78.52.290 Limitation of production to "gas allowable"—Proration. Whenever the total amount of gas which all of the pools in this state can currently produce in accordance with good operating practice exceeds the amount reasonably required to meet the reasonable market demand, the department shall limit the gas which may be currently produced to an amount, designated as the "gas allowable," which will not exceed the reasonable market demand for gas. The department shall then prorate the "gas allowable" among the pools on a reasonable basis, avoiding undue discrimination among the pools, and so that waste will be prevented, giving due consideration to location of pipe lines, cost of interconnecting such pipe lines, and other pertinent factors, and insofar as applicable, the provisions of RCW 78.52.270 shall be followed in determining the "gas allowable" and in prorating such "gas allowable" among the pools therein: PROVIDED, HOWEVER, That in determining the reasonable market demand for gas as between pools, the department shall give due regard to the fact that gas produced from oil pools is to be regulated in a manner which will protect the reasonable use of gas energy for oil production and promote the most or maximum efficient recovery of oil from such pools. [1994 sp.s. c 9 § 838; 1951 c 146 § 31.]

78.52.300 Limitation of gas production from one pool. Whenever the total amount of gas which may be currently produced from all of the pools in this state has not been limited as hereinabove provided, and the available production from any one pool containing gas only is in excess of the reasonable market demand or available transportation facilities for gas from such pool, the department shall limit the production of gas from such pool to that amount which does not exceed the reasonable market demand or transportation facilities for gas from such pool. [1994 sp.s. c 9 § 839; 1951 c 146 § 32.]

Severability—Headings and captions not law—Effective date—1994 sp.s. c 9: See RCW 18.79.900 through 18.79.902.

78.52.310 Proration of allowable production in pool—Publication of orders—Emergency orders. Whenever the department limits the total amount of oil or gas which may be produced from any pool to an amount less than that which the pool could produce if no restrictions were imposed (whether incidental to, or without, a limitation of the total amount of oil which may be produced in the state) the department shall prorate the allowable production for the pool among the producers in the pool on a reasonable basis, so that each producer will have opportunity to produce or receive his or her just and equitable share, subject to the reasonable necessities for the prevention of waste, giving where reasonable, under the circumstances, to each pool with small wells of settled production, allowable production which prevents the premature abandonment of wells in the pool.

All orders establishing the "oil allowable" and "gas allowable" for this state, and all orders prorating such allowables as herein provided, and any changes thereof, for any month or period shall be issued by the department on or before the fifteenth day of the month preceding the month for which such orders are to be effective, and such orders shall be immediately published in some newspaper of general circulation printed in Olympia, Washington. No orders establishing such allowables, or prorating such allowables, or any changes thereof, shall be issued without first having a hearing, after notice, as provided in this chapter: PROVIDED, HOWEVER, When in the judgment of the department, an emergency requiring immediate action is found to exist, the department may issue an emergency order under this section which shall have the same effect and validity as if a hearing with respect to the same had been held after due notice. The emergency order permitted by this section shall remain in force no longer than thirty days, and in any event it shall expire when the order made after due notice and hearing with respect to the subject matter of the emergency order becomes effective. [1994 sp.s. c 9 § 840; 1951 c 146 § 33.]

Severability—Headings and captions not law—Effective date—1994 sp.s. c 9: See RCW 18.79.900 through 18.79.902.

78.52.320 Compliance with limitation or proration required. Whenever the production of oil or gas in this state or any pool therein is limited and the "oil allowable" or "gas allowable" is established and prorated by the department as provided in RCW 78.52.310, no person shall thereafter produce from any well, pool, lease, or property more than the production which is prorated thereto. [1994 sp.s. c 9 § 841; 1951 c 146 § 34.]

78.52.330 Unit operation of separately owned tracts.
To assist in the development of oil and gas in this state and to further the purposes of this chapter, the persons owning interests in separate tracts of land, may validly agree to integrate their interests and manage, operate, and develop their land as a unit, subject to the approval of the department. [1994 sp.s. c 9 § 842; 1951 c 146 § 35.]

(2008 Ed.)

78.52.335 Unit operation of pools. (1) The department shall upon the application of any interested person, or upon its own motion, hold a hearing to consider the need for the operation as a unit of one or more pools or parts of them in a field.

(2) The department may enter an order providing for the unit operations if it finds that:

(a) The unit operations are necessary for secondary recovery or enhanced recovery purposes. For purposes of this chapter secondary or enhanced recovery means that oil or gas or both are recovered by any method, artificial flowing or pumping, that may be employed to produce oil or gas, or both, through the joint use of two or more wells with an application of energy extrinsic to the pool or pools. This includes pressuring, cycling, pressure maintenance, or injections into the pool or pools of a substance or form of energy: PROVIDED, That this does not include the injection in a well of a substance or form of energy for the sole purpose of (i) aiding in the lifting of fluids in the well, or (ii) stimulation of the reservoir at or near the well by mechanical, chemical, thermal, or explosive means;

(b) The unit operations will protect correlative rights;

(c) The operations will increase the ultimate recovery of oil or gas, or will prevent waste, or will prevent the drilling of unnecessary wells; and

(d) The value of the estimated additional recovery of oil and/or gas exceeds the estimated additional cost incident to conducting these operations.

(3) The department may also enter an order providing for unit operations, after notice and hearing, only if the department finds that there is clear and convincing evidence that all of the following conditions are met:

(a) In the absence of unitization, the ultimate recovery of oil or gas, or both, will be substantially decreased because normal production techniques and methods are not feasible and will not result in the maximum efficient and economic recovery of oil or gas, or both;

(b) The unit operations will protect correlative rights;

(c) The unit operations will prevent waste, or will prevent the drilling of unnecessary wells;

(d) There has been a discovery of a commercial oil or gas field; and

(e) There has been sufficient exploration, drilling activity, and development to properly define the one or more pools or parts of them in a field proposed to be unitized.

(4) Notwithstanding any of the above, nothing in this chapter may be construed to prevent the voluntary agreement of all interested persons to any plan of unit operations. The department shall approve operations upon making a finding consistent with subsection (2) (b) and (c) of this section.

(5) The order shall be upon terms and conditions that are fair and reasonable and shall prescribe a plan for unit operations that includes:

(a) A description of the pool or pools or parts thereof to be so operated, termed the unitized area;

(b) A statement of the nature of the operations contemplated;

(c) An allocation of production and costs to the separately-owned tracts in the unitized area. The allocation shall be in accord with the agreement, if any, of the interested parties. If there is no agreement, production shall be allocated in a manner calculated to ensure that each owner’s correlative rights are protected, and each separately-owned tract or combination of tracts receives its fair and reasonable share of production. Costs shall be allocated on a fair and reasonable basis;

(d) A provision, if necessary, prescribing fair, reasonable, and equitable terms and conditions as to time and rate of interest for carrying or otherwise financing any person who is unable to promptly meet his or her financial obligations in connection with the unit, such carrying and interest charges to be paid as provided by the department from the person’s prorated share of production;

(e) A provision for the supervision and conduct of the unit operations, in respect to which each owner shall have a vote with a value corresponding to the percentage of the costs of unit operations chargeable against the owner’s interest;

(f) The time when the unit operations shall commence, the timetable for development, and the manner and circumstances under which the unit operations shall terminate; and

(g) Additional provisions which are found to be appropriate for carrying out the unit operations and for the protection of correlative rights.

(6) No order of the department providing for unit operations may become effective until:

(a) The plan for unit operations approved by the department has been approved in writing by those persons who, under the department’s order, will be required to pay at least seventy-five percent of the costs of unit operations;

(b) The plan has been approved in writing by those persons such as royalty owners, overriding royalty owners, and production payment owners, who own at least seventy-five percent of the production or proceeds thereof that will be credited to interests that are free of costs; and

(c) The department has made a finding, either in the order providing for unit operations or in a supplemental order, that the plan for unit operations has been so approved. If the plan for unit operations has not been so approved at the time the order providing for unit operations is made, the department shall upon application and notice hold such supplemental hearings as may be required to determine if and when the plan for unit operations has been so approved. If the persons owning required percentages of interest in the unitized area do not approve the plan for unit operations within a period of six months from the date on which the order providing for unit operations is made, or within such additional period or periods of time as the department prescribes, the order will become unenforceable and shall be vacated by the department.
(7) An order providing for unit operations may be amended by an order made by the department in the same manner and subject to the same conditions as an original order, except as provided in subsection (8) of this section, providing for unit operations, but (a) if such an amendment affects only the rights and interests of the owners, the approval of the amendment by those persons who own interests that are free of costs is not required, and (b) no such amending order may change the percentage for the allocation of oil and gas as established for any separately-owned tract or combination of tracts by the original order, except with the consent of all persons owning oil and gas rights in the tract, and no such order may change the percentage for the allocation of cost as established for any separately-owned tract or combination of tracts by the original order, except with the consent of all persons owning an interest in the tract or combination of tracts. An amendment that provides for the expansion of the unit area shall comply with subsection (8) of this section.

(8) The department, by order, may provide for the unit operation of a reservoir or reservoirs or parts thereof that include a unitized area established by a previous order of the department. The order, in providing for the allocation of unit production, shall first treat the unitized area previously established as a single tract and the portion of the new unit production allocated thereto shall then be allocated among the separately-owned tracts included in the previously established unit area in the same proportions as those specified in the previous order. (9) After the date designated by the department the unit plan shall be effective, oil and gas leases within the unit area, or other contracts pertaining to the development thereof, shall be changed only to the extent necessary to meet the requirements of the unit plan, and otherwise shall remain in full force. Operations carried on under and in accordance with the unit plan shall be regarded and considered as fulfillment of and compliance with all of the provisions, covenants, and conditions, expressed or implied, of the several oil and gas leases upon lands within the unit area, or other contracts pertaining to the development thereof, insofar as the leases or other contracts may relate to the pool or field subject to the unit plan. The amount of production apportioned and allocated under the unit plan to each separately-owned tract within the unit area, and only that amount, regardless of the location of the well within the unit area from which it may be produced, and regardless of whether it is more or less than the amount of production from the well, if any, on each separately-owned tract, shall for all purposes be regarded as production from the separately-owned tract. Lessees shall not be obligated to pay royalties or make other payments, required by the oil and gas leases or other contracts affecting each such separately-owned tract, on production in excess of that amount apportioned and allocated to the separately-owned tract under the unit plan.

(10) The portion of the unit production allocated to any tract and the proceeds from its sale are the property and income of the several persons to whom, or to whose credit, the portion and proceeds are allocated or payable under the order providing for unit operations.

(11) No division order or other contract relating to the sale, purchase, or production from a separately-owned tract or combination of tracts may be terminated by the order providing for unit operations but shall remain in force and shall apply to oil and gas allocated to the tract until terminated by an amended division order or contract in accordance with the order.

(12) Except to the extent that parties affected so agree, an order providing for unit operations shall not be construed to result in a transfer of all or any part of the title of any person to the oil and gas rights in any tract in the unit area. All property, whether real or personal, that may be acquired in the conduct of unit operations hereunder shall be acquired for the account of the owners within the unit area, and shall be the property of those owners in the proportion that the expenses of unit operations are charged.

(13) After the date designated by the order of the department that a unit plan shall become effective, the designation of one or more unit operators shall be by vote of the lessees of land in the unit area, in a manner to be provided in the unit plan, and any operations in conflict with such unit plan shall be unlawful and are prohibited.

(14) A certified copy of any order of the department entered under this section is entitled to be recorded in the auditor’s office in the county or counties wherein all or any portion of the unit area is located and, if recorded, constitute notice thereof to all persons. A copy of this order shall be mailed by certified mail to all interested persons.

(15) No order for unitization may be construed to allow the drilling of a well on a tract within the unit which is not leased or under contract for oil and gas exploration or production. [1994 sps. c 9 § 843; 1983 c 253 § 23.]

78.52.345 Ratable purchase of oil from owners or operators of pool required. Each person now or hereafter purchasing or taking for transportation oil from any owner or producer shall purchase or take ratably without discrimination in favor of any owner or operator over any other owner or producer in the same pool offering to sell his or her oil produced therefrom to that person. If the person purchasing or taking for transportation oil does not have need for all such oil lawfully produced within a pool, or if for any reason is unable to purchase all of the oil, then it shall purchase from each operator in a pool ratably, taking and purchasing the same quantity of oil from each well to the extent that each well is capable of producing its ratable portion without waste. Nothing in this section may be construed to require any owner or operator to sell his or her product to only one purchaser or to require more than one pipeline connection for each producing well. If any such purchaser or person taking oil for transportation is likewise an operator or owner, the purchaser or person is prohibited from discriminating in favor of his or her own production, or production in which he or she may be interested, and his or her own production shall be treated as that of any other operator or owner. [1983 c 253 § 24.]

78.52.355 Ratable purchase of gas from owners or operators of pool required. Each person now or hereafter purchasing or taking for transportation gas produced from gas wells or from oil wells from any owner or operator shall
purchase or take ratably without discrimination in favor of any owner or operator, over any other owner or operator in a pool. The person shall not discriminate in the quantities purchased, the basis of measurement, or the gas transportation facilities afforded for gas of like quantity, quality, and pressure available from such wells. For the purpose of this section and RCW 78.52.345, reasonable differences in quantity taken or facilities afforded do not constitute unreasonable discrimination if the differences bear a fair relationship to differences in quality, quantity, or pressure of the gas available or the acreage attributable to the well, market requirements, or to the relative lengths of time during which the gas will be available to the purchaser. If the purchaser or person taking gas for transportation is likewise an operator or owner, the purchaser or person is prohibited from discriminating in favor of quantities taken or facilities in which he or she may be interested, and his or her own production shall be treated as that of any other operator or owner producing from gas wells in the same pool. [1983 c 253 § 25.]

78.52.365 Enforcement of RCW 78.52.345 and 78.52.355. The department may administer and enforce RCW 78.52.345 and 78.52.355 in accordance with the procedures in this chapter for its enforcement and with the rules and orders of the department. [1994 sp.s. c 9 § 844; 1983 c 253 § 26.]

Severability—Headings and captions not law—Effective date—1994 sp.s. c 9: See RCW 18.79.900 through 18.79.902.

78.52.450 Participation of public lands in unit plan. The commissioner of public lands, or other officer or board having the control and management of state land, and the proper board or officer of any political, municipal, or other subdivision or agency of the state having control and management of public lands, may, on behalf of the state or of such political, municipal, or other subdivision or agency thereof, with respect to land and oil and gas rights subject to the control and management of such respective body, board or officer, consent to and participate in any unit plan. [1951 c 146 § 48.]

78.52.460 Unit plan not deemed monopolistic. No plan for the operation of a field or pool of oil or gas as a unit, either whole or in part, created or approved by the department under this chapter may be held to violate any of the statutes of this state prohibiting monopolies or acts, arrangements, agreements, contracts, combinations, or conspiracies in restraint of trade or commerce. [1994 sp.s. c 9 § 845; 1951 c 146 § 49.]

Severability—Headings and captions not law—Effective date—1994 sp.s. c 9: See RCW 18.79.900 through 18.79.902.

78.52.463 Suspension of operations for violation—Notice—Order—Hearing—Stay of order. (1) Any operation or activity that is in violation of applicable laws, rules, orders, or permit conditions is subject to suspension by order of the department. The order may suspend the operations authorized in the permit in whole or in part. The order may be issued only after the department has first notified the operator or owner of the violations and the operator or owner has failed to comply with the directions contained in the notification within ten days of service of the notice: PROVIDED, That the department may issue the suspension order immediately without notice if the violations are or may cause substantial harm to adjacent property, persons, or public resources, or has or may result in the pollution of waters in violation of any state or federal law or rule. A suspension shall remain in effect until the violations are corrected or other directives are complied with unless declared invalid by the department after hearing or an appeal. The suspension order and notification, where applicable, shall specify the violations and the actions required to be undertaken to be in compliance with such laws, rules, orders, or permit conditions. The order and notification may also require remedial actions to be undertaken to restore, prevent, or correct activities or conditions which have resulted from the violations. The order and notification may be directed to the operator or owner or both.

(2) The suspension order constitutes a final and binding order unless the owner or operator to whom the order is directed requests a hearing before the department within fifteen days after service of the order. Such a request shall not in itself stay or suspend the order and the operator or owner shall comply with the order immediately upon service. The department may stay or suspend in whole or in part the suspension order pending a hearing if so requested. The hearing shall constitute an adjudicative proceeding under chapter 34.05 RCW, the Administrative Procedure Act. [1994 sp.s. c 9 § 846; 1989 c 175 § 167; 1983 c 253 § 29.]

78.52.467 Illegal oil, gas, or product—Sale, purchase, etc., prohibited—Seizure and sale—Deposit of proceeds. (1) The sale, purchase, acquisition, transportation, refining, processing, or handling of illegal oil, gas, or product is prohibited. However, no penalty by way of fine may be imposed upon a person who sells, purchases, acquires, transports, refines, processes, or handles illegal oil, gas, or product unless (a) the person knows, or is put on notice of, facts indicating that illegal oil, illegal gas, or illegal product is involved, or (b) the person fails to obtain a certificate of clearance with respect to the oil, gas, or product if prescribed by rule or order of the department, or fails to follow any other method prescribed by an order of the department for the identification of the oil, gas, or product.

(2) Illegal oil, illegal gas, and illegal product are declared to be contraband and are subject to seizure and sale as provided in this section. Seizure and sale shall be in addition to all other remedies and penalties provided in this chapter for violations relating to illegal oil, illegal gas, or illegal product. If the department believes that any oil, gas, or product is illegal, the department acting through the attorney general, shall bring a civil action in rem in the superior court of the county in which the oil, gas, or product is found, to seize and sell the same, or the department may include such an action in rem in any suit brought for an injunction or penalty involving illegal oil, illegal gas, or illegal product. A person claiming an interest in oil, gas, or product affected by an action in rem has the right to intervene as an interested party.
(3) Actions for the seizure and sale of illegal oil, illegal gas, or illegal product shall be strictly in rem and shall proceed in the name of the state as plaintiff against the oil, gas, or product as defendant. No bond or similar undertaking may be required of the plaintiff. Upon the filing of the petition for seizure and sale, the clerk of the court shall issue a summons, with a copy of the petition attached thereto, directed to the sheriff of the county or to another officer or person whom the court may designate, for service upon all persons having or claiming any interest in the oil, gas, or product described in the petition. The summons shall command these persons to appear and answer within twenty days after the issuance and service of the summons. These persons need not be named or otherwise identified in the summons, and the summons shall be served by posting a copy of the summons, with a copy of the petition attached, on any public bulletin board or at the courthouse of a county where the oil, gas, or product involved is located, and by posting another copy at or near the place where the oil, gas, or product is located. The posting constitutes notice of the action to all persons having or claiming any interest in the oil, gas, or product described in the petition. In addition, if the court, on a properly verified petition, or affidavit or affidavits, or oral testimony, finds that grounds for seizure and for sale exist, the court shall issue an immediate order of seizure, describing the oil, gas, or product to be seized, and directing the sheriff of the county to take the oil, gas, or product into the sheriff’s actual or constructive custody and to hold the same subject to further orders of the court. The court, in the order of seizure, may direct the sheriff to deliver the oil, gas, or product seized by him or her under the order to a court-appointed agent. The agent shall give bond in an amount and with such surety as the court may direct, conditioned upon compliance with the orders of the court concerning the custody and disposition of the oil, gas, or product.

(4) Any person having an interest in oil, gas, or product described in order of seizure and contesting the right of the state to seize and sell the oil, gas, or product may obtain its release prior to sale upon furnishing to the sheriff a bond approved by the court. The bond shall be in an amount equal to one hundred fifty percent of the market value of the oil, gas, or product to be released and shall be conditioned upon either redelivery to the sheriff of the released commodity or payment to the sheriff of its market value, if and when ordered by the court, and upon full compliance with further orders of the court.

(5) If the court, after a hearing upon a petition for the seizure and sale of oil, gas, or product, finds that the oil, gas, or product is contraband, the court shall order its sale by the sheriff in the same manner and upon the same notice of sale as provided by law for the sale of personal property on execution of judgment entered in a civil action, except that the court may order that the oil, gas, or product be sold in specified lots or portions and at specified intervals. Upon sale, title to the oil, gas, or product sold shall vest in the purchaser free of all claims, and it shall be legal oil, legal gas, or legal product in the hands of the purchaser.

(6) All proceeds, less costs of suit and expenses of sale, which are derived from the sale of illegal oil, illegal gas, or illegal product, and all amounts paid as penalties provided for by this chapter, shall be paid into the state treasury for the use of the department in defraying its expenses in the same manner as other funds provided by law for the use of the department. [1994 sp.s. c 9 § 847; 1983 c 253 § 30.]

78.52.470 Objections to order—Hearing required—Modification of order. Any person adversely affected by any order of the department may, within thirty days from the effective date of such order, apply for a hearing with respect to any matter determined therein. No cause for action arising out of any order of the department accrues in any court to any person unless the person makes application for a hearing as provided in this section. Such application shall set forth specifically the ground on which the applicant considers the order to be unlawful or unreasonable. No party shall, in any court, urge or rely upon any ground not set forth in said application. An order made in conformity to a decision resulting from a hearing which abrogates, changes, or modifies the original order shall have the same force and effect as an original. Such hearing shall constitute an adjudicative proceeding under chapter 34.05 RCW, the Administrative Procedure Act, and shall be conducted in accordance with its provisions. [1994 sp.s. c 9 § 848; 1989 c 175 § 168; 1983 c 253 § 27; 1951 c 146 § 50.]

78.52.480 Appeal from order or decision—Rights of department. In proceedings for review of an order or decision of the department, the department shall be a party to the proceedings and shall have all rights and privileges granted by this chapter to any other party to such proceedings. 78.52.490 Appeal—How taken. Within thirty days after the application for a hearing is denied, or if the application is granted, then within thirty days after the rendition of the decision on the hearing, the applicant may apply to the superior court, at the petitioner’s option, for (a) Thurston county, (b) the county of petitioner’s residence or place of business, or (c) in any county where the property or property rights owned by the petitioner is located for a review of such rule, regulation, order, or decision. The application for review shall be filed in the office of the clerk of the superior court of Thurston county and shall specifically state the grounds for review upon which the applicant relies and shall designate the rule, regulation, order, or decision sought to be reviewed. The applicant shall immediately serve a certified copy of said application upon the commissioner of public lands who shall immediately notify all parties who appeared in the proceedings before the department that such application for review has been filed. In the event the court determines the review is solely for the purpose of determining the validity of a rule or regulation of general applicability the court shall transfer venue to Thurston county for a review of such rule or regulation in the manner provided for in RCW
34.05.570. [1994 sp.s. c 9 § 850; 1983 c 253 § 32; 1951 c 146 § 52.]

78.52.530 Violations—Injunctions. Whenever it shall appear that any person is violating any provisions of this chapter, or any rule, regulation, or order made by the department under this chapter, and if the department cannot, without litigation, effectively prevent further violation, the department may bring suit in the name of the state against such person in the superior court in the county of the residence of the defendant, or in the county of the residence of any defendant if there be more than one defendant, or in the county where the violation is alleged to have occurred, to restrain such person from continuing such violation. In such suit the department may without bond obtain injunctions prohibiting and mandatory, including temporary restraining orders and preliminary injunctions, as the facts may warrant. [1994 sp.s. c 9 § 851; 1951 c 146 § 56.]

Severability—Headings and captions not law—Effective date—1994 sp.s. c 9: See RCW 18.79.900 through 18.79.902.

78.52.540 Violations—Injunctions by private party. If the department fails to bring suit within thirty days to enjoin any apparent violation of this chapter, or of any rule, regulation, or order made by the department under this chapter, then any person or party in interest adversely affected by such violation, who has requested the department in writing to sue, may, to prevent any or further violation, bring suit for that purpose in the superior court of any county where the department could have instituted such suit. If, in such suit, the court should hold that injunctive relief should be granted, then the state shall be made a party and shall be substituted for the person who brought the suit, and the injunction shall be issued as if the state had at all times been the complainant. [1994 sp.s. c 9 § 852; 1951 c 146 § 57.]

Severability—Headings and captions not law—Effective date—1994 sp.s. c 9: See RCW 18.79.900 through 18.79.902.

78.52.550 Violations—Penalty. Every person who shall violate or knowingly aid and abet the violation of this chapter or any valid orders, rules and regulations issued thereunder, or who fails to perform any act which is herein made his duty to perform, shall be guilty of a gross misdemeanor. [1951 c 146 § 58.]

78.56.010 Intent. It is in the best interests of the citizens of the state of Washington to insure the highest degree of environmental protection while allowing the proper development and use of its natural resources, including its mineral resources. Metals mining can have significant positive and adverse impacts on the state and on local communities. The purpose of this chapter is to assure that metals mineral mining or milling operations are designed, constructed, and operated in a manner that promotes both economic opportunities and environmental and public health safeguards for the citizens of the state. It is the intent of the legislature to create a regulatory framework which yields, to the greatest extent possible, a metals mining industry that is compatible with these policies. [1994 c 232 § 1.]
78.56.020 Definitions. The definitions set forth in this section apply throughout this chapter. (1) "Metals mining and milling operation" means a mining operation extracting from the earth precious or base metal ore and processing the ore by treatment or concentration in a milling facility. It also refers to an expansion of an existing operation or any new metals mining operation if the expansion or new mining operation is likely to result in a significant, adverse environmental impact pursuant to the provisions of chapter 43.21C RCW. The extraction of dolomite, sand, gravel, aggregate, limestone, magnesite, silica rock, and zeolite or other nonmetallic minerals; and placer mining; and the smelting of aluminum are not metals mining and milling operations regulated under this chapter. (2) "Milling" means the process of grinding or crushing ore and extracting the base or precious metal by chemical solution, electro winning, or flotation processes. (3) "Heap leach extraction process" means the process of extracting base or precious metal ore by percolating solutions through ore in an open system and includes reprocessing of previously milled ore. The heap leach extraction process does not include leaching in a vat or tank. (4) "In situ extraction" means the process of dissolving base or precious metals from their natural place in the geological setting and retrieving the solutions from which metals can be recovered. (5) "Regulated substances" means any materials regulated under a waste discharge permit pursuant to the requirements of chapter 90.48 RCW and/or a permit issued pursuant to chapter 70.94 RCW. (6) "To mitigate" means: (a) To avoid the adverse impact altogether by not taking a certain action or parts of an action; (b) to minimize adverse impacts by limiting the degree or magnitude of the action and its implementation, by using appropriate technology or by taking affirmative steps to avoid or reduce impacts; (c) to rectify adverse impacts by repairing, rehabilitating, or restoring the affected environment; (d) to reduce or eliminate adverse impacts over time by preservation and maintenance operations during the life of the action; (e) to compensate for the impact by replacing, enhancing, or providing substitute resources or environments; or (f) to monitor the adverse impact and take appropriate corrective measures. [1994 c 232 § 2.]

78.56.030 Operations subject to this chapter and other requirements. Metals mining and milling operations are subject to the requirements of this chapter in addition to the requirements established in other statutes and rules. [1994 c 232 § 3.]

78.56.040 Disclosures required with state environmental policy act checklist—Public inspection of information. The department of ecology shall require each applicant submitting a checklist pursuant to chapter 43.21C RCW for a metals mining and milling operation to disclose the ownership and each controlling interest in the proposed operation. The applicant shall also disclose all other mining operations within the United States which the applicant operates or in which the applicant has an ownership or controlling interest. In addition, the applicant shall disclose and may enumerate and describe the circumstances of: (1) Any past or present bankruptcies involving the ownerships and their subsidiaries, (2) any abandonment of sites regulated by the model toxics control act, chapter 70.105D RCW, or other similar state remedial cleanup programs, or the federal comprehensive environmental response, compensation, and liability act, 42 U.S.C. Sec. 9601 et seq., as amended, (3) any penalties in excess of ten thousand dollars assessed for violations of the provisions of 33 U.S.C. Sec. 1251 et seq. or 42 U.S.C. Sec. 7401 et seq., and (4) any previous forfeitures of financial assurance due to noncompliance with reclamation or remediation requirements. This information shall be available for public inspection and copying at the department of ecology. Ownership or control of less than ten percent of the stock of a corporation shall not by itself constitute ownership or a controlling interest under this section. [1994 c 232 § 4.]

78.56.050 Environmental impact statement required—Mitigation measures to be part of permit requirements—Department of ecology to cooperate with affected local governments. (1) An environmental impact statement must be prepared for any proposed metals mining and milling operation. The department of ecology shall be the lead agency in coordinating the environmental review process under chapter 43.21C RCW and in preparing the environmental impact statement, except for uranium and thorium operations regulated under Title 70 RCW. (2) As part of the environmental review of metals mining and milling operations regulated under this chapter, the applicant shall provide baseline data adequate to document the premining conditions at the proposed site of the metals mining and milling operation. The baseline data shall contain information on the elements of the natural environment identified in rules adopted pursuant to chapter 43.21C RCW. (3) The department of ecology, after consultation with the department of fish and wildlife, shall incorporate measures to mitigate significant probable adverse impacts to fish and wildlife as part of the department of ecology’s permit requirements for the proposed operation. (4) In conducting the environmental review and preparing the environmental impact statement, the department of ecology shall cooperate with all affected local governments to the fullest extent practicable. [1994 c 232 § 5.]

78.56.060 Metals mining coordinator to be appointed—Duties. The department of ecology will appoint a metals mining coordinator. The coordinator will maintain current information on the status of any metals mining and milling operation regulated under this chapter from the preparation of the environmental impact statement through the permitting, construction, operation, and reclamation phases of the project or until the proposal is no longer active. The coordinator shall also maintain current information on postclosure activities. The coordinator will act as a contact person for the applicant, the operator, and interested members of the public. The coordinator may also assist agencies with coordination of their inspection and monitoring responsibilities. [1994 c 232 § 6.]
78.56.070 Quarterly inspections by responsible state agencies required—Cross-training and coordination of inspections encouraged. (1) State agencies with the responsibility for inspecting metals mining and milling operations regulated under this chapter shall conduct such inspections at least quarterly: PROVIDED, That the inspections are not prevented by inclement weather conditions. 

(2) The legislature encourages state agencies with inspection responsibilities for metals mining and milling operations regulated under this chapter to explore opportunities for cross-training of inspectors among state agencies and programs. This cross-training would be for the purpose of meeting the inspection responsibilities of these agencies in a more efficient and cost-effective manner. If doing so would be more efficient and cost-effective, state agency inspectors are also encouraged to coordinate inspections with federal and local government inspectors as well as with one another. [1994 c 232 § 7.]

78.56.080 Metals mining account—Estimate of costs by department of ecology and department of natural resources—Fee on operations to be established by department of ecology. (1) The metals mining account is created in the state treasury. Expenditures from this account are subject to appropriation. Expenditures from this account may only be used for: (a) The additional inspections of metals mining and milling operations required by RCW 78.56.070 and (b) the metals mining coordinator established in RCW 78.56.060.

(2)(a) As part of its normal budget development process and in consultation with the metals mining industry, the department of ecology shall estimate the costs required for the department to meet its obligations for the additional inspections of metals mining and milling operations required by chapter 232, Laws of 1994. The department shall also estimate the cost of employing the metals mining coordinator established in RCW 78.56.060.

(b) As part of its normal budget development process and in consultation with the metals mining industry, the department of natural resources shall estimate the costs required for the department to meet its obligations for the additional inspections of metals mining and milling operations required by chapter 232, Laws of 1994.

(3) Based on the cost estimates generated by the department of ecology and the department of natural resources, the department of ecology shall establish the amount of a fee to be paid by each active metals mining and milling operation regulated under this chapter. The fee shall be established at a level to fully recover the direct and indirect costs of the agency responsibilities identified in subsection (2) of this section. The amount of the fee for each operation shall be proportional to the number of visits required per site. Each applicant for a metals mining and milling operation shall also be assessed the fee based on the same criterion. The department of ecology may adjust the fees established in this subsection if unanticipated activity in the industry increases or decreases the amount of funding necessary to meet agencies' inspection responsibilities.

(4) The department of ecology shall collect the fees established in subsection (3) of this section. All moneys from these fees shall be deposited into the metals mining account. [1997 c 170 § 2; 1994 c 232 § 8.]

Effective date—1997 c 170: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect July 1, 1997." [1997 c 170 § 2.]

78.56.090 Initial waste discharge permits for tailings facilities—Siting criteria—Primary screening process—Technical site investigation—Site selection report. (1) In the processing of an application for an initial waste discharge permit for a tailings facility pursuant to the requirements of chapter 90.48 RCW, the department of ecology shall consider site-specific criteria in determining a preferred location of tailings facilities of metals mining and milling operations and incorporate the requirements of all known available and reasonable methods in order to maintain the highest possible standards to insure the purity of all waters of the state in accordance with the public policy identified by RCW 90.48.010.

In implementing the siting criteria, the department shall take into account the objectives of the proponent’s application relating to mining and milling operations. These objectives shall consist of, but not be limited to (a) operational feasibility, (b) compatibility with optimum tailings placement methods, (c) adequate volume capacity, (d) availability of construction materials, and (e) an optimized embankment volume.

(2) To meet the mandate of subsection (1) of this section, siting of tailings facilities shall be accomplished through a two-stage process that consists of a primary alternatives screening phase, and a secondary technical site investigation phase.

(3) The primary screening phase will consist of, but not be limited to, siting criteria based on considerations as to location as follows:

(a) Proximity to the one hundred year floodplain, as indicated in the most recent federal emergency management agency maps;

(b) Proximity to surface and ground water;

(c) Topographic setting;

(d) Identifiable adverse geologic conditions, such as landslides and active faults; and

(e) Visibility impacts of the public generally and residents more particularly.

(4) The department of ecology, through the primary screening process, shall reduce the available tailings facility sites to one or more feasible locations whereupon a technical site investigation phase shall be conducted by the department for the purpose of verifying the adequacy of the remaining potential sites. The technical site investigations phase shall consist of, but not be limited to, the following:

(a) Soil characteristics;

(b) Hydrologic characteristics;

(c) A local and structural geology evaluation, including seismic conditions and related geotechnical investigations;

(d) A surface water control analysis; and

(e) A slope stability analysis.

(5) Upon completion of the two phase evaluation process set forth in this section, the department of ecology shall issue a site selection report on the preferred location. This report shall address the above criteria as well as analyze the feasibility of reclamation and stabilization of the tailings facility.
The siting report may recommend mitigation or engineering factors to address siting concerns. The report shall be developed in conjunction with the preparation of and contained in an environmental impact statement prepared pursuant to chapter 43.21C RCW. The report may be utilized by the department of ecology for the purpose of providing information related to the suitability of the site and for ruling on an application for a waste discharge permit.

(6) The department of ecology may, at its discretion, require the applicant to provide the information required in either phase one or phase two as described in subsections (3) and (4) of this section. [1994 c 232 § 9.]

78.56.100 Waste discharge permits for metals mining and milling operations tailing facilities—Pollution control standards—Waste rock management plan—Citizen observation and verification of water samples—Voluntary reduction plan—Application of this section. (1) In order to receive a waste discharge permit from the department of ecology pursuant to the requirements of chapter 90.48 RCW or in order to operate a metals mining and milling tailing facility, an applicant proposing a metals mining and milling operation regulated under this chapter must meet the following additional requirements:

(a) Any tailings facility shall be designed and operated to prevent the release of pollution and must meet the following standards:

(i) Operators shall apply all known available and reasonable technology to limit the concentration of potentially toxic materials in the tailings facility to assure the protection of wildlife and human health;

(ii) The tailings facility shall have a containment system that includes an engineered liner system, leak detection and leak collection elements, and a seepage impoundment to assure that a leak of any regulated substance under chapter 90.48 RCW will be detected before escaping from the containment system. The design and management of the facility must ensure that any leaks from the tailings facility are detected in a manner which allows for remediation pursuant to chapter 90.48 RCW. The applicant shall prepare a detailed engineering report setting forth the facility design and construction. The applicant shall submit the report to the department of ecology for its review and approval of a design as determined by the department. Natural conditions, such as depth to groundwater or net rainfall, shall be taken into account in the facility design, but not in lieu of the protection required by the engineered liner system;

(iii) The toxicity of mine or mill tailings and the potential for long-term release of regulated substances from mine or mill tailings shall be reduced to the greatest extent practicable through stabilization, removal, or reuse of the substances; and

(iv) The closure of the tailings facility shall provide for isolation or containment of potentially toxic materials and shall be designed to prevent future release of regulated substances contained in the impoundment;

(b) The applicant must develop a waste rock management plan approved by the department of ecology and the department of natural resources which emphasizes pollution prevention. At a minimum, the plan must contain the following elements:

(i) An accurate identification of the acid generating properties of the waste rock;

(ii) A strategy for encapsulating potentially toxic material from the environment, when appropriate, in order to prevent the release of heavy metals and acidic drainage; and

(iii) A plan for reclaiming and closing waste rock sites which minimizes infiltration of precipitation and runoff into the waste rock and which is designed to prevent future releases of regulated substances contained within the waste rock;

(c) If an interested citizen or citizen group so requests of the department of ecology, the metals mining and milling operator or applicant shall work with the department of ecology and the interested party to make arrangements for citizen observation and verification in the taking of required water samples. While it is the intent of this subsection to provide for citizen observation and verification of water sampling activities, it is not the intent of this subsection to require additional water sampling and analysis on the part of the mining and milling operation or the department. The citizen observation and verification program shall be incorporated into the applicant’s, operator’s, or department’s normal sampling regimen and shall occur at least once every six months. There is no duty of care on the part of the state or its employees to any person who participates in the citizen observation and verification of water sampling under chapter 232, Laws of 1994 and the state and its employees shall be immune from any civil lawsuit based on any injuries to or claims made by any person as a result of that person’s participation in such observation and verification of water sampling activities. The metals mining and milling operator or applicant shall not be liable for any injuries to or claims made by any person which result from that person coming onto the property of the metals mining and milling operator or applicant as an observer pursuant to chapter 232, Laws of 1994. The results from these and all other relevant water sampling activities shall be kept on file with the relevant county and shall be available for public inspection during normal working hours; and

(d) An operator or applicant for a metals mining and milling operation must complete a voluntary reduction plan in accordance with RCW 70.95C.200.

(2) Only those tailings facilities constructed after April 1, 1994, must meet the requirement established in subsection (1)(a) of this section. Only those waste rock holdings constructed after April 1, 1994, must meet the requirement established in subsection (1)(b) of this section. [1994 c 232 § 10.]

78.56.110 Performance security required—Conditions—Department of ecology authority to adopt requirements—Liability under performance security. (1) The department of ecology shall not issue necessary permits to an applicant for a metals mining and milling operation until the applicant has deposited with the department of ecology a performance security which is acceptable to the department of ecology based on the requirements of subsection (2) of this section. This performance security may be:

(a) Bank letters of credit;

(b) A cash deposit;

(c) Negotiable securities;

(d) An assignment of a savings account;

(e) A savings certificate in a Washington bank; or
(f) A corporate surety bond executed in favor of the department of ecology by a corporation authorized to do business in the state of Washington under Title 48 RCW.

The department of ecology may, for any reason, refuse any performance security not deemed adequate.

(2) The performance security shall be conditioned on the faithful performance of the applicant or operator in meeting the following obligations:

(a) Compliance with the environmental protection laws of the state of Washington administered by the department of ecology, or permit conditions administered by the department of ecology, associated with the construction, operation, and closure pertaining to metals mining and milling operations, and with the related environmental protection ordinances and permit conditions established by local government when requested by local government;

(b) Reclamation of metals mining and milling operations that do not meet the threshold of surface mining as defined by RCW 78.44.031(17);

(c) Postclosure environmental monitoring as determined by the department of ecology; and

(d) Provision of sufficient funding as determined by the department of ecology for cleanup of potential problems revealed during or after closure.

(3) The department of ecology may, if it deems appropriate, adopt rules for determining the amount of the performance security, requirements for the performance security, requirements for the issuer of the performance security, and any other requirements necessary for the implementation of this section.

(4) The department of ecology may increase or decrease the amount of the performance security at any time to compensate for any alteration in the operation that affects meeting the obligations in subsection (2) of this section. At a minimum, the department shall review the adequacy of the performance security every two years.

(5) Liability under the performance security shall be maintained until the obligations in subsection (2) of this section are met to the satisfaction of the department of ecology. Liability under the performance security may be released only upon written notification by the department of ecology.

(6) Any interest or appreciation on the performance security shall be held by the department of ecology until the obligations in subsection (2) of this section have been met to the satisfaction of the department of ecology. At such time, the interest shall be remitted to the applicant or operator. However, if the applicant or operator fails to comply with the obligations of subsection (2) of this section, the interest or appreciation may be used by the department of ecology to comply with the obligations.

(7) Only one agency may require a performance security to satisfy the deposit requirements of RCW 78.44.087, and only one agency may require a performance security to satisfy the deposit requirements of this section. However, a single performance security, when acceptable to both the department of ecology and the department of natural resources, may be utilized by both agencies to satisfy the requirements of this section and RCW 78.44.087. [1995 c 223 § 1; 1994 c 232 § 11.]

78.56.120 Remediation or mitigation by department of ecology—Order to submit performance security. The department of ecology may, with staff, equipment, and materials under its control, or by contract with others, remediate or mitigate any impact of a metals mining and milling operation when it finds that the operator or permit holder has failed to comply with relevant statutes, rules, or permits, and the operator or permit holder has failed to take adequate or timely action to rectify these impacts.

If the department intends to remediate or mitigate such impacts, the department shall issue an order to submit performance security requiring the permit holder or surety to submit to the department the amount of monies posted pursuant to RCW 78.56.110. If the amount specified in the order to submit performance security is not paid within twenty days after issuance of the notice, the attorney general upon request of the department shall bring an action on behalf of the state in a superior court to recover the amount specified and associated legal fees.

The department may proceed at any time after issuing the order to submit performance security to remediate or mitigate adverse impacts.

The department shall keep a record of all expenses incurred in carrying out any remediation or mitigation activities authorized under this section, including:

(1) Remediation or mitigation;

(2) A reasonable charge for the services performed by the state’s personnel and the state’s equipment and materials utilized; and

(3) Administrative and legal expenses related to remediation or mitigation.

The department shall refund to the surety or permit holder all amounts received in excess of the amount of expenses incurred. If the amount received is less than the expenses incurred, the attorney general, upon request of the department of ecology, may bring an action against the permit holder on behalf of the state in superior court to recover the remaining costs listed in this section. [1995 c 223 § 2; 1994 c 232 § 12.]

78.56.130 Legislative finding—Impact analysis required for large-scale operations—Impact fees by county legislative authority—Application of this section—Application of chapter 82.02 RCW. (1) The legislature finds that the construction and operation of large-scale metals mining and milling facilities may create new job opportunities and enhance local tax revenues. However, the legislature also finds that such operations may also result in new demands on public facilities owned and operated by local government entities, such as public streets and roads; publicly owned parks, open space, and recreation facilities; school facilities; and fire protection facilities in jurisdictions that are not part of a fire district. It is important for these economic impacts to be identified as part of any proposal for a large-scale metals mining and milling operation. It is then appropriate for the county legislative authority to balance expected revenues, including revenues derived from taxes paid by the owner of such an operation, and costs associated with the operation to determine to what degree any new costs require mitigation by the metals mining applicant.

[Title 78 RCW—page 38]
(2) An applicant for a large-scale metals mining and milling operation regulated under this chapter must submit to the relevant county legislative authority an impact analysis describing the economic impact of the proposed mining operation on local governmental units. For the purposes of this section, a metals mining operation is large-scale if, in the construction or operation of the mine and the associated milling facility, the applicant and contractors at the site employ more than thirty-five persons during any consecutive six-month period. The relevant county is the county in which the mine and mill are to be sited, unless the economic impacts to local governmental units are projected to substantially affect more than one county. In that case, the impact plan must be submitted to the legislative authority of all affected counties. Local governmental units include counties, cities, towns, school districts, and special purpose districts.

(3) The economic impact analysis shall include at least the following information:

(a) A timetable for development of the mining operation, including the opening date of the operation and the estimated closing date;

(b) The estimated number of persons coming into the impacted area as a result of the development of the mining operation;

(c) An estimate of the increased capital and operating costs to local governmental units for providing services necessary as a result of the development of the mining operation;

(d) An estimate of the increased tax or other revenues accruing to local governmental units as a result of development of the mining and milling operation.

(4) The county legislative authority of a county planning under chapter 36.70A RCW may assess impact fees under chapter 82.02 RCW to address economic impacts associated with development of the mining operation. The county legislative authority shall hold at least one public hearing on the economic impact analysis and any proposed mitigation measures.

(5) The county legislative authority of a county which is not planning under chapter 36.70A RCW may negotiate with the applicant on a strategy to address economic impacts associated with development of the mining operation. The county legislative authority shall hold at least one public hearing on the economic impact analysis and any proposed mitigation measures.

(6) The county legislative authority must approve or disapprove the impact analysis and any associated proposals from the applicant to address economic impacts to local governmental units resulting from development of the mining operation. If the applicant does not submit an adequate impact analysis to the relevant county legislative authority or if the county legislative authority does not find the applicant’s proposals to be acceptable because of their failure to adequately mitigate adverse economic impacts, the county legislative authority shall refuse to issue any permits under its jurisdiction necessary for the construction or operation of the mine and associated mill.

(7) The requirements established in this section apply to metals mining operations under construction or constructed after April 1, 1994.

(8) The provisions of chapter 82.02 RCW shall apply to new mining and milling operations. [1994 c 232 § 13.]

78.56.140 Citizen action suits. (1) Except as provided in subsections (2) and (5) of this section, any aggrieved person may commence a civil action on his or her own behalf:

(a) Against any person, including any state agency or local government agency, who is alleged to be in violation of a law, rule, order, or permit pertaining to metals mining and milling operations regulated under chapter 232, Laws of 1994;

(b) Against a state agency if there is alleged a failure of the agency to perform any non discretionary act or duty under state laws pertaining to metals mining and milling operations; or

(c) Against any person who constructs a metals mining and milling operation without the permits and authorizations required by state law.

The superior courts shall have jurisdiction to enforce metals mining laws, rules, orders, and permit conditions, or to order the state to perform such act or duty, as the case may be. In addition to injunctive relief, a superior court may award a civil penalty when deemed appropriate in an amount not to exceed ten thousand dollars per violation per day, payable to the state of Washington.

(2) No action may be commenced:

(a) Under subsection (1)(a) of this section:

(i) Prior to sixty days after the plaintiff has given notice of the alleged violation to the state, and to any alleged violator of a metals mining and milling law, rule, order, or permit condition; or

(ii) If the state has commenced and is diligently prosecuting a civil action in a court of the state or of the United States or is diligently pursuing authorized administrative enforcement action to require compliance with the law, rule, order, or permit. To preclude a civil action, the enforcement action must contain specific, aggressive, and enforceable timelines for compliance and must provide for public notice of and reasonable opportunity for public comment on the enforcement action. In any such court action, any aggrieved person may intervene as a matter of right; or

(b) Under subsection (1)(b) of this section prior to sixty days after the plaintiff has given notice of such action to the state.

(3)(a) Any action respecting a violation of a law, rule, order, or permit condition pertaining to metals mining and milling operations may be brought in the judicial district in which such operation is located or proposed.

(b) In such action under this section, if not a party, may intervene as a matter of right.

(4) The court, in issuing any final order in any action brought pursuant to subsection (1) of this section, may award costs of litigation, including reasonable attorney and expert witness fees, to any prevailing party, wherever the court determines such award is appropriate. The court may, if a temporary restraining order or preliminary injunction is sought, require the filing of a bond or equivalent security in accordance with the rules of civil procedure.

(5) A civil action to enforce compliance with a law, rule, order, or permit may not be brought under this section if any other statute, or the common law, provides authority for the
plaintiff to bring a civil action and, in such action, obtain the same relief, as authorized under this section, for enforcement of such law, rule, order, or permit. Nothing in this section restricts any right which any person, or class of persons, may have under any statute or common law to seek any relief, including relief against the state or a state agency. [1994 c 232 § 14.]

78.56.150 Application of requirements to milling facilities not adjacent to mining operation. A milling facility which is not adjacent to or in the vicinity of the metals mining operation producing the ore to be milled and which processes precious or base metal ore by treatment or concentration is subject to the provisions of RCW 78.56.010 through 78.56.090, 78.56.100(1) (a), (c), and (d), 78.56.110 through 78.56.140, 70.94.620, and 70.105.300 and chapters 70.94, 70.105, 90.03, and 90.48 RCW and all other applicable laws. The smelting of aluminum does not constitute a metals milling operation under this section. [1994 c 232 § 15.]

78.56.160 Moratorium on use of heap leach extraction process—Joint review by department of ecology and department of natural resources—Permanent prohibition of in situ extraction. (1) Until June 30, 1996, there shall be a moratorium on metals mining and milling operations using the heap leach extraction process. 78.60.010 Legislative declaration. The public has a direct interest in the safe, orderly and nearly pollution-free development of the geothermal resources of the state, as hereinafter in *RCW 79.76.030(1) defined. The legislature hereby declares that it is in the best interests of the state to further the development of geothermal resources for the benefit of all of the citizens of the state while at the same time fully providing for the protection of the environment. The development of geothermal resources shall be so conducted as to protect the rights of landowners, other owners of interests therein, and the general public. In providing for such development, it is the purpose of this chapter to provide for the orderly exploration, safe drilling, production and proper abandonment of geothermal resources in the state of Washington. [1974 ex.s. c 43 § 1. Formerly RCW 79.76.010.]

*Revisor's note: RCW 79.76.030 was recodified as RCW 78.60.030 pursuant to 2003 c 334 § 567.

78.60.020 Short title. This chapter shall be known as the Geothermal Resources Act. [1974 ex.s. c 43 § 2. Formerly RCW 79.76.020.]

78.60.030 Definitions. For the purposes of this chapter, unless the text otherwise requires, the following terms shall have the following meanings:

(1) "Geothermal resources" means only that natural heat energy of the earth from which it is technologically practical to produce electricity commercially and the medium by which such heat energy is extracted from the earth, including liquids or gases, as well as any minerals contained in any natural or injected fluids, brines and associated gas, but excluding oil, hydrocarbon gas and other hydrocarbon substances.

(2) "Waste", in addition to its ordinary meaning, shall mean "physical waste" as that term is generally understood and shall include:
(a) The inefficient, excessive, or improper use of, or unnecessary dissipation of, reservoir energy; or the locating, spacing, drilling, equipping, operating or producing of any geothermal energy well in a manner which results, or tends to result, in reducing the quantity of geothermal energy to be recovered from any geothermal area in this state;

(b) The inefficient above-ground transporting or storage of geothermal energy; or the locating, spacing, drilling, equipping, operating, or producing of any geothermal well in a manner causing, or tending to cause, unnecessary excessive surface loss or destruction of geothermal energy;

(c) The escape into the open air, from a well of steam or hot water, in excess of what is reasonably necessary in the efficient development or production of a geothermal well.

(3) "Geothermal area" means any land that is, or reasonably appears to be, underlain by geothermal resources.

(4) "Energy transfer system" means the structures and enclosed fluids which facilitate the utilization of geothermal energy. The system includes the geothermal wells, cooling towers, reinjection wells, equipment directly involved in converting the heat energy associated with geothermal resources to mechanical or electrical energy or in transferring it to another fluid, the closed piping between such equipment, wells and towers and that portion of the earth which facilitates the transfer of a fluid from reinjection wells to geothermal wells: PROVIDED, That the system shall not include any geothermal resources which have escaped into or have been released into the nongeothermal ground or surface waters from either man-made containers or through leaks in the structure of the earth caused by or to which access was made possible by any drilling, redrilling, reworking or operating of a geothermal or reinjection well.

(5) "Operator" means the person supervising or in control of the operation of a geothermal resource well, whether or not such person is the owner of the well.

(6) "Owner" means the person who possesses the legal right to drill, convert or operate any well or other facility subject to the provisions of this chapter.

(7) "Person" means any individual, corporation, company, association of individuals, joint venture, partnership, receiver, trustee, guardian, executor, administrator, personal representative, or public agency that is the subject of legal rights and duties.

(8) "Pollution" means any damage or injury to ground or surface waters, soil or air resulting from the unauthorized loss, escape, or disposal of any substances at any well subject to the provisions of this chapter.

(9) "Department" means the department of natural resources.

(10) "Well" means any excavation made for the discovery or production of geothermal resources, or any special facility, converted producing facility, or reactivated or converted abandoned facility used for the reinjection of geothermal resources, or the residue thereof underground.

(11) "Core holes" are holes drilled or excavations made expressly for the acquisition of geological or geophysical data for the purpose of finding and delineating a favorable geothermal area prior to the drilling of a well.

(12) A "completed well" is a well that has been drilled to its total depth, has been adequately cased, and is ready to be either plugged and abandoned, shut-in, or put into production.

(13) "Plug and abandon" means to place permanent plugs in the well in such a way and at such intervals as are necessary to prevent future leakage of fluid from the well to the surface or from one zone in the well to the other, and to remove all drilling and production equipment from the site, and to restore the surface of the site to its natural condition or contour or to such condition as may be prescribed by the department.

(14) "Shut-in" means to adequately cap or seal a well to control the contained geothermal resources for an interim period. [1974 ex.s. c 43 § 3. Formerly RCW 79.76.030.]

78.60.040 Geothermal resources deemed sui generis. Notwithstanding any other provision of law, geothermal resources are found and hereby determined to be sui generis, being neither a mineral resource nor a water resource and as such are hereby declared to be the private property of the holder of the title to the surface land above the resource. [1979 ex.s. c 2 § 1; 1974 ex.s. c 43 § 4. Formerly RCW 79.76.040.]

Severability—1979 ex.s. c 2: "If any provision of this 1979 act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1979 ex.s. c 2 § 2.]

78.60.050 Administration of chapter. (1) The department shall administer and enforce the provisions of this chapter and the rules, regulations, and orders relating to the drilling, operation, maintenance, abandonment and restoration of geothermal areas, to prevent damage to and waste from underground geothermal deposits, and to prevent damage to underground and surface waters, land or air that may result from improper drilling, operation, maintenance or abandonment of geothermal resource wells.

(2) In order to implement the terms and provisions of this chapter, the department under the provisions of chapter 34.05 RCW, as now or hereafter amended, may from time to time promulgate those rules and regulations necessary to carry out the purposes of this chapter, including but not restricted to defining geothermal areas; establishing security requirements, which may include bonding; providing for liens against production; providing for casing and safety device requirements; providing for site restoration plans to be completed prior to abandonment; and providing for abandonment requirements. [1974 ex.s. c 43 § 5. Formerly RCW 79.76.050.]

78.60.060 Scope of chapter. This chapter is intended to preempt local regulation of the drilling and operation of wells for geothermal resources but shall not be construed to permit the locating of any well or drilling when such well or drilling is prohibited under state or local land use law or regulations promulgated thereunder. Geothermal resources, byproducts and/or waste products which have escaped or been released from the energy transfer system and/or a mineral recovery process shall be subject to provisions of state law relating to the pollution of ground or surface waters (Title 90 RCW), provisions of the state fisheries law and the state game laws (Title 77 RCW), and any other state environmental pollution
control resources for all beneficial uses, including but not limited to greenhouse heating, warm water fish propagation, space heating plants, irrigation, swimming pools, and hot spring baths, shall be subject to the appropriation procedure as provided in Title 90 RCW. [2003 c 39 § 40; 1974 ex.s. c 43 § 6. Formerly RCW 79.76.060.]

78.60.070 Drilling permits—Applications—Hearing—Fees. (1) Any person proposing to drill a well or redrill an abandoned well for geothermal resources shall file with the department a written application for a permit to commence such drilling or redrilling on a form prescribed by the department accompanied by a permit fee of two hundred dollars. The department shall forward a duplicate copy to the department of ecology within ten days of filing.

(2) Upon receipt of a proper application relating to drilling or redrilling the department shall set a date, time, and place for a public hearing on the application, which hearing shall be in the county in which the drilling or redrilling is proposed to be made, and shall instruct the applicant to publish notices of such application and hearing by such means and within such time as the department shall prescribe. The department shall require that the notice so prescribed shall be published twice in a newspaper of general circulation within the county in which the drilling or redrilling is proposed to be made and in such other appropriate information media as the department may direct.

(3) Any person proposing to drill a core hole for the purpose of gathering geothermal data, including but not restricted to heat flow, temperature gradients, and rock conductivity, shall be required to obtain a single permit for each core hole according to subsection (1) of this section, including a permit fee for each core hole, but no notice need be published, and no hearing need be held. Such core holes that penetrate more than seven hundred and fifty feet into bedrock shall be deemed geothermal test wells and subject to the payment of a permit fee and to the requirement in subsection (2) of this section for public notices and hearing. In the event geothermal energy is discovered in a core hole, the hole shall be deemed a geothermal well and subject to the permit fee, notices, and hearing. Such core holes as described by this subsection are subject to all other provisions of this chapter, including a bond or other security as specified in RCW 78.60.130.

(4) All moneys paid to the department under this section shall be deposited with the state treasurer for credit to the general fund. [2007 c 338 § 1; 1974 ex.s. c 43 § 7. Formerly RCW 79.76.070.]

78.60.080 Drilling permits—Criteria for granting. A permit shall be granted only if the department is satisfied that the area is suitable for the activities applied for; that the applicant will be able to comply with the provisions of this chapter and the rules and regulations enacted hereunder; and that a permit would be in the best interests of the state.

The department shall not allow operation of a well under permit if it finds that the operation of any well will unreasonably decrease groundwater available for prior water rights in any aquifer or other groundwater source for water for beneficial uses, unless such affected water rights are acquired by condemnation, purchase or other means.

The department shall have the authority to condition the permit as it deems necessary to carry out the provisions of this chapter, including but not limited to conditions to reduce any environmental impact.

The department shall forward a copy of the permit to the department of ecology within five days of issuance. [1974 ex.s. c 43 § 8. Formerly RCW 79.76.080.]

78.60.090 Casing requirements. Any operator engaged in drilling or operating a well for geothermal resources shall equip such well with casing of sufficient strength and with such safety devices as may be necessary, in accordance with methods approved by the department.

No person shall remove a casing, or any portion thereof, from any well without prior approval of the department. [1974 ex.s. c 43 § 9. Formerly RCW 79.76.090.]

78.60.100 Plugging and abandonment of wells or core holes—Transfer of jurisdiction to department of ecology. Any well or core hole drilled under authority of this chapter from which:

(1) It is not technologically practical to derive the energy to produce electricity commercially, or the owner or operator has no intention of deriving energy to produce electricity commercially, and

(2) Usable minerals cannot be derived, or the owner or operator has no intention of deriving usable minerals, shall be plugged and abandoned as provided in this chapter or, upon the owner’s or operator’s written application to the department of natural resources and with the concurrence and approval of the department of ecology, jurisdiction over the well may be transferred to the department of ecology and, in such case, the well shall no longer be subject to the provisions of this chapter but shall be subject to any applicable laws and rules relating to wells drilled for appropriation and use of groundwaters. If an application is made to transfer jurisdiction, a copy of all logs, records, histories, and descriptions shall be provided to the department of ecology by the applicant. [2007 c 338 § 2; 1974 ex.s. c 43 § 10. Formerly RCW 79.76.100.]

78.60.110 Suspension of drilling, shut-in or removal of equipment for authorized period—Unlawful abandonment. (1) The department may authorize the operator to suspend drilling operations, shut-in a completed well, or remove equipment from a well for the period stated in the department’s written authorization. The period of suspension may be extended by the department upon the operator showing good cause for the granting of such extension.

(2) If drilling operations are not resumed by the operator, or the well is not put into production, upon expiration of the suspension or shut-in permit, an intention to unlawfully abandon shall be presumed.

(3) A well shall also be deemed unlawfully abandoned if, without written approval from the department, drilling equipment is removed.

(4) An unlawful abandonment under this chapter shall be entered in the department records and written notice thereof [Title 78 RCW—page 42]
shall be mailed by registered mail both to such operator at his
last known address as disclosed by records of the department
and to the operator’s surety. The department may thereafter
proceed against the operator and his surety. [1974 ex.s. c 43
§ 11. Formerly RCW 79.76.110.]

78.60.120 Notification of abandonment or suspension of
operations—Required—Procedure. (1) Before any
operation to plug and abandon or suspend the operation of
any well is commenced, the owner or operator shall submit in
writing a notification of abandonment or suspension of operations
to the department for approval. No operation to abandon or
suspend the operation of a well shall commence without
approval by the department. The department shall respond
within ten days following receipt of the notification.

(2) Failure to abandon or suspend operations in accord-
cance with the method approved by the department shall con-
stitute a violation of this chapter, and the department shall
take appropriate action under the provisions of RCW 79.76.270. [1974 ex.s. c 43 § 12. Formerly RCW 79.76.120.]

*Reviser’s note: RCW 79.76.270 was recodified as RCW 78.60.270
pursuant to 2003 c 334 § 567.

78.60.130 Performance bond or other security—
Required. Every operator who engages in the drilling,
redrilling, or deepening of any well or core hole shall file
with the department a reasonable bond or bonds with good
and sufficient surety, or the equivalent thereof, acceptable to
the department, conditioned on compliance with the provi-
sions of this chapter and all rules and permit conditions
adopted pursuant to this chapter. This performance bond
shall be executed in favor of and approved by the department.

In lieu of a bond the operator may file with the depart-
ment a cash deposit, negotiable securities acceptable to the
department, or an assignment of a savings account in a Wash-
ington bank on an assignment form prescribed by the depart-
ment. The department, in its discretion, may accept a single
surety or security arrangement covering more than one well
or core hole. [2007 c 338 § 3; 1974 ex.s. c 43 § 13. Formerly
RCW 79.76.130.]

78.60.140 Termination or cancellation of bond or
change in other security, when. The department shall not
consent to the termination and cancellation of any bond by
the operator, or change as to other security given, until the
well or wells for which it has been issued have been properly
abandoned or another valid bond for such well has been sub-
mited and approved by the department. A well is properly
abandoned when abandonment has been approved by the
department. [1974 ex.s. c 43 § 14. Formerly RCW
79.76.140.]

78.60.150 Notification of sale, exchange, etc. The
owner or operator of a well shall notify the department in
writing within ten days of any sale, assignment, conveyance,
exchange, or transfer of any nature which results in any
change or addition in the owner or operator of the well on
such forms with such information as may be prescribed by
the department. [1974 ex.s. c 43 § 15. Formerly RCW
79.76.150.]

78.60.160 Combining orders, unitization programs
and well spacing—Authority of department. The depart-
ment has the authority, through rules and regulations, to pro-
mulgate combining orders, unitization programs, and well
spacing, and establish proportionate costs among owners or
operators for the operation of such units as the result of said
combining orders, if good and sufficient reason is demon-
strated that such measures are necessary to prevent the waste
of geothermal resources. [1974 ex.s. c 43 § 16. Formerly
RCW 79.76.160.]

78.60.170 Designation of resident agent for service of
process. Each owner or operator of a well shall designate a
person who resides in this state as his agent upon whom may
be served all legal processes, orders, notices, and directives
of the department or any court. [1974 ex.s. c 43 § 17. For-
merly RCW 79.76.170.]

78.60.180 General authority of department. The
department shall have the authority to conduct or authorize
investigations, research, experiments, and demonstrations,
cooperate with other governmental and private agencies in
making investigations, receive any federal funds, state funds,
and other funds and expend them on research programs con-
cerning geothermal resources and their potential develop-
ment within the state, and to collect and disseminate informa-
tion relating to geothermal resources in the state: PRO-
VISED, That the department shall not construct or operate
commercial geothermal facilities. [1974 ex.s. c 43 § 18. For-
merly RCW 79.76.180.]

78.60.190 Employment of personnel. The department
shall have the authority, and it shall be its duty, to employ all
personnel necessary to carry out the provisions of this chapter
pursuant to chapter 41.06 RCW. [1974 ex.s. c 43 § 19. For-
merly RCW 79.76.190.]

78.60.200 Drilling records, etc., to be maintained—
Inspection—Filing. (1) The owner or operator of any well
or core hole shall keep or cause to be kept careful and accu-
rate logs, including but not restricted to heat flow, tempera-
ture gradients, and rock conductivity logs, records, descrip-
tions, and histories of the drilling, redrilling, or deepening of
the well.

(2) All logs, including but not restricted to heat flow,
temperature gradients, and rock conductivity logs, records,
histories, and descriptions referred to in subsection (1) of this
section shall be kept in the local office of the owner or oper-
ator, and together with other reports of the owner or operator
shall be subject during business hours to inspection by the
department. Each owner or operator, upon written request
from the department, shall file with the department one paper
and one electronic copy of the logs, including but not
restricted to heat flow, temperature gradients, and rock con-
ductivity logs, records, histories, descriptions, or other
records or portions thereof pertaining to the geothermal drill-
Filing of logs and surveys with department upon completion, plugging, abandonment, or suspension of operations. Upon completion or plugging and abandonment of any well or core hole or upon the suspension of operations conducted with respect to any well or core hole for a period of at least six months, one paper and one electronic copy of logs, including but not restricted to heat flow, temperature gradients, and rock conductivity logs, core, electric log, history, and all other logs and surveys that may have been run on the well, shall be filed with the department within thirty days after such completion, plugging and abandonment, or six months’ suspension. [2007 c 338 § 4; 1974 ex.s. c 43 § 20. Formerly RCW 79.76.200.]

Statement of geothermal resources produced—Filing. The owner or operator of any well producing geothermal resources shall file with the department a statement of the geothermal resources produced. Such report shall be submitted on such forms and in such manner as may be prescribed by the department. [1974 ex.s. c 43 § 22. Formerly RCW 79.76.220.]

Confidentiality of records—Preservation in an electronic data system. (1) The records of any owner or operator, when filed with the department as provided in this chapter, shall be confidential and shall be open to inspection only to personnel of the department for the purpose of carrying out the provisions of this chapter and to those authorized in writing by such owner or operator, until the expiration of a twenty-four month confidential period to begin at the date of commencement of production or of abandonment of the well or core hole. After expiration of the twenty-four month confidential period, the department shall ensure all logs and surveys that may have been run on the well or core hole are preserved in an electronic data system and made available to the public.

(2) Such records shall in no case, except as provided in this chapter, be available as evidence in court proceedings. No officer, employee, or member of the department shall be allowed to give testimony as to the contents of such records, except as provided in this chapter for the review of a decision of the department or in any proceeding initiated for the enforcement of an order of the department, for the enforcement of a lien created by the enforcement of this chapter, or for use as evidence in criminal proceedings arising out of such records or the statements upon which they are based. [2007 c 338 § 6; 1974 ex.s. c 43 § 23. Formerly RCW 79.76.230.]

Removal, destruction, alteration, etc., of records prohibited. No person shall, for the purpose of evading the provisions of this chapter or any rule, regulation or order of the department made thereunder, remove from this state, or destroy, mutilate, alter or falsify any such record, account, or writing. [1974 ex.s. c 43 § 24. Formerly RCW 79.76.240.]

(1) A violation of any provision of this chapter, regulation adopted pursuant thereto, or condition of a permit issued pursuant to this chapter has occurred or is about to occur, or (2) That a modification of a permit is deemed necessary to carry out the purpose of this chapter, the department shall issue a written order in person to the operator or his employees or agents, or by certified mail, concerning the drilling, testing, or other operation conducted with respect to any well drilled, in the process of being drilled, in the process of being abandoned or in the process of reclamation or restoration, and the operator, owner, or designated agent of either shall comply with the terms of the order and may appeal from the order in the manner provided for in *RCW 79.76.280. When the department deems necessary the order may include a shutdown order to remain in effect until the deficiency is corrected. [1974 ex.s. c 43 § 25. Formerly RCW 79.76.250.]

*Reviser’s note: RCW 79.76.280 was recodified as RCW 78.60.280 pursuant to 2003 c 334 § 567.}

Liability in damages for violations—Procedure.

Any person who violates any of the provisions of this chapter, or fails to perform any duty imposed by this chapter, or violates an order or other determination of the department made pursuant to the provisions of this chapter, and in the course thereof causes the death of, or injury to, fish, animals, vegetation or other resources of the state, shall be liable to pay the state damages including an amount equal to the sum of money necessary to restock such waters, replenish such resources, and otherwise restore the stream, lake, other water source, or land to its condition prior to the injury, as such condition is determined by the department. Such damages shall be recoverable in an action brought by the attorney general on behalf of the people of the state of Washington in the superior court of the county in which such damages occurred: PROVIDED, That if damages occurred in more than one county the attorney general may bring action in any of the counties where the damage occurred. Any moneys so recovered by the attorney general shall be transferred to the department under whose jurisdiction the damaged resource occurs, for the purposes of restoring the resource. [1974 ex.s. c 43 § 26. Formerly RCW 79.76.260.]

Injunctions—Restraining orders. Whenever it shall appear that any person is violating any provision of this chapter, or any rule, regulation, or order made by the department hereunder, and if the department cannot, without litigation, effectively prevent further violation, the department may bring suit in the name of the state against such person in the court in the county of the residence of the defendant, or in the county of the residence of any defendant if there be more than one defendant, or in the county where the violation is alleged to have occurred, to restrain such person from continuing such violation. In such suit the department may, without bond, obtain injunctions prohibitory and mandatory, including temporary restraining orders and prelimi-
nary injunctions, as the facts may warrant. [1974 ex.s. c 43 § 27. Formerly RCW 79.76.270.]

78.60.280 Judicial review. (1) Any person adversely affected by any rule, regulation, order, or permit entered by the department pursuant to this chapter may obtain judicial review thereof in accordance with the applicable provisions of chapter 34.05 RCW.

(2) The court having jurisdiction, insofar as is practicable, shall give precedence to proceedings for judicial review brought under this chapter. [1974 ex.s. c 43 § 28. Formerly RCW 79.76.280.]

The department is authorized, subject to approval by the board and only if a higher return can be realized, to exchange such lands for lands of at least equal value and to sell such lands and use the proceeds to acquire replacement lands. The department shall report to the appropriate legislative committees all charitable, educational, penal, and reformatory institutions land purchased, sold, or exchanged. which is derived the water supply of any city or town, the department may alter its land management practices to provide water with qualities exceeding standards established for intrastate and interstate waters by the department of ecology. (2) The department shall initiate a pilot project for the municipal watershed delineated by the Lake Whatcom hydrographic boundaries to determine what factors need to be considered to achieve water quality standards beyond those required under chapter 90.48 RCW and what additional management actions can be taken on state trust lands that can contribute to such higher water quality standards. The department shall establish an advisory committee consisting of a representative each of the city of Bellingham, Whatcom county, the Whatcom county water district 10, the department of ecology, the department of fish and wildlife, and the department of health, and three general citizen members to assist in this pilot project. 79.10.090 Economic analysis of state lands held in trust—Scope—Use. Periodically at intervals to be determined by the board, the department shall cause an economic analysis to be made of those state lands held in trust, where the nature of the trust makes maximization of the economic return to the beneficiaries of income from state lands the prime objective. The analysis shall be by specific tracts, or where such tracts are of similar economic characteristics, by groupings of such tracts.

The most recently made analysis shall be considered by the department in making decisions as to whether to sell or lease state lands, standing timber or crops thereon, or minerals therein, including but not limited to oil and gas and other hydrocarbons, rocks, gravel, and sand.

The economic analysis shall include, but shall not be limited to the following criteria: (1) Present and potential sale value; (2) present and probable future returns on the investment of permanent state funds; (3) probable future inflationary or deflationary trends; (4) present and probable future income from leases or the sale of land products; and (5) present and probable future tax income derivable therefrom specifically including additional state, local, and other tax revenues from potential private development of land currently used primarily for grazing and other similar low priority use; such private development would include, but not be limited to, development as irrigated agricultural land. 79.10.280 Land use data bank—Contents, source. (1) The department shall design expansion of its land use data bank to include additional information that will assist in the formulation, evaluation, and updating of intermediate and long-range goals and policies for land use, population growth and distribution, urban expansion, open space, resource preservation and utilization, and other factors which shape statewide development patterns and significantly influence the quality of the state’s environment. The system shall be designed to permit inclusion of other lands in the state and will do so as financing and time permit.

(2) Such data bank shall contain any information relevant to the future growth of agriculture, forestry, industry, business, residential communities, and recreation; the wise use of land and other natural resources which are in accordance with their character and adaptability; the conservation and protection of the soil, air, water, and forest resources; the protection of the beauty of the landscape; and the promotion of the efficient and economical uses of public resources.
The information shall be assembled from all possible sources, including but not limited to, the federal government and its agencies, all state agencies, all political subdivisions of the state, all state operated universities and colleges, and any source in the private sector. All state agencies, all political subdivisions of the state, and all state universities and colleges are directed to cooperate to the fullest extent in the collection of data in their possession. Information shall be collected on all areas of the state but collection may emphasize one region at a time.

(3) The data bank shall make maximum use of computerized or other advanced data storage and retrieval methods. The department is authorized to engage consultants in data processing to ensure that the data bank will be as complete and efficient as possible.

(4) The data shall be made available for use by any governmental agency, research organization, university or college, private organization, or private person as a tool to evaluate the range of alternatives in land and resource planning in the state. [2003 c 334 § 545; 1971 ex.s. c 234 § 16. Formerly RCW 79.68.120.]

Intent—2003 c 334: See note following RCW 79.02.010.

PART 3
SUSTAINABLE HARVEST

79.10.300 Definitions. Unless the context clearly requires otherwise the definitions in this section apply throughout RCW 79.10.310, 79.10.320, and 79.10.330.

(1) "Arrearage" means the summation of the annual sustainable harvest timber volume since July 1, 1979, less the sum of state timber sales contract default volume and the state timber sales volume deficit since July 1, 1979.

(2) "Default" means the volume of timber remaining when a contractor fails to meet the terms of the sales contract on the completion date of the contract or any extension thereof and timber returned to the state under *RCW 79.01.1335.

(3) "Deficit" means the summation of the difference between the department's annual planned sales program volume and the actual timber volume sold.

(4) "Planning decade" means the ten-year period covered in the forest land management plan adopted by the board.

(5) "Sustainable harvest level" means the volume of timber scheduled for sale from state-owned lands during a planning decade as calculated by the department and approved by the board. [2003 c 334 § 537; 1987 c 159 § 2. Formerly RCW 79.68.035.]

*Reviser's note: RCW 79.01.1335 expired December 31, 1984.

Intent—2003 c 334: See note following RCW 79.02.010.

Legislative findings—1987 c 159: "Adequately funding construction of the state's educational facilities represents one of the highest priority uses of state-owned lands. Many existing facilities need replacement and many additional facilities will be needed by the year 2000 to house students entering the educational system. The sale of timber from state-owned lands plays a key role in supporting the construction of school facilities. Currently and in the future, demands for school construction funds are expected to exceed available revenues.

The department of natural resources sells timber on a sustained yield basis. Since 1980, purchasers defaulted on sales contracts affecting over one billion one hundred million board feet of timber. Between 1981 and 1983, the department sold six hundred million board feet of timber less than the sustainable harvest level. As a consequence of the two actions, the depart-

ment entered their 1984-1993 planning decade with a timber sale arrearage which could be sold without adversely affecting the continued productivity of the state-owned forests." [1987 c 159 § 1.]

79.10.310 "Sustained yield plans" defined. "Sustained yield plans" as used in RCW 79.10.070, 79.44.003, and this chapter shall mean management of the forest to provide harvesting on a continuing basis without major prolonged curtailment or cessation of harvest. [2003 c 334 § 536; 1971 ex.s. c 234 § 3. Formerly RCW 79.68.030.]

Intent—2003 c 334: See note following RCW 79.02.010.

79.10.320 Sustainable harvest program. The department shall manage the state-owned lands under its jurisdiction which are primarily valuable for the purpose of growing forest crops on a sustained yield basis insofar as compatible with other statutory directives. To this end, the department shall periodically adjust the acreages designated for inclusion in the sustained yield management program and calculate a sustainable harvest level. [2003 c 334 § 538; 1987 c 159 § 3; 1971 ex.s. c 234 § 4. Formerly RCW 79.68.040.]

Intent—2003 c 334: See note following RCW 79.02.010.

Legislative findings—1987 c 159: See note following RCW 79.10.300.

79.10.330 Arrearages—End of decade. If an arrearage exists at the end of any planning decade, the department shall conduct an analysis of alternatives to determine the course of action regarding the arrearage which provides the greatest return to the trusts based upon economic conditions then existing and forecast, as well as impacts on the environment of harvesting the additional timber. The department shall offer for sale the arrearage in addition to the sustainable harvest level adopted by the board of natural resources for the next planning decade if the analysis determined doing so will provide the greatest return to the trusts. [1987 c 159 § 4. Formerly RCW 79.68.045.]

Legislative findings—1987 c 159: See note following RCW 79.10.300.

79.10.340 Sustainable harvest sale. The board of natural resources shall offer for sale the sustainable harvest as identified in the 1984-1993 forest land management program, or as subsequently revised. In the event that decisions made by entities other than the department cause a decrease in the sustainable harvest the department shall offer additional timber sales from state-managed lands. [1989 c 424 § 9. Formerly RCW 43.30.390.]

Effective date—1989 c 424: See note following RCW 43.30.810.

PART 4
COOPERATIVE FOREST MANAGEMENT AGREEMENTS

79.10.400 Cooperative agreements. The department with regard to state forest lands and state lands is hereby authorized to enter into cooperative agreements with the United States of America, Indian tribes, and private owners of timber land providing for coordinated forest management, including time, rate, and method of cutting timber and method of silvicultural practice on a sustained yield unit.

79.10.410 Cooperative units. The department is hereby authorized and directed to determine, define, and declare informally the establishment of a sustained yield unit, comprising the land area to be covered by any such cooperative agreement and include therein such other lands as may be later acquired by the department and included under the cooperative agreement. [2003 c 334 § 511; 1988 c 128 § 68; 1939 c 130 § 2; RRS § 7879-12. Formerly RCW 79.60.020, 79.52.080.]

Intent—2003 c 334: See note following RCW 79.02.010.

79.10.420 Limitations on agreements. The department shall agree that the cutting from combined national forest lands, state forest lands, and state lands will be limited to the sustained yield capacity of these lands in the management unit as determined by the contracting parties and approved by the board for state forest lands and by the department for state lands. Cooperation with the private contracting party or parties shall be contingent on limitation of production to a specified amount as determined by the contracting parties and approved by the board for state forest lands and by the department for state lands and shall comply with the other conditions and requirements of such cooperative agreement. [2003 c 334 § 512; 1988 c 128 § 69; 1939 c 130 § 3; RRS § 7879-13. Formerly RCW 79.60.030, 79.52.090.]

Intent—2003 c 334: See note following RCW 79.02.010.

79.10.430 Easements—Life of agreements. The private contracting party or parties shall enjoy the right of easement over state forest lands and state lands included under said cooperative agreement for railway, road, and other uses necessary to the carrying out of the agreement. This easement shall be only for the life of the cooperative agreement and shall be granted without charge with the provision that payment shall be made for all merchantable timber cut, removed, or damaged in the use of such easement, payment to be based on the contract stumpage price for timber of like value and species and to be made within thirty days from date of cutting, removal, and/or damage of such timber and appraisal thereof by the department. [2003 c 334 § 513; 1988 c 128 § 70; 1941 c 123 § 2; Rem. Supp. 1941 § 7879-13a. Formerly RCW 79.60.040, 79.52.110.]

Intent—2003 c 334: See note following RCW 79.02.010.

79.10.440 Sale agreements. During the period when any such cooperative agreement is in effect, the timber on the state forest lands and state lands which the department determines shall be included in the sustained yield unit may, from time to time, be sold at not less than its appraised value as approved by the department for state lands and the board for state forest lands, due consideration being given to existing forest conditions on all lands included in the cooperative management unit and such sales may be made in the discretion of the department and the contracting party or parties in the cooperative sustained yield agreement. These sale agreements shall contain such provisions as are necessary to effectually permit the department to carry out the purpose of this section and in other ways afford adequate protection to the public interests involved. [2003 c 334 § 514; 1988 c 128 § 71; 1939 c 130 § 4; RRS § 7879-14. Formerly RCW 79.60.050, 79.52.100.]

Intent—2003 c 334: See note following RCW 79.02.010.

79.10.450 Minimum price. The sale of timber upon state forest land and state land within such sustained yield unit or units shall be made for not less than the appraised value thereof as heretofore provided for the sale of timber on state lands. However, if in the judgment of the department, it is to the best interests of the state to do so, the timber or any such sustained yield unit or units may be sold on a stumpage or scale basis for a price per thousand not less than the appraised value thereof. The department shall reserve the right to reject any and all bids if the intent of this chapter will not be carried out. Permanency of local communities and industries, prospects of fulfillment of contract requirements, and financial position of the bidder shall all be factors included in this decision. [2003 c 334 § 515; 1988 c 128 § 72; 1939 c 130 § 5; RRS § 7879-15. Formerly RCW 79.60.060, 79.52.040.]

Intent—2003 c 334: See note following RCW 79.02.010.

79.10.460 Contracts—Requirements. A written contract shall be entered into with the successful bidder which shall fix the time when logging operations shall be commenced and concluded and require monthly payments for timber removed as soon as scale sheets have been tabulated and the amount of timber removed during the month determined, or require payments monthly in advance at the discretion of the board or the department. The board and the department shall designate the price per thousand to be paid for each species of timber and shall provide for supervision of logging operations, the methods of scaling and report, and shall require the purchaser to comply with all laws of the state of Washington with respect to fire protection and logging operation of the timber purchased; and shall contain such other provisions as may be deemed advisable. [2003 c 334 § 516; 1939 c 130 § 6; RRS § 7879-16. Formerly RCW 79.60.070, 79.52.050, part.]

Intent—2003 c 334: See note following RCW 79.02.010.

79.10.470 Transfer or assignment of contracts. Intent—2003 c 334: See note following RCW 79.02.010.

79.10.480 Performance bond—Cash deposit. The purchaser shall, at the time of executing the contract, deliver a performance bond or sureties acceptable in regard to terms and amount to the department, but such performance bond or sureties shall not exceed ten percent of the estimated value of the timber purchased computed at the stumpage price and at no time shall exceed a total of fifty thousand dollars. The
purchaser shall also be required to make a cash deposit equal to twenty percent of the estimated value of the timber purchased, computed at the stumpage bid. Upon failure of the purchaser to comply with the terms of the contract, the performance bond or sureties may be forfeited to the state upon order of the department.

At no time shall the amount due the state for timber actually cut and removed exceed the amount of the deposit as set forth in this section. The amount of the deposit shall be returned to the purchaser upon completion and full compliance with the contract by the purchaser, or it may, at the discretion of the purchaser, be applied on final payment on the contract. The department may designate or describe any such plat by name, or numeral, or as an addition to such city or town, and, upon the filing of any such plat, it shall be sufficient to describe the lands, or any portion thereof, embraced in such plat, according to the designation prescribed by the department. Such plats shall be made in duplicate, and when properly authenticated by the department, one copy thereof shall be filed in the office of the department and one copy in the office of the county auditor in which the lands are situated, and the auditor shall receive and file such plats without compensation or fees and make record thereof in the same manner as required by law for the filing and recording of other plats in the auditor’s office.

In selling lands subject to the provisions of Article 16, section 4, of the state Constitution, the department will be permitted to sell the land within the required land subdivision without being required to complete the construction of streets, utilities, and such similar things as may be required by any local government entity in the instance of the platting of private or other property within their area of jurisdiction. However, no construction will be permitted on lands so sold until the purchaser or purchasers collectively comply with all of the normal requirements for platting. 79.11.310 Sale of lands with low-income potential.

(1) The purpose of this section is to provide revenues to the state and its various taxing districts through the sale of public lands which are currently used primarily for grazing and similar low priority purposes, by enabling their development as irrigated agricultural lands.

(2) All applications for the purchase of lands of the foregoing character, when accompanied by a proposed plan of development of the lands for a higher priority use, shall be individually reviewed by the board. The board shall determine whether the sale of the lands is in the public interest and upon an affirmative finding shall offer such lands for sale. However, any such parcel of land shall be sold to the highest bidder but only at a bid equal to or higher than the last appraised valuation thereof as established by appraisers for the department for any such parcel of land. Further, any lands lying within United States reclamation areas, the sale price of which is limited or otherwise regulated pursuant to federal reclamation laws or regulations thereunder, need not be offered for sale so long as such limitations or regulations are applicable thereto.

(3) The department shall adopt appropriate rules defining properties of such irrigated agricultural potential and shall take into account the economic benefits to the locality in classifying such properties for sale. [2003 c 334 § 381; 1967 ex.s. c 78 § 5. Formerly RCW 79.01.301.]

The vacation of any such plat shall not affect the vested rights of any person or persons theretofore acquired therein. In the exercise of this authority to vacate the department shall enter an order in the records of its office and at once forward a certified copy thereof to the county auditor of the county wherein the platted lands are located. The auditor shall cause the same to be recorded in the miscellaneous records of the auditor’s office and noted on the plat by reference to the volume and page of the record. However, where the area vacated can be determined from the plat already filed it shall not be necessary to survey such area before platting the same. The owner or owners, or other persons having a vested interest in the lands abutting on any of the lots, blocks, or other parcels platted upon the lands embraced within any area vacated as provided in this section, shall have a preference right for the period of sixty days from the date of filing with the department such plat and the appraisal of such lots, blocks, or other parcels of land, to purchase the same at the appraised value thereof. Intent—2003 c 334: See note following RCW 79.02.010.
79.11.320 Assessments added to purchase price. (1) When any public land of the state is offered for sale and the state has paid assessments for local improvements, or benefits, to any municipal corporation authorized by law to assess the same, the amount of the assessments paid by the state shall be added to the appraised value of such land.

(2) The amount of assessments paid by the state shall be paid by the purchaser in addition to the amount due the state for the land.

(3) In case of sale by contract under RCW 79.11.220 the purchaser may pay the assessments in equal annual installments at the same time, and with the same rate of interest upon deferred payments, as the installments of the purchase price for the land are paid.

(2) When the department determines to sell the lands, they shall initially be offered for sale either at public auction or direct sale to public agencies as provided in this chapter.

(3) If the lands are not sold at public auction, the department may, with approval of the board, market the lands through persons licensed under chapter 18.85 RCW or through other commercially feasible means at a price not lower than the land’s appraised value.

(4) Necessary marketing costs may be paid from the sale proceeds. For the purpose of this subsection, necessary marketing costs include reasonable costs associated with advertising the property and paying commissions.

(5) Proceeds of the sale shall be deposited into the appropriate fund in the state treasury unless the grantor in any deed or the testator in case of a devise specifies that the proceeds of the sale be devoted to a particular purpose. [2003 c 334 § 399.]

(2) Notwithstanding any provision in this chapter to the contrary, in leases for residential purposes, the board may waive or modify any conditions of the lease if the waiver or modification is necessary to enable any federal agency or lending institution authorized to do business in this state or elsewhere in the United States to participate in any loan secured by a security interest in a leasehold interest.

(3) Any land granted to the state by the United States may be leased for any lawful purpose in such minimum acreage as may be fixed by the department.

(4) The department shall exercise general supervision and control over the lease of state lands for any lawful purpose.

(a) At the department’s regional office administering the lease; or

(b) When leases are auctioned by the county auditor, in the county where the state land to be leased is situated at such place as specified in the notice. [2003 c 334 § 372; 1979 ex.s. c 109 § 11; 1927 c 255 § 62; RRS § 7797-62. Prior: 1897 c 89 § 20. Formerly RCW 79.01.248, 79.12.440.]

Reviser’s note: This section does not apply to state tidelands, shorelands, harbor areas, and the beds of navigable waters. See RCW 79.02.095.

Intent—2003 c 334: See note following RCW 79.02.010.

Severability—Effective date—1979 ex.s. c 109: See notes following RCW 79.11.040.

79.13.140 Public auction procedure. (1) All leasing by public auction shall be by oral or by sealed bid. Leases will be awarded to the highest bidder on the terms prescribed by law and as specified in the notice of leasing described in
RCW 79.13.120. No lease may be awarded for less than the appraised value.

(2) The public auction must be conducted under the direction of the department or by the auditor for the county in which the land to be leased is located. The person conducting the auction is called the auctioneer.

(3) The person to whom a lease of state lands is awarded shall pay the rental in accordance with that person’s bid to the auctioneer in cash or by certified check or accepted draft on any bank in this state.

(4) The auctioneer shall send to the department such cash, certified check, draft, or money order received from the successful bidder, together with any additional report of the auction proceeding as may be required by the department.

(5) The department may reject any and all bids when the interests of the state justify it. If the department rejects a bid, it must refund any rental and bid deposit to the bidder upon return of the receipts issued.

(6) If the department approves any leasing made by the auctioneer, it must proceed to issue a lease to the successful bidder upon a form approved by the attorney general.

(a) All leases must be in duplicate and both copies signed by the lessee and the department.

(b) One signed copy must be forwarded to the lessee and one signed copy must be kept in the office of the department.

Intent—2003 c 334: See note following RCW 79.02.010.

79.13.150 Lease/rent of acquired lands. (1) Except as provided in RCW 79.10.030(2), the department shall manage and control all lands acquired by the state through escheat, deed of sale, gift, devise, or under RCW 79.19.010 through 79.19.110, except lands that are conveyed or devised to the state for a particular purpose.

(2) The department shall lease the lands in the same manner as school lands.

(3) The department may employ agents to rent any escheated, deeded, or devised lands, or lands acquired under RCW 79.19.010 through 79.19.110 for such rental, time, and manner as the department directs.

(a) The agent shall not rent the property for a period longer than one year.

(b) No tenant is entitled to compensation for any improvement that he or she makes on the property.

(c) The agent shall cause repairs to be made to the property as the department directs.

(d) Rental shall be transmitted monthly to the department. The agent shall deduct the cost of any repairs made under (c) of this subsection, together with such compensation and commission as the department authorizes from the rental.

(4) Proceeds of any lease or rental shall be deposited into the appropriate fund in the state treasury. If the grantor in any deed or the testator in case of a devise specifies that the proceeds be devoted to a particular purpose, such proceeds shall be so applied. [2003 c 334 § 400.]

Intent—2003 c 334: See note following RCW 79.02.010.

79.13.160 Appraisement of improvement before lease. Before any state lands are offered for lease, or are assigned, the department may establish the fair market value of those authorized improvements not owned by the state. In the event that agreement cannot be reached between the state and the lessee on the fair market value, such valuation shall be submitted to a review board of appraisers. The board is comprised of the following members: One member to be selected by the lessee and that person’s expenses shall be borne by the lessee; one member selected by the state and that person’s expenses shall be borne by the state; these members so selected shall mutually select a third member and that person’s expenses shall be shared equally by the lessee and the state. The majority decision of this appraisal review board shall be binding on both parties. For this purpose, “fair market value” is defined as: The highest price in terms of money that a property will bring in a competitive and open market under all conditions of a fair sale, the buyer and seller, each prudently knowledgeable and assuming the property is not affected by undue stimulus. All damages and wastes committed upon such lands and other obligations due from the lessee shall be deducted from the appraised value of the improvements. However, the department on behalf of the respective trust may purchase at fair market value those improvements if it appears to be in the best interest of the state from the resource management cost account created in RCW 79.64.020. [2003 c 334 § 337.]

Intent—2003 c 334: See note following RCW 79.02.010.

79.13.170 Water right for irrigation as improvement. At any time during the existence of any lease of state lands, except lands leased for the purpose of mining of valuable minerals, or coal, or extraction of petroleum or gas, the lessee with the consent of the department, first obtained, by written application, showing the cost and benefits to be derived thereby, may purchase or acquire a water right appurtenant to and in order to irrigate the land leased. If such water right shall become a valuable and permanent improvement to the lands, then, in case of the sale or lease of such lands to other parties, the lessee acquiring such water right shall be entitled to receive the value thereof as in case of other improvements which have been placed upon the land by the lessee. Intent—2003 c 334: See note following RCW 79.02.010.

79.13.180 Record of leases. The department shall keep a full and complete record of all leases issued under the provisions of the preceding sections and the payments made thereon. AGRICULTURAL/GRAZING LEASES

79.13.320  Share crop leases authorized. The department may lease state lands on a share crop basis. Upon receipt of a written application to lease state lands, the department shall make such investigations as it deems necessary. If the department finds that such a lease would be advantageous to the state, it may proceed with the leasing of such lands on such terms and conditions as other state lands are leased. [2003 c 334 § 466; 1979 ex.s. c 109 § 20; 1961 c 73 § 10; 1949 c 203 § 1; Rem. Supp. 1949 § 7895-1. Formerly RCW 79.12.570.]

79.13.330  Harvest, storage of crop—Notice—Warehouse receipt. When crops that are covered by a share crop lease are harvested, the lessee shall give written notice to the department that the crop is being harvested, and shall also give to the department the name and address of the warehouse or elevator to which such crops are sold or in which such crops will be stored. The lessee shall also serve on the owner of such warehouse or elevator a written copy of so much of the lease as shall show the percentage of division of the proceeds of such crop as between lessee and lessor. The owner of such warehouse or elevator shall make out a warehouse receipt, which receipt may be negotiable or nonnegotiable as directed by the state, showing the percentage of crops belonging to the state, and the respective gross and net amounts, grade, and location thereof, and shall deliver to the department the receipt for the state’s percentage of such crops within ten days after the owner has received such instructions. The estimate must be immediately submitted to the department, which is hereby authorized to insure the crop from loss by fire or hail. The cost of such insurance shall be paid by the state and lessee on the same basis as the crop returns to which each is entitled. [2003 c 334 § 469; 1949 c 203 § 6; Rem. Supp. 1949 § 7895-6. The department is authorized to issue a new lieu lease for the unexpired portion of the term of the lease surrendered upon payment of the fixed rental based on an appraisal of the land for agricultural purposes. Under the lieu lease the lessee shall be permitted to clear, plow, and cultivate the lands as in the case of an original lease for agricultural purposes. The department may charge such fees as it deems adequate and advisable. PART 4 OTHER LEASES

79.13.500 Amateur radio repeater stations—Legislative intent. The department leases state lands and space on towers located on state lands to amateur radio operators for their repeater stations. These sites are necessary to maintain emergency communications for public safety and for use in disaster relief and search and rescue support. The licensed amateur radio operators of the state provide thousands of hours of public communications service to the state every year. Their communication network spans the entire state, based in individual residences and linked across the state through a series of mountain-top repeater stations. The amateur radio operators install and maintain their radios and the electronic repeater stations at their own expense. The amateur radio operators who use their equipment to perform public services should not bear the sole responsibility for supporting the electronic repeater stations.

In recognition of the essential role performed by the amateur radio operators in emergency communications, the legislature intends to reduce the rental fee paid by the amateur radio operators while assuring the department full market rental for the use of state-owned property. [2003 c 334 § 461; 1988 c 209 § 1. Formerly RCW 79.12.015.]

Intent—2003 c 334: See note following RCW 79.02.010.

79.13.510 Amateur radio electronic repeater sites and units—Reduced rental rates—Frequencies. The department shall determine the lease rate for amateur radio electronic repeater sites and units available for public service communication. For the amateur operator to qualify for a rent of one hundred dollars per year per site, the amateur operator shall do one of the following: (1) Register and remain in good standing with the state’s radio amateur civil emergency services and amateur radio emergency services organizations, or (2) if an amateur group, sign a statement of public service developed by the department.

The legislature’s biennial appropriations shall account for the estimated difference between the one hundred dollar per year, per site, per lessee paid by the qualified amateur operators and the fair market amateur rent, as established by the department.

The amateur radio regulatory authority approved by the federal communication commission shall assign the radio frequencies used by amateur radio lessees. The department shall develop guidelines to determine which lessees are to receive reduced rental fees as moneys are available by legislative appropriation to pay a portion of the rent for electronic repeaters operated by amateur radio operators. [2003 c 334 § 462; 1995 c 105 § 1; 1988 c 209 § 2. Formerly RCW 79.12.025.]

Intent—2003 c 334: See note following RCW 79.02.010.

79.13.520 Nonprofit television reception improvement districts—Rental of public lands—Intent. The department shall determine the fair market rental rate for leases to nonprofit television reception improvement districts. It is the intent of the legislature to appropriate general funds to pay a portion of the rent charged to nonprofit television reception improvement districts. It is the further intent of the legislature that such a lessee pay an annual lease rent of fifty percent of the fair market rental rate, as long as there is a general fund appropriation to compensate the trusts for the remainder of the fair market rental rate. [2003 c 334 § 464; 1994 c 294 § 1. Formerly RCW 79.12.055.]

Intent—2003 c 334: See note following RCW 79.02.010.

Effective date—1994 c 294: "This act shall take effect July 1, 1994." [1994 c 294 § 3.]

79.13.530 Geothermal resources—Guidelines for development. In an effort to increase potential revenue to the geothermal account, the department shall, by December 1, 1991, adopt rules providing guidelines and procedures for leasing state-owned land for the development of geothermal resources. [2003 c 334 § 465; 1991 c 76 § 3. Formerly RCW 79.12.095.]

Intent—2003 c 334: See note following RCW 79.02.010.

Geothermal account: Chapter 43.140 RCW.

PART 5 ECOSYSTEM STANDARDS

79.13.600 Findings—Salmon stocks—Grazing lands—Coordinated resource management plans. The legislature finds that many wild stocks of salmonids in the state of Washington are in a state of decline. Stocks of salmon on the Columbia and Snake rivers have been listed under the federal endangered species act, and the bull trout has been petitioned for listing. Some scientists believe that numerous other stocks of salmonids in the Pacific Northwest are in decline or possibly extinct. The legislature declares that to lose wild stocks is detrimental to the genetic diversity of the fisheries resource and the economy, and will represent the loss of a vital component of Washington’s aquatic ecosystems. The legislature further finds that there is a continuing loss of habitat for fish and wildlife. The legislature declares that steps must be taken in the areas of wildlife and fish habi-
itat management, water conservation, wild salmonid stock protection, and education to prevent further losses of Washington’s fish and wildlife heritage from a number of causes including urban and rural subdivisions, shopping centers, industrial park, and other land use activities.

The legislature finds that the maintenance and restoration of Washington’s rangelands and shrub-steppe vegetation is vital to the long-term benefit of the people of the state. The legislature finds that approximately one-fourth of the state is open range or open-canopied grazable woodland. The legislature finds that these lands provide forage for livestock, habitat for wildlife, and innumerable recreational opportunities including hunting, hiking, and fishing.

The legislature finds that the development of coordinated resource management plans, that take into consideration the needs of wildlife, fish, livestock, timber production, water quality protection, and rangeland conservation on all state-owned grazing lands will improve the stewardship of these lands and allow for the increased development and maintenance of fish and wildlife habitat and other multipurpose benefits the public derives from these lands.

The legislature finds that the state currently provides insufficient technical support for coordinated resource management plans to be developed for all state-owned lands and for many of the private lands desiring to develop such plans. As a consequence of this lack of technical assistance, our state grazing lands, including fish and wildlife habitat and other resources provided by these lands, are not achieving their potential. The legislature also finds that with many state lands being intermixed with private grazing lands, development of coordinated resource management plans on state-owned and managed lands provides an opportunity to improve the management and enhance the conditions of adjacent private lands.

A purpose of chapter 4, Laws of 1993 sp. sess. is to establish state grazing lands as the model in the state for the development and implementation of standards that can be used in coordinated resource management plans and to thereby assist the timely development of coordinated resource management plans for all state-owned grazing lands. Every lessee of state lands who wishes to participate in field reviews, including urban and rural subdivisions, shopping centers, industrial park, and other land use activities. The conservation commission shall chair the committee.

(3) By December 31, 1994, the committee shall develop standards to meet the goals developed under subsection (1) of this section. These standards shall not conflict with the recovery of wildlife or fish species that are listed or proposed for listing under the federal endangered species act. These standards shall be utilized to the extent possible in development of coordinated resource management plans to provide a level of management that sustains and perpetuates renewable resources, including fish and wildlife, riparian areas, soil, water, timber, and forage for livestock and wildlife. Furthermore, the standards are recommended for application to model watersheds designated by the Northwest power planning council in conjunction with the conservation commission. The committee shall make these standards available to the public and for coordinated resource management planning. Application to private lands is voluntary and may be dependent on funds to provide technical assistance through conservation districts.

(4) The conservation commission shall approve the standards and shall provide them to the departments of natural resources and fish and wildlife, each of the conservation districts, and Washington State University cooperative extension service. The conservation districts shall make these standards available to the public and for coordinated resource management planning. Application to private lands is voluntary.

(5) The department of natural resources shall implement practices necessary to meet the standards developed pursuant to this section on department managed agricultural and grazing lands, consistent with the trust mandate of the Washington state Constitution and Title 79 RCW. The standards may be modified on a site-specific basis as needed to achieve the fish and wildlife goals, and as determined by the department of fish and wildlife, and the department of natural resources. Existing lessees shall be provided an opportunity to participate in any site-specific field review. Department agricultural and grazing leases issued after December 31, 1994, shall be subject to practices to achieve the standards that meet those developed pursuant to this section. [1998 c 245 § 162; 1993 sp.s. c 4 § 5. Formerly RCW 79.01.295.]

Findings—Grazing lands—1993 sp.s. c 4: See RCW 79.13.600.

79.13.620 Purpose—Ecosystem standards. (1) It is the purpose of chapter 163, Laws of 1996 that all state agricultural lands, grazing lands, and grazeable woodlands shall be managed in keeping with the statutory and constitutional mandates under which each agency operates. Chapter 163, Laws of 1996 is consistent with section 1, chapter 4, Laws of 1993 sp. sess.

(2) The ecosystem standards developed under chapter 4, Laws of 1993 sp. sess. for state-owned agricultural and grazing lands are defined as desired ecological conditions. The standards are not intended to prescribe practices. For this
reason, land managers are encouraged to use an adaptive management approach in selecting and implementing practices that work towards meeting the standards based on the best available science and evaluation tools.

(3) For as long as the chapter 4, Laws of 1993 sp. sесс. ecosystem standards remain in effect, they shall be applied through a collaborative process that incorporates the following principles:

(a) The land manager and lessee or permittee shall look at the land together and make every effort to reach agreement on management and resource objectives for the land under consideration;

(b) They will then discuss management options and make every effort to reach agreement on which of the available options will be used to achieve the agreed-upon objectives;

(c) No land manager or owner ever gives up his or her management prerogative;

(d) Efforts will be made to make land management plans economically feasible for landowners, managers, and lessees and to make the land management plan compatible with the lessee’s entire operation;

(e) Coordinated resource management planning is encouraged where either multiple ownerships, or management practices, or both, are involved;

(f) The department of fish and wildlife shall consider multiple use, including grazing, on lands owned or managed by the department of fish and wildlife where it is compatible with the management objectives of the land; and

(g) The department shall allow multiple use on lands owned or managed by the department where multiple use can be demonstrated to be compatible with RCW 79.10.100, 79.10.110, and 79.10.120.

(4) The ecosystem standards are to be achieved by applying appropriate land management practices on riparian lands and on the uplands in order to reach the desired ecological conditions.

(5) The legislature urges that state agencies that manage grazing lands make planning and implementation of chapter 163, Laws of 1996, using the coordinated resource management and planning process, a high priority, especially where either multiple ownerships, or multiple use objectives, or both, are involved. In all cases, the choice of using the coordinated resource management planning process will be a voluntary decision by all concerned parties including agencies, private landowners, lessees, permitees, and other interests. 79.14.010 Definitions. As used in this chapter, "public lands" means lands and areas belonging to or held in trust by the state, including tide and submerged lands of the Pacific Ocean or any arm thereof and lands of every kind and nature including mineral rights reserved to the state. [2003 c 334 § 471; 1967 c 163 § 6; 1955 c 131 § 1. Prior: 1937 c 161 § 1. Formerly RCW 78.28.280.]

The department is authorized to lease public lands for the purpose of prospecting for, developing, and producing oil, gas, or other hydrocarbon substances. Each such lease is to be composed of not more than six hundred forty acres or an entire government surveyed section, except a lease on river bed, lake bed, tide and submerged lands which is to be composed of not more than one thousand nine hundred twenty acres. All leases shall contain such terms and conditions as may be prescribed by the rules adopted by the commissioner in accordance with the provisions of this chapter. Leases may be for an initial term of from five up to ten years and shall be extended for so long thereafter as lessee shall comply with one of the following conditions: (1) Prosecute development on the leased land with the due diligence of a prudent operator upon encountering oil, gas, or other hydrocarbon substances; (2) produce any of said substances from the leased lands; (3) engage in drilling, deepening, repairing, or redrilling any well thereon; or (4) participate in a unit plan to which the commissioner has consented under RCW 78.52.450.

All leases shall provide that if oil, gas or other hydrocarbon substances are first produced in quantities deemed paying quantities by lessee. All leases shall further provide that if oil, gas or other hydrocarbon substances in paying quantities shall have been discovered on the leased lands prior to the expiration of the initial term, then in the event at any time after the expiration of the initial term production on the leased land shall cease from any cause, the lease shall not terminate provided lessee resumes operations for the drilling of a well or the restoration of production within ninety days from the completion of one well and the commencement of the next until such substances are encountered in quantities deemed paying quantities by lessee. All leases shall remain in force during the prosecution of such operations, and if production results therefrom, then so long as production continues.

All leases shall provide that if oil, gas or other hydrocarbon substances are first produced in quantities deemed paying quantities by lessee. All leases shall remain in force during the prosecution of such operations, and if production results therefrom, then so long as production continues.

The department shall require as a prerequisite to the issuing of any operation upon lands covered by the lease until such lessee has provided for compensation to owners of private rights therein according to law, or in lieu thereof, filed a surety bond with the department in an amount sufficient in the opinion of the commissioner to cover such compensation until the amount of compensation is determined by agreement, arbitration, or judicial decision and has provided for compensation to the state of Washington for damage to the surface rights of the state in accordance with the rules adopted by the department.

No lessee shall commence any operation upon lands covered by the lease until such lessee has provided for compensation to owners of private rights therein according to law, or in lieu thereof, filed a surety bond with the department in an amount sufficient in the opinion of the commissioner to cover such compensation until the amount of compensation is determined by agreement, arbitration, or judicial decision and has provided for compensation to the state of Washington for damage to the surface rights of the state in accordance with the rules adopted by the department.

Oil and gas leases shall not be issued on unleased lands which have been classified by the department as being within a known geologic structure of a producing oil or gas field, except as follows: Upon application of any person, the department shall lease in areas not exceeding six hundred forty acres, at public auction, any or all unleased lands within such geologic structure to the person offering the greatest cash bonus therefor at such auction.

79.14.040 Compensation to owners of private rights and to state for surface damage. No lessee shall commence any operation upon lands covered by the lease until such lessee has provided for compensation to owners of private rights therein according to law, or in lieu thereof, filed a surety bond with the department in an amount sufficient in the opinion of the commissioner to cover such compensation until the amount of compensation is determined by agreement, arbitration, or judicial decision and has provided for compensation to the state of Washington for damage to the surface rights of the state in accordance with the rules adopted by the department.

79.14.050 Drilling operations beyond lease term—Lease provisions. All leases shall provide that if oil, gas or other hydrocarbon substances are not encountered on or before the end of the initial term, the lease shall not terminate if the lessee is then prosecuting drilling operations on the leased lands with due diligence, in which event the same shall remain in force so long as lessee shall keep one string of tools in operation on the leased lands, allowing not to exceed ninety days between the completion of one well and the commencement of the next until such substances are encountered in quantities deemed paying quantities by lessee. All leases shall further provide that if oil, gas or other hydrocarbon substances in paying quantities shall have been discovered on the leased lands prior to the expiration of the initial term, then in the event at any time after the expiration of the initial term production on the leased land shall cease from any cause, the lease shall not terminate provided lessee resumes operations for the drilling of a well or the restoration of production within ninety days from such cessation. The lease shall remain in force during the prosecution of such operations, and if production results therefrom, then so long as production continues.

All leases shall provide that if oil, gas or other hydrocarbon substances are first produced in quantities deemed paying quantities by lessee. All leases shall remain in force during the prosecution of such operations, and if production results therefrom, then so long as production continues.

79.14.060 Surrender of lease—Liability. Every lessee shall have the option of surrendering his lease as to all or any portions of the land covered thereby at any time and shall be relieved of all liability thereunder with respect to the land so surrendered except for monetary payments therefore accrued and except for physical damage to the premises embraced by his lease which have been occasioned by his operations.

Oil and gas leases shall not be issued on unleased lands which have been classified by the department as being within a known geologic structure of a producing oil or gas field, except as follows: Upon application of any person, the department shall lease in areas not exceeding six hundred forty acres, at public auction, any or all unleased lands within such geologic structure to the person offering the greatest cash bonus therefor at such auction.
such lands for lease will be given by publication in a newspaper of general circulation in Olympia, Washington, and in such other publications as the department may authorize. The first publication shall be at least thirty days prior to the date of sale. [2003 c 334 § 475; 1955 c 131 § 8. Prior: 1937 c 161 §§ 5, 11. Formerly RCW 78.28.350.]

### 79.14.090 Cancellation or forfeiture of leases—New leases

The department is authorized to cancel any lease issued as provided in this section for nonpayment of rentals or royalties or nonperformance by the lessee of any provision or requirement of the lease. However, before any such cancellation is made, the department shall mail to the lessee by registered mail, addressed to the post office address of such lessee shown by the records of the department, a notice of intention to cancel such lease specifying the default for which the lease is subject to cancellation. If lessee shall, within thirty days after the mailing of said notice to the lessee, commence and thereafter diligently and in good faith prosecute the remedying of the default specified in such notice, then no cancellation of the lease shall be entered by the department. Otherwise, the cancellation shall be made and all rights of the lessee under the lease shall automatically terminate, except that lessee shall retain the right to continue its possession and operation of any well or wells in regard to which lessee is not in default. Further, failure to pay rental and royalty required under leases within the time prescribed therein shall automatically and without notice work a forfeiture of such leases and of all rights thereunder. Upon the expiration, forfeiture, or surrender of any lease, no new lease covering the lands or any of them embraced by such expired, forfeited, or surrendered lease, shall be issued for a period of ten days following the date of such expiration, forfeiture, or surrender. If more than one application for a lease covering such lands or any of them shall be made during such ten-day period the department shall issue a lease to such lands or any of them to the person offering the greatest cash bonus for such lease at a public auction to be held at the time and place and in the manner as the department shall adopt by rule. [2003 c 334 § 476; 1955 c 131 § 9. Prior: 1937 c 161 § 12; 1927 c 255 § 179. Formerly RCW 78.28.360.]

Intent—2003 c 334: See note following RCW 79.02.010.

### 79.14.100 Cooperative or unit plans—Communization or drilling agreements

For the purpose of more properly conserving the natural resources of any oil or gas pool, field, or like area, lessees thereon and their representatives may unite with each other, or jointly or separately with others, in collectively adopting and operating under a cooperative or unit plan of development or operation of such pool, field, or like area, or any part thereof, whenever determined and certified by the department to be necessary or advisable in the public interest. The department is authorized, in its discretion, with the consent of the holders of leases involved, in order to conform with the terms and conditions of any such cooperative or unit plan to establish, alter, change, or revoke exploration, drilling, producing, rental, and royalty requirements of such leases with like consent on the part of the lessees, in connection with the institution and operation of any such cooperative or unit plan as the department may deem necessary or proper to secure the proper protection of the public interest.

When separate tracts cannot be independently developed and operated in conformity with an established well spacing or development program, any lease or any portion thereof may be pooled with other lands, whether or not owned by the state of Washington under a communization or drilling agreement providing for an apportionment of production or royalties among the separate tracts of land comprising the drilling or spacing unit when determined by the department to be in the public interest, and operations or production pursuant to such an agreement shall be deemed to be operations or production as to each such lease committed thereto.

The term of any lease that has become the subject of any cooperative or unit plan of development or operation of a pool, field, or like area, which plan has the approval of the department, shall continue in force until the termination of such plan, and in the event such plan is terminated prior to the expiration of any such lease, the original term of such lease shall continue. Any lease under this chapter hereinafter committed to any such plan embracing lands that are in part within and in part outside of the area covered by any such plan, shall be segregated in separate leases as to the lands committed and the land not committed as of the effective date of unitization. [2003 c 334 § 477; 1955 c 131 § 10. Prior: 1937 c 161 § 14. Formerly RCW 78.28.370.]

### 79.14.110 Customary provisions in leases

The department is authorized to insert in any lease issued under the provisions of this chapter such terms as are customary and proper for the protection of the rights of the state and of the lessee and of the owners of the surface of the leased lands not in conflict with the provisions of this chapter. [2003 c 334 § 478; 1955 c 131 § 11. Prior: 1937 c 161 § 15; 1927 c 255 § 178. Formerly RCW 78.28.380.]

The department is required to adopt and publish, for the information of the public, all reasonable rules necessary for carrying out the provisions of this chapter. The department may amend or rescind any rule adopted under the authority contained in this section. However, no rule or amendment of the same or any order rescinding any rule shall become effective until after thirty days from the adoption of the same by publication in a newspaper of general circulation published at the state capitol and shall take effect and be in force at times specified therein. All rules of the department and all amendments or revocations of existing rules shall be recorded in an appropriate book or books, shall be adequately indexed, and shall be kept in the office of the department and shall constitute a public record. Such rules of the department shall be printed in pamphlet form and furnished to the public free of cost. [2003 c 334 § 479; 1955 c 131 § 12. Prior: 1937 c 161 § 16; 1927 c 255 § 178. Intent—2003 c 334: See note following RCW 79.02.010.
79.14.130 Wells to be located minimum distance from boundaries—Exception. Each lease issued under this chapter shall provide that without the approval of the department, no well shall be drilled on the lands demised thereby in such manner or at such location that the producing interval thereof shall be less than three hundred thirty feet from any of the outer boundaries of the demised lands, except that if the right to oil, gas, or other hydrocarbons underlying adjoining lands be vested in private ownership, such approval shall not be required. [2003 c 334 § 480; 1955 c 131 § 13. Prior: 1937 c 161 § 17. Formerly RCW 78.28.400.]

79.14.140 Rights-of-way over public lands—Payment for timber. Any person granted a lease under the provisions of this chapter shall have a right-of-way over public lands, as provided by law, when necessary, for the drilling, recovering, saving, and marketing of oil, gas, or other hydrocarbons. Before any such right-of-way grant shall become effective, a written application for, and a plat showing the location of such a right-of-way and the land necessary for the well site and drilling operations, with reference to adjoining lands, shall be filed with the department. All timber on the right-of-way and the land necessary for the drilling operation, shall be appraised by the commissioner and paid for in money by the person to whom the lease is granted. [2003 c 334 § 481; 1955 c 131 § 14. Prior: 1937 c 161 § 18. Formerly RCW 78.28.410.]

Intent—2003 c 334: See note following RCW 79.02.010.

79.14.150 Sales of timber—Rules. All sales of timber, as prescribed in this chapter, shall be made subject to the right, power, and authority of the department to adopt rules governing the manner of the removal of the merchantable timber upon any lands embraced within any lease with the view of protecting the same and other timber against destruction or injury by fire or from other causes. The rules shall be binding upon the lessee, his or her successors in interest, and shall be enforced by the department. [2003 c 334 § 482; 1955 c 131 § 15. Prior: 1937 c 161 § 19. Formerly RCW 78.28.420.]

Intent—2003 c 334: See note following RCW 79.02.010.

79.14.160 Development after discovery. After the discovery of oil, gas or other hydrocarbons in paying quantities, lessee shall proceed to develop the oil, gas or other hydrocarbons in the lands covered thereby through the drilling of such wells as will efficiently extract the oil, gas or other hydrocarbons therefrom and such development shall take into account the productiveness of the producing horizon, the depth at which it occurs, the average cost of wells, the market requirements obtaining at any given time, and the maintenance of proper oil and gas ratios. [1955 c 131 § 16. Prior: 1937 c 161 § 20. Formerly RCW 78.28.430.]

79.14.180 Lands may be withheld from leasing. Nothing contained in this chapter shall be construed as requiring the department to offer any tract or tracts of land for lease; but the department shall have power to withhold any tract or tracts from leasing for oil, gas, or other hydrocarbons, if, in its judgment, the best interest of the state will be served by so doing. [2003 c 334 § 483; 1955 c 131 § 18. Prior: 1937 c 161 § 24. Formerly RCW 78.28.450.]

Intent—2003 c 334: See note following RCW 79.02.010.

79.14.190 Payment of royalty share—Royalty in kind. The lessee shall pay to the department the market value at the well of the state’s royalty share of oil and other hydrocarbons except gas produced and saved and delivered by lessee from the lease. In lieu of receiving payment for the market value of the state’s royalty share of oil, the department may elect that such royalty share of oil be delivered in kind at the mouth of the wells into tanks provided by the department. Lessee shall pay to the department the state’s royalty share of the sale price received by the lessee for gas produced and saved and sold from the lease. If such gas is not sold but is used by lessee for the manufacture of gasoline or other products, lessee shall pay to the department the market value of the state’s royalty share of the residue gas and other products, less a proper allowance for extraction costs. [2003 c 334 § 484; 1955 c 131 § 19. Prior: 1937 c 161 § 25. Formerly RCW 78.28.460.]

All exploration permits issued by the department prior to June 9, 1955, which have not expired or been legally canceled for nonperformance by the permitees, are hereby declared to be valid and existing contracts with the state of Washington, according to their terms and provisions. The obligation of the state to conform to the terms and provisions of such permits is hereby recognized, and the department is directed to accept and recognize all such permits according to their express terms and provisions. No repeal or amendment made by this chapter shall affect any right acquired under the law as it existed prior to such repeal or amendment, and such right shall be governed by the law in effect at time of its acquisition. Any permit recognized and confirmed by this section may be relinquished to the state by the permittee, and a new lease or, if such permit contains more than six hundred forty acres, new leases in the form provided for in this chapter, shall be issued in lieu of same and without bonus therefor; but the new lease or leases so issued shall be as provided for in this chapter and governed by the applicable provisions of this chapter instead of by the law in effect prior thereto. [2003 c 334 § 485; 1955 c 131 § 20. Prior: 1937 c 161 § 26. Formerly RCW 78.28.470.]

Intent—2003 c 334: See note following RCW 79.02.010.

79.14.210 Assignments and subleases of leases. Any oil or gas lease issued under the authority of this chapter may be assigned or subleased as to all or part of the acreage
included therein, subject to final approval by the department, and as to either a divided or undivided interest therein to any person. Any assignment or sublease shall take effect as of the first day of the lease month following the date of filing with the department. However, at the department’s discretion, it may disapprove an assignment of a separate zone or deposit under any lease or of a part of a legal subdivision. Upon approval of any assignment or sublease, the assignee or sublessee shall be bound by the terms of the lease to the same extent as if such assignee or sublessee were the original lessee, any conditions in the assignment or sublease to the contrary notwithstanding. Any partial assignment of any lease shall segregate the assigned and retained portions thereof, and upon approval of such assignment by the department, the assignor shall be released and discharged from all obligations thereafter accruing with respect to the assigned lands. 79.14.220 Appeal from rulings of commissioner. Any applicant for a lease under this chapter, feeling aggrieved by any order, decision, or rule of the commissioner, concerning the same, may appeal therefrom to the superior court of the county wherein such lands are situated, as provided by RCW 79.02.030. [2003 c 334 § 487; 1955 c 131 § 22. Prior: 1937 c 161 § 28. Formerly RCW 78.28.490.]

Any person desiring to obtain a lease for mineral prospecting purposes upon any lands in which the mineral rights are owned or administered by the department, shall file in the proper office of the department an application or applications therefor, upon the prescribed form, together with application fees. The department may reject an application for a mineral prospecting lease when the department determines rejection to be in the best interests of the state, and in such case shall inform the applicant of the reason for rejection and refund the application fee. The department may also reject the application and declare the application fee forfeited should the applicant fail to execute the lease. [2003 c 334 § 404; 1987 c 20 § 4; 1965 c 56 § 4; 1927 c 255 § 156; RRS § 7797-156. Prior: 1917 c 148 § 2; 1901 c 151 §§ 1, 2; 1897 c 102 §§ 2, 5. 79.14.340 Compensation for loss or damage to surface rights. Where the surface rights are held by a third party, the lessee shall not exercise the rights reserved by the state upon lands covered by the lessee’s lease or contract until the lessee has provided the department with satisfactory evidence of compliance with the requirements of the state’s mineral rights reservations. Where the surface rights are held by the state, the lessee shall not exercise its mineral rights upon lands covered by the lessee’s lease or contract until the lessee has made satisfactory arrangements with the department to compensate the state for loss or damage to the state’s surface rights. [1987 c 20 § 5; 1965 c 56 § 5; 1927 c 255 § 157; RRS § 7797-157. Prior: 1917 c 148 § 3; 1899 c 147 § 1; 1897 c 102 § 6. Formerly RCW 79.01.624, 78.20.040.]

The lessee shall pay an annual lease rental as set by the board of natural resources. The annual lease rental shall be paid in advance. The lessee shall not have the right to extract and remove for commercial sale or use from the leased premises any minerals or specified materials found on the premises except upon obtaining a mining contract. The lessee shall perform annual

(2008 Ed.)
prospecting work in cost amounts as set by the board of natural resources. The lessee may make payment to the department in lieu of the performance of annual prospecting work for up to three years during the term of the lease. Prospecting work performed must contribute to the mineral evaluation of the leased premises.

The lessee may at any time give notice of intent to terminate the lease if all of the covenants of the lease including reclamation are met. The notice of termination of lease shall be made by giving written notice together with copies of all information obtained from the premises. The lease shall terminate sixty days thereafter if all arrears and sums which are due under the lease up to the time of termination have been paid. A lessee applying for a mining contract shall furnish plans for development leading toward production. The plans shall address the reclamation of the property. A mining contract shall be for a term of twenty years.

The first year of the contract and each year thereafter, the lessee shall perform development work in cost amounts as set by the board. The lessee may make payment to the department in lieu of development work.

The lessee may at any time give notice of intent to terminate the contract if all of the covenants of the contract including reclamation are met. The notice of termination of contract shall be made by giving written notice together with copies of all information obtained from the premises. The contract shall terminate sixty days thereafter if all arrears and sums which are due under the contract up to the time of termination have been paid.

However, the lessee shall upon written request to the department be granted an extension where forces beyond the control of the lessee prevent removal of the improvements within sixty days.

Any lessee not converting a prospecting lease to a mining contract shall not be entitled to a new prospecting lease or mining contract on the premises for one year from the expiration date of the prior lease. Such lands included in the prospecting lease shall be open to application by any person other than the prior lessee, and the lessee’s agents or associates during the year shall be open to application by any person other than the prior lessee.”

Title 79 RCW: Public Lands

79.14.380 Prospecting and mining—Termination for default. The department shall terminate and cancel a prospecting lease or mining contract upon failure of the lessee to make payment of the annual rental or royalties or comply with the terms and conditions of the lease or contract upon the date such payments and compliances are due. The lessee shall be notified of such termination and cancellation, said notice to be mailed to the last known address of the lessee. Termination and cancellation shall become effective thirty days from the date of mailing the notice. However, the department may, upon written request from the lessee, grant an extension of time in which to make such payment or comply with the terms and conditions. 79.14.490 Investigation and issue of option contract. (1) Upon the filing of any such application, the department shall forthwith investigate the character of the lands applied for, and if, from such investigation, it deems it to be in the best interests of the state, it shall enter into an option contract with the applicant.

(2) The holder of any option contract shall be entitled, during the period of one year from the date thereof, to:
(a) Enter upon the lands and carry on such work of exploration, examination, and prospecting for coal as may be necessary to determine the presence of coal upon the lands and the feasibility of mining the same; and
(b) Use such timber found upon the lands and owned by the state as may be necessary for steam purposes and timbering in the examination and prospecting of such lands. However, this provision shall not be construed to require the state to withhold any such timber from sale.
(3) No coal shall be removed from such lands during the period of such option contract except for samples and testing.

(2008 Ed.)
The department shall incorporate in every lease such provisions and conditions not inconsistent with the provisions of this chapter and not inconsistent with good coal mining practice as it deems necessary and proper for the protection of the state, and, in addition thereto, the department is empowered to adopt such rules, not inconsistent with this chapter and not inconsistent with good mining practice, governing the manner and methods of mining as in its judgment are necessary and proper. [2003 c 334 § 418; 1985 c 459 § 1; 1927 c 255 § 167; RRS § 7797-167. Prior: 1925 ex.s. c 155 § 5. Formerly RCW 79.01.668, 78.24.040.]

The lessee shall have the right to terminate the lease after thirty days’ written notice to the department and the payment of all royalties and rentals then due. [2003 c 334 § 425; 1927 c 255 § 174; RRS § 7797-174. Prior: 1925 ex.s. c 155 § 9. Formerly RCW 79.01.684, 78.24.100.]

Upon the termination of any lease issued under the foregoing provisions, the lessee shall surrender the lands and premises and leave in good order and repair all shafts, slopes, airways, tunnels, and watercourses then in use. Unless the coal therein is exhausted, the lessee shall also, as far as it is reasonably practicable so to do, leave open to the face all main entries then in use so that the work of further development and operation may not be unnecessarily hampered. The lessee shall also leave on the premises all buildings and other structures, but shall have the right to, without damage to such buildings and structures, remove all tracks, machinery, and other personal property. [2003 c 334 § 423; 1927 c 255 § 172; RRS § 7797-172. Prior: 1925 ex.s. c 155 § 10. Formerly RCW 79.01.688, 78.24.100.]

Intent—2003 c 334: See note following RCW 79.02.010.

79.14.570 Re-lease—Procedure—Preference rights. If at the expiration of any lease for the mining and extraction of coal or any renewal thereof the lessee desires to re-lease the lands covered thereby, the lessee may make application to the department for a re-lease. Such application shall be in writing and under oath, setting forth the extent, character, and value of all improvements, development work, and structures existing upon the land. The department may on the filing of such application cause the lands to be inspected, and if the department deems it for the best interests of the state to re-lease said lands, it shall fix the royalties for the ensuing term in accordance with the foregoing provisions relating to original leases, and issue to the applicant a renewal lease for a further term; such application for a release when received from the lessee, or successor of any lessee, who has in good faith developed and improved the property in a substantial manner during the original lease to be given preference on equal terms against the application of any new applicant. [2003 c 334 § 424; 1927 c 255 § 173; RRS § 7797-173. Prior: 1925 ex.s. c 155 § 11. Formerly RCW 79.01.692, 78.24.110.]

79.14.900 Severability—1955 c 131. If any provision or section of this chapter shall be adjudicated to be unconstitutional, such adjudication shall not affect the validity of this chapter as a whole or any part thereof not adjudicated unconstitutional. If any provision of this chapter, or the application of such provision to any person or circumstances is held unconstitutional, invalid or unenforceable, the remainder of this chapter or the application of such provision to persons or circumstances other than those to which it is held unconstitutional, invalid or unenforceable, shall not be affected thereby. Intent—2003 c 334: See note following RCW 79.02.010.

79.15.030 Rules or procedures for removal of valuable materials sold. All sales of valuable materials shall be made subject to the right, power, and authority of the department to prescribe rules or procedures governing the manner of the sale and removal of the valuable materials. Such procedures shall be binding when contained within a purchaser’s contract for valuable materials and apply to the purchaser’s successors in interest and shall be enforced by the department. [2004 c 199 § 213; 2003 c 334 § 339; 2001 c 250 § 5; 1959 c 257 § 15; 1927 c 255 § 40; RRS § 7797-40. (2) A direct sale of valuable materials may be sold to the applicant for cash at full appraised value without notice or advertising. The board must, by resolution, establish the value amount of a direct sale not to exceed twenty-five thousand dollars in appraised sale value, and establish procedures to ensure that competitive market prices and accountability are guaranteed. [2006 c 42 § 1; 2003 c 334 § 353.]

Intent—2003 c 334: See note following RCW 79.02.010.

79.15.055 Appraisal—Defined. For the purposes of this chapter, "appraisal" means an estimate of the market value of valuable materials. The estimate must reflect the value based on market conditions at the time of the sale or transfer offering. The appraisal must reflect the department’s best effort to establish a reasonable market value for the purpose of setting a minimum bid at auction or transfer. A purchaser of valuable materials may not rely upon the appraisal prepared by the department for purposes of deciding whether to make a purchase from the department. All purchasers are required to make their own independent appraisals. [2004 c 199 § 214; 2003 c 334 § 309; 2001 c 250 § 10. Formerly RCW 79.01.082.]

Intent—2003 c 334: See note following RCW 79.02.010.

79.15.060 Date of sale limited by time of appraisal—Transfer of authority. (1) For the sale of valuable materials under this chapter, if the board is required by law to appraise the sale, the board must establish a minimum appraisal value that is valid for a period of one hundred eighty days, or a longer period as may be established by resolution. The board may reestablish the minimum appraisal value at any time. For any valuable materials sales that the board is required by law to appraise, the board may by resolution transfer this authority to the department.
(2) Where the board has set a minimum appraisal value for a valuable materials sale, the department may set the final appraisal value of valuable materials for auction, which must be equal to or greater than the board’s minimum appraisal value. The department may also appraise any valuable materials sale not required by law to be approved by the board.

[2003 c 334 § 329.]  

Intent—2003 c 334: See note following RCW 79.02.010.

79.15.070  Time and date of sale.  It is the duty of the department to fix the date, time, and place of sale.

(2) No sale may be conducted on any day that is a legal holiday.

(3) Sales must be held between the hours of 10:00 a.m. and 4:00 p.m. If all sales cannot be offered within this time period, the sale must continue on the following day between the hours of 10:00 a.m. and 4:00 p.m.

(4) Sales must take place:

(a) At the department’s regional office having jurisdiction over the respective sale; or

(b) On county property designated by the board of county commissioners or county legislative authority of the county in which the whole or majority of valuable materials are situated.  [2003 c 334 § 350.]

Intent—2003 c 334: See note following RCW 79.02.010.

79.15.080  Advertising sales of valuable materials.  (1) Sales, other than direct sales, appraised at an amount not exceeding two hundred fifty thousand dollars, when authorized by the board for sale, shall be advertised by publishing not less than ten days prior to sale a notice of such sale in a newspaper of general circulation located nearest to the property from which the valuable material is to be sold.

(2) Except as provided in RCW 79.15.050, all other proposed sales of valuable materials must be advertised through individual notice of sale and publication of a statewide list of sales.

(a) The notice of sale:

(i) Must specify the place, date, and time of sale, the appraised value thereof, and describe with particularity each parcel of land from which valuable materials are to be sold. The estimated volume will be identified and the terms of sale will be available in the region headquarters and the department’s Olympia office;

(ii) May prescribe that the bid deposit required in RCW 79.15.110 be considered an opening bid;

(iii) May be advertised by newspaper or by other means of publishing the information such as on the internet; and

(iv) Must be posted in a conspicuous place in the department’s Olympia office and in the region headquarters administering the sale, and in the office of the county auditor of the county where the material is located.

(b) The department shall print a list of all valuable material on public lands that are to be sold. The list should be organized by county and by alphabetical order.

(i) The list should be published in a pamphlet form, issued at least four weeks prior to the date of any sale and provide sale information to prospective buyers.

(ii) The department must retain for free distribution in the Olympia office and the region offices sufficient copies of the pamphlet, to be kept in a conspicuous place, and, when requested to do so, must mail copies of the pamphlet as issued to any requesting applicant.

(iii) The department may seek additional means of publishing the information in the pamphlet, such as on the internet, to increase the number of prospective buyers.

(3) The department is authorized to expend any sum in additional advertising of the sales as it deems necessary.  [2006 c 42 § 2; 2003 c 334 § 347.]

Intent—2003 c 334: See note following RCW 79.02.010.

79.15.090  Advertisement for informational purposes only.  The advertisement of sales is for informational purposes only, and under no circumstances does the information in the notice of sale constitute a warranty that the purchaser will receive the stated values, volumes, or acreage.  All purchasers are expected to make their own measurements, evaluations, and appraisals.  [2003 c 334 § 345.]

Intent—2003 c 334: See note following RCW 79.02.010.

79.15.100  Terms and conditions of sale.  (1) Valuable materials may be sold separately from the land as a "lump sum sale" or as a "scale sale."

(a) "Lump sum sale" means any sale offered with a single total price applying to all the material conveyed.

(b) "Scale sale" means any sale offered with per unit prices to be applied to the material conveyed.

(2) Payment for lump sum sales must be made as follows:

(a) Lump sum sales under five thousand dollars appraised value require full payment on the day of sale.

(b) Lump sum sales appraised at over five thousand dollars but under one hundred thousand dollars may require full payment on the day of sale.

(c) Lump sum sales requiring full payment on the day of sale may be paid in cash or by certified check, cashier’s check, bank draft, or money order, all payable to the department.

(3) Except for sales paid in full on the day of sale or sales with adequate bid bonds, an initial deposit not to exceed twenty-five percent of the actual or projected purchase price shall be made on the day of sale.

(a) Sales with bid bonds are subject to the day of sale payment and replacement requirements prescribed by RCW 79.15.110.

(b) The initial deposit must be maintained until all contract obligations of the purchaser are satisfied. However, all or a portion of the initial deposit may be applied as the final payment for the valuable materials in the event the department determines that adequate security exists for the performance or fulfillment of any remaining obligations of the purchaser under the sale contract.

(4) Advance payments or other adequate security acceptable to the department is required for valuable materials sold on a scale sale basis or a lump sum sale not requiring full payment on the day of sale.

(a) The purchaser must notify the department before any operation takes place on the sale site.

(2008 Ed.)
(b) Upon notification as provided in (a) of this subsection, the department must require advanced payment or may allow purchasers to submit adequate security.

(c) The amount of advanced payments or security must be determined by the department and must at all times equal or exceed the value of timber cut and other valuable materials processed or removed until paid for.

(d) Security may be bank letters of credit, payment bonds, assignments of savings accounts, assignments of certificates of deposit, or other methods acceptable to the department as adequate security.

(5) All valuable material must be removed from the sale area within the period specified in the contract.

(a) The specified period may not exceed five years from date of purchase except for stone, sand, gravel, fill material, or building stone.

(b) The specified period for stone, sand, gravel, fill material, or building stone may not exceed thirty years.

(c) In all cases, any valuable material not removed from the land within the period specified in the contract reverts to the state.

(6) The department may extend a contract beyond the normal termination date specified in the sale contract as the time for removal of valuable materials when, in the department’s judgment, the purchaser is acting in good faith and endeavoring to remove the materials. The extension is contingent upon payment of the fees specified below.

(a) The extended time for removal shall not exceed:

(i) Forty years from date of purchase for stone, sand, gravel, fill material, or building stone;

(ii) A total of ten years beyond the original termination date for all other valuable materials.

(b) An extension fee fixed by the department will be charged based on the estimated loss of income per acre to the state resulting from the granting of the extension plus interest on the unpaid portion of the contract. The board must periodically fix and adopt by rule the interest rate, which shall not be less than six percent per annum.

(c) The sale contract shall specify:

(i) The applicable rate of interest as fixed at the day of sale and the maximum extension payment; and

(ii) The method for calculating the unpaid portion of the contract upon which interest is paid.

(d) The minimum extension fee is fifty dollars per extension plus interest on the unpaid portion of the contract.

(e) Moneys received for any extension must be credited to the same fund in the state treasury as was credited the original purchase price of the valuable material sold.

(7) The department may, in addition to any other securities, require a performance security to guarantee compliance with all contract requirements. The security is limited to those types listed in subsection (4) of this section. The value of the performance security will, at all times, equal or exceed the value of work performed or to be performed by the purchaser.

(8) The provisions of this section apply unless otherwise provided by statute. [2004 c 177 § 5; 2003 c 334 § 334.]

79.15.110 Conduct of sales. (1) Sales of valuable materials must be conducted under the direction of the department or its authorized representative.

(a) Sales of valuable materials, unless otherwise provided in this chapter, shall be at public auction or by sealed bid to the highest bidder, except that, on public lands granted to the state for educational purposes, sealed bids may be accepted for sales of timber or stone only.

(b) The person conducting the sale is called the auctioneer.

(2) On or before the time specified in the notice of sale each bidder shall deposit with the auctioneer a bid deposit equal to the amount specified in the notice of sale plus any fees required by law for the issuance of contracts or bill of sale.

(a) The bid deposit must meet the requirements of RCW 79.15.100(3).

(b) The deposit may be in cash, or by certified check, cashier’s check, or money order, all payable to the department or by bid guarantee in the form of a bid bond acceptable to the department.

(3) The bid deposit, if prescribed in the notice of sale as authorized in RCW 79.15.100, may be considered an opening bid of an amount not less than the minimum appraised price established in the notice of sale.

(4) The successful bidder’s deposit will be retained by the auctioneer.

(a) Any difference between the bid deposit and the total amount due including any fees required by law shall be paid on the day of sale. Payments may be by cash, certified check, cashier’s check, bank draft, or money order payable to the department.

(b) Any amount of the deposit guaranteed by a bid bond must be paid to the department within ten days of the sale day in cash, certified check, cashier’s check, bank draft, or money order payable to the department.

(c) Other deposits must be returned to the respective bidders at the conclusion of each sale.

(5) The auctioneer must deliver to the purchaser a memorandum of his or her purchase containing a description of the materials purchased, the price bid, and the terms of the sale.

(6) The auctioneer must at once send to the department all payments or bid guarantees received from the purchaser and a copy of the memorandum delivered to the purchaser, together with additional reports of the proceedings as required by the department. [2003 c 334 § 355.]

Intent—2003 c 334: See note following RCW 79.02.010.

79.15.120 Confirmation of sale. The department shall enter upon its records a confirmation of sale and issue to the purchaser a bill of sale for valuable materials if the following conditions have been met:

(1) No fewer than ten days have passed since the auctioneer’s report has been filed;

(2) No affidavit is filed with the department showing that the interests of the state in the sale were injuriously affected by fraud or collusion;

(3) It appears from the auctioneer’s report that:

(a) The sale was fairly conducted; and
(b) The purchaser was the highest bidder and the bid was not less than the appraised value of the material sold;

(4) The department is satisfied that the valuable material sold would not, upon being readvertised and offered for sale, sell for at least ten percent more than the price submitted by the apparent high bidder;

(5) The payment required by law to be made at the time of making the sale has been made; and

(6) The department determines the best interests of the state will be served by confirming the sale. [2003 c 334 § 358.]

Intent—2003 c 334: See note following RCW 79.02.010.

79.15.130 Bill of sale. When valuable materials are sold separately from the land and the purchase price is paid in full, the department shall prepare a bill of sale. The bill of sale shall:

(1) State the time period for removing the material;

(2) Be signed by the commissioner and attested by the seal of the commissioner’s office upon full payment of the purchase price and fees;

(3) Be issued to the purchaser upon payment of the fee for the bill of sale; and

(4) Be recorded in the department. [2003 c 334 § 362; 2001 c 250 § 9; 1927 c 255 § 58; RRS § 7797-58. Formerly RCW 79.01.232, 79.12.420.]

Intent—2003 c 334: See note following RCW 79.02.010.

79.15.140 Valuable materials contract—Impracticable to perform/cancellation—Substitute valuable materials. (1) In the event that the department determines that regulatory requirements or some other circumstance beyond the control of both the department and the purchaser has made a valuable materials contract wholly or partially impracticable to perform, the department may cancel any portion of the contract which could not be performed. In the event of such a cancellation, the purchaser shall not be liable for the purchase price of any portions of the contract so canceled. Market price fluctuations shall not constitute an impracticable situation for valuable materials contracts.

(2) Alternatively, and notwithstanding any other provision in this title, the department may substitute valuable materials from another site in exchange for any valuable materials which the department determines have become impracticable to remove under the original contract. Any substituted valuable materials must belong to the identical trust involved in the original contract, and the substitute materials shall be determined by the department to have an appraised value that is not greater than the valuable materials remaining under the original contract. The substitute valuable materials and site shall remain subject to all applicable permitting requirements and the state environmental policy act, chapter 43.21C RCW, for the activities proposed at that site. In any such substitution, the value of the materials substituted shall be fixed at the purchase price of the original contract regardless of subsequent market changes. Consent of the purchaser shall be required for any substitution under this section. [2003 c 334 § 364; 2001 c 250 § 18. Formerly RCW 79.01.238.]

Intent—2003 c 334: See note following RCW 79.02.010.

79.15.150 Reoffer. A sale of valuable materials that has been offered, and for which there are no bids received, shall not be reoffered until it has been readvertised as prescribed in RCW 79.11.130. [2003 c 334 § 351.]

Intent—2003 c 334: See note following RCW 79.02.010.

PART 2
DAMAGED TIMBER

79.15.210 Findings—Damage to timber. From time to time timber on state land is damaged by events such as fire, wind storms, and flooding. After such events the timber becomes very susceptible to loss of value and quality due to rot and disease. To obtain maximum value for the state, it is important to sell any damaged timber as fast as possible while providing ample protection for the physical environment and recognizing the sensitivity of removing timber from certain locations. [1987 c 126 § 1. Formerly RCW 79.01.790.]

79.15.220 Sale of damaged valuable materials. When the department finds valuable materials on state land that are damaged by fire, wind, flood, or from any other cause, it shall determine if the salvage of the damaged valuable materials is in the best interest of the trust for which the land is held. If salvaging the valuable materials is in the best interest of the trust, the department shall proceed to offer the valuable materials for sale. The valuable materials, when offered for sale, must be sold in the most expeditious and efficient manner as determined by the department. In determining if the sale is in the best interest of the trust the department shall consider the net value of the valuable materials and relevant elements of the physical and social environment. [2001 c 250 § 14; 1987 c 126 § 2. Formerly RCW 79.01.795.]

PART 3
ROCK, GRAVEL, ETC., SALES

79.15.300 Contracts—Forfeiture—Royalties—Monthly reports. (1) The department, upon application by any person, may enter into a contract providing for the sale and removal of rock, gravel, sand, and silt located upon state lands or state forest lands, and providing for payment to be made on a royalty basis.

(2) The issuance of a contract shall be made after public auction and shall not be issued for less than the appraised value of the material.

(3) Each application made pursuant to this section shall:

(a) Set forth the estimated quantity and kind of materials desired to be removed; and

(b) Be accompanied by a map or plat showing the area from which the applicant wishes to remove such materials.

(4) The department may in its discretion include in any contract such terms and conditions required to protect the interests of the state.

(5) Every contract shall provide for a right of forfeiture by the state, upon a failure to operate under the contract or pay royalties for periods therein stipulated. The right of forfeiture is exercised by entry of a declaration of forfeiture in the records of the department.

(6) The department may require a bond with a surety company authorized to transact a surety business in this state,
as surety, to secure the performance of the terms and conditions of such contract including the payment of royalties.

(7) The amount of rock, gravel, sand, or silt taken under the contract shall be reported monthly by the purchaser to the department and payment therefor made on the basis of the royalty provided in the contract.

(8) The department may inspect and audit books, contracts, and accounts of each person removing rock, gravel, sand, or silt pursuant to any such contract and make such other investigation and secure or receive any other evidence necessary to determine whether or not the state is being paid the full amount payable to it for the removal of such materials. [2003 c 334 § 335; 1985 c 197 § 1; 1961 c 73 § 11. Formerly RCW 79.01.134.]

Intent—2003 c 334: See note following RCW 79.02.010.

79.15.320 Road material—Sale to public authorities—Disposition of proceeds. (1) Any county, city, or town may file with the department an application to purchase any stone, rock, gravel, or sand upon any state lands or state forest lands to be used in the construction, maintenance, or repair of any public street, road, or highway within such county, city, or town.

(2) Applications shall set forth the quantity and kind of material desired to be purchased, the location thereof, and the name, or other designation, and location of the street, road, or highway upon which the material is to be used.

(3) The department is authorized to appraise and sell the material in such a manner and upon such terms as the department deems advisable for not less than the fair market value thereof.

(4) The proceeds of any such sale shall be paid into the state treasury and credited to the fund to which the proceeds of the sale of the land upon which the material is situated would belong. [2003 c 334 § 343; 1982 1st ex.s. c 21 § 155; 1927 c 255 § 44; RRS § 7797-44. Prior: 1923 c 71 § 1; 1917 c 148 § 13. Formerly RCW 79.01.176, 79.12.250.]

Intent—2003 c 334: See note following RCW 79.02.010.

PART 4

FIREWOOD

79.15.400 License to remove firewood authorized. The department may issue licenses to residents of this state to enter upon state lands under the administration or jurisdiction of the department for the purpose of removing therefrom, standing or downed timber which is unfit for any purpose except to be used as firewood. [2003 c 334 § 230; 1975 c 10 § 1; 1945 c 97 § 1; Rem. Supp. 1945 § 7797-40a. Formerly RCW 76.20.010.]

Intent—2003 c 334: See note following RCW 79.02.010.

79.15.410 Removal only for personal use. In addition to other matters which may be required to be contained in the application for a license under this chapter the applicant must certify that the wood so removed is to be only for the applicant's own personal use and in his or her own home and that the applicant will not dispose of it to any other person. [2003 c 334 § 231; 1945 c 97 § 2; Rem. Supp. 1945 § 7797-40b. Formerly RCW 76.20.020.]

Intent—2003 c 334: See note following RCW 79.02.010.

79.15.420 Issuance of license—Fee. The application may be made to the department, and if deemed proper, the license may be issued upon the payment of two dollars and fifty cents which shall be paid into the treasury of the state by the officer collecting the same and placed in the resource management account or forest development account, as applicable; the license shall be dated as of the date of issuance and authorize the holder thereof to remove between the dates so specified not more than six cords of wood not fit for any use but as firewood for the use of the applicant and his or her family from the premises described in the license under such rules as the department may adopt. [2003 c 334 § 232; 1975 c 10 § 2; 1945 c 97 § 3; Rem. Supp. 1945 § 7797-40c. Formerly RCW 76.20.030.]

Intent—2003 c 334: See note following RCW 79.02.010.

79.15.430 Removal of firewood without charge. Whenever the department determines that it is in the best interest of the state and there will be a benefit to the lands involved or a state program affecting such lands it may designate specific areas and authorize the general public to enter upon lands under its jurisdiction for the purposes of cutting and removing standing or downed timber for use as firewood for the personal use of the person so cutting and removing without a charge under such terms and conditions as it may require. [2003 c 334 § 233; 1975 c 10 § 3. Formerly RCW 76.20.035.]

Intent—2003 c 334: See note following RCW 79.02.010.

79.15.440 Penalty. Any false statement made in the application or any violation of the provisions of RCW 79.15.400 through 79.15.430 shall constitute a gross misdemeanor and be punishable as such. [2003 c 334 § 234; 1945 c 97 § 4; Rem. Supp. 1945 § 7797-40d. Formerly RCW 76.20.040.]

Intent—2003 c 334: See note following RCW 79.02.010.

PART 5

CONTRACT HARVESTING

79.15.500 Contract harvesting—Definitions. The definitions in this section apply throughout RCW 79.15.500 through 79.15.530 and 79.15.540 unless the context clearly requires otherwise.

(1) "Commissioner" means the commissioner of public lands.

(2) "Contract harvesting" means a timber operation occurring on state forest lands, in which the department contracts with a firm or individual to perform all the necessary harvesting work to process trees into logs sorted by department specifications. The department then sells the individual log sorts.

(3) "Department" means the department of natural resources.

(4) "Harvesting costs" are those expenses related to the production of log sorts from a stand of timber. These
expenses typically involve road building, labor for felling, bucking, and yarding, as well as the transporting of sorted logs to the forest product purchasers.

(5) "Net proceeds" means gross proceeds from a contract harvesting sale less harvesting costs.

(6) "Silvicultural treatment" means any vegetative or other treatment applied to a managed forest to improve the conditions of the stand, and may include harvesting, thinning, prescribed burning, and pruning. [2004 c 218 § 8; 2003 c 313 § 2.]

Effective date—2004 c 218: See note following RCW 76.06.140.

Findings—2003 c 313: "The legislature finds that it is in the best interest of the trust beneficiaries to capture additional revenues while providing for additional environmental protection on timber sales. Further, the legislature finds that contract harvesting is one method to achieve these desired outcomes. Therefore, the legislature directs the department of natural resources to establish and implement contract harvesting where there exists the ability to increase revenues for the beneficiaries of the trusts while obtaining increases in environmental protection." [2003 c 313 § 1.]

Severability—2003 c 313: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [2003 c 313 § 15.]

79.15.510 Contract harvesting—Program established. (1) The department may establish a contract harvesting program for directly contracting for the removal of timber and other valuable materials from state lands and for conducting silvicultural treatments consistent with RCW 79.15.540.

(2) The contract requirements must be compatible with the office of financial management’s guide to public service contracts.

(3) The department may not use contract harvesting for more than ten percent of the total annual volume of timber offered for sale. However, volume removed primarily to address an identified forest health issue under RCW 79.15.540 may not be included in calculating the ten percent annual limit of contract harvesting sales. [2004 c 218 § 6; 2003 c 313 § 3.]

Effective date—2004 c 218: See note following RCW 76.06.140.

Findings—Severability—2003 c 313: See notes following RCW 79.15.500.

79.15.520 Contract harvesting revolving account. (1) The contract harvesting revolving account is created in the custody of the state treasurer. All receipts from the gross proceeds of the sale of logs from a contract harvesting sale must be deposited into the account. Expenditures from the account may be used only for the payment of harvesting costs incurred on contract harvesting sales and for payment of costs incurred from silvicultural treatments necessary to improve forest health conducted under RCW 79.15.540. Only the commissioner or the commissioner’s designee may authorize expenditures from the account. The board of natural resources has oversight of the account, and the commissioner must periodically report to the board of natural resources as to the status of the account, its disbursement, and receipts. The account is subject to allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures.

(2) When the logs from a contract harvesting sale are sold, the gross proceeds must be deposited into the contract harvesting revolving account. Moneys equal to the harvesting costs must be retained in the account and be deducted from the gross proceeds to determine the net proceeds. The net proceeds from the sale of the logs must be distributed in accordance with RCW 43.30.325(1)(b). The final receipt of gross proceeds on a contract harvesting sale must be retained in the contract harvesting revolving account until all required costs for that sale have been paid. The contract harvesting revolving account is an interest-bearing account and the interest must be credited to the account. The account balance may not exceed one million dollars at the end of each fiscal year. Moneys in excess of one million dollars must be disbursed according to RCW 79.22.040, 79.22.050, and 79.64.040. If the department permanently discontinues the use of contract harvesting sales, any sums remaining in the contract harvesting revolving account must be returned to the resource management cost account and the forest development account in proportion to each account’s contribution to the initial balance of the contract harvesting revolving account. [2004 c 218 § 7; 2003 c 313 § 4.]

Effective date—2004 c 218: See note following RCW 76.06.140.

Findings—Severability—2003 c 313: See notes following RCW 79.15.500.

79.15.530 Contract harvesting—Special appraisal practices. The board of natural resources must determine whether any special appraisal practices are necessary for logs sold by the contract harvesting processes, and if so, must adopt the special appraisal practices or procedures. In its consideration of special appraisal practices, the board of natural resources must consider and adopt procedures to rapidly market and sell any log sorts that failed to receive the required minimum bid at the original auction, which may include allowing the department to set a new appraised value for the unsold sort.

The board of natural resources must establish and adopt policy and procedures by which the department evaluates and selects certified contract harvesters. The procedures must include a method whereby a certified contract harvester may appeal a decision by the department or board of natural resources to not include the certified contract harvester on the list of approved contract harvesters. [2003 c 313 § 5.]

Findings—Severability—2003 c 313: See notes following RCW 79.15.500.

79.15.540 Intent—Contract harvesting—State trust forest land with identified forest health deficiencies. (1) The legislature intends to ensure, to the extent feasible given all applicable trust responsibilities, that trust beneficiaries receive long-term income from timber lands through improved forest conditions and by reducing the threat of forest fire to state trust forest lands.

(2) In order to implement the intent of RCW 76.06.140, the department may initiate contract harvesting timber sales, or other silvicultural treatments when appropriate, in specific areas of state trust forest land where the department has identified forest health deficiencies as enumerated in RCW 76.06.140. All harvesting or silvicultural treatments applied under this section must be tailored to improve the health of...
the specific stand, must be consistent with any applicable state forest plans and other management agreements, and must comply with all applicable state and federal laws and regulations regarding the harvest of timber by the department of natural resources.

(3) In utilizing contract harvesting to address forest health issues as outlined in this section, the department shall give priority to silvicultural treatments that assist the department in meeting forest health strategies included in any management or landscape plans that exist for state forests. If such plans are not in place, the department shall prioritize silvicultural treatments for forest health with higher priority given to the protection of public health and safety, public resources as defined in RCW 76.09.020, and the long-term asset value of the trust. [2007 c 109 § 2; 2004 c 218 § 5.]

Findings—2007 c 109: "The legislature finds that chapter 218, Laws of 2004 authorized the department of natural resources to utilize contract harvesting for silvicultural treatments to improve forest health on state trust lands, in accordance with RCW 76.06.140 and 79.15.540. The legislature further finds that the use of contract harvesting for silvicultural treatments has proven effective and that continued utilization is important to improve and maintain forest health. Therefore, the legislature finds that it is necessary to remove the expiration date for this authority, set for December 31, 2007, and to continue the use of contract harvesting for silvicultural treatments to improve forest health on state trust lands." [2007 c 109 § 1.]

Effective date—2004 c 218: See note following RCW 76.06.140.

79.17.020 Exchange of lands to consolidate and block up holdings or obtain lands having commercial recreational leasing potential—Consultation with interested parties. (1) The board of county commissioners of any county and/or the mayor and city council or city commission of any city or town and/or the board shall have authority to exchange, each with the other, or with the federal forest service, the federal government or any proper agency thereof and/or with any private landowner, county land of any character, land owned by municipalities of any character, and state forest land owned by the state under the jurisdiction of the department, for real property of equal value for the purpose of consolidating and blocking up the respective land holdings of any county, municipality, the federal government, or the state of Washington or for the purpose of obtaining lands having commercial recreational leasing potential.

(2) During the biennium ending June 30, 2009, for the purposes of maintaining working farm and forest landscapes or acquiring natural resource lands at risk of development, the department, with approval of the board of natural resources, may exchange any state land and any timber thereon for any land and proceeds of equal value, when it can be demonstrated that the trust fiduciary obligations can be better fulfilled after an exchange is completed. Proceeds may be in the form of cash or services in order to achieve the purposes established in this section. Any cash received as part of an exchange transaction shall be deposited in the forest development account to pay for administrative expenses incurred in carrying out an exchange transaction. The amount of proceeds received from the exchange partner may not exceed five percent of the total value of the exchange. The receipt of proceeds shall not change the character of the transaction from an exchange to a sale.

(3) Prior to executing an exchange under this section, and in addition to the public notice requirements set forth in RCW 79.17.050, the department shall consult with legislative members, other state and federal agencies, local governments, tribes, local stakeholders, conservation groups, and any other interested parties to identify and address cultural resource issues, and the potential of the state lands proposed for exchange to be used for open space, park, school, or critical habitat purposes. 79.17.050 Public notice—News release—Hearing. Before a proposed exchange is presented to the board involving an exchange of any lands under the administrative control of the department, the department shall hold a public hearing on the proposal in the county where the state-owned land or the greatest proportion thereof is located. Ten days but not more than twenty-five days prior to such hearing, the department shall publish a paid public notice of reasonable size in display advertising form, setting forth the date, time, and place of the hearing, at least once in one or more daily newspapers of general circulation in the county and at least once in one or more weekly newspapers circulated in the area where the state-owned land is located. (a) Transfers in lieu of condemnations;
(b) Transfers to public agencies; and
(c) Transfers to resolve trespass and property ownership disputes.

Chapter 79.19 RCW

LAND BANK

79.19.010 Legislative finding. The legislature finds that from time to time it may be desirable for the department to sell state lands which have low potential for natural resource management or low income-generating potential or which, because of geographic location or other factors, are inefficient for the department to manage. However, it is also important to acquire lands for long-term management to replace those sold so that the publicly owned land base will not be depleted and the publicly owned forest land base will not be reduced. The purpose of this chapter is to provide a means to facilitate such sales and purchases so that the diversity of public uses on the trust lands will be maintained. In making the determinations, the department shall comply with local land use plans and applicable growth management principles. [2003 c 334 § 525; 1984 c 222 § 1; 1977 ex.s. c 109 § 1. Formerly RCW 79.66.010.]

Intent—2003 c 334: See note following RCW 79.02.010.

79.19.020 Land bank—Created—Purchase of property authorized. The department, with the approval of the board, may purchase property at fair market value to be held in a land bank, which is hereby created within the department. Property so purchased shall be property which would be desirable for addition to the public lands of the state because of the potential for natural resource or income production of the property. The total acreage held in the land bank shall not exceed one thousand five hundred acres. [2003 c 334 § 526; 1984 c 222 § 2; 1977 ex.s. c 109 § 2. Formerly RCW 79.66.020.]

Intent—2003 c 334: See note following RCW 79.02.010.

79.19.030 Exchange or sale of property held in land bank. The department, with the approval of the board, may:

(1) Exchange property held in the land bank for any other lands of equal value administered by the department, including any lands held in trust.

(2) Exchange property held in the land bank for property of equal or greater value which is owned publicly or privately, and which has greater potential for natural resource or income production or which could be more efficiently managed by the department, however, no power of eminent domain is hereby granted to the department; and

(3) Sell property held in the land bank in the manner provided by law for the sale of state lands without any requirement of platting and to use the proceeds to acquire property for the land bank which has greater potential for natural resource or income production or which would be more efficiently managed by the department. [2004 c 199 § 215; 2003 c 334 § 527; 1984 c 222 § 3; 1977 ex.s. c 109 § 3. Formerly RCW 79.66.030.]

79.19.050 Appropriation of funds from forest development account or resource management cost account—Use of income. The legislature may appropriate appropriation of funds from the forest development account or the resource management cost account for the purposes of this chapter. Income from the sale or management of property in the land bank shall be returned as a recovered expense to the forest development account or the resource management cost account and may be used to acquire property under RCW 79.19.020. [2003 c 334 § 529; 1984 c 222 § 5; 1977 ex.s. c 109 § 5. Formerly RCW 79.66.050.]

(2) The technical advisory committee shall provide professional advice and counsel to the board of natural resources regarding land bank sales, purchases, and exchanges involving urban property.

(3) Members of the technical advisory committee shall be appointed for five-year terms and shall serve until a successor is appointed. In the case of a vacancy the vacancy shall be filled by the appointing authority. The initial term of the appointee of the commissioner shall expire in three years. The initial term of the appointee of the superintendent shall expire in four years. The initial term of the appointee of the treasurer shall expire in five years. All terms expire December 31.

79.19.080 Identification of trust lands expected to convert to commercial, residential, or industrial uses—Hearing—Notice—Designation as urban lands. Periodically, at intervals to be determined by the board, the department shall identify trust lands which are expected to convert to commercial, residential, or industrial uses within ten years. The department shall adhere to existing local comprehensive plans, zoning classifications, and duly adopted local policies when making this identification and determining the fair market value of the property.

The department shall hold a public hearing on the proposal in the county where the state land is located. At least fifteen days but not more than thirty days before the hearing, the department shall publish a public notice of reasonable size in display advertising form, setting forth the date, time, and place of the hearing, at least once in one or more daily newspapers of general circulation in the county and at least once in one or more weekly newspapers circulated in the area where the trust land is located. At the same time that the published notice is given, the department shall give written notice of the hearings to the departments of fish and wildlife and general administration, to the parks and recreation commission, and to the county, city, or town in which the property is situated. The department shall disseminate a news release pertaining to the hearing among printed and electronic media in the area where the trust land is located. The public notice and news release also shall identify trust lands in the area which are expected to convert to commercial, residential, or industrial uses within ten years.

A summary of the testimony presented at the hearings shall be prepared for the board’s consideration. The board shall designate trust lands which are expected to convert to commercial, residential, or industrial uses as urban land. Descriptions of lands designated by the board shall be made available to the county and city or town in which the land is situated and for public inspection and copying at the department’s administrative office in Olympia, Washington and at each area office.

PART 2
TRANSFERS OF STATE FOREST LANDS FOR PUBLIC PARK PURPOSES

79.22.300 Procedure—Reconveyance back when use ceases. Whenever the board of county commissioners of any county shall determine that state forest lands, that were acquired from such county by the state pursuant to RCW 79.22.040 and that are under the administration of the department, are needed by the county for public park use in accordance with the county and the state outdoor recreation plans, the board of county commissioners may file an application with the board for the transfer of such state forest lands. Upon the filing of an application by the board of county commissioners, the department shall cause notice of the impending transfer to be given in the manner provided by RCW 42.30.060. If the department determines that the proposed use is in accordance with the state outdoor recreation plan, it shall reconvey said state forest lands to the requesting county and to hold for so long as the state forest lands are developed, maintained, and used for the proposed public park purpose. This reconveyance may contain conditions to encourage maximum multiple use management and may reserve rights-of-way needed to manage other public lands in the area. The application shall be denied if the department finds that the proposed use is not in accord with the state outdoor recreation plan. If the land is not, or ceases to be, used for public park purposes the land shall be conveyed back to the department upon request of the department. Whenever the department does manage the timber resources of such lands, it will do so in accordance with the general statutes relative to the management of all other state forest lands. [2003 c 334 § 214; 1969 ex.s. c 47 § 2. Formerly RCW 76.12.073.]

Intent—2003 c 334:  See note following RCW 79.02.010.

79.36.330 Disposal of property interests acquired.  In the event the department should determine that the property interests acquired under the authority of this chapter are no longer necessary for the purposes for which they were acquired, the department shall dispose of the same in the following manner, when in the discretion of the department it is to the best interests of the state of Washington to do so, except that property purchased with educational funds or held in trust for educational purposes shall be sold only in the same manner as are state lands:

(1) Where the state property necessitating the acquisition of private property interests for access purposes under authority of this chapter is sold or exchanged, the acquired property interests may be sold or exchanged as an appurtenance of the state property when it is determined by the department that sale or exchange of the state property and acquired property interests as one parcel is in the best interests of the state.

(2) If the acquired property interests are not sold or exchanged as provided in subsection (1) of this section, the department shall notify the person or persons from whom the property interest was acquired, stating that the property interests are to be sold, and that the person or persons shall have the right to purchase the same at the appraised price. The

notice shall be given by registered letter or certified mail, return receipt requested, mailed to the last known address of the person or persons. If the address of the person or persons is unknown, the notice shall be published twice in an official newspaper of general circulation in the county where the lands or a portion thereof is located. The second notice shall be published not less than ten nor more than thirty days after the notice is first published. The person or persons shall have thirty days after receipt of the registered letter or five days after the last date of publication, as the case may be, to notify the department, in writing, of their intent to purchase the offered property interest. The purchaser shall include with his or her notice of intention to purchase, cash payment, certified check, or money order in an amount not less than one-third of the appraised price. No instrument conveying property interests shall issue from the department until the full price of the property is received by the department. All costs of publication required under this section shall be added to the appraised price and collected by the department upon sale of the property interests.

(3) If the property interests are not sold or exchanged as provided in subsections (1) and (2) of this section, the department shall notify the owners of land abutting the property interests in the same manner as provided in subsection (2) of this section and their notice of intent to purchase shall be given in the manner and in accordance with the same time limits as are set forth in subsection (2) of this section. However, if more than one abutting owner gives notice of intent to purchase the property interests, the department shall apportion them in relation to the lineal footage bordering each side of the property interests to be sold, and apportion the costs to the interested purchasers in relation thereto. Further, no sale is authorized by this section unless the department is satisfied that the amounts to be received from the several purchasers will equal or exceed the appraised price of the entire parcel plus any costs of publishing notices.

(4) If no sale or exchange is consummated as provided in subsections (1) through (3) of this section, the department shall sell the properties in the same manner as state lands are sold.

(5) Any disposal of property interests authorized by this chapter shall be subject to any existing rights previously granted by the department. [2004 c 199 § 217; 2003 c 334 § 228; 1963 c 140 § 3; 1945 c 239 § 3; Rem. Supp. 1945 § 5823-32. Formerly RCW 76.16.030.]

In all local improvement assessment districts in any assessing district in this state, property in such district, held or owned by the state shall be assessed and charged for its proportion of the cost of such local improvements in the same manner as other property in such district, it being the intention of this chapter that the state shall bear its just and equitable proportion of the cost of local improvements specially benefiting lands of the state. However, none of the provisions of this chapter shall have the effect, or be construed to have the effect, to alter or modify in any particular any existing lease of any lands or property owned by the state, or release or discharge any lessee of any such lands or property from any of the obligations, covenants, or conditions of the contract under which any such lands or property are leased or held by any such lessee. Such assessing district, shall not have jurisdiction to order such improvement as to the interest of the state in harbor areas and state tidelands until the written consent of the commissioner of public lands to the making of such improvement shall have been obtained, unless other means be provided for paying that portion of the cost which would otherwise be levied on the interest of the state of Washington in and to those tidelands, and nothing herein shall prevent the city from assessing the proportionate cost of the improvement against any leasehold, contractual, or possessory interest in and to any tideland or harbor area owned by the state: PROVIDED, HOWEVER, That in the case of tidelands and harbor areas within the boundaries of any port district, notice of intention to make such improvement shall also be forwarded to the commissioners of the port district.

Upon the approval and confirmation of the assessment roll ordered by the proper authorities of any assessing district, the treasurer of such assessing district shall certify and forward to the chief administrative officer of the agency of state government occupying, using, or having jurisdiction over the lands, a statement of all the lots or parcels of land held or owned by the state and charged on such assessment roll, separately describing each such lot or parcel of the state’s land, with the amount of the local assessment charged against it, or the proportionate amount assessed against the fee simple interest of the state, in case the land has been leased. The chief administrative officer upon receipt of such statement shall cause a proper record to be made in his office of the cost of such assessment upon the lands occupied, used, or under the jurisdiction of his agency.

No penalty shall be provided or enforced against the state, and the interest upon such assessments shall be computed and paid at the rate paid by other property situated in the same assessing district. In all other cases, the chief administrative officer shall certify to the director of financial management that the assessment is one properly chargeable to the state. The director of financial management shall pay such assessments from funds available or appropriated for this purpose.

Except as provided in RCW 79.44.190 no lands of the state shall be subject to a lien for unpaid assessments, nor shall the interest of the state in any land be sold for unpaid assessments where assessment liens attached to the lands prior to state ownership. [2003 c 334 § 508; 1979 c 151 §...
79.44.070 Enforcement against lessee or contract holder. When any assessing district has made or caused to be made an assessment against such leasehold, contractual, or possessory interest for any such local improvement, the treasurer of that assessing district shall immediately give notice to the chief administrative officer of the agency having jurisdiction over the lands. The assessment shall become a lien against the leasehold, contractual, or possessory interest in the same manner as the assessments on other property, and its collection may be enforced against such interests as provided by law for the enforcement of other local improvement assessments: PROVIDED, That the assessment shall not be made payable in installments unless the owner of such leasehold, contractual, or possessory interest shall first file with such treasurer a satisfactory bond guaranteeing the payment of such installments as they become due. Whenever any assessing district shall have foreclosed the lien of any such delinquent assessments, as provided by law, and shall have obtained title to such leasehold, contractual, or possessory interest, the chief administrative officer of the agency having jurisdiction over the lands shall be notified by registered or certified mail of such action and furnished a statement of all assessments against such leasehold, contractual, or possessory interest, and the chief administrative officer shall cause the amount of such assessments to be paid as provided in RCW 79.44.060, and upon the receipt of an assignment from such assessing district, the chief administrative officer shall cancel such lease or contract: PROVIDED, HOWEVER, That unless the assessing district making the local improvement and levying the special assessment shall have used due diligence in the foreclosure thereof, the chief administrative officer shall not be required to pay any sum in excess of what they deem to be the special benefits accruing to the state’s reversionary interest in the property: AND PROVIDED FURTHER, That if such delinquent assessment or installment shall be against a leasehold interest in fresh water harbor areas within a port district, the chief administrative officer shall notify the commissioners of that port district of the receipt of such assignment, and the commissioners shall forthwith cancel such lease. [2002 c 260 § 5; 1979 c 151 § 181; 1963 c 20 § 8; 1919 c 164 § 7; RRS § 8131.]

79.44.090 Payment by state after forfeiture of lease or contract. If by reason of default in the payment of rentals or installments, or other causes, the state shall cancel any lease or contract against which assessments have been levied as herein provided, the chief administrative officer of the agency having jurisdiction over the lands shall cause such assessments or installments as shall fall due subsequent to the cancellation of said contract or leasehold interest to be paid as provided in RCW 79.44.060, the same as if the assessments or installments thereof had been levied on the state’s interest in said lands. [1963 c 20 § 9; 1919 c 164 § 8; RRS § 8132.]

79.44.095 Assessments paid by state to be added to purchase price of land. [1919 c 164 § 9; RRS § 8133. Cf. 1909 c 154 § 7.]

79.44.120 When assessments need not be added in certain cases. Whenever any state school, granted, tide, or other public lands of the state shall have been charged with local improvement assessments under any local improvement assessment district in any incorporated city, town, irrigation, diking, drainage, port, weed, or pest district, or any other district now authorized by law to levy assessments against lands of the state, where such assessments are required under existing statutes to be returned to the fund of the state treasury from which the assessments were originally paid, the department may, and is hereby authorized, to sell such lands for their appraised valuation without regard to such assessments, anything to the contrary in the existing statutes notwithstanding. However, nothing in this section shall be construed to alter in any way any existing statute providing for the method of procedure in levying assessments against lands of the state in any of such local improvement assessment districts. [2003 c 334 § 509; 1937 c 80 § 1; RRS § 7797-192a.]

[Title 79 RCW—page 72]
79.44.130  Local provisions superseded. The provisions of this chapter shall apply to all assessing districts as herein defined, any charter or ordinance provisions to the contrary notwithstanding. [1963 c 20 § 11; 1919 c 164 § 11; RRS § 8135. Cf. 1909 c 154 § 8.]

79.44.140  Application of chapter—Eminent domain assessments. The provisions of this chapter shall apply to all local improvements initiated after June 11, 1919, including assessments to pay the cost and expense of taking and damaging property by the power of eminent domain, as provided by law: PROVIDED, That in case of eminent domain assessments, it shall not be necessary to forward notice of the intention to make such improvement, but the eminent domain commissioners, authorized to make such assessment, shall, at the time of filing the assessment roll with the court in the manner provided by law, forward by registered or certified mail to the chief administrative officer of the agency using, occupying or having jurisdiction over the lands a notice of such assessment, and of the day fixed by the court for the hearing thereof: PROVIDED, That no assessment against the state’s interest in tidelands or harbor areas shall be binding against the state if the commissioner of public lands shall file a disapproval of the same in court before judgment confirming the roll. [2002 c 260 § 6; 1979 c 151 § 182; 1963 c 20 § 12; 1919 c 164 § 12; RRS § 8136.]

79.44.190  Acquisition of property by state or political subdivision which is subject to unpaid assessments or delinquencies—Payment of lien or installments. When real property subject to an unpaid special assessment for a local improvement levied by any political subdivision of the state authorized to form local improvement or utility local improvement districts is acquired by purchase or condemnation by the state or any political subdivision thereof, including but not limited to any special purpose district, the property so acquired shall continue to be subject to the assessment lien.

An assessment lien or installment thereof, delinquent at the time of such acquisition shall be paid at the time of acquisition, and the amount thereof, including any accrued interest and delinquent penalties, shall be withheld from the purchase price or condemnation award by the public body acquiring the property and shall be paid immediately to the county, city, or town treasurer, whichever is applicable, in payment of and discharge of such delinquent installment lien.

Any installment or installments not delinquent at the time of acquisition shall become due and payable in such year and at such date as said installment would have become due if such property had not been so acquired: PROVIDED, That no assessment against the state’s interest in tidelands or harbor areas shall be binding against the state if the commissioner of public lands shall file a disapproval of the same in court before judgment confirming the roll. [2002 c 260 § 6; 1979 c 151 § 182; 1963 c 20 § 12; 1919 c 164 § 12; RRS § 8136.]

79.44.900  Severability—1963 c 20. If any provision of this act, or its application to any person or circumstance is held invalid, the remainder of the act, or the application of the provision to other persons or circumstances is not affected. [1963 c 20 § 16.]

PART 1  STATE LANDS

79.64.010  Definitions. As used in this chapter, "rule" means rule as that term is defined by RCW 34.05.010. [2003 c 334 § 519; 1967 ex.s. c 63 § 1; 1961 c 178 § 1.]

Intent—2003 c 334: See note following RCW 79.02.010.

79.64.020  Resource management cost account—Use. A resource management cost account in the state treasury is created to be used solely for the purpose of defraying the costs and expenses necessarily incurred by the department in managing and administering state lands and aquatic lands and the making and administering of leases, sales, contracts, licenses, permits, easements, and rights-of-way as authorized under the provisions of this title. Appropriations from the resource management cost account to the department shall be expended for no other purposes. Funds in the resource management cost account may be appropriated or transferred by the legislature for the benefit of all of the trusts from which the funds were derived. For the 2007-2009 biennium, moneys in the account may be used for the purposes identified in section 3044, chapter 328, Laws of 2008. [2008 c 328 § 6004; 2004 c 199 § 226; 2003 c 334 § 520; 1993 c 460 § 1; 1985 c 57 § 80; 1981 c 4 § 2; 1961 c 178 § 2.]

[Title 79 RCW—page 73]
Expenditures of certain funds in the resource management cost account to be for trust lands—Use for other lands—Repayment—Ordinary cost not deductible from sale proceeds—Accounting. Funds in the resource management cost account from the moneys received from leases, sales, contracts, licenses, permits, easements, and rights-of-way issued by the department and affecting school lands, university lands, scientific school lands, normal school lands, capitol building lands, or institutional lands shall be pooled and expended by the department solely for the purpose of defraying the costs and expenses necessarily incurred in managing and administering all of the trust lands enumerated in this section. Such funds may be used for similar costs and expenses in managing and administering other lands managed by the department provided that such expenditures that have been or may be made on such other lands shall be repaid to the resource management cost account together with interest at a rate determined by the board.

Costs and expenses necessarily incurred in managing and administering agricultural college lands shall not be deducted from proceeds received from the sale of such lands or from the sale of resources that are part of the lands. Costs and expenses incurred in managing and administering agricultural college trust lands shall be funded by appropriation under RCW 79.64.090.

An accounting shall be made annually of the accrued expenditures from the pooled trust funds in the account. In the event the accounting determines that expenditures have been made from moneys received from trust lands for the benefit of other lands, such expenditure shall be considered a debt and an encumbrance against the property benefitted, including state forest lands. The results of the accounting shall be reported to the legislature at the next regular session. The state treasurer is authorized, upon request of the department, to transfer funds between the forest development account and the resource management cost account solely for purpose of repaying loans pursuant to this section. [2003 c 334 § 521; 2001 c 250 § 15; 1999 c 279 § 1; 1993 c 460 § 2; 1988 c 70 § 4; 1977 ex.s. c 159 § 2; 1961 c 178 § 3.]

Deductions authorized relating to common school lands—Temporarily discontinued deductions for common school construction fund—1983 1st ex.s. c 17: *(1) The deductions authorized in RCW 79.64.040 relating to common school lands may be increased by the board of natural resources to one hundred percent after temporary discontinued deductions result in a transfer to the common school construction fund in the amount of approximately fourteen million dollars or so much thereof as may be necessary to maintain a positive cash balance in the common school construction fund. The increased deductions shall continue until the additional amounts received from the increased rate equal the amounts of the deductions that were discontinued or transferred under subsection (2) of this section. Thereafter the deductions shall be as otherwise provided for in RCW 79.64.040.

(2) If the discontinued deductions will not result in a transfer of fourteen million dollars or so much thereof as may be necessary to maintain a positive balance in the common school construction fund in the biennium ending June 30, 1983, the state treasurer shall transfer the difference from the moneys received made in accordance with RCW 79.64.040 shall be repaid to the resource management cost account to the common school construction fund. [1983 1st ex.s. c 17 § 3.]

Severability—1981 c 4: See note following RCW 43.30.325.

Deductions from proceeds of all transactions authorized—Limitations. (1) The board shall determine the amount deemed necessary in order to achieve the purposes of this chapter and shall provide by rule for the deduction of this amount from the moneys received from all leases, sales, contracts, licenses, permits, easements, and rights-of-way issued by the department and affecting state lands and aquatic lands, provided that no deduction shall be made from the proceeds from agricultural college lands.

(2) Moneys received as deposits from successful bidders, advance payments, and security under RCW 79.15.100, 79.15.080, and 79.11.150 prior to December 1, 1981, which have not been subjected to deduction under this section are not subject to deduction under this section.

(3) Except as otherwise provided in subsection (5) of this section, the deductions authorized under this section shall not exceed twenty-five percent of the moneys received by the department in connection with any one transaction pertaining to state lands and aquatic lands other than second-class tide and shore lands and the beds of navigable waters, and fifty percent of the moneys received by the department pertaining to second-class tide and shore lands and the beds of navigable waters.

(4) In the event that the department sells logs using the contract harvesting process described in RCW 79.15.500 through 79.15.530, the moneys received subject to this section are the net proceeds from the contract harvesting sale.

(5) During the 2007-2009 fiscal biennium, the twenty-five percent limitation on deductions set in subsection (3) of this section may be increased up to thirty percent by the board, provided the total amount deducted does not exceed the total appropriations in the operating and capital budgets for the fiscal period. At the end of the fiscal period, any amounts deducted in excess of the appropriations shall be transferred to the appropriate beneficiary distribution accounts. The increased deductions shall continue until the additional amounts received from the increased rate equal the amounts of the deductions that were discontinued or transferred under subsection (2) of this section. 79.64.120 Retirement of interfund loans—Transfer of timber cutting rights on state forest lands acquired under RCW 79.22.010 to the federal land grant trusts—

(2008 Ed.)

[Title 79 RCW—page 75]
Distribution of revenue from timber management activities. (1) The department is authorized to:

(a) Determine the total present account balance with interest of the interfund loans made by the resource management cost account to the forest development account in accordance with generally accepted accounting principles;

(b) Subject to approval of the board, effectuate a transfer of timber cutting rights on state forest lands acquired under RCW 79.22.010 to the federal land grant trusts in such proportion that each trust receives full and fair market value for the interfund loans and is fully repaid or so much thereof as possible within distribution constraints described in subsection (2) of this section.

(2) After the effective date of the transfer authorized by subsection (1)(b) of this section and until the exercise of the cutting rights on the timber transferred has been fully satisfied, the distribution of revenue from timber management activities on state forest lands acquired under RCW 79.22.010 on which cutting rights have been transferred shall be as follows:

(a) As determined by the board, an amount no greater than thirty-three and three-tenths percent to be distributed to the federal land grant trust accounts and resource management cost account as directed by RCW 79.64.040 and 79.64.050;

(b) As determined by the board, an amount not less than sixteen and seven-tenths percent to the forest development account;

(c) Fifty percent to be distributed as provided in RCW 79.64.110. [2003 c 334 § 463; 1988 c 70 § 3. Formerly RCW 79.12.035.]

Intent—2003 c 334: See note following RCW 79.02.010.

Purpose—1988 c 70 § 3: "The purpose of RCW 79.12.035 is to provide a means to retire interfund loans authorized by RCW 79.64.030 from the resource management cost account to the forest development account. The resource management cost account is an asset of the federal land grant trusts. Section 3 of this act is intended to authorize a process by which the interfund loans may be repaid such that the federal land grant trusts will receive full fair market value without disruption in income to counties and the state general fund from management activities on state forest lands managed pursuant to chapter 79.12 RCW." 79.70.900  Construction—1972 ex.s. c 119.

79.70.010  Purpose. The purpose of this chapter is to establish a state system of natural area preserves and a means whereby the preservation of these aquatic and land areas can be accomplished.

All areas within the state, except those which are expressly dedicated by law for preservation and protection in their natural condition, are subject to alteration by human activity. Natural lands, together with the plants and animals living thereon in natural ecological systems, are valuable for the purposes of scientific research, teaching, as habitats of rare and vanishing species, as places of natural historic and natural interest and scenic beauty, and as living museums of the original heritage of the state.

It is, therefore, the public policy of the state of Washington to secure for the people of present and future generations the benefit of an enduring resource of natural areas by establishing a system of natural area preserves, and to provide for the protection of these natural areas. [1972 ex.s. c 119 § 1.]

79.70.020  Definitions. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Department" means the department of natural resources.

(2) "Natural areas" and "natural area preserves" include such public or private areas of land or water which have retained their natural character, although not necessarily completely natural and undisturbed, or which are important in preserving rare or vanishing flora, fauna, geological, natural historical or similar features of scientific or educational value and which are acquired or voluntarily registered or dedicated by the owner under this chapter.

(3) "Public lands" and "state lands" have the meaning set out in RCW 79.02.010.

(4) "Council" means the natural heritage advisory council as established in RCW 79.70.070.

(5) "Commissioner" means the commissioner of public lands.

(6) "Important bird area" means those areas jointly identified by the natural heritage program and a qualifying nonprofit organization using internationally recognized scientific criteria. These areas have been found to be necessary to conserve populations of wild waterfowl, upland game birds, songbirds, and other birds native to and migrating through Washington, and contain the habitats that birds are dependent upon for breeding, migration, shelter, and sustenance.

(7) "Instrument of dedication" means any written document intended to convey an interest in real property pursuant to chapter 64.04 RCW.

(8) "Natural heritage resources" means the plant community types, aquatic types, unique geologic types, and special plant and animal species and their critical habitat as defined in the natural heritage plan established under RCW 79.70.030.

(9) "Plan" means the natural heritage plan as established under RCW 79.70.030.

(10) "Program" means the natural heritage program as established under RCW 79.70.030.

(11) "Qualifying nonprofit organization" means a national nonprofit organization, or a branch of a national nonprofit organization, that conserves and restores natural ecosystems, focusing on birds, other wildlife, and their habitat.
Natural Area Preserves 79.70.040

(12) "Register" means the Washington register of natural area preserves as established under RCW 79.70.030. [2004 c 180 § 4; 2003 c 334 § 548; 1981 c 189 § 1; 1972 ex.s. c 119 § 2.]

Intent—2004 c 180: See note following RCW 79.70.110.

Intent—2003 c 334: See note following RCW 79.02.010.

79.70.030 Powers of department. In order to set aside, preserve, and protect natural areas within the state, the department is authorized, in addition to any other powers, to:

(1) Establish the criteria for selection, acquisition, management, protection, and use of such natural areas, including:

(a) Limiting public access to natural area preserves consistent with the purposes of this chapter. Where appropriate, and on a case-by-case basis, a buffer zone with an increased low level of public access may be created around the environmentally sensitive areas;

(b) Developing a management plan for each designated natural area preserve. The plan must identify the significant resources to be conserved consistent with the purposes of this chapter and identify the areas with potential for low-impact public and environmental educational uses. The plan must specify the types of management activities and public uses that are permitted, consistent with the purposes of this chapter. The department must make the plans available for review and comment by the public, and state, tribal, and local agencies, prior to final approval;

(2) Cooperate or contract with any federal, state, or local governmental agency, private organizations, or individuals in carrying out the purpose of this chapter;

(3) Consistent with the plan, acquire by gift, devise, purchase, grant, dedication, or means other than eminent domain, the fee or any lesser right or interest in real property which shall be held and managed as a natural area;

(4) Acquire by gift, devise, grant, or donation any personal property to be used in the acquisition and/or management of natural areas;

(5) Inventory existing public, state, and private lands in cooperation with the council to assess possible natural areas to be preserved within the state;

(6) Maintain a natural heritage program to provide assistance in the selection and nomination of areas containing natural heritage resources for registration or dedication. The program shall maintain a classification of natural heritage resources, an inventory of their locations, and a data bank for such information. The department shall cooperate with the department of fish and wildlife in the selection and nomination of areas from the data bank that relate to critical wildlife habitats. Information from the data bank shall be made available to public and private agencies and individuals for environmental assessment and proprietary land management purposes. Usage of the classification, inventory, or data bank of natural heritage resources for any purpose inconsistent with the natural heritage program is not authorized;

(7) Prepare a natural heritage plan which shall govern the natural heritage program in the conduct of activities to create and manage a system of natural areas that includes natural resources conservation areas, and may include areas designated under the research natural area program on federal lands in the state;

(a) The plan shall list the natural heritage resources to be considered for registration and shall provide criteria for the selection and approval of natural areas under this chapter;

(b) The department shall provide opportunities for input, comment, and review to the public, other public agencies, and private groups with special interests in natural heritage resources during preparation of the plan;

(c) Upon approval by the council and adoption by the department, the plan shall be updated and submitted biennially to the appropriate committees of the legislature for their information and review. The plan shall take effect ninety days after the adjournment of the legislative session in which it is submitted unless the reviewing committees suggest changes or reject the plan; and

(8) Maintain a state register of natural areas containing significant natural heritage resources to be called the Washington register of natural area preserves. Selection of natural areas for registration shall be in accordance with criteria listed in the natural heritage plan and accomplished through voluntary agreement between the owner of the natural area and the department. No privately owned lands may be proposed to the council for registration without prior notice to the owner or registered without voluntary consent of the owner. No state or local governmental agency may require such consent as a condition of any permit or approval of or settlement of any civil or criminal proceeding or to penalize any landowner in any way for failure to give, or for withdrawal of, such consent.

(a) The department shall adopt rules as authorized by RCW 43.12.065 and 79.70.030(1) and chapter 34.05 RCW relating to voluntary natural area registration.

(b) After approval by the council, the department may place sites onto the register or remove sites from the register.

(c) The responsibility for management of registered natural area preserves shall be with the preserve owner. A voluntary management agreement may be developed between the department and the owners of the sites on the register.

(d) Any public agency may register lands under provisions of this chapter. [2003 c 334 § 549; 2002 c 284 § 1; 1994 c 264 § 61; 1988 c 36 § 54; 1981 c 189 § 3; 1972 ex.s. c 119 § 3.]

Intent—2003 c 334: See note following RCW 79.02.010.

79.70.040 Powers as to transactions involving public lands deemed natural areas—Alienation of lands designated natural area preserves. The department is further authorized to purchase, lease, set aside, or exchange any public lands which are deemed to be natural areas: PROVIDED, That the appropriate state land trust receives the fair market value for any interests that are disposed of: PROVIDED, FURTHER, That such transactions are approved by the board of natural resources.

An area consisting of public land designated as a natural area preserve shall be held in trust and shall not be alienated except to another public use upon a finding by the department of natural resources of imperative and unavoidable public necessity. [2004 c 199 § 228; 1972 ex.s. c 119 § 4.]

Part headings not law—2004 c 199: See note following RCW 79.02.010.
79.70.060 Legislative findings—Natural heritage resources. The legislature finds:
(1) That it is necessary to establish a process and means for public and private sector cooperation in the development of a system of natural areas. Private and public landowners should be encouraged to participate in a program of natural area establishment which will benefit all citizens of the state;
(2) That there is a need for a systematic and accessible means for providing information concerning the locations of the state’s natural heritage resources; and
(3) That the natural heritage advisory council should utilize a specific framework for natural heritage resource conservation decision making through a classification, inventory, priority establishment, acquisition, and management process known as the natural heritage program. Future natural areas should avoid unnecessary duplication of already protected natural heritage resources including those which may already be protected in existing publicly owned or privately dedicated lands such as nature preserves, natural areas, natural resources conservation areas, parks, or wilderness. [2002 c 284 § 2; 1981 c 189 § 2.]

79.70.070 Natural heritage advisory council. (1) The natural heritage advisory council is hereby established. The council shall consist of fifteen members, ten of whom shall be chosen as follows and who shall elect from the council’s membership a chairperson:
(a) Five individuals, appointed by the commissioner, who shall be recognized experts in the ecology of natural areas and represent the public, academic, and private sectors. Desirable fields of expertise are biological and geological sciences; and
(b) Five individuals, appointed by the commissioner, who shall be selected from the various regions of the state. At least one member shall be or represent a private agricultural landowner.
(2) Members appointed under subsection (1) of this section shall serve for terms of four years.
(3) In addition to the members appointed by the commissioner, the director of the department of fish and wildlife, the director of the department of ecology, the supervisor of the department of natural resources, the director of the state parks and recreation commission, and the director of the recreation and conservation office, or an authorized representative of each agency officer, shall serve as ex officio, nonvoting members of the council.
(4) Any vacancy on the council shall be filled by appointment for the unexpired term by the commissioner.
(5) In order to provide for staggered terms, of the initial members of the council:
(a) Three shall serve for a term of two years;
(b) Three shall serve for a term of three years; and
(c) Three shall serve for a term of four years.
(6) Members of the natural preserves advisory committee serving on July 26, 1981, shall serve as members of the council until the commissioner appoints a successor to each. The successor appointment shall be specifically designated to replace a member of the natural preserves advisory committee until all members of that committee have been replaced. A member of the natural preserves advisory committee is eligible for appointment to the council if otherwise qualified.
(7) Members of the council shall serve without compensation. Members shall be reimbursed for travel expenses as provided in RCW 43.03.050 and 43.03.060 as now or hereafter amended. [2007 c 241 § 24; 1998 c 50 § 1; 1994 c 264 § 62; 1988 c 36 § 55; 1981 c 189 § 4.]

Intent—Effective date—2007 c 241: See notes following RCW 79A.25.005.

79.70.080 Council duties. (1) The council shall:
(a) Meet at least annually and more frequently at the request of the chairperson;
(b) Recommend policy for the natural heritage program through the review and approval of the natural heritage plan;
(c) Advise the department, the department of fish and wildlife, the state parks and recreation commission, and other state agencies managing state-owned land or natural resources regarding areas under their respective jurisdictions which are appropriate for natural area registration or dedication;
(d) Advise the department of rules and regulations that the council considers necessary in carrying out this chapter;
(e) Review and approve area nominations by the department or other agencies for registration and review and comment on legal documents for the voluntary dedication of such areas;
(f) Recommend whether new areas proposed for protection be established as natural area preserves, natural resources conservation areas, a combination of both, or by some other protected status; and
(g) Review and comment on management plans proposed for individual natural area preserves.
(2) From time to time, the council shall identify areas from the natural heritage data bank which qualify for registration. Priority shall be based on the natural heritage plan and shall generally be given to those resources which are rarest, most threatened, or under-represented in the heritage conservation system on a statewide basis. After qualifying areas have been identified, the department shall advise the owners of such areas of the opportunities for acquisition or voluntary registration or dedication. [2002 c 284 § 3; 1994 c 264 § 63; 1988 c 36 § 56; 1981 c 189 § 5.]

79.70.090 Dedication of property as natural area. (1) The owner of a registered natural area, whether a private individual or an organization, may voluntarily agree to dedicate the area as a natural area by executing with the state an instrument of dedication in a form approved by the council. The instrument of dedication shall be effective upon its recording in the real property records of the appropriate county or counties in which the natural area is located. The county assessor in computing assessed valuation shall take into consideration any reductions in property values and/or highest and best use which result from natural area dedication.
(2) A public agency owning or managing a registered natural area may dedicate lands under the provisions of this chapter.
(3) The department shall adopt rules as authorized by RCW 43.12.065 and 79.70.030(1) relating to voluntary natural area dedication and defining:
The wildlife industry brings nearly one billion dollars per year into the state’s economy. The economic benefits delivered to rural economies in Washington by those choosing to recreate by hunting waterfowl or upland game birds is equally as impressive. The legislature has long recognized the important role of waterfowl and upland game bird hunting and other sporting pursuits in both the state’s economy and the quality of life for Washington residents. Additionally, the 2003 legislature recognized the economic value of promoting watchable wildlife and nature tourism when it required the departments of fish and wildlife and community, trade, and economic development to host a watchable wildlife and nature tourism conference and write a statewide strategic plan. The 2002 legislature recognized the value of identifying and conserving our state’s biodiversity for future generations when it created the biodiversity task force and required a plan be developed to recommend ways to conserve biodiversity. Furthermore, over the past fifteen years, the legislature has recognized the important contributions volunteers and nonprofit organizations have made in restoring and monitoring salmon and wildlife habitat. Therefore, it is the goal of the legislature to promote: Partnerships with volunteers; rural economic development; nature tourism; and conservation of biodiversity by encouraging partnerships between state government agencies, volunteers, and nonprofit organizations to designate and conserve natural resources that attract nature tourists and bird watchers to Washington’s rural areas.

79.70.100 Public hearing—Establishment of boundary. The department shall hold a public hearing in the county where the majority of the land in a proposed natural area preserve is located prior to establishing the boundary. [1998 c 50 § 2.]

79.70.110 Important bird areas. (1) The program may use information collected by a qualifying nonprofit organization to recognize important bird areas. The program should, to the greatest extent possible, coordinate with and use internationally agreed-upon, scientific criteria and protocols developed by a qualifying nonprofit organization to officially recognize these sites throughout Washington. Prior to using information collected by a qualifying nonprofit organization, the program must verify that the information was collected by individuals trained in scientific data collection, wildlife biology, or ornithology.

(2) When the program recognizes an important bird area, that information will be included in the program’s data bank. An important bird area shall not be designated as a natural area or a natural area preserve unless that area satisfies the substantive and procedural requirements for becoming a natural area or natural area preserve under this chapter.

(3) The qualifying nonprofit organization that collected the information used to recognize important bird areas should be available to work with interested landowners, businesses, and state and local governments to identify ways to maintain or enhance the important bird areas.

(4) The recognition of private property as an important bird area under this chapter, or the inclusion of private property in the program’s data bank, does not confer nor imply any rights of access or trespass onto the important bird area without full knowledge and consent of the owner pursuant to any state statutory and common laws dealing with trespass and access to private property.

(5) Recognition of an important bird area does not require or create critical area designation under chapter 36.70A RCW. [2004 c 180 § 2.]

Intent—2004 c 180: “Washington has a rich variety of birds, wildlife, and fish that its citizens and visitors enjoy. With over three hundred sixty-five bird species, Washington can use this natural asset to attract nature tourists and sportsmen from all over the country and the world. According to a United States fish and wildlife service report, thirty-six percent of Washington’s residents currently participate in bird watching, and the watchable wildlife industry brings nearly one billion dollars per year into the state’s economy. The economic benefits delivered to rural economies in Washington by those choosing to recreate by hunting waterfowl or upland game birds is equally as impressive. The legislature has long recognized the important role of waterfowl and upland game bird hunting and other sporting pursuits in both the state’s economy and the quality of life for Washington residents. Additionally, the 2003 legislature recognized the economic value of promoting watchable wildlife and nature tourism when it required the departments of fish and wildlife and community, trade, and economic development to host a watchable wildlife and nature tourism conference and write a statewide strategic plan. The 2002 legislature recognized the value of identifying and conserving our state’s biodiversity for future generations when it created the biodiversity task force and required a plan be developed to recommend ways to conserve biodiversity. Furthermore, over the past fifteen years, the legislature has recognized the important contributions volunteers and nonprofit organizations have made in restoring and monitoring salmon and wildlife habitat. Therefore, it is the goal of the legislature to promote: Partnerships with volunteers; rural economic development; nature tourism; and conservation of biodiversity by encouraging partnerships between state government agencies, volunteers, and nonprofit organizations to designate and conserve natural areas that attract nature tourists and bird watchers to Washington’s rural areas.

To accomplish this goal, the legislature recognizes the scientific work by volunteer organizations to use internationally recognized scientific criteria and protocols to identify, conserve, and monitor areas of the state that are important for migrating and resident birds. Scientists, ornithologists, and qualified volunteers have identified important bird areas. Wildlife conservation organizations and their volunteers are working to develop mutually agreed-upon bird conservation plans and monitoring plans in cooperation with public land managers and private landowners. Volunteers and scientists in more than one hundred countries around the world have already completed identification of fourteen thousand two hundred sixty sites that qualify as important bird areas.

Qualified volunteers and scientists have already successfully used the international criteria to identify fifty-three sites important for birds in Washington. Following the final round of site selection, volunteer organizations and state and local governments to develop plans to maintain or enhance sites that will then become destinations for nature tourists to promote rural economic development. Therefore, it is the intent of the legislature to have Washington participate in the recognition portion of the important bird area program by directing the natural heritage program at the department of natural resources to officially recognize important bird areas.” [2004 c 180 § 1.]

79.70.120 Important bird area—Recognition requirements. Prior to recognizing an important bird area under this chapter, the department must:

(1) Publish notice of the proposed important bird area in the Washington state register;

(2) Publish notice of the proposed important bird area in a newspaper of general circulation in the county where the proposed important bird area is located; and

(3) Conduct at least one public hearing in the county where the proposed important bird area is located. [2004 c 180 § 3.]

Intent—2004 c 180: See note following RCW 79.70.110.

79.70.130 Distribution of amount in lieu of real property taxes, weed control assessment. The state treasurer, on behalf of the department, must distribute to counties for all lands acquired for the purposes of this chapter an amount in lieu of real property taxes equal to the amount of tax that would be due if the land were taxable as open space land under chapter 84.34 RCW except taxes levied for any state purpose, plus an additional amount equal to the amount of weed control assessment that would be due if such lands were privately owned. The county assessor and county legislative authority shall assist in determining the appropriate calculation of the amount of tax that would be due. The county shall distribute the amount received under this section in lieu of real property taxes to all property taxing districts except the state in appropriate tax code areas the same way it would distribute local property taxes from private property. The county shall distribute the amount received under this section
for weed control to the appropriate weed district. [2005 c 303 § 11.]

79.71.010 Legislative findings. The legislature finds that: (1) There is an increasing and continuing need by the people of Washington for certain areas of the state to be conserved, in rural as well as urban settings, for the benefit of present and future generations; (2) such areas are worthy of conservation for their outstanding scenic and ecological values and provide opportunities for low-impact public use; (3) in certain cases acquisition of property or rights in property is necessary to protect these areas for public purposes; and (4) there is a need for a state agency to act in an effective and timely manner to acquire interests in such areas and to develop appropriate management strategies for conservation purposes. [1991 c 352 § 1; 1987 c 472 § 1.]

79.71.020 Characteristics of lands considered for conservation purposes. Lands possessing the following characteristics are considered by the legislature to be worthy of consideration for conservation purposes:

(1) Lands identified as having high priority for conservation, natural systems, wildlife, and low-impact public use values;

(2) An area of land or water, or land and water, that has flora, fauna, geological, archaeological, scenic, or similar features of critical importance to the people of Washington and that has retained to some degree or has reestablished its natural character;

(3) Examples of native ecological communities; and

(4) Environmentally significant sites threatened with conversion to incompatible or ecologically irreversible uses. [1991 c 352 § 2; 1987 c 472 § 2.]

79.71.030 Definitions. As used in this chapter:

"Commissioner" means the commissioner of public lands.

"Department" means the department of natural resources.

"Conservation purposes" include but are not limited to: (1) Maintaining, enhancing, or restoring ecological systems, including but not limited to aquatic, coastal, riparian, montane, and geological systems, whether such systems be unique or typical to the state of Washington; (2) maintaining exceptional scenic landscapes; (3) maintaining habitat for threatened, endangered, and sensitive species; (4) enhancing sites for primitive recreational purposes; and (5) outdoor environmental education.

"Low-impact public use" includes public recreation uses and improvements that do not adversely affect the resource values, are appropriate to the maintenance of the site in a relatively unmodified natural setting, and do not detract from long-term ecological processes.

"Management activities" may include limited production of income from forestry, agriculture, or other resource management activities, if such actions are consistent with the other purposes and requirements of this chapter.

"Natural resources conservation area" or "conservation area" means an area having the characteristics identified in RCW 79.71.020. [1991 c 352 § 3; 1987 c 472 § 3.]

79.71.040 Acquisition of property for natural resources conservation areas—Designation. The department is authorized to acquire property or less than fee interests in property, as defined by RCW 64.04.130, by all means, except eminent domain, for creating natural resources conservation areas, where acquisition is the best way to achieve the purposes of this chapter. Areas acquired or assembled by the department for conservation purposes will be designated as "Washington natural resources conservation areas." [1987 c 472 § 4.]

79.71.050 Transfer of trust land for natural resources conservation areas—Use of proceeds. The department is authorized to transfer fee simple interest or less than fee interests in trust land, as defined by Article XVI of the Washington Constitution, for the creation of natural resources conservation areas, provided the owner of the trust land receives full fair market value compensation for all rights transferred. The proceeds from such transfers shall be used for the exclusive purpose of acquiring real property to replace those interests utilized for the conservation area in order to meet the department’s fiduciary obligations and to maintain the productive land base of the various trusts. [1991 c 352 § 4; 1987 c 472 § 5.]

79.71.060 Public hearing on proposed conservation area. The department shall hold a public hearing in the county where the majority of the land in the proposed natural resources conservation area is located prior to establishing the boundary. An area proposed for designation must contain resources consistent with characteristics identified in RCW 79.71.020. [1991 c 352 § 5; 1987 c 472 § 6.]
79.71.070 Management plans for designated areas.
The department shall develop a management plan for each designated area. The plan shall identify the significant resources to be conserved consistent with the purposes of this chapter and identify the areas with potential for low-impact public and environmental educational uses. The plan shall specify what types of management activities and public uses that are permitted, consistent with the conservation purposes of this chapter. The department shall make such plans available for review and comment by the public and other state, tribal, and local agencies, prior to final approval by the commissioner. [1991 c 352 § 6; 1987 c 472 § 7.]

79.71.080 Administration of natural resources conservation areas—Management agreements and activities.
The department is authorized to administer natural resources conservation areas and may enter into management agreements for these areas with federal agencies, state agencies, local governments, and private nonprofit conservancy corporations, as defined in RCW 64.04.130, when such agreements are consistent with the purposes of acquisition as defined in the adopted management plan. All management activities within a Washington natural resources conservation area will conform with the plan. Any moneys derived from the management of these areas in conformance with the adopted plan shall be deposited in the natural resources conservation areas stewardship account. [1991 c 352 § 7; 1987 c 472 § 8.]

79.71.090 Natural resources conservation areas stewardship account. There is hereby created the natural resources conservation areas stewardship account in the state treasury to ensure proper and continuing management of land acquired or designated pursuant to this chapter. Funds for the stewardship account shall be derived from appropriations of state general funds, federal funds, grants, donations, gifts, bond issue receipts, securities, and other monetary instruments of value. Income derived from the management of natural resources conservation areas shall also be deposited in this stewardship account.

Appropriations from this account to the department shall be expended for no other purpose than the following: (1) To manage the areas approved by the legislature in fulfilling the purposes of this chapter; (2) to manage property acquired as natural area preserves under chapter 79.70 RCW; (3) to manage property transferred under the authority and appropriation provided by the legislature to be managed under chapter 79.70 RCW or this chapter or acquired under chapter 79A.15 RCW; and (4) to pay for operating expenses for the natural heritage program under chapter 79.70 RCW. [2000 c 11 § 26; 1991 sp.s. c 13 § 118; 1991 c 352 § 8; 1987 c 472 § 9.]

Effective dates—Severability—1991 sp.s. c 13: See notes following RCW 18.08.240.

79.71.100 Designation of certain areas as natural resources conservation areas. The legislature hereby designates certain areas as natural resources conservation areas:
(1) The Mt. Si conservation area (King County), RCW 79A.05.725, is hereby designated the Mt. Si natural resources conservation area. The department is directed to continue its management of this area and to develop a plan for its continued conservation and use by the public. In accordance with Article XVI of the Washington state Constitution, any available private lands and trust lands located within the designated boundaries of the Mt. Si conservation area shall be leased or acquired in fee from the appropriate trust at fair market value using funds appropriated for that purpose.
(2) Trust lands and state-owned land on Cypress Island (Skagit County) are hereby designated as the Cypress Island natural resources conservation area. Any available private lands necessary to achieve the purposes of this section shall be acquired by the department of natural resources using funds appropriated for that purpose. Trust lands located within the designated boundaries of the Cypress Island natural resources conservation area shall be leased or acquired in fee from the appropriate trust at fair market value.
(3) Woodard Bay (Thurston County) is hereby designated the Woodard Bay natural resources conservation area. The department is directed to acquire property available in Sec. 18, T.19N, R1W using funds appropriated for that purpose.
(4) The area adjacent to the Dishman Hills natural area ( Spokane County) is hereby designated the Dishman Hills natural resources conservation area. The department is directed to acquire property available in Sec. 19, 29 and 30, T.25N, R44E, using funds appropriated for that purpose. [2000 c 11 § 26; 1987 c 472 § 10.]

79.71.120 Elk river natural resources conservation area—Transfer of management—Hunting opportunities.
The property currently designated as the Elk river natural area preserve is transferred from management under chapter 79.70 RCW as a natural area preserve to management under chapter 79.71 RCW as a natural resources conservation area. The legislature finds that hunting is a suitable low-impact public use within the Elk river natural resources conservation area. The department of natural resources shall incorporate this legislative direction into the management plan developed for the Elk river natural resources conservation area. The department shall work with the department of fish and wildlife to identify hunting opportunities compatible with the area’s conservation purposes. [1997 c 371 § 1.]

79.71.130 Distribution of amount in lieu of real property taxes, weed control assessment. The state treasurer, on behalf of the department, must distribute to counties for all lands acquired for the purposes of this chapter an amount in lieu of real property taxes equal to the amount of tax that would be due if the land were taxable as open space land under chapter 84.34 RCW except taxes levied for any state purpose, plus an additional amount equal to the amount of weed control assessment that would be due if such lands were privately owned. The county assessor and county legislative authority shall assist in determining the appropriate calculation of the amount of tax that would be due. The county shall distribute the amount received under this section in lieu of real property taxes to all property taxing districts except the state in appropriate tax code areas the same way it would distribute local property taxes from private property. The county shall distribute the amount received under this section for weed control to the appropriate weed district. [2005 c 303 § 12.]

Intent—2003 c 334: See note following RCW 79.02.010.
Purpose—1984 c 174: See note following RCW 79A.05.315.
The legislature finds that there has been an increase in the number of derelict and abandoned vessels that are either grounded or anchored upon publicly or privately owned submerged lands. These vessels are public nuisances and safety hazards as they often pose hazards to navigation, detract from the aesthetics of Washington's waterways, and threaten the environment with the potential release of hazardous materials. The legislature further finds that the costs associated with the disposal of derelict and abandoned vessels are substantial, and that in many cases there is no way to track down the current vessel owners in order to seek compensation. As a result, the costs associated with the removal of derelict vessels becomes a burden on public entities and the taxpaying public. [2002 c 286 § 1.]

The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Abandoned vessel" means a vessel that has been left, moored, or anchored in the same area without the owner's express consent, or contrary to the rules of, the owner, manager, or lessee of the aquatic lands below or on which the vessel is located for either a period of more than thirty consecutive days or for more than a total of ninety days in any three hundred sixty-five-day period, and the vessel's owner is: (a) Not known or cannot be located; or (b) known and located but is unwilling to take control of the vessel. For the purposes of this subsection (1) only, "in the same area" means within a radius of five miles of any location where the vessel was previously moored or anchored on aquatic lands.

(2) "Aquatic lands" means all tidelands, shorelands, harbor areas, and the beds of navigable waters, including lands owned by the state and lands owned by other public or private entities.

(3) "Authorized public entity" includes any of the following: The department of natural resources; the department of fish and wildlife; the parks and recreation commission; a metropolitan park district; a port district; and any city, town, or county with ownership, management, or jurisdiction over the aquatic lands where an abandoned or derelict vessel is located.

(4) "Department" means the department of natural resources.

(5) "Derelict vessel" means the vessel's owner is known and can be located, and exerts control of a vessel that:
   (a) Has been moored, anchored, or otherwise left in the waters of the state or on public property contrary to RCW 79.02.300 or rules adopted by an authorized public entity; or
   (b) Has been left on private property without authorization of the owner; or
   (c) Has been left for a period of seven consecutive days, and:
      (i) Is sunk or in danger of sinking;
      (ii) Is obstructing a waterway; or
      (iii) Is endangering life or property.

(6) "Owner" means any natural person, firm, partnership, corporation, association, government entity, or organization that has a lawful right to possession of a vessel by purchase, exchange, gift, lease, inheritance, or legal action whether or not the vessel is subject to a security interest.

(7) "Vessel" means every species of watercraft or other mobile artificial contrivance, powered or unpowered, intended to be used for transporting people or goods on water or for floating marine construction or repair and which does not exceed two hundred feet in length. "Vessel" includes any trailer used for the transportation of watercraft, or any attached floats or debris. [2007 c 342 § 1; 2006 c 153 § 2; 2002 c 286 § 2.]

This chapter is not intended to limit or constrain the ability and authority of the authorized public entities to enact and enforce ordinances or other regulations relating to derelict and abandoned vessels, or to take any actions authorized by federal or state law in responding to derelict or abandoned vessels. This chapter is also not intended to be the sole remedy available to authorized public entities against the owners of derelict and abandoned vessels. [2002 c 286 § 3.]

If the authorized public entity with the primary responsibility is unwilling or unable to exercise the authority granted by this section, it may request the department to assume the authorized public entity’s authority for a particular vessel. The department may at its discretion assume the authorized public entity’s authority for a particular vessel after being requested to do so. For vessels not at a moorage facility, an authorized public entity with jurisdiction over the aquatic lands where the vessel is located may, at its discretion, request to assume primary responsibility for that particular vessel from the owner of the aquatic lands where the vessel is located.

(3) The authority granted by this chapter is permissive, and no authorized public entity has a duty to exercise the authority. No liability attaches to an authorized public entity that chooses not to exercise this authority. [2002 c 286 § 4.]

79.100.040 Obtaining custody of vessel. (1) Prior to exercising the authority granted in RCW 79.100.030, the authorized public entity must first obtain custody of the vessel. To do so, the authorized public entity must:

(a) Mail notice of its intent to obtain custody, at least twenty days prior to taking custody, to the last known address of the previous owner to register the vessel in any state or with the federal government and to any lien holders or secured interests on record. A notice need not be sent to the purported owner or any other person whose interest in the vessel is not recorded with a state or federal agency;

(b) Post notice of its intent clearly on the vessel for thirty days and publish its intent at least once, more than ten days but less than twenty days prior to taking custody, in a newspaper of general circulation for the county in which the vessel is located; and

(c) Post notice of its intent on the department’s internet web site on a page specifically designated for such notices. If the authorized public entity is not the department, the department must facilitate the internet posting.

(2) All notices sent, posted, or published in accordance with this section must, at a minimum, explain the intent of the authorized public entity to take custody of the vessel, the rights of the authorized public entity after taking custody of the vessel as provided in RCW 79.100.030, the procedures the owner must follow in order to avoid custody being taken by the authorized public entity, the procedures the owner must follow in order to reclaim possession after custody is taken by the authorized public entity, and the financial liabilities that the owner may incur as provided for in RCW 79.100.060.

(3) If a vessel is: (i) In immediate danger of sinking, breaking up, or blocking navigational channels; or (ii) poses a reasonably imminent threat to human health or safety, including a threat of environmental contamination; and (iii) the owner of the vessel cannot be located or is unwilling or unable to assume immediate responsibility for the vessel, any authorized public entity may tow, beach, or otherwise take temporary possession of the vessel.

(b) Before taking temporary possession of the vessel, the authorized public entity must make reasonable attempts to consult with the department or the United States coast guard to ensure that other remedies are not available. The basis for taking temporary possession of the vessel must be set out in writing by the authorized public entity within seven days of taking action and be submitted to the owner, if known, as soon thereafter as is reasonable. If the authorized public entity has not already provided the required notice, immediately after taking possession of the vessel, the authorized public entity must initiate the notice provisions in subsection (1) of this section. The authorized public entity must complete the notice requirements of subsection (1) of this section before using or disposing of the vessel as authorized in RCW 79.100.050. [2007 c 342 § 2; 2006 c 153 § 3; 2002 c 286 § 5.]

79.100.050 Use or disposal of vessel. (1) After taking custody of a vessel, the authorized public entity may use or dispose of the vessel in any appropriate and environmentally sound manner without further notice to any owners, but must give preference to uses that derive some monetary benefit from the vessel, either in whole or in scrap. If no value can be derived from the vessel, the authorized public entity must give preference to the least costly, environmentally sound, reasonable disposal option. Any disposal operations must be consistent with the state solid waste disposal provisions provided for in chapter 70.95 RCW.

(2) If the authorized public entity chooses to offer the vessel at a public auction, either a minimum bid may be set or a letter of credit may be required, or both, to discourage future reabandonment of the vessel.

(3) Proceeds derived from the sale of the vessel must first be applied to any administrative costs that are incurred by the authorized public entity during the notification procedures set forth in RCW 79.100.040, removal and disposal costs, and costs associated with environmental damages directly or indirectly caused by the vessel. If the proceeds derived from the vessel exceed all administrative costs, removal and disposal costs, and costs associated with environmental damages directly or indirectly caused by the vessel, the remaining moneys must be applied to satisfying any liens registered against the vessel.

(4) Any value derived from a vessel greater than all liens and costs incurred reverts to the derelict vessel removal account established in RCW 79.100.100. [2002 c 286 § 6.]

79.100.060 Reimbursement for costs. (1) The owner of an abandoned or derelict vessel is responsible for reimbursing an authorized public entity for all reasonable and audible costs associated with the removal or disposal of the owner’s vessel under this chapter. These costs include, but are not limited to, costs incurred exercising the authority granted in RCW 79.100.030, all administrative costs incurred by the authorized public entity during the procedure set forth in RCW 79.100.040, removal and disposal costs, and costs associated with environmental damages directly or indirectly caused by the vessel. An authorized public entity that has taken temporary possession of a vessel may require that all reasonable and audible costs associated with the removal of the vessel be paid before the vessel is released to the owner.

(2) Reimbursement for costs may be sought from an owner who is identified subsequent to the vessel’s removal and disposal.

(3) If the full amount of all costs due to the authorized public entity under this chapter is not paid to the authorized

[Title 79 RCW—page 84] (2008 Ed.)
public entity within thirty days after first notifying the responsible parties of the amounts owed, the authorized public entity or the department may bring an action in any court of competent jurisdiction to recover the costs, plus reasonable attorneys’ fees and costs incurred by the authorized public entity. [2006 c 153 § 4; 2002 c 286 § 7.]

79.100.070 Contract with private company/individual. An authorized public entity may enter into a contract with a private company or individual to carry out the authority granted in this chapter. [2002 c 286 § 8.]

79.100.080 Chapter not exclusive. The rights granted by this chapter are in addition to any other legal rights an authorized public entity may have to obtain title to, remove, recover, sell, or dispose of an abandoned or derelict vessel, and in no way does this chapter alter those rights, or affect the priority of other liens on a vessel. [2002 c 286 § 9.]

79.100.100 Derelict vessel removal account. (1) The derelict vessel removal account is created in the state treasury. All receipts from RCW 79.100.050 and 79.100.060 and those moneys specified in RCW 88.02.030 and 88.02.050 must be deposited into the account. The account is authorized to receive fund transfers and appropriations from the general fund, deposits from the derelict vessel removal surcharge under RCW 88.02.270, as well as gifts, grants, and endowments from public or private sources as may be made from time to time, in trust or otherwise, for the use and benefit of the purposes of this chapter and expend the same or any income according to the terms of the gifts, grants, or endowments provided those terms do not conflict with any provisions of this section or any guidelines developed to prioritize reimbursement of removal projects associated with this chapter. Moneys in the account may only be spent after appropriation. Expenditures from the account shall be used by the department to reimburse authorized public entities for up to ninety percent of the total reasonable and defensible administrative, removal, disposal, and environmental damage costs of abandoned or derelict vessels when the previous owner is either unknown after a reasonable search effort or insolvent. Reimbursement shall not be made unless the department determines that the public entity has made reasonable efforts to identify and locate the party responsible for the vessel, regardless of the title of owner of the vessel. Funds in the account resulting from transfers from the general fund or from the deposit of funds from the watercraft excise tax as provided for under RCW 82.49.030 shall be used to reimburse one hundred percent of these costs and should be prioritized for the removal of large vessels. Costs associated with removal and disposal of an abandoned or derelict vessel under the authority granted in RCW 53.08.320 also qualify for reimbursement from the derelict vessel removal account. In each biennium, up to twenty percent of the expenditures from the account may be used for administrative expenses of the department of licensing and department of natural resources in implementing this chapter.

(2) If the balance of the account reaches one million dollars as of March 1st of any year, exclusive of any transfer or appropriation of funds into the account or funds deposited into the account collected under RCW 88.02.270, the department must notify the department of licensing and the collection of any fees associated with this account must be suspended for the following fiscal year.

(3) Priority for use of this account is for the removal of derelict and abandoned vessels that are in danger of sinking, breaking up, or blocking navigation channels, or that present environmental risks such as leaking fuel or other hazardous substances. The department must develop criteria, in the form of informal guidelines, to prioritize removal projects associated with this chapter, but may not consider whether the applicant is a state or local entity when prioritizing. The guidelines must also include guidance to the authorized public entities as to what removal activities and associated costs are reasonable and eligible for reimbursement.

(4) The department must keep all authorized public entities apprized of the balance of the derelict vessel removal account and the funds available for reimbursement. The guidelines developed by the department must also be made available to the other authorized public entities. This subsection (4) must be satisfied by utilizing the least costly method, including maintaining the information on the department’s internet web site, or any other cost-effective method.

(5) An authorized public entity may contribute its ten percent of costs that are not eligible for reimbursement by using in-kind services, including the use of existing staff, equipment, and volunteers.

(6) This chapter does not guarantee reimbursement for an authorized public entity. Authorized public entities seeking certainty in reimbursement prior to taking action under this chapter may first notify the department of their proposed action and the estimated total costs. Upon notification by an authorized public entity, the department must make the authorized public entity aware of the status of the fund and the likelihood of reimbursement being available. The department may offer technical assistance and assure reimbursement for up to two years following the removal action if an assurance is appropriate given the balance of the fund and the details of the proposed action. [2007 c 342 § 4; 2006 c 153 § 6; 2002 c 286 § 11.]

79.100.110 Vessel abandoned or derelict upon aquatic lands—Penalty. A person who causes a vessel to become abandoned or derelict upon aquatic lands is guilty of a misdemeanor. [2006 c 153 § 1.]

79.100.120 Contesting an authorized public entity’s decision to take temporary custody or possession of a vessel—Contesting the amount of reimbursement. (1) A person seeking to contest an authorized public entity’s decision to take temporary possession or custody of a vessel under this chapter, or to contest the amount of reimbursement owed to an authorized public entity under this chapter, may request a hearing in accordance with this section.

(2)(a) If the contested decision or action was undertaken by a state agency, a written request for a hearing related to the decision or action must be filed with the aquatic resources division of the department within twenty days of the date the authorized public entity acquires custody of the vessel under RCW 79.100.040, or if the vessel is redeemed before the
authorized public entity acquires custody, the date of redemption, or the right to a hearing is deemed waived and the vessel’s owner is liable for any costs owed the authorized public entity. In the event of litigation, the prevailing party is entitled to reasonable attorneys’ fees and costs.

(b) Upon receipt of a timely hearing request, the department shall proceed to hear and determine the validity of the decision to take the vessel into temporary possession or custody and the reasonableness of any towing, storage, or other charges permitted under this chapter. Within five business days after the request for a hearing is filed, the department shall notify the vessel owner requesting the hearing and the authorized public entity of the date, time, and location for the hearing. Unless the vessel is redeemed before the request for hearing is filed, the department shall set the hearing on a date that is within ten business days of the filing of the request for hearing. If the vessel is redeemed before the request for a hearing is filed, the department shall set the hearing on a date that is within sixty days of the filing of the request for hearing.

(3)(a) If the contested decision or action was undertaken by a metropolitan park district, port district, city, town, or county, which has adopted rules or procedures for contesting decisions or actions pertaining to derelict or abandoned vessels, those rules or procedures must be followed in order to contest a decision to take temporary possession or custody of a vessel, or to contest the amount of reimbursement owed. (b) If the metropolitan park district, port district, city, town, or county has not adopted rules or procedures for contesting decisions or actions pertaining to derelict or abandoned vessels, then a person requesting a hearing under this section must follow the procedure established in RCW 53.08.320(5) for contesting the decisions or actions of moorage facility operators. [2006 c 153 § 5.]

79.100.130 Marina owner may contract with a local government—Contract requirements. A marina owner may contract with a local government for the purpose of participating in the derelict vessel removal program. The local government shall serve as the authorized public entity for the removal of the derelict vessel from the marina owner’s property. The contract must provide for the marina owner to be financially responsible for the removal costs that are not reimbursed by the department as provided under RCW 79.100.100, and any additional reasonable administrative costs incurred by the local government during the removal of the derelict vessel. Prior to the commencement of any removal which will seek reimbursement from the derelict vessel removal program, the contract and the proposed vessel removal shall be submitted to the department for review and approval. The local government shall use the procedure specified under RCW 79.100.100(6). [2007 c 342 § 3.]

79.100.900 Severability—2002 c 286. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected. [2002 c 286 § 25.]

79.100.901 Effective date—2002 c 286. This act takes effect January 1, 2003. [2002 c 286 § 26.]

GENERAL PROVISIONS

79.105.010 Aquatic lands—Findings. The legislature finds that state-owned aquatic lands are a finite natural resource of great value and an irreplaceable public heritage. The legislature recognizes that the state owns these aquatic lands in fee and has delegated to the department the responsibility to manage these lands for the benefit of the public. The legislature finds that water-dependent industries and activities have played a major role in the history of the state and will continue to be important in the future. The legislature finds that revenues derived from leases of state-owned aquatic lands should be used to enhance opportunities for public recreation, shoreline access, environmental protection, and other public benefits associated with the aquatic lands of the state. The legislature further finds that aquatic lands are faced with conflicting use demands. [2005 c 155 § 139; 1984 c 221 § 1. Formerly RCW 79.90.450.]

79.105.020 Purpose—Articulation of management philosophy. The purpose of RCW 79.105.060, 79.105.230, 79.105.280, and 79.105.010 through 79.105.040 is to articulate a management philosophy to guide the exercise of the state’s ownership interest and the exercise of the department’s management authority, and to establish standards for determining equitable and predictable lease rates for users of state-owned aquatic lands. [2005 c 155 § 101. FORMERLY PART OF RCW 79.90.450.]

79.105.030 Aquatic lands—Management guidelines. The management of state-owned aquatic lands shall be in conformance with constitutional and statutory requirements. The manager of state-owned aquatic lands shall strive to provide a balance of public benefits for all citizens of the state. The public benefits provided by state-owned aquatic lands are varied and include:

1. Encouraging direct public use and access;
2. Fostering water-dependent uses;
3. Ensuring environmental protection;
4. Utilizing renewable resources.

Generating revenue in a manner consistent with subsections (1) through (4) of this section is a public benefit. [2005 c 155 § 140; 1984 c 221 § 2. Formerly RCW 79.90.455.]

79.105.040 Application to existing property rights—Application of shoreline management act. Nothing in *this chapter or RCW 79.120.040 or 79.120.060 shall modify or affect any existing legal rights involving the boundaries of title to, or vested property rights in aquatic lands or waterways. Nothing in *this chapter shall modify, alter, or otherwise affect the applicability of chapter 90.58 RCW. [2005 c 155 § 157; 1984 c 221 § 20. Formerly RCW 79.90.545.]

*Reviser’s note: The reference to “this chapter” referred to chapter 79.90 RCW, which was recodified and/or repealed in its entirety by 2005 c 155.

79.105.050 Fostering use of aquatic environment—Limitation. The department shall foster the commercial and recreational use of the aquatic environment for production of food, fibre, income, and public enjoyment from state-owned aquatic lands and from associated waters, and to this end the department may develop and improve production and harvesting of seaweeds and seashells attached to or growing on aquatic land or contained in aquaculture containers, but nothing in this section alters the responsibility of other state agencies for their normal management of fish, shellfish, game, and water. [2005 c 155 § 141; 2003 c 334 § 541; 1971 ex.s. c 234 § 8. Formerly RCW 79.90.456, 79.68.080.]

Intent—2003 c 334: See note following RCW 79.02.010.

79.105.060 Definitions. The definitions in this section apply throughout chapters 79.105 through 79.145 RCW unless the context clearly requires otherwise.

1) "Aquatic lands" means all tidelands, shorelands, harbor areas, and the beds of navigable waters.
2) "Beds of navigable waters" means those lands lying waterward of and below the line of navigability on rivers and lakes not subject to tidal flow, or extreme low tide mark in navigable tidal waters, or the outer harbor line where harbor area has been created.

4) "First-class tidelands" means the shores of navigable tidal waters belonging to the state, lying within or in front of the corporate limits of any city, or within one mile of either side and between the line of ordinary high tide and the inner harbor line; and within two miles of the corporate limits on either side and between the line of ordinary high tide and the line of extreme low tide.
5) "Harbor area" means the area of navigable waters determined as provided in Article XV, section 1 of the state Constitution, which shall be forever reserved for landings, wharves, streets, and other conveniences of navigation and commerce.

7) "Inflation rate" means for a given year the percentage rate of change in the previous calendar year’s all commodity producer price index of the bureau of labor statistics of the United States department of commerce. If the index ceases to be published, the department shall designate by rule a comparable substitute index.
(8) "Inner harbor line" means a line located and established in navigable waters between the line of ordinary high tide or ordinary high water and the outer harbor line, constituting the inner boundary of the harbor area.

(9) "Log booming" means placing logs into and taking them out of the water, assembling and disassembling log rafts before or after their movement in water-borne commerce, related handling and sorting activities taking place in the water, and the temporary holding of logs to be taken directly into a processing facility. "Log booming" does not include the temporary holding of logs to be taken directly into a vessel.

(10) "Log storage" means the water storage of logs in rafts or otherwise prepared for shipment in water-borne commerce, but does not include the temporary holding of logs to be taken directly into a vessel or processing facility.

(11) "Nonwater-dependent use" means a use that can operate in a location other than on the waterfront. Examples include, but are not limited to, hotels, condominiums, apartments, restaurants, retail stores, and warehouses not part of a marine terminal or transfer facility.

(12) "Outer harbor line" means a line located and established in navigable waters as provided in Article XV, section 1 of the state Constitution, beyond which the state shall never sell or lease any rights whatever to private persons.

(13) "Person" means any private individual, partnership, association, organization, cooperative, firm, corporation, the state or any agency or political subdivision thereof, any public or municipal corporation, or any unit of government, however designated.

(17) "Second-class shorelands" means the shores of a navigable lake or river belonging to the state, not subject to tidal flow, lying between the line of ordinary high water and the line of navigability, and more than two miles from the corporate limits of any city.

(18) "Second-class tidelands" means the shores of navigable tidal waters belonging to the state, lying outside of and more than two miles from the corporate limits of any city, and between the line of ordinary high tide and the line of extreme low tide.

(19) "Shorelands," where not preceded by "first-class" or "second-class," means both first-class shorelands and second-class shorelands.

(20) "State-owned aquatic lands" means all tidelands, shorelands, harbor areas, the beds of navigable waters, and waterways owned by the state and administered by the department or managed under RCW 79.105.420 by a port district. "State-owned aquatic lands" does not include aquatic lands owned in fee by, or withdrawn for the use of, state agencies other than the department.

(21) "Terminal" means a point of interchange between land and water carriers, such as a pier, wharf, or group of such, equipped with facilities for care and handling of either cargo or passengers, or both.

However, RCW 79.140.190 and 79.140.200 also apply to materials provided for under chapter 79.14 RCW.

(24) "Water-dependent use" means a use that cannot logically exist in any location but on the water. Examples include, but are not limited to: Water-borne commerce; terminal and transfer facilities; ferry terminals; watercraft sales in conjunction with other water-dependent uses; watercraft construction, repair, and maintenance; moorage and launching facilities; aquaculture; log booming; and public fishing piers and parks.

(25) "Water-oriented use" means a use that historically has been dependent on a waterfront location, but with existing technology could be located away from the waterfront. Examples include, but are not limited to, wood products manufacturing, watercraft sales, fish processing, petroleum refining, sand and gravel processing, log storage, and houseboats.

For the purposes of determining rent under this chapter, water-oriented uses shall be classified as water-dependent uses if the activity either is conducted on state-owned aquatic lands leased on October 1, 1984, or was actually conducted on the state-owned aquatic lands for at least three years before October 1, 1984. If, after October 1, 1984, the activity is changed to a use other than a water-dependent use, the activity shall be classified as a nonwater-dependent use. If continuation of the existing use requires leasing additional state-owned aquatic lands and is permitted under the shoreline management act of 1971, chapter 90.58 RCW, the department may allow reasonable expansion of the water-oriented use. [2005 c 155 § 102.]

GENERAL USE, SALE, AND LEASE PROVISIONS

79.105.100 Sale and lease of state-owned aquatic lands—Blank forms of applications. The department shall prepare, and furnish to applicants, blank forms of applications for the purchase of state-owned tidelands or shorelands, otherwise permitted by RCW 79.125.200 to be sold, and the purchase of valuable material situated thereon, and the lease of state-owned tidelands, shorelands, and harbor areas, which forms shall contain such instructions as will inform and aid the applicants. [2005 c 155 § 104; 1982 1st ex.s. c 21 § 15. Formerly RCW 79.90.090.]

79.105.110 Who may purchase or lease—Application—Fees. Any person desiring to purchase any state-owned tidelands or shorelands, otherwise permitted under RCW 79.125.200 to be sold, or to purchase any valuable material situated thereon, or to lease any state-owned aquatic
lands, shall file with the department an application, on the proper form which shall be accompanied by reasonable fees to be prescribed by the board in its rules, in an amount sufficient to defray the cost of performing or otherwise providing for the processing, review, or inspection of the applications or activities permitted pursuant to the applications for each category of services performed. These fees shall be credited to the resource management cost account fund in the general fund. [2005 c 155 § 105; 1982 1st ex.s. c 21 § 16. Formerly RCW 79.90.100.]

**79.105.120 Survey to determine areas subject to sale or lease.** The department may cause any state-owned aquatic lands to be surveyed for the purpose of ascertaining and determining the area subject to sale or lease. [2005 c 155 § 108; 1982 1st ex.s. c 21 § 18. Formerly RCW 79.90.120.]

**79.105.130 Reconsideration of official acts.** The department may review and reconsider any of its official acts relating to state-owned aquatic lands until such time as a lease, contract, or deed is made, executed, and finally issued, and the department may recall any lease, contract, or deed issued for the purpose of correcting mistakes or errors, or supplying omissions. [2005 c 155 § 138; 1982 1st ex.s. c 21 § 47. Formerly RCW 79.90.410.]

**79.105.140 Assignment of contracts or leases.** All contracts of purchase of state-owned tidelands or shorelands, otherwise permitted under RCW 79.125.200 to be sold, and all leases of state-owned tidelands, shorelands, or beds of navigable waters issued by the department shall be assignable in writing by the contract holder or lessee. The assignee shall be subject to the provisions of law applicable to the purchaser or lessee of whom they are the assignee, and shall have the same rights in all respects as the original purchaser or lessee of the lands, but only if the assignment is first approved by the department and entered upon the records in the department. [2005 c 155 § 135; 1982 1st ex.s. c 21 § 43. Formerly RCW 79.90.370.]

**79.105.150 Deposit, use of proceeds from sale or lease of aquatic lands or valuable materials therefrom—Aquatic lands enhancement project grant requirements—Aquatic Lands enhancement account.** (1) After deduction for management costs as provided in RCW 79.64.040 and payments to towns under RCW 79.115.150(2), all moneys received by the state from the sale or lease of state-owned aquatic lands and from the sale of valuable material from state-owned aquatic lands shall be deposited in the aquatic lands enhancement account which is hereby created in the state treasury. After appropriation, these funds shall be used solely for aquatic lands enhancement projects; for the purchase, improvement, or protection of aquatic lands for public purposes; for providing and improving access to the lands; and for volunteer cooperative fish and game projects.

(2) In providing grants for aquatic lands enhancement projects, the recreation and conservation funding board shall:

(a) Require grant recipients to incorporate the environmental benefits of the project into their grant applications;

(b) Utilize the statement of environmental benefits, consideration, except as provided in RCW 79.105.610, of whether the applicant is a Puget Sound partner, as defined in RCW 90.71.010, whether a project is referenced in the action agenda developed by the Puget Sound partnership under RCW 90.71.310, and except as otherwise provided in RCW 79.105.630, and effective one calendar year following the development and statewide availability of model evergreen community management plans and ordinances under RCW 35.105.050, whether the applicant is an entity that has been recognized, and what gradation of recognition was received, in the evergreen community recognition program created in RCW 35.105.030 in its prioritization and selection process; and

(c) Develop appropriate outcome-focused performance measures to be used both for management and performance assessment of the grants.

(3) To the extent possible, the department should coordinate its performance measure system with other natural resource-related agencies as defined in RCW 43.41.370.

(4) The department shall consult with affected interest groups in implementing this section.

(5) After January 1, 2010, any project designed to address the restoration of Puget Sound may be funded under this chapter only if the project is not in conflict with the action agenda developed by the Puget Sound partnership under RCW 90.71.310. LEASING AND RENTAL RATES

79.105.200 Use and occupancy fee in lieu of lease—Construction of section. (1) The department may require the payment of a use and occupancy fee in lieu of a lease where improvements have been placed without authorization on state-owned aquatic lands.

(2) Nothing in this section shall be construed to prevent the assertion of public ownership rights in any publicly owned aquatic lands, or the leasing of the aquatic lands when the leasing is not contrary to the statewide public interest. [2005 c 155 § 516; 1982 1st ex.s. c 21 § 102. Formerly RCW 79.94.170.]

79.105.210 Aquatic lands—Preservation and enhancement of water-dependent uses—Leasing authority. (1) The management of state-owned aquatic lands shall preserve and enhance water-dependent uses. Water-dependent uses shall be favored over other uses in state-owned aquatic land planning and in resolving conflicts between competing lease applications. In cases of conflict between water-dependent uses, priority shall be given to uses which enhance renewable resources, water-borne commerce, and the navigational and biological capacity of the waters, and to statewide interests as distinguished from local interests.

(2) Nonwater-dependent use of state-owned aquatic lands is a low-priority use providing minimal public benefits and shall not be permitted to expand or be established in new areas except in exceptional circumstances where it is compatible with water-dependent uses occurring in or planned for the area.

(3) The department shall consider the natural values of state-owned aquatic lands as wildlife habitat, natural area preserve, representative ecosystem, or spawning area prior to issuing any initial lease or authorizing any change in use. The department may withhold from leasing lands which it finds to have significant natural values, or may provide within any lease for the protection of such values.

(4) The power to lease state-owned aquatic lands is vested in the department, which has the authority to make leases upon terms, conditions, and length of time in conformance with the state Constitution and chapters 79.105 through 79.140 RCW.

(5) State-owned aquatic lands shall not be leased to persons or organizations which discriminate on the basis of race, color, creed, religion, sex, age, or physical or mental handicap. [2005 c 155 § 143; 1984 c 221 § 3. Formerly RCW 79.90.460.]

79.105.220 Lease of tidelands in front of public parks. The department may lease state-owned tidelands that are in front of state parks only with the approval of the state parks and recreation commission. The department may lease bedlands in front of state parks only after the department has consulted with the state parks and recreation commission. [2005 c 155 § 145. FORMERLY PART OF RCW 79.94.010; 2002 c 152 § 2; 1984 c 221 § 5. Formerly RCW 79.90.470.]

Findings—Severability—2002 c 152: See notes following RCW 79.110.240.

79.105.230 Use for public parks or public recreation purposes. Use for public parks or public recreation purposes shall be granted without charge if the state-owned aquatic lands and improvements are available to the general public on a first-come, first-served basis and are not managed to produce a profit for the operator or a concessionaire. [2005 c 155 § 144.]

79.105.240 Determination of annual rent rates for lease of aquatic lands for water-dependent uses. Except as otherwise provided by this chapter, annual rent rates for the lease of state-owned aquatic lands for water-dependent uses shall be determined as follows:

(1)(a) The assessed land value, exclusive of improvements, as determined by the county assessor, of the upland tax parcel used in conjunction with the leased area or, if there are no such uplands, of the nearest upland tax parcel used for water-dependent purposes divided by the parcel area equals the upland value.

(b) The upland value times the area of leased aquatic lands times thirty percent equals the aquatic land value.

(2) As of July 1, 1989, and each July 1st thereafter, the department shall determine the real capitalization rate to be applied to water-dependent aquatic land leases commencing or being adjusted under subsection (3)(a) of this section in that fiscal year. The real capitalization rate shall be the real rate of return, except that until June 30, 1989, the real capitalization rate shall be five percent and thereafter it shall not change by more than one percentage point in any one year or be more than seven percent or less than three percent.

(3) The annual rent shall be:

(a) Determined initially, and redetermined every four years or as otherwise provided in the lease, by multiplying the aquatic land value times the real capitalization rate; and

(b) Adjusted by the inflation rate each year in which the rent is not determined under (a) of this subsection.

(4) If the upland parcel used in conjunction with the leased area is not assessed or has an assessed value inconsistent with the purposes of the lease, the nearest comparable upland parcel used for similar purposes shall be substituted and the lease payment determined in the same manner as provided in this section.

(5) For the purposes of this section, "upland tax parcel" is a tax parcel, some portion of which has upland characteristics. Filled tidelands or shorelands with upland characteristics which abut state-owned aquatic land shall be considered as uplands in determining aquatic land values.

(6) The annual rent for filled state-owned aquatic lands that have the characteristics of uplands shall be determined in accordance with RCW 79.105.270 in those cases in which the state owns the fill and has a right to charge for the fill.

[Title 79 RCW—page 90]
(7) For all new leases for other water-dependent uses, issued after December 31, 1997, the initial annual water-dependent rent shall be determined by the methods in subsections (1) through (6) of this section. [2005 c 155 § 147; 2003 c 310 § 1; 1998 c 185 § 2; 1984 c 221 § 7. Formerly RCW 79.90.480.]

Effective date—2003 c 310: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately [May 14, 2003]." [2003 c 310 § 2.]

Findings—Report—1998 c 185: "(1) The legislature finds that the current method for determining water-dependent rental rates for aquatic land leases may not be achieving the management goals in RCW 79.90.455. The current method for setting rental rates, as well as alternatives to the current methods, should be evaluated in light of achieving management goals for aquatic lands leases. The legislature further finds that there should be no further increases in water-dependent rental rates for marina leases before the completion of this evaluation.

(2) The department of natural resources shall study and prepare a report to the legislature on alternatives to the current method for determination of water-dependent rent set forth in RCW 79.90.480. The report shall be prepared with the assistance of appropriate outside economic expertise and stakeholder involvement. Affected stakeholders shall participate with the department by providing information necessary to complete this study. For each alternative, the report shall:

(a) Describe each method and the costs and benefits of each;
(b) Compare each with the current method of calculating rents;
(c) Provide the private industry perspective;
(d) Describe the public perspective;
(e) Analyze the impact on state lease revenue;
(f) Evaluate the impacts of water-dependent rates on economic development in economically distressed counties; and
(g) Evaluate the ease of administration.

(3) The report shall be presented to the legislature by November 1, 1998, with the recommendations of the department clearly identified. The department’s recommendations shall include draft legislation as necessary for implementation of its recommendations." [1998 c 185 § 1.]

79.105.250 Log storage rents. (1) Until June 30, 1989, the log storage rents per acre shall be the average rents the log storage leases in effect on July 1, 1984, would have had under the formula for water-dependent leases as set out in RCW 79.105.240, except that the aquatic land values shall be thirty percent of the assessed value of the abutting upland parcels exclusive of improvements, if they are assessed. If the abutting upland parcel is not assessed, the nearest assessed upland parcel shall be used.

(2) On July 1, 1989, and every four years thereafter, the base log storage rents established under subsection (1) of this section shall be adjusted in proportion to the change in average water-dependent lease rates per acre since the date the log storage rates were last established under this section.

(3) The annual rent shall be adjusted by the inflation rate each year in which the rent is not determined under subsection (1) or (2) of this section.

(4) If the lease provides for seasonal use so that portions of the leased area are available for public use without charge part of the year, the annual rent may be discounted to reflect such public use in accordance with rules adopted by the board. [2005 c 155 § 148; 1984 c 221 § 8. Formerly RCW 79.90.485.]

79.105.260 Rent for leases in effect October 1, 1984. (1) For leases in effect on October 1, 1984, the rent shall remain at the annual rate in effect on September 30, 1984, until the next lease anniversary date, at which time rent established under RCW 79.105.240 or 79.105.250 shall become effective. If the first rent amount established is an increase of more than one hundred dollars and is more than thirty-three percent above the rent in effect on September 30, 1984, the annual rent shall not increase in any year by more than thirty-three percent of the difference between the previous rent and the rent established under RCW 79.105.240 or 79.105.250. If the first rent amount established under RCW 79.105.240 or 79.105.250 is more than thirty-three percent below the rent in effect on September 30, 1984, the annual rent shall not decrease in any year by more than thirty-three percent of the difference between the previous rent and the rent established under RCW 79.105.240 or 79.105.250. Thereafter, notwithstanding any other provision of this title, the annual rental established under RCW 79.105.240 or 79.105.250 shall not increase more than fifty percent in any year.

(2) This section applies only to leases of state-owned aquatic lands subject to RCW 79.105.240 or 79.105.250. [2005 c 155 § 149; 1984 c 221 § 9. Formerly RCW 79.90.490.]

79.105.270 Aquatic lands—Leases/rents for nonwater-dependent uses. Leases for nonwater-dependent uses of state-owned aquatic lands shall be charged the fair market rental value of the leased lands, determined in accordance with appraisal techniques specified by rule. However, rents for nonwater-dependent uses shall always be more than the amount that would be charged as rent for a water-dependent use of the same parcel. [2005 c 155 § 150; 1984 c 221 § 11. Formerly RCW 79.90.500.]

79.105.280 Rents and fees for recovery of mineral or geothermal resources. Rents and fees for the mining or other recovery of mineral or geothermal resources shall be established through competitive bidding, negotiations, or as otherwise provided by statute. [2005 c 155 § 151. FORMERLY PART OF RCW 79.90.500.]

79.105.290 Aquatic lands—Rents for multiple uses. If water-dependent and nonwater-dependent uses occupy separate portions of the same leased parcel of state-owned aquatic land, the rental rate for each use shall be established for the use by this chapter, prorated in accordance with the proportion of the whole parcel that each use occupies. If water-dependent and nonwater-dependent uses occupy the same portion of a leased parcel of state-owned aquatic land, the rental rate for the parcel shall be subject to negotiation with the department taking into account the proportion of the improvements each use occupies. [2005 c 155 § 152; 1984 c 221 § 12. Formerly RCW 79.90.505.]

79.105.300 Aquatic lands—Lease for water-dependent use—Rental for nonwater-dependent use. If a parcel leased for water-dependent uses is used for an extended period of time, as defined by rule of the department, for a nonwater-dependent use, the rental for the nonwater-dependent use shall be negotiated with the department. [1984 c 221 § 13. Formerly RCW 79.90.510.]
79.105.310 Aquatic lands—Rent for improvements.  
(1) Except as agreed between the department and the lessee prior to construction of the improvements, rent shall not be charged under any lease of state-owned aquatic lands for improvements, including fills, authorized by the department or installed by the lessee or its predecessor before June 1, 1971, so long as the lands remain under a lease or succession of leases without a period of three years in which no lease is in effect or a bona fide application for a lease is pending.

(2) If improvements were installed under a good faith belief that a state-owned aquatic lands lease was not necessary, rent shall not be charged for the improvements if, within ninety days after specific written notification by the department that a lease is required, the owner either applies for a lease or files suit to determine if a lease is required. [2005 c 155 § 153; 1984 c 221 § 14. Formerly RCW 79.90.515.]

79.105.320 Aquatic lands—Administrative review of proposed rent.  The manager shall, by rule, provide for an administrative review of any state-owned aquatic land rent proposed to be charged. The rules shall require that the lessee or applicant for release file a request for review within thirty days after the manager has notified the lessee or applicant of the rent due. For leases issued by the department, the final authority for the review rests with the board. For leases managed under RCW 79.105.420, the final authority for the review rests with the appropriate port commission. If the request for review is made within thirty days after the manager's final determination as to the rental, the lessee may pay rent at the preceding year’s rate pending completion of the review, and shall pay any additional rent or be entitled to a refund, with interest thirty days after announcement of the decision. The interest rate shall be fixed by rule adopted by the board and shall not be less than six percent per annum. Nothing in this section abrogates the right of an aggrieved party to pursue legal remedies. For purposes of this section, "manager" is the department except where state-owned aquatic lands are managed by a port district, in which case "manager" is the port district. [2005 c 155 § 154; 1991 c 64 § 1; 1984 c 221 § 15. Formerly RCW 79.90.520.]

79.105.330 Aquatic lands—Security for leases for more than one year.  For any lease for a term of more than one year, the department may require that the rent be secured by insurance, bond, or other security satisfactory to the department in an amount not exceeding two years’ rent. The department may require additional security for other lease provisions. The department shall not require cash deposits exceeding one-twelfth of the annual rental. [1984 c 221 § 16. Formerly RCW 79.90.525.]

79.105.340 Aquatic lands—Payment of rent.  If the annual rent charged for the use of a parcel of state-owned aquatic lands exceeds four thousand dollars, the lessee may pay on a prorated quarterly basis. If the annual rent exceeds twelve thousand dollars, the lessee may pay on a prorated monthly basis. [1984 c 221 § 17. Formerly RCW 79.90.530.]

79.105.350 Aquatic lands—Interest rate.  The interest rate and all interest rate guidelines shall be fixed by rule adopted by the board and shall not be less than six percent per annum. [2005 c 155 § 155; 1991 c 64 § 2; 1984 c 221 § 18. Formerly RCW 79.90.535.]

79.105.360 Adoption of rules.  The department shall adopt such rules as are necessary to carry out the purposes of RCW 79.105.010, 79.105.030, 79.105.050, 79.105.210, 79.105.220, 79.105.240 through 79.105.260, 79.105.270, 79.105.290 through 79.105.350, 79.105.400, 79.105.420, 79.130.070, and 79.135.100, specifically including criteria for determining under RCW 79.105.240(4) when an abutting upland parcel has been inappropriately assessed and for determining the nearest comparable upland parcel used for water-dependent uses. [2005 c 155 § 156; 1984 c 221 § 19. Formerly RCW 79.90.540.]

OTHER CONVEYANCES

79.105.400 Authority to exchange state-owned tidelands and shorelands—Rules—Limitation.  The department may exchange state-owned tidelands and shorelands with private and other public landowners if the exchange is in the public interest and will actively contribute to the public benefits established in RCW 79.105.030. The board shall adopt rules which establish criteria for determining when a proposed exchange is in the public interest and actively contributes to the public benefits established in RCW 79.105.030. The department may not exchange state-owned harbor areas or waterways. [2005 c 155 § 142; 1995 c 357 § 1. Formerly RCW 79.90.457.]

79.105.410 Gifts of aquatic land—Procedures and criteria.  (1) The department is authorized to accept gifts of aquatic land within the state, including tidelands, shorelands, harbor areas, and the beds of navigable waters, which shall become part of the state-owned aquatic land base. Consistent with RCW 79.105.030, the department must develop procedures and criteria that state the manner in which gifts of aquatic land, received after July 27, 2003, may occur. No gift of aquatic land may be accepted until: (a) An appraisal of the value of the land has been prepared; (b) an environmental site assessment has been conducted; and (c) the title property report has been examined and approved by the attorney general of the state. The results of the appraisal, the site assessment, and the examination of the title property report must be submitted to the board before the department may accept a gift of aquatic land.

(2) The authorization to accept gifts of aquatic land within the state extends to aquatic land accepted as gifts prior to July 27, 2003. [2005 c 155 § 163; 2003 c 176 § 1. Formerly RCW 79.90.580.]

79.105.420 Management of certain aquatic lands by port district—Agreement—Rent—Model management agreement.  (1) Upon request of a port district, the department and port district may enter into an agreement authorizing the port district to manage state-owned aquatic lands abutting or used in conjunction with and contiguous to uplands owned, leased, or otherwise managed by a port dis-
trict, for port purposes as provided in Title 53 RCW. The agreement shall include, but not be limited to, provisions defining the specific area to be managed, the term, conditions of occupancy, reservations, periodic review, and other conditions to ensure consistency with the state Constitution and the policies of this chapter. If a port district acquires operating management, lease, or ownership of real property which abuts state-owned aquatic lands currently under lease from the state to a person other than the port district, the port district shall manage state-owned aquatic lands if: (a) The port district acquires the leasehold interest in accordance with state law, or (b) the current lessee and the department agree to termination of the current lease to accommodate management by the port. The administration of state-owned aquatic lands covered by a management agreement shall be consistent with the aquatic land policies of chapters 79.105 through 79.140 RCW and the implementing rules adopted by the department. The administrative procedures for management of the lands shall be those of Title 53 RCW.

(2) No rent is due the state for the use of state-owned aquatic lands managed under this section for water-dependent or water-oriented uses. If a port district manages state-owned aquatic lands under this section and either leases or otherwise permits any person to use the lands, the rental fee attributable to the state-owned aquatic land only shall be comparable to the rent charged lessees for the same or similar uses by the department. However, a port district need not itemize for the lessee any charges for state-owned aquatic lands improved by the port district for use by carriers by water. If a port leases state-owned aquatic lands to any person for nonwater-dependent use, eighty-five percent of the revenue attributable to the rent of the state-owned aquatic land only shall be paid to the state.

(3) Upon application for a management agreement, and so long as the application is pending and being diligently pursued, no rent is due the department for the lease by the port district of state-owned aquatic lands included within the application for water-dependent or water-oriented uses.

(4) The department and representatives of the port industry shall develop a proposed model management agreement which shall be used as the basis for negotiating the management agreements required by this section. The model management agreement shall be reviewed and approved by the board. [2005 c 155 § 146; 1984 c 221 § 6. Formerly RCW 79.90.475.]

79.105.430 Private recreational docks—Mooring buoys. (1) The abutting residential owner to state-owned shorelands, tidelands, or related beds of navigable waters, other than harbor areas, may install and maintain without charge a dock on the areas if used exclusively for private recreational purposes and the area is not subject to prior rights, including any rights of upland, tideland, or shoreland owners as provided in RCW 79.125.400, 79.125.460, 79.125.410, and 79.130.010. The dock cannot be sold or leased separately from the upland residence. The dock cannot be used to moor boats for commercial or residential use. This permission is subject to applicable local, state, and federal rules and regulations governing location, design, construction, size, and length of the dock. Nothing in this subsection (1) prevents the abutting owner from obtaining a lease if otherwise provided by law.

(2) The abutting residential owner to state-owned shorelands, tidelands, or related beds of navigable waters, other than harbor areas, may install and maintain a mooring buoy without charge if the boat that is moored to the buoy is used for private recreational purposes, the area is not subject to prior rights, including any rights of upland, tideland, or shoreland owners as provided in RCW 79.125.400, 79.125.460, 79.125.410, and 79.130.010, and the buoy will not obstruct the use of mooring buoys previously authorized by the department.

(a) The buoy must be located as near to the upland residence as practical, consistent with applicable rules and regulations and the provisions of this section. The buoy must be located, or relocated if necessary, to accommodate the use of lawfully installed and maintained buoys.

(b) If two or more residential owners, who otherwise qualify for free use under the provisions of this section, are in dispute over assertion of rights to install and maintain a mooring buoy in the same location, they may seek formal settlement through adjudication in superior court for the county in which the buoy site is located. In the adjudication, preference must be given to the residential owner that first installed and continually maintained and used a buoy on that site, if it meets all applicable rules, regulations, and provisions of this section, and then to the owner of the residential property nearest the site. Nothing in this section requires the department to mediate or otherwise resolve disputes between residential owners over the use of the same site for a mooring buoy.

(c) The buoy cannot be sold or leased separately from the abutting residential property. The buoy cannot be used to moor boats for commercial or residential use, nor to moor boats over sixty feet in length.

(d) If the department determines that it is necessary for secure moorage, the abutting residential owner may install and maintain a second mooring buoy, under the same provisions as the first, the use of which is limited to a second mooring line to the boat moored at the first buoy.

(e) The permission granted in this subsection (2) is subject to applicable local, state, and federal rules and regulations governing location, design, installation, maintenance, and operation of the mooring buoy, anchoring system, and moored boat. Nothing in this subsection (2) prevents a boat owner from obtaining a lease if otherwise provided by law. This subsection (2) also applies to areas that have been designated by the commissioner or the fish and wildlife commission as aquatic reserves.

(3) This permission to install and maintain a recreational dock or mooring buoy may be revoked by the department, or the department may direct the owner of a recreational dock or mooring buoy to relocate their dock or buoy, if the department makes a finding of public necessity to protect waterward access, ingress rights of other landowners, public health or safety, or public resources. Circumstances prompting a finding of public necessity may include, but are not limited to, the dock, buoy, anchoring system, or boat posing a hazard or obstruction to navigation or fishing, contributing to degradation of aquatic habitat, or contributing to decertification of shellfish beds otherwise suitable for commercial or recre-
79.105.500  Aquatic land dredged material disposal sites—Findings. The legislature finds that the department provides, manages, and monitors aquatic land dredged material disposal sites on state-owned aquatic lands for materials dredged from rivers, harbors, and shipping lanes. These disposal sites are approved through a cooperative planning process by the departments of natural resources and ecology, the United States army corps of engineers, and the United States environmental protection agency in cooperation with the Puget Sound partnership. These disposal sites are essential to the commerce and well-being of the citizens of the state of Washington. Management and environmental monitoring of these sites are necessary to protect environmental quality and to assure appropriate use of state-owned aquatic lands. The creation of an aquatic land dredged material disposal site account is a reasonable means to enable and facilitate proper management and environmental monitoring of these disposal sites. (1)(a) A city with a population between twenty thousand and twenty-five thousand on June 12, 2008, and that currently operates a publicly owned marina may enter into a reduced fee lease authorizing the city to use state-owned aquatic lands for the purpose of operating a publicly owned marina. The office of financial management’s population estimate must be used to determine a city’s population for purposes of this section. The lease period may not exceed twenty years.

During subsequent years under such a lease, rent is due for only those lands that have been included under a previous aquatic land lease for the marina. The lease may not be renewed, extended, or put into holdover.

Only those marina operations conducted directly by the city may be included within the leased area.

(4) If a city chooses to enter into an agreement as provided in subsection (1) of this section, the city is not eligible to apply for grants from the aquatic lands enhancement account created under RCW 79.105.150 for the first ten years of the lease.

(5) Upon expiration of the twenty-year lease, the city may enter into a new lease for the use of state-owned aquatic lands or vacate the lands as agreed to in the expiring lease. To ensure the consistent statewide application of aquatic land management principles, the new lease must be completed in accordance with all applicable sections of this title.

### 79.110.110 Railroad bridge rights-of-way across navigable streams.
Any railroad company organized under the laws of the territory or state of Washington, or under any other state or territory of the United States, or under any act of the congress of the United States, and authorized to do business in the state and to construct and operate railroads, shall have the right to construct bridges across the navigable streams within this state over which the line or lines of its railway shall run for the purpose of being made a part of the railway line, or for the more convenient use thereof, if the bridges are constructed so as not to interfere with, impede, or obstruct navigation on the streams. However, payment for any right-of-way and any damages to those aquatic lands affected must be paid first. [2005 c 155 § 209; 1982 1st ex.s. c 21 § 56. Formerly RCW 79.91.090.]

### 79.110.120 Public bridges or trestles across waterways and aquatic lands—Recovery of reasonable direct administrative costs—Report to the legislature.
(1) Counties, cities, towns, and other municipalities shall have the right to construct bridges and trestles across waterways hereafter or hereinafter laid out under the authority of the state of Washington, and over and across any tidelands, shorelands, bedlands, or harbor areas owned and managed by the state adjacent thereto over which the projected line or lines of highway will run, if such bridges or trestles are constructed in good faith for the purpose of being made a part of the constructed line of such a highway, upon payment for any natural resource damages to those aquatic lands affected not already covered by an approved state or federal regulatory mitigation plan. Such a right shall be granted by easement and no charge may be made to the county, city, town, or other municipality, for such an easement. The department may recover only its reasonable direct administrative costs incurred in processing and approving the request or application, and reviewing plans for construction of the bridge or trestle.

(2) For purposes of this section, "direct administrative costs" means the cost of hours worked directly on an application or request, based on salaries and benefits, plus travel reimbursement and other actual out-of-pocket costs. Direct administrative costs recovered by the department must be deposited into the resource management cost account.

(3) By December 1, 2008, the department must deliver a report to the legislature regarding the collection of administrative fees as described in this section. [2005 c 58 § 1; 1982 1st ex.s. c 21 § 57. Formerly RCW 79.91.100.]

### 79.110.130 Common carriers may bridge or trestle state waterways.
Any person authorized by any state or municipal law or ordinance to construct and operate railroads, interurban railroads, or street railroads as common carriers within this state, shall have the right to construct bridges or trestles across waterways laid out under the authority of the state of Washington, over which the projected line or lines of railroad will run. The bridges or trestles shall be constructed in good faith for the purpose of being made a part of the constructed line of the railroad, and may also include a roadway for the accommodation of vehicles and foot passengers. Full payment for any right-of-way and any damages to those aquatic lands affected by the right-of-way shall first be made. [2005 c 155 § 211; 1982 1st ex.s. c 21 § 58. Formerly RCW 79.91.110.]

### 79.110.140 Location and plans of bridge or trestle to be approved—Future alterations.
The location and plans of any bridge, draw bridge, or trestle proposed to be constructed under RCW 79.110.110 through 79.110.130 shall be submitted to and approved by the department before construction is commenced. However, in case the portion of the waterway, river, stream, or watercourse, at the place to be crossed is navigable water of the United States, or otherwise within the jurisdiction of the United States, the location and plans shall also be submitted to and approved by the United States army corps of engineers before construction is commenced. When plans for any bridge or trestle have been approved by the department and the United States army corps of engineers, it is unlawful to deviate from the plans either before or after the completion of the structure, unless the modification of the plans has previously been submitted to, and received the approval of the department and the United States army corps of engineers, as the case may be. Any structure authorized and approved as indicated in this section shall remain within the jurisdiction of the respective officer or officers approving the structure, and shall be altered or changed from time to time at the expense of the municipality owning the highway, or at the expense of the common carriers, at the time owning the railway or road using the structure, to meet the necessities of navigation and commerce in such a manner as may be from time to time ordered by the respective officer or officers at the time having jurisdiction of the structure, and the orders may be enforced by appropriate action at law or in equity at the suit of the state. In order to obtain the benefits of the grant made in RCW 79.110.200, the person or the United States of America constructing or proposing to construct, or which has constructed, a telephone line, ditch, flume, pipeline, or transmission line, shall file, with the department, a map accompanied by the field notes of the survey and location of the telephone line, ditch, flume, pipeline, or transmission line, and shall make payment as provided in RCW 79.110.220. The land within the right-of-way shall be limited to an amount necessary for the construction of the telephone line, ditch, flume, pipeline, or transmission line sufficient for the purposes required, together with sufficient land on either side thereof for ingress and egress to maintain and repair the telephone line, ditch, flume, pipeline, or transmission line. The grant shall also include the right to cut all standing timber outside the right-of-way marked as danger trees located on public lands upon full payment of the appraised value. [2005 c 155 § 214; 1982 1st ex.s. c 21 § 61. Formerly RCW 79.91.140.]

79.110.220 Right-of-way for utility pipelines, transmission lines, etc.—Appraisal—Certificate—Reversion for nonuser. On the filing of the plat and field notes, as provided in RCW 79.110.210, the land applied for and any improvements included in the right-of-way applied for, if any, shall be appraised as in the case of an application to purchase state lands. Upon full payment of the appraised value of the state-owned aquatic land applied for, or upon payment of an annual rental when the department deems a rental to be in the best interests of the state, and upon full payment of the appraised value of any danger trees and improvements, if any, the department shall issue to the applicant a certificate of the grant of right-of-way stating the terms and conditions and shall enter the certificate in the abstracts and records in the department’s Olympia office, and thereafter any sale or lease of the lands affected by the right-of-way shall be subject to the easement of the right-of-way. However, should the person or the United States of America securing the right-of-way ever abandon the use of the right-of-way for the purposes for which it was granted, the right-of-way shall revert to the state, or the state’s grantee. [2005 c 155 § 215; 1982 1st ex.s. c 21 § 62. Formerly RCW 79.91.150.]

79.110.230 Use of state-owned aquatic lands for public utility lines. (1) The use of state-owned aquatic lands for public utility lines owned by a governmental entity shall be granted by an agreement, permit, or other instrument if the use is consistent with the purposes of RCW 79.105.010, 79.105.030, 79.105.050, 79.105.210, 79.105.400, and 79.130.070 and does not obstruct navigation or other public uses. The department may recover only its administrative costs incurred in processing and approving the request or application, and reviewing plans for construction of public utility lines as determined under RCW 79.110.240. Administrative costs recovered by the department must be deposited into the resource management cost account.

(2) The use of state-owned aquatic lands for local public utility lines owned by a nongovernmental entity will be granted by easement if the use is consistent with the purpose of RCW 79.105.010, 79.105.030, 79.105.050, 79.105.210, 79.105.400, and 79.130.070 and does not obstruct navigation or other public uses. The total charge for the easement will be determined under RCW 79.110.240.

(3) Nothing in this section limits the ability of the department to obtain payment for commodity costs, such as lost revenue from renewable resources, resulting from the granted use of state-owned aquatic lands for public utility lines. [2008 c 55 § 1; 2005 c 155 § 216. Formerly PART OF RCW 79.90.470.]

79.110.240 Charge for term of easement—Recovery of costs. (1) Until July 1, 2017, the charge for the term of an easement granted under RCW 79.110.230(2) will be determined as follows and will be paid in advance upon grant of the easement:

(a) Five thousand dollars for individual easement crossings that are no longer than one mile in length;

(b) Twelve thousand five hundred dollars for individual easement crossings that are more than one mile but less than five miles in length; or

(c) Twenty thousand dollars for individual easement crossings that are five miles or more in length.

(2) The charge for easements under subsection (1) of this section must be adjusted annually by the rate of yearly increase in the most recently published consumer price index, all urban consumers, for the Seattle-Everett SMSA, over the consumer price index for the preceding year, as compiled by the bureau of labor statistics, United States department of labor for the state of Washington rounded up to the nearest fifty dollars.

(3) The term of the easement is thirty years or a period of less than thirty years if requested by the person or entity seeking the easement.

(4) In addition to the charge for the easement under subsection (1) of this section, the department may recover its administrative costs incurred in receiving an application for the easement, approving the easement, and reviewing plans for and construction of the public utility lines. For the purposes of this subsection, "administrative costs" is equivalent to twenty percent of the fee for the easement as determined under subsection (1) of this section and adjusted under subsection (2) of this section. For public utility lines owned by a governmental entity, the administrative costs will be calculated based on the length of the easement and the fee that it would be charged if it were subject to the easement charges in this section. When multiple public utility lines are owned by the same entity and are authorized under the same easement, the administrative fee for the easement shall be equal to twenty percent of the easement fee for the single longest public utility line. Administrative costs recovered by the department must be deposited into the resource management cost account.

[Title 79 RCW—page 98]
(5) Applicants under RCW 79.110.230(2) providing a residence with an individual service connection for electrical, natural gas, cable television, or telecommunications service are not required to pay the charge for the easement under subsection (1) of this section but shall pay administrative costs under subsection (4) of this section.

(6) A final decision on applications for an easement must be made within one hundred twenty days after the department receives the completed application and after all applicable regulatory permits for the aquatic easement have been acquired. This subsection applies to applications submitted before June 13, 2002, as well as to applications submitted on or after June 13, 2002. Upon request of the applicant, the department may reach a decision on an application within sixty days and charge an additional fee for an expedited processing. The fee for an expedited processing is ten percent of the combined total of the easement charge and administrative costs.

(7) By December 31, 2016, the legislature shall review the granting of easements on state-owned aquatic lands under this chapter and determine whether all applications for easements are processed within one hundred twenty days for normal processing of applications and sixty days for expedited processing of applications, and whether the granting of easements on state-owned aquatic lands generates reasonable income for the aquatic lands enhancement account. [2008 c 55 § 2; 2005 c 155 § 162; 2002 c 152 § 3. Formerly RCW 79.90.575.]

Findings—2002 c 152: "The legislature finds that local public utilities provide essential services to all of the residents of the state and that the construction and improvement of local utility infrastructure is critical to the public health, safety, and welfare, community and economic development, and installation of modern and reliable communication and energy technology. The legislature further finds that local utility lines must cross state-owned aquatic lands in order to reach all state residents and that, for the benefit of such residents, the state should permit the crossings, consistent with all applicable state environmental laws, in a nondiscriminatory, economic, and timely manner. The legislature further finds that this act and the valuation methodology in section 3 of this act applies only to the uses listed in section 2 of this act, and does not establish a precedent for valuation for any other uses on state-owned aquatic lands." [2002 c 152 § 1.]

Severability—2002 c 152: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [2002 c 152 § 4.]

Upon full payment of the appraised value of the lands the department shall issue to the applicant a certificate of right-of-way, and enter the certificate in the department records. Any subsequent sale or lease by the state of the lands affected by the right-of-way shall be subject to the certificate of right-of-way. [2005 c 155 § 219; 1982 1st ex.s. c 21 § 65. Formerly RCW 79.91.180.]

79.110.330 Grant of overflow rights. The department has the power and authority to grant to any person, the right, privilege, and authority to perpetually back and hold water upon or over any state-owned tidelands or shorelands, and to overflow and inundate the lands, whenever the department deems it necessary for the purpose of erecting, constructing, maintaining, or operating any water power plant, reservoir, or works for impounding water for power purposes, irrigation, mining, or other public use in accordance with the provisions of RCW 79.36.570. [2005 c 155 § 220; 2003 c 334 § 613; 1982 1st ex.s. c 21 § 66. Formerly RCW 79.91.190.]

RCW 79.110.010 through 79.110.220 and 79.110.240 through 79.110.330, relating to the acquiring of rights-of-way and overflow rights through, over, and across state-owned aquatic lands, shall not be construed as exclusive or as affecting the right of municipal and public service corporations to acquire lands belonging to or under the control of the state, or rights-of-way or other rights, by condemnation proceedings. [2005 c 155 § 221; 1982 1st ex.s. c 21 § 67. Formerly RCW 79.91.200.]

Whenever it appears that the inner harbor line of any harbor area has been so established as to overlap or fall inside the government meander line, or for any other good cause, the board acting as the harbor line commission is empowered to relocate and reestablish said inner harbor line so erroneously established, outside of the meander line. All tidelands or shorelands within the inner harbor line so reestablished and relocated, shall belong to the state and may be sold or leased as other first-class tidelands or shorelands in accordance with the provisions of RCW 79.125.200. HARBOR AREA LEASES

79.115.100 Terms of harbor area leases. Applications, leases, and bonds of lessees shall be in such a form as the department shall prescribe. Every lease shall provide that the rental shall be payable to the department, and for cancellation by the department upon sixty days’ written notice for any breach of the conditions. Every lessee shall furnish a bond, with surety satisfactory to the department, with such penalty as the department may prescribe, but not less than one hundred dollars, conditioned upon the faithful performance of the lease and the payment of the rent when due. If the department at any time deems any bond insufficient, it may require the lessee to file a new and sufficient bond within thirty days after receiving notice to do so.

Applications for leases of harbor areas upon tidal waters shall be accompanied by plans and drawings and other data concerning the proposed wharves, docks, or other structures or improvements as the department shall require. Every lease of harbor areas shall provide that, wharves, docks, or other conveniences of navigation and commerce adequate for the public needs, to be specified in the lease, shall be constructed within the time as may be fixed in each case by the department. In no case shall the construction be commenced more than two years from the date of the lease and shall be completed within such reasonable time as the department shall fix, any of which times may be extended by the department either before or after their expiration, and the character of the improvements may be changed either before or after completion with the approval of the department. However, if in its opinion improvements existing upon such harbor area or the tidelands adjacent thereto are adequate for public needs of commerce and navigation, the department shall require the maintenance of existing improvements and need not require further improvements. [2005 c 155 § 136; 1982 1st ex.s. c 21 § 45. Formerly RCW 79.90.390.]

79.115.100 App./2008 Ed.)

79.115.110 Construction or extension of docks, wharves, etc., in harbor areas—New lease. If the owner of any harbor area lease upon tidal waters desires to construct any wharf, dock, or other convenience of navigation or commerce, or to extend, enlarge, or substantially improve any existing structure used in connection with the harbor area, and deems the required expenditure not warranted by the lessor’s right to occupy the harbor area during the remainder of the term of their lease, the lease owner may make application to the department for a new lease of the harbor area for a period not exceeding thirty years. Upon the filing of an application accompanied by proper plans, drawings, or other data, the department shall investigate the application and if the department determines that the proposed work or improvement is in the public interest and reasonably adequate for the public needs, it shall by order fix the terms and conditions and the rate of rental for a new lease, the rate of rental shall be a fixed percentage, during the term of the lease, on the true and fair value in money of the harbor area determined by the department. The department may propose modifications of the proposed wharf, dock, or other convenience or extensions, enlargements, or improvements. The department shall, within ninety days from the filing of an application notify the applicant in writing of the terms and conditions upon which a new lease will be granted, and of the rental to be paid, and if the applicant shall within ninety days elect to accept a new lease of the harbor area upon the terms and conditions, and at the rental prescribed by the department, the department shall make a new lease for the harbor area for the term applied for and the existing lease shall be surrendered and canceled. [2005 c 155 § 306; 2000 c 11 § 27; 1982 1st ex.s. c 21 § 75. Formerly RCW 79.92.070.]

79.115.120 Re-leases of harbor areas. Upon the expiration of any harbor area lease upon tidal waters, the lessee may apply for a re-lease of the harbor area for a period not exceeding thirty years. The application shall be accompanied with maps showing the existing improvements upon the harbor area and the adjacent tidelands and with proper plans, drawings, and other data showing any proposed extensions or improvements of existing structures. Upon the filing of an application the department shall investigate the application and if it determines that the character of the wharves, docks, or other conveniences of commerce and navigation are reasonably adequate for the public needs and in the public interest, it shall by order fix and determine the terms and conditions upon which the re-lease shall be granted and the rate of rental to be paid, which rate shall be a fixed percentage during the term of the lease on the true and fair value in money of the harbor area as determined by the department. [2005 c 155 § 307; 2000 c 11 § 28; 1982 1st ex.s. c 21 § 76. Formerly RCW 79.92.080.]

79.115.130 Procedure to re-lease harbor areas. Upon completion of the valuation of any tract of harbor area applied for under RCW 79.115.120, the department shall notify the applicant of the terms and conditions upon which the re-lease will be granted and of the rental fixed. The applicant or the applicant’s successor in interest shall have the option for the period of sixty days from the date of the service of notice in which to accept a lease on the terms and conditions and at the rental so fixed and determined by the department. If the terms and conditions and rental are accepted a new lease shall be granted for the term applied for. If the terms and conditions are not accepted by the applicant within the period of time, or within such further time, not exceeding three months, as the department shall grant, the lease shall be...
deemed rejected by the applicant, and the department shall give eight weeks’ notice by publication once a week in one or more newspapers of general circulation in the county in which the harbor area is located, that a lease of the harbor area will be sold on the terms and conditions and at the rental, at a time and place specified in the notice (which shall not be more than three months from the date of the first publication of the notice) to the person offering at the public sale to pay the highest sum as a cash bonus at the time of sale of the lease. Notice of the sale shall be served upon the applicant at least six weeks prior to the date of sale. The person paying the highest sum as a cash bonus shall be entitled to lease the harbor area. However, if the lease is not sold at the public sale the department may at any time or times again fix the terms, conditions, and rental, and again advertise the lease for sale as provided in this section and upon similar notice. Further, upon failure to secure any sale of the lease as prescribed in this section, the department may issue revocable leases without requirement of improvements for one year periods at a minimum rate of two percent. 

79.105.904. Where any leased harbor area or tideland is situated within the limits of a town, whether or not the harbor area or tideland lies within a port district, the rents from the leases shall be paid by the state treasurer to the municipal authorities of the town to be expended for water-related improvements.

79.115.150 Harbor areas and tidelands within towns—Distribution of rents to municipal authorities. (1) Where any leased harbor area or tideland is situated within the limits of a town, whether or not the harbor area or tideland lies within a port district, the rents from the leases shall be paid by the state treasurer to the municipal authorities of the town to be expended for water-related improvements.

(2) The state treasurer is authorized and directed to make payments to the respective towns on the first days of July and January of each year, of all moneys payable under the terms of this section. 

79.120.010 First-class tidelands and shorelands to be platted—Public waterways and streets. It is the duty of the department simultaneously with the establishment of harbor lines and the determination of harbor areas in front of any city or town, or as soon as practicable, to survey and plat all first-class tidelands and shorelands not previously platted, and in platting the tidelands and shorelands to lay out streets which shall be dedicated to public use, subject to the control of the cities or towns in which they are situated.

The department shall also establish one or more public waterways not less than fifty nor more than one thousand feet wide, beginning at the outer harbor line and extending inland across the tidelands belonging to the state. These waterways shall include within their boundaries, as nearly as practicable, all navigable streams running through the tidelands, and shall be located at other places as in the judgment of the department may be necessary for the present and future convenience of commerce and navigation. All waterways shall be reserved from sale or lease and remain as public highways for watercraft until vacated as provided for in this chapter.

The department shall appraise the value of platted tidelands and shorelands and enter the appraisals in its records. 

79.120.020 Streets, waterways, etc., validated. All city streets, town public places, city or town public roads, town waterways, and streets, and other public places and highways located and platted on the first-class tidelands and shorelands, or harbor areas, as provided by law, and not vacated as provided by law, are validated as public highways and dedicated to the use of the public for the purposes for which they were intended, subject to vacation as provided for in this chapter.

The department shall appraise the value of platted tidelands and shorelands and enter the appraisals in its records.

79.120.030 Approval of plans/authorize construction on state-owned aquatic lands. The department has the power to approve plans for and authorize the construction of slopes, with rock, riprap, or other protection, upon any state-owned aquatic lands incident to the improvement of any abutting or adjacent street or avenue by any city or town in this state.
79.120.040 Permits to use waterways. If the United States government has established pierhead lines within a waterway created under the laws of this state at any distance from the boundaries established by the state, structures may be constructed in that strip of waterway between the waterway boundary and the nearest pierhead line only with the consent of the department and upon such plans, terms, and conditions and for such term as determined by the department. However, no permit shall extend for a period longer than thirty years.

The department may cancel any permit upon sixty days' notice for a substantial breach by the permittee of any of the permit conditions.

If a waterway is within the territorial limits of a port district, the duties assigned by this section to the department may be exercised by the port commission of the port district as provided in RCW 79.105.420.

Nothing in this section shall confer upon, create, or recognize in any abutting owner any right or privilege in or to any strip of waterway abutting any street and between prolongations of the lines of the street, but the control of and the right to use the strip is reserved to the state of Washington, except as authorized by RCW 79.105.420. [2005 c 155 § 404; 1984 c 221 § 21; 1982 1st ex.s. c 21 § 83. Formerly RCW 79.93.040.]

Severability—Effective date—1984 c 221: See RCW 79.105.901 and 79.105.902.

Application to existing property rights: RCW 79.105.040.

79.120.050 Excavation of waterways—Waterways open to public—Tide gates or locks. All waterways excavated through any state-owned tidelands or shorelands by virtue of the provisions of chapter 99, Laws of 1893, so far as they run through the tidelands or shorelands, are declared to be public waterways, free to all citizens upon equal terms, and subject to the jurisdiction of the proper authorities, as otherwise provided by law. However, where tide gates or locks are considered by the contracting parties excavating any waterways to be necessary to the efficiency of the waterway, the department may, in its discretion, authorize tide gates or locks to be constructed and may authorize the parties constructing the waterway to operate them and collect a reasonable toll from vessels passing through the tide gates or locks. Further, the state of Washington or the United States of America can, at any time, appropriate the tide gates or locks upon payment to the parties erecting them of the reasonable value of the tide gates or locks at the date of the appropriation, reasonable value to be ascertained and determined as in other cases of condemnation of private property for public use. [2005 c 155 § 405; 1982 1st ex.s. c 21 § 84. Formerly RCW 79.93.050.]

Application to existing property rights: RCW 79.105.040.

79.120.060 Vacation of waterways—Extension of streets. If a waterway established under the laws of this state, or any portion of the waterway, has not been excavated, or is not used for navigation, or is not required in the public interest to exist as a waterway, the waterway or a portion of the waterway may be vacated by written order of the commissioner upon request by ordinance or resolution of the city council of the city in which such waterway is located or by resolution of the port commission of the port district in which the waterway is located. If the waterway or a portion of the waterway which is vacated is navigable water of the United States, or otherwise within the jurisdiction of the United States, a copy of the resolution or ordinance, together with a copy of the vacation order of the commissioner shall be submitted to the United States army corps of engineers for their approval, and if they approve, the waterway or a portion of the waterway is vacated. However, if a port district owns property abutting the waterway and the provisions of this section are otherwise satisfied, the waterway, or the portion of the waterway that abuts the port district property, shall be vacated.

Upon vacation of a waterway, the commissioner shall notify the city in which the waterway is located, and the city has the right, if otherwise permitted by RCW 79.125.200, to extend across the portions so vacated any existing streets, or to select portions of the waterway as the city may desire for street purposes, in no case to exceed one hundred fifty feet in width for any one street. The selection shall be made within sixty days subsequent to the receipt of notice of the vacation of the portion of the waterway.

If the city fails to make a selection within the time, or selects only a portion of the waterway, the title of the remaining portions of the vacated waterway shall vest in the state, unless the waterway is located within the territorial limits of a port district, in which event, if otherwise permitted by RCW 79.125.200, the title shall vest in the port district. The title is subject to any railroad or street railway crossings existing at the time of the vacation. [2005 c 155 § 406; 1984 c 221 § 22; 1982 1st ex.s. c 21 § 85. Formerly RCW 79.93.060.]

In case the lessee or the lessee’s successor in interest is dissatisfied with the appraised value of the improvements as determined by the department, the lessee shall have the right of appeal to the superior court of the county where the tidelands or shorelands are situated, within the time and according to the method prescribed in RCW 79.105.160 for taking appeals from decisions of the department.

(3) In case the tidelands or shorelands are not leased, or sold, within three years after the expiration of the former lease, then in that event, the improvements existing on the lands at the time of any subsequent lease, shall belong to the state and be considered a part of the land, and shall be taken into consideration in appraising the value, or rental value, of the land and sold or leased with the land. [2005 c 155 § 531; 1982 1st ex.s. c 21 § 117. Formerly RCW 79.94.320.]

79.125.400 First-class tidelands and shorelands—Lease—Preference right of upland owner—How exercised. (1) Upon plating and appraisal of first-class tidelands or shorelands as provided in this chapter, if the department deems it for the best public interest to offer the first-class tidelands or shorelands for lease, the department shall notify the owner of record of uplands fronting upon the tidelands or shorelands to be offered for lease if the upland owner is a resident of the state, or the upland owner is a nonresident of the state, shall mail to the upland owner’s last known post office address, as reflected in the county records, a copy of the notice notifying the owner that the state is offering the tidelands or shorelands for lease, giving a description of those lands and the department’s appraised fair market value of the tidelands or shorelands for lease, and notifying the owner that the upland owner has a preference right to apply to lease the tidelands or shorelands at the appraised value for the lease for a period of sixty days from the date of service of mailing of the notice.

(2) If at the expiration of sixty days from the service or mailing of the notice, as provided in subsection (1) of this section, there being no conflicting applications filed, and the owner of the uplands fronting upon the tidelands or shorelands offered for lease, has failed to avail themselves of their preference right to apply to lease or to pay to the department the appraised value for lease of the tidelands or shorelands described in the notice, the tidelands or shorelands may be offered for lease to any person and may be leased in the manner provided for in the case of lease of state lands.

(3) If at the expiration of sixty days two or more claimants asserting a preference right to lease have filed applications to lease any tract, conflicting with each other, the conflict between the claimants shall be equitably resolved by the department as the best interests of the state require in accord with the procedures prescribed by chapter 34.05 RCW. However, any contract purchaser of lands or rights therein, which upland qualifies the owner for a preference right under this section, shall have first priority for the preference right. [2005 c 155 § 506; 2000 c 11 § 29; 1982 1st ex.s. c 21 § 92. Formerly RCW 79.94.070.]

(2) The department shall, prior to the issuance of any lease under the provisions of this section, fix the annual rental for the tidelands or shorelands and prescribe the terms and conditions of the lease. No lease issued under the provisions of this section shall be for a longer term than ten years, and every lease shall be subject to termination upon ninety days’ notice to the lessee in the event that the department shall decide that it is in the best interest of the state that the tidelands or shorelands be surveyed and platted. At the expiration of any lease issued under the provisions of this section, the lessee or the lessee’s successors or assigns shall have a preference right to re-lease the lands covered by the original lease or any portion of the lease, if the department deems it to be in the best interests of the state to re-lease the lands, for succeeding periods not exceeding five years each at the rental and upon the terms and conditions as may be prescribed by the department.

(3) In case the abutting uplands are not improved and occupied for residential purposes and the abutting upland owner has not filed an application for the lease of the lands, the department may lease the lands to any person for booming purposes under the terms and conditions of this section. However, failure to use for booming purposes any lands leased under this section for such purposes for a period of one year shall work a forfeiture of the lease and the lands shall revert to the state without any notice to the lessee upon the entry of a declaration of forfeiture in the records of the department. [2005 c 155 § 527; 1982 1st ex.s. c 21 § 113. Formerly RCW 79.94.280.]

The use of any tidelands, shorelands, and abutting bedlands covered with less than four fathoms of water at ordinary low tide belonging to the state, and adjoining and bordering on any tract, piece, or parcel of land, which may have been reserved or acquired, or which may be reserved or acquired, by the government of the United States, for the purposes of erecting and maintaining forts, magazines, arsenals, dockyards, navy yards, prisons, penitentiaries, lighthouses, fog signal stations, aviation fields, or other aids to navigation, may be granted to the United States, upon payment for the rights, so long as the upland adjoining the tidelands or shorelands shall continue to be held by the government of the United States for any of the public purposes above mentioned. However, this grant shall not extend to or include any aquatic lands covered by more than four fathoms of water at ordinary low tide; and shall not be construed to prevent any citizen of the state from using the lands for the taking of food fishes so long as the fishing does not interfere with the public use of them by the United States. Whenever application is made to the department, by any department of the United States government, for the use of any state-owned tidelands or shorelands, for any public purpose, and the department shall be satisfied that the United States requires or may require the use of the tidelands or shorelands for the public purposes, the department may reserve the tidelands or shorelands from public sale and grant the use of them to the United States, upon payment for the land, so long as it may require the use of them for the public purposes. In such a case, the department shall execute an easement to the United States, which grants the use of the tidelands or shorelands to the United States, so long as it shall require the use of them for the public purpose. 79.130.010 Lease of beds of navigable waters. (1) Except as provided in RCW 79.130.060, the department may lease to the abutting tidelands or shorelands owner or lessee, the beds of navigable waters lying below the line of extreme low tide in waters where the tide ebbs and flows, and below the line of navigability in lakes and rivers claimed by the state and defined in Article XVII, section 1 of the state Constitution.

(2) In case the abutting tidelands or shorelands or the abutting uplands are not improved or occupied for residential or commercial purposes, the department may lease the beds to any person for a period not exceeding ten years for booming purposes.

(3) Nothing in this chapter shall change or modify any of the provisions of the state Constitution or laws of the state which provide for the leasing of harbor areas and the reservation of lands lying in front of harbor areas. [2005 c 155 § 601; 1987 c 271 § 2; 1982 1st ex.s. c 21 § 130. Formerly RCW 79.95.010.]

Severability—1987 c 271: See note following RCW 79.130.050.

(2008 Ed.)

79.130.020 Lease of beds of navigable waters—Terms and conditions of lease—Forfeiture for nonuser. (1) The department shall, prior to the issuance of any lease under the provisions of this chapter, fix the annual rental and prescribe the terms and conditions of the lease. However, in fixing the rental, the department shall not take into account the value of any improvements placed upon the lands by the lessee.

(2) No lease issued under the provisions of this chapter shall be for a term longer than thirty years from the date thereof if in front of second-class tidelands or shorelands; or a term longer than ten years if in front of unplatted first-class tidelands or shorelands leased under the provisions of RCW 79.125.410, in which case the lease shall be subject to the same terms and conditions as provided for in the lease of the unplatted first-class tidelands or shorelands. Failure to use those beds leased under the provisions of this chapter for booming purposes, for a period of two years shall work a forfeiture of the lease and the land shall revert to the state without notice to the lessee upon the entry of a declaration of forfeiture in the records of the department. [2005 c 155 § 602; 1982 1st ex.s. c 21 § 131. Formerly RCW 79.95.020.]

79.130.030 Lease of beds of navigable waters—Improvements—Federal permit—Forfeiture—Plans and specifications. The applicant for a lease under the provisions of this chapter shall first obtain from the United States army corps of engineers or other federal regulatory agency, a permit to place structures or improvements in the navigable waters and file with the department a copy of the permit. No structures or improvements shall be constructed beyond a point authorized by the army corps of engineers or the department and any construction beyond authorized limits will work a forfeiture of all rights granted by the terms of any lease issued under the provisions of this chapter. The applicant shall also file plans and specifications of any proposed improvements to be placed upon the areas with the department, the plans and specifications to be the same as provided for in the case of the lease of harbor areas. [2005 c 155 § 603; 1982 1st ex.s. c 21 § 132. Formerly RCW 79.95.030.]

79.130.040 Lease of beds of navigable waters—Preference right to re-lease. At the expiration of any lease issued under the provisions of this chapter, the lessee or the lessee’s successors or assigns, shall have a preference right to re-lease all or part of the area covered by the original lease if the department deems it to be in the best interest of the state to re-lease the area. Such re-lease shall be for the term as specified by the provisions of this chapter, and at the rental and upon the conditions as may be prescribed by the department. However, if the preference right is not exercised, the rights and obligations of the lessee, the department, and any subsequent lessee shall be the same as provided in RCW 79.125.300 relating to failure to re-lease tidelands or shorelands. Any person who prior to June 11, 1953, had occupied and improved an area subject to lease under this chapter and has secured a permit for the improvements from the United States army corps of engineers, or other federal regulatory agency, shall have the rights and obligations of a lessee under this section upon the filing of a copy of the permit together with plans and specifications of the improvements with the
79.130.050 United States Navy base—Legislative findings and declaration. The legislature recognizes the importance of economic development in the state of Washington, and finds that the location of a United States Navy base in Everett, Washington will enhance economic development. The legislature finds that the state should not assume liability or risks resulting from any action taken by the United States Navy, now or in the future associated with the dredge disposal program for that project known as confined aquatic disposal (CAD). The legislature also recognizes the importance of improving water quality and cleaning up pollution in Puget Sound. The legislature declares these actions to be a public purpose necessary to protect the health, safety, and welfare of its citizens, and to promote economic growth and improve environmental quality in the state of Washington. The United States Navy proposes to commence the Everett home port project immediately. [2005 c 155 § 605; 1987 c 271 § 1. Formerly RCW 79.95.050.]

Severability—1987 c 271: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1987 c 271 § 6.]

79.130.060 Lease of bedlands in Port Gardner Bay for dredge spoil site—Conditions. (1) Upon application by the United States Navy, and upon verification of the legal description and compliance with the intent of this chapter, the commissioner is authorized to lease bedlands in Port Gardner Bay for a term of thirty years so the United States Navy can utilize a dredge spoil site solely for purposes related to construction of the United States Navy base at Everett.

(2) The lease shall reserve for the state uses of the property and associated waters which are not inconsistent with the use of the bed by the Navy as a disposal site. The lease shall include conditions under which the Navy:

(a) Will agree to hold the state of Washington harmless for any damage and liability relating to, or resulting from, the use of the property by the Navy; and

(b) Will agree to comply with all terms and conditions included in the applicable state of Washington section 401 water quality certification issued under the authority of the federal clean water act (33 U.S.C. Sec. 1251, et seq.), all terms and conditions of the army corps of engineers section 404 permit (33 U.S.C. Sec. 1344), and all requirements of statutes, regulations, and permits relating to water quality and aquatic life in Puget Sound and Port Gardner Bay, including all reasonable and appropriate terms and conditions of any permits issued under the authority of the Washington state shoreline management act (chapter 90.58 RCW) and any applicable shoreline master program.

(3) The ability of the state of Washington to enforce the terms and conditions specified in subsection (2)(b) of this section shall include, but not be limited to: (a) The terms and conditions of the lease; (b) the section 401 water quality certification under the clean water act, 33 U.S.C. Sec. 1251, et seq.; (c) the comprehensive environmental response, compensation, and liability act, 42 U.S.C. Sec. 9601, et seq.; (d) the resource conservation and recovery act, 42 U.S.C. Sec. 6901, et seq.; or (e) any other applicable federal or state law. [2005 c 155 § 606; 1987 c 271 § 3. Formerly RCW 79.95.060.]

Severability—1987 c 271: See note following RCW 79.130.050.

79.130.070 Exchange of bedlands—Cowlitz river. (1) The department is authorized to exchange bedlands abandoned through rechanneling of the Cowlitz river near the confluence of the Columbia river in Longview, Washington for dredge spoil site known as confined aquatic disposal (CAD) in Everett, Washington will enhance economic development of the state of Washington, and finds that the location of a United States Navy base in Everett, Washington will enhance economic development.

(2) The department is also authorized to exchange bedlands and enter into boundary line agreements to resolve any disputes that may arise over the location of state-owned lands now comprising the dike that was created in the 1920s.

(3) For purposes of chapter 150, Laws of 2001, "Cowlitz river near the confluence of the Columbia river" means those tidelands and bedlands of the Cowlitz river fronting and abutting sections 10, 11, and 14, township 7 north, range 2 west, Willamette Meridian and fronting and abutting the Huntington Donation Land Claim No. 47 and the Blakeny Donation Land Claim No. 43, township 7 north, range 2 west, Willamette Meridian.

(4) Nothing in chapter 150, Laws of 2001 shall be deemed to convey to the department the power of eminent domain. [2003 c 334 § 454; 2001 c 150 § 2. Formerly RCW 79.90.458, 79.08.260.]

Intent—2003 c 334: See note following RCW 79.02.010.

Findings—2001 c 150: "(1) The legislature finds that in the 1920s the Cowlitz river near the confluence of the Columbia river in Longview, Washington was diverted from its original course by dredging and construction of a dike. As a result, a portion of the original bed of the Cowlitz river became a nonnavigable body of shallow water. Another portion of the original bed of the Cowlitz river became part of a dike and is indistinguishable from existing islands. The main channel of the Cowlitz river was diverted over uplands to the south of the original bed and has continued as a navigable channel.

(2) The legislature finds that continued ownership of the nonnavigable portion of the original bed of the Cowlitz river near the confluence of the Columbia river no longer serves the state’s interest in navigation. Ownership of the existing navigable bed of the Cowlitz river would better serve the state’s interest in navigation. It is also in the state’s interest to resolve any disputes that have arisen because state-owned land is now indistinguishable from privately owned land within the dike." [2001 c 150 § 1.]

Severability—2001 c 150: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [2001 c 150 § 3.]

shellfish or causes shellfish to be wrongfully taken from the public lands and the wrongful taking is intentional and knowing, the person is liable for damages of treble the fair market retail value of the amount of shellfish wrongfully taken. If a person wrongfully takes shellfish from the public lands under other circumstances, the person is liable for damages of double the fair market value of the amount of shellfish wrongfully taken.

(2) For purposes of this section, a person "wrongfully takes" shellfish from public lands if the person takes shellfish: (a) Above the limits of any applicable laws that govern the harvest of shellfish from public lands; (b) without reporting the harvest to the department of fish and wildlife or the department where the reporting is required by law or contract; (c) outside the area or above the limits that an agreement or contract from the department allows the harvest of shellfish from public lands; or (d) without a lease or purchase of the shellfish where the lease or purchase is required by law prior to harvest of the shellfish.

(3) The remedies in this section are for civil damages and shall be proved by a preponderance of the evidence. The department may file a civil action in Thurston county superior court or the county where the shellfish were taken against any person liable under this section. Damages recovered under this section shall be applied in the same way as received under geoduck harvesting agreements authorized by RCW 79.135.210.

(4) For purposes of the remedies created by this section, the amount of shellfish wrongfully taken by a person may be established either:

(a) By surveying the aquatic lands to reasonably establish the amount of shellfish taken from the immediate area where a person is shown to have been wrongfully taking shellfish;

(b) By weighing the shellfish on board any vessel or in possession of a person shown to be wrongfully taking shellfish; or

(c) By any other evidence that reasonably establishes the amount of shellfish wrongfully taken.

The amount of shellfish established by (a) or (b) of this subsection shall be presumed to be the amount wrongfully taken unless the defendant shows by a preponderance of evidence that the shellfish were lawfully taken or that the defendant did not take the shellfish presumed to have been wrongfully taken. Whenever there is reason to believe that shellfish in the possession of any person were wrongfully taken, the department or the department of fish and wildlife may require the person to proceed to a designated off-load point and to weigh all shellfish in possession of the person or on board the person's vessel.

(5) This civil remedy is supplemental to the state’s power to prosecute any person for theft of shellfish, for other crimes where shellfish are involved, or for violation of rules of the department of fish and wildlife. [2005 c 155 § 714; 1994 c 264 § 73; 1990 c 163 § 9. Formerly RCW 79.96.130.]

79.135.040 Aquaculture products—Sale by leaseholder. Aquaculture products produced on leased state-owned aquatic land may be sold by the leaseholder as prescribed by the department without competitive bid or public auction and consistent with statutes governing aquaculture leases on state-owned aquatic land. [2005 c 113 § 1.]

Reviser’s note: This section was directed to be codified in chapter 79.96 RCW. However, chapter 79.96 RCW was recodified in its entirety by 2005 c 155.

LEASING FOR SHELLFISH CULTIVATION/ AQUACULTURE USE

79.135.100 Aquatic lands used for aquaculture production and harvesting—Rents and fees—Limitations on leases. (1) If state-owned aquatic lands are used for aquaculture production or harvesting, rents and fees shall be established through competitive bidding or negotiation.

(2) After an initial twenty-three acres are leased, the department is prohibited from offering leases that would permit the intertidal commercial aquaculture of geoducks on more than fifteen acres of state-owned aquatic lands a [per] year until December 1, 2014.

(3) Any intertidal leases entered into by the department for geoduck aquaculture must be conditioned in such a way that the department can engage in monitoring of the environmental impacts of the lease’s execution, without unreasonably diminishing the economic viability of the lease, and that the lease tracts are eligible to be made part of the studies conducted under RCW 28B.20.475.

(4) The department must notify all abutting landowners and any landowner within three hundred feet of the lands to be leased of the intent of the department to lease any intertidal lands for the purposes of geoduck aquaculture. [2007 c 216 § 3; 1984 c 221 § 10. Formerly RCW 79.90.495.]

79.135.110 Leasing beds of tidal waters for shellfish cultivation or other aquaculture use. (1) The beds of all navigable tidal waters in the state lying below extreme low tide, except as prohibited by Article XV, section 1 of the state Constitution shall be subject to lease for the purposes of planting and cultivating oyster beds, or for the purpose of cultivating clams or other edible shellfish, or for other aquaculture use, for periods not to exceed thirty years.

(2) Nothing in this section shall prevent any person from leasing more than one parcel, as offered by the department. [2005 c 155 § 701; 1993 c 295 § 1; 1982 1st ex.s. c 21 § 134. Formerly RCW 79.96.010.]

79.135.120 Leasing lands for shellfish cultivation or other aquaculture use—Who may lease—Application—Deposit. Any person desiring to lease tidelands or beds of navigable waters for the purpose of planting and cultivating oyster beds, or for the purpose of cultivating clams and other edible shellfish, shall file with the department, on a proper form, an application in writing signed by the applicant and accompanied by a map of the lands desired to be leased, describing the lands by metes and bounds tied to at least two United States government corners, and by the reference to local geography as shall suffice to convey a knowledge of the location of the lands with reasonable accuracy to persons acquainted with the vicinity, and accompanied by a deposit of ten dollars. The deposit shall be returned to the applicant in case a lease is not granted. [2005 c 155 § 702; 1982 1st ex.s. c 21 § 135. Formerly RCW 79.96.020.]
Leasing lands for shellfish cultivation or other aquaculture use—Inspection and report by director of fish and wildlife—Rental and term—Commercial harvest of subtidal hardshell clams by hydraulic escalating.

(1) The department, upon the receipt of an application for a lease for the purpose of planting and cultivating oyster beds or for the purpose of cultivating clams or other edible shellfish, shall notify the director of fish and wildlife of the filing of the application describing the tidelands or beds of navigable waters applied for. The director of fish and wildlife shall cause an examination of the lands applied for to be made and shall make a full report to the department of the director’s findings as to whether it is necessary, in order to protect existing natural oyster beds, and to secure adequate seeding of the lands, to retain the lands described in the application for lease or any part of the lands, and in the event the director deems it advisable to retain the lands or any part of the lands for the protection of existing natural oyster beds or to guarantee the continuance of an adequate seed stock for existing natural oyster beds, the lands shall not be subject to lease. However, if the director determines that the lands applied for or any part of the lands may be leased, the director shall so notify the department and the director shall cause an examination of the lands to be made to determine the presence, if any, of natural oysters, clams, or other edible shellfish on the lands, and to fix the rental value of the lands for use for oyster, clam, or other edible shellfish cultivation. In the report to the department, the director shall recommend a minimum rental for the lands and an estimation of the value of the oysters, clams, or other edible shellfish cultivation. The lands approved by the director for lease may then be leased to the applicant for a period of not less than five years nor more than ten years at a rental not less than the minimum rental recommended by the director of fish and wildlife. In addition, before entering upon possession of the land, the applicant shall pay the value of the oysters, clams, or other edible shellfish, if any, present on the lands as determined by the director, plus the expense incurred by the director in investigating the quantity of oysters, clams, or other edible shellfish, present on the land applied for.

(2) When issuing new leases or reissuing existing leases the department shall not permit the commercial harvest of subtidal hardshell clams by means of hydraulic escalating when the upland within five hundred feet of any lease tract is zoned for residential development. [2005 c 155 § 703; 1994 c 264 § 68; 1987 c 374 § 1; 1982 1st ex.s. c 21 § 136. Formerly RCW 79.96.030.]

Leasing lands for shellfish cultivation or other aquaculture use—Survey and boundary markers.

Before entering into possession of any leased tidelands or beds of navigable waters, the applicant shall have the lands surveyed by a registered land surveyor, and the applicant shall furnish to the department and to the director of fish and wildlife, a map of the leased premises signed and certified by the registered land surveyor. The lessee shall also mark the boundaries of the leased premises by piling monuments or other markers of a permanent nature as the director of fish and wildlife may direct. [2005 c 155 § 704; 1994 c 264 § 69; 1982 1st ex.s. c 21 § 137. Formerly RCW 79.96.040.]

Renewal lease—Application.

The department may, upon the filing of an application for a renewal lease, inspect the tidelands or beds of navigable waters, and if the department deems it in the best interests of the state to release the lands, the department shall issue to the applicant a renewal lease for a further period not exceeding thirty years and under the terms and conditions as may be determined by the department. However, in the case of an application for a renewal lease it shall not be necessary for the lands to be inspected and reported upon by the director of fish and wildlife. [2005 c 155 § 705; 1994 c 264 § 70; 1993 c 295 § 2; 1982 1st ex.s. c 21 § 138. Formerly RCW 79.96.050.]

Leasing lands for shellfish cultivation or other aquaculture use—Reversion for use other than cultivation of shellfish.

All leases of tidelands and beds of navigable waters for the purpose of planting and cultivating oysters, clams, or other edible shellfish shall expressly provide that if at any time after the granting of the lease, the described lands shall cease to be used for the purpose of oyster beds, clam beds, or other edible shellfish beds, they shall revert to and become the property of the state and that the lands are leased only for the purpose of cultivating oysters, clams, or other edible shellfish thereon, and that the state reserves the right to enter upon and take possession of the lands if at any time the lands are used for any other purpose than the cultivation of oysters, clams, or other edible shellfish. [2005 c 155 § 706; 1982 1st ex.s. c 21 § 139. Formerly RCW 79.96.060.]

Leasing lands for shellfish cultivation or other aquaculture use—Abandonment—Application for other lands.

If from any cause any lands leased for the purpose of planting and cultivating oysters, clams, or other edible shellfish become unfit and valueless for any such purposes, the lessee or the lessee’s assigns, upon certifying the fact under oath to the department, together with the fact that the lessee has abandoned the land, shall be entitled to make application for other lands for such purposes. Geoduck Harvest/Cultivation.

Geoduck harvest/cultivation—Survey of navigable waters by private party—Record of survey.

Beds of navigable waters held under contract or deed from the state of Washington upon which a private party is harvesting or cultivating geoduck shall be surveyed by the private party and a record of survey filed in compliance with chapter 58.09 RCW prior to harvest. Property corners will be placed in sufficient quantity and location to aid in relocation of the oyster tract lines occurring or extending below extreme low tide. Buoys on anchors must be placed intervisibly along and at angle points on any ownership boundaries that extend below extreme low tide, for the harvest term. The survey of privately owned beds of navigable waters will be established on the Washington coordinate system in compliance with chapter 58.20 RCW and property corners labeled with their coordinates on the record of survey. [2002 c 123 § 3. Formerly RCW 79.96.140.]

Findings—2002 c 123: See note following RCW 79.135.010.
79.135.210 Geoduck harvesting—Agreements, regulation. (1) Except as provided in RCW 79.135.040, geoducks shall be sold as valuable materials under the provisions of *chapter 79.90 RCW. After confirmation of the sale, the department may enter into an agreement with the purchaser for the harvesting of geoducks. The department may place terms and conditions in the harvesting agreements as the department deems necessary. The department may enforce the provisions of any harvesting agreement by suspending or canceling the harvesting agreement or through any other means contained in the harvesting agreement. Any geoduck harvester may terminate a harvesting agreement entered into pursuant to this subsection if actions of a governmental agency, beyond the control of the harvester, its agents, or its employees, prohibit harvesting, for a period exceeding thirty days during the term of the harvesting agreement, except as provided within the agreement. Upon termination of the agreement by the harvester, the harvester shall be reimbursed by the department for the cost paid to the department on the agreement, less the value of the harvest already accomplished by the harvester under the agreement.

(2) Harvesting agreements under this title for the purpose of harvesting geoducks shall require the harvester and the harvester’s agent or representatives to comply with all applicable commercial diving safety standards and regulations promulgated and implemented by the federal occupational safety and health administration established under the federal occupational safety and health act of 1970 as the law exists or as amended (84 Stat. 1590 et seq.; 29 U.S.C. Sec. 651 et seq.). However, for the purposes of this section and RCW 77.60.070, all persons who dive for geoducks are deemed to be employees as defined by the federal occupational safety and health act. All harvesting agreements shall provide that failure to comply with these standards is cause for suspension or cancellation of the harvesting agreement. Further, for the purposes of this subsection if the harvester contracts with another person or entity for the harvesting of geoducks, the harvesting agreement shall not be suspended or canceled if the harvester terminates its business relationship with such an entity until compliance with this subsection is secured. 79.135.220 Geoduck harvesting—Designation of aquatic lands. The department shall designate the areas of state-owned aquatic lands that are available for geoduck harvesting by licensed geoduck harvesters in accordance with *chapter 79.90 RCW. [2005 c 155 § 709; 1990 c 163 § 5; 1983 1st ex.s. c 46 § 129; 1979 ex.s. c 141 § 5. Formerly RCW 79.96.085, 75.28.286.]

The department may enter into agreements with the department of fish and wildlife for the development of an intensive management plan for geoducks including the development and operation of a geoduck hatchery. OYSTER RESERVES

79.135.300 Lease of tidelands set aside as oyster reserves. The department is authorized to lease first or second-class tidelands which have been or that are set aside as state oyster reserves in the same manner as provided elsewhere in this chapter for the lease of those lands. [2005 c 155 § 710; 1982 1st ex.s. c 21 § 142. Formerly RCW 79.96.090.]

79.135.310 Inspection by director of fish and wildlife. The department, upon the receipt of an application for the lease of any first or second-class state-owned tidelands that are set aside as state oyster reserves, shall notify the director of fish and wildlife of the filing of the application describing the lands applied for. It is the duty of the director of fish and wildlife to inspect the reserve for the purpose of determining whether the reserve or any part of the reserve should be retained as a state oyster reserve or vacated. [2005 c 155 § 711; 1994 c 264 § 71; 1982 1st ex.s. c 21 § 143. Formerly RCW 79.96.100.]

79.135.320 Vacation of reserve—Lease of lands—Designated state oyster reserve lands. (1) In the event that the fish and wildlife commission approves the vacation of the whole or any part of a reserve, the department may vacate and offer for lease the parts or all of the reserve as it deems to be for the best interest of the state, and all moneys received for the lease of the lands shall be paid to the department.

(2) Notwithstanding RCW 77.60.020, subsection (1) of this section, or any other provision of state law, the state oyster reserves in Eld Inlet, Hammersley Inlet, or Totten Inlet, situated in Mason or Thurston counties shall permanently be designated as state oyster reserve lands. MARINE AQUATIC PLANTS

79.135.400 Seaweed—Marine aquatic plants defined. Unless the context clearly requires otherwise, the definition in this section applies throughout this chapter.

"Marine aquatic plants" means saltwater marine plant species that are dependent upon the marine aquatic or tidal environment, and exist in either an attached or free-floating state. Marine aquatic plants include but are not limited to seaweed of the classes Chlorophyta, Phaeophyta, and Rhodophyta. [1993 c 283 § 2. Formerly RCW 79.96.200, 79.01.800.]

Findings—1993 c 283: "The legislature finds that the plant resources of marine aquatic ecosystems have inherent value and provide essential habitat. These resources are also becoming increasingly valuable as economic commodities and may be declining. The legislature further finds that the regulation of harvest of these resources is currently inadequate to afford necessary protection." [1993 c 283 § 1.]

(2008 Ed.)
Sec 79.135.10 Seaweed—Personal use limit—Commercial harvesting prohibited—Exception—Import restriction. (1) The maximum daily weight harvest or possession of seaweed for personal use from all state-owned aquatic lands and all privately owned tidelands is ten pounds per person. The department in cooperation with the department of fish and wildlife may establish seaweed harvest limits of less than ten pounds for conservation purposes. This section shall in no way affect the ability of any state agency to prevent harvest of any species of marine aquatic plant from lands under its control, ownership, or management.

(2) Except as provided under subsection (3) of this section, commercial harvesting of seaweed from state-owned aquatic lands, and all privately owned tidelands is prohibited. This subsection shall in no way affect commercial seaweed aquaculture.

(3) Upon mutual approval by the department and the department of fish and wildlife, seaweed species of the genus Macrocystis may be commercially harvested for use in the herring spawn-on-kelp fishery.

(4) Importation of seaweed species of the genus Macrocystis into Washington state for the herring spawn-on-kelp fishery is subject to the fish and shellfish disease control policies of the department of fish and wildlife. Macrocystis shall not be imported from areas with fish or shellfish diseases associated with organisms that are likely to be transported with Macrocystis. The department shall incorporate this policy on Macrocystis importation into its overall fish and shellfish disease control policies.

Sections
79.140.001  Intent—2005 c 155.

(2008 Ed.)

79.140.010 Manner of sale—Notice. (1) When the department decides to sell any valuable materials situated within or upon any state-owned aquatic lands, it is the duty of the department to fix the date, place, and time of sale, and no sale shall be had on any day that is a legal holiday.

(2) The department shall give notice of the sale by advertisement published once a week for four consecutive weeks immediately preceding the date fixed for sale in the notice, in at least one newspaper published and of general circulation in the county in which the whole or any part of any lot, block, or tract of land containing the valuable material to be sold is situated, and by causing a copy of the notice to be posted in a conspicuous place in the department’s Olympia office and the region headquarters administering the sale.

(3) The notice shall: (a) Specify the place and time of sale; (b) estimate the volume of valuable materials; (c) state the appraised value; (d) describe with particularity each parcel of land from which valuable materials are to be sold; and (e) specify that the terms of sale will be posted in the area headquarters and the department’s Olympia office. [2005 c 155 § 801. FORMERLY PART OF RCW 79.90.170.]

79.140.020 List of valuable materials. The department shall print a list of valuable materials contained within or upon state-owned aquatic lands, giving appraised value, character of the land, and such other information as may be of interest to prospective buyers. The lists must be issued at least four weeks prior to the date of any sale. The department shall retain for free distribution in its office in Olympia and the regional offices sufficient copies of the lists, to be kept in a conspicuous place or receptacle on the counter of the general and regional office of the department, and, when requested, shall mail copies of the list as issued to any applicant. [2005 c 155 § 802. FORMERLY PART OF RCW 79.90.180.]

79.140.040 Reoffer of sale—Readvertised. Any sale that has been offered, and for which there are no bids received, shall not be reoffered until it has been readvertised as specified in RCW 79.140.010 through 79.140.030. If all sales cannot be offered within the specified time on the advertised date, the sale shall continue on the following day between the hours of ten o’clock a.m. and four o’clock p.m. [2005 c 155 § 804. FORMERLY PART OF RCW 79.90.200.]

79.140.050 Sale by public auction/sealed bid—Exception. All sales of valuable materials shall be at public auction or by sealed bid to the highest responsible bidder, on the terms prescribed by law and as specified in the notice provided, and no land or materials shall be sold for less than their appraised value. However:

(1) When valuable material has been appraised at an amount not exceeding one hundred thousand dollars, the department, when authorized by the board, may arrange for the sale at public auction of said valuable material and for its removal under such terms and conditions as the department may prescribe, after the department shall have caused to be published not less than ten days prior to sale a notice of such sale in a newspaper of general circulation located nearest to the property to be sold;

(2) Any sale of valuable material on state-owned aquatic lands of an appraised value of ten thousand dollars or less may be sold directly to the applicant for cash without notice or advertising. [2005 c 155 § 805. FORMERLY PART OF RCW 79.90.210.]

Sales of aquaculture products by a leaseholder: RCW 79.135.040.

79.140.060 Determination of highest responsible bidder. (1) To determine the "highest responsible bidder" under RCW 79.140.050, the department shall be entitled to consider, in addition to price, the following:

(a) The financial and technical ability of the bidder to perform the contract;

(b) Whether the bid contains material defects;

(c) Whether the bidder has previously or is currently complying with terms and conditions of any other contracts with the state or relevant contracts with entities other than the state;

(d) Whether the bidder was the "highest responsible bidder" for a sale within the previous five years but failed to complete the sale, such as by not entering into a resulting contract or by not paying the difference between the deposit and the total amount due. However, sales that were bid prior
79.140.080 Confirmation of sale.  (1) A sale of valuable materials shall be confirmed if:

(a) No affidavit showing that the interest of the state in such a sale was injuriously affected by fraud or collusion, is filed with the department’s Olympia office within ten days from the receipt of the report of the auctioneer conducting the sale;

(b) It appears from the report that the sale was fairly conducted, that the purchaser was the highest responsible bidder at the sale, and that the sale price is not less than the appraised value of the property sold;

(c) The department is satisfied that the material sold would not, upon being readvertised and offered for sale, sell for a substantially higher price; and

(d) The payment required by law to be made at the time of making the sale has been made, and that the best interests of the state are being served.

(2) Upon confirming a sale, the department shall enter upon its records the confirmation of sale and issue to the purchaser a contract of sale or bill of sale as the case may be, as is provided for in this chapter.  [2005 c 155 § 808.  FORMERLY PART OF RCW 79.90.240.]

SPECIAL PROVISIONS AND LEASES

79.140.100 Valuable materials from Columbia river—Agreements with Oregon.  The department is authorized and empowered to confer with and enter into any agreements with the public authorities of the state of Oregon, which in the judgment of the department will assist the state of Washington and the state of Oregon in securing the maximum revenues for sand, gravel, or other valuable materials taken from the bed of the Columbia river where the river forms the boundary line between the states.  [2005 c 155 § 109; 1991 c 322 § 24; 1982 1st ex.s. c 21 § 19.  Formerly RCW 79.90.130.]

79.140.110 Material removed for channel or harbor improvement or flood control—Use for public purpose.  When gravel, rock, sand, silt, or other material from any state-owned aquatic lands is removed by any public agency or under public contract for channel or harbor improvement, or flood control, use of the material may be authorized by the department for a public purpose on land owned or leased by the state or any municipality, county, or public corporation.  However, when no public land site is available for deposit of the material, its deposit on private land with the landowner’s permission is authorized and may be designated by the department to be for a public purpose.  Prior to removal and use, the state agency, municipality, county, or public corporation contemplating or arranging the use shall first obtain written permission from the department.  No payment of royalty shall be required for the gravel, rock, sand, silt, or other material used for the public purpose, but a charge will be made if the material is subsequently sold or used for some other purpose.  Further, the department may authorize the public agency or private landowner to dispose of the material without charge when necessary to implement disposal of material.  No charge shall be required for any use of the material obtained under the provisions of this chapter when used to January 1, 2003, may not be considered for the purposes of this subsection (1)(d);

(e) Whether the bidder has been convicted of a crime relating to the public lands or natural resources of the state of Washington, the United States, or any other state, tribe, or country, where "conviction" includes a guilty plea, or unvacated forfeiture of bail;

(f) Whether the bidder is owned, controlled, or managed by any person, partnership, or corporation that is not responsible under this statute; and

(g) Whether the subcontractors of the bidder, if any, are responsible under this statute.

(2) Whenever the department has reason to believe that the apparent high bidder is not a responsible bidder, the department may award the sale to the next responsible bidder or the department may reject all bids pursuant to RCW 79.140.080.  [2005 c 155 § 806.  FORMERLY PART OF RCW 79.90.215.]

79.140.070 Sales by public auction—Procedure.  (1) Sales by public auction under this chapter shall be conducted under the direction of the department, by its authorized representative.  The department’s representatives are referred to as auctioneers.

(2) On or before the time specified in the notice of sale each bidder shall deposit with the auctioneer, in cash or by certified check, cashier’s check, or postal money order payable to the order of the department, or by bid guarantee in the form of bid bond acceptable to the department, an amount equal to the deposit specified in the notice of sale.  The deposit shall include a specified amount of the appraised price for the valuable materials offered for sale, together with any fee required by law for the issuance of contracts or bills of sale.  The deposit may, when prescribed in the notice of sale, be considered an opening bid of an amount not less than the minimum appraised price established in the notice of sale.  The successful bidder’s deposit will be retained by the auctioneer and the difference, if any, between the deposit and the total amount due shall on the day of the sale be paid in cash, certified check, cashier’s check, draft, postal money order, or by personal check made payable to the department.  If a bid bond is used, the share of the total deposit due guaranteed by the bid bond shall, within ten days of the day of sale, be paid in cash, certified check, cashier’s check, draft, or postal money order payable to the department.  Other deposits, if any, shall be returned to the respective bidders at the conclusion of each sale.

(3) The auctioneer shall deliver to the purchaser a memorandum of purchase containing a description of the materials purchased, the price bid, and the terms of the sale.

(4) The auctioneer shall at once send to the department the cash, certified check, cashier’s check, draft, postal money order, or bid guarantee received from the purchaser, and a copy of the memorandum delivered to the purchaser, together with such additional report of the auctioneer’s proceedings with reference to the sales as may be required by the department.  [2005 c 155 § 807.  FORMERLY PART OF RCW 79.90.220.]
solely on an authorized site. No charge shall be required for any use of the material obtained under the provisions of this chapter if the material is used for public purposes by local governments. Public purposes include, but are not limited to, construction and maintenance of roads, dikes, and levees. Nothing in this section shall repeal or modify the provisions of *RCW 77.55.100 or eliminate the necessity of obtaining a permit for the removal from other state or federal agencies as otherwise required by law. [2005 c 155 § 41; 1991 c 337 § 1; 1982 1st ex.s. c 21 § 21. Formerly RCW 79.90.150.]

*Reviser’s note: RCW 77.55.100 was repealed by 2005 c 146 § 1006. For later enactment, see RCW 77.55.021.

79.140.120 Mt. St. Helen’s eruption—Dredge spoils—Sale by certain landowners. (1) The legislature finds and declares that, due to the extraordinary volume of material washed down onto beds of navigable waters and shorelands in the Toutle river, Coweeman river, and portions of the Cowlitz river, the dredge spoils placed upon adjacent publicly and privately owned property in the areas, if further disposed, will be of nominal value to the state and that it is in the best interests of the state to allow further disposal without charge.

(2) All dredge spoil or materials removed from the state-owned beds and shores of the Toutle river, Coweeman river, and that portion of the Cowlitz river from two miles above the confluence of the Toutle river to its mouth deposited on adjacent public and private lands during the years 1980 through December 31, 1995, as a result of dredging of these rivers for navigation and flood control purposes may be sold, transferred, or otherwise disposed of by owners of the lands without the necessity of any charge by the department and free and clear of any interest of the department of the state of Washington. Severability—1999 c 249: See note following RCW 79A.05.010.

Findings—Intent—1995 c 211: "The legislature finds that during the past fourteen years, the Washington state parks and recreation commission has endured a steady erosion of general fund operating support, which has caused park closures, staff reductions, and growing backlog of deferred maintenance projects. The legislature also finds that the growth of parks revenue has been constrained by staff limitations and by transfers of that revenue into the general fund. The legislature intends to reverse the decline in operating support to its state parks, stabilize the system’s level of general fund support, and inspire system employees and park visitors to enhance these irreplaceable resources and ensure their continuing availability to current and future state citizens and visitors. To achieve these goals, the legislature intends to dedicate park revenues to park operations, developing and renovating park facilities, undertaking deferred maintenance, and improving park stewardship. The legislature clearly intends that such revenues shall complement, not supplant, future general fund support." [1995 c 211 § 1.]

Effective date—1995 c 211: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect July 1, 1995." [1995 c 211 § 8.]

Severability—1995 c 211: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1995 c 211 § 9.]

79A.05.075 Delegation of commission’s powers and duties to director. No provision of law relating to the commission shall prevent the commission from delegating to the director such powers and duties of the commission as they may deem proper. Construction—1953 c 39: "The authority conferred by this act is in addition to the powers and authority now conferred upon the state parks and recreation commission, and this act shall not be construed to repeal or limit, by implication or otherwise, any authority or power now conferred by law upon the state parks and recreation commission." [1953 c 39 § 3.]

79A.05.105 Withdrawal of granted lands on public highways. Inasmuch as the value of land with standing timber is increasing and will continue to increase from year to year and no loss will be caused to the common school fund or other fund into which the proceeds of the sale of any land held by the state would be paid by postponing the sale thereof, the commissioner of public lands may, upon his own motion, and shall, when directed so to do by the state parks and recreation commission, withdraw from sale any land held by the state abutting on any public highway and certify to the commission that such land is withheld from sale pursuant to the terms of this section.

SEASHORE CONSERVATION AREA

79A.05.600 Declaration of principles. The beaches bounding the Pacific Ocean from the Straits of Juan de Fuca to Cape Disappointment at the mouth of the Columbia River constitute some of the last unspoiled seashore remaining in the United States. They provide the public with almost unlimited opportunities for recreational activities, like swimming, surfing and hiking; for outdoor sports, like hunting, fishing, clamming, and boating; for the observation of nature as it existed for hundreds of years before the arrival of white men; and for relaxation away from the pressures and tensions of modern life. In past years, these recreational activities have been enjoyed by countless Washington citizens, as well as by tourists from other states and countries. The number of people wishing to participate in such recreational activities grows annually. This increasing public pressure makes it necessary that the state dedicate the use of the ocean beaches to public recreation and to provide certain recreational and sanitary facilities. Nonrecreational use of the beach must be strictly limited. Even recreational uses must be regulated in order that Washington’s unrivaled seashore may be saved for our children in much the same form as we know it today. [1967 c 120 § 1. Formerly RCW 43.51.650.]

Repeal and savings—1967 c 120: “Chapter 78, Laws of 1929 (uncodified) is hereby repealed: PROVIDED, That the title of anyone who has purchased property under this act shall not be affected.” [1967 c 120 § 10.]

79A.05.605 Seashore conservation area—Established. There is established for the recreational use and enjoyment of the public the Washington State Seashore Conservation Area. It shall include all lands now or hereafter under state ownership or control lying between Cape Disappointment and Leadbetter Point; between Toke Point and the South jetty on Point Chehalis; and between Damon Point and the Makah Indian Reservation and occupying the area between the line of ordinary high tide and the line of extreme low tide, as these lines now are or may hereafter be located, and, where applicable, between the Seashore Conservation Line, as established by survey of the Washington state parks and recreation commission and the line of extreme low tide, as these lines now are or may hereafter be located; and shall also include all state-owned nontrust accreted lands along the ocean: PROVIDED, That no such conservation area shall include any lands within the established boundaries of any Indian reservation. [1969 ex.s. c 55 § 1; 1967 c 120 § 2. Formerly RCW 43.51.655.]

Construction—1969 ex.s. c 55: “No provision of this 1969 amendatory act shall be construed as affecting any private or public property rights.” [1969 ex.s. c 55 § 8.]

79A.05.610 Jurisdiction over and administration of area. Except as otherwise provided in RCW 79A.05.600 through 79A.05.630, the Washington State Seashore Conservation Area shall be under the jurisdiction of the Washington state parks and recreation commission, which shall administer RCW 79A.05.600 through 79A.05.630 in accordance with the powers granted it herein and under the appropriate provisions of this chapter. The Washington state parks and recreation commission shall administer the Washington State Seashore Conservation Area in harmony with the broad principles set forth in RCW 79A.05.600. Where feasible, the area shall be preserved in its present state; everywhere it shall be maintained in the best possible condition for public use. All forms of public outdoor recreation shall be permitted and encouraged in the area, unless specifically excluded or limited by the commission. While the primary purpose in the establishment of the area is to preserve the coastal beaches for public recreation, other uses shall be allowed as provided in RCW 79A.05.600 through 79A.05.630, or when found not inconsistent with public recreational use by the Washington state parks and recreation commission. [2000 c 11 § 47; 1969 ex.s. c 55 § 3; 1967 c 120 § 4. Formerly RCW 43.51.665.]
79A.05.620 Cooperation and assistance of federal, state, and local agencies. In administering the Washington State Seashore Conservation Area, the Washington state parks and recreation commission shall seek the cooperation and assistance of federal agencies, other state agencies, and local political subdivisions. Except as otherwise provided in RCW 79A.05.600 through 79A.05.630, and notwithstanding any other provision of law, other state agencies and local subdivisions shall perform duties in the Washington State Seashore Conservation Area which are within their normal jurisdiction, except when such performance clearly conflicts with the purposes of RCW 79A.05.600 through 79A.05.630. [2000 c 11 § 48; 1969 ex.s. c 55 § 4; 1967 c 120 § 5. Formerly RCW 43.51.670.]

Nor shall anything in RCW 79A.05.600 through 79A.05.630 and 79A.05.635 through 79A.05.695 be construed to interfere with the powers, duties and authority of the department of fish and wildlife to regulate, manage, conserve, and provide for the harvest of wildlife within such area: PROVIDED, HOWEVER, That no hunting shall be permitted in any state park. [2000 c 11 § 49; 1994 c 264 § 22; 1988 c 75 § 17; 1987 c 506 § 92; 1983 c 3 § 109; 1969 ex.s. c 55 § 5; 1967 c 120 § 6. Formerly RCW 43.51.675.]

GREEN RIVER GORGE CONSERVATION AREA

79A.05.700 Declaration. The Green River Gorge, between the town of Kanasket and the Kummer bridge in King county, is a twelve mile spectacularly windsing gorge with steep to overhanging rock walls reaching heights of from one hundred fifty to three hundred feet. The beauty and natural features of the gorge are generally confined within the canyon rim. This twelve mile gorge area contains many examples of unique biological and geological features for educational and recreational interpretation, almost two miles of Eocene sediment rocks and fossils are exposed revealing one of the most complete stratigraphic sections to be found in the region. The area, a unique recreational attraction with more than one million seven hundred thousand people living within an hour’s driving time, is presently used by hikers, geologists, fishermen, kayakers and canoeists, picnickers and swimmers, and those seeking the solitude offered by this unique area. Abutting and adjacent landowners generally have kept the gorge lands in their natural state; however, economic and urbanization pressures for development are rapidly increasing. Local and state outdoor recreation plans show a regional need for resources and facilities which could be developed in this area. A twelve mile strip incorporating the visual basins of the Green River from the Kummer bridge to Palmer needs to be acquired and developed as a conservation area to preserve this unique area for the recreational needs of the region. [1969 ex.s. c 162 § 1. Formerly RCW 43.51.900.]

79A.05.705 Green River Gorge conservation area created. There is hereby created a Washington state parks and recreation commission conservation area to be known as "Green River Gorge conservation area". [1969 ex.s. c 162 § 2. Formerly RCW 43.51.910.]

79A.05.710 Acquisition of real property, easements, or rights authorized. In addition to all other powers and duties prescribed by law, the state parks and recreation commission is authorized and directed to acquire such real property, easements, or rights in the Green River Gorge in King county, together with such real property, easements, and rights as is necessary for such park and conservation purposes in any manner authorized by law for the acquisition of lands for parks and parkway purposes. Except for such real property as is necessary and convenient for development of picnicking or camping areas and their related facilities, it is the intent of this section that such property shall be acquired to preserve, as much as possible, the gorge within the canyon rim in its natural pristine state. [1969 ex.s. c 162 § 3. Formerly RCW 43.51.920.]

79A.05.715 Acquisition of real property, easements, or rights authorized—Rights of other state agencies not to be infringed upon. Nothing herein shall be construed as authorizing or directing the state parks and recreation commission to acquire any real property, easements, or rights in the Green River Gorge in King county which are now held by any state agency for the purposes of outdoor recreation, conservation, fish, or wildlife management or public hunting or fishing without the approval of such agency. [1969 ex.s. c 162 § 4. Formerly RCW 43.51.930.]

MOUNT SI CONSERVATION AREA

79A.05.725 Legislative declaration. Mt. Si and Little Si in King county offer unique scenic, natural, and geological features which can be viewed from the I-90 highway. They also afford outstanding recreational opportunities enjoyed by the citizens of this state and tourists alike. The legislature recognizes the importance of guiding portions of this area from those types of development which would permanently alter the area’s natural form and beauty. It further recognizes the necessity of setting forth procedures to manage the area, to enhance the opportunities afforded the state’s citizens, one-half of whom live within one-half hour driving time of Mt. Si, and to safeguard to the extent possible the scenic, natural, geological, game habitat, and recreational values therein, and to safeguard and promote the upper Snoqualmie River val-

79A.15.005 Findings. The legislature finds:

1. That Washington possesses an abundance of natural wealth in the form of forests, mountains, wildlife, waters, and other natural resources, all of which help to provide an unparalleled diversity of outdoor recreation opportunities and a quality of life unmatched in this nation;
2. That as the state’s population grows, the demand on these resources is growing too, placing greater stress on today’s already overcrowded public recreational lands and facilities, and resulting in a significant loss of wildlife habitat and lands of unique natural value;
3. That public acquisition and development programs have not kept pace with the state’s expanding population;
4. That private investment and employment opportunities in general and the tourist industry in particular are dependent upon the continued availability of recreational opportunities and our state’s unique natural environment;
5. That if current trends continue, some wildlife species and rare ecosystems will be lost in the state forever and public recreational lands will not be adequate to meet public demands;
6. That there is accordingly a need for the people of the state to reserve certain areas of the state, in rural as well as urban settings, for the benefit of present and future generations.

It is therefore the policy of the state to acquire as soon as possible the most significant lands for wildlife conservation and outdoor recreation purposes before they are converted to other uses, and to develop existing public recreational land and facilities to meet the needs of present and future generations. [1990 1st ex.s. c 14 § 1. Formerly RCW 43.98A.005.]

   (i) Population of, and distance from, the nearest urban area;
   (ii) Proximity to other wildlife habitat;
   (iii) Potential for public use; and
(iv) Potential for use by special needs populations.

(7) Before November 1st of each even-numbered year, the board shall recommend to the governor a prioritized list of all state agency and local projects to be funded under RCW 79A.15.040(1) (a), (b), and (c). The governor may remove projects from the list recommended by the board and shall submit this amended list in the capital budget request to the legislature. The list shall include, but not be limited to, a description of each project and any particular match requirement, and describe for each project any anticipated restrictions upon recreational activities allowed prior to the project.

79A.15.065 Grants through habitat conservation account—Statement of environmental benefits—Development of outcome-focused performance measures. In providing grants through the habitat conservation account, the board shall require grant applicants to incorporate the environmental benefits of the project into their grant applications, and the board shall utilize the statement of environmental benefits in the grant application and review process. The board shall also develop appropriate outcome-focused performance measures to be used both for management and performance assessment of the grant program. To the extent possible, the board should coordinate its performance measure system with other natural resource-related agencies as defined in RCW 43.41.270. The board shall not sign contracts or otherwise financially obligate funds from the habitat conservation account, the outdoor recreation account, the riparian protection account, or the farmlands preservation account as provided in this chapter before the legislature has appropriated funds for a specific list of projects. The legislature may remove projects from the list recommended by the governor. [2007 c 241 § 34; 2005 c 303 § 10; 1990 1st ex.s. c 14 § 9. Formerly RCW 43.98A.080.]
79A.15.090 Condemnation. Moneys made available under this chapter for land acquisition shall not be used to acquire land through condemnation. [1990 1st ex.s. c 14 § 10. Formerly RCW 43.98A.090.]

79A.15.100 Report to governor and standing committees. On or before November 1st of each odd-numbered year, the board shall submit to the governor and the standing committees of the legislature dealing with fiscal affairs, fish and wildlife, and natural resources a report detailing the acquisitions and development projects funded under this chapter during the immediately preceding biennium. [2007 c 241 § 35; 1990 1st ex.s. c 14 § 11. Formerly RCW 43.98A.100.]

Intent—Effective date—2007 c 241: See notes following RCW 79A.25.005.

79A.15.110 Review of proposed project application. A state or local agency shall review the proposed project application with the county or city with jurisdiction over the project area prior to applying for funds for the acquisition of property under this chapter. The appropriate county or city legislative authority may, at its discretion, submit a letter to the board identifying the authority’s position with regard to the acquisition project. The board shall make the letters received under this section available to the governor and the legislature when the prioritized project list is submitted under RCW 79A.15.120, 79A.15.060, and 79A.15.070. [2007 c 241 § 36; 2005 c 303 § 5.]

Intent—Effective date—2007 c 241: See notes following RCW 79A.25.005.

Effective date—2005 c 303 §§ 1-14: See note following RCW 79A.15.010.

79A.15.120 Riparian protection account—Use of funds. (1) The riparian protection account is established in the state treasury. The board must administer the account in accordance with chapter 79A.25 RCW and this chapter, and hold it separate and apart from all other money, funds, and accounts of the board.

(2) Moneys appropriated for this chapter to the riparian protection account must be distributed for the acquisition or enhancement or restoration of riparian habitat. All enhancement or restoration projects, except those qualifying under subsection (10)(a) of this section, must include the acquisition of a real property interest in order to be eligible.

(3) State and local agencies and lead entities under chapter 77.85 RCW may apply for acquisition and enhancement or restoration funds for riparian habitat projects under subsection (1) of this section. Other state agencies not defined in RCW 79A.15.010, such as the department of transportation and the department of corrections, may enter into interagency agreements with state agencies to apply in partnership for funds under this section.

(4) The board may adopt rules establishing acquisition policies and priorities for distributions from the riparian protection account.

(5) Except as provided in RCW 79A.15.030(7), moneys appropriated for this section may not be used by the board to fund staff positions or other overhead expenses, or by a state, regional, or local agency to fund operation or maintenance of areas acquired under this chapter.

(6) Moneys appropriated for this section may be used by grant recipients for costs incidental to restoration and acquisition, including, but not limited to, surveying expenses, fencing, and signing.

(7) Moneys appropriated for this section may be used to fund mitigation banking projects involving the restoration, creation, enhancement, or preservation of riparian habitat, provided that the parties seeking to use the mitigation bank meet the matching requirements of subsection (8) of this section. The moneys from this section may not be used to supplant an obligation of a state or local agency to provide mitigation. For the purposes of this section, a mitigation bank means a site or sites where riparian habitat is restored, created, enhanced, or in exceptional circumstances, preserved expressly for the purpose of providing compensatory mitigation in advance of authorized project impacts to similar resources.

(8) The board may not approve a local project where the local agency share is less than the amount to be awarded from the riparian protection account. In-kind contributions, including contributions of a real property interest in land may be used to satisfy the local agency’s share.

(9) State agencies receiving grants for acquisition of land under this section must pay an amount in lieu of real property taxes equal to the amount of tax that would be due if the land were taxable as open space land under chapter 84.34 RCW except taxes levied for any state purpose, plus an additional amount for control of noxious weeds equal to that which would be paid if such lands were privately owned. The county assessor and county legislative authority shall assist in determining the appropriate calculation of the amount of tax that would be due.

(10) In determining acquisition priorities with respect to the riparian protection account, the board must consider, at a minimum, the following criteria:

(a) Whether the project continues the conservation reserve enhancement program. Applications that extend the duration of leases of riparian areas that are currently enrolled in the conservation reserve enhancement program shall be eligible. Such applications are eligible for a conservation lease extension of at least twenty-five years of duration;

(b) Whether the projects are identified or recommended in a watershed planning process under chapter 247, Laws of 1998, salmon recovery planning under chapter 77.85 RCW, or other local plans, such as habitat conservation plans, and these must be highly considered in the process;

(c) Whether there is community support for the project;

(d) Whether the proposal includes an ongoing stewardship program that includes control of noxious weeds, detrimental invasive species, and that identifies the source of the funds from which the stewardship program will be funded;

(e) Whether there is an immediate threat to the site;
(f) Whether the quality of the habitat is improved or, for projects including restoration or enhancement, the potential for restoring quality habitat including linkage of the site to other high quality habitat;

(g) Whether the project is consistent with a local land use plan, or a regional or statewide recreational or resource plan. The projects that assist in the implementation of local shoreline master plans updated according to RCW 90.58.080 or local comprehensive plans updated according to RCW 36.70A.130 must be highly considered in the process;

(h) Whether the site has educational or scientific value; and

(i) Whether the site has passive recreational values for walking trails, wildlife viewing, or the observation of natural settings.

(11) Before November 1st of each even-numbered year, the board will recommend to the governor a prioritized list of projects to be funded under this section. The governor may remove projects from the list recommended by the board and will submit this amended list in the capital budget request to the legislature. The list must include, but not be limited to, a description of each project and any particular match requirements.

Intent—Effective date—2007 c 241: See notes following RCW 79A.25.005.

Effective date—2005 c 303 §§ 1-14: See note following RCW 79A.15.010.

79A.15.130 Farmlands preservation account—Use of funds. (1) The farmlands preservation account is established in the state treasury. The board will administer the account in accordance with chapter 79A.25 RCW and this chapter, and hold it separate and apart from all other money, funds, and accounts of the board. Moneys appropriated for this chapter to the farmlands preservation account must be distributed for the acquisition and preservation of farmlands in order to maintain the opportunity for agricultural activity upon these lands.

(2)(a) Moneys appropriated for this chapter to the farmlands preservation account may be distributed for (i) the fee simple or less than fee simple acquisition of farmlands; (ii) the enhancement or restoration of ecological functions on those properties; or (iii) both. In order for a farmland preservation grant to provide for an environmental enhancement or restoration project, the project must include the acquisition of a real property interest.

(b) If a city or county acquires a property through this program in fee simple, the city or county shall endeavor to secure preservation of the property through placing a conservation easement, or other form of deed restriction, on the property which deducts the land to agricultural use and retains one or more property rights in perpetuity. Once an easement or other form of deed restriction is placed on the property, the city or county shall seek to sell the property, at fair market value, to a person or persons who will maintain the property in agricultural production. Any moneys from the sale of the property shall either be used to purchase interests in additional properties which meet the criteria in subsection (9) of this section, or to repay the grant from the state which was originally used to purchase the property.

(3) Cities and counties may apply for acquisition and enhancement or restoration funds for farmland preservation projects within their jurisdictions under subsection (1) of this section.

(4) The board may adopt rules establishing acquisition and enhancement or restoration policies and priorities for distributions from the farmlands preservation account.

(5) The acquisition of a property right in a project under this section by a county or city does not provide a right of access to the property by the public unless explicitly provided for in a conservation easement or other form of deed restriction.

(6) Except as provided in RCW 79A.15.030(7), moneys appropriated for this section may not be used by the board to fund staff positions or other overhead expenses, or by a city or county to fund operation or maintenance of areas acquired under this chapter.

(7) Moneys appropriated for this section may be used by grant recipients for costs incidental to restoration and acquisition, including, but not limited to, surveying expenses, fencing, and signing.

(8) The board may not approve a local project where the local agency’s share is less than the amount to be awarded from the farmlands preservation account. In-kind contributions, including contributions of a real property interest in land, may be used to satisfy the local agency’s share.

(9) In determining the acquisition priorities, the board must consider, at a minimum, the following criteria:

(a) Community support for the project;

(b) A recommendation as part of a limiting factors or critical pathways analysis, a watershed plan or habitat conservation plan, or a coordinated regionwide prioritization effort;

(c) The likelihood of the conversion of the site to nonagricultural or more highly developed usage;

(d) Consistency with a local land use plan, or a regional or statewide recreational or resource plan. The projects that assist in the implementation of local shoreline master plans updated according to RCW 90.58.080 or local comprehensive plans updated according to RCW 36.70A.130 must be highly considered in the process;

(e) Benefits to salmonids;

(f) Benefits to other fish and wildlife habitat;

(g) Integration with recovery efforts for endangered, threatened, or sensitive species;

(h) The viability of the site for continued agricultural production, including, but not limited to:

(i) Soil types;

(ii) On-site production and support facilities such as barns, irrigation systems, crop processing and storage facilities, wells, housing, livestock sheds, and other farming infrastructure;

(iii) Suitability for producing different types or varieties of crops;

(iv) Farm-to-market access;

(v) Water availability; and

(i) Other community values provided by the property when used as agricultural land, including, but not limited to:

(ii) Viewshed;

(iii) Aquifer recharge;

(iv) Occasional or periodic collector for storm water run-off;
(iv) Agricultural sector job creation;
(v) Migratory bird habitat and forage area; and
(vi) Educational and curriculum potential.

(10) In allotting funds for environmental enhancement or restoration projects, the board will require the projects to meet the following criteria:

(a) Enhancement or restoration projects must further the ecological functions of the farmlands;
(b) The projects, such as fencing, bridging watercourses, replanting native vegetation, replacing culverts, clearing of waterways, etc., must be less than fifty percent of the acquisition cost of the project including any in-kind contribution by any party;
(c) The projects should be based on accepted methods of achieving beneficial enhancement or restoration results; and
(d) The projects should enhance the viability of the preserved farmland to provide agricultural production while conforming to any legal requirements for habitat protection.

(11) Before November 1st of each even-numbered year, the board will recommend to the governor a prioritized list of all projects to be funded under this section. The governor may remove projects from the list recommended by the board and must submit this amended list in the capital budget request to the legislature. The list must include, but not be limited to, a description of each project and any particular match requirement. [2007 c 241 § 38; 2005 c 303 § 7.]

Entities that are not eligible to be a Puget Sound partner due to geographic location, composition, exclusion from the scope of the Puget Sound action agenda developed by the Puget Sound partnership under RCW 90.71.310, or for any other reason, shall not be given less preferential treatment than Puget Sound partners. Entities not eligible for designation as an evergreen community shall not be given less preferential treatment than an evergreen community. [2008 c 299 § 34.]

WILDLIFE AND RECREATION LANDS—FUNDING OF MAINTENANCE AND OPERATIONS

Sections
79A.20.005 Findings.
79A.20.010 Definitions.
79A.20.030 Allocation and distribution of moneys.
79A.20.900 Short title.

79A.20.005 Findings. (1) The legislature finds that:
(a) The state of Washington owns and maintains a wide variety of fish and wildlife habitat, natural areas, parks, and other recreation lands;
(b) The state of Washington is responsible for managing these lands for the benefit of the citizens, wildlife, and other natural resources of the state;
(c) The state of Washington has recently significantly enhanced its efforts to acquire critical habitat, natural areas, parks, and other recreation lands and to transfer suitable lands from school trust to conservation and park purposes;
(d) Recent unprecedented population growth has greatly increased the threat to the state’s fish and wildlife habitat and the demands placed on the lands under (a) of this subsection;
(e) The importance of this habitat and these lands to the state is continuing to increase as more people depend on them to satisfy their needs and more plant and animal species require state-owned lands for their survival;
(f) By itself, public ownership cannot guarantee that resources will be protected, or that appropriate recreational opportunities will be provided;
(g) Only through ongoing, responsible management can fish and wildlife habitat, sensitive ecosystems, and recreational values be protected;
(h) The operation and maintenance funding for state-owned fish and wildlife habitat, natural areas, parks, and other recreation lands has not kept pace with increasing demands placed upon such lands;
(i) Many needed operation and maintenance projects have been deferred due to insufficient funding, resulting in increased costs when the projects are finally undertaken; and
(j) An increase in operation and maintenance funding is necessary to bring state-owned lands and facilities up to acceptable standards and to protect the state’s investment in its fish and wildlife habitat, natural areas, parks, and other recreation lands.

(2) Therefore, it is the policy of the state to provide adequate and continuing funding for operation and maintenance needs of state-owned fish and wildlife habitat, natural areas, parks, and other recreation lands to protect the state’s investment in such lands, and it is the purpose of this chapter to create a mechanism for doing so. [1992 c 153 § 2. Formerly RCW 43.98B.005.]

79A.20.010 Definitions. The definitions set forth in this section apply throughout this chapter.
(1) "Basic stewardship" means the costs associated with holding and protecting property to maintain the functions for which the property was acquired. It includes, but is not limited to, costs associated with statutory required in-lieu property taxes, weed and pest control, fire protection, fence maintenance, cultural and archaeological site protection, basic research related to maintenance of natural area preserves and natural resource conservation areas, basic resource and environmental protection, and meeting applicable legal requirements.

(2) "Improved or developed resources" means the costs associated with the built or manipulated environment. It includes, but is not limited to, costs associated with maintaining buildings, grounds, roads, trails, water access sites, and utility systems. Also included are improvements to habitat such as bank stabilization, range rehabilitation, and food and water sources.

(3) "Human use management" means the costs associated with visitor management, education, and protection.

(4) "Administration" means state agency costs necessary to support subsections (1) through (3) of this section. It includes, but is not limited to, budget and accounting, personnel support services, volunteer programs, and training. [1992 c 153 § 3. Formerly RCW 43.98B.010.]

(e) The remaining twenty to thirty-five percent shall be considered unallocated.

(2) In the event that moneys appropriated for this chapter to the *state wildlife and recreation lands management account under the initial allocation prove insufficient to meet basic stewardship needs, the unallocated amount shall be used to fund basic stewardship needs.

(3) Each eligible agency is not required to meet this specific percentage distribution. However, funding across agencies should meet these percentages during each biennium.

(4) It is intended that moneys disbursed from this account not replace existing operation and maintenance funding levels from other state sources.

(5) Agencies eligible to receive funds from this account are the departments of fish and wildlife and natural resources, and the state parks and recreation commission.

(6) Moneys appropriated for this chapter from the *state wildlife and recreation lands management account shall be distributed in the following manner:

[Title 79A RCW—page 34] (2008 Ed.)
79A.25.005 Policy—Mission of board. (1) As Washington begins its second century of statehood, the legislature recognizes that renewed efforts are needed to preserve, conserve, and enhance the state’s recreational resources. Rapid population growth and increased urbanization have caused a decline in suitable land for recreation and resulted in overcrowding and deterioration of existing facilities. Lack of adequate recreational resources directly affects the health and well-being of all citizens of the state, reduces the state’s economic viability, and prevents Washington from maintaining and achieving the quality of life that it deserves.

It is therefore the policy of the state and its agencies to preserve, conserve, and enhance recreational resources and open space. In carrying out this policy, the mission of the recreation and conservation funding board and its office is to (a) create and work actively for the implementation of a unified statewide strategy for meeting the recreational needs of Washington’s citizens, (b) represent and promote the interests of the state on recreational issues in concert with other state and local agencies and the governor, (c) encourage and provide interagency and regional coordination, and interaction between public and private organizations, (d) administer recreational grant-in-aid programs and provide technical assistance, and (e) serve as a repository for information, studies, research, and other data relating to recreation.

(2) Washington is uniquely endowed with fresh and salt waters rich in scenic and recreational value. This outdoor heritage enriches the lives of citizens, attracts new residents and businesses to the state, and is a major support of its expanding tourist industry. Rising population, increased income and leisure time, and the rapid growth of boating and other water sports have greatly increased the demand for water related recreation, while waterfront land is rapidly rising in value and disappearing from public use. There is consequently an urgent need for the acquisition or improvement of waterfront land on fresh and salt water suitable for marine recreational use by Washington residents and visitors. To meet this need, it is necessary and proper that the portion of motor vehicle fuel taxes paid by boat owners and operators on fuel consumed in their watercraft and not reclaimed as presently provided by law should be expended for the acquisition or improvement of marine recreation land on the Pacific Ocean, Puget Sound, bays, lakes, rivers, reservoirs and other fresh and salt waters of the state. [2007 c 241 § 39; 1989 c 237 § 1; 1965 c 5 § 1 (Initiative Measure No. 215, approved November 3, 1964). Formerly RCW 43.99.010.]

Intent—2007 c 241: "The legislature intends to change the name of the interagency committee for outdoor recreation to the recreation and conservation funding board. Similarly, the office of the interagency committee is renamed the recreation and conservation office.

The legislature does not intend this act to make any substantive policy changes other than to change or clarify the names of the relevant entities.

The name changes in this act have no impact on the powers, duties, or responsibilities previously delegated to the interagency committee for outdoor recreation or the office of the interagency committee by statute, budget provision, or executive order.

The name changes in this act have no impact on the validity of the documents, contracts, agreements, policies, and written decisions made, entered into, recorded, issued, or established before this name change by the interagency committee for outdoor recreation, its office, or director. Documents, contracts, agreements, policies, publications, and written decisions are not required to be changed to conform to the name changes, and the continued use of former names on documents made, recorded, issued, or established prior to the changes in this act does not affect the document’s validity after the change." [2007 c 241 § 1.]

Effective date—2007 c 241: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect July 1, 2007." [2007 c 241 § 76.]

Effective date—1989 c 237: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect on June 30, 1989." [1989 c 237 § 9.]

79A.25.010 Definitions. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Marine recreation land" means any land with or without improvements which (a) provides access to, or in whole or in part borders on, fresh or salt water suitable for recreational use by watercraft, or (b) may be used to create, add to, or make more usable, bodies of water, waterways, or land, for recreational use by watercraft.

(2) "Public body" means any county, city, town, port district, park and recreation district, metropolitan park district, or other municipal corporation which is authorized to acquire or improve public outdoor recreation land, and shall also mean Indian tribes now or hereafter recognized as such by the federal government for participation in the land and water conservation program.

(3) "Tax on marine fuel" means motor vehicle fuel tax which is (a) tax on fuel used in, or sold or distributed for use in, any watercraft, (b) refundable pursuant to chapter 82.36 RCW, and (c) paid to the director of licensing with respect to taxable sales, distributions, or uses occurring on or after December 3, 1964.

(2008 Ed.)
79A.25.250 Acquisition, development, etc., of urban area parks by recreation and conservation funding board. Recognizing the fact that the demand for park services is greatest in our urban areas, that parks should be accessible to all Washington citizens, that the urban poor cannot afford to travel to remotely located parks, and that few state parks are located in or near urban areas, that a need exists to conserve energy, and that local governments having jurisdiction in urban areas cannot afford the costs of maintaining and operating the extensive park systems needed to service their large populations, the legislature hereby directs the recreation and conservation funding board to place a high priority on the acquisition, development, redevelopment, and renovation of parks to be located in or near urban areas and to be particularly accessible to and used by the populations of those areas. For purposes of RCW 79A.25.250 and 79A.05.300, "urban areas" means any incorporated city with a population of five thousand persons or greater or any county with a population density of two hundred fifty persons per square mile or greater. This section shall be implemented by January 1, 1981. [2007 c 241 § 58; 2000 c 11 § 79; 1980 c 89 § 3. Formerly RCW 43.51.380.]

The habitat and recreation lands coordinating group must include representatives from the *committee, the state parks and recreation commission, the department of natural resources, and the Washington state department of fish and wildlife. The members of the habitat and recreation lands coordinating group must have subject matter expertise with the issues presented in this section. Representatives from appropriate stakeholder organizations and local government must also be considered for participation on the habitat and recreation lands coordinating group, but may only be appointed or invited by the director.

(2) To ensure timely completion of the duties assigned to the habitat and recreation lands coordinating group, the director shall submit yearly progress reports to the office of financial management.

(3) The habitat and recreation lands coordinating group must:

(a) Review agency land acquisition and disposal plans and policies to help ensure statewide coordination of habitat and recreation land acquisitions and disposals;

(b) Produce an interagency, statewide biennial forecast of habitat and recreation land acquisitions [acquisition] and disposal plans;

(c) Establish procedures for publishing the biennial forecast of acquisition and disposal plans on web sites or other centralized, easily accessible formats;

(d) Develop and convene an annual forum for agencies to coordinate their near-term acquisition and disposal plans;

(e) Develop a recommended method for interagency geographic information system-based documentation of habitat and recreation lands in cooperation with other state agencies using geographic information systems;

(f) Develop recommendations for standardization of acquisition and disposal recordkeeping, including identifying a preferred process for centralizing acquisition data;

(g) Develop an approach for monitoring the success of acquisitions;

(h) Identify and commence a dialogue with key state and federal partners to develop an inventory of potential public lands for transfer into habitat and recreation land management status;

(i) Review existing and proposed habitat conservation plans on a regular basis to foster statewide coordination and save costs.

(4) The group shall revisit the *committee’s and Washington wildlife and recreation program’s planning requirements to determine whether coordination of state agency habitat and recreation land acquisition and disposal could be improved by modifying those requirements.

(5) The group must develop options for centralizing coordination of habitat and recreation land acquisition made with funds from federal grants. The advantages and drawbacks of the following options, at a minimum, must be developed:

(a) Requiring that agencies provide early communication on the status of federal grant applications to the *committee, the office of financial management, or directly to the legislature;

(b) Establishing a centralized pass-through agency for federal funds, where individual agencies would be the primary applicants.

(6) This section expires July 31, 2012. Prior to January 1, 2012, the *committee shall make a formal recommendation to the appropriate committees of the legislature as to whether the existence of the habitat and recreation lands coordinating group should be continued beyond July 31, 2012, and if so, whether any modifications to its enabling statute should be pursued. The *committee shall involve all participants in the habitat and recreation lands coordinating group when developing the recommendations. [2007 c 247 § 1.]

*Reviser’s note: Chapter 241, Laws of 2007 amended RCW 79A.25.010, changing the definition of “committee” to “board.”

(2) These impacts are resulting in damage to Washington’s environment and causing economic hardships.

(3) The multitude of public and private organizations with an interest in controlling and preventing the spread of harmful invasive species in Washington need a mechanism for cooperation, communication, collaboration, and developing a statewide plan of action to meet these threats. [2006 c 152 § 1.]

79A.25.310 Washington invasive species council—Created. (1) There is created the Washington invasive species council to exist until December 31, 2011. Staff support to the council shall be provided by the recreation and conservation office and from the agencies represented on the coun-
For administrative purposes, the council shall be located within the office.

(2) The purpose of the council is to provide policy level direction, planning, and coordination for combating harmful invasive species throughout the state and preventing the introduction of others that may be potentially harmful.

(3) The council is a joint effort between local, tribal, state, and federal governments, as well as the private sector and nongovernmental interests. The purpose of the council is to foster cooperation, communication, and coordinated approaches that support local, state, and regional initiatives for the prevention and control of invasive species.

(4) For the purposes of this chapter, "invasive species" include nonnative organisms that cause economic or environmental harm and are capable of spreading to new areas of the state. "Invasive species" does not include domestic livestock, intentionally planted agronomic crops, or nonharmful exotic organisms. [2007 c 241 § 61; 2006 c 152 § 2.]

Intent—Effective date—2007 c 241: See notes following RCW 79A.25.005.

WASHINGTON STATE HORSE PARK

Sections

79A.30.005 Findings—Purpose.

79A.30.010 Definitions.

79A.30.020 Park established—Site approval—Ownership of land—Development, promotion, operation, management, and maintenance.

79A.30.050 Collaboration by authority and state on projects of shared interest—Cooperation with groups for youth recreational activities.

79A.30.005 Findings—Purpose. The legislature finds that:

(1) Horses are part of a large, highly diverse, and vital industry which provides significant economic, employment, recreational, and educational contributions to residents of and visitors to the state of Washington;

(2) Currently there is no adequate facility in the Pacific Northwest with the acreage, services, and capacity to host large regional horse shows, national championships, or Olympics-quality events to showcase and promote this important Washington industry;

(3) Establishing a first-class horse park facility in Washington would meet important needs of the state’s horse industry, attract investment, enhance recreational opportunities, and bring new exhibitors and tourists to the state from throughout the region and beyond; and

(4) A unique opportunity exists to form a partnership between state, county, and private interests to create a major horse park facility that will provide public recreational opportunities and statewide economic and employment benefits.

It is the purpose of this legislation to create the framework for such a partnership to facilitate development of the Washington state horse park. It is further the intent of the legislature that the state horse park shall be developed in stages, based on factors such as the availability of funds, equipment, and other materials donated by private sources; the availability and willingness of volunteers to work on park development; and the availability of revenues generated by the state horse park as it is developed and utilized. [1995 c 200 § 1. Formerly RCW 67.18.005.]

79A.30.010 Definitions. Unless the context clearly indicates otherwise, the definitions in this section apply throughout this chapter.

(1) "Authority" means the Washington state horse park authority authorized to be created in RCW 79A.30.030.

(2) "Commission" means the Washington state parks and recreation commission.

(3) "Horses" includes all domesticated members of the taxonomic family Equidae, including but not limited to horses, donkeys, and mules.

(4) "State horse park" means the Washington state horse park established in RCW 79A.30.020. [2000 c 11 § 83; 1995 c 200 § 2. Formerly RCW 67.18.010.]

79A.30.020 Park established—Site approval—Ownership of land—Development, promotion, operation, management, and maintenance. (1) The Washington state horse park is hereby established, to be located at a site approved by the commission. In approving a site for the state horse park, the commission shall consider areas with large blocks of land suitable for park development, the distance to various population centers in the state, the ease of transportation to the site for large vehicles traveling along either a north-south or an east-west corridor, and other factors deemed important by the commission.

(2) Ownership of land for the state horse park shall be as follows:

(a) The commission is vested with and shall retain ownership of land provided by the state for the state horse park. Any lands acquired by the commission after July 23, 1995, for the state horse park shall be purchased under chapter 79A.15 RCW. The legislature encourages the commission to
provide a long-term lease of the selected property to the Washington state horse park authority at a minimal charge. The lease shall contain provisions ensuring public access to and use of the horse park facilities, and generally maximizing public recreation opportunities at the horse park, provided that the facility remains available primarily for horse-related activities.

(b) Land provided for the state horse park by the county in which the park is located shall remain in the ownership of that county unless the county determines otherwise. The legislature encourages the county to provide a long-term lease of selected property to the Washington state horse park authority at a minimal charge.

(c) If the authority acquires additional lands through donations, grants, or other means, or with funds generated from the operation of the state horse park, the authority shall retain ownership of those lands. The authority shall also retain ownership of horse park site improvements paid for by or through donations or gifts to the authority.

(3) Development, promotion, operation, management, and maintenance of the state horse park is the responsibility of the authority created in RCW 79A.30.030. [2000 c 11 § 84; 1995 c 200 § 3. Formerly RCW 67.18.020.]

(1) A nonprofit corporation may be formed under the nonprofit corporation provisions of chapter 24.03 RCW to carry out the purposes of this chapter. Except as provided in RCW 79A.30.040, the corporation shall have all the powers and be subject to the same restrictions as are permitted or prescribed to nonprofit corporations and shall exercise those powers only for carrying out the purposes of this chapter and those purposes necessarily implied therefrom. The nonprofit corporation shall be known as the Washington state horse park authority. The articles of incorporation shall provide that it is the responsibility of the authority to develop, promote, operate, manage, and maintain the Washington state horse park. The articles of incorporation shall provide for appointment of directors and other conduct of business consistent with the requirements of this chapter.

(2) (a) The articles of incorporation shall provide for a seven-member board of directors for the authority, all appointed by the governor. Board members shall serve three-year terms, except that two of the original appointees shall serve one-year terms, and two of the original appointees shall serve two-year terms. A board member may serve consecutive terms.

(b) The articles of incorporation shall provide that the governor appoint board members as follows:

(i) One board member shall represent the interests of the commission. In making this appointment, the governor shall solicit recommendations from the commission;

In making these appointments, the governor shall solicit recommendations from a variety of active horse-related organizations in the state.

(3) The articles of incorporation shall include a policy that provides for the preferential use of a specific area of the horse park facilities at nominal cost for horse groups associated with youth groups and the disabled.

(4) The governor shall make appointments to fill board vacancies for positions authorized under subsection (2) of this section, upon additional solicitation of recommendations from the board of directors.

(5) The board of directors shall perform their duties in the best interests of the authority, consistent with the standards applicable to directors of nonprofit corporations under RCW 24.03.127. [2000 c 11 § 85; 1995 c 200 § 4. Formerly RCW 67.18.030.]
authority and the state horse park are created. [1995 c 200 § 5. Formerly RCW 67.18.040.]

79A.30.050 Collaboration by authority and state on projects of shared interest—Cooperation with groups for youth recreational activities. (1) In order to provide for the ever increasing outdoor recreation needs of an expanding resident and tourist population and to promote public access to, travel within, and the enjoyment and appreciation of outdoor areas of Washington, it is declared to be in the public interest to plan a system of trails throughout the state to enable and encourage the public to engage in outdoor recreation activities.

(2) The purpose of this chapter is to provide the means for attaining these objectives by instituting a method for establishing a system of recreation trails, and by prescribing the manner by which a proposed trail may be included in the system. [1970 ex.s. c 76 § 3. Formerly RCW 67.32.030.]

2. The most appropriate location for the trail;
3. Modes of travel to be permitted;
4. And other functions as appropriate. [2007 c 241 § 66; 1970 ex.s. c 76 § 7. Formerly RCW 67.32.070.]

**Intent—Effective date—2007 c 241:** See notes following RCW 79A.25.005.

### 79A.35.070 Categories of trails or areas—Policy statement as to certain state lands.

The following seven categories of trails or areas are hereby established for purposes of this chapter:

1. Cross-state trails which connect scenic, historical, geological, geographical, or other significant features which are characteristic of the state;
2. Water-oriented trails which provide a designated path to, on, or along fresh and/or salt water in which the water is the primary point of interest;
3. Scenic-access trails which give access to quality recreation, scenic, historic or cultural areas of statewide or national significance;
4. Urban trails which provide opportunities within an urban setting for walking, bicycling, horseback riding, or other compatible activities. Where appropriate, they will connect parks, scenic areas, historical points, and neighboring communities;
5. Historical trails which identify and interpret routes which were significant in the historical settlement and development of the state;
6. ORV vehicle trails which are suitable for use by both four-wheel drive vehicles and two-wheel vehicles. Such trails may be included as a part of the trail systems enumerated in subsections (1), (2), (3) and (5) of this section or may be separately designated;
7. Off-road and off-trail areas which are suitable for use by both four-wheel drive vehicles and two-wheel vehicles. The board shall coordinate an inventory and classification of such areas giving consideration to the type of use such areas will receive from persons operating four-wheel drive vehicles and two-wheel vehicles.

The planning and designation of trails shall take into account and give due regard to the interests of federal agencies, state agencies and bodies, counties, municipalities, private landowners and individuals, and interested recreation organizations. It is not required that the above categories be used to designate specific trails, but the board will assure that full consideration is given to including trails from all categories within the system. As it relates to all classes of trails and to all types of trail users, it is herein declared as state policy to increase recreational trail access to and within state and federally owned lands and private lands where access may be obtained. It is the intent of the legislature that public recreation facilities be developed as fully as possible to provide greater recreation opportunities for the citizens of the state.

The purpose of chapter 153, Laws of 1972 ex. sess. is to increase the availability of trails and areas for off-road vehicles by granting authority to state and local governments to maintain a system of ORV trails and areas, and to fund the program to provide for such development. State lands should be used as fully as possible for all public recreation which is compatible with the income-producing requirements of the various trusts. [2007 c 241 § 67; 1977 ex.s. c 220 § 21; 1972 ex.s. c 153 § 1; 1971 ex.s. c 47 § 2; 1970 ex.s. c 76 § 8. Formerly RCW 67.32.080.]

It is further provided that the same trail shall not be designated for use by foot and vehicular travel at the same time. [1970 ex.s. c 76 § 9. Formerly RCW 67.32.090.]

Chapter 79A.55 RCW
SCENIC RIVER SYSTEM

Sections

79A.55.005 Legislative finding—Purpose. The legislature hereby finds that many rivers of this state, with their immediate environs, possess outstanding natural, scenic, historic, ecological, and recreational values of present and future benefit to the public. The legislature further finds that the policy of permitting the construction of dams and other impoundment facilities at appropriate sections of the rivers of this state needs to be complemented by a policy that would protect and preserve the natural character of such rivers and fulfill other conservation purposes. It is hereby declared to be the policy of this state that certain selected rivers of the state which, with their immediate environs, possess the aforementioned characteristics, shall be preserved in as natural a condition as practical and that overuse of such rivers, which tends to downgrade their natural condition, shall be discouraged.

The purpose of this chapter is to establish a program for managing publicly owned land on rivers included in the state’s scenic river system, to indicate the river segments to be initially included in that system, to prescribe a procedure for adding additional components to the system, and to protect the rights of private property owners. [1977 ex.s. c 161 § 1. Formerly RCW 79.72.010.]

79A.55.010 Definitions. The definitions set forth in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Commission" means the state parks and recreation commission.

(2) "Participating local government" means the legislative authority of any city or county, a portion of whose territorial jurisdiction is bounded by or includes a river or river segment of the state’s scenic river system.

(3) "River" means a flowing body of water or a section, segment, or portion thereof.

(4) "River area" means a river and the land area in its immediate environs as established by the participating agencies not exceeding a width of one-quarter mile landward from the streamway on either side of the river.

(5) "Scenic easement" means the negotiated right to control the use of land, including the air space above the land, for the purpose of protecting the scenic view throughout the visual corridor.

(6) "Streamway" means that stream-dependent corridor of single or multiple, wet or dry, channel or channels within which the usual seasonal or stormwater run-off peaks are contained, and within which environment the flora, fauna, soil, and topography is dependent on or influenced by the height and velocity of the fluctuating river currents.

(7) "System" means all the rivers and river areas in the state designated by the legislature for inclusion as scenic rivers but does not include tributaries of a designated river unless specifically included by the legislature. The inclusion of a river in the system does not mean that other rivers or tributaries in a drainage basin shall be required to be part of the management program developed for the system unless the rivers and tributaries within the drainage basin are specifically designated for inclusion by the legislature.

(8) "Visual corridor" means that area which can be seen in a normal summer month by a person of normal vision walking either bank of a river included in the system. The visual corridor shall not exceed the river area.

(1) All motor-propelled vessels shall be equipped and maintained with an effective muffler that is in good working order and in constant use. For the purpose of this section, an effective muffler or underwater exhaust system does not produce sound levels in excess of ninety decibels when subjected to a stationary sound level test that shall be prescribed by rules adopted by the commission, as of July 25, 1993, and for engines manufactured on or after January 1, 1994, a noise level of eighty-eight decibels when subjected to a stationary sound level test that shall be prescribed by rules adopted by the commission.

(2) A vessel that does not meet the requirements of subsection (1) of this section shall not be operated on the waters of this state.

(3) No person may operate a vessel on waters of the state in such a manner as to exceed a noise level of seventy-five decibels measured from any point on the shoreline of the body of water on which the vessel is being operated that shall be specified by rules adopted by the commission, as of July 25, 1993. Such measurement shall not preclude a stationary sound level test that shall be prescribed by rules adopted by the commission.

(5) Any officer authorized to enforce this section who has reason to believe that a vessel is not in compliance with the noise levels established in this section may direct the
operator of the vessel to submit the vessel to an on-site test to measure noise level, with the officer on board if the officer chooses, and the operator shall comply with such request. If the vessel exceeds the decibel levels established in this section, the officer may direct the operator to take immediate and reasonable measures to correct the violation.

This subsection shall not apply to power vessels designed, manufactured, and sold for the sole purpose of competing in racing events and for no other purpose. Any such exemption or exception shall be documented in any and every sale agreement and shall be formally acknowledged by signature on the part of both the buyer and the seller. Copies of the agreement shall be maintained by both parties. A copy shall be kept on board whenever the vessel is operated.

(10) Vessels that are equipped with an engine modified to increase performance beyond the engine manufacturer’s stock configuration shall have an exhaust system that complies with the standards in this section after January 1, 1994. Until that date, operators or owners, or both, of such vessels with engines that are out of compliance shall be issued a warning and be given educational materials about types of muffling systems available to muffle noise from such high performance engines.

(11) Nothing in this section preempts a local government from exercising any power that it possesses under the laws or Constitution of the state of Washington to adopt more stringent regulations. [2000 c 11 § 97; 1993 c 244 § 39. Formerly RCW 88.12.085.]

The commission shall prescribe the different types of devices that are appropriate for the different uses, such as water skiing or operation of a personal watercraft. In adopting its rules the commission shall consider the United States coast guard rules or regulations. The commission may approve devices inspected and approved by the coast guard without conducting any inspection of the devices itself.

(2) In situations where personal flotation devices are required under provisions of this chapter, the devices shall be in good and serviceable condition and of appropriate size. If they are not, then they shall not be considered as personal flotation devices under such provisions. [1993 c 244 § 12. Formerly RCW 88.12.095.]

### 79A.60.150 Failure of vessel to contain required equipment—Liability of operator or owner—Penalty

If an infraction is issued under this chapter because a vessel does not contain the required equipment and if the operator is not the owner of the vessel, but is operating the vessel with the express or implied permission of the owner, then either or both operator or owner may be cited for the infraction. [1993 c 244 § 13. Formerly RCW 88.12.105.]

(4) No person shall operate a vessel under nineteen feet in length on the waters of this state with a child twelve years old and under, unless the child is wearing a personal flotation device that meets or exceeds the United States coast guard approval standards of the appropriate size, while the vessel is underway. For the purposes of this section, a personal flotation device is not considered readily accessible for children twelve years old and under unless the device is worn by the child while the vessel is underway. The personal flotation device must be worn at all times by a child twelve years old and under whenever the vessel is underway and the child is on an open deck or open cockpit of the vessel. The following circumstances are excepted:

(a) While a child is below deck or in the cabin of a boat with an enclosed cabin;

(b) While a child is on a United States coast guard inspected passenger-carrying vessel operating on the navigable waters of the United States; or

(c) While on board a vessel at a time and place where no person would reasonably expect a danger of drowning to occur.

(5) Except as provided in RCW 79A.60.020, a violation of subsection (4) of this section is an infraction under chapter 7.84 RCW. Enforcement of subsection (4) of this section by law enforcement officers may be accomplished as a primary action, and need not be accompanied by the suspected violation of some other offense. [2000 c 11 § 98; 1999 c 310 § 1; 1993 c 244 § 14; 1933 c 72 § 5; RRS § 9851-5. Formerly RCW 88.12.115 and 88.12.050.]

The parks and recreation commission is hereby directed to develop and adopt rules establishing a uniform waterway marking system for waters of the state not serviced by such a marking system administered by the federal government. Such system shall be designed to provide for standardized waterway marking buoys, floats, and other waterway marking devices which identify or specify waterway hazards, vessel traffic patterns, and similar information of necessity or use to boaters. Any new or replacement waterway marking buoy, float, or device installed by a unit of local government shall be designed and installed consistent with rules adopted by the parks and recreation commission pursuant to this section. [1987 c 427 § 3. Formerly RCW 88.12.285, 88.12.350, and 43.51.404.]

79A.60.510 Findings—Sewage disposal initiative established—Boater environmental education—Waterway access facilities. The legislature finds that the waters of Washington state provide a unique and valuable recreational resource to large and growing numbers of boaters. Proper stewardship of, and respect for, these waters requires that, while enjoying them for their scenic and recreational benefits, boaters must exercise care to assure that such activities do not contribute to the despoliation of these waters, and that watercraft be operated in a safe and responsible manner. The legislature has specifically addressed the topic of access to clean and safe waterways by requiring the 1987 boating safety study and by establishing the Puget Sound partnership.

The legislature finds that there is a need to educate Washington’s boating community about safe and responsible actions on our waters and to increase the level and visibility of the enforcement of boating laws. To address the incidence of fatalities and injuries due to recreational boating on our state’s waters, local and state efforts directed towards safe boating must be stimulated. To provide for safe waterways and public enjoyment, portions of the watercraft excise tax and boat registration fees should be made available for boating safety and other boating recreation purposes.

In recognition of the need for clean waterways, and in keeping with the Puget Sound partnership’s water quality work plan, the legislature finds that adequate opportunities for responsible disposal of boat sewage must be made available. There is hereby established a five-year initiative to install sewage pumpout or sewage dump stations at appropriate marinas.

To assure the use of these sewage facilities, a boater environmental education program must accompany the five-
year initiative and continue to educate boaters about boat wastes and aquatic resources.

The legislature also finds that, in light of the increasing numbers of boaters utilizing state waterways, a program to acquire and develop sufficient waterway access facilities for boaters must be undertaken.

To support boating safety, environmental protection and education, and public access to our waterways, the legislature declares that a portion of the income from boating-related activities, as specified in RCW 82.49.030 and 88.02.040, should support these efforts. 79A.60.520 Identification and designation of polluted and environmentally sensitive areas. The commission, in consultation with the departments of ecology, fish and wildlife, natural resources, social and health services, and the Puget Sound partnership shall conduct a literature search and analyze pertinent studies to identify areas which are polluted or environmentally sensitive within the state’s waters. Based on this review the commission shall designate appropriate areas as polluted or environmentally sensitive, for the purposes of chapter 393, Laws of 1989 only. (a) The marina is located in an environmentally sensitive or polluted area; or

(b) The marina has one hundred twenty-five slips or more and there is a lack of sewage pumpout or dump units within a reasonable distance.

(2) In addition to subsection (1) of this section, the commission may at its discretion designate a marina as appropriate for installation of a sewage pumpout or dump unit if there is a demonstrated need for a sewage pumpout or dump unit at the marina based on professionally conducted studies undertaken by federal, state, or local government, or the private sector; and it meets the following criteria:

(a) The marina provides commercial services, such as sales of food, fuel or supplies, or overnight or live-aboard moorage opportunities;

(b) The marina is located at a heavily used boating destination or on a heavily traveled route, as determined by the commission; or

(c) There is a lack of adequate sewage pumpout or dump unit capacity within a reasonable distance.

(3) Exceptions to the designation made under this section may be made by the commission if no sewer, septic, water, or electrical services are available at the marina.

(4) In addition to marinas, the commission may designate boat launches or boater destinations as appropriate for installation of a sewage pumpout or dump unit based on the criteria found in subsections (1) and (2) of this section. (iii) Ownership of the sewage pumpout or dump unit will be retained by the state through the commission in privately owned marinas. Ownership of the sewage pumpout or dump unit in publicly owned marinas will be held by the public entity.

(iv) Operation, normal and expected maintenance, and ongoing utility costs will be the responsibility of the contract recipient. The sewage pumpout or dump unit shall be kept in operating condition and available for public use at all times during operating hours of the facility, excluding necessary maintenance periods.

### 79A.60.600 Liquid petroleum gas leak warning devices—Findings

The legislature finds that:

(a) Washington state has the greatest length of marine shoreline miles of the lower forty-eight states;

(b) Such marine waters and the extensive freshwater lakes and rivers of the state provide innumerable recreational opportunities, and support a state recreational vessel population that is one of the largest in the country;

(c) Many of Washington’s popular recreational waters are remote from population centers and thus remote from emergency health care facilities;

(d) Washington’s climate in the western portion of the state, in which its marine recreational waters lie, is cool and wet for much of the year. Much of the state’s recreational
vessel activity is conducted in the late fall and winter months in connection with fishing activities. For these reasons the great majority of Washington vessels are equipped with heating devices. These appliances are in use for a much greater portion of the boating season than in other states, and are predominantly fueled by liquid petroleum gas;

(e) Current state and federal standards governing heating and cooking appliances on vessels that are fueled by liquid petroleum gas do not adequately protect against undetected gas leaks. Such gas leaks have led to explosions on Washington waters, causing loss of life and property damage;

(2) It is the intent of the legislature to address the state’s unique local circumstances regarding inadequate protection of Washington’s boaters from undetected leaks of liquid petroleum gas-fueled appliances by incorporating into the boating safety program an intensified boating fire prevention program with special emphasis on preventing fires and carbon monoxide poisoning caused by auxiliary fuels and appliances. [1994 c 151 § 1; 1993 c 469 § 1. Formerly RCW 88.12.500.]

79A.60.610 Recreational boating fire prevention education program. The commission shall undertake a statewide recreational boating fire prevention education program concerning the safe use of marine fuels and electrical systems. The boating fire prevention education program shall provide for the distribution of fire safety materials and decals warning of fire hazards and for educational opportunities to educate boaters on the safety practices needed to operate heaters, stoves, and other appliances in Washington’s unique aquatic environment. The commission shall evaluate the boating public’s voluntary participation in the program and the program’s impact on safe boating. [2006 c 140 § 4; 1994 c 151 § 2. Formerly RCW 88.12.505.]

Short title—2006 c 140: See note following RCW 79A.60.660.

79A.60.620 Small spill prevention education program. (1) The Washington sea grant program, in consultation with the department of ecology, shall develop and conduct a voluntary spill prevention education program that targets small spills from commercial fishing vessels, ferries, cruise ships, ports, and marinas. Washington sea grant shall coordinate the spill prevention education program with recreational boater education performed by the state parks and recreation commission.

(2) The spill prevention education program shall illustrate ways to reduce oil contamination of bilge water, accidental spills of hydraulic fluid and other hazardous substances during routine maintenance, and reduce spillage during refueling. The program shall illustrate proper disposal of oil and hazardous substances and promote strategies to meet shoreside oil and hazardous substance handling, and disposal needs of the targeted groups. The program shall include a series of training workshops and the development of educational materials. [2000 c 11 § 114; 1991 c 200 § 110. Formerly RCW 90.56.090.]

79A.60.630 Boating safety education—Commission’s duties—Fee—Report to the legislature. (1) The commission shall establish and implement by rule a program to provide required boating safety education. The boating safety education program shall include training on preventing the spread of aquatic invasive species. The program shall be phased in so that all boaters not exempted under RCW 79A.60.640(3) are required to obtain a boater education card by January 1, 2016. To obtain a boater education card, a boater shall provide a certificate of accomplishment issued by a boating educator for taking and passing an accredited boating safety education course, or pass an equivalency exam, or provide proof of completion of a course that meets the standard adopted by the commission.

(2) As part of the boating safety education program, the commission shall:

(a) Establish a program to be phased over eleven years starting July 1, 2005, with full implementation by January 1, 2016. The period July 1, 2005, through December 31, 2007, will be program development, boater notification of the new requirements for mandatory education, and processing cards to be issued to individuals having taken an accredited course prior to January 1, 2008. The schedule for phase-in of the mandatory education requirement by age group is as follows: January 1, 2008 - All boat operators twenty years old and younger; January 1, 2009 - All boat operators twenty-five years old and younger; January 1, 2010 - All boat operators thirty years old and younger; January 1, 2011 - All boat operators thirty-five years old and younger; January 1, 2012 - All boat operators forty years old and younger; January 1, 2013 - All boat operators fifty years old and younger; January 1, 2014 - All boat operators sixty years old and younger; January 1, 2015 - All boat operators seventy years old and younger; January 1, 2016 - All boat operators.

(b) Establish a minimum standard of boating safety education accomplishment. The standard must be consistent with the applicable standard established by the national association of state boating law administrators;

(c) Adopt minimum standards for boating safety education course of instruction and examination that ensures compliance with the national association of state boating law administrators minimum standards;

(d) Approve and provide accreditation to boating safety education courses operated by volunteers, or commercial or
nonprofit organizations, including, but not limited to, courses given by the United States coast guard auxiliary and the United States power squadrons;

(e) Develop an equivalency examination that may be taken as an alternative to the boating safety education course;

(f) Establish a fee of ten dollars for the boater education card to fund all commission activities related to the boating safety education program created by chapter 392, Laws of 2005, including the initial costs of developing the program. Any surplus funds resulting from the fees received shall be distributed by the commission as grants to local marine law enforcement programs approved by the commission as provided in RCW 88.02.040;

(g) Establish a fee for the replacement of the boater education card that covers the cost of replacement;

(h) Consider and evaluate public agency and commercial opportunities to assist in program administration with the intent to keep administrative costs to a minimum;

(i) Approve and provide accreditation to boating safety education courses offered online; and

(j) Provide a report to the legislature by January 1, 2008, on its progress of implementation of the mandatory education program. [2005 c 392 § 3.]

Intent—2005 c 392: “It is the intent of the legislature to establish a boating safety education program that contributes to the reduction of accidents and increases the enjoyment of boating by all operators of all recreational vessels on the waters of this state. Based on the 2003 report to the legislature titled "Recreational Boating Safety in Washington, A Report on Methods to Achieve Safer Boating Practices," the legislature recognizes that boating accidents also occur in nonmotorized vessels in this state, but, at this time there is no national educational standard for nonmotorized vessels. Therefore, the commission is hereby authorized and directed to work with agencies and organizations representing nonmotorized vessel activities and individuals operating nonmotorized vessels to decrease accidents of operators in these vessels. It is also the intent of the legislature to encourage boating safety education programs that use volunteer and private sector efforts to enhance boating safety and education for operators of nonmotorized vessels to work closely with the state parks and recreation commission in its efforts to reduce all boating accidents in this state.” [2005 c 392 § 1.]

79A.60.640 Requirements to operate motor driven boats/vessels—Exemptions—Penalty. (1) No person shall operate or permit the operation of motor driven boats and vessels with a mechanical power of fifteen horsepower or greater unless the person:

(b)(i) Has in his or her possession a boater education card, unless exempted under subsection (3) of this section; or

(ii) Is accompanied by and is under the direct supervision of a person sixteen years of age or older who is in possession of a boater education card, or who is not yet required to possess the card as provided in the program phase in RCW 79A.60.630(2)(a).

(2) Any person who can demonstrate they have successfully completed, prior to July 24, 2005, a boating safety education course substantially equivalent to the standards adopted by the commission shall be eligible for a boater education card upon application to the commission and payment of the fee, without having to take a course or equivalency exam as provided in RCW 79A.60.630(1). Successful completion of a boating safety education course could include an original or copy of an original certificate issued by the commission, the United States coast guard auxiliary, or the United States power squadrons, or official certification by these organizations that the individual successfully completed a course substantially equivalent to the standards adopted by the commission.

(3) The following persons are not required to carry a boater education card:

(a) The operator of a vessel engaged in a lawful commercial fishery operation as licensed by the department of fish and wildlife under Title 77 RCW. However, the person when operating a vessel for recreational purposes must carry either a valid commercial fishing license issued by the department of fish and wildlife or a boater education card;

(b) Any person who possesses a valid marine operator license issued by the United States coast guard when operating a vessel authorized by such coast guard license. However, the person when operating a vessel for recreational purposes must carry either a valid marine operator license issued by the United States coast guard or a boater education card;

(f) Any person who is not a resident of Washington state and who holds a current out-of-state or out-of-country certificate or card that is equivalent to the rules adopted by the commission;

(g) Any person who has purchased the boat or vessel within the last sixty days, and has a bill of sale in his or her possession to document the date of purchase;

(h) Any person, including those less than twelve years of age, who is involved in practicing for, or engaging in, a permitted racing event where a valid document has been issued by the appropriate local, state, or federal government agency for the event, and is available for inspection on-site during the racing event;

(i) Any person who is not yet required to have a boater education card under the phased schedule in RCW 79A.60.630(2)(a); and

(1) "Charges" means charges of the commission for moorage and storage, and all other charges related to the vessel and owing to or that become owing to the commission, including but not limited to costs of securing, disposing, or removing vessels, damages to any commission facility, and any costs of sale and related legal expenses for implementing RCW 79A.60.020 and 79A.60.030.

(2) "Commission" means the Washington state parks and recreation commission.

(3) "Commission facility" means any moorage facility, as that term is defined in RCW 53.08.310, owned, leased, operated, managed, or otherwise controlled by the commission or by a person pursuant to a contract with the commission.

(4) "Owner" means a person who has a lawful right to possession of a vessel by purchase, exchange, gift, lease, inheritance, or legal action whether or not the vessel is subject to a security interest, and shall not include the holder of a bona fide security interest.

(5) "Person" means any natural person, firm, partnership, corporation, association, organization, or any other entity.

(6)(a) "Registered owner" means any person that is either: (i) Shown as the owner in a vessel certificate of documentation issued by the secretary of the United States department of transportation under 46 U.S.C. Sec. 12103; or (ii) the registered owner or legal owner of a vessel for which a certificate of title has been issued under chapter 88.02 RCW; or (iii) the owner of a vessel registered under the vessel registration laws of another state under which laws the commission can readily identify the ownership of vessels registered with that state.

(b) "Registered owner" also includes: (i) Any holder of a security interest or lien recorded with the United States department of transportation with respect to a vessel on which a certificate of documentation has been issued; (ii) any holder of a security interest identified in a certificate of title for a vessel registered under chapter 88.02 RCW; or (iii) any holder of a security interest in a vessel where the holder is identified in vessel registration information of a state with vessel registration laws that fall within (a)(iii) of this subsection and under which laws the commission can readily determine the identity of the holder.

(c) "Registered owner" does not include any vessel owner or holder of a lien or security interest in a vessel if the vessel does not have visible information affixed to it (such as name and hailing port or registration numbers) that will enable the commission to obtain ownership information for the vessel without incurring unreasonable expense.

(8) "Secured vessel" means any vessel that has been secured by the commission that remains in the commission’s possession and control.

(9) "Unauthorized vessel" means a vessel using a commission facility of any type whose owner has not paid the required moorage fees or has left the vessel beyond the posted time limits, or a vessel otherwise present without permission of the commission.

79A.65.020 Securing unauthorized vessels—Notice—Claiming vessels—Abandoned vessels—Derelict vessel removal account. (1) The commission may take reasonable measures, including but not limited to the use of
anchors, chains, ropes, and locks, or removal from the water, to secure unauthorized vessels located at or on a commission facility so that the unauthorized vessels are in the possession and control of the commission. At least ten days before securing any unauthorized registered vessel, the commission shall send notification by registered mail to the last registered owner or registered owners of the vessel at their last known address or addresses.

(2) The commission may take reasonable measures, including but not limited to the use of anchors, chains, ropes, locks, or removal from the water, to secure any vessel if the vessel, in the opinion of the commission, is a nuisance, is in danger of sinking or creating other damage to a commission facility, or is otherwise a threat to the health, safety, or welfare of the public or environment at a commission facility. The costs of any such procedure shall be paid by the vessel’s owner.

(3) At the time of securing any vessel under subsection (1) or (2) of this section, the commission shall attach to the vessel a readily visible notice or, when practicable, shall post such notice in a conspicuous location at the commission facility in the event the vessel is removed from the premises. The notice shall be of a reasonable size and shall contain the following information:

(a) The date and time the notice was attached or posted;
(b) A statement that the vessel has been secured by the commission and that if the commission’s charges, if any, are not paid and the vessel is not removed by . . . . . . (the thirty-fifth consecutive day following the date of attachment or posting of the notice), the vessel will be considered abandoned and will be sold at public auction to satisfy the charges;
(c) The address and telephone number where additional information may be obtained concerning the securing of the vessel and conditions for its release; and
(d) A description of the owner’s or secured party’s rights under this chapter.

(4) With respect to registered vessels: Within five days of the date that notice is attached or posted under subsection (3) of this section, the commission shall send such notice, by registered mail, to each registered owner.

(5) If a vessel is secured under subsection (1) or (2) of this section, the owner, or any person with a legal right to possess the vessel, may claim the vessel by:

(a) Making arrangements satisfactory to the commission for the immediate removal of the vessel from the commission’s control or for authorized storage or moorage; and
(b) Making payment to the commission of all reasonable charges incurred by the commission in securing the vessel under subsections (1) and (2) of this section and of all moorage fees owed to the commission.

(6) A vessel is considered abandoned if, within the thirty-five day period following the date of attachment or posting of notice in subsection (3) of this section, the vessel has not been claimed under subsection (5) of this section.

(7) If the owner or owners of a vessel are unable to reimburse the commission for all reasonable charges under subsections (1) and (2) of this section within a reasonable time, the commission may seek reimbursement of seventy-five percent of all reasonable and auditable costs from the derelict vessel removal account established in RCW 79.100.100. [2002 c 286 § 21; 1994 c 51 § 2. Formerly RCW 88.27.020.]

Severability—Effective date—2002 c 286: See RCW 79.100.900 and 79.100.901.

79A.65.030 Sale of abandoned vessels—Notice—Redemption of vessels—Use of proceeds—Disposal of vessels. (1) The commission may provide for the public sale of vessels considered abandoned under RCW 79A.65.020. At such sales, the vessels shall be sold for cash to the highest and best bidder. The commission may establish a minimum bid or require a letter of credit, or both, to discourage the future reabandonment of the vessel.

(2) Before a vessel is sold, the commission shall make a reasonable effort to provide notice of sale, at least twenty days before the day of the sale, to each registered owner of a registered vessel and each owner of an unregistered vessel. The notice shall contain the time and place of the sale, a reasonable description of the vessel to be sold, and a summary of the rights and procedures under this chapter. A notice of sale shall be published at least once, more than ten but not more than twenty days before the sale, in a newspaper of general circulation in the county in which the commission facility is located. This notice shall include: (a) If known, the name of the vessel and the last owner and the owner’s address; and (b) a reasonable description of the vessel. The commission may bid all or part of its charges at the sale and may become a purchaser at the sale.

(3) Before a vessel is sold, any person seeking to redeem a secured vessel may commence a lawsuit in the superior court for the county in which the vessel was secured to contest the commission’s decision to secure the vessel or the amount of charges owing. This lawsuit shall be commenced within fifteen days of the date the notification was posted under RCW 79A.65.020(3), or the right to a hearing is deemed waived and the owner is liable for any charges owing the commission. In the event of litigation, the prevailing party is entitled to reasonable attorneys’ fees and costs.

(4) The proceeds of a sale under this section shall be applied first to the payment of the amount of the reasonable charges incurred by the commission and moorage fees owed to the commission, then to the owner or to satisfy any liens of record or security interests of record on the vessel in the order of their priority. If an owner cannot in the exercise of due diligence be located by the commission within one year of the date of the sale, any excess funds from the sale, following the satisfaction of any bona fide security interest, shall revert to the derelict vessel removal account established in RCW 79.100.100. If the sale is for a sum less than the applicable charges, the commission is entitled to assert a claim for the deficiency against the vessel owner. Nothing in this section prevents any lien holder or secured party from asserting a claim for any deficiency owed the lien holder or secured party.

(5) If no one purchases the vessel at a sale, the commission may proceed to properly dispose of the vessel in any way the commission considers appropriate, including, but not limited to, destruction of the vessel or by negotiated sale. The commission may assert a claim against the owner for any charges incurred thereby. If the vessel, or any part of the ves-

80.04.015 Conduct of business subject to regulation—Determination by commission. Whether or not any person or corporation is conducting business subject to regulation under this title, or has performed or is performing any act requiring registration or approval of the commission without securing such registration or approval, shall be a question of fact to be determined by the commission. Whenever the commission believes that any person or corporation is engaged in any activity without first complying with the requirements of this title, it may institute a special proceeding requiring such person or corporation to appear before the commission at a location convenient for witnesses and the production of evidence and produce information, books, records, accounts, and other memoranda, and give testimony under oath as to the activities being conducted. The commission may consider any and all facts that may indicate the true nature and extent of the operations or acts and may subpoena such witnesses and documents as it deems necessary.

After investigation, the commission is authorized and directed to issue the necessary order or orders declaring the activities to be subject to, or not subject to, the provisions of this title. In the event the activities are found to be subject to the provisions of this title, the commission shall issue such orders as may be necessary to require all parties involved in the activities to comply with this title, and with respect to services found to be reasonably available from alternative sources, to issue orders to cease and desist from providing jurisdictional services pending full compliance.

In proceedings under this section, no person or corporation may be excused from testifying or from producing any information, book, document, paper, or account before the commission when ordered to do so, on the ground that the testimony or evidence, information, book, document, or account required may tend to incriminate him or her or subject him or her to penalty or forfeiture specified in this title; but no person or corporation may be prosecuted, punished, or subjected to any penalty or forfeiture specified in this title for or on account of any account, transaction, matter, or thing concerning which he or she shall under oath have testified or produced documentary evidence in proceedings under this section: PROVIDED, That no person so testifying may be exempt from prosecution or punishment for any perjury committed by him or her in such testimony: PROVIDED FURTHER, That the exemption from prosecution in this section extends only to violations of this title.

Until July 1, 1994, in any proceeding instituted under this section to determine whether a person or corporation owning, controlling, operating, or managing a water system is subject to commission regulation, and where the person or corporation has failed or refused to provide sufficient information or documentation to enable the commission to make such a determination, the burden shall be on such person or corporation to prove that the person’s or corporation’s operations or acts are not subject to commission regulation. [1991 c 101 § 1; 1986 c 11 § 1.]

The commission or the commissioner before which the testimony is to be given or produced, in case of the refusal of any witness to attend or testify or produce any papers required by the subpoena, shall report to the superior court in and for the county in which the proceeding is pending by petition, setting forth that due notice has been given of the time and place of attendance of said witnesses, or the production of said papers, and that the
witness has been summoned in the manner prescribed in this chapter, and that the fees and mileage of the witness have been paid or tendered to the witness for his attendance and testimony, and that the witness has failed and refused to attend or produce the papers required by the subpoena, before the commission, in the cause or proceedings named in the notice and subpoena, or has refused to answer questions propounded to him in the course of such proceeding, and ask an order of said court, compelling the witness to attend and testify before the commission. The court, upon the petition of the commission, shall enter an order directing the witness to appear before said court at a time and place to be fixed by the court in such order, and then and there cause why he has not responded to said subpoena. A copy of said order shall be served upon said witness. If it shall appear to the court that said subpoena was regularly issued by the commission, the court shall thereupon enter an order that said witness appear before the commission at said time and place as fixed in said order, and testify or produce the required papers, and upon failing to obey said order, said witness shall be dealt with as for contempt of court. Prior: 1955 c 79 § 1; 1911 c 117 § 76, part; RRS 10414, part.]

80.04.050 Protection against self-incrimination. The claim by any witness that any testimony sought to be elicited may tend to incriminate him shall not excuse such witness from testifying, but such evidence or testimony shall not be used against such person on the trial of any criminal proceeding, excepting in a prosecution for perjury. The commissioner shall have power to compel the attendance of witnesses at any place within the state. [1961 c 14 § 80.04.050. Prior: 1911 c 117 § 76, part; RRS 10414, part.]

Such detailed report shall contain all the required statistics for the period of twelve months ending on the last day of any particular month prescribed by the commission for any public service company. Such reports shall be made out under oath and filed with the
commission at its office in Olympia on such date as the commission specifies by rule, unless additional time be granted in any case by the commission. 80.04.100  Production of out-of-state books and records.  The commission may by order with or without hearing require the production within this state, at such time and place as it may designate, of any books, accounts, papers or records kept by any public service company in any office or place without this state, or at the option of the company verified copies thereof, so that an examination thereof may be made by the commission or under its direction.  [1961 c 14 § 80.04.100. Prior: 1933 c 165 § 2; 1911 c 117 § 79; RRS § 10421.]

80.04.110  Complaints—Hearings—Water systems not meeting board of health standards—Drinking water standards—Nonmunicipal water systems audits.  (1) Complaint may be made by the commission of its own motion or by any person or corporation, chamber of commerce, board of trade, or any commercial, mercantile, agricultural or manufacturing society, or any body politic or municipal corporation, or by the public counsel section of the office of the attorney general, or its successor, by petition or complaint in writing, setting forth any act or thing done or omitted to be done by any public service corporation in violation, or claimed to be in violation, of any provision of law or of any order or rule of the commission; PROVIDED, That no complaint shall be entertained by the commission except upon its own motion, as to the reasonableness of the schedule of the rates or charges of any gas company, electrical company, water company, or telecommunications company, unless the same be signed by the mayor, council or commission of the city or town in which the company complained of is engaged in business, or not less than twenty-five consumers or purchasers of such gas, electricity, water or telecommunications service, or at least twenty-five percent of the consumers or purchasers of the company’s service: PROVIDED, FURTHER, That when two or more public service corporations, (meaning to exclude municipal and other public corporations) are engaged in competition in any locality or localities in the state, either may make complaint against the other or others that the rates, charges, rules, regulations or practices of such other or others with or in respect to which the complainant is in competition, are unreasonable, unremitting, discriminatory, illegal, unfair or intending or tending to oppress the complainant, to stifle competition, or to create or encourage the creation of monopoly, and upon such complaint or upon complaint of the commission upon its own motion, the commission shall have power, after notice and hearing as in other cases, to, by its order, subject to appeal as in other cases, correct the abuse complained of by establishing such uniform rates, charges, rules, regulations or practices in lieu of those complained of, to be observed by all of such competing public service corporations in the locality or localities specified as shall be found reasonable, remunerative, nondiscriminatory, legal, and fair or tending to prevent oppression or monopoly or to encourage competition, and upon any such hearing it shall be proper for the commission to take into consideration the rates, charges, rules, regulations and practices of the public service corporation or corporations complained of in any other locality or localities in the state.

(2) All matters upon which complaint may be founded may be joined in one hearing, and no motion shall be enter-
tained against a complaint for misjoinder of complaints or grievances or misjoinder of parties; and in any review of the courts of orders of the commission the same rule shall apply and pertain with regard to the joinder of complaints and parties as herein provided. PROVIDED, All grievances to be inquired into shall be plainly set forth in the complaint. No complaint shall be dismissed because of the absence of direct damage to the complainant.

(3) Upon the filing of a complaint, the commission shall cause a copy thereof to be served upon the person or corporation complained of, which shall be accompanied by a notice fixing the time when and place where a hearing will be had upon such complaint. The time fixed for such hearing shall not be less than ten days after the date of the service of such notice and complaint, excepting as herein provided. The commission shall enter its final order with respect to a complaint filed by any entity or person other than the commission within ten months from the date of filing of the complaint, unless the date is extended for cause. Rules of practice and procedure not otherwise provided for in this title may be prescribed by the commission. Such rules may include the requirement that a complainant use informal processes before filing a formal complaint.

(4) The commission shall, as appropriate, audit a nonmunicipal water system upon receipt of an administrative order from the department, or the city or county in which the water system is located, finding that the water delivered by a system does not meet state board of health standards adopted under RCW 43.20.050(2)(a) or standards adopted under chapters 70.116 and 70.119A RCW, and the results of the audit shall be provided to the requesting department, city, or county. However, the number of nonmunicipal water systems referred to the commission in any one calendar year shall not exceed twenty percent of the water companies subject to commission regulation as defined in RCW 80.04.010.

Every nonmunicipal water system referred to the commission for audit under this section shall pay to the commission an audit fee in an amount, based on the system’s twelve-month audited period, equal to the fee required to be paid by regulated companies under RCW 80.24.010.

(5) Any customer or purchaser of service from a water system or company that is subject to commission regulation may file a complaint with the commission if he or she has reason to believe that the water delivered by the system to the customer does not meet state drinking water standards under chapter 43.20 or 70.116 RCW. The commission shall investigate such a complaint, and shall request that the state department of health or local health department of the county in which the system is located test the water for compliance with state drinking water standards, and provide the results of such testing to the commission. The commission may decide not to investigate the complaint if it determines that the complaint has been filed in bad faith, or for the purpose of harassment of the water system or company, or for other reasons has no substantial merit. The water system or company shall bear the expense for the testing. After the commission has received the complaint from the customer and during the pendency of the commission investigation, the water system or company shall not take any steps to terminate service to the customer or to collect any amounts alleged to be owed to the company by the customer. The commission may issue an order or take any other action to ensure that no such steps are taken by the system or company. The customer may, at the customer’s option and expense, obtain a water quality test by a licensed or otherwise qualified water testing laboratory, of the water delivered to the customer by the water system or company, and provide the results of such a test to the commission. If the commission determines that the water does not meet state drinking water standards, it shall exercise its authority over the system or company as provided in this title, and may, where appropriate, order a refund to the customer on a pro rata basis for the standard water delivered to the customer, and shall order reimbursement to the customer for the cost incurred by the customer, if any, in obtaining a water quality test. classification, rule, or regulation, the effect of which is to change any rate, charge, rental, or toll theretofore charged, the commission shall have power, either upon its own motion or upon complaint, upon notice, to enter upon a hearing concerning such proposed change and the reasonableness and justness thereof. Pending such hearing and the decision thereon, the commission may suspend the operation of such rate, charge, rental, or toll for a period not exceeding ten months from the time the same would otherwise go into effect. After a full hearing, the commission may make such order in reference thereto as would be provided in a hearing initiated after the same had become effective.

(2)(a) The commission shall not suspend a tariff that makes a decrease in a rate, charge, rental, or toll filed by a telecommunications company pending investigation of the fairness, justness, and reasonableness of the decrease when the filing does not contain any offsetting increase to another rate, charge, rental, or toll and the filing company agrees to not file for an increase to any rate, charge, rental, or toll to recover the revenue deficit that results from the decrease for a period of one year.

(i) The filing company shall file with any decrease sufficient information as the commission by rule may require to demonstrate the decreased rate, charge, rental, or toll is above the long run incremental cost of the service. A tariff decrease that results in a rate that is below long run incremental cost, or is contrary to commission rule or order, or the requirements of this chapter, shall be rejected for filing and returned to the company.

(ii) The commission may prescribe a different rate to be effective on the prospective date stated in its final order after its investigation, if it concludes based on the record that the originally filed and effective rate is unjust, unfair, or unreasonable.

(b) The commission shall not suspend a promotional tariff. For the purposes of this section, "promotional tariff" means a tariff that, for a period of up to ninety days, waives or reduces charges or conditions of service for existing or new subscribers for the purpose of retaining or increasing the number of customers who subscribe to or use a service.

(3) The commission may suspend the initial tariff filing of any water company removed from and later subject to commission jurisdiction because of the number of customers or the average annual gross revenue per customer provisions of RCW 80.04.010. The commission may allow temporary rates during the suspension period. These rates shall not exceed the rates charged when the company was last regulated. Upon a showing of good cause by the company, the commission may establish a different level of temporary rates.

(4) At any hearing involving any change in any schedule, classification, rule, or regulation the effect of which is to increase any rate, charge, rental, or toll theretofore charged, the burden of proof to show that such increase is just and reasonable shall be upon the public service company.

(5) The implementation of mandatory local measured telecommunications service is a major policy change in available telecommunications service. The commission shall not accept for filing a price list, nor shall it accept for filing and approve, prior to June 1, 2004, a tariff filed by a telecommunications company which imposes mandatory local measured service on any customer or class of customers, except that, upon finding that it is in the public interest, the commission may accept for filing a price list or it may accept for filing and approve a tariff that imposes mandatory measured service for a telecommunications company’s extended area service or foreign exchange service. This subsection does not apply to land, air, or marine mobile service, or to pay telephone service, or to any service which has been traditionally offered on a measured service basis.

(6) The implementation of Washington telephone assistance program service is a major policy change in available telecommunications service. The implementation of Washington telephone assistance program service will aid in achieving the stated goal of universal telephone service.

(7) If a utility claims a sales or use tax exemption on the pollution control equipment for an electrical generation facility and abandons the generation facility before the pollution control equipment is fully depreciated, any tariff filing for a rate increase to recover abandonment costs for the pollution control equipment shall be considered unjust and unreasonable for the purposes of this section.

(8) During a state of emergency declared under RCW 43.06.010(12), the governor may waive or suspend the operation or enforcement of this section or any portion of this section or under any administrative rule, and issue any orders to facilitate the operation of state or local government or to promote and secure the safety and protection of the civilian population. 80.04.150 Remunerative rates cannot be changed without approval. Whenever the commission shall find, after hearing had upon its own motion or upon complaint as herein provided, that any rate, toll, rental or charge which has been the subject of complaint and inquiry is sufficiently remunerative to the public service company affected thereby, it may order that such rate, toll, rental or charge shall not be changed, altered, abrogated or discontinued, nor shall there be any change in the classification which will change or alter such rate, toll, rental or charge without first obtaining the consent of the commission authorizing such change to be made. [1961 c 14 § 80.04.150. Prior: 1911 c 117 § 84; RRS § 10426.]

80.04.160 Rules and regulations. The commission is hereby authorized and empowered to adopt, promulgate and issue rules and regulations covering the transmission and delivery of messages and conversations, and the furnishing and supply of gas, electricity and water, and any and all services concerning the same, or connected therewith; and generally such rules as pertain to the comfort and convenience of the public concerning the subjects treated of in this title. Such rules and regulations shall be promulgated and issued by the commission on its own motion, and shall be served on the public service company affected thereby as other orders of the commission are served. Any public service company affected thereby, and deeming such rules and regulations, or any of them, improper, unjust, unreasonable, or contrary to law, may within twenty days from the date of service of such order upon it file objections thereto with the commission, specifying the particular grounds of such objections. The commission shall, upon receipt of such objections, fix a time and place for hearing the same, and after a full hearing may make such changes or modifications thereto, if any, as the evidence may justify. The commission shall have, and it is hereby given, power to adopt rules to govern its proceedings, and to regulate the mode and manner of all investigations and hearings: PROVIDED, No person desiring to be present at such hearing shall be denied permission. Actions may be instituted to review rules and regulations promulgated under this section as in the case of orders of the commission. [1961 c 14 § 80.04.160. Prior: 1911 c 117 § 85; RRS § 10427.]

80.04.170 Review of orders. Any complainant or any public service company affected by any findings or order of the commission, and deeming such findings or order to be contrary to law, may, within thirty days after the service of the findings or order upon him or it, apply to the superior court of Thurston county for a writ of review, for the purpose of having the reasonableness and lawfulness of such findings or order inquired into and determined. Such writ shall be made returnable not later than thirty days from and after the date of the issuance thereof, unless upon notice to all parties affected further time be allowed by the court, and shall direct the commission to certify its record in the case to the court. Such cause shall be heard by the court without the intervention of a jury upon the evidence and exhibits introduced before the commission and certified to by it. Upon such hearing the superior court shall enter judgment either affirming or setting aside or remanding for further action the findings or order of the commission under review. The reasonable cost of preparing the transcript of testimony taken before the commission shall be assessable as part of the statutory court costs, and the amount thereof, if collected by the commission, shall be deposited in the public service revolving fund. In case such findings or order be set aside, or reversed and remanded, the court shall make specific findings based upon evidence in the record indicating clearly all respects in which the commission’s findings or order are erroneous. [1961 c 14 § 80.04.170. Prior: 1937 c 169 § 3; 1911 c 117 § 86; RRS § 10428.]

80.04.180 Supersedeas—Water companies seeking supersedeas. (1) The pendency of any writ of review shall not of itself stay or suspend the operation of the order of the commission, but the superior court in its discretion may restrain or suspend, in whole or in part, the operation of the commission’s order pending the final hearing and determination of the suit.

(2) No order so restraining or suspending an order of the commission relating to rates, charges, tolls or rentals, or rules or regulations, practices, classifications or contracts affecting the same, shall be made by the superior court otherwise than upon three days’ notice and after hearing. If a supersedeas is granted the order granting the same shall contain a specific finding, based upon evidence submitted to the court making the order, and identified by reference thereto, that great or irreparable damage would otherwise result to the petitioner, and specifying the nature of the damage. A water company seeking a supersedeas must demonstrate to the court that it is in compliance with the state board of health standards adopted pursuant to RCW 43.20.050 and chapter 70.116 RCW relating to the purity, volume, and pressure of water.

(3) In case the order of the commission under review is superseded by the court, it shall require a bond, with good and sufficient surety, conditioned that such company petitioning for such review shall answer for all damages caused by the delay in the enforcement of the order of the commission, and all compensation for whatever sums for transmission or service any person or corporation shall be compelled to pay pending the review proceedings in excess of the sum such person or corporations would have been compelled to pay if the order of the commission had not been suspended.

(4) The court may, in addition to or in lieu of the bond herein provided for, require such other or further security for the payment of such excess charges or damages as it may deem proper. [1989 c 207 § 3; 1961 c 14 § 80.04.180. Prior: 1933 c 165 § 6; prior: 1931 c 119 § 2; 1911 c 117 § 87; RRS § 10429.]
80.04.190 Appellate review. The commission, any public service company or any complainant may, after the entry of judgment in the superior court in any action of review, seek appellate review as in other cases. [1988 c 202 § 60; 1971 ex.s. c 107 § 4; 1961 c 14 § 80.04.190. Prior: 1911 c 117 § 88; RRS § 10430.]

Rules of court: Cf. RAP 2.2.

80.04.200 Rehearing before commission. Any public service company affected by any order of the commission, and deeming itself aggrieved, may, after the expiration of two years from the date of such order taking effect, petition the commission for a rehearing upon the matters involved in such order, setting forth in such petition the grounds and reasons for such rehearing, which grounds and reasons may consist of changed conditions since the issuance of such order, or by showing a result injuriously affecting the petitioner which was not considered or anticipated at the former hearing, or that the effect of such order has been such as was not contemplated by the commission or the petitioner, or for any good and sufficient cause which for any reason was not considered and determined in such former hearing. Upon the filing of such petition, such proceedings shall be had thereon as are provided for hearings upon complaint, and such orders may be reviewed as are other orders of the commission: PROVIDED, That no order superseding the order of the commission denying such rehearing shall be granted by the court pending the review. In case any order of the commission shall not be reviewed, but shall be complied with by the public service company, such petition for rehearing may be filed within six months from and after the date of the taking effect of such order, and the proceedings thereon shall be as in this section provided. The commission, may, in its discretion, permit the filing of a petition for rehearing at any time. No order of the commission upon a rehearing shall affect any right of action or penalty accruing under the original order unless so ordered by the commission. [1961 c 14 § 80.04.200. Prior: 1911 c 117 § 89; RRS § 10431.]

80.04.210 Commission may change orders. The commission may at any time, upon notice to the public service company affected, and after opportunity to be heard as provided in the case of complaints rescind, alter or amend any order or rule made, issued or promulgated by it, and any order or rule rescinding, altering or amending any prior order or rule shall, when served upon the public service company affected, have the same effect as herein provided for original orders and rules. [1961 c 14 § 80.04.210. Prior: 1911 c 117 § 90; RRS § 10432.]

80.04.220 Reparations. When complaint has been made to the commission concerning the reasonableness of any rate, toll, rental or charge for any service performed by any public service company, and the same has been investigated by the commission, and the commission has determined that the public service company has charged an excessive or exorbitant amount for such service, and the commission has determined that any party complainant is entitled to an award of damages, the commission shall order that the public service company pay to the complainant the excess amount found to have been charged, whether such excess amount was charged and collected before or after the filing of said complaint, with interest from the date of the collection of said excess amount. [1961 c 14 § 80.04.220. Prior: 1943 c 258 § 1; 1937 c 29 § 1; Rem. Supp. 1943 § 10433.]

80.04.230 Overcharges—Refund. When complaint has been made to the commission that any public service company has charged an amount for any service rendered in excess of the lawful rate in force at the time such charge was made, and the same has been investigated and the commission has determined that the overcharge allegation is true, the commission may order that the public service company pay to the complainant the amount of the overcharge so found, whether such overcharge was made before or after the filing of said complaint, with interest from the date of collection of such overcharge. [1961 c 14 § 80.04.230. Prior: 1937 c 29 § 2; RRS § 10433-1.]

80.04.240 Action in court on reparations and overcharges. If the public service company does not comply with the order of the commission for the payment of the overcharge within the time limited in such order, suit may be instituted in any superior court where service may be had upon the said company to recover the amount of the overcharge with interest. It shall be the duty of the commission to certify its record in the case, including all exhibits, to the court. Such record shall be filed with the clerk of said court within thirty days after such suit shall have been started and said suit shall be heard on the evidence and exhibits introduced before the commission and certified to by it. If the complainant shall prevail in such action, the superior court shall enter judgment for the amount of the overcharge with interest and shall allow complainant a reasonable attorney’s fee, and the cost of preparing and certifying said record for the benefit of and to be paid to the commission by complainant, and deposited by the commission in the public service revolving fund, said sums to be fixed and collected as a part of the costs of the suit. If the order of the commission shall be found to be contrary to law or erroneous by reason of the rejection of testimony properly offered, the court shall remand the cause to the commission with instructions to receive the testimony so proffered and rejected and enter a new order based upon the evidence theretofore taken and such as it is directed to receive. The court may in its discretion remand any cause which is reversed by it to the commission for further action. Appeals to the supreme court shall lie as in other civil cases. All complaints concerning overcharges resulting from collecting unreasonable rates and charges or from collecting amounts in excess of lawful rates shall be filed with the commission within six months in cases involving the collection of unreasonable rates and two years in cases involving the collection of more than lawful rates from the time the cause of action accrues, and the suit to recover the overcharge shall be filed in the superior court within one year from the date of the order of the commission.

The procedure provided in this section is exclusive, and neither the supreme court nor any superior court shall have jurisdiction save in the manner hereinbefore provided. [1961
80.04.250 Valuation of public service property. The commission shall have power upon complaint or upon its own motion to ascertain and determine the fair value for rate making purposes of the property of any public service company used and useful for service in this state and shall exercise such power whenever it shall deem such valuation or determination necessary or proper under any of the provisions of this title. In determining what property is used and useful for providing electric, gas, or water service, the commission may include the reasonable costs of construction work in progress to the extent that the commission finds that inclusion is in the public interest.

The commission shall have the power to make valuations of the property of any public service company from time to time.

The commission shall, before any hearing is had, notify the complainants and the public service company concerned of the time and place of such hearing by giving at least thirty days' written notice thereof, specifying that at the time and place designated a hearing will be held for the purpose of ascertaining the value of the company's property, used and useful as aforesaid, which notice shall be sufficient to authorize the commission to inquire into and pass upon the matters designated in this section. [1991 c 122 § 2; 1961 c 14 § 80.04.250. Prior: 1933 c 165 § 4; 1913 c 182 § 1; 1911 c 117 § 92; RRS § 10441.]

Findings—1991 c 122: "The legislature finds that the state is facing an energy shortage as growth occurs and that inadequate supplies of energy will cause harmful impacts on the entire range of state citizens. The legislature further finds that energy efficiency improvement is the single most effective near term measure to lessen the risk of energy shortage. In the area of electricity, the legislature additionally finds that the Northwest power planning council has made several recommendations, including an update of the commercial building energy code and granting flexible ratemaking alternatives for utility commissions to encourage prudent acquisition of new electric resources." [1991 c 122 § 1.]

Severability—1991 c 122: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1991 c 122 § 4.]

80.04.260 Summary proceedings. Whenever the commission shall be of opinion that any public service company is failing or omitting, or about to fail or omit, to do anything required of it by law, or by order, direction or requirement of the commission, or is doing anything, or about to do anything, or permitting anything, or about to permit anything to be done contrary to or in violation of law or of any order, direction or requirement of the commission authorized by this title, it shall direct the attorney general to commence an action or proceeding in the superior court of the state of Washington for Thurston county, or in the superior court of any county in which such company may do business, in the name of the state of Washington on the relation of the commission, for the purpose of having such violations or threatened violations stopped and prevented, either by mandamus or injunction. The attorney general shall thereupon begin such action or proceeding by petition to such superior court, alleging the violation complained of, and praying for the appropriate relief by way of mandamus or injunction. It shall thereupon be the duty of the court to specify a time, not exceeding twenty days after the service of the copy of the petition, within which the public service company complained of must answer the petition. In case of default in answer or after answer, the court shall immediately inquire into the facts and circumstances in such manner as the court shall direct, without other or formal pleadings, and without respect to any technical requirement. Such persons or corporations as the court may deem necessary or proper to be joined as parties, in order to make its judgment, order or writ effective, may be joined as parties. The final judgment in any such action or proceeding shall either dismiss the action or proceeding or direct that the writ of mandamus or injunction, or both, issue as prayed for in the petition, or in such other modified form as the court may determine will afford appropriate relief. Appellate review of the final judgment may be sought in the same manner and with the same effect as review of judgments of the superior court in actions to review orders of the commission. All provisions of this chapter relating to the time of review, the manner of perfecting the same, the filing of briefs, hearings and supersededas, shall apply to appeals to the supreme court or the court of appeals under the provisions of this section. [1988 c 202 § 61; 1971 c 81 § 140; 1961 c 14 § 80.04.260. Prior: 1911 c 117 § 93; RRS § 10442.]

80.04.270 Merchandise accounts to be kept separate. Any public service company engaging in the sale of merchandise or appliances or equipment shall keep separate accounts and receipts, as prescribed by the commission, of its capital employed in such business and of its revenues therefrom and operating expenses thereof. The capital employed in such business shall not constitute a part of the fair value of said company’s property for rate making purposes, nor shall the revenues from or operating expenses of such business constitute a part of the operating revenues and expenses of said company as a public service company. For purposes of this section, the providing of competitive telephone service, as defined in RCW 82.04.065, shall not constitute the sale of merchandise, appliances, or equipment, unless the commission determines that it would be in the public interest to hold otherwise. 80.04.290  Sales of stock to employees and customers. A corporate public service company, either heretofore or hereafter organized under the laws of this state, may sell to its employees and customers any increase of its capital stock, or part thereof, without first offering it to existing stockholders: PROVIDED, That such sale is approved by the holders of a majority of the capital stock, at a regular or special meeting held after notice given as to the time, place, and object thereof as provided by law and the bylaws of the company. Such sales shall be at prices and in amounts for each purchaser and upon terms and conditions as set forth in the resolution passed at the stockholders’ meeting, or in a resolution passed at a subsequent meeting of the board of trustees if the resolution passed at the stockholders’ meeting shall authorize the board to determine prices, amounts, terms, and conditions, except that in either event, a minimum price for the stock must be fixed in the resolution passed at the stockholders’ meeting. When a budget has been filed the commission shall examine into and investigate it to determine whether the expenditures therein proposed are fair and reasonable and not contrary to public interest. Adjustments or additions to budget expenditures may be made from time to time during the year by filing a supplementary budget with the commission for its investigation and approval or rejection. [1961 c 14 § 80.04.300. Prior: 1959 c 248 § 11; prior: 1933 c 165 § 10, part; RRS § 10458-4, part.]

The commission may require any company to furnish further information, data, or detail as to any proposed item of expenditure. Failure of the commission to object to any item of expenditure within ninety days of the filing of any original budget or within thirty days of the filing of any supplementary budget shall constitute authority to the company to proceed with the making of or contracting for such expenditure, but such authority may be terminated any time by objection made thereto by the commission prior to the making of or contracting for such expenditure. Examination, investigation, and determination of the budget by the commission shall not bar or estop it from later determining whether any of the expenditures made thereunder are fair, reasonable, and commensurate with the service, material, supplies, or equipment received. Any company may upon the happening of any emergency caused by fire, flood, explosion, storm, earthquake, riot, or insurrection, or for the immediate preservation or restoration to condition of usefulness of any of its property, the usefulness of which has been destroyed by accident, make the necessary expenditure therefor free from the operation of RCW 80.04.300 through 80.04.330. 80.16.020 Dealings with affiliated interests—Prior filing with commission required—Commission may disapprove. Every public service company shall file with the commission a verified copy, or a verified summary if unwritten, of a contract or arrangement providing for the furnishing of management, supervisory, construction, engineering, accounting, legal, financial, or similar services, or any contract or arrangement for the purchase, sale, lease, or exchange of any property, right, or thing, or for the furnishing of any service, property, right, or thing, other than those enumerated in this section, hereafter made or entered into between a public service company and any affiliated interest as defined in this section, including open account advances from or to the affiliated interests. Any time after receipt of the contract or arrangement, the commission may institute an investigation and disapprove the contract, arrangement, modification, or amendment thereto if the commission finds the public service company has failed to prove that it is reasonable and consistent with the public interest. The commission may disapprove any such contract or arrangement if satisfactory proof is not submitted to the commission of the cost to the affiliated interest of rendering the services or of furnishing the property or service described in this section. In the proceeding the commission shall disallow the payment or compensation, in whole or in part, in the absence of satisfactory proof that it is reasonable in amount. In such a proceeding, any payment or compensation may be disapproved or disallowed by the commission, in whole or in part, if satisfactory proof is not submitted to the commission of the cost to the affiliated interest of rendering the service or furnishing the property or service described in this section. The commission shall have the same jurisdiction over the modifications or amendment of contracts or arrangements as are herein described as it has over such original contracts or arrangements. The fact that a contract or arrangement has been filed with, or the commission has approved entry into such contracts or arrangements as described herein shall not preclude disallowance or disapproval of payments made pursuant thereto, if upon actual experience under such contract or arrangement, it appears that the payments provided for or made were or are unreasonable. In fixing the percentage rates of gross operating revenue to be paid in any year, the commission shall consider all moneys then in the public service revolving fund and the fees currently to be paid into such fund, to the end that the fees collected from the several classes of companies shall be approximately the same as the reasonable cost of supervising and regulating such classes of companies. [1961 c 14 § 80.24.020. Prior: 1955 c 125 § 3; prior: 1939 c 123 § 1, part; 1937 c 158 § 1, part; RRS § 10417. pari.]

80.24.030 Intent of legislature—Regulatory cost records to be kept by commission. It is the intent and purpose of the legislature that the several groups of public service companies shall each contribute sufficient in fees to the commission to pay the reasonable cost of regulating the several groups respectively. The commission shall keep accurate records of the costs incurred in regulating and supervising the several groups of companies subject to regulation or supervision and such records shall be open to inspection by all interested parties. The records and data upon which the commission’s determination is made shall be considered prima facie correct in any proceeding instituted to challenge the reasonableness or correctness of any order of the commission fixing fees and distributing regulatory expenses. 80.24.040 Disposition of fees. All moneys collected under the provisions of this chapter shall within thirty days be paid to the state treasurer and by the state treasurer deposited to the public service revolving fund: PROVIDED, That all fees, fines, forfeitures and penalties collected or assessed by a district court because of the violation of a state law shall be remitted as provided in chapter 3.62 RCW as now exists or is later amended. [1987 c 202 § 239; 1969 ex.s. c 199 § 36; 1961 c 14 § 80.24.040. Prior: 1937 c 158 § 6; RRS § 10417-4.]

Intent—1987 c 202: See note following RCW 2.04.190.

80.24.050 Penalty for failure to pay fees—Disposition of fines and penalties. Every person, firm, company or corporation, or the officers, agents or employees thereof, failing or neglecting to pay the fees herein required shall be guilty of a misdemeanor. All fines and penalties collected under the provisions of this chapter shall be deposited into the public service revolving fund of the state treasury: PROVIDED, That all fees, fines, forfeitures and penalties collected or assessed by a district court because of the violation of a state law shall be remitted as provided in chapter 3.62 RCW as now exists or is later amended. [1987 c 202 § 240; 1979 ex.s. c 198 § 1; 1969 ex.s. c 199 § 37; 1961 c 14 § 80.24.050. Prior: 1923 c 107 § 2; 1921 c 113 § 3; RRS § 10419.]

Intent—1987 c 202: See note following RCW 2.04.190.
80.24.060 Pipeline safety fee—Reports—Procedure to contest fees—Regulatory incentive program. (1)(a) Every gas company and every interstate gas pipeline company subject to inspection or enforcement by the commission shall pay an annual pipeline safety fee to the commission. The pipeline safety fees received by the commission shall be deposited in the pipeline safety account created in RCW 81.88.050.

(b) The aggregate amount of fees set shall be sufficient to recover the reasonable costs of administering the pipeline safety program, taking into account federal funds used to offset the costs. The fees established under this section shall be designed to generate revenue not exceeding appropriated levels of funding for the current fiscal year. At a minimum, the fees established under this section shall be sufficient to adequately fund pipeline inspection personnel, the timely review of pipeline safety and integrity plans, the timely development of spill response plans, the timely development of accurate maps of pipeline locations, participation in federal pipeline safety efforts to the extent allowed by law, and the staffing of the citizens committee on pipeline safety.

(c) Increases in the aggregate amount of fees over the immediately preceding fiscal year are subject to the requirements of RCW 43.135.055.

(2) The commission shall by rule establish the methodology it will use to set the appropriate fee for each entity subject to this section. The methodology shall provide for an equitable distribution of program costs among all entities subject to the fee. The fee methodology shall provide for:

(a) Direct assignment of average costs associated with annual standard inspections, including the average number of inspection days per year. In establishing these directly assignable costs, the commission shall consider the requirements and guidelines of the federal government, state safety standards, and good engineering practice[s]; and

(b) A uniform and equitable means of estimating and allocating costs of other duties relating to inspecting pipelines for safety that are not directly assignable, including but not limited to design review and construction inspections, specialized inspections, incident investigations, geographic mapping system design and maintenance, and administrative support.

(3) The commission shall require reports from those entities subject to this section in the form and at such time as necessary to set the fees. After considering the reports supplied by the entities, the commission shall set the amount of the fee payable by each entity by general order entered before July 1st of each year.

(4) For companies subject to RCW 80.24.010, the commission shall collect the pipeline safety fee as part of the fee specified in RCW 80.24.010. The commission shall allocate the moneys collected under RCW 80.24.010 between the pipeline safety program and for other regulatory purposes. The commission shall adopt rules that assure that fee moneys related to the pipeline safety program are maintained separately from other moneys collected by the commission under this chapter.

(5) Any payment of the fee imposed by this section made after its due date must include a late fee of two percent of the amount due. Delinquent fees accrue interest at the rate of one percent per month.

(6) The commission shall keep accurate records of the costs incurred in administering its gas pipeline safety program, and the records are open to inspection by interested parties. The records and data upon which the commission’s determination is made shall be prima facie correct in any proceeding to challenge the reasonableness or correctness of any order of the commission fixing fees and distributing regulatory expenses.

(7) If any entity seeks to contest the imposition of a fee imposed under this section, that entity shall pay the fee and request a refund within six months of the due date for the payment by filing a petition for a refund with the commission. The commission shall establish by rule procedures for handling refund petitions and may delegate the decisions on refund petitions to the secretary of the commission.

(8) After establishing the fee methodology by rule as required in subsection (2) of this section, the commission shall create a regulatory incentive program for pipeline safety programs in collaboration with the citizens committee on pipeline safety. The regulatory incentive program created by the commission shall not shift costs among companies paying pipeline safety fees and shall not decrease revenue to pipeline safety programs. The regulatory incentive program shall not be implemented until after the review conducted according to *RCW 81.88.150.  

*Reviser’s note: RCW 81.88.150 was repealed by 2007 c 142 § 11.

80.28.010 Duties as to rates, services, and facilities—Limitations on termination of utility service for residential heating. (1) All charges made, demanded or received by any gas company, electrical company or water company for gas, electricity or water, or for any service rendered or to be rendered in connection therewith, shall be just, fair, reasonable and sufficient. Reasonable charges necessary to cover the cost of administering the collection of voluntary donations for the purposes of supporting the development and implementation of evergreen community management plans and ordinances under RCW 80.28.300 shall be deemed as prudent and necessary for the operation of a utility.

(2) Every gas company, electrical company and water company shall furnish and supply such service, instrumentalities and facilities as shall be safe, adequate and efficient, and in all respects just and reasonable.

(3) All rules and regulations issued by any gas company, electrical company or water company, affecting or pertaining to the sale or distribution of its product, shall be just and reasonable.

(4) Utility service for residential space heating shall not be terminated between November 15 through March 15 if the customer:

(a) Notifies the utility of the inability to pay the bill, including a security deposit. This notice should be provided within five business days of receiving a payment overdue notice unless there are extenuating circumstances. If the customer fails to notify the utility within five business days and service is terminated, the customer can, by paying reconnec-

80.28.005 Definitions. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Bondable conservation investment" means all expenditures made by electrical, gas, or water companies with respect to energy or water conservation measures and services intended to improve the efficiency of electricity, gas, or water end use, including related carrying costs if:

(a) The conservation measures and services do not produce assets that would be bondable utility property under the general utility mortgage of the electrical, gas, or water company;

(b) The commission has determined that the expenditures were incurred in conformance with the terms and conditions of a conservation service tariff in effect with the commission at the time the costs were incurred, and at the time of such determination the commission finds that the company has proven that the costs were prudent, that the terms and conditions of the financing are reasonable, and that financing under this chapter is more favorable to the customer than other reasonably available alternatives;

(c) The commission has approved inclusion of the expenditures in rate base and has not ordered that they be currently expensed; and

(d) The commission has not required that the measures demonstrate that energy savings have persisted at a certain level for a certain period before approving the cost of these investments as bondable conservation investment.

(2) "Conservation bonds" means bonds, notes, certificates of beneficial interests in trusts, or other evidences of indebtedness or ownership that:

(a) The commission determines at or before the time of issuance are issued to finance or refinance bondable conservation investment by an electrical, gas or water company; and

(b) Rely partly or wholly for repayment on conservation investment assets and revenues arising with respect thereto.

(3) "Conservation investment assets" means the statutory investment assets and revenues arising with respect thereto.

(4) "Finance subsidiary" means any corporation, company, association, joint stock association, or trust that is beneficially owned, directly or indirectly, by an electrical, gas, or water company, or in the case of a trust issuing conservation bonds consisting of beneficial interests, for which an electrical, gas, or water company or a subsidiary thereof is the grantor, or an unaffiliated entity formed for the purpose of financing or refinancing approved conservation investment, and that acquires conservation investment assets directly or indirectly from such company in a transaction approved by the commission. [1994 c 268 § 1.]
tion charges, if any, and fulfilling the requirements of this section, receive the protections of this chapter;

(b) Provides self-certification of household income for the prior twelve months to a grantee of the department of community, trade, and economic development which administers federally funded energy assistance programs. The grantee shall determine that the household income does not exceed the maximum allowed for eligibility under the state’s plan for low-income energy assistance under 42 U.S.C. 8624 and shall provide a dollar figure that is seven percent of household income. The grantee may verify information provided in the self-certification;

(c) Has applied for home heating assistance from applicable government and private sector organizations and certifies that any assistance received will be applied to the current bill and future utility bills;

(d) Has applied for low-income weatherization assistance to the utility or other appropriate agency if such assistance is available for the dwelling;

(e) Agrees to a payment plan and agrees to maintain the payment plan. The plan will be designed both to pay the past due bill by the following October 15 and to pay for continued utility service. If the past due bill is not paid by the following October 15, the customer shall not be eligible for protections under this chapter until the past due bill is paid. The plan shall not require monthly payments in excess of seven percent of the customer’s monthly income plus one-twelfth of any arrearage accrued from the date application is made and thereafter during November 15 through March 15. A customer may agree to pay a higher percentage during this period, but shall not be in default unless payment during this period is less than seven percent of monthly income plus one-twelfth of any arrearage accrued from the date application is made and thereafter. If assistance payments are received by the customer subsequent to implementation of the plan, the customer shall contact the utility to reformulate the plan; and

(f) Agrees to pay the moneys owed even if he or she moves.

(5) The utility shall:

(a) Include in any notice that an account is delinquent and that service may be subject to termination, a description of the customer’s duties in this section;

(b) Assist the customer in fulfilling the requirements under this section;

(c) Be authorized to transfer an account to a new residence when a customer who has established a plan under this section moves from one residence to another within the same utility service area;

(d) Be permitted to disconnect service if the customer fails to honor the payment program. Utilities may continue to disconnect service for those practices authorized by law other than for nonpayment as provided for in this subsection. Customers who qualify for payment plans under this section who default on their payment plans and are disconnected can be reconnected and maintain the protections afforded under this chapter by paying reconnection charges, if any, and by paying all amounts that would have been due and owing under the terms of the applicable payment plan, absent default, on the date on which service is reconnected; and

(e) Advise the customer in writing at the time it disconnects service that it will restore service if the customer contacts the utility and fulfills the other requirements of this section.

(6) A payment plan implemented under this section is consistent with RCW 80.28.080.

(7) Every gas company and electrical company shall offer residential customers the option of a budget billing or equal payment plan. The budget billing or equal payment plan shall be offered low-income customers eligible under the state’s plan for low-income energy assistance prepared in accordance with 42 U.S.C. 8624(C)(1) without limiting availability to certain months of the year, without regard to the length of time the customer has occupied the premises, and without regard to whether the customer is the tenant or owner of the premises occupied.

(8) Every gas company, electrical company and water company shall construct and maintain such facilities in connection with the manufacture and distribution of its product as will be efficient and safe to its employees and the public.

(9) An agreement between the customer and the utility, whether oral or written, shall not waive the protections afforded under this chapter.

(10) In establishing rates or charges for water service, water companies as defined in RCW 80.04.010 may consider the achievement of water conservation goals and the discouragement of wasteful water use practices. Severability—1991 c 347: See RCW 90.42.900.

80.28.020 Commission to fix just, reasonable, and compensatory rates. Whenever the commission shall find, after a hearing had upon its own motion, or upon complaint, that the rates or charges demanded, exacted, charged or collected by any gas company, electrical company or water company, for gas, electricity or water, or in connection therewith, or that the rules, regulations, practices or contracts affecting such rates or charges are unjust, unreasonable, unjustly discriminatory or unduly preferential, or in any wise in violation of the provisions of the law, or that such rates or charges are insufficient to yield a reasonable compensation for the service rendered, the commission shall determine the just, reasonable, or sufficient rates, charges, regulations, practices or contracts to be thereafter observed and in force, and shall fix the same by order. 80.28.022 Water company rates—Reserve account. In determining the rates to be charged by each water company subject to its jurisdiction, the commission may provide for the funding of a reserve account exclusively for the purpose of making capital improvements approved by the department of health as a part of a long-range plan, or required by the department to assure compliance with federal or state drinking water regulations, or to perform construction or maintenance required by the department of ecology to

Legislative findings—Severability—1990 c 132: See note following RCW 43.20.240.

80.28.024 Legislative finding. The legislature finds and declares that the potential for meeting future energy needs through conservation measures, including energy conservation loans, energy audits, the use of alternative energy resources, such as solar energy, wind energy, hydroelectric energy, geothermal energy, and end-use waste heat, may not be realized without incentives to public and private energy utilities. The legislature therefore finds and declares that actions and incentives by state government to promote conservation and the use of renewable resources would be of great benefit to the citizens of this state by encouraging efficient energy use and a reliable supply of energy based upon renewable energy resources. [1993 c 204 § 8; 1980 c 149 § 1.]

Findings—1993 c 204: See note following RCW 35.92.390.

80.28.025 Encouragement of energy cogeneration, conservation, and production from renewable resources—Consideration of water conservation goals. (1) In establishing rates for each gas and electric company regulated by this chapter, the commission shall adopt policies to encourage meeting or reducing energy demand through cogeneration as defined in *RCW 82.35.020, measures which improve the efficiency of energy end use, and new projects which produce or generate energy from renewable resources, such as solar energy, wind energy, hydroelectric energy, geothermal energy, wood, wood waste, municipal wastes, agricultural products and wastes, and end-use waste heat. These policies shall include but are not limited to allowing a return on investment in measures to improve the efficiency of energy end use, cogeneration, or projects which produce or generate energy from renewable resources which return is established by adding an increment of two percent to the rate of return on common equity permitted on the company's other investment. Measures or projects encouraged under this section are those for which construction or installation is begun after June 12, 1980, and before January 1, 1990, and which, at the time they are placed in the rate base, are reasonably expected to save, produce, or generate energy at a total incremental system cost per unit of energy delivered to end use which is less than or equal to the incremental system cost per unit of energy delivered to end use from similarly available conventional energy resources which utilize nuclear energy or fossil fuels and which the gas or electric company could acquire to meet energy demand in the same time period. The rate of return increment shall be allowed for a period not to exceed thirty years after the measure or project is first placed in the rate base.

(2) In establishing rates for water companies regulated by this chapter, the commission may consider the achievement of water conservation goals and the discouragement of wasteful water use practices. [1991 c 347 § 23; 1980 c 149 § 2.]

*Revisor's note: RCW 82.35.020 was repealed by 2005 c 443 § 7, effective July 1, 2006.

Public utility tax exemptions relating to energy conservation and production from renewable resources: RCW 82.16.055.

80.28.030 Commission may order improved quality of commodity—Water companies, board of health standards. Whenever the commission shall find, after such hearing, that the illuminating or heating power, purity or pressure of gas, the efficiency of electric lamp supply, the voltage of the current supplied for light, heat or power, or the purity, quality, volume, and pressure of water, supplied by any gas company, electrical company or water company, as the case may be, is insufficient, impure, inadequate or inefficient, it shall order such improvement in the manufacture, distribution or supply of gas, in the manufacture, transmission or supply of electricity, or in the storage, distribution or supply of water, or in the methods employed by such gas company, electrical company or water company, as will in its judgment be efficient, adequate, and reasonable. Failure of a water company to comply with state board of health standards adopted under RCW 43.20.050(2)(a) or department standards adopted under chapter 70.116 RCW for purity, volume, and pressure shall be prima facie evidence that the water supplied is insufficient, impure, inadequate, or inefficient.

In ordering improvements in the storage, distribution, or supply of water, the commission shall consult and coordinate with the department. In the event that a water company fails to comply with an order of the commission in a timely fashion, the commission may request that the department petition the court to place the company in receivership. [1989 c 207 § 4; 1961 c 14 § 80.28.030. Prior: 1911 c 117 § 54, part; RRS § 10390, part.]

80.28.040 Commission may order improved service—Water companies, noncompliance, receivership. Whenever the commission shall find, after hearing, that any rules, regulations, measurements or the standard thereof, practices, acts or services of any such gas company, electrical company or water company are unjust, unreasonable, improper, insufficient, inefficient or inadequate, or that any service which may be reasonably demanded is not furnished, the commission shall fix the reasonable rules, regulations, measurements or the standard thereof, practices, acts or service to be thereafter furnished, imposed, observed and followed, and shall fix the same by order or rule.

In ordering improvements to the service of any water company, the commission shall consult and coordinate with the department. In the event that a water company fails to comply with an order of the commission within the deadline specified in the order, the commission may request that the department petition the court to place the company in receivership. [1989 c 207 § 5; 1961 c 14 § 80.28.040. Prior: 1911 c 117 § 54, part; RRS § 10390, part.]

80.28.050 Tariff schedules to be filed with commission—Public schedules. Every gas company, electrical company and water company shall file with the commission and shall print and keep open to public inspection schedules in such form as the commission may prescribe, showing all rates and charges made, established or enforced, or to be charged or enforced, all forms of contract or agreement, all rules and regulations relating to rates, charges or service, used or to be used, and all general privileges and facilities granted or allowed by such gas company, electrical company or water company. Duty of company to fix rate for wholesale power on request of public utility district: RCW 54.04.100.

80.28.060 Tariff changes—Statutory notice—Exception—Waiver of provisions during state of emergency. Unless the commission otherwise orders, no change shall be made in any rate or charge or in any form of contract or agreement or in any rule or regulation relating to any rate, charge or service, or in any general privilege or facility which shall have been filed and published by a gas company, electrical company or water company in compliance with the requirements of RCW 80.28.050 except after thirty days’ notice to the commission and publication for thirty days, which notice shall plainly state the changes proposed to be made in the schedule then in force and the time when the change will go into effect and all proposed changes shall be shown by printing, filing and publishing new schedules, or shall be plainly indicated upon the schedules in force at the time and kept open to public inspection. Proposed changes may be suspended by the commission within thirty days or before the stated effective date of the proposed change, whichever is later. The commission, for good cause shown, may allow changes without requiring the thirty days’ notice by duly filing, in such manner as it may direct, an order specifying the changes so to be made and the time when it shall take effect. All such changes shall be immediately indicated upon its schedules by the company affected. When any change is made in any rate or charge, form of contract or agreement, or any rule or regulation relating to any rate or charge or service, or in any general privilege or facility, the effect of which is to increase any rate or charge, then in existence, attention shall be directed on the copy filed with the commission to such increase by some character immediately preceding or following the item in such schedule, such character to be in form as designated by the commission.

During a state of emergency declared under RCW 43.06.010(12), the governor may waive or suspend the operation of this section or any portion of this section or under any administrative rule, and issue any orders to facilitate the operation of state or local government or to promote and secure the safety and protection of the civilian population. [2008 c 181 § 402; 1989 c 152 § 1; 1961 c 14 § 80.28.060. Prior: 1911 c 117 § 28; RRS § 10364.]

Part headings not law—2008 c 181: See note following RCW 43.06.220.

80.28.065 Tariff schedule—Energy conservation—Payment by successive property owners—Notice—Rules. (1) Upon request by an electrical or gas company, the commission may approve a tariff schedule that contains rates or charges for energy conservation measures, services, or payments provided to individual property owners or customers. The tariff schedule shall require the electrical or gas company to enter into an agreement with the property owner or customer receiving services at the time the conservation measures, services, or payments are initially provided. The tariff schedule may allow for the payment of the rates or charges over a period of time and for the application of the payment obligation to successive property owners or customers at the premises where the conservation measures or services were installed or performed or with respect to which the conservation payments were made.

(2) The electrical or gas company shall record a notice of a payment obligation, containing a legal description, resulting from an agreement under this section with the county auditor or recording officer as provided in RCW 65.04.030.

(3) The commission may prescribe by rule other methods by which an electrical or gas company shall notify property owners or customers of any such payment obligation. [1993 c 245 § 2.]

Legislative findings—Intent—1993 c 245: "(1) The legislature finds that:

(a) The ability of utilities to acquire cost-effective conservation measures is instrumental in assuring that Washington citizens have reasonable energy rates and that utilities have adequate energy resources to meet future energy demands;

(b) Customers may be more willing to accept investments in energy efficiency and conservation if real and perceived impediments to property transactions are avoided;

(c) Potential purchasers of real property should be notified of any utility conservation charges at the earliest point possible in the sale.

(2) It is the intent of the legislature to encourage utilities to develop innovative approaches designed to promote energy efficiency and conservation that have limited rate impacts on utility customers. It is not the intent of the legislature to restrict the authority of the utilities and transportation commission to approve tariff schedules.

(3) It is also the intent of the legislature that utilities which establish conservation tariffs should undertake measures to assure that potential purchasers of property are aware of the existence of any conservation tariffs. Measures that may be considered include, but are not limited to:

(a) Recording a notice of a conservation tariff payment obligation, containing a legal description, with the county property records;

(b) Annually notifying customers who have entered agreements of the conservation tariff obligation;

(c) Potential purchasers of real property should be notified of any utility conservation charges at the earliest point possible in the sale.

(d) Customers may be more willing to accept investments in energy efficiency and conservation if real and perceived impediments to property transactions are avoided;

(e) Working with title insurers to provide recorded conservation tariff obligations as an informational note to the preliminary commitment for policy of title insurance." [1993 c 245 § 1.]

80.28.068 Rates—Low-income customers. Upon request by an electrical or gas company, the commission may approve rates, charges, services, and/or physical facilities at a discount for low-income senior customers and low-income customers. Expenses and lost revenues as a result of these discounts shall be included in the company’s cost of service and recovered in rates to other customers. [1999 c 62 § 1.]

80.28.070 Sliding scale of charges permitted. Nothing in this chapter shall be taken to prohibit a gas company, electrical company or water company from establishing a sliding scale of charges, whereby a greater charge is made per unit for a lesser than a greater quantity for gas, electricity or
water, or any service rendered or to be rendered. [1961 c 14 § 80.28.070. Prior: 1911 c 117 § 32; RRS § 10368.]

80.28.074 Legislative declaration. The legislature declares it is the policy of the state to:
(1) Preserve affordable natural gas and electric services to the residents of the state;
(2) Maintain and advance the efficiency and availability of natural gas and electric services to the residents of the state of Washington;
(3) Ensure that customers pay only reasonable charges for natural gas and electric service;
(4) Permit flexible pricing of natural gas and electric services. [1988 c 166 § 1.]

80.28.075 Banded rates—Natural gas and electric services. Upon request by a natural gas company or an electrical company, the commission may approve a tariff that includes banded rates for any nonresidential natural gas or electric service that is subject to effective competition from energy suppliers not regulated by the utilities and transportation commission. "Banded rate" means a rate that has a minimum and maximum rate. Rates may be changed within the rate band upon such notice as the commission may order. [1988 c 166 § 2.]

80.28.080 Published rates to be charged—Exceptions. 80.28.130 Repairs, improvements, changes, additions, or extensions may be directed. Whenever the commission shall find, after hearing had upon its own motion or upon complaint, that repairs or improvements, to, or changes in, any gas plant, electrical plant or water system ought to be made, or that any additions or extensions should reasonably be made thereto, in order to promote the security or convenience of the public or employees, or in order to secure adequate service or facilities for manufacturing, distributing or supplying gas, electricity or water, the commission may enter an order directing that such reasonable repairs, improvements, changes, additions or extensions of such gas plant, electrical plant or water system be made. 80.28.190 Gas companies—Certificate—Violations—Commission powers—Penalty—Fees. (1) No gas company shall, after January 1, 1956, operate in this state any gas plant for hire without first having obtained from the commission under the provisions of this chapter a certificate declaring that public convenience and necessity requires or will require such operation and setting forth the area or areas within which service is to be rendered; but a certificate shall be granted where it appears to the satisfaction of the commission that such gas company was actually operating in good faith, within the confines of the area for which such certificate shall be sought, on June 8, 1955. Any right, privilege, certificate held, owned or obtained by a gas company may be sold, assigned, leased, transferred or inherited as other property, only upon authorization by the commission. The commission shall have power, after hearing, when the applicant requests a certificate to render service in an area already served by a certificate holder under this chapter only when
the existing gas company or companies serving such area will not provide the same to the satisfaction of the commission and in all other cases, with or without hearing, to issue the certificate as prayed for; or for good cause shown to refuse to issue same, or to issue it for the partial exercise only of the privilege sought, and may attach to the exercise of the rights granted by the certificate such terms and conditions as, in its judgment, the public convenience and necessity may require.

(2) The commission may, at any time, by its order duly entered after a hearing had upon notice to the holder of any certificate hereunder, and an opportunity to such holder to be heard, at which it shall be proven that such holder willfully violates or refuses to observe any of its proper orders, rules or regulations, suspend, revoke, alter or amend any certificate issued under the provisions of this section, but the holder of such certificate shall have all the rights of rehearing, review and appeal as to such order of the commission as is provided herein.

(5) Neither this section, RCW 80.28.200, *80.28.210, nor any provisions thereof shall apply or be construed to apply to commerce with foreign nations or commerce among the several states of this union except insofar as the same may be permitted under the provisions of the Constitution of the United States and acts of congress.

(6) The commission shall collect the following miscellaneous fees from gas companies: Application for a certificate of public convenience and necessity or to amend a certificate, twenty-five dollars; application to sell, lease, mortgage or transfer a certificate of public convenience and necessity or any interest therein, ten dollars. 80.28.200 Gas companies—Refunds of charges.

Whenever any gas company whose rates are subject to the jurisdiction of the commission shall receive any refund of amounts charged and collected from it on account of natural gas purchased by it, by reason of any reduction of rates or disallowance of an increase in rates of the seller of such natural gas pursuant to an order of the federal power commission, whether such refund shall be directed by the federal power commission or by any court upon review of such an order or shall otherwise accrue to such company, the commission shall have power after a hearing, upon its own motion, upon complaint, or upon the application of such company, to determine whether or not such refund should be passed on, in whole or in part, to the consumers of such company and to order such company to pass such refund on to its consumers, in the manner and to the extent determined just and reasonable by the commission. [1961 c 14 § 80.28.200. Prior: 1955 c 316 § 5.]

80.28.220 Gas companies—Right of eminent domain—Purposes. Every corporation having for one of its principal purposes the transmission, distribution, sale, or furnishing of natural gas or other type gas for light, heat, or power and holding and owning a certificate of public convenience and necessity from the utilities and transportation commission authorizing the operation of a gas plant, may appropriate, by condemnation, lands and property and interests therein, for the transmission, distribution, sale, or furnishing of such natural gas or other type gas through gas mains or pipelines under the provisions of chapter 8.20 RCW. [1961 c 14 § 80.28.230. Prior: 1957 c 191 § 2.]

80.28.240 Recovery of damages by utility company for tampering, unauthorized connections, diversion of services. (1) A utility may bring a civil action for damages against any person who commits, authorizes, solicits, aids, abets, or attempts to:

(b) Make, or cause to be made, any connection or reconnection with property owned or used by the utility to provide utility service without the authorization or consent of the utility;

(c) Prevent any utility meter or other device used in determining the charge for utility services from accurately performing its measuring function by tampering or by any other means;

(d) Tamper with any property owned or used by the utility to provide utility services; or

(e) Use or receive the direct benefit of all or a portion of the utility service with knowledge of, or reason to believe that, the diversion, tampering, or unauthorized connection existed at the time of the use or that the use or receipt was without the authorization or consent of the utility.

(2) In any civil action brought under this section, the utility may recover from the defendant as damages three times the amount of actual damages, if any, plus the cost of the suit...
and reasonable attorney’s fees, plus the costs incurred on account of the bypassing, tampering, or unauthorized reconnection, including but not limited to costs and expenses for investigation, disconnection, reconnection, service calls, and expert witnesses.

(3) Any damages recovered under this section in excess of the actual damages sustained by the utility may be taken into account by the utilities and transportation commission or other applicable rate-making agency in establishing utility rates.

(4) As used in this section:

(a) "Customer" means the person in whose name a utility service is provided;

(b) "Divert" means to change the intended course or path of electricity, gas, or water without the authorization or consent of the utility;

(c) "Person" means any individual, partnership, firm, association, or corporation or government agency;

(d) "Reconnection" means the commencement of utility service to a customer or other person after service has been lawfully disconnected by the utility;

(f) "Utility" means any electrical company, gas company, or water company as those terms are defined in RCW 80.04.010, and includes any electrical, gas, or water system operated by any public agency; and

(g) "Utility service" means the provision of electricity, gas, water, or any other service or commodity furnished by the utility for compensation. [1989 c 11 § 30; 1985 c 427 § 1.]

Severability—1989 c 11: See note following RCW 9A.56.220.

80.28.250 Water companies—Fire hydrants. A city, town or county may, by ordinance or resolution, require a water company to maintain fire hydrants in the area served by the water company. The utilities and transportation commission has no authority to waive this obligation. [1986 c 119 § 1.]

80.28.260 Adoption of policies to provide financial incentives for energy efficiency programs. (1) The commission shall adopt a policy allowing an incentive rate of return on investment (a) for payments made under RCW 80.27.A.035 and (b) for programs that improve the efficiency of energy end use if priority is given to senior citizens and low-income citizens in the course of carrying out such programs. The incentive rate of return on investments set forth in this subsection is established by adding an increment of two percent to the rate of return on common equity permitted on the company's other investments.

(2) The commission shall consider and may adopt a policy allowing an incentive rate of return on investment in additional programs to improve the efficiency of energy end use or other incentive policies to encourage utility investment in such programs.

(3) The commission shall consider and may adopt other policies to protect a company from a reduction of short-term earnings that may be a direct result of utility programs to increase the efficiency of energy use. These policies may include allowing a periodic rate adjustment for investments in end use efficiency or allowing changes in price structure designed to produce additional new revenue. [1996 c 186 § 520; 1990 c 2 § 9.]

80.28.270 Water companies—Extension, installation, or connection charges. The commission’s jurisdiction over the rates, charges, practices, acts or services of any water company shall include any aspect of line extension, service installation, or service connection. If the charges for such services are not set forth by specific amount in the company’s tariff filed with the commission pursuant to RCW 80.28.050, the commission shall determine the fair, just, reasonable, and sufficient charge for such extension, installation, or connection. In any such proceeding in which there is no specified tariff rate, the burden shall be on the company to prove that its proposed charges are fair, just, reasonable, and sufficient. [1991 c 101 § 2.]

80.28.275 Water companies—Assumption of standard water system—Limited immunity from liability. A water company assuming responsibility for a water system that is not in compliance with state or federal requirements for public drinking water systems, and its agents and employees, are immune from lawsuits or causes of action, based on noncompliance with state or federal requirements for public drinking water systems, which predate the date of assuming responsibility and continue after the date of assuming responsibility, provided that the water company has submitted and is complying with a plan and schedule of improvements approved by the department of health. This immunity shall expire on the earlier of the date the plan of improvements is completed or four years from the date of assuming responsibility. This immunity does not apply to intentional injuries, fraud, or bad faith. [1994 c 292 § 9.]

80.28.280 Compressed natural gas—Motor vehicle refueling stations—Public interest. The legislature finds that compressed natural gas offers significant potential to reduce vehicle emissions and to significantly decrease dependence on petroleum-based fuels. The legislature also finds that well-developed and convenient refueling systems are imperative if compressed natural gas is to be widely used by the public. The legislature declares that the development of compressed natural gas refueling stations are in the public interest. Nothing in this section and RCW 80.28.290 is intended to alter the regulatory practices of the commission or allow the subsidization of one ratepayer class by another. [1991 c 199 § 216.]

80.28.290 Compressed natural gas—Refueling stations—Identify barriers. The commission shall identify barriers to the development of refueling stations for vehicles operating on compressed natural gas, and shall develop policies to remove such barriers. In developing such policies, the commission shall consider providing rate incentives to encourage natural gas companies to invest in the infrastructure required by such refueling stations. 80.28.300 Gas, electrical companies encouraged to provide customers with landscaping information and to request voluntary donations for urban forestry. (1) Gas companies and electrical companies under this chapter are encouraged to provide information to their customers regarding landscaping that includes tree planting for energy conservation.

(2)(a) Gas companies and electrical companies under this chapter may request voluntary donations from their customers for the purposes of urban forestry. The request may be in the form of a check-off on the billing statement or other form of a request for a voluntary donation.

(b) Voluntary donations collected by gas companies and electrical companies under this section may be used by the gas companies and electrical companies to:

(i) Support the development and implementation of evergreen community ordinances, as that term is defined in RCW 35.105.010, for cities, towns, or counties within their service areas; or

(ii) Complete projects consistent with the model evergreen community management plans and ordinances developed under RCW 35.105.050.

(c) Donations received under this section do not contribute to the gross income of a light and power business or gas distribution business under chapter 82.16 RCW. [2008 c 299 § 21; 1993 c 204 § 4.]

Short title—2008 c 299: See note following RCW 35.105.010.

80.28.303 Conservation service tariff—Contents of filing—Rate base—Duties of commission. (1) An electrical, gas, or water company may file a conservation service tariff with the commission. The tariff shall provide:

(a) The terms and conditions upon which the company will offer the conservation measures and services specified in the tariff:

(b) The period of time during which the conservation measures and services will be offered; and

(c) The maximum amount of expenditures to be made during a specified time period by the company on conservation measures and services specified in the tariff.

(2) The commission has the same authority with respect to a proposed conservation service tariff as it has with regard to any other schedule or classification the effect of which is to change any rate or charge, including, without limitation, the power granted by RCW 80.04.130 to conduct a hearing concerning a proposed conservation service tariff and the reasonableness and justness thereof, and pending such hearing and the decision thereon the commission may suspend the operation of the tariff for a period not exceeding ten months from the time the tariff would otherwise go into effect.

(3) An electrical, gas, or water company may from time to time apply to the commission for a determination that specific expenditures may under its tariff constitute bondable conservation investment. A company may request this determination by the commission in separate proceedings for this purpose or in connection with a general rate case. The commission may designate the expenditures as bondable conservation investment as defined in RCW 80.28.005(1) if it finds that such designation is in the public interest.

(4) The commission shall include in rate base all bondable conservation investment. The commission shall approve rates for service by electrical, gas, and water companies at levels sufficient to recover all of the expenditures of the bondable conservation investment included in rate base and the costs of equity and debt capital associated therewith, including, without limitation, the payment of principal, premium, if any, and interest on conservation bonds. The rates so determined may be included in general rate schedules or may be expressed in one or more separate rate schedules. The commission shall not revalue bondable conservation investment for rate-making purposes, to determine that revenues required to recover bondable conservation investment and associated equity and debt capital costs are unjust, unreasonable, or in any way impair or reduce the value of conservation investment assets or that would impair the timing or the amount of revenues arising with respect to conservation investment assets that have been pledged to secure conservation bonds.

(5) Nothing in this chapter precludes the commission from adopting or continuing other conservation policies and programs intended to provide incentives for and to encourage utility investment in improving the efficiency of energy or water end use. However, the policies or programs shall not impair conservation investment assets. This chapter is not intended to be an exclusive or mandatory approach to conservation programs for electrical, gas, and water companies, and no such company is obligated to file conservation service tariffs under this chapter, to apply to the commission for a determination that conservation costs constitute bondable conservation investment within the meaning of this chapter, or to issue conservation bonds.

(6)(a) If a customer of an electrical, gas, or water company for whose benefit the company made expenditures for conservation measures or services ceases to be a customer of such company for one or more of the following reasons, the commission may require that the portion of such conservation expenditures that had been included in rate base but not theretofore recovered in the rates of such company be removed from the rate base of the company:

(i) The customer ceases to be a customer of the supplier of energy or water, and the customer repays to the company the portion of the conservation expenditures made for the benefit of such customer that has not theretofore been recovered in rates of the company; or

(ii) The company sells its property used to serve such customer and the customer ceases to be a customer of the company as a result of such action.

(b) An electrical, gas, or water company may include in a contract for a conservation measure or service, and the
commission may by rule or order require to be included in such contracts, a provision requiring that, if the customer ceases to be a customer of that supplier of energy or water, the customer shall repay to the company the portion of the conservation expenditures made for the benefit of such customer that has not theretofore been recovered in rates of the company. [1994 c 268 § 2.]

### 80.28.306 Conservation bonds—Conservation investment assets as collateral—Priority of security interests—Transfers.

1. Electrical, gas, and water companies, or finance subsidiaries, may issue conservation bonds upon approval by the commission.

2. Electrical, gas, and water companies, or finance subsidiaries may pledge conservation investment assets as collateral for conservation bonds by obtaining an order of the commission approving an issue of conservation bonds and providing for a security interest in conservation investment assets. A security interest in conservation investment assets is created and perfected only upon entry of an order by the commission approving a contract governing the granting of the security interest and the filing with the department of licensing of a UCC-1 financing statement, showing such pledgor as "debtor" and identifying such conservation investment assets and the bondable conservation investment associated therewith. The security interest is enforceable against the debtor and all third parties subject to the rights of any third parties holding security interests in the conservation investment assets perfected in the manner described in this section, if value has been given by the purchasers of conservation bonds. An approved security interest in conservation investment assets is a continuously perfected security interest in all revenues and proceeds arising with respect to the associated bondable conservation investment, whether or not such revenues have accrued. Upon such approval, the priority of such security interest shall be as set forth in the contract governing the conservation bonds. Conservation investment assets constitute property for the purposes of contracts securing conservation bonds whether or not the related revenues have accrued.

3. The relative priority of a security interest created under this section is not defeated or adversely affected by the commingling of revenues arising with respect to conservation investment assets with other funds of the debtor. The holders of conservation bonds shall have a perfected security interest in all cash and deposit accounts of the debtor in which revenues arising with respect to conservation investment assets pledged to such holders have been commingled with other funds, but such perfected security interest is limited to an amount not greater than the amount of such revenues received by the debtor within twelve months before (a) any default under the conservation bonds held by the holders or (b) the institution of insolvency proceedings by or against the debtor, less payments from such revenues to the holders during such twelve-month period. If an event of default occurs under an approved contract governing conservation bonds, the holders of conservation bonds or their authorized representatives, as secured parties, may foreclose or otherwise enforce the security interest in the conservation investment assets securing the conservation bonds, subject to the rights of any third parties holding prior security interests in the conservation investment assets perfected in the manner provided in this section. Upon application by the holders of [or] their representatives, without limiting their other remedies, the commission shall order the sequestration and payment to the holders or their representatives of revenues arising with respect to the conservation investment assets pledged to such holders. Any such order shall remain in full force and effect notwithstanding any bankruptcy, reorganization, or other insolvency proceedings with respect to the debtor. Any surplus in excess of amounts necessary to pay principal, premium, if any, interest, and expenses arising under the contract governing the conservation bonds shall be remitted to the debtor electrical, gas, or water company or the debtor finance subsidiary.

4. The granting, perfection, and enforcement of security interests in conservation investment assets to secure conservation bonds is governed by this chapter rather than by *chapter 62A.9 RCW.*

5. A transfer of conservation investment assets by an electrical, gas, or water company to a finance subsidiary, which such parties have in the governing documentation expressly stated to be a sale or other absolute transfer, in a transaction approved in an order issued by the commission and in connection with the issuance by such finance subsidiary of conservation bonds, shall be treated as a true sale, and not as a pledge or other financing, of such conservation investment assets. According the holders of conservation bonds a preferred right to revenues of the electrical, gas, or water company, or the provision by such company of other credit enhancement with respect to conservation bonds, does not impair or negate the characterization of any such transfer as a true sale.

6. Any successor to an electrical, gas, or water company pursuant to any bankruptcy, reorganization, or other insolvency proceeding shall perform and satisfy all obligations of the company under an approved contract governing conservation bonds, in the same manner and to the same extent as such company before any such proceeding, including, without limitation, collecting and paying to the bondholders or their representatives revenues arising with respect to the conservation investment assets pledged to secure the conservation bonds. [1994 c 268 § 3.]

1. Costs incurred before June 9, 1994, by electrical, gas, or water companies with respect to energy or water conservation measures and services intended to improve the efficiency of energy or water use shall constitute bondable conservation investment for purposes of RCW 80.28.005, 80.28.303, 80.28.306, and this section, if:

   a. The commission has previously issued a rate order authorizing the inclusion of such costs in rate base; and

If the commission finds that the expenditures are a bondable conservation investment, the commission shall by order designate such expenditures as bondable conservation investment, which shall be subject to RCW 80.28.005, 80.28.303, 80.28.306, and this section. In case any such transmission line is or shall be located in part on private right-of-way, the owner thereof shall have the right to construct and operate the same across any county road or county street which intersects the private right-of-way, if the crossing is so constructed and maintained as to do no unnecessary damage: PROVIDED, That any person or corporation constructing the crossing or operating the transmission line on or along the county road or county street shall be liable to the county for all necessary expense incurred in restoring the county road or county street to a suitable condition for travel. every other similar line operated or controlled by it, and between each point on its line or upon any line leased, operated or controlled by it and all points upon the line of any other similar company, whenever a through service and joint rate shall have been established or ordered between any two such points.

(2) If no joint rate covering a through service has been established, the several companies in such through service shall file, print and keep open to public inspection as aforesaid the separately established rates, tolls, rentals, and charges applicable for such through service.

(3) The schedules printed as aforesaid shall plainly state the places between which telecommunications service, or both, will be rendered, and shall also state separately all charges and all privileges or facilities granted or allowed, and any rules or regulations which may in anywise change, affect or determine any of the aggregate of the rates, tolls, rentals or charges for the service rendered.

(4) A schedule shall be plainly printed in large type, and a copy thereof shall be kept by every telecommunications company readily accessible to and for convenient inspection by the public at such places as may be designated by the commission, which schedule shall state the rates charged from such station to every other station on such company’s line, or on any line controlled and used by it within the state.

80.36.110 Tariff changes—Statutory notice—Exception—Waiver of provisions during state of emergency.

(1) Except as provided in subsection (2) of this section, unless the commission otherwise orders, no change shall be made in any rate, toll, rental, or charge, that was filed and published by any telecommunications company in compliance with the requirements of RCW 80.36.100, except after notice as required in this subsection.

(a) For changes to any rate, toll, rental, or charge filed and published in a tariff, the company shall provide thirty days’ notice to the commission and publication for thirty days as required in the case of original schedules in RCW 80.36.100. The notice shall plainly state the changes proposed to be made in the schedule then in force, and the time when the changed rate, toll, or charge will go into effect, and all proposed changes shall be shown by printing, filing and publishing new schedules, or shall be plainly indicated upon the schedules in force at the time and kept open to public inspection. Proposed changes may be suspended by the commission within thirty days or before the stated effective date of the proposed change, whichever is later.

(b) The commission for good cause shown may allow changes in rates, charges, tolls, or rentals without requiring the notice and publication provided for in (a) of this subsection, by an order or rule specifying the change to be made and the time when it takes effect, and the manner in which the change will be filed and published.

(c) When any change is made in any rate, toll, rental, or charge, the effect of which is to increase any rate, toll, rental, or charge then existing, attention shall be directed on the copy filed with the commission to the increase by some character immediately preceding or following the item in the schedule, which character shall be in such a form as the commission may designate.

(2)(a) A telecommunications company may file a tariff that decreases any rate, charge, rental, or toll with ten days' notice to the commission and publication without receiving a special order from the commission when the filing does not contain an offsetting increase to another rate, charge, rental, or toll, and the filing company agrees not to file for an increase to any rate, charge, rental, or toll to recover the revenue deficit that results from the decrease for a period of one year.

(b) A telecommunications company may file a promotional offering to be effective, without receiving a special order from the commission, upon filing with the commission and publication. For the purposes of this section, "promotional offering" means a tariff that, for a period of up to ninety days, waives or reduces charges or conditions of service for existing or new subscribers for the purpose of retaining or increasing the number of customers who subscribe to or use a service.

[(3)] During a state of emergency declared under RCW 43.06.010(12), the governor may waive or suspend the operation or enforcement of this section or any portion of this section or under any administrative rule, and issue any orders to facilitate the operation of state or local government or to promote and secure the safety and protection of the civilian population.

[1985 c 450 § 26; 1961 c 14 § 80.36.120. Prior: 1911 c 117 § 38; RRS § 10374.]

(1) Except as provided in RCW 80.04.130 and 80.36.150, no telecommunications company shall charge, demand, collect or receive different compensation for any service rendered or to be rendered than the charge applicable to such service as specified in its schedule on file and in effect at that time, nor shall any telecommunications company refund or remit, directly or indirectly, any portion of the rate or charge so specified, nor extend to any person or corporation any form of contract or agreement or any rule or regulation or any privilege or facility except such as are specified in its schedule filed and in effect at the time, and regularly and uniformly extended to all persons and corporations under like circumstances for like or substantially similar service.

(2) No telecommunications company subject to the provisions of this title shall, directly or indirectly, give any free or reduced service or any free pass or frank for the transmission of messages by telecommunications between points within this state, except to its officers, employees, agents, pensioners, surgeons, physicians, attorneys-at-law, and their families, and persons and corporations exclusively engaged in charitable and eleemosynary work, and ministers of religion, Young Men’s Christian Associations, Young Women’s Christian Associations; to indigent and destitute persons, and to officers and employees of other telecommunications companies, railroad companies, and street railroad companies.

(a) Facilitate the broad deployment of technological improvements and advanced telecommunications services to underserved areas or underserved customer classes;
(b) Improve the efficiency of the regulatory process;
(c) Preserve or enhance the development of effective competition and protect against the exercise of market power during its development;
(d) Preserve or enhance service quality and protect against the degradation of the quality or availability of efficient telecommunications services;
(e) Provide for rates and charges that are fair, just, reasonable, sufficient, and not unduly discriminatory or preferential; and
(f) Not unduly or unreasonably prejudice or disadvantage any particular customer class.

(2) A telecommunications company or companies subject to traditional rate of return, rate base regulation may petition the commission to establish an alternative form of regulation. The company or companies shall submit with the petition a plan for an alternative form of regulation. The plan shall contain a proposal for transition to the alternative form of regulation and the proposed duration of the plan. The plan must also contain a proposal for ensuring adequate carrier-to-carrier service quality, including service quality standards or performance measures for interconnection, and appropriate enforcement or remedial provisions in the event the company fails to meet service quality standards or performance measures. The commission also may initiate consideration of alternative forms of regulation for a company or companies on its own motion. The commission, after notice and hearing, shall issue an order accepting, modifying, or rejecting the plan within nine months after the petition or motion is filed, unless extended by the commission for good cause. The commission shall order implementation of the alternative plan of regulation unless it finds that, on balance, an alternative plan as proposed or modified fails to meet the considerations stated in subsection (2) of this section.

(3) Not later than sixty days from the entry of the commission’s order, the company or companies affected by the order may file with the commission an election not to proceed with the alternative form of regulation as authorized by the commission.

(4) The commission may waive such regulatory requirements under Title 80 RCW for a telecommunications company subject to an alternative form of regulation as may be appropriate to facilitate the implementation of this section. However, the commission may not waive any grant of legal rights to any person contained in this chapter and chapter 80.04 RCW. The commission may waive different regulatory requirements for different companies or services if such different treatment is in the public interest.

(5) Upon petition by the company, and after notice and hearing, the commission may rescind or modify an alternative form of regulation in the manner requested by the company.

(6) The commission or any person may file a complaint under RCW 80.04.110 alleging that a telecommunications company under an alternative form of regulation has not complied with the terms and conditions set forth in the alternative form of regulation. The complainant shall bear the burden of proving the allegations in the complaint.
(8) During a state of emergency declared under RCW 43.06.010(12), the governor may waive or suspend the operation or enforcement of this section or any portion of this section or under any administrative rule, and issue any orders to facilitate the operation of state or local government or to promote and secure the safety and protection of the civilian population. [2008 c 181 § 414; 2000 c 82 § 1; 1995 c 110 § 5; 1989 c 101 § 1.]

80.36.140 Rates and services fixed by commission, when. Whenever the commission shall find, after a hearing had upon its own motion or upon complaint, that the rates, charges, tolls or rentals demanded, exacted, charged or collected by any telecommunications company for the transmission of messages by telecommunications, or for the rental or use of any telecommunications line, instrument, wire, appliance, apparatus or device or any telecommunications receiver, transmitter, instrument, wire, cable, apparatus, conduit, machine, appliance or device, or any telecommunications extension or extension system, or that the rules, regulations or practices of any telecommunications company affecting such rates, charges, tolls, rentals or service are unjust, unreasonable, unjustly discriminatory or unduly preferential, or in anywise in violation of law, or that such rates, charges, tolls or rentals are insufficient to yield reasonable compensation for the service rendered, the commission shall determine the just and reasonable rates, charges, tolls or rentals to be thereafter observed and in force, and fix the same by order as provided in this title.

Whenever the commission shall find, after such hearing that the rules, regulations or practices of any telecommunications company are unjust or unreasonable, or that the equipment, facilities or service of any telecommunications company is inadequate, inefficient, improper or insufficient, the commission shall determine the just, reasonable, proper, adequate and efficient rules, regulations, practices, equipment, facilities and service to be thereafter installed, observed and used, and fix the same by order or rule as provided in this title. [1985 c 450 § 28; 1961 c 14 § 80.36.140. Prior: 1911 c 117 § 55; RRS § 10391.]

80.36.145 Formal investigation and fact-finding—Alternative to full adjudicative proceeding—Waiver of provisions during state of emergency. (1) The legislature declares that the availability of an alternative abbreviated formal procedure for use by the commission instead of a full adjudicative proceeding may in appropriate circumstances advance the public interest by reducing the time required by the commission for decision and the costs incurred by interested parties and ratepayers. Therefore, the commission is authorized to use formal investigation and fact-finding instead of an adjudicative proceeding under chapter 34.05 RCW when it determines that its use is in the public interest and that a full adjudicative hearing is not necessary to fully develop the facts relevant to the proceeding and the positions of the parties, including intervenors.

(2) The commission may use formal investigation and fact-finding instead of the hearing provided in the following circumstances:

(a) A complaint proceeding under RCW 80.04.110 with concurrence of the respondent when the commission is the complainant or with concurrence of the complainant and respondent when not the commission;

(b) A tariff suspension under RCW 80.04.130; or

(c) A competitive classification proceeding under RCW 80.36.320 and 80.36.330.

(3) In formal investigation and fact-finding the commission may limit the record to written submissions by the parties, including intervenors. The commission shall review the written submissions and, based thereon, shall enter appropriate findings of fact and conclusions of law and its order. When there is a reasonable expression of public interest in the issues under consideration, the commission shall hold at least one public hearing for the receipt of information from members of the public that are not formal intervenors in the proceeding and may elect to convert the proceeding to an adjudicative proceeding at any stage. The assignment of an agency employee or administrative law judge to preside at such public hearing shall not require the entry of an initial order.

(4) The commission shall adopt rules of practice and procedure including rules for discovery of information necessary for the use of formal investigation and fact-finding and for the filing of written submissions. The commission may provide by rule for a number of rounds of written comments: PROVIDED, That the party with the burden of proof shall always have the opportunity to file reply comments.

(5) During a state of emergency declared under RCW 43.06.010(12), the governor may waive or suspend the operation or enforcement of this section or any portion of this section or under any administrative rule, and issue any orders to facilitate the operation of state or local government or to promote and secure the safety and protection of the civilian population. [2008 c 181 § 407; 1989 c 101 § 3.]

Part headings not law—2008 c 181: See note following RCW 43.06.220.

80.36.150 Contracts filed with commission. (1) Every telecommunications company shall file with the commission, as and when required by it, a copy of any contract, agreement or arrangement in writing with any other telecommunications company, or with any other corporation, association or person relating in any way to the construction, maintenance or use of a telecommunications line or service by, or rates and charges over and upon, any such telecommunications line. The commission shall adopt rules that provide for the filing by telecommunications companies on the public record of the essential terms and conditions of every contract for service. The commission shall not require that customer proprietary information contained in contracts be disclosed on the public record.

(2) The commission shall not treat contracts as tariffs or price lists. The commission may require noncompetitive service to be tariffed unless the company demonstrates that the use of a contract is in the public interest based upon a customer requirement or a competitive necessity for deviation from tariffed rates, terms and conditions, or that the contract is for a new service with limited demand.

(3) Contracts shall be for a stated time period and shall cover the costs for the service contracted for, as determined by commission rule or order. Contracts shall be enforceable
80.36.160  **Physical connections may be ordered, routing prescribed, and joint rates established.** In order to provide toll telephone service where no such service is available, or to promote the most expeditious handling or most direct routing of toll messages and conversations, or to prevent arbitrary or unreasonable practices which may result in the failure to utilize the toll facilities of all telecommunications companies equitably and effectively, the commission may, on its own motion, or upon complaint, notwithstanding any contract or arrangement between telecommunications companies, investigate, ascertain and, after hearing, by order (1) require the construction and maintenance of suitable connections between telephone lines for the transfer of messages and conversations at a common point or points and, if the companies affected fail to agree on the proportion of the cost thereof to be borne by each such company, prescribe said proportion of cost to be borne by each; and/or (2) prescribe the routing of toll messages and conversations over such connections and the practices and regulations to be followed with respect to such routing; and/or (3) establish reasonable joint rates or charges by or over said lines and connections and just, reasonable and equitable divisions thereof as between the telecommunications companies participating therein.

This section shall not be construed as conferring on the commission jurisdiction, supervision or control of the rates, service or facilities of any mutual, cooperative or farmer line company or association, except for the purpose of carrying out the provisions of this section. [1985 c 450 § 30; 1961 c 14 § 80.36.160. Prior: 1943 c 68 § 1; 1923 c 118 § 1; 1911 c 117 § 73; Rem. Supp. 1943 § 10409.]

80.36.170  **Unreasonable preference prohibited.** No telecommunications company shall make or give any undue or unreasonable preference or advantage to any person, corporation or locality, or subject any particular person, corporation or locality to any undue or unreasonable prejudice or disadvantage in any respect whatsoever. The commission shall have primary jurisdiction to determine whether any rate, regulation, or practice of a telecommunications company violates this section. This section shall not apply to contracts offered by a telecommunications company classified as competitive or to contracts for services classified as competitive under RCW 80.36.320 and 80.36.330. [1989 c 101 § 4; 1985 c 450 § 31; 1961 c 14 § 80.36.170. Prior: 1911 c 117 § 42; RRS § 10378.]

80.36.180  **Rate discrimination prohibited.** No telecommunications company shall, directly or indirectly, or by any special rate, rebate, drawback or other device or method, unduly or unreasonably charge, demand, collect or receive from any person or corporation a greater or less compensation for any service rendered or to be rendered with respect to communication by telecommunications or in connection therewith, except as authorized in this title or Title 81 RCW than it charges, demands, collects or receives from any other person or corporation for doing a like and contemporaneous service with respect to communication by telecommunications under the same or substantially the same circumstances and conditions. The commission shall have primary jurisdiction to determine whether any rate, regulation, or practice of a telecommunications company violates this section. This section shall not apply to contracts offered by a telecommunications company classified as competitive or to contracts for services classified as competitive under RCW 80.36.320 or 80.36.330. [1989 c 101 § 5; 1985 c 450 § 32; 1961 c 14 § 80.36.180. Prior: 1911 c 117 § 41; RRS § 10377.]

80.36.183  **Discounted message toll rates prohibited—Availability of statewide, averaged toll rates.** Notwithstanding any other provision of this chapter, no telecommunications company shall offer a discounted message toll service based on volume that prohibits aggregation of volumes across all territory with respect to which that company functions as an interexchange carrier. The commission shall continue to have the authority to require statewide, averaged toll rates to be made available by any telecommunications company subject to its jurisdiction. [1989 c 101 § 6.]

80.36.186  **Pricing of or access to noncompetitive services—Unreasonable preference or advantage prohibited.** Notwithstanding any other provision of this chapter, no telecommunications company providing noncompetitive services shall, as to the pricing of or access to noncompetitive services, make or grant any undue or unreasonable preference or advantage to itself or to any other person providing telecommunications service, nor subject any telecommunications company to any undue or unreasonable prejudice or competitive disadvantage. The commission shall have primary jurisdiction to determine whether any rate, regulation, or practice of a telecommunications company violates this section. [1989 c 101 § 7.]

[Title 80 RCW—page 42]
80.36.190 Long and short distance provision. No telecommunications company subject to the provisions of this title shall charge or receive any greater compensation in the aggregate for the transmission of any long distance conversation or message of like kind for a shorter than for a longer distance over the same line, in the same direction, within this state, the shorter being included within the longer distance, or charge any greater compensation for a through service than the aggregate of the intermediate rates subject to the provision of this title, but this shall not be construed as authorizing any such telecommunications company to charge and receive as great a compensation for a shorter as for a longer distance. Upon application of any telecommunications company the commission may, by order, authorize it to charge less for longer than for a shorter distance service for the transmission of conversation or messages in special cases after investigation, but the order must specify and prescribe the extent to which the telecommunications company making such application is relieved from the operation of this section, and only to the extent so specified and prescribed shall any telecommunications company be relieved from the requirements of this section. [1985 c 450 § 33; 1961 c 14 § 80.36.190. Prior: 1911 c 117 § 44; RRS § 10380.]

80.36.195 Telecommunications relay system—Long distance discount rates. Each telecommunications company providing intrastate interexchange voice transmission service shall offer discounts from otherwise applicable long distance rates for service used in conjunction with the statewide relay service authorized under RCW 43.20A.725. Such long distance discounts shall be determined in relation to the additional time required to translate calls through relay operators. In the case of intrastate long distance services provided pursuant to tariff, the commission shall require the incorporation of such discounts. [1992 c 144 § 5.]

80.36.300 Policy declaration. The legislature declares it is the policy of the state to:
(1) Preserve affordable universal telecommunications service;
(2) Maintain and advance the efficiency and availability of telecommunications service;
(3) Ensure that customers pay only reasonable charges for telecommunications service;
(4) Ensure that rates for noncompetitive telecommunications services do not subsidize the competitive ventures of regulated telecommunications companies;
(5) Promote diversity in the supply of telecommunications services and products in telecommunications markets throughout the state; and
(6) Permit flexible regulation of competitive telecommunications companies and services. [1985 c 450 § 1.]

80.36.310 Classification as competitive telecommunications companies, services—Initiation of proceedings—Notice and publication—Effective date—Date for final order. (1) Telecommunications companies may petition to be classified as competitive telecommunications companies under RCW 80.36.320 or to have services classified as competitive telecommunications services under RCW 80.36.330. The commission may initiate classification proceedings on its own motion. The commission may require all regulated telecommunications companies potentially affected by a classification proceeding to appear as parties for a determination of their classification.
(2) Any company petition or commission motion for competitive classification shall state an effective date not sooner than thirty days from the filing date. The company must provide notice and publication of the proposed competitive classification in the same manner as provided in RCW 80.36.110 for tariff changes. 80.36.320 Classification as competitive telecommunications companies, services—Factors considered—Minimal regulation—Reclassification—Waiver of provisions during state of emergency. (1) The commission shall classify a telecommunications company as a competitive telecommunications company if the services it offers are subject to effective competition. Effective competition means that the company’s customers have reasonably available alternatives and that the company does not have a significant captive customer base. In determining whether a company is competitive, factors the commission shall consider include but are not limited to:
(a) The number and sizes of alternative providers of service;
(b) The extent to which services are available from alternative providers in the relevant market;
(c) The ability of alternative providers to make functionally equivalent or substitute services readily available at competitive rates, terms, and conditions; and
(d) Other indicators of market power which may include market share, growth in market share, ease of entry, and the affiliation of providers of services.

The commission shall conduct the initial classification and any subsequent review of the classification in accordance with such procedures as the commission may establish by rule.
(2) Competitive telecommunications companies shall be subject to minimal regulation. The commission may waive any regulatory requirement under this title for competitive telecommunications companies when it determines that competition will serve the same purposes as public interest regulation. The commission may waive different regulatory requirements for different companies if such different treatment is in the public interest. A competitive telecommunications company shall at a minimum:
(a) Keep its accounts according to regulations as determined by the commission;
(b) File financial reports with the commission as required by the commission and in a form and at times prescribed by the commission; and
(c) Cooperate with commission investigations of customer complaints.
(3) The commission may revoke any waivers it grants and may reclassify any competitive telecommunications company if the revocation or reclassification would protect the public interest.
(4) The commission may waive the requirements of RCW 80.36.170 and 80.36.180 in whole or in part for a competitive telecommunications company if it finds that competition will serve the same purpose and protect the public interest.
(5) During a state of emergency declared under RCW 43.06.010(12), the governor may waive or suspend the operation or enforcement of this section or any portion of this section or under any administrative rule, and issue any orders to facilitate the operation of state or local government or to promote and secure the safety and protection of the civilian population. [2008 c 181 § 408; 2006 c 347 § 3; 2003 c 189 § 3; 1998 c 337 § 5; 1989 c 101 § 15; 1985 c 450 § 4.]

80.36.330 Classification as competitive telecommunications companies, services—Effective competition defined— Minimal regulation— Prices and rates—Reclassification— Waiver of provisions during state of emergency. (1) The commission may classify a telecommunications service provided by a telecommunications company as a competitive telecommunications service if the service is subject to effective competition. Effective competition means that customers of the service have reasonably available alternatives and that the service is not provided to a significant captive customer base. In determining whether a service is competitive, factors the commission shall consider include but are not limited to:

(a) The number and size of alternative providers of services, including those not subject to commission jurisdiction;
(b) The extent to which services are available from alternative providers in the relevant market;
(c) The ability of alternative providers to make functionally equivalent or substitute services readily available at competitive rates, terms, and conditions; and
(d) Other indicators of market power, which may include market share, growth in market share, ease of entry, and the affiliation of providers of services.

(2) Competitive telecommunications services are subject to minimal regulation. The commission may waive any regulatory requirement under this title for companies offering a competitive telecommunications service when it determines that competition will serve the same purposes as public interest regulation. The commission may waive different regulatory requirements for different companies if such different treatment is in the public interest. A company offering a competitive telecommunications service shall at a minimum:

(a) Keep its accounts according to rules adopted by the commission;
(b) File financial reports for competitive telecommunications services with the commission as required by the commission and in a form and at times prescribed by the commission; and
(c) Cooperate with commission investigations of customer complaints.

(3) Prices or rates charged for competitive telecommunications services shall cover their cost. The commission shall determine proper cost standards to implement this section, provided that in making any assignment of costs or allocating any revenue requirement, the commission shall act to preserve affordable universal telecommunications service.

(4) The commission may investigate prices for competitive telecommunications services upon complaint. In any complaint proceeding initiated by the commission, the telecommunications company providing the service shall bear the burden of proving that the prices charged cover cost, and are fair, just, and reasonable.

(5) Telecommunications companies shall provide the commission with all data it deems necessary to implement this section.

(6) No losses incurred by a telecommunications company in the provision of competitive services may be recovered through rates for noncompetitive services. The commission may order refunds or credits to any class of subscribers to a noncompetitive telecommunications service which has paid excessive rates because of below cost pricing of competitive telecommunications services.

(7) The commission may reclassify any competitive telecommunications service if reclassification would protect the public interest.

(8) The commission may waive the requirements of RCW 80.36.170 and 80.36.180 in whole or in part for a service classified as competitive if it finds that competition will serve the same purpose and protect the public interest.

(9) During a state of emergency declared under RCW 43.06.010(12), the governor may waive or suspend the operation or enforcement of this section or any portion of this section or under any administrative rule, and issue any orders to facilitate the operation of state or local government or to promote and secure the safety and protection of the civilian population. [2008 c 181 § 409; 2007 c 26 § 1; 2006 c 347 § 4; 2003 c 189 § 4; 1998 c 337 § 6; 1989 c 101 § 16; 1985 c 450 § 5.]

Severability—1998 c 337: See note following RCW 80.36.600.

80.36.332 Noncompetitive telecommunications companies, services—Minimal regulation. (1) A noncompetitive telecommunications company may petition to have packages or bundles of telecommunications services it offers be subject to minimal regulation. The commission shall grant the petition where:

(a) Each noncompetitive service in the packages or bundles is readily and separately available to customers at fair, just, and reasonable prices;
(b) The price of the package or bundle is equal to or greater than the cost for tariffed services plus the cost of any competitive services as determined in accordance with RCW 80.36.330(3); and
(c) The availability and price of the stand-alone noncompetitive services are displayed in the company’s tariff and on its web site consistent with commission rules.

(2) For purposes of this section, "minimal regulation" shall have the same meaning as under RCW 80.36.330.

(3) The commission may waive any regulatory requirement under this title with respect to packages or bundles of telecommunications services if it finds those requirements are no longer necessary to protect public interest. [2007 c 26 § 2.]

80.36.333 Price lists in effect before June 7, 2006— Extension. (1) Until June 30, 2007, a telecommunications company may continue to maintain on file with the commission any price list that, pursuant to RCW 80.36.100,
80.36.320, and 80.36.330, was on file and in effect before June 7, 2006. The price list is subject to the statutes and rules in effect immediately before June 7, 2006.

(2) The commission may, upon petition by a company with a price list on file before June 7, 2006, extend the deadline in subsection (1) of this section until June 30, 2008. The commission may approve an extension only if the petitioning company demonstrates that it cannot reasonably implement a replacement for its price list by June 30, 2007, and that the extension of time will not result in harm to customers or competition. [2006 c 347 § 5.]

80.36.338 Withdrawal of price list—Customer information, opportunity to accept changes in rates, terms, or conditions—Cancellation period. Each company withdrawing a filed price list shall provide each customer receiving service under the price list with information about the rates, terms, and conditions under which the service will continue to be provided. If the rates, terms, and conditions do not change upon withdrawal of the price list, such rates, terms, and conditions shall be binding to the same extent as the price list. If any of the rates, terms, and conditions do change upon withdrawal of the price list, the company must provide each customer with a reasonable opportunity to decide whether to accept the changed rate, term, or condition. If a customer does not cancel service within thirty days after notice of the change is given, the customer will be deemed to have accepted all the rates, terms, and conditions offered by the company. [2006 c 347 § 6.]

80.36.340 Banded rates. The commission may approve a tariff which includes banded rates for any telecommunications service if such tariff is in the public interest. "Banded rate" means a rate which has a minimum and a maximum rate. The minimum rate in the rate band shall cover the cost of the service. Rates may be changed within the rate band upon such notice as the commissioner may order. [1985 c 450 § 6.]

80.36.350 Registration of new companies—Waiver of provisions during state of emergency. Each telecommunications company not operating under tariff in Washington on January 1, 1985, shall register with the commission before beginning operations in this state. The registration shall be on a form prescribed by the commission and shall contain such information as the commission may by rule require, but shall include as a minimum the name and address of the company; the name and address of its registered agent, if any; the name, address, and title of each officer or director; its most current balance sheet; its latest annual report, if any; and a description of the telecommunications services it offers or intends to offer.

The commission may require as a precondition to registration the procurement of a performance bond sufficient to cover any advances or deposits the telecommunications company may collect from its customers, or order that such advances or deposits be held in escrow or trust.

The commission may deny registration to any telecommunications company which:

(1) Does not provide the information required by this section;
(2) Fails to provide a performance bond, if required;
(3) Does not possess adequate financial resources to provide the proposed service; or
(4) Does not possess adequate technical competency to provide the proposed service.

The commission shall take action to approve or issue a notice of hearing concerning any application for registration within thirty days after receiving the application. The commission may approve an application with or without a hearing. The commission may deny an application after a hearing.

A telecommunications company may also submit a petition for competitive classification under RCW 80.36.310 at the time it applies for registration. The commission may act on the registration application and the competitive classification petition at the same time.

During a state of emergency declared under RCW 43.06.010(12), the governor may waive or suspend the operation or enforcement of this section or any portion of this section or under any administrative rule, and issue any orders to facilitate the operation of state or local government or to promote and secure the safety and protection of the civilian population. [2008 c 181 § 410; 1990 c 10 § 1; 1985 c 450 § 7.]

Part headings not law—2008 c 181: See note following RCW 43.06.220.

80.36.360 Exempted actions or transactions. For the purposes of RCW 19.86.170, actions or transactions of competitive telecommunications companies, or associated with competitive telecommunications services, shall not be deemed otherwise permitted, prohibited, or regulated by the commission. [1985 c 450 § 8.]

80.36.370 Certain services not regulated. The commission shall not regulate the following:

(1) One way broadcast or cable television transmission of television or radio signals;
(2) Private telecommunications systems;
(3) Telegraph services;
(4) Any sale, lease, or use of customer premises equipment except such equipment as is regulated on July 28, 1985;
(5) Private shared telecommunications services, unless the commission finds, upon notice and investigation, that customers of such services have no alternative access to local exchange telecommunications companies. If the commission makes such a finding, it may require the private shared telecommunications services provider to make alternative facilities or conduit space available on reasonable terms and conditions at reasonable prices;
(6) Radio communications services provided by a regulated telecommunications company, except that when those services are the only voice grade, local exchange telecommunications service available to a customer of the company the commission may regulate the radio communication service of that company. [1990 c 118 § 1; 1985 c 450 § 9.]

wireless service provider applies to site several microcells and/or minor facilities in a single geographical area:

(a) If one or more of the microcells and/or minor facilities are not exempt from the requirements of RCW 43.21C.030(2)(c), local governmental entities are encouraged: (i) To allow the applicant, at the applicant’s discretion, to file a single set of documents required by chapter 43.21C RCW that will apply to all the microcells and/or minor facilities to be sited; and (ii) to render decisions under chapter 43.21C RCW regarding all the microcells and/or minor facilities in a single administrative proceeding; and

(b) Local governmental entities are encouraged: (i) To allow the applicant, at the applicant’s discretion, to file a single set of documents for land use permits that will apply to all the microcells and/or minor facilities to be sited; and (ii) to render decisions regarding land use permits for all the microcells and/or minor facilities in a single administrative proceeding.

### 80.36.390 Telephone solicitation.

(1) As used in this section, "telephone solicitation" means the unsolicited initiation of a telephone call by a commercial or nonprofit company or organization to a residential telephone customer and conversation for the purpose of encouraging a person to purchase property, goods, or services or soliciting donations of money, property, goods, or services. "Telephone solicitation" does not include:

(a) Calls made in response to a request or inquiry by the called party. This includes calls regarding an item that has been purchased by the called party from the company or organization during a period not longer than twelve months prior to the telephone contact;

(b) Calls made by a not-for-profit organization to its own list of bona fide or active members of the organization;

(c) Calls limited to polling or soliciting the expression of ideas, opinions, or votes; or

(d) Business-to-business contacts.

For purposes of this section, an individual real estate agent or insurance agent who maintains a separate list from other individual real estate or insurance agents shall be treated as a company or organization. For purposes of this section, an organization as defined in *RCW 29.01.090 or 29.01.100 and organized pursuant to *RCW 29.42.010 shall not be considered a commercial or nonprofit company or organization.

(2) A person making a telephone solicitation must identify him or herself and the company or organization on whose behalf the solicitation is being made and the purpose of the call within the first thirty seconds of the telephone call.

(3) If, at any time during the telephone contact, the called party states or indicates that he or she does not wish to be called again by the company or organization or wants to have his or her name and individual telephone number removed from the telephone lists used by the company or organization making the telephone solicitation, then:

(a) The company or organization shall not make any additional telephone solicitation of the called party at that telephone number within a period of at least one year; and

(b) The company or organization shall not sell or give the called party’s name and telephone number to another company or organization: PROVIDED, That the company or organization may return the list, including the called party’s name and telephone number, to the company or organization from which it received the list.

(4) A violation of subsection (2) or (3) of this section is punishable by a fine of up to one thousand dollars for each violation.

(5) The attorney general may bring actions to enforce compliance with this section. For the first violation by any company or organization of this section, the attorney general shall notify the company with a letter of warning that the section has been violated.

(6) A person aggrieved by repeated violations of this section may bring a civil action in superior court to enjoin future violations, to recover damages, or both. The court shall award damages of at least one hundred dollars for each individual violation of this section. If the aggrieved person prevails in a civil action under this subsection, the court shall award the aggrieved person reasonable attorneys’ fees and cost of the suit.

(7) The utilities and transportation commission shall by rule ensure that telecommunications companies inform their residential customers of the provisions of this section. The notification may be made by (a) annual inserts in the billing statements mailed to residential customers, or (b) conspicuous publication of the notice in the consumer information pages of local telephone directories. [1987 c 229 § 13; 1986 c 277 § 2.]

"Reviser’s note: RCW 29.01.090, 29.01.100, and 29.42.010 were recodified as RCW 29A.04.085, 29A.04.097, and 29A.80.010, respectively, pursuant to 2003 c 111 § 2401, effective July 1, 2004. RCW 29A.04.085 and 29A.80.010 were subsequently repealed by 2004 c 271 § 193. Later enactment of RCW 29A.04.085 and 29A.80.010, see RCW 29A.04.086 and 29A.80.011.

Legislative finding—1986 c 277: “The legislature finds that certain kinds of telephone solicitation are increasing and that these solicitations interfere with the legitimate privacy rights of the citizens of the state. A study conducted by the utilities and transportation commission, as directed by the forty-ninth legislature, has found that the level of telephone solicitation in this state is significant to warrant regulatory action to protect the privacy rights of the citizens of the state. It is the intent of the legislature to clarify and establish the rights of individuals to reject unwanted telephone solicitations.” [1986 c 277 § 1.]

Charitable solicitations: Chapter 19.09 RCW.

(2008 Ed.)
80.36.400 Automatic dialing and announcing device—Commercial solicitation by. (1) As used in this section:

(a) An automatic dialing and announcing device is a device which automatically dials telephone numbers and plays a recorded message once a connection is made.

(b) Commercial solicitation means the unsolicited initiation of a telephone conversation for the purpose of encouraging a person to purchase property, goods, or services.

(2) No person may use an automatic dialing and announcing device for purposes of commercial solicitation. This section applies to all commercial solicitation intended to be received by telephone customers within the state.

(3) A violation of this section is a violation of chapter 19.86 RCW. It shall be presumed that damages to the recipient of commercial solicitations made using an automatic dialing and announcing device are five hundred dollars.

(4) Nothing in this section shall be construed to prevent the Washington utilities and transportation commission from adopting additional rules regulating automatic dialing and announcing devices. [1986 c 281 § 2.]

Legislative finding—1986 c 281: "The legislature finds that the use of automatic dialing and announcing devices for purposes of commercial solicitation: (1) Deprives consumers of the opportunity to immediately question a seller about the veracity of their claims; (2) subjects consumers to unwanted invasions of their privacy; and (3) encourages inefficient and potentially harmful use of the telephone network. The legislature further finds that it is in the public interest to prohibit the use of automatic dialing and announcing devices for purposes of commercial solicitation." [1986 c 281 § 1.]

80.36.410 Washington telephone assistance program—Findings. (1) The legislature finds that universal telephone service is an important policy goal of the state. The legislature further finds that: (a) Recent changes in the telecommunications industry, such as federal access charges, raise concerns about the ability of low-income persons to continue to afford access to local exchange telephone service; and (b) many low-income persons making the transition to independence from receiving supportive services through community agencies do not qualify for economic assistance from the department.

(2) Therefore, the legislature finds that: (a) It is in the public interest to take steps to mitigate the effects of these changes on low-income persons; and (b) advances in telecommunications technologies, such as community service voice mail provide new and economically efficient ways to secure many of the benefits of universal service to low-income persons who are not customers of local exchange telephone service. [2003 c 134 § 2; 2002 c 104 § 2; 1987 c 229 § 3.]

Effective date—2003 c 134: See note following RCW 80.36.005.

80.36.420 Washington telephone assistance program—Availability, components. The Washington telephone assistance program shall be available to participants of programs set forth in RCW 80.36.470. Assistance shall consist of the following components:

(1) A discount on service connection fees of fifty percent or more as set forth in RCW 80.36.460.

(2) A waiver of deposit requirements on local exchange service, as set forth in RCW 80.36.460.

(3) A discounted flat rate service for local exchange service, which shall be subject to the following conditions:

(a) The commission shall establish a single telephone assistance rate for all local exchange companies operating in the state of Washington. The telephone assistance rate shall include any federal end user charges and any other charges necessary to obtain local exchange service.

(b) The commission shall, in establishing the telephone assistance rate, consider all charges for local exchange service, including federal end user charges, mileage charges, extended area service, and any other charges necessary to obtain local exchange service.

(c) The telephone assistance rate shall only be available to eligible customers subscribing to the lowest priced local exchange flat rate service, where the lowest priced local exchange flat rate service, including any federal end user charges and any other charges necessary to obtain local exchange service, is greater than the telephone assistance rate.

(d) The cost of providing the service shall be paid, to the maximum extent possible, by a waiver of all or part of federal end user charges and, to the extent necessary, from the telephone assistance fund created by RCW 80.36.430.

(4) A discount on a community service voice mailbox that provides recipients with (a) an individually assigned telephone number; (b) the ability to record a personal greeting; and (c) a secure private security code to retrieve messages. [2003 c 134 § 3; 1990 c 170 § 2; 1987 c 229 § 4.]

Effective date—2003 c 134: See note following RCW 80.36.005.

80.36.430 Washington telephone assistance program—Excise tax—Expenses of community service voice mail. (1) The Washington telephone assistance program shall be funded by a telephone assistance excise tax on all switched access lines and by funds from any federal government or other programs for this purpose. Switched access lines are defined in RCW 82.14B.020. The telephone assistance excise tax shall be applied equally to all residential and business access lines not to exceed fourteen cents per month. The department shall submit an approved annual budget for the Washington telephone assistance program to the department of revenue no later than March 1st prior to the beginning of each fiscal year. The department of revenue shall then determine the amount of telephone assistance excise tax to be placed on each switched access line and shall inform local exchange companies and the utilities and transportation commission of this amount no later than May 1st. The department of revenue shall determine the amount of telephone assistance excise tax by dividing the total of the program budget funded by the telephone assistance excise tax, as submitted by the department, by the total number of switched access lines in the prior calendar year. The telephone assistance excise tax shall be separately identified on each ratepayer’s bill as the "Washington telephone assistance program." All money collected from the telephone assistance excise tax shall be transferred to a telephone assistance fund administered by the department.
(2) Local exchange companies shall bill the fund for their expenses incurred in offering the telephone assistance program, including administrative and program expenses. The department shall disburse the money to the local exchange companies. The department is exempted from having to conclude a contract with local exchange companies in order to effect this reimbursement. The department shall recover its administrative costs from the fund. The department may specify by rule the range and extent of administrative and program expenses that will be reimbursed to local exchange companies.

(3) The department shall enter into an agreement with the department of community, trade, and economic development for an amount not to exceed eight percent of the prior fiscal year’s total revenue for the administrative and program expenses of providing community service voice mail services. The community service voice mail service may include toll-free lines in community action agencies through which recipients can access their community service voice mailboxes at no charge. [2004 c 254 § 2; 2003 c 134 § 4; 1990 c 170 § 3; 1987 c 229 § 5.]

80.36.440 Washington telephone assistance program—Rules. (1) The commission and the department may adopt any rules necessary to implement RCW 80.36.410 through 80.36.470.

(2) Rules necessary for the implementation of community service voice mail services shall be made by the commission and the department in consultation with the department of community, trade, and economic development. [2003 c 134 § 5; 1990 c 170 § 4; 1987 c 229 § 6.]

Effective date—2003 c 134: See note following RCW 80.36.005.

80.36.450 Washington telephone assistance program—Limitation. The Washington telephone assistance program shall limit reimbursement to one residential switched access line per eligible household, or one discounted community service voice mailbox per eligible person. [2003 c 134 § 6; 1993 c 249 § 2; 1987 c 229 § 7.]

Local exchange companies shall waive deposits on local exchange service for eligible subscribers and provide a fifty percent discount on the company’s customary charge for commencing telecommunications service for eligible subscribers. Part or all of the remaining fifty percent of service connection fees may be paid by funds from federal government or other programs for this purpose. The commission or other appropriate agency shall make timely application for any available federal funds. The remaining portion of the connection fee to be paid by the subscriber shall be expressly payable by installment fees spread over a period of months. A subscriber may, however, choose to pay the connection fee in a lump sum. Costs associated with the waiver and discount shall be accounted for separately and recovered from the telephone assistance fund. [2003 c 134 § 7; 1990 c 170 § 5; 1987 c 229 § 8.]

Effective date—2003 c 134: See note following RCW 80.36.005.

The department shall notify the participants of their eligibility.

(2) Participants in community service voice mail programs are eligible for participation in services available under RCW 80.36.420 (1), (2), and (3) after completing use of community service voice mail services. Eligibility shall be for a period including the remainder of the current service year and the following service year. Community agencies shall notify the department of participants eligible under this subsection. [2003 c 134 § 8; 2002 c 104 § 3; 1990 c 170 § 6; 1987 c 229 § 9.]

The report shall also include a description of the geographical distribution of participants, the program’s annual revenue and expenditures, and any recommendations for legislative action. [2003 c 134 § 9; 1990 c 170 § 7.]

Effective date—2003 c 134: See note following RCW 80.36.005.

80.36.500 Information delivery services through exclusive number prefix or service access code. (1) As used in this section:

(a) "Information delivery services" means telephone recorded messages, interactive programs, or other information services that are provided for a charge to a caller through an exclusive telephone number prefix or service access code.

(b) "Information providers" means the persons or corporations that provide the information, prerecorded message, or interactive program for the information delivery service. The information provider generally receives a portion of the revenue from the calls.

(c) "Interactive program" means a program that allows an information delivery service caller, once connected to the information provider’s announcement machine, to use the caller’s telephone device to access more specific information.

(2) The utilities and transportation commission shall by rule require any local exchange company that offers information delivery services to a local telephone exchange to provide each residential telephone subscriber the opportunity to block access to all information delivery services offered
through the local exchange company. The rule shall take effect by October 1, 1988.

(3) All costs of complying with this section shall be borne by the information providers.

(4) The local exchange company shall inform subscribers of the availability of the blocking service through a bill insert and by publication in a local telephone directory. [1991 c 191 § 8; 1988 c 123 § 2.]

Legislative finding, intent—1988 c 123: "(1) The legislature finds that throughout the state there is widespread use of information delivery services, which are also known as information-access telephone services and commonly provided on a designated telephone number prefix. These services operate on a charge-per-call basis, providing revenue for both the information provider and the local exchange company. The marketing practices for these telephone services have at times been misleading to consumers and at other times specifically directed toward minors. The result has been placement of calls by individuals, particularly by children, who are uninformed about the charges that might apply. In addition, children may have secured access to obscene, indecent, and salacious material through these services. The legislature finds that these services can be blocked by certain local exchange companies at switching locations, and that devices exist which allow for blocking within a residence. Therefore, the legislature finds that residential telephone users in the state are entitled to the option of having their phones blocked from access to information delivery services.

(2) It is the intent of the legislature that the utilities and transportation commission and local exchange companies, to the extent feasible, distinguish between information delivery services that are misleading to consumers, directed at minors, or otherwise objectionable and adopt policies and rules that accomplish the purposes of RCW 80.36.500 with the least adverse effect on information delivery services that are not misleading to consumers, directed at minors, or otherwise objectionable." [1988 c 123 § 1.]

Investigation and report by commission: "By October 1, 1988, the commission shall investigate and report to the committees on energy and utilities in the house of representatives and the senate on methods to protect minors from obscene, indecent, and salacious materials available through the use of information delivery services. The investigation shall include a study of personal identification numbers, credit cards, scramblers, and beep-tone devices as methods of limiting access." [1988 c 123 § 3.]

Severability—1988 c 123: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1988 c 123 § 4.]

Information delivery services: Chapter 19.162 RCW.

80.36.510 Legislative finding. The legislature finds that a growing number of companies provide, in a nonresidential setting, telecommunications services necessary to long distance service without disclosing the services provided or the rate, charge or fee. The legislature finds that provision of these services without disclosure to consumers is a deceptive trade practice. [1988 c 91 § 1.]

80.36.520 Disclosure of alternate operator services. The utilities and transportation commission shall by rule require, at a minimum, that any telecommunications company, operating as or contracting with an alternate operator services company, assure appropriate disclosure to consumers of the provision and the rate, charge or fee of services provided by an alternate operator services company.

For the purposes of this chapter, "alternate operator services company" means a person providing a connection to intrastate or interstate long-distance services from places including, but not limited to, hotels, motels, hospitals, and customer-owned pay telephones. [1988 c 91 § 2.]

80.36.522 Alternate operator service companies—Registration—Penalties. All alternate operator service companies providing services within the state shall register with the commission as a telecommunications company before providing alternate operator services. The commission may deny an application for registration of an alternate operator services company if, after a hearing, it finds that the services and charges to be offered by the company are not for the public convenience and advantage. The commission may suspend the registration of an alternate operator services company if, after a hearing, it finds that the company does not meet the service or disclosure requirements of the commission. Any alternate operator services company that provides service without being properly registered with the commission shall be subject to a penalty of not less than five hundred dollars and not more than one thousand dollars for each and every offense. In case of a continuing offense, every day's continuance shall be a separate offense. The penalty shall be recovered in an action as provided in RCW 80.04.400. [1990 c 247 § 2.]

80.36.524 Alternate operator service companies—Rules. The commission may adopt rules that provide for minimum service levels for telecommunications companies providing alternate operator services. The rules may provide a means for suspending the registration of a company providing alternate operator services if the company fails to meet minimum service levels or if the company fails to provide appropriate disclosure to consumers of the protection afforded under this chapter. [1990 c 247 § 3.]

80.36.530 Violation of consumer protection act—Damages. In addition to the penalties provided in this title, a violation of RCW 80.36.510, 80.36.520, or 80.36.524 constitutes an unfair or deceptive act in trade or commerce in violation of chapter 19.86 RCW, the consumer protection act. Acts in violation of RCW 80.36.510, 80.36.520, or 80.36.524 are not reasonable in relation to the development and preservation of business, and constitute matters vitally affecting the public interest for the purpose of applying the consumer protection act, chapter 19.86 RCW. It shall be presumed that damages to the consumer are equal to the cost of the service provided plus two hundred dollars. Additional damages must be proved. [1990 c 247 § 4; 1988 c 91 § 3.]

80.36.540 Telefacsimile messages—Unsolicited transmission—Penalties. (1) As used in this section, "telefacsimile message" means the transmittal of electronic signals over telephone lines for conversion into written text.

(2) No person, corporation, partnership, or association shall initiate the unsolicited transmission of telefacsimile messages promoting goods or services for purchase by the recipient.

(3)(a) Except as provided in (b) of this subsection, this section shall not apply to telefacsimile messages sent to a recipient with whom the initiator has had a prior contractual or business relationship.

(b) A person shall not initiate an unsolicited telefacsimile message under the provisions of (a) of this subsection if the person knew or reasonably should have known that the recipient is a governmental entity.
(4) Notwithstanding subsection (3) of this section, it is unlawful to initiate any telefacsimile message to a recipient who has previously sent a written or telefacsimile message to the initiator clearly indicating that the recipient does not want to receive telefacsimile messages from the initiator.

(5) The unsolicited transmission of telefacsimile messages promoting goods or services for purchase by the recipient is a matter affecting the public interest for the purpose of applying the consumer protection act, chapter 19.86 RCW. The transmission of unsolicited telefacsimile messages is not reasonable in relation to the development and preservation of business. A violation of this section is an unfair or deceptive act in trade or commerce for the purpose of applying the consumer protection act, chapter 19.86 RCW. Damages to the recipient of telefacsimile messages in violation of this section are five hundred dollars or actual damages, whichever is greater.

(6) Nothing in this section shall be construed to prevent the Washington utilities and transportation commission from adopting additional rules regulating transmissions of telefacsimile messages. [1990 c 221 § 1.]

80.36.555 Enhanced 911 service—Residential service required. By January 1, 1997, or one year after enhanced 911 service becomes available or a private switch automatic location identification service approved by the Washington utilities and transportation commission is available from the serving local exchange telecommunications company, whichever is later, any private shared telecommunications services provider that provides service to residential customers shall assure that the telecommunications system is connected to the public switched network such that calls to 911 result in automatic location identification for each residential unit in a format that is compatible with the existing or planned county enhanced 911 system. [1995 c 243 § 3.]

Findings—1995 c 243: "The legislature finds that citizens of the state increasingly rely on the dependability of enhanced 911, a system that allows the person answering an emergency call to immediately determine the location of the emergency without the need of the caller to speak. The legislature further finds that in some cases, calls made from telephones connected to private telephone systems may not be precisely located by the answerer, eliminating some of the benefit of enhanced 911, and that this condition could additionally imperil citizens calling from these locations in an emergency. The legislature also finds that until national standards have been developed to address this condition, information-forwarding requirements should be mandated for only those settings with the most risk, including schools, residences, and some business settings." [1995 c 243 § 1.]

Severability—1995 c 243: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1995 c 243 § 12.]

80.36.560 Enhanced 911 service—Business service required. By January 1, 1997, or one year after enhanced 911 service becomes available or a private switch automatic location identification service approved by the Washington utilities and transportation commission is available from the serving local exchange telecommunications company, whichever is later, any commercial shared services provider of private shared telecommunications services for hire or resale to the general public to multiple unaffiliated business users from a single system shall assure that such a system is connected to the public switched network such that calls to 911 result in automatic location identification for each telephone in a format that is compatible with the existing or planned county enhanced 911 system. This section shall apply only to providers of service to businesses containing a physical area exceeding twenty-five thousand square feet, or businesses on more than one floor of a building, or businesses in multiple buildings. [1995 c 243 § 5.]

80.36.600 Universal service program—Planning and preparation—Commission’s duties—Approval of legislation required—Definitions. (1) The commission shall plan and prepare to implement a program for the preservation and advancement of universal telecommunications service which shall not take effect until the legislature approves the program. The purpose of the universal service program is to benefit telecommunications ratepayers in the state by minimizing implicit sources of support and maximizing explicit sources of support that are specific, sufficient, competitively neutral, and technologically neutral to support basic telecommunications services for customers of telecommunications companies in high-cost locations.

(2) In preparing a universal service program for approval by the legislature, the commission shall:
(a) Estimate the cost of supporting all lines located in high-cost locations and the cost of supporting one primary telecommunications line for each residential or business customer located in high-cost locations;
(b) Determine the assessments that must be made on all telecommunications carriers, and the manner of collection, to provide support for:
(i) All residential and business lines located in high-cost locations;
(ii) Only one primary line for each residential or business customer located in high-cost locations;
(c) Designate those telecommunications carriers serving high-cost locations that are eligible to receive support for the benefit of their customers in those locations;
(d) Adopt or prepare to adopt all necessary rules for administration of the program; and
(e) Provide a schedule of all fees and payments proposed or expected to be proposed by the commission under subsection (3)(d) of this section.

(3) Once a program is approved by the legislature and subsequently established, the following provisions apply unless otherwise directed by the legislature:
(a) All transfers of money necessary to provide the support shall be outside the state treasury and not be subject to appropriation;
(b) The commission may delegate to the commission secretary or other staff the authority to resolve disputes or make other decisions necessary to the administration of the program;
(c) The commission may contract with an independent program administrator subject to the direction and control of the commission and may authorize the establishment of an account or accounts in independent financial institutions that be necessary for administration of the program;
(d) The expenses of an independent program administrator shall be authorized by the commission and shall be paid
out of contributions by the telecommunications carriers participating in the program;  
  
(e) The commission may require the carriers participating in the program, as part of their contribution, to pay into the public service revolving fund the costs of the commission attributable to supervision and administration of the program that are not otherwise recovered through fees paid to the commission.

(4) The commission shall establish standards for review or testing of all telecommunications carriers' compliance with the program for the purpose of ensuring the support received by a telecommunications carrier is used only for the purposes of the program and that each telecommunications carrier is making its proper contribution to the program. The commission may conduct the review or test, or contract with an independent administrator or other person to conduct the review or test.

(5) The commission shall coordinate administration of the program with any federal universal service program and may administer the federal fund in conjunction with the state program if so authorized by federal law.

(6) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Telecommunications carrier" has the same meaning as defined in 47 U.S.C. Sec. 153(44).

(b) "Basic telecommunications services" means the following services:

(i) Single-party service;

(ii) Voice grade access to the public switched network;

(iii) Support for local usage;

(iv) Dual tone multifrequency signaling (touch-tone);

(v) Access to emergency services (911);

(vi) Access to operator services;

(vii) Access to interexchange services;

(viii) Access to directory assistance; and

(ix) Toll limitation services.

(c) "High-cost location" means a location where the cost of providing telecommunications services is greater than a benchmark established by the commission by rule.

(7) Each telecommunications carrier that provides intrastate telecommunication services shall provide whatever information the commission may reasonably require in order to fulfill the commission's responsibilities under subsection (2) of this section. [1999 c 372 § 16; 1998 c 337 § 1.]

Severability—1998 c 337: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1998 c 337 § 8.]

80.36.610 Universal service program—Authority of commission—Rules—Fees—Legislative intent. (1) The commission is authorized to take actions, conduct proceedings, and enter orders as permitted or contemplated for a state commission under the federal telecommunications act of 1996, P.L. 104-104 (110 Stat. 56), but the commission's authority to either establish a new state program or to adopt new rules to preserve and advance universal service under section 254(f) of the federal act is limited to the actions expressly authorized by RCW 80.36.600. The commission may establish by rule fees to be paid by persons seeking commission action under the federal act, and by parties to proceedings under that act, to offset in whole or part the commission's expenses that are not otherwise recovered through fees in implementing the act, but new fees or assessments charged telecommunications carriers to either establish a state program or to adopt rules to preserve and advance universal service under section 254(f) of the federal act do not take effect until the legislature has approved a state universal service program.

(2) The legislature intends that under the future universal service program established in this state:

(a) Every telecommunications carrier that provides intrastate telecommunications services shall contribute, on an equitable and nondiscriminatory basis, to the preservation and advancement of universal service in the state;

(b) The contributions shall be competitively and technologically neutral; and

(c) The universal service program to be established in accordance with RCW 80.36.600 shall not be inconsistent with the requirements of 47 U.S.C. Sec. 254. [1998 c 337 § 2.]

Severability—1998 c 337: See note following RCW 80.36.600.

80.36.620 Universal service program—Rules. Any rules regarding universal service adopted by the utilities and transportation commission shall comply with the purpose, as stated in RCW 80.36.600, for establishing a program for the preservation and advancement of universal telecommunications service. Services to be supported are only those basic services defined in *RCW 80.36.600(7). [1998 c 337 § 3.]

*Reviser's note: RCW 80.36.600 was amended by 1999 c 372 § 16, changing subsection (7) to subsection (6).

Severability—1998 c 337: See note following RCW 80.36.600.

80.36.850 Extended area service defined. As used in RCW 80.36.855, "extended area service" means the ability to call from one exchange to another exchange without incurring a toll charge. [1989 c 282 § 2.]

80.36.855 Extended area service program. Any business, resident, or community may petition for and shall receive extended area service within the service territory of the local exchange company that provides service to the petitioner under the following conditions:

(1) Any customer, business or residential, interested in obtaining extended area service in their community must collect and submit to the commission the signatures of a representative majority of affected customers in the community. A "representative majority" for purposes of this section consists of fifteen percent of the access lines in that community;

(2) After receipt of the signatures, the commission shall authorize a study to be conducted by the affected local exchange company in order to determine whether a community of interest exists for the implementation of extended area service. For purposes of this section a community of interest shall be found if the average number of calls per customer per month from the area petitioning for extended area service to the area to which extended area service will be implemented is at least five;
(3) If a community of interest exists, the commission shall then calculate any increased rate that would be applied to the area which would have extended area service granted to it. This rate shall be based on the charges to a rate group having the same or similar calling capability as set forth in the tariffs of the local exchange telecommunications company involved;

(4) The affected telecommunications company shall be given the opportunity to propose an alternative plan that might be priced differently and that plan shall be included in the poll of subscribers as an alternative under subsection (5) of this section;

(5) After determining the amount of any additional rate, the commission shall notify the subscribers who will be affected by the increased rate and conduct a poll of those subscribers. If a simple majority votes its approval the commission shall order extended area service; and

(6) Any extended area service program adopted pursuant to this section shall be considered experimental and not binding on the commission in subsequent extended area service proceedings. If an extended area service program adopted pursuant to this section results in a revenue deficiency for a local exchange company, the commission shall allocate the resulting revenue requirement in a manner which produces fair, just and reasonable rates for all classes of customers. [1989 c 282 § 3.]

Policy—1989 c 282: "Universal telephone service for the people of the state of Washington is a policy goal of the legislature and has been enacted previously into Washington law. Access to universal and affordable telephone service enhances the economic and social well-being of Washington citizens." [1989 c 282 § 1.]

Program limitations—Report to legislative committees—1989 c 282: "The pilot program specified in sections 2 and 3 of this act applies only to extended area service petitions which meet the conditions under section 3 of this act, and have been filed with the commission by January 1, 1989. Any petitions for extended area service filed after January 1, 1989, shall be addressed under terms and conditions determined by the commission. By December 1, 1990, the commission shall submit to the energy and utilities committees of the house of representatives and the senate a report on extended area service. The report shall include:

(1) The status of any experimental, pilot program which provides extended area service developed under this section, and whether such an extended area service program adopted pursuant to this section shall be considered experimental and not binding on the commission in subsequent extended area service proceedings. If an extended area service program adopted pursuant to this section results in a revenue deficiency for a local exchange company, the commission shall allocate the resulting revenue requirement in a manner which produces fair, just and reasonable rates for all classes of customers. [1989 c 282 § 3.]

Program expiration—1989 c 282: "The extended area service program under sections 2 through 5 of this act shall expire on December 1, 1990, except for any extended area service obtained by any business residence or community and put in place under section 3 of this act." [1989 c 282 § 5.]

80.36.900 Severability—1985 c 450. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected. [1985 c 450 § 42.]

80.36.901 Legislative review of 1985 c 450—1989 c 101. The legislature shall conduct an intensive review of chapter 450, Laws of 1985 during the 1991-1993 biennium to determine whether the purposes of chapter 450, Laws of 1985 have been achieved and if further relaxation of regulatory requirements is in the public interest. [1989 c 101 § 18; 1985 c 450 § 44.]

*Reviser's note: RCW 78.52.020 was repealed by 1994 sp.s. c 9 § 869, effective July 1, 1994.

80.40.020 Declaration concerning the public interest. The underground storage of natural gas will promote the economic development of the state and provide for more economic distribution of natural gas to the domestic, commercial and industrial consumers of this state, thereby serving the public interest. [1963 c 201 § 3.]

80.40.030 Eminent domain. Any natural gas company having received an order under RCW 80.40.040 shall have the right of eminent domain to be exercised in the manner provided in and subject to the provisions of chapter 8.20

[Title 80 RCW—page 53]
RCW to acquire for its use for the underground storage of natural gas any underground reservoir, as well as such other property or interests in property as may be required to adequately maintain and utilize the underground reservoir for the underground storage of natural gas, including easements and rights-of-way for access to and egress from the underground storage reservoir. The right of eminent domain granted hereby shall apply to property or property interests held in private ownership, provided condemnor has exercised good faith in negotiations for private sale or lease. No property shall be taken or damaged until the compensation to be made therefor shall have been ascertained and paid. Any property or interest therein so acquired by any natural gas company shall be used exclusively for the purposes for which it was acquired. Any decree of appropriation hereunder shall define and limit the rights condemned and shall provide for the reversion of such rights to the defendant or defendants or their successors in interest upon abandonment of the underground storage project. Good faith exploration work or development work relative to the storage reservoir is conclusive evidence that its use has not been abandoned. The court may include in such decree such other relevant conditions, covenants and restrictions as it may deem fair and equitable. [1963 c 201 § 4.]

80.40.040 Eminent domain—Application to *oil and gas conservation committee prerequisite to eminent domain—Procedure. Any natural gas company desiring to exercise the right of eminent domain to condemn any property or interest in property for the underground storage of natural gas shall first make application to the *oil and gas conservation committee for an order approving the proposed project. Notice of such application shall be given by the committee to the utilities and transportation commission, to the director of ecology, to the commissioner of public lands, and to all other persons known to have an interest in the property to be condemned. Said notice shall be given in the manner provided by RCW 8.20.020 as amended. The committee shall publish notice of said application at least once each week for three successive weeks in some newspaper of general circulation in the county or counties where the proposed underground storage project is located. If no written requests for hearing on the application are received by the committee within forty-five days from the date of service of notice of the application and publication thereof, the committee may proceed without hearing and issue its order. If a hearing is requested, a public hearing on the application will be held within the county or one of the counties where the proposed underground storage project is located. Any order approving the proposed underground storage project shall contain findings that (1) the underground storage of natural gas in the lands or property sought to be condemned is in the public interest and welfare; (2) the underground reservoir is reasonably practicable, and the applicant has complied with all applicable oil and gas conservation laws of the state of Washington; (3) the underground reservoir sought to be condemned is nonproductive of economically recoverable valuable minerals or materials, or of oil or gas in commercial quantities under either primary or secondary recovery methods, and nonproductive of fresh water in commercial quantities with feasible and reasonable pumping lift; (4) the natural gas company has acquired the right by grant, lease or other agreement to store natural gas under at least sixty-five percent of the area of the surface of the land under which such proposed underground storage reservoir extends; (5) the natural gas company carries public liability insurance or has deposited collateral in amounts satisfactory to the committee or has furnished a financial statement showing assets in a satisfactory amount, to secure payment of any liability resulting from any occurrence arising out of or caused by the operation or use of any underground reservoir or facilities incidental thereto; (6) the underground storage project will not injure, pollute, or contaminate any usable fresh water resources; (7) the underground storage project will not injure, interfere with, or endanger any mineral resources or the development or extraction thereof. The order of the committee may be reviewed in the manner provided by chapter 34.05 RCW: PROVIDED, That if an appeal is not commenced within thirty days of the date of the order of the committee, the same shall be final and conclusive. [1988 c 127 § 35; 1963 c 201 § 5.]

*Reviser's note: The duties of the oil and gas conservation committee were transferred to the department of natural resources by 1994 sp.s. c 9, effective July 1, 1994.

80.40.050 Rights of company using storage—Rights of owners of condemned land and interests therein. All natural gas in an underground reservoir utilized for underground storage, whether acquired by eminent domain or otherwise, shall at all times be the property of the natural gas company utilizing said underground storage, its heirs, successors, or assigns; and in no event shall such gas be subject to any right of the owner of the surface of the land under which said underground reservoir lies or of the owner of any mineral interest therein or of any person other than the said natural gas company, its heirs, successors and assigns to release, produce, take, reduce to possession, or otherwise interfere with or exercise any control thereof: PROVIDED, That the right of condemnation hereby granted shall be without prejudice to the rights of the owner of the condemned lands or of the rights and interest therein to drill or bore through the underground reservoir in such a manner as shall protect the underground reservoir against pollution and against the escape of natural gas in a manner which complies with the orders, rules and regulations of the *oil and gas conservation committee issued for the purpose of protecting underground storage and shall be without prejudice to the rights of the owners of said lands or other rights or interests therein as to all other uses thereof. The additional cost of complying with regulations or orders to protect the underground storage shall be paid by the condemnor. [1963 c 201 § 6.]

80.50.010 Legislative finding—Policy—Intent. The legislature finds that the present and predicted growth in energy demands in the state of Washington requires the development of a procedure for the selection and utilization of sites for energy facilities and the identification of a state position with respect to each proposed site. The legislature recognizes that the selection of sites will have a significant impact upon the welfare of the population, the location and growth of industry and the use of the natural resources of the state.

It is the policy of the state of Washington to recognize the pressing need for increased energy facilities, and to ensure through available and reasonable methods, that the location and operation of such facilities will produce minimal adverse effects on the environment, ecology of the land and its wildlife, and the ecology of state waters and their aquatic life.

It is the intent to seek courses of action that will balance the increasing demands for energy facility location and operation in conjunction with the broad interests of the public. Such action will be based on these premises:

(1) To assure Washington state citizens that, where applicable, operational safeguards are at least as stringent as the criteria established by the federal government and are technically sufficient for their welfare and protection.

(2) To preserve and protect the quality of the environment; to enhance the public’s opportunity to enjoy the aesthetic and recreational benefits of the air, water and land resources; to promote air cleanliness; and to pursue beneficial changes in the environment.

(3) To provide abundant energy at reasonable cost.

(1) The council shall consult with other state agencies, utilities, local municipal governments, public interest groups, tribes, and other interested persons to convey their views to the secretary and the federal energy regulatory commission regarding appropriate limits on federal regulatory authority in the siting of electrical transmission corridors in the state of Washington.

(2) The council is designated as the state authority for purposes of siting transmission facilities under the national energy policy act of 2005 and for purposes of other such rules or regulations adopted by the secretary. The council’s authority regarding transmission facilities is limited to those transmission facilities that are the subject of section 1221 of the national energy policy act and this chapter.

(3) For the construction and modification of transmission facilities that are the subject of section 1221 of the national energy policy act of 2005, the council may: (a) Approve the siting of the facilities; and (b) consider the interstate benefits
expected to be achieved by the proposed construction or modification of the facilities in the state.

(4) When developing recommendations as to the disposition of an application for the construction or modification of transmission facilities under this chapter, the fuel source of the electricity carried by the transmission facilities shall not be considered. [2006 c 196 § 3.]

80.50.060 Energy facilities to which chapter applies—Applications for certification—Forms—Information. (1) The provisions of this chapter apply to the construction of energy facilities which includes the new construction of energy facilities and the reconstruction or enlargement of existing energy facilities where the net increase in physical capacity or dimensions resulting from such reconstruction or enlargement meets or exceeds those capacities or dimensions set forth in RCW 80.50.020 (7) and (15). No construction of such energy facilities may be undertaken, except as otherwise provided in this chapter, after July 15, 1977, without first obtaining certification in the manner provided in this chapter.

(2) The provisions of this chapter apply to the construction, reconstruction, or enlargement of a new or existing energy facility that exclusively uses alternative energy resources and chooses to receive certification under this chapter, regardless of the generating capacity of the project.

(3)(a) The provisions of this chapter apply to the construction, reconstruction, or modification of electrical transmission facilities when:

(i) The facilities are located in a national interest electric transmission corridor as specified in RCW 80.50.045;

(ii) An applicant chooses to receive certification under this chapter, and the facilities are: (A) Of a nominal voltage of at least one hundred fifteen thousand volts and are located in a completely new corridor, except for the terminus of the new facility or interconnection of the new facility with the existing grid, and the corridor is not otherwise used for electrical transmission facilities; and (B) located in more than one jurisdiction that has promulgated land use plans or zoning ordinances; or

(iii) An applicant chooses to receive certification under this chapter, and the facilities are: (A) Of a nominal voltage in excess of one hundred fifteen thousand volts; and (B) located outside an electrical transmission corridor identified in (a)(i) and (ii) of this subsection (3).

(b) For the purposes of this subsection, "modify" means a significant change to an electrical transmission facility and does not include the following: (i) Minor improvements such as the replacement of existing transmission line facilities or supporting structures with equivalent facilities or structures; (ii) the relocation of existing electrical transmission line facilities; (iii) the conversion of existing overhead lines to underground; or (iv) the placing of new or additional conductors, supporting structures, insulators, or their accessories on or replacement of supporting structures already built.

(1) The council shall receive all applications for energy facility site certification. The following fees or charges for application processing or certification monitoring shall be paid by the applicant or certificate holder:

(a) A fee of twenty-five thousand dollars for each proposed site, to be applied toward the cost of the independent consultant study authorized in this subsection, shall accompany the application and shall be a condition precedent to any further consideration or action on the application by the council. The council shall commission its own independent consultant study to measure the consequences of the proposed energy facility on the environment for each site application. The council shall direct the consultant to study any matter which it deems essential to an adequate appraisal of the site. The full cost of the study shall be paid by the applicant: PROVIDED, That said costs exceeding a total of the twenty-five thousand dollars paid pursuant to subsection (1)(a) of this section shall be payable subject to the applicant giving prior approval to such excess amount.

(b) Each applicant shall, in addition to the costs of the independent consultant provided by subsection (1)(a) of this section, pay such reasonable costs as are actually and necessarily incurred by the council and its members as designated in RCW 80.50.030 in processing the application. Such costs shall include, but are not limited to, council member’s wages, employee benefits, costs of a hearing examiner, a court reporter, additional staff salaries, wages and employee benefits, goods and services, travel expenses within the state and miscellaneous expenses, as arise directly from processing such application.

Each applicant shall, at the time of application submission, deposit twenty thousand dollars, or such lesser amount as may be specified by council rule, to cover costs provided for by subsection (1)(b) of this section. Reasonable and necessary costs of the council directly attributable to application processing shall be charged against such deposit.

The council shall submit to each applicant a statement of such expenditures actually made during the preceding calendar quarter which shall be in sufficient detail to explain such expenditures. The applicant shall pay the state treasurer the amount of such statement to restore the total amount on deposit to the originally established level: PROVIDED, That such applicant may, at the request of the council, increase the
amount of funds on deposit to cover anticipated expenses during peak periods of application processing. Any funds remaining unexpended at the conclusion of application processing shall be refunded to the applicant, or at the applicant’s option, credited against required deposits of certificate holders.

(c) Each certificate holder shall pay such reasonable costs as are actually and necessarily incurred by the council for inspection and determination of compliance by the certificate holder with the terms of the certification relative to monitoring the effects of construction and operation of the facility.

Each certificate holder, within thirty days of execution of the site certification agreement, shall deposit twenty thousand dollars, or such other amount as may be specified by council rule, to cover costs provided for by subsection (1)(c) of this section. Reasonable and necessary costs of the council directly attributable to inspection and determination of compliance by the certificate holder with the terms of the certification relative to monitoring the effects of construction and operation of the facility shall be charged against such deposit.

The council shall submit to each certificate holder a statement of such expenditures actually made during the preceding calendar quarter which shall be in sufficient detail to explain such expenditures. The certificate holder shall pay the state treasurer the amount of such statement to restore the total amount on deposit to the originally established level: PROVIDED, That if the actual, reasonable, and necessary expenditures for inspection and determination of compliance in the preceding calendar quarter have exceeded the amount of funds on deposit, such excess costs shall be paid by the certificate holder.

(2) If an applicant or certificate holder fails to provide the initial deposit, or if subsequently required payments are not received within thirty days following receipt of the statement from the council, the council may (a) in the case of the applicant, suspend processing of the application until payment is received; or (b) in the case of a certificate holder, suspend the certification.

(3) All payments required of the applicant or certificate holder under this section are to be made to the state treasurer who shall make payments as instructed by the council from the funds submitted. All such funds shall be subject to state auditing procedures. Any unexpended portions thereof shall be returned to the applicant or certificate holder. [2006 c 196 § 6; 1970 ex.s. c 45 § 8.]

The application for expedited processing shall be submitted to the council in such form and manner and accompanied by such information as may be prescribed by council rule. The council may grant an applicant expedited processing of an application for certification upon finding that the environmental impact of the proposed energy facility is not significant or will be mitigated to a nonsignificant level under RCW 43.21C.031 and the project is found under RCW 80.50.090(2) to be consistent and in compliance with city, county, or regional land use plans or zoning ordinances.

(2) Upon granting an applicant expedited processing of an application for certification, the council shall not be required to:

   (a) Commission an independent study to further measure the consequences of the proposed energy facility or alternative energy resource facility on the environment, notwithstanding the other provisions of RCW 80.50.071; nor

The counsel for the environment shall represent the public and its interest in protecting the quality of the environment. Costs incurred by the counsel for the environment in the performance of these duties shall be charged to the office of the attorney general, and shall not be a charge against the appropriation to the energy facility site evaluation council. He shall be accorded all the rights, privileges and responsibilities of an attorney representing a party in a formal action. This section shall not be construed to prevent any person from being heard or represented by counsel in accordance with the other provisions of this chapter. [1977 ex.s. c 371 § 6; 1970 ex.s. c 45 § 8.]

However, the place of such public hearing shall be as close as practical to the proposed site.

(2) Subsequent to the informational public hearing, the council shall conduct a public hearing to determine whether or not the proposed site is consistent and in compliance with city, county, or regional land use plans or zoning ordinances. If it is determined that the proposed site does conform with existing land use plans or zoning ordinances in effect as of the date of the application, the city, county, or regional plan-
ning authority shall not thereafter change such land use plans or zoning ordinances so as to affect the proposed site.

(3) Prior to the issuance of a council recommendation to the governor under RCW 80.50.100 a public hearing, conducted as an adjudicative proceeding under chapter 34.05 RCW, the administrative procedure act, shall be held. At such public hearing any person shall be entitled to be heard in support of or in opposition to the application for certification.

(4) Additional public hearings shall be held as deemed appropriate by the council in the exercise of its functions under this chapter. [2006 c 205 § 3; 2006 c 196 § 6; 2001 c 214 § 7; 1989 c 175 § 173; 1970 ex.s.c. 45 § 9.]

If the council recommends approval of an application for certification, it shall also submit a draft certification agreement with the report. The council shall include conditions in the draft certification agreement to implement the provisions of this chapter, including, but not limited to, conditions to protect state or local governmental or community interests affected by the construction or operation of the energy facility, and conditions designed to recognize the purpose of laws or ordinances, or rules or regulations promulgated thereunder, that are preempted or superseded pursuant to RCW 80.50.110 as now or hereafter amended.

(2) Within sixty days of receipt of the council’s report the governor shall take one of the following actions:

(a) Approve the application and execute the draft certification agreement;

(b) Reject the application; or

(c) Direct the council to reconsider certain aspects of the draft certification agreement.

The council shall reconsider such aspects of the draft certification agreement by reviewing the existing record of the application or, as necessary, by reopening the adjudicative proceeding for the purposes of receiving additional evidence. 80.50.130  Revocation or suspension of certification—Grounds. Any certification may be revoked or suspended:

(1) For any material false statement in the application or in the supplemental or additional statements of fact or studies required of the applicant when a true answer would have warranted the council’s refusal to recommend certification in the first instance; or
(2) For failure to comply with the terms or conditions of the original certification; or

(3) For violation of the provisions of this chapter, regulations issued thereunder or order of the council. [1970 ex.s. c 45 § 13.]

(a) Review can be made on the administrative record;

(b) Fundamental and urgent interests affecting the public interest and development of energy facilities are involved which require a prompt determination;

(c) Review by the supreme court would likely be sought regardless of the determination of the Thurston county superior court; and

(d) The record is complete for review.

The Thurston county superior court shall assign a petition for review of a decision under RCW 80.50.100 for hearing at the earliest possible date and shall expedite such petition in every way possible. If the court finds that review cannot be limited to the administrative record as set forth in subparagraph (a) of this subsection because there are alleged irregularities in the procedure before the council not found in the record, but finds that the standards set forth in subparagraphs (b), (c), and (d) of this subsection are met, the court shall proceed to take testimony and determine such factual issues raised by the alleged irregularities and certify the petition and its determination of such factual issues to the supreme court. Upon certification, the supreme court shall assign the petition for hearing at the earliest possible date, and it shall expedite its review and decision in every way possible.

(2) Objections raised by any party in interest concerning procedural error by the council shall be filed with the council within sixty days of the commission of such error, or within thirty days of the first public hearing or meeting of the council at which the general subject matter to which the error is related is discussed, whichever comes later, or such objection shall be deemed waived for purposes of judicial review as provided in this section.

(4) Any person knowingly making any false statement, representation, or certification in any document in any NPDES form, notice, or report required by an NPDES permit or in any form, notice, or report required for or by any permit issued pursuant to *RCW 80.50.090(14) shall be deemed guilty of a crime, and upon conviction thereof shall be punished by a fine of up to ten thousand dollars and costs of prosecution.

(5) Every person who violates the provisions of certificates and permits issued or administered by the council shall incur, in addition to any other penalty as provided by law, a penalty in an amount of up to five thousand dollars a day for every such violation. Each and every such violation shall be a separate and distinct offense, and in case of a continuing violation, every day’s continuance shall be and be deemed to be a separate and distinct violation. Every act of commission or omission which procures, aids, or abets in the violation shall be considered a violation under the provisions of this section and subject to the penalty provided in this section. The penalty provided in this section shall be imposed by a notice in writing, either by certified mail with return receipt requested or by personal service, to the person incurring the same from the council describing such violation with reasonable particularity. The council may, upon written application therefor received within fifteen days after notice imposing any penalty is received by the person incurring the penalty, and when
deemed in the best interest to carry out the purposes of this chapter, remit or mitigate any penalty provided in this section upon such terms as the council shall deem proper, and shall have authority to ascertain the facts upon all such applications in such manner and under such regulations as it may deem proper. Any person incurring any penalty under this section may appeal to the same to the council. Such appeals shall be filed within thirty days of receipt of notice imposing any penalty unless an application for remission or mitigation is made to the council. When an application for remission or mitigation is made, such appeals shall be filed within thirty days of receipt of notice from the council setting forth the disposition of the application. Any penalty imposed under this section shall become due and payable thirty days after receipt of a notice imposing the same unless application for remission or mitigation is made or an appeal is filed. When an application for remission or mitigation is made, any penalty incurred hereunder shall become due and payable thirty days after receipt of notice setting forth the disposition of the application unless an appeal is filed from such disposition. Whenever an appeal of any penalty incurred hereunder is filed, the penalty shall become due and payable only upon completion of all review proceedings and the issuance of a final order confirming the penalty in whole or in part. If the amount of any penalty is not paid to the council within thirty days after it becomes due and payable, the attorney general, upon the request of the council, shall bring an action in the name of the state of Washington in the superior court of Thurston county or of any county in which such violator may do business, to recover such penalty. In all such actions the attorneys and rules of evidence shall be the same as an ordinary civil action except as otherwise provided in this chapter. All penalties recovered under this section shall be paid into the state treasury and credited to the general fund.

(6) Civil proceedings to enforce this chapter may be brought by the attorney general or the prosecuting attorney of any county affected by the violation on his own motion or at the request of the council. Criminal proceedings to enforce this chapter may be brought by the prosecuting attorney of any county affected by the violation on his own motion or at the request of the council.

(7) The remedies and penalties in this section, both civil and criminal, shall be cumulative and shall be in addition to any other penalties and remedies available at law, or in equity, to any person. [1979 ex.s. c 254 § 2; 1979 c 41 § 1; 1977 ex.s. c 371 § 12; 1970 ex.s. c 45 § 15.]

Reviser's note: (1) This section was amended by 1979 c 41 § 1 and by 1979 ex.s. c 254 § 2, each without reference to the other. Both amendments are incorporated in the publication of this section pursuant to RCW 1.12.025(2). For rule of construction, see RCW 1.12.025(1).

(2) The reference to RCW 80.50.090(14) appears to be in error; that section has only four subsections and concerns public hearings, not issuance of permits. RCW 80.50.040(12) relates to issuance of permits.

80.50.160 Availability of information. The council shall make available for public inspection and copying during regular office hours at the expense of any person requesting copies, any information filed or submitted pursuant to this chapter. [1970 ex.s. c 45 § 16.]

80.50.175 Study of potential sites—Fee—Disposition of payments. (1) In addition to all other powers conferred on the council under this chapter, the council shall have the powers set forth in this section.

(2) The council, upon request of any potential applicant, is authorized, as provided in this section, to conduct a preliminary study of any potential site prior to receipt of an application for site certification. A fee of ten thousand dollars for each potential site, to be applied toward the cost of any study agreed upon pursuant to subsection (3) of this section, shall accompany the request and shall be a condition precedent to any action on the request by the council.

(3) After receiving a request to study a potential site, the council shall commission its own independent consultant to study matters relative to the potential site. The study shall include, but need not be limited to, the preparation and analysis of environmental impact information for the proposed potential site and any other matter the council and the potential applicant deem essential to an adequate appraisal of the potential site. In conducting the study, the council is authorized to cooperate and work jointly with the county or counties in which the potential site is located, any federal, state, or local governmental agency that might be requested to comment upon the potential site, and any municipal or public corporation having an interest in the matter. The full cost of the study shall be paid by the potential applicant: PROVIDED, That such costs exceeding a total of ten thousand dollars shall be payable subject to the potential applicant giving prior approval to such excess amount.

(4) Any study prepared by the council pursuant to subsection (3) of this section may be used in place of the "detailed statement" required by RCW 43.21C.030(2)(c) by any branch of government except the council created pursuant to chapter 80.50 RCW.

(5) All payments required of the potential applicant under this section are to be made to the state treasurer, who in turn shall pay the consultant as instructed by the council. All such funds shall be subject to state auditing procedures. Any unexpended portions thereof shall be returned to the potential applicant.

(6) Nothing in this section shall change the requirements for an application for site certification or the requirement of payment of a fee as provided in RCW 80.50.071, or change the time for disposition of an application for certification as provided in RCW 80.50.100.

(7) Nothing in this section shall be construed as preventing a city or county from requiring any information it deems appropriate to make a decision approving a particular location. [1983 c 3 § 205; 1977 ex.s. c 371 § 13; 1975-76 2nd ex.s. c 108 § 40; 1974 ex.s. c 110 § 2.]

Severability—Effective date—1975-76 2nd ex.s. c 108: See notes following RCW 43.21F.010.

80.50.180 Proposals and actions by other state agencies and local political subdivisions pertaining to energy facilities exempt from "detailed statement" required by RCW 43.21C.030. Except for actions of the council under chapter 80.50 RCW, all proposals for legislation and other actions of any branch of government of this state, including state agencies, municipal and public corporations, and counties, to the extent the legislation or other action involved approves, authorizes, permits, or establishes procedures solely for approving, authorizing or permitting, the location,
financing or construction of any energy facility subject to certification under chapter 80.50 RCW, shall be exempt from the "detailed statement" required by RCW 43.21C.030. Nothing in this section shall be construed as exempting any action of the council from any provision of chapter 43.21C RCW. [1977 ex.s. c 371 § 14.]

80.50.190 Disposition of receipts from applicants. The state general fund shall be credited with all receipts from applicants paid to the state pursuant to chapter 80.50 RCW. Such funds shall be used only by the council for the purposes set forth in chapter 80.50 RCW. All expenditures shall be authorized by law. [1977 ex.s. c 371 § 15.]

80.50.300 Unfinished nuclear power projects—Transfer of all or a portion of a site to a political subdivision or subdivisions of the state—Water rights. (1) This section applies only to unfinished nuclear power projects. If a certificate holder stops construction of a nuclear energy facility before completion, terminates the project or otherwise resolves not to complete construction, never introduces or stores fuel for the energy facility on the site, and never operates the energy facility as designed to produce energy, the certificate holder may contract, establish interlocal agreements, or use other formal means to effect the transfer of site restoration responsibilities, which may include economic development activities, to any political subdivision or subdivisions of the state composed of elected officials. The contracts, interlocal agreements, or other formal means of cooperation may include, but are not limited to provisions effecting the transfer or conveyance of interests in the site and energy facilities from the certificate holder to other political subdivisions of the state, including costs of maintenance and security, capital improvements, and demolition and salvage of the unused energy facilities and infrastructure.

(2) If a certificate holder transfers all or a portion of the site to a political subdivision or subdivisions of the state composed of elected officials and located in the same county as the site, the council shall amend the site certification agreement to release those portions of the site that it finds are no longer intended for the development of an energy facility.

Immediately upon release of all or a portion of the site pursuant to this section, all responsibilities for maintaining the public welfare for portions of the site transferred, including but not limited to health and safety, are transferred to the political subdivision or subdivisions of the state. For sites located on federal land, all responsibilities for maintaining the public welfare for all of the site, including but not limited to health and safety, must be transferred to the political subdivision or subdivisions of the state irrespective of whether all or a portion of the site is released.

(3) The legislature finds that for all or a portion of sites that have been transferred to a political subdivision or subdivisions of the state prior to September 1, 1999, ensuring water for site restoration including economic development, completed pursuant to this section can best be accomplished by a transfer of existing surface water rights, and that such a transfer is best accomplished administratively through procedures set forth in existing statutes and rules. However, if a transfer of water rights is not possible, the department of ecology shall, within six months of the transfer of the site or portion thereof pursuant to subsection (1) of this section, create a trust water right under chapter 90.42 RCW containing between ten and twenty cubic feet per second for the benefit of the appropriate political subdivision or subdivisions of the state. The trust water right shall be used in fulfilling site restoration responsibilities, including economic development. The trust water right shall be from existing valid water rights within the basin where the site is located.

(4) For purposes of this section, "political subdivision or subdivisions of the state" means a city, town, county, public utility district, port district, or joint operating agency. [2000 c 243 § 1; 1996 c 4 § 2.]

80.50.310 Council actions—Exemption from chapter 43.21C RCW. Council actions pursuant to the transfer of the site or portions of the site under RCW 80.50.300 are exempt from the provisions of chapter 43.21C RCW. [1996 c 4 § 3.]

80.50.320 Governor to evaluate council efficiency, make recommendations. The governor shall undertake an evaluation of the operations of the council to assess means to enhance its efficiency. The assessment must include whether the efficiency of the siting process would be improved by conducting the process under the state environmental policy act in a particular sequence relative to the adjudicative proceeding. The results of this assessment may include recommendations for administrative changes, statutory changes, or expanded staffing levels. [2001 c 214 § 8.]

Severability—Effective date—2001 c 214: See notes following RCW 80.50.010.

Findings—2001 c 214: See note following RCW 39.35.010.

80.50.330 Preapplication—Siting electrical transmission facilities—Corridors. (1) For applications to site electrical transmission facilities, the council shall conduct a preapplication process pursuant to rules adopted by the council to govern such process, receive applications as prescribed in RCW 80.50.071, and conduct public meetings pursuant to RCW 80.50.090.

(2) The council shall consider and may recommend certification of electrical transmission facilities in corridors designated for this purpose by affected cities, towns, or counties:

(a) Where the jurisdictions have identified electrical transmission facility corridors as part of their land use plans and zoning maps based on policies adopted in their plans;

(b) Where the proposed electrical transmission facility is consistent with any adopted development regulations that govern the siting of electrical transmission facilities in such corridors; and

(c) Where contiguous jurisdictions and jurisdictions in which related regional electrical transmission facilities are located have either prior to or during the preapplication process undertaken good faith efforts to coordinate the locations of their corridors consistent with RCW 36.70A.100.

(3)(a) In the absence of a corridor designation in the manner prescribed in subsection (2) of this section, the council shall as part of the preapplication process require the applicant to negotiate, as provided by rule adopted by the council, for a reasonable time with affected cities, towns, and
counties to attempt to reach agreement about a corridor plan. The application for certification shall identify only the corridor agreed to by the applicant and cities, towns, and counties within the proposed corridor pursuant to the preapplication process.

(b) If no corridor plan is agreed to by the applicant and cities, towns, and counties pursuant to (a) of this subsection, the applicant shall propose a recommended corridor and electrical transmission facilities to be included within the proposed corridor.

(c) The council shall consider the applicant’s proposed corridor and electrical transmission facilities as provided in RCW 80.50.090 (2) and (4), and shall make a recommendation consistent with RCW 80.50.090 and 80.50.100. [2007 c 325 § 3.]

80.50.340 Preapplication—Fees—Plans. (1) A preapplicant shall pay to the council a fee of ten thousand dollars to be applied to the cost of the preapplication process as a condition precedent to any action by the council, provided that costs in excess of this amount shall be paid only upon prior approval by the preapplicant, and provided further that any unexpended portions thereof shall be returned to the preapplicant.

(2) The council shall consult with the preapplicant and prepare a plan for the preapplication process which shall commence with an informational public hearing within sixty days after the receipt of the preapplication fee as provided in RCW 80.50.090.

(3) The preapplication plan shall include but need not be limited to:

(a) An initial consultation to explain the proposal and request input from council staff, federal and state agencies, cities, towns, counties, port districts, tribal governments, property owners, and interested individuals;

(b) Where applicable, a process to guide negotiations between the preapplicant and cities, towns, and counties within the corridor proposed pursuant to RCW 80.50.330. [2007 c 325 § 4.]

80.50.350 National interest electric transmission corridors task force—Duties—Recommendations. (Expires July 1, 2009.) (1)(a) A legislative task force on national interest electric transmission corridors is established, with members as provided in this subsection.

(i) The chair and the ranking minority member from the senate water, energy and telecommunications committee or their designees;

(ii) The chair and the ranking minority member from the house of representatives technology, energy and communications committee or their designees;

(iii) The governor shall appoint five members representing the energy facility site evaluation council, local governments, resource agencies, or other persons with appropriate expertise;

(b) The task force shall choose its cochairs representing the senate and house of representatives from among its legislative membership.

(2)(a) The task force shall negotiate the terms of an interstate compact that establishes a regional process for siting national interest electric transmission corridors satisfactory to the national energy policy act of 2005.

(b) In negotiating the terms of the compact, the task force shall ensure that the compact reflects as close as possible the Washington state energy facility site evaluation council model under this chapter and its procedures to ensure appropriate adjudicative proceedings and mitigation of environmental impacts.

(c) The task force shall negotiate the terms of the compact through processes established and supported by the Pacific Northwest economic region for which the state of Washington is a party as referenced in RCW 43.147.010.

(3) Staff support for the task force members shall be provided from respective committees and appropriate agencies appointed by the governor.

(4) Legislative members of the task force shall be reimbursed for travel expenses in accordance with RCW 44.04.120. Nonlegislative members, except those representing an employer or organization, are entitled to be reimbursed for travel expenses in accordance with RCW 43.03.050 and 43.03.060.

(5) The task force shall report its preliminary recommendations on the compact to the appropriate committees of the legislature by January 1, 2008.

(6) The task force shall report its final recommendations on the compact to the appropriate committees of the legislature by September 1, 2008.

(7) This section expires July 1, 2009. [2007 c 326 § 2.]

Intent—2007 c 326: “It is the intent of the legislature to create a regional process for the siting of new electric transmission lines related to the national energy policy act of 2005. This regional process will facilitate the siting of new cross borders electric transmission lines by providing a “one stop” licensing process. This act calls for the creation of a legislative task force to establish an interstate compact to assert jurisdiction over national interest electric transmission corridors.” [2007 c 326 § 1.]

80.52.010 Short title. This chapter may be cited as the Washington state energy financing voter approval act. [1981 2nd ex.s. c 6 § 1 (Initiative Measure No. 394, approved November 3, 1981).]

80.52.020 Purpose. The purpose of this chapter is to provide a mechanism for citizen review and approval of proposed financing for major public energy projects. The development of dependable and economic energy sources is of paramount importance to the citizens of the state, who have an interest in insuring that major public energy projects make the best use of limited financial resources. Because the construction of major public energy projects will significantly increase utility rates for all citizens, the people of the state hereby establish a process of voter approval for such projects. [1981 2nd ex.s. c 6 § 2 (Initiative Measure No. 394, approved November 3, 1981).]

80.52.030 Definitions. The definitions set forth in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Public agency" means a public utility district, joint operating agency, city, county, or any other state governmental agency, entity, or political subdivision.

(2) "Major public energy project" means a plant or installation capable, or intended to be capable, of generating electricity in an amount greater than three hundred fifty megawatts, measured using maximum continuous electric generating capacity, less minimum auxiliary load, at average ambient temperature and pressure. Where two or more such plants are located within the same geographic site, each plant shall be considered a major public energy project. An addition to an existing facility is not deemed to be a major energy project unless the addition itself is capable, or intended to be capable, of generating electricity in an amount greater than three hundred fifty megawatts. A project which is under construction on July 1, 1982, shall not be considered a major public energy project unless the official agency budget or estimate for total construction costs for the project as of July 1, 1982, is more than two hundred percent of the first official estimate of total construction costs as specified in the senate energy and utilities committee WPPSS inquiry report, volume one, January 12, 1981, and unless, as of July 1, 1982, the projected remaining cost of construction for that project exceeds two hundred million dollars.

(3) "Cost of construction" means the total cost of planning and building a major public energy project and placing it into operation, including, but not limited to, planning cost, direct construction cost, licensing cost, cost of fuel inventory for the first year's operation, interest, and all other costs incurred prior to the first day of full operation, whether or not incurred prior to July 1, 1982.

(4) "Cost of acquisition" means the total cost of acquiring a major public energy project from another party, including, but not limited to, principal and interest costs.

(5) "Bond" means a revenue bond, a general obligation bond, or any other indebtedness issued by a public agency or its assignee.

(6) " Applicant" means a public agency, or the assignee of a public agency, requesting the secretary of state to conduct an election pursuant to this chapter.

(7) "Cost-effective" means that a project or resource is forecast:

(a) To be reliable and available within the time it is needed; and

(b) To meet or reduce the electric power demand of the intended consumers at an estimated incremental system cost no greater than that of the least-cost similarly reliable and available alternative project or resource, or any combination thereof.

(8) "System cost" means an estimate of all direct costs of a project or resource over its effective life, including, if applicable, the costs of distribution to the consumer, and, among other factors, waste disposal costs, end-of-cycle costs, and fuel costs (including projected increases), and such quantifiable environmental costs and benefits as are directly attributable to the project or resource. [2002 c 190 § 1; 1995 c 69 § 2; 1981 2nd ex.s. c 6 § 3 (Initiative Measure No. 394, approved November 3, 1981).]

80.52.040 Election approval required before issuance of bonds. No public agency or assignee of a public agency may issue or sell bonds to finance the cost of construction or the cost of acquisition of a major public energy project, or any portion thereof, unless it has first obtained authority for the expenditure of the funds to be raised by the sale of such bonds for that project at an election conducted in the manner provided in this chapter. [1981 2nd ex.s. c 6 § 4 (Initiative Measure No. 394, approved November 3, 1981).]

80.52.050 Conduct of election. The election required under RCW 80.52.040 shall be conducted in the manner provided in this section.

(a) If the applicant is a public utility district, joint operating agency, city, or county, the election shall be among the voters of the public utility district, city, or county, or among the voters of the local governmental entities comprising the membership of the joint operating agency.

(b) If the applicant is any public agency other than those described in subsection (1)(a) of this section, or is an assignee of a joint operating agency and not itself a joint operating agency, the election shall be among the voters of the local governmental entities comprising the membership of the joint operating agency that will control the project or resource.
Energy Financing Voter Approval Act

80.52.070 Approval of request for financing authority. A request for financing authority pursuant to this chapter shall be considered approved if it receives the approval of a majority of those voting on the request. [1981 2nd ex.s. c 6 § 7 (Initiative Measure No. 394, approved November 3, 1981).]

80.52.080 Priorities. In planning for future energy expenditures, public agencies shall give priority to projects and resources which are cost-effective. Priority for future bond sales to finance energy expenditures by public agencies shall be given: First, to conservation; second, to renewable resources; third, to generating resources utilizing waste heat increase shall be that which will be necessary to repay the total indebtedness incurred for the project, including estimated interest;
   (f) A summary of the final cost-effectiveness study conducted under subsection (4) of this section;
   (g) The anticipated functional life of the project;
   (h) The anticipated decommissioning costs of the project;
   (i) If a special election is requested by the applicant, the reasons for requesting a special election. [1982 c 88 § 1; 1981 2nd ex.s. c 6 § 5 (Initiative Measure No. 394, approved November 3, 1981).]

Reviser’s note: *(1) Title 29 RCW was repealed and/or recodified pursuant to 2003 c 111, effective July 1, 2004. See Title 29A RCW.
***(2) RCW 29.13.010 and 29.13.045 were recodified as RCW 29A.04.320 and 29A.04.410, respectively, pursuant to 2003 c 111 § 2401, effective July 1, 2004. RCW 29A.04.320 was subsequently repealed by 2004 c 271 § 193. Later enactment of RCW 29A.04.320, see RCW 29A.04.321.

Effective date—1982 c 88: “This act shall take effect on July 1, 1982.” [1982 c 88 § 2.]

80.52.060 Form of ballot propositions. The proposition for each major public energy project listed upon a ballot pursuant to this chapter shall be in the form provided in this section.
   (1) If the funds are intended to finance the planning or construction of all or a portion of the project, the proposition shall read substantially as follows:

"Shall ____(name of applicant)____ be authorized to spend ____(dollar amount of financing authority requested)___ to construct the ____(name of the project)______ (type of project) located at ____(location)____, the anticipated total construction cost of which is ____(anticipated cost of construction)___?"

(2) If the financing authority is intended to finance the acquisition of all or a portion of the project from another party, the proposition shall read substantially as follows:

"Shall ____(name of applicant)____ be authorized to spend ____(dollar amount of financing authority requested)___ to acquire the ____(name of project)____ (type of project) located at ____(location)____, the anticipated total acquisition cost of which is ____(anticipated cost of acquisition)___?"

[1981 2nd ex.s. c 6 § 6 (Initiative Measure No. 394, approved November 3, 1981).]

80.52.040 Information required. The application for financing authority shall include the following information:
   (a) The name, location, and type of major public energy project, expressed in common terms;
   (b) The dollar amount and type of bonds being requested;
   (c) If the bond issuance is intended to finance the acquisition of all or a portion of the project, the anticipated total cost of the acquisition of the project;
   (d) If the bond issuance is intended to finance the planning or construction of all or a portion of the project, the anticipated total cost of construction of the project;
   (e) The projected average rate increase for consumers of the electricity to be generated by the project. The rate

or generating resources of high fuel-conversion efficiency; and fourth, to all other resources. This section does not apply to projects which are under construction on December 3, 1981. [1981 2nd ex.s. c 6 § 8 (Initiative Measure No. 394, approved November 3, 1981).]

80.52.900 Severability—1981 2nd ex.s. c 6. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected. 1) "Attachment" means any wire or cable for the transmission of intelligence by telecommunications or television, including cable television, light waves, or other phenomena, or for the transmission of electricity for light, heat, or power, and any related device, apparatus, or auxiliary equipment, installed upon any pole or in any telecommunication, electrical, cable television, or communications right-of-way, duct, conduit, manhole or handhole, or other similar facilities owned or controlled, in whole or in part, by one or more utilities, where the installation has been made with the consent of the one or more utilities.

2) "Licensee" means any person, firm, corporation, partnership, company, association, joint stock association, or cooperatively organized association, other than a utility, which is authorized to construct attachments upon, along, under, or across the public ways.

3) "Utility" means any electrical company or telecommunication company as defined in RCW 80.04.010, and does not include any entity cooperatively organized, or owned by federal, state, or local government, or a subdivision of state or local government. [1985 c 450 § 40; 1979 c 33 § 1.]

Severability—Legislative review—1985 c 450: See RCW 80.36.900 and 80.36.901.

80.54.020 Regulation of rates, terms, and conditions—Criteria. The commission shall have the authority to regulate in the public interest the rates, terms, and conditions for attachments by licensees or utilities. All rates, terms, and conditions made, demanded, or received by any utility for any attachment by a licensee or by a utility must be just, fair, reasonable, and sufficient. [1979 c 33 § 2.]

80.54.030 Commission order fixing rates, terms, or conditions. Whenever the commission shall find, after hearing had upon complaint by a licensee or by a utility, that the rates, terms, or conditions demanded, exacted, charged, or collected by any utility in connection with attachments are unjust, unreasonable, or that the rates or charges are insufficient to yield a reasonable compensation for the attachment, the commission shall determine the just, reasonable, or sufficient rates, terms, and conditions thereafter to be observed and in force and shall fix the same by order. In determining and fixing the rates, terms, and conditions, the commission shall consider the interest of the customers of the attaching utility or licensee, as well as the interest of the customers of the utility upon which the attachment is made. [1979 c 33 § 3.]

80.54.040 Criteria for just and reasonable rate. A just and reasonable rate shall assure the utility the recovery of not less than all the additional costs of procuring and maintaining pole attachments, nor more than the actual capital and operating expenses, including just compensation, of the utility attributable to that portion of the pole, duct, or conduit used for the pole attachment, including a share of the required support and clearance space, in proportion to the space used for the pole attachment, as compared to all other uses made of the subject facilities, and uses which remain available to the owner or owners of the subject facilities. [1979 c 33 § 4.]

80.54.050 Exemptions from chapter. Nothing in this chapter shall be deemed to apply to any attachment by one or more electrical companies on the facilities of one or more other electrical companies. [1979 c 33 § 5.]

80.54.060 Adoption of rules. The commission shall adopt rules, regulations and procedures relative to the implementation of this chapter. [1979 c 33 § 6.]

80.54.070 Uniform attachment rates within utility service area. Notwithstanding any other provision of law, a utility as defined in RCW 80.54.010(3) and any utility not regulated by the utilities and transportation commission shall levy attachment rates which are uniform for all licensees within the utility service area. [1979 c 33 § 7.]

NONPOLLUTING POWER GENERATION EXEMPTION

Sections
80.58.010 Nonpolluting power generation by individual—Exemption from regulation—Authorization to contract with utility.
80.58.010 Nonpolluting power generation by individual—Exemption from regulation—Authorization to contract with utility. The generation of power by a nonpolluting, renewable energy source by an individual natural person not otherwise engaged in the business of power generation is declared to be exempt from all statutes and rules otherwise regulating the generation of power: PROVIDED, That such an individual is hereby authorized to provide such power to the utility servicing the property on which the power is generated and the servicing utility is hereby authorized to accept such power under such terms and conditions as may be agreed to between the parties. [1979 ex.s. c 191 § 11.]

Chapter 80.60 RCW

NET METERING OF ELECTRICITY

Sections
80.60.005 Findings. The legislature finds that it is in the public interest to:
(1) Encourage private investment in renewable energy resources;
(2) Stimulate the economic growth of this state; and
(3) Enhance the continued diversification of the energy resources used in this state. [1998 c 318 § 1.]

80.60.010 Definitions. The definitions in this section apply throughout this chapter unless the context clearly indicates otherwise.
(1) "Commission" means the utilities and transportation commission.
(2) "Customer-generator" means a user of a net metering system.

(9) "Net metering" means measuring the difference between the electricity supplied by an electric utility and the electricity generated by a customer-generator over the applicable billing period.
(10) "Net metering system" means a fuel cell, a facility that produces electricity and used and useful thermal energy from a common fuel source, or a facility for the production of electrical energy that generates renewable energy, and that:
(a) Has an electrical generating capacity of not more than one hundred kilowatts;
(b) Is located on the customer-generator’s premises;

80.60.020 Available on first-come, first-served basis—Interconnected metering systems allowed—Charges to customer-generator. (1) An electric utility:
(a) Shall offer to make net metering available to eligible customers-generators on a first-come, first-served basis until the cumulative generating capacity of net metering systems equals 0.25 percent of the utility’s peak demand during 1996. On January 1, 2014, the cumulative generating capacity available to net metering systems will equal 0.5 percent of the utility’s peak demand during 1996. Not less than one-half of the utility’s 1996 peak demand available for net metering systems shall be reserved for the cumulative generating capacity attributable to net metering systems that generate renewable energy;
(b) Shall allow net metering systems to be interconnected using a standard kilowatt-hour meter capable of registering the flow of electricity in two directions, unless the commission, in the case of an electrical company, or the appropriate governing body, in the case of other electric utilities, determines, after appropriate notice and opportunity for comment:
(i) That the use of additional metering equipment to monitor the flow of electricity in each direction is necessary and appropriate for the interconnection of net metering systems, after taking into account the benefits and costs of purchasing and installing additional metering equipment; and
(ii) How the cost of purchasing and installing an additional meter to be allocated between the customer-generator and the utility;
(c) Shall charge the customer-generator a minimum monthly fee that is the same as other customers of the electric utility in the same rate class, but shall not charge the customer-generator any additional standby, capacity, intercon-
nection, or other fee or charge unless the commission, in the case of an electrical company, or the appropriate governing body, in the case of other electric utilities, determines, after appropriate notice and opportunity for comment that:

(i) The electric utility will incur direct costs associated with interconnecting or administering net metering systems that exceed any offsetting benefits associated with these systems; and

(ii) Public policy is best served by imposing these costs on the customer-generator rather than allocating these costs among the utility’s entire customer base.

(2) If a production meter and software is required by the electric utility to provide meter aggregation under RCW 80.60.030(4), the customer-generator is responsible for the purchase of the production meter and software. [2007 c 323 § 2; 2006 c 201 § 2; 2000 c 158 § 2; 1998 c 318 § 3.]

80.60.030  Net energy measurement—Required calculation—Unused credit—Meter aggregation. Consistent with the other provisions of this chapter, the net energy measurement must be calculated in the following manner:

(1) The electric utility shall measure the net electricity produced or consumed during the billing period, in accordance with normal metering practices.

(2) If the electricity supplied by the electric utility exceeds the electricity generated by the customer-generator and fed back to the electric utility during the billing period, the customer-generator shall be billed for the net electricity supplied by the electric utility, in accordance with normal metering practices.

(3) If electricity generated by the customer-generator exceeds the electricity supplied by the electric utility, the customer-generator:

(a) Shall be billed for the appropriate customer charges for that billing period, in accordance with RCW 80.60.020; and

(b) Shall be credited for the excess kilowatt-hours generated during the billing period, with this kilowatt-hour credit appearing on the bill for the following billing period.

(4) If a customer-generator requests, an electric utility shall provide meter aggregation.

(a) For customer-generators participating in meter aggregation, kilowatt-hours credits earned by a net metering system during the billing period first shall be used to offset electricity supplied by the electric utility.

(b) Not more than a total of one hundred kilowatts shall be aggregated among all customer-generators participating in a generating facility under this subsection.

(c) Excess kilowatt-hours credits earned by the net metering system, during the same billing period, shall be credited equally by the electric utility to remaining meters located on all premises of a customer-generator at the designated rate of each meter.

(d) Meters so aggregated shall not change rate classes due to meter aggregation under this section.

(5) On April 30th of each calendar year, any remaining unused kilowatt-hour credit accumulated during the previous year shall be granted to the electric utility, without any compensation to the customer-generator. [2007 c 323 § 3; 2006 c 201 § 3; 1998 c 318 § 4.]

80.60.040  Safety, power quality, and interconnection requirements—Customer-generator’s expense—Commission may adopt additional requirements. (1) A net metering system used by a customer-generator shall include, at the customer-generator’s own expense, all equipment necessary to meet applicable safety, power quality, and interconnection requirements established by the national electrical code, national electrical safety code, the institute of electrical and electronics engineers, and underwriters laboratories.

(2) The commission, in the case of an electrical company, or the appropriate governing body, in the case of other electric utilities, after appropriate notice and opportunity for comment, may adopt by regulation additional safety, power quality, and interconnection requirements for customer-generators, including limitations on the number of customer generators and total capacity of net metering systems that may be interconnected to any distribution feeder line, circuit, or network that the commission or governing body determines are necessary to protect public safety and system reliability.

(3) An electric utility may not require a customer-generator whose net metering system meets the standards in subsections (1) and (2) of this section to comply with additional safety or performance standards, perform or pay for additional tests, or purchase additional liability insurance. However, an electric utility shall not be liable directly or indirectly for permitting or continuing to allow an attachment of a net metering system, or for the acts or omissions of the customer-generator that cause loss or injury, including death, to any third party. [2006 c 201 § 4; 2000 c 158 § 3; 1998 c 318 § 5.]

Chapter 80.66  RADIO COMMUNICATIONS SERVICE COMPANIES

80.66.010  Scope of regulation—Filing of certain agreements.

80.66.010  Scope of regulation—Filing of certain agreements. The commission shall not regulate radio communications service companies, except that:

(1) The commission may regulate the rates, services, facilities, and practices of radio communications service companies, within a geographic service area or a portion of a geographic service area in which it is authorized to operate by the federal communications commission if it is the only provider of basic telecommunications service within such geographic service area or such portion of a geographic service area. For purposes of this section, "basic telecommunications service" means voice grade, local exchange telecommunications service.

(2) Actions or transactions of radio communications service companies that are not regulated pursuant to subsection (1) of this section shall not be deemed actions or transactions otherwise permitted, prohibited, or regulated by the commission for purposes of RCW 19.86.170.

(3) Radio communications service companies shall file with the commission copies of all agreements with any of their affiliated interests as defined in RCW 80.16.010, showing the rates, tolls, rentals, contracts, and charges of such affiliated interest for services rendered and equipment and facilities supplied to the radio communications service com-

[Title 80 RCW—page 70]
pany, except that such agreements need not be filed where the services rendered and equipment and facilities supplied are provided by the affiliated interest under a tariff or price list filed with the commission. [1985 c 167 § 2.]

(b) For a fossil-fueled thermal electric generation facility described under RCW 80.70.020(1) (c) and (d), the amount of carbon dioxide emitted over a thirty-year period based on the proposed increase in the amount of electrical output of the facility that exceeds the station generation capability of the facility prior to the applicant applying for certification or an order of approval pursuant to RCW 80.70.020(1) (c) and (d), new equipment heat rate, an assumed sixty percent capacity factor for facilities under the council’s jurisdiction or sixty percent of the operational limitations on facilities subject to an order of approval, and taking into account any enforceable limitations on operational hours or fuel types and use. [2004 c 224 § 1.]
(a) New fossil-fueled thermal electric generation facilities with station-generating capability of three hundred fifty thousand kilowatts or more and fossil-fueled floating thermal electric generation facilities of one hundred thousand kilowatts or more under RCW 80.50.020(14)(a), for which an application for site certification is made to the council after July 1, 2004;

(b) New fossil-fueled thermal electric generation facilities with station-generating capability of more than twenty-five thousand kilowatts, but less than three hundred fifty thousand kilowatts, except for fossil-fueled floating thermal electric generation facilities under the council’s jurisdiction, for which an application for an order of approval has been submitted after July 1, 2004;

(c) Fossil-fueled thermal electric generation facilities with station-generating capability of more than twenty-five thousand kilowatts, but less than three hundred fifty thousand kilowatts, except for fossil-fueled floating thermal electric generation facilities under the council’s jurisdiction, that have an existing order of approval and, after July 1, 2004, apply to the council to increase the output of carbon dioxide emissions by fifteen percent or more through permanent changes in facility operations or modification or equipment; and

(d) Fossil-fueled thermal electric generation facilities with station-generating capability of more than twenty-five thousand kilowatts, but less than three hundred fifty thousand kilowatts, except for fossil-fueled floating thermal electric generation facilities under the council’s jurisdiction, that have an existing order of approval and, after July 1, 2004, apply to the department or authority, as appropriate, to permanently modify the facility so as to increase its station-generating capability by at least twenty-five thousand kilowatts or to increase the output of carbon dioxide emissions by fifteen percent or more, whichever measure is greater.

(2)(a) A proposed site certification agreement submitted to the governor under RCW 80.50.100 and a final site certification agreement issued under RCW 80.50.100 shall include an approved carbon dioxide mitigation plan.

(b) For fossil-fueled thermal electric generation facilities not under jurisdiction of the council, the order of approval shall require an approved carbon dioxide mitigation plan.

(c) Site certification agreement holders or order of approval holders may request, at any time, a change in conditions of an approved carbon dioxide mitigation plan if the council, department, or authority, as appropriate, finds that the change meets all requirements and conditions for approval of such plans.

(3) An applicant for a fossil-fueled thermal electric generation facility shall include one or a combination of the following carbon dioxide mitigation options as part of its mitigation plan:

(a) Payment to a third party to provide mitigation;

(b) Direct purchase of permanent carbon credits; or

(c) Investment in applicant-controlled carbon dioxide mitigation projects, including combined heat and power (cogeneration).

(4) Fossil-fueled thermal electric generation facilities that receive site certification approval or an order of approval shall provide mitigation for twenty percent of the total carbon dioxide emissions produced by the facility.

(5) If the certificate holder or order of approval holder chooses to pay a third party to provide the mitigation, the mitigation rate shall be one dollar and sixty cents per metric ton of carbon dioxide to be mitigated. For a cogeneration plant, the monetary amount is based on the difference between twenty percent of the total carbon dioxide emissions and the cogeneration credit.

(a) Through rule making, the council may adjust the rate per ton biennially as long as any increase or decrease does not exceed fifty percent of the current rate. The department or authority shall use the adjusted rate established by the council pursuant to this subsection for fossil-fueled thermal electric generation facilities subject to the provisions of this chapter.

(b) In adjusting the mitigation rate the council shall consider, but is not limited to, the current market price of a ton of carbon dioxide. The council’s adjusted mitigation rate shall be consistent with RCW 80.50.010(3).

(6) The applicant may choose to make to the third party a lump sum payment or partial payment over a period of five years.

(a) Under the lump sum payment option, the payment amount is determined by multiplying the total carbon dioxide emissions by the twenty percent mitigation requirement under subsection (4) of this section and by the per ton mitigation rate established under subsection (5) of this section.

(b) No later than one hundred twenty days after the start of commercial operation, the certificate holder or order of approval holder shall make a one-time payment to the independent qualified organization for the amount determined under subsection (5) of this section.

(c) As an alternative to a one-time payment, the certificate holder or order of approval holder may make a partial payment of twenty percent of the amount determined under subsection (5) of this section no later than one hundred twenty days after commercial operation and a payment in the same amount or as adjusted according to subsection (5)(a) of this section, on the anniversary date of the initial payment in each of the following four years. With the initial payment, the certificate holder or order of approval holder shall provide a letter of credit or other comparable security acceptable to the council or the department for the remaining eighty percent mitigation payment amount including possible changes to the rate per metric ton from rule making under subsection (5)(a) of this section. [2004 c 224 § 2.]

*Reviser’s note: RCW 80.50.020 was amended by 2007 c 325 § 1, changing subsection (14) to subsection (15).
80.70.040  

Direct investment mitigation projects—Enforcement—Federal requirements may replace this section.  (1) The carbon dioxide mitigation option that provides for direct investment shall be implemented through mitigation projects conducted directly by, or under the control of, the certificate holder or order of approval holder.

(2) Mitigation projects must be approved by the council, department, or authority, as appropriate, and made a condition of the proposed and final site certification agreement or order of approval. Direct investment mitigation projects shall be approved if the mitigation projects provide a reasonable certainty that the performance requirements of the mitigation projects will be achieved and the mitigation projects were implemented after July 1, 2004. No certificate holder or order of approval holder shall be required to make direct investments that would exceed the cost of making a lump sum payment to a third party, had the certificate holder or order of approval holder chosen that option under RCW 80.70.020.

(3) Mitigation projects must be fully in place within a reasonable time after the start of commercial operation. Failure to implement an approved mitigation plan is subject to enforcement under chapter 80.50 or 70.94 RCW.

(4) The certificate holder or order of approval holder may not use more than twenty percent of the total funds for the selection, monitoring, and evaluation of mitigation projects and the management and enforcement of contracts.

(5)(a) For facilities under the jurisdiction of the council, the implementation of a carbon dioxide mitigation project, other than purchase of a carbon credit shall be monitored by an independent entity for conformance with the performance requirements of the carbon dioxide mitigation plan. The independent entity shall make available the mitigation project monitoring results to the council.

(b) For facilities under the jurisdiction of the department or authority pursuant to RCW 80.70.020(1) (b) or (c), the implementation of a carbon dioxide mitigation project, other than purchase of carbon dioxide equivalent emission reductions, shall be monitored by the department or authority issuing the order of approval.

(6) Upon promulgation of federal requirements for carbon dioxide mitigation for fossil-fueled thermal electric generation facilities, those requirements may be deemed by the council, department, or authority to be equivalent and a replacement for the requirements of this section.  [2004 c 224 § 5.]

80.70.050  

Independent qualified organizations with experience in mitigation activities—Council oversight—Reports.  (1) The council shall maintain a list of independent qualified organizations with proven experience in emissions mitigation activities and a demonstrated ability to carry out these activities in an efficient, reliable, and cost-effective manner.

(2) An independent qualified organization shall not use more than twenty percent of the total funds for selection, monitoring, and evaluation of mitigation projects and the management and enforcement of contracts. None of these funds shall be used to lobby federal, state, and local agencies, their elected officials, officers, or employees.

(3) Before signing contracts to purchase offsets with funds from certificate holders or order of approval holders, an independent qualified organization must demonstrate to the council that the mitigation projects it proposes to use provide a reasonable certainty that the performance requirements of the carbon dioxide mitigation projects will be achieved.

(4) The independent qualified organization shall permit the council to appoint up to three persons to inspect plans, operation, and compliance activities of the organization and to audit financial records and performance measures for carbon dioxide mitigation projects using carbon dioxide mitigation money paid by certificate holders or order of approval holders under this chapter.

(5) An independent qualified organization must file biennial reports with the council, the department, or authority on the performance of carbon dioxide mitigation projects, including the amount of carbon dioxide reductions achieved and a statement of cost for the mitigation period.  [2004 c 224 § 6.]
(b) Washington’s greenhouse gases emissions are continuing to increase, despite international scientific consensus that worldwide emissions must be reduced significantly below current levels to avert catastrophic climate change;

(c) Washington state greenhouse gases are substantially caused by the transportation sector of the economy;

(d) Washington has been a leader in actions to slow the increase of greenhouse gases emissions, such as being the first state in the nation to adopt a carbon dioxide mitigation program for new thermal electric plants, mandating integrated resource planning for electric utilities to include lifecycle costs of carbon dioxide emissions, adopting clean car standards and stronger appliance energy efficiency standards, increasing production and use of renewable liquid fuels, and increasing renewable energy sources by electric utilities;

(e) A greenhouse gases emissions performance standard will work in unison with the state’s carbon dioxide mitigation policy, chapter 80.70 RCW and its related rules, for fossil-fueled thermal electric generation facilities located in the state;

(f) While these actions are significant, there is a need to assess the trend of greenhouse gases emissions statewide over the next several decades, and to take sufficient actions so that Washington meets its responsibility to contribute to the global actions needed to reduce the impacts and the pace of global warming;

(g) Actions to reduce greenhouse gases emissions will spur technology development and increase efficiency, thus resulting in benefits to Washington’s economy and businesses; and

(h) The state of Washington has an obligation to provide clear guidance for the procurement of baseload electric generation to alleviate regulatory uncertainty while addressing risks that can affect the ability of electric utilities to make necessary and timely investments to ensure an adequate, reliable, and cost-effective supply of electricity.

(2) The legislature finds that companies that generate greenhouse gases emissions or manufacture products that generate such emissions are purchasing carbon credits from landowners and from other companies that provide carbon credits. Companies that are purchasing carbon credits would benefit from a program to trade and to bank carbon credits. Washington forests are one of the most effective resources that can absorb carbon dioxide from the atmosphere. Forests, and other planted lands and waters, provide carbon storage and mitigate greenhouse gases emissions. Washington contains the most productive forests in the world and both public and private landowners could benefit from a carbon storage trading and banking program.

(3) The legislature intends by this chapter to establish statutory goals for the statewide reduction in greenhouse gases emissions and to adopt the recommendations provided by the Washington climate change challenge stakeholder group, which is charged with designing and recommending a comprehensive set of policies to the legislature and the governor on how to achieve the goals. The legislature further intends by this chapter to authorize immediate actions in the electric power generation sector for the reduction of greenhouse gases emissions.

(4) The legislature finds that:

(a) To the extent energy efficiency and renewable resources are unable to satisfy increasing energy and capacity needs, the state will rely on clean and efficient fossil fired generation and will encourage the development of cost-effective, highly efficient, and environmentally sound supply resources to provide reliability and consistency with the state’s energy priorities;

(b) It is vital to ensure all electric utilities internalize the significant and underrecognized cost of emissions and to reduce Washington consumers’ exposure to costs associated with future regulation of these emissions, which is consistent with the objectives of integrated resource planning by electric utilities under chapter 19.280 RCW; and

(c) The state of California recently enacted a law establishing a greenhouse gases emissions performance standard for electric utility procurement of baseload electric generation that is based on the emissions of a combined-cycle thermal electric generation facility fueled by natural gas.

(5) The legislature finds that the climate change challenge stakeholder group provides a process for identifying the policies necessary to achieve the economic and emissions reduction goals in *RCW 80.80.020 in a manner that maximizes economic opportunities and job creation in Washington. [2007 c 307 § 1.]

*Reviser’s note: RCW 80.80.020 was repealed by 2008 c 14 § 13.

Greenhouse Gases Emissions—Baseload Electric Generation Performance Standard 80.80.040

80.80.040  Greenhouse gases emissions performance standards—Rules—Sequestration.  (1) Beginning July 1, 2008, the greenhouse gases emissions performance standard for all baseload electric generation for which electric utilities enter into long-term financial commitments on or after such date is the lower of:

(a) One thousand one hundred pounds of greenhouse gases per megawatt-hour; or

(b) The average available greenhouse gases emissions output as determined under RCW 80.80.050.

(2) All baseload electric generation facilities in operation as of June 30, 2008, are deemed to be in compliance with the greenhouse gases emissions performance standard established under this section until the facilities are the subject of long-term financial commitments.  All baseload electric generation that commences operation after June 30, 2008, and is located in Washington, must comply with the greenhouse gases emissions performance standard established in subsection (1) of this section.

(3) All electric generation facilities or power plants powered exclusively by renewable resources, as defined in RCW 19.280.020, are deemed to be in compliance with the greenhouse gases emissions performance standard established under this section.

(4) All cogeneration facilities in the state that are fueled by natural gas or waste gas or a combination of the two fuels, and that are in operation as of June 30, 2008, are deemed to be in compliance with the greenhouse gases emissions performance standard established under this section.

(5) In determining the rate of emissions of greenhouse gases for baseload electric generation, the total emissions associated with producing electricity shall be included.

(6) The department shall establish an output-based methodology to ensure that the calculation of emissions of greenhouse gases for a cogeneration facility recognizes the total usable energy output of the process, and includes all greenhouse gases emitted by the facility in the production of both electrical and thermal energy.  In developing and implement-
The department shall consider and act in a manner consistent with any rules adopted pursuant to the public utilities regulatory policy act of 1978 (16 U.S.C. Sec. 824a-3), as amended.

(7) The following greenhouse gases emissions produced by baseload electric generation owned or contracted through a long-term financial commitment shall not be counted as emissions of the power plant in determining compliance with the greenhouse gases emissions performance standard:

(a) Those emissions that are injected permanently in geological formations;

(b) Those emissions that are permanently sequestered by other means approved by the department; and

(c) Those emissions sequestered or mitigated as approved under subsection (13) of this section.

(8) In adopting and implementing the greenhouse gases emissions performance standard, the department shall, with assistance of the commission, the department of community, trade, and economic development energy policy division, in consultation with the commission, the department, the Bonneville power administration, the western electricity coordination council, the energy facility site evaluation council, electric utilities, public interest representatives, and consumer representatives, shall consider the effects of the greenhouse gases emissions performance standard on system reliability and overall costs to electricity customers.

(9) In developing and implementing the greenhouse gases emissions performance standard, the department shall, with assistance of the commission, the department of community, trade, and economic development energy policy division, and electric utilities, and to the extent practicable, address long-term purchases of electricity from unspecified sources in a manner consistent with this chapter.

(10) The directors of the energy facility site evaluation council and the department shall each adopt rules under chapter 34.05 RCW in coordination with each other to implement and enforce the greenhouse gases emissions performance standard. The rules necessary to implement this section shall be adopted by June 30, 2008.

(11) In adopting the rules for implementing this section, the energy facility site evaluation council and the department shall include criteria to be applied in evaluating the carbon sequestration plan, for baseload electric generation that will rely on subsection (7) of this section to determine compliance, but that will commence sequestration after the date that electricity is first produced. The rules shall include but not be limited to:

(a) Provisions for financial assurances, as a condition of plant operation, sufficient to ensure successful implementation of the carbon sequestration plan, including construction and operation of necessary equipment, and any other significant costs;

(b) Provisions for geological or other approved sequestration commencing within five years of plant operation, including full and sufficient technical documentation to support the planned sequestration;

(c) Provisions for monitoring the effectiveness of the implementation of the sequestration plan;

(d) Penalties for failure to achieve implementation of the plan on schedule;

(e) Provisions for an owner to purchase emissions reductions in the event of the failure of a sequestration plan under subsection (13) of this section; and

(f) Provisions for public notice and comment on the carbon sequestration plan.

(12)(a) Except as provided in (b) of this subsection, as part of its role enforcing the greenhouse gases emissions performance standard, the department shall determine whether sequestration or a plan for sequestration will provide safe, reliable, and permanent protection against the greenhouse gases entering the atmosphere from the power plant and all ancillary facilities.

(b) For facilities under its jurisdiction, the energy facility site evaluation council shall contract for review of sequestration or the carbon sequestration plan with the department consistent with the conditions under (a) of this subsection, consider the adequacy of sequestration or the plan in its adjudicative proceedings conducted under RCW 80.50.090(3), and incorporate specific findings regarding adequacy in its recommendation to the governor under RCW 80.50.100.

(13) A project under consideration by the energy facility site evaluation council by July 22, 2007, is required to include all of the requirements of subsection (11) of this section in its carbon sequestration plan submitted as part of the energy facility site evaluation council process. A project under consideration by the energy facility site evaluation council by July 22, 2007, that receives final site certification agreement approval under chapter 80.50 RCW shall make a good faith effort to implement the sequestration plan. If the project owner determines that implementation is not feasible, the project owner shall submit documentation of that determination to the energy facility site evaluation council. The documentation shall demonstrate the steps taken to implement the sequestration plan and evidence of the technological and economic barriers to successful implementation. The project owner shall then provide to the energy facility site evaluation council notification that they shall implement the plan that requires the project owner to meet the greenhouse gases emissions performance standard by purchasing verifiable greenhouse gases emissions reductions from an electric generating facility located within the western interconnection, where the reduction would not have occurred otherwise or absent this contractual agreement, such that the sum of the emissions reductions purchased and the facility’s emissions meets the standard for the life of the facility. [2007 c 307 § 5.]

80.80.050 Public comment—Commercially available turbines—Rate of greenhouse gases emissions—Reports—Rules. The energy policy division of the department of community, trade, and economic development shall provide an opportunity for interested parties to comment on the development of a survey of new combined-cycle natural gas thermal electric generation turbines commercially available and offered for sale by manufacturers and purchased in the United States to determine the average rate of emissions of greenhouse gases for these turbines. The department of community, trade, and economic development shall adopt by rule the...
average available greenhouse gases emissions output every five years beginning five years after July 22, 2007. [2007 c 307 § 7.]

80.80.060 Electrical companies—Baseload electric generation—Long-term financial commitments—Rules. (1) No electrical company may enter into a long-term financial commitment unless the baseload electric generation supplied under such a long-term financial commitment complies with the greenhouse gases emissions performance standard established under RCW 80.80.040.

(2) In order to enforce the requirements of this chapter, the commission shall review in a general rate case or as provided in subsection (5) of this section any long-term financial commitment entered into by an electrical company after June 30, 2008, to determine whether the baseload electric generation to be supplied under that long-term financial commitment complies with the greenhouse gases emissions performance standard established under RCW 80.80.040.

(3) In determining whether a long-term financial commitment is for baseload electric generation, the commission shall consider the design of the power plant and its intended use, based upon the electricity purchase contract, if any, permits necessary for the operation of the power plant, and any other matter the commission determines is relevant under the circumstances.

(4) Upon application by an electric utility, the commission may provide a case-by-case exemption from the greenhouse gases emissions performance standard to address: (a) Unanticipated electric system reliability needs; or (b) catastrophic events or threat of significant financial harm that may arise from unforeseen circumstances.

(5) Upon application by an electric company, the commission shall determine whether the company’s proposed decision to acquire electric generation or enter into a power purchase agreement for electricity complies with the greenhouse gases emissions performance standard established under RCW 80.80.040, whether the company has a need for the resource, and whether the specific resource selected is appropriate. The commission shall take into consideration factors such as the company’s forecasted loads, need for energy, power plant technology, expected costs, and other associated investment decisions. The commission shall not decide in a proceeding under this subsection (5) issues involving the actual costs to construct and operate the selected resource, cost recovery, or other issues reserved by the commission for decision in a general rate case or other proceeding for recovery of the resource or contract costs. A proceeding under this subsection (5) shall be conducted pursuant to chapter 34.05 RCW (part IV). The commission shall adopt rules to provide that the schedule for a proceeding under this subsection takes into account both (a) the needs of the parties to the proposed resource acquisition or power purchase agreement for timely decisions that allow transactions to be completed; and (b) the procedural rights to be provided to parties in chapter 34.05 RCW (part IV), including intervention, discovery, briefing, and hearing.

(6) An electrical company may account for and defer for later consideration by the commission costs incurred in connection with the long-term financial commitment, including operating and maintenance costs, depreciation, taxes, and cost of invested capital. The deferral begins with the date on which the power plant begins commercial operation or the effective date of the power purchase agreement and continues for a period not to exceed twenty-four months; provided that if during such period the company files a general rate case or other proceeding for the recovery of such costs, deferral ends on the effective date of the final decision by the commission in such proceeding. Creation of such a deferral account does not by itself determine the actual costs of the long-term financial commitment, whether recovery of any or all of these costs is appropriate, or other issues to be decided by the commission in a general rate case or other proceeding for recovery of these costs.

(7) The commission shall consult with the department to apply the procedures adopted by the department to verify the emissions of greenhouse gases from baseload electric generation under RCW 80.80.040. The department shall report to the commission whether baseload electric generation will comply with the greenhouse gases emissions performance standard for the duration of the period the baseload electric generation is supplied to the electrical company.

(8) The commission shall adopt rules for the enforcement of this section with respect to electrical companies and adopt procedural rules for approving costs incurred by an electrical company under subsection (4) of this section.

(9) The commission shall adopt rules necessary to implement this section by December 31, 2008. [2007 c 307 § 8.]

80.80.070 Consumer-owned utilities—Baseload electric generation—Long-term financial commitments. (1) No consumer-owned utility may enter into a long-term financial commitment unless the baseload electric generation supplied under such a long-term financial commitment complies with the greenhouse gases emissions performance standard established under RCW 80.80.040.

(2) The governing board shall review and make a determination on any long-term financial commitment by the utility, pursuant to this chapter and after consultation with the department, to determine whether the baseload electric generation to be supplied under that long-term financial commitment complies with the greenhouse gases emissions performance standard established under RCW 80.80.040. No consumer-owned utility may enter into a long-term financial commitment unless the baseload electric generation to be supplied under that long-term financial commitment complies with the greenhouse gases emissions performance standard established under RCW 80.80.040.

(3) In confirming that a long-term financial commitment is for baseload electric generation, the governing board shall consider the design of the power plant and the intended use of the power plant based upon the electricity purchase contract, if any, permits necessary for the operation of the power plant, and any other matter the governing board determines is relevant under the circumstances.

(4) The governing board may provide a case-by-case exemption from the greenhouse gases emissions performance standard to address: (a) Unanticipated electric system reliability needs; or (b) catastrophic events or threat of significant financial harm that may arise from unforeseen circumstances.

(2008 Ed.)
(5) The governing board shall apply the procedures adopted by the department to verify the emissions of greenhouse gases from baseload electric generation under RCW 80.80.040, and may request assistance from the department in doing so.

(6) For consumer-owned utilities, the auditor is responsible for auditing compliance with this chapter and rules adopted under this chapter that apply to those utilities and the attorney general is responsible for enforcing that compliance. [2007 c 307 § 9.]

80.80.080 Greenhouse gases emissions performance standards—Review—Report. For the purposes of RCW 80.80.040 through 80.80.080 and 80.70.020, the department, in consultation with the department of community, trade, and economic development energy policy division, the energy facility site evaluation council, the commission, and the governing boards of consumer-owned utilities, shall review the greenhouse gases emissions performance standard established in this chapter to determine need, applicability, and effectiveness no less than every five years following July 22, 2007, or upon implementation of a federal or state law or rule regulating carbon dioxide emissions of electric utilities, and report to the legislature. 81.04.020 Procedure before commission and courts. Each commissioner shall have power to administer oaths, certify to all official acts, and to issue subpoenas for the attendance of witnesses and the production of papers, waybills,
books, accounts, documents and testimony in any inquiry, investigation, hearing or proceeding in any part of the state.

The superior court of the county in which any such inquiry, investigation, hearing or proceeding may be had, shall have power to compel the attendance of witnesses and the production of papers, waybills, books, accounts, documents and testimony as required by such subpoena. The commission or the commissioner before which the testimony is to be given or produced, in case of the refusal of any witness to attend or testify or produce any papers required by the subpoena, shall report to the superior court in and for the county in which the proceeding is pending by petition, setting forth that due notice has been given of the time and place of attendance of said witnesses, or the production of said papers, and that the witness has been summoned in the manner prescribed in this chapter, and that the fees and mileage of the witness have been paid or tendered to the witness for his attendance and testimony, and that the witness has failed and refused to attend or produce the papers required by the subpoena, before the commission, in the cause or proceedings named in the notice and subpoena, or has refused to answer questions propounded to him in the course of such proceeding, and ask an order of said court, compelling the witness to attend and testify before the commission. 81.04.080 Annual report—Other reports. Every public service company shall annually furnish to the commission a report in such form as the commission may require, and shall specifically answer all questions propounded to it by the commission. The commission may prescribe the period of time within which all public service companies subject to this title must have, as near as may be, a uniform system of accounts, and the manner in which the accounts must be kept. The detailed report must contain all the required statistics for the period of twelve months ending on the last day of any particular month prescribed by the commission for any public service company. The reports must be made out under oath and filed with the commission at its office in Olympia on a date the commission specifies by rule, unless additional time is granted by the commission. The commission may require any public service company to file monthly reports of earnings and expenses, and to file periodical or special reports, or both, concerning any matter the commission is authorized or required, by this or any other law, to inquire into or keep itself informed about, or which it is required to enforce, the periodical or special reports to be under oath whenever the commission so requires. [2007 c 234 § 5; 1989 c 107 § 2; 1961 c 14 § 81.04.080. Prior: 1911 c 117 § 78, part; RRS § 10416, part.]
81.04.090 Forms of records to be prescribed. The commission may, in its discretion, prescribe the forms of any and all accounts, records and memoranda to be kept by public service companies, including the accounts, records and memoranda of the movement of traffic, sales of its product, the receipts and expenditures of money. The commission shall at all times have access to all accounts, records and memoranda kept by public service companies, and may employ special agents or examiners, who shall have power to administer oaths and authority, under the order of the commission, to examine witnesses and to inspect and examine any and all accounts, records and memoranda kept by such companies. The commission may, in its discretion, prescribe the forms of any and all reports, accounts, records and memoranda to be furnished and kept by any public service company whose line or lines extend beyond the limits of this state, which are operated partly within and partly without the state, so that the same shall show any information required by the commission concerning the traffic movement, receipts and expenditures appertaining to those parts of the line within the state. [1961 c 14 § 81.04.090. Prior: 1911 c 117 § 78; part; RRS § 10416, part.]

81.04.100 Production of out-of-state books and records. The commission may by order with or without hearing require the production within this state, at such time and place as it may designate, of any books, accounts, papers or records kept by any public service company in any office or place without this state, or at the option of the company verified copies thereof, so that an examination thereof may be made by the commission or under its direction. [1961 c 14 § 81.04.100. Prior: 1933 c 165 § 2; 1911 c 117 § 79; RRS § 10421.]

81.04.110 Complaint—Hearing. Complaint may be made by the commission of its own motion or by any person or corporation, chamber of commerce, board of trade, or any commercial, mercantile, agricultural or manufacturing society, or any body politic or municipal corporation, by petition or complaint in writing, setting forth any act or thing done or omitted to be done by any public service company or any person, persons, or entity acting as a public service company in violation, or claimed to be in violation, of any provision of law or of any order or rule of the commission.

When two or more public service companies or a person, persons, or entity acting as a public service company, (meaning to exclude municipal and other public corporations) are engaged in competition in any locality or localities in the state, either may make complaint against the other or others that the rates, charges, rules, regulations or practices of such other or others with or in respect to which the complainant is in competition, are unreasonable, unremunerative, discriminatory, illegal, unfair or intending or tending to oppress the complainant, to stifle competition, or to create or encourage the creation of monopoly, and upon such complaint or upon complaint of the commission upon its own motion, the commission shall have power, after notice and hearing as in other cases, to, by its order, subject to appeal as in other cases, correct the abuse complained of by establishing such uniform rates, charges, rules, regulations or practices in lieu of those complained of, to be observed by all of such competing public service companies in the locality or localities specified as shall be found reasonable, remunerative, nondiscriminatory, legal, and fair or tending to prevent oppression or monopoly or to encourage competition, and upon any such hearing it shall be proper for the commission to take into consideration the rates, charges, rules, regulations and practices of the public service company or companies complained of in any other locality or localities in the state.

All matters upon which complaint may be founded may be joined in one hearing, and no motion shall be entertained against a complaint for misjoinder of complaints or grievances or misjoinder of parties; and in any review of the courts of orders of the commission the same rule shall apply and pertain with regard to the joinder of complaints and parties as herein provided: PROVIDED, All grievances to be inquired into shall be plainly set forth in the complaint. No complaint shall be dismissed because of the absence of direct damage to the complainant.

Upon the filing of a complaint, the commission shall cause a copy thereof to be served upon the person or company complained of, which shall be accompanied by a notice fixing the time when and place where a hearing will be had upon such complaint. The time fixed for such hearing shall not be less than ten days after the date of the service of such notice and complaint, excepting as herein provided. Rules of practice and procedure not otherwise provided for in this title may be prescribed by the commission. [1994 c 37 § 2; 1961 c 14 § 81.04.110. Prior: 1913 c 145 § 1; 1911 c 117 § 80; RRS § 10422.]

Intent—1994 c 37: "It is the intent of the legislature to clarify that the utilities and transportation commission has the authority to make more efficient use of its resources, provide quicker resolution of complaints regarding transportation tariff matters, eliminate duplicative hearings on classification and violation matters, and to make certain that criminal proceedings involving alleged violations of transportation tariffs not be dismissed because of confusion regarding whether a defendant has received a classification by the commission." [1994 c 37 § 1.]

81.04.120 Hearing—Order—Record. At the time fixed for the hearing mentioned in RCW 81.04.110, the complainant and the person or corporation complained of shall be entitled to be heard and introduce such evidence as he or it may desire. The commission shall issue process to enforce the attendance of all necessary witnesses. At the conclusion of such hearing the commission shall make and render findings concerning the subject matter and facts inquired into and enter its order based thereon. A copy of such order, certified under the seal of the commission, shall be served upon the person or corporation complained of, or his or its attorney, which order shall, of its own force, take effect and become operative twenty days after the service thereof, except as otherwise provided. Where an order cannot, in the judgment of the commission, be complied with within twenty days, the commission may prescribe such additional time as in its judgment is reasonably necessary to comply with the order, and may, on application and for good cause shown, extend the time for compliance fixed in its order. A full and complete record of all proceedings had before the commission, or any member thereof, on any formal hearing had, and all testimony shall be taken down by a stenographer appointed by the commission, and the parties shall be entitled to be heard in person or by attorney. In case of an action to review any order
of the commission, a transcript of such testimony, together with all exhibits introduced, and of the record and proceedings in the cause, shall constitute the record of the commission. [1961 c 14 § 81.04.120. Prior: 1911 c 117 § 81; RRS § 10423.]

81.04.130 Suspension of tariff change—Waiver of provisions during state of emergency. Whenever any public service company, subject to regulation by the commission as to rates and service, files with the commission any schedule, classification, rule, or regulation, the effect of which is to change any rate, fare, charge, rental, or toll previously charged, the commission may, either upon its own motion or upon complaint, upon notice, hold a hearing concerning the proposed change and the reasonableness and justness of it. Pending the hearing and the decision, the commission may suspend the operation of the rate, fare, charge, rental, or toll, if the change is proposed by a common carrier other than a solid waste collection company, for a period not exceeding seven months, and, if proposed by a solid waste collection company, for a period not exceeding ten months from the time the change would otherwise go into effect. After a full hearing the commission may make the order in reference to the change as would be provided in a hearing initiated after the change had become effective.

At any hearing involving any change in any schedule, classification, rule, or regulation the effect of which is to increase any rate, fare, charge, rental, or toll theretofore charged, the burden of proof to show that the increase is just and reasonable is upon the public service company. When any common carrier files any tariff, classification, rule, or regulation the effect of which is to decrease any rate, fare, charge, the burden of proof to show that such decrease is just and reasonable is upon the common carrier.

During a state of emergency declared under RCW 43.06.010(12), the governor may waive or suspend the operation or enforcement of this section or any portion of this section or under any administrative rule, and issue any orders to facilitate the operation of state or local government or to promote and secure the safety and protection of the civilian population. [2008 c 181 § 405; 2007 c 234 § 7; 1984 c 143 § 2; 1961 c 14 § 81.04.150. Prior: 1911 c 117 § 84; RRS § 10426.]

Part headings not law—2008 c 181: See note following RCW 43.06.220.

81.04.160 Rules. The commission may adopt rules that pertain to the comfort and convenience of the public using the services of public service companies that are subject to regulation by the commission as to services provided. [2007 c 234 § 8; 1961 c 14 § 81.04.160. Prior: 1911 c 117 § 85; RRS § 10427.]

81.04.200 Rehearing before commission. Any public service company affected by any order of the commission, and deeming itself aggrieved, may, after the expiration of two years from the date of such order taking effect, petition the commission for a rehearing upon the matters involved in such order, setting forth in such petition the grounds and reasons for such rehearing, which grounds and reasons may comprise and consist of changed conditions since the issuance of such order, or by showing a result injuriously affecting the petitioner which was not considered or anticipated at the former hearing, or that the effect of such order has been such as was not contemplated by the commission or the petitioner, or for any good and sufficient cause which for any reason was not considered and determined in such former hearing. Upon the filing of such petition, such proceedings shall be had thereon as are provided for hearings upon complaint, and such orders may be reviewed as are other orders of the commission: PROVIDED, That no order superseding the order of the commission denying such rehearing shall be granted by the court...
pending the review. In case any order of the commission shall not be reviewed, but shall be complied with by the public service company, such petition for rehearing may be filed within six months from and after the date of the taking effect of such order, and the proceedings thereon shall be as in this section provided. The commission, may, in its discretion, permit the filing of a petition for rehearing at any time. No order of the commission upon a rehearing shall affect any right of action or penalty accruing under the original order unless so ordered by the commission. [1961 c 14 § 81.04.200. Prior: 1911 c 117 § 89; RRS § 10431.]

81.04.210 Commission may change orders. The commission may at any time, upon notice to the public service company affected, and after opportunity to be heard as provided in the case of complaints rescind, alter or amend any order or rule made, issued or promulgated by it, and any order or rule rescinding, altering or amending any prior order or rule shall, when served upon the public service company affected, have the same effect as herein provided for original orders and rules. [1961 c 14 § 81.04.210. Prior: 1911 c 117 § 90; RRS § 10432.]

81.04.220 Reparations. After a complaint is made to the commission concerning the reasonableness of any rate, fare, toll, rental or charge for any service performed by any public service company subject to regulation by the commission as to rates and service, and the complaint is investigated by the commission, and the commission determines both that the public service company has charged an excessive or exorbitant amount for the service and that any party complainant is entitled to an award of damages, the commission shall order the public service company to pay the complainant the excess amount found to have been charged, whether the excess amount was charged and collected before or after the filing of the complaint, with interest from the date of the collection of the excess amount. [2007 c 234 § 9; 1961 c 14 § 81.04.220. Prior: 1943 c 258 § 1; 1937 c 29 § 1; Rem. Supp. 1943 § 10433.]

81.04.230 Overcharges—Refund. When complaint has been made to the commission that any public service company has charged an amount for any service rendered in excess of the lawful rate in force at the time such charge was made, and the same has been investigated and the commission has determined that the overcharge allegation is true, the commission may order that the public service company pay to the complainant the amount of the overcharge so found, whether such overcharge was made before or after the filing of said complaint, with interest from the date of collection of such overcharge. [1961 c 14 § 81.04.230. Prior: 1937 c 29 § 2; RRS § 10433-1.]

81.04.235 Limitation of actions. All complaints against public service companies for recovery of overcharges shall be filed with the commission within two years from the time the cause of action accrues, and not after, except as hereinafter provided, and except that if claim for the overcharge has been presented in writing to the public service company within the two-year period of limitation, said period shall be extended to include six months from the time notice in writing is given by the public service company to the claimant of disallowance of the claim, or any part or parts thereof, specified in the notice.

If on or before expiration of the two-year period of limitation for the recovery of overcharges, a public service company begins action under RCW 81.28.270 for recovery of charges in respect of the same transportation service, or, without beginning action, collects charges in respect of that service, said period of limitation shall be extended to include ninety days from the time such action is begun or such charges are collected by the carrier.

All complaints against public service companies for the recovery of damages not based on overcharges shall be filed with the commission within six months from the time the cause of action accrues except as hereinafter provided.

The six-month period of limitation for recovery of damages not based on overcharges shall be extended for a like period and under the same conditions as prescribed for recovery of overcharges. If the six-month period for recovery of damages not based on overcharges has expired at the time action is commenced under RCW 81.28.270 for recovery of charges with respect to the same transportation service, or, without beginning such action, charges are collected with respect to that service, complaints therefor shall be filed with the commission within ninety days from the commencement of such action or the collection of such charges by the carrier. [1963 c 59 § 4; 1961 c 14 § 81.04.235. Prior: 1955 c 79 § 5.]

81.04.236 When cause of action deemed to accrue. The cause of action for the purposes of RCW 81.04.235, 81.04.240, and 81.28.270 shall be deemed to accrue: (a) In respect of a shipment of property, upon delivery or tender of delivery thereof by the carrier, and not after; (b) in respect of goods or service or services other than a shipment of property, upon the rendering of an invoice or statement of charges by the public service company, and not after.

The provisions of this section shall extend to and embrace cases in which the cause of action has heretofore accrued as well as cases in which the cause of action may hereafter accrue. [1961 c 14 § 81.04.236. Prior: 1955 c 79 § 6.]

81.04.240 Action in court on reparations and overcharges—Procedure. If the public service company subject to regulation by the commission as to rates and service does not comply with the order of the commission for the payment of damages or overcharges within the time limited in the order, action may be brought in any superior court where service may be had upon the company to recover the amount of damages or overcharges with interest. The commission shall certify and file its record in the case, including all exhibits, with the clerk of the court within thirty days after the action is started. The action must be heard on the evidence and exhibits introduced before and certified by the commission.

If the complainant prevails in the action, the court shall enter judgment for the amount of damages or overcharges with interest and award the complainant reasonable attorney’s fees, and the cost of preparing and certifying the record for the benefit of and to be paid to the commission by com-

plainant, and deposited by the commission in the public service revolving fund, the sums to be fixed and collected as a part of the costs of the action.

If the order of the commission is found contrary to law or erroneous by the rejection of testimony properly offered, the court shall remand the cause to the commission with instructions to receive the testimony so proffered and rejected and enter a new order based upon the evidence theretofore taken and such as it is directed to receive.

The court may remand any action it reverses to the commission for further action.

Appeals to the supreme court shall lie as in other civil cases. Action to recover damages or overcharges must be filed in the superior court within one year from the date of the order of the commission.

The procedure provided in this section is exclusive, and neither the supreme court nor any superior court has jurisdiction except as provided. [2007 c 234 § 10; 1961 c 14 § 81.04.240. Prior: 1955 c 79 § 4; 1943 c 258 § 2; 1937 c 29 § 3; Rem. Supp. 1943 § 10433-2.]

81.04.250 Determination of rates. The commission may, upon complaint or upon its own motion, prescribe and authorize just and reasonable rates for the transportation of persons or property for any public service company subject to regulation by the commission as to rates and service, whenever and as often as it deems necessary or proper. The commission shall, before any hearing upon the complaint or motion, notify the complainants and the carrier concerned of the time and place of the hearing by giving at least ten days’ written notice thereof, specifying that at the time and place designated a hearing will be held for the purpose of prescribing and authorizing the rates. The notice is sufficient to authorize the commission to inquire into and pass upon the matters designated in this section.

In exercising this power, the commission may use any standard, formula, method, or theory of valuation reasonably calculated to arrive at the objective of prescribing and authorizing just and reasonable rates.

In the exercise of this power, the commission may consider, in addition to other factors, the following:

1. The effect of the rates upon movement of traffic by the carriers;

2. The public need for adequate transportation facilities, equipment, and service at the lowest level of charges consistent with the provision, maintenance, and renewal of the facilities, equipment, and service; and

3. The carrier need for revenue of a level that under honest, efficient, and economical management is sufficient to cover the cost, including all operating expenses, depreciation accruals, rents, and taxes of every kind, of providing adequate transportation service, plus an amount equal to the percentage of that cost as is reasonably necessary for the provision, maintenance, and renewal of the transportation facilities or equipment and a reasonable profit to the carrier. The relation of carrier expenses to carrier revenues may be deemed the proper test of a reasonable profit. [2007 c 234 § 11; 1984 c 143 § 3; 1961 c 14 § 81.04.250. Prior: 1951 c 75 § 1; 1933 c 165 § 4; 1913 c 182 § 1; 1911 c 117 § 92; RRS § 10441.]

81.04.260 Summary proceedings. Whenever the commission shall be of opinion that any public service company is failing or omitting, or about to fail or omit, to do anything required of it by law, or by order, direction or requirement of the commission, or is doing anything, or about to do anything, or permitting anything, or about to permit anything to be done contrary to or in violation of law or of any order, direction or requirement of the commission authorized by this title, it shall direct the attorney general to commence an action or proceeding in the superior court of the state of Washington for Thurston county, or in the superior court of any county in which such company may do business, in the name of the state of Washington on the relation of the commission, for the purpose of having such violations or threatened violations stopped and prevented, either by mandamus or injunction. The attorney general shall thereupon begin such action or proceeding by petition to such superior court, alleging the violation complained of, and praying for appropriate relief by way of mandamus or injunction. It shall thereupon be the duty of the court to specify a time, not exceeding twenty days after the service of the copy of the petition, within which the public service company complained of must answer the petition. In case of default in answer or after answer, the court shall immediately inquire into the facts and circumstances in such manner as the court shall direct, without other or formal pleadings, and without respect to any technical requirement. Such persons or corporations as the court may deem necessary or proper to be joined as parties, in order to make its judgment, order or writ effective, may be joined as parties. The final judgment in any such action or proceeding shall either dismiss the action or proceeding or direct that the writ of mandamus or injunction, or both, issue as prayed for in the petition, or in such other modified form as the court may determine will afford appropriate relief. Appellate review of the final judgment may be sought in the same manner and with the same effect as review of judgments of the superior court in actions to review orders of the commission. All provisions of this chapter relating to the time of review, the manner of perfecting the same, the filing of briefs, hearings and supersedeas, shall apply to appeals to the supreme court or the court of appeals under the provisions of this section. [1988 c 202 § 64; 1971 c 81 § 143; 1961 c 14 § 81.04.260. Prior: 1911 c 117 § 93; RRS § 10442.]

81.04.270 Accounts to be kept separate. Any public service company, subject to regulation by the commission as to rates and services [service], that engages in the sale of merchandise or appliances or equipment shall keep separate accounts, as prescribed by the commission, of its capital employed in such business and of its revenues therefrom and operating expenses thereof. The capital employed in such business is not a part of the fair value of the company’s property for rate making purposes, and the revenues from or operating expenses of such business are not a part of the operating revenues and expenses of the company as a public service company. [2007 c 234 § 12; 1961 c 14 § 81.04.270. Prior: 1933 c 165 § 8; RRS § 10458-2.]

81.04.280 Purchase and sale of stock by employees. A public service company subject to regulation by the com-
81.04.290 Sale of stock to employees and patrons. A corporate public service company, either heretofore or hereafter organized under the laws of this state, may sell to its employees and patrons any increase of its capital stock, or part thereof, without first offering it to existing stockholders: PROVIDED, That such sale is approved by the holders of a majority of the capital stock, at a regular or special meeting held after notice given as to the time, place, and object thereof as provided by law and the bylaws of the company. Such sales shall be at prices and in amounts for each purchaser and upon terms and conditions as set forth in the resolution passed at the stockholders’ meeting, or in a resolution passed at a subsequent meeting of the board of trustees if the resolution passed at the stockholders’ meeting shall authorize the board to determine prices, amounts, terms, and conditions, except that in either event a minimum price for the stock must be fixed in the resolution passed at the stockholders’ meeting. [1961 c 14 § 81.04.290. Prior: 1955 c 79 § 7; 1923 c 110 § 1; RRS § 10344-1.]

81.04.300 Budgets to be filed—Supplementary budgets. The commission may regulate, restrict, and control the budgets of expenditures of public service companies subject to regulation by the commission as to rates and service. The commission may require each company to prepare a budget showing the amount of money which, in its judgment, is needed during the ensuing year for maintenance, operation, and construction, classified by accounts as prescribed by the commission, and shall within ten days of the date it is approved by the company file it with the commission for its investigation and approval or rejection. When a budget has been filed, the commission shall examine into and investigate it to determine whether the expenditures therein proposed are fair and reasonable and not contrary to public interest.

Adjustments or additions to budget expenditures may be made from time to time during the year by filing a supplementary budget with the commission for its investigation and approval or rejection. [2007 c 234 § 14; 1961 c 14 § 81.04.300. Prior: 1959 c 248 § 15; prior: 1933 c 165 § 10, part; RRS § 10458-4, part.]

81.04.310 Commission’s control over expenditures. The commission may, both as to original and supplementary budgets, prior to the making or contracting for the expenditure of any item therein, and after notice to the company and a hearing thereon, reject any item of the budget. The commission may require any company to furnish further information, data, or detail as to any proposed item of expenditure.

Failure of the commission to object to any item of expenditure within sixty days of the filing of any original budget or within thirty days of the filing of any supplementary budget shall constitute authority to the company to proceed with the making of or contracting for such expenditure, but such authority may be terminated at any time by objection made thereto by the commission prior to the making of or contracting for such expenditure.

Examination, investigation, and determination of the budget by the commission shall not bar or estop it from later determining whether any of the expenditures made thereunder are fair, reasonable, and commensurate with the service, material, supplies, or equipment received. [1961 c 14 § 81.04.310. Prior: 1959 c 248 § 16; prior: 1933 c 165 § 10, part; RRS § 10458-4, part.]

81.04.320 Budget rules and regulations. The commission may prescribe the necessary rules and regulations to place RCW 81.04.300 through 81.04.330 in operation. It may by general order, exempt in whole or in part from the operation thereof companies whose gross operating revenues are less than twenty-five thousand dollars a year. The commission may upon request of any company withhold from publication during such time as the commission may deem advisable, any portion of any original or supplementary budget relating to proposed capital expenditures. [1961 c 14 § 81.04.320. Prior: 1959 c 248 § 17; prior: 1933 c 165 § 10, part; RRS § 10458-4, part.]

81.04.330 Effect of unauthorized expenditure—Emergencies. Any public service company subject to regulation by the commission as to rates and service may make or contract for any rejected item of expenditure, but in such case the rejected item of expenditure shall not be allowed as an operating expense, or as to items of construction, as a part of the fair value of the company’s property used and useful in serving the public: PROVIDED, That such items of construction may at any time thereafter be so allowed in whole or in part upon proof that they are used and useful. Any company may upon the happening of any emergency caused by fire, flood, explosion, storm, earthquake, riot, or insurrection, or for the immediate preservation or restoration to condition of usefulness of any of its property, the usefulness of which has been destroyed by accident, make the necessary expenditure therefor free from the operation of RCW 81.04.300 through 81.04.330.

Any finding and order entered by the commission is effective until vacated and set aside in proper proceedings for review thereof. [2007 c 234 § 15; 1961 c 14 § 81.04.330. Prior: 1959 c 248 § 18; prior: 1933 c 165 § 10, part; RRS § 10458-4, part.]

81.04.350 Depreciation and retirement accounts. The commission may after hearing require any public service company subject to regulation by the commission as to rates and service to carry proper and adequate depreciation or retirement accounts in accordance with such rules, regulations, and forms of accounts as the commission may pre-
scribe. The commission may from time to time ascertain and
by order fix the proper and adequate rates of depreciation or
retirement of the several classes of property of each public
service company. Each public service company shall con-
form its depreciation or retirement accounts to the rates so
prescribed. In fixing the rate of the annual depreciation or
retirement charge, the commission may consider the rate and
amount theretofore charged by the company for depreciation
or retirement.

The commission may exercise like power and authority
over all other reserve accounts of public service companies.
§ 4; 1933 c 165 § 13; RRS § 10458-7.]

81.04.360 Excessive earnings to reserve fund. If any
public service company subject to regulation by the commis-
sion as to rates and service earns in the period of five con-
cutive years immediately preceding the commission order fix-
ning rates for such company a net utility operating income in
excess of a reasonable rate of return upon the fair value of its
property used and useful in the public service, the commis-
sion shall take official notice of such fact and of whether any
such excess earnings were invested in such company’s plant
or otherwise used for purposes beneficial to the consumers of
such company and may consider such facts in fixing rates for
such company. [2007 c 234 § 17; 1961 c 14 § 81.04.360.
Prior: 1959 c 285 § 3; 1933 c 165 § 14; RRS § 10458-8.]

81.04.380 Penalties—Violations by public service
companies. Every public service company, and all officers,
agents and employees of any public service company, shall
obey, observe and comply with every order, rule, direction or
requirement made by the commission under authority of this
title, so long as the same shall be and remain in force. Any
public service company which shall violate or fail to comply
with any provision of this title, or which fails, omits or
neglects to obey, observe or comply with any order, rule, or
any direction, demand or requirement of the commission,
shall be subject to a penalty of not to exceed the sum of one
thousand dollars for each and every offense. Every violation
of any such order, direction or requirement of this title shall
be a separate and distinct offense, and in case of a continuing
violation every day’s continuation thereof shall be and be
deemed to be a separate and distinct offense. [1961 c 14 §
81.04.380. Prior: 1911 c 117 § 94; RRS § 10443.]

81.04.385 Penalties—Violations by officers, agents,
and employees of public service companies and persons
or entities acting as public service companies. Every
officer, agent or employee of any public service company or
any person, persons, or entity acting as a public service com-
pany, who shall violate or fail to comply with, or who pro-
cures, aids or abets any violation by any public service com-
pany of any provision of this title, or who shall fail to obey,
observe or comply with any order of the commission, or any
provision of any order of the commission, or who procures,

81.16.020 Dealings with affiliated interests—Prior filing with commission required—Commission may disapprove. Every public service company shall file with the commission a verified copy, or a verified summary if unwritten, of a contract or arrangement providing for the furnishing of management, supervisory construction, engineering, accounting, legal, financial, or similar services, or any contract or arrangement for the purchase, sale, lease, or exchange of any property, right, or thing, or for the furnishing of any service, property, right, or thing, other than those enumerated in this section, hereafter made or entered into between a public service company and any affiliated interest as defined in this chapter, including open account advances from or to the affiliated interests. The filing must be made prior to the effective date of the contract or arrangement. Modifications or amendments to the contracts or arrangements with affiliated interests must be filed with the commission prior to the effective date of the modification or amendment. The commission
may at any time after receipt of the contract or arrangement institute an investigation and disapprove the contract, arrangement, or amendment thereto if the commission finds the public service company has failed to prove that it is reasonable and consistent with the public interest. The commission may disapprove any such contract or arrangement if satisfactory proof is not submitted to the commission of the cost to the affiliated interest of rendering the services or of furnishing the property or service described in this section. [1998 c 47 § 6; 1961 c 14 § 81.16.020. Prior: 1941 c 160 § 1; 1933 c 152 § 1; Rem. Supp. 1941 § 10440-2.]

81.16.030 Payments to affiliated interest disallowed if not reasonable. In any proceeding, whether upon the commission’s own motion or upon complaint, involving the rates or practices of any public service company, the commission may exclude from the accounts of the public service company any payment or compensation to an affiliated interest for any services rendered or property or service furnished, as described in this section, under existing contracts or arrangements with the affiliated interest unless the public service company establishes the reasonableness of the payment or compensation. In the proceeding the commission shall disallow the payment or compensation, in whole or in part, in the absence of satisfactory proof that it is reasonable in amount. In such a proceeding, any payment or compensation may be disapproved or disallowed by the commission, in whole or in part, if satisfactory proof is not submitted to the commission of the cost to the affiliated interest of rendering the service or furnishing the property or service described in this section. [1998 c 47 § 7; 1961 c 14 § 81.16.030. Prior: 1933 c 152 § 3; RRS § 10440-3.]

81.16.040 Satisfactory proof, what constitutes. No proof shall be satisfactory, within the meaning of RCW 81.16.010 through 81.16.030, unless it includes the original (or verified copies) of the relevant cost records and other relevant accounts of the affiliated interest, or such abstract thereof or summary taken therefrom, as the commission may deem adequate, properly identified and duly authenticated: PROVIDED, HOWEVER, That the commission may, where reasonable, approve or disapprove such contracts or arrangements without the submission of such cost records or accounts. [1961 c 14 § 81.16.040. Prior: 1933 c 152 § 4; RRS § 10440-4.]

81.16.050 Commission’s control is continuing. The commission shall have continuing supervisory control over the terms and conditions of such contracts and arrangements as are herein described so far as necessary to protect and promote the public interest. The commission shall have the same jurisdiction over the modifications or amendment of contracts or arrangements as are herein described as it has over such original contracts or arrangements. The fact that a contract or arrangement has been filed with, or the commission has approved entry into such contracts or arrangements, as described herein, shall not preclude disallowance or disapproval of payments made pursuant thereto, if upon actual experience under such contract or arrangement, it appears that the payments provided for or made were or are unreasonable. Every order of the commission approving any such contract or arrangement shall be expressly conditioned upon the reserved power of the commission to revise and amend the terms and conditions thereof, if, when and as necessary to protect and promote the public interest. [1998 c 47 § 8; 1961 c 14 § 81.16.050. Prior: 1933 c 152 § 5; RRS § 10440-5.]

81.16.060 Summary order on nonapproved payments. Whenever the commission shall find upon investigation that any public service company is giving effect to any such contract or arrangement without such contract or arrangement having been filed or approved, the commission may issue a summary order prohibiting the public service company from treating any payments made under the terms of such contract or arrangement as operating expenses or as capital expenditures for rate or valuation purposes, unless and until such contract or arrangement has been filed with the commission or until payments have received the approval of the commission. [1998 c 47 § 9; 1961 c 14 § 81.16.060. Prior: 1933 c 152 § 6; RRS § 10440-6.]

81.16.070 Summary order on payments after disallowance. Whenever the commission finds upon investigation that any public service company is making payments to an affiliated interest, although the payments have been disallowed or disapproved by the commission in a proceeding involving the public service company’s rates or practices, the commission shall issue a summary order directing the public service company to not treat the payments as operating expenses or capital expenditures for rate or valuation purposes, unless and until the payments have received the approval of the commission. [1998 c 47 § 10; 1961 c 14 § 81.16.070. Prior: 1933 c 152 § 7; RRS § 10440-7.]

81.16.075 Application of chapter—Solid waste collection companies. This chapter does not apply to a determination of the base for collection rates for solid waste collection companies meeting the requirements under RCW 81.77.160(3). [1997 c 434 § 2.]

81.16.080 Court action to enforce orders. The superior court of Thurston county is authorized to enforce such orders to cease and desist by appropriate process, including the issuance of a preliminary injunction, upon the suit of the commission. [1961 c 14 § 81.16.080. Prior: 1933 c 152 § 8; RRS § 10440-8.]

81.16.090 Review of orders. Any public service company or affiliated interest deeming any decision or order of the commission to be in any respect or manner improper, unjust or unreasonable may have the same reviewed in the courts in the same manner and by the same procedure as is now provided by law for review of any other order or decision of the commission. [1961 c 14 § 81.16.090. Prior: 1933 c 152 § 9; RRS § 10440-9.]

81.20.010 Definition. As used in this chapter, the term "public service company" means any person, firm, association, or corporation, whether public or private, operating a utility or public service enterprise subject in any respect to regulation by the utilities and transportation commission under the provisions of this title or Title 22 RCW. [1961 c 14 § 81.20.010. Prior: 1953 c 95 § 14; 1939 c 203 § 1; RRS § 10458-6a.

81.20.020 Cost of investigation may be assessed against company. Whenever the commission in any proceeding upon its own motion or upon complaint shall deem it necessary in order to carry out the duties imposed upon it by law to investigate the books, accounts, practices and activities of, or make any valuation or appraisal of the property of any public service company, or to investigate or appraise any phase of its operations, or to render any engineering or accounting service to or in connection with any public service company, and the cost thereof to the commission exceeds in amount the ordinary regulatory fees paid by such public service company during the preceding calendar year or estimated to be paid during the current year, whichever is more, such public service company shall pay the expenses reasonably attributable and allocable to such investigation, valuation, appraisal or services. The commission shall ascertain such expenses, and, after giving notice and an opportunity to be heard, shall render a bill therefor by registered mail to the public service company, either at the conclusion of the investigation, valuation, appraisal or services, or from time to time during its progress. Within thirty days after a bill has been mailed such public service company shall pay to the commission the amount of the bill, and the commission shall transmit such payment to the state treasurer who shall credit it to the public service revolving fund. The total amount which any public service company shall be required to pay under the provisions of this section in any calendar year shall not exceed one percent of the gross operating revenues derived by such public service company from its intrastate operations during the last preceding calendar year. If such company did not operate during all of the preceding year the calculations shall be based upon estimated gross revenues for the current year. [1961 c 14 § 81.20.020. Prior: 1939 c 203 § 2(a); RRS § 10458-6a.

81.20.030 Interest on unpaid assessment—Action to collect. Amounts so assessed against any public service company not paid within thirty days after mailing of the bill therefor, shall draw interest at the rate of six percent per annum from the date of mailing of the bill. Upon failure of the public service company to pay the bill, the attorney general shall proceed in the name of the state by civil action in the superior court for Thurston county against such public service company to collect the amount due, together with interest and costs of suit. [1961 c 14 § 81.20.030. Prior: 1939 c 203 § 2(b); RRS § 10458-6a(b).

81.20.040 Commission’s determination of necessity as evidence. In such action the commission’s determination of the necessity of the investigation, valuation, appraisal or services shall be conclusive evidence of such necessity, and its findings and determination of facts expressed in bills rendered pursuant to RCW 81.20.020 through 81.20.060 or in any proceedings determinative of such bills shall be prima facie evidence of such facts. [1961 c 14 § 81.20.040. Prior: 1939 c 203 § 2(c); RRS § 10458-6a.

81.20.050 Order of commission not subject to review. In view of the civil action provided for in RCW 81.20.020 through 81.20.060 any order made by the commission in determining the amount of such bill shall not be reviewable in court, but the mere absence of such right of review shall not prejudice the rights of defendants in the civil action. [1961 c 14 § 81.20.050. Prior: 1939 c 203 § 2(d); RRS § 10458-6a.

81.20.060 Limitation on frequency of investigations. Expenses of a complete valuation, rate and service investigation shall not be assessed against a public service company under this chapter if such company shall have been subjected to and paid the expenses of a complete valuation, rate and service investigation during the preceding five years, unless the properties or operations of the company have materially changed or there has been a substantial change in its value for rate making purposes or in other circumstances and conditions affecting rates and services. [1961 c 14 § 81.20.060. Prior: 1939 c 203 § 2(e); RRS § 10458-6a.

[Title 81 RCW—page 16] (2008 Ed.)
specified by the commission for filing annual reports under RCW 81.04.080, file with the commission a statement on oath showing its gross operating revenue from intrastate operations for the preceding calendar year, or portion thereof, and pay to the commission a fee equal to one-tenth of one percent of the first fifty thousand dollars of gross operating revenue, plus two-tenths of one percent of any gross operating revenue in excess of fifty thousand dollars, except railroad companies which shall each pay to the commission a fee equal to one and one-half percent of its intrastate gross operating revenue. The commission may, by rule, set minimum fees that do not exceed the cost of collecting the fees. The commission may by rule waive any or all of the minimum fee established pursuant to this section. Any railroad association that qualifies as a nonprofit charitable organization under the federal internal revenue code section 501(c)(3) is exempt from the fee required under this subsection.

(2) The percentage rates of gross operating revenue to be paid in any one year may be decreased by the commission for any class of companies subject to the payment of such fees, by general order entered before March 1st of such year, and for such purpose railroad companies are classified as class two. Every other company subject to regulation by the commission, for which regulatory fees are not otherwise fixed by law, shall pay fees as herein provided and shall constitute additional classes according to kinds of businesses engaged in.

(3) This section does not apply to private nonprofit transportation providers, auto transportation companies, charter party carriers and excursion service carriers, solid waste collection companies, motor freight carriers, household goods carriers, commercial ferries, and low-level radioactive waste storage facilities. [2007 c 234 § 21; 2003 c 296 § 2; 1996 c 196 § 1; 1990 c 48 § 2; 1977 ex.s. c 48 § 1; 1969 ex.s. c 210 § 6; 1963 c 59 § 11; 1961 c 14 § 81.24.010. 81.24.020 Fees of auto transportation companies—Statement filing. On or before the date specified by the commission for filing annual reports under RCW 81.04.080, every auto transportation company must file with the commission a statement showing its gross operating revenue from intrastate operations for the preceding year and pay to the commission a fee of two-fifths of one percent of the amount of gross operating revenue. The commission may, by rule, set minimum fees that do not exceed the cost of collecting the fees. The commission may by rule waive any or all of the minimum fee established pursuant to this section. The percentage rate of gross operating revenue to be paid in any year may be decreased by the commission by general order entered before March 1st of such year. [2003 c 296 § 4; 1993 c 427 § 10; 1981 c 13 § 5; 1961 c 14 § 81.24.030. Prior: 1955 c 125 § 6; prior: 1939 c 123 § 3, part; 1937 c 158 § 4, part; RRS § 10417-3, part.]

81.24.050 Fees to approximate reasonable cost of regulation. In fixing the percentage rates of gross operating revenue to be paid by companies under RCW 81.24.010, 81.24.020, and 81.24.030, the commission shall consider all moneys then in the public service revolving fund and the fees currently to be paid into such fund, to the end that the fees collected from the companies, or classes of companies, covered by each respective section shall be approximately the same as the reasonable cost of supervising and regulating such companies, or classes of companies, respectively. [1983 c 3 § 206; 1961 c 14 § 81.24.050. Prior: 1955 c 125 § 8; prior: (i) 1939 c 123 § 1, part; 1937 c 158 § 1, part; RRS § 10417, part. (ii) 1937 c 158 § 2, part; RRS § 10417-1, part. Supp. 1949 § 10417-2, part.]

81.24.060 Intent of legislature—Regulatory cost records to be kept by commission. It is the intent and purpose of the legislature that the several groups of public service companies shall each contribute sufficient in fees to the commission to pay the reasonable cost of regulating the several groups respectively. The commission shall keep accurate records of the costs incurred in regulating and supervising the several groups of companies subject to regulation or supervision and such records shall be open to inspection by all interested parties. The records and data upon which the commission’s determination is made shall be considered prima facie correct in any proceeding instituted to challenge the reasonableness or correctness of any order of the commission fixing fees and distributing regulatory expenses. [1961 c 14 § 81.24.060. Prior: 1937 c 158 § 7; RRS § 10417-5.]

81.24.070 Disposition of fees. All moneys collected under the provisions of this chapter shall within thirty days be paid to the state treasurer and by him deposited to the public service revolving fund. [1961 c 14 § 81.24.070. Prior: 1937 c 158 § 6; RRS § 10417-4.]

81.24.075 Delinquent fee payments. Any payment of a fee imposed by this chapter made after its due date shall include a late fee of two percent of the amount due. Delinquent fees shall accrue interest at the rate of one percent per month. [1994 c 83 § 2.]
81.24.080 Penalty for failure to pay fees—Disposition of fees and penalties. Every person, firm, company or corporation, or the officers, agents or employees thereof, failing or neglecting to pay the fees herein required shall be guilty of a misdemeanor. All fines and penalties collected under the provisions of this chapter shall be deposited into the public service revolving fund of the state treasury: PROVIDED, That all fees, fines, forfeitures and penalties collected or assessed by a district court because of the violation of a state law shall be remitted as provided in chapter 3.62 RCW as now exists or is later amended. [1987 c 202 § 242; 1979 ex.s. c 198 § 2; 1961 c 14 § 81.24.080. Prior: 1923 c 107 § 2; 1921 c 113 § 3; RRS § 10419.]

Intent—1987 c 202: See note following RCW 2.04.190.

81.24.090 Pipeline safety fee—Reports—Procedure to contest fees—Regulatory incentive program. (1)(a) Every hazardous liquid pipeline company as defined in RCW 81.88.010 shall pay an annual pipeline safety fee to the commission. The pipeline safety fees received by the commission shall be deposited in the pipeline safety account created in RCW 81.88.050.

(b) The aggregate amount of fees set shall be sufficient to recover the reasonable costs of administering the pipeline safety program, taking into account federal funds used to offset the costs. The fees established under this section shall be designed to generate revenue not exceeding appropriated levels of funding for the current fiscal year. At a minimum, the fees established under this section shall be sufficient to adequately fund pipeline inspection personnel, the timely review of pipeline safety and integrity plans, the timely development of spill response plans, the timely development of accurate maps of pipeline locations, participation in federal pipeline safety efforts to the extent allowed by law, and the staffing of the citizens committee on pipeline safety.

(c) Increases in the aggregate amount of fees over the immediately preceding fiscal year are subject to the requirements of RCW 43.135.055.

(2) The commission shall by rule establish the methodology it will use to set the appropriate fee for each entity subject to this section. The methodology shall provide for an equitable distribution of program costs among all entities subject to the fee. The fee methodology shall provide for:

(a) Direct assignment of average costs associated with annual standard inspections, including the average number of inspection days per year. In establishing these directly assignable costs, the commission shall consider the requirements and guidelines of the federal government, state safety standards, and good engineering practice[s]; and

(b) A uniform and equitable means of estimating and allocating costs of other duties relating to inspecting pipelines for safety that are not directly assignable, including but not limited to design review and construction inspections, specialized inspections, incident investigations, geographic mapping system design and maintenance, and administrative support.

(3) The commission shall require reports from those entities subject to this section in the form and at such time as necessary to set the fees. After considering the reports supplied by the entities, the commission shall set the amount of the fee payable by each entity by general order entered before July 1st of each year.

(4) For companies subject to RCW 81.24.010, the commission shall collect the pipeline safety fee as part of the fee specified in RCW 81.24.010. The commission shall allocate the moneys collected under RCW 81.24.010 between the pipeline safety program and for other regulatory purposes. The commission shall adopt rules that assure that fee moneys related to the pipeline safety program are maintained separately from other moneys collected by the commission under this chapter.

(5) Any payment of the fee imposed by this section made after its due date must include a late fee of two percent of the amount due. Delinquent fees accrue interest at the rate of one percent per month.

(6) The commission shall keep accurate records of the costs incurred in administering its hazardous liquid pipeline safety program, and the records are open to inspection by interested parties. The records and data upon which the commission’s determination is made shall be prima facie correct in any proceeding to challenge the reasonableness or correctness of any order of the commission fixing fees and distributing regulatory expenses.

(7) If any entity seeks to contest the imposition of a fee imposed under this section, that entity shall pay the fee and request a refund within six months of the due date for the payment by filing a petition for a refund with the commission. The commission shall establish by rule procedures for handling refund petitions and may delegate the decisions on refund petitions to the secretary of the commission.

(8) After establishing the fee methodology by rule as required in subsection (2) of this section, the commission shall create a regulatory incentive program for pipeline safety programs in collaboration with the citizens committee on pipeline safety. The regulatory incentive program created by the commission shall not shift costs among companies paying pipeline safety fees and shall not decrease revenue to pipeline safety programs. The regulatory incentive program shall not be implemented until after the review conducted according to *RCW 81.88.150. [2001 c 238 § 3.]

*Reviser’s note: RCW 81.88.150 was repealed by 2007 c 142 § 11.

81.28.040 Tariff schedules to be filed with commission—Public schedules—Commission's powers as to schedules. Every common carrier subject to regulation by the commission as to rates and service shall file with the commission and shall print and keep open for public inspection, schedules showing the rates, fares, charges, and classification for the transportation of persons and property within the state between each point upon the carrier’s route and all other points thereon; and between each point upon its route and all points upon every route leased, operated, or controlled by it; and between each point on its route or upon any route leased, operated, or controlled by it and all points upon the route of any other common carrier, whenever a through route and joint rate have been established or ordered between any two such points. If no joint rate over a through route has been established, the several carriers participating in the through route shall file, print, and keep open for public inspection, the separately established rates, fares, charges, and classifications that apply to the through transportation. The schedules printed must: Plainly state the places between which property and persons are carried; contain classification of passengers or property in force; and state separately all terminal charges, storage charges, icing charges, all other charges that the commission may require to be stated, all privileges or facilities granted or allowed, and any rules or regulations that may in any way change, affect, or determine any part, or the aggregate of, such rates, fares, and charges, or the value of the service rendered to the passenger, shipper, or consignee. The schedule must be plainly printed in large type, and a copy of it shall be kept by every carrier readily accessible to inspection by the public in every station or office of the carrier where passengers or property are respectively received for transportation, when the station or office is in charge of any agent. All of the schedules kept as provided in this section must be immediately produced by the carrier for inspection upon the demand of any person. A notice printed in bold type and stating that the schedules are on file with the agent and open to inspection by any person and that the agent will assist any person to determine from the schedules any transportation rates or fares or rules or regulations that are in force must be kept posted by the carrier in two public and conspicuous places in every such station or office. The form of each schedule must be prescribed by the commission.

The commission may, from time to time, determine and prescribe by order such changes in the form of the schedules as may be found expedient, and modify the requirements of this section in respect to publishing, posting, and filing of schedules either in particular instances or by general rule or order applicable to special or peculiar circumstances or conditions.

The commission may suspend the operation of this section in whole or in part as applied to vessels engaged in jobbing business not operating on regular routes. [2007 c 234 §
81.28.050 Tariff changes—Notice—Exception—Waiver of provisions during state of emergency. Unless the commission otherwise orders, a change may not be made to any classification, rate, fare, charge, rule, or regulation filed and published by a common carrier subject to regulation by the commission as to rates and service, except after thirty days’ notice to the commission and to the public. In the case of a solid waste collection company, a change may not be made except after forty-five days’ notice to the commission and to the public. The notice must be published as provided in RCW 81.28.040 and must plainly state the changes proposed to be made in the schedule then in force and the time when the changed rate, classification, fare, or charge will go into effect. All proposed changes must be shown by printing, filing, and publishing new schedules or must be plainly indicated upon the schedules in force at the time and kept open to public inspection. The commission, for good cause shown, may by order allow changes in rates without requiring the notice and the publication time periods specified in this section. When any change is made in any rate, fare, charge, classification, rule, or regulation, attention must be directed to the change by some character on the schedule. The character and its placement must be designated by the commission. The commission may, by order, for good cause shown, allow changes in any rate, fare, charge, classification, rule, or regulation without requiring any character to indicate each and every change to be made.

During a state of emergency declared under RCW 43.06.010(12), the governor may waive or suspend the operation or enforcement of this section or any portion of this section or under any administrative rule, and issue any orders to facilitate the operation of state or local government or to promote and secure the safety and protection of the civilian population. Part headings not law—2008 c 181: See note following RCW 43.06.220.

81.28.060 Joint rates, contracts, etc. The names of the several carriers which are parties to any joint tariff shall be specified therein, and each of the parties thereto, other than the one filing the same, shall file with the commission such evidence of concurrence therein or acceptance thereof as may be required or approved by the commission; and where such evidence of concurrence or acceptance is filed, it shall not be necessary for the carriers filing the same also to file copies of the tariffs in which they are named as parties.

Every common carrier shall file with the commission copies of every contract, agreement or arrangement with any other common carrier or common carriers relating in any way to the transportation of persons or property. [1961 c 14 § 81.28.060. Prior: 1911 c 117 § 16; RRS § 10352.]

81.28.080 Published rates to be charged—Exceptions—Definitions. (1) A common carrier subject to regulation by the commission as to rates and service shall not charge, demand, collect, or receive a greater or less or different compensation for transportation of persons or property, or for any service in connection therewith, than the rates, fares, and charges applicable to such transportation as specified in its schedules filed and in effect at the time and shall not refund or remit in any manner or by any device any portion of the rates, fares, or charges so specified excepting upon order of the commission as hereinafter provided, or extend to any shipper or person any privileges or facilities in the transportation of passengers or property except such as are regularly and uniformly extended to all persons and corporations under like circumstances. Any common carrier subject to regulation by the commission as to rates and service shall not, directly or indirectly, issue or give any free ticket, free pass, or free or reduced transportation for passengers between points within this state, except to the carrier’s employees and their families, surgeons and physicians and their families, the carrier’s officers, agents, and attorneys-at-law; to ministers of religion, traveling secretaries of young men’s Christian associations, inmates of hospitals, charitable and eleemosynary institutions, and persons exclusively engaged in charitable and eleemosynary work; to indigent, destitute, and homeless persons; to inmates of the national homes or state homes for volunteer soldiers with disabilities and of soldiers’ and sailors’ homes, including those about to enter and those returning home after discharge; to necessary caretakers of livestock, poultry, milk, and fruit; to lineworkers of telegraph and telephone companies; to post office inspectors, customs inspectors, and immigration inspectors; to baggage agents and witnesses attending any legal investigation in which the common carrier is interested; to persons injured in accidents or wrecks and physicians and nurses attending such persons; to the national guard of Washington when on official duty; and students going to and returning from state institutions of learning. This section does not prohibit the interchange of passes for the officers, attorneys, agents and employees and their families, of commercial ferries or prohibit any common carrier from carrying passengers free with the object of providing relief in cases of general epidemic, pestilence, or other calamitous visitation.

(2) "Employee," as used in this section, includes furloughed, pensioned, and superannuated employees, persons who have become disabled or infirm in the service of any such common carrier, the remains of a person killed or dying in the employment of a carrier, those entering or leaving its service, and former employees traveling for the purpose of entering the service of any such common carrier.

(3) "Families," as used in this section, includes the families of those persons named in subsection (2) of this section, the families of persons killed and their surviving spouses prior to remarriage and minor children during minority, and the families of persons who died while in the service of any such common carrier.

(4) Nothing in this section prevents the issuance of mileage, commutation tickets, or excursion passenger tickets or prevents the issuance of free or reduced transportation by any street railroad company for mail carriers, or police officers or members of fire departments, city officers, and employees when engaged in the performance of their duties as city employees.
(5) Common carriers may carry, store, or handle, free or at reduced rates, property for the United States, state, county, or municipal governments, for charitable purposes, or to or from fairs and exhibitions for exhibition, and may carry, store, or handle, free or at reduced rates, the household goods and personal effects of its employees, those entering or leaving its service, and those killed or dying while in its service. Reviser’s note: This section was amended by 2007 c 218 § 74 and by 2007 c 234 § 27, each without reference to the other. Both amendments are incorporated in the publication of this section under RCW 1.12.025(2). For rule of construction, see RCW 1.12.025(1).

Intent—Finding—2007 c 218: See note following RCW 1.08.130.

81.28.180 Rate discrimination prohibited. A common carrier subject to regulation by the commission as to rates and service shall not, directly or indirectly, by any special rate, rebate, drawback, or other device or method, charge, demand, collect, or receive from any person or corporation a greater or lesser compensation for any service rendered or to be rendered in the transportation of persons or property, except as authorized in this title, than it charges, demands, collects, or receives from any person or corporation for doing a like and contemporaneous service in the transportation of a like kind of traffic under the same or substantially similar circumstances and conditions. [2007 c 234 § 28; 1984 c 143 § 6; 1961 c 14 § 81.28.180. Prior: 1911 c 117 § 20; RRS § 10356.]

81.28.190 Unreasonable preferences and prejudices prohibited. A common carrier subject to regulation by the commission as to rates and service shall not make or give any undue or unreasonable preference or advantage to any person, corporation, locality, or particular description of traffic in any respect whatsoever, or subject any particular person, corporation, locality, or particular description of traffic, to any undue or unreasonable prejudice or disadvantage in any respect whatsoever. [2007 c 234 § 29; 1984 c 143 § 7; 1961 c 14 § 81.28.190. Prior: 1911 c 117 § 21; RRS § 10357.]

81.28.200 Long and short haul. A common carrier, subject to regulation by the commission as to rates and service and this title, shall not charge or receive any greater compensation in the aggregate for the transportation of persons or a like kind of property for a shorter distance than for a longer distance over the same line in the same direction, the shorter distance being included within the longer distance, or to charge any greater compensation as a through rate than the aggregate of the intermediate rates subject to this title. The common carriers may not charge and receive as great a compensation for a shorter as for a longer distance or haul. Upon the application of a common carrier, the commission may by order authorize the common carrier to charge less for a longer distance than for a shorter distance for the transportation of persons or property in special cases after investigation by the commission, but the order must specify and prescribe the extent to which the common carrier making the application is relieved from the operation of this section. Only to the extent so specified and prescribed is any common carrier relieved from the operation and requirements of this section. [2007 c 234 § 30; 1984 c 143 § 8; 1961 c 14 § 81.28.200. Prior: 1911 c 117 § 22; RRS § 10358.]

81.28.210 Transportation at less than published rates—Rebating—False representation. (1) A common carrier subject to regulation by the commission as to rates and service, or any officer or agent thereof, or any person acting for or employed by the common carrier, shall not assist, suffer, or permit any person or corporation to obtain transportation for any person or property between points within this state at less than the rates then established and in force in accordance with the schedules filed and published under this title, by false billing, false classification, false weight or weighing, or false report of weight, or by any other device or means. Any person, corporation, or any officer, agent, or employee of a corporation, who delivers property for transportation within the state to a common carrier, shall not seek to obtain or obtain such transportation for such property at less than the rates then established and in force, by false billing, false or incorrect classification, false weight or weighing, false representation of the contents or substance of a package, or false report or statement of weight, or by any device or means, whether with or without the consent or connivance of a common carrier or any of its officers, agents, or employees.

(2) A person, corporation, or any officer, agent, or employee of a corporation, shall not knowingly or willfully, directly or indirectly, by false statement or representation as to the cost, value, nature, or extent of injury, or by the use of any false billing, bill of lading, receipt, voucher, roll, account, claim, certificate, affidavit, or deposition, knowing the same to be false, fictitious, or fraudulent, or to upon any false, fictitious, or fraudulent statement or entry, obtain or attempt to obtain any allowance, rebate, or payment for damage, or otherwise, in connection with or growing out of the transportation of persons or property, or agreement to transport such persons or property, whether with or without the consent or connivance of such common carrier or any of its officers, agents, or employees, when the compensation of such carrier for such transportation is less than the rates then established and in force.

(3) A person, corporation, or any officer, agent, or employee of a corporation, who delivers property for transportation within the state to a common carrier, shall not seek to obtain or obtain such transportation by any false representation or false statement of false paper or token as to the contents or substance thereof, when the transportation of such property is prohibited by law. [2007 c 234 § 31; 1961 c 14 § 81.28.210. Prior: 1911 c 117 § 23; RRS § 10359.]

81.28.220 Action for treble damages. The attorney general of the state of Washington shall, whenever he or she has reasonable grounds to believe that any person, firm, corporation has knowingly accepted or received from any carriers of persons or property subject to the jurisdiction of the commission, either directly or indirectly, any unlawful rebate, discount, deduction, concession, refund, or remittance from the rates or charges filed and open to public inspection.
as provided for in the public service laws of this state, prosecute a civil action in the name of the people of the state of Washington in the superior court of Thurston county to collect three times the total sum of such rebates, discounts, deductions, concessions, refunds, or remittances so accepted or received within three years prior to the commencement of such action.

All penalties imposed under the provisions of this section shall be paid to the state treasurer and by him or her deposited in the public service revolving fund. [2007 c 234 § 32; 1961 c 14 § 81.28.220. Prior: 1937 c 169 § 5; RRS § 10447-1.]

81.28.240 Commission to fix just, reasonable, and compensatory rates. Whenever the commission finds, after a hearing had upon its own motion or upon complaint, as provided in this chapter, that the rates, fares, or charges demanded, exacted, charged, or collected by any common carrier subject to regulation by the commission as to rates and service for the transportation of persons or property within the state or in connection therewith, or that the regulations or practices of the common carrier affecting those rates are unjust, unreasonable, unjustly discriminatory, or unduly preferential, or in any way are in violation of the provisions of law, or that the rates, fares, or charges are insufficient to yield a reasonable compensation for the service rendered, the commission shall determine and fix by order the just, reasonable, or sufficient rates, fares, or charges, or the regulations or practices to be thereafter observed and enforced. [2007 c 234 § 33; 1984 c 143 § 9; 1961 c 14 § 81.28.240. Prior: 1911 c 117 § 53; RRS § 10389, part.]

81.28.250 Investigation and determination of inter-state rates—Application for federal relief. The commission shall investigate all interstate, rates, fares, charges, classifications, or rules or practices in relation to the transportation of persons or property within this state, and if the commission determines that these rates, fares, charges, classification, or rules or practices are excessive or discriminatory, or are applied in violation of the act of congress entitled "An act to regulate commerce," approved February 4, 1887, as amended or supplemented, or in conflict with the rulings, orders, or regulations of the applicable federal regulatory agency, the commission shall apply, by petition, to the applicable federal regulatory agency for relief, and may present to the agency all facts concerning violations of the rulings, orders, or regulations of that agency, or violations of the act to regulate commerce as amended or supplemented. [2007 c 234 § 34; 1961 c 14 § 81.28.250. Prior: 1911 c 117 § 58; RRS § 10394.]

81.28.260 Bicycles as baggage on commercial ferries. Bicycles must be transported as baggage for passengers by commercial ferries and are subject to the same liabilities as other baggage. A passenger is not required to crate, cover, or otherwise protect any bicycle. A commercial ferry is not required to transport more than one bicycle for one person. [2007 c 234 § 35; 1961 c 14 § 81.28.260. Prior: 1899 c 15 § 1; RRS § 10495.]

81.28.270 Limitation of action for collection of transportation charges. All actions at law by railroads, common and contract carriers by motor truck and all other public carriers for recovery of their charges, or any part of them, for any common carrier service performed by said carriers, shall be begun within two years from the time the cause of action accrues, and not after. [1961 c 14 § 81.28.270. Prior: 1945 c 117 § 1; Rem. Supp. 1945 § 167-1.]

81.28.280 Reports of wrecks, etc. Every public service company shall give immediate notice to the commission of every accident resulting in death or injury to any person occurring on its lines or system, in such manner as the commission may prescribe.

Such notice shall not be admitted as evidence or used for any purpose against the company giving it in any action for damages growing out of any matter mentioned in the notice. The commission may require reports to be made by any common carrier of all wrecks, collisions, or derailments occurring on its line. [1961 c 14 § 81.28.280. Prior: 1953 c 104 § 3; prior: 1911 c 117 § 63, part; RRS § 10399, part.]

81.28.290 Investigation of accidents, wrecks. The commission shall investigate all accidents that may occur upon the lines of any common carrier resulting in loss of life, to any passenger or employee, and may investigate any and all accidents or wrecks occurring on the line of any common carrier. Notice of the investigation shall be given in all cases for a sufficient length of time to enable the company affected to participate in the hearing and may be given orally or in writing, in such manner as the commission may prescribe.

Such witnesses may be examined as the commission deems necessary and proper to thoroughly ascertain the cause of the accident or wreck and fix the responsibility therefor. The examination and investigation may be conducted by an inspector or deputy inspector, and they may administer oaths, issue subpoenas, and compel the attendance of witnesses, and when the examination is conducted by an inspector or deputy inspector, he shall make a full and complete report thereof to the commission. [1961 c 14 § 81.28.290. Prior: 1953 c 104 § 4; prior: 1911 c 117 § 63, part; RRS § 10399, part.]
81.29.010 Definition. "Common carrier," as used in this chapter, means every common carrier subject to regulation by the commission as to rates and service. [2007 c 234 § 36; 1961 c 14 § 81.29.010. Prior: 1945 c 203 § 1; Rem. Supp. 1945 § 3673-0. Formerly RCW 81.32.010, part.]

81.29.020 Carrier’s liability for loss—Exceptions—Tariff schedule—Time for filing claims or instituting suits. (1) Any common carrier subject to regulation by the commission as to rates and service, receiving property for transportation wholly within the state of Washington from one point in the state of Washington to another point in the state of Washington, shall issue a receipt or bill of lading and is liable to the lawful holder thereof for any loss, damage, or injury to such property caused by it, or by any common carrier to which such property may be delivered, or over whose line or lines such property may pass when transported on a through bill of lading, and a contract, receipt, rule, regulation, or other limitation of any character, does not exempt such common carrier from the liability imposed; and any such common carrier receiving property for transportation wholly within the state of Washington, or any common carrier delivering property received and transported, is liable to the lawful holder of the receipt or bill of lading, or to any party entitled to recover thereon, whether such receipt or bill of lading has been issued or not, for the full actual loss, damage, or injury to such property caused by it or by any such common carrier to which such property may be delivered, or over whose line or lines such property may pass, when transported on a through bill of lading. Any limitation of liability, limitation of the amount of recovery, or representation or agreement as to value in any such receipt or bill of lading, or in any contract, rule, or regulation, or in any tariff filed with the commission is unlawful and void.

(2) Liability for full actual loss, damage, or injury, notwithstanding any limitation of liability or recovery or representation, agreement, or release as to value, and declaring any such limitation to be unlawful and void, does not apply: First, to baggage carried on commercial ferries or motor vehicles, or commercial ferries or motor vehicles carrying passengers; second, to property, concerning which the carrier is expressly authorized or required by order of the commission, to establish and maintain rates dependent upon the value declared in writing by the shipper or agreed upon in writing as the released value of the property, in which case such declaration or agreement has no other effect than to limit liability and recovery to an amount not exceeding the value so declared or released; and any tariff schedule that may be filed with the commission pursuant to such order must contain specific reference thereto and may establish rates varying with the value so declared and agreed upon; and the commission may make such order in cases where rates dependent upon and varying with declared or agreed values would, in its opinion, be just and reasonable under the circumstances and conditions surrounding the transportation.

(3) This section does not deprive any holder of a receipt or bill of lading of any remedy or right of action which he or she has under the existing law.

(4) It is unlawful for any receiving or delivering common carrier to provide by rule, contract, regulation, or otherwise a shorter period for the filing of claims than nine months, and for the institution of suits than two years, such period for institution of suits to be computed from the day when notice in writing is given by the carrier to the claimant that the carrier has disallowed the claim or any part or parts thereof specified in the notice.

(5) The liability imposed by this section applies to property reconsigned or diverted in accordance with the applicable tariffs filed with the commission. [2007 c 234 § 37; 1982 c 83 § 1; 1980 c 132 § 1; 1961 c 14 § 81.29.020. Prior: 1945 c 203 § 2; 1923 c 149 § 1; Rem. Supp. 1945 § 3673-1. Formerly RCW 81.32.290 through 81.32.330.]

Effective date—1980 c 132: "This 1980 act shall take effect on July 1, 1980." [1980 c 132 § 4.]

81.29.030 Carrier’s right of action against other carrier. The common carrier issuing such receipt or bill of lading, or delivering such property so received and transported, shall be entitled to recover from the common carrier on whose line the loss, damage, or injury shall have been sustained, the amount of such loss, damage, or injury as it may be required to pay to the owners of such property, as may be evidenced by any receipt, judgment or transcript thereof. [1961 c 14 § 81.29.030. Prior: 1945 c 203 § 3; 1923 c 149 § 2; Rem. Supp. 1945 § 3673-2. Formerly RCW 81.32.340.]

81.29.040 Penalty for violations. Any common carrier subject to the provisions of this chapter, or whenever such common carrier is a corporation, any director or officer thereof, or any receiver, trustee, lessee, agent, or person acting for or employed by such corporation, who, alone, or with any other corporation, company, person, or party, shall willfully do or cause to be done, or shall willingly suffer or permit to be done, any act, matter, or thing in this chapter prohibited or declared to be unlawful, or who shall aid or abet therein, or shall willfully omit or fail to do any act, matter or thing in this chapter required to be done, or shall cause or willingly suffer or permit any act, matter or thing so directed or required by this chapter to be done, or not to be so done, or shall aid or abet any such omission or failure, or shall be guilty of any infraction of this chapter for which no penalty is otherwise provided, or who shall aid or abet therein, shall be deemed guilty of a misdemeanor, and shall upon conviction thereof in any court of competent jurisdiction, be subject to a fine of not to exceed five thousand dollars for each offense. [1961 c 14 § 81.29.040. Prior: 1923 c 149 § 3; RRS § 3673-3. Formerly RCW 81.32.350.]

81.29.050 Liability for baggage. The liability of any common carrier subject to regulation by the commission for
the loss of or damage to any baggage shall be set by the com-
mmission. The commission will review the amounts period-
ically and adjust the rate accordingly. [1991 c 21 § 1; 1961 c
14 § 81.29.050. Prior: 1945 c 209 § 1; Rem. Supp. 1945 §

Except to the extent preempted by federal law, the right to fix and regulate the speed of railway trains within the limits of any city or town other than a first-class city, and at grade crossings as defined in RCW 81.53.010 where such grade crossings are outside the limits of cities and towns, is vested exclusively in the commission: PROVIDED, That RCW 81.48.030 and 81.48.040 shall not apply to street railways which may be operating or hereafter operated within the limits of said cities and towns. 81.48.040 Procedure to fix or change speed limits. (1) After due investigation, the commission shall make and issue an order fixing and regulating the speed of railway trains within the limits of cities and towns other than first-class cities. Except to the extent preempted by federal law, the speed limit to be fixed by the commission shall be discretionary, and it may fix different rates of speed for different cities and towns, which rates of speed shall be commensurate with the hazard presented and the practical operation of the trains. Except to the extent preempted by federal law, the commission shall also fix and regulate the speed of railway trains at grade crossings as defined in RCW 81.53.010 where such grade crossings are outside the limits of cities and towns when in the judgment of the commission the public safety so requires; such speed limit to be fixed shall be discretionary with the commission and may be different for different grade crossings and shall be commensurate with the hazard presented and the practical operation of trains. The commission shall have the right from time to time, as conditions change, to either increase or decrease speed limits established under RCW 81.48.030 and 81.48.040.

(2) Any speed limit that the commission fixed by order prior to June 7, 2006, but without making a finding permitted under P.L. 91-458, Sec. 205 (49 U.S.C. Sec. 20106), has no force or effect.

(3) Before increasing operating speeds, the railroad company, government agency, or jurisdiction that owns or operates the railroad must provide a sixty-day written notice to the commission and to either the governing body of the city or town within which the limit applies or the road authority that has control over the grade crossing at which the limit applies. In the notice, the railroad company, government agency, or jurisdiction must provide the existing timetable speed limits and new passenger and freight speed limits, the milepost limits where the speed increase is to occur, and the federal track class standard to which the track will be maintained. At the end of sixty days, the railroad company, government agency, or jurisdiction may raise the speed limit unless the commission, staff, after investigation, finds that a lower limit is necessary to address local conditions consistent with P.L. 91-458, Sec. 205 (49 U.S.C. Sec. 20106). In the event of such a finding by the staff that is not agreed to by the railroad company, government agency, or jurisdiction, the matter shall be scheduled for a hearing before the commission. A railroad company, government agency, or jurisdiction may provide no more than five notices in any sixty-day period without the consent of the commission. The railroad company, government agency, or jurisdiction and the commission may extend the sixty-day period by mutual consent. [2006 c 70 § 2; 1994 c 81 § 84; 1971 ex.s. c 143 § 2; 1961 c 14 § 81.48.040. Prior: 1943 c 228 § 2; Rem. Supp. 1943 § 10547-2.]

81.48.050 Trains to stop at railroad crossings. All railroads and street railroads, operating in this state shall cause their trains and cars to come to a full stop at a distance not greater than five hundred feet before crossing the tracks of another railroad crossing at grade, excepting at crossings where there are established signal towers, and signal men, interlocking plants or gates. [1961 c 14 § 81.48.050. Prior: 1911 c 117 § 69; RRS § 10405.]

In estimating such confinement, the time during which the animals have been confined without such rest on connecting roads from which they are received shall be included. Animals so unloaded shall, during such rest, be

81.52.060 Fences—Liability for injury to stock. Every such person, company or corporation owning or operating such railroad shall be liable for all damages sustained in the injury or killing of stock in any manner by reason of the failure of such person, company or corporation, to construct and maintain such fence or such crossing or cattle guard; but when such fences, crossings and guards have been duly made, and shall be kept in good repair, such person, company or corporation shall not be liable for any such damages, unless negligently or unlawfully done. 81.52.070 Fences—Negligence—Evidence. In all actions against persons, companies or corporations, operating steam or electric railroads in the state of Washington, for injury to stock by collision with moving trains, it is prima facie evidence of negligence on the part of such person, company or corporation, to show that the railroad track was not fenced with a substantial fence or protected by a sufficient cattle guard at the place where the stock was injured or killed. Traffic devices required by utilities and transportation commission: RCW 47.36.050.

81.53.010 Definitions. The term "commission," when used in this chapter, means the utilities and transportation commission of Washington.

The term "highway," when used in this chapter, includes all state and county roads, streets, alleys, avenues, boulevards, parkways and other public places actually open and in use, or to be opened and used, for travel by the public.
The term "railroad," when used in this chapter, means every railroad, including interurban and suburban electric railroads, by whatsoever power operated, for the public use in the conveyance of persons or property for hire, with all bridges, ferries, tunnels, equipment, switches, spurs, sidings, tracks, stations and terminal facilities of every kind, used, operated, controlled, managed, or owned by or in connection therewith. The said term shall also include every logging and other industrial railway owned or operated primarily for the purpose of carrying the property of its owners or operators or of a limited class of persons, with all tracks, spurs and sidings used in connection therewith. The said term shall not include street railways operating within the limits of any incorporated city or town.

The term "railroad company," when used in this chapter, includes every corporation, company, association, joint stock association, partnership or person, its, their or his lessees, trustees or receivers appointed by any court whatsoever, owning, operating, controlling or managing any railroad, as that term is defined in this section.

The term "over-crossing," when used in this chapter, means any point or place where a highway crosses a railroad by passing above the same.

The term "under-crossing," when used in this chapter, means any point or place where a highway crosses a railroad by passing under the same.

The term "over-crossing" or "under-crossing," shall also mean any point or place where one railroad crosses another railroad not at grade.

The term "grade crossing," when used in this chapter, means any point or place where a railroad crosses a highway or a highway crosses a railroad or one railroad crosses another, at a common grade. [1961 c 14 § 81.53.010. Prior: 1959 c 283 § 2; prior: (i) 1913 c 30 § 1; RRS § 10511. (ii) 1941 c 161 § 1; Rem. Supp. 1941 § 10511-1. Formerly RCW 81.52.080, part.]

81.53.020 Grade separation required where practicable. All railroads and extensions of railroads hereafter constructed shall cross existing railroads and highways by passing either over or under the same, when practicable, and shall in no instance cross any railroad or highway at grade without authority first being obtained from the commission to do so. All highways and extensions of highways hereafter laid out and constructed shall cross existing railroads by passing either over or under the same, when practicable, and shall in no instance cross any railroad at grade without authority first being obtained from the commission to do so: PROVIDED, That this section shall not be construed to prohibit a railroad company from constructing tracks at grade across other tracks owned or operated by it within established yard limits. In determining whether a separation of grades is practicable, the commission shall take into consideration the amount and character of travel on the railroad and on the highway; the grade and alignment of the railroad and the highway; the cost of separating grades; the topography of the country, and all other circumstances and conditions naturally involved in such an inquiry. [1961 c 14 § 81.53.020. Prior: 1913 c 30 § 2; RRS § 10512. Formerly RCW 81.52.090.]

81.53.030 Petition for crossing—Hearing—Order. Whenever a railroad company desires to cross a highway or railroad at grade, it shall file a written petition with the commission setting forth the reasons why the crossing cannot be made either above or below grade. Whenever the legislative authority of a county, or the municipal authorities of a city, or the state officers authorized to lay out and construct state roads, or the state parks and recreation commission, desire to extend a highway across a railroad at grade, they shall file a written petition with the commission, setting forth the reasons why the crossing cannot be made either above or below grade. Upon receiving the petition the commission shall immediately investigate it, giving at least ten days’ notice to the railroad company and the county or city affected thereby, of the time and place of the investigation, to the end that all parties interested may be present and heard. If the highway involved is a state road or parkway, the secretary of transportation or the state parks and recreation commission shall be notified of the time and place of hearing. The evidence introduced shall be reduced to writing and be filed by the commission. If it finds that it is not practicable to cross the railroad or highway either above or below grade, the commission shall enter a written order in the cause, either granting or denying the right to construct a grade crossing at the point in question. The commission may provide in the order authorizing a grade crossing, or at any subsequent time, that the railroad company shall install and maintain proper signals, warnings, flagmen, interlocking devices, or other devices or means to secure the safety of the public and its employees. In respect to existing railroad grade crossings over highways the construction of which grade crossings was accomplished other than under a commission order authorizing it, the commission may in any event require the railroad company to install and maintain, at or near each crossing, on both sides of it, a sign known as the sawback crossing sign with the lettering "Railroad Crossing" inscribed thereon with a suitable inscription indicating the number of tracks. The sign shall be of standard design conformed to specifications furnished by the Washington state department of transportation. [1984 c 7 § 373; 1961 c 14 § 81.53.030. Severability—1984 c 7: See note following RCW 47.01.141.

81.53.040 Supplemental hearing—Change of route. If the commission finds that it is impracticable to construct an over-crossing or under-crossing on the established or proposed highway, and shall find that by deflecting the established or proposed highway a practicable and feasible over-crossing or under-crossing or a safer grade crossing can be provided, it shall continue the hearing and hold a supplemental hearing thereon. At least ten days’ notice of the time and place of the supplemental hearing shall be given to all landowners that may be affected by the proposed change in location of the highways. At the supplemental hearing the commission shall inquire into the propriety and necessity of changing and deflecting the highway as proposed. If the proposed change in route of the highway involves the abandonment and vacation of a portion of an established highway, the owners of land contiguous to the portion of the highway to be vacated shall, in like manner, be notified of the time and
place of the supplemental hearing. At the conclusion of the hearing, the commission shall enter its findings in writing, and shall determine the location of the crossing which may be constructed, and whether it shall be an under-crossing, over-crossing or grade crossing, and shall determine whether or not any proposed change in the route of an existing highway, or the abandonment of a portion thereof is advisable or necessary to secure an over-crossing, under-crossing, or safer grade crossing. [1961 c 14 § 81.53.040. Prior: 1955 c 310 § 4; prior: 1937 c 22 § 1, part; 1913 c 30 § 3, part; RRS § 10513, part. Formerly RCW 81.52.110.]

81.53.050 Requirements of order on change of route. If the commission finds and determines that a change in route of an existing highway, or vacation of a portion thereof, is necessary or advisable, it shall further find and determine what private property or property rights it is necessary to take, damage, or injuriously affect for the purpose of constructing the highway along a new route, and what private property or property rights, will be affected by the proposed vacation of a portion of an existing highway. The property and property rights found necessary to be taken, damaged, or affected shall be described in the findings with reasonable accuracy. In any action brought to acquire the right to take or damage any such property or property rights, the findings of the commission shall be conclusive as to the necessity therefor. A copy of the findings shall be served upon all parties to the cause. [1961 c 14 § 81.53.050. Prior: 1955 c 310 § 5; 1937 c 22 § 1, part; 1913 c 30 § 3, part; RRS § 10513, part. Formerly RCW 81.52.120.]

81.53.060 Petition for alteration of crossing—Closure of grade crossing without hearing. The mayor and city council, or other governing body of any city or town, or the legislative authority of any county within which there exists any under-crossing, over-crossing, or grade crossing, or where any street or highway is proposed to be located or established across any railroad, or any railroad company whose road is crossed by any highway, may file with the commission their or its petition in writing, alleging that the public safety requires the establishment of an under-crossing or over-crossing, or an alteration in the method and manner of an existing crossing and its approaches, or in the style and nature of construction of an existing over-crossing, under-crossing, or grade crossing, or a change in the location of an existing highway or crossing, the closing or discontinuance of an existing highway crossing, and the diversion of travel thereon to another highway or crossing, or if not practicable, to change the crossing from grade to or close and discontinue the crossing, the opening of an additional crossing for the partial diversion of travel, and praying that this relief may be ordered. If the existing or proposed crossing is on a state road, highway, or parkway, the petition may be filed by the secretary of transportation or the state parks and recreation commission. Upon the petition being filed, the commission shall fix a time and place for hearing the petition and shall give notice thereof, to the petitioner, the railroad company, and the municipality or county in which the crossing is situated. If the highway involved is a state highway or parkway, notice shall be given to the secretary of transportation or the state parks and recreation commission. If the change petitioned for requires that private lands, property, or property rights be taken, damaged, or injuriously affected to open up a new route for the highway, or requires that any portion of any existing highway be vacated and abandoned, twenty days’ notice of the hearing shall be given to the owner or owners of the private lands, property, and property rights which it is necessary to take, damage, or injuriously affect, and to the owner or owners of the private lands, property, or property rights that will be affected by the proposed vacation and abandonment of the existing highway. The commission shall also cause notice of the hearing to be published once in a newspaper of general circulation in the community where the crossing is situated, which publication shall appear at least two days before the date of hearing. At the time and place fixed in the notice, all persons and parties interested are entitled to be heard and introduce evidence. In the case of a petition for closure of a grade crossing the commission may order the grade crossing closed without hearing where: (1) Notice of the filing of the petition is posted at, or as near as practical to, the crossing; (2) notice of the filing of the petition is published once in a newspaper of general circulation in the community or area where the crossing is situated, which publication shall appear within the same week that the notice referred to in subsection (1) of this section is posted; and (3) no objections are received by the commission within twenty days from the date of the publication of the notice. [1984 c 7 § 374; 1969 ex.s. c 210 § 8; 1961 c 14 § 81.53.060. Prior: 1937 c 22 § 2, part; 1921 c 138 § 1, part; 1913 c 30 § 4, part; RRS § 10514, part. Formerly RCW 81.52.130.]

Severability—1984 c 7: See note following RCW 47.01.141.

81.53.070 Hearing. At the conclusion of the hearing the commission shall make and file its written findings of fact concerning the matters inquired into in like manner as provided for findings of fact upon petition for new crossings. The commission shall also enter its order based upon said findings of fact, which shall specify whether the highway shall continue at grade or whether it shall be changed to cross over or under the railroad in its existing location or at some other point, and whether an over-crossing or under-crossing shall be established at the proposed location of any street or highway or at some other point, or whether the style and nature of construction of an existing crossing shall be changed, or whether said highway shall be closed and travel thereon diverted to another channel, or any other change that the commission may find advisable or necessary. PROVIDED, That in an emergency where a highway is relocated to avoid a grade crossing, or a new crossing is constructed in the vicinity of an existing crossing in the interest of public safety, the commission may order such existing crossing closed without notice or hearing as specified herein. In case the order made requires that private lands, property, or property rights be taken, damaged or injuriously affected, the right to take, damage or injuriously affect the same shall be acquired as hereinafter provided.

Any petition herein authorized may be filed by the commission on its own motion, and proceedings thereon shall be the same as herein provided for the hearing and determina-
81.53.080 Restrictions on structures, railway equipment, in proximity of crossings—Minimum clearance for under-crossings. After February 24, 1937, no building, loading platform, or other structure which will tend to obstruct the vision of travelers on a highway or parkway, of approaching railway traffic, shall be erected or placed on railroad or public highway rights-of-way within a distance of one hundred feet of any grade crossing located outside the corporate limits of any city or town unless authorized by the commission, and no trains, railway cars or equipment shall be spotted less than one hundred feet from any grade crossing within or without the corporate limits of any city or town except to serve station facilities and existing facilities of industries.

The commission shall have the power to specify the minimum vertical and horizontal clearance of under-crossings constructed, repaired or reconstructed after February 24, 1937, except as to primary state highways. [1969 ex.s. c 210 § 9; 1961 c 14 § 81.53.080. Prior: 1937 c 22 § 2, part; 1921 c 138 § 1, part; 1913 c 30 § 4, part; RRS § 10514, part. Formerly RCW 81.52.140.]

81.53.090 Duty to maintain crossings. When a highway crosses a railroad by an over-crossing or under-crossing, the framework and abutments of the over-crossing or under-crossing, as the case may be, shall be maintained and kept in repair by the railroad company, and the roadway therewith or thereunder and approaches thereto shall be maintained and kept in repair by the county or municipality in which the same are situated, or if the highway is a state road or parkway, the roadway over or under the railroad shall be maintained and kept in repair as provided by law for the maintenance and repair of state roads and parkways.

The railings of over-crossings shall be considered a part of the roadway. Whenever a highway intersects a railroad at a common grade, the roadway approaches within one foot of the outside of either rail shall be maintained and kept in repair by highway authority, and the planking or other materials between the rails and for one foot on the outside thereof shall be installed and maintained by the railroad company. At crossings involving more than one track, maintenance by the railroad company shall include that portion of the crossing between and for one foot on the outside of each outside rail. The minimum length of such planking or other materials shall be twenty feet on installation or repairs made after February 24, 1937. [1961 c 14 § 81.53.090. Prior: 1937 c 22 § 3; 1913 c 30 § 5; RRS § 10515. Formerly RCW 81.52.150.]

81.53.100 Cost when railroad crosses highway. Whenever, under the provisions of this chapter, new railroads are constructed across existing highways, or highway changes are made either for the purpose of avoiding grade crossings on such new railroads, or for the purpose of crossing at a safer and more accessible point than otherwise available, the entire expense of crossing above or below the grade of the existing highway, or changing the route thereof, for the purpose mentioned in this section, shall be paid by the railroad company. [1961 c 14 § 81.53.100. Prior: 1937 c 22 § 4A; 1925 ex.s. c 73 § 1A; 1921 c 138 § 2A; 1913 c 30 § 6A; RRS § 10516A. Formerly RCW 81.52.170.]

81.53.110 Cost when highway crosses railroad. Whenever, under the provisions of this chapter, a new highway is constructed across a railroad, or an existing grade crossing is eliminated or changed (or the style or nature of construction of an existing crossing is changed), the entire expense of constructing a new grade crossing, an overcrossing, under-crossing, or safer grade crossing, or changing the nature and style of construction of an existing crossing, including the expense of constructing approaches to such crossing and the expense of securing rights-of-way for such approaches, as the case may be, shall be apportioned by the commission between the railroad, municipality or county affected, or if the highway is a state road or parkway, between the railroad and the state, in such manner as justice may require, regard being had for all facts relating to the establishment, reason for, and construction of said improvement. If the highway involved is a state road or parkway, the amount not apportioned to the railroad company shall be paid as provided by law for constructing such state road or parkway. [1961 c 14 § 81.53.110. Prior: 1937 c 22 § 4B; 1925 ex.s. c 73 § 1B; 1921 c 138 § 2B; 1913 c 30 § 6B; RRS § 10516B. Formerly RCW 81.52.180.]

81.53.120 Cost when railroad crosses railroad. Whenever two or more lines of railroad owned or operated by different companies cross a highway, or each other, by an over-crossing, under-crossing, or grade crossing required or permitted by this chapter or by an order of the commission, the portion of the expense of making such crossing not chargeable to any municipality, county or to the state, and the expense of constructing and maintaining such signals, warning devices, flagmen, interlocking devices, or other devices or means to secure the safety of the public and the employees of the railroad company, as the commission may require to be constructed and maintained, shall be apportioned between said railroad companies by the commission in such manner as justice may require, regard being had for all facts relating to the establishment, reason for, and construction of said improvement, unless said companies shall mutually agree upon an apportionment. If it becomes necessary for the commission to make an apportionment between the railroad companies, a hearing for that purpose shall be held, at least ten days’ notice of which shall be given. [1961 c 14 § 81.53.120. Prior: 1937 c 22 § 4C; 1925 ex.s. c 73 § 1C; 1921 c 138 § 2C; 1913 c 30 § 6C; RRS § 10516C. Formerly RCW 81.52.190.]

81.53.130 Apportionment of cost. In the construction of new railroads across existing highways, the railroads shall do or cause to be done all the work of constructing the crossings and road changes that may be required, and shall acquire
and furnish whatever property or easements may be necessary, and shall pay, as provided in RCW 81.53.100 through 81.53.120, the entire expense of such work including all compensation or damages for property or property rights taken, damaged or injuriously affected. In all other cases the construction work may be apportioned by the commission between the parties who may be required to contribute to the cost thereof as the parties may agree, or as the commission may consider advisable. All work within the limits of railroad rights-of-way shall in every case be done by the railroad company owning or operating the same. The cost of acquiring additional lands, rights or easements to provide for the change of existing crossings shall, unless the parties otherwise agree, in the first instance be paid by the municipality or county within which the crossing is located; or in the case of a state road or roadway, shall be paid in the manner provided by law for paying the cost of acquiring lands, rights or easements for the construction of state roads or highways. The expense accruing on account of property taken or damaged shall be divided and paid in the manner provided for dividing and paying other costs of construction. Upon the completion of the work and its approval by the commission, an accounting shall be had, and if it shall appear that any party has expended more than its proportion of the total cost, a settlement shall be forthwith made. If the parties shall be unable to agree upon a settlement, the commission shall arbitrate, adjust and settle the account after notice to the parties. In the event of failure and refusal of any party to pay its proportion of the expense, the sum with interest from the date of the settlement may be recovered in a civil action by the party entitled thereto. In cases where the commission has settled the account, the finding of the commission as to the amount due shall be conclusive in any civil action brought to recover the same if such finding has not been reviewed or appealed from as herein provided, and the time for review or appeal has expired. If any party shall seek review of any finding or order of the commission apportioning the cost between the parties liable therefor, the superior court, the court of appeals, or the supreme court, as the case may be, shall cause judgment to be entered in such review proceedings for such sum or sums as may be found lawfully or justly due by one party to another. 81.53.140 Time for performance. The commission, in any order requiring work to be done, shall have power to fix the time within which the same shall be performed and completed: PROVIDED, That if any party having a duty to perform within a fixed time under any order of the commission shall make it appear to the commission that the order cannot reasonably be complied with within the time fixed by reason either of facts arising after the entry of the order or of facts existing prior to the entry thereof that were not presented, and with reasonable diligence could not have been sooner presented to the commission, such party shall be entitled to a reasonable extension of time within which to perform the work. An order of the commission refusing to grant an extension of time may be reviewed as provided for the review of other orders of the commission. [1961 c 14 § 81.53.140. Prior: 1913 c 30 § 10; RRS § 10520. Formerly RCW 81.52.210.]

81.53.150 Practice and procedure. Modes of procedure under this chapter, unless otherwise provided in this chapter, shall be as provided in other provisions of this title. The commission is hereby given power to adopt rules to govern its proceedings and to regulate the mode and manner of all investigations and hearings under this chapter. [1961 c 14 § 81.53.150. Prior: 1913 c 30 § 11; RRS § 10521. Formerly RCW 81.52.220.]

81.53.160 Service of process. All notices required to be served by this chapter shall be in writing, and shall briefly state the nature of the matter to be inquired into and investigated. Notices may be served in the manner provided by law for the service of summons in civil cases, or by registered United States mail. When service is made by registered mail, the receipt of the receiving post office shall be sufficient proof of service. When, under the provisions of this chapter, it is necessary to serve notice of hearings before the commission on owners of private lands, property, or property rights, and such owners cannot be found, service may be made by publication in the manner provided by law for the publication of summons in civil actions, except that publication need be made but once each week for three consecutive weeks, and the hearing may be held at any time after the expiration of thirty days from the date of the first publication of the notice. 81.53.170 Judicial review. Upon the petition of any party to a proceeding before the commission, any finding or findings, or order or orders of the commission, made under color of authority of this chapter, except as otherwise provided, may be reviewed in the superior court of the county wherein the crossing is situated, and the reasonableness and lawfulness of such finding or findings, order or orders inquired into and determined, as provided in this title for the review of the commission’s orders generally. Appellate review of the judgment of the superior court may be sought in like manner as provided in said utilities and transportation commission law for review by the supreme court or the court of appeals. 81.53.180 Eminent domain. Whenever to carry out any work undertaken under this chapter it is necessary to take, damage, or injuriously affect any private lands, property, or property rights, the right so to take, damage, or injuriously affect the same may be acquired by condemnation as hereinafter provided:

(1) In cases where new railroads are constructed and laid out by railroad company authorized to exercise the power of eminent domain, the right to take, damage, or injuriously affect private lands, property, or property rights shall be acquired by the railroad company by a condemnation proceeding brought in its own name and prosecuted as provided

[Title 81 RCW—page 34] (2008 Ed.)
by law for the exercise of the power of eminent domain by railroad companies, and the right of eminent domain is hereby conferred on railroad companies for the purpose of carrying out the requirements of this chapter or the requirements of any order of the commission.

(2) In cases where it is necessary to take, damage, or injuriously affect private lands, property, or property rights to permit the opening of a new highway or highway crossing across a railroad, the right to take, damage, or injuriously affect such lands, property, or property rights shall be acquired by the municipality or county petitioning for such new crossing by a condemnation proceeding brought in the name of such municipality or county as provided by law for the exercise of the power of eminent domain by such municipality or county. If the highway involved be a state highway, then the right to take, damage, or injuriously affect private lands, property, or property rights shall be acquired by a condemnation proceeding prosecuted under the laws relative to the exercise of the power of eminent domain in aid of such state road.

(3) In cases where the commission orders changes in existing crossings to secure an under-crossing, over-crossing, or safer grade crossing, and it is necessary to take, damage, or injuriously affect private lands, property, or property rights to execute the work, the right to take, damage, or injuriously affect such lands, property, or property rights shall be acquired in a condemnation proceeding prosecuted in the name of the state of Washington by the attorney general under the laws relating to the exercise of the power of eminent domain by cities of the first class for street and highway purposes: PROVIDED, That in the cases mentioned in this subdivision the full value of any lands taken shall be awarded, together with damages, if any accruing to the remainder of the land not taken by reason of the severance of the part taken, but in computing the damages to the remainder, if any, the jury shall offset against such damages, if any, the special benefits, if any, accruing to such remainder by reason of the proposed improvement. The right of eminent domain for the purposes mentioned in this subdivision is hereby granted. [1961 c 14 § 81.53.180. Prior: 1913 c 30 § 15; RRS § 10525. Formerly RCW 81.52.250.]

81.53.200 Mandamus to compel performance. If any railroad company, county, municipality, or officers thereof, or other person, shall fail, neglect, or refuse to perform or discharge any duty required of it or them under this chapter or any order of the commission, the performance of such duty may be compelled by mandamus, or other appropriate proceeding, prosecuted by the attorney general upon request of the commission. 81.53.210 Penalty. If any railroad company shall fail or neglect to obey, comply with, or carry out the requirements of this chapter, or any order of the commission made under it, such company shall be liable to a penalty not to exceed five thousand dollars, such penalty to be recovered in a civil action brought in the name of the state of Washington by the attorney general. All penalties recovered shall be paid into the state treasury. [1961 c 14 § 81.53.210. Prior: 1913 c 30 § 18; RRS § 10528. Formerly RCW 81.52.280.]

81.53.220 Obstructions in highways. Whenever, to carry out any work ordered under RCW 81.53.010 through 81.53.281 and 81.54.010, it is necessary to erect and maintain posts, piers, or abutments in a highway, the right and authority to erect and maintain the same is hereby granted: PROVIDED, That, in case of a state highway the same shall be placed only at such points on such state highway as may be approved by the state secretary of transportation and fixed after such approval by order of the commission. [1983 c 3 § 210; 1961 c 14 § 81.53.220. Prior: 1925 ex.s.c 179 § 2; 1913 c 30 § 19; RRS § 10529. Formerly RCW 81.52.290.]

81.53.230 No new right of action conferred. Nothing contained in this chapter shall be construed as conferring a right of action for the abandonment or vacation of any existing highway or portion thereof in cases where no right of action exists independent of this chapter. [1961 c 14 § 81.53.230. Prior: 1913 c 30 § 20; RRS § 10530.]

81.53.240 Scope of chapter. Except to the extent necessary to permit participation by first-class cities in the grade crossing protective fund, when an election to participate is made as provided in RCW 81.53.261 through 81.53.291, chapter 81.53 RCW is not operative within the limits of first-class cities, and does not apply to street railway lines operating on or across any street, alley, or other public place within the limits of any city, except that a streetcar line outside of cities of the first class shall not cross a railroad at grade without express authority from the commission. The commission may not change the location of a state highway without the approval of the secretary of transportation, or the location of any crossing thereon adopted or approved by the department of transportation, or grant a railroad authority to cross a state highway at grade without the consent of the secretary of transportation. Severability—1984 c 7: See note following RCW 47.01.141.

81.53.250 Employment of experts. The commission may employ temporarily such experts, engineers, and inspectors as may be necessary to supervise changes in existing crossings undertaken under this chapter; the expense thereof shall be paid by the railroad upon the request and certificate.
81.53.261 Crossing signals, warning devices—Petition—Hearing—Order—Costs apportionment—Records not evidence for actions—Appeal. Whenever the secretary of transportation or the governing body of any city, town, or county, or any railroad company whose road is crossed by any highway, shall deem that the public safety requires signals or other warning devices, other than sawbuck signs, at any crossing of a railroad at common grade by any state, city, town, or county highway, road, street, alley, avenue, boulevard, parkway, or other public place actually open and in use or to be opened and used for travel by the public, he or it shall file with the utilities and transportation commission a petition in writing, alleging that the public safety requires the installation of specified signals or other warning devices at such crossing or specified changes in the method and manner of existing crossing warning devices. Upon receiving such petition, the commission shall promptly set the matter for hearing, giving at least twenty days notice to the railroad company or companies and the county or municipality affected thereby, or the secretary of transportation in the case of a state highway, of the time and place of such hearing. At the time and place fixed in the notice, all persons and parties interested shall be entitled to be heard and introduce evidence, which shall be reduced to writing and filed by the commission. If the commission shall determine from the evidence that public safety does not require the installation of the signal, other warning device or change in the existing warning device specified in the petition, it shall make determinations to that effect and enter an order denying said petition in toto. If the commission shall determine from the evidence that public safety requires the installation of such signals or other warning devices at such crossing or such change in the existing warning devices at said crossing, it shall make determinations to that effect and enter an order directing the installation of such signals or other warning devices or directing that such changes shall be made in existing warning devices. The commission shall also at said hearing apportion the entire cost of installation and maintenance of such signals or other warning devices, other than sawbuck signs, as provided in RCW 81.53.271: PROVIDED, That upon agreement by all parties to waive hearing, the commission shall forthwith enter its order.

No railroad shall be required to install any such signal or other warning device until the public body involved has either paid or executed its promise to pay to the railroad its portion of the estimated cost thereof.

Nothing in this section shall be deemed to foreclose the right of the interested parties to enter into an agreement, franchise, or permit arrangement providing for the installation of signals or other warning devices at any such crossing or for the apportionment of the cost of installation and maintenance thereof, or compliance with an existing agreement, franchise, or permit arrangement providing for the same.

The hearing and determinations authorized by this section may be instituted by the commission on its own motion, and the proceedings, hearing, and consequences thereof shall be the same as for the hearing and determination of any petition authorized by this section.

No part of the record, or a copy thereof, of the hearing and determination provided for in this section and no finding, conclusion, or order made pursuant thereto shall be used as evidence in any trial, civil or criminal, arising out of an accident at or in the vicinity of any crossing prior to installation of signals or other warning devices pursuant to an order of the commission as a result of any such investigation.

Any order entered by the utilities and transportation commission under this section shall be subject to review, supersedeas and appeal as provided in chapter 34.05 RCW.

Nothing in this section shall be deemed to relieve any railroad from liability on account of failure to provide adequate protective devices at any such crossing. [2007 c 234 § 99; 1982 c 94 § 1; 1969 c 134 § 1.]

Application—1982 c 94: "The provisions of this act shall not apply to those petitions acted upon by the commission prior to July 10, 1982." [1982 c 94 § 5.]

81.53.271 Crossing signals, warning devices—Petition contents—Apportionment of installation and maintenance costs. The petition shall set forth by description the location of the crossing or crossings, the type of signal or other warning device to be installed, the necessity from the standpoint of public safety for such installation, the approximate cost of installation and related work, and the approximate annual cost of maintenance. If the commission directs the installation of a grade crossing protective device, and a federal-aid funding program is available to participate in the costs of such installation, installation and maintenance costs of the device shall be apportioned in accordance with the provisions of RCW 81.53.295. Otherwise if installation is directed by the commission, it shall apportion the cost of installation and maintenance as provided in this section:

(1) Installation: (a) The first twenty thousand dollars shall be apportioned to the grade crossing protective fund created by RCW 81.53.281; and
(b) The remainder of the cost shall be apportioned as follows:
   (i) Sixty percent to the grade crossing protective fund, created by RCW 81.53.281;
   (ii) Thirty percent to the city, town, county, or state; and
   (iii) Ten percent to the railroad: PROVIDED, That, if the proposed installation is located at a new crossing requested by a city, town, county, or state, forty percent of the cost shall be apportioned to the city, town, county, or state, and none to the railroad. If the proposed installation is located at a new crossing requested by a railroad, then the entire cost shall be apportioned to the railroad. In the event the city, town, county, or state should concurrently petition the commission and secure an order authorizing the closure of an existing crossing or crossings in proximity to the crossing for which installation of signals or other warning devices shall have been directed, the apportionment to the petitioning city, town, county, or state shall be reduced...
by ten percent of the total cost for each crossing ordered closed and the apportionment from the grade crossing protective fund increased accordingly. This exception shall not be construed to permit a charge to the grade crossing protective fund in an amount greater than the total cost otherwise apportionable to the city, town, county, or state. No reduction shall be applied where one crossing is closed and another opened in lieu thereof, nor to crossings of a private nature.

(2) Maintenance: (a) Twenty-five percent to the grade crossing protective fund, created by RCW 81.53.281; and

(b) Seventy-five percent to the railroad:
Provided, That if the proposed installation is located at a new crossing requested by a railroad, then the entire cost shall be apportioned to the railroad. [2003 c 190 § 2; 1982 c 94 § 2; 1975 1st ex.s. c 189 § 1; 1973 1st ex.s. c 77 § 1; 1969 c 134 § 2.]

Findings—2003 c 190: "The legislature finds that grade crossing, rail trespass, and other safety issues continue to present a public safety problem. The legislature further finds that with the increased importance of rail to freight and commuter mobility, there is a direct public benefit in assisting local communities and railroads to work together to address rail-related public safety concerns." [2003 c 190 § 1.]

Application—1982 c 94: See note following RCW 81.53.261.

81.53.275 Crossing signals, warning devices—Appportionment when funds not available from grade crossing protective fund. In the event funds are not available from the grade crossing protective fund, the commission shall apportion to the parties on the basis of the benefits to be derived by the public and the railroad, respectively, that part of the cost which would otherwise be assigned to the fund: Provided, That in such instances the city, town, county or state shall not be assessed more than sixty percent of the total cost of installation on other than federal aid designated highway projects: AND PROVIDED FURTHER, That in such instances the entire cost of maintenance shall be apportioned to the railroad. [1969 ex.s. c 281 § 18; 1969 c 134 § 7.]

81.53.281 Crossing signals, warning devices—Grade crossing protective fund—Created—Transfer of funds—Allocation of costs—Procedure—Federal funding. There is hereby created in the state treasury a "grade crossing protective fund" to carry out the provisions of RCW 81.53.261, 81.53.271, 81.53.281, 81.53.291, and 81.53.295; for grants and/or subsidies to public, private, and nonprofit entities for rail safety projects authorized or ordered by the commission; and for personnel and associated costs related to supervising and administering rail safety grants and/or subsidies. The commission shall transfer from the public service revolving fund’s miscellaneous fees and penalties accounts moneys appropriated for these purposes as needed. At the time the commission makes each allocation of cost to said grade crossing protective fund, it shall certify that such cost shall be payable out of said fund. When federal-aid highway funds are available, the department of transportation shall, upon entry of an order by the commission requiring the installation or upgrading of a grade crossing protective device, submit to the commission an estimate for the cost of the proposed installation and related work. Upon receipt of the estimate the commission shall pay to the department of transportation the percentage of the estimate specified in RCW 81.53.295, as now or hereafter amended, to be used as the grade crossing protective fund portion of the cost of the installation and related work.

The commission may adopt rules for the allocation of money from the grade crossing protective fund. [2003 c 190 § 3; 1998 c 245 § 166; 1987 c 257 § 1; 1985 c 405 § 509; 1982 c 94 § 3; 1975 1st ex.s. c 189 § 2; 1973 c 115 § 4; 1969 c 134 § 3.]

81.53.291 Crossing signals, warning devices—Operational scope—Election by first-class cities—Procedure. RCW 81.53.261 through 81.53.291 shall be operative within the limits of all cities, towns and counties, except cities of the first class. Cities of the first class may elect as to each particular crossing whether RCW 81.53.261 through 81.53.291 shall apply. Such election shall be made by the filing by such city of a petition as provided for in RCW 81.53.261 with the utilities and transportation commission, or by a statement filed with the commission accepting jurisdiction, when such petition is filed by others. [1969 c 134 § 4.]

81.53.295 Crossing signals, warning devices, etc.—Federal funds used to pay installation costs—Grade crossing protective fund—State and local authorities to pay remaining installation costs—Railroad to pay maintenance costs. Whenever federal-aid highway funds are available and are used to pay a portion of the cost of installing a grade crossing protective device, and related work, at a railroad crossing of any state highway, city or town street, or county road at the then prevailing federal-aid matching rate, the grade crossing protective fund shall pay ten percent of the remaining cost of such installation and related work. The state or local authority having jurisdiction of such highway, street, or road shall pay the balance of the remaining cost of such installation and related work. The railroad whose road is crossed by the highway, street, or road shall thereafter pay the entire cost of maintaining the device. [1982 c 94 § 4; 1975 1st ex.s. c 189 § 3.]

Application—1982 c 94: See note following RCW 81.53.261.

81.53.400 Traffic control devices during construction, repair, etc. of crossing or overpass—Required. Section 81.54.030 Reimbursement of inspection cost. (1) Every person operating any logging railroad or industrial railway shall, prior to July 1st of each year, file with the commission a statement showing the number of, and location, by name of highway, quarter section, section, township, and range of all crossings on his or her line and pay with the filing a fee for each crossing so reported. (1) "Corporation" means a corporation, company, association, or joint stock association.

(2) "Person" means an individual, firm, or a copartnership.

(3) "Auto transportation company" means every corporation or person, their lessees, trustees, receivers, or trustees appointed by any court whatsoever, owning, controlling, operating, or managing any motor-propelled vehicle used in the business of transporting persons and their baggage on the vehicles of auto transportation companies carrying passengers, for compensation over any public highway in this state between fixed termini or over a regular route, and not operating exclusively within the incorporated limits of any city or town.

(4) "Public highway" means every street, road, or highway in this state.

(5) The words "between fixed termini or over a regular route" mean the termini or route between or over which any auto transportation company usually or ordinarily operates any motor-propelled vehicle, even though there may be departure from the termini or route, whether the departures are periodic or irregular. Whether or not any motor-propelled vehicle is operated by any auto transportation company "between fixed termini or over a regular route" within the meaning of this section is a question of fact, and the finding of the commission thereon is final and is not subject to review. [2007 c 234 § 46; 1989 c 163 § 1; 1984 c 166 § 1; 1979 c 111 § 16; 1975-76 2nd ex.s. c 121 § 1; 1969 ex.s. c 210 § 10; 1961 c 14 § 81.68.010. Prior: 1935 c 120 § 1; 1921 c 111 § 1; RRS § 6387.]

This chapter does not apply to persons operating motor vehicles when operated wholly within the limits of incorporated cities or towns, and for a distance not exceeding three road miles beyond the corporate limits of the city or town in Washington in which the original starting point of the vehicle is located, and which operation either alone or in conjunction with another vehicle or vehicles is not a part of any journey beyond the three-mile limit.

This chapter does not apply to commuter ride sharing or ride sharing for persons with special transportation needs in accordance with RCW 46.74.010, so long as the ride-sharing operation does not compete with or infringe upon comparable service actually being provided before the initiation of the ride-sharing operation by an existing auto transportation company certificated under this chapter. [2007 c 234 § 47; 1989 c 163 § 2; 1984 c 166 § 2.]

The temporary certificate may be issued for a period up to one hundred eighty days. The commission may prescribe rules and impose terms and conditions as in its judgment are reasonable and necessary in carrying out this chapter. The commission may by rule, prescribe a fee for an application for the temporary certificate. The commission shall not issue a temporary certificate to operate in a territory: (1) For which a certificate has been issued, unless the existing certificate holder, upon twenty days’ notice, does not object to the issuance of the certificate or is not providing service; or (2) for which an application is pending unless the filing for a temporary certificate is made by the applicant or the applicant does not object to the issuance of the certificate.

81.70.010 Business affected with the public interest—Declaration of purpose. The use of the public highways for the transportation of passengers for compensation is a business affected with the public interest. It is the purpose of this chapter to preserve for the public full benefit in use of public highways consistent with the needs of commerce, without unnecessary congestion or wear and tear upon such highways; to secure to the people safe, adequate and dependable transportation by carriers operating upon such highways; and to secure full and unrestricted flow of traffic by motor carriers over such highways which will adequately meet reasonable public demands by providing for the regulation of all transportation agencies with respect to safety of operations and accident indemnity so that safe, adequate and dependable service by all necessary transportation agencies shall be maintained, and the full use of the highway reserved to the public. [1965 c 150 § 2.]

81.70.020 Definitions. Unless the context otherwise requires, the definitions and general provisions in this section govern the construction of this chapter:
(1) "Commission" means the Washington utilities and transportation commission;
(2) "Person or persons" means an individual, a corporation, association, joint stock association, and partnership, their lessees, trustees, or receivers;
(3) "Public highway" includes every public street, road, or highway in this state;
(4) "Motor vehicle" means every self-propelled vehicle with seating capacity for seven or more persons, excluding the driver;
(5) Subject to the exclusions of RCW 81.70.030, "charter party carrier" means every person engaged in the transportation over any public highways in this state of a group of persons, who, pursuant to a common purpose and under a single contract, acquire the use of a motor vehicle to travel together as a group to a specified destination or for a particular itinerary, either agreed upon in advance or modified by the chartered group after leaving the place of origin;
(6) Subject to the exclusion of RCW 81.70.030, "excursion service carrier" means every person engaged in the transportation of persons for compensation over any public highway in this state from points of origin within the incorporated limits of any city or town or area, to any other location within the state of Washington and returning to that origin. The service must not pick up or drop off passengers after leaving and before returning to the area of origin. The excursions may be regularly scheduled. Compensation for the transportation offered or afforded must be computed, charged, or assessed by the excursion service company on an individual fare basis. [2007 c 234 § 55; 1989 c 163 § 6; 1988 c 30 § 1; 1969 c 132 § 1; 1965 c 150 § 3.]

81.70.030 Exclusions. This chapter does not apply to:
(1) Persons operating motor vehicles wholly within the limits of incorporated cities;
(2) Persons or their lessees, receivers, or trustees insofar as they own, control, operate, or manage taxicabs, hotel buses, or school buses, when operated as such;

81.70.220 Certificate or registration required. No person may engage in the business of a charter party carrier or excursion service carrier of persons over any public highway without first having obtained a certificate from the commission to do so or having registered as an interstate carrier. [1989 c 163 § 7; 1988 c 30 § 2.]

81.70.230 Certificates—Application, issuance. (1) Applications for certificates must be made to the commission in writing, verified under oath, and shall be in a form and contain information as the commission by regulation may require. Every application must be accompanied by a fee as the commission may prescribe by rule.
(2) A certificate must be issued to any applicant who establishes proof of safety fitness and insurance coverage under this chapter. [2007 c 234 § 57; 1988 c 30 § 3.]

81.70.240 Certificates—Transfer restricted. No certificate issued under this chapter or rights to conduct services under it may be leased, assigned, or otherwise transferred or
81.70.250 Certificates—Grounds for cancellation. The commission may cancel, revoke, or suspend any certificate issued under this chapter on any of the following grounds:

1. The violation of any of the provisions of this chapter;
2. The violation of an order, decision, rule, regulation, or requirement established by the commission under this chapter;
3. Failure of a charter party carrier or excursion service carrier of passengers to pay a fee, under this chapter, imposed on the carrier within the time required by law; or
4. Failure of a charter party carrier or excursion service carrier to maintain required insurance coverage in full force and effect. [2007 c 234 § 58; 1989 c 163 § 8; 1988 c 30 § 5.]

81.70.260 Unlawful operation after certificate or registration canceled, etc. After the cancellation or revocation of a certificate or interstate registration or during the period of its suspension, it is unlawful for a charter party carrier or excursion service carrier of passengers to conduct any operations as such a carrier. [1989 c 163 § 9; 1988 c 30 § 6.]

81.70.270 Scope of regulation. It is the duty of the commission to regulate charter party carriers and excursion service carriers with respect to safety of equipment, driver qualifications, and safety of operations. The commission shall establish such rules and regulations and require such reports as are necessary to carry out the provisions of this chapter. [1989 c 163 § 10; 1988 c 30 § 7.]

81.70.280 Insurance or bond for liability and property damage. (1) In issuing certificates under this chapter, the commission shall require charter party carriers and excursion service carriers to procure and continue in effect during the life of the certificate, liability and property damage insurance from a company licensed to make liability insurance in the state of Washington or a surety bond of a company licensed to write surety bonds in the state of Washington on each motor-propelled vehicle used or to be used in transporting persons for compensation, in the following amounts:

(a) Not less than one hundred thousand dollars for any recovery for personal injury by one person; and
(b) Not less than three hundred thousand dollars for any vehicle having a capacity of sixteen passengers or less; and
(c) Not less than five hundred thousand dollars for any vehicle having a capacity of seventeen passengers or more for all receiving personal injury by at least one act of negligence; and
(d) Not less than fifty thousand dollars for damage to property of any person other than the insured.

(2) The commission shall fix the amount of the insurance policy or policies or security deposit by giving consideration to the character and amount of traffic, the number of persons affected, and the degree of danger which the proposed operation involves. The liability and property damage insurance or surety bond must be maintained in force on each motor-propelled vehicle while in use. Each policy for liability or property damage insurance or surety bond required by this section must be filed with the commission and kept in effect. Failure to file and maintain the required insurance is cause for the revocation of the certificate. [2007 c 234 § 59; 1989 c 163 § 11; 1988 c 30 § 8.]

81.70.290 Self-insurers exempt as to insurance or bond. A charter party carrier or excursion service carrier of passengers, authorized to transport persons for compensation on the highways and engaging in interstate, or interstate and intrastate, operations within the state of Washington which is or becomes qualified as a self-insurer with the federal motor carrier safety administration of the United States department of transportation in accordance with the United States interstate commerce act applicable to self-insurance by motor carriers, is exempt from RCW 81.70.280 relating to the carrying or filing of insurance policies or bonds in connection with carrier operations as long as the qualification remains effective.

The commission may require the charter party carrier or excursion service carrier to prove the existence and continuation of qualification with the federal motor carrier safety administration by affidavit in a form the commission may prescribe. [2007 c 234 § 60; 1989 c 163 § 12; 1988 c 30 § 9.]

81.70.310 Application of Title 81 RCW. All applicable provisions of this title relating to procedure, powers of the commission, and penalties shall apply to the operation and regulation of persons under this chapter, except as those provisions may conflict with the provisions of this chapter and rules and regulations issued thereunder by the commission. [1988 c 30 § 11.]

81.70.320 Fees—Amounts, deposit. (1) An application for a certificate, amendment of a certificate, or transfer of a certificate must be accompanied by a filing fee the commission may prescribe by rule. The fee must not exceed two hundred dollars.

(2) All fees paid to the commission under this chapter must be deposited in the state treasury to the credit of the public service revolving fund.

(3) It is the intent of the legislature that all fees collected under this chapter must reasonably approximate the cost of supervising and regulating charter party carriers and excursion service carriers subject thereto, and to that end the commission may decrease the schedule of fees provided for in RCW 81.70.350 by general order entered before November 1st of any year in which the commission determines that the moneys, then in the charter party carrier and excursion service carrier account of the public service revolving fund, and the fees currently owed will exceed the reasonable cost of supervising and regulating such carriers during the succeeding calendar year. Whenever the cost accounting records of the commission indicate that the schedule of fees previously reduced should be increased, the increase, not to exceed the schedule set forth in this chapter, may be effected by a similar general order entered before November 1st of any calendar year. [2007 c 234 § 61; 1989 c 163 § 13; 1988 c 30 § 12.]
81.70.330 Vehicle identification. (1) It is unlawful for a charter party carrier or excursion service carrier to operate a motor vehicle upon the highways of this state unless there is firmly affixed to both sides of the vehicle, the name of the carrier and the certificate or permit number of the carrier. The characters composing the identification must be of sufficient size to be clearly distinguishable at a distance of at least fifty feet from the vehicle.

(2) A charter party carrier or excursion service carrier holding both intrastate and interstate authority may identify its vehicles with either the commission permit number or the federal vehicle marking requirement established by the United States department of transportation for interstate motor carriers. [2007 c 234 § 62; 1989 c 163 § 14; 1988 c 30 § 13.]

81.70.340 Application to interstate or foreign carriers. This chapter applies to persons and motor carriers engaged in interstate or foreign commerce to the full extent permitted by the Constitution and laws of the United States. [2007 c 234 § 63; 1989 c 163 § 15; 1988 c 30 § 14.]

81.70.350 Annual regulatory fee—Delinquent fee payments. (1) The commission shall collect from each charter party carrier and excursion service carrier holding a certificate issued pursuant to this chapter and from each interstate or foreign carrier subject to this chapter an annual regulatory fee, to be established by the commission but which in total shall not exceed the cost of supervising and regulating such carriers, for each bus used by such carrier.

(2) All fees prescribed by this section shall be due and payable on or before December 31 of each year, to cover the ensuing year beginning February 1.

(3) Any payment of the fee imposed by this section made after its due date shall include a late fee of two percent of the amount due. Delinquent fees shall accrue interest at the rate of one percent per month. [1994 c 83 § 3; 1989 c 163 § 16; 1988 c 30 § 15.]

81.70.360 Excursion service companies—Certificate. No excursion service company may operate for the transportation of persons for compensation without first having obtained from the commission under the provisions of this chapter a certificate to do so.

A certificate shall be issued to any qualified applicant therefor, authorizing the whole or any part of the operations covered by the application, if it is found that the applicant is fit, willing, and able to properly perform the services proposed and conform to the provisions of this chapter and the rules of the commission adopted under this chapter, and that such operations will be consistent with the public interest. However, a certificate shall be granted when it appears to the satisfaction of the commission that the person, firm, or corporation was actually operating in good faith that type of service for which the certificate was sought on January 15, 1983. Any right, privilege, or certificate held, owned, or obtained by an excursion service company may be sold, assigned, leased, transferred, or inherited as other property only upon authorization by the commission. For good cause shown the commission may refuse to issue the certificate, or issue it for the partial exercise only of the privilege sought, and may attach to the exercise of the rights granted by the certificate such terms and conditions as, in its judgment, the public interest may require. [1984 c 166 § 5. Formerly RCW 81.68.045.]

81.70.370 Federal authority and registration for compensatory services. It is unlawful for any motor carrier to perform a transportation service for compensation upon the public highways of this state without first having secured appropriate federal authority from the United States department of transportation, if such authority is required, and without first having registered with the commission either directly or through a federally authorized uniform registration program. [2007 c 234 § 54.]

Transportation of passengers in for hire vehicles: Chapter 46.72 RCW.

81.72.200 Legislative intent. The legislature finds and declares that privately operated taxicab transportation service is a vital part of the transportation system within the state and provides demand-responsive services to state residents, tourists, and out-of-state business people. Consequently, the safety, reliability, and economic viability and stability of privately operated taxicab transportation service are matters of statewide importance. The regulation of privately operated taxicab transportation services is thus an essential governmental function. Therefore, it is the intent of the legislature to permit political subdivisions of the state to regulate taxicab transportation services without liability under federal antitrust laws. [1984 c 126 § 1.]

81.72.210 Local regulatory powers listed. To protect the public health, safety, and welfare, cities, towns, counties, and port districts of the state may license, control, and regulate privately operated taxicab transportation services operating within their respective jurisdictions. The power to regulate includes:

(1) Regulating entry into the business of providing taxicab transportation services;
(2) Requiring a license to be purchased as a condition of operating a taxicab and the right to revoke, cancel, or refuse to reissue a license for failure to comply with regulatory requirements;
(3) Controlling the rates charged for providing taxicab transportation service and the manner in which rates are calculated and collected, including the establishment of zones as the basis for rates;
(4) Regulating the routes of taxicabs, including restricting access to airports;
(5) Establishing safety, equipment, and insurance requirements; and
(6) Any other requirements adopted to ensure safe and reliable taxicab service. [1984 c 126 § 2.]
81.72.220 Cooperative agreements—Joint regulation. A city, town, county, or port district may enter into cooperative agreements with any other city, town, county, or port district for the joint regulation of taxicabs. Cooperative agreements may provide for, but are not limited to, the granting, revocation, and suspension of joint taxicab licenses. [1984 c 126 § 3.]

TRANSPORTATION CENTERS

81.75.010 Authorization to own and operate—Purpose.
81.75.020 Method of acquisition and operation prescribed—Grants—Consolidation of activities.
81.75.030 Services available—Terms of usage.
81.75.900 Severability—1977 ex.s. c 217.

81.75.010 Authorization to own and operate—Purpose. It is desirable to a transportation system that convenient and comfortable terminals be established and maintained with the services of all modes of public transportation available to the public at such a center to the extent feasible. It is proper that cities, towns, counties, public transportation benefit area authorities, and municipal corporations of this state be authorized to own and operate transportation centers. [1977 ex.s. c 217 § 1.]

81.75.020 Method of acquisition and operation prescribed—Grants—Consolidation of activities. Through its council or other legislative body, any city, town, county, public transportation benefit area authority, or other municipal corporation, authorized to operate public transportation services, may construct or otherwise acquire intermodal transportation centers by donation, lease, or purchase and may operate or let for purposes of leasing space at fair market value for the services set forth in RCW 81.75.030, and to perform other functions permitted by law, the centers or portions of the centers, for public or private purposes or for compensation or rental upon such conditions as its council or other legislative body shall from time to time prescribe. The city, town, county, public transportation benefit area authority, or municipal corporation, may apply for and receive grants from the federal government for purposes of funding a transportation center and may consolidate a transportation center with other lawful city or town activities. [1977 ex.s. c 217 § 2.]

81.75.030 Services available—Terms of usage. To the extent feasible, the services available to the public at any transportation center may include taxi, auto rental, passenger trains, motor buses, travel agents, restrooms, food, telegraph, baggage handling, transfer and delivery of light freight and packages, commercial airlines, air charter, place of temporary rest for citizens and travelers (but not overnight), mail, private auto parking for users of public transportation through the transportation center, local transit, limousine, and any other use necessary to the foregoing.

Any city, town, county, public transportation benefit area authority, or municipal corporation, which elects to operate a transportation center shall operate the center for the general public good. The operator may establish the terms of usage for the various modes of transportation and for others that utilize its facilities, may make reasonable rules concerning public and private use, and may exclude all persons therefrom who refuse to comply with the terms or rules of use. The operator may own, operate, maintain, and manage a transportation center, but shall not engage in providing a transportation or other related service at the center unless otherwise authorized by law. [1977 ex.s. c 217 § 3.]

81.75.900 Severability—1977 ex.s. c 217. If any provision of this act, or its application to any person or circumstance is held invalid, the remainder of the act, or the application of the provision to other persons or circumstances is not affected. [1977 ex.s. c 217 § 5.]

81.77.010 Definitions. As used in this chapter:

(1) "Motor vehicle" means any truck, trailer, semitrailer, tractor, or any self-propelled or motor driven vehicle used upon any public highway of this state for the purpose of transporting solid waste, for the collection or disposal, or both, of solid waste;

(2) "Public highway" means every street, road, or highway in this state;

(3) "Common carrier" means any person who collects and transports solid waste for disposal by motor vehicle for compensation, whether over regular or irregular routes, or by regular or irregular schedules;

(4) "Contract carrier" means all solid waste transporters not included under the terms "common carrier" and "private carrier," as defined in this section, and further, includes any person who under special and individual contracts or agreements transports solid waste by motor vehicle for compensation;

(2008 Ed.)
(5) "Private carrier" means a person who, in his or her own vehicle, transports solid waste purely as an incidental adjunct to some other established private business owned or operated by the person in good faith. A person who transports solid waste from residential sources in a vehicle designed or used primarily for the transport of solid waste is not a private carrier;

(6) "Vehicle" means every device capable of being moved upon a public highway and in, upon, or by which any solid waste is or may be transported or drawn upon a public highway, except devices moved by human or animal power or used exclusively upon stationary rail or tracks;

(7) "Solid waste collection company" means every person or his or her lessees, receivers, or trustees, owning, controlling, operating, or managing vehicles used in the business of transporting solid waste for collection or disposal, or both, for compensation, except septic tank pumpers, over any public highway in this state as a "common carrier" or as a "contract carrier";

(8) "Solid waste collection" does not include collecting or transporting recyclable materials from a drop-box or recycling buy-back center, or collecting or transporting recyclable materials by or on behalf of a commercial or industrial generator of recyclable materials to a recycler for use or reclamation. Transportation of these materials is regulated under chapter 81.80 RCW;

(9) "Solid waste" means the same as defined under RCW 70.95.030, except for the purposes of this chapter solid waste does not include recyclable materials except for source separated recyclable materials collected from residences; and

(10) When the phrase "garbage and refuse" is used as a qualifying phrase or otherwise, it means "solid waste." [2007 c 234 § 65; 1989 c 431 § 17; 1961 c 295 § 2.]

81.77.020 Compliance with chapter required—Exemption for cities. No person, his lessees, receivers, or trustees, shall engage in the business of operating as a solid waste collection company in this state, except in accordance with the provisions of this chapter: PROVIDED, That the provisions of this chapter shall not apply to the operations of any solid waste collection company under a contract for use of solid waste disposal with any city or town, nor to any city or town which itself undertakes the disposal of solid waste. [1989 c 431 § 18; 1961 c 295 § 3.]

81.77.0201 Jurisdiction of commission upon discontinuation of jurisdiction by municipality. A city, town, or combined city-county may at any time reverse its decision to exercise its authority under RCW 81.77.020. In such an event, the commission shall issue a certificate to the last holder of a valid commission certificate of public convenience and necessity, or its successors or assigns, for the area reverting to commission jurisdiction. If there was no certificate existing for the area, or the previous holder was compensated for its certificate property right, the commission shall consider applications for authority under RCW 81.77.040. [1997 c 171 § 4.]

Severability—1997 c 171: See note following RCW 35.02.160.

81.77.030 Supervision and regulation by commission. The commission shall supervise and regulate every solid waste collection company in this state, (1) By fixing and altering its rates, charges, classifications, rules and regulations;

(2) By regulating the accounts, service, and safety of operations;

(3) By requiring the filing of annual and other reports and data;

(4) By supervising and regulating such persons or companies in all other matters affecting the relationship between them and the public which they serve;

(5) By requiring compliance with local solid waste management plans and related implementation ordinances;

(6) By requiring certificate holders under chapter 81.77 RCW to use rate structures and billing systems consistent with the solid waste management priorities set forth under RCW 70.95.010 and the minimum levels of solid waste collection and recycling services pursuant to local comprehensive solid waste management plans. The commission may order consolidated billing and provide for reasonable and necessary expenses to be paid to the administering company if more than one certificate is granted in an area.

The commission, on complaint made on its own motion or by an aggrieved party, at any time, after providing the holder of any certificate with notice and an opportunity for a hearing at which it shall be proven that the holder has willfully violated or refused to observe any of the commission's orders, rules, or regulations, or has failed to operate as a solid waste collection company for a period of at least one year preceding the filing of the complaint, may suspend, revoke, alter, or amend any certificate issued under the provisions of this chapter. [2005 c 121 § 5; 1989 c 431 § 20; 1987 c 239 § 1; 1965 ex.s. c 105 § 1; 1961 c 295 § 4.]

81.77.040 Certificate of convenience and necessity required—Issuance—Transferability—Solid waste categories. A solid waste collection company shall not operate for the hauling of solid waste for compensation without first having obtained from the commission a certificate declaring that public convenience and necessity require such operation. To operate a solid waste collection company in the unincorporated areas of a county, the company must comply with the solid waste management plan prepared under chapter 70.95 RCW in the company's franchise area.

Issuance of the certificate of necessity must be determined on, but not limited to, the following factors: The present service and the cost thereof for the contemplated area to be served; an estimate of the cost of the facilities to be utilized in the plant for solid waste collection and disposal, set out in an affidavit or declaration; a statement of the assets on hand of the person, firm, association, or corporation that will be expended on the purported plant for solid waste collection and disposal, set out in an affidavit or declaration; a statement of prior experience, if any, in such field by the petitioner, set out in an affidavit or declaration; and sentiment in the community contemplated to be served as to the necessity for such a service.

When an applicant requests a certificate to operate in a territory already served by a certificate holder under this chapter, the commission may, after notice and an opportunity
for a hearing, issue the certificate only if the existing solid waste collection company or companies serving the territory will not provide service to the satisfaction of the commission or if the existing solid waste collection company does not object.

In all other cases, the commission may, with or without hearing, issue certificates, or for good cause shown refuse to issue them, or issue them for the partial exercise only of the privilege sought, and may attach to the exercise of the rights granted such terms and conditions as, in its judgment, the public convenience and necessity may require.

Any right, privilege, certificate held, owned, or obtained by a solid waste collection company may be sold, assigned, leased, transferred, or inherited as other property, only if authorized by the commission.

For purposes of issuing certificates under this chapter, the commission may adopt categories of solid wastes as follows: Garbage, refuse, recyclable materials, and demolition debris. A certificate may be issued for one or more categories of solid waste. Certificates issued on or before July 23, 1989, shall not be expanded or restricted by operation of this chapter. [2007 c 234 § 66; 2005 c 121 § 6; 1989 c 431 § 21; 1987 c 239 § 2; 1961 c 295 § 5.]

81.77.050 Filing fees. Any application for a certificate issued under this chapter or amendment thereof, or application to sell, lease, mortgage, or transfer a certificate issued under this chapter or any interest therein, shall be accompanied by such filing fee as the commission may prescribe by rule: PROVIDED, That such fee shall not exceed two hundred dollars. [1989 c 431 § 22; 1973 c 115 § 9; 1961 c 295 § 6.]

81.77.060 Liability and property damage insurance—Surety bond. The commission, in granting certificates to operate a solid waste collection company, shall require the owner or operator to first procure liability and property damage insurance from a company licensed to make liability insurance in the state or a surety bond of a company licensed to write surety bonds in the state, on each motor propelled vehicle used or to be used in transporting solid waste for compensation in the amount of not less than twenty-five thousand dollars for any recovery for personal injury by one person, and not less than ten thousand dollars and in such additional amount as the commission shall determine, for all persons receiving personal injury by reason of one act of negligence, and not less than ten thousand dollars for damage to property of any person other than the assured, and to maintain such liability and property damage insurance or surety bond in force on each motor propelled vehicle while so used. Each policy for liability or property damage insurance or surety bond required herein shall be filed with the commission and kept in full force and effect and failure so to do shall be cause for revocation of the delinquent’s certificate. Every solid waste collection company shall, on or before the date specified by the commission for filing annual reports under RCW 81.04.080, file with the commission a statement on oath showing its gross operating revenue from intrastate operations for the preceding calendar year, or portion thereof, and pay to the commission a fee equal to one percent of the amount of gross operating revenue: PROVIDED, That the commission may, by rule, set minimum fees that do not exceed the cost of collecting the fees. The commission may by rule waive any or all of the minimum fee established pursuant to this section.

It is the intent of the legislature that the fees collected under the provisions of this chapter shall reasonably approximate the cost of supervising and regulating motor carriers subject thereto, and to that end the utilities and transportation commission is authorized to decrease the schedule of fees provided in this section by general order entered before March 1st of any year in which it determines that the moneys then in the solid waste collection companies account of the public service revolving fund and the fees currently to be paid will exceed the reasonable cost of supervising and regulating such carriers.

All fees collected under this section or under any other provision of this chapter shall be paid to the commission and shall be by it transmitted to the state treasurer within thirty days to be deposited to the credit of the public service revolving fund. 81.77.100 Application to foreign or interstate commerce—Regulation of solid waste collection companies. This chapter applies to persons and motor vehicles engaged in interstate or foreign commerce to the full extent permitted by the Constitution and laws of the United States.

Such temporary certificate may be issued for a period up to one hundred eighty days where the area or territory covered thereby is not contained in the certificate of any other solid waste collection company. In all other cases such temporary certificate may be issued for a period not to exceed one hundred twenty days. The commission may prescribe such special rules and regulations and impose such special terms and conditions with reference thereto as in its judgment are rea-
reasonable and necessary in carrying out the provisions of this chapter. The commission shall collect a fee of twenty-five dollars for an application for such temporary certificate. [1989 c 431 § 26; 1965 ex.s. c 105 § 2.]
