for interpreting and applying the criteria to specific routes:

(a) For any route wholly within one or more contiguous jurisdictions which would be proposed for transfer to the state highway system under these criteria, if local officials prefer, responsibility will remain at the local level.

(b) State highway routes maintain continuity of the system by being composed of routes that join other state routes at both ends or to arterial routes in the states of Oregon and Idaho and the Province of British Columbia.

(c) Public facilities may be considered to be served if they are within approximately two miles of a state highway.

(d) Exceptions may be made to include:

(i) Rural spurs as state highways if they meet the criteria relative to serving population centers of one thousand or greater population or activity centers with population equivalencies or an aggregated population of one thousand or greater;

(ii) Urban spurs as state highways that provide needed access to Washington state ferry terminals, state parks, major seaports, and trunk airports; and

(iii) Urban connecting links as state highways that function as needed bypass routing of regionally oriented through traffic and benefit truck routing, capacity alternative, business congestion, and geometric deficiencies.

(e) In urban and urbanized areas:

(i) Unless they are significant regional traffic generators, public facilities such as state hospitals, state correction centers, state universities, ferry terminals, and military bases do not constitute a criteria for establishment of a state highway; and

(ii) There may be no more than one parallel nonaccess controlled facility in the same corridor as a freeway or limited access facility as designated by the metropolitan planning organization.

(f) When there is a choice of two or more routes between population centers, the state route designation shall normally be based on the following considerations:

(i) The ability to handle higher traffic volumes;

(ii) The higher ability to accommodate further development or expansion along the existing alignment;

(iii) The most direct route and the lowest travel time;

(iv) The route that serves traffic with the most interstate, state-wide, and interregional significance;

(v) The route that provides the optimal spacing between other state routes; and

(vi) The route that best serves the comprehensive plan for community development in

those areas where such a plan has been developed and adopted.

(g) A route designated in chapter 47.39 RCW as a scenic and recreational highway may be designated as a state highway in addition to a parallel state highway route.

Notes:

Severability--1984 c 7: See note following RCW 47.01.141.

RCW 47.20.645 Interstate 90 corridor--Legislative finding.

The legislature finds that the department initiated route studies for the location of that segment of the national system of interstate and defense highways (interstate system) between south Bellevue and state route No. 5 in Seattle in 1957 culminating in a corridor public hearing and adoption of a corridor in 1963; that thereafter the department, utilizing a multidisciplinary design team and soliciting the broadest public participation, developed a series of designs culminating in a public design hearing in 1970, a public limited access hearing in 1971, and adoption of a design and limited access plan for the facility in 1971; that commencing in 1970 the proposed facility has been the subject of numerous lawsuits and administrative proceedings that have prevented advancement of the project to construction; that since further development of the project was enjoined by federal courts in 1971 the cost of constructing the project has increased by more than one hundred million dollars; that the traffic congestion and traffic hazards existing in the existing highway corridor between south Bellevue, Mercer Island, and the city of Seattle are no longer tolerable; that after more than seventeen years of studies the public interest now requires that final decisions regarding the appropriate system for meeting the transportation requirements between south Bellevue and the city of Seattle be made promptly and in accordance with a prescribed schedule.

It is therefore the sense of the legislature that further protracted delay in establishing the transportation system to be constructed between south Bellevue and state route No. 5 in the city of Seattle is contrary to the interest of the people of this state and can no longer be tolerated as acceptable public administration. Accordingly the schedule for finally determining the character of transportation modes between south Bellevue and state route No. 5 in the city of Seattle as set forth in RCW 47.20.645 through 47.20.653 and 47.20.900 is adopted as the public policy of this state.

[1984 c 7 § 149; 1975 1st ex.s. c 272 § 1.]

Notes:

Severability--1984 c 7: See note following RCW 47.01.141.

RCW 47.20.647 Interstate 90 corridor--Withdrawal of local governments from project--Effect on use of state funds.

(1) The Puget Sound council of governments (until July 1, 1975, known as the Puget Sound governmental conference) now engaged in a study of the withdrawal from the interstate system of that segment of state route No. 90 between the south Bellevue interchange and the

Connecticut street interchange on state route No. 5 and the substitution of public mass transit projects in lieu thereof as authorized by section 103(e)(4) of Title 23, United States Code, is directed to complete all phases of the study by November 1, 1975.

(2) No later than January 15, 1976, the city councils of Seattle, Mercer Island and Bellevue and the county council of King County shall each by resolution either approve or disapprove a request to withdraw from the interstate system the segment of state route No. 90 between south Bellevue interchange and the Connecticut street interchange on state route No. 5. Nothing in this subsection shall be construed as requiring the city or county councils to adopt by January 15, 1976 any proposal for substitute mass transit projects.

(3) If at least three of the four city and county councils request withdrawal from the interstate system of the designated segment of state route No. 90 by January 15, 1976, and such request is thereafter concurred in by the governor and the Puget Sound council of governments, such determination shall be final as it relates to the state of Washington and except as may be required to terminate the project in an orderly manner, no moneys shall thereafter be expended from the motor vehicle fund for further development of the designated section of highway as an interstate highway without further express authorization of the legislature.

(4) If fewer than three of the four city and county councils request withdrawal from the interstate system of the designated segment of state route No. 90 by January 15, 1976, or if the governor does not concur in the withdrawal request, then no tax revenues collected by the state of Washington shall thereafter be expended for the construction of substitute public mass transit projects in the Seattle metropolitan area pursuant to section 103(e)(4) of Title 23, United States Code, without further express authorization of the legislature.

[1975 1st ex.s. c 272 § 2.]

RCW 47.20.653 Interstate 90 corridor--Court proceedings, priority.

State court proceedings instituted to challenge the validity of any steps taken in pursuance of the construction of the segment of the interstate system between south Bellevue and state route No. 5 in Seattle, or the construction of substitute public mass transit projects in lieu thereof, shall take precedence over all other causes not involving the public interest in all courts of this state to the end construction of such facilities may be expedited to the fullest. The legislature of the state of Washington respectfully requests of the federal judiciary that challenges instituted in the federal courts relating to the validity of steps leading to the construction of the designated interstate highway or substitute public mass transit projects in lieu thereof be expedited to the fullest.

[1975 1st ex.s. c 272 § 5.]

RCW 47.20.700 State route No. 504 (Spirit Lake Memorial Highway)--Extension and parking facilities.

The department of transportation may provide for the construction of an extension of state route number 504 from the vicinity of Maple Flats to the vicinity of the United States Corps

of Engineers debris dam on the north fork of the Toutle river on an alignment to be approved by the department of transportation. The department may enter into an agreement with the principal owner of the necessary right of way providing as follows:

(1) The owner of the right of way shall construct the highway extension and public parking facilities as specified by the department of transportation.

(2) The owner of the right of way shall convey to the state, right of way for the highway extension a minimum of one hundred fifty feet in width (except right of way presently under the control of the department of natural resources), together with areas for public parking facilities as designated by the department of transportation.

(3) The department of transportation shall reimburse the present owner of the right of way for the actual cost of construction of the highway extension and the public parking facilities.

(4) The construction of the highway extension and public parking facilities shall be completed within one year after March 27, 1982.

The department of transportation may acquire that part of the right of way necessary for the highway extension that is now under the control of the department of natural resources in the manner provided in RCW 47.12.023 through 47.12.029.

All expenditures by the department of transportation pursuant to this section shall be from appropriations for the construction of category A projects.

[1982 c 82 § 2.]

RCW 47.20.710 Quinault Tribal Highway--Agreement authorized--Route.

The department of transportation is authorized to enter into a cooperative agreement with the governing authority for the Indian peoples of the Quinault Indian Reservation and appropriate agencies of the United States for the location, design, right of way acquisition, construction, and maintenance of a highway beginning at the south boundary of the Quinault Indian reservation on state route number 109, thence northerly along the present right of way of state route number 109 to the township line, thence inland and northerly across the Raft river to an intersection with state route number 101 south of Queets. The highway shall be known as the "Tribal Highway" and may also be designated by the department as state route number 109. It is anticipated that this highway construction will be funded from federal sources other than normal federal aid highway allocations.

[1985 c 228 § 1.]

Notes:

State route number 109: RCW 47.17.200.

RCW 47.20.715 Quinault Tribal Highway--Maintenance, operation, improvements--Intersections, access.

As a part of the agreement, the department may assume responsibility for the operation and maintenance and future improvement of the highway. The agreement may also reserve to the

governing authority for the Indian peoples of the Quinault Indian Reservation authority to construct public road intersections or grade separation crossings of the highway. Existing rights of access from adjoining property to existing state route number 109 from the south reservation boundary to the township line shall not be affected by RCW 47.20.710 through 47.20.735 or the agreement authorized by RCW 47.20.710.

[1985 c 228 § 2.]

RCW 47.20.720 Quinault Tribal Highway--Certain portion as limited access.

The department is authorized to determine the location of the highway from the township line to a junction with state route number 101 after consultations with the governing authority for the Indian peoples of the Quinault Indian Reservation and the bureau of Indian affairs. The department may then proceed with the establishment of this section of the highway as a limited access facility in the manner prescribed in RCW 47.52.131 through 47.52.137 and 47.52.195 (and the administrative rules adopted by the department to implement those sections), subject, however, to the following conditions: (1) The access report required by RCW 47.52.131 shall be approved by the governing authority for the Indian peoples of the Quinault Indian Reservation before public hearings; and (2) the final limited access plan adopted pursuant to RCW 47.52.137 at the conclusion of the public hearing, or after any appeal from it has been decided, shall be approved by the governing authority for the Indian peoples of the Quinault Indian Reservation and the bureau of Indian affairs before right of way is acquired for this section of highway.

[1985 c 228 § 3.]

RCW 47.20.725 Quinault Tribal Highway--Acquisition of remaining right of way.

The department is authorized to acquire the remaining right of way for the Tribal Highway by purchase or by condemnation under state or federal eminent domain statutes. The secretary of transportation pursuant to the agreement is authorized to convey by deed to the governing authority for the Indian peoples of the Quinault Indian Reservation the right of way to the entire highway when fully acquired in return for a conveyance by the governing authority for the Indian peoples of the Quinault Indian Reservation to the state of Washington of a perpetual easement for public travel on the through lanes and shoulders of the highway when constructed. The agreement may also authorize the governing authority for the Indian peoples of the Quinault Indian Reservation to convey to the United States an easement to construct, maintain, and repair the highway improvements if such an easement is required by regulations of the bureau of Indian affairs.

[1985 c 228 § 4.]

RCW 47.20.730 Quinault Tribal Highway--Department as agent.

Except as otherwise provided by RCW 47.20.710 through 47.20.735 or by the agreement

authorized by RCW 47.20.710, the department may proceed with the location, design, acquisition of right of way, construction, and maintenance of the highway as an agent of the governing authority for the Indian peoples of the Quinault Indian Reservation in accordance with applicable state or federal law.

[1985 c 228 § 5.]

RCW 47.20.735 Quinault Tribal Highway--Authority to seek federal funding.

The department is authorized to join with the governing authority for the Indian peoples of the Quinault Indian Reservation to seek federal funding for the construction of the Tribal Highway.

[1985 c 228 § 6.]

RCW 47.20.780 Design-build--Competitive bidding. (Expires April 30, 2008.)

The department of transportation shall develop a process for awarding competitively bid highway construction contracts for projects over ten million dollars that may be constructed using a design-build procedure. As used in this section and RCW 47.20.785, "design-build procedure" means a method of contracting under which the department of transportation contracts with another party for the party to both design and build the structures, facilities, and other items specified in the contract.

The process developed by the department must, at a minimum, include the scope of services required under the design-build procedure, contractor prequalification requirements, criteria for evaluating technical information and project costs, contractor selection criteria, and issue resolution procedures.

This section expires April 30, 2008.

[2001 c 226 § 2.]

NOTES:

Findings--Purpose--2001 c 226: "The legislature finds and declares that a contracting procedure that facilitates construction of transportation facilities in a more timely manner may occasionally be necessary to ensure that construction can proceed simultaneously with the design of the facility. The legislature further finds that the design-build process and other alternative project delivery concepts achieve the goals of time savings and avoidance of costly change orders.

The legislature finds and declares that a 2001 audit, conducted by Talbot, Korvola & Warwick, examining the Washington state ferries' capital program resulted in a recommendation for improvements and changes in auto ferry procurement processes. The auditors recommended that auto ferries be procured through use of a modified request for proposals process whereby the prevailing shipbuilder and Washington state ferries engage in a design and build partnership. This process promotes ownership of the design by the shipbuilder while using the department of transportation's expertise in ferry design and operations. Alternative processes like design-build partnerships can promote innovation and create competitive incentives that increase the likelihood of finishing projects on time and within the budget.

The purpose of this act is to authorize the department's use of a modified request for proposals process for procurement of auto ferries, and to prescribe appropriate requirements and criteria to ensure that contracting

procedures for this procurement process serve the public interest." [2001 c 226 § 1.]

RCW 47.20.785 Design-build--Qualified projects. (Expires April 30, 2008.)

The department of transportation may use the design-build procedure for public works projects over ten million dollars where:

(1) The construction activities are highly specialized and a design-build approach is critical in developing the construction methodology; or

(2) The projects selected provide opportunity for greater innovation and efficiencies between the designer and the builder; or

(3) Significant savings in project delivery time would be realized.

This section expires April 30, 2008.

The transportation commission shall determine what streets, together with bridges thereon and wharves necessary for use for ferriage of motor vehicle traffic in connection with such streets, if any, in any incorporated cities and towns shall form a part of the route of state highways and between the first and fifteenth days of July of any year the department of transportation shall identify by brief description, the streets, together with the bridges thereon and wharves, if any, in such city or town which are designated as forming a part of the route of any state highway; and all such streets, including curbs and gutters and street intersections and such bridges and wharves, shall thereafter be a part of the state highway system and as such shall be constructed and maintained by the department of transportation from any state funds available therefor: PROVIDED, That the responsibility for the construction and maintenance of any such street together with its appurtenances may be returned to a city or a town upon certification by the department of transportation to the clerk of any city or town that such street, or portion thereof, is no longer required as a part of the state highway system: PROVIDED FURTHER, That any such certification that a street, or portion thereof, is no longer required as a part of the state highway system shall be made between the first and fifteenth of July following the determination by the department that such street or portion thereof is no longer required as a part of the state highway system, but this shall not prevent the department and any city or town from entering into an agreement that a city or town will accept responsibility for such a street or portion thereof at some time other than between the first and fifteenth of July of any year.

RCW 47.24.020 Jurisdiction, control.

The jurisdiction, control, and duty of the state and city or town with respect to such streets is as follows:

(1) The department has no authority to change or establish any grade of any such street without approval of the governing body of such city or town, except with respect to limited access facilities established by the commission;

(2) The city or town shall exercise full responsibility for and control over any such street beyond the curbs and if no curb is installed, beyond that portion of the highway used for highway purposes. However, within incorporated cities and towns the title to a state limited access highway vests in the state, and, notwithstanding any other provision of this section, the department shall exercise full jurisdiction, responsibility, and control to and over such facility as provided in chapter 47.52 RCW;

(3) The department has authority to prohibit the suspension of signs, banners, or decorations above the portion of such street between the curbs or portion used for highway

purposes up to a vertical height of twenty feet above the surface of the roadway;

(4) The city or town shall at its own expense maintain all underground facilities in such streets, and has the right to construct such additional underground facilities as may be necessary in such streets. However, pavement trenching and restoration performed as part of installation of such facilities must meet or exceed requirements established by the department;

(5) The city or town has the right to grant the privilege to open the surface of any such street, but all damage occasioned thereby shall promptly be repaired either by the city or town itself or at its direction. Pavement trenching and restoration performed under a privilege granted by the city under this subsection must meet or exceed requirements established by the department;

(6) The city or town at its own expense shall provide street illumination and shall clean all such streets, including storm sewer inlets and catch basins, and remove all snow, except that the state shall when necessary plow the snow on the roadway. In cities and towns having a population of twenty-two thousand five hundred or less according to the latest determination of population by the office of financial management, the state, when necessary for public safety, shall assume, at its expense, responsibility for the stability of the slopes of cuts and fills and the embankments within the right of way to protect the roadway itself. When the population of a city or town first exceeds twenty-two thousand five hundred according to the determination of population by the office of financial management, the city or town shall have three years from the date of the determination to plan for additional staffing, budgetary, and equipment requirements before being required to assume the responsibilities under this subsection. The state shall install, maintain, and operate all illuminating facilities on any limited access facility, together with its interchanges, located within the corporate limits of any city or town, and shall assume and pay the costs of all such installation, maintenance, and operation incurred after November 1, 1954;

(7) The department has the right to use all storm sewers on such highways without cost; and if new storm sewer facilities are necessary in construction of new streets by the department, the cost of the facilities shall be borne by the state and/or city as may be mutually agreed upon between the department and the governing body of the city or town;

(8) Cities and towns have exclusive right to grant franchises not in conflict with state laws and rules, over, beneath, and upon such streets, but the department is authorized to enforce in an action brought in the name of the state any condition of any franchise which a city or town has granted on such street. No franchise for transportation of passengers in motor vehicles may be granted on such streets without the approval of the department, but the department shall not refuse to approve such franchise unless another street conveniently located and of strength of construction to sustain travel of such vehicles is accessible;

(9) Every franchise or permit granted any person by a city or town for use of any portion of such street by a public utility must require the grantee or permittee to restore, repair, and replace any portion of the street damaged or injured by it to conditions that meet or exceed requirements established by the department;

(10) The city or town has the right to issue overload or overwidth permits for vehicles to operate on such streets or roads subject to regulations printed and distributed to the cities and

towns by the department;

(11) Cities and towns shall regulate and enforce all traffic and parking restrictions on such streets, but all regulations adopted by a city or town relating to speed, parking, and traffic control devices on such streets not identical to state law relating thereto are subject to the approval of the department before becoming effective. All regulations pertaining to speed, parking, and traffic control devices relating to such streets heretofore adopted by a city or town not identical with state laws shall become null and void unless approved by the department heretofore or within one year after March 21, 1963;

(12) The department shall erect, control, and maintain at state expense all route markers and directional signs, except street signs, on such streets;

(13) The department shall install, operate, maintain, and control at state expense all traffic control signals, signs, and traffic control devices for the purpose of regulating both pedestrian and motor vehicular traffic on, entering upon, or leaving state highways in cities and towns having a population of twenty-two thousand five hundred or less according to the latest determination of population by the office of financial management. Such cities and towns may submit to the department a plan for traffic control signals, signs, and traffic control devices desired by them, indicating the location, nature of installation, or type thereof, or a proposed amendment to such an existing plan or installation, and the department shall consult with the cities or towns concerning the plan before installing such signals, signs, or devices. Cities and towns having a population in excess of twenty-two thousand five hundred according to the latest determination of population by the office of financial management shall install, maintain, operate, and control such signals, signs, and devices at their own expense, subject to approval of the department for the installation and type only. When the population of a city or town first exceeds twenty-two thousand five hundred according to the determination of population by the office of financial management, the city or town shall have three years from the date of the determination to plan for additional staffing, budgetary, and equipment requirements before being required to assume the responsibilities under this subsection. For the purpose of this subsection, striping, lane marking, and channelization are considered traffic control devices;

(14) All revenue from parking meters placed on such streets belongs to the city or town;

(15) Rights of way for such streets shall be acquired by either the city or town or by the state as shall be mutually agreed upon. Costs of acquiring rights of way may be at the sole expense of the state or at the expense of the city or town or at the expense of the state and the city or town as may be mutually agreed upon. Title to all such rights of way so acquired shall vest in the city or town: PROVIDED, That no vacation, sale, rental, or any other nontransportation use of any unused portion of any such street may be made by the city or town without the prior written approval of the department; and all revenue derived from sale, vacation, rental, or any nontransportation use of such rights of way shall be shared by the city or town and the state in the same proportion as the purchase costs were shared;

(16) If any city or town fails to perform any of its obligations as set forth in this section or in any cooperative agreement entered into with the department for the maintenance of a city or town street forming part of the route of a state highway, the department may notify the mayor of the city or town to perform the necessary maintenance within thirty days. If the city or town

within the thirty days fails to perform the maintenance or fails to authorize the department to perform the maintenance as provided by RCW 47.24.050, the department may perform the maintenance, the cost of which is to be deducted from any sums in the motor vehicle fund credited or to be credited to the city or town.

RCW 47.24.050 Aid on streets by state or county--Payment.

If a city or town, whether or not any of its streets are designated as forming a part of a state highway, is unable to construct, repair, or maintain its streets for good cause, or if it is in need of engineering assistance to construct, repair, or maintain any of its streets, it may authorize the department to perform such construction, repair, or maintenance, or it may secure necessary

engineering assistance from the department, to the extent of the funds credited or to be credited in the motor vehicle fund for payment to the city or town. Any sums due from a city or town for such purposes shall be paid on vouchers approved and submitted by the department from moneys credited to the city or town in the motor vehicle fund, and the amount of the payments shall be deducted from funds which would otherwise be paid to the city or town from the motor vehicle fund. The department may in certain special cases, in its discretion, enter into an agreement with the governing officials of the city or town for the performance of such work or services, the terms of which shall provide for reimbursement of the motor vehicle fund for the benefit of the state's share of the fund by the city or town of the cost thereof from any funds of the city or town on hand and legally available for the work or services. The city or town may, by resolution, authorize the legislative authority of the county in which it is located, to perform any such construction, repair, or maintenance, and the work shall be paid for by the city or town at the actual cost thereof as provided for payment for work performed on city streets, and any payment received therefor by a county shall be deposited in the county road fund to be expended under the same provisions as are imposed upon the funds used to perform the construction, repair, or maintenance.

Due to unprecedented industrial development and population increases, the state of Washington is confronted with emergency needs for improvement of state highways, county roads, and city streets in urban areas. It is the intent of the legislature to provide sufficient new highway revenues to alleviate and prevent intolerable traffic congestion in urban areas without the disruption of the long range state-wide highway program essential to the economic well-being of the people of this state.

Within one year after board approval of an application for funding, a county, city, or transportation benefit district shall provide written certification to the board of the pledged local and/or private funding. Funds allocated to an applicant that does not certify its funding within one year after approval may be reallocated by the board.

RCW 47.26.086 Transportation improvement account projects--Intent--Limitations.

Transportation improvement account projects selected for funding programs after fiscal year 1995 are governed by the requirements of this section.

The board shall allocate funds from the account by June 30th of each year for the ensuing fiscal year to urban counties, cities with a population of five thousand and over, and to transportation benefit districts. Projects may include, but are not limited to, multi-agency projects and arterial improvement projects in fast-growing areas. The board shall endeavor to provide geographical diversity in selecting improvement projects to be funded from the account.

The intent of the program is to improve mobility of people and goods in Washington state by supporting economic development and environmentally responsive solutions to our state-wide transportation system needs.

To be eligible to receive these funds, a project must be consistent with the Growth

Management Act, the Clean Air Act including conformity, and the Commute Trip Reduction Law and consideration must have been given to the project's relationship, both actual and potential, with the state-wide rail passenger program and rapid mass transit. Projects must be consistent with any adopted high capacity transportation plan, must consider existing or reasonably foreseeable congestion levels attributable to economic development or growth and all modes of transportation and safety, and must be partially funded by local government or private contributions, or a combination of such contributions. Priority consideration shall be given to those projects with the greatest percentage of local or private contribution, or both.

Within one year after board approval of an application for funding, the lead agency shall provide written certification to the board of the pledged local and private funding for the phase of the project approved. Funds allocated to an applicant that does not certify its funding within one year after approval may be reallocated by the board.

RCW 47.26.300 Bicycle routes--Legislative declaration.

The state of Washington is confronted with emergency shortages of energy sources utilized for the transportation of its citizens and must seek alternative methods of providing public mobility.

Bicycles are suitable for many transportation purposes, and are pollution-free in addition to using a minimal amount of resources and energy. However, the increased use of bicycles for both transportation and recreation has led to an increase in both fatal and nonfatal injuries to bicyclists.

The legislature therefore finds that the establishment, improvement, and upgrading of bicycle routes is necessary to promote public mobility, conserve energy, and provide for the safety of the bicycling and motoring public.

[1974 ex.s. c 141 § 1.]

RCW 47.26.305 Bicycle routes--Use of board funds.

Bicycle routes shall, when established in accordance with RCW 47.06.100 be eligible for establishment, improvement, and upgrading with board funds. The board shall adopt rules and procedures that will encourage the development of a system of bicycle routes within counties, cities, and towns.

RCW 47.26.320 Advance right-of-way acquisition--Definition.

The term "advance right-of-way acquisition" as used in this chapter means the acquisition of property and property rights, together with the engineering costs necessary for the advance right-of-way acquisition. Property or property rights purchased must be for projects approved by the transportation improvement board or the county road administration board as part of a city or county six-year plan or program.

[2001 c 201 § 1.]

RCW 47.26.325 Advance right-of-way acquisition--Revolving fund.

The city and county advance right-of-way revolving fund is created in the custody of the treasurer. The transportation improvement board is the administrator of the fund and may deposit directly and spend without appropriation.

The transportation improvement board and the county road administration board, in consultation with the association of Washington cities and the Washington association of counties, shall adopt reasonable rules and develop policies to implement this program.

[2001 c 201 § 2.]

RCW 47.26.330 Advance right-of-way acquisition--Management of properties and funds.

(1) After any properties or property rights are acquired through funds in the city and county advance right-of-way revolving fund, the acquiring city or county is responsible for the management of the properties in accordance with sound business practices and shall provide annual status reports to the board. Funds received by the city or county from the interim management of the properties must be deposited into the city and county advance right-of-way revolving fund.

(2) When the city or county proceeds with the construction of an arterial project that will require the use of any of the property so acquired, the city or county shall reimburse the city and county advance right-of-way revolving fund. Reimbursement must reflect the original cost of the acquired property or property rights required for the project plus an interest rate as determined annually by the board. The board shall report on the interest rate set to the transportation committees through its annual report.

(3) When the city or county determines that any properties or property rights acquired from funds in the city and county advance right-of-way revolving fund will not be required for an arterial construction project or the property has been held by the city or county for more than six years, the city or county shall either sell the property at fair market value or reimburse the fund at fair market value. All proceeds of the sale must be deposited in the city and county advance right-of-way revolving fund. At the board's discretion, a portion of savings on transportation improvement board projects realized through the use of the city and county advance [right-of-way] revolving fund may be deposited back into the city and county advance right-of-way revolving fund.

(4) Deposits in the fund may be reexpended without further or additional appropriations.

RCW 47.26.406 Bonds--Repayment procedure--Bond retirement fund.

At least one year prior to the date any interest is due and payable on such bonds or before the maturity date of any such bonds, the state finance committee shall estimate, subject to the provisions of RCW 47.26.405, the percentage of the receipts in money of the motor vehicle fund, resulting from collection of excise taxes on motor vehicle fuels, for each month of the year which shall be required to meet interest or bond payments hereunder when due, and shall notify the state treasurer of such estimated requirement. If in any month it shall appear that the estimated percentage of money so made is insufficient to meet the requirements for interest or bond retirement, the treasurer shall notify the state finance committee forthwith and such committee shall adjust its estimates so that all requirements for interest and principal of all bonds issued shall be fully met at all times.

Bonds issued under the provisions of RCW 47.26.500 through 47.26.507 shall distinctly state that they are a general obligation of the state of Washington, shall pledge the full faith and credit of the state to the payment of the principal thereof and the interest thereon, and shall contain an unconditional promise to pay such principal and interest as the same shall become due. The principal and interest on such bonds shall be first payable in the manner provided in RCW 47.26.500 through 47.26.507 from the proceeds of state excise taxes on motor vehicle and special fuels imposed by chapters 82.36 and 82.38 RCW. The proceeds of such excise taxes are hereby pledged to the payment of any such bonds and the interest thereon, and the legislature hereby agrees to continue to impose the same excise taxes on motor vehicle and special fuels in amounts sufficient to pay, when due, the principal and interest on all such bonds.

RCW 47.26.505 Funds for repayment.

Any funds required to repay such bonds, or the interest thereon when due, shall be taken from that portion of the motor vehicle fund which results from the imposition of excise taxes on motor vehicle and special fuels and which is distributed to the transportation improvement

account in the motor vehicle fund under RCW 46.68.090(1)(h), and shall never constitute a charge against any allocations of any other such funds in the motor vehicle fund to the state, counties, cities, and towns unless and until the amount of the motor vehicle fund arising from the excise tax on motor vehicle and special fuels and distributed to the transportation improvement account proves insufficient to meet the requirements for bond retirement or interest on any such bonds.

At least one year prior to the date any interest is due and payable on such bonds or before the maturity date of any such bonds, the state finance committee shall estimate, subject to the provisions of RCW 47.26.505 the percentage of the receipts in money of the motor vehicle fund, resulting from collection of excise taxes on motor vehicle and special fuels, for each month of the year which shall be required to meet interest or bond payments under RCW 47.26.500 through 47.26.507 when due, and shall notify the state treasurer of such estimated requirement. The state treasurer, subject to RCW 47.26.505, shall thereafter from time to time each month as such funds are paid into the motor vehicle fund, transfer such percentage of the monthly receipts from excise taxes on motor vehicle and special fuels of the motor vehicle fund to the transportation improvement board bond retirement account, maintained in the office of the state treasurer, which account shall be available for payment of principal and interest on bonds when due. If in any month it shall appear that the estimated percentage of money so made is insufficient to meet the requirements for interest or bond retirement, the treasurer shall notify the state finance committee forthwith and such committee shall adjust its estimates so that all requirements for interest and principal of all bonds issued shall be fully met at all times.

RCW 47.28.010 Latitude in selecting route.

Whenever the general route of any state highway shall be designated and laid out as running to or by way of certain designated points, without specifying the particular route to be followed to or by way of such points, the transportation commission shall determine the particular route to be followed by said state highway to or by way of said designated points, and shall be at liberty to select and adopt as a part of such state highway, the whole or any part of any existing public highway previously designated as a county road, primary road, or secondary road or now or hereafter classified as a county road. The commission need not select and adopt the entire routes for such state highways at one time, but may select and adopt parts of such routes from time to time as it deems advisable. Where a state highway is designated as passing by way of a certain point, this shall not require the commission to cause such state highway to pass through or touch such point but such designation is directional only and may be complied with by location in the general vicinity. The department of transportation is empowered to construct as a part of any state highway as designated and in addition to any portion meeting the limits of any incorporated city or town a bypass section either through or around any such incorporated

city or town.

RCW 47.28.020 Width of right of way.

From and after April 1, 1937, the width of one hundred feet is the necessary and proper right of way width for state highways unless the department, for good cause, adopts and designates a different width. This section shall not be construed to require the department to acquire increased right of way for any state highway in existence on such date.

RCW 47.28.025 Description and plan of new or limited access highway--Recording.

Whenever the department establishes the location, width, and lines of any new highway, or declares any such new highway as a limited access facility and schedules the acquisition of the right of way for the highway or facility within the ensuing two years, it may cause the description and plan of any such highway to be made, showing the center line of the highway and the established width thereof, and attach thereto a certified copy of the resolution. Such description, plan, and resolution shall then be recorded in the office of the county auditor of the proper county.

RCW 47.28.026 Description and plan of new or limited access highway--Buildings and improvements prohibited, when.

(1) No owner or occupier of lands, buildings, or improvements may erect any buildings or make any improvements within the limits of any such highway, the location, width, and lines of which have been established and recorded as provided in RCW 47.28.025. If any such erection and improvements are made, no allowances may be had therefor by the assessment of damages. No permits for improvements within the limits may be issued by any authority. The establishment of any highway location as set forth in RCW 47.28.025 is ineffective after one year from the filing thereof if no action to condemn or acquire the property within the limits has been commenced within that time.

(2) Unless and until the department causes a plan of a proposed new highway or limited access facility to be recorded in the office of the county auditor as authorized in RCW 47.28.025, nothing contained in RCW 47.28.025 or 47.28.026 may be deemed to restrict or restrain in any

manner the improvement, development, or other use by owners or occupiers of lands, buildings, or improvements within the limits of any proposed new or limited access highway or any proposed relocated or widened highway. Because of the uncertainties of federal aid and the state level of funding of proposed construction or improvement of state highways, plans for such improvements approved by the department shall be deemed tentative until filed with the county auditor as authorized in RCW 47.28.025 or until the department commences action to condemn or otherwise acquire the right of way for the highway improvements.

RCW 47.28.030 Contracts--State forces--Monetary limits--Small businesses, minority, and women contractors--Rules.

A state highway shall be constructed, altered, repaired, or improved, and improvements located on property acquired for right of way purposes may be repaired or renovated pending the use of such right of way for highway purposes, by contract or state forces. The work or portions thereof may be done by state forces when the estimated costs thereof is [are] less than fifty thousand dollars and effective July 1, 2005, sixty thousand dollars: PROVIDED, That when delay of performance of such work would jeopardize a state highway or constitute a danger to the traveling public, the work may be done by state forces when the estimated cost thereof is less than eighty thousand dollars and effective July 1, 2005, one hundred thousand dollars. When the department of transportation determines to do the work by state forces, it shall enter a statement upon its records to that effect, stating the reasons therefor. To enable a larger number of small businesses, and minority, and women contractors to effectively compete for department of transportation contracts, the department may adopt rules providing for bids and award of contracts for the performance of work, or furnishing equipment, materials, supplies, or operating services whenever any work is to be performed and the engineer's estimate indicates the cost of the work would not exceed eighty thousand dollars and effective July 1, 2005, one hundred thousand dollars. The rules adopted under this section:

(1) Shall provide for competitive bids to the extent that competitive sources are available except when delay of performance would jeopardize life or property or inconvenience the traveling public; and

(2) Need not require the furnishing of a bid deposit nor a performance bond, but if a performance bond is not required then progress payments to the contractor may be required to be made based on submittal of paid invoices to substantiate proof that disbursements have been made to laborers, materialmen, mechanics, and subcontractors from the previous partial payment; and

(3) May establish prequalification standards and procedures as an alternative to those set forth in RCW 47.28.070, but the prequalification standards and procedures under RCW 47.28.070 shall always be sufficient.

The department of transportation shall comply with such goals and rules as may be adopted by the office of minority and women's business enterprises to implement chapter 39.19 RCW with respect to contracts entered into under this chapter. The department may adopt such rules as may be necessary to comply with the rules adopted by the office of minority and women's business enterprises under chapter 39.19 RCW.

The cost of any project for the purposes of RCW 47.28.030 shall be the aggregate of all amounts to be paid for labor, material, and equipment on one continuous or interrelated project where work is to be performed simultaneously. The department shall not permit the construction of any project by state forces by dividing a project into units of work or classes of work to give the appearance of compliance with RCW 47.28.030.

[1984 c 194 § 2.]

RCW 47.28.040 Precontract preparation of maps, plans, and specifications--Filing.

Before entering into any contract for the construction, alteration, repair, or improvement of any state highway the department shall cause the highway to be surveyed throughout the entire length of the proposed construction, alteration, repair, or improvement and cause to be prepared maps, plans, and specifications, together with an estimate of the cost of the proposed work, and such information and directions as will enable a contractor to carry them out. The maps, plans, specifications, and directions shall be approved by the department and a copy thereof filed permanently in the department's office.

RCW 47.28.050 Call for bids.

Except as may be provided by rules and regulations adopted under RCW 47.28.030 as now or hereafter amended the department of transportation shall publish a call for bids for the construction of the highway according to the maps, plans, and specifications, once a week for at least two consecutive weeks, next preceding the day set for receiving and opening the bids, in

not less than one trade paper of general circulation in the state. The call shall state the time, place, and date for receiving and opening the bids, give a brief description of the location and extent of the work, and contain such special provisions or specifications as the department deems necessary. When necessary to implement chapter 39.19 RCW and the rules adopted to implement that chapter, the department shall include in its call for bids provisions or specifications requiring bidders to comply with chapter 39.19 RCW and the rules adopted to implement it: PROVIDED, That when the estimated cost of any contract to be awarded is less than fifty thousand dollars, the call for bids need only be published in at least one paper of general circulation in the county where the major part of the work is to be performed: PROVIDED FURTHER, That when the estimated cost of a contract to be awarded is seven thousand five hundred dollars or less, including the cost of materials, supplies, engineering, and equipment, the department of transportation need not publish a call for bids: PROVIDED FURTHER, That after a bid call has been advertised for two consecutive weeks it may be postponed and the bids opened one week later.

RCW 47.28.070 Form of bid--Data required--Requirements--Refusal to furnish form--Appeal.

Bid proposals upon any construction or improvement of any state highway shall be made upon contract proposal form supplied by the department and in no other manner. The department shall, before furnishing any person, firm, or corporation desiring to bid upon any

The questionnaire and financial statement shall be sworn to before a notary public or other person authorized to take acknowledgment of deeds, and shall be submitted once a year and at such other times as the department may require. Whenever the department is not satisfied with the sufficiency of the answers contained in the questionnaire and financial statement or whenever the department determines that the person, firm, or corporation does not meet all of the requirements set forth in this section it may refuse to furnish the person, firm, or corporation with a contract proposal form, and any bid proposal of the person, firm, or corporation must be disregarded. Any person, firm, or corporation proposing a bid for the construction or improvement of any state highway in response to a call for bids published therefor may withdraw the bid proposal without forfeiture and without prejudice to the right of the bidder to file a new bid proposal before the time fixed for the opening of the bid proposals. The request for the

withdrawal shall be made in writing, signed by the person proposing the bid or his duly authorized agent, and filed at the place and before the time fixed in the call for bids for receipt of the bid proposals. No bid proposal may be considered that has not been filed with the department before the time fixed for the receipt of bid proposals. At the time and place named in the call for bids the department of transportation shall publicly open and read the final figure in each of the bid proposals that have been properly filed and read only the unit prices of the three lowest bids, and shall award the contract to the lowest responsible bidder unless the department has, for good cause, continued the date of opening bids to a day certain, or rejected that bid. Any bid may be rejected if the bidder has previously defaulted in the performance of and failed to complete a written public contract, or has been convicted of a crime arising from a previous public contract. If the lowest responsible bidder fails to meet the provisions or specifications requiring compliance with chapter 39.19 RCW and the rules adopted to implement that chapter, the department may award the contract to the next lowest responsible bidder which does meet the provisions or specifications or may reject all bids and readvertise. All bids shall be under sealed cover and accompanied by deposit in cash, certified check, cashier's check, or surety bond in an amount equal to five percent of the amount of the bid, and a bid shall not be considered unless the deposit is enclosed with it.

RCW 47.28.100 Failure or rejection of bidder.

If the successful bidder fails to enter into the contract and furnish satisfactory bond as provided by law within twenty days from the award, exclusive of the day of the award, his or her deposit shall be forfeited to the state and deposited by the state treasurer to the credit of the motor vehicle fund, and the department may award the contract to the second lowest responsible bidder. If the second lowest responsible bidder fails to enter into the contract and furnish bond within twenty days after award to him or her, forfeiture of his or her deposit shall also be made,

and the contract may be awarded to the third lowest responsible bidder, and in like manner until the contract and bond are executed by a responsible bidder to whom award is made, or further bid proposals are rejected, or the number of bid proposals are exhausted. If the contract is not executed or no contractor's bond provided within the time required, and there appear circumstances that are deemed to warrant an extension of time, the department may extend the time for execution of the contract or furnishing bond for not to exceed twenty additional days. After awarding the contract the deposits of unsuccessful bidders shall be returned, but the department may retain the deposit of the next lowest responsible bidder or bidders as it desires until such time as the contract is entered into and satisfactory bond is provided by the bidder to whom the award is ultimately made. A low bidder who claims error and fails to enter into a contract is prohibited from bidding on the same project if a second or subsequent call for bids is made for the project.

If in the opinion of the department the acceptance of the bid of the lowest responsible bidder or bidders, or on prior failure of the lowest responsible bidder or bidders the acceptance of the bid of the remaining lowest responsible bidder or bidders, will not be for the best interest of the state, it may reject all bids or all remaining bids and republish a call for bids in the same manner as for an original publication thereof.

Recreation trails system: Chapter 79A.35 RCW.

RCW 47.30.005 Definitions.

For the purposes of this chapter, "trail" or "path" means a public way constructed primarily for and open to pedestrians, equestrians, or bicyclists, or any combination thereof, other than a sidewalk constructed as a part of a city street or county road for the exclusive use of pedestrians. The term "trail" or "path" also includes a widened shoulder of a highway, street, or road when the extra shoulder width is constructed to accommodate bicyclists consistent with a comprehensive plan or master plan for bicycle trails or paths adopted by a state or local

governmental authority either prior to such construction or prior to January 1, 1980.

[1979 ex.s. c 121 § 4.]

RCW 47.30.010 Recreational trail interference.

(1) No limited access highway shall be constructed that will result in the severance or destruction of an existing recreational trail of substantial usage for pedestrians, equestrians or bicyclists unless an alternative recreational trail, satisfactory to the authority having jurisdiction over the trail being severed or destroyed, either exists or is reestablished at the time the limited access highway is constructed. If a proposed limited access highway will sever a planned recreational trail which is part of a comprehensive plan for trails adopted by a state or local governmental authority, and no alternative route for the planned trail exists which is satisfactory to the authority which adopted the comprehensive plan for trails, the state or local agency proposing to construct the limited access highway shall design the facility and acquire sufficient right of way to accommodate future construction of the portion of the trail which will properly lie within the highway right of way. Thereafter when such trail is developed and constructed by the authority having jurisdiction over the trail, the state or local agency which constructed the limited access highway shall develop and construct the portion of such trail lying within the right of way of the limited access highway.

(2) Where a highway other than a limited access highway crosses a recreational trail of substantial usage for pedestrians, equestrians, or bicyclists, signing sufficient to insure safety shall be provided.

(3) Where the construction or reconstruction of a highway other than a limited access highway would destroy the usefulness of an existing recreational trail of substantial usage for pedestrians, equestrians, or bicyclists or of a planned recreational trail for pedestrians, equestrians, or bicyclists incorporated into the comprehensive plans for trails of the state or any of its political subdivisions, replacement land, space, or facilities shall be provided and where such recreational trails exist at the time of taking, reconstruction of said recreational trails shall be undertaken.

[1971 ex.s. c 130 § 1.]

RCW 47.30.020 Facilities for nonmotorized traffic--Joint usage of rights of way.

Facilities for pedestrians, equestrians, or bicyclists shall be incorporated into the design of highways and freeways along corridors where such facilities do not exist upon a finding that such facilities would be of joint use and conform to the comprehensive plans of public agencies for the development of such facilities, will not duplicate existing or proposed routes, and that safety to both motorists and to pedestrians, equestrians, and bicyclists would be enhanced by the segregation of traffic.

In planning and design of all highways, every effort shall be made consistent with safety to promote joint usage of rights of way for trails and paths in accordance with the comprehensive plans of public agencies.

[1971 ex.s. c 130 § 2.]

RCW 47.30.030 Facilities for nonmotorized traffic--Expenditure of available funds.

Where an existing highway severs, or where the right of way of an existing highway accommodates a trail for pedestrians, equestrians, or bicyclists or where the separation of motor vehicle traffic from pedestrians, equestrians, or bicyclists will materially increase the motor vehicle safety, the provision of facilities for pedestrians, equestrians, or bicyclists which are a part of a comprehensive trail plan adopted by federal, state, or local governmental authority having jurisdiction over the trail is hereby authorized. The department of transportation, or the county or city having jurisdiction over the highway, road, or street, or facility is further authorized to expend reasonable amounts out of the funds made available to them, according to the provisions of RCW 46.68.090, as necessary for the planning, accommodation, establishment, and maintenance of such facilities.

[1999 c 269 § 10; 1979 ex.s. c 121 § 1; 1974 ex.s. c 141 § 12; 1972 ex.s. c 103 § 2.]

RCW 47.30.040 Establishing paths and trails--Factors to be considered.

Before establishing paths and trails, the following factors shall be considered:

- (1) Public safety;
- (2) The cost of such paths and trails as compared to the need or probable use;
- (3) Inclusion of the trail in a plan for a comprehensive trail system adopted by a city or county in a state or federal trails plan.

[1972 ex.s. c 103 § 3.]

Notes:

Severability--1972 ex.s. c 103: See note following RCW 47.30.030.

RCW 47.30.050 Expenditures for paths and trails--Minimum amount.

(1) The amount expended by a city, town, or county as authorized by RCW 47.30.030 shall never in any one fiscal year be less than 0.42 percent of the total amount of funds received from the motor vehicle fund according to RCW 46.68.090. However, this section does not apply to a city or town in any year in which the 0.42 percent equals five hundred dollars or less, or to a county in any year in which the 0.42 percent equals three thousand dollars or less. Also, a city, town, or county in lieu of expending the funds each year may credit the funds to a financial reserve or special fund, to be held for not more than ten years, and to be expended for the

purposes required or permitted by RCW 47.30.030.

(2) In each fiscal year the department of transportation shall expend, as a minimum, for the purposes mentioned in RCW 47.30.030 a sum equal to three-tenths of one percent of all funds, both state and federal, expended for the construction of state highways in such year, or in order to more efficiently program trail improvements the department may defer any part of such minimum trail or path expenditures for a fiscal year for a period not to exceed four years after the end of such fiscal year. Any fiscal year in which the department expends for trail or path purposes more than the minimum sum required by this subsection, the amount of such excess expenditure shall constitute a credit which may be carried forward and applied to the minimum trail and path expenditure requirements for any of the ensuing four fiscal years.

(3) The department of transportation, a city, or a county in computing the amount expended for trails or paths under their respective jurisdictions may include the cost of improvements consistent with a comprehensive plan or master plan for bicycle trails or paths adopted by a state or local governmental authority either prior to such construction or prior to January 1, 1980.

RCW 47.30.060 Expenditures deemed to be for highway purposes--Powers and duties of department--Restrictions on use of paths and trails.

For the purposes of this chapter, the establishment of paths and trails and the expenditure of funds as authorized by RCW 47.30.030, as now or hereafter amended, shall be deemed to be for highway, road, and street purposes. The department of transportation shall, when requested, and subject to reimbursement of costs, provide technical assistance and advice to cities, towns, and counties in carrying out the purposes of RCW 47.30.030, as now or hereafter amended. The department shall recommend construction standards for paths and trails. The department shall provide a uniform system of signing paths and trails which shall apply to paths and trails under the jurisdiction of the department and of cities, towns, and counties. The department and cities, towns, and counties may restrict the use of paths and trails under their respective jurisdictions to pedestrians, equestrians, and nonmotorized vehicles.

RCW 47.32.140 Railroad crossings, obstructions--Hearing.

Each railroad company shall keep its right of way clear of all brush and timber in the vicinity of a railroad grade crossing with a state highway for a distance of one hundred feet from the crossing in such manner as to permit a person upon the highway to obtain an unobstructed view in both directions of an approaching train. The department shall cause brush and timber to be cleared from the right of way of a state highway in the proximity of a railroad grade crossing for a distance of one hundred feet from the crossing in such manner as to permit a person upon the highway to obtain an unobstructed view in both directions of an approaching train. It is

unlawful to erect or maintain a sign, signboard, or billboard, except official highway signs and traffic devices and railroad warning or operating signs, outside the corporate limits of any city or town within a distance of one hundred feet from the point of intersection of the highway and railroad grade crossing unless, after thirty days notice to the Washington utilities and transportation commission and the railroad operating the crossing, the department determines that it does not obscure the sight distance of a person operating a vehicle or train approaching the grade crossing.

When a person who has erected or who maintains such a sign, signboard, or billboard or when a railroad company permits such brush or timber in the vicinity of a railroad grade crossing with a state highway or permits the surface of a grade crossing to become inconvenient or dangerous for passage and who has the duty to maintain it, fails, neglects, or refuses to remove or cause to be removed such brush, timber, sign, signboard, or billboard, or maintain the surface of the crossing, the utilities and transportation commission upon complaint of the department or upon complaint of any party interested, or upon its own motion, shall enter upon a hearing in the manner now provided for hearings with respect to railroad-highway grade crossings, and make and enforce proper orders for the removal of the brush, timber, sign, signboard or billboard, or maintenance of the crossing. However, nothing in this section prevents the posting or maintaining of any legal notice or sign, signal, or traffic device required or permitted to be posted or maintained, or the placing and maintaining thereon of highway or road signs or traffic devices giving directions or distances for the information of the public when the signs are approved by the department. The department shall inspect highway grade crossings and make complaint of the violation of any provisions of this section.

In order to provide safety at intersections on the state highway system, the department may require persons traveling upon any portion of such highway to stop before entering the intersection. For this purpose there may be erected a standard stop sign as prescribed in the state department of transportation's "Manual on Uniform Traffic Control Devices for Streets and Highways." All persons traveling upon the highway shall come to a complete stop at such a sign, and the appearance of any sign so located is sufficient warning to a person that he is required to stop. A person stopping at such a sign shall proceed through that portion of the highway in a careful manner and at a reasonable rate of speed not to exceed twenty miles per

hour. It is unlawful to fail to comply with the directions of any such stop sign. When the findings of a traffic engineering study show that the condition of an intersection is such that vehicles may safely enter the major artery without stopping, the department or local authorities in their respective jurisdictions shall install and maintain a "Yield" sign.

The department of transportation shall, by January 1, 1992, adopt minimum pavement marking standards for the area designating the limits of the vehicle driving lane along the right edge for arterials that do not have curbs or sidewalks and are inside urbanized areas. In preparing the standards, the department of transportation shall take into consideration all types of pavement markings, including flat, raised, and recessed markings, and their effect on pedestrians, bicycle,

and motor vehicle safety.

The standards shall provide that a jurisdiction shall conform to these requirements, at such time thereafter that it undertakes to (1) renew or install permanent markings on the existing or new roadway, and (2) remove existing nonconforming raised pavement markers at the time the jurisdiction prepares to resurface the roadway, or earlier, at its option. These standards shall be in effect, as provided in this section, unless the legislative authority of the local governmental body finds that special circumstances exist affecting vehicle and pedestrian safety that warrant a variance to the standard.

For the purposes of this section, "urbanized area" means an area designated as such by the United States bureau of census and having a population of more than fifty thousand. Motorist information sign panels shall include the words "GAS," "FOOD," "LODGING," "CAMPING," or "TOURIST ACTIVITIES" and directional information and may contain one or more individual business signs maintained on the panel. Motorist information sign panels are authorized within the corporate limits of cities and towns and areas zoned for commercial or industrial uses at locations where there is adequate distance between interchanges to ensure compliance with the Manual on Uniform Traffic Control Devices. The erection and maintenance of motorist information sign panels shall also conform to the Manual on Uniform Traffic Control Devices and rules adopted by the state department of transportation. A motorist service or tourist-oriented business located within one mile of an interstate highway shall not be permitted to display its name, brand, or trademark on a motorist information sign panel unless its owner has first entered into an agreement with the department limiting the height of its on-premise signs at the site of its service installation to not more than fifteen feet higher than the roof of its main building measured to the bottom of the on-premise sign. The restriction for on-premise signs does not apply if the sign is not visible from the highway. The department may, on a case-by-case basis, waive the height restriction when an on-premise sign is visible from the rural interstate system. The department shall charge reasonable fees for the display of individual business signs to defray the costs of their installation and maintenance, and may charge reasonable fees to recover costs for the erection and maintenance of the motorist information sign panels.

The department shall adopt rules for the erection and maintenance of tourist-oriented directional signs with the following restrictions:

(1) Where installed, they shall be placed in advance of the "GAS," "FOOD," "LODGING," or "RECREATION" motorist information sign panels previously described in this section;

RCW 47.39.010 System created--Standards.

There is hereby created a scenic and recreational highway system. Highways in this system shall be developed and maintained in accordance with general standards for state highways of comparable classification and usage.

Recognizing that the Transportation Equity Act for the 21st Century establishes a national "scenic byway" program that could benefit state and local roadways, the Washington state scenic byway designation program is revised to address state and local transportation routes. Byways in this program must be designated and maintained in accordance with the criteria developed by the department under this chapter. However, a highway so designated under RCW 47.39.069 does not become part of the scenic and recreational highway system unless approved by the legislature.

Legislative finding--1990 c 240: "The legislature finds that scenic and recreational highways are designated because of a need to develop management plans that will protect and preserve the scenic and recreational resources from loss through inappropriate development. Protection of scenic and recreational resources includes managing land use outside normal highway rights of way. The legislature recognizes that scenic and recreational highways are typically located in areas that are natural in character, along watercourses or through mountainous areas, or in areas with a view of such scenery." RCW 47.39.030 Development and maintenance of system by department of transportation and parks and recreation commission--Allocation of costs.

(1) The department shall pay from motor vehicle funds appropriated for construction of state highways, the following costs of developing and constructing scenic and recreational highways: (a) Acquisition of the right of way necessary for state highway purposes; (b) construction of the portion of the highway designed primarily for motor vehicle travel; (c) exit and entrance roadways providing access to scenic observation points; (d) safety rest areas; (e) roadside landscaping within the portion of the highway right of way acquired by the department for state highway purposes; (f) the uniform signs and markers designating the various features and facilities of the scenic and recreational highways; and (g) any additional costs of constructing and developing the scenic and recreational highways, including property acquisition adjacent to highways as authorized by RCW 47.12.250, for which the department shall receive reimbursement from the federal government or any other source.

(2) The parks and recreation commission shall pay the costs of developing and constructing the scenic and recreational highways not provided for in subsection (1) of this section from any funds appropriated for such purposes.

(3) The costs of maintaining the scenic and recreational highway system shall be allocated between the department and the parks and recreation commission in the same manner that costs of developing and constructing such highways are allocated in subsections (1) and (2) of this section.

(4) The city, town, county, regional transportation planning organization, federal agency, federally recognized tribe, or any other such party that nominates a roadway not located on a state-owned right of way for designation as a scenic byway shall bear all costs relating to the nomination and designation of the byway, such as costs for developing, maintaining, planning, designing, and constructing the scenic byway.

RCW 47.39.069 Designation and removal criteria.

(1) The department, in consultation with the department of community, trade, and economic development, the department of natural resources, the parks and recreation commission, affected cities, towns, and counties, federally recognized tribes, regional transportation planning organizations, Washington-based automobile clubs, state-wide bicycling organizations, and other interested parties, shall develop by December 31, 1999, criteria for assessing scenic byways and heritage tour routes and an appropriate method of nomination and application for the designation and removal of the designation of the byways. Factors the department may take into consideration, but is not limited by, are: (a) Scenic quality of the byway; (b) natural aspects, such as geological formations, water bodies, vegetation, and wildlife; (c) historic elements; (d) cultural features such as the arts, crafts, music, customs, or traditions of a distinct group of people; (e) archaeological features; (f) recreational activities; (g) roadway safety including accommodations for bicycle and pedestrian travel, tour buses, and automobiles; (h) scenic byway and local and regional byway management plans; and (i) local public involvement and support for the byway.

(2) The criteria developed in subsection (1) of this section must not impose nor require regulation of privately owned lands or property rights.

(3) Any person may nominate a roadway, path, or trail for inclusion in the scenic byway program. The department shall assess nominations in accordance with the criteria developed

under subsection (1) of this section. The department shall submit its recommendations for scenic byway and heritage tour route designations to the commission for its approval and official designation of the roadway, path, or trail as a scenic byway or a heritage tour route. All decisions made by the commission relating to scenic byway and heritage tour route designations are final.

(4) The department shall apply the criteria in subsection (1) of this section to state highways that are currently not a part of the designated scenic and recreational highway system. The department shall respond to local requests for route evaluation as defined in subsection (3) of this section.

(5) Once the commission has designated a roadway as a scenic byway, the department may submit an individual nomination to the Federal Highway Administration for its consideration of whether the roadway qualifies to be designated as a national scenic byway or an All-American Roadway.

RCW 47.39.075 Corridor management plan.

The department shall participate with local communities to develop a corridor management plan for a state highway nominated to be part of the scenic byway program. Local, regional, or other governmental bodies shall develop a corridor management plan for nominated routes that are under their jurisdiction.

Notes:

Effective date--1999 c 218: See note following RCW 47.39.010.

RCW 47.39.080 Funding priorities--Signage.

Recognizing that the Transportation Equity Act for the 21st Century establishes a national "Scenic Byways" grant program and a new apportionment program called "Transportation Enhancement Activities," the department of transportation shall place high priority on obtaining funds from those sources for further development of a scenic and recreational highways program, including enhancement projects on the designated scenic and recreational highway system. The department shall consider the use of the designated system by bicyclists and pedestrians in connection with nonmotorized routes in the state trail plan, and the state bicycle plan which are also eligible for TEA-21 funding. Appropriate signage may be used at intersections of nonmotorized and motorized systems to demonstrate the access, location, and the interconnectivity of various modes of travel for transportation and recreation. For the purposes of leveraging national scenic byway planning grant funds, the commission may designate eligible state highways as scenic byways on an interim basis.

[1999 c 218 § 6; 1993 c 430 § 8.]

Notes:

Effective date--1999 c 218: See note following RCW 47.39.010.

RCW 47.39.090 Consultation with other agencies and parties--Identification of tourist routes.

In developing the scenic and recreational highways program, the department shall consult with the department of community, trade, and economic development, the department of natural resources, the parks and recreation commission, affected cities, towns, and counties, regional transportation planning organizations, state-wide bicycling organizations, and other interested parties. The scenic and recreational highways program may identify entire highway loops or similar tourist routes that could be developed to promote tourist activity and provide concurrent economic growth while protecting the scenic and recreational quality surrounding state highways.

[1995 c 399 § 123; 1993 c 430 § 9.]

RCW 47.39.100 Removal of designation.

(1) The commission may remove the designation of a route if it no longer possesses the intrinsic qualities or fails to meet the criteria that supported its designation.

(2) The department shall determine whether a roadway designated as a national scenic byway or an All-American Roadway is being properly maintained in accordance with the roadway's byway management plan, including preserving the intrinsic qualities that originally supported the designation. When the department determines that the intrinsic qualities of a national scenic byway or All-American Roadway have not been maintained sufficiently to retain its designation, the department shall notify the party responsible for maintaining the designation of the finding and allow the party an opportunity, under federal regulations, for corrective action before formal removal of the designation of the roadway.

(3) Local, regional, or other governmental bodies may notify the commission of the removal of a designated route if they determine it no longer meets the designation criteria, or community support for the designation no longer exists, or it no longer possesses the intrinsic qualities that supported its original designation.

(4) State or local removal of a designated route will result in discontinued state support of the designated route and can include, but is not limited to, state matching assistance for grant applications, the removal of signs directly related to the byway, free promotional information in the state-owned safety rest areas, and inclusion in maps, brochures, and electronic media.

RCW 47.40.100 State adopt-a-highway program.

(1) The department of transportation shall establish a state-wide adopt-a-highway program. The purpose of the program is to provide volunteers and businesses an opportunity to contribute to a cleaner environment, enhanced roadsides, and protection of wildlife habitats. Participating volunteers and businesses shall adopt department-designated sections of state highways, rest areas, park and ride lots, intermodal facilities, and any other facilities the department deems appropriate, in accordance with rules adopted by the department. The department may elect to coordinate a consortium of participants for adopt-a-highway projects.

The adopt-a-highway program shall include, at a minimum, litter control for the adopted section, and may include additional responsibilities such as planting and maintaining vegetation, controlling weeds, graffiti removal, and any other roadside improvement or clean-up activities the department deems appropriate. The department shall not accept adopt-a-highway proposals that would have the effect of terminating classified employees or classified employee positions.

(2) A volunteer group or business choosing to participate in the adopt-a-highway program must submit a proposal to the department. The department shall review the proposal for consistency with departmental policy and rules. The department may accept, reject, or modify an applicant's proposal.

(3) The department shall seek partnerships with volunteer groups and businesses to facilitate the goals of this section. The department may solicit funding for the adopt-a-highway program that allows private entities to undertake all or a portion of financing for the initiatives. The department shall develop guidelines regarding the cash, labor, and in-kind contributions to be performed by the participants.

(4) An organization whose name: (a) Endorses or opposes a particular candidate for public office, (b) advocates a position on a specific political issue, initiative, referendum, or piece of legislation, or (c) includes a reference to a political party shall not be eligible to participate in the adopt-a-highway program.

(5) In administering the adopt-a-highway program, the department shall:

(a) Provide a standardized application form, registration form, and contractual agreement for all participating groups. The forms shall notify the prospective participants of the risks and responsibilities to be assumed by the department and the participants;

(b) Require all participants to be at least fifteen years of age;

(c) Require parental consent for all minors;

(d) Require at least one adult supervisor for every eight minors;

(e) Require one designated leader for each participating organization, unless the department chooses to coordinate a consortium of participants;

(f) Assign each participating organization a section or sections of state highway, or other state-owned transportation facilities, for a specified period of time;

(g) Recognize the efforts of a participating organization by erecting and maintaining

signs with the organization's name on both ends of the organization's section of highway;

(h) Provide appropriate safety equipment. Safety equipment issued to participating groups must be returned to the department upon termination of the applicable adopt-a-highway agreement;

(i) Provide safety training for all participants;

(j) Pay any and all premiums or assessments required under RCW 51.12.035 to secure medical aid benefits under chapter 51.36 RCW for all volunteers participating in the program;

(k) Require participating businesses to pay all employer premiums or assessments required to secure medical aid benefits under chapter 51.36 RCW for all employees or agents participating in the program;

(l) Maintain records of all injuries and accidents that occur;

(m) Adopt rules that establish a process to resolve any question of an organization's eligibility to participate in the adopt-a-highway program;

(n) Obtain permission from property owners who lease right of way before allowing an organization to adopt a section of highway on such leased property; and

(o) Establish procedures and guidelines for the adopt-a-highway program.

(6) Nothing in this section affects the rights or activities of, or agreements with, adjacent landowners, including the use of rights of way and crossings, nor impairs these rights and uses by the placement of signs.

[1995 c 106 § 1; 1990 c 258 § 5.]

Notes:

Legislative findings and intent--1990 c 258: "The legislature finds that despite the efforts of the department of transportation, the department of ecology, and the ecology youth corps to pick up litter along state highways, roadside litter in Washington state has increased by thirty-six percent since 1983. The legislature further finds that in twenty-seven states, volunteer organizations are able to give of their time and energy, demonstrate commitment to a clean environment, and discourage would-be litterers by keeping sections of highway litter free because those states have established programs to encourage and recognize such voluntary efforts. Therefore, it is the legislature's intent to establish an "adopt-a-highway" litter control program as a partnership between citizen volunteers and the state to reduce roadside litter and build civic pride in a litter-free Washington." RCW 47.41.030 Junkyards adjacent to highways prohibited--Exceptions.

No person may establish, operate, or maintain a junkyard any portion of which is within one thousand feet of the nearest edge of the right of way of any interstate or federal-aid primary highway, except the following:

(1) Those which are screened by natural objects, plantings, fences, or other appropriate means so as not to be visible from the main-traveled way of the system or otherwise removed from sight;

(2) Those located within areas which are zoned for industrial use under authority of law;

(3) Those located within unzoned industrial areas, which areas shall be determined from actual land uses and defined by rules adopted by the department and approved by the United States secretary of transportation; and

(4) Those which are not visible from the main-traveled way of the system.

Notes:

Severability--1984 c 7: See note following RCW 47.01.141.

RCW 47.41.040 Screening or removal of junkyard.

Before July 1, 1971, the department shall determine whether or not the topography of the land adjoining the highway will permit adequate screening of any junkyard lawfully in existence located outside of a zoned industrial area or an unzoned industrial area as defined under RCW 47.41.030 on August 9, 1971, that is within one thousand feet of the nearest edge of the right of way and visible from the main traveled way of any highway on the interstate and primary system and whether screening of the junkyard would be economically feasible. Within thirty days thereafter the department shall notify by certified mail the record owner of the land upon which the junkyard is located, or the operator thereof, of its determination.

If it is economically feasible to screen the junkyard, the department shall screen the junkyard so that it will not be visible from the main-traveled way of the highway. The department is authorized to acquire by gift, purchase, exchange, or condemnation such lands or interest in lands as may be required for these purposes.

If it is not economically feasible to screen the junkyard, the department shall acquire by purchase, gift, or condemnation an interest in the real property used for junkyard purposes that is visible from the main traveled way of the highway, restricting any owner of the remaining interest to use of the real estate for purposes other than a junkyard. In addition to compensation for the real property interest, the operator of a junkyard shall receive the actual reasonable

expenses in moving his business personal property to a location within the same general area where a junkyard may be lawfully established, operated, and maintained. This section shall be interpreted as being in addition to all other rights and remedies of a junkyard owner or operator and shall not be interpreted as a limitation on or alteration of the law of compensation in eminent domain.

Severability--1984 c 7: See note following RCW 47.01.141.

RCW 47.41.060 Other laws not affected.

Nothing in this chapter shall be construed to permit a person to maintain any junkyard that is otherwise prohibited by statute or by the resolution or ordinance of any county, city, or town, nor to abrogate or affect the lawful provisions of any statute, ordinance, regulation, or resolution which are more restrictive than the provisions of this chapter.

[1971 ex.s. c 101 § 6.]

RCW 47.41.070 Violations--Penalty--Abatement as public nuisance.

If the owner of the land upon which any such junkyard is located, or the operator thereof, as the case may be, fails to comply with the notice or remove any such junk within the time provided in this chapter after being so notified, he is guilty of a misdemeanor. In addition to the penalties imposed by law upon conviction, an order may be entered compelling compliance with this chapter. Each day the junkyard is maintained in a manner so as not to comply with this chapter constitutes a separate offense.

If the operator of the junkyard or the owner of the property upon which it is located, as the case may be, is not found or refuses receipt of the notice, the department, the chief of the Washington state patrol, the county sheriff, or the chief of police of any city or town shall post the property upon which it is located with a notice that the junkyard constitutes a public nuisance and that the junk thereon must be removed as provided in this chapter. The control of signs in areas adjacent to state highways of this state is hereby declared to be necessary to promote the public health, safety, welfare, convenience and enjoyment of public travel, to protect the public investment in the interstate system and other state highways, and to attract visitors to this state by conserving the natural beauty of areas adjacent to the interstate system, and of scenic areas adjacent to state highways upon which they travel in great numbers, and to insure that information in the specific interest of the traveling public is presented safely and effectively.

(1) General: Signs shall not be erected or maintained which (a) imitate or resemble any official traffic sign, signal, or device; (b) are erected or maintained upon trees or painted or drawn upon rocks or other natural features and which are structurally unsafe or in disrepair; or (c) have any visible moving parts.

(2) Size of signs:

(a) The maximum area for any one sign shall be six hundred seventy-two square feet with a maximum height of twenty-five feet and maximum length of fifty feet inclusive of any border and trim but excluding the base or apron, supports and other structural members: PROVIDED, That cut-outs and extensions may add up to twenty percent of additional sign area.

The minimum space between structures shall be measured along the nearest edge of the pavement between points directly opposite the signs along each side of the highway and shall apply to signs located on the same side of the highway.

(4) Lighting: Signs may be illuminated, subject to the following restrictions:

Notwithstanding any other provisions of this chapter, no sign except a sign of type 1 or 2 or those type 3 signs that advertise activities conducted upon the properties where the signs are located, may be erected or maintained without a permit issued by the department. Application for a permit shall be made to the department on forms furnished by it. The forms shall contain a statement that the owner or lessee of the land in question has consented thereto. The application shall be accompanied by a fee established by department rule to be deposited with the state treasurer to the credit of the motor vehicle fund. The permittee shall also place his or her name in a conspicuous position on the front or back of each sign. The failure of a sign to have such a label affixed to it is prima facie evidence that it is not in compliance with the provisions of this chapter.

RCW 47.44.010 Wire and pipe line and tram and railway franchises--Application--Rules on hearing and notice.

(1) The department of transportation may grant franchises to persons, associations, private or municipal corporations, the United States government, or any agency thereof, to use any state highway for the construction and maintenance of water pipes, flume, gas, oil or coal pipes, telephone, telegraph and electric light and power lines and conduits, trams or railways, and any structures or facilities that are part of an urban public transportation system owned or operated by a municipal corporation, agency, or department of the state of Washington other than the department of transportation, and any other such facilities. In order to minimize the disruption to traffic and damage to the roadway, the department is encouraged to develop a joint trenching policy with other affected jurisdictions so that all permittees and franchisees requiring access to ground under the roadway may do so at one time.

(2) All applications for the franchise must be made in writing and subscribed by the applicant, and describe the state highway or portion thereof over which franchise is desired and the nature of the franchise. The application must also include the identification of all jurisdictions affected by the franchise and the names of other possible franchisees who should receive notice of the application for a franchise.

(3) The department of transportation shall adopt rules providing for a hearing or an opportunity for a hearing with reasonable public notice thereof with respect to any franchise application involving the construction and maintenance of utilities or other facilities within the highway right of way which the department determines may (a) during construction, significantly disrupt the flow of traffic or use of driveways or other facilities within the right of way, or (b) during or following construction, cause a significant and adverse effect upon the surrounding environment.

NOTES:

Urban public transportation system defined: RCW 47.04.082.

RCW 47.44.020 Grant of franchise--Conditions--Hearing.

(1) If the department of transportation deems it to be for the public interest, the franchise may be granted in whole or in part, with or without hearing under such regulations and conditions as the department may prescribe, with or without compensation, but not in excess of the reasonable cost for investigating, handling, and granting the franchise. The department may

require that the utility and appurtenances be so placed on the highway that they will, in its opinion, least interfere with other uses of the highway.

(2) If a hearing is held, it must be conducted by the department, and may be adjourned from time to time until completed. The applicant may be required to produce all facts pertaining to the franchise, and evidence may be taken for and against granting it.

(3) The facility must be made subject to removal when necessary for the construction, alteration, repair, or improvement of the highway and at the expense of the franchise holder, except that the state shall pay the cost of the removal whenever the state is entitled to receive proportionate reimbursement therefor from the United States in the cases and in the manner set forth in RCW 47.44.030. Renewal upon expiration of a franchise must be by application.

(4) A person constructing or operating such a utility on a state highway is liable to any person injured thereby for any damages incident to the work of installation or the continuation of the occupancy of the highway by the utility, and except as provided above, is liable to the state for all necessary expenses incurred in restoring the highway to a permanent suitable condition for travel. A person constructing or operating such a utility on a state highway is also liable to the state for all necessary expenses incurred in inspecting the construction and restoring the pavement or other related transportation equipment or facilities to a permanent condition suitable for travel and operation in accordance with requirements set by the department. Permit and franchise holders are also financially responsible to the department for trenching work not completed within the contractual period and for compensating for the loss of useful pavement life caused by trenching. No franchise may be granted for a longer period than fifty years, and no exclusive franchise or privilege may be granted.

(5) The holder of a franchise granted under this section is financially responsible to the department for trenching work not completed within the period of the permit and for compensating for the loss of useful pavement life caused by trenching. In the case of common trenching operations, liability under this subsection will be assessed equally between the franchisees. The assessed parties may thereafter pursue claims of contribution or indemnity in accord with such fault as may be determined by arbitration or other legal action.

RCW 47.44.030 Removal of facilities--Notice--Reimbursement, when.

If the department deems it necessary that a facility be removed from the highway for the safety of persons traveling thereon or for construction, alteration, improvement, or maintenance purposes, it shall give notice to the franchise holder to remove the facility at his or her expense and as the department orders. However, notwithstanding any contrary provision of law or of any existing or future franchise held by a public utility, the department shall pay or reimburse the owner for relocation or removal of any publicly, privately, or cooperatively owned public utility facilities when necessitated by the construction, reconstruction, relocation, or improvement of a highway that is part of the national system of interstate and defense highways for each item of cost for which the state is entitled to be reimbursed by the United States in an amount equal to at least ninety percent thereof under the provisions of section 123 of the federal aid highway act of

1958 and any other subsequent act of congress under which the state is entitled to be reimbursed by the United States in an amount equal to at least ninety percent of the cost of relocation of utility facilities on the national system of interstate and defense highways.

All such franchises shall be granted in the same manner as provided for the granting of like franchises on state highways. Any revenue accruing to the state of Washington from the franchises shall be paid to the state treasurer and deposited to the credit of the fund from which this state's share of the cost of joint operation of the bridge is paid.

(1) The department may grant a permit to construct or maintain on, over, across, or along any state highway any water, gas, telephone, telegraph, light, power, or other such facilities when they do not extend along the state highway for a distance greater than three hundred feet. The department may require such information as it deems necessary in the application for any such permit, and may grant or withhold the permit within its discretion. Any permit granted may be canceled at any time, and any facilities remaining upon the right of way of the state highway after thirty days written notice of the cancellation are an unlawful obstruction and may be removed in the manner provided by law.

The state shall give notice by certified mail that a franchise or permit is required or the facility must be removed and shall include in the notice sufficient information to identify the portion of right of way in question. Notice is effective upon delivery.

(3) If a person, firm or corporation does not apply for a permit or franchise within forty-five days of notice given in accordance with subsection (2) of this section or the state determines that the facility constructed or maintained without a permit or franchise would not be granted a permit or franchise, the state may order the facility to be removed within such time period as the state may specify. RCW 47.46.010 Finding.

The legislature finds and declares:

It is essential for the economic, social, and environmental well-being of the state and the maintenance of a high quality of life that the people of the state have an efficient transportation system.

The ability of the state to provide an efficient transportation system will be enhanced by a public-private sector program providing for private entities to undertake all or a portion of the study, planning, design, development, financing, acquisition, installation, construction or improvement, operation, and maintenance of transportation systems and facility projects.

A public-private initiatives program will provide benefits to both the public and private

sectors. Public-private initiatives provide a sound economic investment opportunity for the private sector. Such initiatives will provide the state with increased access to property development and project opportunities, financial and development expertise, and will supplement state transportation revenues, allowing the state to use its limited resources for other needed projects.

The public-private initiatives program, to the fullest extent possible, should encourage and promote business and employment opportunities for Washington state citizens.

The public-private initiatives program shall be implemented in cooperation, consultation, and with the support of the affected communities and local jurisdictions.

The secretary of transportation should be permitted and encouraged to test the feasibility of building privately funded transportation systems and facilities or segments thereof through the use of innovative agreements with the private sector. The secretary of transportation should be vested with the authority to solicit, evaluate, negotiate, and administer public-private agreements with the private sector relating to the planning, construction, upgrading, or reconstruction of transportation systems and facilities.

Agreements negotiated under a public-private initiatives program will not bestow on private entities an immediate right to construct and operate the proposed transportation facilities. Rather, agreements will grant to private entities the opportunity to design the proposed facilities, demonstrate public support for proposed facilities, and complete the planning processes required in order to obtain a future decision by the department of transportation and other state and local lead agencies on whether the facilities should be permitted and built.

Agreements negotiated under the public-private initiatives program should establish the conditions under which the private developer may secure the approval necessary to develop and operate the proposed transportation facilities; create a framework to attract the private capital necessary to finance their development; ensure that the transportation facilities will be designed, constructed, and operated in accordance with applicable local, regional, state, and federal laws and the applicable standards and policies of the department of transportation; and require a demonstration that the proposed transportation facility has the support of the affected communities and local jurisdictions.

The legislature finds that the Puget Sound congestion pricing project, selected under this chapter, raises major transportation policy, economic, and equity concerns. These relate to the integrity of the state's high-occupancy vehicle program; the cost-effective movement of freight and goods; the diversion of traffic to local streets and arterials; and possible financial hardship to commuters. The legislature further finds that these potential economic and social impacts require comprehensive legislative review prior to advancement of the project and directs that the secretary not proceed with the implementation of the project without prior approval of the legislature.

The department of transportation should be encouraged to take advantage of new opportunities provided by federal legislation under section 1012 of the Intermodal Surface Transportation Efficiency Act of 1991 (ISTEA). That section establishes a new program authorizing federal participation in construction or improvement or improvement of publicly or privately owned toll roads, bridges, and tunnels, and allows states to leverage available federal

funds as a means for attracting private sector capital.

[1995 2nd sp.s. c 19 § 1; 1993 c 370 § 1.]

Notes:

Effective date--1995 2nd sp.s. c 19: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately [June 16, 1995]." [1995 2nd sp.s. c 19 § 5.]

RCW 47.46.020 Definition.

As used in this chapter, "transportation systems and facilities" means capital-related improvements and additions to the state's transportation infrastructure, including but not limited to highways, roads, bridges, vehicles, and equipment, marine-related facilities, vehicles, and equipment, park and ride lots, transit stations and equipment, transportation management systems, and other transportation-related investments.

[1993 c 370 § 2.]

RCW 47.46.030 Demonstration projects--Selection--Public involvement.

(1) The secretary or a designee shall solicit proposals from, and negotiate and enter into agreements with, private entities to undertake as appropriate, together with the department and other public entities, all or a portion of the study, planning, design, construction, operation, and maintenance of transportation systems and facilities, using in whole or in part private sources of financing.

The public-private initiatives program may develop up to six demonstration projects. Each proposal shall be weighed on its own merits, and each of the six agreements shall be negotiated individually, and as a stand-alone project.

(2) If project proposals selected prior to September 1, 1994, are terminated by the public or private sectors, the department shall not select any new projects, including project proposals submitted to the department prior to September 1, 1994, and designated by the transportation commission as placeholder projects, after June 16, 1995, until June 30, 1997.

The department, in consultation with the legislative transportation committee, shall conduct a program and fiscal audit of the public-private initiatives program for the biennium ending June 30, 1997. The department shall submit a progress report to the legislative transportation committee on the program and fiscal audit by June 30, 1996, with preliminary and final audit reports due December 1, 1996, and June 30, 1997, respectively.

The department shall develop and submit a proposed public involvement plan to the 1997 legislature to identify the process for selecting new potential projects and the associated costs of implementing the plan. The legislature must adopt the public involvement plan before the department may proceed with any activity related to project identification and selection. Following legislative adoption of the public involvement plan, the department is authorized to implement the plan and to identify potential new projects.

The public involvement plan for projects selected after June 30, 1997, shall, at a

minimum, identify projects that: (a) Have the potential of achieving overall public support among users of the projects, residents of communities in the vicinity of the projects, and residents of communities impacted by the projects; (b) meet a state transportation need; (c) provide a significant state benefit; and (d) provide competition among proposers and maximum cost benefits to users. Prospective projects may include projects identified by the department or submitted by the private sector.

Projects that meet the minimum criteria established under this section and the requirements of the public involvement plan developed by the department and approved by the legislature shall be submitted to the Washington state transportation commission for its review. The commission, in turn, shall submit a list of eligible projects to the legislative transportation committee for its consideration. Forty-five days after the submission to the legislative transportation committee of the list of eligible projects, the secretary is authorized to solicit proposals for the eligible project.

(3) Prior to entering into agreements with private entities under the requirements of RCW 47.46.040 for any project proposal selected before September 1, 1994, or after June 30, 1997, except as provided for in *subsections (11) and (12) of this section, the department shall require an advisory vote as provided under subsections (5) through (10) of this section.

(4) The advisory vote shall apply to project proposals selected prior to September 1, 1994, or after June 30, 1997, that receive public opposition as demonstrated by the submission to the department of original petitions bearing at least five thousand signatures of individuals opposing the project collected and submitted in accordance with the dates established in subsections (12) and (13) of this section. The advisory vote shall be on the preferred alternative identified under the requirements of chapter 43.21C RCW and, if applicable, the national environmental policy act, 42 U.S.C. 4321 et seq. The execution by the department of the advisory vote process established in this section is subject to the prior appropriation of funds by the legislature for the purpose of conducting environmental impact studies, a public involvement program, local involvement committee activities, traffic and economic impact analyses, engineering and technical studies, and the advisory vote.

(5) In preparing for the advisory vote, the department shall conduct a comprehensive analysis of traffic patterns and economic impact to define the geographical boundary of the project area that is affected by the imposition of tolls or user fees authorized under this chapter. The area so defined is referred to in this section as the affected project area. In defining the affected project area, the department shall, at a minimum, undertake: (a) A comparison of the estimated percentage of residents of communities in the vicinity of the project and in other communities impacted by the project who could be subject to tolls or user fees and the estimated percentage of other users and transient traffic that could be subject to tolls or user fees; (b) an analysis of the anticipated traffic diversion patterns; (c) an analysis of the potential economic impact resulting from proposed toll rates or user fee rates imposed on residents, commercial traffic, and commercial entities in communities in the vicinity of and impacted by the project; (d) an analysis of the economic impact of tolls or user fees on the price of goods and services generally; and (e) an analysis of the relationship of the project to state transportation needs and benefits.

(6)(a) After determining the definition of the affected project area, the department shall establish a committee comprised of individuals who represent cities and counties in the affected project area; organizations formed to support or oppose the project; and users of the project. The committee shall be named the public-private local involvement committee, and be known as the local involvement committee.

(b) The members of the local involvement committee shall be: (i) An elected official from each city within the affected project area; (ii) an elected official from each county within the affected project area; (iii) two persons from each county within the affected project area who represent an organization formed in support of the project, if the organization exists; (iv) two persons from each county within the affected project area who represent an organization formed to oppose the project, if the organization exists; and (v) four public members active in a state-wide transportation organization. If the committee makeup results in an even number of committee members, there shall be an additional appointment of an elected official from the county in which all, or the greatest portion of the project is located.

(c) City and county elected officials shall be appointed by a majority of the members of the city or county legislative authorities of each city or county within the affected project area, respectively. The county legislative authority of each county within the affected project area shall identify and validate organizations officially formed in support of or in opposition to the project and shall make the appointments required under this section from a list submitted by the chair of the organizations. Public members shall be appointed by the governor. All appointments to the local involvement committee shall be made and submitted to the department of transportation no later than January 1, 1996, for projects selected prior to September 1, 1994, and no later than thirty days after the affected project area is defined for projects selected after June 30, 1997. Vacancies in the membership of the local involvement committee shall be filled by the appointing authority under (b)(i) through (v) of this subsection for each position on the committee.

(d) The local involvement committee shall serve in an advisory capacity to the department on all matters related to the execution of the advisory vote.

(e) Members of the local involvement committee serve without compensation and may not receive subsistence, lodging expenses, or travel expenses.

(7) The department shall conduct a minimum thirty-day public comment period on the definition of the geographical boundary of the project area. The department, in consultation with the local involvement committee, shall make adjustments, if required, to the definition of the geographical boundary of the affected project area, based on comments received from the public. Within fourteen calendar days after the public comment period, the department shall set the boundaries of the affected project area in units no smaller than a precinct as defined in RCW 29.01.120.

(8) The department, in consultation with the local involvement committee, shall develop a description for selected project proposals. After developing the description of the project proposal, the department shall publish the project proposal description in newspapers of general circulation for seven calendar days in the affected project area. Within fourteen calendar days after the last day of the publication of the project proposal description, the department shall

transmit a copy of the map depicting the affected project area and the description of the project proposal to the county auditor of the county in which any portion of the affected project area is located.

(9) The department shall provide the legislative transportation committee with progress reports on the status of the definition of the affected project area and the description of the project proposal.

(10) Upon receipt of the map and the description of the project proposal, the county auditor shall, within thirty days, verify the precincts that are located within the affected project area. The county auditor shall prepare the text identifying and describing the affected project area and the project proposal using the definition of the geographical boundary of the affected project area and the project description submitted by the department and shall set an election date for the submission of a ballot proposition authorizing the imposition of tolls or user fees to implement the proposed project within the affected project area, which date may be the next succeeding general election to be held in the state, or at a special election, if requested by the department. The text of the project proposal must appear in a voter's pamphlet for the affected project area. The department shall pay the costs of publication and distribution. The special election date must be the next date for a special election provided under RCW 29.13.020 that is at least sixty days but, if authorized under RCW 29.13.020, no more than ninety days after the receipt of the final map and project description by the auditor. The department shall pay the cost of an election held under this section.

(11) Notwithstanding any other provision of law, the department may contract with a private developer of a selected project proposal to conduct environmental impact studies, a public involvement program, and engineering and technical studies funded by the legislature. For projects subject to this subsection, the department shall not enter into an agreement under RCW 47.46.040 prior to the advisory vote on the preferred alternative.

(12) Subsections (5) through (10) of this section shall not apply to project proposals selected prior to September 1, 1994, that have no organized public opposition as demonstrated by the submission to the department of original petitions bearing at least five thousand signatures of individuals opposing the project, collected and submitted after September 1, 1994, and by thirty calendar days after June 16, 1995.

(13) Subsections (5) through (10) of this section shall not apply to project proposals selected after June 30, 1997, that have no organized public opposition as demonstrated by the submission to the department of original petitions bearing at least five thousand signatures of individuals opposing the project, collected and submitted by ninety calendar days after project selection.

Effective date--1995 2nd sp.s. c 19: See note following RCW 47.46.010.

RCW 47.46.040 Demonstration projects--Terms of agreements--Public participation.

(1) All projects designed, constructed, and operated under this authority must comply with all applicable rules and statutes in existence at the time the agreement is executed, including but not limited to the following provisions: Chapter 39.12 RCW, this title, RCW 41.06.380, chapter 47.64 RCW, RCW 49.60.180, and 49 C.F.R. Part 21.

(2) The secretary or a designee shall consult with legal, financial, and other experts within and outside state government in the negotiation and development of the agreements.

(3) Agreements shall provide for private ownership of the projects during the construction period. After completion and final acceptance of each project or discrete segment thereof, the agreement shall provide for state ownership of the transportation systems and facilities and lease to the private entity unless the state elects to provide for ownership of the facility by the private entity during the term of the agreement.

The state shall lease each of the demonstration projects, or applicable project segments, to the private entities for operating purposes for up to fifty years.

(4) The department may exercise any power possessed by it to facilitate the development, construction, financing operation, and maintenance of transportation projects under this chapter. Agreements for maintenance services entered into under this section shall provide for full reimbursement for services rendered by the department or other state agencies. Agreements for police services for projects, involving state highway routes, developed under agreements shall be entered into with the Washington state patrol. The agreement for police services shall provide that the state patrol will be reimbursed for costs on a comparable basis with the costs incurred for comparable service on other state highway routes. The department may provide services for which it is reimbursed, including but not limited to preliminary planning, environmental certification, and preliminary design of the demonstration projects.

(5) The plans and specifications for each project constructed under this section shall comply with the department's standards for state projects. A facility constructed by and leased to a private entity is deemed to be a part of the state highway system for purposes of identification, maintenance, and enforcement of traffic laws and for the purposes of applicable sections of this title. Upon reversion of the facility to the state, the project must meet all applicable state standards. Agreements shall address responsibility for reconstruction or renovations that are required in order for a facility to meet all applicable state standards upon reversion of the facility to the state.

(6) For the purpose of facilitating these projects and to assist the private entity in the financing, development, construction, and operation of the transportation systems and facilities, the agreements may include provisions for the department to exercise its authority, including the lease of facilities, rights of way, and airspace, exercise of the power of eminent domain, granting of development rights and opportunities, granting of necessary easements and rights of access, issuance of permits and other authorizations, protection from competition, remedies in the event of default of either of the parties, granting of contractual and real property rights, liability during

construction and the term of the lease, authority to negotiate acquisition of rights of way in excess of appraised value, and any other provision deemed necessary by the secretary.

(7) The agreements entered into under this section may include provisions authorizing the state to grant necessary easements and lease to a private entity existing rights of way or rights of way subsequently acquired with public or private financing. The agreements may also include provisions to lease to the entity airspace above or below the right of way associated or to be associated with the private entity's transportation facility. In consideration for the reversion rights in these privately constructed facilities, the department may negotiate a charge for the lease of airspace rights during the term of the agreement for a period not to exceed fifty years. If, after the expiration of this period, the department continues to lease these airspace rights to the private entity, it shall do so only at fair market value. The agreement may also provide the private entity the right of first refusal to undertake projects utilizing airspace owned by the state in the vicinity of the public-private project.

(8) Agreements under this section may include any contractual provision that is necessary to protect the project revenues required to repay the costs incurred to study, plan, design, finance, acquire, build, install, operate, enforce laws, and maintain toll highways, bridges, and tunnels and which will not unreasonably inhibit or prohibit the development of additional public transportation systems and facilities. Agreements under this section must secure and maintain liability insurance coverage in amounts appropriate to protect the project's viability and may address state indemnification of the private entity for design and construction liability where the state has approved relevant design and construction plans.

(9) Agreements shall include a process that provides for public involvement in decision making with respect to the development of the projects.

(10)(a) In carrying out the public involvement process required in subsection (9) of this section, the private entity shall proactively seek public participation through a process appropriate to the characteristics of the project that assesses and demonstrates public support among: Users of the project, residents of communities in the vicinity of the project, and residents of communities impacted by the project.

(b) The private entity shall conduct a comprehensive public involvement process that provides, periodically throughout the development and implementation of the project, users and residents of communities in the affected project area an opportunity to comment upon key issues regarding the project including, but not limited to: (i) Alternative sizes and scopes; (ii) design; (iii) environmental assessment; (iv) right of way and access plans; (v) traffic impacts; (vi) tolling or user fee strategies and tolling or user fee ranges; (vii) project cost; (viii) construction impacts; (ix) facility operation; and (x) any other salient characteristics.

(c) If the affected project area has not been defined, the private entity shall define the affected project area by conducting, at a minimum: (i) A comparison of the estimated percentage of residents of communities in the vicinity of the project and in other communities impacted by the project who could be subject to tolls or user fees and the estimated percentage of other users and transient traffic that could be subject to tolls or user fees; (ii) an analysis of the anticipated traffic diversion patterns; (iii) an analysis of the potential economic impact resulting from proposed toll rates or user fee rates imposed on residents, commercial traffic, and

commercial entities in communities in the vicinity of and impacted by the project; (iv) an analysis of the economic impact of tolls or user fees on the price of goods and services generally; and (v) an analysis of the relationship of the project to state transportation needs and benefits.

The agreement may require an advisory vote by users of and residents in the affected project area.

(d) In seeking public participation, the private entity shall establish a local involvement committee or committees comprised of residents of the affected project area, individuals who represent cities and counties in the affected project area, organizations formed to support or oppose the project, if such organizations exist, and users of the project. The private entity shall, at a minimum, establish a committee as required under the specifications of RCW 47.46.030(6)(b) (ii) and (iii) and appointments to such committee shall be made no later than thirty days after the project area is defined.

(e) Local involvement committees shall act in an advisory capacity to the department and the private entity on all issues related to the development and implementation of the public involvement process established under this section.

(f) The department and the private entity shall provide the legislative transportation committee and local involvement committees with progress reports on the status of the public involvement process including the results of an advisory vote, if any occurs.

(11) Nothing in this chapter limits the right of the secretary and his or her agents to render such advice and to make such recommendations as they deem to be in the best interests of the state and the public.

NOTES:

Effective date--1995 2nd sp.s. c 19: See note following RCW 47.46.010.

RCW 47.46.050 Financial arrangements.

(1) The department may enter into agreements using federal, state, and local financing in connection with the projects, including without limitation, grants, loans, and other measures authorized by section 1012 of ISTEA, and to do such things as necessary and desirable to maximize the funding and financing, including the formation of a revolving loan fund to implement this section.

(2) Agreements entered into under this section shall authorize the private entity to lease the facilities within a designated area or areas from the state and to impose user fees or tolls within the designated area to allow a reasonable rate of return on investment, as established through a negotiated agreement between the state and the private entity. The negotiated agreement shall determine a maximum rate of return on investment, based on project characteristics. If the negotiated rate of return on investment is not affected, the private entity may establish and modify toll rates and user fees.

(3) Agreements may establish "incentive" rates of return beyond the negotiated maximum rate of return on investment. The incentive rates of return shall be designed to provide financial benefits to the affected public jurisdictions and the private entity, given the attainment of various

safety, performance, or transportation demand management goals. The incentive rates of return shall be negotiated in the agreement.

(4) Agreements shall require that over the term of the ownership or lease the user fees or toll revenues be applied only to payment of the private entity's capital outlay costs for the project, including project development costs, interest expense, the costs associated with design, construction, operations, toll collection, maintenance and administration of the project, reimbursement to the state for all costs associated with an election as required under RCW 47.46.030, the costs of project review and oversight, technical and law enforcement services, establishment of a fund to assure the adequacy of maintenance expenditures, and a reasonable return on investment to the private entity. A negotiated agreement shall not extend the term of the ownership or lease beyond the period of time required for payment of the private entity's capital outlay costs for the project under this subsection.

RCW 47.50.010 Findings--Access.

(1) The legislature finds that:

(a) Regulation of access to the state highway system is necessary in order to protect the public health, safety, and welfare, to preserve the functional integrity of the state highway system, and to promote the safe and efficient movement of people and goods within the state;

(b) The development of an access management program, in accordance with this chapter, which coordinates land use planning decisions by local governments and investments in the state highway system, will serve to control the proliferation of connections and other access approaches to and from the state highway system. Without such a program, the health, safety, and welfare of the residents of this state are at risk, due to the fact that uncontrolled access to the state highway system is a significant contributing factor to the congestion and functional deterioration of the system; and

(c) The development of an access management program in accordance with this chapter will enhance the development of an effective transportation system and increase the traffic-carrying capacity of the state highway system and thereby reduce the incidences of traffic accidents, personal injury, and property damage or loss; mitigate environmental degradation; promote sound economic growth and the growth management goals of the state; reduce highway maintenance costs and the necessity for costly traffic operations measures; lengthen the effective life of transportation facilities in the state, thus preserving the public investment in such facilities; and shorten response time for emergency vehicles.

(2) In furtherance of these findings, all state highways are hereby declared to be controlled access facilities as defined in RCW 47.50.020, except those highways that are defined as limited access facilities in chapter 47.52 RCW.

(3) It is the policy of the legislature that:

(a) The access rights of an owner of property abutting the state highway system are subordinate to the public's right and interest in a safe and efficient highway system; and

(b) Every owner of property which abuts a state highway has a right to reasonable access to that highway, unless such access has been acquired pursuant to chapter 47.52 RCW, but may not have the right of a particular means of access. The right of access to the state highway may be restricted if, pursuant to local regulation, reasonable access can be provided to another public road which abuts the property.

(4) The legislature declares that it is the purpose of this chapter to provide a coordinated planning process for the permitting of access points on the state highway system to effectuate the findings and policies under this section.

(5) Nothing in this chapter shall affect the right to full compensation under section 16, Article I of the state Constitution.

Owners or occupants of abutting lands and other persons have a right of access to or from such facility at such points only and in such manner as may be determined by the governmental entity.

(2) "Connection" means approaches, driveways, turnouts, or other means of providing for the right of access to or from controlled access facilities on the state highway system.

(2) The department shall by July 1, 1992, adopt administrative procedures pursuant to chapter 34.05 RCW which establish state highway access standards and rules for its issuance and modification of access permits, closing of unpermitted connections, revocation of permits, and waiver provisions in accordance with this chapter. The department shall consult with the association of Washington cities and obtain concurrence of the city design standards committee as established by RCW 35.78.030 in the development and adoption of rules for access standards for city streets designated as state highways under chapter 47.24 RCW.

RCW 47.50.040 Access permits.

(1) No connection to a state highway shall be constructed or altered without obtaining an access permit in accordance with this chapter in advance of such action. A permitting authority has the authority to deny access to the state highway system at the location specified in the permit until the permittee constructs or alters the connection in accordance with the permit requirements.

(2) The cost of construction or alteration of a connection shall be borne by the permittee, except for alterations which are not required by law or administrative rule, but are made at the request of and for the convenience of the permitting authority. The permittee, however, shall bear the cost of alteration of any connection which is required by the permitting authority due to increased or altered traffic flows generated by changes in the permittee's facilities or nature of business conducted at the location specified in the permit.

(3) Except as otherwise provided in this chapter, an unpermitted connection is subject to closure by the appropriate permitting authority which shall have the right to install barriers across or remove the connection. When the permitting authority determines that a connection is unpermitted and subject to closure, it shall provide reasonable notice of its impending action to the owner of property served by the connection. The permitting authority's procedures for providing notice and preventing the operation of unpermitted connections shall be adopted by rule.

RCW 47.50.070 Permit conditions.

The permitting authority may issue a permit subject to any conditions necessary to carry out the provisions of this chapter, including, but not limited to, requiring the use of a joint-use connection. The permitting authority may revoke a permit if the applicant fails to comply with the conditions upon which the issuance of the permit was predicated.

Captions not law--Effective date--Severability--1991 c 202: See notes following RCW 47.50.010.

RCW 47.50.080 Permit removal.

(1) Unpermitted connections to the state highway system in existence on July 1, 1990, shall not require the issuance of a permit and may continue to provide access to the state highway system, unless the permitting authority determines that such a connection does not meet minimum acceptable standards of highway safety. However, a permitting authority may require that a permit be obtained for such a connection if a significant change occurs in the use, design, or traffic flow of the connection or of the state highway to which it provides access. If a permit is not obtained, the connection may be closed pursuant to RCW 47.50.040.

(2) Access permits granted prior to adoption of the permitting authorities' standards shall remain valid until modified or revoked. Access connections to state highways identified on plats and subdivisions approved prior to July 1, 1991, shall be deemed to be permitted pursuant to chapter 202, Laws of 1991. The permitting authority may, after written notification, under rules adopted in accordance with RCW 47.50.030, modify or revoke an access permit granted prior to adoption of the standards by requiring relocation, alteration, or closure of the connection if a significant change occurs in the use, design, or traffic flow of the connection.

(3) The permitting authority may issue a nonconforming access permit after finding that to deny an access permit would leave the property without a reasonable means of access to the public roads of this state. Every nonconforming access permit shall specify limits on the maximum vehicular use of the connection and shall be conditioned on the availability of future

alternative means of access for which access permits can be obtained.

Captions not law--Effective date--Severability--1991 c 202: See notes following RCW 47.50.010.

RCW 47.50.090 Access management standards.

(1) The department shall develop, adopt, and maintain an access control classification system for all routes on the state highway system, the purpose of which shall be to provide for the implementation and continuing applications of the provision of this chapter.

(2) The principal component of the access control classification system shall be access management standards, the purpose of which shall be to provide specific minimum standards to be adhered to in the planning for and approval of access to state highways.

(3) The control classification system shall be developed consistent with the following:

(a) The department shall, no later than January 1, 1993, adopt rules setting forth procedures governing the implementation of the access control classification system required by this chapter. The rule shall provide for input from the entities described in (b) of this subsection as well as for public meetings to discuss the access control classification system. Nothing in this chapter shall affect the validity of the department's existing or subsequently adopted rules concerning access to the state highway system. Such rules shall remain in effect until repealed or replaced by the rules required by this chapter.

(b) The access control classification system shall be developed in cooperation with counties, cities and towns, the department of community, trade, and economic development, regional transportation planning organizations, and other local governmental entities, and for city streets designated as state highways pursuant to chapter 47.24 RCW, adopted with the concurrence of the city design standards committee.

(c) The rule required by this section shall provide that assignment of a road segment to a specific access category be made in consideration of the following criteria:

- (i) Local land use plans and zoning, as set forth in comprehensive plans;
- (ii) The current functional classification as well as potential future functional classification of each road on the state highway system;
- (iii) Existing and projected traffic volumes;
- (iv) Existing and projected state, local, and metropolitan planning organization transportation plans and needs;
- (v) Drainage requirements;
- (vi) The character of lands adjoining the highway;
- (vii) The type and volume of traffic requiring access;
- (viii) Other operational aspects of access;
- (ix) The availability of reasonable access by way of county roads and city streets to a state highway; and
- (x) The cumulative effect of existing and projected connections on the state highway

system's ability to provide for the safe and efficient movement of people and goods within the state.

(d) Access management standards shall include, but not be limited to, connection location standards, safety factors, design and construction standards, desired levels of service, traffic control devices, and effective maintenance of the roads. The standards shall also contain minimum requirements for the spacing of connections, intersecting streets, roads, and highways.

(e) An access control category shall be assigned to each segment of the state highway system by July 1, 1993.

Description, plans of highways, filing: RCW 47.28.025, 47.28.026.

Port districts, toll facilities: Chapter 53.34 RCW.

Speed limits on limited access facilities: RCW 46.61.430.

RCW 47.52.001 Declaration of policy.

Unrestricted access to and from public highways has resulted in congestion and peril for the traveler. It has caused undue slowing of all traffic in many areas. The investment of the public in highway facilities has been impaired and highway facilities costing vast sums of money will have to be relocated and reconstructed. It is the declared policy of this state to limit access to the highway facilities of this state in the interest of highway safety and for the preservation of the investment of the public in such facilities.

[1961 c 13 § 47.52.001. Prior: 1951 c 167 § 1.]

RCW 47.52.010 "Limited access facility" defined.

For the purposes of this chapter, a "limited access facility" is defined as a highway or street especially designed or designated for through traffic, and over, from, or to which owners or occupants of abutting land, or other persons, have no right or easement, or only a limited right or easement of access, light, air, or view by reason of the fact that their property abuts upon such limited access facility, or for any other reason to accomplish the purpose of a limited access facility. Such highways or streets may be parkways, from which vehicles forming part of an urban public transportation system, trucks, buses, or other commercial vehicles may be excluded; or they may be freeways open to use by all customary forms of street and highway traffic, including vehicles forming a part of an urban public transportation system.

[1967 c 108 § 10; 1961 c 13 § 47.52.010. Prior: 1951 c 167 § 2; 1947 c 202 § 1; Rem. Supp. 1947 § 6402-60.]

Notes:

Urban public transportation system defined: RCW 47.04.082.

RCW 47.52.011 "Existing highway" defined.

For the purposes of this chapter, the term "existing highway" shall include all highways,

roads and streets duly established, constructed, and in use. It shall not include new highways, roads or streets, or relocated highways, roads or streets, or portions of existing highways, roads or streets which are relocated.

[1961 c 13 § 47.52.011. Prior: 1951 c 167 § 3.]

RCW 47.52.020 Powers of highway authorities--State facility, county road crossings.

The highway authorities of the state, counties, and incorporated cities and towns, acting alone or in cooperation with each other, or with any federal, state, or local agency, or any other state having authority to participate in the construction and maintenance of highways, may plan, designate, establish, regulate, vacate, alter, improve, construct, maintain, and provide limited access facilities for public use wherever the authority or authorities are of the opinion that traffic conditions, present or future, will justify the special facilities. However, upon county roads within counties, the state or county authorities are subject to the consent of the county legislative authority, except that where a state limited access facility crosses a county road the department may, without the consent of the county legislative authority, close off the county road so that it will not intersect such limited access facility.

The department may, in constructing or relocating any state highway, cross any county road at grade without obtaining the consent of the county legislative authority, and in so doing may revise the alignment of the county road to the extent that the department finds necessary for reasons of traffic safety or practical engineering considerations.

Notes:

Severability--1984 c 7: See note following RCW 47.01.141.

RCW 47.52.025 Additional powers--Controlling use of limited access facilities--High-occupancy vehicle lanes.

Highway authorities of the state, counties, and incorporated cities and towns, in addition to the specific powers granted in this chapter, shall also have, and may exercise, relative to limited access facilities, any and all additional authority, now or hereafter vested in them relative to highways or streets within their respective jurisdictions, and may regulate, restrict, or prohibit the use of such limited access facilities by various classes of vehicles or traffic. Such highway authorities may reserve any limited access facility or portions thereof, including designated lanes or ramps for the exclusive or preferential use of public transportation vehicles, privately owned buses, or private motor vehicles carrying not less than a specified number of passengers when such limitation will increase the efficient utilization of the highway facility or will aid in the conservation of energy resources. Regulations authorizing such exclusive or preferential use of a highway facility may be declared to be effective at all time or at specified times of day or on specified days.

Notes:

High-occupancy vehicle lanes: RCW 46.61.165.

RCW 47.52.026 Rules--Control of vehicles entering--Ramp closure, metering, or restrictions--Notice.

(1) The department may adopt rules for the control of vehicles entering any state limited access highway as it deems necessary (a) for the efficient or safe flow of traffic traveling upon any part of the highway or connections with it or (b) to avoid exceeding federal, state, or regional air pollution standards either along the highway corridor or within an urban area served by the highway.

(2) Rules adopted by the department pursuant to subsection (1) of this section may provide for the closure of highway ramps or the metering of vehicles entering highway ramps or the restriction of certain classes of vehicles entering highway ramps (including vehicles with less than a specified number of passengers), and any such restrictions may vary at different times as necessary to achieve the purposes mentioned in subsection (1) of this section.

(3) Vehicle restrictions authorized by rules adopted pursuant to this section are effective when proper notice is given by any police officer, or by appropriate signals, signs, or other traffic control devices.

Severability--1984 c 7: See note following RCW 47.01.141.

RCW 47.52.027 Standards and rules for interstate and defense highways--Construction, maintenance, access.

The secretary of transportation may adopt design standards, rules, and regulations relating to construction, maintenance, and control of access of the national system of interstate and defense highways within this state as it deems advisable to properly control access thereto, to preserve the traffic-carrying capacity of such highways, and to provide the maximum degree of safety to users thereof. In adopting such standards, rules, and regulations the secretary shall take into account the policies, rules, and regulations of the United States secretary of commerce and the federal highway administration relating to the construction, maintenance, and operation of the system of interstate and defense highways. The standards, rules, and regulations so adopted by the secretary shall constitute the public policy of this state and shall have the force and effect of law.

Notes:

Nonmotorized traffic may be prohibited: RCW 46.61.160.

RCW 47.52.040 Design--Entrance and exit restricted--Closure of intersecting roads.

The highway authorities of the state, counties and incorporated cities and towns may so design any limited access facility and so regulate, restrict, or prohibit access as to best serve the traffic for which such facility is intended; and the determination of design by such authority shall be conclusive and final. In this connection such highway authorities may divide and separate any limited access facility into separate roadways by the construction of raised curbing, central dividing sections, or other physical separations, or by designating such separate roadways by signs, markers, stripes, and the proper lane for such traffic by appropriate signs, markers, stripes and other devices. No person shall have any right of ingress or egress to, from, or across limited access facilities to or from abutting lands, except at designated points at which access may be permitted by the highway authorities upon such terms and conditions as may be specified from time to time: PROVIDED, That any intersecting streets, roads or highways, not made a part of such facility, shall be deemed closed at the right of way line by the designation and construction of said facility and without the consent of any other party or the necessity of any other legal proceeding for such closing, notwithstanding any laws to the contrary.

[1961 c 13 § 47.52.040. Prior: 1955 c 75 § 1; 1947 c 202 § 3; Rem. Supp. 1947 § 6402-62.]

RCW 47.52.041 Closure of intersecting roads--Rights of abutters.

No person, firm or corporation, private or municipal, shall have any claim against the state, city or county by reason of the closing of such streets, roads or highways as long as access still exists or is provided to such property abutting upon the closed streets, roads or highways. Circuity of travel shall not be a compensable item of damage.

[1961 c 13 § 47.52.041. Prior: 1955 c 75 § 2.]

RCW 47.52.042 Closure of intersecting roads--Other provisions not affected.

RCW 47.52.040 and 47.52.041 shall not be construed to affect provisions for establishment, notice, hearing and court review of any decision establishing a limited access facility on an existing highway pursuant to chapter 47.52 RCW.

[1961 c 13 § 47.52.042. Prior: 1955 c 75 § 3.]

RCW 47.52.050 Acquisition of property.

(1) For the purpose of this chapter the highway authorities of the state, counties and incorporated cities and towns, respectively, or in cooperation one with the other, may acquire private or public property and property rights for limited access facilities and service roads, including rights of access, air, view and light, by gift, devise, purchase, or condemnation, in the same manner as such authorities are now or hereafter may be authorized by law to acquire

property or property rights in connection with highways and streets within their respective jurisdictions. Except as otherwise provided in subsection (2) of this section all property rights acquired under the provisions of this chapter shall be in fee simple. In the acquisition of property or property rights for any limited access facility or portion thereof, or for any service road in connection therewith, the state, county, incorporated city and town authority may, in its discretion, acquire an entire lot, block or tract of land, if by so doing the interest of the public will be best served, even though said entire lot, block or tract is not immediately needed for the limited access facility.

(2) The highway authorities of the state, counties, and incorporated cities and towns may acquire by gift, devise, purchase, or condemnation a three dimensional air space corridor in fee simple over or below the surface of the ground, together with such other property in fee simple and other property rights as are needed for the construction and operation of a limited access highway facility, but only if the acquiring authority finds that the proposal will not:

- (a) impair traffic safety on the highway or interfere with the free flow of traffic; or
- (b) permit occupancy or use of the air space above or below the highway which is hazardous to the operation of the highway.

[1971 ex.s. c 39 § 1; 1961 c 13 § 47.52.050. Prior: 1947 c 202 § 4; Rem. Supp. 1947 § 6402-63.]

RCW 47.52.060 Court process expedited.

Court proceedings necessary to acquire property or property rights for purposes of this chapter shall take precedence over all other causes not involving the public interest in all courts to the end that the provision for limited access facilities may be expedited.

RCW 47.52.070 Establishment of facility--Grade separation--Service roads.

The designation or establishment of a limited access facility shall, by the authority making the designation or establishment, be entered upon the records or minutes of such authority in the customary manner for the keeping of such records or minutes. The state, counties and incorporated cities and towns may provide for the elimination of intersections at grade of limited access facilities with existing state or county roads, and with city or town streets, by grade separation or service road, or by closing off such roads and streets at the right of way boundary line of such limited access facility; and after the establishment of any such facility, no highway or street which is not part of said facility, shall intersect the same at grade. No city or town street, county road, or state highway, or any other public or private way, shall be opened into or connect with any such limited access facility without the consent and previous approval of the highway authority of the state, county, incorporated city or town having jurisdiction over

such limited access facility. Such consent and approval shall be given only if the public interest shall be served thereby.

[1961 c 13 § 47.52.070. Prior: 1951 c 167 § 10; 1947 c 202 § 6; Rem. Supp. 1947 § 6402-65.]

RCW 47.52.080 Abutter's right of access protected--Compensation.

No existing public highway, road, or street shall be constructed as a limited access facility except upon the waiver, purchase, or condemnation of the abutting owner's right of access thereto as herein provided. In cases involving existing highways, if the abutting property is used for business at the time the notice is given as provided in RCW 47.52.133, the owner of such property shall be entitled to compensation for the loss of adequate ingress to or egress from such property as business property in its existing condition at the time of the notice provided in RCW 47.52.133 as for the taking or damaging of property for public use.

[1983 c 3 § 127; 1961 c 13 § 47.52.080. Prior: 1955 c 54 § 2; 1951 c 167 § 11; 1947 c 202 § 7; Rem. Supp. 1947 § 6402-66.]

RCW 47.52.090 Cooperative agreements--Urban public transportation systems--Title to highway--Traffic regulations--Underground utilities and overcrossings--Passenger transportation--Storm sewers--City street crossings.

The highway authorities of the state, counties, incorporated cities and towns, and municipal corporations owning or operating an urban public transportation system are authorized to enter into agreements with each other, or with the federal government, respecting the financing, planning, establishment, improvement, construction, maintenance, use, regulation, or vacation of limited access facilities in their respective jurisdictions to facilitate the purposes of this chapter. Any such agreement may provide for the exclusive or nonexclusive use of a portion of the facility by street cars, trains, or other vehicles forming a part of an urban public transportation system and for the erection, construction, and maintenance of structures and facilities of such a system including facilities for the receipt and discharge of passengers. Within incorporated cities and towns the title to every state limited access highway vests in the state, and, notwithstanding any other provision of this section, the department shall exercise full jurisdiction, responsibility, and control to and over the highway from the time it is declared to be operational as a limited access facility by the department, subject to the following provisions:

(1) Cities and towns shall regulate all traffic restrictions on such facilities except as provided in RCW 46.61.430, and all regulations adopted are subject to approval of the department before becoming effective. Nothing herein precludes the state patrol or any county, city, or town from enforcing any traffic regulations and restrictions prescribed by state law, county resolution, or municipal ordinance.

(2) The city, town, or franchise holder shall at its own expense maintain its underground facilities beneath the surface across the highway and has the right to construct additional facilities underground or beneath the surface of the facility or necessary overcrossings of power lines and other utilities as may be necessary insofar as the facilities do not interfere with the use

of the right of way for limited access highway purposes. The city or town has the right to maintain any municipal utility and the right to open the surface of the highway. The construction, maintenance until permanent repair is made, and permanent repair of these facilities shall be done in a time and manner authorized by permit to be issued by the department or its authorized representative, except to meet emergency conditions for which no permit will be required, but any damage occasioned thereby shall promptly be repaired by the city or town itself, or at its direction. Where a city or town is required to relocate overhead facilities within the corporate limits of a city or town as a result of the construction of a limited access facility, the cost of the relocation shall be paid by the state.

(3) Cities and towns have the right to grant utility franchises crossing the facility underground and beneath its surface insofar as the franchises are not inconsistent with the use of the right of way for limited access facility purposes and the franchises are not in conflict with state laws. The department is authorized to enforce, in an action brought in the name of the state, any condition of any franchise that a city or town has granted. No franchise for transportation of passengers in motor vehicles may be granted on such highways without the approval of the department, except cities and towns are not required to obtain a franchise for the operation of municipal vehicles or vehicles operating under franchises from the city or town operating within the corporate limits of a city or town and within a radius not exceeding eight miles outside the corporate limits for public transportation on such facilities, but these vehicles may not stop on the limited access portion of the facility to receive or to discharge passengers unless appropriate special lanes or deceleration, stopping, and acceleration space is provided for the vehicles.

Every franchise or permit granted any person by a city or town for use of any portion of a limited access facility shall require the grantee or permittee to restore, permanently repair, and replace to its original condition any portion of the highway damaged or injured by it. Except to meet emergency conditions, the construction and permanent repair of any limited access facility by the grantee of a franchise shall be in a time and manner authorized by a permit to be issued by the department or its authorized representative.

(4) The department has the right to use all storm sewers that are adequate and available for the additional quantity of run-off proposed to be passed through such storm sewers.

(5) The construction and maintenance of city streets over and under crossings and surface intersections of the limited access facility shall be in accordance with the governing policy entered into between the department and the association of Washington cities on June 21, 1956, or as such policy may be amended by agreement between the department and the association of Washington cities.

RCW 47.52.100 Existing roads and streets as service roads.

In connection with the development of any limited access facility the state, county or incorporated city or town highway authorities are authorized to plan, designate, establish, use, regulate, alter, improve, construct, maintain and vacate local service roads and streets, or to designate as local service roads and streets any existing road or street, and to exercise jurisdiction over service roads in the same manner as is authorized for limited access facilities under the terms of this chapter. If, in their opinion such local service roads and streets are necessary or desirable, such local service roads or streets shall be separated from the limited access facility by such means or devices designated as necessary or desirable by the proper authority.

RCW 47.52.105 Acquisition and construction to preserve limited access or reduce required compensation.

Whenever, in the opinion of the department, frontage or service roads in connection with limited access facilities are not feasible either from an engineering or economic standpoint, the department may acquire private or public property by purchase or condemnation and construct any road, street, or highway connecting to or leading into any other road, street, or highway, when by so doing, it will preserve a limited access facility or reduce compensation required to be paid to an owner by reason of reduction in or loss of access. The department shall provide by agreement with a majority of the legislative authority of the county or city concerned as to location, future maintenance, and control of any road, street, or highway to be so constructed. The road, street, or highway need not be made a part of the state highway system or connected thereto, but may upon completion by the state be turned over to the county or city for location, maintenance, and control pursuant to the agreement as part of the system of county roads or city streets.

Except as provided in RCW 47.52.134, the transportation commission and the highway authorities of the counties and incorporated cities and towns, with regard to facilities under their respective jurisdictions, prior to the establishment of any limited access facility, shall hold a public hearing within the county, city, or town wherein the limited access facility is to be established to determine the desirability of the plan proposed by such authority. Notice of such hearing shall be given to the owners of property abutting the section of any existing highway, road, or street being established as a limited access facility, as indicated in the tax rolls of the county, and in the case of a state limited access facility, to the county and/or city or town. Such notice shall be by United States mail in writing, setting forth a time for the hearing, which time shall be not less than fifteen days after mailing of such notice. Notice of such hearing also shall be given by publication not less than fifteen days prior to such hearing in one or more

RCW 47.52.134 When access reports and hearings not required.

Access reports and hearings on the establishment of limited access facilities are not required if:

(1) The limited access facility would lie wholly within state or federal lands and the agency or agencies with jurisdiction of the land agree to the access plan; or

(2) The access rights to the affected section of roadway have previously been purchased or established by others; or

(3) The limited access facility would not significantly change local road use, and all affected local agencies and abutting property owners agree in writing to waive a formal hearing on the establishment of the facility after publication of a notice of opportunity for a limited access hearing. This notice of opportunity for a limited access hearing shall be given in the same manner as required for published notice of hearings under RCW 47.52.133. If the authority specified in the notice receives a request for a hearing from one or more abutting property owners or affected local agencies on or before the date stated in the notice, an access report shall be submitted as provided in RCW 47.52.131 and a hearing shall be held. Notice of the hearing shall be given by mail and publication as provided in RCW 47.52.133.

RCW 47.52.135 Hearing procedure.

At the hearing any representative of the county, city or town, or any other person may appear and be heard even though such official or person is not an abutting property owner. Such hearing may, at the option of the highway authority, be conducted in accordance with federal laws and regulations governing highway design public hearings. The members of such authority shall preside, or may designate some suitable person to preside as examiner. The authority shall introduce by competent evidence a summary of the proposal for the establishment of a limited access facility and any evidence that supports the adoption of the plan as being in the public interest. At the conclusion of such evidence, any person entitled to notice who has entered a written appearance shall be deemed a party to this hearing for purposes of this chapter and may thereafter introduce, either in person or by counsel, evidence and statements or counterproposals bearing upon the reasonableness of the proposal. Any such evidence and statements or counterproposals shall receive reasonable consideration by the authority before any proposal is adopted. Such evidence must be material to the issue before the authority and shall be presented in an orderly manner.

are met:

(1) As compared with the previously adopted limited access plan, the revised plan will not require additional or different right of way with respect to that section of highway for which the design has been revised, in excess of five percent by area; and

(2) If the previously adopted limited access plan was modified by a board of review convened at the request of a county, city, or town, the legislative authority of the county, city, or town shall approve any revisions of the plan which conflict with modifications ordered by the board of review.

RCW 47.56.030 Powers and duties regarding toll facilities--Purchasing.

(1) The department of transportation shall have full charge of the construction of all toll bridges and other toll facilities including the Washington state ferries, and the operation and maintenance thereof. The transportation commission shall determine and establish the tolls and charges thereon, and shall perform all duties and exercise all powers relating to the financing, refinancing, and fiscal management of all toll bridges and other toll facilities including the Washington state ferries, and bonded indebtedness in the manner provided by law. The department shall have full charge of design of all toll facilities. Except as provided in this section, the department shall proceed with the construction of such toll bridges and other facilities and the approaches thereto by contract in the manner of state highway construction immediately upon there being made available funds for such work and shall prosecute such work to completion as rapidly as practicable. The department is authorized to negotiate contracts for any amount without bid under (a) and (b) of this subsection:

(a) Emergency contracts, in order to make repairs to ferries or ferry terminal facilities or removal of such facilities whenever continued use of ferries or ferry terminal facilities constitutes a real or immediate danger to the traveling public or precludes prudent use of such ferries or facilities; and

(b) Single source contracts for vessel dry dockings, when there is clearly and legitimately only one available bidder to conduct dry dock-related work for a specific class or classes of vessels. The contracts may be entered into for a single vessel dry docking or for multiple vessel dry dockings for a period not to exceed two years.

(2) The department shall proceed with the procurement of materials, supplies, services, and equipment needed for the support, maintenance, and use of a ferry, ferry terminal, or other facility operated by Washington state ferries, in accordance with chapter 43.19 RCW except as follows:

(a) Except as provided in (d) of this subsection, when the secretary of the department of transportation determines in writing that the use of invitation for bid is either not practicable or not advantageous to the state and it may be necessary to make competitive evaluations, including technical or performance evaluations among acceptable proposals to complete the contract award, a contract may be entered into by use of a competitive sealed proposals method, and a formal request for proposals solicitation. Such formal request for proposals solicitation shall include a functional description of the needs and requirements of the state and the significant factors.

(b) When purchases are made through a formal request for proposals solicitation the contract shall be awarded to the responsible proposer whose competitive sealed proposal is determined in writing to be the most advantageous to the state taking into consideration price and other evaluation factors set forth in the request for proposals. No significant factors may be used in evaluating a proposal that are not specified in the request for proposals. Factors that may be considered in evaluating proposals include but are not limited to: Price; maintainability; reliability; commonality; performance levels; life cycle cost if applicable under this section; cost of transportation or delivery; delivery schedule offered; installation cost; cost of spare parts; availability of parts and service offered; and the following:

(i) The ability, capacity, and skill of the proposer to perform the contract or provide the service required;

(ii) The character, integrity, reputation, judgment, experience, and efficiency of the proposer;

(iii) Whether the proposer can perform the contract within the time specified;

(iv) The quality of performance of previous contracts or services;

(v) The previous and existing compliance by the proposer with laws relating to the contract or services;

(vi) Objective, measurable criteria defined in the request for proposal. These criteria may include but are not limited to items such as discounts, delivery costs, maintenance services costs, installation costs, and transportation costs; and

(vii) Such other information as may be secured having a bearing on the decision to award the contract.

(c) When purchases are made through a request for proposal process, proposals received shall be evaluated based on the evaluation factors set forth in the request for proposal. When issuing a request for proposal for the procurement of propulsion equipment or systems that include an engine, the request for proposal must specify the use of a life cycle cost analysis that includes an evaluation of fuel efficiency. When a life cycle cost analysis is used, the life cycle cost of a proposal shall be given at least the same relative importance as the initial price element specified in the request of proposal documents. The department may reject any and all proposals received. If the proposals are not rejected, the award shall be made to the proposer whose proposal is most advantageous to the department, considering price and the other evaluation factors set forth in the request for proposal.

(d) If the department is procuring large equipment or systems (e.g., electrical, propulsion) needed for the support, maintenance, and use of a ferry operated by Washington state ferries, the department shall proceed with a formal request for proposal solicitation under this subsection (2) without a determination of necessity by the secretary.

RCW 47.56.110 Toll bridges--Resolution of necessity in acquiring right of way--Effect of.

Before the department proceeds with any action to secure a right of way or with construction of any toll bridge under the provisions of this chapter, the commission shall first pass a resolution that public interest and necessity require the acquisition of right of way for and the construction of the toll bridge. The resolution is conclusive evidence (1) of the public necessity of such construction; (2) that the property is necessary therefor; and (3) that the proposed construction is planned or located in a manner which will be most compatible with the greatest public good and the least private injury. When it becomes necessary for the department to condemn any real estate to be used in connection with any such bridge, the attorney general of the state shall represent the department. In eminent domain proceedings to acquire property for any of the purposes of this chapter, any toll bridge, real property, personal property, franchises, rights, easements, or other property or privileges appurtenant thereto appropriated or dedicated to a public use or purpose by any person, firm, private, public, or municipal corporation, county, city, town, district, or any political subdivision of the state, may be condemned and taken, and the acquisition and use as provided in this chapter for the same public use or purpose to which the property has been so appropriated or dedicated, or for any other public use or purpose, is a superior and permanent right and necessity, and a more necessary use and purpose than the public use or purpose to which the property has already been appropriated or dedicated. It is not necessary in any eminent domain proceedings under this chapter to plead or prove any acts or proceedings preliminary or prior to the adoption of the resolution hereinbefore referred to describing the property sought to be taken and directing such proceedings.

RCW 47.56.140 Toll bridges, bonds--Form, contents, manner of sale--Interim bonds.

The revenue bonds may be issued and sold by the department of transportation from time to time and in such amounts as it deems necessary to provide sufficient funds for the construction of the bridge, and to pay interest on outstanding bonds issued for its construction during the period of actual construction and for six months after completion thereof.

The department of transportation shall determine the form, conditions, and denominations of the bonds, and the maturity dates which the bonds to be sold shall bear and the interest rate thereon. All bonds of the same issue need not bear the same interest rate. Principal and interest of the bonds may be payable at such place as determined by the department. They may be in any form including bearer bonds or registered bonds as provided in RCW 39.46.030, with interest payable at such times as determined by the department, and shall mature at such times and in such amounts as the department prescribes. The department may provide for the retirement of the bonds at any time prior to maturity, and in such manner and upon payment of such premiums as it may determine in the resolution providing for the issuance of the bonds. All such bonds shall be signed by the state auditor and countersigned by the governor and any interest coupons appertaining thereto shall bear the signature of the state auditor. The

countersignature of the governor on such bonds and the signature of the state auditor on any coupons may be their printed or lithographed facsimile signatures. Successive issues of such bonds within the limits of the original authorization shall have equal preference with respect to the redemption thereof and the payment of interest thereon. The department may fix different maturity dates, serially or otherwise, for successive issues under any one original authorization. The bonds shall be negotiable instruments under the law merchant. All bonds issued and sold hereunder shall be sold on sealed bids to the highest and best bidder after such advertising for bids as the department deems proper. The department may reject any and all bids and may thereafter sell the bonds at private sale under such terms and conditions as it deems most advantageous to its own interests; but not at a price below that of the best bid which was rejected. The department may contract loans and borrow money through the sale of bonds of the same character as those herein authorized, from the United States or any agency thereof, upon such conditions and terms as may be agreed to and the bonds shall be subject to all the provisions of this chapter, except the requirement that they be first offered at public sale.

Temporary or interim bonds, certificates, or receipts, of any denomination, and with or without coupons attached, signed by the state auditor, may be issued and delivered until bonds are executed and available for delivery.

RCW 47.56.150 Toll bridges--Bond proceeds and toll revenues, disposition of--Construction fund--Disbursement--Investment.

The proceeds from the sale of all bonds authorized under the provisions of this chapter shall be paid to the state treasurer for the credit of the department and be deposited as demand deposits forthwith in such depository or depositories as may be authorized by law to receive deposits of state funds to the credit of a fund to be designated as the construction fund of the particular toll bridge or toll bridges for which such bonds were issued and sold, which fund shall not be a state fund and shall at all times be kept segregated and set apart from all other funds and in trust for the purposes herein set out. Such proceeds shall be paid out or disbursed solely for the construction of such toll bridge or toll bridges, the acquisition of the necessary lands and easements therefor and the payment of interest on such bonds during the period of actual construction and for a period of six months thereafter, only as the need therefor shall arise. The department may agree with the purchaser of the bonds upon any conditions or limitations restricting the disbursement of such funds that may be deemed advisable, for the purpose of assuring the proper application of such funds. All moneys in such fund and not required to meet current construction costs of the toll bridge or toll bridges for which such bonds were issued and sold, and all funds constituting surplus revenues that are not immediately needed for the particular object or purpose to which they must be applied or are pledged shall be invested in

bonds and obligations of the nature eligible for investment of surplus state moneys: PROVIDED, That the department may provide in the proceedings authorizing the issuance of these bonds that the investment of such moneys shall be made only in particular bonds and obligations within the classifications eligible for such investment, and such provisions shall thereupon be binding upon the department and all officials having anything to do with the investment. Any surplus which may exist in the construction fund shall be applied to the retirement of bonds issued for the construction of such toll bridge or toll bridges by purchase or call. If these bonds cannot be purchased at a price satisfactory to the department and are not by their terms callable prior to maturity, the surplus shall be paid into the fund applicable to the payment of principal and interest of the bonds and shall be used for that purpose. The proceedings authorizing the issuance of bonds may provide limitations and conditions upon the time and manner of applying the surplus to the purchase and call of outstanding bonds and the terms upon which they shall be purchased or called. Such limitations and conditions shall be followed and observed in the application and use of the surplus. All bonds so retired by purchase or call shall be immediately canceled.

RCW 47.56.160 Toll bridges--Toll revenue fund.

All tolls or other revenues received from the operation of any toll bridge or toll bridges constructed with the proceeds of bonds issued and sold hereunder shall be paid over by the department to the state treasurer. The treasurer shall deposit them forthwith as demand deposits in a depository or depositories authorized by law to receive deposits of state funds. The deposit shall be made to the credit of a special trust fund designated as the toll revenue fund of the particular toll bridge or toll bridges producing the tolls or revenue, which fund shall be a trust fund and shall at all times be kept segregated and set apart from all other funds.

RCW 47.56.170 Toll bridges--Transfer of funds for bond payments--Surplus funds.

From the money deposited in each separate construction fund under RCW 47.56.160, the state treasurer shall transfer to the place or places of payment named in the bonds such sums as may be required to pay the interest as it becomes due on all bonds sold and outstanding for the construction of a particular toll bridge or toll bridges during the period of actual construction and during the period of six months immediately thereafter. The state treasurer shall thereafter transfer from each separate toll revenue fund to the place or places of payment named in the bonds such sums as may be required to pay the interest on the bonds and redeem the principal

thereof as the interest payments and bond redemption become due for all bonds issued and sold for the construction of the particular toll bridge or toll bridges producing the tolls or revenues so deposited in the toll revenue fund. All funds so transferred for the payment of principal or interest on bonds issued for any particular toll bridge shall be segregated and applied solely for the payment of that principal or interest. The proceedings authorizing the issuance of bonds may provide for setting up a reserve fund or funds out of the tolls and other revenues not needed for the payment of principal and interest, as the same currently matures and for the preservation and continuance of the fund in a manner to be provided therein. The proceedings may also require the immediate application of all surplus moneys in the toll revenue fund to the retirement of the bonds prior to maturity, by call or purchase, in such manner and upon such terms and the payment of such premiums as may be deemed advisable in the judgment of the department.

The moneys remaining in each separate toll revenue fund after providing the amount required for interest and redemption of bonds as provided in this section shall be held and applied as provided in the proceedings authorizing the issuance of the bonds. If the proceedings authorizing the issuance of the bonds do not require surplus revenues to be held or applied in any particular manner, they shall be allocated and used for such other purposes incidental to the construction, operation, and maintenance of the toll bridge or bridges as the department may determine.

All interest received or earned on money deposited in each and every fund provided for in this chapter shall be credited to and become a part of the particular fund upon which the interest accrues.

RCW 47.56.230 Toll bridges--Insurance or indemnity bonds authorized.

When any toll bridge or bridges authorized under this chapter is being built by the department, the department may carry or cause to be carried an amount of insurance or indemnity bond or bonds as protection against loss or damage as the department may deem proper. The department is hereby further empowered to carry such an amount of insurance to cover any accident or destruction in part or in whole to any toll bridge or toll bridges until all

bonds sold for the construction of the toll bridge or toll bridges and interest accrued thereon have been fully redeemed and paid. All moneys collected on any indemnity bond or insurance policy as the result of any damage or injury to the toll bridge or toll bridges shall be used for the purpose of repairing or rebuilding the toll bridge or toll bridges as long as there are revenue bonds against any such structure outstanding and unredeemed. The department is also empowered to carry insurance or indemnity bonds insuring against the loss of tolls or other revenues to be derived from any such toll bridge or bridges by reason of any interruption in the use of the toll bridge or toll bridges from any cause whatever, and the proceeds of the insurance or indemnity bonds shall be paid into the fund into which the tolls and other revenues of the bridge thus insured are required to be paid and shall be applied to the same purposes and in the same manner as other moneys in the fund. The insurance or indemnity bonds may be in an amount equal to the probable tolls and other revenues to be received from the operation of the toll bridge or toll bridges during any period of time that may be determined by the department and fixed in its discretion, and be paid for out of the toll revenue fund as may be specified in the proceedings. The department may provide in the proceedings authorizing the issuance of bonds for the carrying of insurance as authorized by this chapter, and the purchase and carrying of insurance as authorized by this chapter, and the purchase and carrying of such insurance shall thereupon be obligatory upon the department and be paid for out of the toll revenue fund as may be specified in the proceedings.

RCW 47.56.240 Toll bridges--Fixing of toll rates authorized--Lien of bonds on revenue.

The commission is hereby empowered to fix the rates of toll and other charges for all toll bridges built under the terms of this chapter. Toll charges so fixed may be changed from time to time as conditions warrant. The commission, in establishing toll charges, shall give due consideration to the cost of operating and maintaining such toll bridge or toll bridges including the cost of insurance, and to the amount required annually to meet the redemption of bonds and interest payments on them. The tolls and charges shall be at all times fixed at rates to yield annual revenue equal to annual operating and maintenance expenses including insurance costs and all redemption payments and interest charges of the bonds issued for any particular toll bridge or toll bridges as the bonds become due. The bond redemption and interest payments constitute a first direct and exclusive charge and lien on all such tolls and other revenues and interest thereon. Sinking funds created therefrom received from the use and operation of the toll bridge or toll bridges, and such tolls and revenues together with the interest earned thereon shall constitute a trust fund for the security and payment of such bonds and shall not be used or pledged for any other purpose as long as any of these bonds are outstanding and unpaid.

Said revenue bonds shall constitute obligations only of the Washington toll bridge authority and shall be payable both principal and interest from the tolls and revenues derived from the operation of said toll facility as hereinbefore constituted and from any other moneys or funds available therefor. Said bonds shall not constitute an indebtedness of the state of Washington and shall contain a recital on the face thereof to that effect, and shall be negotiable instruments under the law merchant. RCW 47.56.720 Puget Island-Westport ferry--Payments for operation and maintenance to Wahkiakum county--Toll-free operation and provision of rest room facilities, when.

(1) The legislature finds that the ferry operated by Wahkiakum county between Puget Island and Westport on the Columbia river provides service which is primarily local in nature with secondary benefits to the state highway system in providing a bypass for state route 4 and providing the only crossing of the Columbia river between the Astoria-Megler bridge and the Longview bridge.

(2) The department is hereby authorized to enter into a continuing agreement with Wahkiakum county pursuant to which the department shall pay to Wahkiakum county from moneys appropriated for such purpose monthly amounts not to exceed eighty percent of the operating and maintenance deficit with a maximum not to exceed the amount appropriated for that biennium to be used in the operation and maintenance of the Puget Island ferry, commencing July 1, 1992.

(3) The annual deficit, if any, incurred in the operation and maintenance of the ferry shall be determined by Wahkiakum county subject to the approval of the department. If eighty percent of the deficit for the preceding fiscal year exceeds the total amount paid to the county for that year, the additional amount shall be paid to the county by the department upon the receipt of a properly executed voucher. The total of all payments to the county in any biennium shall not exceed the amount appropriated for that biennium. The fares established by the county shall be comparable to those used for similar runs on the state ferry system.

(4) Whenever, subsequent to June 9, 1977, state route 4 between Cathlamet and Longview is closed to traffic pursuant to chapter 47.48 RCW due to actual or potential slide conditions and there is no suitable, reasonably short alternate state route provided, Wahkiakum

county is authorized to operate the Puget Island ferry on a toll-free basis during the entire period of such closure. The state's share of the ferry operations and maintenance deficit during such period shall be one hundred percent.

(5) Whenever state route 4 between Cathlamet and Longview is closed to traffic, as mentioned in subsection (4) hereof, the state of Washington shall provide temporary rest room facilities at the Washington ferry landing terminal.

(2) The department is authorized to include in each agreement a provision for the distribution of funds to each county to reimburse the county for fifty percent of the deficit incurred during each previous fiscal year in the operation and maintenance of the ferry system owned and operated by the county. The total amount to be reimbursed to Pierce, Skagit, and Whatcom counties collectively shall not exceed one million dollars in any biennium. Each county agreement shall contain a requirement that the county shall maintain tolls on its ferries at least equal to tolls in place on January 1, 1990.

(3) The annual fiscal year operating and maintenance deficit, if any, shall be determined by Pierce, Skagit, and Whatcom counties subject to review and approval of the department. The annual fiscal year operating and maintenance deficit is defined as the total of operations and maintenance expenditures less the sum of ferry toll revenues and that portion of fuel tax revenue distributions which are attributable to the county ferry as determined by the department. Distribution of the amounts authorized by subsection (2) of this section by the state treasurer shall be directed by the department upon the receipt of properly executed vouchers from each county.

(4) The county road administration board may evaluate requests by Pierce, Skagit, Wahkiakum, and Whatcom counties for county ferry capital improvement funds. The board shall evaluate the requests and, if approved by a majority of the board, submit the requests to the legislature for funding out of the amounts available under RCW 46.68.090(1)(j). RCW 47.56.750 Columbia river bridge at Horn Rapids--Bonds--Account created in highway bond retirement fund--Deposit of revenue--Pledge of excise taxes--Repayment procedure--Legislative covenant.

There is hereby created in the highway bond retirement fund in the state treasury a special account to be known as the Columbia river toll bridge account into which shall be deposited any capitalized interest from the proceeds of the bonds, and at least monthly all of the tolls and other revenues received from the operation of the toll bridge and from any interest which may be earned from the deposit or investment of these revenues after the payment of costs of operation, maintenance, management, and necessary repairs of the facility. The principal of and interest on the bonds shall be paid first from money deposited in the Columbia river toll bridge account in the highway bond retirement fund, and then, to the extent that money deposited in that account is insufficient to make any such payment when due, from the state excise taxes on motor vehicle and special fuels deposited in the highway bond retirement fund. There is hereby pledged the proceeds of state excise taxes on motor vehicle and special fuels imposed under chapters 82.36 and 82.38 RCW to pay the bonds and interest thereon, and the legislature hereby agrees to continue to impose the same excise taxes on motor vehicle and special fuels in amounts sufficient to pay, when due, the principal and interest on the bonds if the money deposited in the Columbia river toll bridge account of the highway bond retirement fund is insufficient to make such payments. Not less than fifteen days prior to the date any interest or principal and interest payments are due, the state finance committee shall certify to the state treasurer such amount of additional moneys as may be required for debt service, and the

treasurer shall thereupon transfer from the motor vehicle fund such amount from the proceeds of such excise taxes into the highway bond retirement fund. Any proceeds of such excise taxes required for these purposes shall first be taken from that portion of the motor vehicle fund which results from the imposition of the excise taxes on motor vehicle and special fuels and which is distributed to the state. If the proceeds from the excise taxes distributed to the state are ever insufficient to meet the required payments on principal or interest on the bonds when due, the amount required to make the payments on the principal or interest shall next be taken from that portion of the motor vehicle fund which results from the imposition of excise taxes on motor vehicle and special fuels and which is distributed to the state, counties, cities, and towns pursuant to RCW 46.68.090. Any payments of the principal or interest taken from the motor vehicle or special fuel tax revenues which are distributable to the counties, cities, and towns shall be repaid from the first moneys distributed to the state not required for redemption of the bonds or interest thereon. The legislature covenants and pledges that it shall at all times provide sufficient revenues from the imposition of such excise taxes to pay the principal and interest due on the bonds.

RCW 47.56.770 Refunding bonds--Authorized.

The state finance committee is authorized to issue refunding bonds and use other available money to refund, defease, and redeem all of those toll bridge authority, ferry, and Hood Canal bridge refunding revenue bonds under RCW 47.56.771 through 47.56.774.

[1993 c 4 § 2.]

Notes:

Legislative declaration--1993 c 4: "It is declared that it is in the best interest of the state to modify the debt service and reserve requirements, sources of payment, covenants, and other terms of the outstanding toll bridge authority, ferry, and Hood Canal bridge refunding revenue bonds." [1993 c 4 § 1.]

Effective date--1993 c 4: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately [March 12, 1993]." [1993 c 4 § 11.]

RCW 47.56.771 Refunding bonds--General obligation--Signatures, negotiability--Payment of principal and interest--Pledge of excise taxes.

(1) The refunding bonds authorized under RCW 47.56.770 shall be general obligation bonds of the state of Washington and shall be issued in a total principal amount not to exceed fifteen million dollars. The exact amount of refunding bonds to be issued shall be determined by the state finance committee after calculating the amount of money deposited with the trustee for the bonds to be refunded which can be used to redeem or defease outstanding toll bridge authority, ferry, and Hood Canal bridge revenue bonds after the setting aside of sufficient money from that fund to pay the first interest installment on the refunding bonds. The refunding bonds shall be serial in form maturing at such time, in such amounts, having such denomination or denominations, redemption privileges, and having such terms and conditions as determined by the state finance committee. The last maturity date of the refunding bonds shall not be later than January 1, 2002.

(2) The refunding bonds shall be signed by the governor and the state treasurer under the seal of the state, which signatures shall be made manually or in printed facsimile. The bonds shall be registered in the name of the owner in accordance with chapter 39.46 RCW. The refunding bonds shall distinctly state that they are a general obligation of the state of Washington, shall pledge the full faith and credit of the state, and shall contain an unconditional promise to pay the principal thereof and the interest thereon when due. The refunding bonds shall be fully negotiable instruments.

(3) The principal and interest on the refunding bonds shall be first payable in the manner

provided in this section from the proceeds of state excise taxes on motor vehicle and special fuels imposed by chapters 82.36 and 82.38 RCW.

(4) The principal of and interest on the refunding bonds shall be paid first from the state excise taxes on motor vehicle and special fuels deposited in the ferry bond retirement fund. There is hereby pledged the proceeds of state excise taxes on motor vehicle and special fuels imposed under chapters 82.36 and 82.38 RCW to pay the refunding bonds and interest thereon, and the legislature hereby agrees to continue to impose the same excise taxes on motor vehicle and special fuels in amounts sufficient to pay, when due, the principal and interest on the refunding bonds. Not less than fifteen days prior to the date any interest or principal and interest payments are due, the state finance committee shall certify to the state treasurer such amount of additional money as may be required for debt service, and the treasurer shall thereupon transfer from the motor vehicle fund such amount from the proceeds of such excise taxes into the ferry bond retirement fund. Any proceeds of such excise taxes required for these purposes shall first be taken from that portion of the motor vehicle fund which results from the imposition of the excise taxes on motor vehicle and special fuels and which is distributed to the Puget Sound capital construction account. If the proceeds from excise taxes distributed to the state are ever insufficient to meet the required payments on principal or interest on the refunding bonds when due, the amount required to make the payments on the principal or interest shall next be taken from that portion of the motor vehicle fund which results from the imposition of excise taxes on motor vehicle and special fuels and which is distributed to the state, counties, cities, and towns pursuant to RCW 46.68.090. Any payments of the principal or interest taken from the motor vehicle or special fuel tax revenues which are distributable to the counties, cities, and towns shall be repaid from the first money distributed to the state not required for redemption of the refunding bonds or interest thereon. The legislature covenants that it shall at all times provide sufficient revenues from the imposition of such excise taxes to pay the principal and interest due on the refunding bonds.

RCW 47.58.010 Improvement of existing bridge and construction of new bridge as single project--Agreement--Tolls.

Whenever the legislature specifically authorizes, as a single project, the construction of an additional toll bridge, including approaches, and the reconstruction of an existing adjacent bridge, including approaches, and the imposition of tolls on both bridges, the department is authorized to enter into appropriate agreements whereunder the existing bridge or its approaches will be reconstructed and improved and an additional bridge, including approaches and connecting highways will be constructed as a part of the same project to be located adjacent to or within two miles of the existing bridge and will be financed through the issuance of revenue bonds of the same series. The department has the right to impose tolls for traffic over the existing bridge as well as the additional bridge for the purpose of paying the cost of operation and maintenance of the bridge or bridges and the interest on and creating a sinking fund for retirement of revenue bonds issued for account of such project, all in the manner permitted and provided by this chapter.

Notes:

Severability--1984 c 7: See note following RCW 47.01.141.

RCW 47.58.020 Examinations and surveys--Preliminary expenses--Financing.

For the purpose of obtaining information as to the necessity of the reconstruction or improvement of any such bridge and the expediency of constructing any such additional bridge it is the duty of the department to make any examination, investigation, survey, or reconnaissance pertaining thereto. The cost of any such examination, investigation, survey, or reconnaissance, and all preliminary expenses in the issuance of any revenue bonds, making surveys and appraisals and drafting, printing, issuance, and sale of bonds under this chapter, shall be advanced by any interested municipality, agency, or department of the state of Washington. All such advancements shall be reimbursed out of any proceeds derived from the sale of bonds or out of tolls and revenues to be derived by the department through its operations hereunder for account of the project, as may be agreed upon between the department and the municipality, agency, or department.

RCW 47.58.030 Construction, operation of bridges--Collection of tolls--Schedule of charges.

The secretary shall have full charge of the construction of all such improvements and reconstruction work and the construction of any additional bridge, including approaches and connecting highways, that may be authorized under this chapter and the operation of such bridge or bridges, as well as the collection of tolls and other charges for services and facilities thereby afforded. The schedule of charges for the services and facilities shall be fixed and revised from time to time by the commission so that the tolls and revenues collected will yield annual revenue and income sufficient, after payment or allowance for all operating, maintenance, and repair expenses, to pay the interest on all revenue bonds outstanding under the provisions of this chapter for account of the project and to create a sinking fund for the retirement of the revenue bonds at or prior to maturity. The charges shall be continued until all such bonds and interest thereon and unpaid advancements, if any, have been paid.

RCW 47.58.040 Revenue bonds--Form--Sale--Interim bonds--Deposit of proceeds.

For the purpose of paying the cost of all or any part of the improvement and reconstruction work and the construction of any additional bridge, approaches thereto, and connecting highways, the department is hereby authorized by resolution to issue its revenue bonds which shall constitute obligations only of the department and shall be payable from any funds available except revenue from the general fund, including but not limited to the revenues and income from the operation of the bridge or bridges constituting the project as may be provided in and by such resolution. Each such revenue bond shall contain a recital that payment or redemption of the bond and payment of the interest thereon is secured by a direct charge and lien upon the tolls and revenues pledged for that purpose and that such bond does not constitute an indebtedness of the state of Washington. Such revenue bonds may bear such date or dates, may mature at such time or times as the department shall determine, may bear interest at such rate or rates, may be in such denomination or denominations, may be in such form, either coupon or registered, may carry such registration and conversion privileges, may be made subject to such terms of redemption with or without premium, and may contain such other terms and covenants not inconsistent with this chapter as may be provided in such resolution. Notwithstanding the form or tenor of the bond, and in the absence of an express recital on its face that the bond is nonnegotiable, each such revenue bond shall at all times be and shall be treated as a negotiable instrument for all purposes. All such bonds shall be signed by the state

treasurer and countersigned by the governor, and any interest coupons appertaining thereto shall bear the signature of the state treasurer. The countersignature of the governor on the bonds and the signature of the state treasurer on the coupons may be their printed or lithographed facsimile signatures. Pending the issuance of definitive bonds, temporary or interim bonds, certificates, or receipts of any denomination and with or without coupons attached may be issued as may be provided by the resolution. All bonds issued under or by authority of this chapter shall be sold to the highest and best bidder at such price or prices, at such rate or rates of interest, and after such advertising for bids as the department may deem proper, but it may reject any and all bids so submitted and thereafter sell the bonds so advertised under such terms and conditions as it deems advantageous. The purchase price of all bonds issued hereunder shall be paid to the state treasurer consistent with the provisions of the resolution pursuant to which the bonds have been issued or to the trustee designated in the bond resolution and held as a separate trust fund to be disbursed on the orders of the department.

The system of ferries shall include such boats, vessels, wharves, docks, approaches, landings, franchises, licenses, and appurtenances as shall be determined by the department to be necessary or desirable for efficient operation of the ferry system and best serve the public. The department may in like manner acquire by purchase, condemnation, or construction and include in the ferry system such toll bridges, approaches, and connecting roadways as may be deemed by the department advantageous in channeling traffic to points served by the ferry system. In addition to the powers of acquisition granted by this section, the department is empowered to enter into any contracts, agreements, or leases with any person, firm, or corporation and to thereby provide, on such terms and conditions as it shall determine, for the operation of any ferry or ferries or system thereof, whether acquired by the department or not.

The governor is authorized to take such actions as may be necessary to insure the continued operation of the Puget Sound ferry and toll bridge system under any emergency circumstances which threaten the continued operation of the system. In the event of such an emergency, the governor may assume all the powers granted by law to the transportation commission and department of transportation with respect to the ferry system. In addition, notwithstanding the provisions of chapters 47.60 and 47.64 RCW, the governor may contract with any qualified persons for the operation of the Washington state ferry system, or any part thereof, or for ferry service to be provided by privately owned vessels. Administrative costs to the office of the governor incurred in the exercise of this authority shall be reimbursed by the department.

RCW 47.60.020 Eminent domain--Condemnation proceedings.

For the purpose of carrying out any or all of the powers granted in this chapter, the department has the power of eminent domain for the acquisition of either real or personal property, used or useful for the Puget Sound ferry system. Condemnation pursuant to this chapter shall be the procedure set out in chapter 8.04 RCW. The department may institute condemnation proceedings in the superior court of any county or other court of competent jurisdiction in which any of the property sought to be condemned is located or in which the owner of any thereof does business, and the court in any such action has jurisdiction to condemn property wherever located

within the state. It shall not be necessary to allege or prove any offer to purchase or inability to agree with the owners thereof for the purchase of any such property in the proceedings. It is the intention of this section to permit the consolidation in one action of all condemnation proceedings necessary to acquire a ferry system and every type of property incident thereto, irrespective of its location within the state or diversity of ownership. Upon the filing of a petition for condemnation as provided in this section, the court may issue an order restraining the removal from the jurisdiction of the state of any personal property sought to be acquired by the proceeding during the pendency thereof. The court further has the power to issue such orders or process as are necessary to place the department into possession of any property condemned.

All such bonds shall be signed by the state treasurer and countersigned by the governor, and any interest coupons appertaining thereto shall bear the signature of the state treasurer. The countersignature

RCW 47.60.135 Charter of state ferries for transporting hazardous materials.

(1) The charter use of Washington State Ferry vessels when established route operations and normal user requirements are not disrupted is permissible.

(2) Consistent with the policy as established in subsection (1) of this section, the general manager of the Washington State Ferries may approve agreements for the chartering of Washington State Ferry vessels to groups or individuals, including hazardous material transporters, in accordance with the following:

(a) Vessels may be committed to charter only when established route operation and normal user requirements are not disrupted or inconvenienced. If a vessel is engaged in the transport of hazardous materials, the transporter shall pay for all legs necessary to complete the charter, even if the vessel is simultaneously engaged in an operational voyage on behalf of Washington State Ferries.

(b) Charter rates for vessels must be established at actual vessel operating costs plus fifty percent of such actual costs rounded to the nearest fifty dollars. Actual vessel operating costs include, but are not limited to, all labor, fuel, and vessel maintenance costs incurred due to the charter agreement, including deadheading and standby.

(c) Recognizing the need for stabilized charter rates in order to encourage use of vessels, rates must be established and revised July 1st of each year and must remain fixed for a one-year period unless actual vessel operating costs increase five percent or more within that year, in which case the charter rates must be revised in accordance with (b) of this subsection.

(d) All charter agreements must be in writing and substantially in the form of (e) of this subsection and available, with calculations, for inspection by the legislature and the public.

(e) Parties chartering Washington State Ferry vessels shall comply with all applicable laws, rules, and regulations during the charter voyage, and failure to so comply is cause for immediate termination of the charter voyage.

"CHARTER CRUISE AGREEMENT

On this day of,, Washington State Ferries (WSF) and, hereinafter called Lessee, enter into this agreement for rental of a ferry vessel for the purpose of a charter voyage to be held on, the parties agree as follows:

1. WSF agrees to supply the vessel (subject to change) for the use of the Lessee from the period from to on (date).

2. The maximum number of passengers; or in the case of hazardous materials transports, trucks and trailers; that will be accommodated on the assigned vessel is This number MAY NOT be exceeded.

3. The voyage will originate at, and the route of travel during the voyage will be as follows:

.....

4. The charge for the above voyage is dollars (\$. . .) plus a property damage deposit of \$350 for a total price of \$. . ., to be paid by cashier's check three working days before the date of the voyage at the offices of the WSF at Seattle Ferry Terminal, Pier 52, Seattle, Washington 98104. The Lessee remains responsible for property damage in excess of \$350.

5. WSF is responsible only for the navigational operation of the chartered ferry and in no way is responsible for directing voyage activities, providing equipment, or any food service.

6. Other than for hazardous materials transport, the voyage activities must be conducted exclusively on the passenger decks of the assigned ferry. Voyage patrons will not be permitted to enter the pilot house or the engine room, nor shall the vehicle decks be used for any purpose other than loading or unloading of voyage patrons or hazardous materials.

7. If the Lessee or any of the voyage patrons will possess or consume alcoholic beverages

aboard the vessel, the Lessee must obtain the appropriate licenses or permits from the Washington State Liquor Control Board. The Lessee must furnish copies of any necessary licenses or permits to WSF at the same time payment for the voyage is made. Failure to comply with applicable laws, rules, and regulations of appropriate State and Federal agencies is cause for immediate termination of the voyage, and WSF shall retain all payments made as liquidated damages.

8. WSF is not obligated to provide shoreside parking for the vehicles belonging to voyage patrons.

9. The Lessee recognizes that the primary function of the WSF is for the cross-Sound transportation of the public and the maintaining of the existing schedule. The Lessee recognizes therefore the right of WSF to cancel a voyage commitment without liability to the Lessee due to unforeseen circumstances or events that require the use of the chartered vessel on its scheduled route operations. In the event of such a cancellation, WSF agrees to refund the entire amount of the charter fee to the Lessee.

10. The Lessee agrees to hold WSF harmless from, and shall process and defend at its own expense, all claims, demands, or suits at law or equity, of whatever nature brought against WSF arising in whole or in part from the performance of provisions of this agreement. This indemnity provision does not require the Lessee to defend or indemnify WSF against any action based solely on the alleged negligence of WSF.

Any lease entered into as provided for in this subsection that involves state aquatic lands shall conform with the Washington state Constitution and applicable statutory requirements as determined by the department of natural resources. That portion of the lease rate attributable to the state aquatic lands shall be distributed in the same manner as other lease revenues derived from state aquatic lands as provided in RCW 79.24.580.

(2) When the department of transportation determines that an historic ferry is surplus to the needs of Washington state ferries, the department shall call for proposals from persons who wish to acquire the historic ferry. Proposals for the acquisition of an historic ferry shall be accepted only from persons or organizations that (a) are a governmental entity or a nonprofit corporation or association dedicated to the preservation of historic properties; (b) agree to a contract approved by the state historic preservation officer, which requires the preservation and maintenance of the historic ferry and provides that title to the ferry reverts to the state if the secretary of transportation determines that the contract has been violated; and (c) demonstrate the administrative and financial ability successfully to comply with the contract.

(3) The department shall evaluate the qualifying proposals and shall select the proposal which is most advantageous to the state. Factors to be considered in making the selection shall

include but not be limited to:

- (a) Extent and quality of restoration;
- (b) Retention of original design and use;
- (c) Public access to the vessel;
- (d) Provisions for historical interpretation;
- (e) Monetary return to the state.

Subject to the provisions of RCW 47.60.326, the schedule of charges for the services and facilities of the system shall be fixed and revised from time to time by the commission so that the tolls and other revenues deposited in the Puget Sound ferry operations account for maintenance and operation, and all moneys in the Puget Sound capital construction account available for debt service will yield annual revenue and income sufficient, after allowance for all operating, maintenance, and repair expenses to pay the interest and principal and sinking fund charges for all outstanding revenue bonds, and to create and maintain a fund for ordinary renewals and replacements: PROVIDED, That if provision is made by any resolution for the issuance of revenue bonds for the creation and maintenance of a special fund for rehabilitating, rebuilding, enlarging, or improving all or any part of the ferry system then such schedule of tolls and rates of charges shall be fixed and revised so that the revenue and income will also be sufficient to comply with such provision.

All income and revenues as collected shall be paid to the state treasurer for the account of the department and deposited into the Puget Sound ferry operations account. Nothing in this section requires tolls on the Hood Canal bridge except as may be required by any bond covenants.

In order that local representation may be established, the department shall give prior notice of the review to the ferry advisory committees.

(2) The legislative authorities of San Juan, Skagit, Clallam, and Jefferson counties shall

each appoint a committee to consist of five members to serve as an advisory committee to the department or its designated representative in such review. The legislative authorities of other counties that contain ferry terminals shall appoint ferry advisory committees consisting of three members for each terminal area in each county, except for Vashon Island, which shall have one committee, and its members shall be appointed by the Vashon/Maury Island community council. At least one person appointed to each ferry advisory committee shall be representative of an established ferry user group or of frequent users of the ferry system. Each member shall reside in the vicinity of the terminal that the advisory committee represents.

(3) The members of the San Juan, Clallam, and Jefferson county ferry advisory committees shall be appointed for four-year terms. The initial terms shall commence on July 1, 1982, and end on June 30, 1986. Any vacancy shall be filled for the remainder of the unexpired term by the appointing authority. At least one person appointed to the advisory committee shall be representative of an established ferry-user group or of frequent users of the ferry system, at least one shall be representative of persons or firms using or depending upon the ferry system for commerce, and one member shall be representative of a local government planning body or its staff. Every member shall be a resident of the county upon whose advisory committee he or she sits, and not more than three members shall at the time of their appointment be members of the same major political party.

(4) The members of each terminal area committee shall be appointed for four-year terms. Any vacancy shall be filled for the remainder of the unexpired term by the appointing authority. Not more than two members of any terminal-area committee may be from the same political party at the time of their appointment, and in a county having more than one committee, the overall party representation shall be as nearly equal as possible.

RCW 47.60.326 Schedule of charges for state ferries--Review by department, factors considered--Rule making by commission.

(1) In order to maintain an adequate, fair, and economically sound schedule of charges for the transportation of passengers, vehicles, and commodities on the Washington state ferries, the department of transportation each year shall conduct a full review of such charges.

(2) Prior to February 1st of each odd-numbered year the department shall transmit to the transportation commission a report of its review together with its recommendations for the revision of a schedule of charges for the ensuing biennium. The commission on or before July 1st of that year shall adopt as a rule, in the manner provided by the Washington administrative procedure act, a schedule of charges for the Washington state ferries for the ensuing biennium commencing July 1st. The schedule may initially be adopted as an emergency rule if necessary to take effect on, or as near as possible to, July 1st.

(3) The department in making its review and formulating recommendations and the commission in adopting a schedule of charges may consider any of the following factors:

- (a) The amount of subsidy available to the ferry system for maintenance and operation;
- (b) The time and distance of ferry runs;
- (c) The maintenance and operation costs for ferry runs with a proper adjustment for higher costs of operating outmoded or less efficient equipment;
- (d) The efficient distribution of traffic between cross-sound routes;
- (e) The desirability of reasonable commutation rates for persons using the ferry system to commute daily to work;
- (f) The effect of proposed fares in increasing walk-on and vehicular passenger use;
- (g) The effect of proposed fares in promoting all types of ferry use during nonpeak periods;
- (h) Such other factors as prudent managers of a major ferry system would consider.

(4) If at any time during the biennium it appears that projected revenues from the Puget Sound ferry operations account and any other operating subsidy available to the Washington state ferries will be less than the projected total cost of maintenance and operation of the Washington state ferries for the biennium, the department shall forthwith undertake a review of its schedule of charges to ascertain whether or not the schedule of charges should be revised. The department shall, upon completion of its review report, submit its recommendation to the transportation commission which may in its sound discretion revise the schedule of charges as required to meet necessary maintenance and operation expenditures of the ferry system for the biennium or may defer action until the regular annual review and revision of ferry charges as provided in subsection (2) of this section.

(5) The provisions of RCW 47.60.330 relating to public participation shall apply to the process of revising ferry tolls under this section.

(6) Under RCW 43.135.055, the transportation commission may increase ferry tolls included in the schedule of charges adopted under this section by a percentage that exceeds the fiscal growth factor.

RCW 47.60.330 Public participation.

(1) Before a substantial expansion or curtailment in the level of service provided to ferry users, or a revision in the schedule of ferry tolls or charges, the department of transportation shall consult with affected ferry users. The consultation shall be: (a) By public hearing in affected local communities; (b) by review with the affected ferry advisory committees pursuant to RCW 47.60.310; (c) by conducting a survey of affected ferry users; or (d) by any combination of (a) through (c).

(2) There is created a ferry system productivity council consisting of a representative of each ferry advisory committee empanelled under RCW 47.60.310, elected by the members thereof, and two representatives of employees of the ferry system appointed by mutual agreement of all of the unions representing ferry employees, which shall meet from time to time with ferry system management to discuss means of improving ferry system productivity.

(3) Before increasing ferry tolls the department of transportation shall consider all possible cost reductions with full public participation as provided in subsection (1) of this section and, consistent with public policy, shall consider adapting service levels equitably on a route-by-route basis to reflect trends in and forecasts of traffic usage. Forecasts of traffic levels shall be developed by the bond covenant traffic engineering firm appointed under the provisions of RCW 47.60.450. Provisions of this section shall not alter obligations under RCW 47.60.450. RCW 47.60.500 Acquisition of additional ferries--Legislative finding--Department authority.

(1) The legislature finds that the state's ferry fleet available for mass transportation of people within the urban region of Puget Sound is critically deficient and that substantial financial assistance for the acquisition of new ferries is necessary if the Washington state ferries is to continue to fulfill its role in the Puget Sound regional urban transportation system.

(2) The department is authorized:

(a) To apply to the United States secretary of transportation for a financial grant to assist the state to acquire urgently needed ferries;

(b) To enter into an agreement with the United States secretary of transportation or other duly authorized federal officials and to assent to such conditions as may be necessary to obtain financial assistance for the acquisition of additional ferries. In connection with the agreement the department may pledge any moneys in the Puget Sound capital construction account, not required for debt service, in the motor vehicle fund or any moneys to be deposited in the account for the purpose of paying the state's share of the cost of acquiring ferries. To the extent of the pledge the department shall use the moneys available in the Puget Sound capital construction account to meet the obligations as they arise.

RCW 47.60.502 Hood Canal bridge--Legislative finding--Authority to restore or replace.

The legislature finds that high tides and hurricane force winds on February 13, 1979, caused conditions resulting in the catastrophic destruction of the Hood Canal bridge on state route 104, a state highway on the federal-aid system; and, as a consequence, the state of Washington has sustained a sudden and complete failure of a major segment of highway system with a disastrous impact on transportation services between the counties of Washington's Olympic peninsula and the remainder of the state. The governor has by proclamation found that these conditions constitute an emergency. To minimize the economic loss and hardship to residents of the Puget Sound and Olympic peninsula regions, the department of transportation is authorized and directed to undertake immediately all necessary actions to restore interim transportation services across Hood Canal and Puget Sound and upon the Kitsap and Olympic peninsulas. The department is further authorized and directed to proceed immediately with all necessary measures to survey the damage to the Hood Canal bridge and to undertake the planning, design, and construction necessary to restore or replace the Hood Canal bridge.

RCW 47.60.649 Passenger-only ferry service--Finding.

The legislature finds and declares that there is a compelling need for the construction of additional state ferry vessels and corresponding terminal improvements in order to provide more capacity and frequent service to meet the forecasted travel demands of citizens traveling on Puget Sound ferry routes. The vessel technology required must provide additional travel options for high growth ferry routes through increased passenger-only ferry service.

The 1989 west corridor study evaluated cross-sound travel through the year 2020 and identified the Southworth to Seattle and the Kingston to Seattle passenger-only ferry routes as promising based on criteria evaluating cost-effectiveness, time savings, physical constraints to operation, nonduplication of current service, and ability to relieve congestion.

Furthermore, as a result of legislative direction provided in the 1991-93 transportation budget to the state transportation commission to evaluate and determine the location of new passenger-only ferry routes, the commission reviewed several service alternatives, determined that the Southworth to Seattle and Kingston to Seattle routes ranked highest, and directed the Washington state ferries to proceed with the design and permitting processes for passenger-only terminals at both Southworth and Kingston.

[1998 c 166 § 1.]

RCW 47.60.652 Passenger-only ferry service--Vessel and terminal acquisition, procurement, and construction.

The department is authorized to proceed with the acquisition, procurement, and construction of a maximum of four passenger-only vessels that respond to the service demands of state ferry service on the Southworth to Seattle and Kingston to Seattle ferry routes, including the terminal and docking facilities necessary to accommodate such service. The acquisition, procurement, and construction of vessels and terminals authorized herein shall be undertaken in accordance with the authority provided in RCW 47.56.030.

Upon receipt of an application by a contractor for prequalification to perform ferry system construction and repair contracts, the department shall conduct such additional investigation as it deems necessary. If it finds that the applicant is qualified in accordance with the rules as adopted by the secretary, the department shall prequalify the contractor to perform the contracts for a period of one year. The prequalification shall fix the aggregate dollar amount of work, including any contract let by the department, that the contractor may have under contract and uncompleted at any one time and may limit the contractor to the submission of bids or proposals upon a certain class of work. Subject to any restrictions on the dollar amount or class of work specified thereunder, the prequalification shall authorize a contractor to bid or submit proposals on all ferry system construction and repair contracts mentioned in RCW 47.60.680 except contracts requiring special prequalification. If the department determines that an applicant is not entitled to prequalification, it shall give written notice of the determination to the applicant.

[1983 c 133 § 5.]

RCW 47.60.730 Renewal of prequalification--Nonrenewal or revocation, notice.

A contractor may apply annually for renewal of its prequalification by submission of a new or supplemental questionnaire and financial statement on standard forms provided by the department. Based upon information received at the time of renewal or at any other time the department may amend the prequalification of the contractor as to the dollar amount or class of work that the contractor may perform or may refuse to renew the prequalification or may revoke a prequalification previously approved, all in accordance with the same standards and criteria used for considering an original application for prequalification. The department shall give

written notice of any such action to the contractor.

[1983 c 133 § 6.]

RCW 47.60.740 Rejection of bid despite prequalification--Unqualified bidder.

If the department finds, after the opening of bids, that facts exist that would disqualify the lowest bidder, or that the lowest bidder is not competent or responsible in accordance with the standards and criteria for prequalifying contractors, the department shall reject the bid despite the prior prequalification of the bidder. No contract may be awarded to a bidder not qualified to bid on it at the time fixed for receiving bids.

[1983 c 133 § 7.]

RCW 47.60.750 Appeal of refusal, modification, or revocation of prequalification.

The action of the department in refusing, modifying, or revoking the prequalification of any contractor under RCW 47.60.680 through 47.60.740 is conclusive unless an appeal is filed with the Thurston county superior court within ten days after receiving written notice of the refusal, modification, or revocation. The appeal shall be heard summarily within twenty days after the appeal is taken and on five days notice thereof to the department. The court shall hear any such appeal on the administrative record that was before the department. The court may affirm the decision of the department, or it may reverse the decision if it determines the action of the department was arbitrary or capricious.

[1983 c 133 § 8.]

RCW 47.60.760 Financial information regarding qualifying not public.

The department of transportation shall not be required to make available for public inspection and copying financial information supplied by any person, firm, or corporation for the purpose of qualifying to submit a bid or proposal for a ferry system construction or repair contract as required by RCW 47.60.680 through 47.60.750.

[1983 c 133 § 9.]

RCW 47.60.770 Jumbo ferry construction--Notice.

The notice shall contain, but not be limited to, the following information:

(1) The number of jumbo ferry vessels to be constructed and the proposed delivery date for each vessel;

(2) A short summary of the requirements for prequalification of bidders including a

statement that prequalification is a prerequisite to consideration by the department of any bid, and a statement that the bidder shall submit its bid for the vessel in compliance with the plans and specifications supplied by the state; and

(3) An address and telephone number that may be used to obtain the bid package.

[1993 c 493 § 1.]

Notes:

Effective date--1993 c 493: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately [May 18, 1993]." [1993 c 493 § 8.]

The department shall send to any firm that requests it bidding documents specifying the criteria for the jumbo ferry vessels. The bid documents shall include, but not be limited to, the following information:

(1) Solicitation of a bid to deliver to the department vessels that are constructed as specified by the plans and specifications provided by the department;

(2) A requirement that bids submitted should include one bid for the construction of three vessels;

(3) The proposed delivery date for each vessel, the port on Puget Sound where delivery will be taken, and the location where acceptance sea trials will be held;

(4) The amount and form of required contract security under RCW 39.08.100;

(5) A copy of the vessel construction contract that will be signed by the successful bidder;

(6) The date by which bids for ferry vessel construction must be received by the department in order to be considered;

(7) A requirement that the contractor comply with all applicable laws, rules, and regulations including, but not limited to those pertaining to the environment, worker health and safety, and prevailing wages;

(8) A requirement that the vessels be constructed within the boundaries of the state of Washington except that equipment furnished by the state and components, products, and systems that are standard manufactured items are not subject to the in-state requirement under this subsection. For the purposes of this section, "constructed" means: The fabrication, by the joining together by welding or fastening of all steel parts from which the total vessel is constructed, including, but not limited to, all shell frames, longitudinals, bulkheads, webs, piping runs, wire ways, and ducting. "Constructed" also means the installation of all components and systems, including, but not limited to, equipment and machinery, castings, electrical, electronics, deck covering, lining, paint and joiner work, required by the contract. "Constructed" also means the interconnection of all equipment, machinery, and services, such as piping, wiring, and ducting;

(9) A requirement that all warranty work on the vessel be performed within the boundaries of the state of Washington, insofar as practicable;

(10) A statement that any bid submitted constitutes an offer and remains open until ninety

days after the deadline for submitting bids, unless the firm submitting it withdraws it by formal written notice that is received by the department before the date and time specified for opening of the bids, together with an explanation of the requirement that all bids submitted be accompanied by a bid deposit in the amount of five percent of the bid amount; and

(11) A listing of all equipment to be furnished by the state.

RCW 47.60.774 Jumbo ferry construction--Procedure on conclusion of evaluation.

(1) Upon concluding its evaluation, the department may:

(a) Select the firm submitting the lowest responsible bid for the construction of new jumbo ferries, taking into consideration the requirements stated in the bid documents and rank the remaining firms, judging them by the same standards;

(b) Reject all bids not in compliance with the requirements contained in the bid documents;

(c) Reject all bids.

(2) The department shall immediately notify those firms that were not selected as the firm presenting the lowest responsible bid. The department's selection is conclusive unless appeal from it is taken by an aggrieved firm to the superior court of Thurston county within five days after receiving notice of the department's final decision. The appeal shall be heard summarily within ten days after it is taken and on five days' notice to the department. The court shall hear any appeal on the administrative record that was before the department. The court may affirm the decision of the department, or it may reverse the decision if it determines the action of the department was arbitrary or capricious.

RCW 47.60.776 Jumbo ferry construction--Contract.

(1) Upon selecting the firm that has submitted the lowest responsible bid for the construction of new jumbo ferries, and ranking the remaining firms in order of preference, the department shall:

(a) Sign a contract with the firm presenting the lowest responsible bid; or

(b) If a final agreement satisfactory to the department cannot be signed with the firm presenting the lowest responsible bid, the department may sign a contract with the firm ranked next lowest bidder. If necessary, the department may repeat this procedure with each firm in order until the list of firms has been exhausted, or reject all bids.

(2) In developing a contract for the construction of ferry vessels, the department may, subject to the provisions of *RCW 39.25.020, authorize the use of foreign-made materials and components, products, and systems that are standard manufactured items in the construction of

ferries in order to minimize costs.

RCW 47.60.778 Jumbo ferry construction--Bid deposits--Low bidder claiming error.

Bids submitted by firms under this section constitute an offer and shall remain open for ninety days. When submitted, each bid shall be accompanied by a deposit in cash, certified check, cashier's check, or surety bond in an amount equal to five percent of the bid amount, and no bid may be considered unless the deposit is enclosed. If the department awards a contract to a firm and the firm fails to enter into a contract or fails to furnish a satisfactory contract security as required by RCW 39.08.100, its deposit shall be forfeited to the state and be deposited by the state treasurer to the credit of the Puget Sound capital construction account. A low bidder who claims error and fails to enter into a contract is prohibited from bidding on the same project if a second or subsequent call for bids is made for the project. Upon the execution of a ferry construction contract for the construction of new jumbo ferries, all bid deposits shall be returned.

Notes:

Effective date--1993 c 493: See note following RCW 47.60.770.

RCW 47.60.780 Jumbo ferry construction--Propulsion system acquisition.

(1) The department may enter into a contract for the acquisition of the propulsion system, or any component of it, including diesel engines and spare parts, for installation into one or more of the three Jumbo Class Mark II ferry vessels authorized under this chapter. This authorization does not limit the department from obtaining and installing the propulsion system, or any component of it, as incidental to the overall vessel construction contract authorized under RCW 47.60.770 through 47.60.778, nor from proceeding to complete an existing contract for acquisition of the propulsion system or any component of it.

(2) Acquisition of a propulsion system, or any component of it, for the Jumbo Class Mark II ferries by the department under this section is exempt from chapter 43.19 RCW.

(3) Whenever the department decides to enter into an acquisition contract under this section it shall publish a notice of its intent to negotiate such a contract once a week for at least two consecutive weeks in one trade newspaper and one other newspaper, both of general circulation in the state. The notice must contain, but is not limited to, the following information:

(a) The identity of the propulsion system or components to be acquired and the proposed delivery dates for the propulsion system or components;

(b) An address and telephone number that may be used to obtain the request for proposal.

(4) The department shall send to any firm that requests it, a request for proposal outlining the design and construction requirements for the propulsion system, including any desired components. The request for proposal must include, but is not limited to, the following

information:

(a) The proposed delivery date for each propulsion system or desired component and the location where delivery will be taken;

(b) The form and formula for contract security;

(c) A copy of the proposed contract;

(d) The date by which proposals must be received by the department in order to be considered; and

(e) A statement that any proposal submitted constitutes an offer and must remain open until ninety days after the deadline for submitting proposals, together with an explanation of the requirement that all proposals submitted must be accompanied by a deposit in the amount of five percent of the proposed cost.

(5) The department shall evaluate all timely proposals received for: (a) Compliance with the requirements specified in the request for proposal; and (b) suitability of each firm's proposal by applying appropriate criteria to be developed by the department: (i) To assess the ability of the firm to expeditiously and satisfactorily perform and (ii) to accomplish an acquisition that is most advantageous to the department. A portion of the technical requirements addressed in the request for proposal shall include, but is not limited to, user verifications of manufacturer's reliability claims; the quality of engine maintenance documentation; and engine compatibility with ship design.

(6) The criteria to select the most advantageous diesel engine under subsection (5)(b)(ii) shall consist of life-cycle cost factors weighted at forty-five percent; and operational factors weighted as follows: Reliability at twenty percent, maintainability at twenty percent, and engine performance at fifteen percent. For purposes of this subsection, the life-cycle cost factors shall consist of the costs for engine acquisition and warranty, spare parts acquisition and inventory, fuel efficiency and lubricating oil consumption, and commonality. The fuel efficiency and lubricating oil consumption life-cycle cost factors shall receive not less than twenty percent of the total evaluation weighting and shall be evaluated under a format similar to that employed in the 1992 M.V. Tyee engine replacement contract. The reliability factors shall consist of the length of service and reliability record in comparable uses, and mean time between overhauls. The mean time between overhauls evaluation shall be based upon the manufacturer's required hours between change of wear components. The maintainability factors shall consist of spare parts availability, the usual time anticipated to perform typical repair functions, and the quality of factory training programs for ferry system maintenance staff. The performance factors shall consist of load change responsiveness, and air quality of exhaust and engine room emissions.

(7) Upon concluding its evaluation, the department shall:

(a) Select the firm presenting the proposal most advantageous to the department, taking into consideration compliance with the requirements stated in the request for proposal, and the criteria developed by the department, and rank the remaining firms in order of preference, judging them by the same standards; or

(b) Reject all proposals as not in compliance with the requirements contained in the request for proposals.

(8) The department shall immediately notify those firms that were not selected as the firm

presenting the most advantageous proposal of the department's decision. The department's decision is conclusive unless an aggrieved firm appeals the decision to the superior court of Thurston county within five days after receiving notice of the department's final decision. The appeal shall be heard summarily within ten days after it is taken and on five days' notice to the department. The court shall hear the appeal on the administrative record that was before the department. The court may affirm the decision of the department, or it may reverse the decision if it determines the action of the department is arbitrary or capricious.

(9) Upon selecting the firm that has presented the most advantageous proposal and ranking the remaining firms in order of preference, the department shall:

(a) Negotiate a contract with the firm presenting the most advantageous proposal; or

(b) If a final agreement satisfactory to the department cannot be negotiated with the firm presenting the most advantageous proposal, the department may then negotiate with the firm ranked next highest in order of preference. If necessary, the department may repeat this procedure and negotiate with each firm in order of rank until the list of firms has been exhausted.

(10) Proposals submitted by firms under this section constitute an offer and must remain open for ninety days. When submitted, each proposal must be accompanied by a deposit in cash, certified check, cashier's check, or surety bond in the amount equal to five percent of the amount of the proposed contract price, and the department may not consider a proposal that has no deposit enclosed with it. If the department awards a contract to a firm under the procedure set forth in this section and the firm fails to enter into the contract and furnish the required contract security within twenty days, exclusive of the day of the award, its deposit shall be forfeited to the state and deposited by the state treasurer to the credit of the Puget Sound capital construction account. Upon the execution of a contract all proposal deposits shall be returned.

[1994 c 181 § 2.]

Notes:

Finding and intent--1994 c 181: "The legislature finds and declares that:

A 1991 legislative study, conducted by Booz. Allen, Hamilton and M. Rosenblatt and Son, examining the Washington state ferries' management of its vessel refurbishment and construction program, resulted in recommendations for improvements and changes in the vessel refurbishment and construction program. These legislatively adopted recommendations encourage and support input by Washington state ferries' engineers in the development of refurbishment and new construction project requirements.

The recommendations of the Booz. Allen study have been applied to the construction of the Jumbo Class Mark II ferries through the appointment of a Jumbo Class Mark II steering committee comprised of current state ferry engineers responsible for the design, operation, and maintenance of state ferry vessels.

The steering committee, in carrying out the recommendations of the Booz. Allen study, has determined that the procedure for the procurement of equipment, parts, and supplies for the Jumbo Class Mark II ferry vessels authorized by RCW 47.60.770 through 47.60.778, must take into consideration, in addition to life-cycle cost criteria, criteria that are essential to the operation of a public mass transportation system responsive to the needs of Washington state ferries' users, and that assess the reliability, maintainability, and performance of equipment, parts, and supplies to be installed in the Jumbo Mark II ferries.

The construction of the new Jumbo Class Mark II ferry vessels authorized by RCW 47.60.770 through 47.60.778 is critical to the welfare of the state and any delay in the immediate construction of the ferries will result in severe hardship and economic loss to the state and its citizens. Recognizing these findings, it is the intent of the legislature that the vessel construction should not be delayed further because of the acquisition of a propulsion

system, or any component of it, for the ferries, and to authorize the department of transportation to acquire all components of a complete propulsion system as soon as possible so that planned construction of the Jumbo Class Mark II ferry vessels can proceed immediately.

The purpose of this chapter is to authorize the use, by the department, of supplemental, alternative contracting procedures for the procurement of a propulsion system, and the components thereof, for the Jumbo Class Mark II ferries; and to prescribe appropriate requirements and criteria to ensure that contracting procedures for such procurement serve the public interest." [1994 c 181 § 1.]

Effective date--1994 c 181: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately [March 30, 1994]." [1994 c 181 § 4.]

RCW 47.60.800 General obligation bonds--1992 issue--Purpose--Issuance and sale.

In order to provide funds necessary for vessel and terminal acquisition, construction, and major and minor improvements, including long lead time materials acquisition for the Washington state ferries, there shall be issued and sold upon the request of the Washington state transportation commission and legislative appropriation a total of two hundred ten million dollars of general obligation bonds of the state of Washington.

[1992 c 158 § 1.]

RCW 47.60.802 Bonds--1992 issue--Supervision of sale by state finance committee--Option of short-term obligations.

(1) Upon request being made by the transportation commission, the state finance committee shall supervise and provide for the issuance, sale, and retirement of the bonds authorized by RCW 47.60.800 through 47.60.808 in accordance with chapter 39.42 RCW. The bonds may be sold from time to time in such amounts as may be necessary for the purposes under RCW 47.60.800. The bonds shall be sold in such manner, at such time or times, in such amounts, and at such price or prices as the state finance committee shall determine. No such bonds may be offered for sale without prior legislative appropriation of the net proceeds of the sale of the bonds.

(2) The state finance committee shall consider the issuance of short-term obligations in lieu of long-term obligations for the purposes of more favorable interest rates, lower total interest costs, and increased marketability and for the purposes of retiring the bonds during the life of the project for which they were issued.

[1992 c 158 § 2.]

RCW 47.60.804 Bonds--1992 issue--Use of proceeds.

The proceeds from the sale of bonds authorized by RCW 47.60.800 through 47.60.808 shall be deposited in the Puget Sound capital construction account of the motor vehicle fund and such proceeds shall be available only for the purposes under RCW 47.60.800, for the payment of bond anticipation notes, if any, and for the payment of bond issuance costs, including the costs of underwriting.

[1992 c 158 § 3.]

RCW 47.60.806 Bonds--1992 issue--Payment of principal and interest from pledged excise taxes.

Bonds issued under the authority of RCW 47.60.800 through 47.60.808 shall distinctly state that they are a general obligation of the state of Washington, shall pledge the full faith and credit of the state to the payment of the principal thereof and the interest thereon, and shall contain an unconditional promise to pay such principal and interest as the same shall become due. The principal and interest shall be first payable in the manner provided in RCW 47.60.800 through 47.60.808 from the proceeds of the state excise taxes on motor vehicle and special fuels imposed by chapters 82.36 and 82.38 RCW and distributed to the state pursuant to RCW 46.68.130 and shall never constitute a charge against any allocations of such funds to counties, cities, and towns unless and until the amount of the motor vehicle fund arising from the excise taxes on motor vehicle and special fuels and available for state highway purposes proves insufficient to meet the requirements for bond retirement or interest on any such bonds. Proceeds of such excise taxes are hereby pledged to the payment of any bonds and the interest thereon issued under the authority of RCW 47.60.800 through 47.60.808, and the legislature agrees to continue to impose these excise taxes on motor vehicle and special fuels in amounts sufficient to pay, when due, the principal and interest on all bonds issued under the authority of RCW 47.60.800 through 47.60.808.

[1995 c 274 § 19; 1992 c 158 § 4.]

RCW 47.60.808 Bonds--1992 issue--Payment from ferry bond retirement fund.

Both principal and interest on the bonds issued for the purposes of RCW 47.60.800 through 47.60.808 shall be payable from the ferry bond retirement fund authorized in RCW 47.60.600. Whenever, pursuant to RCW 47.60.800 and 47.60.806, the state treasurer transfers funds from the motor vehicle fund to the ferry bond retirement fund, the state treasurer may at the same time reimburse the motor vehicle fund in an identical amount from the Puget Sound capital construction account.

NOTES:

Findings--Purpose--2001 c 226: See note following RCW 47.20.780.

RCW 47.60.816 Design-build ferries--Phase one.

Phase one of the request for proposals process consists of evaluation and selection of prequalified proposers to participate in subsequent development of technical proposals in phase two, as follows:

(1) The department shall issue a request for proposals to interested parties.

(2) The request for proposals must require that each proposer prequalify for the contract under chapter 468-310 WAC, except that the department may adopt rules for the financial prequalification of proposers for this specific contract only. The department shall modify the financial prequalification rules in chapter 468-310 WAC in order to maximize competition among financially capable and otherwise qualified proposers. In adopting these rules, the department shall consider factors including, without limitation: (a) Shipyard resources in Washington state; (b) the cost to design and construct multiple vessels under a single contract without options; and (c) the sequenced delivery schedule for the vessels.

(3) The department may use some, or all, of the nonfinancial prequalification factors as part of the evaluation factors in phase one to enable the department to select a limited number of best qualified proposers to participate in development of technical proposals in phase two.

(4) The department shall evaluate submitted proposals in accordance with the selection criteria established in the request for proposals. Selection criteria may include, but are not limited to, the following:

- (a) Shipyard facilities;
- (b) Organization components;
- (c) Design capability;
- (d) Build strategy;
- (e) Experience and past performance;
- (f) Ability to meet vessel delivery dates;
- (g) Projected workload; and
- (h) Expertise of project team and other key personnel.

(5) Upon concluding its evaluation of proposals, the department shall select the best qualified proposers in accordance with the request for proposals. The selected proposers must participate in development of technical proposals. Selection must be made in accordance with the selection criteria stated in the request for proposals. All proposers must be ranked in order of preference as derived from the same selection criteria.

[2001 c 226 § 7.]

NOTES:

Findings--Purpose--2001 c 226: See note following RCW 47.20.780.

RCW 47.60.818 Design-build ferries--Phase two.

Phase two of the request for proposals process consists of preparation of technical proposals in consultation with the department, as follows:

(1) The development of technical proposals in compliance with the detailed instructions provided in the request for proposals, including the outline specifications, and any addenda to them. Technical proposals must include the following:

(a) Design and specifications sufficient to fully depict the ferries' characteristics and identify installed equipment;

(b) Drawings showing arrangements of equipment and details necessary for the proposer to develop a firm, fixed price bid;

(c) Project schedule including vessel delivery dates; and

(d) Other appropriate items.

(2) The department shall conduct periodic reviews with each of the selected proposers to consider and critique their designs, drawings, and specifications. These reviews must be held to ensure that technical proposals meet the department's requirements and are responsive to the critiques conducted by the department during the development of technical proposals.

(3) If, as a result of the periodic technical reviews or otherwise, the department determines that it is in the best interests of the department to modify any element of the request for proposals, including the outline specifications, it shall do so by written addenda to the request for proposals.

(4) Proposers must submit final technical proposals for approval that include design, drawings, and specifications at a sufficient level of detail to fully depict the ferries' characteristics and identify installed equipment, and to enable a proposer to deliver a firm, fixed price bid to the department. The department shall reject final technical proposals that modify, fail to conform to, or are not fully responsive to and in compliance with the requirements of the request for proposals, including the outline specifications, as amended by addenda.

NOTES:

Findings--Purpose--2001 c 226: See note following RCW 47.20.780.

RCW 47.60.820 Design-build ferries--Phase three.

Phase three consists of the submittal and evaluation of bids and the award of the contract to the successful proposer for the final design and construction of the auto ferries, as follows:

(1) The department shall request bids for detailed design and construction of the vessels after completion of the review of technical proposals in phase two. The department will review detailed design drawings in phase three for conformity with the technical proposals submitted in phase two. In no case may the department's review replace the builder's responsibility to deliver a product meeting the phase two technical proposal. The department may only consider bids from selected proposers that have qualified to bid by submitting technical proposals that have been approved by the department.

(2) Each qualified proposer must submit its total bid price for all vessels, including certification that the bid is based upon its approved technical proposal and the request for proposals.

(3) Bids constitute an offer and remain open for ninety days from the date of the bid opening. A deposit in cash, certified check, cashier's check, or surety bond in an amount specified in the request for proposals must accompany each bid and no bid may be considered unless the deposit is enclosed.

(4) The department shall evaluate the submitted bids. Upon completing the bid evaluation, the department may select the responsive and responsible proposer that offers the lowest total bid price for all vessels.

(5) The department may waive informalities in the proposal and bid process, accept a bid from the lowest responsive and responsible proposer, reject any or all bids, republish, and revise or cancel the request for proposals to serve the best interests of the department.

(6) The department may:

(a) Award the contract to the proposer that has been selected as the responsive and responsible proposer that has submitted the lowest total bid price;

(b) If a contract cannot be signed with the apparent successful proposer, award the contract to the next lowest responsive and responsible proposer; or

(c) If necessary, repeat this procedure with each responsive and responsible proposer in order of rank until the list of those proposers has been exhausted.

(7) If the department awards a contract to a proposer under this section, and the proposer fails to enter into the contract and furnish satisfactory contract security as required by chapter 39.08 RCW within twenty days from the date of award, its deposit is forfeited to the state and will be deposited by the state treasurer to the credit of the Puget Sound capital construction account. Upon the execution of a ferry design and construction contract all proposal deposits will be returned.

(8) The department may provide an honorarium to reimburse each unsuccessful phase three proposer for a portion of its technical proposal preparation costs at a preset, fixed amount to be specified in the request for proposals. If the department rejects all bids, the department may provide the honoraria to all phase three proposers that submitted bids.

RCW 47.60.822 Design-build ferries--Notice to proposers not selected--Appeal.

(1) The department shall immediately notify those proposers that are not selected to participate in development of technical proposals in phase one and those proposers who submit unsuccessful bids in phase three.

(2) The department's decision is conclusive unless an aggrieved proposer files an appeal with the superior court of Thurston county within five days after receiving notice of the department's award decision. The court shall hear any such appeal on the department's administrative record for the project. The court may affirm the decision of the department, or it may reverse or remand the administrative decision if it determines the action of the department was arbitrary and capricious.
