Whenever cities and towns of the state are, by law, allocated and entitled to be paid any funds or state moneys from any source, and the allocation and payment is required to be made on a populations basis, notwithstanding the provisions of any other law to the contrary, all such allocations shall be made on the basis of the population of the respective cities and towns as last determined by the office of financial management: PROVIDED, That the regular federal decennial census figures released for cities and towns shall be considered by the office of financial management in determining the population of cities and towns.

RCW 43.62.030 Determination of population--Cities and towns--Certificate--Allocation of state funds.

The office of financial management shall annually as of April 1st, determine the populations of all cities and towns of the state; and on or before July 1st of each year, shall file with the secretary of state a certificate showing its determination as to the populations of cities and towns of the state. A copy of such certificate shall be forwarded by the agency to each state official or department responsible for making allocations or payments, and on and after January 1st next following the date when such certificate or certificates are filed, the population determination shown in such certificate or certificates shall be used as the basis for the allocation and payment of state funds, to cities and towns until the next January 1st following the filing of successive certificates by the agency: PROVIDED, That whenever territory is annexed to a city or town, the population of the annexed territory shall be added to the population of the annexing city or town upon the effective date of the annexation as specified in the relevant ordinance, and upon approval of the agency as provided in RCW 35.13.260, as now or hereafter amended, a revised certificate reflecting the determination of the population as increased from such annexation shall be forwarded by the agency to each state official or department responsible for making allocations or payments, and upon and after the date of the commencement of the next quarterly period, the population determination indicated in such revised certificate shall be used as the basis for allocation and payment of state funds to such city or town until the next annual population determination becomes effective: PROVIDED FURTHER, That whenever any city or town becomes incorporated subsequent to the determination of such population, the populations of such cities and towns as shown in the records of incorporation filed with the secretary of state shall be used in determining the amount of allocation and payments, and the agency shall so notify the proper state officials or departments, and such cities and towns shall be entitled to participate in allocations thereafter made: PROVIDED FURTHER, That in case

any incorporated city or town disincorporates subsequent to the filing of such certificate or certificates, the agency shall promptly notify the proper state officials or departments thereof, and such cities and towns shall cease to participate in allocations thereafter made, and all credit accrued to such incorporated city or town shall be distributed to the credit of the remaining cities and towns. The secretary of state shall promptly notify the agency of the incorporation of each new city and town and of the disincorporation of any cities or towns.

For the purposes of this section, each quarterly period shall commence on the first day of the months of January, April, July, and October. Whenever a revised certificate due to an annexation is forwarded by the agency thirty days or less prior to the commencement of the next quarterly period, the population of the annexed territory shall not be considered until the commencement of the following quarterly period.

Armed forces shipboard population, on-base naval group quarter population, and military dependents living in housing under United States navy jurisdiction, shall be determined quarterly by the office of financial management on the first days of January, April, July, and October. These counts shall be used to increase or decrease the armed forces component of the resident population determinations in the cities of Bremerton and Everett for the purpose of allocating state revenues according to this section. Counts on the first day of the quarterly periods commencing with January, April, July, and October shall be used to adjust the total population for the following quarter, in the same manner adjustments are made for population changes due to annexation as specified in RCW 35.13.260 and 35A.14.700.

Population determinations made under this section shall include only those persons who meet resident population criteria as defined by the federal bureau of the census.

The office of financial management also shall determine the percentage increase in population for each county over the preceding ten-year period, as of April 1st, and shall file a certificate with the secretary of state by July 1st showing its determination. At least once every five years or upon the availability of decennial census data, whichever is later, the office of financial management shall prepare twenty-year growth management planning population projections required by RCW 36.70A.110 for each county that adopts a comprehensive plan under RCW 36.70A.040 and shall review these projections with such counties and the cities in those counties before final adoption. The county and its cities may provide to the office such information as they deem relevant to the office's projection, and the office shall consider and

comment on such information before adoption. Each projection shall be expressed as a reasonable range developed within the standard state high and low projection. The middle range shall represent the office's estimate of the most likely population projection for the county. If any city or county believes that a projection will not accurately reflect actual population growth in a county, it may petition the office to revise the projection accordingly. The office shall complete the first set of ranges for every county by December 31, 1995.

A comprehensive plan adopted or amended before December 31, 1995, shall not be considered to be in noncompliance with the twenty-year growth management planning population projection if the projection used in the comprehensive plan is in compliance with the range later adopted under this section.

RCW 43.63A.750 Performing arts, art museums, cultural facilities--Competitive grant program for nonprofit organizations. (Expires June 30, 2007.)

(1) A competitive grant program to assist nonprofit organizations in acquiring, constructing, or rehabilitating performing arts, art museums, and cultural facilities is created.

(2)(a) The department shall submit a list of recommended performing arts, art museum projects, and cultural organization projects eligible for funding to the governor and the legislature in the department's biennial capital budget request beginning with the 2001-2003 biennium and thereafter. The list, in priority order, shall include a description of each project, the amount of recommended state funding, and documentation of nonstate funds to be used for the project. The total amount of recommended state funding for projects on a biennial project list shall not exceed four million dollars. The department may provide an additional alternate project list which shall not exceed five hundred thousand dollars.

(b) The department shall establish a competitive process to prioritize applications for state assistance as follows:

(i) The department shall conduct a state-wide solicitation of project applications from nonprofit organizations, local governments, and other entities, as determined by the department. The department shall evaluate and rank applications in consultation with a citizen advisory committee, including a representative from the state arts commission, using objective criteria. The evaluation and ranking process shall also consider local community support for projects and an examination of existing assets that applicants may apply to projects.

(ii) The department may establish the amount of state grant assistance for individual project applications but the amount shall not exceed twenty percent of the estimated total capital cost or actual cost of a project, whichever is less. The remaining portions of the project capital cost shall be a match from nonstate sources. The nonstate match may include cash, the value of real property when acquired solely for the purpose of the project, and in-kind contributions. The department is authorized to set matching requirements for individual projects. State assistance may be used to fund separate definable phases of a project if the project demonstrates adequate progress and has secured the necessary match funding.

(iii) The department shall not sign contracts or otherwise financially obligate funds under

this section until the legislature has approved a specific list of projects. In contracts for grants authorized under this section, the department shall include provisions requiring that capital improvements be held by the grantee for a specified period of time appropriate to the amount of the grant and that facilities be used for the express purpose of the grant. If the grantee is found to be out of compliance with provisions of the contract, the grantee shall repay to the state general fund the principal amount of the grant plus interest calculated at the rate of interest on state of Washington general obligation bonds issued most closely to the date of authorization of the grant.

RCW 43.63B.020 Installer certification--Application--Training.

A person desiring to be issued a certificate of manufactured home installation as provided in this chapter shall make application to the department, in such a form as required by the department.

Upon receipt of the application and evidence required in this chapter, the director shall review the information and make a determination as to whether the applicant is eligible to take the training course and examination for the certificate of manufactured home installation. An applicant must furnish written evidence of six months of experience under the direct supervision of a certified manufactured home installer, or other equivalent experience, in order to be eligible

to take the training course and examination. The director shall establish reasonable rules for the training course and examinations to be given to applicants for certificates of manufactured home installation. Upon determining that the applicant is eligible to take the training course and examination, the director shall notify the applicant, indicating the time and place for taking the training course and examination.

The requirement that an applicant must be under the direct supervision of a certified manufactured home installer for six months only applies to applications made on or after July 1, 1996. For applications made before July 1, 1996, the department shall require evidence of experience to satisfy this requirement.

The director may allow other persons to take the training course and examination on manufactured home installation, without certification.

[1994 c 284 § 17.]

RCW 43.63B.030 Installer certification--Training course--Examination.

RCW 43.70.005 Intent.

The legislature finds and declares that it is of importance to the people of Washington state to live in a healthy environment and to expect a minimum standard of quality in health care. The legislature further finds that the social and economic vitality of the state depend[s] on a healthy and productive population. The legislature further declares where it is a duty of the state to assure a healthy environment and minimum standards of quality in health care facilities and among health care professionals, the ultimate responsibility for a healthy society lies with the citizens themselves.

For these reasons, the legislature recognizes the need for a strong, clear focus on health issues in state government and among state health agencies to give expression to the needs of individual citizens and local communities as they seek to preserve the public health. It is the intent of the legislature to form such focus by creating a single department in state government with the primary responsibilities for the preservation of public health, monitoring health care costs, the maintenance of minimal standards for quality in health care delivery, and the general oversight and planning for all the state's activities as they relate to the health of its citizenry.

Further, it is the intent of the legislature to improve illness and injury prevention and health promotion, and restore the confidence of the citizenry in the expenditure of public funds on health activities, and to ensure that this new health agency delivers quality health services in an efficient, effective, and economical manner that is faithful and responsive to policies established by the legislature.

The secretary may establish administrative facilities in other locations, if deemed necessary for the efficient operation of the department, and if consistent with the principles set forth in subsection (2) of this section.

(2) The department of health shall be organized consistent with the goals of providing state government with a focus in health and serving the people of this state. The legislature recognizes that the secretary needs sufficient organizational flexibility to carry out the department's various duties. To the extent practical, the secretary shall consider the following organizational principles:

(c) Maximum span of control without jeopardizing adequate supervision;

(d) A substate or regional organizational structure for the department's health service delivery programs and activities that encourages joint working agreements with local health departments and that is consistent between programs;

(e) Decentralized authority and responsibility, with clear accountability;

(f) A single point of access for persons receiving like services from the department which would limit the number of referrals between divisions.

(3) The department shall provide leadership and coordination in identifying and resolving threats to the public health by:

(b) Developing intervention strategies;

(d) Providing active and fair enforcement of rules;

(e) Working with other federal, state, and local agencies and facilitating their involvement in planning and implementing health preservation measures;

(f) Providing information to the public; and

(g) Carrying out such other related actions as may be appropriate to this purpose.

(4) In accordance with the administrative procedure act, chapter 34.05 RCW, the department shall ensure an opportunity for consultation, review, and comment by the department's clients before the adoption of standards, guidelines, and rules.

(5) Consistent with the principles set forth in subsection (2) of this section, the secretary may create such administrative divisions, offices, bureaus, and programs within the department as the secretary deems necessary. The secretary shall have complete charge of and supervisory powers over the department, except where the secretary's authority is specifically limited by law.

(6) The secretary shall appoint such personnel as are necessary to carry out the duties of the department in accordance with chapter 41.06 RCW.

(7) The secretary shall appoint the state health officer and such deputy secretaries, assistant secretaries, and other administrative positions as deemed necessary consistent with the principles set forth in subsection (2) of this section. All persons who administer the necessary divisions, offices, bureaus, and programs, and five additional employees shall be exempt from the provisions of chapter 41.06 RCW. The officers and employees appointed under this subsection shall be paid salaries to be fixed by the governor in accordance with the procedure established by law for the fixing of salaries for officers exempt from the state civil service law.

(8) The secretary shall administer family services and programs to promote the state's policy as provided in RCW 74.14A.025.

Members of such advisory committees are authorized to receive travel expenses in accordance with RCW 43.03.050 and 43.03.060. The secretary and the board of health shall review each advisory committee within their jurisdiction and each statutory advisory committee on a biennial basis to determine if such advisory committee is needed;

Notes:

Finding--1994 c 7: "The legislature recognizes the critical importance of ensuring that all Washington residents have access to quality and affordable health care. The legislature further recognizes that substantial improvements can be made in health care delivery when providers, including health care facilities, are encouraged to continuously strive for excellence in quality management practices, value, and consumer satisfaction. The legislature finds that when centers of quality are highlighted and honored publicly they become examples for other health care providers to emulate, thereby further promoting the implementation of improved health care delivery processes." RCW 43.70.050 Collection, utilization, and accessibility of health-related data.

(1) The legislature intends that the department, board, and *council promote and assess the quality, cost, and accessibility of health care throughout the state as their roles are specified in chapter 9, Laws of 1989 1st ex. sess. in accordance with the provisions of this chapter. In furtherance of this goal, the secretary shall create an ongoing program of data collection, storage, assessability, and review. The legislature does not intend that the department conduct or contract for the conduct of basic research activity. The secretary may request appropriations for studies according to this section from the legislature, the federal government, or private sources.

(2) All state agencies which collect or have access to population-based, health-related data are directed to allow the secretary access to such data. This includes, but is not limited to, data on needed health services, facilities, and personnel; future health issues; emerging bioethical issues; health promotion; recommendations from state and national organizations and associations; and programmatic and statutory changes needed to address emerging health needs. Private entities, such as insurance companies, health maintenance organizations, and private purchasers are also encouraged to give the secretary access to such data in their possession. The secretary's access to and use of all data shall be in accordance with state and federal confidentiality laws and ethical guidelines. Such data in any form where the patient or provider of health care can be identified shall not be disclosed, subject to disclosure according to chapter 42.17 RCW, discoverable or admissible in judicial or administrative proceedings. Such data can be used in proceedings in which the use of the data is clearly relevant and necessary and both the department and the patient or provider are parties.

(3) The department shall serve as the clearinghouse for information concerning innovations in the delivery of health care services, the enhancement of competition in the health care marketplace, and federal and state information affecting health care costs.

(4) The secretary shall review any data collected, pursuant to this chapter, to:

(a) Identify high-priority health issues that require study or evaluation. Such issues may include, but are not limited to:

(i) Identification of variations of health practice which indicate a lack of consensus of appropriateness;

(ii) Evaluation of outcomes of health care interventions to assess their benefit to the people of the state;

(iii) Evaluation of specific population groups to identify needed changes in health practices and services;

(iv) Evaluation of the risks and benefits of various incentives aimed at individuals and providers for both preventing illnesses and improving health services;

(v) Identification and evaluation of bioethical issues affecting the people of the state; and

(vi) Other such objectives as may be appropriate;

(b) Further identify a list of high-priority health study issues for consideration by the board or *council, within their authority, for inclusion in the state health report required by RCW 43.20.050. The list shall specify the objectives of each study, a study timeline, the specific improvements in the health status of the citizens expected as a result of the study, and the estimated cost of the study; and

(c) Provide background for the state health report required by RCW 43.20.050.

(5) Any data, research, or findings may also be made available to the general public, including health professions, health associations, the governor, professional boards and regulatory agencies and any person or group who has allowed the secretary access to data.

(6) The secretary may charge a fee to persons requesting copies of any data, research, or findings. The fee shall be no more than necessary to cover the cost to the department of providing the copy.

RCW 43.70.052 Hospital discharge data--Financial reports--Data retrieval--American Indian health data.

(1) To promote the public interest consistent with the purposes of chapter 492, Laws of 1993 as amended by chapter 267, Laws of 1995, the department shall continue to require hospitals to submit hospital financial and patient discharge information, which shall be collected, maintained, analyzed, and disseminated by the department. The department shall, if deemed cost-effective and efficient, contract with a private entity for any or all parts of data collection. Data elements shall be reported in conformance with a uniform reporting system established by

the department. This includes data elements identifying each hospital's revenues, expenses, contractual allowances, charity care, bad debt, other income, total units of inpatient and outpatient services, and other financial information reasonably necessary to fulfill the purposes of this section. Data elements relating to use of hospital services by patients shall be the same as those currently compiled by hospitals through inpatient discharge abstracts. The department shall encourage and permit reporting by electronic transmission or hard copy as is practical and economical to reporters.

(2) In identifying financial reporting requirements, the department may require both annual reports and condensed quarterly reports from hospitals, so as to achieve both accuracy and timeliness in reporting, but shall craft such requirements with due regard of the data reporting burdens of hospitals.

(3) The health care data collected, maintained, and studied by the department shall only be available for retrieval in original or processed form to public and private requestors and shall be available within a reasonable period of time after the date of request. The cost of retrieving data for state officials and agencies shall be funded through the state general appropriation. The cost of retrieving data for individuals and organizations engaged in research or private use of data or studies shall be funded by a fee schedule developed by the department that reflects the direct cost of retrieving the data or study in the requested form.

(4) The department shall, in consultation and collaboration with the federally recognized tribes, urban or other Indian health service organizations, and the federal area Indian health service, design, develop, and maintain an American Indian-specific health data, statistics information system. The department rules regarding confidentiality shall apply to safeguard the information from inappropriate use or release.

(5) All persons subject to the data collection requirements of this section shall comply with departmental requirements established by rule in the acquisition of data.

(1) To promote the public interest consistent with chapter 267, Laws of 1995, the department of health, in cooperation with the information services board established under RCW 43.105.032, shall develop health care data standards to be used by, and developed in collaboration with, consumers, purchasers, health carriers, providers, and state government as

consistent with the intent of chapter 492, Laws of 1993 as amended by chapter 267, Laws of 1995, to promote the delivery of quality health services that improve health outcomes for state residents. The data standards shall include content, coding, confidentiality, and transmission standards for all health care data elements necessary to support the intent of this section, and to improve administrative efficiency and reduce cost. Purchasers, as allowed by federal law, health carriers, health facilities and providers as defined in chapter 48.43 RCW, and state government shall utilize the data standards. The information and data elements shall be reported as the department of health directs by rule in accordance with data standards developed under this section.

(2) The health care data collected, maintained, and studied by the department under this section or any other entity: (a) Shall include a method of associating all information on health care costs and services with discrete cases; (b) shall not contain any means of determining the personal identity of any enrollee, provider, or facility; (c) shall only be available for retrieval in original or processed form to public and private requesters; (d) shall be available within a reasonable period of time after the date of request; and (e) shall give strong consideration to data standards that achieve national uniformity.

(3) The cost of retrieving data for state officials and agencies shall be funded through state general appropriation. The cost of retrieving data for individuals and organizations engaged in research or private use of data or studies shall be funded by a fee schedule developed by the department that reflects the direct cost of retrieving the data or study in the requested form.

(4) All persons subject to this section shall comply with departmental requirements established by rule in the acquisition of data, however, the department shall adopt no rule or effect no policy implementing the provisions of this section without an act of law.

(5) The department shall submit developed health care data standards to the appropriate committees of the legislature by December 31, 1995.

RCW 43.70.060 Duties of department--Promotion of health care cost-effectiveness.

It is the intent of the legislature to promote appropriate use of health care resources to maximize access to adequate health care services. The legislature understands that the rapidly increasing costs of health care are limiting access to care. To promote health care cost-effectiveness, the department shall:

- (1) Implement the certificate of need program;
- (2) Monitor and evaluate health care costs;
- (3) Evaluate health services and the utilization of services for outcome and effectiveness;

and

- (4) Recommend strategies to encourage adequate and cost-effective services and

discourage ineffective services.

[1989 1st ex.s. c 9 § 108.]

RCW 43.70.064 Health care quality--Findings and intent--Requirements for conducting study under RCW 43.70.066.

The legislature finds that it is difficult for consumers of health care services to determine the quality of health care prior to purchase or utilization of medical care. The legislature also finds that accountability is a key component in promoting quality assurance and quality improvement throughout the health care delivery system, including public programs. Quality assurance and improvement standards are necessary to promote the public interest, contribute to cost efficiencies, and improve the ability of consumers to ascertain quality health care purchases.

The legislature intends to have consumers, health carriers, health care providers and facilities, and public agencies participate in the development of quality assurance and improvement standards that can be used to develop a uniform quality assurance program for use by all public and private health plans, providers, and facilities. To that end, in conducting the study required under RCW 43.70.066, the department of health shall:

(1) Consider the needs of consumers, employers, health care providers and facilities, and public and private health plans;

(2) Take full advantage of existing national standards of quality assurance to extend to middle-income populations the protections required for state management of health programs for low-income populations;

(3) Consider the appropriate minimum level of quality assurance standards that should be disclosed to consumers and employers by health care providers and facilities, and public and private health plans; and

(4) Consider standards that permit health care providers and facilities to share responsibility for participation in a uniform quality assurance program.

[1995 c 267 § 3.]

RCW 43.70.066 Study--Uniform quality assurance and improvement program--Reports to legislature--Limitation on rule making.

(1) The department of health shall study the feasibility of a uniform quality assurance and improvement program for use by all public and private health plans and health care providers and facilities. In this study, the department shall consult with:

(a) Public and private purchasers of health care services;

(b) Health carriers;

(c) Health care providers and facilities; and

(d) Consumers of health services.

(2) In conducting the study, the department shall propose standards that meet the needs of affected persons and organizations, whether public or private, without creation of differing levels of quality assurance. All consumers of health services should be afforded the same level of quality assurance.

(3) At a minimum, the study shall include but not be limited to the following program components and indicators appropriate for consumer disclosure:

- (a) Health care provider training, credentialing, and licensure standards;
- (b) Health care facility credentialing and recredentialing;
- (c) Staff ratios in health care facilities;
- (d) Annual mortality and morbidity rates of cases based on a defined set of procedures performed or diagnoses treated in health care facilities, adjusted to fairly consider variable factors such as patient demographics and case severity;
- (e) The average total cost and average length of hospital stay for a defined set of procedures and diagnoses;
- (f) The total number of the defined set of procedures, by specialty, performed by each physician at a health care facility within the previous twelve months;
- (g) Utilization performance profiles by provider, both primary care and specialty care, that have been adjusted to fairly consider variable factors such as patient demographics and severity of case;
- (h) Health plan fiscal performance standards;
- (i) Health care provider and facility recordkeeping and reporting standards;
- (j) Health care utilization management that monitors trends in health service underutilization, as well as overutilization of services;
- (k) Health monitoring that is responsive to consumer, purchaser, and public health assessment needs; and
- (l) Assessment of consumer satisfaction and disclosure of consumer survey results.

(4) In conducting the study, the department shall develop standards that permit each health care facility, provider group, or health carrier to assume responsibility for and determine the physical method of collection, storage, and assimilation of quality indicators for consumer disclosure. The study may define the forms, frequency, and posting requirements for disclosure of information.

In developing proposed standards under this subsection, the department shall identify options that would minimize provider burden and administrative cost resulting from duplicative private sector data submission requirements.

(5) The department shall submit a preliminary report to the legislature by December 31, 1995, including recommendations for initial legislation pursuant to subsection (6) of this section, and may submit supplementary reports and recommendations as completed, consistent with appropriated funds and staffing.

(6) The department shall not adopt any rule implementing the uniform quality assurance program or consumer disclosure provisions unless expressly directed to do so by an act of law.

The department shall evaluate and analyze readily available data and information to determine the outcome and effectiveness of health services, utilization of services, and payment methods. This section should not be construed as allowing the department access to proprietary information.

(1) The department shall make its evaluations available to the board for use in preparation of the state health report required by RCW 43.20.050, and to consumers, purchasers, and providers of health care.

(2) The department shall use the information to:

(a) Develop guidelines which may be used by consumers, purchasers, and providers of health care to encourage necessary and cost-effective services; and

(b) Make recommendations to the governor on how state government and private purchasers may be prudent purchasers of cost-effective, adequate health services.

(1) The identity of a whistleblower who complains, in good faith, to the department of health about the improper quality of care by a health care provider, or in a health care facility, as defined in *RCW 43.72.010, shall remain confidential. The provisions of RCW 4.24.500 through 4.24.520, providing certain protections to persons who communicate to government agencies, shall apply to complaints filed under this section. The identity of the whistleblower shall remain

confidential unless the department determines that the complaint was not made in good faith. An employee who is a whistleblower, as defined in this section, and who as a result of being a whistleblower has been subjected to workplace reprisal or retaliatory action has the remedies provided under chapter 49.60 RCW.

(1) In any action brought by the secretary of health or by a local health officer pursuant to chapter 7.60 RCW to place a public water system in receivership, the petition shall include the names of one or more suitable candidates for receiver who have consented to assume operation of the water system. The department shall maintain a list of interested and qualified individuals, municipal entities, special purpose districts, and investor-owned water companies with experience in the provision of water service and a history of satisfactory operation of a water

system. If there is no other person willing and able to be named as receiver, the court shall appoint the county in which the water system is located as receiver. If the county is appointed as receiver, the secretary of health and the county health officer shall provide regulatory oversight for the agency or other person responsible for managing the water system.

(2) In any petition for receivership under subsection (1) of this section, the department shall recommend that the court grant to the receiver full authority to act in the best interests of the customers served by the public water system. The receiver shall assess the capability, in conjunction with the department and local government, for the system to operate in compliance with health and safety standards, and shall report to the court and the petitioning agency its recommendations for the system's future operation, including the formation of a water-sewer district or other public entity, or ownership by another existing water system capable of providing service.

(4) A bond, if any is imposed upon a receiver, shall be minimal and shall reasonably relate to the level of operating revenue generated by the system. Any receiver appointed pursuant to this section shall not be held personally liable for any good faith, reasonable effort to assume possession of, and to operate, the system in compliance with the court's orders.

The report shall include the recommendations of the receiver made pursuant to subsection (2) of this section. The report shall include all reasonable and feasible alternatives. After receiving the report, the court shall provide notice to interested parties and conduct such hearings as are necessary. The court shall then order the parties to implement one of the alternatives, or any combination thereof, for the disposition of the system. Such order shall include a date, or proposed date, for the termination of the receivership. Nothing in this section authorizes a court to require a city, town, public utility district, water-sewer district, or irrigation district to accept a system that has been in receivership unless the city, town, public utility district, water-sewer district, or irrigation district agrees to the terms and conditions outlined in the plan adopted by the court.

(7) The court shall not terminate the receivership, and order the return of the system to the owners, unless the department of health approves of such an action. The court may impose reasonable conditions upon the return of the system to the owner, including the posting of a bond

or other security, routine performance and financial audits, employment of qualified operators and other staff or contracted services, compliance with financial viability requirements, or other measures sufficient to ensure the ongoing proper operation of the system.

(8) If, as part of the ultimate disposition of the system, an eminent domain action is commenced by a public entity to acquire the system, the court shall oversee any appraisal of the system conducted under Title 7 RCW to assure that the appraised value properly reflects any reduced value because of the necessity to make improvements to the system. The court shall have the authority to approve the appraisal, and to modify it based on any information provided at an evidentiary hearing. The court's determination of the proper value of the system, based on the appraisal, shall be final, and only appealable if not supported by substantial evidence. If the appraised value is appealed, the court may order that the system's ownership be transferred upon payment of the approved appraised value.

In exceptional circumstances, when the independent review organization has not obtained information necessary to make a determination, a determination may be made by the twenty-fifth day after the date the organization received the request for the determination; and

(ii) In cases of a condition that could seriously jeopardize the enrollee's health or ability to regain maximum function, not later than the earlier of:

(A) Seventy-two hours after the date the independent review organization receives the information necessary to make the determination; or

(B) The eighth day after the date the independent review organization receives the request that the determination be made;

(f) That timely notice is provided to enrollees of the results of the independent review, including the clinical basis for the determination;

(g) That the independent review organization has a quality assurance mechanism in place that ensures the timeliness and quality of review and communication of determinations to enrollees and carriers, and the qualifications, impartiality, and freedom from conflict of interest of the organization, its staff, and expert reviewers; and

(h) That the independent review organization meets any other reasonable requirements of the department directly related to the functions the organization is to perform under this section and RCW 48.43.535.

(3) To be certified as an independent review organization under this chapter, an organization must submit to the department an application in the form required by the department. The application must include:

(e) The percentage of the applicant's revenues that are anticipated to be derived from reviews conducted under RCW 48.43.535;

(f) A description of the areas of expertise of the health care professionals and contract specialists making review determinations for the applicant; and

(g) The procedures to be used by the independent review organization in making review determinations regarding reviews conducted under RCW 48.43.535.

(4) If at any time there is a material change in the information included in the application under subsection (3) of this section, the independent review organization shall submit updated information to the department.

(5) An independent review organization may not be a subsidiary of, or in any way owned or controlled by, a carrier or a trade or professional association of health care providers or carriers.

Failure to renew invalidates the credential and all privileges granted by the credential. Administrative procedures and administrative requirements do not include establishing, monitoring, and enforcing qualifications for licensure, scope or standards of practice, continuing competency mechanisms, and discipline when such authority is authorized in statute to a health profession board or commission. For the purposes of this section, "in consultation with" means providing an opportunity for meaningful participation in development of rules consistent with processes set forth in RCW 34.05.310.

(2) Notwithstanding any provision of law to the contrary which provides for a licensing period for any type of license subject to this chapter including those under RCW 18.130.040, the secretary of health may, from time to time, extend or otherwise modify the duration of any licensing, certification, or registration period, whether an initial or renewal period, if the secretary determines that it would result in a more economical or efficient operation of state

government and that the public health, safety, or welfare would not be substantially adversely affected thereby. However, no license, certification, or registration may be issued or approved for a period in excess of four years, without renewal. Such extension, reduction, or other modification of a licensing, certification, or registration period shall be by rule or regulation of the department of health adopted in accordance with the provisions of chapter 34.05 RCW. Notes:

Legislative finding and purpose--1990 c 253: "The legislature finds that the demand for housing for migrant and seasonal farmworkers far exceeds the supply of adequate housing in the state of Washington. In addition, increasing numbers of these housing units are in deteriorated condition because they cannot be economically maintained and repaired.

The legislature further finds that the lack of a clear program for the regulation and inspection of farmworker housing has impeded the construction and renovation of housing units in this state.

It is the purpose of this act for the various agencies involved in the regulation of farmworker housing to coordinate and consolidate their activities to provide for efficient and effective monitoring of farmworker housing. It is intended that this action will provide greater responsiveness in dealing with public concerns over farmworker housing, and allow greater numbers of housing units to be built." [1990 c 253 § 1.]

RCW 43.70.400 Head injury prevention--Legislative finding.

The legislature finds that head injury is a major cause of death and disability for Washington citizens. The costs of head injury treatment and rehabilitation are extensive and resultant disabilities are long and indeterminate. These costs are often borne by public programs such as medicaid. The legislature finds further that many such injuries are preventable. The legislature intends to reduce the occurrence of head injury by educating persons whose behavior may place them at risk and by regulating certain activities.

[1990 c 270 § 2.]

RCW 43.70.410 Head injury prevention--Program, generally.

As used in RCW 43.70.400 through 43.70.440, the term "head injury" means traumatic brain injury.

A head injury prevention program is created in the department of health. The program's functions may be integrated with those of similar programs to promote comprehensive, integrated, and effective health promotion and disease prevention.

In consultation with the traffic safety commission, the department shall, directly or by contract, identify and coordinate public education efforts currently underway within state government and among private groups to prevent traumatic brain injury, including, but not limited to, bicycle safety, pedestrian safety, bicycle passenger seat safety, motorcycle safety, motor vehicle safety, and sports safety. If the department finds that programs are not available or

not in use, it may, within funds appropriated for the purpose, provide grants to promote public education efforts. Grants may be awarded only after recipients have demonstrated coordination with relevant and knowledgeable groups within their communities, including at least schools, brain injury support organizations, hospitals, physicians, traffic safety specialists, police, and the public. The department may accept grants, gifts, and donations from public or private sources to use to carry out the head injury prevention program.

The department may assess or contract for the assessment of the effectiveness of public education efforts coordinated or initiated by any agency of state government. Agencies are directed to cooperate with assessment efforts by providing access to data and program records as reasonably required. The department may seek and receive additional funds from the federal government or private sources for assessments. Assessments shall contain findings and recommendations that will improve the effectiveness of public education efforts. These findings shall be distributed among public and private groups concerned with traumatic brain injury prevention.

RCW 43.70.460 Retired primary care provider liability malpractice insurance--Program authorized.

(1) The department may establish a program to purchase and maintain liability malpractice insurance for retired primary care providers who provide primary health care services at community clinics. The following conditions apply to the program:

(a) Primary health care services shall be provided at community clinics that are public or private tax-exempt corporations;

(b) Primary health care services provided at the clinics shall be offered to low-income patients based on their ability to pay;

(c) Retired primary care providers providing health care services shall not receive compensation for their services; and

(d) The department shall contract only with a liability insurer authorized to offer liability malpractice insurance in the state.

(2) This section and RCW 43.70.470 shall not be interpreted to require a liability insurer

to provide coverage to a primary care provider should the insurer determine that coverage should not be offered to a physician [primary care provider] because of past claims experience or for other appropriate reasons.

(3) The state and its employees who operate the program shall be immune from any civil or criminal action involving claims against clinics or physicians [primary care providers] that provided health care services under this section and RCW 43.70.470. This protection of immunity shall not extend to any clinic or primary care provider participating in the program.

(4) The department may monitor the claims experience of retired physicians [primary care providers] covered by liability insurers contracting with the department.

(5) The department may provide liability insurance under chapter 113, Laws of 1992 only to the extent funds are provided for this purpose by the legislature.

Legislative declaration--1992 c 113: "There are a number of retired physicians who wish to provide, or are providing, health care services to low-income patients without compensation. However, the cost of obtaining malpractice insurance is a burden that is deterring them from donating their time and services in treating the health problems of the poor. The necessity of maintaining malpractice insurance for those in practice is a significant reality in today's litigious society.

A program to alleviate the onerous costs of malpractice insurance for retired physicians providing uncompensated health care services to low-income patients will encourage philanthropy and augment state resources in providing for the health care needs of those who have no access to basic health care services.

An estimated sixteen percent of the nonelderly population do not have health insurance and lack access to even basic health care services. This is especially problematic for low-income persons who are young and who are either unemployed or have entry-level jobs without health care benefits. The majority of the uninsured, however, are working adults, and some twenty-nine percent are children.

The legislature declares that this act will increase the availability of primary care to low-income persons and is in the interest of the public health and safety." [1992 c 113 § 1.]

RCW 43.70.470 Retired primary care provider liability malpractice insurance--Conditions.

The department may establish by rule the conditions of participation in the liability insurance program by retired primary care providers at clinics utilizing retired physicians [primary care providers] for the purposes of this section and RCW 43.70.460. These conditions shall include, but not be limited to, the following:

(1) The participating primary care provider associated with the clinic shall hold a valid license to practice as a physician under chapter 18.71 or 18.57 RCW, a naturopath under chapter 18.36A RCW, a physician assistant under chapter 18.71A or 18.57A RCW, an advanced registered nurse practitioner under *chapter 18.88 RCW, a dentist under chapter 18.32 RCW, or other health professionals as may be deemed in short supply in the health personnel resource plan under chapter 28B.125 RCW. All primary care providers must be in conformity with

current requirements for licensure as a retired primary care provider, including continuing education requirements;

(2) The participating primary care provider shall limit the scope of practice in the clinic to primary care. Primary care shall be limited to noninvasive procedures and shall not include obstetrical care, or any specialized care and treatment. Noninvasive procedures include injections, suturing of minor lacerations, and incisions of boils or superficial abscesses. Primary dental care shall be limited to diagnosis, oral hygiene, restoration, and extractions and shall not include orthodontia, or other specialized care and treatment;

(3) The provision of liability insurance coverage shall not extend to acts outside the scope of rendering medical services pursuant to this section and RCW 43.70.460;

(4) The participating primary care provider shall limit the provision of health care services to primarily low-income persons provided that clinics may, but are not required to, provide means tests for eligibility as a condition for obtaining health care services;

(5) The participating primary care provider shall not accept compensation for providing health care services from patients served pursuant to this section and RCW 43.70.460, nor from clinics serving these patients. "Compensation" shall mean any remuneration of value to the participating primary care provider for services provided by the primary care provider, but shall not be construed to include any nominal copayments charged by the clinic, nor reimbursement of related expenses of a participating primary care provider authorized by the clinic in advance of being incurred; and

(6) The use of mediation or arbitration for resolving questions of potential liability may be used, however any mediation or arbitration agreement format shall be expressed in terms clear enough for a person with a sixth grade level of education to understand, and on a form no longer than one page in length.

(1) Develop a definition of expert consensus and best available scientific evidence so that practice indicators can serve as a standard for excellence in the provision of health care services.

(1)(a) Health care institutions and medical facilities, other than hospitals, that are licensed by the department, professional societies or organizations, health care service contractors, health maintenance organizations, health carriers approved pursuant to chapter 48.43 RCW, and any other person or entity providing health care coverage under chapter 48.42 RCW that is subject to the jurisdiction and regulation of any state agency or any subdivision thereof may maintain a coordinated quality improvement program for the improvement of the quality of health care services rendered to patients and the identification and prevention of medical malpractice as set forth in RCW 70.41.200.

(b) All such programs shall comply with the requirements of RCW 70.41.200(1)(a), (c), (d), (e), (f), (g), and (h) as modified to reflect the structural organization of the institution, facility, professional societies or organizations, health care service contractors, health maintenance organizations, health carriers, or any other person or entity providing health care coverage under chapter 48.42 RCW that is subject to the jurisdiction and regulation of any state agency or any subdivision thereof, unless an alternative quality improvement program substantially equivalent to RCW 70.41.200(1)(a) is developed. All such programs, whether

complying with the requirement set forth in RCW 70.41.200(1)(a) or in the form of an alternative program, must be approved by the department before the discovery limitations provided in subsections (3) and (4) of this section and the exemption under RCW 42.17.310(1)(hh) and subsection (5) of this section shall apply. In reviewing plans submitted by licensed entities that are associated with physicians' offices, the department shall ensure that the exemption under RCW 42.17.310(1)(hh) and the discovery limitations of this section are applied only to information and documents related specifically to quality improvement activities undertaken by the licensed entity.

(2) Health care provider groups of ten or more providers may maintain a coordinated quality improvement program for the improvement of the quality of health care services rendered to patients and the identification and prevention of medical malpractice as set forth in RCW 70.41.200. All such programs shall comply with the requirements of RCW 70.41.200(1)(a), (c), (d), (e), (f), (g), and (h) as modified to reflect the structural organization of the health care provider group. (3) Any person who, in substantial good faith, provides information to further the purposes of the quality improvement and medical malpractice prevention program or who, in substantial good faith, participates on the quality improvement committee shall not be subject to an action for civil damages or other relief as a result of such activity.

(4) Information and documents, including complaints and incident reports, created specifically for, and collected, and maintained by a quality improvement committee are not subject to discovery or introduction into evidence in any civil action, and no person who was in attendance at a meeting of such committee or who participated in the creation, collection, or maintenance of information or documents specifically for the committee shall be permitted or required to testify in any civil action as to the content of such proceedings or the documents and information prepared specifically for the committee. RCW 43.70.520 Public health services improvement plan.

(1) The legislature finds that the public health functions of community assessment, policy development, and assurance of service delivery are essential elements in achieving the objectives of health reform in Washington state. The legislature further finds that the population-based services provided by state and local health departments are cost-effective and are a critical strategy for the long-term containment of health care costs. The legislature further finds that the public health system in the state lacks the capacity to fulfill these functions consistent with the needs of a reformed health care system.

(2) The department of health shall develop, in consultation with local health departments and districts, the state board of health, the health services commission, area Indian health service, and other state agencies, health services providers, and citizens concerned about public health, a public health services improvement plan. The plan shall provide a detailed accounting of deficits in the core functions of assessment, policy development, assurance of the current public health system, how additional public health funding would be used, and describe the benefits expected from expanded expenditures.

(3) The plan shall include:

(a) Definition of minimum standards for public health protection through assessment, policy development, and assurances:

(i) Enumeration of communities not meeting those standards;

(ii) A budget and staffing plan for bringing all communities up to minimum standards;

(iii) An analysis of the costs and benefits expected from adopting minimum public health standards for assessment, policy development, and assurances;

(b) Recommended strategies and a schedule for improving public health programs throughout the state, including:

(i) Strategies for transferring personal health care services from the public health system, into the uniform benefits package where feasible; and

(ii) Timing of increased funding for public health services linked to specific objectives for improving public health; and

(c) A recommended level of dedicated funding for public health services to be expressed in terms of a percentage of total health service expenditures in the state or a set per person

amount; such recommendation shall also include methods to ensure that such funding does not supplant existing federal, state, and local funds received by local health departments, and methods of distributing funds among local health departments.

(4) The department shall coordinate this planning process with the study activities required in section 258, chapter 492, Laws of 1993.

(5) By March 1, 1994, the department shall provide initial recommendations of the public health services improvement plan to the legislature regarding minimum public health standards, and public health programs needed to address urgent needs, such as those cited in subsection (7) of this section.

(6) By December 1, 1994, the department shall present the public health services improvement plan to the legislature, with specific recommendations for each element of the plan to be implemented over the period from 1995 through 1997.

(7) Thereafter, the department shall update the public health services improvement plan for presentation to the legislature prior to the beginning of a new biennium.

(8) Among the specific population-based public health activities to be considered in the public health services improvement plan are: Health data assessment and chronic and infectious disease surveillance; rapid response to outbreaks of communicable disease; efforts to prevent and control specific communicable diseases, such as tuberculosis and acquired immune deficiency syndrome; health education to promote healthy behaviors and to reduce the prevalence of chronic disease, such as those linked to the use of tobacco; access to primary care in coordination with existing community and migrant health clinics and other not for profit health care organizations; programs to ensure children are born as healthy as possible and they receive immunizations and adequate nutrition; efforts to prevent intentional and unintentional injury; programs to ensure the safety of drinking water and food supplies; poison control; trauma services; and other activities that have the potential to improve the health of the population or special populations and reduce the need for or cost of health services.

RCW 43.70.525 Immunization assessment and enhancement proposals by local jurisdictions.

(1) The department, in conjunction with local health jurisdictions, shall require each local health jurisdiction to submit an immunization assessment and enhancement proposal, consistent with the standards established in the public health [services] improvement plan, to provide immunization protection to the children of the state to further reduce vaccine-preventable diseases.

(2) These plans shall include, but not be limited to:

(a) A description of the population groups in the jurisdiction that are in the greatest need of immunizations;

(b) A description of strategies to use outreach, volunteer, and other local educational resources to enhance immunization rates; and

(c) A description of the capacity required to accomplish the enhancement proposal.

RCW 43.70.530 Home visitor program.

The department of health, the department of social and health services, the department of community, trade, and economic development, the superintendent of public instruction, and the employment security department shall, collectively and collaboratively, develop a plan for a home health visitor program that shall have as its primary purpose the prevention of child abuse and neglect through the provision of selected educational and supportive services to high risk parents of newborns.

(1) The program shall: (a) Be community-based; (b) include early hospital-based screening to identify high risk parents of newborns; (c) provide for an effective, in-home outreach and support program for high risk parents of newborns that involves: (i) Frequent home visits, (ii) parent training on early childhood development, parenting, and the stress factors that lead to abuse and neglect, and (iii) referrals to needed social and health services; and (d) demonstrate effective coordination among current community-based programs that may also serve high risk parents and their infants, including child abuse prevention programs, first steps, second steps, the early childhood education and assistance program, the healthy kids program, child welfare services, the women, infants, and children program, the high priority infant tracking program, the birth to six program, local and state public health prevention and early intervention services, and other services as identified.

(2) The plan shall: (a) Include an estimate and a description of the high risk groups to be served; (b) detail the screening process and mechanisms to be used to identify high risk parents; (c) detail the services to be included in the in-home program; (d) describe staffing that may include the use of teams of professionals, paraprofessionals, and volunteers; (e) describe how the program will be evaluated, including the measurable outcomes to be achieved; and (f) provide an estimate of the costs to fully implement the program state-wide, and for possible consideration, a series of pilot projects with a phased-in schedule.

[1998 c 245 § 75; 1993 c 179 § 2.]

Notes:

Intent--1993 c 179: "The incidence of child abuse and neglect has reached epidemic proportions in the nation. In Washington state alone, there were sixty-two thousand five hundred reports of child abuse and neglect in 1991. That is one occurrence for every twenty-one children in this state. Research shows that most reported cases of physical abuse and neglect occurs among children under the age of five. Research also shows that child abuse and neglect can be prevented. One of the most effective strategies for preventing child abuse and neglect is to provide parents who are most at risk of abuse, with education and supportive services beginning at the time their infant is born and continuing in the home. Therefore, it is the legislature's intent to develop the home health visitor program in this state." [1993 c 179 § 1.]

Effective date--1993 c 179: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately [April 30, 1993]." [1993 c 179 § 3.]

RCW 43.70.540 Data collection--Legislative finding and intent.

The legislature recognizes that the state patrol, the office of the administrator for the courts, the sheriffs' and police chiefs' association, the department of social and health services, the department of community, trade, and economic development, the sentencing guidelines commission, the department of corrections, and the superintendent of public instruction each have comprehensive data and analysis capabilities that have contributed greatly to our current understanding of crime and violence, and their causes.

The legislature finds, however, that a single health-oriented agency must be designated to provide consistent guidelines to all these groups regarding the way in which their data systems collect this important data. It is not the intent of the legislature by RCW 43.70.545 to transfer data collection requirements from existing agencies or to require the addition of major new data systems. It is rather the intent to make only the minimum required changes in existing data systems to increase compatibility and comparability, reduce duplication, and to increase the usefulness of data collected by these agencies in developing more accurate descriptions of violence.

[1995 c 399 § 76; 1994 sp.s. c 7 § 201.]

Notes:

Legislative finding and intent--1994 sp.s. c 7: "The legislature finds that the increasing violence in our society causes great concern for the immediate health and safety of our citizens and our social institutions. Youth violence is increasing at an alarming rate and young people between the ages of fifteen and twenty-four are at the highest risk of being perpetrators and victims of violence. Additionally, random violence, including homicide and the use of firearms, has dramatically increased over the last decade.

The legislature finds that violence is abhorrent to the aims of a free society and that it cannot be tolerated. State efforts at reducing violence must include changes in criminal penalties, reducing the unlawful use of and access to firearms, increasing educational efforts to encourage nonviolent means for resolving conflicts, and allowing communities to design their prevention efforts.

The legislature finds that the problem of violence can be addressed with many of the same approaches that public health programs have used to control other problems such as infectious disease, tobacco use, and traffic fatalities.

Addressing the problem of violence requires the concerted effort of all communities and all parts of state

and local governments. It is the immediate purpose of chapter 7, Laws of 1994 sp. sess. to: (1) Prevent acts of violence by encouraging change in social norms and individual behaviors that have been shown to increase the risk of violence; (2) reduce the rate of at-risk children and youth, as defined in *RCW 70.190.010; (3) increase the severity and certainty of punishment for youth and adults who commit violent acts; (4) reduce the severity of harm to individuals when violence occurs; (5) empower communities to focus their concerns and allow them to control the funds dedicated to empirically supported preventive efforts in their region; and (6) reduce the fiscal and social impact of violence on our society." [1994 sp.s. c 7 § 101.]

***Reviser's note:** The governor vetoed 1994 sp.s. c 7 § 302, which amended RCW 70.190.010 to define "at-risk children and youth." RCW 70.190.010 was subsequently amended by 1996 c 132 § 2, which now includes a definition for "at-risk children."

Severability--1994 sp.s. c 7: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1994 sp.s. c 7 § 913.]

Effective dates--Contingent expiration date--1994 sp.s. c 7: "(1) Sections 201 through 204, 302, 323, 411, 412, 417, and 418 of this act are necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately [April 6, 1994].

(2) Sections 904 through 908 of this act shall take effect July 1, 1995.

*(3) Notwithstanding other provisions of this section, if sections 901 through 909 of this act are referred to the voters at the next succeeding general election and sections 901 through 909 of this act are rejected by the voters, then the amendments by sections 510 through 512, 519, 521, 525, and 527 of this act shall expire on July 1, 1995." [1994 sp.s. c 7 § 915 (Referendum Bill No. 43, subsection (3) approved November 8, 1994).]

***Reviser's note:** Sections 901 through 909, chapter 7, Laws of 1994 sp. sess. were approved and ratified by the voters on November 8, 1994, in Referendum Bill No. 43. Therefore, the amendments to sections 510 through 512, 519, 521, 525, and 527, chapter 7, Laws of 1994 sp. sess. do not expire on July 1, 1995.

RCW 43.70.545 Data collection and reporting rules.

(1) The department of health shall develop, based on recommendations in the public health services improvement plan and in consultation with affected groups or agencies, comprehensive rules for the collection and reporting of data relating to acts of violence, at-risk behaviors, and risk and protective factors. The data collection and reporting rules shall be used by any public or private entity that is required to report data relating to these behaviors and conditions. The department may require any agency or program that is state-funded or that accepts state funds and any licensed or regulated person or professional to report these behaviors and conditions. To the extent possible the department shall require the reports to be filed through existing data systems. The department may also require reporting of attempted acts of violence and of nonphysical injuries. For the purposes of this section "acts of violence" means self-directed and interpersonal behaviors that can result in suicide, homicide, and nonfatal intentional injuries. "At-risk behaviors," "protective factors," and "risk factors" have the same meanings as provided in RCW 70.190.010. A copy of the data used by a school district to prepare and submit a report to the department shall be retained by the district and, in the copy retained by the district, identify the reported acts or behaviors by school site.

(2) The department is designated as the state-wide agency for the coordination of all information relating to violence and other intentional injuries, at-risk behaviors, and risk and protective factors.

(3) The department shall provide necessary data to the local health departments for use in

planning by or evaluation of any community network authorized under RCW 70.190.060.

(4) The department shall by rule establish requirements for local health departments to perform assessment related to at-risk behaviors and risk and protective factors and to assist community networks in policy development and in planning and other duties under chapter 7, Laws of 1994 sp. sess.

(5) The department may, consistent with its general authority and directives under RCW 43.70.540 through 43.70.560, contract with a college or university that has experience in data collection relating to the health and overall welfare of children to provide assistance to:

(a) State and local health departments in developing new sources of data to track acts of violence, at-risk behaviors, and risk and protective factors; and

(b) Local health departments to compile and effectively communicate data in their communities.

The public health services improvement plan developed under RCW 43.70.520 shall include:

(1) Minimum standards for state and local public health assessment, performance measurement, policy development, and assurance regarding social development to reduce at-risk behaviors and risk and protective factors. The department in the development of data collection and reporting requirements for the superintendent of public instruction, schools, and school districts shall consult with the joint select committee on education restructuring and local school districts.

(2)(a) Measurable risk factors that are empirically linked to violent criminal acts by juveniles, teen substance abuse, teen pregnancy and male parentage, teen suicide attempts, dropping out of school, child abuse or neglect, and domestic violence; and

(b) An evaluation of other factors to determine whether they are empirically related risk factors, such as: Out-of-home placements, poverty, single-parent households, inadequate nutrition, hunger, unemployment, lack of job skills, gang affiliation, lack of recreational or cultural opportunities, school absenteeism, court-ordered parenting plans, physical, emotional, or behavioral problems requiring special needs assistance in K-12 schools, learning disabilities, and any other possible factors.

(3) Data collection and analysis standards on at-risk behaviors and risk and protective factors for use by the local public health departments and the *state council and the local community networks to ensure consistent and interchangeable data.

(4) Recommendations regarding any state or federal statutory barriers affecting data collection or reporting.

The department shall provide an annual report to the Washington state institute for public policy on the implementation of this section.

RCW 43.70.555 Assessment standards.

The department, in consultation with the family policy council created in chapter 70.190 RCW, shall establish, by rule, standards for local health departments and networks to use in assessment, performance measurement, policy development, and assurance regarding social development to prevent health problems caused by risk factors empirically linked to: Violent criminal acts by juveniles, teen substance abuse, teen pregnancy and male parentage, teen suicide attempts, dropping out of school, child abuse or neglect, and domestic violence. The standards shall be based on the standards set forth in the public health services improvement plan as required by RCW 43.70.550.

The legislature encourages the use of a state-wide voluntary, socially responsible policy to reduce the emphasis, amount, and type of violence in all public media. The department shall develop a suggested reporting format for use by the print, television, and radio media in reporting their voluntary violence reduction efforts. RCW 43.70.575 Definitions.

Unless the context clearly requires otherwise, the definitions in this section apply throughout RCW 43.70.570 through 43.70.580.

(1) "Capacity" means actions that public health jurisdictions must do as part of ongoing daily operations to adequately protect and promote health and prevent disease, injury, and premature death. The public health improvement plan identifies capacity necessary for assessment, policy development, administration, prevention, including promotion and protection, and access and quality.

(2) "Department" means the department of health.

(3) "Local health jurisdiction" means the local health agency, either county or multicounty, operated by local government, with oversight and direction from a local board of health, that provides public health services throughout a defined geographic area.

(4) "Health outcomes" means long-term objectives that define optimal, measurable, future levels of health status, maximum acceptable levels of disease, injury, or dysfunction, or prevalence of risk factors in areas such as improving the rate of immunizations for infants and children to ninety percent and controlling and reducing the spread of tuberculosis and that are stated in the public health improvement plan.

(5) "Public health improvement plan," also known as the public health services improvement plan, means the public health services improvement plan established under RCW 43.70.520, developed by the department, in consultation with local health departments and districts, the state board of health, the health services commission, area Indian health services, and other state agencies, health services providers, and residents concerned about public health, to provide a detailed accounting of deficits in the core functions of assessment, policy development, and assurance of the current public health system, how additional public health funding would be used, and to describe the benefits expected from expanded expenditures.

(6) "Public health" means activities that society does collectively to assure the conditions in which people can be healthy. This includes organized community efforts to prevent, identify, preempt, and counter threats to the public's health.

(7) "Public health system" means the department, the state board of health, and local health jurisdictions.

RCW 43.70.580 Public health improvement plan--Funds--Performance-based contracts--Rules--Evaluation and report.

The primary responsibility of the public health system, is to take those actions necessary to protect, promote, and improve the health of the population. In order to accomplish this, the department shall:

(1) Identify, as part of the public health improvement plan, the key health outcomes sought for the population and the capacity needed by the public health system to fulfill its responsibilities in improving health outcomes.

(2)(a) Distribute state funds that, in conjunction with local revenues, are intended to improve the capacity of the public health system. The distribution methodology shall encourage system-wide effectiveness and efficiency and provide local health jurisdictions with the flexibility both to determine governance structures and address their unique needs.

(b) Enter into with each local health jurisdiction performance-based contracts that establish clear measures of the degree to which the local health jurisdiction is attaining the capacity necessary to improve health outcomes. The contracts negotiated between the local health jurisdictions and the department of health must identify the specific measurable progress that local health jurisdictions will make toward achieving health outcomes. A community assessment conducted by the local health jurisdiction according to the public health improvement plan, which shall include the results of the comprehensive plan prepared according to RCW 70.190.130, will be used as the basis for identifying the health outcomes. The contracts shall include provisions to encourage collaboration among local health jurisdictions. State funds shall be used solely to expand and complement, but not to supplant city and county government support for public health programs.

(3) Develop criteria to assess the degree to which capacity is being achieved and ensure compliance by public health jurisdictions.

(4) Adopt rules necessary to carry out the purposes of chapter 43, Laws of 1995.

(5) Biennially, within the public health improvement plan, evaluate the effectiveness of the public health system, assess the degree to which the public health system is attaining the capacity to improve the status of the public's health, and report progress made by each local health jurisdiction toward improving health outcomes.

group comprised of Indian and non-Indian health care facilities and providers to formulate an American Indian health care delivery plan. The plan shall include:

- (1) Recommendations to providers and facilities methods for coordinating and joint venturing with the Indian health services for service delivery;

RCW 43.70.600 Survey regarding exposure to radio frequencies--Results.

When funds are appropriated for this purpose, the department shall conduct a survey of scientific literature regarding the possible health effects of human exposure to the radio frequency part of the electromagnetic spectrum (300Hz to 300GHz). The department may submit the survey results to the legislature, prepare a summary of that survey, and make the summary available to the public. The department may update the survey and summary periodically.

Notes:

Findings--1996 c 323: "The legislature finds that concerns have been raised over possible health effects from exposure to some wireless telecommunications facilities, and that exposures from these facilities should be kept as low as reasonably achievable while still allowing the operation of these networks. The legislature further finds that the department of health should serve as the state agency that follows the issues and compiles information pertaining to potential health effects from wireless telecommunications facilities." RCW 43.70.605 Personal wireless services--Random testing on power density analysis--Rules.

Unless this section is preempted by applicable federal statutes, the department may require that in residential zones or areas, all providers of personal wireless services, as defined in *section 1 of this act, provide random test results on power density analysis for the provider's licensed frequencies showing radio frequency levels before and after development of the personal wireless service antenna facilities, following national standards or protocols of the federal communications commission or other federal agencies. This section shall not apply to microcells as defined in RCW 80.36.375. The department may adopt rules to implement this section.

RCW 43.70.610 Domestic violence education program--Established--Findings.

The legislature finds that domestic violence is the leading cause of injury among women and is linked to numerous health problems, including depression, abuse of alcohol and other drugs, and suicide. Despite the frequency of medical attention, few people are diagnosed as victims of spousal abuse. The department, in consultation with the disciplinary authorities as defined in RCW 18.130.040, shall establish, within available department general funds, an ongoing domestic violence education program as an integral part of its health professions regulation. The purpose of the education program is to raise awareness and educate health care professionals regarding the identification, appropriate treatment, and appropriate referral of victims of domestic violence. The disciplinary authorities having the authority to offer continuing education may provide training in the dynamics of domestic violence. No funds from the health professions account may be utilized to fund activities under this section unless the disciplinary authority authorizes expenditures from its proportions of the account. A disciplinary authority may defray costs by authorizing a fee to be charged for participants or materials relating to any sponsored program.

RCW 43.70.620 List of contacts--Health care professions.

The secretary shall create and maintain a list of contacts with each of the health care professions regulated under the following chapters for the purpose of policy advice and information dissemination: RCW 18.06.080, 18.89.050, and 18.138.070 and chapters 18.135, 18.55, and 18.88A RCW.

RCW 43.70.630 Cost-reimbursement agreements for complex projects.

(1) The department may enter into a written cost-reimbursement agreement with a permit applicant for a complex project to recover from the applicant the reasonable costs incurred by the department in carrying out the requirements of this chapter, as well as the requirements of other relevant laws, as they relate to permit coordination, environmental review, application review, technical studies, and permit processing.

The cost-reimbursement agreement shall identify the specific tasks, costs, and schedule for work to be conducted under the agreement. For purposes of this section, a complex project is a project

for which an environmental impact statement is required under chapter 43.21C RCW.

(2) The written cost-reimbursement agreement shall be negotiated with the permit applicant. Under the provisions of a cost-reimbursement agreement, funds from the applicant shall be used by the department to contract with an independent consultant to carry out the work covered by the cost-reimbursement agreement. The department may also use funds provided under a cost-reimbursement agreement to assign current staff to review the work of the consultant, to provide necessary technical assistance when an independent consultant with comparable technical skills is unavailable, and to recover reasonable and necessary direct and indirect costs that arise from processing the permit. The department shall, in developing the agreement, ensure that final decisions that involve policy matters are made by the agency and not by the consultant. The department shall make an estimate of the number of permanent staff hours to process the permits, and shall contract with consultants to replace the time and functions committed by these permanent staff to the project. The billing process shall provide for accurate time and cost accounting and may include a billing cycle that provides for progress payments. Use of cost-reimbursement agreements shall not reduce the current level of staff available to work on permits not covered by cost-reimbursement agreements. The department may not use any funds under a cost-reimbursement agreement to replace or supplant existing funding. The restrictions of chapter 42.52 RCW apply to any cost-reimbursement agreement, and to any person hired as a result of a cost-reimbursement agreement.

(3) The department may not enter into any new cost-reimbursement agreements on or after July 1, 2005. The department may continue to administer any cost-reimbursement agreement which was entered into before July 1, 2005, until the project is completed.

RCW 43.70.640 Workplace breastfeeding policies--Infant-friendly designation.

(1) An employer may use the designation "infant-friendly" on its promotional materials if the employer has an approved workplace breastfeeding policy addressing at least the following:

(a) Flexible work scheduling, including scheduling breaks and permitting work patterns that provide time for expression of breast milk;

(b) A convenient, sanitary, safe, and private location, other than a restroom, allowing privacy for breastfeeding or expressing breast milk;

(c) A convenient clean and safe water source with facilities for washing hands and rinsing breast-pumping equipment located in the private location specified in (b) of this subsection; and

(d) A convenient hygienic refrigerator in the workplace for the mother's breast milk.

(2) Employers seeking approval of a workplace breastfeeding policy must submit the policy to the department of health. The department of health shall review and approve those policies that meet the requirements of this section. The department may directly develop and

implement the criteria for "infant-friendly" employers, or contract with a vendor for this purpose.

(3) For the purposes of this section, "employer" includes those employers defined in RCW 49.12.005 and also includes the state, state institutions, state agencies, political subdivisions of the state, and municipal corporations or quasi-municipal corporations.

[2001 c 88 § 3.]

NOTES:

Acknowledgment--Declaration--Findings--2001 c 88: "(1) The legislature acknowledges the surgeon general's summons to all sectors of society and government to help redress the low breastfeeding rates and duration in the United States, including the social and workplace factors that can make it difficult for women to breastfeed. The legislature also acknowledges the surgeon general's report on the health and economic importance of breastfeeding which concludes that:

(a) Breastfeeding is one of the most important contributors to infant health;
(b) Breastfeeding provides a range of benefits for the infant's growth, immunity, and development; and
(c) Breastfeeding improves maternal health and contributes economic benefits to the family, health care system, and workplace.

(2) The legislature declares that the achievement of optimal infant and child health, growth, and development requires protection and support for the practice of breastfeeding. The legislature finds that:

(a) The American academy of pediatrics recommends exclusive breastfeeding for the first six months of a child's life and breastfeeding with the addition of solid foods to continue for at least twelve months, and that arrangements be made to provide expressed breast milk if the mother and child must separate during the first year. Children should be breastfed or fed expressed breast milk when they show signs of need, rather than according to a set schedule or the location;

(b) Breast milk contains all the nutrients a child needs for optimal health, growth, and development, many of which can only be found in breast milk;

(c) Research in developed countries provides strong evidence that breastfeeding decreases the incidence and/or severity of diarrhea, lower respiratory tract infection, otitis media, bacteremia, bacterial meningitis, urinary tract infection, and necrotizing enterocolitis. In addition, a number of studies show a possible protective effect of breastfeeding against SIDS, Type I diabetes mellitus, Crohn's disease, lymphoma, ulcerative colitis, and allergic diseases;

(d) Studies also indicate health benefits in mothers who breastfeed. Breastfeeding is one of the few ways that mothers may be able to lower their risk of developing breast and ovarian cancer, with benefits proportional to the duration that they are able to breastfeed. In addition, the maternal hormonal changes stimulated by breastfeeding also help the uterus recover faster and minimize the amount of blood mothers lose after birth. Breastfeeding inhibits ovulation and menstrual bleeding, thereby decreasing the risk of anemia and a precipitous subsequent pregnancy. Breastfeeding women also have an earlier return to prepregnancy weight;

(e) Approximately two-thirds of women who are employed when they become pregnant return to the work force by the time their children are six months old;

(f) Employers benefit when their employees breastfeed. Breastfed infants are sick less often; therefore, maternal absenteeism from work is lower in companies with established lactation programs. In addition, employee medical costs are lower and employee productivity is higher;

(g) According to a survey of mothers in Washington, most want to breastfeed but discontinue sooner than they hope, citing lack of societal and workplace support as key factors limiting their ability to breastfeed;

(h) Many mothers fear that they are not making enough breast milk and therefore decrease or discontinue breastfeeding. Frequency of breastfeeding or expressing breast milk is the main regulator of milk supply, such that forcing mothers to go prolonged periods without breastfeeding or expressing breast milk can undermine their ability to maintain breastfeeding; and

(i) Maternal stress can physiologically inhibit a mother's ability to produce and let down milk. Mothers

report modifiable sources of stress related to breastfeeding, including lack of protection from harassment and difficulty finding time and an appropriate location to express milk while away from their babies.

(3) The legislature encourages state and local governmental agencies, and private and public sector businesses to consider the benefits of providing convenient, sanitary, safe, and private rooms for mothers to express breast milk." [2001 c 88 § 1.]

RCW 43.70.650 School sealant endorsement program--Rules--Fee--Report to the legislature.

The secretary is authorized to create a school sealant endorsement program for dental hygienists and dental assistants. The secretary of health, in consultation with the dental quality assurance commission and the dental hygiene examining committee, shall adopt rules to implement this section.

(1) A dental hygienist licensed in this state after April 19, 2001, is eligible to apply for endorsement by the department of health as a school sealant dental hygienist upon completion of the Washington state school sealant endorsement program. While otherwise authorized to act, currently licensed hygienists may still elect to apply for the endorsement.

(2) A dental assistant employed after April 19, 2001, by a dentist licensed in this state, who has worked under dental supervision for at least two hundred hours, is eligible to apply for endorsement by the department of health as a school sealant dental assistant upon completion of the Washington state school sealant endorsement program. While otherwise authorized to act, currently employed dental assistants may still elect to apply for the endorsement.

(3) The department may impose a fee for implementation of this section.

(4) The secretary shall provide a report to the legislature by December 1, 2005, evaluating the outcome of chapter 93, Laws of 2001.

[2001 c 93 § 2.]

NOTES:

Findings--Intent--2001 c 93: "The legislature finds that access to preventive and restorative oral health services by low-income children is currently restricted by complex regulatory, financial, cultural, and geographic barriers that have resulted in a large number of children suffering unnecessarily from dental disease. The legislature also finds that very early exposure to oral health care can reverse this disease in many cases, thereby significantly reducing costs of providing dental services to low-income populations.

It is the intent of the legislature to address the problem of poor access to oral health care by providing for school-based sealant programs through the endorsement of dental hygienists." [2001 c 93 § 1.]

Effective date--2001 c 93: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately [April 19, 2001]." [2001 c 93 § 5.]

RCW 43.70.660 Product safety education.

(1) The legislature authorizes the secretary to establish and maintain a product safety education campaign to promote greater awareness of products designed to be used by infants and children, excluding toys, that:

- (a) Are recalled by the United States consumer products safety commission;
- (b) Do not meet federal safety regulations and voluntary safety standards; or
- (c) Are unsafe or illegal to place into the stream of commerce under the infant crib safety

act, chapter 70.111 RCW.

(2) The department shall make reasonable efforts to ensure that this infant and children product safety education campaign reaches the target population. The target population for this campaign includes, but is not limited to, parents, foster parents and other caregivers, child care providers, consignment and resale stores selling infant and child products, and charitable and governmental entities serving infants, children, and families.

(3) The secretary may utilize a combination of methods to achieve this outreach and education goal, including but not limited to print and electronic media. The secretary may operate the campaign or may contract with a vendor.

(4) The department shall coordinate this infant and children product safety education campaign with child-serving entities including, but not limited to, hospitals, birthing centers, midwives, pediatricians, obstetricians, family practice physicians, governmental and private entities serving infants, children, and families, and relevant manufacturers.

(5) The department shall coordinate with other agencies and entities to eliminate duplication of effort in disseminating infant and children consumer product safety information.

(6) The department may receive funding for this infant and children product safety education effort from federal, state, and local governmental entities, child-serving foundations, or other private sources.

[2001 c 257 § 2.]

NOTES:

Findings--Intent--2001 c 257: "(1) The legislature finds that infants and children in Washington are injured, sometimes fatally, by unsafe consumer products designed for use by infants and children.

(2) The legislature finds that parents and other persons responsible for the care of infants and children are often unaware that some of these consumer products have been recalled or are unsafe.

(3) The legislature intends to address this lack of awareness by establishing a statewide infant and children product safety campaign across Washington state." [2001 c 257 § 1.]

RCW 43.72.300 Managed competition--Findings and intent.

(1) The legislature recognizes that competition among health care providers, facilities, payers, and purchasers will yield the best allocation of health care resources, the lowest prices for health care services, and the highest quality of health care when there exists a large number of buyers and sellers, easily comparable health plans and services, minimal barriers to entry and exit into the health care market, and adequate information for buyers and sellers to base purchasing and production decisions. However, the legislature finds that purchasers of health care services and health care coverage do not have adequate information upon which to base purchasing decisions; that health care facilities and providers of health care services face legal

and market disincentives to develop economies of scale or to provide the most cost-efficient and efficacious service; that health insurers, contractors, and health maintenance organizations face market disincentives in providing health care coverage to those Washington residents with the most need for health care coverage; and that potential competitors in the provision of health care coverage bear unequal burdens in entering the market for health care coverage.

(2) The legislature therefore intends to exempt from state anti-trust laws, and to provide immunity from federal anti-trust laws through the state action doctrine for activities approved under this chapter that might otherwise be constrained by such laws and intends to displace competition in the health care market: To contain the aggregate cost of health care services; to promote the development of comprehensive, integrated, and cost-effective health care delivery systems through cooperative activities among health care providers and facilities; to promote comparability of health care coverage; to improve the cost-effectiveness in providing health care coverage relative to health promotion, disease prevention, and the amelioration or cure of illness; to assure universal access to a publicly determined, uniform package of health care benefits; and to create reasonable equity in the distribution of funds, treatment, and medical risk among purchasers of health care coverage, payers of health care services, providers of health care services, health care facilities, and Washington residents. To these ends, any lawful action taken pursuant to chapter 492, Laws of 1993 by any person or entity created or regulated by chapter 492, Laws of 1993 are declared to be taken pursuant to state statute and in furtherance of the public purposes of the state of Washington.

(3) The legislature does not intend and unless explicitly permitted in accordance with RCW 43.72.310 or under rules adopted pursuant to chapter 492, Laws of 1993, does not authorize any person or entity to engage in activities or to conspire to engage in activities that would constitute per se violations of state and federal anti-trust laws including but not limited to conspiracies or agreements:

(a) Among competing health care providers not to grant discounts, not to provide services, or to fix the price of their services;

(b) Among health carriers as to the price or level of reimbursement for health care services;

(c) Among health carriers to boycott a group or class of health care service providers;

(d) Among purchasers of health plan coverage to boycott a particular plan or class of plans;

(e) Among health carriers to divide the market for health care coverage; or

(f) Among health carriers and purchasers to attract or discourage enrollment of any Washington resident or groups of residents in a health plan based upon the perceived or actual risk of loss in including such resident or group of residents in a health plan or purchasing group.

RCW 43.72.310 Managed competition--Competitive oversight--Attorney general

duties--Anti-trust immunity--Fees.

(1) A health carrier, health care facility, health care provider, or other person involved in the development, delivery, or marketing of health care or health plans may request, in writing, that the department of health obtain an informal opinion from the attorney general as to whether particular conduct is authorized by chapter 492, Laws of 1993. Trade secret or proprietary information contained in a request for informal opinion shall be identified as such and shall not be disclosed other than to an authorized employee of the department of health or attorney general without the consent of the party making the request, except that information in summary or aggregate form and market share data may be contained in the informal opinion issued by the attorney general. The attorney general shall issue such opinion within thirty days of receipt of a written request for an opinion or within thirty days of receipt of any additional information requested by the attorney general necessary for rendering an opinion unless extended by the attorney general for good cause shown. If the attorney general concludes that such conduct is not authorized by chapter 492, Laws of 1993, the person or organization making the request may petition the department of health for review and approval of such conduct in accordance with subsection (3) of this section.

(2) After obtaining the written opinion of the attorney general and consistent with such opinion, the department of health:

(a) May authorize conduct by a health carrier, health care facility, health care provider, or any other person that could tend to lessen competition in the relevant market upon a strong showing that the conduct is likely to achieve the policy goals of chapter 492, Laws of 1993 and a more competitive alternative is impractical;

(b) Shall adopt rules governing conduct among providers, health care facilities, and health carriers including rules governing provider and facility contracts with health carriers, rules governing the use of "most favored nation" clauses and exclusive dealing clauses in such contracts, and rules providing that health carriers in rural areas contract with a sufficient number and type of health care providers and facilities to ensure consumer access to local health care services;

(c) Shall adopt rules permitting health care providers within the service area of a plan to collectively negotiate the terms and conditions of contracts with a health carrier including the ability of providers to meet and communicate for the purposes of these negotiations;

(d) Shall adopt rules governing cooperative activities among health care facilities and providers; and

(e) Effective July 1, 1997, in addition to the rule-making authority granted to the department under this section, the department shall have the authority to enforce and administer rules previously adopted by the health services commission and the health care policy board pursuant to RCW 43.72.310.

(3) A health carrier, health care facility, health care provider, or any other person involved in the development, delivery, and marketing of health care services or health plans may file a written petition with the department of health requesting approval of conduct that could tend to lessen competition in the relevant market. Such petition shall be filed in a form and manner prescribed by rule of the department of health.

The department of health shall issue a written decision approving or denying a petition filed under this section within ninety days of receipt of a properly completed written petition unless extended by the department of health for good cause shown. The decision shall set forth findings as to benefits and disadvantages and conclusions as to whether the benefits outweigh the disadvantages.

(4) In authorizing conduct and adopting rules of conduct under this section, the department of health with the advice of the attorney general, shall consider the benefits of such conduct in furthering the goals of health care reform including but not limited to:

- (a) Enhancement of the quality of health services to consumers;
- (b) Gains in cost efficiency of health services;
- (c) Improvements in utilization of health services and equipment;
- (d) Avoidance of duplication of health services resources; or
- (e) And as to (b) and (c) of this subsection: (i) Facilitates the exchange of information relating to performance expectations; (ii) simplifies the negotiation of delivery arrangements and relationships; and (iii) reduces the transactions costs on the part of health carriers and providers in negotiating more cost-effective delivery arrangements.

These benefits must outweigh disadvantages including and not limited to:

- (i) Reduced competition among health carriers, health care providers, or health care facilities;
 - (ii) Adverse impact on quality, availability, or price of health care services to consumers;
- or
- (iii) The availability of arrangements less restrictive to competition that achieve the same benefits.

(5) Conduct authorized by the department of health shall be deemed taken pursuant to state statute and in the furtherance of the public purposes of the state of Washington.

(6) With the assistance of the attorney general's office, the department of health shall actively supervise any conduct authorized under this section to determine whether such conduct or rules permitting certain conduct should be continued and whether a more competitive alternative is practical. The department of health shall periodically review petitioned conduct through, at least, annual progress reports from petitioners, annual or more frequent reviews by the department of health that evaluate whether the conduct is consistent with the petition, and whether the benefits continue to outweigh any disadvantages. If the department of health determines that the likely benefits of any conduct approved through rule, petition, or otherwise by the department of health no longer outweigh the disadvantages attributable to potential reduction in competition, the department of health shall order a modification or discontinuance of such conduct. Conduct ordered discontinued by the department of health shall no longer be deemed to be taken pursuant to state statute and in the furtherance of the public purposes of the state of Washington.

(7) Nothing contained in chapter 492, Laws of 1993 is intended to in any way limit the ability of rural hospital districts to enter into cooperative agreements and contracts pursuant to RCW 70.44.450 and chapter 39.34 RCW.

(8) The secretary of health shall from time to time establish fees to accompany the filing

of a petition or a written request to the department to obtain an opinion from the attorney general under this section and for the active supervision of conduct approved under this section. Such fees may vary according to the size of the transaction proposed in the petition or under active supervision. In setting such fees, the secretary shall consider that consumers and the public benefit when activities meeting the standards of this section are permitted to proceed; the importance of assuring that persons sponsoring beneficial activities are not foreclosed from filing a petition under this section because of the fee; and the necessity to avoid a conflict, or the appearance of a conflict, between the interests of the department and the public. The total fee for a petition under this section, a written request to the department to obtain an opinion from the attorney general, or a combination of both regarding the same conduct shall not exceed the level that will defray the reasonable costs the department and attorney general incur in considering a petition and in no event shall be greater than twenty-five thousand dollars. The fee for review of approved conduct shall not exceed the level that will defray the reasonable costs the department and attorney general incur in conducting such a review and in no event shall be greater than ten thousand dollars per annum. The fees shall be fixed by rule adopted in accordance with the provisions of the administrative procedure act, chapter 34.05 RCW, and shall be deposited in the health professions account established in accordance with RCW 43.70.320.

RCW 43.81.010 Legislative declaration.

The legislature recognizes that significant benefits accrue to the state and that certain types of state operations are more efficient when personnel services are available on an extended basis. Such operations include certain types of facilities managed by agencies such as the departments of natural resources, corrections, fish and wildlife, social and health services, transportation, and veterans affairs, and the parks and recreation commission.

The means of assuring that such personnel are available on an extended basis is through the establishment of on-site state-owned or leased living facilities. The legislature also

recognizes the restrictions and hardship placed upon those personnel who are required to reside in such state-owned or leased living facilities in order to provide extended personnel services.

The legislature further recognizes that there are instances where it is to the benefit of the state to have state-owned or leased living facilities occupied even though such occupancy is not required by the agency as a condition of employment.

[1994 c 264 § 27; 1988 c 36 § 19; 1985 c 463 § 1.]

RCW 43.81.020 Availability of state-owned or leased living facilities.

(1) Whenever an agency requires that an employee reside in state-owned or leased living facilities as a condition of employment, such living facilities shall be made available to the employee under the conditions set forth in RCW 43.81.030 and 43.81.040.

(2) Whenever an agency determines that (a) a living facility owned or leased by the agency is not occupied by employees under subsection (1) of this section and (b) it would be to the agency's benefit to have the facility occupied by an employee of the agency whose duties involve extended personnel services associated with the work site upon which the living facility is located or at work site near to where the living facility is located, the agency may make the facility available to such employee.

(3) Whenever an agency determines that (a) a living facility owned or leased by the agency is not occupied by employees under subsection (1) of this section and (b) the facility has been made available to employees under subsection (2) of this section and that no such employees have opted to reside in the facility, the agency may make the facility available for occupancy to other interested parties.

[1985 c 463 § 2.]

RCW 43.81.030 Rent--Custodial housekeeping--Damages.

(1) No rent may be charged to persons living in facilities provided under RCW 43.81.020(1). Such employees shall pay the costs of utilities associated with the living facility.

(2) Any person occupying state-owned or leased living facilities shall do so with the understanding that he or she assumes custodial housekeeping responsibility as directed by the agency. Such responsibility shall not include maintenance, repairs, or improvements to the facilities. An occupant of a state-owned or leased facility is liable for damages to the facility in excess of normal wear and tear.

RCW 43.82.010 Acquisition, lease, and disposal of real estate for state agencies--Long-range planning--Use of lease as collateral or security--Colocation and consolidation--Studies--Delegation of functions--Exemptions.

(1) The director of general administration, on behalf of the agency involved, shall purchase, lease, lease purchase, rent, or otherwise acquire all real estate, improved or unimproved, as may be required by elected state officials, institutions, departments, commissions, boards, and other state agencies, or federal agencies where joint state and federal activities are undertaken and may grant easements and transfer, exchange, sell, lease, or sublease all or part of any surplus real estate for those state agencies which do not otherwise have the specific authority to dispose of real estate. This section does not transfer financial liability for the acquired property to the department of general administration.

(2) Except for real estate occupied by federal agencies, the director shall determine the location, size, and design of any real estate or improvements thereon acquired or held pursuant to subsection (1) of this section. Facilities acquired or held pursuant to this chapter, and any improvements thereon, shall conform to standards adopted by the director and approved by the office of financial management governing facility efficiency unless a specific exemption from such standards is provided by the director of general administration. The director of general

administration shall report to the office of financial management annually on any exemptions granted pursuant to this subsection.

(3) The director of general administration may fix the terms and conditions of each lease entered into under this chapter, except that no lease shall extend greater than twenty years in duration. The director of general administration may enter into a long-term lease greater than ten years in duration upon a determination by the director of the office of financial management that the long-term lease provides a more favorable rate than would otherwise be available, it appears to a substantial certainty that the facility is necessary for use by the state for the full length of the lease term, and the facility meets the standards adopted pursuant to subsection (2) of this section. The director of general administration may enter into a long-term lease greater than ten years in duration if an analysis shows that the life-cycle cost of leasing the facility is less than the life-cycle cost of purchasing or constructing a facility in lieu of leasing the facility.

(4) Except as permitted under chapter 39.94 RCW, no lease for or on behalf of any state agency may be used or referred to as collateral or security for the payment of securities offered for sale through a public offering. Except as permitted under chapter 39.94 RCW, no lease for or on behalf of any state agency may be used or referred to as collateral or security for the payment of securities offered for sale through a private placement without the prior written approval of the state treasurer. However, this limitation shall not prevent a lessor from assigning or encumbering its interest in a lease as security for the repayment of a promissory note provided that the transaction would otherwise be an exempt transaction under RCW 21.20.320. The state treasurer shall adopt rules that establish the criteria under which any such approval may be granted. In establishing such criteria the state treasurer shall give primary consideration to the protection of the state's credit rating and the integrity of the state's debt management program. If it appears to the state treasurer that any lease has been used or referred to in violation of this subsection or rules adopted under this subsection, then he or she may recommend that the governor cause such lease to be terminated. The department of general administration shall promptly notify the state treasurer whenever it may appear to the department that any lease has been used or referred to in violation of this subsection or rules adopted under this subsection.

(5) It is the policy of the state to encourage the collocation and consolidation of state services into single or adjacent facilities, whenever appropriate, to improve public service delivery, minimize duplication of facilities, increase efficiency of operations, and promote sound growth management planning.

(6) The director of general administration shall provide coordinated long-range planning services to identify and evaluate opportunities for collocating and consolidating state facilities. Upon the renewal of any lease, the inception of a new lease, or the purchase of a facility, the director of general administration shall determine whether an opportunity exists for collocating the agency or agencies in a single facility with other agencies located in the same geographic area. If a collocation opportunity exists, the director of general administration shall consult with the affected state agencies and the office of financial management to evaluate the impact collocation would have on the cost and delivery of agency programs, including whether program delivery would be enhanced due to the centralization of services. The director of general administration, in consultation with the office of financial management, shall develop procedures

for implementing colocation and consolidation of state facilities.

(7) The director of general administration is authorized to purchase, lease, rent, or otherwise acquire improved or unimproved real estate as owner or lessee and to lease or sublet all or a part of such real estate to state or federal agencies. The director of general administration shall charge each using agency its proportionate rental which shall include an amount sufficient to pay all costs, including, but not limited to, those for utilities, janitorial and accounting services, and sufficient to provide for contingencies; which shall not exceed five percent of the average annual rental, to meet unforeseen expenses incident to management of the real estate.

(8) If the director of general administration determines that it is necessary or advisable to undertake any work, construction, alteration, repair, or improvement on any real estate acquired pursuant to subsection (1) or (7) of this section, the director shall cause plans and specifications thereof and an estimate of the cost of such work to be made and filed in his or her office and the state agency benefiting thereby is hereby authorized to pay for such work out of any available funds: PROVIDED, That the cost of executing such work shall not exceed the sum of twenty-five thousand dollars. Work, construction, alteration, repair, or improvement in excess of twenty-five thousand dollars, other than that done by the owner of the property if other than the state, shall be performed in accordance with the public works law of this state.

(9) In order to obtain maximum utilization of space, the director of general administration shall make space utilization studies, and shall establish standards for use of space by state agencies. Such studies shall include the identification of opportunities for colocation and consolidation of state agency office and support facilities.

(10) The director of general administration may construct new buildings on, or improve existing facilities, and furnish and equip, all real estate under his or her management. Prior to the construction of new buildings or major improvements to existing facilities or acquisition of facilities using a lease purchase contract, the director of general administration shall conduct an evaluation of the facility design and budget using life-cycle cost analysis, value-engineering, and other techniques to maximize the long-term effectiveness and efficiency of the facility or improvement.

(11) All conveyances and contracts to purchase, lease, rent, transfer, exchange, or sell real estate and to grant and accept easements shall be approved as to form by the attorney general, signed by the director of general administration or the director's designee, and recorded with the county auditor of the county in which the property is located.

(12) The director of general administration may delegate any or all of the functions specified in this section to any agency upon such terms and conditions as the director deems advisable.

(13) This section does not apply to the acquisition of real estate by:

- (a) The state college and universities for research or experimental purposes;
- (b) The state liquor control board for liquor stores and warehouses; and
- (c) The department of natural resources, the department of fish and wildlife, the department of transportation, and the state parks and recreation commission for purposes other than the leasing of offices, warehouses, and real estate for similar purposes.

(14) Notwithstanding any provision in this chapter to the contrary, the department of

general administration may negotiate ground leases for public lands on which property is to be acquired under a financing contract pursuant to chapter 39.94 RCW under terms approved by the state finance committee.

The purpose of this act is to ensure that recent enhancements to facility and maintenance reporting systems implemented by the office of financial management, and a new program created by the department of general administration to provide maintenance information and technical assistance to state and local agencies, are sustained into the future." RCW 43.83A.020 General obligation bonds--Authorized--Issuance, sale, terms--Appropriation required.

For the purpose of providing funds for the planning, acquisition, construction, and improvement of public waste disposal facilities in this state, the state finance committee is authorized to issue general obligation bonds of the state of Washington in the sum of one hundred ninety-five million dollars or so much thereof as may be required to finance the improvements defined in this chapter and all costs incidental thereto. As used in this section the phrase "public waste disposal facilities" shall not include the acquisition of equipment used to collect, carry, and transport garbage. These bonds shall be paid and discharged within twenty years of the date of issuance or within thirty years should Article VIII of the Constitution of the state of Washington be amended to permit such longer term. Severability--Effective dates--1989 1st ex.s. c 14: See RCW 43.99H.900 and 43.99H.901.

Intent--1989 c 136: "It is the intent of this act to allow the sale of state general obligation bonds to underwriters at a discount so that they may be sold to the public at face value, thereby resulting in lower interest costs to the state. Increases in bond authorizations under this act represent this discount and will have no effect on the amount of money available for the projects to be financed by the bonds." [1989 c 136 § 1.]

Severability--1977 ex.s. c 242: "If any provision of this 1977 amendatory act, or its application to any person or circumstance is held invalid, the remainder of the act, or the application of the provision to other persons or circumstances is not affected." [1977 ex.s. c 242 § 6.]

The proceeds from the sale of bonds authorized by this chapter shall be deposited in the state and local improvements revolving account hereby created in the state treasury and shall be used exclusively for the purpose specified in this chapter and for payment of the expenses incurred in the issuance and sale of the bonds.

RCW 43.83A.040 Administration of proceeds--Use of funds--Integration of disposal systems.

The proceeds from the sale of the bonds deposited in the state and local improvements revolving account of the general fund under the terms of this chapter shall be administered by the state department of ecology subject to legislative appropriation. The department may use or permit the use of any funds derived from the sale of bonds authorized under this chapter to accomplish the purpose for which said bonds are issued by direct expenditures and by grants or loans to public bodies, including grants to public bodies as matching funds in any case where federal, local or other funds are made available on a matching basis for improvements within the purposes of this chapter.

The department may not use or permit the use of any funds derived from the sale of bonds authorized by this chapter for the support of a solid waste recycling activity or service in a locale if the department determines that the activity or service is reasonably available to persons within that locale from private enterprise.

Integration of the management and operation of systems for solid waste disposal with systems of liquid waste disposal holds promise of improved waste disposal efficiency and greater environmental protection and restoration. To encourage the planning for and development of such integration, the legislature may provide for special grant incentives to public bodies which plan for or operate integrated waste disposal management systems.

[1979 c 68 § 2; 1972 ex.s. c 127 § 4.]

RCW 43.83A.050 Definitions.

As used in this chapter, the term "public body" means the state of Washington or any agency, political subdivision, taxing district, or municipal corporation thereof, and those Indian tribes now or hereafter recognized as such by the federal government for participation in the federal land and water conservation program and which may constitutionally receive grants or loans from the state of Washington.

[1980 c 21 § 2; 1979 c 68 § 1; 1972 ex.s. c 127 § 5.]

EMERGENCY WATER WITHDRAWAL AND FACILITIES

RCW 43.83B.300 Legislative findings--General obligation bonds authorized--Issuance, terms--Appropriation required.

The legislature finds that the fundamentals of water resource policy in this state must be

reviewed by the legislature to ensure that the water resources of the state are protected and fully utilized for the greatest benefit to the people of the state of Washington. The legislature further finds that it is necessary to provide the department of ecology with emergency powers to authorize withdrawals of public surface and ground waters, including dead storage within reservoirs, on a temporary basis, and construction of facilities in relation thereto, in order to alleviate emergency water supply conditions arising from the drought forecast for the state of Washington during 1977 and during 1987 through 1989.

The legislature further finds that there is a continuing water supply shortage in many areas of the state and that there is an urgent need to assure the survival of irrigated crops and of the state's fisheries.

The legislature further finds that in addition to water storage facilities or other augmentation programs, improved efficiency of water use could provide an important new supply of water in many parts of the state with which to meet future water needs and that improved efficiency of water use should receive greater emphasis in the management of the state's water resources.

In order to study the fundamentals of water resource policy of the state and to provide needed moneys for the planning, acquisition, construction, and improvement of water supply facilities and for other appropriate measures to assure the survival of irrigated crops and/or the state's fisheries to alleviate emergency water supply conditions arising from droughts occurring from time to time in the state of Washington, and to carry out a comprehensive water use efficiency study for the state of Washington, the state finance committee is authorized to issue general obligation bonds of the state of Washington in the sum of eighteen million dollars, or so much thereof as may be required to finance such projects, and all costs incidental thereto. No bonds authorized by this section and RCW 43.83B.360 through 43.83B.375 shall be offered for sale without prior legislative appropriation, and these bonds shall be paid and discharged within thirty years of the date of issuance in accordance with Article VIII, section 1 of the state Constitution.

Where the department provides water to public or municipal corporations or other governmental bodies having authority to distribute water, the payment for the water may be made pursuant to contract over a period not exceeding twenty-five years from the date of delivery. In all other cases, the department shall obtain payment for waters prior to its delivery to a purchaser. All projects shall be evaluated by applying the said chapter's evaluation and prioritization criteria to insure that only projects related to water shortage problems receive funding. The projects funded shall be limited to those projects providing interties with adjacent utilities, an expanded source of supply, conservation projects which will conserve or maximize efficiency of the existing supply, or a new source of supply. No obligation to provide a grant for a project authorized under this section shall be incurred after June 30, 1977.

RCW 43.83B.385 Appropriations to department of ecology--Authorized projects--Findings.

(1) There is hereby appropriated to the department of ecology for the biennium ending June 30, 1977, from the state emergency water projects revolving account in the general fund, the sum of seven million dollars, or so much thereof as may be necessary, which shall be expended for the financing of the following agricultural water supply and distribution projects from surface water sources: Kennewick Irrigation District; Kittitas Reclamation District; Stemilt Irrigation District; Wenatchee Heights Reclamation District; and the Wenatchee Reclamation District.

(2) There is hereby appropriated to the department of ecology for the biennium ending June 30, 1977, from the state emergency water projects revolving account in the general fund, the sum of five million dollars, or so much thereof as may be necessary, which shall be expended for the financing and construction of agricultural water supply and distribution projects from ground water sources primarily in the Moxee-Ahtanum and Park Creek aquifer areas.

(3) There is hereby appropriated to the department of ecology for the biennium ending June 30, 1977, from the state emergency water supply revolving account in the general fund the sum of six million dollars, or so much thereof as may be necessary, which shall be expended for water withdrawal projects relating to ground and surface waters as provided for in subsections (1) and (2) of this section and for the financing and construction of agricultural water supply and distribution projects from ground and surface water sources which may become required by public bodies other than those identified in this section as a result of the drought forecast for the summer and fall of 1977.

The department may expend funds from the appropriations contained in subsections (1), (2), and (3) of this section to make loans or combinations of loans and grants to public bodies as defined in RCW 43.83B.050. The grant portion of a combination loan and grant to a public body for any project shall not exceed fifteen percent of the total amount received by such project under this section.

The department may expend funds from the appropriations contained in subsections (1), (2), and (3) of this section to make loans or combinations of loans and grants to public bodies as defined in RCW 43.83B.050 to satisfy the matching requirements of RCW 43.83B.210 as now or hereafter amended.

Prior to the funding of any agriculture projects not specifically set forth in this section the department must make a formal finding that: An emergency water shortage condition exists; the project proposed for funding will alleviate the water shortage; the public body recipient of any funds has reasonable capability to repay the loan involved; and the water from the project will be used for a beneficial purpose as a substitute for water not available due to drought conditions.

[1977 ex.s. c 1 § 18.]

RCW 43.83B.400 Drought conditions--Defined--Intent.

It is the intent of the legislature to provide emergency powers to the department of ecology to enable it to take actions, in a timely and expeditious manner, that are designed to alleviate hardships and reduce burdens on various water users and uses arising from drought conditions. As used in this chapter, "drought condition" means that the water supply for a geographical area or for a significant portion of a geographical area is below seventy-five percent of normal and the water shortage is likely to create undue hardships for various water uses and users.

Severability--1989 c 171: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1989 c 171 § 14.]

RCW 43.83B.405 Drought conditions--Withdrawals and diversions--Orders, procedure.

(1) Whenever it appears to the department of ecology that a drought condition either exists or is forecast to occur within the state or portions thereof, the department of ecology is authorized to issue orders, pursuant to rules previously adopted, to implement the powers as set forth in RCW 43.83B.410 through 43.83B.420. The department shall, immediately upon the issuance of an order under this section, cause said order to be published in newspapers of general circulation in the areas of the state to which the order relates. Prior to the issuance of an order, the department shall (a) consult with and obtain the views of the federal and state government entities identified in the drought contingency plan periodically revised by the department pursuant to RCW 43.83B.410(4), and (b) obtain the written approval of the governor. Orders issued under this section shall be deemed orders for the purposes of chapter 34.05 RCW.

(2) Any order issued under subsection (1) of this section shall contain a termination date for the order. The termination date shall be not later than one calendar year from the date the order is issued. Although the department may, with the written approval of the governor, change the termination date by amending the order, no such amendment or series of amendments may have the effect of extending its termination to a date which is later than two calendar years after the issuance of the order.

(3) The provisions of subsection (2) of this section do not preclude the issuance of more than one order under subsection (1) of this section for different areas of the state or sequentially for the same area as the need arises for such an order or orders.

Notes:

Severability--1989 c 171: See note following RCW 43.83B.400.

RCW 43.83B.410 Drought conditions--Withdrawals and diversions--Orders, authority granted.

Upon the issuance of an order under RCW 43.83B.405, the department of ecology is empowered to:

(1)(a) Authorize emergency withdrawal of public surface and ground waters, including dead storage within reservoirs, on a temporary basis and authorize associated physical works which may be either temporary or permanent. The termination date for the authority to make such an emergency withdrawal may not be later than the termination date of the order issued under RCW 43.83B.405 under which the power to authorize the withdrawal is established. The department of ecology may issue such withdrawal authorization when, after investigation and after providing appropriate federal, state, and local governmental bodies an opportunity to comment, the following are found:

(i) The waters proposed for withdrawal are to be used for a beneficial use involving a previously established activity or purpose;

(ii) The previously established activity or purpose was furnished water through rights applicable to the use of a public body of water that cannot be exercised due to the lack of water arising from natural drought conditions; and

(iii) The proposed withdrawal will not reduce flows or levels below essential minimums necessary (A) to assure the maintenance of fisheries requirements, and (B) to protect federal and state interests including, among others, power generation, navigation, and existing water rights;

(b) All withdrawal authorizations issued under this section shall contain provisions that allow for termination of withdrawals, in whole or in part, whenever withdrawals will conflict with flows and levels as provided in (a)(iii) of this subsection. Domestic and irrigation uses of public surface and ground waters shall be given priority in determining "beneficial uses." As to water withdrawal and associated works authorized under this subsection, the requirements of chapter 43.21C RCW and public bidding requirements as otherwise provided by law are waived and inapplicable. All state and local agencies with authority to issue permits or other authorizations for such works shall, to the extent possible, expedite the processing of the permits or authorizations in keeping with the emergency nature of the requests and shall provide a decision to the applicant within fifteen calendar days of the date of application. All state departments or other agencies having jurisdiction over state or other public lands, if such lands are necessary to effectuate the withdrawal authorizations issued under this subsection, shall provide short-term easements or other appropriate property interest upon the payment of the fair market value. This mandate shall not apply to any lands of the state that are reserved for a special purpose or use that cannot properly be carried out if the property interest were conveyed;

(2) Approve a temporary change in purpose, place of use, or point of diversion, consistent with existing state policy allowing transfer or lease of waters between willing parties, as provided for in RCW 90.03.380, 90.03.390, and 90.44.100. However, compliance with any requirements of (a) notice of newspaper publication of these sections or (b) the state environmental policy act, chapter 43.21C RCW, is not required when such changes are necessary

to respond to drought conditions as determined by the department of ecology. An approval of a temporary change of a water right as authorized under this subsection is not admissible as evidence in either supporting or contesting the validity of water claims in *State of Washington, Department of Ecology v. Acquavella*, Yakima county superior court number 77-2-01484-5 or any similar proceeding where the existence of a water right is at issue.

(3) Employ additional persons for specified terms of time, consistent with the term of a drought condition, as are necessary to ensure the successful performance of the activities associated with implementing the emergency drought program of this chapter.

(4) Revise the drought contingency plan previously developed by the department; and

(5) Acquire needed emergency drought-related equipment.

Notes:

Severability--1989 c 171: See note following RCW 43.83B.400.

RCW 43.83B.415 Drought conditions--Loans and grants.

(1) The department of ecology is authorized to make loans, grants, or combinations of loans and grants from emergency agricultural water supply funds when necessary to provide water to alleviate emergency drought conditions in order to ensure the survival of irrigated crops and the state's fisheries. For the purposes of this section, "emergency agricultural water supply funds" means funds appropriated from the state emergency water projects revolving account created under RCW 43.83B.360. The department of ecology may make the loans, grants, or combinations of loans and grants as matching funds in any case where federal, local, or other funds have been made available on a matching basis. The department may make a loan of up to ninety percent of the total eligible project cost or combination loan and grant up to one hundred percent of the total single project cost. The grant portion for any single project shall not exceed twenty percent of the total project cost except that, for activities forecast to have fifty percent or less of normal seasonal water supply, the grant portion for any single project or entity shall not exceed forty percent of the total project cost. No single entity shall receive more than ten percent of the total emergency agricultural water supply funds available for drought relief. These funds shall not be used for nonagricultural drought relief purposes unless there are no other capital budget funds available for these purposes. In any biennium the total expenditures of emergency agricultural water supply funds for nonagricultural drought relief purposes may not exceed ten percent of the total of such funds available during that biennium.

(2)(a) Except as provided in (b) of this subsection, after June 30, 1989, emergency agricultural water supply funds, including the repayment of loans and any accrued interest, shall not be used for any purpose except during drought conditions as determined under RCW 43.83B.400 and 43.83B.405.

(b) Emergency agricultural water supply funds may be used on a one-time basis for the development of procedures to be used by state governmental entities to implement the state's drought contingency plan.

Public funds, deposit and investment, public depositaries: Chapter 39.58 RCW.

RCW 43.86A.010 Finding--Objectives.

The legislature finds that a procedure should be established for the management of short term treasury surplus funds by the state treasurer in order to insure a maximum return while they are on deposit in public depositaries. The objectives of this procedure are to minimize noninterest earning demand deposits and provide fair compensation to financial institutions for services rendered to the state through the investment of state funds in time deposits.

[1983 c 66 § 20; 1973 c 123 § 1.]

Notes:

Severability--1983 c 66: See note following RCW 39.58.010.

RCW 43.86A.020 Surplus funds held as demand deposits to be limited.

After March 19, 1973, the state treasurer shall limit surplus funds held as demand deposits to an amount necessary for current operating expenses including direct warrant redemption payments, investments and revenue collection. The state treasurer may hold such additional funds as demand deposits as he deems necessary to insure efficient treasury management.

[1973 c 123 § 2.]

RCW 43.86A.030 Time certificate of deposit investment program--Funds available for--Allocation.

(1) Funds held in public depositaries not as demand deposits as provided in RCW 43.86A.020 and 43.86A.030, shall be available for a time certificate of deposit investment program according to the following formula: The state treasurer shall apportion to all participating depositaries an amount equal to five percent of the three year average mean of general state revenues as certified in accordance with Article VIII, section 1(b) of the state Constitution, or fifty percent of the total surplus treasury investment availability, whichever is less. Within thirty days after certification, those funds determined to be available according to this formula for the time certificate of deposit investment program shall be deposited in qualified public depositaries. These deposits shall be allocated among the participating depositaries on a basis to be determined by the state treasurer.

(2) The state treasurer may use up to fifty million dollars per year of all funds available under this section for the purposes of RCW 43.86A.060. The amounts made available to these

public depositories shall be equal to the amounts of outstanding loans made under RCW 43.86A.060.

(3) The formula so devised shall be a matter of public record giving consideration to, but not limited to deposits, assets, loans, capital structure, investments or some combination of these factors. However, if in the judgment of the state treasurer the amount of allocation for certificates of deposit as determined by this section will impair the cash flow needs of the state treasury, the state treasurer may adjust the amount of the allocation accordingly.

[1993 c 512 § 33; 1982 c 74 § 1; 1973 c 123 § 3.]

Notes:

Short title--Part headings and section captions--Severability--Effective date--1993 c 512: See RCW 43.172.900 through 43.172.903.

RCW 43.86A.040 Other investment powers of state treasurer not limited.

Except as provided in RCW 43.86A.020 and 43.86A.030, nothing in this chapter shall be construed as a limitation upon the powers of the state treasurer to determine the amount of surplus treasury funds which may be invested in time certificates of deposit.

[1973 c 123 § 4.]

RCW 43.86A.050 Implementation of chapter by state treasurer.

The state treasurer shall devise the necessary formulae and methodology to implement the provisions of this chapter. Periodically, but at least once every six months, the state treasurer shall review all rules and shall adopt, amend or repeal them as may be necessary. These rules and a list of time certificate of deposit allocations shall be published in the treasurer's monthly financial report as required under the provisions of RCW 43.08.150.

[1973 c 123 § 5.]

RCW 43.86A.060 Linked deposit program--Minority and women's business enterprises.

(1) The state treasurer shall establish a linked deposit program for investment of deposits in qualified public depositories. As a condition of participating in the program, qualified public depositories must make qualifying loans as provided in this section. The state treasurer may purchase a certificate of deposit that is equal to the amount of the qualifying loan made by the qualified public depository or may purchase a certificate of deposit that is equal to the aggregate amount of two or more qualifying loans made by one or more qualified public depositories.

(2) Qualifying loans made under this section are those that:

(a) Are loans that have terms that do not exceed ten years;

(b) Are made to a minority or women's business enterprise that has received state certification under chapter 39.19 RCW;

(c) Are made to minority or women's business enterprises that are considered a small business as defined in *RCW 43.31.025;

(d) Are made where the interest rate on the loan to the minority or women's business enterprise does not exceed an interest rate that is two hundred basis points below the interest rate the qualified public depository would charge for a loan for a similar purpose and a similar term; and

(e) Are made where the points or fees charged at loan closing do not exceed one percent of the loan amount.

(3) In setting interest rates of time certificate of deposits, the state treasurer shall offer rates so that a two hundred basis point preference will be given to the qualified public depository.

[1993 c 512 § 30.]

NOTES:

Reviser's note--Sunset Act application: (1) The linked deposit program is subject to review, termination, and possible extension under chapter 43.131 RCW, the Sunset Act. See RCW 43.131.381. RCW 46.86A.060, 43.63A.690, and 43.86A.070 are scheduled for future repeal under RCW 43.131.382.

* (2) RCW 43.31.025 was repealed by 1993 c 280 § 82, effective July 1, 1994.

Finding--Intent--1993 c 512: "The legislature finds that minority and women's business enterprises have been historically excluded from access to capital in the marketplace. The lack of capital has been a major barrier to the development and expansion of business by various minority groups and women. There has been a significant amount of attention on the capital needs of minority and women's business enterprises. It is the intent of the legislature to remedy the problem of a lack of access to capital by minority and women's business enterprises, and other small businesses by authorizing the state treasurer to operate a program that links state deposits to business loans by financial institutions to minority and women's business enterprises." [1993 c 512 § 29.]

RCW 43.86A.070 Linked deposit program--Liability.

The state and those acting as its agents are not liable in any manner for payment of the principal or interest on qualifying loans made under RCW 43.86A.060. Any delay in payments or defaults on the part of the borrower does not in any manner affect the deposit agreement between the qualified public depository and the state treasurer.

Office of financial management: Chapter 43.41 RCW.

RCW 43.88.025 "Director" defined.

Unless the context clearly requires a different interpretation, whenever "director" is used in this chapter, it shall mean the director of financial management created in RCW 43.41.060.

[1979 c 151 § 136; 1969 ex.s. c 239 § 10.]

RCW 43.88.027 Annual financial report.

The governor, through the director, shall prepare and publish within six months of the end of the fiscal year, as a matter of public record, an annual financial report that encompasses all funds and account groups of the state.

[1984 c 247 § 2.]

RCW 43.88.030 Instructions for submitting budget requests--Content of the budget document or documents--Separate budget document or schedules--Format changes.

(1) The director of financial management shall provide all agencies with a complete set of instructions for submitting biennial budget requests to the director at least three months before agency budget documents are due into the office of financial management. The director shall provide agencies and committees that are required under RCW 44.40.070 to develop comprehensive six-year program and financial plans with a complete set of instructions for submitting these program and financial plans at the same time that instructions for submitting other budget requests are provided. The budget document or documents shall consist of the governor's budget message which shall be explanatory of the budget and shall contain an outline of the proposed financial policies of the state for the ensuing fiscal period, as well as an outline of the proposed six-year financial policies where applicable, and shall describe in connection therewith the important features of the budget. The message shall set forth the reasons for salient changes from the previous fiscal period in expenditure and revenue items and shall explain any major changes in financial policy. Attached to the budget message shall be such supporting schedules, exhibits and other explanatory material in respect to both current operations and capital improvements as the governor shall deem to be useful to the legislature. The budget document or documents shall set forth a proposal for expenditures in the ensuing fiscal period, or six-year period where applicable, based upon the estimated revenues and caseloads as approved by the economic and revenue forecast council and caseload forecast council or upon the estimated revenues and caseloads of the office of financial management for those funds, accounts, sources, and programs for which the forecast councils do not prepare an official forecast, including those revenues anticipated to support the six-year programs and financial plans under RCW 44.40.070. In estimating revenues to support financial plans under RCW 44.40.070, the office of financial management shall rely on information and advice from the transportation revenue forecast council. Revenues shall be estimated for such fiscal period from the source and at the rates existing by law at the time of submission of the budget document, including the supplemental budgets submitted in the even-numbered years of a biennium. However, the estimated revenues and caseloads for use in the governor's budget document may be adjusted to reflect budgetary revenue transfers and revenue and caseload estimates dependent upon budgetary assumptions of enrollments, workloads, and caseloads. All adjustments to the approved estimated revenues and caseloads must be set forth in the budget document. The governor may additionally submit, as an appendix to each supplemental, biennial, or six-year agency budget or to the budget document or documents, a proposal for expenditures in the ensuing fiscal period from revenue sources derived from proposed changes in existing statutes.

Supplemental and biennial documents shall reflect a six-year expenditure plan consistent with estimated revenues from existing sources and at existing rates for those agencies required to submit six-year program and financial plans under RCW 44.40.070. Any additional revenue resulting from proposed changes to existing statutes shall be separately identified within the document as well as related expenditures for the six-year period.

The budget document or documents shall also contain:

(a) Revenues classified by fund and source for the immediately past fiscal period, those received or anticipated for the current fiscal period, those anticipated for the ensuing biennium, and those anticipated for the ensuing six-year period to support the six-year programs and financial plans required under RCW 44.40.070;

(b) The undesignated fund balance or deficit, by fund;

(c) Such additional information dealing with expenditures, revenues, workload, performance, and personnel as the legislature may direct by law or concurrent resolution;

(d) Such additional information dealing with revenues and expenditures as the governor shall deem pertinent and useful to the legislature;

(e) Tabulations showing expenditures classified by fund, function, activity, and agency;

(f) A delineation of each agency's activities, including those activities funded from nonbudgeted, nonappropriated sources, including funds maintained outside the state treasury;

(h) Tabulations showing each postretirement adjustment by retirement system established after fiscal year 1991, to include, but not be limited to, estimated total payments made to the end of the previous biennial period, estimated payments for the present biennium, and estimated payments for the ensuing biennium.

(2) The budget document or documents shall include detailed estimates of all anticipated revenues applicable to proposed operating or capital expenditures and shall also include all proposed operating or capital expenditures. The total of beginning undesignated fund balance and estimated revenues less working capital and other reserves shall equal or exceed the total of proposed applicable expenditures. The budget document or documents shall further include:

(a) Interest, amortization and redemption charges on the state debt;

(b) Payments of all reliefs, judgments, and claims;

(c) Other statutory expenditures;

(d) Expenditures incident to the operation for each agency;

(e) Revenues derived from agency operations;

(f) Expenditures and revenues shall be given in comparative form showing those incurred or received for the immediately past fiscal period and those anticipated for the current biennium and next ensuing biennium, as well as those required to support the six-year programs and financial plans required under RCW 44.40.070;

(g) A showing and explanation of amounts of general fund and other funds obligations for debt service and any transfers of moneys that otherwise would have been available for appropriation;

under chapter 41.45 RCW, and the contributions to meet such amortization, stated in total dollars and as a level percentage of total compensation.

(3) A separate capital budget document or schedule shall be submitted that will contain the following:

(a) A statement setting forth a long-range facilities plan for the state that identifies and includes the highest priority needs within affordable spending levels;

(b) A capital program consisting of proposed capital projects for the next biennium and the two biennia succeeding the next biennium consistent with the long-range facilities plan. Inasmuch as is practical, and recognizing emergent needs, the capital program shall reflect the priorities, projects, and spending levels proposed in previously submitted capital budget documents in order to provide a reliable long-range planning tool for the legislature and state agencies;

(c) A capital plan consisting of proposed capital spending for at least four biennia succeeding the next biennium;

(d) A strategic plan for reducing backlogs of maintenance and repair projects. The plan shall include a prioritized list of specific facility deficiencies and capital projects to address the deficiencies for each agency, cost estimates for each project, a schedule for completing projects over a reasonable period of time, and identification of normal maintenance activities to reduce future backlogs;

document, shall identify the projected costs of operation and maintenance for at least the two biennia succeeding the next biennium. Omnibus lists of habitat and recreation land acquisitions shall include individual project cost estimates for operation and maintenance as well as a total for all state projects included in the list. The document shall identify the source of funds from which the operation and maintenance costs are proposed to be funded;

(q) Such other information bearing upon capital projects as the governor deems to be useful;

(r) Standard terms, including a standard and uniform definition of normal maintenance, for all capital projects;

(s) Such other information as the legislature may direct by law or concurrent resolution.

For purposes of this subsection (3), the term "capital project" shall be defined subsequent to the analysis, findings, and recommendations of a joint committee comprised of representatives from the house capital appropriations committee, senate ways and means committee, legislative transportation committee, legislative evaluation and accountability program committee, and office of financial management.

(4) No change affecting the comparability of agency or program information relating to expenditures, revenues, workload, performance and personnel shall be made in the format of any budget document or report presented to the legislature under this section or RCW 43.88.160(1) relative to the format of the budget document or report which was presented to the previous regular session of the legislature during an odd-numbered year without prior legislative concurrence. Prior legislative concurrence shall consist of (a) a favorable majority vote on the proposal by the standing committees on ways and means of both houses if the legislature is in session or (b) a favorable majority vote on the proposal by members of the legislative evaluation and accountability program committee if the legislature is not in session.

RCW 43.88.090 Development of budget--Detailed estimates--Mission statement, measurable goals, program objectives--Integration of strategic plans and performance assessment procedures--Governor-elect input.

(1) For purposes of developing budget proposals to the legislature, the governor shall have the power, and it shall be the governor's duty, to require from proper agency officials such detailed estimates and other information in such form and at such times as the governor shall direct. The estimates for the legislature and the judiciary shall be transmitted to the governor and shall be included in the budget without revision. The estimates for state pension contributions

shall be based on the rates provided in chapter 41.45 RCW. Copies of all such estimates shall be transmitted to the standing committees on ways and means of the house and senate at the same time as they are filed with the governor and the office of financial management.

The estimates shall include statements or tables which indicate, by agency, the state funds which are required for the receipt of federal matching revenues. The estimates shall be revised as necessary to reflect legislative enactments and adopted appropriations and shall be included with the initial biennial allotment submitted under RCW 43.88.110. The estimates must reflect that the agency considered any alternatives to reduce costs or improve service delivery identified in the findings of a performance audit of the agency by the joint legislative audit and review committee. Nothing in this subsection requires performance audit findings to be published as part of the budget.

(2) Each state agency shall define its mission and establish measurable goals for achieving desirable results for those who receive its services and the taxpayers who pay for those services. Each agency shall also develop clear strategies and timelines to achieve its goals. This section does not require an agency to develop a new mission or goals in place of identifiable missions or goals that meet the intent of this section. The mission and goals of each agency must conform to statutory direction and limitations.

(3) For the purpose of assessing program performance, each state agency shall establish program objectives for each major program in its budget. The objectives must be consistent with the missions and goals developed under this section. The objectives must be expressed to the extent practicable in outcome-based, objective, and measurable form unless an exception to adopt a different standard is granted by the office of financial management and approved by the legislative committee on performance review. The office of financial management shall provide necessary professional and technical assistance to assist state agencies in the development of strategic plans that include the mission of the agency and its programs, measurable goals, strategies, and performance measurement systems.

(4) Each state agency shall adopt procedures for continuous self-assessment of each program and activity, using the mission, goals, objectives, and measurements required under subsections (2) and (3) of this section.

(5) It is the policy of the legislature that each agency's budget proposals must be directly linked to the agency's stated mission and program goals and objectives. Consistent with this policy, agency budget proposals must include integration of performance measures that allow objective determination of a program's success in achieving its goals. The office of financial management shall develop a plan to merge the budget development process with agency performance assessment procedures. The plan must include a schedule to integrate agency strategic plans and performance measures into agency budget requests and the governor's budget proposal over three fiscal biennia. The plan must identify those agencies that will implement the revised budget process in the 1997-1999 biennium, the 1999-2001 biennium, and the 2001-2003 biennium. In consultation with the legislative fiscal committees, the office of financial management shall recommend statutory and procedural modifications to the state's budget, accounting, and reporting systems to facilitate the performance assessment procedures and the merger of those procedures with the state budget process. The plan and recommended statutory

and procedural modifications must be submitted to the legislative fiscal committees by September 30, 1996.

(6) In the year of the gubernatorial election, the governor shall invite the governor-elect or the governor-elect's designee to attend all hearings provided in RCW 43.88.100; and the governor shall furnish the governor-elect or the governor-elect's designee with such information as will enable the governor-elect or the governor-elect's designee to gain an understanding of the state's budget requirements. The governor-elect or the governor-elect's designee may ask such questions during the hearings and require such information as the governor-elect or the governor-elect's designee deems necessary and may make recommendations in connection with any item of the budget which, with the governor-elect's reasons therefor, shall be presented to the legislature in writing with the budget document. Copies of all such estimates and other required information shall also be submitted to the standing committees on ways and means of the house and senate.

RCW 43.88.094 Development of budget--Calculation--Tourism development division, department of community, trade, and economic development. (Expires June 30, 2008.)

(1) The budget amount designated in RCW 43.88.093(1) is the sum of the base amount and the growth component as calculated under subsection (2) of this section.

(2) The director of the department of community, trade, and economic development shall

calculate the tourism development division budget in consultation with the appropriate agencies in the following manner:

(a) The base amount, beginning in the budget for the biennium ending June 30, 2001, and for each subsequent biennium thereafter, equals the previous biennial budget, including any supplemental allocations and any growth component amounts from previous biennia.

(b) For the growth component, beginning in the budget for the biennium ending June 30, 2001: (i) Compute the state retail sales tax revenues for the target business categories for the calendar year two years prior to the beginning of the biennium for which the budget request will be made; (ii) compute the state retail sales tax revenues for the target business categories for the calendar year four years prior to the beginning of the biennium for which the budget request will be made; (iii) calculate the percentage change in these two sales tax revenue amounts; (iv) if the percentage exceeds eight percent growth, calculate the amount of sales tax revenue that represents the excess in revenue growth greater than six percent; and (v) calculate the growth component by dividing the excess revenue growth by two. The amount of the growth component for any biennium shall not exceed two million dollars per fiscal year for the biennium.

(3) As used in this section:

(a) "Target business categories" means businesses in standard industrial classification codes 58 (eating and drinking), 70 (lodging), 7514 (auto rental), and 79 (recreation). If at any time the United States office of management and budget or a successor agency should change or replace the present standard industrial classification code system, the department of community, trade, and economic development shall use the code system issued by the office of management and budget or its successor agency to determine codes corresponding to those listed in this definition.

(b) "Retail sales" means the gross sales subject to the tax imposed in chapter 82.08 RCW received by businesses identified in department of revenue records by standard industrial classification codes 58, 70, 7514, and 79.

(4) This section expires June 30, 2008.

RCW 43.88.100 Executive hearings.

The governor may provide for hearings on all agency requests for expenditures to enable him to make determinations as to the need, value or usefulness of activities or programs requested by agencies. The governor may require the attendance of proper agency officials at his hearings and it shall be their duty to disclose such information as may be required to enable the governor to arrive at his final determination.

[1965 c 8 § 43.88.100. Prior: 1959 c 328 § 10.]

RCW 43.88.110 Expenditure programs--Maintenance summary reports--Allotments--Reserves--Monitor capital appropriations--Predesign review for major capital construction.

This section sets forth the expenditure programs and the allotment and reserve procedures to be followed by the executive branch for public funds.

(1) Allotments of an appropriation for any fiscal period shall conform to the terms, limits, or conditions of the appropriation.

(2) The director of financial management shall provide all agencies with a complete set of operating and capital instructions for preparing a statement of proposed expenditures at least thirty days before the beginning of a fiscal period. The set of instructions need not include specific appropriation amounts for the agency.

(3) Within forty-five days after the beginning of the fiscal period or within forty-five days after the governor signs the omnibus biennial appropriations act, whichever is later, all agencies shall submit to the governor a statement of proposed expenditures at such times and in such form as may be required by the governor.

(4) The office of financial management shall develop a method for monitoring capital appropriations and expenditures that will capture at least the following elements:

- (a) Appropriations made for capital projects including transportation projects;
- (b) Estimates of total project costs including past, current, ensuing, and future biennial costs;
- (c) Comparisons of actual costs to estimated costs;
- (d) Comparisons of estimated construction start and completion dates with actual dates;
- (e) Documentation of fund shifts between projects.

This data may be incorporated into the existing accounting system or into a separate project management system, as deemed appropriate by the office of financial management.

(5) The office of financial management shall publish agency annual maintenance summary reports beginning in October 1997. State agencies shall submit a separate report for each major campus or site, as defined by the office of financial management. Reports shall be prepared in a format prescribed by the office of financial management and shall include, but not be limited to: Information describing the number, size, and condition of state-owned facilities; facility maintenance, repair, and operating expenses paid from the state operating and capital budgets, including maintenance staffing levels; the condition of major infrastructure systems; and maintenance management initiatives undertaken by the agency over the prior year. Agencies shall submit their annual maintenance summary reports to the office of financial management by September 1 each year.

(6) The office of financial management, prior to approving allotments for major capital construction projects valued over five million dollars, shall institute procedures for reviewing such projects at the predesign stage that will reduce long-term costs and increase facility efficiency. The procedures shall include, but not be limited to, the following elements:

- (a) Evaluation of facility program requirements and consistency with long-range plans;
- (b) Utilization of a system of cost, quality, and performance standards to compare major

capital construction projects; and

(c) A requirement to incorporate value-engineering analysis and constructability review into the project schedule.

(7) No expenditure may be incurred or obligation entered into for such major capital construction projects including, without exception, land acquisition, site development, predesign, design, construction, and equipment acquisition and installation, until the allotment of the funds to be expended has been approved by the office of financial management. This limitation does not prohibit the continuation of expenditures and obligations into the succeeding biennium for projects for which allotments have been approved in the immediate prior biennium.

(8) If at any time during the fiscal period the governor projects a cash deficit in a particular fund or account as defined by RCW 43.88.050, the governor shall make across-the-board reductions in allotments for that particular fund or account so as to prevent a cash deficit, unless the legislature has directed the liquidation of the cash deficit over one or more fiscal periods. Except for the legislative and judicial branches and other agencies headed by elective officials, the governor shall review the statement of proposed operating expenditures for reasonableness and conformance with legislative intent. Once the governor approves the statements of proposed operating expenditures, further revisions shall be made only at the beginning of the second fiscal year and must be initiated by the governor. However, changes in appropriation level authorized by the legislature, changes required by across-the-board reductions mandated by the governor, changes caused by executive increases to spending authority, and changes caused by executive decreases to spending authority for failure to comply with the provisions of chapter 36.70A RCW may require additional revisions. Revisions shall not be made retroactively. Revisions caused by executive increases to spending authority shall not be made after June 30, 1987. However, the governor may assign to a reserve status any portion of an agency appropriation withheld as part of across-the-board reductions made by the governor and any portion of an agency appropriation conditioned on a contingent event by the appropriations act. The governor may remove these amounts from reserve status if the across-the-board reductions are subsequently modified or if the contingent event occurs. The director of financial management shall enter approved statements of proposed expenditures into the state budgeting, accounting, and reporting system within forty-five days after receipt of the proposed statements from the agencies. If an agency or the director of financial management is unable to meet these requirements, the director of financial management shall provide a timely explanation in writing to the legislative fiscal committees.

(9) It is expressly provided that all agencies shall be required to maintain accounting records and to report thereon in the manner prescribed in this chapter and under the regulations issued pursuant to this chapter. Within ninety days of the end of the fiscal year, all agencies shall submit to the director of financial management their final adjustments to close their books for the fiscal year. Prior to submitting fiscal data, written or oral, to committees of the legislature, it is the responsibility of the agency submitting the data to reconcile it with the budget and accounting data reported by the agency to the director of financial management.

(10) The director of financial management shall monitor agency operating expenditures against the approved statement of proposed expenditures and shall provide the legislature with

quarterly explanations of major variances.

(11) The director of financial management may exempt certain public funds from the allotment controls established under this chapter if it is not practical or necessary to allot the funds. Allotment control exemptions expire at the end of the fiscal biennium for which they are granted. The director of financial management shall report any exemptions granted under this subsection to the legislative fiscal committees.

RCW 43.88.145 Capital projects--Transfer of excess appropriation authority.

(1) The capital appropriations act may authorize the governor, through the director of financial management, to transfer the appropriation authority for a capital project that is in excess of the amount required for the completion of the project to another capital project for which the appropriation is insufficient.

(a) No such transfer may be used to expand the capacity or change the intended use of the project beyond that intended by the legislature in making the appropriation.

(b) The transfer may be effected only between capital projects within a specific department, commission, agency, or institution of higher education.

(c) The transfer may be effected only if the project from which the transfer of funds is made is substantially complete and there are funds remaining, or bids have been let on the project from which the transfer of funds is made and it appears to a substantial certainty that the project can be completed within the biennium for less than the amount appropriated.

(2) For the purposes of this section, the legislature intends that each project be defined as proposed to the legislature in the governor's budget document, unless the legislative history demonstrates that the legislature intended to define the scope of a project in a different way.

(3) The office of financial management shall notify the legislative fiscal committees of

the senate and the house of representatives at least thirty days before any transfer is effected under this section except emergency projects or any transfer under two hundred fifty thousand dollars, and shall prepare a report to such committees listing all completed transfers at the close of each fiscal year.

This subsection does not apply to institutions of higher education, as defined in RCW 28B.10.016.

(2) Unless otherwise provided by law, if state moneys are appropriated for a capital project and matching funds or other contributions are required as a condition of the receipt of the state moneys, the state moneys shall be disbursed in proportion to and only to the extent that the matching funds or other contributions have been received and are available for expenditure.

RCW 43.88.155 Office of financial management.

See chapter 43.41 RCW.

RCW 43.88.160 Fiscal management--Powers and duties of officers and agencies.

This section sets forth the major fiscal duties and responsibilities of officers and agencies of the executive branch. The regulations issued by the governor pursuant to this chapter shall provide for a comprehensive, orderly basis for fiscal management and control, including efficient accounting and reporting therefor, for the executive branch of the state government and may include, in addition, such requirements as will generally promote more efficient public management in the state.

(1) Governor; director of financial management. The governor, through the director of

financial management, shall devise and supervise a modern and complete accounting system for each agency to the end that all revenues, expenditures, receipts, disbursements, resources, and obligations of the state shall be properly and systematically accounted for. The accounting system shall include the development of accurate, timely records and reports of all financial affairs of the state. The system shall also provide for central accounts in the office of financial management at the level of detail deemed necessary by the director to perform central financial management. The director of financial management shall adopt and periodically update an accounting procedures manual. Any agency maintaining its own accounting and reporting system shall comply with the updated accounting procedures manual and the rules of the director adopted under this chapter. An agency may receive a waiver from complying with this requirement if the waiver is approved by the director. Waivers expire at the end of the fiscal biennium for which they are granted. The director shall forward notice of waivers granted to the appropriate legislative fiscal committees. The director of financial management may require such financial, statistical, and other reports as the director deems necessary from all agencies covering any period.

(2) Except as provided in chapter 43.88C RCW, the director of financial management is responsible for quarterly reporting of primary operating budget drivers such as applicable workloads, caseload estimates, and appropriate unit cost data. These reports shall be transmitted to the legislative fiscal committees or by electronic means to the legislative evaluation and accountability program committee. Quarterly reports shall include actual monthly data and the variance between actual and estimated data to date. The reports shall also include estimates of these items for the remainder of the budget period.

(3) The director of financial management shall report at least annually to the appropriate legislative committees regarding the status of all appropriated capital projects, including transportation projects, showing significant cost overruns or underruns. If funds are shifted from one project to another, the office of financial management shall also reflect this in the annual variance report. Once a project is complete, the report shall provide a final summary showing estimated start and completion dates of each project phase compared to actual dates, estimated costs of each project phase compared to actual costs, and whether or not there are any outstanding liabilities or unsettled claims at the time of completion.

(4) In addition, the director of financial management, as agent of the governor, shall:

(a) Develop and maintain a system of internal controls and internal audits comprising methods and procedures to be adopted by each agency that will safeguard its assets, check the accuracy and reliability of its accounting data, promote operational efficiency, and encourage adherence to prescribed managerial policies for accounting and financial controls. The system developed by the director shall include criteria for determining the scope and comprehensiveness of internal controls required by classes of agencies, depending on the level of resources at risk.

Each agency head or authorized designee shall be assigned the responsibility and authority for establishing and maintaining internal audits following the standards of internal auditing of the institute of internal auditors;

(b) Make surveys and analyses of agencies with the object of determining better methods and increased effectiveness in the use of manpower and materials; and the director shall

authorize expenditures for employee training to the end that the state may benefit from training facilities made available to state employees;

(c) Establish policies for allowing the contracting of child care services;

(d) Report to the governor with regard to duplication of effort or lack of coordination among agencies;

(e) Review any pay and classification plans, and changes thereunder, developed by any agency for their fiscal impact: PROVIDED, That none of the provisions of this subsection shall affect merit systems of personnel management now existing or hereafter established by statute relating to the fixing of qualifications requirements for recruitment, appointment, or promotion of employees of any agency. The director shall advise and confer with agencies including appropriate standing committees of the legislature as may be designated by the speaker of the house and the president of the senate regarding the fiscal impact of such plans and may amend or alter said plans, except that for the following agencies no amendment or alteration of said plans may be made without the approval of the agency concerned: Agencies headed by elective officials;

(f) Fix the number and classes of positions or authorized man years of employment for each agency and during the fiscal period amend the determinations previously fixed by the director except that the director shall not be empowered to fix said number or said classes for the following: Agencies headed by elective officials;

(g) Adopt rules to effectuate provisions contained in (a) through (f) of this subsection.

(5) The treasurer shall:

(a) Receive, keep, and disburse all public funds of the state not expressly required by law to be received, kept, and disbursed by some other persons: PROVIDED, That this subsection shall not apply to those public funds of the institutions of higher learning which are not subject to appropriation;

(b) Receive, disburse, or transfer public funds under the treasurer's supervision or custody;

(c) Keep a correct and current account of all moneys received and disbursed by the treasurer, classified by fund or account;

(d) Coordinate agencies' acceptance and use of credit cards and other payment methods, if the agencies have received authorization under RCW 43.41.180;

(e) Perform such other duties as may be required by law or by regulations issued pursuant to this law.

It shall be unlawful for the treasurer to disburse public funds in the treasury except upon forms or by alternative means duly prescribed by the director of financial management. These forms or alternative means shall provide for authentication and certification by the agency head or the agency head's designee that the services have been rendered or the materials have been furnished; or, in the case of loans or grants, that the loans or grants are authorized by law; or, in the case of payments for periodic maintenance services to be performed on state owned equipment, that a written contract for such periodic maintenance services is currently in effect and copies thereof are on file with the office of financial management; and the treasurer shall not be liable under the treasurer's surety bond for erroneous or improper payments so made. When

services are lawfully paid for in advance of full performance by any private individual or business entity other than as provided for by RCW 42.24.035, such individual or entity other than central stores rendering such services shall make a cash deposit or furnish surety bond coverage to the state as shall be fixed in an amount by law, or if not fixed by law, then in such amounts as shall be fixed by the director of the department of general administration but in no case shall such required cash deposit or surety bond be less than an amount which will fully indemnify the state against any and all losses on account of breach of promise to fully perform such services. No payments shall be made in advance for any equipment maintenance services to be performed more than three months after such payment. Any such bond so furnished shall be conditioned that the person, firm or corporation receiving the advance payment will apply it toward performance of the contract. The responsibility for recovery of erroneous or improper payments made under this section shall lie with the agency head or the agency head's designee in accordance with regulations issued pursuant to this chapter. Nothing in this section shall be construed to permit a public body to advance funds to a private service provider pursuant to a grant or loan before services have been rendered or material furnished.

(6) The state auditor shall:

(a) Report to the legislature the results of current post audits that have been made of the financial transactions of each agency; to this end the auditor may, in the auditor's discretion, examine the books and accounts of any agency, official, or employee charged with the receipt, custody, or safekeeping of public funds. Where feasible in conducting examinations, the auditor shall utilize data and findings from the internal control system prescribed by the office of financial management. The current post audit of each agency may include a section on recommendations to the legislature as provided in (c) of this subsection.

(b) Give information to the legislature, whenever required, upon any subject relating to the financial affairs of the state.

(c) Make the auditor's official report on or before the thirty-first of December which precedes the meeting of the legislature. The report shall be for the last complete fiscal period and shall include determinations as to whether agencies, in making expenditures, complied with the laws of this state. The state auditor is authorized to perform or participate in performance verifications and performance audits as expressly authorized by the legislature in the omnibus biennial appropriations acts or in the performance audit work plan approved by the joint legislative audit and review committee. The state auditor, upon completing an audit for legal and financial compliance under chapter 43.09 RCW or a performance verification, may report to the joint legislative audit and review committee or other appropriate committees of the legislature, in a manner prescribed by the joint legislative audit and review committee, on facts relating to the management or performance of governmental programs where such facts are discovered incidental to the legal and financial audit or performance verification. The auditor may make such a report to a legislative committee only if the auditor has determined that the agency has been given an opportunity and has failed to resolve the management or performance issues raised by the auditor. If the auditor makes a report to a legislative committee, the agency may submit to the committee a response to the report. This subsection (6) shall not be construed to authorize the auditor to allocate other than de minimis resources to performance audits except as expressly

authorized in the appropriations acts or in the performance audit work plan. The results of a performance audit conducted by the state auditor that has been requested by the joint legislative audit and review committee must only be transmitted to the joint legislative audit and review committee.

(d) Be empowered to take exception to specific expenditures that have been incurred by any agency or to take exception to other practices related in any way to the agency's financial transactions and to cause such exceptions to be made a matter of public record, including disclosure to the agency concerned and to the director of financial management. It shall be the duty of the director of financial management to cause corrective action to be taken within six months, such action to include, as appropriate, the withholding of funds as provided in RCW 43.88.110. The director of financial management shall annually report by December 31st the status of audit resolution to the appropriate committees of the legislature, the state auditor, and the attorney general. The director of financial management shall include in the audit resolution report actions taken as a result of an audit including, but not limited to, types of personnel actions, costs and types of litigation, and value of recouped goods or services.

(e) Promptly report any irregularities to the attorney general.

(f) Investigate improper governmental activity under chapter 42.40 RCW.

(7) The joint legislative audit and review committee may:

(a) Make post audits of the financial transactions of any agency and management surveys and program reviews as provided for in chapter 44.28 RCW as well as performance audits and program evaluations. To this end the joint committee may in its discretion examine the books, accounts, and other records of any agency, official, or employee.

(b) Give information to the legislature or any legislative committee whenever required upon any subject relating to the performance and management of state agencies.

(c) Make a report to the legislature which shall include at least the following:

(i) Determinations as to the extent to which agencies in making expenditures have complied with the will of the legislature and in this connection, may take exception to specific expenditures or financial practices of any agencies; and

(ii) Such plans as it deems expedient for the support of the state's credit, for lessening expenditures, for promoting frugality and economy in agency affairs, and generally for an improved level of fiscal management.

RCW 43.88.500 State boards, commissions, councils, and committees--Legislative finding and declaration.

The legislature finds that members of boards, commissions, councils, and committees in state government make a valuable contribution to the public welfare.

Nevertheless, the legislature also finds that the continued proliferation of both statutory and nonstatutory groups of this nature without effective, periodic review of existing groups can result in wasteful duplication of effort, fragmentation of administrative authority, lack of accountability, plus an excessive and frequently hidden financial burden on the state.

The legislature further finds that effective legislative oversight and review of boards, commissions, councils, and committees is frustrated by a lack of current and reliable information on the status and activities of such groups.

The legislature declares that legislative oversight and overall accountability in state government can be significantly improved by creating in the office of financial management a central clearinghouse for information on boards, commissions, councils, and committees.

(b) The schedule of expenditures of state moneys is presented fairly in all material respects in relation to the financial statements taken as a whole;

(c) Internal accounting controls exist and are effective; and

(d) The entity has complied with statutes, rules, regulations, and contract and grant provisions that have a direct and material effect on performance of the contract and the expenditure of state moneys.

(6) The office of the state auditor shall prescribe policies and procedures for the conduct of audits under this section. Fiscal impact of proposed legislation on political subdivisions: Chapter 43.132 RCW.

RCW 43.88A.010 Legislative declaration.

The legislature hereby recognizes the necessity of developing a uniform and coordinated procedure for determining the expected fiscal impact of bills and resolutions on state government. The legislature also recognizes that developing such statements of fiscal impact, which shall be known as fiscal notes, requires the designation of a state agency to be principally responsible therefor.

[1977 ex.s. c 25 § 1.]

RCW 43.88A.020 Fiscal notes--Preparation--Contents--Duties of office of financial management.

The office of financial management shall, in cooperation with appropriate legislative committees and legislative staff, establish a procedure for the provision of fiscal notes on the expected impact of bills and resolutions which increase or decrease or tend to increase or decrease state government revenues or expenditures. Such fiscal notes shall indicate by fiscal year the impact for the remainder of the biennium in which the bill or resolution will first take effect as well as a cumulative forecast of the fiscal impact for the succeeding four fiscal years. Fiscal notes shall separately identify the fiscal impacts on the operating and capital budgets. Estimates of fiscal impacts shall be calculated using the procedures contained in the fiscal note instructions issued by the office of financial management.

In establishing the fiscal impact called for pursuant to this chapter, the office of financial management shall coordinate the development of fiscal notes with all state agencies affected.

Notes:

Finding--1994 c 219: See note following RCW 43.88.030.

RCW 43.88A.030 Fiscal notes--Distribution.

When a fiscal note is prepared and approved as to form, accuracy, and completeness by the office of financial management, which depicts the expected fiscal impact of a bill or resolution, copies shall be filed immediately with:

- (1) The chairperson of the committee to which the bill or resolution was referred upon introduction in the house of origin;
- (2) The senate committee on ways and means, or its successor; and
- (3) The house committees on revenue and appropriations, or their successors.

Whenever possible, such fiscal note shall be provided prior to or at the time the bill or resolution is first heard by the committee of reference in the house of origin.

When a fiscal note has been prepared for a bill or resolution, a copy of the fiscal note shall be placed in the bill books or otherwise attached to the bill or resolution and shall remain with the bill or resolution throughout the legislative process insofar as possible.

[1986 c 158 § 16; 1979 ex.s. c 112 § 1; 1979 c 151 § 147; 1977 ex.s. c 25 § 3.]

RCW 43.88A.040 Fiscal notes--Preparation upon request of any legislator.

The office of financial management shall also provide a fiscal note on any legislative proposal at the request of any legislator. Such fiscal note shall be returned to the requesting legislator, and copies shall be filed with the appropriate legislative committees pursuant to RCW 43.88A.030 at the time such proposed legislation is introduced in either house.

[1979 c 151 § 148; 1977 ex.s. c 25 § 4.]

RCW 43.88A.900 Construction of chapter.

Nothing in this chapter shall prevent either house of the legislature from acting on any bill or resolution before it as otherwise provided by the state Constitution, by law, and by the rules and joint rules of the senate and house of representatives, nor shall the lack of any fiscal note as provided in this chapter or any error in the accuracy thereof affect the validity of any measure otherwise duly passed by the legislature.

STATE PAVILION--BOND ISSUE

RCW 43.96B.200 Legislative finding.

The legislature finds that an expansion of the state pavilion at Expo '74 initially authorized for construction by the 1971 legislature is consistent with the purposes of the exposition and the needs of the state of Washington in order that the facility produced will both more adequately serve the state during the exposition and as a permanent structure for the benefit of the state afterwards.

enhancements of said project, the state finance committee is authorized to issue general obligation bonds of the state of Washington in the sum of two million nine hundred thousand dollars, or so much thereof as may be required, to finance the projects defined in RCW 43.96B.200 through 43.96B.245 and all costs incidental thereto. Such bonds shall be paid and discharged within thirty years of the date of issuance in accordance with Article VIII, section 1 of the state Constitution.

None of the bonds authorized in RCW 43.96B.200 through 43.96B.245 shall be sold for less than the par value thereof.

The committee may provide that the bonds, or any of them, may be called prior to the maturity date thereof under such terms, conditions, and provisions as it may determine and may authorize the use of facsimile signatures in the issuance of such bonds and notes, if any. Such bonds shall be payable at such places as the committee may provide.

[1973 1st ex.s. c 116 § 3.]

RCW 43.96B.215 Bond issue--Anticipation notes--Disposition of proceeds--Acquisition of property by Expo '74 commission authorized.

Such portion of the proceeds of the sale of such bonds that may be required for such purpose shall be applied to the payment of the principal of and interest on such anticipation notes which have been issued. The proceeds from the sale of bonds authorized by RCW 43.96B.200 through 43.96B.245 and any interest earned on the interim investment of such proceeds, shall be deposited in the state building construction account of the general fund in the state treasury and shall be used exclusively for the purposes specified in RCW 43.96B.200 through 43.96B.245 and for the payment of expenses incurred in the issuance and sale of the bonds. Outdoor recreational facilities--1963 bond act: Chapter 79A.10 RCW.

RCW 43.99A.010 Declaration of purpose.

The state of Washington possesses unsurpassed natural wealth in the form of mountains, forests, and waters, ideal not only for recreation, but for supplying the special kind of spiritual regeneration that only close association with the outdoors can provide. As the state grows in population, this wilderness is increasingly threatened; prompt action is necessary to preserve it before much of it permanently disappears. Further, the physical expansion of our cities and towns has made it imperative that outdoor breathing space be set aside and permanently reserved for the people who live in them. Such breathing space may take the form of "green belts" especially planned to relieve the monotony of miles of uninterrupted urban or suburban development, or it may take the form of traditional parks. In any case, it must be acquired as soon as possible, while land is still available; and where appropriate, this land must be developed in order to meet the recreational needs of growing numbers of potential users.

[1967 ex.s. c 126 § 1.]

RCW 43.99A.020 General obligation bonds authorized.

For the purpose of providing funds for the acquisition and development of outdoor recreational areas and facilities in this state, the state finance committee is authorized to issue general obligation bonds of the state of Washington in the sum of forty million dollars or so much thereof as may be required to finance the projects described in RCW 43.99A.070 and 43.99A.080. These bonds shall be paid and discharged within twenty years of the date of issuance.

Referral to electorate--1970 ex.s. c 40: "In the event all of the bonds authorized by RCW 43.99A.010 through 43.99A.110 have not been issued on or before September 2, 1970, then this act shall be submitted to the people for their adoption and ratification, or rejection, at the general election to be held in this state on the Tuesday next succeeding the first Monday in November, 1970, in accordance with the provisions of section 3, Article VIII of the state Constitution; and in accordance with the provisions of section 1, Article II of the state Constitution as amended, and the laws adopted to facilitate the operation thereof." [1970 ex.s. c 40 § 3.] "This act" [1970 ex.s. c 40] was adopted and ratified by the people at the November 3, 1970, general election (Referendum Bill No. 21).

RCW 43.99A.030 Form of bonds--Rate of interest--Sale and issuance.

None of the bonds herein authorized shall be sold for less than their par value.

One share shall be allocated for the acquisition and development of outdoor recreation areas and facilities on behalf of the state as the legislature may direct by appropriation. The other share shall be allocated to public bodies as defined in *RCW 43.99.020 for the acquisition and development of outdoor recreational areas and facilities within the jurisdiction of such public bodies. The interagency committee for outdoor recreation is authorized to use or permit the use of any funds derived from the sale of bonds authorized under this chapter as matching funds in any case where federal or other funds are made available on a matching basis for projects within the purposes of this chapter.

In carrying out the purposes of this chapter all counties of the state shall be eligible to participate in the distribution of the bond proceeds. Such programs shall have priority in obtaining the assets to ensure the purpose of this chapter is carried out.

RCW 43.99F.010 Declaration.

The long-range development goals for the state of Washington must include the protection of the resources and environment of the state, the health and safety of its people, and the beneficial uses of water by providing facilities and systems, among others, for the general control, collection, treatment, or disposal of nonradioactive solid and nonradioactive liquid waste materials. The purpose of this chapter is to assist the state and local governments in providing that protection but it is not the purpose of this chapter to provide funding for facilities which encourage development. A high priority in the expenditure of these funds shall be the protection of sole-source aquifers designated pursuant to the federal Safe Drinking Water Act (88 Stat. 1660) which aquifers have been designated as of July 24, 1983.

[1983 c 269 § 1; 1980 c 159 § 1.]

RCW 43.99F.020 General obligation bonds--Authorized--Issuance, sale, terms--Appropriation required.

For the purpose of providing funds to public bodies for the planning, design, acquisition, construction, and improvement of public waste disposal and management facilities, or for purposes of assisting a public body to obtain an ownership interest in waste disposal and management facilities and/or to defray a part of the payments made by a public body to a service provider under a service agreement entered into pursuant to RCW 70.150.060, in this state, the state finance committee is authorized to issue general obligation bonds of the state of

Washington in the sum of three hundred thirty million dollars, or so much thereof as may be required, to finance the improvements defined in this chapter and all costs incidental thereto. The department may not use or permit the use of any funds derived from the sale of bonds authorized by this chapter for: (1) the support of a solid waste recycling activity or service in a locale if the department determines that the activity or service is reasonably available to persons within that locale from private enterprise; or (2) the construction of municipal wastewater facilities unless said facilities have been approved by a general purpose unit of local government in accordance with chapter 36.94 RCW, chapter 35.67 RCW, or RCW 57.16.010. These bonds shall be paid and discharged within thirty years of the date of issuance. No bonds authorized by this chapter shall be offered for sale without prior legislative appropriation of the proceeds of the bonds to be sold.

The proceeds from the sale of bonds authorized by this chapter shall be deposited in the state and local improvements revolving account, Waste Disposal Facilities, 1980 hereby created in the state treasury and shall be used exclusively for the purpose specified in this chapter and for payment of the expenses incurred in the issuance and sale of the bonds.

RCW 43.99F.040 Administration of proceeds.

The proceeds from the sale of the bonds deposited in the state and local improvements revolving account, Waste Disposal Facilities, 1980 of the general fund under the terms of this chapter shall be administered by the state department of ecology subject to legislative appropriation. The department may use or permit the use of any funds derived from the sale of bonds authorized under this chapter to accomplish the purpose for which the bonds are issued by direct expenditures and by grants or loans to public bodies, including grants to public bodies as cost-sharing funds in any case where federal, local, or other funds are made available on a cost-sharing basis for improvements within the purposes of this chapter. The department shall ensure that funds derived from the sale of bonds authorized under this chapter do not constitute more than seventy-five percent of the total cost of any waste disposal or management facility.

Not more than two percent of the proceeds of the bond issue may be used by the department of ecology in relation to the administration of the expenditures, grants, and loans.

At least one hundred fifty million dollars of the proceeds of the bonds authorized by this chapter shall be used exclusively for waste management systems capable of producing renewable energy or energy savings as a result of the management of the wastes. "Renewable energy" means, but is not limited to, the production of steam, hot water for steam heat, electricity, cogeneration, gas, or fuel through the use of wastes by incineration, refuse-derived fuel processes, pyrolysis, hydrolysis, or bioconversion, and energy savings through material recovery from waste source separation and/or recycling.

Integration of the management and operation of systems for solid waste disposal with systems of liquid waste disposal holds promise of improved waste disposal efficiency and greater environmental protection and restoration. To encourage the planning for and development of such integration, the department may provide for special grant incentives to public bodies which plan for or operate integrated waste disposal management systems.

Funds provided for waste disposal and management facilities under this chapter may be used for payments to a service provider under a service agreement pursuant to RCW 70.150.060. If funds are to be used for such payments, the department may make periodic disbursements to a public body or may make a single lump sum disbursement. Disbursements of funds with respect to a facility owned or operated by a service provider shall be equivalent in value to disbursements that would otherwise be made if that facility were owned or operated by a public body. Payments under this chapter for waste disposal and management facilities made to public bodies entering into service agreements pursuant to RCW 70.150.060 shall not exceed amounts paid to public bodies not entering into service agreements.

RCW 43.99G.010 General obligation bonds authorized--Terms--Appropriation required--Short-term obligations.

The state finance committee is authorized to issue general obligation bonds of the state of Washington in the sum of two hundred eighty-five million eight hundred fifty-one thousand dollars, or so much thereof as may be required, to finance the projects authorized in RCW 43.99G.020 and all costs incidental thereto.

the bonds. The state finance committee may obtain insurance or letters of credit and may authorize the execution and delivery of agreements, promissory notes, and other obligations for the purpose of insuring the payment or enhancing the marketability of bonds authorized in this section. Promissory notes or other obligations issued pursuant to this section shall not constitute a debt or the contracting of indebtedness under any constitutional or statutory indebtedness limitation if their payment is conditioned upon the failure of the state to pay the principal or interest on the bonds with respect to which the same relate.

The state finance committee shall consider the issuance of short-term obligations in lieu of long-term obligations for the purposes of more favorable interest rates, lower total interest costs, and increased marketability and for the purpose of retiring the bonds during the life of the project for which they were issued.

RCW 43.99N.010 Definitions.

The definitions in RCW 36.102.010 apply to this chapter.

[1997 c 220 § 209 (Referendum Bill No. 48, approved June 17, 1997).]

RCW 43.99N.020 General obligation bonds--Certifications by public stadium authority--Obligations of team affiliate.

(1) For the purpose of providing funds to pay for operation of the public stadium authority created under RCW 36.102.020, to pay for the preconstruction, site acquisition, design, site preparation, construction, owning, leasing, and equipping of the stadium and exhibition center, and to reimburse the county or the public stadium authority for its direct or indirect expenditures or to repay other indebtedness incurred for these purposes, the state finance committee is authorized to issue general obligation bonds of the state of Washington in the sum of three hundred million dollars, or so much thereof as may be required, for these purposes and all costs incidental thereto. Bonds authorized in this section may be sold at such price as the state finance committee shall determine.

(2) Bonds shall not be issued under this section unless the public stadium authority has certified to the director of financial management that:

(a) A professional football team has made a binding and legally enforceable contractual commitment to play all of its regular season and playoff home games in the stadium and exhibition center, other than games scheduled elsewhere by the league, for a period of time not shorter than the term of the bonds issued or to be issued to finance the initial construction of the stadium and exhibition center;

(b) A team affiliate has entered into one or more binding and legally enforceable contractual commitments with a public stadium authority under RCW 36.102.050 that provide

that:

(i) The team affiliate assumes the risks of cost overruns;

(ii) The team affiliate shall raise at least one hundred million dollars, less the amount, if any, raised by the public stadium authority under RCW 36.102.060(15). The total one hundred million dollars raised, which may include cash payments and in-kind contributions, but does not include any interest earned on the escrow account described in RCW 43.99N.030, shall be applied toward the reasonably necessary preconstruction, site acquisition, design, site preparation, construction, and equipping of the stadium and exhibition center, or to any associated public purpose separate from bond-financed expenses. No part of the payment may be made without the consent of the public stadium authority. In any event, all amounts to be raised by the team affiliate under (b)(ii) of this subsection shall be paid or expended before the completion of the construction of the stadium and exhibition center. To the extent possible, contributions shall be structured in a manner that would allow for the issuance of bonds to construct the stadium and exhibition center that are exempt from federal income taxes;

(iii) The team affiliate shall deposit at least ten million dollars into the *youth athletic facility grant account created in RCW 43.99N.060 upon execution of the lease and development agreements in RCW 36.102.060 (7) and (8);

(iv) At least ten percent of the seats in the stadium for home games of the professional football team shall be for sale at an affordable price. For the purposes of this subsection, "affordable price" means that the price is the average of the lowest ticket prices charged by all other national football league teams;

(v) One executive suite with a minimum of twenty seats must be made available, on a lottery basis, as a free upgrade, at home games of the professional football team, to purchasers of tickets that are not located in executive suites or club seat areas;

(vi) A nonparticipatory interest in the professional football team has been granted to the state beginning on the date on which bonds are issued under this section which only entitles the state to receive ten percent of the gross selling price of the interest in the team that is sold if a majority interest or more of the professional football team is sold within twenty-five years of the date on which bonds are issued under the [this] section. The ten percent shall apply to all preceding sales of interests in the team which comprise the majority interest sold. This provision shall apply only to the first sale of such a majority interest. The ten percent must be deposited in the permanent common school fund. If the debt is retired at the time of the sale, then the ten percent may only be used for costs associated with capital maintenance, capital improvements, renovations, reequipping, replacement, and operations of the stadium and exhibition center;

(vii) The team affiliate must provide reasonable office space to the public stadium authority without charge;

(viii) The team affiliate, in consultation with the public stadium authority, shall work with surrounding areas to mitigate the impact of the construction and operation of the stadium and exhibition center with a budget of at least ten million dollars dedicated to area mitigation. For purposes of this subsection, "mitigation" includes, but is not limited to, parking facilities and amenities, neighborhood beautification projects and landscaping, financial grants for neighborhood programs intended to mitigate adverse impacts caused by the construction and

operation of the stadium and exhibition center, and mitigation measures identified in the environmental impact statement required for the stadium and exhibition center under chapter 43.21C RCW; and

(ix) Twenty percent of the net profit from the operation of the exhibition facility of the stadium and exhibition center shall be deposited into the permanent common school fund. Profits shall be verified by the public stadium authority.

[1997 c 220 § 210 (Referendum Bill No. 48, approved June 17, 1997).]

***Reviser's note:** The "youth athletic facility grant account" was renamed the "youth athletic facility account" by 2000 c 137 § 1.

RCW 43.99N.030 Escrow agreement, account--Distributions.

On or before August 1, 1997: (1) The state treasurer and a team affiliate or an entity that has an option to become a team affiliate shall enter into an escrow agreement creating an escrow account; and (2) the team affiliate or the entity that has an option to become a team affiliate shall deposit the sum of fifty million dollars into the escrow account as a credit against the obligation of the team affiliate in RCW 43.99N.020(2)(b)(ii).

The escrow agreement shall provide that the fifty million dollar deposit shall be invested by the state treasurer and shall earn interest. If the stadium and exhibition center project proceeds, then the interest on amounts in the escrow account shall be for the benefit of the state, and all amounts in the escrow account, including all principal and interest, shall be distributed to the stadium and exhibition center account. The escrow agreement shall provide for appropriate adjustments based on amounts previously and subsequently raised by the team affiliate under RCW 43.99N.020(2)(b)(ii) and amounts previously and subsequently raised by the public stadium authority under RCW 36.102.060(15). If the stadium and exhibition center project does not proceed, all principal and the interest in the escrow account shall be distributed to the team affiliate or the entity that has an option to become a team affiliate.

If in any year the amount accumulated in the stadium and exhibition center account is insufficient for payment of the principal and interest on the bonds issued under RCW 43.99N.020, the amount of the insufficiency shall be a continuing obligation against the stadium and exhibition center account until paid.

The owner and holder of each of the bonds or the trustee for the owner and holder of any of the bonds may by mandamus or other appropriate proceeding require the transfer and payment of funds as directed in this section.

the stadium and exhibition center.

(3) After bonds are issued under RCW 43.99N.020, all moneys in the stadium and exhibition center account shall be used exclusively for the following purposes in the following priority:

(a) On or before June 30th of each year, the office of financial management shall accumulate in the stadium and exhibition center account an amount at least equal to the amount required in the next succeeding twelve months for the payment of principal of and interest on the bonds issued under RCW 43.99N.020;

(b) An additional reserve amount not in excess of the expected average annual principal and interest requirements of bonds issued under RCW 43.99N.020 shall be accumulated and maintained in the account, subject to withdrawal by the state treasurer at any time if necessary to meet the requirements of (a) of this subsection, and, following any withdrawal, reaccumulated from the first tax revenues and other amounts deposited in the account after meeting the requirements of (a) of this subsection; and

(c) The balance, if any, shall be transferred to the youth athletic facility account under subsection (4) of this section.

Any revenues derived from the taxes authorized by RCW 36.38.010(5) and 36.38.040 or other amounts that if used as provided under (a) and (b) of this subsection would cause the loss of any tax exemption under federal law for interest on bonds issued under RCW 43.99N.020 shall be deposited in and used exclusively for the purposes of the youth athletic facility account and shall not be used, directly or indirectly, as a source of payment of principal of or interest on bonds issued under RCW 43.99N.020, or to replace or reimburse other funds used for that purpose.

(4) Any moneys in the stadium and exhibition center account not required or permitted to be used for the purposes described in subsection (3)(a) and (b) of this section shall be deposited in the youth athletic facility account hereby created in the state treasury. Expenditures from the account may be used only for purposes of grants or loans to cities, counties, and qualified nonprofit organizations for community outdoor athletic facilities. Only the director of the interagency committee for outdoor recreation or the director's designee may authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures. The athletic facility grants or loans may be used for acquiring, developing, equipping, maintaining, and improving community outdoor athletic facilities. Funds shall be divided equally between the development of new community outdoor athletic facilities, the improvement of existing community outdoor athletic facilities, and the maintenance of existing community outdoor athletic facilities. Cities, counties, and qualified nonprofit organizations must submit proposals for grants or loans from the account. To the extent that funds are available, cities, counties, and qualified nonprofit organizations must meet eligibility criteria as established by the director of the interagency committee for outdoor recreation. The grants and loans shall be awarded on a competitive application process and the amount of the grant or loan shall be in proportion to the population of the city or county for where the community outdoor athletic facility is located. Grants or loans awarded in any one year need not be distributed in that year. The director of the interagency committee for outdoor

recreation may expend up to one and one-half percent of the moneys deposited in the account created in this subsection for administrative purposes.

RCW 43.99Q.120 Legislative building rehabilitation project--Finding--Intent--Exemption from debt limit.

The legislature finds that it is necessary to complete the rehabilitation of the state legislative building, to extend the useful life of the building, and provide for the permanent relocation of offices displaced by the rehabilitation and create new space for public uses.

Furthermore, it is the intent of the legislature to fund the majority of the rehabilitation and construction using bonds repaid by the capitol building construction account, as provided for in the enabling act and dedicated by the federal government for the sole purpose of establishing a state capitol, to fund the cash elements of the project using capital project surcharge revenues in the Thurston county capital facilities account, and to support the establishment of a private foundation to engage the public in the preservation of the state legislative building and raise private funds for restoration and educational efforts. The bonds repaid by the capitol building construction account, whose revenues are from the sale of capitol building lands, timber, or other materials, shall be exempt from the state debt limit under RCW 39.42.060, and if at any time the capitol building construction account has insufficient revenues to repay the bonds, the legislature may provide additional means for the payment of the bonds, but any such additional means shall be subject to the state debt limit.

finance the rehabilitation and improvements to the legislative building and all costs incidental thereto. The approved rehabilitation plan includes costs associated with earthquake repairs and future earthquake mitigation and allows for associated relocation costs and the acquisition of appropriate relocation space. Bonds authorized in this section shall not constitute indebtedness for purposes of the limitations set forth in RCW 39.42.060, to the extent that the bond payments are paid from the capitol building construction account. Bonds authorized in this section may be sold at a price the state finance committee determines. No bonds authorized in this section may be offered for sale without prior legislative appropriation of the net proceeds of the sale of the bonds. The proceeds of the sale of the bonds issued for the purposes of this section shall be deposited in the capitol historic district construction account hereby created in the state treasury. These proceeds shall be used exclusively for the purposes specified in this section and for the payment of expenses incurred in the issuance and sale of the bonds issued for the purposes of this section, and shall be administered by the office of financial management subject to legislative appropriation.

RCW 43.101.010 Definitions. (Effective January 1, 2002.)

When used in this chapter:

(1) The term "commission" means the Washington state criminal justice training commission.

(2) The term "boards" means the education and training standards boards, the establishment of which are authorized by this chapter.

(3) The term "criminal justice personnel" means any person who serves in a county, city, state, or port commission agency engaged in crime prevention, crime reduction, or enforcement of the criminal law.

(4) The term "law enforcement personnel" means any public employee or volunteer having as a primary function the enforcement of criminal laws in general or any employee or volunteer of, or any individual commissioned by, any municipal, county, state, or combination thereof, agency having as its primary function the enforcement of criminal laws in general as distinguished from an agency possessing peace officer powers, the primary function of which is the implementation of specialized subject matter areas. For the purposes of this subsection "primary function" means that function to which the greater allocation of resources is made.

(5) The term "correctional personnel" means any employee or volunteer who by state, county, municipal, or combination thereof, statute has the responsibility for the confinement, care, management, training, treatment, education, supervision, or counseling of those individuals

whose civil rights have been limited in some way by legal sanction.

(6) A peace officer is "convicted" at the time a plea of guilty has been accepted, or a verdict of guilty or finding of guilt has been filed, notwithstanding the pendency of any future proceedings, including but not limited to sentencing, posttrial or postfact-finding motions and appeals. "Conviction" includes a deferral of sentence and also includes the equivalent disposition by a court in a jurisdiction other than the state of Washington.

(7) "Discharged for disqualifying misconduct" means terminated from employment for: (a) Conviction of (i) any crime committed under color of authority as a peace officer, (ii) any crime involving dishonesty or false statement within the meaning of Evidence Rule 609(a), (iii) the unlawful use or possession of a controlled substance, or (iv) any other crime the conviction of which disqualifies a Washington citizen from the legal right to possess a firearm under state or federal law; (b) conduct that would constitute any of the crimes addressed in (a) of this subsection; or (c) knowingly making materially false statements during disciplinary investigations, where the false statements are the sole basis for the termination.

(8) A peace officer is "discharged for disqualifying misconduct" within the meaning of subsection (7) of this section under the ordinary meaning of the term and when the totality of the circumstances support a finding that the officer resigned in anticipation of discipline, whether or not the misconduct was discovered at the time of resignation, and when such discipline, if carried forward, would more likely than not have led to discharge for disqualifying misconduct within the meaning of subsection (7) of this section.

(9) When used in context of proceedings referred to in this chapter, "final" means that the peace officer has exhausted all available civil service appeals, collective bargaining remedies, and all other such direct administrative appeals, and the officer has not been reinstated as the result of the action. Finality is not affected by the pendency or availability of state or federal administrative or court actions for discrimination, or by the pendency or availability of any remedies other than direct civil service and collective bargaining remedies.

(10) "Peace officer" means any law enforcement personnel subject to the basic law enforcement training requirement of RCW 43.101.200 and any other requirements of that section, notwithstanding any waiver or exemption granted by the commission, and notwithstanding the statutory exemption based on date of initial hire under RCW 43.101.200. Commissioned officers of the Washington state patrol, whether they have been or may be exempted by rule of the commission from the basic training requirement of RCW 43.101.200, are included as peace officers for purposes of this chapter. Fish and wildlife officers with enforcement powers for all criminal laws under *RCW 77.12.055 are peace officers for purposes of this chapter.

[2001 c 167 § 7.]

RCW 43.101.095 Peace officer certification. (Effective January 1, 2002.)

(1) As a condition of continuing employment as peace officers, all Washington peace officers: (a) Shall timely obtain certification as peace officers, or timely obtain certification or exemption therefrom, by meeting all requirements of RCW 43.101.200, as that section is administered under the rules of the commission, as well by meeting any additional requirements under this chapter; and (b) shall maintain the basic certification as peace officers under this chapter. The commission shall certify peace officers who have satisfied, or have been exempted by statute or by rule from, the basic training requirements of RCW 43.101.200 on or before January 1, 2002. Thereafter, the commission may revoke certification pursuant to this chapter.

(2) The commission shall allow a peace officer to retain status as a certified peace officer as long as the officer: (a) Timely meets the basic law enforcement training requirements, or is exempted therefrom, in whole or in part, under RCW 43.101.200 or under rule of the commission; (b) meets or is exempted from any other requirements under this chapter as administered under the rules adopted by the commission; (c) is not denied certification by the commission under this chapter; and (d) has not had certification revoked by the commission.

(3) As a prerequisite to certification, as well as a prerequisite to pursuit of a hearing under RCW 43.101.155, a peace officer must, on a form devised or adopted by the commission, authorize the release to the commission of his or her personnel files, termination papers, criminal investigation files, or other files, papers, or information that are directly related to a certification matter or decertification matter before the commission.

[2001 c 167 § 2.]

RCW 43.101.105 Denial or revocation of peace officer certification. (Effective January 1, 2002.)

Upon request by a peace officer's employer or on its own initiative, the commission may

deny or revoke certification of any peace officer, after written notice and hearing, if a hearing is timely requested by the peace officer under RCW 43.101.155, based upon a finding of one or more of the following conditions:

(1) The peace officer has failed to timely meet all requirements for obtaining a certificate of basic law enforcement training, a certificate of basic law enforcement training equivalency, or a certificate of exemption from the training;

(2) The peace officer has knowingly falsified or omitted material information on an application for training or certification to the commission;

(3) The peace officer has been convicted at any time of a felony offense under the laws of this state or has been convicted of a federal or out-of-state offense comparable to a felony under the laws of this state; except that if a certified peace officer was convicted of a felony before being employed as a peace officer, and the circumstances of the prior felony conviction were fully disclosed to his or her employer before being hired, the commission may revoke certification only with the agreement of the employing law enforcement agency;

(4) The peace officer has been discharged for disqualifying misconduct, the discharge is final, and some or all of the acts or omissions forming the basis for the discharge proceedings occurred on or after January 1, 2002;

(5) The peace officer's certificate was previously issued by administrative error on the part of the commission; or

(6) The peace officer has interfered with an investigation or action for denial or revocation of certificate by: (a) Knowingly making a materially false statement to the commission; or (b) in any matter under investigation by or otherwise before the commission, tampering with evidence or tampering with or intimidating any witness.

[2001 c 167 § 3.]

RCW 43.101.115 Denial or revocation of peace officer certification--Readmission to academy--Reinstatement. (Effective January 1, 2002.)

(1) A person denied a certification based upon dismissal or withdrawal from a basic law enforcement academy for any reason not also involving discharge for disqualifying misconduct is eligible for readmission and certification upon meeting standards established in rules of the commission, which rules may provide for probationary terms on readmission.

(2) A person whose certification is denied or revoked based upon prior administrative error of issuance, failure to cooperate, or interference with an investigation is eligible for certification upon meeting standards established in rules of the commission, rules which may provide for a probationary period of certification in the event of reinstatement of eligibility.

(3) A person whose certification is denied or revoked based upon a felony criminal conviction is not eligible for certification at any time.

(4) A peace officer whose certification is denied or revoked based upon discharge for disqualifying misconduct, but not also based upon a felony criminal conviction, may, five years after the revocation or denial, petition the commission for reinstatement of the certificate or for eligibility for reinstatement. The commission shall hold a hearing on the petition to consider reinstatement, and the commission may allow reinstatement based upon standards established in

rules of the commission. If the certificate is reinstated or eligibility for certification is determined, the commission may establish a probationary period of certification.

(5) A peace officer whose certification is revoked based solely upon a criminal conviction may petition the commission for reinstatement immediately upon a final judicial reversal of the conviction. The commission shall hold a hearing on request to consider reinstatement, and the commission may allow reinstatement based on standards established in rules of the commission. If the certificate is reinstated or if eligibility for certification is determined, the commission may establish a probationary period of certification.

[2001 c 167 § 4.]

RCW 43.101.125 Lapsed peace officer certification--Reinstatement--Rules. (Effective January 1, 2002.)

A peace officer's certification lapses automatically when there is a break of more than twenty-four consecutive months in the officer's service as a full-time law enforcement officer. A break in full-time law enforcement service which is due solely to the pendency of direct review or appeal from a disciplinary discharge, or to the pendency of a work-related injury, does not cause a lapse in certification. The officer may petition the commission for reinstatement of certification. Upon receipt of a petition for reinstatement of a lapsed certificate, the commission shall determine under this chapter and any applicable rules of the commission if the peace officer's certification status is to be reinstated, and the commission shall also determine any requirements which the officer must meet for reinstatement. The commission may adopt rules establishing requirements for reinstatement.

[2001 c 167 § 5.]

RCW 43.101.135 Termination of peace officer--Notification to commission. (Effective January 1, 2002.)

Upon termination of a peace officer for any reason, including resignation, the agency of termination shall, within fifteen days of the termination, notify the commission on a personnel action report form provided by the commission. The agency of termination shall, upon request of the commission, provide such additional documentation or information as the commission deems necessary to determine whether the termination provides grounds for revocation under RCW 43.101.105. The commission shall maintain these notices in a permanent file, subject to RCW 43.101.400.

[2001 c 167 § 6.]

RCW 43.101.145 Written complaint by law enforcement or law enforcement agency to deny or revoke peace officer certification--Immunity of complainant. (Effective January 1, 2002.)

A law enforcement officer or duly authorized representative of a law enforcement agency may submit a written complaint to the commission charging that a peace officer's certificate should be denied or revoked, and specifying the grounds for the charge. Filing a complaint does

not make a complainant a party to the commission's action. The commission has sole discretion whether to investigate a complaint, and the commission has sole discretion whether to investigate matters relating to certification, denial of certification, or revocation of certification on any other basis, without restriction as to the source or the existence of a complaint. A person who files a complaint in good faith under this section is immune from suit or any civil action related to the filing or the contents of the complaint.

[2001 c 167 § 8.]

RCW 43.101.155 Denial or revocation of peace officer certification--Statement of charges--Notice--Hearing. (Effective January 1, 2002.)

(1) If the commission determines, upon investigation, that there is probable cause to believe that a peace officer's certification should be denied or revoked under RCW 43.101.105, the commission must prepare and serve upon the officer a statement of charges. Service on the officer must be by mail or by personal service on the officer. Notice of the charges must also be mailed to or otherwise served upon the officer's agency of termination and any current law enforcement agency employer. The statement of charges must be accompanied by a notice that to receive a hearing on the denial or revocation, the officer must, within sixty days of communication of the statement of charges, request a hearing before the hearings board appointed under RCW 43.101.380. Failure of the officer to request a hearing within the sixty-day period constitutes a default, whereupon the commission may enter an order under RCW 34.05.440.

RCW 43.101.270 Sexual assault--Training for investigating and prosecuting.

(1) Each year the criminal justice training commission shall offer an intensive, integrated training session on investigating and prosecuting sexual assault cases. The training shall place particular emphasis on the development of professionalism and sensitivity towards the victim and the victim's family.

(2) The commission shall seek advice from the Washington association of prosecuting attorneys, the Washington defender association, the Washington association of sheriffs and

(3) The training shall be an integrated approach to sexual assault cases so that prosecutors, law enforcement, defenders, and victim advocates can all benefit from the training.

(4) The training shall be self-supporting through fees charged to the participants of the training.

[1991 c 267 § 2.]

Notes:

Findings--1991 c 267: "The safety of all children is enhanced when sexual assault cases are properly investigated and prosecuted. The victim of the sexual assault and the victim's family have a right to be treated with sensitivity and professionalism, which also increases the likelihood of their continued cooperation with the investigation and prosecution of the case. The legislature finds the sexual assault cases, particularly those involving victims who are children, are difficult to prosecute successfully. The cooperation of a victim and the victim's family through the investigation and prosecution of the sexual assault case is enhanced and the trauma associated with the investigation and prosecution is reduced when trained victim advocates assist the victim and the victim's family through the investigation and prosecution of the case. Trained victim advocates also assist law enforcement, prosecutors, and defense attorneys, by relieving some of the burden of explaining the investigation and prosecution process and possible delays to the victim and accompanying the victim during interviews by the police, prosecutor, and defense attorney, and accompanying the victim during hearings and the trial.

The legislature finds that counties should give priority to the successful prosecution of sexual assault cases, especially those that involve children, by ensuring that prosecutors, investigators, defense attorneys, and victim advocates are properly trained and available. Therefore, the legislature intends to establish a mechanism to provide the necessary training of prosecutors, law enforcement investigators, defense attorneys, and victim advocates and ensure the availability of victim advocates for victims of sexual assault and their families." (3) Where the charge upon which revocation or denial is based is that a peace officer was "discharged for disqualifying misconduct," and the discharge is "final," within the meaning of RCW 43.101.105(4), and the officer received a civil service hearing or arbitration hearing culminating in an affirming decision following separation from service by the employer, the hearings panel may revoke or deny certification if the hearings panel determines that the discharge occurred and was based on disqualifying misconduct; the hearings panel need not redetermine the underlying facts but may make this determination based solely on review of the records and decision relating to the employment separation proceeding. However, the hearings panel may, in its discretion, consider additional evidence to determine whether such a discharge occurred and was based on such disqualifying misconduct. The hearings panel shall, upon written request by the subject peace officer, allow the peace officer to present additional evidence of extenuating circumstances.

Where the charge upon which revocation or denial of certification is based is that a peace officer "has been convicted at any time of a felony offense" within the meaning of RCW 43.101.105(3), the hearings panel shall revoke or deny certification if it determines that the peace officer was convicted of a felony. The hearings panel need not redetermine the underlying facts but may make this determination based solely on review of the records and decision relating to the criminal proceeding. However, the hearings panel shall, upon the panel's determination of relevancy, consider additional evidence to determine whether the peace officer was convicted of a felony.

(a) Medical information on sudden, unexplained child death for first responders, including awareness and sensitivity in dealing with families and child care providers, and the importance of forensically competent death scene investigation;

(b) Information on community resources and support groups available to assist families who have lost a child to sudden, unexplained death, including sudden infant death syndrome; and

(c) The value of timely communication between the county coroner or medical examiner and the public health department, when a sudden, unexplained child death occurs, in order to achieve a better understanding of such deaths, and connecting families to various community and public health support systems to enhance recovery from grief.

[2001 c 82 § 1; 1991 c 176 § 6.]

NOTES:

Finding--Declaration--1991 c 176: "The legislature finds and declares that sudden and unexplained child deaths are a leading cause of death for children under age three. The public interest is served by research and study of the potential causes and indications of such unexplained child deaths and the prevention of inaccurate and inappropriate designation of sudden infant death syndrome (SIDS) as a cause of death. The legislature further finds and declares that law enforcement officers, fire fighters, emergency medical technicians, and other first responders in emergency situations are not adequately informed regarding sudden, unexplained death in young children including but not limited to sudden infant death syndrome, its signs and typical history, and as a result may compound the family and child care provider's grief through conveyed suspicions of a criminal act. Coroners, investigators, and prosecuting attorneys are also in need of updated training on the identification of unexplained death in children under the age of three, including but not limited to sudden infant death syndrome awareness and sensitivity and the establishment of a state-wide uniform protocol in cases of sudden, unexplained child death."

[1983 1st ex.s. c 16 § 23.]

RCW 43.103.901 Effective date--1983 1st ex.s. c 16.

This act is necessary for the immediate preservation of the public peace, health, and safety, the support of the state government and its existing public institutions, and shall take effect July 1, 1983.

RCW 43.105.005 Purpose.

It is a purpose of this chapter to provide for coordinated planning and management of state information services. The legislature recognizes that information systems, telecommunications, equipment, software, and services must satisfy the needs of end users and that many appropriate and cost-effective alternatives exist for meeting these needs, such as shared mainframe computing, shared voice, data, and video telecommunications services, local area networks, departmental minicomputers, and microcomputers.

[1990 c 208 § 1; 1987 c 504 § 1.]

RCW 43.105.017 Legislative intent.

It is the intent of the legislature that:

- (1) State government use voice, data, and video telecommunications technologies to:
 - (a) Transmit and increase access to live, interactive classroom instruction and training;
 - (b) Provide for interactive public affairs presentations, including a public forum for state and local issues;
 - (c) Facilitate communications and exchange of information among state and local elected officials and the general public;
 - (d) Enhance state-wide communications within state agencies; and
 - (e) Through the use of telecommunications, reduce time lost due to travel to in-state meetings;
- (2) Information be shared and administered in a coordinated manner, except when prevented by agency responsibilities for security, privacy, or confidentiality;
- (3) The primary responsibility for the management and use of information, information systems, telecommunications, equipment, software, and services rests with each agency head;
- (4) Resources be used in the most efficient manner and services be shared when cost-effective;
- (5) A structure be created to:
 - (a) Plan and manage telecommunications and computing networks;
 - (b) Increase agencies' awareness of information sharing opportunities; and
 - (c) Assist agencies in implementing such possibilities;
- (6) An acquisition process for equipment, proprietary software, and related services be established that meets the needs of the users, considers the exchange of information, and promotes fair and open competition;
- (7) To the greatest extent possible, major information technology projects be

implemented on an incremental basis;

(8) The state maximize opportunities to exchange and share data and information by moving toward implementation of open system architecture based upon interface standards providing for application and data portability and interoperability;

(9) To the greatest extent possible, the state recognize any price performance advantages which may be available in midrange and personal computing architecture;

(10) The state improve recruitment, retention, and training of professional staff;

(11) Plans, proposals, and acquisitions for information services be reviewed from a financial and management perspective as part of the budget process; and

RCW 43.105.190 Major information technology projects standards and policies--Project evaluation and reporting.

(1) The department, with the approval of the board, shall establish standards and policies governing the planning, implementation, and evaluation of major information technology projects, including those proposed by the superintendent of public instruction, in conjunction with educational service districts, or state-wide or regional providers of K-12 education information technology services. The standards and policies shall:

(a) Establish criteria to identify projects which are subject to this section. Such criteria shall include, but not be limited to, significant anticipated cost, complexity, or state-wide significance of the project; and

(b) Establish a model process and procedures which agencies shall follow in developing and implementing projects within their information technology portfolios. Agencies may propose, for approval by the department, a process and procedures unique to the agency. The department may accept or require modification of such agency proposals or the department may reject such agency proposals and require use of the model process and procedures established under this subsection. Any process and procedures developed under this subsection shall require (i) distinct and identifiable phases upon which funding may be based, (ii) user validation of products through system demonstrations and testing of prototypes and deliverables, and (iii) other elements identified by the board.

The director may terminate a major project if the director determines that the project is not meeting or is not expected to meet anticipated performance standards.

(2) The office of financial management shall establish policies and standards consistent with portfolio-based information technology management to govern the funding of projects developed under this section. The policies and standards shall provide for:

(a) Funding of a project under terms and conditions mutually agreed to by the director, the director of financial management, and the head of the agency proposing the project. However, the office of financial management may require incremental funding of a project on a phase-by-phase basis whereby funds for a given phase of a project may be released only when the office of financial management determines, with the advice of the department, that the previous phase is satisfactorily completed;

(b) Acceptance testing of products to assure that products perform satisfactorily before they are accepted and final payment is made; and

(c) Other elements deemed necessary by the office of financial management.

(3) The department shall evaluate projects based on the demonstrated business needs and

benefits; cost; technology scope and feasibility; impact on the agency's information technology portfolio and on the state-wide infrastructure; and final project implementation plan based upon available funding.

Copies of project evaluations conducted under this subsection shall be submitted to the office of financial management and the chairs, ranking minority members, and staff coordinators of the appropriations committees of the senate and house of representatives.

If there are projects that receive funding from a transportation fund or account, copies of those projects' evaluations conducted under this subsection must be submitted, during the legislative session, to the chairs and ranking minority members of the transportation committees of the senate and the house of representatives. RCW 43.105.250 Electronic access to public records--Findings--Intent.

Based upon the recommendations of the public information access policy task force, the legislature finds that government records and information are a vital resource to both government operations and to the public that government serves. Broad public access to state and local government records and information has potential for expanding citizen access to that information and for improving government services. Electronic methods for locating and transferring information can improve linkages between and among citizens, organizations, businesses, and governments. Information must be managed with great care to meet the objectives of citizens and their governments.

It is the intent of the legislature to encourage state and local governments to develop, store, and manage their public records and information in electronic formats to meet their missions and objectives. Further, it is the intent of the legislature for state and local governments to set priorities for making public records widely available electronically to the public.

RCW 43.105.260 Electronic access to public records--Definitions.

Unless the context requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Local government" means every county, city, town, and every other municipal or quasi-municipal corporation.

(2) "Public record" means as defined in RCW 42.17.020 and chapter 40.14 RCW, and includes legislative records and court records that are available for public inspection.

(3) "State agency" includes every state office, department, division, bureau, board, and commission of the state, and each state elected official who is a member of the executive department.

[1996 c 171 § 2.]

Notes:

Captions not law--Effective dates--1996 c 171: See notes following RCW 43.105.250.

RCW 43.105.270 Electronic access to public records--Planning.

Within existing resources, state agencies shall plan for and implement processes for making information available electronically. Public demand and agencies' missions and goals

shall drive the selection and priorities for government information to be made available electronically. When planning for increased public electronic access, agencies should determine what information the public wants and needs most. Widespread public electronic access does not mean that all government information is able to be made available electronically.

(1) In planning for and implementing electronic access, state agencies shall:

(a) Where appropriate, plan for electronic public access and two-way electronic interaction when acquiring, redesigning, or rebuilding information systems;

(b) Focus on providing electronic access to current information, leaving archival material to be made available digitally as resources allow or as a need arises;

(c) Coordinate technology planning across agency boundaries in order to facilitate electronic access to vital public information;

(d) Develop processes to determine which information the public most wants and needs;

(e) Develop and employ methods to readily withhold or mask nondisclosable data.

(2) In planning or implementing electronic access and two-way electronic interaction and delivery technologies, state agencies and local governments are encouraged to:

(a) Increase their capabilities to receive information electronically from the public and to transmit forms, applications, and other communications and transactions electronically;

(b) Use technologies allowing public access throughout the state that allow continuous access twenty-four hours a day, seven days per week, involve little or no cost to access, and are capable of being used by persons without extensive technological ability; and

(c) Consider and incorporate wherever possible ease of access to electronic technologies by persons with disabilities. In planning and implementing new public electronic access projects, agencies should consult with people who have disabilities, with disability access experts, and the general public.

(3) The final report of the public information access policy task force, "Encouraging Widespread Public Electronic Access to Public Records and Information Held by State and Local Governments," shall serve as a major resource for state agencies and local governments in planning and providing increased access to electronic public records and information.

Notes:

Captions not law--Effective dates--1996 c 171: See notes following RCW 43.105.250.

RCW 43.105.280 Electronic access to public records--Costs and fees.

Funding to meet the costs of providing access, including the building of the necessary information systems, the digitizing of information, developing the ability to mask nondisclosable information, and maintenance and upgrade of information access systems should come primarily from state and local appropriations, federal dollars, grants, private funds, cooperative ventures among governments, nonexclusive licensing, and public/private partnerships. Agencies should not offer customized electronic access services as the primary way of responding to requests or as a primary source of revenue. Fees for staff time to respond to requests, and other direct costs

may be included in costs of providing customized access.

Agencies and local governments are encouraged to pool resources and to form cooperative ventures to provide electronic access to government records and information. State agencies are encouraged to seek federal and private grants for projects that provide increased efficiency and improve government delivery of information and services.

RCW 43.105.290 Electronic access to public records--Government information locator service pilot project.

The state library, with the assistance of the department of information services and the state archives, shall establish a pilot project to design and test an electronic information locator system, allowing members of the public to locate and access electronic public records. In designing the system, the following factors shall be considered: (1) Ease of operation by citizens; (2) access through multiple technologies, such as direct dial and toll-free numbers, kiosks, and the internet; (3) compatibility with private on-line services; and (4) capability of expanding the electronic public records included in the system. The pilot project may restrict the type and quality of electronic public records that are included in the system to test the feasibility of making electronic public records and information widely available to the public.

RCW 43.105.300 Education in use of technology encouraged.

State agencies and local governments are encouraged to provide education for their employees in the use and implementation of electronic technologies. State agencies are encouraged to make maximum use of the provisions of RCW 28B.15.558, and training offered by the state department of personnel, to maximize employee education in the creation, design, maintenance, and use of electronic information systems and improved customer service delivery.

RCW 43.105.310 Accuracy, integrity, and privacy of records and information.

State agencies and local governments that collect and enter information concerning individuals into electronic records and information systems that will be widely accessible by the

public under RCW 42.17.020 shall ensure the accuracy of this information to the extent possible. To the extent possible, information must be collected directly from, and with the consent of, the individual who is the subject of the data. Agencies shall establish procedures for correcting inaccurate information, including establishing mechanisms for individuals to review information about themselves and recommend changes in information they believe to be inaccurate. The inclusion of personal information in electronic public records that is widely available to the public should include information on the date when the data base was created or most recently updated. If personally identifiable information is included in electronic public records that are made widely available to the public, agencies must follow retention and archival schedules in accordance with chapter 40.14 RCW, retaining personally identifiable information only as long as needed to carry out the purpose for which it was collected.

The department may issue certificates to such persons or entities only if after issuing a request for proposals from certification authorities licensed under chapter 19.34 RCW and review of the submitted proposals, makes a determination that such private services are not sufficient to meet the department's published requirements. The department must set forth in writing the basis of any such determination and provide procedures for challenge of the determination as provided by the state procurement requirements; or
- (5) An applicant for a license as a certification authority for the purpose of compliance with RCW 19.34.100(1)(a).

RCW 43.121.110 Parenting skills--Legislative findings.

The legislature believes that parents who have developed good early parenting skills provide homes where children are treated with dignity and respect and where closeness and trust among family members provide children with the basis for a productive adult life. The legislature also believes that children raised in this positive atmosphere will develop self esteem and are unlikely to become dependent upon the social service system or to be involved in the criminal justice system. The legislature further believes that teaching parents good early parenting skills can help eliminate physical and emotional abuse of children.

[1988 c 278 § 1.]

RCW 43.121.120 Community-based early parenting skills programs--Funding.

(1) In order to increase the knowledge of early parenting skills of parents in Washington state, voluntary community based programs on early parenting skills shall be established. The council shall fund, within available funds, and monitor community-based early parenting skills programs in at least three geographically balanced areas around the state. Successful programs which the council and the national center on child abuse and neglect have funded or currently fund, may be used as models for the projects.

(2) The early parenting education program shall be designed to serve families with children ranging from infants through three years old and also to serve expectant parents. The projects may include the following:

- (a) Education for parents about the physical, mental, and emotional development of children;
- (b) Programs to enhance the skills of parents in providing for learning and development of their children;
- (c) Shared learning experiences for children and parents;
- (d) Activities designed to screen for children's physical, mental, emotional, or behavioral problems that may cause learning problems;
- (e) Resources for educational materials which may be borrowed for home use;
- (f) Information on related community resources;
- (g) Group support which may include counseling for parents under stress;
- (h) Emphasis to encourage participation by fathers; or
- (i) Other programs or activities consistent with this chapter.

(3) The programs shall be reviewed periodically to provide that the instruction and materials are not racially, culturally, or sexually biased.

(4) The services provided by the projects shall be coordinated with schools and social services provided in the community to avoid duplication of services.

(5) A sliding fee scale shall be utilized at the discretion of the council.

[1988 c 278 § 2.]

RCW 43.121.130 Decreased state funding of parenting skills programs--Evaluation.

(1) Funding shall be provided, as funds are available, in decreasing amounts over a two-year period, with the goal of having the programs become supported by local communities at the end of a two-year period. State funding may be continued in areas where local funding would be difficult to obtain due to local economic conditions to the extent funding is made available to the council.

(2) The council shall work with the projects in the program to evaluate the results of the projects. The council shall make recommendations on these projects and the program. A project agreeing to develop an evaluation component shall be considered for a three-year funding schedule.

[1998 c 245 § 48; 1988 c 278 § 3.]

RCW 43.121.140 Shaken baby syndrome--Outreach campaign.

The council shall conduct a proactive, public information and communication outreach campaign regarding the dangers of shaking infants and young children, and the causes and prevention of shaken baby syndrome.

The public information campaign shall include production and distribution of a readily understandable brochure regarding shaken baby syndrome, explaining its medical effects upon infants and emphasizing preventive measures.

The brochure shall be distributed free of charge to the parents or guardians of each newborn, upon discharge from a hospital or other health facility. In the event of home birth attended by a licensed midwife, the midwife shall be responsible for presenting the brochure to the parents of the newborn.

The public information campaign may, within available funds, also include communication by electronic media, telephone hotlines, and existing parenting education events funded by the council.

[1993 c 107 § 2.]

Notes:

Finding--1993 c 107: "The legislature finds that shaken baby syndrome is a medically serious, sometimes fatal, usually unintentional matter affecting newborns and very young children.

Vigorous shaking of an infant can result in bleeding inside the head, causing irreversible brain damage, blindness, cerebral palsy, hearing loss, spinal cord injury, seizures, learning disabilities, or death. Many healthy, intelligent infants suffer from shaken baby syndrome because their caregivers were unaware of the dangers. The damage is preventable through education and awareness." [1993 c 107 § 1.]

RCW 43.121.150 Juvenile crime--Legislative findings.

The legislature of the state of Washington finds that community deterioration and family disintegration are increasing problems in our state. One clear indicator of this damage is juvenile crime and violence. The legislature further finds that prevention is one of the best methods of

fighting juvenile crime. Building more facilities to house juvenile offenders can be at best only one part of any solution. Any increased spending on confining juvenile offenders must be closely linked to existing efforts to prevent juvenile crime.

RCW 43.130.010 Purpose.

When either for fiscal reasons, obsolescence or other extraordinary reasons, it becomes necessary to close a state facility, as defined by RCW 43.130.020(2), the state has a responsibility to provide certain benefits to affected employees.

It is the purpose of this chapter to establish an economic impact act for the state of Washington to meet the emergency situation now in existence for state employees affected by the closure of state facilities, as defined in RCW 43.130.020.

[1973 2nd ex.s. c 37 § 1.]

RCW 43.130.020 Definitions.

For purposes of this chapter:

(1) "Employees" includes those persons performing services for the state on a salaried or hourly basis including, but not limited to, persons in "classified service" as defined in RCW 41.06.020(3) and those persons defined as exempt from the state civil service laws pursuant to RCW 41.06.070.

(2) The term "closure of a state facility" means the termination of services being provided by a facility operated by the department of social and health services or in conjunction with the department of natural resources, when such facility is terminated for fiscal reasons, obsolescence, or other extraordinary reasons.

(3) "Classified employees" means those employees performing classified service as

defined in RCW 41.06.020(3).

[1973 2nd ex.s. c 37 § 2.]

RCW 43.130.030 Excluded employment and employees.

Excluded employment and excluded employees under this chapter include, but are not limited to, the following:

(1) State employment related to a single project under a program separately financed by a grant of nonstate funds, federal funds or state funds, or by a combination of such funding, which is designed to provide training or employment opportunities, expertise or additional manpower related to the project or which, because of the nature of the project funding requirements, is not intended as a permanent program.

(2) Activities at least seventy-five percent federally funded by a categorical grant for a specific purpose and any other activities terminated because of actions taken by the federal government or other funding sources other than the state of Washington in eliminating or substantially limiting funding sources, except to the extent that the federal government or such other funding sources may permit the use of nonstate funds to pay for any employee benefits authorized pursuant to this chapter.

(3) The following categories of employees are excluded from benefits under this chapter:

(a) employees refusing transfer to vacant positions in the same or a like job classification and at not more than one full range lower than the same salary range;

(b) classified employees having other than permanent status in the classified service;

(c) employees having less than three years' consecutive state service as an employee, except that such employees shall nonetheless be eligible for the benefits provided in subsections (1), (2), (4) and (5) of RCW 43.130.040.

(d) nothing in this chapter shall affect any other rights currently held by classified employees regarding reduction in force procedures and subsequent reemployment.

[1973 2nd ex.s. c 37 § 3.]

RCW 43.130.040 Benefits.

In order to carry out the purposes of this chapter, the state shall take every reasonable step at its disposal to provide alternative employment and to minimize the economic loss of state employees affected by the closure of state facilities. Affected state employees shall be paid benefits as specified in this section.

(1) Relocation expenses covering the movement of household goods, incurred by the necessity of an employee moving his domicile to be within reasonable commuting distance of a new job site, shall be paid by the state to employees transferring to other state employment by reason of the closure of a facility.

(2) Relocation leave shall be allowed up to five working days' leave with pay for the purpose of locating new residence in the area of employment.

(3) The state shall reimburse the transferring employee to the extent of any unavoidable

financial loss suffered by an employee who sells his home at a price less than the true and fair market value as determined by the county assessor not exceeding three thousand dollars: PROVIDED, That this right of reimbursement must be exercised, and sale of the property must be accomplished, within a period of two years from the date other state employment is accepted.

(4) For employees in facilities which have been terminated who do not choose to participate in the transfer program set forth in the preceding subsections, the following terminal pay plan shall be available:

(a) For qualifying employees, for each one year of continuous state service, one week (five working days) of regular compensation shall be provided.

(b) Regular compensation as used in subsection (a) hereof shall include salary compensation at the rate being paid to the employees at the time operation of the facility is terminated.

(c) Terminal pay as set forth in subsections (a) and (b) hereof shall be paid to the employee at the termination of the employees last month of employment or within thirty days after *the effective date of this 1973 act, whichever is later: PROVIDED, That from the total amount of terminal pay, the average sum of unemployment compensation that the qualifying employee is eligible to receive multiplied by the total number of weeks of terminal pay minus one week shall be deducted.

(d) Those employees electing the early retirement benefits as stated in subsection (5) of this section shall not be eligible for the terminal pay provisions as set forth in this subsection.

(e) Those employees who are reemployed by the state during the period they are receiving terminal pay pursuant to subsections (a), (b) and (c) of this section shall reimburse the state for that portion of the terminal pay covered by the period of new employment.

(5) As an option to transferring to other state employment an employee may elect early retirement under the following conditions:

(a) Notwithstanding the age requirements of RCW 41.40.180, any affected employee under this chapter who has attained the age of fifty-five years, with at least five years creditable service, shall be immediately eligible to retire, with no actuarial reduction in the amount of his pension benefit.

(b) Notwithstanding the age requirements of RCW 41.40.180, any affected employee under this chapter who has attained the age of forty-five years, with at least five years creditable service, shall be immediately eligible to retire with an actuarial reduction in the amount of his pension benefit of three percent for each complete year that such employee is under fifty-five years of age.

(c) Employees who elect to retire pursuant to RCW 41.40.180 shall be eligible to retire while on authorized leave of absence not in excess of one hundred and twenty days.

(d) Employees who elect to retire under the provisions of this section shall not be eligible for any retirement benefit in a year following a year in which their employment income was in excess of six thousand dollars. This six thousand dollars base shall be adjusted annually beginning in 1974 by such cost of living adjustments as are applied by the public employees' retirement system to membership retirement benefits. The public employees retirement system board shall adopt necessary rules and regulations to implement the provisions of this subsection.

GENERAL PROVISIONS

RCW 43.131.010 Short title. (*Expires June 30, 2015.*)

This chapter may be known and cited as the Washington Sunset Act.

[1990 c 297 § 1; 1977 ex.s. c 289 § 1.]

RCW 43.131.020 Findings. (*Expires June 30, 2015.*)

The state legislature finds that state entities may fail to deliver services as effectively and efficiently as is expected by the general public and as originally contemplated by the legislature. It further finds that state government actions have produced a substantial increase in numbers of entities, growth of programs, and proliferation of rules, and that the entire process has evolved without sufficient legislative and executive oversight, regulatory accountability, or a system of checks and balances. The legislature further finds that by establishing a system for the termination, continuation, or modification of state entities, coupled with a system of scheduled review of such entities, it will be in a better position to: Evaluate the need for the continued existence of existing and future state entities; assess the effectiveness and performance of agencies, boards, commissions, and programs; and ensure public accountability. The legislature recognizes that the executive branch shares in this duty and responsibility to assure that state government operates in an efficient, orderly, and responsive manner.

[2000 c 189 § 1; 1977 ex.s. c 289 § 2.]

Legislative fiscal notes: Chapter 43.88A RCW.

RCW 43.132.010 Intent.

It is the intent of this chapter to create a uniform and coordinated procedure to determine the fiscal impact of proposed legislation on units of local government.

[1977 ex.s. c 19 § 1.]

RCW 43.132.020 Fiscal notes--Preparation--Contents--Scope--Revisions--Reports.

The director of financial management or the director's designee shall, in cooperation with appropriate legislative committees and legislative staff, establish a mechanism for the determination of the fiscal impact of proposed legislation which if enacted into law would directly or indirectly increase or decrease revenues received or expenditures incurred by counties, cities, towns, or any other units of local government. The office of financial management shall, when requested by a member of the state legislature, report in writing as to such fiscal impact and said report shall be known as a "fiscal note".

Such fiscal notes shall indicate by fiscal year the total impact on the local governments involved for the first two years the legislation would be in effect and also a cumulative six year forecast of the fiscal impact. Where feasible and applicable, the fiscal note also shall indicate the fiscal impact on each individual county or on a representative sampling of cities, towns, or other

units of local government.

A fiscal note as defined in this section shall be provided only upon request of any member of the state legislature. A request for a fiscal note on legislation shall be considered to be a continuing request for a fiscal note on any formal alteration of the legislation in the form of amendments to the legislation that are adopted by a committee or a house of the legislature or a substitute version of such legislation that is adopted by a committee and preparation of the fiscal note on the prior version of the legislation shall stop, unless the legislator requesting the fiscal note specifies otherwise or the altered version is first adopted or enacted in the last week of a legislative session.

Fiscal notes shall be completed within one week of the request unless a longer time period is allowed by the requesting legislator. In the event a fiscal note has not been completed within one week of a request, a daily report shall be prepared for the requesting legislator by the director of financial management which report summarizes the progress in preparing the fiscal note. If the request is referred to the director of community, trade, and economic development, the daily report shall also include the date and time such referral was made.

[2000 c 182 § 2; 1995 c 399 § 79; 1984 c 125 § 16; 1979 c 151 § 149; 1977 ex.s. c 19 § 2.]

Notes:

Intent--2000 c 182: "It is the intent of the legislature to enhance the local government fiscal note process by providing for updated fiscal information on pending legislation and to establish a process for a more comprehensive report on the fiscal impacts to local governments arising from laws that have been enacted. Further, it is the intent of the legislature that the varying effects of legislation on different local governments be recognized. This act is enacted in recognition of the responsibilities imposed by RCW 43.135.060." [2000 c 182 § 1.]

Severability--Headings--Effective date--1984 c 125: See RCW 43.63A.901 through 43.63A.903.

RCW 43.132.030 Designation of department of community, trade, and economic development to prepare fiscal notes--Cooperation of state agencies, legislative staffs, and local government associations.

The director of financial management is hereby empowered to designate the director of community, trade, and economic development as the official responsible for the preparation of fiscal notes authorized and required by this chapter. It is the intent of the legislature that when necessary the resources of other state agencies, appropriate legislative staffs, and the various associations of local government may be employed in the development of such fiscal notes.

[1995 c 399 § 80; 1985 c 6 § 10; 1979 c 151 § 150; 1977 ex.s. c 19 § 3.]

RCW 43.132.040 Fiscal notes--Transmission of copies to designated recipients.

When a fiscal note is prepared and approved as to form and completeness by the director of financial management, the director shall transmit copies immediately to:

- (1) The requesting legislator;
- (2) With respect to proposed legislation held by the senate, the chairperson of the committee which holds or has acted upon the proposed legislation, the chairperson of the ways

and means committee or equivalent committees with jurisdiction over matters normally considered by a ways and means committee, the chairperson of the local government committee or equivalent committee that considers local government matters, and the secretary of the senate; and

(3) With respect to proposed legislation held by the house of representatives, the chairperson of the committee which holds or has acted upon the proposed legislation, the chairpersons of the ways and means committee or equivalent committees with jurisdiction over matters normally considered by a ways and means committee, the chairperson of the local government committee or equivalent committee that considers local government matters, and the chief clerk of the house of representatives.

[2000 c 182 § 3; 1986 c 158 § 18; 1979 c 151 § 151; 1977 ex.s. c 19 § 4.]

Notes:

Intent--2000 c 182: See note following RCW 43.132.020.

RCW 43.132.050 Fiscal notes--Transmission of copies upon request.

The office of financial management may make additional copies of the fiscal note available to members of the legislature and others on request.

At the request of any member of the senate or house of representatives, whichever is considering the proposed legislation, and unless it is prohibited by the rules of the body, copies of the fiscal note or a synopsis thereof shall be placed on the members' desks at the time the proposed legislation takes its place on the second reading calendar.

Whenever proposed legislation accompanied by such a fiscal note is passed by either the senate or the house of representatives, the fiscal note shall be transmitted with the bill to the other house.

[1986 c 158 § 19; 1979 c 151 § 152; 1977 ex.s. c 19 § 5.]

RCW 43.132.055 Fiscal notes--Expenditures by local government--Fiscal responsibility.

When the fiscal note indicates that a bill or resolution would require expenditures of funds by a county, city, town, or other unit of local government, the legislature shall determine the state's fiscal responsibility and shall make every effort to appropriate the funds or provide the revenue generating authority necessary to implement the legislation during the ensuing biennium.

[1979 ex.s. c 112 § 2.]

RCW 43.132.060 Legislative action upon or validity of measures not affected.

(1) Nothing in this chapter shall prevent either house of the legislature from acting on any bill or resolution before it as otherwise provided by the state Constitution, by law, and by the rules of the senate and house of representatives, nor shall the lack of any fiscal note as provided

in this chapter or any error in the accuracy thereof affect the validity of any measure otherwise duly passed by the legislature.

(2) Subsection (1) of this section shall not alter the responsibilities of RCW 43.135.060.

[2000 c 182 § 4; 1977 ex.s. c 19 § 6.]

The office of financial management, in consultation with the department of community, trade, and economic development, shall annually select up to five laws to include within this report from a recommended list of laws approved by the legislature. The office of financial management, in consultation with the department of community, trade, and economic development, may select up to five laws to include within this report if the legislature does not approve a recommended list.

RCW 43.135.010 Findings--Intent.

The people of the state of Washington hereby find and declare:

(1) The continuing increases in our state tax burden and the corresponding growth of state government is contrary to the interest of the people of the state of Washington.

(2) It is necessary to limit the rate of growth of state government while assuring adequate funding of essential services, including basic education as defined by the legislature.

(3) The current budgetary system in the state of Washington lacks stability. The system encourages crisis budgeting and results in cutbacks during lean years and overspending during surplus years.

(4) It is therefore the intent of this chapter to:

(a) Establish a limit on state expenditures that will assure that the growth rate of state expenditures does not exceed the growth rate of inflation and state population;

(b) Assure that local governments are provided funds adequate to render those services deemed essential by their citizens;

(c) Assure that the state does not impose responsibility on local governments for new programs or increased levels of service under existing programs unless the costs thereof are paid by the state;

(d) Provide for adjustment of the limit when costs of a program are transferred between the state and another political entity;

(e) Establish a procedure for exceeding this limit in emergency situations;

(f) Provide for voter approval of tax increases; and

(g) Avoid overfunding and underfunding state programs by providing stability, consistency, and long-range planning.

[1994 c 2 § 1 (Initiative Measure No. 601, approved November 2, 1993); 1980 c 1 § 1 (Initiative Measure No. 62, approved November 6, 1979).]

RCW 43.135.025 General fund expenditure limit--Computation--Annual limit adjustment--Definitions--Emergency exception--State treasurer duty, penalty--State expenditure limit committee.

(1) The state shall not expend from the general fund during any fiscal year state moneys in excess of the state expenditure limit established under this chapter.

(2) Except pursuant to a declaration of emergency under RCW 43.135.035 or pursuant to an appropriation under RCW 43.135.045(4)(b), the state treasurer shall not issue or redeem any check, warrant, or voucher that will result in a state general fund expenditure for any fiscal year in excess of the state expenditure limit established under this chapter. A violation of this subsection constitutes a violation of RCW 43.88.290 and shall subject the state treasurer to the penalties provided in RCW 43.88.300.

(3) The state expenditure limit for any fiscal year shall be the previous fiscal year's state expenditure limit increased by a percentage rate that equals the fiscal growth factor.

(4) For purposes of computing the state expenditure limit for the fiscal year beginning July 1, 1995, the phrase "the previous fiscal year's state expenditure limit" means the total state expenditures from the state general fund, not including federal funds, for the fiscal year beginning July 1, 1989, plus the fiscal growth factor. This calculation is then computed for the state expenditure limit for fiscal years 1992, 1993, 1994, and 1995, and as required under RCW 43.135.035(4).

(5) A state expenditure limit committee is established for the purpose of determining and adjusting the state expenditure limit as provided in this chapter. The members of the state

expenditure limit committee are the director of financial management, the attorney general or the attorney general's designee, and the chairs of the senate committee on ways and means and the house of representatives committee on appropriations. All actions of the state expenditure limit committee taken pursuant to this chapter require an affirmative vote of at least three members.

(6) Each November, the state expenditure limit committee shall adjust the expenditure limit for the preceding fiscal year based on actual expenditures and known changes in the fiscal growth factor and then project an expenditure limit for the next two fiscal years. If, by November 30th, the state expenditure limit committee has not adopted the expenditure limit adjustment and projected expenditure limit as provided in subsection (5) of this section, the attorney general or his or her designee shall adjust or project the expenditure limit, as necessary.

(7) "Fiscal growth factor" means the average of the sum of inflation and population change for each of the prior three fiscal years.

(8) "Inflation" means the percentage change in the implicit price deflator for the United States for each fiscal year as published by the federal bureau of labor statistics.

(9) "Population change" means the percentage change in state population for each fiscal year as reported by the office of financial management.

[2000 2nd sp.s. c 2 § 1; 1994 c 2 § 2 (Initiative Measure No. 601, approved November 2, 1993).]

Notes:

Effective date--2000 2nd sp.s. c 2: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect July 1, 2000." [2000 2nd sp.s. c 2 § 4.]

RCW 43.135.035 Tax legislation--Conditions and restrictions--Ballot title--Declarations of emergency--Taxes on intangible property--Expenditure limit to reflect program cost shifting or fund transfer.

(1) After July 1, 1995, any action or combination of actions by the legislature that raises state revenue or requires revenue-neutral tax shifts may be taken only if approved by a two-thirds vote of each house, and then only if state expenditures in any fiscal year, including the new revenue, will not exceed the state expenditure limits established under this chapter.

(2)(a) If the legislative action under subsection (1) of this section will result in expenditures in excess of the state expenditure limit, then the action of the legislature shall not take effect until approved by a vote of the people at a November general election. The office of financial management shall adjust the state expenditure limit by the amount of additional revenue approved by the voters under this section. This adjustment shall not exceed the amount of revenue generated by the legislative action during the first full fiscal year in which it is in effect. The state expenditure limit shall be adjusted downward upon expiration or repeal of the legislative action.

(b) The ballot title for any vote of the people required under this section shall be substantially as follows:

"Shall taxes be imposed on in order to allow a spending increase above last year's authorized spending adjusted for inflation and population increases?"

(3)(a) The state expenditure limit may be exceeded upon declaration of an emergency for a period not to exceed twenty-four months by a law approved by a two-thirds vote of each house of the legislature and signed by the governor. The law shall set forth the nature of the emergency, which is limited to natural disasters that require immediate government action to alleviate human suffering and provide humanitarian assistance. The state expenditure limit may be exceeded for no more than twenty-four months following the declaration of the emergency and only for the purposes contained in the emergency declaration.

(b) Additional taxes required for an emergency under this section may be imposed only until thirty days following the next general election, unless an extension is approved at that general election. The additional taxes shall expire upon expiration of the declaration of emergency. The legislature shall not impose additional taxes for emergency purposes under this subsection unless funds in the education construction fund have been exhausted.

(c) The state or any political subdivision of the state shall not impose any tax on intangible property listed in RCW 84.36.070 as that statute exists on January 1, 1993.

(4) If the cost of any state program or function is shifted from the state general fund on or after January 1, 1993, to another source of funding, or if moneys are transferred from the state general fund to another fund or account, the state expenditure limit committee, acting pursuant to RCW 43.135.025(5), shall lower the state expenditure limit to reflect the shift. For the purposes of this section, a transfer of money from the state general fund to another fund or account includes any state legislative action taken after July 1, 2000, that has the effect of reducing revenues from a particular source, where such revenues would otherwise be deposited into the state general fund, while increasing the revenues from that particular source to another state or local government account. This subsection does not apply to the dedication or use of lottery revenues under RCW 67.70.240(3) or property taxes under RCW 84.52.068, in support of education or education expenditures.

(5) If the cost of any state program or function is shifted to the state general fund on or after January 1, 2000, from another source of funding, or if moneys are transferred to the state general fund from another fund or account, the state expenditure limit committee, acting pursuant to RCW 43.135.025(5), shall increase the state expenditure limit to reflect the shift.

[2001 c 3 § 8 (Initiative Measure No. 728, approved November 7, 2000); 2000 2nd sp.s. c 2 § 2; 1994 c 2 § 4 (Initiative Measure No. 601, approved November 2, 1993).]

NOTES:

Reviser's note: This section was amended by 2001 c 3 § 8 (Initiative Measure No. 728) without cognizance of its amendment by 2000 2nd sp.s. c 2 § 2. All amendments are incorporated in the publication of this section pursuant to RCW 1.12.025(2). For rule of construction, see RCW 1.12.025(1).

RCW 43.135.045 Emergency reserve fund--Excess balance to education construction fund--Appropriation conditions--Transfer of earnings to multimodal transportation

account (as amended by 2000 2nd sp.s. c 5 and 2000 2nd sp.s. c 2).

(1) The emergency reserve fund is established in the state treasury. During each fiscal year, the state treasurer shall deposit in the emergency reserve fund all general fund--state revenues in excess of the state expenditure limit for that fiscal year. Deposits shall be made at the end of each fiscal quarter based on projections of state revenues and the state expenditure limit. The treasurer shall make transfers between these accounts as necessary to reconcile actual annual revenues and the expenditure limit for fiscal year 2000 and thereafter.

(2) The legislature may appropriate moneys from the emergency reserve fund only with approval of at least two-thirds of the members of each house of the legislature, and then only if the appropriation does not cause total expenditures to exceed the state expenditure limit under this chapter.

(3) The emergency reserve fund balance shall not exceed five percent of annual general fund--state revenues as projected by the official state revenue forecast. Any balance in excess of five percent shall be transferred on a quarterly basis by the state treasurer to the education construction fund hereby created in the treasury. The treasurer shall make transfers between these accounts as necessary to reconcile actual annual revenues for fiscal year 2000 and thereafter.

(4)(a) Funds may be appropriated from the education construction fund exclusively for common school construction or higher education construction.

(b) Funds may be appropriated for any other purpose only if approved by a two-thirds vote of each house of the legislature and if approved by a vote of the people at the next general election. An appropriation approved by the people under this subsection shall result in an adjustment to the state expenditure limit only for the fiscal period for which the appropriation is made and shall not affect any subsequent fiscal period.

(5) Earnings of the emergency reserve fund under RCW 43.84.092(4)(a) shall be transferred quarterly to the multimodal transportation account, except for those earnings that are in excess of thirty-five million dollars each fiscal year. Within thirty days following any fiscal year in which earnings transferred to the multimodal transportation account under this subsection did not total thirty-five million dollars, the state treasurer shall transfer from the emergency reserve fund an amount necessary to bring the total deposited in the multimodal transportation account under this subsection to thirty-five million dollars. The revenues to the multimodal transportation account reflected in this subsection provide ongoing support for the transportation programs of the state. However, it is the intent of the legislature that any new long-term financial support that may be subsequently provided for transportation programs will be used to replace and supplant the revenues reflected in this subsection, thereby allowing those revenues to be returned to the purposes to which they were previously dedicated.

RCW 43.135.045 Emergency reserve fund--Excess balance to education construction fund--Appropriation conditions--Transfer of earnings to multimodal transportation account (as amended by 2001 c 3 (Initiative Measure No. 728)).

(1) The emergency reserve fund is established in the state treasury. During each fiscal year, the state treasurer shall deposit in the emergency reserve fund all general fund--state revenues in excess of the state expenditure limit for that fiscal year. Deposits shall be made at the end of each fiscal quarter based on projections of state revenues and the state expenditure limit.

(2) The legislature may appropriate moneys from the emergency reserve fund only with approval of at least two-thirds of the members of each house of the legislature, and then only if the appropriation does not cause total expenditures to exceed the state expenditure limit under this chapter.

(3) The emergency reserve fund balance shall not exceed five percent of ~~((biennial))~~ annual general fund--state revenues as projected by the official state revenue forecast. Any balance in excess of five percent shall be transferred on a quarterly basis by the state treasurer ~~((to the education construction fund hereby created in the treasury))~~ as follows: Seventy-five percent to the student achievement fund hereby created in the state treasury and twenty-five percent to the general fund balance. When per-student state funding for the maintenance and operation of K-12 education meets a level of no less than ninety percent of the national average of total funding from all sources per student as determined by the most recent published data from the national center for education statistics of the United States department of education, as calculated by the office of financial management, further deposits to the student achievement fund shall be required only to the extent necessary to maintain the ninety-percent level. Remaining funds are part of the general fund balance and these funds are subject to the expenditure limits of this chapter.

(4) The education construction fund is hereby created in the state treasury.

(a) Funds may be appropriated from the education construction fund exclusively for common school construction or higher education construction.

(b) Funds may be appropriated for any other purpose only if approved by a two-thirds vote of each house of the legislature and if approved by a vote of the people at the next general election. An appropriation approved by the people under this subsection shall result in an adjustment to the state expenditure limit only for the fiscal period for which the appropriation is made and shall not affect any subsequent fiscal period.

(5) Funds from the student achievement fund shall be appropriated to the superintendent of public instruction strictly for distribution to school districts to meet the provisions set out in the student achievement act. Allocations shall be made on an equal per full-time equivalent student basis to each school district.

Findings--1997 c 303: "The legislature finds that Initiative Measure No. 601, adopted by the people of the state of Washington, limits fee increases by requiring that any increases in fees beyond the levels expressly allowed under the initiative receive the prior approval of the legislature. The legislature finds that a more direct system of allowing the people to control fee increases predates Initiative Measure No. 601. This system developed in agricultural communities and provides these communities with direct control of the fees of the agricultural commodity commissions they created to serve them. The system requires those who pay the assessments levied by commodity commissions and boards to approve of assessment increases by referendum. It is at the heart of the

statutes and marketing orders and agreements under which agricultural commodity commissions and boards are created. The legislature does not believe that the adoption of Initiative Measure No. 601 was intended to dilute in any manner this more direct control held by the people governed by commodity commissions or boards over the fees they pay in the form of such assessments. Therefore, the legislature defers to this more direct control of these assessments so long as the authority to approve or disapprove of increases in these assessments is by referendum held directly by those who pay them." (2) If by order of any court, or legislative enactment, the costs of a federal or local government program are transferred to or from the state, the otherwise applicable state expenditure limit shall be increased or decreased, as the case may be, by the dollar amount of the costs of the program.

RCW 43.136.010 Legislative findings--Intent.

The legislature recognizes that tax preferences are enacted by the legislature to meet objectives which are determined to be in the public interest. The legislature finds, however, that some tax preferences may not be efficient or equitable tools for the achievement of current legislative objectives. The legislature finds that unless it can be demonstrated that the public interest is served by the continued existence of tax preferences, they should be terminated or modified. The legislature further finds that periodic evaluations of tax preferences are needed to determine if their continued existence is in the public interest.

It is the intent of the legislature to establish a mechanism for scheduling periodic evaluations of tax preferences together with a system for their termination, continuation, or modification. By this mechanism, the legislature intends to ensure that thorough periodic evaluations are made and that those tax preferences which do not continue to serve the public interest are terminated or modified.

The purpose of this chapter is to provide for the allocation of revenues distributed to the state under section 35 of the Mineral Lands Leasing Act of 1920, as amended (30 U.S.C. Sec. 191), with respect to activities of the United States bureau of land management undertaken pursuant to the Geothermal Steam Act of 1970 (30 U.S.C. (1) Reduction of dependence on nonrenewable energy and stimulation of the state's economy through development of geothermal energy.

(2) Mitigation of the social, economic, and environmental impacts of geothermal development.

(3) Financial assistance to counties to offset the costs of providing public services and facilities necessitated by the development of geothermal resources within their jurisdictions.

(4) Maintenance of the productivity of renewable resources through the investment of proceeds from these resources.

[1981 c 158 § 1.]

RCW 43.140.020 Definitions.

As used in this chapter:

(1) "County of origin" means any county in which the United States bureau of land management has leased lands for geothermal development.

(2) "Geothermal energy" means the natural heat of the earth and the medium by which this heat is extracted from the earth, including liquids or gases, as well as any minerals contained in any natural or injected fluids, brines, and associated gas but excluding oil, hydrocarbon gas, and other hydrocarbon substances.

Oil or gas exploration in marine waters: RCW 90.58.550.

Transport of petroleum products or hazardous substances: Chapter 88.40 RCW.

RCW 43.143.005 Legislative findings.

(1) Washington's coastal waters, seabed, and shorelines are among the most valuable and fragile of its natural resources.

(2) Ocean and marine-based industries and activities, such as fishing, aquaculture, tourism, and marine transportation have played a major role in the history of the state and will continue to be important in the future.

(3) Washington's coastal waters, seabed, and shorelines are faced with conflicting use demands. Some uses may pose unacceptable environmental or social risks at certain times.

(4) The state of Washington has primary jurisdiction over the management of coastal and ocean natural resources within three miles of its coastline. From three miles seaward to the boundary of the two hundred mile exclusive economic zone, the United States federal government has primary jurisdiction. Since protection, conservation, and development of the natural resources in the exclusive economic zone directly affect Washington's economy and

environment, the state has an inherent interest in how these resources are managed.

[1997 c 152 § 1; 1989 1st ex.s. c 2 § 8.]

RCW 43.143.010 Legislative policy and intent--Moratorium on leases for oil and gas exploration, development, or production--Appeals from regulation of recreational uses--Participation in federal ocean and marine resource decisions.

(1) The purpose of this chapter is to articulate policies and establish guidelines for the exercise of state and local management authority over Washington's coastal waters, seabed, and shorelines.

(2) There shall be no leasing of Washington's tidal or submerged lands extending from mean high tide seaward three miles along the Washington coast from Cape Flattery south to Cape Disappointment, nor in Grays Harbor, Willapa Bay, and the Columbia river downstream from the Longview bridge, for purposes of oil or gas exploration, development, or production.

(3) When conflicts arise among uses and activities, priority shall be given to resource uses and activities that will not adversely impact renewable resources over uses which are likely to have an adverse impact on renewable resources.

(4) It is the policy of the state of Washington to actively encourage the conservation of liquid fossil fuels, and to explore available methods of encouraging such conservation.

(5) It is not currently the intent of the legislature to include recreational uses or currently existing commercial uses involving fishing or other renewable marine or ocean resources within the uses and activities which must meet the planning and review criteria set forth in RCW 43.143.030. It is not the intent of the legislature, however, to permanently exclude these uses from the requirements of RCW 43.143.030. If information becomes available which indicates that such uses should reasonably be covered by the requirements of RCW 43.143.030, the permitting government or agency may require compliance with those requirements, and appeals of that decision shall be handled through the established appeals procedure for that permit or approval.

(6) The state shall participate in federal ocean and marine resource decisions to the fullest extent possible to ensure that the decisions are consistent with the state's policy concerning the use of those resources.

Radioactive Waste Storage and Transportation Act of 1980: Chapter 70.99 RCW.

RCW 43.145.010 Compact.

The Northwest Interstate Compact on Low-Level Radioactive Waste Management is hereby enacted into law and entered into by the state of Washington as a party, and is in full force and effect between the state and other states joining the compact in accordance with the terms of the compact.

NORTHWEST INTERSTATE COMPACT ON
LOW-LEVEL RADIOACTIVE WASTE MANAGEMENT

ARTICLE I--Policy and Purpose

The party states recognize that low-level radioactive wastes are generated by essential activities and services that benefit the citizens of the states. It is further recognized that the protection of the health and safety of the citizens of the party states and the most economical management of low-level radioactive wastes can be accomplished through cooperation of the states in minimizing the amount of handling and transportation required to dispose of such wastes and through the cooperation of the states in providing facilities that serve the region. It is the policy of the party states to undertake the necessary cooperation to protect the health and safety of the citizens of the party states and to provide for the most economical management of low-level radioactive wastes on a continuing basis. It is the purpose of this compact to provide the means for such a cooperative effort among the party states so that the protection of the citizens of the states and the maintenance of the viability of the states' economies will be enhanced while sharing the responsibilities of radioactive low-level waste management.

ARTICLE II--Definitions

As used in this compact:

(1) "Facility" means any site, location, structure, or property used or to be used for the storage, treatment, or disposal of low-level waste, excluding federal waste facilities;

(2) "Low-level waste" means waste material which contains radioactive nuclides emitting primarily beta or gamma radiation, or both, in concentrations or quantities which exceed applicable federal or state standards for unrestricted release. Low-level waste does not include waste containing more than ten nanocuries of transuranic contaminants per gram of material, nor spent reactor fuel, nor material classified as either high-level waste or waste which is unsuited for disposal by near-surface burial under any applicable federal regulations;

(3) "Generator" means any person, partnership, association, corporation, or any other entity whatsoever which, as a part of its activities, produces low-level radioactive waste;

(4) "Host state" means a state in which a facility is located.

ARTICLE III--Regulatory Practices

Each party state hereby agrees to adopt practices which will require low-level waste shipments originating within its borders and destined for a facility within another party state to conform to the applicable packaging and transportation requirements and regulations of the host state. Such practices shall include:

(1) Maintaining an inventory of all generators within the state that have shipped or expect to ship low-level waste to facilities in another party state;

(2) Periodic unannounced inspection of the premises of such generators and the waste management activities thereon;

(3) Authorization of the containers in which such waste may be shipped, and a requirement that generators use only that type of container authorized by the state;

(4) Assurance that inspections of the carriers which transport such waste are conducted by proper authorities, and appropriate enforcement action taken for violations;

(5) After receiving notification from a host state that a generator within the party state is in violation of applicable packaging or transportation standards, the party state will take appropriate action to assure that such violations do not recur. Such action may include inspection of every individual low-level waste shipment by that generator.

Each party state may impose fees upon generators and shippers to recover the cost of the inspections and other practices under this Article. Nothing in this Article shall be construed to limit any party state's authority to impose additional or more stringent standards on generators or carriers than those required under this Article.

ARTICLE IV--Regional Facilities

Section 1. Facilities located in any party state, other than facilities established or

maintained by individual low-level waste generators for the management of their own low-level waste, shall accept low-level waste generated in any party state if such waste has been packaged and transported according to applicable laws and regulations.

Section 2. No facility located in any party state may accept low-level waste generated outside of the region comprised of the party states, except as provided in Article V.

Section 3. Until such time as Section 2 takes effect as provided in Article VI, facilities located in any party state may accept low-level waste generated outside of any of the party states only if such waste is accompanied by a certificate of compliance issued by an official of the state in which such waste shipment originated. Such certificate shall be in such form as may be required by the host state, and shall contain at least the following:

- (1) The generator's name and address;
- (2) A description of the contents of the low-level waste container;
- (3) A statement that the low-level waste being shipped has been inspected by the official who issued the certificate or by his agent or by a representative of the United States Nuclear Regulatory Commission, and found to have been packaged in compliance with applicable federal regulations and such additional requirements as may be imposed by the host state;
- (4) A binding agreement by the state of origin to reimburse any party state for any liability or expense incurred as a result of an accidental release of such waste during shipment or after such waste reaches the facility.

Section 4. Each party state shall cooperate with the other party states in determining the appropriate site of any facility that might be required within the region comprised of the party states, in order to maximize public health and safety while minimizing the use of any one party state as the host of such facilities on a permanent basis. Each party state further agrees that decisions regarding low-level waste management facilities in their region will be reached through a good faith process which takes into account the burdens borne by each of the party states as well as the benefits each has received.

Section 5. The party states recognize that the issue of hazardous chemical waste management is similar in many respects to that of low-level waste management. Therefore, in consideration of the state of Washington allowing access to its low-level waste disposal facility by generators in other party states, party states such as Oregon and Idaho which host hazardous chemical waste disposal facilities will allow access to such facilities by generators within other party states. Nothing in this compact may be construed to prevent any party state from limiting the nature and type of hazardous chemical or low-level wastes to be accepted at facilities within its borders or from ordering the closure or [of] such facilities, so long as such action by a host state is applied equally to all generators within the region composed of the party states.

Section 6. Any host state may establish a schedule of fees and requirements related to its facility, to assure that closure, perpetual care, and maintenance and contingency requirements are met, including adequate bonding.

ARTICLE V--Northwest Low-level Waste
Compact Committee

The governor of each party state shall designate one official of that state as the person responsible for administration of this compact. The officials so designated shall together comprise the Northwest low-level waste compact committee. The committee shall meet as required to consider matters arising under this compact. The parties shall inform the committee of existing regulations concerning low-level waste management in their states, and shall afford all parties a reasonable opportunity to review and comment upon any proposed modifications in such regulations. Notwithstanding any provision of Article IV to the contrary, the committee may enter into arrangements with states, provinces, individual generators, or regional compact entities outside the region comprised of the party states for access to facilities on such terms and conditions as the committee may deem appropriate. However, it shall require a two-thirds vote of all such members, including the affirmative vote of the member of any party state in which a facility affected by such arrangement is located, for the committee to enter into such arrangement.

ARTICLE VI--Eligible Parties and Effective Date

Section 1. Each of the following states is eligible to become a party to this compact: Alaska, Hawaii, Idaho, Montana, Oregon, Utah, Washington, and Wyoming. As to any eligible party, this compact shall become effective upon enactment into law by that party, but it shall not become initially effective until enacted into law by two states. Any party state may withdraw from this compact by enacting a statute repealing its approval.

Section 2. After the compact has initially taken effect pursuant to Section 1, any eligible party state may become a party to this compact by the execution of an executive order by the governor of the state. Any state which becomes a party in this manner shall cease to be a party upon the final adjournment of the next general or regular session of its legislature or July 1, 1983, whichever occurs first, unless the compact has by then been enacted as a statute by that state.

Section 3. Section 2 of Article IV of this compact shall take effect on July 1, 1983, if consent is given by Congress. As provided in Public Law 96-573, Congress may withdraw its consent to the compact after every five-year period.

ARTICLE VII--Severability

If any provision of this compact, or its application to any person or circumstance, is held to be invalid, all other provisions of this compact, and the application of all of its provisions to all other persons and circumstances, shall remain valid; and to this end the provisions of this compact are severable.

[1981 c 124 § 1.]

RCW 43.145.020 Requirements of Washington representative to Northwest low-level waste compact committee.

The person designated as the Washington representative to the committee as specified in Article V shall adhere to all provisions of the low-level radioactive waste compact. In considering special conditions or arrangements for access to the state's facilities from wastes generated outside of the region, the committee member shall ensure at a minimum, that the provisions of Article IV, Section 3 are complied with. After 1992 the Washington representative may approve access to the state's facility only for the states currently members of the Rocky Mountain compact or states which generate less than one thousand cubic feet of waste annually and are contiguous with a state which is a member of the Northwest compact.

RCW 43.146.010 Pacific States Agreement on Radioactive Materials Transportation Management.

The Pacific States Agreement on Radioactive Materials Transportation Management is hereby enacted into law and entered into by the state of Washington as a party, and is in full force and effect between the state and other states joining the agreement in accordance with its terms.

PACIFIC STATES AGREEMENT ON
RADIOACTIVE MATERIALS
TRANSPORTATION MANAGEMENT

ARTICLE I--Policy and Purpose

The party states recognize that protection of the health and safety of citizens and the environment, and the most economical transportation of radioactive materials, can be accomplished through cooperation and coordination among neighboring states. It is the purpose of this agreement to establish a committee comprised of representatives from each party state to

further cooperation between the states on emergency response and to coordinate activities by the states to eliminate unnecessary duplication of rules and regulations regarding the transportation and handling of radioactive material.

The party states intend that this agreement facilitate both interstate commerce and protection of public health and the environment. To accomplish this goal, the party states direct the committee to develop model regulatory standards for party states to act upon and direct the committee to coordinate decisions by party states relating to the routing and inspection of shipments of radioactive material.

ARTICLE II--Definitions

As used in this agreement:

- (1) "Carrier" includes common, private, and contract carriers.
- (2) "Hazardous material" means a substance or material which has been determined by the United States department of transportation to be capable of posing an unreasonable risk to health, safety, and property when transported in commerce, and which has been so designated.
- (3) "Radioactive material" has the meaning given that term in federal department of transportation regulations found in 49 C.F.R. Sec. 173, and includes, but is not limited to, high-level radioactive waste, low-level radioactive waste, and spent nuclear fuel, as defined in section 2 of the nuclear waste policy act of 1982 (96 Stat. 2202; 42 U.S.C.A. Sec. 10101).
- (4) "Transportation" means the transport by any means of radioactive material destined for or derived from any location, and any loading, unloading, or storage incident to such transport. "Transportation" does not include permanent storage or disposal of the material.

ARTICLE III--Regulatory Practices

Section 1. The party states agree to develop model standards, not in conflict with federal law or regulations, for carriers of radioactive material to provide information regarding:

- (1) The amount and kind of material transported;
- (2) The mode of transportation and, to the extent feasible, the route or routes and the time schedule;
- (3) The carrier's compliance with local, state, and federal rules and regulations related to radioactive material transportation;
- (4) The carrier's compliance with federal and state liability insurance requirements.

Section 2. Consistent with federal law or regulations pertaining to transportation of radioactive material, the party states also agree to:

- (1) Develop model uniform procedures for issuing permits to carriers;
- (2) Develop model uniform record-keeping processes that allow access on demand by each state;
- (3) Develop model uniform safety standards for carriers;
- (4) Coordinate routing of shipments of radioactive materials;
- (5) Develop a method for coordinating the party states' emergency response plans to

provide for regional emergency response including (a) systems for sharing information essential to radiation control efforts, (b) systems for sharing emergency response personnel, and (c) a method to allocate costs and clarify liability when a party state or its officers request or render emergency response;

(6) Recommend parking requirements for motor vehicles transporting radioactive materials;

(7) Coordinate state inspections of carriers; and

(8) Develop other cooperative arrangements and agreements to enhance safety.

Section 3. The party states also agree to coordinate emergency response training and preparedness drills among the party states, Indian tribes, and affected political subdivisions of the party states, and, if possible, with federal agencies.

Section 4. The party states recognize that the transportation management of hazardous waste and hazardous materials is similar in many respects to that of radioactive materials. The party states, therefore, agree to confer as to transportation management and emergency response for those items where similarities in management exist.

ARTICLE IV--Pacific States Radioactive Materials Transportation Committee

Section 1. Each party state shall designate one official of that state to confer with appropriate legislative committees and with other officials of that state responsible for managing transportation of radioactive material and with affected Indian tribes and be responsible for administration of this agreement. The officials so designated shall together comprise the Pacific states radioactive materials transportation committee. The committee shall meet as required to consider and, where necessary, coordinate matters addressed in this agreement. The parties shall inform the committee of existing regulations concerning radioactive materials transportation management in their states, and shall afford all parties a reasonable opportunity to review and comment upon any proposed modifications in such regulations.

Section 2. The committee may also engage in long-term planning to assure safe and economical management of radioactive material transportation on a continuing basis.

Section 3. To the extent practicable, the committee shall coordinate its activities with those of other organizations.

ARTICLE V--Eligible Parties and Effective Date

Section 1. The states of Arizona, California, Colorado, Idaho, Montana, New Mexico, Nevada, Oregon, Utah, Washington, and Wyoming are eligible to become a party to this agreement. As to any eligible party, this agreement shall become effective upon enactment into law by that party, but it shall not become initially effective until enacted into law by two states. Any party state may withdraw from this agreement by enacting a statute repealing its approval.

Section 2. After the agreement has initially taken effect under section 1 of this article, any eligible party state may become a party to this agreement by the execution of an executive

order by the governor of the state. Any state which becomes a party in this manner shall cease to be a party upon the final adjournment of the next general or regular session of its legislature or July 1, 1988, whichever occurs first, unless the agreement has by then been enacted as a statute by that state.

ARTICLE VI--Severability

If any provision of this agreement, or its application to any person or circumstance, is held to be invalid, all other provisions of this agreement, and the application of all of its provisions to all other persons and circumstances, shall remain valid; and to this end the provisions of this agreement are severable.

[1987 c 90 § 1.]

RCW 43.146.900 Legislative directive--State designee.

(1) Section 1 of this act shall constitute a new chapter in Title 43 RCW.

(2) The Washington state designee to the committee shall be appointed by the governor.

THE PACIFIC NORTHWEST ECONOMIC REGION

ARTICLE I—Policy and Purpose

States and provinces participating in the Pacific Northwest Economic Region shall seek to develop and establish policies that: Promote greater regional collaboration among the seven entities; enhance the overall competitiveness of the region in international and domestic markets; increase the economic well-being of all citizens in the region; and improve the quality of life of the citizens of the Pacific Northwest.

States and provinces recognize that there are many public policy areas in which cooperation and joint efforts would be mutually beneficial. These areas include, but are not limited to: International trade; economic development; human resources; the environment and natural resources; energy; and education. Parties to this agreement shall work diligently to establish collaborative activity in these and other appropriate policy areas where such cooperation is deemed worthwhile and of benefit to the participating entities. Participating states and provinces also agree that there are areas in which cooperation may not be feasible.

The substantive actions of the Pacific Northwest Economic Region may take the form of uniform legislation enacted by two or more states and/or provinces or policy initiatives endorsed as appropriate by participating entities. It shall not be necessary for all states and provinces to participate in each initiative.

ARTICLE II—Eligible Parties and Effective Date

Each of the following states and provinces is eligible to become a party to this agreement: Alaska, Alberta, British Columbia, Idaho, Montana, Oregon, and Washington. This agreement establishing the Pacific Northwest Economic Region shall become effective when it is executed by one state, one province, and one additional state and/or province in a form deemed appropriate by each entity. This agreement shall continue in force and remain binding upon each state and province until renounced by it. Renunciation of this agreement must be preceded by sending one year's notice in writing of intention to withdraw from the agreement to the other parties to the agreement.

ARTICLE III—Organizational Structure

The organizational structure of the Pacific Northwest Economic Region shall consist of the following: A delegate council consisting of four legislators and the governor or governor's designee from each participating state and four representatives and the premier or the premier's designee from each participating province and an executive committee consisting of one legislator from each participating state and/or province who is a member of the delegate council and four of the seven governors/premiers or their designees who are members of the delegate council. The legislator members of the executive committee from each state or province shall be chosen by the legislator members of that state or province. The four governor or premier members of the executive committee shall be chosen by the governors and premiers from among the governors and premiers on the delegate council. At

least one of four members representing the governors and premiers on the executive committee must be the premier of a Canadian province. Policy committees may be established to carry out further duties and responsibilities of the Pacific Northwest Economic Region.

ARTICLE IV—Duties and Responsibilities

The delegate council shall have the following duties and responsibilities: Facilitate the involvement of other government officials in the development and implementation of specific collaborative initiatives; work with policy-making committees in the development and implementation of specific initiatives; approve general organizational policies developed by the executive committee; provide final approval of the annual budget and staffing structure for the Pacific Northwest Economic Region developed by the executive committee; and other duties and responsibilities as may be established in the rules and regulations of the Pacific Northwest Economic Region. The executive committee shall perform the following duties and responsibilities: Elect the president and vice-president of the Pacific Northwest Economic Region; approve and implement general organizational policies; develop the annual budget; devise the annual action plan; act as liaison with other public and private sector entities; review the availability of, and if appropriate apply for, (1) tax exempt status under the laws and regulations of the United States or any state or subdivision thereof and (2) similar status under the laws and regulations of Canada or any province or subdivision thereof, and approve such rules, regulations, organizational policies, and staffing structure for the Pacific Northwest Economic Region and take such further actions on behalf of the Pacific Northwest Economic Region as may be deemed by the executive committee to be necessary or appropriate to qualify for and maintain such tax exempt or similar status under the applicable laws or regulations; and other duties and responsibilities established in the rules and regulations of the Pacific Northwest Economic Region. The rules and regulations of the Pacific Northwest Economic Region shall establish the procedure for voting.

ARTICLE V—Membership of Policy Committees

Policy committees dealing with specific subject matter may be established by the executive committee.

Each participating state and province shall appoint legislators and governors or premiers to sit on these committees in accordance with its own rules and regulations concerning such appointments.

ARTICLE VI—General Provisions

This agreement shall not be construed to limit the powers of any state or province or to amend or repeal or prevent the enactment of any legislation.

[1993 c 108 § 1; 1991 c 251 § 2.]

RCW 43.147.020 Finding.

The legislature finds that there is a new emerging global economy in which countries and regions located in specific areas of the world are forging new cooperative arrangements.

The legislature finds that these new cooperative arrangements are increasing the competitiveness of the participating countries and regions, thus increasing the economic benefits and the overall quality of life for the citizens of the individual countries and regions.

The legislature also finds that the Pacific Northwest states of Alaska, Idaho, Montana, Oregon, and Washington and the Canadian provinces of Alberta and British Columbia are in a strategic position to act together, as a region, thus increasing the overall competitiveness of the individual states and provinces that will provide substantial economic benefits for all of their citizens.

[1991 c 251 § 1.]

RCW 43.147.030 Cooperative activities encouraged.

It is the intent of chapter 251, Laws of 1991 to direct and encourage the establishment of cooperative activities between the seven legislative bodies of the region. The state representatives to the Pacific Northwest Economic Region shall work through appropriate channels to advance consideration of proposals developed by this body.

[1991 c 251 § 3.]

RCW 43.147.040 Interlibrary sharing--Finding.

In chapter 251, Laws of 1991, the legislature enacted into law the Pacific Northwest economic region agreement and made the state of Washington a party along with member states Alaska, Idaho, Montana, and Oregon, and member Canadian provinces Alberta and British Columbia. The legislature recognized that the member states and provinces of the Pacific Northwest economic region are in a strategic position to act together, as a region, thus increasing the overall competitiveness of the members and providing substantial economic benefits for all of their citizens.

For those reasons, in chapter 251, Laws of 1991, the legislature also encouraged the establishment of cooperative activities between the seven legislative bodies of the Pacific Northwest economic region. The member states and provinces now desire to engage in such cooperation by electronically sharing twenty-two million volumes from certain of their respective universities. The member states and provinces have determined that such interlibrary sharing will provide substantial economic benefit for their citizens. The legislature agrees, specifically also finding that such interlibrary sharing furthers a major component of education strategy in the 1990's and twenty-first century, namely providing increased access to knowledge via technology.

[1993 c 485 § 1.]

RCW 43.147.050 Interlibrary sharing--Definition--Member libraries.

Unless the context clearly requires otherwise, as used in RCW 43.147.040 through 43.147.080 "PNWER-Net" means the technology network to be created by the member states and provinces of the Pacific Northwest economic region that will be capable of electronically linking the following undergraduate university libraries of the member states and provinces:

- (1) Alaska:
 - (a) University of Alaska, Anchorage;
 - (b) University of Alaska, Juneau;
- (2) Alberta:
 - (a) University of Alberta, Calgary;

The working subgroup shall be composed of seven members as follows: Two members of the senate, one from each of the major caucuses, appointed by the president of the senate; two members of the house of representatives, appointed by the speaker of the house of representatives; the state librarian; and the primary undergraduate academic librarian from each of the state's two research institutions of higher education.

(2) The staff support shall be provided by the senate committee services and, to the extent authorized by the chief clerk of the house of representatives, by the house of representatives office of program research as mutually agreed by the legislators on the working group.

(3) Legislative members shall be reimbursed for expenses in accordance with RCW 44.04.120. Nonlegislative members shall be reimbursed for expenses in accordance with RCW 43.03.050 and 43.03.060.

[1993 c 485 § 3.]

RCW 43.147.070 PNWER-Net working subgroup--Duties.

The PNWER-Net working subgroup shall have the following duties:

(1) To work with working subgroups from other member states and provinces in an entity known as the PNWER-Net working group to develop PNWER-Net; and

RCW 43.150.010 Legislative findings.

(1) The legislature finds that:

(a) Large numbers of Washington's citizens are actively engaged in carrying forward the ethic of service and voluntary activities that benefit their citizens, their communities, and the entire state;

(b) This contribution continues to provide the equivalent of hundreds of millions of dollars in services that might otherwise create a need for additional tax collections;

(c) Many Washington citizens have yet to become fully involved in the life of their communities; many societal needs exist that could and should be met by new citizen service initiatives;

(d) The state of Washington needs to continue to encourage and expand the ethic of civic responsibility among its citizenry, through individuals working on their own, and through local and state-wide organizations, both governmental and private and nonprofit agencies;

(e) This ethic of citizen service benefits those who serve and those who receive services; in both cases there is the betterment of all Washington communities;

(f) Public and private agencies depend in large measure on the efforts of volunteers for the accomplishment of their missions and actively seek to increase these efforts;

(g) State agencies can and should extend their service delivery programs through the increased use of and support for volunteers;

(h) The national and community service act of 1990 provides an opportunity for Washington to support citizen service and volunteer activities in Washington;

(i) Business, industry, communities, schools, and labor in Washington state are increasingly interested in opportunities for community service and in developing the volunteer and service ethic;

(j) While providing both tangible and intangible benefits, volunteers in turn need respect and support for their efforts;

(k) The state itself, through the programs and services of its agencies as well as through the provisions of law and rule making, can and should provide a primary role and focus for encouraging the ethic of citizen service and support for volunteer efforts and programs;

(l) Planned and coordinated recognition, information, training, and technical assistance for volunteer and citizen service efforts through a state-wide center for voluntary action have been proven to be effective means of multiplying the resources volunteers bring to the needs of their communities; and

(m) It is important that Washington state position itself to raise volunteerism to the highest attainable levels, and along with the private sector, become a voice in the role citizen service will take in providing solutions to societal needs.

(2) Therefore, the legislature, in recognition of these findings, enacts the center for volunteerism and citizen service act to ensure that the state of Washington actively promotes the ethic of service and makes every appropriate effort to encourage effective involvement of individuals in their communities and of volunteers who supplement the services of private, nonprofit community agencies and organizations, agencies of local government throughout the state, and the state government.

RCW 43.155.010 Legislative findings and policy.

The legislature finds that there exists in the state of Washington over four billion dollars worth of critical projects for the planning, acquisition, construction, repair, replacement, rehabilitation, or improvement of streets and roads, bridges, water systems, and storm and sanitary sewage systems. The December, 1983 Washington state public works report prepared by the planning and community affairs agency documented that local governments expect to be capable of financing over two billion dollars worth of the costs of those critical projects but will not be able to fund nearly half of the documented needs.

The legislature further finds that Washington's local governments have unmet financial needs for solid waste disposal, including recycling, and encourages the board to make an equitable geographic distribution of the funds.

It is the policy of the state of Washington to encourage self-reliance by local

governments in meeting their public works needs and to assist in the financing of critical public works projects by making loans, financing guarantees, and technical assistance available to local governments for these projects.

RCW 43.155.060 Public works financing powers--Competitive bids on projects.

In order to aid the financing of public works projects, the board may:

(1) Make low-interest or interest-free loans to local governments from the public works assistance account or other funds and accounts for the purpose of assisting local governments in financing public works projects. The board may require such terms and conditions and may charge such rates of interest on its loans as it deems necessary or convenient to carry out the purposes of this chapter. Money received from local governments in repayment of loans made under this section shall be paid into the public works assistance account for uses consistent with this chapter.

(2) Pledge money in the public works assistance account, or money to be received by the public works assistance account, to the repayment of all or a portion of the principal of or interest on obligations issued by local governments to finance public works projects. The board shall not pledge any amount greater than the sum of money in the public works assistance account plus money to be received from the payment of the debt service on loans made from that account, nor shall the board pledge the faith and credit or the taxing power of the state or any agency or subdivision thereof to the repayment of obligations issued by any local government.

(3) Create such subaccounts in the public works assistance account as the board deems necessary to carry out the purposes of this chapter.

(4) Provide a method for the allocation of loans and financing guarantees and the

provision of technical assistance under this chapter.

All local public works projects aided in whole or in part under the provisions of this chapter shall be put out for competitive bids, except for emergency public works under RCW 43.155.065 for which the recipient jurisdiction shall comply with this requirement to the extent feasible and practicable. The competitive bids called for shall be administered in the same manner as all other public works projects put out for competitive bidding by the local governmental entity aided under this chapter.

[1988 c 93 § 2; 1985 c 446 § 11.]

RCW 43.155.065 Emergency public works projects.

The board may make low-interest or interest-free loans to local governments for emergency public works projects. Emergency public works projects shall include the construction, repair, reconstruction, replacement, rehabilitation, or improvement of a public water system that is in violation of health and safety standards and is being operated by a local government on a temporary basis. The loans may be used to help fund all or part of an emergency public works project less any reimbursement from any of the following sources: (1) Federal disaster or emergency funds, including funds from the federal emergency management agency; (2) state disaster or emergency funds; (3) insurance settlements; or (4) litigation.

[2001 c 131 § 3; 1990 c 133 § 7; 1988 c 93 § 1.]

NOTES:

Findings--Severability--1990 c 133: See notes following RCW 36.94.140.

RCW 43.155.068 Loans for preconstruction activities.

(1) The board may make low-interest or interest-free loans to local governments for preconstruction activities on public works projects before the legislature approves the construction phase of the project. Preconstruction activities include design, engineering, bid-document preparation, environmental studies, right of way acquisition, and other preliminary phases of public works projects as determined by the board. The purpose of the loans authorized in this section is to accelerate the completion of public works projects by allowing preconstruction activities to be performed before the approval of the construction phase of the project by the legislature.

(2) Projects receiving loans for preconstruction activities under this section must be evaluated using the priority process and factors in *RCW 43.155.070(2). The receipt of a loan for preconstruction activities does not ensure the receipt of a construction loan for the project under this chapter. Construction loans for projects receiving a loan for preconstruction activities under this section are subject to legislative approval under *RCW 43.155.070 (4) and (5). The board shall adopt a single application process for local governments seeking both a loan for preconstruction activities under this section and a construction loan for the project.

[2001 c 131 § 4; 1995 c 363 § 2.]

NOTES:

***Reviser's note:** RCW 43.155.070 was amended by 1999 c 164 § 602, changing subsections (2), (4), and (5) to subsections (4), (6), and (7), respectively.

Finding--Purpose--1995 c 363: "The legislature finds that there continues to exist a great need for capital projects to plan, acquire, design, construct, and repair local government streets, roads, bridges, water systems, and storm and sanitary sewage systems. It is the purpose of this act to accelerate the construction of these projects under the public works assistance program." [1995 c 363 § 1.]

RCW 43.155.070 Eligibility, priority, limitations, and exceptions.

(1) To qualify for loans or pledges under this chapter the board must determine that a local government meets all of the following conditions:

(a) The city or county must be imposing a tax under chapter 82.46 RCW at a rate of at least one-quarter of one percent;

(b) The local government must have developed a capital facility plan; and

(c) The local government must be using all local revenue sources which are reasonably available for funding public works, taking into consideration local employment and economic factors.

(2) Except where necessary to address a public health need or substantial environmental degradation, a county, city, or town planning under RCW 36.70A.040 must have adopted a comprehensive plan, including a capital facilities plan element, and development regulations as required by RCW 36.70A.040. This subsection does not require any county, city, or town planning under RCW 36.70A.040 to adopt a comprehensive plan or development regulations before requesting or receiving a loan or loan guarantee under this chapter if such request is made before the expiration of the time periods specified in RCW 36.70A.040. A county, city, or town planning under RCW 36.70A.040 which has not adopted a comprehensive plan and development regulations within the time periods specified in RCW 36.70A.040 is not prohibited from receiving a loan or loan guarantee under this chapter if the comprehensive plan and development regulations are adopted as required by RCW 36.70A.040 before submitting a request for a loan or loan guarantee.

(3) In considering awarding loans for public facilities to special districts requesting funding for a proposed facility located in a county, city, or town planning under RCW 36.70A.040, the board shall consider whether the county, city, or town planning under RCW 36.70A.040 in whose planning jurisdiction the proposed facility is located has adopted a comprehensive plan and development regulations as required by RCW 36.70A.040.

(4) The board shall develop a priority process for public works projects as provided in this section. The intent of the priority process is to maximize the value of public works projects accomplished with assistance under this chapter. The board shall attempt to assure a geographical balance in assigning priorities to projects. The board shall consider at least the following factors in assigning a priority to a project:

(a) Whether the local government receiving assistance has experienced severe fiscal distress resulting from natural disaster or emergency public works needs;

(b) Whether the project is critical in nature and would affect the health and safety of a

great number of citizens;

(c) The cost of the project compared to the size of the local government and amount of loan money available;

(d) The number of communities served by or funding the project;

(e) Whether the project is located in an area of high unemployment, compared to the average state unemployment;

(f) Whether the project is the acquisition, expansion, improvement, or renovation by a local government of a public water system that is in violation of health and safety standards, including the cost of extending existing service to such a system;

(g) The relative benefit of the project to the community, considering the present level of economic activity in the community and the existing local capacity to increase local economic activity in communities that have low economic growth; and

(h) Other criteria that the board considers advisable.

(5) Existing debt or financial obligations of local governments shall not be refinanced under this chapter. Each local government applicant shall provide documentation of attempts to secure additional local or other sources of funding for each public works project for which financial assistance is sought under this chapter.

(6) Before November 1 of each year, the board shall develop and submit to the appropriate fiscal committees of the senate and house of representatives a description of the loans made under RCW 43.155.065, 43.155.068, and subsection (9) of this section during the preceding fiscal year and a prioritized list of projects which are recommended for funding by the legislature, including one copy to the staff of each of the committees. The list shall include, but not be limited to, a description of each project and recommended financing, the terms and conditions of the loan or financial guarantee, the local government jurisdiction and unemployment rate, demonstration of the jurisdiction's critical need for the project and documentation of local funds being used to finance the public works project. The list shall also include measures of fiscal capacity for each jurisdiction recommended for financial assistance, compared to authorized limits and state averages, including local government sales taxes; real estate excise taxes; property taxes; and charges for or taxes on sewerage, water, garbage, and other utilities.

(7) The board shall not sign contracts or otherwise financially obligate funds from the public works assistance account before the legislature has appropriated funds for a specific list of public works projects. The legislature may remove projects from the list recommended by the board. The legislature shall not change the order of the priorities recommended for funding by the board.

(8) Subsection (7) of this section does not apply to loans made under RCW 43.155.065, 43.155.068, and subsection (9) of this section.

(9) Loans made for the purpose of capital facilities plans shall be exempted from subsection (7) of this section.

(10) To qualify for loans or pledges for solid waste or recycling facilities under this chapter, a city or county must demonstrate that the solid waste or recycling facility is consistent with and necessary to implement the comprehensive solid waste management plan adopted by

the city or county under chapter 70.95 RCW.

RCW 43.157.005 Declaration.

The legislature declares that certain industrial investments merit special designation and treatment by governmental bodies when they are proposed. Such investments bolster the economies of their locale and impact the economy of the state as a whole. It is the intention of the legislature to recognize industrial projects of state-wide significance and to encourage local governments and state agencies to expedite their completion.

Public disclosure: RCW 42.17.310.

RCW 43.160.010 Legislative declaration (as amended by 1999 c 94).

(1) The legislature finds that it is the public policy of the state of Washington to direct financial resources toward the fostering of economic development through the stimulation of investment and job opportunities and the retention of sustainable existing employment for the general welfare of the inhabitants of the state. Reducing unemployment and reducing the time citizens remain jobless is important for the economic welfare of the state. A valuable means of fostering economic development is the construction of public facilities which contribute to the stability and growth of the state's economic base. Strengthening the economic base through issuance of industrial development bonds, whether single or umbrella, further serves to reduce unemployment. Consolidating issues of industrial development bonds when feasible to reduce costs additionally advances the state's purpose to improve economic vitality. Expenditures made

for these purposes as authorized in this chapter are declared to be in the public interest, and constitute a proper use of public funds. A community economic revitalization board is needed which shall aid the development of economic opportunities. The general objectives of the board should include:

(a) Strengthening the economies of areas of the state which have experienced or are expected to experience chronically high unemployment rates or below average growth in their economies;

(b) Encouraging the diversification of the economies of the state and regions within the state in order to provide greater seasonal and cyclical stability of income and employment;

(c) Encouraging wider access to financial resources for both large and small industrial development projects;

(d) Encouraging new economic development or expansions to maximize employment;

(e) Encouraging the retention of viable existing firms and employment; and

(f) Providing incentives for expansion of employment opportunities for groups of state residents that have been less successful relative to other groups in efforts to gain permanent employment.

(2) The legislature also finds that the state's economic development efforts can be enhanced by, in certain instances, providing funds to improve state highways in the vicinity of new industries considering locating in this state or existing industries that are considering significant expansion.

(a) The legislature finds it desirable to provide a process whereby the need for diverse public works improvements necessitated by planned economic development can be addressed in a timely fashion and with coordination among all responsible governmental entities.

(b) ~~((It is the intent of the legislature to create an economic development account within the motor vehicle fund from which expenditures can be made by the department of transportation for state highway improvements necessitated by planned economic development. All such))~~ Transportation improvements ~~((must first be))~~ on state highways that have been approved by the ~~((state transportation commission and the))~~ community economic revitalization board must be approved by the transportation commission in accordance with the procedures established by RCW 43.160.074 and 47.01.280 to receive funding. ~~((It is further the intent of the legislature that such improvements not jeopardize any other planned highway construction projects. The improvements are intended to be of limited size and cost, and to include such items as additional turn lanes, signalization, illumination, and safety improvements.))~~

(3) The legislature also finds that the state's economic development efforts can be enhanced by providing funds to improve markets for those recyclable materials representing a large fraction of the waste stream. The legislature finds that public facilities which result in private construction of processing or remanufacturing facilities for recyclable materials are eligible for consideration from the board.

(4) The legislature finds that sharing economic growth state-wide is important to the welfare of the state. Rural natural resource impact areas do not share in the economic vitality of the Puget Sound region. Infrastructure is one of several ingredients that are critical for economic development. Rural natural resource impact areas generally lack the infrastructure necessary to

diversify and revitalize their economies. It is, therefore, the intent of the legislature to increase the availability of funds to help provide infrastructure to rural natural resource impact areas.

Legislative finding--Effective dates--1999 c 94: See notes following RCW 43.84.092.

RCW 43.160.010 Legislative declaration (as amended by 1999 c 164).

(1) The legislature finds that it is the public policy of the state of Washington to direct financial resources toward the fostering of economic development through the stimulation of investment and job opportunities and the retention of sustainable existing employment for the general welfare of the inhabitants of the state. Reducing unemployment and reducing the time citizens remain jobless is important for the economic welfare of the state. A valuable means of fostering economic development is the construction of public facilities which contribute to the stability and growth of the state's economic base. Strengthening the economic base through issuance of industrial development bonds, whether single or umbrella, further serves to reduce unemployment. Consolidating issues of industrial development bonds when feasible to reduce costs additionally advances the state's purpose to improve economic vitality. Expenditures made for these purposes as authorized in this chapter are declared to be in the public interest, and constitute a proper use of public funds. A community economic revitalization board is needed which shall aid the development of economic opportunities. The general objectives of the board should include:

(a) Strengthening the economies of areas of the state which have experienced or are expected to experience chronically high unemployment rates or below average growth in their economies;

(b) Encouraging the diversification of the economies of the state and regions within the state in order to provide greater seasonal and cyclical stability of income and employment;

(c) Encouraging wider access to financial resources for both large and small industrial development projects;

(d) Encouraging new economic development or expansions to maximize employment;

(e) Encouraging the retention of viable existing firms and employment; and

(f) Providing incentives for expansion of employment opportunities for groups of state residents that have been less successful relative to other groups in efforts to gain permanent employment.

(2) The legislature also finds that the state's economic development efforts can be enhanced by, in certain instances, providing funds to improve state highways (~~in the vicinity of new~~), county roads, or city streets for industries considering locating or expanding in this state (~~or existing industries that are considering significant expansion~~).

(a) The legislature finds it desirable to provide a process whereby the need for diverse public works improvements necessitated by planned economic development can be addressed in a timely fashion and with coordination among all responsible governmental entities.

(b) ~~((It is the intent of the legislature to create an economic development account within the motor vehicle fund from which expenditures can be made by the department of transportation for state highway improvements necessitated by planned economic development.)) All ((such)) transportation improvements on state highways must first be approved by the state transportation commission and the community economic revitalization board in accordance with the procedures established by RCW 43.160.074 and 47.01.280. ~~((It is further the intent of the legislature that such improvements not jeopardize any other planned highway construction projects. The improvements are intended to be of limited size and cost, and to include such items as additional turn lanes, signalization, illumination, and safety improvements.))~~~~

(3) The legislature also finds that the state's economic development efforts can be enhanced by, in certain instances, providing funds to assist development of telecommunications infrastructure that supports business development, retention, and expansion in rural natural resources impact areas and rural counties of the state.

(4) The legislature also finds that the state's economic development efforts can be enhanced by providing funds to improve markets for those recyclable materials representing a large fraction of the waste stream. The legislature finds that public facilities which result in private construction of processing or remanufacturing facilities for recyclable materials are eligible for consideration from the board.

~~((4))~~ (5) The legislature finds that sharing economic growth state-wide is important to the welfare of the state. Rural counties and rural natural resources impact areas do not share in the economic vitality of the Puget Sound region. The ability of these communities to pursue business and job retention, expansion, and development opportunities depends on their capacity to ready necessary economic development project plans, sites, permits, and infrastructure for private investments. Project-specific planning, predevelopment, and infrastructure ((is one of several)) are critical ingredients ((that are critical)) for economic development. Rural counties and rural natural resources impact areas generally lack ((the infrastructure)) these necessary tools and resources to diversify and revitalize their economies. It is, therefore, the intent of the legislature to increase the ((availability of funds to help provide infrastructure to rural natural resource impact areas)) amount of funding available through the community economic revitalization board for rural counties and rural natural resources impact areas, and to authorize flexibility for available resources in these areas to help fund planning, predevelopment, and construction costs of infrastructure and facilities and sites that foster economic vitality and diversification.

Reviser's note: RCW 43.160.010 was amended twice during the 1999 legislative session, each without reference to the other. For rule of construction concerning sections amended more than once during the same legislative session, see RCW 1.12.025.

Findings--Intent--1999 c 164: "The legislature finds that while Washington's economy is currently prospering, economic growth continues to be uneven, particularly as between metropolitan and rural areas. This has created in effect two Washingtons. One afflicted by inadequate infrastructure to support and attract investment,

another suffering from congestion and soaring housing prices. In order to address these problems, the legislature intends to use resources strategically to build on our state's strengths while addressing threats to our prosperity." [1999 c 164 § 1.]

Findings--1991 c 314: "The legislature finds that:

(1) Cutbacks in allowable sales of old growth timber in Washington state pose a substantial threat to the region and the state with massive layoffs, loss of personal income, and declines in state revenues;

(2) The timber impact areas are of critical significance to the state because of their leading role in the overall economic well-being of the state and their importance to the quality of life to all residents of Washington, and that these regions require a special state effort to diversify the local economy;

(3) There are key opportunities to broaden the economic base in the timber impact areas including agriculture, high-technology, tourism, and regional exports; and

(4) A coordinated state, local, and private sector effort offers the greatest potential to promote economic diversification and to provide support for new projects within the region.

The legislature further finds that if a special state effort does not take place the decline in allowable timber sales may result in a loss of six thousand logging and milling jobs; two hundred million dollars in direct wages and benefits; twelve thousand indirect jobs; and three hundred million dollars in indirect wages and benefits.

It is the intent of the legislature to develop comprehensive programs to provide diversified economic development and promote job creation and employment opportunities for the citizens of the timber impact areas." [1991 c 314 § 1.]

RCW 43.160.060 Loans and grants to political subdivisions for public facilities authorized--Application--Requirements for financial assistance.

The board is authorized to make direct loans to political subdivisions of the state for the purposes of assisting the political subdivisions in financing the cost of public facilities, including development of land and improvements for public facilities, project-specific environmental, capital facilities, land use, permitting, feasibility[,] and marketing studies and plans; project

design, site planning, and analysis; project debt and revenue impact analysis; as well as the construction, rehabilitation, alteration, expansion, or improvement of the facilities. A grant may also be authorized for purposes designated in this chapter, but only when, and to the extent that, a loan is not reasonably possible, given the limited resources of the political subdivision and the finding by the board that financial circumstances require grant assistance to enable the project to move forward.

Application for funds shall be made in the form and manner as the board may prescribe. In making grants or loans the board shall conform to the following requirements:

(1) The board shall not provide financial assistance:

(a) For a project the primary purpose of which is to facilitate or promote a retail shopping development or expansion.

(b) For any project that evidence exists would result in a development or expansion that would displace existing jobs in any other community in the state.

(c) For the acquisition of real property, including buildings and other fixtures which are a part of real property.

(2) The board shall only provide financial assistance:

(a) For those projects which would result in specific private developments or expansions (i) in manufacturing, production, food processing, assembly, warehousing, advanced technology, research and development, and industrial distribution; (ii) for processing recyclable materials or for facilities that support recycling, including processes not currently provided in the state, including but not limited to, de-inking facilities, mixed waste paper, plastics, yard waste, and problem-waste processing; (iii) for manufacturing facilities that rely significantly on recyclable materials, including but not limited to waste tires and mixed waste paper; (iv) which support the relocation of businesses from nondistressed urban areas to rural counties or rural natural resources impact areas; or (v) which substantially support the trading of goods or services outside of the state's borders.

(b) For projects which it finds will improve the opportunities for the successful maintenance, establishment, or expansion of industrial or commercial plants or will otherwise assist in the creation or retention of long-term economic opportunities.

(c) When the application includes convincing evidence that a specific private development or expansion is ready to occur and will occur only if the public facility improvement is made.

(3) The board shall prioritize each proposed project according to:

(a) The relative benefits provided to the community by the jobs the project would create, not just the total number of jobs it would create after the project is completed and according to the unemployment rate in the area in which the jobs would be located; and

(b) The rate of return of the state's investment, that includes the expected increase in state and local tax revenues associated with the project.

(4) A responsible official of the political subdivision shall be present during board deliberations and provide information that the board requests.

Before any financial assistance application is approved, the political subdivision seeking the assistance must demonstrate to the community economic revitalization board that no other

timely source of funding is available to it at costs reasonably similar to financing available from the community economic revitalization board.

Public disclosure: RCW 42.17.310.

RCW 43.163.005 Purpose--Construction.

Economic development is essential to the health, safety, and welfare of all Washington citizens by broadening and strengthening state and local tax bases, providing meaningful employment opportunities and thereby enhancing the quality of life. Economic development increasingly is dependent upon the ability of small-sized and medium-sized businesses and farms to finance growth and trade activities. Many of these businesses face an unmet need for capital that limits their growth. These unmet capital needs are a problem in both urban and rural areas which cannot be solved by the private sector alone. There presently exist some federal programs, private credit enhancements and other financial tools to complement the private banking industry

in providing this needed capital. More research is needed to develop effective strategies to enhance access to capital and thereby stimulate economic development.

It is the purpose of this chapter to establish a state economic development finance authority to act as a financial conduit that, without using state funds or lending the credit of the state or local governments, can issue nonrecourse revenue bonds, and participate in federal, state, and local economic development programs to help facilitate access to needed capital by Washington businesses that cannot otherwise readily obtain needed capital on terms and rates comparable to large corporations, and can help local governments obtain capital more efficiently. It is also a primary purpose of this chapter to encourage the employment and retention of Washington workers at meaningful wages and to develop innovative approaches to the problem of unmet capital needs. This chapter is enacted to accomplish these and related purposes and shall be construed liberally to carry out its purposes and objectives.

[1990 c 53 § 1; 1989 c 279 § 1.]

Notes:

Findings--Purpose--1994 c 302: "The legislature finds that when public funds are used to support private enterprise, the public may gain through the creation of new jobs, the diversification of the economy, or higher quality jobs for existing workers. The legislature further finds that such returns on public investments are not automatic and that tax-based incentives, in particular, may result in a greater tax burden on businesses and individuals that are not eligible for the public support. It is the purpose of this *chapter to collect information sufficient to allow the legislature and the executive branch to make informed decisions about the merits of existing tax-based incentives and loan programs intended to encourage economic development in the state." [1994 c 302 § 1.]

***Reviser's note:** 1994 c 302 § 2 was vetoed by the governor. 1994 c 302 § 3 is a codification direction and 1994 c 302 § 4 is an emergency clause. The code reviser's office chose not to create a new chapter for the only remaining section, section 1.

Notes:

Severability--Effective date--1994 c 238: See notes following RCW 43.163.010.

RCW 43.163.130 Nonrecourse revenue bonds--Issuance.

(1) The authority may issue its nonrecourse revenue bonds in order to obtain the funds to carry out the programs authorized in this chapter. The bonds shall be special obligations of the authority, payable solely out of the special fund or funds established by the authority for their repayment.

(2) Any bonds issued under this chapter may be secured by a financing document between the authority and the purchasers or owners of such bonds or between the authority and a corporate trustee, which may be any trust company or bank having the powers of a trust company within or without the state.

(a) The financing document may pledge or assign, in whole or in part, the revenues and funds held or to be received by the authority, any present or future contract or other rights to receive the same, and the proceeds thereof.

(b) The financing document may contain such provisions for protecting and enforcing the rights, security, and remedies of bondowners as may be reasonable and proper, including, without limiting the generality of the foregoing, provisions defining defaults and providing for remedies in the event of default which may include the acceleration of maturities, restrictions on the individual rights of action by bondowners, and covenants setting forth duties of and limitations on the authority in conduct of its programs and the management of its property.

(c) In addition to other security provided in this chapter or otherwise by law, bonds issued by the authority may be secured, in whole or in part, by financial guaranties, by insurance or by letters of credit issued to the authority or a trustee or any other person, by any bank, trust company, insurance or surety company or other financial institution, within or without the state. The authority may pledge or assign, in whole or in part, the revenues and funds held or to be received by the authority, any present or future contract or other rights to receive the same, and the proceeds thereof, as security for such guaranties or insurance or for the reimbursement by the authority to any issuer of such letter of credit of any payments made under such letter of credit.

(3) Without limiting the powers of the authority contained in this chapter, in connection with each issue of its obligation bonds, the authority shall create and establish one or more special funds, including, but not limited to debt service and sinking funds, reserve funds, project funds, and such other special funds as the authority deems necessary, useful, or convenient.

(4) Any security interest created against the unexpended bond proceeds and against the special funds created by the authority shall be immediately valid and binding against the money and any securities in which the money may be invested without authority or trustee possession.

The security interest shall be prior to any party having any competing claim against the moneys or securities, without filing or recording under Article 9A of the Uniform Commercial Code, Title 62A RCW, and regardless of whether the party has notice of the security interest.

(5) The bonds may be issued as serial bonds, term bonds or any other type of bond instrument consistent with the provisions of this chapter. The bonds shall bear such date or dates; mature at such time or times; bear interest at such rate or rates, either fixed or variable; be payable at such time or times; be in such denominations; be in such form; bear such privileges of transferability, exchangeability, and interchangeability; be subject to such terms of redemption; and be sold at public or private sale, in such manner, at such time or times, and at such price or prices as the authority shall determine. The bonds shall be executed by the manual or facsimile signatures of the authority's chair and either its secretary or executive director, and may be authenticated by the trustee (if the authority determines to use a trustee) or any registrar which may be designated for the bonds by the authority.

(6) Bonds may be issued by the authority to refund other outstanding authority bonds, at or prior to maturity of, and to pay any redemption premium on, the outstanding bonds. Bonds issued for refunding purposes may be combined with bonds issued for the financing or refinancing of new projects. Pending the application of the proceeds of the refunding bonds to the redemption of the bonds to be redeemed, the authority may enter into an agreement or agreements with a corporate trustee regarding the interim investment of the proceeds and the application of the proceeds and the earnings on the proceeds to the payment of the principal of and interest on, and the redemption of, the bonds to be redeemed.

(7) The bonds of the authority may be negotiable instruments under Title 62A RCW.

(8) Neither the members of the authority, nor its employees or agents, nor any person executing the bonds shall be personally liable on the bonds or be subject to any personal liability or accountability by reason of the issuance of the bonds.

(9) The authority may purchase its bonds with any of its funds available for the purchase. The authority may hold, pledge, cancel or resell the bonds subject to and in accordance with agreements with bondowners.

(10) The authority shall not exceed seven hundred fifty million dollars in total outstanding debt at any time.

(11) The state finance committee shall be notified in advance of the issuance of bonds by the authority in order to promote the orderly offering of obligations in the financial markets.

(12) The authority may not issue any bonds after June 30, 2006.

The bonds shall be special obligations of the authority and shall be payable solely from the special fund or funds created by the authority for their repayment. business in the state to:

(1) Perform all of any part of the obligations of the authority with respect to: (a) Bonds issued by it; (b) the receipt, investment and application of the proceeds of the bonds and money paid by a participant or available from other sources for the payment of the bonds; (c) the enforcement of the obligations of a borrower in connection with the financing or refinancing of any project; and (d) other matters relating to the exercise of the authority's powers under this chapter;

(2) Receive, hold, preserve, and enforce any security interest or evidence of security interest granted by a participant for purposes of securing the payment of the bonds; and

(2) The authority may develop and conduct a program that will stimulate and encourage the development of new products within Washington state by the infusion of financial aid for invention and innovation in situations in which the financial aid would not otherwise be reasonably available from commercial sources. The authority is authorized to provide nonrecourse revenue bond financing for this program.

(a) For the purposes of this program, the authority shall have the following powers and duties:

(i) To enter into financing agreements with eligible persons doing business in Washington state, upon terms and on conditions consistent with the purposes of this chapter, for the advancement of financial and other assistance to the persons for the development of specific products, procedures, and techniques, to be developed and produced in this state, and to condition the agreements upon contractual assurances that the benefits of increasing or maintaining employment and tax revenues shall remain in this state and accrue to it;

An investigation and report concerning the advisability of approving an application for assistance shall be completed by the staff of the authority. The investigation and report may include, but is not limited to, facts about the company under consideration as its history, wage standards, job opportunities, stability of employment, past and present financial condition and structure, pro forma income statements, present and future markets and prospects, integrity of management as well as the feasibility of the proposed product and invention to be granted financial aid, including the state of development of the product as well as the likelihood of its commercial feasibility. After receipt and consideration of the report set out in this subsection and after other action as is deemed appropriate, the application shall be approved or denied by the authority. The applicant shall be promptly notified of action by the authority. In making the decision as to approval or denial of an application, priority shall be given to those persons operating or planning to operate businesses of special importance to Washington's economy, including, but not limited to: (i) Existing resource-based industries of agriculture, forestry, and fisheries; (ii) existing advanced technology industries of electronics, computer and instrument manufacturing, computer software, and information and design; and (iii) emerging industries such as environmental technology, biotechnology, biomedical sciences, materials sciences, and optics.

Community economic revitalization board to cooperate with committee: RCW 43.160.115.

Public disclosure: RCW 42.17.310.

RCW 43.168.010 Legislative findings and declaration.

The legislature finds that:

(1) The economic health and well-being of the state, particularly in areas of high unemployment, economic stagnation, and poverty, is of substantial public concern.

(2) The consequences of minimal economic activity and persistent unemployment and underemployment are serious threats to the safety, health, and welfare of residents of these areas, decreasing the value of private investments and jeopardizing the sources of public revenue.

(3) The economic and social interdependence of communities and the vitality of industrial and economic activity necessitates, and is in part dependent on preventing substantial dislocation of residents and rebuilding the diversification of the areas' economy.

(4) The ability to remedy problems in stagnant areas of the state is beyond the power and control of the regulatory process and influence of the state, and the ordinary operations of private enterprise without additional governmental assistance are insufficient to adequately remedy the problems of poverty and unemployment.

(5) The revitalization of depressed communities requires the stimulation of private investment, the development of new business ventures, the provision of capital to ventures sponsored by local organizations and capable of growth in the business markets, and assistance to viable, but under-financed, small businesses in order to create and preserve jobs that are sustainable in the local economy.

Therefore, the legislature declares there to be a substantial public purpose in providing capital to promote economic development and job creation in areas of economic stagnation, unemployment, and poverty. To accomplish this purpose, the legislature hereby creates the rural Washington loan fund and vests in the department of community, trade, and economic development the authority to spend federal funds to stimulate the economy of distressed areas.

RCW 43.168.031 State development loan fund committee--Terminated June 30, 1994--Powers and duties transferred.

The Washington state development loan fund committee shall be terminated on June 30, 1994, and its powers and duties transferred to the director of the department of community, trade, and economic development.

[1995 c 399 § 92; 1988 c 186 § 7.]

RCW 43.168.040 Approval of applications for federal community development block grant funds for projects.

Subject to the restrictions contained in this chapter, the committee is authorized to approve applications of local governments for federal community development block grant funds which the local governments would use to make loans to finance business projects within their jurisdictions. Applications approved by the committee under this chapter shall conform to applicable federal requirements.

[1987 c 461 § 3; 1985 c 164 § 4.]

RCW 43.168.050 Application approval--Conditions and limitations.

(1) The committee may only approve an application providing a loan for a project which the committee finds:

(a) Will result in the creation of employment opportunities, the maintenance of threatened employment, or development or expansion of business ownership by minorities and women;

(b) Has been approved by the director as conforming to federal rules and regulations governing the spending of federal community development block grant funds;

(c) Will be of public benefit and for a public purpose, and that the benefits, including increased or maintained employment, improved standard of living, the employment of disadvantaged workers, and development or expansion of business ownership by minorities and women, will primarily accrue to residents of the area;

(d) Will probably be successful;

(e) Would probably not be completed without the loan because other capital or financing at feasible terms is unavailable or the return on investment is inadequate.

(2) The committee shall, subject to federal block grant criteria, give higher priority to economic development projects that contain provisions for child care.

(3) The committee may not approve an application if it fails to provide for adequate

reporting or disclosure of financial data to the committee. The committee may require an annual or other periodic audit of the project books.

(4) The committee may require that the project be managed in whole or in part by a local development organization and may prescribe a management fee to be paid to such organization by the recipient of the loan or grant.

(5)(a) Except as provided in (b) of this subsection, the committee shall not approve any application which would result in a loan or grant in excess of three hundred fifty thousand dollars.

(b) The committee may approve an application which results in a loan or grant of up to seven hundred thousand dollars if the application has been approved by the director.

(6) The committee shall fix the terms and rates pertaining to its loans.

(7) Should there be more demand for loans than funds available for lending, the committee shall provide loans for those projects which will lead to the greatest amount of employment or benefit to a community. In determining the "greatest amount of employment or benefit" the committee shall also consider the employment which would be saved by its loan and the benefit relative to the community, not just the total number of new jobs or jobs saved.

(8) To the extent permitted under federal law the committee shall require applicants to provide for the transfer of all payments of principal and interest on loans to the *Washington state development loan fund created under this chapter. Under circumstances where the federal law does not permit the committee to require such transfer, the committee shall give priority to applications where the applicants on their own volition make commitments to provide for the transfer.

(9) The committee shall not approve any application to finance or help finance a shopping mall.

(10) For loans not made to minority and women-owned businesses, the committee shall make at least eighty percent of the appropriated funds available to projects located in distressed areas, and may make up to twenty percent available to projects located in areas not designated as distressed. For loans not made to minority and women-owned businesses, the committee shall not make funds available to projects located in areas not designated as distressed if the fund's net worth is less than seven million one hundred thousand dollars.

(11) If an objection is raised to a project on the basis of unfair business competition, the committee shall evaluate the potential impact of a project on similar businesses located in the local market area. A grant may be denied by the committee if a project is not likely to result in a net increase in employment within a local market area.

(12) For loans to minority and women-owned businesses who do not meet the credit criteria, the committee may consider nontraditional credit standards to offset past discrimination that has precluded full participation of minority or women-owned businesses in the economy. For applicants with high potential who do not meet the credit criteria, the committee shall consider developing alternative borrowing methods. For applicants denied loans due to credit problems, the committee shall provide financial counseling within available resources and provide referrals to credit rehabilitation services. In circumstances of competing applications, priority shall be given to members of eligible groups which previously have been least served by

this fund.

RCW 43.170.010 Legislative findings.

The legislature recognizes the numerous benefits to the state's economic base from the establishment of small businesses by innovators and inventors and the numerous benefits

provided by inventors and innovators through industrial diversification, broadening of the economic base, and providing financial benefits to our citizens and new products to the nation's consumers.

It is estimated that ninety-five percent of all inventions and innovations are never authoritatively considered primarily because inventors are unfamiliar with the business environment or financial structure necessary for implementing their proposals.

The legislature therefore recognizes a need to encourage and assist innovators and inventors.

Notes:

Minority and women business development office: RCW 43.31.0925.

RCW 43.172.005 Intent.

It is the intent of the legislature to combat discrimination in the economy.

(1) The legislature finds that discrimination is in part responsible for:

(a) The disproportionately small percentage of the state's businesses that are owned by minorities and women;

(b) The limited and unequal opportunity minority and women entrepreneurs and business owners have to procure small business financing; and

(c) The difficulty many minority and women-owned contracting businesses have in securing bonds and contract work.

(2) The legislature further finds that:

(a) Many minority and women entrepreneurs and business owners lack training in how to establish and operate a business. This lack of training inhibits their competitiveness when they apply for business loans, bonds, and contracts;

(b) Minorities and women are an increasingly expanding portion of the population and work force. In order for these individuals to fully contribute to the society and economy it is necessary to ensure that minority and women entrepreneurs and business owners are provided an equal opportunity to procure small business financing, bonds, and contracts; and

(c) The growth of small businesses will have a favorable impact on the Washington economy by creating jobs, increasing competition in the marketplace, and expanding tax revenues. Access to financial markets, bonds, and contracts by entrepreneurs and small business owners is vital to this process. Without reasonable access to financing, bonds, and contracts, talented and aggressive entrepreneurs and small business owners are cut out of the economic system and the state's economy suffers.

(3) Therefore, the legislature declares there to be a substantial public purpose in providing technical assistance in the areas of marketing, finance, and management, and access to capital resources, bonds, and contracts, to help start or expand a minority or women-owned

business, and specifically to encourage and make possible greater participation by minorities and women in international trade, public works and construction, and public facility concessions. To accomplish these purposes, it is the intent of the legislature to:

(a) Develop or contract for training courses in financing, marketing, managing, accounting, and recordkeeping for a small business and to make these programs available to minority and women entrepreneurs and small business owners;

(b) Make public works and construction projects, public facility concessions, and purchase of goods and services accessible to a greater number of minority and women-owned businesses;

(c) Provide for the lending of nonstate funds to qualified minority and women entrepreneurs and business owners in order to provide the maximum practicable opportunity for innovative minority and women entrepreneurs and business owners to compete for small business financing; and

(d) Provide professional services assistance grants and bond guarantees on behalf of qualified contractors in order to provide the maximum practicable opportunity for minority and women-owned contracting businesses to participate in the Washington state economy by bidding and completing various public and private contracting jobs.

RCW 43.180.010 Declaration of public policies--Purpose.

It is declared to be the public policy of the state and a recognized governmental function to assist in making affordable and decent housing available throughout the state and by so doing to contribute to the general welfare. Decent housing for the people of our state is a most important public concern. Interest rates and construction costs have made it impossible for many Washington citizens to purchase their own homes. Older people, disabled persons, and low and moderate income families often cannot afford to rent decent housing. There exists throughout the state a serious shortage of safe, sanitary and energy efficient housing available at prices within the financial means of our citizens. General economic development within the state is also

impeded by a lack of affordable housing. The state's economy, which is dependent on the timber, wood products, and construction industries, has been damaged by inadequate investment in housing construction and rehabilitation. The result has been high unemployment and economic hardship affecting the prosperity of all the people of the state, particularly those in the wood products industry.

It is the purpose of this chapter to establish a state housing finance commission to act as a financial conduit which, without using public funds or lending the credit of the state or local government, can issue nonrecourse revenue bonds and participate in federal, state, and local housing programs and thereby make additional funds available at affordable rates to help provide housing throughout the state. It is also a primary purpose of this chapter to encourage the use of Washington state forest products in residential construction. This chapter is enacted to accomplish these and related purposes and shall be liberally construed to carry out its purposes and objectives.

[1983 c 161 § 1.]

RCW 43.180.020 Definitions.

Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Bonds" means the bonds, notes, or other evidences of indebtedness of the commission, the interest paid on which may or may not qualify for tax exemption.

(2) "Code" means the federal internal revenue code of 1954, as now or hereafter amended, and the regulations and rulings promulgated thereunder.

(3) "Commission" means the Washington state housing finance commission or any board, body, commission, department, or officer succeeding to the principal functions thereof or to whom the powers conferred upon the commission shall be given by law.

(4) "Costs of housing" means all costs related to the development, design, acquisition, construction, reconstruction, leasing, rehabilitation, and other improvements of housing, as determined by the commission.

(5) "Eligible person" means a person or family eligible in accordance with standards promulgated by the commission. Such persons shall include those persons whose income is insufficient to obtain at a reasonable cost, without financial assistance, decent, safe, and sanitary housing in the area in which the person or family resides, and may include such other persons whom the commission determines to be eligible.

(6) "Housing" means specific new, existing, or improved residential dwellings within this state or dwellings to be constructed within this state. The term includes land, buildings, and manufactured dwellings, and improvements, furnishings, and equipment, and such other nonhousing facilities, furnishings, equipment, and costs as may be incidental or appurtenant thereto if in the judgment of the commission the facilities, furnishings, equipment and costs are an integral part of the project. Housing may consist of single-family or multifamily dwellings in one or more structures located on contiguous or noncontiguous parcels or any combination thereof. Improvements may include such equipment and materials as are appropriate to

accomplish energy efficiency within a dwelling. The term also includes a dwelling constructed by a person who occupies and owns the dwelling, and nursing homes licensed under chapter 18.51 RCW.

(7) "Mortgage" means a mortgage, mortgage deed, deed of trust, security agreement, or other instrument securing a mortgage loan and constituting a lien on or security interest in housing. The property may be held in fee simple or on a leasehold under a lease having a remaining term, at the time the mortgage is acquired, of not less than the term of repayment of the mortgage loan secured by the mortgage. The property may also be housing which is evidenced by an interest in a cooperative association or corporation if ownership of the interest entitles the owner of the interest to occupancy of a dwelling owned by the association or corporation.

(8) "Mortgage lender" means any of the following entities which customarily provide service or otherwise aid in the financing of housing and which are approved as a mortgage lender by the commission: A bank, trust company, savings bank, national banking association, savings and loan association, building and loan association, mortgage banker, mortgage company, credit union, life insurance company, or any other financial institution, governmental agency, municipal corporation, or any holding company for any of the entities specified in this subsection.

(9) "Mortgage loan" means an interest-bearing loan or a participation therein, made to a borrower, for the purpose of financing the costs of housing, evidenced by a promissory note, and which may or may not be secured (a) under a mortgage agreement, (b) under any other security agreement, regardless of whether the collateral is personal or real property, or (c) by insurance or a loan guarantee of a third party. However, an unsecured loan shall not be considered a mortgage loan under this definition unless the amount of the loan is under two thousand five hundred dollars.

[1990 c 167 § 1; 1983 c 161 § 2.]

RCW 43.180.030 Bonds not debt of state.

Bonds issued under this chapter shall be issued in the name of the commission. The bonds shall not be obligations of the state of Washington and shall be obligations only of the commission payable from the special fund or funds created by the commission for their payment. Such funds shall not be or constitute public moneys or funds of the state of Washington but at all times shall be kept segregated and set apart from other funds.

Bonds issued under this chapter shall contain a recital on their face to the effect that payment of the principal of, interest on, and prepayment premium, if any, on the bonds, shall be a valid claim only as against the special fund or funds relating thereto, that neither the faith and credit nor the taxing power of the state or any municipal corporation, subdivision, or agency of the state, other than the commission as set forth in this chapter, is pledged to the payment of the principal of, interest on, and prepayment premium, if any, on the bonds.

Contracts entered into by the commission shall be entered into in the name of the commission and not in the name of the state of Washington. The obligations of the commission

under the contracts shall be obligations only of the commission and are not in any way obligations of the state of Washington.

[1983 c 161 § 3.]

RCW 43.180.040 Commission created.

(1) There is hereby established a public body corporate and politic, with perpetual corporate succession, to be known as the Washington state housing finance commission. The commission is an instrumentality of the state exercising essential government functions and, for purposes of the code, acts as a constituted authority on behalf of the state when it issues bonds pursuant to this chapter. The commission is a "public body" within the meaning of RCW 39.53.010.

(2) The commission shall consist of the following voting members:

- (a) The state treasurer, ex officio;
- (b) The director of community, trade, and economic development, ex officio;
- (c) An elected local government official, ex officio, with experience in local housing programs, who shall be appointed by the governor with the consent of the senate;
- (d) A representative of housing consumer interests, appointed by the governor with the consent of the senate;
- (e) A representative of labor interests, appointed by the governor, with the consent of the senate, after consultation with representatives of organized labor;
- (f) A representative of low-income persons, appointed by the governor with the consent of the senate;

The term of the persons appointed by the governor, other than the chair, shall be four years from the date of their appointment, except that the terms of three of the initial appointees shall be for two years from the date of their appointment. The governor shall designate the appointees who will serve the two-year terms. An appointee may be removed by the governor for cause pursuant to RCW 43.06.070 and 43.06.080. The governor shall fill any vacancy in an appointed position by appointment for the remainder of the unexpired term. If the *department of community development is abolished, the resulting vacancy shall be filled by a state official who shall be appointed to the commission by the governor. If this official occupies an office or position for which senate confirmation is not required, then his or her appointment to the commission shall be subject to the consent of the senate. The members of the commission shall be compensated in accordance with RCW 43.03.240 and may be reimbursed, solely from the funds of the commission, for expenses incurred in the discharge of their duties under this chapter, subject to the provisions of RCW 43.03.050 and 43.03.060. A majority of the commission constitutes a quorum. Designees shall be appointed in such manner and shall

exercise such powers as are specified by the rules of the commission.

(3) The commission may adopt an official seal and may select from its membership a vice chair, a secretary, and a treasurer. The commission shall establish rules concerning its exercise of the powers authorized by this chapter. The rules shall be adopted in conformance with chapter 34.05 RCW.

The plan shall include an estimate of the amount of bonds the commission will issue during the term of the plan and how bond proceeds will be expended.

The plan shall be adopted by resolution of the commission following at least one public hearing thereon, notice of which shall be made by mailing to the clerk of the governing body of each county and by publication in the Washington State Register no more than forty and no less than twenty days prior to the hearing. A draft of the plan shall be made available not less than thirty days prior to any such public hearing. The commission may periodically update the plan.

The commission shall adopt rules designed to result in the use of bond proceeds in a manner consistent with the plan. The commission may periodically update its rules.

[1999 c 372 § 11; 1999 c 131 § 1; 1983 c 161 § 7.]

Notes:

Reviser's note: This section was amended by 1999 c 131 § 1 and by 1999 c 372 § 11, each without reference to the other. Both amendments are incorporated in the publication of this section under RCW 1.12.025(2). For rule of construction, see RCW 1.12.025(1).

These regulatory agreements and covenants shall run with the land and be enforceable by the commission or its successors or assigns against the person or entity making the regulatory agreement or covenants or its successors or assigns, even though there may be no privity of estate or privity of contract between the commission or its successors or assigns and the person or entity against whom enforcement is sought. [1997 c 163 § 1; 1983 c 161 § 8.]

RCW 43.180.090 Selection of bond counsel--Written policies to be adopted.

(1) The commission shall adopt written policies to provide for the selection of bond counsel. The policies shall provide for the creation and maintenance of a roster of attorneys whom the commission believes possess the requisite special expertise and professional standing to provide bond counsel opinions which would be accepted by the underwriters, bondholders, and other members of the financial community, and which would be in furtherance of the public interest in obtaining the lowest possible interest rates on the bonds issued by the commission. Any attorney may apply to have his or her name placed on the roster, but may not be placed on the roster unless the attorney demonstrates to the commission's satisfaction that the attorney would issue the kind of opinions required by this section.

(2) Prior to selecting an attorney or attorneys to provide bond counsel services, the commission shall provide all attorneys on the roster with a notice of its intentions to select bond counsel and shall invite each of them to submit to the commission his or her fee schedule for providing bond counsel services. The commission shall have wide discretion in selecting the attorney or attorneys it considers to be most appropriate to provide the services, but in the exercise of this discretion the commission shall consider all submitted fee schedules and the public interest in achieving both savings in bond counsel fees and issuance of bonds on terms most favorable to the commission. At least once every two calendar years, the commission shall select anew an attorney or attorneys to serve as bond counsel. However, the commission may retain an attorney for longer than two years when necessary to complete work on a particular bond issue. An attorney previously retained may be selected again but only after the commission has provided other attorneys on the roster with an opportunity to be selected and has made the fee schedule review required under this subsection. In addition to or as an alternative to retaining counsel for a period of time, the commission may appoint an attorney to serve as counsel in respect to only a particular bond issue.

[1983 c 161 § 9.]

RCW 43.180.100 Selection of underwriters--Written policies to be adopted.

(1) The commission shall adopt written policies to provide for the selection of underwriters. The policies shall provide for the creation of a roster of underwriters whom the commission believes possess the requisite special expertise and professional standing to provide bond marketing services which would be accepted by bondholders and other members of the financial community, and which would be in furtherance of the public interest in marketing the commission's bonds at the lowest possible costs. Any underwriter may apply to have its name placed on the roster, but may not be placed on the roster unless it demonstrates to the commission's satisfaction that it meets the requirements of this section.

(2) Whenever the commission decides that it needs the services of an underwriter, it shall

provide all underwriters on the roster with a notice of its intentions and shall invite each of them to submit to the commission an itemization of its fees and other charges for providing underwriting services on the issue. The itemization shall be by categories designed by the commission. The commission shall have wide discretion in selecting the underwriter it considers to be most appropriate to provide the services, but in the exercise of this discretion the commission shall consider the underwriter's fees and other charges and the public interest in achieving both savings in the total costs of underwriting services and issuance of bonds on terms most favorable to the commission.

[1983 c 161 § 10.]

RCW 43.180.110 Review of initial policies adopted under RCW 43.180.090 and 43.180.100--Adoption--Change.

The commission shall submit the initial policies adopted under RCW 43.180.090 and 43.180.100 to the chief clerk of the house and the secretary of the senate for transmittal to and review by the appropriate standing committees and the joint administrative rules review committee. By January 1, 1984 the commission shall have adopted policies in the form of rules and regulations under chapter 34.05 RCW. Such rules and regulations may only be changed or revised in accordance with chapter 34.05 RCW.

[1983 c 161 § 11.]

RCW 43.180.120 Rules for fair allocation of bond proceeds for nonrental single family housing.

The legislature recognizes that the demand for mortgage loans for nonrental single family housing will probably greatly exceed the supply of bond proceeds available to satisfy the demand. Therefore, the commission shall adopt rules providing procedures to assure that the bond proceeds available for that kind of housing shall be made available to qualified mortgagors in a fair and equitable manner.

[1983 c 161 § 12.]

RCW 43.180.130 Protection of bondholders--Mortgage insurance.

The commission is encouraged to adopt policies which will assure that bondholders will be protected against the failure to make mortgage payments financed under this chapter. Such policies may require, among other things, mortgage insurance.

[1983 c 161 § 13.]

RCW 43.180.140 Rules for energy efficiency.

The commission shall adopt rules providing for financing assistance to implement

cost-effective energy efficiency improvements.

[1983 c 161 § 14.]

RCW 43.180.150 Bond issues--Terms--Issuance--Purchase, etc.

(1) The commission's bonds shall bear such date or dates, mature at such time or times, be in such denominations, be in such form, be registered or registrable in such manner, be made transferable, exchangeable, and interchangeable, be payable in such medium of payment, at such place or places, be subject to such terms of redemption, bear such fixed or variable rate or rates of interest, be payable at such time or times, and be sold in such manner and at such price or prices, as the commission determines. The bonds shall be executed by the chair, by either its duly elected secretary or its treasurer, and by the trustee or paying agent if the commission determines to use a trustee or paying agent for the bonds. Execution of the bonds may be by manual or facsimile signature.

(2) The bonds of the commission shall be subject to such terms, conditions, covenants, and protective provisions as are found necessary or desirable by the commission, including, but not limited to, pledges of the commission's assets, setting aside of reserves, limitations on additional forms of indebtedness, and the mortgaging of all or any part of the commission's real or personal property, then owned or thereafter acquired, and other provisions the commission finds are necessary or desirable for the security of bond holders.

(3) Any security interest created in the unexpended bond proceeds and in the special funds created by the commission shall be immediately valid and binding against such moneys and any securities in which such moneys may be invested without commission or trustee possession thereof, and the security interest shall be prior to any party having any competing claim in such moneys or securities, without filing or recording pursuant to *chapter 62A.9 RCW and regardless of whether the party has notice of the security interest.

(4) When issuing bonds, the commission may provide for the future issuance of additional bonds or parity debt on a parity with outstanding bonds, and the terms and conditions of their issuance. The commission may refund or advance refund any bond of the commission in accordance with chapter 39.53 RCW or issue bonds with a subordinate lien against the fund or funds securing outstanding bonds.

(5) The chair of the state finance committee or the chair's designee shall be notified in advance of the issuance of bonds by the commission in order to promote the orderly offering of obligations in the financial markets.

(6) The members of the commission and any person executing the bonds are not liable personally on the indebtedness or subject to any personal liability or accountability by reason of the issuance thereof.

RCW 43.185.010 Findings.

The legislature finds that current economic conditions, federal housing policies and declining resources at the federal, state, and local level adversely affect the ability of low and very low-income persons to obtain safe, decent, and affordable housing.

The legislature further finds that members of over one hundred twenty thousand households live in housing units which are overcrowded, lack plumbing, are otherwise threatening to health and safety, and have rents and utility payments which exceed thirty percent of their income.

The legislature further finds that minorities, rural households, and migrant farm workers require housing assistance at a rate which significantly exceeds their proportion of the general population.

The legislature further finds that one of the most dramatic housing needs is that of persons needing special housing-related services, such as the mentally ill, recovering alcoholics, frail elderly persons, families with members who have disabilities, and single parents. These services include medical assistance, counseling, chore services, and child care.

The legislature further finds that housing assistance programs in the past have often failed to help those in greatest need.

The legislature declares that it is in the public interest to establish a continuously renewable resource known as the housing trust fund and housing assistance program to assist low and very low-income citizens in meeting their basic housing needs, and that the needs of very low-income citizens should be given priority and that whenever feasible, assistance should be in the form of loans.

RCW 43.190.030 Office of state long-term care ombudsman created--Powers and duties--Rules.

There is created the office of the state long-term care ombudsman. The department of community, trade, and economic development shall contract with a private nonprofit organization to provide long-term care ombudsman services as specified under, and consistent with, the federal older Americans act as amended, federal mandates, the goals of the state, and the needs of its citizens. The department of community, trade, and economic development shall ensure that all program and staff support necessary to enable the ombudsman to effectively protect the interests of residents, patients, and clients of all long-term care facilities is provided by the nonprofit organization that contracts to provide long-term care ombudsman services. The department of community, trade, and economic development shall adopt rules to carry out this

chapter and the long-term care ombudsman provisions of the federal older Americans act, as amended, and applicable federal regulations. The long-term care ombudsman program shall have the following powers and duties:

(1) To provide services for coordinating the activities of long-term care ombudsmen throughout the state;

(2) Carry out such other activities as the department of community, trade, and economic development deems appropriate;

(3) Establish procedures consistent with RCW 43.190.110 for appropriate access by long-term care ombudsmen to long-term care facilities and patients' records, including procedures to protect the confidentiality of the records and ensure that the identity of any complainant or resident will not be disclosed without the written consent of the complainant or resident, or upon court order;

(4) Establish a state-wide uniform reporting system to collect and analyze data relating to complaints and conditions in long-term care facilities for the purpose of identifying and resolving significant problems, with provision for submission of such data to the department of social and health services and to the federal department of health and human services, or its successor agency, on a regular basis; and

(5) Establish procedures to assure that any files maintained by ombudsman programs shall be disclosed only at the discretion of the ombudsman having authority over the disposition of such files, except that the identity of any complainant or resident of a long-term care facility shall not be disclosed by such ombudsman unless:

(a) Such complainant or resident, or the complainant's or resident's legal representative, consents in writing to such disclosure; or

(b) Such disclosure is required by court order.

Notes:

Effective date--1988 c 119 § 2: "Section 2 of this act shall take effect July 1, 1989." [1988 c 119 § 5.]

Legislative findings--1988 c 119: "The legislature recognizes that the state long-term care ombudsman program and the office of the state long-term care ombudsman, located within the department of social and health services, have brought into serious question the ability of that office to serve as an effective mechanism on the state level for investigating and resolving complaints made by or on behalf of residents of long-term care facilities.

The legislature further finds it necessary to exercise its options under the federal older Americans act and identify an organization, outside of the department of social and health services and independent of any other state agency, to provide, through contract, long-term care ombudsman services." [1988 c 119 § 1.]

Survey--1988 c 119: "The committee on health care of the house of representatives shall conduct a survey and analysis of the appropriate placement outside of state government of the office of the state long-term care ombudsman. The survey shall ascertain how the contracted placement of the office will most effectively allow it to meet its responsibilities under chapter 43.190 RCW. A draft of the findings shall be submitted to the governor and the legislature before the first Friday in November 1988 and the final findings, conclusions, and recommendations shall be submitted in a report to the governor and the legislature no later than December 30, 1988.

The survey required shall include, but is not limited to, a complete assessment of how independently contracting the program outside state government will provide the office with an effective means for resolving complaints and building program accountability and integrity facilitating local involvement and contributing to long-term care policy development. The study shall also clearly identify and describe how this model for

administering the duties and responsibilities of the ombudsman will affect the ability of the office to function as mandated under the federal older Americans act, and provide suggestions that will assist the office to coordinate information and assistance, to the fullest degree possible, with citizen groups, the general public, the nursing home industry, and local volunteer programs. The survey shall further specify the operational program details necessary for adopting the proposed independently contracted plan." [1988 c 119 § 3.]

Use of survey findings--1988 c 119: "The survey findings, together with any reports of legislative committees in response to such survey, shall be used by the department of community development in determining the best manner to contract for and provide long-term care ombudsman services." [1988 c 119 § 4.]

RCW 43.190.040 Long-term care ombudsmen.

This information shall also be distributed to the residents, family members, and legal guardians upon the resident's admission to the facility.

[1983 c 290 § 5.]

RCW 43.190.060 Duties of ombudsman.

A long-term care ombudsman shall:

Nuclear energy and radiation: Chapter 70.98 RCW.

RCW 43.200.010 Finding--Purpose.

The legislature finds that the safe transporting, handling, storage, or otherwise caring for radioactive wastes is required to protect the health, safety, and welfare of the citizens of the state of Washington. It is the purpose of this chapter to establish authority for the state to exercise appropriate oversight and care for the safe management and disposal of radioactive wastes; to consult with the federal government and other states on interim or permanent storage of these radioactive wastes; and to carry out the state responsibilities under the federal nuclear waste policy act of 1982.

[1983 1st ex.s. c 19 § 1.]

RCW 43.200.015 Definitions.

As used in this chapter, the following terms have the meanings indicated unless the context clearly requires otherwise.

(1) "High-level radioactive waste" means "high-level radioactive waste" as the term is defined in 42 U.S.C. Sec. 10101 (P.L. 97-425).

(2) "Low-level radioactive waste" means waste material that contains radioactive nuclides emitting primarily beta or gamma radiation, or both, in concentrations or quantities that exceed applicable federal or state standards for unrestricted release. Low-level waste does not include waste containing more than one hundred nanocuries of transuranic contaminants per gram of material, nor spent nuclear fuel, nor material classified as either high-level radioactive waste or waste that is unsuited for disposal by near-surface burial under any applicable federal regulations.

(3) "Radioactive waste" means both high-level and low-level radioactive waste.

(4) "Spent nuclear fuel" means spent nuclear fuel as the term is defined in 42 U.S.C. Sec. 10101.

(5) "Department" means the department of ecology.

[1989 c 322 § 1; 1985 c 293 § 1; 1984 c 161 § 1.]

RCW 43.200.020 Participation authority regarding federal statutes--Federal financial assistance.

The department of ecology is designated as the executive branch agency for participation in the federal nuclear waste policy act of 1982 and the federal low-level radioactive waste policy act of 1980, however the legislature retains an autonomous role with respect to participation in all aspects of the federal nuclear waste policy act of 1982. The department may receive federal financial assistance for carrying out radioactive waste management activities, including assistance for expenses, salaries, travel, and monitoring and evaluating the program of repository exploration and siting undertaken by the federal government.

[1989 c 322 § 2; 1984 c 161 § 2; 1983 1st ex.s. c 19 § 2.]

RCW 43.200.030 Cooperation required.

All departments, agencies, and officers of this state and its subdivisions shall cooperate with the department of ecology in the furtherance of any of its activities pursuant to this chapter.

[1989 c 322 § 3; 1984 c 161 § 4; 1983 1st ex.s. c 19 § 3.]

RCW 43.200.040 Nuclear waste board created--Membership--Compensation and travel expenses.

Notes:

Reviser's note: RCW 43.200.040 was amended by 1989 1st ex.s. c 9 § 219 without reference to its repeal by 1989 c 322 § 7, effective July 23, 1989. It has been decodified for publication purposes pursuant to RCW 1.12.025.

RCW 43.200.070 Rules.

The department of ecology shall adopt such rules as are necessary to carry out responsibilities under this chapter. The department of ecology is authorized to adopt such rules as are necessary to carry out its responsibilities under chapter 43.145 RCW.

[1989 c 322 § 5; 1986 c 2 § 5; 1984 c 161 § 8; 1983 1st ex.s. c 19 § 7.]

RCW 43.200.080 Additional powers and duties of director--Site closure account--Perpetual surveillance and maintenance account.

The director of ecology shall, in addition to the powers and duties otherwise imposed by

law, have the following special powers and duties:

(1) To fulfill the responsibilities of the state under the lease between the state of Washington and the federal government executed September 10, 1964, covering one thousand acres of land lying within the Hanford reservation near Richland, Washington. The department of ecology may sublease to private or public entities all or a portion of the land for specific purposes or activities which are determined, after public hearing, to be in agreement with the terms of the lease and in the best interests of the citizens of the state consistent with any criteria that may be developed as a requirement by the legislature;

(2) To assume the responsibilities of the state under the perpetual care agreement between the state of Washington and the federal government executed July 29, 1965 and the sublease between the state of Washington and the site operator of the Hanford low-level radioactive waste disposal facility. In order to finance perpetual surveillance and maintenance under the agreement and ensure site closure under the sublease, the department of ecology shall impose and collect fees from parties holding radioactive materials for waste management purposes. The fees shall be established by rule adopted under chapter 34.05 RCW and shall be an amount determined by the department of ecology to be necessary to defray the estimated liability of the state. Such fees shall reflect equity between the disposal facilities of this and other states. A site closure account and a perpetual surveillance and maintenance account is hereby created in the state treasury. The site closure account shall be exclusively available to reimburse, to the extent that moneys are available in the account, the site operator for its costs plus a reasonable profit as agreed by the operator and the state, or to reimburse the state licensing agency and any agencies under contract to the state licensing agency for their costs in final closure and decommissioning of the Hanford low-level radioactive waste disposal facility. If a balance remains in the account after satisfactory performance of closure and decommissioning, this balance shall be transferred to the perpetual surveillance and maintenance account. The perpetual surveillance and maintenance account shall be used exclusively by the state to meet post-closure surveillance and maintenance costs, or for otherwise satisfying surveillance and maintenance obligations. Appropriations are required to permit expenditures and payment of obligations from the site closure account and the perpetual surveillance and maintenance account. All moneys, including earnings from the investment of balances in the site closure and the perpetual surveillance and maintenance account, less the allocation to the state treasurer's service fund, pursuant to RCW 43.08.190 accruing under the authority of this section shall be directed to the site closure account until December 31, 1992. Thereafter receipts including earnings from the investment of balances in the site closure and the perpetual surveillance and maintenance account, less the allocation to the state treasurer's service fund, pursuant to RCW 43.08.190 shall be directed to the site closure account and the perpetual surveillance and maintenance account as specified by the department. Additional moneys specifically appropriated by the legislature or received from any public or private source may be placed in the site closure account and the perpetual surveillance and maintenance account;

(3) To assure maintenance of such insurance coverage by state licensees, lessees, or sublessees as will adequately, in the opinion of the director, protect the citizens of the state against nuclear accidents or incidents that may occur on privately or state-controlled nuclear

facilities;

(4) To institute a user permit system and issue site use permits, consistent with regulatory practices, for generators, packagers, or brokers using the Hanford low-level radioactive waste disposal facility. The costs of administering the user permit system shall be borne by the applicants for site use permits. The site use permit fee shall be set at a level that is sufficient to fund completely the executive and legislative participation in activities related to the Northwest Interstate Compact on Low-Level Radioactive Waste Management;

(5) To make application for or otherwise pursue any federal funds to which the state may be eligible, through the federal resource conservation and recovery act or any other federal programs, for the management, treatment or disposal, and any remedial actions, of wastes that are both radioactive and hazardous at all Hanford low-level radioactive waste disposal facilities; and

(6) To develop contingency plans for duties and options for the department and other state agencies related to the Hanford low-level radioactive waste disposal facility based on various projections of annual levels of waste disposal. These plans shall include an analysis of expected revenue to the state in various taxes and funds related to low-level radioactive waste disposal and the resulting implications that any increase or decrease in revenue may have on state agency duties or responsibilities. The plans shall be updated annually.

RCW 43.200.190 Studies on site closure and perpetual care and maintenance requirements and on adequacy of insurance coverage.

The department of ecology shall perform studies, by contract or otherwise, to define site closure and perpetual care and maintenance requirements for the Hanford low-level radioactive waste disposal facility and to assess the adequacy of insurance coverage for general liability, radiological liability, and transportation liability for the facility.

[1998 c 245 § 82; 1986 c 2 § 6.]

RCW 43.200.200 Review of potential damage--Financial assurance.

(1) The director of the department of ecology shall periodically review the potential for bodily injury and property damage arising from the transportation and disposal of commercial low-level radioactive waste under permits issued by the state.

(2) The director may require permit holders to demonstrate financial assurance in an amount that is adequate to protect the state and its citizens from all claims, suits, losses, damages, or expenses on account of injuries to persons and property damage arising or growing out of the transportation or disposal of commercial low-level radioactive waste. The financial assurance may be in the form of insurance, cash deposits, surety bonds, corporate guarantees, and other acceptable instruments or guarantees determined by the director to be acceptable evidence of financial assurance.

(3) In making the determination of the appropriate level of financial assurance, the director shall consider:

(a) The nature and purpose of the activity and its potential for injury and damages to or claims against the state and its citizens;

(b) The current and cumulative manifested volume and radioactivity of waste being packaged, transported, buried, or otherwise handled;

(c) The location where the waste is being packaged, transported, buried, or otherwise

handled, including the proximity to the general public and geographic features such as geology and hydrology, if relevant; and

(d) The legal defense cost, if any, that will be paid from the required financial assurance amount.

(4) The director may establish different levels of required financial assurance for various classes of permit holders.

(5) The director shall establish by rule the instruments or mechanisms by which a permit applicant or holder may demonstrate financial assurance as required by RCW 43.200.210.

[1998 c 245 § 83; 1992 c 61 § 1; 1990 c 82 § 1; 1986 c 191 § 1.]

RCW 43.200.210 Immunity of state--Demonstration of financial assurance--Suspension of permit.

(1) The department of ecology shall require that any person who holds or applies for a permit under this chapter indemnify and hold harmless the state from claims, suits, damages, or expenses on account of injuries to or death of persons and property damage, arising or growing out of any operations and activities for which the person holds the permit, and any necessary or incidental operations.

(2) The department of ecology shall refuse to issue or shall suspend the permit of any person required by this section to demonstrate adequate financial assurance who fails to demonstrate compliance with this section. The permit shall not be issued or reinstated until the person demonstrates compliance with this section.

(3) The department of ecology shall require (a) that any person required to demonstrate financial assurance maintain with the agency current copies of any insurance policies, certificates of insurance, or any other documents sufficient to evidence compliance with this section, (b) that the agency be notified of any changes in the instruments of financial assurance or financial condition of the person, and (c) that the state be named as an insured party on any insurance policy used to comply with this section. This subsection shall not apply to any person subject to the same requirements under RCW 70.98.095.

Rate regulation anticipated--1990 c 21: "State and national policy directs that the management of

low-level radioactive waste shall be accomplished by a system of interstate compacts and the development of regional disposal sites. The Northwest regional compact, comprised of the states of Alaska, Hawaii, Idaho, Montana, Oregon, Utah, and Washington, has as its disposal facility the low-level radioactive waste disposal site located near Richland, Washington. This site is expected to be the sole site for disposal of low-level radioactive waste for compact members effective January 1, 1993. Future closure of this site will require significant financial resources.

Low-level radioactive waste is generated by essential activities and services that benefit the citizens of the state. Washington state's low-level radioactive waste disposal site has been used by the nation and the Northwest compact as a disposal site since 1965. The public has come to rely on access to this site for disposal of low-level radioactive waste, which requires separate handling from other solid and hazardous wastes. The price of disposing of low-level radioactive waste at the Washington state low-level radioactive waste disposal site is anticipated to increase when the federal low-level radioactive waste policy amendments act of 1985 is implemented and waste generated outside the Northwest compact states is excluded. To protect Washington and other Northwest compact states' businesses and services, such as electrical production, medical and university research, and private industries, upon which the public relies, there may be a need to regulate the rates charged by the operator of Washington's low-level radioactive waste disposal site." RCW 43.200.230 Fees for waste generators.

The director of the department of ecology shall require that generators of waste pay a fee for each cubic foot of waste disposed at any facility in the state equal to six dollars and fifty cents. The fee shall be imposed specifically on the generator of the waste and shall not be considered to apply in any way to the low-level site operator's disposal activities. The fee shall be allocated in accordance with RCW 43.200.233 and 43.200.235. This subsection shall be invalidated and the authorization to collect a surcharge removed if the legislature or any administrative agency of the state of Washington prior to January 1, 1993, (1) imposes fees, assessments, or charges other than perpetual care and maintenance, site surveillance, and site closing fees currently applicable to the Hanford commercial low-level waste site operator's activities, (2) imposes any additional fees, assessments, or charges on generators using the Hanford commercial low-level waste site, or (3) increases any existing fees, assessments, or charges.

Nuclear waste site--Election for disapproval: Chapter 29.91 RCW.

RCW 43.205.010 Findings.

The legislature and the people of the state of Washington find that:

(1) In order to solve the problem of high-level radioactive waste disposal, congress established a process for selecting two sites for the safe, permanent, and regionally equitable disposal of such waste.

(2) The process of selecting three sites as final candidates, including the Hanford reservation, for a first high-level nuclear waste repository by the United States department of energy violated the intent and the mandate of congress.

(3) The United States department of energy has prematurely deferred consideration of numerous potential sites and disposal media that its own research indicates are more appropriate, safer, and less expensive.

(4) Placement of a repository at Hanford without methodical and independently verified

scientific evaluation will pose a threat to the health and safety of the people and the environment of this state.

(5) The selection process is flawed and not credible because it did not include independent experts in the selection of the sites and in the review of that selection, as recommended by the National Academy of Sciences.

(6) By postponing indefinitely all site specific work for a second repository, the United States department of energy has not complied with the intent of congress expressed in the Nuclear Waste Policy Act, Public Law 97-425, and the fundamental compromise which enabled its enactment.

[1986 ex.s. c 1 § 1.]

RCW 43.205.020 Duties relating to the site selection process for a high-level nuclear waste repository.

In order to achieve complete compliance with federal law and protect the health, safety, and welfare of the people of the state of Washington, the governor, the legislature, other state-wide elected officials, and the nuclear waste board shall use all legal means necessary to:

(1) Suspend the preliminary site selection process for a high-level nuclear waste repository, including the process of site characterization, until there is compliance with the intent of the Nuclear Waste Policy Act;

(2) Reverse the secretary of energy's decision to postpone indefinitely all site specific work on locating and developing a second repository for high-level nuclear waste;

(3) Insist that the United States department of energy's site selection process, when resumed, considers all acceptable geologic media and results in safe, scientifically justified, and regionally and geographically equitable high-level nuclear waste disposal;

(4) Demand that federal budget actions fully and completely follow the intent of the Nuclear Waste Policy Act; and

(5) Continue to pursue alliances with other states and interested parties, particularly with Pacific Northwest governors, legislatures, and other parties, affected by the site selection and transportation of high-level nuclear waste.

RCW 43.210.010 Findings.

The legislature finds:

(1) The exporting of goods and services from Washington to international markets is an important economic stimulus to the growth, development, and stability of the state's businesses in both urban and rural areas, and that these economic activities create needed jobs for Washingtonians.

(2) Impediments to the entry of many small and medium-sized businesses into export markets have restricted growth in exports from the state.

(3) Particularly significant impediments for many small and medium-sized businesses are the lack of easily accessible information about export opportunities and financing alternatives.

(4) There is a need for a small business export finance assistance center which will specialize in providing export assistance to small and medium-sized businesses throughout the state in acquiring information about export opportunities and financial alternatives for exporting.

[1990 1st ex.s. c 17 § 65; 1985 c 231 § 1; 1983 1st ex.s. c 20 § 1.]

Notes:

Intent--1990 1st ex.s. c 17: "The legislature finds that the Puget Sound region is experiencing economic prosperity and the challenges associated with rapid growth; much of the rest of the state is not experiencing economic prosperity, and faces challenges associated with slow economic growth. It is the intent of the legislature to encourage economic prosperity and balanced economic growth throughout the state.

In order to accomplish this goal, growth must be managed more effectively in the Puget Sound region, and rural areas must build local capacity to accommodate additional economic activity in their communities. Where possible, rural economies and low-income areas should be linked with prosperous urban economies to share economic growth for the benefit of all areas and the state.

To accomplish this goal it is the intent of the legislature to: (1) Assure equitable opportunities to secure prosperity for distressed areas, rural communities, and disadvantaged populations by promoting urban-rural economic links, and by promoting value-added product development, business networks, and increased exports from rural areas; (2) improve the economic development service delivery system to be better able to serve these areas, communities, and populations; (3) redirect the priorities of the state's economic development programs to focus economic development efforts into areas and sectors of the greatest need; (4) build local capacity so that communities are better able to plan for growth and achieve self-reliance; (5) administer grant programs to promote

new feasibility studies and project development on projects of interest to rural areas or areas outside of the Puget Sound region; and (6) develop a coordinated economic investment strategy involving state economic development programs, businesses, educational and vocational training institutions, local governments and local economic development organizations, ports, and others." (e) Entering into agreements with community colleges within the state's community and technical college system and other educational institutions or independent nonprofit agencies to provide special education in basic skills, including reading, writing, and mathematics for those conservation corps members who may benefit by participation in such classes. Classes shall be scheduled after corps working hours. Participation by members is not mandatory but shall be strongly encouraged. The participation shall be a primary factor in determining whether the opportunity for corps membership beyond one year shall be offered. Instruction related to the specific role of the department in resource conservation shall also be offered, either in a classroom setting or as is otherwise appropriate.

(2) The assignment of corps members shall not result in the displacement of currently employed workers, including partial displacement such as reduction in hours of nonovertime work, wages, or other employment benefits. Supervising agencies that participate in the program may not terminate, lay-off, or reduce the working hours of any employee for the purpose of using a corps member with available funds. In circumstances where substantial efficiencies or a public purpose may result, supervising agencies may use corps members to carry out essential agency work or contractual functions without displacing current employees.

(3) Facilities, supplies, instruments, and tools of the supervising agency shall be made available for use by the conservation corps to the extent that such use does not conflict with the normal duties of the agency. The agency may purchase, rent, or otherwise acquire other necessary tools, facilities, supplies, and instruments.

RCW 43.220.070 Corps membership--Eligibility, terms, etc.

(1) Conservation corps members shall be unemployed residents of the state between eighteen and twenty-five years of age at the time of enrollment who are citizens or lawful permanent residents of the United States. The age requirements may be waived for corps leaders and specialists with special leadership or occupational skills; such members shall be given special responsibility for providing leadership, character development, and sense of community responsibility to the corps members, groups, and work crews to which they are assigned. The upper age requirement may be waived for residents who have a sensory or mental handicap.

Special effort shall be made to recruit minority and disadvantaged youth who meet selection criteria of the conservation corps. Preference shall be given to youths residing in areas, both urban and rural, in which there exists substantial unemployment exceeding the state average unemployment rate.

(2) The legislature finds that people with developmental disabilities would benefit from experiencing a meaningful work experience, and learning the value of labor and of membership in a productive society.

The legislature urges state agencies that are participating in the Washington conservation corps program to consider for enrollment in the program people who have developmental disabilities, as defined in RCW 71A.10.020.

If an agency chooses to enroll people with developmental disabilities in its Washington conservation corps program, the agency may apply to the United States department of labor, employment standards administration for a special subminimum wage certificate in order to be allowed to pay enrollees with developmental disabilities according to their individual levels of productivity.

(3) Corps members shall not be considered state employees. Other provisions of law relating to civil service, hours of work, rate of compensation, sick leave, unemployment compensation, state retirement plans, and vacation leave do not apply to the Washington conservation corps except for the crew supervisors, who shall be project employees, and the administrative and supervisory personnel.

(4) Enrollment shall be for a period of six months which may be extended for additional six-month periods by mutual agreement of the corps and the corps member, not to exceed two years. Corps members shall be reimbursed at the minimum wage rate established by state or federal law, whichever is higher, which may be increased by up to five percent for each additional six-month period worked: PROVIDED, That if agencies elect to run a residential program, the appropriate costs for room and board shall be deducted from the corps member's paycheck as provided in chapter 43.220 RCW.

(5) Corps members are to be available at all times for emergency response services coordinated through the department of community, trade, and economic development or other public agency. Duties may include sandbagging and flood cleanup, search and rescue, and other functions in response to emergencies.

[1999 c 280 § 5; 1995 c 399 § 112; 1990 c 71 § 2; 1988 c 78 § 1; 1986 c 266 § 48. Prior: 1985 c 230 § 7; 1985 c 7 § 110; 1983 1st ex.s. c 40 § 7.]

Notes:

Legislative finding--1990 c 71: "The legislature finds that the Washington conservation corps has proven to be an effective method to provide meaningful work experience for many of the state's young persons. Because of recent, and possible future, increases in the minimum wage laws, it is necessary to make an adjustment in the limitation that applies to corps member reimbursements." [1990 c 71 § 1.]

Severability--1986 c 266: See note following RCW 38.52.005.

RCW 43.220.080 Selection of corps members--Development of corps program.

Conservation corps members shall be selected based on their orientation towards public service, development of job skills and productive work habits, and character development. Special effort shall be made at the time of initial screening to explain rigorous productivity standards and special expectations and obligations of corps membership. An employment agreement shall be entered into by the corps member, indicating the member's understanding of, and willingness to abide by, such standards.

In the development of the corps program, consideration shall be given to providing corps members with a beneficial and meaningful work experience. Standards of productivity, behavior, and punctuality shall be developed and observed. Consideration shall be given to the development of a program that deserves the respect of the public, both in terms of service provided and personal development of corps members.

RCW 43.250.010 Purpose.

The purpose of this chapter is to enable political subdivisions, community and technical college districts, the state board for community and technical colleges as established in chapter 28B.50 RCW, and public four-year institutions of higher education to participate with the state in providing maximum opportunities for the investment of surplus public funds consistent with the safety and protection of such funds. The legislature finds and declares that the public interest is found in providing maximum prudent investment of surplus funds, thereby reducing the need for additional taxation. The legislature also recognizes that not all political subdivisions are able to maximize the return on their temporary surplus funds. The legislature therefore provides in this chapter a mechanism whereby political subdivisions, community and technical colleges, the state board for community and technical colleges, and public four-year institutions of higher education may, at their option, utilize the resources of the state treasurer's office to maximize the potential of surplus funds while ensuring the safety of public funds.

(4) "Financial officer" means the board-appointed treasurer of a community or technical college district, the state board for community and technical colleges, or a public four-year institution of higher education.

(5) "Funds" means:

(b) State funds deposited in the investment pool by the state treasurer that are the proceeds of bonds, notes, or other evidences of indebtedness authorized by the state finance committee under chapter 39.42 RCW or payments pursuant to financing contracts under chapter 39.94 RCW, when the investments are made in order to comply with the Internal Revenue Code of 1986, as amended.

The state treasurer shall invest the funds in such manner as to effectively maximize the yield to the investment pool. In investing and reinvesting moneys in the public funds investment account and in acquiring, retaining, managing, and disposing of investments of the investment pool, there shall be exercised the judgment and care under the circumstances then prevailing which persons of prudence, discretion, and intelligence exercise in the management of their own affairs, not in regard to speculation but in regard to the permanent disposition of the funds considering the probable income as well as the probable safety of the capital.

The state treasurer shall by rule prescribe the time periods for investments in the investment pool and the procedure for withdrawal of funds from the investment pool. The state treasurer shall promulgate such other rules as are deemed necessary for the efficient operation of the investment pool. The rules shall also provide for the administrative expenses of the investment pool, including repayment of the initial administrative costs financed out of the appropriation included in chapter 294, Laws of 1986, to be paid from the pool's earnings and for the interest earnings in excess of the expenses to be credited or paid to participants in the pool. The state treasurer may deduct the amounts necessary to reimburse the treasurer's office for the actual expenses the office incurs and to repay any funds appropriated and expended for the initial administrative costs of the pool. Any credits or payments to the participants shall be calculated and made in a manner which equitably reflects the differing amounts of the participants' respective deposits in the investment pool fund and the differing periods of time for which the amounts were placed in the investment pool.

RCW 43.270.010 Intent.

The legislature recognizes that statewide efforts aimed at reducing the incidence of substance abuse, including alcohol, tobacco, or other drug abuse, or violence must be increased. The legislature further recognizes that the most effective strategy for reducing the impact of alcohol, tobacco, other drug abuse, and violence is through the collaborative efforts of educators, law enforcement, local government officials, local treatment providers, and concerned community and citizens' groups.

The legislature intends to support the development and activities of community mobilization strategies against alcohol, tobacco, or other drug abuse, and violence, through the following efforts:

(1) Providing funding support for prevention, treatment, and enforcement activities identified by communities that have brought together education, treatment, local government, law enforcement, and other key elements of the community;

(2) Providing technical assistance and support to help communities develop and carry out effective activities; and

(3) Providing communities with opportunities to share suggestions for state program operations and budget priorities.

[2001 c 48 § 1; 1989 c 271 § 315.]

RCW 43.270.020 Grant program--Application--Activities funded.

(2) The department of community, trade, and economic development shall make awards,

subject to funds appropriated by the legislature, under the following terms:

(b) In order to be eligible for consideration, applicants must demonstrate, at a minimum:

(i) That the community has developed and is committed to carrying out a coordinated strategy of prevention, treatment, and law enforcement activities;

(ii) That the community has considered research-based theory when developing its strategy;

(iii) That proposals submitted for funding are based on a local assessment of need and address specific objectives contained in a coordinated strategy of prevention, treatment, and law enforcement against alcohol, tobacco, or other drug abuse, or violence;

(iv) Evidence of active participation in preparation of the proposal and specific commitments to implementing the community-wide agenda by leadership from education, law enforcement, local government, tribal government, and treatment entities in the community, and the opportunity for meaningful involvement from others such as neighborhood and citizen groups, businesses, human service, health and job training organizations, and other key elements of the community, particularly those whose responsibilities in law enforcement, treatment, prevention, education, or other community efforts provide direct, ongoing contact with substance abusers or those who exhibit violent behavior, or those at risk for alcohol, tobacco, or other drug abuse, or violent behavior;

(v) Evidence of additional local resources committed to the applicant's strategy totaling at least twenty-five percent of funds awarded under this section. These resources may consist of public or private funds, donated goods or services, and other measurable commitments, including in-kind contributions such as volunteer services, materials, supplies, physical facilities, or a combination thereof; and

(vi) That the funds applied for, if received, will not be used to replace funding for existing activities.

(iv) An explanation of who was involved in development of the strategy and what specific commitments have been made to carry it out;

(v) Identification of existing prevention, education, treatment, and law enforcement resources committed by the applicant, including financial and other support, and an explanation of how the applicant's strategy involves and builds on the efforts of existing organizations or

coalitions that have been carrying out community efforts against alcohol, tobacco, or other drug abuse, or violence;

(vi) Identification of activities that address specific objectives in the strategy for which additional resources are needed;

(vii) Identification of additional local resources, including public or private funds, donated goods or services, and other measurable commitments, that have been committed to the activities identified in (c)(vi) of this subsection;

RCW 43.280.010 Intent.

The legislature recognizes the need to increase the services available to the victims of sex offenders. The legislature also recognizes that these services are most effectively planned and provided at the local level through the combined efforts of concerned community and citizens groups, treatment providers, and local government officials. The legislature further recognizes that adequate treatment for victims is not only a matter of justice for the victim, but also a method by which additional abuse can be prevented.

The legislature intends to enhance the community-based treatment services available to the victims of sex offenders by:

(1) Providing consolidated funding support for local treatment programs which provide services to victims of sex offenders;

(2) Providing technical assistance and support to help communities plan for and provide treatment services;

(3) Providing sexual assault services with a victim-focused mission, and consistent standards, policies, and contracting and reporting requirements; and

(4) Providing communities and local treatment providers with opportunities to share information about successful prevention and treatment programs.

Effective date--1996 c 123: "This act shall take effect July 1, 1996." [1996 c 123 § 11.]

RCW 43.280.011 Intent, approval of committee recommendations, distribution of services--1996 c 123.

The Washington state sexual assault services advisory committee issued a report to the department of community, trade, and economic development and the department of social and health services in June of 1995. The committee made several recommendations to improve the delivery of services to victims of sexual abuse and assault: (1) Consolidate the administration and funding of sexual assault and abuse services in one agency instead of splitting those functions between the department of social and health services and the department of community, trade, and economic development; (2) adopt a funding allocation plan to pool all funds for sexual assault services and to distribute them across the state to ensure the delivery of core and specialized services; (3) establish service, data collection, and management standards and outcome measurements for recipients of grants; and (4) create a data collection system to gather pertinent data concerning the delivery of sexual assault services to victims.

The legislature approves the recommendations of the advisory committee and consolidates the functions and funding for sexual assault services in the department of

community, trade, and economic development to implement the advisory committee's recommendations.

The legislature does not intend to effect a reduction in service levels within available funding by transferring department of social and health services' powers and duties to the department of community, trade, and economic development. At a minimum, the department of community, trade, and economic development shall distribute the same percentage of the services it provides victims of sexual assault and abuse, pursuant to RCW 43.280.020, 70.125.080, and 74.14B.060, to children as were distributed to children through these programs in fiscal year 1996.

Effective date--1996 c 123: See note following RCW 43.280.010.

RCW 43.280.020 Grant program--Funding.

There is established in the department of community, trade, and economic development a grant program to enhance the funding for treating the victims of sex offenders. Activities that can be funded through this grant program are limited to those that:

- (1) Provide effective treatment to victims of sex offenders;
- (2) Increase access to and availability of treatment for victims of sex offenders, particularly if from underserved populations; and
- (3) Create or build on efforts by existing community programs, coordinate those efforts, or develop cooperative efforts or other initiatives to make the most effective use of resources to provide treatment services to these victims.

Funding shall be given to those applicants that emphasize providing stable, victim-focused sexual abuse services and possess the qualifications to provide core services, as defined in RCW 70.125.030. Funds for specialized services, as defined in RCW 70.125.030, shall be disbursed through the request for proposal or request for qualifications process.

Notes:

Finding--1997 c 209: "The legislature finds that the department of fish and wildlife manages a large amount of public land and that the department may have opportunities to improve the quality of its land holdings by participating in an exchange with private landowners or other public entities. The legislature declares that it is in the public interest to allow the department to exchange land with private landowners or with public entities if the exchange would provide significant fish and wildlife habitat or public access to the state's waterways." RCW 43.300.080 Cost-reimbursement agreements for complex projects.

(1) The department may enter into a written cost-reimbursement agreement with a permit applicant for a complex project to recover from the applicant the reasonable costs incurred by the department in carrying out the requirements of this chapter, as well as the requirements of other relevant laws, as they relate to permit coordination, environmental review, application review, technical studies, and permit processing. The cost-reimbursement agreement shall identify the specific tasks, costs, and schedule for work to be conducted under the agreement. For purposes of this section, a complex project is a project for which an environmental impact statement is required under chapter 43.21C RCW.

(2) The written cost-reimbursement agreement shall be negotiated with the permit applicant. Under the provisions of a cost-reimbursement agreement, funds from the applicant shall be used by the department to contract with an independent consultant to carry out the work covered by the cost-reimbursement agreement. The department may also use funds provided under a cost-reimbursement agreement to assign current staff to review the work of the consultant, to provide necessary technical assistance when an independent consultant with comparable technical skills is unavailable, and to recover reasonable and necessary direct and indirect costs that arise from processing the permit. The department shall, in developing the agreement, ensure that final decisions that involve policy matters are made by the agency and not by the consultant. The department shall make an estimate of the number of permanent staff hours to process the permits, and shall contract with consultants to replace the time and functions committed by these permanent staff to the project. The billing process shall provide for accurate time and cost accounting and may include a billing cycle that provides for progress payments. Use of cost-reimbursement agreements shall not reduce the current level of staff available to work on permits not covered by cost-reimbursement agreements. The department may not use any funds under a cost-reimbursement agreement to replace or supplant existing funding. The restrictions of chapter 42.52 RCW apply to any cost-reimbursement agreement, and to any person hired as a result of a cost-reimbursement agreement.

(3) The department may not enter into any new cost-reimbursement agreements on or after July 1, 2005. The department may continue to administer any cost-reimbursement agreement which was entered into before July 1, 2005, until the project is completed.

RCW 43.310.005 Finding.

The legislature finds and declares that:

(1) The number of youth who are members and associates of gangs and commit gang violence has significantly increased throughout the entire greater Puget Sound, Spokane, and other areas of the state;

(2) Youth gang violence has caused a tremendous strain on the progress of the communities impacted. The loss of life, property, and positive opportunity for growth caused by youth gang violence has reached intolerable levels. Increased youth gang activity has seriously strained the budgets of many local jurisdictions, as well as threatened the ability of the educational system to educate our youth;

(3) Among youth gang members the high school drop-out rate is significantly higher than among nongang members. Since the economic future of our state depends on a highly educated and skilled work force, this high school drop-out rate threatens the economic welfare of our future work force, as well as the future economic growth of our state;

(4) The unemployment rate among youth gang members is higher than that among the general youth population. The unusual unemployment rate, lack of education and skills, and the increased criminal activity could significantly impact our future prison population;

(5) Most youth gangs are subcultural. This implies that gangs provide the nurturing, discipline, and guidance to gang youth and potential gang youth that is generally provided by communities and other social systems. The subcultural designation means that youth gang

participation and violence can be effectively reduced in Washington communities and schools through the involvement of community, educational, criminal justice, and employment systems working in a unified manner with parents and individuals who have a firsthand knowledge of youth gangs and at-risk youth; and

(6) A strong unified effort among parents and community, educational, criminal justice, and employment systems would facilitate: (a) The learning process; (b) the control and reduction of gang violence; (c) the prevention of youth joining negative gangs; and (d) the intervention into youth gangs.

[1993 c 497 § 1.]

RCW 43.310.007 Intent--Prevention and intervention pilot programs.

It is the intent of the legislature to cause the development of positive prevention and intervention pilot programs for elementary and secondary age youth through cooperation between individual schools, local organizations, and government. It is also the intent of the legislature that if the prevention and intervention pilot programs are determined to be effective in reducing problems associated with youth gang violence, that other counties in the state be eligible to receive special state funding to establish similar positive prevention and intervention programs.

[1993 c 497 § 2.]

RCW 43.310.010 Definitions.

Unless the context otherwise requires, the following definitions shall apply throughout RCW 43.310.005 through 43.310.040 and *sections 5 and 7 through 10, chapter 497, Laws of 1993:

(1) "School" means any public school within a school district any portion of which is in a county with a population of over one hundred ninety thousand.

(2) "Community organization" means any organization recognized by a city or county as such, as well as private, nonprofit organizations registered with the secretary of state.

(3) "Gang risk prevention and intervention pilot program" means a community-based positive prevention and intervention program for gang members, potential gang members, at-risk youth, and elementary through high school-aged youth directed at all of the following:

(a) Reducing the probability of youth involvement in gang activities and consequent violence.

(b) Establishing ties, at an early age, between youth and community organizations.

(c) Committing local business and community resources to positive programming for youth.

(d) Committing state resources to assist in creating the gang risk prevention and intervention pilot programs.

(4) "Cultural awareness retreat" means a program that temporarily relocates at-risk youth or gang members and their parents from their usual social environment to a different social

environment, with the specific purpose of having them performing activities which will enhance or increase their positive behavior and potential life successes.

RCW 43.320.005 Finding.

The legislature finds that, given the overlap of powers and products in the companies regulated, the consolidation of the agencies regulating financial institutions and securities into one department will better serve the public interest through more effective use of staff expertise. Therefore, for the convenience of administration and the centralization of control and the more effective use of state resources and expertise, the state desires to combine the regulation of financial institutions and securities into one department.

[1993 c 472 § 1.]

RCW 43.320.007 Regulatory reform--Findings--Construction--1994 c 256.

(1) The legislature finds that the financial services industry is experiencing a period of rapid change with the development and delivery of new products and services and advances in technology.

(2) The legislature further finds it in the public interest to strengthen the regulation, supervision, and examination of business entities furnishing financial services to the people of this state and that this can be accomplished by streamlining and focusing regulation to reduce costs, increase effectiveness, and foster efficiency by eliminating requirements that are not necessary for the protection of the public.

(3) The provisions of chapter 256, Laws of 1994 should not be construed to limit the ability of the director of financial institutions to implement prudent regulation, prevent unsafe, unsound, and fraudulent practices, and undertake necessary enforcement actions to protect the public and promote the public interest.

[1994 c 256 § 1.]

RCW 43.320.010 Department created.

A state department of financial institutions, headed by the director of financial institutions, is created. The department shall be organized and operated in a manner that to the fullest extent permissible under applicable law protects the public interest, protects the safety and soundness of depository institutions and entities under the jurisdiction of the department, ensures access to the regulatory process for all concerned parties, and protects the interests of investors. The department of financial institutions shall be structured to reflect the unique differences in the types of institutions and areas it regulates.

[1993 c 472 § 2.]

RCW 43.320.011 Department of general administration and department of licensing powers and duties transferred.

(1) All powers, duties, and functions of the department of general administration under Titles 30, 31, 32, 33, and 43 RCW and any other title pertaining to duties relating to banks, savings banks, foreign bank branches, savings and loan associations, credit unions, consumer loan companies, check cashers and sellers, trust companies and departments, and other similar institutions are transferred to the department of financial institutions. All references to the director of general administration, supervisor of banking, or the supervisor of savings and loan associations in the Revised Code of Washington are construed to mean the director of the department of financial institutions when referring to the functions transferred in this section. All references to the department of general administration in the Revised Code of Washington are construed to mean the department of financial institutions when referring to the functions transferred in this subsection.

(2) All powers, duties, and functions of the department of licensing under chapters 18.44, 19.100, 19.110, 21.20, 21.30, and 48.18A RCW and any other statute pertaining to the regulation under the chapters listed in this subsection of escrow agents, securities, franchises, business opportunities, commodities, and any other speculative investments are transferred to the department of financial institutions. All references to the director or department of licensing in the Revised Code of Washington are construed to mean the director or department of financial institutions when referring to the functions transferred in this subsection.

Trade and economic development, programs of former department of: Chapter 43.31 RCW.

RCW 43.330.005 Intent.

The legislature finds that the long-term economic health of the state and its citizens depends upon the strength and vitality of its communities and businesses. It is the intent of this chapter to create a merged department of community, trade, and economic development that fosters new partnerships for strong and sustainable communities. The consolidation of the department of trade and economic development and the department of community development into one department will: Streamline access to services by providing a simpler point of entry for state programs; provide focused and flexible responses to changing economic conditions;

generate greater local capacity to respond to both economic growth and environmental challenges; and increase accountability to the public, the executive branch, and the legislature.

A new department can bring together a focused effort to: Manage growth and achieve sustainable development; diversify the state's economy and export goods and services; provide greater access to economic opportunity; stimulate private sector investment and entrepreneurship; provide stable family-wage jobs and meet the diverse needs of families; provide affordable housing and housing services; construct public infrastructure; protect our cultural heritage; and promote the health and safety of the state's citizens.

The legislature further finds that as a result of the rapid pace of global social and economic change, the state and local communities will require coordinated and creative responses by every segment of the community. The state can play a role in assisting such local efforts by reorganizing state assistance efforts to promote such partnerships. The department has a primary responsibility to provide financial and technical assistance to the communities of the state, to assist in improving the delivery of federal, state, and local programs, and to provide communities with opportunities for productive and coordinated development beneficial to the well-being of communities and their residents. It is the intent of the legislature in this consolidation to maximize the use of local expertise and resources in the delivery of community and economic development services.

[1993 c 280 § 1.]

RCW 43.330.007 Management responsibility.

The definitions in this section apply throughout RCW 43.330.200 through 43.330.230.

(2) "Developmental disabilities endowment trust fund" means the fund established in the custody of the state treasurer in RCW 43.330.200, comprised of private, public, or private and public sources, to finance services for persons with developmental disabilities. All moneys in the fund, all property and rights purchased from the fund, and all income attributable to the fund, shall be held in trust by the state investment board, as provided in RCW 43.33A.030, for the exclusive benefit of fund beneficiaries. The principal and interest of the endowment fund must be maintained until such time as the governing board policy specifies except for the costs and expenses of the state treasurer and the state investment board otherwise provided for in chapter 120, Laws of 2000.

(3) "Governing board" means the developmental disabilities endowment governing board in RCW 43.330.205.

(4) "Individual trust account" means (4) accounts established within the endowment trust fund for each individual named beneficiary for the benefit of whom contributions have been made to the fund. The money in each of the individual accounts is held in trust as provided for in subsection (2) of this section, and shall not be considered state funds or revenues of the state. The governing board serves as administrator, manager, and recordkeeper for the individual trust accounts for the benefit of the individual beneficiaries. The policies governing the disbursements, and the qualifying services for the trust accounts, shall be established by the governing board. Individual trust accounts are separate accounts within the developmental disabilities endowment trust fund, and are invested for the beneficiaries through the endowment trust fund.

Only the developmental disabilities endowment governing board or the board's designee may authorize expenditures from the fund. The fund shall retain its interest earnings in accordance with RCW 43.79A.040.

(2) The developmental disabilities endowment governing board shall deposit in the fund

all money received for the program, including state appropriations and private contributions. Notes:

Intent--1999 c 384: "The legislature recognizes that the main and most enduring support for persons with developmental disabilities, along with public resources, is their immediate and extended families. The legislature recognizes that these families are searching for ways to provide for the long-term continuing care of their disabled family member when the family can no longer provide that care. It is the intent of the legislature to encourage and assist families to engage in long-range financial planning and to contribute to the lifetime care of their disabled family member. To further these objectives, this chapter is enacted to finance lifetime services and supports for persons with developmental disabilities through an endowment funded jointly by the investment of public funds and dedicated family contributions.

The establishment of this endowment is not intended to diminish the state's responsibility for funding services currently available to future endowment participants, subject to available funding, nor is it the intent of the legislature, by the creation of this public/private endowment, to impose additional, unintended financial liabilities on the public." RCW 43.330.205 Developmental disabilities endowment--Authority of state investment board--Authority of governing board.

All investment and operating costs associated with the investment of money shall be paid under RCW 43.33A.160 and 43.84.160. With the exception of these expenses, the earnings from the investment of the money shall be retained by the fund.

(2) All investments made by the state investment board shall be made with the exercise of that degree of judgment and care under RCW 43.33A.140 and the investment policy established by the state investment board.

(3) As deemed appropriate by the investment board, money in the fund may be commingled for investment with other funds subject to investment by the board.

(4) The authority to establish all policies relating to the fund, other than the investment policies as set forth in subsections (1) through (3) of this section, resides with the governing board acting in accordance with the principles set forth in RCW 43.330.220. With the exception of expenses of the state treasurer in RCW 43.330.200 and the investment board set forth in

RCW 43.330.220 Developmental disabilities endowment--Endowment principles.

The design, implementation, and administration of the developmental disabilities endowment shall be governed by the following principles:

(1) The design and operation of the endowment should reward families who set aside resources for their child's future care and provide incentives for continued caregiving by the family.

(2) The endowment should encourage financial planning and reward caregiving by a broad range of families, not just those who have substantial financial resources.

(3) Families should not feel compelled to contribute to the endowment in order to meet the needs of continuing care for their child.

(4) All families should have equal access to developmental disabilities services not funded through the endowment regardless of whether they contribute to the endowment.

(5) Services funded through the endowment should be stable, ongoing, of reasonable quality, and respectful of individual and family preferences.

(6) Endowment resources should be expended economically in order to benefit as many families as possible.

(7) Endowment resources should be managed prudently so that families can be confident that their agreement with the endowment on behalf of their child will be honored.

(8) The private financial contribution on behalf of each person receiving services from the endowment shall be at least equal to the state's contribution to the endowment.

(9) In order to be matched with funding from the state's contribution to the endowment, the private contribution on behalf of a beneficiary must be sufficient to support the beneficiary's approved service plan for a significant portion of the beneficiary's anticipated remaining lifetime.

(10) The rate that state appropriations to the endowment are used to match private contributions shall be such that each legislative appropriation to the developmental disabilities endowment trust fund, including principal and investment income, is not depleted in a period of less than five years.

(11) Private contributions made on behalf of a particular individual, and the associated state match, shall only be used for services provided upon that person's behalf.

(12) State funds contributed to the developmental disabilities endowment trust fund are to support the individual trust accounts established by individual private contributions made by families or other interested persons for named individual beneficiaries.

(13) The governing board shall explore methods to solicit private donations. The governing board shall explore mechanisms to support individuals with developmental disabilities who do not have individual private contributions made on their behalf. The governing board shall establish policies for the use of any private donations.

(14) Types of services funded by money managed through the developmental disabilities endowment trust fund shall be approved by the governing board or its designee.

(2) An assessment of the number of people likely to apply for participation in the endowment under alternative rates of matching funds, minimum service year requirements, and contribution timing approaches;

(8) The recommended schedule according to which lump sum or periodic private contributions should be made to the endowment in order to qualify for public matching funds;

(9) A recommended program for educating families about the endowment, and about planning for their child's long-term future; and

(10) Recommended criteria and procedure for selecting an organization or organizations to administer the developmental disabilities endowment program, and projected administrative costs.

Findings--Intent--1996 c 186: "The legislature finds responsibilities of state government need to be

limited to core services in support of public safety and welfare. Services provided by the Washington state energy office are primarily advisory and can be eliminated. The legislature further finds a need to redefine the state's role in energy-related regulatory functions. The state may be better served by allowing regulatory functions to be performed by other appropriate entities, simplifying state government while maintaining core services. Further, it is the intent of the legislature that the state continue to receive oil overcharge restitution funds for our citizens while every effort is being made to maximize federal funds available for energy conservation purposes." (3) The plan approved by the commission, with any amendment approved by the legislature, shall be final upon approval of such amendment or after expiration of the time provided for legislative amendment by subsection (2) of this section whichever occurs first, and shall constitute the districting law applicable to this state for legislative and congressional elections, beginning with the next elections held in the year ending in two. Sec. 2. The definitions set forth in RCW 44.05.020 apply throughout this plan, unless the context requires otherwise.

Sec. 3. In every case the population of the congressional and legislative districts described by this plan has been ascertained on the basis of the total number of persons found inhabiting such areas as of January 1, 1990, in accordance with the 1990 federal decennial census data submitted pursuant to P.L. 94-171.

Sec. 4. (a) Any area not specifically included within the boundaries of any of the districts as described in this plan and which is completely surrounded by a particular district, shall be a part of that district. Any such area not completely surrounded by a particular district shall be a part of the district having the smallest number of inhabitants and having territory contiguous to such area.

(b) Any area described in this plan as specifically embraced in two or more noninclusive districts shall be a part of the adjacent district having the smallest number of inhabitants and shall not be a part of the other district or districts.

(c) Any area specifically mentioned as embraced within a district but separated from such district by one or more other districts, shall be assigned as though it had not been included in any district specifically described.

(d) The 1990 United States federal decennial census data submitted pursuant to P.L. 94-171 shall be used

for determining the number of inhabitants under this plan.

(e) If any court of competent jurisdiction requires nonresident military personnel that were not included in the United States census bureau data to be included, these persons shall be included in the population of the district or districts from which the persons were excluded.

Sec. 5. For purposes of this plan, districts shall be described in terms of:

(1) Official United States census bureau tracts, block numbering areas, block groups, blocks, or census county divisions established by the United States bureau of the census in the 1990 federal decennial census;

(2) Counties, municipalities, or other political subdivisions as they existed on January 1, 1990;

(3) Any natural or artificial boundaries or monuments including but not limited to rivers, streams, or lakes as they existed on January 1, 1990;

(4) Roads, streets, or highways as they existed on January 1, 1990.

Sec. 6. The following abbreviations used in this plan have the following meanings:

(1) "T" means "census tract";

(2) "BG" means "census block group";

(3) "B" means "block";

(4) "BNA" means "block numbering area"; and

Sec. 7. For election of members of the legislature, the territory of the state shall be divided into forty-nine districts. Two members of the house of representatives shall be elected from and run at large within each legislative district. One member of the senate shall be elected from each legislative district.

Sec. 8. The legislative districts described by this plan shall be those recorded electronically as "PLAN PRCOM - 019L", maintained in computer files designated as FINAL-LEG, which are public records of the commission. As soon as practicable after approval and submission of this plan to the legislature, the commission shall publish PLAN PRCOM - 019L in conformity with the description terminology set forth in sec. 6.

As soon as practicable after approval and submission of this plan to the legislature, the commission shall publish PLAN PRCOM - 0 C in conformity with the description terminology set forth in sec. 6.

Sec. 10. The commission intends that existing law shall continue to govern such matters as the terms and dates of election for members of the senate to be elected from each district, the status of "hold-over" senators, and the elections to fill vacancies, when required, provided that districts referred to in existing law and designated by number (without regard to any letter following that number) shall refer to districts of the same number described in this plan, beginning with the next elections in 1992.

Sec. 11. This commission intends that this plan supersede the district boundaries established by chapter 288, Laws of 1981 and chapter 17, Laws of 1983, and acknowledges that it is inconsistent with certain provisions of existing law, including but not limited to RCW 44.07B.001, RCW 44.07B.002, RCW 44.07B.005 through RCW 44.07B.800, RCW 44.07B.840, and RCW 29.69A.001 through RCW 29.69A.080.
