(2) The ordinance adopted by the county legislative authority creating the county ferry district and authorizing the

use of revenues received from the tax levy authorized in RCW 36.54.130 must indicate an intent to incur this indebtedness and the maximum amount of this indebtedness that is contemplated. [2007 c 223 § 7.]

36.57.120 Rail fixed guideway system—Safety program plan and security and emergency preparedness plan.

**36.57.120 Rail fixed guideway system—Safety program plan and security and emergency preparedness plan.** (1) Each county transportation authority that owns or operates a rail fixed guideway system as defined in RCW 81.104.015 shall submit a system safety program plan and a system security and emergency preparedness plan for that guideway to the state department of transportation by September 1, 1999, or at least one hundred eighty calendar days before beginning operations or instituting revisions to its plans. These plans must describe the county transportation authority's procedures for (a) reporting and investigating reportable accidents, unacceptable hazardous conditions, and security breaches, (b) submitting corrective action plans and annual safety and security audit reports, (c) facilitating on-site safety and security reviews by the state department of transportation, and (d) addressing passenger and employee security. The plans must, at a minimum, conform to the standards adopted by the state department of transportation. If required by the department, the county transportation authority shall revise its plans to incorporate the department's

review comments within sixty days after their receipt, and resubmit its revised plans for review.

(2) Each county transportation authority shall implement and comply with its system safety program plan and system security and emergency preparedness plan. The county transportation authority shall perform internal safety and security audits to evaluate its compliance with the plans, and submit its audit schedule to the department of transportation no later than December 15th each year. The county transportation authority shall prepare an annual report for its internal safety and security audits undertaken in the prior year and submit it to the department no later than February 15th. This annual report must include the dates the audits were conducted, the scope of the audit activity, the audit findings and recommendations, the status of any corrective actions taken as a result of the audit activity, and the results of each audit in terms of the adequacy and effectiveness of the plans.

(3) Each county transportation authority shall notify the department of transportation within two hours of an occurrence of a reportable accident, unacceptable hazardous condition, or security breach. The department may adopt rules further defining a reportable accident, unacceptable hazardous condition, or security breach. The county transportation authority shall investigate all reportable accidents, unacceptable hazardous conditions, or security breaches and provide a written investigation report to the department within forty-five calendar days after the reportable accident, unacceptable hazardous condition, or security breach.

(4) The system security and emergency preparedness plan required in subsection (1)(d) of this section is exempt from public disclosure under chapter 42.56 RCW. However, the system safety program plan as described in this section is not subject to this exemption. [2007 c 422 § 4; 2005 c 274 § 270; 1999 c 202 § 4.]

**36.57A.050 Governing body—Selection, qualification, number of members—Travel expenses, compensation.** Within sixty days of the establishment of the boundaries of the public transportation benefit area the members of the county legislative authority and the elected representative of each city within the area shall provide for the selection of the governing body of such area, the public transportation benefit area authority, which shall consist of elected officials selected by and serving at the pleasure of the governing bodies of component cities within the area and the county legislative authority of each county within the area. If at the time a public transportation benefit area authority assumes the public transportation functions previously provided under the

Interlocal Cooperation Act (chapter 39.34 RCW) there are citizen positions on the governing board of the transit system, those positions may be retained as positions on the governing board of the public transportation benefit area authority.

Within such sixty-day period, any city may by resolution of its legislative body withdraw from participation in the public transportation benefit area. The county legislative authority and each city remaining in the public transportation benefit area may disapprove and prevent the establishment of any governing body of a public transportation benefit area if the composition thereof does not meet its approval.

In no case shall the governing body of a single county public transportation benefit area be greater than nine members and in the case of a multicounty area, fifteen members. Those cities within the transportation benefit area and excluded from direct membership on the authority are hereby authorized to designate a member of the authority who shall be entitled to represent the interests of such city which is excluded from direct membership on the authority. The legislative body of such city shall notify the authority as to the determination of its authorized representative on the authority.

Each member of the authority is eligible to be reimbursed for travel expenses in accordance with RCW 43.03.050 and 43.03.060 and to receive compensation, as set by the authority, in an amount not to exceed forty-four dollars for each day during which the member attends official meetings of the authority or performs prescribed duties approved by the chairman of the authority. Except that the authority may, by resolution, increase the payment of per diem compensation to each member from forty-four dollars up to ninety dollars per day or portion of a day for actual attendance at board meetings or for performance of other official services or duties on behalf of the authority. In no event may a member be compensated in any year for more than seventy-five days, except the chairman who may be paid compensation for not more than one hundred days: PROVIDED, That compensation shall not be paid to an elected official or employee of federal, state, or local government who is receiving regular full-time compensation from such government for attending meetings and performing prescribed duties of the authority.

The dollar thresholds established in this section must be adjusted for inflation by the office of financial management every five years, beginning July 1, 2008, based upon changes in the consumer price index during that time period. "Consumer price index" means, for any calendar year, that year's annual average consumer price index, for Washington state, for wage earners and clerical workers, all items, compiled by the bureau of labor and statistics, United States department of labor. If the bureau of labor and statistics develops more than one consumer price index for areas within the state, the index covering the greatest number of people, covering areas exclusively within the boundaries of the state, and including all items shall be used for the adjustments for inflation in this section. The office of financial management must calculate the new dollar threshold and transmit it to the office of the code reviser for publication in the Washington State Register at least one month before the new dollar threshold is to take effect.

A person holding office as commissioner for two or more special purpose districts shall receive only that per diem compensation authorized for one of his or her commissioner positions as compensation for attending an official meeting or conducting official services or duties while representing more than one of his or her districts. However, such commissioner may receive additional per diem compensation if approved by resolution of all boards of the affected commissions. These plans must describe the public transportation benefit area's procedures for (a) reporting and investigating reportable accidents, unacceptable hazardous conditions, and security breaches, (b) submitting corrective action plans and annual safety and security audit reports, (c) facilitating on-site safety and security reviews by the state department of transportation, and (d) addressing passenger and employee security. If required by the department, the public transportation benefit area shall revise its plans to incorporate the department's review comments within sixty days after their receipt, and resubmit its revised plans for review.

(2) Each public transportation benefit area shall implement and comply with its system safety program plan and system security and emergency preparedness plan. The public transportation benefit area shall perform internal safety and security audits to evaluate its compliance with the plans, and submit its audit schedule to the department of transportation no later than December 15th each year. The public transportation benefit area shall prepare an annual report for its internal safety and security audits undertaken in the prior year and submit it to the department no later than February 15th. This annual report must include the dates the audits were conducted, the scope of the audit activity, the audit findings and recommendations, the status of any corrective actions taken as a result of the audit activity, and the results of each audit in terms of the adequacy and effectiveness of the plans.

(3) Each public transportation benefit area shall notify the department of transportation within two hours of an occurrence of a reportable accident, unacceptable hazardous condition, or security breach. The department may adopt rules further defining a reportable accident, unacceptable hazardous condition, or security breach. The public transportation benefit area shall investigate all reportable accidents, unacceptable hazardous conditions, or security breaches and

provide a written investigation report to the department within forty-five calendar days after the reportable accident, unacceptable hazardous condition, or security breach.

(4) The system security and emergency preparedness plan required in subsection (1)(d) of this section is exempt from public disclosure under chapter 42.56 RCW. However, the system safety program plan as described in this section is not subject to this exemption. [2007 c 422 § 5; 2005 c 274 § 271; 1999 c 202 § 5.]

The business plan must, at a minimum, include hours of operation, vessel needs, labor needs, proposed routes, passenger terminal facilities, passenger rates, anticipated federal and local funding, coordination with the Washington state ferry system, coordination with existing transit providers, long-term operation and maintenance needs, and a long-term financial plan. 36.70.757 Family day-care provider's home facility—County may not prohibit in residential or commercial area—Conditions.

**36.70.757 Family day-care provider's home facility—County may not prohibit in residential or commercial area—Conditions.** (1) Except as provided in subsections (2) and (3) of this section, no county may enact, enforce, or maintain an ordinance, development regulation, zoning regulation, or official control, policy, or administrative practice that prohibits the use of a residential dwelling, located in an area zoned for residential or commercial use, as a family day-care provider's facility serving twelve or fewer children.

(2) A county may require that the facility: (a) Comply with all building, fire, safety, health code, and business licensing requirements; (b) conform to lot size, building size, setbacks, and lot coverage standards applicable to the zoning district except if the structure is a legal nonconforming structure; (c) is certified by the department of early learning licensor as providing a safe passenger loading area; (d) include signage, if any, that conforms to applicable regulations; and (e) limit hours of operations to facilitate neighborhood compatibility, while also providing appropriate opportunity for persons who use family day-care who work a nonstandard work shift.

(3) A county may also require that the family day-care provider, before state licensing, require proof of written notification by the provider that the immediately adjoining property owners have been informed of the intent to locate and maintain such a facility. If a dispute arises between neighbors and the day-care provider over licensing requirements, the licensor may provide a forum to resolve the dispute.

(4) This section may not be construed to prohibit a county from imposing zoning conditions on the establishment and maintenance of a family day-care provider's home serving twelve or fewer children in an area zoned for residential or commercial use, if the conditions are no more restrictive than conditions imposed on other residential dwellings in the same zone and the establishment of such facilities is not precluded. As used in this section, "family day-care provider" is as defined in RCW 43.215.010. [2007 c 17 § 12; 2003 c 286 § 2.]

**36.70A.367 Major industrial developments—Master planned locations.** (1) In addition to the major industrial development allowed under RCW 36.70A.365, a county planning under RCW 36.70A.040 that meets the criteria in subsection (5) of this section may establish, in consultation with cities consistent with provisions of RCW 36.70A.210, a process for designating a bank of no more than two master planned locations for major industrial activity outside urban growth areas.

(2) A master planned location for major industrial developments may be approved through a two-step process: Designation of an industrial land bank area in the comprehensive plan; and subsequent approval of specific major industrial developments through a local master plan process described under subsection (3) of this section.

(a) The comprehensive plan must identify locations suited to major industrial development due to proximity to transportation or resource assets. The plan must identify the maximum size of the industrial land bank area and any limitations on major industrial developments based on local limiting factors, but does not need to specify a particular parcel or parcels of property or identify any specific use or user except as limited by this section. In selecting locations for the industrial land bank area, priority must be given to locations that are adjacent to, or in close proximity to, an urban growth area.

(b) The environmental review for amendment of the comprehensive plan must be at the programmatic level and, in addition to a threshold determination, must include:

(i) An inventory of developable land as provided in RCW 36.70A.365; and

(ii) An analysis of the availability of alternative sites within urban growth areas and the long-term annexation feasibility of sites outside of urban growth areas.

(c) Final approval of an industrial land bank area under this section must be by amendment to the comprehensive plan adopted under RCW 36.70A.070, and the amendment is exempt from the limitation of RCW 36.70A.130(2) and may be considered at any time. Approval of a specific major industrial development within the industrial land bank area requires no further amendment of the comprehensive plan.

(3) In concert with the designation of an industrial land bank area, a county shall also adopt development regulations for review and approval of specific major industrial developments through a master plan process. The regulations governing the master plan process shall ensure, at a minimum, that:

(a) Urban growth will not occur in adjacent nonurban areas;

(b) Development is consistent with the county's development regulations adopted for protection of critical areas;

(c) Required infrastructure is identified and provided concurrent with development. Such infrastructure, however, may be phased in with development;

(d) Transit-oriented site planning and demand management programs are specifically addressed as part of the master plan approval;

(e) Provision is made for addressing environmental protection, including air and water quality, as part of the master plan approval;

(f) The master plan approval includes a requirement that interlocal agreements between the county and service providers, including cities and special purpose districts providing facilities or services to the approved master plan, be in place at the time of master plan approval;

(g) A major industrial development is used primarily by industrial and manufacturing businesses, and that the gross floor area of all commercial and service buildings or facilities locating within the major industrial development does not exceed ten percent of the total gross floor area of buildings or facilities in the development. The intent of this provision for commercial or service use is to meet the needs of employees, clients, customers, vendors, and others having business at the industrial site, to attract and retain a quality workforce, and to further other public objectives, such as trip reduction. These uses may not be promoted to attract additional clientele from the surrounding area. Commercial and service businesses must be established concurrently with or subsequent to the industrial or manufacturing businesses;

(h) New infrastructure is provided for and/or applicable impact fees are paid to assure that adequate facilities are provided concurrently with the development. Infrastructure may be achieved in phases as development proceeds;

(i) Buffers are provided between the major industrial development and adjacent rural areas;

(j) Provision is made to mitigate adverse impacts on designated agricultural lands, forest lands, and mineral resource lands; and

(k) An open record public hearing is held before either the planning commission or hearing examiner with notice published at least thirty days before the hearing date and mailed to all property owners within one mile of the site.

(4) For the purposes of this section:

(a) "Major industrial development" means a master planned location suitable for manufacturing or industrial businesses that: (i) Requires a parcel of land so large that no suitable parcels are available within an urban growth area; (ii) is a natural resource-based industry requiring a location near agricultural land, forest land, or mineral resource land upon which it is dependent; or (iii) requires a location with characteristics such as proximity to transportation facilities or related industries such that there is no suitable location in an urban growth area. The major industrial development may not be for the purpose of retail commercial development or multitenant office parks.

(b) "Industrial land bank" means up to two master planned locations, each consisting of a parcel or parcels of contiguous land, sufficiently large so as not to be readily available within the urban growth area of a city, or otherwise meeting the criteria contained in (a) of this subsection, suitable for manufacturing, industrial, or commercial businesses and designated by the county through the comprehensive planning process specifically for major industrial use.

(5) This section and the termination provisions specified in subsection (6) of this section apply to a county that at the time the process is established under subsection (1) of this section:

(a) Has a population greater than two hundred fifty thousand and is part of a metropolitan area that includes a city in another state with a population greater than two hundred fifty thousand;

(b) Has a population greater than one hundred forty thousand and is adjacent to another country;

(c) Has a population greater than forty thousand but less than seventy-five thousand and has an average level of unemployment for the preceding three years that exceeds the average state unemployment for those years by twenty percent; and

(i) Is bordered by the Pacific Ocean;

(ii) Is located in the Interstate 5 or Interstate 90 corridor;

or

(iii) Is bordered by Hood Canal;

(d) Is east of the Cascade divide; and

(i) Borders another state to the south; or

(ii) Is located wholly south of Interstate 90 and borders the Columbia river to the east;

(e) Has an average population density of less than one hundred persons per square mile as determined by the office of financial management, and is bordered by the Pacific Ocean and by Hood Canal; or

(f) Meets all of the following criteria:

(i) Has a population greater than forty thousand but fewer than eighty thousand;

(ii) Has an average level of unemployment for the preceding three years that exceeds the average state unemployment for those years by twenty percent; and

(iii) Is located in the Interstate 5 or Interstate 90 corridor.

(6) In order to identify and approve locations for industrial land banks, the county shall take action to designate one or more industrial land banks and adopt conforming regulations as provided by RCW 36.70A.367(2) on or before the last date to complete that county's next periodic review under RCW 36.70A.130(4) that occurs prior to December 31, 2014. The authority to take action to designate a land bank area in the comprehensive plan expires if not acted upon by the county within the time frame provided in this section. Once a land bank area has been identified in the county's comprehensive plan, the authority of the county to process a master plan or site projects within an approved master plan does not expire.

(7) Any county seeking to designate an industrial land bank under this section must:

(a) Provide countywide notice, in conformity with RCW 36.70A.035, of the intent to designate an industrial land bank. Notice must be published in a newspaper or newspapers of general circulation reasonably likely to reach subscribers in all geographic areas of the county. Notice must be provided not less than thirty days prior to commencement of consideration by the county legislative body; and

(b) Make a written determination of the criteria and rationale used by the legislative body as the basis for siting an industrial land bank under this chapter.

(8) Any location included in an industrial land bank pursuant to section 2, chapter 289, Laws of 1998, section 1, chapter 402, Laws of 1997, and section 2, chapter 167, Laws of 1996 shall remain available for major industrial development according to this section as long as the requirements of this section continue to be satisfied. [2007 c 433 § 1; 2004 c 208 § 1; 2003 c 88 § 1; 2002 c 306 § 1; 2001 c 326 § 1; 1998 c 289 § 2; 1997 c 402 § 1; 1996 c 167 § 2.]

**Findings—Purpose—1998 c 289:** "The legislature finds that to fulfill the economic development goal of this chapter, it is beneficial to expand the limited authorization for pilot projects for identifying locations for major industrial activity in advance of specific proposals by an applicant. The legislature further finds that land bank availability may provide economically disadvantaged counties the opportunity to attract new industrial activity by offering expeditious siting and therefore promote a community's economic health and vitality. The purpose of this act is to authorize and evaluate additional pilot projects for major industrial activity in economically disadvantaged counties." [1998 c 289 § 1.]

**Findings—Purpose—1996 c 167:** "In 1995 the legislature addressed the demand for siting of major industrial facilities by passage of Engrossed Senate Bill No. 5019, implementing a process for siting such activities outside urban growth areas. The legislature recognizes that the 1995 act requires consideration of numerous factors necessary to ensure that the community can reasonably accommodate a major industrial development outside an urban growth area.

The legislature finds that the existing case-by-case procedure for evaluating and approving such a site under the 1995 act may operate to a community's economic disadvantage when a firm, for business reasons, must make a business location decision expeditiously. The legislature therefore finds that it would be useful to authorize, on a limited basis, and evaluate a process for identifying locations for major industrial activity in advance of specific proposals by an applicant.

It is the purpose of this act (1) to authorize a pilot project under which a bank of major industrial development locations outside urban growth areas is created for use in expeditiously siting such a development; (2) to evaluate the impact of this process on the county's compliance with chapter 36.70A RCW; and (3) to encourage consolidation and planning, and environmental review procedures under chapter 36.70B RCW." [1996 c 167 § 1.]

**Effective date—1996 c 167:** "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately [March 28, 1996]." [1996 c 167 § 3.]

**36.70A.368 Major industrial development—Master planned locations—Reclaimed surface coal mine sites.** (1) In addition to the major industrial development allowed under RCW 36.70A.365 and 36.70A.367, a county planning under RCW 36.70A.040 that meets the criteria in subsection (2) of this section may establish, in consultation with cities consistent with RCW 36.70A.210, a process for designating a master planned location for major industrial activity outside urban growth areas on lands formerly used or designated for surface coal mining and supporting uses. Once a master planned location is designated, it shall be considered an urban growth area retained for purposes of promoting major industrial activity.

(2) This section applies to a county that, at the time the process is established in subsection (1) of this section, had a surface coal mining operation in excess of three thousand acres that ceased operation after July 1, 2006, and that is located within fifteen miles of the Interstate 5 corridor.

(3) Designation of a master planned location for major industrial activities is an amendment to the comprehensive plan adopted under RCW 36.70A.070, except that RCW 36.70A.130(2) does not apply so that designation of master planned locations may be considered at any time. The process established under subsection (1) of this section for designating a master planned location for one or more major industrial activities must include, but is not limited to, the following comprehensive plan policy criteria:

(a) The master planned location must be located on lands: Formerly used or designated for surface coal mining and supporting uses; that consist of an aggregation of land of one thousand or more acres, which is not required to be contiguous; and that are suitable for manufacturing, industrial, or commercial businesses;

(b) New infrastructure is provided for; and

(c) Environmental review of a proposed designation of a master planned location must be at the programmatic level, as long as the environmental review of a proposed designation that is being reviewed concurrent with a proposed major industrial activity is at the project level.

(4) Approval of a specific major industrial activity proposed for a master planned location designated under this section is through a local master plan process and does not require further comprehensive plan amendment. The process for reviewing and approving a specific major industrial activity proposed for a master planned location designated under this section must include the following criteria in adopted development regulations:

(a) The site consists of one hundred or more acres of land formerly used or designated for surface coal mining and supporting uses that has been or will be reclaimed as land suitable for industrial development;

(b) Urban growth will not occur in adjacent nonurban areas;

(c) Environmental review of a specific proposed major industrial activity must be conducted as required in chapter 43.21C RCW. Environmental review may be processed as a

planned action, as long as it meets the requirements of RCW 43.21C.031; and

(d) Commercial development within a master planned location must be directly related to manufacturing or industrial uses. Commercial uses shall not exceed ten percent of the total gross floor area of buildings or facilities in the development.

(5) Final approval of the designation of a master planned location designated under subsection (3) of this section is subject to appeal under this chapter. Approval of a specific major industrial activity under subsection (4) of this section is subject to appeal under chapter 36.70C RCW.

(6) RCW 36.70A.365 and 36.70A.367 do not apply to the designation of master planned locations or the review and approval of specific major industrial activities under this section. [2007 c 194 § 1.]

**36.70A.450 Family day-care provider's home facility—County or city may not prohibit in residential or commercial area—Conditions.** (1) Except as provided in subsections (2) and (3) of this section, no county or city may enact, enforce, or maintain an ordinance, development regulation, zoning regulation, or official control, policy, or administrative practice that prohibits the use of a residential dwelling, located in an area zoned for residential or commercial use, as a family day-care provider's home facility.

(2) A county or city may require that the facility: (a) Comply with all building, fire, safety, health code, and business licensing requirements; (b) conform to lot size, building size, setbacks, and lot coverage standards applicable to the zoning district except if the structure is a legal nonconforming structure; (c) is certified by the department of early learning licenser as providing a safe passenger loading area; (d) include signage, if any, that conforms to applicable regulations; and (e) limit hours of operations to facilitate neighborhood compatibility, while also providing appropriate opportunity for persons who use family day-care and who work a nonstandard work shift.

(3) A county or city may also require that the family day-care provider, before state licensing, require proof of written notification by the provider that the immediately adjoining property owners have been informed of the intent to locate and maintain such a facility. If a dispute arises between neighbors and the family day-care provider over licensing requirements, the licenser may provide a forum to resolve the dispute.

(4) Nothing in this section shall be construed to prohibit a county or city from imposing zoning conditions on the establishment and maintenance of a family day-care provider's home in an area zoned for residential or commercial use, so long as such conditions are no more restrictive than conditions imposed on other residential dwellings in the same zone and the establishment of such facilities is not precluded. As used in this section, "family day-care provider" is as defined in RCW 43.215.010. [2007 c 17 § 13; 2003 c 286 § 5; 1995 c 49 § 3; 1994 c 273 § 17.]

**36.70A.550 Aquifer conservation zones.** (1) Any city coterminous with, and comprised only of, an island that relies solely on groundwater aquifers for its potable water source

and does not have reasonable access to a potable water source outside its jurisdiction may designate one or more aquifer conservation zones.

Aquifer conservation zones may only be designated for the purpose of conserving and protecting potable water sources.

(2) Aquifer conservation zones may not be considered critical areas under this chapter except to the extent that specific areas located within aquifer conservation zones qualify for critical area designation and have been designated as such under RCW 36.70A.060(2).

(3) Any city may consider whether an area is within an aquifer conservation zone when determining the residential density of that particular area. The residential densities within conservation zones, in combination with other densities of the city, must be sufficient to accommodate projected population growth under RCW 36.70A.110.

(4) Nothing in this section may be construed to modify the population accommodation obligations required of jurisdictions under this chapter. [2007 c 159 § 1.]

**36.70A.560 Viability of agricultural lands—Deferral requirements—Definition. (Expires December 1, 2011.)**

(1) For the period beginning May 1, 2007, and concluding July 1, 2010, counties and cities may not amend or adopt critical area ordinances under RCW 36.70A.060(2) as they specifically apply to agricultural activities. Nothing in this section:

(a) Nullifies critical area ordinances adopted by a county or city prior to May 1, 2007, to comply with RCW 36.70A.060(2);

(b) Limits or otherwise modifies the obligations of a county or city to comply with the requirements of this chapter pertaining to critical areas not associated with agricultural activities; or

(c) Limits the ability of a county or city to adopt or employ voluntary measures or programs to protect or enhance critical areas associated with agricultural activities.

(2) Counties and cities subject to deferral requirements under subsection (1) of this section:

(a) Should implement voluntary programs to enhance public resources and the viability of agriculture. Voluntary programs implemented under this subsection (2)(a) must include measures to evaluate the successes of these programs; and

(b) Must review and, if necessary, revise critical area ordinances as they specifically apply to agricultural activities to comply with the requirements of this chapter by December 1, 2011.

(3) For purposes of this section and RCW 36.70A.5601, "agricultural activities" means agricultural uses and practices currently existing or legally allowed on rural land or agricultural land designated under RCW 36.70A.170 including, but not limited to: Producing, breeding, or increasing agricultural products; rotating and changing agricultural crops; allowing land used for agricultural activities to lie fallow in which it is plowed and tilled but left unseeded; allowing land used for agricultural activities to lie dormant as a result of adverse agricultural market conditions; allowing land used for agricultural activities to lie dormant because the land is enrolled in a local, state, or federal conservation program, or

the land is subject to a conservation easement; conducting agricultural operations; maintaining, repairing, and replacing agricultural equipment; maintaining, repairing, and replacing agricultural facilities, when the replacement facility is no closer to a critical area than the original facility; and maintaining agricultural lands under production or cultivation. [2007 c 353 § 2.]

**Finding—Intent—2007 c 353:** "(1) The legislature finds that the goal of preserving Washington's agricultural lands is shared by citizens throughout the state. The legislature recognizes that efforts to achieve a balance between the productive use of these resource lands and associated regulatory requirements have proven difficult, but that good faith efforts to seek solutions have yielded successes. The legislature believes that this willingness to find and pursue common ground will enable Washingtonians to enjoy the benefits of a successful agricultural economy and a healthy environment, while also preventing the unnecessary conversion of valuable agricultural lands.

(2) The legislature, therefore, intends this act, the temporary delays it establishes for amending or adopting provisions of certain critical area ordinances, and the duties and requirements it prescribes for the William D. Ruckelshaus Center, to be expressions of progress in resolving, harmonizing, and advancing commonly held environmental protection and agricultural viability goals.

(3) The legislature fully expects the duties and requirements it is prescribing for the Ruckelshaus Center to be successful. If, however, the efforts of the center do not result in agreement on how to best address the conflicts between agricultural activities and certain regulatory requirements as they apply to agricultural activities, the legislature intends, upon the expiration of the delay, to require jurisdictions that have delayed amending or adopting certain regulatory measures to promptly complete all regulatory amendments or adoptions necessary to comply with the growth management act.

(4) The legislature does not intend this act to reduce or otherwise diminish existing critical area ordinances that apply to agricultural activities during the deferral period established in RCW 36.70A.560." [2007 c 353 § 1.]

**Effective date—2007 c 353:** "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately [May 8, 2007]." [2007 c 353 § 5.]

**Expiration date—2007 c 353:** "This act expires December 1, 2011." [2007 c 353 § 6.]

**36.70A.5601 Viability of agricultural lands—Ruckelshaus Center examination, report. (Expires December 1, 2011.)**

(1) Subject to the availability of amounts appropriated for this specific purpose, the William D. Ruckelshaus Center must conduct an examination of the conflicts between agricultural activities and critical area ordinances adopted under chapter 36.70A RCW. The examination required by this section must commence by July 1, 2007.

(2) In fulfilling the requirements of this section, the center must: (a) Work and consult with willing participants including, but not limited to, agricultural, environmental, tribal, and local government interests; and (b) involve and apprise legislators and legislative staff of its efforts.

(3) The examination conducted by the center must be completed in two distinct phases in accordance with the following:

(a) In the first phase, the center must conduct fact-finding and stakeholder discussions with stakeholders identified in subsection (2) of this section. These discussions must identify stakeholder concerns, desired outcomes, opportunities, and barriers. The fact-finding must identify existing regulatory, management, and scientific information related to agricultural activities and critical areas including, but not limited to: (i) Critical area ordinances adopted under chapter 36.70A RCW; (ii) acreage enrolled in the conservation

reserve enhancement program; (iii) acreage protected by conservation easements; (iv) buffer widths; (v) requirements of federally approved salmon recovery plans; (vi) the impacts of agricultural activities on Puget Sound recovery efforts; and (vii) compliance with water quality requirements. The center must issue two reports of its fact-finding efforts and stakeholder discussions to the governor and the appropriate committees of the house of representatives and the senate by December 1, 2007, and December 1, 2008; and

(b)(i) In the second phase, the center must facilitate discussions between the stakeholders identified in subsection (2) of this section to identify policy and financial options or opportunities to address the issues and desired outcomes identified by stakeholders in the first phase of the center’s examination efforts.

(ii) In particular, the stakeholders must examine innovative solutions including, but not limited to, outcome-based approaches that incorporate, to the maximum extent practicable, voluntary programs or approaches. Additionally, stakeholders must examine ways to modify statutory provisions to ensure that regulatory constraints on agricultural activities are used as a last resort if desired outcomes are not achieved through voluntary programs or approaches.

(iii) The center must work to achieve agreement among participating stakeholders and to develop a coalition that can be used to support agreed upon changes or new approaches to protecting critical areas during the 2010 legislative session.

(4) The center must issue a final report of findings and legislative recommendations to the governor and the appropriate committees of the house of representatives and the senate by September 1, 2009. [2007 c 353 § 3.]

**36.70A.570 Regulation of forest practices.** (1) Each county, city, and town assuming regulation of forest practices as provided in RCW 76.09.240 (1) and (2) shall adopt development regulations that:

(a) Protect public resources, as defined in RCW 76.09.020, from material damage or the potential for material damage;

(b) Require appropriate approvals for all phases of the conversion of forest lands, including clearing and grading;

(c) Are guided by the planning goals in RCW 36.70A.020 and by the purposes and policies of the forest practices act as set forth in RCW 76.09.010; and

(d) Are consistent with or supplement development regulations that protect critical areas pursuant to RCW 36.70A.060.

(2) If necessary, each county, city, or town that assumes regulation of forest practices under RCW 76.09.240 shall amend its comprehensive plan to ensure consistency between its comprehensive plan and development regulations.

(3) Before a county, city, or town may regulate forest practices under RCW 76.09.240 (1) and (2), it shall update its development regulations as required by RCW 36.70A.130 and, if applicable, RCW 36.70A.215. Forest practices regulations adopted under RCW 76.09.240 (1) and (2) may be adopted as part of the legislative action taken under RCW 36.70A.130 or 36.70A.215. [2007 c 236 § 2.]

**36.73.050 Establishment of district—Public hearing—Ordinance.** (1) The legislative authorities proposing to establish a district, or to modify the boundaries of an existing district, or to dissolve an existing district shall conduct a hearing at the time and place specified in a notice published at least once, not less than ten days before the hearing, in a newspaper of general circulation within the proposed district. Subject to the provisions of RCW 36.73.170, the legislative authorities shall make provision for a district to be automatically dissolved when all indebtedness of the district has been retired and anticipated responsibilities have been satisfied. This notice shall be in addition to any other notice required by law to be published. The notice shall, where applicable, specify the functions or activities proposed to be provided or funded, or the additional functions or activities proposed to be provided or funded, by the district. Additional notice of the hearing may be given by mail, by posting within the proposed district, or in any manner the legislative authorities deem necessary to notify affected persons. All hearings shall be public and the legislative authorities shall hear objections from any person affected by the formation, modification of the boundaries, or dissolution of the district.

(2)(a) Following the hearing held pursuant to subsection (1) of this section, the legislative authorities may establish a district, modify the boundaries or functions of an existing district, or dissolve an existing district, if the legislative authorities find the action to be in the public interest and adopt an ordinance providing for the action.

(b) The ordinance establishing a district shall specify the functions and transportation improvements described under RCW 36.73.015 to be exercised or funded and establish the boundaries of the district. Subject to the provisions of RCW 36.73.160, functions or transportation improvements proposed to be provided or funded by the district may not be expanded beyond those specified in the notice of hearing, unless additional notices are made, further hearings on the expansion are held, and further determinations are made that it is in the public interest to so expand the functions or transportation improvements proposed to be provided or funded. [2007 c 329 § 3; 2005 c 336 § 5; 1987 c 327 § 5.]

**Effective date—2005 c 336:** See note following RCW 36.73.015.

**36.73.065 Taxes, fees, charges, tolls.** (1) Except as provided in subsection (4) of this section, taxes, fees, charges, and tolls may not be imposed by a district without approval of a majority of the voters in the district voting on a proposition at a general or special election. The proposition must include a specific description of the transportation improvement or improvements proposed by the district and the proposed taxes, fees, charges, and the range of tolls imposed by the district to raise revenue to fund the improvement or improvements.

(2) Voter approval under this section shall be accorded substantial weight regarding the validity of a transportation improvement as defined in RCW 36.73.015.

(3) A district may not increase any taxes, fees, charges, or range of tolls imposed under this chapter once the taxes, fees, charges, or tolls take effect, unless authorized by the district voters pursuant to RCW 36.73.160.

(4)(a) A district that includes all the territory within the boundaries of the jurisdiction, or jurisdictions, establishing the district may impose by a majority vote of the governing board of the district the following fees and charges:

(i) Up to twenty dollars of the vehicle fee authorized in RCW 82.80.140; or

(ii) A fee or charge in accordance with RCW 36.73.120.

(b) The vehicle fee authorized in (a) of this subsection may only be imposed for a passenger-only ferry transportation improvement if the vehicle fee is first approved by a majority of the voters within the jurisdiction of the district.

(c)(i) A district solely comprised of a city or cities shall not impose the fees or charges identified in (a) of this subsection within one hundred eighty days after July 22, 2007, unless the county in which the city or cities reside, by resolution, declares that it will not impose the fees or charges identified in (a) of this subsection within the one hundred eighty-day period; or

(ii) A district solely comprised of a city or cities identified in RCW 36.73.020(6)(b) shall not impose the fees or charges until after May 22, 2008, unless the county in which the city or cities reside, by resolution, declares that it will not impose the fees or charges identified in (a) of this subsection through May 22, 2008.

(5) If the interlocal agreement in RCW 82.80.140(2)(a) cannot be reached, a district that includes only the unincorporated territory of a county may impose by a majority vote of the governing body of the district up to twenty dollars of the vehicle fee authorized in RCW 82.80.140. [2007 c 329 § 1; 2005 c 336 § 17.]

**Effective date—2005 c 336:** See note following RCW 36.73.015.

**36.73.120 Imposition of fees on building construction or land development.** (1) Subject to the provisions in RCW 36.73.065, a district may impose a fee or charge on the construction or reconstruction of commercial buildings, industrial buildings, or on any other commercial or industrial building or building space or appurtenance, or on the development, subdivision, classification, or reclassification of land for commercial purposes, only if done in accordance with chapter 39.92 RCW.

(2) Any fee or charge imposed under this section shall be used exclusively for transportation improvements constructed by a district. The fees or charges imposed must be reasonably necessary as a result of the impact of development, construction, or classification or reclassification of land on identified transportation needs.

(3) If a county or city within the district area is levying a fee or charge for a transportation improvement, the fee or charge shall be credited against the amount of the fee or charge imposed by the district. [2007 c 329 § 4; 2005 c 336 § 11; 1988 c 179 § 7; 1987 c 327 § 12.]

36.120.070 Submission of ballot propositions to the voters.

**36.120.070 Submission of ballot propositions to the voters.** (1) Beginning no sooner than the 2007 general election, two or more contiguous county legislative authorities, or a single county legislative authority as provided under RCW 36.120.030(8), upon receipt of the regional transportation investment plan under RCW 36.120.040, may submit to the voters of the proposed district a single ballot proposition that approves formation of the district, approves the regional transportation investment plan, and approves the revenue sources necessary to finance the plan. For a county to participate in the plan, the county legislative authority shall, within ninety days after receiving the plan, adopt an ordinance indicating the county's participation. The planning committee may draft the ballot proposition on behalf of the county legislative authorities, and the county legislative authorities may give notice as required by law for ballot propositions, and perform other duties as required to submit the proposition to the voters of the proposed district for their approval or rejection. Counties may negotiate interlocal agreements necessary to implement the plan. The electorate will be the voters voting within the boundaries of the proposed district. A simple majority of the total persons voting on the single ballot proposition is required for approval.

(2) The participating counties shall submit a regional transportation investment plan at the 2007 general election as part of a single ballot proposition that includes, in conjunction with RCW 81.112.030(10), a plan to support an authority's system and financing plan, or additional implementation phases of the system and financing plan, developed under chapter 81.112 RCW. The regional transportation investment plan shall not be considered approved unless both a majority of the persons voting on the proposition residing in the proposed district vote in favor of the proposition and a majority of the persons voting on the proposition residing within the regional transit authority vote in favor of the proposition. [2007 c 509 § 2; 2006 c 311 § 8; 2002 c 56 § 107.]

**Findings—Intent—2007 c 509:** "The legislature finds that traffic congestion reduces personal and freight mobility and is detrimental to the economy, air quality, and the quality of life throughout the central Puget Sound area. Effective transportation solutions are essential for the future growth and development of the central Puget Sound area and the welfare of its citizens.

The legislature further finds that investments in both transit and road improvements are necessary to relieve traffic congestion and to improve mobility. The transportation improvements proposed by regional transportation investment districts and regional transit authorities within the central Puget Sound region form integral parts of, and are naturally and necessarily related to, a single regional transportation system. The construction of road and transit projects in a comprehensive and interrelated manner will help reduce transportation congestion, increase road capacity, promote safety, facilitate mobility, and improve the health, welfare, and safety of the citizens of Washington.

The legislature further finds that under RCW 81.112.030 and \*36.120.170 regional transportation investment districts and regional transit authorities are required to submit to the voters propositions for their respective transportation plans on the same ballot at the 2007 general election and that the opportunity to propose a single ballot reflecting a comprehensive, systemic, and interrelated approach to regional transportation would further the legislative intent and provide voters with an easier and more efficient method of expressing their will.

It is therefore the policy and intent of the state of Washington that transportation plans required to be submitted for voter approval at the 2007 general election by a regional transportation investment district and a regional transit authority must be submitted to voters in single ballot question seeking approval of both plans." [2007 c 509 § 1.]

Upon the filing of a challenge, the state, district, and authority have ten calendar days to file any response to the challenge along with any supporting legal and factual authority. The court shall accord priority to hearing the matter and shall, within five calendar days of the filing of the response to the challenge, render its decision and file with the secretary of state a copy of its decision. The supreme court shall issue its ruling on the appeal within thirty days of receipt by the court." [2007 c 509 § 5.]

36.125.050	Collaborative process for ocean policy development and coastal area management.

**36.125.005 Findings—Intent.** (1) The legislature finds the challenge of developing realistic, effective, and efficient solutions to the conservation and management issues facing Puget Sound and Washington's outer coast requires calling

on all available sources of knowledge and creative thinking available in the collective wisdom of Washington's citizens. The legislature further finds that both Puget Sound and the outer coast are dynamic and localized waterbodies with unique local challenges and unique local solutions. As such, it is essential for the future management of these ecosystems that citizens, through their local government, have a voice and an opportunity to share their dedication and interest in the well-being of their community's unique marine waters, while providing a valuable contribution to the statewide efforts aimed at restoring the outer coast and Puget Sound as a whole.

(2) The legislature further finds that federally led efforts to establish marine resources committees have proven to be an exciting vehicle for involving local citizens and community leaders in the future discussions, decisions, and restoration commitments in the waters most important to the community. The existing model of using a community-based, nonregulatory organization to examine issues particular to a community's corner of Puget Sound, applying for grants, and thoroughly and fairly investigating available options and solutions has proved to be a valuable asset to Puget Sound and its communities, and is worthy of replication throughout the Puget Sound basin and the outer coast.

(3) In this chapter, the legislature intends to establish a structure on which interested local communities can harness the dedication, creativity, and wisdom of their residents in the form of marine resources committees. These committees are intended to complement, and not compete with or undermine, any other governmental efforts to restore and manage the Puget Sound. The legislature further intends that the department of fish and wildlife should apply the lessons learned from Puget Sound to work with county governments on the outer coast to establish marine resources committees. [2007 c 344 § 1.]

**36.125.010 Counties authorized to establish—Purpose—Role.** (1)(a) The legislative authority for each county that borders the marine waters of southern Puget Sound may establish marine resources committees consistent with the procedures outlined in RCW 36.125.020. Counties authorized to establish marine resources committees in the southern Puget Sound are: King, Pierce, Thurston, Kitsap, and Mason counties.

(b) The legislative authority for each county bordering the marine waters of the outer coast may develop a marine resources committee consistent with the procedures outlined in RCW 36.125.020. Counties authorized to establish marine resources committees on the outer coast are: Pacific, Grays Harbor, and Wahkiakum counties.

(2) The mission of a marine resources committee created under this section is to address, utilizing sound science, the needs of the marine ecosystem local to the county initiating the marine resources committee.

(3) A marine resources committee created under this section should review current data and resource conservation and management programs and make prioritized recommendations for additional measures that might be necessary to enhance protection of marine resources.

Adjacent county legislative authorities shall coordinate their efforts whenever there is a mutual interest in creating a marine resources committee.

(2) A county may delegate the management and oversight of a marine resources committee created by the county under RCW 36.125.010 to a city, or cities, within its jurisdiction, if the city or cities are located on the marine waters of the outer coast or southern Puget Sound and are willing to accept the delegation.

(3) Participating county legislative authorities must select members of the marine resources committee, ensuring balanced representation from: Local government; scientific experts; affected economic interests; affected recreational interests; and environmental and conservation interests. Additionally, participating county legislative authorities must invite tribal representatives to participate in the marine resources committee. An initiating county may delegate its appointment authority to a city or cities that have received from the county the delegated responsibilities of managing and overseeing the marine resources committee.

(4) County residents may petition the county legislative authority to create a marine resources committee. Upon receipt of a petition, the county legislative authority must respond in writing within sixty days as to whether they will authorize the creation of a marine resources committee as well as the reasons for their decision. [2007 c 344 § 3.]

**36.125.030 Regional coordinating entities.** (1) The Puget Sound action team, or its successor organization, shall serve as the regional coordinating entity for marine resources committees created in the southern Puget Sound and the department of fish and wildlife shall serve as the regional coordinating entity for marine resources committees created for the outer coast.

(2) The regional coordinating entity shall serve as a resource to, at a minimum:

**36.125.040 Application to committees established under federal law.** Nothing in RCW 36.125.010 or 36.125.020 is intended to expand or limit the authority of local marine resources committees established under the Northwest Straits marine conservation initiative by federal act in San Juan, Whatcom, Skagit, Island, Snohomish, Clallam, and Jefferson counties and existing as of July 22, 2007. [2007 c 344 § 5.]

**36.125.050 Collaborative process for ocean policy development and coastal area management.** Outer coast marine resources committees, in conjunction with their regional coordinating entity, shall meet and consult with key state, federal, local, and tribal governments, and private interest groups to develop a collaborative process to address ocean policy issues. This collaborative process should use Washington's "Ocean Action Plan: Enhancing Management of Washington State's Ocean and Outer Coasts" developed by the Washington ocean policy work group as a guide to begin the work of developing and coordinating state and local ocean policy and providing better management of Washington's coastal areas. [2007 c 344 § 6.]

**39.04.155 Small works roster contract procedures—Limited public works process—Definition (*as amended by 2007 c 133*).** (1) This section provides uniform small works roster provisions to award contracts for construction, building, renovation, remodeling, alteration, repair, or improvement of real property that may be used by state agencies and by any local government that is expressly authorized to use these provisions. These provisions may be used in lieu of other procedures to award contracts for such work with an estimated cost of two hundred thousand dollars or less. The small works roster process includes the limited public works process authorized under subsection (3) of this section and any local government authorized to award contracts using the small works roster process under this section may award contracts using the limited public works process under subsection (3) of this section.

(2)(a) A state agency or authorized local government may create a single general small works roster, or may create a small works roster for different specialties or categories of anticipated work. Where applicable, small works rosters may make distinctions between contractors based upon different geographic areas served by the contractor. The small works roster or rosters shall consist of all responsible contractors who have requested to be on the list, and where required by law are properly licensed or registered to perform such work in this state. A state agency or local government establishing a small works roster or rosters may require eligible contractors desiring to be placed on a roster or rosters to keep current records of any applicable licenses, certifications, registrations, bonding, insurance, or other appropriate matters on file with the state agency or local government as a condition of being placed on a roster or rosters. At least once a year, the state agency or local government shall publish in a newspaper of general circulation within the jurisdiction a notice of the existence of the roster or rosters and solicit the names of contractors for such roster or rosters. In addition, responsible contractors shall be added to an appropriate roster or rosters at any time they submit a written request and necessary records. Master contracts may be required to be signed that become effective when a specific award is made using a small works roster.

(b) A state agency establishing a small works roster or rosters shall adopt rules implementing this subsection. A local government establishing a small works roster or rosters shall adopt an ordinance or resolution implementing this subsection. Procedures included in rules adopted by the department of general administration in implementing this subsection must be included in any rules providing for a small works roster or rosters that is adopted by another state agency, if the authority for that state agency to engage in these activities has been delegated to it by the department of general administration under chapter 43.19 RCW. An interlocal contract or agreement between two or more state agencies or local governments establishing a small works roster or rosters to be used by the parties to the agreement or contract must clearly identify the lead entity that is responsible for implementing the provisions of this subsection.

(c) Procedures shall be established for securing telephone, written, or electronic quotations from contractors on the appropriate small works roster to assure that a competitive price is established and to award contracts to the lowest responsible bidder(ers) as defined in RCW ((43.19.1914)) 39.04.010. Invitations for quotations shall include an estimate of the scope and nature of the work to be performed as well as materials and equipment to be furnished. However, detailed plans and specifications need not be included in the invitation. This subsection does not eliminate other requirements for architectural or engineering approvals as to quality and compliance with building codes. Quotations may be invited from all appropriate contractors on the appropriate small works roster. As an alternative, quotations may be invited from at least five contractors on the appropriate small works roster who have indicated the capability of performing the kind of work being contracted, in a manner that will equitably distribute the opportunity among the contractors on the appropriate roster. However, if the estimated cost of the work is from one hundred thousand dollars to two hundred thousand dollars, a state agency or local government, other than a port district, that chooses to solicit bids from less than all the appropriate contractors on the appropriate small works roster must also notify the remaining contractors on the appropriate small works roster that quotations on the work are being sought. The government has the sole option of determining whether this notice to the remaining contractors is made by: (i) Publishing notice in a legal newspaper in general circulation in the area where the work is to be done; (ii) mailing a notice to these contractors; or (iii) sending a notice to these contractors by facsimile

or other electronic means. For purposes of this subsection (2)(c), "equitably distribute" means that a state agency or local government soliciting bids may not favor certain contractors on the appropriate small works roster over other contractors on the appropriate small works roster who perform similar services.

(d) A contract awarded from a small works roster under this section need not be advertised.

(e) Immediately after an award is made, the bid quotations obtained shall be recorded, open to public inspection, and available by telephone inquiry.

(3) In lieu of awarding contracts under subsection (2) of this section, a state agency or authorized local government may award a contract for work, construction, alteration, repair, or improvement (~~(project [projects])~~) projects estimated to cost less than thirty-five thousand dollars using the limited public works process provided under this subsection. Public works projects awarded under this subsection are exempt from the other requirements of the small works roster process provided under subsection (2) of this section and are exempt from the requirement that contracts be awarded after advertisement as provided under RCW 39.04.010.

For limited public works projects, a state agency or authorized local government shall solicit electronic or written quotations from a minimum of three contractors from the appropriate small works roster and shall award the contract to the lowest responsible bidder as defined under RCW (~~(43.19.1911)~~) 39.04.010. After an award is made, the quotations shall be open to public inspection and available by electronic request. A state agency or authorized local government shall attempt to distribute opportunities for limited public works projects equitably among contractors willing to perform in the geographic area of the work. A state agency or authorized local government shall maintain a list of the contractors contacted and the contracts awarded during the previous twenty-four months under the limited public works process, including the name of the contractor, the contractor's registration number, the amount of the contract, a brief description of the type of work performed, and the date the contract was awarded. For limited public works projects, a state agency or authorized local government may waive the payment and performance bond requirements of chapter 39.08 RCW and the retainage requirements of chapter 60.28 RCW, thereby assuming the liability for the contractor's nonpayment of laborers, mechanics, sub-contractors, materialmen, suppliers, and taxes imposed under Title 82 RCW that may be due from the contractor for the limited public works project, however the state agency or authorized local government shall have the right of recovery against the contractor for any payments made on the contractor's behalf.

(4) The breaking of any project into units or accomplishing any projects by phases is prohibited if it is done for the purpose of avoiding the maximum dollar amount of a contract that may be let using the small works roster process or limited public works process.

(5) As used in this section, "state agency" means the department of general administration, the state parks and recreation commission, the department of natural resources, the department of fish and wildlife, the department of transportation, any institution of higher education as defined under RCW 28B.10.016, and any other state agency delegated authority by the department of general administration to engage in construction, building, renovation, remodeling, alteration, improvement, or repair activities. [2007 c 133 § 4; 2001 c 284 § 1; 2000 c 138 § 101; 1998 c 278 § 12; 1993 c 198 § 1; 1991 c 363 § 109.]

**39.04.155 Small works roster contract procedures—Limited public works process—Definition (as amended by 2007 c 210).** (1) This section provides uniform small works roster provisions to award contracts for construction, building, renovation, remodeling, alteration, repair, or improvement of real property that may be used by state agencies and by any local government that is expressly authorized to use these provisions. These provisions may be used in lieu of other procedures to award contracts for such work with an estimated cost of two hundred thousand dollars or less. The small works roster process includes the limited public works process authorized under subsection (3) of this section and any local government authorized to award contracts using the small works roster process under this section may award contracts using the limited public works process under subsection (3) of this section.

(2)(a) A state agency or authorized local government may create a single general small works roster, or may create a small works roster for different specialties or categories of anticipated work. Where applicable, small works rosters may make distinctions between contractors based upon different geographic areas served by the contractor. The small works roster or rosters shall consist of all responsible contractors who have requested to be on

At least once a year, the state agency or local government shall publish in a newspaper of general circulation within the jurisdiction a notice of the existence of the roster or rosters and solicit the names of contractors for such roster or rosters. In addition, responsible contractors shall be added to an appropriate roster or rosters at any time they submit a written request and necessary records. Master contracts may be required to be signed that become effective when a specific award is made using a small works roster.

(b) A state agency establishing a small works roster or rosters shall adopt rules implementing this subsection. A local government establishing a small works roster or rosters shall adopt an ordinance or resolution implementing this subsection. Procedures included in rules adopted by the department of general administration in implementing this subsection must be included in any rules providing for a small works roster or rosters that is adopted by another state agency, if the authority for that state agency to engage in these activities has been delegated to it by the department of general administration under chapter 43.19 RCW. An interlocal contract or agreement between two or more state agencies or local governments establishing a small works roster or rosters to be used by the parties to the agreement or contract must clearly identify the lead entity that is responsible for implementing the provisions of this subsection.

(c) Procedures shall be established for securing telephone, written, or electronic quotations from contractors on the appropriate small works roster to assure that a competitive price is established and to award contracts to the lowest responsible bidder, as defined in RCW 43.19.1911. Invitations for quotations shall include an estimate of the scope and nature of the work to be performed as well as materials and equipment to be furnished. However, detailed plans and specifications need not be included in the invitation. As an alternative, quotations may be invited from at least five contractors on the appropriate small works roster who have indicated the capability of performing the kind of work being contracted, in a manner that will equitably distribute the opportunity among the contractors on the appropriate roster. However, if the estimated cost of the work is from one hundred thousand dollars to two hundred thousand dollars, a state agency or local government, other than a port district, that chooses to solicit bids from less than all the appropriate contractors on the appropriate small works roster must also notify the remaining contractors on the appropriate small works roster that quotations on the work are being sought. The government has the sole option of determining whether this notice to the remaining contractors is made by: (i) Publishing notice in a legal newspaper in general circulation in the area where the work is to be done; (ii) mailing a notice to these contractors; or (iii) sending a notice to these contractors by facsimile or other electronic means. For purposes of this subsection (2)(c), "equitably distribute" means that a state agency or local government soliciting bids may not favor certain contractors on the appropriate small works roster over other contractors on the appropriate small works roster who perform similar services.

(d) A contract awarded from a small works roster under this section need not be advertised.

(e) Immediately after an award is made, the bid quotations obtained shall be recorded, open to public inspection, and available by telephone inquiry.

(3) In lieu of awarding contracts under subsection (2) of this section, a state agency or authorized local government may award a contract for work, construction, alteration, repair, or improvement (~~(project [projects])~~) projects estimated to cost less than thirty-five thousand dollars using the limited public works process provided under this subsection. Public works projects awarded under this subsection are exempt from the other requirements of the small works roster process provided under subsection (2) of this section and are exempt from the requirement that contracts be awarded after advertisement as provided under RCW 39.04.010.

For limited public works projects, a state agency or authorized local government shall solicit electronic or written quotations from a minimum of three contractors from the appropriate small works roster and shall award the contract to the lowest responsible bidder as defined under RCW 43.19.1911. After an award is made, the quotations shall be open to public inspection and available by electronic request. A state agency or authorized local government shall attempt to distribute opportunities for limited public works

projects equitably among contractors willing to perform in the geographic area of the work. A state agency or authorized local government shall maintain a list of the contractors contacted and the contracts awarded during the previous twenty-four months under the limited public works process, including the name of the contractor, the contractor's registration number, the amount of the contract, a brief description of the type of work performed, and the date the contract was awarded. For limited public works projects, a state agency or authorized local government may waive the payment and performance bond requirements of chapter 39.08 RCW and the retainage requirements of chapter 60.28 RCW, thereby assuming the liability for the contractor's nonpayment of laborers, mechanics, subcontractors, ~~((materialmen))~~ material persons, suppliers, and taxes imposed under Title 82 RCW that may be due from the contractor for the limited public works project, however the state agency or authorized local government shall have the right of recovery against the contractor for any payments made on the contractor's behalf.

(4) The breaking of any project into units or accomplishing any projects by phases is prohibited if it is done for the purpose of avoiding the maximum dollar amount of a contract that may be let using the small works roster process or limited public works process.

(5)(a) A state agency or authorized local government may use the limited public works process of subsection (3) of this section to solicit and award small works roster contracts to small businesses that are registered contractors with gross revenues under one million dollars annually as reported on their federal tax return.

(b) A state agency or authorized local government may adopt additional procedures to encourage small businesses that are registered contractors with gross revenues under two hundred fifty thousand dollars annually as reported on their federal tax returns to submit quotations or bids on small works roster contracts.

(6) As used in this section, "state agency" means the department of general administration, the state parks and recreation commission, the department of natural resources, the department of fish and wildlife, the department of transportation, any institution of higher education as defined under RCW 28B.10.016, and any other state agency delegated authority by the department of general administration to engage in construction, building, renovation, remodeling, alteration, improvement, or repair activities. [2007 c 210 § 1; 2001 c 284 § 1; 2000 c 138 § 101; 1998 c 278 § 12; 1993 c 198 § 1; 1991 c 363 § 109.]

**39.04.155 Small works roster contract procedures—Limited public works process—Definition (as amended by 2007 c 218).** (1) This section provides uniform small works roster provisions to award contracts for construction, building, renovation, remodeling, alteration, repair, or improvement of real property that may be used by state agencies and by any local government that is expressly authorized to use these provisions. These provisions may be used in lieu of other procedures to award contracts for such work with an estimated cost of two hundred thousand dollars or less. The small works roster process includes the limited public works process authorized under subsection (3) of this section and any local government authorized to award contracts using the small works roster process under this section may award contracts using the limited public works process under subsection (3) of this section.

(2)(a) A state agency or authorized local government may create a single general small works roster, or may create a small works roster for different specialties or categories of anticipated work. Where applicable, small works rosters may make distinctions between contractors based upon different geographic areas served by the contractor. The small works roster or rosters shall consist of all responsible contractors who have requested to be on the list, and where required by law are properly licensed or registered to perform such work in this state. A state agency or local government establishing a small works roster or rosters may require eligible contractors desiring to be placed on a roster or rosters to keep current records of any applicable licenses, certifications, registrations, bonding, insurance, or other appropriate matters on file with the state agency or local government as a condition of being placed on a roster or rosters. At least once a year, the state agency or local government shall publish in a newspaper of general circulation within the jurisdiction a notice of the existence of the roster or rosters and solicit the names of contractors for such roster or rosters. In addition, responsible contractors shall be added to an appropriate roster or rosters at any time they submit a written request and necessary records. Master contracts may be required to be signed that become effective when a specific award is made using a small works roster.

(b) A state agency establishing a small works roster or rosters shall adopt rules implementing this subsection. A local government establishing a small works roster or rosters shall adopt an ordinance or resolution imple-

menting this subsection. Procedures included in rules adopted by the department of general administration in implementing this subsection must be included in any rules providing for a small works roster or rosters that is adopted by another state agency, if the authority for that state agency to engage in these activities has been delegated to it by the department of general administration under chapter 43.19 RCW. An interlocal contract or agreement between two or more state agencies or local governments establishing a small works roster or rosters to be used by the parties to the agreement or contract must clearly identify the lead entity that is responsible for implementing the provisions of this subsection.

(c) Procedures shall be established for securing telephone, written, or electronic quotations from contractors on the appropriate small works roster to assure that a competitive price is established and to award contracts to the lowest responsible bidder, as defined in RCW 43.19.1911. Invitations for quotations shall include an estimate of the scope and nature of the work to be performed as well as materials and equipment to be furnished. However, detailed plans and specifications need not be included in the invitation. This subsection does not eliminate other requirements for architectural or engineering approvals as to quality and compliance with building codes. Quotations may be invited from all appropriate contractors on the appropriate small works roster. As an alternative, quotations may be invited from at least five contractors on the appropriate small works roster who have indicated the capability of performing the kind of work being contracted, in a manner that will equitably distribute the opportunity among the contractors on the appropriate roster. However, if the estimated cost of the work is from one hundred thousand dollars to two hundred thousand dollars, a state agency or local government, other than a port district, that chooses to solicit bids from less than all the appropriate contractors on the appropriate small works roster must also notify the remaining contractors on the appropriate small works roster that quotations on the work are being sought. The government has the sole option of determining whether this notice to the remaining contractors is made by: (i) Publishing notice in a legal newspaper in general circulation in the area where the work is to be done; (ii) mailing a notice to these contractors; or (iii) sending a notice to these contractors by facsimile or other electronic means. For purposes of this subsection (2)(c), "equitably distribute" means that a state agency or local government soliciting bids may not favor certain contractors on the appropriate small works roster over other contractors on the appropriate small works roster who perform similar services.

(d) A contract awarded from a small works roster under this section need not be advertised.

(e) Immediately after an award is made, the bid quotations obtained shall be recorded, open to public inspection, and available by telephone inquiry.

(3) In lieu of awarding contracts under subsection (2) of this section, a state agency or authorized local government may award a contract for work, construction, alteration, repair, or improvement ~~((project {projects}))~~ projects estimated to cost less than thirty-five thousand dollars using the limited public works process provided under this subsection. Public works projects awarded under this subsection are exempt from the other requirements of the small works roster process provided under subsection (2) of this section and are exempt from the requirement that contracts be awarded after advertisement as provided under RCW 39.04.010.

For limited public works projects, a state agency or authorized local government shall solicit electronic or written quotations from a minimum of three contractors from the appropriate small works roster and shall award the contract to the lowest responsible bidder as defined under RCW 43.19.1911. After an award is made, the quotations shall be open to public inspection and available by electronic request. A state agency or authorized local government shall attempt to distribute opportunities for limited public works projects equitably among contractors willing to perform in the geographic area of the work. A state agency or authorized local government shall maintain a list of the contractors contacted and the contracts awarded during the previous twenty-four months under the limited public works process, including the name of the contractor, the contractor's registration number, the amount of the contract, a brief description of the type of work performed, and the date the contract was awarded. For limited public works projects, a state agency or authorized local government may waive the payment and performance bond requirements of chapter 39.08 RCW and the retainage requirements of chapter 60.28 RCW, thereby assuming the liability for the contractor's nonpayment of laborers, mechanics, subcontractors, ~~((materialmen))~~ material suppliers, suppliers, and taxes imposed under Title 82 RCW that may be due from the contractor for the limited public works project, however the state agency or authorized local government shall have the right of recovery against the contractor for any payments made on the contractor's behalf.

(4) The breaking of any project into units or accomplishing any projects by phases is prohibited if it is done for the purpose of avoiding the

maximum dollar amount of a contract that may be let using the small works roster process or limited public works process.

(5) As used in this section, "state agency" means the department of general administration, the state parks and recreation commission, the department of natural resources, the department of fish and wildlife, the department of transportation, any institution of higher education as defined under RCW 28B.10.016, and any other state agency delegated authority by the department of general administration to engage in construction, building, renovation, remodeling, alteration, improvement, or repair activities. (1) "Apprentice" means an apprentice enrolled in a state-approved apprenticeship training program.

(2) "Apprentice utilization requirement" means the requirement that the appropriate percentage of labor hours be performed by apprentices.

(3) "Labor hours" means the total hours of workers receiving an hourly wage who are directly employed on the site of the public works project. **39.04.320 Apprenticeship training programs—Public works contracts—Adjustment of specific projects—Report and collection of agency data—Apprenticeship utilization advisory committee created.** (1)(a) Except as provided in (b) and (c) of this subsection, from January 1, 2005, and thereafter, for all public works estimated to cost one million dollars or more, all specifications shall require that no less than fifteen percent of the labor hours be performed by apprentices.

(b)(i) This section does not apply to contracts advertised for bid before July 1, 2007, for any public works by the department of transportation.

(ii) For contracts advertised for bid on or after July 1, 2007, and before July 1, 2008, for all public works by the department of transportation estimated to cost five million dollars or more, all specifications shall require that no less than ten percent of the labor hours be performed by apprentices.

(2) Awarding agency directors or school districts may adjust the requirements of this section for a specific project for the following reasons:

(a) The demonstrated lack of availability of apprentices in specific geographic areas;

(b) A disproportionately high ratio of material costs to labor hours, which does not make feasible the required minimum levels of apprentice participation;

(c) Participating contractors have demonstrated a good faith effort to comply with the requirements of RCW 39.04.300 and 39.04.310 and this section; or

(d) Other criteria the awarding agency director or school district deems appropriate, which are subject to review by the office of the governor.

(3) The secretary of the department of transportation shall adjust the requirements of this section for a specific project for the following reasons:

The committee must include at least one member representing contractor businesses with less than thirty-five employees. The advisory committee shall meet regularly with the secretary of transportation to discuss implementation of this section by the department of transportation, including development of the process to be used to adjust the requirements of this section for a specific project. The committee shall provide a report to the legislature by January 1, 2008, on the effects of the apprentice labor requirement on transportation projects and on the availability of apprentice labor and programs statewide.

(7) At the request of the senate labor, commerce, research and development committee, the house of representatives commerce and labor committee, or their successor committees, and the governor, the department of general administration and the department of labor and industries shall compile and summarize the agency data and provide a joint report to both committees. The report shall include recommendations on modifications or improvements to the apprentice utilization program and information on skill shortages in each trade or craft. Title 51 RCW; an employment security department number as required in Title 50 RCW; and a state excise tax registration number as required in Title 82 RCW; and

(d) Not be disqualified from bidding on any public works contract under RCW 39.06.010 or 39.12.065(3).

(2) In addition to the bidder responsibility criteria in subsection (1) of this section, the state or municipality may adopt relevant supplemental criteria for determining bidder responsibility applicable to a particular project which the bidder must meet.

(a) Supplemental criteria for determining bidder responsibility, including the basis for evaluation and the deadline for appealing a determination that a bidder is not responsible, must be provided in the invitation to bid or bidding documents.

(b) In a timely manner before the bid submittal deadline, a potential bidder may request that the state or municipality modify the supplemental criteria. The state or municipality must evaluate the information submitted by the potential bidder and respond before the bid submittal deadline. If the evaluation results in a change of the criteria, the state or municipality must issue an addendum to the bidding documents identifying the new criteria.

(c) If the bidder fails to supply information requested concerning responsibility within the time and manner specified in the bid documents, the state or municipality may base its determination of responsibility upon any available information related to the supplemental criteria or may find the bidder not responsible.

(d) If the state or municipality determines a bidder to be not responsible, the state or municipality must provide, in writing, the reasons for the determination. The bidder may appeal the determination within the time period specified in the bidding documents by presenting additional information to the state or municipality. The state or municipality must consider the additional information before issuing its final determination. If the final determination affirms that the bidder is not responsible, the state or municipality may not execute a contract with any other bidder until two business days after the bidder determined to be not responsible has received the final determination.

(3) The capital projects advisory review board created in \*RCW 39.10.800 shall develop suggested guidelines to assist the state and municipalities in developing supplemental bidder responsibility criteria. The guidelines must be posted on the board's web site. [2007 c 133 § 2.]

**39.10.200 Finding—Purpose.** The legislature finds that the traditional process of awarding public works contracts in lump sum to the lowest responsible bidder is a fair and objective method of selecting a contractor. However, under certain circumstances, alternative public works contracting procedures may best serve the public interest if such procedures are implemented in an open and fair process based on objective and equitable criteria. The purpose of this chapter is to authorize the use of certain supplemental alternative public works contracting procedures, to prescribe appropriate requirements to ensure that such contracting procedures serve the public interest, and to establish a process for evaluation of such contracting procedures. [2007 c 494 § 1; 1994 c 132 § 1. Formerly RCW 39.10.010.]

**Sunset Act application:** See note following chapter digest.

**Sunset Act application:** See note following chapter digest.

**39.10.260 Project review committee—Meetings—Open and public.** (1) The committee shall hold regular public meetings to carry out its duties as described in RCW 39.10.250. Committee meetings are subject to chapter 42.30 RCW.

(2) The committee shall publish notice of its public meetings at least twenty days before the meeting in a legal newspaper circulated in the area where the public body seeking certification is located, or where each of the proposed projects under consideration will be constructed. All meeting notices must be posted on the committee's web site.

(3) The meeting notice must identify the public body that is seeking certification or project approval, and where applicable, a description of projects to be considered at the meeting. The notice must indicate when, where, and how the public may present comments regarding the committee's certification of a public body or approval of a project. Information submitted by a public body to be reviewed at the meeting

shall be available on the committee's web site at the time the notice is published.

(4) The committee must allow for public comment on the appropriateness of certification of a public body or on the appropriateness of the use of the proposed contracting procedure and the qualifications of a public body to use the contracting procedure. The committee shall receive and record both written and oral comments at the public hearing. [2007 c 494 § 106.]

**Sunset Act application:** See note following chapter digest.

**39.10.270 Project review committee—Certification of public bodies.** (1) A public body may apply for certification to use the design-build or general contractor/construction manager contracting procedure, or both. Once certified, a public body may use the contracting procedure for which it is certified on individual projects with a total project cost over ten million dollars without seeking committee approval. The certification period is three years. A public body seeking certification must submit to the committee an application in a format and manner as prescribed by the committee. The application must include a description of the public body's qualifications, its capital plan during the certification period, and its intended use of alternative contracting procedures.

(2) To certify a public body, the committee shall determine that the public body:

(a) Has the necessary experience and qualifications to determine which projects are appropriate for using alternative contracting procedures;

(b) Has the necessary experience and qualifications to carry out the alternative contracting procedure including, but not limited to: (i) Project delivery knowledge and experience; (ii) personnel with appropriate construction experience; (iii) a management plan and rationale for its alternative public works projects; (iv) demonstrated success in managing public works projects; (v) demonstrated success in managing at least one general contractor/construction manager or design-build project within the previous five years; (vi) the ability to properly manage its capital facilities plan including, but not limited to, appropriate project planning and budgeting experience; and (vii) the ability to meet requirements of this chapter; and

(c) Has resolved any audit findings on previous public works projects in a manner satisfactory to the committee.

(3) The committee shall, if practicable, make its determination at the public meeting during which an application for certification is reviewed. Public comments must be considered before a determination is made. Within ten business days of the public meeting, the committee shall provide a written determination to the public body, and make its determination available to the public on the committee's web site.

(4) The committee may revoke any public body's certification upon a finding, after a public hearing, that its use of design-build or general contractor/construction manager contracting procedures no longer serves the public interest.

(5) The committee may renew the certification of a public body for one additional three-year period. The public body must submit an application for recertification at least three months before the initial certification expires. The application shall include updated information on the public

body's capital plan for the next three years, its intended use of the procedures, and any other information requested by the committee. The committee must review the application for recertification at a meeting held before expiration of the applicant's initial certification period. A public body must reapply for certification under the process described in subsection (1) of this section once the period of recertification expires.

(6) Certified public bodies must submit project data information as required in RCW 39.10.320 and 39.10.350. [2007 c 494 § 107.]

**Sunset Act application:** See note following chapter digest.

**39.10.280 Project review committee—Project approval process.** (1) A public body not certified under RCW 39.10.270 must apply for approval from the committee to use the design-build or general contractor/construction manager contracting procedure on a project. A public body seeking approval must submit to the committee an application in a format and manner as prescribed by the committee. The application must include a description of the public body's qualifications, a description of the project, and its intended use of alternative contracting procedures.

(2) To approve a proposed project, the committee shall determine that:

(a) The alternative contracting procedure will provide a substantial fiscal benefit or the use of the traditional method of awarding contracts in lump sum to the low responsive bidder is not practical for meeting desired quality standards or delivery schedules;

(b) The proposed project meets the requirements for using the alternative contracting procedure as described in RCW 39.10.300 or 39.10.340;

(c) The public body has the necessary experience or qualified team to carry out the alternative contracting procedure including, but not limited to: (i) Project delivery knowledge and experience; (ii) sufficient personnel with construction experience to administer the contract; (iii) a written management plan that shows clear and logical lines of authority; (iv) the necessary and appropriate funding and time to properly manage the job and complete the project; (v) continuity of project management team, including personnel with experience managing projects of similar scope and size to the project being proposed; and (vi) necessary and appropriate construction budget;

(d) For design-build projects, construction personnel independent of the design-build team are knowledgeable in the design-build process and are able to oversee and administer the contract; and

(e) The public body has resolved any audit findings related to previous public works projects in a manner satisfactory to the committee.

(3) The committee shall, if practicable, make its determination at the public meeting during which a submittal is reviewed. Public comments must be considered before a determination is made.

(4) Within ten business days after the public meeting, the committee shall provide a written determination to the public body, and make its determination available to the public on the committee's web site. If the committee fails to make a

[2007 RCW Supp—page 342]

written determination within ten business days of the public meeting, the request of the public body to use the alternative contracting procedure on the requested project shall be deemed approved.

(5) The requirements of subsection (1) of this section also apply to certified public bodies seeking to use the general contractor/construction manager contracting procedure on projects with a total project cost of less than ten million dollars.

(6) Failure of the committee to meet within sixty calendar days of a public body's application to use an alternative contracting procedure on a project shall be deemed an approval of the application. [2007 c 494 § 108.]

**Sunset Act application:** See note following chapter digest.

**39.10.290 Appeal process.** Final determinations by the committee may be appealed to the board within seven days by the public body or by an interested party. A written notice of an appeal must be provided to the committee and, as applicable, to the public body. The board shall resolve an appeal within forty-five days of receipt of the appeal and shall send a written determination of its decision to the party making the appeal and to the appropriate public body, as applicable. The public body shall comply with the determination of the board. [2007 c 494 § 109.]

**Sunset Act application:** See note following chapter digest.

**39.10.300 Design-build procedure—Uses.** (1) Subject to the process in RCW 39.10.270 or 39.10.280, public bodies may utilize the design-build procedure for public works projects in which the total project cost is over ten million dollars and where:

(a) The design and construction activities, technologies, or schedule to be used are highly specialized and a design-build approach is critical in developing the construction methodology or implementing the proposed technology; or

(b) The project design is repetitive in nature and is an incidental part of the installation or construction; or

(c) Regular interaction with and feedback from facilities users and operators during design is not critical to an effective facility design.

(2) Subject to the process in RCW 39.10.270 or 39.10.280, public bodies may use the design-build procedure for parking garages, regardless of cost.

(3) The design-build procedure also may be used for the construction or erection of preengineered metal buildings or prefabricated modular buildings, regardless of cost and is not subject to approval by the committee.

(4) Except for utility projects, the design-build procedure may not be used to procure operations and maintenance services for a period longer than three years. State agency projects that propose to use the design-build-operate-maintain procedure shall submit cost estimates for the construction portion of the project consistent with the office of financial management's capital budget requirements. Operations and maintenance costs must be shown separately and must not be included as part of the capital budget request. [2007 c 494 § 201. Prior: 2003 c 352 § 2; 2003 c 300 § 4; 2002 c 46 § 1; 2001 c 328 § 2. Formerly RCW 39.10.051.]

**Sunset Act application:** See note following chapter digest.

**Effective date—2002 c 46:** "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately [March 14, 2002]." [2002 c 46 § 5.]

**Effective date—2001 c 328:** See note following RCW 39.10.020.

**39.10.310 Design-build procedure—Negotiated adjustments to lowest bid or proposal—When allowed.**

Notwithstanding the provisions of RCW 39.04.015, a public body using the design-build contracting procedure is authorized to negotiate an adjustment to the lowest bid or proposal price for a public works project based upon agreed changes to the contract plans and specifications under the following conditions:

- (1) All responsive bids or proposal prices exceed the available funds, as certified by an appropriate fiscal officer;
- (2) The apparent low-responsive bid or proposal does not exceed the available funds by the greater of one hundred twenty-five thousand dollars or two percent for projects valued over ten million dollars; and
- (3) The negotiated adjustment will bring the bid or proposal price within the amount of available funds. [2007 c 494 § 202; 1994 c 132 § 8. Formerly RCW 39.10.080.]

**Sunset Act application:** See note following chapter digest.

**39.10.320 Design-build procedure—Project management and contracting requirements.** (1) A public body utilizing the design-build contracting procedure shall provide for:

- (a) Reasonable budget contingencies totaling not less than five percent of the anticipated contract value;
- (b) Employment of staff or consultants with expertise and prior experience in the management of comparable projects;
- (c) Contract documents that include alternative dispute resolution procedures to be attempted prior to the initiation of litigation;
- (d) Submission of project information, as required by the board; and
- (e) Contract documents that require the contractor, subcontractors, and designers to submit project information required by the board.

(2) A public body utilizing the design-build contracting procedure may provide incentive payments to contractors for early completion, cost savings, or other goals if such payments are identified in the request for proposals. [2007 c 494 § 203; 1994 c 132 § 7. Formerly RCW 39.10.070.]

**Sunset Act application:** See note following chapter digest.

**39.10.330 Design-build contract award process.** (1) Contracts for design-build services shall be awarded through a competitive process using public solicitation of proposals for design-build services. The public body shall publish at least once in a legal newspaper of general circulation published in, or as near as possible to, that part of the county in which the public work will be done, a notice of its request for qualifications from proposers for design-build services, and the availability and location of the request for proposal documents. The request for qualifications documents shall include:

- (a) A general description of the project that provides sufficient information for proposers to submit qualifications;
  - (b) The reasons for using the design-build procedure;
  - (c) A description of the qualifications to be required of the proposer including, but not limited to, submission of the proposer's accident prevention program;
  - (d) A description of the process the public body will use to evaluate qualifications and finalists' proposals, including evaluation factors and the relative weight of factors and any specific forms to be used by the proposers;
    - (i) Evaluation factors for request for qualifications shall include, but not be limited to, technical qualifications, such as specialized experience and technical competence; capability to perform; past performance of the proposers' team, including the architect-engineer and construction members; and other appropriate factors. Alternatively, if the public body determines that all finalists will be capable of producing a design that adequately meets project requirements, the public body may award the contract to the firm that submits the responsive proposal with the lowest price;
  - (e) The form of the contract to be awarded;
  - (f) The amount to be paid to finalists submitting responsive proposals and who are not awarded a design-build contract;
  - (g) The schedule for the procurement process and the project; and
  - (h) Other information relevant to the project.
- (2) The public body shall establish an evaluation committee to evaluate the responses to the request for qualifications based on the factors, weighting, and process identified in the request for qualifications. Based on the evaluation committee's findings, the public body shall select not more than five responsive and responsible finalists to submit proposals. The public body may, in its sole discretion, reject all proposals and shall provide its reasons for rejection in writing to all proposers.
- (3) Upon selection of the finalists, the public body shall issue a request for proposals to the finalists, which shall provide the following information:
- (a) A detailed description of the project including programmatic, performance, and technical requirements and specifications; functional and operational elements; minimum and maximum net and gross areas of any building; and, at the discretion of the public body, preliminary engineering and architectural drawings; and
  - (b) The target budget for the design-build portion of the project.
- (4) The public body shall establish an evaluation committee to evaluate the proposals submitted by the finalists. Design-build contracts shall be awarded using the procedures in (a) or (b) of this subsection. The public body must identify in the request for qualifications which procedure will be used.

(a) The finalists' proposals shall be evaluated and scored based on the factors, weighting, and process identified in the initial request for qualifications and in any addenda published by the public body. Public bodies may request best and final proposals from finalists. The public body shall initiate negotiations with the firm submitting the highest scored proposal. If the public body is unable to execute a contract with the firm submitting the highest scored proposal, negotiations with that firm may be suspended or terminated and the public body may proceed to negotiate with the next highest scored firm. Public bodies shall continue in accordance with this procedure until a contract agreement is reached or the selection process is terminated.

(b) If the public body determines that all finalists are capable of producing a design that adequately meets project requirements, the public body may award the contract to the firm that submits the responsive proposal with the lowest price.

(5) The firm awarded the contract shall provide a performance and payment bond for the contracted amount. The public body shall provide appropriate honorarium payments to finalists submitting best and final proposals that are not awarded a design-build contract. Honorarium payments shall be sufficient to generate meaningful competition among potential proposers on design-build projects. In determining the amount of the honorarium, the public body shall consider the level of effort required to meet the selection criteria. [2007 c 494 § 204.]

**39.10.340 General contractor/construction manager procedure—Uses.** Subject to the process in RCW 39.10.270 or 39.10.280, public bodies may utilize the general contractor/construction manager procedure for public works projects where:

(1) Implementation of the project involves complex scheduling, phasing, or coordination;

(2) The project involves construction at an occupied facility which must continue to operate during construction;

(3) The involvement of the general contractor/construction manager during the design stage is critical to the success of the project;

(4) The project encompasses a complex or technical work environment; or

(5) The project requires specialized work on a building that has historic significance. [2007 c 494 § 301. Prior: 2003 c 352 § 3; 2003 c 300 § 5; 2002 c 46 § 2; 2001 c 328 § 3. Formerly RCW 39.10.061.]

**Sunset Act application:** See note following chapter digest.

**Effective date—2002 c 46:** See note following RCW 39.10.051.

**Effective date—2001 c 328:** See note following RCW 39.10.020.

**39.10.350 General contractor/construction manager procedure—Project management and contracting requirements.** (1) A public body using the general contractor/construction manager contracting procedure shall provide for:

(a) The preparation of appropriate, complete, and coordinated design documents;

[2007 RCW Supp—page 344]

(b) Confirmation that a constructability analysis of the design documents has been performed prior to solicitation of a subcontract bid package;

(c) Reasonable budget contingencies totaling not less than five percent of the anticipated contract value;

(d) To the extent appropriate, on-site architectural or engineering representatives during major construction or installation phases;

(e) Employment of staff or consultants with expertise and prior experience in the management of comparable projects, critical path method schedule review and analysis, and the administration, pricing, and negotiation of change orders;

(f) Contract documents that include alternative dispute resolution procedures to be attempted before the initiation of litigation;

(g) Contract documents that: (i) Obligate the public owner to accept or reject a request for equitable adjustment, change order, or claim within a specified time period but no later than sixty calendar days after the receipt by the public body of related documentation; and (ii) provide that if the public owner does not respond in writing to a request for equitable adjustment, change order, or claim within the specified time period, the request is deemed denied;

(h) Submission of project information, as required by the board; and

(i) Contract documents that require the contractor, subcontractors, and designers to submit project information required by the board.

(2) A public body using the general contractor/construction manager contracting procedure may include an incentive clause for early completion, cost savings, or other performance goals if such incentives are identified in the request for proposals. No incentives granted may exceed five percent of the maximum allowable construction cost. No incentives may be paid from any contingency fund established for coordination of the construction documents or coordination of the work.

(3) If the construction is completed for less than the maximum allowable construction cost, any savings not otherwise negotiated as part of an incentive clause shall accrue to the public body. If the construction is completed for more than the maximum allowable construction cost, the additional cost is the responsibility of the general contractor/construction manager.

(4) If the public body and the general contractor/construction manager agree, in writing, on a price for additional work, the public body must issue a change order within thirty days of the written agreement. If the public body does not issue a change order within the thirty days, interest shall accrue on the dollar amount of the additional work satisfactorily completed until a change order is issued. The public body shall pay this interest at a rate of one percent per month. [2007 c 494 § 302.]

**Sunset Act application:** See note following chapter digest.

**39.10.360 General contractor/construction manager procedure—Contract award process.** (1) Public bodies should select general contractor/construction managers early

in the life of public works projects, and in most situations no later than the completion of schematic design.

(2) Contracts for the services of a general contractor/construction manager under this section shall be awarded through a competitive process requiring the public solicitation of proposals for general contractor/construction manager services. The public solicitation of proposals shall include:

(a) A description of the project, including programmatic, performance, and technical requirements and specifications when available;

(b) The reasons for using the general contractor/construction manager procedure;

(c) A description of the qualifications to be required of the firm, including submission of the firm's accident prevention program;

(d) A description of the process the public body will use to evaluate qualifications and proposals, including evaluation factors and the relative weight of factors;

(e) The form of the contract, including any contract for preconstruction services, to be awarded;

(f) The estimated maximum allowable construction cost; and

(g) The bid instructions to be used by the general contractor/construction manager finalists.

(3) Evaluation factors for selection of the general contractor/construction [manager] shall include, but not be limited to:

(a) Ability of the firm's professional personnel;

(b) The firm's past performance in negotiated and complex projects;

(c) The firm's ability to meet time and budget requirements;

(d) The scope of work the firm proposes to self-perform and its ability to perform that work;

(e) The firm's proximity to the project location;

(f) Recent, current, and projected workloads of the firm; and

(g) The firm's approach to executing the project.

(4) A public body shall establish a committee to evaluate the proposals. After the committee has selected the most qualified finalists, these finalists shall submit final proposals, including sealed bids for the percent fee on the estimated maximum allowable construction cost and the fixed amount for the general conditions work specified in the request for proposal. The public body shall select the firm submitting the highest scored final proposal using the evaluation factors and the relative weight of factors published in the public solicitation of proposals. A public body shall not evaluate or disqualify a proposal based on the terms of a collective bargaining agreement.

(5) Public bodies may contract with the selected firm to provide services during the design phase that may include life-cycle cost design considerations, value engineering, scheduling, cost estimating, constructability, alternative construction options for cost savings, and sequencing of work, and to act as the construction manager and general contractor during the construction phase. [2007 c 494 § 303.]

**Sunset Act application:** See note following chapter digest.

**39.10.370 General contractor/construction manager procedure—Maximum allowable construction cost.** (1) The maximum allowable construction cost shall be used to establish a total contract cost for which the general contractor/construction manager shall provide a performance and payment bond. The maximum allowable construction cost shall be negotiated between the public body and the selected firm when the construction documents and specifications are at least ninety percent complete.

(2) Major bid packages may be bid in accordance with RCW 39.10.380 before agreement on the maximum allowable construction cost between the public body and the selected general contractor/construction manager. The general contractor/construction manager may issue an intent to award to the responsible bidder submitting the lowest responsive bid.

(3) The public body may, at its option, authorize the general contractor/construction manager to proceed with the bidding and award of bid packages and construction before receipt of complete project plans and specifications. Any contracts awarded under this subsection shall be incorporated in the negotiated maximum allowable construction cost.

(4) The total contract cost includes the fixed amount for the detailed specified general conditions work, the negotiated maximum allowable construction cost, the negotiated support services, and the percent fee on the negotiated maximum allowable construction cost. Negotiated support services may be included in the specified general conditions at the discretion of the public body.

(5) If the public body is unable to negotiate a satisfactory maximum allowable construction cost with the firm selected that the public body determines to be fair, reasonable, and within the available funds, negotiations with that firm shall be formally terminated and the public body shall negotiate with the next highest scored firm and continue until an agreement is reached or the process is terminated.

(6) If the maximum allowable construction cost varies more than fifteen percent from the bid estimated maximum allowable construction cost due to requested and approved changes in the scope by the public body, the percent fee shall be renegotiated. [2007 c 494 § 304.]

**Sunset Act application:** See note following chapter digest.

**39.10.380 General contractor/construction manager procedure—Subcontract bidding procedure.** (1) All subcontract work and equipment and material purchases shall be competitively bid with public bid openings. Subcontract bid packages and equipment and materials purchases shall be awarded to the responsible bidder submitting the lowest responsive bid. In preparing subcontract bid packages, the general contractor/construction manager shall not be required to violate or waive terms of a collective bargaining agreement.

(2) All subcontract bid packages in which bidder eligibility was not determined in advance shall include the specific objective criteria that will be used by the general contractor/construction manager and the public body to evaluate bidder responsibility. If the lowest bidder submitting a responsive bid is determined by the general contractor/construction manager and the public body not to be responsible, the general contractor/construction manager and the public body

must provide written documentation to that bidder explaining their intent to reject the bidder as not responsible and afford the bidder the opportunity to establish that it is a responsible bidder. Responsibility shall be determined in accordance with criteria listed in the bid documents. Protests concerning bidder responsibility determination by the general contractor/construction manager and the public body shall be in accordance with subsection (4) of this section.

(3) All subcontractors who bid work over three hundred thousand dollars shall post a bid bond. All subcontractors who are awarded a contract over three hundred thousand dollars shall provide a performance and payment bond for the contract amount. All other subcontractors shall provide a performance and payment bond if required by the general contractor/construction manager.

(4) If the general contractor/construction manager receives a written protest from a subcontractor bidder or an equipment or material supplier, the general contractor/construction manager shall not execute a contract for the subcontract bid package or equipment or material purchase order with anyone other than the protesting bidder without first providing at least two full business days' written notice to all bidders of the intent to execute a contract for the subcontract bid package. The protesting bidder must submit written notice of its protest no later than two full business days following the bid opening. Intermediate Saturdays, Sundays, and legal holidays are not counted.

(5) A low bidder who claims error and fails to enter into a contract is prohibited from bidding on the same project if a second or subsequent call for bids is made for the project.

(6) The general contractor/construction manager may negotiate with the lowest responsible and responsive bidder to negotiate an adjustment to the lowest bid or proposal price based upon agreed changes to the contract plans and specifications under the following conditions:

(a) All responsive bids or proposal prices exceed the available funds, as certified by an appropriate fiscal officer;

(b) The apparent low responsive bid or proposal does not exceed the available funds by the greater of one hundred twenty-five thousand dollars or two percent for projects valued over ten million dollars; and

(c) The negotiated adjustment will bring the bid or proposal price within the amount of available funds.

(7) If the negotiation is unsuccessful, the subcontract work or equipment or material purchases must be rebid.

(8) The general contractor/construction manager must provide a written explanation if all bids are rejected. [2007 c 494 § 305.]

**Sunset Act application:** See note following chapter digest.

**39.10.390 General contractor/construction manager procedure—Subcontract work.** (1) Except as provided in this section, bidding on subcontract work or for the supply of equipment or materials by the general contractor/construction manager or its subsidiaries is prohibited.

(2) The general contractor/construction manager, or its subsidiaries, may bid on subcontract work or for the supply of equipment or materials if:

(a) The work within the subcontract bid package or equipment or materials is customarily performed or supplied by the general contractor/construction manager;

(b) The bid opening is managed by the public body and is in compliance with RCW 39.10.380; and

(c) Notification of the general contractor/construction manager's intention to bid is included in the public solicitation of bids for the bid package or for the equipment or materials.

(3) In no event may the general contractor/construction manager or its subsidiaries purchase equipment or materials for assignment to subcontract bid package bidders for installation or warranty. The value of subcontract work performed and equipment and materials supplied by the general contractor/construction manager may not exceed thirty percent of the negotiated maximum allowable construction cost. Negotiated support services performed by the general contractor/construction manager shall not be considered subcontract work for purposes of this subsection. [2007 c 494 § 306.]

**Sunset Act application:** See note following chapter digest.

**39.10.400 General contractor/construction manager procedure—Prebid determination of subcontractor eligibility.** (1) If determination of subcontractor eligibility prior to seeking bids is in the best interest of the project and critical to the successful completion of a subcontract bid package, the general contractor/construction manager and the public body may determine subcontractor eligibility to bid. The general contractor/construction manager and the public body must:

(a) Conduct a hearing and provide an opportunity for any interested party to submit written and verbal comments regarding the justification for conducting bidder eligibility, the evaluation criteria, and weights for each criteria and sub-criteria;

(b) Publish a notice of intent to evaluate and determine bidder eligibility in a legal newspaper published in or as near as possible to that part of the county where the public work will be constructed at least fourteen calendar days before conducting a public hearing;

(c) Ensure the public hearing notice includes the date, time, and location of the hearing, a statement justifying the basis and need for performing eligibility analysis before bid opening, and specific eligibility criteria and applicable weights given to each criteria and subcriteria that will be used during evaluation;

(d) After the public hearing, consider written and verbal comments received and determine if establishing bidder eligibility in advance of seeking bids is in the best interests of the project and critical to the successful completion of a subcontract bid package; and

(e) Issue a written final determination to all interested parties. All protests of the decision to establish bidder eligibility before issuing a subcontractor bid package must be filed with the superior court within seven calendar days of the final determination. Any modifications to the eligibility criteria and weights shall be based on comments received during the public hearing process and shall be included in the final determination.

(2) Determinations of bidder eligibility shall be in accordance with the evaluation criteria and weights for each crite-

ria established in the final determination and shall be provided to interested persons upon request. Any potential bidder determined not to meet eligibility criteria must be afforded the opportunity to establish its eligibility. Protests concerning bidder eligibility determinations shall be in accordance with subsection (1) of this section. [2007 c 494 § 307.]

**Sunset Act application:** See note following chapter digest.

**39.10.410 General contractor/construction manager procedure—Subcontract agreements.** Subcontract agreements used by the general contractor/construction manager shall not:

(1) Delegate, restrict, or assign the general contractor/construction manager's implied duty not to hinder or delay the subcontractor. Nothing in this subsection (1) prohibits the general contractor/construction manager from requiring subcontractors not to hinder or delay the work of the general contractor/construction manager or other subcontractors and to hold subcontractors responsible for such damages;

(2) Delegate, restrict, or assign the general contractor/construction manager's authority to resolve subcontractor conflicts. The general contractor/construction manager may delegate or assign coordination of specific elements of the work, including: (a) The coordination of shop drawings among subcontractors; (b) the coordination among subcontractors in ceiling spaces and mechanical rooms; and (c) the coordination of a subcontractor's lower tier subcontractors. Nothing in this subsection prohibits the general contractor/construction manager from imposing a duty on its subcontractors to cooperate with the general contractor/construction manager and other subcontractors in the coordination of the work;

(3) Restrict the subcontractor's right to damages for changes to the construction schedule or work to the extent that the delay or disruption is caused by the general contractor/construction manager or entities acting for it. The general contractor/construction manager may require the subcontractor to provide notice that rescheduling or resequencing will result in delays or additional costs;

(4) Require the subcontractor to bear the cost of trade damage repair except to the extent the subcontractor is responsible for the damage. Nothing in this subsection (4) precludes the general contractor/construction manager from requiring the subcontractor to take reasonable steps to protect the subcontractor's work from trade damage; or

(5) Require the subcontractor to execute progress payment applications that waive claims for additional time or compensation or bond or retainage rights as a condition of receipt of progress payment, except to the extent the subcontractor has received or will receive payment. Nothing in this section precludes the general contractor/construction manager from requiring the subcontractor to provide notice of claims for additional time or compensation as a condition precedent to right of recovery or to execute a full and final release, including a waiver of bond and retainage rights, as a condition of final payment. [2007 c 494 § 308.]

**Sunset Act application:** See note following chapter digest.

**39.10.420 Job order procedure—Which public bodies may use—Authorized use.** (1) The following public bodies are authorized to use the job order contracting procedure:

- (a) The department of general administration;
- (b) The University of Washington;
- (c) Washington State University;
- (d) Every city with a population greater than seventy thousand and any public authority chartered by such city under RCW 35.21.730 through 35.21.755;
- (e) Every county with a population greater than four hundred fifty thousand;
- (f) Every port district with total revenues greater than fifteen million dollars per year;
- (g) Every public utility district with revenues from energy sales greater than twenty-three million dollars per year;
- (h) Every school district; and
- (i) The state ferry system.

(2) The department of general administration may issue job order contract work orders for Washington state parks department projects.

(3) Public bodies may use a job order contract for public works projects when a determination is made that the use of job order contracts will benefit the public by providing an effective means of reducing the total lead-time and cost for the construction of public works projects for repair and renovation required at public facilities through the use of unit price books and work orders by eliminating time-consuming, costly aspects of the traditional public works process, which require separate contracting actions for each small project. [2007 c 494 § 401; 2003 c 301 § 1. Formerly RCW 39.10.130.]

**Sunset Act application:** See note following chapter digest.

**39.10.430 Job order procedure—Contract award process.** (1) Job order contracts shall be awarded through a competitive process using public requests for proposals.

(2) The public body shall make an effort to solicit proposals from certified minority or certified woman-owned contractors to the extent permitted by the Washington state civil rights act, RCW 49.60.400.

(3) The public body shall publish, at least once in a statewide publication and legal newspaper of general circulation published in every county in which the public works project is anticipated, a request for proposals for job order contracts and the availability and location of the request for proposal documents. The public body shall ensure that the request for proposal documents at a minimum includes:

- (a) A detailed description of the scope of the job order contract including performance, technical requirements and specifications, functional and operational elements, minimum and maximum work order amounts, duration of the contract, and options to extend the job order contract;
- (b) The reasons for using job order contracts;
- (c) A description of the qualifications required of the proposer;
- (d) The identity of the specific unit price book to be used;
- (e) The minimum contracted amount committed to the selected job order contractor;

(f) A description of the process the public body will use to evaluate qualifications and proposals, including evaluation factors and the relative weight of factors. The public body shall ensure that evaluation factors include, but are not limited to, proposal price and the ability of the proposer to perform the job order contract. In evaluating the ability of the proposer to perform the job order contract, the public body may consider: The ability of the professional personnel who will work on the job order contract; past performance on similar contracts; ability to meet time and budget requirements; ability to provide a performance and payment bond for the job order contract; recent, current, and projected workloads of the proposer; location; and the concept of the proposal;

(g) The form of the contract to be awarded;

(h) The method for pricing renewals of or extensions to the job order contract;

(i) A notice that the proposals are subject to RCW 39.10.470; and

(j) Other information relevant to the project.

(4) A public body shall establish a committee to evaluate the proposals. After the committee has selected the most qualified finalists, the finalists shall submit final proposals, including sealed bids based upon the identified unit price book. Such bids may be in the form of coefficient markups from listed price book costs. The public body shall award the contract to the firm submitting the highest scored final proposal using the evaluation factors and the relative weight of factors published in the public request for proposals and will notify the board of the award of the contract.

(5) The public body shall provide a protest period of at least ten business days following the day of the announcement of the apparent successful proposal to allow a protester to file a detailed statement of the grounds of the protest. The public body shall promptly make a determination on the merits of the protest and provide to all proposers a written decision of denial or acceptance of the protest. The public body shall not execute the contract until two business days following the public body's decision on the protest.

(6) The requirements of RCW 39.30.060 do not apply to requests for proposals for job order contracts. [2007 c 494 § 402.]

**Sunset Act application:** See note following chapter digest.

**39.10.440 Job order procedure—Contract requirements.** (1) The maximum total dollar amount that may be awarded under a job order contract is four million dollars per year for a maximum of three years.

(2) Job order contracts may be executed for an initial contract term of not to exceed two years, with the option of extending or renewing the job order contract for one year. All extensions or renewals must be priced as provided in the request for proposals. The extension or renewal must be mutually agreed to by the public body and the job order contractor.

(3) A public body may have no more than two job order contracts in effect at any one time, with the exception of the department of general administration, which may have four job order contracts in effect at any one time.

(4) At least ninety percent of work contained in a job order contract must be subcontracted to entities other than the

job order contractor. The job order contractor must distribute contracts as equitably as possible among qualified and available subcontractors including minority and woman-owned subcontractors to the extent permitted by law.

(5) The job order contractor shall publish notification of intent to perform public works projects at the beginning of each contract year in a statewide publication and in a legal newspaper of general circulation in every county in which the public works projects are anticipated.

(6) Job order contractors shall pay prevailing wages for all work that would otherwise be subject to the requirements of chapter 39.12 RCW. Prevailing wages for all work performed pursuant to each work order must be the rates in effect at the time the individual work order is issued.

(7) If, in the initial contract term, the public body, at no fault of the job order contractor, fails to issue the minimum amount of work orders stated in the public request for proposals, the public body shall pay the contractor an amount equal to the difference between the minimum work order amount and the actual total of the work orders issued multiplied by an appropriate percentage for overhead and profit contained in the contract award coefficient for services as specified in the request for proposals. This is the contractor's sole remedy.

(8) All job order contracts awarded under this section must be signed before July 1, 2013; however the job order contract may be extended or renewed as provided for in this section.

(9) Public bodies may amend job order contracts awarded prior to July 1, 2007, in accordance with this chapter. [2007 c 494 § 403.]

**Sunset Act application:** See note following chapter digest.

**39.10.450 Job order procedure—Work orders.** (1) The maximum dollar amount for a work order is three hundred fifty thousand dollars. For each job order contract, public bodies shall not issue more than two work orders equal to or greater than three hundred thousand dollars in a twelve-month contract period.

(2) All work orders issued for the same project shall be treated as a single work order for purposes of the dollar limit on work orders.

(3) No more than twenty percent of the dollar value of a work order may consist of items of work not contained in the unit price book.

(4) Any new permanent, enclosed building space constructed under a work order shall not exceed two thousand gross square feet.

(5) A public body may issue no work orders under a job order contract until it has approved, in consultation with the office of minority and women's business enterprises or the equivalent local agency, a plan prepared by the job order contractor that equitably spreads certified women and minority business enterprise subcontracting opportunities, to the extent permitted by the Washington state civil rights act, RCW 49.60.400, among the various subcontract disciplines.

(6) For purposes of chapters 39.08, 39.12, 39.76, and 60.28 RCW, each work order issued shall be treated as a separate contract. The alternate filing provisions of RCW 39.12.040(2) apply to each work order that otherwise meets the eligibility requirements of RCW 39.12.040(2).

(7) The job order contract shall not be used for the procurement of architectural or engineering services not associated with specific work orders. Architectural and engineering services shall be procured in accordance with RCW 39.80.040. [2007 c 494 § 404.]

**Sunset Act application:** See note following chapter digest.

**39.10.460 Job order procedure—Required information to board.** A public body shall provide to the board the following information for each job order contract at the end of each contract year:

- (1) A list of work orders issued;
- (2) The cost of each work order;
- (3) A list of subcontractors hired under each work order;
- (4) If requested by the board, a copy of the intent to pay prevailing wage and the affidavit of wages paid for each work order subcontract; and
- (5) Any other information requested by the board. [2007 c 494 § 405.]

**Sunset Act application:** See note following chapter digest.

**39.10.470 Public inspection of certain records—Protection of trade secrets.** (1) Except as provided in subsection (2) of this section, all proceedings, records, contracts, and other public records relating to alternative public works transactions under this chapter shall be open to the inspection of any interested person, firm, or corporation in accordance with chapter 42.56 RCW.

(2) Trade secrets, as defined in RCW 19.108.010, or other proprietary information submitted by a bidder, offeror, or contractor in connection with an alternative public works transaction under this chapter shall not be subject to chapter 42.56 RCW if the bidder, offeror, or contractor specifically states in writing the reasons why protection is necessary, and identifies the data or materials to be protected. [2005 c 274 § 275; 1994 c 132 § 10. Formerly RCW 39.10.100.]

**39.10.480 Construction of chapter—Waiver of other limits and requirements.** This chapter shall not be construed to affect or modify the existing statutory, regulatory, or charter powers of public bodies except to the extent that a procedure authorized by this chapter is adopted by a public body for a particular public works project. In that event, the normal contracting or procurement limits or requirements of a public body as imposed by statute, ordinance, resolution, or regulation shall be deemed waived or amended only to the extent necessary to accommodate such procedures for a particular public works project. [1994 c 132 § 9. Formerly RCW 39.10.090.]

**Sunset Act application:** See note following chapter digest.

**39.10.490 Application of chapter.** The alternative public works contracting procedures authorized under this chapter are limited to public works contracts signed before July 1, 2013. Methods of public works contracting authorized under this chapter shall remain in full force and effect until completion of contracts signed before July 1, 2013.

The board may grant an exemption from any provision of chapter 494, Laws of 2007 for projects advertised before July 1, 2007. - 39.12.040 Statement of intent to pay prevailing wages, affidavit of wages paid—Alternative procedure.

**39.12.020 Prevailing rate to be paid on public works and under public building service maintenance contracts—Posting of statement of intent—Exception.** The hourly wages to be paid to laborers, workers, or mechanics, upon all public works and under all public building service maintenance contracts of the state or any county, municipality or political subdivision created by its laws, shall be not less than the prevailing rate of wage for an hour's work in the same trade or occupation in the locality within the state where such labor is performed. For a contract in excess of ten thousand dollars, a contractor required to pay the prevailing rate of wage shall post in a location readily visible to workers at the job site: PROVIDED, That on road construction, sewer line, pipeline, transmission line, street, or alley improvement projects for which no field office is needed or established, a contractor may post the prevailing rate of wage statement at the contractor's local office, gravel crushing, concrete, or asphalt batch plant as long as the contractor provides a copy of the wage statement to any employee on request:

(1) A copy of a statement of intent to pay prevailing wages approved by the industrial statistician of the department of labor and industries under RCW 39.12.040; and

(2) The address and telephone number of the industrial statistician of the department of labor and industries where a complaint or inquiry concerning prevailing wages may be made.

This chapter shall not apply to workers or other persons regularly employed by the state, or any county, municipality, or political subdivision created by its laws. [2007 c 169 § 1; 1989 c 12 § 7; 1982 c 130 § 1; 1981 c 46 § 1; 1967 ex.s. c 14 § 1; 1945 c 63 § 1; Rem. Supp. 1945 § 10322-20.]

**39.12.040 Statement of intent to pay prevailing wages, affidavit of wages paid—Alternative procedure.**

(1) Except as provided in subsection (2) of this section, before payment is made by or on behalf of the state, or any county, municipality, or political subdivision created by its laws, of any sum or sums due on account of a public works contract, it shall be the duty of the officer or person charged with the custody and disbursement of public funds to require the contractor and each and every subcontractor from the

contractor or a subcontractor to submit to such officer a "Statement of Intent to Pay Prevailing Wages". For a contract in excess of ten thousand dollars, the statement of intent to pay prevailing wages shall include:

- (a) The contractor's registration certificate number; and  
 (b) The prevailing rate of wage for each classification of workers entitled to prevailing wages under RCW 39.12.020 and the estimated number of workers in each classification.

Each statement of intent to pay prevailing wages must be approved by the industrial statistician of the department of labor and industries before it is submitted to said officer. Unless otherwise authorized by the department of labor and industries, each voucher claim submitted by a contractor for payment on a project estimate shall state that the prevailing wages have been paid in accordance with the prefiled statement or statements of intent to pay prevailing wages on file with the public agency. Following the final acceptance of a public works project, it shall be the duty of the officer charged with the disbursement of public funds, to require the contractor and each and every subcontractor from the contractor or a subcontractor to submit to such officer an "Affidavit of Wages Paid" before the funds retained according to the provisions of RCW 60.28.010 are released to the contractor. Each affidavit of wages paid must be certified by the industrial statistician of the department of labor and industries before it is submitted to said officer.

(2) As an alternate to the procedures provided for in subsection (1) of this section, for public works projects of two thousand five hundred dollars or less and for projects where the limited public works process under RCW 39.04.155(3) is followed:

(a) An awarding agency may authorize the contractor or subcontractor to submit the statement of intent to pay prevailing wages directly to the officer or person charged with the custody or disbursement of public funds in the awarding agency without approval by the industrial statistician of the department of labor and industries. The awarding agency shall retain such statement of intent to pay prevailing wages for a period of not less than three years.

(b) Upon final acceptance of the public works project, the awarding agency shall require the contractor or subcontractor to submit an affidavit of wages paid. Upon receipt of the affidavit of wages paid, the awarding agency may pay the contractor or subcontractor in full, including funds that would otherwise be retained according to the provisions of RCW 60.28.010. Within thirty days of receipt of the affidavit of wages paid, the awarding agency shall submit the affidavit of wages paid to the industrial statistician of the department of labor and industries for approval.

(c) A statement of intent to pay prevailing wages and an affidavit of wages paid shall be on forms approved by the department of labor and industries.

(d) In the event of a wage claim and a finding for the claimant by the department of labor and industries where the awarding agency has used the alternative process provided for in subsection (2) of this section, the awarding agency shall pay the wages due directly to the claimant. If the contractor or subcontractor did not pay the wages stated in the affidavit of wages paid, the awarding agency may take action at law to seek reimbursement from the contractor or subcontractor of wages paid to the claimant, and may prohibit the

contractor or subcontractor from bidding on any public works contract of the awarding agency for up to one year.

(e) Nothing in this section shall be interpreted to allow an awarding agency to subdivide any public works project of more than two thousand five hundred dollars for the purpose of circumventing the procedures required by RCW 39.12.040(1). [2007 c 210 § 4; 1991 c 15 § 1; 1982 c 130 § 2; 1981 c 46 § 2; 1975-'76 2nd ex.s. c 49 § 1; 1965 ex.s. c 133 § 3; 1945 c 63 § 4; Rem. Supp. 1945 § 10322-23.]

#### PERFORMANCE-BASED CONTRACTS FOR WATER CONSERVATION, SOLID WASTE REDUCTION, AND ENERGY EQUIPMENT

##### Sections

- 39.35A.010 Findings.
- 39.35A.020 Definitions.
- 39.35A.030 Performance-based contracts for water conservation services, solid waste reduction services, and energy equipment and services.

##### **39.35A.010 Findings.** The legislature finds that:

(1) Conserving energy and water in publicly owned buildings will have a beneficial effect on our overall supply of energy and water;

(2) Conserving energy and water in publicly owned buildings can result in cost savings for taxpayers; and

(3) Performance-based energy contracts are a means by which municipalities can achieve energy and water conservation without capital outlay.

Therefore, the legislature declares that it is the policy that a municipality may, after a competitive selection process, negotiate a performance-based energy contract with a firm that offers the best proposal. [2007 c 39 § 1; 1985 c 169 § 1.]

**39.35A.020 Definitions.** Unless the context clearly indicates otherwise, the definitions in this section shall apply throughout this chapter.

(1) "Energy equipment and services" means energy management systems and any equipment, materials, or supplies that are expected, upon installation, to reduce the energy use or energy cost of an existing building or facility, and the services associated with the equipment, materials, or supplies, including but not limited to design, engineering, financing, installation, project management, guarantees, operations, and maintenance. Reduction in energy use or energy cost may also include reductions in the use or cost of water, wastewater, or solid waste.

(2) "Energy management system" has the definition provided in RCW 39.35.030.

(3) "Municipality" has the definition provided in RCW 39.04.010.

(4) "Performance-based contract" means one or more contracts for water conservation services, solid waste reduction services, or energy equipment and services between a municipality and any other persons or entities, if the payment obligation for each year under the contract, including the year of installation, is either: (a) Set as a percentage of the annual energy cost savings, water cost savings, or solid waste cost

savings attributable under the contract; or (b) guaranteed by the other persons or entities to be less than the annual energy cost savings, water cost savings, or solid waste cost savings attributable under the contract. Such guarantee shall be, at the option of the municipality, a bond or insurance policy, or some other guarantee determined sufficient by the municipality to provide a level of assurance similar to the level provided by a bond or insurance policy.

(5) "Water conservation" means reductions in the use of water or wastewater. [2007 c 39 § 2; 2001 c 214 § 18; 1985 c 169 § 2.]

**Severability—Effective date—2001 c 214:** See notes following RCW 80.50.010.

**Findings—2001 c 214:** See note following RCW 39.35.010.

**39.35A.030 Performance-based contracts for water conservation services, solid waste reduction services, and energy equipment and services.** (1) Each municipality shall publish in advance its requirements to procure water conservation services, solid waste reduction services, or energy equipment and services under a performance-based contract. The announcement shall state concisely the scope and nature of the equipment and services for which a performance-based contract is required, and shall encourage firms to submit proposals to meet these requirements.

(2) The municipality may negotiate a fair and reasonable performance-based contract with the firm that is identified, based on the criteria that is established by the municipality, to be the firm that submits the best proposal.

(3) If the municipality is unable to negotiate a satisfactory contract with the firm that submits the best proposal, negotiations with that firm shall be formally terminated and the municipality may select another firm in accordance with this section and continue negotiation until a performance-based contract is reached or the selection process is terminated. [2007 c 39 § 3; 1985 c 169 § 3.]

#### LIFE-CYCLE COST ANALYSIS OF PUBLIC FACILITIES

##### Sections

- 39.35B.050 Life-cycle cost model and analysis—Duties of the office of financial management.

**39.35B.050 Life-cycle cost model and analysis—Duties of the office of financial management.** The office of financial management shall:

(1) Design and implement a cost-effective life-cycle cost model by October 1, 2008, based on the work completed by the joint legislative audit and review committee in January 2007 and in consultation with legislative fiscal committees;

(2) Deploy the life-cycle cost model for use by state agencies once completed and tested;

(3) Update the life-cycle cost model periodically in consultation with legislative fiscal committees;

(4) Establish clear policies, standards, and procedures regarding the use of life-cycle cost analysis by state agencies including:

(a) When state agencies must use the life-cycle cost analysis, including the types of proposed capital projects and leased facilities to which it must be applied;

(b) Procedures state agencies must use to document the results of required life-cycle cost analyses;

(c) Standards regarding the discount rate and other key model assumptions; and

(d) A process to document and justify any deviation from the standard assumptions. [2007 c 506 § 3.]

#### ENERGY CONSERVATION PROJECTS

##### Sections

39.35C.010 Definitions.

**39.35C.010 Definitions.** Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Cogeneration" means the sequential generation of two or more forms of energy from a common fuel or energy source. If these forms are electricity and thermal energy, then the operating and efficiency standards established by 18 C.F.R. Sec. 292.205 and the definitions established by 18 C.F.R. Sec. 292.202 (c) through (m) apply.

(2) "Conservation" means reduced energy consumption or energy cost, or increased efficiency in the use of energy, and activities, measures, or equipment designed to achieve such results, but does not include thermal or electric energy production from cogeneration. "Conservation" also means reductions in the use or cost of water, wastewater, or solid waste.

(3) "Cost-effective" means that the present value to a state agency or school district of the energy reasonably expected to be saved or produced by a facility, activity, measure, or piece of equipment over its useful life, including any compensation received from a utility or the Bonneville power administration, is greater than the net present value of the costs of implementing, maintaining, and operating such facility, activity, measure, or piece of equipment over its useful life, when discounted at the cost of public borrowing.

(4) "Energy" means energy as defined in RCW 43.21F.025(1).

(5) "Energy audit" has the definition provided in RCW 43.19.670, and may include a determination of the water or solid waste consumption characteristics of a facility.

(6) "Energy efficiency project" means a conservation or cogeneration project.

(7) "Energy efficiency services" means assistance furnished by the department to state agencies and school districts in identifying, evaluating, and implementing energy efficiency projects.

**39.42.070 Computation of general state revenues—Filing of certificate—Estimate of debt capacity.** (*Effective if the proposed amendment to Article XVI of the state Constitution is approved at the November 2007 general election.*)

(1) On or after \*the effective date of this act, the treasurer shall compute general state revenues for the three fiscal years immediately preceding such date and shall determine the arithmetic mean thereof. As soon as is practicable after the close of each fiscal year thereafter, he or she shall do likewise. In determining the amount of general state revenues, the treasurer shall include all state money received in the treasury from each and every source whatsoever except: (a) Fees and revenues derived from the ownership or operation of any undertaking, facility or project; (b) moneys received as gifts, grants, donations, aid or assistance or otherwise from the United States or any department, bureau or corporation thereof, or any person, firm or corporation, public or private, when the terms and conditions of such gift, grant, donation, aid or assistance require the application and disbursement of such moneys otherwise than for the general purposes of the state of Washington; (c) moneys to be paid into and received from retirement system funds, and performance bonds and deposits; (d) moneys to be paid into and received from trust

funds including but not limited to moneys received from taxes levied for specific purposes and the several permanent funds of the state and the moneys derived therefrom but excluding bond redemption funds; (e) proceeds received from the sale of bonds or other evidences of indebtedness. Upon computing general state revenues, the treasurer shall make and file in the office of the secretary of state, a certificate containing the results of such computations. Copies of said certificate shall be sent to each elected official of the state and each member of the legislature. The treasurer shall, at the same time, advise each elected official and each member of the legislature of the current available debt capacity of the state, and may make estimated projections for one or more years concerning debt capacity.

(2) For purposes of this chapter, general state revenues shall also include revenues that are deposited in the general fund under RCW 82.45.180(2), lottery revenues as provided in RCW 67.70.240(3), revenues paid into the general fund under RCW 84.52.067, and revenues deposited into the student achievement fund and distributed to school districts as provided in RCW 84.52.068. [2007 c 215 § 2; 2003 1st sp.s. c 9 § 1; 2002 c 240 § 8; 1971 ex.s. c 184 § 7.]

**\*Reviser's note:** For "the effective date of this act," see RCW 39.42.900.

**Finding—Intent—2007 c 215:** "The legislature finds that after passage of a constitutional amendment (\*House Joint Resolution No. 4215 or Senate Joint Resolution No. 8220), the state investment board will be permitted in accordance with RCW 43.33A.140 to invest a portion of the higher education permanent funds in equities. The legislature further recognizes that by investing in equities, the value of the higher education permanent funds may fluctuate over time due to market changes even if no disposition of the fund principal is made. The removal of the word "irreducible" in this act, describing the higher education permanent funds, is needed to clarify that the mere reduction in market value of a permanent fund due to such fluctuations would not violate the mandate of the statute. It is the intent of the legislature to clarify state law to permit equity investment of higher education permanent funds even if there is a decline in the value of a permanent fund due to market changes. It is not the intent of the legislature to change the requirement that unless otherwise allowed by law the principal amounts in the higher education permanent funds are to be held in perpetuity for the benefit of the designated institutions and future generations, and that only the earnings from a higher education permanent fund may be appropriated to support the benefited institution." [2007 c 215 § 1.]

**\*Reviser's note:** House Joint Resolution No. 4215 passed the legislature on April 11, 2007.

**Contingent effective date—2007 c 215:** "This act takes effect if the proposed amendment to Article XVI of the state Constitution regarding investment of certain state moneys is validly submitted to and is approved and ratified by the voters at the next general election. If the proposed amendment is not approved and ratified, this act is void in its entirety." [2007 c 215 § 10.]

**Severability—Effective date—2002 c 240:** See RCW 43.99G.902 and 43.99G.903.

**39.42.090 Certificates of indebtedness—Issued, when—Retirement.** (*Effective if the proposed amendment to Article XVI of the state Constitution is approved at the November 2007 general election.*) The state finance committee may issue certificates of indebtedness in such sum or sums that may be necessary to meet temporary deficiencies of the treasury. Such certificates may be issued only to provide for the appropriations already made by the legislature and such certificates must be retired and the debt discharged other than by refunding within twelve months after the date of issuance.

For the purposes of this section, the state treasury shall include all statutorily established funds and accounts except for any of the permanent funds of the state treasury. [2007 c 215 § 3; 1985 c 57 § 21; 1971 ex.s. c 184 § 9.]

**Finding—2007 c 266:** "The legislature finds that local governments need flexible financing for public improvements that do not increase the combined state and local sales tax rate." [2007 c 266 § 1.]

**Effective date—2007 c 266:** "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect July 1, 2007." [2007 c 266 § 11.]

**39.100.020 Conditions for financing public improvements.** A local government may finance public improvements using hospital benefit zone financing subject to the following conditions:

(b) Increase employment within the benefit zone; and

(c) Generate, over the period of time that the local sales and use tax will be imposed under RCW 82.14.465, excess state excise taxes that are equal to or greater than the state contributions made under this chapter;

(5) The boundaries of a hospital benefit zone may not overlap any part of the boundaries of another hospital benefit zone or a revenue development area defined in chapter 39.102 RCW; and

(6) The boundaries of a hospital benefit zone may not change once the hospital benefit zone is established and approved by the department. [2007 c 266 § 3; 2006 c 111 § 2.]

[2007 RCW Supp—page 354]

**39.100.030 Benefit zone creation—Agreement, hearing, and notice requirements—Ordinance requirements.**

(1) Before adopting an ordinance creating the benefit zone, a local government must:

(a) Obtain written agreement for the use of hospital benefit zone financing to finance all or a portion of the costs of the designated public improvements from any taxing authority that imposes a sales or use tax under chapter 82.14 RCW within the benefit zone if the taxing authority chooses to participate in the public improvements to the extent of providing limited funding under hospital benefit zone financing authorized under this chapter. The agreement must be authorized by the governing body of such participating taxing authorities; and

(b) Hold a public hearing on the proposed financing of the public improvement in whole or in part with hospital benefit zone financing.

(i) Notice of the public hearing must be published in a legal newspaper of general circulation within the proposed benefit zone at least ten days before the public hearing and posted in at least six conspicuous public places located in the proposed benefit zone.

(ii) Notices must describe the contemplated public improvements, estimate the costs of the public improvements, describe the portion of the costs of the public improvements to be borne by hospital benefit zone financing, describe any other sources of revenue to finance the public improvements, describe the boundaries of the proposed benefit zone, and estimate the period during which hospital benefit zone financing is contemplated to be used. The public hearing may be held by either the governing body of the local government, or a committee of the governing body that includes at least a majority of the whole governing body.

(a) Describes the public improvements;

(b) Describes the boundaries of the benefit zone;

(c) Estimates the cost of the public improvements and the portion of these costs to be financed by hospital benefit zone financing;

(d) Estimates the time during which excess local excise taxes are to be used to finance public improvement costs associated with the public improvements financed in whole or in part by hospital benefit zone financing;

zone under this chapter shall, within ninety days of adopting the ordinance:

(b) Deliver a certified copy of the ordinance to the county treasurer, the county assessor, the department of revenue, and the governing body of each participating taxing authority within which the benefit zone is located.

(2) Any challenge to the formation shall be brought within sixty days of the later of the date of its formation or July 1, 2007. All parties, including the holders of bonds payable from tax revenue under chapter 266, Laws of 2007, may rely upon the presumption of validity of formation of the benefit zone following the expiration of the sixty-day period. [2007 c 266 § 5; 2006 c 111 § 4.]

**Finding—Application—Effective date—2007 c 266:** See notes following RCW 39.100.010.

**39.100.050 Use of excess local excise tax—Boundary information—Definitions.** (1) A local government that creates a benefit zone and has received approval from the department under RCW 82.32.700 to impose the local option sales and use tax authorized in RCW 82.14.465 may use annually any excess local excise taxes received by it from taxable activity within the benefit zone to finance public improvement costs associated with the public improvements financed in whole or in part by hospital benefit zone financing. The use of excess local excise taxes must cease when tax allocation revenues are no longer necessary or obligated to pay the costs of the public improvements. Any participating taxing authority is authorized to allocate excess local excise taxes to the local government as long as the local government has received approval from the department under RCW 82.32.700 to impose the local option sales and use tax authorized in RCW 82.14.465. The legislature declares that it is a proper purpose of a local government or participating taxing authority to allocate excess local excise taxes for purposes of financing public improvements under this chapter.

(2) A local government shall provide the department accurate information describing the geographical boundaries of the benefit zone at least seventy-five days before the effective date of the ordinance creating the benefit zone. The local government shall ensure that the boundary information provided to the department is kept current.

(3) The department shall provide the necessary information to calculate excess local excise taxes to each local government that has provided boundary information to the department as provided in this section and that has received approval from the department under RCW 82.32.700 to impose the local option sales and use tax authorized in RCW 82.14.465.

(4) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Base year" means the calendar year immediately following the creation of a benefit zone.

(b) "Excess local excise taxes" means the amount of local excise taxes received by the local government during

the measurement year from taxable activity within the benefit zone over and above the amount of local excise taxes received by the local government during the base year from taxable activity within the benefit zone. However, if a local government creates the benefit zone and reasonably determines that no activity subject to tax under chapters 82.08 and 82.12 RCW occurred in the twelve months immediately preceding the creation of the benefit zone within the boundaries of the area that became the benefit zone, "excess local excise taxes" means the entire amount of local excise taxes received by the local government during a calendar year period beginning with the calendar year immediately following the creation of the benefit zone and continuing with each measurement year thereafter.

(c) "Local excise taxes" means local revenues derived from the imposition of sales and use taxes authorized in RCW 82.14.030 at the tax rate that was in effect at the time the hospital benefit zone is approved by the department, except that if a local government reduces the rate of such tax after the revenue development area was approved, "local excise taxes" means the local revenues derived from the imposition of the sales and use taxes authorized in RCW 82.14.030 at the lower tax rate.

(d) "Measurement year" means a calendar year, beginning with the calendar year following the base year and each calendar year thereafter, that is used annually to measure the amount of excess state excise taxes and excess local excise taxes required to be used to finance public improvement costs associated with public improvements financed in whole or in part by hospital benefit zone financing. [2007 c 266 § 6; 2006 c 111 § 5.]

**Finding—Application—Effective date—2007 c 266:** See notes following RCW 39.100.010.

(2) The sponsoring local government, and any cosponsoring local government, must hold a public hearing on the proposed financing of the public improvements in whole or in part with local infrastructure financing before passage of the ordinance establishing the revenue development area. The public hearing may be held by either the governing body of the sponsoring local government and the governing body of any cosponsoring local government, or by a committee of those governing bodies that includes at least a majority of the whole governing body or bodies. The public hearing is subject to the notice requirements in RCW 39.102.100.

(3) The sponsoring local government, and any cosponsoring local government, shall deliver a certified copy of the adopted ordinance to the county treasurer, the governing body of each participating local government and participating taxing district within which the revenue development area is located, the board, and the department. **Application—Severability—Expiration date—2007 c 229:** See notes following RCW 39.102.020.

**39.102.110 Local excise tax allocation revenues. (Expires June 30, 2039.)** (1) A sponsoring local government or participating local government that has received approval by the board to use local infrastructure financing may use annually its local excise tax allocation revenues to finance public improvements in the revenue development area financed in whole or in part by local infrastructure financing. The use of local excise tax allocation revenues dedicated by participating local governments must cease on the date specified in the written agreement required in RCW 39.102.080(1), or if no date is specified then the date when the local tax under RCW 82.14.475 expires. (2) A sponsoring local government shall provide the board accurate information describing the geographical boundaries of the revenue development area at the time of

(3) In the event a city annexes a county area located within a county-sponsored revenue development area, the city shall remit to the county the portion of the local excise tax allocation revenue that the county would have received had the area not been annexed to the county. **Application—Severability—Expiration date—2007 c 229:** See notes following RCW 39.102.020.

**39.102.120 Local property tax allocation revenues. (Expires June 30, 2039.)** (1) Commencing in the second calendar year following board approval of a revenue development area, the county treasurer shall distribute receipts from regular taxes imposed on real property located in the revenue development area as follows:

(a) Each participating taxing district and the sponsoring local government shall receive that portion of its regular property taxes produced by the rate of tax levied by or for the taxing district on the property tax allocation revenue base value for that local infrastructure financing project in the taxing district, or upon the total assessed value of real property in the taxing district, whichever is smaller; and

(b) The sponsoring local government shall receive an additional portion of the regular property taxes levied by it and by or for each participating taxing district upon the property tax allocation revenue value within the revenue development area. However, if there is no property tax allocation revenue value, the sponsoring local government shall not receive any additional regular property taxes under this subsection (1)(b). The sponsoring local government may agree to receive less than the full amount of the additional portion of regular property taxes under this subsection (1)(b) as long as bond debt service, reserve, and other bond covenant requirements are satisfied, in which case the balance of these tax receipts shall be allocated to the participating taxing districts that levied regular property taxes, or have regular property taxes levied for them, in the revenue development area for collection that year in proportion to their regular tax levy rates for collection that year. The sponsoring local government may request that the treasurer transfer this additional portion of the property taxes to its designated agent. The portion of the tax receipts distributed to the sponsoring local government or its agent under this subsection (1)(b) may only be expended to finance public improvement costs associated with the public improvements financed in whole or in part by local infrastructure financing.

(2) The county assessor shall allocate any increase in the assessed value of real property occurring in the revenue development area to the property tax allocation revenue value and property tax allocation revenue base value as appropriate. This section does not authorize revaluations of real property by the assessor for property taxation that are not made in accordance with the assessor's revaluation plan under chapter

84.41 RCW or under other authorized revaluation procedures.

(3) The apportionment of increases in assessed valuation in a revenue development area, and the associated distribution to the sponsoring local government of receipts from regular property taxes that are imposed on the property tax allocation revenue value, must cease when property tax allocation revenues are no longer obligated to pay the costs of the public improvements. Any excess local property tax allocation revenues derived from regular property taxes and earnings on these tax allocation revenues, remaining at the time the allocation of tax receipts terminates, must be returned to the county treasurer and distributed to the participating taxing districts that imposed regular property taxes, or had regular property taxes imposed for it, in the revenue development area for collection that year, in proportion to the rates of their regular property tax levies for collection that year.

(4) The allocation to the revenue development area of portions of the local regular property taxes levied by or for each taxing district upon the property tax allocation revenue value within that revenue development area is declared to be a public purpose of and benefit to each such taxing district.

(5) The allocation of local property tax allocation revenues pursuant to this section shall not affect or be deemed to affect the rate of taxes levied by or within any taxing district or the consistency of any such levies with the uniformity requirement of Article VII, section 1 of the state Constitution.

(6) This section does not apply to those revenue development areas that include any part of an increment area created under chapter 39.89 RCW. [2007 c 229 § 7; 2006 c 181 § 302.]

[2007 c 229 § 11; 2006 c 181 § 402.]

(a) The ordinance adopted by the sponsoring local government and authorizing the use of local infrastructure financing indicates an intent to incur this indebtedness and the maximum amount of this indebtedness that is contemplated; and

(b) The sponsoring local government includes this statement of the intent in all notices required by RCW 39.102.100.

(2)(a) Except as provided in (b) of this subsection, the general indebtedness incurred under subsection (1) of this section may be payable from other tax revenues, the full faith and credit of the local government, and nontax income, revenues, fees, and rents from the public improvements, as well as contributions, grants, and nontax money available to the local government for payment of costs of the public improvements or associated debt service on the general indebtedness.

(3) In addition to the requirements in subsection (1) of this section, a sponsoring local government designating a revenue development area and authorizing the use of local infrastructure financing may require the nonpublic participant to provide adequate security to protect the public investment in the public improvement within the revenue development area.

[2007 RCW Supp—page 362]

The local government may also annually pay into the fund established in this section a fixed proportion or a fixed amount of any revenues derived from taxes imposed under RCW 82.14.475, such payment to continue until all bonds payable from the fund are paid in full. Revenues derived from taxes imposed under RCW 82.14.475 are subject to the use restriction in RCW 39.102.130.

(6) In case any of the public officials of the sponsoring local government whose signatures appear on any bonds or any coupons issued under this chapter shall cease to be such officials before the delivery of such bonds, such signatures shall, nevertheless, be valid and sufficient for all purposes, the same as if such officials had remained in office until such delivery. (a)(i) The employee suffers from, or has a relative or household member suffering from, an illness, injury, impairment, or physical or mental condition which is of an extraordinary or severe nature;

(b) The illness, injury, impairment, condition, call to service, or emergency volunteer service has caused, or is likely to cause, the employee to:

(i) Go on leave without pay status; or

(ii) Terminate state employment;

(c) The employee's absence and the use of shared leave are justified;

(d) The employee has depleted or will shortly deplete his or her:

(i) Annual leave and sick leave reserves if he or she qualifies under (a)(i) of this subsection;

(2) The agency head shall determine the amount of leave, if any, which an employee may receive under this section. However, an employee shall not receive a total of more than two hundred sixty-one days of leave.

(3) An employee may transfer annual leave, sick leave, and his or her personal holiday, as follows:

(a) An employee who has an accrued annual leave balance of more than ten days may request that the head of the agency for which the employee works transfer a specified amount of annual leave to another employee authorized to receive leave under subsection (1) of this section. In no event may the employee request a transfer of an amount of leave that would result in his or her annual leave account going below ten days. For purposes of this subsection (3)(a), annual leave does not accrue if the employee receives compensation in lieu of accumulating a balance of annual leave.

(b) An employee may transfer a specified amount of sick leave to an employee requesting shared leave only when the donating employee retains a minimum of one hundred seventy-six hours of sick leave after the transfer.

(c) An employee may transfer, under the provisions of this section relating to the transfer of leave, all or part of his or her personal holiday, as that term is defined under RCW 1.16.050, or as such holidays are provided to employees by agreement with a school district's board of directors if the leave transferred under this subsection does not exceed the amount of time provided for personal holidays under RCW 1.16.050.

In no event may such an employee request a transfer that would result in his or her sick leave account going below twenty-two days. Transfers of sick leave under this subsection are limited to transfers from employees who do not accrue annual leave. Under this subsection, "sick leave" also includes leave accrued pursuant to RCW 28A.400.300(2) or 28A.310.240(1) with compensation for illness, injury, and emergencies.

(5) Transfers of leave made by an agency head under subsections (3) and (4) of this section shall not exceed the requested amount.

(6) Leave transferred under this section may be transferred from employees of one agency to an employee of the same agency or, with the approval of the heads of both agencies, to an employee of another state agency. However, leave transferred to or from employees of school districts or educational service districts is limited to transfers to or from employees within the same employing district.

(7) While an employee is on leave transferred under this section, he or she shall continue to be classified as a state employee and shall receive the same treatment in respect to salary, wages, and employee benefits as the employee would normally receive if using accrued annual leave or sick leave.

(a) All salary and wage payments made to employees while on leave transferred under this section shall be made by the agency employing the person receiving the leave. The value of leave transferred shall be based upon the leave value of the person receiving the leave.

(ii) The office of financial management may adjust the appropriation authority of an agency receiving funds under this section only if and to the extent that the agency's existing appropriation authority would prevent it from expending the funds received.

(iii) Where any questions arise in the transfer of funds or the adjustment of appropriation authority, the director of financial management shall determine the appropriate transfer or adjustment.

(8) Leave transferred under this section shall not be used in any calculation to determine an agency's allocation of full time equivalent staff positions.

Before the agency head makes a determination to return unused leave in connection with an illness or injury, or any other qualifying condition, he or she must receive from the affected employee a statement from the employee's doctor verifying that the illness or injury is resolved. To the extent administratively feasible, the value of unused leave which was transferred by more than one employee shall be returned on a pro rata basis.

(10) An employee who uses leave that is transferred to him or her under this section may not be required to repay the value of the leave that he or she used. [2007 c 454 § 1; 2003 1st sp.s. c 12 § 3; 1999 c 25 § 1; 1996 c 176 § 1; 1990 c 23 § 2; 1989 c 93 § 4.]

**41.05.021 State health care authority—Administrator—Cost control and delivery strategies—Health information technology—Managed competition. (Effective January 1, 2009.)** (1) The Washington state health care authority is created within the executive branch. The authority shall have an administrator appointed by the governor, with the consent of the senate. The administrator shall serve at the pleasure of the governor. The administrator may employ up to seven staff members, who shall be exempt from chapter 41.06 RCW, and any additional staff members as are necessary to administer this chapter. The administrator may delegate any power or duty vested in him or her by this chapter, including authority to make final decisions and enter final orders in hearings conducted under chapter 34.05 RCW. The primary duties of the authority shall be to: Administer state employees' insurance benefits and retired or disabled school employees' insurance benefits; administer the basic health plan pursuant to chapter 70.47 RCW; study state-purchased health care programs in order to maximize cost containment in these programs while ensuring access to quality health care; implement state initiatives, joint purchasing strategies, and techniques for efficient administration that have potential application to all state-purchased health services; and administer grants that further the mission and goals of the authority.

The authority's duties include, but are not limited to, the following:

(a) To administer health care benefit programs for employees and retired or disabled school employees as specifically authorized in RCW 41.05.065 and in accordance with the methods described in RCW 41.05.075, 41.05.140, and other provisions of this chapter;

(b) To analyze state-purchased health care programs and to explore options for cost containment and delivery alternatives for those programs that are consistent with the purposes of those programs, including, but not limited to:

(i) Creation of economic incentives for the persons for whom the state purchases health care to appropriately utilize and purchase health care services, including the development of flexible benefit plans to offset increases in individual financial responsibility;

(ii) Utilization of provider arrangements that encourage cost containment, including but not limited to prepaid delivery systems, utilization review, and prospective payment methods, and that ensure access to quality care, including assuring reasonable access to local providers, especially for employees residing in rural areas;

(iii) Coordination of state agency efforts to purchase drugs effectively as provided in RCW 70.14.050;

(iv) Development of recommendations and methods for purchasing medical equipment and supporting services on a volume discount basis;

(v) Development of data systems to obtain utilization data from state-purchased health care programs in order to identify cost centers, utilization patterns, provider and hospital practice patterns, and procedure costs, utilizing the information obtained pursuant to RCW 41.05.031; and

(vi) In collaboration with other state agencies that administer state purchased health care programs, private health care purchasers, health care facilities, providers, and carriers:

(A) Use evidence-based medicine principles to develop common performance measures and implement financial incentives in contracts with insuring entities, health care facilities, and providers that:

(I) Reward improvements in health outcomes for individuals with chronic diseases, increased utilization of appropriate preventive health services, and reductions in medical errors; and

(II) Increase, through appropriate incentives to insuring entities, health care facilities, and providers, the adoption and use of information technology that contributes to improved health outcomes, better coordination of care, and decreased medical errors;

(B) Through state health purchasing, reimbursement, or pilot strategies, promote and increase the adoption of health information technology systems, including electronic medical records, by hospitals as defined in RCW 70.41.020(4), integrated delivery systems, and providers that:

(I) Facilitate diagnosis or treatment;

(II) Reduce unnecessary duplication of medical tests;

(III) Promote efficient electronic physician order entry;

(IV) Increase access to health information for consumers and their providers; and

(V) Improve health outcomes;

(C) Coordinate a strategy for the adoption of health information technology systems using the final health information technology report and recommendations developed under chapter 261, Laws of 2005;

(c) To analyze areas of public and private health care interaction;

(d) To provide information and technical and administrative assistance to the board;

(e) To review and approve or deny applications from counties, municipalities, and other political subdivisions of the state to provide state-sponsored insurance or self-insurance programs to their employees in accordance with the provisions of RCW 41.04.205 and (g) of this subsection, setting the premium contribution for approved groups as outlined in RCW 41.05.050;

(f) To review and approve or deny the application when the governing body of a tribal government applies to transfer their employees to an insurance or self-insurance program administered under this chapter. In the event of an employee transfer pursuant to this subsection (1)(f), members of the governing body are eligible to be included in such a transfer if the members are authorized by the tribal government to participate in the insurance program being transferred from and subject to payment by the members of all costs of insurance for the members. The authority shall: (i) Establish the conditions for participation; (ii) have the sole right to reject the application; and (iii) set the premium contribution for approved groups as outlined in RCW 41.05.050. Approval of the application by the authority transfers the employees and dependents involved to the insurance, self-insurance, or health care program approved by the authority;

(g) To ensure the continued status of the employee insurance or self-insurance programs administered under this chapter as a governmental plan under section 3(32) of the employee retirement income security act of 1974, as amended, the authority shall limit the participation of employees of a county, municipal, school district, educational service district, or other political subdivision, or a tribal government, including providing for the participation of those employees whose services are substantially all in the performance of essential governmental functions, but not in the performance of commercial activities;

(h) To establish billing procedures and collect funds from school districts in a way that minimizes the administrative burden on districts;

(i) To publish and distribute to nonparticipating school districts and educational service districts by October 1st of each year a description of health care benefit plans available through the authority and the estimated cost if school districts and educational service district employees were enrolled;

- (a) Standardizing the benefit package;
- (b) Soliciting competitive bids for the benefit package;
- (c) Limiting the state's contribution to a percent of the lowest priced qualified plan within a geographical area;
- (d) Monitoring the impact of the approach under this subsection with regards to: Efficiencies in health service delivery, cost shifts to subscribers, access to and choice of managed care plans statewide, and quality of health services. **41.05.023 Chronic care management program—Uniform medical plan—Definitions.** (1) The health care authority, in collaboration with the department of health, shall design and implement a chronic care management program for state employees enrolled in the state's self-insured uniform medical plan. Programs must be evidence based, facilitating the use of information technology to improve quality of care and must improve coordination of primary, acute, and long-term care for those enrollees with multiple chronic conditions. The authority shall consider expansion of existing medical home and chronic care management programs. The authority shall use best practices in identifying those employees best served under a chronic care management model using predictive modeling through claims or other health risk information.

(2) For purposes of this section:

(a) "Medical home" means a site of care that provides comprehensive preventive and coordinated care centered on

the patient needs and assures high-quality, accessible, and efficient care.

(b) "Chronic care management" means the authority's program that provides care management and coordination activities for health plan enrollees determined to be at risk for high medical costs. "Chronic care management" provides education and training and/or coordination that assist program participants in improving self-management skills to improve health outcomes and reduce medical costs by educating clients to better utilize services. [2007 c 259 § 6.]

**Severability—Subheadings not law—2007 c 259:** See notes following RCW 41.05.033.

**41.05.029 Washington state quality forum—Established—Duties.** The Washington state quality forum is established within the authority. In collaboration with the Puget Sound health alliance and other local organizations, the forum shall:

(1) Collect and disseminate research regarding health care quality, evidence-based medicine, and patient safety to promote best practices, in collaboration with the technology assessment program and the prescription drug program;

(2) Coordinate the collection of health care quality data among state health care purchasing agencies;

(3) Adopt a set of measures to evaluate and compare health care cost and quality and provider performance;

**Severability—Subheadings not law—2007 c 259:** See notes following RCW 41.05.033.

**41.05.033 Shared decision-making demonstration project—Preference-sensitive care.** (1) The legislature finds that there is growing evidence that, for preference-sensitive care involving elective surgery, patient-practitioner communication is improved through the use of high-quality decision aids that detail the benefits, harms, and uncertainty of available treatment options. Improved communication leads to more fully informed patient decisions. The legislature intends to increase the extent to which patients make genuinely informed, preference-based treatment decisions, by promoting public/private collaborative efforts to broaden the development, certification, use, and evaluation of effective decision aids and by recognition of shared decision making and patient decision aids in the state's laws on informed consent.

(2) The health care authority shall implement a shared decision-making demonstration project. The demonstration project shall be conducted at one or more multispecialty group practice sites providing state purchased health care in the state of Washington, and may include other practice sites providing state purchased health care. The demonstration project shall include the following elements:

(a) Incorporation into clinical practice of one or more decision aids for one or more identified preference-sensitive care areas combined with ongoing training and support of

involved practitioners and practice teams, preferably at sites with necessary supportive health information technology;

(b) An evaluation of the impact of the use of shared decision making with decision aids, including the use of preference-sensitive health care services selected for the demonstration project and expenditures for those services, the impact on patients, including patient understanding of the treatment options presented and concordance between patient values and the care received, and patient and practitioner satisfaction with the shared decision-making process; and

(c) As a condition of participating in the demonstration project, a participating practice site must bear the cost of selecting, purchasing, and incorporating the chosen decision aids into clinical practice.

(3) The health care authority may solicit and accept funding and in-kind contributions to support the demonstration and evaluation, and may scale the evaluation to fall within resulting resource parameters. [2007 c 259 § 2.]

**Severability—2007 c 259:** "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [2007 c 259 § 68.]

**41.05.035 Exchange of health information—Pilot—Advisory board, discretionary—Administrator's authority.** (1) The administrator shall design and pilot a consumer-centric health information infrastructure and the first health record banks that will facilitate the secure exchange of health information when and where needed and shall:

(a) Complete the plan of initial implementation, including but not limited to determining the technical infrastructure for health record banks and the account locator service, setting criteria and standards for health record banks, and determining oversight of health record banks;

(b) Implement the first health record banks in pilot sites as funding allows;

(c) Involve health care consumers in meaningful ways in the design, implementation, oversight, and dissemination of information on the health record bank system; and

(d) Promote adoption of electronic medical records and health information exchange through continuation of the Washington health information collaborative, and by working with private payors and other organizations in restructuring reimbursement to provide incentives for providers to adopt electronic medical records in their practices.

(2) The administrator may establish an advisory board, a stakeholder committee, and subcommittees to assist in carrying out the duties under this section. The administrator may reappoint health information infrastructure advisory board members to assure continuity and shall appoint any additional representatives that may be required for their expertise and experience.

(a) The administrator shall appoint the chair of the advisory board, chairs, and co-chairs of the stakeholder committee, if formed;

(b) Meetings of the board, stakeholder committee, and any advisory group are subject to chapter 42.30 RCW, the open public meetings act, including RCW 42.30.110(1)(l), which authorizes an executive session during a regular or

special meeting to consider proprietary or confidential non-published information; and

(c) The members of the board, stakeholder committee, and any advisory group:

(i) Shall agree to the terms and conditions imposed by the administrator regarding conflicts of interest as a condition of appointment;

(ii) Are immune from civil liability for any official acts performed in good faith as members of the board, stakeholder committee, or any advisory group.

(3) Members of the board may be compensated for participation in accordance with a personal services contract to be executed after appointment and before commencement of activities related to the work of the board. Members of the stakeholder committee shall not receive compensation but shall be reimbursed under RCW 43.03.050 and 43.03.060.

(4) The administrator may work with public and private entities to develop and encourage the use of personal health records which are portable, interoperable, secure, and respectful of patients' privacy.

(5) The administrator may enter into contracts to issue, distribute, and administer grants that are necessary or proper to carry out this section. [2007 c 259 § 10.]

[2007 c 259 § 15.]

**41.05.050 Contributions for employees and dependents. (Effective January 1, 2009.)** (1) Every: (a) Department, division, or separate agency of state government; (b) county, municipal, school district, educational service district, or other political subdivisions; and (c) tribal governments as are covered by this chapter, shall provide contributions to insurance and health care plans for its employees and their dependents, the content of such plans to be determined by the authority. Contributions, paid by the county, the municipality, other political subdivision, or a tribal government for their employees, shall include an amount determined by the authority to pay such administrative expenses of the authority as are necessary to administer the plans for employees of those groups, except as provided in subsection (4) of this section.

(2) If the authority at any time determines that the participation of a county, municipal, other political subdivision, or a tribal government covered under this chapter adversely impacts insurance rates for state employees, the authority shall implement limitations on the participation of additional county, municipal, other political subdivisions, or a tribal government.

(3) The contributions of any: (a) Department, division, or separate agency of the state government; (b) county, municipal, or other political subdivisions; and (c) any tribal

government as are covered by this chapter, shall be set by the authority, subject to the approval of the governor for availability of funds as specifically appropriated by the legislature for that purpose. Insurance and health care contributions for ferry employees shall be governed by RCW 47.64.270.

(4)(a) Beginning September 1, 2003, the authority shall collect from each participating school district and educational service district an amount equal to the composite rate charged to state agencies, plus an amount equal to the employee premiums by plan and family size as would be charged to state employees, for groups of district employees enrolled in authority plans as of January 1, 2003. However, during the 2005-07 fiscal biennium, the authority shall collect from each participating school district and educational service district an amount equal to the insurance benefit allocations provided in section 504, chapter 518, Laws of 2005, plus any additional funding provided by the legislature for school employee health benefits, plus an amount equal to the employee premiums by plan and family size as would be charged to state employees, for groups of district employees enrolled in authority plans as of July 1, 2005.

(b) For all groups of district employees enrolling in authority plans for the first time after September 1, 2003, the authority shall collect from each participating school district an amount equal to the composite rate charged to state agencies, plus an amount equal to the employee premiums by plan and by family size as would be charged to state employees, only if the authority determines that this method of billing the districts will not result in a material difference between revenues from districts and expenditures made by the authority on behalf of districts and their employees.

(c) If the authority determines at any time that the conditions in (b) of this subsection cannot be met, the authority shall offer enrollment to additional groups of district employees on a tiered rate structure until such time as the authority determines there would be no material difference between revenues and expenditures under a composite rate structure for all district employees enrolled in authority plans.

(d) The authority may charge districts a one-time set-up fee for employee groups enrolling in authority plans for the first time.

(e) For the purposes of this subsection:

(i) "District" means school district and educational service district; and

(ii) "Tiered rates" means the amounts the authority must pay to insuring entities by plan and by family size.

(f) Notwithstanding this subsection and RCW 41.05.065(3), the authority may allow districts enrolled on a tiered rate structure prior to September 1, 2002, to continue participation based on the same rate structure and under the same conditions and eligibility criteria.

(5) The authority shall transmit a recommendation for the amount of the employer contribution to the governor and the director of financial management for inclusion in the proposed budgets submitted to the legislature. **41.05.053 Community and technical colleges—Part-time academic employees—Continuous health care eligibility—Employer contributions.** (1) Part-time academic employees, as defined in RCW 28B.50.489, who have established eligibility as determined from the payroll records of the employing community or technical college districts, for employer contributions for benefits under this chapter and who have worked an average of half-time or more in each of the two preceding academic years, through employment at one or more community or technical college districts, are eligible for continuation of employer contributions for the subsequent summer quarter period including the break between summer and fall quarters.

(2) Once a part-time academic employee meets the criteria in subsection (1) of this section, the employee shall con-

continue to receive uninterrupted employer contributions for benefits if the employee works at least two quarters of the academic year with an average academic workload of half-time or more for three quarters of the academic year. Benefits provided under this section cease if this criteria is not met. Continuous benefits shall be reinstated once the employee reestablishes eligibility under subsection (1) of this section.

(3) As used in this section, "academic year" means summer, fall, winter, and spring quarters.

(4) This section does not modify rules in existence on June 7, 2006, adopted under this chapter regarding the initial establishment of eligibility for benefits.

(5) This section does not preclude individuals from being eligible for benefits under other laws or rules that may apply or for which they may be eligible.

(6) The employer must notify part-time academic employees of their potential right to benefits under this section.

(7) To be eligible for maintenance of benefits through averaging, part-time academic employees must notify their employers of their potential eligibility. The state board for community and technical colleges shall report back to the legislature by November 15, 2009, on the feasibility of eliminating the self-reporting requirement for employees. [2007 c 302 § 2; 2006 c 308 § 2.]

They are also eligible for health benefits through the summer even if they receive no work at all that quarter, if they have worked half-time or more of an academic workload in each of the three preceding quarters. However, workload fluctuations below these thresholds may result in the loss of employer contributions for health care benefits. It is the intent of the legislature to provide for continuous health care eligibility for part-time academic employees based on averaging workload gained during the two preceding academic years." **41.05.065 Public employees' benefits board—Duties.**  
*(Effective until January 1, 2009.)*

(1) The board shall study all matters connected with the provision of health care coverage, life insurance, liability insurance, accidental death and dismemberment insurance, and disability income insurance or any of, or a combination of, the enumerated types of insurance for employees and their dependents on the best basis possible with relation both to the welfare of the employees and to the state. However, liability insurance shall not be made available to dependents.

(2) The board shall develop employee benefit plans that include comprehensive health care benefits for all employees. In developing these plans, the board shall consider the following elements:

(a) Methods of maximizing cost containment while ensuring access to quality health care;

(b) Development of provider arrangements that encourage cost containment and ensure access to quality care, including but not limited to prepaid delivery systems and prospective payment methods;

(c) Wellness incentives that focus on proven strategies, such as smoking cessation, injury and accident prevention, reduction of alcohol misuse, appropriate weight reduction,

exercise, automobile and motorcycle safety, blood cholesterol reduction, and nutrition education;

(d) Utilization review procedures including, but not limited to a cost-efficient method for prior authorization of services, hospital inpatient length of stay review, requirements for use of outpatient surgeries and second opinions for surgeries, review of invoices or claims submitted by service providers, and performance audit of providers;

(e) Effective coordination of benefits;

(f) Minimum standards for insuring entities; and

(g) Minimum scope and content of public employee benefit plans to be offered to enrollees participating in the employee health benefit plans. To maintain the comprehensive nature of employee health care benefits, employee eligibility criteria related to the number of hours worked and the benefits provided to employees shall be substantially equivalent to the state employees' health benefits plan and eligibility criteria in effect on January 1, 1993. Nothing in this subsection (2)(g) shall prohibit changes or increases in employee point-of-service payments or employee premium payments for benefits or the administration of a high deductible health plan in conjunction with a health savings account.

(3) The board shall design benefits and determine the terms and conditions of employee and retired employee participation and coverage, including establishment of eligibility criteria subject to the requirements of RCW 41.05.066. The same terms and conditions of participation and coverage, including eligibility criteria, shall apply to state employees and to school district employees and educational service district employees.

(4) The board may authorize premium contributions for an employee and the employee's dependents in a manner that encourages the use of cost-efficient managed health care systems. During the 2005-2007 fiscal biennium, the board may only authorize premium contributions for an employee and the employee's dependents that are the same, regardless of an employee's status as represented or nonrepresented by a collective bargaining unit under the personnel system reform act of 2002. The board shall require participating school district and educational service district employees to pay at least the same employee premiums by plan and family size as state employees pay.

(5) The board shall develop a health savings account option for employees that conform to section 223, Part VII of subchapter B of chapter 1 of the internal revenue code of 1986. The board shall comply with all applicable federal standards related to the establishment of health savings accounts.

(6) Notwithstanding any other provision of this chapter, the board shall develop a high deductible health plan to be offered in conjunction with a health savings account developed under subsection (5) of this section.

(7) Employees shall choose participation in one of the health care benefit plans developed by the board and may be permitted to waive coverage under terms and conditions established by the board.

(8) The board shall review plans proposed by insuring entities that desire to offer property insurance and/or accident and casualty insurance to state employees through payroll deduction. The board may approve any such plan for payroll deduction by insuring entities holding a valid certificate of

authority in the state of Washington and which the board determines to be in the best interests of employees and the state. The board shall promulgate rules setting forth criteria by which it shall evaluate the plans.

(9) Before January 1, 1998, the public employees' benefits board shall make available one or more fully insured long-term care insurance plans that comply with the requirements of chapter 48.84 RCW. Such programs shall be made available to eligible employees, retired employees, and retired school employees as well as eligible dependents which, for the purpose of this section, includes the parents of the employee or retiree and the parents of the spouse of the employee or retiree. Employees of local governments and employees of political subdivisions not otherwise enrolled in the public employees' benefits board sponsored medical programs may enroll under terms and conditions established by the administrator, if it does not jeopardize the financial viability of the public employees' benefits board's long-term care offering.

(a) Participation of eligible employees or retired employees and retired school employees in any long-term care insurance plan made available by the public employees' benefits board is voluntary and shall not be subject to binding arbitration under chapter 41.56 RCW. Participation is subject to reasonable underwriting guidelines and eligibility rules established by the public employees' benefits board and the health care authority.

(b) The employee, retired employee, and retired school employee are solely responsible for the payment of the premium rates developed by the health care authority. The health care authority is authorized to charge a reasonable administrative fee in addition to the premium charged by the long-term care insurer, which shall include the health care authority's cost of administration, marketing, and consumer education materials prepared by the health care authority and the office of the insurance commissioner.

(c) To the extent administratively possible, the state shall establish an automatic payroll or pension deduction system for the payment of the long-term care insurance premiums.

(d) The public employees' benefits board and the health care authority shall establish a technical advisory committee to provide advice in the development of the benefit design and establishment of underwriting guidelines and eligibility rules. The committee shall also advise the board and authority on effective and cost-effective ways to market and distribute the long-term care product. The technical advisory committee shall be comprised, at a minimum, of representatives of the office of the insurance commissioner, providers of long-term care services, licensed insurance agents with expertise in long-term care insurance, employees, retired employees, retired school employees, and other interested parties determined to be appropriate by the board.

(e) The health care authority shall offer employees, retired employees, and retired school employees the option of purchasing long-term care insurance through licensed agents or brokers appointed by the long-term care insurer. The authority, in consultation with the public employees' benefits board, shall establish marketing procedures and may consider all premium components as a part of the contract negotiations with the long-term care insurer.

(f) In developing the long-term care insurance benefit designs, the public employees' benefits board shall include an alternative plan of care benefit, including adult day services, as approved by the office of the insurance commissioner.

(g) The health care authority, with the cooperation of the office of the insurance commissioner, shall develop a consumer education program for the eligible employees, retired employees, and retired school employees designed to provide education on the potential need for long-term care, methods of financing long-term care, and the availability of long-term care insurance products including the products offered by the board.

(h) By December 1998, the health care authority, in consultation with the public employees' benefits board, shall submit a report to the appropriate committees of the legislature, including an analysis of the marketing and distribution of the long-term care insurance provided under this section. Any person so removed, suspended, demoted or discharged may within ten days from the time of his or her removal, suspension, demotion or discharge, file with the commission a written demand for an investigation, whereupon the commission shall conduct such investigation. The investigation shall be confined to the determination of the question of whether such removal, suspension, demotion or discharge was or was not made for political or religious reasons and was or was not made in good faith for cause. After such investigation the commission may affirm the removal, or if it shall find that the removal, suspension, or demotion was made for political or religious reasons, or was not made in good faith for cause, shall order the immediate reinstatement or reemployment of such person in the office, place, position or employment from which such person was removed, suspended, demoted or discharged, which reinstatement shall, if the commission so provides in its discretion, be retroactive, and entitle such person to pay or compensation from the time of such removal, suspension, demotion or discharge. All investigations made by the commission pursuant to the provisions of this section shall be by public hearing, after

reasonable notice to the accused of the time and place of such hearing, at which hearing the accused shall be afforded an opportunity of appearing in person and by counsel, and presenting his or her defense. If such judgment or order be concurred in by the commission or a majority thereof, the accused may appeal therefrom to the court of original and unlimited jurisdiction in civil suits of the county wherein he or she resides. Such appeal shall be taken by serving the commission, within thirty days after the entry of such judgment or order, a written notice of appeal, stating the grounds thereof, and demanding that a certified transcript of the record and of all papers on file in the office of the commission affecting or relating to such judgment or order, be filed by the commission with such court. The commission shall, within ten days after the filing of such notice, make, certify and file such transcript with such court. The court of original and unlimited jurisdiction in civil suits shall thereupon proceed to hear and determine such appeal in a summary manner: PROVIDED, HOWEVER, That such hearing shall be confined to the determination of whether the judgment or order of removal, discharge, demotion or suspension made by the commission, was or was not made in good faith for cause, and no appeal to such court shall be taken except upon such ground or grounds. [2007 c 218 § 6; 1935 c 31 § 9; RRS § 9558-9.]

No person so certified shall be laid off, suspended, or given leave of absence from duty, transferred or reduced in pay or grade, except for reasons which will promote the good of the service, specified in writing, and after an opportunity to be heard by the commission and then only with its consent and approval.

To enable the appointing power to exercise a choice in the filling of positions, no appointment, employment or promotion in any position in the classified service shall be deemed complete until after the expiration of a period of three to six months' probationary service, as may be provided in the rules of the civil service commission during which the appointing power may terminate the employment of the per-

son certified to him or her, or it, if during the performance test thus afforded, upon observation or consideration of the performance of duty, the appointing power deems him or her unfit or unsatisfactory for service in the department. Whereupon the appointing power shall designate the person certified as standing next highest on any such list and such person shall likewise enter upon said duties until some person is found who is deemed fit for appointment, employment or promotion for the probationary period provided therefor, whereupon the appointment, employment or promotion shall be deemed to be complete. [2007 c 218 § 7; 1935 c 31 § 11; RRS § 9558-11.]

[2007 c 218 § 8; 1935 c 31 § 16; RRS § 9558-16.]

If such judgment or order be concurred in by the commission or a majority thereof, the accused may appeal therefrom to the court of original and unlimited jurisdiction in civil suits of the county wherein he or she resides. If there be no widow or widower at the time of such firefighter's death or upon the widow's or widower's death the monthly pension benefits hereinabove provided for shall be paid to and divided among his or her child or children share and share alike, until they reach the age of eighteen or are married, whichever occurs first. To this end, the state

board shall utilize the services of individuals and organizations, public or private, whose experience, training, and interests in vocational rehabilitation and retraining qualify them to lend expert assistance to the state board in such programs of vocational rehabilitation as may be reasonable to make the participant return to his or her regular occupation, business, or profession, or to engage in any occupation or perform any work for compensation or profit consistent with his or her physical and mental status. After evaluation and recommendation by such individuals or organizations and prior to final evaluation of the participant's permanent disability, if in the sole opinion of the state board, whether or not medical treatment has been concluded, vocational rehabilitation is both necessary and likely to enable the injured participant to return to his or her regular occupation, business, or profession, or to engage in any occupation or perform any work for compensation or profit, the state board may, in its sole discretion, pay the cost as provided in subsection (3) or (4) of this section.

(2) When, in the sole discretion of the state board, vocational rehabilitation is both necessary and likely to make the participant return to his or her regular occupation, business, or profession, or to engage in any occupation or perform any work for compensation or profit, then the following order of priorities shall be used:

- (a) Return to the previous job with the same employer;
- (b) Modification of the previous job with the same employer including transitional return to work;
- (c) A new job with the same employer in keeping with any limitations or restrictions;
- (d) Modification of a new job with the same employer including transitional return to work;
- (e) Modification of the previous job with a new employer;
- (f) A new job with a new employer or self-employment based upon transferable skills;
- (g) Modification of a new job with a new employer;
- (h) A new job with a new employer or self-employment involving on-the-job training;
- (i) Short-term retraining and job placement.

(3)(a) Except as provided in (b) of this subsection, costs for vocational rehabilitation benefits allowed by the state board under subsection (1) of this section may include the cost of books, tuition, fees, supplies, equipment, transportation, child or dependent care, and other necessary expenses in an amount not to exceed four thousand dollars. This amount must be used within fifty-two weeks of the determination that vocational rehabilitation is permitted under this section.

(b) The expenses allowed under (a) of this subsection may include training fees for on-the-job training and the cost of furnishing tools and other equipment necessary for self-employment or reemployment. However, compensation or payment of retraining with job placement expenses under (a) of this subsection may not be authorized for a period of more than fifty-two weeks, except that such period may, in the sole discretion of the state board, after its review, be extended for an additional fifty-two weeks or portion thereof by written order of the state board. However, under no circumstances shall the total amount of benefit paid under this section exceed four thousand dollars.

(4) In addition to the vocational rehabilitation expenditures provided for under subsection (3) of this section, an

additional five thousand dollars may, upon authorization of the state board, be expended for: (a) Accommodations for an injured participant that are medically necessary for participation in an approved retraining plan; and (b) accommodations necessary to perform the essential functions of an occupation in which an injured participant is seeking employment, consistent with the retraining plan or the recommendations of a vocational evaluation. The injured participant's attending physician or licensed advanced registered nurse practitioner must verify the necessity of the modifications or accommodations. The total expenditures authorized in this subsection shall not exceed five thousand dollars.

(5) The state board shall follow the established criteria set forth by the department of labor and industries to monitor the quality and effectiveness of rehabilitation services provided by the individuals and organizations used under subsection (1) of this section. The state board shall make referrals for vocational rehabilitation services based on these performance criteria.

(6) The state board may engage, where feasible and cost-effective, in a cooperative program with the state employment security department to provide job placement services under this section.

(7) Except as otherwise provided in this section, the vocational benefits provided for in this section are available to participants who have claims currently pending as of April 17, 2007, or whose injury occurred on or after January 1, 2006. [2007 c 57 § 1.]

**Effective date—2007 c 57:** "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately [April 17, 2007]." [2007 c 57 § 2.]

**41.24.250 State board for volunteer firefighters and reserve officers—Composition—Terms—Vacancies—Oath.** The state board for volunteer firefighters and reserve officers is created to consist of five members who are participants under this chapter, at least three of whom are not receiving relief or retirement pension payments under this chapter, no two of whom shall be from the same congressional district. The members are appointed by the governor to serve overlapping terms of six years. Of members first appointed, one shall be appointed for a term of six years, one for five years, one for four years, one for three years, and one for two years. The governor may consider participants who are recommended for appointment by the appropriate state associations. Upon the expiration of a term, a successor shall be appointed by the governor for a term of six years. Any vacancy shall be filled by the governor for the unexpired term. Each member of the state board, before entering on the performance of his or her duties, shall take an oath that he or she will not knowingly violate or willingly permit the violation of any provision of law applicable to this chapter, which oath shall be filed with the secretary of state.

The state board is not unlawfully constituted and a member of the board is not ineligible to serve the remainder of the member's unexpired term on the board solely by reason of the establishment of new or revised boundaries for congressional districts. [2007 c 56 § 1; 1999 c 148 § 23; 1989 c 91 § 22; 1982 1st ex.s. c 30 § 11; 1955 c 263 § 2.]

**Effective date—1989 c 91:** See note following RCW 41.24.010.

**41.24.400 Reserve officers—Enrollment—Limitations.** (1) Except as provided in subsection (2) of this section, any municipality may make provision by appropriate legislation and payment of fees required by RCW 41.24.030(1) solely for the purpose of enabling any reserve officer to enroll under the retirement pension provisions of this chapter or fees required under RCW 41.24.030(1) to pay for the costs of extending the relief provisions of this chapter to its reserve officers.

(2) A reserve officer is not eligible to receive a benefit under the retirement provisions of this chapter for service under chapter 41.26, 41.32, 41.35, 41.37, or 41.40 RCW.

(3) Every municipality shall make provisions for the collection and payment of the fees required under this chapter, and shall continue to make provisions for all reserve officers who come under this chapter as long as they continue to be employed as reserve officers.

(4) Except as provided under RCW 41.24.450, a reserve officer is not eligible to receive a benefit under the relief provisions of this chapter. [2007 c 492 § 7; 1999 c 148 § 31; 1998 c 307 § 4; 1995 c 11 § 2.]

If there be no such designated person or persons still living at the time of the member's death, such member's death benefit shall be paid to the member's surviving spouse as if in fact such spouse had been nominated by written designation, or if there be no such surviving spouse, then to such member's legal representatives.

(a) Every plan 1 member shall have deducted from each payroll a sum equal to six percent of his or her basic salary for each pay period.

(c) The remaining liabilities of the plan 1 system shall be funded as provided in chapter 41.45 RCW.

(d) Every member shall be deemed to consent and agree to the contribution made and provided for herein, and shall receipt in full for his or her salary or compensation. Payment less said contributions shall be a complete discharge of all claims and demands whatsoever for the services rendered by such person during the period covered by such payments, except his or her claim to the benefits to which he or she may be entitled under the provisions of this chapter.

(2) No employer or member contribution is required after June 30, 2000, unless the most recent valuation study for law enforcement officers' and fire fighters' retirement system plan 1 indicates the plan has unfunded liabilities. The legislature clarifies the enactment of section 907, chapter 1, Laws of 2000 2nd sp. sess. and affirms the suspension of employer and member contributions to plan 1 of the law enforcement officers' and firefighters' retirement system, effective June 30, 2000, as provided in this subsection. **41.26.195 Transfer of service credit from other retirement system—Irrevocable election allowed.** Any member of the teachers' retirement system plans 1, 2, or 3, the public employees' retirement system plans 1, 2, or 3, the public safety employees' retirement system plan 2, the school employees' retirement system plans 2 or 3, or the Washington state patrol retirement system plans 1 or 2 who has previously established service credit in the law enforcement officers' and fire fighters' retirement system plan 1 may make an irrevocable election to have such service transferred to their current retirement system and plan subject to the following conditions:

(1) If the individual is employed by an employer in an eligible position, as of July 1, 1997, the election to transfer service must be filed in writing with the department no later than July 1, 1998. If the individual is not employed by an employer in an eligible position, as of July 1, 1997, the elec-

tion to transfer service must be filed in writing with the department no later than one year from the date they are employed by an employer in an eligible position.

(2) An individual transferring service under this section forfeits the rights to all benefits as a member of the law enforcement officers' and fire fighters' retirement system plan 1 and will be permanently excluded from membership.

(3) Any individual choosing to transfer service under this section will have transferred to their current retirement system and plan: (a) All the individual's accumulated contributions; (b) an amount sufficient to ensure that the employer contribution rate in the individual's current system and plan will not increase due to the transfer; and (c) all applicable months of service, as defined in RCW 41.26.030(14)(a).

(4) If an individual has withdrawn contributions from the law enforcement officers' and fire fighters' retirement system plan 1, the individual may restore the contributions, together with interest as determined by the director, and recover the service represented by the contributions for the sole purpose of transferring service under this section. The contributions must be restored before the transfer can occur and the restoration must be completed within the time limitations specified in subsection (1) of this section.

(5) Any service transferred under this section does not apply to the eligibility requirements for military service credit as defined in RCW 41.40.170(3) or 43.43.260(3).

(6) If an individual does not meet the time limitations of subsection (1) of this section, the individual may elect to restore any withdrawn contributions and transfer service under this section by paying the amount required under subsection (3)(b) of this section less any employee contributions transferred. [2007 c 492 § 9; 2003 c 294 § 2; 1997 c 122 § 1.]

**41.26.473 Disabled in the line of duty—Continuation of service credit—Conditions.** Those members subject to this chapter who became disabled in the line of duty on or after July 1, 2002, and who received or are receiving benefits under Title 51 RCW or a similar federal workers' compensation program shall receive or continue to receive service credit subject to the following:

(1) No member may receive more than one month's service credit in a calendar month.

(2) No service credit under this section may be allowed after a member separates or is separated without leave of absence.

(3) Employer contributions shall be paid by the employer at the rate in effect for the period of the service credited.

(4) Employee contributions shall be collected by the employer and paid to the department at the rate in effect for the period of service credited.

(5) State contribution shall be as provided in RCW 41.45.060 and 41.45.067.

(6) Contributions shall be based on the regular compensation which the member would have received had the disability not occurred. If contribution payments are made retroactively, interest shall be charged at the rate set by the director on both employee and employer contributions. Service credit shall not be granted until the employee contribution has been paid.

(7) The service and compensation credit shall not be granted for a period to exceed twenty-four consecutive months.

(8) This section does not abridge service credit rights granted in RCW 41.26.470(3). However, members receiving service credit under RCW 41.26.470(3) may not receive service credit under this section.

(9) Should the legislature revoke the service credit authorized under this section or repeal this section, no affected employee is entitled to receive the credit as a matter of contractual right. [2007 c 49 § 1.]

**41.26.547 Emergency medical technicians—Job relocation—Retirement options. (Expires July 1, 2023.)** (1) A member of plan 2 who was a member of the public employees' retirement system while employed providing emergency medical services for a city, town, county, or district and whose job was relocated from another department of a city, town, county, or district to a fire department, or a member of the public employees' retirement system who is eligible for membership in plan 2 under RCW 41.26.030(4)(h), has the following options:

(a) Remain a member of the public employees' retirement system; or

(b) Leave any service credit earned as a member of the public employees' retirement system in the public employees' retirement system, and have all future service earned in the law enforcement officers' and firefighters' retirement system plan 2, becoming a dual member under the provisions of chapter 41.54 RCW; or

(c) Make an election no later than June 30, 2013, filed in writing with the department of retirement systems, to transfer service credit previously earned as an emergency medical technician for a city, town, county, or district in the public employees' retirement system plan 1 or plan 2 to the law enforcement officers' and firefighters' retirement system plan 2 as defined in RCW 41.26.030. Service credit that a member elects to transfer from the public employees' retirement system to the law enforcement officers' and firefighters' retirement system under this section shall be transferred no earlier than five years after the effective date the member elects to transfer except under subsection (3) of this section, and only after the member earns five years of service credit as a firefighter following the effective date the member elects to transfer except under subsection (3) of this section.

(2) A member of plan 1 who was a member of the public employees' retirement system while employed providing emergency medical services for a city, town, county, or district and whose job was relocated from another department of a city, town, county, or district to a fire department has the following options:

(a) Remain a member of the public employees' retirement system; or

(b) Leave any service credit earned as a member of the public employees' retirement system in the public employees' retirement system, and have all future service earned in the law enforcement officers' and firefighters' retirement system plan 1.

(3)(a) A member who elects to transfer service credit under subsection (1)(c) of this section shall make the payments required by this subsection prior to having service

credit earned as an emergency medical technician for a city, town, county, or district under the public employees' retirement system plan 1 or plan 2 transferred to the law enforcement officers' and firefighters' retirement system plan 2. However, in no event shall service credit be transferred earlier than five years after the effective date the member elects to transfer, or prior to the member earning five years of service credit as a firefighter following the effective date the member elects to transfer, except under (e) of this subsection.

(b) A member who elects to transfer service credit under this subsection shall pay, for the applicable period of service, the difference between the contributions the employee paid to the public employees' retirement system plan 1 or plan 2 and the contributions that would have been paid by the employee had the employee been a member of the law enforcement officers' and firefighters' retirement system plan 2, plus interest on this difference as determined by the director. This payment must be made no later than five years from the effective date of the election made under subsection (1)(c) of this section and must be made prior to retirement, except under (e) of this subsection.

(c) For a period of service transferred by a member eligible for membership in plan 2 under RCW 41.26.030(4)(h), the employer shall pay an amount sufficient to ensure that the contribution level to the law enforcement officers' and firefighters' retirement system will not increase due to this transfer. This payment must be made within five years of the completion of the employee payment in (b) of this subsection.

(d) No earlier than five years after the effective date the member elects to transfer service credit under this section and upon completion of the payment required in (b) of this subsection except under (e) of this subsection, the department shall transfer from the public employees' retirement system plan 1 or plan 2 to the law enforcement officers' and firefighters' retirement system plan 2: (i) All of the employee's applicable accumulated contributions plus interest and an equal amount of employer contributions; and (ii) all applicable months of service, as defined in RCW 41.26.030(14)(b), credited to the employee under this chapter for service as an emergency services provider for a city, town, county, or district as though that service was rendered as a member of the law enforcement officers' and firefighters' retirement system plan 2.

(e) If a member who elected to transfer pursuant to this section dies or retires for disability prior to five years from their election date, the member's benefit is calculated as follows:

(i) All of the applicable service credit, accumulated contributions, and interest is transferred to the law enforcement officers' and firefighters' retirement system plan 2 and used in the calculation of a benefit.

(ii) If a member's obligation under (b) of this subsection has not been paid in full at the time of death or disability retirement, the member, or in the case of death the surviving spouse or eligible minor children, have the following options:

(A) Pay the bill in full;

(B) If a continuing monthly benefit is chosen, have the benefit actuarially reduced to reflect the amount of the unpaid obligation under (b) of this subsection; or

(C) Continue to make payment against the obligation under (b) of this subsection, provided that payment in full is made no later than five years from the member's original election date.

(f) Upon transfer of service credit, contributions, and interest under this subsection, the employee is permanently excluded from membership in the public employees' retirement system for all service transfers related to their time served as an emergency medical technician for a city, town, county, or district under the public employees' retirement system plan 1 or plan 2. (A) Retroactive payments to an individual by an employer on reinstatement of the employee in a position, or

payments by an employer to an individual in lieu of reinstatement in a position which are awarded or granted as the equivalent of the salary or wages which the individual would have earned during a payroll period shall be considered earnable compensation and the individual shall receive the equivalent service credit.

**Findings—1990 c 274:** "(1) The current system for calculating service credit for school district employees is difficult and costly to administer. By changing from the current hours per month calculation to an hours per year calculation, the accumulation of service credit by school district employees will be easier to understand and to administer.

(2) The current system for granting service credit for substitute teachers is difficult and costly to administer. By notifying substitute teachers of their eligibility for service credit and allowing the substitute teacher to apply for service credit, the accumulation of service credit by substitute teachers will be easier to understand and to administer.

(3) Currently, temporary employees in eligible positions in the public employees' retirement system are exempted from membership in the system for up to six months. If the position lasts for longer than six months the employee is made a member retroactively. This conditional exemption causes tracking problems for the department of retirement systems and places a heavy financial burden for back contributions on a temporary employee who crosses the six-month barrier. Under the provisions of this act all persons, other than retirees, who are hired in an eligible position will become members immediately, thereby alleviating the problems described in this section.

(4) The legislature finds that retirees from the plan 2 systems of the law enforcement officers' and firefighters' retirement system, the teachers' retirement system, and the public employees' retirement system, may not work for a nonfederal public employer without suffering a suspension of their retirement benefits. This fails to recognize the current and projected demographics indicating the decreasing workforce and that the expertise possessed by retired workers can provide a substantial benefit to the state. At the same time, the legislature recognizes that a person who is working full time should have his or her pension delayed until he or she enters full or partial retirement. By allowing plan 2 retirees to work in ineligible positions, the competing concerns listed above are both properly addressed." [1990 c 274 § 1.]

**Intent—Reservation—1990 c 274 §§ 2, 4:** "(1) The 1990 amendments to RCW 41.32.010(27)(b) and 41.40.450 are intended by the legislature to effect administrative, rather than substantive, changes to the affected retirement plan. The legislature therefore reserves the right to revoke or amend the 1990 amendments to RCW 41.32.010(27)(b) and 41.40.450. No member is entitled to have his or her service credit calculated under the 1990 amendments to RCW 41.32.010(27)(b) and 41.40.450 as a matter of contractual right.

(2) The department's retroactive application of the changes made in RCW 41.32.010(27)(b) to all service rendered between October 1, 1977, and August 31, 1990, is consistent with the legislative intent of the 1990 changes to RCW 41.32.010(27)(b)." [1994 c 177 § 10; 1990 c 274 § 18.]

**41.32.053 Death benefit—Course of employment—Occupational disease or infection.** (1) A one hundred fifty thousand dollar death benefit shall be paid to the member's estate, or such person or persons, trust or organization as the member has nominated by written designation duly executed and filed with the department. If no such designated person or persons are still living at the time of the member's death, the member's death benefit shall be paid to the member's surviving spouse as if in fact the spouse had been nominated by written designation, or if there is no surviving spouse, then to the member's legal representatives.

(2) The benefit under this section shall be paid only where death occurs as a result of (a) injuries sustained in the course of employment; or (b) an occupational disease or infection that arises naturally and proximately out of employment covered under this chapter. The determination of eligibility for the benefit shall be made consistent with Title 51 RCW by the department of labor and industries. The department of labor and industries shall notify the department of retirement systems by order under RCW 51.52.050. [2007 c 487 § 3; 2003 c 402 § 2.]

**41.32.055 Falsification—Penalty.** (1) Any person who shall knowingly make false statements or shall falsify or permit to be falsified any record or records of the retirement system, except under subsection (2) of this section, in any attempt to defraud such system as a result of such act, is guilty of a class B felony punishable according to chapter 9A.20 RCW.

(2) Any person who shall knowingly make false statements or shall falsify or permit to be falsified any record or records of the retirement systems related to a member's separation from service and qualification for a retirement allowance under RCW 41.32.480 in any attempt to defraud that system as a result of such an act, is guilty of a gross misdemeanor. **41.32.0641 Disabled in the line of duty—Continuation of service credit—Conditions.** Those members subject to this chapter who became disabled in the line of duty and who received or are receiving benefits under Title 51 RCW or a similar federal workers' compensation program shall receive or continue to receive service credit subject to the following:

(1) No member may receive more than one month's service credit in a calendar month.

(2) No service credit under this section may be allowed after a member separates or is separated without leave of absence.

(3) Employer contributions shall be paid by the employer at the rate in effect for the period of the service credited.

(4) Employee contributions shall be collected by the employer and paid to the department at the rate in effect for the period of service credited.

(5) Contributions shall be based on the regular compensation which the member would have received had the disability not occurred. If contribution payments are made retroactively, interest shall be charged at the rate set by the director on both employee and employer contributions. Service credit shall not be granted until the employee contribution has been paid.

(6) The service and compensation credit shall not be granted for a period to exceed twenty-four consecutive months.

(7) Should the legislature revoke the service credit authorized under this section or repeal this section, no affected employee is entitled to receive the credit as a matter of contractual right. [2007 c 49 § 2.]

**41.32.483 Annual increase amount—Legislature's rights reserved.** (1) Beginning July 1, 2009, the annual increase amount as defined in RCW 41.32.010(46) shall be increased by an amount equal to \$0.40 per month per year of service minus the 2008 gain-sharing increase amount under \*RCW 41.31.010 as it exists on July 22, 2007. This adjustment shall not decrease the annual increase amount, and is not to exceed \$0.20 per month per year of service. The legislature reserves the right to amend or repeal this section in the future and no member or beneficiary has the contractual right

to receive this adjustment to the annual increase amount not granted prior to that time.

(2) The adjustment to the annual increase amount as set forth in section 5, chapter 491, Laws of 2007 was intended by the legislature as a replacement benefit for gain-sharing. If the repeal of chapter 41.31 RCW is held to be invalid in a final determination of a court of law, and the court orders reinstatement of gain-sharing or other alternate benefits as a remedy, then this adjustment to the annual increase amount shall not be included in future annual increase amounts paid on or after the date of such reinstatement. [2007 c 491 § 5.]

**41.32.489 Retirement allowance—Annual increases—Eligibility.** (1) Beginning July 1, 1995, and annually thereafter, the retirement allowance of a person meeting the requirements of this section shall be increased by the annual increase amount.

(2) The following persons shall be eligible for the benefit provided in subsection (1) of this section:

(a) A beneficiary who has received a retirement allowance for at least one year by July 1st in the calendar year in which the annual increase is given and has attained at least age sixty-six by December 31st in the calendar year in which the annual increase is given; or

(b) A beneficiary whose retirement allowance is lower than the minimum benefit provided under RCW 41.32.4851.

(3) The following persons shall also be eligible for the benefit provided in subsection (1) of this section:

(a) A beneficiary receiving the minimum benefit on June 30, 1995, under RCW 41.32.485; or

(b) A recipient of a survivor benefit on June 30, 1995, which has been increased by \*RCW 41.32.575.

(4) If otherwise eligible, those receiving an annual adjustment under RCW 41.32.530(1)(d) shall be eligible for the annual increase adjustment in addition to the benefit that would have been received absent this section.

(5) Those receiving a temporary disability benefit under RCW 41.32.540 shall not be eligible for the benefit provided by this section.

(6) The legislature reserves the right to amend or repeal this section in the future and no member or beneficiary has a contractual right to receive this postretirement adjustment not granted prior to that time. [2007 c 89 § 2; 1995 c 345 § 2.]

**\*Reviser's note:** RCW 41.32.575 was repealed by 1995 c 345 § 11.

**Intent—1995 c 345:** "The intent of this act is to:

(1) Simplify the calculation of postretirement adjustments so that they can be more easily communicated to plan 1 active and retired members;

(2) Provide postretirement adjustments based on years of service rather than size of benefit;

(3) Provide postretirement adjustments at an earlier age;

(4) Provide postretirement adjustments to a larger segment of plan 1 retirees; and

(5) Simplify administration by reducing the number of plan 1 postretirement adjustments to one." [1995 c 345 § 1.]

**Effective date—1995 c 345:** "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately [May 12, 1995]." [1995 c 345 § 14.]

**41.32.570 Postretirement employment—Reduction or suspension of pension payments.** (1)(a) If a retiree enters employment with an employer sooner than one calendar month after his or her accrual date, the retiree's monthly retirement allowance will be reduced by five and one-half percent for every seven hours worked during that month. This reduction will be applied each month until the retiree remains absent from employment with an employer for one full calendar month.

(b) The benefit reduction provided in (a) of this subsection will accrue for a maximum of one hundred forty hours per month. Any monthly benefit reduction over one hundred percent will be applied to the benefit the retiree is eligible to receive in subsequent months.

(2) Except under subsection (3) of this section, any retired teacher or retired administrator who enters service in any public educational institution in Washington state at least one calendar month after his or her accrual date shall cease to receive pension payments while engaged in such service, after the retiree has rendered service for more than eight hundred sixty-seven hours in a school year.

(3) Any retired teacher or retired administrator who enters service in any public educational institution in Washington state one and one-half calendar months or more after his or her accrual date and:

(a) Is hired pursuant to a written policy into a position for which the school board has documented a justifiable need to hire a retiree into the position;

(b) Is hired through the established process for the position with the approval of the school board or other highest decision-making authority of the prospective employer;

(c) Whose employer retains records of the procedures followed and the decisions made in hiring the retired teacher or retired administrator and provides those records in the event of an audit; and

(d) The employee has not already rendered a cumulative total of more than one thousand nine hundred hours of service while in receipt of pension payments beyond an annual threshold of eight hundred sixty-seven hours;

shall cease to receive pension payments while engaged in that service after the retiree has rendered service for more than one thousand five hundred hours in a school year. The one thousand nine hundred hour cumulative total limitation under this section applies prospectively after July 22, 2007.

(4) When a retired teacher or administrator renders service beyond eight hundred sixty-seven hours, the department shall collect from the employer the applicable employer retirement contributions for the entire duration of the member's employment during that fiscal year.

(5) The department shall collect and provide the state actuary with information relevant to the use of this section for the select committee on pension policy.

(6) The legislature reserves the right to amend or repeal this section in the future and no member or beneficiary has a contractual right to be employed for more than five hundred twenty-five hours per year without a reduction of his or her pension. **41.32.584 Additional benefit for justices or judges—One-time irrevocable election.** (1) Between January 1, 2007, and December 31, 2007, a member of plan 1 employed as a supreme court justice, court of appeals judge, or superior court judge may make a one-time irrevocable election, filed in writing with the member's employer, the department, and the administrative office of the courts, to accrue an additional benefit equal to one and one-half percent of average final compensation for each year of future service credit from the date of the election.

(2)(a) A member who chooses to make the election under subsection (1) of this section may apply to the department to increase the member's benefit multiplier by one and one-half percent per year of service for the period in which the member served as a justice or judge prior to the election. The member may purchase, beginning with the most recent judicial service, the higher benefit multiplier for up to seventy percent of that portion of the member's prior judicial service that would ensure that the member has no more than a seventy-five percent of average final compensation benefit accrued by age sixty-four. The member shall pay five percent of the salary earned for each month of service for which the higher benefit multiplier is being purchased, plus interest as determined by the director. The purchase price shall not exceed the actuarially equivalent value of the increase in the member's benefit resulting from the increase in the benefit multiplier. This payment must be made prior to retirement and prior to December 31, 2007. After December 31, 2007, a member may purchase the higher benefit multiplier for any of the member's prior judicial service at the actuarially equivalent value of the increase in the member's benefit resulting from the increase in the benefit multiplier, as determined by the director.

(b) Subject to rules adopted by the department, a member applying to increase the member's benefit multiplier under this section may pay all or part of the cost with a lump sum payment, eligible rollover, direct rollover, or trustee-to-trustee transfer from an eligible retirement plan. The department shall adopt rules to ensure that all lump sum payments, rollovers, and transfers comply with the requirements of the

internal revenue code and regulations adopted by the internal revenue service. The rules adopted by the department may condition the acceptance of a rollover or transfer from another plan on the receipt of information necessary to enable the department to determine the eligibility of any transferred funds for tax-free rollover treatment or other treatment under federal income tax law. **Effective date—2006 c 189:** See note following RCW 2.14.115.

**41.32.765 Retirement for service.** (1) **NORMAL RETIREMENT.** Any member with at least five service credit years of service who has attained at least age sixty-five shall be eligible to retire and to receive a retirement allowance computed according to the provisions of RCW 41.32.760.

(2) **EARLY RETIREMENT.** Any member who has completed at least twenty service credit years of service who has attained at least age fifty-five shall be eligible to retire and to receive a retirement allowance computed according to the provisions of RCW 41.32.760, except that a member retiring pursuant to this subsection shall have the retirement allowance actuarially reduced to reflect the difference in the number of years between age at retirement and the attainment of age sixty-five.

(3) **ALTERNATE EARLY RETIREMENT.**

(a) Any member who has completed at least thirty service credit years and has attained age fifty-five shall be eligible to retire and to receive a retirement allowance computed according to the provisions of RCW 41.32.760, except that a member retiring pursuant to this subsection shall have the retirement allowance reduced by three percent per year to reflect the difference in the number of years between age at retirement and the attainment of age sixty-five.

(b) On or after September 1, 2008, any member who has completed at least thirty service credit years and has attained age fifty-five shall be eligible to retire and to receive a retirement allowance computed according to the provisions of RCW 41.32.760, except that a member retiring pursuant to this subsection shall have the retirement allowance reduced as follows:

Retirement Age	Percent Reduction
55	20%
56	17%
57	14%
58	11%
59	8%
60	5%

Any member who retires under the provisions of this subsection is ineligible for the postretirement employment provisions of RCW 41.32.802(2) until the retired member has reached sixty-five years of age. For purposes of this subsection, employment with an employer also includes any per-

sonal service contract, service by an employer as a temporary or project employee, or any other similar compensated relationship with any employer included under the provisions of RCW 41.32.800(1).

The subsidized reductions for alternate early retirement in this subsection as set forth in section 2, chapter 491, Laws of 2007 were intended by the legislature as replacement benefits for gain-sharing. Until there is legal certainty with respect to the repeal of chapter 41.31A RCW, the right to retire under this subsection is noncontractual, and the legislature reserves the right to amend or repeal this subsection. Legal certainty includes, but is not limited to, the expiration of any: Applicable limitations on actions; and periods of time for seeking appellate review, up to and including reconsideration by the Washington supreme court and the supreme court of the United States. Until that time, eligible members may still retire under this subsection, and upon receipt of the first installment of a retirement allowance computed under this subsection, the resulting benefit becomes contractual for the recipient. If the repeal of chapter 41.31A RCW is held to be invalid in a final determination of a court of law, and the court orders reinstatement of gain-sharing or other alternate benefits as a remedy, then retirement benefits for any member who has completed at least thirty service credit years and has attained age fifty-five but has not yet received the first installment of a retirement allowance under this subsection shall be computed using the reductions in (a) of this subsection. **Benefits not contractual right until September 1, 2008—2007 c 491:** "The new benefits provided pursuant to sections 2(3)(b), 4(3)(b), 6(3)(b), and 8(3)(b), chapter 491, Laws of 2007 are not provided to employees as a matter of contractual right prior to September 1, 2008, and will not become a contractual right thereafter if the repeal of chapter 41.31A RCW is held to be invalid in a final determination of a court of law. The legislature retains the right to alter or abolish these benefits at any time prior to September 1, 2008." [2007 c 491 § 15.]

**Severability—2007 c 491:** "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [2007 c 491 § 18.]

**Conflict with federal requirements—2007 c 491:** "If any part of this act is found to be in conflict with a final determination by the federal internal revenue service that is a prescribed condition to favorable tax treatment of one or more of the retirement plans, the conflicting part of this act is inoperative solely to the extent of the conflict and with respect to the individual members directly affected. This finding does not affect the operation of the remainder of this act in its application to the members concerned. The legislature reserves the right to amend or repeal this act in the future as may be required to comply with a final federal determination that amendment or repeal is necessary to maintain the favorable tax treatment of a plan." Legal certainty includes, but is not limited to, the expiration of any: Applicable limitations on actions; and periods of time for seeking appellate review, up to and including reconsideration by the Washington supreme court and the supreme court of the United States. If the repeal of chapter 41.31A RCW is held to be invalid in a final determination of a court of law, and the court orders reinstatement of gain-sharing or other alternate benefits as a remedy, then retirement benefits for any member who has completed at least thirty service credit years and has attained age fifty-five but has not yet received the first installment of a retirement allowance under this subsection shall be computed using the reductions in (a) of this subsection. Any member who retires under the provisions of this subsection is ineligible for the postretirement employment provisions of RCW 41.40.037(2)(d) until the retired member has reached sixty-five years of age. For purposes of this subsection, employment with an employer also includes any personal service contract, service by an employer as a temporary or project employee, or any other similar compensated relationship with any employer included under the provisions of RCW 41.40.850(1).

The subsidized reductions for alternate early retirement in this subsection as set forth in section 10, chapter 491, Laws of 2007 were intended by the legislature as replacement benefits for gain-sharing. Until there is legal certainty with respect to the repeal of chapter 41.31A RCW, the right to retire under this subsection is noncontractual, and the legislature reserves the right to amend or repeal this subsection. Legal certainty includes, but is not limited to, the expiration of any: Applicable limitations on actions; and periods of time for seeking appellate review, up to and including reconsideration by the Washington supreme court and the supreme court of the United States. Until that time, eligible members may still retire under this subsection, and upon receipt of the first installment of a retirement allowance computed under this subsection, the resulting benefit becomes contractual for the recipient. If the repeal of chapter 41.31A RCW is held to be invalid in a final determination of a court of law, and the court orders reinstatement of gain-sharing or other alternate benefits as a remedy, then retirement benefits for any member who has completed at least thirty service credit years and has attained age fifty-five but has not yet received the first installment of a retirement allowance under this subsection shall be computed using the reductions in (a) of this subsection. [2007 c 491 § 10; 2006 c 33 § 3; 2000 c 247 § 309.]

**Benefits not contractual right until July 1, 2008—2007 c 491:** See note following RCW 41.40.630.

**Severability—Conflict with federal requirements—2007 c 491:** See notes following RCW 41.32.765.

**41.40.870 Discontinuing judicial retirement account plan contributions—Additional benefit—One-time irrevocable election—Justices and judges.** (1) Between January 1, 2007, and December 31, 2007, a member of plan 3 employed as a supreme court justice, court of appeals judge, or superior court judge may make a one-time irrevocable election, filed in writing with the member's employer, the department, and the administrative office of the courts, to accrue an additional plan 3 defined benefit equal to six-tenths percent of average final compensation for each year of future service credit from the date of the election in lieu of future employer contributions to the judicial retirement account plan under chapter 2.14 RCW.

(2)(a) A member who chooses to make the election under subsection (1) of this section may apply to the department to increase the member's benefit multiplier by six-tenths percent per year of service for the period in which the member served as a justice or judge prior to the election. The member may purchase, beginning with the most recent judicial service, the higher benefit multiplier for up to seventy percent of that portion of the member's prior judicial service that would ensure that the member has no more than a thirty-seven and one-half percent of average final compensation

benefit accrued by age sixty-six. The member shall pay two and one-half percent of the salary earned for each month of service for which the higher benefit multiplier is being purchased, plus interest as determined by the director. The purchase price shall not exceed the actuarially equivalent value of the increase in the member's benefit resulting from the increase in the benefit multiplier. This payment must be made prior to retirement and prior to December 31, 2007. After December 31, 2007, a member may purchase the higher benefit multiplier for any of the member's prior judicial service at the actuarially equivalent value of the increase in the member's benefit resulting from the increase in the benefit multiplier, as determined by the director.

(b) Subject to rules adopted by the department, a member applying to increase the member's benefit multiplier under this section may pay all or part of the cost with a lump sum payment, eligible rollover, direct rollover, or trustee-to-trustee transfer from an eligible retirement plan. The department shall adopt rules to ensure that all lump sum payments, rollovers, and transfers comply with the requirements of the internal revenue code and regulations adopted by the internal revenue service. The rules adopted by the department may condition the acceptance of a rollover or transfer from another plan on the receipt of information necessary to enable the department to determine the eligibility of any transferred funds for tax-free rollover treatment or other treatment under federal income tax law.

(3) A member who chooses to make the election under subsection (1) of this section shall contribute a minimum of seven and one-half percent of pay to the member's defined contribution account. [2007 c 123 § 3; 2006 c 189 § 8.]

**Effective date—2006 c 189:** See note following RCW 2.14.115.

**41.40.873 Additional benefit for district or municipal court judges—One-time irrevocable election.** (1) Between January 1, 2007, and December 31, 2007, a member of plan 3 employed as a district court judge or municipal court judge may make a one-time irrevocable election, filed in writing with the member's employer and the department, to accrue an additional plan 3 defined benefit equal to six-tenths percent of average final compensation for each year of future service credit from the date of the election.

(2)(a) A member who chooses to make the election under subsection (1) of this section may apply to the department to increase the member's benefit multiplier by six-tenths percent per year of service for the period in which the member served as a judge prior to the election. The member may purchase, beginning with the most recent judicial service, the higher benefit multiplier for up to seventy percent of that portion of the member's prior judicial service that would ensure that the member has no more than a thirty-seven and one-half percent of average final compensation benefit accrued by age sixty-six. The member shall pay two and one-half percent of the salary earned for each month of service for which the higher benefit multiplier is being purchased, plus interest as determined by the director. The purchase price shall not exceed the actuarially equivalent value of the increase in the member's benefit resulting from the increase in the benefit multiplier. This payment must be made prior to retirement and prior to December 31, 2007. After December

31, 2007, a member may purchase the higher benefit multiplier for any of the member's prior judicial service at the actuarially equivalent value of the increase in the member's benefit resulting from the increase in the benefit multiplier, as determined by the director.

(b) Subject to rules adopted by the department, a member applying to increase the member's benefit multiplier under this section may pay all or part of the cost with a lump sum payment, eligible rollover, direct rollover, or trustee-to-trustee transfer from an eligible retirement plan. The department shall adopt rules to ensure that all lump sum payments, rollovers, and transfers comply with the requirements of the internal revenue code and regulations adopted by the internal revenue service. The rules adopted by the department may condition the acceptance of a rollover or transfer from another plan on the receipt of information necessary to enable the department to determine the eligibility of any transferred funds for tax-free rollover treatment or other treatment under federal income tax law.

(3) A member who chooses to make the election under subsection (1) of this section shall contribute a minimum of seven and one-half percent of pay to the member's defined contribution account. [2007 c 123 § 4; 2006 c 189 § 9.]

[2007 RCW Supp—page 434]

**41.45.0631 Contribution rate—Allocation of costs (as amended by 2007 c 300).** (1) The allocation of costs between the employer and members of the Washington state patrol retirement system shall be made only after the application of any minimum total contribution rate that may be in effect for the system under subsection (4) of this section. For benefit improvements effective on or after July 1, 2007, costs shall be shared equally by members and the employer, and any cap on member contributions shall be adjusted accordingly. The member contribution rate shall be based on the adjusted total contribution rate described in subsection (2) of this section. Beginning July 1, ((2001)) 2007, the required member contribution rate for members of the Washington state patrol retirement system shall be ((two percent or equal to the employer rate adopted under RCW 41.45.060 and 41.45.070 for the Washington state patrol retirement system, whichever is greater. The employee contribution rate shall not, however, include any increase as a result of)) the lesser of the following: (a) One-half of the adjusted total contribution rate for the system; or (b) seven percent, plus fifty percent of the contribution rate increase caused by any benefit improvements effective on or after July 1, 2007.

(2) The employer shall continue to pay for all costs attributable to distributions under RCW 43.43.270(2) for survivors of members who became disabled under RCW 43.43.040(2) prior to July 1, 2006, until such costs are fully paid. In order to avoid charging members for these costs, the total required contribution rate shall be adjusted to exclude these costs. The result of the adjustment shall be the adjusted total contribution rate that is to be used to calculate the required member contribution rate.

(3) The employer rate shall be the contribution rate required to cover all total system costs that are not covered by the member contribution rate.

(4) Beginning July 1, 2009, a minimum total contribution rate is established for the Washington state patrol retirement system. The total Washington state patrol retirement system contribution rate as adopted by the pension funding council and subject to revision by the legislature may exceed, but may not drop below, the established minimum total contribution rate. The minimum total contribution rate shall equal the total contribution rate required to fund seventy percent of the Washington state patrol retirement system's normal cost as calculated under the entry age normal cost method. Upon completion of each biennial actuarial valuation, the state actuary shall review the appropriateness of this minimum total contribution rate and recommend to the legislature any adjustments as may be needed. **41.45.070 Supplemental rate.** (1) In addition to the basic employer contribution rate established in RCW 41.45.060 or \*41.45.054, the department shall also charge employers of public employees' retirement system, teachers' retirement system, school employees' retirement system, public safety employees' retirement system, or Washington state patrol retirement system members an additional supplemental rate to pay for the cost of additional benefits, if any, granted to members of those systems. Except as provided in subsections (6), (7), and (9) of this section, the supplemental contribution rates required by this section shall be calculated by the state actuary and shall be charged regardless of language to the contrary contained in the statute which authorizes additional benefits.

(2) In addition to the basic member, employer, and state contribution rate established in RCW 41.45.0604 for the law enforcement officers' and firefighters' retirement system plan 2, the department shall also establish supplemental rates to pay for the cost of additional benefits, if any, granted to members of the law enforcement officers' and firefighters'

retirement system plan 2. Except as provided in subsection (6) of this section, these supplemental rates shall be calculated by the actuary retained by the law enforcement officers' and firefighters' board and the state actuary through the process provided in RCW 41.26.720(1)(a) and the state treasurer shall transfer the additional required contributions regardless of language to the contrary contained in the statute which authorizes the additional benefits.

(3) The supplemental rate charged under this section to fund benefit increases provided to active members of the public employees' retirement system plan 1, the teachers' retirement system plan 1, and Washington state patrol retirement system, shall be calculated as the level percentage of all members' pay needed to fund the cost of the benefit not later than June 30, 2024.

## FEDERAL SOCIAL SECURITY FOR PUBLIC EMPLOYEES

### Sections

41.48.030 Agreement with secretary of health, education, and welfare.

**41.48.030 Agreement with secretary of health, education, and welfare.** (1) The governor is hereby authorized to enter on behalf of the state into an agreement with the secretary of health, education, and welfare consistent with the terms and provisions of this chapter, for the purpose of extending the benefits of the federal old-age and survivors insurance system to employees of the state or any political subdivision not members of an existing retirement system, or to members of a retirement system established by the state or by a political subdivision thereof or by an institution of higher learning with respect to services specified in such agreement which constitute "employment" as defined in RCW 41.48.020. Such agreement may contain such provisions relating to coverage, benefits, contributions, effective date, modification and termination of the agreement, administration, and other appropriate provisions as the governor and secretary of health, education, and welfare shall agree upon, but, except as may be otherwise required by or under the social security act as to the services to be covered, such agreement shall provide in effect that—

(a) Benefits will be provided for employees whose services are covered by the agreement (and their dependents and survivors) on the same basis as though such services constituted employment within the meaning of Title II of the social security act;

(b) The state will pay to the secretary of the treasury, at such time or times as may be prescribed under the social security act, contributions with respect to wages (as defined in RCW 41.48.020), equal to the sum of the taxes which would be imposed by the federal insurance contributions act if the services covered by the agreement constituted employment within the meaning of that act;

(c) Such agreement shall be effective with respect to services in employment covered by the agreement or modification thereof performed after a date specified therein but in no event may it be effective with respect to any such services performed prior to the first day of the calendar year immediately preceding the calendar year in which such agreement or modification of the agreement is accepted by the secretary of health, education and welfare;

(d) All services which constitute employment as defined in RCW 41.48.020 and are performed in the employ of the state by employees of the state, shall be covered by the agreement;

(e) All services which (i) constitute employment as defined in RCW 41.48.020, (ii) are performed in the employ of a political subdivision of the state, and (iii) are covered by a plan which is in conformity with the terms of the agreement

and has been approved by the governor under RCW 41.48.050, shall be covered by the agreement; and

(f) As modified, the agreement shall include all services described in either paragraph (d) or paragraph (e) of this subsection and performed by individuals to whom section 218(c)(3)(C) of the social security act is applicable, and shall provide that the service of any such individual shall continue to be covered by the agreement in case he thereafter becomes eligible to be a member of a retirement system; and

(g) As modified, the agreement shall include all services described in either paragraph (d) or paragraph (e) of this subsection and performed by individuals in positions covered by a retirement system with respect to which the governor has issued a certificate to the secretary of health, education, and welfare pursuant to subsection (5) of this section;

(h) Law enforcement officers and firefighters of each political subdivision of this state who are covered by the Washington Law Enforcement Officers' and Fire Fighters' Retirement System Act (chapter 209, Laws of 1969 ex. sess.) as now in existence or hereafter amended shall constitute a separate "coverage group" for purposes of the agreement entered into under this section and for purposes of section 218 of the social security act. To the extent that the agreement between this state and the federal secretary of health, education, and welfare in existence on the date of adoption of this subsection is inconsistent with this subsection, the governor shall seek to modify the inconsistency.

(2) Any instrumentality jointly created by this state and any other state or states is hereby authorized, upon the granting of like authority by such other state or states, (a) to enter into an agreement with the secretary of health, education, and welfare whereby the benefits of the federal old-age and survivors insurance system shall be extended to employees of such instrumentality, (b) to require its employees to pay (and for that purpose to deduct from their wages) contributions equal to the amounts which they would be required to pay under RCW 41.48.040(1) if they were covered by an agreement made pursuant to subsection (1) of this section, and (c) to make payments to the secretary of the treasury in accordance with such agreement, including payments from its own funds, and otherwise to comply with such agreements. Such agreement shall, to the extent practicable, be consistent with the terms and provisions of subsection (1) and other provisions of this chapter.

(3) The governor is empowered to authorize a referendum, and to designate an agency or individual to supervise its conduct, in accordance with the requirements of section 218(d)(3) of the social security act, and subsection (4) of this section on the question of whether service in all positions covered by a retirement system established by the state or by a political subdivision thereof should be excluded from or included under an agreement under this chapter. If a retirement system covers positions of employees of the state of Washington, of the institutions of higher learning, and positions of employees of one or more of the political subdivisions of the state, then for the purpose of the referendum as provided herein, there may be deemed to be a separate retirement system with respect to employees of the state, or any one or more of the political subdivisions, or institutions of higher learning and the governor shall authorize a referendum upon request of the subdivisions' or institutions' of

higher learning governing body: PROVIDED HOWEVER, That if a referendum of state employees generally fails to produce a favorable majority vote then the governor may authorize a referendum covering positions of employees in any state department who are compensated in whole or in part from grants made to this state under Title III of the federal social security act: PROVIDED, That any city or town affiliated with the statewide city employees retirement system organized under chapter 41.44 RCW may at its option agree to a plan submitted by the board of trustees of said statewide city employees retirement system for inclusion under an agreement under this chapter if the referendum to be held as provided herein indicates a favorable result: PROVIDED FURTHER, That the teachers' retirement system be considered one system for the purpose of the referendum except as applied to the several \*colleges of education. The notice of referendum required by section 218(d)(3)(C) of the social security act to be given to employees shall contain or shall be accompanied by a statement, in such form and such detail as the agency or individual designated to supervise the referendum shall deem necessary and sufficient, to inform the employees of the rights which will accrue to them and their dependents and survivors, and the liabilities to which they will be subject, if their services are included under an agreement under this chapter.

(4) The governor, before authorizing a referendum, shall require the following conditions to be met:

(a) The referendum shall be by secret written ballot on the question of whether service in positions covered by such retirement system shall be excluded from or included under the agreement between the governor and the secretary of health, education, and welfare provided for in RCW 41.48.030(1);

(b) An opportunity to vote in such referendum shall be given and shall be limited to eligible employees;

(c) Not less than ninety days' notice of such referendum shall be given to all such employees;

(d) Such referendum shall be conducted under the supervision (of the governor or) of an agency or individual designated by the governor;

(e) The proposal for coverage shall be approved only if a majority of the eligible employees vote in favor of including services in such positions under the agreement;

(f) The state legislature, in the case of a referendum affecting the rights and liabilities of state employees covered under the state employees' retirement system and employees under the teachers' retirement system, and in all other cases the local legislative authority or governing body, shall have specifically approved the proposed plan and approved any necessary structural adjustment to the existing system to conform with the proposed plan.

(5) Upon receiving satisfactory evidence that with respect to any such referendum the conditions specified in subsection (4) of this section and section 218(d)(3) of the social security act have been met, the governor shall so certify to the secretary of health, education, and welfare.

(6) If the legislative body of any political subdivision of this state certifies to the governor that a referendum has been held under the terms of RCW 41.48.050(1)(i) and gives notice to the governor of termination of social security for any coverage group of the political subdivision, the governor

shall give two years advance notice in writing to the federal department of health, education, and welfare of such termination of the agreement entered into under this section with respect to said coverage group. **41.50.033 Crediting interest to retirement system accounts.** (1) The director shall determine when interest, if provided by a plan, shall be credited to accounts in the public employees' retirement system, the teachers' retirement system, the school employees' retirement system, the public safety employees' retirement system, the law enforcement officers' and firefighters' retirement system, or the Washington state patrol retirement system. The amounts to be credited and the methods of doing so shall be at the director's discretion, except that if interest is credited, it shall be done at least quarterly.

(2) Interest as determined by the director under this section is "regular interest" as defined in RCW 41.40.010(15), 41.32.010(23), 41.35.010(12), 41.37.010(12), 41.26.030(23), and 43.43.120(8).

41.54.070 Benefits under chapter—Minimum and maximum.

**41.54.010 Definitions.** The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Base salary" means salaries or wages earned by a member of a system during a payroll period for personal services and includes wages and salaries deferred under provisions of the United States internal revenue code, but shall exclude overtime payments, nonmoney maintenance compensation, and lump sum payments for deferred annual sick leave, unused accumulated vacation, unused accumulated annual leave, any form of severance pay, any bonus for vol-

untary retirement, any other form of leave, or any similar lump sum payment; except that forms of payment which are excluded under this subsection shall be included in base salary when reportable to the department in all of a dual member's retirement systems, and when none of the dual member's retirement systems are the Washington state patrol retirement system.

(2) "Department" means the department of retirement systems.

(3) "Director" means the director of the department of retirement systems.

(4) "Dual member" means a person who (a) is or becomes a member of a system on or after July 1, 1988, (b) has been a member of one or more other systems, and (c) has never been retired for service from a retirement system and is not receiving a disability retirement or disability leave benefit from any retirement system listed in RCW 41.50.030 or subsection (6) of this section.

(5) "Service" means the same as it may be defined in each respective system. For the purposes of RCW 41.54.030, military service granted under RCW 41.40.170(3) or 43.43.260 may only be based on service accrued under chapter 41.40 or 43.43 RCW, respectively.

(6) "System" means the retirement systems established under chapters 41.32, 41.40, 41.44, 41.35, 41.37, and 43.43 RCW; plan 2 of the system established under chapter 41.26 RCW; and the city employee retirement systems for Seattle, Tacoma, and Spokane. **Effective date—2004 c 242:** See RCW 41.37.901.

**Effective date—1998 c 341:** See RCW 41.35.901.

**Purpose—1993 c 517:** See note following RCW 41.26.420.

**41.54.030 Calculation of service retirement allowance.** (1) A dual member may combine service in all systems for the purpose of:

(a) Determining the member's eligibility to receive a service retirement allowance; and

(b) Qualifying for a benefit under RCW 41.26.530(2), 41.32.840(2), 41.35.620, or 41.40.790.

(2) A dual member who is eligible to retire under any system may elect to retire from all the member's systems and to receive service retirement allowances calculated as provided in this section. Each system shall calculate the allowance using its own criteria except that the member shall be allowed to substitute the member's base salary from any system as the compensation used in calculating the allowance.

(3) The service retirement allowances from a system which, but for this section, would not be allowed to be paid at this date based on the dual member's age may be received immediately or deferred to a later date. The allowances shall be actuarially adjusted from the earliest age upon which the combined service would have made such dual member eligible in that system.

(4) The service retirement eligibility requirements of RCW 41.40.180 shall apply to any dual member whose prior system is plan 1 of the public employees' retirement system established under chapter 41.40 RCW. [2007 c 207 § 2; 2003 c 294 § 13; 1998 c 341 § 703. Prior: 1996 c 55 § 4; 1996 c

*Benefits not contractual right until date specified: RCW 41.34.100.*

**41.54.070 Benefits under chapter—Minimum and maximum.** (1) The benefit granted by this chapter shall not result in a total benefit less than would have been received absent such benefit.

(2) The total sum of the retirement allowances received under this chapter shall not exceed the largest amount the dual member would receive if all the service had been rendered in any one system. When calculating the maximum benefit a dual member would receive: (a) Military service granted under RCW 41.40.170(3) or 43.43.260 shall be based only on service accrued under chapter 41.40 or 43.43 RCW, respectively; and (b) the calculation shall be made assuming that the dual member did not defer any allowances pursuant to RCW 41.54.030(3). When a dual member's combined retirement allowances would exceed the limitation imposed by this subsection, the allowances shall be reduced by the systems on a proportional basis, according to service. The limitation imposed by this subsection shall not apply to a dual member with:

(i) Less than fifteen years of service credit in a plan with a retirement benefit cap as defined by the department; and

(ii) Service credit in a plan with no retirement benefit cap. [2007 c 207 § 3; 1996 c 55 § 6; 1988 c 195 § 4; 1987 c 192 § 7.]

Employees whose eligibility for collective bargaining is covered by chapter 28B.52, 41.76, or 41.80 RCW are exempt from the provisions of this chapter.

(3) Institutions of higher education and the exclusive bargaining representatives shall not agree to any proposal that would prevent the implementation of approved affirmative action plans or that would be inconsistent with the comparable worth agreement that provided the basis for the salary changes implemented beginning with the 1983-1985 biennium to achieve comparable worth.

(4) Institutions of higher education and the exclusive bargaining representative shall not bargain over rights of management that, in addition to all powers, duties, and rights established by constitutional provision or statute, shall include but not be limited to the following:

The public employer shall be represented for bargaining purposes by the governor or the governor's designee appointed under chapter 41.80 RCW.

(2) This chapter governs the collective bargaining relationship between the governor and family child care providers, except as follows:

(a) A statewide unit of all family child care providers is the only unit appropriate for purposes of collective bargaining under RCW 41.56.060.

(b) The exclusive bargaining representative of family child care providers in the unit specified in (a) of this subsection shall be the representative chosen in an election conducted pursuant to RCW 41.56.070, except that in the initial election conducted under chapter 54, Laws of 2006, if more than one labor organization is on the ballot and none of the choices receives a majority of the votes cast, a run-off election shall be held.

(c) Notwithstanding the definition of "collective bargaining" in RCW 41.56.030(4), the scope of collective bargaining for child care providers under this section shall be limited solely to: (i) Economic compensation, such as manner and rate of subsidy and reimbursement, including tiered reimbursements; (ii) health and welfare benefits; (iii) professional development and training; (iv) labor-management committees; (v) grievance procedures; and (vi) other economic matters. By such obligation neither party shall be compelled to agree to a proposal or be required to make a concession unless otherwise provided in this chapter.

(d) The mediation and interest arbitration provisions of RCW 41.56.430 through 41.56.470 and 41.56.480 apply, except that:

(i) With respect to commencement of negotiations between the governor and the exclusive bargaining representative of family child care providers, negotiations shall be commenced initially upon certification of an exclusive bargaining representative under (a) of this subsection and, thereafter, by February 1st of any even-numbered year; and

(ii) The decision of the arbitration panel is not binding on the legislature and, if the legislature does not approve the request for funds necessary to implement the compensation and benefit provisions of the arbitrated collective bargaining agreement, is not binding on the state.

(e) Family child care providers do not have the right to strike.

(3) Family child care providers who are public employees solely for the purposes of collective bargaining under subsection (1) of this section are not, for that reason, employees of the state for any purpose. This section applies only to the governance of the collective bargaining relationship between the employer and family child care providers as provided in subsections (1) and (2) of this section.

(4) This section does not create or modify:

(a) The parents' or legal guardians' right to choose and terminate the services of any family child care provider that provides care for their child or children;

(b) The secretary of the department of social and health services' right to adopt requirements under RCW 74.15.030, except for requirements related to grievance procedures and collective negotiations on personnel matters as specified in subsection (2)(c) of this section;

(c) Chapter 26.44 RCW, RCW 43.43.832, 43.20A.205, and 74.15.130; and

(d) The legislature's right to make programmatic modifications to the delivery of state services through child care subsidy programs, including standards of eligibility of parents, legal guardians, and family child care providers participating in child care subsidy programs, and the nature of services provided. The governor shall not enter into, extend, or renew any agreement under this section that does not expressly reserve the legislative rights described in this subsection (4)(d).

(5) Upon meeting the requirements of subsection (6) of this section, the governor must submit, as a part of the proposed biennial or supplemental operating budget submitted to the legislature under RCW 43.88.030, a request for funds necessary to implement the compensation and benefit provisions of a collective bargaining agreement entered into under this section or for legislation necessary to implement such agreement.

(6) A request for funds necessary to implement the compensation and benefit provisions of a collective bargaining agreement entered into under this section shall not be submitted by the governor to the legislature unless such request has been:

(a) Submitted to the director of financial management by October 1st before the legislative session at which the request is to be considered, except that, for initial negotiations under this section, the request must be submitted by November 15, 2006; and

(b) Certified by the director of financial management as being feasible financially for the state or reflects the binding decision of an arbitration panel reached under this section.

(7) The legislature must approve or reject the submission of the request for funds as a whole. If the legislature rejects or fails to act on the submission, any such agreement will be reopened solely for the purpose of renegotiating the funds necessary to implement the agreement.

(8) The governor shall periodically consult with the joint committee on employment relations established by RCW 41.80.010 regarding appropriations necessary to implement the compensation and benefit provisions of any collective bargaining agreement and, upon completion of negotiations, advise the committee on the elements of the agreement and on any legislation necessary to implement such agreement.

(9) After the expiration date of any collective bargaining agreement entered into under this section, all of the terms and conditions specified in any such agreement remain in effect until the effective date of a subsequent agreement, not to exceed one year from the expiration date stated in the agreement, except as provided in subsection (4)(d) of this section.

(10) If, after the compensation and benefit provisions of an agreement are approved by the legislature, a significant revenue shortfall occurs resulting in reduced appropriations, as declared by proclamation of the governor or by resolution of the legislature, both parties shall immediately enter into

collective bargaining for a mutually agreed upon modification of the agreement.

(11) In enacting this section, the legislature intends to provide state action immunity under federal and state anti-trust laws for the joint activities of family child care providers and their exclusive bargaining representative to the extent such activities are authorized by this chapter. [2007 c 278 § 2; 2006 c 54 § 1.]

**41.56.029 Application of chapter to adult family home providers—Governor as public employer—Procedure—Intent.**

(1) In addition to the entities listed in RCW 41.56.020, this chapter applies to the governor with respect to adult family home providers. Solely for the purposes of collective bargaining and as expressly limited under subsections (2) and (3) of this section, the governor is the public employer of adult family home providers who, solely for the purposes of collective bargaining, are public employees. The public employer shall be represented for bargaining purposes by the governor or the governor's designee.

(2) There shall be collective bargaining, as defined in RCW 41.56.030, between the governor and adult family home providers, except as follows:

(a) A statewide unit of all adult family home providers is the only unit appropriate for purposes of collective bargaining under RCW 41.56.060.

(b) The exclusive bargaining representative of adult family home providers in the unit specified in (a) of this subsection shall be the representative chosen in an election conducted pursuant to RCW 41.56.070.

Bargaining authorization cards furnished as the showing of interest in support of any representation petition or motion for intervention filed under this section shall be exempt from disclosure under chapter 42.56 RCW.

(c) Notwithstanding the definition of "collective bargaining" in RCW 41.56.030(4), the scope of collective bargaining for adult family home providers under this section shall be limited solely to: (i) Economic compensation, such as manner and rate of subsidy and reimbursement, including tiered reimbursements; (ii) health and welfare benefits; (iii) professional development and training; (iv) labor-management committees; (v) grievance procedures; and (vi) other economic matters. Retirement benefits shall not be subject to collective bargaining. By such obligation neither party shall be compelled to agree to a proposal or be required to make a concession unless otherwise provided in this chapter.

(d) In addition to the entities listed in the mediation and interest arbitration provisions of RCW 41.56.430 through 41.56.470 and 41.56.480, the provisions apply to the governor or the governor's designee and the exclusive bargaining representative of adult family home providers, except that:

(i) In addition to the factors to be taken into consideration by an interest arbitration panel under RCW 41.56.465, the panel shall consider the financial ability of the state to pay for the compensation and benefit provisions of a collective bargaining agreement.

(ii) The decision of the arbitration panel is not binding on the legislature and, if the legislature does not approve the request for funds necessary to implement the compensation and benefit provisions of the arbitrated collective bargaining agreement, the decision is not binding on the state.

(e) Adult family home providers do not have the right to strike.

(3) Adult family home providers who are public employees solely for the purposes of collective bargaining under subsection (1) of this section are not, for that reason, employees of the state for any other purpose. This section applies only to the governance of the collective bargaining relationship between the employer and adult family home providers as provided in subsections (1) and (2) of this section.

(4) This section does not create or modify:

(a) The department's authority to establish a plan of care for each consumer or its core responsibility to manage long-term care services under chapter 70.128 RCW, including determination of the level of care that each consumer is eligible to receive. However, at the request of the exclusive bargaining representative, the governor or the governor's designee appointed under chapter 41.80 RCW shall engage in collective bargaining, as defined in RCW 41.56.030(4), with the exclusive bargaining representative over how the department's core responsibility affects hours of work for adult family home providers. This subsection shall not be interpreted to require collective bargaining over an individual consumer's plan of care;

(b) The department's obligation to comply with the federal medicaid statute and regulations and the terms of any community-based waiver granted by the federal department of health and human services and to ensure federal financial participation in the provision of the services;

(c) The legislature's right to make programmatic modifications to the delivery of state services under chapter 70.128 RCW, including standards of eligibility of consumers and adult family home providers participating in the programs under chapter 70.128 RCW, and the nature of services provided. The governor shall not enter into, extend, or renew any agreement under this chapter that does not expressly reserve the legislative rights described in this subsection (4)(c);

(d) The residents', parents', or legal guardians' right to choose and terminate the services of any licensed adult family home provider; and

(e) RCW 43.43.832, 43.20A.205, or 74.15.130.

(5) Upon meeting the requirements of subsection (6) of this section, the governor must submit, as a part of the proposed biennial or supplemental operating budget submitted to the legislature under RCW 43.88.030, a request for funds necessary to implement the compensation and benefit provisions of a collective bargaining agreement entered into under this section or for legislation necessary to implement the agreement.

(6) A request for funds necessary to implement the compensation and benefit provisions of a collective bargaining agreement entered into under this section shall not be submitted by the governor to the legislature unless the request has been:

(a) Submitted to the director of financial management by October 1st prior to the legislative session at which the requests are to be considered; and

(b) Certified by the director of financial management as financially feasible for the state or reflective of a binding decision of an arbitration panel reached under subsection (2)(d) of this section.

(7) The legislature must approve or reject the submission of the request for funds as a whole. If the legislature rejects or fails to act on the submission, any collective bargaining agreement must be reopened for the sole purpose of renegotiating the funds necessary to implement the agreement.

(8) If, after the compensation and benefit provisions of an agreement are approved by the legislature, a significant revenue shortfall occurs resulting in reduced appropriations, as declared by proclamation of the governor or by resolution of the legislature, both parties shall immediately enter into collective bargaining for a mutually agreed upon modification of the agreement.

(9) After the expiration date of any collective bargaining agreement entered into under this section, all of the terms and conditions specified in the agreement remain in effect until the effective date of a subsequent agreement, not to exceed one year from the expiration date stated in the agreement.

(10) In enacting this section, the legislature intends to provide state action immunity under federal and state anti-trust laws for the joint activities of adult family home providers and their exclusive bargaining representative to the extent the activities are authorized by this chapter. [2007 c 184 § 1.]

**Part headings not law—2007 c 184:** "Part headings used in this act are not any part of the law." [2007 c 184 § 9.]

**Severability—2007 c 184:** "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [2007 c 184 § 10.]

**Conflict with federal requirements—2007 c 184:** "If any part of this act is found to be in conflict with federal requirements that are a prescribed condition to the allocation of federal funds to the state, the conflicting part of this act is inoperative solely to the extent of the conflict and with respect to the agencies directly affected, and this finding does not affect the operation of the remainder of this act in its application to the agencies concerned. Rules adopted under this act must meet federal requirements that are a necessary condition to the receipt of federal funds by the state." [2007 c 184 § 11.]

(1) In making its determination, the panel shall be mindful of the legislative purpose enumerated in RCW 41.56.430 and, as additional standards or guidelines to aid it in reaching a decision, the panel shall consider:

(2) For employees listed in RCW 41.56.030(7) (a) through (d), the panel shall also consider a comparison of the wages, hours, and conditions of employment of personnel involved in the proceedings with the wages, hours, and con-

ditions of employment of like personnel of like employers of similar size on the west coast of the United States.

(3) For employees listed in RCW 41.56.030(7) (e) through (h), the panel shall also consider a comparison of the wages, hours, and conditions of employment of personnel involved in the proceedings with the wages, hours, and conditions of employment of like personnel of public fire departments of similar size on the west coast of the United States. However, when an adequate number of comparable employers exists within the state of Washington, other west coast employers may not be considered.

(4) For employees listed in RCW 41.56.028:

(i) A comparison of child care provider subsidy rates and reimbursement programs by public entities, including counties and municipalities, along the west coast of the United States; and

(ii) The financial ability of the state to pay for the compensation and benefit provisions of a collective bargaining agreement; and

(b) The panel may consider:

(i) The public's interest in reducing turnover and increasing retention of child care providers;

(ii) The state's interest in promoting, through education and training, a stable child care workforce to provide quality and reliable child care from all providers throughout the state; and

(ii) The financial ability of the state to pay for the compensation and fringe benefit provisions of a collective bargaining agreement; and

(b) The panel may consider:

(i) A comparison of wages, hours, and conditions of employment of publicly employed personnel providing similar services to similar clients, including clients who are elderly, frail, or have developmental disabilities, both in the state and across the United States;

(ii) The state's interest in promoting a stable long-term care workforce to provide quality and reliable care to vulnerable elderly and disabled recipients;

(iii) The state's interest in ensuring access to affordable, quality health care for all state citizens; and

(iv) The state's fiscal interest in reducing reliance upon public benefit programs including but not limited to medical coupons, food stamps, subsidized housing, and emergency medical services.

(6) Subsections (2) and (3) of this section may not be construed to authorize the panel to require the employer to pay, directly or indirectly, the increased employee contributions resulting from chapter 502, Laws of 1993 or chapter

517, Laws of 1993 as required under chapter 41.26 RCW. [2007 c 278 § 1; 1995 c 273 § 2; 1993 c 398 § 3.]

The exception provided in this subsection does not apply to a county with a population of one hundred twenty-five thousand or more, a city with a population of more than one thousand five hundred, an irrigation district encompassing more than fifty thousand acres, or a first class school district;

(6)(a) The letting of any other contract in which the total amount received under the contract or contracts by the municipal officer or the municipal officer's business does not exceed one thousand five hundred dollars in any calendar month.

(b) However, in the case of a particular officer of a second class city or town, or a noncharter optional code city, or a member of any county fair board in a county which has not established a county purchasing department pursuant to RCW 36.32.240, the total amount of such contract or contracts authorized in this subsection (6) may exceed one thousand five hundred dollars in any calendar month but shall not exceed eighteen thousand dollars in any calendar year.

(c)(i) In the case of a particular officer of a rural public hospital district, as defined in RCW 70.44.460, the total amount of such contract or contracts authorized in this subsection (6) may exceed one thousand five hundred dollars in any calendar month, but shall not exceed twenty-four thousand dollars in any calendar year.

(ii) At the beginning of each calendar year, beginning with the 2006 calendar year, the legislative authority of the rural public hospital district shall increase the calendar year limitation described in this subsection (6)(c) by an amount equal to the dollar amount for the previous calendar year multiplied by the change in the consumer price index as of the

close of the twelve-month period ending December 31st of that previous calendar year. If the new dollar amount established under this subsection is not a multiple of ten dollars, the increase shall be rounded to the next lowest multiple of ten dollars. As used in this subsection, "consumer price index" means the consumer price index compiled by the bureau of labor statistics, United States department of labor for the state of Washington. If the bureau of labor statistics develops more than one consumer price index for areas within the state, the index covering the greatest number of people, covering areas exclusively within the boundaries of the state, and including all items shall be used.

(d) The exceptions provided in this subsection (6) do not apply to:

(i) A sale or lease by the municipality as the seller or lessor;

(ii) The letting of any contract by a county with a population of one hundred twenty-five thousand or more, a city with a population of ten thousand or more, or an irrigation district encompassing more than fifty thousand acres; or

(iii) Contracts for legal services, except for reimbursement of expenditures.

(e) The municipality shall maintain a list of all contracts that are awarded under this subsection (6). The list must be made available for public inspection and copying;

(7) The leasing by a port district as lessor of port district property to a municipal officer or to a contracting party in which a municipal officer may be beneficially interested, if in addition to all other legal requirements, a board of three disinterested appraisers and the superior court in the county where the property is situated finds that all terms and conditions of such lease are fair to the port district and are in the public interest. The appraisers must be appointed from members of the American Institute of Real Estate Appraisers by the presiding judge of the superior court;

(8) The letting of any employment contract for the driving of a school bus in a second class school district if the terms of such contract are commensurate with the pay plan or collective bargaining agreement operating in the district;

(9) The letting of an employment contract as a substitute teacher or substitute educational aide to an officer of a second class school district that has two hundred or fewer full-time equivalent students, if the terms of the contract are commensurate with the pay plan or collective bargaining agreement operating in the district and the board of directors has found, consistent with the written policy under RCW 28A.330.240, that there is a shortage of substitute teachers in the school district;

(10) The letting of any employment contract to the spouse of an officer of a school district, when such contract is solely for employment as a substitute teacher for the school district. This exception applies only if the terms of the contract are commensurate with the pay plan or collective bargaining agreement applicable to all district employees and the board of directors has found, consistent with the written policy under RCW 28A.330.240, that there is a shortage of substitute teachers in the school district;

(11) The letting of any employment contract to the spouse of an officer of a school district if the spouse was under contract as a certificated or classified employee with the school district before the date in which the officer

assumes office and the terms of the contract are commensurate with the pay plan or collective bargaining agreement operating in the district. However, in a second class school district that has less than two hundred full-time equivalent students enrolled at the start of the school year as defined in RCW 28A.150.040, the spouse is not required to be under contract as a certificated or classified employee before the date on which the officer assumes office;

(12) The authorization, approval, or ratification of any employment contract with the spouse of a public hospital district commissioner if: (a) The spouse was employed by the public hospital district before the date the commissioner was initially elected; (b) the terms of the contract are commensurate with the pay plan or collective bargaining agreement operating in the district for similar employees; (c) the interest of the commissioner is disclosed to the board of commissioners and noted in the official minutes or similar records of the public hospital district prior to the letting or continuation of the contract; and (d) and the commissioner does not vote on the authorization, approval, or ratification of the contract or any conditions in the contract.

A municipal officer may not vote in the authorization, approval, or ratification of a contract in which he or she is beneficially interested even though one of the exemptions allowing the awarding of such a contract applies. The interest of the municipal officer must be disclosed to the governing body of the municipality and noted in the official minutes or similar records of the municipality before the formation of the contract. [2007 c 298 § 1; 2006 c 121 § 1; 2005 c 114 § 1; 1999 c 261 § 2; 1997 c 98 § 1; 1996 c 246 § 1. **Findings—Intent—1999 c 261:** "The legislature finds that:

(1) The current statutes pertaining to municipal officers' beneficial interest in contracts are quite confusing and have resulted in some inadvertent violations of the law.

(2) The dollar thresholds for many of the exemptions have not been changed in over thirty-five years, and the restrictions apply to the total amount of the contract instead of the portion of the contract that pertains to the business operated by the municipal officer.

(3) The confusion existing over these current statutes discourages some municipalities from accessing some efficiencies available to them.

Therefore, it is the intent of the legislature to clarify the statutes pertaining to municipal officers and contracts and to enact reasonable protections against inappropriate conflicts of interest." [1999 c 261 § 1.]

**Severability—1980 c 39:** "If any provision of this amendatory act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1980 c 39 § 3.]

**42.52.805 Solicitation for charitable activities of executive branch state employees—Limitations—Definitions.** (1) When soliciting gifts, grants, or donations solely to support the charitable activities of executive branch state employees conducted pursuant to RCW 9.46.0209, the executive branch state officers and executive branch state employees are presumed not to be in violation of the solicitation and receipt of gift provisions in RCW 42.52.140. **42.56.010 Definitions.** The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Agency" includes all state agencies and all local agencies. "State agency" includes every state office, department, division, bureau, board, commission, or other state agency. "Local agency" includes every county, city, town, municipal corporation, quasi-municipal corporation, or special purpose district, or any office, department, division, bureau, board, commission, or agency thereof, or other local public agency.

(2) "Public record" includes any writing containing information relating to the conduct of government or the performance of any governmental or proprietary function prepared, owned, used, or retained by any state or local agency regardless of physical form or characteristics. For the office of the secretary of the senate and the office of the chief clerk of the house of representatives, public records means legislative records as defined in RCW 40.14.100 and also means the following: All budget and financial records; personnel leave, travel, and payroll records; records of legislative sessions; reports submitted to the legislature; and any other record designated a public record by any official action of the senate or the house of representatives.

(3) "Writing" means handwriting, typewriting, printing, photostating, photographing, and every other means of recording any form of communication or representation

including, but not limited to, letters, words, pictures, sounds, or symbols, or combination thereof, and all papers, maps, magnetic or paper tapes, photographic films and prints, motion picture, film and video recordings, magnetic or punched cards, discs, drums, diskettes, sound recordings, and other documents including existing data compilations from which information may be obtained or translated. [2007 c 197 § 1; 2005 c 274 § 101.]

**42.56.030 Construction.** The people of this state do not yield their sovereignty to the agencies that serve them. The people, in delegating authority, do not give their public servants the right to decide what is good for the people to know and what is not good for them to know. The people insist on remaining informed so that they may maintain control over the instruments that they have created. This chapter shall be liberally construed and its exemptions narrowly construed to promote this public policy and to assure that the public interest will be fully protected. In the event of conflict between the provisions of this chapter and any other act, the provisions of this chapter shall govern. [2007 c 197 § 2; 2005 c 274 § 283; 1992 c 139 § 2. Formerly RCW 42.17.251.]

**42.56.140 Public records exemptions accountability committee.** (1)(a) The public records exemptions accountability committee is created to review exemptions from public disclosure, with thirteen members as provided in this subsection.

(i) The governor shall appoint two members, one of whom represents the governor and one of whom represents local government.

(ii) The attorney general shall appoint two members, one of whom represents the attorney general and one of whom represents a statewide media association.

(iii) The state auditor shall appoint one member.

(iv) The president of the senate shall appoint one member from each of the two largest caucuses of the senate.

(v) The speaker of the house of representatives shall appoint one member from each of the two largest caucuses of the house of representatives.

(vi) The governor shall appoint four members of the public, with consideration given to diversity of viewpoint and geography.

(b) The governor shall select the chair of the committee from among its membership.

(c) Terms of the members shall be four years and shall be staggered, beginning August 1, 2007.

(2) The purpose of the public records exemptions accountability committee is to review public disclosure exemptions and provide recommendations pursuant to subsection (7)(d) of this section. The committee shall develop and publish criteria for review of public exemptions.

(3) All meetings of the committee shall be open to the public.

(4) The committee must consider input from interested parties.

(5) The office of the attorney general and the office of financial management shall provide staff support to the committee.

(6) Legislative members of the committee shall be reimbursed for travel expenses in accordance with RCW 44.04.120. Nonlegislative members, except those representing an employer or organization, are entitled to be reimbursed for travel expenses in accordance with RCW 43.03.050 and 43.03.060.

(7)(a) Beginning August 1, 2007, the code reviser shall provide the committee by August 1st of each year with a list of all public disclosure exemptions in the Revised Code of Washington.

(b) The committee shall develop a schedule to accomplish a review of each public disclosure exemption. The committee shall publish the schedule and publish any revisions made to the schedule.

(c) The chair shall convene an initial meeting of the committee by September 1, 2007. The committee shall meet at least once a quarter and may hold additional meetings at the call of the chair or by a majority vote of the members of the committee.

(d) For each public disclosure exemption, the committee shall provide a recommendation as to whether the exemption should be continued without modification, modified, scheduled for sunset review at a future date, or terminated. By November 15th of each year, the committee shall transmit its recommendations to the governor, the attorney general, and the appropriate committees of the house of representatives and the senate. [2007 c 198 § 2.]

**Finding—2007 c 198:** "The legislature recognizes that public disclosure exemptions are enacted to meet objectives that are determined to be in the public interest. Given the changing nature of information technology and management, recordkeeping, and the increasing number of public disclosure exemptions, the legislature finds that periodic reviews of public disclosure exemptions are needed to determine if each exemption serves the public interest." [2007 c 198 § 1.]

**42.56.270 Financial, commercial, and proprietary information. (Expires June 30, 2008.)** The following financial, commercial, and proprietary information is exempt from disclosure under this chapter:

(1) Commercial fishing catch data from logbooks required to be provided to the department of fish and wildlife under RCW 77.12.047, when the data identifies specific catch location, timing, or methodology and the release of which would result in unfair competitive disadvantage to the commercial fisher providing the catch data, however, this information may be released to government agencies concerned with the management of fish and wildlife resources;

(2) Sensitive fish and wildlife data. Sensitive fish and wildlife data may be released to the following entities and their agents for fish, wildlife, land management purposes, or scientific research needs: Government agencies, public utilities, and accredited colleges and universities. Sensitive fish and wildlife data may be released to tribal governments. Sensitive fish and wildlife data may also be released to the owner, lessee, or right-of-way or easement holder of the private land to which the data pertains. The release of sensitive fish and wildlife data may be subject to a confidentiality agreement, except upon release of sensitive fish and wildlife data to the owner, lessee, or right-of-way or easement holder of private land who initially provided the data. Sensitive fish and wildlife data does not include data related to reports of predatory wildlife as specified in RCW 77.12.885. Sensitive fish and wildlife data must meet at least one of the following criteria of this subsection as applied by the department of fish and wildlife:

(a) The nesting sites or specific locations of endangered species designated under RCW 77.12.020, or threatened or sensitive species classified by rule of the department of fish and wildlife;

(b) Radio frequencies used in, or locational data generated by, telemetry studies; or

(c) Other location data that could compromise the viability of a specific fish or wildlife population, and where at least one of the following criteria are met:

(i) The species has a known commercial or black market value;

(ii) There is a history of malicious take of that species and the species behavior or ecology renders it especially vulnerable;

(iii) There is a known demand to visit, take, or disturb the species; or

(iv) The species has an extremely limited distribution and concentration; and

(3) The personally identifying information of persons who acquire recreational licenses under RCW 77.32.010 or commercial licenses under chapter 77.65 or 77.70 RCW, except name, address of contact used by the department, and type of license, endorsement, or tag; however, the department

of fish and wildlife may disclose personally identifying information to:

(a) Government agencies concerned with the management of fish and wildlife resources;

(b) The department of social and health services, child support division, and to the department of licensing in order to implement RCW 77.32.014 and 46.20.291; and

(c) Law enforcement agencies for the purpose of firearm possession enforcement under RCW 9.41.040. [2007 c 293 § 1; 2005 c 274 § 423.]

**42.56.570 Explanatory pamphlet.** (1) The attorney general's office shall publish, and update when appropriate, a pamphlet, written in plain language, explaining this chapter.

(2) The attorney general, by February 1, 2006, shall adopt by rule an advisory model rule for state and local agencies, as defined in RCW 42.56.010, addressing the following subjects:

(a) Providing fullest assistance to requestors;

(b) Fulfilling large requests in the most efficient manner;

(c) Fulfilling requests for electronic records; and

(d) Any other issues pertaining to public disclosure as determined by the attorney general.

(3) The attorney general, in his or her discretion, may from time to time revise the model rule. [2007 c 197 § 8. Prior: 2005 c 483 § 4; 2005 c 274 § 290; 1992 c 139 § 9. Formerly RCW 42.17.348.]

**42.56.580 Public records officers.** (1) Each state and local agency shall appoint and publicly identify a public records officer whose responsibility is to serve as a point of contact for members of the public in requesting disclosure of public records and to oversee the agency's compliance with the public records disclosure requirements of this chapter. A state or local agency's public records officer may appoint an employee or official of another agency as its public records officer.

(2) For state agencies, the name and contact information of the agency's public records officer to whom members of the public may direct requests for disclosure of public records and who will oversee the agency's compliance with the public records disclosure requirements of this chapter shall be published in the state register at the time of designation and maintained thereafter on the code reviser web site for the duration of the designation.

(3) For local agencies, the name and contact information of the agency's public records officer to whom members of the public may direct requests for disclosure of public records and who will oversee the agency's compliance within the public records disclosure requirements of this chapter shall be made in a way reasonably calculated to provide notice to the public, including posting at the local agency's place of business, posting on its internet site, or including in its publications. [2007 c 456 § 6; 2005 c 483 § 3. Formerly RCW 42.17.253.]

**42.56.590 Personal information—Notice of security breaches.** (1)(a) Any agency that owns or licenses computerized data that includes personal information shall disclose any breach of the security of the system following discovery

or notification of the breach in the security of the data to any resident of this state whose unencrypted personal information was, or is reasonably believed to have been, acquired by an unauthorized person. The disclosure shall be made in the most expedient time possible and without unreasonable delay, consistent with the legitimate needs of law enforcement, as provided in subsection (3) of this section, or any measures necessary to determine the scope of the breach and restore the reasonable integrity of the data system.

(b) For purposes of this section, "agency" means the same as in RCW 42.56.010.

(2) Any agency that maintains computerized data that includes personal information that the agency does not own shall notify the owner or licensee of the information of any breach of the security of the data immediately following discovery, if the personal information was, or is reasonably believed to have been, acquired by an unauthorized person.

(3) The notification required by this section may be delayed if a law enforcement agency determines that the notification will impede a criminal investigation. The notification required by this section shall be made after the law enforcement agency determines that it will not compromise the investigation.

(4) For purposes of this section, "breach of the security of the system" means unauthorized acquisition of computerized data that compromises the security, confidentiality, or integrity of personal information maintained by the agency. Good faith acquisition of personal information by an employee or agent of the agency for the purposes of the agency is not a breach of the security of the system when the personal information is not used or subject to further unauthorized disclosure.

(5) For purposes of this section, "personal information" means an individual's first name or first initial and last name in combination with any one or more of the following data elements, when either the name or the data elements are not encrypted:

(a) Social security number;

(b) Driver's license number or Washington identification card number; or

(c) Account number or credit or debit card number, in combination with any required security code, access code, or password that would permit access to an individual's financial account.

(6) For purposes of this section, "personal information" does not include publicly available information that is lawfully made available to the general public from federal, state, or local government records.

(7) For purposes of this section and except under subsection (8) of this section, notice may be provided by one of the following methods:

(a) Written notice;

(b) Electronic notice, if the notice provided is consistent with the provisions regarding electronic records and signatures set forth in 15 U.S.C. Sec. 7001; or

(c) Substitute notice, if the agency demonstrates that the cost of providing notice would exceed two hundred fifty thousand dollars, or that the affected class of subject persons to be notified exceeds five hundred thousand, or the agency does not have sufficient contact information. Substitute notice shall consist of all of the following:

(i) E-mail notice when the agency has an e-mail address for the subject persons;

(ii) Conspicuous posting of the notice on the agency's web site page, if the agency maintains one; and

(iii) Notification to major statewide media.

(8) An agency that maintains its own notification procedures as part of an information security policy for the treatment of personal information and is otherwise consistent with the timing requirements of this section is in compliance with the notification requirements of this section if it notifies subject persons in accordance with its policies in the event of a breach of security of the system.

(9) Any waiver of the provisions of this section is contrary to public policy, and is void and unenforceable.

(10)(a) Any customer injured by a violation of this section may institute a civil action to recover damages.

(b) Any business that violates, proposes to violate, or has violated this section may be enjoined.

(c) The rights and remedies available under this section are cumulative to each other and to any other rights and remedies available under law.

(d) An agency shall not be required to disclose a technical breach of the security system that does not seem reasonably likely to subject customers to a risk of criminal activity. [2007 c 197 § 9; 2005 c 368 § 1. Formerly RCW 42.17.31922.]

*Similar provision: RCW 19.255.010.*

**42.56.904 Intent—2007 c 391.** It is the intent of the legislature to clarify that no reasonable construction of chapter 42.56 RCW has ever allowed attorney invoices to be withheld in their entirety by any public entity in a request for documents under that chapter. It is further the intent of the legislature that specific descriptions of work performed be redacted only if they would reveal an attorney's mental impressions, actual legal advice, theories, or opinions, or are otherwise exempt under chapter 391, Laws of 2007 or other laws, with the burden upon the public entity to justify each redaction and narrowly construe any exception to full disclosure. The legislature intends to clarify that the public's interest in open, accountable government includes an accounting of any expenditure of public resources, including through liability insurance, upon private legal counsel or private consultants. (2) A cigarette tax contract under this section is subject to RCW 43.06.455. [2007 c 320 § 1; 2005 c 208 § 1; 2003 c 236 § 1; 2002 c 87 § 1; 2001 2nd sp.s. c 21 § 1; 2001 c 235 § 3.]

#### 43.06.475 Timber harvest excise tax agreements. (1)

The governor may enter into timber harvest excise tax agreements concerning the harvest of timber. All timber harvest excise tax agreements must meet the requirements for timber harvest excise tax agreements under this section. The terms of a timber harvest excise tax agreement are not effective unless the agreement is authorized in RCW 43.06.480.

(2) Timber harvest excise tax agreements shall be in regard to timber harvests on fee land within the exterior boundaries of the reservation of the Indian tribe and are not in regard to timber harvests on trust land or land owned by the tribe within the exterior boundaries of the reservation.

(3) The agreement must provide that the tribal tax shall be credited against the state and county taxes imposed under RCW 84.33.041 and 84.33.051.

(4) Tribal ordinances for timber harvest excise taxation, or other authorizing tribal laws, which implement the timber harvest excise tax agreement with the state, must incorporate or contain provisions identical to chapter 84.33 RCW that relate to the tax rates and measures, such as stumpage values.

(5) Timber harvest excise tax agreements must be for renewable periods of no more than eight years.

(6) Timber harvest excise tax agreements must include provisions for compliance, such as inspection procedures, recordkeeping, and audit requirements.

(7) Tax revenue retained by the tribe must be used for essential government services. Use of tax revenue for subsidization of timber harvesters is prohibited.

(8) The timber harvest excise tax agreement may include provisions to resolve disputes using a nonjudicial process, such as mediation.

(9) The governor may delegate the power to negotiate the timber harvest excise tax agreements to the department of revenue.

(10) Information received by the state or open to state review under the terms of a timber harvest excise tax agreement is subject to the provisions of RCW 82.32.330. The department of revenue may enter into an information sharing agreement with the tribe to facilitate sharing information to improve tax collection.

(11) The timber harvest excise tax agreement must include dispute resolution procedures, contract termination procedures, and provisions delineating the respective roles and responsibilities of the tribe and the department of revenue.

(12) The timber harvest excise tax agreement must include provisions to require taxpayers to submit information that may be required by the department of revenue or tribe.

(13) For the purposes of this section:

(a) "Essential government services" means services such as forest land management; protection, enhancement, regulation, and stewardship of forested land; land consolidation; tribal administration; public facilities; fire; police; public health; education; job services; sewer; water; environmental and land use; transportation; utility services; and public facilities serving economic development purposes as those terms are defined in RCW 82.14.370(3)(c);

(b) "Forest land" has the same meaning as in RCW 84.33.035;

(c) "Harvester" has the same meaning as in RCW 84.33.035;

(d) "Indian tribe" or "tribe" means a federally recognized Indian tribe located within the geographical boundaries of the state of Washington; and

(e) "Timber" has the same meaning as in RCW 84.33.035. [2007 c 69 § 2.]

**Findings—Intent—2007 c 69:** "The legislature finds that in certain areas of taxation, where both a tribe and the state have jurisdiction and where there are challenges to administering a tax, tax agreements between the state and a tribe are a sound approach to resolving issues and simplifying processes. The legislature specifically recognizes that in the area of the timber excise tax, within the boundaries of the Quinault Reservation, the state faces challenges due to access to land and access to taxpayers. The activity being taxed takes place entirely within the reservation and is regulated by the tribe and by the state. The legislature therefore finds that shifting from a state administered tax, to a tribal tax credited against the state tax, will bring benefits such as consistent taxation, improved forest practices and water quality, improved fisheries, and sustainability. The legislature intends to further the government-to-government relationship between the state of Washington and the Quinault Nation by authorizing the governor to enter into an agreement related to timber harvest excise taxes." [2007 c 69 § 1.]

**43.06.480 Timber harvest excise tax agreements—Quinault Nation.** (1) The governor is authorized to enter into a timber harvest excise tax agreement with the Quinault Nation. Agreements adopted under this section must provide that the tribal timber harvest excise tax rate be one hundred percent of the state timber harvest excise tax.

(2) A timber harvest excise tax agreement under this section is subject to RCW 43.06.475. [2007 c 69 § 3.]

**Findings—Intent—2007 c 69:** See note following RCW 43.06.475.

**Findings—Intent—2005 c 319:** "The legislature finds that it is in the interest of the state to restructure the roles and responsibilities of the state's transportation agencies in order to improve efficiency and accountability. The legislature also finds that continued citizen oversight of the state's transportation system remains an important priority. To achieve these purposes, the legislature intends to provide direct accountability of the department of transportation to the governor, in his or her role as chief executive officer of state government, by making the secretary of transportation a cabinet-level official. Additionally, it is essential to clearly delineate between the separate and distinct roles and responsibilities of the executive and legislative branches of government. The role of executive is to oversee the implementation of transportation programs, while the legislature reserves to itself the role of policymaking. Finally, consolidating public outreach and auditing of the state's transportation agencies under a single citizen-governed entity, the transportation commission, will provide the public with information about the performance of the transportation system and an avenue for direct participation in its oversight." [2007 RCW Supp—page 474]

**43.17.400 Disposition of state-owned land—Definitions—Notice.** (1) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Disposition" means sales, exchanges, or other actions resulting in a transfer of land ownership.

(b) "State agencies" includes:

(i) The department of natural resources established in chapter 43.30 RCW;

(ii) The department of fish and wildlife established in chapter 43.300 RCW;

(iii) The department of transportation established in chapter 47.01 RCW;

(iv) The parks and recreation commission established in chapter 79A.05 RCW; and

(v) The department of general administration established in this chapter.

(2) State agencies proposing disposition of state-owned land must provide written notice of the proposed disposition to the legislative authorities of the counties, cities, and towns in which the land is located at least sixty days before entering into the disposition agreement.

(3) The requirements of this section are in addition and supplemental to other requirements of the laws of this state. [2007 c 62 § 2.]

**Finding—Intent—2007 c 62:** "The legislature recognizes that state agencies dispose of state-owned lands when these lands cannot be advantageously used by the agency or when dispositions are beneficial to the public's interest. The legislature also recognizes that dispositions of state-owned land can create opportunities for counties, cities, and towns wishing to purchase or otherwise acquire the lands, and citizens wishing to enjoy the lands for recreational or other purposes. However, the legislature finds that absent a specific requirement obligating state agencies to notify affected local governments of proposed land dispositions, occasions for governmental acquisition and public enjoyment of certain lands can be permanently lost.

Therefore, the legislature intends to enact an express and supplemental requirement obligating state agencies to notify local governments of proposed land dispositions." [2007 c 62 § 1.]

**Severability—2007 c 62:** "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [2007 c 62 § 13.]

The amount of biodiesel added to the ultra-low sulfur diesel fuel shall be not less than two percent.

(2) Effective June 1, 2009, state agencies are required to use a minimum of twenty percent biodiesel as compared to total volume of all diesel purchases made by the agencies for the operation of the agencies' diesel-powered vessels, vehicles, and construction equipment.

(3) All state agencies using biodiesel fuel shall, beginning on July 1, 2006, file biannual reports with the department of general administration documenting the use of the fuel and a description of how any problems encountered were resolved. [2007 c 348 § 201; 2006 c 338 § 10; 2003 c 17 § 2.]

**Findings—2003 c 17:** "The legislature recognizes that:

- (1) Biodiesel is less polluting than petroleum diesel;
- (2) Using biodiesel in neat form or blended with petroleum diesel significantly reduces air toxics and cancer-causing compounds as well as the soot associated with petroleum diesel exhaust;
- (3) Biodiesel degrades much faster than petroleum diesel;
- (4) Biodiesel is less toxic than petroleum fuels;
- (5) The United States environmental protection agency's new emission standards for petroleum diesel that take effect June 1, 2006, will require the addition of a lubricant to ultra-low sulfur diesel to counteract premature wear of injection pumps;
- (6) Biodiesel provides the needed lubricity to ultra-low sulfur diesel;
- (7) Biodiesel use in state-owned diesel-powered vehicles provides a means for the state to comply with the alternative fuel vehicle purchase requirements of the energy policy act of 1992, P.L. 102-486; and
- (8) The state is in a position to set an example of large scale use of biodiesel in diesel-powered vehicles and equipment." [2003 c 17 § 1.]

**43.19.647 Purchase of biofuels and biofuel blends—Contracting authority.** (1) In order to allow the motor vehicle fuel needs of state and local government to be satisfied by Washington-produced biofuels as provided in this chapter, the department of general administration as well as local governments may contract in advance and execute contracts with public or private producers, suppliers, or other parties, for the purchase of appropriate biofuels, as that term is defined in RCW 43.325.010, and biofuel blends. Contract provisions may address items including, but not limited to, fuel standards, price, and delivery date.

(2) The department of general administration may combine the needs of local government agencies, including ports, special districts, school districts, and municipal corporations, for the purposes of executing contracts for biofuels and to secure a sufficient and stable supply of alternative fuels. [2007 c 348 § 203.]

**Findings—Part headings not law—2007 c 348:** See RCW 43.325.005 and 43.325.903.

(2) Except for cars owned or operated by the Washington state patrol, when tires on vehicles in the state's motor vehicle fleet are replaced, they must be replaced with tires that have the same or better rolling resistance as the original tires. [2007 c 348 § 202.]

**Captions and part headings not law—2007 c 343:** See RCW 70.118B.900.

**Findings—1993 c 492:** "The legislature finds that our health and financial security are jeopardized by our ever increasing demand for health care and by current health insurance and health system practices. Current health system practices encourage public demand for unneeded, ineffective, and sometimes dangerous health treatments. These practices often result in unaffordable cost increases that far exceed ordinary inflation for essential care. Current total health care expenditure rates should be sufficient to provide access to essential health care interventions to all within a reformed, efficient system.

The legislature finds that too many of our state's residents are without health insurance, that each year many individuals and families are forced into poverty because of serious illness, and that many must leave gainful employment to be eligible for publicly funded medical services. Additionally, thousands of citizens are at risk of losing adequate health insurance, have had insurance canceled recently, or cannot afford to renew existing coverage.

The legislature finds that businesses find it difficult to pay for health insurance and remain competitive in a global economy, and that individuals, the poor, and small businesses bear an inequitable health insurance burden.

The legislature finds that persons of color have significantly higher rates of mortality and poor health outcomes, and substantially lower numbers and percentages of persons covered by health insurance than the general population. It is intended that chapter 492, Laws of 1993 make provisions to address the special health care needs of these racial and ethnic populations in order to improve their health status.

The legislature finds that uncontrolled demand and expenditures for health care are eroding the ability of families, businesses, communities, and governments to invest in other enterprises that promote health, maintain independence, and ensure continued economic welfare. Housing, nutrition, education, and the environment are all diminished as we invest ever increasing shares of wealth in health care treatments.

The legislature finds that while immediate steps must be taken, a long-term plan of reform is also needed." [1993 c 492 § 101.]

**Intent—1993 c 492:** "(1) The legislature intends that state government policy stabilize health services costs, assure access to essential services for all residents, actively address the health care needs of persons of color, improve the public's health, and reduce unwarranted health services costs to preserve the viability of nonhealth care businesses.

(2) The legislature intends that:

(a) Total health services costs be stabilized and kept within rates of increase similar to the rates of personal income growth within a publicly regulated, private marketplace that preserves personal choice;

(b) State residents be enrolled in the certified health plan of their choice that meets state standards regarding affordability, accessibility, cost-effectiveness, and clinical efficaciousness;

(c) State residents be able to choose health services from the full range of health care providers, as defined in RCW 43.72.010(12), in a manner consistent with good health services management, quality assurance, and cost effectiveness;

(d) Individuals and businesses have the option to purchase any health services they may choose in addition to those included in the uniform benefits package or supplemental benefits;

(e) All state residents, businesses, employees, and government participate in payment for health services, with total costs to individuals on a sliding scale based on income to encourage efficient and appropriate utilization of services;

(f) These goals be accomplished within a reformed system using private service providers and facilities in a way that allows consumers to choose among competing plans operating within budget limits and other regulations that promote the public good; and

(g) A policy of coordinating the delivery, purchase, and provision of health services among the federal, state, local, and tribal governments be encouraged and accomplished by chapter 492, Laws of 1993.

(3) Accordingly, the legislature intends that chapter 492, Laws of 1993 provide both early implementation measures and a process for overall reform of the health services system." [1993 c 492 § 102.]

43.20A.560 Development of options to expand health care options—Consideration of federal waivers and state plan amendments required.

**43.20A.560 Development of options to expand health care options—Consideration of federal waivers and state plan amendments required.** (1) The department of social and health services shall develop a series of options that require federal waivers and state plan amendments to expand coverage and leverage federal and state resources for the state's basic health program, for the medical assistance program, as codified at Title XIX of the federal social security act, and the state's children's health insurance program, as codified at Title XXI of the federal social security act. The department shall propose options including but not limited to:

(a) Offering alternative benefit designs to promote high quality care, improve health outcomes, and encourage cost-effective treatment options and redirect savings to finance additional coverage;

(b) Creation of a health opportunity account demonstration program for individuals eligible for transitional medical benefits. When a participant in the health opportunity account demonstration program satisfies his or her deductible, the benefits provided shall be those included in the medicaid benefit package in effect during the period of the demonstration program; and

(c) Promoting private health insurance plans and premium subsidies to purchase employer-sponsored insurance wherever possible, including federal approval to expand the department's employer-sponsored insurance premium assistance program to enrollees covered through the state's children's health insurance program.

(2) Prior to submitting requests for federal waivers or state plan amendments, the department shall consult with and seek input from stakeholders and other interested parties.

(3) The department of social and health services, in collaboration with the Washington state health care authority, shall ensure that enrollees are not simultaneously enrolled in the state's basic health program and the medical assistance program or the state's children's health insurance program to ensure coverage for the maximum number of people within available funds.  43.21A.690 Cost-reimbursement agreements.

**43.21A.681 Geoduck aquaculture operations—Guidelines—Rules.** (1) The department of ecology shall develop, by rule, guidelines for the appropriate siting and operation of geoduck aquaculture operations to be included in any master program under this section. The guidelines adopted under this section must be prepared with the advice of the shellfish aquaculture regulatory committee created in section 4, chapter 216, Laws of 2007, which shall serve as the advisory committee for the development of the guidelines.

(2) The guidelines required under this section must be filed for public review and comment no later than six months after the delivery of the final report by the shellfish aquaculture regulatory committee created in section 4, chapter 216, Laws of 2007.

(3) The department of ecology shall update the guidelines required under this section, as necessary, after the completion of the geoduck research by the sea grant program at the University of Washington required under RCW 28B.20.475. [2007 c 216 § 5.]

**Shellfish aquaculture regulatory committee—2007 c 216:** "(1) The shellfish aquaculture regulatory committee is established to, consistent with this section, serve as an advisory body to the department of ecology on regulatory processes and approvals for all current and new shellfish aquaculture activities, and the activities conducted pursuant to RCW 90.58.060, as the activities relate to shellfish. The shellfish aquaculture regulatory committee is advisory in nature, and no vote or action of the committee may overrule existing statutes, regulations, or local ordinances.

(2) The shellfish aquaculture regulatory committee shall develop recommendations as to:

(a) A regulatory system or permit process for all current and new shellfish aquaculture projects and activities that integrates all applicable existing local, state, and federal regulations and is efficient both for the regulators and the regulated; and

(b) Appropriate guidelines for geoduck aquaculture operations to be included in shoreline master programs under RCW 43.21A.681. When developing the recommendations for guidelines under this subsection, the committee must examine the following:

(i) Methods for quantifying and reducing marine litter; and

(ii) Possible landowner notification policies and requirements for establishing new geoduck aquaculture farms.

(3)(a) The members of the shellfish aquaculture regulatory committee shall be appointed by the director of the department of ecology as follows:

(i) Two representatives of county government, one from a county located on the Puget Sound, and one from a county located on the Pacific Ocean;

(ii) Two individuals who are professionally engaged in the commercial aquaculture of shellfish, one who owns or operates an aquatic farm in Puget Sound, and one who owns or operates an aquatic farm in state waters other than the Puget Sound;

(iii) Two representatives of organizations representing the environmental community;

(iv) Two individuals who own shoreline property, one of which [whom] does not have a commercial geoduck operation on his or her property and one of which who [whom] does have a commercial geoduck operation on his or her property; and

(v) One representative each from the following state agencies: The department of ecology, the department of fish and wildlife, the department of agriculture, and the department of natural resources.

(b) In addition to the other participants listed in this subsection, the governor shall invite the full participation of two tribal governments, at least one of which is located within the drainage of the Puget Sound.

(4) The department of ecology shall provide administrative and clerical assistance to the shellfish aquaculture regulatory committee and all agencies

listed in subsection (3) of this section shall provide technical assistance.

(5) Nonagency members of the shellfish aquaculture regulatory committee will not be compensated, but are entitled to be reimbursed for travel expenses in accordance with RCW 43.03.050 and 43.03.060.

(6) Any participation by a Native American tribe on the shellfish aquaculture regulatory committee shall not, under any circumstances, be viewed as an admission by the tribe that any of its activities, or those of its members, are subject to any of the statutes, regulations, ordinances, standards, or permit systems reviewed, considered, or proposed by the committee.

(7) The shellfish aquaculture regulatory committee is authorized to form technical advisory panels as needed and appoint to them members not on the shellfish aquaculture regulatory committee.

(8) The department of ecology shall report the recommendations and findings of the shellfish aquaculture regulatory committee to the appropriate committees of the legislature by December 1, 2007, with a further report, if necessary, by December 1, 2008." [2007 c 216 § 4.]

**43.21A.690 Cost-reimbursement agreements.** (1) The department may enter into a written cost-reimbursement agreement with a permit applicant or project proponent to recover from the applicant or proponent the reasonable costs incurred by the department in carrying out the requirements of this chapter, as well as the requirements of other relevant laws, as they relate to permit coordination, environmental review, application review, technical studies, and permit processing. The cost-reimbursement agreement shall identify the specific tasks, costs, and schedule for work to be conducted under the agreement.

(2) The written cost-reimbursement agreement shall be negotiated with the permit applicant or project proponent. Under the provisions of a cost-reimbursement agreement, funds from the applicant shall be used by the department to contract with an independent consultant to carry out the work covered by the cost-reimbursement agreement. The department may also use funds provided under a cost-reimbursement agreement to assign current staff to review the work of the consultant, to provide necessary technical assistance when an independent consultant with comparable technical skills is unavailable, and to recover reasonable and necessary direct and indirect costs that arise from processing the permit. The department shall, in developing the agreement, ensure that final decisions that involve policy matters are made by the agency and not by the consultant. The department shall make an estimate of the number of permanent staff hours to process the permits, and shall contract with consultants to replace the time and functions committed by these permanent staff to the project. The billing process shall provide for accurate time and cost accounting and may include a billing cycle that provides for progress payments. Use of cost-reimbursement agreements shall not reduce the current level of staff available to work on permits not covered by cost-reimbursement agreements. The department may not use any funds under a cost-reimbursement agreement to replace or supplant existing funding. The restrictions of chapter 42.52 RCW apply to any cost-reimbursement agreement, and to any person hired as a result of a cost-reimbursement agreement. [2007 c 94 § 10; 2003 c 70 § 1; 2000 c 251 § 2.]

**Intent—2000 c 251:** "It is the intent of the legislature to allow applicants for environmental permits for complex projects to compensate permitting agencies for providing environmental review through the voluntary negotiation of cost-reimbursement agreements with the permitting agency. It is the further intent of the legislature that cost-reimbursement agreements for complex projects free permitting agency resources to focus on the review of small projects permits." [2000 c 251 § 1.]

**Captions not law—2000 c 251:** "Captions used in this act are not any part of the law." [2000 c 251 § 8.]

43.30.490 Cost-reimbursement agreements.

**43.30.490 Cost-reimbursement agreements.** (1) The department may enter into a written cost-reimbursement agreement with a permit or lease applicant or project proponent to recover from the applicant or proponent the reasonable costs incurred by the department in carrying out the requirements of this chapter, as well as the requirements of other relevant laws, as they relate to permit coordination, environmental review, application review, technical studies, establishment of development units and approval or establishment of pooling agreements under chapter 78.52 RCW, including necessary technical studies, permit or lease processing, and monitoring for permit compliance. The cost-reimbursement agreement shall identify the specific tasks, costs, and schedule for work to be conducted under the agreement.

(2) The written cost-reimbursement agreement shall be negotiated with the permit or lease applicant or project proponent. Under the provisions of a cost-reimbursement agreement, funds from the applicant or proponent shall be used by the department to contract with an independent consultant to carry out the work covered by the cost-reimbursement agreement. The department may also use funds provided under a cost-reimbursement agreement to assign current staff to review the work of the consultant, to provide necessary technical assistance when an independent consultant with comparable technical skills is unavailable, and to recover reasonable and necessary direct and indirect costs that arise from processing the permit or lease. The department shall, in developing the agreement, ensure that final decisions that involve policy matters are made by the agency and not by the consultant. The department shall make an estimate of the number of permanent staff hours to process the permits or leases, and shall contract with consultants to replace the time and functions committed by these permanent staff to the project. The billing process shall provide for accurate time and cost accounting and may include a billing cycle that provides for progress payments. Use of cost-reimbursement agreements shall not reduce the current level of staff available to work on

permits or leases not covered by cost-reimbursement agreements. The department may not use any funds under a cost-reimbursement agreement to replace or supplant existing funding. The restrictions of chapter 42.52 RCW apply to any cost-reimbursement agreement, and to any person hired as a result of a cost-reimbursement agreement. **Intent—Effective date—2007 c 241:** See notes following RCW 79A.25.005.

**Findings—Intent—2001 c 227:** "The legislature finds that the amount of overall requests for funding for natural resource-related programs in the capital budget has been steadily growing. The legislature also finds that there is an increasing interest by the public in examining the performance of the projects and programs to determine the return on their investments and that a coordinated and integrated response by state agencies will allow for better targeting of resources. The legislature further finds that there is a need to improve the data and the integration of data that is collected by state agencies and grant and loan recipients in order to better measure the outcomes of projects and programs. The legislature intends to begin implementing the recommendations contained in the joint legislative audit and review committee's report number 01-1 on investing in the environment in order to improve the efficiency, effectiveness, and accountability of these natural resource-related programs funded in the state capital budget." [2001 c 227 § 1.]

**43.41.390 Implementation of federal REAL ID Act of 2005.** A state agency or program may not expend funds to implement or comply with the REAL ID Act of 2005, P.L. 109-13, unless: (1) The requirements of RCW 46.20.191 are met; and (2) federal funds are received by the state of Washington and are (a) allocated to fund the implementation of the REAL ID Act of 2005 in the state, and (b) in amounts sufficient to cover the costs of the state implementing or complying with the REAL ID Act of 2005, as those costs are estimated by the office of financial management. The director of the office of financial management shall ensure compliance with this section. [2007 c 85 § 1.]

**43.41.400 Education data center.** (1) An education data center shall be established in the office of financial management. The education data center shall conduct collaborative analyses under this section with the legislative evaluation and accountability program committee and provide data electronically to the legislative evaluation and accountability program committee, to the extent permitted by state and federal confidentiality requirements. The education data center shall be considered an authorized representative of the state educational agencies in this section under applicable federal and state statutes for purposes of accessing and compiling student record data for research purposes.

(2) The education data center shall:

(a) Coordinate with other state education agencies to compile and analyze education data, including data on student demographics that is disaggregated by distinct ethnic categories within racial subgroups, and complete P-20 research projects;

(b) Collaborate with the legislative evaluation and accountability program committee and the education and fiscal committees of the legislature in identifying the data to be compiled and analyzed to ensure that legislative interests are served;

(c) Track enrollment and outcomes through the public centralized higher education enrollment system;

Private, nonprofit institutions of higher education that provide programs of education beyond the high school level leading at least to the baccalaureate degree and are accredited by the Northwest association of schools and colleges or their peer accreditation bodies may also develop data-sharing and research agreements with the education data center, consistent with applicable security and confidentiality requirements. The education data center shall make data from collaborative analyses available to the education agencies and institutions that contribute data to the education data center to the extent allowed by federal and state security and confidentiality requirements applicable to the data of each contributing agency or institution. [2007 c 401 § 3.]

**43.42.005 Findings—Purpose—Intent.** (1) The legislature finds that the health and safety of its citizens, natural resources, and the environment are vital interests of the state that must be protected to preserve the state's quality of life. The legislature also finds that the state's economic well-being is a vital interest that depends upon the development of fair, accessible, and coordinated permitting and regulatory requirements that ensure that the state not only protects public health and safety and natural resources but also encourages appropriate activities that stimulate growth and development. The legislature further finds that Washington's permit-

ting and regulatory programs have established strict standards to protect public health and safety and the environment.

(2) The legislature also finds that, as the number of environmental and land use laws and requirements have grown in Washington, so have the number of permits required of business and government. The increasing number of permits and permitting agencies has generated the potential for conflict, overlap, and duplication among state, local, and federal permitting and regulatory requirements.

(3) The legislature further finds that not all project proponents require the same type of assistance. Proponents with small projects may merely need information and assistance in starting the permitting and application process, while intermediate-sized projects may require more of a facilitated and periodically assisted permitting process, and large complex projects may need extensive and more continuous coordination among local, state, and federal agencies and tribal governments.

(4) The legislature further finds that persons doing business in Washington state should have access to clear and appropriate information regarding regulations, permit requirements, and agency rule-making processes.

(5) The legislature, therefore, finds that a range of assistance and coordination options should be available to project proponents from a state office independent of any local, state, or federal permit agency. The legislature finds that citizens, businesses, and project proponents should be provided with:

(a) A reliable and consolidated source of information concerning federal, state, and local environmental and land use laws and procedures that may apply to any given project;

(b) Facilitated interagency forums for discussion of significant issues related to the multiple permitting processes if needed for some project proponents; and

(c) Active coordination of all applicable regulatory and land use permitting procedures if needed for some project proponents.

(6) The legislature declares that the purpose of this chapter is to:

(a) Assure that citizens, businesses, and project proponents will continue to be provided with vital information regarding environmental and land use laws and with assistance in complying with environmental and land use laws to promote understanding of these laws and to protect public health and safety and the environment;

(b) Ensure that facilitation of project permit decisions by permit agencies promotes both process efficiency and environmental protection;

(c) Allow for coordination of permit processing for large projects upon project proponents' request and at project proponents' expense to promote efficiency, ensure certainty, and avoid conflicts among permit agencies; and

(d) Provide these services through an office independent of any permit agency to ensure that any potential or perceived conflicts of interest related to providing these services or making permit decisions can be avoided.

(7) The legislature also declares that the purpose of this chapter is to provide citizens of the state with access to information regarding state regulations, permit requirements, and agency rule-making processes in Washington state.

(8) The legislature intends that establishing an office of regulatory assistance will provide these services without abrogating or limiting the authority of any agency to make decisions on permits and regulatory requirements that it requires or any rule-making agency to make decisions on regulations. The legislature therefore declares that the office of regulatory assistance shall have authority to provide these services but shall not have any authority to make decisions on permits. [2007 c 94 § 1; 2003 c 71 § 1; 2002 c 153 § 1.]

**Reviser's note—Sunset Act application:** The office of regulatory assistance is subject to review, termination, and possible extension under chapter 43.131 RCW, the Sunset Act. See RCW 43.131.401. RCW 43.42.005 through 43.42.070 and 43.42.900 through 43.42.905 are scheduled for future repeal under RCW 43.131.402.

**Effective date—2003 c 71 § 2:** "Section 2 of this act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately [April 18, 2003]." [2003 c 71 § 7.]

**43.42.010 Office created—Duties.** (1) The office of regulatory assistance is created in the office of financial management and shall be administered by the office of the governor to assist citizens, businesses, and project proponents.

**Reviser's note:** This section was amended by 2007 c 94 § 2 and by 2007 c 231 § 5, each without reference to the other. Both amendments are incorporated in the publication of this section under RCW 1.12.025(2). For rule of construction, see RCW 1.12.025(1).

**Findings—Recommendations—Reports encouraged—2007 c 231:** See note following RCW 43.155.070.

**Sunset Act application:** See note following RCW 43.42.005.

**43.42.020 Operating principle—Providing information regarding permits.** (1) The office shall operate on the principle that citizens of the state of Washington should receive the following information regarding permits:

(a) A date and time for a decision on a permit or regulatory requirement;

(b) The information required for an agency to make a decision on a permit or regulatory requirement, recognizing that changes in the project or other circumstances may change the information required; and

(c) An estimate of the maximum amount of costs in fees, studies, or public processes that will be incurred by the project proponent.

(2) This section does not create an independent cause of action, affect any existing cause of action, or establish time limits for purposes of RCW 64.40.020. [2007 c 94 § 3; 2002 c 153 § 3.]

**Sunset Act application:** See note following RCW 43.42.005.

**Sunset Act application:** See note following RCW 43.42.005.

**43.42.040 Maintaining and furnishing information—Contact point—Service center—Web site.** (1) The office shall assist citizens, businesses, and project proponents by maintaining and furnishing information, including, but not limited to:

(a) To the extent possible, compiling and periodically updating one or more handbooks containing lists and explanations of permit laws, including all relevant local, state, federal, and tribal laws. In providing this information, the office shall seek the cooperation of relevant local, state, and federal agencies and tribal governments;

(b) Establishing and providing notice of a point of contact for obtaining information;

(c) Working closely and cooperatively with business license centers to provide efficient and nonduplicative service; and

**Sunset Act application:** See note following RCW 43.42.005.

**43.42.050 Assisting project proponent—Project facilitator—Project scoping.** At the request of a project proponent, the office shall assist the project proponent in determining what regulatory requirements, processes, and permits apply to the project, as provided in this section.

(1) The office shall assign a project facilitator who shall discuss applicable regulatory requirements, permits, and processes with the project proponent and explain the available options for obtaining required permits and regulatory review.

(2) If the project proponent and the project facilitator agree that the project would benefit from a project scoping, the project facilitator shall conduct a project scoping with the project proponent and the relevant permitting and regulatory agencies. The project facilitator shall invite the participation of the relevant federal agencies and tribal governments.

(a) The purpose of the project scoping is to identify the issues and information needs of the project proponent and the participating permit agencies regarding the project, share perspectives, and jointly develop a strategy for the processing of required permits by each participating permit agency.

(b) The scoping shall address:

(i) The permits that are required for the project;

(ii) The permit application forms and other application requirements of the participating permit agencies;

(iii) The specific information needs and issues of concern of each participant and their significance;

(iv) Any statutory or regulatory conflicts that might arise from the differing authorities and roles of the permit agencies;

(v) Any natural resources, including federal or state listed species, that might be adversely affected by the project and might cause an alteration of the project or require mitigation; and

(vi) The anticipated time required for permit decisions by each participating permit agency, including the time required to determine if the permit application is complete, to conduct environmental review, and to review and process the application. In determining the time required, full consideration must be given to achieving the greatest possible efficiencies through any concurrent studies and any consolidated applications, hearings, and comment periods.

(c) The outcome of the project scoping shall be documented in writing, furnished to the project proponent, and be made available to the public.

(d) The project scoping shall be completed within sixty days of the project proponent's request for a project scoping.

(e) Upon completion of the project scoping, the participating permit agencies shall proceed under their respective authority. The agencies are encouraged to remain in communication for purposes of coordination until their final permit decisions are made.

(3) This section does not create an independent cause of action, affect any existing cause of action, or establish time limits for purposes of RCW 64.40.020. [2007 c 94 § 6; 2003 c 54 § 4; 2002 c 153 § 6.]

**Sunset Act application:** See note following RCW 43.42.005.

**43.42.060 Coordinating permit agencies—Project coordinator—Cost reimbursement agreement.** (1) The office may coordinate the processing by participating permit agencies of permits required for a project, at the request of the project proponent through a cost reimbursement agreement as provided in subsection (3) of this section or with the agreement of the project proponent as provided in subsection (4) of this section.

(2) The office shall assign a project coordinator to perform any or all of the following functions, as specified by the terms of a cost reimbursement agreement under subsection (3) of this section or an agreement under subsection (4) of this section:

(a) Serve as the main point of contact for the project proponent;

(h) Coordinate with relevant federal permit agencies and tribal governments to the extent possible.

(3) At the request of a project proponent and as provided in RCW 43.42.070, the project coordinator shall coordinate negotiations among the project proponent, the office, and participating permit agencies to enter into a cost reimbursement agreement and shall coordinate implementation of the agreement, which shall govern coordination of permit processing by the participating permit agencies.

(4) For industrial projects of statewide significance or if the office determines that it is in the public interest to coordinate the processing of permits for certain projects that are complex in scope, require multiple permits, involve multiple jurisdictions, or involve a significant number of affected parties, the office shall, upon the proponent's request, enter into an agreement with the project proponent and the participating permit agencies to coordinate the processing of permits for the project. The office may limit the number of such agreements according to the resources available to the office and the permit agencies at the time. [2007 c 94 § 7; 2003 c 54 § 5; 2002 c 153 § 7.]

**Sunset Act application:** See note following RCW 43.42.005.

**43.42.070 Cost-reimbursement agreements.** (1) The office may coordinate negotiation and implementation of a written agreement among the project proponent, the office, and participating permit agencies to recover from the project proponent the reasonable costs incurred by the office in carrying out the provisions of RCW 43.42.050(2) and 43.42.060(2) and by participating permit agencies in carrying out permit processing tasks specified in the agreement.

(2) The office may coordinate negotiation and implementation of a written agreement among the project proponent, the office, and participating permit agencies to recover from the project proponent the reasonable costs incurred by outside independent consultants selected by the office and participating permit agencies to perform permit processing tasks.

(3) Outside independent consultants may only bill for the costs of performing those permit processing tasks that are specified in a cost-reimbursement agreement under this section. The billing process shall provide for accurate time and cost accounting and may include a billing cycle that provides for progress payments.

(4) The office shall adopt a policy to coordinate cost-reimbursement agreements with outside independent consultants. Cost-reimbursement agreements coordinated by the office under this section must be based on competitive bids that are awarded for each agreement from a prequalified consultant roster.

(5) Independent consultants hired under a cost-reimbursement agreement shall report directly to the permit agency. The office shall assure that final decisions are made by the permit agency and not by the consultant.

(6) The office shall develop procedures for determining, collecting, and distributing cost reimbursement for carrying out the provisions of this chapter.

(7) For a cost-reimbursement agreement, the office and participating permit agencies shall negotiate a work plan and schedule for reimbursement. Prior to distributing scheduled

reimbursement to the agencies, the office shall verify that the agencies have met the obligations contained in their work plan.

(8) Prior to commencing negotiations with the project proponent for a cost-reimbursement agreement, the office shall request work load analyses from each participating permitting agency. These analyses shall be available to the public. The work load of a participating permit agency may only be modified with the concurrence of the agency and if there is both good cause to do so and no significant impact on environmental review.

(9) The office shall develop guidance to ensure that, in developing cost-reimbursement agreements, conflicts of interest are eliminated.

(10) For project permit processes that it coordinates, the office shall coordinate the negotiation of all cost-reimbursement agreements executed under RCW 43.21A.690, 43.30.490, 43.70.630, 43.300.080, and 70.94.085. The office and the permit agencies shall be signatories to the agreements. Each permit agency shall manage performance of its portion of the agreement.

(11) If a permit agency or the project proponent foresees, at any time, that it will be unable to meet its obligations under the cost-reimbursement agreement, it shall notify the office and state the reasons. The office shall notify the participating permit agencies and the project proponent and, upon agreement of all parties, adjust the schedule, or, if necessary, coordinate revision of the work plan. [2007 c 94 § 8; 2003 c 70 § 7; 2002 c 153 § 8.]

**Sunset Act application:** See note following RCW 43.42.005.

#### 43.42.080 Participating permit agencies—Timelines.

With the agreement of all participating permitting agencies and the permit applicant or project proponent, state permitting agencies may establish timelines to make permit decisions, including the time periods required to determine that the permit applications are complete, to review the applications, and to process the permits. Established timelines shall not be shorter than those otherwise required for each permit under other applicable provisions of law, but may extend and coordinate such timelines. The goal of the established timelines is to achieve the maximum efficiencies possible through concurrent studies and consolidation of applications, permit review, hearings, and comment periods. A timeline established under this subsection with the agreement of each permitting agency shall commit each permitting agency to act within the established timeline. [2007 c 94 § 9; 2004 c 32 § 1.]

**43.43.832 Background checks—Disclosure of information—Sharing of criminal background information by health care facilities.** (1) The legislature finds that businesses and organizations providing services to children, developmentally disabled persons, and vulnerable adults need adequate information to determine which employees or licensees to hire or engage. The legislature further finds that many developmentally disabled individuals and vulnerable adults desire to hire their own employees directly and also need adequate information to determine which employees or licensees to hire or engage. Therefore, the Washington state patrol identification and criminal history section shall disclose, upon the request of a business or organization as defined in RCW 43.43.830, a developmentally disabled person, or a vulnerable adult as defined in RCW 43.43.830 or his or her guardian, an applicant's conviction record as defined in chapter 10.97 RCW.

(2) The legislature also finds that the Washington professional educator standards board may request of the Washing-

ton state patrol criminal identification system information regarding a certificate applicant's conviction record under subsection (1) of this section.

(3) The legislature also finds that law enforcement agencies, the office of the attorney general, prosecuting authorities, and the department of social and health services may request this same information to aid in the investigation and prosecution of child, developmentally disabled person, and vulnerable adult abuse cases and to protect children and adults from further incidents of abuse.

(4) The legislature further finds that the secretary of the department of social and health services must establish rules and set standards to require specific action when considering the information listed in subsection (1) of this section, and when considering additional information including but not limited to civil adjudication proceedings as defined in RCW 43.43.830 and any out-of-state equivalent, in the following circumstances:

(a) When considering persons for state employment in positions directly responsible for the supervision, care, or treatment of children, vulnerable adults, or individuals with mental illness or developmental disabilities;

(b) When considering persons for state positions involving unsupervised access to vulnerable adults to conduct comprehensive assessments, financial eligibility determinations, licensing and certification activities, investigations, surveys, or case management; or for state positions otherwise required by federal law to meet employment standards;

(c) When licensing agencies or facilities with individuals in positions directly responsible for the care, supervision, or treatment of children, developmentally disabled persons, or vulnerable adults, including but not limited to agencies or facilities licensed under chapter 74.15 or 18.51 RCW;

(d) When contracting with individuals or businesses or organizations for the care, supervision, case management, or treatment of children, developmentally disabled persons, or vulnerable adults, including but not limited to services contracted for under chapter 18.20, \*18.48, 70.127, 70.128, 72.36, or 74.39A RCW or Title 71A RCW;

(e) When individual providers are paid by the state or providers are paid by home care agencies to provide in-home services involving unsupervised access to persons with physical, mental, or developmental disabilities or mental illness, or to vulnerable adults as defined in chapter 74.34 RCW, including but not limited to services provided under chapter 74.39 or 74.39A RCW.

(5) The director of the department of early learning shall investigate the conviction records, pending charges, and other information including civil adjudication proceeding records of current employees and of any person actively being considered for any position with the department who will or may have unsupervised access to children, or for state positions otherwise required by federal law to meet employment standards. "Considered for any position" includes decisions about (a) initial hiring, layoffs, reallocations, transfers, promotions, or demotions, or (b) other decisions that result in an individual being in a position that will or may have unsupervised access to children as an employee, an intern, or a volunteer.

(6) The director of the department of early learning shall adopt rules and investigate conviction records, pending

charges, and other information including civil adjudication proceeding records, in the following circumstances:

(a) When licensing or certifying agencies with individuals in positions that will or may have unsupervised access to children who are in child day care, in early learning programs, or receiving early childhood education services, including but not limited to licensees, agency staff, interns, volunteers, contracted providers, and persons living on the premises who are sixteen years of age or older;

(b) When authorizing individuals who will or may have unsupervised access to children who are in child day care, in early learning programs, or receiving early childhood learning education services in licensed or certified agencies, including but not limited to licensees, agency staff, interns, volunteers, contracted providers, and persons living on the premises who are sixteen years of age or older;

(c) When contracting with any business or organization for activities that will or may have unsupervised access to children who are in child day care, in early learning programs, or receiving early childhood learning education services;

(d) When establishing the eligibility criteria for individual providers to receive state paid subsidies to provide child day care or early learning services that will or may involve unsupervised access to children.

(7) Whenever a state conviction record check is required by state law, persons may be employed or engaged as volunteers or independent contractors on a conditional basis pending completion of the state background investigation. Whenever a national criminal record check through the federal bureau of investigation is required by state law, a person may be employed or engaged as a volunteer or independent contractor on a conditional basis pending completion of the national check. The Washington personnel resources board shall adopt rules to accomplish the purposes of this subsection as it applies to state employees.

(8)(a) For purposes of facilitating timely access to criminal background information and to reasonably minimize the number of requests made under this section, recognizing that certain health care providers change employment frequently, health care facilities may, upon request from another health care facility, share copies of completed criminal background inquiry information.

(b) Completed criminal background inquiry information may be shared by a willing health care facility only if the following conditions are satisfied: The licensed health care facility sharing the criminal background inquiry information is reasonably known to be the person's most recent employer, no more than twelve months has elapsed from the date the person was last employed at a licensed health care facility to the date of their current employment application, and the criminal background information is no more than two years old.

(c) If criminal background inquiry information is shared, the health care facility employing the subject of the inquiry must require the applicant to sign a disclosure statement indicating that there has been no conviction or finding as described in RCW 43.43.842 since the completion date of the most recent criminal background inquiry.

(d) Any health care facility that knows or has reason to believe that an applicant has or may have a disqualifying con-

viction or finding as described in RCW 43.43.842, subsequent to the completion date of their most recent criminal background inquiry, shall be prohibited from relying on the applicant's previous employer's criminal background inquiry information. A new criminal background inquiry shall be requested pursuant to RCW 43.43.830 through 43.43.842.

(e) Health care facilities that share criminal background inquiry information shall be immune from any claim of defamation, invasion of privacy, negligence, or any other claim in connection with any dissemination of this information in accordance with this subsection.

(f) Health care facilities shall transmit and receive the criminal background inquiry information in a manner that reasonably protects the subject's rights to privacy and confidentiality.

(g) For the purposes of this subsection, "health care facility" means a nursing home licensed under chapter 18.51 RCW, a boarding home licensed under chapter 18.20 RCW, or an adult family home licensed under chapter 70.128 RCW. (3) Any secure facility operated by the department under chapter 71.09 RCW shall require applicants and service providers to undergo a fingerprint-based background check through the Washington state patrol identification and criminal history section and the federal bureau of investigation.

(4) Service providers and service provider applicants who are required to complete a fingerprint-based background check may be hired for a one hundred twenty-day provisional period as allowed under law or program rules when:

(8) The department shall develop rules identifying the financial responsibility of service providers, applicants, and the department for paying the fees charged by law enforcement to roll, print, or scan fingerprints-based for the purpose of a Washington state patrol or federal bureau of investigation fingerprint-based background check.

(9) For purposes of this section, unless the context plainly indicates otherwise:

However, access to conviction records pursuant to this subsection (1)(e) does not limit or

(5) Nothing in RCW 43.43.830 through 43.43.840 shall authorize an employer to make an inquiry not specifically authorized by this chapter, or be construed to affect the policy of the state declared in chapter 9.96A RCW. These additional requirements shall ensure that any person associated with a licensed agency or facility having unsupervised access with a vulnerable adult shall not be the respondent in an active protective order under RCW 74.34.130, nor have been: (i) Convicted of a crime against persons as defined in RCW 43.43.830, except as provided in this section; (ii) convicted of crimes relating to financial exploitation as defined in RCW 43.43.830, except as provided in this section; or (iii) found in any disciplinary

(2) The rules adopted under this section shall permit the licensee to consider the criminal history of an applicant for employment in a licensed facility when the applicant has one or more convictions for a past offense and:

(a) The offense was simple assault, assault in the fourth degree, or the same offense as it may be renamed, and three or more years have passed between the most recent conviction and the date of application for employment;

(b) The offense was prostitution, or the same offense as it may be renamed, and three or more years have passed between the most recent conviction and the date of application for employment;

(e) The offense was forgery, or the same offense as it may be renamed, and five or more years have passed between the most recent conviction and the date of application for employment.

The offenses set forth in (a) through (e) of this subsection do not automatically disqualify an applicant from employment by a licensee. Nothing in this section may be construed to require the employment of any person against a licensee's judgment.

(3) In consultation with law enforcement personnel, the secretary of social and health services and the secretary of health shall investigate, or cause to be investigated, the conviction record and the protection proceeding record information under their respective jurisdictions seeking licensure or relicensure. An individual responding to a criminal background inquiry request from his or her employer or potential employer shall disclose the information about his or her criminal history under penalty of perjury. (c) Twenty percent of all moneys received by the state on fire insurance premiums; and

(d) General fund—state moneys appropriated into the account by the legislature.

(2) Moneys in the account may be appropriated only for fire service training. #### **43.60A.150 Veterans conservation corps—Created.**

(1) The Washington veterans conservation corps is created. The department shall establish enrollment procedures for the program. Enrollees may choose to participate in either or both the volunteer projects list authorized in subsection (2) of

[2007 RCW Supp—page 498]

this section, and the training, certification, and placement program authorized in RCW 43.60A.151.

(2) The department shall create a list of veterans who are interested in working on projects that restore Washington's natural habitat. The department shall promote the opportunity to volunteer for the veterans conservation corps through its local counselors and representatives. Only veterans who grant their approval may be included on the list. The department shall consult with the salmon recovery board, the recreation and conservation funding board, the department of natural resources, the department of fish and wildlife, and the state parks and recreation commission to determine the most effective ways to market the veterans conservation corps to agencies and local sponsors of habitat restoration projects. [2007 c 451 § 2; 2007 c 241 § 6; 2005 c 257 § 2.]

**Reviser's note:** This section was amended by 2007 c 241 § 6 and by 2007 c 451 § 2, each without reference to the other. Both amendments are incorporated in the publication of this section under RCW 1.12.025(2). For rule of construction, see RCW 1.12.025(1).

**Intent—Effective date—2007 c 241:** See notes following RCW 79A.25.005.

**Findings—Purpose—2005 c 257:** "The legislature finds that many Washington citizens are veterans of armed forces conflicts that have important skills that may be employed in projects that help to protect and restore Washington's rivers, streams, lakes, marine waters, and open lands, and help to maintain urban and suburban wastewater and storm water management systems. The legislature further finds that such work has demonstrated benefits for many veterans who are coping with posttraumatic stress disorder or have other mental health or substance abuse disorders related to their service in the armed forces. The legislature further finds that these projects provide an opportunity for veterans to obtain on-the-job training, leading to certification in specific skill sets and to living wage employment in environmental restoration and stewardship. Therefore, it is the purpose of this chapter to create the veterans conservation corps program to assist veterans in obtaining training, certification, and employment in the field of environmental restoration and management, and to provide state funding assistance for projects that restore Washington's waters, forests, and habitat through the participation of veterans." [2007 c 451 § 1; 2005 c 257 § 1.]

#### **43.60A.151 Veterans conservation corps—Employment assistance—Agreements for educational benefits—Receipt of gifts, grants, or federal moneys—Report.**

(1) The department shall assist veterans enrolled in the veterans conservation corps with obtaining employment in conservation programs and projects that restore Washington's natural habitat, maintain and steward local, state, and federal forest lands and other outdoor lands, maintain and improve urban and suburban storm water management facilities and other water management facilities, and other environmental maintenance, stewardship, and restoration projects. The department shall consult with the workforce training and education coordinating board, the state board for community and technical colleges, the higher education coordinating board, the employment security department, and other state agencies administering conservation corps programs, to incorporate training, education, and certification in environmental restoration and management fields into the program. The department may enter into agreements with community colleges, private schools, state or local agencies, or other entities to provide training and educational courses as part of the enrollee benefits from the program.

(2) The department may receive gifts, grants, federal funds, or other moneys from public or private sources, for the use and benefit of the veterans conservation corps program.

The funds shall be deposited to the veterans conservation corps account created in RCW 43.60A.153.

(3) The department shall submit a report to the appropriate committees of the legislature by December 1, 2008, on the status of the veterans conservation corps program, including the number of enrollees employed in projects, training provided, certifications earned, employment placements achieved, program funding provided from all sources, and the results of the pilot project authorized in section 4, chapter 451, Laws of 2007. [2007 c 451 § 3.]

**43.60A.152 Collaboration with agencies implementing the Washington conservation corps—Report.** (1) The department shall collaborate with the state agencies implementing the Washington conservation corps, created in chapter 43.220 RCW, to maximize the utilization of both conservation corps programs. These agencies shall work together to identify stewardship and maintenance projects on agency-managed lands that are suitable for work by veterans conservation corps enrollees. The department may expend funds appropriated to the veterans conservation corps program to defray the costs of education, training, and certification associated with the enrollees participating in such projects.

(2) By September 30, 2007, the department, in conjunction with the state agencies identified in subsection (1) of this section, shall provide to the office of financial management and to the appropriate committees of the senate and house of representatives a report that:

(a) Identifies projects on state agency-managed lands that are currently planned for veterans conservation corps enrollee participation;

(b) Identifies additional projects on state agency-managed lands that are suitable for veterans conservation corps enrollee participation and for which funding is currently in place for such participation; and

(c) Identifies additional projects on state agency-managed lands for which project implementation has been funded or is included in the agency's multiannual stewardship plans, and that are suitable for veterans conservation corps enrollee participation in the event that additional funding is provided to the department for associated training, education, and certification. [2007 c 451 § 5.]

**43.60A.153 Veterans conservation corps account.** The veterans conservation corps account is created in the state treasury. All moneys appropriated to the account or directed to the account from other sources must be deposited in the account. Moneys in the account may be spent only after appropriation. Expenditures from the account may be used only for purposes of the veterans conservation corps program. [2007 c 451 § 6.]

**43.60A.154 Agreements with federal entities for projects—Report.** (1) The department shall seek to enter agreements with the national park service, the United States forest service, the United States fish and wildlife service, and other federal agencies managing lands in Washington, for the employment of veterans conservation corps enrollees in maintenance, restoration, and stewardship projects. Up to twenty percent of the costs of the veterans conservation corps

enrollees participation in a federal project may be provided by the department, including the costs of training provided on the project.

(2) By September 30, 2008, the department shall provide a report to the governor and appropriate committees of the senate and house of representatives regarding agreements entered with federal agencies to employ veteran conservation corps enrollees on federal land projects, and any revisions to the program needed to increase the number of these agreements. [2007 c 451 § 7.]

**43.60A.155 Cooperation with the salmon recovery funding board regarding project work—Report.** (1) During calendar years 2007 and 2008 the salmon recovery funding board shall cooperate with the department of veterans affairs to inform salmon habitat project sponsors of the availability of veterans conservation corps enrollees to perform project work. From applications submitted, the board and the department shall identify projects that propose work suitable for corps enrollees and located near where enrollees are based or may be created. The department may provide the project applicants with information regarding the benefits of employing a veterans conservation corps enrollee in the project, including funding that the department may make available to assist with the project. Such funding shall be considered by the salmon recovery funding board as matched funding in evaluating the project for salmon recovery funding board funding.

(2) As an element of the report required under RCW 43.60A.151(3), the salmon recovery funding board and the department shall jointly report to the governor and the appropriate committees of the senate and house of representatives regarding projects funded during the 2007 and 2008 grant cycles that employ veterans conservation corps enrollees. The report shall include recommendations for increasing the use of veterans conservation corps enrollees in salmon habitat projects that receive funding from the salmon recovery funding board. [2007 c 451 § 8.]

**43.60A.165 Defenders' fund—Eligibility for assistance.** The defenders' fund is created to provide assistance to members of the Washington national guard and reservists who served in Operation Enduring Freedom, Operation Iraqi Freedom, or Operation Noble Eagle, and who are experiencing financial hardships in employment, education, housing, and health care due to the significant period of time away from home serving our country. The program shall be administered by the department. Eligibility determinations shall be made by the department. Eligible veterans may receive a one-time grant of no more than five hundred dollars, except that for the 2007-2009 biennium, the one-time grant may not exceed one thousand dollars. (j) Submit expenditure and performance reports, including information related to the performance measures in RCW 43.63A.311, to the department on a time schedule determined by the department; and

(k) Provide recommendations to the department regarding program improvements and strategies that might assist the state to reach its goals as described in RCW 43.63A.311(2)(g). [2007 c 316 § 3.]

#### **43.70.056 Health care-associated infections—Data collection and reporting—Advisory committee—Rules.**

(1) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Health care-associated infection" means a localized or systemic condition that results from adverse reaction to the presence of an infectious agent or its toxins and that was not present or incubating at the time of admission to the hospital.

(b) "Hospital" means a health care facility licensed under chapter 70.41 RCW.

(2)(a) A hospital shall collect data related to health care-associated infections as required under this subsection (2) on the following:

(i) Beginning July 1, 2008, central line-associated bloodstream infection in the intensive care unit;

(ii) Beginning January 1, 2009, ventilator-associated pneumonia; and

(iii) Beginning January 1, 2010, surgical site infection for the following procedures:

(A) Deep sternal wound for cardiac surgery, including coronary artery bypass graft;

(B) Total hip and knee replacement surgery; and

(C) Hysterectomy, abdominal and vaginal.

(b) Until required otherwise under (c) of this subsection, a hospital must routinely collect and submit the data required to be collected under (a) of this subsection to the national healthcare safety network of the United States centers for disease control and prevention in accordance with national healthcare safety network definitions, methods, requirements, and procedures.

(c)(i) With respect to any of the health care-associated infection measures for which reporting is required under (a) of this subsection, the department must, by rule, require hospitals to collect and submit the data to the centers for medicare and medicaid services according to the definitions, methods, requirements, and procedures of the hospital compare program, or its successor, instead of to the national healthcare safety network, if the department determines that:

(A) The measure is available for reporting under the hospital compare program, or its successor, under substantially the same definition; and

(B) Reporting under this subsection (2)(c) will provide substantially the same information to the public.

(ii) If the department determines that reporting of a measure must be conducted under this subsection (2)(c), the department must adopt rules to implement such reporting. The department's rules must require reporting to the centers for medicare and medicaid services as soon as practicable, but not more than one hundred twenty days, after the centers for medicare and medicaid services allow hospitals to report the respective measure to the hospital compare program, or its successor. However, if the centers for medicare and medicaid services allow infection rates to be reported using the centers for disease control and prevention's national healthcare safety network, the department's rules must require reporting that reduces the burden of data reporting and mini-

mizes changes that hospitals must make to accommodate requirements for reporting.

(d) Data collection and submission required under this subsection (2) must be overseen by a qualified individual with the appropriate level of skill and knowledge to oversee data collection and submission.

(e)(i) A hospital must release to the department, or grant the department access to, its hospital-specific information contained in the reports submitted under this subsection (2), as requested by the department.

(ii) The hospital reports obtained by the department under this subsection (2), and any of the information contained in them, are not subject to discovery by subpoena or admissible as evidence in a civil proceeding, and are not subject to public disclosure as provided in RCW 42.56.360.

(3) The department shall:

(a) Provide oversight of the health care-associated infection reporting program established in this section;

(b) By January 1, 2011, submit a report to the appropriate committees of the legislature based on the recommendations of the advisory committee established in subsection (5) of this section for additional reporting requirements related to health care-associated infections, considering the methodologies and practices of the United States centers for disease control and prevention, the centers for medicare and medicaid services, the joint commission, the national quality forum, the institute for healthcare improvement, and other relevant organizations;

(c) Delete, by rule, the reporting of categories that the department determines are no longer necessary to protect public health and safety;

(d) By December 1, 2009, and by each December 1st thereafter, prepare and publish a report on the department's web site that compares the health care-associated infection rates at individual hospitals in the state using the data reported in the previous calendar year pursuant to subsection (2) of this section. The department may update the reports quarterly. In developing a methodology for the report and determining its contents, the department shall consider the recommendations of the advisory committee established in subsection (5) of this section. The report is subject to the following:

(i) The report must disclose data in a format that does not release health information about any individual patient; and

(ii) The report must not include data if the department determines that a data set is too small or possesses other characteristics that make it otherwise unrepresentative of a hospital's particular ability to achieve a specific outcome; and

(e) Evaluate, on a regular basis, the quality and accuracy of health care-associated infection reporting required under subsection (2) of this section and the data collection, analysis, and reporting methodologies.

(4) The department may respond to requests for data and other information from the data required to be reported under subsection (2) of this section, at the requestor's expense, for special studies and analysis consistent with requirements for confidentiality of patient records.

(5)(a) The department shall establish an advisory committee which may include members representing infection control professionals and epidemiologists, licensed health care providers, nursing staff, organizations that represent

health care providers and facilities, health maintenance organizations, health care payers and consumers, and the department. The advisory committee shall make recommendations to assist the department in carrying out its responsibilities under this section, including making recommendations on allowing a hospital to review and verify data to be released in the report and on excluding from the report selected data from certified critical access hospitals.

(b) In developing its recommendations, the advisory committee shall consider methodologies and practices related to health care-associated infections of the United States centers for disease control and prevention, the centers for medicare and medicaid services, the joint commission, the national quality forum, the institute for healthcare improvement, and other relevant organizations.

(6) The department shall adopt rules as necessary to carry out its responsibilities under this section. [2007 c 261 § 2.]

**Findings—2007 c 261:** "The legislature finds that each year health care-associated infections affect two million Americans. These infections result in the unnecessary death of ninety thousand patients and costs the health care system 4.5 billion dollars. Hospitals should be implementing evidence-based measures to reduce hospital-acquired infections. The legislature further finds the public should have access to data on outcome measures regarding hospital-acquired infections. Data reporting should be consistent with national hospital reporting standards." [2007 c 261 § 1.]

**43.70.110 License fees—Costs—Other charges—Waiver.** (1) The secretary shall charge fees to the licensee for obtaining a license. After June 30, 1995, municipal corporations providing emergency medical care and transportation services pursuant to chapter 18.73 RCW shall be exempt from such fees, provided that such other emergency services shall only be charged for their pro rata share of the cost of licensure and inspection, if appropriate. The secretary may waive the fees when, in the discretion of the secretary, the fees would not be in the best interest of public health and safety, or when the fees would be to the financial disadvantage of the state.

(2) Except as provided in subsection (3) of this section, fees charged shall be based on, but shall not exceed, the cost to the department for the licensure of the activity or class of activities and may include costs of necessary inspection.

(3) License fees shall include amounts in addition to the cost of licensure activities in the following circumstances:

(a) For registered nurses and licensed practical nurses licensed under chapter 18.79 RCW, support of a central nursing resource center as provided in RCW 18.79.202, until June 30, 2013;

(b) For all health care providers licensed under RCW 18.130.040, the cost of regulatory activities for retired volunteer medical worker licensees as provided in RCW 18.130.360; and

(c) For physicians licensed under chapter 18.71 RCW, physician assistants licensed under chapter 18.71A RCW, osteopathic physicians licensed under chapter 18.57 RCW, osteopathic physicians' assistants licensed under chapter 18.57A RCW, naturopaths licensed under chapter 18.36A RCW, podiatrists licensed under chapter 18.22 RCW, chiropractors licensed under chapter 18.25 RCW, psychologists licensed under chapter 18.83 RCW, registered nurses licensed under chapter 18.79 RCW, optometrists licensed

under chapter 18.53 RCW, mental health counselors licensed under chapter 18.225 RCW, massage therapists licensed under chapter 18.108 RCW, clinical social workers licensed under chapter 18.225 RCW, and acupuncturists licensed under chapter 18.06 RCW, the license fees shall include up to an additional twenty-five dollars to be transferred by the department to the University of Washington for the purposes of RCW 43.70.112.

(4) Department of health advisory committees may review fees established by the secretary for licenses and comment upon the appropriateness of the level of such fees. [2007 c 259 § 11; 2006 c 72 § 3; 2005 c 268 § 2; 1993 sp.s. c 24 § 918; 1989 1st ex.s. c 9 § 263.]

**Severability—Subheadings not law—2007 c 259:** See notes following RCW 41.05.033.

**Finding—2005 c 268:** See note following RCW 18.79.202.

**Severability—Effective dates—1993 sp.s. c 24:** See notes following RCW 28A.310.020.

**43.70.112 Online access to health care resources—University of Washington.** Within the amounts transferred from the department of health under RCW 43.70.110(3), the University of Washington shall, through the health sciences library, provide online access to selected vital clinical resources, medical journals, decision support tools, and evidence-based reviews of procedures, drugs, and devices to the health professionals listed in RCW 43.70.110(3)(c). Online access shall be available no later than January 1, 2009. [2007 c 259 § 12.]

**Severability—Subheadings not law—2007 c 259:** See notes following RCW 41.05.033.

**43.70.125 Health care facility certification—Unfunded federal mandates—Applicant fees.** The federal government requires Washington health care facilities to be certified in order to receive federal health care program reimbursement. The department receives funding from the federal government to perform the certifications and recertifications of these health care facilities. When the federal government does not provide sufficient funding to cover all certifications and recertifications, the secretary may assess fees on certification and recertification applicants to fund the certifications and recertifications. [2007 c 279 § 1.]

**43.70.323 Hospital infection control grant account.** The hospital infection control grant account is created in the custody of the state treasury. All receipts from gifts, grants, bequests, devises, or other funds from public or private sources to support its activities must be deposited into the account. Expenditures from the account may be used only for awarding hospital infection control grants to hospitals and public agencies for establishing and maintaining hospital infection control and surveillance programs, for providing support for such programs, and for the administrative costs associated with the grant program. Only the secretary or the secretary's designee may authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures. [2007 c 261 § 5.]

**Findings—2007 c 261:** See note following RCW 43.70.056.

**43.70.510 Health care services coordinated quality improvement program—Rules. (Effective July 1, 2009.)**

(1)(a) Health care institutions and medical facilities, other than hospitals, that are licensed by the department, professional societies or organizations, health care service contractors, health maintenance organizations, health carriers approved pursuant to chapter 48.43 RCW, and any other person or entity providing health care coverage under chapter 48.42 RCW that is subject to the jurisdiction and regulation of any state agency or any subdivision thereof may maintain a coordinated quality improvement program for the improvement of the quality of health care services rendered to patients and the identification and prevention of medical malpractice as set forth in RCW 70.41.200.

(b) All such programs shall comply with the requirements of RCW 70.41.200(1) (a), (c), (d), (e), (f), (g), and (h) as modified to reflect the structural organization of the institution, facility, professional societies or organizations, health care service contractors, health maintenance organizations, health carriers, or any other person or entity providing health care coverage under chapter 48.42 RCW that is subject to the jurisdiction and regulation of any state agency or any subdivision thereof, unless an alternative quality improvement program substantially equivalent to RCW 70.41.200(1)(a) is developed. All such programs, whether complying with the requirement set forth in RCW 70.41.200(1)(a) or in the form of an alternative program, must be approved by the department before the discovery limitations provided in subsections (3) and (4) of this section and the exemption under RCW 42.56.360(1)(c) and subsection (5) of this section shall apply. In reviewing plans submitted by licensed entities that are associated with physicians' offices, the department shall ensure that the exemption under RCW 42.56.360(1)(c) and the discovery limitations of this section are applied only to information and documents related specifically to quality improvement activities undertaken by the licensed entity.

(2) Health care provider groups of five or more providers may maintain a coordinated quality improvement program for the improvement of the quality of health care services rendered to patients and the identification and prevention of medical malpractice as set forth in RCW 70.41.200. For purposes of this section, a health care provider group may be a consortium of providers consisting of five or more providers in total. All such programs shall comply with the requirements of RCW 70.41.200(1) (a), (c), (d), (e), (f), (g), and (h) as modified to reflect the structural organization of the health care provider group. All such programs must be approved by the department before the discovery limitations provided in subsections (3) and (4) of this section and the exemption under RCW 42.56.360(1)(c) and subsection (5) of this section shall apply.

(3) Any person who, in substantial good faith, provides information to further the purposes of the quality improvement and medical malpractice prevention program or who, in substantial good faith, participates on the quality improvement committee shall not be subject to an action for civil damages or other relief as a result of such activity. Any person or entity participating in a coordinated quality improvement program that, in substantial good faith, shares information or documents with one or more other programs, committees, or boards under subsection (6) of this section is not

subject to an action for civil damages or other relief as a result of the activity or its consequences. For the purposes of this section, sharing information is presumed to be in substantial good faith. However, the presumption may be rebutted upon a showing of clear, cogent, and convincing evidence that the information shared was knowingly false or deliberately misleading.

(4) Information and documents, including complaints and incident reports, created specifically for, and collected and maintained by, a quality improvement committee are not subject to review or disclosure, except as provided in this section, or discovery or introduction into evidence in any civil action, and no person who was in attendance at a meeting of such committee or who participated in the creation, collection, or maintenance of information or documents specifically for the committee shall be permitted or required to testify in any civil action as to the content of such proceedings or the documents and information prepared specifically for the committee. This subsection does not preclude: (a) In any civil action, the discovery of the identity of persons involved in the medical care that is the basis of the civil action whose involvement was independent of any quality improvement activity; (b) in any civil action, the testimony of any person concerning the facts that form the basis for the institution of such proceedings of which the person had personal knowledge acquired independently of such proceedings; (c) in any civil action by a health care provider regarding the restriction or revocation of that individual's clinical or staff privileges, introduction into evidence information collected and maintained by quality improvement committees regarding such health care provider; (d) in any civil action challenging the termination of a contract by a state agency with any entity maintaining a coordinated quality improvement program under this section if the termination was on the basis of quality of care concerns, introduction into evidence of information created, collected, or maintained by the quality improvement committees of the subject entity, which may be under terms of a protective order as specified by the court; (e) in any civil action, disclosure of the fact that staff privileges were terminated or restricted, including the specific restrictions imposed, if any and the reasons for the restrictions; or (f) in any civil action, discovery and introduction into evidence of the patient's medical records required by rule of the department of health to be made regarding the care and treatment received.

(5) Information and documents created specifically for, and collected and maintained by, a quality improvement committee are exempt from disclosure under chapter 42.56 RCW.

(6) A coordinated quality improvement program may share information and documents, including complaints and incident reports, created specifically for, and collected and maintained by, a quality improvement committee or a peer review committee under RCW 4.24.250 with one or more other coordinated quality improvement programs maintained in accordance with this section or with RCW 70.41.200, a coordinated quality improvement committee maintained by an ambulatory surgical facility under RCW 70.230.070, a quality assurance committee maintained in accordance with RCW 18.20.390 or 74.42.640, or a peer review committee under RCW 4.24.250, for the improvement of the quality of

health care services rendered to patients and the identification and prevention of medical malpractice. The privacy protections of chapter 70.02 RCW and the federal health insurance portability and accountability act of 1996 and its implementing regulations apply to the sharing of individually identifiable patient information held by a coordinated quality improvement program. Any rules necessary to implement this section shall meet the requirements of applicable federal and state privacy laws. Information and documents disclosed by one coordinated quality improvement program to another coordinated quality improvement program or a peer review committee under RCW 4.24.250 and any information and documents created or maintained as a result of the sharing of information and documents shall not be subject to the discovery process and confidentiality shall be respected as required by subsection (4) of this section and RCW 4.24.250.

(7) The department of health shall adopt rules as are necessary to implement this section. [2007 c 273 § 21. Prior: 2006 c 8 § 113; 2005 c 291 § 2; 2005 c 274 § 302; 2005 c 33 § 6; 2004 c 145 § 2; 1995 c 267 § 7; 1993 c 492 § 417.]

**43.70.512 Public health—Required measurable outcomes.** (1) Protecting the public's health across the state is a fundamental responsibility of the state. With any new state funding of the public health system as appropriated for the purposes of \*sections 60 through 65 of this act, the state expects that measurable benefits will be realized to the health of the residents of Washington. A transparent process that shows the impact of increased public health spending on performance measures related to the health outcomes in subsection (2) of this section is of great value to the state and its residents. In addition, a well-funded public health system is expected to become a more integral part of the state's emergency preparedness system.

(2) Subject to the availability of amounts appropriated for the purposes of \*sections 60 through 65 of this act, distributions to local health jurisdictions shall deliver the following outcomes:

- (a) Create a disease response system capable of responding at all times;
- (b) Stop the increase in, and reduce, sexually transmitted disease rates;
- (c) Reduce vaccine preventable diseases;
- (d) Build capacity to quickly contain disease outbreaks;
- (e) Decrease childhood and adult obesity and types I and II diabetes rates, and resulting kidney failure and dialysis;
- (f) Increase childhood immunization rates;
- (g) Improve birth outcomes and decrease child abuse;

- (h) Reduce animal-to-human disease rates; and
- (i) Monitor and protect drinking water across jurisdictional boundaries.

(3) Benchmarks for these outcomes shall be drawn from the national healthy people 2010 goals, other reliable data sets, and any subsequent national goals. [2007 c 259 § 60.]

**\*Reviser's note:** "Sections 60 through 65 of this act" include this section, RCW 43.70.514 through 43.70.518, and 43.70.522, and the 2007 c 259 amendments to RCW 43.70.520.

**Severability—Subheadings not law—2007 c 259:** See notes following RCW 41.05.033.

**43.70.514 Public health—Definitions.** The definitions in this section apply throughout \*sections 60 through 65 of this act unless the context clearly requires otherwise.

(1) "Core public health functions of statewide significance" or "public health functions" means health services that:

(a) Address: Communicable disease prevention and response; preparation for, and response to, public health emergencies caused by pandemic disease, earthquake, flood, or terrorism; prevention and management of chronic diseases and disabilities; promotion of healthy families and the development of children; assessment of local health conditions, risks, and trends, and evaluation of the effectiveness of intervention efforts; and environmental health concerns;

**43.70.520 Public health services improvement plan—Performance measures.** (1) The legislature finds that the public health functions of community assessment, policy development, and assurance of service delivery are essential elements in achieving the objectives of health reform in Washington state. The legislature further finds that the population-based services provided by state and local health departments are cost-effective and are a critical strategy for the long-term containment of health care costs. The legislature further finds that the public health system in the state lacks the capacity to fulfill these functions consistent with the needs of a reformed health care system. The legislature further finds that public health nurses and nursing services are an essential part of our public health system, delivering evidence-based care and providing core services including prevention of illness, injury, or disability; the promotion of health; and maintenance of the health of populations.

(2) The department of health shall develop, in consultation with local health departments and districts, the state board of health, the health services commission, area Indian health service, and other state agencies, health services providers, and citizens concerned about public health, a public health services improvement plan. The plan shall provide a detailed accounting of deficits in the core functions of assessment, policy development, assurance of the current public health system, how additional public health funding would be used, and describe the benefits expected from expanded expenditures.

(3) The plan shall include:

(a) Definition of minimum standards for public health protection through assessment, policy development, and assurances:

(i) Enumeration of communities not meeting those standards;

(ii) A budget and staffing plan for bringing all communities up to minimum standards;

(iii) An analysis of the costs and benefits expected from adopting minimum public health standards for assessment, policy development, and assurances;

(b) Recommended strategies and a schedule for improving public health programs throughout the state, including:

(i) Strategies for transferring personal health care services from the public health system, into the uniform benefits package where feasible; and

(ii) Linking funding for public health services to performance measures that relate to achieving improved health outcomes; and

(c) A recommended level of dedicated funding for public health services to be expressed in terms of a percentage of total health service expenditures in the state or a set per person amount; such recommendation shall also include methods to ensure that such funding does not supplant existing federal, state, and local funds received by local health departments, and methods of distributing funds among local health departments.

(4) The department shall coordinate this planning process with the study activities required in section 258, chapter 492, Laws of 1993.

(5) By March 1, 1994, the department shall provide initial recommendations of the public health services improvement plan to the legislature regarding minimum public health standards, and public health programs needed to address urgent needs, such as those cited in subsection (7) of this section.

(6) By December 1, 1994, the department shall present the public health services improvement plan to the legislature, with specific recommendations for each element of the plan to be implemented over the period from 1995 through 1997.

(7) Thereafter, the department shall update the public health services improvement plan for presentation to the legislature prior to the beginning of a new biennium.

(8) Among the specific population-based public health activities to be considered in the public health services improvement plan are: Health data assessment and chronic and infectious disease surveillance; rapid response to outbreaks of communicable disease; efforts to prevent and control specific communicable diseases, such as tuberculosis and acquired immune deficiency syndrome; health education to promote healthy behaviors and to reduce the prevalence of chronic disease, such as those linked to the use of tobacco; access to primary care in coordination with existing community and migrant health clinics and other not for profit health care organizations; programs to ensure children are born as healthy as possible and they receive immunizations and adequate nutrition; efforts to prevent intentional and unintentional injury; programs to ensure the safety of drinking water and food supplies; poison control; trauma services; and other activities that have the potential to improve the health of the population or special populations and reduce the need for or cost of health services. **43.70.522 Public health performance measures—Assessing the use of funds—Secretary's duties.** (1) Each local health jurisdiction shall submit to the secretary such data as the secretary determines is necessary to allow the secretary to assess whether the local health jurisdiction has used the funds in a manner consistent with achieving the performance measures in RCW 43.70.516.

(2) If the secretary determines that the data submitted demonstrates that the local health jurisdiction is not spending the funds in a manner consistent with achieving the performance measures, the secretary shall:

(a) Provide a report to the governor identifying the local health jurisdiction and the specific items that the secretary identified as inconsistent with achieving the performance measures; and

(b) Require that the local health jurisdiction submit a plan of correction to the secretary within sixty days of receiving notice from the secretary, which explains the measures that the jurisdiction will take to resume spending funds in a manner consistent with achieving the performance measures.

The secretary shall provide technical assistance to the local health jurisdiction to support the jurisdiction in successfully completing the activities included in the plan of correction.

(3) Upon a determination by the secretary that a local health jurisdiction that had previously been identified as not spending the funds in a manner consistent with achieving the performance measures has resumed consistency, the secretary shall notify the governor that the jurisdiction has returned to consistent status.

(4) Any local health jurisdiction that has not resumed spending funds in a manner consistent with achieving the performance measures within one year of the secretary reporting the jurisdiction to the governor shall be precluded from receiving any funds appropriated for the purposes of \*sections 60 through 65 of this act. Funds may resume once the local health jurisdiction has demonstrated to the satisfaction of the secretary that it has returned to consistent status. [2007 c 259 § 65.]

review, application review, technical studies, and permit processing. The cost-reimbursement agreement shall identify the specific tasks, costs, and schedule for work to be conducted under the agreement.

(2) The written cost-reimbursement agreement shall be negotiated with the permit applicant or project proponent. Under the provisions of a cost-reimbursement agreement, funds from the applicant or proponent shall be used by the department to contract with an independent consultant to carry out the work covered by the cost-reimbursement agreement. The department may also use funds provided under a cost-reimbursement agreement to assign current staff to review the work of the consultant, to provide necessary technical assistance when an independent consultant with comparable technical skills is unavailable, and to recover reasonable and necessary direct and indirect costs that arise from processing the permit. The department shall, in developing the agreement, ensure that final decisions that involve policy matters are made by the agency and not by the consultant. The department shall make an estimate of the number of permanent staff hours to process the permits, and shall contract with consultants to replace the time and functions committed by these permanent staff to the project. The billing process shall provide for accurate time and cost accounting and may include a billing cycle that provides for progress payments. ### 43.82.010 Acquisition, lease, and disposal of real estate for state agencies—Long-range planning—Use of lease as collateral or security—Colocation and consolidation—Studies—Delegation of functions—Exemptions.

(1) The director of general administration, on behalf of the agency involved and after consultation with the office of financial management, shall purchase, lease, lease purchase, rent, or otherwise acquire all real estate, improved or unimproved, as may be required by elected state officials, institutions, departments, commissions, boards, and other state agencies, or federal agencies where joint state and federal activities are undertaken and may grant easements and transfer, exchange, sell, lease, or sublease all or part of any surplus real estate for those state agencies which do not otherwise have the specific authority to dispose of real estate. This section does not transfer financial liability for the acquired property to the department of general administration.

(2) Except for real estate occupied by federal agencies, the director shall determine the location, size, and design of any real estate or improvements thereon acquired or held pursuant to subsection (1) of this section. Facilities acquired or held pursuant to this chapter, and any improvements thereon, shall conform to standards adopted by the director and approved by the office of financial management governing facility efficiency unless a specific exemption from such standards is provided by the director of general administration. The director of general administration shall report to the office of financial management and the appropriate committees of the legislature annually on any exemptions granted pursuant to this subsection.

(3) The director of general administration may fix the terms and conditions of each lease entered into under this chapter, except that no lease shall extend greater than twenty years in duration. The director of general administration may enter into a long-term lease greater than ten years in duration upon a determination by the director of the office of financial management that the long-term lease provides a more favorable rate than would otherwise be available, it appears to a substantial certainty that the facility is necessary for use by the state for the full length of the lease term, and the facility meets the standards adopted pursuant to subsection (2) of this section. The director of general administration may enter into a long-term lease greater than ten years in duration if an

analysis shows that the life-cycle cost of leasing the facility is less than the life-cycle cost of purchasing or constructing a facility in lieu of leasing the facility.

(4) Except as permitted under chapter 39.94 RCW, no lease for or on behalf of any state agency may be used or referred to as collateral or security for the payment of securities offered for sale through a public offering. Except as permitted under chapter 39.94 RCW, no lease for or on behalf of any state agency may be used or referred to as collateral or security for the payment of securities offered for sale through a private placement without the prior written approval of the state treasurer. However, this limitation shall not prevent a lessor from assigning or encumbering its interest in a lease as security for the repayment of a promissory note provided that the transaction would otherwise be an exempt transaction under RCW 21.20.320. The state treasurer shall adopt rules that establish the criteria under which any such approval may be granted. In establishing such criteria the state treasurer shall give primary consideration to the protection of the state's credit rating and the integrity of the state's debt management program. If it appears to the state treasurer that any lease has been used or referred to in violation of this subsection or rules adopted under this subsection, then he or she may recommend that the governor cause such lease to be terminated. The department of general administration shall promptly notify the state treasurer whenever it may appear to the department that any lease has been used or referred to in violation of this subsection or rules adopted under this subsection.

(5) It is the policy of the state to encourage the colocation and consolidation of state services into single or adjacent facilities, whenever appropriate, to improve public service delivery, minimize duplication of facilities, increase efficiency of operations, and promote sound growth management planning.

(6) The director of general administration shall provide coordinated long-range planning services to identify and evaluate opportunities for col locating and consolidating state facilities. Upon the renewal of any lease, the inception of a new lease, or the purchase of a facility, the director of general administration shall determine whether an opportunity exists for col locating the agency or agencies in a single facility with other agencies located in the same geographic area. If a colocation opportunity exists, the director of general administration shall consult with the affected state agencies and the office of financial management to evaluate the impact colocation would have on the cost and delivery of agency programs, including whether program delivery would be enhanced due to the centralization of services. The director of general administration, in consultation with the office of financial management, shall develop procedures for implementing colocation and consolidation of state facilities.

(7) The director of general administration is authorized to purchase, lease, rent, or otherwise acquire improved or unimproved real estate as owner or lessee and to lease or sublet all or a part of such real estate to state or federal agencies. The director of general administration shall charge each using agency its proportionate rental which shall include an amount sufficient to pay all costs, including, but not limited to, those for utilities, janitorial and accounting services, and sufficient to provide for contingencies; which shall not

exceed five percent of the average annual rental, to meet unforeseen expenses incident to management of the real estate.

(8) If the director of general administration determines that it is necessary or advisable to undertake any work, construction, alteration, repair, or improvement on any real estate acquired pursuant to subsection (1) or (7) of this section, the director shall cause plans and specifications thereof and an estimate of the cost of such work to be made and filed in his or her office and the state agency benefiting thereby is hereby authorized to pay for such work out of any available funds: PROVIDED, That the cost of executing such work shall not exceed the sum of twenty-five thousand dollars. Work, construction, alteration, repair, or improvement in excess of twenty-five thousand dollars, other than that done by the owner of the property if other than the state, shall be performed in accordance with the public works law of this state.

(9) In order to obtain maximum utilization of space, the director of general administration shall make space utilization studies, and shall establish standards for use of space by state agencies. Such studies shall include the identification of opportunities for colocation and consolidation of state agency office and support facilities.

(10) The director of general administration may construct new buildings on, or improve existing facilities, and furnish and equip, all real estate under his or her management. Prior to the construction of new buildings or major improvements to existing facilities or acquisition of facilities using a lease purchase contract, the director of general administration shall conduct an evaluation of the facility design and budget using life-cycle cost analysis, value-engineering, and other techniques to maximize the long-term effectiveness and efficiency of the facility or improvement.

(11) All conveyances and contracts to purchase, lease, rent, transfer, exchange, or sell real estate and to grant and accept easements shall be approved as to form by the attorney general, signed by the director of general administration or the director's designee, and recorded with the county auditor of the county in which the property is located.

(12) The director of general administration may delegate any or all of the functions specified in this section to any agency upon such terms and conditions as the director deems advisable. By January 1st of each year, beginning January 1, 2008, the department shall submit an annual report to the office of financial management and the appropriate committees of the legislature on all delegated leases.

(13) This section does not apply to the acquisition of real estate by:

(a) The state college and universities for research or experimental purposes;

(b) The state liquor control board for liquor stores and warehouses; and

(c) The department of natural resources, the department of fish and wildlife, the department of transportation, and the state parks and recreation commission for purposes other than the leasing of offices, warehouses, and real estate for similar purposes.

(14) Notwithstanding any provision in this chapter to the contrary, the department of general administration may negotiate ground leases for public lands on which property is to be

acquired under a financing contract pursuant to chapter 39.94 RCW under terms approved by the state finance committee.

(15) The department of general administration shall report annually to the office of financial management and the appropriate fiscal committees of the legislature on facility leases executed for all state agencies for the preceding year, lease terms, and annual lease costs. The report must include leases executed under RCW 43.82.045 and subsection (12) of this section. [2007 c 506 § 8; 2004 c 277 § 906; 1997 c 117 § 1. *Use of general administration services account in acquiring real estate:* RCW 43.19.500.

**43.82.035 Pre-design process for requests to lease, purchase, or build facilities for state programs—Approval of plans for major leased facilities.** (1) The office of financial management shall design and implement a modified pre-design process for any space request to lease, purchase, or build facilities that involve (a) the housing of new state programs, (b) a major expansion of existing state programs, or (c) the relocation of state agency programs. This includes the consolidation of multiple state agency tenants into one facility. The office of financial management shall define facilities that meet the criteria described in (a) and (b) of this subsection.

(2) State agencies shall submit modified pre-designs to the office of financial management and the legislature. Modified pre-designs must include a problem statement, an analysis of alternatives to address programmatic and space requirements, proposed locations, and a financial assessment. For proposed projects of twenty thousand gross square feet or less, the agency may provide a cost-benefit analysis, rather than a life-cycle cost analysis, as determined by the office of financial management.

(3) Projects that meet the capital requirements for pre-design on major facility projects with an estimated project cost of five million dollars or more pursuant to chapter 43.88 RCW shall not be required to prepare a modified pre-design.

(4) The office of financial management shall require state agencies to identify plans for major leased facilities as part of the ten-year capital budget plan. State agencies shall not enter into new or renewed leases of more than one million dollars per year unless such leases have been approved by the office of financial management except when the need for the lease is due to an unanticipated emergency. The regular termination date on an existing lease does not constitute an

emergency. The department of general administration shall notify the office of financial management and the appropriate legislative fiscal committees if an emergency situation arises.

(5) For project proposals in which there are estimates of operational savings, the office of financial management shall require the agency or agencies involved to provide details including but not limited to fund sources and timelines. [2007 c 506 § 4.]

**Findings—Intent—2007 c 506:** "The legislature finds that the capital stock of facilities owned and leased by state agencies represents a significant financial investment by the citizens of the state of Washington. Capital construction projects funded in the state's capital budget require diligent analysis and approval by the governor and the legislature. In some cases, long-term leases obligate state agencies to a larger financial commitment than some capital construction projects without a comparable level of diligence. State facility analysis and portfolio management can be strengthened through greater oversight and support from the office of financial management and the legislature and with input from stakeholders.

The legislature finds that the state lacks specific policies and standards on conducting life-cycle cost analysis to determine the cost-effectiveness of owning or leasing state facilities and lacks clear guidance on when and how to use it. Further, there is limited oversight and review of the results of life-cycle cost analyses in the capital project review process. Unless decision makers are provided a thorough economic analysis, they cannot identify the most cost-effective alternative or identify opportunities for improving the cost-effectiveness of state facility alternatives.

The legislature finds that the statewide accounting system limits the ability of the office of financial management and the legislature to analyze agency expenditures that include only leases for land, buildings, and structures. Additionally, other statewide data systems that track state-owned and leased facility information are limited, onerous, and inflexible.

Therefore, it is the intent of the legislature to strengthen the office of financial management's oversight role in state facility analysis and decision making. Further, it is the intent of the legislature to support the office of financial management's and the department of general administration's need for technical expertise and data systems to conduct thorough analysis, long-term planning, and state facility portfolio management by providing adequate resources in the capital and operating budgets." [2007 c 506 § 1.]

**43.82.045 Approval of leases—Privately owned buildings being planned or under construction.** State agencies are prohibited from entering into lease agreements for privately owned buildings that are in the planning stage of development or under construction unless there is prior written approval by the director of the office of financial management. Approval of such leases shall not be delegated. Lease agreements described in this section must comply with RCW 43.82.035. [2007 c 506 § 5.]

**Findings—Intent—2007 c 506:** See note following RCW 43.82.035.

**43.82.055 Long-term facility needs—Six-year facility plan.** The office of financial management shall:

(1) Work with the department of general administration and all other state agencies to determine the long-term facility needs of state government; and

(2) Develop and submit a six-year facility plan to the legislature by January 1st of every odd-numbered year, beginning January 1, 2009, that includes state agency space requirements and other pertinent data necessary for cost-effective facility planning. The department of general administration shall assist with this effort as required by the office of financial management. [2007 c 506 § 6.]

**Findings—Intent—2007 c 506:** See note following RCW 43.82.035.

**43.82.150 Inventory of state-owned or leased facilities—Report.** (1) The office of financial management shall develop and maintain an inventory system to account for all owned or leased facilities utilized by state government. At a minimum, the inventory system must include the facility owner, location, type, condition, and size of each facility. In addition, for owned facilities, the inventory system must include the date and cost of original construction and the cost of any major remodeling or renovation. The inventory must be updated by June 30th of each year. The office of financial management shall publish a report summarizing information contained in the inventory system for each agency by October 1st of each year, beginning in 2010 and shall submit this report to the appropriate fiscal committees of the legislature.

(2) All agencies, departments, boards, commissions, and institutions of the state of Washington shall provide to the office of financial management a complete inventory of owned and leased facilities by September 1, 2010. The inventory must be updated and submitted to the office of financial management by September 1st of each subsequent year. The inventories required under this subsection must be submitted in a standard format prescribed by the office of financial management.

(3) The office of financial management shall report to the legislature by September 1, 2008, on recommended improvements to the inventory system, redevelopment costs, and an implementation schedule for the redevelopment of the inventory system. The report shall also make recommendations on other improvements that will improve accountability and assist in the evaluation of budget requests and facility management by the governor and the legislature.

(4) For the purposes of this section, "facilities" means buildings and other structures with walls and a roof. "Facilities" does not mean roads, bridges, parking areas, utility systems, and other similar improvements to real property. [2007 c 506 § 7; 1997 c 96 § 2; 1993 c 325 § 1.]

**Findings—Intent—2007 c 506:** See note following RCW 43.82.035.

**Findings—Purpose—1997 c 96:** "The legislature finds that the capital stock of facilities owned by state agencies represents a significant financial investment by the citizens of the state of Washington, and that providing agencies with the tools and incentives needed to adequately maintain state facilities is critically important to realizing the full value of this investment. The legislature also finds that ongoing reporting of facility inventory, condition, and maintenance information by agencies will improve accountability and assist in the evaluation of budget requests and facility management by the legislature and governor. The purpose of this act is to ensure that recent enhancements to facility and maintenance reporting systems implemented by the office of financial management, and a new program created by the department of general administration to provide maintenance information and technical assistance to state and local agencies, are sustained into the future." [1997 c 96 § 1.]

In the event that the bonds authorized by this chapter are sold in more than one series the above division into shares shall apply to the total proceeds of the bonds authorized by this chapter and not to the proceeds of each separate series. [2007 c 241 § 7; 1972 ex.s. c 129 § 4.]

**Legislative finding—1999 c 94:** "The legislature finds that a periodic review of the accounts and their uses is necessary. While creating new accounts may facilitate the implementation of legislative intent, the creation of too many accounts limits the effectiveness of performance-based budgeting. Too many accounts also limit the flexibility of the legislature to address emerging and changing issues in addition to creating administrative burdens for the responsible agencies. Accounts created for specific purposes may no longer be valid or needed. Accordingly, this act eliminates accounts that are not in use or are unneeded and consolidates accounts that are similar in nature." [1999 c 94 § 1.]

**Legislative finding—1999 c 94:** "The legislature finds that a periodic review of the accounts and their uses is necessary. While creating new accounts may facilitate the implementation of legislative intent, the creation of too many accounts limits the effectiveness of performance-based budgeting. Too many accounts also limit the flexibility of the legislature to address emerging and changing issues in addition to creating administrative burdens for the responsible agencies. Accounts created for specific purposes may no longer be valid or needed. Accordingly, this act eliminates accounts that are not in use or are unneeded and consolidates accounts that are similar in nature." [1999 c 94 § 1.]

**Legislative finding—1999 c 94:** "The legislature finds that a periodic review of the accounts and their uses is necessary. While creating new accounts may facilitate the implementation of legislative intent, the creation of too many accounts limits the effectiveness of performance-based budgeting. Too many accounts also limit the flexibility of the legislature to address emerging and changing issues in addition to creating administrative burdens for the responsible agencies. Accounts created for specific purposes may no longer be valid or needed. Accordingly, this act eliminates accounts that are not in use or are unneeded and consolidates accounts that are similar in nature." [1999 c 94 § 1.]

**SURPLUS FUNDS—INVESTMENT PROGRAM**

Sections

43.86A.030 Time certificate of deposit investment program—Available funds—Allocation.

43.86A.060 Linked deposit program—Minority and women’s business enterprises.

**43.86A.030 Time certificate of deposit investment program—Available funds—Allocation.** (1) Funds held in public depositaries not as demand deposits as provided in RCW 43.86A.020 and 43.86A.030, shall be available for a time certificate of deposit investment program according to the following formula: The state treasurer shall apportion to all participating depositaries an amount equal to five percent of the three year average mean of general state revenues as certified in accordance with Article VIII, section 1(b) of the state Constitution, or fifty percent of the total surplus treasury

investment availability, whichever is less. Within thirty days after certification, those funds determined to be available according to this formula for the time certificate of deposit investment program shall be deposited in qualified public depositaries. These deposits shall be allocated among the participating depositaries on a basis to be determined by the state treasurer.

(2) The state treasurer may use up to one hundred fifty million dollars per year of all funds available under this section for the purposes of RCW 43.86A.060. The amounts made available to these public depositaries shall be equal to the amounts of outstanding loans made under RCW 43.86A.060.

(3) The formula so devised shall be a matter of public record giving consideration to, but not limited to deposits, assets, loans, capital structure, investments or some combination of these factors. However, if in the judgment of the state treasurer the amount of allocation for certificates of deposit as determined by this section will impair the cash flow needs of the state treasury, the state treasurer may adjust the amount of the allocation accordingly. [2007 c 500 § 1; 2005 c 302 § 2; 1993 c 512 § 33; 1982 c 74 § 1; 1973 c 123 § 3.]

**Intent—2005 c 302:** "The legislature intends that funds provided under the linked deposit program shall be used to create jobs and economic opportunity as well as to remedy the problem of a lack of access to capital by minority and women’s business enterprises." [2005 c 302 § 1.]

**43.86A.060 Linked deposit program—Minority and women’s business enterprises.**

(1) The state treasurer shall establish a linked deposit program for investment of deposits in qualified public depositaries. As a condition of participating in the program, qualified public depositaries must make qualifying loans as provided in this section. The state treasurer may purchase a certificate of deposit that is equal to the amount of the qualifying loan made by the qualified public depositary or may purchase a certificate of deposit that is equal to the aggregate amount of two or more qualifying loans made by one or more qualified public depositaries.

(2) Qualifying loans made under this section are those:

(a) Having terms that do not exceed ten years;

(b) Where an individual loan does not exceed one million dollars;

(c) That are made to a minority or women’s business enterprise that has received state certification under chapter 39.19 RCW;

(d) Where the interest rate on the loan to the minority or women’s business enterprise does not exceed an interest rate that is two hundred basis points below the interest rate the qualified public depositary would charge for a loan for a similar purpose and a similar term, except that, if the preference given by the state treasurer to the qualified public depositary under subsection (3) of this section is less than two hundred basis points, the qualified public depositary may reduce the preference given on the loan by an amount that corresponds to the reduction in preference below two hundred basis points given to the qualified public depositary; and

(e) Where the points or fees charged at loan closing do not exceed one percent of the loan amount.

(3) In setting interest rates of time certificate of deposits, the state treasurer shall offer rates so that a two hundred basis point preference will be given to the qualified public depositary.

tary, except that the treasurer shall lower the amount of the preference to ensure that the effective interest rate on the time certificate of deposit is not less than two percent.

(4) Upon notification by the state treasurer that a minority or women's business enterprise is no longer certified under chapter 39.19 RCW, the qualified public depository shall reduce the amount of qualifying loans by the outstanding balance of the loan made under this section to the minority or women's business enterprise.

(5) The office of minority and women's business enterprises has the authority to adopt rules to:

(a) Ensure that when making a qualified loan under the linked deposit program, businesses that have never received a loan under the linked deposit program are given first priority;

(b) Limit the total principal loan amount that any one business receives in qualified loans under the linked deposit program over the lifetime of the businesses;

(c) Limit the total principal loan amount that an owner of one or more businesses receives in qualified loans under the linked deposit program during the owner's lifetime; and

(d) Limit the total amount of any one qualified loan made under the linked deposit program. [2007 c 500 § 2; 2005 c 302 § 3; 2002 c 305 § 1; 1993 c 512 § 30.]

**Intent—2005 c 302:** See note following RCW 43.86A.030.

**Finding—Intent—1993 c 512:** "The legislature finds that minority and women's business enterprises have been historically excluded from access to capital in the marketplace. The lack of capital has been a major barrier to the development and expansion of business by various minority groups and women. There has been a significant amount of attention on the capital needs of minority and women's business enterprises. It is the intent of the legislature to remedy the problem of a lack of access to capital by minority and women's business enterprises, and other small businesses by authorizing the state treasurer to operate a program that links state deposits to business loans by financial institutions to minority and women's business enterprises." **43.99N.060 Stadium and exhibition center account—Youth athletic facility account—Community outdoor athletic facility loans and grants.** (1) The stadium and exhibition center account is created in the custody of the state treasurer. All receipts from the taxes imposed under RCW 82.14.0494 and distributions under RCW 67.70.240(5) shall be deposited into the account. Only the director of the office of financial management or the director’s designee may authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88 RCW. An appropriation is not required for expenditures from this account.

(2) Until bonds are issued under RCW 43.99N.020, up to five million dollars per year beginning January 1, 1999, shall be used for the purposes of subsection (3)(b) of this section, all remaining moneys in the account shall be transferred to the public stadium authority, created under RCW 36.102.020, to be used for public stadium authority operations and development of the stadium and exhibition center.

(3) After bonds are issued under RCW 43.99N.020, all moneys in the stadium and exhibition center account shall be used exclusively for the following purposes in the following priority:

(a) On or before June 30th of each year, the office of financial management shall accumulate in the stadium and exhibition center account an amount at least equal to the amount required in the next succeeding twelve months for the payment of principal of and interest on the bonds issued under RCW 43.99N.020;

(b) An additional reserve amount not in excess of the expected average annual principal and interest requirements of bonds issued under RCW 43.99N.020 shall be accumulated and maintained in the account, subject to withdrawal by the state treasurer at any time if necessary to meet the requirements of (a) of this subsection, and, following any withdrawal, reaccumulated from the first tax revenues and other amounts deposited in the account after meeting the requirements of (a) of this subsection; and

(c) The balance, if any, shall be transferred to the youth athletic facility account under subsection (4) of this section.

Any revenues derived from the taxes authorized by RCW 36.38.010(5) and 36.38.040 or other amounts that if used as provided under (a) and (b) of this subsection would cause the loss of any tax exemption under federal law for interest on bonds issued under RCW 43.99N.020 shall be deposited in and used exclusively for the purposes of the youth athletic facility account and shall not be used, directly or indirectly, as a source of payment of principal of or interest on bonds issued under RCW 43.99N.020, or to replace or reimburse other funds used for that purpose.

(4) Any moneys in the stadium and exhibition center account not required or permitted to be used for the purposes described in subsection (3)(a) and (b) of this section shall be deposited in the youth athletic facility account hereby created in the state treasury. Expenditures from the account may be used only for purposes of grants or loans to cities, counties, and qualified nonprofit organizations for community outdoor athletic facilities. For the 2005-2007 biennium, moneys in the account may also be used for a recreation level of service study for local and regional active recreation facilities. Only the director of the recreation and conservation office or the

director’s designee may authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures. The athletic facility grants or loans may be used for acquiring, developing, equipping, maintaining, and improving community outdoor athletic facilities. Funds shall be divided equally between the development of new community outdoor athletic facilities, the improvement of existing community outdoor athletic facilities, and the maintenance of existing community outdoor athletic facilities. Cities, counties, and qualified nonprofit organizations must submit proposals for grants or loans from the account. To the extent that funds are available, cities, counties, and qualified nonprofit organizations must meet eligibility criteria as established by the director of the recreation and conservation office. The grants and loans shall be awarded on a competitive application process and the amount of the grant or loan shall be in proportion to the population of the city or county for where the community outdoor athletic facility is located. Grants or loans awarded in any one year need not be distributed in that year. The director of the recreation and conservation office may expend up to one and one-half percent of the moneys deposited in the account created in this subsection for administrative purposes. #### **43.121.020 Council established—Members, chairperson—Appointment, qualifications, terms, vacancies.**

(1) There is established in the executive office of the governor a Washington council for the prevention of child abuse and neglect subject to the jurisdiction of the governor.

(2) The council shall be composed of the chairperson and fourteen other members as follows:

(a) The chairperson and six other members shall be appointed by the governor and shall be selected for their interest and expertise in the prevention of child abuse. A minimum of four designees by the governor shall not be affiliated with governmental agencies. The appointments shall be made on a geographic basis to assure statewide representation. Members appointed by the governor shall serve for three-year terms. Vacancies shall be filled for any unexpired term by appointment in the same manner as the original appointments were made.

(b) The secretary of social and health services or the secretary's designee, the superintendent of public instruction or the superintendent's designee, the director of the department of early learning or the director's designee, and the secretary of the department of health or the secretary's designee shall serve as voting members of the council.

[2007 c 144 § 1; 1996 c 10 § 1; 1994 c 48 § 1; 1989 c 304 § 4; 1987 c 351 § 3; 1984 c 261 § 1; 1982 c 4 § 2.]

**Legislative findings—1987 c 351:** See note following RCW 70.58.085.

**Severability—1984 c 261:** "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1984 c 261 § 8.]

#### **43.121.170 Home visitation programs—Findings—Intent.** The legislature finds that:

(1) The years from birth to three are critical in building the social, emotional, and cognitive developmental founda-

tions of a young child. Research into the brain development of young children reveals that children are born learning.

(2) The farther behind children are in their social, emotional, physical, and cognitive development, the more difficult it will be for them to catch up.

(3) A significant number of children age birth to five years are born with two or more of the following risk factors and have a greater chance of failure in school and beyond: Poverty; single or no parent; no parent employed full time or full year; all parents with disability; and mother without a high school degree.

(4) Parents and children involved in home visitation programs exhibit better birth outcomes, enhanced parent and child interactions, more efficient use of health care services, enhanced child development including improved school readiness, and early detection of developmental delays, as well as reduced welfare dependence, higher rates of school completion and job retention, reduction in frequency and severity of maltreatment, and higher rates of school graduation.

The legislature intends to promote the use of voluntary home visitation services to families as an early intervention strategy to alleviate the effect on child development of factors such as poverty, single parenthood, parental unemployment or underemployment, parental disability, or parental lack of a high school diploma, which research shows are risk factors for child abuse and neglect and poor educational outcomes. [2007 c 466 § 1.]

#### **43.121.175 Home visitation programs—Definitions.**

The definitions in this section apply throughout RCW 43.121.170 through 43.121.185 unless the context clearly requires otherwise.

(1) "Evidence-based" means a program or practice that has had multiple site random controlled trials across heterogeneous populations demonstrating that the program or practice is effective for the population.

(2) "Home visitation" means providing services in the permanent or temporary residence, or in other familiar surroundings, of the family receiving such services.

(3) "Research-based" means a program or practice that has some research demonstrating effectiveness, but that does not yet meet the standard of evidence-based practices. [2007 c 466 § 2.]

#### **43.121.180 Home visitation programs—Funding—Home visitation services coordination or consolidation plan—Report.**

(1) Within available funds, the children's trust of Washington shall fund evidence-based and research-based home visitation programs for improving parenting skills and outcomes for children. Home visitation programs must be voluntary and must address the needs of families to alleviate the effect on child development of factors such as poverty, single parenthood, parental unemployment or underemployment, parental disability, or parental lack of high school diploma, which research shows are risk factors for child abuse and neglect and poor educational outcomes.

(2) The children's trust of Washington shall develop a plan with the department of social and health services, the

department of health, the department of early learning, and the family policy council to coordinate or consolidate home visitation services for children and families and report to the appropriate committees of the legislature by December 1, 2007, with their recommendations for implementation of the plan. [2007 c 466 § 3.]

**43.121.185 Washington council for the prevention of child abuse and neglect renamed.** To recognize the focus on home visitation services, the Washington council for the prevention of child abuse and neglect is hereby renamed the children's trust of Washington. All references to the Washington council for the prevention of child abuse and neglect in the Revised Code of Washington shall be construed to mean the children's trust of Washington. [2007 c 466 § 4.]

#### **43.135.035 Tax legislation—Conditions and restrictions—Ballot title—Declarations of emergency—Taxes on intangible property—Expenditure limit to reflect program cost shifting or fund transfer. *(Effective July 1, 2008, if the proposed amendment to Article VII of the state Constitution is approved at the November 2007 general election.)***

(1) After July 1, 1995, any action or combination of actions by the legislature that raises state revenue or requires revenue-neutral tax shifts may be taken only if approved by a two-thirds vote of each house, and then only if state expenditures in any fiscal year, including the new revenue, will not exceed the state expenditure limits established under this chapter.

(2)(a) If the legislative action under subsection (1) of this section will result in expenditures in excess of the state expenditure limit, then the action of the legislature shall not take effect until approved by a vote of the people at a November general election. The state expenditure limit committee shall adjust the state expenditure limit by the amount of additional revenue approved by the voters under this section. This adjustment shall not exceed the amount of revenue generated by the legislative action during the first full fiscal year in which it is in effect. The state expenditure limit shall be adjusted downward upon expiration or repeal of the legislative action.

(b) The ballot title for any vote of the people required under this section shall be substantially as follows:

"Shall taxes be imposed on . . . . . in order to allow a spending increase above last year's authorized spending adjusted for personal income growth?"

(3)(a) The state expenditure limit may be exceeded upon declaration of an emergency for a period not to exceed twenty-four months by a law approved by a two-thirds vote of each house of the legislature and signed by the governor. The law shall set forth the nature of the emergency, which is limited to natural disasters that require immediate government action to alleviate human suffering and provide humanitarian assistance. The state expenditure limit may be exceeded for no more than twenty-four months following the declaration of the emergency and only for the purposes contained in the emergency declaration.

(b) Additional taxes required for an emergency under this section may be imposed only until thirty days following the next general election, unless an extension is approved at that general election. The additional taxes shall expire upon expiration of the declaration of emergency. The legislature shall not impose additional taxes for emergency purposes under this subsection unless funds in the education construction fund have been exhausted.

(c) The state or any political subdivision of the state shall not impose any tax on intangible property listed in RCW 84.36.070 as that statute exists on January 1, 1993.

(4) If the cost of any state program or function is shifted from the state general fund or a related fund to another source of funding, or if moneys are transferred from the state general fund or a related fund to another fund or account, the state expenditure limit committee, acting pursuant to RCW 43.135.025(5), shall lower the state expenditure limit to reflect the shift. For the purposes of this section, a transfer of money from the state general fund or a related fund to another fund or account includes any state legislative action taken that has the effect of reducing revenues from a particular source, where such revenues would otherwise be deposited into the state general fund or a related fund, while increasing the revenues from that particular source to another state or local government account. This subsection does not apply to: (a) The dedication or use of lottery revenues under RCW 67.70.240(3) or property taxes under RCW 84.52.068, in support of education or education expenditures; or (b) a transfer of moneys to, or an expenditure from, the budget stabilization account.

(5) If the cost of any state program or function and the ongoing revenue necessary to fund the program or function are shifted to the state general fund or a related fund on or after January 1, 2007, the state expenditure limit committee, acting pursuant to RCW 43.135.025(5), shall increase the state expenditure limit to reflect the shift. [2007 c 484 § 6; 2005 c 72 § 5; 2005 c 72 § 2. **43.135.045 Emergency reserve fund—Transfers of excess balance—Appropriation conditions—Student achievement fund—Education construction fund. (Effective unless the proposed amendment to Article VII of the state Constitution is approved at the November 2007 general election.)** (1) The emergency reserve fund is established in the state treasury. During each fiscal year, the state treasurer shall transfer an amount from the state general fund to the emergency reserve fund. The amount transferred shall equal the amount by which total state revenue for the general fund and related funds exceeds the state expenditure limit, multiplied by the percentage that general fund expenditures are of total expenditures from the general fund and related funds. Transfers shall be made at the end of each fiscal quarter based on projections of state revenues, expenditures, and the state expenditure limit. The treasurer shall make transfers between these accounts as necessary to reconcile actual

annual revenues and the expenditure limit for fiscal year 2000 and thereafter.

(2) The legislature may appropriate moneys from the emergency reserve fund only with approval of at least two-thirds of the members of each house of the legislature, and then only if the appropriation does not cause total expenditures to exceed the state expenditure limit under this chapter.

(3) The emergency reserve fund balance shall not exceed five percent of annual general fund—state revenues as projected by the official state revenue forecast. Any balance in excess of five percent shall be transferred on a quarterly basis by the state treasurer as follows: Seventy-five percent to the student achievement fund hereby created in the state treasury and twenty-five percent to the general fund balance. The treasurer shall make transfers between these accounts as necessary to reconcile actual annual revenues for fiscal year 2000 and thereafter. When per-student state funding for the maintenance and operation of K-12 education meets a level of no less than ninety percent of the national average of total funding from all sources per student as determined by the most recent published data from the national center for education statistics of the United States department of education, as calculated by the office of financial management, further deposits to the student achievement fund shall be required only to the extent necessary to maintain the ninety-percent level. Remaining funds are part of the general fund balance and these funds are subject to the expenditure limits of this chapter.

(4) The education construction fund is hereby created in the state treasury.

(a) Funds may be appropriated from the education construction fund exclusively for common school construction or higher education construction. During the 2007-2009 fiscal biennium, funds may also be used for higher education facilities preservation and maintenance.

(b) Funds may be appropriated for any other purpose only if approved by a two-thirds vote of each house of the legislature and if approved by a vote of the people at the next general election. An appropriation approved by the people under this subsection shall result in an adjustment to the state expenditure limit only for the fiscal period for which the appropriation is made and shall not affect any subsequent fiscal period.

(5) Funds from the student achievement fund shall be appropriated to the superintendent of public instruction strictly for distribution to school districts to meet the provisions set out in the student achievement act. Allocations shall be made on an equal per full-time equivalent student basis to each school district. [2007 c 520 § 6035. Moneys in the job development fund may be spent only after appropriation. The board shall prepare a prioritized list of proposed projects of up to fifty million dollars as part of the department's 2007-09 biennial budget request. The board may provide an additional alternate job development fund project list of up to ten million dollars. The legislature may remove projects from the list recommended by the board. The legislature may not change the prioritization of projects recommended for funding by the board, but may add projects from the alternate list in order of priority, as long as the total funding does not exceed fifty million dollars. **43.155.050 Public works assistance account. (*Effective June 30, 2011.*)** The public works assistance account is hereby established in the state treasury. Money may be placed in the public works assistance account from the proceeds of bonds when authorized by the legislature or from any other lawful source. Money in the public works assistance account shall be used to make loans and to give financial guarantees to local governments for public works projects. Moneys in the account may also be appropriated to provide for state match requirements under federal law for projects and activities conducted and financed by the board under the drinking water assistance account. Not more than fifteen percent of the biennial capital budget appropriation to the public works board from this account may be expended or obligated for preconstruction loans, emergency loans, or loans for capital facility planning under this chapter; of this amount, not more than ten percent of the biennial capital budget appropriation may be expended for emergency loans and not more than one percent of the biennial capital budget appropriation may be expended for capital facility planning loans. For the 2007-2009 biennium, moneys in the account may be used for grants for projects identified in section 138, chapter 488, Laws of 2005 and section 1033, chapter 520, Laws of 2007. **43.155.070 Eligibility, priority, limitations, and exceptions.** (1) To qualify for loans or pledges under this chapter the board must determine that a local government meets all of the following conditions:

(a) The city or county must be imposing a tax under chapter 82.46 RCW at a rate of at least one-quarter of one percent;

(b) The local government must have developed a capital facility plan; and

(c) The local government must be using all local revenue sources which are reasonably available for funding public works, taking into consideration local employment and economic factors.

(2) Except where necessary to address a public health need or substantial environmental degradation, a county, city, or town planning under RCW 36.70A.040 must have adopted a comprehensive plan, including a capital facilities plan element, and development regulations as required by RCW 36.70A.040. This subsection does not require any county, city, or town planning under RCW 36.70A.040 to adopt a comprehensive plan or development regulations before requesting or receiving a loan or loan guarantee under this chapter if such request is made before the expiration of the time periods specified in RCW 36.70A.040. A county, city, or town planning under RCW 36.70A.040 which has not adopted a comprehensive plan and development regulations within the time periods specified in RCW 36.70A.040 is not prohibited from receiving a loan or loan guarantee under this chapter if the comprehensive plan and development regulations are adopted as required by RCW 36.70A.040 before submitting a request for a loan or loan guarantee.

(3) In considering awarding loans for public facilities to special districts requesting funding for a proposed facility located in a county, city, or town planning under RCW 36.70A.040, the board shall consider whether the county, city, or town planning under RCW 36.70A.040 in whose planning jurisdiction the proposed facility is located has adopted a comprehensive plan and development regulations as required by RCW 36.70A.040.

(4) The board shall develop a priority process for public works projects as provided in this section. The intent of the priority process is to maximize the value of public works projects accomplished with assistance under this chapter. The board shall attempt to assure a geographical balance in assigning priorities to projects. The board shall consider at least the following factors in assigning a priority to a project:

(a) Whether the local government receiving assistance has experienced severe fiscal distress resulting from natural disaster or emergency public works needs;

(b) Except as otherwise conditioned by RCW 43.155.110, whether the entity receiving assistance is a Puget Sound partner, as defined in RCW 90.71.010;

(c) Whether the project is referenced in the action agenda developed by the Puget Sound partnership under RCW 90.71.310;

(d) Whether the project is critical in nature and would affect the health and safety of a great number of citizens;

(e) Whether the applicant has developed and adhered to guidelines regarding its permitting process for those applying for development permits consistent with section 1(2), chapter 231, Laws of 2007;

(f) The cost of the project compared to the size of the local government and amount of loan money available;

(g) The number of communities served by or funding the project;

(h) Whether the project is located in an area of high unemployment, compared to the average state unemployment;

(i) Whether the project is the acquisition, expansion, improvement, or renovation by a local government of a public water system that is in violation of health and safety standards, including the cost of extending existing service to such a system;

(j) The relative benefit of the project to the community, considering the present level of economic activity in the community and the existing local capacity to increase local economic activity in communities that have low economic growth; and

(k) Other criteria that the board considers advisable.

(5) Existing debt or financial obligations of local governments shall not be refinanced under this chapter. Each local government applicant shall provide documentation of attempts to secure additional local or other sources of funding for each public works project for which financial assistance is sought under this chapter.

(6) Before November 1st of each year, the board shall develop and submit to the appropriate fiscal committees of the senate and house of representatives a description of the loans made under RCW 43.155.065, 43.155.068, and subsection (9) of this section during the preceding fiscal year and a prioritized list of projects which are recommended for funding by the legislature, including one copy to the staff of each of the committees. The list shall include, but not be limited to, a description of each project and recommended financing, the terms and conditions of the loan or financial guarantee, the local government jurisdiction and unemployment rate, demonstration of the jurisdiction's critical need for the project and documentation of local funds being used to finance the public works project. The list shall also include measures of fiscal capacity for each jurisdiction recommended for financial assistance, compared to authorized limits and state averages, including local government sales taxes; real estate excise taxes; property taxes; and charges for or taxes on sewerage, water, garbage, and other utilities.

(7) The board shall not sign contracts or otherwise financially obligate funds from the public works assistance account before the legislature has appropriated funds for a specific list of public works projects. The legislature may remove projects from the list recommended by the board. The legislature shall not change the order of the priorities recommended for funding by the board.

(8) Subsection (7) of this section does not apply to loans made under RCW 43.155.065, 43.155.068, and subsection (9) of this section.

(9) Loans made for the purpose of capital facilities plans shall be exempted from subsection (7) of this section.

(10) To qualify for loans or pledges for solid waste or recycling facilities under this chapter, a city or county must demonstrate that the solid waste or recycling facility is consistent with and necessary to implement the comprehensive solid waste management plan adopted by the city or county under chapter 70.95 RCW.

(11) After January 1, 2010, any project designed to address the effects of storm water or wastewater on Puget Sound may be funded under this section only if the project is not in conflict with the action agenda developed by the Puget Sound partnership under RCW 90.71.310. [2007 c 341 § 24; 2007 c 231 § 2; 2001 c 131 § 5; 1999 c 164 § 602; 1997 c 429 § 29; 1996 c 168 § 3; 1995 c 363 § 3; 1993 c 39 § 1; 1991 sp.s. c 32 § 23; 1990 1st ex.s. c 17 § 82; 1990 c 133 § 6; 1988 c 93 § 3; 1987 c 505 § 40; 1985 c 446 § 12.]

**Reviser's note:** This section was amended by 2007 c 231 § 2 and by 2007 c 341 § 24, each without reference to the other. Both amendments are

incorporated in the publication of this section under RCW 1.12.025(2). For rule of construction, see RCW 1.12.025(1).

**Severability—Effective date—2007 c 341:** See RCW 90.71.906 and 90.71.907.

**Findings—Recommendations—Reports encouraged—2007 c 231:** "(1) The legislature finds that permit programs have been legislatively established to protect the health, welfare, economy, and environment of Washington's citizens and to provide a fair, competitive opportunity for business innovation and consumer confidence. The legislature also finds that uncertainty in government processes to permit an activity by a citizen of Washington state is undesirable and erodes confidence in government. The legislature further finds that in the case of projects that would further economic development in the state, information about the permitting process is critical for an applicant's planning and financial assessment of the proposed project. The legislature also finds that applicants have a responsibility to provide complete and accurate information.

(2) The legislature recommends that applicants be provided with the following information when applying for a development permit from a city, county, or state agency:

(a) The minimum and maximum time an agency will need to make a decision on a permit, including public comment requirements;

(b) The minimum amount of information required for an agency to make a decision on a permit;

(c) When an agency considers an application complete for processing;

(d) The minimum and maximum costs in agency fees that will be incurred by the permit applicant; and

(e) The reasons for a denial of a permit in writing.

(3) In providing this information to applicants, an agency should base estimates on the best information available about the permitting program and prior applications for similar permits, as well as on the information provided by the applicant. New information provided by the applicant subsequent to the agency estimates may change the information provided by an agency per subsection (2) of this section. Project modifications by an applicant may result in more time, more information, or higher fees being required for permit processing.

(4) This section does not create an independent cause of action, affect any existing cause of action, or establish time limits for purposes of RCW 64.40.020.

(5) City, county, and state agencies issuing development permits are encouraged to track the progress in providing the information to applicants per subsection (2) of this section by preparing an annual report of its performance for the preceding fiscal year. The report should be posted on its web site [and] made available and provided to the appropriate standing committees of the senate and house of representatives." [2007 c 231 § 1.]

entities that are eligible to be included in the definition of Puget Sound partner. Entities that are not eligible to be a Puget Sound partner due to geographic location, composition, exclusion from the scope of the action agenda developed by the Puget Sound partnership under RCW 90.71.310, or for any other reason, shall not be given less preferential treatment than Puget Sound partners. ### ECONOMIC DEVELOPMENT—PUBLIC FACILITIES LOANS AND GRANTS

#### Sections

- 43.160.060 Loans and grants to political subdivisions and federally recognized Indian tribes for public facilities authorized—Application—Requirements for financial assistance.
- 43.160.230 Job development fund program. (*Expires June 30, 2011.*)

**43.160.060 Loans and grants to political subdivisions and federally recognized Indian tribes for public facilities authorized—Application—Requirements for financial assistance.** The board is authorized to make direct loans to political subdivisions of the state and to federally recognized Indian tribes for the purposes of assisting the political subdivisions and federally recognized Indian tribes in financing the cost of public facilities, including development of land and improvements for public facilities, project-specific environmental, capital facilities, land use, permitting, feasibility, and marketing studies and plans; project design, site planning, and analysis; project debt and revenue impact analysis; as well as the construction, rehabilitation, alteration, expansion, or improvement of the facilities. A grant may also be authorized for purposes designated in this chapter, but only when, and to the extent that, a loan is not reasonably possible, given the limited resources of the political subdivision or the federally recognized Indian tribe and the finding by the board that financial circumstances require grant assistance to enable the project to move forward. However, at least ten percent of all financial assistance provided by the board in any biennium shall consist of grants to political subdivisions and federally recognized Indian tribes.

Application for funds shall be made in the form and manner as the board may prescribe. In making grants or loans the board shall conform to the following requirements:

- (1) The board shall not provide financial assistance:
  - (a) For a project the primary purpose of which is to facilitate or promote a retail shopping development or expansion.
  - (b) For any project that evidence exists would result in a development or expansion that would displace existing jobs in any other community in the state.
  - (c) For the acquisition of real property, including buildings and other fixtures which are a part of real property.
  - (d) For a project the primary purpose of which is to facilitate or promote gambling.
- (2) The board shall only provide financial assistance:
  - (a) For those projects which would result in specific private developments or expansions (i) in manufacturing, production, food processing, assembly, warehousing, advanced technology, research and development, and industrial distri-

bution; (ii) for processing recyclable materials or for facilities that support recycling, including processes not currently provided in the state, including but not limited to, de-inking facilities, mixed waste paper, plastics, yard waste, and problem-waste processing; (iii) for manufacturing facilities that rely significantly on recyclable materials, including but not limited to waste tires and mixed waste paper; (iv) which support the relocation of businesses from nondistressed urban areas to rural counties or rural natural resources impact areas; or (v) which substantially support the trading of goods or services outside of the state's borders.

(b) For projects which it finds will improve the opportunities for the successful maintenance, establishment, or expansion of industrial or commercial plants or will otherwise assist in the creation or retention of long-term economic opportunities.

(c) When the application includes convincing evidence that a specific private development or expansion is ready to occur and will occur only if the public facility improvement is made.

(3) The board shall prioritize each proposed project according to:

(a) The relative benefits provided to the community by the jobs the project would create, not just the total number of jobs it would create after the project is completed and according to the unemployment rate in the area in which the jobs would be located;

(b) The rate of return of the state's investment, that includes the expected increase in state and local tax revenues associated with the project; and

(c) Whether the applicant has developed and adhered to guidelines regarding its permitting process for those applying for development permits consistent with section 1(2), chapter 231, Laws of 2007.

(4) A responsible official of the political subdivision or the federally recognized Indian tribe shall be present during board deliberations and provide information that the board requests.

Before any financial assistance application is approved, the political subdivision or the federally recognized Indian tribe seeking the assistance must demonstrate to the community economic revitalization board that no other timely source of funding is available to it at costs reasonably similar to financing available from the community economic revitalization board. **43.160.230 Job development fund program. (Expires June 30, 2011.)** (1) The job development fund program is created to provide grants for public infrastructure projects that will stimulate job creation or assist in job retention. The program is to be administered by the board. The board shall establish a competitive process to request and prioritize proposals and make grant awards.

(2) For the purposes of chapter 425, Laws of 2005, "public infrastructure projects" has the same meaning as "public facilities" as defined in RCW 43.160.020(11).

(3) The board shall conduct a statewide request for project applications. The board shall apply the following criteria for evaluation and ranking of applications:

(a) The relative benefits provided to the community by the jobs the project would create, including, but not limited to: (i) The total number of jobs; (ii) the total number of full-time, family wage jobs; (iii) the unemployment rate in the area; and (iv) the increase in employment in comparison to total community population;

(b) The present level of economic activity in the community and the existing local financial capacity to increase economic activity in the community;

(c) Whether the applicant has developed and adhered to guidelines regarding its permitting process for those applying for development permits consistent with section 1(2), chapter 231, Laws of 2007;

(d) The rate of return of the state's investment, that includes the expected increase in state and local tax revenues associated with the project;

(e) The lack of another timely source of funding available to finance the project which would likely prevent the proposed community or economic development, absent the financing available under chapter 425, Laws of 2005;

(f) The ability of the project to improve the viability of existing business entities in the project area;

(g) Whether or not the project is a partnership of multiple jurisdictions;

(h) Demonstration that the requested assistance will directly stimulate community and economic development by facilitating the creation of new jobs or the retention of existing jobs; and

(i) The availability of existing assets that applicants may apply to projects.

(4) Job development fund program grants may only be awarded to those applicants that have entered into or expect to enter into a contract with a private developer relating to private investment that will result in the creation or retention of jobs upon completion of the project. Job development fund program grants shall not be provided for any project where:

(a) The funds will not be used within the jurisdiction or jurisdictions of the applicants; or

(b) Evidence exists that the project would result in a development or expansion that would displace existing jobs in any other community in the state.

(5) The board shall, with the joint legislative audit and review committee, develop performance criteria for each grant and evaluation criteria to be used to evaluate both how

well successful applicants met the community and economic development objectives stated in their applications, and how well the job development fund program performed in creating and retaining jobs. [2007 c 231 § 4; 2005 c 425 § 2.]

**Expiration date—2007 c 231 § 4:** "Section 4 of this act expires June 30, 2011." [2007 c 231 § 8.]

**Findings—Recommendations—Reports encouraged—2007 c 231:** See note following RCW 43.155.070.

**Finding—2005 c 425:** "The legislature has and continues to recognize the vital importance of economic development to the health and prosperity of Washington state as indicated in RCW 43.160.010, 43.155.070(4)(g), 43.163.005, and 43.168.010. The legislature finds that current economic development programs and funding, which are primarily low-interest loan programs, can be enhanced by creating a grant program to assist with public infrastructure projects that directly stimulate community and economic development by supporting the creation of new jobs or the retention of existing jobs." [2005 c 425 § 1.]

### ECONOMIC DEVELOPMENT COMMISSION

43.162.005	Findings—Intent.
43.162.010	Washington state economic development commission—Membership—Rules.
43.162.015	Executive director.
43.162.020	Duties—Biennial report.
43.162.025	Additional authority.
43.162.030	Authority of governor and department of community, trade, and economic development not affected.

**43.162.005 Findings—Intent.** The legislature finds that Washington's innovation and trade-driven economy has provided tremendous opportunities for citizens of the state, but that there is no guarantee that globally competitive firms will continue to grow and locate in the state. The current economic development system is fragmented among numerous programs, councils, centers, and organizations with inadequate overall coordination and insufficient guidance built into the system to ensure that the system is responsive to its customers. The current economic development system's data-gathering and evaluation methods are inconsistent and unable to provide adequate information for determining how well the system is performing on a regular basis so the system may be held accountable for its outcomes.

The legislature also finds that developing a comprehensive economic development strategic plan to guide the operation of effective economic development programs, including workforce training, infrastructure development, small business assistance, technology transfer, and export assistance, is vital to the state's efforts to increase the competitiveness of state businesses, encourage employment growth, increase state revenues, and generate economic well-being. There is a need for responsive and consistent involvement of the private sector in the state's economic development efforts. The legislature finds that there is a need for the development of coordination criteria for business recruitment, expansion, and retention activities carried out by the state and local entities. It is the intent of the legislature to create an economic devel-

opment commission that will provide planning, coordination, evaluation, monitoring, and policy analysis and development for the state economic development system as a whole, and advice to the governor and legislature concerning the state economic development system. [2007 c 232 § 1; 2003 c 235 § 1.]

**43.162.010 Washington state economic development commission—Membership—Rules.** (1) The Washington state economic development commission is established to oversee the economic development strategies and policies of the department of community, trade, and economic development.

The director of the department of community, trade, and economic development, the director of the workforce training and education coordinating board, the commissioner of the employment security department, and the chairs and ranking minority members of the standing committees of the house of representatives and the senate overseeing economic development policies shall serve as nonvoting ex officio members.

The chair of the commission shall be a voting member selected by the governor with the consent of the senate, and shall serve at the pleasure of the governor. (b) In making the appointments, the governor shall consult with organizations that have an interest in economic development, including, but not limited to, industry associations, labor organizations, minority business associations, economic development councils, chambers of commerce, port associations, tribes, and the chairs of the legislative committees with jurisdiction over economic development.

(3) Members appointed by the governor shall serve at the pleasure of the governor for three-year terms.

(4) The commission may establish committees as it desires, and may invite nonmembers of the commission to serve as committee members.

mission. The commission, by a majority vote, may dismiss the executive director with the approval of the governor.

(6) The commission may adopt rules for its own governance. [2007 c 232 § 2; 2003 c 235 § 2.]

**43.162.015 Executive director.** (1) The commission shall employ an executive director. The executive director shall serve as chief executive officer of the commission and shall administer the provisions of this chapter, employ such personnel as may be necessary to implement the purposes of this chapter, utilize staff of existing operating agencies to the fullest extent possible, and employ outside consulting and service agencies when appropriate.

(2) The executive director may not be the chair of the commission.

The proposal to form a community preservation and development authority must be presented in writing to the appropriate legislative committee in both the house of representatives and the senate. Proposals presented after January 1, 2008, must identify in its proposal one or more stable revenue sources that (a) have a nexus with the multiple publicly funded facilities that have adversely impacted the community, and (b) can be used to support future operating or capital projects that will be identified in the strategic plan required under RCW 43.167.030.

(2) Formation of the community preservation and development authority is subject to legislative authorization by statute. The legislature must find that (a) the area within the proposal's geographic boundaries meets the definition of "impacted community" contained in \*section 2(4) of this act

and (b) those persons that have brought forth the proposal are members of the community as defined in \*section 2(1) of this act and, if the authority were approved, would meet the definition of constituency contained in \*section 2(3) of this act. For proposals brought after January 1, 2008, the legislature must also find that the community has identified one or more stable revenue sources as required in subsection (1) of this section. (c) Board members elected to positions six through nine after the initial three-year term shall serve two-year terms, and if reelected, may serve no more than one additional two-year term.

(5) With respect to an authority's initial board of directors: The state legislative delegation and those proposing formation of the authority shall jointly establish a committee to develop a list of candidates to stand for election once the authority has received legislative approval as established in subsection (2) of this section. For the purpose of developing the list and identifying those persons who meet the criteria in subsection (3)(a) through (e) of this section, community shall mean the proposed geographic boundaries as set out in the proposal. ## Chapter 43.185A RCW

### AFFORDABLE HOUSING PROGRAM

#### Sections

43.185A.110 Affordable housing land acquisition revolving loan fund program.

**43.185A.110 Affordable housing land acquisition revolving loan fund program.** (1) The affordable housing land acquisition revolving loan fund program is created in the department to assist eligible organizations, described under RCW 43.185A.040, to purchase land for affordable housing development. The department shall contract with the Washington state housing finance commission to administer the affordable housing land acquisition revolving loan fund program. Within this program, the Washington state housing finance commission shall establish and administer the Washington state housing finance commission land acquisition revolving loan fund.

(2) As used in this chapter, "market rate" means the current average market interest rate that is determined at the time any individual loan is closed upon using a widely recognized current market interest rate measurement to be selected for use by the Washington state housing finance commission with the department's approval. This interest rate must be noted in an attachment to the closing documents for each loan.

(3) Under the affordable housing land acquisition revolving loan fund program:

(a) Loans may be made to purchase land on which to develop affordable housing. In addition to affordable housing, facilities intended to provide supportive services to affordable housing residents and low-income households in the nearby community may be developed on the land.

(b) Eligible organizations applying for a loan must include in the loan application a proposed affordable housing

development plan indicating the number of affordable housing units planned, a description of any other facilities being considered for the property, and an estimated timeline for completion of the development. The Washington state housing finance commission may require additional information from loan applicants and may consider the efficient use of land, project readiness, organizational capacity, and other factors as criteria in awarding loans.

(c) Forty percent of the loans shall go to eligible applicants operating homeownership programs for low-income households in which the households participate in the construction of their homes. Sixty percent of loans shall go to other eligible organizations. If the entire forty percent for applicants operating self-help homeownership programs cannot be lent to these types of applicants, the remainder shall be lent to other eligible organizations.

(d) Within five years of receiving a loan, a loan recipient must present the Washington state housing finance commission with an updated development plan, including a proposed development design, committed and anticipated additional financial resources to be dedicated to the development, and an estimated development schedule, which indicates completion of the development within eight years of loan receipt. This updated development plan must be substantially consistent with the development plan submitted as part of the original loan application as required in (b) of this subsection.

(e) Within eight years of receiving a loan, a loan recipient must develop affordable housing on the property for which the loan was made and place the affordable housing into service.

(f) A loan recipient must preserve the affordable housing developed on the property acquired under this section as affordable housing for a minimum of thirty years.

(4) If a loan recipient does not place affordable housing into service on a property for which a loan has been received under this section within the eight-year period specified in subsection (3)(e) of this section, or if a loan recipient fails to use the property for the intended affordable housing purpose consistent with the loan recipient's original affordable housing development plan, then the loan recipient must pay to the Washington state housing finance commission an amount consisting of the principal of the original loan plus compounded interest calculated at the current market rate. The Washington state housing finance commission shall develop guidelines for the time period in which this repayment must take place, which must be noted in the original loan agreement. The Washington state housing finance commission may grant a partial or total exemption from this repayment requirement if it determines that a development is substantially complete or that the property has been substantially used in keeping with the original affordable housing purpose of the loan. Any repayment funds received as a result of non-compliance with loan requirements shall be deposited into the Washington state housing finance commission land acquisition revolving loan fund for the purposes of the affordable housing land acquisition revolving loan fund program.

(5) The Washington state housing finance commission, with approval from the department, may adopt guidelines and requirements that are necessary to administer the affordable housing land acquisition revolving loan fund program.

(6) Interest rates on property loans granted under this section may not exceed one percent. All loan repayment moneys received shall be deposited into the Washington state housing finance commission affordable housing land acquisition revolving loan fund for the purposes of the affordable housing land acquisition revolving loan fund program.

(7) The Washington state housing finance commission must develop performance measures for the program, which must be approved by the department, including, at a minimum, measures related to:

(a) The ability of eligible organizations to access land for affordable housing development;

(b) The total number of dwelling units by housing type and the total number of very low-income households and persons served; and

(c) The financial efficiency of the program as demonstrated by factors, including the cost per unit developed for affordable housing units in different areas of the state and a measure of the effective use of funds to produce the greatest number of units for low-income households.

(8) By December 1st of each year, beginning in 2007, the Washington state housing finance commission shall report to the department and the appropriate committees of the legislature using, at a minimum, the performance measures developed under subsection (7) of this section. [2007 c 428 § 2.]

**Findings—2007 c 428:** "The legislature finds that protecting the public health, safety, and welfare by providing affordable housing resources to needy or vulnerable persons is a fundamental purpose of government. The legislature further finds that assisting eligible organizations to purchase land for affordable housing development and related supportive services facilities confers a valuable benefit on the public that constitutes consideration for financing assistance to eligible organizations in the form of low-interest loans, subject to restrictions that provide continued protection of the public interest." [2007 c 428 § 1.]

**Contingency—2007 c 428:** "If specific funding for the purposes of this act, referencing this act by bill or chapter number, is not provided by June 30, 2007, in the omnibus appropriations act, this act is null and void." [2007 c 428 § 3.] Funding was provided in 2007 c 520 § 1044 (capital budget).

43.215.535	Day care insurance.
43.215.545	Child care services.

**43.215.005 Finding—Purpose.** (1) The legislature recognizes that:

(a) Parents are their children's first and most important teachers and decision makers;

(b) Research across disciplines now demonstrates that what happens in the earliest years makes a critical difference in children's readiness to succeed in school and life;

(c) Washington's competitiveness in the global economy requires a world-class education system that starts early and supports life-long learning;

(d) Washington state currently makes substantial investments in voluntary child care and early learning services and supports, but because services are fragmented across multiple state agencies, and early learning providers lack the supports and incentives needed to improve the quality of services they provide, many parents have difficulty accessing high quality early learning services;

(e) A more cohesive and integrated voluntary early learning system would result in greater efficiencies for the state, increased partnership between the state and the private sector, improved access to high quality early learning services, and better employment and early learning outcomes for families and all children.

(2) The legislature finds that the early years of a child's life are critical to the child's healthy brain development and that the quality of caregiving during the early years can significantly impact the child's intellectual, social, and emotional development.

(3) The purpose of this chapter is:

(a) To establish the department of early learning;

(b) To coordinate and consolidate state activities relating to child care and early learning programs;

(c) To safeguard and promote the health, safety, and well-being of children receiving child care and early learning assistance, which is paramount over the right of any person to provide care;

(d) To provide tools to promote the hiring of suitable providers of child care by:

(i) Providing parents with access to information regarding child care providers;

(ii) Providing parents with child care licensing action histories regarding child care providers; and

(iii) Requiring background checks of applicants for employment in any child care facility licensed or regulated under current law;

(e) To promote linkages and alignment between early learning programs and elementary schools and support the transition of children and families from prekindergarten environments to kindergarten;

(f) To promote the development of a sufficient number and variety of adequate child care and early learning facilities, both public and private; and

(g) To license agencies and to assure the users of such agencies, their parents, the community at large and the agencies themselves that adequate minimum standards are maintained by all child care and early learning facilities.

(3) The department may assess civil monetary penalties upon proof that an agency has failed or refused to comply with the rules adopted under this chapter or that an agency subject to licensing under this chapter is operating without a license except that civil monetary penalties shall not be levied against a licensed foster home. Monetary penalties levied against unlicensed agencies that submit an application for

licensure within thirty days of notification and subsequently become licensed will be forgiven. These penalties may be assessed in addition to or in lieu of other disciplinary actions. Civil monetary penalties, if imposed, may be assessed and collected, with interest, for each day an agency is or was out of compliance. Civil monetary penalties shall not exceed seventy-five dollars per violation for a family day care home and two hundred fifty dollars per violation for child day care centers. Each day upon which the same or substantially similar action occurs is a separate violation subject to the assessment of a separate penalty. The department shall provide a notification period before a monetary penalty is effective and may forgive the penalty levied if the agency comes into compliance during this period. The department may suspend, revoke, or not renew a license for failure to pay a civil monetary penalty it has assessed pursuant to this chapter within ten days after such assessment becomes final. RCW 43.215.307 governs notice of a civil monetary penalty and provides the right to an adjudicative proceeding. The preponderance of evidence standard shall apply in adjudicative proceedings related to assessment of civil monetary penalties.

The nonreferral status may continue until the department determines that: (i) No enforcement action is appropriate; or (ii) a corrective action plan has been successfully concluded.

(b) Whenever a child day care center or family day care provider is placed on nonreferral status, the department shall provide written notification to the child day care center or family day care provider.

(5) The department shall notify appropriate public and private child care resource and referral agencies of the department's decision to: (a) Take an enforcement action against a child day care center or family day care provider; or (b) place or remove a child day care center or family day care provider on nonreferral status. (3) Except for licensees suspended for noncompliance with a support order under chapter 74.20A RCW, a license applicant or licensee who is aggrieved by a department denial, revocation, suspension, or modification has the right to an adjudicative proceeding. The proceeding is governed by the administrative procedure act, chapter 34.05 RCW. The application must be in writing, state the basis for contesting the adverse action, include a copy of the adverse notice, be served on and received by the department within twenty-eight days of the license applicant's or licensee's receiving the adverse notice, and be served in a manner that shows proof of receipt.

(4)(a) If the department gives a licensee twenty-eight or more days' notice of revocation, suspension, or modification and the licensee files an appeal before its effective date, the department shall not implement the adverse action until the final order has been entered. The presiding or reviewing officer may permit the department to implement part or all of the adverse action while the proceedings are pending if the appellant causes an unreasonable delay in the proceeding, if the circumstances change so that implementation is in the public interest, or for other good cause.

(b) If the department gives a licensee less than twenty-eight days' notice of revocation, suspension, or modification and the licensee timely files a sufficient appeal, the department may implement the adverse action on the effective date stated in the notice. The presiding or reviewing officer may order the department to stay implementation of part or all of the adverse action while the proceedings are pending if staying implementation is in the public interest or for other good cause. (4) If the person files a timely and sufficient appeal, the department shall not implement the action until the final order has been served. The presiding or reviewing officer may permit the department to implement part or all of the action while the proceedings are pending if the appellant causes an unreasonable delay in the proceedings or for other good cause. **Finding—1993 c 453:** "The legislature finds that building a system of quality, affordable child care requires coordinated efforts toward constructing partnerships at state and community levels. Through the office of child care policy, the department of social and health services is responsible for facilitating the coordination of child care efforts and establishing working partnerships among the affected entities within the public and private sectors. Through these collaborative efforts, the office of child care policy encouraged the coalition of locally based child care resource and referral agencies into a statewide network. The statewide network, in existence since 1989, supports the development and operation of community-based resource and referral programs, improves the quality and quantity of child care available in Washington by fostering statewide strategies, and generates then nurtures effective public-private partnerships. The statewide network provides important training, standards of service, and general technical assistance to its locally based child care resource and referral programs. The locally based programs enrich the availability, affordability, and quality of child care in their communities." [1993 c 453 § 1.]

43.300.080 Cost-reimbursement agreements.

43.300.090 Notification requirements.

**43.300.080 Cost-reimbursement agreements.** (1) The department may enter into a written cost-reimbursement agreement with a permit applicant or project proponent to recover from the applicant or proponent the reasonable costs incurred by the department in carrying out the requirements of this chapter, as well as the requirements of other relevant laws, as they relate to permit coordination, environmental review, application review, technical studies, and permit processing. The cost-reimbursement agreement shall identify the specific tasks, costs, and schedule for work to be conducted under the agreement.

(2) The written cost-reimbursement agreement shall be negotiated with the permit applicant or project proponent. Under the provisions of a cost-reimbursement agreement, funds from the applicant shall be used by the department to contract with an independent consultant to carry out the work covered by the cost-reimbursement agreement. The department may also use funds provided under a cost-reimbursement agreement to assign current staff to review the work of the consultant, to provide necessary technical assistance when an independent consultant with comparable technical skills is unavailable, and to recover reasonable and necessary direct and indirect costs that arise from processing the permit. The department shall, in developing the agreement, ensure that final decisions that involve policy matters are made by the agency and not by the consultant. The department shall make an estimate of the number of permanent staff hours to process the permits, and shall contract with consultants to replace the time and functions committed by these permanent staff to the project. The billing process shall provide for accurate time and cost accounting and may include a billing cycle that provides for progress payments. Use of cost-reimbursement agreements shall not reduce the current level of staff available to work on permits not covered by cost-reimbursement agreements. The department may not use any funds under a cost-reimbursement agreement to replace or supplant existing funding. The restrictions of chapter 42.52 RCW apply to any cost-reimbursement agreement, and to any person hired as a result of a cost-reimbursement agreement. **43.325.001 Findings—2006 c 171. (*Expires June 30, 2016.*)** The legislature finds that:

(1) Washington's dependence on energy supplied from outside the state and volatile global energy markets makes its economy and citizens vulnerable to unpredictable and high energy prices;

(2) Washington's dependence on petroleum-based fuels increases energy costs for citizens and businesses;

(3) Diesel soot from diesel engines ranks as the highest toxic air pollutant in Washington, leading to hundreds of premature deaths and increasing rates of asthma and other lung diseases;

(4) The use of biodiesel results in significantly less air pollution than traditional diesel fuels;

(5) Improper disposal and treatment of organic waste from farms and livestock operations can have a significant negative impact on water quality;

(6) Washington has abundant supplies of organic wastes from farms that can be used for energy production and abundant farmland where crops could be grown to supplement or supplant petroleum-based fuels;

(7) The use of energy and fuel derived from these sources can help citizens and businesses conserve energy and reduce the use of petroleum-based fuels, would improve air and water quality in Washington, reduce environmental risks from farm wastes, create new markets for farm products, and provide new industries and jobs for Washington citizens;

(8) The bioenergy industry is a new and developing industry that is, in part, limited by the availability of capital for the construction of facilities for converting farm and forest products into energy and fuels;

(9) Instead of leaving our economy at the mercy of global events, and the policies of foreign nations, Washington state should adopt a policy of energy independence; and

(10) The energy freedom program is meant to lead Washington state towards energy independence.

Therefore, the legislature finds that it is in the public interest to encourage the rapid adoption and use of bioenergy, to develop a viable bioenergy industry within Washington state, to promote public research and development in bioen-

ergy sources and markets, and to support a viable agriculture industry to grow bioenergy crops. To accomplish this, the energy freedom program is established to promote public research and development in bioenergy, and to stimulate the construction of facilities in Washington to generate energy from farm sources or convert organic matter into fuels. [2006 c 171 § 1. Formerly RCW 15.110.005.]

**43.325.005 Findings—2007 c 348.** (1) The legislature finds that excessive dependence on fossil fuels jeopardizes Washington's economic security, environmental integrity, and public health. Accelerated development and use of clean fuels and clean vehicle technologies will reduce the drain on Washington's economy from importing fossil fuels. As fossil fuel prices rise, clean fuels and vehicles can save consumers money while promoting the development of a major, sustainable industry that provides good jobs and a new source of rural prosperity. In addition, clean fuels and vehicles protect public health by reducing toxic air and climate change emissions.

(2) The legislature also finds that climate change is expected to have significant impacts in the Pacific Northwest region in the near and long-term future. These impacts include: Increased temperatures, declining snowpack, more frequent heavy rainfall and flooding, receding glaciers, rising sea levels, increased risks to public health due to insect and rodent-borne diseases, declining salmon populations, and increased drought and risk of forest fires. The legislature recognizes the need at this time to continue to gather and analyze information related to climate protection. This analysis will allow prudent steps to be taken to avoid, mitigate, or respond to climate impacts and protect our communities.

(3) Finally, the legislature finds that to reduce fossil fuel dependence, build our clean energy economy, and reduce climate impacts, the state should develop policies and incentives that help businesses, consumers, and farmers gain greater access to affordable clean fuels and vehicles and to produce clean fuels in the state. These policies and incentives should include: Incentives for replacement of the most polluting diesel engines, especially in school buses; transitional incentives for development of the most promising in-state clean fuels and fuel feedstocks, including biodiesel crops, ethanol from plant waste, and liquid natural gas from landfill or wastewater treatment gases; reduced fossil fuel consumption by state fleets; development of promising new technologies for displacing petroleum with electricity, such as "plug-in hybrids"; and impact analysis and emission accounting procedures that prepare Washington to respond and prosper as climate change impacts occur, and as policies and markets to reduce climate pollution are developed. [2007 c 348 § 1.]

**Findings—Intent—2007 c 249:** "The legislature finds that economic development success requires coordinated state and local efforts. The legislature further finds that economic development happens at the local level. County-designated associate development organizations serve as a networking tool and resource hub for business retention, expansion, and relocation in Washington. Economic development success requires an adequately funded and coordinated state effort and an adequately funded and coordinated local effort. The legislature intends to bolster the partnership between state and local economic development efforts, provide increased funding for local economic development services, and increase local economic development service effectiveness, efficiency, and outcomes." **Savings—Effective date—2005 c 136:** See notes following RCW 43.168.020.

**Findings—2003 c 153:** "The legislature finds that tourism is a growing sector of the Washington economy. Washington has a diverse geography, geology, climate, and natural resources, and offers abundant opportunities for wildlife viewing. Nature-based tourism is the fastest growing outdoor activity and segment of the travel industry and the state can take advantage of this by marketing Washington's natural assets to international as well as national tourist markets. Expanding tourism efforts can provide Washington residents with jobs and local communities with needed revenues.

The legislature also finds that current efforts to promote Washington's natural resources and nature-based tourism to national and international markets are too diffuse and limited by funding and that a collaborative effort among state and local governments, tribes, and private enterprises can serve to leverage the investments in nature-based tourism made by each." [2003 c 153 § 1.]

**Effective date—1994 c 144:** "This act shall take effect July 1, 1994." [1994 c 144 § 3.]

**43.330.094 Tourism development and promotion account—Promotion of tourism industry.** The tourism development and promotion account is created in the state treasury. All receipts from RCW 36.102.060(10) must be deposited into the account. Moneys in the account may be spent only after appropriation. Expenditures from the account may be used by the department of community, trade, and economic development only for the purposes of expanding and promoting the tourism industry in the state of Washington. [2007 c 228 § 202; 2003 c 153 § 4; 1997 c 220 § 223 (Referendum Bill No. 48, approved June 17, 1997).]

(b) The support of a local jurisdiction, a research institution, an educational institution, an industry or cluster association, a workforce development council, and an associate development organization, port, or chamber of commerce;

(c) Identifiable boundaries for the zone within which the applicant will concentrate efforts to connect innovative researchers, entrepreneurs, investors, industry associations or clusters, and training providers. The geographic area defined should lend itself to a distinct identity and have the capacity to accommodate firm growth;

(d) The innovation partnership zone administrator must be an economic development council, port, workforce development council, city, or county.

(2) On October 1st of each year, the director shall designate innovation partnership zones on the basis of applications that meet the legislative criteria, estimated economic impact of the zone, evidence of forward planning for the zone, and other criteria as recommended by the Washington state economic development commission. Estimated economic impact must include evidence of anticipated private investment, job creation, innovation, and commercialization. The director shall require evidence that zone applicants will promote commercialization, innovation, and collaboration among zone residents.

(3) Innovation partnership zones are eligible for funds and other resources as provided by the legislature or at the discretion of the governor.

(4) If the innovation partnership zone meets the other requirements of the fund sources, then the zone is eligible for the following funds relating to:

(a) The local infrastructure financing tools program;

(b) The sales and use tax for public facilities in rural counties; and

(c) Job skills.

The programs may involve multidisciplinary students, faculty, entrepreneurial researchers, entrepreneurs, and investors in building business models and evolving business plans around innovative ideas. The programs may provide technical assistance and the support of an entrepreneur-in-residence to innovation research teams and offer entrepreneurial training to faculty, researchers, undergraduates, and graduate students. Curriculum leading to a certificate in entrepreneurship may also be offered;

(e) Develop performance measures to be used in evaluating the performance of innovation research teams, the implementation of the plan and programs under (d)(i) and (ii) of this subsection, and the performance of innovation partnership zone grant recipients, including but not limited to private investment measures, business initiation measures, job creation measures, and measures of innovation such as licensing of ideas in research institutions, patents, or other recognized measures of innovation. (2) The economic development commission and the workforce training and education coordinating board shall jointly convene a working group to:

(a) The association shall serve as the department's agent in carrying out the purpose and service delivery requirements of this section;

(b) The association's contract with the department shall specify that in administering the funds provided for under subsection (3) of this section, the association may use no greater than ten percent of the funds to cover administrative expenses;

(2) Shall provide funds for capacity building for the statewide microenterprise association and microenterprise development organizations throughout the state;

(3) Shall provide grants to microenterprise development organizations for the delivery of training and technical assistance services;

(4) Shall identify and facilitate the availability of state, federal, and private sources of funds which may enhance microenterprise development in the state;

(5) Shall develop with the statewide microenterprise association criteria for the distribution of grants to microenterprise development organizations. Such criteria may include:

(a) The geographic representation of all regions of the state, including both urban and rural communities;

(b) The ability of the microenterprise development organization to provide business development services in low-income communities;

(c) The scope of services offered by a microenterprise development organization and their efficiency in delivery of such services;

(d) The ability of the microenterprise development organization to monitor the progress of its customers and identify technical and financial assistance needs;

(e) The ability of the microenterprise development organization to work with other organizations, public entities, and financial institutions to meet the technical and financial assistance needs of its customers;

(6) Shall require the statewide microenterprise association and any microenterprise development organization receiving funds through the microenterprise development program to raise and contribute to the effort funded by the microenterprise development program an amount equal to twenty-five percent of the microenterprise development program funds received. Such matching funds may come from private foundations, federal or local sources, financial institutions, or any other source other than funds appropriated from the legislature;

(7) Shall require under its contract with the statewide microenterprise association an annual accounting of program outcomes, including job creation, access to capital, leveraging of nonstate funds, and other outcome measures specified

by the department. By January 1, 2012, the joint legislative audit and review committee shall use these outcome data and other relevant information to evaluate the program's effectiveness; and

(8) May adopt rules as necessary to implement this section. [2007 c 322 § 3.]

**Findings—Purpose—Intent—2007 c 322:** "(1) The legislature finds that:

(a) Microenterprises are an important portion of Washington's economy, providing approximately twenty percent of the employment in Washington and playing a vital role in job creation.

(b) While community-based microenterprise development organizations have expanded their assistance to their microentrepreneur customers in recent years, there remains a lack of access to capital, training, and technical assistance for low-income microentrepreneurs.

(c) Support for microenterprise development offers a means to expand business and job creation in low-income communities in both rural and urban areas of the state.

(d) Local and state charitable foundation support, federal program funding, and private sector support can be leveraged by a statewide program for development of microenterprises.

(2) It is the purpose of this act to assist microenterprises in job creation by increasing the training, technical assistance, and financial resources available to microenterprises. It is the intention of the legislature to carry out this purpose by enabling the department of community, trade, and economic development to contract with a statewide microenterprise association with the potential to provide organizational support and administer grants to local microenterprise development organizations, subject to the requirements of this act, and to leverage additional funds from sources other than moneys appropriated from the general fund." ## Chapter 43.362 RCW

### REGIONAL TRANSFER OF DEVELOPMENT RIGHTS PROGRAM

#### Sections

43.362.005 Findings.

43.362.010 Definitions.

43.362.020 Regional transfer of development rights program.

**43.362.005 Findings.** The legislature finds that current concern over the rapid and increasing loss of rural, agricultural, and forested land has led to the exploration of creative approaches to preserving these important lands. The legislature finds also that the creation of a regional transfer of development rights marketplace will assist in slowing the conversion of these lands.

The legislature further finds that transferring development rights is a market-based technique that encourages the voluntary transfer of growth from places where a community would like to see less development, referred to as sending areas, to places where a community would like to see more development, referred to as receiving areas. Under this technique, permanent deed restrictions are placed on the sending area properties to ensure that the land will be used only for approved activities such as farming, forest management, conservation, or passive recreation. Also under this technique, the costs of purchasing the recorded development restrictions are borne by the developers who receive the building credit or bonus.

Accordingly, the legislature has determined that it is good public policy to build upon existing transfer of development rights programs, pilot projects, and private initiatives that foster effective use of transferred development rights through the creation of a market-based program that focuses on the central Puget Sound region. [2007 c 482 § 1.]

**43.362.010 Definitions.** The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Department" means the department of community, trade, and economic development.

(2) "Nongovernmental entities" includes nonprofit or membership organizations with experience or expertise in transferring development rights.

(3) "Transfer of development rights" includes methods for protecting land from development by voluntarily removing the development rights from a sending area and transferring them to a receiving area for the purpose of increasing development density in the receiving area. [2007 c 482 § 2.]

**43.362.020 Regional transfer of development rights program.** Subject to the availability of amounts appropriated for this specific purpose, the department shall fund a process to develop a regional transfer of development rights program that comports with chapter 36.70A RCW that:

(1) Encourages King, Kitsap, Pierce, and Snohomish counties, and the cities within these counties, to participate in the development and implementation of regional frameworks and mechanisms that make transfer of development rights programs viable and successful. The department shall encourage and embrace the efforts in any of these counties or

cities to develop local transfer of development rights programs. In fulfilling the requirements of this chapter, the department shall work with the Puget Sound regional council and its growth management policy board to develop a process that satisfies the requirements of this chapter. In the development of a process to create a regional transfer of development rights program, the Puget Sound regional council and its growth management policy board shall develop policies to discourage, or prohibit if necessary, the transfer of development rights from a sending area that would negatively impact the future economic viability of the sending area. The department shall also work with an advisory committee to develop a regional transfer of development rights marketplace that includes, but is not limited to, supporting strategies for financing infrastructure and conservation. The department shall establish an advisory committee of nine stakeholders with representatives of the following interests:

(a) Two qualified nongovernmental organizations with expertise in the transfer of development rights. At least one organization must have a statewide expertise in growth management planning and in the transfer of development rights and at least one organization must have a local perspective on market-based conservation strategies and transfer of development rights;

(b) Two representatives from real estate and development;

(c) One representative with a county government perspective;

(d) Two representatives from cities of different sizes and geographic areas within the four-county region; and

(e) Two representatives of the agricultural industry; and

(2) Allows the department to utilize recommendations of the interested local governments, nongovernmental entities, and the Puget Sound regional council to develop recommendations and strategies for a regional transfer of development rights marketplace with supporting strategies for financing infrastructure and conservation that represents the consensus of the governmental and nongovernmental parties engaged in the process. However, if agreement between the parties cannot be reached, the department shall make recommendations to the legislature that seek to balance the needs and interests of the interested governmental and nongovernmental parties. The department may contract for expertise to accomplish any of the following tasks. Recommendations developed under this subsection must:

(a) Identify opportunities for cities, counties, and the state to achieve significant benefits through using transfer of development rights programs and the value in modifying criteria by which capital budget funds are allocated, including but not limited to, existing state grant programs to provide incentives for local governments to implement transfer of development rights programs;

(b) Address challenges to the creation of an efficient and transparent transfer of development rights market, including the creation of a transfer of development rights bank, brokerage, or direct buyer-seller exchange;

(c) Address issues of certainty to buyers and sellers of development rights that address long-term environmental benefits and perceived inequities in land values and permitting processes;

(d) Address the means for assuring that appropriate values are recognized and updated, as well as specifically addressing the need to maintain the quality of life in receiving neighborhoods and the protection of environmental values over time;

(e) Identify opportunities and challenges that, if resolved, would result in cities throughout the Puget Sound region participating in a transfer of development rights market;

(f) Compare the uses of a regional transfer of development rights program to other existing land conservation strategies to protect rural and resource lands and implement the growth management act; and

(g) Identify appropriate sending areas so as to protect future growth and economic development needs of the sending areas. [2007 c 482 § 3.]

The strategy shall identify needs according to geographic regions suitable for comprehensive health planning as designated by the office.

(2) The development of the strategy shall consider the following general goals and principles:

(a) That excess capacity of health services and facilities place considerable economic burden on the public who pay for the construction and operation of these facilities as patients, health insurance purchasers, carriers, and taxpayers; and

(b) That the development and ongoing maintenance of current and accurate health care information and statistics related to cost and quality of health care, as well as projections of need for health facilities and services, are essential to effective strategic health planning.

(3) The strategy, with public input by health service areas, shall include:

(a) A health system assessment and objectives component that:

(i) Describes state and regional population demographics, health status indicators, and trends in health status and health care needs; and

(ii) Identifies key policy objectives for the state health system related to access to care, health outcomes, quality, and cost-effectiveness;

The plan shall identify any deficiencies in the inventory of existing data resources and the data necessary to conduct comprehensive health planning activities. The plan may recommend that the office be authorized to access existing data sources and conduct appropriate analyses of such data or that other agencies expand their data collection activities as statutory authority permits. The plan may identify any computing infrastructure deficiencies that impede the proper storage,

transmission, and analysis of health planning data. The plan shall provide recommendations for increasing the availability of data related to health planning to provide greater community involvement in the health planning process and consistency in data used for certificate of need applications and determinations;

(d) An assessment of emerging trends in health care delivery and technology as they relate to access to health care facilities and services, quality of care, and costs of care. The assessment shall recommend any changes to the scope of health care facilities and services covered by the certificate of need program that may be warranted by these emerging trends. (5) The office shall hold at least one public hearing and allow opportunity to submit written comments prior to the issuance of the initial strategy or an updated strategy. A public hearing shall be held prior to issuing a draft of an updated health care facilities and services plan, and another public hearing shall be held before final adoption of an updated health care facilities and services plan. Any hearing related to updating a health care facilities and services plan for a specific planning region shall be held in that region with sufficient notice to the public and an opportunity to comment. [2007 c 259 § 52.]

**43.370.040 Department of health—Certificate of need review program.** The office shall submit the strategy to the department of health to direct its activities related to the certificate of need review program under chapter 70.38 RCW. 44.73.005	Findings.
44.73.010	Legislative gift center—Created—Retail sale of products—Governance—Planning.
44.73.020	Legislative gift center account.

**44.73.005 Findings.** The legislature finds that Washington is committed to economic development and supporting the tourism industry, and that economic development is achieved by promoting the state and the goods produced around the state. The legislature further finds that tourism is encouraged providing a memorable experience and an opportunity for visitors to take something back home with them to remind them of this experience. There are many visitors every day to the legislative building, including tourists, school children, and people from around the state visiting the state capitol. These visitors offer an opportunity for the state to showcase its products and history. Therefore, the legislature finds that a gift center in the legislative building would be an appropriate response to this opportunity, and further, that such a gift center could provide a source of revenue to help fund the oral history program and to pay for the restoration and repurchase of historical capitol furnishings. [2007 c 453 § 1.]

**44.73.010 Legislative gift center—Created—Retail sale of products—Governance—Planning.** (1) There is created in the legislature a legislative gift center for the retail sale of products bearing the state seal, Washington state souvenirs, other Washington products, and other products as approved. Wholesale purchase of products for sale at the legislative gift center is not subject to competitive bidding.

(2) Governance for the legislative gift center shall be under the chief clerk of the house of representatives and the secretary of the senate. They may designate a legislative staff member as the lead staff person to oversee management and operation of the gift shop.

(3) The chief clerk of the house of representatives and secretary of the senate shall consult with the department of general administration in planning, siting, and maintaining legislative building space for the gift center.

(4) Products bearing the "Seal of the State of Washington" as described in Article XVIII, section 1 of the Washington state Constitution and RCW 1.20.080, must be purchased from the secretary of state pursuant to an agreement between the chief clerk of the house of representatives, the secretary of the senate, and the secretary of state. [2007 c 453 § 2.]

**44.73.020 Legislative gift center account.** (1) The legislative gift center account is created in the custody of the state treasurer. All moneys received by the gift center from the sale of Washington state souvenirs, other Washington

products, and other products as approved shall be deposited in the account. Expenditures from the account may be used only for the operations and maintenance of the gift center, including the purchase of inventory, and for other purposes as provided in this section. Only the chief clerk of the house of representatives and the secretary of the senate, or the lead staff person designated by them to oversee management and operation of the gift shop, may authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures.

(2) Net profits, after expenses, from the sale of Washington state souvenirs, other Washington products, and products approved by the legislative gift center, shall be deposited as provided in this subsection:

(a) Twenty-five percent in the legislative oral history account in chapter 44.04 RCW (created in \*Substitute House Bill No. 1741);

(b) Twenty-five percent in the oral history, state library, and archives account created in RCW 43.07.380; and

(c) Fifty percent in the capitol furnishings preservation committee account created in RCW 27.48.040.

(3) Net profits, after expenses, from the sale of items bearing the state seal by the legislative gift center shall be deposited in the capitol furnishings preservation committee account created in RCW 27.48.040. A full accounting thereof shall be provided to the secretary of state.

(4) The legislative gift center may designate special sales, the proceeds of which shall go to an account specified at the time of designation. [2007 c 453 § 3.]

\*Reviser's note: Substitute House Bill No. 1741 was not enacted during the 2007 legislative session.

**46.12.030 Certificate of ownership—Application—Contents—Examination of vehicle.** (1) The application for a certificate of ownership shall be upon a form furnished or approved by the department and shall contain:

(a) A full description of the vehicle, which shall contain the proper vehicle identification number, the number of miles indicated on the odometer at the time of delivery of the vehicle, and any distinguishing marks of identification;

(b) The name and address of the person who is to be the registered owner of the vehicle and, if the vehicle is subject to a security interest, the name and address of the secured party;

(c) Such other information as the department may require.

(2) The department may in any instance, in addition to the information required on the application, require additional information and a physical examination of the vehicle or of any class of vehicles, or either.

(3)(a) A physical examination of the vehicle is mandatory if (i) it has been rebuilt after surrender of the certificate of ownership to the department under RCW 46.12.070 due to the vehicle's destruction or declaration as a total loss and (ii)

it is not retained by the registered owner at the time of the vehicle's destruction or declaration as a total loss. The inspection must verify that the vehicle identification number is genuine and agrees with the number shown on the title and registration certificate. The inspection must be made by a member of the Washington state patrol or other person authorized by the department to make such inspections.

(b)(i) A physical examination of the vehicle is mandatory if the vehicle was declared totaled or salvage under the laws of this state, or the vehicle is presented with documents from another state showing the vehicle was totaled or salvage and has not been reissued a valid registration from that state after the declaration of total loss or salvage.

(ii) The inspection must verify that the vehicle identification number is genuine and agrees with the number shown on the original documents supporting the vehicle purchase or ownership.

(iii) A Washington state patrol VIN specialist must ensure that all major component parts used for the reconstruction of a salvage or rebuildable vehicle were obtained legally. Original invoices for new and used parts must be from a vendor that is registered with the department of revenue for the collection of retail sales or use taxes or comparable agency in the jurisdiction where the major component parts were purchased. The invoices must include the name and address of the business, a description of the part or parts sold, the date of sale, and the amount of sale to include all taxes paid unless exempted by the department of revenue or comparable agency in the jurisdiction where the major component parts were purchased. Original invoices for used parts must be from a vehicle wrecker licensed under chapter 46.80 RCW or a comparable business in the jurisdiction outside Washington state where the major component part was purchased. If the parts or components were purchased from a private individual, the private individual must have title to the vehicle the parts were taken from, except as provided by RCW 46.04.3815, and the bill of sale for the parts must be notarized. The bills of sale must include the names and addresses of the sellers and purchasers, a description of the vehicle, the part or parts being sold, including the make, model, year, and identification or serial number, that date of sale, and the purchase price of the vehicle or part or parts. If the presenter is unable to provide an acceptable release of interest or proof of ownership for a vehicle or major component part as described above, an inspection must be completed for ownership-in-doubt purposes as prescribed by WAC 308-56A-210.

(iv) A vehicle presented for inspection must have all damaged major component parts replaced or repaired to meet RCW and WAC requirements before inspection of the salvage vehicle by the Washington state patrol.

(4) To the extent that the Washington state patrol has a backlog of vehicle inspections that it is to perform under this section, chapter 420, Laws of 2007 shall not be construed to reduce the vehicle inspection workload of the Washington state patrol.

(5) Rebuilt or salvage vehicles licensed in Washington must meet the requirements found under chapter 46.37 RCW to be driven upon public roadways.

(6) The application shall be subscribed by the person applying to be the registered owner and be sworn to by that

applicant in the manner described by RCW 9A.72.085. The department shall retain the application in either the original, computer, or photostatic form. (3) In addition to the application fee and any other fee for the license registration of a vehicle, the department shall collect from the applicant a fee of fifteen dollars for vehicles previously registered in any other state or country. The proceeds from the fee shall be deposited in accordance with RCW 46.68.020. **46.12.101 Transfer of ownership—Requirements—Penalty, exceptions.** A transfer of ownership in a motor vehicle is perfected by compliance with the requirements of this section.

(1)(a) If an owner transfers his or her interest in a vehicle, other than by the creation, deletion, or change of a security interest, the owner shall, at the time of the delivery of the

vehicle, execute an assignment to the transferee and provide an odometer disclosure statement under RCW 46.12.124 on the certificate of ownership or as the department otherwise prescribes, and cause the certificate and assignment to be transmitted to the transferee. The owner shall notify the department or its agents or subagents, in writing, on the appropriate form, of the date of the sale or transfer, the name and address of the owner and of the transferee, the transferee's driver's license number if available, and such description of the vehicle, including the vehicle identification number, as may be required in the appropriate form provided or approved for that purpose by the department. The report of sale will be deemed properly filed if all information required in this section is provided on the form and includes a department-authorized notation that the document was received by the department, its agents, or subagents on or before the fifth day after the sale of the vehicle, excluding Saturdays, Sundays, and state and federal holidays. Agents and subagents shall immediately electronically transmit the seller's report of sale to the department. Reports of sale processed and recorded by the department's agents or subagents may be subject to fees as specified in RCW 46.01.140 (4)(a) or (5)(b). By January 1, 2003, the department shall create a system enabling the seller of a vehicle to transmit the report of sale electronically. The system created by the department must immediately indicate on the department's vehicle record that a seller's report of sale has been filed.

(b) By January 1, 2008, the department shall provide instructions on release of interest forms that allow the seller of a vehicle to release his or her interest in a vehicle at the same time a financial institution, as defined in RCW 30.22.040, releases their lien on the vehicle.

(2) The requirements of subsection (1) of this section to provide an odometer disclosure statement apply to the transfer of vehicles held for lease when transferred to a lessee and then to the lessor at the end of the leasehold and to vehicles held in a fleet when transferred to a purchaser.

(3) Except as provided in RCW 46.70.122 the transferee shall within fifteen days after delivery to the transferee of the vehicle, execute the application for a new certificate of ownership in the same space provided therefor on the certificate or as the department prescribes, and cause the certificates and application to be transmitted to the department accompanied by a fee of five dollars in addition to any other fees required.

(4) Upon request of the owner or transferee, a secured party in possession of the certificate of ownership shall, unless the transfer was a breach of its security agreement, either deliver the certificate to the transferee for transmission to the department or, when the secured party receives the owner's assignment from the transferee, it shall transmit the transferee's application for a new certificate, the existing certificate, and the required fee to the department. Compliance with this section does not affect the rights of the secured party.

(5) If a security interest is reserved or created at the time of the transfer, the certificate of ownership shall be retained by or delivered to the person who becomes the secured party, and the parties shall comply with the provisions of RCW 46.12.170.

(6) If the purchaser or transferee fails or neglects to make application to transfer the certificate of ownership and license

registration within fifteen days after the date of delivery of the vehicle, he or she shall on making application for transfer be assessed a twenty-five dollar penalty on the sixteenth day and two dollars additional for each day thereafter, but not to exceed one hundred dollars. The director may by rule establish conditions under which the penalty will not be assessed when an application for transfer is delayed for reasons beyond the control of the purchaser. Conditions for not assessing the penalty may be established for but not limited to delays caused by:

- (a) The department requesting additional supporting documents;
- (b) Extended hospitalization or illness of the purchaser;
- (c) Failure of a legal owner to release his or her interest;
- (d) Failure, negligence, or nonperformance of the department, auditor, or subagent;
- (e) The transferee had no knowledge of the filing of the vehicle report of sale and signs an affidavit to the fact.

Failure or neglect to make application to transfer the certificate of ownership and license registration within forty-five days after the date of delivery of the vehicle is a misdemeanor.

(7) Upon receipt of an application for reissue or replacement of a certificate of ownership and transfer of license registration, accompanied by the endorsed certificate of ownership or other documentary evidence as is deemed necessary, the department shall, if the application is in order and if all provisions relating to the certificate of ownership and license registration have been complied with, issue new certificates of title and license registration as in the case of an original issue and shall transmit the fees together with an itemized detailed report to the state treasurer.

(8) Once each quarter the department shall report to the department of revenue a list of those vehicles for which a seller's report has been received but no transfer of title has taken place. The department, if satisfied that there should be a reissue of the certificate, shall note such change upon the vehicle

records and issue to the secured party a new certificate of ownership.

(2) Whenever there is no outstanding secured obligation and no commitment to make advances and incur obligations or otherwise give value, the secured party must either:

(a) Assign the certificate of ownership to the debtor or the debtor's assignee or transferee, and transmit the certificate to the department with an accompanying fee of five dollars in addition to all other fees; or

(b) Assign the certificate of ownership to the debtor's assignee or transferee together with the debtor's or debtor's assignee's release of interest.

In order to encourage voluntary compliance with the registration laws of this state, administrative penalties associated with failing to register a motor vehicle are waived until September 1, 1989. #### 46.16.045 Temporary permits—Authority—Fees.

(1) The department in its discretion may grant a temporary permit to operate a vehicle for which application for registration has been made, where such application is accompanied by the proper fee pending action upon said application by the department.

(2) The department may authorize vehicle dealers properly licensed pursuant to chapter 46.70 RCW to issue temporary permits to operate vehicles under such rules and regulations as the department deems appropriate.

(3) The fee for each temporary permit application distributed to an authorized vehicle dealer shall be fifteen dollars, five dollars of which shall be credited to the payment of

registration fees at the time application for registration is made. The remainder shall be deposited to the state patrol highway account.

(4) The payment of the registration fees to an authorized dealer is considered payment to the state of Washington. [2007 c 155 § 1; 1990 c 198 § 1; 1973 1st ex.s. c 132 § 23; 1961 c 12 § 46.16.045. Prior: 1959 c 66 § 1.]

**Effective date—2007 c 155:** "This act takes effect August 1, 2007." [2007 c 155 § 3.]

**Severability—1973 1st ex.s. c 132:** See RCW 46.16.900, 46.70.920.

**46.16.076 Voluntary donation—State parks renewal and stewardship account.** (1) The department shall provide an opportunity for owners of vehicles registered under RCW 46.16.0621 and vehicles licensed under RCW 46.16.070 with a declared gross weight of ten thousand pounds or less, to make a voluntary donation of five dollars at the time of initial or renewal registration. The donation must be deposited in the state parks renewal and stewardship account established in RCW 79A.05.215 to be used for the operation and maintenance of state parks.

(2) This section applies to registrations due or to become due on or after January 1, 2008. [2007 c 340 § 1.]

**46.16.160 Vehicle trip permits—Restrictions and requirements—Fees and taxes—Penalty—Rules.** (1) The owner of a vehicle which under reciprocal relations with another jurisdiction would be required to obtain a license registration in this state or an unlicensed vehicle which would be required to obtain a license registration for operation on public highways of this state may, as an alternative to such license registration, secure and operate such vehicle under authority of a trip permit issued by this state in lieu of a Washington certificate of license registration, and licensed gross weight if applicable. The licensed gross weight may not exceed eighty thousand pounds for a combination of vehicles nor forty thousand pounds for a single unit vehicle with three or more axles. Trip permits are required for movement of mobile homes or park model trailers and may only be issued if property taxes are paid in full. For the purpose of this section, a vehicle is considered unlicensed if the licensed gross weight currently in effect for the vehicle or combination of vehicles is not adequate for the load being carried. Vehicles registered under RCW 46.16.135 shall not be operated under authority of trip permits in lieu of further registration within the same registration year.

(2) Each trip permit shall authorize the operation of a single vehicle at the maximum legal weight limit for such vehicle for a period of three consecutive days commencing with the day of first use. No more than three such permits may be used for any one vehicle in any period of thirty consecutive days, except that in the case of a recreational vehicle as defined in RCW 43.22.335, no more than two trip permits may be used for any one vehicle in a one-year period. Every permit shall identify, as the department may require, the vehicle for which it is issued and shall be completed in its entirety and signed by the operator before operation of the vehicle on the public highways of this state. Correction of data on the permit such as dates, license number, or vehicle identification number invalidates the permit. The trip permit shall be dis-

played on the vehicle to which it is issued as prescribed by the department.

(3) Vehicles operating under authority of trip permits are subject to all laws, rules, and regulations affecting the operation of like vehicles in this state.

(4) Prorate operators operating commercial vehicles on trip permits in Washington shall retain the customer copy of such permit for four years.

(5) Trip permits may be obtained from field offices of the department of transportation, department of licensing, or other agents appointed by the department. The fee for each trip permit is twenty dollars. Five dollars from every twenty-dollar trip permit fee shall be deposited into the state patrol highway account and must be used for commercial motor vehicle inspections. For each permit issued, the fee includes a filing fee as provided by RCW 46.01.140 and an excise tax of one dollar. The remaining portion of the trip permit fee must be deposited to the credit of the motor vehicle fund as an administrative fee. If the filing fee amount of three dollars as prescribed in RCW 46.01.140 is increased or decreased after July 1, 2002, the administrative fee must be increased or decreased by the same amount so that the total trip permit would be adjusted equally to compensate. These fees and taxes are in lieu of all other vehicle license fees and taxes. No exchange, credits, or refunds may be given for trip permits after they have been purchased.

(6) The department may appoint county auditors or businesses as agents for the purpose of selling trip permits to the public. County auditors or businesses so appointed may retain the filing fee collected for each trip permit to defray expenses incurred in handling and selling the permits.

(7) Commercial motor vehicles that are owned by a motor carrier subject to RCW 46.32.080, must not be operated on trip permits authorized by RCW 46.16.160 or 46.16.162 if the motor carrier's department of transportation number has been placed out of service by the Washington state patrol. A violation of or a failure to comply with this subsection is a gross misdemeanor, subject to a minimum monetary penalty of two thousand five hundred dollars for the first violation and five thousand dollars for each subsequent violation.

(8) Except as provided in subsection (7) of this section, a violation of or a failure to comply with any provision of this section is a gross misdemeanor.

(9) The department of licensing may adopt rules as it deems necessary to administer this section.

(10) A surcharge of five dollars is imposed on the issuance of trip permits. The portion of the surcharge paid by motor carriers must be deposited in the motor vehicle fund for the purpose of supporting vehicle weigh stations, weigh-in-motion programs, and the commercial vehicle information systems and networks program. The remaining portion of the surcharge must be deposited in the motor vehicle fund for the purpose of supporting congestion relief programs. All other administrative fees and excise taxes collected under the provisions of this chapter shall be forwarded by the department with proper identifying detailed report to the state treasurer who shall deposit the administrative fees to the credit of the motor vehicle fund and the excise taxes to the credit of the general fund. Filing fees will be forwarded and reported to the state treasurer by the department as prescribed in RCW

**46.16.381 Special parking for persons with disabilities—Penalties—Enforcement—Definition.** (1) The director shall grant special parking privileges to any person who has a disability that limits or impairs the ability to walk or involves acute sensitivity to light and meets one of the following criteria, as determined by a licensed physician, an advanced registered nurse practitioner licensed under chapter 18.79 RCW, or a physician assistant licensed under chapter 18.71A or 18.57A RCW:

(a) Cannot walk two hundred feet without stopping to rest;

(b) Is severely limited in ability to walk due to arthritic, neurological, or orthopedic condition;

(c) Has such a severe disability, that the person cannot walk without the use of or assistance from a brace, cane, another person, prosthetic device, wheelchair, or other assistive device;

(d) Uses portable oxygen;

(e) Is restricted by lung disease to such an extent that forced expiratory respiratory volume, when measured by spirometry is less than one liter per second or the arterial oxygen tension is less than sixty mm/hg on room air at rest;

(f) Impairment by cardiovascular disease or cardiac condition to the extent that the person's functional limitations are classified as class III or IV under standards accepted by the American Heart Association;

(g) Has a disability resulting from an acute sensitivity to automobile emissions which limits or impairs the ability to walk. The personal physician, advanced registered nurse practitioner, or physician assistant of the applicant shall document that the disability is comparable in severity to the others listed in this subsection;

(h) Is legally blind and has limited mobility; or

(i) Is restricted by a form of porphyria to the extent that the applicant would significantly benefit from a decrease in exposure to light.

(2) The applications for parking permits for persons with disabilities and parking permits for persons with temporary disabilities are official state documents. Knowingly providing false information in conjunction with the application is a gross misdemeanor punishable under chapter 9A.20 RCW. The following statement must appear on each application form immediately below the physician's, advanced registered nurse practitioner's, or physician assistant's signature and

immediately below the applicant's signature: "A parking permit for a person with disabilities may be issued only for a medical necessity that severely affects mobility or involves acute sensitivity to light (RCW 46.16.381). Knowingly providing false information on this application is a gross misdemeanor. The penalty is up to one year in jail and a fine of up to \$5,000 or both."

(3) Persons who qualify for special parking privileges are entitled to receive from the department of licensing a removable windshield placard bearing the international symbol of access and an individual serial number, along with a special identification card bearing the name and date of birth of the person to whom the placard is issued, and the placard's serial number. The special identification card shall be issued to all persons who are issued parking placards, including those issued for temporary disabilities, and special parking license plates for persons with disabilities. The department shall design the placard to be displayed when the vehicle is parked by suspending it from the rearview mirror, or in the absence of a rearview mirror the card may be displayed on the dashboard of any vehicle used to transport the person with disabilities. Instead of regular motor vehicle license plates, persons with disabilities are entitled to receive special license plates under this section or RCW 46.16.385 bearing the international symbol of access for one vehicle registered in the name of the person with disabilities. Persons with disabilities who are not issued the special license plates are entitled to receive a second special placard upon submitting a written request to the department. Persons who have been issued the parking privileges and who are using a vehicle or are riding in a vehicle displaying the placard or special license plates issued under this section or RCW 46.16.385 may park in places reserved for persons with physical disabilities. The director shall adopt rules providing for the issuance of special placards and license plates to public transportation authorities, nursing homes licensed under chapter 18.51 RCW, boarding homes licensed under chapter 18.20 RCW, senior citizen centers, private nonprofit agencies as defined in chapter 24.03 RCW, and vehicles registered with the department as cabulances that regularly transport persons with disabilities who have been determined eligible for special parking privileges provided under this section. The director may issue special license plates for a vehicle registered in the name of the public transportation authority, nursing home, boarding home, senior citizen center, private nonprofit agency, or cabulance service if the vehicle is primarily used to transport persons with disabilities described in this section. Public transportation authorities, nursing homes, boarding homes, senior citizen centers, private nonprofit agencies, and cabulance services are responsible for insuring that the special placards and license plates are not used improperly and are responsible for all fines and penalties for improper use.

(4) Whenever the person with disabilities transfers or assigns his or her interest in the vehicle, the special license plates shall be removed from the motor vehicle. If another vehicle is acquired by the person with disabilities and the vehicle owner qualifies for a special plate, the plate shall be attached to the vehicle, and the director shall be immediately notified of the transfer of the plate. If another vehicle is not acquired by the person with disabilities, the removed plate shall be immediately surrendered to the director.

(5) The special license plate shall be renewed in the same manner and at the time required for the renewal of regular motor vehicle license plates under this chapter. No special license plate may be issued to a person who is temporarily disabled. A person who has a condition expected to improve within six months may be issued a temporary placard for a period not to exceed six months. If the condition exists after six months a new temporary placard shall be issued upon receipt of a new certification from the person's physician. The permanent parking placard and identification card of a person with disabilities shall be renewed at least every five years, as required by the director, by satisfactory proof of the right to continued use of the privileges. In the event of the permit holder's death, the parking placard and identification card must be immediately surrendered to the department. The department shall match and purge its data base of parking permits issued to persons with disabilities with available death record information at least every twelve months.

(6) Additional fees shall not be charged for the issuance of the special placards or the identification cards. No additional fee may be charged for the issuance of the special license plates except the regular motor vehicle registration fee and any other fees and taxes required to be paid upon registration of a motor vehicle.

(7) Any unauthorized use of the special placard, special license plate issued under this section or RCW 46.16.385, or identification card is a traffic infraction with a monetary penalty of two hundred fifty dollars.

A local jurisdiction may impose by ordinance time restrictions of no less than four hours on the use of nonreserved, on-street parking spaces by vehicles displaying the special parking placards or special license plates issued under this section or RCW 46.16.385. Volunteers must be at least twenty-one years of age. The law enforcement agency appointing volunteers may establish any other qualifications the agency deems desirable.

(b) An agency appointing volunteers under this section must provide training to the volunteers before authorizing them to issue notices of infractions.

(c) A notice of infraction issued by a volunteer appointed under this subsection has the same force and effect as a notice of infraction issued by a police officer for the same offense.

(d) A police officer or a volunteer may request a person to show the person's identification card or special parking placard when investigating the possibility of a violation of this section. If the request is refused, the person in charge of the vehicle may be issued a notice of infraction for a violation of this section.

[2007 c 262 § 1; 2007 c 44 § 1; 2006 c 357 § 2; 2005 c 390 § 2; 2004 c 222 § 2; 2003 c 371 § 1; 2002 c 175 § 33; 2001 c 67 § 1; 1999 c 136 § 1; 1998 c 294 § 1; 1995 c 384 § 1; 1994 c 194 § 6; 1993 c 106 § 1; 1992 c 148 § 1; 1991 c 339 § 21; 1990 c 24 § 1; 1986 c 96 § 1; 1984 c 154 § 2.]

**Reviser's note:** This section was amended by 2007 c 44 § 1 and by 2007 c 262 § 1, each without reference to the other. Both amendments are incorporated in the publication of this section under RCW 1.12.025(2). For rule of construction, see RCW 1.12.025(1).

**Findings—2006 c 357:** "The legislature reaffirms its recognition that legal blindness does not affect the physical ability to walk, nor does it limit the ability to participate and contribute in employment and all aspects of life as an equal and productive citizen. Furthermore, for a legally blind individual with appropriate training in travel skills, any limitations on that individual's mobility are not resolved by the granting of special parking privileges. However, for some individuals, including the newly blind and those in transition, the availability of special parking privileges could prove to be an appropriate benefit if those individuals choose to avail themselves of the opportunity." [2006 c 357 § 1.]

**Effective date—2002 c 175:** See note following RCW 7.80.130.

**Intent—1984 c 154:** "The legislature intends to extend special parking privileges to persons with disabilities that substantially impair mobility." [1984 c 154 § 1.]

**Application—1984 c 154:** "This act applies to special license plates, cards, or decals issued after June 7, 1984. Nothing in this act invalidates special license plates, cards, or decals issued before June 7, 1984." [1984 c 154 § 9.]

**Severability—1984 c 154:** "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1984 c 154 § 10.]

*Accessible parking spaces required: RCW 70.92.140.*

Ten dollars from the additional fee shall be deposited in the state wildlife account and used for the management of resources associated with the nonconsumptive use of wildlife. Two dollars from the additional fee shall be deposited into the wildlife rehabilitation account created under RCW 77.12.471. [2007 c 246 § 2; 1991 sp.s. c 7 § 13.]

(1) The department shall refuse to register a commercial motor vehicle that is owned by a motor carrier subject to RCW 46.32.080, 46.87.294, and 46.87.296 upon notification to the department by the Washington state patrol or the federal motor carrier safety administration that an out-of-service order has been placed on the department of transportation number issued to the motor carrier.

(2) The department shall revoke the vehicle registration of all commercial motor vehicles that are owned by a motor carrier subject to RCW 46.32.080, upon notification to the department by the Washington state patrol or the federal motor carrier safety administration that an out-of-service order has been placed on the department of transportation number issued to the motor carrier. The revocation must remain in effect until the department has been notified by the Washington state patrol that the out-of-service order has been rescinded.

(3) By June 30, 2009, any original or renewal application for registration of a commercial motor vehicle that is owned by a motor carrier subject to RCW 46.32.080 that is submitted to the department must be accompanied by:

All receipts collected under RCW 46.01.140(4)(e)(ii) must be deposited into this account. Expenditures from this account must support current and future license plate technology and systems integration upgrades for both the department and correctional industries. Moneys in the account may be spent only after appropriation. Additionally, the moneys in this account may be used to reimburse the motor vehicle account for any appropriation made to implement the digital license plate system. During the 2007-2009 fiscal biennium, the legislature may transfer from the license plate technology account to the multimodal transportation account such amounts as reflect the excess fund balance of the license plate technology account. [2007 c 518 § 704; 2003 c 370 § 4.]

**Severability—Effective date—2007 c 518:** See notes following RCW 46.68.170.

**46.16.725 Board—Powers and duties—Moratorium on issuance of special plates.** (1) The creation of the board does not in any way preclude the authority of the legislature to independently propose and enact special license plate legislation.

(2) The board must review and either approve or reject special license plate applications submitted by sponsoring organizations.

(3) Duties of the board include but are not limited to the following:

(a) Review and approve the annual financial reports submitted by sponsoring organizations with active special license plate series and present those annual financial reports to the senate and house transportation committees;

(e) Provide policy guidance and directions to the department concerning the adoption of rules necessary to limit the number of special license plates that an organization or a governmental entity may apply for.

(4) In order to assess the effects and impact of the proliferation of special license plates, the legislature declares a temporary moratorium on the issuance of any additional plates until July 1, 2009. During this period of time, the special license plate review board created in RCW 46.16.705 and the department of licensing are prohibited from accept-

ing, reviewing, processing, or approving any applications. Additionally, no special license plate may be enacted by the legislature during the moratorium, unless the proposed license plate has been approved by the board before February 15, 2005. The tests must be prescribed and conducted by the department. In addition to the fee charged for issuance or renewal of any license, the applicant shall pay a fee of no more than ten dollars for each classified knowledge examination, classified endorsement knowledge examination, or any combination of classified license and endorsement knowledge examinations. The applicant shall pay a fee of no more than one hundred dollars for each classified skill examination or combination of classified skill examinations conducted by the department.

(b) The department may authorize a person, including an agency of this or another state, an employer, a private driver training facility, or other private institution, or a department, agency, or instrumentality of local government, to administer the skills test specified by this section under the following conditions:

In no event may a new applicant for an "S" endorsement be required to take two separate examinations to obtain an "S" endorsement and either a P1 or P2 endorsement, unless that applicant is upgrading his or her existing commercial driver's license to include an "S" endorsement. The combined P1/S or P2/S skill examination must be offered to the applicant at the same cost as a regular P1 or P2 skill examination.

(3) The department may waive the skills test and the requirement for completion of a course of instruction in the operation of a commercial motor vehicle specified in this section for a commercial driver's license applicant who meets the requirements of 49 C.F.R. part 383.77.

**46.32.010 Types of inspection authorized—Duties of state patrol—Penalties.** (1) The chief of the Washington state patrol may operate, maintain, or designate, throughout the state of Washington, stations for the inspection of commercial motor vehicles, school buses, and private carrier buses, with respect to vehicle equipment, drivers' qualifications, and hours of service and to set reasonable times when inspection of vehicles shall be performed.

(2) The state patrol may inspect a commercial motor vehicle while the vehicle is operating on the public highways of this state with respect to vehicle equipment, hours of service, and driver qualifications.

(3) It is unlawful for any vehicle required to be inspected to be operated over the public highways of this state unless and until it has been approved periodically as to equipment.

(4) Inspections shall be performed by a responsible employee of the chief of the Washington state patrol, who shall be duly authorized and who shall have authority to secure and withhold, with written notice to the director of licensing, the certificate of license registration and license plates of any vehicle found to be defective in equipment so as to be unsafe or unfit to be operated upon the highways of this state, and it shall be unlawful for any person to operate a vehicle placed out of service by an officer unless and until it has been placed in a condition satisfactory to pass a subsequent equipment inspection. The officer in charge of such vehicle equipment inspection shall grant to the operator of such defective vehicle the privilege to move such vehicle to a place for repair under such restrictions as may be reasonably necessary.

(5) In the event any insignia, sticker, or other marker is adopted to be displayed upon vehicles in connection with the inspection of vehicle equipment, it shall be displayed as required by the rules of the chief of the Washington state patrol, and it is a traffic infraction for any person to mutilate, destroy, remove, or otherwise interfere with the display thereof.

(6) It is a traffic infraction for any person to refuse to have his motor vehicle examined as required by the chief of the Washington state patrol, or, after having had it examined, to refuse to place an insignia, sticker, or other marker, if issued, upon the vehicle, or fraudulently to obtain any such insignia, sticker, or other marker, or to refuse to place his motor vehicle in proper condition after having had it examined, or in any manner, to fail to conform to the provisions of this chapter.

(7) It is a traffic infraction for any person to perform false or improvised repairs, or repairs in any manner not in accordance with acceptable and customary repair practices, upon a motor vehicle. **Effective date—Severability—1979 ex.s. c 136:** See notes following RCW 46.63.010.

**46.32.020 Rules—Supplies—Assistants—Prioritization of higher risk motor carriers.** (1)(a) The chief of the Washington state patrol may adopt reasonable rules regarding types of vehicles to be inspected, inspection criteria, times for the inspection of vehicle equipment, drivers' qualifications, hours of service, and all other matters with respect to the conduct of vehicle equipment and driver inspections.

(b) The chief of the Washington state patrol shall prepare and furnish such stickers, tags, record and report forms, stationery, and other supplies as shall be deemed necessary. The chief of the Washington state patrol is empowered to appoint and employ such assistants as he may consider necessary and to fix hours of employment and compensation.

(2) The chief of the Washington state patrol shall use data-driven analysis to prioritize for inspections and compliance reviews those motor carriers whose relative safety fitness identify them as higher risk motor carriers. [2007 c 419 § 8; 1993 c 403 § 3; 1986 c 123 § 2; 1961 c 12 § 46.32.020.]

**Findings—Short title—Application—2007 c 419:** See notes following RCW 46.16.004.

**46.32.040 Frequency of inspection—High-risk carrier compliance review fee.** (1) Except as provided in subsection (2) of this section, vehicle equipment inspection shall be at such intervals as required by the chief of the Washington state patrol and shall be made without charge.

(2) When a motor carrier is identified as a high-risk carrier through a data-driven analysis due to formerly or recently identified deficiencies or violations, the fee for each motor carrier compliance review follow-up to ensure those deficiencies or violations have been corrected is two hundred fifty dollars. The fee shall be collected by the Washington state patrol and shall be deposited into the state patrol highway account. This fee applies to motor carriers already identified as a high-risk carrier or a motor carrier that has been reclassified as a high-risk carrier due to recently identified deficiencies or violations. [2007 c 419 § 9; 1986 c 123 § 3; 1961 c 12 § 46.32.040. Prior: 1945 c 44 § 4; 1937 c 189 § 10; Rem. Supp. 1945 § 6360-10.]

**Findings—Short title—Application—2007 c 419:** See notes following RCW 46.16.004.

**46.32.080 Commercial motor vehicle safety enforcement—Application for department of transportation number.** (1) The Washington state patrol is responsible for enforcement of safety requirements for commercial motor vehicles including, but not limited to, safety audits and compliance reviews. Those motor carriers that have operations in this state are subject to the patrol's safety audits and compliance review programs. Compliance reviews may result in the initiation of an enforcement action, which may include monetary penalties.

(2) Motor vehicles owned and operated by farmers in the transportation of their own farm, orchard, or dairy products, including livestock and plant or animal wastes, from point of production to market or disposal, or supplies or commodities to be used on the farm, orchard, or dairy, must have a department of transportation number, as defined in RCW 46.16.004, but are exempt from safety audits and compliance reviews.

(3) All records and documents required of motor carriers with operations in this state must be available for review and inspection during normal business hours. Duly authorized agents of the state patrol conducting safety audits and compliance reviews may enter the motor carrier's place of business, or any location where records or equipment are located, at reasonable times and without advanced notice. Motor carriers who do not permit duly authorized agents to enter their place of business, or any location where records or equipment are located, for safety audits and compliance reviews are subject to enforcement action, including a monetary penalty.

(4)(a) All motor carriers with a commercial motor vehicle, as defined in RCW 46.16.004, that operate in this state must apply for a department of transportation number, as defined in RCW 46.16.004, by January 1, 2008.

(b) All motor carriers operating in this state who (i) have not applied under (a) of this subsection for a department of

transportation number, as defined in RCW 46.16.004, and (ii) have a commercial motor vehicle that has a gross vehicle weight rating of 7,258 kilograms (16,001 pounds) or more, must apply for a department of transportation number by January 1, 2011.

(c) The state patrol may deny an application if the motor carrier does not meet the requirements and standards under this chapter. The state patrol shall not issue a department of transportation number to a motor carrier who at the time of application has been placed out of service by the federal motor carrier safety administration. Commercial motor vehicles must be marked as prescribed by the state patrol. Those motor carriers with a current United States department of transportation number are exempt from applying for a department of transportation number.

(d) The state patrol may (i) place a motor carrier out of service or (ii) refuse to issue or recognize as valid a department of transportation number to a motor carrier who: (A) Formerly held a department of transportation number that was placed out of service for cause, and where cause has not been removed; (B) is a subterfuge for the real party in interest whose department of transportation number was placed out of service for cause, and where cause has not been removed; (C) as an individual licensee, or officer, director, owner, or managing employee of a nonindividual licensee, had a department of transportation number and was placed out of service for cause, and where cause has not been removed; or (D) has an unsatisfied debt to the state assessed under this chapter.

(e) Upon a finding by the chief of the state patrol or the chief's designee that a motor carrier is an imminent hazard or danger to the public health, safety, or welfare, the state patrol shall notify the department, and the department shall revoke the registrations for all commercial motor vehicles that are owned by the motor carrier subject to RCW 46.32.080. In determining whether a motor carrier is an imminent hazard or danger to the public health, safety, or welfare, the chief or the chief's designee shall consider safety factors. [2007 c 419 § 10; 1995 c 272 § 1.]

**Effective date—2007 c 419 § 10:** "Section 10 of this act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately [May 11, 2007]." [2007 c 419 § 19.]

**Findings—Short title—Application—2007 c 419:** See notes following RCW 46.16.004.

**Transfer of powers, duties, and functions:** "(1) All powers, duties, and functions of the utilities and transportation commission pertaining to safety inspections of commercial vehicles, including but not limited to terminal safety audits, except for those carriers subject to the economic regulation of the commission, are transferred to the Washington state patrol.

(2)(a) All reports, documents, surveys, books, records, files, papers, or written material in the possession of the utilities and transportation commission pertaining to the powers, functions, and duties transferred shall be delivered to the custody of the Washington state patrol. All cabinets, furniture, office equipment, motor vehicles, and other tangible property employed by the utilities and transportation commission in carrying out the powers, functions, and duties transferred shall be made available to the Washington state patrol. All funds, credits, or other assets held in connection with the powers, functions, and duties transferred shall be assigned to the Washington state patrol.

(b) Any appropriations made to the utilities and transportation commission for carrying out the powers, functions, and duties transferred shall, on January 1, 1996, be transferred and credited to the Washington state patrol.

(c) Whenever any question arises as to the transfer of any personnel, funds, books, documents, records, papers, files, equipment, or other tangible

property used or held in the exercise of the powers and the performance of the duties and functions transferred, the director of financial management shall make a determination as to the proper allocation and certify the same to the state agencies concerned.

(3) All employees of the utilities and transportation commission engaged in performing the powers, functions, and duties transferred are transferred to the jurisdiction of the Washington state patrol. All employees classified under chapter 41.06 RCW, the state civil service law, are assigned to the Washington state patrol to perform their usual duties upon the same terms as formerly, without any loss of rights, subject to any action that may be appropriate thereafter in accordance with the laws and rules governing state civil service. These employees will only be transferred upon successful completion of the Washington state patrol background investigation.

(4) All rules and all pending business before the utilities and transportation commission pertaining to the powers, functions, and duties transferred shall be continued and acted upon by the Washington state patrol. All existing contracts and obligations remain in full force and shall be performed by the Washington state patrol.

(5) The transfer of the powers, duties, functions, and personnel of the utilities and transportation commission does not affect the validity of any act performed before January 1, 1996.

(6) If apportionments of budgeted funds are required because of the transfers directed by this section, the director of financial management shall certify the apportionments to the agencies affected, the state auditor, and the state treasurer. Each of these shall make the appropriate transfer and adjustments in funds and appropriation accounts and equipment records in accordance with the certification.

(7) Nothing contained in this section alters an existing collective bargaining unit or the provisions of an existing collective bargaining agreement until the agreement has expired or until the bargaining unit has been modified by action of the personnel board as provided by law." [1995 c 272 § 4.]

**Effective dates—1995 c 272:** See note following RCW 46.32.090.

**46.32.085 Rules to regulate commercial motor vehicle safety requirements.** The Washington state patrol, in consultation with the department of licensing, shall adopt rules consistent with this chapter to regulate vehicle safety requirements for motor carriers who own, control, manage, or operate a commercial motor vehicle within this state. Except as otherwise provided in this chapter, the rules adopted by the state patrol under this section must be as rigorous as federal regulations governing certain interstate motor carriers at 49 C.F.R. Parts 40 and 380 through 397, which cover the areas of commercial motor carrier driver training, controlled substance and alcohol use and testing, compliance with the federal driver's license requirements and penalties, vehicle equipment and safety standards, hazardous material practices, financial responsibility, driver qualifications, hours of service, vehicle inspection and corrective actions, and assessed penalties for noncompliance. The state patrol shall amend these rules periodically to maintain, to the extent permissible under this chapter, standards as rigorous as the federal regulations governing certain interstate motor carriers. The state patrol shall submit a report to the legislature by December 31st of each year that outlines new rules or rule changes and explains how the state rules compare to the federal regulations. [2007 c 419 § 14.]

**Findings—Short title—Application—2007 c 419:** See notes following RCW 46.16.004.

**46.32.090 Fees.** The department shall collect a fee of sixteen dollars, in addition to all other fees and taxes, for each motor vehicle base plated in the state of Washington that is subject to highway inspections and compliance reviews under RCW 46.32.080, at the time of registration and renewal of registration under chapter 46.16 or 46.87 RCW, or the international registration plan if base plated in a foreign juris-

isdiction. The fee must be apportioned for those vehicles operating interstate and registered under the international registration plan. This fee does not apply to nonmotor-powered vehicles, including trailers. Refunds will not be provided for fees paid under this section when the vehicle is no longer subject to RCW 46.32.080. The department may deduct an amount equal to the cost of administering the program. All remaining fees shall be deposited with the state treasurer and credited to the state patrol highway account of the motor vehicle fund. [2007 c 419 § 11; 1996 c 86 § 1; 1995 c 272 § 2.]

**Findings—Short title—Application—2007 c 419:** See notes following RCW 46.16.004.

**Effective date—1996 c 86:** "Section 1 of this act becomes effective with motor vehicle registration fees due or to become due January 1, 1997." [1996 c 86 § 2.]

**Effective dates—1995 c 272:** "Section 2 of this act becomes effective with motor vehicle registration fees due or to become due January 1, 1996. Sections 1 and 3 through 6 of this act take effect January 1, 1996." [1995 c 272 § 7.]

**46.32.100 Violations—Penalties—Out-of-service orders.** (1)(a) In addition to all other penalties provided by law, a commercial motor vehicle that is subject to compliance reviews under this chapter and an officer, agent, or employee of a company operating a commercial motor vehicle who violates or who procures, aids, or abets in the violation of this title or any order or rule of the state patrol is liable for a penalty of one hundred dollars for each violation, except for each violation of 49 C.F.R. Pt. 382, controlled substances and alcohol use and testing, 49 C.F.R. Sec. 391.15, disqualification of drivers, and 49 C.F.R. Sec. 396.9(c)(2), moving a vehicle placed out of service before the out of service defects have been satisfactorily repaired, for which the person is liable for a penalty of five hundred dollars. The driver of a commercial motor vehicle who violates an out-of-service order is liable for a penalty of at least one thousand one hundred dollars but not more than two thousand seven hundred fifty dollars. An employer who allows a driver to operate a commercial motor vehicle when there is an out-of-service order is liable for a penalty of at least two thousand seven hundred fifty dollars but not more than eleven thousand dollars. Each violation is a separate and distinct offense, and in case of a continuing violation every day's continuance is a separate and distinct violation.

(b) In addition to all other penalties provided by law, any motor carrier, company, or any officer or agent of a motor carrier or company operating a commercial motor vehicle subject to compliance reviews under this chapter who refuses entry or to make the required records, documents, and vehicles available to a duly authorized agent of the state patrol is liable for a penalty of at least five thousand dollars as well as an out-of-service order being placed on the department of transportation number, as defined in RCW 46.16.004, and vehicle registration to operate. Each violation is a separate and distinct offense, and in case of a continuing violation every day's continuance is a separate and distinct violation.

(c) A motor carrier operating a commercial motor vehicle after receiving a final unsatisfactory rating or being placed out of service is liable for a penalty of not more than eleven thousand dollars. Each violation is a separate and dis-

tinct offense, and in case of a continuing violation every day's continuance is a separate and distinct violation.

(2) The Washington state patrol may place an out-of-service order on a department of transportation number, as defined in RCW 46.16.004, for violations of this chapter or for nonpayment of any monetary penalties assessed by the state patrol or the utilities and transportation commission, as a result of compliance reviews, or for violations of cease and desist orders issued by the utilities and transportation commission. The state patrol shall notify the department of licensing when an out-of-service order has been placed on a motor carrier's department of transportation number. The state patrol shall notify the motor carrier when there has been an out-of-service order placed on the motor carrier's department of transportation number and the vehicle registrations have been revoked by sending a notice by first-class mail using the last known address for the registered or legal owner or owners, and recording the transmittal on an affidavit of first-class mail. Notices under this section fulfill the requirements of RCW 46.12.160. Motor carriers may not be eligible for a new department of transportation number, vehicle registration, or temporary permits to operate unless the violations that resulted in the out-of-service order have been corrected.

(3) Any penalty provided in this section is due and payable when the person incurring it receives a notice in writing from the state patrol describing the violation and advising the person that the penalty is due. If the amount of the penalty is not paid to the state patrol within twenty days after the later of (a) receipt of the notice imposing the penalty, or (b) disposition of an adjudicative proceeding regarding the penalty, the state patrol may commence an adjudicative proceeding under chapter 34.05 RCW in the name of the state of Washington to confirm the violation and recover the penalty. In all such proceedings the procedure and rules of evidence are as specified in chapter 34.05 RCW except as otherwise provided in this chapter. All penalties recovered under this section shall be paid into the state treasury and credited to the state patrol highway account of the motor vehicle fund. Such green light shall be visible for a distance of two hundred feet under normal atmospheric conditions and shall be of a type and mounting approved by the Washington state patrol. The use of the green light shall only be for the purpose of identifica-

tion and the operator of a vehicle so equipped shall not be entitled to any of the privileges provided in RCW 46.61.035 for the operators of authorized emergency vehicles. **46.37.420 Tires—Restrictions.** (1) It is unlawful to operate a vehicle upon the public highways of this state unless it is completely equipped with pneumatic rubber tires except vehicles equipped with temporary-use spare tires that meet federal standards that are installed and used in accordance with the manufacturer's instructions.

(2) No tire on a vehicle moved on a highway may have on its periphery any block, flange, cleat, or spike or any other protuberance of any material other than rubber which projects beyond the tread of the traction surface of the tire, except that it is permissible to use farm machinery equipped with pneumatic tires or solid rubber tracks having protuberances that will not injure the highway, and except also that it is permissible to use tire chains or metal studs imbedded within the tire of reasonable proportions and of a type conforming to rules adopted by the state patrol, upon any vehicle when required for safety because of snow, ice, or other conditions tending to cause a vehicle to skid. It is unlawful to use metal studs imbedded within the tire between April 1st and November 1st, except that a vehicle may be equipped year-round with tires that have retractable studs if: (a) The studs retract pneumatically or mechanically to below the wear bar of the tire when not in use; and (b) the retractable studs are engaged only between November 1st and April 1st. Retractable studs may be made of metal or other material and are not subject to the lightweight stud weight requirements under RCW 46.04.272. The state department of transportation may, from time to time, determine additional periods in which the use of tires with metal studs imbedded therein is lawful.

(3) The state department of transportation and local authorities in their respective jurisdictions may issue special permits authorizing the operation upon a highway of traction engines or tractors having movable tracks with transverse corrugations upon the periphery of the movable tracks or farm tractors or other farm machinery, the operation of which upon a highway would otherwise be prohibited under this section.

(4) Tires with metal studs imbedded therein may be used between November 1st and April 1st upon school buses and fire department vehicles, any law or regulation to the contrary notwithstanding. [2007 c 140 § 2; 1999 c 208 § 1; 1990 c 105 § 1; 1987 c 330 § 721; 1986 c 113 § 4; 1984 c 7 § 50; 1971 ex.s. c 32 § 1; 1969 ex.s. c 7 § 1; 1961 c 12 § 46.37.420. **46.37.4215 Lightweight and retractable studs—Certification by sellers.** Beginning January 1, 2000, a person offering to sell to a tire dealer conducting business in the state of Washington, a metal flange or cleat intended for installation as a stud in a vehicle tire shall certify that the studs are: (1) Lightweight studs as defined in RCW 46.04.272; or (2) retractable studs that are exempt from the requirements of RCW 46.04.272. Certification must be accomplished by clearly marking the boxes or containers used to ship and store studs with the designation "lightweight." This section does not apply to tires or studs in a wholesaler's existing inventory as of January 1, 2000. [2007 c 140 § 3; 1999 c 219 § 2.]

**46.37.4216 Lightweight and retractable studs—Sale of tires containing.** Beginning July 1, 2001, a person may not sell a studded tire or sell a stud for installation in a tire unless the stud qualifies as a: (1) Lightweight stud under RCW 46.04.272; or (2) retractable stud that is exempt from the requirements of RCW 46.04.272. [2007 c 140 § 4; 1999 c 219 § 3.]

**46.37.430 Safety glazing—Sunscreening or coloring.** (1) No person may sell any new motor vehicle as specified in this title, nor may any new motor vehicle as specified in this title be registered unless such vehicle is equipped with safety glazing material of a type that meets or exceeds federal standards, or if there are none, standards approved by the Washington state patrol. The foregoing provisions apply to all passenger-type motor vehicles, including passenger buses and school buses, but in respect to trucks, including truck tractors, the requirements as to safety glazing material apply to all glazing material used in doors, windows, and windshields in the drivers' compartments of such vehicles except as provided by subsection (4) of this section.

(2) The term "safety glazing materials" means glazing materials so constructed, treated, or combined with other materials as to reduce substantially, in comparison with ordinary sheet glass or plate glass, the likelihood of injury to persons by objects from exterior sources or by these safety glazing materials when they may be cracked or broken.

(3) The director of licensing shall not register any motor vehicle which is subject to the provisions of this section unless it is equipped with an approved type of safety glazing material, and he or she shall suspend the registration of any motor vehicle so subject to this section which the director finds is not so equipped until it is made to conform to the requirements of this section.

(4) No person may sell or offer for sale, nor may any person operate a motor vehicle registered in this state which is equipped with, any camper manufactured after May 23, 1969, unless such camper is equipped with safety glazing material of a type conforming to rules adopted by the state patrol wherever glazing materials are used in outside windows and doors.

(5) No film sunscreening or coloring material that reduces light transmittance to any degree may be applied to

the surface of the safety glazing material in a motor vehicle unless it meets the following standards for such material:

(a) The maximum level of film sunscreening material to be applied to any window, except the windshield, shall have a total reflectance of thirty-five percent or less, plus or minus three percent, and a light transmission of thirty-five percent or more, plus or minus three percent, when measured against clear glass resulting in a minimum of twenty-four percent light transmission on AS-2 glazing where the vehicle is equipped with outside rearview mirrors on both the right and left. Installation of more than a single sheet of film sunscreening material to any window is prohibited. The same maximum levels of film sunscreen material may be applied to windows to the immediate right and left of the driver on limousines and passenger buses used to transport persons for compensation and vehicles identified by the manufacturer as multi-use, multipurpose, or other similar designation. All windows to the rear of the driver on such vehicles may have film sunscreening material applied that has less than thirty-five percent light transmittance, if the light reflectance is thirty-five percent or less and the vehicle is equipped with outside rearview mirrors on both the right and left. A person or business tinting windows for profit who tints windows within restricted areas of the glazing system shall supply a sticker to be affixed to the driver's door post, in the area adjacent to the manufacturer's identification tag. Installation of this sticker certifies that the glazing application meets this chapter's standards for light transmission, reflectance, and placement requirements. Stickers must be no smaller than three-quarters of an inch by one and one-half inches, and no larger than two inches by two and one-half inches. The stickers must be of sufficient quality to endure exposure to harsh climate conditions. The business name and state tax identification number of the installer must be clearly visible on the sticker.

(b) A greater degree of light reduction is permitted on all windows and the top six inches of windshields of a vehicle operated by or carrying as a passenger a person who possesses a written verification from a licensed physician that the operator or passenger must be protected from exposure to sunlight for physical or medical reasons.

(c) Windshield application. A greater degree of light reduction is permitted on the top six-inch area of a vehicle's windshield. Clear film sunscreening material that reduces or eliminates ultraviolet light may be applied to windshields.

(d) When film sunscreening material is applied to any window except the windshield, outside mirrors on both the left and right sides shall be located so as to reflect to the driver a view of the roadway, through each mirror, a distance of at least two hundred feet to the rear of the vehicle.

(e) The following types of film sunscreening material are not permitted:

- (i) Mirror finish products;
- (ii) Red, gold, yellow, or black material; or
- (iii) Film sunscreening material that is in liquid preapplication form and brushed or sprayed on.

Nothing in this section prohibits the use of shaded or heat-absorbing safety glazing material in which the shading or heat-absorbing characteristics have been applied at the time of manufacture of the safety glazing material and which

meet federal standards and the standards of the state patrol for such safety glazing materials.

(6) It is a traffic infraction for any person to operate a vehicle for use on the public highways of this state, if the vehicle is equipped with film sunscreening or coloring material in violation of this section.

(7) Owners of vehicles with film sunscreening material applied to windows to the rear of the driver, prior to June 7, 1990, must comply with the requirements of this section and RCW 46.37.435 by July 1, 1993.

(8) The side and rear windows of law enforcement vehicles are exempt from the requirements of subsection (5) of this section. However, when law enforcement vehicles are sold to private individuals the film sunscreening or coloring material must comply with the requirements of subsection (5) of this section or documentation must be provided to the buyer stating that the vehicle windows must comply with the requirements of subsection (5) of this section before operation of the vehicle. ## Chapter 46.44 RCW SIZE, WEIGHT, LOAD

### Sections

46.44.105 Enforcement procedures—Penalties—Rules.

**46.44.105 Enforcement procedures—Penalties—Rules.** (1) Violation of any of the provisions of this chapter is a traffic infraction, and upon the first finding thereof shall be assessed a basic penalty of not less than fifty dollars; and upon a second finding thereof shall be assessed a basic penalty of not less than seventy-five dollars; and upon a third or subsequent finding shall be assessed a basic penalty of not less than one hundred dollars.

(2) In addition to the penalties imposed in subsection (1) of this section, any person violating RCW 46.44.041, 46.44.042, 46.44.047, 46.44.090, 46.44.091, or 46.44.095 shall be assessed a penalty for each pound overweight, as follows:

(a) One pound through four thousand pounds overweight is three cents for each pound;

(b) Four thousand one pounds through ten thousand pounds overweight is one hundred twenty dollars plus twelve cents per pound for each additional pound over four thousand pounds overweight;

(c) Ten thousand one pounds through fifteen thousand pounds overweight is eight hundred forty dollars plus sixteen cents per pound for each additional pound over ten thousand pounds overweight;

(d) Fifteen thousand one pounds through twenty thousand pounds overweight is one thousand six hundred forty dollars plus twenty cents per pound for each additional pound over fifteen thousand pounds overweight;

(e) Twenty thousand one pounds and more is two thousand six hundred forty dollars plus thirty cents per pound for each additional pound over twenty thousand pounds overweight.

Upon a first violation in any calendar year, the court may suspend the penalty for five hundred pounds of excess weight for each axle on any vehicle or combination of vehicles, not to exceed a two thousand pound suspension. In no case may the basic penalty assessed in subsection (1) of this section or the additional penalty assessed in subsection (2) of this section, except as provided for the first violation, be suspended.

(3) Any person found to have violated any posted limitations of a highway or section of highway shall be assessed a monetary penalty of not less than one hundred and fifty dollars, and the court shall in addition thereto upon second violation within a twelve-month period involving the same power unit, suspend the certificate of license registration for not less than thirty days.

(4) It is unlawful for the driver of a vehicle to fail or refuse to stop and submit the vehicle and load to a weighing, or to fail or refuse, when directed by an officer upon a weighing of the vehicle to stop the vehicle and otherwise comply with the provisions of this section. It is unlawful for a driver of a commercial motor vehicle as defined in RCW 46.32.005, other than the driver of a bus as defined in RCW 46.32.005(3) or a vehicle with a gross vehicle weight rating or gross combination weight rating of 7,257 kilograms or less (16,000 pounds or less) and not transporting hazardous materials in accordance with RCW 46.32.005(4), to fail or refuse to stop at a weighing station when proper traffic control signs indicate scales are open. However, unladen tow trucks regardless of weight and farm vehicles carrying farm produce with a gross vehicle weight rating or gross combination weight rating of 11,794 kilograms or less (26,000 pounds or less) may fail or refuse to stop at a weighing station when proper traffic control signs indicate scales are open.

Any police officer is authorized to require the driver of any vehicle or combination of vehicles to stop and submit to a weighing either by means of a portable or stationary scale and may require that the vehicle be driven to the nearest public scale. Whenever a police officer, upon weighing a vehicle and load, determines that the weight is unlawful, the officer may require the driver to stop the vehicle in a suitable location and remain standing until such portion of the load is removed as may be necessary to reduce the gross weight of the vehicle to the limit permitted by law. If the vehicle is loaded with grain or other perishable commodities, the driver shall be permitted to proceed without removing any of the load, unless the gross weight of the vehicle and load exceeds by more than ten percent the limit permitted by this chapter. The owner or operator of the vehicle shall care for all materials unloaded at the risk of the owner or operator.

Any vehicle whose driver or owner represents that the vehicle is disabled or otherwise unable to proceed to a weighing location shall have its load sealed or otherwise marked by any police officer. The owner or driver shall be directed that upon completion of repairs, the vehicle shall submit to weighing with the load and markings and/or seal intact and undisturbed. Failure to report for weighing, appearing for weighing with the seal broken or the markings disturbed, or removal of any cargo prior to weighing is unlawful. Any per-

son so convicted shall be fined one thousand dollars, and in addition the certificate of license registration shall be suspended for not less than thirty days.

(5) Any other provision of law to the contrary notwithstanding, district courts having venue have concurrent jurisdiction with the superior courts for the imposition of any penalties authorized under this section.

(6) For the purpose of determining additional penalties as provided by subsection (2) of this section, "overweight" means the poundage in excess of the maximum allowable gross weight or axle/axle grouping weight prescribed by RCW 46.44.041, 46.44.042, 46.44.047, 46.44.091, and 46.44.095.

(7) The penalties provided in subsections (1) and (2) of this section shall be remitted as provided in chapter 3.62 RCW or RCW 10.82.070. For the purpose of computing the basic penalties and additional penalties to be imposed under subsections (1) and (2) of this section, the convictions shall be on the same vehicle or combination of vehicles within a twelve-month period under the same ownership.

(8) Any state patrol officer or any weight control officer who finds any person operating a vehicle or a combination of vehicles in violation of the conditions of a permit issued under RCW 46.44.047, 46.44.090, and 46.44.095 may confiscate the permit and forward it to the state department of transportation which may return it to the permittee or revoke, cancel, or suspend it without refund. The department of transportation shall keep a record of all action taken upon permits so confiscated, and if a permit is returned to the permittee the action taken by the department of transportation shall be endorsed thereon. Any permittee whose permit is suspended or revoked may upon request receive a hearing before the department of transportation or person designated by that department. After the hearing the department of transportation may reinstate any permit or revise its previous action.

Every permit issued as provided for in this chapter shall be carried in the vehicle or combination of vehicles to which it refers and shall be open to inspection by any law enforcement officer or authorized agent of any authority granting such a permit.

Upon the third finding within a calendar year of a violation of the requirements and conditions of a permit issued under RCW 46.44.095, the permit shall be canceled, and the canceled permit shall be immediately transmitted by the court or the arresting officer to the department of transportation. The vehicle covered by the canceled permit is not eligible for a new permit for a period of thirty days.

(9) For the purposes of determining gross weights the actual scale weight taken by the arresting officer is prima facie evidence of the total gross weight.

(10) It is a traffic infraction to direct the loading of a vehicle with knowledge that it violates the requirements in RCW 46.44.041, 46.44.042, 46.44.047, 46.44.090, 46.44.091, or 46.44.095 and that it is to be operated on the public highways of this state.

(11) The chief of the state patrol, with the advice of the department, may adopt reasonable rules to aid in the enforcement of this section. [2007 c 419 § 13. Prior: 2006 c 297 § 1; 2006 c 50 § 4; 2002 c 254 § 1; 1999 c 23 § 1; 1996 c 92 § 2; 1993 c 403 § 4; 1990 c 217 § 1; 1985 c 351 § 6; 1984 c 258

The department shall establish a fee for this service, which must be deposited in the highway safety fund. The fee for this service must be set at a level that will not result in a net

revenue loss to the state. Any information provided under this subsection must be treated in the same manner and subject to the same restrictions as certified abstracts.

(4) Upon proper request, the director shall furnish a certified abstract covering a period of not more than the last five years to state approved alcohol/drug assessment or treatment agencies, except that the certified abstract shall also include records of alcohol-related offenses as defined in RCW 46.01.260(2) covering a period of not more than the last ten years.

(8) The abstract provided to the insurance company shall exclude any information, except that related to the commission of misdemeanors or felonies by the individual, pertaining to law enforcement officers or fire fighters as defined in RCW 41.26.030, or any officer of the Washington state patrol, while driving official vehicles in the performance of occupational duty. (9) The director shall collect for each abstract the sum of ten dollars, fifty percent of which shall be deposited in the highway safety fund and fifty percent of which must be deposited according to RCW 46.68.038.

(10) Any insurance company or its agent receiving the certified abstract shall use it exclusively for its own underwriting purposes and shall not divulge any of the information contained in it to a third party. No insurance company or its agent for underwriting purposes relating to the operation of commercial motor vehicles may use any information contained in the abstract relative to any person's operation of motor vehicles while not engaged in such employment, nor may any insurance company or its agent for underwriting purposes relating to the operation of noncommercial motor vehicles use any information contained in the abstract relative to any person's operation of commercial motor vehicles.

(11) Any employer or prospective employer or an agent acting on behalf of an employer or prospective employer, or a volunteer organization for which the named individual has submitted an application for a position that could require the transportation of children under eighteen years of age, adults over sixty-five years of age, or persons with physical or mental disabilities, receiving the certified abstract shall use it exclusively for his or her own purpose to determine whether the licensee should be permitted to operate a commercial vehicle or school bus, or operate a vehicle for a volunteer organization for purposes of transporting children under eighteen years of age, adults over sixty-five years of age, or persons with physical or mental disabilities, upon the public highways of this state and shall not divulge any information contained in it to a third party.

### TOWING AND IMPOUNDMENT

#### Sections

46.55.113 Removal by police officer.

**46.55.113 Removal by police officer.** (1) Whenever the driver of a vehicle is arrested for a violation of RCW 46.61.502, 46.61.504, 46.20.342, or 46.20.345, the vehicle is subject to summary impoundment, pursuant to the terms and conditions of an applicable local ordinance or state agency rule at the direction of a law enforcement officer.

(2) In addition, a police officer may take custody of a vehicle, at his or her discretion, and provide for its prompt removal to a place of safety under any of the following circumstances:

(a) Whenever a police officer finds a vehicle standing upon the roadway in violation of any of the provisions of RCW 46.61.560, the officer may provide for the removal of the vehicle or require the driver or other person in charge of the vehicle to move the vehicle to a position off the roadway;

(b) Whenever a police officer finds a vehicle unattended upon a highway where the vehicle constitutes an obstruction to traffic or jeopardizes public safety;

(c) Whenever a police officer finds an unattended vehicle at the scene of an accident or when the driver of a vehicle involved in an accident is physically or mentally incapable of deciding upon steps to be taken to protect his or her property;

(d) Whenever the driver of a vehicle is arrested and taken into custody by a police officer;

(e) Whenever a police officer discovers a vehicle that the officer determines to be a stolen vehicle;

(f) Whenever a vehicle without a special license plate, placard, or decal indicating that the vehicle is being used to transport a person with disabilities under RCW 46.16.381 is parked in a stall or space clearly and conspicuously marked under RCW 46.61.581 which space is provided on private property without charge or on public property;

(g) Upon determining that a person is operating a motor vehicle without a valid and, if required, a specially endorsed driver's license or with a license that has been expired for ninety days or more;

(h) When a vehicle is illegally occupying a truck, commercial loading zone, restricted parking zone, bus, loading, hooded-meter, taxi, street construction or maintenance, or other similar zone where, by order of the director of transportation or chiefs of police or fire or their designees, parking is limited to designated classes of vehicles or is prohibited during certain hours, on designated days or at all times, if the zone has been established with signage for at least twenty-four hours and where the vehicle is interfering with the proper and intended use of the zone. Signage must give notice to the public that a vehicle will be removed if illegally parked in the zone;

(i) When a vehicle with an expired registration of more than forty-five days is parked on a public street.

(3) When an arrest is made for a violation of RCW 46.20.342, if the vehicle is a commercial vehicle and the driver of the vehicle is not the owner of the vehicle, before the summary impoundment directed under subsection (1) of this section, the police officer shall attempt in a reasonable and timely manner to contact the owner of the vehicle and may release the vehicle to the owner if the owner is reasonably available, as long as the owner was not in the vehicle at the time of the stop and arrest and the owner has not received a prior release under this subsection or RCW 46.55.120(1)(a)(ii).

(4) Nothing in this section may derogate from the powers of police officers under the common law. For the purposes of this section, a place of safety may include the business location of a registered tow truck operator. [2007 c 242 § 1; 2007 c 86 § 1; 2005 c 390 § 5. **46.61.100 Keep right except when passing, etc.** (1) Upon all roadways of sufficient width a vehicle shall be driven upon the right half of the roadway, except as follows:

(a) When overtaking and passing another vehicle proceeding in the same direction under the rules governing such movement;

(b) When an obstruction exists making it necessary to drive to the left of the center of the highway; provided, any person so doing shall yield the right-of-way to all vehicles traveling in the proper direction upon the unobstructed portion of the highway within such distance as to constitute an immediate hazard;

(c) Upon a roadway divided into three marked lanes and providing for two-way movement traffic under the rules applicable thereon;

(d) Upon a street or highway restricted to one-way traffic; or

(e) Upon a highway having three lanes or less, when approaching a stationary authorized emergency vehicle, tow truck or other vehicle providing roadside assistance while operating warning lights with three hundred sixty degree visibility, or police vehicle as described under RCW 46.61.212(2).

(2) Upon all roadways having two or more lanes for traffic moving in the same direction, all vehicles shall be driven in the right-hand lane then available for traffic, except (a) when overtaking and passing another vehicle proceeding in the same direction, (b) when traveling at a speed greater than the traffic flow, (c) when moving left to allow traffic to merge, or (d) when preparing for a left turn at an intersection, exit, or into a private road or driveway when such left turn is legally permitted. On any such roadway, a vehicle or combination over ten thousand pounds shall be driven only in the right-hand lane except under the conditions enumerated in (a) through (d) of this subsection.

(3) No vehicle towing a trailer or no vehicle or combination over ten thousand pounds may be driven in the left-hand lane of a limited access roadway having three or more lanes for traffic moving in one direction except when preparing for a left turn at an intersection, exit, or into a private road or driveway when a left turn is legally permitted. This subsection does not apply to a vehicle using a high-occupancy vehicle lane. A high-occupancy vehicle lane is not considered the left-hand lane of a roadway. The department of transportation, in consultation with the Washington state patrol, shall

adopt rules specifying (a) those circumstances where it is permissible for other vehicles to use the left lane in case of emergency or to facilitate the orderly flow of traffic, and (b) those segments of limited access roadway to be exempt from this subsection due to the operational characteristics of the roadway.

(4) It is a traffic infraction to drive continuously in the left lane of a multilane roadway when it impedes the flow of other traffic.

(5) Upon any roadway having four or more lanes for moving traffic and providing for two-way movement of traffic, a vehicle shall not be driven to the left of the center line of the roadway except when authorized by official traffic control devices designating certain lanes to the left side of the center of the roadway for use by traffic not otherwise permitted to use such lanes, or except as permitted under subsection (1)(b) of this section. However, this subsection shall not be construed as prohibiting the crossing of the center line in making a left turn into or from an alley, private road or driveway. **46.61.120 Limitations on overtaking on the left.** No vehicle shall be driven to the left side of the center of the roadway in overtaking and passing other traffic proceeding in the same direction unless authorized by the provisions of RCW 46.61.100 through 46.61.160 and 46.61.212 and unless such left side is clearly visible and is free of oncoming traffic for a sufficient distance ahead to permit such overtaking and passing to be completely made without interfering with the operation of any traffic approaching from the opposite direction or any traffic overtaken. In every event the overtaking vehicle must return to an authorized lane of travel as soon as practicable and in the event the passing movement involves the use of a lane authorized for vehicles approaching from the opposite direction, before coming within two hundred feet of any approaching traffic. **46.61.212 Approaching stationary emergency vehicles, tow trucks, and police vehicles.** The driver of any motor vehicle, upon approaching a stationary authorized emergency vehicle that is making use of audible and/or visual signals meeting the requirements of RCW 46.37.190, a tow truck that is making use of visual red lights meeting the requirements of RCW 46.37.196, other vehicles providing roadside assistance that are making use of warning lights with three hundred sixty degree visibility, or a police vehicle properly and lawfully displaying a flashing, blinking, or alternating emergency light or lights, shall:

(1) On a highway having four or more lanes, at least two of which are intended for traffic proceeding in the same

direction as the approaching vehicle, proceed with caution and, if reasonable, with due regard for safety and traffic conditions, yield the right-of-way by making a lane change or moving away from the lane or shoulder occupied by the stationary authorized emergency vehicle or police vehicle;

(2) On a highway having less than four lanes, proceed with caution, reduce the speed of the vehicle, and, if reasonable, with due regard for safety and traffic conditions, and under the rules of this chapter, yield the right-of-way by passing to the left at a safe distance and simultaneously yield the right-of-way to all vehicles traveling in the proper direction upon the highway; or

In lieu of the mandatory minimum term of imprisonment required under this subsection (1)(a)(i), the court may order not less than fifteen days of electronic home monitoring. The offender shall pay the cost of electronic home monitoring. The county or municipality in which the penalty is being imposed shall determine the cost. The court may also require the offender's electronic home monitoring device to include an alcohol detection breathalyzer, and the court may restrict the amount of alcohol the offender may consume during the time the offender is on electronic home monitoring; and

(a) In the case of a person whose alcohol concentration was less than 0.15, or for whom for reasons other than the person's refusal to take a test offered pursuant to RCW 46.20.308 there is no test result indicating the person's alcohol concentration:

(i) By imprisonment for not less than forty-five days nor more than one year and ninety days of electronic home monitoring. The offender shall pay for the cost of the electronic monitoring. The county or municipality where the penalty is being imposed shall determine the cost. The court may also require the offender's electronic home monitoring device include an alcohol detection breathalyzer, and may restrict the amount of alcohol the offender may consume during the time the offender is on electronic home monitoring. Forty-

five days of imprisonment and ninety days of electronic home monitoring may not be suspended or deferred unless the court finds that the imposition of this mandatory minimum sentence would impose a substantial risk to the offender's physical or mental well-being. Whenever the mandatory minimum sentence is suspended or deferred, the court shall state in writing the reason for granting the suspension or deferral and the facts upon which the suspension or deferral is based; and

(ii) By a fine of not less than seven hundred fifty dollars nor more than five thousand dollars. Seven hundred fifty dollars of the fine may not be suspended or deferred unless the court finds the offender to be indigent.

(i) By imprisonment for not less than ninety days nor more than one year and one hundred twenty days of electronic home monitoring. The offender shall pay for the cost of the electronic monitoring. The county or municipality where the penalty is being imposed shall determine the cost. The court may also require the offender's electronic home monitoring device include an alcohol detection breathalyzer, and may restrict the amount of alcohol the offender may consume during the time the offender is on electronic home monitoring. Ninety days of imprisonment and one hundred twenty days of electronic home monitoring may not be suspended or deferred unless the court finds that the imposition of this mandatory minimum sentence would impose a substantial risk to the offender's physical or mental well-being. Whenever the mandatory minimum sentence is suspended or deferred, the court shall state in writing the reason for granting the suspension or deferral and the facts upon which the suspension or deferral is based; and

(ii) By a fine of not less than one thousand dollars nor more than five thousand dollars. One thousand dollars of the fine may not be suspended or deferred unless the court finds the offender to be indigent; or

(b) In the case of a person whose alcohol concentration was at least 0.15, or for whom by reason of the person's refusal to take a test offered pursuant to RCW 46.20.308 there is no test result indicating the person's alcohol concentration:

(i) By imprisonment for not less than one hundred twenty days nor more than one year and one hundred fifty days of electronic home monitoring. The offender shall pay for the cost of the electronic monitoring. The county or municipality where the penalty is being imposed shall determine the cost. One hundred twenty days of imprisonment and one hundred fifty days of electronic home monitoring may not be suspended or deferred unless the court

finds that the imposition of this mandatory minimum sentence would impose a substantial risk to the offender's physical or mental well-being. (ii) By a fine of not less than one thousand five hundred dollars nor more than five thousand dollars. One thousand five hundred dollars of the fine may not be suspended or deferred unless the court finds the offender to be indigent.

(4) A person who is convicted of a violation of RCW 46.61.502 or 46.61.504 and who has four or more prior offenses within ten years, or who has ever previously been convicted of a violation of RCW 46.61.520 committed while under the influence of intoxicating liquor or any drug or RCW 46.61.522 committed while under the influence of intoxicating liquor or any drug, shall be punished in accordance with chapter 9.94A RCW.

(5) If a person who is convicted of a violation of RCW 46.61.502 or 46.61.504 committed the offense while a passenger under the age of sixteen was in the vehicle, the court shall:

(a) In any case in which the installation and use of an interlock or other device is not mandatory under RCW 46.20.720 or other law, order the use of such a device for not less than sixty days following the restoration of the person's license, permit, or nonresident driving privileges; and

(b) In any case in which the installation and use of such a device is otherwise mandatory, order the use of such a device for an additional sixty days.

(6) In exercising its discretion in setting penalties within the limits allowed by this section, the court shall particularly consider the following:

(a) Whether the person's driving at the time of the offense was responsible for injury or damage to another or another's property; and

(b) Whether at the time of the offense the person was driving or in physical control of a vehicle with one or more passengers.

(7) An offender punishable under this section is subject to the alcohol assessment and treatment provisions of RCW 46.61.5056.

(8) The license, permit, or nonresident privilege of a person convicted of driving or being in physical control of a motor vehicle while under the influence of intoxicating liquor or drugs must:

(a) If the person's alcohol concentration was less than 0.15, or if for reasons other than the person's refusal to take a test offered under RCW 46.20.308 there is no test result indicating the person's alcohol concentration:

(i) Where there has been no prior offense within seven years, be suspended or denied by the department for ninety days;

(ii) Where there has been one prior offense within seven years, be revoked or denied by the department for two years; or

(iii) Where there have been two or more prior offenses within seven years, be revoked or denied by the department for three years;

(b) If the person's alcohol concentration was at least 0.15:

(i) Where there has been no prior offense within seven years, be revoked or denied by the department for one year;

(ii) Where there has been one prior offense within seven years, be revoked or denied by the department for nine hundred days; or

(iii) Where there have been two or more prior offenses within seven years, be revoked or denied by the department for four years; or

(c) If by reason of the person's refusal to take a test offered under RCW 46.20.308, there is no test result indicating the person's alcohol concentration:

(i) Where there have been no prior offenses within seven years, be revoked or denied by the department for two years;

(ii) Where there has been one prior offense within seven years, be revoked or denied by the department for three years; or

(iii) Where there have been two or more previous offenses within seven years, be revoked or denied by the department for four years.

The department shall grant credit on a day-for-day basis for any portion of a suspension, revocation, or denial already served under this subsection for a suspension, revocation, or denial imposed under RCW 46.20.3101 arising out of the same incident.

For purposes of this subsection (8), the department shall refer to the driver's record maintained under RCW 46.52.120 when determining the existence of prior offenses.

(9) After expiration of any period of suspension, revocation, or denial of the offender's license, permit, or privilege to drive required by this section, the department shall place the offender's driving privilege in probationary status pursuant to RCW 46.20.355.

(10)(a) In addition to any nonsuspendable and nondeferable jail sentence required by this section, whenever the court imposes less than one year in jail, the court shall also suspend but shall not defer a period of confinement for a period not exceeding five years. The court shall impose conditions of probation that include: (i) Not driving a motor vehicle within this state without a valid license to drive and proof of financial responsibility for the future; (ii) not driving a motor vehicle within this state while having an alcohol concentration of 0.08 or more within two hours after driving; and (iii) not refusing to submit to a test of his or her breath or blood to determine alcohol concentration upon request of a law enforcement officer who has reasonable grounds to believe the person was driving or was in actual physical control of a motor vehicle within this state while under the influence of intoxicating liquor. The court may impose conditions of probation that include nonrepetition, installation of an ignition interlock device on the probationer's motor vehicle, alcohol or drug treatment, supervised probation, or other conditions that may be appropriate. The sentence may be imposed in whole or in part upon violation of a condition of probation during the suspension period.

(b) For each violation of mandatory conditions of probation under (a)(i), (ii), or (iii) of this subsection, the court shall order the convicted person to be confined for thirty days, which shall not be suspended or deferred.

(c) For each incident involving a violation of a mandatory condition of probation imposed under this subsection, the license, permit, or privilege to drive of the person shall be suspended by the court for thirty days or, if such license, permit, or privilege to drive already is suspended, revoked, or denied at the time the finding of probation violation is made, the suspension, revocation, or denial then in effect shall be extended by thirty days. The court shall notify the department of any suspension, revocation, or denial or any extension of a suspension, revocation, or denial imposed under this subsection.

(11) A court may waive the electronic home monitoring requirements of this chapter when:

(a) The offender does not have a dwelling, telephone service, or any other necessity to operate an electronic home monitoring system;

(b) The offender does not reside in the state of Washington; or

(c) The court determines that there is reason to believe that the offender would violate the conditions of the electronic home monitoring penalty.

Whenever the mandatory minimum term of electronic home monitoring is waived, the court shall state in writing the reason for granting the waiver and the facts upon which the waiver is based, and shall impose an alternative sentence with similar punitive consequences. The alternative sentence may include, but is not limited to, additional jail time, work crew, or work camp.

Whenever the combination of jail time and electronic home monitoring or alternative sentence would exceed three hundred sixty-five days, the offender shall serve the jail portion of the sentence first, and the electronic home monitoring or alternative portion of the sentence shall be reduced so that the combination does not exceed three hundred sixty-five days.

(12) An offender serving a sentence under this section, whether or not a mandatory minimum term has expired, may be granted an extraordinary medical placement by the jail administrator subject to the standards and limitations set forth in RCW 9.94A.728(4).

(13) For purposes of this section and RCW 46.61.502 and 46.61.504:

**46.61.667 Using a wireless communications device while driving. (Effective July 1, 2008.)** (1) Except as provided in subsection (2) of this section, a person operating a moving motor vehicle while holding a wireless communications device to his or her ear is guilty of a traffic infraction.

(2) Subsection (1) of this section does not apply to a person operating:

(a) An authorized emergency vehicle, or a tow truck responding to a disabled vehicle;

(b) A moving motor vehicle using a wireless communications device in hands-free mode;

(c) A moving motor vehicle using a hand-held wireless communications device to:

(i) Report illegal activity;

(ii) Summon medical or other emergency help;

(iii) Prevent injury to a person or property;

(d) A moving motor vehicle while using a hearing aid.

(3) Subsection (1) of this section does not restrict the operation of an amateur radio station by a person who holds a valid amateur radio operator license issued by the federal communications commission.

(4) For purposes of this section, "hands-free mode" means the use of a wireless communications device with a speaker phone, headset, or earpiece.

(5) The state preempts the field of regulating the use of wireless communications devices in motor vehicles, and this section supersedes any local laws, ordinances, orders, rules, or regulations enacted by a political subdivision or municipality to regulate the use of wireless communications devices by the operator of a motor vehicle.

(6) Enforcement of this section by law enforcement officers may be accomplished only as a secondary action when a driver of a motor vehicle has been detained for a suspected violation of this title or an equivalent local ordinance or some other offense.

(7) Infractions that result from the use of a wireless communications device while operating a motor vehicle under this section shall not become part of the driver's record under RCW 46.52.101 and 46.52.120. Additionally, a finding that a person has committed a traffic infraction under this section shall not be made available to insurance companies or employers. [2007 c 417 § 2.]

**Intent—2007 c 417:** "The use of wireless communications devices by motorists has increased in recent years. While wireless communications devices have assisted with quick reporting of road emergencies, their use has also contributed to accidents and other mishaps on Washington state roadways. When motorists hold a wireless communications device in one hand and drive with the other, their chances of becoming involved in a traffic mishap increase. It is the legislature's intent to phase out the use of hand-held wireless communications devices by motorists while operating a vehicle." [2007 c 417 § 1.]

**Effective date—2007 c 417:** "This act takes effect July 1, 2008." [2007 c 417 § 3.]

**46.61.668 Sending, reading, or writing a text message while driving. (Effective January 1, 2008.)** (1) Except as provided in subsection (2) of this section, a person operating a moving motor vehicle who, by means of an electronic wireless communications device, other than a voice-activated global positioning or navigation system that is permanently affixed to the vehicle, sends, reads, or writes a text message, is guilty of a traffic infraction. A person does not send, read, or write a text message when he or she reads, selects, or enters a phone number or name in a wireless communications device for the purpose of making a phone call.

(2) Subsection (1) of this section does not apply to a person operating:

(a) An authorized emergency vehicle; or

(b) A moving motor vehicle while using an electronic wireless communications device to:

(i) Report illegal activity;

(ii) Summon medical or other emergency help;

(iii) Prevent injury to a person or property; or

(iv) Relay information between a transit or for-hire operator and that operator's dispatcher, in which the device is permanently affixed to the vehicle.

(3) Enforcement of this section by law enforcement officers may be accomplished only as a secondary action when a driver of a motor vehicle has been detained for a suspected violation of this title or an equivalent local ordinance or some other offense.

(4) Infractions under this section shall not become part of the driver's record under RCW 46.52.101 and 46.52.120. Additionally, a finding that a person has committed a traffic infraction under this section shall not be made available to insurance companies or employers. [2007 c 416 § 1.]

**Effective date—2007 c 416:** "This act takes effect January 1, 2008." [2007 c 416 § 2.]

**46.61.687 Child passenger restraint required—Conditions—Exceptions—Penalty for violation—Dismissal—Noncompliance not negligence—Immunity.** (1) Whenever a child who is less than sixteen years of age is being transported in a motor vehicle that is in operation and that is required by RCW 46.37.510 to be equipped with a safety belt system in a passenger seating position, or is being transported in a neighborhood electric vehicle or medium-speed electric vehicle that is in operation, the driver of the vehicle shall keep the child properly restrained as follows:

(a) A child must be restrained in a child restraint system, if the passenger seating position equipped with a safety belt system allows sufficient space for installation, until the child is eight years old, unless the child is four feet nine inches or taller. The child restraint system must comply with standards of the United States department of transportation and must be secured in the vehicle in accordance with instructions of the vehicle manufacturer and the child restraint system manufacturer.

(b) A child who is eight years of age or older or four feet nine inches or taller shall be properly restrained with the motor vehicle's safety belt properly adjusted and fastened around the child's body or an appropriately fitting child restraint system.

(c) The driver of a vehicle transporting a child who is under thirteen years old shall transport the child in the back seat positions in the vehicle where it is practical to do so.

(2) Enforcement of subsection (1) of this section is subject to a visual inspection by law enforcement to determine if the child restraint system in use is appropriate for the child's individual height, weight, and age. The visual inspection for usage of a child restraint system must ensure that the child restraint system is being used in accordance with the instruction of the vehicle and the child restraint system manufacturers. The driver of a vehicle transporting a child who is under thirteen years old shall transport the child in the back seat positions in the vehicle where it is practical to do so.

(3) A person violating subsection (1) of this section may be issued a notice of traffic infraction under chapter 46.63 RCW. If the person to whom the notice was issued presents proof of acquisition of an approved child passenger restraint system or a child booster seat, as appropriate, within seven days to the jurisdiction issuing the notice and the person has not previously had a violation of this section dismissed, the jurisdiction shall dismiss the notice of traffic infraction.

[2007 RCW Supp—page 602]

(4) Failure to comply with the requirements of this section shall not constitute negligence by a parent or legal guardian. Failure to use a child restraint system shall not be admissible as evidence of negligence in any civil action.

(5) This section does not apply to: (a) For hire vehicles, (b) vehicles designed to transport sixteen or less passengers, including the driver, operated by auto transportation companies, as defined in RCW 81.68.010, (c) vehicles providing customer shuttle service between parking, convention, and hotel facilities, and airport terminals, and (d) school buses.

(6) As used in this section, "child restraint system" means a child passenger restraint system that meets the Federal Motor Vehicle Safety Standards set forth in 49 C.F.R. 571.213.

(7) The requirements of subsection (1) of this section do not apply in any seating position where there is only a lap belt available and the child weighs more than forty pounds.

(8)(a) Except as provided in (b) of this subsection, a person who has a current national certification as a child passenger safety technician and who in good faith provides inspection, adjustment, or educational services regarding child passenger restraint systems is not liable for civil damages resulting from any act or omission in providing the services, other than acts or omissions constituting gross negligence or willful or wanton misconduct.

(b) The immunity provided in this subsection does not apply to a certified child passenger safety technician who is employed by a retailer of child passenger restraint systems and who, during his or her hours of employment and while being compensated, provides inspection, adjustment, or educational services regarding child passenger restraint systems. **Intent—2000 c 190:** "The legislature recognizes that fewer than five percent of all drivers use child booster seats for children over the age of four years. The legislature also recognizes that seventy-one percent of deaths resulting from car accidents could be eliminated if every child under the age of sixteen used an appropriate child safety seat, booster seat, or seat belt. The legislature further recognizes the National Transportation Safety Board's recommendations that promote the use of booster seats to increase the safety of children under eight years of age. Therefore, it is the legislature's intent to decrease deaths and injuries to children by promoting safety education and injury prevention measures, as well as increasing public awareness on ways to maximize the protection of children in vehicles." (3) Every person sixteen years of age or older operating or riding in a motor vehicle shall wear the safety belt assembly in a properly adjusted and securely fastened manner.

(4) No person may operate a motor vehicle unless all child passengers under the age of sixteen years are either: (a) Wearing a safety belt assembly or (b) are securely fastened into an approved child restraint device.

(5) A person violating this section shall be issued a notice of traffic infraction under chapter 46.63 RCW. A finding that a person has committed a traffic infraction under this section shall be contained in the driver's abstract but shall not be available to insurance companies or employers.

(6) Failure to comply with the requirements of this section does not constitute negligence, nor may failure to wear a safety belt assembly be admissible as evidence of negligence in any civil action.

(7) This section does not apply to an operator or passenger who possesses written verification from a licensed physician that the operator or passenger is unable to wear a safety belt for physical or medical reasons.

(8) The state patrol may adopt rules exempting operators or occupants of farm vehicles, construction equipment, and vehicles that are required to make frequent stops from the requirement of wearing safety belts. (a) The person does not operate a medium-speed electric vehicle upon state highways that are listed in chapter 47.17 RCW;

(b) The person does not operate a medium-speed electric vehicle upon a highway of this state without first having obtained and having in full force and effect a current and proper vehicle license and display vehicle license number plates in compliance with chapter 46.16 RCW;

(e) The person operating a medium-speed electric vehicle does not cross a roadway with a speed limit in excess of thirty-five miles per hour, unless the crossing begins and ends on a roadway with a speed limit of thirty-five miles per hour or less and occurs at an intersection of approximately ninety degrees, except that the operator of a medium-speed electric vehicle must not cross an uncontrolled intersection of streets and highways that are part of the state highway system subject to Title 47 RCW unless that intersection has been authorized by local authorities under subsection (3) of this section.

(2) Any person who violates this section commits a traffic infraction.

(3) This section does not prevent local authorities, with respect to streets and highways under their jurisdiction and within the reasonable exercise of their police power, from regulating the operation of medium-speed electric vehicles on streets and highways under their jurisdiction by resolution or ordinance of the governing body, if the regulation is consistent with this title, except that:

(a) Local authorities may not authorize the operation of medium-speed electric vehicles on streets and highways that are part of the state highway system subject to Title 47 RCW;

(b) Local authorities may not prohibit the operation of medium-speed electric vehicles upon highways of this state having a speed limit of thirty-five miles per hour or less; and

**46.63.030 Notice of traffic infraction—Issuance—Abandoned vehicles.** (1) A law enforcement officer has the authority to issue a notice of traffic infraction:

(a) When the infraction is committed in the officer's presence;

(b) When the officer is acting upon the request of a law enforcement officer in whose presence the traffic infraction was committed;

(c) If an officer investigating at the scene of a motor vehicle accident has reasonable cause to believe that the driver of a motor vehicle involved in the accident has committed a traffic infraction;

(d) When the infraction is detected through the use of a photo enforcement system under RCW 46.63.160; or

(e) When the infraction is detected through the use of an automated traffic safety camera under RCW 46.63.170.

(2) A court may issue a notice of traffic infraction upon receipt of a written statement of the officer that there is reasonable cause to believe that an infraction was committed.

(3) If any motor vehicle without a driver is found parked, standing, or stopped in violation of this title or an equivalent administrative regulation or local law, ordinance, regulation, or resolution, the officer finding the vehicle shall take its registration number and may take any other information displayed on the vehicle which may identify its user, and shall conspicuously affix to the vehicle a notice of traffic infraction.

(4) In the case of failure to redeem an abandoned vehicle under RCW 46.55.120, upon receiving a complaint by a registered tow truck operator that has incurred costs in removing, storing, and disposing of an abandoned vehicle, an officer of the law enforcement agency responsible for directing the removal of the vehicle shall send a notice of infraction by certified mail to the last known address of the person responsible under RCW 46.55.105. The notice must be entitled "Littering—Abandoned Vehicle" and give notice of the monetary penalty. The officer shall append to the notice of infraction, on a form prescribed by the department of licensing, a notice indicating the amount of costs incurred as a result of removing, storing, and disposing of the abandoned vehicle, less any amount realized at auction, and a statement that monetary penalties for the infraction will not be considered as having been paid until the monetary penalty payable under this chapter has been paid and the court is satisfied that the person has made restitution in the amount of the deficiency remaining after disposal of the vehicle. **Effective date—Severability—1980 c 128:** See notes following RCW 46.63.060.

**Effective date—Severability—1979 ex.s. c 136:** See notes following RCW 46.63.010.

**46.63.073 Rental vehicles.** (1) In the event a traffic infraction is based on a vehicle's identification, and the registered owner of the vehicle is a rental car business, the law enforcement agency shall, before a notice of infraction may be issued, provide a written notice to the rental car business that a notice of infraction may be issued to the rental car business if the rental car business does not, within thirty days of receiving the written notice, provide to the issuing agency by return mail:

(a) A statement under oath stating the name and known mailing address of the individual driving or renting the vehicle when the infraction occurred; or

(b) A statement under oath that the business is unable to determine who was driving or renting the vehicle at the time the infraction occurred because the vehicle was stolen at the time of the infraction. A statement provided under this subsection must be accompanied by a copy of a filed police report regarding the vehicle theft.

Timely mailing of this statement to the issuing law enforcement agency relieves a rental car business of any liability under this chapter for the notice of infraction. In lieu of identifying the vehicle operator, the rental car business may pay the applicable penalty. For the purpose of this subsection, a "traffic infraction based on a vehicle's identification" includes, but is not limited to, parking infractions, high-occupancy toll lane violations, and violations recorded by automated traffic safety cameras.

(2) In the event a parking infraction is issued by a private parking facility and is based on a vehicle's identification, and the registered owner of the vehicle is a rental car business, the parking facility shall, before a notice of infraction may be issued, provide a written notice to the rental car business that a notice of infraction may be issued to the rental car business if the rental car business does not, within thirty days of

receiving the written notice, provide to the parking facility by return mail:

(a) A statement under oath stating the name and known mailing address of the individual driving or renting the vehicle when the infraction occurred; or

(b) A statement under oath that the business is unable to determine who was driving or renting the vehicle at the time the infraction occurred because the vehicle was stolen at the time of the infraction. A statement provided under this subsection must be accompanied by a copy of a filed police report regarding the vehicle theft.

Timely mailing of this statement to the parking facility relieves a rental car business of any liability under this chapter for the notice of infraction. In lieu of identifying the vehicle operator, the rental car business may pay the applicable penalty. For the purpose of this subsection, a "parking infraction based on a vehicle's identification" is limited to parking infractions occurring on a private parking facility's premises. [2007 c 372 § 1; 2005 c 331 § 2.]

**46.63.105 City attorney, county prosecutor, or other prosecuting authority—Filing an infraction—Contribution, donation, payment.** A city attorney, county prosecutor, or other prosecuting authority may not dismiss, amend, or agree not to file an infraction in exchange for a contribution, donation, or payment to any person, corporation, or organization. This does not prohibit:

(1) Contribution, donation, or payment to any specific fund authorized by state statute;

(2) The collection of costs associated with actual supervision, treatment, or collection of restitution under agreements to defer or divert; or

(3) Dismissal following payment that is authorized by any other statute. [2007 c 367 § 2.]

**46.63.110 Monetary penalties.** (1) A person found to have committed a traffic infraction shall be assessed a monetary penalty. No penalty may exceed two hundred and fifty dollars for each offense unless authorized by this chapter or title.

(2) The monetary penalty for a violation of (a) RCW 46.55.105(2) is two hundred fifty dollars for each offense; (b) RCW 46.61.210(1) is five hundred dollars for each offense. No penalty assessed under this subsection (2) may be reduced.

(3) The supreme court shall prescribe by rule a schedule of monetary penalties for designated traffic infractions. This rule shall also specify the conditions under which local courts may exercise discretion in assessing fines and penalties for traffic infractions. The legislature respectfully requests the supreme court to adjust this schedule every two years for inflation.

(4) There shall be a penalty of twenty-five dollars for failure to respond to a notice of traffic infraction except where the infraction relates to parking as defined by local law, ordinance, regulation, or resolution or failure to pay a monetary penalty imposed pursuant to this chapter. A local legislative body may set a monetary penalty not to exceed twenty-five dollars for failure to respond to a notice of traffic infraction relating to parking as defined by local law, ordi-

nance, regulation, or resolution. The local court, whether a municipal, police, or district court, shall impose the monetary penalty set by the local legislative body.

(5) Monetary penalties provided for in chapter 46.70 RCW which are civil in nature and penalties which may be assessed for violations of chapter 46.44 RCW relating to size, weight, and load of motor vehicles are not subject to the limitation on the amount of monetary penalties which may be imposed pursuant to this chapter.

(6) Whenever a monetary penalty, fee, cost, assessment, or other monetary obligation is imposed by a court under this chapter it is immediately payable. If the court determines, in its discretion, that a person is not able to pay a monetary obligation in full, and not more than one year has passed since the later of July 1, 2005, or the date the monetary obligation initially became due and payable, the court shall enter into a payment plan with the person, unless the person has previously been granted a payment plan with respect to the same monetary obligation, or unless the person is in noncompliance of any existing or prior payment plan, in which case the court may, at its discretion, implement a payment plan. If the court has notified the department that the person has failed to pay or comply and the person has subsequently entered into a payment plan and made an initial payment, the court shall notify the department that the infraction has been adjudicated, and the department shall rescind any suspension of the person's driver's license or driver's privilege based on failure to respond to that infraction. "Payment plan," as used in this section, means a plan that requires reasonable payments based on the financial ability of the person to pay. The person may voluntarily pay an amount at any time in addition to the payments required under the payment plan.

(a) If a payment required to be made under the payment plan is delinquent or the person fails to complete a community restitution program on or before the time established under the payment plan, unless the court determines good cause therefor and adjusts the payment plan or the community restitution plan accordingly, the court shall notify the department of the person's failure to meet the conditions of the plan, and the department shall suspend the person's driver's license or driving privilege until all monetary obligations, including those imposed under subsections (3) and (4) of this section, have been paid, and court authorized community restitution has been completed, or until the department has been notified that the court has entered into a new time payment or community restitution agreement with the person.

(b) If a person has not entered into a payment plan with the court and has not paid the monetary obligation in full on or before the time established for payment, the court shall notify the department of the delinquency. The department shall suspend the person's driver's license or driving privilege until all monetary obligations have been paid, including those imposed under subsections (3) and (4) of this section, or until the person has entered into a payment plan under this section.

(c) If the payment plan is to be administered by the court, the court may assess the person a reasonable administrative fee to be wholly retained by the city or county with jurisdiction. The administrative fee shall not exceed ten dollars per

infraction or twenty-five dollars per payment plan, whichever is less.

(d) Nothing in this section precludes a court from contracting with outside entities to administer its payment plan system. When outside entities are used for the administration of a payment plan, the court may assess the person a reasonable fee for such administrative services, which fee may be calculated on a periodic, percentage, or other basis.

(e) If a court authorized community restitution program for offenders is available in the jurisdiction, the court may allow conversion of all or part of the monetary obligations due under this section to court authorized community restitution in lieu of time payments if the person is unable to make reasonable time payments.

(7) In addition to any other penalties imposed under this section and not subject to the limitation of subsection (1) of this section, a person found to have committed a traffic infraction shall be assessed:

(a) A fee of five dollars per infraction. Under no circumstances shall this fee be reduced or waived. Revenue from this fee shall be forwarded to the state treasurer for deposit in the emergency medical services and trauma care system trust account under RCW 70.168.040;

(b) A fee of ten dollars per infraction. Under no circumstances shall this fee be reduced or waived. Revenue from this fee shall be forwarded to the state treasurer for deposit in the Washington auto theft prevention authority account; and

(c) A fee of two dollars per infraction. Revenue from this fee shall be forwarded to the state treasurer for deposit in the traumatic brain injury account established in RCW 74.31.060.

(8)(a) In addition to any other penalties imposed under this section and not subject to the limitation of subsection (1) of this section, a person found to have committed a traffic infraction other than of RCW 46.61.527 shall be assessed an additional penalty of twenty dollars. The court may not reduce, waive, or suspend the additional penalty unless the court finds the offender to be indigent. If a court authorized community restitution program for offenders is available in the jurisdiction, the court shall allow offenders to offset all or a part of the penalty due under this subsection (8) by participation in the court authorized community restitution program.

(b) Eight dollars and fifty cents of the additional penalty under (a) of this subsection shall be remitted to the state treasurer. The remaining revenue from the additional penalty must be remitted under chapters 2.08, 3.46, 3.50, 3.62, 10.82, and 35.20 RCW. Money remitted under this subsection to the state treasurer must be deposited as provided in RCW 43.08.250. The balance of the revenue received by the county or city treasurer under this subsection must be deposited into the county or city current expense fund. Moneys retained by the city or county under this subsection shall constitute reimbursement for any liabilities under RCW 43.135.060.

(9) If a legal proceeding, such as garnishment, has commenced to collect any delinquent amount owed by the person for any penalty imposed by the court under this section, the court may, at its discretion, enter into a payment plan.

(10) The monetary penalty for violating RCW 46.37.395 is: (a) Two hundred fifty dollars for the first violation; (b)

five hundred dollars for the second violation; and (c) seven hundred fifty dollars for each violation thereafter. [2007 c 356 § 8; 2007 c 199 § 28. **46.63.160 Toll collection systems—Photo enforcement systems.** (1) This section applies only to infractions issued under RCW 46.61.690 for toll collection evasion.

(2) Nothing in this section prohibits a law enforcement officer from issuing a notice of traffic infraction to a person in control of a vehicle at the time a violation occurs under RCW 46.63.030(1) (a), (b), or (c).

(3) Toll collection systems include manual cash collection, electronic toll collection, and photo enforcement systems.

(4) "Electronic toll collection system" means a system of collecting tolls or charges that is capable of charging the account of the toll patron the appropriate toll or charge by electronic transmission from the motor vehicle to the toll collection system, which information is used to charge the appropriate toll or charge to the patron's account.

(5) "Photo enforcement system" means a vehicle sensor installed to work in conjunction with an electronic toll collection system that automatically produces one or more photographs, one or more microphotographs, a videotape, or other recorded images of a vehicle operated in violation of an infraction under this chapter.

(6) The use of a toll collection system is subject to the following requirements:

(a) The department of transportation shall adopt rules that allow an open standard for automatic vehicle identification transponders used for electronic toll collection to be

compatible with other electronic payment devices or transponders from the Washington state ferry system, other public transportation systems, or other toll collection systems to the extent that technology permits. The rules must also allow for multiple vendors providing electronic payment devices or transponders as technology permits.

(b) The department of transportation may not sell, distribute, or make available in any way, the names and addresses of electronic toll collection system account holders.

(7) The use of a photo enforcement system for issuance of notices of infraction is subject to the following requirements:

(a) Photo enforcement systems may take photographs, digital photographs, microphotographs, videotapes, or other recorded images of the vehicle and vehicle license plate only.

(b) A notice of infraction must be mailed to the registered owner of the vehicle or to the renter of a vehicle within sixty days of the violation. The law enforcement officer issuing the notice of infraction shall include with it a certificate or facsimile thereof, based upon inspection of photographs, microphotographs, videotape, or other recorded images produced by a photo enforcement system, stating the facts supporting the notice of infraction. This certificate or facsimile is prima facie evidence of the facts contained in it and is admissible in a proceeding charging a violation under this chapter. The photographs, digital photographs, microphotographs, videotape, or other recorded images evidencing the violation must be available for inspection and admission into evidence in a proceeding to adjudicate the liability for the infraction.

(c) Notwithstanding any other provision of law, all photographs, digital photographs, microphotographs, videotape, or other recorded images prepared under this chapter are for the exclusive use of the tolling agency and law enforcement in the discharge of duties under this section and are not open to the public and may not be used in a court in a pending action or proceeding unless the action or proceeding relates to a violation under this chapter. No photograph, digital photograph, microphotograph, videotape, or other recorded image may be used for any purpose other than enforcement of violations under this chapter nor retained longer than necessary to enforce this chapter or verify that tolls are paid.

(d) All locations where a photo enforcement system is used must be clearly marked by placing signs in locations that clearly indicate to a driver that he or she is entering a zone where traffic laws are enforced by a photo enforcement system.

(8) Infractions detected through the use of photo enforcement systems are not part of the registered owner's driving record under RCW 46.52.101 and 46.52.120. Additionally, infractions generated by the use of photo enforcement systems under this section shall be processed in the same manner as parking infractions, including for the purposes of RCW 3.46.120, 3.50.100, 35.20.220, 46.16.216, and 46.20.270(3).

(9) The penalty for an infraction detected through the use of a photo enforcement system shall be forty dollars plus an additional toll penalty. The toll penalty is equal to three times the cash toll for a standard passenger car during peak hours. Any reduction in the total penalty imposed shall be made proportionally between the forty-dollar penalty and the toll pen-

alty. The court shall remit the toll penalty to the department of transportation or a private entity under contract with the department of transportation for deposit in the statewide account in which tolls are deposited for the tolling facility at which the violation occurred.

(10) If the registered owner of the vehicle is a rental car business the department of transportation or a law enforcement agency shall, before a notice of infraction being issued under this section, provide a written notice to the rental car business that a notice of infraction may be issued to the rental car business if the rental car business does not, within eighteen days of the mailing of the written notice, provide to the issuing agency by return mail:

(a) A statement under oath stating the name and known mailing address of the individual driving or renting the vehicle when the infraction occurred; or

(b) A statement under oath that the business is unable to determine who was driving or renting the vehicle at the time the infraction occurred because the vehicle was stolen at the time of the infraction. A statement provided under this subsection must be accompanied by a copy of a filed police report regarding the vehicle theft; or

(c) In lieu of identifying the vehicle operator, the rental car business may pay the applicable toll and fee.

Timely mailing of this statement to the issuing law enforcement agency relieves a rental car business of any liability under this chapter for the notice of infraction. [2007 c 372 § 2; 2007 c 101 § 2; 2004 c 231 § 6.]

**Reviser's note:** This section was amended by 2007 c 101 § 2 and by 2007 c 372 § 2, each without reference to the other. Both amendments are incorporated in the publication of this section under RCW 1.12.025(2). For rule of construction, see RCW 1.12.025(1).

**46.63.170 Automated traffic safety cameras—Definition.** (1) The use of automated traffic safety cameras for issuance of notices of infraction is subject to the following requirements:

(a) The appropriate local legislative authority must first enact an ordinance allowing for their use to detect one or more of the following: Stoplight, railroad crossing, or school speed zone violations. At a minimum, the local ordinance must contain the restrictions described in this section and provisions for public notice and signage. Cities and counties using automated traffic safety cameras before July 24, 2005, are subject to the restrictions described in this section, but are not required to enact an authorizing ordinance.

(b) Use of automated traffic safety cameras is restricted to two-arterial intersections, railroad crossings, and school speed zones only.

(c) Automated traffic safety cameras may only take pictures of the vehicle and vehicle license plate and only while an infraction is occurring. The picture must not reveal the face of the driver or of passengers in the vehicle.

(d) A notice of infraction must be mailed to the registered owner of the vehicle within fourteen days of the violation, or to the renter of a vehicle within fourteen days of establishing the renter's name and address under subsection (3)(a) of this section. The law enforcement officer issuing the notice of infraction shall include with it a certificate or facsimile thereof, based upon inspection of photographs, microphotographs, or electronic images produced by an auto-

mated traffic safety camera, stating the facts supporting the notice of infraction. This certificate or facsimile is prima facie evidence of the facts contained in it and is admissible in a proceeding charging a violation under this chapter. The photographs, microphotographs, or electronic images evidencing the violation must be available for inspection and admission into evidence in a proceeding to adjudicate the liability for the infraction. A person receiving a notice of infraction based on evidence detected by an automated traffic safety camera may respond to the notice by mail.

(e) The registered owner of a vehicle is responsible for an infraction under RCW 46.63.030(1)(e) unless the registered owner overcomes the presumption in RCW 46.63.075, or, in the case of a rental car business, satisfies the conditions under subsection (3) of this section. If appropriate under the circumstances, a renter identified under subsection (3)(a) of this section is responsible for an infraction.

(f) Notwithstanding any other provision of law, all photographs, microphotographs, or electronic images prepared under this section are for the exclusive use of law enforcement in the discharge of duties under this section and are not open to the public and may not be used in a court in a pending action or proceeding unless the action or proceeding relates to a violation under this section. No photograph, microphotograph, or electronic image may be used for any purpose other than enforcement of violations under this section nor retained longer than necessary to enforce this section.

(g) All locations where an automated traffic safety camera is used must be clearly marked by placing signs in locations that clearly indicate to a driver that he or she is entering a zone where traffic laws are enforced by an automated traffic safety camera.

(h) If a county or city has established an authorized automated traffic safety camera program under this section, the compensation paid to the manufacturer or vendor of the equipment used must be based only upon the value of the equipment and services provided or rendered in support of the system, and may not be based upon a portion of the fine or civil penalty imposed or the revenue generated by the equipment.

(2) Infractions detected through the use of automated traffic safety cameras are not part of the registered owner's driving record under RCW 46.52.101 and 46.52.120. Additionally, infractions generated by the use of automated traffic safety cameras under this section shall be processed in the same manner as parking infractions, including for the purposes of RCW 3.46.120, 3.50.100, 35.20.220, 46.16.216, and 46.20.270(3). However, the amount of the fine issued for an infraction generated through the use of an automated traffic safety camera shall not exceed the amount of a fine issued for other parking infractions within the jurisdiction.

(3) If the registered owner of the vehicle is a rental car business, the law enforcement agency shall, before a notice of infraction being issued under this section, provide a written notice to the rental car business that a notice of infraction may be issued to the rental car business if the rental car business does not, within eighteen days of receiving the written notice, provide to the issuing agency by return mail:

(a) A statement under oath stating the name and known mailing address of the individual driving or renting the vehicle when the infraction occurred; or

(b) A statement under oath that the business is unable to determine who was driving or renting the vehicle at the time the infraction occurred because the vehicle was stolen at the time of the infraction. A statement provided under this subsection must be accompanied by a copy of a filed police report regarding the vehicle theft; or

(c) In lieu of identifying the vehicle operator, the rental car business may pay the applicable penalty.

Timely mailing of this statement to the issuing law enforcement agency relieves a rental car business of any liability under this chapter for the notice of infraction.

(4) Nothing in this section prohibits a law enforcement officer from issuing a notice of traffic infraction to a person in control of a vehicle at the time a violation occurs under RCW 46.63.030(1) (a), (b), or (c).

(5) For the purposes of this section, "automated traffic safety camera" means a device that uses a vehicle sensor installed to work in conjunction with an intersection traffic control system, a railroad grade crossing control system, or a speed measuring device, and a camera synchronized to automatically record one or more sequenced photographs, microphotographs, or electronic images of the rear of a motor vehicle at the time the vehicle fails to stop when facing a steady red traffic control signal or an activated railroad grade crossing control signal, or exceeds a speed limit in a school speed zone as detected by a speed measuring device. (2)(a) To incorporate within the terms of any purchase and sale or lease agreement any statement or representation with regard to the sale, lease, or financing of a vehicle which is false, deceptive, or misleading, including but not limited to terms that include as an added cost to the selling price or capitalized cost of a vehicle an amount for licensing or transfer of title of that vehicle which is not actually due to the state, unless such amount has in fact been paid by the dealer prior to such sale. However, an amount not to exceed fifty dollars per vehicle sale or lease may be charged by a dealer to recover administrative costs for collecting motor vehicle excise taxes, licensing and registration fees and other agency fees, verifying and clearing titles, transferring titles, perfecting, releasing, or satisfying liens or other security interests, and other administrative and documentary services rendered by a dealer in connection with the sale or lease of a vehicle and in carrying out the requirements of this chapter or any other provisions of state law.

(b) A dealer may charge the documentary service fee in (a) of this subsection under the following conditions:

(i) The documentary service fee is disclosed in writing to a prospective purchaser or lessee before the execution of a purchase and sale or lease agreement;

(ii) The documentary service fee is not represented to the purchaser or lessee as a fee or charge required by the state to be paid by either the dealer or prospective purchaser or lessee;

(iii) The documentary service fee is separately designated from the selling price or capitalized cost of the vehicle and from any other taxes, fees, or charges; and

(iv) Dealers disclose in any advertisement that a documentary service fee in an amount up to fifty dollars may be added to the sale price or the capitalized cost.

For the purposes of this subsection (2), the term "documentary service fee" means the optional amount charged by a

dealer to provide the services specified in (a) of this subsection.

(3) To set up, promote, or aid in the promotion of a plan by which vehicles are to be sold or leased to a person for a consideration and upon further consideration that the purchaser or lessee agrees to secure one or more persons to participate in the plan by respectively making a similar purchase and in turn agreeing to secure one or more persons likewise to join in said plan, each purchaser or lessee being given the right to secure money, credits, goods, or something of value, depending upon the number of persons joining the plan.

(4) To commit, allow, or ratify any act of "bushing" which is defined as follows: Entering into a written contract, written purchase order or agreement, retail installment sales agreement, note and security agreement, or written lease agreement, hereinafter collectively referred to as contract or lease, signed by the prospective buyer or lessee of a vehicle, which:

(a) Is subject to any conditions or the dealer's or his or her authorized representative's future acceptance, and the dealer fails or refuses within four calendar days, exclusive of Saturday, Sunday, or legal holiday, and prior to any further negotiations with said buyer or lessee to inform the buyer or lessee either: (i) That the dealer unconditionally accepts the contract or lease, having satisfied, removed, or waived all conditions to acceptance or performance, including, but not limited to, financing, assignment, or lease approval; or (ii) that the dealer rejects the contract or lease, thereby automatically voiding the contract or lease, as long as such voiding does not negate commercially reasonable contract or lease provisions pertaining to the return of the subject vehicle and any physical damage, excessive mileage after the demand for return of the vehicle, and attorneys' fees authorized by law, and tenders the refund of any initial payment or security made or given by the buyer or lessee, including, but not limited to, any down payment, and tenders return of the trade-in vehicle, key, other trade-in, or certificate of title to a trade-in. Tender may be conditioned on return of the subject vehicle if previously delivered to the buyer or lessee.

The provisions of this subsection (4)(a) do not impair, prejudice, or abrogate the rights of a dealer to assert a claim against the buyer or lessee for misrepresentation or breach of contract and to exercise all remedies available at law or in equity, including those under chapter 62A.9A RCW, if the dealer, bank, or other lender or leasing company discovers that approval of the contract or financing or approval of the lease was based upon material misrepresentations made by the buyer or lessee, including, but not limited to, misrepresentations regarding income, employment, or debt of the buyer or lessee, as long as the dealer, or his or her staff, has not, with knowledge of the material misrepresentation, aided, assisted, encouraged, or participated, directly or indirectly, in the misrepresentation. A dealer shall not be in violation of this subsection (4)(a) if the buyer or lessee made a material misrepresentation to the dealer, as long as the dealer, or his or her staff, has not, with knowledge of the material misrepresentation, aided, assisted, encouraged, or participated, directly or indirectly, in the misrepresentation.

When a dealer informs a buyer or lessee under this subsection (4)(a) regarding the unconditional acceptance or rejection of the contract, lease, or financing by an electronic

mail message, the dealer must also transmit the communication by any additional means;

(b) Permits the dealer to renegotiate a dollar amount specified as trade-in allowance on a vehicle delivered or to be delivered by the buyer or lessee as part of the purchase price or lease, for any reason except:

(i) Failure to disclose that the vehicle's certificate of ownership has been branded for any reason, including, but not limited to, status as a rebuilt vehicle as provided in RCW 46.12.050 and 46.12.075; or

(ii) Substantial physical damage or latent mechanical defect occurring before the dealer took possession of the vehicle and which could not have been reasonably discoverable at the time of the taking of the order, offer, or contract; or

(iii) Excessive additional miles or a discrepancy in the mileage. "Excessive additional miles" means the addition of five hundred miles or more, as reflected on the vehicle's odometer, between the time the vehicle was first valued by the dealer for purposes of determining its trade-in value and the time of actual delivery of the vehicle to the dealer. "A discrepancy in the mileage" means (A) a discrepancy between the mileage reflected on the vehicle's odometer and the stated mileage on the signed odometer statement; or (B) a discrepancy between the mileage stated on the signed odometer statement and the actual mileage on the vehicle; or

(c) Fails to comply with the obligation of any written warranty or guarantee given by the dealer requiring the furnishing of services or repairs within a reasonable time.

(5) To commit any offense relating to odometers, as such offenses are defined in RCW 46.37.540, 46.37.550, 46.37.560, and 46.37.570. A violation of this subsection is a class C felony punishable under chapter 9A.20 RCW.

(6) For any vehicle dealer or vehicle salesperson to refuse to furnish, upon request of a prospective purchaser or lessee, for vehicles previously registered to a business or governmental entity, the name and address of the business or governmental entity.

(7) To commit any other offense under RCW 46.37.423, 46.37.424, or 46.37.425.

(8) To commit any offense relating to a dealer's temporary license permit, including but not limited to failure to properly complete each such permit, or the issuance of more than one such permit on any one vehicle. However, a dealer may issue a second temporary permit on a vehicle if the following conditions are met:

(a) The lienholder fails to deliver the vehicle title to the dealer within the required time period;

(b) The dealer has satisfied the lien; and

(c) The dealer has proof that payment of the lien was made within two calendar days, exclusive of Saturday, Sunday, or a legal holiday, after the sales contract has been executed by all parties and all conditions and contingencies in the sales contract have been met or otherwise satisfied.

(9) For a dealer, salesperson, or mobile home manufacturer, having taken an instrument or cash "on deposit" from a purchaser or lessee prior to the delivery of the bargained-for vehicle, to commingle the "on deposit" funds with assets of the dealer, salesperson, or mobile home manufacturer instead of holding the "on deposit" funds as trustee in a separate trust account until the purchaser or lessee has taken delivery of the bargained-for vehicle. Delivery of a manufactured home

shall be deemed to occur in accordance with RCW 46.70.135(5). Failure, immediately upon receipt, to endorse "on deposit" instruments to such a trust account, or to set aside "on deposit" cash for deposit in such trust account, and failure to deposit such instruments or cash in such trust account by the close of banking hours on the day following receipt thereof, shall be evidence of intent to commit this unlawful practice: PROVIDED, HOWEVER, That a motor vehicle dealer may keep a separate trust account which equals his or her customary total customer deposits for vehicles for future delivery. For purposes of this section, "on deposit" funds received from a purchaser of a manufactured home means those funds that a seller requires a purchaser to advance before ordering the manufactured home, but does not include any loan proceeds or moneys that might have been paid on an installment contract.

(10) For a dealer or manufacturer to fail to comply with the obligations of any written warranty or guarantee given by the dealer or manufacturer requiring the furnishing of goods and services or repairs within a reasonable period of time, or to fail to furnish to a purchaser or lessee, all parts which attach to the manufactured unit including but not limited to the undercarriage, and all items specified in the terms of a sales or lease agreement signed by the seller and buyer or lessee.

(11) For a vehicle dealer to pay to or receive from any person, firm, partnership, association, or corporation acting, either directly or through a subsidiary, as a buyer's agent for consumers, any compensation, fee, purchase moneys or funds that have been deposited into or withdrawn out of any account controlled or used by any buyer's agent, gratuity, or reward in connection with the purchase, sale, or lease of a new motor vehicle.

(12) For a buyer's agent, acting directly or through a subsidiary, to pay to or to receive from any motor vehicle dealer any compensation, fee, gratuity, or reward in connection with the purchase, sale, or lease of a new motor vehicle. In addition, it is unlawful for any buyer's agent to engage in any of the following acts on behalf of or in the name of the consumer:

(a) Receiving or paying any purchase moneys or funds into or out of any account controlled or used by any buyer's agent;

(b) Signing any vehicle purchase orders, sales contracts, leases, odometer statements, or title documents, or having the name of the buyer's agent appear on the vehicle purchase order, sales contract, lease, or title; or

(c) Signing any other documentation relating to the purchase, sale, lease, or transfer of any new motor vehicle.

It is unlawful for a buyer's agent to use a power of attorney obtained from the consumer to accomplish or effect the purchase, sale, lease, or transfer of ownership documents of any new motor vehicle by any means which would otherwise be prohibited under (a) through (c) of this subsection. However, the buyer's agent may use a power of attorney for physical delivery of motor vehicle license plates to the consumer.

Further, it is unlawful for a buyer's agent to engage in any false, deceptive, or misleading advertising, disseminated in any manner whatsoever, including but not limited to making any claim or statement that the buyer's agent offers,

obtains, or guarantees the lowest price on any motor vehicle or words to similar effect.

(13) For a buyer's agent to arrange for or to negotiate the purchase, or both, of a new motor vehicle through an out-of-state dealer without disclosing in writing to the customer that the new vehicle would not be subject to chapter 19.118 RCW. This subsection also applies to leased vehicles. In addition, it is unlawful for any buyer's agent to fail to have a written agreement with the customer that: (a) Sets forth the terms of the parties' agreement; (b) discloses to the customer the total amount of any fees or other compensation being paid by the customer to the buyer's agent for the agent's services; and (c) further discloses whether the fee or any portion of the fee is refundable.

(14) Being a manufacturer, other than a motorcycle manufacturer governed by chapter 46.93 RCW, to:

(a) Coerce or attempt to coerce any vehicle dealer to order or accept delivery of any vehicle or vehicles, parts or accessories, or any other commodities which have not been voluntarily ordered by the vehicle dealer: PROVIDED, That recommendation, endorsement, exposition, persuasion, urging, or argument are not deemed to constitute coercion;

(b) Cancel or fail to renew the franchise or selling agreement of any vehicle dealer doing business in this state without fairly compensating the dealer at a fair going business value for his or her capital investment which shall include but not be limited to tools, equipment, and parts inventory possessed by the dealer on the day he or she is notified of such cancellation or termination and which are still within the dealer's possession on the day the cancellation or termination is effective, if: (i) The capital investment has been entered into with reasonable and prudent business judgment for the purpose of fulfilling the franchise; and (ii) the cancellation or nonrenewal was not done in good faith. Good faith is defined as the duty of each party to any franchise to act in a fair and equitable manner towards each other, so as to guarantee one party freedom from coercion, intimidation, or threats of coercion or intimidation from the other party: PROVIDED, That recommendation, endorsement, exposition, persuasion, urging, or argument are not deemed to constitute a lack of good faith;

(c) Encourage, aid, abet, or teach a vehicle dealer to sell or lease vehicles through any false, deceptive, or misleading sales or financing practices including but not limited to those practices declared unlawful in this section;

(d) Coerce or attempt to coerce a vehicle dealer to engage in any practice forbidden in this section by either threats of actual cancellation or failure to renew the dealer's franchise agreement;

(e) Refuse to deliver any vehicle publicly advertised for immediate delivery to any duly licensed vehicle dealer having a franchise or contractual agreement for the retail sale or lease of new and unused vehicles sold or distributed by such manufacturer within sixty days after such dealer's order has been received in writing unless caused by inability to deliver because of shortage or curtailment of material, labor, transportation, or utility services, or by any labor or production difficulty, or by any cause beyond the reasonable control of the manufacturer;

(f) To provide under the terms of any warranty that a purchaser or lessee of any new or unused vehicle that has been

sold or leased, distributed for sale or lease, or transferred into this state for resale or lease by the vehicle manufacturer may only make any warranty claim on any item included as an integral part of the vehicle against the manufacturer of that item.

Nothing in this section may be construed to impair the obligations of a contract or to prevent a manufacturer, distributor, representative, or any other person, whether or not licensed under this chapter, from requiring performance of a written contract entered into with any licensee hereunder, nor does the requirement of such performance constitute a violation of any of the provisions of this section if any such contract or the terms thereof requiring performance, have been freely entered into and executed between the contracting parties. This paragraph and subsection (14)(b) of this section do not apply to new motor vehicle manufacturers governed by chapter 46.96 RCW.

(15) Unlawful transfer of an ownership interest in a motor vehicle as defined in RCW 19.116.050.

(16) To knowingly and intentionally engage in collusion with a registered owner of a vehicle to repossess and return or resell the vehicle to the registered owner in an attempt to avoid a suspended license impound under chapter 46.55 RCW. However, compliance with chapter 62A.9A RCW in repossessing, selling, leasing, or otherwise disposing of the vehicle, including providing redemption rights to the debtor, is not a violation of this section. **47.01.011 Legislative declaration.** The legislature hereby recognizes the following imperative needs within the state: To create a statewide transportation development plan which identifies present status and sets goals for the future; to coordinate transportation modes; to promote and protect land use programs required in local, state, and federal law; to coordinate transportation with the economic development of the state; to supply a broad framework in which regional, metropolitan, and local transportation needs can be related; to facilitate the supply of federal and state aid to those areas which will most benefit the state as a whole; to provide for public involvement in the transportation planning and development process; to administer programs within the jurisdiction of this title relating to the safety of the state's transportation system.

tems; and to coordinate and implement national transportation policy with the state transportation planning program.

The legislature finds and declares that placing all elements of transportation in a single department is fully consistent with and shall in no way impair the use of moneys in the motor vehicle fund exclusively for highway purposes.

Through this chapter, a unified department of transportation is created. To the jurisdiction of this department will be transferred the present powers, duties, and functions of the department of highways, the highway commission, the toll bridge authority, the aeronautics commission, and the canal commission, and the transportation related powers, duties, and functions of the \*planning and community affairs agency. The powers, duties, and functions of the department of transportation must be performed in a manner consistent with the policy goals set forth in RCW 47.04.280. [2007 c 516 § 2; 1977 ex.s. c 151 § 1.]

**\*Reviser's note:** "Planning and community affairs agency" means "department of community, trade, and economic development," but the name is retained here for historical purposes.

**Findings—Intent—2007 c 516:** "The legislature finds and declares that the citizens of the state expect clear and concise goals, objectives, and responsibilities regarding the operation of the statewide transportation system. Furthermore, the state's citizens expect that the state periodically receive clear and streamlined information that measures whether the goals and objectives are being satisfied. Therefore, it is the intent of the legislature that this act serve to clarify existing goals, objectives, and responsibilities related to the operation of an efficient statewide transportation system." [2007 c 516 § 1.]

**47.01.012 Recodified as RCW 47.04.280.** See Supplementary Table of Disposition of Former RCW Sections, this volume.

**47.01.071 Commission—Functions, powers, and duties.** The transportation commission shall have the following functions, powers, and duties:

(1) To propose policies to be adopted by the governor and the legislature designed to assure the development and maintenance of a comprehensive and balanced statewide transportation system which will meet the needs of the people of this state for safe and efficient transportation services. Wherever appropriate, the policies shall provide for the use of integrated, intermodal transportation systems. The policies must be aligned with the goals established in RCW 47.04.280. To this end the commission shall:

(a) Develop transportation policies which are based on the policies, goals, and objectives expressed and inherent in existing state laws;

(b) Inventory the adopted policies, goals, and objectives of the local and area-wide governmental bodies of the state and define the role of the state, regional, and local governments in determining transportation policies, in transportation planning, and in implementing the state transportation plan;

(c) Establish a procedure for review and revision of the state transportation policy and for submission of proposed changes to the governor and the legislature; and

(d) Integrate the statewide transportation plan with the needs of the elderly and persons with disabilities, and coordinate federal and state programs directed at assisting local governments to answer such needs;

(2) To provide for the effective coordination of state transportation planning with national transportation policy, state and local land use policies, and local and regional transportation plans and programs;

(3) In conjunction with the provisions under RCW 47.01.075, to provide for public involvement in transportation designed to elicit the public's views both with respect to adequate transportation services and appropriate means of minimizing adverse social, economic, environmental, and energy impact of transportation programs;

(4) By December 2010, to prepare a comprehensive and balanced statewide transportation plan consistent with the state's growth management goals and based on the transportation policy goals provided under RCW 47.04.280 and applicable state and federal laws. The plan must reflect the priorities of government developed by the office of financial management and address regional needs, including multimodal transportation planning. The plan must, at a minimum: (a) Establish a vision for the development of the statewide transportation system; (b) identify significant statewide transportation policies and strategies to the legislature to fulfill the requirements of subsection (1) of this section. The plan must be the product of an ongoing process that involves representatives of significant transportation interests and the general public from across the state. Every four years, the plan shall be reviewed and revised, and submitted to the governor and the house of representatives and senate standing committees on transportation.

The plan shall take into account federal law and regulations relating to the planning, construction, and operation of transportation facilities;

(5) By December 2007, the office of financial management shall submit a baseline report on the progress toward attaining the policy goals under RCW 47.04.280 in the 2005-2007 fiscal biennium. By October 1, 2008, beginning with the development of the 2009-2011 biennial transportation budget, and by October 1st biennially thereafter, the office of financial management shall submit to the legislature and the governor a report on the progress toward the attainment by state transportation agencies of the state transportation policy goals and objectives prescribed by statute, appropriation, and governor directive. The report must, at a minimum, include the degree to which state transportation programs have progressed toward the attainment of the policy goals established under RCW 47.04.280, as measured by the objectives and performance measures established by the office of financial management under RCW 47.04.280;

(6) To propose to the governor and the legislature prior to the convening of each regular session held in an odd-numbered year a recommended budget for the operations of the commission as required by RCW 47.01.061;

(7) To adopt such rules as may be necessary to carry out reasonably and properly those functions expressly vested in the commission by statute;

(8) To contract with the office of financial management or other appropriate state agencies for administrative support, accounting services, computer services, and other support services necessary to carry out its other statutory duties;

At least every five years, the commission shall convene regional forums to gather citizen input on transportation issues. The commission shall consider the input gathered at the forums as it establishes the statewide transportation plan under RCW 47.01.071(4).

(2) In fulfilling its responsibilities under this section, the commission may create ad hoc committees or other such committees of limited duration as necessary.

(3) In order to promote a better transportation system, the commission may offer policy guidance and make recommendations to the governor and the legislature in key issue areas, including but not limited to:

- (a) Transportation finance;
- (b) Preserving, maintaining, and operating the statewide transportation system;
- (c) Transportation infrastructure needs;
- (d) Promoting best practices for adoption and use by transportation-related agencies and programs;
- (e) Transportation efficiencies that will improve service delivery and/or coordination;
- (f) Improved planning and coordination among transportation agencies and providers; and
- (g) Use of intelligent transportation systems and other technology-based solutions. [2007 c 516 § 5; 2006 c 334 § 4; 2005 c 319 § 6.]

**Transfers—2005 c 319:** "(1)(a) All reports, documents, surveys, books, records, files, papers, or written material relating to the conduct of performance reviews and audits in the possession of the legislative transportation committee must be delivered to the custody of the transportation commission. Any remaining documents, books, records, files, papers, and written materials must be delivered to the custody of the joint transportation committee. All funds, credits, or other assets held by the legislative transportation committee for the purposes of staffing the transportation performance audit board are assigned to the transportation commission. Any remaining funds, credits, or other assets held by the legislative transportation committee are assigned to the joint transportation committee.

(b) If any question arises as to the transfer of any funds, books, documents, records, papers, files, equipment, or other tangible property used or held in the exercise of the powers and the performance of the duties and functions transferred, the director of financial management shall make a determination as to the proper allocation and certify the same to the state agencies concerned.

(2) All employees of the legislative transportation committee are transferred to the jurisdiction of the transportation commission for the support of the transportation performance audit board. However, the commission may,

if staffing needs warrant, assign the employees to other commission functions." [2005 c 319 § 15.]

**Findings—Intent—Part headings—Effective dates—2005 c 319:** See notes following RCW 43.17.020.

**47.01.078 Transportation system policy goals—Duties.** To support achievement of the policy goals described in RCW 47.04.280, the department shall:

- (1) Maintain an inventory of the condition of structures and corridors in most urgent need of retrofit or rehabilitation;
- (2) Develop long-term financing tools that reliably provide ongoing maintenance and preservation of the transportation infrastructure;
- (3) Balance system safety and convenience through all phases of a project to accommodate all users of the transportation system to safely, reliably, and efficiently provide mobility to people and goods;
- (4) Develop strategies to gradually reduce the per capita vehicle miles traveled based on consideration of a range of reduction methods;
- (5) Consider efficiency tools, including high-occupancy vehicle and high-occupancy toll lanes, corridor-specific and systemwide pricing strategies, active traffic management, commute trip reduction, and other demand management tools;
- (6) Promote integrated multimodal planning; and
- (7) Consider engineers and architects to design environmentally sustainable, context-sensitive transportation systems. [2007 c 516 § 6.]

**Findings—Intent—2007 c 516:** See note following RCW 47.01.011.

**47.01.350 Ferry grant program.** (1) The department of transportation shall establish a ferry grant program subject to availability of amounts appropriated for this specific purpose. The purpose of the grant program is to provide operating or capital grants for ferry systems as provided in chapters 36.54 and 36.57A RCW to operate passenger-only ferry service.

(2) In providing grants under this section, the department may enter into multiple year contracts with the stipulation that future year allocations are subject to the availability of funding as provided by legislative appropriation. [2007 c 223 § 2; 2006 c 332 § 4.]

#### 47.01.390 Alaskan Way viaduct, Seattle Seawall, and state route No. 520 improvements—Requirements—

**Exceptions.** (1) Prior to commencing construction on either project, the department of transportation must complete all of the following requirements for both the Alaskan Way viaduct and Seattle Seawall replacement project, and the state route number 520 bridge replacement and HOV project: (a) In accordance with the national environmental policy act, the department must designate the preferred alternative, prepare a substantial project mitigation plan, and complete a comprehensive cost estimate review using the department's cost estimate validation process, for each project; (b) in accordance with all applicable federal highway administration planning

and project management requirements, the department must prepare a project finance plan for each project that clearly identifies secured and anticipated fund sources, cash flow timing requirements, and project staging and phasing plans if applicable; and (c) the department must report these results for each project to the joint transportation committee.

(2) The requirements of this section shall not apply to (a) utility relocation work, and related activities, on the Alaskan Way viaduct and Seattle Seawall replacement project and (b) off-site pontoon construction supporting the state route number 520 bridge replacement and HOV project.

(3) The requirements of subsection (1) of this section shall not apply during the 2007-2009 fiscal biennium. [2007 c 518 § 705; 2006 c 311 § 27.]

**Severability—Effective date—2007 c 518:** See notes following RCW 46.68.170.

**Findings—2006 c 311:** See note following RCW 36.120.020.

**47.01.405 State route No. 520 improvements—Project impact plan—Mediator, duties.** (1) As soon as practicable after May 15, 2007, and after consulting with the city of Seattle, the office of financial management shall hire a mediator, and appropriate planning staff, including urban, transportation, and neighborhood planners, to develop a state route number 520 project impact plan for addressing the impacts of the state route number 520 bridge replacement and HOV project design on Seattle city neighborhoods, parks, including the Washington park arboretum, and institutions of higher education. The mediator must have significant professional experience in working with communities that surround major transportation construction projects, and mitigating the impacts of those transportation projects on those communities. The office of financial management shall hire the mediator and the planning staff within existing appropriations allocated for the state route number 520 bridge replacement and HOV project. The position of mediator under this section is not considered a certified or legally binding position.

(2) The mediator's responsibility to develop a project impact plan is highly time sensitive. As a result, competitive bidding is not cost-effective or appropriate for personal service contracts to hire the mediator. The director of the office of financial management shall, by the director's authority under RCW 39.29.011(5), exempt any such personal service contract from the competitive bidding requirements of chapter 39.29 RCW.

(3) In evaluating the project impacts, the mediator must consider the concerns of neighborhoods and institutions of higher education directly impacted by the proposed design, establish a process that incorporates interest-based negotiation, and work with the appropriate planning staff to develop mitigation recommendations related to the project design. The mediator shall work to ensure that the project impact plan provides a comprehensive approach to mitigating the impacts of the project, including incorporating construction mitigation plans.

(4) The ultimate goal of the mediation and planning process established in subsection (1) of this section is to develop a project impact plan agreed to by all appropriate parties including, but not limited to, those parties listed in subsection (6) of this section. The project impact plan must be consistent with RCW 47.01.380, and must support and be consistent

with the approved purpose and need statement for the project, which is: "The purpose of the project is to improve mobility for people and goods across Lake Washington within the SR 520 corridor from Seattle to Redmond in a manner that is safe, reliable, and cost-effective while avoiding, minimizing, and/or mitigating impacts on the affected neighborhoods and the environment." The mediator must strive to develop a consensus-based plan. In the event that the mediation process does not result in consensus, the mediator shall submit a project impact plan to the governor and the joint transportation committee that reflects the views of the majority of the mediation participants.

(5) The process established in subsection (1) of this section shall result in a project design that provides six total lanes, with four general purpose lanes and two lanes that are for high-occupancy vehicle travel that could also accommodate high capacity transportation. The bridge shall also be designed to accommodate light rail in the future and to support a bus rapid transit system. Additionally, the mediator shall strive to develop a project impact plan within the constraints of the range of estimated project costs as of May 1, 2007.

(6)(a) In performing the duties of this section, and consistent with the governor's findings and conclusions, dated December 15, 2006, the mediator shall work with interested parties directly affected by the state route number 520 bridge replacement and HOV project including, but not limited to, at least the following:

- (i) Representation from each neighborhood directly impacted by the project;
  - (ii) Representation from local governments on both ends of the bridge directly impacted by the project;
  - (iii) Representation from King county;
  - (iv) Representation from the Washington park arboretum;
  - (v) Representation from the University of Washington; and
  - (vi) Representation from sound transit.
- (b) The mediator shall also work with the department and others as necessary.

(c) Before the mediator may submit the project impact plan, it must be reviewed by the mayor of Seattle and the Seattle city council. The project impact plan must reflect whether the mayor and council concur or do not concur with the plan and include an explanation regarding their positions.

(7) Until December 1, 2008, the mediator must provide periodic reports to the joint transportation committee and the governor regarding the status of the project impact plan development process. The mediator must submit a progress report to the joint transportation committee and the governor by August 1, 2007. The mediator must submit a final project impact plan to the governor and legislature by December 1, 2008. [2007 c 517 § 2.]

**Finding—2007 c 517:** "The legislature finds that the replacement of the vulnerable state route number 520 corridor is a matter of urgency for the safety of Washington's traveling public and the needs of the transportation system in central Puget Sound. The state route number 520 floating bridge is susceptible to damage, closure, or even catastrophic failure from earthquakes, windstorms, and waves. Additionally, the bridge serves as a vital route for vehicles to cross Lake Washington, carrying over three times its design capacity in traffic, resulting in more than seven hours of congestion per day.

Therefore, it is the conclusion of the legislature that time is of the essence, and that Washington state cannot wait for a disaster to make it fully appreciate the urgency of the need to replace this vulnerable structure. The state must take the necessary steps to move forward with a state route number 520 bridge replacement project design that provides six total lanes, with four general purpose lanes and two lanes that are for high-occupancy vehicle travel that could also accommodate high capacity transportation, and the bridge shall also be designed to accommodate light rail in the future. High-occupancy vehicle lanes in the state route 520 corridor must also be able to support a bus rapid transit system." [2007 c 517 § 1.]

**Severability—2007 c 517:** "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [2007 c 517 § 8.]

**Effective date—2007 c 517:** "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately [May 15, 2007]." [2007 c 517 § 9.]

**47.01.406 State route No. 520 improvements—Review of project design plans—Goals.** In developing the state route number 520 project impact plan provided in RCW 47.01.405, the mediator and associated planning staff shall review the department's project design plans in the draft environmental impact statement for conformance with the following legislative goals regarding the final design for the state route number 520 bridge replacement and HOV project:

(1) Minimize the total footprint and width of the bridge, and seek appropriate federal design variances to safety and mobility standards, while complying with other federal laws;

(2) Minimize the project impact on surrounding neighborhoods, including incorporation of green lids and connectors, and minimize any increases in additional traffic volumes through the Washington park arboretum and other adjacent neighborhoods;

(3) Incorporate the recommendations of a health impact assessment to calculate the project's impact on air quality, carbon emissions, and other public health issues, conducted by the Puget Sound clean air agency and King county public health;

(4) Ensure that the ultimate project configuration effectively prioritizes maintaining travel time, speed, and reliability on the two high-occupancy vehicle lanes; and

(5) Clearly articulate in required environmental documents the alignment of the selected preferred alternative for the state route number 520 bridge replacement and HOV project and the footprint of the project and the affected areas. [2007 c 517 § 3.]

**Finding—Severability—Effective date—2007 c 517:** See notes following RCW 47.01.405.

**47.01.410 State route No. 520 improvements—Multimodal transportation plan.** As part of the state route number 520 bridge replacement and HOV project, the governor's office shall work with the department, sound transit, King county metro, and the University of Washington, to plan for high capacity transportation in the state route number 520 corridor. The parties shall jointly develop a multimodal transportation plan that ensures the effective and efficient coordination of bus services and light rail services throughout the state route number 520 corridor. The plan shall include alternatives for a multimodal transit station that serves the state route number 520 - Montlake interchange vicinity, and mitigation of impacts on affected parties. The high capacity

transportation planning work must be closely coordinated with the state route number 520 bridge replacement and HOV project's environmental planning process, and must be completed within the current funding for the project. A draft plan must be submitted to the governor and the joint transportation committee by October 1, 2007. A final plan must be submitted to the governor and the joint transportation committee by December 2008. [2007 c 517 § 6.]

**Finding—Severability—Effective date—2007 c 517:** See notes following RCW 47.01.405.

**47.01.415 State route No. 520 improvements—Finance plan.** The state route number 520 bridge replacement and HOV project finance plan must include state funding, federal funding, at least one billion dollars in regional contributions, and revenue from tolling. The department must provide a proposed finance plan to be tied to the estimated cost of the recommended project solutions, as provided under RCW 47.01.406, to the governor and the joint transportation committee by January 1, 2008. [2007 c 517 § 7.]

**Finding—Severability—Effective date—2007 c 517:** See notes following RCW 47.01.405.

**47.01.420 Naming and renaming state transportation facilities.** (1) The commission may name or rename state transportation facilities including, but not limited to: State highways; state highway bridges, structures, and facilities; state rest areas; and state roadside facilities, such as viewpoints. The commission must consult with the department before taking final action to name or rename a state transportation facility.

(2)(a) The department, state and local governmental entities, citizen organizations, and any person may initiate the process to name or rename a state transportation facility.

(b) For the commission to consider a naming or renaming proposal, the requesting entity or person must provide sufficient evidence, as determined by the commission, indicating community support and acceptance of the proposal. Evidence may include the following:

(i) Letters of support from state and federal legislators representing the impacted area encompassing the state transportation facility;

(ii) Resolutions passed by local, publicly elected bodies in the impacted area encompassing the state transportation facility;

(iii) Department support; or

(iv) Supportive actions by or letters from local organizations including, but not limited to, local chambers of commerce and service clubs.

(3) After the commission takes final action in naming or renaming a state transportation facility, the department shall design and install the appropriate signs in accordance with state and federal standards. [2007 c 33 § 1.]

**47.01.430 Wounded combat veterans internship program.** Subject to the availability of amounts appropriated for this specific purpose, the department shall establish an internship program for returning wounded combat veterans. The purpose of the program is to assist returning wounded combat veterans by matching them with jobs within the department

that require their military skill sets and would be of benefit to the department, or that would teach them new skills. The jobs may include, but are not limited to, the following classifications: Engineering; construction trades; logistics; and project planning. The emphasis of the program should be to assist veterans who served in southern or central Asia, Operation Enduring Freedom; and the Persian Gulf, Operation Iraqi Freedom. This program may assist with the placement of wounded combat veterans as apprentices under RCW 39.04.320. The department may adopt rules under chapter 34.05 RCW to implement the requirements of this section. For the purposes of this section, "veteran" has the same meaning as in RCW 41.04.005. [2007 c 92 § 1.]

47.04.280 Transportation system policy goals.

**47.04.280 Transportation system policy goals.** (1) It is the intent of the legislature to establish policy goals for the planning, operation, performance of, and investment in, the state's transportation system. The policy goals established under this section are deemed consistent with the benchmark categories adopted by the state's blue ribbon commission on transportation on November 30, 2000. Public investments in transportation should support achievement of these policy goals:

(a) Preservation: To maintain, preserve, and extend the life and utility of prior investments in transportation systems and services;

(b) Safety: To provide for and improve the safety and security of transportation customers and the transportation system;

(c) Mobility: To improve the predictable movement of goods and people throughout Washington state;

(d) Environment: To enhance Washington's quality of life through transportation investments that promote energy conservation, enhance healthy communities, and protect the environment; and

(e) Stewardship: To continuously improve the quality, effectiveness, and efficiency of the transportation system.

(2) The powers, duties, and functions of state transportation agencies must be performed in a manner consistent with the policy goals set forth in subsection (1) of this section.

(3) These policy goals are intended to be the basis for establishing detailed and measurable objectives and related performance measures.

(4) It is the intent of the legislature that the office of financial management establish objectives and performance measures for the department of transportation and other state agencies with transportation-related responsibilities to ensure transportation system performance at local, regional, and state government levels progresses toward the attainment of the policy goals set forth in subsection (1) of this section. The office of financial management shall submit initial objectives and performance measures to the legislature for its review and shall provide copies of the same to the commission during the 2008 legislative session. The office of finan-

cial management shall submit objectives and performance measures to the legislature for its review and shall provide copies of the same to the commission during each regular session of the legislature during an even-numbered year thereafter.

(5) This section does not create a private right of action. [2007 c 516 § 3; 2002 c 5 § 101. Formerly RCW 47.01.012.]

The proposed ten-year investment program must be forwarded as a recommendation by the office of financial management to the legislature, and must be based upon the needs identified in the statewide transportation plan established under RCW 47.01.071(4).

(2) The preservation program consists of those investments necessary to preserve the existing state highway system and to restore existing safety features, giving consideration to lowest life cycle costing.

(3) The improvement program consists of investments needed to address identified deficiencies on the state highway system to meet the goals established in RCW 47.04.280. investments based on the best mode or improvement, or mix of modes and improvements, to meet current and future long-term demand within a corridor or system for the lowest cost. The end result of these demand modeling tools is to provide a cost-benefit analysis by which the department can determine the relative mobility improvement and congestion relief each mode or improvement under consideration will provide and the relative investment each mode or improvement under consideration will need to achieve that relief.

(2) The department will participate in the refinement, enhancement, and application of existing transportation demand modeling tools to be used to evaluate investments. This participation and use of transportation demand modeling tools will be phased in. 47.06.030	Repealed.
47.06.050	State-owned facilities component.
47.06.140	Transportation facilities and services of statewide significance—Level of service standards.

**47.06.020 Role of department.** The specific role of the department in transportation planning must be, consistent with the policy goals described under RCW 47.04.280: (1) Ongoing coordination and development of statewide transportation policies that guide all Washington transportation providers; (2) ongoing development of a statewide multimodal transportation plan that includes both state-owned and state-interest facilities and services; (3) coordinating the state high-capacity transportation planning and regional transportation planning programs; (4) conducting special transportation planning studies that impact state transportation facilities or relate to transportation facilities and services of statewide significance; and (5) assisting the transportation commission in the development of the statewide transportation plan required under RCW 47.01.071(4). Specific requirements for each of these state transportation planning components are described in this chapter. [2007 c 516 § 9; 1993 c 446 § 2.]

**Findings—Intent—2007 c 516:** See note following RCW 47.01.011.

**47.06.030 Repealed.** See Supplementary Table of Disposition of Former RCW Sections, this volume.

**47.06.050 State-owned facilities component.** The state-owned facilities component of the statewide multimodal transportation plan shall consist of:

(1) The state highway system plan, which identifies program and financing needs and recommends specific and financially realistic improvements to preserve the structural integrity of the state highway system, ensure acceptable operating conditions, and provide for enhanced access to scenic, recreational, and cultural resources. The state highway system plan shall contain the following elements:

(a) A system preservation element, which shall establish structural preservation objectives for the state highway system including bridges, identify current and future structural deficiencies based upon analysis of current conditions and projected future deterioration, and recommend program funding levels and specific actions necessary to preserve the structural integrity of the state highway system consistent with adopted objectives. Lowest life cycle cost methodologies must be used in developing a pavement management system. This element shall serve as the basis for the preservation component of the six-year highway program and the two-year biennial budget request to the legislature;

(b) A highway maintenance element, establishing service levels for highway maintenance on state-owned highways. The highway maintenance element must include an estimate of costs for achieving those service levels over twenty years. This element will serve as the basis for the maintenance component of the six-year highway program and the two-year biennial budget request to the legislature;

(c) A capacity and operational improvement element, which shall establish operational objectives, including safety considerations, for moving people and goods on the state highway system, identify current and future capacity, operational, and safety deficiencies, and recommend program funding levels and specific improvements and strategies necessary to achieve the operational objectives. In developing capacity and operational improvement plans the department shall first assess strategies to enhance the operational efficiency of the existing system before recommending system expansion. Strategies to enhance the operational efficiencies include but are not limited to access management, transportation system management, demand management, and high-occupancy vehicle facilities. The capacity and operational improvement element must conform to the state implementation plan for air quality and be consistent with regional transportation plans adopted under chapter 47.80 RCW, and shall serve as the basis for the capacity and operational improvement portions of the six-year highway program and the two-year biennial budget request to the legislature;

(d) A scenic and recreational highways element, which shall identify and recommend designation of scenic and recreational highways, provide for enhanced access to scenic, recreational, and cultural resources associated with designated routes, and recommend a variety of management strategies to protect, preserve, and enhance these resources. The department, affected counties, cities, and towns, regional transportation planning organizations, and other state or federal agencies shall jointly develop this element;

(e) A paths and trails element, which shall identify the needs of nonmotorized transportation modes on the state transportation systems and provide the basis for the invest-

ment of state transportation funds in paths and trails, including funding provided under chapter 47.30 RCW.

(2) The state ferry system plan, which shall guide capital and operating investments in the state ferry system. The plan shall establish service objectives for state ferry routes, forecast travel demand for the various markets served in the system, develop strategies for ferry system investment that consider regional and statewide vehicle and passenger needs, support local land use plans, and assure that ferry services are fully integrated with other transportation services. The plan must provide for maintenance of capital assets. The plan must also provide for preservation of capital assets based on lowest life cycle cost methodologies. The plan shall assess the role of private ferries operating under the authority of the utilities and transportation commission and shall coordinate ferry system capital and operational plans with these private operations. The ferry system plan must be consistent with the regional transportation plans for areas served by the state ferry system, and shall be developed in conjunction with the ferry advisory committees. [2007 c 516 § 10; 2002 c 5 § 413; 1993 c 446 § 5.]

**Findings—Intent—2007 c 516:** See note following RCW 47.01.011.

**Finding—Intent—2002 c 5:** "The legislature finds that roads, streets, bridges, and highways in the state represent public assets worth over one hundred billion dollars. These investments require regular maintenance and preservation, or rehabilitation, to provide cost-effective transportation services. Many of these facilities are in poor condition. Given the magnitude of public investment and the importance of safe, reliable roadways to the motoring public, the legislature intends to create stronger accountability to ensure that cost-effective maintenance and preservation is provided for these transportation facilities." [2002 c 5 § 408.]

**Captions not law—Severability—2002 c 5:** See notes following RCW 47.01.012.

**47.06.140 Transportation facilities and services of statewide significance—Level of service standards.** (1) The legislature declares the following transportation facilities and services to be of statewide significance: Highways of statewide significance as designated by the legislature under chapter 47.05 RCW, the interstate highway system, interregional state principal arterials including ferry connections that serve statewide travel, intercity passenger rail services, intercity high-speed ground transportation, major passenger intermodal terminals excluding all airport facilities and services, the freight railroad system, the Columbia/Snake navigable river system, marine port facilities and services that are related solely to marine activities affecting international and interstate trade, and high-capacity transportation systems serving regions as defined in RCW 81.104.015. The department, in cooperation with regional transportation planning organizations, counties, cities, transit agencies, public ports, private railroad operators, and private transportation providers, as appropriate, shall plan for improvements to transportation facilities and services of statewide significance in the statewide multimodal transportation plan. Improvements to facilities and services of statewide significance identified in the statewide multimodal transportation plan, or to highways of statewide significance designated by the legislature under chapter 47.05 RCW, are essential state public facilities under RCW 36.70A.200.

(2) The department of transportation, in consultation with local governments, shall set level of service standards

for state highways and state ferry routes of statewide significance. Although the department shall consult with local governments when setting level of service standards, the department retains authority to make final decisions regarding level of service standards for state highways and state ferry routes of statewide significance. In establishing level of service standards for state highways and state ferry routes of statewide significance, the department shall consider the necessary balance between providing for the free interjurisdictional movement of people and goods and the needs of local communities using these facilities. When setting the level of service standards under this section for state ferry routes, the department may allow for a standard that is adjustable for seasonality. [2007 c 516 § 11; 2007 c 512 § 2; 1998 c 171 § 7.]

**Reviser's note:** This section was amended by 2007 c 512 § 2 and by 2007 c 516 § 11, each without reference to the other. Both amendments are incorporated in the publication of this section under RCW 1.12.025(2). For rule of construction, see RCW 1.12.025(1).

**Findings—Intent—2007 c 516:** See note following RCW 47.01.011.

**Finding—Intent—2007 c 512:** "The legislature finds from the 2006 Washington state ferries financing study that the state has limited information on state ferry users and markets. Accurate user and market information is vital in order to find ways to maximize the ferry systems' current capacity and to make the most efficient use of citizens' tax dollars. Therefore, it is the intent of the legislature that Washington state ferries be given the tools necessary to maximize the utilization of existing capacity and to make the most efficient use of existing assets and tax dollars. Furthermore, it is the intent of the legislature that the department of transportation adopt adaptive management practices in its operating and capital programs so as to keep the costs of the Washington state ferries system as low as possible while continuously improving the quality and timeliness of service." **47.06B.010 Finding—Intent. (*Effective until June 30, 2011.*)** The legislature finds that transportation systems for persons with special needs are not operated as efficiently as possible. In too many cases, programs established by the legislature to assist persons with special needs can not be accessed due to these inefficiencies and coordination barriers.

It is the intent of the legislature that public transportation agencies, pupil transportation programs, private nonprofit transportation providers, and other public agencies sponsoring programs that require transportation services coordinate those transportation services. Through coordination of transportation services, programs will achieve increased efficiencies and will be able to provide more rides to a greater num-

ber of persons with special needs. [2007 c 421 § 1; 1999 c 385 § 1; 1998 c 173 § 1.]

**47.06B.015 Repealed.** See Supplementary Table of Disposition of Former RCW Sections, this volume.

**47.06B.020 Agency council on coordinated transportation—Creation, membership, staff, meetings. (Effective until June 30, 2011.)** (1) The agency council on coordinated transportation is created. The council is composed of ten voting members and four nonvoting, legislative members.

(b) Three persons who are consumers of special needs transportation services, which must include:

(i) One person designated by the executive director of the governor's committee on disability issues and employment; and

(ii) One person who is designated by the executive director of the developmental disabilities council;

(c) One representative from the Washington association of pupil transportation;

(d) One representative from the Washington state transit association; and

(e) One of the following:

(i) A representative from the community transportation association of the Northwest; or

(ii) A representative from the community action council association.

(3) The four nonvoting members are legislators as follows:

(a) Two members from the house of representatives, one from each of the two largest caucuses, appointed by the speaker of the house of representatives, including at least one member from the house transportation policy and budget committee or the house appropriations committee; and

(b) Two members from the senate, one from each of the two largest caucuses, appointed by the president of the senate, including at least one member from the senate transportation committee or the senate ways and means committee.

(4) Gubernatorial appointees of the council will serve two-year terms. Members may not receive compensation for their service on the council, but will be reimbursed for actual and necessary expenses incurred in performing their duties as members as set forth in RCW 43.03.220.

(5) The secretary of transportation or a designee shall serve as the chair.

(6) The department of transportation shall provide necessary staff support for the council.

(7) The council may receive gifts, grants, or endowments from public or private sources that are made from time to time, in trust or otherwise, for the use and benefit of the purposes of the council and spend gifts, grants, or endowments or income from the public or private sources according to their terms, unless the receipt of the gifts, grants, or endowments violates RCW 42.17.710.

(8) The meetings of the council must be open to the public, with the agenda published in advance, and minutes kept and made available to the public. The public notice of the meetings must indicate that accommodations for persons with disabilities will be made available upon request.

(10) The council shall make an effort to include presentations by and work sessions including persons with special transportation needs. [2007 c 421 § 2; 1998 c 173 § 2.]

**47.06B.030 Council—Duties. (Effective until June 30, 2011.)** (1) To assure implementation of an effective system of coordinated transportation that meets the needs of persons with special transportation needs, the agency council on coordinated transportation shall adopt a biennial work plan that must, at a minimum:

(a) Focus on projects that identify and address barriers in laws, policies, and procedures;

(b) Focus on results; and

(c) Identify and advocate for transportation system improvements for persons with special transportation needs.

(2) The council shall, as necessary, convene work groups at the state, regional, or local level to develop and implement coordinated approaches to special needs transportation.

(3) To improve the service experienced by persons with special transportation needs, the council shall develop statewide guidelines for customer complaint processes so that information about policies regarding the complaint processes is available consistently and consumers are appropriately educated about available options. To be eligible for funding on or after January 1, 2008, organizations applying for state paratransit/special needs grants as described in section 226(1), chapter 370, Laws of 2006 must implement a process following the guidelines established by the council.

(4) The council shall represent the needs and interests of persons with special transportation needs in statewide efforts for emergency and disaster preparedness planning by advising the emergency management council on how to address transportation needs for high-risk individuals during and after disasters. [2007 c 421 § 3. Prior: 1999 c 385 § 5; (1999 c 372 § 13 repealed by 2007 c 421 § 10); 1998 c 173 § 3.]

**47.06B.040 Council—Certification of regional transportation planning organization local plans. (Effective until June 30, 2011.)** The agency council on coordinated transportation shall review and recommend certification of local plans developed by regional transportation planning organizations based on meeting federal requirements. Each regional transportation planning organization must submit to the council an updated plan that includes the elements, consistent with federal planning requirements, identified by the council beginning on July 1, 2007, and every four years thereafter.

Each regional transportation planning organization must submit to the council every two years a prioritized regional human service and transportation project list. [2007 c 421 § 4; 1999 c 385 § 6.]

**47.06B.050 Council—Progress report.** (*Effective until June 30, 2011.*) The agency council on coordinated transportation shall submit a progress report on council activities to the legislature by December 1, 2009, and every other year thereafter. [2007 c 519 § 1; 1999 sp.s. c 2 § 1; 1993 c 431 § 1.]

**47.10.813 Administration and amount of sale.** Upon the request of the secretary of transportation, the state finance committee shall supervise and provide for the issuance, sale, and retirement of the bonds authorized by RCW 47.10.812 through 47.10.817 in accordance with chapter 39.42 RCW. Bonds authorized by RCW 47.10.812 through 47.10.817 shall be sold in such manner, at such time or times, in such amounts, and at such price as the state finance committee shall determine. out prior legislative appropriation of the net proceeds of the sale of the bonds.

The state finance committee shall consider the issuance of short-term obligations in lieu of long-term obligations for the purposes of more favorable interest rates, lower total interest costs, and increased marketability and for the purpose of retiring the bonds during the life of the project for which they were issued. [2007 c 519 § 2; 1993 c 431 § 2.]

**47.10.861 Bond issue authorized.** In order to provide funds necessary for the location, design, right-of-way, and construction of selected projects or improvements that are identified as transportation 2003 projects or improvements in the omnibus transportation budget, there shall be issued and sold upon the request of the secretary of the department of transportation a total of three billion two hundred million dollars of general obligation bonds of the state of Washington. [2007 c 519 § 3; 2006 c 334 § 31; 2003 c 147 § 1.]

**Effective date—2003 c 147:** "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect July 1, 2003." [2003 c 147 § 16.]

**47.10.873 Bond issue authorized.** In order to provide funds necessary for the location, design, right-of-way, and construction of selected projects or improvements that are identified as 2005 transportation partnership projects or improvements in the omnibus transportation budget chapter 313, Laws of 2005, there shall be issued and sold upon the request of the department of transportation a total of five billion three hundred million dollars of general obligation bonds of the state of Washington. [2007 c 519 § 4; 2005 c 315 § 1.]

**Effective date—2005 c 315:** "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect July 1, 2005." [2005 c 315 § 8.]

**47.10.877 Repayment procedure—Bond retirement fund.** Both principal and interest on the bonds issued for the purposes of RCW 47.10.873 through 47.10.878 shall be payable from the highway bond retirement fund. The state finance committee may provide that a special account be created in the fund to facilitate payment of the principal and interest. The state finance committee shall, on or before June 30th of each year, certify to the state treasurer the amount required for principal and interest on the bonds in accordance with the bond proceedings. The state treasurer shall withdraw revenues from the transportation partnership account in the motor vehicle fund and deposit in the highway bond retirement fund, or a special account in the fund, such amounts, and at such times, as are required by the bond proceedings.

Any funds required for bond retirement or interest on the bonds authorized by RCW 47.10.873 through 47.10.878 shall be taken from that portion of the motor vehicle fund that results from the imposition of excise taxes on motor vehicle and special fuels and that is distributed to the transportation partnership account in the motor vehicle fund. Funds required shall never constitute a charge against any other allocations of motor vehicle fuel and special fuel tax reve-

nues to the state, counties, cities, and towns unless the amount arising from excise taxes on motor vehicle and special fuels distributed to the transportation partnership account proves insufficient to meet the requirements for bond retirement or interest on any such bonds.

Any payments for bond retirement or interest on the bonds taken from other revenues from the motor vehicle fuel or special fuel taxes that are distributable to the state, counties, cities, and towns shall be repaid from the first revenues from the motor vehicle fuel or special fuel taxes distributed to the transportation partnership account not required for bond retirement or interest on the bonds. **MISCELLANEOUS PROJECTS**

## Sections

47.20.780 Design-build—Competitive bidding.

**47.20.780 Design-build—Competitive bidding.** The department of transportation shall develop a process for awarding competitively bid highway construction contracts for projects over ten million dollars that may be constructed using a design-build procedure. As used in this section and RCW 47.20.785, "design-build procedure" means a method of contracting under which the department of transportation contracts with another party for the party to both design and build the structures, facilities, and other items specified in the contract.

The process developed by the department must, at a minimum, include the scope of services required under the design-build procedure, contractor prequalification requirements, criteria for evaluating technical information and project costs, contractor selection criteria, and issue resolution procedures. [2007 c 152 § 1; 2001 c 226 § 2.]

**Findings—Purpose—2001 c 226:** "The legislature finds and declares that a contracting procedure that facilitates construction of transportation facilities in a more timely manner may occasionally be necessary to ensure that construction can proceed simultaneously with the design of the facility. The legislature further finds that the design-build process and other alternative project delivery concepts achieve the goals of time savings and avoidance of costly change orders.

The legislature finds and declares that a 2001 audit, conducted by Talbot, Korvola & Warwick, examining the Washington state ferries' capital program resulted in a recommendation for improvements and changes in auto ferry procurement processes. The auditors recommended that auto ferries be procured through use of a modified request for proposals process whereby the prevailing shipbuilder and Washington state ferries engage in a design and build partnership. This process promotes ownership of the design by the shipbuilder while using the department of transportation's expertise in ferry design and operations. Alternative processes like design-build partnerships can promote innovation and create competitive incentives that increase the likelihood of finishing projects on time and within the budget.

The purpose of this act is to authorize the department's use of a modified request for proposals process for procurement of auto ferries, and to prescribe appropriate requirements and criteria to ensure that contracting procedures for this procurement process serve the public interest." ## Sections

47.24.020 Jurisdiction, control.

**47.24.020 Jurisdiction, control.** The jurisdiction, control, and duty of the state and city or town with respect to such streets is as follows:

(1) The department has no authority to change or establish any grade of any such street without approval of the governing body of such city or town, except with respect to limited access facilities established by the commission;

(2) The city or town shall exercise full responsibility for and control over any such street beyond the curbs and if no curb is installed, beyond that portion of the highway used for highway purposes. However, within incorporated cities and towns the title to a state limited access highway vests in the state, and, notwithstanding any other provision of this sec-
