(g) Upon transfer of service credit, contributions, and interest under this subsection, the employee is permanently excluded from membership in the public employees' retirement system for all service related to time served as an enforcement officer with the department of fish and wildlife under the public employees' retirement system plan 2 or plan 3. [2009 c 157 § 1.]

41.26.460** Options for payment of retirement allowances—Retirement allowance adjustment—Court-approved property settlement. (1) Upon retirement for service as prescribed in RCW 41.26.430 or disability retirement under RCW 41.26.470, a member shall elect to have the retirement allowance paid pursuant to the following options, calculated so as to be actuarially equivalent to each other.

(a) Standard allowance. A member electing this option shall receive a retirement allowance payable throughout each member's life. However, if the retiree dies before the total retirement allowance paid to such retiree equals the amount of such retiree's accumulated contributions at the time of retirement, then the balance shall be paid to the member's estate, or such person or persons, trust, or organization as the retiree shall have nominated by written designation duly executed and filed with the department; or if there be no such designated person or persons still living at the time of the retiree's death, then to the surviving spouse or domestic partner; or if there be neither such designated person or persons still living at the time of death nor a surviving spouse or domestic partner, then to the retiree's legal representative.

(b) The department shall adopt rules that allow a member to select a retirement option that pays the member a reduced retirement allowance and upon death, such portion of the member's reduced retirement allowance as the department by rule designates shall be continued throughout the life of and paid to a designated person. Such person shall be nominated by the member under subsection (1) of this section unless spousal or domestic partner consent is not required as provided in (b) of this subsection. If a member is married or a domestic partner and both the member and member's spouse or domestic partner do not give written consent to an option under this section, the department will pay the member a joint and fifty percent survivor benefit and record the member's spouse or domestic partner as the beneficiary. Such benefit shall be calculated to be actuarially equivalent to the benefit options available under subsection (1) of this section unless spousal or domestic partner consent is not required as provided in (b) of this subsection.

(b) If a copy of a dissolution order designating a survivor beneficiary under RCW 41.50.790 has been filed with the department at least thirty days prior to a member's retirement:

(i) The department shall honor the designation as if made by the member under subsection (1) of this section; and
(ii) The spousal or domestic partner consent provisions of (a) of this subsection do not apply.

(iii) Any member who retired before January 1, 1996, and who elected to receive a reduced retirement allowance under subsection (1)(b) or (2) of this section is entitled to receive a retirement allowance adjusted in accordance with (b) of this subsection, if they meet the following conditions:
   (i) The retiree's designated beneficiary predeceases or has predeceased the retiree; and
(ii) The retiree provides to the department proper proof of the designated beneficiary’s death.

(b) The retirement allowance payable to the retiree, as of July 1, 1998, or the date of the designated beneficiary’s death, whichever comes last, shall be increased by the percentage derived in (c) of this subsection.

(c) The percentage increase shall be derived by the following:

(i) One hundred percent multiplied by the result of (c)(ii) of this subsection converted to a percent;

(ii) Subtract one from the reciprocal of the appropriate joint and survivor option factor;

(iii) The joint and survivor option factor shall be from the table in effect as of July 1, 1998.

(d) The adjustment under (b) of this subsection shall accrue from the beginning of the month following the date of the designated beneficiary’s death or from July 1, 1998, whichever comes last.

(4) No later than July 1, 2001, the department shall adopt rules that allow a member additional actuarially equivalent survivor benefit options, and shall include, but are not limited to:

(a)(i) A retired member who retired without designating a survivor beneficiary shall have the opportunity to designate their spouse or domestic partner from a postretirement marriage or domestic partnership as a survivor during a one-year period beginning one year after the date of the postretirement marriage or domestic partnership provided the retirement allowance payable to the retiree is not subject to periodic payments pursuant to a property division obligation as provided for in RCW 41.50.670.

(ii) A member who entered into a postretirement marriage or domestic partnership prior to the effective date of the rules adopted pursuant to this subsection and satisfies the conditions of (a)(i) of this subsection shall have one year to designate their spouse or domestic partner as a survivor beneficiary following the adoption of the rules.

(b) A retired member who elected to receive a reduced retirement allowance under this section and designated a non-spouse or a person not their domestic partner as a survivor beneficiary shall have the opportunity to remove the survivor designation and have their future benefit adjusted.

(c) The department may make an additional charge, if necessary, to ensure that the separate benefits provided under this subsection are actuarially equivalent to the benefits payable prior to the decree of dissolution. 41.26.470 Earned disability allowance—Cancellation of allowance—Reentry—Receipt of service credit while disabled—Conditions—Disposition upon death of recipient—Disabled in the line of duty—Total disability. (1) A member of the retirement system who becomes totally incapacitated for continued employment by an employer as determined by the director shall be eligible to receive an allowance under the provisions of RCW 41.26.410 through 41.26.550. Such member shall receive a monthly disability allowance computed as provided for in RCW 41.26.420 and shall have such allowance actuarially reduced to reflect the difference in the number of years between age at disability and the attainment of age fifty-three, except under subsection (7) of this section.

(2) Any member who receives an allowance under the provisions of this section shall be subject to such comprehensive medical examinations as required by the department. If such medical examinations reveal that such a member has recovered from the incapacitating disability and the member is no longer entitled to benefits under Title 51 RCW, the retirement allowance shall be canceled and the member shall be restored to duty in the same civil service rank, if any, held by the member at the time of retirement or, if unable to perform the duties of the rank, then, at the member’s request, in such other like or lesser rank as may be or become open and available, the duties of which the member is then able to perform. In no event shall a member previously drawing a dis-
ability allowance be returned or be restored to duty at a salary or rate of pay less than the current salary attached to the rank or position held by the member at the date of the retirement for disability. If the department determines that the member is able to return to service, the member is entitled to notice and a hearing. Both the notice and the hearing shall comply with the requirements of chapter 34.05 RCW, the administrative procedure act.

(3) Those members subject to this chapter who became disabled in the line of duty on or after July 23, 1989, and who receive benefits under RCW 41.04.500 through 41.04.530 or similar benefits under RCW 41.04.535 shall receive or continue to receive service credit subject to the following:

(a) No member may receive more than one month’s service credit in a calendar month.

(b) No service credit under this section may be allowed after a member separates or is separated without leave of absence.

(c) Employer contributions shall be paid by the employer at the rate in effect for the period of the service credited.

(d) Employee contributions shall be collected by the employer and paid to the department at the rate in effect for the period of service credited.

(e) State contributions shall be as provided in RCW 41.45.060 and 41.45.067.

(f) Contributions shall be based on the regular compensation which the member would have received had the disability not occurred.

(g) The service and compensation credit under this section shall be granted for a period not to exceed six consecutive months.

(h) Should the legislature revoke the service credit authorized under this section or repeal this section, no affected employee is entitled to receive the credit as a matter of contractual right.

(4)(a) If the recipient of a monthly retirement allowance under this section dies before the total of the retirement allowance paid to the recipient equals the amount of the accumulated contributions at the date of retirement, then the balance shall be paid to the member’s estate, or such person or persons, trust, or organization as the recipient has nominated by written designation duly executed and filed with the director, or, if there is no such designated person or persons still living at the time of the recipient’s death, then to the surviving spouse or domestic partner, or, if there is neither such designated person or persons still living at the time of his or her death nor a surviving spouse or domestic partner, then to his or her legal representative.

(b) If a recipient of a monthly retirement allowance under this section died before April 27, 1989, and before the total of the retirement allowance paid to the recipient equaled the amount of his or her accumulated contributions at the date of retirement, then the department shall pay the balance of the accumulated contributions to the member’s surviving spouse or, if there is no surviving spouse, then in equal shares to the member’s children. If there is no surviving spouse or children, the department shall retain the contributions.

(5) Should the disability retirement allowance of any disability beneficiary be canceled for any cause other than reentrance into service or retirement for service, he or she shall be paid the excess, if any, of the accumulated contributions at the time of retirement over all payments made on his or her behalf under this chapter.

(6) A member who becomes disabled in the line of duty, and who ceases to be an employee of an employer except by service or disability retirement, may request a refund of one hundred fifty percent of the member’s accumulated contributions. Any accumulated contributions attributable to restorations made under RCW 41.50.165(2) shall be refunded at one hundred percent. A person in receipt of this benefit is a retiree.

(7) A member who becomes disabled in the line of duty shall be entitled to receive a minimum retirement allowance equal to ten percent of such member’s final average salary. The member shall additionally receive a retirement allowance equal to two percent of such member’s average final salary for each year of service beyond five.

(8) A member who became disabled in the line of duty before January 1, 2001, and is receiving an allowance under RCW 41.26.430 or subsection (1) of this section shall be entitled to receive a minimum retirement allowance equal to ten percent of such member’s final average salary. The member shall additionally receive a retirement allowance equal to two percent of such member’s average final salary for each year of service beyond five, and shall have the allowance actuarially reduced to reflect the difference in the number of years between age at disability and the attainment of age fifty-three. An additional benefit shall not result in a total monthly benefit greater than that provided in subsection (1) of this section.

(9) A member who is totally disabled in the line of duty is entitled to receive a retirement allowance equal to seventy percent of the member’s final average salary. The allowance provided under this subsection shall be offset by:

(a) Temporary disability wage-replacement benefits or permanent total disability benefits provided to the member under Title 51 RCW; and

(b) Federal social security disability benefits, if any; so that such an allowance does not result in the member receiving combined benefits that exceed one hundred percent of the member’s final average salary. However, the offsets shall not in any case reduce the allowance provided under this subsection below the member’s accrued retirement allowance.

A member is considered totally disabled if he or she is unable to perform any substantial gainful activity due to a physical or mental condition that may be expected to result in death or that has lasted or is expected to last at least twelve months. Substantial gainful activity is defined as average earnings in excess of eight hundred sixty dollars a month in 2006 adjusted annually as determined by the director based on federal social security disability standards. The department may require a person in receipt of an allowance under this subsection to provide any financial records that are necessary to determine continued eligibility for such an allowance. A person in receipt of an allowance under this subsection whose earnings exceed the threshold for substantial gainful activity shall have their benefit converted to a line-of-duty disability retirement allowance as provided in subsection (7) of this section.

Any person in receipt of an allowance under the provisions of this section is subject to comprehensive medical
examinations as may be required by the department under subsection (2) of this section in order to determine continued eligibility for such an allowance. ### 41.26.520 Service credit for paid leave of absence, officers of labor organizations, unpaid leave of absence, military service

1. A member who is on a paid leave of absence authorized by a member’s employer shall continue to receive service credit as provided for under the provisions of RCW 41.26.410 through 41.26.550.

2. A member who receives compensation from an employer while on an authorized leave of absence to serve as an elected official of a labor organization, and whose employer is reimbursed by the labor organization for the compensation paid to the member during the period of absence, may also be considered to be on a paid leave of absence. This subsection shall only apply if the member’s leave of absence is authorized by a collective bargaining agreement that provides that the member retains seniority rights with the employer during the period of leave. The basic salary reported for a member who establishes service credit under this subsection may not be greater than the salary paid to the highest paid job class covered by the collective bargaining agreement.

3. Except as specified in subsection (7) of this section, a member shall be eligible to receive a maximum of two years service credit during a member’s entire working career for those periods when a member is on a paid leave of absence authorized by an employer. Such credit may be obtained only if the member makes the employer, member, and state contributions plus interest as determined by the department for the period of the authorized leave of absence within five years of resumption of full-time service or prior to retirement whichever comes sooner.

4. A law enforcement member may be authorized by an employer to work part time and to go on a part-time leave of absence. During a part-time leave of absence a member is prohibited from any other employment with their employer. A member is eligible to receive credit for any portion of service credit not earned during a month of part-time leave of absence if the member makes the employer, member, and state contributions, plus interest, as determined by the department for the period of the authorized leave within five years of resumption of full-time service or prior to retirement whichever comes sooner. Any service credit purchased for a part-time leave of absence is included in the two-year maximum provided in subsection (3) of this section.

5. If a member fails to meet the time limitations of subsection (3) or (4) of this section, the member may receive a maximum of two years of service credit during a member’s working career for those periods when a member is on unpaid leave of absence authorized by an employer. This may be done by paying the amount required under RCW 41.50.165(2) prior to retirement.

6. For the purpose of subsection (3) or (4) of this section the contribution shall not include the contribution for the unfunded supplemental present value as required by RCW 41.45.060, 41.45.061, and 41.45.067. The contributions required shall be based on the average of the member’s basic salary at both the time the authorized leave of absence was granted and the time the member resumed employment.

7. A member who leaves the employ of an employer to enter the uniformed services of the United States shall be entitled to retirement system service credit for up to five years of military service. This subsection shall be administered in a manner consistent with the requirements of the federal uniformed services employment and reemployment rights act.

(a) The member qualifies for service credit under this subsection if:

(i) Within ninety days of the member’s honorable discharge from the uniformed services of the United States, the member applies for reemployment with the employer who employed the member immediately prior to the member entering the uniformed services; and

(ii) The member makes the employee contributions required under RCW 41.45.060, 41.45.061, and 41.45.067 within five years of resumption of service or prior to retirement, whichever comes sooner; or

(iii) Prior to retirement and not within ninety days of the member’s honorable discharge or five years of resumption of service the member pays the amount required under RCW 41.50.165(2); or

(iv) Prior to retirement the member provides to the director proof that the member’s intermittent military service was during a period of war as defined in RCW 41.04.005. Any member who made payments for service credit for intermittent military service during a period of war as defined in RCW 41.04.005 may, prior to retirement and on a form provided by the department, request a refund of the funds standing to his or her credit for up to five years of such service, and this amount shall be paid to him or her. Members with one or more periods of intermittent military service credit during a period of war may receive no more than five years of free retirement system service credit under this subsection.

(b) Upon receipt of member contributions under (a)(ii), (d)(iii), or (e)(iii) of this subsection, or adequate proof under (a)(iv), (d)(iv), or (e)(iv) of this subsection, the department shall establish the member’s service credit and shall bill the employer and the state for their respective contributions required under RCW 41.26.450 for the period of military service, plus interest as determined by the department.
(c) The contributions required under (a)(ii), (d)(iii), or (e)(iii) of this subsection shall be based on the compensation the member would have earned if not on leave, or if that cannot be estimated with reasonable certainty, the compensation reported for the member in the year prior to when the member went on military leave.

(d) The surviving spouse, domestic partner, or eligible child or children of a member who left the employ of an employer to enter the uniformed services of the United States and died while serving in the uniformed services may, on behalf of the deceased member, apply for retirement system service credit under this subsection up to the date of the member’s death in the uniformed services. The department shall establish the deceased member’s service credit if the surviving spouse or eligible child or children:

(i) Provides to the director proof of the member’s death while serving in the uniformed services;

(ii) Provides to the director proof of the member’s honorable service in the uniformed services prior to the date of death; and

(iii) Pays the employee contributions required under chapter 41.45 RCW within five years of the date of death or prior to the distribution of any benefit, whichever comes first; or

(iv) Prior to the distribution of any benefit, provides to the director proof that the member’s interruptive military service was during a period of war as defined in RCW 41.04.005. If the deceased member made payments for service credit for interruptive military service during a period of war as defined in RCW 41.04.005, the surviving spouse or eligible child or children may, prior to the distribution of any benefit and on a form provided by the department, request a refund of the funds standing to the deceased member’s credit for up to five years of such service, and this amount shall be paid to the surviving spouse or children. Members with one or more periods of interruptive military service during a period of war may receive no more than five years of free retirement system service credit under this subsection.

(e) A member who leaves the employ of an employer to enter the uniformed services of the United States and becomes totally incapacitated for continued employment by an employer while serving in the uniformed services is entitled to retirement system service credit under this subsection up to the date of discharge from the uniformed services if:

(i) The member obtains a determination from the director that he or she is totally incapacitated for continued employment due to conditions or events that occurred while serving in the uniformed services;

(ii) The member provides to the director proof of honorable discharge from the uniformed services; and

(iii) The member pays the employee contributions required under chapter 41.45 RCW within five years of the director’s determination of total disability or prior to the distribution of any benefit, whichever comes first; or

(iv) Prior to retirement the member provides to the director proof that the member’s interruptive military service was during a period of war as defined in RCW 41.04.005. Any member who made payments for service credit for interruptive military service during a period of war as defined in RCW 41.04.005 may, prior to retirement and on a form provided by the department, request a refund of the funds standing-

ing to his or her credit for up to five years of such service, and this amount shall be paid to him or her. Members with one or more periods of interruptive military service credit during a period of war may receive no more than five years of free retirement system service credit under this subsection.

(8) A member receiving benefits under Title 51 RCW who is not receiving benefits under this chapter shall be deemed to be on unpaid, authorized leave of absence. [2009 c 523 § 8; 2009 c 205 § 8; 2005 c 64 § 9; 2002 c 28 § 1; 2000 c 247 § 1105; 1996 c 61 § 1; 1994 c 197 § 10; 1993 c 95 § 4; 1992 c 119 § 1; 1989 c 88 § 2; 1977 ex.s. c 294 § 13.]

41.32.520 Payment on death before retirement or within sixty days following application for disability retirement—Military service. (1) Except as specified in subsection (3) of this section, upon receipt of proper proofs of death of any member before retirement or before the first installment of his or her retirement allowance shall become due his or her accumulated contributions, less any amount identified as owing to an obligee upon withdrawal of accumulated contributions pursuant to a court order filed under RCW 41.50.670, and/or other benefits payable upon his or her death shall be paid to his or her estate or to such persons, trust, or organization as he or she shall have nominated by written designation duly executed and filed with the department. If a member fails to file a new beneficiary designation subsequent to marriage, divorce, or reestablishment of membership following termination by withdrawal, lapsation, or retirement, payment of his or her accumulated contributions, less any amount identified as owing to an obligee upon withdrawal of accumulated contributions pursuant to a court order filed under RCW 41.50.670, and/or other benefits upon death before retirement shall be made to the surviving spouse, if any; otherwise, to his or her estate. If a member had established ten or more years of Washington membership service credit or was eligible for retirement, the beneficiary or the surviving spouse if otherwise eligible may elect, in lieu of a cash refund of the member’s accumulated contributions, the following survivor benefit plan actuarially reduced, except under subsection (4) of this section, by the amount of any lump sum benefit identified as owing to an obligee upon withdrawal of accumulated contributions pursuant to a court order filed under RCW 41.50.670:

(a) A widow or widower, without a child or children under eighteen years of age, may elect a monthly payment of fifty dollars to become effective at age fifty, provided the member had fifteen or more years of Washington membership service credit. A benefit paid under this subsection (1)(a) shall terminate at the marriage of the beneficiary.

(b) The beneficiary, if a surviving spouse or a dependent (as that term is used in computing the dependent exemption for federal internal revenue purposes) may elect to receive a joint and one hundred percent retirement allowance under RCW 41.32.530.

(i) In the case of a dependent child the allowance shall continue until attainment of majority or so long as the department judges that the circumstances which created his or her dependent status continue to exist. In any case, if at the time dependent status ceases, an amount equal to the amount of accumulated contributions of the deceased member has not been paid to the beneficiary, the remainder shall then be paid in a lump sum to the beneficiary.

(ii) If at the time of death, the member was not then qualified for a service retirement allowance, the benefit shall be based upon the actuarial equivalent of the sum necessary to pay the accrued regular retirement allowance commencing when the deceased member would have first qualified for a service retirement allowance.

(2) If no qualified beneficiary survives a member, at his or her death his or her accumulated contributions, less any amount identified as owing to an obligee upon withdrawal of accumulated contributions pursuant to a court order filed under RCW 41.50.670, shall be paid to his or her estate, or his or her dependents may qualify for survivor benefits under benefit plan (1)(b) in lieu of a cash refund of the members accumulated contributions in the following order: Widow or widower, guardian of a dependent child or children under age eighteen, or dependent parent or parents.

(3) If a member dies within sixty days following application for disability retirement under RCW 41.32.550, the beneficiary named in the application may elect to receive the benefit provided by:

(a) This section; or

(b) RCW 41.32.550, according to the option chosen under RCW 41.32.530 in the disability application.

receive service credit as provided for under the provisions of RCW 41.32.755 through 41.32.825.

(2) A member who receives compensation from an employer while on an authorized leave of absence to serve as an elected official of a labor organization, and whose employer is reimbursed by the labor organization for the compensation paid to the member during the period of absence, may also be considered to be on a paid leave of absence. This subsection shall only apply if the member’s leave of absence is authorized by a collective bargaining agreement that provides that the member retains seniority rights with the employer during the period of leave. The earnable compensation reported for a member who establishes service credit under this subsection may not be greater than the salary paid to the highest paid job class covered by the collective bargaining agreement.

(3) Except as specified in subsection (6) of this section, a member shall be eligible to receive a maximum of two years service credit during a member’s entire working career for those periods when a member is on an unpaid leave of absence authorized by an employer. Such credit may be obtained only if the member makes both the employer and member contributions plus interest as determined by the department for the period of the authorized leave of absence within five years of resumption of service or prior to retirement whichever comes sooner.

(4) If a member fails to meet the time limitations of subsection (3) of this section, the member may receive a maximum of two years of service credit during a member’s working career for those periods when a member is on an unpaid leave of absence authorized by an employer. This may be done by paying the amount required under RCW 41.50.165(2) prior to retirement.

(5) For the purpose of subsection (3) of this section, the contribution shall not include the contribution for the unfunded supplemental present value as required by *RCW 41.32.775. The contributions required shall be based on the average of the member’s earnable compensation at both the time the authorized leave of absence was granted and the time the member resumed employment.

(6) A member who leaves the employ of an employer to enter the uniformed services of the United States shall be entitled to retirement system service credit for up to five years of military service. This subsection shall be administered in a manner consistent with the requirements of the federal uniformed services employment and reemployment rights act.

(a) The member qualifies for service credit under this subsection if:
   (i) Within ninety days of the member’s honorable discharge from the uniformed services of the United States, the member applies for reemployment with the employer who employed the member immediately prior to the member entering the uniformed services; and
   (ii) The member makes the employee contributions required under *RCW 41.32.775 within five years of resumption of service or prior to retirement, whichever comes sooner; or
   (iii) Prior to retirement and not within ninety days of the member’s honorable discharge or five years of resumption of service the member pays the amount required under RCW 41.50.165(2); or
   (iv) Prior to retirement the member provides to the director proof that the member’s interruptive military service was during a period of war as defined in RCW 41.04.005. Any member who made payments for service credit for interruptive military service during a period of war as defined in RCW 41.04.005 may, prior to retirement and on a form provided by the department, request a refund of the funds standing to his or her credit for up to five years of such service, and this amount shall be paid to him or her. Members with one or more periods of interruptive military service credit during a period of war may receive no more than five years of free retirement system service credit under this subsection.

(b) Upon receipt of member contributions under (a)(ii), (d)(iii), or (e)(iii) of this subsection, or adequate proof under (a)(iv), (d)(iv), or (e)(iv) of this subsection, the department shall establish the member’s service credit and shall bill the employer for its contribution required under *RCW 41.32.775 for the period of military service, plus interest as determined by the department.

(c) The contributions required under (a)(ii), (d)(iii), or (e)(iii) of this subsection shall be based on the compensation the member would have earned if not on leave, or if that cannot be estimated with reasonable certainty, the compensation reported for the member in the year prior to when the member went on military leave.

(d) The surviving spouse or eligible child or children of a member who left the employ of an employer to enter the uniformed services of the United States and died while serving in the uniformed services may, on behalf of the deceased member, apply for retirement system service credit under this subsection up to the date of the member’s death in the uniformed services. The department shall establish the deceased member’s service credit if the surviving spouse or eligible child or children:
   (i) Provides to the director proof of the member’s death while serving in the uniformed services;
   (ii) Provides to the director proof of the member’s honorable service in the uniformed services prior to the date of death; and
   (iii) Pays the employee contributions required under chapter 41.45 RCW within five years of the date of death or prior to the distribution of any benefit, whichever comes first;

(e) A member who leaves the employ of an employer to enter the uniformed services of the United States and
becomes totally incapacitated for continued employment by an employer while serving in the uniformed services is entitled to retirement system service credit under this subsection up to the date of discharge from the uniformed services if:

(i) The member obtains a determination from the director that he or she is totally incapacitated for continued employment due to conditions or events that occurred while serving in the uniformed services;

(ii) The member provides to the director proof of honorable discharge from the uniformed services; and

(iii) The member pays the employee contributions required under chapter 41.45 RCW within five years of the director’s determination of total disability or prior to the distribution of any benefit, whichever comes first; or

(iv) Prior to retirement the member provides to the director proof that the member’s interruptive military service was during a period of war as defined in RCW 41.04.005. Any member who made payments for service credit for interruptive military service during a period of war as defined in RCW 41.04.005 may, prior to retirement and on a form provided by the department, request a refund of the funds standing to his or her credit for up to five years of such service, and this amount shall be paid to him or her. Members with one or more periods of interruptive military service credit during a period of war may receive no more than five years of free retirement system service credit under this subsection. 41.40.270 Death before retirement or within sixty days following application for disability retirement—Military service—Payment of contributions to nominee, surviving spouse, or legal representative—Waiver of payment, effect—Benefits. (1) Except as specified in subsection (4) of this section, should a member die before the date of retirement the amount of the accumulated contributions standing to the member’s credit in the employees’ savings fund, less any amount identified as owing to an obligee upon withdrawal of accumulated contributions pursuant to a court order filed under RCW 41.50.670, at the time of death:

(a) Shall be paid to the member’s estate, or such person or persons, trust, or organization as the member shall have nominated by written designation duly executed and filed with the department; or

(b) If there be no such designated person or persons still living at the time of the member’s death, or if a member fails to file a new beneficiary designation subsequent to marriage, remarriage, dissolution of marriage, divorce, or reestablishment of membership following termination by withdrawal or retirement, such accumulated contributions, less any amount identified as owing to an obligee upon withdrawal of accumulated contributions pursuant to a court order filed under RCW 41.50.670, shall be paid to the surviving spouse as if in fact such spouse had been nominated by written designation as aforesaid, or if there be no such surviving spouse, then to the member’s legal representatives.

(2) Upon the death of any member who is qualified but has not applied for a service retirement allowance or has completed ten years of service at the time of death, the designated beneficiary, or the surviving spouse as provided in subsection (1) of this section, may elect to waive the payment
provided by subsection (1) of this section. Upon such an
election, a joint and one hundred percent survivor option

would have first qualified for a service retirement allowance.

(3) Subsection (1) of this section, unless elected, shall
not apply to any member who has applied for service retire-

thereafter dies between the date of separation from service
and the member’s effective retirement date, where the mem-
ber has selected a survivorship option under RCW 41.40.188.
In those cases the beneficiary named in the member’s final
application for service retirement may elect to receive either
ea cash refund, less any amount identified as owing to an obli-
gee upon withdrawal of accumulated contributions pursuant
to a court order filed under RCW 41.50.670, or monthly pay-
ments according to the option selected by the member.

(4) If a member dies within sixty days following applica-
tion for disability retirement under RCW 41.40.230, the ben-

(b) RCW 41.40.235, according to the option chosen
under RCW 41.40.188 in the disability application.

(5) The retirement allowance of a member who is killed
in the course of employment, as determined by the director
of the department of labor and industries, or the retirement
allowance of a member who has left the employ of an
employer due to service in the national guard or military
reserves and dies while honorably serving in the national
guard or military reserves during a period of war as defined in
RCW 41.04.005, is not subject to an actuarial reduction. The
member’s retirement allowance is computed under RCW

The contributions required under (a) of this subsection shall be based on the average of the member’s compensation earnable at both the time the authorized leave of absence was granted and the time the member resumed employment.

(4) A member who leaves the employ of an employer to enter the uniformed services of the United States shall be entitled to retirement system service credit for up to five years of military service. (d) The surviving spouse or eligible child or children of a member who left the employ of an employer to enter the uniformed services of the United States and died while serving in the uniformed services may, on behalf of the deceased member, apply for retirement system service credit under this subsection up to the date of the member’s death in the uniformed services. Chapter 41.45 RCW

ACTUARIAL FUNDING OF STATE RETIREMENT SYSTEMS

Sections

41.45.010  Intent—Goals.  It is the intent of the legislature to provide a dependable and systematic process for funding the benefits provided to members and retirees of the public employees’ retirement system, chapter 41.40 RCW; the teachers’ retirement system, chapter 41.32 RCW; the law enforcement officers’ and firefighters’ retirement systems, chapter 41.26 RCW; the school employees’ retirement system, chapter 41.35 RCW; the public safety employees’ retirement system, chapter 41.37 RCW; and the Washington state patrol retirement system, chapter 43.43 RCW.

The funding process established by this chapter is intended to achieve the following goals:

(1) To fully fund the public employees’ retirement system plans 2 and 3, the teachers’ retirement system plans 2 and 3, the school employees’ retirement system plans 2 and 3, the public safety employees’ retirement system plan 2, and the law enforcement officers’ and firefighters’ retirement system plan 2 as provided by law;

(2) To fully amortize the total costs of the law enforcement officers’ and firefighters’ retirement system plan 1, not later than June 30, 2024;

(3) To fully amortize the unfunded actuarial accrued liability in the public employees’ retirement system plan 1 and the teachers’ retirement system plan 1 within a rolling ten-year period, using methods and assumptions that balance needs for increased benefit security, decreased contribution rate volatility, and affordability of pension contribution rates;

(4) To establish long-term employer contribution rates which will remain a relatively predictable proportion of the future state budgets; and

(5) To fund, to the extent feasible, all benefits for plan 2 and 3 members over the working lives of those members so that the cost of those benefits are paid by the taxpayers who receive the benefit of those members’ service. 42.17.530 Political advertising or electioneering communication—Libel or defamation per se. (1) It is a violation of this chapter for a person to sponsor with actual malice a statement constituting libel or defamation per se under the following circumstances:

(a) Political advertising or an electioneering communication that contains a false statement of material fact about a candidate for public office;

(b) Political advertising or an electioneering communication that falsely represents that a candidate is the incumbent for the office sought when in fact the candidate is not the incumbent;

(c) Political advertising or an electioneering communication that makes either directly or indirectly, a false claim stating or implying the support or endorsement of any person or organization when in fact the candidate does not have such support or endorsement.

(2) For the purposes of this section, "libel or defamation per se" means statements that tend (a) to expose a living person to hatred, contempt, ridicule, or obloquy, or to deprive him or her of the benefit of public confidence or social intercourse, or to injure him or her in his or her business or occupation, or (b) to injure any person, corporation, or association in his, her, or its business or occupation.

(3) It is not a violation of this section for a candidate or his or her agent to make statements described in subsection (1)(a) or (b) of this section about the candidate himself or herself because a person cannot defame himself or herself. It is not a violation of this section for a person or organization referenced in subsection (1)(c) of this section to make a statement about that person or organization because such persons and organizations cannot defame themselves.

(4) Any violation of this section shall be proven by clear and convincing evidence. If a violation is proven, damages are presumed and do not need to be proven. [2009 c 222 § 2; 2005 c 445 § 10; 1999 c 304 § 2; 1988 c 199 § 2; 1984 c 216 § 3.]

[2009 RCW Supp—page 752]

Intent—Findings—2009 c 222: "(1) The concurring opinion of the Washington state supreme court in Rickert v. State, Public Disclosure Commission, 161 Wn.2d 843, 168 P.3d 826 (2007) found the statute that prohibits persons from sponsoring, with actual malice, political advertising and electioneering communications about a candidate containing false statements of material fact to be invalid under the First Amendment to the United States Constitution because it posed no requirement that the prohibited statements be defamatory.

(2) It is the intent of the legislature to amend chapter 42.17 RCW to find that a violation of state law occurs if a person sponsors false statements about candidates in political advertising and electioneering communications when the statements are made with actual malice and are defamatory.

(3) The legislature finds that in such circumstances damages are presumed and do not need to be established when such statements are made with actual malice in political advertising and electioneering communications and constitute libel or defamation per se. The legislature finds that incumbents, challengers, voters, and the political process will benefit from vigorous political debate that is not made with actual malice and is not defamatory.

(4) The legislature finds that when such defamatory statements contain a false statement of material fact about a candidate for public office they expose the candidate to contempt, ridicule, or reproach and can deprive the candidate of the benefit of public confidence, or prejudice him or her in his or her profession, trade, or vocation. The legislature finds that when such statements falsely represent that a candidate is the incumbent for the office sought when in fact the candidate is not the incumbent they deprive the actual incumbent and the candidates of the benefit of public confidence and injure the actual incumbent in the ability to effectively serve as an elected official. The legislature further finds that defamatory statements made by an incumbent regarding the incumbent's challenger may deter individuals from seeking public office and harm the democratic process. Further, the legislature finds that when such statements make, either directly or indirectly, a false claim stating or implying the support or endorsement of any person or organization when in fact the candidate does not have such support or endorsement, they deprive the person or organization of the benefit of public confidence and/or will expose the person or organization to contempt, ridicule, or reproach, or injure the person or organization in their business or occupation.

(5) The legislature finds that defamatory statements, made with actual malice, damage the integrity of elections by distorting the electoral process. Democracy is premised on an informed electorate. To the extent such defamatory statements misinform the voters, they interfere with the process upon which democracy is based. Such defamatory statements also lower the quality of campaign discourse and debate, and lead or add to voter alienation by fostering voter cynicism and distrust of the political process." [2009 c 222 § 1.]

Finding—Intent—1999 c 304: "(1) The Washington supreme court in a case involving a ballot measure, State v. 119 Vote No! Committee, 135 Wn.2d 618 (1998), found the statute that prohibits persons from sponsoring, with actual malice, political advertising containing false statements of material fact to be invalid under the First Amendment to the United States Constitution.

(2) The legislature finds that a review of the opinions indicates that a majority of the supreme court may find valid a statute that limited such a prohibition on sponsoring with actual malice false statements of material fact in a political campaign to statements about a candidate in an election for public office.

(3) It is the intent of the legislature to amend the current law to provide protection for candidates for public office against false statements of material fact sponsored with actual malice." [1999 c 304 § 1.]

County participation in Economic Opportunity Act programs: RCW 36.32.410.

430.6120 Federal funds and programs—Acceptance of funds by governor authorized—Administration and disbursement. The governor is authorized to accept on behalf of the state of Washington funds provided by any act of congress for the benefit of the state or its political subdivisions. He or she is further authorized to administer and disburse such funds, or to designate an agency to administer and disburse them, until the legislature otherwise directs. [2009 c 549 § 5021; 1967 ex.s. c 41 § 1.]

430.155 Health care reform deliberations—Principles—Policies. (1) The following principles shall provide guidance to the state of Washington in its health care reform deliberations:

(a) Guarantee choice. Provide the people of Washington state with a choice of health plans and physicians, including health plans offered through the private insurance market and public programs, for those who meet eligibility standards. People will be allowed to keep their own doctor and their employer-based health plan.

(b) Make health coverage affordable. Reduce waste and fraud, high administrative costs, unnecessary tests and services, and other inefficiencies that drive up costs with no added health benefits.

(c) Protect families’ financial health. Reduce the growing premiums and other costs that the people of Washington state pay for health care. People must be protected from bankruptcy due to catastrophic illness.

(d) Invest in prevention and wellness. Invest in public health measures proven to reduce cost drivers in our system, such as obesity, sedentary lifestyles, and smoking, as well as guarantee access to proven preventive treatments.

(e) Provide portability of coverage. People should not be locked into their job just to secure health coverage, and no American should be denied coverage because of preexisting conditions.

(f) Aim for universality. Building on the work of the blue ribbon commission and other state health care reform initiatives and recognizing the current economic climate, the state will partner with national health care reform efforts toward a goal of enabling all Washingtonians to have access to affordable, effective health care by 2014 as economic conditions and national reforms indicate.

(g) Improve patient safety and quality care. Ensure the implementation of proven patient safety measures and provide incentives for changes in the delivery system to reduce unnecessary variability in patient care. Support the widespread use of health information technology with rigorous privacy protections and the development of data on the effectiveness of medical interventions to improve the quality of care delivered.

(h) Maintain long-term fiscal sustainability. Any reform plan must pay for itself by reducing the level of cost growth, improving productivity, dedicating additional sources of revenue, and defining the appropriate role of the private and public sectors in financing health care coverage in Washington state.

(2) Over the past twenty years, both the private and public health care sectors in the state of Washington have implemented policies that are consistent with the principles in subsection (1) of this section. Most recently, the governor’s blue ribbon commission on health reform agreed to recommendations that are highly consistent with those principles. Current policies in Washington state in accord with those principles include:

(a) With respect to aiming for universality and access to a choice of affordable health care plans and health care providers:

(i) The Washington basic health plan offers affordable health coverage to low-income families and individuals in Washington state through a choice of private managed health care plans and health care providers;

(ii) Apple health for kids will achieve its dual goals that every child in Washington state have health care coverage by 2010 and that the health status of children in Washington state be improved. Only four percent of children in Washington state lack health insurance, due largely to efforts to expand coverage that began in 1993;

(iii) Through the health insurance partnership program, Washington state has designed the infrastructure for a health insurance exchange for small employers that would give employers and employees a choice of private health benefit plans and health care providers, offer portability of coverage and provide a mechanism to offer premium subsidies to low-wage employees of these employers;

(iv) Purchasers, insurance carriers, and health care providers are working together to significantly reduce health care administrative costs. These efforts have already produced efficiencies, and will continue through the activities provided in Second Substitute Senate Bill No. 5346, if enacted by the 2009 legislature; and

(v) Over one hundred thousand Washingtonians have enrolled in the state’s discount prescription drug card program, saving consumers over six million dollars in prescription drug costs since February 2007, with an average discount of twenty-two dollars or forty-three percent of the price of each prescription filled.

(b) With respect to improving patient safety and quality of care and investing in prevention and wellness, the public and private health care sectors are engaged in numerous nationally recognized efforts:

(i) The Puget Sound health alliance is a national leader in identifying evidence-based health care practices, and reporting to the public on health care provider performance with respect to these practices. Many of these practices address disease prevention and management of chronic illness;

(ii) The Washington state health technology assessment program and prescription drug program use medical evidence and independent clinical advisors to guide the purchasing of...
clinically and cost-effective health care services by state-purchased health care programs;

(iii) Washington state’s health record bank pilot projects are testing a new model of patient controlled electronic health records in three geographic regions of the state. The state has also provided grants to a number of small provider practices to help them implement electronic health records;

(iv) Efforts are underway to ensure that the people of Washington state have a medical home, with primary care providers able to understand their needs, meet their care needs effectively, better manage their chronic illnesses, and coordinate their care across the health care system. These efforts include group health cooperative of Puget Sound’s medical home projects, care collaboratives sponsored by the state department of health, state agency chronic care management pilot projects, development of apple health for kids health improvement measures as indicators of children having a medical home, and implementation of medical home reimbursement pilot projects under **Substitute Senate Bill No. 5891, if enacted by the 2009 legislature; and

(v) Health care providers, purchasers, the state, and private quality improvement organizations are partnering to undertake numerous patient safety efforts, including hospital and ambulatory surgery center adverse events reporting, with root cause analysis to identify actions to be undertaken to prevent further adverse events; reporting of hospital acquired infections and undertaking efforts to reduce the rate of these infections; developing a surgical care outcomes assessment program that includes a presurgery checklist to reduce medical errors; and developing a patient decision aid pilot to more fully inform patients of the risks and benefits of treatment alternatives, decrease unnecessary procedures and variation in care, and provide increased legal protection to physicians whose patients use a patient decision aid to provide informed consent. [2009 c 545 § 2.]

**(2) Substitute Senate Bill No. 5891 became chapter 305, Laws of 2009.

Findings—2009 c 545: "The legislature finds that the principles for health care reform articulated by the president of the United States in his proposed federal fiscal year 2010 budget to the congress of the United States provide an opportunity for the state of Washington to be both a partner with, and a model for, the federal government in its health care reform efforts. The legislature further finds that the recommendations of the 2007 blue ribbon commission on health care costs and access are consistent with these principles." [2009 c 545 § 1.]

43.08.290 City-county assistance account—Use and distribution of funds. (1) The city-county assistance account is created in the state treasury. All receipts from real estate excise tax disbursements provided under RCW 82.45.060 must be deposited into the account. Moneys in the account may be spent only after appropriation. Expenditures from the account may be used only for the purposes provided in this section.

(2) Funds deposited in the city-county assistance account must be distributed equally to the cities and counties.

(3)(a) Funds distributed to counties must, to the extent possible, increase the sum of revenues under RCW 82.14.030(1) and streamlined sales tax mitigation funds received by each county to the greater of two hundred fifty thousand dollars or:

(i) For a county with an unincorporated population of one hundred thousand or less, seventy percent of the state-wide weighted average per capita level of sales and use tax revenues received under RCW 82.14.030(1) with respect to taxable activity in the unincorporated areas of all counties
imposing the sales and use tax authorized under RCW 82.14.030(1) in the previous calendar year, for certifications before October 1, 2009, or the previous fiscal year, for certifications on and after October 1, 2009; and

(ii) For a county with an unincorporated population of more than one hundred thousand, sixty-five percent of the statewide weighted average per capita level of sales and use tax revenues received under RCW 82.14.030(1) with respect to taxable activity in the unincorporated areas of all counties imposing the sales and use tax authorized under RCW 82.14.030(1) in the previous calendar year, for certifications before October 1, 2009, or the previous fiscal year, for certifications on and after October 1, 2009.

(b) For each county with an unincorporated population of fifteen thousand or less, the county must receive the greater of the amount in (a) of this subsection or the amount received in local government assistance provided by section 716, chapter 276, Laws of 2004.

(c) For each county with an unincorporated population of more than fifteen thousand and less than twenty-two thousand, the county must receive in calendar year 2006 and 2007 the greater of the amount provided in (a) of this subsection or the amount received in local government assistance provided by section 716, chapter 276, Laws of 2004.

(d) To the extent that revenues are insufficient to fund the distributions under this subsection, the distributions of all counties as otherwise determined under this subsection must be ratably reduced.

(e) To the extent that revenues exceed the amounts needed to fund the distributions under this subsection, the excess funds must be divided ratably based upon unincorporated population among those counties receiving funds under this subsection and imposing the tax authorized under RCW 82.14.030(2) at the maximum rate.

(4)(a) For each city with a population of five thousand or less with a per capita assessed property value less than twice the statewide average per capita assessed property value for all cities for the calendar year previous to the certification under subsection (6) of this section, the city must receive the greater of the following three amounts:

(i) An amount necessary to increase the sum of revenues under RCW 82.14.030(1) and streamlined sales tax mitigation funds received by a city up to fifty-five percent of the statewide weighted average per capita level of sales and use tax revenues received under RCW 82.14.030(1) with respect to taxable activity in all cities imposing the sales and use tax authorized under RCW 82.14.030(1) in the previous calendar year, for certifications before October 1, 2009, or the previous fiscal year, for certifications on and after October 1, 2009.

(ii) The amount received in local government assistance provided for fiscal year 2005 by section 721, chapter 25, Laws of 2003 1st sp. sess.

(iii) For a city with a per capita assessed property value less than fifty-five percent of the statewide average per capita assessed property value for all cities, an amount determined by subtracting the city’s per capita assessed property value from fifty-five percent of the statewide average per capita assessed property value, dividing that amount by one thousand, and multiplying the result by the city’s population.

(b) For each city with a population of more than five thousand with a per capita assessed property value less than the statewide average per capita assessed property value for all cities for the calendar year previous to the certification under subsection (6) of this section, the city must receive the greater of the following two amounts:

(i) An amount necessary to increase the sum of revenues under RCW 82.14.030(1) and streamlined sales tax mitigation funds received by a city up to fifty percent of the statewide weighted average per capita level of sales and use tax revenues received under RCW 82.14.030(1) with respect to taxable activity in all cities imposing the sales and use tax authorized under RCW 82.14.030(1) in the previous calendar year, for certifications before October 1, 2009, or the previous fiscal year, for certifications on and after October 1, 2009.

(ii) For a city with a per capita assessed property value less than fifty-five percent of the statewide average per capita assessed property value for all cities, an amount determined by subtracting the city’s per capita assessed property value from fifty percent of the statewide average per capita assessed property value, dividing that amount by one thousand, and multiplying the result by the city’s population.
(b) By March 1, 2009, the department of revenue must certify the amounts to be distributed under this section on April 1, 2009, July 1, 2009, and October 1, 2009. The certification must be based on calendar year 2008 department of revenue distributions of sales and use taxes authorized under RCW 82.14.030(1), and the population as last determined by the office of financial management.

(c) By October 1, 2009, the department of revenue must certify the amounts to be distributed under this section on January 1, 2010, April 1, 2010, July 1, 2010, and October 1, 2010. The certification must be based on department of revenue distributions in fiscal year 2009 of sales and use taxes authorized under RCW 82.14.030(1), streamlined sales tax mitigation data for mitigation distributions authorized under RCW 82.14.495 made December 2008 through September 2009, and population as last determined by the office of financial management.

(d) By September 1, 2010, and September 1st of every year thereafter, the department of revenue must make available a preliminary certification of the amounts to be distributed under this section on January 1st, April 1st, July 1st, and October 1st of the year immediately following certification. By October 1, 2010, and October 1st of every year thereafter, the department must finalize the certification. Once finalized, no changes may be made to the certification for any reason. Certifications must be based on distributions of sales and use taxes imposed under RCW 82.14.030(1) made by the department of revenue in the fiscal year that ended during the calendar year of certification, streamlined sales tax mitigation data for mitigation distributions authorized under RCW 82.14.495 made in the fiscal year that ended during the calendar year of certification, and population as last determined by the office of financial management.

(7) All distributions to local governments from the city-county assistance account constitute increases in state distributions of revenue to political subdivisions for purposes of state reimbursement for the costs of new programs and increases in service levels under RCW 43.135.060, including any claims or litigation pending against the state on or after January 1, 2005.

(8) As used in this section, "streamlined sales tax mitigation funds" means an amount determined by the department of revenue equal to the actual mitigation distribution amount under RCW 82.14.495 received by a jurisdiction in four consecutive calendar quarters, less the mitigation distribution amount that would have been received by the jurisdiction during the same four calendar quarters had mitigation been calculated without the local sales tax authorized under RCW 82.14.030(1). If the difference is a negative amount or if a jurisdiction does not receive any mitigation distribution during the applicable four calendar quarters, then "streamlined sales tax mitigation funds" is zero. Application—2009 c 127: "This act applies both prospectively and retroactively to March 1, 2009." [2009 c 127 § 2.]

Effective date—2005 c 450: See note following RCW 82.45.060.

43.08.300 Public deposit protection—Report. (1) Effective June 1, 2006, for agencies complying with the ultra-low sulfur diesel mandate of the United States environmental protection agency for on-highway diesel fuel, agencies shall use biodiesel as an additive to ultra-low sulfur diesel for lubricity, provided that the use of a lubricity additive is warranted and that the use of biodiesel is comparable in performance and cost with other available lubricity additives. (2) Effective June 1, 2009, state agencies are required to use a minimum of twenty percent biodiesel as compared to total volume of all diesel purchases made by the agencies for the operation of the agencies’ diesel-powered vessels, vehicles, and construction equipment.

(3) All state agencies using biodiesel fuel shall, beginning on July 1, 2006, file biannual reports with the department of general administration documenting the use of the fuel and a description of how any problems encountered were resolved.

(4) For the 2009-2011 fiscal biennium, the Washington state ferries is required to use a minimum of five percent biodiesel as compared to total volume of all diesel purchases made by the Washington state ferries for the operation of the Washington state ferries diesel-powered vessels so long as the per gallon price of diesel containing a five percent biodiesel blend level does not exceed the per gallon price of diesel by more than five percent. If the per gallon price of diesel containing a five percent biodiesel blend level exceeds the per gallon price of diesel by more than five percent, the requirements of this section do not apply to vessel fuel purchases by the Washington state ferries.

(5) By December 1, 2009, the department of general administration shall:

(a) Report to the legislature on the average true price differential for biodiesel by blend and location; and

(3) Biodiesel degrades much faster than petroleum diesel;

(4) Biodiesel is less toxic than petroleum fuels;

(5) The United States environmental protection agency’s new emission standards for petroleum diesel that take effect June 1, 2006, will require the addition of a lubricant to ultra-low sulfur diesel to counteract premature wear of injection pumps;

(6) Biodiesel provides the needed lubricity to ultra-low sulfur diesel;

(7) Biodiesel use in state-owned diesel-powered vehicles provides a means for the state to comply with the alternative fuel vehicle purchase requirements of the energy policy act of 1992, P.L. 102-486; and

(8) The state is in a position to set an example of large scale use of biodiesel in diesel-powered vehicles and equipment.” [2003 c 17 § 1.]

Captions and part headings not law—2007 c 343: See RCW 70.118B.900.

Findings—1993 c 492: "The legislature finds that our health and financial security are jeopardized by our ever increasing demand for health care and by current health insurance and health system practices. Current health system practices encourage public demand for unneeded, ineffective, and sometimes dangerous health treatments. These practices often result in unaffordable cost increases that far exceed ordinary inflation for essential care. Current total health care expenditure rates should be sufficient to provide access to essential health care interventions to all within a reformed, efficient system. The legislature finds that too many of our state's residents are without health insurance, that each year many individuals and families are forced into poverty because of serious illness, and that many must leave gainful employment to be eligible for publicly funded medical services. Additionally, thousands of citizens are at risk of losing adequate health insurance, have had insurance canceled recently, or cannot afford to renew existing coverage. The legislature finds that businesses find it difficult to pay for health insurance and remain competitive in a global economy, and that individuals, the poor, and small businesses bear an inequitable health insurance burden.

The legislature finds that persons of color have significantly higher rates of mortality and poor health outcomes, and substantially lower numbers and percentages of persons covered by health insurance than the general population. It is intended that chapter 492, Laws of 1993 make provisions to address the special health care needs of these racial and ethnic populations in order to improve their health status.

The legislature finds that uncontrolled demand and expenditures for health care are eroding the ability of families, businesses, communities, and governments to invest in other enterprises that promote health, maintain independence, and ensure continued economic welfare. Housing, nutrition, education, and the environment are all diminished as we invest ever increasing shares of wealth in health care treatments.

The legislature finds that while immediate steps must be taken, a long-term plan of reform is also needed." [1993 c 492 § 101.]

Intent—1993 c 492: "(1) The legislature intends that state government policy stabilize health services costs, assure access to essential services for all residents, actively address the health care needs of persons of color, improve the public's health, and reduce unwarranted health services costs to preserve the viability of nonhealth care businesses.

(2) The legislature intends that:

(a) Total health services costs be stabilized and kept within rates of increase similar to the rates of personal income growth within a publicly regulated, private marketplace that preserves personal choice;

(b) State residents be enrolled in the certified health plan of their choice that meets state standards regarding affordability, accessibility, cost-effectiveness, and clinical efficaciousness;

(c) State residents be able to choose health services from the full range of health care providers, as defined in RCW 43.72.010(12), in a manner consistent with good health services management, quality assurance, and cost effectiveness;

(d) Individuals and businesses have the option to purchase any health services they may choose in addition to those included in the uniform benefits package or supplemental benefits;

(e) All state residents, businesses, employees, and government participate in payment for health services, with total costs to individuals on a sliding scale based on income to encourage efficient and appropriate utilization of services;

(f) These goals be accomplished within a reformed system using private service providers and facilities in a way that allows consumers to choose among competing plans operating within budget limits and other regulations that promote the public good; and

(g) A policy of coordinating the delivery, purchase, and provision of health services among the federal, state, local, and tribal governments be encouraged and accomplished by chapter 492, Laws of 1993.

(3) Accordingly, the legislature intends that chapter 492, Laws of 1993 provide both early implementation measures and a process for overall reform of the health services system." [1993 c 492 § 102.]

Prior to the issuance and delivery of any revenue bonds, such bonds and a certified copy of the resolution authorizing them shall be delivered to the state auditor together with any additional information that he or she may require. When the bonds have been examined they shall be registered by the auditor in books to be kept by him or her for that purpose, and a certificate of registration shall be endorsed upon each bond and signed by the auditor or a deputy appointed by him or her for the purpose. The bonds shall then be prima facie valid and binding obligations of the state finance committee in accordance with their terms, notwithstanding any defects or irregularities in the authorization and issuance of the bonds, or in the sale, execution or delivery thereof. 43.21A.667 Freshwater aquatic algae control account—Freshwater aquatic algae control program—Reports to the legislature. (1) The freshwater aquatic algae control account is created in the state treasury. Moneys directed to the account from RCW 88.02.050 must be deposited in the account. Expenditures from the account may only be used as provided in this section. Moneys in the account may be spent only after appropriation.

(2) Funds in the freshwater aquatic algae control account may be appropriated to the department to develop a freshwater aquatic algae control program. Funds must be expended as follows:

(a) As grants to cities, counties, tribes, special purpose districts, and state agencies to manage excessive freshwater algae, with priority for the treatment of lakes in which harmful algal blooms have occurred within the past three years; and during the 2009-2011 fiscal biennium to provide grants for sea lettuce research and removal to assist Puget Sound communities that are impacted by hyperblooms of sea lettuce; and

(b) To provide technical assistance to applicants and the public about aquatic algae control.

(3) The department shall submit a biennial report to the appropriate legislative committees describing the actions taken to implement this section along with suggestions on how to better fulfill the intent of chapter 464, Laws of 2005. The first report is due December 1, 2007. [2009 c 564 § 933; 2005 c 464 § 4.]

Effective date—2009 c 564: See note following RCW 2.68.020.

Findings—Intent—2005 c 464: See note following RCW 88.02.050.

43.21A.690 Cost-reimbursement agreements. (1) The department may enter into a written cost-reimbursement agreement with a permit applicant or project proponent to recover from the applicant or proponent the reasonable costs incurred by the department in carrying out the requirements of this chapter, as well as the requirements of other relevant laws, as they relate to permit coordination, environmental review, application review, technical studies, and permit processing.
(2) The cost-reimbursement agreement shall identify the tasks and costs for work to be conducted under the agreement. The agreement must include a schedule that states:

(a) The estimated number of weeks for initial review of the permit application;
(b) The estimated number of revision cycles;
(c) The estimated number of weeks for review of subsequent revision submittals;
(d) The estimated number of billable hours of employee time;
(e) The rate per hour; and
(f) A date for revision of the agreement if necessary.

(3) The written cost-reimbursement agreement shall be negotiated with the permit applicant or project proponent. Under the provisions of a cost-reimbursement agreement, funds from the applicant shall be used by the department to contract with an independent consultant to carry out the work covered by the cost-reimbursement agreement. The department may also use funds provided under a cost-reimbursement agreement to hire temporary employees, to assign current staff to review the work of the consultant, to provide necessary technical assistance when an independent consultant with comparable technical skills is unavailable, and to recover reasonable and necessary direct and indirect costs that arise from processing the permit. The department shall, in developing the agreement, ensure that final decisions that involve policy matters are made by the agency and not by the consultant. The department shall make an estimate of the number of permanent staff hours to process the permits, and shall contract with consultants or hire temporary employees to replace the time and functions committed by these permanent staff to the project. The billing process shall provide for accurate time and cost accounting and may include a billing cycle that provides for progress payments.

(4) The cost-reimbursement agreement must not negatively impact the processing of other permit applications. In order to maintain permit processing capacity, the agency may hire outside consultants, temporary employees, or make internal administrative changes. Consultants or temporary employees hired as part of a cost-reimbursement agreement or to maintain agency capacity are hired as agents of the state not of the permit applicant. The restrictions of chapter 42.52 RCW apply to any cost-reimbursement agreement, and to any person hired as a result of a cost-reimbursement agreement.

43.21C.020 Legislative recognitions—Declaration—Responsibility.

43.21C.410 Battery charging and exchange station installation.

43.21C.010 Purposes. The purposes of this chapter are:

(1) To declare a state policy which will encourage productive and enjoyable harmony between humankind and the environment; (2) to promote efforts which will prevent or eliminate damage to the environment and biosphere; (3) and [to] stimulate the health and welfare of human beings; and (4) to enrich the understanding of the ecological systems and natural resources important to the state and nation. [2009 c 549 § 5095; 1971 ex.s. c 109 § 1.]
43.21C.020 Legislative recognitions—Declaration—Responsibility. (1) The legislature, recognizing that a human being depends on biological and physical surroundings for food, shelter, and other needs, and for cultural enrichment as well; and recognizing further the profound impact of a human being’s activity on the interrelations of all components of the natural environment, particularly the profound influences of population growth, high-density urbanization, industrial expansion, resource utilization and exploitation, and new and expanding technological advances and recognizing further the critical importance of restoring and maintaining environmental quality to the overall welfare and development of human beings, declares that it is the continuing policy of the state of Washington, in cooperation with federal and local governments, and other concerned public and private organizations, to use all practicable means and measures, including financial and technical assistance, in a manner calculated to: (a) Foster and promote the general welfare; (b) create and maintain conditions under which human beings and nature can exist in productive harmony; and (c) fulfill the social, economic, and other requirements of present and future generations of Washington citizens.

(2) In order to carry out the policy set forth in this chapter, it is the continuing responsibility of the state of Washington and all agencies of the state to use all practicable means, consistent with other essential considerations of state policy, to improve and coordinate plans, functions, programs, and resources to the end that the state and its citizens may:

(a) Fulfill the responsibilities of each generation as trustee of the environment for succeeding generations;

(b) Assure for all people of Washington safe, healthful, productive, and aesthetically and culturally pleasing surroundings;

(c) Attain the widest range of beneficial uses of the environment without degradation, risk to health or safety, or other undesirable and unintended consequences;

(d) Preserve important historic, cultural, and natural aspects of our national heritage;

(e) Maintain, wherever possible, an environment which supports diversity and variety of individual choice;

(f) Achieve a balance between population and resource use which will permit high standards of living and a wide sharing of life’s amenities; and

(g) Enhance the quality of renewable resources and approach the maximum attainable recycling of depletable resources.

(3) The legislature recognizes that each person has a fundamental and inalienable right to a healthful environment and that each person has a responsibility to contribute to the preservation and enhancement of the environment. [2009 c 549 § 5096; 1975 ex.s. c 109 § 2.]

43.21C.410 Battery charging and exchange station installation. (1) The installation of individual battery charging stations and battery exchange stations, which individually are categorically exempt under the rules adopted under RCW 43.21C.110, may not be disqualified from such categorically exempt status as a result of their being parts of a larger proposal that includes other such facilities and related utility networks under the rules adopted under RCW 43.21C.110.

(2) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Battery charging station" means an electrical component assembly or cluster of component assemblies designed specifically to charge batteries within electric vehicles, which meet or exceed any standards, codes, and regulations set forth by chapter 19.28 RCW and consistent with rules adopted under RCW 19.27.540.

(b) "Battery exchange station" means a fully automated facility that will enable an electric vehicle with a swappable battery to enter a drive lane and exchange the depleted battery with a fully charged battery through a fully automated process, which meets or exceeds any standards, codes, and regulations set forth by chapter 19.28 RCW and consistent with rules adopted under RCW 19.27.540. 43.21M.900 Findings—2009 c 519.

43.21M.010 Development of strategy—Central clearinghouse—Collaboration. (1) The departments of ecology, agriculture, community, trade, and economic development, fish and wildlife, natural resources, and transportation shall develop an integrated climate change response strategy to better enable state and local agencies, public and private businesses, nongovernmental organizations, and individuals to prepare for, address, and adapt to the impacts of climate change. The integrated climate change response strategy should be developed, where feasible and consistent with the direction of the strategy, in collaboration with local government agencies with climate change preparation and adaptation plans.

(2) The department of ecology shall serve as a central clearinghouse for relevant scientific and technical information about the impacts of climate change on Washington’s ecology, economy, and society, as well as serve as a central convener for the development of vital programs and necessary policies to help the state adapt to a rapidly changing climate.

(3) The department of ecology shall consult and collaborate with the departments of fish and wildlife, agriculture, community, trade, and economic development, natural resources, and transportation in developing an integrated climate change response strategy and plans of action to prepare for and adapt to climate change impacts. [2009 c 519 § 10.]

43.21M.020 Requirements of strategy—Initial climate change response strategy. (1) The integrated climate change response strategy shall address the impact of and adaptation to climate change, as well as the regional capacity to undertake actions, existing ecosystem and resource management concerns, and health and economic risks. In addition, the departments of ecology, agriculture, community, trade, and economic development, fish and wildlife, natural resources, and transportation should include a range of sce-
narios for the purposes of planning in order to assess project vulnerability and, to the extent feasible, reduce expected risks and increase resiliency to the impacts of climate change.

(2)(a) By December 1, 2011, the department of ecology shall compile an initial climate change response strategy, including information and data from the departments of fish and wildlife, agriculture, community, trade, and economic development, natural resources, and transportation that: Summarizes the best known science on climate change impacts to Washington; assesses Washington’s vulnerability to the identified climate change impacts; prioritizes solutions that can be implemented within and across state agencies; and identifies recommended funding mechanisms and technical and other essential resources for implementing solutions.

(b) The initial strategy must include:

(i) Efforts to identify priority planning areas for action, based on vulnerability and risk assessments;

(ii) Barriers challenging state and local governments to take action, such as laws, policies, regulations, rules, and procedures that require revision to adequately address adaptation to climate change;

(iii) Opportunities to integrate science and projected impacts into planning and decision making and;

(iv) Methods to increase public awareness of climate change, its projected impacts on the community, and to build support for meaningful adaptation policies and strategies. [2009 c 519 § 11.]

43.21M.030 Assistance with developing strategy. The departments of ecology, agriculture, community, trade, and economic development, fish and wildlife, natural resources, and transportation may consult with qualified nonpartisan experts from the scientific community as needed to assist with developing an integrated climate change response strategy. The qualified nonpartisan experts from the scientific community may assist the department of ecology on the following components:

(1) Identifying the timing and extent of impacts from climate change;

(2) Assessing the effects of climate variability and change in the context of multiple interacting stressors or impacts;

(3) Developing forecasting models;

(4) Determining the resilience of the environment, natural systems, communities, and organizations to deal with potential or actual impacts of climate change and the vulnerability to which a natural or social system is susceptible to sustaining damage from climate change impacts; and

(5) Identifying other issues, as determined by the department of ecology, necessary to develop policies and actions for the integrated climate change response strategy. [2009 c 519 § 12.]

43.21M.040 Incorporation of adaptation plans of action by state agencies. State agencies shall strive to incorporate adaptation plans of action as priority activities when planning or designing agency policies and programs. Agencies shall consider: The integrated climate change response strategy when designing, planning, and funding infrastructure projects; and incorporating natural resource adaptation actions and alternative energy sources when designing and planning infrastructure projects. [2009 c 519 § 13.]

43.21M.900 Findings—2009 c 519. The legislature finds that in chapter 14, Laws of 2008, the legislature established greenhouse gas emission reduction limits for Washington state, including a reduction of overall emissions by 2020 to emission levels in 1990, a reduction by 2035 to levels twenty-five percent below 1990 levels, and by 2050 a further reduction below 1990 levels. Based upon estimated 2006 emission levels in Washington, this will require a reduction from present emission levels of over twenty-five percent in the next eleven years. The legislature further finds that state government activities are a significant source of emissions, and that state government should meet targets for reducing emissions from its buildings, vehicles, and all operations that demonstrate that these reductions are achievable, cost-effective, and will help to promote innovative energy efficiency technologies and practices. [2009 c 519 § 1.]

43.30.035 Natural resources equipment fund—Authorized—Purposes—Expenditure. A revolving fund in the custody of the state treasurer, to be known as the natural resources equipment fund, is hereby created to be expended by the department without appropriation solely for the purchase of equipment, machinery, and supplies for the use of the department and for the payment of the costs of repair and maintenance of such equipment, machinery, and supplies. During the 2007-2009 fiscal biennium the legislature may transfer such amounts as represent the excess balance of the fund to the state general fund. 43.30.385 Park land trust revolving fund. (1) The park land trust revolving fund is to be utilized by the department for the purpose of acquiring real property, including all reasonable costs associated with these acquisitions, as a replacement for the property transferred to the state parks and recreation commission, as directed by the legislature in order to maintain the land base of the affected trusts or under RCW 79.22.060 and to receive voluntary contributions for the purpose of operating and maintaining public use and recreation facilities, including trails, managed by the department. Proceeds from transfers of real property to the state parks and recreation commission or other proceeds identified from transfers of real property as directed by the legislature shall be deposited in this fund. Disbursement from the park land trust revolving fund to acquire replacement property and for operating and maintaining public use and recreation facilities shall be on the authorization of the department. The proceeds from real property transferred or disposed under RCW 79.22.060 must be solely used to purchase replacement forest land, that must be actively managed as a working forest, within the same county as the property transferred or disposed. In order to maintain an effective expenditure and revenue control, the park land trust revolving fund is subject in all respects to chapter 43.88 RCW, but no appropriation is required to permit expenditures and payment of obligations from the fund.

(2) The department is authorized to solicit and receive voluntary contributions for the purpose of operating and maintaining public use and recreation facilities, including trails, managed by the department. The department may seek voluntary contributions from individuals and organizations for this purpose. Voluntary contributions will be deposited into the park land trust revolving fund and used solely for the purpose of public use and recreation facilities operations and maintenance. Voluntary contributions are not considered a fee for use of these facilities. [2009 c 354 § 9; 2004 c 103 § 1; 2003 c 334 § 106; 2000 c 148 § 4; 1995 c 211 § 5. Formerly RCW 43.30.115.]

43.30.490 Cost-reimbursement agreements. (1) The department may enter into a written cost-reimbursement agreement with a permit or lease applicant or project proponent to recover from the applicant or proponent the reasonable costs incurred by the department in carrying out the requirements of this chapter, as well as the requirements of other relevant laws, as they relate to permit coordination, environmental review, application review, technical studies, establishment of development units and approval or establishment of pooling agreements under chapter 78.52 RCW, including necessary technical studies, permit or lease processing, and monitoring for permit compliance.

(2) The cost-reimbursement agreement shall identify the tasks and costs for work to be conducted under the agreement. The agreement must include a schedule that states:

(a) The estimated number of weeks for initial review of the permit application;

(b) The estimated number of revision cycles;

(c) The estimated number of weeks for subsequent revision submittals;

(d) The estimated number of billable hours of employee time;

(e) The rate per hour; and

(f) A date for revision of the agreement if necessary.

(3) The written cost-reimbursement agreement shall be negotiated with the permit or lease applicant or project proponent. Under the provisions of a cost-reimbursement agreement, funds from the applicant or proponent shall be used by the department to contract with an independent consultant to carry out the work covered by the cost-reimbursement agreement. The department may also use funds provided under a cost-reimbursement agreement to hire temporary employees, to assign current staff to review the work of the consultant, to provide necessary technical assistance when an independent consultant with comparable technical skills is unavailable, and to recover reasonable and necessary direct and indirect costs that arise from processing the permit or lease. The department shall, in developing the agreement, ensure that final decisions that involve policy matters are made by the agency and not by the consultant. The department shall make an estimate of the number of permanent staff hours to process the permits or leases, and shall contract with consultants or hire temporary employees to replace the time and functions committed by these permanent staff to the project. The billing process shall provide for accurate time and cost accounting and may include a billing cycle that provides for progress payments.

(4) The cost-reimbursement agreement must not negatively impact the processing of other permit applications. In order to maintain permit processing capacity, the agency may hire outside consultants, temporary employees, or make internal administrative changes. Consultants or temporary employees hired as part of a cost-reimbursement agreement or to maintain agency capacity are hired as agents of the state not of the permit applicant. The restrictions of chapter 42.52 RCW apply to any cost-reimbursement agreement, and to any person hired as a result of a cost-reimbursement agreement. [2009 c 97 § 9. Prior: 2007 c 188 § 1; 2007 c 94 § 11; 2003 c 70 § 2; 2000 c 251 § 3. Formerly RCW 43.30.420.]

43.30.835 Forest biomass demonstration projects. (1) The department may develop and implement forest biomass energy demonstration projects, one east of the crest of the Cascade mountains and one west of the crest of the Cascade mountains. The demonstration projects must be designed to:

(a) Reveal the utility of Washington’s public and private forest biomass feedstock;

(b) Create green jobs and generate renewable energy;

(c) Generate revenues or improve asset values for beneficiaries of state lands and state forest lands;

(d) Improve forest health, reduce pollution, and restore ecological function; and

(e) Avoid interfering with the current working area for forest biomass collection surrounding an existing fixed location biomass energy production site.
(2) To develop and implement the forest biomass energy demonstration projects, the department may form forest biomass energy partnerships or cooperatives.

(3) The forest biomass energy partnerships or cooperatives are encouraged to be public-private partnerships focused on convening the entities necessary to grow, harvest, process, transport, and utilize forest biomass to generate renewable energy. Particular focus must be given to recruiting and employing emerging technologies that can locally process forest biomass feedstock to create local green jobs and reduce transportation costs.

(4) The forest biomass energy partnerships or cooperatives may include, but are not limited to: Entrepreneurs or organizations developing and operating emerging technology to process forest biomass; industrial electricity producers; contractors capable of providing the local labor needed to collect, process, and transport forest biomass feedstocks; tribes; federal land management agencies; county, city, and other local governments; the department of community, trade, and economic development; state trust land managers; an organization dedicated to protecting and strengthening the jobs, rights, and working conditions of Washington’s working families; accredited research institution representatives; an industrial timber land manager; a small forest landowner; and a not-for-profit conservation organization. [2009 c 163 § 2.]

Findings—Intent—2009 c 163: "The legislature finds that forest biomass is an abundant and renewable byproduct of Washington’s forest land management. Forest biomass can be utilized to generate clean renewable energy.

In some Washington forests, residual forest biomass is burned on site or left to decompose. The lack of forest products markets in some areas means that standing forest biomass removed for forest health and wildfire risk reduction treatments must occur at substantial cost. Utilizing forest biomass to generate energy can reduce the greenhouse gases emitted by burning forest biomass.

The legislature further finds that the emerging forest biomass energy economy is challenged by: Not having a reliable supply of predictably priced forest biomass feedstock; shipping and processing costs; insufficient forest biomass processing infrastructure; and feedstock demand.

The legislature finds that making use of the state’s forest biomass resources for energy production may generate new revenues or increase asset values of state lands and state forest lands, protect forest land of all ownerships from severe forest health problems, stimulate Washington’s economy, create green jobs, and reduce Washington’s dependence on foreign oil.

It is the intent of the legislature to support forest biomass demonstration projects that employ promising processing technologies. The demonstration projects must emphasize public and private forest biomass feedstocks that are generated by products of current forest practices. The project must reveal ways to overcome the current impediments to the developing forest biomass energy economy, and ways to realize ecologically sustainable outcomes from that development." [2009 c 163 § 1.]

43.30.8351 Progress report. By December 2010, the department shall provide a progress report to the legislature regarding its efforts to develop, implement, and evaluate forest biomass energy demonstration projects and any other department initiatives related to forest biomass. The report may include an evaluation of:

(1) The status of the department’s abilities to secure funding, partners, and other resources for the forest biomass energy demonstration projects;

(2) The status of the biomass energy demonstration projects resulting from the department’s efforts;

(3) The status and, if applicable, additional needs of forest landowners within the demonstration project areas for estimating sustainable forest biomass yields and availability;

(4) Forest biomass feedstock supply and forest biomass market demand barriers, and how they can best be overcome including actions by the legislature and United States congress; and

(5) Sustainability measures that may be instituted by the state to ensure that an increasing demand for forest biomass feedstocks does not impair public resources or the ecological conditions of forests. [2009 c 163 § 3.]

Findings—Intent—2009 c 163: See note following RCW 43.30.835.

43.30.840 Grants or financing. For the purposes of implementing chapter 163, Law of 2009, the department may seek grants or financing from the federal government, industry, or philanthropists. [2009 c 163 § 4.]

43.31.455 SEED act—Definitions. The definitions in this section apply throughout RCW 43.31.450 through 43.31.475 unless the context clearly requires otherwise.

(1) "Department" means the department of commerce.

(2) "Director" means the director of the department of commerce.

(3) "Foster youth" means a person who is fifteen years of age or older who is a dependent of the department of social and health services; or a person who is at least fifteen years of age, but not more than twenty-three years of age, who was a dependent of the department of social and health services for at least twenty-four months after attaining thirteen years of age.

(4) "Individual development account" or "account" means an account established by contract between a low-income individual and a sponsoring organization for the benefit of the low-income individual and funded through periodic contributions by the low-income individual which are matched with contributions by or through the sponsoring organization.

(5) "Low-income individual" means a person whose household income is equal to or less than either:

(a) Eighty percent of the median family income, adjusted for household size, for the county or metropolitan statistical area where the person resides; or

(b) Two hundred percent of the federal poverty guidelines updated periodically in the federal register by the United States department of health and human services under the authority of 42 U.S.C. 9902(2).

(6) "Program" means the individual development account program established pursuant to RCW 43.31.450 through 43.31.475.
 effective July 1, 1994. 

43.31.522 Marketplace program—Definitions. Unless the context clearly requires otherwise, the definitions in this section apply throughout RCW 43.31.524: 

(1) "Department" means the department of commerce. 
(2) "Director" means the director of commerce. 
(3) "Local nonprofit organization" means a local nonprofit organization organized to provide economic development or community development services, including but not limited to associated development organizations, economic development councils, and community development corporations. [2009 c 565 § 29; 2005 c 136 § 17; 1993 c 280 § 46; 1990 c 57 § 2; 1989 c 417 § 2.]

Savings—Effective date—2005 c 136: See notes following RCW 43.168.020.

Finding—1990 c 57; 1989 c 417: "The legislature finds and declares that substantial benefits in increased employment and business activity can be obtained by assisting businesses in identifying opportunities to purchase the goods and services they need from Washington state suppliers rather than from out-of-state suppliers and in identifying new markets for Washington state firms to provide goods and services. The replacement of out-of-state imports with services and manufactured goods produced in-state can be an important source of economic growth in a local community especially in rural areas. Businesses in the state are often unaware that goods and services they purchase from out-of-state suppliers are available from in-state firms with substantial advantages in responsiveness, service, and price. Increasing the economic partnerships between businesses in Washington state can build bridges between urban and rural communities and can result in the identification of additional opportunities for successful economic development initiatives. Providing additional information to businesses regarding in-state sources of goods and services can be a particularly valuable component of revitalization strategies in economically distressed areas. The legislature finds and declares that it is the policy of the state to strengthen the economies of local communities by increasing the economic partnerships between in-state businesses and creating programs to assist businesses in identifying in-state sources of goods and services, and in addition to identify new markets for Washington firms to provide goods and services." [1990 c 57 § 1; 1989 c 417 § 1.]

Severability—1989 c 417: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1989 c 417 § 15.]

43.31.800 State international trade fairs—"Director" defined. "Director" as used in RCW 43.31.790 through 43.31.850 and **43.31.160 means the director of commerce. [2009 c 565 § 30; 1993 c 280 § 52; 1987 c 195 § 4; 1965 c 148 § 2.]

Reviser's note: *(1) RCW 43.31.790 was repealed by 1993 c 280 § 82, effective July 1, 1994.
** *(2) RCW 43.31.160 was amended by 1998 c 345 § 5, removing the reference to "director."

43.31.970 Electric vehicle infrastructure. The department of community, trade, and economic development must distribute to local governments model ordinances, model development regulations, and guidance for local governments for siting and installing electric vehicle infrastructure, and in particular battery charging stations, and appropriate handling, recycling, and storage of electric vehicle batteries and equipment, when available. The model ordinances, model development regulations, and guidance must be developed by a federal or state agency, or nationally recognized organizations with specific expertise in land-use regulations or electric vehicle infrastructure. 43.37.150 Financial responsibility. The fee is due and payable to the department as of the date of the issuance of the permit; however, if the applicant is able to give to the department satisfactory security for the payment of the balance, he or she may be permitted to commence the operation, and a permit may be issued therefor, upon the payment of not less than fifty percent of the fee. The balance due shall be paid within three months from the date of the termination of the operation as prescribed in the permit. Failure to pay a permit fee as required shall be grounds for suspension or revocation of the license of the delinquent permit holder and grounds for refusal to renew his or her license or to issue any further permits to such person. [2009 c 549 § 5116; 1973 c 64 § 13; 1965 c 8 § 43.37.160. Prior: 1957 c 245 § 16.]

(2) The department shall require written reports in such manner as it provides but not inconsistent with the provisions of this chapter, covering each operation for which a permit is issued. Further, the department shall require written reports from such organizations as are exempted from license, permit, and liability requirements as provided in RCW 43.37.090.

The director of financial management, after consultation with other interested or affected state agencies, shall establish overall policies governing the acquisition, operation, management, maintenance, repair, and disposal of, all passenger motor vehicles owned or operated by any state agency. Such policies shall include but not be limited to a definition of what constitutes authorized use of a state owned or controlled passenger motor vehicle and other motor vehicles on official state business. Any use other than such defined use shall be considered as personal use. By June 15, 2010, the director of the department of general administration, in consultation with the office and other interested or affected state agencies, shall develop strategies to reduce fuel consumption and emissions from all classes of vehicles. State agencies shall use these strategies to:

1. Phase in fuel economy standards for motor pools and leased vehicles to achieve an average fuel economy standard of thirty-six miles per gallon for passenger vehicle fleets by 2015;
2. Achieve an average fuel economy of forty miles per gallon for light duty passenger vehicles purchased after June 15, 2010; and

State agencies must report annually on the progress made to achieve the goals under subsections (1) through (3) of this section beginning October 31, 2011.

The department of general administration, in consultation with the office and other affected or interested agencies, shall develop a separate fleet fuel economy standard for all other classes of vehicles and report the progress made toward meeting the fuel consumption and emissions goals established by this section to the governor and the relevant legislative committees by December 1, 2012.

For the purposes of this section, light duty vehicles refers to cars, sport utility vehicles, and passenger vans. The following vehicles are excluded from the agency fleet average fuel economy calculation: Emergency response vehicles, passenger vans with a gross vehicle weight of eight thousand five hundred pounds or greater, vehicles that are purchased for off-pavement use, and vehicles that are driven less than two thousand miles per year. Average fuel economy calculations must be based upon the current United States environmental protection agency composite city and highway mile per gallon rating. (1) The office of financial management shall assist natural resource-related agencies in developing outcome-focused performance measures for administering natural resource-related and environmentally based grant and loan programs. These performance measures are to be used in determining grant eligibility, for program management and performance assessment.
(2) The office of financial management and the recreation and conservation office shall assist natural resource-related agencies in developing recommendations for a monitoring program to measure outcome-focused performance measures required by this section. Findings—Intent—Effective date—2009 c 345: See notes following RCW 77A.25.005.

Intent—Effective date—2007 c 241: See notes following RCW 43.41.360.

Findings—Intent—2001 c 227: "The legislature finds that the amount of overall requests for funding for natural resource-related programs in the capital budget has been steadily growing. The legislature also finds that there is an increasing interest by the public in examining the performance of the projects and programs to determine the return on their investments and that a coordinated and integrated response by state agencies will allow for better targeting of resources. The legislature further finds that there is a need to improve the data and the integration of data that is collected by state agencies and grant and loan recipients in order to better measure the outcomes of projects and programs. The legislature intends to begin implementing the recommendations contained in the joint legislative audit and review committee’s report number 01-1 on investing in the environment in order to improve the efficiency, effectiveness, and accountability of these natural resource-related programs funded in the state capital budget."

43.41.398 Enhanced salary allocation model for educator development and certification—Technical working group—Report and recommendation. (1) The legislature recognizes that providing students with the opportunity to access a world-class educational system depends on our continuing ability to provide students with access to world-class educators. The legislature also understands that continuing to attract and retain the highest quality educators will require increased investments. The legislature intends to enhance the current salary allocation model and recognizes that changes to the current model cannot be imposed without great deliberation and input from teachers, administrators, and classified employees. Therefore, it is the intent of the legislature to begin the process of developing an enhanced salary allocation model that is collaboratively designed to ensure the rationality of any conclusions regarding what constitutes adequate compensation.

(2) Beginning July 1, 2011, the office of financial management shall convene a technical working group to recommend the details of an enhanced salary allocation model that aligns state expectations for educator development and certification with the compensation system and establishes recommendations for a concurrent implementation schedule. In addition to any other details the technical working group deems necessary, the technical working group shall make recommendations on the following:

(a) How to reduce the number of tiers within the existing salary allocation model;

(b) How to account for labor market adjustments;

(c) How to account for different geographic regions of the state where districts may encounter difficulty recruiting and retaining teachers;

(d) The role of and types of bonuses available;

(3) As part of its work, the technical working group shall conduct or contract for a preliminary comparative labor market analysis of salaries and other compensation for school district employees to be conducted and shall include the results in any reports to the legislature. For the purposes of this subsection, "salaries and other compensation" includes average base salaries, average total salaries, average employee basic benefits, and retirement benefits.

(c) Collaborate with the legislative evaluation and accountability program committee and the education and fiscal committees of the legislature in identifying the data to be compiled and analyzed to ensure that legislative interests are served;

(d) Annually provide to the K-12 data governance group a list of data elements and data quality improvements that are necessary to answer the research and policy questions identified by the education data center and have been identified by the legislative committees in (c) of this subsection. Within three months of receiving the list, the K-12 data governance group shall develop and transmit to the education data center a feasibility analysis of obtaining or improving the data, including the steps required, estimated time frame, and the financial and other resources that would be required. Based on the analysis, the education data center shall submit, if necessary, a recommendation to the legislature regarding any statutory changes or resources that would be needed to collect or improve the data;

(e) Monitor and evaluate the education data collection systems of the organizations and agencies represented in the education data center ensuring that data systems are flexible, able to adapt to evolving needs for information, and to the extent feasible and necessary, include data that are needed to conduct the analyses and provide answers to the research and policy questions identified in (a) of this subsection;

(f) Track enrollment and outcomes through the public centralized higher education enrollment system;

(g) Assist other state educational agencies’ collaborative efforts to develop a long-range enrollment plan for higher education including estimates to meet demographic and workforce needs;

43.42.005 Findings—Intent. (1) The legislature finds that: The health and safety of its citizens and environment are of vital interest to the state’s long-term quality of life; Washington state is a national leader in protecting its environment; and Washington state has a vibrant and diverse economy that is dependent on the state maintaining high environmental standards. Further, the legislature finds that a complex and confusing network of environmental and land use laws and business regulations can create obstacles to sustainable growth.

It is the intent of the legislature to promote accountability, timeliness, and predictability for citizens, business, and state, federal, and local permitting agencies, and to provide information and assistance on the regulatory process through the creation of the office of regulatory assistance in the governor’s office.

(2) The office of regulatory assistance is created to work to continually improve the function of environmental and business regulatory processes by identifying conflicts and overlap in the state’s rules, statutes, and operational practices; the office is to provide project proponents and business owners with active assistance for all permitting, licensing, and other regulatory procedures required for completion of specific projects; and the office is to ensure that citizens, businesses, and local governments have access to, and clear information regarding, regulatory processes for permitting and business regulation, including state rules, permit and license requirements, and agency rule-making processes.

(3) The legislature declares that the purpose of this chapter is to provide direction and practical resources for improving the regulatory process and for assistance through regulatory processes on individual projects in furtherance of the state’s goals of governmental transparency and accountability.

(4) The legislature intends that establishing an office of regulatory assistance will provide these services without abrogating or limiting the authority of any agency to make decisions on permits, licenses, regulatory requirements, or agency rule making. The legislature further intends that the office of regulatory assistance shall have authority to provide services but shall not have any authority to make decisions on permits. [2009 c 97 § 1; 2007 c 94 § 1; 2003 c 71 § 1; 2002 c 153 § 1.]

Reviser’s note—Sunset Act application: The office of regulatory assistance is subject to review, termination, and possible extension under chapter 43.131 RCW, the Sunset Act. See RCW 43.131.401. RCW 43.42.005 through 43.42.070, 43.42.900, and 43.42.901 are scheduled for future repeal under RCW 43.131.402.

Effective date—2003 c 71 § 2: "Section 2 of this act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately [April 18, 2003]." [2003 c 71 § 7.]

43.42.060 Fully coordinated permit process—Requirements—Procedure. (1) A project proponent may submit a written request to the director of the office for participation in a fully coordinated permit process. Designation as a fully coordinated project requires that:

(a) The project proponent enters into a cost-reimbursement agreement pursuant to RCW 43.42.070;

(b) The project has a designation under chapter 43.157 RCW; or

(c) The director determine that (i)(A) the project raises complex coordination, permit processing, or substantive permit review issues; or (B) if completed, the project would provide substantial benefits to the state; and (ii) the office, as well as the participating permit review agencies, have sufficient capacity within existing resources to undertake the full coordination process without reimbursement and without seriously affecting other services.

(2) A project proponent who requests designation as a fully coordinated permit process project must provide the office with a full description of the project. The office may request any information from the project proponent that is necessary to make the designation under this section, and may convene a scoping meeting or a work plan meeting of the likely participating permit agencies.

(3) When a project is designated for the fully coordinated permit process, the office shall serve as the main point of contact for the project proponent and participating agencies with regard to the permit process for the project as a whole. The office shall keep an up-to-date project management log and schedule illustrating required procedural steps in the permitting process, and highlighting substantive issues as appropriate that must be resolved in order for the project to move forward. In carrying out these responsibilities, the office shall:

(a) Ensure that the project proponent has been informed of all the information needed to apply for the permits that are included in the coordinated permit process;

(b) Coordinate the timing of review for those permits by the respective participating permit agencies;

(c) Facilitate communication between project proponents, consultants, and agency staff to promote timely permit decisions;

(d) Assist in resolving any conflict or inconsistency among the permit requirements and conditions that are expected to be imposed by the participating permit agencies; and

(e) Make contact, at least once, with any local, tribal, or federal jurisdiction that is responsible for issuing a permit for the project and invite them to participate in the coordinated permit process or to receive periodic updates in the project.

(4) Within thirty days, or longer with agreement of the project proponent, of the date that the office designates a project for the fully coordinated permit process, it shall convene a work plan meeting with the project proponent and the participating permit agencies to develop a coordinated permit process schedule. The meeting agenda shall include at least the following:

(a) Review of the permits that are required for the project;

(b) A review of the permit application forms and other application requirements of the agencies that are participating in the coordinated permit process;

(c) An estimation of the timelines that will be used by each participating permit agency to make permit decisions, including the estimated time periods required to determine if the permit applications are complete and to review or respond to each application or submittal of new information.

(i) The estimation must also include the estimated number of revision cycles for the project, or the typical number of revision cycles for projects of similar size and complexity.

(ii) In the development of this timeline, full attention shall be given to achieving the maximum efficiencies possible through concurrent studies and consolidated applications, hearings, and comment periods.

(iii) Estimated action or response times for activities of the office that are required before or trigger further action by a participant must also be included;

(d) Available information regarding the timing of any public hearings that are required to issue permits for the project and a determination of the feasibility of coordinating or consolidating any of those required public hearings; and

(e) A discussion of fee arrangements for the coordinated permit process, including an estimate of the costs allowed by statute, any reimbursable agency costs, and billing schedules, if applicable.

(5) Each agency shall send at least one representative qualified to discuss the applicability and timelines associated with all permits administered by that agency or jurisdiction. At the request of the project proponent, the office shall notify any relevant local or federal agency or federally recognized Indian tribe of the date of the meeting and invite that agency’s participation in the process.

(6) Any accelerated time period for the consideration of a permit application shall be consistent with any statute, rule, or regulation, or adopted state policy, standard, or guideline.
43.42.070 Cost-reimbursement agreements. (1) The office may enter into cost-reimbursement agreements with a project proponent to recover from the project proponent the reasonable costs incurred by the office in carrying out the provisions of RCW 43.42.050. The agreement shall include the permit agencies that are participating in the cost-reimbursement project and carrying out permit processing tasks referenced in the agreement.

(2) The office shall maintain policies or guidelines for coordinating cost-reimbursement agreements with participating agencies, project proponents, and outside independent consultants. Policies or guidelines must ensure that, in developing cost-reimbursement agreements, conflicts of interest are eliminated. Contracts with independent consultants hired by the office under this section must be based on competitive bids that are awarded for each agreement from a prequalified consultant roster.

(3) For fully coordinated permit processes, the office shall coordinate the negotiation of all cost-reimbursement agreements executed under RCW 43.21A.690, 43.30.490, 43.70.630, 43.300.080, and 70.94.085. The office, project proponent, and the permit agencies shall be signatories to the agreement or agreements. Each permit agency shall manage performance of its portion of the agreement. Independent consultants hired under a cost-reimbursement agreement shall report directly to the hiring office or permit agency. Any cost-reimbursement agreement must require that final decisions are made by the permit agency and not by a hired consultant.

(4) For a fully coordinated project using cost reimbursement, the office and participating permit agencies shall include a cost-reimbursement work plan, including deliverables and schedules for invoicing and reimbursement in the fully coordinated project work plan described in RCW 43.42.060. Upon request, the office shall verify that the agencies have met the obligations contained in the cost-reimbursement work plan and agreement. The cost-reimbursement agreement shall identify the tasks of each agency and the maximum costs for work conducted under the agreement. The agreement must include a schedule that states:

(a) The estimated number of weeks for initial review of the permit application for comparable projects;
(b) The anticipated number of revision cycles;
(c) The estimated number of weeks for review of subsequent revision submittals;
(d) The estimated number of billable hours of employee time;
(e) The rate per hour; and
(f) A process for revision of the agreement if necessary.

(5) If a permit agency or the project proponent foresees, at any time, that it will be unable to meet its obligations under the cost-reimbursement agreement and fully coordinated project work plan, it shall notify the office and state the reasons, along with proposals for resolving the problems and potentially amending the timelines. The office shall notify the participating permit agencies and the project proponent and, upon agreement of all parties, adjust the schedule, or, if necessary, schedule another work plan meeting.

(8) The project proponent may withdraw from the coordinated permit process by submitting to the office a written request that the process be terminated. Upon receipt of the request, the office shall notify each participating permit agency that a coordinated permit process is no longer applicable to the project. [2009 c 421 § 8; 2009 c 97 § 6; 2007 c 94 § 7; 2003 c 54 § 5; 2002 c 153 § 7.]

Reviser’s note: This section was amended by 2009 c 97 § 6 and by 2009 c 421 § 8, each without reference to the other. Both amendments are incorporated in the publication of this section under RCW 1.12.025(2). For rule of construction, see RCW 1.12.025(1).

Effective date—2009 c 421: See note following RCW 43.157.005.

43.42.902 Authority of participating permit agency retained. This chapter shall not be construed to limit or abridge the powers and duties granted to a participating permit agency under the law that authorizes or requires the agency to issue a permit for a project. Each participating permit agency shall retain its authority to make all decisions on all nonprocedural matters with regard to the respective component permit that is within its scope of its responsibility including, but not limited to, the determination of permit application completeness, permit approval or approval with conditions, or permit denial. The office may not substitute its judgment for that of a participating permit agency on any such nonprocedural matters. [2009 c 97 § 13.]

[2009 c 108 § 1.]

Disability of patrol officers. (1) The chief of the Washington state patrol shall relieve from active duty Washington state patrol officers who, while in the performance of their official duties, or while on standby or available for duty, have been or hereafter may be injured or incapacitated to such an extent as to be mentally or physically incapable of active service: PROVIDED, That:

(a) Any officer disabled while performing line duty who is found by the chief to be physically incapacitated shall be placed on disability leave for a period not to exceed six months from the date of injury or the date incapacitated. During this period, the officer shall be entitled to all pay, benefits, insurance, leave, and retirement contributions awarded to an officer on active status, less any compensation received through the department of labor and industries. The failure of any officer to file the required statement of earnings shall be cause for cancellation of retirement benefits.

43.43.271 Retirement allowances—Members com-
missoned on or after January 1, 2003—Court-approved
property settlement. (1) A member commissioned on or
after January 1, 2003, upon retirement for service as pre-
scribed in RCW 43.43.250 shall elect to have the retirement
allowance paid pursuant to the following options, calculated
so as to be actuarially equivalent to each other.

(a) Standard allowance. A member electing this option
shall receive a retirement allowance payable throughout the
member’s life. However, if the retiree dies before the total of
the retirement allowance paid to the retiree equals the amount
of the retiree’s accumulated contributions at the time of
retirement, then the balance shall be paid to the member’s
estate, or such person or persons, trust, or organization as the
retiree shall have nominated by written designation duly exe-
cuted and filed with the department; or if there be no such
designated person or persons still living at the time of the
retiree’s death, then to the surviving spouse or domestic part-
ner; or if there be neither such designated person or persons
still living at the time of death nor a surviving spouse or
domestic partner, then to the retiree’s legal representative.

(b) The department shall adopt rules that allow a member
to select a retirement option that pays the member a reduced
retirement allowance and upon death, such portion of the
member’s reduced retirement allowance as the department by
rule designates shall be continued throughout the life of and
paid to a designated person. Such person shall be nominated
by the member by written designation duly executed and
filed with the department at the time of retirement. The
options adopted by the department shall include, but are not
limited to, a joint and one hundred percent survivor option
and a joint and fifty percent survivor option.

(2) (a) A member, if married or in a domestic partnership,
must provide the written consent of his or her spouse or
domestic partner to the option selected under this section,
except as provided in (b) of this subsection. If a member is
married or in a domestic partnership and both the member
and member’s spouse or domestic partner do not give written
consent to an option under this section, the department will
pay the member a joint and fifty percent survivor benefit and
record the member’s spouse or domestic partner as the bene-
iciary. This benefit shall be calculated to be actuarially
equivalent to the benefit options available under subsection
(1) of this section unless consent by the spouse or domestic
partner is not required as provided in (b) of this subsection.

(b) If a copy of a dissolution order designating a survivor
beneficiary under RCW 41.50.790 has been filed with the
department at least thirty days prior to a member’s retire-
ment:

(i) The department shall honor the designation as if made
by the member under subsection (1) of this section; and
(ii) The spouse or domestic partner consent provisions of
(a) of this subsection do not apply.

(3) No later than January 1, 2003, the department shall
adopt rules that allow a member additional actuarially equiv-
alent survivor benefit options, and shall include, but are not
limited to:

(a)(i) A retired member who retired without designating
a survivor beneficiary shall have the opportunity to designate
their spouse or domestic partner from a postretirement mar-
riage or domestic partnership as a survivor during a one-year
period beginning one year after the date of the postretirement
marriage or domestic partnership provided the retirement
allowance payable to the retiree is not subject to periodic pay-
ments pursuant to a property division obligation as provided for
in RCW 41.50.670.

(ii) A member who entered into a postretirement mar-
rriage or domestic partnership prior to the effective date of the
rules adopted pursuant to this subsection and satisfies the
conditions of (a)(i) of this subsection shall have one year to
designate their spouse or domestic partner as a survivor ben-
eficiary following the adoption of the rules.

(b) A retired member who elected to receive a reduced
retirement allowance under this section and designated a non-
spouse or a nondomestic partner as survivor beneficiary shall
have the opportunity to remove the survivor designation and
have their future benefit adjusted.

(c) The department may make an additional charge, if
necessary, to ensure that the benefits provided under this sub-
section remain actuarially equivalent.

(4) No later than July 1, 2003, the department shall adopt
rules to permit:

(a) A court-approved property settlement incident to a
court decree of dissolution made before retirement to provide
that benefits payable to a member who has completed at least
five years of service and the member’s divorcing spouse or
former domestic partner be divided into two separate benefits
payable over the life of each spouse or domestic partner.

(b) The department shall have available the benefit options of
subsection (1) of this section upon retirement, and if remar-
ried or in a domestic partnership at the time of retirement
remains subject to the spouse or domestic partner consent
requirements of subsection (2) of this section. Any reduc-
tions of the member’s benefit subsequent to the division into
two separate benefits shall be made solely to the separate
benefit of the member.

The nonmember ex spouse or former domestic partner
shall be eligible to commence receiving their separate benefit
upon reaching the ages provided in RCW 43.43.250(2) and
after filing a written application with the department.

(b) A court-approved property settlement incident to a
court decree of dissolution made after retirement may only
divide the benefit into two separate benefits payable over the
life of each spouse or domestic partner if the nonmember ex
spouse or former domestic partner was selected as a survivor
beneficiary at retirement.

The retired member may later choose the survivor ben-
efit options available in subsection (3) of this section. Any
actuarial reductions subsequent to the division into two sepa-
rate benefits shall be made solely to the separate benefit of
the member.

Both the retired member and the nonmember divorced
spouse or former domestic partner shall be eligible to com-
ence receiving their separate benefits upon filing a copy of
the dissolution order with the department in accordance with RCW 41.50.670.

(c) The department may make an additional charge or adjustment if necessary to ensure that the separate benefits provided under this subsection are actuarially equivalent to the benefits payable prior to the decree of dissolution. [2009 c 522 § 4; 2003 c 294 § 14; 2002 c 158 § 16; 2001 c 329 § 5.]

43.52.374 Operating agency executive board—Members—Terms—Removal—Rules—Proceedings—Managing director—Civil immunities—Defense and indemnification. (1) With the exception of the powers and duties of the board of directors described in RCW 43.52.370(2), the management and control of an operating agency constructing, operating, terminating, or decommissioning a nuclear power plant under a site certification agreement under chapter 80.50 RCW is vested in an executive board established under this subsection and consisting of eleven members.

(a) Five members of the executive board shall be elected to four-year terms by the board of directors from among the members of the board of directors. The board of directors may provide by rule for the composition of the five members of the executive board elected from among the members of the board of directors so as to reflect the member public utility districts’ and cities’ participation in the joint operating agency’s projects. Members elected to the executive board from the board of directors are ineligible for continued membership on the executive board if they cease to be members of the board of directors. The board of directors may also provide by rule for the removal of a member of the executive board, except for the outside directors. Members of the board of directors may be elected to serve successive terms on the executive board. Members elected to the executive board from the board of directors shall receive a salary from the operating agency at a rate set by the board of directors.

(b) Six members of the executive board shall be outside directors. Three shall be selected and appointed by the board of directors, and three shall be selected and appointed by the governor and confirmed by the senate. All outside directors shall:

(i) Serve four-year terms on the executive board. However, of the initial members of the executive board, the board of directors and the governor shall each appoint one outside director to serve a two-year term, one outside director to serve a three-year term, and one outside director to serve a four-year term. Thereafter, all outside directors shall be appointed for four-year terms. All outside directors are eligible for reappointment;

(ii) Receive travel expenses on the same basis as the five members elected from the board of directors. The outside directors shall also receive a salary from the operating agency as fixed by the governor;

(iii) Not be an officer or employee of, or in any way affiliated with, the Bonneville power administration or any electric utility conducting business in the states of Washington, Oregon, Idaho, or Montana;

(iv) Not be involved in the financial affairs of the operating agency as an underwriter or financial adviser of the operating agency or any of its members or any of the participants in any of the operating agency’s plants; and

(v) Be representative of policy makers in business, finance, or science, or have expertise in the construction or management of such facilities as the operating agency is constructing or operating, or have expertise in the termination, disposition, or liquidation of corporate assets.

(c) The governor may remove outside directors from the executive board for incompetency, misconduct, or malfeasance in office in the same manner as state appointive officers under chapter 43.06 RCW. For purposes of this subsection, misconduct shall include, but not be limited to, nonfeasance and misfeasance.

(2) Nothing in this chapter shall be construed to mean that an operating agency is in any manner an agency of the state. Nothing in this chapter alters or destroys the status of an operating agency as a separate municipal corporation or makes the state liable in any way or to any extent for any pre-existing or future debt of the operating agency or any present or future claim against the agency.

(3) The eleven members of the executive board shall be selected with the objective of establishing an executive board which has the resources to effectively carry out its responsibilities. All members of the executive board shall conduct their business in a manner which in their judgment is in the interest of all ratepayers affected by the joint operating agency and its projects.

The executive board shall adopt rules for the conduct of its meetings and the carrying out of its business. All proceedings shall be by motion or resolution and shall be recorded in the minute book, which shall be a public record. A majority of the executive board shall constitute a quorum for the transaction of business.

(a) The board of directors shall elect five members to the executive board no later than sixty days after April 20, 1982; and

(b) The board of directors and the governor shall select and appoint the initial outside directors and the executive board shall hold its organizational meeting no later than sixty days after April 20, 1982, and the powers and duties prescribed in this chapter shall devolve upon the executive board at that time.

[2009 RCW Supp—page 826]
(6) The executive board shall select and employ a managing director of the operating agency and may delegate to the managing director such authority for the management and control of the operating agency as the executive board deems appropriate. The managing director's employment is terminable at the will of the executive board.

(7) Members of the executive board shall be immune from civil liability for mistakes and errors of judgment in the good faith performance of acts within the scope of their official duties involving the exercise of judgment and discretion. This grant of immunity shall not be construed as modifying the liability of the operating agency.

The operating agency shall undertake the defense of and indemnify each executive board member made a party to any civil proceeding including any threatened, pending, or completed action, suit, or proceeding, whether civil, administrative, or investigative, by reason of the fact he or she is or was a member of the executive board, against judgments, penalties, fines, settlements, and reasonable expenses, actually incurred by him or her in connection with such proceeding if he or she had conducted himself or herself in good faith and reasonably believed his or her conduct to be in the best interest of the operating agency.

(2) All pending business before a board of directors or executive board or committee which is replaced by the executive board created in section 3 of this act shall be continued and acted upon by the new executive board.

(3) This act shall not be construed to alter:
(a) Any existing rights acquired under laws relating to operating agencies;
(b) The status of any actions, activities, or civil or criminal proceedings of any existing operating agencies;
(c) The status of any collective bargaining agreements, indebtedness, contracts, or other obligations;
(d) Any valid resolutions, covenants, or agreements between an operating agency and members, participants in any electric generating facility, privately owned public utilities, or agencies of the federal government; or

The treasurer shall be the chief financial officer of the operating agency, who shall report at least annually to the board a detailed statement of the financial condition of the operating agency and of its financial operations for the preceding fiscal year. The treasurer shall advise the board on all matters affecting the financial condition of the operating agency.

Before entering upon his or her duties the treasurer shall give bond to the operating agency, with a surety company authorized to write such bonds in this state as surety, in an amount which the board finds by resolution will protect the operating agency against loss, conditioned that all funds which he or she receives as such treasurer will be faithfully kept and accounted for and for the faithful discharge of his or her duties. The amount of such bond may be decreased or increased from time to time as the board may by resolution direct.

(2) The board shall also appoint an auditor and may require him or her to give a bond with a surety company authorized to do business in the state of Washington in such amount as it shall by resolution prescribe, conditioned for the faithful discharge of his or her duties. The auditor shall report directly to the board and be responsible to it for discharging his or her duties.

(3) The premiums on the bonds of the auditor and the treasurer shall be paid by the operating agency. The board may provide for coverage of said officers and other persons on the same bond.

(4) All funds of the joint operating agency shall be paid to the treasurer and shall be disbursed by the treasurer only on checks or warrants issued by the auditor upon orders or vouchers approved by the board: PROVIDED, That the board by resolution may authorize the managing director or any other bonded officer or employee as legally permissible to approve or disapprove vouchers presented to defray salaries of employees and other expenses of the operating agency arising in the usual and ordinary course of its business, including expenses incurred by the board of directors, its executive committee, or the executive board in the performance of their duties. All moneys of the operating agency shall be deposited forthwith by the treasurer in such depositories, and with such securities as are designated by rules of the board. The treasurer shall establish a general fund and such special funds as shall be created by the board, into which he or she shall place all money of the joint operating agency as the board by resolution or motion may direct.

43.59.010 Purpose—Finding. (1) The purpose of this
chapter is to establish a new agency of state government to be
known as the Washington traffic safety commission. The
functions and purpose of this commission shall be to find
solutions to the problems that have been created as a result of
the tremendous increase of motor vehicles on our highways
and the attendant traffic death and accident tolls; to plan and
supervise programs for the prevention of accidents on streets
and highways including but not limited to educational cam-
paigns designed to reduce traffic accidents in cooperation
with all official and unofficial organizations interested in
traffic safety; to coordinate the activities at the state and local
level in the development of statewide and local traffic safety
programs; to promote a uniform enforcement of traffic safety
laws and establish standards for investigation and reporting
of traffic accidents; to promote and improve driver education;
and to authorize the governor to perform all functions
required to be performed by him or her under the federal
731).

(2) The legislature finds and declares that bicycling and
walking are becoming increasingly popular in Washington as
clean and efficient modes of transportation, as recreational
activities, and as organized sports. Future plans for the
state’s transportation system will require increased access
and safety for bicycles and pedestrians on our common road-
ways, and federal transportation legislation and funding pro-
grams have created strong incentives to implement these
changes quickly. As a result, many more people are likely to
take up bicycling in Washington both as a leisure activity and
as a convenient, inexpensive form of transportation. Bicy-
clists are more vulnerable to injury and accident than motor-
ists, and should be as knowledgeable as possible about traffic
laws, be highly visible and predictable when riding in traffic,
and be encouraged to wear bicycle safety helmets. Hundreds
of bicyclists and pedestrians are seriously injured every year
in accidents, and millions of dollars are spent on health care
costs associated with these accidents. There is clear evidence
that organized training in the rules and techniques of safe and
effective cycling can significantly reduce the incidence of
serious injury and accidents, increase cooperation among
road users, and significantly increase the incidence of bicycle
helmet use, particularly among minors. A reduction in acci-
dents benefits the entire community. Therefore it is appropri-
ate for businesses and community organizations to provide
donations to bicycle and pedestrian safety training programs.

43.59.030 Members of commission—Appointment—
Vacancies—Governor’s designee to act during gover-
nor’s absence. The governor shall be assisted in his or her
duties and responsibilities by the Washington state traffic
safety commission. The Washington traffic safety commis-
sion shall be composed of the governor as chair, the superin-
tendent of public instruction, the director of licensing, the
secretary of transportation, the chief of the state patrol, the
secretary of health, the secretary of social and health services,
a representative of the association of Washington cities to be appointed by the governor, a member of the association of counties to be appointed by the governor, and a representative of the judiciary to be appointed by the governor. Appointments to any vacancies among appointee members shall be as in the case of original appointment.

The governor may designate an employee of the governor’s office to act on behalf of the governor during the absence of the governor at one or more of the meetings of the commission. The vote of the designee shall have the same effect as if cast by the governor if the designation is in writing and is presented to the person presiding at the meetings included within the designation.

The governor may designate a member to preside during the governor’s absence. [2009 c 549 § 5142; 1991 c 3 § 298; 1982 c 30 § 1; 1979 c 158 § 105; 1971 ex.s. c 85 § 7; 1969 ex.s. c 105 § 1; 1967 ex.s. c 147 § 3.]

Intent—Finding—2007 c 384: See note following RCW 72.09.495.

43.63A.125 Nonresidential social services facilities—Building communities fund program—Assistance to nonprofit organizations—Competitive process—Recommendations to legislature for funding. (Effective until June 30, 2011.) (1) The department shall establish the building communities fund program. Under the program, capital and technical assistance grants may be made to nonprofit organizations for acquiring, constructing, or rehabilitating facilities used for the delivery of nonresidential community services, including social service centers and multipurpose community centers, including those serving a distinct or ethic population. Such facilities must be located in a distressed community or serve a substantial number of low-income or disadvantaged persons.

(2) The department shall establish a competitive process to solicit, evaluate, and rank applications for the building communities fund program as follows:

(a) The department shall conduct a statewide solicitation of project applications from nonprofit organizations.

(b) The department shall evaluate and rank applications in consultation with a citizen advisory committee using objective criteria. To be considered qualified, applicants must demonstrate that the proposed project:

(i) Will increase the range, efficiency, or quality of the services provided to citizens;

(ii) Will be located in a distressed community or will serve a substantial number of low-income or disadvantaged persons;

(iii) Will offer three or more distinct activities that meet a single community service objective or a diverse set of activities that meet multiple community service objectives, including but not limited to: Providing social services; expanding employment opportunities for or increasing the employability of community residents; or offering educational or recreational opportunities separate from the public school system or private schools, as long as recreation is not the sole purpose of the facility;

(iv) Reflects a long-term vision for the development of the community, shared by residents, businesses, leaders, and partners;

(v) Requires state funding to accomplish a discrete, usable phase of the project;

(vi) Is ready to proceed and will make timely use of the funds;

(vii) Is sponsored by one or more entities that have the organizational and financial capacity to fulfill the terms of the grant agreement and to maintain the project into the future;

(viii) Fills an unmet need for community services;

(ix) Will achieve its stated objectives; and

(x) Is a community priority as shown through tangible commitments of existing or future assets made to the project by community residents, leaders, businesses, and government partners.

(c) The evaluation process shall also include an examination of existing assets that applicants may apply to projects.

Grant assistance under this section shall not exceed twenty-five percent of the total cost of the project, except, under exceptional circumstances, the department may reduce the amount of nonstate match required. The nonstate portion of the total project cost may include cash, the value of real property when acquired solely for the purpose of the project, and in-kind contributions.

(d) The department may not set a monetary limit to funding requests.

(e) No more than ten percent of the total granted amount may be awarded to qualified eligible projects that meet the definition of exceptional circumstances defined in this subsection. For purposes of this subsection, exceptional circumstances include but are not limited to: Natural disasters affecting projects; emergencies beyond an applicant’s control, such as a fire or an unanticipated loss of a lease where services are currently provided; a delay that could result in a threat to public health or safety; or instances where a local community could quantifiably demonstrate that they had exhausted all possible fund-raising efforts.

(3) The department shall submit biennially to the governor and the legislature in the department’s capital budget request a ranked list of the qualified eligible projects for which applications were received. The list must include a description of each project, its total cost, and the amount of state funding requested. The appropriate fiscal committees of the legislature shall use this list to determine building communities fund projects that may receive funding in the capital budget. The total amount of state capital funding available for all projects on the biennial list shall be determined by the capital budget beginning with the 2009-2011 biennium and thereafter. In addition, if cash funds have been appropriated, up to three million dollars may be used for technical assistance grants. The department shall not sign contracts or otherwise financially obligate funds under this section until the legislature has approved a specific list of projects.

(4) In addition to the list of ranked qualified eligible projects, the department shall submit to the appropriate fiscal committees of the legislature a summary report that describes the solicitation and evaluation processes, including but not limited to the number of applications received, the total amount of funding requested, issues encountered, if any, and any recommendations for process improvements.

(5) After the legislature has approved a specific list of projects in law, the department shall develop and manage appropriate contracts with the selected applicants; monitor project expenditures and grantee performance; report project and contract information; and exercise due diligence and other contract management responsibilities as required.

(6) In contracts for grants authorized under this section the department shall include provisions which require that capital improvements shall be held by the grantee for a specified period of time appropriate to the amount of the grant and that facilities shall be used for the express purpose of the grant. If the grantee is found to be out of compliance with provisions of the contract, the grantee shall repay to the state general fund the principal amount of the grant plus interest calculated at the rate of interest on state of Washington general obligation bonds issued most closely to the date of authorization of the grant. 43.63A.305 Independent youth housing program—Created—Collaboration with the department of social and health services—Duties of subcontractor organizations. (1) The independent youth housing program is created in the department to provide housing stipends to eligible youth to be used for independent housing. In developing a plan for the design, implementation, and operation of the independent youth housing program, the department shall:

(a) Adopt policies, requirements, and procedures necessary to administer the program;

(b) Contract with one or more eligible organizations described under RCW 43.185A.040 to provide services and conduct administrative activities as described in subsection (3) of this section;

(c) Establish eligibility criteria for youth to participate in the independent youth housing program, giving priority to youth who have been dependents of the state for at least one year;

(d) Refer interested youth to the designated subcontractor organization administering the program in the area in which the youth intends to reside;

(e) Develop a method for determining the amount of the housing stipend, first and last month’s rent, and security deposit, where applicable, to be dedicated to participating youth. The method for determining a housing stipend must take into account a youth’s age, the youth’s total income from all sources, the fair market rent for the area in which the youth lives or intends to live, and a variety of possible living situations for the youth. The amount of housing stipends must be adjusted, by a method and formula established by the department, to promote the successful transition for youth to complete housing self-sufficiency over time;

(f) Ensure that the independent youth housing program is integrated and aligned with other state rental assistance and case management programs operated by the department, as well as case management and supportive services programs, including the independent living program, the transitional living program, and other related programs offered by the department of social and health services; and

(g) Consult with the department of social and health services and other stakeholders involved with dependent youth, homeless youth, and homeless young adults, as appropriate.

(2) The department of social and health services shall collaborate with the department in implementing and operating the independent youth housing program including, but not limited to, the following:

(a) Refer potential eligible youth to the department before the youth’s eighteenth birthday, if feasible, to include an indication, if known, of where the youth plans to reside after aging out of foster care;

(b) Provide information to all youth aged fifteen or older, who are dependents of the state under chapter 13.34 RCW, about the independent youth housing program, encouraging dependents nearing their eighteenth birthday to consider applying for enrollment in the program;

(c) Encourage organizations participating in the independent living program and the transitional living program to collaborate with independent youth housing program providers whenever possible to capitalize on resources and provide the greatest amount of and variety of services to eligible youth;

(d) Annually provide to the department data reflecting changes in the percentage of youth aging out of the state dependency system each year who are eligible for state assistance, as well as any other data and performance measures that may assist the department to measure program success;

(e) Annually, beginning by December 31, 2007, provide to the appropriate committees of the legislature and the interagency council on homelessness as described under RCW 43.185C.170 recommendations of strategies to reach the goals described in RCW 43.63A.311(2)(g).

(3) Under the independent youth housing program, subcontractor organizations shall:

(a) Use moneys awarded to the organizations for housing stipends, security deposits, first and last month’s rent stipends, case management program costs, and administrative costs. When subcontractor organizations determine that it is necessary to assist participating youth in accessing and maintaining independent housing, subcontractor organizations may also use moneys awarded to pay for professional mental health services and tuition costs for court-ordered classes and programs;

(i) Administrative costs for each subcontractor organization may not exceed twelve percent of the estimated total annual grant amount to the subcontractor organization;

(ii) All housing stipends, security deposits, and first and last month’s rent stipends must be payable only to a landlord or housing manager of any type of independent housing;

(b) Enroll eligible youth who are referred by the department and who choose to reside in their assigned service area;

(c) Enter eligible youth program participants into the homeless client management information system as described in RCW 43.185C.180;

(d) Monitor participating youth’s housing status;

(e) Evaluate participating youth’s eligibility and compliance with department policies and procedures at least twice a year;

(f) Assist participating youth to develop or update an independent living plan focused on obtaining and retaining independent housing or collaborate with a case manager with whom the youth is already involved to ensure that the youth has an independent living plan;

(g) Educate participating youth on tenant rights and responsibilities;

(h) Provide support to participating youth in the form of general case management and information and referral services, when necessary, or collaborate with a case manager whenever possible to capitalize on resources and provide the greatest amount of and variety of services to eligible youth;

(i) Develop a method for determining the amount of the housing stipend, first and last month’s rent, and security deposit, where applicable, to be dedicated to participating youth. The method for determining a housing stipend must take into account a youth’s age, the youth’s total income from all sources, the fair market rent for the area in which the youth lives or intends to live, and a variety of possible living situations for the youth. The amount of housing stipends must be adjusted, by a method and formula established by the department, to promote the successful transition for youth to complete housing self-sufficiency over time;

(j) Ensure that the independent youth housing program is integrated and aligned with other state rental assistance and case management programs operated by the department, as well as case management and supportive services programs, including the independent living program, the transitional living program, and other related programs offered by the department of social and health services; and

(k) Consult with the department of social and health services and other stakeholders involved with dependent youth, homeless youth, and homeless young adults, as appropriate.
with whom the youth is already involved to ensure that the youth is receiving the case management and information and referral services needed;

(i) Connect participating youth, when possible, with individual development account programs, other financial literacy programs, and other programs that are designed to help young people acquire economic independence and self-sufficiency, or collaborate with a case manager with whom the youth is already involved to ensure that the youth is receiving information and referrals to these programs, when appropriate;

(j) Submit expenditure and performance reports, including information related to the performance measures in RCW 43.63A.311, to the department on a time schedule determined by the department; and

(k) Provide recommendations to the department regarding program improvements and strategies that might assist the state to reach its goals as described in RCW 43.63A.311(2)(g). [2009 c 148 § 1; 2007 c 316 § 3.]

Finding—2007 c 316: "(1) The legislature finds that providing needy youth aging out of the state dependency system with safe and viable options for housing to avoid homelessness confers a valuable benefit on the public that is intended to improve public health, safety, and welfare.

(2) It is the goal of this state to:

(a) Ensure that all youth aging out of the state dependency system have access to a decent, appropriate, and affordable home in a healthy safe environment to prevent such young people from experiencing homelessness; and

(b) Reduce each year the percentage of young people eligible for state assistance upon aging out of the state dependency system." [2007 c 316 § 1.]

The institute shall issue a report containing its preliminary findings to the legislature by the department on a time schedule determined by the department; and

(k) Provide recommendations to the department regarding program improvements and strategies that might assist the state to reach its goals as described in RCW 43.63A.311(2)(g). [2009 c 148 § 1; 2007 c 316 § 3.]

43.70.050 Collection, use, and accessibility of health-related data. (1) The legislature intends that the department and board promote and assess the quality, cost, and accessibility of health care throughout the state as their roles are specified in chapter 9, Laws of 1989 1st ex. sess. in accordance with the provisions of this chapter. In furtherance of this goal, the secretary shall create an ongoing program of data collection, storage, assessability, and review. The legislature does not intend that the department conduct or contract for the conduct of basic research activity. The secretary may request appropriations for studies according to this section from the legislature, the federal government, or private sources.

(2) All state agencies which collect or have access to population-based, health-related data are directed to allow the secretary access to such data. This includes, but is not
limited to, data on needed health services, facilities, and personnel; future health issues; emerging bioethical issues; health promotion; recommendations from state and national organizations and associations; and programmatic and statutory changes needed to address emerging health needs. Private entities, such as insurance companies, health maintenance organizations, and private purchasers are also encouraged to give the secretary access to such data in their possession. The secretary’s access to and use of all data shall be in accordance with state and federal confidentiality laws and ethical guidelines. Such data in any form where the patient or provider of health care can be identified shall not be disclosed, subject to disclosure according to chapter 42.56 RCW, discoverable or admissible in judicial or administrative proceedings. Such data can be used in proceedings in which the use of the data is clearly relevant and necessary and both the department and the patient or provider are parties.

3) The department shall serve as the clearinghouse for information concerning innovations in the delivery of health care services, the enhancement of competition in the health care marketplace, and federal and state information affecting health care costs.

4) The secretary shall review any data collected, pursuant to this chapter, to:
   (a) Identify high-priority health issues that require study or evaluation. Such issues may include, but are not limited to:
   (i) Identification of variations of health practice which indicate a lack of consensus of appropriateness;
   (ii) Evaluation of outcomes of health care interventions to assess their benefit to the people of the state;
   (iii) Evaluation of specific population groups to identify needed changes in health practices and services;
   (iv) Evaluation of the risks and benefits of various incentives aimed at individuals and providers for both preventing illnesses and improving health services;
   (v) Identification and evaluation of bioethical issues affecting the people of the state; and
   (vi) Other such objectives as may be appropriate;
   (b) Further identify a list of high-priority health study issues for consideration by the board, within their authority, for inclusion in the state health report required by RCW 43.20.050. The list shall specify the objectives of each study, a study timeline, the specific improvements in the health status of the citizens expected as a result of the study, and the estimated cost of the study; and
   (c) Provide background for the state health report required by RCW 43.20.050.

5) Any data, research, or findings may also be made available to the general public, including health professions, health associations, the governor, professional boards and regulatory agencies and any person or group who has allowed the secretary access to data.

6) Information submitted as part of the health professional licensing application and renewal process, excluding social security number and background check information, shall be available to the office of financial management consistent with RCW 43.370.020, whether the license is issued by the secretary of the department of health or a board or commission. The department shall replace any social security number with an alternative identifier capable of linking all licensing records of an individual. The office of financial management shall also have access to information submitted to the department of health as part of the medical or health facility licensing process.

7) The secretary may charge a fee to persons requesting copies of any data, research, or findings. The fee shall be no more than necessary to cover the cost to the department of providing the copy. [2009 c 343 § 2; 2005 c 274 § 301; 1989 1st ex.s. c 9 § 107.]

for medicare and medicaid services allow hospitals to report the respective measure to the hospital compare program, or its successor. However, if the centers for medicare and medicaid services allow infection rates to be reported using the centers for disease control and prevention’s national healthcare safety network, the department’s rules must require reporting that reduces the burden of data reporting and minimizes changes that hospitals must make to accommodate requirements for reporting.

(d) Data collection and submission required under this subsection (2) must be overseen by a qualified individual with the appropriate level of skill and knowledge to oversee data collection and submission.

(e) (i) A hospital must release to the department, or grant the department access to, its hospital-specific information contained in the reports submitted under this subsection (2), as requested by the department.

(ii) The hospital reports obtained by the department under this subsection (2), and any of the information contained in them, are not subject to discovery by subpoena or admissible as evidence in a civil proceeding, and are not subject to public disclosure as provided in RCW 42.56.360.

(3) The department shall:

(a) Provide oversight of the health care-associated infection reporting program established in this section;

(b) By January 1, 2011, submit a report to the appropriate committees of the legislature based on the recommendations of the advisory committee established in subsection (5) of this section for additional reporting requirements related to health care-associated infections, considering the methodologies and practices of the United States centers for disease control and prevention, the centers for medicare and medicaid services, the joint commission, the national quality forum, the institute for healthcare improvement, and other relevant organizations;

(c) Delete, by rule, the reporting of categories that the department determines are no longer necessary to protect public health and safety;

(d) By December 1, 2009, and by each December 1st thereafter, prepare and publish a report on the department’s web site that compares the health care-associated infection rates at individual hospitals in the state using the data reported in the previous calendar year pursuant to subsection (2) of this section. The department may update the reports quarterly. In developing a methodology for the report and determining its contents, the department shall consider the recommendations of the advisory committee established in subsection (5) of this section. The report is subject to the following:

(i) The report must disclose data in a format that does not release health information about any individual patient; and

(ii) The report must not include data if the department determines that a data set is too small or possesses other characteristics that make it otherwise unrepresentative of a hospital’s particular ability to achieve a specific outcome; and

(e) Evaluate, on a regular basis, the quality and accuracy of health care-associated infection reporting required under subsection (2) of this section and the data collection, analysis, and reporting methodologies.

(4) The department may respond to requests for data and other information from the data required to be reported under subsection (2) of this section, at the requestor’s expense, for special studies and analysis consistent with requirements for confidentiality of patient records.

(5) (a) The department shall establish an advisory committee which may include members representing infection control professionals and epidemiologists, licensed health care providers, nursing staff, organizations that represent health care providers and facilities, health maintenance organizations, health care payers and consumers, and the department. The advisory committee shall make recommendations to assist the department in carrying out its responsibilities under this section, including making recommendations on allowing a hospital to review and verify data to be released in the report and on excluding from the report selected data from certified critical access hospitals. Annually, beginning January 1, 2011, the advisory committee shall also make a recommendation to the department as to whether current science supports expanding presurgical screening for methicillin-resistant staphylococcus aureus prior to open chest cardiac, total hip, and total knee elective surgeries.

(b) In developing its recommendations, the advisory committee shall consider methodologies and practices related to health care-associated infections of the United States centers for disease control and prevention, the centers for medicare and medicaid services, the joint commission, the national quality forum, the institute for healthcare improvement, and other relevant organizations.

(6) The department shall adopt rules as necessary to carry out its responsibilities under this section. [2009 c 244 § 2; 2007 c 261 § 2.]

Findings—2007 c 261: “The legislature finds that each year health care-associated infections affect two million Americans. These infections result in the unnecessary death of ninety thousand patients and costs the health care system 4.5 billion dollars. Hospitals should be implementing evidence-based measures to reduce hospital-acquired infections. The legislature further finds the public should have access to data on outcome measures regarding hospital-acquired infections. Data reporting should be consistent with national hospital reporting standards.” [2007 c 261 § 1.]

43.70.110 License fees—Costs—Other charges—Waiver. (1) The secretary shall charge fees to the licensee for obtaining a license. Physicians regulated pursuant to chapter 18.71 RCW who reside and practice in Washington and obtain or renew a retired active license are exempt from such fees. After June 30, 1995, municipal corporations providing emergency medical care and transportation services pursuant to chapter 18.73 RCW shall be exempt from such fees, provided that such other emergency services shall only be charged for their pro rata share of the cost of licensure and inspection, if appropriate. The secretary may waive the fees when, in the discretion of the secretary, the fees would not be in the best interest of public health and safety, or when the fees would be to the financial disadvantage of the state.

(2) Except as provided in subsection (3) of this section, fees charged shall be based on, but shall not exceed, the cost to the department for the licensure of the activity or class of activities and may include costs of necessary inspection.

(3) License fees shall include amounts in addition to the cost of licensure activities in the following circumstances:

ing resource center as provided in RCW 18.79.202, until June 30, 2013;

(b) For all health care providers licensed under RCW 18.130.040, the cost of regulatory activities for retired volunteer medical worker licensees as provided in RCW 18.130.360; and

(c) For physicians licensed under chapter 18.71 RCW, physician assistants licensed under chapter 18.71A RCW, osteopathic physicians licensed under chapter 18.57 RCW, osteopathic physicians’ assistants licensed under chapter 18.57A RCW, naturopaths licensed under chapter 18.36A RCW, podiatrists licensed under chapter 18.22 RCW, chiropractors licensed under chapter 18.25 RCW, psychologists licensed under chapter 18.83 RCW, registered nurses licensed under chapter 18.79 RCW, optometrists licensed under chapter 18.53 RCW, mental health counselors licensed under chapter 18.225 RCW, massage therapists licensed under chapter 18.108 RCW, clinical social workers licensed under chapter 18.225 RCW, and acupuncturists licensed under chapter 18.06 RCW, the license fees shall include up to an additional twenty-five dollars to be transferred to the department by the University of Washington for the purposes of RCW 43.70.112.

43.70.630 Cost-reimbursement agreements. (1) The department may enter into a written cost-reimbursement agreement with a permit applicant or project proponent to recover from the applicant or proponent the reasonable costs incurred by the department in carrying out the requirements of this chapter, as well as the requirements of other relevant laws, as they relate to permit coordination, environmental review, application review, technical studies, and permit processing.

(2) The cost-reimbursement agreement shall identify the tasks and costs for work to be conducted under the agreement. The agreement must include a schedule that states:

(a) The estimated number of weeks for initial review of the permit application;

(b) The estimated number of revision cycles;

(c) The estimated number of weeks for review of subsequent revision submittals;

(d) The estimated number of billable hours of employee time;

(e) The rate per hour; and

(f) A date for revision of the agreement if necessary.

(3) The written cost-reimbursement agreement shall be negotiated with the permit applicant or project proponent. Under the provisions of a cost-reimbursement agreement, funds from the applicant or proponent shall be used by the department to contract with an independent consultant to carry out the work covered by the cost-reimbursement agreement. The department may also use funds provided under a cost-reimbursement agreement to hire temporary employees, to assign current staff to review the work of the consultant, to provide necessary technical assistance when an independent consultant with comparable technical skills is unavailable, and to recover reasonable and necessary direct and indirect costs that arise from processing the permit. The department shall, in developing the agreement, ensure that final decisions that involve policy matters are made by the agency and not by the consultant. The department shall make an estimate of the number of permanent staff hours to process the permits, and shall contract with consultants or hire temporary employees to replace the time and functions committed by these permanent staff to the project. The billing process shall provide for accurate time and cost accounting and may include a billing cycle that provides for progress payments.

[2009 RCW Supp—page 836]
(4) The cost-reimbursement agreement must not negatively impact the processing of other permit applications. In order to maintain permit processing capacity, the agency may hire outside consultants, temporary employees, or make internal administrative changes. Consultants or temporary employees hired as part of a cost-reimbursement agreement or to maintain agency capacity are hired as agents of the state not of the permit applicant. The restrictions of chapter 42.52 RCW apply to any cost-reimbursement agreement, and to any person hired as a result of a cost-reimbursement agreement. Legislative finding—1999 c 94: "The legislature finds that a periodic review of the accounts and their uses is necessary. While creating new accounts may facilitate the implementation of legislative intent, the creation of too many accounts limits the effectiveness of performance-based budgeting. Too many accounts also limit the flexibility of the legislature to address emerging and changing issues in addition to creating administrative burdens for the responsible agencies. Accounts created for specific purposes may no longer be valid or needed. Accordingly, this act eliminates accounts that are not in use or are unneeded and consolidates accounts that are similar in nature." [1999 c 94 § 1.]

43.86A.030 Time certificate of deposit investment program—Available funds—Allocation.
43.86A.060 Linked deposit program—Eligible entities—Interest rates—Rule-making authority.

43.86A.020 Surplus funds held as demand deposits to be limited. After March 19, 1973, the state treasurer shall limit surplus funds held as demand deposits to an amount necessary for current operating expenses including direct warrant redemption payments, investments and revenue collection. The state treasurer may hold such additional funds as demand deposits as he or she deems necessary to insure efficient treasury management. [2009 c 549 § 5164; 1973 c 123 § 2.]

43.86A.030 Time certificate of deposit investment program—Available funds—Allocation. (1) Funds held in public depositaries not as demand deposits, as provided in RCW 43.86A.020 and this section, shall be available for a time certificate of deposit investment program according to the following formula: The state treasurer shall apportion to all participating depositaries an amount equal to five percent of the three year average mean of general state revenues as certified in accordance with Article VIII, section 1(b) of the state Constitution, or fifty percent of the total surplus treasury investment availability, whichever is less. Within thirty days after certification, those funds determined to be available according to this formula for the time certificate of deposit investment program shall be deposited in qualified public depositaries. These deposits shall be allocated among the participating depositaries on a basis to be determined by the state treasurer.

(2) Of all funds available under this section, the state treasurer may use up to one hundred seventy-five million dollars per year for the purposes of RCW 43.86A.060(2)(c) (i) and (iii) and up to fifteen million dollars per year for the purposes of RCW 43.86A.060(2)(c)(ii). The amounts made available to these public depositaries shall be equal to the amounts of outstanding loans made under RCW 43.86A.060.

(3) The formula so devised shall be a matter of public record giving consideration to, but not limited to deposits, assets, loans, capital structure, investments or some combination of these factors. However, if in the judgment of the state treasurer the amount of allocation for certificates of deposit as determined by this section will impair the cash flow needs of the state treasury, the state treasurer may adjust the amount of the allocation accordingly. Intent—2005 c 302: “The legislature intends that funds provided under the linked deposit program shall be used to create jobs and economic opportunity as well as to remedy the problem of a lack of access to capital by minority and women’s business enterprises.” [2005 c 302 § 1.]

43.86A.060 Linked deposit program—Eligible entities—Interest rates—Rule-making authority. (1) The state treasurer shall establish a linked deposit program for investment of deposits in qualified public depositaries. As a condition of participating in the program, qualified public depositaries must make qualifying loans as provided in this section. The state treasurer may purchase a certificate of deposit that is equal to the amount of the qualifying loan made by the qualified public depositary or may purchase a certificate of deposit that is equal to the aggregate amount of two or more qualifying loans made by one or more qualified public depositaries.

(2) Qualifying loans made under this section are those:
(a) Having terms that do not exceed ten years;
(b) Where an individual loan does not exceed one million dollars;
(c)(i) That are made to a minority or women’s business enterprise that has received state certification under chapter 39.19 RCW;
(ii) That are made to a veteran-owned business that has received state certification under RCW 43.60A.190; or
(iii) That are made to a community development financial institution that is: (A) Certified by the United States department of the treasury pursuant to 12 U.S.C. Sec. 4701 et seq.; and (B) using that loan to make qualifying loans under (c)(i) of this subsection;
(d) Where the interest rate on the loan to the minority or women’s business enterprise or veteran-owned business does not exceed an interest rate that is two hundred basis points below the interest rate the qualified public depositary would charge for a loan for a similar purpose and a similar term, except that, if the preference given by the state treasurer to the qualified public depositary under subsection (3) of this section is less than two hundred basis points, the qualified public depositary may reduce the preference given on the loan by an amount that corresponds to the reduction in pref-

The governor may provide for hearings on all agency requests for expenditures to enable him or her to make determinations as to the need, value or usefulness of activities or programs requested by agencies. The governor may require the attendance of proper agency officials at his or her hearings and it shall be their duty to disclose such information as may be required to enable the governor to arrive at his or her final determination. [2009 c 549 § 5165; 1965 c 8 § 43.88.100. Prior: 1959 c 328 § 10.]

43.88.110 Expenditure programs—Allotments—Reserves—Monitor capital appropriations—Predesign review for major capital construction. This section sets forth the expenditure programs and the allotment and reserve procedures to be followed by the executive branch for public funds.

(1) Allotments of an appropriation for any fiscal period shall conform to the terms, limits, or conditions of the appropriation.

(2) The director of financial management shall provide all agencies with a complete set of operating and capital instructions for preparing a statement of proposed expenditures at least thirty days before the beginning of a fiscal period. The set of instructions need not include specific appropriation amounts for the agency.

(3) Within forty-five days after the beginning of the fiscal period or within forty-five days after the governor signs the omnibus biennial appropriations act, whichever is later, all agencies shall submit to the governor a statement of proposed expenditures at such times and in such form as may be required by the governor.

(4) The office of financial management shall develop a method for monitoring capital appropriations and expenditures that will capture at least the following elements:

(a) Appropriations made for capital projects including transportation projects;

(b) Estimates of total project costs including past, current, ensuing, and future biennial costs;

(c) Comparisons of actual costs to estimated costs;

(d) Comparisons of estimated construction start and completion dates with actual dates;

(e) Documentation of fund shifts between projects.

This data may be incorporated into the existing accounting system or into a separate project management system, as deemed appropriate by the office of financial management.

(5) The office of financial management, prior to approving allotments for major capital construction projects valued over five million dollars, shall institute procedures for reviewing such projects at the predesign stage that will reduce long-term costs and increase facility efficiency. The procedures shall include, but not be limited to, the following elements:

(a) Evaluation of facility program requirements and consistency with long-range plans;

(b) Utilization of a system of cost, quality, and performance standards to compare major capital construction projects; and
(c) A requirement to incorporate value-engineering analysis and constructability review into the project schedule.

(6) No expenditure may be incurred or obligation entered into for such major capital construction projects including, without exception, land acquisition, site development, pre-design, design, construction, and equipment acquisition and installation, until the allotment of the funds to be expended has been approved by the office of financial management. This limitation does not prohibit the continuation of expenditures and obligations into the succeeding biennium for projects for which allotments have been approved in the immediate prior biennium.

(7) If at any time during the fiscal period the governor projects a cash deficit in a particular fund or account as defined by RCW 43.88.050, the governor shall make across-the-board reductions in allotments for that particular fund or account so as to prevent a cash deficit, unless the legislature has directed the liquidation of the cash deficit over one or more fiscal periods. Except for the legislative and judicial branches and other agencies headed by elective officials, the governor shall review the statement of proposed operating expenditures for reasonableness and conformance with legislative intent. The governor may request corrections of proposed allotments submitted by the legislative and judicial branches and agencies headed by elective officials if those proposed allotments contain significant technical errors.

Once the governor approves the proposed allotments, further revisions may at the request of the office of financial management or upon the agency’s initiative be made on a quarterly basis and must be accompanied by an explanation of the reasons for significant changes. However, changes in appropriation level authorized by the legislature, changes required by across-the-board reductions mandated by the governor, changes caused by executive increases to spending authority, and changes caused by executive decreases to spending authority for failure to comply with the provisions of chapter 36.70A RCW may require additional revisions. Revisions shall not be made retroactively. However, the governor may assign to a reserve status any portion of an agency appropriation withheld as part of across-the-board reductions made by the governor and any portion of an agency appropriation conditioned on a contingent event by the appropriations act. The governor may remove these amounts from reserve status if the across-the-board reductions are subsequently modified or if the contingent event occurs. The director of financial management shall enter approved statements of proposed expenditures into the state budgeting, accounting, and reporting system within forty-five days after receipt of the proposed statements from the agencies. If an agency or the director of financial management is unable to meet these requirements, the director of financial management shall provide a timely explanation in writing to the legislative fiscal committees.

(8) It is expressly provided that all agencies shall be required to maintain accounting records and to report thereon in the manner prescribed in this chapter and under the regulations issued pursuant to this chapter. Within ninety days of the end of the fiscal year, all agencies shall submit to the director of financial management their final adjustments to close their books for the fiscal year. Prior to submitting fiscal data, written or oral, to committees of the legislature, it is the responsibility of the agency submitting the data to reconcile it with the budget and accounting data reported by the agency to the director of financial management.

(9) The director of financial management may exempt certain public funds from the allotment controls established under this chapter if it is not practical or necessary to allot the funds. Allotment control exemptions expire at the end of the fiscal biennium for which they are granted. The director of financial management shall report any exemptions granted under this subsection to the legislative fiscal committees.

43.99N.060 Stadium and exhibition center account—Youth athletic facility account—Community outdoor athletic facility loans and grants. (1) The stadium and exhibition center account is created in the custody of the state treasurer. All receipts from the taxes imposed under RCW 82.14.0494 and distributions under RCW 67.70.240(5) shall be deposited into the account. Only the director of the office of financial management or the director’s designee may authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures from this account.

(2) Until bonds are issued under RCW 43.99N.020, up to five million dollars per year beginning January 1, 1999, shall be used for the purposes of subsection (3)(b) of this section, all remaining moneys in the account shall be transferred to the public stadium authority, created under RCW 36.102.020, to be used for public stadium authority operations and development of the stadium and exhibition center.

(3) After bonds are issued under RCW 43.99N.020, all moneys in the stadium and exhibition center account shall be used exclusively for the following purposes in the following priority:

(a) On or before June 30th of each year, the office of financial management shall accumulate in the stadium and exhibition center account an amount at least equal to the amount required in the next succeeding twelve months for the payment of principal of and interest on the bonds issued under RCW 43.99N.020;

(b) An additional reserve amount not in excess of the expected average annual principal and interest requirements of bonds issued under RCW 43.99N.020 shall be accumulated and maintained in the account, subject to withdrawal by the state treasurer at any time if necessary to meet the requirements of (a) of this subsection, and, following any withdrawal, reaccumulated from the first tax revenues and other amounts deposited in the account after meeting the requirements of (a) of this subsection;

(c) The balance, if any, shall be transferred to the youth athletic facility account under subsection (4) of this section.

Any revenues derived from the taxes authorized by RCW 36.38.010(5) and 36.38.040 or other amounts that if used as provided under (a) and (b) of this subsection would cause the loss of any tax exemption under federal law for interest on bonds issued under RCW 43.99N.020 shall be deposited in and used exclusively for the purposes of the youth athletic facility account and shall not be used, directly or indirectly, as a source of payment of principal of or interest on bonds issued under RCW 43.99N.020, or to replace or reimburse other funds used for that purpose.

(4) Any moneys in the stadium and exhibition center account not required or permitted to be used for the purposes described in subsection (3)(a) and (b) of this section shall be deposited in the youth athletic facility account hereby created in the state treasury. Expenditures from the account may be used only for purposes of grants or loans to cities, counties, and qualified nonprofit organizations for community outdoor athletic facilities. Only the director of the recreation and conservation office or the director’s designee may authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures. The athletic facility grants or loans may be used for acquiring, developing, equipping, maintaining, and improving community outdoor athletic facilities. Funds shall be divided equally between the development of new community outdoor athletic facilities, the improvement of existing community outdoor athletic facilities, and the maintenance of existing community outdoor athletic facilities. Cities, counties, and qualified nonprofit organizations must submit proposals for grants or loans from the account. To the extent that funds are available, cities, counties, and qualified nonprofit organizations must meet eligibility criteria as established by the director of the recreation and conservation office. The grants and loans shall be awarded on a competitive application process and the amount of the grant or loan shall be in proportion to the population of the city or county for where the community outdoor athletic facility is located. Grants or loans awarded in any one year need not be distributed in that year. 43.99Q.120 Legislative building rehabilitation project—Finding—Intent. The legislature finds that it is necessary to complete the rehabilitation of the state legislative building, to extend the useful life of the building, and provide for the permanent relocation of offices displaced by the rehabilitation and create new space for public uses.

Furthermore, it is the intent of the legislature to fund the majority of the rehabilitation and construction using bonds repaid by the capitol building construction account, as provided for in the enabling act and dedicated by the federal government for the sole purpose of establishing a state capitol, to fund the cash elements of the project using capital project surcharge revenues in the Thurston county capital facilities account, and to support the establishment of a private foundation to engage the public in the preservation of the state legislative building and raise private funds for restoration and educational efforts. 43.99Q.130 Legislative building rehabilitation project—General obligation bonds. For the purpose of providing funds for the planning, design, construction, and other necessary costs for the rehabilitation of the state legislative building, the state finance committee is authorized to issue general obligation bonds of the state of Washington in the sum of eighty-two million five hundred ten thousand dollars or as much thereof as may be required to finance the rehabilitation and improvements to the legislative building and all costs incidental thereto. The approved rehabilitation plan includes costs associated with earthquake repairs and future earthquake mitigation and allows for associated relocation costs and the acquisition of appropriate relocation space. Bonds authorized in this section may be sold at a price the state finance committee determines. No bonds authorized in this section may be offered for sale without prior legislative appropriation of the net proceeds of the sale of the bonds. The proceeds of the sale of the bonds issued for the purposes of this section shall be deposited in the capitol historic district construction account hereby created in the state treasury. (3)(a) Subsections (1) and (2) of this section do not apply to the Washington state department of corrections prisons division. The Washington state department of corrections is responsible for identifying training standards, designing curricula and programs, and providing the training for those corrections personnel employed by it. In doing so, the secretary of the department of corrections shall consult with staff development experts and correctional professionals both inside and outside of the agency, to include soliciting input from labor organizations.

(b) The commission and the department of corrections share the responsibility of developing and defining training standards and providing training for community corrections officers employed within the community corrections division of the department of corrections. Intent—2009 c 146: "The intent of the legislature is that all corrections personnel employed by the Washington department of corrections are prepared to carry out the demands of their position that they are likely to encounter during their daily duties. The protection of the public, department employees, and inmates are a primary reason to ensure that everyone is adequately trained and knowledgeable in routine and emergency procedures. To best carry out this mission it is necessary for the Washington state department of corrections to have the authority, discretion, and ability to design and conduct mandatory training that best meets the needs of its changing offender population." (3) The secretary of the department of corrections is responsible for assuring that the training needs of the corrections personnel are met by the department’s training program. Once a year, the secretary is responsible for conducting an assessment of the training programs for the corrections personnel employed by the department. [2009 c 146 § 3.]

Reviser’s note: 2009 c 146 directed that this section be codified in chapter 43.10 RCW. This section has been added to chapter 43.101 RCW, which relates to criminal justice training.

43.101.380 Hearings—Standard of proof—Appeals—Judicial review. (1) The procedures governing adjudicative proceedings before agencies under chapter 34.05 RCW, the administrative procedure act, govern hearings before the commission and govern all other actions before the commission unless otherwise provided in this chapter. The standard of proof in actions before the commission is clear, cogent, and convincing evidence.

(2) In all hearings requested under RCW 43.101.155, a five-member hearings panel shall both hear the case and make the commission’s final administrative decision. Members of the commission or the board on law enforcement training standards and education may, but need not be, appointed to the hearings panels. The commission shall appoint as follows two or more panels to hear appeals from certification actions:

(a) When a hearing is requested in relation to a certification action of a Washington peace officer who is not a peace officer of the Washington state patrol, the commission shall appoint to the panel: (i) One police chief; (ii) one sheriff; (iii) two certified Washington peace officers who are at or below the level of first line supervisor, one of whom is from a city or county law enforcement agency, and who have at least ten years’ experience as peace officers; and (iv) one person who is not currently a peace officer and who represents a community college or four-year college or university.

(b) When a hearing is requested in relation to a certification action of a peace officer of the Washington state patrol, the commission shall appoint to the panel: (i) Either one police chief or one sheriff; (ii) one administrator of the state patrol; (iii) one certified Washington peace officer who is at or below the level of first line supervisor, who is not a state patrol officer, and who has at least ten years’ experience as a peace officer; (iv) one state patrol officer who is at or below the level of first line supervisor, and who has at least ten years’ experience as a peace officer; and (v) one person who is not currently a peace officer and who represents a community college or four-year college or university.

(c) When a hearing is requested in relation to a certification action of a tribal police officer, the commission shall appoint to the panel (i) either one police chief or one sheriff; (ii) one tribal police chief; (iii) one certified Washington peace officer who is at or below the level of first line supervisor, and who has at least ten years’ experience as a peace officer; (iv) one tribal police officer who is at or below the level of first line supervisor, and who has at least ten years’ experience as a peace officer; and (v) one person who is not currently a peace officer and who represents a community college or four-year college or university.

(d) Persons appointed to hearings panels by the commission shall, in relation to any certification action on which they sit, have the powers, duties, and immunities, and are entitled to the emoluments, including travel expenses in accordance with RCW 43.03.050 and 43.03.060, of regular commission members.

(3) Where the charge upon which revocation or denial is based is that a peace officer was "discharged for disqualifying misconduct," and the discharge is "final," within the meaning of RCW 43.101.105(1)(d), and the officer received a civil service hearing or arbitration hearing culminating in an affirming decision following separation from service by the employer, the hearings panel may revoke or deny certification if the hearings panel determines that the discharge occurred and was based on disqualifying misconduct; the hearings panel need not redetermine the underlying facts but may make this determination based solely on review of the records and decision relating to the employment separation proceeding. However, the hearings panel may, in its discretion, consider additional evidence to determine whether such a discharge occurred and was based on such disqualifying misconduct. The hearings panel shall, upon written request by the subject peace officer, allow the peace officer to present additional evidence of extenuating circumstances.

Where the charge upon which revocation or denial of certification is based is that a peace officer "has been convicted at any time of a felony offense" within the meaning of RCW 43.101.105(1)(c), the hearings panel shall revoke or deny certification if it determines that the peace officer was convicted of a felony. The hearings panel need not redetermine the underlying facts but may make this determination based solely on review of the records and decision relating to the criminal proceeding. However, the hearings panel shall, upon the panel’s determination of relevancy, consider additional evidence to determine whether the peace officer was convicted of a felony.

Where the charge upon which revocation or denial is based is under RCW 43.101.105(1)(d), the hearings panel shall determine the underlying facts relating to the charge upon which revocation or denial of certification is based.

(4) The commission’s final administrative decision is subject to judicial review under RCW 34.05.510 through 34.05.598. [2009 c 25 § 1; 2006 c 22 § 3; 2001 c 167 § 10.]

(1) The commission shall offer a training session on personal crisis recognition and crisis intervention services to criminal justice, correctional personnel, and other public safety employees. The training shall be implemented by the commission in consultation with appropriate public and private organizations that have expertise in crisis referral services and in the underlying conditions leading to the need for crisis referral.
(2) The training shall consist of a minimum of one hour of classroom or internet instruction, and shall include instruction on the following subjects:

(a) The description and underlying causes of problems that may have an impact on the personal and professional lives of public safety employees, including mental health issues, chemical dependency, domestic violence, financial problems, and other personal crises;

(c) A listing of examples of public and private crisis referral agencies available to public safety employees.

(3) The training developed by the commission shall be made available by the commission to all employees of state and local agencies that perform public safety duties. The commission may charge a reasonable fee to defray the cost of making the training available. [2009 c 19 § 1.]

Findings—Intent—Purpose—2009 c 509: "(1) The legislature finds that the deployment and adoption of high-speed internet services and technology advancements enhance economic development and public safety for the state’s communities. Such deployment also offers improved health care, access to consumer and legal services, increased educational and civic participation opportunities, and a better quality of life for the state’s residents. The legislature further finds that improvements in the deployment and adoption of high-speed internet services and the strategic inclusion of technology advancements and technology education are critical to ensuring that Washington remains competitive and continues to provide a skilled workforce, attract businesses, and stimulate job growth.

(2) The legislature intends to support strategic partnerships of public, private, nonprofit, and community-based sectors in the continued growth and development of high-speed internet services and information technology. The legislature further intends to ensure that all Washington citizens, businesses, schools, and organizations are able to obtain and utilize broadband fully, regardless of location, economic status, literacy level, age, disability, structure, or size. In addition, the legislature intends that a statewide assessment of the availability, location, service levels, and other characteristics of high-speed internet services and other advanced telecommunications services in the state be conducted.

(1) The state shall not expend from the general fund during any fiscal year state moneys in excess of the state expenditure limit established under this chapter.\n(2) Except pursuant to a declaration of emergency under RCW 43.135.035 or pursuant to an appropriation under RCW 43.135.045(2), the state treasurer shall not issue or redeem any check, warrant, or voucher that will result in a state general fund expenditure for any fiscal year in excess of the state expenditure limit established under this chapter. A violation of this subsection constitutes a violation of RCW 43.88.290 and shall subject the state treasurer to the penalties provided in RCW 43.88.300.\n(3) The state expenditure limit for any fiscal year shall be the previous fiscal year’s state expenditure limit increased by a percentage rate that equals the fiscal growth factor.\n(4) For purposes of computing the state expenditure limit for the fiscal year beginning July 1, 2009, the phrase "the previous fiscal year’s state expenditure limit" means the total state expenditures from the state general fund, the public safety and education account, the health services account, the violence reduction and drug enforcement account, the student achievement fund, the water quality account, and the equal justice subaccount, not including federal funds, for the fiscal year beginning July 1, 2008, plus the fiscal growth factor.\n(5) A state expenditure limit committee is established for the purpose of determining and adjusting the state expenditure limit as provided in this chapter. The members of the state expenditure limit committee are the director of financial management, the attorney general or the attorney general’s designee, and the chairs and ranking minority members of the senate committee on ways and means and the house of representatives committee on ways and means. All actions of the state expenditure limit committee taken pursuant to this chapter require an affirmative vote of at least four members.\n(6) Each November, the state expenditure limit committee shall adjust the expenditure limit for the preceding fiscal year based on actual expenditures and known changes in the fiscal growth factor and then project an expenditure limit for the next two fiscal years. If, by November 30th, the state expenditure limit committee has not adopted the expenditure limit adjustment and projected expenditure limit as provided in subsection (5) of this section, the attorney general or his or her designee shall adjust or project the expenditure limit, as necessary.\n(7) "Fiscal growth factor" means the average growth in state personal income for the prior ten fiscal years.\n(8) "General fund" means the state general fund. [2009 c 479 § 35; 2005 c 72 § 4; (2006 c 56 § 7 expired July 1, 2007); 2000 2nd sp.s. c 2 § 1; 1994 c 2 § 2 (Initiative Measure No. 601, approved November 2, 1993).]\nEffective date—2009 c 479: See note following RCW 2.56.030.\nExpiration date—2006 c 56 §§ 7 and 8: "Sections 7 and 8 of this act expire July 1, 2007." 43.135.035 Tax legislation—Referral to voters—Conditions and restrictions—Ballot title—Declarations of emergency—Taxes on intangible property—Expenditure limit to reflect program cost shifting or fund transfer. (1) After July 1, 1995, any action or combination of actions by the legislature that raises taxes may be taken only if approved by a two-thirds vote of each house of the legislature, and then only if state expenditures in any fiscal year, including the new revenue, will not exceed the state expenditure limits established under this chapter. Pursuant to the referendum power set forth in Article II, section 1(b) of the state Constitution, tax increases may be referred to the voters for their approval or rejection at an election.\n(2)(a) If the legislative action under subsection (1) of this section will result in expenditures in excess of the state expenditure limit, then the action of the legislature shall not take effect until approved by a vote of the people at a November general election. The state expenditure limit committee shall adjust the state expenditure limit by the amount of additional revenue approved by the voters under this section. This adjustment shall not exceed the amount of revenue generated by the legislative action during the first full fiscal year in which it is in effect. The state expenditure limit shall be adjusted downward upon expiration or repeal of the legislative action.\n(b) The ballot title for any vote of the people required under this section shall be substantially as follows:\n"Shall taxes be imposed on . . . . . . in order to allow a spending increase above last year’s authorized spending adjusted for personal income growth?"\n(3)(a) The state expenditure limit may be exceeded upon declaration of an emergency for a period not to exceed twenty-four months by a law approved by a two-thirds vote of each house of the legislature and signed by the governor. The law shall set forth the nature of the emergency, which is limited to natural disasters that require immediate government action to alleviate human suffering and provide human-
itarian assistance. The state expenditure limit may be exceeded for no more than twenty-four months following the declaration of the emergency and only for the purposes contained in the emergency declaration.

(b) Additional taxes required for an emergency under this section may be imposed only until thirty days following the next general election, unless an extension is approved at that general election. The additional taxes shall expire upon expiration of the declaration of emergency. The legislature shall not impose additional taxes for emergency purposes under this subsection unless funds in the education construction fund have been exhausted.

(c) The state or any political subdivision of the state shall not impose any tax on intangible property listed in RCW 84.36.070 as that statute exists on January 1, 1993.

(4) If the cost of any state program or function is shifted from the state general fund to another source of funding, or if moneys are transferred from the state general fund to another fund or account, the state expenditure limit committee, acting pursuant to RCW 43.135.025(5), shall lower the state expenditure limit to reflect the shift. For the purposes of this section, a transfer of money from the state general fund to another fund or account includes any state legislative action taken that has the effect of reducing revenues from a particular source, where such revenues would otherwise be deposited into the state general fund, while increasing the revenues from that particular source to another state or local government account. This subsection does not apply to: (a) The dedication or use of lottery revenues under RCW 67.70.240(3), in support of education or education expenditures; or (b) a transfer of moneys to, or an expenditure from, the budget stabilization account.

(5) If the cost of any state program or function and the ongoing revenue necessary to fund the program or function are shifted from the state general fund on or after January 1, 2007, the state expenditure limit committee, acting pursuant to RCW 43.135.025(5), shall increase the state expenditure limit to reflect the shift unless the reduced revenue had previously been shifted from the general fund.

(6) For the purposes of chapter 1, Laws of 2008, "raises taxes" means any action or combination of actions by the legislature that increases state tax revenue deposited in any fund, budget, or account, regardless of whether the revenues are deposited into the general fund. 43.135.045 Education construction fund—Appropriation conditions. The education construction fund is hereby created in the state treasury.

(1) Funds may be appropriated from the education construction fund exclusively for common school construction or higher education construction. During the 2007-2009 fiscal biennium, funds may also be used for higher education facilities preservation and maintenance. During the 2009-2011 fiscal biennium, the legislature may transfer from the education construction fund to the state general fund such amounts as reflect the excess fund balance of the fund.

(2) Funds may be appropriated for any other purpose only if approved by a two-thirds vote of each house of the legislature and if approved by a vote of the people at the next general election. An appropriation approved by the people under this subsection shall result in an adjustment to the state expenditure limit only for the fiscal period for which the appropriation is made and shall not affect any subsequent fiscal period.

(3) Funds for the student achievement program in RCW 28A.505.210 and 28A.505.220 shall be appropriated to the superintendent of public instruction strictly for distribution to school districts to meet the provisions set out in the student achievement act. 43.155.070 Eligibility, priority, limitations, and exceptions. (1) To qualify for loans or pledges under this chapter the board must determine that a local government meets all of the following conditions:

(a) The city or county must be imposing a tax under chapter 82.46 RCW at a rate of at least one-quarter of one percent;

(b) The local government must have developed a capital facility plan; and

(c) The local government must be using all local revenue sources which are reasonably available for funding public works, taking into consideration local employment and economic factors.

(2) Except where necessary to address a public health need or substantial environmental degradation, a county, city, or town planning under RCW 36.70A.040 must have adopted a comprehensive plan, including a capital facilities plan element, and development regulations as required by RCW 36.70A.040. This subsection does not require any county, city, or town planning under RCW 36.70A.040 to adopt a comprehensive plan or development regulations before requesting or receiving a loan or loan guarantee under this chapter if such request is made before the expiration of the time periods specified in RCW 36.70A.040. A county, city, or town planning under RCW 36.70A.040 which has not adopted a comprehensive plan and development regulations within the time periods specified in RCW 36.70A.040 is not prohibited from receiving a loan or loan guarantee under this chapter if the comprehensive plan and development regulations are adopted as required by RCW 36.70A.040 before submitting a request for a loan or loan guarantee.

(3) In considering awarding loans for public facilities to special districts requesting funding for a proposed facility located in a county, city, or town planning under RCW 36.70A.040, the board shall consider whether the county, city, or town planning under RCW 36.70A.040 in whose planning jurisdiction the proposed facility is located has adopted a comprehensive plan and development regulations as required by RCW 36.70A.040.

(4) The board shall develop a priority process for public works projects as provided in this section. The intent of the priority process is to maximize the value of public works projects accomplished with assistance under this chapter. The board shall attempt to assure a geographical balance in assigning priorities to projects. The board shall consider at least the following factors in assigning a priority to a project:

(a) Whether the local government receiving assistance has experienced severe fiscal distress resulting from natural disaster or emergency public works needs;

(b) Except as otherwise conditioned by RCW 43.155.110, whether the entity receiving assistance is a Puget Sound partner, as defined in RCW 90.71.010;

(c) Whether the project is referenced in the action agenda developed by the Puget Sound partnership under RCW 90.71.310;

(d) Whether the project is critical in nature and would affect the health and safety of a great number of citizens;

(e) Whether the applicant has developed and adhered to guidelines regarding its permitting process for those applying for development permits consistent with section 1(2), chapter 231, Laws of 2007;

(f) The cost of the project compared to the size of the local government and amount of loan money available;

(g) The number of communities served by or funding the project;

(h) Whether the project is located in an area of high unemployment, compared to the average state unemployment;

(i) Whether the project is the acquisition, expansion, improvement, or renovation by a local government of a public water system that is in violation of health and safety standards, including the cost of extending existing service to such a system;

(j) Except as otherwise conditioned by RCW 43.155.120, and effective one calendar year following the development of model evergreen community management plans and ordinances under RCW 35.105.050, whether the entity receiving assistance has been recognized, and what gradation of recognition was received, in the evergreen community recognition program created in RCW 35.105.030;

(k) The relative benefit of the project to the community, considering the present level of economic activity in the community and the existing local capacity to increase local economic activity in communities that have low economic growth; and

(l) Other criteria that the board considers advisable.

(5) Existing debt or financial obligations of local governments shall not be refinanced under this chapter. Each local government applicant shall provide documentation of attempts to secure additional local or other sources of funding for each public works project for which financial assistance is sought under this chapter.
(6) Before November 1st of each even-numbered year, the board shall develop and submit to the appropriate fiscal committees of the senate and house of representatives a description of the loans made under RCW 43.155.065, 43.155.068, and subsection (9) of this section during the preceding fiscal year and a prioritized list of projects which are recommended for funding by the legislature, including one copy to the staff of each of the committees. The list shall include, but not be limited to, a description of each project and recommended financing, the terms and conditions of the loan or financial guarantee, the local government jurisdiction and unemployment rate, demonstration of the jurisdiction’s critical need for the project and documentation of local funds being used to finance the public works project. The list shall also include measures of fiscal capacity for each jurisdiction recommended for financial assistance, compared to authorized limits and state averages, including local government sales taxes; real estate excise taxes; property taxes; and charges for or taxes on sewerage, water, garbage, and other utilities.

(7) The board shall not sign contracts or otherwise financially obligate funds from the public works assistance account before the legislature has appropriated funds for a specific list of public works projects. The legislature may remove projects from the list recommended by the board. The legislature shall not change the order of the priorities recommended for funding by the board.

(8) Subsection (7) of this section does not apply to loans made under RCW 43.155.065, 43.155.068, and subsection (9) of this section.

(9) Loans made for the purpose of capital facilities plans shall be exempted from subsection (7) of this section.

(10) To qualify for loans or pledges for solid waste or recycling facilities under this chapter, a city or county must demonstrate that the solid waste or recycling facility is consistent with and necessary to implement the comprehensive solid waste management plan adopted by the city or county under chapter 70.95 RCW.

(11) After January 1, 2010, any project designed to address the effects of storm water or wastewater on Puget Sound may be funded under this section only if the project is not in conflict with the action agenda developed by the Puget Sound partnership under RCW 90.71.310. Findings—1991 c 314: "The legislature finds that:
(1) Cutbacks in allowable sales of old growth timber in Washington state pose a substantial threat to the region and the state with massive layoffs, loss of personal income, and declines in state revenues;
(2) The timber impact areas are of critical significance to the state because of their leading role in the overall economic well-being of the state and their importance to the quality of life to all residents of Washington, and that these regions require a special state effort to diversify the local economy;
(3) There are key opportunities to broaden the economic base in the timber impact areas including agriculture, high-technology, tourism, and regional exports; and
(4) A coordinated state, local, and private sector effort offers the greatest potential to promote economic diversification and to provide support for new projects within the region.

The legislature further finds that if a special state effort does not take place the decline in allowable timber sales may result in a loss of six thousand logging and milling jobs; two hundred million dollars in direct wages and benefits; twelve thousand indirect jobs; and three hundred million dollars in indirect wages and benefits.

It is the intent of the legislature to develop comprehensive programs to provide diversified economic development and promote job creation and employment opportunities for the citizens of the timber impact areas." [1991 c 314 § 1.]

Intent—Finding—2009 c 65: "The legislature intends to promote the development of renewable energy technologies and the application of energy efficiency measures by authorizing the issuance of revenue bonds to finance renewable energy and energy efficiency improvement costs. The legislature finds that by providing access to low-cost capital to finance renewable energy and energy efficiency projects, a key barrier is eliminated." [2009 c 65 § 1.]
43.180.260 Sustainable energy trust program. (1) If economically feasible, the commission shall develop and implement a sustainable energy trust program to provide financing for qualified improvement projects. In developing the sustainable energy trust program, the commission shall establish eligibility criteria for financing that will enable it to choose eligible applicants who are likely to repay loans made or acquired by the commission and funded from the proceeds of commission bonds.

(2) The commission shall, if economically feasible:

(a) Issue bonds, as defined in RCW 43.180.020, for the purpose of financing loans for qualified energy efficiency and renewable energy improvement projects in accordance with RCW 43.180.150;

(b) Participate fully in federal and other governmental programs and take actions that are necessary and consistent with this chapter to secure to itself and the people of the state the benefits of programs to promote energy efficiency and renewable energy technologies;

(c) Contract with a certifying authority to accept applications for energy efficiency and renewable energy improvement projects, to review applications, including binding fixed price bids for the improvements, and to approve qualified improvements for financing by the commission. For solar electric systems, the certifying authority must use an application certification process similar to the investment cost recovery incentive application process provided under RCW 82.16.120. No work by a certifying authority may commence under this section until a request has been made by the commission; and

(d) Before entering into a contract with a certifying authority as defined in RCW 43.180.020(2)(b), consult with the Washington State University energy extension program to determine which potential improvement technologies are applicable.

Where necessary to implement chapter 521, Laws of 2009, gender-specific terms such as husband and wife used in any statute, rule, or other law shall be construed to be gender neutral, and applicable to individuals in state registered domestic partnerships. [2009 c 521 § 109.]

43.185.020 Definitions. "Department" means the department of commerce. "Director" means the director of the department of commerce. [2009 c 565 § 37; 1995 c 399 § 101; 1986 c 298 § 3.]

43.185.140 Findings—Review of all housing properties—Energy audits. (1) The legislature finds that growing preservation and rehabilitation needs in the housing trust fund property portfolio provide opportunities to advance energy efficiency and weatherization efforts for low-income individuals in Washington state while protecting the state’s six hundred million dollars in affordable housing investments. Preservation of existing affordable housing, when done in conjunction with weatherization activities, is a cost-effective, prudent, and environmentally friendly strategy to ensure that low-income housing remains durable, safe, and affordable. Therefore, the legislature intends that where federal funds are available for increasing and improving energy efficiency of low-income housing that these funds must be utilized, subject to federal requirements, for energy audits and implementing energy efficiency measures in the state housing trust fund real estate portfolio.

(2) The department shall review all housing properties in the housing trust fund real estate portfolio and identify those in need of major renovation or rehabilitation. In its review, the department shall survey property owners for information including, but not limited to, the age of the building and the type of heating, cooling, plumbing, and electrical systems contained in the property. The department shall prioritize all renovation or rehabilitation projects identified in the review by the department’s ability to:

(a) Achieve the greatest possible expected monetary and energy savings by low-income households and other energy consumers over the greatest period of time;

(b) Promote the greatest possible health and safety improvements for residents of low-income households; and

(c) Leverage, to the extent feasible, technologically advanced and environmentally friendly sustainable technologies, practices, and designs.

(3) Subject to the availability of amounts appropriated for this specific purpose, the department shall use the prioritization of potential energy efficiency needs and opportunities in subsection (2) of this section to make offers of energy audit services to project owners and operators. The department shall use all practicable means to achieve the completion of energy audits in at least twenty-five percent of the properties in its portfolio that exceed twenty-five years in age, by June 30, 2011. Where the energy audits identify cost-effective weatherization and other energy efficiency measures, the department shall accord a priority within appropriated funding levels to include funding for energy efficiency improvements when the department allocates funding for renovation or rehabilitation of the property. 43.215.125 Washington head start program proposal—Report. (1) For the 2009-2011 fiscal biennium, to the extent funds are appropriated for this purpose, the department shall develop a proposal for implementing a statewide Washington head start program. To the extent possible while maintaining quality standards, the proposal should align the state early childhood education and assistance program with federal head start program eligibility criteria, guidelines, performance standards, and methods/processes for ensuring continuous improvement in program quality. In this proposal, the department shall make recommendations that:

(a) Identify federal head start program guidelines, performance measures and standards, or other requirements for which state flexibility would be recommended. This shall include an analysis of how state flexibility may impact outcomes for children and how that flexibility might deviate from outcomes associated with the federal standards. Areas to be examined must include, but are not limited to, transportation requirements, service hour configurations, delivery methods, and impact on rural programs;

(b) Provide comparative data regarding child performance, readiness, and educational outcomes for Washington’s existing head start and early childhood education and assistance programs;

(c) Determine the alignment between head start standards and the recommendations of Washington learns;

(d) Identify any change in the state early childhood education and assistance program laws that would be required to implement the Washington head start proposal;

(e) Identify additional resources needed to meet federal guidelines and standards. Areas to be examined must include, but are not limited to: Per-child funding levels, professional development and training needs, facilities needs, and technical assistance;

(f) Identify state early childhood education and assistance programs that do and do not offer full-day, full-year services to children, and what transition steps would be needed for these programs to operate in the same manner as federal head start programs;

(g) Provide steps for phasing-in the Washington head start proposal;

(h) Include a timeline, strategy, and funding needs to implement a statewide, state-supported early head start program as a component of the Washington head start proposal; and

(i) Detail the process the department would take with the regional office of federal head start in identifying any exceptions or waivers needed to provide flexibility and maintain high quality standards.

(2) In developing its recommendations for this proposal, the department shall seek, where appropriate and available, training or technical assistance from the appropriate regional office of federal head start in order to maximize nonstate resources that might be available for the consultative work and research involved with developing this proposal. The department also shall consult with and solicit input from:

(a) State early childhood education and assistance program providers on Indian reservations and across the state, including providers who operate solely state-supported programs;

(b) Tribal governments operating head start programs and early head start programs in the state to ensure that the needs of Indian and Alaskan native children and their families are incorporated into the recommendations of the proposal, especially as they pertain to standards or guidelines around language acquisition, school readiness, availability and need for services among Indian and Alaskan native children and their families, and curriculum development; and

(c) Providers operating migrant and seasonal head start programs in the state in order to address the needs of the children of migrant and seasonal farmworker families.

(3) The department shall make recommendations on how it would periodically review the standards and guidelines within the Washington head start program, including incorporation of the latest research and information on early childhood development as well as any new innovations that may further improve outcomes to low-income children and their families.

(4) The department’s recommendations on a Washington head start proposal shall include how the proposal aligns with the department’s current statutory duties. The recommendations shall also include any other options that may improve the quality of state-supported early learning programs.

(5) The department shall deliver its report to the governor and legislature by December 1, 2009. [2009 c 564 § 941; 2008 c 164 § 2.]

Effective date—2009 c 564: See note following RCW 2.68.020.

Findings—2008 c 164: "The legislature finds that:

(1) It is in the best interest of the state to provide early learning services to economically disadvantaged families;

(2) Research has demonstrated that comprehensive services, including family support services designed to meet the early education needs of low-income and at-risk children, are successful in improving school readiness, reducing the risk of juvenile delinquency and incarceration, and reducing reliance on public assistance among these children later in life;

(3) The state’s early childhood education and assistance program was originally established to serve as the state counterpart to the federal head start program. When it was created, it aligned with the federal program in both standards and funding levels;"
(4) The state early childhood education and assistance program has served an important role in providing comprehensive services to low-income children. However, since it was first created, per-child funding levels for the state program have not kept pace with funding levels for the federal program. This has resulted in fewer service hours for children and less intensive services for families; (5) Aligning performance standards and funding levels for the state early childhood education and assistance program with federal head start will improve the quality of state-supported early learning programs. Additionally, it will improve school readiness through measures, such as a forty percent increase in class time, and it will achieve administrative efficiencies and make state-supported services more easily recognizable and accessible to parents and families eligible for these programs; and (6) Providing quality early learning services for children from birth to age three is the most cost-effective investment society can make. Additionally, the state can use the demonstrated results from the federal early head start program as an example to expand its reach of services already provided to three and four-year old children to children in the critical birth to three years age category." [2008 c 164 § 1.]

43.215.495 Child care services—Declaration of policy. It shall be the policy of the state of Washington to:

(1) Recognize the family as the most important social and economic unit of society and support the central role parents play in child rearing. All parents are encouraged to care for and nurture their children through the traditional methods of parental care at home. The availability of quality, affordable child care is a concern for working parents, the costs of care are often beyond the resources of working parents, and child care facilities are not located conveniently to work places and neighborhoods. Parents are encouraged to participate fully in the effort to improve the quality of child care services.

(2) Promote a variety of culturally and developmentally appropriate child care settings and services of the highest possible quality in accordance with the basic principle of continuity of care. These settings shall include, but not be limited to, family day care homes, mini-centers, centers and schools.

(3) Promote the growth, development and safety of children by working with community groups including providers and parents to establish standards for quality service, training of child care providers, fair and equitable monitoring, and salary levels commensurate with provider responsibilities and support services.

(4) Promote equal access to quality, affordable, socio-economically integrated child care for all children and families.

(5) Facilitate broad community and private sector involvement in the provision of quality child care services to foster economic development and assist industry through the department of early learning. [2006 c 265 § 202; 1989 c 381 § 2; 1988 c 213 § 1. Formerly RCW 74.13.085.]

Part headings not law—Effective date—Severability—2006 c 265: See RCW 43.215.904 through 43.215.906.

Findings—1989 c 381: "The legislature finds that the increasing difficulty of balancing work life and family needs for parents in the workforce has made the availability of quality, affordable child care a critical concern for the state and its citizens. The prospect for labor shortages resulting from the aging of the population and the importance of the quality of the workforce to the competitiveness of Washington businesses make the availability of quality child care an important concern for the state and its businesses. The legislature further finds that investments are necessary to promote partnerships between the public and private sectors, educational institutions, and local governments to increase the supply, affordability, and quality of child care in the state." [1989 c 381 § 1.]

Severability—1989 c 381: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1989 c 381 § 7.]

Severability—1988 c 213: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1988 c 213 § 5.]

43.215.532 County regulation of family day-care centers—Twelve-month pilot projects. (1) Notwithstanding RCW 74.15.030, counties with a population of three thousand or less may adopt and enforce ordinances and regulations as provided in this section for family day-care providers as defined in RCW 43.215.020 for a twelve-month pilot project. Before a county may regulate family day-care providers in accordance with this section, it shall adopt ordinances and regulations that address, at a minimum, the following: (a) The size, safety, cleanliness, and general adequacy of the premises; (b) the plan of operation; (c) the character, suitability, and competence of a family day-care provider and other persons associated with a family day-care provider directly responsible for the care of children served; (d) the number of qualified persons required to render care; (e) the provision of necessary care, including food, clothing, supervision, and discipline; (f) the physical, mental, and social well-being of children served; (g) educational and recreational opportunities for children served; and (h) the maintenance of records pertaining to children served. (2) The county shall notify the department of social and health services in writing sixty days prior to adoption of the family day-care regulations required pursuant to this section. The transfer of jurisdiction shall occur when the county has notified the department in writing of the effective date of the regulations, and shall be limited to a period of twelve months from the effective date of the regulations. Regulation by counties of family day-care providers as provided in this section shall be administered and enforced by those counties. The department shall not regulate these activities nor shall the department bear any civil liability under chapter 74.15 RCW for the twelve-month pilot period. Upon request, the department shall provide technical assistance to any county that is in the process of adopting the regulations required by this section, and after the regulations become effective. (3) Any county regulating family day-care providers pursuant to this section shall report to the governor and the appropriate committees of the legislature concerning the outcome of the pilot project upon expiration of the twelve-month pilot period. The report shall include the ordinances and regulations adopted pursuant to subsection (1) of this section and a description of how those ordinances and regulations address the specific areas of regulation identified in subsection (1) of this section. [2005 c 509 § 1. Formerly RCW 74.15.031.] *Reviser’s note: Chapter 265, Laws of 2006, deleted the definition of "family day-care provider" in RCW 74.15.020 and created it in RCW 43.215.010.

2. Provide technical assistance to employers regarding child care services, working with and through local resource and referral organizations whenever possible. Such technical assistance shall include at a minimum:
   a. Assessing the child care needs of employees and perspective employees;
   b. Reviewing options available to employers interested in increasing access to child care for their employees;
   c. Developing techniques to permit small businesses to increase access to child care for their employees;
   d. Reviewing methods of evaluating the impact of child care activities on employers; and
   e. Preparing, collecting, and distributing current information for employers on options for increasing involvement in child care; and
3. Provide assistance to local child care resource and referral organizations to increase their capacity to provide quality technical assistance to employers in their community. [2006 c 265 § 203; 1989 c 381 § 6. Formerly RCW 74.13.0902.]

43.215.555 Child care expansion grant fund. (1) The legislature recognizes that a severe shortage of child care exists to the detriment of all families and employers throughout the state. Many workers are unable to enter or remain in the workforce due to a shortage of child care resources. The high costs of starting a child care business create a barrier to the creation of new slots, especially for children with special needs.

(2) A child care expansion grant fund is created in the custody of the secretary of the department of social and health services. Grants shall be awarded on a one-time only basis to persons, organizations, or schools needing assistance to start a child care center or mini-center as defined by the department by rule, or to existing licensed child care providers, including family home providers, for the purpose of making capital improvements in order to accommodate handicapped children as defined under chapter 72.40 RCW, sick children, or infant care, or children needing night time care. No grant may exceed ten thousand dollars. Start-up costs shall not include operational costs after the first three months of business.

(3) Child care expansion grants shall be awarded on the basis of need for the proposed services in the community, within appropriated funds.

(4) The department shall adopt rules under chapter 34.05 RCW setting forth criteria, application procedures, and methods to assure compliance with the purposes described in this section. [1988 c 213 § 3. Formerly RCW 74.13.0905.]

For the purposes of this chapter, the terms spouse, marriage, marital, husband, wife, widow, widower, next of kin, and family shall be interpreted as applying equally to state registered domestic partnerships or individuals in state registered domestic partnerships as well as to marital relationships and married persons, and references to dissolution of marriage shall apply equally to state registered domestic partnerships that have been terminated, dissolved, or invalidated, to the extent that such interpretation does not conflict with federal law. Where necessary to implement chapter 521, Laws of 2009, gender-specific terms such as husband and wife used in any statute, rule, or other law shall be construed to be gender neutral, and applicable to individuals in state registered domestic partnerships. 43.300.080 Cost-reimbursement agreements.

43.300.080 Cost-reimbursement agreements. (1) The department may enter into a written cost-reimbursement agreement with a permit applicant or project proponent to recover from the applicant or proponent the reasonable costs incurred by the department in carrying out the requirements of this chapter, as well as the requirements of other relevant laws, as they relate to permit coordination, environmental
review, application review, technical studies, and permit processing.

(2) The cost-reimbursement agreement shall identify the tasks and costs for work to be conducted under the agreement. The agreement must include a schedule that states:
   (a) The estimated number of weeks for initial review of the permit application;
   (b) The estimated number of revision cycles;
   (c) The estimated number of weeks for review of subsequent revision submittals;
   (d) The estimated number of billable hours of employee time;
   (e) The rate per hour; and
   (f) A date for revision of the agreement if necessary.

(3) The written cost-reimbursement agreement shall be negotiated with the permit applicant or project proponent. Under the provisions of a cost-reimbursement agreement, funds from the applicant shall be used by the department to contract with an independent consultant to carry out the work covered by the cost-reimbursement agreement. The department may also use funds provided under a cost-reimbursement agreement to hire temporary employees, to assign current staff to review the work of the consultant, to provide necessary technical assistance when an independent consultant with comparable technical skills is unavailable, and to recover reasonable and necessary direct and indirect costs that arise from processing the permit. The department shall, in developing the agreement, ensure that final decisions that involve policy matters are made by the agency and not by the consultant. The department shall make an estimate of the number of permanent staff hours to process the permits, and shall contract with consultants or hire temporary employees to replace the time and functions committed by these permanent staff to the project. The billing process shall provide for accurate time and cost accounting and may include a billing cycle that provides for progress payments.

(4) The cost-reimbursement agreement must not negatively impact the processing of other permit applications. In order to maintain permit processing capacity, the agency may hire outside consultants, temporary employees, or make internal administrative changes. Consultants or temporary employees hired as part of a cost-reimbursement agreement or to maintain agency capacity are hired as agents of the state and not of the permit applicant. The restrictions of chapter 42.52 RCW apply to any cost-reimbursement agreement, and to any person hired as a result of a cost-reimbursement agreement. (2) The plan shall include, but is not limited to, the following elements: (a) Strategies for combining the existing functions and responsibilities of both agencies into a coordinated and unified department including a strategic plan for each major program area that includes implementation steps, evaluation measures, and methods for collaboration among programs; (b) Recommendations for any changes in existing programs and functions of both agencies, including new initiatives and possible transfer of programs and functions to and from other departments; (c) Implementation steps necessary to bring about operation of the combined department as a single entity; (d) Benchmarks by which to measure progress and to evaluate the performance and effectiveness of the department’s efforts; and (e) Strategies for coordinating and maximizing federal, state, local, international, and private sector support for community and economic development efforts within the state.

Estimated economic impact must include evidence of anticipated private investment, job creation, innovation, and commercialization. The director shall require evidence that zone applicants will promote commercialization, innovation, and collaboration among zone residents.

(5) Innovation partnership zones are eligible for funds and other resources as provided by the legislature or at the discretion of the governor.

43.330.290 Microenterprise development program.
The microenterprise development program is established in the department of commerce. In implementing the program, the department:

(1) Shall provide organizational support to a statewide microenterprise association and shall contract with the association for the delivery of services and distribution of grants;

(a) The association shall serve as the department’s agent in carrying out the purpose and service delivery requirements of this section;

(b) The association’s contract with the department shall specify that in administering the funds provided for under subsection (3) of this section, the association may use no greater than ten percent of the funds to cover administrative expenses;

(2) Shall provide funds for capacity building for the statewide microenterprise association and microenterprise development organizations throughout the state;

(3) Shall provide grants to microenterprise development organizations for the delivery of training and technical assistance services;

(4) Shall identify and facilitate the availability of state, federal, and private sources of funds which may enhance microenterprise development in the state;

(5) Shall develop with the statewide microenterprise association criteria for the distribution of grants to microenterprise development organizations. Such criteria may include:

(a) The geographic representation of all regions of the state, including both urban and rural communities;

(b) The ability of the microenterprise development organization to provide business development services in low-income communities;

(c) The scope of services offered by a microenterprise development organization and their efficiency in delivery of such services;

(d) The ability of the microenterprise development organization to monitor the progress of its customers and identify technical and financial assistance needs;

(e) The ability of the microenterprise development organization to work with other organizations, public entities, and financial institutions to meet the technical and financial assistance needs of its customers;

(f) The sufficiency of operating funds for the microenterprise development organization; and

(g) Such other criteria as agreed by the department and the association;

(6) Shall require the statewide microenterprise association and any microenterprise development organization receiving funds through the microenterprise development program to raise and contribute to the effort funded by the microenterprise development program an amount equal to twenty-five percent of the microenterprise development program funds received. Such matching funds may come from private foundations, federal or local sources, financial institutions, or any other source other than funds appropriated from the legislature;

(7) Shall require under its contract with the statewide microenterprise association an annual accounting of program outcomes, including job creation, access to capital, leveraging of nonstate funds, and other outcome measures specified by the department. By January 1, 2012, the joint legislative audit and review committee shall use these outcome data and other relevant information to evaluate the program’s effectiveness; and

(8) May adopt rules as necessary to implement this section. [2009 c 565 § 15; 2007 c 322 § 3.]

Findings—Purpose—Intent—2007 c 322: "(1) The legislature finds that:

(a) Microenterprises are an important portion of Washington’s economy, providing approximately twenty percent of the employment in Washington and playing a vital role in job creation.

(b) While community-based microenterprise development organizations have expanded their assistance to their microentrepreneur customers in recent years, there remains a lack of access to capital, training, and technical assistance for low-income microentrepreneurs.

(c) Support for microenterprise development offers a means to expand business and job creation in low-income communities in both rural and urban areas of the state.

(d) Local and state charitable foundation support, federal program funding, and private sector support can be leveraged by a statewide program for development of microenterprises.

(2) It is the purpose of this act to assist microenterprises in job creation by increasing the training, technical assistance, and financial resources available to microenterprises. It is the intention of the legislature to carry out this purpose by enabling the department of community, trade, and economic development to contract with a statewide microenterprise association with the potential to provide organizational support and administer grants to local microenterprise development organizations, subject to the requirements of this act, and to leverage additional funds from sources other than moneys appropriated from the general fund." [2007 c 322 § 1.]

(b) The department shall appoint: (i) Representatives of local law enforcement from a list provided by the Washington association of sheriffs and police chiefs; (ii) representatives of county prosecutors from a list provided by the Washington association of prosecuting attorneys; and (iii) representatives of financial institutions.

(c) Each task force shall:
(i) Hold regular meetings to discuss emerging trends and threats of local financial fraud and identity theft crimes;
(ii) Set priorities for the activities for the task force;
(iii) Apply to the department for funding to (A) hire prosecutors and/or law enforcement personnel dedicated to investigating and prosecuting financial fraud and identity theft crimes; and (B) acquire other needed resources to conduct the work of the task force;
(iv) Establish outcome-based performance measures; and
(v) Twice annually report to the department regarding the activities and performance of the task force.

(3) The financial fraud and identity theft crimes investigation and prosecution account is created in the state treasury. Moneys in the account may be spent only after appropriation. Revenue to the account may include appropriations, revenues generated by the surcharge imposed in RCW 70.260.010. Moneys in the account may be spent only after appropriation. Revenue to the account may include appropriations, revenues generated by the surcharge imposed in RCW 62A.9A-525, federal funds, and any other gifts or grants. Expenditures from the account may be used only to support the activities of the financial fraud and identity theft crime investigation and prosecution task forces and the program administrative expenses of the department, which may not exceed ten percent of the amount appropriated.

(4) For purposes of this section, "financial fraud and identity theft crimes" includes those that involve: Check fraud, chronic unlawful issuance of bank checks, embezzlement, credit/debit card fraud, identity theft, forgery, counterfeited instruments such as checks or documents, organized counterfeit check rings, and organized identification theft rings. [2009 c 565 § 16; 2008 c 290 § 1.]

Expiration dates—2009 c 565 §§ 16 and 41: "(1) Section 16 of this act expires July 1, 2015.
(2) Section 41 of this act expires June 30, 2016." [2009 c 565 § 57.]
Expiration date—2008 c 290: "This act expires July 1, 2015." [2008 c 290 § 4.]

43.330.320 Obtaining energy efficiency services—Awarding grants to financial institutions—Credit enhancements. (1) The department must: (a) Establish a process to award grants on a competitive basis to provide grants to financial institutions for the purpose of creating credit enhancements, such as loan loss reserve funds as specified in RCW 43.330.330 and 43.330.350, and consumer financial products and services that will be used to obtain energy efficiency services; and (b) develop criteria, in consultation with the department of financial institutions, regarding the extent to which funds will be provided for the purposes of credit enhancements and set forth principles for accountability for financial institutions receiving funding for credit enhancements.

(2) The department must:
(a) Give priority to financial institutions that provide both consumer financial products or services and direct outreach;
(b) Approve any financing mechanisms offered by local municipalities under RCW 43.330.350; and
(c) Require any financial institution or other entity receiving funding for credit enhancements to:
(i) Provide books, accounts, and other records in such a form and manner as the department may require;
(ii) Provide an estimate of projected loan losses; and
(iii) Provide the financial institution's plan to manage loan loss risks, including the rationale for sizing a loan loss reserve and the use of other credit enhancements, as applicable. [2009 c 379 § 205.]

Finding—Intent—Effective date—2009 c 379: See notes following RCW 70.260.010.

43.330.330 Funding energy efficiency improvements—Risk reduction mechanisms—Legislative intent. (1) The legislature finds that the creation and use of risk reduction mechanisms will promote greater involvement of local financial institutions and other financing mechanisms in funding energy efficiency improvements and will achieve greater leverage of state and federal dollars. Risk reduction mechanisms will allow financial institutions to lend to a broader pool of applicants on more attractive terms, such as potentially lower rates and longer loan terms. Placing a portion of funds in long-term risk reduction mechanisms will promote greater involvement of financial institutions while providing funding to projects quickly.

(2) It is the intent of the legislature to leverage new federal funding aimed at promoting energy efficiency projects, improving energy efficiency, and increasing family-wage jobs. To this end, the legislature intends to invest a portion of all federal funding, subject to federal requirements, for energy efficiency projects in financial mechanisms that will provide for maximum leverage of financing. [2009 c 379 § 206.]

Finding—Intent—Effective date—2009 c 379: See notes following RCW 70.260.010.

43.330.340 Appliance efficiency rebate program. The department may create an appliance efficiency rebate program with available funds from the energy efficient appli-
43.330.350 Use of moneys by local municipalities to leverage financing for energy efficiency projects. (1) Local municipalities receiving federal stimulus moneys through the federal energy efficiency and conservation block grant program or state energy program are authorized to use those funds, subject to federal requirements, to establish loan loss reserves or toward risk reduction mechanisms, such as loan loss reserves, to leverage financing for energy efficiency projects.

(2) Interest rate subsidies, financing transaction cost subsidies, capital grants to energy users, and other forms of grants and incentives that support financing energy efficiency projects are authorized uses of federal energy efficiency funding.

(3) Financing mechanisms offered by local municipalities under this section must conform to all applicable state and federal rules and regulations. [2009 c 379 § 208.]

Finding—Intent—Effective date—2009 c 379: See notes following RCW 70.260.010.

43.330.360 Findings—Involvement of state bond authorities in financing energy efficiency projects. (1) The legislature finds that the state bond authorities have capacities that can be applied to financing energy efficiency projects for their respective eligible borrowers: Washington economic development finance authority for industry; Washington state housing finance commission for single-family and multifamily housing, commercial properties, agricultural properties, and nonprofit facilities; Washington higher education facilities authority for private, nonprofit higher education; and Washington health care facilities authority for hospitals and all types of health clinics.

(2)(a) Subject to federal requirements, the state bond authorities may accept and administer an allocation of the state’s share of the federal energy efficiency funding for designing energy efficiency finance loan products and for developing and operating energy efficiency finance programs. The state bond authorities shall coordinate with the department on the design of the bond authorities’ program.

(b) The department may make allocations of the federal funding to the state bond authorities and may direct and administer funding for outreach, marketing, and delivery of energy services to support the programs by the state bond authorities.

(c) The legislature authorizes a portion of the federal energy efficiency funds to be used by the state bond authorities for credit enhancements and reserves for such programs.

(3) The Washington state housing finance commission may:

(a) Issue revenue bonds as the term "bond" is defined in RCW 43.180.020 for the purpose of financing loans for energy efficiency and renewable energy improvement projects in accordance with RCW 43.180.150;

(b) Establish eligibility criteria for financing that will enable it to choose applicants who are likely to repay loans made or acquired by the commission and funded from the proceeds of federal funds or commission bonds; and

(c) Participate fully in federal and other governmental programs and take such actions as are necessary and consistent with chapter 43.180 RCW to secure to itself and the people of the state the benefits of programs to promote energy efficiency and renewable energy technologies. [2009 c 379 § 209.]

Finding—Intent—Effective date—2009 c 379: See notes following RCW 70.260.010.

**Sunset Act application:** See note following chapter digest.
(3) The legislature further finds that a successful transfer of development rights program must consider housing affordable to all economic segments of the population, and economic development programs and policies in designated receiving areas. Counties, cities, and towns that decide to participate in the regional transfer of development rights program for central Puget Sound are encouraged to adopt comprehensive plan policies and development regulations to implement the program that do not compete or conflict with comprehensive plan policies and development regulations that require or encourage affordable housing. Participating cities and towns are also encouraged to use the development of receiving areas to maximize opportunities for economic development that supports the creation or retention of jobs.

(4) Participation in a regional transfer of development rights program by counties, cities, and towns should be as simple as possible.

(5) Accordingly, the legislature has determined that it is good public policy to build upon existing transfer of development rights programs, pilot projects, and private initiatives that foster effective use of transferred development rights through the creation of a market-based program that focuses on the central Puget Sound region. A regional transfer of development rights program in the central Puget Sound should be voluntary, incentive-driven, and separate, but compatible with existing local transfer of development rights programs. (5) "Receiving areas" are lands within and designated by a city or town in which transferable development rights from the regional program established by this chapter may be used.

(6) "Regional transfer of development rights program" or "regional program" means the regional transfer of development rights program established by RCW 43.362.030 in central Puget Sound, including King, Pierce, Kitsap, and Snohomish counties and the cities and towns within these counties.

43.362.030 Program established in central Puget Sound. (1) Subject to the availability of funds appropriated for this specific purpose or another source of funding made available for this specific purpose, the department shall establish a regional transfer of development rights program in central Puget Sound, including King, Kitsap, Snohomish, and Pierce counties and the cities and towns within these counties. The program must be guided by the Puget Sound regional council’s multicounty planning policies adopted under RCW 36.70A.210(7).

(2) The purpose of the program is to foster voluntary county, city, and town participation in the program so that interjurisdictional transfers occur between the counties, cities, and towns, including transfers from counties to cities and towns in other counties. Private transactions between buyers and sellers of transferable development rights are allowed and encouraged under this program. In fulfilling the requirements of this chapter, the department shall work with the Puget Sound regional council to implement a regional program.

(3) The department shall encourage participation by the cities, towns, and counties in the regional program. The regional program shall not be implemented in a manner that negatively impacts existing local programs. The department shall encourage and work to enhance the efforts in any of these counties, cities, or towns to develop local transfer of development rights programs or enhance existing programs.

(4) Subject to the availability of funds appropriated for this specific purpose or another source of funding made available for this specific purpose, the department shall do the following to implement a regional transfer of development rights program in central Puget Sound:

(a) Serve as the central coordinator for state government in the implementation of RCW 43.362.030 through 43.362.070.

(b) Offer technical assistance to cities, towns, and counties planning for participation in the regional transfer of development rights program. The department’s technical assistance shall:
(i) Include written guidance for local development and implementation of the regional transfer of development rights program;

(ii) Include guidance for and encourage permitting or environmental review incentives for developers to participate. Activities may include, but are not limited to, provision for by-right permitting, substantial environmental review of a subarea plan for the receiving area that includes the use of transferable development rights, adoption of a categorical exemption for infill under RCW 43.21C.229 for a receiving area, or adoption of a planned action under RCW 43.21C.240;

(iii) Provide guidance to counties, cities, and towns to negotiate receiving area ratios and foster private transactions;

(iv) Provide guidance and encourage planning for receiving areas that do not compete or conflict with comprehensive plan policies and development regulations that require or encourage affordable housing; and

(v) Provide guidance and encourage planning for receiving areas that maximizes opportunities for economic development through the creation or retention of jobs.

(c) Work with counties, cities, and towns to inform elected officials, planning commissions, and the public regarding the regional transfer of development rights program. The information provided by the department shall discuss the importance of preserving farmland and farming, and forest land and forestry, to cities and towns and the local economy.

(d) Based on information provided by the counties, cities, and towns, post on a web site information regarding transfer of development rights transactions and a list of interested buyers and sellers of transferable development rights.

(e) Coordinate with and provide resources to state and local agencies and stakeholders to provide public outreach.

[2009 c 474 § 3.]

43.362.040 Designation of sending and receiving areas—Inclusion of certain lands in programs for agricultural or forest land conservation. (1) Counties shall use the following criteria to guide the designation of sending areas for participation in the regional transfer of development rights program:

(a) Land designated as agricultural or forest land of long-term commercial significance;

(b) Land designated rural that is being farmed or managed for forestry;

(c) Land whose conservation meets other state and regionally adopted priorities; and

(d) Land that is in current use as a manufactured/mobile home park as defined in chapter 59.20 RCW.

Nothing in these criteria limits a county’s authority to designate additional lands as a sending area for conservation under a local county transfer of development rights program.

(2) Upon purchase of a transferable development right from land designated rural that is being farmed or managed for forestry, a county must include the land from which the right was purchased in any programs it administers for conservation of agricultural land or forest land.

(3) The designation of receiving areas is limited to incorporated cities or towns. Prior to designating a receiving area, a city or town should have adequate infrastructure planned and funding identified for development in the receiving area at densities or intensities consistent with what can be achieved under the local transfer of development rights program. Nothing in this subsection limits a city’s, town’s, or county’s authority to designate additional lands for a receiving area under a local intrajurisdictional transfer of development rights program that is not part of the regional program.

(4) Cities and towns participating in the regional transfer of development rights program shall have discretion to determine which sending areas they receive development rights from to be used in their designated receiving areas.

(5) Designation of sending and receiving areas should include a process for public outreach consistent with the public participation requirements in chapter 36.70A RCW.

[2009 c 474 § 4.]

43.362.050 Interlocal agreement for transfers of development rights—Rules. (1) To facilitate participation, the department shall develop and adopt by rule terms and conditions of an interlocal agreement for transfers of development rights between counties, cities, and towns. Counties, cities, and towns participating in the regional program have the option of adopting the rule by reference to transfer development rights across jurisdictional boundaries as an alternative to entering into an interlocal agreement under chapter 39.34 RCW.

(2) This section and the rules adopted under this section shall be deemed to provide an alternative method for the implementation of a regional transfer of development rights program, and shall not be construed as imposing any additional condition upon the exercise of any other powers vested in municipalities.

(3) Nothing in this section prohibits a county, city, or town from entering into an interlocal agreement under chapter 39.34 RCW to transfer development rights under the regional program.

[2009 c 474 § 5.]

43.362.060 Participation in regional transfer of development rights program—Requirements—Incentives for developers. (1) Counties, cities, and towns that choose to participate in the regional transfer of development rights program must:

(a) Enter into an interlocal agreement or adopt a resolution adopting by reference the provisions in the department rule authorized in RCW 43.362.050; and

(b) Adopt transfer of development rights policies or implement development regulations that:

(i) Comply with chapter 36.70A RCW;

(ii) Designate sending or receiving areas consistent with RCW 43.362.030 through 43.362.070; and

(iii) Adopt a sending or receiving area ratio in cooperation with the sending or receiving jurisdiction.

(2) Cities and towns that choose to participate in the regional transfer of development rights program are encouraged to provide permitting or environmental review incentives for developers to participate. Such incentives may include, but are not limited to, provision for by-right permitting, substantial environmental review of a subarea plan for the receiving area that includes the use of transferable development rights, adoption of a categorical exemption for infill

under RCW 43.21C.229 for a receiving area, or adoption of a planned action under RCW 43.21C.240. [2009 c 474 § 6.]

43.362.070 Quantitative and qualitative performance measures—Reporting—Posting on web site. The department will develop quantitative and qualitative performance measures for monitoring the regional transfer of development rights program. The performance measures may address conservation of land and creation of compact communities, as well as other measures identified by the department. The department may require cities, towns, and counties to report on these performance measures biannually. The department shall compile any performance measure information that has been reported by the counties, cities, and towns and post it on a web site. [2009 c 474 § 7.]
