In case an applicant for an inspector’s appointment or commission fails to pass the examination, he may appeal to the board for another examination which shall be given by the chief within ninety days. The record of an applicant’s examination shall be accessible to said applicant and his employer. [2005 c 22 § 7; 1951 c 32 § 18.]

70.79.180 Suspension, revocation of inspector’s commission—Grounds—Reinstatement. A commission may be suspended or revoked after due investigation and recommendation by the board to the director of the department of labor and industries for the incompetence or untrustworthiness of the holder thereof, or for willful falsification of any matter or statement contained in his application or in a report of any inspection. A person whose commission has been suspended or revoked, except for untrustworthiness, shall be entitled to apply to the board for reinstatement or, in the case of a revocation, for a new examination and commission after ninety days from such revocation. [1951 c 32 § 19.]

**70.79.230 Access to premises by inspectors.** The chief inspector, or any deputy or special inspector, shall have free access, during reasonable hours, to any premises in the state where a boiler or unfired pressure vessel is being constructed, or is being installed or operated, for the purpose of ascertaining whether such boiler or unfired pressure vessel is constructed, installed and operated in accordance with the provisions of this chapter. [1951 c 32 § 17.]

**70.79.240 Inspection of boilers, unfired pressure vessels—Scope—Frequency.** Each boiler and unfired pressure vessel used or proposed to be used within this state, except boilers or unfired pressure vessels exempt in RCW 70.79.080 and 70.79.090, shall be thoroughly inspected as to their construction, installation, condition and operation, as follows:

(1) **Power boilers** shall be inspected annually both internally and externally while not under pressure, except that the board may provide for longer periods between inspections where the contents, history, or operation of the power boiler or the material of which it is constructed warrant special consideration. Power boilers shall also be inspected annually externally while under pressure if possible;

(2) Low pressure heating boilers shall be inspected both internally and externally biennially where construction will permit;

(3) Unfired pressure vessels subject to internal corrosion shall be inspected both internally and externally biennially where construction will permit, except that the board may, in its discretion, provide for longer periods between inspections;

(4) Unfired pressure vessels not subject to internal corrosion shall be inspected externally at intervals set by the board, but internal inspections shall not be required of unfired pressure vessels, the contents of which are known to be noncorrosive to the material of which the shell, head, or fittings are constructed, either from the chemical composition of the contents or from evidence that the contents are adequately treated with a corrosion inhibitor, provided that such vessels are constructed in accordance with the rules and regulations of the board or in accordance with standards substantially equivalent to the rules and regulations of the board, in effect at the time of manufacture. [1993 c 391 § 1; 1951 c 32 § 22.]

**70.79.250 Inspection—Frequency—Grace period.** In the case of power boilers a grace period of not more than two months longer than the period established by the board under RCW 70.79.240(1) may elapse between internal inspections of a boiler while not under pressure or between external inspections of a boiler while under pressure; in the case of low pressure heating boilers not more than twenty-six months shall elapse between inspections, and in the case of unfired pressure vessels not more than two months longer than the period between inspections prescribed by the board shall elapse between internal inspections. [1993 c 391 § 2; 1951 c 32 § 23.]

**70.79.260 Inspection—Frequency—Modification by rules.** The rules and regulations formulated by the board applying to the inspection of unfired pressure vessels may be modified by the board to reduce or extend the interval between required inspections where the contents of the vessel or the material of which it is constructed warrant special consideration. [1951 c 32 § 24.]

**70.79.270 Hydrostatic test.** If at any time a hydrostatic test shall be deemed necessary to determine the safety of a boiler or unfired pressure vessel, [the] same shall be made, at the discretion of the inspector, by the owner or user thereof. [1951 c 32 § 26.]

**70.79.280 Inspection during construction.** All boilers and all unfired pressure vessels to be installed in this state after the twelve-month period from the date upon which the rules of the board shall become effective shall be inspected during construction as required by the applicable rules of the board by an inspector authorized to inspect boilers and unfired pressure vessels in this state, or, if constructed outside of the state, by an inspector holding a certificate from the national board of boiler and pressure vessel inspectors, or a certificate of competency as an inspector of boilers and unfired pressure vessels for a state that has a standard of examination substantially equal to that of this state as provided in RCW 70.79.170. [1999 c 183 § 9; 1951 c 32 § 27.]

**70.79.290 Inspection certificate—Contents—Posting—Fee.** If, upon inspection, a boiler or pressure vessel is found to comply with the rules and regulations of the board, and upon the appropriate fee payment made directly to the chief inspector, as required by RCW 70.79.160 or 70.79.330, the chief inspector shall issue to the owner or user of such a boiler or pressure vessel an inspection certificate bearing the date of inspection and specifying the maximum pressure under which the boiler or pressure vessel may be operated. Such inspection certificate shall be valid for not more than fourteen months from its date in the case of power boilers and twenty-six months in the case of low pressure heating boilers, and for not more than two months longer than the authorized inspection period in the case of pressure vessels. Certificates shall be posted under glass in the room containing the boiler or pressure vessel inspected. If the boiler or pressure vessel is not located within a building, the certificate shall be posted in a location convenient to the boiler or pressure vessel inspected or, in the case of a portable boiler or pressure vessel, the certificate shall be kept in a protective container to be fastened to the boiler or pressure vessel or in a tool box accompanying the boiler or pressure vessel. [1977 ex.s. c 175 § 1; 1970 ex.s. c 21 § 1; 1951 c 32 § 28.]

**70.79.300 Inspection certificate invalid on termination of insurance.** No inspection certificate issued for an insured boiler or unfired pressure vessel inspected by a special inspector shall be valid after the boiler or unfired pressure vessel, for which it was issued, shall cease to be insured by a company duly authorized by this state to carry such insurance. [1951 c 32 § 29.]
70.79.310 Inspection certificate—Suspension—Reinstatement. The chief inspector, or his or her authorized representative, may at any time suspend an inspection certificate when, in his or her opinion, the boiler or unfired pressure vessel for which it was issued cannot be operated without menace to the public safety, or when the boiler or unfired pressure vessel is found not to comply with the rules herein provided. A special inspector shall have corresponding powers with respect to inspection certificates for boilers or unfired pressure vessels insured or operated by the company employing him or her. Such suspension of an inspection certificate shall continue in effect until such boiler or unfired pressure vessel shall have been made to conform to the rules of the board, and until said inspection certificate shall have been reinstated. [1999 c 183 § 10; 1951 c 32 § 30.]

70.79.320 Operating without inspection certificate prohibited—Penalty. (1) It shall be unlawful for any person, firm, partnership, or corporation to operate under pressure in this state a boiler or unfired pressure vessel, to which this chapter applies, without a valid inspection certificate as provided for in this chapter.

(2) The department may assess a penalty against a person violating a provision of this chapter. The penalty shall not be more than five hundred dollars. Each day that the violation continues is a separate violation and is subject to a separate penalty.

(3) The department may not assess a penalty until it adopts rules describing the method it will use to calculate penalties for various violations.

(4) The department shall notify the violator of its action, and the reasons for its action, in writing. The department shall send the notice by certified mail to the violator that a hearing may be requested under RCW 70.79.361. The hearing shall not stay the effect of the penalty. [2005 c 22 § 6; 1986 c 97 § 2; 1951 c 32 § 31.]

Funds shall be paid out upon vouchers duly and regularly issued therefor and approved by the director of the department of labor and industries. The treasurer, as ex officio custodian of the fund, shall keep an accurate record of any payments into the fund, and of all disbursements therefrom. The fund shall be used exclusively to defray only the expenses of administering chapter 70.79 RCW by the chief inspector as authorized by law and the expenses incident to the maintenance of the office. The fund shall be charged with its pro rata share of the cost of administering the fund which is to be determined by the director of financial management and by the director of the department of labor and industries.

During the 2003-2005 fiscal biennium, the legislature may transfer from the pressure systems safety fund to the state general fund such amounts as reflect the excess fund balance of the fund. [2003 1st sp.s. c 25 § 931; 1979 c 151 § 171; 1977 ex.s. c 175 § 3; 1951 c 32 § 34.]

To appeal the board’s decision, a person, firm, partnership, corporation, or other entity shall, in writing, notify the chief boiler inspector. The notice shall specify the ruling or interpretation desired and the contention of the person, firm, partnership, corporation, or other entity as to the proper interpretation or application on the question on which a decision is desired.

ALCOHOL AND DRUG USE TREATMENT ASSOCIATED WITH PREGNANCY—FETAL ALCOHOL SYNDROME

Sections
70.83C.005 Intent.
70.83C.010 Definitions.
70.83C.020 Prevention strategies.

70.83C.005 Intent. The legislature recognizes that the use of alcohol and other drugs during pregnancy can cause medical, psychological, and social problems for women and infants. The legislature further recognizes that communities are increasingly concerned about this problem and the associated costs to the mothers, infants, and society as a whole. The legislature recognizes that the department of health and other agencies are focusing on primary prevention activities to reduce the use of alcohol or drugs during pregnancy but few efforts have focused on secondary prevention efforts aimed at intervening in the lives of women already involved in the use of alcohol or other drugs during pregnancy. The legislature recognizes that the best way to prevent problems for chemically dependent pregnant women and their resulting children is to engage the women in alcohol or drug treatment. The legislature further recognizes that pretreatment services should be provided at locations where chemically dependent women are likely to be found, including public health clinics and domestic violence or homeless shelters. Therefore the legislature intends to prevent the detrimental effects of alcohol or other drug use to women and their resulting infants by promoting the establishment of local programs to help facilitate a woman’s entry into alcohol or other drug treatment. These programs shall provide secondary prevention services and provision of opportu-
nities for immediate treatment so that women who seek help are welcomed rather than ostracized. [1993 c 422 § 3.]

Finding—1993 c 422: See note following RCW 66.16.110.

70.83C.020 Prevention strategies. The secretary shall develop and promote statewide secondary prevention strategies designed to increase the use of alcohol and drug treatment services by women of child-bearing age, before, during, and immediately after pregnancy. These efforts are conducted through the division of alcohol and substance abuse. The secretary shall:

(1) Promote development of three pilot demonstration projects in the state to be called pretreatment projects for women of child-bearing age.

(2) Ensure that two of the projects are located in public health department clinics that provide maternity services and one is located with a domestic violence program.

(3) Hire three certified chemical dependency counselors to work as substance abuse educators in each of the three demonstration projects. The counselors may rotate between more than one clinic or domestic violence program. The chemical dependency counselor for the domestic violence program shall also be trained in domestic violence issues.

70.87.290 Rules—Effective date.
The department of labor and industries may not adopt rules to implement chapter 98, Laws of 2002, and to implement chapter 143, Laws of 2003 that take effect before March 1, 2004. [2003 c 143 § 6.]

70.87.305 Private residence conveyances—Licensing requirements—Rules. (1) The department shall, by rule, establish licensing requirements for conveyance work performed on private residence conveyances. These rules shall include an exemption from licensing for maintenance work on private residence conveyances performed by an owner or at the direction of the owner, provided the owner resides in the residence at which the conveyance is located and the conveyance is not accessible to the general public. However, maintenance work performed on private residence conveyances located in or at adult family homes licensed under chapter 70.128 RCW, boarding homes licensed under chapter 18.20 RCW, or similarly licensed caregiving facilities must comply with the licensing requirements of this chapter.

(2) The rules adopted under this section take effect July 1, 2004. [2004 c 66 § 3.]

Findings—2004 c 66: "The legislature finds that individuals performing conveyance work on private residence conveyances must be licensed by the department of labor and industries. However, the licensing requirements for this type of work need not be of the same level as those established for conveyance work in circumstances where the general public has access to the conveyances. The legislature further finds that the department of labor and industries should be given the authority to develop the licensing requirements for this type of work using the normal rule-making process established under chapter 34.05 RCW. Lastly, the legislature finds that private residence conveyance maintenance work that is performed by an owner or at the direction of the owner is exempt from licensing if the owner resides in the residence at which the conveyance is located and the conveyance is not accessible to the general public." [2004 c 66 § 1.]
70.87.900 Severability. If any provision of this chapter or its application to any person or circumstance is held invalid, the remainder of the chapter, or the application of the provision to other persons or circumstances, is not affected. [1983 c 123 § 24; 1963 c 26 § 22.]

Waste Reduction, Recycling, and Model Litter Control Act

70.93.020 Declaration of purpose. The purpose of this chapter is to accomplish litter control, increase waste reduction, and stimulate all components of recycling throughout this state by delegating to the department of ecology the authority to:

(1) Conduct a permanent and continuous program to control and remove litter from this state to the maximum practical extent possible;

(4) Increase public awareness of the need for waste reduction, recycling, and litter control; and

(5) Coordinate the litter collection efforts and expenditure of funds for litter collection by other agencies identified in this chapter.

It is further the intent and purpose of this chapter to create jobs for employment of youth in litter cleanup and related activities and to stimulate and encourage small, private recycling centers. This program shall include the compatible goal of recovery of recyclable materials to conserve energy and natural resources. Every other department of state government and all local governmental units and agencies of this state shall cooperate with the department of ecology in the administration and enforcement of this chapter. The intent of this chapter is to create and coordinate existing recycling and litter control and removal efforts and not terminate or supplant such efforts.

(d) If a junk vehicle is abandoned in violation of this section, RCW 46.55.230 governs the vehicle’s removal, disposal, and sale, and the penalties that may be imposed against the person who abandoned the vehicle.

(3) If the violation occurs in a state park, the court shall, in addition to any other penalties assessed, order the person to perform twenty-four hours of community restitution in the state park where the violation occurred if the state park has stated an intent to participate as provided in RCW 79A.05.050.

(4) It is a class 1 civil infraction as provided in RCW 7.80.120 for a person to discard, in violation of this section, potentially dangerous litter in any amount. [2003 c 337 § 3; 2002 c 175 § 45; 2001 c 139 § 1; 2000 c 154 § 2; 1997 c 159]

Pertinent portions of this chapter shall be posted along the public highways of this state and in all campgrounds and trailer parks, at all entrances to state parks, forest lands, and recreational areas, at all public beaches, and at other public places in this state where persons are likely to be informed of the existence and content of this chapter and the penalties for violating its provisions. [1971 ex.s. c 307 § 7.]

70.93.090 Litter receptacles—Use of anti-litter symbol—Distribution—Placement—Violations—Penalties. The department shall design and the director shall adopt by rule or regulation one or more types of litter receptacles which are reasonably uniform as to size, shape, capacity and color, for wide and extensive distribution throughout the public places of this state. The number of such receptacles required to be placed as specified herein shall be determined by a formula related to the need for such receptacles.

It shall be the responsibility of any person owning or operating any establishment or public place in which litter receptacles of the uniform design are required by this section to procure and place such receptacles at their own expense on the premises in accord with rules and regulations adopted by the department.

In communities where there is an established curbside service and where recycling service is available to businesses, a recycling program must be provided at every official gathering and at every sports facility by the vendors who sell beverages in single-use aluminum, glass, or plastic bottles or cans. A recycling program includes provision of receptacles or reverse vending machines, and provisions to transport and recycle the collected materials. Facility managers or event coordinators may choose to work with vendors to coordinate the recycling program. The recycling receptacles or reverse vending machines must be clearly marked, and must be provided for the aluminum, glass, or plastic bottles or cans that contain the beverages sold by the vendor. [2007 c 244 § 2.]

70.93.095 Marinas and airports—Recycling. (1) Each marina with thirty or more slips and each airport providing regularly scheduled commercial passenger service shall provide adequate recycling receptacles on, or adjacent to, its facility. The receptacles shall be clearly marked for the disposal of at least two of the following recyclable materials: Aluminum, glass, newspaper, plastic, and tin.

(2) Marinas and airports subject to this section shall not be required to provide recycling receptacles until the city or county in which it is located adopts a waste reduction and recycling element of a solid waste management plan pursuant to RCW 70.95.090. [1991 c 11 § 2.]

70.93.097 Transported waste must be covered or secured. (1) By January 1, 1994, each county or city with a staffed transfer station or landfill in its jurisdiction shall adopt an ordinance to reduce litter from vehicles. The ordinance shall require the operator of a vehicle transporting solid waste to a staffed transfer station or landfill to secure or cover the vehicle’s waste in a manner that will prevent spillage. The ordinance may provide exemptions for vehicle operators transporting waste that is unlikely to spill from a vehicle.

The ordinance shall, in the absence of an exemption, require a fee, in addition to other landfill charges, for a person arriving at a staffed landfill or transfer station without a cover on the vehicle’s waste or without the waste secured.

(2) The fee collected under subsection (1) of this section shall be deposited, no less often than quarterly, with the city or county in which the landfill or transfer station is located.

(3) A vehicle transporting sand, dirt, or gravel in compliance with the provisions of RCW 46.61.655 shall not be required to secure or cover a load pursuant to ordinances adopted under this section. [1993 c 399 § 1.]

(2008 Ed.)
70.93.110 Removal of litter—Responsibility.
Responsibility for the removal of litter from receptacles placed at parks, beaches, campgrounds, trailer parks, and other public places shall remain upon those state and local agencies performing litter removal. Removal of litter from litter receptacles placed on private property which is used by the public shall remain the responsibility of the owner of such private property. [1971 ex.s. c 307 § 11.]

70.93.180 Waste reduction, recycling, and litter control account—Distribution. (1) There is hereby created an account within the state treasury to be known as the "waste reduction, recycling, and litter control account". Moneys in the account may be spent only after appropriation. Expenditures from the waste reduction, recycling, and litter control account shall be used as follows:
(a) Fifty percent to the department of ecology, for use by the departments of ecology, natural resources, revenue, transportation, and corrections, and the parks and recreation commission, for use in litter collection programs, to be distributed under RCW 70.93.220. The amount to the department of ecology shall also be used for a central coordination function for litter control efforts statewide, for the biennial litter survey under RCW 70.93.200(8), and for statewide public awareness programs under RCW 70.93.200(7). The amount to the department shall also be used to defray the costs of administering the funding, coordination, and oversight of local government programs for waste reduction, litter control, and recycling, so that local governments can apply one hundred percent of their funding to achieving program goals. The amount to the department of revenue shall be used to enforce compliance with the litter tax imposed in chapter 82.19 RCW;
(b) Twenty percent to the department for local government funding programs for waste reduction, litter control, and recycling activities by cities and counties under RCW 70.93.250, to be administered by the department of ecology; and
(c) Thirty percent to the department of ecology for waste reduction and recycling efforts.
(2) All taxes imposed in RCW 82.19.010 and fines and bail forfeitures collected or received pursuant to this chapter shall be deposited in the waste reduction, recycling, and litter control account and used for the programs under subsection (1) of this section.
(3) Not less than five percent and no more than ten percent of the amount appropriated into the waste reduction, recycling, and litter control account every biennium shall be reserved for capital needs, including the purchase of vehicles for transporting crews and for collecting litter and solid waste. Capital funds shall be distributed among state agencies and local governments according to the same criteria provided in RCW 70.93.220 for the remainder of the funds, so that the most effective waste reduction, litter control, and recycling programs receive the most funding. The intent of this subsection is to provide funds for the purchase of equipment that will enable the department to account for the greatest return on investment in terms of reaching a zero litter goal.
(4) During the 2005-2007 fiscal biennium, the legislature may transfer from the waste reduction, recycling, and litter control account to the state general fund such amounts as reflect the excess fund balance of the account. [2005 c 518 § 939; 1998 c 257 § 5; 1992 c 175 § 8; 1991 sp.s. c 13 § 40; 1985 c 57 § 68; 1983 c 277 § 3; 1971 ex.s. c 307 § 18.]

Effective date—Severability—1991 sp.s. c 13: See notes following RCW 18.08.240.

70.93.200 Department of ecology—Administration of anti-litter and recycling programs—Guidelines—Report to legislature. In addition to the foregoing, the department of ecology shall:
(1) Serve as the coordinating agency between the various industry organizations seeking to aid in the waste reduction, anti-litter, and recycling efforts;
(2) Serve as the coordinating and administrating agency for all state agencies and local governments receiving funds for waste reduction, litter control, and recycling under this chapter;
(3) Recommend to the governing bodies of all local governments that they adopt ordinances similar to the provisions of this chapter;
(4) Cooperate with all local governments to accomplish coordination of local waste reduction, anti-litter, and recycling efforts;
(5) Encourage, organize, and coordinate all voluntary local waste reduction, anti-litter, and recycling campaigns seeking to focus the attention of the public on the programs of this state to reduce waste, control and remove litter, and foster recycling;
(6) Investigate the availability of, and apply for funds available from any private or public source to be used in the program outlined in this chapter;
(7) Develop statewide programs by working with local governments, payers of the waste reduction, recycling, and litter control tax, and industry organizations that are active in waste reduction, anti-litter, and recycling efforts to increase public awareness of and participation in recycling and to stimulate and encourage local private recycling centers, public participation in recycling and research and development in the field of litter control, and recycling, removal, and disposal of litter-related recycling materials;
(8) Conduct a biennial statewide litter survey targeted at litter composition, sources, demographics, and geographic trends; and
(9) Provide a biennial summary of all waste reduction, litter control, and recycling efforts statewide including those of the department of ecology, and other state agencies and local governments funded for such programs under this chapter. This report is due to the legislature in March of even-numbered years. [1998 c 257 § 8; 1979 c 94 § 7; 1971 ex.s. c 307 § 50.]

70.93.210 Waste reduction, anti-litter, and recycling campaign—Industrial cooperation requested. To aid in the statewide waste reduction, anti-litter, and recycling campaign, the state legislature requests that the payers of the waste reduction, recycling, and litter control tax and the vari-
ous industry organizations which are active in waste reduction, anti-litter, and recycling efforts provide active cooperation with the department of ecology so that additional effect may be given to the waste reduction, anti-litter, and recycling campaign of the state of Washington. [1979 c 94 § 8; 1971 ex.s. c 307 § 21.]

70.93.220 Litter collection programs—Department of ecology—Coordinating agency—Use of funds—Reporting. (1) The department of ecology is the coordinating and administrative agency working with the departments of natural resources, revenue, transportation, and corrections, and the parks and recreation commission in developing a biennial budget request for funds for the various agencies’ litter collection programs.

(2) Funds may be used to meet the needs of efficient and effective litter collection and illegal dumping programs identified by the various agencies. The department shall develop criteria for evaluating the effectiveness and efficiency of the waste reduction, litter control, and recycling programs being administered by the various agencies listed in RCW 70.93.180, and shall distribute funds according to the effectiveness and efficiency of those programs. In addition, the department shall approve funding requests for efficient and effective waste reduction, litter control, and recycling programs, provide funds, and monitor the results of all agency programs.

(3) All agencies are responsible for reporting information on their litter collection programs, as requested by the department of ecology. Beginning in the year 2000, this information shall be provided to the department by March of even-numbered years. In 1998, this information shall be provided by July 1st.

(4) By December 1998, and in every even-numbered year thereafter, the department shall provide a report to the legislature summarizing biennial waste reduction, litter control, and recycling activities by state agencies and submitting the coordinated litter budget request of all agencies. [1998 c 257 § 6.]

70.93.230 Violations of chapter—Penalties. Every person convicted of a violation of this chapter for which no penalty is specially provided for shall be punished by a fine of not more than fifty dollars for each such violation. [1983 c 277 § 4; 1971 ex.s. c 307 § 23.]

70.93.250 Funding to local governments—Reports. (1) The department shall provide funding to local units of government to establish, conduct, and evaluate community waste reduction, litter control, and recycling programs. Programs eligible for funding under this section shall be funded by a fine of not more than fifty dollars for each such violation. [1983 c 277 § 4; 1971 ex.s. c 307 § 23.]

(2) Funds may be offered for costs associated with community waste reduction, litter cleanup and prevention, and recycling activities. The funding program must be flexible, allowing local governments to use funds broadly to meet their needs to reduce waste, control litter and illegal dumping, and promote recycling. Local governments are required to contribute resources or in-kind services. The department shall evaluate funding requests from local government according to the same criteria as those developed in RCW 70.93.220, provide funds according to the effectiveness and efficiency of local government litter control programs, and monitor the results of all local government programs under this section.

(3) Local governments shall report information as requested by the department in funding agreements entered into by the department and a local government. The department shall report to the appropriate standing committees of the legislature by December of even-numbered years on the effectiveness of local government waste reduction, litter, and recycling programs funded under this section. 70.94.011 Declaration of public policies and purpose.  
It is declared to be the public policy to preserve, protect, and enhance the air quality for current and future generations. Air is an essential resource that must be protected from harmful levels of pollution. Improving air quality is a matter of statewide concern and is in the public interest. It is the intent of this chapter to secure and maintain levels of air quality that protect human health and safety, including the most sensitive members of the population, to comply with the requirements of the federal clean air act, to prevent injury to plant, animal life, and property, to foster the comfort and convenience of Washington’s inhabitants, to promote the economic and social development of the state, and to facilitate the enjoyment of the natural attractions of the state.

It is further the intent of this chapter to protect the public welfare, to preserve visibility, to protect scenic, aesthetic, historic, and cultural values, and to prevent air pollution problems that interfere with the enjoyment of life, property, or natural attractions.

Because of the extent of the air pollution problem the legislature finds it necessary to return areas with poor air quality to levels adequate to protect health and the environment as expeditiously as possible but no later than December 31, 1995. Further, it is the intent of this chapter to prevent any areas of the state with acceptable air quality from reaching air contaminant levels that are not protective of human health and the environment.

The legislature recognizes that air pollution control projects may affect other environmental media. In selecting air pollution control strategies state and local agencies shall support those strategies that lessen the negative environmental impact of the project on all environmental media, including air, water, and land.

The legislature further recognizes that energy efficiency and energy conservation can help to reduce air pollution and shall therefore be considered when making decisions on air pollution control strategies and projects.

It is the policy of the state that the costs of protecting the air resource and operating state and local air pollution control programs shall be shared as equitably as possible among all sources whose emissions cause air pollution.

It is also declared as public policy that regional air pollution control programs are to be encouraged and supported to the extent practicable as essential instruments for the securing and maintenance of appropriate levels of air quality.

To these ends it is the purpose of this chapter to safeguard the public interest through an intensive, progressive, and coordinated statewide program of air pollution prevention and control, to provide for an appropriate distribution of responsibilities and to encourage cooperation and coordination between the state, regional, and local units of government, to improve cooperation between state and federal government, public and private organizations, and the concerned individual, as well as to provide for the use of all known, available, and reasonable methods to reduce, prevent, and control air pollution.

The legislature recognizes that the problems and effects of air pollution cross political boundaries, are frequently regional or interjurisdictional in nature, and are dependent upon the existence of common topography and weather conditions conducive to the buildup of air contaminants. In addition, the legislature recognizes that air pollution levels are aggravated and compounded by increased population, and its consequences.
These changes often result in increasingly serious problems for the public and the environment.

The legislature further recognizes that air emissions from thousands of small individual sources are major contributors to air pollution in many regions of the state. As the population of a region grows, small sources may contribute an increasing proportion of that region’s total air emissions. It is declared to be the policy of the state to achieve significant reductions in emissions from those small sources whose aggregate emissions constitute a significant contribution to air pollution in a particular region.

It is the intent of the legislature that air pollution goals be incorporated in the missions and actions of state agencies. [1991 c 199 § 102; 1973 1st ex.s. c 193 § 1; 1969 ex.s. c 168 § 1; 1967 c 238 § 1.]

Finding—1991 c 199: "The legislature finds that ambient air pollution is the most serious environmental threat in Washington state. Air pollution causes significant harm to human health; damages the environment, including trees, crops, and animals; causes deterioration of equipment and materials; contributes to water pollution; and degrades the quality of life."

Over three million residents of Washington state live where air pollution levels are considered unhealthy. Of all toxic chemicals released into the environment more than half enter our breathing air. Citizens of Washington state spend hundreds of millions of dollars annually to offset health, environmental, and material damage caused by air pollution. The legislature considers such air pollution levels, costs, and damages to be unacceptable.

It is the intent of this act that the implementation of programs and regulations to control air pollution shall be the primary responsibility of the department of ecology and local air pollution control authorities." [1991 c 199 § 101.]

70.94.015 Air pollution control account—Air operating permit account. (1) The air pollution control account is established in the state treasury. All receipts collected by or on behalf of the department from permit program sources under RCW 70.94.152(1), 70.94.161, 70.94.162, and 70.94.154(7) shall be deposited into the account. Expenditures from the account may be used only for the activities described in RCW 70.94.152(1), 70.94.161, 70.94.162, and 70.94.154(7). Moneys in the account may be spent only after appropriation. [1998 c 321 § 33 (Referendum Bill No. 49, approved November 3, 1998); 1993 c 252 § 1; 1991 c 199 § 228.]

70.94.017 Air pollution control account—Subaccount distribution. (Expires July 1, 2020.) (1) Money deposited in the segregated subaccount of the air pollution control account under RCW 46.68.020(2) shall be distributed as follows:

(a) Eighty-five percent shall be distributed to air pollution control authorities created under this chapter. The money must be distributed in direct proportion with the amount of fees imposed under RCW 46.12.080, 46.12.170, and 46.12.181 that are collected within the boundaries of each authority. However, an amount in direct proportion with those fees collected in counties for which no air pollution control authority exists must be distributed to the department.

(b) The remaining fifteen percent shall be distributed to the department.

(2) Money distributed to air pollution control authorities and the department under subsection (1) of this section must be used as follows:

(a) Eighty-five percent of the money received by an air pollution control authority or the department is available on a priority basis to retrofit school buses with exhaust emission control devices or to provide funding for fueling infrastructure necessary to allow school bus fleets to use alternative, cleaner fuels. In addition, the director of ecology or the air pollution control officer may direct funding under this section for other publicly or privately owned diesel equipment if the director of ecology or the air pollution control officer finds that funding for other publicly or privately owned diesel equipment will provide public health benefits and further the purposes of this chapter.

(b) The remaining fifteen percent may be used by the air pollution control authority or department to reduce transportation-related air contaminant emissions and clean up air pollution, or reduce and monitor toxic air contaminants.

(3) Money in the air pollution control account may be spent by the department only after appropriation.

(4) This section expires July 1, 2020. [2007 c 348 § 102; 2005 c 295 § 5; 2003 c 264 § 1.]

Findings—Part headings not law—2007 c 348: See RCW 43.325.005 and 43.325.903.

Effective date—2005 c 295 §§ 5, 6, and 10: "Sections 5, 6, and 10 of this act are necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and take effect July 1, 2005." [2005 c 295 § 14.]

[Title 70 RCW—page 192] (2008 Ed.)
Pollution control hearings board of the state of Washington as affecting chapter 70.94 RCW. See chapter 43.21B RCW.

Definitions. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Air contaminant" means dust, fumes, mist, smoke, other particulate matter, vapor, gas, odorous substance, or any combination thereof.

(2) "Air pollution" is presence in the outdoor atmosphere of one or more air contaminants in sufficient quantities and of such characteristics and duration as is, or is likely to be, injurious to human health, plant or animal life, or property, or which unreasonably interfere with enjoyment of life and property. For the purpose of this chapter, air pollution shall not include air contaminants emitted in compliance with chapter 17.21 RCW.

(3) "Air quality standard" means an established concentration, exposure time, and frequency of occurrence of an air contaminant or multiple contaminants in the ambient air which shall not be exceeded.

(4) "Ambient air" means the surrounding outside air.

(5) "Authority" means any air pollution control agency whose jurisdictional boundaries are coextensive with the boundaries of one or more counties.

(6) "Best available control technology" (BACT) means an emission limitation based on the maximum degree of reduction for each air pollutant subject to regulation under this chapter emitted from or that results from any new or modified stationary source, that the permitting authority, on a case-by-case basis, taking into account energy, environmental, and economic impacts and other costs, determines is achievable for such a source or modification through application of production processes and available methods, systems, and techniques, including fuel cleaning, clean fuels, or treatment or innovative fuel combustion techniques for control of each such a pollutant. In no event shall application of "best available control technology" result in emissions of any pollutants that will exceed the emissions allowed by any applicable standard under 40 C.F.R. Part 60 and Part 61, as they exist on July 25, 1993, or their later enactments as adopted by reference by the director by rule. Emissions from any source utilizing clean fuels, or any other means, to comply with this subsection shall not be allowed to increase above levels that would have been required under the definition of BACT as it existed prior to enactment of the federal clean air act amendments of 1990.

(7) "Best available retrofit technology" (BART) means an emission limitation based on the degree of reduction achievable through the application of the best system of continuous emission reduction for each pollutant that is emitted by an existing stationary facility. The emission limitation must be established, on a case-by-case basis, taking into consideration the technology available, the costs of compliance, the energy and nonair quality environmental impacts of compliance, any pollution control equipment in use or in existence at the source, the remaining useful life of the source, and the degree of improvement in visibility that might reasonably be anticipated to result from the use of the technology.

(8) "Board" means the board of directors of an authority.

(9) "Control officer" means the air pollution control officer of any authority.

(10) "Department" or "ecology" means the department of ecology.

(11) "Emission" means a release of air contaminants into the ambient air.

(12) "Emission standard" and "emission limitation" mean a requirement established under the federal clean air act or this chapter that limits the quantity, rate, or concentration of emissions of air contaminants on a continuous basis, including any requirement relating to the operation or maintenance of a source to assure continuous emission reduction, and any design, equipment, work practice, or operational standard adopted under the federal clean air act or this chapter.

(13) "Fine particulate" means particulates with a diameter of two and one-half microns and smaller.

(14) "Lowest achievable emission rate" (LAER) means for any source that rate of emissions that reflects:

(a) The most stringent emission limitation that is contained in the implementation plan of any state for such class or category of source, unless the owner or operator of the proposed source demonstrates that such limitations are not achievable; or

(b) The most stringent emission limitation that is achieved in practice by such class or category of source, whichever is more stringent.

In no event shall the application of this term permit a proposed new or modified source to emit any pollutant in excess of the amount allowable under applicable new source performance standards.

(15) "Modification" means any physical change in, or change in the method of operation of, a stationary source that increases the amount of any air contaminant emitted by such source or that results in the emission of any air contaminant not previously emitted. The term modification shall be construed consistent with the definition of modification in Section 7411, Title 42, United States Code, and with rules implementing that section.

(16) "Multicounty authority" means an authority which consists of two or more counties.

(17) "New source" means (a) the construction or modification of a stationary source that increases the amount of any air contaminant emitted by such source or that results in the emission of any air contaminant not previously emitted, and (b) any other project that constitutes a new source under the federal clean air act.

(18) "Permit program source" means a source required to apply for or to maintain an operating permit under RCW 70.94.161.

(19) "Person" means an individual, firm, public or private corporation, association, partnership, political subdivision of the state, municipality, or governmental agency.

(20) "Reasonably available control technology" (RACT) means the lowest emission limit that a particular source or source category is capable of meeting by the application of control technology that is reasonably available considering technological and economic feasibility. RACT is determined
Title 70 RCW: Public Health and Safety

on a case-by-case basis for an individual source or source category taking into account the impact of the source upon air quality, the availability of additional controls, the emission reduction to be achieved by additional controls, the impact of additional controls on air quality, and the capital and operating costs of the additional controls. RACT requirements for a source or source category shall be adopted only after notice and opportunity for comment are afforded.

(21) "Silvicultural burning" means burning of wood fiber on forest land consistent with the provisions of RCW 70.94.660.

(22) "Source" means all of the emissions units including quantifiable fugitive emissions, that are located on one or more contiguous or adjacent properties, and are under the control of the same person, or persons under common control, whose activities are ancillary to the production of a single product or functionally related group of products.

(23) "Stationary source" means any building, structure, facility, or installation that emits or may emit any air contaminant.

(24) "Trigger level" means the ambient level of fine particulates, measured in micrograms per cubic meter, that must be detected prior to initiating a first or second stage of impaired air quality under RCW 70.94.473. [2005 c 197 § 2; 1993 c 252 § 2; 1991 c 199 § 103; 1987 c 109 § 33; 1979 c 141 § 119; 1969 ex.s. c 168 § 2; 1967 ex.s. c 61 § 1; 1967 c 238 § 2; 1957 c 232 § 3.]

Finding—1991 c 199: See note following RCW 70.94.011.

70.94.033 Environmental excellence program agreements—Effect on chapter. Notwithstanding any other provision of law, any legal requirement under this chapter, including any standard, limitation, rule, or order is superseded and replaced in accordance with the terms and provisions of an environmental excellence program agreement, entered into under chapter 43.21K RCW. [1997 c 381 § 21.]

Purpose—1997 c 381: See RCW 43.21K.005.

70.94.035 Technical assistance program for regulated community. The department shall establish a technical assistance unit within its air quality program, consistent with the federal clean air act, to provide the regulated community, especially small businesses with:

1. Information on air pollution laws, rules, compliance methods, and technologies;
2. Information on air pollution prevention methods and technologies, and prevention of accidental releases;
3. Assistance in obtaining permits and developing emission reduction plans;
4. Information on the health and environmental effects of air pollution.

No representatives of the department designated as part of the technical assistance unit created in this section may have any enforcement authority. Staff of the technical assistance unit who provide on-site consultation at an industrial or commercial facility and who observe violations of air quality rules shall immediately inform the owner or operator of the facility of such violations. On-site consultation visits shall not be regarded as an inspection or investigation and no notices or citations may be issued or civil penalties assessed during such a visit. However, violations shall be reported to the appropriate enforcement agency and the facility owner or operator shall be notified that the violations will be reported. No enforcement action shall be taken by the enforcement agency for violations reported by technical assistance unit staff unless and until the facility owner or operator has been provided reasonable time to correct the violation. Violations that place any person in imminent danger of death or substantial bodily harm or cause physical damage to the property of another in an amount exceeding one thousand dollars may result in immediate enforcement action by the appropriate enforcement agency. [1991 c 199 § 308.]

Finding—1991 c 199: See note following RCW 70.94.011.

70.94.037 Transportation activities—Conformity determination requirements. In areas subject to a state implementation plan, no state agency, metropolitan planning organization, or local government shall approve or fund a transportation plan, program, or project within or that affects a nonattainment area unless a determination has been made that the plan, program, or project conforms with the state implementation plan for air quality as required by the federal clean air act.

Conformity determination shall be made by the state or local government or metropolitan planning organization administering or developing the plan, program, or project.

No later than eighteen months after May 15, 1991, the director of the department of ecology and the secretary of transportation, in consultation with other state, regional, and local agencies as appropriate, shall adopt by rule criteria and guidance for demonstrating and assuring conformity of plans, programs, and projects that are wholly or partially federally funded.

A project with a scope that is limited to preservation or maintenance, or both, shall be exempted from a conformity determination requirement. [1991 c 199 § 219.]

Finding—1991 c 199: See note following RCW 70.94.011.

70.94.040 Causing or permitting air pollution unlawful—Exception. Except where specified in a variance permit, as provided in RCW 70.94.181, it shall be unlawful for any person to cause air pollution or permit it to be caused in violation of this chapter, or of any ordinance, resolution, rule or regulation validly promulgated hereunder. [1980 c 175 § 2; 1967 c 238 § 3; 1957 c 232 § 4.]

70.94.041 Exception— Burning wood at historic structure. Except as otherwise provided in this section, any building or structure listed on the national register of historic sites, structures, or buildings established pursuant to 80 Stat. 915, 16 U.S.C. Sec. 470a, or on the state register established pursuant to RCW 27.34.220, shall be permitted to burn wood as it would have when it was a functioning facility as an authorized exception to the provisions of this chapter. Such burning of wood shall not be exempted from the provisions of RCW 70.94.710 through 70.94.730. [1991 c 199 § 506; 1983 c 3 § 175; 1977 ex.s. c 38 § 1.]

Finding—1991 c 199: See note following RCW 70.94.011.
70.94.053 Air pollution control authorities created—Activated authorities, composition, meetings—Delineation of air pollution regions, considerations. (1) In each county of the state there is hereby created an air pollution control authority, which shall bear the name of the county within which it is located. The boundaries of each authority shall be coextensive with the boundaries of the county within which it is located. An authority shall include all incorporated and unincorporated areas of the county within which it is located.

(2) Except as provided in RCW 70.94.262, all authorities which are presently activated authorities shall carry out the duties and exercise the powers provided in this chapter. Those activated authorities which encompass contiguous counties are declared to be and directed to function as a multicounty authority.

(3) All other air pollution control authorities are hereby designated as inactive authorities.

(4) The boards of those authorities designated as activated authorities by this chapter shall be comprised of such individuals as is provided in RCW 70.94.100. [1995 c 135 § 5. Prior: 1991 c 363 § 143; 1991 c 199 § 701; 1991 c 125 § 1; prior: 1987 c 505 § 60; 1987 c 109 § 34; 1979 c 141 § 120; 1967 c 238 § 4.]

Intent—1995 c 135: See note following RCW 29A.08.760.
Purpose—Captions not law—1991 c 363: See notes following RCW 2.32.180.

Finding—1991 c 199: See note following RCW 70.94.011.

70.94.055 Air pollution control authority may be activated by counties, when. The legislative authority of any county may activate an air pollution control authority following a public hearing on its own motion, or upon a filing of a petition signed by one hundred property owners within the county. If the county legislative authority determines as a result of the public hearing that:

(1) Air pollution exists or is likely to occur; and
(2) The city or town ordinances, or county resolutions, or their enforcement, are inadequate to prevent or control air pollution,

it may by resolution activate an air pollution control authority or combine with a contiguous county or counties to form a multicounty air pollution control authority. [1995 c 135 § 6. Prior: 1991 c 363 § 144; 1991 c 199 § 702; 1967 c 238 § 5.]

Intent—1995 c 135: See note following RCW 29A.08.760.
Purpose—Captions not law—1991 c 363: See notes following RCW 2.32.180.

Finding—1991 c 199: See note following RCW 70.94.011.

70.94.057 Multicounty authority may be formed by contiguous counties—Name. The boards of county commissioners of two or more contiguous counties may, by joint resolution, combine to form a multicounty air pollution control authority. Boundaries of such authority shall be coextensive with the boundaries of the counties forming the authority.

The name of the multicounty authority shall bear the names of the counties making up such multicounty authority or a name adopted by the board of such multicounty authority. [1967 c 238 § 6.]

70.94.068 Merger of active and inactive authorities to form multicounty or regional authority—Procedure. The respective boards of county commissioners of two or more contiguous counties may merge any combination of their several inactive or activated authorities to form one activated multicounty authority. Upon a determination that the purposes of this chapter will be served by such merger, each board of county commissioners may adopt the resolution providing for such merger. Such resolution shall become effective only when a similar resolution is adopted by the other contiguous county or counties comprising the proposed authority. The boundaries of such authority shall be coextensive with the boundaries of the counties within which it is located. [1969 ex.s. c 168 § 3; 1967 c 238 § 11.]

70.94.069 Merger of active and inactive authorities to form multicounty or regional authority—Reorganization of board of directors—Rules and regulations. Whenever there occurs a merger of an inactive authority with an activated authority or authorities, or of two activated authorities to form a multicounty authority, the board of directors shall be reorganized as provided in RCW 70.94.100, 70.94.110, and 70.94.120.

In the case of the merger of two or more activated authorities the rules and regulations of each authority shall continue in effect and shall be enforced within the jurisdiction of each until such time as the board of directors adopts rules and regulations applicable to the newly formed multicounty authority.

In the case of the merger of an inactive authority with an activated authority or authorities, upon approval of such merger by the board or boards of county commissioners of the county or counties comprising the existing activated authority or authorities, the rules and regulations of the activated authority or authorities shall remain in effect until superseded by the rules and regulations of the multicounty authority as provided in RCW 70.94.230. [1969 ex.s. c 168 § 4; 1967 c 238 § 12.]

70.94.070 Resolutions activating authorities—Contents—Filings—Effective date of operation. The resolution or resolutions activating an air pollution authority shall specify the name of the authority and participating political bodies; the authority’s principal place of business; the territory included within it; and the effective date upon which such authority shall begin to transact business and exercise its powers. In addition, such resolution or resolutions may specify the amount of money to be contributed annually by each political subdivision, or a method of dividing expenses of the air pollution control program. Upon the adoption of a resolution or resolutions calling for the activation of an authority or the merger of an inactive or activated authority or several activated authorities to form a multicounty authority, the governing body of each shall cause a certified copy of each such ordinance or resolution to be filed in the office of the secretary of state of the state of Washington. From and after the date of filing with the secretary of state a certified copy of
each such resolution, or resolutions, or the date specified in such resolution or resolutions, whichever is later, the authority may begin to function and may exercise its powers.

Any authority activated by the provisions of this chapter shall cause a certified copy of all information required by this section to be filed in the office of the secretary of state of the state of Washington. [1969 ex.s. c 168 § 5; 1967 c 238 § 13; 1957 c 232 § 7.]

70.94.081 Powers and duties of authorities. An activated authority shall be deemed a municipal corporation; have right to perpetual succession; adopt and use a seal; may sue and be sued in the name of the authority in all courts and in all proceedings; and, may receive, account for, and disburse funds, employ personnel, and acquire or dispose of any interest in real or personal property within or without the authority in the furtherance of its purposes. [1969 ex.s. c 168 § 6; 1967 c 238 § 13.]

70.94.085 Cost-reimbursement agreements. (1) An authority may enter into a written cost-reimbursement agreement with a permit applicant or project proponent to recover from the applicant or proponent the reasonable costs incurred by the authority in carrying out the requirements of this chapter, as well as the requirements of other relevant laws, as they relate to permit coordination, environmental review, application review, technical studies, and permit processing. The cost-reimbursement agreement shall identify the specific tasks, costs, and schedule for work to be conducted under the agreement.

(2) The written cost-reimbursement agreement shall be negotiated with the permit applicant or project proponent. Under the provisions of a cost-reimbursement agreement, funds from the applicant or proponent shall be used by the air pollution control authority to contract with an independent consultant to carry out the work covered by the cost-reimbursement agreement. The air pollution control authority may also use funds provided under a cost-reimbursement agreement to assign current staff to review the work of the consultant, to provide necessary technical assistance when an independent consultant with comparable technical skills is unavailable, and to recover reasonable and necessary direct and indirect costs that arise from processing the permit. The air pollution control authority shall, in developing the agreement, ensure that final decisions that involve policy matters are made by the agency and not by the consultant. The air pollution control authority shall make an estimate of the number of permanent staff hours to process the permits, and shall contract with consultants to replace the time and functions committed by these permanent staff to the project. The billing process shall provide for accurate time and cost accounting and may include a billing cycle that provides for progress payments. Use of cost-reimbursement agreements shall not reduce the current level of staff available to work on permits not covered by cost-reimbursement agreements. The air pollution control authority may not use any funds under a cost-reimbursement agreement to replace or supplant existing funding. The provisions of chapter 42.52 RCW apply to any cost-reimbursement agreement, and to any person hired as a result of a cost-reimbursement agreement. Members of the air pollution control authority’s board of directors shall be considered as state officers, and employees of the air pollution control authority shall be considered as state employees, for the sole purpose of applying the restrictions of chapter 42.52 RCW to this section. [2007 c 94 § 14; 2003 c 70 § 5; 2000 c 251 § 6.]

Intent—Captions not law—Effective date—2000 c 251: See notes following RCW 43.21A.690.

70.94.091 Excess tax levy authorized—Election, procedure, expense. An activated authority shall have the power to levy additional taxes in excess of the constitutional and/or statutory tax limitations for any of the authorized purposes of such activated authority, not in excess of twenty-five cents per thousand dollars of assessed value a year when authorized so to do by the electors of such authority by a three-fifths majority of those voting on the proposition at a special election, to be held in the year in which the levy is made, in the manner set forth in Article VII, section 2 (a) of the Constitution of this state, as amended by Amendment 59 and as thereafter amended. Nothing herein shall be construed to prevent holding the foregoing special election at the same time as that fixed for a general election. The expense of all special elections held pursuant to this section shall be paid by the authority. [1973 1st ex.s. c 195 § 84; 1969 ex.s. c 168 § 7; 1967 c 238 § 15.]

Severability—Effective dates and termination dates—Construction—1973 1st ex.s. c 195: See notes following RCW 84.52.043.

70.94.092 Air pollution control authority—Fiscal year—Adoption of budget—Contents. Notwithstanding the provisions of RCW 1.16.030, the budget year of each activated authority shall be the fiscal year beginning July 1st and ending on the following June 30th. On or before the fourth Monday in June of each year, each activated authority shall adopt a budget for the following fiscal year. The activated authority budget shall contain adequate funding and provide for staff sufficient to carry out the provisions of all applicable ordinances, resolutions, and local regulations related to the reduction, prevention, and control of air pollution. The legislature acknowledges the need for the state to provide reasonable funding to local authorities to carry out the requirements of this chapter. The budget shall contain an estimate of all revenues to be collected during the following budget year, including any surplus funds remaining unexpended from the preceding year. The remaining funds required to meet budget expenditures, if any, shall be designated as "supplemental income" and shall be obtained from the component cities, towns, and counties in the manner provided in this chapter. The affirmative vote of three-fourths of all members of the board shall be required to authorize emergency expenditures. [1991 c 199 § 703; 1975 1st ex.s. c 106 § 1; 1969 ex.s. c 168 § 8; 1967 c 238 § 16.]

Finding—1991 c 199: See note following RCW 70.94.011.

70.94.093 Methods for determining proportion of supplemental income to be paid by component cities, towns and counties—Payment. (1) Each component city or town shall pay such proportion of the supplemental income to the authority as determined by either one of the following prescribed methods or by a combination of fifty percent of
one and fifty percent of the other as provided in subsection (1)(c) of this section:

(a) Each component city or town shall pay such proportion of the supplemental income as the assessed valuation of property within its limits bears to the total assessed valuation of taxable property within the activated authority.

(b) Each component city or town shall pay such proportion of the supplemental income as the total population of such city or town bears to the total population of the activated authority. The population of the city or town shall be determined by the most recent census, estimate or survey by the federal bureau of census or any state board or commission authorized to make such a census, estimate or survey.

(c) A combination of the methods prescribed in (a) and (b) of this subsection: PROVIDED, That such combination shall be of fifty percent of the method prescribed in (a) of this subsection and fifty percent of the method prescribed in (b) of this subsection.

(2) Each component county shall pay such proportion of such supplemental income to the authority as determined by either one of the following prescribed methods or by a combination of fifty percent of one and fifty percent of the other as prescribed in subsection (2)(c) of this section:

(a) Each component county shall pay such proportion of such supplemental income as the assessed valuation of the property within the unincorporated area of such county lying within the activated authority bears to the total assessed valuation of taxable property within the activated authority.

(b) Each component county shall pay such proportion of the supplemental income as the total population of the unincorporated area of such county bears to the total population of the activated authority. The population of the county shall be determined by the most recent census, estimate or survey by the federal bureau of census or any state board or commission authorized to make such a census, estimate or survey.

(c) A combination of the methods prescribed in (a) and (b) of this subsection: PROVIDED, That such combination shall be of fifty percent of the method prescribed in (a) of this subsection and fifty percent of the method prescribed in (b) of this subsection.

(3) In making such determination of the assessed valuation of property in the component cities, towns and counties, the board shall use the last available assessed valuations. The board shall certify to each component city, town and county, prior to the fourth Monday in June of each year, the share of the supplemental income to be paid by such component city, town or county for the next calendar year. The latter shall then include such amount in its budget for the ensuing calendar year, and during such year shall pay to the activated authority in equal quarterly installments, the amount of its supplemental share. [1969 ex.s. c 168 § 9; 1967 c 238 § 17.]

### 70.94.094 Designation of authority treasurer and auditor—Duties.

The treasurer of each component city, town, or county shall create a separate fund into which shall be paid all money collected from taxes or from any other available sources, levied by or obtained for the activated authority on property or on any other available sources in such city, town, or county. The collected money shall be forwarded quarterly by the treasurer of each such city, town, or county to the treasurer of the county designated by the board as the treasurer for the authority. The treasurer of the county designated to serve as treasurer of the authority shall establish and maintain funds as authorized by the board.

Money shall be disbursed from funds collected under this section upon warrants drawn by either the authority or the auditor of the county designated by the board as the auditor for the authority, as authorized by the board.

If an authority chooses to use a county auditor for the disbursement of funds, the respective county shall be reimbursed by the board for services rendered by the auditor of the respective county in connection with the disbursement of funds under this section. [2007 c 164 § 1; 1969 ex.s. c 168 § 10; 1967 c 238 § 18.]

### 70.94.095 Assessed valuation of taxable property, certification by county assessors.

It shall be the duty of the assessor of each component county to certify annually to the board the aggregate assessed valuation of all taxable property in all incorporated and unincorporated areas situated in any activated authority as the same appears from the last assessment roll of his county. [1969 ex.s. c 168 § 11; 1967 c 238 § 19.]

### 70.94.096 Authorization to borrow money.

An activated authority shall have the power when authorized by a majority of all members of the board to borrow money from any component city, town or county and such cities, towns and counties are hereby authorized to make such loans or advances on such terms as may be mutually agreed upon by the board and the legislative bodies of any such component city, town or county to provide funds to carry out the purposes of the activated authority. [1969 ex.s. c 168 § 12; 1967 c 238 § 20.]

### 70.94.097 Special air pollution studies—Contracts for conduct of.

In addition to paying its share of the supplemental income of the activated authority, each component city, town, or county shall have the power to contract with such authority and expend funds for the conduct of special studies, investigations, plans, research, advice, or consultation relating to air pollution and its causes, effects, prevention, abatement, and control as such may affect any area within the boundaries of the component city, town, or county, and which could not be performed by the authority with funds otherwise available to it. Any component city, town or county which contracts for the conduct of such special air pollution studies, investigations, plans, research, advice or consultation with any entity other than the activated authority shall require that such an entity consult with the activated authority. [1975 1st ex.s. c 106 § 2.]

### 70.94.100 Air pollution control authority—Board of directors—Composition—Term.

1. The governing body of each authority shall be known as the board of directors.

2(a) In the case of an authority comprised of one county, with a population of less than four hundred thousand people, the board shall be comprised of two appointees of the city selection committee, at least one of whom shall represent the city having the most population in the county, and two
representatives to be designated by the board of county commissioners.

(b) In the case of an authority comprised of one county, with a population of equal to or greater than four hundred thousand people, the board shall be comprised of three appointees of cities, one each from the two cities with the most population in the county and one appointee of the city selection committee representing the other cities, and one representative to be designated by the board of county commissioners.

(c) In the case of an authority comprised of two, three, four, or five counties, the board shall be comprised of one appointee from each county, who shall represent the city having the most population in such county, to be designated by the mayor and city council of such city, and one representative from each county to be designated by the board of county commissioners of each county making up the authority.

(d) In the case of an authority comprised of six or more counties, the board shall be comprised of one representative from each county to be designated by the board of county commissioners of each county making up the authority, and three appointees, one each from the three largest cities within the local authority’s jurisdiction to be appointed by the mayor and city council of such city.

(3) If the board of an authority otherwise would consist of an even number, the members selected as above provided shall agree upon and elect an additional member who shall be:

(a) In the case of an authority comprised of one county with a population of equal to or greater than four hundred thousand people, a citizen residing in the county who demonstrates significant professional experience in the field of public health, air quality protection, or meteorology; or

(b) In the case of an authority comprised of one county, with a population less than four hundred thousand people, or of more than one county, either a member of the governing body of one of the towns, cities or counties comprising the authority, or a private citizen residing in the authority.

(4) The terms of office of board members shall be four years.

(5) Wherever a member of a board has a potential conflict of interest in an action before the board, the member shall declare to the board the nature of the potential conflict prior to participating in the action review. The board shall, if the potential conflict of interest, in the judgment of a majority of the board, may prevent the member from a fair and objective review of the case, remove the member from participation in the action. [2006 c 227 § 1; 1991 c 199 § 704; 1989 c 150 § 1; 1969 ex.s. c 168 § 13; 1967 c 238 § 21; 1957 c 232 § 10.]

Finding—1991 c 199: See note following RCW 70.94.011.

70.94.110 City selection committees. There shall be a separate and distinct city selection committee for each county making up an authority. The membership of such committee shall consist of the mayor of each incorporated city and town within such county, except that the mayors of the cities, with the most population in a county, having already designated appointees to the board of an air pollution control authority comprised of a single county shall not be members of the committee. A majority of the members of each city selection committee shall constitute a quorum. [2006 c 227 § 2; 1967 c 238 § 22; 1963 c 27 § 1; 1957 c 232 § 11.]

70.94.120 City selection committees—Meetings, notice, recording officer—Alternative mail balloting—Notice. (1) The city selection committee of each county which is included within an authority shall meet within one month after the activation of such authority for the purpose of making its initial appointments to the board of such authority and thereafter whenever necessary for the purpose of making succeeding appointments. All meetings shall be held upon at least two weeks written notice given by the county auditor to each member of the city selection committee of each county and he shall give such notice upon request of any member of such committee. A similar notice shall be given to the general public by a publication of such notice in a newspaper of general circulation in such authority. The county auditor shall act as recording officer, maintain its records and give appropriate notice of its proceedings and actions.

(2) As an alternative to meeting in accordance with subsection (1) of this section, the county auditor may mail ballots by certified mail to the members of the city selection committee, specifying a date by which to complete the ballot, and a date by which to return the completed ballot. Each mayor who chooses to participate in the balloting shall write in the choice for appointment, sign the ballot, and return the ballot to the county auditor. Each completed ballot shall be date-stamped upon receipt by the mayor or staff of the mayor of the city or town. The timely return of completed ballots by a majority of the members of each city selection committee constitutes a quorum and the common choice by a majority of the quorum constitutes a valid appointment.

(3) Balloting shall be preceded by at least two weeks’ written notice, given by the county auditor to each member of the city selection committee. A similar notice shall be given to the general public by publication in a newspaper of general circulation in the authority. [1995 c 261 § 2; 1969 ex.s. c 168 § 14; 1967 c 238 § 23; 1957 c 232 § 12.]

70.94.130 Air pollution control authority—Board of directors—Powers, quorum, officers, compensation. The board shall exercise all powers of the authority except as otherwise provided. The board shall conduct its first meeting within thirty days after all of its members have been appointed or designated as provided in RCW 70.94.100. The board shall meet at least ten times per year. All meetings shall be publicly announced prior to their occurrence. All meetings shall be open to the public. A majority of the board shall constitute a quorum for the transaction of business and shall be necessary for any action taken by the board. The board shall elect from its members a chair and such other officers as may be necessary. Any member of the board may designate a regular alternate to serve on the board in his or her place with the same authority as the member when he or she is unable to attend. In no event may a regular alternate serve as the permanent chair. Each member of the board, or his or her representative, shall receive from the authority compensation consistent with such authority’s rates (but not to exceed one thousand dollars per year) for time spent in the performance of
duties under this chapter, plus the actual and necessary expenses incurred by the member in such performance. The board may appoint a control officer, and any other personnel, and shall determine their salaries, and pay same, together with any other proper indebtedness, from authority funds. [1998 c 342 § 1; 1991 c 199 § 705; 1969 ex.s. c 168 § 15; 1967 c 238 § 24; 1957 c 232 § 13.]

Finding—1991 c 199: See note following RCW 70.94.011.

70.94.141 Air pollution control authority—Powers and duties of activated authority. The board of any activated authority in addition to any other powers vested in them by law, shall have power to:

(1) Adopt, amend and repeal its own rules and regulations, implementing this chapter and consistent with it, after consideration at a public hearing held in accordance with chapter 42.30 RCW. Rules and regulations shall also be adopted in accordance with the notice and adoption procedures set forth in RCW 34.05.320, those provisions of RCW 34.05.325 that are not in conflict with chapter 42.30 RCW, and with the procedures of RCW 34.05.340, *34.05.355 through 34.05.380, and with chapter 34.08 RCW, except that rules shall not be published in the Washington Administrative Code. Judicial review of rules adopted by an authority shall be in accordance with Part V of chapter 34.05 RCW. An air pollution control authority shall not be deemed to be a state agency.

(2) Hold hearings relating to any aspect of or matter in the administration of this chapter not prohibited by the provisions of chapter 62, Laws of 1970 ex. sess. and in connection therewith issue subpoenas to compel the attendance of witnesses and the production of evidence, administer oaths and take the testimony of any person under oath.

(3) Issue such orders as may be necessary to effectuate the purposes of this chapter and enforce the same by all appropriate administrative and judicial proceedings subject to the rights of appeal as provided in chapter 62, Laws of 1970 ex. sess.

(4) Require access to records, books, files and other information specific to the control, recovery or release of air contaminants into the atmosphere.

(5) Secure necessary scientific, technical, administrative and operational services, including laboratory facilities, by contract or otherwise.

(6) Prepare and develop a comprehensive plan or plans for the prevention, abatement and control of air pollution within its jurisdiction.

(7) Encourage voluntary cooperation by persons or affected groups to achieve the purposes of this chapter.

(8) Encourage and conduct studies, investigation and research relating to air pollution and its causes, effects, prevention, abatement and control.

(9) Collect and disseminate information and conduct educational and training programs relating to air pollution.

(10) Advise, consult, cooperate and contract with agencies and departments and the educational institutions of the state, other political subdivisions, industries, other states, interstate or interlocal agencies, and the United States government, and with interested persons or groups.

(11) Consult, upon request, with any person proposing to construct, install, or otherwise acquire an air contaminant source or device or system for the control thereof, concerning the efficacy of such device or system, or the air pollution problems which may be related to the source, device or system. Nothing in any such consultation shall be construed to relieve any person from compliance with this chapter, ordinances, resolutions, rules and regulations in force pursuant thereto, or any other provision of law.

(12) Accept, receive, disburse and administer grants or other funds or gifts from any source, including public and private agencies and the United States government for the purpose of carrying out any of the functions of this chapter. [1991 c 199 § 706; 1970 ex.s. c 62 § 56; 1969 ex.s. c 168 § 16; 1967 c 238 § 25.]

*Reviser's note: RCW 34.05.355 was repealed by 1995 c 403 § 305.

Finding—1991 c 199: See note following RCW 70.94.011.

Savings—Effective date—Severability—1970 ex.s. c 62: See notes following RCW 43.21A.010.

70.94.142 Subpoena powers— Witnesses, expenses and mileage—Rules and regulations. In connection with the subpoena powers given in RCW 70.94.141(2):

(1) In any hearing held under RCW 70.94.181 and 70.94.221, the board or the department, and their authorized agents:

(a) Shall issue a subpoena upon the request of any party and, to the extent required by rule or regulation, upon a statement or showing of general relevance and reasonable scope of the evidence sought;

(b) May issue a subpoena upon their own motion.

(2) The subpoena powers given in RCW 70.94.141(2) shall be statewide in effect.

(3) Witnesses appearing under the compulsion of a subpoena in a hearing before the board or the department shall be paid the same fees and mileage that are provided for witnesses in the courts of this state. Such fees and mileage, and the cost of duplicating records required to be produced by subpoena issued upon the motion of the board or department, shall be paid by the board or department. Such fees and mileage, and the cost of producing records required to be produced by subpoena issued upon the request of a party, shall be paid by that party.

(4) If an individual fails to obey the subpoena, or obeys the subpoena but refuses to testify when required concerning any matter under examination or investigation or the subject of the hearing, the board or department shall file its written report thereof and proof of service of its subpoena, in any court of competent jurisdiction in the county where the examination, hearing or investigation is being conducted. Thereupon, the court shall forthwith cause the individual to be brought before it and, upon being satisfied that the subpoena is within the jurisdiction of the board or department and otherwise in accordance with law, shall punish him as if the failure or refusal related to a subpoena from or testimony in that court.

(5) The department may make such rules and regulations as to the issuance of its own subpoenas as are not inconsistent with the provisions of this chapter. [1987 c 109 § 35; 1969 ex.s. c 168 § 17; 1967 c 238 § 26.]
70.94.143 Federal aid. Any authority exercising the powers and duties prescribed in this chapter may make application for, receive, administer, and expend any federal aid, under federal legislation from any agency of the federal government, for the prevention and control of air pollution or the development and administration of programs related to air pollution control and prevention, as permitted by RCW 70.94.141(12): PROVIDED, That any such application shall be submitted to and approved by the department. The department shall adopt rules and regulations establishing standards for such approval and shall approve any such application, if it is consistent with this chapter, and any other applicable requirements of law. [1987 c 109 § 36; 1969 ex.s. c 168 § 18; 1967 c 238 § 27.]

70.94.151 Classification of air contaminant sources—Registration—Fee—Registration program defined—Adoption of rules requiring the reporting of emissions of greenhouse gases. (1) The board of any activated authority or the department, may classify air contaminant sources, by ordinance, resolution, rule or regulation, which in its judgment may cause or contribute to air pollution, according to levels and types of emissions and other characteristics which cause or contribute to air pollution, and may require registration or reporting or both for any such class or classes. Classifications made pursuant to this section may be for application to the area of jurisdiction of such authority, or the state as a whole or to any designated area within the jurisdiction, and shall be made with special reference to effects on health, economic and social factors, and physical effects on property.

(2) Except as provided in subsection (3) of this section, any person operating or responsible for the operation of air contaminant sources of any class for which the ordinances, resolutions, rules or regulations of the department or board of the authority, require registration or reporting shall register therewith and make reports containing information as may be required by such department or board concerning location, size and height of contaminant outlets, processes employed, nature of the contaminant emission and such other information as is relevant to air pollution and available or reasonably capable of being assembl ed. In the case of emissions of greenhouse gases as defined in RCW 70.235.010 the department shall adopt rules requiring reporting of those emissions. The department or board may require that such registration or reporting be accompanied by a fee, and may determine the amount of such fee for such class or classes: PROVIDED, That the amount of the fee shall only be to compensate for the costs of administering such registration or reporting program which shall be defined as initial registration and annual or other periodic reports from the source owner providing information directly related to air pollution registration, on-site inspections necessary to verify compliance with registration requirements, data storage and retrieval systems necessary for support of the registration program, emission inventory reports and emission reduction credits computed from information provided by sources pursuant to registration program requirements, staff review, including engineering or other reliable analysis for accuracy and currentness, of information provided by sources pursuant to registration program requirements, clerical and other office support provided in direct furtherance of the registration program, and administrative support provided in directly carrying out the registration program: PROVIDED FURTHER, That any such registration made with either the board or the department shall preclude a further registration and reporting with any other board or the department, except that emissions of greenhouse gases as defined in RCW 70.235.010 must be reported as required under subsection (5) of this section.

All registration program and reporting fees collected by the department shall be deposited in the air pollution control account. All registration program fees collected by the local air authorities shall be deposited in their respective treasuries.

(3) If a registration or report has been filed for a grain warehouse or grain elevator as required under this section, registration, reporting, or a registration program fee shall not, after January 1, 1997, again be required under this section for the warehouse or elevator unless the capacity of the warehouse or elevator as listed as part of the license issued for the facility has been increased since the date the registration or reporting was last made. If the capacity of the warehouse or elevator listed as part of the license is increased, any registration or reporting required for the warehouse or elevator under this section must be made by the date the warehouse or elevator receives grain from the first harvest season that occurs after the increase in its capacity is listed in the license.

This subsection does not apply to a grain warehouse or grain elevator if the warehouse or elevator handles more than ten million bushels of grain annually.

(4) For the purposes of subsection (3) of this section:

(a) A "grain warehouse" or "grain elevator" is an establishment classified in standard industrial classification (SIC) code 5153 for wholesale trade for which a license is required and includes, but is not limited to, such a licensed facility that also conducts cleaning operations for grain;

(b) A "license" is a license issued by the department of agriculture licensing a facility as a grain warehouse or grain elevator under chapter 22.09 RCW or a license issued by the federal government licensing a facility as a grain warehouse or grain elevator for purposes similar to those of licensure for the facility under chapter 22.09 RCW; and

(c) "Grain" means a grain or a pulse.

(5)(a) The department shall adopt rules requiring the reporting of emissions of greenhouse gases as defined in RCW 70.235.010. The rules must include a de minimis amount of emissions below which reporting will not be required for both indirect and direct emissions. The rules must require that emissions of greenhouse gases resulting from the burning of fossil fuels be reported separately from emissions of greenhouse gases resulting from the burning of biomass. Except as provided in (b) of this subsection, the department shall, under the authority granted in subsection (1) of this section, adopt rules requiring any owner or operator: (i) Of a fleet of on-road motor vehicles that as a fleet emit at least twenty-five hundred metric tons of greenhouse gas annually in the state to report the emissions of greenhouse gases generated from or emitted by that fleet; or (ii) of a
source or combination of sources that emit at least ten thousand metric tons of greenhouse gas annually in the state to report their total annual emissions of greenhouse gases. In calculating emissions of greenhouse gases for purposes of determining whether or not reporting is required, only direct emissions shall be included. For purposes of reporting emissions of greenhouse gases in chapter 14, Laws of 2008, "source" means any stationary source as defined in RCW 70.94.030, or mobile source used for transportation of people or cargo. The emissions of greenhouse gases must be reported as carbon dioxide equivalents. The rules must require that persons report 2009 emissions starting in 2010. The rules must establish an annual reporting schedule that takes into account the time needed to allow the owner or operator reporting emissions of greenhouse gases to gather the information needed and to verify the emissions being reported. However, in no event may reports be submitted later than October 31st of the year in which the report is due. The department may phase in the reporting requirements for sources or combinations of sources under (a)(ii) of this subsection until the reporting threshold is met, which must be met by January 1, 2012. The department may from time to time amend the rules to include other persons that emit less than the annual greenhouse gas emissions levels set out in this subsection if necessary to comply with any federal reporting requirements for emissions of greenhouse gases.

(b) In its rules, the department may defer the reporting requirement under (a) of this subsection for emissions associated with interstate and international commercial aircraft, rail, truck, or marine vessels until (i) there is a federal requirement to report these emissions; or (ii) the department finds that there is a generally accepted reporting protocol for determining interstate emissions from these sources.

(c) The department shall share any reporting information reported to it with the local air authority in which the owner or operator reporting under the rules adopted by the department operates.

(d) The fee provisions in subsection (2) of this section apply to reporting of emissions of greenhouse gases. Owners and operators required to report under (a) of this subsection who fail to report or pay the fee required in subsection (2) of this section are subject to enforcement penalties under this chapter. The department shall enforce the reporting rule requirements unless it approves a local air authority's request to enforce the requirements for sources operating within the authority's jurisdiction.

(e) The energy facility site evaluation council shall, simultaneously with the department, adopt rules that impose greenhouse gas reporting requirements in site certifications on owners or operators of a facility permitted by the energy facility site evaluation council. The greenhouse gas reporting requirements imposed by the energy facility site evaluation council must be the same as the greenhouse gas reporting requirements imposed by the department. The department shall share any information reported to it from facilities permitted by the energy facility site evaluation council with the council, including notice of a facility that has failed to report as required. The energy facility site evaluation council shall contract with the department to monitor the reporting requirements adopted under this section.

(f) In developing its rules, the department shall, with the assistance of the department of transportation, identify a mechanism to report an aggregate estimate of the annual emissions of greenhouse gases generated from or emitted by otherwise unreported on-road motor vehicles.

(g) The inclusion or failure to include any person, source, classes of persons or sources, or types of emissions of greenhouse gases into the department's rules for reporting under this section does not indicate whether such a person, source, or category is appropriate for inclusion in the multi-sector market-based system designed under RCW 70.235.020.

(h) Should the federal government adopt rules sufficient to track progress toward the emissions reductions required by chapter 14, Laws of 2008 governing the reporting of greenhouse gases, the department shall amend its rules, as necessary, to seek consistency with the federal rules to ensure duplicate reporting is not required. Nothing in this section requires the department to increase the reporting threshold established in (a) of this subsection or otherwise require the department's rules to be identical to the federal rules in scope.

(i) The definitions in RCW 70.235.010 apply throughout this subsection (5) unless the context clearly requires otherwise. [2008 c 14 § 5; 2005 c 138 § 1; 1997 c 410 § 1; 1993 c 252 § 3; 1987 c 109 § 37; 1984 c 88 § 2; 1969 ex.s. c 168 § 19; 1967 c 238 § 28.]

Findings—Intent—Scope of chapter 14, Laws of 2008—Severability—2008 c 14: See RCW 70.235.005, 70.235.900, and 70.235.901.

70.94.152 Notice may be required of construction of proposed new contaminant source—Submission of plans—Approval, disapproval—Emission control—"De minimis new sources" defined. (1) The department of ecology or board of any authority may require notice of the establishment of any proposed new sources except single family and duplex dwellings or de minimis new sources as defined in rules adopted under subsection (11) of this section. The department of ecology or board may require such notice to be accompanied by a fee and determine the amount of such fee: PROVIDED, That the amount of the fee may not exceed the cost of reviewing the plans, specifications, and other information and administering such notice: PROVIDED FURTHER, That any such notice given or notice of construction application submitted to either the board or to the department of ecology shall preclude a further submittal of a duplicate application to any board or to the department of ecology.

(2) The department shall, after opportunity for public review and comment, adopt rules that establish a workload-driven process for determination and review of the fee covering the direct and indirect costs of processing a notice of construction application and a methodology for tracking revenues and expenditures. All new source fees collected by the delegated local air authorities from sources shall be deposited in the dedicated accounts of their respective treasuries. All new source fees collected by the department from sources shall be deposited in the air pollution control account.

(3) Within thirty days of receipt of a notice of construction application, the department of ecology or board may require, as a condition precedent to the establishment of the
new source or sources covered thereby, the submission of plans, specifications, and such other information as it deems necessary to determine whether the proposed new source will be in accord with applicable rules and regulations in force under this chapter. If on the basis of plans, specifications, or other information required under this section the department of ecology or board determines that the proposed new source will not be in accord with this chapter or the applicable ordinances, resolutions, rules, and regulations adopted under this chapter, it shall issue an order denying permission to establish the new source. If on the basis of plans, specifications, or other information required under this section, the department of ecology or board determines that the proposed new source will be in accord with this chapter, and the applicable rules and regulations adopted under this chapter, it shall issue an order of approval for the establishment of the new source or sources, which order may provide such conditions as are reasonably necessary to assure the maintenance of compliance with this chapter and the applicable rules and regulations adopted under this chapter. Every order of approval under this chapter must be reviewed prior to issuance by a professional engineer in the employ of the department of ecology or board.

(4) The determination required under subsection (3) of this section shall include a determination of whether the operation of the new air contaminant source at the location proposed will cause any ambient air quality standard to be exceeded.

(5) New source review of a modification shall be limited to the emission unit or units proposed to be modified and the air contaminants whose emissions would increase as a result of the modification.

(6) Nothing in this section shall be construed to authorize the department of ecology or board to require the use of emission control equipment or other equipment, machinery, or devices of any particular type, from any particular supplier, or produced by any particular manufacturer.

(7) Any features, machines, and devices constituting parts of or called for by plans, specifications, or other information submitted pursuant to subsection (1) or (3) of this section shall be maintained and operate in good working order.

(8) The absence of an ordinance, resolution, rule, or regulation, or the failure to issue an order pursuant to this section shall not relieve any person from his or her obligation to comply with applicable emission control requirements or with any other provision of law.

(9) Within thirty days of receipt of a notice of construction application the department of ecology or board shall either notify the applicant in writing that the application is complete or notify the applicant in writing of all additional information necessary to complete the application. Within sixty days of receipt of a complete application the department or board shall either (a) issue a final decision on the application, or (b) for those projects subject to public notice, initiate notice and comment on a proposed decision, followed as promptly as possible by a final decision. A person seeking approval to construct or modify a source that requires an operating permit may elect to integrate review of the operating permit application or amendment required by RCW 70.94.161 and the notice of construction application required by this section. A notice of construction application designated for integrated review shall be processed in accordance with operating permit program procedures and deadlines.

(10) A notice of construction approval required under subsection (3) of this section shall include a determination that the new source will achieve best available control technology. If more stringent controls are required under federal law, the notice of construction shall include a determination that the new source will achieve the more stringent federal requirements. Nothing in this subsection is intended to diminish other state authorities under this chapter.

(11) No person is required to submit a notice of construction or receive approval for a new source that is deemed by the department of ecology or board to have de minimis impact on air quality. The department of ecology shall adopt and periodically update rules identifying categories of de minimis new sources. The department of ecology may identify de minimis new sources by category, size, or emission thresholds.

(12) For purposes of this section, "de minimis new sources" means new sources with trivial levels of emissions that do not pose a threat to human health or the environment. [1996 c 29 § 1 and by 1996 c 67 § 1; each without reference to the other. Both amendments are incorporated in the publication of this section under RCW 1.12.025(2). For rule of construction, see RCW 1.12.025(1).]

Finding—1991 c 199: See note following RCW 70.94.011.

Use of emission credits to be consistent with new source review program: RCW 70.94.850.
70.94.154 RACT requirements. (1) RACT as defined in RCW 70.94.030 is required for existing sources except as otherwise provided in RCW 70.94.331(9).

(2) RACT for each source category containing three or more sources shall be determined by rule except as provided in subsection (3) of this section.

(3) Source-specific RACT determinations may be performed under any of the following circumstances:
   (a) As authorized by RCW 70.94.153;
   (b) When required by the federal clean air act;
   (c) For sources in source categories containing fewer than three sources;
   (d) When an air quality problem, for which the source is a contributor, justifies a source-specific RACT determination prior to development of a categorical RACT rule; or
   (e) When a source-specific RACT determination is needed to address either specific air quality problems for which the source is a significant contributor or source-specific economic concerns.

(4) By January 1, 1994, ecology shall develop a list of sources and source categories requiring RACT review and a schedule for conducting that review. Ecology shall review the list and schedule within six months of receiving the initial operating permit applications and at least once every five years thereafter. In developing the list to determine the schedule of RACT review, ecology shall consider emission reductions achievable through the use of new available technologies and the impacts of those incremental reductions on air quality, the remaining useful life of previously installed control equipment, the impact of the source or source category on air quality, the number of years since the last BACT, RACT, or LAER determination for that source and other relevant factors. Prior to finalizing the list and schedule, ecology shall consult with local authorities, the regulated community, environmental groups, and other interested individuals and organizations. The department and local authorities shall revise RACT requirements, as needed, based on the review conducted under this subsection.

(5) In determining RACT, ecology and local authorities shall utilize the factors set forth in RCW 70.94.030 and shall consider RACT determinations and guidance made by the federal environmental protection agency, other states and local authorities for similar sources, and other relevant factors. In establishing or revising RACT requirements, ecology and local authorities shall address, where practicable, all air contaminants deemed to be of concern for that source or source category.

(6) Emission standards and other requirements contained in rules or regulatory orders in effect at the time of operating permit issuance or renewal shall be considered RACT for purposes of permit issuance or renewal. RACT determinations under subsections (2) and (3) of this section shall be incorporated into operating permits as provided in RCW 70.94.161 and rules implementing that section.

(7) The department and local authorities are authorized to assess and collect a fee to cover the costs of developing, establishing, or reviewing categorical or case-by-case RACT requirements. The fee shall apply to determinations of RACT requirements as defined under this section and RCW 70.94.331(9). The amount of the fee may not exceed the direct and indirect costs of establishing the requirement for the particular source or the pro rata portion of the direct and indirect costs of establishing the requirement for the relevant source category. The department shall, after opportunity for public review and comment, adopt rules that establish a workload-driven process for determination and review of the fee covering the direct and indirect costs of its RACT determinations and a methodology for tracking revenues and expenditures. All such RACT determination fees collected by the delegated local air authorities from sources shall be deposited in the dedicated accounts of their respective treasuries. All such RACT fees collected by the department from sources shall be deposited in the air pollution control account. [1996 c 29 § 2; 1993 c 252 § 8.]

70.94.155 Control of emissions—Bubble concept—Schedules of compliance. (1) As used in subsection (3) of this section, the term "bubble" means an air pollution control system which permits aggregate measurements of allowable emissions, for a single category of pollutant, for emissions points from a specified emissions-generating facility or facilities. Individual point source emissions levels from such specified facility or facilities may be modified provided that the aggregate limit for the specified sources is not exceeded.

(2) Whenever any regulation relating to emission standards or other requirements for the control of emissions is adopted which provides for compliance with such standards or requirements no later than a specified time after the date of adoption of the regulation, the appropriate activated air pollution control authority or, if there be none, the department of ecology shall, by permit or regulatory order, issue to air contaminant sources subject to the standards or requirements, schedules of compliance setting forth timetables for the achievement of compliance as expeditiously as practicable, but in no case later than the time specified in the regulation. Interim dates in such schedules for the completion of steps of progress toward compliance shall be as enforceable as the final date for full compliance therein.

(3) Wherever requirements necessary for the attainment of air quality standards or, where such standards are not exceeded, for the maintenance of air quality can be achieved through the use of a control program involving the bubble concept, such program may be authorized by a regulatory order or orders or permit issued to the air contaminant source or sources involved. Such order or permit shall only be authorized after the control program involving the bubble concept is accepted by [the] United States environmental protection agency as part of an approved state implementation plan. Any such order or permit provision shall restrict total emissions within the bubble to no more than would otherwise be allowed in the aggregate for all emitting processes covered. The orders or permits provided for by this subsection shall be issued by the department or the authority with jurisdiction. If the bubble involves interjurisdictional approval, concurrence in the total program must be secured from each regulatory entity concerned. [1991 c 199 § 305; 1981 c 224 § 1; 1973 1st ex.s. c 193 § 3.]
70.94.157 Preemption of uniform building and fire codes. The department and local air pollution control authorities shall preempt the application of chapter 9 of the uniform building code and article 80 of the uniform fire code by other state agencies and local governments for the purposes of controlling outdoor air pollution from industrial and commercial sources, except where authorized by chapter 199, Laws of 1991. Actions by other state agencies and local governments under article 80 of the uniform fire code to take immediate action in response to an emission that presents a physical hazard or imminent health hazard are not preempted.

Finding—1991 c 199: See note following RCW 70.94.011.

70.94.161 Operating permits for air contaminant sources—Generally—Fees, report to legislature. The department of ecology, or board of an authority, shall require renewable permits for the operation of air contaminant sources subject to the following conditions and limitations:

(1) Permits shall be issued for a term of five years. A permit may be modified or amended during its term at the request of the permittee, or for any reason allowed by the federal clean air act. The rules adopted pursuant to subsection (2) of this section shall include rules for permit amendments and modifications. The terms and conditions of a permit shall remain in effect after the permit itself expires if the permittee submits a timely and complete application for permit renewal.

(2)(a) Rules establishing the elements for a statewide operating permit program and the process for permit application and renewal consistent with federal requirements shall be established by the department by January 1, 1993. The rules shall provide that every proposed permit must be reviewed prior to issuance by a professional engineer or staff under the direct supervision of a professional engineer in the employ of the permitting authority. The permit program established by these rules shall be administered by the department and delegated local air authorities. Rules developed under this subsection shall not preclude a delegated local air authority from including in a permit its own more stringent emission standards and operating restrictions.

(b) The board of any local air pollution control authority may apply to the department of ecology for a delegation order authorizing the local authority to administer the operating permit program for sources under that authority’s jurisdiction. The department shall, by order, approve such delegation order if the department finds that the local authority has the technical and financial resources, to discharge the responsibilities of a permitting authority under the federal clean air act. A delegation request shall include adequate information about the local authority’s responsibilities to enable the department to make the findings required by this subsection. However, any delegation order issued under this subsection shall take effect ninety days after the environmental protection agency issues a compliance plan and permit application, signed by a responsible official, certifying the accuracy of the information submitted. Until permits are issued, existing sources shall be allowed to operate under presently applicable standards and conditions provided that such sources submit complete and timely permit applications.

(3) In establishing technical standards, defined in RCW 70.94.030, the permitting authority shall consider and, if found to be appropriate, give credit for waste reduction within the process.

(4) Operating permits shall apply to all sources (a) where required by the federal clean air act, and (b) for any source that may cause or contribute to air pollution in such quantity as to create a threat to the public health or welfare. Subsection (b) of this subsection is not intended to apply to small businesses except when both of the following limitations are satisfied: (i) The source is in an area exceeding or threatening to exceed federal or state air quality standards; and (ii) the department provides a reasonable justification that requiring a source to have a permit is necessary to meet a federal or state air quality standard, or to prevent exceeding a standard in an area threatening to exceed the standard. For purposes of this subsection "areas threatening to exceed air quality standards" shall mean areas projected by the department to exceed such standards within five years. Prior to identifying threatened areas the department shall hold a public hearing or hearings within the proposed areas.

(5) Sources operated by government agencies are not exempt under this section.

(6) Within one hundred eighty days after the United States environmental protection agency approves the state operating permit program, a person required to have a permit shall submit to the permitting authority a compliance plan and permit application, signed by a responsible official, certifying the accuracy of the information submitted. Until permits are issued, existing sources shall be allowed to operate under presently applicable standards and conditions provided that such sources submit complete and timely permit applications.

(7) All draft permits shall be subject to public notice and comment. The rules adopted pursuant to subsection (2) of this section shall specify procedures for public notice and comment. Such procedures shall provide the permitting agency with an opportunity to respond to comments received from interested parties prior to the time that the proposed permit is submitted to the environmental protection agency for review pursuant to section 505(a) of the federal clean air act. In the event that the environmental protection agency objects to a proposed permit pursuant to section 505(b) of the federal clean air act, the permitting authority shall not issue the permit, unless the permittee consents to the changes required by the environmental protection agency.

(8) The procedures contained in chapter 43.21B RCW shall apply to permit appeals. The pollution control hearings board may stay the effectiveness of any permit issued under this section during the pendency of an appeal filed by the permittee, if the permittee demonstrates that compliance with the permit during the pendency of the appeal would require significant expenditures that would not be necessary in the event that the permittee prevailed on the merits of the appeal.

(9) After the effective date of any permit program promulgated under this section, it shall be unlawful for any person to: (a) Operate a permitted source in violation of any
among the sources under its jurisdiction emitting one hun-
dred tons or more per year of a regulated pollutant during cal-
endar year 1992 and may collect an interim fee from these
sources. A fee assessed pursuant to this subsection (14)(d)
shall be collected at the same time as the fee assessed pursu-
ant to (c) of this subsection.

(e) The fees assessed to a source under this subsection
shall be limited to the first seven thousand five hundred tons
for each regulated pollutant per year.

(15)(a) The department shall determine the persons lia-
ble for the fee imposed by subsection (14) of this section,
compute the fee, and provide by November 1, 1993, the iden-
tity of the fee payer with the computation of the fee to each
local authority and to the department of revenue for collec-
tion. The department of revenue shall collect the fee com-
piled by the department from the fee payers under the juris-
diction of the department. The administrative, collection, and
penalty provisions of chapter 82.32 RCW shall apply to the
collection of the fee by the department of revenue. The
department shall provide technical assistance to the depart-
ment of revenue for decisions made by the department of rev-
ue pursuant to RCW 82.32.160 and 82.32.170. All interim
fees collected by the department of revenue on behalf of the
department and all interim fees collected by local authorities
on behalf of the department shall be deposited in the air oper-
ating permit account. The interim fees collected by the local
air authorities to cover their permit program development
costs under subsection (14)(d) of this section shall be depos-
ited in the dedicated accounts of their respective treasuries.

(b) All fees identified in this section shall be due and
payable on March 1, 1994, except that the local air pollution
control authorities may adopt by rule an earlier date on which
fees are to be due and payable. The section 5, chapter 252,
Laws of 1993 amendments to RCW 70.94.161 do not have
the effect of terminating, or in any way modifying, any liabil-
ity, civil or criminal, incurred pursuant to the provisions of
RCW 70.94.161 (15) and (17) as they existed prior to July 25,
1993.

(16) For sources or source categories not required to
obtain permits under subsection (4) of this section, the
department or local authority may establish by rule control
technology requirements. If control technology rule revi-
sions are made by the department or local authority under this
subsection, the department or local authority shall consider
the remaining useful life of control equipment previously
installed on existing sources before requiring technology
changes. The department or any local air authority may issue
a general permit, as authorized under the federal clean air act,
for such sources.

(17) Emissions of greenhouse gases as defined in RCW
70.235.010 must be reported as required by RCW 70.94.151.
The reporting provisions of RCW 70.94.151 shall not apply
to any other emissions from any permit program source after
the effective date of United States environmental protection
agency approval of the state operating permit program.

Air operating permit account: RCW 70.94.015.

(2008 Ed.)
70.94.162 Annual fees from operating permit program source to cover cost of program. (1) The department and delegated local air authorities are authorized to determine, assess, and collect, and each permit program source shall pay, annual fees sufficient to cover the direct and indirect costs of implementing a state operating permit program approved by the United States environmental protection agency under the federal clean air act. However, a source that receives its operating permit from the United States environmental protection agency shall not be considered a permit program source so long as the environmental protection agency continues to act as the permitting authority for that source. Each permitting authority shall develop by rule a fee schedule allocating among its permit program sources the costs of the operating permit program, and may, by rule, establish a payment schedule whereby periodic installments of the annual fee are due and payable more frequently. All operating permit program fees collected by the department shall be deposited in the air operating permit account. All operating permit program fees collected by the delegated local air authorities shall be deposited in their respective air operating permit accounts or other accounts dedicated exclusively to support of the operating permit program. The fees assessed under this subsection shall first be due not less than forty-five days after the United States environmental protection agency delegates to the department the authority to administer the operating permit program and then annually thereafter.

The department shall establish, by rule, procedures for administrative appeals to the department regarding the fee assessed pursuant to this subsection.

(2) The fee schedule developed by each permitting authority shall fully cover and not exceed both its permit administration costs and the permitting authority’s share of statewide program development and oversight costs.

(a) Permit administration costs are those incurred by each permitting authority, including the department, in administering and enforcing the operating permit program with respect to sources under its jurisdiction. Costs associated with the following activities are fee eligible as these activities relate to the operating permit program and to the sources permitted by a permitting authority, including, where applicable, sources subject to a general permit:

(i) Preapplication assistance and review of an application and proposed compliance plan for a permit, permit revision, or renewal;

(ii) Source inspections, testing, and other data-gathering activities necessary for the development of a permit, permit revision, or renewal;

(iii) Acting on an application for a permit, permit revision, or renewal, including the costs of developing an applicable requirement as part of the processing of a permit, permit revision, or renewal, preparing a draft permit and fact sheet, and preparing a final permit, but excluding the costs of developing BACT, LAER, BART, or RACT requirements for criteria and toxic air pollutants;

(iv) Notifying and soliciting, reviewing and responding to comment from the public and contiguous states and tribes, conducting public hearings regarding the issuance of a draft permit and other costs of providing information to the public regarding operating permits and the permit issuance process;

(v) Modeling necessary to establish permit limits or to determine compliance with permit limits;

(vi) Reviewing compliance certifications and emissions reports and conducting related compilation and reporting activities;

(vii) Conducting compliance inspections, complaint investigations, and other activities necessary to ensure that a source is complying with permit conditions;

(viii) Administrative enforcement activities and penalty assessment, excluding the costs of proceedings before the pollution control hearings board and all costs of judicial enforcement;

(ix) The share attributable to permitted sources of the development and maintenance of emissions inventories;

(x) The share attributable to permitted sources of ambient air quality monitoring and associated recording and reporting activities;

(xi) Training for permit administration and enforcement;

(xii) Fee determination, assessment, and collection, including the costs of necessary administrative dispute resolution and penalty collection;

(xiii) Required fiscal audits, periodic performance audits, and reporting activities;

(xiv) Tracking of time, revenues and expenditures, and accounting activities;

(xv) Administering the permit program including the costs of clerical support, supervision, and management;

(xvi) Provision of assistance to small businesses under the jurisdiction of the permitting authority as required under section 507 of the federal clean air act; and

(xvii) Other activities required by operating permit regulations issued by the United States environmental protection agency under the federal clean air act.

(b) Development and oversight costs are those incurred by the department in developing and administering the state operating permit program, and in overseeing the administration of the program by the delegated local permitting authorities. Costs associated with the following activities are fee eligible as these activities relate to the operating permit program:

(i) Review and determinations necessary for delegation of authority to administer and enforce a permit program to a local air authority under RCW 70.94.161(2) and 70.94.860;

(ii) Conducting fiscal audits and periodic performance audits of delegated local authorities, and other oversight functions required by the operating permit program;

(iii) Administrative enforcement actions taken by the department on behalf of a permitting authority, including those actions taken by the department under RCW 70.94.785, but excluding the costs of proceedings before the pollution control hearings board and all costs of judicial enforcement;

(iv) Determination and assessment with respect to each permitting authority of the fees covering its share of the costs of development and oversight;

(v) Training and assistance for permit program administration and oversight, including training and assistance regarding technical, administrative, and data management issues;

(vi) Development of generally applicable regulations or guidance regarding the permit program or its implementation or enforcement;
(vii) State codification of federal rules or standards for inclusion in operating permits;

(viii) Preparation of delegation package and other activities associated with submittal of the state permit program to the United States environmental protection agency for approval, including ongoing coordination activities;

(ix) General administration and coordination of the state permit program, related support activities, and other agency indirect costs, including necessary data management and quality assurance;

(x) Required fiscal audits and periodic performance audits of the department, and reporting activities;

(xi) Tracking of time, revenues and expenditures, and accounting activities;

(xii) Public education and outreach related to the operating permit program, including the maintenance of a permit register;

(xiii) The share attributable to permitted sources of compiling and maintaining emissions inventories;

(xiv) The share attributable to permitted sources of ambient air quality monitoring, related technical support, and associated recording activities;

(xv) The share attributable to permitted sources of modeling activities;

(xvi) Provision of assistance to small business as required under section 507 of the federal clean air act as it exists on July 25, 1993, or its later enactment as adopted by reference by the director by rule;

(xvii) Provision of services by the department of revenue and the office of the state attorney general and other state agencies in support of permit program administration;

(xviii) A one-time revision to the state implementation plan to make those administrative changes necessary to ensure coordination of the state implementation plan and the operating permit program; and

(xix) Other activities required by operating permit regulations issued by the United States environmental protection agency under the federal clean air act.

(3) The responsibility for operating permit fee determination, assessment, and collection is to be shared by the department and delegated local air authorities as follows:

(a) Each permitting authority, including the department, acting in its capacity as a permitting authority, shall develop a fee schedule and mechanism for collecting fees from the permit program sources under its jurisdiction; the fees collected by each authority shall be sufficient to cover its costs of permit administration and its share of the department’s costs of development and oversight. Each delegated local authority shall remit to the department its share of the department’s development and oversight costs.

(b) Only those local air authorities to whom the department has delegated the authority to administer the program pursuant to RCW 70.94.161(2) (b) and (c) and 70.94.860 shall have the authority to administer and collect operating permit fees. The department shall retain the authority to administer and collect such fees with respect to the sources within the jurisdiction of a local air authority until the effective date of program delegation to that air authority.

(c) The department shall allocate its development and oversight costs among all permitting authorities, including the department, in proportion to the number of permit program sources under the jurisdiction of each authority, except that extraordinary costs or other costs readily attributable to a specific permitting authority may be assessed that authority. For purposes of this subsection, all sources covered by a single general permit shall be treated as one source.

(4) The department and each delegated local air authority shall adopt by rule a general permit fee schedule for sources under their respective jurisdictions after such time as the department adopts provisions for general permit issuance. Within ninety days of the time that the department adopts a general permit fee schedule, the department shall report to the relevant standing committees of the legislature regarding the general permit fee schedules adopted by the department and by the delegated local air authorities. The permit administration costs of each general permit shall be allocated equitably among only those sources subject to that general permit. The share of development and oversight costs attributable to each general permit shall be determined pursuant to subsection (3)(c) of this section.

(5) The fee schedule developed by the department shall allocate among the sources for whom the department acts as a permitting authority, other than sources subject to a general permit, those portions of the department’s permit administration costs and the department’s share of the development and oversight costs which the department does not plan to recover under its general permit fee schedule or schedules as follows:

(a) The department shall allocate its permit administration costs and its share of the development and oversight costs not recovered through general permit fees according to a three-tiered model based upon:

(i) The number of permit program sources under its jurisdiction;

(ii) The complexity of permit program sources under its jurisdiction; and

(iii) The size of permit program sources under its jurisdiction, as measured by the quantity of each regulated pollutant emitted by the source.

(b) Each of the three tiers shall be equally weighted.

(c) The department may, in addition, allocate activities-based costs readily attributable to a specific source to that source under RCW 70.94.152(1) and 70.94.154(7).

The quantity of each regulated pollutant emitted by a source shall be determined based on the annual emissions during the most recent calendar year for which data is available.

(6) The department shall, after opportunity for public review and comment, adopt rules that establish a process for development and review of its operating permit program fee schedule, a methodology for tracking program revenues and expenditures and, for both the department and the delegated local air authorities, a system of fiscal audits, reports, and periodic performance audits.

(a) The fee schedule development and review process shall include the following:

(i) The department shall conduct a biennial workload analysis. The department shall provide the opportunity for public review of and comment on the workload analysis. The department shall review and update its workload analysis during each biennial budget cycle, taking into account information gathered by tracking previous revenues, time, and
expenditures and other information obtained through fiscal audits and performance audits.

(ii) The department shall prepare a biennial budget based upon the resource requirements identified in the workload analysis for that biennium. In preparing the budget, the department shall take into account the projected operating permit account balance at the start of the biennium. The department shall provide the opportunity for public review of and comment on the proposed budget. The department shall review and update its budget each biennium.

(iii) The department shall develop a fee schedule allocating the department’s permit administration costs and its share of the development and oversight costs among the department’s permit program sources using the methodology described in subsection (5) of this section. The department shall provide the opportunity for public review of and comment on the allocation methodology and fee schedule. The department shall provide procedures for administrative resolution of disputes regarding the source data on which allocation determinations are based; these procedures shall be designed such that resolution occurs prior to the completion of the allocation process. The department shall review and update its fee schedule annually.

(b) The methodology for tracking revenues and expenditures shall include the following:

(i) The department shall develop a system for tracking revenues and expenditures that provides the maximum practicable information. At a minimum, revenues from fees collected under the operating permit program shall be tracked on a source-specific basis and time and expenditures required to administer the program shall be tracked on the basis of source categories and functional categories. Each general permit will be treated as a separate source category for tracking and accounting purposes.

(ii) The department shall use the information obtained from tracking revenues, time, and expenditures to modify the workload analysis required in subsection (6)(a) of this section.

(iii) The information obtained from tracking revenues, time, and expenditures shall not provide a basis for challenge to the amount of an individual source’s fee.

(c) The system of fiscal audits, reports, and periodic performance audits shall include the following:

(i) The department and the delegated local air authorities shall prepare annual reports and shall submit the reports to, respectively, the appropriate standing committees of the legislature and the board of directors of the local air authority.

(ii) The department shall arrange for fiscal audits and routine performance audits and for periodic intensive performance audits of each permitting authority and of the department.

(7) Each local air authority requesting delegation shall, after opportunity for public review and comment, publish regulations which establish a process for development and review of its operating permit program fee schedule, and a methodology for tracking its revenues and expenditures. These regulations shall be submitted to the department for review and approval as part of the local authority’s delegation request.

(8) As used in this section and in RCW 70.94.161(14), “regulated pollutant” shall have the same meaning as defined in section 502(b) of the federal clean air act as it exists on July 25, 1993, or its later enactment as adopted by reference by the director by rule.

(9) Fee structures as authorized under this section shall remain in effect until such time as the legislature authorizes an alternative structure following receipt of the report required by this subsection. [1998 c 245 § 129; 1993 c 252 § 6.]

70.94.163 Source categories not required to have a permit—Recommendations. The department shall prepare recommendations to reduce air emissions for source categories not generally required to have a permit under RCW 70.94.161. Such recommendations shall not require any action by the owner or operator of a source and shall be consistent with rules adopted under chapter 70.95C RCW. The recommendations shall include but not be limited to: Process changes, product substitution, equipment modifications, hazardous substance use reduction, recycling, and energy efficiency. [1991 c 199 § 304.]

Finding—1991 c 199: See note following RCW 70.94.011.

70.94.165 Gasoline recovery devices—Limitation on requiring. (1) A gasoline vapor recovery device that captures vapors during vehicle fueling may only be required at a service station, or any other gasoline dispensing facility supplying fuel to the general public, in any of the following circumstances:

(a) The facility sells in excess of six hundred thousand gallons of gasoline per year and is located in a county, any part of which is designated as nonattainment for ozone under the federal clean air act, 42 U.S.C. Sec. 7407; or

(b) The facility sells in excess of six hundred thousand gallons of gasoline per year and is located in a county where a maintenance plan has been adopted by a local air pollution control authority or the department of ecology which includes gasoline vapor recovery devices as a control strategy; or

(c) From March 30, 1996, until December 31, 1998, in any facility that sells in excess of one million two hundred thousand gallons of gasoline per year and is located in an ozone-contributing county. For purposes of this section, an ozone-contributing county means a county in which the emissions have contributed to the formation of ozone in any county where violations of federal ozone standards have been measured, and includes: Cowlitz, Island, Kitsap, Lewis, Skagit, Thurston, Wahkiakum, and Whatcom counties; or

(d) After December 31, 1998, in any facility that sells in excess of eight hundred forty thousand gallons of gasoline per year and is located in any county, no part of which is designated as nonattainment for ozone under the federal clean air act, 42 U.S.C. Sec. 7407, provided that the department of ecology determines by December 31, 1997, that the use of gasoline vapor control devices in the county is important to achieving or maintaining attainment status in any other county.

(2) This section does not preclude the department of ecology or any local air pollution authority from requiring a gasoline vapor recovery device that captures vapors during vehicle refueling as part of the regulation of sources as pro-
provided in RCW 70.94.152, 70.94.331, or 70.94.141 or where required under 42 U.S.C. Sec. 7412. [1996 c 294 § 1.]

Effective date—1996 c 294: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately [March 30, 1996]." [1996 c 294 § 2.]

70.94.170 Air pollution control authority control officer. Any activated authority which has adopted an ordinance, resolution, or valid rules and regulations as provided herein for the control and prevention of air pollution shall appoint a full time control officer, whose sole responsibility shall be to observe and enforce the provisions of this chapter and all orders, ordinances, resolutions, or rules and regulations of such activated authority pertaining to the control and prevention of air pollution. [1991 c 199 § 707; 1969 ex.s. c 168 § 21; 1967 c 238 § 30; 1957 c 232 § 17.]

Finding—1991 c 199: See note following RCW 70.94.011.

70.94.181 Variances—Application for—Considerations—Limitations—Renewals—Review. (1) Any person who owns or is in control of any plant, building, structure, establishment, process or equipment may apply to the department of ecology or appropriate local authority board for a variance from rules or regulations governing the quality, nature, duration or extent of discharges of air contaminants. The application shall be accompanied by such information and data as the department of ecology or board may require. The department of ecology or board may grant such variance, provided that variances to state rules shall require the department’s approval prior to being issued by a local authority board. The total time period for a variance and renewal of such variance shall not exceed one year. Variances may be issued by either the department or a local board but only after public hearing or due notice, if the department or board finds that:

(a) The emissions occurring or proposed to occur do not endanger public health or safety or the environment; and

(b) Compliance with the rules or regulations from which variance is sought would produce serious hardship without equal or greater benefits to the public.

(2) No variance shall be granted pursuant to this section until the department of ecology or board has considered the relative interests of the applicant, other owners of property likely to be affected by the discharges, and the general public.

(3) Any variance or renewal thereof shall be granted within the requirements of subsection (1) of this section and under conditions consistent with the reasons therefor, and within the following limitations:

(a) If the variance is granted on the ground that there is no practicable means known or available for the adequate prevention, abatement or control of the pollution involved, it shall be only until the necessary means for prevention, abatement or control become known and available, and subject to the taking of any substitute or alternate measures that the department of ecology or board may prescribe.

(b) If the variance is granted on the ground that compliance with the particular requirement or requirements from which variance is sought will require the taking of measures which, because of their extent or cost, must be spread over a considerable period of time, it shall be for a period not to exceed such reasonable time as, in the view of the department of ecology or board is requisite for the taking of the necessary measures. A variance granted on the ground specified herein shall contain a timetable for the taking of action in an expeditious manner and shall be conditioned on adherence to such timetable.

(c) If the variance is granted on the ground that it is justified to relieve or prevent hardship of a kind other than that provided for in (a) and (b) of this subsection, it shall be for not more than one year.

(4) Any variance granted pursuant to this section may be renewed on terms and conditions and for periods which would be appropriate on initial granting of a variance. If complaint is made to the department of ecology or board on account of the variance, no renewal thereof shall be granted unless following a public hearing on the complaint on due notice the department or board finds that renewal is justified. No renewal shall be granted except on application therefor. Any such application shall be made at least sixty days prior to the expiration of the variance. Immediately upon receipt of an application for renewal, the department of ecology or board shall give public notice of such application in accordance with rules of the department of ecology or board.

(5) A variance or renewal shall not be a right of the applicant or holder thereof but shall be granted at the discretion of the department of ecology or board. However, any applicant adversely affected by the denial or the terms and conditions of the granting of an application for a variance or renewal of a variance by the department of ecology or board may obtain judicial review thereof under the provisions of chapter 34.05 RCW as now or hereafter amended.

(6) Nothing in this section and no variance or renewal granted pursuant hereto shall be construed to prevent or limit the application of the emergency provisions and procedures of RCW 70.94.710 through 70.94.730 to any person or his or her property.

(7) An application for a variance, or for the renewal thereof, submitted to the department of ecology or board pursuant to this section shall be approved or disapproved by the department or board within sixty-five days of receipt unless the applicant and the department of ecology or board agree to a continuance.

(8) Variances approved under this section shall not be included in orders or permits provided for in RCW 70.94.161 or 70.94.152 until such time as the variance has been accepted by the United States environmental protection agency as part of an approved state implementation plan. 70.94.200 Investigation of conditions by control officer or department—Entering private, public property. For the purpose of investigating conditions specific to the control, recovery or release of air contaminants into the atmosphere, a control officer, the department, or their duly authorized representatives, shall have the power to enter at reasonable times upon any private or public property, excepting nonmultiple unit private dwellings housing two families or less. No person shall refuse entry or access to any control

70.94.205 Confidentiality of records and information. Whenever any records or other information, other than ambient air quality data or emission data, furnished to or obtained by the department of ecology or the board of any authority under this chapter, relate to processes or production unique to the owner or operator, or is likely to affect adversely the competitive position of such owner or operator if released to the public or to a competitor, and the owner or operator of such processes or production so certifies, such records or information shall be only for the confidential use of the department of ecology or board. Nothing herein shall be construed to prevent the use of records or information by the department of ecology or board in compiling or publishing analyses or summaries relating to the general condition of the outdoor atmosphere: PROVIDED, That such analyses or summaries do not reveal any information otherwise confidential under the provisions of this section: PROVIDED FURTHER, That emission data furnished to or obtained by the department of ecology or board shall be correlated with applicable emission limitations and other control measures and shall be available for public inspection during normal business hours at offices of the department of ecology or board. [1991 c 199 § 307; 1973 1st ex.s. c 193 § 4; 1969 ex.s. c 168 § 23; 1967 c 238 § 33.]

70.94.211 Enforcement actions by air authority—Notice to violators. At least thirty days prior to the commencement of any formal enforcement action under RCW 70.94.430 or 70.94.431 a local air authority shall cause written notice to be served upon the alleged violator or violators. The notice shall specify the provision of this chapter or the rule or regulation alleged to be violated, and the facts alleged to constitute a violation thereof, and may include an order directing that necessary corrective action be taken within a reasonable time. In lieu of an order, the board or the control officer may require that the alleged violator or violators appear before the board for a hearing. Every notice of violation shall offer to the alleged violator an opportunity to meet with the local air authority prior to the commencement of enforcement action. [1991 c 199 § 309; 1974 ex.s. c 69 § 4; 1970 ex.s. c 62 § 57; 1969 ex.s. c 168 § 24; 1967 c 238 § 34.]

[1970 ex.s. c 62 § 58; 1969 ex.s. c 168 § 25; 1967 c 238 § 35.]

70.94.230 Rules of authority supersede local rules, regulations, etc.—Exceptions. The rules and regulations hereafter adopted by an authority under the provisions of this chapter shall supersede the existing rules, regulations, resolutions and ordinances of any of the component bodies included within said authority in all matters relating to the control and enforcement of air pollution as contemplated by this chapter: PROVIDED, HOWEVER, That existing rules, regulations, resolutions and ordinances shall remain in effect until such rules, regulations, resolutions and ordinances are superseded as provided in this section: PROVIDED FURTHER, That nothing herein shall be construed to supersede any local county, or city ordinance or resolution, or any provision of the statutory or common law pertaining to nuisance; nor to affect any aspect of employer-employee relationship relating to conditions in a place of work, including without limitation, statutes, rules or regulations governing industrial health and safety standards or performance standards incorporated in zoning ordinances or resolutions of the component bodies where such standards relating to air pollution control or air quality containing requirements not less stringent than those of the authority. [1969 ex.s. c 168 § 28; 1967 c 238 § 38; 1957 c 232 § 23.]

70.94.231 Air pollution control authority—Dissolution of prior districts—Continuation of rules and regulations until superseded. Upon the date that an authority begins to exercise its powers and functions, all rules and regulations in force on such date shall remain in effect until superseded by the rules and regulations of the authority as provided in RCW 70.94.230. [1991 c 199 § 708; 1969 ex.s. c 168 § 29; 1967 c 238 § 39.]

70.94.240 Air pollution control advisory council. The board of any authority may appoint an air pollution control advisory council to advise and consult with such board, and the control officer in effectuating the purposes of this chapter. The council shall consist of at least five appointed members who are residents of the authority and who are preferably skilled and experienced in the field of air pollution control, chemistry, meteorology, public health, or a related field, at least one of whom shall serve as a representative of industry and one of whom shall serve as a representative of the environmental community. The chair of the board of any such authority shall serve as ex officio member of the council and be its chair. Each member of the council shall receive from the authority per diem and travel expenses in an amount not to exceed that provided for the state board in this chapter (but not to exceed one thousand dollars per year) for each full day spent in the performance of his or her duties under this chapter. [1991 c 199 § 709; 1969 ex.s. c 168 § 30; 1967 c 238 § 41; 1957 c 232 § 24.]

Finding—1991 c 199: See note following RCW 70.94.011.
70.94.260 Dissolution of authority—Deactivation of authority. An air pollution control authority may be deactivated prior to the term provided in the original or subsequent agreement by the county or counties comprising such authority upon the adoption by the board, following a hearing held upon at least thirty days notice, to said counties, of a resolution for dissolution or deactivation and upon the approval by the legislative authority of each county comprising the authority. In such event, the board shall proceed to wind up the affairs of the authority and pay all indebtedness thereof. Any surplus of funds shall be paid over to the counties comprising the authority in proportion to their last contribution. Upon the completion of the process of closing the affairs of the authority, the board shall by resolution entered in its minutes declare the authority deactivated and a certified copy of such resolution shall be filed with the secretary of state and the authority shall be deemed inactive. [1979 ex.s. c 30 § 12; 1969 ex.s. c 168 § 31; 1967 c 238 § 43; 1957 c 232 § 26.]

70.94.262 Withdrawal from multicounty authority. (1) Any county that is part of a multicounty authority, pursuant to RCW 70.94.053, may withdraw from the multicounty authority after January 1, 1992, if the county wishes to provide for air quality protection and regulation by an alternate air quality authority. A withdrawing county shall:

(a) Create its own single county authority;

(b) Join another existing multicounty authority with which its boundaries are contiguous;

(c) Join with one or more contiguous inactive authorities to operate as a new multicounty authority; or

(d) Become an inactive authority and subject to regulation by the department of ecology.

(2) In order to withdraw from an existing multicounty authority, a county shall make arrangements, by interlocal agreement, for division of assets and liabilities and the appropriate release of any and all interest in assets of the multicounty authority.

(3) In order to effectuate any of the alternate arrangements in subsection (1) of this section, the procedures of this chapter to create an air pollution control authority shall be met and the actions must be taken at least six months prior to the effective date of withdrawal. The rules of the original multicounty authority shall continue in force for the withdrawing county until such time as all conditions to create an air pollution control authority have been met.

(4) At the effective date of a county’s withdrawal, the remaining counties shall reorganize and reconstitute the legislative authority pursuant to this chapter. The air pollution control regulations of the existing multicounty authority shall remain in force and effect after the reorganization.

(5) If a county elects to withdraw from an existing multicounty authority, the air pollution control regulations shall remain in effect for the withdrawing county until suspended by the adoption of rules, regulations, or ordinances adopted under one of the alternatives of subsection (1) of this section. A county shall initiate proceedings to adopt such rules, regulations, or ordinances on or before the effective date of the county’s withdrawal. [1991 c 125 § 2.]

70.94.331 Powers and duties of department. (1) The department shall have all the powers as provided in RCW 70.94.141.

(2) The department, in addition to any other powers vested in it by law after consideration at a public hearing held in accordance with chapters 42.30 and 34.05 RCW shall:

(a) Adopt rules establishing air quality objectives and air quality standards;

(b) Adopt emission standards which shall constitute minimum emission standards throughout the state. An authority may enact more stringent emission standards, except for emission performance standards for new wood stoves and opacity levels for residential solid fuel burning devices which shall be statewide, but in no event may less stringent standards be enacted by an authority without the prior approval of the department after public hearing and due notice to interested parties;

(c) Adopt by rule air quality standards and emission standards for the control or prohibition of emissions to the outdoor atmosphere of radionuclides, dust, fumes, mist, smoke, other particulate matter, vapor, gas, odororous substances, or any combination thereof. Such requirements may be based upon a system of classification by types of emissions or types of sources of emissions, or combinations thereof, which it determines most feasible for the purposes of this chapter. However, an industry, or the air pollution control authority having jurisdiction, can choose, subject to the submittal of appropriate data that the industry has quantified, to have any limit on the opacity of emissions from a source whose emission standard is stated in terms of a weight of particulate per unit volume of air (e.g., grains per dry standard cubic foot) be based on the applicable particulate emission standard for that source, such that any violation of the opacity limit accurately indicates a violation of the applicable particulate emission standard. Any alternative opacity limit provided by this section that would result in increasing air contaminants emissions in any nonattainment area shall only be granted if equal or greater emission reductions are provided for by the same source obtaining the revised opacity limit. A reasonable fee may be assessed to the industry to which the alternate opacity standard would apply. The fee shall cover only those costs to the air pollution control authority which are directly related to the determination on the acceptability of the alternate opacity standard, including testing, oversight and review of data.

(3) The air quality standards and emission standards may be for the state as a whole or may vary from area to area or source to source, except that emission performance standards for new wood stoves and opacity levels for residential solid fuel burning devices shall be statewide, as may be appropriate to facilitate the accomplishment of the objectives of this chapter and to take necessary or desirable account of varying local conditions of population concentration, the existence of actual or reasonably foreseeable air pollution, topographic and meteorologic conditions and other pertinent variables.

(4) The department is directed to cooperate with the appropriate agencies of the United States or other states or any interstate agencies or international agencies with respect to the control of air pollution and air contamination, or for the formulation for the submission to the legislature of interstate air pollution control compacts or agreements.
(5) The department is directed to conduct or cause to be conducted a continuous surveillance program to monitor the quality of the ambient atmosphere as to concentrations and movements of air contaminants and conduct or cause to be conducted a program to determine the quantity of emissions to the atmosphere.

(6) The department shall enforce the air quality standards and emission standards throughout the state except where a local authority is enforcing the state regulations or its own regulations which are more stringent than those of the state.

(7) The department shall encourage local units of government to handle air pollution problems within their respective jurisdictions; and, on a cooperative basis provide technical and consultative assistance therefor.

(8) The department shall have the power to require the addition to or deletion of a county or counties from an existing authority in order to carry out the purposes of this chapter. No such addition or deletion shall be made without the concurrence of any existing authority involved. Such action shall only be taken after a public hearing held pursuant to the provisions of chapter 34.05 RCW.

(9) The department shall establish rules requiring sources or source categories to apply reasonable and available control methods. Such rules shall apply to those sources or source categories that individually or collectively contribute the majority of statewide air emissions of each regulated pollutant. The department shall review, and if necessary, update its rules every five years to ensure consistency with current reasonable and available control methods. The department shall have adopted rules required under this subsection for all sources by July 1, 1996.

For the purposes of this section, "reasonable and available control methods" shall include but not be limited to, changes in technology, processes, or other control strategies. [1991 c 199 § 10; 1988 c 106 § 1. Prior: 1987 c 405 § 13; 1987 c 109 § 39; 1985 c 372 § 4; 1969 ex.s. c 168 § 34; 1967 c 238 § 46.]

Finding—1991 c 199: See note following RCW 70.94.011.

Severability—1987 c 405: See note following RCW 70.94.450.

Severability—1985 c 372: See note following RCW 70.98.050.

70.94.332 Enforcement actions by department—Notice to violators. At least thirty days prior to the commencement of any formal enforcement action under RCW 70.94.430 and 70.94.431, the department of ecology shall cause written notice to be served upon the alleged violator or violators. The notice shall specify the provision of this chapter or the rule or regulation alleged to be violated, and the facts alleged to constitute a violation thereof, and may include an order that necessary corrective action be taken within a reasonable time. In lieu of an order, the department may require that the alleged violator or violators appear before it for the purpose of providing the department information pertaining to the violation or the charges complained of. Every notice of violation shall offer to the alleged violator an opportunity to meet with the department prior to the commencement of enforcement action. [1991 c 199 § 711; 1987 c 109 § 18; 1967 c 238 § 47.]

Finding—1991 c 199: See note following RCW 70.94.011.

Severability—1985 c 372: See note following RCW 70.98.050.

70.94.335 Hazardous substance remedial actions—Procedural requirements not applicable. The procedural requirements of this chapter shall not apply to any person conducting a remedial action at a facility pursuant to a consent decree, order, or agreed order issued pursuant to chapter 70.105D RCW, or to the department of ecology when it conducts a remedial action under chapter 70.105D RCW. The department of ecology shall ensure compliance with the substantive requirements of this chapter through the consent decree, order, or agreed order issued pursuant to chapter 70.105D RCW, or during the department-conducted remedial action, through the procedures developed by the department pursuant to RCW 70.105D.090. [1994 c 257 § 15.]

Severability—1994 c 257: See note following RCW 36.70A.270.

70.94.350 Contracts, agreements for use of personnel by department—Reimbursement—Merit system regulations waived. The department is authorized to contract for or otherwise agree to the use of personnel of municipal corporations or other agencies or private persons; and the department is further authorized to reimburse such municipal corporations or agencies for the employment of such personnel. Merit system regulations or standards for the employment of personnel may be waived for personnel hired under contract as provided for in this section. The department shall provide, within available appropriations, for the scientific, technical, legal, administrative, and other necessary services and facilities for performing the functions under this chapter. [1987 c 109 § 40; 1979 c 141 § 122; 1967 c 238 § 45; 1961 c 188 § 6.]

Finding—1987 c 109: See notes following RCW 43.21B.001.

70.94.370 Powers and rights of governmental units and persons are not limited by act or recommendations. No provision of this chapter or any recommendation of the state board or of any local or regional air pollution program is a limitation:

1. On the power of any city, town or county to declare, prohibit and abate nuisances.

2. On the power of the secretary of social and health services to provide for the protection of the public health under any authority presently vested in that office which may be hereafter prescribed by law.

3. On the power of a state agency in the enforcement, or administration of any provision of law which it is specifically permitted or required to enforce or administer.

4. On the right of any person to maintain at any time any appropriate action for relief against any air pollution. [1979 c 141 § 123; 1967 c 238 § 59; 1961 c 188 § 8.]
compelled by this section may be included in a local or regional air pollution control program only after approval by the department of ecology following demonstration to the satisfaction of the department of ecology that the proposed requirements are consistent with the purposes of this chapter: PROVIDED, That such approval shall be preceded by public hearing, of which notice has been given in accordance with chapter 42.30 RCW. The department of ecology, upon receiving evidence that conditions have changed or that additional information is relevant to a decision with respect to the requirements for emission control, may, after public hearing on due notice, withdraw any approval previously given to a less stringent local or regional requirement.

(2) Nothing in this chapter shall be construed to prevent a local or regional air pollution control authority from adopting and enforcing more stringent emission control requirements than those adopted by the department of ecology and applicable within the jurisdiction of the local or regional air pollution control authority, except that the emission performance standards for new wood stoves and the opacity levels for residential solid fuel burning devices shall be statewide. [1987 c 405 § 14; 1979 ex.s. c 30 § 13; 1969 ex.s. c 168 § 36; 1967 c 238 § 50.]

Severability—1987 c 405: See note following RCW 70.94.450.

70.94.385 State financial aid—Application for—Requirements. (1) Any authority may apply to the department for state financial aid. The department shall annually establish the amount of state funds available for the local authorities taking into consideration available federal and state funds. The establishment of funding amounts shall be consistent with federal requirements and local maintenance of effort necessary to carry out the provisions of this chapter. Any such aid shall be expended from the general fund or from other appropriations as the legislature may provide for this purpose: PROVIDED, That federal funds shall be utilized to the maximum unless otherwise approved by the department: PROVIDED FURTHER, That the amount of state funds provided to local authorities during the previous year shall not be reduced without a public notice or public hearing held by the department if requested by the affected local authority, unless such changes are the direct result of a reduction in the available federal funds for air pollution control programs.

(2) Before any such application is approved and financial aid is given or approved by the department, the authority shall demonstrate to the satisfaction of the department that it is fulfilling the requirements of this chapter. If the department has not adopted ambient air quality standards and objectives as permitted by RCW 70.94.331, the authority shall demonstrate to the satisfaction of the department that it is acting in good faith and doing all that is possible and reasonable to control and prevent air pollution within its jurisdictional boundaries and to carry out the purposes of this chapter.

(3) The department shall adopt rules requiring the submission of such information by each authority including the submission of its proposed budget and a description of its program in support of the application for state financial aid as necessary to enable the department to determine the need for state aid. [1991 c 199 § 712; 1987 c 109 § 41; 1969 ex.s. c 168 § 37; 1967 c 238 § 51.]

Finding—1991 c 199: See note following RCW 70.94.011.

70.94.390 Hearing upon activation of authority—Finding—Assumption of jurisdiction by department—Expenses. The department may, at any time and on its own motion, hold a hearing to determine if the activation of an authority is necessary for the prevention, abatement and control of air pollution which exists or is likely to exist in any area of the state. Notice of such hearing shall be conducted in accordance with chapter 42.30 RCW and chapter 34.05 RCW. If at such hearing the department finds that air pollution exists or is likely to occur in a particular area, and that the purposes of this chapter and the public interest will be best served by the activation of an authority it shall designate the boundaries of such area and set forth in a report to the appropriate county or counties recommendations for the activation of an authority: PROVIDED, That if at such hearing the department determines that the activation of an authority is not practical or feasible for the reason that a local or regional air pollution control program cannot be successfully established or operated due to unusual circumstances and conditions, but that the control and/or prevention of air pollution is necessary for the purposes of this chapter and the public interest, it may assume jurisdiction and so declare by order. Such order shall designate the geographic area in which, and the effective date upon which, the department will exercise jurisdiction for the control and/or prevention of air pollution. The department shall exercise its powers and duties in the same manner as if it had assumed authority under RCW 70.94.410.

All expenses incurred by the department in the control and prevention of air pollution in any county pursuant to the provisions of RCW 70.94.390 and 70.94.410 shall constitute a claim against such county. The department shall certify the expenses to the auditor of the county, who promptly shall issue his warrant on the county treasurer payable out of the current expense fund of the county. In the event that the amount in the current expense fund of the county is not adequate to meet the expenses incurred by the department, the department shall certify to the state treasurer that they have a prior claim on any money in the "liquor excise tax fund" that is to be apportioned to that county by the state treasurer as provided in RCW 82.08.170. In the event that the amount in the "liquor excise tax fund" that is to be apportioned to that county by the state treasurer is not adequate to meet the expenses incurred by the department, the department shall certify to the state treasurer that they have a prior claim on any excess funds from the liquor revolving fund that are to be distributed to county as provided in RCW 66.08.190 through 66.08.220. All moneys that are collected as provided in this section shall be placed in the general fund in the account of the office of air programs of the department. [1987 c 109 § 42; 1969 ex.s. c 168 § 38; 1967 c 238 § 52.]

Finding—1991 c 199: See note following RCW 70.94.011.

70.94.395 Air contaminant sources—Regulation by department; authorities may be more stringent—Hearing—Standards. If the department finds, after public hearing upon due notice to all interested parties, that the emissions from a particular type or class of air contaminant source should be regulated on a statewide basis in the public interest and for the protection of the welfare of the citizens of the state, it may adopt and enforce rules to control and/or prevent the emission of air contaminants from such source. An authority may, after public hearing and a finding by the board of a need for more stringent rules than those adopted by the department under this section, propose the adoption of such rules by the department for the control of emissions from the particular type or class of air contaminant source within the geographical area of the authority. The department shall hold a public hearing and shall adopt the proposed rules within the area of the requesting authority, unless it finds that the proposed rules are inconsistent with the rules adopted by the department under this section. When such standards are adopted by the department it shall delegate solely to the requesting authority all powers necessary for their enforcement at the request of the authority. If after public hearing the department finds that the regulation on a statewide basis of a particular type or class of air contaminant source is no longer required for the public interest and the protection of the welfare of the citizens of the state, the department may relinquish exclusive jurisdiction over such source. [1991 c 199 § 713; 1987 c 109 § 43; 1969 ex.s. c 168 § 40; 1967 c 238 § 54.]

Finding—1991 c 199: See note following RCW 70.94.011.

70.94.400 Order activating authority—Filing—Hearing—Amendment of order. If, at the end of ninety days after the department issues a report as provided for in RCW 70.94.390, to appropriate county or counties recommending the activation of an authority such county or counties have not performed those actions recommended by the department, and the department is still of the opinion that the activation of an authority is necessary for the prevention, abatement and control of air pollution which exists or is likely to exist, then the department may, at its discretion, issue an order activating an authority. Such order, a certified copy of which shall be filed with the secretary of state, shall specify the participating county or counties and the effective date by which the authority shall begin to function and exercise its powers. Any authority activated by order of the department shall choose the members of its board as provided in RCW 70.94.100 and begin to function in the same manner as if it had been activated by resolutions of the county or counties included within its boundaries. The department may, upon due notice to all interested parties, conduct a hearing in accordance with chapter 42.30 RCW and chapter 34.05 RCW within six months after the order was issued to review such order and to ascertain if such order is being carried out in good faith. At such time the department may amend any such order issued if it is determined by the department that such order is being carried out in bad faith or the department may take the appropriate action as is provided in RCW 70.94.410. [1987 c 109 § 44; 1969 ex.s. c 168 § 40; 1967 c 238 § 54.]

70.94.405 Air pollution control authority—Review by department of program. At any time after an authority has been activated for no less than one year, the department may, on its own motion, conduct a hearing held in accordance with chapters 42.30 and 34.05 RCW, to determine whether or not the air pollution prevention and control program of such authority is being carried out in good faith and is as effective as possible. If at such hearing the department finds that such authority is not carrying out its air pollution control or prevention program in good faith, is not doing all that is possible and reasonable to control and/or prevent air pollution within the geographical area over which it has jurisdiction, or is not carrying out the provisions of this chapter, it shall set forth in a report or order to the appropriate authority: (1) Its recommendations as to how air pollution prevention and/or control might be more effectively accomplished; and (2) guidelines which will assist the authority in carrying out the recommendations of the department. [1991 c 199 § 714; 1987 c 109 § 45; 1969 ex.s. c 168 § 41; 1967 c 238 § 55.]

Finding—1991 c 199: See note following RCW 70.94.011.

70.94.410 Air pollution control authority—Assumption of control by department. (1) If, after thirty days from the time that the department issues a report or order to an authority under RCW 70.94.400 and 70.94.405, such authority has not taken action which indicates that it is attempting in good faith to implement the recommendations or actions of the department as set forth in the report or order, the department may, by order, declare as null and void any or all ordinances, resolutions, rules or regulations of such authority relating to the control and/or prevention of air pollution, and at such time the department shall become the sole body with authority to make and enforce rules and regulations for the control and/or prevention of air pollution within the geographical area of such authority. If this occurs, the department may assume all those powers which are given to it by law to effectuate the purposes of this chapter. The department may, by order, continue in effect and enforce provisions of the ordinances, resolutions, rules or regulations of such authority which are not less stringent than those requirements which the department may have found applicable to the area under RCW 70.94.331, until such time as the department adopts its own rules. Any rules promulgated by the department shall be subject to the provisions of chapter 34.05 RCW. Any enforcement actions shall be subject to RCW 43.21B.300 or 43.21B.310.

(2) No provision of this chapter is intended to prohibit any authority from reestablishing its air pollution control program which meets with the approval of the department and which complies with the purposes of this chapter and with applicable rules and orders of the department.

(3) Nothing in this chapter shall prevent the department from withdrawing the exercise of its jurisdiction over an authority upon its own motion if the department has found at a hearing held in accordance with chapters 42.30 and 34.05 RCW, that the air pollution prevention and control program
of such authority will be carried out in good faith, that such program will do all that is possible and reasonable to control and/or prevent air pollution within the geographical area over which it has jurisdiction, and that the program complies with the provisions of this chapter. Upon the withdrawal of the department, the department shall prescribe certain recommendations as to how air pollution prevention and/or control is to be effectively accomplished and guidelines which will assist the authority in carrying out the recommendations of the department. [1991 c 199 § 715; 1987 c 109 § 46; 1969 ex.s. c 168 § 42; 1967 c 238 § 56.]

Finding—1991 c 199: See note following RCW 70.94.011.

### 70.94.420 State departments and agencies to cooperate with department and authorities.

It is declared to be the intent of the legislature of the state of Washington that any state department or agency having jurisdiction over any building, installation, other property, or other activity creating or likely to create significant air pollution shall cooperate with the department and with air pollution control agencies in preventing and/or controlling the pollution of the air in any area insofar as the discharge of air contaminants from or by such building, installation, other property, or activity may cause or contribute to pollution of the air in such area. Such state department or agency shall comply with the provisions of this chapter and with any ordinance, resolution, rule or regulation issued hereunder in the same manner as any other person subject to such laws or rules. [1991 c 199 § 716; 1987 c 109 § 47; 1969 ex.s. c 168 § 44; 1967 c 238 § 58.]

Finding—1991 c 199: See note following RCW 70.94.011.

### 70.94.422 Department of health powers regarding radionuclides—Energy facility site evaluation council authority over permit program sources.

(1) The department of health shall have all the enforcement powers as provided in RCW 70.94.332, 70.94.425, 70.94.430, 70.94.431 (1) through (7), and 70.94.435 with respect to emissions of radionuclides. This section does not preclude the department of ecology from exercising its authority under this chapter.

(2) Permits for energy facilities subject to chapter 80.50 RCW shall be issued by the energy facility site evaluation council. However, the permits become effective only if the governor approves an application for certification and executes a certification agreement under chapter 80.50 RCW. The council shall have all powers necessary to administer an operating permits program pertaining to such facilities, consistent with applicable air quality standards established by the department or local air pollution control authorities, or both, and to obtain the approval of the United States environmental protection agency. The council’s powers include, but are not limited to, all of the enforcement powers provided in RCW 70.94.332, 70.94.425, 70.94.430, 70.94.431 (1) through (7), and 70.94.435 with respect to permit program sources required to obtain certification from the council under chapter 80.50 RCW. To the extent not covered under RCW 80.50.071, the council may collect fees as granted to delegated local air authorities under RCW 70.94.152, 70.94.161 (14) and (15), 70.94.162, and 70.94.154(7) with respect to permit program sources required to obtain certification from the council under chapter 80.50 RCW. The council and the department shall each establish procedures that provide maximum coordination and avoid duplication between the two agencies in carrying out the requirements of this chapter. [1993 c 252 § 7.]

### 70.94.425 Restraining orders—Injunctions.

Notwithstanding the existence or use of any other remedy, whenever any person has engaged in, or is about to engage in, any acts or practices which constitute or will constitute a violation of any provision of this chapter, or any rule, regulation or order issued thereunder, the governing body or board or the department, after notice to such person and an opportunity to comply, may petition the superior court of the county wherein the violation is alleged to be occurring or to have occurred for a restraining order or a temporary or permanent injunction or another appropriate order. [1987 c 109 § 48; 1967 c 238 § 60.]

### 70.94.430 Penalties.

(1) Any person who knowingly violates any of the provisions of chapter 70.94 or 70.120 RCW, or any ordinance, resolution, or regulation in force pursuant thereto is guilty of a gross misdemeanor and upon conviction thereof shall be punished by a fine of not more than ten thousand dollars, or by imprisonment in the county jail for not more than one year, or by both for each separate violation.

(2) Any person who negligently releases into the ambient air any substance listed by the department of ecology as a hazardous air pollutant, other than in compliance with the terms of an applicable permit or emission limit, and who at the time negligently places another person in imminent danger of death or substantial bodily harm is guilty of a gross misdemeanor and shall, upon conviction, be punished by a fine of not more than ten thousand dollars, or by imprisonment for not more than one year, or both.

(3) Any person who knowingly releases into the ambient air any substance listed by the department of ecology as a hazardous air pollutant, other than in compliance with the terms of an applicable permit or emission limit, and who knows at the time that he or she thereby places another person in imminent danger of death or substantial bodily harm, is guilty of a class C felony and shall, upon conviction, be punished by a fine of not less than fifty thousand dollars, or by imprisonment for not more than five years, or both.

(4) Any person who knowingly fails to disclose a potential conflict of interest under RCW 70.94.100 is guilty of a class C felony and upon conviction thereof shall be punished by a fine of not less than fifty thousand dollars, or imprisonment for not more than five years, or both.

Intent—Effective date—2003 c 53: See notes following RCW 2.48.180.

Finding—1991 c 199: See note following RCW 70.94.011.

### 70.94.431 Civil penalties—Excusable excess emissions.

(1) Except as provided in RCW 43.05.060 through [Title 70 RCW—page 215]
43.05.080 and 43.05.150, and in addition to or as an alternate to any other penalty provided by law, any person who violates any of the provisions of chapter 70.94 RCW, chapter 70.120 RCW, or any of the rules in force under such chapters may incur a civil penalty in an amount not to exceed ten thousand dollars per day for each violation. Each such violation shall be a separate and distinct offense, and in case of a continuing violation, each day’s continuance shall be a separate and distinct violation.

Any person who fails to take action as specified by an order issued pursuant to this chapter shall be liable for a civil penalty of not more than ten thousand dollars for each day of continued noncompliance.

(2) Penalties incurred but not paid shall accrue interest, beginning on the ninety-first day following the date that the penalty becomes due and payable, at the highest rate allowed by RCW 19.52.020 on the date that the penalty becomes due and payable. If violations or penalties are appealed, interest shall not begin to accrue until the thirty-first day following final resolution of the appeal.

The maximum penalty amounts established in this section may be increased annually to account for inflation as determined by the state office of the economic and revenue forecast council.

(3) Each act of commission or omission which procures, aids or abets in the violation shall be considered a violation under the provisions of this section and subject to the same penalty. The penalties provided in this section shall be imposed pursuant to RCW 43.21B.300.

(4) All penalties recovered under this section by the department shall be paid into the state treasury and credited to the department which imposed the penalty. The maximum penalty amounts established in this section may be increased annually to account for inflation as determined by the state office of the economic and revenue forecast council.

(5) To secure the penalty incurred under this section, the state or the authority shall have a lien on any vessel used or operated in violation of this chapter which shall be enforced as provided in RCW 60.36.050.

(6) Public or private entities that are recipients or potential recipients of department grants, whether for air quality related activities or not, may have such grants rescinded or withheld by the department for failure to comply with provisions of this chapter.

(7) In addition to other penalties provided by this chapter, persons knowingly under-reporting emissions or other information used to set fees, or persons required to pay emission or permit fees who are more than ninety days late with such payments may be subject to a penalty equal to three times the amount of the original fee owed.

(8) By January 1, 1992, the department shall develop rules for excusing excess emissions from enforcement action if such excess emissions are unavoidable. The rules shall specify the criteria and procedures for the department and local air authorities to determine whether a period of excess emissions is excusable in accordance with the state implementation plan. ### 70.94.435 Additional means for enforcement of chapter.

As an additional means of enforcing this chapter, the governing body or board may accept an assurance of discontinuance of any act or practice deemed in violation of this chapter or of any ordinance, resolution, rule or regulation adopted pursuant hereto, from any person engaging in, or who has engaged in, such act or practice. Any such assurance shall specify a time limit during which such discontinuance is to be accomplished. Failure to perform the terms of any such assurance shall constitute prima facie proof of a violation of this chapter or the ordinances, resolutions, rules or regulations, or order issued pursuant thereto, which make the alleged act or practice unlawful for the purpose of securing any injunction or other relief from the superior court as provided in RCW 70.94.425. [1967 c 238 § 62.]

### 70.94.440 Short title.

This chapter may be known and cited as the "Washington Clean Air Act". [1967 c 238 § 63.]

**Short title—1991 c 199:** "This chapter shall be known and may be cited as the clean air Washington act." [1991 c 199 § 721.]

### 70.94.445 Air pollution control facilities—Tax exemptions and credits.

See chapter 82.34 RCW.

### 70.94.450 Wood stoves—Policy.

In the interest of the public health and welfare and in keeping with the objectives of RCW 70.94.011, the legislature declares it to be the public policy of the state to control, reduce, and prevent air pollution caused by wood stove emissions. It is the state’s policy to reduce wood stove emissions by encouraging the department of ecology to continue efforts to educate the public about the effects of wood stove emissions, other heating alternatives, and the desirability of achieving better emission performance and heating efficiency from wood stoves. The legislature further declares that: (1) The purchase of certified wood stoves will not solve the problem of pollution caused by wood stove emissions; and (2) the reduction of air pollution caused by wood stove emissions will only occur when wood stove users adopt proper methods of wood burning. [1987 c 405 § 1.]

**Severability—1987 c 405:** "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1987 c 405 § 18.]

### 70.94.453 Wood stoves—Definitions.

Unless the context clearly requires otherwise, the definitions in this section apply throughout RCW 70.94.453 through *70.94.487:*

(1) "Department" means the department of ecology.

(2) "Wood stove" means a solid fuel burning device other than a fireplace not meeting the requirements of RCW 70.94.457, including any fireplace insert, wood stove, wood stoves—Definitions.
burning heater, wood stick boiler, coal-fired furnace, coal stove, or similar device burning any solid fuel used for aesthetic or space-heating purposes in a private residence or commercial establishment, which has a heat input less than one million British thermal units per hour. The term "wood stove" does not include wood cook stoves.

(3) "Fireplace" means: (a) Any permanently installed masonry fireplace; or (b) any factory-built metal solid fuel burning device designed to be used with an open combustion chamber and without features to control the air to fuel ratio.

(4) "New wood stove" means: (a) A wood stove that is sold at retail, bargained, exchanged, or given away for the first time by the manufacturer, the manufacturer's dealer or agency, or a retailer; and (b) has not been so used to have become what is commonly known as "secondhand" within the ordinary meaning of that term.

(5) "Solid fuel burning device" means any device for burning wood, coal, or any other nongaseous and nonliquid fuel, including a wood stove and fireplace.

(6) "Authority" means any air pollution control agency whose jurisdictional boundaries are coextensive with the boundaries of one or more counties.

(7) "Opacity" means the degree to which an object seen through a plume is obscured, stated as a percentage. The methods approved by the department in accordance with RCW 70.94.331 shall be used to establish opacity for the purposes of this chapter. [1987 c 405 § 2.]

*Reviser's note: RCW 70.94.487 was repealed by 1988 c 186 § 16, effective June 30, 1988.

Severability—1987 c 405: See note following RCW 70.94.450.

70.94.455 Residential and commercial construction—Burning and heating device standards. After January 1, 1992, no used solid fuel burning device shall be installed in new or existing buildings unless such device is either Oregon department of environmental quality phase II or United States environmental protection agency certified or a pellet stove either certified or exempt from certification by the United States environmental protection agency.

(1) By July 1, 1992, the state building code council shall adopt rules requiring an adequate source of heat other than wood stoves in all new and substantially remodeled residential and commercial construction. This rule shall apply (a) to areas designated by a county to be an urban growth area under chapter 36.70A RCW; and (b) to areas designated by the environmental protection agency as being in nonattainment for particulate matter.

(2) For purposes of this section, "substantially remodeled" means any alteration or restoration of a building exceeding sixty percent of the appraised value of such building within a twelve-month period. [1991 c 199 § 503.]

Finding—1991 c 199: See note following RCW 70.94.011.

70.94.457 Solid fuel burning devices—Emission performance standards. The department of ecology shall establish by rule under chapter 34.05 RCW:

(1) Statewide emission performance standards for new solid fuel burning devices. Notwithstanding any provision of this chapter which allows an authority to adopt more stringent emission standards, no authority shall adopt any emission standard for new solid fuel burning devices other than the statewide standard adopted by the department under this section.

(a) After January 1, 1995, no solid fuel burning device shall be offered for sale in this state to residents of this state that does not meet the following particulate air contaminant emission standards under the test methodology of the United States environmental protection agency in effect on January 1, 1991, or an equivalent standard under any test methodology adopted by the United States environmental protection agency subsequent to such date: (i) Two and one-half grams per hour for catalytic wood stoves; and (ii) four and one-half grams per hour for all other solid fuel burning devices. For purposes of this subsection, "equivalent" shall mean the emissions limits specified in this subsection multiplied by a statistically reliable conversion factor determined by the department that compares the difference between the emission test methodology established by the United States environmental protection agency prior to May 15, 1991, with the test methodology adopted subsequently by the agency. Subsection (a) of this subsection does not apply to fireplaces.

(b) After January 1, 1997, no fireplace, except masonry fireplaces, shall be offered for sale unless such fireplace meets the 1990 United States environmental protection agency standards for wood stoves or equivalent standard that may be established by the state building code council by rule. Prior to January 1, 1997, the state building code council shall establish by rule a methodology for the testing of factory-built fireplaces. The methodology shall be designed to achieve a particulate air emission standard equivalent to the 1990 United States environmental protection agency standard for wood stoves. In developing the rules, the council shall include on the technical advisory committee at least one representative from the masonry fireplace builders and at least one representative of the factory-built fireplace manufacturers.

(c) Prior to January 1, 1997, the state building code council shall establish by rule design standards for the construction of new masonry fireplaces in Washington state. In developing the rules, the council shall include on the technical advisory committee at least one representative from the masonry fireplace builders and at least one representative of the factory-built fireplace manufacturers. It shall be the goal of the council to develop design standards that generally achieve reductions in particulate air contaminant emissions commensurate with the reductions being achieved by factory-built fireplaces at the time the standard is established.

(d) Actions of the department and local air pollution control authorities under this section shall preempt actions of other state agencies and local governments for the purposes of controlling air pollution from solid fuel burning devices, except where authorized by chapter 199, Laws of 1991.

(e) Subsection (1)(a) of this section shall not apply to fireplaces.

(f) Notwithstanding (a) of this subsection, the department is authorized to adopt, by rule, emission standards adopted by the United States environmental protection agency for new wood stoves sold at retail. For solid fuel burning devices for which the United States environmental protection agency has not established emission standards, the department may exempt or establish, by rule, statewide stan-
70.94.460 Sale of unapproved wood stoves—Prohibited. After July 1, 1988, no person shall sell, offer to sell, or knowingly advertise to sell a new wood stove in this state to a resident of this state unless the wood stove has been approved by the department under the program established under RCW 70.94.457. [1995 c 205 § 4; 1987 c 405 § 7.]

Severability—1987 c 405: See note following RCW 70.94.450.

70.94.463 Sale of unapproved wood stoves—Penalty. After July 1, 1988, any person who sells, offers to sell, or knowingly advertises to sell a new wood stove in this state in violation of RCW 70.94.460 shall be subject to the penalties and enforcement actions under this chapter. [1987 c 405 § 8.]

Severability—1987 c 405: See note following RCW 70.94.450.

70.94.467 Sale of unapproved wood stoves—Application of law to advertising media. Nothing in RCW 70.94.460 or 70.94.463 shall apply to a radio station, television station, publisher, printer, or distributor of a newspaper, magazine, billboard, or other advertising medium that accepts advertising in good faith and without knowledge of its violation of RCW 70.94.453 through *70.94.487. [1987 c 405 § 12.]

*Reviser’s note: RCW 70.94.487 was repealed by 1988 c 186 § 16, effective June 30, 1988.

Severability—1987 c 405: See note following RCW 70.94.450.

70.94.470 Residential solid fuel burning devices—Opacity levels—Enforcement and public education. (1) The department shall establish, by rule under chapter 34.05 RCW, (a) a statewide opacity level of twenty percent for residential solid fuel burning devices for the purpose of enforcement on a complaint basis and (b) a statewide opacity of ten percent for purposes of public education.

(2) Notwithstanding any other provision of this chapter which may allow an authority to adopt a more stringent opacity level, no authority shall adopt or enforce an opacity level for solid fuel burning devices other than established in this section.

(3) Actions of the department and local air pollution control authorities under this section shall preempt actions of other state agencies and local governments for the purposes of controlling air pollution from solid fuel burning devices, except where authorized by chapter 199, Laws of 1991. [1991 c 199 § 502; 1987 c 405 § 5.]

Finding—1991 c 199: See note following RCW 70.94.011.

Severability—1987 c 405: See note following RCW 70.94.450.

70.94.473 Limitations on burning wood for heat—First and second stage burn bans—Report on second stage burn ban—Report to the legislature. (1) Any person in a residence or commercial establishment which has an adequate source of heat without burning wood shall:

(a) Not burn wood in any solid fuel burning device whenever the department has determined under RCW 70.94.715 that any air pollution episode exists in that area;

(b) Not burn wood in any solid fuel burning device except those which are either Oregon department of environmental quality phase II or United States environmental protection agency certified or certified by the department under RCW 70.94.455(1) or a pellet stove either certified or issued an exemption by the United States environmental protection agency in accordance with Title 40, Part 60 of the code of federal regulations, in the geographical area and for the period of time that a first stage of impaired air quality has been determined, by the department or any authority, for that area. A first stage of impaired air quality is reached when forecasted meteorological conditions are predicted to cause fine particulate levels to exceed thirty-five micrograms per cubic meter, measured on a twenty-four hour average, within forty-eight hours; and

(c)(i) Not burn wood in any solid fuel burning device in a geographical area and for the period of time that a second stage of impaired air quality has been determined by the department or any authority, for that area. A second stage of impaired air quality is reached when forecasted meteorological conditions are predicted to cause fine particulate levels to exceed twenty-five micrograms per cubic meter for a period of twenty-four hours or more from the time that the fine particulates are expected to allow levels of fine particulates to decline below twenty-five micrograms per cubic meter for a period of twenty-four hours.

(ii) A second stage burn ban may be called without calling a first stage burn ban only when all of the following occur and shall require the department or the local air pollution control authority calling a second stage burn ban under this subsection to comply with the requirements of subsection (4) of this section:

(A) Fine particulate levels have reached or exceeded twenty-five micrograms per cubic meter, measured on a twenty-four hour average;

(B) Meteorological conditions have caused fine particulate levels to rise rapidly;

(C) Meteorological conditions are predicted to cause fine particulate levels to exceed the thirty-five micrograms per cubic meter, measured on a twenty-four hour average, within twenty-four hours; and

(D) Meteorological conditions are highly likely to prevent sufficient dispersion of fine particulate.

(2) Actions of the department and local air pollution control authorities under this section shall preempt actions of other state agencies and local governments for the purposes...

(3) The department or any local air pollution control authority that has called a second stage burn ban under the authority of subsection (1)(c)(ii) of this section shall, within ninety days, prepare a written report describing:
(a) The meteorological conditions that resulted in their calling the second stage burn ban;
(b) Whether the agency could have taken actions to avoid calling a second stage burn ban without calling a first stage burn ban; and
(c) Any changes the department or authority is making to its procedures of calling first stage and second stage burn bans to avoid calling a second stage burn ban without first calling a first stage burn ban.

After consulting with affected parties, the department shall prescribe the format of such a report and may also require additional information be included in the report. All reports shall be sent to the department and the department shall keep the reports on file for not less than five years and available for public inspection and copying in accordance with RCW 42.56.090.

(4) The department and local air pollution control authorities shall evaluate the effectiveness of the burn ban programs contained in this section in avoiding fine particulate levels to exceed thirty-five micrograms per cubic meter, measured on a twenty-four hour average, and provide a joint report of the results to the legislature by September 1, 2011.  [2008 c 40 § 1; 2007 c 339 § 1; 2005 c 197 § 1; 1998 c 342 § 8; 1995 c 205 § 1; 1991 c 199 § 504; 1990 c 128 § 2; 1987 c 405 § 6.]

Finding—1991 c 199: See note following RCW 70.94.011.
Severability—1987 c 405: See note following RCW 70.94.450.

70.94.475 Liability of condominium owners’ association or resident association. A condominium owners’ association or an association formed by residents of a multipa-

family dwelling are not liable for violations of RCW 70.94.473 by a resident of a condominium or multiple-family dwelling. The associations shall cooperate with local air pollution control authorities to acquaint residents with the provisions of this section.  [1990 c 157 § 2.]

70.94.477 Limitations on use of solid fuel burning devices. (1) Unless allowed by rule, under chapter 34.05 RCW, a person shall not cause or allow any of the following materials to be burned in any residential solid fuel burning device:
(a) Garbage;
(b) Treated wood;
(c) Plastics;
(d) Rubber products;
(e) Animals;
(f) Asphalitic products;
(g) Waste petroleum products;
(h) Paints; or
(i) Any substance, other than properly seasoned fuel wood, which normally emits dense smoke or obnoxious odors.

(2) For the sole purpose of a contingency measure to meet the requirements of section 172(c)(9) of the federal clean air act, a local authority or the department may prohibit the use of solid fuel burning devices, except fireplaces as defined in RCW 70.94.453(3), wood stoves meeting the standards set forth in RCW 70.94.457 or pellet stoves either certified or issued an exemption by the United States environmental protection agency in accordance with Title 40, Part 60 of the code of federal regulations, if the United States environmental protection agency, in consultation with the department and the local authority makes written findings that:
(a) The area has failed to make reasonable further progress or attain or maintain a national ambient air quality standard; and
(b) Emissions from solid fuel burning devices from a particular geographic area are a contributing factor to such failure to make reasonable further progress or attain or maintain a national ambient air quality standard.

A prohibition issued by a local authority or the department under this subsection shall not apply to a person in a residence or commercial establishment that does not have an adequate source of heat without burning wood.  [1995 c 205 § 2; 1990 c 128 § 3; 1987 c 405 § 9.]

Severability—1987 c 405: See note following RCW 70.94.450.

70.94.480 Wood stove education program. (1) The department of ecology shall establish a program to educate wood stove dealers and the public about:
(a) The effects of wood stove emissions on health and air quality;
(b) Methods of achieving better efficiency and emission performance from wood stoves;
(c) Wood stoves that have been approved by the department;
(d) The benefits of replacing inefficient wood stoves with stoves approved under RCW 70.94.457.
(2) Persons selling new wood stoves shall distribute and verbally explain educational materials describing when a stove can and cannot be legally used to customers purchasing new wood stoves.  [1990 c 128 § 6; 1987 c 405 § 3.]

Severability—1987 c 405: See note following RCW 70.94.450.

70.94.483 Wood stove education and enforcement account created—Fee imposed on solid fuel burning device sales. (1) The wood stove education and enforcement account is hereby created in the state treasury. Money placed in the account shall include all money received under subsection (2) of this section and any other money appropriated by the legislature. Money in the account shall be spent for the purposes of the wood stove education program established under RCW 70.94.480 and for enforcement of the wood stove program, and shall be subject to legislative appropriation. However, during the 2003-05 fiscal biennium, the legislature may transfer from the wood stove education and enforcement account to the air pollution control account any amounts as specified in the omnibus operating budget bill.

(2) The department of ecology, with the advice of the advisory committee, shall set a flat fee of thirty dollars, on the retail sale, as defined in RCW 82.04.050, of each solid fuel burning device after January 1, 1992. The fee shall be
imposed upon the consumer and shall not be subject to the retail sales tax provisions of chapters 82.08 and 82.12 RCW. The fee may be adjusted annually above thirty dollars to account for inflation as determined by the state office of the economic and revenue forecast council. The fee shall be collected by the department of revenue in conjunction with the retail sales tax under chapter 82.08 RCW. If the seller fails to collect the fee herein imposed or fails to remit the fee to the department of revenue in the manner prescribed in chapter 82.08 RCW, the seller shall be personally liable to the state for the amount of the fee. The collection provisions of chapter 82.32 RCW shall apply. The department of revenue shall deposit fees collected under this section in the wood stove education and enforcement account. 70.94.488 Woodsmoke emissions—Findings. The legislature finds that there are some communities in the state in which the national ambient air quality standards for PM 2.5 are exceeded, primarily due to woodsmoke emissions, and that current strategies are not sufficient to reduce woodsmoke emissions to levels that comply with the federal standards or adequately protect public health. The legislature finds that it is in the state’s interest and to the benefit of the people of the state to evaluate additional measures to reduce woodsmoke emissions and update the state woodsmoke control program. [2007 c 339 § 2.]

70.94.505 Woodsmoke emissions—Work group. (1) The department shall convene and chair a work group to study the impacts of woodsmoke from solid fuel burning devices on communities in Washington and make recommendations to the legislature on practical and cost-effective opportunities to reduce exposure to woodsmoke from solid fuel burning devices and meet the new national air quality standards for fine particulates in Washington state. The work group shall be established by the director and include representatives from the department, the state department of health, regional air quality agencies, local health departments, related industry representatives, and nongovernmental health organizations. Recommendations may include statutory or regulatory changes, incentives, and other strategies that will reduce ambient PM 2.5 pollution. Recommendations should be presented to the governor and to the legislature by December 1, 2007.

(2) In carrying out its assignment the work group shall include, but not be limited to, the following considerations:

(a) Communities in the state that have elevated levels of PM 2.5 pollution;
(b) The contribution of pollution from solid fuel burning devices to potential violations of federal air quality standards;
(c) Strategies used in other states, regions, or cities to reduce woodsmoke pollution levels and effectiveness of these strategies;
(d) State laws, rules, fees, utility regulations, and other policies that may affect the ability to reduce emissions from solid fuel burning devices or encourage the use of cleaner burning devices; and
(e) Potential financial incentives and sources of funding to change out older solid fuel burning devices to cleaner burning devices. [2007 c 339 § 3.]

70.94.510 Policy to cooperate with federal government. It is declared to be the policy of the state of Washington through the department of ecology to cooperate with the federal government in order to insure the coordination of the provisions of the federal and state clean air acts, and the department is authorized and directed to implement and enforce the provisions of this chapter in carrying out this policy as follows:

(1) To accept and administer grants from the federal government for carrying out the provisions of this chapter.
(2) To take all action necessary to secure to the state the benefits of the federal clean air act. [1987 c 109 § 49; 1969 ex.s. c 168 § 45.]

70.94.521 Transportation demand management—Findings. The legislature finds that automotive traffic in Washington’s metropolitan areas is the major source of emissions of air contaminants. This air pollution causes significant harm to public health, causes damage to trees, plants, structures, and materials and degrades the quality of the environment.

Increasing automotive traffic is also aggravating traffic congestion in Washington’s metropolitan areas. This traffic congestion imposes significant costs on Washington’s businesses, governmental agencies, and individuals in terms of lost working hours and delays in the delivery of goods and services. Traffic congestion worsens automobile-related air pollution, increases the consumption of fuel, and degrades the habitability of many of Washington’s cities and suburban areas. The capital and environmental costs of fully accommodating the existing and projected automobile traffic on roads and highways are prohibitive. Decreasing the demand for vehicle trips is significantly less costly and at least as effective in reducing traffic congestion and its impacts as constructing new transportation facilities such as roads and bridges, to accommodate increased traffic volumes.

The legislature also finds that increasing automotive transportation is a major factor in increasing consumption of gasoline and, thereby, increasing reliance on imported sources of petroleum. Moderating the growth in automotive travel is essential to stabilizing and reducing dependence on imported petroleum and improving the nation’s energy security.

The legislature further finds that reducing the number of commute trips to work made via single-occupant cars and light trucks is an effective way of reducing automobile-related air pollution, traffic congestion, and energy use. Major employers have significant opportunities to encourage and facilitate reducing single-occupant vehicle commuting by employees. In addition, the legislature also recognizes the importance of increasing individual citizens’ awareness of air

[Title 70 RCW—page 220]
quality, energy consumption, and traffic congestion, and the contribution individual actions can make towards addressing these issues.

The intent of this chapter is to require local governments in those counties experiencing the greatest automobile-related air pollution and traffic congestion to develop and implement plans to reduce single-occupant vehicle commute trips. Such plans shall require major employers and employers at major worksites to implement programs to reduce single-occupant vehicle commuting by employees at major worksites. Local governments in counties experiencing significant but less severe automobile-related air pollution and traffic congestion may implement such plans. State agencies shall implement programs to reduce single-occupant vehicle commuting at all major worksites throughout the state. [1997 c 250 § 1; 1991 c 202 § 10.]

**70.94.524 Transportation demand management—Definitions.** Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "A major employer" means a private or public employer, including state agencies, that employs one hundred or more full-time employees at a single worksite who begin their regular work day between 6:00 a.m. and 9:00 a.m. on weekdays for at least twelve continuous months during the year.

(2) "Major worksite" means a building or group of buildings that are on physically contiguous parcels of land or on parcels separated solely by private or public roadways or rights-of-way, and at which there are one hundred or more full-time employees, who begin their regular work day between 6:00 a.m. and 9:00 a.m. on weekdays, for at least twelve continuous months.

(3) "Major employment installation" means a military base or federal reservation, excluding tribal reservations, at which there are one hundred or more full-time employees, who begin their regular workday between 6:00 a.m. and 9:00 a.m. on weekdays, for at least twelve continuous months.

(4) "Person hours of delay" means the daily person hours of delay per mile in the peak period of 6:00 a.m. to 9:00 a.m., as calculated using the best available methodology by the department of transportation.

(5) "Commute trip" means trips made from a worker's home to a worksite during the peak period of 6:00 a.m. to 9:00 a.m. on weekdays.

(6) "Proportion of single-occupant vehicle commute trips" means the number of commute trips made by single-occupant automobiles divided by the number of full-time employees.

(7) "Commute trip vehicle miles traveled per employee" means the sum of the individual vehicle commute trip lengths in miles over a set period divided by the number of full-time employees during that period.

(8) "Base year" means the twelve-month period commencing when a major employer is determined to be participating by the local jurisdiction, on which commute trip reduction goals shall be based.

(9) "Growth and transportation efficiency center" means a defined, compact, mixed-use urban area that contains jobs or housing and supports multiple modes of transportation. For the purpose of funding, a growth and transportation efficiency center must meet minimum criteria established by the commute trip reduction board under RCW 70.94.537, and must be certified by a regional transportation planning organization as established in RCW 47.80.020.

**70.94.527 Transportation demand management—Requirements for counties and cities.** (1) Each county containing an urban growth area, designated pursuant to RCW 36.70A.110, and each city within an urban growth area with a state highway segment exceeding the one hundred person hours of delay threshold calculated by the department of transportation, as well as those counties and cities located in any contiguous urban growth areas, shall adopt a commute trip reduction plan and ordinance for major employers in the affected urban growth area by a date specified by the commute trip reduction board. Jurisdictions located within an urban growth area with a population greater than seventy thousand that adopted a commute trip reduction ordinance before the year 2000, as well as any jurisdiction within contiguous urban growth areas, shall also adopt a commute trip reduction plan and ordinance for major employers in the affected urban growth area by a date specified by the commute trip reduction board. Jurisdictions containing a major employment installation in a county with an affected growth area, designated pursuant to RCW 36.70A.110, shall adopt a commute trip reduction plan and ordinance for major employers in the major employment installation by a date specified by the commute trip reduction board. The ordinance shall establish the requirements for major employers and provide an appeals process by which major employers, who as a result of special characteristics of their business or its locations would be unable to meet the requirements of the ordinance, may obtain waiver or modification of those requirements. The plan shall be designed to achieve reduc-
tions in the proportion of single-occupant vehicle commute trips and be consistent with the rules established by the department of transportation. The county, city, or town shall submit its adopted plan to the regional transportation planning organization. The county, city, or town plan shall be included in the regional commute trip reduction plan for regional transportation planning purposes, consistent with the rules established by the department of transportation in RCW 70.94.537.

(2) All other counties, cities, and towns may adopt and implement a commute trip reduction plan consistent with department of transportation rules established under RCW 70.94.537. Tribal governments are encouraged to adopt a commute trip reduction plan for their lands. State investment in voluntary commute trip reduction plans shall be limited to those areas that meet criteria developed by the commute trip reduction board.

(3) The department of ecology may, after consultation with the department of transportation, as part of the state implementation plan for areas that do not attain the national ambient air quality standards for carbon monoxide or ozone, require municipalities other than those identified in subsection (1) of this section to adopt and implement commute trip reduction plans if the department determines that such plans are necessary for attainment of said standards.

(4) A commute trip reduction plan shall be consistent with the rules established under RCW 70.94.537 and shall include but is not limited to (a) goals for reductions in the proportion of single-occupant vehicle commute trips consistent with the state goals established by the commute trip reduction board under RCW 70.94.537 and the regional commute trip reduction plan goals established in the regional commute trip reduction plan; (b) a description of the requirements for major public and private sector employers to implement commute trip reduction programs; (c) a commute trip reduction program for employees of the county, city, or town; and (d) means, consistent with rules established by the department of transportation, for determining base year values and progress toward meeting commute trip reduction plan goals. The plan shall be developed in consultation with local transit agencies, the applicable regional transportation planning organization, major employers, and other interested parties.

(5) The commute trip reduction plans adopted by counties, cities, and towns under this chapter shall be consistent with and may be incorporated in applicable state or regional transportation plans and local comprehensive plans and shall be coordinated, and consistent with, the commute trip reduction plans of counties, cities, or towns with which the county, city, or town has, in part, common borders or related regional issues. Such regional issues shall include assuring consistency in the treatment of employers who have worksites subject to the requirements of this chapter in more than one jurisdiction. Counties, cities, and towns adopting commute trip reduction plans may enter into agreements through the interlocal cooperation act or by resolution or ordinance as appropriate with other jurisdictions, local transit agencies, transportation management associations or other private or nonprofit providers of transportation services, or regional transportation planning organizations to coordinate the development and implementation of such plans. Transit agencies shall work with counties, cities, and towns as a part of their six-year transit development plan established in RCW 35.58.2795 to take into account the location of major employer worksites when planning and prioritizing transit service changes or the expansion of public transportation services, including rideshare services. Counties, cities, or towns adopting a commute trip reduction plan shall review it annually and revise it as necessary to be consistent with applicable plans developed under RCW 36.70A.070. Regional transportation planning organizations shall review the local commute trip reduction plans during the development and update of the regional commute trip reduction plan.

(6) Each affected regional transportation planning organization shall adopt a commute trip reduction plan for its region consistent with the rules and deadline established by the department of transportation under RCW 70.94.537. The plan shall include, but is not limited to: (a) Regional program goals for commute trip reduction in urban growth areas and all designated growth and transportation efficiency centers; (b) a description of strategies for achieving the goals; (c) a sustainable financial plan describing projected revenues and expenditures to meet the goals; (d) a description of the way in which progress toward meeting the goals will be measured; and (e) minimum criteria for growth and transportation efficiency centers. (i) Regional transportation planning organizations shall review proposals from local jurisdictions to designate growth and transportation efficiency centers and shall determine whether the proposed growth and transportation efficiency centers are consistent with the criteria defined in the regional commute trip reduction plan. (ii) Growth and transportation efficiency centers certified as consistent with the minimum requirements by the regional transportation planning organization shall be identified in subsequent updates of the regional commute trip reduction plan. These plans shall be developed in collaboration with all affected local jurisdictions, transit agencies, and other interested parties within the region. The plan will be reviewed and approved by the commute trip reduction board established under RCW 70.94.537. Regions without an approved regional commute trip reduction plan shall not be eligible for state commute trip reduction program funds.

The regional commute trip reduction plan shall be consistent with and incorporated into transportation demand management components in the regional transportation plan as required by RCW 47.80.030.

(7) Each regional transportation planning organization implementing a regional commute trip reduction program shall, consistent with the rules and deadline established by the department of transportation, submit its plan as well as any related local commute trip reduction plans and certified growth and transportation efficiency center programs, to the commute trip reduction board established under RCW 70.94.537. The commute trip reduction board shall review the regional commute trip reduction plan and the local commute trip reduction plans. The regional transportation planning organization shall collaborate with the commute trip reduction board to evaluate the consistency of local commute trip reduction plans with the regional commute trip reduction plan. Local and regional plans must be approved by the commute trip reduction board in order to be eligible for state funding provided for the purposes of this chapter.
(8) Each regional transportation planning organization implementing a regional commute trip reduction program shall submit an annual progress report to the commute trip reduction board established under RCW 70.94.537. The report shall be due at the end of each state fiscal year for which the program has been implemented. The report shall describe progress in attaining the applicable commute trip reduction goals and shall highlight any problems being encountered in achieving the goals. The information shall be reported in a form established by the commute trip reduction board.

(9) Any waivers or modifications of the requirements of a commute trip reduction plan granted by a jurisdiction shall be submitted for review to the commute trip reduction board established under RCW 70.94.537. The commute trip reduction board may not deny the granting of a waiver or modification of the requirements of a commute trip reduction plan by a jurisdiction but they may notify the jurisdiction of any comments or objections.

(10) Plans implemented under this section shall not apply to commute trips for seasonal agricultural employees.

(11) Plans implemented under this section shall not apply to construction worksites when the expected duration of the construction project is less than two years.

(12) If an affected urban growth area has not previously implemented a commute trip reduction program and the state has funded solutions to state highway deficiencies to address the area’s exceeding the person hours of delay threshold, the affected urban growth area shall be exempt from the duties of this section for a period not exceeding two years. [2006 c 329 § 2; 1997 c 250 § 2; 1996 c 186 § 513; 1991 c 202 § 12.]

70.94.528 Transportation demand management—Growth and transportation efficiency centers. (1) A county, city, or town may, as part of its commute trip reduction plan, designate existing activity centers listed in its comprehensive plan or new activity centers as growth and transportation efficiency centers and establish a transportation demand management program in the designated area.

(a) The transportation demand management program for the growth and transportation efficiency center shall be developed in consultation with local transit agencies, the applicable regional transportation planning organization, major employers, and other interested parties.

(b) In order to be eligible for state funding provided for the purposes of this section, designated growth and transportation efficiency centers shall be certified by the applicable regional transportation organization to: (i) Meet the minimum land use and transportation criteria established in collaboration among local jurisdictions, transit agencies, the regional transportation planning organization, and other interested parties as part of the regional commute trip reduction plan; and (ii) have established a transportation demand management program that includes the elements identified in (c) of this subsection and is consistent with the rules established by the department of transportation in RCW 70.94.537(2). If a designated growth and transportation efficiency center is denied certification, the local jurisdiction may appeal the decision to the commute trip reduction board.

(c) Transportation demand management programs for growth and transportation efficiency centers shall include, but are not limited to: (i) Goals for reductions in the proportion of single-occupant vehicle trips that are more aggressive than the state program goal established by the commute trip reduction board; (ii) a sustainable financial plan demonstrating how the program can be implemented to meet state and regional trip reduction goals, indicating resources from public and private sources that are reasonably expected to be made available to carry out the plan, and recommending any innovative financing techniques consistent with chapter 47.29 RCW, including public/private partnerships, to finance needed facilities, services, and programs; (iii) a proposed organizational structure for implementing the program; (iv) a proposal to measure performance toward the goal and implementation progress; and (v) an evaluation to which local land use and transportation policies apply, including parking policies and ordinances, to determine the extent that they complement and support the trip reduction investments of major employers. Each of these program elements shall be consistent with the rules established under RCW 70.94.537.

(d) A designated growth and transportation efficiency center shall be consistent with the land use and transportation elements of the local comprehensive plan.

(e) Transit agencies, local governments, and regional transportation planning organizations shall identify certified growth and transportation efficiency centers as priority areas for new service and facility investments in their respective investment plans.

(2) A county, city, or town that has established a growth and transportation efficiency center program shall support vehicle trip reduction activities in the designated area. The implementing jurisdiction shall adopt policies, ordinances, and funding strategies that will lead to attainment of program goals in those areas. [2006 c 329 § 4.]

70.94.531 Transportation demand management—Requirements for employers. (1) State agency worksites are subject to the same requirements under this section and RCW 70.94.534 as private employers.

(2) Not more than ninety days after the adoption of a jurisdiction’s commute trip reduction plan, each major employer in that jurisdiction shall perform a baseline measurement consistent with the rules established by the department of transportation under RCW 70.94.537. Not more than ninety days after receiving the results of the baseline measurement, each major employer shall develop a commute trip reduction program and shall submit a description of that program to the jurisdiction for review. The program shall be implemented not more than ninety days after approval by the jurisdiction.

(3) A commute trip reduction program of a major employer shall consist of, at a minimum (a) designation of a transportation coordinator and the display of the name, location, and telephone number of the coordinator in a prominent manner at each affected worksite; (b) regular distribution of information to employees regarding alternatives to single-occupant vehicle commuting; (c) a regular review of employee commuting and reporting of progress toward meet-
Transportation demand management—Jurisdictions’ review and penalties. (1) Each jurisdiction implementing a commute trip reduction plan under this chapter or as part of a plan or ordinance developed under RCW 36.70A.070 shall review each employer’s initial commute trip reduction program to determine if the program is likely to meet the applicable commute trip reduction goals. The employer shall be notified by the jurisdiction of its findings. If the jurisdiction finds that the program is not likely to meet the applicable commute trip reduction goals, the jurisdiction will work with the employer to modify the program as necessary. The jurisdiction shall complete review of each employer’s initial commute trip reduction program within ninety days of receipt.

(2) Employers implementing commute trip reduction programs are expected to undertake good faith efforts to achieve the goals outlined in RCW 70.94.527(4). Employers are considered to be making a good faith effort if the following conditions have been met:

(a) The employer has met the minimum requirements identified in RCW 70.94.531;

(b) The employer has notified the jurisdiction of its intent to substantially change or modify its program and has either received the approval of the jurisdiction to do so or has acknowledged that its program may not be approved without additional modifications;

(c) The employer has provided adequate information and documentation of implementation when requested by the jurisdiction; and

(d) The employer is working collaboratively with its jurisdiction to continue its existing program or is developing and implementing program modifications likely to result in improvements to the program over an agreed upon length of time.

(3) Each jurisdiction shall review at least once every two years each employer’s progress and good faith efforts toward meeting the applicable commute trip reduction goals. If an employer makes a good faith effort, as defined in this section, but is not likely to meet the applicable commute trip reduction goals, the jurisdiction shall work collaboratively with the employer to make modifications to the commute trip reduction program. Failure of an employer to reach the applicable commute trip reduction goals is not a violation of this chapter.

(4) If an employer fails to make a good faith effort and fails to meet the applicable commute trip reduction goals, the jurisdiction shall work collaboratively with the employer to propose modifications to the program and shall direct the employer to revise its program within thirty days to incorporate those modifications or modifications which the jurisdiction determines to be equivalent.

(5) Each jurisdiction implementing a commute trip reduction plan pursuant to this chapter may impose civil penalties, in the manner provided in chapter 7.80 RCW, for failure by an employer to implement a commute trip reduction program or to modify its commute trip reduction program as required in subsection (4) of this section. No major employer may be held liable for civil penalties for failure to reach the applicable commute trip reduction goals. No major employer shall be liable for civil penalties under this chapter if failure to achieve a commute trip reduction program goal was the result of an inability to reach agreement with a certified collective bargaining agent under applicable laws where the issue was raised by the employer and pursued in good faith.
(6) Jurisdictions shall notify major employers of the procedures for applying for goal modification or exemption from the commute trip reduction requirements based on the guidelines established by the commute trip reduction board authorized under RCW 70.94.537. [2006 c 329 § 6; 1997 c 250 § 4; 1991 c 202 § 14.]

Members appointed by the governor shall be compensated in accordance with RCW 43.03.220. The board has all powers necessary to carry out its duties as prescribed by this chapter.

(2) By March 1, 2007, the department of transportation shall establish rules for commute trip reduction plans and implementation procedures. The commute trip reduction board shall advise the department on the content of the rules. The rules are intended to ensure consistency in commute trip reduction plans and goals among jurisdictions while fairly taking into account differences in employment and housing density, employer size, existing and anticipated levels of transit service, special employer circumstances, and other factors the board determines to be relevant. The rules shall include:

(a) Guidance criteria for growth and transportation efficiency centers;

(b) Data measurement methods and procedures for determining the efficacy of commute trip reduction activities and progress toward meeting commute trip reduction plan goals;

(c) Model commute trip reduction ordinances;

(d) Methods for assuring consistency in the treatment of employers who have worksites subject to the requirements of this chapter in more than one jurisdiction;

(e) An appeals process by which major employers, who as a result of special characteristics of their business or its locations would be unable to meet the requirements of a commute trip reduction plan, may obtain a waiver or modification of those requirements and criteria for determining eligibility for waiver or modification;

(f) Establishment of a process for determining the state’s affected areas, including criteria and procedures for regional transportation planning organizations in consultation with local jurisdictions to propose to add or exempt urban growth areas;

(g) Listing of the affected areas of the program to be done every four years as identified in subsection (5) of this section;

(h) Establishment of a criteria and application process to determine whether jurisdictions that voluntarily implement commute trip reduction are eligible for state funding;

(k) Methods for regional transportation planning organizations to evaluate and certify that designated growth and transportation efficiency center programs meet the minimum requirements and are eligible for funding;

(l) Guidelines for creating and updating growth and transportation efficiency center programs; and

(m) Establishment of statewide program goals. The goals shall be designed to achieve substantial reductions in the proportion of single-occupant vehicle commute trips and the commute trip vehicle miles traveled per employee, at a level that is projected to improve the mobility of people and goods by increasing the efficiency of the state highway system.

(3) The board shall create a state commute trip reduction plan that shall be updated every four years as discussed in subsection (5) of this section. The state commute trip reduction plan shall include, but is not limited to: (a) Statewide commute trip reduction program goals that are designed to substantially improve the mobility of people and goods; (b) identification of strategies at the state and regional levels to achieve the goals and recommendations for how transportation demand management strategies can be targeted most effectively to support commute trip reduction program goals; (c) performance measures for assessing the cost-effectiveness of commute trip reduction strategies and the benefits for the state transportation system; and (d) a sustainable financial

(2008 Ed.)
plan. The board shall review and approve regional commute trip reduction plans, and work collaboratively with regional transportation planning organizations in the establishment of the state commute trip reduction plan.

(4) The board shall work with affected jurisdictions, major employers, and other parties to develop and implement a public awareness campaign designed to increase the effectiveness of local commute trip reduction programs and support achievement of the objectives identified in this chapter.

(5) The board shall evaluate and update the commute trip reduction program plan and recommend changes to the rules every four years, with the first assessment report due July 1, 2011, to ensure that the latest data methodology used by the department of transportation is incorporated into the program and to determine which areas of the state should be affected by the program. The board shall review the definition of a major employer no later than December 1, 2009. The board shall regularly identify urban growth areas that are projected to be affected by chapter 329, Laws of 2006 in the next four-year period and may provide advance planning support to the potentially affected jurisdictions.

(6) The board shall review progress toward implementing commute trip reduction plans and programs and the costs and benefits of commute trip reduction plans and programs and shall make recommendations to the legislature and the governor by December 1, 2009, and every two years thereafter. In assessing the costs and benefits, the board shall consider the costs of not having implemented commute trip reduction plans and programs with the assistance of the transportation performance audit board authorized under *chapter 44.75 RCW. The board shall examine other transportation demand management programs nationally and incorporate its findings into its recommendations to the legislature. The recommendations shall address the need for continuation, modification, or termination or any or all requirements of this chapter.

(7) The board shall invite personnel with appropriate expertise from state, regional, and local government, private, public, and nonprofit providers of transportation services, and employers or owners of major worksites in Washington to act as a technical advisory group. The technical advisory group shall advise the board on the implementation of local and regional commute trip reduction plans and programs, program evaluation, program funding allocations, and state rules and guidelines. 70.94.544 Transportation demand management—Use of funds. A portion of the funds made available for the purposes of this chapter shall be used to fund the commute trip reduction board in carrying out the responsibilities of RCW 70.94.537, and the department of transportation, including the activities authorized under RCW 70.94.541(2), and to assist regional transportation planning organizations, counties, cities, and towns implementing commute trip reduction plans. The commute trip reduction board shall determine the allocation of program funds made available for the purposes of this chapter to regional transportation planning organizations, counties, cities, and towns implementing commute trip reduction plans. If state funds for the purposes of this chapter are provided to those jurisdictions implementing voluntary commute trip reduction plans, the funds shall be disbursed based on criteria established by the commute trip reduction board under RCW 70.94.537. 70.94.547 Transportation demand management—Intent—State leadership. The legislature hereby recognizes the state’s crucial leadership role in establishing and implementing effective commute trip reduction programs. Therefore, it is the policy of the state that the department of general administration and other state agencies, including institutions of higher education, shall aggressively develop substantive programs to reduce commute trips by state employees. Implementation of these programs will reduce energy consumption, congestion in urban areas, and air and water pollution associated with automobile travel. [2006 c 329 § 10; 1991 c 202 § 18.]

Captions not law—Effective date—Severability—1991 c 202: See notes following RCW 47.50.010.

70.94.551 Transportation demand management—State agencies—Reports. (1) The director of the department of general administration may coordinate an interagency
board for the purpose of developing policies or guidelines that promote consistency among state agency commute trip reduction programs required by RCW 70.94.527 and 70.94.531. The board shall include representatives of the departments of transportation, ecology, and community, trade, and economic development and such other departments and interested groups as the director of the department of general administration determines to be necessary. Policies and guidelines shall be applicable to all state agencies including but not limited to policies and guidelines regarding parking and parking charges, employee incentives for commuting by other than single-occupant automobiles, flexible and alternative work schedules, alternative worksites, and the use of state-owned vehicles for car and van pools and guaranteed rides home. The policies and guidelines shall also consider the costs and benefits to state agencies of achieving commute trip reductions and consider mechanisms for funding state agency commute trip reduction programs.

(2) State agencies sharing a common location in affected urban growth areas where the total number of state employees is one hundred or more shall, with assistance from the department of general administration, develop and implement a joint commute trip reduction program. The worksite shall be treated as specified in RCW 70.94.531 and 70.94.534.

(3) The department of general administration shall review the initial commute trip reduction program of each state agency subject to the commute trip reduction plan for state agencies to determine if the program is likely to meet the applicable commute trip reduction goals and notify the agency of any deficiencies. If it is found that the program is not likely to meet the applicable commute trip reduction goals, the department of general administration will work with the agency to modify the program as necessary.

(4) Each state agency implementing a commute trip reduction plan shall report at least once per year to its agency director on the performance of the agency’s commute trip reduction program as part of the agency’s quality management, accountability, and performance system as defined by RCW 43.17.385. The reports shall assess the performance of the program, progress toward state goals established under RCW 70.94.537, and recommendations for improving the program.

(5) The department of general administration shall review the agency performance reports defined in subsection (4) of this section and submit a biennial report for state agencies subject to this chapter to the governor and incorporate the report in the commute trip reduction board report to the legislature as directed in RCW 70.94.537(6). The report shall include, but is not limited to, an evaluation of the most recent measurement results, progress toward state goals established under RCW 70.94.537, and recommendations for improving the performance of state agency commute trip reduction programs. The information shall be reported in a form established by the commute trip reduction board. [2006 c 329 § 11; 1997 c 250 § 6; 1996 c 186 § 516; 1991 c 202 § 19.]

70.94.555 Transportation demand management—Collective bargaining powers unaffected. Nothing in chapter 329, Laws of 2006 preempts the ability of state employees to collectively bargain over commute trip reduction issues, including parking fees under chapter 41.80 RCW, or the ability of private sector employees to collectively bargain over commute trip reduction issues if previously such issues were mandatory subjects of collective bargaining. [2006 c 329 § 3.]

70.94.600 Reports of authorities to department of ecology—Contents. All authorities in the state shall submit quarterly reports to the department of ecology detailing the current status of air pollution control regulations in the authority and, by county, the progress made toward bringing all sources in the authority into compliance with authority standards. [1979 ex.s. c 30 § 14; 1969 ex.s. c 168 § 52.]

70.94.610 Burning used oil fuel in land-based facilities. (1) Except as provided in subsection (2) of this section, a person may not burn used oil as fuel in a land-based facility or in state waters unless the used oil meets the following standards:

(a) Cadmium: 2 ppm maximum
(b) Chromium: 10 ppm maximum
(c) Lead: 100 ppm maximum
(d) Arsenic: 5 ppm maximum
(e) Total halogens: 1000 ppm maximum
(f) Polychlorinated biphenyls: 2 ppm maximum
(g) Ash: .1 percent maximum
(h) Sulfur: 1.0 percent maximum
(i) Flash point: 100 degrees Fahrenheit minimum.

(2) This section shall not apply to:
(a) Used oil burned in space heaters if the space heater has a maximum heat output of not greater than 0.5 million btu’s per hour or used oil burned in facilities permitted by the department or a local air pollution control authority; or
(b) ocean-going vessels.

(3) This section shall not apply to persons in the business of collecting used oil from residences when under authorization by a city, county, or the utilities and transportation commission. [1991 c 319 § 311.]

70.94.620 Metals mining and milling operations permits—Inspections by department of ecology. If a metals mining and milling operation is issued a permit pursuant to this chapter, then it will be subject to special inspection requirements. The department of ecology shall inspect these mining operations at least quarterly in order to ensure that the operation is in compliance with the conditions of any permit issued to it pursuant to this chapter. The department shall conduct additional inspections during the construction phase of the mining and milling operation in order to ensure compliance with this chapter. [1994 c 232 § 18.]

70.94.630 Sulfur dioxide abatement account—Coal-fired thermal electric generation facilities—Application—Determination and assessment of progress—Certification of pollution level—Reimbursement—Time limit for and extension of account. (1) The sulfur dioxide abatement account is created. All receipts from subsection (2) of this section must be deposited in the account. Expenditures in the account may be used only for the purposes of subsection (3) of this section. Only the director of revenue or the director’s designee may authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures.

(2) Upon application by the owners of a generation facility, the department of ecology shall make a determination of whether the owners are making initial progress in the construction of air pollution control facilities. Evidence of initial progress may include, but is not limited to, engineering work, agreements to proceed with construction, contracts to purchase, or contracts for construction of air pollution control facilities. However, if the owners’ progress is impeded due to actions caused by regulatory delays or by defensive litigation, certification of initial progress may not be withheld.

Upon certification of initial progress by the department of ecology and after January 1, 1999, an amount equal to all taxes paid under chapters 82.08, 82.12, and 82.14 RCW, that were obtained from the sales of coal to, or use of coal by, a business for use at a generation facility shall be deposited in the account under RCW 82.32.392.

By June 1st of each year during construction of the air pollution control facilities and during the verification period required in RCW 82.08.811(2)(d) and 82.12.811(2)(d), the department of ecology shall make an assessment regarding the continued progress of the pollution control facilities. Evidence of continued progress may include, but is not limited to, acquisition of construction material, visible progress on construction, or other actions that have occurred that would verify progress under general construction time tables. The treasurer shall continue to deposit an amount equal to the tax revenues to the sulfur dioxide abatement account unless the department of ecology fails to certify that reasonable progress has been made during the previous year. The operator of a generation facility shall file documentation accompanying its combined monthly excise tax return that identifies all sales and use tax payments made by the owners for coal used at the generation facility during the reporting period.

(3) When a generation facility emits no more than ten thousand tons of sulfur dioxide during a consecutive twelve-month period, the department of ecology shall certify this to the department of revenue and the state treasurer by the end of the following month. Within thirty days of receipt of certification under this subsection, the department of revenue shall approve the tax exemption application and the director or the director’s designee shall authorize the release of any moneys in the sulfur dioxide abatement account to the operator of the generation facility. The operator shall disburse the payment among the owners of record according to the terms of their contractual agreement.

(4)(a) If the department of revenue has not approved a tax exemption under RCW 82.08.811 and 82.12.811 by March 1, 2005, any moneys in the sulfur dioxide abatement account shall be transferred to the general fund and the appropriate local governments in accordance with chapter 82.14 RCW, and the sulfur dioxide abatement account shall cease to exist after March 1, 2005.

(b) The dates in (a) of this subsection must be extended if the owners of a generation facility have experienced difficulties in complying with this section, or RCW 82.08.811, 82.08.812, 82.12.811, 82.12.812, and 82.32.392, due to actions caused by regulatory delays or by defensive litigation.

(5) For the purposes of this section:

(a) "Air pollution control facilities" means any treatment works, control devices and disposal systems, machinery, equipment, structure, property, property improvements and accessories, that are installed or acquired for the primary purpose of reducing, controlling, or disposing of industrial waste that, if released to the outdoor atmosphere, could cause air pollution, or that are required to meet regulatory requirements applicable to their construction, installation, or operation; and

(b) "Generation facility" means a coal-fired thermal electric generation facility placed in operation after December 3, 1969, and before July 1, 1975. [1997 c 368 § 10.]

*Reviser’s note: RCW 82.08.812 and 82.12.812 were repealed by 2000 c 4 § 1.

70.94.640 Odors or fugitive dust caused by agricultural activities consistent with good agricultural practices exempt from chapter. (1) Odors or fugitive dust caused by agricultural activity consistent with good agricultural practices on agricultural land are exempt from the requirements of this chapter unless they have a substantial adverse effect on public health. In determining whether agricultural activity is consistent with good agricultural practices, the department of ecology or board of any authority shall consult with a recognized third-party expert in the activity prior to issuing any notice of violation.

(2) Any notice of violation issued under this chapter pertaining to odors or fugitive dust caused by agricultural activity shall include a statement as to why the activity is inconsistent with good agricultural practices, or a statement that the odors or fugitive dust have substantial adverse effect on public health.

(3) In any appeal to the pollution control hearings board or any judicial appeal, the agency issuing a final order pertaining to odors or fugitive dust caused by agricultural activity shall prove the activity is inconsistent with good agricultural practices or that the odors or fugitive dust have substantial adverse impact on public health.

(4) If a person engaged in agricultural activity on a contiguous piece of agricultural land sells or has sold a portion of that land for residential purposes, the exemption of this section shall not apply.

(5) As used in this section:

(a) "Agricultural activity" means the growing, raising, or production of horticultural or viticultural crops, berries, poultry, livestock, shellfish, grain, mint, hay, and dairy products.

(b) "Good agricultural practices" means economically feasible practices which are customary among or appropriate to farms and ranches of a similar nature in the local area.
(c) "Agricultural land" means at least five acres of land devoted primarily to the commercial production of livestock, agricultural commodities, or cultured aquatic products.

(d) "Fugitive dust" means a particulate emission made airborne by human activity, forces of wind, or both, and which do not pass through a stack, chimney, vent, or other functionally equivalent opening.

(6) The exemption for fugitive dust provided in subsection (1) of this section does not apply to facilities subject to RCW 70.94.151 as specified in WAC 173-400-100 as of July 24, 2005, 70.94.152, or 70.94.161. [2005 c 511 § 4; 1981 c 297 § 30.]

Legislative finding, intent—1981 c 297: "The legislature finds that agricultural land is essential to providing citizens with food and fiber and to insuring aesthetic values through the preservation of open spaces in our state. The legislature further finds that government regulations can cause agricultural land to be converted to nonagricultural uses. The legislature intends that agricultural activity consistent with good practices be protected from government over-regulation." [1981 c 297 § 29.]

Revisor's note: The above legislative finding and intent section apparently applies to sections 30 and 31 of chapter 297, Laws of 1981, which sections have been codified pursuant to legislative direction as RCW 70.94.640 and 90.48.450, respectively.

Severability—1981 c 297: See note following RCW 15.36.201.

70.94.645 Ammonia emissions from use as agricultural or silvicultural fertilizer—Regulation prohibited. The department shall not regulate ammonia emissions resulting from the storage, distribution, transport, or application of ammonia for use as an agricultural or silvicultural fertilizer. [1996 c 204 § 2.]

70.94.650 Burning permits for weed abatement, fire fighting instruction, or agriculture activities—Issuance—Agricultural burning practices and research task force—Exemption for aircraft crash fire rescue training activities. (1) Any person who proposes to set fires in the course of:

(a) Weed abatement;

(b) Instruction in methods of fire fighting, except training to fight structural fires as provided in RCW 52.12.150 or training to fight aircraft crash rescue fires as provided in subsection (5) of this section, and except forest fire training; or

(c) Agricultural activities,

shall obtain a permit from an air pollution control authority, the department of ecology, or a local entity delegated permitting authority under RCW 70.94.654. General permit criteria of statewide applicability shall be established by the department, by rule, after consultation with the various air pollution control authorities. Permits shall be issued under this section based on seasonal operations or by individual operations, or both. All permits shall be conditioned to insure that the public interest in air, water, and land pollution and safety to life and property is fully considered. In addition to any other requirements established by the department to protect air quality pursuant to other laws, applicants for permits must show that the setting of fires as requested is the most reasonable procedure to follow in safeguarding life or property under all circumstances or is otherwise reasonably necessary to successfully carry out the enterprise in which the applicant is engaged, or both. All burning permits will be designed to minimize air pollution insofar as practical. Nothing in this section shall relieve the applicant from obtaining permits, licenses, or other approvals required by any other law. An application for a permit to set fires in the course of agricultural burning for controlling diseases, insects, weed abatement or development of physiological conditions conducive to increased crop yield, shall be acted upon within seven days from the date such application is filed. The department of ecology and local air authorities shall provide convenient methods for issuance and oversight of agricultural burning permits. The department and local air authorities shall, through agreement, work with counties and cities to provide convenient methods for granting permission for agricultural burning, including telephone, facsimile transmission, issuance from local city or county offices, or other methods. A local air authority administering the permit program under this subsection (1)(c) shall not limit the number of days of allowable agricultural burning, but may consider the time of year, meteorological conditions, and other criteria specified in rules adopted by the department to implement this subsection (1)(c).

(2) Permit fees shall be assessed for burning under this section and shall be collected by the department of ecology, the appropriate local air authority, or a local entity delegated permitting authority pursuant to RCW 70.94.654 at the time the permit is issued. All fees collected shall be deposited in the air pollution control account created in RCW 70.94.015, except for that portion of the fee necessary to cover local costs of administering a permit issued under this section. Fees shall be set by rule by the permitting agency at the level determined by the task force created by subsection (4) of this section, but shall not exceed two dollars and fifty cents per acre to be burned. After fees are established by rule, any increases in such fees shall be limited to annual inflation adjustments as determined by the state office of the economic and revenue forecast council.

(3) Conservation districts and the Washington State University agricultural extension program in conjunction with the department shall develop public education material for the agricultural community identifying the health and environmental effects of agricultural outdoor burning and providing technical assistance in alternatives to agricultural outdoor burning.

(4) An agricultural burning practices and research task force shall be established under the direction of the department. The task force shall be composed of a representative from the department who shall serve as chair; one representative of eastern Washington local air authorities; three representatives of the agricultural community from different agricultural pursuits; one representative of the department of agriculture; two representatives from universities or colleges knowledgeable in agricultural issues; one representative of the public health or medical community; and one representative of the conservation districts. The task force shall identify best management practices for reducing air contaminant emissions from agricultural activities and provide such information to the department and local air authorities. The task force shall determine the level of fees to be assessed by the permitting agency pursuant to subsection (2) of this section, based upon the level necessary to cover the costs of administering and enforcing the permit programs, to provide funds for research into alternative methods to reduce emissions.
70.94.651 Burning permits for regeneration of rare and endangered plants; Indian ceremonies. Nothing contained in this chapter shall prohibit fires necessary: (1) To promote the regeneration of rare and endangered plants found within natural area preserves as identified under chapter 70.70 RCW; and (2) for Indian ceremonies for the sending of smoke signals if part of a religious ritual. Permits issued for burning under this section shall be drafted to minimize emissions including denial of permission to burn during periods of adverse meteorological conditions. [1991 c 199 § 407.] 

Finding—1991 c 199: See note following RCW 70.94.011.

70.94.654 Delegation of permit issuance and enforcement to political subdivisions. Whenever an air pollution control authority, or the department of ecology for areas outside the jurisdictional boundaries of an activated air pollution control authority, shall find that any fire protection agency, county, or conservation district is capable of effectively administering the issuance and enforcement of permits for any or all of the kinds of burning identified in RCW 70.94.650 and desirous of doing so, the authority or the department of ecology, as appropriate, may delegate powers necessary for the issuance or enforcement, or both, of permits for any or all of the kinds of burning to the fire protection agency, county, or conservation district. Such delegation may be withdrawn by the authority or the department of ecology upon finding that the fire protection agency, county, or conservation district is not effectively administering the permit program. [1993 c 353 § 2; 1991 c 199 § 409; 1973 1st ex.s. c 193 § 6.]

Finding—1991 c 199: See note following RCW 70.94.011.

70.94.656 Open burning of grasses grown for seed—Alternatives—Studies—Deposit of permit fees in special grass seed burning account—Procedures—Limitations—Report. It is hereby declared to be the policy of this state that strong efforts should be made to minimize adverse effects on air quality from the open burning of field and turf grasses grown for seed. To such end this section is intended to promote the development of economical and practical alternate agricultural practices to such burning, and to provide for interim regulation of such burning until practical alternates are found.

(1) The department shall approve of a study or studies for the exploration and identification of economical and practical alternate agricultural practices to the open burning of field and turf grasses grown for seed. Any study conducted pursuant to this section shall be conducted by Washington State University. The university may not charge more than eight percent for administrative overhead. Prior to the issuance of any permit for such burning under RCW 70.94.650, there shall be collected a fee not to exceed one dollar per acre of crop to be burned. Any such fees received by any authority shall be transferred to the department of ecology. The department of ecology shall deposit all such acreage fees in a special grass seed burning research account, hereby created, in the state treasury.

(2) The department shall allocate moneys annually from this account for the support of any approved study or studies

from such burning, and to the extent possible be consistent with fees charged for such burning permits in neighboring states. The fee level shall provide, to the extent possible, for lesser fees for permissive who use best management practices to minimize air contaminant emissions. The task force shall identify research needs related to minimizing emissions from agricultural burning and alternatives to such burning. Further, the task force shall make recommendations to the department on priorities for spending funds provided through this chapter for research into alternative methods to reduce emissions from agricultural burning.

(5) A permit is not required under this section, or under RCW 70.94.743 through 70.94.780, from an air pollution control authority, the department, or any local entity with delegated permit authority, for aircraft crash rescue fire training activities meeting the following conditions:

(a) Firefighters participating in the training fires must be limited to those who provide fire fighting support to an airport that is either certified by the federal aviation administration or operated in support of military or governmental activities;

(b) The fire training may not be conducted during an air pollution episode or any stage of impaired air quality declared under RCW 70.94.715 for the area where training is to be conducted;

(c) The number of training fires allowed per year without a permit shall be the minimum number necessary to meet federal aviation administration or other federal safety requirements;

(d) The facility shall use current technology and be operated in a manner that will minimize, to the extent possible, the air contaminants generated during operation; and

(e) Prior to the commencement of the aircraft fire training, the organization conducting training shall notify both the: (i) Local fire district or fire department; and (ii) air pollution control authority, department of ecology, or local entity delegated permitting authority under RCW 70.94.654, having jurisdiction within the area where training is to be conducted.

Written approval from the department or a local air pollution control authority shall be obtained prior to the initial operation of aircraft crash rescue fire training. Such approval will be granted to fire training activities meeting the conditions in this subsection.

(6) Aircraft crash rescue fire training activities conducted in compliance with *this subsection are not subject to the prohibition, in RCW 70.94.775(1), of outdoor fires containing petroleum products and are not considered outdoor burning under RCW 70.94.743 through 70.94.780.

(7) To provide for fire fighting instruction in instances not governed by subsection (6) of this section, or other actions to protect public health and safety, the department or a local air pollution control authority may issue permits that allow limited burning of prohibited materials listed in RCW 70.94.775(1). [1998 c 43 § 1. Prior: 1995 c 362 § 1; 1995 c 58 § 1; 1994 c 28 § 2; 1993 c 353 § 1; 1991 c 199 § 408; 1971 ex.s. c 232 § 1.]

*Reviser's note: The reference to "this subsection" appears to be erroneous, and should instead refer to subsection (5) of this section.

Finding—1991 c 199: See note following RCW 70.94.011.

[Title 70 RCW—page 230]
as provided for in subsection (1) of this section. Whenever the department of ecology shall conclude that sufficient reasonably available alternatives to open burning have been developed, and at such time as all costs of any studies have been paid, the grass seed burning research account shall be dissolved, and any money remaining therein shall revert to the general fund. The fee collected under subsection (1) of this section shall constitute the research portion of fees required under RCW 70.94.650 for open burning of grass grown for seed.

(3) Whenever on the basis of information available to it, the department after public hearings have been conducted wherein testimony will be received and considered from interested parties wishing to testify shall conclude that any procedure, program, technique, or device constitutes a practical alternate agricultural practice to the open burning of field or turf grasses grown for seed, the department shall, by order, certify approval of such alternate. Thereafter, in any case which any such approved alternate is reasonably available, the open burning of field and turf grasses grown for seed shall be disallowed and no permit shall issue therefor.

(4) Until approved alternates become available, the department or the authority may limit the number of acres on a pro rata basis among those affected for which permits to burn will be issued in order to effectively control emissions from this source.

(5) Permits issued for burning of field and turf grasses may be conditioned to minimize emissions insofar as practical, including denial of permission to burn during periods of adverse meteorological conditions.

(6) By November 1, 1996, and every two years thereafter until grass seed burning is prohibited, Washington State University may prepare a brief report assessing the potential of the university’s research to result in economical and practical alternatives to grass seed burning. 70.94.660 Burning permits for abating or prevention of forest fire hazards, management of ecosystems, instruction or silvicultural operations—Issuance. (1) The department of natural resources shall have the responsibility for issuing and regulating burning permits required by it relating to the following activities for the protection of life or property and/or for the public health, safety, and welfare:

(a) Abating a forest fire hazard;

(b) Prevention of a fire hazard;

(c) Instruction of public officials in methods of forest fire fighting;

(d) Any silvicultural operation to improve the forest lands of the state; and

(e) Silvicultural burning used to improve or maintain fire dependent ecosystems for rare plants or animals within state, federal, and private natural area preserves, natural resource conservation areas, parks, and other wildlife areas.

(2) The department of natural resources shall not retain such authority, but it shall be the responsibility of the appropriate fire protection agency for permitting and regulating outdoor burning on lands where the department of natural resources does not have fire protection responsibility.

(3) Permit fees shall be assessed for silvicultural burning under the jurisdiction of the department of natural resources and collected by the department of natural resources as provided for in this section. All fees shall be deposited in the air pollution control account, created in RCW 70.94.015. The legislature shall appropriate to the department of natural resources funds from the air pollution control account to enforce and administer the program under RCW 70.94.665 and 70.94.660, 70.94.670, and 70.94.690. Fees shall be set by rule by the department of natural resources at the level necessary to cover the costs of the program after receiving recommendations on such fees from the public and the forest fire advisory board established by RCW 76.04.145. [1991 c 199 § 404; 1971 ex.s. c 232 § 2.]

70.94.665 Silvicultural forest burning—Reduce statewide emissions—Exemption—Monitoring program. (1) The department of natural resources shall administer a program to reduce statewide emissions from silvicultural forest burning so as to achieve the following minimum objectives:

(a) Twenty percent reduction by December 31, 1994 providing a ceiling for emissions until December 31, 2000; and

(b) Fifty percent reduction by December 31, 2000 providing a ceiling for emissions thereafter.

Reductions shall be calculated from the average annual emissions level from calendar years 1985 to 1989, using the same methodology for both reduction and base year calculations.

(2) The department of natural resources, within twelve months after May 15, 1991, shall develop a plan, based upon the existing smoke management agreement to carry out the programs as described in this section in the most efficient, cost-effective manner possible. The plan shall be developed in consultation with the department of ecology, public and private landowners engaged in silvicultural forest burning, and representatives of the public.

The plan shall recognize the variations in silvicultural forest burning including, but not limited to, a landowner’s responsibility to abate an extreme fire hazard under chapter 76.04 RCW and other objectives of burning, including abating and preventing a fire hazard, geographic region, climate, elevation and slope, proximity to populated areas, and diversity of land ownership. The plan shall establish priorities that the department of natural resources shall use to allocate allowable emissions, including but not limited to, silvicultural burning used to improve or maintain fire dependent ecosystems for rare plants or animals within state, federal, and private natural area preserves, natural resource conservation areas, parks, and other wildlife areas. The plan shall also recognize the real costs of the emissions program and recommend equitable fees to cover the costs of the program.
The emission reductions in this section are to apply to all forest lands including those owned and managed by the United States. If the United States does not participate in implementing the plan, the departments of natural resources and ecology shall use all appropriate and available methods or enforcement powers to ensure participation.

The plan shall include a tracking system designed to measure the degree of progress toward the emission reductions goals set in this section. The department of natural resources shall report annually to the department of ecology and the legislature on the status of the plan, emission reductions and progress toward meeting the objectives specified in this section, and the goals of this chapter and chapter 76.04 RCW.

(3) If the December 31, 1994, emission reductions targets in this section are not met, the department of natural resources, in consultation with the department of ecology, shall use its authority granted in this chapter and chapter 76.04 RCW to immediately limit emissions from such burning to the 1994 target levels and limit silvicultural forest burning in subsequent years to achieve equal annual incremental reductions so as to achieve the December 31, 2000, target level. If, as a result of the program established in this section, the emission reductions are met in 1994, but are not met by December 31, 2000, the department of natural resources in consultation with the department of ecology shall immediately limit silvicultural forest burning to reduce emissions from such burning to the December 31, 2000, target level in all subsequent years.

(4) Emissions from silvicultural burning in eastern Washington that is conducted for the purpose of restoring forest health or preventing the additional deterioration of forest health are exempt from the reduction targets and calculations in this section if the following conditions are met:

(a) The landowner submits a written request to the department identifying the location of the proposed burning and the nature of the forest health problem to be corrected. The request shall include a brief description of alternatives to silvicultural burning and reasons why the landowner believes the alternatives not to be appropriate.

(b) The department determines that the proposed silvicultural burning operation is being conducted to restore forest health or prevent additional deterioration to forest health; meets the requirements of the state smoke management plan to protect public health, visibility, and the environment; and will not be conducted during an air pollution episode or during periods of impaired air quality in the vicinity of the proposed burn.

(c) Upon approval of the request by the department and before burning, the landowner is encouraged to notify the public in the vicinity of the burn of the general location and approximate time of ignition.

(5) The department of ecology may conduct a limited, seasonal ambient air quality monitoring program to measure the effects of forest health burning conducted under subsection (4) of this section. The monitoring program may be developed in consultation with the department of natural resources, private and public forest landowners, academic experts in forest health issues, and the general public. [1995 c 143 § 1; 1991 c 199 § 403.]

Finding—1991 c 199: See note following RCW 70.94.011.

70.94.670 Burning permits for abating or prevention of forest fire hazards, management of ecosystems, instruction or silvicultural operations—Conditions for issuance and use of permits—Air quality standards to be met—Alternate methods to lessen forest debris. The department of natural resources in granting burning permits for fires for the purposes set forth in RCW 70.94.660 shall condition the issuance and use of such permits to comply with air quality standards established by the department of ecology after full consultation with the department of natural resources. Such burning shall not cause the state air quality standards to be exceeded in the ambient air up to two thousand feet above ground level over critical areas designated by the department of ecology, otherwise subject to air pollution from other sources. Air quality standards shall be established and published by the department of ecology which shall also establish a procedure for advising the department of natural resources when and where air contaminant levels exceed or threaten to exceed the ambient air standards over such critical areas. The air quality shall be quantitatively measured by the department of ecology or the appropriate local air pollution control authority at established monitoring stations over such designated areas. Further, such permitted burning shall not cause damage to public health or the environment. All permits issued under this section shall be subject to all applicable fees, permitting, penalty, and enforcement provisions of this chapter. The department of natural resources shall set forth smoke dispersal objectives designed consistent with this section to minimize any air pollution from such burning and the procedures necessary to meet those objectives.

The department of natural resources shall encourage more intense utilization in logging and alternative silviculture practices to reduce the need for burning. The department of natural resources shall, whenever practical, encourage landowners to develop and use alternative acceptable disposal methods subject to the following priorities: (1) Slash production minimization, (2) slash utilization, (3) nonburning disposal, (4) silvicultural burning. Such alternative methods shall be evaluated as to the relative impact on air, water, and land pollution, public health, and their financial feasibility.

The department of natural resources shall not issue burning permits and shall revoke previously issued permits at any time in any area where the department of ecology or local board has declared a stage of impaired air quality as defined in RCW 70.94.473. [1991 c 199 § 405; 1971 ex.s. c 232 § 3.]

Finding—1991 c 199: See note following RCW 70.94.011.
develop agreements with all local authorities to coordinate regulations.

Permits shall be withheld by the department of natural resources when so requested by the department of ecology if a forecast, alert, warning, or emergency condition exists as defined in the episode criteria of the department of ecology. [1991 c 199 § 406; 1971 ex.s. c 232 § 5.]

*Reviser's note: RCW 70.94.740 was repealed by 1991 c 199 § 718.

Finding—1991 c 199: See note following RCW 70.94.011.

### 70.94.700 Rules and regulations.

The department of natural resources and the department of ecology may adopt rules and regulations necessary to implement their respective responsibilities under the provisions of RCW 70.94.650 through 70.94.700. [1971 ex.s. c 232 § 6.]

### 70.94.710 Air pollution episodes—Legislative finding—Declaration of policy.

The legislature finds that whenever meteorological conditions occur which reduce the effective volume of air into which air contaminants are introduced, there is a high danger that normal operations at air contaminant sources in the area affected will be detrimental to public health or safety. Whenever such conditions, herein denominated as air pollution episodes, are forecast, there is a need for rapid short-term emission reduction in order to avoid adverse health or safety consequences.

Therefore, it is declared to be the policy of this state that an episode avoidance plan should be developed and implemented for the temporary reduction of emissions during air pollution episodes.

It is further declared that power should be vested in the governor to issue emergency orders for the reduction or discontinuance of emissions when such emissions and weather combine to create conditions imminently dangerous to public health and safety. [1971 ex.s. c 194 § 1.]

### 70.94.715 Air pollution episodes—Episode avoidance plan—Contents—Source emission reduction plans—Authority—Considered orders.

The department of ecology is hereby authorized to develop an episode avoidance plan providing for the phased reduction of emissions whenever and whenever an air pollution episode is forecast. Such an episode avoidance plan shall conform with any applicable federal standards and shall be effective statewide. The episode avoidance plan may be implemented on an area basis in accordance with the occurrence of air pollution episodes in any given area.

The department of ecology may delegate authority to adopt source emission reduction plans and authority to implement all stages of occurrence up to and including the warning stage, and all intermediate stages up to the warning stage, in any area of the state, to the air pollution control authority with jurisdiction therein.

The episode avoidance plan, which shall be established by regulation in accordance with chapter 34.05 RCW, shall include, but not be limited to the following:

1. The designation of episode criteria and stages, the occurrence of which will require the carrying out of preplanned episode avoidance procedures. The stages of occurrence shall be (a) forecast, (b) alert, (c) warning, (d) emergency, and such intermediate stages as the department shall designate. "Forecast" means the presence of meteorological conditions that are conducive to accumulation of air contaminants and is the first stage of an episode. The department shall not call a forecast episode prior to the department or an authority calling a first stage impaired air quality condition as provided by RCW 70.94.473(1)(b) or calling a single-stage impaired air quality condition as provided by *RCW 70.94.473(2). "Alert" means concentration of air contaminants at levels at which short-term health effects may occur, and is the second stage of an episode. "Warning" means concentrations are continuing to degrade, contaminant concentrations have reached a level which, if maintained, can result in damage to health, and additional control actions are needed and is the third level of an episode. "Emergency" means the air quality is posing an imminent and substantial endangerment to public health and is the fourth level of an episode;

2. The requirement that persons responsible for the operation of air contaminant sources prepare and obtain approval from the director of source emission reduction plans, consistent with good operating practice and safe operating procedures, for reducing emissions during designated episode stages;

3. Provision for the director of the department of ecology or his authorized representative, or the air pollution control officer if implementation has been delegated, to order the person or persons responsible for the operation of air contaminant sources to discontinue emissions immediately, consistent with good operating practice and safe operating procedures, under an air pollution emergency by governor.

4. Provision for the governor to declare and terminate the emergency stage and all intermediate stages above the warning episode stage, such declarations constituting orders for action in accordance with applicable source emission reduction plans;

5. Provisions for enforcement by state and local police, personnel of the departments of ecology and social and health services, and personnel of local air pollution control agencies; and

6. Provisions for reduction or discontinuance of emissions immediately, consistent with good operating practice and safe operating procedures, under an air pollution emergency as provided in RCW 70.94.720.

Source emission reduction plans shall be considered orders of the department and shall be subject to appeal to the pollution control hearings board according to the procedure in chapter 43.21B RCW. [1990 c 128 § 4; 1971 ex.s. c 194 § 2.]

*Reviser's note: RCW 70.94.473 was amended by 1995 c 205 § 1, which deleted subsection (2).

### 70.94.720 Air pollution episodes—Declaration of air pollution emergency by governor.

Whenever the governor finds that emissions from the operation of one or more air contaminant sources is causing imminent danger to public health or safety, he may declare an air pollution emergency and may order the person or persons responsible for the operation of such air contaminant source or sources to reduce or discontinue emissions consistent with good operating practice, safe operating procedures and source emission reduction

(2008 Ed.)
plans, if any, adopted by the department of ecology or any local air pollution control authority to which the department of ecology has delegated authority to adopt emission reduction plans. Orders authorized by this section shall be in writing and may be issued without prior notice or hearing. In the absence of the governor, any findings, declarations and orders authorized by this section may be made and issued by his authorized representative. [1971 ex.s. c 194 § 3.]

70.94.725 Air pollution episodes—Restraining orders, temporary injunctions to enforce orders—Procedure. Whenever any order has been issued pursuant to RCW 70.94.710 through 70.94.730, the attorney general, upon request from the governor, the director of the department of ecology, an authorized representative of either, or the attorney for a local air pollution control authority upon request of the control officer, shall petition the superior court of the county in which is located the air contaminant source for which such order was issued for a temporary restraining order requiring the immediate reduction or discontinuance of emissions from such source.

Upon request of the party to whom a temporary restraining order is directed, the court shall schedule a hearing thereon at its earliest convenience, at which time the court may withdraw the restraining order or grant such temporary injunction as is reasonably necessary to prevent injury to the public health or safety. [1971 ex.s. c 194 § 4.]

70.94.730 Air pollution episodes—Orders to be effective immediately. Orders issued to declare any stage of an air pollution episode avoidance plan under RCW 70.94.715, and to declare an air pollution emergency, under RCW 70.94.720, and orders to persons responsible for the operation of an air contaminant source to reduce or discontinue emissions, according to RCW 70.94.715 and 70.94.720 shall be effective immediately and shall not be stayed pending completion of review. [1971 ex.s. c 194 § 5.]

70.94.743 Outdoor burning—Areas where prohibited—Exceptions—Use for management of storm or flood-related debris—Silvicultural burning. (1) Consistent with the policy of the state to reduce outdoor burning to the greatest extent practical:

(a) Outdoor burning shall not be allowed in any area of the state where federal or state ambient air quality standards are exceeded for pollutants emitted by outdoor burning.

(b) Outdoor burning shall not be allowed in any urban growth area as defined by RCW 36.70A.030, or any city of the state having a population greater than ten thousand people if such cities are threatened to exceed state or federal air quality standards, and alternative disposal practices consistent with good solid waste management are reasonably available or practices eliminating production of organic refuse are reasonably available. In no event shall such burning be allowed after December 31, 2000, except that within the urban growth areas for cities having a population of less than five thousand people, that are neither within nor contiguous with any nonattainment or maintenance area designated under the federal clean air act, in no event shall such burning be allowed after December 31, 2006.

(c) Notwithstanding any other provision of this section, outdoor burning may be allowed for the exclusive purpose of managing storm or flood-related debris. The decision to allow burning shall be made by the entity with permitting jurisdiction as determined under RCW 70.94.660 or 70.94.755. If outdoor burning is allowed in areas subject to (a) or (b) of this subsection, a permit shall be required, and a fee may be collected to cover the expenses of administering and enforcing the permit. All conditions and restrictions pursuant to RCW 70.94.750(1) and 70.94.775 apply to outdoor burning allowed under this section.

(d)(i) Outdoor burning that is normal, necessary, and customary to ongoing agricultural activities, that is consistent with agricultural burning authorized under RCW 70.94.650 and 70.94.656, is allowed within the urban growth area as defined in (b) of this subsection if the burning is not conducted during air quality episodes, or where a determination of impaired air quality has been made as provided in RCW 70.94.473, and the agricultural activities preceded the designation as an urban growth area.

(ii) Outdoor burning of cultivated orchard trees, whether or not agricultural crops will be replanted on the land, shall be allowed as an ongoing agricultural activity under this section if a local horticultural pest and disease board formed under chapter 15.09 RCW, an extension office agent with Washington State University that has horticultural experience, or an entomologist employed by the department of agriculture, has determined in writing that burning is an appropriate method to prevent or control the spread of horticultural pests or diseases.

(2) "Outdoor burning" means the combustion of material of any type in an open fire or in an outdoor container without providing for the control of combustion or the control of emissions from the combustion.

(3) This section shall not apply to silvicultural burning used to improve or maintain fire dependent ecosystems for rare plants or animals within state, federal, and private natural area preserves, natural resource conservation areas, parks, and other wildlife areas. [2004 c 213 § 1; 2001 1st sp.s. c 12 § 1; 1998 c 68 § 1; 1997 c 225 § 1; 1991 c 199 § 402.]

Finding—1991 c 199: See note following RCW 70.94.011.

70.94.745 Limited outdoor burning—Program—Exceptions. (1) It shall be the responsibility and duty of the department of natural resources, department of ecology, department of agriculture, fire districts, and local air pollution control authorities to establish, through regulations, ordinances, or policy, a limited burning permit program.

(2) The permit program shall apply to residential and land clearing burning in the following areas:

(a) In the nonurban areas of any county with an unincorporated population of greater than fifty thousand; and

(b) In any city and urban growth area that is not otherwise prohibited from burning pursuant to RCW 70.94.743.

(3) The permit program shall apply only to land clearing burning in the nonurban areas of any county with an unincorporated population of less than fifty thousand.

(4) The permit program may be limited to a general permit by rule, or by verbal, written, or electronic approval by the permitting entity.

[Title 70 RCW—page 234]
(5) Notwithstanding any other provision of this section, neither a permit nor the payment of a fee shall be required for outdoor burning for the purpose of disposal of tumbleweeds blown by wind. Such burning shall not be conducted during an air pollution episode or any stage of impaired air quality declared under *RCW 70.94.714. This subsection (5) shall only apply within counties with a population less than two hundred fifty thousand.

(6) Burning shall be prohibited in an area when an alternate technology or method of disposing of the organic refuse is available, reasonably economical, and less harmful to the environment. It is the policy of this state to foster and encourage development of alternate methods or technology for disposing of or reducing the amount of organic refuse.

(7) Incidental agricultural burning must be allowed without applying for any permit and without the payment of any fee if:
   (a) The burning is incidental to commercial agricultural activities;
   (b) The operator notifies the local fire department within the area where the burning is to be conducted;
   (c) The burning does not occur during an air pollution episode or any stage of impaired air quality declared under RCW 70.94.715; and
   (d) Only the following items are burned:
      (i) Orchard prunings;
      (ii) Organic debris along fence lines or irrigation or drainage ditches; or
      (iii) Organic debris blown by wind.
   (8) As used in this section, "nonurban areas" are unincorporated areas within a county that is not designated as an urban growth area under chapter 36.70A RCW.
   (9) Nothing in this section shall require fire districts to enforce air quality requirements related to outdoor burning, unless the fire district enters into an agreement with the department of ecology, department of natural resources, a local air pollution control authority, or other appropriate department of ecology to allow outdoor fires not restricted. Nothing contained in RCW *70.94.740 through 70.94.765 is intended to alter or change the provisions of RCW 70.94.660, 70.94.710 through 70.94.730, and 76.04.205.  [1986 c 100 § 55; 1972 ex.s. c 136 § 5.]

*Reviser's note: The reference to RCW 70.94.714 appears erroneous. Reference to RCW 70.94.715 was apparently intended.

Finding—1991 c 199: See note following RCW 70.94.011.

70.94.750 Limited outdoor burning—Permits issued by political subdivisions—Types of fires permitted. The following outdoor fires described in this section may be burned subject to the provisions of this chapter and also subject to city ordinances, county resolutions, rules of fire districts and laws, and rules enforced by the department of natural resources if a permit has been issued by a fire protection agency, county, or conservation district:
   (1) Fires consisting of leaves, clippings, prunings and other yard and garden refuse originating on lands immediately adjacent and in close proximity to a human dwelling and burned on such lands by the property owner or his or her designee.
   (2) Fires consisting of residue of a natural character such as trees, stumps, shrubbery or other natural vegetation arising from land clearing projects or agricultural pursuits for pest or disease control; provided the fires described in this subsection may be prohibited in those areas having a general population density of one thousand or more persons per square mile. [1991 c 199 § 412; 1972 ex.s. c 136 § 3.]

Finding—1991 c 199: See note following RCW 70.94.011.

70.94.755 Limited outdoor burning—Establishment of program. Each activated air pollution control authority, and the department of ecology in those areas outside the jurisdictional boundaries of an activated air pollution control authority, shall establish, through regulations, ordinances, or policy, a program implementing the limited burning policy authorized by RCW 70.94.743 through 70.94.765.  [1997 c 225 § 2; 1972 ex.s. c 136 § 4.]

70.94.760 Limited outdoor burning—Construction. Nothing contained in RCW *70.94.740 through 70.94.765 is intended to alter or change the provisions of RCW 70.94.660, 70.94.710 through 70.94.730, and 76.04.205.  [1986 c 100 § 55; 1972 ex.s. c 136 § 5.]

*Reviser's note: RCW 70.94.740 was repealed by 1991 c 199 § 718.

70.94.765 Limited outdoor burning—Authority of local air pollution control authority or department of ecology to allow outdoor fires not restricted. Nothing in RCW *70.94.740 through 70.94.765 shall be construed as prohibiting a local air pollution control authority or the department of ecology in those areas outside the jurisdictional boundaries of an activated pollution control authority from allowing the burning of outdoor fires. [1972 ex.s. c 136 § 6.]

*Reviser's note: RCW 70.94.740 was repealed by 1991 c 199 § 718.

70.94.775 Outdoor burning—Fires prohibited—Exceptions. Except as provided in RCW 70.94.650(5), no person shall cause or allow any outdoor fire:
   (1) Containing garbage, dead animals, asphalt, petroleum products, paints, rubber products, plastics, or any substance other than natural vegetation that normally emits dense smoke or obnoxious odors. Agricultural heating devices that otherwise meet the requirements of this chapter shall not be considered outdoor fires under this section;
   (2) During a forecast, alert, warning or emergency condition as defined in RCW 70.94.715 or impaired air quality condition as defined in RCW 70.94.473.  [1995 c 362 § 2; 1991 c 199 § 410; 1974 ex.s. c 164 § 1; 1973 2nd ex.s. c 11 § 1; 1973 1st ex.s. c 193 § 9.]

Finding—1991 c 199: See note following RCW 70.94.011.

70.94.780 Outdoor burning—Permits issued by political subdivisions. In addition to any other powers granted to them by law, the fire protection agency, county, or conservation district issuing burning permits shall regulate or prohibit outdoor burning as necessary to prevent or abate the nuisances caused by such burning. No fire protection agency, county, or conservation district may issue a burning permit in an area where the department or local board has declared any stage of impaired air quality per RCW 70.94.473 or any stage of an air pollution episode. All burning permits issued shall be subject to all applicable fee, permitting, penalty, and enforcement provisions of this chapter. The permitted burn-
ing shall not cause damage to public health or the environment.

Any entity issuing a permit under this section may charge a fee at the level necessary to recover the costs of administering and enforcing the permit program. [1991 c 199 § 411; 1973 1st ex. s. c 193 § 10.]

Finding—1991 c 199: See note following RCW 70.94.011.

70.94.800 Legislative declaration—Intent. The legislature recognizes that:

1. Acid deposition resulting from commercial, industrial or other emissions of sulphur dioxide and nitrogen oxides pose a threat to the delicate balance of the state’s ecological systems, particularly in alpine lakes that are known to be highly sensitive to acidification;

2. Failure to act promptly and decisively to mitigate or eliminate this danger may soon result in untold and irreparable damage to the fish, forest, wildlife, agricultural, water, and recreational resources of this state;

3. There is a direct correlation between emissions of sulphur dioxides and nitrogen oxides and increases in acid deposition;

4. Acidification is cumulative; and

5. Once an environment is acidified, it is difficult, if not impossible, to restore the natural balance.

It is therefore the intent of the legislature to provide for early detection of acidification and the resulting environmental degradation through continued monitoring of acid deposition levels and trends, and major source changes, so that the legislature can take any necessary action to prevent environmental degradation resulting from acid deposition. [1985 c 456 § 1; 1984 c 277 § 1.]

70.94.805 Definitions. As used in RCW 70.94.800 through *70.94.825, the following terms have the following meanings.

1. "Acid deposition" means wet or dry deposition from the atmosphere of chemical compounds with a pH of less than 5.6.

2. "Critical level of acid deposition and lake, stream, and soil acidification" means the level at which irreparable damage may occur unless corrective action is taken. [1985 c 456 § 2; 1984 c 277 § 2.]

*Reviser’s note: RCW 70.94.810, 70.94.815, and 70.94.825 were repealed by 1991 c 199 § 718.

Finding—1991 c 199: See note following RCW 70.94.011.

70.94.820 Monitoring by department of ecology. The department of ecology shall maintain a program of periodic monitoring of acid rain deposition and lake, stream, and soil acidification to ensure early detection of acidification and environmental degradation. [1987 c 505 § 61; 1985 c 456 § 5; 1984 c 277 § 6.]

70.94.850 Emission credits banking program—Amount of credit. The department of ecology and the local boards may implement an emission credits banking program. For the purposes of this section, an emission credits banking program means a program whereby an air contaminant source which reduces emissions of a given air contaminant by an amount greater than that required by applicable law, regulation, or order is granted credit for a given amount, which credit shall be administered by a credit bank operated by the appropriate agency. The amount of the credit shall be determined by the department or local board with jurisdiction, but it shall be less than the amount of the emissions reduction. The credit may be used, traded, sold, or otherwise expended for purposes established by regulation of state or local agencies consistent with the provisions of the prevention of significant deterioration program under RCW 70.94.860, the bubble program under RCW 70.94.155, and the new source review program under RCW 70.94.152, if there will be no net adverse impact on air quality. [1984 c 164 § 1.]

70.94.860 Department of ecology may accept delegation of programs. The department of ecology may accept delegation of programs as provided for in the federal clean air act. Subject to federal approval, the department may, in turn, delegate such programs to the local authority with jurisdiction in a given area. [1991 c 199 § 312; 1984 c 164 § 2.]

Finding—1991 c 199: See note following RCW 70.94.011.

70.94.875 Evaluation of information on acid deposition in Pacific Northwest—Establishment of critical levels—Notification of legislature. The department of ecology, in consultation with the appropriate committees of the house of representatives and of the senate, shall:

1. Continue evaluation of information and research on acid deposition in the Pacific Northwest region;

2. Establish critical levels of acid deposition and lake, stream, and soil acidification; and

3. Notify the legislature if acid deposition or lake, stream, and soil acidification reaches the levels established under subsection (2) of this section. [1991 c 199 § 313; 1985 c 456 § 3.]

Finding—1991 c 199: See note following RCW 70.94.011.

70.94.880 Establishment of critical deposition and acidification levels—Considerations. In establishing critical levels of acid deposition and lake, stream, and soil acidification, the department of ecology shall consider:

1. Current acid deposition and lake, stream, and soil acidification levels;

2. Changes in acid deposition and lake, stream, and soil acidification levels;
(3) Effects of acid deposition and lake, stream, and soil acidification on the environment; and
(4) The need to prevent environmental degradation.  
[1985 c 456 § 4.]

70.94.892 Carbon dioxide mitigation—Fees.  (1) For fossil-fueled electric generation facilities having more than twenty-five thousand kilowatts station generating capability but less than three hundred fifty thousand kilowatts station generation capability, except for fossil-fueled floating thermal-electric generation facilities under the jurisdiction of the energy facility site evaluation council pursuant to RCW 80.50.010, the department or authority shall implement a carbon dioxide mitigation program consistent with the requirements of chapter 80.70 RCW.

(2) For mitigation projects conducted directly by or under the control of the applicant, the department or local air authority shall approve or deny the mitigation plans, as part of its action to approve or deny an application submitted under RCW 70.94.152 based upon whether or not the mitigation plan is consistent with the requirements of chapter 80.70 RCW.

(3) The department or authority may determine, assess, and collect fees sufficient to cover the costs to review and approve or deny the carbon dioxide mitigation plan components of an order of approval issued under RCW 70.94.152. The department or authority may also collect fees sufficient to cover its additional costs to monitor conformance with the carbon dioxide mitigation plan components of the registration and air operating permit programs authorized in RCW 70.94.151 and 70.94.161. The department or authority shall track its costs related to review, approval, and monitoring conformance with carbon dioxide mitigation plans.

70.94.970 Chlorofluorocarbons—Ozone—Refrigerants regulated. (1) Regulated refrigerant means a class I or class II substance as listed in Title VI of section 602 of the federal clean air act amendments of November 15, 1990.

(2) A person who services or repairs or disposes of a motor vehicle air conditioning system; commercial or industrial air conditioning, heating, or refrigeration system; or consumer appliance shall use refrigerant extraction equipment to recover regulated refrigerant that would otherwise be released into the atmosphere. This subsection does not apply to off-road commercial equipment.

(3) Upon request, the department shall provide information and assistance to persons interested in collecting, transporting, or recycling regulated refrigerants.

(4) The willful release of regulated refrigerant from a source listed in subsection (2) of this section is prohibited. [1991 c 199 § 602.]

Finding—1991 c 199: “The legislature finds that:

(1) The release of chlorofluorocarbons and other ozone-depleting chemicals into the atmosphere contributes to the destruction of stratospheric ozone and threatens plant and animal life with harmful overexposure to ultraviolet radiation;

(2) The technology and equipment to extract and recover chlorofluorocarbons and other ozone-depleting chemicals from air conditioners, refrigerators, and other appliances are available;

(3) A number of nonessential consumer products contain ozone-depleting chemicals; and

(4) Unnecessary releases of chlorofluorocarbons and other ozone-depleting chemicals from these sources should be eliminated.” [1991 c 199 § 601.]

70.94.980 Refrigerants—Unlawful acts. No person may sell, offer for sale, or purchase any of the following:

(1) A regulated refrigerant in a container designed for consumer recharge of a motor vehicle air conditioning system or consumer appliance during repair or service. This subsection does not apply to a regulated refrigerant purchased for the recharge of the air conditioning system of off-road commercial or agricultural equipment and sold or offered for sale at an establishment which specializes in the sale of off-road commercial or agricultural equipment or parts or service for such equipment;

(2) Nonessential consumer products that contain chlorofluorocarbons or other ozone-depleting chemicals, and for which substitutes are readily available. Enforcement provisions adopted by the department shall not include penalties or fines in areas where equipment to collect or recycle regulated refrigerants is not readily available. [1991 c 199 § 604.]

Finding—1991 c 199: See note following RCW 70.94.011.

70.94.996 Grant program for ride sharing. (Expires January 1, 2014.) (1) To the extent that funds are appropriated, the department of transportation shall administer a performance-based grant program for private employers, public agencies, nonprofit organizations, developers, and property managers who provide financial incentives for ride sharing in vehicles carrying two or more persons, for using public transportation, for using car sharing, or for using nonmotorized commuting, including telework, before July 1, 2013, to their own or other employees.

(2) The amount of the grant will be determined based on the value to the transportation system of the vehicle trips reduced. The *commute trip reduction task force shall develop an award rate giving priority to applications achieving the greatest reduction in trips and commute miles per public dollar requested and considering the following criteria: The local cost of providing new highway capacity, congestion levels, and geographic distribution.

(3) No private employer, public agency, nonprofit organization, developer, or property manager is eligible for grants under this section in excess of one hundred thousand dollars in any fiscal year.

(4) The total of grants provided under this section may not exceed seven hundred fifty thousand dollars in any fiscal year. However, this subsection does not apply during the 2003-2005 fiscal biennium.

(5) The department of transportation shall report to the department of revenue by the 15th day of each month the aggregate monetary amount of grants provided under this section in the prior month and the identity of the recipients of those grants.

(6) The source of funds for this grant program is the multimodal transportation account.

(7) This section expires January 1, 2014. [2004 c 229 § 501; 2003 c 364 § 9.]

Solid Waste Management—Reduction and Recycling 70.95.010

70.95.010 Legislative finding—Priorities—Goals.

The legislature finds:

(1) Continuing technological changes in methods of manufacture, packaging, and marketing of consumer prod-
uts, together with the economic and population growth of this state, the rising affluence of its citizens, and its expanding industrial activity have created new and ever-mounting problems involving disposal of garbage, refuse, and solid waste materials resulting from domestic, agricultural, and industrial activities.

(2) Traditional methods of disposing of solid wastes in this state are no longer adequate to meet the ever-increasing problem. Improper methods and practices of handling and disposal of solid wastes pollute our land, air and water resources, blight our countryside, adversely affect land values, and damage the overall quality of our environment.

(3) Considerations of natural resource limitations, energy shortages, economics and the environment make necessary the development and implementation of solid waste recovery and/or recycling plans and programs.

(4) Waste reduction must become a fundamental strategy of solid waste management. It is therefore necessary to change manufacturing and purchasing practices and waste generation behaviors to reduce the amount of waste that becomes a governmental responsibility.

(5) Source separation of waste must become a fundamental strategy of solid waste management. Collection and handling strategies should have, as an ultimate goal, the source separation of all materials with resource value or environmental hazard.

(6)(a) It should be the goal of every person and business to minimize their production of wastes and to separate recyclable or hazardous materials from mixed waste.

(b) It is the responsibility of state, county, and city governments to provide for a waste management infrastructure to fully implement waste reduction and source separation strategies and to process and dispose of remaining wastes in a manner that is environmentally safe and economically sound. It is further the responsibility of state, county, and city governments to monitor the cost-effectiveness and environmental safety of combusting separated waste, processing mixed municipal solid waste, and recycling programs.

(c) It is the responsibility of county and city governments to assume primary responsibility for solid waste management and to develop and implement aggressive and effective waste reduction and source separation strategies.

(d) It is the responsibility of state government to ensure that local governments are providing adequate source reduction and separation opportunities and incentives to all, including persons in both rural and urban areas, and nonresidential waste generators such as commercial, industrial, and institutional entities, recognizing the need to provide flexibility to accommodate differing population densities, distances to and availability of recycling markets, and collection and disposal costs in each community; and to provide county and city governments with adequate technical resources to accomplish this responsibility.

(7) Environmental and economic considerations in solving the state’s solid waste management problems requires strong consideration by local governments of regional solutions and intergovernmental cooperation.

(8) The following priorities for the collection, handling, and management of solid waste are necessary and should be followed in descending order as applicable:

(a) Waste reduction;

(b) Recycling, with source separation of recyclable materials as the preferred method;

(c) Energy recovery, incineration, or landfill of separated waste;

(d) Energy recovery, incineration, or landfill of mixed municipal solid wastes.

(9) It is the state’s goal to achieve a fifty percent recycling rate by 2007.

(10) It is the state’s goal that programs be established to eliminate residential or commercial yard debris in landfills by 2012 in those areas where alternatives to disposal are readily available and effective.

(11) Steps should be taken to make recycling at least as affordable and convenient to the ratepayer as mixed waste disposal.

(12) It is necessary to compile and maintain adequate data on the types and quantities of solid waste that are being generated and to monitor how the various types of solid waste are being managed.

(13) Vehicle batteries should be recycled and the disposal of vehicle batteries into landfills or incinerators should be discontinued.

(14) Excessive and nonrecyclable packaging of products should be avoided.

(15) Comprehensive education should be conducted throughout the state so that people are informed of the need to reduce, source separate, and recycle solid waste.

(16) All governmental entities in the state should set an example by implementing aggressive waste reduction and recycling programs at their workplaces and by purchasing products that are made from recycled materials and are recyclable.

(17) To ensure the safe and efficient operations of solid waste disposal facilities, it is necessary for operators and regulators of landfills and incinerators to receive training and certification.

(18) It is necessary to provide adequate funding to all levels of government so that successful waste reduction and recycling programs can be implemented.

(19) The development of stable and expanding markets for recyclable materials is critical to the long-term success of the state’s recycling goals. Market development must be encouraged on a state, regional, and national basis to maximize its effectiveness. The state shall assume primary responsibility for the development of a multifaceted market development program to carry out the purposes of this act.

(20) There is an imperative need to anticipate, plan for, and accomplish effective storage, control, recovery, and recycling of discarded tires and other problem wastes with the subsequent conservation of resources and energy. [2002 c 299 § 3; 1989 c 431 § 1; 1985 c 345 § 1; 1984 c 123 § 1; 1975 c 52 § 1; 1969 c 134 § 1.]

70.95.020 Purpose. The purpose of this chapter is to establish a comprehensive statewide program for solid waste handling, and solid waste recovery and/or recycling which will prevent land, air, and water pollution and conserve the natural, economic, and energy resources of this state. To this end it is the purpose of this chapter:

(1) To assign primary responsibility for adequate solid waste handling to local government, reserving to the state,

70.95.060 Standards for solid waste handling—Areas—Landfill location. (1) The department shall adopt rules establishing minimum functional standards for solid waste handling, consistent with the standards specified in this section. The department may classify areas of the state with respect to population density, climate, geology, and other relevant factors bearing on solid waste disposal standards.

(2) In addition to the minimum functional standards adopted by the department under subsection (1) of this section, each landfill facility whose area at its design capacity will exceed one hundred acres and whose horizontal height at design capacity will average one hundred feet or more above existing site elevations shall comply with the standards of this subsection. This subsection applies only to wholly new solid waste landfill facilities, no part or unit of which has had construction commence before April 27, 1999.

(a) No landfill specified in this subsection may be located:

(i) So that the active area is closer than five miles to any national park or a public or private nonprofit zoological park displaying native animals in their native habitats; or

(ii) Over a sole source aquifer designated under the federal safe drinking water act, if such designation was effective before January 1, 1999.

[Title 70 RCW—page 242]
(b) Each landfill specified in this subsection (2) shall be constructed with an impermeable berm around the entire perimeter of the active area of the landfill of such height, thickness, and design as will be sufficient to contain all material disposed in the event of a complete failure of the structural integrity of the landfill. [1999 c 116 § 1; 1969 ex.s. c 134 § 6.]

Effective date—1999 c 116: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately [April 27, 1999]." [1999 c 116 § 2.]

**70.95.065 Inert waste landfills.** (1) The department shall, as part of the minimum functional standards for solid waste handling required under RCW 70.95.060, develop specific criteria for the types of solid wastes that are allowed to be received by inert waste landfills that seek to continue operation after February 10, 2003.

(2) The criteria for inert waste developed under this section must, at a minimum, contain a list of substances that an inert waste landfill located in a county with fewer than forty-five thousand residents is permitted to receive if it was operational before February 10, 2003, and is located at a site with a five-year annual rainfall of twenty-five inches or less. The substances permitted for the inert waste landfills satisfying the criteria listed in this subsection must include the following types of solid waste if the waste has not been tainted, through exposure from chemical, physical, biological, or radiological substances, such that it presents a threat to human health or the environment greater than that inherent to the material:
(a) Cured concrete, including any embedded steel reinforcing and wood;
(b) Asphalitic materials, including road construction asphalt;
(c) Brick and masonry;
(d) Ceramic materials produced from fired clay or porcelain;
(e) Glass;
(f) Stainless steel and aluminum; and
(g) Other materials as defined in chapter 173-350 WAC.

(3) The department shall work with the owner or operators of landfills that do not meet the minimum functional standards for inert waste landfills to explore and implement appropriate means of transition into a limited purpose landfill that is able to accept additional materials as specified in WAC 173-350-400. [2004 c 101 § 2.]

**70.95.070 Review of standards prior to adoption—Revisions, additions and modifications—Factors.** The solid waste advisory committee shall review prior to adoption and shall recommend revisions, additions, and modifications to the minimum functional standards governing solid waste handling relating, but not limited to, the following:
(1) Vector production and sustenance.
(2) Air pollution (coordinated with regulations of the department of ecology).
(3) Pollution of surface and ground waters (coordinated with the regulations of the department of ecology).
(4) Hazards to service or disposal workers or to the public.
(5) Prevention of littering.
(6) Adequacy and adaptability of disposal sites to population served.
(7) Design and operation of disposal sites.
(8) Recovery and/or recycling of solid waste. [1975-’76 2nd ex.s. c 41 § 4; 1969 ex.s. c 134 § 7.]

**70.95.075 Implementation of standards—Assessment—Analyses—Proposals.** In order to implement the minimum functional standards for solid waste handling, evaluate the effectiveness of the minimum functional standards, evaluate the cost of implementation, and develop a mechanism to finance the implementation, the department shall prepare:
(1) An assessment of local health agencies’ information on all existing permitted landfill sites, including (a) measures taken and facilities installed at each landfill to mitigate surface water and groundwater contamination, (b) proposed measures taken and facilities to be constructed at each landfill to mitigate surface water and groundwater contamination, and (c) the costs of such measures and facilities;
(2) An analysis of the effectiveness of the minimum functional standards for new landfills in lessening surface water and groundwater contamination, and a comparison with the effectiveness of the prior standards;
(3) An analysis of the costs of conforming with the new functional standards for new landfills compared with the costs of conforming to the prior standards; and
(4) Proposals for methods of financing the costs of conforming with the new functional standards. [1986 c 81 § 1.]

**70.95.080 County comprehensive solid waste management plan—Joint plans—Duties of cities.** Each county within the state, in cooperation with the various cities located within such county, shall prepare a coordinated, comprehensive solid waste management plan. Such plan may cover two or more counties.

Each city shall:
(1) Prepare and deliver to the county auditor of the county in which it is located its plan for its own solid waste management for integration into the comprehensive county plan; or
(2) Enter into an agreement with the county pursuant to which the city shall participate in preparing a joint city-county plan for solid waste management; or
(3) Authorize the county to prepare a plan for the city’s solid waste management for inclusion in the comprehensive county plan.

Two or more cities may prepare a plan for inclusion in the county plan. With prior notification of its home county of its intent, a city in one county may enter into an agreement with a city in an adjoining county, or with an adjoining county, or both, to prepare a joint plan for solid waste management to become part of the comprehensive plan of both counties.

After consultation with representatives of the cities and counties, the department shall establish a schedule for the development of the comprehensive plans for solid waste management. In preparing such a schedule, the department
shall take into account the probable cost of such plans to the cities and counties.

Local governments shall not be required to include a hazardous waste element in their solid waste management plans. [1985 c 448 § 17; 1969 ex.s. c 134 § 8.]

Severability—1985 c 448: See note following RCW 70.105.005.

3. A program for the orderly development of solid waste handling facilities in a manner consistent with the plans for the entire county which shall:
   - Meet the minimum functional standards for solid waste handling adopted by the department and all laws and regulations relating to air and water pollution, fire prevention, flood control, and protection of public health;
   - Take into account the comprehensive land use plan of each jurisdiction;
   - Contain a six year construction and capital acquisition program for solid waste handling facilities; and
   - Contain a plan for financing both capital costs and operational expenditures of the proposed solid waste management system.

4. A program for surveillance and control.

5. A current inventory and description of solid waste collection needs and operations within each respective jurisdiction which shall include:
   - Any franchise for solid waste collection granted by the utilities and transportation commission in the respective jurisdictions including the name of the holder of the franchise and the address of his or her place of business and the area covered by the franchise;
   - Any city solid waste operation within the county and the boundaries of such operation;

6. A comprehensive waste reduction and recycling element that, in accordance with the priorities established in RCW 70.95.010, provides programs that (a) reduce the amount of waste generated, (b) provide incentives and mechanisms for source separation, and (c) establish recycling opportunities for the source separated waste.

7. The waste reduction and recycling element shall include the following:
   - Waste reduction strategies;
   - Source separation strategies, including:
     - Programs for the collection of source separated materials from residences in urban and rural areas. In urban areas, these programs shall include collection of source separated recyclable materials from single and multiple family resi-
70.95.094 County and city comprehensive solid waste management plans—Review and approval process. (1) The department and local governments preparing plans are encouraged to work cooperatively during plan development. Each county and city preparing a comprehensive solid waste management plan shall submit a preliminary draft plan to the department for technical review. The department shall review and comment on the draft plan within one hundred twenty days of receipt. The department’s comments shall state specific actions or revisions that must be completed for plan approval.

(2) Each final draft solid waste management plan shall be submitted to the department for approval. The department will limit its comments on the final draft plans to those issues identified during its review of the draft plan and any other changes made between submittal of the preliminary draft and final draft plans. Disapproval of the local comprehensive solid waste management plan shall be supported by specific findings. A final draft plan shall be deemed approved if the department does not disapprove it within forty-five days of receipt.

(3) If the department disapproves a plan or any plan amendments, the submitting entity may appeal the decision under the procedures of Part IV of chapter 34.05 RCW. An administrative law judge shall preside over the appeal. The appeal shall be limited to review of the specific findings which supported the disapproval under subsection (2) of this section. [1989 c 431 § 8.]

70.95.096 Utilities and transportation commission to review local plan’s assessment of cost impacts on rates. Upon receipt, the department shall immediately provide the utilities and transportation commission with a copy of each preliminary draft local comprehensive solid waste management plan. Within forty-five days after receiving a plan, the commission shall have reviewed the plan’s assessment of solid waste collection cost impacts on rates charged by solid waste collection companies regulated under chapter 81.77 RCW and shall advise the county or city submitting the plan and the department of the probable effect of the plan’s recommendations on those rates. [1989 c 431 § 12.]

70.95.100 Technical assistance for plan preparation—Guidelines—Informational materials and programs. (1) The department or the commission, as appropriate, shall provide to counties and cities technical assistance including, but not limited to, planning guidelines, in the preparation, review, and revision of solid waste management plans required by this chapter. Guidelines prepared under this section shall be consistent with the provisions of this chapter. Guidelines for the preparation of the waste reduction and recycling element of the comprehensive solid waste management plan shall be completed by the department by March 15, 1990. These guidelines shall provide recommendations to local government on materials to be considered for designation as recyclable materials. The state solid waste management plan prepared pursuant to RCW 70.95.260 shall be consistent with these guidelines.

(2) The department shall be responsible for development and implementation of a comprehensive statewide public information program designed to encourage waste reduction, source separation, and recycling by the public. The department shall operate a toll free hot line to provide the public information on waste reduction and recycling.

(3) The department shall provide technical assistance to local governments in the development and dissemination of informational materials and related activities to assure recognition of unique local waste reduction and recycling programs.

(4) Local governments shall make all materials and information developed with the assistance grants provided under RCW 70.95.130 available to the department for potential use in other areas of the state. [1989 c 431 § 6; 1984 c 123 § 6; 1969 ex.s. c 134 § 10.]

70.95.110 Maintenance of plans—Review, revisions—Implementation of source separation programs. (1) The comprehensive county solid waste management plans and any comprehensive city solid waste management plans prepared in accordance with RCW 70.95.080 shall be maintained in a current condition and reviewed and revised periodically by counties and cities as may be required by the department. Upon each review such plans shall be extended to show long-range needs for solid waste handling facilities for twenty years in the future, and a revised construction and capital acquisition program for six years in the future. Each revised solid waste management plan shall be submitted to the department.

Each plan shall be reviewed and revised within five years of July 1, 1984, and thereafter shall be reviewed, and revised if necessary according to the schedule provided in subsection (2) of this section.

(2) Cities and counties preparing solid waste management plans shall submit the waste reduction and recycling element required in RCW 70.95.090 and any revisions to other elements of its comprehensive solid waste management plan to the department no later than:

(a) July 1, 1991, for class one areas: PROVIDED, That portions relating to multiple family residences shall be submitted no later than July 1, 1992;
(b) July 1, 1992, for class two areas; and
(c) July 1, 1994, for class three areas.

Thereafter, each plan shall be reviewed and revised, if necessary, at least every five years. Nothing in chapter 431, Laws of 1989 shall prohibit local governments from submitting a plan prior to the dates listed in this subsection.

(3) The classes of areas are defined as follows:

(a) Class one areas are the counties of Spokane, Snohomish, King, Pierce, and Kitsap and all the cities therein.
(b) Class two areas are all other counties located west of the crest of the Cascade mountains and all the cities therein.
(c) Class three areas are the counties east of the crest of the Cascade mountains and all the cities therein, except for Spokane county.

(4) Cities and counties shall begin implementing the programs to collect source separated materials no later than one year following the adoption and approval of the waste reduction and recycling element, and these programs shall be fully implemented within two years of approval. [1991 c 298 § 4; 1989 c 431 § 5; 1984 c 123 § 7; 1969 ex.s. c 134 § 11.]

Finding—1991 c 298: See note following RCW 70.95.030.
70.95.130 Financial aid to counties and cities. Any county may apply to the department on a form prescribed thereby for financial aid for the preparation of the comprehensive county plan for solid waste management required by RCW 70.95.080. Any city electing to prepare an independent city plan, a joint city plan, or a joint county-city plan for solid waste management for inclusion in the county comprehensive plan may apply for financial aid for such purpose through the county. Every city application for financial aid for planning shall be filed with the county auditor and shall be included as a part of the county’s application for financial aid. Any city preparing an independent plan shall provide for disposal sites wholly within its jurisdiction.

The department shall allocate to the counties and cities applying for financial aid for planning, such funds as may be available pursuant to legislative appropriations or from any federal grants for such purpose.

The department shall determine priorities and allocate available funds among the counties and cities applying for aid according to criteria established by regulations of the department considering population, urban development, environmental effects of waste disposal, existing waste handling practices, and the local justification of their proposed expenditures. [1969 ex.s. c 134 § 13.]

70.95.140 Matching requirements. Counties and cities shall match their planning aid allocated by the director by an amount not less than twenty-five percent of the estimated cost of such planning. Any federal planning aid made directly to a county or city shall not be considered either a state or cost of such planning. Any federal planning aid made directly an amount not less than twenty-five percent of the estimated expenditures. [1969 ex.s. c 134 § 13.]

70.95.140 Contracts with counties to assure proper expenditures. Upon the allocation of planning funds as provided in RCW 70.95.130, the department shall enter into a contract with each county receiving a planning grant. The contract shall include such provisions as the director may deem necessary to assure the proper expenditure of such funds including allocations made to cities. The sum allocated to a county shall be paid to the treasurer of such county. [1969 ex.s. c 134 § 15.]

70.95.150 Local board of health regulations to implement the comprehensive plan—Section not to be construed to authorize counties to operate system. Each county, or any city, or jurisdictional board of health shall adopt regulations or ordinances governing solid waste handling implementing the comprehensive solid waste management plan covering storage, collection, transportation, treatment, utilization, processing and final disposal including but not limited to the issuance of permits and the establishment of minimum levels and types of service for any aspect of solid waste handling. County regulations or ordinances adopted regarding levels and types of service shall not apply within the limits of any city where the city has by local ordinance determined that the county shall not exercise such powers within the corporate limits of the city. Such regulations or ordinances shall assure that solid waste storage and disposal facilities are located, maintained, and operated in a manner so as properly to protect the public health, prevent air and water pollution, are consistent with the priorities established in RCW 70.95.010, and avoid the creation of nuisances. Such regulations or ordinances may be more stringent than the minimum functional standards adopted by the department. Regulations or ordinances adopted by counties, cities, or jurisdictional boards of health shall be filed with the department.

Nothing in this section shall be construed to authorize the operation of a solid waste collection system by counties. [1989 c 431 § 10; 1988 c 127 § 29; 1969 ex.s. c 134 § 16.]

70.95.163 Local health departments may contract with the department of ecology. Any jurisdictional health department and the department of ecology may enter into an agreement providing for the exercise by the department of ecology of any power that is specified in the contract and that is granted to the jurisdictional health department under this chapter. However, the jurisdictional health department shall have the approval of the legislative authority or authorities it serves before entering into any such agreement with the department of ecology. [1989 c 431 § 16.]

70.95.165 Solid waste disposal facility siting—Site review—Local solid waste advisory committees—Membership. (1) Each county or city siting a solid waste disposal facility shall review each potential site for conformance with the standards as set by the department for:

(a) Geology;
(b) Groundwater;
(c) Soil;
(d) Flooding;
(e) Surface water;
(f) Slope;
(g) Cover material;
(h) Capacity;
(i) Climatic factors;
(j) Land use;
(k) Toxic air emissions; and
(l) Other factors as determined by the department.

(2) The standards in subsection (1) of this section shall be designed to use the best available technology to protect the environment and human health, and shall be revised periodically to reflect new technology and information.

(3) Each county shall establish a local solid waste advisory committee to assist in the development of programs and policies concerning solid waste handling and disposal and to review and comment upon proposed rules, policies, or ordinances prior to their adoption. Such committees shall consist of a minimum of nine members and shall represent a balance of interests including, but not limited to, citizens, public interest groups, business, the waste management industry, and local elected public officials. The members shall be appointed by the county legislative authority. A county or city shall not apply for funds from the state and local improvements revolving account, Waste Disposal Facilities, 1980, under chapter 43.99F RCW, for the preparation, update, or major amendment of a comprehensive solid waste management plan unless the plan or revision has been pre-
pared with the active assistance and participation of a local solid waste advisory committee. [1989 c 431 § 11; 1984 c 123 § 4.]

70.95.167 Private businesses involvement in source separated materials—Local solid waste advisory committee to examine. (1) Each local solid waste advisory committee shall conduct one or more meetings for the purpose of determining how local private recycling and solid waste collection businesses may participate in the development and implementation of programs to collect source separated materials from residences, and to process and market materials collected for recycling. The meetings shall include local private recycling businesses, private solid waste collection companies operating within the jurisdiction, and the local solid waste planning agencies. The meetings shall be held during the development of the waste reduction and recycling element or no later than one year prior to the date that a jurisdiction is required [10] submit the element under RCW 70.95.110(2).

(2) The meeting requirement under subsection (1) of this section shall apply whenever a city or county develops or amends the waste reduction and recycling element required under this chapter. Jurisdictions having approved waste reduction and recycling elements or having initiated a process for the selection of a service provider as of May 21, 1991, do not have to comply with the requirements of subsection (1) of this section until the next revisions to the waste reduction and recycling element are made or required.

(3) After the waste reduction and recycling element is approved by the local legislative authority but before it is submitted to the department for approval, the local solid waste advisory committee shall hold at least one additional meeting to review the element.

(4) For the purpose of this section, "private recycling business" means any private for-profit or private not-for-profit business that engages in the processing and marketing of recyclable materials. [1991 c 319 § 402.]

Severability—Part headings not law—1991 c 319: See RCW 70.95F.900 and 70.95F.901.

70.95.170 Permit for solid waste handling facility—Required. Except as provided otherwise in RCW 70.95.305 or 70.95.310, after approval of the comprehensive solid waste plan by the department no solid waste handling facility or facilities shall be maintained, established, or modified until the county, city, or other person operating such site has obtained a permit pursuant to RCW 70.95.180 or 70.95.190. [1998 c 156 § 3; 1997 c 213 § 2; 1969 ex.s. c 134 § 17.]

70.95.180 Permit for solid waste handling facility—Applications, fee. (1) Applications for permits to operate a new or modified solid waste handling facility shall be on forms prescribed by the department and shall contain a description of the proposed facilities and operations at the site, plans and specifications for any new or additional facilities to be constructed, and such other information as the jurisdictional health department may deem necessary in order to determine whether the site and solid waste disposal facilities located thereon will comply with local and state regulations.

(2) Upon receipt of an application for a permit to establish or modify a solid waste handling facility, the jurisdictional health department shall refer one copy of the application to the department which shall report its findings to the jurisdictional health department.

(3) The jurisdictional health department shall investigate every application as may be necessary to determine whether a proposed or modified site and facilities meet all solid waste, air, and other applicable laws and regulations, and conforms with the approved comprehensive solid waste handling plan, and complies with all zoning requirements.

(4) When the jurisdictional health department finds that the permit should be issued, it shall issue such permit. Every application shall be approved or disapproved within ninety days after its receipt by the jurisdictional health department.

(5) The jurisdictional board of health may establish reasonable fees for permits and renewal of permits. All permit fees collected by the health department shall be deposited in the treasury and to the account from which the health department’s operating expenses are paid. [1997 c 213 § 3; 1988 c 127 § 30; 1969 ex.s. c 134 § 18.]

70.95.185 Permit for solid waste disposal site or facilities—Review by department—Appeal of issuance—Validity of permits issued after June 7, 1984. Every permit issued by a jurisdictional health department under RCW 70.95.180 shall be reviewed by the department to ensure that the proposed site or facility conforms with:

(1) All applicable laws and regulations including the minimal functional standards for solid waste handling; and

(2) The approved comprehensive solid waste management plan.

The department shall review the permit within thirty days after the issuance of the permit by the jurisdictional health department. The department may appeal the issuance of the permit by the jurisdictional health department to the pollution control hearings board, as described in chapter 43.21B RCW, for noncompliance with subsection (1) or (2) of this section.

No permit issued pursuant to RCW 70.95.180 after June 7, 1984, shall be considered valid unless it has been reviewed by the department. [1984 c 123 § 8.]

70.95.190 Permit for solid waste handling facility—Renewal—Appeal—Validity of renewal—Review fees. (1) Every permit for an existing solid waste handling facility issued pursuant to RCW 70.95.180 shall be renewed at least every five years on a date established by the jurisdictional health department having jurisdiction of the site and as specified in the permit. If a permit is to be renewed for longer than one year, the local jurisdictional health department may hold a public hearing before making such a decision. Prior to renewing a permit, the health department shall conduct a review as it deems necessary to assure that the solid waste handling facility or facilities located on the site continues to meet minimum functional standards of the department, applicable local regulations, and are not in conflict with the approved solid waste management plan. A jurisdictional health department shall approve or disapprove a permit renewal within forty-five days of conducting its review. The
department shall review and may appeal the renewal as set forth for the approval of permits in RCW 70.95.185.

(2) The jurisdictional board of health may establish reasonable fees for permits reviewed under this section. All permit fees collected by the health department shall be deposited in the treasury and to the account from which the health department’s operating expenses are paid. [1998 c 156 § 4; 1997 c 213 § 4; 1984 c 123 § 9; 1969 ex.s. c 134 § 19.]

70.95.200 Permit for solid waste disposal site or facilities—Suspension. Any permit for a solid waste disposal site issued as provided herein shall be subject to suspension at any time the jurisdictional health department determines that the site or the solid waste disposal facilities located on the site are being operated in violation of this chapter, or the regulations of the department or local laws and regulations. [1969 ex.s. c 134 § 20.]

70.95.205 Exemption from solid waste permit requirements—Waste-derived soil amendments—Application—Revocation of exemption—Appeal. (1) Waste-derived soil amendments that meet the standards and criteria in this section may apply for exemption from solid waste permitting as required under RCW 70.95.170. The application shall be submitted to the department in a format determined by the department or an equivalent format. The application shall include:

(a) Analytical data showing that the waste-derived soil amendments meet standards established under RCW 15.54.800; and

(b) Other information deemed appropriate by the department to protect human health and the environment.

(2) After receipt of an application, the department shall review it to determine whether the application is complete, and forward a copy of the complete application to all interested jurisdictional health departments for review and comment. Within forty-five days, the jurisdictional health departments shall forward their comments and any other information they deem relevant to the department, which shall then give final approval or disapproval of the application. Every complete application shall be approved or disapproved by the department within ninety days after receipt.

(3) The department, after providing opportunity for comments from the jurisdictional health departments, may at any time revoke an exemption granted under this section if the quality or use of the waste-derived soil amendment changes or the management, storage, or end use of the waste-derived soil amendment constitutes a threat to human health or the environment.

(4) Any aggrieved party may appeal the determination by the department in subsection (2) or (3) of this section to the pollution control hearings board. [1998 c 36 § 18.]

Intent—1998 c 36: See RCW 15.54.265.

Short title—1998 c 36: See note following RCW 15.54.265.

70.95.210 Hearing—Appeal—Denial, suspension—When effective. Whenever the jurisdictional health department denies a permit or suspends a permit for a solid waste disposal site, it shall, upon request of the applicant or holder of the permit, grant a hearing on such denial or suspension within thirty days after the request therefor is made. Notice of the hearing shall be given to all interested parties including the county or city having jurisdiction over the site and the department. Within thirty days after the hearing, the health officer shall notify the applicant or the holder of the permit in writing of his determination and the reasons therefor. Any party aggrieved by such determination may appeal to the pollution control hearings board by filing with the hearings board a notice of appeal within thirty days after receipt of notice of the determination of the health officer. The hearings board shall hold a hearing in accordance with the provisions of the Administrative Procedure Act, chapter 34.05 RCW. If the jurisdictional health department denies a permit renewal or suspends a permit for an operating waste recycling facility that receives waste from more than one city or county, and the applicant or holder of the permit requests a hearing or files an appeal under this section, the permit denial or suspension shall not be effective until the completion of the appeal process under this section, unless the jurisdictional health department declares that continued operation of the waste recycling facility poses a very probable threat to human health and the environment. [1998 c 90 § 3; 1987 c 109 § 21; 1969 ex.s. c 134 § 21.]

70.95.212 Solid waste collection companies—Notice of changes in tipping fees and disposal rate schedules. To provide solid waste collection companies with sufficient time to prepare and submit tariffs and rate filings for public comment and commission approval, the owner or operator of a transfer station, landfill, or facility used to burn solid waste shall provide seventy-five days’ notice to solid waste collection companies of any change in tipping fees and disposal rate schedules. The notice period shall begin on the date individual notice to a collection company is delivered to the company or is postmarked.

A collection company may agree to a shorter notice period: PROVIDED, That such agreement by a company shall not affect the notice requirements for rate filings under RCW 81.28.050.

The owner of a transfer station, landfill or facility used to burn solid waste may agree to provide companies with a longer notice period.

"Solid waste collection companies" as used in this section means the companies regulated by the commission pursuant to chapter 81.77 RCW. [1993 c 300 § 3.]

70.95.215 Landfill disposal facilities—Reserve accounts required by July 1, 1987—Exception—Rules. (1) By July 1, 1987, each holder or applicant of a permit for a landfill disposal facility issued under this chapter shall establish a reserve account to cover the costs of closing the facility in accordance with state and federal regulations. The account shall be designed to ensure that there will be adequate revenue available by the projected date of closure. A landfill disposal facility maintained on private property for the sole use of the entity owning the site and a landfill disposal facility operated and maintained by a government shall not be required to establish a reserve account if, to the satisfaction of the department, the entity or government provides another
form of financial assurance adequate to comply with the requirements of this section.

(2) By July 1, 1986, the department shall adopt rules under chapter 34.05 RCW to implement subsection (1) of this section. The department is not required to adopt rules pertaining to other approved forms of financial assurance to cover the costs of closing a landfill disposal facility. The rules shall include but not be limited to:

(a) Methods to estimate closure costs, including postclosure monitoring, pollution prevention measures, and any other procedures required under state and federal regulations;

(b) Methods to ensure that reserve accounts receive adequate funds, including:

(i) Requirements that the reserve account be generated by user fees. However, the department may waive this requirement for existing landfills if user fees would be prohibitively high;

(ii) Requirements that moneys be placed in the reserve account on a regular basis and that the reserve account be kept separate from all other accounts; and

(iii) Procedures for the department to verify that adequate sums are deposited in the reserve account; and

(c) Methods to ensure that other types of financial assurance provided in accordance with subsection (1) of this section are adequate to cover the costs of closing the facility. [2000 c 114 § 1; 1985 c 436 § 1.]

70.95.217 Waste generated outside the state—Findings. The legislature finds that:

(1) The state of Washington has responded to the increasing challenges of safe, affordable disposal of solid waste by an ambitious program of waste reduction, recycling and reuse, as well as strict standards to ensure the safe handling, transportation, and disposal of solid waste;

(2) All communities in Washington participate in these programs through locally available recycling services, increased source separation and material recovery requirements, programs for waste reduction and product reuse, and performance standards that apply to all solid waste disposal facilities in the state;

(3) New requirements for the siting and performance of disposal facilities have greatly decreased the number of such facilities in Washington, and the state has a significant interest in ensuring adequate disposal capacity within the state;

(4) The landfilling, incineration, and other disposal of solid waste may adversely impact public health and environmental quality, and the state has a significant interest in decreasing volumes of the waste stream destined for disposal;

(5) Because of the decreasing number of disposal facilities and other reasons, solid waste is being transported greater distances, often beyond the community where generated and is increasingly being transported between states;

(6) Washington’s waste management priorities and programs are a balanced approach of increased reuse, recycling and waste reduction, the strengthening of markets for recycled content products, and the safe disposal of the remaining waste stream, with the costs of these programs shared equitably by all persons generating waste in the state;

(7) Those residing in other states who generate waste destined for disposal within Washington should also share the costs of waste diversion and management of Washington’s disposal facilities, so that the risks of waste disposal and the costs of mitigating those risks are shared equitably by all waste generators, regardless of their location;

(8) Because Washington state may not directly regulate waste handling, reduction, and recycling activities beyond its state boundaries, the only reasonable alternative to ensure this equitable treatment of waste being disposed within Washington is to implement a program of reviewing such activities as to waste originating outside of Washington, and to assign the additional costs, when necessary, to ensure that the waste meets standards substantially equivalent to those applicable to waste generated within the state, and, in some cases, to prohibit disposal of waste where its generation and management is not subject to standards substantially equivalent to those applicable to waste generated within the state. [1993 c 286 § 1.]

Severability—1993 c 286: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1993 c 286 § 3.]

Effective date—1993 c 286: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately [May 12, 1993]." [1993 c 286 § 4.]

70.95.218 Waste generated outside the state—Solid waste disposal site facility reporting requirements—Fees. (1) At least sixty days prior to receiving solid waste generated from outside of the state, the operator of a solid waste disposal site facility shall report to the department the types and quantities of waste to be received from an out-of-state source. The department shall develop guidelines for reporting this information. The guidelines shall provide for less than sixty days notice for shipments of waste made on a short-term or emergency basis. The requirements of this subsection shall take effect upon completion of the guidelines.

(2) Upon notice under subsection (1) of this section, the department shall identify all activities and costs necessary to ensure that solid waste generated out-of-state meets standards relating to solid waste reduction, recycling, and management substantially equivalent to those required of solid waste generated within the state. The department may assess a fee on the out-of-state waste sufficient to recover the actual costs incurred in ensuring that the out-of-state waste meets equivalent state standards. The department may delegate, to a local health department, authority to implement the activities identified by the department under this subsection. All money received from fees imposed under this subsection shall be deposited into the solid waste management account created by *RCW 70.95.800, and shall be used solely for the activities required by this section.

(3) The department may prohibit in-state disposal of solid waste generated from outside of the state, unless the generators of the waste meet: (a) Waste reduction and recycling requirements substantially equivalent to those applicable in Washington state; and (b) solid waste handling standards substantially equivalent to those applicable in Washington state.

(4) The department may adopt rules to implement this section. [1993 c 286 § 2.]

*Reviser’s note:* RCW 70.95.800 was repealed by 2000 c 150 § 2, effective July 1, 2001.
Financial aid to jurisdictional health departments—Applications—Allocations. Any jurisdictional health department may apply to the department for financial aid for the enforcement of rules and regulations promulgated under this chapter. Such application shall contain such information, including budget and program description, as may be prescribed by regulations of the department.

After receipt of such applications the department may allocate available funds according to criteria established by regulations of the department considering population, urban development, the number of the disposal sites, and geographical area.

The sum allocated to a jurisdictional health department shall be paid to the treasury from which the operating expenses of the health department are paid, and shall be used exclusively for inspections and administrative expenses necessary to enforce applicable regulations. [1969 ex.s. c 134 § 22.]

Financial aid to jurisdictional health departments—Matching funds requirements. The jurisdictional health department applying for state assistance for the enforcement of this chapter shall match such aid allocated by the department in an amount not less than twenty-five percent of the total amount spent for such enforcement activity during the year. The local share of enforcement costs may be met by cash and contributed services. [1969 ex.s. c 134 § 23.]

Diversion of recyclable material—Penalty. Unlawful to dump or deposit solid waste without permit—Penalties—Litter cleanup restitution payment. (1) After the adoption of regulations or ordinances by any county, city, or jurisdictional board of health providing for the issuance of permits as provided in RCW 70.95.160, it shall be unlawful for any person to dump or deposit or permit the dumping or depositing of any solid waste onto or under the surface of the ground or into the waters of this state except at a solid waste disposal site for which there is a valid permit. This section does not:

(a) Prohibit a person from dumping or depositing solid waste resulting from his or her own activities onto or under the surface of ground owned or leased by him or her when such action does not violate statutes or ordinances, or create a nuisance;

(b) Apply to a person using a waste-derived soil amendment that has been approved by the department under RCW 70.95.205; or

(c) Apply to the application of commercial fertilizer that has been registered with the department of agriculture as provided in RCW 15.54.325, and that is applied in accordance with the standards established in RCW 15.54.800(3).

(2)(a) It is a class 3 civil infraction as defined in RCW 7.80.120 for a person to litter in an amount less than or equal to one cubic foot.

(b) It is a misdemeanor for a person to litter in an amount greater than one cubic foot but less than one cubic yard. The person shall also pay a litter cleanup restitution payment equal to twice the actual cost of cleanup, or fifty dollars per cubic foot of litter, whichever is greater. The court shall distribute one-half of the restitution payment to the landowner and one-half of the restitution payment to the jurisdictional health department investigating the incident. The court may, in addition to or in lieu of part or all of the cleanup restitution payment, order the person to pick up and remove litter from the property, with prior permission of the legal owner or, in the case of public property, of the agency managing the property. The court may suspend or modify the litter cleanup restitution payment for a first-time offender under this section, if the person cleans up and properly disposes of the litter.

(c) It is a gross misdemeanor for a person to litter in an amount of one cubic yard or more. The person shall also pay a litter cleanup restitution payment equal to twice the actual cost of cleanup, or one hundred dollars per cubic foot of litter, whichever is greater. The court shall distribute one-half of the restitution payment to the landowner and one-half of the restitution payment to the jurisdictional health department investigating the incident. The court may, in addition to or in lieu of part or all of the cleanup restitution payment, order the person to pick up and remove litter from the property, with prior permission of the legal owner or, in the case of public property, of the agency managing the property. The court may suspend or modify the litter cleanup restitution payment for a first-time offender under this section, if the person cleans up and properly disposes of the litter.

(d) If a junk vehicle is abandoned in violation of this chapter, RCW 46.55.230 governs the vehicle’s removal, disposal, and sale, and the penalties that may be imposed against the person who abandoned the vehicle. Name appearing on waste material—Presumption. Whenever solid wastes dumped in violation of RCW 70.95.240 contain three or more items bearing the name of one individual, there shall be a rebuttable presumption that the individual whose name appears on such items committed the unlawful act of dumping. [1969 ex.s. c 134 § 25.]
70.95.255 Disposal of sewage sludge or septic tank sludge prohibited—Exemptions—Uses of sludge material permitted. After January 1, 1988, the department of ecology may prohibit disposal of sewage sludge or septic tank sludge (septage) in landfills for final disposal, except on a temporary, emergency basis, if the jurisdictional health department determines that a potentially unhealthful circumstance exists. Beneficial uses of sludge in landfill reclamation is acceptable utilization and not considered disposal.

The department of ecology shall adopt rules that provide exemptions from this section on a case-by-case basis. Exemptions shall be based on the economic infeasibility of using or disposing of the sludge material other than in a landfill.

The department of ecology, in conjunction with the department of health and the department of agriculture, shall adopt rules establishing labeling and notification requirements for sludge material sold commercially or given away to the public. The department shall specify mandatory wording for labels and notification to warn the public against improper use of the material. [1992 c 174 § 15; 1986 c 297 § 1.]

Severability—1994 c 257: See note following RCW 36.70A.270.

70.95.280 Determination of best solid waste management practices—Department to develop method to monitor waste stream—Collectors to report quantity and quality of waste—Confidentiality of proprietary information. The department of ecology shall determine the best management practices for categories of solid waste in accordance with the priority solid waste management methods established in RCW 70.95.010. In order to make this determination, the department shall conduct a comprehensive solid waste stream analysis and evaluation. Following establishment of baseline data resulting from an initial in-depth analysis of the waste stream, the department shall develop a less intensive method of monitoring the disposed waste stream including, but not limited to, changes in the amount of waste generated and waste type. The department shall monitor curbside collection programs and other waste segregation and disposal technologies to determine, to the extent possible, the effectiveness of these programs in terms of cost and participation, their applicability to other locations, and their implications regarding rules adopted under this chapter. Persons who collect solid waste shall annually report to the department the types and quantities of solid waste that are collected and where it is delivered. The department shall adopt guidelines for reporting and for keeping proprietary information confidential. [1989 c 431 § 13; 1988 c 184 § 1.]

70.95.285 Solid waste stream analysis. The comprehensive, statewide solid waste stream analysis under RCW 70.95.280 shall be based on representative solid waste generation areas and solid waste generation sources within the state. The following information and evaluations shall be included:

5. An assessment of the feasibility of segregating solid waste at: (a) The original source, (b) transfer stations, and (c) the point of final disposal;
6. A review of methods that will increase the rate of solid waste reduction; and
7. An assessment of new and existing technologies that are available for solid waste management including an analysis of the associated environmental risks and costs.

The data required by the analysis under this section shall be kept current and shall be available to local governments and the waste management industry. [1988 c 184 § 2.]

70.95.290 Solid waste stream evaluation. (1) The evaluation of the solid waste stream required in RCW 70.95.280 shall include the following elements:

a. The department shall determine which management method for each category of solid waste will have the least environmental impact; and
b. The department shall evaluate the costs of various management options for each category of solid waste, including a review of market availability, and shall take into consideration the economic impact on affected parties;

c. Based on the results of (a) and (b) of this subsection, the department shall determine the best management for each category of solid waste. Different management methods for the same categories of waste may be developed for different parts of the state.

2. The department shall give priority to evaluating categories of solid waste that, in relation to other categories of solid waste, comprise a large volume of the solid waste stream or present a high potential of harm to human health.

[Title 70 RCW—page 252]
At a minimum the following categories of waste shall be evaluated:

(a) By January 1, 1989, yard waste and other biodegradable materials, paper products, disposable diapers, and batteries; and
(b) By January 1, 1990, metals, glass, plastics, styrofoam or rigid lightweight cellular polystyrene, and tires. [1988 c 184 § 3.]

The department shall incorporate the information from the analysis and evaluation conducted under RCW 70.95.280 through 70.95.290 to the state solid waste management plan under RCW 70.95.260. The plan shall be revised periodically as the evaluation and analysis is updated. [1988 c 184 § 4.]

70.95.300 Solid waste—Beneficial uses—Permitting requirement exemptions. (1) The department may by rule exempt a solid waste from the permitting requirements of this chapter for one or more beneficial uses. In adopting such rules, the department shall specify both the solid waste that is exempted from the permitting requirements and the beneficial use or uses for which the solid waste is so exempted. The department shall consider: (a) Whether the material will be beneficially used or reused; and (b) whether the beneficial use or reuse of the material will present threats to human health or the environment.

(2) The department may also exempt a solid waste from the permitting requirements of this chapter for one or more beneficial uses by approving an application for such an exemption. The department shall establish by rule procedures under which a person may apply to the department for such an exemption. The rules shall establish criteria for providing such an exemption, which shall include, but not be limited to: (a) The material will be beneficially used or reused; and (b) the beneficial use or reuse of the material will not present threats to human health or the environment. Rules adopted under this subsection shall identify the information that an application shall contain. Persons seeking such an exemption shall apply to the department under the procedures established by the rules adopted under this subsection.

(3) After receipt of an application filed under rules adopted under subsection (2) of this section, the department shall review the application to determine whether it is complete, and forward a copy of the completed application to all jurisdictional health departments for review and comment. Within forty-five days, the jurisdictional health departments shall forward to the department their comments and any other information they deem relevant to the department’s decision to approve or disapprove the application. Every complete application shall be approved or disapproved by the department within ninety days of receipt. If the application is approved by the department, the solid waste is exempt from the permitting requirements of this chapter when used anywhere in the state in the manner approved by the department. If the composition, use, or reuse of the solid waste is not consistent with the terms and conditions of the department’s approval of the application, the use of the solid waste remains subject to the permitting requirements of this chapter.

(4) The department shall establish procedures by rule for providing to the public and the solid waste industry notice of and an opportunity to comment on each application for an exemption under subsection (2) of this section.

(5) Any jurisdictional health department or applicant may appeal the decision of the department to approve or disapprove an application under subsection (3) of this section. The appeal shall be made to the pollution control hearings board by filing with the hearings board a notice of appeal within thirty days of the decision of the department. The hearings board’s review of the decision shall be made in accordance with chapter 43.21B RCW and any subsequent appeal of a decision of the board shall be made in accordance with RCW 43.21B.180.

(6) This section shall not be deemed to invalidate the exemptions or determinations of nonapplicability in the department’s solid waste rules as they exist on June 11, 1998, which exemptions and determinations are recognized and confirmed subject to the department’s continuing authority to modify or revoke those exemptions or determinations by rule. [1998 c 156 § 2.]

70.95.305 Solid waste handling permit—Exemption from requirements—Application of section—Rules. (1) Notwithstanding any other provision of this chapter, the department may by rule exempt from the requirements to obtain a solid waste handling permit any category of solid waste handling facility that it determines to:

(a) Present little or no environmental risk; and
(b) Meet the environmental protection and performance requirements required for other similar solid waste facilities.

(2) This section does not apply to any facility or category of facilities that:

(a) Receives municipal solid waste destined for final disposal, including but not limited to transfer stations, landfills, and incinerators;
(b) Applies putrescible solid waste on land for final disposal purposes;
(c) Handles mixed solid wastes that have not been processed to segregate solid waste materials destined for disposal from other solid waste materials destined for a beneficial use or recycling;
(d) Receives or processes organic waste materials into compost in volumes that generally far exceed those handled by municipal park departments, master gardening programs, and households; or
(e) Receives solid waste destined for recycling or reuse, the operation of which is determined by the department to present risks to human health and the environment.

(3) Rules adopted under this section shall contain such terms and conditions as the department deems necessary to ensure compliance with applicable statutes and rules. If a facility does not operate in compliance with the terms and conditions established for an exemption under subsection (1) of this section, the facility is subject to the permitting requirements for solid waste handling under this chapter.

(4) This section shall not be deemed to invalidate the exemptions or determinations of nonapplicability in the department’s solid waste rules as they exist on June 11, 1998, which exemptions and determinations are recognized and confirmed subject to the department’s continuing authority to
modify or revoke those exemptions or determinations by rule. [2005 c 394 § 3; 1998 c 156 § 5.]

**Intent—Severability—2005 c 394:** See notes following RCW 70.95.400.

### 70.95.306 Composting of bovine and equine carcasses—Guidelines—Exemption from solid waste handling rules.

1. By July 1, 2005, the department of ecology and the department of agriculture, in consultation with the department of health, shall make available to livestock producers clearly written guidelines for the composting of bovine and equine carcasses for routine animal disposal.

2. Composters of bovine and equine carcasses are exempt from the metals testing and permit requirements under the solid waste handling rules for compost that is distributed off-site if the following conditions are met:
   - a. The carcasses to be composted are not known or suspected to be affected with a prion-protein disease such as bovine spongiform encephalopathy, a spore-forming disease such as anthrax or other diseases designated by the state veterinarian;
   - b. The composter follows the written guidelines provided for in subsection (1) of this section;
   - c. The composter does not accept for composting animal mortalities from other sources not directly affiliated with the composter’s operation;
   - d. The composter provides information to the end-user that includes the source of the material; the quality of the compost as to its nutrient content, pathogens, and stability; and the restrictions on use of the compost as stated in (f) of this subsection;
   - e. The composter reports annually to the department the number of bovines and equines and the amounts of other material composted, including the composter’s best estimate of the tonnage or yardage involved; and
   - f. The end-user applies the compost only to agricultural lands that are not used for the production of root crops except as prescribed in the guidelines and ensures no compost comes into contact with the crops harvested from the lands where the compost is applied.

3. If a compost production facility does not operate in compliance with the terms and conditions established for an exemption in this section, the facility shall be subject to the permitting requirements for solid waste handling under this chapter. [2005 c 510 § 6.]

### 70.95.310 Rules—Department "deferring" to other permits—Application of section.

1. Notwithstanding any other provisions of this chapter, the department shall adopt rules:
   - a. Describing when a jurisdictional health department may, at its discretion, waive the requirement that a permit be issued for a facility under this chapter if other air, water, or environmental permits are issued for the same facility. As used in this section, a jurisdictional health department’s waiving the requirement that a permit be issued for a facility under this chapter based on the issuance of such other permits for the facility is the health department’s "deferring" to the other permits; and
   - b. Allowing deferral only if the applicant and the jurisdictional health department demonstrate that other permits for the facility will provide a comparable level of protection for human health and the environment that would be provided by a solid waste handling permit.

2. This section does not apply to any transfer station, landfill, or incinerator that receives municipal solid waste destined for final disposal.

3. If, before June 11, 1998, either the department or a jurisdictional health department has deferred solid waste permitting or regulation of a solid waste facility to permitting or regulation under other environmental permits for the same facility, such deferral is valid and shall not be affected by the rules developed under subsection (1) of this section.

4. Rules adopted under this section shall contain such terms and conditions as the department deems necessary to ensure compliance with applicable statutes and rules. [1998 c 156 § 6.]

### 70.95.315 Penalty.

The department may assess a civil penalty in an amount not to exceed one thousand dollars per day per violation to any person exempt from solid waste permitting in accordance with RCW 70.95.300, 70.95.305, or 70.95.306 who fails to comply with the terms and conditions of the exemption. Each such violation shall be a separate and distinct offense, and in the case of a continuing violation, each day’s continuance shall be a separate and distinct violation. The financial assurance requirements must take into consideration the amounts and types of recyclable materials recycled at the facility, and the potential closure and postclosure costs associated with the recycling facility; which assurance may consist of posting of a surety bond in an amount sufficient to meet these requirements or other financial instrument, but in no case less than ten thousand dollars.

(2) A recycling facility is required to meet financial assurance requirements adopted by the department by rule, unless the facility is already required to provide financial assurance under other provisions of this chapter.

The proceeds of any bonds heretofore or hereafter issued in conformity with the authority of this chapter, together with interest and premiums thereon, and any revenues used to pay or redeem any of such bonds, together with interest and any premiums thereon, shall be separate trust funds and used only for the purposes permitted herein and shall not be considered to be money of the municipality. The services of the treasurer of a municipality, if such treasurer is or has been used, were and are intended to be for the administrative convenience of receipt and payment of nonpublic moneys only for which reasonable compensation may be charged by such treasurer or municipality. [1975 c 6 § 2.]

70.95A.050 Revenue bonds—Security—Scope—Default—Authorization proceedings. [Title 70 RCW—page 261]
(2) The proceedings under which the bonds are authorized to be issued under the provisions of this chapter, and any mortgage given to secure the same may contain any agreements and provisions customarily contained in instruments securing bonds, including, without limiting the generality of the foregoing, provisions respecting (a) the fixing and collection of rents for any facilities covered by such proceedings or mortgage, (b) the terms to be incorporated in the lease of such facilities, (c) the maintenance and insurance of such facilities, (d) the creation and maintenance of special funds from the revenues of such facilities, and (e) the rights and remedies available in the event of a default to the bond owners or to the trustee under a mortgage or trust agreement, all as the governing body shall deem advisable and as shall not be in conflict with the provisions of this chapter: PROVIDED, That in making any such agreements or provisions a municipality shall not have the power to obligate itself except with respect to the facilities and the application of the revenues therefrom, and shall not have the power to incur a pecuniary liability or a charge upon its general credit or against its taxing powers.

(3) The proceedings authorizing any bonds under the provisions of this chapter and any mortgage securing such bonds may provide that, in the event of a default in the payment of the principal or interest on such bonds or in the performance of any agreement contained in such proceedings or mortgage, such payment and performance may be enforced by mandamus or by the appointment of a receiver in equity with power to charge and collect rents and to apply the revenues from the facilities in accordance with such proceedings or the provisions of such mortgage.

(4) Any mortgage made under the provisions of this chapter, to secure bonds issued thereunder, may also provide that, in the event of a default in the payment thereof or the violation of any agreement contained in the mortgage, the mortgage may be foreclosed and the mortgaged property sold under proceedings in equity or in any other manner now or hereafter permitted by law. Such mortgage may also provide that any trustee under such mortgage or the owner of any of the bonds secured thereby may become the purchaser at any foreclosure sale if the highest bidder therefor. No breach of any such agreement shall impose any pecuniary liability upon a municipality or any charge upon their general credit or against their taxing powers.

(5) The proceedings authorizing the issuance of bonds hereunder may provide for the appointment of a trustee or trustees for the protection of the owners of the bonds, whether or not a mortgage is entered into as security for such bonds. Any bank acting as such trustee may, to the extent permitted by such proceedings, buy bonds issued hereunder to the same extent as if it were not such trustee. Said proceedings may provide for one or more co-trustees, and any co-trustee may be any competent individual over the age of twenty-one years or a bank having trust powers or trust company within or without the state. The proceedings authorizing the bonds may provide that some or all of the proceeds of the sale of the bonds, the revenues of any facilities, the proceeds of the sale of any part of a facility, of any insurance policy or of any condemnation award be deposited with the trustee or a co-trustee and applied as provided in said proceedings. Subject to the limitations of this chapter, the lease or extensions or modifications thereof may contain such other terms and conditions as may be mutually acceptable to the parties, and notwithstanding any other provisions of law relating to the sale of property owned by municipalities, such lease may contain an option for the lessees to purchase the facilities on such terms and conditions with or without consideration as may be mutually acceptable to the parties. Any such refunding may be effected whether the bonds to be refunded shall have then matured or shall thereafter mature, either by sale of the refunding bonds and the application of the proceeds thereof for the payment of the bonds to be refunded thereby, or by exchange of the refunding bonds for the bonds to be refunded thereby: PROVIDED FURTHER, That the owners of any bonds to be so refunded shall not be compelled without their consent to surrender their bonds for payment or exchange except on the terms expressed on the face thereof. 70.95B.010 Legislative declaration. The legislature declares that competent operation of waste treatment plants plays an important part in the protection of the environment of the state and therefore it is of vital interest to the public. In order to protect the public health and to conserve and protect the water resources of the state, it is necessary to provide for the classifying of all domestic wastewater treatment plants; to require the examination and certification of the persons responsible for the supervision and operation of such sys-

70.95C.010 Legislative findings. The legislature finds that land disposal and incineration of solid and hazardous waste can be both harmful to the environment and costly to those who must dispose of the waste. In order to address this problem in the most cost-effective and environmentally sound manner, and to implement the highest waste management priority as articulated in RCW 70.95.010 and 70.105.150, public and private efforts should focus on reducing the generation of waste. Waste reduction can be achieved by encouraging voluntary efforts to redesign industrial, commercial, production, and other processes to result in the reduction or elimination of waste byproducts and to maximize the in-process reuse or reclamation of valuable spent material.

In the interest of protecting the public health, safety, and the environment, the legislature declares that it is the policy of the state of Washington to encourage reduction in the use of hazardous substances and reduction in the generation of hazardous waste whenever economically and technically practicable.

The legislature finds that hazardous wastes are generated by numerous different sources including, but not limited to, large and small business, households, and state and local government. The legislature further finds that a goal against which efforts at waste reduction may be measured is essential for an effective hazardous waste reduction program. The Pacific Northwest hazardous waste advisory council has endorsed a goal of reducing, through hazardous substance use reduction and waste reduction techniques, the generation of hazardous waste by fifty percent by 1995. The legislature adopts this as a policy goal for the state of Washington. The legislature recognizes that many individual businesses have already reduced the generation of hazardous waste through appropriate hazardous waste reduction techniques. The legislature also recognizes that there are some basic industrial processes which by their nature have limited potential for significantly reducing the use of certain raw materials or substantially reducing the generation of hazardous wastes. Therefore, the goal of reducing hazardous waste generation by fifty percent cannot be applied as a regulatory requirement. [1990 c 114 § 1; 1988 c 177 § 1.]

70.95C.110 Waste reduction and recycling program to promote activities by state agencies—Recycled paper goal. The legislature finds and declares that the buildings and facilities owned and leased by state government produce
significant amounts of solid and hazardous wastes, and actions must be taken to reduce and recycle these wastes and thus reduce the costs associated with their disposal. In order for the operations of state government to provide the citizens of the state an example of positive waste management, the legislature further finds and declares that state government should undertake an aggressive program designed to reduce and recycle solid and hazardous wastes produced in the operations of state buildings and facilities to the maximum extent possible.

The office of waste reduction, in cooperation with the department of general administration, shall establish an intensive waste reduction and recycling program to promote the reduction of waste produced by state agencies and to promote the source separation and recovery of recyclable and reusable materials.

All state agencies, including but not limited to, colleges, community colleges, universities, offices of elected and appointed officers, the supreme court, court of appeals, and administrative departments of state government shall fully cooperate with the office of waste reduction and recycling in all phases of implementing the provisions of this section. The office shall establish a coordinated state plan identifying each agency’s participation in waste reduction and recycling. The office shall develop the plan in cooperation with a multi-agency committee on waste reduction and recycling. Appointments to the committee shall be made by the director of the department of general administration. The director shall notify each agency of the committee, which shall implement the applicable waste reduction and recycling plan elements. All state agencies are to use maximum efforts to achieve a goal of increasing the use of recycled paper by fifty percent by July 1, 1993. [1989 c 431 § 53.]

70.95C.200 Hazardous waste generators and users—Voluntary reduction plan. (1) Each hazardous waste generator who generates more than two thousand six hundred forty pounds of hazardous waste per year and each hazardous substance user, except for those facilities that are primarily permitted treatment, storage, and disposal facilities or recycling facilities, shall prepare a plan for the voluntary reduction of the use of hazardous substances and the generation of hazardous wastes. Hazardous waste generated and recycled for beneficial use, including initial amount of hazardous substances introduced into a process and subsequently recycled for beneficial use, shall not be used in the calculation of hazardous waste generated for purposes of this section. The department may develop reporting requirements, consistent with existing reporting, to establish recycling for beneficial use under this section. Used oil to be rerefining or burned for energy or heat recovery shall not be used in the calculation of hazardous wastes generated for purposes of this section, and is not required to be addressed by plans prepared under this section. A person with multiple interrelated facilities where the processes in the facilities are substantially similar, may prepare a single plan covering one or more of those facilities.

(2) Each user or generator required to write a plan is encouraged to advise its employees of the planning process and solicit comments or suggestions from its employees on hazardous substance use and waste reduction options.

(3) The department shall adopt by April 1, 1991, rules for preparation of plans. The rules shall require the plan to address the following options, according to the following order of priorities: Hazardous substance use reduction, waste reduction, recycling, and treatment. In the planning process, first consideration shall be given to hazardous substance use reduction and waste reduction options. Consideration shall be given next to recycling options. Recycling options may be considered only after hazardous substance use reduction options and waste reduction options have been thoroughly researched and shown to be inappropriate. Treatment options may be considered only after hazardous substance use reduction, waste reduction, and recycling options have been thoroughly researched and shown to be inappropriate. Documentation of the research shall be available to the department upon request. The rules shall also require the plans to discuss the hazardous substance use reduction, waste reduction, and closed loop recycling options separately from other recycling and treatment options. All plans shall be written in conformance with the format prescribed in the rules adopted under.
this section. The rules shall require the plans to include, but not be limited to:

(a) A written policy articulating management and corporate support for the plan and a commitment to implementing planned activities and achieving established goals;

(b) The plan scope and objectives;

(c) Analysis of current hazardous substance use and hazardous waste generation, and a description of current hazardous substance use reduction, waste reduction, recycling, and treatment activities;

(d) An identification of further hazardous substance use reduction, waste reduction, recycling, and treatment opportunities, and an analysis of the amount of hazardous substance use reduction and waste reduction that would be achieved, and the costs. The analysis of options shall demonstrate that the priorities provided for in this section have been followed;

(e) A selection of options to be implemented in accordance with the priorities established in this section;

(f) An analysis of impediments to implementing the options. Impediments that shall be considered acceptable include, but are not limited to: Adverse impacts on product quality, legal or contractual obligations, economic practicality, and technical feasibility;

(g) A written policy stating that in implementing the selected options, whenever technically and economically practicable, risks will not be shifted from one part of a process, environmental media, or product to another;

(h) Specific performance goals in each of the following categories, expressed in numeric terms:
   (i) Hazardous substances to be reduced or eliminated from use;
   (ii) Wastes to be reduced or eliminated through waste reduction techniques;
   (iii) Materials or wastes to be recycled; and
   (iv) Wastes to be treated;

If the establishment of numeric performance goals is not practicable, the performance goals shall include a clearly stated list of objectives designed to lead to the establishment of numeric goals as soon as is practicable. Goals shall be set for a five-year period from the first reporting date;

(i) A description of how the wastes that are not recycled or treated and the residues from recycling and treatment processes are managed may be included in the plan;

(j) Hazardous substance use and hazardous waste accounting systems that identify hazardous substance use and waste management costs and factor in liability, compliance, and oversight costs;

(k) A financial description of the plan;

(l) Personnel training and employee involvement programs;

(m) A five-year plan implementation schedule;

(n) Documentation of hazardous substance use reduction and waste reduction efforts completed before or in progress at the time of the first reporting date; and

(o) An executive summary of the plan, which shall include, but not be limited to:
   (i) The information required by (c), (e), (h), and (n) of this subsection; and
   (ii) A summary of the information required by (d) and (f) of this subsection.

(4) Upon completion of a plan, the owner, chief executive officer, or other person with the authority to commit management to the plan shall sign and submit an executive summary of the plan to the department.

(5) Plans shall be completed and executive summaries submitted in accordance with the following schedule:

(a) Hazardous waste generators who generated more than fifty thousand pounds of hazardous waste in calendar year 1991 and hazardous substance users who were required to report in 1991, by September 1, 1992;

(b) Hazardous waste generators who generated between seven thousand and fifty thousand pounds of hazardous waste in calendar year 1992 and hazardous substance users who were required to report for the first time in 1992, by September 1, 1993;

(c) Hazardous waste generators who generated between two thousand six hundred forty and seven thousand pounds of hazardous waste in 1993 and hazardous substance users who were required to report for the first time in 1993, by September 1, 1994;

(d) Hazardous waste generators who have not been required to complete a plan on or prior to September 1, 1994, must complete a plan by September 1 of the year following the first year that they generate more than two thousand six hundred forty pounds of hazardous waste; and

(e) Hazardous substance users who have not been required to complete a plan on or prior to September 1, 1994, must complete a plan by September 1 of the year following the first year that they are required to report under section 313 of Title III of the Superfund Amendments and Reauthorization Act.

(6) Annual progress reports, including a description of the progress made toward achieving the specific performance goals established in the plan, shall be prepared and submitted to the department in accordance with rules developed under this section. Upon the request of two or more users or generators belonging to similar industrial classifications, the department may aggregate data contained in their annual progress reports for the purpose of developing a public record.

(7) Every five years, each plan shall be updated, and a new executive summary shall be submitted to the department. [1991 c 319 § 314; 1990 c 114 § 6.]

Severability—Part headings not law—1991 c 319: See RCW 70.95F.900 and 70.95F.901.

Severability—1990 c 114: See RCW 70.95E.900.

70.95C.210 Voluntary reduction plan—Exemption.
A person required to prepare a plan under RCW 70.95C.200 because of the quantity of hazardous waste generated may petition the director to be excused from this requirement. The person must demonstrate to the satisfaction of the director that the quantity of hazardous waste generated was due to unique circumstances not likely to be repeated and that the person is unlikely to generate sufficient hazardous waste to require a plan in the next five years. [1990 c 114 § 7.]

Severability—1990 c 114: See RCW 70.95E.900.

70.95C.220 Voluntary reduction plan, executive summary, or progress report—Department review. (1)
The department may review a plan, executive summary, or an annual progress report to determine whether the plan, executive summary, or annual progress report is adequate pursuant to the rules developed under this section and with the provisions of RCW 70.95C.200. In determining the adequacy of any plan, executive summary, or annual progress report, the department shall base its determination solely on whether the plan, executive summary, or annual progress report is complete and prepared in accordance with the provisions of RCW 70.95C.200.

(2) Plans developed under RCW 70.95C.200 shall be retained at the facility of the hazardous substance user or hazardous waste generator preparing a plan. The plan is not a public record under the public records act, chapter 42.56 RCW. A user or generator required to prepare a plan shall permit the director or a representative of the director to review the plan to determine its adequacy. No visit made by the director or a representative of the director to a facility for the purposes of this subsection may be regarded as an inspection or investigation, and no notices or citations may be issued, nor any civil penalty assessed, upon such a visit.

(3) If a hazardous substance user or hazardous waste generator fails to complete an adequate plan, executive summary, or annual progress report, the department shall notify the user or generator of the inadequacy, identifying specific deficiencies. For the purposes of this section, a deficiency may include failure to develop a plan, failure to submit an executive summary pursuant to the schedule provided in RCW 70.95C.200(5), and failure to submit an annual progress report pursuant to the rules developed under RCW 70.95C.200(6). The department shall specify a reasonable time frame, of not less than ninety days, within which the user or generator shall complete a modified plan, executive summary, or annual progress report addressing the specified deficiencies.

(4) If the department determines that a modified plan, executive summary, or annual progress report is inadequate, the department may, within its discretion, either require further modification or enter an order pursuant to subsection (5)(a) of this section.

(5)(a) If, after having received a list of specified deficiencies from the department, a hazardous substance user or hazardous waste generator required to prepare a plan fails to complete modification of a plan, executive summary, or annual progress report within the time period specified by the department, the department may enter an order pursuant to chapter 34.05 RCW finding the user or generator not in compliance with the requirements of RCW 70.95C.200. When the order is final, the department shall notify the department of revenue to charge a penalty fee. The penalty fee shall be the greater of one thousand dollars or three times the amount of the user’s or generator’s previous year’s fee, in addition to the current year’s fee. If no fee was assessed the previous year, the penalty shall be the greater of one thousand dollars or three times the amount of the current year’s fee. The penalty assessed under this subsection shall be collected each year after the year for which the penalty was assessed until an adequate plan or executive summary is completed.

(b) If a hazardous substance user or hazardous waste generator required to prepare a plan fails to complete an adequate plan, executive summary, or annual progress report after the department has levied against the user or generator the penalty provided in (a) of this subsection, the user or generator shall be required to pay a surcharge to the department whenever the user or generator disposes of a hazardous waste at any hazardous waste incinerator or hazardous waste landfill facility located in Washington state, until a plan, executive summary, or annual progress report is completed and determined to be adequate by the department. The surcharge shall be equal to three times the fee charged for disposal. The department shall furnish the incinerator and landfill facilities in this state with a list of environmental protection agency/state identification numbers of the hazardous waste generators that are not in compliance with the requirements of RCW 70.95C.200. [2005 c 274 § 338; 1990 c 114 § 8.]

Part headings not law—Effective date—2005 c 274: See RCW 42.56.901 and 42.56.902.

Severability—1990 c 114: See RCW 70.95E.900.

70.95C.230  Appeal of department order or surcharge. A user or generator may appeal from a department order or a surcharge under RCW 70.95C.220 to the pollution control hearings board pursuant to chapter 43.21B RCW. [1990 c 114 § 9.]

Severability—1990 c 114: See RCW 70.95E.900.

70.95C.240  Public inspection of plans, summaries, progress reports. (1) The department shall make available for public inspection any executive summary or annual progress report submitted to the department. Any hazardous substance user or hazardous waste generator required to prepare an executive summary or annual progress report who believes that disclosure of any information contained in the executive summary or annual progress report may adversely affect the competitive position of the user or generator may request the department pursuant to RCW 43.21A.160 to delete from the public record those portions of the executive summary or annual progress report that may affect the user’s or generator’s competitive position. The department shall not disclose any information contained in an executive summary or annual progress report pending a determination of whether the department will delete any information contained in the report from the public record.

(2) Any ten persons residing within ten miles of a hazardous substance user or hazardous waste generator required to prepare a plan may file with the department a petition requesting the department to examine a plan to determine its adequacy. The department shall report its determination of adequacy to the petitioners and to the user or generator within a reasonable time. The department may deny a petition if the department has within the previous year determined the plan of the user or generator named in the petition to be adequate.

(3) The department shall maintain a record of each plan, executive summary, or annual progress report it reviews, and a list of all plans, executive summaries, or annual progress reports the department has determined to be inadequate, including descriptions of corrective actions taken. This information shall be made available to the public. [1990 c 114 § 10.]

Severability—1990 c 114: See RCW 70.95E.900.
70.95C.250 Multimedia permit pilot program—Air, water, hazardous waste management. (1) Not later than January 1, 1995, the department shall designate an industry type and up to ten individual facilities within that industry type to be the focus of a pilot multimedia program. The program shall be designed to coordinate department actions related to environmental permits, plans, approvals, certificates, registrations, technical assistance, and inspections. The program shall also investigate the feasibility of issuing facility-wide permits. The director shall determine the industry type and facilities based on:

(a) A review of at least three industry types; and
(b) Criteria which shall include at least the following factors:
   (i) The potential for the industry to serve as a statewide model for multimedia environmental programs including pollution prevention;
   (ii) Whether the industry type is subject to regulatory requirements relating to at least two of the following subject areas: Air quality, water quality, or hazardous waste management;
   (iii) The existence within the industry type of a range of business sizes; and
   (iv) Voluntary participation in the program.

(2) In developing the program, the department shall consult with and seek the cooperation of the environmental protection agency.

(3) For purposes of this section, "facility-wide permit" means a single multimedia permit issued by the department to the owner or operator of a facility incorporating the permits and any other relevant department approvals previously issued to the owner or operator or currently required by the department. [1998 c 245 § 134; 1994 c 248 § 1.]

Conflict with federal requirements—1994 c 248: "If any part of this act is found to be in conflict with federal requirements, the conflicting part of this act is inoperative solely to the extent of the conflict and with respect to the agencies directly affected, and this finding does not affect the operation of the remainder of this act in its application to the agencies concerned." Part headings not law—Severability—1995 c 269: See notes following RCW 13.40.005.

70.95D.020 Incineration facilities—Owner and operator certification requirements. (1) By January 1, 1992, the owner or operator of a solid waste incineration facility shall employ a certified operator. At a minimum, the individual on-site at a solid waste incineration facility who is designated by the owner as the operator in responsible charge of the operation and maintenance of the facility on a routine basis shall be certified by the department.

(2) If a solid waste incinerator is operated on more than one daily shift, the operator in charge of each shift shall be certified.

(3) Operators not required to be certified are encouraged to become certified on a voluntary basis.

(4) The department shall adopt and enforce such rules as may be necessary for the administration of this section. [1989 c 431 § 66.]

70.95D.030 Landfills—Owner and operator certification requirements. (1) By January 1, 1992, the owner or operator of a landfill shall employ a certified landfill operator.

(2) For each of the following types of landfills defined in existing regulations: Inert, demolition waste, problem waste, and municipal solid waste, the department shall adopt rules classifying all landfills in each class. The factors to be considered in the classification shall include, but not be limited to, the type and amount of waste in place and projected to be disposed of at the site, whether the landfill currently meets state and federal operating criteria, the location of the landfill, and such other factors as may be determined to affect the skill, knowledge, and experience required of an operator to
operate the landfill in a manner protective of human health and the environment.

(3) The rules shall identify the landfills in each class in which the owner or operator will be required to employ a certified landfill operator who is on-site at all times the landfill is operating. At a minimum, the rule shall require that owners and operators of landfills are required to employ a certified landfill operator who is on call at all times the landfill is operating. [1989 c 431 § 67.]

**70.95D.040 Certification process—Suspension of license or certificate for noncompliance with support order.** (1) The department shall establish a process to certify incinerator and landfill operators. To the greatest extent possible, the department shall rely on the certification standards and procedures developed by national organizations and the federal government.

(2) Operators shall be certified if they:
   (a) Attend the required training sessions;
   (b) Successfully complete required examinations; and
   (c) Pay the prescribed fee.

(3) By January 1, 1991, the department shall adopt rules to require incinerator and appropriate landfill operators to:
   (a) Attend a training session concerning the operation of the relevant type of landfill or incinerator;
   (b) Demonstrate sufficient skill and competency for proper operation of the incinerator or landfill by successfully completing an examination prepared by the department; and
   (c) Renew the certificate of competency at reasonable intervals established by the department.

(4) The department shall provide for the collection of fees for the issuance and renewal of certificates. These fees shall be sufficient to recover the costs of the certification program.

(5) The department shall establish an appeals process for the denial or revocation of a certificate.

(6) The department shall establish a process to automatically certify operators who have received comparable certification from another state, the federal government, a local government, or a professional association.

(7) Upon July 23, 1989, and prior to January 1, 1992, the owner or operator of an incinerator or landfill may apply to the department for interim certification. Operators shall receive interim certification if they:
   (a) Have received training provided by a recognized national organization, educational institution, or the federal government that is acceptable to the department; or
   (b) Have received individualized training in a manner approved by the department; and
   (c) Have successfully completed any required examinations.

(8) No interim certification shall be valid after January 1, 1992, and interim certification shall not automatically qualify operators for certification pursuant to subsections (2) through (4) of this section.

(9) The department shall immediately suspend the license or certificate of a person who has been certified pursuant to RCW 74.20A.320 by the department of social and health services as a person who is not in compliance with a support order or a *residential or visitation order. If the person has continued to meet all other requirements for reinstatement during the suspension, reissuance of the license or certificate shall be automatic upon the department’s receipt of a release issued by the department of social and health services stating that the licensee is in compliance with the order. [1997 c 58 § 875; 1989 c 431 § 68.]

*Reviser’s note: 1997 c 58 § 887 requiring a court to order certification of noncompliance with residential provisions of a court-ordered parenting plan was vetoed. Provisions ordering the department of social and health services to certify a responsible parent based on a court order to certify for non-compliance with residential provisions of a parenting plan were vetoed.    (b) For gross negligence in the operation of a solid waste incinerator or landfill;
   (c) For violating the requirements of this chapter or any lawful rule or order of the department; or
   (d) If the facility operated by the certified employee is operated in violation of state or federal environmental laws.

The annual amount of the fee shall be thirty-five dollars upon every hazardous waste generator doing business in Washington in the current calendar year or any part thereof. This fee shall be collected by the department or its designee. A hazardous waste generator shall be exempt from the fee imposed under this section if the value of products, gross proceeds of sales, or gross income of the business, from all business activities of the hazardous waste generator, is less than twelve thousand dollars in the current calendar year. The department shall, subject to appropriation, use the funds collected from the fees assessed in this subsection to support the activities of the office of waste reduction as specified in RCW 70.95C.030. The fee imposed pursuant to this section is due annually by July 1 of the year following the calendar year for which the fee is imposed. [1995 c 207 § 2. Prior: 1994 sp.s. c 2 § 3; 1994 c 136 § 2; 1990 c 114 § 12.]

Effective date—1994 c 2: See note following RCW 82.04.4451.

70.95E.030 Voluntary reduction plan—Fees. Hazardous waste generators and hazardous substance users required to prepare plans under RCW 70.95C.200 shall pay an annual fee to support implementation of RCW 70.95C.200 and 70.95C.040. These fees are to be used by the department, subject to appropriation, for plan review, technical assistance to facilities that are required to prepare plans, other activities related to plan development and implementation, and associated indirect costs. The total fees collected under this subsection shall not exceed the department’s costs of implementing RCW 70.95C.200 and 70.95C.040 and shall not exceed one million dollars per year. The annual fee for a facility shall not exceed ten thousand dollars per year. Any facility that generates less than two thousand six hundred forty pounds of hazardous waste per waste generation site in the previous calendar year shall be exempt from the fee imposed by this section. The annual fee for a facility generating at least two thousand six hundred forty pounds but not more than four thousand pounds of hazardous waste per waste generation site in the previous calendar year shall not exceed fifty dollars. A person that develops a plan covering more than one interrelated facility as provided for in RCW 70.95C.200 shall be assessed fees only for the number of plans prepared. The department shall adopt a schedule by rule after consultation with typical affected businesses and other interested parties. Hazardous waste generated and recycled for beneficial use, shall be exempt from fees only for the number of plans prepared. The department shall adopt a fee schedule by rule after consultation with typical affected businesses and other interested parties. Hazardous waste generated and recycled for beneficial use, shall be exempt from fees only for the number of plans prepared.

Effective dates—Severability—1991 sp.s. c 13: See notes following RCW 18.08.240.

70.95E.040 Fees—Generally. On an annual basis, the department shall adjust the fees provided for in RCW 70.95E.020 and 70.95E.030, including the maximum annual fee, and maximum total fees, by conducting the calculation in subsection (1) of this section and taking the actions set forth in subsection (2) of this section:

(1) In November of each year, the fees, annual fee, and maximum total fees imposed in RCW 70.95E.020 and 70.95E.030, or as subsequently adjusted by this section, shall be multiplied by a factor equal to the most current quarterly "price deflator" available, divided by the "price deflator" used in the numerator the previous year. However, the "price deflator" used in the denominator for the first adjustment shall be defined by the second quarter "price deflator" for 1990.

(2) Each year by March 1 the fee schedule, as adjusted in subsection (1) of this section will be published. The department will round the published fees to the nearest dollar. [1990 c 114 § 14.]

70.95E.050 Administration of fees. In administration of this chapter for the enforcement and collection of the fees due and owing under RCW 70.95E.020 and 70.95E.030, the department may apply RCW 43.17.240. [1995 c 207 § 3; 1994 c 136 § 4; 1990 c 114 § 15.]

Effective date—1995 c 207: See note following RCW 70.95E.010.

70.95E.080 Hazardous waste assistance account. The hazardous waste assistance account is hereby created in the state treasury. The following moneys shall be deposited into the hazardous waste assistance account:

(1) Those revenues which are raised by the fees imposed under RCW 70.95E.020 and 70.95E.030;

(2) Penalties and surcharges collected under chapter 70.95C RCW and this chapter; and

(3) Any other moneys appropriated or transferred to the account by the legislature. Moneys in the hazardous waste assistance account may be spent only for the purposes of this chapter following legislative appropriation. [1991 sp.s. c 13 § 75; 1990 c 114 § 18.]
extent practicable, the department shall contract with private businesses to provide compliance education.

Grants to local governments shall be used for small quantity generator technical assistance and compliance education components of their moderate risk waste plans as required by RCW 70.105.220. [1995 c 207 § 4; 1990 c 114 § 19.]

Effective date—1995 c 207: See note following RCW 70.95E.010.

70.95E.100 Exclusion from chapter. Nothing in this chapter relates to radioactive wastes or substances composed of both radioactive and hazardous components, and the department is precluded from using the funds of the hazardous waste assistance account for the regulation and control of such wastes. [1990 c 114 § 20.]

70.95E.900 Severability—1990 c 114. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected. [1990 c 114 § 23.]

70.95G.900 Severability—Part headings not law—1991 c 319.
70.95G.005 Finding. The legislature finds and declares that:

(1) The management of solid waste can pose a wide range of hazards to public health and safety and to the environment;
(2) Packaging comprises a significant percentage of the overall solid waste stream;
(3) The presence of heavy metals in packaging is a part of the total concern in light of their likely presence in emissions or ash when packaging is incinerated, or in leachate when packaging is landfilled;
(4) Lead, mercury, cadmium, and hexavalent chromium, on the basis of available scientific and medical evidence, are of particular concern;
(5) The intent of this chapter is to achieve a reduction in toxicity without impeding or discouraging the expanded use of postconsumer materials in the production of packaging and its components. [1991 c 319 § 106.]

Report to legislature—1991 c 319: "By July 1, 1993, the solid waste advisory committee created under chapter 70.95 RCW shall report to the appropriate standing committees of the legislature on the need to further reduce toxic metals from packaging. The report shall contain recommendations to add other toxic substances contained in packaging to the list set forth in this chapter, including but not limited to mutagens, carcinogens, and teratogens, in order to further reduce the toxicity of packaging waste, and shall contain a recommendation regarding imposition of penalty for violation of section 108 of this act." [1991 c 319 § 113.]

70.95G.010 Definitions. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Package" means a container providing a means of marketing, protecting, or handling a product and shall include a unit package, an intermediate package, and a shipping container. "Package" also means and includes unsealed receptacles such as carrying cases, crates, cups, pails, rigid foil and other trays, wrappers and wrapping films, bags, and tubs.
(2) "Manufacturer" means a person, firm, or corporation that applies a package to a product for distribution or sale.
(3) "Packaging component" means an individual assembled part of a package such as, but not limited to, any interior or exterior blocking, bracing, cushioning, weatherproofing, exterior strapping, coatings, closures, inks, and labels. [1991 c 319 § 107.]

70.95G.020 Concentration levels. The sum of the concentration levels of lead, cadmium, mercury, and hexavalent chromium present in any package or packaging component shall not exceed the following:

(1) Six hundred parts per million by weight effective July 1, 1993;
(2) Two hundred fifty parts per million by weight effective July 1, 1994; and
(3) One hundred parts per million by weight effective July 1, 1995.

This section shall apply only to lead, cadmium, mercury, and hexavalent chromium that has been intentionally introduced as an element during manufacturing or distribution. [1992 c 131 § 1; 1991 c 319 § 108.]

70.95G.030 Exemptions. All packages and packaging components shall be subject to this chapter except the following:

(1) Those packages or packaging components with a code indicating date of manufacture that were manufactured prior to May 21, 1991;
(2) Those packages or packaging components that have been purchased by, delivered to, or are possessed by a retailer on or before twenty-four months following May 21, 1991, to permit opportunity to clear existing inventory of the prescribed packaging material;
(3) Those packages or packaging components to which lead, cadmium, mercury, or hexavalent chromium have been added in the manufacturing, forming, printing, or distribution process in order to comply with health or safety requirements of federal law or for which there is no feasible alternative; and
(4) Those packages and packaging components that would not exceed the maximum contaminant levels set forth in RCW 70.95G.020(1) but for the addition of postconsumer materials; and provided that the exemption for this subsection shall expire six years after May 21, 1991. [1991 c 319 § 109.]

70.95G.040 Certificate of compliance. By July 1, 1993, a certificate of compliance stating that a package or packaging component is in compliance with the requirements of this chapter shall be developed by its manufacturer. If compliance is achieved under the exemption or exemptions provided in RCW 70.95G.030 (3) or (4), the certificate shall state the specific basis upon which the exemption is claimed. The certificate of compliance shall be signed by an authorized official of the manufacturing company. The certificate of compliance shall be kept on file by the manufacturer for as long as the package or packaging component is in use, and for three years from the date of the last sale or distribution by the manufacturer. Certificates of compliance, or copies thereof, shall be furnished to the department of ecology upon request within sixty days. If manufacturers are required under any other state statute to provide a certificate of compliance, one certificate may be developed containing all required information.

If the manufacturer or supplier of the package or packaging component reformulates or creates a new package or packaging component, the manufacturer shall develop an amended or new certificate of compliance for the reformulated or new package or packaging component. [1991 c 319 § 110.]

70.95G.050 Certificate of compliance—Public access. Requests from a member of the public for any certificate of compliance shall be:

(1) Made in writing to the department of ecology;
(2) Made specific as to package or packaging component information requested; and
(3) Responded to by the department of ecology within ninety days. [1991 c 319 § 111.]

70.95G.060 Prohibition of sale of package. The department of ecology may prohibit the sale of any package for which a manufacturer has failed to respond to a request by the department for a certificate of compliance within the [Title 70 RCW—page 277]
Chapter 70.95H RCW
CLEAN WASHINGTON CENTER

Sections
70.95H.005 Finding. (1) The legislature finds that:
(a) Recycling conserves energy and landfill space, provides jobs and valuable feedstock materials to industry, and promotes health and environmental protection;
(b) Seventy-eight percent of the citizens of the state actively participate in recycling programs and Washington currently has the highest recycling rate in the nation;
(c) The current supply of many recycled commodities far exceeds the demand for such commodities;
(d) Many local governments and private entities cumulatively affect, and are affected by, the market for recycled commodities but have limited jurisdiction and cannot adequately address the problems of market development that are complex, wide-ranging, and regional in nature; and
(e) The private sector has the greatest capacity for creating and expanding markets for recycled commodities, and the development of private markets for recycled commodities is in the public interest.

(2) It is therefore the policy of the state to create a single entity to be known as the clean Washington center to develop new, and expand existing, markets for recycled commodities. [1991 c 319 § 201.]

70.95H.007 Center created. There is created the clean Washington center within the department of community, trade, and economic development. As used in this chapter, "center" means the clean Washington center. [1995 c 399 § 192; 1991 c 319 § 202.]

70.95H.010 Purpose—Market development defined. The purpose of the center is to provide or facilitate business assistance, basic and applied research and development, marketing, public education, and policy analysis in furthering the development of markets for recycled products. As used in this chapter, market development consists of public and private activities that are used to overcome impediments preventing full use of secondary materials diverted from the waste stream, and that encourage and expand use of those materials and subsequent products. In fulfilling this mission the center shall primarily direct its services to businesses that transform or remanufacture waste materials into usable or marketable materials or products for use other than landfill disposal or incineration. [1991 c 319 § 203.]

70.95H.030 Duties and responsibilities. The center shall:
(1) Provide targeted business assistance to recycling businesses, including:
(a) Development of business plans;
(b) Market research and planning information;
(c) Access to financing programs;
(d) Referral and information on market conditions; and
(e) Information on new technology and product development;
(2) Negotiate voluntary agreements with manufacturers to increase the use of recycled materials in product development;
(3) Support and provide research and development to stimulate and commercialize new and existing technologies and products using recycled materials;
(4) Undertake an integrated, comprehensive education effort directed to recycling businesses to promote processing, manufacturing, and purchase of recycled products, including:
(a) Provide information to recycling businesses on the availability and benefits of using recycled materials;
(b) Provide information and referral services on recycled material markets;
(c) Provide information on new research and technologies that may be used by local businesses and governments; and
(d) Participate in projects to demonstrate new market uses or applications for recycled products;
(5) Assist the departments of ecology and general administration in the development of consistent definitions and standards on recycled content, product performance, and availability;
(6) Undertake studies on the unmet capital needs of reprocessing and manufacturing firms using recycled materials;
(7) Undertake and participate in marketing promotions for the purposes of achieving expanded market penetration for recycled content products;
(8) Coordinate with the department of ecology to ensure that the education programs of both are mutually reinforcing, with the center acting as the lead entity with respect to recycling businesses, and the department as the lead entity with respect to the general public and retailers;
(9) Develop an annual work plan. The plan shall describe actions and recommendations for developing markets for commodities comprising a significant percentage of the waste stream and having potential for use as an industrial or commercial feedstock. The initial plan shall address, but not be limited to, mixed waste paper, waste tires, yard and food waste, and plastics; and
(10) Represent the state in regional and national market development issues. [1992 c 131 § 2; 1991 c 319 § 205.]

70.95H.040 Authority. In order to carry out its responsibilities under this chapter, the center may:
(1) Receive such gifts, grants, funds, fees, and endowments, in trust or otherwise, for the use and benefit of the pur-
poses of the center. The center may expend the same or any income therefrom according to the terms of the gifts, grants, or endowments;

### 70.95I.005 Finding
(1) The legislature finds that:

(a) Millions of gallons of used oil are generated each year in this state, and used oil is a valuable petroleum resource that can be recycled;

(b) The improper collection, transportation, recycling, use, or disposal of used oil contributes to the pollution of air, water, and land, and endangers public health and welfare;

(c) The private sector is a vital resource in the collection and recycling of used oil and should be involved in its collection and recycling whenever practicable.

(2) In light of the harmful consequences of improper disposal and use of used oil, and its value as a resource, the legislature declares that the collection, recycling, and reuse of used oil is in the public interest.

(3) The department, when appropriate, should promote the rerefining of used oil in its grants, public education, regulatory, and other programs. [1991 c 319 § 301.]

### 70.95I.010 Definitions
Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Rerefining used oil" means the reclaiming of base lube stock from used oil for use again in the production of lube stock. Rerefining used oil does not mean combustion or landfilling.

(2) "Used oil" means (a) lubricating fluids that have been removed from an engine crankcase, transmission, gearbox, hydraulic device, or differential of an automobile, bus, truck, vessel, plane, heavy equipment, or machinery powered by an internal combustion engine; (b) any oil that has been refined from crude oil, used, and as a result of use, has been contaminated with physical or chemical impurities; and (c) any oil that has been refined from crude oil and, as a consequence of extended storage, spillage, or contamination, is no longer useful to the original purchaser. "Used oil" does not include used oil to which hazardous wastes have been added.

(3) "Public used oil collection site" means a site where a used oil collection tank has been placed for the purpose of collecting household generated used oil. "Public used oil collection site" also means a vehicle designed or operated to collect used oil from the public.

(4) "Lubricating oil" means any oil designed for use in, or maintenance of, a vehicle, including, but not limited to, motor oil, gear oil, and hydraulic oil. "Lubricating oil" does not mean petroleum hydrocarbons with a flash point below one hundred degrees Centigrade.

(5) "Vehicle" includes every device physically capable of being moved upon a public or private highway, road, street, watercourse, or trail, and in, upon, or by which any person or property is or may be transported or drawn upon a public or private highway, road, street, watercourse, or trail, except devices moved by human or animal power.

(6) "Department" means the department of ecology.

(7) "Local government" means a city or county developing a local hazardous waste plan under RCW 70.105.220. [1991 c 319 § 302.]

### 70.95I.020 Used oil recycling element
(1) Each local government and its local hazardous waste plan under RCW 70.105.220 is required to include a used oil recycling element. This element shall include:

(a) A plan to reach the local goals for household used oil recycling established by the local government and the depart-
ment under RCW 70.951.030. The plan shall, to the maximum extent possible, incorporate voluntary agreements with the private sector and state agencies to provide sites for the collection of used oil. Where provided, the plan shall also incorporate residential collection of used oil;

(b) A plan for enforcing the sign and container ordinances required by RCW 70.951.040;

c) A plan for public education on used oil recycling; and

d) An estimate of funding needed to implement the requirements of this chapter. This estimate shall include a budget reserve for disposal of contaminated oil detected at any public used oil collection site administered by the local government.

(2) By July 1, 1993, each local government or combination of contiguous local governments shall submit its used oil recycling element to the department. The department shall approve or disapprove the used oil recycling element by January 1, 1994, or within ninety days of submission, whichever is later. The department shall approve or disapprove the used oil recycling element if it determines that the element is consistent with this chapter and the guidelines developed by the department under RCW 70.951.030.

(3) Each local government, or combination of contiguous local governments, shall submit an annual statement to the department describing the number of used oil collection sites and the quantity of household used oil recycled for the jurisdiction during the previous calendar year. The first statement shall be due April 1, 1994. Subsequent statements shall be due April 1st of each year.

Nothing in this section shall be construed to require a city or county to construct or operate a public used oil collection site. [1991 c 319 § 303.]

70.951.030 Used oil recycling element guidelines—Waiver—Statewide goals. (1) By July 1, 1992, the department shall, in consultation with local governments, prepare guidelines for the used oil recycling elements required by RCW 70.951.020. The guidelines shall:

(a) Require development of local collection and rerefining goals for household used oil for each entity preparing a used oil recycling element under RCW 70.951.020;

(b) Require local government to recommend the number of used oil collection sites needed to meet the local goals. The department shall establish criteria regarding minimum levels of used oil collection sites;

c) Require local government to identify locations suitable as public used oil collection sites as described under RCW 70.951.020(1)(a).

(2) The department may waive all or part of the specific requirements of RCW 70.951.020 if a local government demonstrates to the satisfaction of the department that the objectives of this chapter have been met.

(3) The department may prepare and implement a used oil recycling plan for any local government failing to complete the used oil recycling element of the plan.

(4) The department shall develop statewide collection and rerefining goals for household used oil for each calendar year beginning with calendar year 1994. Goals shall be based on the estimated statewide collection and rerefining rate for calendar year 1993, and shall increase each year until calendar year 1996, when the rate shall be eighty percent.

(5) By July 1, 1993, the department shall prepare guidelines establishing statewide equipment and operating standards for public used oil collection sites. Standards shall:

(a) Allow the use of used oil collection igloos and other types of portable used oil collection tanks;

(b) Prohibit the disposal of nonhousehold-generated used oil;

(c) Limit the amount of used oil deposited to five gallons per household per day;

(d) Ensure adequate protection against leaks and spills; and

e) Include other requirements deemed appropriate by the department. [1991 c 319 § 304.]

70.951.040 Oil sellers—Education responsibility—Penalty. (1) A person annually selling one thousand or more gallons of lubricating oil to ultimate consumers for use or installation off the premises, or five hundred or more vehicle oil filters to ultimate consumers for use or installation off the premises within a city or county having an approved used oil recycling element, shall:

(a) Post and maintain at or near the point of sale, durable and legible signs informing the public of the importance of used oil recycling and how and where used oil may be properly recycled; and

(b) Provide for sale at or near the display location of the lubricating oil or vehicle oil filters, household used oil recycling containers. The department shall design and print the signs required by this section, and shall make them available to local governments and retail outlets.

(2) A person, who, after notice, violates this section is guilty of a misdemeanor and on conviction is subject to a fine not to exceed one thousand dollars.

(3) The department is responsible for notifying retailers subject to this section.

(4) A city or county may adopt household used oil recycling container standards in order to ensure compatibility with local recycling programs.

(5) Each local government preparing a used oil recycling element of a local hazardous waste plan pursuant to RCW 70.951.020 shall adopt ordinances within its jurisdiction to enforce subsections (1) and (4) of this section. [1991 c 319 § 305.]

70.951.050 Statewide education. The department shall conduct a public education program to inform the public of the needs for and benefits of collecting and recycling used oil in order to conserve resources and protect the environment. As part of this program, the department shall:

(1) Establish and maintain a statewide list of public used oil collection sites, and a list of all persons coordinating local government used oil programs;

(2) Establish a statewide media campaign describing used oil recycling;

(3) Assist local governments in providing public education and awareness programs concerning used oil by providing technical assistance and education materials; and

(4) Encourage the establishment of voluntary used oil collection and recycling programs, including public-private
partnerships, and provide technical assistance to persons organizing such programs. [1991 c 319 § 306.]

70.95I.060 Disposal of used oil—Penalty. (1) Effective January 1, 1992, the use of used oil for dust suppression or weed abatement is prohibited. 
(2) Effective July 1, 1992, no person may sell or distribute absorbent-based kits, intended for home use, as a means for collecting, recycling, or disposing of used oil. 
(3) Effective January 1, 1994, no person may knowingly dispose of used oil except by delivery to a person collecting used oil for recycling, treatment, or disposal, subject to the provisions of this chapter and chapter 70.105 RCW. 
(4) Effective January 1, 1994, no owner or operator of a solid waste landfill may knowingly accept used oil for disposal in the landfill. 
(5) A person who violates this section is guilty of a misdemeanor. [1991 c 319 § 307.]

70.95I.070 Used oil transporter and processor requirements—Civil penalties. (1) By January 1, 1993, the department shall adopt rules requiring any transporter of used oil to comply with minimum notification, invoicing, recordkeeping, and reporting requirements. For the purpose of this section, a transporter means a person engaged in the off-site transportation of used oil in quantities greater than twenty-five gallons per day. 
(2) By January 1, 1993, the department shall adopt minimum standards for used oil that is blended into fuels. Standards shall, at a minimum, establish testing and recordkeeping requirements. Unless otherwise exempted, a processor is any person involved in the marketing, blending, mixing, or processing of used oil to produce fuel to be burned for energy recovery. 
(3) Any person who knowingly transports used oil without meeting the requirements of this section shall be subject to civil penalties under chapter 70.105 RCW. 
(4) Rules developed under this section shall not require a manifest from individual residences served by a waste oil curbside collection program. [1991 c 319 § 308.]

70.95I.080 Above-ground used oil collection tanks. By January 1, 1987, the state fire protection board, in cooperation with the department of ecology, shall develop a statewide standard for the placement of above-ground tanks to collect used oil from private individuals for recycling purposes. [1986 c 37 § 1. Formerly RCW 19.114.040.]

70.95J.090 Delegation to local health department—Review.

70.95J.005 Findings—Municipal sewage sludge as a beneficial commodity. (1) The legislature finds that: 
(a) Municipal sewage sludge is an unavoidable byproduct of the wastewater treatment process; 
(b) Population increases and technological improvements in wastewater treatment processes will double the amount of sludge generated within the next ten years; 
(c) Sludge management is often a financial burden to municipalities and to ratepayers; 
(d) Properly managed municipal sewage sludge is a valuable commodity and can be beneficially used in agriculture, silviculture, and in landscapes as a soil conditioner; and 
(e) Municipal sewage sludge can contain metals and microorganisms that, under certain circumstances, may pose a risk to public health. 
(2) The legislature declares that a program shall be established to manage municipal sewage sludge and that the program shall, to the maximum extent possible, ensure that municipal sewage sludge is reused as a beneficial commodity and is managed in a manner that minimizes risk to public health and the environment. [1992 c 174 § 1.]

70.95J.007 Purpose—Federal requirements. The purpose of this chapter is to provide the department of ecology and local governments with the authority and direction to meet federal regulatory requirements for municipal sewage sludge. The department of ecology may seek delegation and administer the sludge permit program required by the federal clean water act as it existed February 4, 1987. [1992 c 174 § 2.]

70.95J.010 Definitions. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter. 
(1) "Biosolids" means municipal sewage sludge that is a primarily organic, semisolid product resulting from the wastewater treatment process, that can be beneficially recycled and meets all requirements under this chapter. For the purposes of this chapter, "biosolids" includes septic tank sludge, also known as septage, that can be beneficially recycled and meets all requirements under this chapter. 
(2) "Department" means the department of ecology. 
(3) "Local health department" has the same meaning as "jurisdictional health department" in RCW 70.95.030.
(4) "Municipal sewage sludge" means a semisolid substance consisting of settled sewage solids combined with varying amounts of water and dissolved materials generated from a publicly owned wastewater treatment plant. [1992 c 174 § 3.]

70.95J.020 Biosolid management program—Transportation of biosolids and sludge. (1) The department shall adopt rules to implement a biosolid management program within twelve months of the adoption of federal rules, 40 C.F.R. Sec. 503, relating to technical standards for the use and disposal of sewage sludge. The biosolid management program shall, at a minimum, conform with all applicable federal rules adopted pursuant to the federal clean water act as it existed on February 4, 1987.

(2) In addition to any federal requirements, the state biosolid management program may include, but not be limited to, an education program to provide relevant legal and scientific information to local governments and citizen groups.

(3) Rules adopted by the department under this section shall provide for public input and involvement for all state and local permits.

(4) Materials that have received a permit as a biosolid shall be regulated pursuant to this chapter.

(5) The transportation of biosolids and municipal sewage sludge shall be governed by Title 81 RCW. Certificates issued by the utilities and transportation commission before June 11, 1992, that include or authorize transportation of municipal sewage sludge shall continue in force and effect and be interpreted to include biosolids. [1992 c 174 § 4.]

70.95J.025 Biosolids permits—Fees—Biosolids permit account—Report. (1) The department shall establish annual fees to collect expenses for issuing and administering biosolids permits under this chapter. An initial fee schedule shall be established by rule and shall be adjusted no more often than once every two years. This fee schedule applies to all permits, regardless of date of issuance, and fees shall be assessed prospectively. Fees shall be established in amounts to recover expenses incurred by the department in processing permit applications and modifications, reviewing related plans and documents, monitoring, evaluating, conducting inspections, overseeing performance of delegated program elements, providing technical assistance and supporting overhead expenses that are directly related to these activities.

(2) The annual fee paid by a permittee for any permit issued under this chapter shall be determined by the number of residences or residential equivalents contributing to the permittee’s biosolids management system. If residences or residential equivalents cannot be determined or reasonably estimated, fees shall be based on other appropriate criteria.

(3) The biosolids permit account is created in the state treasury. All receipts from fees under this section must be deposited into the account. Moneys in the account may be spent only after appropriation. Expenditures from the account may be used only for the purposes of administering permits under this chapter.

(4) The department shall present a biennial progress report on the use of moneys from the biosolids permit account to the legislature. The first report is due on or before December 31, 1998, and thereafter on or before December 31st of odd-numbered years. The report shall consist of information on fees collected, actual expenses incurred, and anticipated expenses for the current and following fiscal years.

(5) The department shall work with the regulated community and local health departments to study the feasibility of modifying the fee schedule to support delegated local health departments and reduce local health department fees paid by biosolids permittees. [1997 c 398 § 1.]

70.95J.030 Beneficial uses for biosolids and glassified sewage sludge. The department may work with all appropriate state agencies, local governments, and private entities to establish beneficial uses for biosolids and glassified sewage sludge. [1992 c 174 § 5.]

70.95J.040 Violations—Orders. If a person violates any provision of this chapter, or a permit issued or rule adopted pursuant to this chapter, the department may issue an appropriate order to assure compliance with the chapter, permit, or rule. [1992 c 174 § 6.]

70.95J.050 Enforcement of chapter. The department, with the assistance of the attorney general, may bring an action at law or in equity, including an action for injunctive relief, to enforce this chapter or a permit issued or rule adopted by the department pursuant to this chapter. [1992 c 174 § 7.]

70.95J.060 Violations—Punishment. A person who willfully violates, without sufficient cause, any of the provisions of this chapter, or a permit or order issued pursuant to this chapter, is guilty of a gross misdemeanor. Willful violation of this chapter, or a permit or order issued pursuant to this chapter is a gross misdemeanor punishable by a fine of up to ten thousand dollars and costs of prosecution, or by imprisonment for up to one year, or by both. Each day of violation may be deemed a separate violation. [1992 c 174 § 8.]

70.95J.070 Violations—Monetary penalty. In addition to any other penalty provided by law, a person who violates this chapter or rules or orders adopted or issued pursuant to it shall be subject to a penalty in an amount of up to five thousand dollars a day for each violation. Each violation shall be a separate violation. In the case of a continuing violation, each day of violation is a separate violation. An act of commission or omission that procures, aids, or abets in the violation shall be considered a violation under this section. [1992 c 174 § 9.]

70.95J.080 Delegation to local health department—Generally. The department may delegate to a local health department the powers necessary to issue and enforce permits to use or dispose of biosolids. A delegation may be withdrawn if the department finds that a local health department is not effectively administering the permit program. [1992 c 174 § 10.]

70.95J.090 Delegation to local health department—Review. (1) Any permit issued by a local health department
under RCW 70.95J.080 may be reviewed by the department to ensure that the proposed site or facility conforms with all applicable laws, rules, and standards under this chapter.

(2) If the department does not approve or disapprove a permit within sixty days, the permit shall be considered approved.

(3) A local health department may appeal the department’s decision to disapprove a permit to the pollution control hearings board, as provided in chapter 43.21B RCW. [1992 c 174 § 11.]

70.95K.005 Findings. The legislature finds and declares that:

(1) It is a matter of statewide concern that biomedical waste be handled in a manner that protects the health, safety, and welfare of the public, the environment, and the workers who handle the waste.

(2) Infectious disease transmission has not been identified from improperly disposed biomedical waste, but the potential for such transmission may be present.

(3) A uniform, statewide definition of biomedical waste will simplify compliance with local regulations while preserving local control of biomedical waste management. [1992 c 14 § 1.]

70.95K.010 Definitions. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Biomedical waste" means, and is limited to, the following types of waste:
   (a) "Animal waste" is waste animal carcasses, body parts, and bedding of animals that are known to be infected with, or that have been inoculated with, human pathogenic microorganisms infectious to humans.
   (b) "Biosafety level 4 disease waste" is waste contaminated with blood, excretions, exudates, or secretions from humans or animals who are isolated to protect others from highly communicable infectious diseases that are identified as pathogenic organisms assigned to biosafety level 4 by the centers for disease control, national institute of health, biosafety in microbiological and biomedical laboratories, current edition.
   (c) "Cultures and stocks" are wastes infectious to humans and includes specimen cultures, cultures and stocks of etiologic agents, wastes from production of biologicals and sera, discarded live and attenuated vaccines, and laboratory waste that has come into contact with cultures and stocks of etiologic agents or blood specimens. Such waste includes but is not limited to culture dishes, blood specimen tubes, and devices used to transfer, inoculate, and mix cultures.
   (d) "Human blood and blood products" is discarded waste human blood and blood components, and materials containing free-flowing blood and blood products.
   (e) "Pathological waste" is waste human source biopsy materials, tissues, and anatomical parts that emanate from surgery, obstetrical procedures, and autopsy. "Pathological waste" does not include teeth, human corpses, remains, and anatomical parts that are intended for interment or cremation.
   (f) "Sharps waste" is all hypodermic needles, syringes with needles attached, IV tubing with needles attached, scalpel blades, and lancets that have been removed from the original sterile package.

(2) "Local government" means city, town, or county.

(3) "Local health department" means the city, county, city-county, or district public health department.

(4) "Person" means an individual, firm, corporation, association, partnership, consortium, joint venture, commercial entity, state government agency, or local government.

(5) "Treatment" means incineration, sterilization, or other method, technique, or process that changes the character or composition of a biomedical waste so as to minimize the risk of transmitting an infectious disease.

(6) "Residential sharps waste" has the same meaning as "sharps waste" in subsection (1) of this section except that the sharps waste is generated and prepared for disposal at a residence, apartment, dwelling, or other noncommercial habitat.

(7) "Sharps waste container" means a leak-proof, rigid, puncture-resistant red container that is taped closed or tightly lidded to prevent the loss of the residential sharps waste.

(8) "Mail programs" means those programs that provide sharps users with a multiple barrier protection kit for the placement of a sharps container and subsequent mailing of the wastes to an approved disposal facility.

(9) "Pharmacy return programs" means those programs where sharps containers are returned by the user to designated return sites located at a pharmacy to be transported by a biomedical or solid waste collection company approved by the utilities and transportation commission.

(10) "Drop-off programs" means those program sites designated by the solid waste planning jurisdiction where sharps users may dispose of their sharps containers.

(11) "Source separation" has the same meaning as in RCW 70.95.030.

(12) "Unprotected sharps" means residential sharps waste that are not disposed of in a sharps waste container. [1994 c 165 § 2; 1992 c 14 § 2.2]

Findings—Purpose—Intent—1994 c 165: "The legislature finds that the improper disposal and labeling of sharps waste from residences poses a potential health risk and perceived threat to the waste generators, public, and workers in the waste and recycling industry. The legislature further finds that a uniform method for handling sharps waste generated at residences will reduce confusion and injuries, and enhance public and waste worker confidence.

It is the purpose and intent of this act that residential generated sharps waste be contained in easily identified containers and separated from the regular solid waste stream to ensure worker safety and promote proper disposal of these wastes in a manner that is environmentally safe and economically sound." [1994 c 165 § 1.]

70.95K.011 State definition preempts local definitions. The definition of biomedical waste set forth in RCW
70.95K.010 shall be the sole state definition for biomedical waste within the state, and shall preempt biomedical waste definitions established by a local health department or local government. [1992 c 14 § 3.]

70.95K.020 Waste treatment technologies. (1) At the request of an applicant, the department of health, in consultation with the department of ecology and local health departments, may evaluate the environmental and public health impacts of biomedical waste treatment technologies. The department shall make available the results of any evaluation to local health departments.

(2) All direct costs associated with the evaluation shall be paid by the applicant to the department of health or to a state or local entity designated by the department of health.

(3) For the purposes of this section, "applicant" means any person representing a biomedical waste treatment technology that seeks an evaluation under subsection (1) of this section.

(4) The department of health may adopt rules to implement this section. [1992 c 14 § 4.]

70.95K.030 Residential sharps—Disposal—Violation. (1) A person shall not intentionally place unprotected sharps or a sharps waste container into: (a) Recycling containers provided by a city, county, or solid waste collection company, or any other recycling collection site unless that site is specifically designated by a local health department as a drop-off site for sharps waste containers; or (b) cans, carts, drop boxes, or other containers in which refuse, trash, or solid waste has been placed for collection if a source separated collection service is provided for residential sharps waste.

(2) Local health departments shall enforce this section, primarily through an educational approach regarding proper disposal of residential sharps. On the first and second violation, the health department shall provide a warning to the person that includes information on proper disposal of residential sharps. A subsequent violation shall be a class 3 infraction under chapter 7.80 RCW.

(3) It is not a violation of this section to place a sharps waste container into a household refuse receptacle if the utilities and transportation commission determines that such placement is necessary to reduce the potential for theft of the sharps waste container. [1994 c 165 § 3.]

Effective date—1994 c 165 § 3: "Section 3 of this act shall take effect July 1, 1995." [1994 c 165 § 6.]

Findings—Purpose—Intent—1994 c 165: See note following RCW 70.95K.010.

70.95K.040 Residential sharps waste collection. (1) A public or private provider of solid waste collection service may provide a program to collect source separated residential sharps waste containers in conjunction with regular collection services.

Chapter 70.95L RCW

DETERGENT PHOSPHORUS CONTENT

Sections

70.95L.005 Finding. The legislature hereby finds and declares that:

(1) Phosphorus loading of surface waters can stimulate the growth of weeds and algae, and that such growth can have adverse environmental, health, and aesthetic effects;

(2) Household detergents contribute to phosphorus loading, and that a limit on detergents containing phosphorus can significantly reduce the discharge of phosphorus into the state’s surface and ground waters;

(3) Household detergents containing no or very low phosphorus are readily available and that over thirty percent of the United States population lives in areas with a ban on detergents containing phosphorus;

(4) Phosphorus limits on household detergents can significantly reduce treatment costs at those sewage treatment facilities that remove phosphorus from the waste stream; and

(5) While significant reductions of phosphorus from laundry detergent have been accomplished, similar progress in reducing phosphorus contributions from dishwashing detergents has not been achieved.

[Title 70 RCW—page 284]

(1) Effective January 1, 2004, a manufacturer, wholesaler, or retailer may not knowingly sell at retail a fluorescent lamp if the fluorescent lamp contains mercury and was manufactured after November 30, 2003, unless the fluorescent lamp is labeled in accordance with the guidelines listed under subsection (2) of this section. Primary responsibility for affixing labels required under this section is on the manufacturer, and not on the wholesaler or retailer.

(2) Except as provided in subsection (3) of this section, a lamp is considered labeled pursuant to subsection (1) of this section if the lamp has all of the following:

(a) A label affixed to the lamp that displays the internationally recognized symbol for the element mercury; and

(b) A label on the lamp’s packaging that: (i) Clearly informs the purchaser that mercury is present in the item; (ii) explains that the fluorescent lamp should be disposed of according to applicable federal, state, and local laws; and (iii) provides a toll-free telephone number, and a uniform resource locator internet address to a web site, that contains information on applicable disposal laws.

70.95M.040 Schools—Purchase of mercury prohibited. A school may not purchase for use in a primary or secondary classroom bulk elemental mercury or chemical mercury compounds. By January 1, 2006, all primary and secondary schools in the state must remove and properly dispose of all bulk elemental mercury, chemical mercury, and bulk mercury compounds used as teaching aids in science classrooms, not including barometers. [2003 c 260 § 5.]

70.95M.050 Prohibited sales—Novelties, manometers, thermometers, thermostats, motor vehicles. (1) Effective January 1, 2006, no person may sell, offer for sale, or distribute for sale or use in this state a mercury-added novelty. A manufacturer of mercury-added novelties must notify all retailers that sell the product about the provisions of this section and how to properly dispose of any remaining mercury-added novelty inventory.

(2)(a) Effective January 1, 2006, no person may sell, offer for sale, or distribute for sale or use in this state a manometer used to measure blood pressure or a thermometer that contains mercury. This subsection (2)(a) does not apply to:

(vi) A manometer or thermometer sold or distributed to a hospital, or a health care facility controlled by a hospital, if the hospital has adopted a plan for mercury reduction consistent with the goals of the mercury chemical action plan developed by the department under section 302, chapter 371, Laws of 2002.

(b) A manufacturer of thermometers that contain mercury must notify all retailers that sell the product about the provisions of this section and how to properly dispose of any remaining thermometer inventory.

(3) Effective January 1, 2006, no person may sell, install, or reinstall a commercial or residential thermostat that contains mercury unless the manufacturer of the thermostat conducts or participates in a thermostat recovery or recycling program designed to assist contractors in the proper disposal of thermostats that contain mercury in accordance with 42 U.S.C. Sec. 6901, et seq., the federal resource conservation and recovery act.

(4) No person may sell, offer for sale, or distribute for sale or use in this state a motor vehicle manufactured after January 1, 2006, if the motor vehicle contains an automotive mercury switch.

In circumstances where a nonmercury-added product is not available, preference must be given to the purchase of products that contain the least amount of mercury added to the product necessary for the required performance. [2003 c 260 § 7.]

70.95M.070 Clearinghouse—Department participation. The department is authorized to participate in a regional or multistate clearinghouse to assist in carrying out any of the requirements of this chapter. A clearinghouse may also be used for examining notification and label requirements, developing education and outreach activities, and maintaining a list of all mercury-added products. [2003 c 260 § 8.]

70.95M.080 Penalties. A violation of this chapter is punishable by a civil penalty not to exceed one thousand dollars for each violation in the case of a first violation. Repeat violators are liable for a civil penalty not to exceed five thousand dollars for each repeat violation. Penalties collected under this section must be deposited in the state toxics control account created in RCW 70.105D.070. [2003 c 260 § 9.]

70.95M.090 Crematories—Nonapplicability of chapter. Nothing in this chapter applies to crematories as that term is defined in RCW 68.04.070. [2003 c 260 § 10.]

Nothing in this chapter applies to prescription drugs regulated by the food and drug administration under the federal food, drug, and cosmetic act (21 U.S.C. Sec. 301 et seq.), to biological products regulated by the food and drug administration under the public health service act (42 U.S.C. Sec. 262 et seq.), or to any substance that may be lawfully sold over-the-counter without a prescription under the federal food, drug, and cosmetic act (21 U.S.C. Sec. 301 et seq.). [2003 c 260 § 12.]

(1) Beginning July 1, 2007, a person who is known to be pregnant or who is under three years of age shall not be vaccinated with a mercury-containing vaccine or injected with a mercury-containing product that contains more than 0.5 micrograms of mercury per 0.5 milliliter dose.

(2) Notwithstanding subsection (1) of this section, an influenza vaccine may contain up to 1.0 micrograms of mercury per 0.5 milliliter dose.

(3) The secretary of the department of health may, upon the secretary’s or local public health officer’s declaration of an outbreak of vaccine-preventable disease or of a shortage of vaccine that complies with subsection (1) or (2) of this section, suspend the requirements of this section for the duration of the outbreak or shortage. A person who is known to be pregnant or lactating or a parent or legal guardian of a child under eighteen years of age shall be informed if the person or child is to be vaccinated or injected with any mercury-containing product that contains more than the mercury limits per dose in subsections (1) and (2) of this section.

(4) All vaccines and products referenced under this section must meet food and drug administration licensing requirements. [2007 c 268 § 1; 2006 c 231 § 2.]

Findings—2006 c 231: “The legislature finds that vaccinations and immunizations are among the most important public health innovations of the last one hundred years. The centers for disease control and prevention placed vaccinations at the top of its list of the ten greatest public health achievements of the twentieth century. In its efforts to improve public health in the world’s poorest countries, the Bill and Melinda Gates foundation has identified childhood immunization as a cost-effective method of improving public health and saving the lives of millions of children around the world.

Fortunately, in Washington, safe and cost-effective vaccinations against childhood diseases are widely available through both public and private resources. The vaccines that the Washington state department of health provides to meet the requirements for the recommended childhood vaccination schedule through its universal childhood vaccine program are screened for thimerosal and preference is given toward the purchase of thimerosal-free products. The department of health currently provides thimerosal-free products for all routinely recommended childhood vaccines. Regardless of the absence of thimerosal in childhood vaccines in Washington, scientifically reputable organizations such as the centers for disease control and prevention, the national institute of medicine, the American academy of pediatrics, the food and drug administration, and the world health organization have all determined that there is no credible evidence that the use of thimerosal in vaccines poses a threat to the health and safety of children.

Notwithstanding these assurances of the safety of the vaccine supply, the legislature finds that where there is public concern over the safety of vaccines, vaccination rates may be reduced to the point that deadly, vaccine-preventable, childhood diseases return. This measure is being enacted to maintain public confidence in vaccine programs, so that the public will continue to seek vaccinations and their health benefits may continue to protect the people of Washington.” [2006 c 231 § 1.]

70.95M.120 Fiscal impact—Toxics control account. Any fiscal impact on the department or the department of health that results from the implementation of this chapter must be paid for out of funds that are appropriated by the legislature from the state toxics control account for the implementation of the department’s persistent bioaccumulative toxic chemical strategy. [2003 c 260 § 11.]

70.95M.130 National mercury repository site. The department of ecology shall petition the United States environmental protection agency requesting development of a national mercury repository site. [2003 c 260 § 14.]

(3) The manufacturers participating in an approved plan are responsible for covering all administrative and operational costs associated with the collection, transportation, and recycling of their plan’s equivalent share of covered electronic products. If costs are passed on to consumers, it must be done without any fees at the time the unwanted electronic product is delivered or collected for recycling. However, this does not prohibit collectors providing premium or curbside services from charging customers a fee for the additional collection cost of providing this service, when funding for collection provided by an independent plan or the standard plan does not fully cover the cost of that service.

(4) Nothing in this chapter changes or limits the authority of the Washington utilities and transportation commission to regulate collection of solid waste in the state of Washington, including curbside collection of residential recyclable materials, nor does this chapter change or limit the authority of a city or town to provide such service itself or by contract pursuant to RCW 81.77.020.

(5) Manufacturers are encouraged to collaborate with electronic product retailers, certificated waste haulers, processors, recyclers, charities, and local governments within the state in the development and implementation of their plans. [2006 c 183 § 3.]

(3) The department shall review the registration or renewal application and notify the manufacturer if their registration does not meet the requirements of this section. Within thirty days of receipt of such a notification from the department, the manufacturer must file with the department a revised registration addressing the requirements noted by the department.

(4) The registration must include the following information:

(6) The department shall identify, using all reasonable means, manufacturers that are in business or that are no longer in business but that have a successor in interest by examining best available return share data and other pertinent data. The department shall notify manufacturers that have been identified and for whom an address has been found of the requirements of this chapter, including registration and plan requirements under this section and RCW 70.95N.050. [2006 c 183 § 4.]

70.95N.050 Independent plan requirements. (1) A manufacturer must participate in the standard plan administered by the authority, unless the manufacturer obtains department approval for an independent plan for the collection, transportation, and recycling of unwanted electronic products.

(2) An independent plan may be submitted by an individual manufacturer or by a group of manufacturers, provided that:

(a) Each independent plan represents at least a five percent return share of covered electronic products; and

(3) An individual manufacturer submitting an independent plan to the department is responsible for collecting, transporting, and recycling its equivalent share of covered electronic products.

(4)(a) Manufacturers collectively submitting an independent plan are responsible for collecting, transporting, and recycling the sum of the equivalent shares of each participating manufacturer.

(b) Each group of manufacturers submitting an independent plan must designate a party authorized to file the plan with the department on their behalf. A letter of certification from each of the manufacturers designating the authorized party must be submitted to the department together with the plan.

(5) Each manufacturer in the standard plan or in an independent plan retains responsibility and liability under this chapter in the event that the plan fails to meet the manufacturer’s obligations under this chapter. [2006 c 183 § 5.]

70.95N.060 Standard, independent plan requirements—Fees to be set by the department—Acceptance or rejection by department. (3) The fees in subsection (2) of this section apply to the initial plan submission and plan updates and revisions required in RCW 70.95N.070.

(4) Within ninety days after receipt of a plan, the department shall determine whether the plan complies with this chapter. If the plan is approved, the department shall send a letter of approval. (6) The standard plan shall address how it will incorporate and fairly compensate registered collectors providing curbside or premium services such that they are not compensated at a lower rate for collection costs than the compensation offered other collectors providing drop-off collection sites in that geographic area.

(7) All transporters, collectors, and processors used to fulfill the requirements of this section must be registered as described in RCW 70.95N.240. [2006 c 183 § 6.]

70.95N.070 Plan updates—Revised plan. (1) An independent plan and the standard plan must be updated at least every five years and as required in (a) and (b) of this subsection.

   (a) If the program fails to provide service in each county in the state or meet other plan requirements, the authority or authorized party shall submit to the department within sixty days of failing to provide service an updated plan addressing how the program will be adjusted to meet the program geographic coverage and collection service requirements established in RCW 70.95N.090.

   (b) The authority or authorized party shall notify the department of any modification to the plan. If the department determines that the authority or authorized party has significantly modified the program described in the plan, the authority or authorized party shall submit a revised plan describing the changes to the department within sixty days of notification by the department.

   (3) A manufacturer participating in the standard plan wishing to implement or participate in an independent plan may do so by complying with rules adopted by the department under RCW 70.95N.230. [2006 c 183 § 8.]

70.95N.090 Collection services. (1) A program must provide collection services for covered electronic products of all product types that are reasonably convenient and available to all citizens of the state residing within its geographic boundaries, including both rural and urban areas. Each program must provide collection service in every county of the state. A program may provide collection services jointly with another plan or plans.
(a) For any city or town with a population of greater than ten thousand, each program shall provide a minimum of one collection site or alternate collection service described in subsection (3) of this section or a combination of sites and alternate service that together provide at least one collection opportunity for all product types. A collection site for a county may be the same as a collection site for a city or town in the county.

(b) Collection sites may include electronics recyclers and repair shops, recyclers of other commodities, reuse organizations, charities, retailers, government recycling sites, or other suitable locations.

All covered entities may use a collection site as long as the covered entities adhere to any restrictions established in the plans.

(3) A program may provide collection services in forms different than collection sites, such as curbside services, if those alternate services provide equal or better convenience to citizens and equal or increased recovery of unwanted covered electronic products.

(4) For rural areas without commercial centers or areas with widely dispersed population, a program may provide collection at the nearest commercial centers or solid waste sites, collection events, mail-back systems, or a combination of these options.

(5) For small businesses, small governments, charities, and school districts that may have large quantities of covered electronic products that cannot be handled at collection sites or curbside services, a program may provide alternate services. At a minimum, a program must provide for processing of these large quantities of covered electronic products at no charge to the small businesses, small governments, charities, and school districts. [2006 c 183 § 9.]

70.95N.100 Successor duties. (2) The sampling must be conducted in the presence of the department or a third-party organization approved by the department. The department may, at its discretion, audit the methodology and the results.

(3) After the fifth program year, the department may reassess the sampling required in this section. The department may adjust the frequency at which manufacturers must implement the sampling or may adjust the frequency at which manufacturers must provide certain information from the sampling. Prior to making any changes, the department shall notify the public, including all registered manufacturers, and provide a comment period. The department shall notify all registered manufacturers of any such changes. [2006 c 183 § 11.]

(4) A retailer who sells new covered electronic products shall provide information to consumers describing where and how to recycle covered electronic products and opportunities and locations for the convenient collection or return of the products. This requirement can be fulfilled by providing the department’s toll-free telephone number and web site. Remote sellers may include the information in a visible location on their web site as fulfillment of this requirement.

(5) Manufacturers, state government, local governments, retailers, and collection sites and services shall collaborate in the development and implementation of the public information campaign. [2006 c 183 § 12.]

(1) The department shall determine the return share for each manufacturer in the standard plan or an independent plan by dividing the weight of covered electronic products identified for each manufacturer by the total weight of covered electronic products identified for all manufacturers in the standard plan or an independent plan, then multiplying the quotient by one hundred.

(2) For the first program year, the department shall determine the return share for such manufacturers using all reasonable means and based on best available information regarding return share data from other states and other pertinent data.

(3) For the second and each subsequent program year, the department shall determine the return share for such manufacturers using all reasonable means and based on the most recent sampling of covered electronic products conducted in the state under RCW 70.95N.110. [2006 c 183 § 19.]

70.95N.200 Equivalent share calculation—Notice to manufacturers—Billing parties that do not meet their plan’s equivalent share—Payments to parties that exceed their plan’s equivalent share—Nonprofit charitable organizations. (1) The department shall determine the total equivalent share for each manufacturer in the standard plan or an independent plan by dividing the return share percentage for each manufacturer by one hundred, then multiplying the quotient by the total weight in pounds of covered electronic products collected for that program year, allowing for the additional credit authorized in subsection (3) of this section.

(2)(a) By June 1st of each program year, the department shall notify each manufacturer of the manufacturer’s equivalent share of covered electronic products to be applied to the previous program year. The department shall also notify each manufacturer of how its equivalent share was determined.

Sec. 501(c)(3)) that are primarily engaged in the business of reuse and resale must be given an additional five percent credit to be applied toward a plan’s equivalent share for pounds that are received for recycling from those organizations. The department may adjust the percentage of credit annually. [2006 c 183 § 20.]

70.95N.210 Preliminary return share—Notice—Challenges—Final return share. (1) By June 1, 2007, the department shall notify each manufacturer of its preliminary return share of covered electronic products for the first program year.

70.95N.220 Covered electronic products collected during a program year—Payment per pound under, over equivalent share. (1) For an independent plan and the standard plan, if the total weight in pounds of covered electronic products collected during a program year is less than the plan’s equivalent share of covered electronic products for that year, then the authority or authorized party shall submit to the department a payment equal to the weight in pounds of the deficit multiplied by the reasonable collection, transportation, and recycling cost for covered electronic products and an administrative fee. Moneys collected by the department must be deposited in the electronic products recycling account.

(2) For an independent plan and the standard plan, if the total weight in pounds of covered electronic products collected during a program year is more than the plan’s equivalent share of covered electronic products for that year, then the department shall submit to the authority or authorized party, a payment equal to the weight in pounds of the surplus multiplied by the reasonable collection, transportation, and recycling cost for covered electronic products.

(3) For purposes of this section, the initial reasonable collection, transportation, and recycling cost for covered
electronic products is forty-five cents per pound and the administrative fee is five cents per pound.

(4) The department may annually adjust the reasonable collection, transportation, and recycling cost for covered electronic products and the administrative fee described in this section. Prior to making any changes in the fees described in this section, the department shall notify the public, including all registered manufacturers, and provide a comment period. All fees charged must be based on factors relating to administering this chapter and be based on a sliding scale that is representative of annual sales of covered electronic products in the state. Fees must be established in amounts to fully recover and not to exceed expenses incurred by the department to implement this chapter.

(3) The department shall establish an annual process for local governments and local communities to report their satisfaction with the services provided by plans under this chapter. This information must be used by the department in reviewing plan updates and revisions.

(4) The department may adopt rules as necessary for the purpose of implementing, administering, and enforcing this chapter. [2006 c 183 § 23.]

70.95N.240 Collector, transporter, processor registration. (1) Each collector and transporter of covered electronic products in the state must register annually with the department. The registration must include all identification requirements for licensure in the state and the geographic area of the state that they serve. The department shall develop a single form for registration of both collectors and transporters.

(2) Each processor of covered electronic products utilized by an independent or standard plan must register annually with the department. The registration must include identification information and documentation of any necessary operating permits issued by state or local authorities. [2006 c 183 § 24.]

The department shall send a written warning to a manufacturer that does not have an approved plan or is not participating in an approved plan as required under RCW 70.95N.050. The written warning must inform the manufacturer that it must participate in an approved plan within thirty days of the notice. Any violation after the initial written warning shall be assessed a penalty of up to ten thousand dollars for each violation.

(2) If the authority or any authorized party fails to implement their approved plan, the department must assess a penalty of up to five thousand dollars for the first violation along with notification that the authority or authorized party must implement its plan within thirty days of the violation. After thirty days, the authority or any authorized party failing to implement their approved plan must be assessed a penalty of up to ten thousand dollars for the second and each subsequent violation.

The authority shall compensate registered collectors for the reasonable costs associated with collection, but is not required to compensate nor restricted from compensating the additional collection costs resulting from the additional convenience offered to customers through premium and curbside services.

(7) The authority shall accept and utilize in the standard program any registered processor meeting the requirements of this chapter and any requirements described in the authority’s operating plan or through contractual arrangements. Processors utilized by the standard plan shall provide documentation to the authority at least annually regarding how they are meeting the requirements in RCW 70.95N.250 and *section 26 of this act, including enough detail to allow the standard plan to meet its reporting requirements in RCW 70.95N.140(2) (c) and (d), and must submit to audits conducted by or for the authority. The authority shall compensate such processors for the reasonable costs, as determined by the authority, associated with processing unwanted electronic products. Such processors must demonstrate that the unwanted electronic products have been received from registered collectors or transporters, and provide other documentation as may be required by the authority.

(8) Except as specifically allowed in this chapter, the authority shall operate without using state funds or lending the credit of the state or local governments.

(9) The authority shall develop innovative approaches to improve materials management efficiency in order to ensure and increase the use of secondary material resources within the economy. [2006 c 183 § 29.]

*Reviser's note: Section 26 of this act was vetoed by the governor.

70.95N.290 Board of directors of the authority. (1)(a) The authority is governed by a board of directors. The board of directors is comprised of eleven participating manufacturers, appointed by the director of the department. Five board positions are reserved for representatives of the top ten brand owners by return share of covered electronic products, and six board positions are reserved for representatives of other brands, including at least one board position reserved for a manufacturer who is also a retailer selling their own private label. The return share of covered electronic products used to determine the top ten brand owners for purposes of electing the board must be determined by the department by January 1, 2007.

(b) The board must have representation from both television and computer manufacturers.

(2) The board shall select from its membership the chair of the board and such other officers as it deems appropriate.

(3) A majority of the board constitutes a quorum.

(4) The directors of the department of community, trade, and economic development and the department of ecology serve as ex officio members. The state agency directors serv-
70.95N.300 Manufacturers to pay their apportioned share of administrative and operational costs—Performance bonds—Dispute arbitration. (1) Manufacturers participating in the standard plan shall pay the authority to cover all administrative and operational costs associated with the collection, transportation, and recycling of covered electronic products within the state of Washington incurred by the standard program operated by the authority to meet the standard plan’s equivalent share obligation as described in RCW 70.95N.280(5).

(2) The authority shall assess charges on each manufacturer participating in the standard plan and collect funds from each participating manufacturer for the manufacturer’s portion of the costs in subsection (1) of this section. Such apportionment shall be based on return share, market share, any combination of return share and market share, or any other equitable method. The authority’s apportionment of costs to manufacturers participating in the standard plan may not include nor be based on electronic products imported through the state and subsequently exported outside the state. Charges assessed under this section must not be formulated in such a way as to create incentives to divert imported electronic products to ports or distribution centers in other states. The authority shall adjust the charges to manufacturers participating in the standard plan as necessary in order to ensure that all costs associated with the identified activities are covered.

(3) The authority may require financial assurances or performance bonds for manufacturers participating in the standard plan, including but not limited to new entrants and white box manufacturers, when determining equitable methods for apportioning costs to ensure that the long-term costs for collecting, transporting, and recycling of a covered electronic product are borne by the appropriate manufacturer in the event that the manufacturer ceases to participate in the program.

(4) Nothing in this section authorizes the authority to assess fees or levy taxes directly on the sale or possession of electronic products.

(5) If a manufacturer has not met its financial obligations as determined by the authority under this section, the authority shall notify the department that the manufacturer is no longer participating in the standard plan.

(6) The authority shall submit its plan for assessing charges and apportioning cost on manufacturers participating in the standard plan to the department for review and approval along with the standard plan as provided in RCW 70.95N.060.

(7)(a) Any manufacturer participating in the standard plan may appeal an assessment of charges or apportionment of costs levied by the authority under this section by written petition to the director of the department. The director of the department or the director’s designee shall review all appeals within timelines established by the department and shall reverse any assessments of charges or apportionment of costs if the director finds that the authority’s assessments or apportionment of costs was an arbitrary administrative decision, an abuse of administrative discretion, or is not an equitable assessment or apportionment of costs. The director shall make a fair and impartial decision based on sound data. If the director of the department reverses an assessment of charges, the authority must redetermine the assessment or apportionment of costs.

(b) Disputes regarding a final decision made by the director or director’s designee may be challenged through arbitration. The director shall appoint one member to serve on the arbitration panel and the challenging party shall appoint one other. These two persons shall choose a third person to serve. If the two persons cannot agree on a third person, the presiding judge of the Thurston county superior court shall choose a third person. The decision of the arbitration panel shall be final and binding, subject to review by the superior court solely upon the question of whether the decision of the panel was arbitrary or capricious.

70.95N.310 Authority use of funds. (1) The authority shall use any funds legally available to it for any purpose specifically authorized by this chapter to:

(a) Contract and pay for collecting, transporting, and recycling of covered electronic products and education and other services as identified in the standard plan;

(b) Pay for the expenses of the authority including, but not limited to, salaries, benefits, operating costs and consumable supplies, equipment, office space, and other expenses related to the costs associated with operating the authority;

(c) Pay into the electronic products recycling account amounts billed by the department to the authority for any deficit in reaching the standard plan’s equivalent share as required under RCW 70.95N.220; and

(d) Pay the department for the fees for submitting the standard plan and any plan revisions.

(2) If practicable, the authority shall avoid creating new infrastructure already available through private industry in the state.

(3) The authority may not receive an appropriation of state funds, other than:

(a) Funds that may be provided as a one-time loan to cover administrative costs associated with start-up of the authority, such as electing the board of directors and conducting the public hearing for the operating plan, provided that no appropriated funds may be used to pay for collection, transportation, or recycling services; and
(b) Funds received from the department from the electronic products recycling account for exceeding the standard plan’s equivalent share.

(4) The authority may receive additional sources of funding that do not obligate the state to secure debt.

(5) All funds collected by the authority under this chapter, including interest, dividends, and other profits, are and must remain under the complete control of the authority and its board of directors, be fully available to achieve the intent of this chapter, and be used for the sole purpose of achieving the intent of this chapter. [2006 c 183 § 32.]

70.95N.320 General operating plan. (1) The board shall adopt a general operating plan of procedures for the authority. The board shall also adopt operating procedures for collecting funds from participating covered electronic manufacturers and for providing funding for contracted services. These operating procedures must be adopted by resolution prior to the authority operating the applicable programs.

(2) The general operating plan must include, but is not limited to: (a) Appropriate minimum reserve requirements to secure the authority’s financial stability; (b) appropriate standards for contracting for services; and (c) standards for service.

(3) The board shall conduct at least one public hearing on the general operating plan prior to its adoption. The authority shall provide and make public a written response to all comments received by the public.

(4) The general operating plan must be adopted by resolution of the board. The board may periodically update the general operating plan as necessary, but must update the plan no less than once every four years. The general operating plan or updated plan must include a report on authority activities conducted since the commencement of authority operation or since the last reported general operating plan, whichever is more recent, including a statement of results achieved under the purposes of this chapter and the general operating plan. Upon adoption, the authority shall conduct its programs in observance of the objectives established in the general operating plan. [2006 c 183 § 33.]

70.95N.330 Authority employees—Initial staff support—Authority powers. (1) The authority shall employ a chief executive officer, appointed by the board, and a chief financial officer, as well as professional, technical, and support staff, appointed by the chief executive officer, necessary to carry out its duties.

(2) Employees of the authority are not classified employees of the state. Employees of the authority are exempt from state service rules and may receive compensation only from the authority at rates competitive with state service.

(3) The authority may retain its own legal counsel.

(4) The departments of ecology and community, trade, and economic development shall provide staff to assist in the creation of the authority. If requested by the authority, the departments of ecology and community, trade, and economic development shall also provide start-up support staff to the authority for its first twelve months of operation, or part thereof, to assist in the quick establishment of the authority.

Staff expenses must be paid through funds collected by the authority and must be reimbursed to the departments from the authority’s financial resources within the first twenty-four months of operation.

(5) In addition to accomplishing the activities specifically authorized in this chapter, the authority may:

(a) Maintain an office or offices;

(b) Make and execute all manner of contracts, agreements, and instruments and financing documents with public and private parties as the authority deems necessary, useful, or convenient to accomplish its purposes;

(c) Make expenditures as appropriate for paying the administrative costs and expenses of the authority in carrying out the provisions of this chapter;

(d) Give assistance to private and public bodies contracted to provide collection, transportation, and recycling services by providing information, guidelines, forms, and procedures for implementing their programs;

(e) Delegate, through contract, any of its powers and duties if consistent with the purposes of this chapter; and

(f) Exercise any other power the authority deems necessary, useful, or convenient to accomplish its purposes and exercise the powers expressly granted in this chapter. [2006 c 183 § 34.]

70.95N.340 Federal preemption. This chapter is void if a federal law, or a combination of federal laws, takes effect that establishes a national program for the collection and recycling of covered electronic products that substantially meets the intent of this chapter, including the creation of a financing mechanism for collection, transportation, and recycling of all covered electronic products from households, small businesses, school districts, small governments, and charities in the United States. [2006 c 183 § 35.]

70.95N.900 Construction—2006 c 183. This act must be liberally construed to carry out its purposes and objectives. [2006 c 183 § 38.]

70.95N.901 Severability—2006 c 183. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected. [2006 c 183 § 39.]

70.95N.902 Effective date—2006 c 183. This act takes effect July 1, 2006. [2006 c 183 § 40.]

Alcoholism and drug addiction and support act: Chapter 74.50 RCW.

Court files and records closed—Exceptions: RCW 71.05.620.

Declaratory act. It is the policy of this state that alcoholics and intoxicated persons may not be subjected to criminal prosecution solely because of their consumption of alcoholic beverages but rather should, within available funds, be afforded a continuum of treatment in order that they may lead normal lives as productive members of society. Within available funds, treatment should also be provided for drug addicts. [1989 c 271 § 304; 1972 ex.s. c 122 § 1.]

70.96A.011 Legislative finding and intent—Purpose of chapter. The legislature finds that the use of alcohol and other drugs has become a serious threat to the health of the citizens of the state of Washington. The use of psychoactive chemicals has been found to be a prime factor in the current AIDS epidemic. Therefore, a comprehensive statute to deal with alcoholism and other drug addiction is necessary.

The legislature agrees with the 1987 resolution of the American Medical Association that endorses the proposition that all chemical dependencies, including alcoholism, are diseases. It is the intent of the legislature to end the sharp distinctions between alcoholism services and other drug addiction services, to recognize that chemical dependency is a disease, and to insure that prevention and treatment services are available and are of high quality. It is the purpose of this chapter to provide the financial assistance necessary to enable the department of social and health services to provide a discrete program of alcoholism and other drug addiction services. [1989 c 270 § 1.]

70.96A.020 Definitions. For the purposes of this chapter the following words and phrases shall have the following meanings unless the context clearly requires otherwise:

(12) "Gravely disabled by alcohol or other psychoactive chemicals" or "gravely disabled" means that a person, as a result of the use of alcohol or other psychoactive chemicals:

(a) Is in danger of serious physical harm resulting from a failure to provide for his or her essential human needs of health or safety; or (b) manifests severe deterioration in routine functioning evidenced by a repeated and escalating loss of cognition or volitional control over his or her actions and is not receiving care as essential for his or her health or safety.

(20) "Minor" means a person less than eighteen years of age.
other drugs may not require involuntary treatment, but still are not adequately served. These children remain at risk for future chemical dependency, and may become mentally ill or a juvenile offender or need out-of-home placement. Children placed at risk because of chemical abuse may be better served by the creation of a comprehensive integrated system for children in crisis.

The legislature declares that an emphasis on the treatment of youth will pay the largest dividend in terms of preventable costs to individuals themselves, their families, and to society. The provision of augmented involuntary alcohol treatment services to youths, as well as involuntary treatment for youths addicted by other drugs, is in the interest of the public health and safety." [1991 c 364 § 7.]

Construction—1991 c 364 §§ 7-12: "The purpose of sections 7 through 12 of this act is solely to provide authority for the involuntary commitment of minors addicted by drugs within available funds and current programs and facilities. Nothing in sections 7 through 12 of this act shall be construed to require the addition of new facilities nor affect the department’s authority for the uses of existing programs and facilities authorized by law. Nothing in sections 7 through 12 of this act shall prevent a parent or guardian from requesting the involuntary commitment of a minor through a county designated chemical dependency specialist on an ability to pay basis." [1991 c 364 § 13.]

Conflict with federal requirements—1991 c 364: "If any part of this act is found to be in conflict with federal requirements that are a prescribed condition to the allocation of federal funds to the state, the conflicting part of this act is inoperative solely to the extent of the conflict and with respect to the agencies directly affected, and this finding does not affect the operation of the remainder of this act in its application to the agencies concerned. The rules under this act shall meet federal requirements that are a necessary condition to the receipt of federal funds by the state." [1991 c 364 § 15.]

70.96A.030 Chemical dependency program. A discrete program of chemical dependency is established within the department of social and health services, to be administered by a qualified person who has training and experience in handling alcoholism and other drug addiction problems or the organization or administration of treatment services for persons suffering from alcoholism or other drug addiction problems. 70.96A.070 Citizens advisory council—Qualifications—Duties—Rules and policies. Pursuant to the provisions of RCW 43.20A.360, there shall be a citizens advisory council composed of not less than seven nor more than fifteen members. It is the intent of the legislature that the citizens advisory council broadly represent citizens who have been recipients of voluntary or involuntary treatment for alcoholism or other drug addiction and who have been in recovery from chemical dependency for a minimum of two years. To meet this intent, at least two-thirds of the council’s members shall be former recipients of these services and not employed in an occupation relating to alcoholism or drug addiction. The remaining members shall be broadly representative of the community, shall include representation from business and industry, organized labor, the judiciary, and minority groups, chosen for their demonstrated concern with alcoholism and other drug addiction problems. Members shall be appointed by the secretary. In addition to advising the department in carrying out the purposes of this chapter, the council shall develop and propose to the secretary for his or her consideration the rules for the implementation of the chemical dependency program of the department. Rules and policies governing treatment programs shall be developed in collaboration among the council, department staff, local government, and administrators of voluntary and involuntary treatment programs. The secretary shall thereafter adopt such rules that, in his or her judgment properly implement the chemical dependency program of the department consistent with the welfare of those to be served, the legislative intent, and the public good. 70.96A.080 Comprehensive program for treatment—Regional facilities. (1) The department shall establish by all appropriate means, including contracting for services, a comprehensive and coordinated discrete program for the treatment of alcoholics and other drug addicts and their families, persons incapacitated by alcohol or other psychoactive chemicals, and intoxicated persons.

(2) The program shall include, but not necessarily be limited to:

(a) Detoxification;
(b) Residential treatment; and
(c) Outpatient treatment.

(3) All appropriate public and private resources shall be coordinated with and used in the program when possible.

(4) The department may contract for the use of an approved treatment program or other individual or organization if the secretary considers this to be an effective and economical course to follow. [1989 c 270 § 18; 1972 ex.s. c 122 § 8.]

70.96A.085 City, town, or county without facility—Contribution of liquor taxes prerequisite to use of another’s facility. A city, town, or county that does not have its own facility or program for the treatment and rehabilitation of alcoholics and other drug addicts may share in the use of a facility or program maintained by another city or county so long as it contributes no less than two percent of its share of liquor taxes and profits to the support of the facility or program. [1989 c 270 § 12.]

70.96A.087 Liquor taxes and profits—City and county eligibility conditioned. To be eligible to receive its share of liquor taxes and profits, each city and county shall devote no less than two percent of its share of liquor taxes and profits to the support of a program of alcoholism and other drug addiction approved by the alcoholism and other drug addiction board authorized by RCW 70.96A.300 and the secretary. [1989 c 270 § 13.]

70.96A.090 Standards for treatment programs—Enforcement procedures—Penalties—Evaluation of treatment of children—Treatment during pregnancy. (1) The department shall adopt rules establishing standards for approved treatment programs, the process for the review and inspection program applying to the department for certification as an approved treatment program, and fixing the fees to be charged by the department for the required inspections. The standards may concern the health standards to be met and standards of services and treatment to be afforded patients.

(2) The department may suspend, revoke, limit, restrict, or modify an approval, or refuse to grant approval, for failure to meet the provisions of this chapter, or the standards adopted under this chapter. RCW 43.20A.205 governs notice of a license denial, revocation, suspension, or modification and provides the right to an adjudicative proceeding.

(3) No treatment program may advertise or represent itself as an approved treatment program if approval has not been granted, has been denied, suspended, revoked, or canceled.

(4) Certification as an approved treatment program is effective for one calendar year from the date of issuance of the certificate. The certification shall specify the types of services provided by the approved treatment program that meet the standards adopted under this chapter. Renewal of certification shall be made in accordance with this section for initial approval and in accordance with the standards set forth in rules adopted by the secretary.

(5) Approved treatment programs shall not provide alcoholism or other drug addiction treatment services for which the approved treatment program has not been certified. Approved treatment programs may provide services for which approval has been sought and is pending, if approval for the services has not been previously revoked or denied.

(6) The department periodically shall inspect approved public and private treatment programs at reasonable times and in a reasonable manner.
(7) The department shall maintain and periodically publish a current list of approved treatment programs.

(8) Each approved treatment program shall file with the department on request, data, statistics, schedules, and information the department reasonably requires. An approved treatment program that without good cause fails to furnish any data, statistics, schedules, or information as requested, or files fraudulent returns thereof, may be removed from the list of approved treatment programs, and its certification revoked or suspended.

(9) The department shall use the data provided in subsection (8) of this section to evaluate each program that admits children to inpatient treatment upon application of their parents. The evaluation shall be done at least once every twelve months. In addition, the department shall randomly select and review the information on individual children who are admitted on application of the child’s parent for the purpose of determining whether the child was appropriately placed into treatment based on an objective evaluation of the child’s condition and the outcome of the child’s treatment.

(10) Upon petition of the department and after a hearing held upon reasonable notice to the facility, the superior court may issue a warrant to an officer or employee of the department authorizing him or her to enter and inspect at reasonable times, and examine the books and accounts of, any approved public or private treatment program refusing to consent to inspection or examination by the department or which the department has reasonable cause to believe is operating in violation of this chapter.

(11)(a) All approved opiate substitution treatment programs that provide services to women who are pregnant are required to disseminate up-to-date and accurate health education information to all their pregnant clients concerning the possible addiction and health risks that their opiate substitution treatment may have on their baby. All pregnant clients must also be advised of the risks to both them and their baby associated with not remaining on the opiate substitute program. The information must be provided to these clients both verbally and in writing. The health education information provided to the pregnant clients must include referral options for the addicted baby.

(b) The department shall adopt rules that require all opiate treatment programs to educate all pregnant women in their program on the benefits and risks of methadone treatment to their fetus before they are provided these medications, as part of their addiction treatment. The department shall meet the requirements under this subsection within the appropriations provided for opiate treatment programs. The department, working with treatment providers and medical experts, shall develop and disseminate the educational materials to all certified opiate treatment programs. [2005 c 70 § 2; 1995 c 312 § 46; 1990 c 151 § 5. Prior: 1989 c 270 § 19; 1989 c 175 § 131; 1972 ex.s. c 122 § 9.]

Findings—Intent—2005 c 70: "The legislature finds that drug use among pregnant women is a significant and growing concern statewide. The legislature further finds that methadone, although an effective alternative to other substance use treatments, can result in babies who are exposed to methadone while in uteri being born addicted and facing the painful effects of withdrawal. It is the intent of the legislature to notify all pregnant mothers who are receiving methadone treatment of the risks and benefits methadone could have on their baby during pregnancy through birth and to inform them of the potential need for the newborn baby to be taken care of in a hospital setting or in a specialized supportive environment designed specifically to address newborn addiction problems." [2005 c 70 § 1.]

70.96A.095 Age of consent—Outpatient treatment of minors for chemical dependency. Any person thirteen years of age or older may give consent for himself or herself to the furnishing of outpatient treatment by a chemical dependency treatment program certified by the department. Parental authorization is required for any treatment of a minor under the age of thirteen. [1998 c 296 § 23; 1996 c 133 § 34; 1995 c 312 § 47; 1991 c 364 § 9; 1989 c 270 § 24.]

Short title—1995 c 312: See note following RCW 13.32A.010.

Findings—Construction—Conflict with federal requirements—1991 c 364: See notes following RCW 70.96A.020.

70.96A.096 Notice to parents, school contacts for referring students to inpatient treatment. School district personnel who contact a chemical dependency inpatient treatment program or provider for the purpose of referring a student to inpatient treatment shall provide the parents with notice of the contact within forty-eight hours. [1996 c 133 § 5.]

70.96A.097 Review of admission and inpatient treatment of minors—Determination of medical necessity—Department review—Minor declines necessary treatment—At-risk youth petition—Costs—Public funds. (1) The department shall ensure that, for any minor admitted to inpatient treatment under RCW 70.96A.245, a review is conducted by a physician or chemical dependency counselor, as defined in rule by the department, who is employed by the department or an agency under contract with the department and who neither has a financial interest in continued inpatient treatment of the minor nor is affiliated with the program providing the treatment. The physician or chemical dependency counselor shall conduct the review not less than seven nor more than fourteen days following the date the minor was brought to the facility under RCW 70.96A.245(1) to determine whether it is a medical necessity to continue the minor’s treatment on an inpatient basis.

(2) In making a determination under subsection (1) of this section whether it is a medical necessity to release the minor from inpatient treatment, the department shall consider the opinion of the treatment provider, the safety of the minor, the likelihood the minor’s chemical dependency recovery will deteriorate if released from inpatient treatment, and the wishes of the parent.

(3) If, after any review conducted by the department under this section, the department determines it is no longer a medical necessity for a minor to receive inpatient treatment, the department shall immediately notify the parents and the professional person in charge. The professional person in
charge shall release the minor to the parents within twenty-four hours of receiving notice. If the professional person in charge and the parent believe that it is a medical necessity for the minor to remain in inpatient treatment, the minor shall be released to the parent on the second judicial day following the department’s determination in order to allow the parent time to file an at-risk youth petition under chapter 13.32A RCW. If the department determines it is a medical necessity for the minor to receive outpatient treatment and the minor declines to obtain such treatment, such refusal shall be grounds for the parent to file an at-risk youth petition.

(4) The department may, subject to available funds, contract with other governmental agencies for the conduct of the reviews conducted under this section and may seek reimbursement from the parents, their insurance, or medicare for the expense of any review conducted by an agency under contract.

(5) In addition to the review required under this section, the department may periodically determine and redetermine the medical necessity of treatment for purposes of payment with public funds.  [1998 c 296 § 28; 1995 c 312 § 48.]

Short title—1995 c 312: See note following RCW 13.32A.010.

70.96A.100 Acceptance for approved treatment—Rules. The secretary shall adopt and may amend and repeal rules for acceptance of persons into the approved treatment program, considering available treatment resources and facilities, for the purpose of early and effective treatment of alcoholics and other drug addicts, persons incapacitated by alcohol or other psychoactive chemicals, and intoxicated persons. In establishing the rules, the secretary shall be guided by the following standards:

(1) If possible a patient shall be treated on a voluntary rather than an involuntary basis.

(2) A patient shall be initially assigned or transferred to outpatient treatment, unless he or she is found to require residential treatment.

(3) A person shall not be denied treatment solely because he or she has withdrawn from treatment against medical advice on a prior occasion or because he or she has relapsed after earlier treatment.

(4) An individualized treatment plan shall be prepared and maintained on a current basis for each patient.

(5) Provision shall be made for a continuum of coordinated treatment services, so that a person who leaves a facility or a form of treatment will have available and use other appropriate treatment.  [1989 c 270 § 23; 1972 ex.s. c 122 § 10.]

70.96A.110 Voluntary treatment of alcoholics or other drug addicts. (1) An alcoholic or other drug addict may apply for voluntary treatment directly to an approved treatment program. If the proposed patient is a minor or an incompetent person, he or she, a parent, a legal guardian, or other legal representative may make the application.

(2) Subject to rules adopted by the secretary, the administrator in charge of an approved treatment program may determine who shall be admitted for treatment. If a person is refused admission to an approved treatment program, the administrator, subject to rules adopted by the secretary, shall refer the person to another approved treatment program for treatment if possible and appropriate.

(3) If a patient receiving inpatient care leaves an approved treatment program, he or she shall be encouraged to consent to appropriate outpatient treatment. If it appears to the administrator in charge of the treatment program that the patient is an alcoholic or other drug addict who requires help, the department may arrange for assistance in obtaining supportive services and residential programs.

(4) If a patient leaves an approved public treatment program, with or against the advice of the administrator in charge of the program, the department may make reasonable provisions for his or her transportation to another program or to his or her home. If the patient has no home he or she should be assisted in obtaining shelter. If the patient is less than fourteen years of age or an incompetent person the request for discharge from an inpatient program shall be made by a parent, legal guardian, or other legal representative or by the minor or incompetent if he or she was the original applicant.  [1990 c 151 § 7; 1989 c 270 § 25; 1972 ex.s. c 122 § 11.]

70.96A.120 Treatment programs and facilities—Admissions—Peace officer duties—Protective custody.

(1) An intoxicated person may come voluntarily to an approved treatment program for treatment. A person who appears to be intoxicated in a public place and to be in need of help, if he or she consents to the proffered help, may be assisted to his or her home, an approved treatment program or other health facility.

(2) Except for a person who may be apprehended for possible violation of laws not relating to alcoholism, drug addiction, or intoxication and except for a person who may be apprehended for possible violation of laws relating to driving or being in physical control of a vehicle while under the influence of intoxicating liquor or any drug and except for a person who may wish to avail himself or herself of the provisions of RCW 46.20.308, a person who appears to be incapacitated or gravely disabled by alcohol or other drugs and who is in a public place or who has threatened, attempted, or inflicted physical harm on himself, herself, or another, shall be taken into protective custody by a peace officer or staff designated by the county, as soon as practicable, but in no event beyond eight hours brought to an approved treatment program for treatment. If no approved treatment program is readily available he or she shall be taken to an emergency medical service customarily used for incapacitated persons.

The peace officer or staff designated by the county, in detaining the person and in taking him or her to an approved treatment program, is taking him or her into protective custody and shall make every reasonable effort to protect his or her health and safety. In taking the person into protective custody, the detaining peace officer or staff designated by the county may take reasonable steps including reasonable force if necessary to protect himself or herself or effect the custody. A taking into protective custody under this section is not an arrest. No entry or other record shall be made to indicate that the person has been arrested or charged with a crime.

(3) A person who comes voluntarily or is brought to an approved treatment program shall be examined by a qualified person. He or she may then be admitted as a patient or
referred to another health facility, which provides emergency medical treatment, where it appears that such treatment may be necessary. The referring approved treatment program shall arrange for his or her transportation.

(4) A person who is found to be incapacitated or gravely disabled by alcohol or other drugs at the time of his or her admission or to have become incapacitated or gravely disabled at any time after his or her admission, may not be detained at the program for more than seventy-two hours after admission as a patient, unless a petition is filed under RCW 70.96A.140, as now or hereafter amended: PROVIDED, That the treatment personnel at an approved treatment program are authorized to use such reasonable physical restraint as may be necessary to retain an incapacitated or gravely disabled person for up to seventy-two hours from the time of admission. The seventy-two hour periods specified in this section shall be computed by excluding Saturdays, Sundays, and holidays. A person may consent to remain in the program as long as the physician in charge believes appropriate.

(5) A person who is not admitted to an approved treatment program, is not referred to another health facility, and has no funds, may be taken to his or her home, if any. If he or she has no home, the approved treatment program shall provide him or her with information and assistance to access available community shelter resources.

(6) If a patient is admitted to an approved treatment program, his or her family or next of kin shall be notified as promptly as possible by the treatment program. If an adult patient who is not incapacitated requests that there be no notification, his or her request shall be respected.

(7) The peace officer, staff designated by the county, or treatment facility personnel, who act in compliance with this chapter and are performing in the course of their official duty are not criminally or civilly liable therefor.

(8) If the person in charge of the approved treatment program determines that appropriate treatment is available, the patient shall be encouraged to agree to further diagnosis and appropriate voluntary treatment. [1991 c 290 § 6; 1990 c 151 § 8; 1989 c 271 § 306; 1987 c 439 § 13; 1977 ex.s. c 62 § 1; 1974 ex.s. c 175 § 1; 1972 ex.s. c 122 § 12.]

70.96A.140 Involuntary commitment. (1) When a designated chemical dependency specialist receives information alleging that a person presents a likelihood of serious harm or is gravely disabled as a result of chemical dependency, the designated chemical dependency specialist, after investigation and evaluation of the specific facts alleged and of the reliability and credibility of the information, may file a petition for commitment of such person with the superior court, district court, or in another court permitted by court rule.

If a petition for commitment is not filed in the case of a minor, the parent, guardian, or custodian who has custody of the minor may seek review of that decision made by the designated chemical dependency specialist in superior or district court. The parent, guardian, or custodian shall file notice with the court and provide a copy of the designated chemical dependency specialist’s report.

If the designated chemical dependency specialist finds that the initial needs of such person would be better served by placement within the mental health system, the person shall be referred to either a county designated mental health professional or an evaluation and treatment facility as defined in RCW 71.05.020 or 71.34.020. If placement in a chemical dependency program is available and deemed appropriate, the petition shall allege that: The person is chemically dependent and presents a likelihood of serious harm or is gravely disabled by alcohol or drug addiction, or that the person has twice before in the preceding twelve months been admitted for detoxification, sobering services, or chemical dependency treatment pursuant to RCW 70.96A.110 or 70.96A.120, and is in need of a more sustained treatment program, or that the person is chemically dependent and has threatened, attempted, or inflicted physical harm on another and is likely to inflict physical harm on another unless committed. A refusal to undergo treatment, by itself, does not constitute evidence of lack of judgment as to the need for treatment. The petition shall be accompanied by a certificate of a licensed physician who has examined the person within five days before submission of the petition, unless the person whose commitment is sought has refused to submit to a medical examination, in which case the fact of refusal shall be alleged in the petition. The certificate shall set forth the licensed physician’s findings in support of the allegations of the petition. A physician employed by the petitioning program or the department is eligible to be the certifying physician.

(2) Upon filing the petition, the court shall fix a date for a hearing no less than two and no more than seven days after the date the petition was filed unless the person petitioned against is presently being detained in a program, pursuant to RCW 70.96A.120, 71.05.210, or **71.34.050, in which case the hearing shall be held within seventy-two hours of the filing of the petition: PROVIDED, HOWEVER, That the above specified seventy-two hours shall be computed by excluding Saturdays, Sundays, and holidays: PROVIDED FURTHER, That, the court may, upon motion of the person whose commitment is sought, or upon motion of petitioner with written permission of the person whose commitment is sought, or his or her counsel and, upon good cause shown, extend the date for the hearing. A copy of the petition and of the notice of the hearing, including the date fixed by the court, shall be served by the designated chemical dependency specialist on the person whose commitment is sought, his or her next of kin, a parent or his or her legal guardian if he or she is a minor, and any other person the court believes advisable. A copy of the petition and certificate shall be delivered to each person notified.

(3) At the hearing the court shall hear all relevant testimony, including, if possible, the testimony, which may be telephonic, of at least one licensed physician who has examined the person whose commitment is sought. Communications otherwise deemed privileged under the laws of this state are deemed to be waived in proceedings under this chapter when a court of competent jurisdiction in its discretion determines that the waiver is necessary to protect either the detained person or the public. The waiver of a privilege under this section is limited to records or testimony relevant to evaluation of the detained person for purposes of a proceeding under this chapter. Upon motion by the detained person, or on
its own motion, the court shall examine a record or testimony sought by a petitioner to determine whether it is within the scope of the waiver.

The record maker shall not be required to testify in order to introduce medical, nursing, or psychological records of detained persons so long as the requirements of RCW 5.45.020 are met, except that portions of the record that contain opinions as to whether the detained person is chemically dependent shall be deleted from the records unless the person offering the opinions is available for cross-examination. The person shall be present unless the court believes that his or her presence is likely to be injurious to him or her; in this event the court may deem it appropriate to appoint a guardian ad litem to represent him or her throughout the proceeding. If deemed advisable, the court may examine the person out of courtroom. If the person has refused to be examined by a licensed physician, he or she shall be given an opportunity to be examined by a court appointed licensed physician. If he or she refuses and there is sufficient evidence to believe that the allegations of the petition are true, or if the court believes that more medical evidence is necessary, the court may make a temporary order committing him or her to the department for a period of not more than five days for purposes of a diagnostic examination.

(4) If after hearing all relevant evidence, including the results of any diagnostic examination, the court finds that grounds for involuntary commitment have been established by clear, cogent, and convincing proof, it shall make an order of commitment to an approved treatment program. It shall not order commitment of a person unless it determines that an approved treatment program is available and able to provide adequate and appropriate treatment for him or her.

(5) A person committed under this section shall remain in the program for treatment for a period of sixty days unless sooner discharged. At the end of the sixty-day period, he or she shall be discharged automatically unless the program, before expiration of the period, files a petition for his or her recommitment upon the grounds set forth in subsection (1) of this section for a further period of ninety days unless sooner discharged.

If a petition for recommitment is not filed in the case of a minor, the parent, guardian, or custodian who has custody of the minor may seek review of that decision made by the designated chemical dependency specialist in superior or district court. The parent, guardian, or custodian shall file notice with the court and provide a copy of the treatment progress report.

If a person has been committed because he or she is chemically dependent and likely to inflict physical harm on another, the program shall apply for recommitment if after examination it is determined that the likelihood still exists.

(6) Upon the filing of a petition for recommitment under subsection (5) of this section, the court shall fix a date for hearing no less than two and no more than seven days after the date the petition was filed: PROVIDED, That, the court may, upon motion of the person whose commitment is sought and upon good cause shown, extend the date for the hearing. A copy of the petition and of the notice of hearing, including the date fixed by the court, shall be served by the treatment program on the person whose commitment is sought, his or her next of kin, the original petitioner under subsection (1) of this section if different from the petitioner for recommitment, one of his or her parents or his or her legal guardian if he or she is a minor, and his or her attorney and any other person the court believes advisable. At the hearing the court shall proceed as provided in subsection (3) of this section.

(7) The approved treatment program shall provide for adequate and appropriate treatment of a person committed to its custody. A person committed under this section may be transferred from one approved public treatment program to another if transfer is medically advisable.

(8) A person committed to the custody of a program for treatment shall be discharged at any time before the end of the period for which he or she has been committed and he or she shall be discharged by order of the court if either of the following conditions are met:

(a) In case of a chemically dependent person committed on the grounds of likelihood of infliction of physical harm upon himself, herself, or another, the likelihood no longer exists; or further treatment will not be likely to bring about significant improvement in the person’s condition, or treatment is no longer adequate or appropriate.

(b) In case of a chemically dependent person committed on the grounds of the need of treatment and incapacity, that the incapacity no longer exists.

(9) The court shall inform the person whose commitment or recommitment is sought of his or her right to contest the application, be represented by counsel at every stage of any proceedings relating to his or her commitment and recommitment, and have counsel appointed by the court or provided by the court, if he or she wants the assistance of counsel and is unable to obtain counsel. If the court believes that the person needs the assistance of counsel, the court shall require, by appointment if necessary, counsel for him or her regardless of his or her wishes. The person shall, if he or she is financially able, bear the costs of such legal service; otherwise such legal service shall be at public expense. The person whose commitment or recommitment is sought shall be informed of his or her right to be examined by a licensed physician of his or her choice. If the person is unable to obtain a licensed physician and requests examination by a physician, the court shall employ a licensed physician.

(10) A person committed under this chapter may at any time seek to be discharged from commitment by writ of habeas corpus in a court of competent jurisdiction.

(11) The venue for proceedings under this section is the county in which person to be committed resides or is present.

(12) When in the opinion of the professional person in charge of the program providing involuntary treatment under this chapter, the committed patient can be appropriately served by less restrictive treatment before expiration of the period of commitment, then the less restrictive care may be required as a condition for early release for a period which, when added to the initial treatment period, does not exceed the period of commitment. If the program designated to provide the less restrictive treatment is other than the program providing the initial involuntary treatment, the program so designated must agree in writing to assume responsibility. A copy of the conditions for early release shall be given to the patient, the designated chemical dependency specialist of original commitment, and the court of original commitment. The program designated to provide less restrictive care
may modify the conditions for continued release when the modifications are in the best interests of the patient. If the program providing less restrictive care and the designated chemical dependency specialist determine that a conditionally released patient is failing to adhere to the terms and conditions of his or her release, or that substantial deterioration in the patient’s functioning has occurred, then the designated chemical dependency specialist shall notify the court of original commitment and request a hearing to be held no less than two and no more than seven days after the date of the request to determine whether or not the person should be returned to more restrictive care. The designated chemical dependency specialist shall file a petition with the court stating the facts substantiating the need for the hearing along with the treatment recommendations. The patient shall have the same rights with respect to notice, hearing, and counsel as for the original involuntary treatment proceedings. The issues to be determined at the hearing are whether the conditionally released patient did or did not adhere to the terms and conditions of his or her release to less restrictive care or that substantial deterioration of the patient’s functioning has occurred and whether the conditions of release should be modified or the person should be returned to a more restrictive program. The hearing may be waived by the patient and his or her counsel and his or her guardian or conservator, if any, but may not be waived unless all such persons agree to the waiver. Upon waiver, the person may be returned for involuntary treatment or continued on conditional release on the same or modified conditions. 2. When an offender is under court-ordered treatment in the community and the supervision of the department of corrections, and the treatment provider becomes aware that the person is in violation of the terms of the court order, the treatment provider shall notify the designated chemical dependency specialist of the violation and request an evaluation for purposes of revocation of the conditional release.

3. When a designated chemical dependency specialist becomes aware that an offender who is under court-ordered treatment in the community and the supervision of the department of corrections is in violation of a treatment order or a condition of supervision that relates to public safety, or the designated chemical dependency specialist detains a person under this chapter, the designated chemical dependency specialist shall notify the person’s treatment provider and the department of corrections.

4. ### 70.96A.150 Records of alcoholics and intoxicated persons

1. The registration and other records of treatment
programs shall remain confidential. Records may be disclosed (a) in accordance with the prior written consent of the patient with respect to whom such record is maintained, (b) if authorized by an appropriate order of a court of competent jurisdiction granted after application showing good cause, (c) to comply with state laws mandating the reporting of suspected child abuse or neglect, or (d) when a patient commits a crime on program premises or against program personnel, or threatens to do so.

Information under this subsection shall not be published in a way that discloses patients’ names or otherwise discloses their identities.

(3) Nothing contained in this chapter relieves a person or firm from the requirements under federal regulations for the confidentiality of alcohol and drug abuse patient records. Obligations imposed on drug and alcohol treatment programs and protections afforded alcohol and drug abuse patients under federal regulations apply to all programs approved by the department under RCW 70.96A.090. Upon a petition by a person who does not have a history of one or more violent acts, as defined in RCW 71.05.020, the court may, for good cause, find that public safety would not be enhanced by the sharing of this person’s information. If the person is in treatment on July 1, 2005, and the treatment provider has not inquired whether the person is subject to court ordered mental health or chemical dependency treatment, the treatment provider shall inquire on the person’s next treatment session and document the person’s response in his or her record.

(2) Treatment providers shall inquire of each person seeking treatment, at intake, whether the person is subject to supervision of any kind by the department of corrections and document the person’s response in his or her record. (3) For all persons who are subject to both court ordered mental health or chemical dependency treatment and supervision by the department of corrections, the treatment provider shall request an authorization to release records and notify the person that, unless expressly excluded by the court order the law requires treatment providers to share information with the department of corrections and the person’s mental health treatment provider.

(4) If the treatment provider has reason to believe that a person is subject to supervision by the department of corrections but the person’s record does not indicate that he or she is, the treatment provider may call any department of corrections office and provide the person’s name and birth date. If the person is subject to supervision, the treatment provider shall request, and the department of corrections shall provide, the name and contact information for the person’s community corrections officer. penalty or sanction.

(2) No county, municipality, or other political subdivi-
sion may interpret or apply any law of general application to
circumvent the provision of subsection (1) of this section.

(3) Nothing in this chapter affects any law, ordinance,
resolution, or rule against drunken driving, driving under the
influence of alcohol or other psychoactive chemicals, or other
similar offense involving the operation of a vehicle, aircraft,
boat, machinery, or other equipment, or regarding the sale,
purchase, dispensing, possessing, or use of alcoholic bever-
eges or other psychoactive chemicals at stated times and
places or by a particular class of persons; nor shall evidence

necessitates additional time for evaluation. In no event shall a
minor be held longer than seventy-two hours for evaluation.
If, in the judgment of the professional person, it is determined
it is a medical necessity for the minor to receive inpatient
treatment, the minor may be held for treatment. The facility

Moneys in the account may be expended solely for: (a) Substance abuse treatment and treatment support services for offenders with an addiction or a substance abuse problem that, if not treated, would result in addiction, against whom charges are filed by a prosecuting attorney in Washington state; (b) the provision of drug and alcohol treatment services and treatment support services for nonviolent offenders within a drug court program; and (c) during the 2007-2009 biennium, operation of the integrated crisis response and intensive case management pilots contracted with the department of social and health services division of alcohol and substance abuse. Moneys in the account may be spent only after appropriation.

(2) For purposes of this section:

(b) “Treatment support” means transportation to or from inpatient or outpatient treatment services when no viable alternative exists, and child care services that are necessary to ensure a participant’s ability to attend outpatient treatment sessions.

(3) Revenues to the criminal justice treatment account consist of: (a) Funds transferred to the account pursuant to
(4)(a) For the fiscal biennium beginning July 1, 2003, the state treasurer shall transfer eight million nine hundred fifty thousand dollars from the general fund to the criminal justice treatment account, divided into eight equal quarterly payments. For the fiscal year beginning July 1, 2006, and each subsequent fiscal year, the amount transferred shall be increased on an annual basis by the implicit price deflator as published by the federal bureau of labor statistics.

(b) For the fiscal biennium beginning July 1, 2003, and each biennium thereafter, the state treasurer shall transfer two million nine hundred eighty-four thousand dollars from the general fund into the violence reduction and drug enforcement account, divided into eight quarterly payments. The amounts transferred pursuant to this subsection (4)(b) shall be used solely for providing drug and alcohol treatment services to offenders confined in a state correctional facility who are assessed with an addiction or a substance abuse problem that if not treated would result in addiction.

(c) In each odd-numbered year, the legislature shall appropriate the amount transferred to the criminal justice treatment account in (a) of this subsection to the division of alcohol and substance abuse for the purposes of subsection (5) of this section.

(5) Moneys appropriated to the division of alcohol and substance abuse from the criminal justice treatment account shall be distributed as specified in this subsection. The department shall serve as the fiscal agent for purposes of distribution. Until July 1, 2004, the department may not use moneys appropriated from the criminal justice treatment account for administrative expenses and shall distribute all amounts appropriated under subsection (4)(c) of this section in accordance with this subsection. County or regional plans submitted for the expenditure of formula funds must be approved by the panel established in (b) of this subsection.

The panel shall review county or regional plans for funding under (a) of this subsection and grants approved under this subsection. The panel shall attempt to ensure that treatment as funded by the grants is available to offenders statewide.

(6) The county alcohol and drug coordinator, county prosecutor, county sheriff, county superior court, a substance abuse treatment provider appointed by the county legislative authority, a member of the criminal defense bar appointed by the county legislative authority, and, in counties with a drug court, a representative of the drug court shall jointly submit a plan, approved by the county legislative authority or authorities, to the panel established in subsection (5)(b) of this section, for disposition of all the funds provided from the criminal justice treatment account within that county. The funds shall be used solely to provide approved alcohol and substance abuse treatment pursuant to RCW 70.96A.090 and treatment support services. No more than ten percent of the total moneys received under subsections (4) and (5) of this section by a county or group of counties participating in a regional agreement shall be spent for treatment support services.

*70.96A.400 Opiate substitution treatment—Declaration of regulation by state. The state of Washington declares that there is no fundamental right to opiate substitution treatment. The state of Washington further declares that while opiate substitution drugs used in the treatment of opiate dependency are addictive substances, that they nevertheless have several legal, important, and justified uses and that one of their appropriate and legal uses is, in conjunction with other required therapeutic procedures, in the treatment of persons addicted to or habituated to opioids. Opiate substitution...*
treatment should only be used for participants who are deemed appropriate to need this level of intervention and should not be the first treatment intervention for all opiate addicts.

Because opiate substitution drugs, used in the treatment of opiate dependency are addictive and are listed as a Schedule II controlled substance in chapter 69.50 RCW, the state of Washington has the legal obligation and right to regulate the use of opiate substitution treatment. The state of Washington declares its authority to control and regulate carefully, in consultation with counties and cities, all clinical uses of opiate substitution drugs used in the treatment of opiate addiction.

Further, the state declares that the primary goal of opiate substitution treatment is total abstinence from chemical dependency for the individuals who participate in the treatment program. The state recognizes that a small percentage of persons who participate in opiate substitution treatment programs require treatment for an extended period of time. Opiate substitution treatment programs shall provide a comprehensive transition program to eliminate chemical dependency, including opiate and opiate substitute addiction of program participants. [2001 c 242 § 1; 1995 c 321 § 1; 1989 c 270 § 20.]

70.96A.410 Opiate substitution treatment—Program certification by department, department duties—Definition of opiate substitution treatment. (1) For purposes of this section, "area" means the county in which an applicant proposes to locate a certified program and counties adjacent, or near to, the county in which the program is proposed to be located.

When making a decision on an application for certification of a program, the department shall:

(a) Consult with the county legislative authorities in the area in which an applicant proposes to locate a program and the city legislative authority in any city in which an applicant proposes to locate a program;

(b) Certify only programs that will be sited in accordance with the appropriate county or city land use ordinances. Counties and cities may require conditional or special use permits with reasonable conditions for the siting of programs. Pursuant to RCW 36.70A.200, no local comprehensive plan or development regulation may preclude the siting of essential public facilities;

(c) Not discriminate in its certification decision on the basis of the corporate structure of the applicant;

(d) Consider the size of the population in need of treatment in the area in which the program would be located and certify only applicants whose programs meet the necessary treatment needs of that population;

(e) Demonstrate a need in the community for opiate substitution treatment and not certify more program slots than justified by the need in that community. No program shall exceed three hundred fifty participants unless specifically authorized by the county in which the program is certified;

(f) Consider the availability of other certified programs near the area in which the applicant proposes to locate the program;

(g) Consider the transportation systems that would provide service to the program and whether the systems will provide reasonable opportunities to access the program for persons in need of treatment;

(h) Consider whether the applicant has, or has demonstrated in the past, the capability to provide the appropriate services to assist the persons who utilize the program in meeting goals established by the legislature, including abstinence from opiates and opiate substitutes, obtaining mental health treatment, improving economic independence, and reducing adverse consequences associated with illegal use of controlled substances. The department shall prioritize certification to applicants who have demonstrated such capability;

(i) Hold at least one public hearing in the county in which the facility is proposed to be located and one hearing in the area in which the facility is proposed to be located. The hearing shall be held at a time and location that are most likely to permit the largest number of interested persons to attend and present testimony. The department shall notify all appropriate media outlets of the time, date, and location of the hearing at least three weeks in advance of the hearing.

(2) A program applying for certification from the department and a program applying for a contract from a state agency that has been denied the certification or contract shall be provided with a written notice specifying the rationale and reasons for the denial.

(3) For the purpose of this chapter, opiate substitution treatment means:

(a) Dispensing an opiate substitution drug approved by the federal drug administration for the treatment of opiate addiction; and

(b) Providing a comprehensive range of medical and rehabilitative services. [2001 c 242 § 2; 1995 c 321 § 2; 1989 c 270 § 21.]

70.96A.420 Statewide treatment and operating standards for opiate substitution programs—Evaluation and report. (1) The department, in consultation with opiate substitution treatment service providers and counties and cities, shall establish statewide treatment standards for certified opiate substitution treatment programs. The department shall enforce these treatment standards. The treatment standards shall include, but not be limited to, reasonable provisions for all appropriate and necessary medical procedures, counseling requirements, urinalysis, and other suitable tests as needed to ensure compliance with this chapter.

(2) The department, in consultation with opiate substitution treatment programs and counties, shall establish statewide operating standards for certified opiate substitution treatment programs. The department shall enforce these operating standards. The operating standards shall include, but not be limited to, reasonable provisions necessary to enable the department and counties to monitor certified and licensed opiate substitution treatment programs for compliance with this chapter and the treatment standards authorized by this chapter and to minimize the impact of the opiate substitution treatment programs upon the business and residential neighborhoods in which the program is located.

(3) The department shall establish criteria for evaluating the compliance of opiate substitution treatment programs with the goals and standards established under this chapter. As a condition of certification, opiate substitution programs shall submit an annual report to the department and county
70.96A.430 Inability to contribute to cost no bar to admission—Department may limit admissions. The department shall not refuse admission for diagnosis, evaluation, guidance or treatment to any applicant because it is determined that the applicant is financially unable to contribute fully or in part to the cost of any services or facilities available under the program on alcoholism.

The department may limit admissions of such applicants or modify its programs in order to ensure that expenditures for services or programs do not exceed amounts appropriated by the legislature and are allocated by the department for such services or programs. The department may establish admission priorities in the event that the number of eligible applicants exceeds the limits set by the department. [1989 c 271 § 308; 1959 c 85 § 15. Formerly RCW 70.96.150.]

Reviser’s note: This section was also repealed by 1989 c 270 § 35, without cognizance of its amendment by 1989 c 271 § 308; and subsequently recodified pursuant to 1993 c 131 § 1. For rule of construction concerning sections amended and repealed in the same legislative session, see RCW 1.12.025.

The University indirect charges shall not exceed ten percent of the total contract amount. The contract shall require the University of Washington fetal alcohol syndrome clinic to provide the following services:

(1) Training for health care staff in community-based fetal alcohol exposure clinics to ensure the accurate diagnosis of individuals with fetal alcohol exposure and the development and implementation of appropriate service referral plans;

(2) Development of written or visual educational materials for the individuals diagnosed with fetal alcohol exposure and their families or caregivers;

(3) Systematic information retrieval from each community clinic to (a) maintain diagnostic accuracy and reliability across all community clinics, (b) facilitate the development of effective and efficient screening tools for population-based identification of individuals with fetal alcohol exposure, (c) facilitate identification of the most clinically efficacious and cost-effective educational, social, vocational, and health service interventions for individuals with fetal alcohol exposure;

(5) Preparation of an annual report for submission to the department of health, the department of social and health services, the department of corrections, and the office of the superintendent of public instruction which includes the information retrieved under subsection (3) of this section. [1998 c 245 § 136; 1995 c 54 § 2.]

Findings—Purpose—1995 c 54: “The legislature finds that fetal alcohol exposure is among the leading known causes of mental retardation in the children of our state. The legislature further finds that individuals with undiagnosed fetal alcohol exposure suffer substantially from secondary disabilities such as child abuse and neglect, separation from families, multiple foster placements, depression, aggression, school failure, juvenile detention, and job instability. These secondary disabilities come at a high cost to the individuals, their family, and society. The legislature finds that these problems can be reduced substantially by early diagnosis and receipt of appropriate, effective intervention.

The purpose of this act is to support current public and private efforts directed at the early identification of and intervention into the problems associated with fetal alcohol exposure through the creation of a fetal alcohol exposure clinical network.” [1995 c 54 § 1.]

70.96A.510 Interagency agreement on fetal alcohol exposure programs. The department of social and health services, the department of health, the department of corrections, and the office of the superintendent of public instruction shall execute an interagency agreement to ensure the coordination of identification, prevention, and intervention programs for children who have fetal alcohol exposure, and for women who are at high risk of having children with fetal alcohol exposure.

The interagency agreement shall provide a process for community advocacy groups to participate in the review and development of identification, prevention, and intervention programs administered or contracted for by the agencies executing this agreement. [1995 c 54 § 3.]

Findings—Purpose—1995 c 54: See note following RCW 70.96A.500.

70.96A.520 Chemical dependency treatment expenditures—Prioritization. The department shall prioritize expenditures for treatment provided under RCW 13.40.165. The department shall provide funds for inpatient and outpatient treatment providers that are the most successful, using the standards developed by the University of Washington under section 27, chapter 338, Laws of 1997. The department may consider variations between the nature of the programs provided and clients served but must provide funds first for those programs that demonstrate the greatest success in treatment within categories of treatment and the nature of the persons receiving treatment. [2003 c 207 § 7; 1997 c 338 § 28.]

Severability—Effective dates—1997 c 338: See notes following RCW 5.60.060.

70.96A.800 Chemically dependent persons—Intensive case management pilot projects. (1) Subject to funds appropriated for this specific purpose, the secretary shall select and contract with counties to provide intensive case management for chemically dependent persons with histories of high utilization of crisis services at two sites. In selecting the two sites, the secretary shall endeavor to site one in an urban county, and one in a rural county; and to site them in counties other than those selected pursuant to RCW 70.96B.020, to the extent necessary to facilitate evaluation of
The department shall ensure that the provisions of this chapter are applied by the counties in a consistent and uniform manner. The department shall also ensure that, to the extent possible within available funds, the county-designated chemical dependency specialists are specifically trained in adolescent chemical dependency issues, the chemical dependency commitment laws, and the criteria for commitment. 70.96B.045 Emergency custody—Procedure. (1) If a designated crisis responder receives information alleging that a person, as the result of:

a. A mental disorder, presents an imminent likelihood of serious harm, or is in imminent danger because of being gravely disabled, after investigation and evaluation of the specific facts alleged and of the reliability and credibility of the person or persons providing the information if any, the designated crisis responder may take the person, or cause by oral or written order the person to be taken into emergency custody in an evaluation and treatment facility for not more than seventy-two hours as described in this chapter; or

b. Chemical dependency, presents an imminent likelihood of serious harm, or is in imminent danger because of being gravely disabled, after investigation and evaluation of the specific facts alleged and of the reliability and credibility of the person or persons providing the information if any, the designated crisis responder may take the person, or cause by oral or written order the person to be taken into emergency custody in a secure detoxification facility for not more than seventy-two hours as described in this chapter.

(2) The evaluation and treatment facility, the secure detoxification facility, or other certified chemical dependency provider shall then evaluate the person’s condition and admit, detain, transfer, or discharge such person in accordance with this chapter. The facility shall notify in writing the court and the designated crisis responder of the date and time of the initial detention of each person involuntarily detained so that a probable cause hearing will be held no later than seventy-two hours after detention.

(3) A peace officer may take or cause the person to be taken into custody and immediately delivered to an evaluation and treatment facility, secure detoxification facility, or other certified chemical dependency provider pursuant to section 2 provided that the individual is detained, the designated mental health professional shall file a petition for detention or supplemental petition as appropriate and commence service on the designated attorney for the detained person.

(4) Nothing in this chapter limits the power of a peace officer to take a person into custody and immediately deliver the person to the emergency department of a local hospital or to a detoxification facility. [2007 c 120 § 2.]

Effective date—2007 c 120: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately upon its approval." [2007 c 120 § 3.]

70.96B.050 Petition for initial detention—Order to detain for evaluation and treatment period—Procedure. (1) When a designated crisis responder receives information alleging that a person, as a result of a mental disorder, chemical dependency disorder, or both, presents a likelihood of serious harm or is gravely disabled, the designated crisis responder may, after investigation and evaluation of the specific facts alleged and of the reliability and credibility of any person providing information to initiate detention, if satisfied that the allegations are true and that the person will not voluntarily seek appropriate treatment, file a petition for initial detention. Before filing the petition, the designated crisis responder must personally interview the person, unless the person refuses an interview, and determine whether the person will voluntarily receive appropriate evaluation and treatment at either an evaluation and treatment facility, a detoxification facility, or other certified chemical dependency provider.

(2)(a) An order to detain to an evaluation and treatment facility, a detoxification facility, or other certified chemical dependency provider for not more than a seventy-two hour evaluation and treatment period may be issued by a judge upon request of a designated crisis responder: (i) Whenever it appears to the satisfaction of a judge of the superior court, district court, or other court permitted by court rule, that there is probable cause to support the petition, and (ii) that the person has refused or failed to accept appropriate evaluation and treatment voluntarily.

(b) The petition for initial detention, signed under penalty of perjury or sworn telephonic testimony, may be considered by the court in determining whether there are sufficient grounds for issuing the order.

(c) The order shall designate retained counsel or, if counsel is appointed from a list provided by the court, the name, business address, and telephone number of the attorney appointed to represent the person.

(3) The designated crisis responder shall then serve or cause to be served on such person, his or her guardian, and conservator, if any, a copy of the order to appear, together with a notice of rights and a petition for initial detention. After service on the person, the designated crisis responder shall file the return of service in court and provide copies of all papers in the court file to the evaluation and treatment facility or secure detoxification facility and the designated attorney. The designated crisis responder shall notify the court and the prosecuting attorney that a probable cause hearing will be held within seventy-two hours of the date and time of outpatient evaluation or admission to the evaluation and treatment facility, secure detoxification facility, or other certified chemical dependency provider. If requested by the detained person or his or her attorney, the hearing may be postponed for a period not to exceed forty-eight hours. The hearing may be continued subject to the petitioner’s showing of good cause for a period not to exceed twenty-four hours. The person may be accompanied by one or more of his or her relatives, friends, an attorney, a personal physician, or other professional or religious advisor to the place of evaluation. An attorney accompanying the person to the place of evaluation shall be permitted to be present during the admission evaluation. Any other person accompanying the person may be present during the admission evaluation. The facility may exclude the person if his or her presence would present a safety risk, delay the proceedings, or otherwise interfere with the evaluation.

(4) The designated crisis responder may notify a peace officer to take the person or cause the person to be taken into custody and placed in an evaluation and treatment facility, a secure detoxification facility, or other certified chemical dependency provider. At the time the person is taken into custody there shall commence to be served on the person, his or her guardian, and conservator, if any, a copy of the original order together with a notice of detention, a notice of rights, and a petition for initial detention. 70.96B.080 Detention for evaluation and treatment of mental disorder—Chapter 71.05 RCW applies. Whenever any person is detained for evaluation and treatment for a mental disorder under RCW 70.96B.050, chapter 71.05 RCW applies. [2005 c 504 § 209.]
70.96B.090  Procedures for additional chemical dependency treatment.  (1) A person detained for seventy-two hour evaluation and treatment under RCW 70.96B.050 or 70.96A.120 may be detained for not more than fourteen additional days of involuntary chemical dependency treatment if there are beds available at the secure detoxification facility and the following conditions are met:

(a) The professional person in charge of the agency or facility or the person’s designee providing evaluation and treatment services in a secure detoxification facility has assessed the person’s condition and finds that the condition is caused by chemical dependency and either results in a likelihood of serious harm or in the detained person being gravely disabled, and the professional person or his or her designee is prepared to testify those conditions are met;

(b) The person has been advised of the need for voluntary treatment and the professional person in charge of the agency or facility or his or her designee has evidence that he or she has not in good faith volunteered for treatment; and

(c) The professional person in charge of the agency or facility or the person’s designee has filed a petition for fourteen-day involuntary detention with the superior court, district court, or other court permitted by court rule. The petition must be signed by the chemical dependency professional who has examined the person.

(2) The petition under subsection (1)(c) of this section shall be accompanied by a certificate of a licensed physician who has examined the person, unless the person whose commitment is sought has refused to submit to a medical examination, in which case the fact of refusal shall be alleged in the petition. The certificate shall set forth the licensed physician’s findings in support of the allegations of the petition. A physician employed by the petitioning program or the department is eligible to be the certifying physician.

(3) The petition shall state facts that support the finding that the person, as a result of chemical dependency, presents a likelihood of serious harm or is gravely disabled, and that there are no less restrictive alternatives to detention in the best interest of the person or others. The petition shall state specifically that less restrictive alternative treatment was considered and specify why treatment less restrictive than detention is not appropriate.

(4) A copy of the petition shall be served on the detained person, his or her attorney, and his or her guardian or conservator, if any, before the probable cause hearing.

(5)(a) The court shall inform the person whose commitment is sought of his or her right to contest the petition, be represented by counsel at every stage of any proceedings relating to his or her commitment, and have counsel appointed by the court or provided by the court, if he or she wants the assistance of counsel and is unable to obtain counsel. If the court believes that the person needs the assistance of counsel, the court shall require, by appointment if necessary, counsel for him or her regardless of his or her wishes. The person shall, if he or she is financially able, bear the costs of such legal service; otherwise such legal service shall be at public expense. The person whose commitment is sought shall be informed of his or her right to be examined by a licensed physician of his or her choice. If the person is unable to obtain a licensed physician and requests examination by a physician, the court shall appoint a reasonably available licensed physician designated by the person.

(b) At the conclusion of the probable cause hearing, if the court finds by a preponderance of the evidence that the person, as the result of chemical dependency, presents a likelihood of serious harm or is gravely disabled and, after considering less restrictive alternatives to involuntary detention and treatment, finds that no such alternatives are in the best interest of such person or others, the court shall order that the person be detained for involuntary chemical dependency treatment not to exceed fourteen days in a secure detoxification facility. [2005 c 504 § 210.]

70.96B.100  Detention for involuntary chemical dependency treatment—Petition for less restrictive treatment—Appearance before court—Representation—Hearing—Less restrictive order—Failure to adhere to terms of less restrictive order.  (1) A person detained for fourteen days of involuntary chemical dependency treatment under RCW 70.96B.090 or subsection (6) of this section shall be released from involuntary treatment at the expiration of the period of commitment unless the professional staff of the agency or facility files a petition for an additional period of involuntary treatment under RCW 70.96A.140, or files a petition for sixty days less restrictive treatment under this section naming the detained person as a respondent. Costs associated with the obtention or revocation of an order for less restrictive treatment and subsequent involuntary commitment shall be provided for within current funding.

(2) A petition for less restrictive treatment must be filed at least three days before expiration of the fourteen-day period of intensive treatment, and comport with the rules contained in RCW 70.96B.090(2). The petition shall state facts that support the finding that the respondent, as a result of a chemical dependency, presents a likelihood of serious harm or is gravely disabled, and that continued treatment pursuant to a less restrictive order is in the best interest of the respondent or others. At the time of filing such a petition, the clerk shall set a time for the respondent to come before the court on the next judicial day after the day of filing unless such appearance is waived by the respondent’s attorney.

(3) At the time set for appearance the respondent must be brought before the court, unless such appearance has been waived and the court shall advise the respondent of his or her right to be represented by an attorney. If the respondent is not represented by an attorney, or is indigent or is unwilling to retain an attorney, the court shall immediately appoint an attorney to represent the respondent. The court shall, if requested, appoint a reasonably available licensed physician, psychologist, or psychiatrist, designated by the respondent to examine and testify on behalf of the respondent.
(4) The court shall conduct a hearing on the petition for sixty days less restrictive treatment on or before the last day of the confinement period. The burden of proof shall be by clear, cogent, and convincing evidence and shall be upon the petitioner. The respondent shall be present at such proceeding. The rules of evidence shall apply, and the respondent shall have the right to present evidence on his or her behalf, to cross-examine witnesses who testify against him or her, to remain silent, and to view and copy all petitions and reports in the court file. The physician-patient privilege or the psychologist-client privilege shall be deemed waived in accordance with the provisions under RCW 71.05.360(9). Involuntary treatment shall continue while a petition for less restrictive treatment is pending under this section.

(5) The court may impose a sixty-day less restrictive order if the evidence shows that the respondent, as a result of a chemical dependency, presents a likelihood of serious harm or is gravely disabled, and that continued treatment pursuant to a less restrictive order is in the best interest of the respondent or others. The less restrictive order may impose treatment conditions and other conditions which are in the best interest of the respondent and others. A copy of the less restrictive order shall be given to the respondent, the designated crisis responder, and any program designated to provide less restrictive treatment. A program designated to provide less restrictive treatment and willing to supervise the conditions of the less restrictive order may modify the conditions for continued release when the modification is in the best interests of the respondent, but must notify the designated crisis responder and the court of such modification.

(6) If a program approved by the court and willing to supervise the conditions of the less restrictive order or the designated crisis responder determines that the respondent is failing to adhere to the terms of the less restrictive order or that substantial deterioration in the respondent’s functioning has occurred, then the designated crisis responder shall notify the court of original commitment and request a hearing to be held no less than two and no more than seven days after the date of the request to determine whether or not the respondent should be returned to more restrictive care. The designated crisis responder may cause the respondent to be immediately taken into custody of the secure detoxification facility pending the hearing if the alleged noncompliance causes the respondent to present a likelihood of serious harm. The designated crisis responder shall file a petition with the court stating the facts substantiating the need for the hearing along with the treatment recommendations. The respondent shall have the same rights with respect to notice, hearing, and counsel as for the original involuntary treatment proceedings. The issues to be determined at the hearing are whether the conditionally released respondent did or did not adhere to the terms and conditions of his or her release to less restrictive care or that substantial deterioration of the respondent’s functioning has occurred and whether the conditions of release should be modified or the respondent should be returned to a more restrictive setting. The hearing may be waived by the respondent and his or her counsel and his or her guardian or conservator, if any, but may not be waived unless all such persons agree to the waiver. If the court finds in favor of the petitioner, or the respondent waives a hearing, the court may order the respondent to be committed to a secure detoxification facility for fourteen days of involuntary chemical dependency treatment, or may order the respondent to be returned to less restrictive treatment on the same or modified conditions. 70.96B.110 Involuntary chemical dependency treatment proceedings—Prosecuting attorney shall represent petitioner. (2) When an offender is under court-ordered treatment in the community and the supervision of the department of corrections, and the treatment provider becomes aware that the person is in violation of the terms of the court order, the treatment provider shall notify the designated crisis responder of the violation and request an evaluation for purposes of revocation of the less restrictive alternative.

70.96C.020 Department of corrections—Use of screening and assessment process.

70.96C.010 Integrated, comprehensive screening and assessment process for chemical dependency and mental disorders. (1) The department of social and health services, in consultation with the members of the team charged with developing the state plan for co-occurring mental and substance abuse disorders, shall adopt, not later than January 1, 2006, an integrated and comprehensive screening and assessment process for chemical dependency and mental disorders and co-occurring chemical dependency and mental disorders.

(a) The process adopted shall include, at a minimum:

(i) An initial screening tool that can be used by intake personnel system-wide and which will identify the most common types of co-occurring disorders;

(ii) An assessment process for those cases in which assessment is indicated that provides an appropriate degree of assessment for most situations, which can be expanded for complex situations;

(iii) Identification of triggers in the screening that indicate the need to begin an assessment;

(iv) Identification of triggers after or outside the screening that indicate a need to begin or resume an assessment;

(v) The components of an assessment process and a protocol for determining whether part or all of the assessment is necessary, and at what point; and

(vi) Emphasis that the process adopted under this section is to replace and not to duplicate existing intake, screening, and assessment tools and processes.

(b) The department shall consider existing models, including those already adopted by other states, and to the extent possible, adopt an established, proven model.

(c) The integrated, comprehensive screening and assessment process shall be implemented statewide by all chemical dependency and mental health treatment providers as well as all designated mental health professionals, designated chemical dependency specialists, and designated crisis responders not later than January 1, 2007.

(2) The department shall provide adequate training to effect statewide implementation by the dates designated in this section and shall report the rates of co-occurring disorders and the stage of screening or assessment at which the co-occurring disorder was identified to the appropriate committees of the legislature.

"Treatment records" do not include notes or records maintained for personal use by an individual providing treatment services for the department, regional support networks, or a treatment facility if the notes or records are not available to others.

(32) "Violent act" means behavior that resulted in homicide, attempted suicide, nonfatal injuries, or substantial damage to property. [2005 c 504 § 403.]

(2) Where an enhanced services facility specializes in medically fragile persons with mental disorders, the on-site staff must include at least one licensed nurse twenty-four hours per day. The nurse must be a registered nurse for at least sixteen hours per day. If the nurse is not a registered nurse, a registered nurse or a doctor must be on-call during the remaining eight hours.

(3) Any employee or other individual who will have unsupervised access to vulnerable adults must successfully pass a background inquiry check. [2005 c 504 § 410.]

(a) Suspend, revoke, or refuse to issue or renew a license;

(b) Order stop placement; or

(c) Assess civil monetary penalties.

(2) The department may suspend, revoke, or refuse to renew a license, assess civil monetary penalties, or both, in any case in which it finds that the licensee of a facility, or any partner, officer, director, owner of five percent or more of the assets of the facility, or managing employee:

(e) Willfully prevented or interfered with any representative of the department in the preservation of evidence of any violation of any of the provisions of this chapter or of the rules adopted under it; or

(f) Failed to pay any civil monetary penalty assessed by the department under this chapter within ten days after the assessment becomes final.

(3)(a) Civil penalties collected under this chapter shall be deposited into a special fund administered by the department.

(b) Civil monetary penalties, if imposed, may be assessed and collected, with interest, for each day the facility is or was out of compliance. Civil monetary penalties shall not exceed three thousand dollars per day. Each day upon which the same or a substantially similar action occurs is a separate violation subject to the assessment of a separate penalty.

(4) The department may use the civil penalty monetary fund for the protection of the health or property of residents of facilities found to be deficient including:

(b) Payment to maintain operation of a facility pending correction of deficiencies or closure; and

(c) Reimbursement of a resident for personal funds or property loss.

(5)(a) The department may issue a stop placement order on a facility, effective upon oral or written notice, when the department determines:

(ii) The deficiency or deficiencies in the facility:

(A) Jeopardizes the health and safety of the residents; or

(B) Seriously limits the facility’s capacity to provide adequate care.

(b) When the department has ordered a stop placement, the department may approve a readmission to the facility from a hospital, residential treatment facility, or crisis intervention facility when the department determines the readmission would be in the best interest of the individual seeking readmission.

Operation of a facility without a license in violation of this chapter and discrimination against medicaid recipients is a matter vitally affecting the public interest for the purpose of applying the consumer protection act, chapter 19.86 RCW. Operation of an enhanced services facility without a license in violation of this chapter is not reasonable in the development and preservation of business. Such a violation is an unfair or deceptive act in trade or commerce and an unfair method of competition for the purpose of applying the consumer protection act, chapter 19.86 RCW. 70.98.010 Declaration of policy. It is the policy of the state of Washington in furtherance of its responsibility to protect the public health and safety and to encourage, insofar as consistent with this responsibility, the industrial and economic growth of the state and to institute and maintain a regulatory and inspection program for sources and uses of ionizing radiation so as to provide for (1) compatibility with the standards and regulatory programs of the federal government, (2) a single, effective system of regulation within the state, and (3) a system consonant insofar as possible with those of other states. [1975-'76 2nd ex.s. c 108 § 12; 1961 c 207 § 1.]

(1) A program of effective regulation of sources of ionizing radiation for the protection of the occupational and public health and safety;

(2) A program to promote an orderly regulatory pattern within the state, among the states and between the federal government and the state and facilitate intergovernmental cooperation with respect to use and regulation of sources of ionizing radiation to the end that duplication of regulation may be minimized;

(3) A program to establish procedures for assumption and performance of certain regulatory responsibilities with respect to byproduct, source, and special nuclear materials. [1975-'76 2nd ex.s. c 108 § 13; 1965 c 88 § 1; 1961 c 207 § 2.]

In no event shall the agency grant a specific license to any applicant who has never possessed a specific license issued by a recognized state or federal authority until the agency has conducted an inspection which insures that the applicant can meet the rules, regulations and standards adopted pursuant to this chapter. All applications and statements shall be signed by the applicant or licensee. The agency may require any applications or statements to be made under oath or affirmation;

(b) Each license shall be in such form and contain such terms and conditions as the agency may by rule or regulation prescribe;
No license issued under the authority of this chapter and no right to possess or utilize sources of ionizing radiation granted by any license shall be assigned or in any manner disposed of; and

(d) The terms and conditions of all licenses shall be subject to amendment, revision, or modification by rules, regulations or orders issued in accordance with the provisions of this chapter.

(2) Before the agency issues a license to an applicant under this section, it shall give notice of such application to the chief executive officer of the incorporated city or town, if the application is for a license within an incorporated city or town, or to the county legislative authority, if the application is for a license outside the boundaries of incorporated cities or towns. The incorporated city or town, through the official or employee selected by it, or the county legislative authority or the official or employee selected by it, shall have the right to file with the agency within twenty days after date of transmittal of such notice, written objections against the applicant or against the activity for which the license is sought, and shall include with such objections a statement of all facts upon which such objections are based, and in case written objections are filed, may request and the agency may in its discretion hold a formal hearing under chapter 34.05 RCW. Upon the granting of a license under this section the agency shall send a duplicate of the license or written notification to the chief executive officer of the incorporated city or town in which the license is granted, or to the county legislative authority if the license is granted outside the boundaries of incorporated cities or towns.

This subsection shall not apply to activities conducted within the boundaries of the Hanford reservation.

(3) The agency may require registration of all sources of ionizing radiation.

(4) The agency may exempt certain sources of ionizing radiation or kinds of uses or users from the registration or licensing requirements set forth in this section when the agency makes a finding after approval of the technical advisory board that the exemption of such sources of ionizing radiation or kinds of uses or users will not constitute a significant risk to the health and safety of the public.

(5) In promulgating rules and regulations pursuant to this chapter the agency shall, insofar as practical, strive to avoid requiring dual licensing, and shall provide for such recognition of other state or federal licenses as the agency shall deem desirable, subject to such registration requirements as the agency may prescribe. [1984 c 96 § 1; 1965 c 88 § 5; 1961 c 207 § 8.]

70.98.085 Suspension and reinstatement of site use permits—Surveillance fee. (1) The agency is empowered to suspend and reinstate site use permits consistent with current regulatory practices and in coordination with the department of ecology, for generators, packagers, or brokers using the Hanford low-level radioactive waste disposal facility.

(2) The agency shall collect a surveillance fee as an added charge on each cubic foot of low level radioactive waste disposed of at the disposal site in this state which shall be set at a level that is sufficient to fund completely the radiation control activities of the agency directly related to the disposal site, including but not limited to the management, licensing, monitoring, and regulation of the site. The surveillance fee shall not exceed five percent in 1990, six percent in 1991, and seven percent in 1992 of the basic minimum fee charged by an operator of a low-level radioactive waste disposal site in this state. The basic minimum fee consists of the disposal fee for the site operator, the fee for the perpetual care and maintenance fund administered by the state, the fee for the state closure fund, and the tax collected pursuant to chapter 82.04 RCW. Site use permit fees and surcharges collected under chapter 43.200 RCW are not part of the basic minimum fee. The fee shall also provide funds to the Washington state patrol for costs incurred from inspection of low-level radioactive waste shipments entering this state. Disbursements for this purpose shall be by authorization of the secretary of the department of health or the secretary’s designee.

The agency may adopt such rules as are necessary to carry out its responsibilities under this section. [1990 c 21 § 7; 1989 c 106 § 1; 1986 c 2 § 2; 1985 c 383 § 3.]

[1985 c 372 § 2; 1961 c 207 § 9.]

Severability—1985 c 372: See note following RCW 70.98.050.

70.98.095 Financial assurance—Noncompliance. (1) The radiation control agency may require any person who applies for, or holds, a license under this chapter to demonstrate that the person has financial assurance sufficient to assure that liability incurred as a result of licensed operations and activities can be fully satisfied. Financial assurance may be in the form of insurance, cash deposits, surety bonds, corporate guarantees, letters of credit, or other financial instruments or guarantees determined by the agency to be acceptable financial assurance. The agency may require financial assurance in an amount determined by the secretary pursuant to RCW 70.98.098.

(2) The radiation control agency shall refuse to issue a license or permit or suspend the license or permit of any person required by this section to demonstrate financial assurance who fails to demonstrate compliance with this section. The license or permit shall not be issued or reinstated until the person demonstrates compliance with this section.

(3) The radiation control agency shall require (a) that any person required to demonstrate financial assurance, maintain with the agency current copies of any insurance policies, certificates of insurance, letters of credit, surety bonds, or any other documents used to comply with this section, (b) that the agency be notified of any changes in the financial assurance or financial condition of the person, and (c) that the state be named as an insured party on any insurance policy used to comply with this section. [1992 c 61 § 3; 1990 c 82 § 4; 1986 c 191 § 3.]

Radioactive and hazardous waste emergency response programs, state coordinator: RCW 38.52.030.
Uranium and thorium mill tailings—Licensing and perpetual care: Chapter 70.121 RCW.

70.99.010  Finding. The people of the state of Washington find that:

(1) Radioactive wastes are highly dangerous, in that releases of radioactive materials and emissions to the environment are inimical to the health and welfare of the people of the state of Washington, and contribute to the occurrences of harmful diseases, including excessive cancer and leukemia. The dangers posed by the transportation and presence of radioactive wastes are increased further by the long time periods that the wastes remain radioactive and highly dangerous;

(2) Transporting, handling, storing, or otherwise caring for radioactive waste presents a hazard to the health, safety,
and welfare of the individual citizens of the state of Washington because of the ever-present risk that an accident or incident will occur while the wastes are being cared for;

(3) The likelihood that an accident will occur in this state involving the release of radioactive wastes to the environment becomes greater as the volume of wastes transported, handled, stored, or otherwise cared for in this state increases;

(4) The effects of unplanned releases of radioactive wastes into the environment, especially into the air and water of the state, are potentially both widespread and harmful to the health, safety, and welfare of the citizens of this state.

The burdens and hazards posed by increasing the volume of radioactive wastes transported, handled, stored, or otherwise cared for in this state by the importation of such wastes from outside this state is not a hazard the state government may reasonably ask its citizens to bear. The people of the state of Washington believe that the principles of federalism do not require the sacrifice of the health, safety, and welfare of the people of one state for the convenience of other states or nations. [1981 c 1 § 1 (Initiative Measure No. 383, approved November 4, 1980).]

70.99.020 Definitions. The definitions set forth in this section apply throughout this chapter.

(1) "Radioactive waste" means unwanted radioactive material, including radioactive residues produced as a result of electric power generation or other reactor operation.

(2) "Medical waste" means radioactive waste from all therapy, diagnosis, or research in medical fields and radioactive waste which results from the production and manufacture of radioactive material used for therapy, diagnosis, or research in medical fields, except that "medical waste" does not include spent fuel or waste from the fuel of an isotope production reactor.

(3) "Radioactive waste generated or otherwise produced outside the geographic boundaries of the state of Washington" means radioactive waste which was located outside the state of Washington at the time of removal from a reactor vessel. [1981 c 1 § 2 (Initiative Measure No. 383, approved November 4, 1980).]

70.99.030 Storage of radioactive waste from outside the state prohibited—Exceptions. Notwithstanding any law, order, or regulation to the contrary, July 1, 1981, no area within the geographic boundaries of the state of Washington may be used by any person or entity as a temporary, interim, or permanent storage site for radioactive waste, except medical waste, generated or otherwise produced outside the geographic boundaries of the state of Washington. This section does not apply to radioactive waste stored within the state of Washington prior to July 1, 1981. [1981 c 1 § 3 (Initiative Measure No. 383, approved November 4, 1980).]

70.99.040 Transportation of radioactive waste from outside the state for storage within the state prohibited—Exception. Notwithstanding any law, order, or regulation to the contrary, after July 1, 1981, no person or entity may transport radioactive waste, except medical waste, generated or otherwise produced outside the geographic boundaries of the state of Washington to any site within the geographic bound

The department shall report the results of the investigation to the health care provider submitting the original report.

(3) Cases or suspected cases of pesticide poisoning shall be reported by the department of health to the pesticide reporting and tracking review panel within the time periods established by state board of health rules.

(4) Upon request of the primary health care provider, pesticide applicators or employers shall provide a copy of records of pesticide applications which may have affected the health of the provider’s patient. This information is to be used only for the purposes of providing health care services to the patient.

70.104.070 Pesticide incident reporting and tracking review panel—Intent. The legislature finds that heightened concern regarding health and environmental impacts from pesticide use and misuse has resulted in an increased demand for full-scale health investigations, assessment of resource damages, and health effects information. Increased reporting, comprehensive unbiased investigation capability, and enhanced community education efforts are required to maintain this state's responsibilities to provide for public health and safety.

It is the intent of the legislature that the various state agencies responsible for pesticide regulation coordinate their activities in a timely manner to ensure adequate monitoring of pesticide use and protection of workers and the public from the effects of pesticide misuse. 70.105.005 Legislative declaration. The legislature hereby finds and declares:
(1) The health and welfare of the people of the state depend on clean and pure environmental resources unaffected by hazardous waste contamination. At the same time, the quality of life of the people of the state is in part based upon a large variety of goods produced by the economy of the state. The complex industrial processes that produce these goods also generate waste byproducts, some of which are hazardous to the public health and the environment if improperly managed.
(2) Safe and responsible management of hazardous waste is necessary to prevent adverse effects on the environment and to protect public health and safety.
(3) The availability of safe, effective, economical, and environmentally sound facilities for the management of hazardous waste is essential to protect public health and the environment and to preserve the economic strength of the state.
(4) Strong and effective enforcement of federal and state hazardous waste laws and regulations is essential to protect the public health and the environment and to meet the public’s concerns regarding the acceptance of needed new hazardous waste management facilities.
(5) Negotiation, mediation, and similar conflict resolution techniques are useful in resolving concerns over the local impacts of siting hazardous waste management facilities.
(6) Safe and responsible management of hazardous waste requires an effective planning process that involves local and state governments, the public, and industry.
(7) Public acceptance and successful siting of needed new hazardous waste management facilities depends on several factors, including:

(a) Public confidence in the safety of the facilities;
(b) Assurance that the hazardous waste management priorities established in this chapter are being carried out to the maximum degree practical;
(c) Recognition that all state citizens benefit from certain products whose manufacture results in the generation of hazardous byproducts, and that all state citizens must, therefore, share in the responsibility for finding safe and effective means to manage this hazardous waste; and
(d) Provision of adequate opportunities for citizens to meet with facility operators and resolve concerns about local hazardous waste management facilities.

(8) Due to the controversial and regional nature of facilities for the disposal and incineration of hazardous waste, the facilities have had difficulty in obtaining necessary local approvals. The legislature finds that there is a statewide interest in assuring that such facilities can be sited.

It is therefore the intent of the legislature to preempt local government’s authority to approve, deny, or otherwise regulate disposal and incineration facilities, and to vest in the department of ecology the sole authority among state, regional, and local agencies to approve, deny, and regulate preempted facilities, as defined in this chapter.

In addition, it is the intent of the legislature that such complete preemptive authority also be vested in the department for treatment and storage facilities, in addition to disposal and incineration facilities, if a local government fails to carry out its responsibilities established in RCW 70.105.225.

It is further the intent of the legislature that no local ordinance, permit requirement, other requirement, or decision shall prohibit on the basis of land use considerations the construction of a hazardous waste management facility within any zone designated and approved in accordance with this chapter, provided that the proposed site for the facility is consistent with applicable state siting criteria.

(9) With the exception of the disposal site authorized for acquisition under this chapter, the private sector has had the primary role in providing hazardous waste management facilities and services in the state. It is the intent of the legislature that this role be encouraged and continue into the future to the extent feasible. Whether privately or publicly owned and operated, hazardous waste management facilities and services should be subject to strict governmental regulation as provided under this chapter.

(10) Wastes that are exempt or excluded from full regulation under this chapter due to their small quantity or household origin have the potential to pose significant risk to public health and the environment if not properly managed. It is the intent of the legislature that the specific risks posed by such waste be investigated and assessed and that programs be carried out as necessary to manage the waste appropriately. In addition, the legislature finds that, because local conditions vary substantially in regard to the quantities, risks, and management opportunities available for such wastes, local government is the appropriate level of government to plan for and carry out programs to manage moderate-risk waste, with assistance and coordination provided by the department.

Severability—1985 c 448: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1985 c 448 § 19.]

70.105.007 Purpose. The purpose of this chapter is to establish a comprehensive statewide framework for the planning, regulation, control, and management of hazardous waste which will prevent land, air, and water pollution and conserve the natural, economic, and energy resources of the state. To this end it is the purpose of this chapter:

(1) To provide broad powers of regulation to the department of ecology relating to management of hazardous wastes and releases of hazardous substances;
(2) To promote waste reduction and to encourage other improvements in waste management practices;
(3) To promote cooperation between state and local governments by assigning responsibilities for planning for hazardous wastes to the state and planning for moderate-risk waste to local government;
(4) To provide for prevention of problems related to improper management of hazardous substances before such problems occur; and
(5) To assure that needed hazardous waste management facilities may be sited in the state, and to ensure the safe operation of the facilities. [1985 c 448 § 3.]

Severability—1985 c 448: See note following RCW 70.105.005.

70.105.035 Solid wastes—Conditionally exempt from chapter. Solid wastes that designate as dangerous waste or extremely hazardous waste but do not designate as hazardous waste under federal law are conditionally exempt from the requirements of this chapter, if:

(1) The waste is generated pursuant to a consent decree issued under chapter 70.105D RCW;

(2) The consent decree characterizes the solid waste and specifies management practices and a department-approved treatment or disposal location;
(3) The management practices are consistent with RCW 70.105.150 and are protective of human health and the environment as determined by the department of ecology; and

(4) Waste treated or disposed of on-site will be managed in a manner determined by the department to be as protective of human health and the environment as clean-up standards pursuant to chapter 70.105D RCW.

This section shall not be interpreted to limit the ability of the department to apply any requirement of this chapter through a consent decree issued under chapter 70.105D RCW, if the department determines these requirements to be appropriate. (2) The department may establish an appropriate fee schedule for use of such disposal facilities to offset the cost of administration of this chapter and the cost of development, operation, maintenance, and perpetual management of the disposal site. If operated by a private entity, the disposal fee may be such as to provide a reasonable profit. [1975-’76 2nd ex.s. c 101 § 4.]

70.105.050 Disposal at other than approved site prohibited—Disposal of radioactive wastes. (1) No person shall dispose of designated extremely hazardous wastes at any disposal site in the state other than the disposal site established and approved for such purpose under provisions of this chapter, except:

(2) Extremely hazardous wastes that contain radioactive components may be disposed at a radioactive waste disposal site that is (a) owned by the United States department of energy or a licensee of the nuclear regulatory commission and (b) permitted by the department and operated in compliance with the provisions of this chapter. However, prior to disposal, or as a part of disposal, all reasonable methods of treatment, detoxification, neutralization, or other waste management methodologies designed to mitigate hazards associated with these wastes shall be employed, as required by applicable federal and state laws and regulations. [1994 c 254 § 6; 1987 c 488 § 4; 1975-’76 2nd ex.s. c 101 § 5.]

(1) it is upon request of the owner, producer, or person having custody of the waste, and

(2) upon the payment of a fee to cover disposal

(3) it can be reasonably demonstrated that there is no other disposal sites in the state that will handle such dangerous waste, and

(4) the site is designed to handle such a request or can be modified to the extent necessary to adequately dispose of the waste, or

(5) if a demonstrable emergency and potential threat to the public health and safety exists. [1975-’76 2nd ex.s. c 101 § 7.]

that the conduct constituting the violation places another person in imminent danger of death or serious bodily injury; or (b) a class C felony punishable according to chapter 9A.20 RCW if the person knows that the conduct constituting the violation places any property of another person or any natural resources owned by the state of Washington or any of its local governments in imminent danger of harm.

(2) As used in this section: (a) "imminent danger" means that there is a substantial likelihood that harm will be experienced within a reasonable period of time should the danger not be eliminated; and (b) "knowingly" refers to an awareness of facts, not awareness of law. (1) Nothing in this chapter shall alter, amend, or supersede the provisions of chapter 80.50 RCW, except that, notwithstanding any provision of chapter 80.50 RCW, regulation of dangerous wastes associated with energy facilities from generation to disposal shall be solely by the department pursuant to chapter 70.105 RCW. In the implementation of said section, the department shall consult and cooperate with the energy facility site evaluation council and, in order to reduce duplication of effort and to provide necessary coordination of monitoring and on-site inspection programs at energy facility sites, any on-site inspection by the department that may be required for the purposes of this chapter shall be performed pursuant to an interagency coordination agreement with the council.

[Title 70 RCW—page 350]
(2) To facilitate the implementation of this chapter, the energy facility site evaluation council may require certificate holders to remove from their energy facility sites any dangerous wastes, controlled by this chapter, within ninety days of their generation. 70.105.145 Department’s authority to participate in and administer federal act. Notwithstanding any other provision of chapter 70.105 RCW, the department of ecology is empowered to participate fully in and is empowered to administer all aspects of the programs of the federal Resource Conservation and Recovery Act, as it exists on June 7, 1984, (42 U.S.C. Sec. 6901 et seq.), contemplated for participation and administration by a state under that act. [1984 c 237 § 2; 1983 c 270 § 2.]

70.105.150 Declaration—Management of hazardous waste—Priorities—Definitions. The legislature hereby declares that:

(1) The health and welfare of the people of the state depend on clean and pure environmental resources unaffected by hazardous waste contamination. Management and regulation of hazardous waste disposal should encourage practices which result in the least amount of waste being produced. Towards that end, the legislature finds that the following priorities in the management of hazardous waste are necessary and should be followed in order of descending priority as applicable:

(a) Waste reduction;

(b) Waste recycling;

(c) Physical, chemical, and biological treatment;

(d) Incineration;

(e) Solidification/stabilization treatment;

(f) Landfill.

(2) As used in this section:
(a) "Waste reduction" means reducing waste so that hazardous byproducts are not produced;
(b) "Waste recycling" means reusing waste materials and extracting valuable materials from a waste stream;
(c) "Physical, chemical, and biological treatment" means processing the waste to render it completely innocuous, produce a recyclable byproduct, reduce toxicity, or substantially reduce the volume of material requiring disposal;
(d) "Incineration" means reducing the volume or toxicity of wastes by use of an enclosed device using controlled flame combustion;
(e) "Solidification/stabilization treatment" means the use of encapsulation techniques to solidify wastes and make them less permeable or leachable; and
(f) "Landfill" means a disposal facility, or part of a facility, at which waste is placed in or on land and which is not a land treatment facility, surface impoundment, or injection well. [1983 1st ex.s. c 70 § 1.]

70.105.160 Waste management study—Public hearings—Adoption or modification of rules. The department shall conduct a study to determine the best management practices for categories of waste for the priority waste management methods established in RCW 70.105.150, with due consideration in the course of the study to sound environmental management and available technology. As an element of the study, the department shall review methods that will help achieve the priority of RCW 70.105.150(1)(a), waste reduction. Before issuing any proposed rules, the department shall conduct public hearings regarding the best management practices for the various waste categories studied by the department. After conducting the study, the department shall prepare new rules or modify existing rules as appropriate to promote implementation of the priorities established in RCW 70.105.150 for management practices which assure use of sound environmental management techniques and available technology. The preliminary study shall be completed by July 1, 1986, and the rules shall be adopted by July 1, 1987. The solid waste advisory committee shall review the studies and the new or modified rules.

The studies shall be updated at least once every five years. The funding for these studies shall be from the hazardous waste control and elimination account, subject to legislative appropriation. [1998 c 245 § 110; 1984 c 254 § 2; 1983 1st ex.s. c 70 § 2.]

Severability—1984 c 254: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1984 c 254 § 3.]

70.105.165 Disposal of dangerous wastes at commercial off-site land disposal facilities—Limitations. (1) Independent of the processing or issuance of any or all federal, state, and local permits for disposal of dangerous wastes, no disposal of dangerous wastes at a commercial off-site land disposal facility may be undertaken prior to July 1, 1986, unless:
(a) The disposal results from actions taken under *RCW 70.105A.060 (2) and (3), or results from other emergency situations; or

(b) Studies undertaken by the department under RCW 70.105.160 to determine the best management practices for various waste categories under the priority waste management methods established in RCW 70.105.150 are completed for the particular wastes or waste categories to be disposed of and any regulatory revisions deemed necessary by the department are proposed and do not prohibit land disposal of such wastes; or
(c) Final regulations have been adopted by the department that allow for such disposal.

(2) Construction of facilities used solely for the purpose of disposal of wastes that have not met the requirements of subsection (1) of this section shall not be undertaken by any developer of a dangerous waste disposal facility.

(3) The department shall prioritize the studies of waste categories undertaken under RCW 70.105.160 to provide initial consideration of those categories most likely to be suitable for land disposal. Any regulatory changes deemed necessary by the department shall be proposed and subjected to the rule-making process by category as the study of each waste category is completed. All of the study shall be completed, and implementing regulations proposed, by July 1, 1986.

(4) Any final permit issued by the department before the adoption of rules promulgated as a result of the study conducted under RCW 70.105.160 shall be modified as necessary to be consistent with such rules. [1984 c 254 § 1.]

*Reviser's note: RCW 70.105A.060 was repealed by 1990 c 114 § 21.

Severability—1984 c 254: See note following RCW 70.105.160.

70.105.170 Waste management—Consultative services—Technical assistance—Confidentiality. Consistent with the purposes of RCW 70.105.150 and 70.105.160, the department is authorized to promote the priority waste management methods listed in RCW 70.105.150 by establishing or assisting in the establishment of: (1) Consultative services which, in conjunction with any business or industry requesting such service, study and recommend alternative waste management practices; and (2) technical assistance, such as a toll-free telephone service, to persons interested in waste management alternatives. Any person receiving such service or assistance may, in accordance with state law, request confidential treatment of information about their manufacturing or business practices. [1983 1st ex.s. c 70 § 3.]

70.105.180 Disposition of fines and penalties—Earnings. All fines and penalties collected under this chapter shall be deposited in the hazardous waste control and elimination account, which is hereby created in the state treasury. Moneys in the account collected from fines and penalties shall be expended exclusively by the department of ecology for the purposes of chapter 70, Laws of 1983 1st ex. sess., subject to legislative appropriation. Other sources of funds deposited in this account may also be used for the purposes of chapter 70, Laws of 1983 1st ex. sess. All earnings of investments of balances in the hazardous waste control and elimination account shall be credited to the general fund. [1985 c 57 § 70; 1983 1st ex.s. c 70 § 4.]

(d) Siting criteria as appropriate for hazardous waste management facilities, including such criteria as may be appropriate for the designation of eligible zones for designated zone facilities. However, these criteria shall not prevent the continued operation, at or below the present level of waste management activity, of existing facilities on the basis of their location in areas other than those designated as eligible zones pursuant to RCW 70.105.225;

(e) Siting policies as deemed appropriate by the department; and

(f) A plan or program to provide appropriate public information and education relating to hazardous waste management. The department shall ensure to the maximum degree practical that these plans or programs are coordinated with public education programs carried out by local government under RCW 70.105.220.

(2) The department shall seek, encourage, and assist participation in the development, revision, and implementation of the state hazardous waste management plan by interested citizens, local government, business and industry, environmental groups, and other entities as appropriate.

(3) Siting criteria shall be completed by December 31, 1986. Other plan components listed in subsection (1) of this section shall be completed by June 30, 1987.

(4) The department shall incorporate into the state hazardous waste management plan those elements of the local hazardous waste management plans that it deems necessary to assure effective and coordinated programs throughout the state. [1985 c 448 § 4.]

These criteria will be part of the state hazardous waste management plan as described in RCW 70.105.200. To the extent practical, these criteria shall be designed to minimize the short-term and long-term risks and costs that may result from hazardous waste management facilities. These criteria may vary by type of facilities and may consider natural site characteristics and engineered protection. Criteria may be established for:

1. Geology;
2. Surface and groundwater hydrology;
3. Soils;
4. Flooding;
5. Climatic factors;
6. Unique or endangered flora and fauna;
7. Transportation routes;
8. Site access;
9. Buffer zones;
10. Availability of utilities and public services;
11. Compatibility with existing uses of land;
12. Shorelines and wetlands;
13. Sole-source aquifers;
14. Natural hazards; and
15. Other factors as determined by the department. [1989 1st ex.s. c 13 § 2; 1985 c 448 § 5.]

Severability—1985 c 448: See note following RCW 70.105.005.

70.105.215 Department to adopt rules for permits for hazardous substances treatment facilities. The legislature recognizes the need for new, modified, or expanded facilities to treat, incinerate, or otherwise process or dispose of hazardous substances safely. In order to encourage the development of such facilities, the department shall adopt rules as necessary regarding the permitting of such facilities to ensure the most expeditious permit processing possible consistent with the substantive requirements of applicable law. If owners and operators are not the same entity, the operator shall be the permit applicant and responsible for the development of the permit application and all accompanying materials, as long as the owner also signs the application and certifies its ownership of the real property described in the application, and acknowledges its awareness of the contents of the application and receipt of a copy thereof. [1986 c 210 § 3.]

70.105.217 Local government regulatory authority to prohibit or condition. Nothing in this chapter shall alter or affect the regulatory authority of a county, city, or jurisdictional health district to condition or prohibit the acceptance of hazardous waste in a county or city landfill. [1994 e 254 § 7.]

70.105.220 Local governments to prepare local hazardous waste plans—Basis—Elements required. (1) Each local government, or combination of contiguous local governments, is directed to prepare a local hazardous waste plan which shall be based on state guidelines and include the following elements:

(a) A plan or program to manage moderate-risk wastes that are generated or otherwise present within the jurisdiction. This element shall include an assessment of the quantities, types, generators, and fate of moderate-risk wastes in the jurisdiction. The purpose of this element is to develop a system of managing moderate-risk waste, appropriate to each local area, to ensure protection of the environment and public health;

(b) A plan or program to provide for ongoing public involvement and public education in regard to the management of moderate-risk waste. This element shall provide information regarding:

(i) The potential hazards to human health and the environment resulting from improper use and disposal of the waste; and

(ii) Proper methods of handling, reducing, recycling, and disposing of the waste;

(c) An inventory of all existing generators of hazardous waste and facilities managing hazardous waste within the
Local governments may from time to time amend the local household substances. Public education programs on the proper handling of hazardous waste management. The department shall encourage additional pilot projects as needed to provide information to waste management. The department shall encourage additional pilot projects that have been conducted for moderate-risk waste facilities and services at a reasonable price, the local government shall take actions to encourage the use of that private facility or service. Actions taken by a local government under this subsection may include, but are not limited to, restricting or prohibiting the land disposal of a moderate-risk waste at any transfer station or land disposal facility within its jurisdiction.

(4)(a) The department shall prepare guidelines for the development of local hazardous waste plans. The guidelines shall be prepared in consultation with local governments and shall be completed by December 31, 1986. The guidelines shall include a list of substances identified as hazardous household substances.

(b) In preparing the guidelines under (a) of this subsection, the department shall review and assess information on pilot projects that have been conducted for moderate-risk waste management. The department shall encourage additional pilot projects as needed to provide information to improve and update the guidelines.

(5) The department shall consult with retailers, trade associations, public interest groups, and appropriate units of local government to encourage the development of voluntary public education programs on the proper handling of hazardous household substances.

(6) Local hazardous waste plans shall be completed and submitted to the department no later than June 30, 1990. Local governments may from time to time amend the local plan.

(7) Each local government, or combination of contiguous local governments, shall submit its local hazardous waste plan or amendments thereto to the department. The department shall approve or disapprove local hazardous waste plans or amendments by December 31, 1990, or within ninety days of submission, whichever is later. The department shall approve a local hazardous waste plan if it determines that the plan is consistent with this chapter and the guidelines under subsection (4) of this section. If approval is denied, the department shall submit its objections to the local government within ninety days of submission. However, for plans submitted between January 1, 1990, and June 30, 1990, the department shall have one hundred eighty days to submit its objections. No local government is eligible for grants under RCW 70.105.235 for implementing a local hazardous waste plan unless the plan for that jurisdiction has been approved by the department.

(8) Each local government, or combination of contiguous local governments, shall implement the local hazardous waste plan for its jurisdiction by December 31, 1991.

(9) The department may waive the specific requirements of this section for any local government if such local government demonstrates to the satisfaction of the department that the objectives of the planning requirements have been met. [1992 c 17 § 1; 1986 c 210 § 1; 1985 c 448 § 6.]

70.105.221 Local governments to prepare local hazardous waste plans—Used oil recycling element. Local governments and combinations of local governments shall amend their local hazardous waste plans required under RCW 70.105.220 to comply with RCW 70.95I.020. [1991 c 319 § 312.]

Severability—Part headings not law—1991 c 319: See RCW 70.95F.900 and 70.95F.901.

70.105.225 Local governments to designate zones—Departmental guidelines—Approval of local government zone designations or amendments—Exemption. (1) Each local government, or combination of contiguous local governments, is directed to: (a) Demonstrate to the satisfaction of the department that existing zoning allows designated zone facilities as permitted uses; or (b) designate land use zones within its jurisdiction in which designated zone facilities are permitted uses. The zone designations shall be consistent with the state siting criteria adopted in accordance with RCW 70.105.210, except as may be approved by the department in accordance with subsection (6) of this section.

(2) Local governments shall not prohibit the processing or handling of hazardous waste in zones in which the processing or handling of hazardous substances is prohibited. This subsection does not apply in residential zones.

(3) The department shall prepare guidelines, as appropriate, for the designation of zones under this section. The guidelines shall be prepared in consultation with local governments and shall be completed by December 31, 1986.

(4) The initial designation of zones shall be completed or revised, and submitted to the department within eighteen months after the enactment of siting criteria in accordance with RCW 70.105.210. Local governments that do not comply with this submittal deadline shall be subject to the preemptive provisions of RCW 70.105.240(4) until such time as zone designations are completed and approved by the department. Local governments may from time to time amend their designated zones.

(5) Local governments without land use zoning provisions shall designate eligible geographic areas within their jurisdiction, based on siting criteria adopted in accordance with RCW 70.105.210. The area designation shall be subject to the same requirements as if they were zone designations.

(6) Each local government, or combination of contiguous local governments, shall submit its designation of zones or amendments thereto to the department. The department shall approve or disapprove zone designations or amend-
ments within ninety days of submission. The department shall approve eligible zone designations if it determines that the proposed zone designations are consistent with this chapter, the applicable siting criteria, and guidelines for developing designated zones. PROVIDED, That the department shall consider local zoning in place as of January 1, 1985, or other special situations or conditions which may exist in the jurisdiction. If approval is denied, the department shall state within ninety days from the date of submission the facts upon which that decision is based and shall submit the statement to the local government together with any other comments or recommendations it deems appropriate. The local government shall have ninety days after it receives the statement from the department to make modifications designed to eliminate the inconsistencies and resubmit the designation to the department for approval. Any designations shall take effect when approved by the department.

(7) The department may exempt a local government from the requirements of this section if:

(a) Regulated quantities of hazardous waste have not been generated within the jurisdiction during the two calendar years immediately preceding the calendar year during which the exemption is requested; and

(b) The local government can demonstrate to the satisfaction of the department that no significant portion of land within the jurisdiction can meet the siting criteria adopted in accordance with RCW 70.105.210. [1989 1st ex.s. c 13 § 1; 1985 c 448 § 7.]

The letters shall also indicate whether these requirements will be completed in conjunction with other local governments.

(2) If any local government fails to submit a letter as provided in subsection (1)(b) of this section, or fails to adopt a local hazardous waste plan for its jurisdiction in accordance with the time schedule provided in this chapter, or fails to secure approval from the department for its local hazardous waste plan in accordance with the time schedule provided in this chapter, the department shall prepare a hazardous waste plan for the local jurisdiction. [1985 c 448 § 8.]

Severability—1985 c 448: See note following RCW 70.105.005.

70.105.235 Grants to local governments for plan preparation, implementation, and designation of zones—Matching funds—Qualifications. (1) Subject to legislative appropriations, the department may make and administer grants to local governments for (a) preparing and updating local hazardous waste plans, (b) implementing approved local hazardous waste plans, and (c) designating eligible zones for designated zone facilities as required under this chapter.

(2) Local governments shall match the funds provided by the department for planning or designating zones with an amount not less than twenty-five percent of the estimated cost of the work to be performed. Local governments may meet their share of costs with cash or contributed services. Local governments, or combination of contiguous local governments, conducting pilot projects pursuant to RCW 70.105.220(4) may subtract the cost of those pilot projects conducted for hazardous household substances from their share of the cost. If a pilot project has been conducted for all moderate-risk wastes, only the portion of the cost that applies to hazardous household substances shall be subtracted. The matching funds requirement under this subsection shall be waived for local governments, or combination of contiguous local governments, that complete and submit their local hazardous waste plans under RCW 70.105.220(6) prior to June 30, 1988.

(1) As of July 28, 1985, the state preempts the field of state, regional, or local permitting and regulating of all preempted facilities as defined in this chapter. The department of ecology is designated the sole decision-making authority with respect to permitting and regulating such facilities and no other state agency, department, division, bureau, commission, or board, or any local or regional political subdivision of the state, shall have any permitting or regulatory authority with respect to such facilities including, but not limited to, the location, construction, and operation of such facilities. Permits issued by the department shall be in lieu of any and all permits, approvals, certifications, or conditions of any other state, regional, or local governmental authority which would otherwise apply.

(2) The department shall ensure that any permits issued under this chapter invoking the preemption authority of this section meet the substantive requirements of existing state laws and regulations to the extent such laws and regulations are not inconsistent or in conflict with any of the provisions of this chapter. In the event that any of the provisions of this chapter, or any of the regulations promulgated hereunder, are in conflict with any other state law or regulations, such other law or regulations shall be deemed superseded for purposes of this chapter.

(3) As of July 28, 1985, any ordinances, regulations, requirements, or restrictions of regional or local governmental authorities regarding the location, construction, or operation of preempted facilities shall be deemed superseded. (1) The department may assess reasonable service charges against those facilities that store, treat, incinerate, or dispose of dangerous or extremely hazardous waste that contains both a nonradioactive hazardous component and a radioactive component or which are undergoing closure under this chapter in those instances where closure entails the physical characterization of remaining wastes which contain both a nonradioactive hazardous component and a radioactive component or the management of such wastes through treatment or removal, except any commercial low-level radioactive waste facility. Service charges may not exceed the costs to the department in carrying out the duties of this section.

(2) Program elements or activities for which service charges may be assessed include:

(a) Office, staff, and staff support for the purposes of facility or unit permit development, review, and issuance; and

(b) Actions taken to determine and ensure compliance with the state’s hazardous waste management act.

(3) Moneys collected through the imposition of such service charges shall be deposited in the state toxics control account.

(4) The department shall adopt rules necessary to implement this section. Facilities that store, treat, incinerate, or dispose of dangerous or extremely hazardous waste that contains both a nonradioactive hazardous component and a radioactive component shall not be subject to service charges prior to such rule making. Facilities undergoing closure under this chapter in those instances where closure entails the physical characterization of remaining wastes which contain both a nonradioactive hazardous component and a radioactive component or the management of such wastes through treatment or removal shall not be subject to service charges prior to such rule making. If a metals mining and milling operation is issued a permit pursuant to this chapter, then it will be subject to special inspection requirements. The department of ecology shall inspect these mining operations at least quarterly in order to ensure that the operation is in compliance with the conditions of any permit issued to it pursuant to this chapter. The department shall conduct additional inspections during the construction phase of the mining operation in order to ensure compliance with this chapter. [1994 c 232 § 19.]

(a) Zoned for industrial use by a city or county conducting land use planning under chapter 36.70A RCW; or

(b) For counties not planning under chapter 36.70A RCW and the cities within them, zoned for industrial use and adjacent to properties currently used or designated for industrial purposes.

(15) "Institutional controls" means measures undertaken to limit or prohibit activities that may interfere with the integrity of a remedial action or result in exposure to or migration of hazardous substances at a site. "Institutional controls" include environmental covenants.

(16) "Operating a facility primarily to protect a security interest" occurs when all of the following are met: (a) Operating the facility where the borrower has defaulted on the loan or otherwise breached the security agreement; (b) operating the facility to preserve the value of the facility as an ongoing business; (c) the operation is being done in anticipation of a sale, transfer, or assignment of the facility; and (d) the operation is being done primarily to protect a security interest. Operating a facility for longer than one year prior to foreclosure or its equivalents shall be presumed to be operating the facility for other than to protect a security interest.

(17) "Owner or operator" means:

(a) Any person with any ownership interest in the facility or who exercises any control over the facility; or

(b) In the case of an abandoned facility, any person who had owned, or operated, or exercised control over the facility any time before its abandonment;

(i) An agency of the state or unit of local government which acquired ownership or control through a drug forfeiture action under RCW 69.50.505, or involuntarily through bankruptcy, tax delinquency, abandonment, or other circumstances in which the government involuntarily acquires title. This exclusion does not apply to an agency of the state or unit of local government which has caused or contributed to the release or threatened release of a hazardous substance from the facility;

(ii) A person who, without participating in the management of a facility, holds indicia of ownership primarily to protect the person’s security interest in the facility. Holders after foreclosure and its equivalent and holders who engage in any of the activities identified in subsection (18)(e) through (g) of this section shall not lose this exemption provided the holder complies with all of the following:

(C) The holder complies with any order issued to the holder by the department to abate an imminent or substantial endangerment;

(D) The holder allows the department or potentially liable persons under an order, agreed order, or settlement agreement under this chapter access to the facility to conduct remedial actions and does not impede the conduct of such remedial actions;

(E) Any remedial actions conducted by the holder are in compliance with any preexisting requirements identified by the department, or, if the department has not identified such requirements for the facility, the remedial actions are conducted consistent with the rules adopted under this chapter;

(F) The holder does not exacerbate an existing release. The exemption in this subsection (17)(b)(ii) does not apply to holders who cause or contribute to a new release or threatened release or who are otherwise liable under RCW 70.105D.040(1) (b), (c), (d), and (e); provided, however, that a holder shall not lose this exemption if it establishes that any such new release has been remediated according to the requirements of this chapter and that any hazardous substances remaining at the facility after remediation of the new release are divisible from such new release;

(iii) A fiduciary in his, her, or its personal or individual capacity. This exemption does not preclude a claim against the assets of the estate or trust administered by the fiduciary or against a nonemployee agent or independent contractor retained by a fiduciary. This exemption also does not apply to the extent that a person is liable under this chapter independently of the person’s ownership as a fiduciary or for actions taken in a fiduciary capacity which cause or contribute to a new release or exacerbate an existing release of hazardous substances. This exemption applies provided that, to the extent of the fiduciary’s powers granted by law or by the applicable governing instrument granting fiduciary powers, the fiduciary complies with all of the following:

(A) The fiduciary properly maintains the environmental compliance measures already in place at the facility;

(B) The fiduciary complies with the reporting requirements in the rules adopted under this chapter;

(C) The fiduciary complies with any order issued to the fiduciary by the department to abate an imminent or substantial endangerment;

(E) Any remedial actions conducted by the fiduciary are in compliance with any preexisting requirements identified by the department, or, if the department has not identified such requirements for the facility, the remedial actions are conducted consistent with the rules adopted under this chapter;

(F) The fiduciary does not exacerbate an existing release. The exemption in this subsection (17)(b)(iii) does not apply to fiduciaries who cause or contribute to a new release or threatened release or who are otherwise liable under RCW...

(21) "Potentially liable person" means any person whom the department finds, based on credible evidence, to be liable under RCW 70.105D.040. The department shall give notice to any such person and allow an opportunity for comment before making the finding, unless an emergency requires otherwise.

A holder can prepare a facility for sale, transfer, or assignment for up to one year prior to foreclosure and its equivalents and still stay within the security interest exemption in subsection (17)(b)(iv).

(23) "Primarily to protect a security interest" means the indicia of ownership is held primarily for the purpose of securing payment or performance of an obligation. The term does not include indicia of ownership held primarily for investment purposes nor indicia of ownership held primarily for purposes other than as protection for a security interest. The exemption in this subsection (17)(b)(iii) also does not apply where the fiduciary’s powers to comply with this subsection (17)(b)(iii) are limited by a governing instrument created with the objective purpose of avoiding liability under this chapter or of avoiding compliance with this chapter; or

(iv) Any person who has any ownership interest in, operates, or exercises control over real property where a hazardous substance has come to be located solely as a result of migration of the hazardous substance to the real property through the groundwater from a source off the property, if:

(A) The person can demonstrate that the hazardous substance has not been used, placed, managed, or otherwise handled on the property in a manner likely to cause or contribute to a release of the hazardous substance that has migrated onto the property;

(B) The person has not caused or contributed to the release of the hazardous substance;

(C) The person does not engage in activities that damage or interfere with the operation of remedial actions installed on the person’s property or engage in activities that result in exposure of humans or the environment to the contaminated groundwater that has migrated onto the property;

(D) If requested, the person allows the department, potentially liable persons who are subject to an order, agreed order, or consent decree, and the authorized employees, agents, or contractors of each, access to the property to conduct remedial actions required by the department. The person may attempt to negotiate an access agreement before allowing access; and

(E) Legal withdrawal of groundwater does not disqualify a person from the exemption in this subsection (17)(b)(iv).

18. "Participation in management" means exercising decision-making control over the borrower’s operation of the facility, environmental compliance, or assuming or manifesting responsibility for the overall management of the enterprise encompassing the day-to-day decision making of the enterprise.

The term does not include any of the following: (a) A holder with the mere capacity or ability to influence, or the unexercised right to control facility operations; (b) a holder who conducts or requires a borrower to conduct an environmental audit or an environmental site assessment at the facility for which indicia of ownership is held; (c) a holder who requires a borrower to come into compliance with any applicable laws or regulations at the facility for which indicia of ownership is held; (d) a holder who requires a borrower to conduct remedial actions includingsetting minimum requirements, but does not otherwise control or manage the borrower’s remedial actions or the scope of the borrower’s remedial actions except to prepare a facility for sale, transfer, or assignment; (e) a holder who engages in workout or policing activities primarily to protect the holder’s security interest in the facility; (f) a holder who prepares a facility for sale, transfer, or assignment or requires a borrower to prepare a facility for sale, transfer, or assignment; (g) a holder who operates a facility primarily to protect a security interest, or requires a borrower to continue to operate, a facility primarily to protect a security interest; and (h) a prospective holder who, as a condition of becoming a holder, requires an owner or operator to conduct an environmental audit, conduct an environmental site assessment, come into compliance with any applicable laws or regulations, or conduct remedial actions prior to holding a security interest.
shall be considered to be holding the indicia of ownership for purposes other than primarily to protect a security interest. For facilities that have been acquired through foreclosure or its equivalents prior to July 23, 1995, this five-year period shall begin as of July 23, 1995.

(24) "Public notice" means, at a minimum, adequate notice mailed to all persons who have made timely request of the department and to persons residing in the potentially affected vicinity of the proposed action; mailed to appropriate news media; published in the newspaper of largest circulation in the city or county of the proposed action; and opportunity for interested persons to comment.

(26) "Remedy" or "remedial action" means any action or expenditure consistent with the purposes of this chapter to identify, eliminate, or minimize any threat or potential threat posed by hazardous substances to human health or the environment including any investigative and monitoring activities with respect to any release or threatened release of a hazardous substance and any health assessments or health effects studies conducted in order to determine the risk or potential risk to human health.

(27) "Security interest" means an interest in a facility created or established for the purpose of securing a loan or other obligation. Security interests include deeds of trusts, sellers interest in a real estate contract, liens, legal, or equitable title to a facility acquired incident to foreclosure and its equivalents, and title pursuant to lease financing transactions. Security interests may also arise from transactions such as sale and leasebacks, conditional sales, installment sales, trust receipt transactions, certain assignments, factoring agreements, accounts receivable financing arrangements, easements, and consignments, if the transaction creates or establishes an interest in a facility for the purpose of securing a loan or other obligation.

(28) "Workout activities" means those actions by which a holder, at any time prior to foreclosure and its equivalents, seeks to prevent, cure, or mitigate a default by the borrower or obligor; or to preserve, or prevent the diminution of, the value of the security. Application—Construction—Severability—2007 c 104: See RCW 64.70.015 and 64.70.900.

Findings—Intent—1997 c 406: "The legislature finds that:

(1) Engrossed Substitute House Bill No. 1810 enacted during the 1995 legislative session [1995 c 359] authorized establishment of the model toxics control act policy advisory committee, a twenty-two member committee representing a broad range of interests including the legislature, agriculture, large and small business, environmental organizations, and local and state government. The committee was charged with the task of providing advice to the legislature and the department of ecology to more effectively implement the model toxics control act, chapter 70.105D RCW.  

(2) The committee members committed considerable time and effort to their charge, meeting twenty-six times during 1995 and 1996 to discuss and decide issues. In addition, the committee created four subcommittees that met over sixty times during this same period. There were also numerous working subgroups and drafting committees formed on an ad hoc basis to support the committee’s work. Many members of the public also attended these meetings and were provided opportunities to contribute to the committee deliberations.

(3) The policy advisory committee completed its work and submitted a final report to the department of ecology and the legislature on December 15, 1996. That report contains numerous recommendations for statutory changes that were agreed to by consensus of the committee members or obtained broad support of most of the committee members. Chapter 406, Laws of 1997 is intended to implement those recommended statutory changes." [1997 c 406 § 1.]

70.105D.030 Department’s powers and duties. (1) The department may exercise the following powers in addition to any other powers granted by law:

(a) Investigate, provide for investigating, or require potentially liable persons to investigate any releases or threatened releases of hazardous substances, including but not limited to inspecting, sampling, or testing to determine the nature or extent of any release or threatened release. If there is a reasonable basis to believe that a release or threatened release of a hazardous substance may exist, the department’s authorized employees, agents, or contractors may enter upon any property and conduct investigations. The department shall give reasonable notice before entering property unless an emergency prevents such notice. The department may by subpoena require the attendance or testimony of witnesses and the production of documents or other information that the department deems necessary;

(b) Conduct, provide for conducting, or require potentially liable persons to conduct remedial actions (including investigations under (a) of this subsection) to remedy releases or threatened releases of hazardous substances. In carrying out such powers, the department’s authorized employees, agents, or contractors may enter upon property. The department shall give reasonable notice before entering property unless an emergency prevents such notice. In conducting, providing for, or requiring remedial action, the department shall give preference to permanent solutions to the maximum extent practicable and shall provide for or require adequate monitoring to ensure the effectiveness of the remedial action;

(c) Indemnify contractors retained by the department for carrying out investigations and remedial actions, but not for any contractor’s reckless or willful misconduct;

(d) Carry out all state programs authorized under the federal cleanup law and the federal resource, conservation, and recovery act, 42 U.S.C. Sec. 6901 et seq., as amended;

(e) Classify substances as hazardous substances for purposes of RCW 70.105D.020 and classify substances and products as hazardous substances for purposes of RCW 82.21.020(1);

(f) Issue orders or enter into consent decrees or agreed orders that include, or issue written opinions under (i) of this subsection that may be conditioned upon, environmental covenants where necessary to protect human health and the envi-
operator of releases of hazardous substances to the environment from a release or threatened release of a hazardous substance from a facility. Prior to establishing an environmental covenant under this subsection, the department shall consult with and seek comment from a city or county department with land use planning authority for real property subject to the environmental covenant;

(g) Enforce the application of permanent and effective institutional controls that are necessary for a remedial action to be protective of human health and the environment and the notification requirements established in RCW 70.105D.110, and impose penalties for violations of that section consistent with RCW 70.105D.050;

(h) Require holders to conduct remedial actions necessary to abate an imminent or substantial endangerment pursuant to RCW 70.105D.020(17)(b)(ii)(C);

(i) Provide informal advice and assistance to persons regarding the administrative and technical requirements of this chapter. This may include site-specific advice to persons who are conducting or otherwise interested in independent remedial actions. Any such advice or assistance shall be advisory only, and shall not be binding on the department. As a part of providing this advice and assistance for independent remedial actions, the department may prepare written opinions regarding whether the independent remedial actions or proposals for those actions meet the substantive requirements of this chapter or whether the department believes further remedial action is necessary at the facility. Nothing in this chapter may be construed to preclude the department from issuing a written opinion on whether further remedial action is necessary at any portion of the real property located within a facility, even if further remedial action is still necessary elsewhere at the same facility. Such a written opinion on a portion of a facility must also provide an opinion on the status of the facility as a whole. The department may collect, from persons requesting advice and assistance, the costs incurred by the department in providing such advice and assistance; however, the department shall, where appropriate, waive collection of costs in order to provide an appropriate level of technical assistance in support of public participation. The state, the department, and officers and employees of the state are immune from all liability, and no cause of action of any nature may arise from any act or omission in providing, or failing to provide, informal advice and assistance; and

(j) Take any other actions necessary to carry out the provisions of this chapter, including the power to adopt rules under chapter 34.05 RCW.

(2) The department shall immediately implement all provisions of this chapter to the maximum extent practicable, including investigative and remedial actions where appropriate. The department shall adopt, and thereafter enforce, rules under chapter 34.05 RCW to:

(a) Provide for public participation, including at least (i) public notice of the development of investigative plans or remedial plans for releases or threatened releases and (ii) concurrent public notice of all compliance orders, agreed orders, enforcement orders, or notices of violation;

(b) Establish a hazard ranking system for hazardous waste sites;

(c) Provide for requiring the reporting by an owner or operator of releases of hazardous substances to the environment that may be a threat to human health or the environment within ninety days of discovery, including such exemptions from reporting as the department deems appropriate, however this requirement shall not modify any existing requirements provided for under other laws;

(d) Establish reasonable deadlines not to exceed ninety days for initiating an investigation of a hazardous waste site after the department receives notice or otherwise receives information that the site may pose a threat to human health or the environment and other reasonable deadlines for remedying releases or threatened releases at the site;

(e) Publish and periodically update minimum cleanup standards for remedial actions at least as stringent as the cleanup standards under section 121 of the federal cleanup law, 42 U.S.C. Sec. 9621, and at least as stringent as all applicable state and federal laws, including health-based standards under state and federal law; and

(f) Apply industrial clean-up standards at industrial properties. Rules adopted under this subsection shall ensure that industrial properties cleaned up to industrial standards cannot be converted to nonindustrial uses without approval from the department. The department may require that a property cleaned up to industrial standards is cleaned up to a more stringent applicable standard as a condition of conversion to a nonindustrial use. Industrial clean-up standards may not be applied to industrial properties where hazardous substances remaining at the property after remedial action pose a threat to human health or the environment in adjacent nonindustrial areas.

(3) To achieve and protect the state’s long-term ecological health, the department shall prioritize sufficient funding to clean up hazardous waste sites and prevent the creation of future hazards due to improper disposal of toxic wastes, and create financing tools to clean up large-scale hazardous waste sites requiring multiyear commitments. To effectively monitor toxic accounts expenditures, the department shall develop a comprehensive ten-year financing report that identifies long-term remedial action project costs, tracks expenses, and projects future needs.

(4) Before December 20th of each even-numbered year, the department shall:

(a) Develop a comprehensive ten-year financing report in coordination with all local governments with clean-up responsibilities that identifies the projected biennial hazardous waste site remedial action needs that are eligible for funding from the local toxics control account;

(b) Work with local governments to develop working capital reserves to be incorporated in the ten-year financing report;

(c) Identify the projected remedial action needs for orphaned, abandoned, and other clean-up sites that are eligible for funding from the state toxics control account;

(d) Project the remedial action need, cost, revenue, and any recommended working capital reserve estimate to the next biennium’s long-term remedial action needs from both the local toxics control account and the state toxics control account, and submit this information to the appropriate standing fiscal and environmental committees of the senate and house of representatives. This submittal must also include a ranked list of such remedial action projects for both accounts; and
(e) Provide the legislature and the public each year with an accounting of the department’s activities supported by appropriations from the state and local toxics control accounts, including a list of known hazardous waste sites and their hazard rankings, actions taken and planned at each site, how the department is meeting its waste management priorities under RCW 70.105.150, and all funds expended under this chapter.

(5) The department shall establish a scientific advisory board to render advice to the department with respect to the hazard ranking system, cleanup standards, remedial actions, deadlines for remedial actions, monitoring, the classification of substances as hazardous substances for purposes of RCW 70.105D.020 and the classification of substances or products as hazardous substances for purposes of RCW 82.21.020(1). The board shall consist of five independent members to serve staggered three-year terms. No members may be employees of the department. Members shall be reimbursed for travel expenses as provided in RCW 43.03.050 and 43.03.060.

(6) The department shall establish a program to identify potential hazardous waste sites and to encourage persons to provide information about hazardous waste sites.

(7) For all facilities where an environmental covenant has been required under subsection (1)(f) of this section, including all facilities where the department has required an environmental covenant under an order, agreed order, or consent decree, or as a condition of a written opinion issued under the authority of subsection (1)(i) of this section, the department shall periodically review the environmental covenant for effectiveness. Except as otherwise provided in (c) of this subsection, the department shall conduct a review at least once every five years after an environmental covenant is recorded.

(a) The review shall consist of, at a minimum:

(i) A review of the title of the real property subject to the environmental covenant to determine whether the environmental covenant was properly recorded and, if applicable, amended or terminated;

(ii) A physical inspection of the real property subject to the environmental covenant to determine compliance with the environmental covenant, including whether any development or redevelopment of the real property has violated the terms of the environmental covenant; and

(iii) A review of the effectiveness of the environmental covenant in limiting or prohibiting activities that may interfere with the integrity of the remedial action or that may result in exposure to or migration of hazardous substances. This shall include a review of available monitoring data.

(b) If an environmental covenant has been amended or terminated without proper authority, or if the terms of an environmental covenant have been violated, or if the environmental covenant is no longer effective in limiting or prohibiting activities that may interfere with the integrity of the remedial action or that may result in exposure to or migration of hazardous substances, then the department shall take any and all appropriate actions necessary to ensure compliance with the environmental covenant and the policies and requirements of this chapter.

(c) For facilities where an environmental covenant required by the department under subsection (1)(f) of this section was required before July 1, 2007, the department shall:

(i) Enter all required information about the environmental covenant into the registry established under RCW 64.70.120 by June 30, 2008;

(ii) For those facilities where more than five years has elapsed since the environmental covenant was required and the department has yet to conduct a review, conduct an initial review according to the following schedule:

(A) By December 30, 2008, fifty facilities;

(B) By June 30, 2009, fifty additional facilities; and

(C) By June 30, 2010, the remainder of the facilities;

(iii) Once this initial review has been completed, conduct subsequent reviews at least once every five years. 70.105D.040 Standard of liability—Settlement. (1) Except as provided in subsection (3) of this section, the following persons are liable with respect to a facility:

(a) The owner or operator of the facility;

(b) Any person who owned or operated the facility at the time of disposal or release of the hazardous substances;

(c) Any person who owned or possessed a hazardous substance and who by contract, agreement, or otherwise arranged for disposal or treatment of the hazardous substance at the facility, or arranged with a transporter for transport for disposal or treatment of the hazardous substances at the facility, or otherwise generated hazardous wastes disposed of or treated at the facility;

(d) Any person (i) who accepts or accepted any hazardous substance for transport to such a facility and who by contract, agreement, or otherwise arranged for disposal or treatment of the hazardous substance at the facility, or arranged with a transporter for transport for disposal or treatment of the hazardous substances at the facility, or otherwise generated hazardous wastes disposed of or treated at the facility;

(e) Any person who both sells a hazardous substance and is responsible for written instructions for its use if (i) the substance is used according to the instructions and (ii) the use constitutes a release for which remedial action is required at the facility.

(2008 Ed.)
(2) Each person who is liable under this section is strictly liable, jointly and severally, for all remedial action costs and for all natural resource damages resulting from the releases or threatened releases of hazardous substances. The attorney general, at the request of the department, is empowered to recover all costs and damages from persons liable therefor.

(3) The following persons are not liable under this section:

(a) Any person who can establish that the release or threatened release of a hazardous substance for which the person would be otherwise responsible was caused solely by:
   (i) An act of God;
   (ii) An act of war; or
   (iii) An act or omission of a third party (including but not limited to a trespasser) other than (A) an employee or agent of the person asserting the defense, or (B) any person whose act or omission occurs in connection with a contractual relationship existing, directly or indirectly, with the person asserting this defense to liability. This defense only applies where the person asserting the defense has exercised the utmost care with respect to the hazardous substance, the foreseeable acts or omissions of the third party, and the foreseeable consequences of those acts or omissions;

(b) Any person who is an owner, past owner, or purchaser of a facility and who can establish by a preponderance of the evidence that at the time the facility was acquired by the person, the person had no knowledge or reason to know that any hazardous substance, the release or threatened release of which has resulted in or contributed to the need for the remedial action, was released or disposed of on, in, or at the facility. This subsection (b) is limited as follows:
   (i) To establish that a person had no reason to know, the person must have undertaken, at the time of acquisition, all appropriate inquiry into the previous ownership and uses of the property, consistent with good commercial or customary practice in an effort to minimize liability. Any court interpreting this subsection (b) shall take into account any specialized knowledge or experience on the part of the person, the relationship of the purchase price to the value of the property if uncontaminated, commonly known or reasonably ascertainable information about the property, the obviousness of the presence or likely presence of contamination at the property, and the ability to detect such contamination by appropriate inspection;
   (ii) The defense contained in this subsection (b) is not available to any person who had actual knowledge of the release or threatened release of a hazardous substance when the person owned the real property and who subsequently transferred ownership of the property without first disclosing such knowledge to the transferee;
   (iii) The defense contained in this subsection (b) is not available to any person who, by any act or omission, caused or contributed to the release or threatened release of a hazardous substance at the facility;

(c) Any natural person who uses a hazardous substance lawfully and without negligence for any personal or domestic purpose in or near a dwelling or accessory structure when that person is: (i) A resident of the dwelling; (ii) a person who, without compensation, assists the resident in the use of the substance; or (iii) a person who is employed by the resident, but who is not an independent contractor;

(d) Any person who, for the purpose of growing food crops, applies pesticides or fertilizers without negligence and in accordance with all applicable laws and regulations.

(4) There may be no settlement by the state with any person potentially liable under this chapter except in accordance with this section.

(a) The attorney general may agree to a settlement with any potentially liable person only if the department finds, after public notice and any required hearing, that the proposed settlement would lead to a more expeditious cleanup of hazardous substances in compliance with cleanup standards under RCW 70.105D.030(2)(e) and with any remedial orders issued by the department. Whenever practicable and in the public interest, the attorney general may expedite such a settlement with persons whose contribution is insignificant in amount and toxicity. A hearing shall be required only if at least ten persons request one or if the department determines a hearing is necessary.

(b) A settlement agreement under this section shall be entered as a consent decree issued by a court of competent jurisdiction.

(c) A settlement agreement may contain a covenant not to sue only of a scope commensurate with the settlement agreement in favor of any person with whom the attorney general has settled under this section. Any covenant not to sue shall contain a reopener clause which requires the court to amend the covenant not to sue if factors not known at the time of entry of the settlement agreement are discovered and present a previously unknown threat to human health or the environment.

(d) A party who has resolved its liability to the state under this section shall not be liable for claims for contribution regarding matters addressed in the settlement. The settlement does not discharge any of the other liable parties but it reduces the total potential liability of the others to the state by the amount of the settlement.

(e) If the state has entered into a consent decree with an owner or operator under this section, the state shall not enforce this chapter against any owner or operator who is a successor in interest to the settling party unless under the terms of the consent decree the state could enforce against the settling party, if:
   (i) The successor owner or operator is liable with respect to the facility solely due to that person’s ownership interest or operator status acquired as a successor in interest to the owner or operator with whom the state has entered into a consent decree; and
   (ii) The stay of enforcement under this subsection does not apply if the consent decree was based on circumstances unique to the settling party that do not exist with regard to the successor in interest, such as financial hardship. For consent decrees entered into before July 27, 1997, at the request of a settling party or a potential successor owner or operator, the attorney general shall issue a written opinion on whether a consent decree contains such unique circumstances. For all other consent decrees, such unique circumstances shall be specified in the consent decree.

(f) Any person who is not subject to enforcement by the state under (e) of this subsection is not liable for claims for contribution regarding matters addressed in the settlement.
(5)(a) In addition to the settlement authority provided under subsection (4) of this section, the attorney general may agree to a settlement with a person not currently liable for remedial action at a facility who proposes to purchase, redevelop, or reuse the facility, provided that:

(i) The settlement will yield substantial new resources to facilitate cleanup;

(ii) The settlement will expedite remedial action consistent with the rules adopted under this chapter; and

(iii) Based on available information, the department determines that the redevelopment or reuse of the facility is not likely to contribute to the existing release or threatened release, interfere with remedial actions that may be needed at the site, or increase health risks to persons at or in the vicinity of the site.

(b) The legislature recognizes that the state does not have adequate resources to participate in all property transactions involving contaminated property. The primary purpose of this subsection (5) is to promote the cleanup and reuse of vacant or abandoned commercial or industrial contaminated property. The attorney general and the department may give priority to settlements that will provide a substantial public benefit, including, but not limited to the reuse of a vacant or abandoned manufacturing or industrial facility, or the development of a facility by a governmental entity to address an important public purpose.

6) Nothing in this chapter affects or modifies in any way any person’s right to seek or obtain relief under other statutes or under common law, including but not limited to damages for injury or loss resulting from a release or threatened release of a hazardous substance. No settlement by the department affects any person’s right to obtain a remedy under common law or other statutes.

70.105D.055  Enforcement. (1) With respect to any release, or threatened release, for which the department does not conduct or contract for conducting remedial action and for which the department believes remedial action is in the public interest, the director shall issue orders or agreed orders of the director requiring potentially liable persons to provide the remedial action. Any liable person who refuses, without sufficient cause, to comply with an order or agreed order of the director is liable in an action brought by the attorney general for:

(a) Up to three times the amount of any costs incurred by the state as a result of the party’s refusal to comply; and

(b) A civil penalty of up to twenty-five thousand dollars for each day the party refuses to comply.

The treble damages and civil penalty under this subsection apply to all recovery actions filed on or after March 1, 1989.

(2) Any person who incurs costs complying with an order issued under subsection (1) of this section may petition the department for reimbursement of those costs. If the department refuses to grant reimbursement, the person may, within thirty days thereafter file suit for reimbursement of those costs. If the department refuses to grant reimbursement, the person may, within thirty days thereafter file suit and recover costs by proving that he or she was not a liable person under RCW 70.105D.040 and that the costs incurred were reasonable.

(3) The attorney general shall seek, by filing an action if necessary, to recover the amounts spent by the department for investigative and remedial actions and orders, and agreed orders, including amounts spent prior to March 1, 1989.

(4) The attorney general may bring an action to secure such relief as is necessary to protect human health and the environment under this chapter.

(5)(a) Any person may commence a civil action to compel the department to perform any nondiscretionary duty under this chapter. At least thirty days before commencing the action, the person must give notice of intent to sue, unless a substantial endangerment exists. The court may award attorneys’ fees and other costs to the prevailing party in the action.

(b) Civil actions under this section and RCW 70.105D.060 may be brought in the superior court of Thurston county or of the county in which the release or threatened release exists.

(6) Any person who fails to provide notification of releases consistent with RCW 70.105D.110 or who submits false information is liable in an action brought by the attorney general for a civil penalty of up to five thousand dollars per day for each day the party refuses to comply.

(7) Any person who owns real property or lender holding a mortgage on real property that is subject to a lien filed under RCW 70.105D.055 may petition the department to have the lien removed or the amount of the lien reduced. If, after consideration of the petition and the information supporting the petition, the department decides to deny the request, the person may, within ninety days after receipt of the department’s denial, file suit for removal or reduction of the lien. The person is entitled to removal of a lien under RCW 70.105D.055 if they can prove by a preponderance of the evidence that the person is not a liable party under RCW 70.105D.040. The person is entitled to a reduction of the amount of the lien if they can prove by a preponderance of the evidence:

(a) For liens filed under RCW 70.105D.055(2)(a), the amount of the lien exceeds the remedial action costs the department incurred related to cleanup of the real property; and

(b) For liens filed under RCW 70.105D.055(2)(c), the amount of the lien exceeds the remedial action costs the department incurred related to cleanup of the real property or exceeds the increase of the fair market value of the real property solely attributable to the remedial action conducted by the department. [2005 c 211 § 2; 2002 c 288 § 4; 1994 c 257 § 12; 1989 c 2 § 5 (Initiative Measure No. 97, approved November 8, 1988).]

70.105D.055  Lien authority. (1) It is in the public interest for the department to recover remedial action costs incurred in discharging its responsibility under this chapter, as these recovered funds can then be applied to the cleanup of other facilities. Thus, in addition to other cost-recovery mechanisms provided under this chapter, this section is intended to facilitate the recovery of state funds spent on
remedial actions by providing the department with lien authority. This will also prevent a facility owner or mortgagee from gaining a financial windfall from increased land value resulting from department-conducted remedial actions at the expense of the state taxpayers.

(2) If the state of Washington incurs remedial action costs relating to a remedial action of real property, and those remedial action costs are unrecovered by the state of Washington, the department may file a lien against that real property.

(a) Except as provided in (c) of this subsection, liens filed under this section shall have priority in rank over all other privileges, liens, monetary encumbrances, or other security interests affecting the real property, whenever incurred, filed, or recorded, except for the following liens:

(i) Local and special district property tax assessments; and

(ii) Mortgage liens recorded before liens or notices of intent to conduct remedial actions are recorded under this section.

(b) Liens filed pursuant to (a) and (c) of this subsection shall not exceed the remedial action costs incurred by the state.

(c)(i) If the real property for which the department has incurred remedial action costs is abandoned, the department may choose to limit the amount of the lien to the increase in the fair market value of the real property that is attributable to a remedial action conducted by the department. The increase in fair market value shall be determined by subtracting the county assessor’s value of the real property for the most recent year prior to remedial action being initiated from the value of the real property after remedial action. The value of the real property after remedial action shall be determined by the bona fide purchase price of the real property or by a real estate appraiser retained by the department. Liens limited in this way have priority in rank over all other privileges, liens, monetary encumbrances, or other security interests affecting the real property, whenever incurred, filed, or recorded.

(ii) For the purposes of this subsection, "abandoned" means there has not been significant business activity on the real property for three years or property taxes owed on the real property are three years in arrears prior to the department incurring costs attributable to this lien.

(d) The department shall, when notifying potentially liable persons of their potential liability under RCW 70.105D.040, include a notice stating that if the department incurs remedial action costs relating to the remediation of real property and the costs are not recovered by the department, the department may file a lien against that real property under this section.

(e) Except for emergency remedial actions, the department must provide notice to the following persons before initiating remedial actions conducted by persons under contract to the department on real property on which a lien may be filed under this section:

(i) The real property owner;

(ii) Mortgagees;

(iii) Lienholders of record;

(iv) Persons known to the department to be conducting remedial actions at the facility at the time of such notice; and

(v) Persons known to the department to be under contract to conduct remedial actions at the facility at the time of such notice.

For emergency remedial actions, this notice shall be provided within thirty days after initiation of the emergency remedial actions.

(f) The department may record a copy of the notice in (e) of this subsection, along with a legal description of the property on which the remedial action will take place, with the county auditor in the county where the real property is located. If the department subsequently files a lien, the effective date of the lien will be the date this notice was recorded.

(3) Before filing a lien under this section, the department shall give the owner of real property on which the lien is to be filed and mortgagees and lienholders a notice of its intent to file a lien:

(a) The notice required under this subsection (3) must be sent by certified mail to the real property owner and mortgagees of record at the addresses listed in the recorded documents. If the real property owner is unknown or if a mailed notice is returned as undeliverable, the department shall provide notice by posting a legal notice in the newspaper of largest circulation in the county [in which] the site is located. The notice shall provide:

(i) A statement of the purpose of the lien;

(ii) A brief description of the real property to be affected by the lien;

(iii) A statement of the remedial action costs incurred by the state related to the real property affected by the lien;

(iv) A brief statement of facts showing probable cause that the real property is the subject of the remedial action costs incurred by the department; and

(v) The time period following service or other notice during which any recipient of the notice whose legal rights may be affected by the lien may comment on the notice.

(b) Any comments on the notice must be received by the department on or before thirty days following service or other provision of the notice of intent to file a lien.

(c) If no comments are received by the department, the lien may be filed on the real property immediately.

(d) If the department receives any comments on the lien, the department shall determine if there is probable cause for filing the certificate of lien. If the department determines there is probable cause, the department may file the lien. Any further challenge to the lien may only occur at the times specified under RCW 70.105D.060.

(e) If the department has reason to believe that exigent circumstances require the filing of a lien prior to giving notice under this subsection (3), or prior to the expiration of the time period for comments, the department may file the lien immediately. For the purposes of this subsection (3), exigent circumstances include, but are not limited to, an imminent bankruptcy filing by the real property owner, or the imminent transfer or sale of the real property subject to lien by the real property owner, or both.

(4) A lien filed under this section is effective when a statement of lien is filed with the county auditor in the county where the real property is located. The statement of lien must include a description of the real property subject to lien and the amount of the lien.
(5) Unless the department determines it is in the public interest to remove the lien, the lien continues until the liability for the remedial action costs have been satisfied through sale of the real property, foreclosure, or other means agreed to by the department. Any action for foreclosure of the lien shall be brought by the attorney general in a civil action in the court having jurisdiction and in the manner prescribed for the judicial foreclosure of a mortgage.

(6)(a) This section does not apply to real property owned by a local government or special purpose district or real property used solely for residential purposes and consisting of four residential units or less at the time the lien is recorded. This limitation does not apply to illegal drug manufacturing and storage sites under chapter 64.44 RCW.

(b) If the real property owner has consented to the department filing a lien on the real property, then only subsection (3)(a)(i) through (iii) of this section requiring notice to mortgagees and lienholders of record apply. [2005 c 211 § 1.]

70.105D.060 Timing of review. The department’s investigative and remedial decisions under RCW 70.105D.030 and 70.105D.050, its decisions regarding filing a lien under RCW 70.105D.055, and its decisions regarding liable persons under RCW 70.105D.020, 70.105D.040, 70.105D.050, and 70.105D.055 shall be reviewable exclusively in superior court and only at the following times: (1) In a cost recovery suit under RCW 70.105D.050(3); (2) in a suit by the department to enforce an order or an agreed order, or seek a civil penalty under this chapter; (3) in a suit for reimbursement under RCW 70.105D.050(2); (4) in a suit by the department to compel investigative or remedial action; (5) in a citizen’s suit under RCW 70.105D.050(5); and (6) in a suit for removal or reduction of a lien under RCW 70.105D.050(7). Except in suits for removal or relief of a lien under RCW 70.105D.050(7), the court shall uphold the department’s actions unless they were arbitrary and capricious. In suits for removal or relief of a lien under RCW 70.105D.050(7), the court shall review such suits pursuant to the standards set forth in RCW 70.105D.050(7). 70.105D.070 Toxics control accounts (as amended by 2008 c 328).

(1) The state toxics control account and the local toxics control account are hereby created in the state treasury.

(2) The following moneys shall be deposited into the state toxics control account: (a) Those revenues which are raised by the tax imposed under RCW 82.21.030 and which are attributable to that portion of the rate equal to thirty-one hundredths of one percent; (b) the costs of remedial actions recovered under this chapter or chapter 70.105A RCW; (c) penalties collected or recovered under this chapter; and (d) any other money appropriated or transferred to the account by the legislature. Moneys in the account may be used only to carry out the purposes of this chapter, including but not limited to the following activities:

(i) The state’s responsibility for hazardous waste planning, management, regulation, enforcement, technical assistance, and public education required under chapter 70.105 RCW;

(ii) The state’s responsibility for solid waste planning, management, regulation, enforcement, technical assistance, and public education required under chapter 70.95 RCW;

(iii) The hazardous waste cleanup program required under this chapter;

(iv) State matching funds required under the federal cleanup law;

(v) Financial assistance for local programs in accordance with chapters 70.95, 70.95C, 70.95I, and 70.105 RCW;

(vi) State government programs for the safe reduction, recycling, or disposal of hazardous wastes from households, small businesses, and agriculture;

(vii) Hazardous materials emergency response training;

(viii) Water and environmental health protection and monitoring programs;

(ix) Programs authorized under chapter 70.146 RCW;

(x) A public participation program, including regional citizen advisory committees;

(xi) Public funding to assist potentially liable persons to pay for the costs of remedial action in compliance with cleanup standards under RCW 70.105D.040(4) and when the director has found that the funding will achieve both (A) a substantially more expeditious or enhanced cleanup than would otherwise occur, and (B) the prevention or mitigation of unfair economic hardship; and

(xii) Development and demonstration of alternative management technologies designed to carry out the hazardous waste management priorities of RCW 70.105.150.

(3) The following moneys shall be deposited into the local toxics control account: Those revenues which are raised by the tax imposed under RCW 82.21.030 and which are attributable to that portion of the rate equal to thirty-seven one-hundredths of one percent.

(a) Moneys deposited in the local toxics control account shall be used by the department for grants or loans to local governments for the following purposes in descending order of priority:

(i) Remedial actions;

(ii) Hazardous waste plans and programs under chapter 70.105 RCW;

(iii) Solid waste plans and programs under chapters 70.95, 70.95C, 70.95I, and 70.105 RCW;

(iv) Funds for a program to assist in the assessment and cleanup of sites of methamphetamine production, but not to be used for the initial containment of such sites, consistent with the responsibilities and intent of RCW 69.50.511; and

(v) Cleanup and disposal of hazardous substances from abandoned or derelict vessels, defined for the purposes of this section as vessels that have little or no value and either have no identified owner or have an identified owner lacking financial resources to clean up and dispose of the vessel, that pose a threat to human health or the environment.

(b) Funds for plans and programs shall be allocated consistent with the priorities and matching requirements established in chapters 70.105, 70.95C, 70.95I, and 70.95 RCW, except that any applicant that is a Puget Sound partner, as defined in RCW 90.71.010, along with any project that is referenced in the action agenda developed by the Puget Sound partnership under RCW 90.71.310, shall, except as conditioned by RCW 70.105D.120, receive priority for any available funding for any grant or funding programs or sources that use a competitive bidding process.

(c) Funds may also be appropriated to the department of health to implement programs to reduce testing requirements under the federal safe drinking water act for public water systems. The department of health shall reimburse the account from fees assessed under RCW 70.119A.115 by June 30, 1995.

(d) To expedite cleanups throughout the state, the department shall partner with local communities and liable parties for cleanups. The department is authorized to use the following additional strategies in order to ensure a healthful environment for future generations:

(i) The director may alter grant-matching requirements to create incentives for local governments to expedite cleanups when one of the following conditions exists:

(A) Funding would prevent or mitigate unfair economic hardship imposed by the clean-up liability;

(B) Funding would create new substantial economic development, public recreational, or habitat restoration opportunities that would not otherwise occur; or

(C) Funding would create an opportunity for acquisition and redevelopment of vacant, orphaned, or abandoned property under RCW 70.105D.040(5) that would not otherwise occur;

(ii) The use of outside contractors to conduct necessary studies;

(iii) The purchase of remedial action cost-cap insurance, when necessary to expedite multiparty clean-up efforts. [Title 70 RCW—page 367]
(4) Except for unanticipated receipts under RCW 43.79.260 through 43.79.282, moneys in the state and local toxics control accounts may be spent only after appropriation by statute.

(5) One percent of the moneys deposited into the state and local toxics control accounts shall be allocated only for public participation grants to persons who may be adversely affected by a release or threatened release of a hazardous substance and to not-for-profit public interest organizations. The primary purpose of these grants is to facilitate the participation by persons and organizations in the investigation and remedying of releases or threatened releases of hazardous substances and to implement the state’s solid and hazardous waste management priorities. However, during the 1999-2001 fiscal biennium, funding may not be granted to entities engaged in lobbying activities, and applicants may not be awarded grants if their cumulative grant awards under this section exceed two hundred thousand dollars. No grant may exceed sixty thousand dollars. Grants may be renewed annually.

(6) No moneys deposited into either the state or local toxics control account may be used for solid waste incinerator feasibility studies, construction, maintenance, or operation, or, after January 1, 2010, for projects designed to address the restoration of Puget Sound, funded in a competitive grant process, that are in conflict with the action agenda developed by the Puget Sound partnership under RCW 90.71.310.

(7) The department shall adopt rules for grant or loan issuance and performance.

(8) During the 2007-2009 fiscal biennium, the legislature may transfer from the local toxics control account to the state toxics control account such amounts as reflect excess fund balance in the account, [2008 c 328 § 6009. Prior to 2007 c 529 § 6033; 2007 c 446 § 2; 2007 c 341 § 30; 2005 c 488 § 926; 2003 1st sp.s. c 25 § 933; 2001 c 27 § 2; 2000 2nd sp.s. c 1 § 912; 1999 c 309 § 923; prior: 1998 c 346 § 905; 1998 c 81 § 7; 1997 c 406 § 5; 1994 c 252 § 5; 1991 sp.s. c 13 § 69; 1989 c 2 § 7 (Initiative Measure No. 97, approved November 8, 1988).]

70.105D.070 Toxics control accounts (as amended by 2008 c 329).

(1) The state toxics control account and the local toxics control account are hereby created in the state treasury.
The state's responsibility for hazardous waste planning, management, regulation, enforcement, technical assistance, and public education required under chapter 70.105 RCW;

(ii) The state's responsibility for solid waste planning, management, regulation, enforcement, technical assistance, and public education required under chapter 70.95 RCW;

(iii) The hazardous waste cleanup program required under this chapter;

(iv) State matching funds required under the federal cleanup law;

(v) Financial assistance for local programs in accordance with chapters 70.95, 70.95C, 70.95I, and 70.105 RCW;

(vi) State government programs for the safe reduction, recycling, or disposal of hazardous wastes from households, small businesses, and agriculture;

(vii) Hazardous materials emergency response training;

(viii) Water and environmental health protection and monitoring programs;

(ix) Programs authorized under chapter 70.146 RCW;

(x) A public participation program, including regional citizen advisory committees;

(xi) Public funding to assist potentially liable persons to pay for the costs of remedial action in compliance with clean-up standards under RCW 70.105D.030(2)(e) only but when the amount and terms of such funding are established under a settlement agreement under RCW 70.105D.040(4) and when the director has found that the funding will achieve both (A) a substantially more expeditious or enhanced cleanup than would otherwise occur, and (B) the prevention or mitigation of unfair economic hardship; and

(xii) Development and demonstration of alternative management technologies designed to carry out the hazardous waste management priorities of RCW 70.105.150.

(3) The following moneys shall be deposited into the local toxics control account: Those revenues which are raised by the tax imposed under RCW 82.21.030 and which are attributable to that portion of the rate equal to thirty-seven one-hundredths of one percent.

(a) Moneys deposited in the local toxics control account shall be used by the department for grants or loans to local governments for the following purposes in descending order of priority: (i) Remedial actions; (ii) hazardous waste plans and programs under chapter 70.105 RCW; (iii) solid waste plans and programs under chapters 70.95, 70.95C, 70.95I, and 70.105 RCW; (iv) funds for a program to assist in the assessment and cleanup of sites of methamphetamine production, but not to be used for the initial containment of such sites, consistent with the responsibilities and intent of RCW 69.50.511; and (v) cleanup and disposal of hazardous substances from abandoned or derelict vessels that pose a threat to human health or the environment. For purposes of this subsection (3)(a)(v), "abandoned or derelict vessels" means vessels that have little or no value and either have no identified owner or have an identified owner lacking financial resources to clean up and dispose of the vessel. Funds for plans and programs shall be allocated consistent with the priorities and matching requirements established in chapters 70.105, 70.95C, 70.95I, and 70.95 RCW. During the 1999-2001 fiscal biennium, moneys in the account may also be used for the following activities: Conducting a study of whether dioxins occur in fertilizers, soil amendments, and soils; reviewing applications for registration of fertilizers; and conducting a study of plant uptake of metals. During the 2005-2007 fiscal biennium, the legislature may transfer from the state toxics control account to the state toxics control account such amounts as specified in the omnibus capital budget bill. During the 2005-2007 fiscal biennium, moneys in the account may also be used for grants to local governments to retrofit public sector diesel equipment and for storm water planning and implementation activities.

(b) Funds may also be appropriated to the department of health to implement programs to reduce testing requirements under the federal safe drinking water act for public water systems. The department of health shall reimburse the account from fees assessed under RCW 70.119A.115 by June 30, 1995.

(c) To expedite cleanups throughout the state, the department shall partner with local communities and liable parties for cleanups. The department is authorized to use the following additional strategies in order to ensure a healthful environment for future generations:

(i) The director may alter grant-matching requirements to create incentives for local governments to expedite cleanups when one of the following conditions exists:

(A) Funding would prevent or mitigate unfair economic hardship imposed by the clean-up liability;

(B) Funding would create new substantial economic development, public recreational, or habitat restoration opportunities that would not otherwise occur;

(C) Funding would create an opportunity for acquisition and redevelopment of vacant, orphaned, or abandoned property under RCW 70.105D.040(5) that would not otherwise occur;

(ii) The use of outside contracts to conduct necessary studies;

(iii) The purchase of remedial action cost-cap insurance, when necessary to expedite multiparty clean-up efforts.

(4) Except for unanticipated receipts under RCW 43.79.260 through 43.79.282, moneys in the state and local toxics control accounts may be spent only after appropriation by statute.

(5) One percent of the moneys deposited into the state and local toxics control accounts shall be allocated only for public participation grants to persons who may be adversely affected by a release or threatened release of a hazardous substance and not to-for-profit public interest organizations. The primary purpose of these grants is to facilitate the participation by persons and organizations in the investigation and remedying of releases or threatened releases of hazardous substances and to implement the state's solid and hazardous waste management priorities. However, during the 1999-2001 fiscal biennium, funding may not be granted to entities engaged in lobbying activities, and applicants may not be awarded grants if their cumulative grant awards under this section exceed two hundred thousand dollars. No grant may exceed sixty thousand dollars. Grants may be renewed annually. Monies appropriated for public participation from either account which are not expended at the close of any biennium shall revert to the state toxics control account.

(6) No moneys deposited into either the state or local toxics control account may be used for solid waste incinerator feasibility studies, construction, maintenance, or operation.

(7) The department shall adopt rules for grant or loan issuance and performance.

(8) During the 2005-2007 fiscal biennium, the legislature may transfer from the state toxics control account to the water quality account such amounts as reflect the excess fund balance of the fund.

(9) During the 2007-2009 fiscal biennium, the local toxics control account may also be used for a standby rescue tug at Neah Bay.

Severability—Effective date—2008 c 329: See notes following RCW 28B.105.110.

(ix) Programs authorized under chapter 70.146 RCW;

(a) A public participation program, including regional citizen advisory committees;

(xi) Public funding to assist potentially liable persons to pay for the cost of remedial action in compliance with cleanup standards under RCW 70.105D.030(2)(c) but only when the amount and terms of such funding are established under a settlement agreement under RCW 70.105D.040(4) and when the director has found that the funding will achieve both (A) a substantially more expeditious or enhanced cleanup than would otherwise occur, and (B) the prevention or mitigation of unfair economic hardship; and

(ii) Development and demonstration of alternative management technologies designed to carry out the top two hazardous waste management priorities of RCW 70.105.150.

Finding—2001 c 27: "The legislature finds that there is an increasing number of derelict vessels that have been abandoned in the waters along the shorelines of the state. These vessels pose hazards to navigation and threaten the environment with the potential release of hazardous materials. There is no current federal program that comprehensively addresses this problem, and the legislature recognizes that the state must assist in providing a solution to this increasing hazard." 70.105D.080 Private right of action—Remedial action costs. Except as provided in RCW 70.105D.040(4) (d) and (f), a person may bring a private right of action, including a claim for contribution or for declaratory relief, against any other person liable under RCW 70.105D.040 for the recovery of remedial action costs. In the action, natural resource damages paid to the state under this chapter may also be recovered. Recovery shall be based on such equitable factors as the court determines are appropriate. Remedial action costs shall include reasonable attorneys’ fees and expenses. Recovery of remedial action costs shall be limited to those remedial actions that, when evaluated as a whole, are the substantial equivalent of a department-conducted or department-supervised remedial action. Substantial equivalence shall be determined by the court with reference to the rules adopted by the department under this chapter. An action under this section may be brought after remedial action costs are incurred but must be brought within three years from the date remedial action confirms cleanup standards are met or within one year of May 12, 1993, whichever is later. The prevailing party in such an action shall recover its reasonable costs.
70.105D.090 Remedial actions—Exemption from procedural requirements. (1) A person conducting a remedial action at a facility under a consent decree, order, or agreed order, and the department when it conducts a remedial action, are exempt from the procedural requirements of chapters 70.94, 70.95, 70.105, 77.55, 90.48, and 90.58 RCW, and the procedural requirements of any laws requiring or authorizing local government permits or approvals for the remedial action. The department shall ensure compliance with the substantive provisions of chapters 70.94, 70.95, 70.105, 77.55, 90.48, and 90.58 RCW, and the substantive provisions of any laws requiring or authorizing local government permits of approvals. The department shall establish procedures for ensuring that such remedial actions comply with the substantive requirements adopted pursuant to such laws, and shall consult with the state agencies and local governments charged with implementing these laws. The procedures shall provide an opportunity for comment by the public and by the state agencies and local governments that would otherwise implement the laws referenced in this section. Nothing in this section is intended to prohibit implementing agencies from charging a fee to the person conducting the remedial action to defray the costs of services rendered relating to the substantive requirements for the remedial action.

(2) An exemption in this section or in RCW 70.94.335, 70.95.270, 70.105.116, *77.55.030, 90.48.039, and 90.58.355 shall not apply if the department determines that the exemption would result in loss of approval from a federal agency necessary for the state to administer any federal law, including the federal resource conservation and recovery act, the federal clean water act, the federal clean air act, and the federal coastal zone management act. Such a determination by the department shall not affect the applicability of the exemptions to other persons or circumstances. [2003 c 39 § 30; 1994 c 257 § 14.]

*Reviser's note: RCW 77.55.030 was recodified as RCW 77.55.061 pursuant to 2005 c 146 § 1001.

Severability—1994 c 257: See note following RCW 36.70A.270.

70.105D.100 Grants to local governments—Statement of environmental benefits—Development of outcome-focused performance measures. In providing grants to local governments, the department shall require grant recipients to incorporate the environmental benefits of the project into their grant applications, and the department shall utilize the statement of environmental benefit[s] in its prioritization and selection process. The department shall also develop appropriate outcome-focused performance measures to be used both for management and performance assessment of the grant program. To the extent possible, the department should coordinate its performance measure system with other natural resource-related agencies as defined in RCW 43.41.270. The department shall consult with affected interest groups in implementing this section. [2001 c 227 § 5.]
(d) The cause and date of the release, if known;
(e) The remedial actions being taken or planned to address the release;
(f) The potential health and environmental effects of the hazardous substances released; and
(g) The name, address, and telephone number of a contact person at the facility where the release occurred.

(5) The following releases are exempt from the notification requirements in this section:
(a) Application of pesticides and fertilizers for their intended purposes and according to label instructions;
(b) The lawful and nonnegligent use of hazardous household substances by a natural person for personal or domestic purposes;
(c) The discharge of hazardous substances in compliance with permits issued under chapter 70.94, 90.48, or 90.56 RCW;
(d) De minimis amounts of any hazardous substance leaked or discharged onto the ground;
(e) The discharge of hazardous substances to a permitted waste water treatment facility or from a permitted waste water collection system or treatment facility as allowed by a facility’s discharge permit;
(f) Any releases originating from a single-family or multifamily residence, including but not limited to the discharge of oil from a residential home heating oil tank with the capacity of five hundred gallons or less;
(g) Any spill on a public road, street, or highway or to surface waters of the state that has previously been reported to the United States coast guard and the state division of emergency management under chapter 90.56 RCW;
(h) Any release of hazardous substances to the air;
(i) Any release that occurs on agricultural land, including land used to grow trees for the commercial production of wood or wood fiber, that is at least five acres in size, when the effects of the release do not come within three hundred feet of any property boundary. For the purposes of this subsection, agricultural land includes incidental uses that are compatible with agricultural or silvicultural purposes, including, but not limited to, land used for the housing of the owner, operator, or employees, structures used for the storage or repair of equipment, machinery, and chemicals, and any paths or roads on the land; and
(j) Releases that, before January 1, 2003, have been previously reported to the department, or remediated in compliance with a settlement agreement under RCW 70.105D.040(4) or enforcement order or agreed order issued under this chapter or have been the subject of an opinion from the department under RCW 70.105D.030(1)(i) that no further remedial action is required.

An exemption from the notification requirements of this section does not exempt the owner or operator of a facility from any other notification or reporting requirements, or imply a release from liability under this chapter.

(6) If a significant segment of the community to be notified speaks a language other than English, an appropriate translation of the notice must also be posted and mailed to the department in accordance with the requirements of this section.

(7) The facility where the release occurred is responsible for reimbursing the department within thirty days for the actual costs associated with the production and mailing of the notices under this section. [2002 c 288 § 2.]

Effective date—2002 c 288 §§ 2-4: "Sections 2 through 4 of this act take effect January 1, 2003." [2002 c 288 § 6.]

Severability—2002 c 288: See note following RCW 70.105D.010.

70.105D.120 Puget Sound partners. When administering funds under this chapter, the department shall give preference only to Puget Sound partners, as defined in RCW 90.71.010, in comparison to other entities that are eligible to be included in the definition of Puget Sound partner. Entities that are not eligible to be a Puget Sound partner due to geographic location, composition, exclusion from the scope of the Puget Sound action agenda developed by the Puget Sound partnership under RCW 90.71.310, or for any other reason, shall not be given less preferential treatment than Puget Sound partners. [2007 c 341 § 31.]

Severability—Effective date—2007 c 341: See RCW 90.71.906 and 90.71.907.

70.105D.130 Cleanup settlement account—Reporting requirements. (1) The cleanup settlement account is created in the state treasury. The account is not intended to replace the state toxics control account established under RCW 70.105D.070. All receipts from the sources identified in subsection (2) of this section must be deposited into the account. Moneys in the account may not be spent only after appropriation. Expenditures from the account may be used only as identified in subsection (4) of this section.

(2) The following receipts must be deposited into the cleanup settlement account:
(a) Receipts from settlements or court orders that direct payment to the account and resolve a person’s liability or potential liability under this chapter for either or both of the following:
(i) Conducting future remedial action at a specific facility, if it is not feasible to require the person to conduct the remedial action based on the person’s financial insolvency, limited ability to pay, or insignificant contribution under RCW 70.105D.040(4)(a);
(ii) Assessing or addressing the injury to natural resources caused by the release of a hazardous substance from a specific facility; and
(b) Receipts from investment of the moneys in the account.

(3) If a settlement or court order does not direct payment of receipts described in subsection (2)(a) of this section into the cleanup settlement account, then the receipts from any payment to the state must be deposited into the state toxics control account.

(4) Expenditures from the cleanup settlement account may only be used to conduct remedial actions at the specific facility or to address or address the injury to natural resources caused by the release of hazardous substances from that facility for which the moneys were deposited in the account. Conducting remedial actions or assessing or addressing injury to natural resources includes direct expenditures and indirect expenditures such as department oversight costs.

(5) The department shall track moneys received, interest earned, and moneys expended separately for each facility.
(6) After the department determines that all remedial actions at a specific facility, and all actions assessing or addressing injury to natural resources caused by the release of hazardous substances from that facility, are completed, including payment of all related costs, any moneys remaining for the specific facility must be transferred to the state toxics control account established under RCW 70.105D.070.

(7) The department shall provide the office of financial management and the fiscal committees of the legislature with a report by October 31st of each year regarding the activity within the cleanup settlement account during the previous fiscal year. [2008 c 106 § 1.]

70.105D.900 Short title—1989 c 2. This act shall be known as "the model toxics control act." [1989 c 2 § 22 (Initiative Measure No. 97, approved November 8, 1988).]

70.105D.905 Captions—1989 c 2. As used in this act, captions constitute no part of the law. [1989 c 2 § 21 (Initiative Measure No. 97, approved November 8, 1988).]

70.105D.910 Construction—1989 c 2. The provisions of this act are to be liberally construed to effectuate the policies and purposes of this act. In the event of conflict between the provisions of this act and any other act, the provisions of this act shall govern. [1989 c 2 § 19 (Initiative Measure No. 97, approved November 8, 1988).]

70.105D.915 Existing agreements—1989 c 2. The consent orders and decrees in effect on March 1, 1989, shall remain valid and binding. [1989 c 2 § 20 (Initiative Measure No. 97, approved November 8, 1988).]

70.105D.920 Effective date—1989 c 2. (1) Sections 1 through 24 of this act shall take effect March 1, 1989, except that the director of ecology and the director of revenue may take whatever actions may be necessary to ensure that sections 1 through 24 of this act are implemented on their effective date.

*(2) This section does not apply and shall have no force or effect if (a) this act is passed by the legislature in the 1988 regular session or (b) no bill is enacted by the legislature involving hazardous substance cleanup (along with any other subject matter) between August 15, 1987, and January 1, 1988. [1989 c 2 § 26 (Initiative Measure No. 97, approved November 8, 1988).]

70.105D.921 Severability—1989 c 2. clides, by ensuring that hazardous substance release and disposal sites meet the standards established pursuant to chapter 70.105D RCW.

(7) Effective public and tribal involvement is necessary for government agencies to make sound decisions that will protect human health and the environment for thousands of years. It is Washington state policy to encourage and enhance effective public and tribal involvement in the complex decisions relating to cleanup, closure, permitting, and transportation of mixed waste; and to provide effective assistance to the public and local governments in reviewing and commenting upon complex decision documents. It is appropriate that the polluter pay for necessary public participation for decisions relating to waste releases and risks from mixed waste sites.

(8) The transport of mixed radioactive and hazardous wastes is inherently dangerous, and should be minimized. Decisions involving transportation of these wastes must be made with full involvement of the potentially affected public through whose communities these wastes will pass. [2005 c 1 § 2 (Initiative Measure No. 297, approved November 2, 2004).]

70.105E.030 Definitions. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Dangerous waste" has the same meaning as the term is defined in RCW 70.105.010.

(2) "Department" means the department of ecology.

(3) "Dispose" or "disposal" have the same meanings as the terms are defined in RCW 70.105.010.

(4) "Facility" has the same meaning as the term is defined in RCW 70.105.010.

(5) "Hanford" means the geographic area comprising the Hanford nuclear reservation, owned and operated by the United States department of energy, or any successor federal agency.

(6) "Hazardous substance" has the same meaning as the term is defined in RCW 70.105D.020.

(7) "Hazardous waste" means and includes all dangerous and extremely hazardous waste, as those terms are defined in RCW 70.105.010.

(8) "Local government" means a city, town, or county.

(9) "Mixed waste" or "mixed radioactive and hazardous waste" means any hazardous substance or dangerous or extremely hazardous waste that contains both a nonradioactive hazardous component and a radioactive component, including any such substances that have been released to the environment, or pose a threat of future release, in a manner that may expose persons or the environment to either the nonradioactive or radioactive hazardous substances.

(10) "Mixed waste surcharge" means an additional charge for the purposes of local government and public participation in decisions relating to mixed waste facilities: Added to the service charge assessed under RCW 70.105.280 against those facilities that store, treat, incinerate, or dispose of mixed wastes; or against facilities at which mixed wastes have been released, or which are undergoing closure pursuant to chapter 70.105 RCW or remedial action pursuant to chapter 70.105D RCW.

(11) "Person" has the same meaning as the term is defined in RCW 70.105D.020.

(12) "Release" has the same meaning as the term is defined in RCW 70.105D.020.

(13) "Remedy or remedial action" have the same meanings as the terms are defined in RCW 70.105D.020.

(14) "Site" means the contiguous geographic area under the same ownership, lease, or operation where a facility is located, or where there has been a release of hazardous substances. In the event of a release of hazardous substances, "site" includes any area, or body of surface or ground water, where a hazardous substance has been deposited, stored, disposed of, placed, migrated to, or otherwise come to be located.

(15) Unless otherwise defined, or the context indicates otherwise, terms not defined in this section have the same meaning as defined in chapter 70.105 RCW, when used in this chapter. [2005 c 1 § 3 (Initiative Measure No. 297, approved November 2, 2004).]

70.105E.040 Duties of the department of ecology to regulate mixed wastes. (1) The department of ecology shall regulate mixed wastes to the fullest extent it is not preempted by federal law, pursuant to chapter 70.105 RCW and the further provisions of this chapter.

(2) Any facility owner or operator of a site storing, managing, processing, transferring, treating, or disposing of mixed wastes shall apply for and obtain a final facility permit under chapter 70.105 RCW, this chapter, and RCRA, 42 U.S.C. Sec. 6901 et seq., as amended, before transporting to, storing or disposing at, the facility any additional mixed wastes not generated at the facility. At any facility granted a sitewide permit, under which permits for individual units are appended or become individual chapters, final facility permits must be applied for and obtained, for each unit or facility within the site where mixed wastes are, or will be, stored or disposed, prior to transporting to, storing or disposing at, the facility any additional mixed wastes not generated at the facility.

(3) The department shall not issue any permit requested under subsection (2) of this section unless the facility owner or operator is in compliance with the requirements of chapter 70.105 RCW, this chapter, and RCRA, 42 U.S.C. Sec. 6901 et seq., as amended, for obtaining and maintaining a final facility permit for existing mixed wastes stored, treated, or disposed of at the facility.

(4) If any sites, units, or facilities have interim status or an interim status permit, but fail to meet requirements for maintaining interim status under chapter 70.105 RCW, this chapter, or RCRA, 42 U.S.C. Sec. 6901 et seq., as amended, including but not limited to groundwater monitoring and compliance requirements, the department shall find that the applicant for a final facility permit for mixed wastes under this section has failed to demonstrate compliance for pur-
poses of obtaining such a permit pursuant to subsection (2) or (3) of this section.

(5) The addition of new trenches or cells, or widening or deepening of trenches, at a site with existing trenches containing mixed wastes shall be considered an expansion of the existing facilities for purposes of compliance with chapter 70.105 RCW or this chapter, and any permit or permit modification for such expansion shall be subject to the requirements of this section.

(6)(a) The department shall not issue a permit, or modify any existing permit, allowing for the treatment, storage, or disposal of any additional mixed wastes not generated at the site or facility as part of a remedial or corrective action, until:

(i) The site or facility is in full compliance with the requirements of chapter 70.105 RCW, this chapter, and RCRA, 42 U.S.C. Sec. 6901 et seq., as amended, for obtaining and maintaining a closure permit for any facility or unit from which a release of hazardous substances has occurred or is threatened to occur, after characterization and corrective action; or

(ii) The department has issued a formal determination that no further remedial action is necessary to remedy such a release pursuant to chapter 70.105D RCW.

(b) The prohibitions of this subsection (6) against granting or modifying a permit apply whenever a release of a hazardous substance, including but not limited to releases of radionuclides and any other carcinogenic substances, has occurred at a site or facility, and such release, or the cumulative impact of all releases at the site, are projected by the department to have the potential to exceed the following standards:

(i) Surface or ground water standards established pursuant to federal or state laws, including but not limited to maximum concentration limits, drinking water, or other standards; or

(ii) Cleanup or other standards adopted to protect human health or the environment pursuant to RCW 70.105D.030.

(7) Until all the requirements of subsection (6) [of this section] have been met, the department shall, by permit condition, limit any new construction of, expansion of, or final facility permit for, a facility for treating, storing or disposing of mixed waste to the capacity or size necessary for investigation, characterization, remediation, or corrective action of facilities or units undergoing closure, or remedial or corrective action at the site.

(8) The department may grant or modify permits pursuant to chapter 70.105 RCW solely for the purpose of remediating or closing existing facilities or units where there has been a release or threatened release of mixed wastes, if the permit expressly bars the storage or disposal of wastes that are not generated on-site pursuant to a remedial action, closure or corrective action approved by the department pursuant to this chapter or chapter 70.105D RCW.

(9) The department may permit specific treatment capacity at sites subject to the limitations of this section to be utilized for remediation or clean-up wastes from other sites, consistent with a site treatment plan approved by the department pursuant to RCRA, 42 U.S.C. [Sec.] 6901 et seq., as amended; provided that the department determines, after public notice and comment and consideration of impacts and alternatives in an environmental impact statement prepared pursuant to chapter 43.21C RCW, that use of such capacity will not: (i) Significantly increase any emissions, discharges, risks or consequences of potential accidents; (ii) result in permanent disposal of imported off-site wastes in the soil at the site; (iii) be stored in excess of any applicable time limits, or any applicable requirement; or, (iv) impact funding for cleanup and corrective actions at the site or, result in delay of treatment or remediation of wastes at the site. [2005 c 1 § 4 (Initiative Measure No. 297, approved November 2, 2004).]

### 70.105E.050 Releases of radioactive substances—Clean-up standards.

(1) The department shall consider releases, or potential releases, of radioactive substances or radionuclides as hazardous substances if the radioactive substance poses a risk of a carcinogenic, toxic, or any other adverse health or environmental effect. The department shall require corrective action for, or remediation of, such releases to meet the same health risk based minimum clean-up standards as adopted for other carcinogenic, toxic, or other hazardous substances posing similar health risks pursuant to RCW 70.105D.030.

(2) The department shall include all known or suspected human carcinogens, including radionuclides and radioactive substances, in calculating the applicable clean-up standard, corrective action level, or maximum allowable projected release from a landfill or other facility or unit at which mixed wastes are stored, disposed, or are reasonably believed by the department to be present, for purposes of chapter 70.105 RCW, this chapter, or chapter 70.105D RCW. In making any permit decision pursuant to chapter 70.105 RCW or this chapter, or in reviewing the adequacy of any environmental document prepared by another state, local, or federal agency, relating to mixed waste sites or facilities, the department shall ensure that the cumulative risk from all such carcinogens does not exceed the maximum acceptable carcinogen risk established by the department for purposes of determining clean-up standards pursuant to RCW 70.105D.030, or one additional cancer caused from exposure to all potential releases of hazardous substances at the site per one hundred thousand exposed individuals, whichever is more protective. [2005 c 1 § 5 (Initiative Measure No. 297, approved November 2, 2004).]

### 70.105E.060 Disposal of waste in unlined trenches—Investigation and cleanup of unlined trenches—Closure of mixed waste tank systems.

(1)(a) The department, within sixty days after December 2, 2004, shall order any site owner or operator utilizing landfills or burial grounds containing unlined soil trenches in which mixed wastes are reasonably believed by the department to have been disposed to:

(i) Cease disposal of all further wastes in unlined soil trenches or facilities within thirty days of the order;

(ii) Initiate an investigation to provide the department with an inventory based on actual characterization of all hazardous substances potentially disposed in unlined trenches;
(iii) Initiate an investigation of releases or potential releases of any hazardous substances that were potentially released in unlined trenches;

(iv) Prepare, or pay the costs of the department to prepare, pursuant to the provisions of chapters 70.105 and 70.105D RCW, a plan for waste retrieval, treatment, closure, and monitoring for the unlined soil trenches, which may include temporary caps pending full characterization and remediation, the schedule for which shall be based upon determination of requirements to prevent migration of wastes; and

(v) Install and maintain a groundwater and soil column monitoring system, within two years, which is in compliance with all requirements of chapter 70.105 RCW, this chapter, and RCRA, 42 U.S.C. Sec. 6901 et seq., as amended.

(b) The department shall provide, by rule, for public notice, hearings, and comment on the scope of investigations and all actions necessary to fulfill the purposes of this section. Notice to the public for purposes of this section shall include a description of potential impacts to health or the environment from the facilities, and the potential for any state resources, or land areas, to be restricted from future use due to potential releases of hazardous substances from the site or facility.

(2) At any site with one or more land disposal facilities or units containing unlined trenches or pits, at which mixed wastes are stored or were disposed, any proposed expansion of such land disposal facility or unit, or application to permit new land disposal facilities at the same site, shall be considered to be an impermissible expansion of the existing units or facilities where:

(a) There is a reasonable basis to believe mixed or hazardous wastes are buried or stored that have not been fully characterized to conclusively determine that no mixed or hazardous wastes are present;

(b) A release of a hazardous substance has occurred, including but not limited to releases of radioactive or mixed wastes; or

(c) The department has information to indicate that there is a significant potential for a release of hazardous substances.

(3) Determinations and permit actions, pursuant to chapter 70.105 RCW or this chapter, relating to the closure of tank systems consisting of one or more interconnected tanks in which mixed wastes are currently, or were, stored, shall be made by the department only after consideration of the cumulative impacts of all tank residuals and leaks from such systems at the site pursuant to chapter 43.21C RCW. Actions may not be taken to close individual tanks, or which may prevent the retrieval of residual mixed wastes remaining in a tank, in any element of the tank system, or in the soil due to leaks from the tank system, prior to compliance with this section and determination of the quantity, nature, and potential impacts from such residuals or releases. In no event may the department allow the use of a landfill closure for mixed waste tank systems prior to all potentially effective and practicable actions having been taken to characterize, and remediate, releases and potential releases. The department may require research and development of technologies for characterization or retrieval pursuant to this section. [2005 c 1 § 6 (Initiative Measure No. 297, approved November 2, 2004).]

70.105E.070 Disclosure of costs and clean-up budgets. The department shall require, as a condition for any permit issued pursuant to the provisions of chapter 70.105 RCW or this chapter for facilities storing, treating, or disposing of mixed wastes, and at which hazardous substance releases to the environment have occurred, and remedial or corrective action has not been completed, that the site owner or operator disclose annually to the department the projected total and annual cost of each project or action required to meet the provisions of each applicable federal or state law governing investigation, cleanup, corrective action, closure, or health and safety of facilities at the site; and, if the owner or operator is a state or federal agency, the budgets or budget requests for such purposes for the owner’s current fiscal year and each of the upcoming three fiscal years. Where the owner of the site is a federal agency, the annual disclosure shall be provided to the department within fourteen days of: Submission of the agency’s budget request to congress; final appropriation of funds; and at the time any field request is submitted to the agency’s headquarters for funding in fiscal years beyond the current fiscal year. The disclosures to the department required by this section shall include, at a minimum, a comparison of the cost estimate for all activity required by compliance orders, decrees, schedules, or agreements, with the funds requested and with the funds appropriated. The owner or operator shall provide additional detail on projected costs and budgets, at the request of the department. Every year, the department shall hold public hearings, and seek advice from the site advisory board, on the disclosures required by this section and funding priorities. [2005 c 1 § 7 (Initiative Measure No. 297, approved November 2, 2004).]

70.105E.080 Exemptions: Naval reactor disposal at Hanford—Low-level waste compact. (1) Intent. The state of Washington has previously permitted, and committed to assist in the national need for, disposal of sealed nuclear reactor vessels and compartments from submarines and other vessels of the United States navy; and to operate a regional disposal site for low-level waste with no hazardous waste pursuant to a interstate compact. The United States navy reactor vessels or compartments are sealed in a manner estimated to prevent release of hazardous or radioactive wastes for hundreds of years, exceeding the performance of a liner system while disposal trenches are operating. Therefore, the state of Washington accepts the burden and risks of continued disposal of retired United States navy reactor vessels and low-level waste pursuant to the compact, recognizing that this disposal will cause future impacts to the soil, environment, and groundwater.

(2) Nothing in chapter 1, Laws of 2005 shall affect existing permits for, or in any manner prohibit, the storage or disposal of sealed nuclear reactor vessels or compartments from retired United States navy submarines or surface ships at the existing disposal facility at Hanford, or affect existing per-
mits for the operation of any facility by the federal government at which United States navy reactors are decommissioned or refueled.

(3) Obligations of the state pursuant to the Northwest interstate compact on low-level radioactive waste management and agreements made by the compact shall not be interfered with or affected by any provision of chapter 1, Laws of 2005. If hazardous or mixed wastes have been disposed or released at any facility operated pursuant to the compact, the relevant provisions of this chapter apply. [2005 c 1 § 8 (Initiative Measure No. 297, approved November 2, 2004).]

70.105E.090  Advisory board—Public involvement—Funding. (1) At any site or facility at which there has been a release of mixed wastes, permits issued under chapter 70.105 RCW for mixed waste facilities shall provide for the operation and funding of a broadly representative advisory board. The board shall be composed of representatives chosen by: Potentially affected tribes; regional and statewide citizen groups with an established record of concern regarding human health or the environment impacted or potentially impacted by releases from the site; local groups concerned with health and resource impacts; local governments; and the state of Oregon if that state may be, or has been, impacted by the release or threatened release of waste. Such permits shall specify that the advisory board be continued with adequate funding, provided by the owner or operator of the site, to perform its chartered functions until final closure or certification of the completion of remedial or corrective action.

(2) The department shall request the advisory board created or maintained at a facility pursuant to this section to advise it on procedural and substantive matters necessary for informed public comment. The department shall formally consider and respond to any comments from the advisory board regarding exposure scenarios prior to issuing any decision on a remedial, corrective, or closure action.

(3) The department shall base planning for its own oversight and permitting functions utilizing an assumption that mixed waste facility service charges established pursuant to RCW 70.105D.280 should not be less than one percent of the first two hundred million dollars of the estimated annual site clean-up budget for the coming year, and one-half of one percent of the estimated annual site clean-up budget above that level. If the department determines that a lower or higher level of service charges is necessary to support its oversight and public involvement functions, then it shall seek comment from any advisory committee established for the site, and from the public, regarding the appropriate level of support.

(4)(a) Due to the complexity of issues involving mixed waste storage, treatment and disposal facilities, at such facilities, the department shall make available annual local government and public participation grants for both: (i) Assistance in public review of mixed waste permit, closure, and clean-up decisions; and, (ii) review of, and public comment on, site budgets, compliance costs and funding priorities. Public participation grants pursuant to this section shall be provided as determined by the criteria adopted by the department pursuant to RCW 70.105D.070(5). Local government grants pursuant to this section shall be made available to either a local government or a coalition of local governments. Grants under this section may be renewed annually at a level two times that permitted under RCW 70.105D.070(5), and shall not be subject to annual appropriation by the legislature.

(b) Local government and public participation grants established under this chapter shall be funded through the state toxics control account, by charging an applicant or permit holder a mixed waste surcharge added to the service charge established by RCW 70.105.280. This surcharge shall be collected and administered consistent with the procedures and requirements established in this section and RCW 70.105.280 to ensure adequate public and local government involvement. This mixed waste surcharge shall be no less than fifteen one-hundredths of one percent of the first two hundred million dollars of annual site budget for all related clean-up activities, of which five one-hundredths of one percent shall be available for grants to local government. The mixed waste surcharge for public and local government participation grants shall be five one-hundredths of one percent of the portion of any estimated annual site clean-up budget exceeding two hundred million dollars. Any unused mixed waste surcharges assessed under this section shall remain in the state toxics control account established pursuant to chapter 70.105D RCW, and shall be utilized to reduce the mixed waste surcharge assessed the owner or operator of the facility in future years.

(5) For federal facilities with releases of mixed wastes or hazardous substances owned or operated [by] a federal agency, such as Hanford, the annual site clean-up budget shall be determined by the department, for purposes of this section, based upon the greater of the congressional budget request or appropriations of the federal government for activities at the site related to cleanup or waste management. If the appropriation amount for a fiscal year exceeds the congressional budget request, the department shall adjust the assessment of the mixed waste surcharge within thirty days of final enactment of the appropriation. [2005 c 1 § 9 (Initiative Measure No. 297, approved November 2, 2004).]

70.105E.100  Enforcement and appeals. (1) Any person may bring a civil action to compel the owner or operator of a mixed waste facility to comply with the requirements of this chapter or any permit or order issued by the department pursuant to this chapter; or to compel the department to perform any nondiscretionary duty under this chapter. At least thirty days before commencing the action, the person must give written notice to the department of intent to sue, unless a substantial endangerment exists. The court may award attorney fees and other costs to a prevailing plaintiff in the action.

(2) Orders of the department relating to mixed waste facilities under this chapter may be appealed to the pollution control hearings board, by any person whose interests in natural resources or health may be adversely affected by the action or inaction of the department.

(3) Civil actions under this section may be brought in superior court of Thurston county or of the county in which the release or threatened release of a hazardous substance
occurs, or where mixed wastes that are the subject of the action may be transported, stored, treated, or disposed.

(4) Any violation of this chapter shall be considered a violation of chapter 70.105 RCW, and subject to all enforcement actions by the department or attorney general for violations of that chapter, including imposition of civil or criminal penalties. [2005 c 1 § 10 (Initiative Measure No. 297, approved November 2, 2004).]

70.105E.900 Construction—2005 c 1 (Initiative Measure No. 297). The provisions of this act are to be liberally construed to effectuate the policies and purposes of this act. In the event of conflict between the provisions of this act and any other act, the provisions of this act shall govern. [2005 c 1 § 11 (Initiative Measure No. 297, approved November 2, 2004).]

70.105E.901 Short title—2005 c 1 (Initiative Measure No. 297). This act shall be known as the Cleanup Priority Act. [2005 c 1 § 12 (Initiative Measure No. 297, approved November 2, 2004).]

70.105E.902 Captions not law—2005 c 1 (Initiative Measure No. 297). Captions used in this act are not any part of the law. [2005 c 1 § 13 (Initiative Measure No. 297, approved November 2, 2004).]

[Title 70 RCW—page 378]
vided for under the provisions of chapter 34.05 RCW, Administrative Procedure Act, for the adoption of rules.  [1974 ex.s. c 49 § 6.]

70.106.070 "Package" defined. "Package" means the immediate container or wrapping in which any household substance is contained for consumption, use, or storage by individuals in or about the household, and, for purposes of RCW 70.106.110(1)(b), also means any outer container or wrapping used in the retail display of any such substance to consumers. Such term does not include:

(1) Any shipping container or wrapping used solely for the transportation of any household substance in bulk or in quantity to manufacturers, packers, or processors, or to wholesale or retail distributors thereof; or

(2) Any shipping container or outer wrapping used by retailers to ship or deliver any household substance to consumers unless it is the only such container or wrapping.  [1974 ex.s. c 49 § 7.]

70.106.080 "Special packaging" defined. "Special packaging" means packaging that is designed or constructed to be significantly difficult for children under five years of age to open or obtain a toxic or harmful amount of the substance contained therein within a reasonable time and not difficult for normal adults to use properly, but does not mean packaging which all such children cannot open or obtain a toxic or harmful amount within a reasonable time.  [1974 ex.s. c 49 § 8.]

70.106.090 "Labeling" defined. "Labeling" means all labels and other written, printed, or graphic matter upon any household substance or its package, or accompanying such substance.  [1974 ex.s. c 49 § 9.]

70.106.100 Standards for packaging. (1) The director may establish in accordance with the provisions of this chapter, by regulation, standards for the special packaging of any household substance if he finds that:

(a) The degree or nature of the hazard to children in the availability of such substance, by reason of its packaging is such that special packaging is required to protect children from serious personal injury or serious illness resulting from handling, using or ingesting such substance; and

(b) The special packaging to be required by such standard is technically feasible, practicable, and appropriate for such substance.

(2) In establishing a standard under this section, the director shall consider:

(a) The reasonableness of such standard;

(b) Available scientific, medical, and engineering data concerning special packaging and concerning childhood accidental ingestions, illness, and injury caused by household substances;

(c) The manufacturing practices of industries affected by this chapter; and

(d) The nature and use of the household substance.

(3) In carrying out the provisions of this chapter, the director shall publish his findings, his reasons therefor, and citation of the sections of statutes which authorize his action.  (4) Nothing in this chapter authorizes the director to prescribe specific packaging designs, product content, package quantity, or, with the exception of authority granted in RCW 70.106.110(1)(b), labeling. In the case of a household substance for which special packaging is required pursuant to a regulation under this section, the director may in such regulation prohibit the packaging of such substance in packages which he determines are unnecessarily attractive to children.

(5) The director shall cause the regulations promulgated under this chapter to conform with the requirements or exemptions of the Federal Hazardous Substances Act and with the regulations or interpretations promulgated pursuant thereto.  [1974 ex.s. c 49 § 10.]

70.106.110 Exceptions from packaging standards. (1) For the purpose of making any household substance which is subject to a standard established under RCW 70.106.100 readily available to elderly or handicapped persons unable to use such substance when packaged in compliance with such standard, the manufacturer or packer, as the case may be, may package any household substance, subject to such a standard, in packaging of a single size which does not comply with such standard if:

(a) The manufacturer or packer also supplies such substance in packages which comply with such standard; and

(b) The packages of such substance which do not meet such standard bear conspicuous labeling stating: "This package for households without young children"; except that the director may by regulation prescribe a substitute statement to the same effect for packaging too small to accommodate such labeling.

(2) In the case of a household substance which is subject to such a standard and which is dispensed pursuant to an order of a physician, dentist, or other licensed medical practitioner authorized to prescribe, such substance may be dispensed in noncomplying packages only when directed in such order or when requested by the purchaser.

(3) In the case of a household substance subject to such a standard which is packaged under subsection (1) of this section in a noncomplying package, if the director determines that such substance is not also being supplied by a manufacturer or packer in popular size packages which comply with such standard, he may, after giving the manufacturer or packer an opportunity to comply with the purposes of this chapter, by order require such substance to be packaged by such manufacturer or packer exclusively in special packaging complying with such standard if he finds, after opportunity for hearing, that such exclusive use of special packaging is necessary to accomplish the purposes of this chapter.  [1974 ex.s. c 49 § 11.]

70.106.120 Adoption of rules and regulations under federal poison prevention packaging act. One of the purposes of this chapter is to promote uniformity with the Poison Prevention Packaging Act of 1970 and rules and regulations adopted thereunder. In accordance with such declared purpose, all of the special packaging rules and regulations adopted under the Poison Prevention Packaging Act of 1970 (84 Stat. 1670; 7 U.S.C. Sec. 135; 15 U.S.C. Sec. 1261, 1471-1476; 21 U.S.C. Sec. 343, 352, 353, 362) on July 24, 1974,
are hereby adopted as rules and regulations applicable to this chapter. In addition, any rule or regulation adopted hereafter under said Federal Poison Prevention Act of 1970 concerning special packaging and published in the federal register shall be deemed to have been adopted under the provisions of this chapter. The director may, however, within thirty days of the publication of the adoption of any such rule or regulation under the Federal Poison Prevention Packaging Act of 1970, give public notice that a hearing will be held to determine if such regulations shall not be applicable under the provisions of this chapter. Such hearing shall be conducted in accord with the provisions of chapter 34.05 RCW, Administrative Procedure Act, as now enacted or hereafter amended. [1974 ex.s. c 49 § 12.]

70.106.140 Penalties. (1) Except as provided in subsection (2) of this section, any person violating the provisions of this chapter or rules adopted under this chapter is guilty of a misdemeanor.

(2) A second or subsequent violation of the provisions of this chapter or rules adopted under this chapter is a gross misdemeanor. Any offense committed more than five years after a previous conviction shall be considered a first offense. [2003 c 53 § 358; 1974 ex.s. c 49 § 16.]

Intent—Effective date—2003 c 53: See notes following RCW 2.48.180.

70.106.150 Authority to adopt regulations—Delegation of authority to board of pharmacy. The authority to promulgate regulations for the efficient enforcement of this chapter is hereby vested in the director. However, the director shall designate the Washington state board of pharmacy to carry out all the provisions of this chapter pertaining to drugs and cosmetics, with authority to promulgate regulations for the efficient enforcement thereof. [1987 c 236 § 1.]

70.106.900 Severability—1974 ex.s. c 49. If any provision of this 1974 act is declared unconstitutional, or the applicability thereof to any person or circumstance is held invalid, the constitutionality of the remainder of the act and the applicability thereof to other persons and circumstances shall not be affected thereby. [1974 ex.s. c 49 § 14.]

70.106.905 Saving—1974 ex.s. c 49. The enactment of this 1974 act shall not have the effect of terminating, or in any way modifying any liability, civil or criminal, which shall already be in existence on July 24, 1974. [1974 ex.s. c 49 § 15.]

70.106.910 Chapter cumulative and nonexclusive. The provisions of this chapter shall be cumulative and nonexclusive and shall not affect any other remedy. [1974 ex.s. c 49 § 17.]

control technology and practice is provided. These rules may include, but shall not be limited to:

(a) Performance standards setting allowable noise limits for the operation of products which produce noise;
(b) Use standards regulating, as to time and place, the operation of individual products which produce noise above specified levels considering frequency spectrum and duration: PROVIDED, The rules shall provide for temporarily exceeding those standards for stated purposes; and
(c) Public information requirements dealing with disclosure of levels and characteristics of noise produced by products.

(3) The department may, as desirable in the performance of its duties under this chapter, conduct surveys, studies and public education programs, and enter into contracts.

(4) The department is authorized to apply for and accept moneys from the federal government and other sources to assist in the implementation of this chapter.

(5) The legislature recognizes that the operation of motor vehicles on public highways as defined in RCW 46.09.020 contributes significantly to environmental noise levels and directs the department, in exercising the rule-making authority under the provisions of this section, to give first priority to the adoption of motor vehicle noise performance standards.

(6) Noise levels and rules adopted by the department pursuant to this chapter shall not be effective prior to March 31, 1975. [1974 ex.s. c 183 § 3.]

70.107.040 Technical advisory committee. The director shall name a technical advisory committee to assist the department in the implementation of this chapter. Committee members shall be entitled to reimbursement for travel expenses as provided in RCW 43.03.050 and 43.03.060, as now existing or hereafter amended. [1975-'76 2nd ex.s. c 34 § 164; 1974 ex.s. c 183 § 4.]

70.107.050 Civil penalties. (1) Any person who violates any rule adopted by the department under this chapter shall be subject to a civil penalty not to exceed one hundred dollars imposed by local government pursuant to this section. An action under this section shall not preclude enforcement of any provisions of the local government noise ordinance.

Penalties shall become due and payable thirty days from the date of receipt of a notice of penalty unless within such time said notice is appealed in accordance with the administrative procedures of the local government, or if it has no such administrative appeal, to the pollution control hearings board pursuant to the provisions of chapter 43.21B RCW and procedural rules adopted thereunder. In cases in which appeals are timely filed, penalties sustained by the local administrative agency or the pollution control hearings board shall become due and payable on the issuance of said agency or board’s final order in the appeal.

(2) Whenever penalties incurred pursuant to this section have become due and payable but remain unpaid, the attorney for the local government may bring an action in the superior court of the county in which the violation occurred for recovery of penalties incurred. In all such actions the procedures and rules of evidence shall be the same as in any other civil action. [1987 c 103 § 2; 1974 ex.s. c 183 § 5.]

70.107.060 Other rights, remedies, powers, duties and functions—Local regulation—Approval—Procedure. (1) Nothing in this chapter shall be construed to deny, abridge or alter alternative rights of action or remedies in equity or under common law or statutory law, criminal or civil.

(2) Nothing in this chapter shall deny, abridge or alter any powers, duties and functions relating to noise abatement and control now or hereafter vested in any state agency, nor shall this chapter be construed as granting jurisdiction over the industrial safety and health of employees in work places of the state, as now or hereafter vested in the department of labor and industries.

(3) Standards and other control measures adopted by the department under this chapter shall be exclusive except as hereinafter provided. A local government may impose limits or control sources differing from those adopted or controlled by the department upon a finding that such requirements are necessitated by special conditions. Noise limiting requirements of local government which differ from those adopted or controlled by the department shall be invalid unless first approved by the department. If the department of ecology fails to approve or disapprove standards submitted by local governmental jurisdictions within ninety days of submittal, such standards shall be deemed approved. If disapproved, the local government may appeal the decision to the pollution control hearings board which shall decide the appeal on the basis of the provisions of this chapter, and the applicable regulations, together with such briefs, testimony, and oral argument as the hearings board in its discretion may require. The department determination of whether to grant approval shall depend on the reasonableness and practicability of compliance. Particular attention shall be given to stationary sources located near jurisdictional boundaries, and temporary noise producing operations which may operate across one or more jurisdictional boundaries.

(4) In carrying out the rule-making authority provided in this chapter, the department shall follow the procedures of the administrative procedure act, chapter 34.05 RCW, and shall take care that no rules adopted purport to exercise any powers preempted by the United States under federal law. [1987 c 103 § 1; 1974 ex.s. c 183 § 6.]

70.107.070 Rules relating to motor vehicles—Violations—Penalty. Any rule adopted under this chapter relating to the operation of motor vehicles on public highways shall be administered according to testing and inspection procedures adopted by rule by the state patrol. Reviser's note: Throughout chapter 70.108 RCW the references to "this act" have been changed to "this chapter." "This act" [1971 ex.s. c 302] consists of this chapter, the 1971 amendments to RCW 9.40.110-9.40.130, 9.41.010, 9.41.070, 26.44.050, 70.74.135, 70.74.270, 70.74.280, and the enactment of RCW 9.27.015 and 9.91.110.

70.108.010 Legislative declaration. The legislature hereby declares it to be the public interest, and for the protection of the health, welfare and property of the residents of the state of Washington to provide for the orderly and lawful conduct of outdoor music festivals by assuring that proper sanitary, health, fire, safety, and police measures are provided and maintained. This invocation of the police power is prompted by and based upon prior experience with outdoor music festivals where the enforcement of the existing laws and regulations on dangerous and narcotic drugs, indecent exposure, intoxicating liquor, and sanitation has been rendered most difficult by the flagrant violations thereof by a large number of festival patrons. [1971 ex.s. c 302 § 19.]

Severability—1971 ex.s. c 302: See note following RCW 9.41.010.

70.108.020 Definitions. For the purposes of this chapter the following words and phrases shall have the indicated meanings:

(1) "Outdoor music festival" or "music festival" or "festival" means an assembly of persons gathered primarily for outdoor, live or recorded musical entertainment, where the predicted attendance is two thousand persons or more and where the duration of the program is five hours or longer: PROVIDED, That this definition shall not be applied to any regularly established permanent place of worship, stadium, athletic field, arena, auditorium, coliseum, or other similar permanently established places of assembly for assemblies which do not exceed by more than two hundred fifty people the maximum seating capacity of the structure where the assembly is held: PROVIDED, FURTHER, That this definition shall not apply to government sponsored fairs held on regularly established fairgrounds nor to assemblies required to be licensed under other laws or regulations of the state.

(2) "Promoter" means any person or other legal entity issued a permit to conduct an outdoor music festival.

(3) "Applicant" means the promoter who has the right of control of the conduct of an outdoor music festival who applies to the appropriate legislative authority for a license to hold an outdoor music festival.

(4) "Issuing authority" means the legislative body of the local governmental unit where the site for an outdoor music festival is located.

(5) "Participate" means to knowingly provide or deliver to the festival site supplies, materials, food, lumber, beverages, sound equipment, generators, or musical entertainment and/or to attend a music festival. A person shall be presumed to have knowingly provided as that phrase is used herein after he has been served with a court order. [1971 ex.s. c 302 § 21.]

70.108.030 Permits—Required—Compliance with rules and regulations. No person or other legal entity shall knowingly allow, conduct, hold, maintain, cause to be advertised or permit an outdoor music festival unless a valid permit has been obtained from the issuing authority for the operation of such music festival as provided for by this chapter. One such permit shall be required for each outdoor music festival. A permit may be granted for a period not to exceed sixteen consecutive days and a festival may be operated during any or all of the days within such period. Any person, persons, partnership, corporation, association, society, fraternal or social organization, failing to comply with the rules, regulations or conditions contained in this chapter shall be subject to the appropriate penalties as prescribed by this chapter. [1971 ex.s. c 302 § 22.]

70.108.040 Application for permit—Contents—Filing. Application for an outdoor music festival permit shall be in writing and filed with the clerk of the issuing authority wherein the festival is to be held. Said application shall be filed not less than ninety days prior to the first scheduled day of the festival and shall be accompanied with a permit fee in the amount of two thousand five hundred dollars. may within fifteen days after the applicant has filed his application apply to the issuing authority for reimbursement of expenses reasonably incurred in reviewing such request. Upon a finding that such expenses were reasonably incurred the issuing authority shall reimburse the local agency therefor from the funds of the permit fee. The issuing authority shall prior to the first scheduled date of the festival return to the applicant that portion of the permit fee remaining after all such reimbursements have been made. [1971 ex.s. c 302 § 25.]

70.108.070 Cash deposit—Surety bond—Insurance. After the application has been approved the promoter shall deposit with the issuing authority, a cash deposit or surety bond. The bond or deposit shall be used to pay any costs or charges incurred to regulate health or to clean up afterwards outside the festival grounds or any extraordinary costs or charges incurred to regulate traffic or parking. The bond or other deposit shall be returned to the promoter when the issuing authority is satisfied that no claims for damage or loss will be made against said bond or deposit, or that the loss or damage claimed is less than the amount of the deposit, in which case the uncommitted balance thereof shall be returned: PROVIDED, That the bond or cash deposit or the uncommitted portion thereof shall be returned not later than thirty days after the last day of the festival.

In addition, the promoter shall be required to furnish evidence that he has in full force and effect a liability insurance policy in an amount of not less than one hundred thousand dollars bodily injury coverage per person covering any bodily injury negligently caused by any officer or employee of the festival while acting in the performance of his or her duties. The policy shall name the issuing authority of the permit as an additional named insured.

The policy shall have the issuing authority of the permit as an additional named insured. [1972 ex.s. c 123 § 3, 1971 ex.s. c 302 § 26.]

70.108.080 Revocation of permits. Revocation of any permit granted pursuant to this chapter shall not preclude the imposition of penalties as provided for in this chapter and the laws of the state of Washington. Any permit granted pursuant to the provisions of this chapter to conduct a music festival shall be summarily revoked by the issuing authority when it finds that by reason of emergency the public peace, health, safety, morals or welfare can only be preserved and protected by such revocation.

Any permit granted pursuant to the provisions of this chapter to conduct a music festival may otherwise be revoked for any material violation of this chapter or the laws of the state of Washington after a hearing held upon not less than three days notice served upon the promoter personally or by certified mail.

Every permit issued under the provisions of this chapter shall state that such permit is issued as a measure to protect and preserve the public peace, health, safety, morals and welfare, and that the right of the appropriate authority to revoke such permit is a consideration of its issuance. [1971 ex.s. c 302 § 27.]

70.108.090 Drugs prohibited. No person, persons, partnership, corporation, association, society, fraternal or social organization to whom a music festival permit has been granted shall, during the time an outdoor music festival is in operation, knowingly permit or allow any person to bring upon the premises of said music festival, any narcotic or dangerous drug as defined by chapters *69.33 or 69.40 RCW, or knowingly permit or allow narcotic or dangerous drug to be consumed on the premises, and no person shall take or carry onto said premises any narcotic or dangerous drug. [1971 ex.s. c 302 § 28.]

70.108.120 Permits—Posting—Transferability. Any permit granted pursuant to this chapter shall be posted in a conspicuous place on the site of the outdoor music festival and such permit shall be not transferable or assignable without the consent of the issuing authority. [1971 ex.s. c 302 § 31.]

70.108.130 Penalty. (1) Except as otherwise provided in this section, any person who willfully fails to comply with the rules, regulations, and conditions set forth in this chapter or who aids or abets such a violation or failure to comply is guilty of a gross misdemeanor.

(2)(a) Except as provided in (b) of this subsection, violation of such a rule, regulation, or condition relating to traffic including parking, standing, stopping, and pedestrian offenses is a traffic infraction.

(b) Violation of such a rule, regulation, or condition equivalent to those provisions of Title 46 RCW set forth in RCW 46.63.020 is a misdemeanor. [2003 c 53 § 359; 1979 ex.s. c 136 § 104; 1971 ex.s. c 302 § 32.]

[1972 ex.s. c 123 § 5.]

70.108.160 Preparations—Completion requirements. All preparations required to be made by the provisions of this chapter on the music festival site shall be completed thirty days prior to the first day scheduled for the festival. Upon such date or such earlier date when all preparations have been completed, the promoter shall notify the issuing authority thereof, and the issuing authority shall make an inspection of the festival site to determine if such preparations are in reasonably full compliance with plans submitted pursuant to RCW 70.108.040. INFANT CRIB SAFETY ACT

70.111.030 Unsafe cribs—Prohibition—Definition—Penalty.

70.111.901 Severability—1996 c 158.

70.111.010 Findings—Purpose—Intent. (1) The legislature finds all of the following:
(a) The disability and death of infants resulting from injuries sustained in crib accidents are a serious threat to the public health, welfare, and safety of the people of this state.
(b) Infants are an especially vulnerable class of people.
(c) The design and construction of a baby crib must ensure that it is safe to leave an infant unattended for extended periods of time. A parent or caregiver has a right to believe that the crib in use is a safe place to leave an infant.
(d) Over thirteen thousand infants are injured in unsafe cribs every year.
(e) In the past decade, six hundred twenty-two infants died (a rate of sixty-two infants each year) from injuries sustained in unsafe cribs.
(f) The United States consumer product safety commission estimates that the cost to society resulting from injuries and death due to unsafe cribs is two hundred thirty-five million dollars per year.
(g) Secondhand, hand-me-down, and heirloom cribs pose a special problem. There were four million infants born in this country last year, but only one million new cribs sold. As many as three out of four infants are placed in secondhand, hand-me-down, or heirloom cribs.
(h) Most injuries and deaths occur in secondhand, hand-me-down, or heirloom cribs.

(i) Existing state and federal legislation is inadequate to deal with this hazard.
(j) Prohibiting the remanufacture, retrofit, sale, contracting to sell or resell, leasing, or subletting of unsafe cribs, particularly unsafe secondhand, hand-me-down, or heirloom cribs, will prevent injuries and deaths caused by cribs.

(2) The purpose of this chapter is to prevent the occurrence of injuries and deaths to infants as a result of unsafe cribs by making it illegal to remanufacture, retrofit, sell, contract to sell or resell, lease, sublet, or otherwise place in the stream of commerce, after June 6, 1996, any full-size or nonfull-size crib that is unsafe for any infant using the crib.

(3) It is the intent of the legislature to encourage public and private collaboration in disseminating materials relative to the safety of baby cribs to parents, child care providers, and those who would be likely to place unsafe cribs in the stream of commerce. The legislature also intends that informational materials regarding baby crib safety be available to consumers through the department of health. [1996 c 158 § 1.]

70.111.020 Definitions. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.
(1) "Infant" means any person less than thirty-five inches tall and less than three years of age.
(2) "Crib" means a bed or containment designed to accommodate an infant.
(3) "Full-size crib" means a full-size crib as defined in Section 1508.3 of Title 16 of the Code of Federal Regulations regarding the requirements for full-size cribs.
(4) "Nonfull-size crib" means a nonfull-size crib as defined in Section 1509.2(b) of Title 16 of the Code of the Federal Regulations regarding the requirements for nonfull-size cribs.
(5) "Person" means any natural person, firm, corporation, association, or agent or employee thereof.
(6) "Commercial user" means any person who deals in full-size or nonfull-size cribs of the kind governed by this chapter or who otherwise by one’s occupation holds oneself out as having knowledge or skill peculiar to the full-size or nonfull-size cribs governed by this chapter, including child care facilities and family child care homes licensed by the department of social and health services under chapter 74.15 RCW, or any person who is in the business of remanufacturing, retrofitting, selling, leasing, subletting, or otherwise placing in the stream of commerce full-size or nonfull-size cribs. [1996 c 158 § 3.]

70.111.030 Unsafe cribs—Prohibition—Definition—Penalty. (1) No commercial user may remanufacture, retrofit, sell, contract to sell or resell, lease, sublet, or otherwise place in the stream of commerce, on or after June 6, 1996, a full-size or nonfull-size crib that is unsafe for any infant using the crib.

(2) A crib is presumed to be unsafe pursuant to this chapter if it does not conform to all of the following:
(a) Part 1508 (commencing with Section 1508.1) of Title 16 of the Code of Federal Regulations;
(b) Part 1509 (commencing with Section 1509.1) of Title 16 of the Code of Federal Regulations;
(c) Part 1303 (commencing with Section 1303.1) of Title 16 of the Code of Federal Regulations;
(d) American Society for Testing Materials Voluntary Standards F966-90;
(e) American Society for Testing Materials Voluntary Standards F1169.88;
(f) Any regulations that are adopted in order to amend or supplement the regulations described in (a) through (e) of this subsection.
(3) Crib[s] that are unsafe or fail to perform as expected pursuant to subsection (2) of this section include, but are not limited to, cribs that have any of the following dangerous features or characteristics:
(a) Corner posts that extend more than one-sixteenth of an inch;
(b) Spaces between side slats more than two and three-eighths inches;
(c) Mattress support that can be easily dislodged from any point of the crib. A mattress segment can be easily dislodged if it cannot withstand at least a twenty-five pound upward force from underneath the crib;
(d) Cutout designs on the end panels;
(e) Rail height dimensions that do not conform to the following:
   (i) The height of the rail and end panel as measured from the top of the rail or panel in its lowest position to the top of the mattress support in its highest position is at least nine inches;
   (ii) The height of the rail and end panel as measured from the top of the rail or panel in its highest position to the top of the mattress support in its lowest position is at least twenty-six inches;
   (f) Any screws, bolts, or hardware that are loose and not secured;
   (g) Sharp edges, points, or rough surfaces, or any wood surfaces that are not smooth and free from splinters, splits, or cracks;
   (h) Nonfull-size cribs with tears in mesh or fabric sides.

70.114.010 Legislative declaration—Fees for use of housing. The legislature finds that the migrant labor housing project constructed on property purchased by the state in Yakima county should be continued until June 30, 1981. The employment security department is authorized to set day use or extended period use fees, consistent with those established by the department of parks and recreation. [1979 ex.s. c 79 § 1; 1977 ex.s. c 287 § 1; 1975 1st ex.s. c 50 § 1; 1974 ex.s. c 125 § 1.]

[Title 70 RCW—page 388]
70.114A.010 Findings—Intent. The legislature finds that there is an inadequate supply of temporary and permanent housing for migrant and seasonal workers in this state. The legislature also finds that unclear, complex regulations related to the development, construction, and permitting of worker housing inhibit the development of this much needed housing. The legislature further finds that as a result, many workers are forced to obtain housing that is unsafe and unsanitary.

Therefore, it is the intent of the legislature to encourage the development of temporary and permanent housing for workers that is safe and sanitary by: Establishing a clear and concise set of regulations for temporary housing; establishing a streamlined permitting and administrative process that will be locally administered and encourage the development of such housing; and by providing technical assistance to organizations or individuals interested in the development of worker housing. [1995 c 220 § 1.]

70.114A.020 Definitions. The definitions in this section apply throughout this chapter.

70.114A.045 Housing operation standards—Departments' agreement—Enforcement. By December 1, 1999, the department and the department of labor and industries shall jointly establish a formal agreement that identifies the roles of each of the two agencies with respect to the enforcement of temporary worker housing operation standards.

The agreement shall, to the extent feasible, provide for inspection and enforcement actions by a single agency, and shall include measures to avoid multiple citations for the same violation. [1999 c 374 § 3.]

70.114A.050 Housing on rural worksites. Temporary worker housing located on a rural worksite, and used for workers employed on the worksite, shall be considered a permitted use at the rural worksite for the purposes of zoning or other land use review processes, subject only to height, setback, and road access requirements of the underlying zone. 70.114A.065 Licensing, operation, and inspection—Rules. The department and the department of labor and industries shall adopt joint rules for the licensing, operation, and inspection of temporary worker housing, and the enforcement thereof. 70.114A.070 Technical assistance. The department of community, trade, and economic development shall contract with private, nonprofit corporations to provide technical assistance to any private individual or nonprofit organization wishing to construct temporary or permanent worker housing. The assistance may include information on state and local application and approval procedures, information or assistance in applying for federal, state, or local financial assistance, including tax incentives, information on cost-effective housing designs, or any other assistance the department of community, trade, and economic development may deem helpful in obtaining the active participation of private individuals or groups in constructing or operating temporary or permanent worker housing. [1995 c 220 § 7.]

70.114A.081 Temporary worker building code—Rules—Guidelines—Exceptions—Enforcement—Variations. (1) The department shall adopt by rule a temporary worker building code in conformance with the temporary worker housing standards developed under the Washington industrial safety and health act, chapter 49.17 RCW, and the following guidelines:

(a) The temporary worker building code shall provide construction standards for shelter and associated facilities that are safe, secure, and capable of withstanding the stresses and loads associated with their designated use, and to which they are likely to be subjected by the elements;

(b) The temporary worker building code shall permit and facilitate designs and formats that allow for maximum affordability, consistent with the provision of decent, safe, and sanitary housing;

(c) In developing the temporary worker building code the department of health shall consider:

(i) The need for dormitory type housing for groups of unrelated individuals; and

(ii) The need for housing to accommodate families;

(d) The temporary worker building code shall incorporate the opportunity for the use of construction alternatives and the use of new technologies that meet the performance standards required by law;

(e) The temporary worker building code shall include standards for heating and insulation appropriate to the type of structure and length and season of occupancy;

(f) The temporary worker building code shall include standards for temporary worker housing that are to be used only during periods when no auxiliary heat is required; and

(2) In adopting the temporary worker building code, the department shall make exceptions to the codes listed in RCW 19.27.031 and chapter 19.27A RCW, in keeping with the guidelines set forth in this section. The initial temporary worker building code adopted by the department shall be substantially equivalent to the temporary worker building code developed by the state building code council as directed by section 8, chapter 220, Laws of 1995.

(3) The temporary worker building code authorized and required by this section shall be enforced by the department.

The department shall have the authority to allow minor variations from the temporary worker building code that do not compromise the health or safety of workers. Procedures for requesting variations and guidelines for granting such requests shall be included in the rules adopted under this section. [1999 c 374 § 8; 1998 c 37 § 2.]

70.114A.085 Temporary worker building code—Report. The department shall prepare a report to the legislature on utilization of the temporary worker building code authorized by RCW 70.114A.081. The report shall include the number of housing units, number of families or individuals housed, number of growers obtaining permits, the geographic distribution of the permits, and recommendations of changes in the temporary worker building code necessary to avoid health and safety problems for the occupants. The report shall be transmitted to the senate committee on commerce, trade, housing and financial institutions and the house of representatives committee on economic development, housing and trade by December 15, 2000, and an update shall be transmitted every two years thereafter. (1) The department and the department of labor and industries are directed to engage in joint rule making to establish standards for cherry harvest temporary labor camps. These standards may include some variation from standards that are necessary for longer occupancies, provided they are as effective as the standards adopted under the Washington industrial safety and health act, chapter 49.17 RCW. As used in this section "cherry harvest temporary labor camp" means a place where housing and related facilities are provided to agricultural employees by agricultural employers for their use while employed for the harvest of cherries. The housing and facilities may be occupied by agricultural employees for a period not to exceed one week before the

lems which threaten the present or future water quality or reliability of service in such a manner that efficient and orderly development may best be achieved through coordinated planning by the water utilities in the area.

(3) "Public water system" means any system providing water intended for, or used for, human consumption or other domestic uses. It includes, but is not limited to, the source, treatment for purifying purposes only, storage, transmission, pumping, and distribution facilities where water is furnished to any community, or number of individuals, or is made available to the public for human consumption or domestic use, but excluding water systems serving one single family residence. However, systems existing on September 21, 1977 which are owner operated and serve less than ten single family residences or which serve only one industrial plant shall be excluded from this definition and the provisions of this chapter.

(4) "Purveyor" means any agency or subdivision of the state or any municipal corporation, firm, company, mutual or cooperative association, institution, partnership, or person or any other entity, that owns or operates for wholesale or retail service a public water system. It also means the authorized agents of any such entities.

(5) "Secretary" means the secretary of the department of health or the secretary’s authorized representative.

(6) "Service area" means a specific geographical area serviced or for which service is planned by a purveyor. [1991 c 3 § 366; 1977 ex.s. c 142 § 3.]

### 70.116.040 Critical water supply service area—Designation—Establishment or amendment of external boundaries—Procedures

(1) The secretary and the appropriate local planning agencies and purveyors, shall study geographical areas where water supply problems related to uncoordinated planning, inadequate water quality or unreliable service appear to exist. If the results of the study indicate that such water supply problems do exist, the secretary or the county legislative authority shall designate the area involved as being a critical water supply service area, consult with the appropriate local planning agencies and purveyors, and appoint a committee of not less than three representatives therefrom solely for the purpose of establishing the proposed external boundaries of the critical water supply service area. The committee shall include a representative from each purveyor serving more than fifty customers, the county legislative authority, county planning agency, and health agencies. Such proposed boundaries shall be established within six months of the appointment of the committee.

During the six month period following the establishment of the proposed external boundaries of the critical water supply service areas, the county legislative authority shall conduct public hearings on the proposed boundaries and shall modify or ratify the proposed boundaries in accordance with the findings of the public hearings. The boundaries shall reflect the existing land usage, and permitted densities in county plans, ordinances, and/or growth policies. If the proposed boundaries are not modified during the six month period, the proposed boundaries shall be automatically ratified and be the critical water supply service area.

After establishment of the external boundaries of the critical water supply service area, no new public water systems may be approved within the boundary area unless an existing water purveyor is unable to provide water service.

(2) At the time a critical water supply service area is established, the external boundaries for such area shall not include any fractional part of a purveyor’s existing contiguous service area.

(3) The external boundaries of the critical water supply service area may be amended in accordance with procedures prescribed in subsection (1) of this section for the establishment of the critical water supply service areas when such amendment is necessary to accomplish the purposes of this chapter. [1977 ex.s. c 142 § 4.]

### 70.116.050 Development of water system plans for critical water supply service areas

(1) Each purveyor within the boundaries of a critical water supply service area shall develop a water system plan for the purveyor’s future service area if such a plan has not already been developed: PROVIDED, That nonmunicipally owned public water systems are exempt from the planning requirements of this chapter, except for the establishment of service area boundaries if they have no plans for water service beyond their existing service area: PROVIDED FURTHER, That if the county legislative authority permits a change in development that will increase the demand for water service of such a system beyond the existing system’s ability to provide minimum water service, the purveyor shall develop a water system plan in accordance with this section. The establishment of future service area boundaries shall be in accordance with RCW 70.116.070.

(2) After the boundaries of a critical water supply service area have been established pursuant to RCW 70.116.040, the committee established in RCW 70.116.040 shall participate in the development of a coordinated water system plan for the designated area. Such a plan shall incorporate all water system plans developed pursuant to subsection (1) of this section. The plan shall provide for maximum integration and coordination of public water system facilities consistent with the protection and enhancement of the public health and welfare. Decisions of the committee shall be by majority vote of those present at meetings of the committee.

(3) Those portions of a critical water supply service area not yet served by a public water system shall have a coordinated water system plan developed by existing purveyors based upon permitted densities in county plans, ordinances, and/or growth policies for a minimum of five years beyond the date of establishment of the boundaries of the critical water supply service area.

(4) To insure that the plan incorporates the proper designs to protect public health, the secretary shall adopt regulations pursuant to chapter 34.05 RCW concerning the scope and content of coordinated water system plans, and shall ensure, as minimum requirements, that such plans:

(a) Are reviewed by the appropriate local governmental agency to insure that the plan is not inconsistent with the land use plans, shoreline master programs, and/or developmental policies of the general purpose local government or governments whose jurisdiction the water system plan affects.

(b) Recognize all water resource plans, water quality plans, and water pollution control plans which have been adopted by units of local, regional, and state government.
(c) Incorporate the fire protection standards developed pursuant to RCW 70.116.080.

(d) Identify the future service area boundaries of the public water system or systems included in the plan within the critical water supply service area.

(e) Identify feasible emergency inter-ties between adjacent purveyors.

(f) Include satellite system management requirements consistent with RCW 70.116.134.

(g) Include policies and procedures that generally address failing water systems for which counties may become responsible under RCW 43.70.195.

(5) If a "water general plan" for a critical water supply service area or portion thereof has been prepared pursuant to chapter 36.94 RCW and such a plan meets the requirements of subsections (1) and (4) of this section, such a plan shall constitute the coordinated water system plan for the applicable geographical area.

(6) The committee established in RCW 70.116.040 may develop and utilize a mechanism for addressing disputes that arise in the development of the coordinated water system plan.

(7) Prior to the submission of a coordinated water system plan to the secretary for approval pursuant to RCW 70.116.060, the legislative authorities of the counties in which the critical water supply service area is located shall hold a public hearing thereon and shall determine the plan's consistency with subsection (4) of this section. If within sixty days of receipt of the plan, the legislative authorities find any segment of a proposed service area of a purveyor's plan or any segment of the coordinated water system plan to be inconsistent with any current land use plans, shoreline master programs, and/or developmental policies of the general purpose local government or governments whose jurisdiction the water system plan affects, the secretary shall not approve that portion of the plan until the inconsistency is resolved between the local government and the purveyor. If no comments have been received from the legislative authorities within sixty days of receipt of the plan, the secretary may consider the plan for approval.

(8) Any county legislative authority may adopt an abbreviated plan for the provision of water supplies within its boundaries that includes provisions for service area boundaries, minimum design criteria, and review process. The elements of the abbreviated plan shall conform to the criteria established by the department under subsection (4) of this section and shall otherwise be consistent with other adopted land use and resource plans. The county legislative authority may, in lieu of the committee required under RCW 70.116.040, and the procedures authorized in this section, utilize an advisory committee that is representative of the water utilities and local governments within its jurisdiction to assist in the preparation of the abbreviated plan, which may be adopted by resolution and submitted to the secretary for approval. Purveyors within the boundaries covered by the abbreviated plan need not develop a water system plan, except to the extent required by the secretary or state board of health under other authority. Any abbreviated plan adopted by a county legislative authority pursuant to this subsection shall be subject to the same provisions contained in RCW 70.116.060 for coordinated water system plans that are approved by the secretary. [1995 c 376 § 7; 1977 ex.s. c 142 § 5.]

Findings—1995 c 376: See note following RCW 70.116.060.

70.116.060 Approval of coordinated water system plan—Limitations following approval—Dispute resolution mechanism—Update or revision of plan. (1) A coordinated water system plan shall be submitted to the secretary for design approval within two years of the establishment of the boundaries of a critical water supply service area.

(2) The secretary shall review the coordinated water system plan and, to the extent the plan is consistent with the requirements of this chapter and regulations adopted hereunder, shall approve the plan, provided that the secretary shall not approve those portions of a coordinated water system plan that fail to meet the requirements for future service area boundaries until any boundary dispute is resolved as set forth in RCW 70.116.070.

(3) Following the approval of a coordinated water system plan by the secretary:

(a) All purveyors constructing or proposing to construct public water system facilities within the area covered by the plan shall comply with the plan.

(b) No other purveyor shall establish a public water system within the area covered by the plan, unless the local legislative authority determines that existing purveyors are unable to provide the service in a timely and reasonable manner, pursuant to guidelines developed by the secretary. An existing purveyor is unable to provide the service in a timely manner if the water cannot be provided to an applicant for water within one hundred twenty days unless specified otherwise by the local legislative authority. If such a determination is made, the local legislative authority shall require the new public water system to be constructed in accordance with the construction standards and specifications embodied in the coordinated water system plan approved for the area. The service area boundaries in the coordinated plan for the affected utilities shall be revised to reflect the decision of the local legislative authority.

(4) The secretary may deny proposals to establish or to expand any public water system within a critical water supply service area for which there is not an approved coordinated water system plan at any time after two years of the establishment of the critical water supply service area: PROVIDED, That service connections shall not be considered expansions.

(5) The affected legislative authorities may develop and utilize a mechanism for addressing disputes that arise in the implementation of the coordinated water system plan after the plan has been approved by the secretary.

(6) After adoption of the initial coordinated water system plan, the local legislative authority or the secretary may determine that the plan should be updated or revised. The legislative authority may initiate an update at any time, but the secretary may initiate an update no more frequently than once every five years. The update may encompass all or a portion of the plan, with the scope of the update to be determined by the secretary and the legislative authority. The process for the update shall be the one prescribed in RCW 70.116.050.

(7) The provisions of subsection (3) of this section shall not apply in any county for which a coordinated water system plan...
plan has not been approved under subsection (2) of this section.

(8) If the secretary initiates an update or revision of a coordinated water system plan, the state shall pay for the cost of updating or revising the plan. [1995 c 376 § 2; 1977 ex.s. c 142 § 6.]

Findings—1995 c 376: "The legislature finds that:
(1) Protection of the state's water resources, and utilization of such resources for provision of public water supplies, requires more efficient and effective management than is currently provided under state law;
(2) The provision of public water supplies to the people of the state should be undertaken in a manner that is consistent with the planning principles of the growth management act and the comprehensive plans adopted by local governments under the growth management act;
(3) Small water systems have inherent difficulties with proper planning, operation, financing, management and maintenance. The ability of such systems to provide safe and reliable supplies to their customers on a long-term basis needs to be assured through proper management and training of operators;
(4) New water quality standards and operational requirements for public water systems will soon generate higher rates for the customers of those systems, which may be difficult for customers to afford to pay. It is in the best interest of the people of this state that small systems maintain themselves in a financially viable condition;
(5) The drinking water 2000 task force has recommended maintaining a strong and properly funded statewide drinking water program, retaining primary responsibility for administering the federal safe drinking water act in Washington. The task force has further recommended delegation of as many water system regulatory functions as possible to local governments, with provision of adequate resources and elimination of barriers to such delegation. In order to achieve these objectives, the state shall provide adequate funding from both the general state funds and funding directly from state government funds or the application of the proceeds of the Washington state lottery;
(6) The public health services improvement plan recommends that the principal public health functions in Washington, including regulation of public water systems, should be fully funded by state revenues and undertaken by local jurisdictions with the capacity to perform them; and
(7) State government, local governments, water suppliers, and other interested parties should work for continuing economic growth of the state by maximizing the use of existing water supply management alternatives, including regional water systems, satellite management, and coordinated water system development." [1995 c 376 § 1.]

70.116.070 Service area boundaries within critical water supply area. (1) The proposed service area boundaries of public water systems within the critical water supply service area that are required to submit water system plans under this chapter shall be identified in the system's plan. The local legislative authority, or its planning department or other designee, shall review the proposed boundaries to determine whether the proposed boundaries of one or more systems overlap. The boundaries determined by the local legislative authority not to overlap shall be incorporated into the coordinated water system plan. Where any overlap exists, the local legislative authority may attempt to resolve the conflict through procedures established under RCW 70.116.060(5).

(2) Any final decision by a local legislative authority regarding overlapping service areas, or any unresolved disputes regarding service area boundaries, may be appealed or referred to the secretary in writing for resolution. After receipt of an appeal or referral, the secretary shall hold a public hearing thereon. The secretary shall provide notice of the hearing by certified mail to each purveyor involved in the dispute, to each county legislative authority having jurisdiction in the area and to the public. The secretary shall provide public notice pursuant to the provisions of chapter 65.16 RCW. Such notice shall be given at least twenty days prior to the hearing. The hearing may be continued from time to time and, at the termination thereof, the secretary may restrict the expansion of service of any purveyor within the area if the secretary finds such restriction is necessary to provide the greatest protection of the public health and well-being. [1995 c 376 § 13; 1977 ex.s. c 142 § 7.]

Findings—1995 c 376: See note following RCW 70.116.060.

70.116.080 Performance standards relating to fire protection. The secretary shall adopt performance standards relating to fire protection to be incorporated into the design and construction of public water systems. The standards shall be consistent with recognized national standards. The secretary shall adopt regulations pertaining to the application and enforcement of the standards: PROVIDED, That the regulations shall require the application of the standards for new and expanding systems only. The standards shall apply in critical water supply service areas unless the approved coordinated plan provides for nonfire flow systems. [1977 ex.s. c 142 § 8.]

70.116.090 Assumption of jurisdiction or control of public water system by city, town, or code city. The assumption of jurisdiction or control of any public water system or systems by a city, town, or code city, shall be subject to the provisions of chapter 35.13A RCW, and the provisions of this chapter shall be superseded by the provisions of chapter 35.13A RCW regarding such an assumption of jurisdiction. [1977 ex.s. c 142 § 9.]

70.116.100 Bottled water exempt. Nothing in this chapter shall apply to water which is bottled or otherwise packaged in a container for human consumption or domestic use, or to the treatment, storage and transportation facilities used in the processing of the bottled water or the distribution of the bottles or containers of water. [1977 ex.s. c 142 § 10.]

70.116.110 Rate making authority preserved. Nothing in this chapter shall be construed to alter in any way the existing authority of purveyors and municipal corporations to establish, administer and apply water rates and rate provisions. [1977 ex.s. c 142 § 11.]

70.116.120 Short title. This chapter shall be known and may be cited as the "Public Water System Coordination Act of 1977". [1977 ex.s. c 142 § 12.]

70.116.134 Satellite system management agencies. (1) The secretary shall adopt rules pursuant to chapter 34.05 RCW establishing criteria for designating individuals or water purveyors as qualified satellite system management agencies. The criteria shall set forth minimum standards for designation as a satellite system management agency qualified to assume ownership, operation, or both, of an existing or proposed public water system. The criteria shall include demonstration of financial integrity and operational capability, and may require demonstration of previous experience in successful operation and management of a public water system.
Each county shall identify potential satellite system management agencies to the secretary for areas where: (a) No purveyor has been designated a future service area pursuant to this chapter, or (b) an existing purveyor is unable or unwilling to provide service. Preference shall be given to public utilities or utility districts or to investor-owned utilities under the jurisdiction of the utilities and transportation commission.

The secretary shall approve satellite system management agencies meeting the established criteria and shall maintain and make available to counties a list of approved agencies. Prior to the construction of a new public water system, the individual(s) proposing the new system or requesting service shall first be directed by the local agency responsible for issuing the construction or building permit to one or more qualified satellite system management agencies designated for the service area where the new system is proposed for the purpose of exploring the possibility of a satellite agency either owning or operating the proposed new water system.

Approved satellite system management agencies shall be reviewed periodically by the secretary for continued compliance with established criteria. The secretary may require status reports and other information necessary for such review. Satellite system management agencies shall be subject to reapproval at the discretion of the secretary but not less than once every five years.

The secretary may assess reasonable fees to process applications for initial approval and for periodic review of satellite system management agencies. A satellite system management account is hereby created in the custody of the state treasurer. All receipts from satellite system management agencies or applicants under subsection (4) of this section shall be deposited into the account. Funds in this account may be used only for administration of the satellite system management program. Expenditures from the account shall be authorized by the secretary or the secretary’s designee. The account is subject to allotment procedures under chapter 43.88 RCW, but no appropriation is required for expenditures.

For purposes of this section, “satellite system management agency” and “satellite agency” shall mean a person or entity that is certified by the secretary to own or operate more than one public water system on a regional or county-wide basis, without the necessity for a physical connection between such systems. [1991 c 18 § 1.]

70.118.020 Definitions. As used in this chapter, the terms defined in this section shall have the meanings indicated unless the context clearly indicates otherwise.

(1) "Nonwater-carried sewage disposal devices" means any device that stores and treats nonwater-carried human urine and feces.

(2) "Alternative methods of effluent disposal" means systems approved by the department of health, including at least, mound systems, alternating drainfields, anaerobic filters, evapotranspiration systems, and aerobic systems.

(3) "Failure" means: (a) Effluent has been discharged on the surface of the ground prior to approved treatment; or (b) effluent has percolated to the surface of the ground; or (c) effluent has contaminated or threatens to contaminate a groundwater supply.

70.116.140 Review of water or sewer system plan—Time limitations—Notice of rejection of plan or extension of timeline. For any new or revised water or sewer system plan submitted for review under this chapter, the department of health shall review and either approve, conditionally approve, reject, or request amendments within ninety days of the receipt of the submission of the plan. The department of health may extend this ninety-day time limitation for new submittals by up to an additional ninety days if insufficient time exists to adequately review the general comprehensive plan. For rejections of plans or extensions of the timeline, the department shall provide in writing, to the person or entity submitting the plan, the reason for such action. In addition, the person or entity submitting the plan and the department of health may mutually agree to an extension of the deadlines contained in this section. [2002 c 161 § 3.]

70.116.900 Severability—1977 ex.s.c 142. If any provision of this chapter, or its application to any person or circumstance is held invalid, the remainder of the chapter, or the application of the provision to other persons or circumstances is not affected. [1977 ex.s.c 142 § 13.]

See RCW 43.70.060. Local health officer authority to grant waiver from on-site sewage system requirements: RCW 70.05.072.
(4) "Additive" means any commercial product intended to affect the performance or aesthetics of an on-site sewage disposal system.

(5) "Department" means the department of health.

(6) "On-site sewage disposal system" means any system of piping, treatment devices, or other facilities that convey, store, treat, or dispose of sewage on the property where it originates or on nearby property under the control of the user where the system is not connected to a public sewer system. For purposes of this chapter, an on-site sewage disposal system does not include indoor plumbing and associated fixtures.

(7) "Chemical additive" means those additives containing acids, bases, or other chemicals deemed unsafe by the department for use in an on-site sewage disposal system.

(8) "Additive manufacturer" means any person who manufactures, formulates, blends, packages, or repackages an additive product for sale, use, or distribution within the state. [1994 c 281 § 2; 1993 c 321 § 2; 1991 c 3 § 367; 1977 ex.s. c 133 § 2.]

Finding—Purpose—1994 c 281: "The legislature finds that chemical additives do, and that other types of additives may, contribute to septic system failure and groundwater contamination. In order to determine which ingredients of nonchemically based additive products have adverse effects on public health or the environment, it is necessary to submit such products to a review procedure. The purpose of this act is: (1) To establish a timely and orderly procedure for review and approval of on-site sewage disposal system additives; (2) to prohibit the use, sale, or distribution of additives having an adverse effect on public health or the water quality of the state; (3) to require the disclosure of the contents of additives that are advertised, sold, or distributed in the state; and (4) to provide for consumer protection."

Effective date—1994 c 281: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately upon its approval.

Effective date—1989 c 349: "This act shall take effect upon approval of the bill."

Effective date—1991 c 3: "This section shall go into effect January 1, 1992."

Effective date—1977 ex.s. c 133: "This section shall go into effect on or before July 1, 1977."

Effective date—1989 c 3: "This section shall take effect as of July 1, 1989.

70.118.030 Local boards of health—Administrative search warrant—Administrative plan—Corrections. (1) Local boards of health shall identify failing septic tank drainfield systems in the normal manner and will use reasonable effort to determine new failures. The local health officer, environmental health director, or equivalent officer may apply for an administrative search warrant to a court official authorized to issue a criminal search warrant. The warrant may only be applied for after the local health officer or the health officer’s designee has requested inspection of the person’s property under the specific administrative plan required in this section, and the person has refused the health officer or the health officer’s designee access to the person’s property. Timely notice must be given to any affected person that a warrant is being requested and that the person may be present at any court proceeding to consider the requested search warrant. The court official may issue the warrant upon probable cause. A request for a search warrant must show [that] the inspection, examination, test, or sampling is in response to pollution in commercial or recreational shellfish harvesting areas or pollution in fresh water. A specific administrative plan must be developed expressly in response to the pollution. The local health officer, environmental health director, or equivalent officer shall submit the plan to the court as part of the justification for the warrant, along with specific evidence showing that it is reasonable to believe pollution is coming from the septic system on the property to be accessed for inspection. The plan must include each of the following elements:

(a) The overall goal of the inspection;

(b) The location and identification by address of the properties being authorized for inspection;

(c) Requirements for giving the person owning the property and the person occupying the property if it is someone other than the owner, notice of the plan, its provisions, and times of any inspections;

(d) The survey procedures to be used in the inspection;

(e) The criteria that would be used to define an on-site sewage system failure; and

(f) The follow-up actions that would be pursued once an on-site sewage system failure has been identified and confirmed.

(2) Discretionary judgment will be made in implementing corrections by specifying nonwater-carried sewage disposal devices or other alternative methods of treatment and effluent disposal as a measure of ameliorating existing substandard conditions. Local regulations shall be consistent with the intent and purposes stated in this section. [1998 c 152 § 1; 1977 ex.s. c 133 § 3.]

70.118.040 Local boards of health—Authority to waive sections of local plumbing and/or building codes. With the advice of the secretary of the department of health, local boards of health are hereby authorized to waive applicable sections of local plumbing and/or building codes that might prohibit the use of an alternative method for correcting a failure. [1991 c 3 § 368; 1977 ex.s. c 133 § 4.]

70.118.050 Adoption of more restrictive standards. If the legislative authority of a county or city finds that more restrictive standards than those contained in *section 2 of this act or those adopted by the state board of health for systems allowed under *section 2 of this act or limitations on expansion of a residence are necessary to ensure protection of the public health, attainment of state water quality standards, and the protection of shellfish and other public resources, the legislative authority may adopt ordinances or resolutions setting standards as they may find necessary for implementing their findings. The legislative authority may identify the geographic areas where it is necessary to implement the more restrictive standards. In addition, the legislative authority may adopt standards for the design, construction, maintenance, and monitoring of sewage disposal systems. [1989 c 349 § 3.]

*Reviser’s note: “Section 2 of this act” did not become law. See effective date note following.

Effective date—1989 c 349: "(1) Except as provided in subsection (2) of this section, this act shall take effect November 1, 1989.

(2) *Section 2 of this act shall not take effect if the state board of health adopts standards for the replacement and repair of existing on-site sewage disposal systems located on property adjacent to marine waters by October 31, 1989."

*Reviser’s note: Section 2 of this act did not take effect. See chapter 248-96 WAC.
70.118.060 Additive regulation. (1) After July 1, 1994, a person may not use, sell, or distribute a chemical additive to on-site sewage disposal systems.
(2) After January 1, 1996, no person shall use, sell, or distribute any on-site sewage disposal additive whose ingredients have not been approved by the department.
(3) Each manufacturer of an on-site sewage disposal system additive that is sold, advertised, or distributed in the state shall submit the following information to the department: (a) The name and address of the company; (b) the name of the product; (c) the complete product formulation; (d) the location where the product is manufactured; (e) the intended method of product application; and (f) a request that the product be reviewed.
(4) The department shall adopt rules providing the criteria, review, and decision-making procedures to be used in reviewing on-site sewage disposal additives for use, sale, or distribution in the state. The criteria shall be designed to determine whether the additive has an adverse effect on public health or water quality. The department may charge a fee sufficient to cover the costs of evaluating the additive, including the development of criteria and review procedures. The fee schedule shall be established by rule.
(5) The department shall issue a decision as to whether a product registered pursuant to subsection (3) of this section is approved or denied within forty-five days of receiving a complete evaluation as required pursuant to subsection (4) of this section.
(6) Manufacturers shall reregister their product as provided in subsection (3) of this section each time their product formulation changes. The department may require a new approval for products registered under this subsection prior to allowing the use, sale, or distribution within the state.
(7) The department may contract with private laboratories for the performance of any duties necessary to carry out the purpose of this section.
(8) The attorney general or appropriate city or county prosecuting attorney is authorized to bring an appropriate action to enjoin any violation of the prohibition on the sale or distribution of additives, or to enjoin any violation of the conditions in RCW 70.118.080.
(9) The department is responsible for providing written notification to additives manufacturers of the provisions of this section and RCW 70.118.070 and 70.118.080. The notification shall be provided no later than thirty days after April 1, 1994. Within thirty days of notification from the department, manufacturers shall provide the same notification to their distributors, wholesalers, and retail customers. [1994 c 281 § 3; 1993 c 321 § 3.]

Finding—Purpose—Effective date—1994 c 281: See notes following RCW 70.118.020.

Intent—1993 c 321: "The legislature finds that most additives do not have a positive effect on the operation of on-site systems and can contaminate groundwater aquifers, render septic drainfields dysfunctional, and result in costly repairs to homeowners. It is therefore the intent of the legislature to ban the use, sale, and distribution of additives within the state unless an additive has been specifically approved by the department of health." [1993 c 321 § 1.]

70.118.070 Additives—Confidentiality. The department shall hold confidential any information obtained pursuant to RCW 70.118.060 when shown by any manufacturer that such information, if made public, would divulge confidential business information, methods, or processes entitled to protection as trade secrets of the manufacturer. [1994 c 281 § 4.]

Finding—Purpose—Effective date—1994 c 281: See notes following RCW 70.118.020.

70.118.080 Additives—Unfair practices. (1) Each manufacturer of a certified and approved additive product advertised, sold, or distributed in the state shall:
(a) Make no claims relating to the elimination of the need for septic tank pumping or proper septic tank maintenance;
(b) List the components of additive products on the product label, along with information regarding instructions for use and precautions;
(c) Make no false statements, design, or graphic representation relative to an additive product that is inconsistent with RCW 70.118.060, 70.118.070, or this section; and
(d) Make no claims, either direct or implied, about the performance of the product based on state approval of its ingredients.
(2) A violation of this section is an unfair act or practice in violation of the consumer protection act, chapter 19.86 RCW. [1994 c 281 § 5.]

Finding—Purpose—Effective date—1994 c 281: See notes following RCW 70.118.020.

70.118.090 Funding. The department may not use funds appropriated to implement an element of the action agenda developed by the Puget Sound partnership under RCW 90.71.310 to conduct any activity required under chapter 281, Laws of 1994. [2007 c 341 § 6; 1994 c 281 § 6.]

Severability—Effective date—2007 c 341: See RCW 90.71.906 and 90.71.907.

Finding—Purpose—Effective date—1994 c 281: See notes following RCW 70.118.020.

70.118.100 Alternative systems—Technical review committee. The department of health must include one person who is familiar with the operation and maintenance of certified proprietary devices on the technical review committee responsible for evaluating and making recommendations to the department of health regarding the general use of alternative on-site sewage systems in the state. [1997 c 447 § 3.]

Finding—Purpose—Construction—1997 c 447: See notes following RCW 70.05.074.

70.118.110 Alternative systems—State guidelines and standards. In order to assure that technical guidelines and standards keep pace with advancing technologies, the department of health in collaboration with the technical review committee, local health departments, and other interested parties, must review and update as appropriate, the state guidelines and standards for alternative on-site sewage disposal every three years. The first review and update must be completed by January 1, 1999. [1997 c 447 § 5.]

Finding—Purpose—1997 c 447: See note following RCW 70.05.074.

70.118.120 Inspectors—Certificate of competency. (1) The local board of health shall ensure that individuals...
who conduct inspections of on-site wastewater treatment systems or who otherwise conduct reviews of such systems are qualified in the technology and application of on-site sewage treatment principles. A certificate of competency issued by the department of licensing is adequate demonstration that an individual is competent in the engineering aspects of on-site wastewater treatment system technology.

(2) A local board of health may allow noncertified individuals to review designs of, and conduct inspections of, on-site wastewater treatment systems for a maximum of two years after the date of hire, if a certified individual reviews or supervises the work during that time. [1999 c 263 § 22.]

70.118.130 Civil penalties. A local health officer who is responsible for administering and enforcing regulations regarding on-site sewage disposal systems is authorized to issue civil penalties for violations of those regulations under the same limitations and requirements imposed on the department under RCW 70.118B.050, except that the amount of a penalty shall not exceed one thousand dollars per day for every violation, and judgments shall be entered in the name of the local health jurisdiction and penalties shall be placed into the general fund or funds of the entity or entities operating the local health jurisdiction. [2007 c 343 § 9.]

70.118A.090 Chapter to supplement chapter 70.118 RCW.

70.118A.010 Findings—Purpose. The legislature finds that:

(1) Hood Canal and other marine waters in Puget Sound are at risk of severe loss of marine life from low-dissolved oxygen. The increased input of human-influenced nutrients, especially nitrogen, is a factor causing this low-dissolved oxygen condition in some of Puget Sound's waters, in addition to such natural factors as poor overall water circulation and stratification that discourages mixing of surface-to-deeper waters;

(2) A significant portion of the state’s residents live in homes served by on-site sewage disposal systems, and many new residences will be served by these systems;

(3) Properly functioning on-site sewage disposal systems largely protect water quality. However, improperly functioning on-site sewage disposal systems in marine recovery areas may contaminate surface water, causing public health problems;

(4) Local programs designed to identify and correct failing on-site sewage disposal systems have proven effective in reducing and eliminating public health hazards, improving water quality, and reopening previously closed shellfish areas; and

(5) State water quality monitoring data and analysis can help to focus these enhanced local programs on specific geographic areas that are sources of pollutants degrading Puget Sound waters.

Therefore, it is the purpose of this chapter to authorize enhanced local programs in marine recovery areas to inventory existing on-site sewage disposal systems, to identify the location of all on-site sewage disposal systems in marine recovery areas, to require inspection of on-site sewage disposal systems and repairs to failing systems, to develop electronic data systems capable of sharing information regarding on-site sewage disposal systems, and to monitor these programs to ensure that they are working to protect public health and Puget Sound water quality. [2006 c 18 § 1.]

70.118A.020 Definitions. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Board" means the state board of health.

(2) "Department" means the department of health.

(3) "Failing" means a condition of an existing on-site sewage disposal system or component that threatens the public health by inadequately treating sewage, or by creating a potential for direct or indirect contact between sewage and the public. Examples of a failing on-site sewage disposal system include:

(a) Sewage on the surface of the ground;

(b) Sewage backing up into a structure caused by slow soil absorption of septic tank effluent;

(c) Sewage leaking from a sewage tank or collection system;

(d) Cesspools or seepage pits where evidence of groundwater or surface water quality degradation exists;

(e) Inadequately treated effluent contaminating groundwater or surface water; or

(f) Noncompliance with standards stipulated on the permit.

(4) "Local health officer" or "local health jurisdiction" means the local health officers and local health jurisdictions in the following counties bordering Puget Sound: Clallam, Island, Kitsap, Jefferson, Mason, San Juan, Seattle-King, Skagit, Snohomish, Tacoma-Pierce, Thurston, and Whatcom.

(5) "Marine recovery area" means an area of definite boundaries where the local health officer, or the department in consultation with the health officer, determines that additional requirements for existing on-site sewage disposal systems may be necessary to reduce potential failing systems or minimize negative impacts of on-site sewage disposal systems.

(6) "Marine recovery area on-site strategy" or "on-site strategy" means a local health jurisdiction's on-site sewage disposal system strategy required under RCW 70.118A.050. This strategy is a component of the on-site program management plan required under RCW 70.118A.030.
(7) "On-site sewage disposal system" means an integrated system of components, located on or nearby the property it serves, that conveys, stores, treats, or provides subsurface soil treatment and dispersal of sewage. It consists of a collection system, a treatment component or treatment sequence, and a soil dispersal component. An on-site sewage disposal system also refers to a holding tank sewage system or other system that does not have a soil dispersal component. For purposes of this chapter, the term "on-site sewage disposal system" does not include any system regulated by a water quality discharge permit issued under chapter 90.48 RCW.

(8) "Unknown system" means an on-site sewage disposal system that was installed without the knowledge or approval of the local health jurisdiction, including those that were installed before such approval was required. [2006 c 18 § 2.]

70.118A.030 Local health officers to develop a written on-site program management plan. By July 1, 2007, the local health officers of health jurisdictions in the twelve counties bordering Puget Sound shall develop a written on-site program management plan to provide guidance to the local health jurisdiction. [2006 c 18 § 3.]

70.118A.040 Local health officers—Determination of marine recovery areas. (1) In developing on-site program management plans required under RCW 70.118A.030, the local health officer shall propose a marine recovery area for those land areas where existing on-site sewage disposal systems are a significant factor contributing to concerns associated with:

(a) Shellfish growing areas that have been threatened or downgraded by the department under chapter 69.30 RCW;

(b) Marine waters that are listed by the department of ecology under section 303(d) of the federal clean water act (33 U.S.C. Sec. 1251 et seq.) for low-dissolved oxygen or fecal coliform; or

(c) Marine waters where nitrogen has been identified as a contaminant of concern by the local health officer.

(2) In determining the boundaries for a marine recovery area, the local health officer shall assess and include those land areas where existing on-site sewage disposal systems may affect water quality in the marine recovery area.

(3) Determinations made by the local health officer under this section, including identification of nitrogen as a contaminant of concern, will be based on published guidance developed by the department. The guidance must be designed to ensure the proper use of available scientific and technical data. The health officer shall document the basis for these determinations when plans are submitted to the department.

(4) After July 1, 2007, the local health officer may designate additional marine recovery areas meeting the criteria of this section, according to new information. Where the department recommends the designation of a marine recovery area or expansion of a designated marine recovery area, the local health officer shall notify the department of its decision concerning the recommendation within ninety days of receipt of the recommendation. [2006 c 18 § 4.]

70.118A.050 Marine recovery area on-site strategy. (1) The local health officer of a local health jurisdiction where a marine recovery area has been proposed under RCW 70.118A.040 shall develop and approve a marine recovery area on-site strategy that includes designation of marine recovery areas to guide the local health jurisdiction in developing and managing all existing on-site sewage disposal systems within marine recovery areas within its jurisdiction. The on-site strategy must be a component of the program management plan required under RCW 70.118A.030. The department may grant an extension of twelve months where a local health jurisdiction has demonstrated substantial progress toward completing its on-site strategy.

(2) An on-site strategy for a marine recovery area must specify how the local health jurisdiction will by July 1, 2012, and thereafter, find:

(a) Existing failing systems and ensure that system owners make necessary repairs; and

(b) Unknown systems and ensure that they are inspected as required to ensure that they are functioning properly, and repaired, if necessary. [2006 c 18 § 5.]

70.118A.060 Local health officer duties—Electronic data systems. In a marine recovery area, each local health officer shall:

(1) Require that on-site sewage disposal system maintenance specialists, septic tank pumpers, or others performing on-site sewage disposal system inspections submit reports or inspection results to the local health jurisdiction regarding any failing system; and

(2) Develop and maintain an electronic data system of all on-site sewage disposal systems within a marine recovery area to enable the local health jurisdiction to actively manage on-site sewage disposal systems. In assisting development of electronic data systems, the department shall work with local health jurisdictions with marine recovery areas and the on-site sewage disposal system industry to develop common forms and protocols to facilitate sharing of data. A marine recovery area on-site sewage disposal electronic data system must be compatible with all on-site sewage disposal electronic data systems used throughout a local health jurisdiction. [2006 c 18 § 6.]

70.118A.070 Department review of on-site program management plans—Assistance to local health jurisdictions. (1) The on-site program management plans of local health jurisdictions required under RCW 70.118A.030 must be submitted to the department by July 1, 2007, and be reviewed to determine if they contain all necessary elements. The department shall provide in writing to the local board of health its review of the completeness of the plan. The board may adopt additional criteria by rule for approving plans.

(2) In reviewing the on-site strategy component of the plan, the department shall ensure that all required elements, including designation of any marine recovery area, have been addressed.

(3) Within thirty days of receiving an on-site strategy, the department shall either approve the on-site strategy or provide in writing the reasons for not approving the strategy and recommend changes. If the department does not approve
the on-site strategy, the local health officer must amend and resubmit the plan to the department for approval.

(4) Upon receipt of department approval or after thirty days without notification, whichever comes first, the local health officer shall implement the on-site strategy.

(5) If the department denies approval of an on-site strategy, the local health officer may appeal the denial to the board. The board must make a final determination concerning the denial.

(6) The department shall assist local health jurisdictions in:
(a) Developing written on-site program management plans required by RCW 70.118A.030;
(b) Identifying reasonable methods for finding unknown systems; and
(c) Developing or enhancing electronic data systems that will enable each local health jurisdiction to actively manage all on-site sewage disposal systems within their jurisdictions, with priority given to those on-site sewage disposal systems that are located in or which could affect designated marine recovery areas. [2006 c 18 § 7.]

70.118A.080 Department to contract with local health jurisdictions—Funding assistance—Requirements—Revised compliance dates—Work group. (1) The department shall enter into a contract with each local health jurisdiction subject to the requirements of this chapter to implement plans developed under this chapter, and to develop or enhance electronic data systems required by this chapter. The contract must include state funding assistance to the local health jurisdiction from funds appropriated to the department for this purpose:

(2) The contract must require, at a minimum, that within a marine recovery area, the local health jurisdiction:
(a) Show progressive improvement in finding failing systems;
(b) Show progressive improvement in working with on-site sewage disposal system owners to make needed system repairs;
(c) Is actively taking steps to find previously unknown systems and ensuring that they are inspected as required and repaired if necessary;
(d) Show progressive improvement in the percentage of on-site sewage disposal systems that are included in an electronic data system; and
(e) Of those on-site sewage disposal systems in the electronic data system, show progressive improvement in the percentage that have had required inspections.

(3) The contract must also include provisions for state assistance in updating the plan. Beginning July 1, 2012, the contract may adopt revised compliance dates, including those in RCW 70.118A.050, where the local health jurisdiction has demonstrated substantial progress in updating the on-site strategy.

(4) The department shall convene a work group for the purpose of making recommendations to the appropriate committees of the legislature for the development of certification or licensing of maintenance specialists. The work group may give priority to appropriate levels of certification or licensure of maintenance specialists who work in the Puget Sound basin. [2006 c 18 § 8.]

70.118A.090 Chapter to supplement chapter 70.118 RCW. The provisions of this chapter are supplemental to all other authorities governing on-site sewage disposal systems, including chapter 70.118 RCW and rules adopted under that chapter. [2006 c 18 § 9.]

Chapter 70.118B RCW
LARGE ON-SITE SEWAGE DISPOSAL SYSTEMS

Sections
70.118B.005 Findings.
The legislature finds that:
(1) Protection of the environment and public health requires properly designed, operated, and maintained on-site sewage systems. Failure of those systems can pose certain health and environmental hazards if sewage leaks above ground or if untreated sewage reaches surface or groundwater.

(2) Chapter 70.118A RCW provides a framework for ongoing management of on-site sewage systems located in marine recovery areas and regulated by local health jurisdictions under state board of health rules. This chapter will provide a framework for comprehensive management of large on-site sewage systems statewide.

(3) The primary purpose of this chapter is to establish, in a single state agency, comprehensive regulation of the design, operation, and maintenance of large on-site sewage systems, and their operators, that provides both public health and environmental protection. To accomplish these purposes, this chapter provides for:
(a) The permitting and continuing oversight of large on-site sewage systems;
(b) The establishment by the department of standards and rules for the siting, design, construction, installation, operation, maintenance, and repair of large on-site sewage systems; and
(c) The enforcement by the department of the standards and rules established under this chapter. [2007 c 343 § 1.]

70.118B.010 Definitions. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.
(1) "Department" means the state department of health.

(2) "Industrial wastewater" means the water or liquid carried waste from an industrial process. These wastes may result from any process or activity of industry, manufacture, trade, or business, from the development of any natural resource, or from animal operations such as feedlots, poultry...
houses, or dairies. The term includes contaminated storm water and leachate from solid waste facilities.

(3) "Large on-site sewage system" means an on-site sewage system with design flows of between three thousand five hundred gallons per day and one hundred thousand gallons per day.

(4) "On-site sewage system" means an integrated system of components, located on or nearby the property it serves, that conveys, stores, treats, and provides subsurface soil treatment and disposal of domestic sewage. It consists of a collection system, a treatment component or treatment sequence, and a subsurface soil disposal component. It may or may not include a mechanical treatment system. An on-site sewage system also refers to a holding tank sewage system or other system that does not have a soil dispersal component. A holding tank that discharges to a sewer is not included in the definition of on-site sewage system. A system into which storm water or industrial wastewater is discharged is not included in the definition of on-site sewage system.

(5) "Person" means any individual, corporation, company, association, firm, partnership, governmental agency, or any other entity whatsoever, and the authorized agents of any such entities.

(6) "Secretary" means the secretary of health.

(7) "Waters of the state" has the same meaning as defined in RCW 90.48.020. [2007 c 343 § 2.]

70.118B.020 Comprehensive regulation—Department duties. (1) For the protection of human health and the environment the department shall:

(a) Establish and provide for the comprehensive regulation of large on-site sewage systems including, but not limited to, system siting, design, construction, installation, operation, maintenance, and repair;

(b) Control and prevent pollution of streams, lakes, rivers, ponds, inland waters, salt waters, water courses, and other surface and underground waters of the state of Washington, except to the extent authorized by permits issued under this chapter;

(c) Issue annual operating permits for large on-site sewage systems based on the system’s ability to function properly in compliance with the applicable comprehensive regulatory requirements; and

(d) Enforce the large on-site sewage system requirements.

(2) Large on-site sewage systems permitted by the department may not be used for treatment and disposal of industrial wastewater or combined sanitary sewer and storm water systems.

(3) The work group convened under RCW 70.118A.080(4) to make recommendations to the appropriate committees of the legislature for the development of certification or licensing of maintenance specialists shall include recommendations for the development of certification or licensing of large on-site [sewage] system operators. [2007 c 343 § 3.]

70.118B.030 Operating permits required—Application. (1) A person may not install or operate a large on-site sewage system without an operating permit as provided in this chapter after July 1, 2009. The owner of the system is responsible for obtaining a permit.

(2) The department shall issue operating permits in accordance with the rules adopted under RCW 70.118B.040.

(3) The department shall ensure the system meets all applicable siting, design, construction, and installation requirements prior to issuing an initial operating permit. Prior to renewing an operating permit, the department may review the performance of the system to determine compliance with rules and any permit conditions.

(4) At the time of initial permit application or at the time of permit renewal the department shall impose those permit conditions, requirements for system improvements, and compliance schedules as it determines are reasonable and necessary to ensure that the system will be operated and maintained properly. Each application must be accompanied by a fee as established in rules adopted by the department.

(5) Operating permits shall be issued for a term of one year, and shall be renewed annually, unless the operator fails to apply for a new permit or the department finds good cause to deny the application for renewal.

(6) Each permit may be issued only for the site and owner named in the application. Permits are not transferable or assignable except with the written approval of the department.

(7) The department may deny an application for a permit or modify, suspend, or revoke a permit in any case in which it finds that the permit was obtained by fraud or there is or has been a failure, refusal, or inability to comply with the requirements of this chapter or the standards or rules adopted under this chapter. RCW 43.70.115 governs notice of denial,revocation, suspension, or modification and provides the right to an adjudicative proceeding to the permit applicant or permittee.

(8) For systems with design flows of more than fourteen thousand five hundred gallons per day, the department shall adopt rules to ensure adequate public notice and opportunity for review and comment on initial large on-site sewage system permit applications and subsequent permit applications to increase the volume of waste disposal or change effluent characteristics. The rules must include provisions for notice of final decisions. Methods for providing notice may include electronic mail, posting on the department’s internet site, publication in a local newspaper, press releases, mailings, or other means of notification the department determines appropriate.

(9) A person aggrieved by the issuance of an initial permit, or by the issuance of a subsequent permit to increase the volume of waste disposal or to change effluent characteristics, for systems with design flows of more than fourteen thousand five hundred gallons per day, has the right to an adjudicative proceeding. The application for an adjudicative proceeding must be in writing, state the basis for contesting the action, include a copy of the decision, be served on and received by the department within twenty-eight days of receipt of notice of the final decision, and be served in a manner that shows proof of receipt. An adjudicative proceeding conducted under this subsection is governed by chapter 34.05 RCW.

(10) Any permit issued by the department of ecology for a large on-site sewage system under chapter 90.48 RCW is
valid until it first expires after July 22, 2007. The system owner shall apply for an operating permit at least one hundred twenty days prior to expiration of the department of ecology permit.

(11) Systems required to meet operator certification requirements under chapter 70.95B RCW must continue to meet those requirements as a condition of the department operating permit. [2007 c 343 § 4.]

70.118B.040 Rules. (1) For the protection of human health and the environment, the secretary shall adopt rules for the comprehensive regulation of large on-site sewage systems, which includes, but is not limited to, the siting, design, construction, installation, maintenance, repair, and permitting of the systems.

(2) In adopting the rules, the secretary shall, in consultation with the department of ecology, require that large on-site sewage systems comply with the applicable sections of chapter 90.48 RCW regarding control and prevention of pollution of waters of the state, including but not limited to:

(a) Surface and groundwater standards established under RCW 90.48.035; and

(b) Those provisions requiring all known, available, and reasonable methods of treatment.

(3) In adopting the rules, the secretary shall ensure that requirements for large on-site sewage systems are consistent with the requirements of any comprehensive plans or development regulations adopted under chapter 36.70A RCW or any other applicable comprehensive plan, land use plan, or development regulation adopted by a city, town, or county. [2007 c 343 § 5.]

70.118B.050 Violations—Civil penalties. (1) A person who violates a law or rule regulating large on-site sewage systems administered by the department is subject to a penalty of not more than ten thousand dollars per day for every violation. Every violation is a separate and distinct offense. In case of a continuing violation, each day’s continuing violation is a separate and distinct violation. The penalty assessed must reflect the significance of the violation and the previous record of compliance on the part of the person responsible for compliance with large on-site sewage system requirements.

(2) Every person who, through an act of commission or omission, procures, aids, or abets a violation is considered to have violated the provisions of this section and is subject to the penalty provided in this section.

(3) The penalty provided for in this section must be imposed by a notice in writing to the person against whom the civil penalty is assessed and must describe the violation. The notice must be personally served in the manner of service of a summons in a civil action or in a manner that shows proof of receipt. A penalty imposed by this section is due twenty-eight days after receipt of notice unless application for an adjudicative proceeding is filed as provided in subsection (4) of this section.

(4) Within twenty-eight days after notice is received, the person incurring the penalty may file an application for an adjudicative proceeding and may pursue subsequent review as provided in chapter 34.05 RCW and applicable rules.

(5) A penalty imposed by a final administrative order is due upon service of the final administrative order. A person who fails to pay a penalty assessed by a final administrative order within thirty days of service of the final administrative order shall pay, in addition to the amount of the penalty, interest at the rate of one percent of the unpaid balance of the assessed penalty for each month or part of a month that the penalty remains unpaid, commencing with the month in which the notice of penalty was served, and reasonable attorneys’ fees as are incurred if civil enforcement of the final administrative order is required to collect the penalty.

(6) A person who institutes proceedings for judicial review of a final administrative order assessing a civil penalty under this chapter shall place the full amount of the penalty in an interest-bearing account in the registry of the reviewing court. At the conclusion of the proceeding the court shall, as appropriate, enter a judgment on behalf of the department and order that the judgment be satisfied to the extent possible from moneys paid into the registry of the court or shall enter a judgment in favor of the person appealing the penalty assessment and order return of the moneys paid into the registry of the court together with accrued interest to the person appealing. The judgment may award reasonable attorneys’ fees for the cost of the attorney general’s office in representing the department.

(7) If no appeal is taken from a final administrative order assessing a civil penalty under this chapter, the department may file a certified copy of the final administrative order with the clerk of the superior court in which the large on-site sewage system is located or in Thurston county, and the clerk shall enter judgment in the name of the department and in the amount of the penalty assessed in the final administrative order.

(8) A judgment entered under subsection (6) or (7) of this section has the same force and effect as, and is subject to all of the provisions of law relating to, a judgment in a civil action, and may be enforced in the same manner as any other judgment of the court in which it is entered.

(9) The large on-site sewage systems account is created in the custody of the state treasurer. All receipts from penalties imposed under this section shall be deposited into the account. Expenditures from the account shall be used by the department to provide training and technical assistance to large on-site sewage system owners and operators. Only the secretary or the secretary’s designee may authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures. [2007 c 343 § 6.]

70.118B.060 Injunctions. Notwithstanding the existence or use of any other remedy, the department may bring an action to enjoin a violation or threatened violation of this chapter or rules adopted under this chapter. The department may bring the action in the superior court of the county in which the large on-site sewage system is located or in the superior court of Thurston county. [2007 c 343 § 7.]

70.118B.070 Authority and duties. The authority and duties created in this chapter are in addition to any authority and duties already provided in law. Nothing in this chapter...
limits the powers of the state or any political subdivision to exercise such authority. [2007 c 343 § 8.]

70.119.010 Legislative declaration. The legislature declares that competent operation of a public water system is necessary for the protection of the consumers’ health, and therefore it is of vital interest to the public. In order to protect the public health and conserve and protect the water resources of the state, it is necessary to provide for the classifying of all public water systems; to require the examination and certification of the persons responsible for the technical operation of such systems; and to provide for the promulgation of rules and regulations to carry out this chapter. [1991 c 305 § 1; 1983 c 292 § 1; 1977 ex.s. c 99 § 1.]

70.119.020 Definitions. As used in this chapter unless context requires another meaning:
(1) "Certificate" means a certificate of competency issued by the secretary stating that the operator has met the requirements for the specified operator classification of the certification program.
(2) "Certified operator" means an individual holding a valid certificate and employed or appointed by any county, water-sewer district, municipality, public or private corporation, company, institution, person, or the state of Washington and who is designated by the employing or appointing officials as the person responsible for active daily technical operation.

(5) "Groundwater under the direct influence of surface water" means any water beneath the surface of the ground with:
(a) Significant occurrence of insects or other macroorganisms, algae, or large diameter pathogens such as giardia lamblia; or
(b) Significant and relatively rapid shifts in water characteristics such as turbidity, temperature, conductivity, or pH which closely correlate to climatological or surface water conditions.
(6) "Group A water system" means a system with fifteen or more service connections, regardless of the number of people; or a system serving an average of twenty-five or more people per day for sixty or more days within a calendar year, regardless of the number of service connections. Group A water system does not include a system serving fewer than fifteen single-family residences, regardless of the number of people.
(7) "Nationally recognized association of certification authorities" shall mean an organization which serves as an information center for certification activities, recommends minimum standards and guidelines for classification of potable water treatment plants, water distribution systems and waste water facilities and certification of operators, facilitates reciprocity between state programs and assists authorities in establishing new certification programs and updating existing ones.
(8) "Public water system" means any system, excluding a system serving only one single-family residence and a system with four or fewer connections all of which serve residences on the same farm, providing piped water for human consumption, including any collection, treatment, storage, or distribution facilities under control of the purveyor and used primarily in connection with the system; and collection or pretreatment storage facilities not under control of the purveyor but primarily used in connection with the system.
(9) "Purification plant" means that portion of a public water system which treats or improves the physical, chemical or bacteriological quality of the system’s water to bring the water into compliance with state board of health standards.
(10) "Secretary" means the secretary of the department of health.
(11) "Service" means a connection to a public water system designed to serve a single-family residence, dwelling unit, or equivalent use. If the facility has group home or barracks-type accommodations, three persons will be considered equivalent to one service.

Public water supply systems to comply with water quality standards: RCW 70.142.050.

70.119.030 Certified operators required for certain public water systems. (1) A public water system shall have a certified operator if:
(a) It is a group A water system; or
(b) It is a public water system using a surface water source or a groundwater source under the direct influence of surface water.
The certified operators shall be in charge of the technical direction of a water system's operation, or an operating shift of such a system, or a major segment of a system necessary for monitoring or improving the quality of water. The operator shall be certified as provided in RCW 70.119.050.

A certified operator may provide required services to more than one system or to a group of systems. The amount of time that a certified operator shall be required to be present at any given system shall be based upon the time required to properly operate and maintain the public water system as designed and constructed in accordance with RCW 43.20.050. The employing or appointing officials shall designate the position or positions requiring mandatory certification within their individual systems and shall assure that such certified operators are responsible for the system's technical operation.

The department shall, in establishing by rule or otherwise the requirements for public water systems with fewer than one hundred connections, phase in such requirements in order to assure that (a) an adequate number of certified operators are available to serve the additional systems, (b) the systems have adequate notice and time to plan for securing the services of a certified operator, (c) the department has the additional data and other administrative capacity, (d) adequate training is available to certify additional operators as necessary, and (e) any additional requirements under federal law are satisfied. The department shall require certified operators for all group A systems as necessary to conform to federal law or implementing rules or guidelines. Unless necessary to conform to federal law, rules, or guidelines, the department shall not require a certified operator for a system with fewer than one hundred connections unless that system is determined by the department to be in significant noncompliance with operational, monitoring, or water quality standards that would put the public health at risk, as defined by the department by rule, or has, or is required to have, water treatment facilities other than simple disinfection.

Any examination required by the department as a prerequisite for the issuance of a certificate under this chapter shall be offered in each region where the department has a regional office.

Operators not required to be certified by this chapter are encouraged to become certified on a voluntary basis.

The department shall require operators to become certified by this chapter and to maintain the certification as long as they are employed in the field. Operators not required to be certified by this chapter may provide required services to public water systems to which they are employed by the requirements for monitoring or improving the quality of water.

The department shall, in establishing by rule or other rule-making procedures, the requirements for certifying operators, criteria for determining the kind and nature of continuing educational requirements for renewal of certification under RCW 70.119.050, and provisions for classifying water purification plants and distribution systems.

Rules and regulations adopted under the provisions of this section shall be adopted in accordance with the provisions of chapter 34.05 RCW.

Statutory changes are necessary to eliminate ambiguity or conflicting authorities, provide additional information and tools to consumers and the public, and make necessary changes to be consistent with federal law.

The water systems of this state should have prompt and full access to the newly created federal state revolving fund program to help meet their financial needs and to achieve and maintain the technical, managerial, and financial capacity necessary for long-term compliance with state and federal regulations. This requires authority for streamlined program administration and the provision of the necessary state funds required to match the available federal funds.

A certified operator may provide required services to public water systems to which they are employed by the requirements for monitoring or improving the quality of water.
drinking water act in chapter 70.119A RCW. In categorizing all public water systems for the purpose of implementing these provisions of state law, the secretary shall take into consideration economic impacts as well as the degree and nature of any public health risk. [1991 c 305 § 4; 1977 ex.s. c 99 § 6.]

### 70.119.070 Secretary—Consideration of guidelines.
The secretary is authorized, when taking action pursuant to RCW 70.119.050 and 70.119.060, to consider generally applicable criteria and guidelines developed by a nationally recognized association of certification authorities and commonly accepted national guidelines and standards. [1983 c 292 § 5; 1977 ex.s. c 99 § 7.]

### 70.119.081 Ad hoc advisory committees.
The secretary, in cooperation with the director of ecology, may establish ad hoc advisory committees, as necessary, to obtain advice and technical assistance regarding the development of rules implementing this chapter and on the examination and certification of operators of water systems. [1995 c 269 § 2909.]

Effective date—1995 c 269: See note following RCW 9.94A.850.

### 70.119.090 Certificates without examination—Conditions.
Certificates shall be issued without examination under the following conditions:

1. Certificates shall be issued without application fee to operators who, on January 1, 1978, hold certificates of competency attained under the voluntary certification program sponsored jointly by the state department of social and health services, health services division, and the Pacific Northwest section of the American water works association.

2. Certification shall be issued to persons certified by a governing body or owner of a public water system to have been the operators of a purification plant or distribution system on January 1, 1978, but only to those who are required to be certified under RCW 70.119.030(1). A certificate so issued shall be valid for operating any plant or system of the same classification and same type of water source.

3. A nonrenewable certificate, temporary in nature, may be issued to an operator for a period not to exceed twelve months to fill a vacated position required to have a certified operator. Only one such certificate may be issued subsequent to each instance of vacation of any such position. [1991 c 305 § 5; 1983 c 292 § 7; 1977 ex.s. c 99 § 9.]

Effective date—1977 ex.s. c 99: See RCW 70.119.900.

### 70.119.100 Certificates—Issuance and renewal—Conditions.

2. Every certificate shall be renewed annually upon the payment of a fee as established by the department under RCW 70.119.160 and satisfactory evidence is presented to the secretary that the operator has fulfilled the continuing education requirements as prescribed by rule of the department.

3. The secretary shall notify operators who fail to renew their certificates before the end of the year that their certificates are temporarily valid for two months following the end of the certificate year. Certificates not renewed during the two month period shall be invalid and the secretary shall so notify the holders of such certificates.

PUBLIC WATER SYSTEMS—PENALTIES AND COMPLIANCE

Sections
70.119A.020 Definitions.
70.119A.025 Environmental excellence program agreements—Effect on chapter.

[Title 70 RCW—page 406]
(8) "Federal safe drinking water act" means the federal safe drinking water act, 42 U.S.C. Sec. 300f et seq., as now in effect or hereafter amended.

(9) "Area-wide waivers" means a waiver granted by the department as a result of a geographically based testing program meeting required provisions of the federal safe drinking water act.

(10) "Local health officer" means the legally qualified physician who has been appointed as the health officer for the city, town, county, or district public health department.

(11) "Person" includes, but is not limited to, natural persons, municipal corporations, governmental agencies, firms, companies, mutual or cooperative associations, institutions, and partnerships. It also means the authorized agents of any such entities.

(12) "Public health emergency" means a declaration by an authorized health official of a situation in which either illness, or exposure known to cause illness, is occurring or is imminent.

(13) "Secretary" means the secretary of the department of health.

(14) "State board of health" is the board created by RCW 43.20.030. [1999 c 118 § 2; 1994 c 252 § 2; 1991 c 304 § 2; 1991 c 3 § 370; 1989 c 422 § 2; 1986 c 271 § 2.]

Finding—Intent—1999 c 118: "The legislature finds and declares that the provision of safe and reliable water supplies is essential to public health and the continued economic vitality of the state of Washington. Maintaining the authority necessary to ensure safe and reliable water supplies requires that state laws conform with the provisions of the federal safe drinking water act. It is the intent of the legislature that the definition of public water system be amended to reflect recent amendments to the federal safe drinking water act." [1999 c 118 § 1.]

Finding—1994 c 252: "The legislature finds that:

(1) The federal safe drinking water act has imposed significant new costs on public water systems and that the state should seek maximum regulatory flexibility allowed under federal law;

(2) There is a need to comprehensively assess and characterize the groundwaters of the state to evaluate public health risks from organic and inorganic chemicals regulated under federal law;

(3) That federal law provides a mechanism to significantly reduce testing and monitoring costs to public water systems through the use of area-wide waivers.

The legislature therefore directs the department of health to conduct a voluntary program to selectively test the groundwaters of the state for organic and inorganic chemicals regulated under federal law for the purpose of granting area-wide waivers." [1994 c 252 § 1.]

Effective date—1994 c 252: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately [April 1, 1994]." [1994 c 252 § 6.]

Requirements effective upon adoption of rules—1991 c 304: See note following RCW 70.119A.100.

70.119A.025 Environmental excellence program agreements—Effect on chapter. Notwithstanding any other provision of law, any legal requirement under this chapter, including any standard, limitation, rule, or order is superseded and replaced in accordance with the terms and provisions of an environmental excellence program agreement, entered into under chapter 43.21K RCW. [1997 c 381 § 24.]

Purpose—1997 c 381: See RCW 43.21K.005.

70.119A.030 Public health emergencies—Violations—Penalty. (1) The secretary or his or her designee or the local health officer may declare a public health emergency. As limited by RCW 70.119A.040, the department may impose penalties for violations of laws or regulations that are determined to be a public health emergency.

(2) As limited by RCW 70.119A.040, the department may impose penalties for violation of laws or rules regulating public water systems and administered by the department of health. [1993 c 305 § 1; 1991 c 304 § 3; 1989 c 422 § 6; 1986 c 271 § 3.]

Requirements effective upon adoption of rules—1991 c 304: See note following RCW 70.119A.100.

70.119A.040 Additional or alternative penalty—Informal resolution unless a public health emergency. (1)(a) In addition to or as an alternative to any other penalty or action allowed by law, a person who violates a law or rule regulating public water systems and administered by the department of health subject to a penalty of not more than five thousand dollars per day for every such violation, or, in the case of a violation that has been determined to be a public health emergency, a penalty of not more than ten thousand dollars per day for every such violation. Every such violation shall be a separate and distinct offense. The amount of fine shall reflect the health significance of the violation and the previous record of compliance on the part of the public water supplier. In case of continuing violation, every day’s continuance shall be a separate and distinct violation.

(b) In addition, a person who constructs, modifies, or expands a public water system or who commences the construction, modification, or expansion of a public water system without first obtaining the required departmental approval is subject to penalties of not more than five thousand dollars per service connection, or, in the case of a system serving a transient population, a penalty of not more than four hundred dollars per person based on the highest average daily population the system serves or anticipated to serve may be imposed. The total penalty that may be imposed pursuant to this subsection (1)(b) is five hundred thousand dollars. For the purpose of computing the penalty under this subsection, a service connection shall include any new service connection actually constructed, any anticipated service connection the system has been designed to serve, and, in the case of a system modification not involving expansions, each existing service connection that benefits or would benefit from the modification.

(c) Every person who, through an act of commission or omission, procures, aids, or abets a violation is considered to have violated the provisions of this section and is subject to the penalty provided in this section.

(2) The penalty provided for in this section shall be imposed by a notice in writing to the person against whom the civil penalty is assessed and shall describe the violation. The notice shall be personally served in the manner of service of a summons in a civil action or in a manner that shows proof of receipt. A penalty imposed by this section is due twenty-eight days after receipt of notice unless application for an adjudicative proceeding is filed as provided in subsection (3) of this section.

(3) Within twenty-eight days after notice is received, the person incurring the penalty may file an application for an adjudicative proceeding and may pursue subsequent review
as provided in chapter 34.05 RCW and applicable rules of the department or board of health.

(4) A penalty imposed by a final administrative order is due upon service of the final administrative order. A person who fails to pay a penalty assessed by a final administrative order within thirty days of service of the final administrative order shall pay, in addition to the amount of the penalty, interest at the rate of one percent of the unpaid balance of the assessed penalty for each month or part of a month that the penalty remains unpaid, commencing with the month in which the notice of penalty was served and such reasonable attorney’s fees as are incurred in securing the final administrative order.

(5) A person who institutes proceedings for judicial review of a final administrative order assessing a civil penalty under this chapter shall place the full amount of the penalty in an interest bearing account in the registry of the reviewing court. At the conclusion of the proceeding the court shall, as appropriate, enter a judgment on behalf of the department and order that the judgment be satisfied to the extent possible from moneys paid into the registry of the court or shall enter a judgment in favor of the person appealing the penalty assessment and order return of the moneys paid into the registry of the court together with accrued interest to the person appealing. The judgment may award reasonable attorney’s fees for the cost of the attorney general’s office in representing the department.

(6) If no appeal is taken from a final administrative order assessing a civil penalty under this chapter, the department may file a certified copy of the final administrative order with the clerk of the superior court in which the public water system is located or in Thurston county, and the clerk shall enter judgment in the name of the department and in the amount of the penalty assessed in the final administrative order.

(7) A judgment entered under subsection (5) or (6) of this section shall have the same force and effect as, and is subject to all of the provisions of law relating to, a judgment in a civil action, and may be enforced in the same manner as any other judgment of the court in which it is entered.

(8) All penalties imposed under this section shall be payable to the state treasury and credited to the safe drinking water account, and shall be used by the department to provide training and technical assistance to system owners and operators.

(9) Except in cases of public health emergencies, the department may not impose monetary penalties under this section unless a prior effort has been made to resolve the violation informally. [1995 c 376 § 8; 1993 c 305 § 2; 1990 c 133 § 8; 1989 c 175 § 135; 1986 c 271 § 4.]

70.119A.050 Enforcement of regulations by local boards of health—Civil penalties. Each local board of health that is enforcing the regulations under an agreement with the department allocating state and local responsibility is authorized to impose and collect civil penalties for violations within the area of its responsibility under the same limitations and requirements imposed upon the department by

RCW 70.119A.030 and 70.119A.040, except that judgment shall be entered in the name of the local board [and] penalties shall be placed into the general fund of the county, city, or town operating the local board of health. [1993 c 305 § 3; 1989 c 422 § 8; 1986 c 271 § 5.]

70.119A.060 Public water systems—Mandate—Conditions for approval or creation of new public water systems—Department and local health jurisdiction duties. 

(1) In order to assure safe and reliable public drinking water and to protect the public health, public water systems shall:
(a) Protect the water sources used for drinking water;
(b) Provide treatment adequate to ensure that the public health is protected;
(c) Provide and effectively operate and maintain public water system facilities;
(d) Plan for future growth and assure the availability of safe and reliable drinking water;
(e) Provide the department with the current names, addresses, and telephone numbers of the owners, operators, and emergency contact persons for the system, including any changes to this information, and provide to users the name and twenty-four hour telephone number of an emergency contact person; and
(f) Take whatever investigative or corrective action is necessary to ensure that a safe and reliable drinking water supply is continuously available to users.

(2) No new public water system may be approved or created unless: (a) It is owned or operated by a satellite system management agency established under RCW 70.116.134 and the satellite system management system complies with financial viability requirements of the department; or (b) a satellite management system is not available and it is determined that the new system has sufficient management and financial resources to provide safe and reliable service. The approval of any new system that is not owned by a satellite system management agency shall be conditioned upon future management or ownership by a satellite system management agency, if such management or ownership can be made with reasonable economy and efficiency, or upon periodic review of the system’s operational history to determine its ability to meet the department’s financial viability and other operating requirements. The department and local health jurisdictions shall enforce this requirement under authority provided under this chapter, chapter 70.116, or 70.05 RCW, or other authority governing the approval of new water systems by the department or a local jurisdiction.

(3) The department and local health jurisdictions shall carry out the rules and regulations of the state board of health adopted pursuant to RCW 43.20.050(2)(a) and other rules adopted by the department relating to public water systems. [1995 c 376 § 3; 1991 c 304 § 4; 1990 c 132 § 4; 1989 c 422 § 3.]

70.119A.070 Department contracting authority. The department may enter into contracts to carry out the purposes of this chapter. [1989 c 422 § 4.]

70.119A.080 Drinking water program. (1) The department shall administer a drinking water program which includes, but is not limited to, those program elements necessary to assume primary enforcement responsibility for part B, and section 1428 of part C of the federal safe drinking water act. No rule promulgated or implemented by the department of health or the state board of health for the purpose of compliance with the requirements of the federal safe drinking water act, 42 U.S.C. Sec. 300f et seq., shall be applicable to public water systems to which that federal law is not applicable, unless the department or the state board determines that such rule is necessary for the protection of public health.

(2) The department shall enter into an agreement of administration with the department of ecology and any other appropriate agencies, to administer the federal safe drinking water act.

(3) The department is authorized to accept federal grants for the administration of a primary program. [1991 c 3 § 371; 1989 c 422 § 5.]

70.119A.100 Operating permits—Findings. The legislature finds that:

(1) The responsibility for ensuring that the citizens of this state have a safe and reliable drinking water supply is shared between local government and state government, and is the obligation of every public water system;

(2) A rapid increase in the number of public water systems supplying drinking water to the citizens of this state has significantly increased the burden on both local and state government to monitor and enforce compliance by these systems with state laws that govern planning, design, construction, operation, maintenance, financing, management, and emergency response;

(3) The federal safe drinking water act imposes on state and local governments and the public water systems of this state significant new responsibilities for monitoring, testing, and treating drinking water supplies; and

(4) Existing drinking water programs at both the state and local government level need additional authorities to enable them to more comprehensively and systematically address the needs of the public water systems of this state and assure that the public health and safety of its citizens are protected.

Therefore, annual operating permit requirements shall be established in accordance with this chapter. The operating permit requirements shall be administered by the department and shall be used as a means to assure that public water systems provide safe and reliable drinking water to the public. The department and local government shall conduct comprehensive and systematic evaluations to assess the adequacy and financial viability of public water systems. The department may impose permit conditions, requirements for system improvements, and compliance schedules in order to carry out the purpose of chapter 304, Laws of 1991. [1991 c 304 § 1.]

Requirements effective upon adoption of rules—1991 c 304: "The department shall adopt rules necessary to implement sections 5 through 7 of this act. The requirements of this act shall take effect upon adoption of rules pursuant to this act." [1991 c 304 § 8.]

70.119A.110 Operating permits—Application process—Phase-in of implementation—Satellite systems. (1) No person may operate a group A public water system unless the person first submits an application to the department and receives an operating permit as provided in this section. A new application must be submitted upon any change in ownership of the system. Any person operating a public water system on July 28, 1991, may continue to operate the system until the department takes final action, including any time necessary for a hearing under subsection (3) of this section, on a permit application submitted by the person operating the system under the rules adopted by the department to implement this section.

(2) The department may require that each application include the information that is reasonable and necessary to determine that the system complies with applicable standards and requirements of the federal safe drinking water act, state law, and rules adopted by the department or by the state board of health.

(3) Following its review of the application, its supporting material, and any information received by the department in its investigation of the application, the department shall issue or deny the operating permit. The department shall act on initial permit applications as expeditiously as possible, and shall in all cases either grant or deny the application within one hundred twenty days of receipt of the application or of any supplemental information required to complete the application. The applicant for a permit shall be entitled to file an appeal in accordance with chapter 34.05 RCW if the department denies the initial or subsequent applications or imposes conditions or requirements upon the operator. Any operator of a public water system that requests a hearing may continue to operate the system until a decision is issued after the hearing.

(4) At the time of initial permit application or at the time of permit renewal the department may impose such permit conditions, requirements for system improvements, and compliance schedules as it determines are reasonable and necessary to ensure that the system will provide a safe and reliable water supply to its users.

(5) Operating permits shall be issued for a term of one year, and shall be renewed annually, unless the operator fails to apply for a new permit or the department finds good cause to deny the application for renewal.

(6) Each application shall be accompanied by an annual fee as follows:

(a) The annual fee for public water supply systems serving fifteen to forty-nine service connections shall be twenty-five dollars.

(b) The annual fee for public water supply systems serving fifty to three thousand three hundred thirty-three service connections shall be based on a uniform per service connection fee of one dollar and fifty cents per service connection.

(c) The annual fee for public water supply systems serving three thousand three hundred thirty-four to fifty-three thousand three hundred thirty-three service connections shall be based on a uniform per service connection fee of one dollar and fifty cents per service connection plus ten cents for
(d) The annual fee for public water supply systems serving fifty-three thousand three hundred thirty-four or more service connections shall be ten thousand dollars.

(e) In addition to the fees under (a) through (d) of this subsection, the department may charge an additional one-time fee of five dollars for each service connection in a new water system.

(f) Until June 30, 2007, in addition to the fees under (a) through (e) of this subsection, the department may charge municipal water suppliers, as defined in RCW 90.03.015, an additional annual fee equivalent to twenty-five cents for each residential service connection for the purpose of funding the water conservation activities in RCW 70.119A.180.

(7) The department may phase-in the implementation for any group of systems provided the schedule for implementation is established by rule. Prior to implementing the operating permit requirement on water systems having less than five hundred service connections, the department shall form a committee composed of persons operating these systems. The committee shall be composed of the department of health, two operators of water systems having under one hundred connections, two operators of water systems having between one hundred and two hundred service connections, two operators of water systems having between two hundred and three hundred service connections, two operators of water systems having between three hundred and four hundred service connections, two operators of water systems having between four hundred and five hundred service connections, and two county public health officials. The members shall be chosen from different geographic regions of the state. This committee shall develop draft rules to implement this section. The draft rules will then be subject to the rule-making procedures in accordance with chapter 34.05 RCW.

(8) The department shall notify existing public water systems of the requirements of RCW 70.119A.030, 70.119A.060, and this section at least one hundred twenty days prior to the date that an application for a permit is required pursuant to RCW 70.119A.030, 70.119A.060, and this section.

(9) The department shall issue one operating permit to any approved satellite system management agency. Operating permit fees for approved satellite system management agencies shall be one dollar per connection per year for the total number of connections under the management of the approved satellite agency. The department shall define by rule the meaning of the term “satellite system management agency.” If a statutory definition of this term exists, then the department shall adopt by rule a definition consistent with the statutory definition.

(10) For purposes of this section, “group A public water system” and “system” mean those water systems with fifteen or more service connections, regardless of the number of people; or a system serving an average of twenty-five or more people per day for sixty or more days within a calendar year, regardless of the number of service connections. [2003 1st sp.s. c 5 § 18; 1991 c 304 § 5.]

Severability—2003 1st sp.s. c 5: See note following RCW 90.03.015.

Requirements effective upon adoption of rules—1991 c 304: See note following RCW 70.119A.100.

70.119A.115 Organic and inorganic chemicals—Area-wide waiver program. The department shall develop and implement a voluntary consolidated source monitoring program sufficient to accurately characterize the source water quality of the state’s drinking water supplies and to maximize the flexibility allowed in the federal safe drinking water act to allow public water systems to be waived from full testing requirements for organic and inorganic chemicals under the federal safe drinking water act. The department shall arrange for the initial sampling and provide for testing and programmatic costs to the extent that the legislature provides funding for this purpose in water system operating permit fees or through specific appropriation of funds from other sources. The department shall assess a fee using its authority under RCW 43.20B.020, sufficient to cover all testing and directly related costs to public water systems that otherwise are not funded. The department shall adjust the amount of the fee based on the size of the public drinking water system. Fees charged by the department for this purpose may not vary by more than a factor of ten. The department shall, to the extent feasible and cost-effective, use the services of local governments, local health departments, and private laboratories to implement the testing program. The department shall consult with the departments of agriculture and ecology for the purpose of exchanging water quality and other information. [1997 c 218 § 3; 1994 c 252 § 3.]
70.119A.140 Report by bottled water plant operator or water dealer of contaminant in water source. In such cases where a bottled water plant operator or water dealer knows or has reason to believe that a contaminant is present in the source water because of spill, release of a hazardous substance, or otherwise, and the contaminant’s presence would create a potential health hazard to consumers, the plant operator or water dealer must report such an occurrence to the state’s department of health. [1992 c 34 § 5.]

Severability—1992 c 34: See note following RCW 69.07.170.

70.119A.150 Authority to enter premises—Search warrants—Investigations. (1)(a) Except as otherwise provided in (b) of this subsection, the secretary or his or her designee shall have the right to enter a premises under the control of a public water system at reasonable times with prior notification in order to determine compliance with laws and rules administered by the department of health to test, inspect, or sample features of a public water system and inspect, copy, or photograph monitoring equipment or other features of a public water system, or records required to be kept under laws or rules regulating public water systems. For the purposes of this section, "premises under the control of a public water system" does not include the premises or private property of a customer of a public water system past the point on the system where the service connection is made.

(b) The secretary or his or her designee need not give prior notification to enter a premises under (a) of this subsection if the purpose of the entry is to ensure compliance by the public water system with a prior order of the department or if the secretary or the secretary’s designee has reasonable cause to believe the public water system is violating the law and poses a serious threat to public health and safety.

(2) The secretary or his or her designee may apply for an administrative search warrant to a court official authorized to issue a criminal search warrant. An administrative search warrant may be issued for the purposes of inspecting or examining property, buildings, premises, place, books, records, or other physical evidence, or conducting tests or taking samples. The warrant shall be issued upon probable cause. It is sufficient probable cause to show any of the following:

(a) The inspection, examination, test, or sampling is pursuant to a general administrative plan to determine compliance with laws or rules administered by the department; or

(b) The secretary or his or her designee has reason to believe that a violation of a law or rule administered by the department has occurred, is occurring, or may occur.

(3) The local health officer or the designee of a local health officer of a local board of health that is enforcing rules regulating public water systems under an agreement with the department allocating state and local responsibility is authorized to conduct investigations and to apply for, obtain, and execute administrative search warrants necessary to perform the local board’s agreed-to responsibilities under the same limitations and requirements imposed on the department under this section. [1993 c 305 § 4.]

70.119A.170 Drinking water assistance account—Drinking water assistance administrative account—Drinking water assistance repayment account—Program to provide financial assistance to public water systems—Responsibilities. (1) A drinking water assistance account is created in the state treasury. Such subaccounts as are necessary to carry out the purposes of this chapter are permitted to be established within the account. Therefore, the drinking water assistance administrative account and the drinking water assistance repayment account are created in the state treasury. The purpose of the account is to allow the state to use any federal funds that become available to states from congress to fund a state revolving loan fund program as part of the reauthorization of the federal safe drinking water act. Expenditures from the account may only be made by the secretary, the public works board, or the department of community, trade, and economic development, after appropriation. Moneys in the account may only be used, consistent with federal law, to assist water systems to provide safe drinking water through a program administered through the department of health, the public works board, and the department of community, trade, and economic development and for other activities authorized under federal law. Moneys may be placed in the account from the proceeds of bonds when authorized by the legislature, transfers from other state funds or accounts, federal capitalization grants or other financial assistance, all repayments of moneys borrowed from the account, all interest payments made by borrowers from the account or otherwise earned on the account, or any other lawful source. All interest earned on moneys deposited in the account, including repayments, shall remain in the account and may be used for any eligible purpose. Moneys in the account may only be used to assist local governments and water systems to provide safe and reliable drinking water, for other services and assistance authorized by federal law to be

(2008 Ed.)
funded from these federal funds, and to administer the program.

(2) The department and the public works board shall establish and maintain a program to use the moneys in the drinking water assistance account as provided by the federal government under the safe drinking water act. The department and the public works board, in consultation with purveyors, local governments, local health jurisdictions, financial institutions, commercial construction interests, other state agencies, and other affected and interested parties, shall by January 1, 1999, adopt final joint rules and requirements for the provision of financial assistance to public water systems as authorized under federal law. Prior to the effective date of the final rules, the department and the public works board may establish and utilize guidelines for the sole purpose of ensuring the timely procurement of financial assistance from the federal government under the safe drinking water act, but such guidelines shall be converted to rules by January 1, 1999. The department and the public works board shall make every reasonable effort to ensure the state’s receipt and disbursement of federal funds to eligible public water systems as quickly as possible after the federal government has made them available. By December 15, 1997, the department and the public works board shall provide a report to the appropriate committees of the legislature reflecting the input from the affected interests and parties on the status of the program. The report shall include significant issues and concerns, the status of rule making and guidelines, and a plan for the adoption of final rules.

(3) If the department, public works board, or any other department, agency, board, or commission of state government participates in providing service under this section, the administering entity shall endeavor to provide cost-effective and timely services. Mechanisms to provide cost-effective and timely services include: (a) Adopting federal guidelines by reference into administrative rules; (b) using existing management mechanisms rather than creating new administrative structures; (c) investigating the use of service contracts, either with other governmental entities or with non-governmental service providers; (d) the use of joint or combined financial assistance applications; and (e) any other method or practice designed to streamline and expedite the delivery of services and financial assistance.

(4) The department shall have the authority to establish assistance priorities and carry out oversight and related activities, other than financial administration, with respect to assistance provided with federal funds. The department, the public works board, and the department of community, trade, and economic development shall jointly develop, with the assistance of water purveyors and other affected and interested parties, a memorandum of understanding setting forth responsibilities and duties for each of the parties. The memorandum of understanding at a minimum, shall include:

(a) Responsibility for developing guidelines for providing assistance to public water systems and related oversight prioritization and oversight responsibilities including requirements for prioritization of loans or other financial assistance to public water systems;
(b) Department submittal of preapplication information to the public works board for review and comment;
(c) Department submittal of a prioritized list of projects to the public works board for determination of:
   (i) Financial capability of the applicant; and
   (ii) Readiness to proceed, or the ability of the applicant to promptly commence the project;
(d) A process for determining consistency with existing water resource planning and management, including coordinated water supply plans, regional water resource plans, and comprehensive plans under the growth management act, chapter 36.70A RCW;
(e) A determination of:
   (i) Least-cost solutions, including consolidation and restructuring of small systems, where appropriate, into more economical units;
   (ii) The provision of regional facilities;
   (iii) Projects and activities that facilitate compliance with the federal safe drinking water act; and
   (iv) Projects and activities that are intended to achieve the public health objectives of federal and state drinking water laws;
(f) Implementation of water conservation and other demand management measures consistent with state guidelines for water utilities;
(g) Assistance for the necessary planning and engineering to assure that consistency, coordination, and professional review are incorporated into projects or activities proposed for funding;
(h) Minimum standards for water system capacity, financial viability, and water system planning;
(i) Testing and evaluation of the water quality of the state’s public water system to assure that priority for financial assistance is provided to systems and areas with threats to public health from contaminated supplies and reduce in appropriate cases the substantial increases in costs and rates that customers of small systems would otherwise incur under the monitoring and testing requirements of the federal safe drinking water act;
(j) Coordination, to the maximum extent possible, with other state programs that provide financial assistance to public water systems and state programs that address existing or potential water quality or drinking contamination problems;
(k) Definitions of "affordability" and "disadvantaged community" that are consistent with these and similar terms in use by other state or federal assistance programs;
(l) Criteria for the financial assistance program for public water systems, which shall include, but are not limited to:
   (i) Determining projects addressing the most serious risk to human health;
   (ii) Determining the capacity of the system to effectively manage its resources, including meeting state financial viability criteria; and
   (iii) Determining the relative benefit to the community served; and
(m) Ensure that each agency fulfills the audit, accounting, and reporting requirements under federal law for its portion of the administration of this program.

(5) The department and the public works board shall begin the process to disburse funds no later than October 1, 1997, and shall adopt such rules as are necessary under chapter 34.05 RCW to administer the program by January 1, 1999. [2001 c 141 § 4; 1997 c 218 § 4; 1995 c 376 § 10.]
70.119.030. Demand forecast methodologies such that demand forecasts are consistent with supply characteristics. Reports shall be available to the public; and the requirements, water distribution system leakage standards, and water conservation performance reporting requirements; and (b) “Municipal water supplier” and “municipal water supply purposes” have the meanings provided by RCW 90.03.015.

(4) To accomplish the purposes of this section, the department shall adopt rules necessary to implement this section by December 31, 2005. The department shall:

(a) Develop conservation planning requirements that ensure municipal water suppliers are: (i) Implementing programs to integrate conservation with water system operation and management; and (ii) identifying how to appropriately fund and implement conservation activities. Requirements shall apply to the conservation element of water system plans and small water system management programs developed pursuant to chapter 43.20 RCW. In establishing the conservation planning requirements the department shall review the current department conservation planning guidelines and include those elements that are appropriate for rule. Conservation planning requirements shall include but not be limited to:

(A) Selection of cost-effective measures to achieve a system’s water conservation objectives. Requirements shall allow the municipal water supplier to select and schedule implementation of the best methods for achieving its conservation objectives;

(B) Evaluation of the feasibility of adopting and implementing water delivery rate structures that encourage water conservation;

(C) Evaluation of each system’s water distribution system leakage and, if necessary, identification of steps necessary for achieving water distribution system leakage standards developed under (b) of this subsection;

(D) Collection and reporting of water consumption and source production and/or water purchase data. Data collection and reporting requirements shall be sufficient to identify water use patterns among utility customer classes, where applicable, and evaluate the effectiveness of each system’s conservation program. Requirements, including reporting frequency, shall be appropriate to system size and complexity. Reports shall be available to the public; and

(E) Establishment of minimum requirements for water demand forecast methodologies such that demand forecasts prepared by municipal water suppliers are sufficient for use in determining reasonably anticipated future water needs;

(b) Develop water distribution system leakage standards to ensure that municipal water suppliers are taking appropriate steps to reduce water system leakage rates or are maintaining their water distribution systems in a condition that results in leakage rates in compliance with the standards. Limits shall be developed in terms of percentage of total water produced and/or purchased and shall not be lower than ten percent. The department may consider alternatives to the percentage of total water supplied where alternatives provide a better evaluation of the water system’s leakage performance. The department shall institute a graduated system of requirements based on levels of water system leakage. A municipal water supplier shall select one or more control methods appropriate for addressing leakage in its water system;

(c) Establish minimum requirements for water conservation performance reporting to assure that municipal water suppliers are regularly evaluating and reporting their water conservation performance. The objective of setting conservation goals is to enhance the efficient use of water by the water system customers. Performance reporting shall include:

(i) Requirements that municipal water suppliers adopt and achieve water conservation goals. The elected governing board or governing body of the water system shall set water conservation goals for the system. In setting water conservation goals the water supplier may consider historic conservation performance and conservation investment, customer base demographics, regional climate variations, forecasted demand and system supply characteristics, system financial viability, system reliability, and affordability of water rates. Conservation goals shall be established by the municipal water supplier in an open public forum;

(ii) Requirements that the municipal water supplier adopt schedules for implementing conservation program elements and achieving conservation goals to ensure that progress is being made toward adopted conservation goals;

(iii) A reporting system for regular reviews of conservation performance against adopted goals. Performance reports shall be available to customers and the public. Requirements, including reporting frequency, shall be appropriate to system size and complexity;

(iv) Requirements that any system not meeting its water conservation goals shall develop a plan for modifying its conservation program to achieve its goals along with procedures for reporting performance to the department;

(v) If a municipal water supplier determines that further reductions in consumption are not reasonably achievable, it shall identify how current consumption levels will be maintained;

(d) Adopt rules that, to the maximum extent practical, utilize existing mechanisms and simplified procedures in order to minimize the cost and complexity of implementation and to avoid placing unreasonable financial burden on smaller municipal systems.

(5) The department shall establish an advisory committee to assist the department in developing rules for water use efficiency. The advisory committee shall include representatives from public water system customers, environmental
interest groups, business interest groups, a representative cross-section of municipal water suppliers, a water utility conservation professional, tribal governments, the department of ecology, and any other members determined necessary by the department. The department may use the water supply advisory committee created pursuant to RCW 70.119A.160 augmented with additional participants as necessary to comply with this subsection to assist the department in developing rules.

(6) The department shall provide technical assistance upon request to municipal water suppliers and local governments regarding water conservation, which may include development of best management practices for water conservation programs, conservation landscape ordinances, conservation rate structures for public water systems, and general public education programs on water conservation.

(7) To ensure compliance with this section, the department shall establish a compliance process that incorporates a graduated approach employing the full range of compliance mechanisms available to the department.

(8) Prior to completion of rule making required in subsection (4) of this section, municipal water suppliers shall continue to meet the existing conservation requirements of the department and shall continue to implement their current water conservation programs. [2003 1st sp.s. c 5 § 7.]

Severability—2003 1st sp.s. c 5: See note following RCW 90.03.015.

70.119A.190 Water system acquisition and rehabilitation program—Created. Subject to the availability of amounts appropriated for this specific purpose, the department shall provide financial assistance through a water system acquisition and rehabilitation program, hereby created. The program shall be jointly administered with the public works board and the department of community, trade, and economic development. The agencies shall adopt guidelines for the program using as a model the procedures and criteria of the drinking water revolving loan program authorized under RCW 70.119A.170. All financing provided through the program must be in the form of grants that partially cover amounts appropriated for this specific purpose, the department is required to provide the higher of the market interest rate or the amount appropriated for this specific purpose, the department shall continue to implement their current water conservation programs. [2003 1st sp.s. c 5 § 7.]

Finding—Purpose—2008 c 214: "The legislature finds that it is the state’s policy to maintain the highest quality and reliability of drinking water supplies to all citizens of the state. Small water systems may face greater challenges in this regard because of declining quality in water sources, catastrophic events such as flooding that impair water sources, the age of the system’s infrastructure, saltwater intrusion into water sources, inadequate rate base for conducting necessary improvements, and other challenges. In response to these needs, the water system acquisition and rehabilitation program was created through biennial budget law, and through the current biennium has a total of nine million seven-hundred fifty thousand dollars toward space to thousands of customers.

70.119A.900 Short title—1989 c 422. This act shall be known and cited as the "Washington state safe drinking water act." [1989 c 422 § 1.]

[Title 70 RCW—page 414]
The department shall grant certificates of instruction to persons who successfully complete a course of study, under general requirements established by the director, in the maintenance of motor vehicle engines, the use of engine and exhaust analysis equipment, and the repair and maintenance of emission control devices. The director may establish and implement procedures for granting certification to persons who successfully complete other training programs or who have received certification from public and private organizations which meet the requirements established in this section, including programs on clean fuel technology and maintenance.

The department shall make available to the public a list of those persons who have received certificates of instruction under subsection (2)(a) of this section.

To receive the certificate, the person must document:

(a) Whose motor vehicle is tested pursuant to this chapter and fails to comply with the emission standards established for the vehicle; and

(b) Who, following such a test, expends more than one hundred dollars on a 1980 or earlier model year motor vehicle or expends more than one hundred fifty dollars on a 1981 or later model year motor vehicle for repairs solely devoted to meeting the emission standards and that are performed by a certified emission specialist authorized by RCW 70.120.020(2)(a); and

(c) Whose vehicle fails a retest, may be issued a certificate of acceptance if (i) the vehicle has been in use for more than five years or fifty thousand miles, and (ii) any component of the vehicle installed by the manufacturer for the purpose of reducing emissions, or its appropriate replacement, is installed and operative.

To receive the certificate, the person must document compliance with (b) and (c) of this subsection to the satisfaction of the department.

The department shall also review complaints received regarding the maintenance or repairs secured by owners of motor vehicles for the purpose of complying with the requirements of this chapter. When possible, the department shall assist such owners in determining the merits of the complaints.

70.120.080 Vehicle inspections—Fleets. The director may authorize an owner or lessee of a fleet of motor vehicles, or the owner’s or lessee’s agent, to inspect the vehicles in the fleet and issue certificates of compliance for the vehicles in the fleet if the director determines that: (1) The director’s inspection procedures will be conducted with; and (2) certificates will be issued only to vehicles in the fleet that meet emission and equipment standards adopted under RCW 70.120.150 and only when appropriate.

In addition, the director may authorize an owner or lessee of one or more diesel motor vehicles with a gross vehicle weight rating in excess of eight thousand five hundred pounds, or the owner’s or lessee’s agent, to inspect the vehicles and issue certificates of compliance for the vehicles. The inspections shall be conducted in compliance with inspection procedures adopted by the department and certificates of compliance shall only be issued to vehicles that meet emission and equipment standards adopted under RCW 70.120.150.

The director shall establish by rule the fee for fleet or diesel inspections provided for in this section. The fee shall be set at an amount necessary to offset the department’s cost to administer the fleet and diesel inspection program authorized by this section.

Owners, leaseholders, or their agents conducting inspections under this section shall pay only the fee established in this section and not be subject to fees under RCW 70.120.170(4).

70.120.100 Vehicle inspections—Complaints. The department shall investigate complaints received regarding the operation of emission testing stations and shall require corrections or modifications in those operations when deemed necessary.

The department shall also review complaints received regarding the maintenance or repairs secured by owners of motor vehicles for the purpose of complying with the requirements of this chapter. When possible, the department shall assist such owners in determining the merits of the complaints.

The department shall keep a copy of all complaints received, and on request, make copies available to the public. This is not intended to require disclosure of any information that is exempt from public disclosure under chapter 42.56 RCW. [2005 c 274 § 340; 1998 c 342 § 3; 1979 ex.s.c 163 § 10.]

70.120.120 Rules. The director shall adopt rules implementing and enforcing this chapter in accordance with chapter 34.05 RCW. The department shall take into account when considering proposed modifications of emission contributing boundaries, as provided for in RCW 70.120.150(6), alterna-
tive transportation control and motor vehicle emission reduction measures that are required by local municipal corporations for the purpose of satisfying federal emission guidelines. [1991 c 199 § 206; 1989 c 240 § 8; 1979 ex.s. c 163 § 13.]

70.120.130 Authority. The authority granted by this chapter to the director and the department for controlling vehicle emissions is supplementary to the department’s authority to control air pollution pursuant to chapter 70.94 RCW. [1979 ex.s. c 163 § 14.]
Severability—1979 ex.s. c 163: See note following RCW 70.120.010.

70.120.150 Vehicle emission and equipment standards—Designation of noncompliance areas and emission contributing areas. The director:
(1) Shall adopt motor vehicle emission and equipment standards to: Ensure that no less than seventy percent of the vehicles tested comply with the standards on the first inspection conducted, meet federal clean air act requirements, and protect human health and the environment.
(2) Shall adopt rules implementing the smoke opacity testing requirement for diesel vehicles that ensure that such test is objective and repeatable and that properly maintained engines that otherwise would meet the applicable federal emission standards, as measured by the new engine certification test, would not fail the smoke opacity test.
(3) Shall designate a geographic area as being a "noncompliance area" for motor vehicle emissions if (a) the department’s analysis of emission and ambient air quality data, covering a period of no less than one year, indicates that the standard has or will probably be exceeded, and (b) the department determines that the primary source of the air contaminant is motor vehicle emissions.
(4) Shall reevaluate noncompliance areas if the United States environmental protection agency modifies the relevant air quality standards, and shall discontinue the program if compliance is indicated and if the department determines that the area would continue to be in compliance after the program is discontinued. The director shall notify persons residing in noncompliance areas of the reevaluation.
(5) Shall analyze information regarding the motor vehicle traffic in a noncompliance area to determine the smallest land area within whose boundaries are present registered motor vehicles that contribute significantly to the violation of motor vehicle-related air quality standards in the noncompliance area. The director shall declare the area to be an "emission contributing area." An emission contributing area established for a carbon monoxide or oxides of nitrogen noncompliance area must contain the noncompliance area within its boundaries. An emission contributing area established for an ozone noncompliance area located in this state need not contain the ozone noncompliance area within its boundaries if it can be proven that vehicles registered in the area contribute significantly to violations of the ozone air quality standard in the noncompliance area. An emission contributing area may be established in this state for violations of federal air quality standards for ozone in an adjacent state if (a) the United States environmental protection agency designates an area to be a "nonattainment area for ozone" under the provisions of the federal clean air act (42 U.S.C. 7401 et seq.), and (b) it can be proven that vehicles registered in this state contribute significantly to the violation of the federal air quality standards for ozone in the adjacent state’s nonattainment area.
(6) Shall, after consultation with the appropriate local government entities, designate areas as being noncompliance areas or emission contributing areas, and shall establish the boundaries of such areas by rule. The director may also modify boundaries. In establishing the external boundaries of an emission contributing area, the director shall use the boundaries established for ZIP code service areas by the United States postal service.
(7) May make grants to units of government in support of planning efforts to reduce motor vehicle emissions. [1991 c 199 § 207; 1989 c 240 § 2.]
Finding—1991 c 199: See note following RCW 70.94.011.
Effective dates—Severability—Captions not law—1991 c 199: See RCW 70.94.904 through 70.94.906.

70.120.160 Noncompliance areas—Annual review.
(1) The director shall review annually the air quality and forecasted air quality of each area in the state designated as a noncompliance area for motor vehicle emissions.
(2) An area shall no longer be designated as a noncompliance area if the director determines that:
(a) Air quality standards for contaminants derived from motor vehicle emissions are no longer being violated in the noncompliance area; and
(b) The standards would not be violated if the emission inspection system in the emission contributing area was discontinued and the requirements of RCW 46.16.015 no longer applied. [1989 c 240 § 3.]

70.120.170 Motor vehicle emission inspections—Fees—Certificate of compliance—State and local agency vehicles. (Expires January 1, 2020.) (1) The department shall administer a system for emission inspections of all motor vehicles, except those described in RCW 46.16.015(2), that are registered within the boundaries of each emission contributing area. Under such system a motor vehicle shall be inspected biennially except where an annual program would be required to meet federal law and prevent federal sanctions. In addition, motor vehicles shall be inspected at each change of registered owner of a licensed vehicle as provided under RCW 46.16.015.
(2) The director shall:
(a) Adopt procedures for conducting emission inspections of motor vehicles. The inspections may include idle and high revolution per minute emission tests. The emission test for diesel vehicles shall consist solely of a smoke opacity test.
(b) Adopt criteria for calibrating emission testing equipment. Electronic equipment used to test for emissions standards provided for in this chapter shall be properly calibrated. The department shall examine frequently the calibration of the emission testing equipment used at the stations.

[Title 70 RCW—page 416]
(c) Authorize, through contracts, the establishment and operation of inspection stations for conducting vehicle emission inspections authorized in this chapter. No person contracted to inspect motor vehicles may perform for compensation repairs on any vehicles. No public body may establish or operate contracted inspection stations. Any contracts [must] comply with the procedures established for competitive bids in chapter 43.19 RCW.

(d) Beginning in 2012, authorize businesses other than those contracted to operate inspection stations under (c) of this subsection to conduct vehicle emission inspections. Businesses authorized under this subsection may also inspect and perform, for compensation, repairs on vehicles. The fee limitations under subsection (4) of this section do not apply to the fee charged for a vehicle emissions inspection by a business authorized to conduct vehicle emission inspections under this subsection. The director may establish by rule a fee to be paid to the department for the oversight costs for each vehicle emission inspection performed by a business authorized under this subsection (2)(d).

(3) Subsection (2)(c) of this section does not apply to volunteer motor vehicle inspections under RCW 70.120.020(1) if the inspections are conducted for the following purposes:

(a) Auditing;
(b) Contractor evaluation;
(c) Collection of data for establishing calibration and performance standards; or
(d) Public information and education.

(4)(a) The director shall establish by rule the fee to be charged for emission inspections. The inspection fee shall be a standard fee applicable statewide or throughout an emission contributing area and shall be no greater than fifteen dollars. Surplus moneys collected from fees over the amount due the contractor shall be paid to the state and deposited in the general fund. Fees shall be set at the minimum whole dollar amount required to (i) compensate the contractor or inspection facility owner, and (ii) offset the general fund appropriation to the department to cover the administrative costs of the motor vehicle emission inspection program.

(b) Before each inspection, a person whose motor vehicle is to be inspected shall pay to the inspection station the fee established under this section. The person whose motor vehicle is inspected shall receive the results of the inspection. If the inspected vehicle complies with the standards established by the director, the person shall receive a dated certificate of compliance. If the inspected vehicle does not comply with those standards, one reinspection of the vehicle shall be afforded without charge.

(5) All units of local government and agencies of the state with motor vehicles garaged or regularly operated in an emissions contributing area shall test the emissions of those vehicles annually to ensure that the vehicle’s emissions comply with the emission standards established by the director. All state agencies outside of emission contributing areas with more than twenty motor vehicles housed at a single facility or contiguous facilities shall test the emissions of those vehicles annually to ensure that the vehicles’ emissions comply with standards established by the director. A report of the results of the tests shall be submitted to the department.

(6) This section expires January 1, 2020. [2005 c 295 § 6; 1998 c 342 § 4; 1991 c 199 § 208; 1989 c 240 § 4.]

70.120.190 Used vehicles. (1) Motor vehicle dealers selling a used vehicle not under a new vehicle warranty shall include a notice in each vehicle purchase order form that reads as follows: "The owner of a vehicle may be required to spend up to (a dollar amount established under RCW 70.120.070) for repairs if the vehicle does not meet the vehicle emission standards under this chapter. Unless expressly warranted by the motor vehicle dealer, the dealer is not warranting that this vehicle will pass any emission tests required by federal or state law."

(2) The signature of the purchaser on the notice required under subsection (1) of this section shall constitute a valid disclaimer of any implied warranty by the dealer as to a vehicle’s compliance with any emission standards.

(3) The disclosure requirement of subsection (1) of this section applies to all motor vehicle dealers located in counties where state emission inspections are required. [1991 c 199 § 210.]

70.120.210 Clean-fuel performance and clean-fuel vehicle emissions specifications. By July 1, 1992, the department shall develop, in cooperation with the departments of general administration and transportation, and Washington State University, aggressive clean-fuel performance and clean-fuel vehicle emissions specifications including clean-fuel vehicle conversion equipment. To the extent possible, such specifications shall be equivalent for all fuel types. In developing such specifications the department shall consider the requirements of the clean air act and the findings of the environmental protection agency, other states, the American petroleum institute, the gas research institute, and the motor vehicles manufacturers association. 70.120.230 Scientific advisory board—Composition of board—Duties. The department shall establish a scientific advisory board to review plans to establish or expand the geographic area where an inspection and maintenance system for motor vehicle emissions is required. The board shall consist of three to five members. All members shall have at least a master’s degree in physics, chemistry, or engineering, or a closely related field. No member may be a current employee of a local air pollution control authority, the department, the
United States environmental protection agency, or a company that may benefit from a review by the board.

The board shall review an inspection and maintenance plan at the request of a local air pollution control authority, the department, or by a petition of at least fifty people living within the proposed boundaries of a vehicle emission inspection and maintenance system. The entity or entities requesting a scientific review may include specific issues for the board to consider in its review. The board shall limit its review to matters of science and shall not provide advice on penalties or issues that are strictly legal in nature.

The board shall provide a complete written review to the department. If the board members are not in agreement as to the scientific merit of any issue under review, the board may include a dissenting opinion in its report to the department. The department shall immediately make copies available to the local air pollution control authority and to the public.

The department shall conduct a public hearing, within the area affected by the proposed rule, if any significant aspect of the rule is in conflict with a majority opinion of the board. Chapter 70.120A RCW

MOTOR VEHICLE EMISSION STANDARDS

Sections
70.120A.010 Department of ecology to adopt rules to implement California motor vehicle emission standards—Limitations—Advisory group—Exemptions. (1) Pursuant to the federal clean air act, the legislature adopts the California motor vehicle emission standards in Title 13 of the California Code of Regulations, effective January 1, 2005, except as provided in this chapter. The department of ecology shall adopt rules to implement the emission standards of the state of California for passenger cars, light duty trucks, and medium duty passenger vehicles, and shall amend the rules from time to time, to maintain consistency with the California motor vehicle emission standards and 42 U.S.C. Sec. 7507 (section 177 of the federal clean air act). Notwithstanding other provisions of this chapter, the department of ecology shall not adopt the zero emission vehicle program regulations contained in Title 13 section 1962 of the California Code of Regulations effective January 1, 2005. During rule development, the department of ecology shall convene an advisory group composed of industry and consumer group representatives. Any proposed rules or changes to rules shall be subject to review and comment by the advisory group, prior to rule adoption. The order of adoption for the rules required in this section shall include the signature of the governor. The rules shall be effective only for those model years for which the state of Oregon has adopted the California motor vehicle emission standards. This section does not limit the department of ecology’s authority to regulate motor vehicle emissions for any other class of vehicle.

(2) Motor vehicles with a model year equal to or later than the first model year for which new vehicles sold to Washington state residents are required to comply with California motor vehicle emission standards are exempt from emission inspections under chapter 70.120 RCW. [2005 c 295 § 2.]

Findings—2005 c 295: "The legislature finds that:
(1) Motor vehicles are the largest source of air pollution in the state of Washington, and motor vehicles contribute approximately fifty-seven percent of criteria air pollutant emissions, eighty percent of air toxics emissions, and fifty-five percent of greenhouse gas emissions;
(2) Air pollution levels routinely measured in the state of Washington continue to harm public health, the environment, and the economy. Air pollution causes or contributes to premature death, cancer, asthma, and heart and lung disease. Over half of the state’s population suffers from one or more medical conditions that make them very vulnerable to air pollution. Air pollution increases pain and suffering for vulnerable individuals. Air pollution imposes several hundred million dollars annually in added health care costs for air pollution-associated death and illness, reducing the quality of life and economic security of the citizens of Washington;
(3) Reductions of greenhouse gas emissions from transportation sources are necessary, and it is equitable to seek such reductions because reductions in greenhouse gas emissions have already been initiated in other sectors such as power generation;
(4) Reductions in greenhouse gas emissions made under this act should be credited toward any future federal, state, or regional comprehensive regulatory structure enacted to address reducing greenhouse gas emissions;
(5) Under the federal clean air act, the state of Washington has the option to implement either federal motor vehicle emission standards or California motor vehicle emission standards for passenger cars, light duty trucks, and medium duty passenger vehicles;
(6) Opting into the California motor vehicle standards will provide significant and necessary air quality benefits to residents of the state of Washington;
(7) Adoption of the California motor vehicle standards will increase consumer choices of cleaner vehicles, provide better warranties to consumers, and provide sufficient air quality benefit to allow additional business and economic growth in the key airsheds of the state while maintaining conformance with federal air quality standards.” [2005 c 295 § 1.]

Effective date—2005 c 295 §§ 1, 2, 7, and 11-13: “Sections 1, 2, 7, and 11 through 13 of this act are necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and take effect immediately [May 6, 2005]. [2005 c 295 § 15.]

70.120A.020 Early credits and banking—Alternative means of compliance. (1) In recognition of the provisions of the federal clean air act which require a minimum phase-in period of three model years for adoption of California motor vehicle emission standards, the implementing rules shall include a system of early credits and banking for manufacturers for zero emission vehicles produced and sold earlier than the implementation date for the standards in Washington. Beginning with the model year in which the new standards
become effective, each manufacturer’s fleet of passenger cars and light duty trucks delivered for sale in the state of Washington shall proportionately conform to the zero emission vehicle requirements of Title 13 of the California Code of Regulations, including early credit and banking provisions set forth in Title 13 of the Code of California Regulations using Washington specific vehicle numbers. A manufacturer shall be given early Washington zero emission vehicle credits proportionally equivalent to the zero emission vehicle credits possessed by the requesting manufacturer for use in the state of California on January 1st of the model year the California standards become effective in Washington.

(2) In addition, an alternative means of compliance with the requirements of subsection (1) of this section shall be created in the implementing rules provided for in RCW 70.120A.010. The alternative means of compliance shall allow a manufacturer to earn Washington zero emission vehicle credits beginning with the 2005 model year. The alternative means of compliance shall be developed to be consistent in concept with the alternative compliance systems developed for the states of Connecticut, New York, and Maine as they adopted the zero emission vehicle provisions of the California motor vehicle standards and shall contain a Washington multiplier consistent with the multipliers in those systems. The implementing rules shall require timely notification by the manufacturer to the department of ecology of an election to use the alternative means of compliance. [2005 c 295 § 3.]

Findings—2005 c 295: See note following RCW 70.120A.010.

70.120A.030 Warranty repair service—Manufacturers, repair shops. Individual automobile manufacturers may certify independent automobile repair shops to perform warranty service on the manufacturer’s vehicles. Upon certification of the independent automobile repair shops, the manufacturers shall compensate the repair shops at the same rate as franchised dealers for covered warranty repair services. [2005 c 295 § 4.]

Findings—2005 c 295: See note following RCW 70.120A.010.

70.120A.040 Reports. The office of financial management shall provide an annual progress report to the appropriate committees of the legislature. The office of financial management, in conjunction with the departments of licensing, revenue, and ecology, shall report on the availability of vehicles meeting the standards, the progress of automobile industries in meeting the requirements of the standards, and any other matters relevant to the success of auto-related industries in implementing these requirements. [2005 c 295 § 9.]

Findings—2005 c 295: See note following RCW 70.120A.010.

70.120A.050 New vehicle greenhouse gas emissions disclosure—Rule-making authority—Report to the legislature. (1) No model year 2010 or subsequent model year new passenger car, light duty truck, or medium duty passenger vehicle may be sold in Washington unless there is securely and conspicuously affixed in a clearly visible location a label on which the manufacturer clearly discloses comparative greenhouse gas emissions for that new vehicle.

(2) The label required by this section should include a greenhouse gas index or rating system that contains quantitative and graphical information presented in a continuous, easy-to-read scale that compares the greenhouse gas emissions from the vehicle with the average projected greenhouse gas emissions from all passenger cars, light duty trucks, and medium duty passenger vehicles of the same model year. For reference purposes, the index or rating system should also identify the greenhouse gas emissions from the vehicle model of that same model year that has the lowest greenhouse gas emissions.

(3) The index or rating system included in the label under subsection (2) of this section shall be updated as necessary to ensure that the differences in greenhouse gas emissions among vehicles are readily apparent to the consumer.

(4) An automobile manufacturer may apply to the department of ecology for approval of an alternative to the disclosure labeling requirement that is at least as effective in providing notification and disclosure of the vehicle’s greenhouse gas emissions as is the labeling required by this section.

(5) A label that complies with the requirements of the California greenhouse gas vehicle labeling program shall be deemed to meet the requirements of this section and any rules adopted under this section.

(6) The department of ecology may adopt such rules as are necessary to implement this section.

(7) The department of ecology shall provide a status report to the appropriate committees of the legislature on or before December 1, 2008, (a) outlining its approach and progress toward implementing a greenhouse gas vehicle emissions disclosure labeling program for Washington, (b) providing an update on the status of California’s greenhouse gas vehicle labeling program, and (c) making recommendations as necessary for legislation to meet the intent and purpose of chapter 32, Laws of 2008 by the 2010 model year. [2008 c 32 § 2.]

Intent—2008 c 32: "The legislature intends that new passenger cars, light duty trucks, and medium duty passenger vehicles for sale in Washington display clear and easy to understand information disclosing the new vehicle’s greenhouse gas emissions. Further, the legislature intends that disclosure of such emissions serves as a means of educating consumers, other motorists, and the general public about the sources of greenhouse gas, their impact, available options, and in particular the role and contribution of automobiles and other motor vehicles." [2008 c 32 § 1.]

(2008 Ed.)
70.121.010 Legislative findings. The legislature finds that:

(1) The milling of uranium and thorium creates potential hazards to the health of the citizens of the state of Washington in that potentially hazardous radioactive isotopes, decay products of uranium and thorium, naturally occurring in relatively dispersed geologic formations, are brought to one location on the surface and pulverized in the process of mining and milling uranium and thorium.

(2) These radioactive isotopes, in addition to creating a field of gamma radiation in the vicinity of the tailings area, also exude potentially hazardous radioactive gas and particulates into the atmosphere from the tailings areas, and contaminate the milling facilities, thereby creating hazards which will be present for many generations.

(3) The public health and welfare of the citizens demands that the state assure that the public health be protected by requiring that: (a) Prior to the termination of any radioactive materials license, all milling facilities and associated tailings piles will be decommissioned in such a manner as to bring the potential public health hazard to a minimum; and (b) such environmental radiation monitoring as is necessary to verify the status of decommissioned facilities will be conducted. [1979 ex.s. c 110 § 1.]

Effective date—1979 ex.s. c 110: "This act shall take effect on January 1, 1980." [1979 ex.s. c 110 § 18.]

70.121.020 Definitions. Unless the context clearly requires a different meaning, the definitions in this section apply throughout this chapter.

(1) "Department" means the department of health.

(2) "Secretary" means the secretary of health.

(3) "Site" means the restricted area as defined by the United States nuclear regulatory commission.

(4) "Tailings" means the residue remaining after extraction of uranium or thorium from the ore whether or not the residue is left in piles, but shall not include ore bodies or ore stock piles.

(5) "License" means a radioactive materials license issued under chapter 70.98 RCW and the rules adopted under chapter 70.98 RCW.

(6) "Termination of license" means the cancellation of the license after permanent cessation of operations. Temporary interruptions or suspensions of production due to economic or other conditions are not a permanent cessation of operations.

(7) "Milling" means grinding, cutting, working, or concentrating ore which has been extracted from the earth by mechanical (conventional) or chemical (in situ) processes.

(8) "Obligor-licensee" means any person who obtains a license to operate a uranium or thorium mill in the state of Washington or any person who owns the property on which the mill operates and who owes money to the state for the licensing fee, for reclamation of the site, for perpetual surveilliance and maintenance of the site, or for any other obligation owed the state under this chapter.

(9) "Statement of claim" means the document recorded or filed pursuant to this chapter, which names an obligor-licensee, names the state as obligee, describes the obligation owed to the state, and describes property owned by the obligor-licensee on which a lien will attach for the benefit of the state, and which creates the lien when filed. [1991 c 3 § 372; 1987 c 184 § 1; 1982 c 78 § 1; 1979 ex.s. c 110 § 2.]

Effective date—1979 ex.s. c 110: See note following RCW 70.121.010.

70.121.030 Licenses—Renewal—Hearings. (1) Any person who proposes to operate a uranium or thorium mill within the state of Washington after January 1, 1980, shall obtain a license from the department to mill thorium and uranium. The period of the license shall be determined by the secretary and shall be initially valid for not more than two years and renewable thereafter for periods of not more than five years. No license may be granted unless:

(a) The owner or operator of the mill submits to the department a plan for reclamation and disposal of tailings and for decommissioning the site that conforms to the criteria and standards then in effect for the protection of the public safety and health; and

(b) The owner of the mill agrees to transfer or revert to the appropriate state or federal agency upon termination of the license all lands, buildings, and grounds, and any interests therein, necessary to fulfill the purposes of this chapter except where the lands are held in trust for or are owned by any Indian tribe.

(2) Any person operating a uranium or thorium mill on January 1, 1980, shall, at the time of application for renewal of his license to mill thorium or uranium, comply with the following conditions for continued operation of the mill:

(a) The owner or operator of the mill shall submit to the department a plan for reclamation and disposal of tailings and for decommissioning the site that conforms to the criteria and standards then in effect for the protection of the public safety and health; and

(b) The owner of the mill shall agree to transfer or revert to the appropriate state or federal agency upon termination of the license all lands, buildings, and grounds, and any interests therein, necessary to fulfill the purposes of this chapter except where the lands are held in trust for or are owned by any Indian tribe.

(3) The department shall, after public notice and opportunity for written comment, hold a public hearing to consider the adequacy of the proposed plan to protect the safety and health of the public required by subsections (1) and (2) of this section. The proceedings shall be recorded and transcribed. The public hearing shall provide the opportunity for cross-examination by both the department and the person proposing the plan required under this section. The department shall make a written determination as to the licensing of the mill which is based upon the findings included in the determination and upon the evidence presented during the public comment period. The determination is subject to judicial review.

If a declaration of nonsignificance is issued for a license renewal application under rules adopted under chapter 43.21C RCW, the public hearing is not required.
(4) The department shall set a schedule of license and amendment fees predicated on the cost of reviewing the license application and of monitoring for compliance with the conditions of the license. A permit for construction of a uranium or thorium mill may be granted by the secretary prior to licensing. [1979 ex.s. c 110 § 3]

**Effective date—1979 ex.s. c 110:** See note following RCW 70.121.010.

### 70.121.040 Facility operations and decommissioning—Monitoring.

The secretary or his representative shall monitor the operations of the mill for compliance with the conditions of the license by the owner or operator. The mill owner or operator shall be responsible for compliance, both during the lifetime of the facility and at shutdown, including but not limited to such requirements as fencing and posting the site; contouring, covering, and stabilizing the pile; and for decommissioning the facility. [1979 ex.s. c 110 § 4]

**Effective date—1979 ex.s. c 110:** See note following RCW 70.121.010.

### 70.121.050 Radiation perpetual maintenance fund—Licensee contributions—Disposition.

On a quarterly basis on and after January 1, 1980, there shall be levied and the department shall collect a charge of five cents per pound on each pound of uranium or thorium compound milled out of the raw ore. All moneys paid to the department from these charges shall be deposited in a special security fund in the treasury of the state of Washington to be known as the "radiation perpetual maintenance fund". This security fund shall be used by the department when a licensee has ceased to operate and the site may still contain, or have associated with the site at which the licensed activity was conducted in spite of full compliance with RCW 70.121.030, radioactive material which will require further maintenance, surveillance, or other care. If, with respect to a licensee, the department determines that the estimated total of these charges will be less than or greater than that required to defray the estimated cost of administration of this responsibility, the department may prescribe such an increased or decreased charge as is considered necessary for this purpose. If, at termination of the license, the department determines that by the applicable standards and practices then in effect, the charges which have been collected from the licensee and earnings generated therefrom are in excess of the amount required to defray the cost of this responsibility, the department may refund the excess portion to the licensee. If, at termination of the license or cessation of operation, the department determines, by the applicable standards and practices then in effect, that the charges which have been collected from the licensee and earnings generated therefrom are together insufficient to defray the cost of this responsibility, the department may collect the excess portion from the licensee.

Moneys in the radiation perpetual maintenance fund shall be invested by the state investment board in the manner as other state moneys. [1987 c 184 § 2; 1979 ex.s. c 110 § 5]

**Effective date—1979 ex.s. c 110:** See note following RCW 70.121.010.

### 70.121.060 State authority to acquire property for surveillance sites.

In order to provide for the proper care and surveillance of sites under RCW 70.121.050, the state may acquire by gift or transfer from any government agency, corporation, partnership, or person, all lands, buildings, and grounds necessary to fulfill the purposes of this chapter. Any such gift or transfer shall be subject to approval by the department. In exercising the authority of this section, the department shall take into consideration the status of the ownership of the land and interests therein and the ability of the licensee to transfer title and custody thereof to the state. [1979 ex.s. c 110 § 6]

**Effective date—1979 ex.s. c 110:** See note following RCW 70.121.010.

### 70.121.070 Status of acquired state property for surveillance sites.

Recognizing the uncertainty of the existence of a person or corporation in perpetuity, and recognizing that ultimate responsibility to protect the public health and safety must be reposed in a solvent government, without regard to the existence of any particular agency or department thereof, all lands, buildings, and grounds acquired by the state under RCW 70.121.060 shall be owned in fee simple by the state and dedicated in perpetuity to the purposes stated in RCW 70.121.060. All radioactive material received at a site and located therein at the time of acquisition of ownership by the state shall become the property of the state. [1979 ex.s. c 110 § 7]

**Effective date—1979 ex.s. c 110:** See note following RCW 70.121.010.

### 70.121.080 Payment for transferred sites for surveillance.

If a person licensed by any governmental agency other than the state or if any other governmental agency desires to transfer a site to the state for the purpose of administering or providing perpetual care, a lump sum payment shall be made to the radiation perpetual maintenance fund. The amount of the deposit shall be determined by the department taking into consideration the factors stated in RCW 70.121.050. [1979 ex.s. c 110 § 8]

**Effective date—1979 ex.s. c 110:** See note following RCW 70.121.010.

### 70.121.090 Authority for on-site inspections and monitoring.

Each licensee under this chapter, as a condition of his license, shall submit to whatever reasonable on-site inspections and on-site monitoring as required in order for the department to carry out its responsibilities and duties under this chapter. Such on-site inspections and monitoring shall be conducted without the necessity of any further approval or any permit or warrant therefor. [1979 ex.s. c 110 § 9]

**Effective date—1979 ex.s. c 110:** See note following RCW 70.121.010.

### 70.121.100 Licensees’ bond requirements.

The secretary or the secretary’s duly authorized representative shall require the posting of a bond by licensees to be used exclusively to provide funds in the event of abandonment, default, or other inability of the licensee to meet the requirements of the department. The secretary may establish bonding requirements by classes of licensees and by range of monetary amounts. In establishing these requirements, the secretary
shall consider the potential for contamination, injury, cost of disposal, and reclamation of the property. The amount of the bond shall be sufficient to pay the costs of reclamation and perpetual maintenance.  [1987 c 184 § 5; 1979 ex.s. c 110 § 10.]

Effective date—1979 ex.s. c 110: See note following RCW 70.121.010.

70.121.110 Acceptable bonds. A bond shall be accepted by the department if it is a bond issued by a fidelity or surety company admitted to do business in the state of Washington and the fidelity or surety company is found by the state finance commission to be financially secure at licensing and licensing renewals, if it is a personal bond secured by such collateral as the secretary deems satisfactory and in accordance with RCW 70.121.100, or if it is a cash bond.  [1987 c 184 § 6; 1979 ex.s. c 110 § 11.]

Effective date—1979 ex.s. c 110: See note following RCW 70.121.010.

70.121.120 Forfeited bonds—Use of fund. All moneys in this fund shall be paid to the department for deposit in the perpetual maintenance fund. All moneys in this fund may only be expended by the department as necessary for the protection of the public health and safety and shall not be used for normal operating expenses of the department.  [1979 ex.s. c 110 § 12.]

Effective date—1979 ex.s. c 110: See note following RCW 70.121.010.

70.121.130 Exemptions from bonding requirements. All state, local, or other governmental agencies, or subdivisions thereof, are exempt from the bonding requirements of this chapter.  [1987 c 184 § 7; 1979 ex.s. c 110 § 13.]

Effective date—1979 ex.s. c 110: See note following RCW 70.121.010.

70.121.140 Amounts owed to state—Lien created. If a lien fee is not paid, the department may refuse to participate. A lien shall be created upon the property and in the name of the state as obligee. The statement of claim and the property shall be held in security for the obligation. 

Statements of claim creating a lien on real property, fixtures, timber, agricultural products, oil, gas, or minerals shall be recorded with the county auditor in each county where the property is located. Statements of claim creating a lien on personal property, whether tangible or intangible, shall be filed with the department of licensing.

A lien created pursuant to this section shall continue in force until extinguished by foreclosure or bankruptcy proceedings or until a release of the lien signed by the secretary is recorded or filed in the place where the statement of claim was recorded or filed. The secretary shall sign and record or file a release only after the obligation owed to the state under this chapter, together with accrued interest and costs of collection has been paid.  [1987 c 184 § 3.]

70.121.150 Amounts owed to the state—Collection by attorney general. The attorney general shall use all available methods of obtaining funds owed to the state under this chapter. The attorney general may refuse to participate. If made pursuant to this section, obtain judgments against obligor-licensees and pursue assets of the obligor-licensees found outside the state, consider pursuing the assets of parent corporations and shareholders where an obligor-licensee corporation is an underfinanced corporation, and pursue any other legal remedy available.  [1987 c 184 § 4.]

70.121.900 Construction. This chapter is cumulative and not exclusive, and no part of this chapter shall be construed to repeal any existing law specifically enacted for the protection of the public health and safety.  [1979 ex.s. c 110 § 14.]

Effective date—1979 ex.s. c 110: See note following RCW 70.121.010.

Futile treatment and emergency medical personnel: RCW 43.70.480.
70.122.010 Legislative findings. The legislature finds that adult persons have the fundamental right to control the decisions relating to the rendering of their own health care, including the decision to have life-sustaining treatment withheld or withdrawn in instances of a terminal condition or permanent unconscious condition.

The legislature further finds that modern medical technology has made possible the artificial prolongation of human life beyond natural limits.

The legislature further finds that, in the interest of protecting individual autonomy, such prolongation of the process of dying for persons with a terminal condition or permanent unconscious condition may cause loss of patient dignity, and unnecessary pain and suffering, while providing nothing medically necessary or beneficial to the patient. The legislature further believes that physicians and nurses should not withhold or unreasonably diminish pain medication for patients in a terminal condition where the primary intent of providing such medication is to alleviate pain and maintain or increase the patient’s comfort.

The legislature further finds that there exists considerable uncertainty in the medical and legal professions as to the legality of terminating the use or application of life-sustaining treatment where the patient having the capacity to make health care decisions has voluntarily evidenced a desire that such treatment be withheld or withdrawn.

In recognition of the dignity and privacy which patients have a right to expect, the legislature hereby declares that the laws of the state of Washington shall recognize the right of an adult person to make a written directive instructing such person’s physician to withhold or withdraw life-sustaining treatment in the event of a terminal condition or permanent unconscious condition. The legislature also recognizes that a person’s right to control his or her health care may be exercised by an authorized representative who validly holds the person’s durable power of attorney for health care. [1992 c 98 § 1; 1979 c 112 § 2.]

(5) "Life-sustaining treatment" means any medical or surgical intervention that uses mechanical or other artificial means, including artificially provided nutrition and hydration, to sustain, restore, or replace a vital function, which, when applied to a qualified patient, would serve only to prolong the process of dying. "Life-sustaining treatment" shall not include the administration of medication or the performance of any medical or surgical intervention deemed necessary solely to alleviate pain.

(6) "Permanent unconscious condition" means an incurable and irreversible condition in which the patient is medically assessed within reasonable medical judgment as having no reasonable probability of recovery from an irreversible coma or a persistent vegetative state.

(9) "Terminal condition" means an incurable and irreversible condition caused by injury, disease, or illness, that, within reasonable medical judgment, will cause death within a reasonable period of time in accordance with accepted medical standards, and where the application of life-sustaining treatment serves only to prolong the process of dying. [1992 c 98 § 2; 1979 c 112 § 3.]

*Reviser’s note: RCW 70.41.020 was amended by 2002 c 116 § 2, changing subsection (2) to subsection (4).

70.122.030 Directive to withhold or withdraw life-sustaining treatment. (1) Any adult person may execute a directive directing the withholding or withdrawal of life-sustaining treatment in a terminal condition or permanent unconscious condition. The directive shall be signed by the declarer in the presence of two witnesses not related to the declarer by blood or marriage and who would not be entitled to any portion of the estate of the declarer upon declarer’s decease under any will of the declarer or codicil thereto then existing or, at the time of the directive, by operation of law then existing. In addition, a witness to a directive shall not be the attending physician, an employee of the attending physician or a health facility in which the declarer is a patient, or any person who has a claim against any portion of the estate of the declarer upon declarer’s decease at the time of the execution of the directive. The directive, or a copy thereof, shall be made part of the patient’s medical records retained by the attending physician, a copy of which shall be forwarded by the custodian of the records to the health facility when the withholding or withdrawal of life-support treatment is contemplated. The directive may be in the following form, but in addition may include other specific directions:

Health Care Directive

Directive made this . . . . . . day of . . . . (month, year).

I . . . . . . , having the capacity to make health care decisions, willfully, and voluntarily make known my desire that my dying shall not be artificially prolonged under the circumstances set forth below, and do hereby declare that:

(a) If at any time I should be diagnosed in writing to be in a terminal condition by the attending physician, or in a permanent unconscious condition by two physicians, and where the application of life-sustaining treatment would serve only
to artificially prolong the process of my dying, I direct that such treatment be withheld or withdrawn, and that I be permitted to die naturally. I understand by using this form that a terminal condition means an incurable and irreversible condition caused by injury, disease, or illness, that would within reasonable medical judgment cause death within a reasonable period of time in accordance with accepted medical standards, and where the application of life-sustaining treatment would serve only to prolong the process of dying. I further understand in using this form that a permanent unconscious condition means an incurable and irreversible condition in which I am medically assessed within reasonable medical judgment as having no reasonable probability of recovery from an irreversible coma or a persistent vegetative state.

(b) In the absence of my ability to give directions regarding the use of such life-sustaining treatment, it is my intention that this directive shall be honored by my family and physician(s) as the final expression of my legal right to refuse medical or surgical treatment and I accept the consequences of such refusal. If another person is appointed to make these decisions for me, whether through a durable power of attorney or otherwise, I request that the person be guided by this directive and any other clear expressions of my desires.

(c) If I am diagnosed to be in a terminal condition or in a permanent unconscious condition (check one):

I DO want to have artificially provided nutrition and hydration.

I DO NOT want to have artificially provided nutrition and hydration.

(d) If I have been diagnosed as pregnant and that diagnosis is known to my physician, this directive shall have no force or effect during the course of my pregnancy.

(e) I understand the full import of this directive and I am emotionally and mentally capable to make the health care decisions contained in this directive.

(f) I understand that before I sign this directive, I can add to or delete from or otherwise change the wording of this directive and that I may add to or delete from this directive at any time and that any changes shall be consistent with Washington state law or federal constitutional law to be legally valid.

(g) It is my wish that every part of this directive be fully implemented. If for any reason any part is held invalid it is my wish that the remainder of my directive be implemented.

Signed

City, County, and State of Residence

The declarer has been personally known to me and I believe him or her to be capable of making health care decisions.

(2) Prior to withholding or withdrawing life-sustaining treatment, the diagnosis of a terminal condition by the attending physician or the diagnosis of a permanent unconscious state by two physicians shall be entered in writing and made a permanent part of the patient’s medical records.

(3) A directive executed in another political jurisdiction is valid to the extent permitted by Washington state law and federal constitutional law. [1992 c 98 § 3; 1979 c 112 § 4.]

70.122.040 Revocation of directive. (1) A directive may be revoked at any time by the declarer, without regard to the declarer’s mental state or competency, by any of the following methods:

(a) By being canceled, defaced, obliterated, burned, torn, or otherwise destroyed by the declarer or by some person in the declarer’s presence and by the declarer’s direction.

(b) By a written revocation of the declarer expressing his or her intent to revoke, signed, and dated by the declarer. Such revocation shall become effective only upon communication to the attending physician by the declarer or by a person acting on behalf of the declarer. The attending physician shall record in the patient’s medical record the time and date when the physician received notification of the written revocation.

(c) By a verbal expression by the declarer of his or her intent to revoke the directive. Such revocation shall become effective only upon communication to the attending physician by the declarer or by a person acting on behalf of the declarer. The attending physician shall record in the patient’s medical record the time, date, and place of the revocation and the time, date, and place, if different, of when the physician received notification of the revocation.

(d) In the case of a directive that is stored in the health care declarations registry under RCW 70.122.130, by an online method established by the department of health. Failure to use this method of revocation for a directive that is stored in the registry does not invalidate a revocation that is made by another method described under this section.

(2) There shall be no criminal or civil liability on the part of any person for failure to act upon a revocation made pursuant to this section unless that person has actual or constructive knowledge of the revocation except as provided in RCW 70.122.051(4).

(3) If the declarer becomes comatose or is rendered incapable of communicating with the attending physician, the directive shall remain in effect for the duration of the comatose condition or until such time as the declarer’s condition renders the declarer able to communicate with the attending physician. [2006 c 108 § 4; 1979 c 112 § 5.]

Finding—Intent—2006 c 108: See note following RCW 70.122.130.

70.122.051 Liability of health care provider. (1) For the purposes of this section, “provider” means a physician, advanced registered nurse practitioner, health care provider acting under the direction of a physician or an advanced registered nurse practitioner, or health care facility, as defined in this chapter or in chapter 71.32 RCW, and its personnel.

(2) Any provider who participates in good faith in the withholding or withdrawal of life-sustaining treatment from a qualified patient in accordance with the requirements of this chapter, shall be immune from legal liability, including civil, criminal, or professional conduct sanctions, unless otherwise negligent.

(3) The establishment of a health care declarations registry does not create any new or distinct obligation for a provider to determine whether a patient has a health care declaration.

(4) A provider is not subject to civil or criminal liability or sanctions for unprofessional conduct under the uniform
disciplinary act, chapter 18.130 RCW, when in good faith and without negligence:

(a) The provider provides, does not provide, withdraws, or withholds treatment to a patient in the absence of actual knowledge of the existence of a health care declaration stored in the health care declarations registry established in RCW 70.122.130;

(b) The provider provides, does not provide, withdraws, or withholds treatment pursuant to a health care declaration stored in the health care declarations registry established in RCW 70.122.130 in the absence of actual knowledge of the revocation of the declaration;

(c) The provider provides, does not provide, withdraws, or withholds treatment according to a health care declaration stored in the health care declarations registry established in RCW 70.122.130 in good faith reliance upon the validity of the health care declaration and the declaration is subsequently found to be invalid; or

(d) The provider provides, does not provide, withdraws, or withholds treatment according to the patient’s health care declaration stored in the health care declarations registry established in RCW 70.122.130.

(5) Except for acts of gross negligence, willful misconduct, or intentional wrongdoing, the department of health is not subject to civil liability for any claims or demands arising out of the administration or operation of the health care declarations registry established in RCW 70.122.130. [2006 c 108 § 6; 1992 c 98 § 5.]

Finding—Intent—2006 c 108: See note following RCW 70.122.130.

70.122.060 Procedures by physician—Health care facility or personnel may refuse to participate. (1) Prior to the withholding or withdrawal of life-sustaining treatment from a qualified patient pursuant to the directive, the attending physician shall make a reasonable effort to determine that the directive complies with RCW 70.122.030 and, if the patient is capable of making health care decisions, that the directive and all steps proposed by the attending physician to be undertaken are currently in accord with the desires of the qualified patient.

(2) The attending physician or health facility shall inform a patient or patient’s authorized representative of the existence of any policy or practice that would preclude the honoring of the patient’s directive at the time the physician or facility becomes aware of the existence of such a directive. If the patient, after being informed of such policy or directive, chooses to retain the physician or facility, the physician or facility with the patient or the patient’s representative shall prepare a written plan to be filed with the patient’s directive that sets forth the physician’s or facilities’ intended actions should the patient’s medical status change so that the directive would become operative. The physician or facility under this subsection has no obligation to honor the patient’s directive if they have complied with the requirements of this subsection, including compliance with the written plan required under this subsection.

(3) The directive shall be conclusively presumed, unless revoked, to be the directions of the patient regarding the withholding or withdrawal of life-sustaining treatment. No physician, health facility, or health personnel acting in good faith with the directive or in accordance with the written plan in subsection (2) of this section shall be criminally or civilly liable for failing to effectuate the directive of the qualified patient pursuant to this subsection.

(4) No nurse, physician, or other health care practitioner may be required by law or contract in any circumstances to participate in the withholding or withdrawal of life-sustaining treatment if such person objects to so doing. No person may be discriminated against in employment or professional privileges because of the person’s participation or refusal to participate in the withholding or withdrawal of life-sustaining treatment. [1992 c 98 § 6; 1979 c 112 § 7.]

70.122.070 Effects of carrying out directive—Insurance. (1) The withholding or withdrawal of life-sustaining treatment from a qualified patient pursuant to the patient’s directive in accordance with the provisions of this chapter shall not, for any purpose, constitute a suicide or a homicide.

(2) The making of a directive pursuant to RCW 70.122.030 shall not restrict, inhibit, or impair in any manner the sale, procurement, or issuance of any policy of life insurance, nor shall it be deemed to modify the terms of an existing policy of life insurance. No policy of life insurance shall be legally impaired or invalidated in any manner by the withholding or withdrawal of life-sustaining treatment from an insured qualified patient, notwithstanding any term of the policy to the contrary.

(3) No physician, health facility, or other health provider, and no health care service plan, insurer issuing disability insurance, self-insured employee welfare benefit plan, or nonprofit hospital service plan, shall require any person to execute a directive as a condition for being insured for, or receiving, health care services. [1992 c 98 § 7; 1979 c 112 § 8.]

70.122.080 Effects of carrying out directive on cause of death. The act of withholding or withdrawing life-sustaining treatment, when done pursuant to a directive described in RCW 70.122.030 and which results in the death of the declarer, shall not be construed to be an intervening force or to affect the chain of proximate cause between the conduct of anyone that placed the declarer in a terminal condition or a permanent unconscious condition and the death of the declarer. [1992 c 98 § 8; 1979 c 112 § 10.]

70.122.090 Criminal conduct—Penalties. (1) Any person who willfully conceals, cancels, defaces, obliterates, or damages the directive of another without such declarer’s consent is guilty of a gross misdemeanor.

(2) Any person who falsifies or forges the directive of another, or willfully conceals or withholds personal knowledge of a revocation as provided in RCW 70.122.040 with the intent to cause a withholding or withdrawal of life-sustaining treatment contrary to the wishes of the declarer, and thereby, because of any such act, directly causes life-sustaining treatment to be withheld or withdrawn and death to thereby be hastened, shall be subject to prosecution for murder in the first degree as defined in RCW 9A.32.030. [2003 c 53 § 362; 1992 c 98 § 9; 1979 c 112 § 9.]
70.122.100 Mercy killing or physician-assisted suicide not authorized. Nothing in this chapter shall be construed to condone, authorize, or approve mercy killing or physician-assisted suicide, or to permit any affirmative or deliberate act or omission to end life other than to permit the natural process of dying. [1992 c 98 § 10; 1979 c 112 § 11.]

70.122.110 Discharge so that patient may die at home. If a qualified patient capable of making health care decisions indicates that he or she wishes to die at home, the patient shall be discharged as soon as reasonably possible. The health care provider or facility has an obligation to explain the medical risks of an immediate discharge to the qualified patient. If the provider or facility complies with the obligation to explain the medical risks of an immediate discharge to a qualified patient, there shall be no civil or criminal liability for claims arising from such discharge. [1992 c 98 § 4.]

70.122.120 Directive’s validity assumed. Any person or health facility may assume that a directive complies with this chapter and is valid. [1992 c 98 § 12.]

70.122.130 Health care declarations registry—Rules—Report. (1) The department of health shall establish and maintain a statewide health care declarations registry containing the health care declarations identified in subsection (2) of this section as submitted by residents of Washington. The department shall digitally reproduce and store health care declarations in the registry. The department may establish standards for individuals to submit digitally reproduced health care declarations directly to the registry, but is not required to review the health care declarations that it receives to ensure they comply with the particular statutory requirements applicable to the document. The department may contract with an organization that meets the standards identified in this section.

   (c) Failure to notify the department of health of a valid revocation of a health care declaration does not affect the validity of the revocation.
   (d) The entry of a health care directive in the registry under this section does not:
      (i) Affect the validity of the document;
      (ii) Take the place of any requirements in law necessary to make the submitted document legal; or
      (iii) Create a presumption regarding the validity of the document.
   (3) The department of health shall prescribe a procedure for an individual to revoke a health care declaration contained in the registry.
   (4) The registry must:
      (a) Be maintained in a secure database that is accessible through a web site maintained by the department of health;
      (b) Send annual electronic messages to individuals that have submitted health care declarations to request that they review the registry materials to ensure that it is current;
      (c) Provide individuals who have submitted one or more health care declarations with access to their documents and the ability to revoke their documents at all times; and
      (d) Provide the personal representatives of individuals who have submitted one or more health care declarations to the registry, attending physicians, advanced registered nurse practitioners, health care providers licensed by a disciplining authority identified in RCW 18.130.040 who is acting under the direction of a physician or an advanced registered nurse practitioner, and health care facilities, as defined in this chapter or in chapter 71.32 RCW, access to the registry at all times.
   (5) In designing the registry and web site, the department of health shall ensure compliance with state and federal requirements related to patient confidentiality.
   (6) The department shall provide information to health care providers and health care facilities on the registry web site regarding the different federal and Washington state requirements to ascertain and document whether a patient has an advance directive.
   (7) The department of health may adopt rules as necessary to implement chapter 108, Laws of 2006.

Finding—Intent—2006 c 108: “The legislature finds that effective communication between patients, their families, and their caregivers regarding their wishes if they become incapacitated results in health care decisions that are more respectful of patients’ desires. Whether the communication is for end-of-life planning or incapacity resulting from mental illness, the state must respect those wishes and support efforts to facilitate such communications and to make that information available when it is needed.
It is the intent of the legislature to establish an electronic registry to
70.122.140 Health care declarations registry account. The health care declarations registry account is created in the state treasury. All receipts from donations made under RCW 70.122.130, and other contributions and appropriations specifically made for the purposes of creating and maintaining the registry established by RCW 70.122.130 and statewide public education campaigns related to the existence of the registry, shall be deposited into the account. Moneys in the account may be spent only after appropriation. Expenditures from the account may be used only for purposes of the health care declarations registry. [2006 c 108 § 3.]

Finding—Intent—2006 c 108: See note following RCW 70.122.130.

70.122.900 Short title—1979 c 112. This act shall be known and may be cited as the "Natural Death Act". [1979 c 112 § 1.]

70.122.905 Severability—1979 c 112. If any provision of this act or the application thereof to any person or circumstances is held invalid, such invalidity shall not affect other provisions or applications of the act which can be given effect without the invalid provisions or application, and to this end the provisions of this act are severable. [1979 c 112 § 13.]

70.122.910 Construction. [1992 c 98 § 11.]

70.122.920 Severability—1992 c 98. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected. [1992 c 98 § 17.]

These services shall be problem-oriented and designed to provide necessary assistance to the victims of domestic violence and their children.

(a) A written pretrial motion is made to a court stating that discovery is requested of the client’s domestic violence records;

(b) The written motion is accompanied by an affidavit or affidavits setting forth specifically the reasons why discovery is requested of the domestic violence program’s records;

(2) Conduct conforming with the reporting requirements of this chapter is not a violation of the confidentiality communication privilege of RCW 5.60.060 (3) or (4) or 18.83.110. Nothing in this chapter supersedes or abridges remedies provided in chapter 4.92 RCW. [1999 c 176 § 24; 1993 c 510 § 25; 1981 c 174 § 5; 1979 ex.s. c 228 § 6.]

### 70.124.100 Retaliation against whistleblowers and residents—Remedies—Rules.
(1) An employee who is a whistleblower and who as a result of being a whistleblower has been subjected to workplace reprisal or retaliatory action, has the remedies provided under chapter 49.60 RCW. RCW 4.24.500 through 4.24.520, providing certain protection to persons who communicate to government agencies, apply to complaints made under this section. The identity of a whistleblower who complains, in good faith, to the department about suspected abuse, neglect, financial exploitation, or abandonment by any person in a state hospital may remain confidential if requested. The identity of the whistleblower shall subsequently remain confidential unless the department determines that the complaint was not made in good faith.

(2)(a) An attempt to discharge a resident from a state hospital or any type of discriminatory treatment of a resident by whom, or upon whose behalf, a complaint substantiated by the department has been submitted to the department or any proceeding instituted under or related to this chapter within one year of the filing of the complaint or the institution of the action, raises a rebuttable presumption that the action was in retaliation for the filing of the complaint.

(b) The presumption is rebutted by credible evidence establishing the alleged retaliatory action was initiated prior to the complaint.

(c) The presumption is rebutted by a functional assessment conducted by the department that shows that the resident’s needs cannot be met by the reasonable accommodations of the facility due to the increased needs of the resident.

(3) For the purposes of this section:

(a) "Whistleblower" means a resident or employee of a state hospital or any person licensed under Title 18 RCW, who in good faith reports alleged abuse, neglect, financial exploitation, or abandonment to the department or to a law enforcement agency;

(b) "Workplace reprisal or retaliatory action" means, but is not limited to: Denial of adequate staff to perform duties; frequent staff changes; frequent and undesirable office changes; refusal to assign meaningful work; unwarranted and unsubstantiated report of misconduct under Title 18 RCW; letters of reprimand or unsatisfactory performance evaluations; demotion; denial of employment; or a supervisor or superior encouraging coworkers to behave in a hostile manner toward the whistleblower; and

(c) "Reasonable accommodation" by a facility to the needs of a prospective or current resident has the meaning given to this term under the federal Americans with disabilities act of 1990, 42 U.S.C. Sec. 12101 et seq. and other applicable federal or state antidiscrimination laws and regulations.

(4) This section does not prohibit a state hospital from exercising its authority to terminate, suspend, or discipline an employee who engages in workplace reprisal or retaliatory action against a whistleblower. The protections provided to whistleblowers under this chapter shall not prevent a state hospital from: (a) Terminating, suspending, or disciplining a whistleblower for other lawful purposes; or (b) for facilities with six or fewer residents, reducing the hours of employment or terminating employment as a result of the demonstrated inability to meet payroll requirements. The department shall determine if the facility cannot meet payroll in cases where a whistleblower has been terminated or had hours of employment reduced due to the inability of a facility to meet payroll.

(5) The department shall adopt rules to implement procedures for filing, investigation, and resolution of whistleblower complaints that are integrated with complaint procedures under this chapter.

(6) No resident who relies upon and is being provided spiritual treatment in lieu of medical treatment in accordance with the tenets and practices of a well-recognized religious denomination shall for that reason alone be considered abandoned, abused, or neglected, nor shall anything in this chapter be construed to authorize, permit, or require medical treatment contrary to the stated or clearly implied objection of such a person.

(7) The department shall adopt rules designed to discourage whistleblower complaints made in bad faith or for retaliatory purposes. [1999 c 176 § 26; 1997 c 392 § 201.]

70.125.010 Short title. This chapter may be known and cited as the Victims of Sexual Assault Act. [1979 ex.s. c 219 § 1.]

Severability—1979 ex.s. c 219: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1979 ex.s. c 228 § 12.]

70.125.020 Legislative findings—Program objectives. (1) The legislature hereby finds and declares that:
   (a) Sexual assault has become one of the most rapidly increasing violent crimes over the last decade;
   (b) There is a lack of essential information and data concerning sexual assault;
   (c) There is a lack of adequate training for law enforcement officers concerning sexual assault, the victim, the offender, and the investigation;
   (d) There is a lack of community awareness and knowledge concerning sexual assault and the physical and psychological impact upon the victim;
   (e) There is a lack of public information concerning sexual assault prevention and personal protection;
   (f) Because of the lack of information, training, and services, the victims of sexual assault are not receiving the assistance they require in dealing with the physical and psychological trauma of a sexual assault;
   (g) The criminal justice system and health care system should maintain close contact and cooperation with each other and with community rape crisis centers to expedite the disposition of sexual assault cases; and
   (h) Persons who are victims of sexual assault will benefit directly from increased public awareness and education, increased prosecutions, and a criminal justice system which treats them in a humane manner.

(2008 Ed.)

(2) Therefore, a statewide sexual assault education, training, and consultation program should be developed. Such a statewide program should seek to improve treatment of victims through information-gathering, education, training, community awareness programs, and by increasing the efficiency of the criminal justice and health care systems as they relate to sexual assault. Such a program should serve a consultative and facilitative function for organizations which provide services to victims and potential victims of sexual assault. [1979 ex.s. c 219 § 2.]

70.127.005 Legislative intent. The legislature finds that the availability of home health, hospice, and home care services has improved the quality of life for Washington’s citizens. However, the delivery of these services brings risks because the in-home location of services makes their actual delivery virtually invisible. Also, the complexity of products, services, and delivery systems in today’s health care delivery system challenges even informed and healthy individuals. The fact that these services are delivered to the state’s most vulnerable population, the ill or disabled who are frequently also elderly, adds to these risks.

It is the intent of the legislature to protect the citizens of Washington state by licensing home health, hospice, and home care agencies. This legislation is not intended to unreasonably restrict entry into the in-home service marketplace. Standards established are intended to be the minimum necessary to ensure safe and competent care, and should be demonstrably related to patient safety and welfare. [1988 c 245 § 1.]

In the event the department determines at any time that the survey standards are not substantially equivalent to those required by this chapter, the department is directed to notify the affected licensees. The notification shall contain a detailed description of the deficiencies in the alternative survey process, as well as an explanation concerning the risk to the consumer. For agencies receiving a licensure survey that requires more than two on-site surveys by the department per licensure period, an additional fee as determined by the department by rule shall be charged for each additional on-site survey. The department may set different licensure fees for each licensure category. Agencies receiving a license without necessity of an on-site survey by the department under this chapter shall pay the same license or transfer fee as other agencies in their licensure category.

(2) Change of ownership fee: The department shall charge a reasonable fee for processing changes in ownership. The fee for transfer of ownership may not exceed fifty percent of the base licensure fee.

(3) Late fee: The department may establish a late fee for failure to apply for licensure or renewal as required by this chapter. [2000 c 175 § 8; 1999 c 190 § 3; 1993 c 42 § 5; 1988 c 245 § 10.]

The department may conduct in-home visits to observe patient/client care and services. The right to conduct a survey
shall extend to any premises and records of persons whom the department has reason to believe are providing home health, hospice, or home care services without a license.

70.127.200 Unlicensed agencies—Department may seek injunctive or other relief—Injunctive relief does not prohibit criminal or civil penalties—Fines. (1) Notwithstanding the existence or use of any other remedy, the department may, in the manner provided by law and upon the advice of the attorney general, who shall represent the department in the proceedings, maintain an action in the name of the state for an injunction or other process against any person whom the department has reason to believe is engaged in the unlicensed operation of an in-home services agency. The person to whom the notice of intent is issued may request an adjudicative proceeding to contest the charges. The request for hearing must be filed within twenty days after service of the notice of intent to issue a cease and desist order. The failure to request a hearing constitutes a default, whereupon the department may enter a permanent cease and desist order, which may include a civil fine. All proceedings shall be conducted in accordance with chapter 34.05 RCW.

(2) If the department makes a final determination that a person has engaged or is engaging in unlicensed operation of an in-home services agency, the department may issue a cease and desist order. In addition, the department may impose a civil fine in an amount not exceeding one thousand dollars for each day upon which the person engaged in unlicensed operation of an in-home services agency. The proceeds of such fines shall be deposited in the department’s local fee account.

(3) If the department makes a written finding of fact that the public interest will be irreparably harmed by delay in issuing an order, the department may issue a temporary cease and desist order. The person receiving a temporary cease and desist order shall be provided an opportunity for a prompt hearing. The temporary cease and desist order shall remain in effect until further order of the department. The failure to request a prompt or regularly scheduled hearing constitutes a default, whereupon the department may enter a permanent cease and desist order, which may include a civil fine.

(4) Neither the issuance of a cease and desist order nor payment of a civil fine shall relieve the person so operating an in-home services agency without a license from criminal prosecution, but the remedy of a cease and desist order or civil fine shall be in addition to any criminal liability. The cease and desist order is conclusive proof of unlicensed operation and may be enforced under RCW 7.21.060. This method of enforcement of the cease and desist order or civil fine may be used in addition to, or as an alternative to, any provisions for enforcement of agency orders set out in chapter 34.05 RCW. [2000 c 175 § 19.]

Effective date—2000 c 175: See note following RCW 70.127.010.

70.127.213 Unlicensed operation of an in-home services agency—Cease and desist orders—Adjudicative proceedings—Fines. (1) The department may issue a notice of intention to issue a cease and desist order to any person whom the department has reason to believe is engaged in the unlicensed operation of an in-home services agency. The person to whom the notice of intent is issued may request an adjudicative proceeding to contest the charges. The request for hearing must be filed within twenty days after service of the notice of intent to issue a cease and desist order. The failure to request a hearing constitutes a default, whereupon the department may enter a permanent cease and desist order, which may include a civil fine. All proceedings shall be conducted in accordance with chapter 34.05 RCW.

(2) If the department makes a final determination that a person has engaged or is engaging in unlicensed operation of an in-home services agency, the department may issue a cease and desist order. In addition, the department may impose a civil fine in an amount not exceeding one thousand dollars for each day upon which the person engaged in unlicensed operation of an in-home services agency. The proceeds of such fines shall be deposited in the department’s local fee account.

Effective date—2000 c 175: See note following RCW 70.127.010.

70.127.216 Unlicensed operation of an in-home services agency—Consumer protection act. The legislature finds that the operation of an in-home services agency without a license in violation of this chapter is a matter vitally affecting the public interest for the purpose of applying the consumer protection act, chapter 19.86 RCW. Operation of an in-home services agency without a license in violation of this chapter is not reasonable in relation to the development and preservation of business. Such a violation is an unfair or deceptive act in trade or commerce and an unfair method of competition for the purpose of applying the consumer protection act, chapter 19.86 RCW. [2000 c 175 § 20.]

Effective date—2000 c 175: See note following RCW 70.127.010.
Hospice care centers—Applicants—Rules. (1) Applicants desiring to operate a hospice care center are subject to the following:

(ii) Continuous home care;
(iii) Routine home care; or
(iv) Inpatient respite care;

(b) A certificate of need is required under chapter 70.38 RCW;

(c) A hospice agency may operate more than one hospice care center in its service area;

(d) For hospice agencies that operate a hospice care center, no more than forty-nine percent of patient care days, in the aggregate on a biennial basis, may be provided in the hospice care center;

(e) The maximum number of beds in a hospice care center is twenty;

(f) The maximum number of individuals per room is one, unless the individual requests a roommate;

(g) A hospice care center may either be owned or leased by a hospice agency. If the agency leases space, all delivery of interdisciplinary services, to include staffing and management, shall be done by the hospice agency; and

(h) A hospice care center may either be freestanding or a separate portion of another building.

(2) The department is authorized to develop rules to implement this section. The rules shall be specific to each hospice care center service category provided. The rules shall at least specifically address the following:

(a) Adequate space for family members to visit, meet, cook, share meals, and stay overnight with patients or clients;

(b) A separate external entrance, clearly identifiable to the public when part of an existing structure;

(c) Construction, maintenance, and operation of a hospice care center;

(d) Means to inform the public which hospice care center service categories are provided; and

(e) A registered nurse present twenty-four hours a day, seven days a week for hospice care centers delivering general inpatient services.

(3) Hospice agencies which as of January 1, 2000, operate the functional equivalent of a hospice care center through licensure as a hospital, under chapter 70.41 RCW, shall be exempt from the certificate of need requirement for hospice care centers if they apply for and receive a license as an in-home services agency to operate a hospice home care center by July 1, 2002. [2000 c 175 § 21.]

Effective date—2000 c 175: See note following RCW 70.127.010.

70.127.280 Severability—1988 c 245. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected. [1988 c 245 § 39.]

70.128.005 Findings—Intent. The legislature finds that adult family homes are an important part of the state’s long-term care system. Adult family homes provide an alternative to institutional care and promote a high degree of independent living for residents. Persons with functional limitations have broadly varying service needs. Adult family homes that can meet those needs are an essential component of a long-term system. The legislature further finds that different populations living in adult family homes, such as the developmentally disabled and the elderly, often have significantly different needs and capacities from one another.

It is the legislature’s intent that department rules and policies relating to the licensing and operation of adult family homes recognize and accommodate the different needs and capacities of the various populations served by the homes. Furthermore, the development and operation of adult family homes...
homes that can provide quality personal care and special care services should be encouraged.

The legislature finds that many residents of community-based long-term care facilities are vulnerable and their health and well-being are dependent on their caregivers. The quality, skills, and knowledge of their caregivers are the key to good care. The legislature finds that the need for well-trained caregivers is growing as the state's population ages and residents' needs increase. The legislature intends that current training standards be enhanced.

The legislature finds that the state of Washington has a compelling interest in protecting and promoting the health, welfare, and safety of vulnerable adults residing in adult family homes. The health, safety, and well-being of vulnerable adults must be the paramount concern in determining whether to issue a license to an applicant, whether to suspend or revoke a license, or whether to take other licensing actions.

70.128.007 Purpose. The purposes of this chapter are to:

1. Encourage the establishment and maintenance of adult family homes that provide a humane, safe, and residential home environment for persons with functional limitations who need personal and special care;
2. Establish standards for regulating adult family homes that adequately protect residents;
3. Encourage consumers, families, providers, and the public to become active in assuring their full participation in development of adult family homes that provide high quality and cost-effective care;
4. Provide for appropriate care of residents in adult family homes by requiring that each resident have a care plan that promotes the most appropriate level of physical, mental, and psychosocial well-being consistent with client choice; and
5. Accord each resident the right to participate in the development of the care plan and in other major decisions involving the resident and their care.

tion. Involvement by the divisions and administration shall be for the purposes of assisting the department to develop rules and standards appropriate to the different needs and capacities of the various populations served by adult family homes. During the initial stages of development of proposed rules, the department shall provide notice of development of the rules to organizations representing adult family homes and their residents, and other groups that the department finds appropriate. The notice shall state the subject of the rules under consideration and solicit written recommendations regarding their form and content.

(b) In addition, the department shall engage in negotiated rule making pursuant to RCW 34.05.310(2)(a) with the exclusive representative of the adult family home licensees selected in accordance with RCW 70.128.043 and with other affected interests before adopting requirements that affect adult family home licensees.

70.128.043 Negotiated rule making—Statewide unit of licensees—Intent. (1) Solely for the purposes of negotiated rule making pursuant to RCW 34.05.310(2)(a) and 70.128.040, a statewide unit of all adult family home licensees is appropriate. As of July 22, 2007, the exclusive representative of adult family home licensees in the statewide unit shall be the organization certified by the American arbitration association as the sole representative after the association conducts a cross-check comparing authorization cards against the department of social and health services’ records and finds that majority support for the organization exists. If adult family home licensees seek to select a different representative thereafter, the adult family home licensees may request that the American arbitration association conduct an election and certify the results of the election.

(2) In enacting this section, the legislature intends to provide state action immunity under federal and state antitrust laws for the joint activities of licensees and their exclusive representative to the extent such activities are authorized by this chapter. [2007 c 184 § 6.]

Part headings not law—Severability—Conflict with federal requirements—2007 c 184: See notes following RCW 41.56.029.

70.128.050 License—Required as of July 1, 1990. After July 1, 1990, no person shall operate or maintain an adult family home in this state without a license under this chapter. [1989 c 427 § 19.]

70.128.057 Operating without a license—Injunction or civil penalty. Notwithstanding the existence or use of any other remedy, the department may, in the manner provided by law, upon the advice of the attorney general who shall represent the department in the proceedings, maintain an action in the name of the state for an injunction, civil penalty, or other process against a person to restrain or prevent the operation or maintenance of an adult family home without a license under this chapter. [1995 1st sp.s. c 18 § 20; 1991 c 40 § 2.]

70.128.058 Operating without a license—Application of consumer protection act. The legislature finds that the operation of an adult family home without a license in violation of this chapter is a matter vitally affecting the public interest for the purpose of applying the consumer protection act, chapter 19.86 RCW. Operation of an adult family home without a license in violation of this chapter is not reasonable in relation to the development and preservation of business. Such a violation is an unfair or deceptive act in trade or commerce and an unfair method of competition for the purpose of applying the consumer protection act, chapter 19.86 RCW. 70.128.060 License—Generally. (1) An application for license shall be made to the department upon forms provided by it and shall contain such information as the department reasonably requires.

(2) Subject to the provisions of this section, the department shall issue a license to an adult family home if the department finds that the applicant and the home are in compliance with this chapter and the rules adopted under this chapter, unless (a) the applicant or a person affiliated with the applicant has prior violations of this chapter relating to the adult family home subject to the application or any other adult family home, or of any other law regulating residential care facilities within the past five years that resulted in revocation, suspension, or nonrenewal of a license or contract with the department; or (b) the applicant or a person affiliated with the applicant has a history of significant noncompliance with federal, state, or local laws, rules, or regulations relating to the provision of care or services to vulnerable adults or to children. A person is considered affiliated with an applicant if the person is listed on the license application as a partner, officer, director, resident manager, or majority owner of the applying entity, or is the spouse of the applicant.

(3) The license fee shall be submitted with the application.

(4) The department shall serve upon the applicant a copy of the decision granting or denying an application for a license. An applicant shall have the right to contest denial of his or her application for a license as provided in chapter 34.05 RCW by requesting a hearing in writing within twenty-eight days after receipt of the notice of denial.

(5) The department shall not issue a license to a provider if the department finds that the provider or spouse of the provider or any partner, officer, director, managerial employee, or majority owner has a history of significant noncompliance with federal or state regulations, rules, or laws in providing care or services to vulnerable adults or to children.
(6) The department shall license an adult family home for the maximum level of care that the adult family home may provide. The department shall define, in rule, license levels based upon the education, training, and caregiving experience of the licensed provider or staff.

(7) The department shall establish, by rule, standards used to license nonresident providers and multiple facility operators.

(8) The department shall establish, by rule, for multiple facility operators educational standards substantially equivalent to recognized national certification standards for residential care administrators.

(9) The license fee shall be set at fifty dollars per year for each home. A fifty dollar processing fee shall also be charged each home when the home is initially licensed.

(10) A provider who receives notification of the department’s initiation of a denial, suspension, nonrenewal, or revocation of an adult family home license may, in lieu of appealing the department’s action, surrender or relinquish the license. The department shall not issue a new license to or contract with the provider, for the purposes of providing care to vulnerable adults or children, for a period of twenty years following the surrendering or relinquishment of the former license. The licensing record shall indicate that the provider relinquished or surrendered the license, without admitting the violations, after receiving notice of the department’s initiation of a denial, suspension, nonrenewal, or revocation of a license.

(11) The department shall establish, by rule, the circumstances requiring a change in the licensed provider, which include, but are not limited to, a change in ownership or control of the adult family home or provider, a change in the provider’s form of legal organization, such as from sole proprietorship to partnership or corporation, and a dissolution or merger of the licensed entity with another legal organization. The new provider is subject to the provisions of this chapter, the rules adopted under this chapter, and other applicable law. In order to ensure that the safety of residents is not compromised by a change in provider, the new provider is responsible for correction of all violations that may exist at the time of the new license. [2004 c 143 § 1; 1998 c 272 § 4; 1995 1st sp.s. c 18 § 22; 1989 c 427 § 22.]

70.128.064 Priority processing for license applications—Provisional license. In order to prevent disruption to current residents, at the request of the current licensed provider, the department shall give processing priority to the application of a person seeking to be licensed as the new provider for the adult family home. The department may issue a provisional license when a currently licensed adult family home provider has applied to be licensed as the new provider for a currently licensed adult family home, the application has been initially processed, and all that remains to complete the application process is an on-site inspection. [2001 c 319 § 10.]

70.128.065 Multiple facility operators—Requirements. A multiple facility operator must successfully demonstrate to the department financial solvency and management experience for the homes under its ownership and the ability to meet other relevant safety, health, and operating standards pertaining to the operation of multiple homes, including ways to mitigate the potential impact of vehicular traffic related to the operation of the homes. [1996 c 81 § 6.]

Reviser’s note: 1996 c 81 directed that this section be added to chapter 18.48 RCW. However, it appears that placement is erroneous and the appropriate placement is in chapter 70.128 RCW.

Effective date—1996 c 81: See note following RCW 70.128.120.

However, an adult family home may be allowed to continue without inspection for two years if the adult family home had no inspection citations for the past three consecutive inspections and has received no written notice of violations resulting from complaint investigations during that same time period.

The department may inspect all rooms during the initial licensing of the home. However, during a complaint investigation, the department shall have access to the entire premises and all pertinent records when necessary to conduct official business. The

This notice shall be mailed to the provider within ten working days of the completion of the inspection process. 70.128.160 Department authority to take actions in response to noncompliance or violations. (1) The department is authorized to take one or more of the actions listed in subsection (2) of this section in any case in which the department finds that an adult family home provider has:

(a) Failed or refused to comply with the requirements of this chapter or the rules adopted under this chapter; (b) Operated an adult family home without a license; (c) Operated an adult family home without a license or under a revoked license; (c) Knowingly or with reason to know made a false statement of material fact on his or her application for license or
any data attached thereto, or in any matter under investigation by the department; or

(d) Willfully prevented or interfered with any inspection or investigation by the department.

(2) When authorized by subsection (1) of this section, the department may take one or more of the following actions:

(a) Refuse to issue a license;

(c) Impose civil penalties of not more than one hundred dollars per day per violation;
(d) Suspend, revoke, or refuse to renew a license; or
(e) Suspend admissions to the adult family home by imposing stop placement.

(3) When the department orders stop placement, the facility shall not admit any person until the stop placement order is terminated. The department may approve readmission of a resident to the facility from a hospital or nursing home during the stop placement. The department shall terminate the stop placement when: (a) The violations necessitating the stop placement have been corrected; and (b) the provider exhibits the capacity to maintain correction of the violations previously found deficient. However, if upon the revisit the department finds new violations that the department reasonably believes will result in a new stop placement, the previous stop placement shall remain in effect until the new stop placement is imposed.

(4) After a department finding of a violation for which a stop placement has been imposed, the department shall make an on-site revisit of the provider within fifteen working days from the request for revisit, to ensure correction of the violation. For violations that are serious or recurring or uncorrected following a previous citation, and create actual or threatened harm to one or more residents’ well-being, including violations of residents’ rights, the department shall make an on-site revisit as soon as appropriate to ensure correction of the violation. Verification of correction of all other violations may be made by either a department on-site revisit or by written or photographic documentation found by the department to be credible. This subsection does not prevent the department from enforcing license suspensions or revocations. Nothing in this subsection shall interfere with or diminish the department’s authority and duty to ensure that the provider adequately cares for residents, including to make departmental on-site revisits as needed to ensure that the provider protects residents, and to enforce compliance with this chapter.

70.128.163 Temporary management program—Purposes—Voluntary participation—Temporary management duties, duration—Rules. (1) When the department has summarily suspended a license, the licensee may, subject to the department’s approval, elect to participate in a temporary management program. All provisions of this section shall apply.

The purposes of a temporary management program are as follows:

(a) To mitigate dislocation and transfer trauma of residents while the department and licensee may pursue dispute resolution or appeal of a summary suspension of license;
(b) To facilitate the continuity of safe and appropriate resident care and services;
(c) To preserve a residential option that meets a specialized service need and/or is in a geographical area that has a lack of available providers; and
(d) To provide residents with the opportunity for orderly discharge.

(2) Licensee participation in the temporary management program is voluntary. The department shall have the discretion to approve any temporary manager and the temporary management arrangements. The temporary management shall assume the total responsibility for the daily operations of the home.

(3) The temporary management shall contract with the licensee as an independent contractor and is responsible for ensuring that all minimum licensing requirements are met. The temporary management shall protect the health, safety, and well-being of the residents for the duration of the temporary management and shall perform all acts reasonably necessary to ensure that residents’ needs are met. The licensee is responsible for all costs related to administering the temporary management program and contracting with the temporary management. The temporary management agreement shall at a minimum address the following:

(a) Provision of liability insurance to protect residents and their property;
(b) Preservation of resident trust funds;
(c) The timely payment of past due or current accounts, operating expenses, including but not limited to staff compensation, and all debt that comes due during the period of the temporary management;
(d) The responsibilities for addressing all other financial obligations that would interfere with the ability of the temporary manager to provide adequate care and services to residents; and
(e) The authority of the temporary manager to manage the home, including the hiring, managing, and firing of employees for good cause, and to provide adequate care and services to residents.

(4) The licensee and department shall provide written notification immediately to all residents, legal representatives, interested family members, and the state long-term care ombudsman program, of the temporary management and the reasons for it. This notification shall include notice that residents may move from the home without notifying the licensee in advance, and without incurring any charges, fees, or costs otherwise available for insufficient advance notice, during the temporary management period.

(5) The temporary management period under this section concludes twenty-eight days after issuance of the formal notification of enforcement action or conclusion of administrative proceedings, whichever date is later. Nothing in this section precludes the department from revoking its approval of
the temporary management and/or exercising its licensing enforcement authority under this chapter. The department’s decision whether to approve or to revoke a temporary management arrangement is not subject to the administrative procedure act, chapter 34.05 RCW.

(6) The department is authorized to adopt rules implementing this section. In implementing this section, the department shall consult with consumers, advocates, the adult family home advisory committee established under *chapter 18.48 RCW, and organizations representing adult family homes. The department may recruit and approve qualified, licensed providers interested in serving as temporary managers. [2001 c 193 § 6.]

*Reviser’s note: Chapter 18.48 RCW was repealed in its entirety by 2002 c 223 § 2.

70.128.167 Disputed violations, enforcement remedies—Informal dispute resolution process. (1) The licensee or its designee has the right to an informal dispute resolution process to dispute any violation found or enforcement remedy imposed by the department during a licensing inspection or complaint investigation. The purpose of the informal dispute resolution process is to provide an opportunity for an exchange of information that may lead to the modification, deletion, or removal of a violation, or parts of a violation, or enforcement remedy imposed by the department.

(2) The informal dispute resolution process provided by the department shall include, but is not necessarily limited to, an opportunity for review by a department employee who did not participate in, or oversee, the determination of the violation or enforcement remedy under dispute. The department shall develop, or further develop, an informal dispute resolution process consistent with this section.

(3) A request for an informal dispute resolution shall be made to the department within ten working days from the receipt of a written finding of a violation or enforcement remedy. The request shall identify the violation or violations and enforcement remedy or remedies being disputed. The department shall convene a meeting, when possible, within ten working days of receipt of the request for informal dispute resolution, unless by mutual agreement a later date is agreed upon.

(4) If the department determines that a violation or enforcement remedy should not be cited or imposed, the department shall delete the violation or immediately rescind or modify the enforcement remedy. Upon request, the department shall issue a clean copy of the revised report, statement of deficiencies, or notice of enforcement action.

(5) The request for informal dispute resolution does not delay the effective date of any enforcement remedy imposed by the department, except that civil monetary fines are not payable until the exhaustion of any formal hearing and appeal rights provided under this chapter. The licensee shall submit to the department, within the time period prescribed by the department, a plan of correction to address any undisputed violations, and including any violations that still remain following the informal dispute resolution. [2001 c 193 § 8.]

70.128.170 Homes relying on prayer for healing—Application of chapter. Nothing in this chapter or the rules adopted under it may be construed as authorizing the supervision, regulation, or control of the remedial care or treatment of residents in any adult family home conducted by and for the adherents of a church or religious denomination who rely upon spiritual means alone through prayer for healing in accordance with the tenets and practices of such church or religious denomination and the bona fide religious beliefs genuinely held by such adherents. [1989 c 427 § 33.]

(1) The department of social and health services shall review, in coordination with the department of health, the nursing care quality assurance commission, adult family home providers, boarding home providers, in-home personal care providers, and long-term care consumers and advocates, training standards for providers, resident managers, and resident caregiv-
Adult Family Homes

70.128.220 Elder care—Professionalization of providers. Adult family homes have developed rapidly in response to the health and social needs of the aging population in community settings, especially as the aging population has increased in proportion to the general population. The growing demand for elder care with a new focus on issues affecting senior citizens, including persons with developmental disabilities, mental illness, or dementia, has prompted a growing professionalization of adult family home providers to address quality care and quality of life issues consistent with standards of accountability and regulatory safeguards for the health and safety of the residents.

The establishment of an advisory committee to the department of social and health services under RCW 70.128.225 formalizes a stable process for discussing and considering these issues among residents and their advocates, regulatory officials, and adult family home providers. The dialogue among all stakeholders interested in maintaining a healthy option for the aging population in community settings assures the highest regard for the well-being of these residents within a benign and functional regulatory environment. The secretary shall be advised by an advisory committee established under RCW 70.128.225.

70.128.225 Advisory committee. (1) In an effort to ensure a cooperative process among the department, adult family home provider representatives, and resident and family representatives on matters pertaining to the adult family home program, the secretary, or his or her designee, shall designate an advisory committee. The advisory committee must include: Representatives from the industry including four adult family home providers, at least two of whom are affiliated with recognized adult family home associations; one representative from the state long-term care ombudsman program; one representative from the statewide resident council program; one representative from a general authority Washington law enforcement agency as defined in RCW 10.93.020; and two representatives of families and other consumers. The secretary shall appoint a chairperson for the committee from the committee membership for a term of one year. In appointing the chairperson, the secretary shall consult with members of the committee. Depending on the topic to be discussed, the department may invite other representatives in addition to the named members of the advisory committee. The secretary, or his or her designee, shall periodically, but not less than quarterly, convene a meeting of the advisory committee to encourage open dialogue on matters affecting the adult family home program. It is, minimally, expected that the department will discuss with the advisory committee the department’s inspection, enforcement, and quality improvement activities, in addition to seeking their comments and recommendations on matters described under subsection (2) of this section.

(2) The secretary, or his or her designee, shall seek comments and recommendations from the advisory committee prior to the adoption of rules and standards, implementation of adult family home provider programs, or development of methods and rates of payment.

(3) Establishment of the advisory committee shall not prohibit the department of social and health services from utilizing other advisory activities that the department of social and health services deems necessary for program development.

(4) Members of the advisory committee shall be reimbursed for travel expenses as provided in RCW 43.03.050 and 43.03.060 from license fees collected under chapter 70.128 RCW.

70.128.230 Long-term caregiver training. (1) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Caregiver" includes all adult family home resident managers and any person who provides residents with hands-on personal care on behalf of an adult family home, except volunteers who are directly supervised.

(b) "Indirect supervision" means oversight by a person who has demonstrated competency in the core areas or has
been fully exempted from the training requirements pursuant
to this section and is quickly and easily available to the care-
giver, but not necessarily on-site.

(2) Training must have three components: Orientation, basic
training, and continuing education. All adult family
home providers, resident managers, and employees, or volun-
teers who routinely interact with residents shall complete ori-
entation. Caregivers shall complete orientation, basic train-
ing, and continuing education.

(3) Orientation consists of introductory information on
residents’ rights, communication skills, fire and life safety,
and universal precautions. Orientation must be provided at
the facility by appropriate adult family home staff to all adult
family home employees before the employees have routine
interaction with residents.

(4) Basic training consists of modules on the core knowl-
edge and skills that caregivers need to learn and understand to
effectively and safely provide care to residents. Basic training
must be outcome-based, and the effectiveness of the basic
training must be measured by demonstrated competency in
the core areas through the use of a competency test. Basic
training must be completed by caregivers within one hundred
twenty days of the date on which they begin to provide
hands-on care or within one hundred twenty days of Septem-
ber 1, 2002, whichever is later. Until competency in the core
areas has been demonstrated, caregivers shall not provide
hands-on personal care to residents without indirect supervi-
sion.

(5) For adult family homes that serve residents with spe-
cial needs such as dementia, developmental disabilities, or
mental illness, specialty training is required of providers and
resident managers. Specialty training consists of modules on
the core knowledge and skills that providers and resident
managers need to effectively and safely provide care to resi-
dents with special needs. Specialty training should be inte-
grated into basic training wherever appropriate. Specialty
training must be outcome-based, and the effectiveness of the
specialty training measured by demonstrated competency in
the core specialty areas through the use of a competency test.
Specialty training must be completed by providers and resi-
dent managers before admitting and serving residents who
have been determined to have special needs related to mental
illness, dementia, or a developmental disability. Should a res-
ident develop special needs while living in a home without
specialty designation, the provider and resident manager
have one hundred twenty days to complete specialty training.

(6) Continuing education consists of ongoing delivery of
information to caregivers on various topics relevant to the
care setting and care needs of residents. Competency testing
is not required for continuing education. Continuing educa-
tion is not required in the same calendar year in which basic
or modified basic training is successfully completed. Con-
tinuing education is required in each calendar year thereafter.
If specialty training is completed, the specialty training
applies toward any continuing education requirement for up
to two years following the completion of the specialty train-

(7) Persons who successfully challenge the competency
test for basic training are fully exempt from the basic training
requirements of this section. Persons who successfully chal-

from the specialty training requirements of this section.

(8) Licensed persons who perform the tasks for which
they are licensed are fully or partially exempt from the train-

(9) In an effort to improve access to training and educa-

coordinated system of long-term care training and education
must include the use of innovative types of learning strategies
such as internet resources, videotapes, and distance learning
using satellite technology coordinated through community

However, the procedures suggested in this section are cumulative and shall not restrict an agency or person from seeking a remedy provided by law or from obtaining additional relief based on the same facts, including any remedy available to an individual at common law. Chapter 214, Laws of 1994 is not intended to, and shall not be construed to, create any right of action on the part of any individual beyond those in existence under any common law or statutory doctrine. Chapter 214, Laws of 1994 is not intended to, and shall not be construed to, operate in derogation of any right of action on the part of any individual in existence on June 9, 1994. **70.129.901** Conflict with federal requirements—1994 c 214. If any part of this act is found to be in conflict with federal requirements that are a prescribed condition to the allocation of federal funds to the state, the conflicting part of this act is inoperative solely to the extent of the conflict and with respect to the agencies directly affected, and this finding does not affect the operation of the remainder of this act in its application to the agencies concerned. The rules under this act shall meet federal requirements that are a necessary condition to the receipt of federal funds by the state. [1994 c 214 § 27.]

**70.132.010** Legislative findings. The legislature finds that beverage containers designed to be opened through the use of detachable metal rings or tabs are hazardous to the health and welfare of the citizens of this state and detrimental to certain wildlife. The detachable parts are susceptible to ingestion by human beings and wildlife. The legislature intends to eliminate the danger posed by these unnecessary containers by prohibiting their retail sale in this state. [1982 c 113 § 1.]

**70.132.020** Definitions. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter:

(1) "Beverage" means beer or other malt beverage or mineral water, soda water, or other drink in liquid form and intended for human consumption. The term does not include milk-based, soy-based, or similar products requiring heat and pressure in the canning process.

(2) "Beverage container" means a separate and sealed container which container’s only detachable part is a piece of pressure sensitive or metallic tape. [1982 c 113 § 3.]

**70.132.030** Sale of containers with detachable metal rings or tabs prohibited. No person may sell or offer to sell at retail in this state any beverage container so designed and constructed that a metal part of the container is detachable in opening the container through use of a metal ring or tab. Nothing in this section prohibits the sale of a beverage container which container’s only detachable part is a piece of pressure sensitive or metallic tape. [1982 c 113 § 3.]

**70.132.040** Enforcement—Rules. The department shall administer and enforce this chapter. The department shall adopt rules interpreting and implementing this chapter. Any rule adopted under this section shall be adopted under the administrative procedure act, chapter 34.05 RCW. [1982 c 113 § 4.]

**70.132.050** Penalty. Except as provided in RCW 43.05.060 through 43.05.080 and 43.05.150, any person who violates any provision of this chapter or any rule adopted under this chapter is subject to a civil penalty not exceeding five hundred dollars for each violation. Each day of a continuing violation is a separate violation. [1995 c 403 § 632; 1982 c 113 § 5.]

70.136.010 Legislative intent. It is the intent of the legislature to promote and encourage advance planning, cooperation, and mutual assistance between applicable political subdivisions of the state and persons with equipment, personnel, and expertise in the handling of hazardous materials incidents, by establishing limitations on liability for those persons responding in accordance with the provisions of RCW 70.136.020 through 70.136.070. [1982 c 172 § 1.]

Reviser's note: Although 1982 c 172 directed that sections 1 through 7 of that enactment be added to chapter 4.24 RCW, codification of these sections as a new chapter in Title 70 RCW appears more appropriate.

70.136.020 Definitions. The definitions set forth in this section apply throughout RCW 70.136.010 through 70.136.070:
(1) "Hazardous materials" means:
(a) Materials which, if not contained may cause unacceptable risks to human life within a specified area adjacent to the spill, seepage, fire, explosion, or other release, and will, consequently, require evacuation;
(b) Materials that, if spilled, could cause unusual risks to the general public and to emergency response personnel responding at the scene;
(c) Materials that, if involved in a fire will pose unusual risks to emergency response personnel;
(d) Materials requiring unusual storage or transportation conditions to assure safe containment; or
(e) Materials requiring unusual treatment, packaging, or vehicles during transportation to assure safe containment.
(2) "Applicable political subdivisions of the state" means cities, towns, counties, fire districts, and those port authorities with emergency response capabilities.
(3) "Person" means an individual, partnership, corporation, or association.
(4) "Public agency" means any agency, political subdivision, or unit of local government of this state including, but not limited to, municipal corporations, quasi-municipal corporations, special purpose districts, and local service districts; any agency of the state government; any agency of the United States; any Indian tribe recognized as such by the federal government; and any political subdivision of another state.
(5) "Hazardous materials incident" means an incident creating a danger to persons, property, or the environment as a result of spillage, seepage, fire, explosion, or release of hazardous materials, or the possibility thereof.
(6) "Governing body" means the elected legislative council, board, or commission or the chief executive of the applicable political subdivision of the state with public safety responsibility.
(7) "Incident command agency" means the predesignated or appointed agency charged with coordinating all activities and resources at the incident scene.
(8) "Representative" means an agent from the designated hazardous materials incident command agency with the authority to secure the services of persons with hazardous materials expertise or equipment.
(9) "Profit" means compensation for rendering care, assistance, or advice in excess of expenses actually incurred. [1987 c 238 § 1; 1982 c 172 § 2.]

70.136.030 Incident command agencies—Designation by political subdivisions. The governing body of each applicable political subdivision of this state shall designate a hazardous materials incident command agency within its respective boundaries, and file this designation with the director of community, trade, and economic development. In designating an incident command agency, the political subdivision shall consider the training, manpower, expertise, and equipment of various available agencies as well as the Uniform Fire Code and other existing codes and regulations. Along state and interstate highway corridors, the Washington state patrol shall be the designated incident command agency unless by mutual agreement that role has been assumed by another designated incident command agency. If a political subdivision has not designated an incident command agency within six months after July 26, 1987, the Washington state patrol shall then assume the role of incident command agency by action of the chief until a designation has been made. [1995 c 399 § 197; 1987 c 238 § 2; 1986 c 266 § 50; 1985 c 7 § 132; 1984 c 165 § 1; 1982 c 172 § 4.]
Severability—1986 c 266: See note following RCW 38.52.005.

70.136.035 Incident command agencies—Assistance from state patrol. In political subdivisions where an incident command agency has been designated, the Washington state patrol shall continue to respond with a supervisor to provide assistance to the incident command agency. [1987 c 238 § 3.]

70.136.040 Incident command agencies—Emergency assistance agreements. Hazardous materials incident command agencies, so designated by all applicable political subdivisions of the state, are authorized and encouraged, prior to a hazardous materials incident, to enter individually or jointly into written hazardous materials emergency assistance agreements with any person whose knowledge or expertise is deemed potentially useful. [1982 c 172 § 3.]

(2008 Ed.)
70.136.050 Persons and agencies rendering emergency aid in hazardous materials incidents—Immunity from liability—Limitations. An incident command agency in the good faith performance of its duties, is not liable for civil damages resulting from any act or omission in the performance of its duties, other than acts or omissions constituting gross negligence or willful or wanton misconduct.

Any person or public agency whose assistance has been requested by an incident command agency, who has entered into a written hazardous materials assistance agreement before or at the scene of the incident pursuant to RCW 70.136.060 and 70.136.070, and who, in good faith, renders emergency care, assistance, or advice with respect to a hazardous materials incident, is not liable for civil damages resulting from any act or omission in the rendering of such care, assistance, or advice, other than acts or omissions constituting gross negligence or willful or wanton misconduct. [1987 c 238 § 4; 1984 c 165 § 2; 1982 c 172 § 5.]

70.136.060 Written emergency assistance agreements—Terms and conditions—Records. Hazardous materials emergency assistance agreements which are executed prior to a hazardous materials incident shall include the following terms and conditions:

(1) The person or public agency requested to assist shall not be obligated to assist;

(2) The person or public agency requested to assist may act only under the direction of the incident command agency or its representative;

(3) The person or public agency requested to assist may withdraw its assistance if it deems the actions or directions of the incident command agency to be contrary to accepted hazardous materials response practices;

(4) The person or public agency requested to assist shall not profit from rendering the assistance;

(5) Any person responsible for causing the hazardous materials incident shall not be covered by the liability standard defined in RCW 70.136.050.

It is the responsibility of both parties to ensure that mutually agreeable procedures are established for identifying the incident command agency when assistance is requested, for recording the name of the person or public agency whose assistance is requested, and the time and date of the request, which records shall be retained for three years by the incident command agency. A copy of the official incident command agency designation shall be a part of the assistance agreement specified in this section. [1987 c 238 § 5; 1982 c 172 § 6.]

70.136.070 Verbal emergency assistance agreements—Good Samaritan law—Notification—Form. (1) Verbal hazardous materials emergency assistance agreements may be entered into at the scene of an incident where execution of a written agreement prior to the incident is not possible. A notification of the terms of this section shall be presented at the scene by the incident command agency or its representative to the person or public agency whose assistance is requested. The incident command agency and the person or public agency whose assistance is requested shall both sign the notification which appears in subsection (2) of this section, indicating the date and time of signature. If a requesting incident command agency deliberately misrepresents individual or agency status, that agency shall assume full liability for any damages resulting from the actions of the person or public agency whose assistance is requested, other than those damages resulting from gross negligence or willful or wanton misconduct.

(2) The notification required by subsection (1) of this section shall be in substantially the following form:

NOTIFICATION OF "GOOD SAMARITAN" LAW
You have been requested to provide emergency assistance by a representative of a hazardous materials incident command agency. To encourage your assistance, the Washington state legislature has passed "Good Samaritan" legislation (RCW 70.136.050) to protect you from potential liability. The law reads, in part:

"Any person or public agency whose assistance has been requested by an incident command agency, who has entered into a written hazardous materials assistance agreement . . . at the scene of the incident pursuant to . . . RCW 70.136.070, and who, in good faith, renders emergency care, assistance, or advice with respect to a hazardous materials incident, is not liable for civil damages resulting from any act or omission in the rendering of such care, assistance, or advice, other than acts or omissions constituting gross negligence or willful or wanton misconduct."

The law requires that you be advised of certain conditions to ensure your protection:

1. You are not obligated to assist and you may withdraw your assistance at any time.
2. You cannot profit from assisting.
3. You must agree to act under the direction of the incident command agency.
4. You are not covered by this law if you caused the initial accident.

I have read and understand the above.

INCINERATOR ASH RESIDUE

Sections
70.138.010 Legislative findings.
70.138.020 Definitions.
70.138.030 Review and approval of management plans—Disposal permits.
70.138.040 Civil penalties.
70.138.050 Violations—Orders.

(2008 Ed.)
70.138.100 Legislative findings. The legislature finds:
(1) Solid wastes generated in the state are to be managed in the following order of descending priority: (a) Waste reduction; (b) recycling; (c) treatment; (d) energy recovery or incineration; (e) solidification/stabilization; and (f) landfill.
(2) Special incinerator ash residues from the incineration of municipal solid waste that would otherwise be regulated as hazardous wastes need a separate regulatory scheme in order to (a) ease the permitting and reporting requirements of chapter 70.105 RCW, the state hazardous waste management act, and (b) supplement the environmental protection provisions of chapter 70.95 RCW, the state solid waste management act.
(3) Raw garbage poses significant environmental and public health risks. Municipal solid waste incineration constitutes a higher waste management priority than the land disposal of untreated municipal solid waste due to its reduction of waste volumes and environmental health risks.
It is therefore the purpose of this chapter to establish management requirements for special incinerator ash that otherwise would be regulated as hazardous waste under chapter 70.105 RCW, the hazardous waste management act. [1987 c 528 § 1.]

70.138.020 Definitions. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.
(1) "Department" means the department of ecology.
(2) "Director" means the director of the department of ecology or the director's designee.
(3) "Dispose" or "disposal" means the treatment, utilization, processing, or final deposit of special incineration ash.
(4) "Generate" means any act or process which produces special incinerator ash or which first causes special incinerator ash to become subject to regulation.
(5) "Management" means the handling, storage, collection, transportation, and disposal of special incinerator ash.
(6) "Person" means any person, firm, association, county, public or municipal or private corporation, agency, or other entity whatsoever.
(7) "Facility" means all structures, other appurtenances, improvements, and land used for recycling, storing, treating, or disposing of special incinerator ash.
(8) "Special incinerator ash" means ash residues resulting from the operation of incinerator or energy recovery facilities managing municipal solid waste, including solid waste from residential, commercial, and industrial establishments, if the ash residues (a) would otherwise be regulated as hazardous wastes under chapter 70.105 RCW; and (b) are not regulated as a hazardous waste under the federal resource conservation and recovery act, 42 U.S.C. Sec. 6901 et seq. [1987 c 528 § 2.]

70.138.030 Review and approval of management plans—Disposal permits. (1) Prior to managing special incinerator ash, persons who generate special incinerator ash shall develop plans for managing the special incinerator ash. These plans shall:
(a) Identify procedures for all aspects relating to the management of the special incinerator ash that are necessary to protect employees, human health, and the environment;
(b) Identify alternatives for managing solid waste prior to incineration for the purpose of (i) reducing the toxicity of the special incinerator ash; and (ii) reducing the quantity of the special incinerator ash;
(c) Establish a process for submittal of an annual report to the department disclosing the results of a testing program to identify the toxic properties of the special incinerator ash as necessary to ensure that the procedures established in the plans submitted pursuant to this chapter are adequate to protect employees, human health, and the environment; and
(d) Comply with the rules established by the department in accordance with this section.
(2) Prior to managing any special incinerator ash, any person required to develop a plan pursuant to subsection (1) of this section shall submit the plan to the department for review and approval. Prior to approving a plan, the department shall find that the plan complies with the provisions of this chapter, including any rules adopted under this chapter. Approval may be conditioned upon additional requirements necessary to protect employees, human health, and the environment, including special management requirements, waste segregation, or treatment techniques such as neutralization, detoxification, and solidification/stabilization.
(3) The department shall give notice of receipt of a proposed plan to interested persons and the public and shall accept public comment for a minimum of thirty days. The department shall approve, approve with conditions, or reject the plan submitted pursuant to this section within ninety days of submittal.
(4) Prior to accepting any special incinerator ash for disposal, persons owning or operating facilities for the disposal of the incinerator ash shall apply to the department for a permit. The department shall issue a permit if the disposal will provide adequate protection of human health and the environment. Prior to issuance of any permit, the department shall find that the facility meets the requirements of chapter 70.95 RCW and any rules adopted under this chapter. The department may place conditions on the permit to include additional requirements necessary to protect employees, human health, and the environment, including special management requirements, waste segregation, or treatment techniques such as neutralization, detoxification, and solidification/stabilization.
(5) The department shall give notice of its receipt of a permit application to interested persons and the public and shall accept public comment for a minimum of thirty days. The department shall issue, issue with conditions, or deny the permit within ninety days of submittal.
(6) The department shall adopt rules to implement the provisions of this chapter. The rules shall (a) establish minimum requirements for the management of special incinerator ash as necessary to protect employees, human health, and the environment, (b) clearly define the elements of the plans required by this chapter, and (c) require special incinerator
ash to be disposed at facilities that are operating in compliance with this chapter. [1987 c 528 § 3.]

**70.138.040 Civil penalties.** (1) Except as provided in RCW 43.05.060 through 43.05.080 and 43.05.150, any person who violates any provision of a department regulation or regulatory order relating to the management of special incinerator ash shall incur in addition to any other penalty provided by law, a penalty in an amount up to ten thousand dollars a day for every such violation. Each and every such violation shall be a separate and distinct offense. In case of continuing violation, every day’s continuance shall be a separate and distinct violation. Every person who, through an act of commission or omission, procures, aids, or abets in the violation shall be considered to have violated the provisions of this section and shall be subject to the penalty herein provided.

(2) The penalty provided for in this section shall be imposed by a notice in writing, either by certified mail with return receipt requested or by personal service, to the person incurring the same from the department, describing the violation with reasonable particularity. Within fifteen days after the notice is received, the person incurring the penalty may apply in writing to the department for the remission or mitigation of such penalty. Upon receipt of the application, the department may remit or mitigate the penalty upon whatever terms the department in its discretion deems proper, giving consideration to the degree of hazard associated with the violation, provided the department deems such remission or mitigation to be in the best interests of carrying out the purposes of this chapter. The department shall have authority to ascertain the facts regarding all such applications in such reasonable manner and under such rules as it may deem proper.

(3) Any penalty imposed by this section shall become due and payable thirty days after receipt of a notice imposing the same unless application for remission or mitigation is made or petition for review by the hearings board is filed. When such an application for remission or mitigation is made, any penalty incurred pursuant to this section shall become due and payable thirty days after receipt of notice setting forth the disposition of such application.

(4) If the amount of any penalty is not paid to the department within thirty days after it becomes due and payable, the attorney general, upon the request of the director, shall bring an action in the name of the state of Washington in the superior court of Thurston county, or any county in which such violator may do business, to recover such penalty. In all such actions, the procedure and rules of evidence shall be the same as an ordinary civil action except as otherwise provided in this chapter. [1995 c 403 § 633; 1987 c 528 § 4.]

*Part headings not law—Severability—1995 c 403: See RCW 43.05.903 and 43.05.904.*

**70.138.050 Violations—Orders.** Whenever a person violates any provision of this chapter or any permit or regulation the department may issue an order appropriate under the circumstances to assure compliance with the chapter, permit, or regulation. Such an order must be served personally or by registered mail upon any person to whom it is directed. [1987 c 528 § 5.]

**70.138.060 Enforcement—Injunctive relief.** The department, with the assistance of the attorney general, may bring any appropriate action at law or in equity, including action for injunctive relief as may be necessary to enforce the provisions of this chapter or any permit or regulation issued thereunder. [1987 c 528 § 6.]

**70.138.070 Criminal penalties.** Any person found guilty of willfully violating, without sufficient cause, any of the provisions of this chapter, or permit or order issued pursuant to this chapter is guilty of a gross misdemeanor and upon conviction shall be punished by a fine of up to ten thousand dollars and costs of prosecution, or by imprisonment for up to one year, or by both. Each day of violation may be deemed a separate violation. [1987 c 528 § 7.]

**70.138.900 Application of chapter to certain incinerators.** This chapter shall not apply to municipal solid waste incinerators that are in operation on May 19, 1987, until a special incinerator waste disposal permit is issued in the county where the municipal solid waste incinerator is located, or July 1, 1989, whichever is sooner. [1987 c 528 § 12.]

**70.138.901 Short title.** This chapter shall be known as the special incinerator ash disposal act. [1987 c 528 § 11.]

**70.138.902 Severability—1987 c 528.** If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected. [1987 c 528 § 14.]

### 70.140.030 Children in schools and child care facilities—Department duties—School and child care facility duties.

(1) The department, in cooperation with the department of social and health services, the department of health, the office of the superintendent of public instruction, and local health districts, shall assist schools and child care facilities east of the crest of the Cascade mountains to reduce the potential for children’s exposure to area-wide soil contamination.

(2) The department shall:

(a) Identify schools and child care facilities that are located within the central Puget Sound smelter plume based on available information;

(b) Conduct qualitative evaluations to determine the potential for children’s exposure to area-wide soil contamination;

(c) If the qualitative evaluation determines that children may be routinely exposed to area-wide soil contamination at a property, conduct soil samples at that property by December 31, 2009; and

(d) If soil sample results confirm the presence of area-wide soil contamination, notify schools and child care facilities regarding the test results and the steps necessary for implementing best management practices.

(3) If a school or a child care facility with area-wide soil contamination does not implement best management practices within six months of receiving written notification from the department, the superintendent or board of directors of a school or the owner or operator of a child care facility must notify parents and guardians in writing of the results of soil tests. The written notice shall be prepared by the department.

(4) The department shall recognize schools and child care facilities that successfully implement best management practices with a voluntary certification letter confirming that the facility has successfully implemented best management practices.

(5) Schools and child care facilities must work with the department to provide the department with site access for soil sampling at times that are the most convenient for all parties. [2005 c 306 § 3.]

### 70.140.040 Department assistance—Best management practice guidelines—Grants—Interagency agreements authorized—Reports.

(b) Technical and financial assistance in testing soils where evaluations indicate potential for contamination; and

(c) Technical and financial assistance to implement best management practices.

(2) The department shall develop the best management practice guidelines for schools and day care facilities with area-wide soil contamination. The guidelines shall recommend a range of methods for reducing exposure to contaminated soil, considering the concentration, extent, and location of contamination and the nature and frequency of child use of the area.

(3) The department shall develop a grant program to assist schools and child care facilities with implementing best management practices.

(4) The department, within available funds, may provide grants to schools and child care facilities for the purpose of implementing best management practices.

(5) The department, within available funds, may provide financial assistance to the department of health and the department of social and health services to implement this chapter.

(6) The department may, through an interagency agreement, authorize a local health jurisdiction to administer any activity in this chapter that is otherwise not assigned to a local health jurisdiction by this chapter.

(7) The department shall evaluate actions to reduce child exposure to contaminated soils and submit progress reports to the governor and to the appropriate committees of the legislature by December 31, 2006, and December 31, 2008. [2005 c 306 § 4.]

(1) In order to protect public health from chemical contaminants in drinking water, the state board of health shall conduct public hearings and, where technical data allow, establish by rule standards for allowable concentrations. For purposes of this chapter, the words “chemical contaminants” are limited to synthetic organic chemical contaminants and to any other contaminants which in the opinion of the board constitute a threat to public health. If adequate data to support setting of a standard is available, the state board of health shall adopt by rule a maximum contaminant level for water provided to consumers’ taps. Standards set for contaminants known to be toxic shall consider both short-term and chronic toxicity. Standards set for contaminants known to be carcinogenic shall be consistent with risk levels established by the state board of health.

(2) The board shall consider the best available scientific information in establishing the standards. The board may review and revise the standards. State and local standards for chemical contaminants may be more strict than the federal standards. [1984 c 187 § 1.]

70.142.020 Establishment of monitoring requirements for chemical contaminants in public water supplies by state board of health. The state board of health shall conduct public hearings and establish by rule monitoring requirements for chemical contaminants in public water supplies. Results of tests conducted pursuant to such requirements shall be submitted to the department of health and to the local health department. The state board of health may review and revise monitoring requirements for chemical contaminants. [1991 c 3 § 374; 1984 c 187 § 2.]

70.142.030 Monitoring requirements—Considerations. The state board of health in determining monitoring requirements for public water supply systems shall take into consideration economic impacts as well as public health risks. [1984 c 187 § 5.]

70.142.040 Establishment of water quality standards by local health department in large counties. Each local health department serving a county with a population of one hundred twenty-five thousand or more may establish water quality standards for its jurisdiction more stringent than standards established by the state board of health. Each local health department establishing such standards shall base the standards on the best available scientific information. [1991 c 363 § 145; 1984 c 187 § 3.]

70.142.050 Noncomplying public water supply systems—Submission of corrective plan—Notification to system’s customers. Public water supply systems as defined by RCW 70.119.020 that the state board of health or local health department determines do not comply with the water quality standards applicable to the system shall immediately initiate preparation of a corrective plan designed to meet or exceed the minimum standards for submission to the department of health. The owner of such system shall within one year take any action required to bring the water into full compliance with the standards. The department of health may require compliance as promptly as necessary to abate an immediate public health threat or may extend the period of compliance if substantial new construction is required: PROVIDED FURTHER, That the extension shall be granted only upon a determination by the department, after a public hearing, that the extension will not pose an imminent threat to public health. Each such system shall include a notice identifying the water quality standards exceeded, and the amount by which the water tested exceeded the standards, in all customer bills mailed after such determination. The notification shall continue until water quality tests conducted in accordance with this chapter establish that the system meets or exceeds the minimum standards. [1991 c 3 § 375; 1984 c 187 § 4.]

70.146.010 Purpose—Legislative intent. The long-range health and environmental goals for the state of Washington require the protection of the state’s surface and underground waters for the health, safety, use, enjoyment, and economic benefit of its people. It is the purpose of this chapter to
provide financial assistance to the state and to local governments for the planning, design, acquisition, construction, and improvement of water pollution control facilities and related activities in the achievement of state and federal water pollution control requirements for the protection of the state’s waters.

It is the intent of the legislature that distribution of moneys for water pollution control facilities under this chapter be made on an equitable basis taking into consideration legal mandates, local effort, ratepayer impacts, and past distributions of state and federal moneys for water pollution control facilities.

It is the intent of this chapter that the cost of any water pollution control facility attributable to increased or additional capacity that exceeds one hundred ten percent of existing needs at the time of application for assistance under this chapter shall be entirely a local or private responsibility. It is the intent of this chapter that industrial pretreatment be paid for such purposes.

See note following RCW 82.24.027.

70.146.020 Definitions. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Account" means the water quality account in the state treasury.

(2) "Department" means the department of ecology.

(3) "Eligible cost" means the cost of that portion of a water pollution control facility that can be financed under this chapter excluding any portion of a facility’s cost attributable to capacity that is in excess of that reasonably required to address one hundred ten percent of the applicant’s needs for water pollution control existing at the time application is submitted for assistance under this chapter.

(4) "Water pollution control facility" or "facilities" means any facilities or systems for the control, collection, storage, treatment, disposal, or recycling of wastewater, including but not limited to sanitary sewage, storm water, residential, commercial, industrial, and agricultural wastes, which are causing water quality degradation due to concentrations of conventional, nonconventional, or toxic pollutants.

Water pollution control facilities include all equipment, utilities, structures, real property, and interests in and improvements on real property necessary for or incidental to such purpose. Water pollution control facilities also include such facilities, equipment, and collection systems as are necessary to protect federally designated sole source aquifers.

(5) "Water pollution control activities" means actions taken by a public body for the following purposes: (a) To prevent or mitigate pollution of underground water; (b) to control nonpoint sources of water pollution; (c) to restore the water quality of fresh water lakes; and (d) to maintain or improve water quality through the use of water pollution control facilities or other means. During the 1995-1997 fiscal biennium, "water pollution control activities" includes activities by state agencies to protect public drinking water supplies and sources.

(6) "Public body" means the state of Washington or any agency, county, city or town, conservation district, other political subdivision, municipal corporation, quasi-municipal corporation, and those Indian tribes now or hereafter recognized as such by the federal government.

(8) "Nonpoint source water pollution" means pollution that enters any waters of the state from any dispersed water-based or land-use activities, including, but not limited to, atmospheric deposition, surface water runoff from agricultural lands, urban areas, and forest lands, subsurface or underground sources, and discharges from boats or other marine vessels.

(9) "Sole source aquifer" means the sole or principal source of public drinking water for an area designated by the administrator of the environmental protection agency pursuant to Public Law 93-523, Sec. 1424(b). [1993 2nd sp.s.c 18 § 920; 1993 sp.s. c 24 § 923; 1987 c 436 § 5; 1986 c 3 § 2.]

(1) The water quality account is hereby created in the state treasury. Moneys in the account may be used only in a manner consistent with this chapter. Moneys deposited in the account shall be administered by the department of ecology and shall be subject to legislative appropriation. Moneys placed in the account shall include tax receipts as provided in RCW 82.24.027, 82.24.026(2)(d), and 82.32.390, principal and interest from the repayment of any loans granted pursuant to this chapter, and any other moneys appropriated to the account by the legislature.

(2) The department may use or permit the use of any moneys in the account to make grants or loans to public bodies, including grants to public bodies as cost-sharing moneys in any case where federal, local, or other funds are made available on a cost-sharing basis, for water pollution control facilities and activities, or for purposes of assisting a public body to obtain an ownership interest in water pollution control facilities and/or to defray a part of the payments made by a public body to a service provider under a service agreement entered into pursuant to RCW 70.150.060, within the purposes of this chapter and for related administrative expenses. For the period July 1, 2007, to June 30, 2009, moneys in the account may be used to process applications received by the department that seek to make changes to or transfer existing water rights and for other water resources and water quality activities, for water conveyance projects, shoreline technical assistance[,] Puget Sound education and outreach[,] and for grants and technical assistance to public bodies for watershed
planning under chapter 90.82 RCW. No more than three percent of the moneys deposited in the account may be used by the department to pay for the administration of the grant and loan program authorized by this chapter.

(3) Beginning with the biennium ending June 30, 1997, the department shall present a biennial progress report on the use of moneys from the account to the chairs of the senate committee on ways and means and the house of representatives committee on appropriations. The first report is due June 30, 1996, and the report for each succeeding biennium is due December 31st of the odd-numbered year. The report shall consist of a list of each recipient, project description, and amount of the grant, loan, or both. [2007 c 522 § 955. ### 70.146.040 Level of grant or loan not precedent

No grant or loan made in this chapter for fiscal year 1987 shall be construed to establish a precedent for levels of grants or loans made from the water quality account thereafter. [1986 c 3 § 6.]

Effective dates—1986 c 3: See note following RCW 82.24.027.

### 70.146.050 Compliance schedule for secondary treatment

The department of ecology may provide for a phased in compliance schedule for secondary treatment which addresses local factors that may impede compliance with secondary treatment requirements of the federal clean water act.

In determining the length of time to be granted for compliance, the department shall consider the criteria specified in the federal clean water act. [1986 c 3 § 8.]

Effective dates—1986 c 3: See note following RCW 82.24.027.

### 70.146.060 Water quality account distributions—Limitations

During the period from July 1, 1987, until June 30, 1995, the following limitations shall apply to the department’s total distribution of funds appropriated from the water quality account:

1. No more than fifty percent for water pollution control facilities which discharge directly into marine waters;
2. No more than twenty percent for water pollution control activities that prevent or mitigate pollution of underground waters and facilities that protect federally designated sole source aquifers with at least two-thirds for the Spokane-Rathdrum Prairie Aquifer;
3. Not more than ten percent for water pollution control activities that protect freshwater lakes and rivers including but not limited to Lake Chelan and the Yakima and Columbia rivers;
4. Not more than ten percent for activities which control nonpoint source water pollution;
5. Ten percent and such sums as may be remaining from the categories specified in subsections (1) through (4) of this section for water pollution control activities or facilities as determined by the department; and
6. Two and one-half percent of the total amounts of moneys under subsections (1) through (5) of this section from February 21, 1986, until December 31, 1995, shall be appropriated biennially to the state conservation commission for the purposes of this chapter. Not less than ten percent of the moneys received by the state conservation commission under the provisions of this section shall be expended on research activities.

The distribution under this section shall not be required to be met in any single fiscal year.

Funds provided for facilities and activities under this chapter may be used for payments to a service provider under a service agreement pursuant to RCW 70.150.060. If funds are to be used for such payments, the department may make periodic disbursements to a public body or may make a single lump sum disbursement. Disbursements of funds with respect to a facility owned or operated by a service provider shall be equivalent in value to disbursements that would otherwise be made if that facility were owned or operated by a public body. Payments under this chapter for waste disposal and management facilities made to public bodies entering into service agreements pursuant to RCW 70.150.060 shall not exceed amounts paid to public bodies not entering into service agreements. [1987 c 527 § 1; 1987 c 436 § 7; 1986 c 3 § 9.]
(e) Except as otherwise conditioned by RCW 70.146.110, whether the entity receiving assistance is a Puget Sound partner, as defined in RCW 90.71.010;

(f) Whether the project is referenced in the action agenda developed by the Puget Sound partnership under RCW 90.71.310;

(g) Except as otherwise provided in RCW 70.146.120, and effective one calendar year following the development and statewide availability of model evergreen community management plans and ordinances under RCW 35.105.050, whether the project is sponsored by an entity that has been recognized, and what gradation of recognition was received, in the evergreen community recognition program created in RCW 35.105.030;

(h) The extent to which the applicant county or city, or if the applicant is another public body, the extent to which the county or city in which the applicant public body is located, has established programs to mitigate nonpoint pollution of the surface or subterranean water sought to be protected by the water pollution control facility named in the application for state assistance; and

(i) The recommendations of the Puget Sound partnership, created in RCW 90.71.210, and any other board, council, commission, or group established by the legislature or a state agency to study water pollution control issues in the state.

(2) Except where necessary to address a public health need or substantial environmental degradation, a county, city, or town planning under RCW 36.70A.040 may not receive a grant or loan for water pollution control facilities unless it has adopted a comprehensive plan, including a capital facilities plan element, and development regulations as required by RCW 36.70A.040. This subsection does not require any county, city, or town planning under RCW 36.70A.040 to adopt a comprehensive plan or development regulations before requesting or receiving a grant or loan under this chapter if such request is made before the expiration of the time periods specified in RCW 36.70A.400. A county, city, or town planning under RCW 36.70A.040 which has not adopted a comprehensive plan and development regulations within the time periods specified in RCW 36.70A.400 is not prohibited from receiving a grant or loan under this chapter if the comprehensive plan and development regulations are adopted as required by RCW 36.70A.040 before submitting a request for a grant or loan.

(3) Whenever the department is considering awarding grants or loans for public facilities to special districts requesting funding for a proposed facility located in a county, city, or town planning under RCW 36.70A.040, it shall consider whether the county, city, or town planning under RCW 36.70A.040 in whose planning jurisdiction the proposed facility is located has adopted a comprehensive plan and development regulations as required by RCW 36.70A.040.

(4) After January 1, 2010, any project designed to address the effects of water pollution on Puget Sound may be funded under this chapter only if the project is not in conflict with the action agenda developed by the Puget Sound partnership under RCW 90.71.310. [2008 c 299 § 26. Prior: 2007 c 341 § 60; 2007 c 341 § 26; 1999 c 164 § 603; 1997 c 429 § 30; 1991 sp.s. c 32 § 24; 1986 c 3 § 10.]

70.146.090 Grants and loans to local governments—Statement of environmental benefits—Development of outcome-focused performance measures. In providing grants and loans to local governments, the department shall require recipients to incorporate the environmental benefits of the project into their applications, and the department shall utilize the statement of environmental benefits in its grant and loan prioritization and selection process. The department shall also develop appropriate outcome-focused performance measures to be used both for management and performance assessment of the grant and loan program. To the extent possible, the department should coordinate its performance measure system with other natural resource-related agencies as defined in RCW 43.41.270. The department shall consult with affected interest groups in implementing this section. [2001 c 227 § 6.]

Findings—Intent—2001 c 227: See note following RCW 43.41.270.

70.146.110 Puget Sound partners. When making grants or loans for water pollution control facilities under RCW 70.146.070, the department shall give preference only to Puget Sound partners, as defined in RCW 90.71.010, in comparison to other entities that are eligible to be included in the definition of Puget Sound partner. Entities that are not eligible to be a Puget Sound partner due to geographic location, composition, exclusion from the scope of the action agenda developed by the Puget Sound partnership under RCW 90.71.310, or for any other reason, shall not be given less preferential treatment than Puget Sound partners. 70.148.005 Finding—Intent. (Expires June 1, 2013.)

(1) The legislature finds that:

(a) Final regulations adopted by the United States environmental protection agency (EPA) require owners and operators of underground petroleum storage tanks to demonstrate financial responsibility for accidental releases of petroleum as a precondition to continued ownership and operation of such tanks;

(b) Financial responsibility is demonstrated through the purchase of pollution liability insurance or an acceptable alternative such as coverage under a state financial responsibility program, in the amount of at least five hundred thousand dollars per occurrence and one million dollars annual
aggregate depending upon the nature, use, and number of tanks owned or operated;

(c) Many owners and operators of underground petroleum storage tanks cannot purchase pollution liability insurance either because private insurance is unavailable at any price or because owners and operators cannot meet the rigid underwriting standards of existing insurers, nor can many owners and operators meet the strict regulatory standards imposed for alternatives to the purchase of insurance; and

(d) Without a state financial responsibility program for owners and operators of underground petroleum storage tanks, many tank owners and operators will be forced to discontinue the ownership and operation of these tanks.

(2) The purpose of this chapter is to create a state financial responsibility program meeting EPA standards for owners and operators of underground petroleum storage tanks in a manner that:

(a) Minimizes state involvement in pollution liability claims management and insurance administration;

(b) Protects the state of Washington from unwanted and unanticipated liability for accidental release claims;

(c) Creates incentives for private insurers to provide needed liability insurance; and

(d) Parallels generally accepted principles of insurance and risk management.

To that end, this chapter establishes a temporary program to provide pollution liability reinsurance at a price that will encourage a private insurance company or risk retention group to sell pollution liability insurance in accordance with the requirements of this chapter to owners and operators of underground petroleum storage tanks, thereby allowing the owners and operators to comply with the financial responsibility regulations of the EPA.

(3) It is not the intent of this chapter to permit owners and operators of underground petroleum storage tanks to obtain pollution liability insurance without regard to the quality or condition of their storage tanks or without regard to the risk management practices of tank owners and operators, nor is it the intent of this chapter to provide coverage or funding for past or existing petroleum releases. Further, it is the intent of the legislature that the program follow generally accepted insurance underwriting and actuarial principles and to deviate from those principles only to the extent necessary and within the tax revenue limits provided, to make pollution liability insurance reasonably affordable and available to owners and operators who meet the requirements of this chapter, particularly to those owners and operators whose underground storage tanks meet a vital economic need within the affected community. [1990 c 64 § 1; 1989 c 383 § 1.]

70.148.010 Definitions. (Expires June 1, 2013.)

Unless the context requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Accidental release" means any sudden or nonsudden release of petroleum arising from operating an underground storage tank that results in a need for corrective action, bodily injury, or property damage neither expected nor intended by the owner or operator.

(2) "Director" means the Washington pollution liability insurance program director.
tion), partnership, association, consortium, joint venture, commercial entity, state, municipality, commission, political subdivision of a state, interstate body, the federal government, or any department or agency of the federal government.

14. "Petroleum" means crude oil or any fraction of crude oil that is liquid at standard conditions of temperature and pressure, which means at sixty degrees Fahrenheit and 14.7 pounds per square inch absolute and includes gasoline, kerosene, heating oils, and diesel fuels.

15. "Property damage" means:
   (a) Physical injury to, destruction of, or contamination of tangible property, including the loss of use of the property resulting from the injury, destruction, or contamination; or
   (b) Loss of use of tangible property that has not been physically injured, destroyed, or contaminated but has been evacuated, withdrawn from use, or rendered inaccessible because of an accidental release.

16. "Release" means the emission, discharge, disposal, dispersal, seepage, or escape of petroleum from an underground storage tank into or upon land, groundwater, surface water, subsurface soils, or the atmosphere.

17. "Surplus reserve" means the amount traditionally set aside by commercial property and casualty insurance companies to provide financial protection from unexpected losses and to serve, in part, as a measure of an insurance company’s net worth.

18. "Tank" means a stationary device, designed to contain an accumulation of petroleum, that is constructed primarily of nonearthen materials such as wood, concrete, steel, or plastic that provides structural support.

19. "Underground storage tank" means any one or a combination of tanks including underground pipes connected to the tank, that is used to contain an accumulation of petroleum and the volume of which (including the volume of the underground pipes connected to the tank) is ten percent or more beneath the surface of the ground. [1990 c 64 § 1; 1989 c 383 § 2.]

### 70.148.020 Pollution liability insurance program trust account. (Expires June 1, 2013.)

1. The pollution liability insurance program trust account is established in the custody of the state treasurer. All funds appropriated for this chapter and all premiums collected for reinsurance shall be deposited in the account. Expenditures from the account shall be used exclusively for the purposes of this chapter including payment of costs of administering the pollution liability insurance and underground storage tank community assistance programs. Expenditures for payment of administrative and operating costs of the agency are subject to the allotment procedures under chapter 43.88 RCW and may be made only after appropriation by statute. No appropriation is required for other expenditures from the account.

2. Each calendar quarter, the director shall report to the insurance commissioner the loss and surplus reserves required for the calendar quarter. The director shall notify the department of revenue of this amount by the fifteenth day of each calendar quarter.

3. Each calendar quarter the director shall determine the amount of reserves necessary to fund commitments made to provide financial assistance under RCW 70.148.130 to the extent that the financial assistance reserves do not jeopardize the operations and liabilities of the pollution liability insurance program. The director shall notify the department of revenue of this amount by the fifteenth day of each calendar quarter. The director may immediately establish an initial financial assistance reserve of five million dollars from available revenues. The director may not expend more than fifteen million dollars for the financial assistance program.

4. During the 2005-2007 fiscal biennium, the legislature may transfer from the pollution liability insurance program trust account to the state general fund such amounts as reflect the excess fund balance of the account.

### 70.148.025 Reinsurance for heating oil pollution liability protection program. (Expires June 1, 2013.)

The director shall provide reinsurance through the pollution liability insurance program trust account to the heating oil pollution liability protection program under chapter 70.149 RCW. [1995 c 20 § 12.]

#### See notes following RCW 70.148.120.

### 70.148.030 Pollution liability insurance program—Generally.—Ad hoc committees. (Expires June 1, 2013.)

1. The Washington pollution liability insurance program is created as an independent agency of the state. The administrative head and appointing authority of the program shall be the director who shall be appointed by the governor, with the consent of the senate, and shall serve at the pleasure of the governor. The salary for this office shall be set by the governor pursuant to RCW 43.03.040. The director shall appoint a deputy director. The director, deputy director, and up to three other employees are exempt from the civil service law, chapter 41.06 RCW.

2. The director shall employ such other staff as are necessary to fulfill the responsibilities and duties of the director. The staff is subject to the civil service law, chapter 41.06 RCW. In addition, the director may contract with third parties for services necessary to carry out its activities where this will promote economy, avoid duplication of effort, and make best use of available expertise. To the extent necessary to protect the state from unintended liability and ensure quality program and contract design, the director shall contract with an organization or organizations with demonstrated experience and ability in managing and designing pollution liability insurance and with an organization or organizations with demonstrated experience and ability in managing and designing pollution liability reinsurance. The director shall enter into such contracts after competitive bid but need not select the lowest bid. Any such contractor or consultant is prohibited from releasing, publishing, or otherwise using any information made available to it under its contractual responsibility without specific permission of the program director. The director may call upon other agencies of the state to provide technical support and available information as necessary to

[Title 70 RCW— page 470] (2008 Ed.)
assist the director in meeting the director’s responsibilities under this chapter. Agencies shall supply this support and information as promptly as circumstances permit.

(3) The director may appoint ad hoc technical advisory committees to obtain expertise necessary to fulfill the purposes of this chapter. [1994 sp.s. c 9 § 805; 1990 c 64 § 4; 1989 c 383 § 4.]

Severability—Headings and captions not law—Effective date—1994 sp.s. c 9: See RCW 18.79.900 through 18.79.902.

70.148.035 Program design—Cost coverage. (Expires June 1, 2013.) The director may design the program to cover the costs incurred in determining whether a proposed applicant for pollution insurance under the program meets the underwriting standards of the insurer. In covering such costs the director shall consider the financial resources of the applicant, shall take into consideration the economic impact of the discontinued use of the applicant’s storage tank upon the affected community, shall provide coverage within the revenue limits provided under this chapter, and shall limit coverage of such costs to the extent that coverage would be detrimental to providing affordable insurance under the program. [1990 c 64 § 11.]

70.148.040 Rules. (Expires June 1, 2013.) The director may adopt rules consistent with this chapter to carry out the purposes of this chapter. All rules shall be adopted in accordance with chapter 34.05 RCW. [1990 c 64 § 5; 1989 c 383 § 5.]

70.148.050 Powers and duties of director. (Expires June 1, 2013.) The director has the following powers and duties:

(1) To design and from time to time revise a reinsurance contract providing coverage to an insurer meeting the requirements of this chapter. Before initially entering into a reinsurance contract, the director shall prepare an actuarial report describing the various reinsurance methods considered by the director and describing each method’s costs. In designing the reinsurance contract the director shall consider common insurance industry reinsurance contract provisions and shall design the contract in accordance with the following guidelines:

(a) The contract shall provide coverage to the insurer for the liability risks of owners and operators of underground storage tanks for third party bodily injury and property damage and corrective action that are underwritten by the insurer.

(b) In the event of an insolvency of the insurer, the reinsurance contract shall provide reinsurance payable directly to the insurer or to its liquidator, receiver, or successor on the basis of the liability of the insurer in accordance with the reinsurance contract. In no event may the program be liable for or provide coverage for that portion of any covered loss that is the responsibility of the insurer whether or not the insurer is able to fulfill the responsibility.

(c) The total limit of liability for reinsurance coverage shall not exceed one million dollars per occurrence and two million dollars annual aggregate for each policy underwritten by the insurer less the ultimate net loss retained by the insurer as defined and provided for in the reinsurance contract.

(d) Disputes between the insurer and the insurance program shall be settled through arbitration.

(2) To design and implement a structure of periodic premiums due the director from the insurer that takes full advantage of revenue collections and projected revenue collections to ensure affordable premiums to the insured consistent with sound actuarial principles.

(3) To periodically review premium rates for reinsurance to determine whether revenue appropriations supporting the program can be reduced without substantially increasing the insured’s premium costs.

(4) To solicit bids from insurers and select an insurer to provide pollution liability insurance to owners and operators of underground storage tanks for third party bodily injury and property damage and corrective action.

(5) To monitor the activities of the insurer to ensure compliance with this chapter and protect the program from excessive loss exposure resulting from claims mismanagement by the insurer.

(6) To monitor the success of the program and periodically make such reports and recommendations to the legislature as the director deems appropriate, and to annually publish a financial report on the pollution liability insurance program trust account showing, among other things, administrative and other expenses paid from the fund.

(7) To annually report the financial and loss experience of the insurer as to policies issued under the program and the financial and loss experience of the program to the legislature.

(8) To enter into contracts with public and private agencies to assist the director in his or her duties to design, revise, monitor, and evaluate the program and to provide technical or professional assistance to the director.

(9) To examine the affairs, transactions, accounts, records, documents, and assets of insurers as the director deems advisable. [2006 c 276 § 2; 1998 c 245 § 115; 1995 c 12 § 1; 1990 c 64 § 6; 1989 c 383 § 6.]

Effective date—1995 c 12: “This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately [April 12, 1995].” [1995 c 12 § 3.]

70.148.060 Disclosure of reports and information—Penalty. (Expires June 1, 2013.) (1) All examination and proprietary reports and information obtained by the director and the director’s staff in soliciting bids from insurers and in monitoring the insurer selected by the director shall not be made public or otherwise disclosed to any person, firm, corporation, agency, association, governmental body, or other entity.

(2) Subsection (1) of this section notwithstanding, the director may furnish all or part of examination reports prepared by the director or by any person, firm, corporation, association, or other entity preparing the reports on behalf of the director to:

(a) The Washington state insurance commissioner;

(b) A person or organization officially connected with the insurer as officer, director, attorney, auditor, or independent attorney or independent auditor; and

(c) The attorney general in his or her role as legal advisor to the director.

(2008 Ed.)
(3) Subsection (1) of this section notwithstanding, the director may furnish all or part of the examination or proprietary reports or information obtained by the director to:

Part headings not law—Effective date—2005 c 274: See RCW 42.56.901 and 42.56.902.

70.148.070 Insurer selection process and criteria. (Expires June 1, 2013.) (1) In selecting an insurer to provide pollution liability insurance coverage to owners and operators of underground storage tanks, the director shall evaluate bids based upon criteria established by the director that shall include:

(a) The insurer’s ability to underwrite pollution liability insurance;
(b) The insurer’s ability to settle pollution liability claims quickly and efficiently;
(c) The insurer’s ability to manage and invest premiums; and
(d) The insurer’s ability to provide risk management guidance to insureds.

The director shall select the bidder most qualified to provide insurance consistent with this chapter and need not select the bidder submitting the least expensive bid. The director may consider bids by groups of insurers and management companies who propose to act in concert in providing coverage and who otherwise meet the requirements of this chapter.

(2) The successful bidder shall agree to provide liability insurance coverage to owners and operators of underground storage tanks for third party bodily injury and property damage and corrective action consistent with the following minimum standards:

(a) The insurer shall provide coverage for defense costs.
(b) The insurer shall collect a deductible from the insured for corrective action in an amount approved by the director.
(c) The insurer shall provide coverage for accidental releases in the amount of five hundred thousand dollars per occurrence and one million dollars annual aggregate but no more than one million dollars per occurrence and two million dollars annual aggregate exclusive of defense costs.
(d) The insurer shall require insurance applicants to meet at least the following underwriting standards before issuing coverage to the applicant:

(i) The applicant must be in compliance with statutes, ordinances, rules, regulations, and orders governing the ownership and operation of underground storage tanks as identified by the director by rule; and

(ii) The applicant must exercise adequate underground storage tank risk management as specified by the director by rule.

(e) The insurer may exclude coverage for losses arising before the effective date of coverage, and the director may adopt rules establishing standards for determining whether a loss was incurred before the effective date of coverage.

(f) The insurer may exclude coverage for bodily injury, property damage, and corrective action as permitted by the director by rule.

The director may furnish all or part of the examination or proprietary information obtained by the director to:

(a) The applicant as part of the evaluation of bids by the director;
(b) A person, firm, corporation, association, governmental body, or other entity with whom the director has contracted for services necessary to perform his or her official duties.

(5) Owners and operators of underground storage tanks or sites containing underground storage tanks where a preexisting release has been identified or where the owner or operator knows of a preexisting release are eligible for coverage under the program subject to the following conditions:

(a) The owner or operator must have a plan for proceeding with corrective action; and
(b) If the owner or operator files a claim with the insurer, the owner or operator has the burden of proving that the claim is not related to a preexisting release until the owner or operator demonstrates to the satisfaction of the director that corrective action has been completed.

(6) When a reinsurance contract has been entered into by the agency and insurance companies, the director shall notify the department of ecology of the letting of the contract. Within thirty days of that notification, the department of ecology shall notify all known owners and operators of petroleum underground storage tanks that proper levels of financial responsibility must be established by October 26, 1990, in accordance with federal environmental protection agency requirements, and that insurance under the program is available. All owners and operators of petroleum underground storage tanks must also be notified of the declaration of method of financial responsibility or intent to seek to be insured.

70.148.080 Cancellation or refusal by insurer—Appeal. (Expires June 1, 2013.) If the insurer cancels or refuses to issue or renew a policy, the affected owner or operator may appeal the insurer’s decision to the director. The director shall conduct a brief adjudicative proceeding under chapter 34.05 RCW. [1990 c 64 § 9; 1989 c 383 § 9.]

70.148.090 Exemptions from Title 48 RCW—Exceptions. (Expires June 1, 2013.) (1) The activities and operations of the program are exempt from the provisions and requirements of Title 48 RCW and to the extent of their participation in the program, the activities and operations of the insurer selected by the director to provide liability insurance coverage to owners and operators of underground storage tanks are exempt from the requirements of Title 48 RCW except for:

(a) Chapter 48.03 RCW pertaining to examinations;
(b) RCW 48.05.250 pertaining to annual reports;
(c) Chapter 48.12 RCW pertaining to assets and liabilities;

(2) To the extent of their participation in the program, the insurer selected by the director to provide liability insurance coverage to owners and operators of underground storage tanks shall not participate in the Washington insurance guaranty association nor shall the association be liable for coverage provided to owners and operators of underground storage tanks issued in connection with the program. [1990 c 64 § 10; 1989 c 383 § 10.]

70.148.110 Reservation of legislative power. (Expires June 1, 2013.) The legislature reserves the right to amend or repeal all or any part of this chapter at any time, and there is no vested right of any kind against such amendment or repeal. All the rights, privileges, or immunities conferred by this chapter or any acts done under it exist subject to the power of the legislature to amend or repeal this chapter at any time. [1989 c 383 § 12.]

70.148.120 Financial assistance for corrective actions in small communities—Intent. (Expires June 1, 2013.) The legislature recognizes as a fundamental government purpose the need to protect the environment and human health and safety. To that end the state has enacted laws designed to limit and prevent environmental damage and risk to public health and safety caused by underground petroleum storage tank leaks. Because of the costs associated with compliance with such laws and the high costs associated with correcting past environmental damage, many owners and operators of underground petroleum storage tanks have discontinued the use of or have planned to discontinue the use of such tanks. As a consequence, isolated communities face the loss of their source of motor vehicle fuel and face the risk that the owner or operator will have insufficient funds to take corrective action for pollution caused by past leaks from the tanks. In particular, rural communities face the risk that essential emergency, medical, fire and police services may be disrupted through the diminution or elimination of local sellers of petroleum products and by the closure of underground storage tanks owned by local government entities serving these communities.

The legislature also recognizes as a fundamental government purpose the need to preserve a minimum level of economic viability in rural communities so that public revenues generated from economic activity are sufficient to sustain necessary governmental functions. The closing of local service stations adversely affects local economies by reducing or eliminating reasonable access to fuel for agricultural, commercial, recreational, and transportation needs.

The legislature intends to assist small communities within this state by authorizing:

(1) Cities, towns, and counties to certify that a local private owner or operator of an underground petroleum storage tank meets a vital local government, public health or safety need thereby qualifying the owner or operator for state financial assistance in complying with environmental regulations and assistance in taking needed corrective action for existing tank leaks; and

(2) Local government entities to obtain state financial assistance to bring local government underground petroleum storage tanks into compliance with environmental regulations and to take needed corrective action for existing tank leaks. [2005 c 428 § 1; 1991 c 4 § 1.]

Severability—1991 c 4: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1991 c 4 § 10.]

70.148.130 Financial assistance—Criteria. (Expires June 1, 2013.) (1) Subject to the conditions and limitations of RCW 70.148.120 through 70.148.170, the director shall establish and manage a program for providing financial assistance to public and private owners and operators of underground storage tanks who have been certified by the governing body of the county, city, or town in which the tanks are located as meeting a vital local government, public health or safety need. In providing such financial assistance the director shall:

(a) Require owners and operators, including local government owners and operators, to demonstrate serious financial hardship;

(b) Limit assistance to only that amount necessary to supplement applicant financial resources;

(c) Limit assistance to no more than two hundred thousand dollars in value for any one underground storage tank

(2008 Ed.)
site of which amount no more than seventy-five thousand dollars in value may be provided for corrective action; and

(d) Whenever practicable, provide assistance through the direct payment of contractors and other professionals for labor, materials, and other services.

(2)(a) Except as otherwise provided in RCW 70.148.120 through 70.148.170, no grant of financial assistance may be used for any purpose other than for corrective action and repair, replacement, reconstruction, and improvement of underground storage tanks and tank sites. If at any time prior to providing financial assistance or in the course of providing such assistance, it appears to the director that corrective action costs may exceed seventy-five thousand dollars, the director may not provide further financial assistance until the owner or operator has developed and implemented a corrective action plan with the department of ecology.

(b) A grant of financial assistance may also be made to an owner or operator that has discontinued using underground petroleum storage tanks due to economic hardship. An owner or operator may receive a grant up to two hundred thousand dollars per retailing location if:

(i) The property is located in an underserved rural area;
(ii) The property was previously used by a private owner or operator to provide motor vehicle fuel; and
(iii) The property is at least ten miles from the nearest motor vehicle fuel service station.

(3) When requests for financial assistance exceed available funds, the director shall give preference to providing assistance first to those underground storage tank sites which constitute the sole source of petroleum products in remote rural communities.

(4) The director shall consult with the department of ecology in approving financial assistance for corrective action to ensure compliance with regulations governing underground petroleum storage tanks and corrective action.

(5) The director shall approve or disapprove applications for financial assistance within sixty days of receipt of a completed application meeting the requirements of RCW 70.148.120 through 70.148.170. The certification by local government of an owner or operator shall not preclude the director from disapproving an application for financial assistance if the director finds that such assistance would not meet the purposes of RCW 70.148.120 through 70.148.170.

(6) The director may adopt all rules necessary to implement the financial assistance program and shall consult with the technical advisory committee established under RCW 70.148.030 in developing such rules and in reviewing applications for financial assistance. [2005 c 428 § 2; 1991 c 4 § 70.148.030 in developing such rules and in reviewing applications for financial assistance if the director makes a preliminary determination of possible eligibility for financial assistance, apply to the appropriate governing body of the city or town in which the tanks are located or in the case where the tanks are located outside of the jurisdiction of a city or town, then to the appropriate governing body of the county in which the tanks are located, for a determination by the governing body of the city, town, or county that the continued operation of the tanks meets a vital local government, or public health or safety need; and

(c) Qualify for insurance coverage from the pollution liability insurance program if such financial assistance were to be provided.

(2) In consideration for financial assistance and prior to receiving such assistance the owner and operator must enter into an agreement with the state whereby the owner and operator agree:

(a) To sell petroleum products to the public;
(b) To maintain the tank site for use in the retail sale of petroleum products for a period of not less than fifteen years from the date of agreement;
(c) To sell petroleum products to local government entities within the affected community on a cost-plus basis periodically negotiated between the owner and operator and the city, town, or county in which the tanks are located; and
(d) To maintain compliance with state underground storage tank financial responsibility and environmental regulations.

(3) The agreement shall be filed as a real property lien against the tank site with the county auditor of the county in which the tanks are located. If the owner or operator transfers his or her interest in such property, the new owner or operator must agree to abide by the agreement or any financial assistance provided under RCW 70.148.120 through 70.148.170 shall be immediately repaid to the state by the owner or operator who received such assistance.

(4) As determined by the director, if an owner or operator materially breaches the agreement, any financial assistance provided shall be immediately repaid by such owner or operator.

(5) The agreement between an owner and operator and the state required under this section shall expire fifteen years from the date of entering into the agreement. [1991 c 4 § 3.]

Severability—1991 c 4: See note following RCW 70.148.120.

70.148.150 Financial assistance—Public owner or operator. (Expires June 1, 2013.) (1) To qualify for financial assistance, a public owner or operator must:

(a) First apply for insurance from the pollution liability insurance program and request financial assistance in a form and manner required by the director;
(b) Provide to the director a copy of the resolution by the governing body of the city, town, or county having jurisdiction, finding that the continued operation of the tanks is necessary to maintain vital local public health, education, or safety needs;
(c) Qualify for insurance coverage from the pollution liability insurance program if such financial assistance were to be provided.

(2) The director shall give priority to and shall encourage local government entities to consolidate multiple operational underground storage tank sites into as few sites as possible.

[Title 70 RCW—page 474]
For this purpose, the director may provide financial assistance for the establishment of a new local government underground storage tank site contingent upon the closure of other operational sites in accordance with environmental regulations. Within the per site financial limits imposed under RCW 70.148.120 through 70.148.170, the director may authorize financial assistance for the closure of operational sites when closure is for the purpose of consolidation. [1991 c 4 § 4.]

Severability—1991 c 4: See note following RCW 70.148.120.

70.148.160 Financial assistance—Rural hospitals. (Expires June 1, 2013.) To qualify for financial assistance, a rural hospital as defined in *RCW 18.89.020, owning or operating an underground storage tank must:

(1) First apply for insurance from the pollution liability insurance program and request financial assistance in a form and manner required by the director;

(2) Apply to the governing body of the city, town, or county in which the hospital is located for certification that the continued operation of the tank or tanks is necessary to maintain vital local public health or safety needs;

(3) Qualify for insurance coverage from the pollution liability insurance program if such financial assistance were to be provided; and

(4) Agree to provide charity care as defined in **RCW 70.39.020 in an amount of equivalent value to the financial assistance provided under RCW 70.148.120 through 70.148.170. The director shall consult with the department of health to monitor and determine the time period over which such care should be expected to be provided in the local community. [1991 c 4 § 5.]

Reviser’s note: *(1) RCW 18.89.020 was amended by 1997 c 334 § 3, deleting the definition of “rural hospital.”

**(2) RCW 70.39.020 was repealed by 1982 c 223 § 10, effective June 30, 1990.

Severability—1991 c 4: See note following RCW 70.148.120.

70.148.170 Certification. (Expires June 1, 2013.) (1) The director shall develop and distribute to appropriate cities, towns, and counties a form for use by the local government in making the certification required for all private owner and operator financial assistance along with instructions on the use of such form.

(2) In certifying a private owner or operator retailing petroleum products to the public as meeting vital local government, public health or safety needs, the local government shall:

(a) Consider and find that other retail suppliers of petroleum products are located remote from the local community;

(b) Consider and find that the owner or operator requesting certification is capable of faithfully fulfilling the agreement required for financial assistance;

(c) Designate the local government official who will be responsible for negotiating the price of petroleum products to be sold on a cost-plus basis to the local government entities in the affected communities and the entities eligible to receive petroleum products at such price; and

(d) State the vital need or needs that the owner or operator meets.

(3) In certifying a hospital as meeting local public health and safety needs the local government shall:

(a) Consider and find that the continued use of the underground storage tank by the hospital is necessary; and

(b) Consider and find that the hospital provides health care services to the poor and otherwise provides charity care.

(4) The director shall notify the governing body of the city, town, or county providing certification when financial assistance for a private owner or operator has been approved. [1991 c 4 § 6.]

Severability—1991 c 4: See note following RCW 70.148.120.

70.149.010 Intent—Findings. (Expires June 1, 2013.) It is the intent of the legislature to establish a temporary regulatory program to assist owners and operators of heating oil tanks. The legislature finds that it is in the best interests of all citizens for heating oil tanks to be operated safely and for tank leaks or spills to be dealt with expeditiously. The legislature further finds that it is necessary to protect tank owners from the financial hardship related to damaged heating oil tanks. The problem is especially acute because owners and operators of heating oil tanks used for space heating have been unable to obtain pollution liability insurance or insurance has been unaffordable. [1995 c 20 § 1.]
(1) "Accidental release" means a sudden or non-sudden release of heating oil, occurring after July 23, 1995, from operating a heating oil tank that results in bodily injury, property damage, or a need for corrective action, neither expected nor intended by the owner or operator.

(2) "Bodily injury" means bodily injury, sickness, or disease sustained by a person, including death at any time, resulting from the injury, sickness, or disease.

(3)(a) "Corrective action" means those actions reasonably required to be undertaken by the insured to remove, treat, neutralize, contain, or clean up an accidental release in order to comply with a statute, ordinance, rule, regulation, directive, order, or similar legal requirement, in effect at the time of an accidental release, of the United States, the state of Washington, or a political subdivision of the United States or the state of Washington. "Corrective action" includes, where agreed to in writing, in advance by the insurer, action to remove, treat, neutralize, contain, or clean up an accidental release to avert, reduce, or eliminate the liability of the insured for corrective action, bodily injury, or property damage. "Corrective action" also includes actions reasonably necessary to monitor, assess, and evaluate an accidental release.

(b) "Corrective action" does not include:

(i) Replacement or repair of heating oil tanks or other receptacles; or

(ii) Replacement or repair of piping, connections, and valves of tanks or other receptacles.

(4) "Defense costs" include the costs of legal representation, expert fees, and related costs and expenses incurred in defending against claims or actions brought by or on behalf of:

(a) The United States, the state of Washington, or a political subdivision of the United States or state of Washington to require corrective action or to recover costs of corrective action; or

(b) A third party for bodily injury or property damage caused by an accidental release.

(5) "Director" means the director of the Washington state pollution liability insurance agency or the director's appointed representative.

(6) "Heating oil" means any petroleum product used for space heating in oil-fired furnaces, heaters, and boilers, including stove oil, diesel fuel, or kerosene. "Heating oil" does not include petroleum products used as fuels in motor vehicles, marine vessels, trains, buses, aircraft, or any off-highway equipment not used for space heating, or for industrial processing or the generation of electrical energy.

(7) "Heating oil tank" means a tank and its connecting pipes, whether above or below ground, or in a basement, with pipes connected to the tank for space heating of human living or working space on the premises where the tank is located. "Heating oil tank" does not include a decommissioned or abandoned heating oil tank, or a tank used solely for industrial process heating purposes or generation of electrical energy.

(8) "Occurrence" means an accident, including continuous or repeated exposure to conditions, that results in a release from a heating oil tank.

(9) "Owner or operator" means a person in control of, or having responsibility for, the daily operation of a heating oil tank.

(10) "Pollution liability insurance agency" means the Washington state pollution liability insurance agency.

(11) "Property damage" means:

(a) Physical injury to, destruction of, or contamination of tangible property, including the loss of use of the property resulting from the injury, destruction, or contamination; or

(b) Loss of use of tangible property that has not been physically injured, destroyed, or contaminated but has been evacuated, withdrawn from use, or rendered inaccessible because of an accidental release.

(12) "Release" means a spill, leak, emission, escape, or leaching into the environment.

(13) "Remedial action costs" means reasonable costs that are attributable to or associated with a remedial action.

(14) "Tank" means a stationary device, designed to contain an accumulation of heating oil, that is constructed primarily of nonearth materials such as concrete, steel, fiberglass, or plastic that provides structural support.

70.149.040 Duties of director. (Expires June 1, 2013.)

The director shall:

(1) Design a program, consistent with RCW 70.149.120, for providing pollution liability insurance for heating oil tanks that provides up to sixty thousand dollars per occurrence coverage and aggregate limits, and protects the state of Washington from unwanted or unanticipated liability for accidental release claims;

(2) Administer, implement, and enforce the provisions of this chapter. To assist in administration of the program, the director is authorized to appoint up to two employees who are exempt from the civil service law, chapter 41.06 RCW, and who shall serve at the pleasure of the director;

(3) Administer the heating oil pollution liability trust account, as established under RCW 70.149.070;

(4) Employ and discharge, at his or her discretion, agents, attorneys, consultants, companies, organizations, and employees as deemed necessary, and to prescribe their duties and powers, and fix their compensation;

(5) Adopt rules under chapter 34.05 RCW as necessary to carry out the provisions of this chapter;

(6) Design and from time to time revise a reinsurance contract providing coverage to an insurer or insurers meeting the requirements of this chapter. The director is authorized to provide reinsurance through the pollution liability insurance program trust account;

(7) Solicit bids from insurers and select an insurer to provide pollution liability insurance for third-party bodily injury and property damage, and corrective action to owners and operators of heating oil tanks;

(8) Register, and design a means of accounting for, operating heating oil tanks;

(9) Implement a program to provide advice and technical assistance to owners and operators of active and abandoned heating oil tanks if contamination from an active or abandoned heating oil tank is suspected. Advice and assistance regarding administrative and technical requirements may include observation of testing or site assessment and review.
of the results of reports. If the director finds that contamination is not present or that the contamination is apparently minor and not a threat to human health or the environment, the director may provide written opinions and conclusions on the results of the investigation to owners and operators of active and abandoned heating oil tanks. The agency is authorized to collect, from persons requesting advice and assistance, the costs incurred by the agency in providing such advice and assistance. The costs may include travel costs and expenses associated with review of reports and preparation of written opinions and conclusions. Funds from cost reimbursement must be deposited in the heating oil pollution liability trust account. The state of Washington, the pollution liability insurance agency, and its officers and employees are immune from all liability, and no cause of action arises from any act or omission in providing, or failing to provide, such advice, opinion, conclusion, or assistance;

(10) Establish a public information program to provide information regarding liability, technical, and environmental requirements associated with active and abandoned heating oil tanks;

(11) Monitor agency expenditures and seek to minimize costs and maximize benefits to ensure responsible financial stewardship;

(12) Create an advisory committee of stakeholders to advise the director on all aspects of program operations and fees authorized by this chapter, including pollution prevention programs. The advisory committee must have one member each from the Pacific Northwest oil heat council, the Washington oil marketers association, the western states petroleum association, and the department of ecology and three members from among the owners of home heating oil tanks registered with the pollution liability insurance agency who are generally representative of the geographical distribution and types of registered owners. The committee should meet at least quarterly, or more frequently at the discretion of the director; and

(13) Study if appropriate user fees to supplement program funding are necessary and develop recommendations for legislation to authorize such fees. [2007 c 240 § 1; 2004 c 203 § 1; 1997 c 8 § 1; 1995 c 20 § 4.]

70.150.010 Purpose—Legislative intent. The long-range health and economic and environmental goals for the state of Washington require the protection of the state’s surface and underground waters for the health, safety, use, and
enjoyment of its people. It is the purpose of this chapter to provide public bodies an additional means by which to provide for financing, development, and operation of water pollution control facilities needed for achievement of state and federal water pollution control requirements for the protection of the state's waters.

It is the intent of the legislature that public bodies be authorized to provide service from water pollution control facilities by means of service agreements with public or private parties as provided in this chapter. [1986 c 244 § 1.]

### 70.150.020 Definitions.

Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

1. "Water pollution control facilities" or "facilities" means any facilities, systems, or subsystems owned or operated by a public body, or owned or operated by any person or entity for the purpose of providing service to a public body, for the control, collection, storage, treatment, disposal, or recycling of wastewater, including but not limited to sanitary sewage, storm water, residential wastes, commercial wastes, industrial wastes, and agricultural wastes, that are causing or threatening the degradation of subterranean or surface bodies of water due to concentrations of conventional, nonconventional, or toxic pollutants. Water pollution control facilities do not include dams or water supply systems.

2. "Public body" means the state of Washington or any agency, county, city or town, political subdivision, municipal corporation, or quasi-municipal corporation.

3. "Water pollution" means such contamination, or other alteration of the physical, chemical, or biological properties of any surface or subterranean waters of the state, including change in temperature, taste, color, turbidity, or odor of the waters, or such discharge of any liquid, gaseous, solid, radioactive, or other substance into any waters of the state as will or is likely to create a nuisance or render such waters harmful, detrimental, or injurious to the public health, safety, or welfare, or to domestic, commercial, industrial, agricultural, recreational, or other legitimate beneficial uses, or to livestock, wild animals, birds, fish, or other aquatic life.

4. "Agreement" means any agreement to which a public body and a service provider are parties by which the service provider agrees to deliver service to such public body in connection with its design, financing, construction, ownership, operation, or maintenance of water pollution control facilities in accordance with this chapter.

5. "Service provider" means any privately owned or publicly owned profit or nonprofit corporation, partnership, joint venture, association, or other person or entity that is legally capable of contracting for and providing service with respect to the design, financing, ownership, construction, operation, or maintenance of water pollution control facilities in accordance with this chapter. [1986 c 244 § 2.]

### 70.150.030 Agreements with service providers—Contents—Sources of funds for periodic payments under agreements.

1. Public bodies may enter into agreements with service providers for the furnishing of service in connection with water pollution control facilities pursuant to the process set forth in RCW 70.150.040. The agreements may provide that a public body pay a minimum periodic fee in consideration of the service actually available without regard to the amount of service actually used during all or any part of the contractual period. Agreements may be for a term not to exceed forty years or the life of the facility, whichever is longer, and may be renewable.

2. The source of funds to meet periodic payment obligations assumed by a public body pursuant to an agreement permitted under this section may be paid from taxes, or solely from user fees, charges, or other revenues pledged to the payment of the periodic obligations, or any of these sources. [1986 c 244 § 3.]

### 70.150.040 Service agreements and related agreements—Procedural requirements.

The legislative authority of a public body may secure services by means of an agreement with a service provider. Such an agreement may obligate a service provider to perform one or more of the following services: Design, finance, construct, own, operate, or maintain water pollution control facilities by which services are provided to the public body. Service agreements and related agreements under this chapter shall be entered into in accordance with the following procedure:

1. The legislative authority of the public body shall publish notice that it is seeking to secure certain specified services by means of entering into an agreement with a service provider. The notice shall be published in the official newspaper of the public body, or if there is no official newspaper then in a newspaper in general circulation within the boundaries of the public body, at least once each week for two consecutive weeks. The final notice shall appear not less than thirty days before the date for submission of proposals. The notice shall state (a) the nature of the services needed, (b) the location in the public body’s offices where the requirements and standards for construction, operation, or maintenance of projects needed as part of the services are available for inspection, and (c) the final date for the submission of proposals. The legislative authority may undertake a prequalification process by the same procedure set forth in this subsection.

2. The request for proposals shall (a) indicate the time and place responses are due, (b) include evaluation criteria to be considered in selecting a service provider, (c) specify minimum requirements or other limitations applying to selection, (d) insofar as practicable, set forth terms and provisions to be included in the service agreement, and (e) require the service provider to demonstrate in its proposal to the public body’s satisfaction that it is in the public interest to enter into the service agreement and that the service agreement is financially sound and advantageous to the public body from the standpoint of annual costs, quality of services, experience of the provider, reduction of risk, and other factors.

3. The criteria set forth in the request for proposals shall be those determined to be relevant by the legislative authority of the public body, which may include but shall not be limited to: The respondent’s prior experience, including design, construction, or operation of other similar facilities; respondent’s management capability, schedule availability, and financial resources; cost of the service; nature of facility design proposed by respondents; system reliability; performance standards required for the facilities; compatibility with existing

[Title 70 RCW—page 479]
The legislative authority or its designee shall conduct a bidder’s conference to include all these selected respondents to assure a full understanding of the proposals. The bidder’s conference shall make these selected respondents aware of any changes in the request for proposals. Any information related to revisions in the request for proposal shall be made available to all these selected respondents. Any selected respondent shall be accorded a reasonable opportunity for revision of its proposal prior to commencement of the negotiation provided in subsection (5) of this section, for the purpose of obtaining best and final proposals.

(4) After proposals under subsections (1) through (3) of this section have been received, the legislative authority or its designee shall determine, on the basis of its review of the proposals, whether one or more proposals have been received from respondents which are (a) determined to be qualified to provide the requested services, and (b) responsive to the notice and evaluation criteria, which shall include, but not be limited to, cost of services. These chosen respondents may, at the discretion of the public body, be aggregated into a short list of qualified respondents, who shall be referred to as the selected respondents in this section. The legislative authority or its designee shall conduct a bidder’s conference to include all these selected respondents to assure a full understanding of the proposals. The bidder’s conference shall make these selected respondents aware of any changes in the request for proposal. Any information related to revisions in the request for proposal shall be made available to all these selected respondents. Any selected respondent shall be accorded a reasonable opportunity for revision of its proposal prior to commencement of the negotiation provided in subsection (5) of this section, for the purpose of obtaining best and final proposals.

(5) After such conference is held, the legislative authority or its designee may negotiate with the selected respondent whose proposal it determines to be the most advantageous to the public body, considering the criteria set forth in the request for proposals. If negotiations are conducted by the designee, the legislative authority shall continue to oversee the negotiations and provide direction to its designee. If the negotiation is unsuccessful, the legislative authority may commence negotiations with any other selected respondent. On completion of this process, and after the department of ecology review and comments as provided for in subsection (9) of this section, and after public hearing as provided for in subsection (10) of this section, the legislative authority may approve a contract with its chosen respondent.

(6) Any person aggrieved by the legislative authority’s approval of a contract may appeal the determination to an appeals board selected by the public body, which shall consist of not less than three persons determined by the legislative authority to be qualified for such purposes. Such board shall promptly hear and determine whether the public body entered into the agreement in accordance with this chapter and other applicable law. The board shall have the power only to affirm or void the agreement.

(7) Notwithstanding the foregoing, where contracting for design services by the public body is done separately from contracting for other services permitted under this chapter, the contracting for design services shall be done in accordance with chapter 39.80 RCW.

(8) If a public body elects to enter into an agreement whereby the service provider will own all or a portion of the water pollution control facilities it constructs, the service agreement shall include provision for an option by which a public body may acquire at fair market value facilities dedicated to such service.

(9) Before any service agreement is entered into by the public body, it shall be reviewed by the department of ecology to ensure consistency with the purposes of chapters 90.46 and 90.48 RCW.

The department of ecology has thirty days from receipt of the proposed service agreement to complete its review and provide the public body with comments. A review under this section is not intended to replace any additional permitting or regulatory reviews and approvals that may be required under other applicable laws.

(10) Prior to entering into any service agreement under this chapter, the public body must have made written findings, after holding a public hearing on the proposal, that it is in the public interest to enter into the service agreement and that the service agreement is financially sound and advantageous compared to other methods.

(11) Each service agreement shall include project performance bonds or other security by the service provider which in the judgment of the public body is sufficient to secure adequate performance by the service provider. [2005 c 469 § 1; 1989 c 175 § 136; 1986 c 244 § 4.]

Effective date—1989 c 175: See note following RCW 34.05.010. Competitive bids—Inapplicability to certain agreements: RCW 35.22.625 and 36.32.265.

A public body may sell, lease, or assign public property for fair market value to any service provider as part of a service agreement entered into under the authority of this chapter. The property sold or leased shall be used by the provider, directly or indirectly, in providing services to the public body. Such use may include demolition, modification, or other use of the property as may be necessary to execute the purposes of the service agreement. [1986 c 244 § 5.]

70.150.060 Public body eligible for grants or loans—Use of grants or loans. A public body that enters into a service agreement pursuant to this chapter, under which a facility is owned wholly or partly by a service provider, shall be eligible for grants or loans to the extent permitted by law or regulation as if the entire portion of the facility dedicated to service to such public body were publicly owned. The grants or loans shall be made to and shall inure to the benefit of the public body and not the service provider. Such grants or loans shall be used by the public body for all or part of its ownership interest in the facility, and/or to defray a part of the payments it makes to the service provider under a service agreement if such uses are permitted under the grant or loan program. [1986 c 244 § 6.]

70.150.070 RCW 70.150.030 through 70.150.060 to be additional method of providing services. RCW 70.150.030 through 70.150.060 shall be deemed to provide an additional method for the provision of services from and in connection with facilities and shall be regarded as supple-

(1) The provisions of chapters 39.12, 39.19, and *39.25 RCW shall apply to a service agreement entered into under this chapter to the same extent as if the facilities dedicated to such service were owned by a public body.

(2) Subsection (1) of this section shall not be construed to apply to agreements or actions by persons or entities which are not undertaken pursuant to this chapter.

(3) Except for RCW 39.04.175, this chapter shall not be construed as a limitation or restriction on the application of Title 39 RCW to public bodies.

(4) Prevailing wages shall be established as the prevailing wage in the largest city of the county in which facilities are built. [1986 c 244 § 8.]

**70.155.005** Finding. The legislature finds that while present state law prohibits the sale and distribution of tobacco to minors, youth obtain tobacco products with ease. Availability and lack of enforcement put tobacco products in the hands of youth.

Federal law requires states to enforce laws prohibiting sale and distribution of tobacco products to minors in a manner that can reasonably be expected to reduce the extent to which the products are available to minors. It is imperative to effectively reduce the sale, distribution, and availability of tobacco products to minors. [1993 c 507 § 1.]

A sale of cigarettes shall be a delivery sale regardless of whether the seller is located within or without the state. *Reviser's note: In an order on motion for reconsideration and request for stay pending appeal dated September 25, 2006, the United States District Court for the Western District concluded that chapter 14, Laws of 2006 is preempted by the Federal Cigarette Labeling and Advertising Act, 15 U.S.C. Sec. 1334(b) only in application of the law to cigarette sampling. (Case No. C06-5223, W.D. Wash. 2006.)*

**Finding—Intent—2006 c 14:** See note following RCW 70.155.050.

**70.155.020** Cigarette wholesaler or retailer licensee duties—Prohibition sign to be posted. A person who holds a license issued under RCW 82.24.520 or 82.24.530 shall:

(1) Display the license or a copy in a prominent location at the outlet for which the license is issued; and

(2) Display a sign concerning the prohibition of tobacco sales to minors. Such sign shall:
(a) Be posted so that it is clearly visible to anyone purchasing tobacco products from the licensee;

(b) Be designed and produced by the department of health to read: "THE SALE OF TOBACCO PRODUCTS TO PERSONS UNDER AGE 18 IS STRICTLY PROHIBITED BY STATE LAW. IF YOU ARE UNDER 18, YOU COULD BE PENALIZED FOR PURCHASING A TOBACCO PRODUCT; PHOTO ID REQUIRED"; and

(c) Be provided free of charge by the liquor control board. [1993 c 507 § 3]

70.155.030 Cigarette machine location. No person shall sell or permit to be sold any tobacco product through any device that mechanically dispenses tobacco products unless the device is located fully within premises from which minors are prohibited or in industrial worksites where minors are not employed and not less than ten feet from all entrance or exit ways to and from each premise. The board shall adopt rules that allow an exception to the requirement that a device be located not less than ten feet from all entrance or exit ways to and from a premise if it is architecturally impractical for the device to be located not less than ten feet from all entrance and exit ways. [1994 c 202 § 1; 1993 c 507 § 4.]

70.155.040 Cigarettes must be sold in original package—Exception. No person shall sell or permit to be sold cigarettes not in the original unopened package or container to which the stamps required by RCW 82.24.060 have been affixed.

This section does not apply to the sale of loose leaf tobacco by a retail business that generates a minimum of sixty percent of annual gross sales from the sale of tobacco products. [1993 c 507 § 5.]

70.155.050 Sampling prohibited—Penalty. (1) No person may engage in the business of sampling tobacco products.

(2) A violation of this section is a misdemeanor. [2006 c 14 § 3; 1993 c 507 § 6.]

Reviser's note: In an order on motion for reconsideration and request for stay pending appeal dated September 25, 2006, the United States District Court for the Western District ruled that chapter 14, Laws of 2006 is preempted by the Federal Cigarette Labeling and Advertising Act, 15 U.S.C. Sec. 1334(b) only in application of the law to cigarette sampling. (Case No. C06-5223, W.D. Wash. 2006.)

Finding—Intent—2006 c 14: "The legislature recognizes that tobacco use among children is a serious and preventable health problem. Every day sixty-five children in Washington state become smokers, and every year more than eight thousand two hundred state residents die from tobacco-related illnesses. The legislature further finds that tobacco samples contribute to children’s access to tobacco products by providing a no-cost initiation that encourages minors to experiment with nicotine at early ages. Sampling activity often occurs in venues frequented by minors, and tobacco samples are distributed along with other promotional items that contain tobacco brand logos, thus increasing the appeal of the tobacco products as well as the chances that children will obtain them. Sampling events in this state have increased twenty-fold over the past nine years, and nationwide, tobacco industry spending on samples has increased significantly. It is therefore the intent of the legislature to protect minors from the influence of tobacco sampling by eliminating the distribution of samples in this state." [2006 c 14 § 1.]

70.155.070 Coupons. No person shall give or distribute cigarettes or other tobacco products to a person by a coupon if such coupon is redeemed in any manner that does not require an in-person transaction in a retail store. [1993 c 507 § 8.]

70.155.080 Purchasing, possessing by persons under eighteen—Civil infraction—Jurisdiction. (1) A person under the age of eighteen who purchases or attempts to purchase, possesses, or obtains or attempts to obtain cigarettes or tobacco products commits a class 3 civil infraction under chapter 7.80 RCW and is subject to a fine as set out in chapter 7.80 RCW or participation in up to four hours of community restitution, or both. The court may also require participation in a smoking cessation program. This provision does not apply if a person under the age of eighteen, with parental authorization, is participating in a controlled purchase as part of a liquor control board, law enforcement, or local health department activity.

(2) Municipal and district courts within the state have jurisdiction for enforcement of this section. [2002 c 175 § 47; 1998 c 133 § 2; 1993 c 507 § 9.]

Effective date—2002 c 175: See note following RCW 7.80.130.

Finding—Intent—1998 c 133: "The legislature finds that the protection of adolescents’ health requires a strong set of comprehensive health and law enforcement interventions. We know that youth are deterred from using alcohol in public because of existing laws making possession illegal. However, while the purchase of tobacco by youth is clearly prohibited, the possession of tobacco is not. It is the legislature’s intent that youth hear consistent messages from public entities, including law enforcement, about public opposition to their illegal use of tobacco products." [1998 c 133 § 1.]

70.155.090 Age identification requirement. (1) Where there may be a question of a person’s right to purchase or obtain tobacco products by reason of age, the retailer or agent thereof, shall require the purchaser to present any one of the following officially issued identification that shows the purchaser’s age and bears his or her signature and photograph: (a) Liquor control authority card of identification of a state or province of Canada; (b) driver’s license, instruction permit, or identification card of a state or province of Canada; (c) "identicard" issued by the Washington state department of licensing for Washington drivers’ licenses; (d) United States military identification; (e) passport; (f) enrollment card, issued by the governing authority of a federally recognized Indian tribe located in Washington, that incorporates security features comparable to those implemented by the department of licensing for Washington drivers’ licenses. At least ninety days prior to implementation of an enrollment card under this subsection, the appropriate tribal authority shall give notice to the board. The board shall publish and communicate to licensees regarding the implementation of each new enrollment card; or (g) merchant marine identification card issued by the United States coast guard.

(2) It is a defense to a prosecution under RCW 26.28.080 that the person making a sale reasonably relied on any of the officially issued identification as defined in subsection (1) of this section. The liquor control board shall waive the suspension or revocation of a license if the licensee clearly establishes that he or she acted in good faith to prevent violations and a violation occurred despite the licensee’s exercise of due diligence. [2006 c 14 § 4; 2005 c 206 § 2; 1993 c 507 § 10.]

Reviser’s note: In an order on motion for reconsideration and request for stay pending appeal dated September 25, 2006, the United States District
Court for the Western District ruled that chapter 14, Laws of 2006 is preempted by the Federal Cigarette Labeling and Advertising Act, 15 U.S.C. Sec. 1334(b) only in application of the law to cigarette sampling. (Case No. C06-5223, W.D. Wash. 2006.)

(d) For violations of RCW 70.155.050, a monetary penalty in the amount of three hundred dollars for each violation;

(e) For violations of RCW 70.155.070, a monetary penalty in the amount of one thousand dollars for each violation.

(3) The liquor control board may impose a monetary penalty upon any person other than a licensed cigarette retailer if the liquor control board finds that the person has violated RCW 26.28.080, 70.155.020, 70.155.030, 70.155.040, 70.155.050, 70.155.070, or 70.155.090.

(4) The monetary penalty that the liquor control board may impose based upon one or more findings under subsection (3) of this section may not exceed the following:

(5) The liquor control board may develop and offer a class for retail clerks and use this class in lieu of a monetary penalty for the clerk’s first violation.

(6) The liquor control board may issue a cease and desist order to any person who is found by the liquor control board to have violated or intending to violate the provisions of this chapter, RCW 26.28.080 or 82.24.500, requiring such person to cease specified conduct that is in violation. The issuance of a cease and desist order shall not preclude the imposition of other sanctions authorized by this statute or any other provision of law.

(7) The liquor control board may seek injunctive relief to enforce the provisions of RCW 26.28.080 or 82.24.500 or this chapter. The liquor control board may initiate legal action to collect civil penalties imposed under this chapter if the same have not been paid within thirty days after imposition of such penalties. In any action filed by the liquor control board under this chapter, the court may, in addition to any other relief, award the liquor control board reasonable attorneys’ fees and costs.

(8) All proceedings under subsections (1) through (6) of this section shall be conducted in accordance with chapter 34.05 RCW.

(9) The liquor control board may reduce or waive either the penalties or the suspension or revocation of a license, or both, as set forth in this chapter where the elements of proof are inadequate or where there are mitigating circumstances. Mitigating circumstances may include, but are not limited to, an exercise of due diligence by a retailer. Further, the board may exceed penalties set forth in this chapter based on aggravating circumstances. [2006 c 14 § 5; 1998 c 133 § 3; 1993 c 507 § 11.]

Chapter 70.157 RCW

NATIONAL UNIFORM TOBACCO SETTLEMENT—NONPARTICIPATING TOBACCO PRODUCT MANUFACTURERS

Sections
70.157.005 Findings and purpose.
70.157.010 Definitions.
70.157.020 Requirements.
70.157.030 Contingent expiration date—Court action.

70.157.005 Findings and purpose. (a) Cigarette smoking presents serious public health concerns to the State and to the citizens of the State. The Surgeon General has determined that smoking causes lung cancer, heart disease and other serious diseases, and that there are hundreds of thousands of tobacco-related deaths in the United States each year. These diseases most often do not appear until many years after the person in question begins smoking.

(b) Cigarette smoking also presents serious financial concerns for the State. Under certain health-care programs, the State may have a legal obligation to provide medical assistance to eligible persons for health conditions associated with cigarette smoking, and those persons may have a legal entitlement to receive such medical assistance.

(c) Under these programs, the State pays millions of dollars each year to provide medical assistance for these persons for health conditions associated with cigarette smoking.

(d) It is the policy of the State that financial burdens imposed on the State by cigarette smoking be borne by tobacco product manufacturers rather than by the State to the extent that such manufacturers either determine to enter into

(j) "Units sold" means the number of individual cigarettes sold in the State by the applicable tobacco product manufacturer (whether directly or through a distributor, retailer or similar intermediary or intermediaries) during the year in question, as measured by excise taxes collected by the State on packs bearing the excise tax stamp of the State or "roll-your-own" tobacco containers. (2) A tobacco product manufacturer that places funds into escrow pursuant to paragraph (1) shall receive the interest or other appreciation on such funds as earned. Such funds themselves shall be released from escrow only under the following circumstances—

(A) to pay a judgment or settlement on any released claim brought against such tobacco product manufacturer by the State or any releasing party located or residing in the State. Funds shall be released from escrow under this subparagraph (i) in the order in which they were placed into escrow and (ii) only to the extent and at the time necessary to make payments required under such judgment or settlement;

(B) to the extent that a tobacco product manufacturer establishes that the amount it was required to place into escrow on account of units sold in the state in a particular year was greater than the Master Settlement Agreement payments, as determined pursuant to section IX(i) of that Agreement including after final determination of all adjustments, that such manufacturer would have been required to make on account of such units sold, had it been a Participating Manufacturer, the excess shall be released from escrow and revert back to such tobacco product manufacturer; or

(C) to the extent not released from escrow under subparagraphs (A) or (B), funds shall be released from escrow and revert back to such tobacco product manufacturer twenty-five years after the date on which they were placed into escrow.

70.158.010 Findings. The legislature finds that violations of RCW 70.157.020 threaten the integrity of the tobacco master settlement agreement, the fiscal soundness of the state, and the public health. The legislature finds the enacting procedural enhancements will help prevent violations and aid the enforcement of RCW 70.157.020 and thereby safeguard the master settlement agreement, the fiscal soundness of the state, and the public health. The provisions of chapter 25, Laws of 2003 are not intended to and shall not be interpreted to amend chapter 70.157 RCW. [2003 c 25 § 1.]

70.158.030 Tobacco product manufacturers—Certification—Attorney general to publish directory—Violations. (1) Every tobacco product manufacturer whose cigarettes are sold in this state, whether directly or through a wholesaler, distributor, retailer, or similar intermediary or intermediaries, shall execute and deliver on a form prescribed by the attorney general a certification to the attorney general, no later than the thirtieth day of April each year, certifying under penalty of perjury that, as of the date of such certification, the tobacco product manufacturer is either a participating manufacturer; or is in full compliance with RCW 70.157.020(b)(1), including all payments required by that section or chapter 25, Laws of 2003.

(a) A participating manufacturer shall include in its certification a list of its brand families. The participating manufacturer shall update the list thirty calendar days prior to any addition to or modification of its brand families by executing and delivering a supplemental certification to the attorney general.

(b) A nonparticipating manufacturer shall include in its certification: (i) A list of all of its brand families and the number of units sold for each brand family that were sold in the state during the preceding calendar year; (ii) a list of all of its brand families that have been sold in the state at anytime during the current calendar year; (iii) indicating, by an asterisk, any brand family sold in the state during the preceding calendar year that is no longer being sold in the state as of the date of such certification; and (iv) identifying by name and address any other manufacturer of brand families in the preceding or current calendar year. The nonparticipating manufacturer shall update the list thirty calendar days prior to any addition to or modification of its brand families by executing and delivering a supplemental certification to the attorney general.

(c) In the case of a nonparticipating manufacturer, the certification shall further certify: (i) That the nonparticipating manufacturer is registered to do business in the state or has appointed a resident agent for service of process and provided notice as required by RCW 70.158.040;
(ii) That the nonparticipating manufacturer: (A) Has established and continues to maintain a qualified escrow fund; and (B) has executed a qualified escrow agreement that has been reviewed and approved by the attorney general and that governs the qualified escrow fund;
(iii) That the nonparticipating manufacturer is in full compliance with RCW 70.157.020(b)(1) and this chapter, and any rules adopted pursuant thereto; and (iv)(A) The name, address, and telephone number of the financial institution where the nonparticipating manufacturer has established a qualified escrow fund required pursuant to RCW 70.157.020(b)(1) and all rules adopted thereunder; (B) the account number of the qualified escrow fund and any sub-account number for the state of Washington; (C) the amount the nonparticipating manufacturer placed in the fund for cigarettes sold in the state during the preceding calendar year, the date and amount of each deposit, and evidence or verification as may be deemed necessary by the attorney general to confirm the foregoing; and (D) the amount and date of any withdrawal or transfer of funds the nonparticipating manufacturer made at any time from the fund or from any other qualified escrow fund into which it ever made escrow payments pursuant to RCW 70.157.020(b)(1) and all rules adopted thereunder.
(d) A tobacco product manufacturer may not include a brand family in its certification unless: (i) In the case of a participating manufacturer, the participating manufacturer affirms that the brand family is to be deemed to be its cigarettes for purposes of calculating its payments under the master settlement agreement for the relevant year, in the volume and shares determined pursuant to the master settlement agreement; and (ii) in the case of a nonparticipating manufacturer, the nonparticipating manufacturer affirms that the brand family is to be deemed to be its cigarettes for purposes of RCW 70.157.020(b)(1). Nothing in this section limits or otherwise affects the state’s right to maintain that a brand family constitutes cigarettes of a different tobacco product manufacturer for purposes of calculating payments under the master settlement agreement or for purposes of RCW 70.157.020.
(e) A tobacco product manufacturer shall maintain all invoices and documentation of sales and other information relied upon for such certification for a period of five years, unless otherwise required by law to maintain them for a greater period of time.
(2) Not later than November 1, 2003, the attorney general shall develop and publish on its web site a directory listing all tobacco product manufacturers that have provided current and accurate certifications conforming to the requirements of this section and all brand families that are listed in these certifications, except as noted below:
(a) The attorney general shall not include or retain in the directory the name or brand families of any nonparticipating manufacturer that has failed to provide the required certification or whose certification the attorney general determines is not in compliance with subsection (1)(b) and (c) of this section, unless the attorney general has determined that the violation has been cured to the satisfaction of the attorney general.
(b) Neither a tobacco product manufacturer nor brand family shall be included or retained in the directory if the attorney general concludes, in the case of a nonparticipating manufacturer, that: (i) Any escrow payment required pursuant to RCW 70.157.020(b)(1) for any period for any brand family, whether or not listed by the nonparticipating manufacturer, has not been fully paid into a qualified escrow fund governed by a qualified escrow agreement that has been approved by the attorney general; or (ii) any outstanding final judgment, including interest, for a violation of RCW 70.157.020(b)(1) that has not been fully satisfied for the brand family or manufacturer.
(c) The attorney general shall update the directory as necessary in order to correct mistakes and to add or remove a tobacco product manufacturer or brand family to keep the directory in conformity with the requirements of this chapter.
The attorney general shall, by e-mail or other practicable means to each wholesaler or distributor, notice of any addition to or removal from the directory of any tobacco product manufacturer or brand family. Unless otherwise provided by agreement between the wholesaler or distributor and a tobacco product manufacturer, the wholesaler or distributor shall be entitled to a refund from a tobacco product manufacturer for any money paid by the wholesaler or distributor to the tobacco product manufacturer for any cigarettes of the tobacco product manufacturer still held by the wholesaler or distributor on the date of notice by the attorney general of the removal from the directory of that tobacco product manufacturer or the brand family of the cigarettes. The attorney general shall not restore to the directory the tobacco product manufacturer or the brand family until the tobacco product manufacturer has paid the wholesaler or distributor any refund due.

(d) Every wholesaler and distributor shall provide and update as necessary an electronic mail address to the attorney general for the purpose of receiving any notifications as may be required by this chapter.

(e) A tobacco product manufacturer included in the directory may request that a new brand family be certified and added to the directory. Within forty-five business days of receiving the request, the attorney general will respond by either: (i) Certifying the new brand family; or (ii) denying the request. However, in cases where the attorney general determines that it needs clarification as to whether the requestor is actually the tobacco product manufacturer, the attorney general may take more time as needed to clarify the request, to locate and assemble information or documents needed to process the request, and to notify persons or agencies affected by the request.

(f) The website will state that chapter 25, Laws of 2003 applies only to cigarettes including, pursuant to the definition of "cigarettes" in chapter 25, Laws of 2003, roll-your-own tobacco.

(3) It is unlawful for any person (a) to affix a stamp to a package or other container of cigarettes of a tobacco product manufacturer or brand family not included in the directory, or to pay or cause to be paid the tobacco products tax on any package or container; or (b) to sell, offer, or possess for sale in this state or import for sale in this state, any cigarettes of a tobacco product manufacturer or brand family not included in the directory. [2003 c 25 § 4.]

70.158.050 Reports, records—Confidentiality, disclosures, voluntary waivers—Escrow payments. (1) In addition to the reporting requirements under *RCW 70.157.010(j) and the rules adopted thereunder, not later than twenty-five calendar days after the end of each calendar month, and more frequently if directed by the director, each wholesaler and distributor shall submit information the director requires to facilitate compliance with this chapter, including, but not limited to, a list by brand family of the total number of cigarettes, or, in the case of roll-your-own, the equivalent stick count for which the wholesaler or distributor affixed stamps during the previous calendar month or otherwise paid the tax due for the cigarettes. Each wholesaler and distributor shall maintain and make available to the director, all invoices and documentation of sales of all nonparticipating manufacturer cigarettes and any other information relied upon in reporting to the attorney general or the director for a period of five years.

(2) Information or records required to be furnished to the department, the board, or the attorney general are confidential and shall not be disclosed. However, the director and the board are authorized to disclose to the attorney general any information received under this chapter and requested by the attorney general for purposes of determining compliance with and enforcing the provisions of this chapter. The director, the board, and the attorney general may share with each other the information received under this chapter, and may share information with other federal, state, or local agencies, including without limitation the board, only for purposes of enforcement of this chapter, RCW 70.157.020, or corresponding laws of other states. If a tobacco product manufacturer that is required to establish a qualified escrow fund under RCW 70.157.020 disputes the attorney general’s determination of what that manufacturer needs to place into escrow, and the attorney general determines that the dispute can likely be resolved by disclosing reports from the relevant distributors and wholesalers indicating the sales or purchases

[Title 70 RCW—page 490]
of the tobacco manufacturer’s products, then the attorney general shall request voluntary waivers of confidentiality so that the reports may be disclosed to the tobacco product manufacturer to help resolve the dispute. If the waivers are provided, then the director and the attorney general are authorized to disclose the waived confidential information collected on the sales or purchases of cigarettes to the tobacco product manufacturer. However, before the attorney general or the director discloses the waived confidential information, the tobacco product manufacturer must provide to the attorney general all records relating to its sales or purchases of cigarettes in dispute. The information provided to a tobacco product manufacturer pursuant to this subsection (2) shall be limited to brands or products of that manufacturer only, may be used only for the limited purpose of determining the appropriate escrow deposit, and may not be disclosed by the tobacco product manufacturer.

(3) The attorney general may require at any time from the nonparticipating manufacturer proof, from the financial institution in which the manufacturer has established a qualified escrow fund for the purpose of compliance with RCW 70.157.020(b)(1), of the amount of money in the fund, exclusive of interest, the amount and date of each deposit to the fund, and the amount and date of each withdrawal from the fund.

(4) In addition to the information required to be submitted pursuant to RCW 70.158.030, this section, and chapters 82.24 and 82.26 RCW, the director, the board, or the attorney general may require a wholesaler, distributor, or tobacco product manufacturer to submit any additional information including, but not limited to, samples of the packaging or labeling of each brand family, as is necessary to enable the attorney general to determine whether a tobacco product manufacturer is in compliance with this chapter. If the director, the board, or the attorney general makes a request for information pursuant to this subsection (4), the tobacco product manufacturer, distributor, or wholesaler shall comply promptly.

(5) A nonparticipating manufacturer that either: (a) Has not previously made escrow payments to the state of Washington pursuant to RCW 70.157.020; or (b) has not actually made any escrow payments for more than one year, shall make the required escrow deposits in quarterly installments during the first year in which the sales covered by the deposits are made or in the first year in which the payments are made. The director or the attorney general may require production of information sufficient to enable the attorney general to determine the adequacy of the amount of the installment deposit. [2003 c 25 § 5.]

*Reviser’s note: For rules and reporting requirements adopted pursuant to RCW 70.157.010, see WAC 458-20-264.*

**70.158.070 Attorney general’s directory decision to be final agency action—Due dates for reports, certifications, directory—Rules—Costs—Penalties.** (1) A determination of the attorney general not to include or to remove from the directory a brand family or tobacco product manufacturer is in compliance with this chapter. If the director, the board, or the attorney general makes a request for information pursuant to this subsection (4), the tobacco product manufacturer, distributor, or wholesaler shall comply promptly.

(2) No person shall be issued a license or granted a renewal of a license to act as a wholesaler unless the person has certified in writing under penalty of perjury, that the person will comply fully with this section.

(3) The first reports of wholesalers and distributors are due August 25, 2003. The certifications by a tobacco product manufacturer described in RCW 70.158.030(1) are due September 15, 2003. The directory described in RCW 70.158.030(2) shall be published or made available by November 1, 2003.

(4) The attorney general, the board, and the director may adopt rules as necessary to effect the administration of this chapter.

(5) In any action brought by the state to enforce this chapter, the state is entitled to recover the costs of investigation, expert witness fees, costs of the action, and reasonable attorney fees.

(6) If a court determines that a person has violated this chapter, the court shall order any profits, gain, gross receipts, or other benefit from the violation to be disgorged and paid to the general fund. Unless otherwise expressly provided, the remedies or penalties provided by this chapter are cumulative to each other and to the remedies or penalties available under all other laws of this state. 70.160.011 Findings—Intent—2006 c 2 (Initiative Measure No. 901). The people of the state of Washington recognize that exposure to secondhand smoke is known to cause cancer in humans. Secondhand smoke is a known cause of other diseases including pneumonia, asthma, bronchitis, and heart disease. Citizens are often exposed to secondhand smoke in the workplace, and are likely to develop chronic, potentially fatal diseases as a result of such exposure. In order to protect the health and welfare of all citizens, including workers in their places of employment, it is necessary to prohibit smoking in public places and workplaces. [2006 c 2 § 1 (Initiative Measure No. 901, approved November 8, 2005).]

Captions not law—2006 c 2 (Initiative Measure No. 901): "Captions used in this act are not any part of the law." [2006 c 2 § 8 (Initiative Measure No. 901, approved November 8, 2005).]

70.160.020 Definitions. As used in this chapter, the following terms have the meanings indicated unless the context clearly indicates otherwise.
under this chapter shall prohibit smoking in public places and places of employment and shall post signs prohibiting smoking as appropriate under this chapter. Signs shall be posted conspicuously at each building entrance. In the case of retail stores and retail service establishments, signs shall be posted conspicuously at each entrance and in prominent locations throughout the place. [2006 c 2 § 4 (Initiative Measure No. 901, approved November 8, 2005); 1985 c 236 § 5.]

Captions not law—2006 c 2 (Initiative Measure No. 901): See note following RCW 70.160.011.

70.160.060 Intent of chapter as applied to certain private workplaces. This chapter is not intended to regulate smoking in a private enclosed workplace, within a public place, even though such workplace may be visited by non-smokers, excepting places in which smoking is prohibited by the chief of the Washington state patrol, through the director of fire protection, or by other law, ordinance, or regulation. [2006 c 2 § 2 (Initiative Measure No. 901, approved November 8, 2005); 1985 c 236 § 5.]

Captions not law—2006 c 2 (Initiative Measure No. 901): See note following RCW 70.160.011.

70.160.070 Intentional violation of chapter—Removing, defacing, or destroying required sign—Fine—Notice of infraction—Exceptions—Violations of RCW 70.160.050—Fine—Enforcement. (1) Any person intentionally violating this chapter by smoking in a public place or place of employment, or any person removing, defacing, or destroying a sign required by this chapter, is subject to a civil fine of up to one hundred dollars. Any person passing by or through a public place while on a public sidewalk or public right-of-way has not intentionally violated this chapter. Local law enforcement agencies shall enforce this section by issuing a notice of infraction to be assessed in the same manner as traffic infractions. The provisions contained in chapter 46.63 RCW for the disposition of traffic infractions apply to the disposition of infractions for violation of this subsection except as follows:

(a) The provisions in chapter 46.63 RCW relating to the provision of records to the department of licensing in accordance with RCW 46.20.270 are not applicable to this chapter; and

(b) The provisions in chapter 46.63 RCW relating to the imposition of sanctions against a person’s driver’s license or vehicle license are not applicable to this chapter.

The form for the notice of infraction for a violation of this subsection shall be prescribed by rule of the supreme court.

(2) When violations of RCW 70.160.050 occur, a warning shall first be given to the owner or other person in charge. Any subsequent violation is subject to a civil fine of up to one hundred dollars. Each day upon which a violation occurs or is permitted to continue constitutes a separate violation.

(3) Local health departments shall enforce RCW 70.160.050 regarding the duties of owners or persons in control of public places and places of employment by either of the following actions:

(a) Serving notice requiring the correction of any violation; or

(b) Calling upon the city or town attorney or county prosecutor or local health department attorney to maintain an action for an injunction to enforce RCW 70.160.050, to correct a violation, and to assess and recover a civil penalty for the violation. [2006 c 2 § 5 (Initiative Measure No. 901, approved November 8, 2005); 1985 c 236 § 7.]

Captions not law—2006 c 2 (Initiative Measure No. 901): See note following RCW 70.160.011.

70.160.075 Smoking prohibited within twenty-five feet of public places or places of employment—Application to modify presumptively reasonable minimum distance. Smoking is prohibited within a presumptively reasonable minimum distance of twenty-five feet from entrances, exits, windows that open, and ventilation intakes that serve an enclosed area where smoking is prohibited so as to ensure that tobacco smoke does not enter the area through entrances, exits, open windows, or other means. Owners, operators, managers, employers, or other persons who own or control a public place or place of employment may seek to rebut the presumption that twenty-five feet is a reasonable minimum distance by making application to the director of the local health department or district in which the public place or place of employment is located. The presumption will be rebutted if the applicant can show by clear and convincing evidence that, given the unique circumstances presented by the location of entrances, exits, windows that open, ventilation intakes, or other factors, smoke will not infiltrate or reach the entrances, exits, open windows, or ventilation intakes or enter into such public place or place of employment and, therefore, the public health and safety will be adequately protected by a lesser distance. [2006 c 2 § 6 (Initiative Measure No. 901, approved November 8, 2005).]

70.160.080 Local regulations authorized. Local fire departments or fire districts and local health departments may adopt regulations as required to implement this chapter. [1985 c 236 § 9.]

70.160.100 Penalty assessed under this chapter paid to jurisdiction bringing action. Any penalty assessed and recovered in an action brought under this chapter shall be paid to the city or county bringing the action. [1985 c 236 § 8.]

70.162.005 Finding—Intent. The legislature finds that many Washington residents spend a significant amount of their time working indoors and that exposure to indoor air
pollutants may occur in public buildings, schools, work places, and other indoor environments. Scientific studies indicate that pollutants common in the indoor air may include radon, asbestos, volatile organic chemicals including formaldehyde and benzene, combustion byproducts including carbon monoxide, nitrogen oxides, and carbon dioxide, metals and gases including lead, chlorine, and ozone, respirable particles, tobacco smoke, biological contaminants, microorganisms, and other contaminants. In some circumstances, exposure to these substances may cause adverse health effects, including respiratory illnesses, multiple chemical sensitivities, skin and eye irritations, headaches, and other related symptoms. There is inadequate information about indoor air quality within the state of Washington, including the sources and nature of indoor air pollution.

The intent of the legislature is to develop a control strategy that will improve indoor air quality, provide for the evaluation of indoor air quality in public buildings, and encourage voluntary measures to improve indoor air quality. [1989 c 315 § 1.]

70.164.010 Legislative findings. The legislature finds and declares that weatherization of the residences of low-income households will help conserve energy resources in this state and can reduce the need to obtain energy from more costly conventional energy resources. The legislature also finds that rising energy costs have made it difficult for low-income citizens of the state to afford adequate fuel for residential space heat. Weatherization of residences will lower energy consumption, making space heat more affordable for persons in low-income households. It will also reduce the uncollectible accounts of fuel suppliers resulting from low-income households. It will also reduce the energy consumption, making space heat more affordable for persons in low-income households. It will also reduce the uncollectible accounts of fuel suppliers resulting from low-income customers not being able to pay fuel bills.

The program implementing the policy of this chapter is necessary to support the poor and infirm and also to benefit the health, safety, and general welfare of all citizens of the state. [1987 c 36 § 1.]

70.168.010 Legislative finding. The legislature finds and declares that:
(1) Trauma is a severe health problem in the state of Washington and a major cause of death; (2) Presently, trauma care is very limited in many parts of the state, and health care in rural areas is in transition with the danger that some communities will be without emergency medical care; (3) It is in the best interest of the citizens of Washington state to establish an efficient and well-coordinated statewide emergency medical services and trauma care system to reduce costs and incidence of inappropriate and inadequate trauma care and emergency medical service and minimize the human suffering and costs associated with preventable mortality and morbidity; (4) The goals and objectives of an emergency medical services and trauma care system are to: (a) Pursue trauma prevention activities to decrease the incidence of trauma; (b) provide optimal care for the trauma victim; (c) prevent unnecessary death and disability from trauma and emergency illness; and (d) contain costs of trauma care and trauma system implementation; and (5) In other parts of the United States where trauma care systems have failed and trauma care centers have closed, there is a direct relationship between such failures and closures and a lack of commitment to fair and equitable reimbursement for trauma care participating providers and system overhead costs. [1990 c 269 § 1; 1988 c 183 § 1.]

(4) By July 1, 1992, establish the minimum and maximum number of hospitals and health care facilities in the state and within each emergency medical services and trauma care planning and service region that may provide designated trauma care services based upon approved regional emergency medical services and trauma care plans;

(5) By July 1, 1991, establish the minimum and maximum number of prehospital providers in the state and within each emergency medical services and trauma care planning
and service region that may provide verified trauma care services based upon approved regional emergency medical services and trauma care plans;

(6) By July 1993, begin the designation of hospitals and health care facilities to provide designated trauma care services in accordance with needs identified in the statewide emergency medical services and trauma care plan;

(7) By July 1990, adopt a format for submission of the regional plans to the department;

(8) By July 1991, begin the review and approval of regional emergency medical services and trauma care plans;

(9) By July 1992, prepare regional plans for those regions that do not submit a regional plan to the department that meets the requirements of this chapter;

(10) By October 1992, prepare and implement the statewide emergency medical services and trauma care system plan incorporating the regional plans;

(11) Coordinate the statewide emergency medical services and trauma care system to assure integration and smooth operation between the regions;

(12) Facilitate coordination between the emergency medical services and trauma care steering committee and the emergency medical services licensing and certification advisory committee;

(13) Monitor the statewide emergency medical services and trauma care system;

(14) Conduct a study of all costs, charges, expenses, and levels of reimbursement associated with providers of trauma care services, and provide its findings and any recommendations regarding adequate and equitable reimbursement to trauma care providers to the legislature by July 1, 1991;

(15) Monitor the level of public and private payments made on behalf of trauma care patients to determine whether health care providers have been adequately reimbursed for the costs of care rendered to such persons;

(16) By July 1991, design and establish the statewide trauma care registry as authorized in RCW 70.168.090 to (a) assess the effectiveness of emergency medical services and trauma care delivery, and (b) modify standards and other system requirements to improve the provision of emergency medical services and trauma care;

(17) By July 1991, develop patient outcome measures to assess the effectiveness of emergency medical services and trauma care in the system;

(18) By July 1993, develop standards for regional emergency medical services and trauma care quality assurance programs required in RCW 70.168.090;

(19) Administer funding allocated to the department for the purpose of creating, maintaining, or enhancing the statewide emergency medical services and trauma care system; and

(20) By October 1990, begin coordination and development of trauma prevention and education programs. [1990 c 269 § 8.]

70.168.070 Provision of trauma care service—Designation. Any hospital or health care facility that desires to be authorized to provide a designated trauma care service shall request designation from the department. Designation involves a contractual relationship between the state and a hospital or health care facility whereby each agrees to maintain a level of commitment and resources sufficient to meet responsibilities and standards required by the statewide emergency medical services and trauma care system plan. By January 1992, the department shall determine by rule the manner and form of such requests. Upon receiving a request, the department shall review the request to determine whether the hospital or health care facility is in compliance with standards for the trauma care service or services for which designation is desired. If requests are received from more than one hospital or health care facility within the same emergency medical planning and trauma care planning and service region, the department shall select the most qualified applicant or applicants to be selected through a competitive process. Any applicant not designated may request a hearing to review the decision.

Designations are valid for a period of three years and are renewable upon receipt of a request for renewal prior to expiration from the hospital or health care facility. When an authorization for designation is due for renewal other hospitals and health care facilities in the area may also apply and compete for designation. Regional emergency medical and trauma care councils shall be notified promptly of designated hospitals and health care facilities in their region so they may incorporate them into the regional plan as required by this chapter. The department may revoke or suspend the designation should it determine that the hospital or health care facility is substantially out of compliance with the standards and has refused or been unable to comply after a reasonable period of time has elapsed. The department shall promptly notify the regional emergency medical and trauma care planning and service region of suspensions or revocations. Any facility whose designation has been revoked or suspended may request a hearing to review the action by the department as provided for in chapter 34.05 RCW.

As a part of the process to designate and renew the designation of hospitals authorized to provide level I, II, or III trauma care services or level I, II, and III pediatric trauma care services, the department shall contract for on-site reviews of such hospitals to determine compliance with required standards. The department may contract for on-site reviews of hospitals and health care facilities authorized to provide level IV or V trauma care services or level I, I-pediatric, II, or III trauma-related rehabilitative services to determine compliance with required standards. Members of on-site review teams and staff included in site visits are exempt from chapter 42.56 RCW. They may not divulge and cannot be subpoenaed to divulge information obtained or reports written pursuant to this section in any civil action, except, after in camera review, pursuant to a court order which provides for the protection of sensitive information of interested parties including the department: (1) In actions arising out of the department’s designation of a hospital or health care facility pursuant to this section; (2) in actions arising out of the department’s revocation or suspension of designation status of a hospital or health care facility under this section; or (3) in actions arising out of the restriction or revocation of the clinical or staff privileges of a health care provider as defined in RCW 7.70.020 (1) and (2), subject to any further restrictions on disclosure in RCW 42.44.250 that may apply. Information that identifies individual patients shall not be publicly disclosed without the patient’s consent. When a facility...
requests designation for more than one service, the department may coordinate the joint consideration of such requests.

The department may establish fees to help defray the costs of this section, though such fees shall not be assessed to health care facilities authorized to provide level IV and V trauma care services.

This section shall not restrict the authority of a hospital or a health care provider licensed under Title 18 RCW to provide services which it has been authorized to provide by state law. [2005 c 274 § 343; 1990 c 269 § 9.]

Part headings not law—Effective date—2005 c 274: See RCW 42.56.901 and 42.56.902.

70.168.080 Prehospital trauma care service—Verification—Compliance—Variance. (1) Any provider desiring to provide a verified prehospital trauma care service shall indicate on the licensing application how they meet the standards required for verification as a provider of this service. The department shall notify the regional emergency medical services and trauma care councils of the providers of verified trauma care services in their regions. The department may conduct on-site reviews of prehospital providers to assess compliance with the applicable standards.

(2) Should the department determine that a prehospital provider is substantially out of compliance with the standards, the department shall notify the regional emergency medical services and trauma care council. If the failure of a prehospital provider to comply with the applicable standards results in the region being out of compliance with its regional plan, the council shall take such steps necessary to assure the region is brought into compliance within a reasonable period of time. The council may seek assistance and funding from the department and others to provide training or grants necessary to bring a prehospital provider into compliance. The council may appeal the department for modification of the regional plan if it is unable to assure continued compliance with the regional plan. The department may authorize modification of the plan if such modifications meet the requirements of this chapter. The department may suspend or revoke the authorization of a prehospital provider to provide a verified prehospital service if the provider has refused or been unable to comply after a reasonable period of time has elapsed. The council shall be notified promptly of any revocations or suspensions. Any prehospital provider whose verification has been suspended or revoked may request a hearing to review the action by the department as provided for in chapter 34.05 RCW.

(3) The department may grant a variance from provisions of this section if the department determines: (a) That no detriment to public health and safety will result from the variance, and (b) compliance with provisions of this section will cause a reduction or loss of existing prehospital services. Variances may be granted for a period not to exceed one year. A variance may be renewed by the department. If a renewal is granted, a plan of compliance shall be prepared specifying steps necessary to bring a provider or region into compliance and expected date of compliance.

(4) This section shall not restrict the authority of a provider licensed under Title 18 RCW to provide services which it has been authorized to provide by state law. [1990 c 269 § 10.]

70.168.090 Statewide data registry—Quality assurance program—Confidentiality. (1) By July 1991, the department shall establish a statewide data registry to collect and analyze data on the incidence, severity, and causes of trauma, including traumatic brain injury. The department shall collect additional data on traumatic brain injury should additional data requirements be enacted by the legislature. The registry shall be used to improve the availability and delivery of prehospital and hospital trauma care services. Specific data elements of the registry shall be defined by rule by the department. To the extent possible, the department shall coordinate data collection from hospitals for the trauma registry with the health care data system authorized in chapter 70.170 RCW. Every hospital, facility, or health care provider authorized to provide level I, II, III, IV, or V trauma care services, level I, II, or III pediatric trauma care services, level I, level I-pediatric, II, or III trauma-related rehabilitative services, and prehospital trauma-related services in the state shall furnish data to the registry. All other hospitals and prehospital providers shall furnish trauma data as required by the department by rule.

The department may respond to requests for data and other information from the registry for special studies and analysis consistent with requirements for confidentiality of patient and quality assurance records. The department may require requestors to pay any or all of the reasonable costs associated with such requests that might be approved.

(2) By January 1994, in each emergency medical services and trauma care planning and service region, a regional emergency medical services and trauma care systems quality assurance program shall be established by those facilities authorized to provide levels I, II, and III trauma care services. The systems quality assurance program shall evaluate trauma care delivery, patient care outcomes, and compliance with the requirements of this chapter. The emergency medical services medical program director and all other health care providers and facilities who provide trauma care services within the region shall be invited to participate in the regional emergency medical services and trauma care quality assurance program.

(3) Data elements related to the identification of individual patient’s, provider’s and facility’s care outcomes shall be confidential, shall be exempt from RCW 42.56.030 through 42.56.570 and 42.17.350 through 42.17.450, and shall not be subject to discovery by subpoena or admissible as evidence.

(4) Patient care quality assurance proceedings, records, and reports developed pursuant to this section are confidential, exempt from chapter 42.56 RCW, and are not subject to discovery by subpoena or admissible as evidence. In any civil action, except, after in camera review, pursuant to a court order which provides for the protection of sensitive information of interested parties including the department: (a) In actions arising out of the department’s designation of a hospital or health care facility pursuant to RCW 70.168.070; (b) in actions arising out of the department’s revocation or suspension of designation status of a hospital or health care facility under RCW 70.168.070; or (c) in actions arising out of the restriction or revocation of the clinical or staff privileges of a health care provider as defined in RCW 7.70.020 (1) and (2), subject to any further restrictions on disclosure in RCW 4.24.250 that may apply. Hospital discharge data—Financial reports—Data retrieval—American Indian health data: RCW 43.70.052.

70.170.010 Intent. (1) The legislature finds and declares that there is a need for health care information that helps the general public understand health care issues and how they can be better consumers and that is useful to purchasers, payers, and providers in making health care choices and negotiating payments. It is the purpose and intent of this chapter to establish a hospital data collection, storage, and retrieval system which supports these data needs and which also provides public officials and others engaged in the development of state health policy the information necessary for the analysis of health care issues.

(2) The legislature finds that rising health care costs and access to health care services are of vital concern to the people of this state. It is, therefore, essential that strategies be explored that moderate health care costs and promote access to health care services.

(3) The legislature further finds that access to health care is among the state’s goals and the provision of such care should be among the purposes of health care providers and facilities. Therefore, the legislature intends that charity care requirements and related enforcement provisions for hospitals be explicitly established.

(4) The lack of reliable statistical information about the delivery of charity care is a particular concern that should be addressed. It is the purpose and intent of this chapter to require hospitals to provide, and report to the state, charity care to persons with acute care needs, and to have a state agency both monitor and report on the relative commitment of hospitals to the delivery of charity care services, as well as the relative commitment of public and private purchasers or payers to charity care funding. [1989 1st ex.s. c 9 § 501.]

70.170.020 Definitions. As used in this chapter:

(1) "Department" means department of health.

(2) "Hospital" means any health care institution which is required to qualify for a license under *RCW 70.41.020(2); or as a psychiatric hospital under chapter 71.12 RCW.

(3) "Secretary" means secretary of health.

(4) "Charity care" means necessary hospital health care rendered to indigent persons, to the extent that the persons are unable to pay for the care or to pay deductibles or co-insurance amounts required by a third-party payer, as determined by the department.

(5) "Sliding fee schedule" means a hospital-determined, publicly available schedule of discounts to charges for persons deemed eligible for charity care; such schedules shall be established after consideration of guidelines developed by the department.

(6) "Special studies" means studies which have not been funded through the department’s biennial or other legislative appropriations. [1995 c 269 § 2203; 1989 1st ex.s. c 9 § 502.]

*Reviser’s note: RCW 70.41.020 was amended by 2002 c 116 § 2, changing subsection (2) to subsection (4).
70.170.050 Requested studies—Costs. The department shall have the authority to respond to requests of others for special studies or analysis. The department may require such sponsors to pay any or all of the reasonable costs associated with such requests that might be approved, but in no event may costs directly associated with any such special study be charged against the funds generated by the assessment authorized under RCW 70.170.080. [1989 1st ex.s. c 9 § 505.]

70.170.060 Charity care—Prohibited and required hospital practices and policies—Rules—Department to monitor and report. (1) No hospital or its medical staff shall adopt or maintain admission practices or policies which result in:

(a) A significant reduction in the proportion of patients who have no third-party coverage and who are unable to pay for hospital services;

(b) A significant reduction in the proportion of individuals admitted for inpatient hospital services for which payment is, or is likely to be, less than the anticipated charges for or costs of such services; or

(c) The refusal to admit patients who would be expected to require unusually costly or prolonged treatment for reasons other than those related to the appropriateness of the care available at the hospital.

(2) No hospital shall adopt or maintain practices or policies which would deny access to emergency care based on ability to pay. No hospital which maintains an emergency department shall transfer a patient with an emergency medical condition or who is in active labor unless the transfer is performed at the request of the patient or is due to the limited medical resources of the transferring hospital. Hospitals must follow reasonable procedures in making transfers to other hospitals including confirmation of acceptance of the transfer by the receiving hospital.

(3) The department shall develop definitions by rule, as appropriate, for subsection (1) of this section and, with reference to federal requirements, subsection (2) of this section. The department shall monitor hospital compliance with subsections (1) and (2) of this section. The department shall report individual instances of possible noncompliance to the state attorney general or the appropriate federal agency.

(4) The department shall establish and maintain by rule, consistent with the definition of charity care in RCW 70.170.020, the following:

(a) Uniform procedures, data requirements, and criteria for identifying patients receiving charity care;

(b) A definition of residual bad debt including reasonable and uniform standards for collection procedures to be used in efforts to collect the unpaid portions of hospital charges that are the patient’s responsibility.

(5) For the purpose of providing charity care, each hospital shall develop, implement, and maintain a charity care policy which, consistent with subsection (1) of this section, shall enable people below the federal poverty level access to appropriate hospital-based medical services, and a sliding fee schedule for determination of discounts from charges for persons who qualify for such discounts by January 1, 1990. The department shall develop specific guidelines to assist hospitals in setting sliding fee schedules required by this section. All persons with family income below one hundred percent of the federal poverty standard shall be deemed charity care patients for the full amount of hospital charges, provided that such persons are not eligible for other private or public health coverage sponsorship. Persons who may be eligible for charity care shall be notified by the hospital.

(6) Each hospital shall make every reasonable effort to determine the existence or nonexistence of private or public sponsorship which might cover in full or part the charges for care rendered by the hospital to a patient; the family income of the patient as classified under federal poverty income guidelines; and the eligibility of the patient for charity care as defined in this chapter and in accordance with hospital policy. An initial determination of sponsorship status shall precede collection efforts directed at the patient.

(7) The department shall monitor the distribution of charity care among hospitals, with reference to factors such as relative need for charity care in hospital service areas and trends in private and public health coverage. The department shall prepare reports that identify any problems in distribution which are in contradiction of the intent of this chapter. The report shall include an assessment of the effects of the provisions of this chapter on access to hospital and health care services, as well as an evaluation of the contribution of all purchasers of care to hospital charity care.

(8) The department shall issue a report on the subjects addressed in this section at least annually, with the first report due on July 1, 1990. [1998 c 245 § 118; 1989 1st ex.s. c 9 § 506.]

70.170.070 Penalties. (1) Every person who shall violate or knowingly aid and abet the violation of RCW 70.170.060 (5) or (6), 70.170.080, or *70.170.100, or any valid orders or rules adopted pursuant to these sections, or who fails to perform any act which it is herein made his or her duty to perform, shall be guilty of a misdemeanor. Following official notice to the accused by the department of the existence of an alleged violation, each day of noncompliance upon which a violation occurs shall constitute a separate violation. Any person violating the provisions of this chapter may be enjoined from continuing such violation. The department has authority to levy civil penalties not exceeding one thousand dollars for violations of this chapter and determined pursuant to this section.

(2) Every person who shall violate or knowingly aid and abet the violation of RCW 70.170.060 (1) or (2), or any valid orders or rules adopted pursuant to such section, or who fails to perform any act which it is herein made his or her duty to perform, shall be subject to the following criminal and civil penalties:

(a) For any initial violations: The violating person shall be guilty of a misdemeanor, and the department may impose a civil penalty not to exceed one thousand dollars as determined pursuant to this section.

(b) For a subsequent violation of RCW 70.170.060 (1) or (2) within five years following a conviction: The violating person shall be guilty of a misdemeanor, and the department...
may impose a penalty not to exceed three thousand dollars as determined pursuant to this section.  

(c) For a subsequent violation with intent to violate RCW 70.170.060 (1) or (2) within five years following a conviction: The criminal and civil penalties enumerated in (a) of this subsection; plus up to a three-year prohibition against the issuance of tax exempt bonds under the authority of the Washington health care facilities authority; and up to a three-year prohibition from applying for and receiving a certificate of need.

(d) For a violation of RCW 70.170.060 (1) or (2) within five years of a conviction under (c) of this subsection: The criminal and civil penalties and prohibition enumerated in (a) and (b) of this subsection; plus up to a one-year prohibition from participation in the state medical assistance or medical care services authorized under chapter 74.09 RCW.

(3) The provisions of chapter 34.05 RCW shall apply to all noncriminal actions undertaken by the department of health, the department of social and health services, and the Washington health care facilities authority pursuant to chapter 9, Laws of 1989 1st ex. sess. [1989 1st ex.s. c 9 § 507.]

*Reviser’s note:* RCW 70.170.100 was repealed by 1995 c 265 § 27 and by 1995 c 267 § 12, effective July 1, 1995.

70.170.080 Assessments—Costs. The basic expenses for the hospital data collection and reporting activities of this chapter shall be financed by an assessment against hospitals of no more than four one-hundredths of one percent of each hospital’s gross operating costs, to be levied and collected from and after that date, upon which the similar assessment levied under *chapter 70.39 RCW is terminated, for the provision of hospital services for its last fiscal year ending on or before June 30th of the preceding calendar year. Budgetary requirements in excess of that limit must be financed by a general fund appropriation by the legislature. All moneys collected under this section shall be deposited in the hospital data collection account which is hereby created in the state treasury. The department may also charge, receive, and dispense funds or authorize any contractor or outside sponsor to charge for and reimburse the costs associated with special studies as specified in RCW 70.170.050.

During the 1993-1995 fiscal biennium, moneys in the hospital data collection account may be expended, pursuant to appropriation, for hospital data analysis and the administration of the health information program.

Any amounts raised by the collection of assessments from hospitals provided for in this section which are not required to meet appropriations in the budget act for the current fiscal year shall be available to the department in succeeding years. [1993 sp.s. c 24 § 925; 1991 sp.s. c 13 § 71; 1989 1st ex.s. c 9 § 508.]

*Reviser’s note:* Chapter 70.39 RCW was repealed by 1982 c 223 § 10, effective June 30, 1990.

70.175.010 Legislative findings. (1) The legislature declares that availability of health services to rural citizens is an issue on which a state policy is needed.

The legislature finds that changes in the demand for health care, in reimbursement polices of public and private purchasers, and in the economic and demographic conditions in rural areas threaten the availability of care services.

In addition, many factors inhibit needed changes in the delivery of health care services to rural areas which include inappropriate and outdated regulatory laws, aging and inefficient health care facilities, the absence of local planning and coordination of rural health care services, the lack of community understanding of the real costs and benefits of supporting rural hospitals, the lack of regional systems to assure access to care that cannot be provided in every community, and the absence of state health care policy objectives.

The legislature further finds that the creation of effective health care delivery systems that assure access to health care services provided in an affordable manner will depend on active local community involvement. It further finds that it is the duty of the state to create a regulatory environment and health care payment policy that promotes innovation at the local level to provide such care.

It further declares that it is the responsibility of the state to develop policy that provides direction to local communities with regard to such factors as a definition of health care services, identification of statewide health status outcomes, clarification of state, regional, and community responsibilities and interrelationships for assuring access to affordable health care. The legislature declares that availability of health services to rural citizens is an issue on which a state policy is needed.

health care and continued assurances that quality health care services are provided.

(2) The legislature further finds that many rural communities do not operate hospitals in a cost-efficient manner. The cost of operating the rural hospital often exceeds the revenues generated. Some of these hospitals face closure, which may result in the loss of health care services for the community. Many communities are struggling to retain health care services by operating a cost-efficient facility located in the community. Current regulatory laws do not provide for the facilities licensure option that is appropriate for rural areas. A major barrier to the development of an appropriate rural licensure model is federal medicare approval to guarantee reimbursement for the costs of providing care and operating the facility. Medicare certification typically elaborates upon state licensure requirements. Medicare approval of reimbursement is more likely if the state has developed legal criteria for a rural-appropriate health facility. Medicare has begun negotiations with other states facing similar problems to develop exceptions with the goal of allowing reimbursement for the costs of providing care and operating the facility. Medicare has begun negotiations with the federal government with the objective of designing a medicare eligible rural health care facility structured to meet the health care needs of rural Washington and be eligible for federal and state financial support for its development and operation. [1989 1st ex.s. c 9 § 704.]

70.175.050 Secretary's powers and duties. The secretary shall have the following powers and duties:

[Title 70 RCW—page 506]
(1) To design the project application and selection process, including a program to advertise the project to rural communities and encourage prospective applicants to apply. Project sites that receive seed grant funding may hire consultants and shall perform other activities necessary to meet participant requirements defined in this chapter. In considering selection of participants eligible for seed grant funding, the secretary should consider project sites where (a) existing access to health care is severely inadequate, (b) where a financially vulnerable health care facility is present, (c) where a financially vulnerable health care facility is present and an adjoining community in the same catchment area has a competing facility, or (d) where improvements in the delivery of primary care services, including preventive care services, is needed.

The department may obtain technical assistance support for project sites that are not selected to be funded sites. The secretary shall select these assisted project sites based upon merit and to the extent possible, based upon the desire to address specific health status outcomes;

(2) To design acceptable outcome measures which are based upon health status outcomes and are to be part of the community plan, to work with communities to set acceptable local outcome targets in the health care delivery system strategic plan, and to serve as a general resource to participants in the planning, administration, and evaluation of project sites;

(3) To assess and approve community strategic plans developed by participants, including an assessment of the technical and financial feasibility of implementing the plan and whether adequate local support for the plan is demonstrated;

(4) To define health care catchment areas, identify financially vulnerable health care facilities, and to identify rural populations which are not receiving adequate health care services;

(5) To identify existing private and public resources which may serve as eligible consultants, identify technical assistance resources for communities in the project, create a register of public and private technical resource services available and provide the register to participants. The secretary shall screen consultants to determine their qualifications prior to including them on the register;

(6) To work with other state agencies, institutions of higher education, and other public and private organizations to coordinate technical assistance services for participants;

(7) To administer available funds for community use while participating in the project and establish procedures to assure accountability in the use of seed grant funds by participants;

(9) To act as facilitator for multiple applicants and entrants to the project;

(10) To report to the appropriate legislative committees and others from time to time on the progress of the projects including the identification of statutory and regulatory barriers to successful completion of rural health care delivery goals and an ongoing evaluation of the project. [1991 c 224 § 1; 1989 1st ex.s. c 9 § 705.]

70.175.060 Duties and responsibilities of participating communities. The duties and responsibilities of participating communities shall include:

(1) To involve major health care providers, businesses, public officials, and other community leaders in project design, administration, and oversight;

(4) To assess and analyze community health care needs;

(5) To identify services and providers necessary to meet needs;

(6) To develop outcome measures to assess the long-term effectiveness of modifications initiated through the project;

(7) To write a health care delivery system strategic plan including to the extent possible, identification of outcome measures needed to achieve health status outcomes identified in the plan. New organizational structures created should integrate existing programs and activities of local health providers so as to maximize the efficient planning and delivery of health care by local providers and promote more accessible and affordable health care services to rural citizens. Participants should create health care delivery system strategic plans which promote health care services which the participant can financially sustain;

(8) To screen and contract with consultants for technical assistance if the project site was selected to receive funding and assistance is needed;

(9) To monitor and evaluate the project in an ongoing manner;

(10) To implement necessary changes as defined in the plans such as converting existing facilities, developing or modifying services, recruiting providers, or obtaining agreements with other communities to provide some or all health care services; and

(11) To provide data and comply with other requirements of the administrator that are intended to evaluate the effectiveness of the projects. [1989 1st ex.s. c 9 § 706.]

(2) With public or private agencies, to provide technical or professional assistance to project participants. [1989 1st ex.s. c 9 § 708.]

70.175.090 Participants authorized to contract—Penalty—Secretary and state exempt from liability. (1) Participants are authorized to use funding granted to them by the secretary for the purpose of contracting for technical assistance services. Participants shall use only consultants identified by the secretary for consulting services unless the participant can show that an alternative consultant is qualified to provide technical assistance and is approved by the secretary. Adequate records shall be kept by the participant showing project site expenditures from grant moneys. Inappropriate use of grant funding shall be a gross misdemeanor.

(2) In providing a list of qualified consultants the secretary and the state shall not be held responsible for assuring qualifications of consultants and shall be held harmless for the actions of consultants. Furthermore, the secretary and the state shall not be held liable for the failure of participants to meet contractual obligations established in connection with project participation. [1989 1st ex.s. c 9 § 709.]

70.175.100 Licensure—Rules. (1) The department shall establish and adopt such standards and rules pertaining to the construction, maintenance, and operation of a rural health care facility and the scope of health care services, and rescind, amend, or modify the rules from time to time as necessary in the public interest. In developing the rules, the department shall consult with representatives of rural hospitals, community mental health centers, public health departments, community and migrant health clinics, and other providers of health care in rural communities. The department shall also consult with third-party payers, consumers, local officials, and others to ensure broad participation in defining regulatory standards and requirements that are appropriate for a rural health care facility.

(2) When developing the rural health care facility licensure rules, the department shall consider the report of the Washington rural health care commission established under chapter 207, Laws of 1988. Nothing in this chapter requires the department to follow any specific recommendation contained in that report except as it may also be included in this chapter.

(3) Upon developing rules, the department shall enter into negotiations with appropriate federal officials to seek medicare approval of the facility and financial participation of medicare and other federal programs in developing and operating the rural health care facility. [1998 c 245 § 119; 1989 1st ex.s. c 9 § 710.]

(6) Provide for linkages with hospitals, tertiary care centers, and other health care facilities to provide services not available in the facility; and
(7) Achieve health care outcomes defined by the community through a community planning process. [1989 1st ex.s. c 9 § 711.]

70.175.120 Rural health care facility not a hospital. The rural health care facility is not considered a hospital for building occupancy purposes. [1989 1st ex.s. c 9 § 712.]

70.175.130 Rural health care plan. The department may develop and implement a rural health care plan and may approve hospital and rural health care facility requests to be designated as essential access community hospitals or rural primary care hospitals so that such facilities may form rural health networks to preserve health care services in rural areas and thereby be eligible for federal program funding and enhanced medicare reimbursement. The department may monitor any rural health care plan and designated facilities to assure continued compliance with the rural health care plan. [1992 c 27 § 4; 1990 c 271 § 18.]

Rural public hospital districts:  RCW 70.44.450.

70.180.005 Finding—Health care professionals. The legislature finds that a health care access problem exists in rural areas of the state because rural health care providers are unable to leave the community for short-term periods of time to attend required continuing education training or for personal matters because their absence would leave the community without adequate medical care coverage. The lack of adequate medical coverage in geographically remote rural communities constitutes a threat to the health and safety of the people in those communities.

The legislature declares that it is in the public interest to recruit and maintain a pool of physicians, physician assistants, pharmacists, and advanced registered nurse practitioners willing and able on short notice to practice in rural communities on a short-term basis to meet the medical needs of the community. [1991 c 332 § 27; 1990 c 271 § 1.]

Applicaton to scope of practice—Captions not law—1991 c 332: See notes following RCW 18.130.010.

70.180.009 Finding—Rural training opportunities. The legislature finds that a shortage of nurses, physicians, pharmacists, and physician assistants exists in rural areas of the state. In addition, many education programs to train these health care providers do not include options for practical training experience in rural settings. As a result, many health care providers find their current training does not prepare them for the unique demands of rural practice.

The legislature declares that the availability of rural training opportunities as a part of professional medical, nursing, pharmacist, and physician assistant education would provide needed practical experience, serve to attract providers to rural areas, and help address the current shortage of these providers in rural Washington. [1990 c 271 § 14.]

70.180.011 Definitions. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Department" means the department of health.
(2) "Rural areas" means a rural area in the state of Washington as identified by the department. [1991 c 332 § 29.]

Applicaton to scope of practice—Captions not law—1991 c 332: See notes following RCW 18.130.010.

70.180.020 Health professional temporary substitute resource pool. The department shall establish or contract for a health professional temporary substitute resource pool. The purpose of the pool is to provide short-term physician, physician assistant, pharmacist, and advanced registered nurse practitioner personnel to rural communities where these health care providers:

(1) Are unavailable due to provider shortages;
(2) Need time off from practice to attend continuing education and other training programs; and
(3) Need time off from practice to attend to personal matters or recover from illness.

The health professional temporary substitute resource pool is intended to provide short-term assistance and should complement active health provider recruitment efforts by rural communities where shortages exist. [1994 c 103 § 1; 1990 c 271 § 2.]

70.180.030 Registry of health care professionals available to rural communities—Conditions of participation. (1) The department, in cooperation with the University of Washington school of medicine, the state’s registered nursing programs, the state’s pharmacy programs, and other appropriate public and private agencies and associations, shall develop and keep current a register of physicians, physician assistants, pharmacists, and advanced registered nurse practitioners who are available to practice on a short-term basis in rural communities of the state. The department shall list only individuals who have a valid license to practice. The register shall be compiled and made available to all rural hospitals, public health departments and districts, rural pharmacies, and other appropriate public and private agencies and associations.

(2) Eligible health care professionals are those licensed under chapters 18.57, 18.57A, 18.64, 18.71, and 18.71A RCW and advanced registered nurse practitioners licensed under chapter 18.79 RCW.

(3) Participating sites may:
(a) Receive reimbursement for substitute provider travel to and from the rural community and for lodging at a rate determined under RCW 43.03.050 and 43.03.060; and
(b) Receive reimbursement for the cost of malpractice insurance if the services provided are not covered by the substitute provider’s or local provider’s existing medical malpractice insurance. Reimbursement for malpractice insurance shall only be made available to sites that incur additional costs for substitute provider coverage.

(4) The department may require rural communities to participate in health professional recruitment programs as a condition for providing a temporary substitute health care professional if the community does not have adequate permanent health care personnel. To the extent deemed appropriate and subject to funding, the department may also require communities to participate in other programs or projects, such as the rural health system project authorized in chapter 70.175 RCW, that are designed to assist communities to reorganize the delivery of rural health care services.

(5) A participating site may receive reimbursement for substitute provider assistance as provided for in subsection (3) of this section for up to ninety days during any twelve-month period. The department may modify or waive this limitation should it determine that the health and safety of the community warrants a waiver or modification.

(6) Participating sites shall:
(a) Be responsible for all salary expenses for the temporary substitute provider.
(b) Provide the temporary substitute provider with referral and back-up coverage information. [1994 sp.s. c 9 § 746; 1994 c 103 § 2; 1990 c 271 § 3.]

Reviser’s note: This section was amended by 1994 c 103 § 2 and by 1994 sp.s. c 9 § 746, each without reference to the other. Both amendments are incorporated in the publication of this section pursuant to RCW 1.12.025(2). For rule of construction, see RCW 1.12.025(1).

Severability—Headings and captions not law—Effective date—1994 sp.s. c 9: See RCW 18.79.900 through 18.79.902.

(2008 Ed.)
70.180.040 Request procedure—Acceptance of gifts.  
(1) Requests for a temporary substitute health care professional may be made to the department by the certified health plan, local rural hospital, public health department or district, community health clinic, local practicing physician, physician assistant, pharmacist, or advanced registered nurse practitioner, or local city or county government.

(2) The department may provide directly or contract for services:
   (a) Establish a manner and form for receiving requests;
   (b) Minimize paperwork and compliance requirements for participant health care professionals and entities requesting assistance; and
   (c) Respond promptly to all requests for assistance.

(3) The department may apply for, receive, and accept gifts and other payments, including property and services, from any governmental or other public or private entity or person, and may make arrangements as to the use of these receipts to operate the pool. The department shall make available upon request to the appropriate legislative committees information concerning the source, amount, and use of such gifts or payments. [1994 c 103 § 3; 1990 c 271 § 4.]

70.180.110 Rural training opportunities—Plan development.  
(1) The department, in consultation with at least the higher education coordinating board, the state board for community and technical colleges, the superintendent of public instruction, and state-supported education programs in medicine, pharmacy, and nursing, shall develop a plan for increasing rural training opportunities for students in medicine, pharmacy, and nursing. The plan shall provide for direct exposure to rural health professional practice conditions for students planning careers in medicine, pharmacy, and nursing.

(2) The department and the medical, pharmacy, and nurse education programs shall:
   (a) Inventory existing rural-based clinical experience programs, including internships, clerkships, residencies, and other training opportunities available to students pursuing degrees in nursing, pharmacy, and medicine;
   (b) Identify where training opportunities do not currently exist and are needed;
   (c) Develop recommendations for improving the availability of rural training opportunities;
   (d) Develop recommendations on establishing agreements between education programs to assure that all students in medical, pharmacist, and nurse education programs in the state have access to rural training opportunities; and
   (e) Review private and public funding sources to finance rural-based training opportunities. [1998 c 245 § 121; 1990 c 271 § 16.]

70.180.120 Expenditures, funding.  
Any additional expenditures incurred by the University of Washington from provisions of chapter 271, Laws of 1990 shall be funded from existing financial resources. [1990 c 271 § 28.]

University of Washington primary care physician shortage plan development—1993 c 492: "(1) The University of Washington shall prepare a primary care shortage plan that accomplishes the following:

(a) Identifies specific activities that the school of medicine shall pursue to increase the number of Washington residents serving as primary care physicians in rural and medically underserved areas of the state, including establishing a goal that assures that no less than fifty percent of medical school graduates who are Washington state residents at the time of matriculation will enter primary care residencies, to the extent possible, in Washington state by the year 2000;

(b) Assures that the school of medicine shall establish among its highest training priorities the distribution of its primary care physician graduates from the school and associated postgraduate residency programs into rural and medically underserved areas;

(c) Establishes the goal of assuring that the annual number of graduates from the family practice residency network entering rural or medically underserved practice shall be increased by forty percent over a baseline period from 1988 through 1990 by 1995;

(d) Establishes a further goal to make operational at least two additional family practice residency programs within Washington state in geographic areas identified by the plan as underserved in family practice by 1997. The geographic areas identified by the plan as being underserved by family practice physicians shall be consistent with any such similar designations as may be made in the health personnel research plan as authorized under chapter 28B.125 RCW;

(e) Establishes, with the cooperation of existing community and migrant health clinics in rural or medically underserved areas of the state, three family practice residency training tracks. Furthermore, the primary care shortage plan shall provide that one of these training tracks shall be a joint American osteopathic association and American medical association approved training site coordinated with an accredited college of osteopathic medicine with extensive experience in training primary care physicians for the western United States. Such a proposed joint accredited training track will have at least fifty percent of its residency positions in osteopathic medicine;

(f) Implements the plan, with the exception of the expansion of the family practice residency network, within current biennial appropriations for the University of Washington school of medicine.

(2) The plan shall be submitted to the appropriate committees of the legislature no later than December 1, 1993." [1993 c 492 § 279.]

70.185.040 Rules. The department shall adopt rules consistent with this chapter to carry out the purpose of this chapter. All rules shall be adopted in accordance with chapter 34.05 RCW. All rules and procedures adopted by the department shall minimize paperwork and compliance requirements for participants and should not be complex in nature so as to serve as a barrier or disincentive for prospective participants applying for the project. [1991 c 332 § 10.]
70.185.050 Secretary’s powers and duties. The secretary shall have the following powers and duties:

(1) To design the project application and selection process, including a program to advertise the project to rural communities and encourage prospective applicants to apply. Subject to funding, project sites shall be selected that are eligible to receive funding. Funding shall be used to hire consultants and perform other activities necessary to meet participant requirements under this chapter. The secretary shall require at least fifty percent matching funds or in-kind contributions from participants. In considering selection of participants eligible for seed grant funding, the secretary should consider project sites where (a) existing access to health care is severely inadequate, (b) recruitment and retention problems have been chronic, (c) the community is in need of primary care practitioners, or (d) the community has unmet health care needs for specific target populations;

(2) To design acceptable health care professional recruitment and retention strategic plans, and to serve as a general resource to participants in the planning, administration, and evaluation of project sites;

(3) To assess and approve strategic plans developed by participants, including an assessment of the technical and financial feasibility of implementing the plan and whether adequate local support for the plan is demonstrated;

(4) To identify existing private and public resources that may serve as eligible consultants, identify technical assistance resources for communities in the project, create a register of public and private technical resource services available, and provide the register to participants. The secretary shall screen consultants to determine their qualifications prior to including them on the register;

(5) To work with other state agencies, institutions of higher education, and other public and private organizations to coordinate technical assistance services for participants;

(8) To act as facilitator for multiple applicants and entrants to the project;

(9) To report to the appropriate legislative committees and others from time to time on the progress of the projects including the identification of statutory and regulatory barriers to successful completion of rural health care delivery goals and an ongoing evaluation of the project. [1991 c 332 § 12.]

70.185.060 Duties and responsibilities of participating communities. The duties and responsibilities of participating communities shall include:

(3) To coordinate and avoid duplication of public health and other health care services;

(4) To assess and analyze community health care professional needs;

(5) To write a health care professional recruitment and retention strategic plan;

(6) To screen and contract with consultants for technical assistance if the project site was selected to receive funding and assistance is needed;

(7) To monitor and evaluate the project in an ongoing manner;

(8) To provide data and comply with other requirements of the administrator that are intended to evaluate the effectiveness of the projects;

(1) Participants are authorized to use funding granted to them by the secretary for the purpose of contracting for technical assistance services. Participants shall use only consultants identified by the secretary for consulting services unless the participant can show that an alternative consultant is qualified to provide technical assistance and is approved by the secretary. Adequate records shall be kept by the participant showing project site expenditures from grant moneys. Inappropriate use of grant funding is a gross misdemeanor and shall incur the penalties under chapter 9A.20 RCW.

(2) In providing a list of qualified consultants the secretary and the state shall not be held responsible for assuring qualifications of consultants and shall be held harmless for the actions of consultants. Eligible professions are those licensed under chapters 18.36A, 18.57, 18.57A, 18.71, and 18.71A RCW and advanced registered nurse practitioners and certified nurse midwives licensed under *chapter 18.88 RCW, and may include other providers identified as needed in the health personnel resource plan.

(3) Students participating in the community contracted educational positions shall meet all applicable educational program requirements and provide assurances, acceptable to the community, that they will practice in the sponsoring community following completion of education and necessary licensure.

(4) Participants in the program incur an obligation to repay any contracted funds with interest set by state law, unless they serve at least three years in the sponsoring community.

(5) The department may provide funds to communities for use in contracting. [1993 c 492 § 274.]

The center shall assist in the development and operation of health personnel recruitment and retention programs that are consistent with activities authorized under this chapter. The centers shall further provide technical expertise in the development of well managed health care delivery systems in rural Washington consistent with the goals and objectives of chapter 492, Laws of 1993. The evaluation plan shall result in statistically valid evaluation at both statewide and community levels.

(2) Starting five years after the initial grant to a community network, if the community network fails to meet the outcome standards and goals in any two consecutive years, the institute shall make recommendations to the legislature concerning whether the funds received by that community network should revert back to the originating agency. In making this determination, the institute shall consider the adequacy of the level of intervention relative to the risk factors in the community and any external events having a significant impact on risk factors or outcomes.

(3) The outcomes required under this chapter and social development standards and measures established by the department of health under RCW 43.70.555 shall be used in conducting the outcome evaluation of the community networks. [1998 c 245 § 122; 1994 sp.s. c 7 § 207.]

Where appropriate for a family, service coordination may be conducted through interdisciplinary or interagency teams.

These programs are intended to be voluntary for the parents involved.

(3) In developing long-term comprehensive plans to reduce the rate of at-risk children and youth, the community networks shall consider increasing employment and job training opportunities in recognition that they constitute an effective network strategy and strong protective factor. The networks shall consider and may include funding of:

(a) At-risk youth job placement and training programs. The programs shall:

(i) Identify and recruit at-risk youth for local job opportunities;

(ii) Provide skills and needs assessments for each youth recruited;

70.190.085 Community networks—Sexual abstinence and activity campaign. The community network’s plan may include funding for a student designed media and community campaign promoting sexual abstinence and addressing the importance of delaying sexual activity and pregnancy or male parenting until individuals are ready to nurture and support their children. Under the campaign, which shall be substantially designed and produced by students, the same messages shall be distributed in schools, through the media, and in the community where the campaign is targeted. The campaign shall require local private sector matching funds equal to state funds. Local private sector funds may include in-kind contributions of technical or other assistance from consultants or firms involved in public relations, advertising, broadcasting, and graphics or video production or other related fields. The campaign shall be evaluated using the outcomes required of community networks under this chapter, in particular reductions in the number or rate of teen pregnancies and teen male parentage over a three to five year period. However, during the 1999-01 fiscal biennium, a network that has not finalized its membership shall be eligible to receive such grants and assistance. Planning grants may be funded through available federal funds for family preservation services. After receiving the planning grant the network has up to one year to submit the long-term comprehensive plan.

(2) The council shall enter into biennial contracts with networks as part of the grant process. The contracts shall be consistent with available resources, and shall be distributed in accordance with the distribution formula developed pursuant to RCW 43.41.195, subject to the applicable matching fund requirement.

(3) No later than February 1 of each odd-numbered year following the initial contract between the council and a network, the council shall request from the network its plan for the upcoming biennial contract period.

(5) The networks shall, by contract, distribute funds (a) appropriated for plan implementation by the legislature, and (b) obtained from nonstate or federal sources. In distributing funds, the networks shall ensure that administrative costs are held to a maximum of ten percent. However, during the 1999-01 fiscal biennium, administrative costs shall be held to a maximum of ten percent or twenty thousand dollars, whichever is greater, exclusive of costs associated with procurement, payroll processing, personnel functions, management, maintenance and operation of space and property, data processing and computer services, indirect costs, and organizational planning, consultation, coordination, and training.

(6) A network shall not provide services or operate programs.

(7) A network shall file a report with the council by May 1 of each year that includes but is not limited to the following information: Detailed expenditures, programs under way, progress on contracted services and programs, and successes and problems in achieving the outcomes required by RCW 70.190.130(1)(h) related to reducing the rate of state-funded out-of-home placements and the other three at-risk behaviors covered by the comprehensive plan and approved by the council. (3) In determining the desirability of decategorizing these programs the report shall analyze whether:
(a) The program is an integral part of the comprehensive plan without decategorization;
(b) The program is already adequately integrated and coordinated with other programs that are, or will be, funded by the network;
(c) The network could develop the capacity to provide the program’s services;
(d) The program goals might receive greater community support and reinforcement through the network;
(e) The program presently ensures that adequate follow-up efforts are utilized, and whether the network could improve on those efforts through decategorization of the funds;
(f) The decategorization would benefit the community; and
(g) The decategorization would assist the network in achieving its goals.

(4) If the council or a network determines that a program should not be decategorized, the council or network shall make recommendations regarding programmatic changes that are necessary to improve the coordination and integration of services and programs, regardless of the funding source for those programs. integrated, regionally based children, youth, and family activities and services with adequate local flexibility to accomplish the purposes stated in section 101, chapter 7, Laws of 1994 sp. sess. and RCW 74.14A.020.

(2) The community networks shall exercise the planning, coordinating, and program administration functions specified by the state interagency agreement in addition to other activities required by law, and shall participate in the planning process required by chapter 71.36 RCW.

(3) Any state or federal funds identified for contracts with community networks shall be transferred with no reductions. [1994 sp.s. c 7 § 309.]

70.190.130 Comprehensive plan—Approval process—Network expenditures—Penalty for noncompliance with chapter. (1) The council shall only disburse funds to a network after a comprehensive plan has been prepared by the network and approved by the council. In approving the plan the council shall consider whether the network:

(a) Promoted input from the widest practical range of agencies and affected parties, including public hearings;

(b) Reviewed the indicators of violence data compiled by the local public health departments and incorporated a response to those indicators in the plan;

(c) Obtained a declaration by the largest health department within the network boundary, indicating whether the plan meets minimum standards for assessment and policy development relating to social development according to RCW 43.70.555;

(d) Included a specific mechanism of data collection and transmission based on the rules established under RCW 43.70.555;

(e) Considered all relevant causes of violence in its community and did not isolate only one or a few of the elements to the exclusion of others and demonstrated evidence of building community capacity through effective neighborhood and community development;

(f) Considered youth employment and job training programs outlined in this chapter as a strategy to reduce the rate of at-risk children and youth;

(g) Integrated local programs that met the network’s priorities and were deemed successful by the network;

(h) Committed to make measurable reductions in the rate of at-risk children and youth by reducing the rate of state-funded out-of-home placements and make reductions in at least three of the following rates of youth: Violent criminal acts, substance abuse, pregnancy and male parentage, suicide attempts, dropping out of school, child abuse or neglect, and domestic violence; and

(i) Held a public hearing on its proposed comprehensive plan and submitted to the council all of the written comments received at the hearing and a copy of the minutes taken at the hearing.

(2) The council may establish a maximum amount to be expended by a network for purposes of planning and administrative duties, that shall not, in total, exceed ten percent of funds available to a network. The council shall make recommendations to the legislature regarding the specific maximum amounts that can be spent by a network or group of networks on planning and administrative duties. The recommendation may provide differing percentages, considering the size of the budgets of each network and giving consideration to whether there should be a higher percentage for administrative and planning purposes in budgets for smaller networks and a smaller percentage of the budgets for administration and planning purposes in larger networks.

(3) The council may determine that a network is not in compliance with this chapter if it fails to comply with statutory requirements. Upon a determination of noncompliance, the council may suspend or revoke a network’s status or contract and specify a process and deadline for the network’s compliance. EARLY INTERVENTION SERVICES—BIRTH TO SIX

Sections

70.195.005 Findings. The legislature finds that there is an urgent and substantial need to:

(1) Enhance the development of infants and toddlers with disabilities in the state of Washington in order to minimize developmental delay and maximize individual potential and enhance the capability of families to meet the needs of their infants and toddlers with disabilities and maintain family integrity;

(2) Coordinate and enhance the state’s existing early intervention services to ensure a statewide, community-based, coordinated, interagency program of early intervention services for infants and toddlers with disabilities and their families; and

(3) Facilitate the coordination of payment for early intervention services from federal, state, local, and private sources including public and private insurance coverage. [1992 c 198 § 14.]

70.195.010 Birth-to-six interagency coordinating council—Early intervention services—Conditions and limitations. For the purposes of implementing this chapter, the governor shall appoint a state birth-to-six interagency coordinating council and ensure that state agencies involved in the provision of, or payment for, early intervention services to infants and toddlers with disabilities and their families shall coordinate and collaborate in the planning and delivery of such services.

No state or local agency currently providing early intervention services to infants and toddlers with disabilities may use funds appropriated for early intervention services for infants and toddlers with disabilities to supplant funds from other sources.

All state and local agencies shall ensure that the implementation of this chapter will not cause any interruption in existing early intervention services for infants and toddlers with disabilities.

Nothing in this chapter shall be construed to permit the restriction or reduction of eligibility under Title V of the Social Security Act, P.L. 90-248, relating to maternal and child health or Title XIX of the Social Security Act, P.L. 89-97, relating to medicaid for infants and toddlers with disabilities. [1998 c 245 § 125; 1992 c 198 § 15.]

70.198.020 Advisory council—Membership.
70.198.030 Development of early intervention service standards.
70.198.040 Hearing loss pamphlet.

70.198.010 Findings. (1) The legislature finds that children who are deaf or hard of hearing and their families have unique needs specific to the hearing loss. These unique needs reflect the challenges children with hearing loss and their families encounter related to their lack of full access to auditory communication.

(2) The legislature further finds that early detection of hearing loss in a child and early intervention and treatment have been demonstrated to be highly effective in facilitating a child’s healthy development in a manner consistent with the child’s age and cognitive ability.

(3) These combined factors support the need for early intervention services providers with specialized training and expertise, spanning the spectrum of available approaches and educational options, who can address the unique characteristics and needs of each child who is deaf or hard of hearing and that child’s family. [2004 c 47 § 1.]

70.198.020 Advisory council—Membership. (1) There is established an advisory council in the department of social and health services for the purpose of advancing the development of a comprehensive and effective statewide system to provide prompt and effective early interventions for children in the state who are deaf or hard of hearing and their families.

(2) Members of the advisory council shall have training, experience, or interest in hearing loss in children. Membership shall include, but not be limited to, the following: Pediatricians; audiologists; teachers of the deaf and hard of hearing; parents of children who are deaf or hard of hearing; a representative from the Washington state school for the deaf; and representatives of the infant toddler early intervention program in the department of social and health services, the department of health, and the office of the superintendent of public instruction. [2004 c 47 § 2.]

70.198.030 Development of early intervention service standards. (1) The advisory council shall develop statewide standards for early intervention services and early intervention services providers specifically related to children who are deaf or hard of hearing.

(2) The advisory council shall develop these standards by January 1, 2005. [2004 c 47 § 3.]

70.198.040 Hearing loss pamphlet. (1) The advisory council shall create a pamphlet to be provided to the parents of a child in the state who is diagnosed with hearing loss by their child’s pediatrician or audiologist, as appropriate, upon diagnosis of hearing loss. The pamphlet shall contain, at minimum, information on the following: The variety of interventions and treatments available for children who are deaf or hard of hearing; and resources for parent support, counseling, financing, and education related to hearing loss in children.

(2) The pamphlet shall be available for distribution by July 1, 2005. [2004 c 47 § 4.]

70.220.010 Finding—Purpose. The legislature finds that public policies and programs will be improved when informed by independent scientific analysis and communication with state and local policymakers. Throughout the state there are highly qualified persons in a wide range of scientific disciplines who are willing to contribute their time and expertise in such reviews, but that presently there is lacking an organizational structure in which the entire scientific community may most effectively respond to requests for assessments of complex public policy questions. Therefore it is the purpose of chapter 305, Laws of 2005 to authorize the creation of the Washington academy of sciences as a nonprofit entity independent of government, whose principal mission will be the provision of scientific analysis and recommendations on questions referred to the academy by the governor, the governor’s designee, or the legislature. [2005 c 305 § 1.]

70.220.020 Washington academy of sciences to assist governor, legislature—Duty of state scientists not diminished. The Washington academy of sciences authorized to be formed under RCW 70.220.030 shall serve as a principal source of scientific investigation, examination, and reporting on scientific questions referred to the academy by the governor or the legislature under the provisions of RCW [Title 70 RCW—page 522]
305 § 2.]

70.220.040 Duties—Review panels—Funding. (1) The academy shall investigate, examine, and report on any subject of science requested by the governor, the governor’s designee, or the legislature. The procedures for selecting panels of experts to respond to such requests shall be set forth in the bylaws or other appropriate operating guidelines. In forming review panels, the academy shall endeavor to assure that the panel members have no conflicts of interest and that proposed panelists first disclose any advocacy positions or financial interest related to the questions to be addressed by the panel that the candidate has held within the past ten years.

(2) The governor shall provide funding to the academy for the actual expense of such investigation, examination, and reports. Such funding shall be in addition to state funding assistance to the academy in its initial years of operation as described in RCW 70.220.060. [2005 c 305 § 4.]

70.220.050 Additional services permitted. The academy may carry out functions or provide services to its members and the public in addition to the services provided under RCW 70.220.040, such as public education programs, newsletters, web sites, science fairs, and research assistance. [2005 c 305 § 5.]

70.220.060 Funding report required by April 30, 2007. The organizational committee shall recommend procedures and funding requirements for receiving and disbursing funding in support of the academy’s programs and services in a report to the governor and the appropriate committees of the senate and house of representatives no later than April 30, 2007. (4) The department may provide data to public or private entities for statistical, research, or educational purposes after removing information that could be used to identify individual patients, dispensers, prescribers, and persons who received prescriptions from dispensers.

(5) A dispenser or practitioner acting in good faith is immune from any civil, criminal, or administrative liability that might otherwise be incurred or imposed for requesting, receiving, or using information from the program.

[Title 70 RCW—page 524]
70.225.050 Department may contract for operation of program. The department may contract with another agency of this state or with a private vendor, as necessary, to ensure the effective operation of the prescription monitoring program. The secretary may issue a notice of intention to issue a cease and desist order to any person whom the secretary has reason to believe is engaged in the unlicensed operation of an ambulatory surgical facility. If the secretary makes a written finding of fact that the public interest will be irreparably harmed by delay in issuing an order, the secretary may issue a temporary cease and desist order. The person receiving a temporary cease and desist order shall be provided an opportunity for a prompt hearing. ### 70.230.080 Coordinated quality improvement—Rules. *(Effective July 1, 2009.)*

(1) Every ambulatory surgical facility shall maintain a coordinated quality improvement program for the improvement of the quality of health care services rendered to patients and the identification and prevention of medical malpractice. The program shall include at least the following:

(a) The establishment of a quality improvement committee with the responsibility to review the services rendered in the ambulatory surgical facility, both retrospectively and prospectively, in order to improve the quality of medical care of patients and to prevent medical malpractice. The committee shall oversee and coordinate the quality improvement and medical malpractice prevention program and shall ensure that information gathered pursuant to the program is used to review and to revise the policies and procedures of the ambulatory surgical facility;

(b) A medical staff privileges sanction procedure through which credentials, physical and mental capacity, and competence in delivering health care services are periodically reviewed as part of an evaluation of staff privileges;

(c) The periodic review of the credentials, physical and mental capacity, and competence in delivering health care services of all persons who are employed or associated with the ambulatory surgical facility;

(d) A procedure for the prompt resolution of grievances by patients or their representatives related to accidents, injuries, treatment, and other events that may result in claims of medical malpractice;

(e) The maintenance and continuous collection of information concerning the ambulatory surgical facility’s experience with negative health care outcomes and incidents injurious to patients, patient grievances, professional liability premiums, settlements, awards, costs incurred by the ambulatory surgical facility for patient injury prevention, and safety improvement activities;

(f) The maintenance of relevant and appropriate information gathered pursuant to (a) through (e) of this subsection concerning individual practitioners within the practitioner’s personnel or credential file maintained by the ambulatory surgical facility;

(g) Education programs dealing with quality improvement, patient safety, medication errors, injury prevention, staff responsibility to report professional misconduct, the legal aspects of patient care, improved communication with patients, and causes of malpractice claims for staff personnel engaged in patient care activities; and

(h) Policies to ensure compliance with the reporting requirements of this section.

(2) Any person who, in substantial good faith, provides information to further the purposes of the quality improvement and medical malpractice prevention program or who, in substantial good faith, participates on the quality improvement committee is not subject to an action for civil damages or other relief as a result of such activity. Any person or entity participating in a coordinated quality improvement program that, in substantial good faith, shares information or documents with one or more other programs, committees, or boards under subsection (8) of this section is not subject to an action for civil damages or other relief as a result of the activity. For the purposes of this section, sharing information is presumed to be in substantial good faith. However, the presumption may be rebutted upon a showing of clear, cogent, and convincing evidence that the information shared was knowingly false or deliberately misleading.

(3) Information and documents, including complaints and incident reports, created specifically for, and collected and maintained by, a quality improvement committee are not subject to review or disclosure, except as provided in this section, or discovery or introduction into evidence in any civil action, and no person who was in attendance at a meeting of such committee or who participated in the creation, collection, or maintenance of information or documents specifically for the committee shall be permitted or required to testify in any civil action as to the content of such proceedings or the documents and information prepared specifically for the committee. This subsection does not preclude: (a) In any civil action, the discovery of the identity of persons involved in the medical care that is the basis of the civil action whose involvement was independent of any quality improvement activity; (b) in any civil action, the testimony of any person concerning the facts which form the basis for the institution of such proceedings of which the person had personal knowledge acquired independently of such proceedings; (c) in any civil action by a health care provider regarding the restriction or revocation of that individual’s clinical or staff privileges, introduction into evidence of information collected and maintained by quality improvement committees regarding such health care provider; (d) in any civil action, disclosure of the fact that staff privileges were terminated or restricted, including the specific restrictions imposed, if any, and the reasons for the restrictions; or (e) in any civil action, discovery and introduction into evidence of the patient’s medical records required by rule of the department to be made regarding the care and treatment received.

(4) Each quality improvement committee shall, on at least a semianual basis, report to the management of the ambulatory surgical facility, as identified in the facility’s application, in which the committee is located. The report shall review the quality improvement activities conducted by the committee, and any actions taken as a result of those activities.

(5) The department shall adopt such rules as are deemed appropriate to effectuate the purposes of this section.

(6) The medical quality assurance commission, the board of osteopathic medicine and surgery, or the podiatric medical
board, as appropriate, may review and audit the records of committee decisions in which a practitioner’s privileges are terminated or restricted. Each ambulatory surgical facility shall produce and make accessible to the commission or board the appropriate records and otherwise facilitate the review and audit. Information so obtained is not subject to the discovery process and confidentiality shall be respected as required by subsection (3) of this section. Failure of an ambulatory surgical facility to comply with this subsection is punishable by a civil penalty not to exceed two hundred fifty dollars.

(7) The department and any accrediting organization may review and audit the records of a quality improvement committee or peer review committee in connection with their inspection and review of the ambulatory surgical facility. Information so obtained is not subject to the discovery process, and confidentiality shall be respected as required by subsection (3) of this section. Each ambulatory surgical facility shall produce and make accessible to the department the appropriate records and otherwise facilitate the review and audit.

(8) A coordinated quality improvement program may share information and documents, including complaints and incident reports, created specifically for, and collected and maintained by, a quality improvement committee or a peer review committee under RCW 4.24.250 with one or more other coordinated quality improvement programs maintained in accordance with this section or RCW 43.70.510 or 70.41.200, a quality assurance committee maintained in accordance with RCW 18.20.390 or 74.42.640, or a peer review committee under RCW 4.24.250, for the improvement of the quality of health care services rendered to patients and the identification and prevention of medical malpractice. The privacy protections of chapter 70.02 RCW and the federal health insurance portability and accountability act of 1996 and its implementing regulations apply to the sharing of individually identifiable patient information held by a coordinated quality improvement program. Any rules necessary to implement this section shall meet the requirements of applicable federal and state privacy laws. Information and documents disclosed by one coordinated quality improvement program to another coordinated quality improvement program or a peer review committee under RCW 4.24.250 and any information and documents created or maintained as a result of the sharing of information and documents are not subject to the discovery process and confidentiality shall be respected as required by subsection (3) of this section, RCW 18.20.390 (6) and (8), 70.41.200(3), 74.42.640 (7) and (9), and 4.24.250.

(9) An ambulatory surgical facility that participates in a coordinated quality improvement program under RCW 43.70.510 shall be deemed to have met the requirements of this section.

(10) Violation of this section shall not be considered negligence per se. [2007 c 273 § 9.]

70.230.090 Ambulatory surgical facilities—Construction, maintenance, and operation—Minimum standards and rules. (Effective July 1, 2009.) The department shall establish and adopt such minimum standards and rules pertaining to the construction, maintenance, and operation of ambulatory surgical facilities and rescind, amend, or modify such rules, as are necessary in the public interest, and particularly for the establishment and maintenance of standards of patient care required for the safe and adequate care and treatment of patients. In establishing the format and content of these standards and rules, the department shall give consideration to maintaining consistency with such minimum standards and rules applicable to ambulatory surgical facilities in the survey standards of accrediting organizations or federal agencies that the secretary has determined to have substantially equivalent standards as the statutes and rules of this state. [2007 c 273 § 10.]

70.230.100 Ambulatory surgical facilities—Surveys. (Effective July 1, 2009.) (1) The department shall make or cause to be made a survey of all ambulatory surgical facilities every eighteen months. Every survey of an ambulatory surgical facility may include an inspection of every part of the surgical facility. The department may make an examination of all phases of the ambulatory surgical facility operation necessary to determine compliance with all applicable statutes, rules, and regulations. In the event that the department is unable to make a survey or cause a survey to be made during the three years of the term of the license, the license of the ambulatory surgical facility shall remain in effect until the state conducts a survey or a substitute survey is performed if the ambulatory surgical facility is in compliance with all other licensing requirements.

(2) An ambulatory surgical facility shall be deemed to have met the survey standards of this section if it submits proof of certification as a medicare ambulatory surgical facility or accreditation by an organization that the secretary has determined to have substantially equivalent survey standards to those of the department. A survey performed pursuant to medicare certification or by an approved accrediting organization may substitute for a survey by the department if:

(a) The ambulatory surgical facility has satisfactorily completed a survey by the department in the previous eighteen months; and

(b) Within thirty days of learning the result of a survey, the ambulatory surgical facility provides the department with documentary evidence that the ambulatory surgical facility has been certified or accredited as a result of a survey and the date of the survey.

(3) Ambulatory surgical facilities shall make the written reports of surveys conducted pursuant to medicare certification procedures or by an approved accrediting organization available to department surveyors during any department surveys, upon request. [2007 c 273 § 11.]

70.230.110 Ambulatory surgical facilities—Submission of data related to the quality of patient care. (Effective July 1, 2009.) The department shall require ambulatory surgical facilities to submit data related to the quality of patient care for review by the department. The data shall be submitted every eighteen months. The department shall consider the reporting standards of other public and private organizations that measure quality in order to maintain consistency in reporting and minimize the burden on the ambulatory surgical facility. The department shall review the data to
determine the maintenance of quality patient care at the facility. If the department determines that the care offered at the facility may present a risk to the health and safety of patients, the department may conduct an inspection of the facility and initiate appropriate actions to protect the public. Information submitted to the department pursuant to this section shall be exempt from disclosure under chapter 42.56 RCW. [2007 c 273 § 12.]

70.230.120 Reports—Discipline of a health care provider for unprofessional conduct—Penalties. (Effective July 1, 2009.) (1) The chief administrator or executive officer of an ambulatory surgical facility shall report to the department when the practice of a health care provider licensed by a disciplining authority under RCW 18.130.040 is restricted, suspended, limited, or terminated based upon a conviction, determination, or finding by the ambulatory surgical facility that the provider has committed an action defined as unprofessional conduct under RCW 18.130.180. The chief administrator or executive officer shall also report any voluntary restriction or termination of the practice of a health care provider licensed by a disciplining authority under RCW 18.130.040 while the provider is under investigation or the subject of a proceeding by the ambulatory surgical facility regarding unprofessional conduct, or in return for the ambulatory surgical facility not conducting such an investigation or proceeding or not taking action. The department shall forward the report to the appropriate disciplining authority.

(2) Reports made under subsection (1) of this section must be made within fifteen days of the date of: (a) A conviction, determination, or finding by the ambulatory surgical facility that the health care provider has committed an action defined as unprofessional conduct under RCW 18.130.180; or (b) acceptance by the ambulatory surgical facility of the voluntary restriction or termination of the practice of a health care provider, including his or her voluntary resignation, while under investigation or the subject of proceedings regarding unprofessional conduct under RCW 18.130.180.

(3) Failure of an ambulatory surgical facility to comply with this section is punishable by a civil penalty not to exceed two hundred fifty dollars. [2007 c 273 § 13.]

70.230.130 Written records—Decisions to restrict or terminate privileges of practitioners—Penalties. (Effective July 1, 2009.) Each ambulatory surgical facility shall keep written records of decisions to restrict or terminate privileges of practitioners. Copies of such records shall be made available to the medical quality assurance commission, the board of osteopathic medicine and surgery, or the podiatric medical board, within thirty days of a request, and all information so gained remains confidential in accordance with RCW 70.230.080 and 70.230.120 and is protected from the discovery process. Failure of an ambulatory surgical facility to comply with this section is punishable by a civil penalty not to exceed two hundred fifty dollars. [2007 c 273 § 14.]

Notifications of unanticipated outcomes under this section do not constitute an acknowledgement or admission of liability, nor may the fact of notification, the content disclosed, or any and all statements, affirmations, gestures, or conduct expressing apology be introduced as evidence in a civil action. [2007 c 273 § 16.]

**70.230.160 Complaint toll-free telephone number—Notice. LIMITING GREENHOUSE GAS EMISSIONS

70.235.020 Greenhouse gas emissions reductions—Reporting requirements.
70.235.030 Development of a design for a regional multisector market-based system to limit and reduce emissions of greenhouse gas—Information required to be submitted to the legislature.
70.235.040 Consultation with climate impacts group at the University of Washington—Report to the legislature.
70.235.901 Severability—2008 c 14.

70.235.005 Findings—Intent. (1) The legislature finds that Washington has long been a national and international leader on energy conservation and environmental stewardship, including air quality protection, renewable energy development and generation, emission standards for fossil-fuel based energy generation, energy efficiency programs, natural resource conservation, vehicle emission standards, and the use of biofuels. Washington is also unique among most states in that in addition to its commitment to reduce emissions of greenhouse gases, it has established goals to grow the clean energy sector and reduce the state’s expenditures on imported fuels.

(2) The legislature further finds that Washington should continue its leadership on climate change policy by creating accountability for achieving the emission reductions established in RCW 70.235.020, participating in the design of a regional multisector market-based system to help achieve those emission reductions, assessing other market strategies to reduce emissions of greenhouse gases, and ensuring the state has a well trained workforce for our clean energy future.

(3) It is the intent of the legislature that the state will: (a) Limit and reduce emissions of greenhouse gas consistent with the emission reductions established in RCW 70.235.020; (b) minimize the potential to export pollution, jobs, and economic opportunities; and (c) reduce emissions at the lowest cost to Washington’s economy, consumers, and businesses.

(4) In the event the state elects to participate in a regional multisector market-based system, it is the intent of the legislature that the system will become effective by January 1, 2012, after authority is provided to the department for its implementation. By acting now, Washington businesses and citizens will have adequate time and opportunities to be well positioned to take advantage of the low-carbon economy and to make necessary investments in low-carbon technology.

(5) It is also the intent of the legislature that the regional multisector market-based system recognize Washington’s unique emissions portfolio, including the state’s hydroelectric system, the opportunities presented by Washington’s abundant forest resources and agriculture land, and the state’s leadership in energy efficiency and the actions it has already taken that have reduced its generation of greenhouse gas emissions and that entities receive appropriate credit for early actions to reduce greenhouse gases.

(6) If any revenues that accrue to the state are created by a market system, they must be used to further the state’s efforts to achieve the goals established in RCW 70.235.020, address the impacts of global warming on affected habitats, species, and communities, and increase investment in the clean energy economy particularly for communities and workers that have suffered from heavy job losses and chronic unemployment and underemployment. [2008 c 14 § 1.]

70.235.010 Definition. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Carbon dioxide equivalents" means a metric measure used to compare the emissions from various greenhouse gases based upon their global warming potential.

(2) "Climate advisory team" means the stakeholder group formed in response to executive order 07-02.
