Transportation benefit districts: Chapter 36.73 RCW.

36.83.010 Service districts authorized—Bridge and road improvements—Powers—Governing body. The legislative authority of a county may establish one or more service districts within the county for the purpose of providing and funding capital and maintenance costs for any bridge or road improvement or for providing and funding capital costs for any state highway improvement a county or a road district has the authority to provide. A service district may not include any area within the corporate limits of a city or town unless the city or town governing body adopts a resolution approving inclusion of the area within its limits. A service district is a quasi municipal corporation, an independent taxing "authority" within the meaning of Article VII, section 1 of the state Constitution, and a "taxing district" within the meaning of Article VII, section 2 of the state Constitution.

A service district shall constitute a body corporate and shall possess all the usual powers of a corporation for public purposes as well as all other powers that may now or hereafter be specifically conferred by statute, including, but not limited to, the authority to hire employees, staff, and services, to enter into contracts, to acquire, hold, and dispose of real and personal property, and to sue and be sued. All projects constructed by a service district pursuant to the provisions of this chapter shall be competitively bid and contracted.

A board of three commissioners appointed by the county legislative authority or county executive pursuant to this chapter shall be the governing body of a service district. The county treasurer shall act as the ex officio treasurer of the service district. The electors of a service district are all registered voters residing within the district. [1996 c 292 § 1; 1985 c 400 § 2; 1983 c 130 § 1.]

County may fund improvements to state highways: RCW 36.75.035.

36.83.020 Establishment—Notice, hearing—Termination of proceedings—Modification of boundaries—Dissolution. (1) A county legislative authority proposing to establish a service district shall conduct a hearing at the time and place specified in a notice published at least once, not less than ten days prior to the hearing, in a newspaper of general circulation within the proposed service district. This notice shall be in addition to any other notice required by law to be published. The notice shall specify the functions or activities proposed to be provided or funded by the service district. Additional notice of the hearing may be given by mail, posting within the proposed service district, or in any manner the county legislative authority deems necessary to notify affected persons. All hearings shall be public and the county legislative authority shall hear objections from any person affected by the formation, modification of the boundaries, or dissolution of the service district.

(2) Following the hearing held pursuant to subsection (1) of this section, the county legislative authority may establish a service district if the county legislative authority finds the action to be in the public interest and adopts an ordinance or resolution providing for the establishment of the service district. The legislation establishing a service district shall specify the functions or activities to be exercised or funded and
establish the boundaries of the service district. Functions or activities proposed to be provided or funded by the service district may not be expanded beyond those specified in the notice of hearing, except as provided in subsection (4) of this section.

(3) At any time prior to the county legislative authority establishing a service district pursuant to this section, all further proceedings shall be terminated upon the filing of a verified declaration of termination signed by a majority of the registered voters of the proposed service district.

(4) With the approval of the county legislative authority, the governing body of a service district may modify the boundaries of, expand or otherwise modify the functions of, or dissolve the service district after providing notice and conducting a public hearing or hearings in the manner provided in subsection (1) of this section. The governing body must make a determination that the proposed action is in the public interest and adopt a resolution providing for the action. [1996 c 292 § 2; 1983 c 130 § 2.]

36.83.030 Excess ad valorem property taxes authorized. (1) A service district may levy an ad valorem property tax, in excess of the one percent limitation, upon the property within the district for a one-year period whenever authorized by the voters of the district pursuant to RCW 84.52.052 and Article VII, section 2(a) of the state Constitution.

(2) A service district may provide for the retirement of voter approved general obligation bonds, issued for capital purposes only, by levying bond retirement ad valorem property tax levies, in excess of the one percent limitation, whenever authorized by the voters of the district pursuant to Article VII, section 2(b) of the state Constitution and RCW 84.52.056. [1983 c 130 § 3.]

36.83.040 General obligation bonds, excess property tax levies authorized—Limitations. (1) To carry out the purpose of this chapter, a service district may issue general obligation bonds, not to exceed an amount, together with any other outstanding nonvoter approved general obligation indebtedness, equal to three-eighths of one percent of the value of taxable property within the district, as the term "value of taxable property" is defined in RCW 39.36.015. A service district may additionally issue general obligation bonds for capital purposes only, together with any outstanding general obligation indebtedness, not to exceed an amount equal to one and one-fourth percent of the value of the taxable property within the district, as the term "value of taxable property" is defined in RCW 39.36.015, when authorized by the voters of the service district pursuant to Article VIII, section 6 of the state Constitution, and to provide for the retirement thereof by excess property tax levies as provided in RCW 36.83.030(2). The service district may submit a single proposition to the voters which, if approved, authorizes both the issuance of the bonds and the bond retirement property tax levies.

(2) General obligation bonds with a maturity in excess of forty years shall not be issued. The governing body of the service district shall by resolution determine for each general obligation bond issue the amount, date, terms, conditions, denominations, maximum fixed or variable interest rate or rates, maturity or maturities, redemption rights, registration privileges, manner of execution, manner of sale, callable provisions, if any, covenants, and form, including registration as to principal and interest, registration as to principal only, or bearer. Registration may include, but not be limited to: (a) A book entry system of recording the ownership of a bond whether or not physical bonds are issued; or (b) recording the ownership of a bond together with the requirement that the transfer of ownership may only be effected by the surrender of the old bond and either the reissuance of the old bond or the issuance of a new bond to the new owner. Facsimile signatures may be used on the bonds and any coupons. Refunding general obligation bonds may be issued in the same manner as general obligation bonds are issued.

(3) Whenever general obligation bonds are issued to fund specific projects or enterprises that generate revenues, charges, user fees, or special assessments, the service district which issues the bonds may specifically pledge all or a portion of the revenues, charges, user fees, or special assessments to refund the general obligation bonds. [1983 c 130 § 4.]

36.83.050 Local improvement districts authorized—Assessments—Special assessment bonds and revenue bonds—Limitations. (1) A service district may form a local improvement district or utility local improvement district to provide any local improvement it has the authority to provide, impose special assessments on all property specially benefited by the local improvements, and issue special assessment bonds or revenue bonds to fund the costs of the local improvement. Improvement districts shall be created and assessments shall be made and collected pursuant to chapters 35.43, 35.44, 35.49, 35.50, 35.53, and 35.54 RCW.

(2) The governing body of a service district shall by resolution establish for each special assessment bond issue the amount, date, terms, conditions, denominations, maximum fixed or variable interest rate or rates, maturity or maturities, redemption rights, registration privileges, manner of execution, manner of sale, callable provisions, if any, covenants, and form, including registration as to principal and interest, registration as to principal only, or bearer. Registration may include, but not be limited to: (a) A book entry system of recording the ownership of a bond whether or not physical bonds are issued; or (b) recording the ownership of a bond together with the requirement that the transfer of ownership may only be effected by the surrender of the old bond and either the reissuance of the old bond or the issuance of a new bond to the new owner. Facsimile signatures may be used on the bonds and any coupons. The maximum term of any special assessment bonds shall not exceed thirty years beyond the date of issue. Special assessment bonds issued pursuant to this section shall not be an indebtedness of the service district issuing the bonds, and the interest and principal on the bonds shall only be payable from special assessments made for the improvement for which the bonds were issued and any local improvement guaranty fund that the service district has created. The owner or bearer of a special assessment bond or any interest coupon issued pursuant to this section shall not have any claim against the service district arising from the bond or coupon except for the payment from special assessments made for the improvement for which the bonds were issued and any local improvement guaranty fund the service district
has created. The service district issuing the special assessment bonds is not liable to the owner or bearer of any special assessment bond or any interest coupon issued pursuant to this section for any loss occurring in the lawful operation of its local improvement guaranty fund. The substance of the limitations included in this subsection shall be plainly printed, written, or engraved on each special assessment bond issued pursuant to this section.

(3) The governing body may establish and pay moneys into a local improvement guaranty fund to guarantee special assessment bonds issued by the service district.

(4) The governing body of a service district shall provide for the payment of both the special assessments which are imposed and a portion of the utility income from the utility improvement into a special fund established for the payment of the revenue bonds to defray the cost of the utility local improvement whenever it desires to create a utility local improvement district and issue revenue bonds to fund the local improvement. [1983 c 130 § 5.]

36.83.090 Eminent domain. A service district may exercise the power of eminent domain to obtain property for its authorized purposes in the manner counties exercise the powers of eminent domain. [1983 c 130 § 9.]

36.83.100 Commissioners—Appointment—Terms—Vacancies—Compensation—Powers. If the county legislative authority establishes a road and bridge service district, it shall promptly appoint three persons who are residents of the territory included in that service district to serve as the commissioners of the service district. For counties having an elected executive, the executive shall appoint those commissioners subject to confirmation by the legislative authority of the county. The commissioners first appointed shall be designated to serve for terms of one, two, and three years, respectively, from the date of their appointment. Thereafter, service district commissioners shall be appointed for a term of office of five years. Vacancies must be filled for any unexpired term in the same manner as the original appointment. No member of the legislative authority of the county in which a service district is created may be a commissioner of that service district, except that, if the boundaries of the service district are included within or coterminous with the boundaries of a county commissioner or council district, the county commissioner or councilmember elected from that commissioner or council district may be appointed to serve as a commissioner of the service district. A commissioner shall hold office until his or her successor has been appointed and qualified, unless sooner removed from office for cause in accordance with this chapter or removed by referendum in accordance with RCW 36.83.110. A certificate of the appointment or reappointment of any commissioner must be filed with the county auditor, and such certificate is conclusive evidence of the due and proper appointment of the commissioner. The commissioners of the service district shall receive no compensation for their services, in any capacity, but are entitled to reimbursement for reasonable and necessary expenses, including travel expenses, incurred in the discharge of their duties.

The powers of each service district are vested in the commissioners of the service district. Two commissioners constitute a quorum of the service district for the purpose of conducting its business and exercising its powers and for all other purposes. The commissioners of the service district shall organize itself and select its chair, vice-chair, and secretary, who shall serve one-year terms but may be selected for additional terms. When the office of any officer becomes vacant, the commissioners of the service district shall select a new officer from among the commissioners for the balance of the term of office. [1996 c 292 § 3.]

36.83.110 Election to retain commissioners—Referendum petition. Any registered voter residing within the boundaries of the road and bridge service district may file a referendum petition to call an election to retain any or all commissioners. Any referendum petition to call such election shall be filed with the county auditor no later than one year before the end of a commissioner’s term. Within ten days of the filing of a petition, the county auditor shall confer with the petitioner concerning form and style of the petition, issue an identification number for the petition, and write a ballot title for the measure. The ballot title shall be posed as a question: “Shall (name of commissioner) be retained as a road and bridge service district commissioner?” and the question shall be posed separately for each commissioner. The petitioner shall be notified of the identification number and ballot title within this ten-day period.

After this notification, the petitioner shall have thirty days in which to secure on petition forms the signatures of not less than twenty-five percent of the registered voters residing within the boundaries of the service district and file the signed petitions with the county auditor. Each petition form shall contain the ballot title. The county auditor shall verify the sufficiency of the signatures on the petitions. If sufficient valid signatures are properly submitted, the county auditor shall submit the referendum measure to the registered voters residing in the service district in a special election no later than one hundred twenty days after the signed petition has been filed with the county auditor. The special election
may be conducted by mail ballot as provided for in *chapter 29.36 RCW.

Improvements financed jointly by a service district and the county or city within which the improvements are located may be owned jointly by the service district and that county or city pursuant to an interlocal agreement. [1996 c 292 § 6.]

36.83.140 Local service district fund. If a service district is formed, there shall be created in the office of the county treasurer, as ex officio treasurer of the service district, a local service district fund with such accounts as the treasurer may find convenient or as the state auditor or the governing body of the service district may direct, into which shall be deposited all revenues received by or on behalf of the service district from tax levies, gifts, donations and any other source. The fund shall be designated "(name of county) (road/bridge) service district No. . . . fund." [1996 c 292 § 7.]

The petition must show the land owned by each petitioner and set forth that such county road is useless as part of the county road system and that the public will be benefited by its vacation and abandonment. The legislative authority may (1) require the petitioners to make an appropriate cash deposit or furnish an appropriate bond against which all costs and expenses incurred in the examination, report, and proceedings pertaining to the petition shall be charged; or (2) by ordinance or resolution require the petitioners to pay a fee adequate to cover such costs and expenses. [1991 c 363 § 89; 1985 c 369 § 4; 1963 c 4 § 36.87.020. Prior: 1937 c 187 § 49, part; RRS § 6450-49, part.]

[1969 ex.s. c 185 § 5.]

36.87.130 Vacation of roads abutting bodies of water prohibited unless for public purposes or industrial use. 36.88.010 Districts authorized—Purposes. All counties have the power to create county road improvement districts for the acquisition of rights-of-way and improvement of county roads, existing private roads that will become county roads as a result of this improvement district process and, with the approval of the state department of transportation, state highways; for the construction or improvement of necessary drainage facilities, bulkheads, retaining walls, and other appurtenances therefor, bridges, culverts, sidewalks, curbs and gutters, escalators, or moving sidewalks; and for the draining or filling of drainage potholes or swamps. Such counties have the power to levy and collect special assessments against the real property specially benefited thereby for the purpose of paying the whole or any part of the cost of such acquisition of rights-of-way, construction, or improvement. [1985 c 400 § 3; 1985 c 369 § 7; 1965 c 60 § 1; 1963 c 84 § 1; 1963 c 4 § 36.88.010. Prior: 1959 c 134 § 1; 1951 c 192 § 1.]

Reviser’s note: This section was amended by 1985 c 369 § 7 and by 1985 c 400 § 3, each without reference to the other. Both amendments are incorporated in the publication of this section pursuant to RCW 1.12.025(2). For rule of construction, see RCW 1.12.025(1).
36.88.015 Additional purposes. All counties have the power to create county road improvement districts for the construction, installation, improvement, operation, and maintenance of street and road lighting systems for any county roads, and subject to the approval of the state department of transportation, for state highways, and for safeguards to protect the public from hazards of open canals, flumes, or ditches, and the counties have the power to levy and collect special assessments against the real property specially benefited thereby for the purpose of paying the whole or any part of the cost of the construction, installation, or improvement together with the expense of furnishing electric energy, maintenance, and operation. [1984 c 7 § 41; 1965 c 60 § 2; 1963 c 84 § 2; 1963 c 4 § 36.88.015. Prior: 1959 c 75 § 4; 1953 c 152 § 1.]

Additional notes found at www.leg.wa.gov

36.88.020 Formation of district—How initiated. County road improvement districts may be initiated either by resolution of the board of county commissioners or by petition signed by the owners according to the records of the office of the county auditor of property to an aggregate amount of the majority of the lineal frontage upon the contemplated improvement and of the area within the limits of the county road improvement district to be created therefor. [1963 c 4 § 36.88.020. Prior: 1951 c 192 § 2.]

36.88.030 Formation of district—By resolution of intention—Procedure. In case the board of county commissioners shall desire to initiate the formation of a county road improvement district by resolution, it shall first pass a resolution declaring its intention to order such improvement, setting forth the nature and territorial extent of such proposed improvement, designating the number of the proposed road improvement district and describing the boundaries thereof, stating the estimated cost and expense of the improvement and the proportionate amount thereof which will be borne by the property within the proposed district, notifying the owners of property therein to appear at a meeting of the board at the time specified in such resolution, and directing the county road engineer to submit to the board at or prior to the date fixed for such hearing a diagram or print showing thereon the lots, tracts and parcels of land and other property which will be specially benefited thereby and the estimated amount of the cost and expense of such improvement to be borne by each lot, tract or parcel of land or other property, and also designating thereon all property which is being purchased under contract from the county. The resolution of intention shall be published in at least two consecutive issues of a newspaper of general circulation in such county, the date of the first publication to be at least fifteen days prior to the date fixed by such resolution for hearing before the board of county commissioners.

Notice of the adoption of the resolution of intention shall be given each owner or reputed owner of any lot, tract or parcel of land or other property within the proposed improvement district by mailing said notice to the owner or reputed owner of the property as shown on the tax rolls of the county treasurer at the address shown thereon at least fifteen days before the date fixed for the public hearing. The notice shall refer to the resolution of intention and designate the proposed improvement district by number. Said notice shall also set forth the nature of the proposed improvement, the total estimated cost, the proportion of total cost to be borne by assessments, the estimated amount of the cost and expense of such improvement to be borne by the particular lot, tract or parcel, the date and place of the hearing before the board of county commissioners, and shall contain the directions hereinafter provided for voting upon the formation of the proposed improvement district.

The clerk of the board shall prepare and mail, together with the notice above referred to, a ballot for each owner or reputed owner of any lot, tract or parcel of land within the proposed improvement district. This ballot shall contain the following proposition:

"Shall . . . . . . county road improvement district No. . . . . . . be formed?"

and, in addition, shall contain appropriate spaces for the signatures of the property owners, and a description of their property, and shall have printed thereon the direction that all ballots must be signed to be valid and must be returned to the clerk of the board of county commissioners not later than five o'clock p.m. of a day which shall be one week after the date of the public hearing.

The notice of adoption of the resolution of intention shall also contain the above directions, and, in addition thereto, shall state the rules by which the election shall be governed. [1970 ex.s. c 66 § 2; 1963 c 84 § 3; 1963 c 4 § 36.88.030. Prior: 1951 c 192 § 3.]

36.88.035 Notice must contain statement that assessments may vary from estimates. Any notice given to the public or to the owners of specific lots, tracts, or parcels of land relating to the formation of a county road improvement district shall contain a statement that actual assessments may vary from assessment estimates so long as they do not exceed a figure equal to the increased true and fair value the improvement adds to the property. [1989 c 243 § 5.]

36.88.040 Formation of district—By resolution of intention—Election—Rules. The election provided herein for cases where the improvement is initiated by resolution shall be governed by the following rules: (1) All ballots must be signed by the owner or reputed owner of property within the proposed district according to the records of the county auditor; (2) each ballot must be returned to the clerk of the board not later than one week after the public hearing; (3) each property owner shall have one vote for each full dollar of estimated assessment against his or her property as determined by the preliminary estimates and assessment roll; (4) the valid ballots shall be tabulated and a majority of the votes cast shall determine whether the formation of the district shall be approved or rejected. [2009 c 549 § 4140; 1963 c 4 § 36.88.040. Prior: 1951 c 192 § 4.]

[Title 36 RCW—page 272]
36.88.050  Formation of district—By petition—Procedure. In case any such road improvement shall be initiated by petition, such petition shall set forth the nature and territorial extent of such proposed improvement, and the fact that the signers thereof are the owners, according to the records of the county auditor of property to an aggregate amount of a majority of the lineal frontage upon the improvement to be made and of the area within the limits of the assessment district to be created therefor.

Upon the filing of such petition the board shall determine whether the same shall be sufficient and whether the property within the proposed district shall be sufficiently developed and if the board shall find the district to be sufficiently developed and the petition to be sufficient, it shall proceed to adopt a resolution setting forth the nature and territorial extent of the improvement petitioned for, designating the number of the proposed improvement district and describing the boundaries thereof, stating the estimated cost and expense of the improvement and the proportionate amount thereof which will be borne by the property within the proposed district, notifying the owners of property therein to appear at a meeting of the board at the time specified in such resolution, and directing the county road engineer to submit to the board at or prior to the date fixed for such hearing a diagram or print showing thereon the lots, tracts and parcels of land and other property which will be specially benefited thereby and the estimated amount of the cost and expense of such improvement to be borne by each lot, tract or parcel of land or other property, and also designating thereon all property which is being purchased under contract from the county. The resolution of intention shall be published in at least two consecutive issues of a newspaper of general circulation in such county, the date of the first publication to be at least fifteen days prior to the date fixed by such resolution for hearing before the board of county commissioners.

Notice of the adoption of the resolution of intention shall be given each owner or reputed owner of any lot, tract or parcel of land or other property within the proposed improvement district by mailing said notice to the owner or reputed owner of the property as shown on the tax rolls of the county treasurer at the address shown thereon at least fifteen days before the date fixed for the public hearing. The notice shall refer to the resolution of intention and designate the proposed improvement district by number. Said notice shall also set forth the nature of the proposed improvement, the total estimated cost, the proportion of total cost to be borne by assessments, the estimated amount of the cost and expense of such improvement to be borne by the particular lot, tract or parcel, the date and place of the hearing before the board of county commissioners, and the fact that property owners may withdraw their names from the petition or add their names thereto at any time prior to five o’clock p.m. of the day before the hearing. [1963 c 4 § 36.88.050. Prior: 1951 c 192 § 5.]

36.88.060  Formation of district—Hearing—Resolution creating district. Whether the improvement is initiated by petition or resolution the board shall conduct a public hearing at the time and place designated in the notice to property owners. At this hearing, the board may make such changes in the boundaries of the district or such modifications in the plans for the proposed improvement as shall be deemed necessary: PROVIDED, That the board may neither so alter the improvement as to increase the estimated cost by an amount greater than ten percent above that stated in the notice, nor increase the proportionate share of the cost to be borne by assessments from the proportion stated in the notice, nor change the boundaries of the district to include property not previously included therein without first passing a new resolution of intention and giving a new notice to property owners, in the manner and form and within the time herein provided for the original notice.

At said hearing, the board shall select the method of assessment, ascertain whether the plan of improvement or construction is feasible and whether the benefits to be derived therefrom by the property within the proposed district, together with the amount of any county road fund participation, exceed the costs and expense of the formation of the proposed district and the contemplated construction or improvement and shall make a written finding thereon. In case the proceedings have been initiated by petition, the board shall find whether the petition including all additions thereto or withdrawals therefrom made prior to five o’clock p.m. of the day before the hearing is sufficient within the boundaries of the district so established at said hearing by the board. If said petition shall be found insufficient the board shall by resolution declare the proceedings terminated. In case the proceedings have been initiated by resolution if the board shall find the improvement to be feasible, it shall continue the hearing until a day not more than fifteen days after the date for returning ballots for the purpose of determining the results of said balloting.

After the hearing the board may proceed to adopt a resolution creating the district and ordering the improvement. Such resolution shall establish such district as the " . . . . . . county road improvement district No. . . . " Such resolution shall describe the nature and territorial extent of the improvement to be made and the boundaries of the improvement district, shall describe the method of assessment to be used, shall declare the estimated cost and the proportion thereof to be borne by assessments, and shall contain a finding as to the result of the balloting by property owners in case the improvement shall have been initiated by resolution.

Upon the adoption of the resolution establishing the district, the board shall have jurisdiction to proceed with the improvement. The board’s findings on the sufficiency of petitions or on the results of the balloting shall be conclusive upon all persons. [1963 c 84 § 4; 1963 c 4 § 36.88.060. Prior: 1951 c 192 § 6.]

36.88.062  Formation of district—Committee or hearing officer may conduct hearings—Report to legislative authority. In lieu of the county legislative authority holding the hearing under RCW 36.88.060 to create the road improvement district, the county legislative authority may adopt an ordinance providing for a committee of the county legislative authority or an officer to conduct the hearings. The committee or hearing officer shall report recommendations on the resolution to the full county legislative authority for final action, which need not hold a hearing on the proposed assessment role and shall either adopt or reject the recommendations. [1994 c 71 § 3.]

(2010 Ed.)
36.88.065 Formation of district—Alternative method. If the county legislative authority desires to initiate the formation of a county road improvement district by resolution, it may elect to follow either the procedure set forth in chapter 35.43 RCW or the procedure set forth in RCW 36.88.030, and shall indicate the procedure selected in the resolution of intention. [1985 c 369 § 10.]

36.88.070 Diagram only preliminary determination. The diagram or print herein directed to be submitted to the board shall be in the nature of a preliminary determination upon the method, and estimated amounts, of assessments to be levied upon the property specially benefited by such improvement and shall in no case be construed as being binding or conclusive as to the amount of any assessments which may ultimately be levied. [1963 c 4 § 36.88.070. Prior: 1951 c 192 § 7.]

36.88.072 Waivers of protest—Recording—Limits on enforceability. If an owner of property enters into an agreement with a county waiving the property owner's right under RCW 36.88.030, 36.88.040, 36.88.050, 36.88.060, and 36.88.065 to protest formation of a road improvement district, the agreement must specify the improvements to be financed by the district and shall set forth the effective term of the agreement, which shall not exceed ten years. The agreement must be recorded with the auditor of the county in which the property is located. It is against public policy and void for an owner, by agreement, as a condition imposed in connection with proposed property development, or otherwise, to waive rights to object to the property owner's individual assessment (including the determination of special benefits allocable to the property), or to appeal to the superior court the decision of the county council affirming the final assessment roll. [1988 c 179 § 12.]

36.88.074 Preformation expenditures. The county engineer or other designated official may contract with owners of real property to provide for payment by the owners of the cost of the preparation of engineering plans, surveys, studies, appraisals, legal services, and other expenses associated with improvements to be financed in whole or in part by a local improvement district (not including the cost of actual construction of such improvements), that the owners elect to undertake. The contract may provide for reimbursement to the owner of such costs from the proceeds of bonds issued by the district after formation of a district under this chapter, from assessments paid to the district as appropriate, or by a credit in the amount of such costs against future assessments assessed against such property. Such reimbursement shall be made to the owner of the property at the time of reimbursement. The contract shall also provide that such costs shall not be reimbursed to the owner if a district to construct the specified improvements (as the project may be amended) is not formed within six years of the date of the contract. The contract shall provide that any preformation work shall be conducted only under the direction of the county engineer or other appropriate county authority. [1988 c 179 § 13.]

Whenever the assessment roll for any county road improvement district has been prepared, such roll shall be filed with the clerk of the county legislative authority. The county legislative authority shall thereupon by resolution set the date for hearing upon such roll before a board of equalization and direct the clerk to give notice of such hearing and the time and place thereof.

Such notice shall specify such time and place of hearing on such roll and shall notify all persons who may desire to object thereto to make such objection in writing and to file the same with the clerk of the county legislative authority at or prior to the date fixed for such hearing; and that at the time and place fixed and at such other times as the hearing may be continued to, the county legislative authority will sit as a board of equalization for the purpose of considering such roll and at such hearing will consider such objections made thereto, or any part thereof, and will correct, revise, raise, lower, change, or modify such roll or any part thereof, or set aside such roll in order that such assessment be made de novo as to such body shall appear just and equitable and then proceed to confirm the same by resolution.

Notice of the time and place of hearing under such assessment roll shall be given to the owner or reputed owner of the property whose name appears thereon, by mailing a notice thereof at least fifteen days before the date fixed for the hearing to such owner or reputed owner at the address of such owner as shown on the tax rolls of the county treasurer; and in addition thereto such notice shall be published at least two times in a newspaper of general circulation in the county. At least fifteen days must elapse between the date of the first publication of the notice and the date fixed for such hearing. However, mosquito control districts are only required to give notice by publication.

The board of equalization, at the time fixed for hearing objections to the confirmation of the roll, or at such time or times as the hearing may be adjourned to, has power to correct, revise, raise, lower, change, or modify the roll or any part thereof, and to set aside the roll in order that the assessment be made de novo as to the board appears equitable and just, and then shall confirm the same by resolution. All objections shall be in writing and filed with the board and shall state clearly the grounds objected to, and objections not made within the time and in the manner described in this section shall be conclusively presumed to have been waived.

Whenever any such roll is amended so as to raise any assessments appearing thereon, or to include property subject to assessment which has been omitted from the assessment roll for any reason, a new hearing, and a new notice of hearing upon such roll, as amended, shall be given as in the case of an original hearing. At the conclusion of such hearing the board may confirm the same or any portion thereof by resolution and certify the same to the treasurer for collection.

Whenever any property has been entered originally on such roll, and the assessment upon such property shall not be raised, no objections to it may be considered by the board or by any court on appeal, unless such objections are made in writing at or prior to the date fixed for the original hearing upon such roll. [1985 c 369 § 8; 1972 ex.s. c 62 § 1; 1963 c 4 § 36.88.090. Prior: 1951 c 192 § 9.]

The ordinance shall provide for an appeal procedure by which a property owner may protest his or her assessment that is proposed by the committee or officer to the full county legislative authority and the full county legislative authority may reject or accept any appealed protested assessment and if accepted shall modify the assessment roll accordingly. [1994 c 71 § 4.]

No proceedings of any kind shall be commenced or prosecuted for the purpose of defeating or contesting any such assessment or for the sale of any property to pay such assessment or any certificate of delinquency issued therefor or the foreclosure of any lien issued therefor, but this section

Assessments or installments thereof which are delinquent, shall bear, in addition to such interest, such penalty not less than five percent as shall be prescribed by resolution. Interest and penalty shall be included in and shall be a part of the assessment lien. All liens acquired by the county hereunder shall be foreclosed by the appropriate county officers in the same manner and subject to the same rights of redemption provided by law for the foreclosure of liens held by cities or towns against property in local improvement districts. [1981 c 156 § 11; 1970 ex.s. c 66 § 3; 1963 c 4 § 36.88.140. Prior: 1951 c 192 § 14.]

Whenever after payment of the costs and expenses of the improvement there shall be available in the local improvement district fund a sum, over and above the amount necessary to meet the interest payments next accruing on outstanding bonds, sufficient to retire one or more outstanding bonds the treasurer shall forthwith call such bond or bonds for redemption as determined in the bond authorizing ordinance. There shall also be paid into each guaranty fund the interest received from investment of the fund, as well as any surplus remaining in any local improvement fund guaranteed hereunder after the payment of all outstanding bonds or warrants payable primarily out of such road improvement fund. Warrants drawing interest at a rate or rates not to exceed the rate determined by the county legislative authority shall be issued, as other warrants are issued by the county, against a guaranty fund to meet any liability accruing against it, and at the time of making its annual budget and tax levy the county shall provide from funds available for road purposes for the deposit in the guaranty fund of a sum sufficient with other resources of such fund to pay warrants so issued during the preceding fiscal year. The net cash of the local improvement guaranty fund may be reduced by such transfer to an amount not less than five percent of the net outstanding obligations guaranteed by such fund.

(2) If, at any time within five years of any transfer of assets from the local improvement guaranty fund to the general fund of the county, the net cash of the local improvement guaranty fund is reduced below the minimum amount specified in subsection (1) of this section, the county shall, to the extent of the amount transferred, pay valid claims against the local improvement guaranty fund as a general obligation of the county. Interest upon all unpaid installments shall be charged at a rate fixed by said resolution. Each year such installments together with interest due thereon shall be collected in the manner provided in the resolution for the collection of the assessments. [1963 c 4 § 36.88.260. Prior: 1951 c 192 § 26.]

The open spaces, park, recreation and community facilities within such county provide public recreation, aesthetic, conservation and educational opportunities and other services and benefits accessible to all of the residents of such county. The public health and safety facilities within such county provide protection to life and property throughout the county, are functionally inter-related and affect the health, safety and welfare of all the residents of such county. (2010 Ed.)
36.93.010 Purpose. The legislature finds that in metropolitan areas of this state, experiencing heavy population growth, increased problems arise from rapid proliferation of municipalities and haphazard extension of and competition to extend municipal boundaries. These problems affect adversely the quality and quantity and cost of municipal services furnished, the financial integrity of certain municipalities, the consistency of local regulations, and many other incidents of local government. Further, the competition among municipalities for unincorporated territory and the disorganizing effect thereof on land use, the preservation of property values and the desired objective of a consistent comprehensive land use plan for populated areas, makes it appropriate that the legislature provide a method of guiding and controlling the creation and growth of municipalities in metropolitan areas so that such problems may be avoided and that residents and businesses in those areas may rely on the logical growth of local government affecting them. [1967 c 189 § 1.]

36.93.020 Definitions. As used herein:
(1) "Governmental unit" means any incorporated city or town, metropolitan municipal corporation, or any special purpose district as defined in this section.
(2) "Special purpose district" means any water-sewer district, fire protection district, drainage improvement district, drainage and diking improvement district, flood control zone district, irrigation district, metropolitan park district, drainage district, or public utility district engaged in water distribution.

36.93.030 Creation of boundary review boards in counties with populations of two hundred ten thousand or more—Creation in other counties. (1) There is hereby created and established in each county with a population of two hundred ten thousand or more a board to be known and designated as a "boundary review board". (2) A boundary review board may be created and established in any other county in the following manner:
(a) The county legislative authority may, by majority vote, adopt a resolution establishing a boundary review board; or
(b) A petition seeking establishment of a boundary review board signed by qualified electors residing in the county equal in number to at least five percent of the votes cast in the county at the last county general election may be filed with the county auditor.

Upon the filing of such a petition, the county auditor shall examine the same and certify to the sufficiency of the signatures thereon. No person may withdraw his or her name from a petition after it has been filed with the auditor. Within thirty days after the filing of such petition, the county auditor shall transmit the same to the county legislative authority, together with his or her certificate of sufficiency.

After receipt of a valid petition for the establishment of a boundary review board, the county legislative authority shall submit the question of whether a boundary review board should be established to the electorate at the next primary or general election according to RCW 29A.04.321. Notice of the election shall be given as provided in RCW 29A.52.351 and shall include a clear statement of the proposal to be submitted.

If a majority of the persons voting on the proposition shall vote in favor of the establishment of the boundary review board, such board shall thereupon be deemed established. [2006 c 344 § 28; 1991 c 363 § 91; 1969 ex.s. c 111 § 1; 1967 c 189 § 3.]

[1991 c 363 § 92; 1967 c 189 § 4.]

[1991 c 363 § 97; 1967 c 189 § 14.]

Purpose—Captions not law—1991 c 363: See notes following RCW 2.32.180.

36.93.150 Review of proposed actions—Actions and determinations of board—Disapproval, effect. The board, upon review of any proposed action, shall take such of the following actions as it deems necessary to best carry out the intent of this chapter:
(1) Approve the proposal as submitted.

(2) Subject to RCW 35.02.170, modify the proposal by adjusting boundaries to add or delete territory. However, any proposal for annexation of territory to a town shall be subject to RCW 35.21.010 and the board shall not add additional territory, the amount of which is greater than that included in the original proposal. Any modifications shall not interfere with the authority of a city, town, or special purpose district to require or not require preannexation agreements, covenants, or petitions. A board shall not modify the proposed incorporation of a city with an estimated population of seven thousand five hundred or more by removing territory from the proposal, or adding territory to the proposal, that constitutes ten percent or more of the total area included within the proposal before the board. However, a board shall remove territory in the proposed incorporation that is located outside of an urban growth area or is annexed by a city or town, and may remove territory in the proposed incorporation if a petition or resolution proposing the annexation is filed or adopted that has priority over the proposed incorporation, before the area is established that is subject to this ten percent restriction on removing or adding territory. A board shall not modify the proposed incorporation of a city with a population of seven thousand five hundred or more to reduce the territory in such a manner as to reduce the population below seven thousand five hundred.

(3) Determine a division of assets and liabilities between two or more governmental units where relevant.

(4) Determine whether, or the extent to which, functions of a special purpose district are to be assumed by an incorporated city or town, metropolitan municipal corporation, or another existing special purpose district.

(5) Disapprove the proposal except that the board shall not have jurisdiction: (a) To disapprove the dissolution or disincorporation of a special purpose district which is not providing services but shall have jurisdiction over the determination of a division of the assets and liabilities of a dissolved or disincorporated special purpose district; (b) over the division of assets and liabilities of a special purpose district that is dissolved or disincorporated pursuant to chapter 36.96 RCW; nor (c) to disapprove the incorporation of a city with an estimated population of seven thousand five hundred or more, but the board may recommend against the proposed incorporation of a city with such an estimated population.

Unless the board disapproves a proposal, it shall be presented under the appropriate statute for approval of a public body and, if required, a vote of the people. A proposal that has been modified shall be presented under the appropriate statute for approval of a public body and if required, a vote of the people. If a proposal, other than that for a city, town, or special purpose district annexation, after modification does not contain enough signatures of persons within the modified area, as are required by law, then the initiating party, parties or governmental unit has thirty days after the modification decision to secure enough signatures to satisfy the legal requirement. If the signatures cannot be secured then the proposal may be submitted to a vote of the people, as required by law.

The addition or deletion of property by the board shall not invalidate a petition which had previously satisfied the sufficiency of signature provisions of RCW 35.13.130 or 35A.14.120. When the board, after due proceedings held, dis-
approves a proposed action, such proposed action shall be unavailable, the proposing agency shall be without power to initiate the same or substantially the same as determined by the board, and any succeeding acts intended to or tending to effectuate that action shall be void, but such action may be reinitiated after a period of twelve months from date of disapproval and shall again be subject to the same consideration.

The board shall not modify or deny a proposed action unless there is evidence on the record to support a conclusion that the action is inconsistent with one or more of the objectives under RCW 36.93.180. Every such determination to modify or deny a proposed action shall be made in writing pursuant to a motion, and shall be supported by appropriate written findings and conclusions, based on the record. [1994 c 216 § 15; 1990 c 273 § 1; 1987 c 477 § 7; 1979 ex.s. c 5 § 13; 1975 1st ex.s. c 220 § 10; 1969 ex.s. c 111 § 8; 1967 c 189 § 15.]

36.93.155 Annexation approval—Other action not authorized. Boundary review board approval, or modification and approval, of a proposed annexation by a city, town, or special purpose district shall authorize annexation as approved and shall not authorize any other annexation action. [1989 c 84 § 16.]

36.93.157 Decisions to be consistent with growth management act. The decisions of a boundary review board located in a county that is required or chooses to plan under RCW 36.70A.040 must be consistent with RCW 36.70A.020, 36.70A.110, and 36.70A.210. [1992 c 162 § 2.]

36.93.160 Hearings—Notice—Record—Subpoenas—Decision of board—Appellate review. (1) When the jurisdiction of the boundary review board has been invoked, the board shall set the date, time and place for a public hearing on the proposal. The board shall give at least thirty days’ advance written notice of the date, time and place of the hearing to the governing body of each governmental unit having jurisdiction within the boundaries of the territory proposed to be annexed, formed, incorporated, disincorporated, dissolved or consolidated, or within the boundaries of a special district whose assets and facilities are proposed to be assumed by a city or town, and to the governing body of each city within three miles of the exterior boundaries of the area and to the proponent of the change. Notice shall also be given by publication in any newspaper of general circulation in the area of the proposed boundary change at least three times, the last publication of which shall be not less than five days prior to the date set for the public hearing. Notice shall also be posted in ten public places in the area affected for five days when the area is ten acres or more. When the area affected is less than ten acres, five notices shall be posted in five public places for five days. Notice as provided in this subsection shall include any territory which the board has determined to consider adding in accordance with RCW 36.93.150(2).

(2) A verbatim record shall be made of all testimony presented at the hearing and upon request and payment of the reasonable costs thereof, a copy of the transcript of the testimony shall be provided to any person or governmental unit.

(3) The chair upon majority vote of the board or a panel may direct the chief clerk of the boundary review board to issue subpoenas to any public officer to testify, and to compel the production by him or her of any records, books, documents, public records or public papers.

(4) Within forty days after the conclusion of the final hearing on the proposal, the board shall file its written decision, setting forth the reasons therefor, with the board of county commissioners and the clerk of each governmental unit directly affected. The written decision shall indicate whether the proposed change is approved, rejected or modified and, if modified, the terms of the modification. The written decision need not include specific data on every factor required to be considered by the board, but shall indicate that all standards were given consideration. Dissenting members of the board shall have the right to have their written dissents included as part of the decision.

(5) Unanimous decisions of the hearing panel or a decision of a majority of the members of the board shall constitute the decision of the board and shall not be appealable to the whole board. Any other decision shall be appealable to the entire board within ten days. Appeals shall be on the record, which shall be furnished by the appellant, but the board may, in its sole discretion, permit the introduction of additional evidence and argument. Decisions shall be final and conclusive unless within thirty days from the date of the action a governmental unit affected by the decision or any person owning real property or residing in the area affected by the decision files in the superior court a notice of appeal.

The filing of the notice of appeal within the time limit shall stay the effective date of the decision of the board until such time as the appeal shall have been adjudicated or withdrawn. On appeal the superior court shall not take any evidence other than that contained in the record of the hearing before the board.

(6) The superior court may affirm the decision of the board or remand the case for further proceedings; or it may reverse the decision if any substantial rights may have been prejudiced because the administrative findings, inferences, conclusions, or decisions are:

(a) In violation of constitutional provisions, or
(b) In excess of the statutory authority or jurisdiction of the board, or
(c) Made upon unlawful procedure, or
(d) Affected by other error of law, or
(e) Unsupported by material and substantial evidence in view of the entire record as submitted, or
(f) Clearly erroneous.

An aggrieved party may seek appellate review of any final judgment of the superior court in the manner provided by law in other civil cases. [2009 c 549 § 4153; 1994 c 216 § 16;

(2) Municipal services; need for municipal services; effect of ordinances, governmental codes, regulations and resolutions on existing uses; present cost and adequacy of governmental services and controls in area; prospects of governmental services from other sources; probable future needs for such services and controls; probable effect of proposal or alternative on cost and adequacy of services and controls in area and adjacent area; the effect on the finances, debt structure, and contractual obligations and rights of all affected governmental units; and

(3) The effect of the proposal or alternative on adjacent areas, on mutual economic and social interests, and on the local governmental structure of the county.

The provisions of chapter 43.21C RCW, State Environmental Policy, shall not apply to incorporation proceedings covered by chapter 35.02 RCW. [1997 c 429 § 39; 1989 c 84 § 5; 1986 c 234 § 33; 1982 c 220 § 2; 1979 ex.s. c 142 § 1; 1967 c 189 § 17.]

(a) Sanitary sewage collection, treatment, and/or disposal facilities and services, including without limitation on-site or off-site sanitary sewerage facilities, large on-site sewage systems defined under RCW 70.118B.010, inspection services and maintenance services for private or public on-site systems, or any other means of sewage treatment and disposal approved by the county;

(b) Combined sanitary sewage disposal and storm or surface water drains and facilities;

(c) Storm or surface water drains, channels, and facilities;

(d) Outfalls for storm drainage or sanitary sewage and works, plants, and facilities for storm drainage or sanitary sewage treatment and disposal, and rights and interests in property relating to the system;

(e) Combined water and sewerage systems;

(f) Point and nonpoint water pollution monitoring programs that are directly related to the sewerage facilities and programs operated by a county;

(g) Public restroom and sanitary facilities;

(h) The facilities and services authorized in RCW 36.94.020; and

(i) Any combination of or part of any or all of such facilities.

(2) A "system of water" means and includes:

(a) A water distribution system, including dams, reservoirs, aqueducts, plants, pumping stations, transmission and lateral distribution lines and other facilities for distribution of water;

(b) A combined water and sewerage system;

(c) Any combination of or any part of any or all of such facilities.

(3) A "sewerage and/or water general plan" means a general plan for a system of sewerage and/or water for the county which shall be an element of the comprehensive plan established by the county pursuant to RCW 36.70.350(6) and/or chapter 35.63 RCW, if there is such a comprehensive plan.

(a) A sewerage general plan shall include the general location and description of treatment and disposal facilities, trunk and interceptor sewers, pumping stations, monitoring and control facilities, channels, local service areas and a general description of the collection system to serve those areas, a description of on-site sanitary sewerage system inspection services and maintenance services, and other facilities and services as may be required to provide a functional and implementable plan, including preliminary engineering to assure feasibility. The plan may also include a description of the regulations deemed appropriate to carrying out surface drainage plans.

(b) A water general plan shall include the general location and description of water resources to be utilized, wells, treatment facilities, transmission lines, storage reservoirs, pumping stations, and monitoring and control facilities as may be required to provide a functional and implementable plan.

(c) Water and/or sewerage general plans shall include preliminary engineering in adequate detail to assure technical feasibility and, to the extent then known, shall further discuss the methods of distributing the cost and expense of the system and shall indicate the economic feasibility of plan implementation. The plans may also specify local or lateral facilities and services. The sewerage and/or water general plan does not mean the final engineering construction or financing plans for the system.

(4) "Municipal corporation" means and includes any city, town, metropolitan municipal corporation, any public utility district which operates and maintains a sewer or water system, any sewer, water, diking, or drainage district, any diking, drainage, and sewerage improvement district, and any irrigation district.

36.94.020 Purpose—Powers. The construction, operation, and maintenance of a system of sewerage and/or water is a county purpose. Subject to the provisions of this chapter, every county has the power, individually or in conjunction with another county or counties to adopt, provide for, accept, establish, condemn, purchase, construct, add to, operate, and maintain a system or systems of sanitary and storm sewers, including outfalls, interceptors, plans, and facilities and services necessary for sewerage treatment and disposal, and/or system or systems of water supply within all or a portion of the county. However, counties shall not have power to con-
demn sewerage and/or water systems of any municipal corporation or private utility.

Such county or counties shall have the authority to control, regulate, operate, and manage such system or systems and to provide funds therefor by general obligation bonds, revenue bonds, local improvement district bonds, utility local improvement district or local improvement district assessments, and in any other lawful fiscal manner. Rates or charges for on-site inspection and maintenance services may not be imposed under this chapter on the development, construction, or reconstruction of property.

Under this chapter, after July 1, 1998, any requirements for pumping the septic tank of an on-site sewage system should be based, among other things, on actual measurement of accumulation of sludge and scum by a trained inspector, trained owner’s agent, or trained owner. Training must occur in a program approved by the state board of health or by a local health officer.

Before adopting on-site inspection and maintenance utility services, or incorporating residences into an on-site inspection and maintenance or sewer utility under this chapter, notification must be provided, prior to the applicable public hearing, to all residences within the proposed service area that have on-site systems permitted by the local health officer. The notice must clearly state that the residence is within the proposed service area and must provide information on estimated rates or charges that may be imposed for the service.

A county shall not provide on-site sewage system inspection, pumping services, or other maintenance or repair services under this section using county employees unless the on-site system is connected by a publicly owned collection system to the county’s sewerage system, and the on-site system represents the first step in the sewage disposal process. Nothing in this section shall affect the authority of a state or local health officer to carry out their responsibilities under any other applicable law.

A county may, as part of a system of sewerage established under this chapter, provide for, finance, and operate any of the facilities and services and may exercise the powers expressly authorized for county storm water, flood control, pollution prevention, and drainage services and activities under chapters 36.89, 86.12, 86.13, and 86.15 RCW. A county also may provide for, finance, and operate the facilities and services and may exercise any of the powers authorized for aquifer protection areas under chapter 36.36 RCW; for lake or beach management districts under chapter 36.61 RCW; for diking districts, and diking, drainage, and sewerage improvement districts under chapters 85.05, 85.08, 85.15, 85.16, and 85.18 RCW; and for shellfish protection districts under chapter 90.72 RCW. However, if a county by reference to any of those statutes assumes as part of its system of sewerage any powers granted to such areas or districts and not otherwise available to a county under this chapter, then (1) the procedures and restrictions applicable to those areas or districts apply to the county’s exercise of those powers, and (2) the county may not simultaneously impose rates and charges under this chapter and under the statutes authorizing such areas or districts for substantially the same facilities and services, but must instead impose uniform rates and charges consistent with RCW 36.94.140. By agreement with such an area or district that is not part of a county’s system of sewerage, a county may operate that area’s or district’s services or facilities, but a county may not dissolve any existing area or district except in accordance with any applicable provisions of the statute under which that area or district was created. [2008 c 301 § 25; 1997 c 447 § 11; 1981 c 313 § 1; 1967 c 72 § 2.]

36.94.030 Adoption of sewerage and/or water general plan as element of comprehensive plan. Whenever the county legislative authority deems it advisable and necessary for the public health and welfare of the inhabitants of the county to establish, purchase, acquire, and construct a system of sewerage and/or water, or make any additions and betterments thereto, or extensions thereof, the board shall adopt a sewerage and/or water general plan for a system of sewerage and/or water for all or a portion of the county as deemed necessary by the board. If the county has adopted a comprehensive plan for a physical development of the county pursuant to chapter 36.70 RCW and/or chapter 35.63 RCW, then the sewerage and/or water general plan shall be adopted as an element of that comprehensive plan pursuant to the applicable statute. [1981 c 313 § 15; 1967 c 72 § 3.]

Additional notes found at www.leg.wa.gov

36.94.040 Incorporation of provisions of comprehensive plan in general plan. The sewerage and/or water general plan must incorporate the provisions of existing comprehensive plans relating to sewerage and water systems of cities, towns, municipalities, and private utilities, to the extent they have been implemented. [1990 1st ex.s. c 17 § 33; 1967 c 72 § 4.]

36.94.050 Review committee—Composition—Submission of plan or amendment to. Prior to the adoption of or amendment of the sewerage and/or water general plan, the county legislative authority (or authorities) shall submit the plan or amendment to a review committee. The review committee shall consist of:

(1) A representative of each city with a population of ten thousand or more within or adjoining the area selected by the mayor thereof (if there are no such cities within the plan area, then one representative chosen by the mayor of the city with the largest population within the plan area);

(2) One representative chosen at large by a majority vote of the executive officers of the other cities or towns within or adjoining the area;

(3) A representative chosen by the executive officer or the chair of the board, as the case may be, of each of the other municipal corporations and private utilities serving one thousand or more sewer and/or water customers located within the area;

(4) One representative chosen at large by a majority vote of the executive officers and chairs of the boards, as the case may be, of the other remaining municipal corporations within the area;

(2010 Ed.)
36.94.060 Review committee—Chair, secretary—Rules—Quorum—Compensation of members. The members of each review committee shall elect from its members a chair and a secretary. The committee shall determine its own rules and order of business and shall provide by resolution for the time and manner of its proceedings which shall be a public record. A majority of all the members shall constitute a quorum for the transaction of business.

Each member of the committee shall be compensated from the county current expense fund at the rate of twenty-five dollars per day, or a major portion thereof, for time actually devoted to the work of the committee in reviewing any proposed sewerage and/or water general plan or amendments to a plan. Each board of county commissioners shall provide such funds as shall be necessary to pay the compensation of the members and such other expenses as shall be reasonably necessary. Such payments shall be reimbursed to the counties advancing the funds from moneys acquired from the construction or operation of a sewerage and/or water system.

36.94.070 Review committee—Review of plan or amendments thereto—Report. The committee shall review the sewerage and/or water general plan or amendments thereto and shall report to the board or boards of county commissioners within ninety days their approval or any suggested amendments, deletions, or additions. If the committee shall fail to report within the time, the plan or amendments thereto shall be deemed approved. If the committee submits a report, the board shall consider and review the committee’s report and may adopt any recommendations suggested therein.

36.94.080 Hearing by board—Notice—Filing general plan. Before final action thereon the board shall conduct a public hearing on the plan after ten days published notice of hearing is given pursuant to RCW 36.32.120(7). The notice must set out the full official title of the proposed resolution adopting the plan and a statement describing the general intent and purpose of the plan. The notice shall also include the day, hour and place of hearing and must be given by publication in the newspaper in which legal notices of the county are printed. Ten days prior to the hearing, three copies of the sewerage and/or water general plan shall be filed with the clerk of the board. The copies shall be open to public inspection. [1967 c 72 § 8.]

36.94.090 Adoption, amendment or rejection of plan. At the hearing, the board may adopt the plan, or amend and adopt the plan, or reject any part or all of the plan. [1967 c 72 § 9.]

36.94.100 Submission of plan or amendments thereto to certain state departments—Approval. Prior to the commencement of actual work on any plan or amendment thereto approved by the board, it must be submitted for written approval to the Washington department of social and health services and to the Washington department of ecology. [1971 ex.s. c 96 § 5; 1967 c 72 § 10.]

36.94.110 Adherence to plan—Procedure for amendment. After adoption of the sewerage and/or water general plan, all municipal corporations and private utilities within the plan area shall abide by and adhere to the plan for the future development of their systems. Whenever the governing authority of any county or counties or any municipal corporation deems it to be for the public interest to amend the sewerage and/or water general plan for such county or counties, notice shall be filed with the board or boards of county commissioners. Upon such notice, the board or boards shall initiate consideration of any amendment requested relating to the plan and proceed as provided in this chapter for the adoption of an original plan. [1967 c 72 § 11.]

36.94.120 Establishment of department for administration of system—Personnel merit system. The board shall establish a department in county government for the purpose of establishing, operating and maintaining the system or systems of sewerage and/or water. In the department, the board shall establish and provide for the operation and maintenance of a personnel merit system for the employment, classification, promotion, demotion, suspension, transfer, layoff and discharge of its appointive officers and employees, solely on the basis of merit and fitness, without regard to political influence or affiliation. Such merit system shall not apply to the chief administrative officer of the department and, if the sewer and/or water utility is a division of a department having other functions, the chief administrative officer of such utility. [1971 ex.s. c 96 § 6; 1967 c 72 § 12.]

36.94.130 Adoption of rules and regulations. The board of county commissioners may adopt by resolution reasonable rules and regulations governing the construction, maintenance, operation, use, connection and service of the system of sewerage and/or water. [1967 c 72 § 13.]

36.94.140 Authority of county to operate system—Rates and charges, fixing of—Factors to be considered—Assistance for low-income persons. (1) Every county, in the operation of a system of sewerage and/or water, shall have full jurisdiction and authority to manage, regulate, and control it. Except as provided in subsection (3) of this section, every county shall have full jurisdiction and authority to fix, alter, regulate, and control the rates and charges for the service and facilities to those to whom such service and facilities are available, and to levy charges for connection to the system.

(2) The rates for availability of service and facilities, and connection charges so charged must be uniform for the same class of customers or service and facility. In classifying customers served, service furnished or made available by such system of sewerage and/or water, or the connection charges, the county legislative authority may consider any or all of the following factors:
   (a) The difference in cost of service to the various customers within or without the area;
   (b) The difference in cost of maintenance, operation, repair and replacement of the various parts of the systems;
   (c) The different character of the service and facilities furnished various customers;
   (d) The quantity and quality of the sewage and/or water delivered and the time of its delivery;
   (e) Capital contributions made to the system or systems, including, but not limited to, assessments;
   (f) The cost of acquiring the system or portions of the system in making system improvements necessary for the public health and safety;
   (g) The nonprofit public benefit status, as defined in RCW 24.03.490, of the land user; and
   (h) Any other matters which present a reasonable difference as a ground for distinction.

(3) The rate a county may charge under this section for storm or surface water sewer systems or the portion of the rate allocable to the storm or surface water sewer system of combined sanitary sewage and storm or surface water sewer systems shall be reduced by a minimum of ten percent for any new or remodeled commercial building that utilizes a permisive rainwater harvesting system. Rainwater harvesting systems shall be properly sized to utilize the available roof surface of the building. The jurisdiction shall consider rate reductions in excess of ten percent dependent upon the amount of rainwater harvested.

(4) A county may provide assistance to aid low-income persons in connection with services provided under this chapter.

(5) The service charges and rates shall produce revenues sufficient to take care of the costs of maintenance and operation, revenue bond and warrant interest and principal amortization requirements, and all other charges necessary for the efficient and proper operation of the system.

(6) A connection charge under this section for service to a manufactured housing community, as defined in RCW 59.20.030, applies to an individual lot within that community only if the system of water or sewerage provides and maintains the connection. [2005 c 324 § 2; 2003 c 394 § 4; 1997 c 447 § 12; 1995 c 124 § 2; 1990 c 133 § 2; 1975 1st ex.s. c 188 § 2; 1967 c 72 § 14.]

Finding—Purpose—1997 c 447: See note following RCW 70.05.074.

Findings—1990 c 133: “The legislature finds the best interests of the citizens of the state are served if:

(1) Customers served by public water systems are assured of an adequate quantity and quality of water supply at reasonable rates;
(2) There is improved coordination between state agencies engaged in water system planning and public health regulation and local governments responsible for land use regulation and public health and safety;
(3) Public water systems in violation of health and safety standards adopted under RCW 43.20.050 remain in operation and continue providing water service providing that public health is not compromised, assuming a suitable replacement purveyor is found and deficiencies are corrected in an expeditious manner consistent with public health and safety; and
(4) The state address[es], in a systematic and comprehensive fashion, new operating requirements which will be imposed on public water systems under the federal Safe Drinking Water Act.” [1990 c 133 § 1.

36.94.145 Public property subject to rates and charges for storm water control facilities. Except as otherwise provided in RCW 90.03.525, any public entity and public property, including the state of Washington and state property, shall be subject to rates and charges for storm water control facilities to the same extent private persons and private property are subject to such rates and charges that are imposed by counties pursuant to RCW 36.94.140. In setting these rates and charges, consideration may be made of in-kind services, such as stream improvements or donation of property. [1986 c 278 § 58; 1983 c 315 § 4.]

36.94.150 Lien for delinquent charges. All counties operating a system of sewerage and/or water shall have a lien for delinquent connection charges and charges for the availability of sewerage and/or water service, together with interest fixed by resolution at eight percent per annum from the date due until paid. Penalties of not more than ten percent of the amount due may be imposed in case of failure to pay the charges at times fixed by resolution. The lien shall be for all charges, interest, and penalties and shall attach to the premises to which the services were available. The lien shall be superior to all other liens and encumbrances, except general taxes and local and special assessments of the county.

The county department established in RCW 36.94.120 shall certify periodically the delinquencies to the auditor of the county at which time the lien shall attach.

Upon the expiration of sixty days after the attachment of the lien, the county may bring suit in foreclosure by civil action in the superior court of the county where the property is located. Costs associated with the foreclosure of the lien, including but not limited to advertising, title report, and personnel costs, shall be added to the lien upon filing of the foreclosure action. In addition to the costs and disbursements provided by statute, the court may allow the county a reasonable attorney’s fee. The lien shall be foreclosed in the same manner as the foreclosure of real property tax liens. [1997 c 393 § 9; 1975 1st ex.s. c 188 § 3; 1967 c 72 § 15.]

36.94.160 Tax on gross revenues authorized. The county shall have the power to levy a tax on the system of sewerage and/or water operated by the county or counties as authorized by this chapter, not to exceed eight percent per annum, on the gross revenues, to be paid to the county's general fund for payment of all costs of planning, financing, construction and operation of the system. [1967 c 72 § 16.]

36.94.170 Authority of municipal corporations—Relinquishment of. The primary authority to construct, operate and maintain a system of sewerage and/or water within the boundaries of a municipal corporation which lies within the area of the county's sewerage and/or water general plan shall remain with such municipal corporation. A county, after it has adopted and received the necessary approvals of its sewer and/or water general plan under the provisions of chapter 36.94 RCW may construct, own, operate and maintain a system of sewerage and/or water within the boundaries of a city or town with the written consent of such city or town and within any other municipal corporation provided such municipal corporation (1) has the legislative authority to operate such a utility; and (2)(a) has given its written consent to the county to operate therein; or (b) after adoption of a comprehensive plan or an amendment thereto for the area involved, the municipal corporation has not within twelve months after receiving notice by the county of its intention to serve that area held a formation hearing for a utility local improvement district.

Prior to exercising any authority granted in this section, the county shall compensate such municipal corporation for its reasonable costs, expenses and obligations actually incurred or contracted which are directly related to and which benefit the area which the county proposes to serve. The county may contract with a municipal corporation to furnish such utility service within any municipal corporation.

Except in the case of annexations provided for in RCW 36.94.180, once a county qualifies under this section to serve within a municipal corporation, no municipal corporation may construct or operate a competing utility in the same territory to be served by the county if the county proceeds within a reasonable period of time with the construction of its proposed facilities including the sale of any bonds to finance the same.

As may be permitted by other statutes, a city or town may provide water or sewer service outside of its corporate limits, but such service may not conflict with the county plan or any county, sewer or water facilities installed or being installed.

A county proposing to exercise any authority granted in this section shall give written notice of such intention to the municipal corporation involved and to the boundary review board, if any, of such county. Within sixty days of the filing of such notice of intention, review by the boundary review board of the proposed action may be requested as provided by the provisions of RCW 36.93.100 through 36.93.180. In the event of such review, the board shall consider the factors set forth in this section in addition to the factors and objectives set forth in RCW 36.93.170 and 36.93.180. [1971 ex.s. c 96 § 7; 1967 c 72 § 17.]

36.94.180 Transfer of system upon annexation or incorporation of area. In the event of the annexation to a city or town of an area, or incorporation of an area, in which a county is operating a sewerage and/or water system, the property, facilities, and equipment of such sewerage and/or water system lying within the annexed or incorporated area may be transferred to the city or town if such transfer will not materially affect the operation of any of the remaining county system, subject to the assumption by the city or town of the county's obligations relating to such property, facilities, and equipment, under the procedures specified in, and pursuant to the authority contained in, chapter 35.13A RCW. [1986 c 234 § 34; 1983 c 3 § 82; 1971 ex.s. c 96 § 8; 1967 c 72 § 18.]

36.94.190 Contracts with other entities. Every county in furtherance of the powers granted by this chapter shall be authorized to contract with the federal government, the state of Washington, or any city or town, within or without the county, and with any other county, and with any municipal corporation as defined herein or with any other municipal corporation created under the laws of the state of Washington and not limited as defined in RCW 36.94.010, or political subdivision, and with any person, firm or corporation in and for the establishment, maintenance and operation of all or a portion of a system or systems of sewerage and/or water supply.

The state and such city, town, person, firm, corporation, municipal corporation and any other municipal corporation created under the laws of the state of Washington and not limited as defined in RCW 36.94.010, and political subdivision, is authorized to contract with a county or counties for such purposes. [1967 c 72 § 19.]

36.94.200 Indebtedness—Bonds. The legislative authority of any county is hereby authorized for the purpose of carrying out the lawful powers granted by this chapter to contract indebtedness and to issue and sell general obligation bonds pursuant to and in the manner provided for general county bonds in chapters 36.67 and 39.46 RCW and other applicable statutes; and to issue revenue bonds pursuant to and in the manner provided for revenue bonds in chapter 36.67 RCW and other applicable statutes. The county legislative authority may also issue local improvement district bonds in the manner provided for cities and towns. [1984 c 186 § 35; 1983 c 167 § 101; 1981 c 313 § 2; 1967 c 72 § 20.]

36.94.220 Local improvement districts and utility local improvement districts—Establishment—Special assessments. (1) A county shall have the power to establish utility local improvement districts and local improvement districts within the area of a sewerage and/or water general plan and to levy special assessments under a mode of annual installments extending over a period not exceeding twenty years on all property specially benefited by any local improvement on the basis of the special benefits to pay in whole or in part the damages or costs of any improvements ordered in such county.

(2) Utility local improvement districts and local improvement districts may include territory within a city or town only with the written consent of the city or town, but if the local district is formed before such area is included within the city or town, no such consent shall be necessary. Utility local improvement districts and local improvement districts used to provide sewerage disposal systems may include territory within a water-sewer district providing sewerage disposal systems only with the written consent of such a water-sewer district, but if the local district is formed before such area is included within such a water-sewer district, no consent is necessary. Utility local improvement districts and local improvement districts used to provide water systems may include territory within a water-sewer district providing water systems only with the written consent of such a water-sewer district, but if the local district is formed before such area is included within such a water-sewer district, no consent is necessary.

(3) The levying, collection, and enforcement of all public assessments hereby authorized shall be in the manner now and hereafter provided by law for the levying, collection, and enforcement of local improvement assessments by cities and towns, insofar as the same shall not be inconsistent with the provisions of this chapter. In addition, the county shall file the preliminary assessment roll at the time and in the manner prescribed in RCW 35.50.005. The duties devolving upon the city or town treasurer under such laws are imposed upon the county treasurer for the purposes of this chapter. The mode of assessment shall be in the manner to be determined by the county legislative authority by ordinance or resolution. As an alternative to equal annual assessment installments of principal provided for cities and towns, a county legislative authority may provide for the payment of such assessments in equal annual installments of principal and interest. Assessments in any local district may be made on the basis of special benefits up to but not in excess of the total cost of any sewerage and/or water improvement made with respect to that local district and the share of any general sewerage and/or water facilities allocable to that district. In utility local improvement districts, assessments shall be deposited into the revenue bond fund or general obligation bond fund established for the payment of bonds issued to pay such costs which bond payments are secured in part by the pledge of assessments, except pending the issuance and sale of such bonds, assessments may be deposited in a fund for the payment of such costs. In local improvement districts, assessments shall be deposited into a fund for the payment of such costs and local improvement bonds issued to finance the same or into the local improvement guaranty fund as provided by applicable statute. Whenever a county waives or delays collection of tap-in charges, connection fees or hookup fees for low income persons, or class of low income persons, to connect to a system of sewerage or a system of water, the waiver or delay shall be pursuant to a program established by ordinance. [1980 c 150 § 2.]

36.94.380 Local improvement bonds—Local improvement guaranty fund—Payments—Assessments—Certificates of delinquency. Every county adopting a water and/or sewerage general plan is hereby authorized to create a fund for the purpose of guaranteeing, to the extent of such fund, and in the manner hereinafter provided, the payment of all of its local improvement bonds issued, subsequent to May 19, 1981, to pay for any water or sewerage local improvement within its confines. Such fund shall be designated "... County Local Improvement Guaranty Fund" and shall be established by resolution of the county legislative authority. For the purpose of maintaining such fund, every county, after the establishment thereof, shall at all times set aside and pay into such a fund such proportion of the monthly gross revenues of the water and/or sewerage system of such county as the legislative authority thereof may direct by resolution. This proportion may be varied from time to time as the county legislative authority deems expedient or necessary, except that under the existence of the conditions set forth in subsections (1) and (2) of this section, the proportion must be as therein specified.

(1) Whenever any bonds of any local improvement district have been guaranteed under RCW 36.94.380 through 36.94.400 and the guaranty fund does not have a cash balance equal to five percent of all bonds originally guaranteed under this chapter (excluding issues which have been retired in full), then five percent of the gross monthly revenues derived from all water and sewer users in the territory included in that local improvement district (but not necessarily from users in other parts of the county as a whole) may be set aside and paid into the guaranty fund. Whenever, under the requirements of this subsection, the cash balance accumulates so that it is equal to five percent of all bonds guaranteed, or to the full amount of all bonds guaranteed, outstanding and unpaid (which amount might be less than five percent of the original total guaranteed), then no further moneys need be set aside and paid into the guaranty fund so long as that condition continues.

(2) Whenever any warrants issued against the guaranty fund, as provided in this section, remain outstanding and uncalled for lack of funds for six months from the date of issuance thereof; or whenever any coupons or bonds guaranteed under this chapter have been matured for six months and have not been redeemed either in cash or by issuance and delivery of warrants upon the guaranty fund, then five percent of the gross monthly revenues (or such portion thereof as the county legislative authority determines will be sufficient to retire those warrants or redeem those coupons or bonds in the ensuing six months) derived from all water and/or sewer users in the county shall be set aside and paid into the guaranty fund. Whenever under the requirements of this subsection all such warrants, coupons, or bonds have been redeemed, no further income need be set aside and paid into the guaranty fund under the requirements of this subsection until and unless other warrants remain outstanding and unpaid for six months or other coupons or bonds default.

(3) For the purpose of complying with the requirements of setting aside and paying into the local improvement guaranty fund a proportion of the monthly gross revenues of the water supply and/or sewerage system of any county, that county shall bind and obligate itself to maintain and operate such system and further bind and obligate itself to establish, maintain, and collect such rates for water as will provide gross revenues sufficient to maintain and operate such systems and to make necessary provision for the local improvement guaranty fund as specified by this section, and the county shall alter its rates for water or sewer service from time to time and shall vary the same in different portions of its territory to comply with those requirements.

(4) Whenever any coupon or bond guaranteed by RCW 36.94.380 through 36.94.400 matures and there is not sufficient funds in the appropriate local improvement district bond redemption fund to pay the coupon or bond, then the county treasurer shall pay the coupon or bond from the local improvement guaranty fund of the county; if there is not sufficient funds in the guaranty fund to pay the coupon or bond, then it may be paid by issuance and delivery of a warrant upon the local improvement guaranty fund.

(5) Whenever the cash balance in the local improvement guaranty fund is insufficient for the required purposes, warrants drawing interest of a rate fixed by the county legislative authority may be issued by the county auditor against the fund to meet any liability accrued against it and must be issued upon demand of the holders of any maturing coupons and/or bonds guaranteed by RCW 36.94.380 through 36.94.400, or to pay for any certificates of delinquency for delinquent installments of assessments as provided in subsection (6) of this section. Guaranty fund warrants shall be a first lien in their order of issuance upon the gross revenues set aside and paid into the guaranty fund.

(6) Within twenty days after the date of delinquency of any annual installment of assessments levied for the purpose of paying the local improvement bonds of any county guaranteed under the provisions of this chapter, the county treasurer

[Title 36 RCW—page 308] (2010 Ed.)
shall compile a statement of all installments delinquent, together with the amount of accrued interest and penalty appurtenant to each of those installments. Thereupon the county treasurer shall forthwith purchase certificates of delinquency for all such delinquent installments. Payment for all such certificates of delinquency shall be made from the local improvement guaranty fund, and if there is not sufficient moneys in the fund to pay for such certificates of delinquency, the county treasurer shall accept the local improvement guaranty fund warrants in payment therefor. All such certificates of delinquency shall be issued in the name of the local improvement guaranty fund, and all guaranty fund warrants issued in payment therefor shall be issued in the name of the appropriate local improvement district fund. Whenever any market is available and the county legislative authority so directs, the county treasurer shall sell any certificates of delinquency belonging to the local improvement guaranty fund, but any such sale may not be for less than face value thereof plus accrued interest from the date of issuance to date of sale.

Such certificates of delinquency, as above provided, shall be issued by the county treasurer, shall bear interest at the rate of eight percent per annum, shall be in each instance for the face value of the delinquent installment, plus accrued interest to date of issuance of certificate of delinquency, plus a penalty of five percent of such face value, and shall set forth the:

(a) Description of the property assessed;
(b) Date the installment of the assessment became delinquent; and
(c) Name of the owner or reputed owner, if known.

Such certificates of delinquency may be redeemed by the owners of the property assessed at any time up to two years from the date of foreclosure of such certificate of delinquency.

If any certificate of delinquency is not redeemed by the second occurring first day of January subsequent to its issuance, the county treasurer shall then proceed to foreclose such certificate of delinquency in the manner specified for the foreclosure of the lien of local improvement assessments, pursuant to the laws applicable to cities or towns; and if no redemption is made within the succeeding two years the treasurer shall execute and deliver a deed conveying fee simple title to the property described in the foreclosed certificate of delinquency. [1981 c 313 § 7.]

36.94.400 Local improvement bonds—Local improvement guaranty fund—Claims by bondholders—Transfer of cash balance to water and/or sewer maintenance fund. Neither the holder nor the owner of any local improvement bonds guaranteed under the provisions of RCW 36.94.380 through 36.94.400 has any claim therefor against the county by which the bonds are issued, except for payment from the special assessments made for the improvement for which the local improvement bonds were issued, and except as against the local improvement guaranty fund of the county; and the county is not liable to any holder or owner of such local improvement bond for any loss to the guaranty fund occurring in the lawful operation thereof by the county. The remedy of the holder or owner of a local improvement bond, in the case of nonpayment, is confined to the enforcement of the assessment and to the guaranty fund. A copy of the foregoing part of this section shall be plainly written, printed, or engraved on each local improvement bond guaranteed under this chapter and such certificates shall be paid out of a guaranty fund any sum on account of principal or interest upon the local improvement bond, or on account of purchase of certificates of delinquency, the county, as trustee for the fund, shall be subrogated to all rights of the holder of the bonds, or interest coupons, or delinquent assessment installments, so paid; and the proceeds thereof, or of the assessment or assessments underlying the same, shall become a part of the guaranty fund. There shall also be paid into each guaranty fund the interest received from the bank deposits of the fund, as well as any surplus remaining in the local improvement funds guaranteed under this chapter, after the payment of all outstanding bonds payable primarily out of such local improvement funds. As among the several issues of bonds guaranteed by the fund, no preference exists, but defaulted interest coupons and/or bonds shall be purchased out of the fund in the order of their presentation.

The legislative authority of every county operating under the provisions of RCW 36.94.380 through 36.94.400 shall by resolution prescribe appropriate rules for the guaranty fund, not inconsistent with this chapter. So much of the money of a guaranty fund as is necessary and is not required for other purposes under the terms of RCW 36.94.380 through 36.94.400 may, at the discretion of the county legislative authority, be used to purchase property at county tax foreclosure sales or from the county after foreclosure in cases where such property is subject to unpaid local improvement assessments securing bonds guaranteed under this chapter and such purchase is deemed necessary for the purpose of protecting the guaranty fund. In such cases the fund shall be subrogated to all rights of the county. After so acquiring title to real property, the county may lease or resell and convey the property in the manner that county property is authorized to be leased or resold and for such prices and on such terms as may be determined by resolution of the county legislative authority. Any provision of law to the contrary notwithstanding, all proceeds resulting from such resales belong to and shall be paid into the guaranty fund. [1981 c 313 § 8.]

The county shall provide notice of the hearing by the county legislative authority on the ordinance executing the transfer agreement under RCW 36.94.330 as follows: (1) By mailed notice to all rate-payers served by the system at least fifteen days prior to the hearing; and (2) by notice in a newspaper of general circulation once at least fifteen days prior to the hearing.

In the event of an annexation under this section resulting from the transfer of a system of sewerage, a system of water, or combined water and sewer systems from a county to a water-sewer district, the water-sewer district shall operate the system or systems under the provisions of Title 57 RCW. [1999 c 153 § 52; 1996 c 230 § 1609; 1985 c 141 § 1; 1984 c 147 § 2.]

The provisions of RCW 36.94.410 and 36.94.420 provide an alternative method of accomplishing the transfer permitted by those sections and do not impose additional conditions upon the exercise of powers vested in water-sewer districts and counties. [1999 c 153 § 49; 1984 c 147 § 3.]

36.94.440 Transfer of system from county to water-sewer district—Decree by superior court. [1984 c 147 § 4.]

36.94.450 Water conservation programs—Issuance of revenue bonds. The bonds or other evidence of indebtedness shall be deemed to be for capital purposes. [1992 c 25 § 2.]

36.94.460 Water conservation programs—Counties authorized to provide assistance to water customers. Except where otherwise authorized, assistance shall be limited to:

(1) Providing an inspection of the structure, either directly or through one or more inspectors under contract, to determine and inform the owner of the estimated cost of purchasing and installing conservation fixtures, systems, and equipment for which financial assistance will be approved and the estimated life cycle savings to the water system and the consumer that are likely to result from the installation of the fixtures, systems, or equipment;

(2) Providing a list of businesses that sell and install the fixtures, systems, and equipment within or in close proximity to the service area of the county, each of which businesses shall have requested to be included and shall have the ability to provide the products in a workmanlike manner and to utilize the fixtures, systems, and equipment in accordance with the prevailing national standards;

(3) Arranging to have approved conservation fixtures, systems, and equipment installed by a private contractor whose bid is acceptable to the owner of the structure and verifying the installation; and

(4) Arranging or providing financing for the purchase and installation of approved conservation fixtures, systems, and equipment. The fixtures, systems, and equipment shall be purchased or installed by a private business, the owner, or the utility.

Pay back shall be in the form of incremental additions to the utility bill, billed either together with the use charge or separately. Loans shall not exceed two hundred forty months in length. [2010 1st sp.s. c 5 § 2; 1992 c 25 § 3.]

36.94.470 Storm or surface water drains or facilities—Annexation, incorporation of area by city or town—Imposition of rates and charges by county. Whenever a city or town annexes an area, or a city or town incorporates an area, and the county has issued revenue bonds or general obligation bonds to finance storm or surface water drains or facilities that are payable in whole or in part from rates or charges imposed in the area, the county shall continue imposing all portions of the rates or charges that are allocated to payment of the debt service on bonds in that area after the effective date of the annexation or official date of the incorporation until: (1) The debt is retired; (2) any debt that is issued to refinance the underlying debt is retired; or (3) the city or town reimburses the county amount that is sufficient to retire that portion of the debt borne by the annexed or incorporated area. The county shall construct all facilities included in the storm water plan intended to be financed by the proceeds of such bonds. If the county provides storm water management services to the city or town by contract,
the contract shall consider the value of payments made by property owners to the county for the payment of debt service.

The provisions of this section apply whether or not the bonds finance facilities that are geographically located within the area that is annexed or incorporated. [1993 c 361 § 2.]

A county assuming responsibility for a water system that is not in compliance with state or federal requirements for public drinking water systems, and its agents and employees, are immune from lawsuits or causes of action, based on noncompliance with state or federal requirements for public drinking water systems, which predate the date of assuming responsibility and continue after the date of assuming responsibility, provided that the county has submitted and is complying with a plan and schedule of improvements approved by the department of health. This immunity shall expire on the earlier of the date the plan of improvements is completed or four years from the date of assuming responsibility. This immunity does not apply to intentional injuries, fraud, or bad faith. [1994 c 292 § 7.]

36.94.490 Cooperative watershed management. In addition to the authority provided in RCW 36.94.020, a county may, as part of maintaining a system of sewerage and/or water, participate in and expend revenue on cooperative watershed management actions, including watershed management partnerships under RCW 39.34.210 and other intergovernmental agreements, for purposes of water supply, water quality, and water resource and habitat protection and management. 36.96.010 Definitions. As used in this chapter, unless the context requires otherwise:

Such special purpose districts shall include, but are not limited to, water-sewer districts, fire protection districts, port districts, public utility districts, county park and recreation service areas, flood control zone districts, diking districts, drainage improvement districts, and solid waste collection districts, but shall not include industrial development districts created by port districts, and shall not include local improvement districts, utility local improvement districts, and road improvement districts;

(2) "Governing authority" means the commission, council, or other body which directs the affairs of a special purpose district;

(3) "Inactive" means that a special purpose district, other than a public utility district, is characterized by either of the following criteria:

(a) Has not carried out any of the special purposes or functions for which it was formed within the preceding consecutive five-year period; or

(b) No election has been held for the purpose of electing a member of the governing body within the preceding consecutive seven-year period or, in those instances where members of the governing body are appointed and not elected, where no member of the governing body has been appointed within the preceding seven-year period.

A public utility district is inactive when it is characterized by both criteria (a) and (b) of this subsection. [1999 c 153 § 50; 1979 ex.s. c 5 § 1.]

36.96.020 Notice of inactive special purpose districts by county auditor. On or before June 1st of 1980, and on or before June 1st of every year thereafter, each county auditor shall search available records and notify the county legislative authority if any special purpose districts located wholly or partially within the county appear to be inactive. If the territory of any special purpose district is located within more than one county, the legislative authorities of all other counties within whose boundaries such a special purpose district lies shall also be notified by the county auditor. However, the authority to dissolve such a special purpose district as provided by this chapter shall rest solely with the legislative authority of the county which contains the greatest geographic portion of such special purpose district. [2009 c 337 § 12; 1979 ex.s. c 5 § 2.]

36.96.030 Determination of inactive special purpose districts—Public hearing—Notice. (1) Upon receipt of notice from the county auditor as provided in RCW 36.96.020, the county legislative authority within whose boundaries all or the greatest portion of such special purpose district lies shall hold one or more public hearings on or before September 1st of the same year to determine whether or not such special purpose district or districts meet either of the criteria for being "inactive" as provided in RCW 36.96.010: PROVIDED, That if such a special purpose district is a public utility district, the county legislative authority shall determine whether or not the public utility district meets both criteria of being "inactive" as provided in RCW 36.96.010. In addition, at any time a county legislative authority may hold hearings on the dissolution of any special purpose district that appears to meet the criteria of being "inactive" and dissolve such a district pursuant to the proceedings provided for in RCW 36.96.030 through 36.96.080.

(2) Notice of such public hearings shall be given by publication at least once each week for not less than three successive weeks in a newspaper that is in general circulation within the boundaries of the special purpose district or districts. Notice of such hearings shall also be mailed to each member of the governing authority of such special purpose districts, if such members are known, and to all persons known to have claims against any of the special purpose districts. Notice of such public hearings shall be posted in at least three conspicuous places within the boundaries of each special purpose district that is a subject of such hearings. Whenever a county legislative authority that is conducting such a public hearing on the dissolution of one or more of a particular kind of special purpose district is aware of the existence of an association of such special purpose districts, it shall also mail notice of the hearing to the association. In addition, whenever a special purpose district that lies in more than one county is a subject of such a public hearing, notice shall also be mailed to the legislative authorities of all other counties within whose boundaries the special purpose district lies. All notices shall state the purpose, time, and place of such hearings, and that all interested persons may appear and be heard. [1979 ex.s. c 5 § 3.]

36.96.040 Dissolution of inactive special purpose district by county legislative authority—Written findings. After such hearings, the county legislative authority shall
make written findings whether each of the special purpose districts that was a subject of the hearings meets each of the criteria of being "inactive." Whenever a special purpose district other than a public utility district has been found to meet a criterion of being inactive, or a public utility district has been found to meet both criteria of being inactive, the county legislative authority shall adopt an ordinance dissolving the special purpose district if it also makes additional written findings detailing why it is in the public interest that the special purpose district be dissolved, and shall provide a copy of the ordinance to the county treasurer. Except for the purpose of winding up its affairs as provided by this chapter, a special purpose district that is so dissolved shall cease to exist and the authority and obligation to carry out the purposes for which it was created shall cease thirty-one days after adoption of the dissolution ordinance. [2001 c 299 § 12; 1979 ex.s. c 5 § 4.]

36.96.050 Application for writ of prohibition or mandamus by interested party—Procedure. The action of the county legislative authority dissolving a special purpose district pursuant to RCW 36.96.040 shall be final and conclusive unless within thirty days of the adoption of the ordinance an interested party makes application to a court of competent jurisdiction for a writ of prohibition or writ of mandamus. At the hearing upon such a writ, the applicant shall have the full burden of demonstrating that the particular special purpose district, other than a public utility district, does not meet either of the criteria of being inactive or that it is not in the public interest that the special purpose district be dissolved: PROVIDED, That where the particular special purpose district subject to the dissolution proceedings is a public utility district, the applicant shall have the full burden of demonstrating that the public utility district either does not meet both the criteria of being inactive or that it is not in the public interest to dissolve the public utility district. [1979 ex.s. c 5 § 5.]

36.96.060 Dissolution of inactive special purpose district by county legislative authority—Powers and duties. For the sole and exclusive purpose of winding up the affairs of a dissolved special purpose district, the county legislative authority, acting as a board of trustees, shall have the same powers and duties as the governing authority of the dissolved special purpose district including the following:

(1) To exchange, sell, or otherwise dispose of all property, real and personal, of the dissolved special purpose district; and

(2) To settle all obligations of such special purpose district. Such powers and duties shall commence upon the effective date of dissolution and shall continue thereafter until such time as the affairs of the dissolved special purpose district have been completely wound up. [1979 ex.s. c 5 § 6.]

36.96.070 Dissolved special purpose district—Disposition of property. Any moneys or funds of the dissolved special purpose district and any moneys or funds received by the board of trustees from the sale or other disposition of any property of the dissolved special purpose district shall be used, to the extent necessary, for the payment or settlement of any outstanding obligations of the dissolved special purpose district. Any remaining moneys or funds shall be used to pay the county legislative authority for all costs and expenses incurred in the dissolution and liquidation of the dissolved special purpose district. Thereafter, any remaining moneys, funds, or property shall become that of the county in which the dissolved special purpose district was located. However, if the territory of the dissolved special purpose district was located within more than one county, the remaining moneys, funds, and personal property shall be apportioned and distributed to each county in the proportion that the geographical area of the dissolved special purpose district within the county bears to the total geographical area of the dissolved special purpose district, and any remaining real property or improvements to real property shall be transferred to the county within whose boundaries it lies. A county to which real property or improvements to real property are transferred under this section does not have an obligation to use the property or improvements for the purposes for which the dissolved special purpose district used the property or improvements and the county does not assume the obligations or liabilities of the dissolved special purpose district as a result of the transfer. [2001 c 299 § 13; 1979 ex.s. c 5 § 7.]

36.96.080 Dissolved special purpose district—Satisfaction of outstanding obligations. If the proceeds from the sale of any property of the special district together with any moneys or funds of the special purpose district are insufficient to satisfy the outstanding obligations of the special purpose district, the county legislative authority, acting as a board of trustees, shall exercise any and all powers conferred upon it to satisfy such outstanding obligations: PROVIDED, That in no case shall the board of trustees be obligated to satisfy such outstanding obligations from county moneys, funds, or other sources of revenue unless it would have been so obligated before initiation of the dissolution proceedings under this chapter. [1979 ex.s. c 5 § 8.]

36.96.090 New special purpose districts—Duties of county auditor. For every newly created special purpose district, the auditor of each county in which the special purpose district is located shall provide the state auditor with the following information:

(1) The name of the special purpose district and a general description of its location;

(2) The name, address, and telephone number of each member of its governing authority; and

(3) The functions that the special purpose district is then presently performing and the purposes for which it was created. [2009 c 337 § 13; 1979 ex.s. c 5 § 9.]

36.96.800 Alternative dissolution procedure—Drainage and drainage improvement districts—Conditions. As an alternative to this chapter a drainage district or drainage improvement district located within the boundaries of a county storm drainage and surface water management utility, and which is not currently imposing assessments, may be dissolved by ordinance of the county legislative authority. If the alternative dissolution procedure in this section is used the following shall apply:
36.96.900 Chapter not exclusive. The provisions of this chapter to dissolve inactive special purpose districts shall not be exclusive, and shall be in addition to any other method or methods provided by law to dissolve a special purpose district. [1979 ex.s. c 5 § 10.]

36.96.910 Savings—1979 ex.s. c 5. The enactment of this act shall not have the effect of terminating, or in any way modifying, any liability, civil or criminal, which shall already be in existence on September 1, 1979. [1979 ex.s. c 5 § 11.]

36.96.920 Severability—1979 ex.s. c 5. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of this act or its application to any person or circumstance of the dissolved drainage district or drainage improvement district was located.

(3) Notwithstanding RCW 85.38.220, the county storm drainage and surface water management utility may determine how to best manage, operate, maintain, improve, exchange, sell, or otherwise dispose of all property, real and personal, of the dissolved drainage district or drainage improvement district. [1991 c 28 § 1.]

36.96.900 Chapter not exclusive. The provisions of this chapter to dissolve inactive special purpose districts shall not be exclusive, and shall be in addition to any other method or methods provided by law to dissolve a special purpose district. [1979 ex.s. c 5 § 10.]

36.96.910 Savings—1979 ex.s. c 5. The enactment of this act shall not have the effect of terminating, or in any way modifying, any liability, civil or criminal, which shall already be in existence on September 1, 1979. [1979 ex.s. c 5 § 11.]

36.96.920 Severability—1979 ex.s. c 5. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected. [1979 ex.s. c 5 § 15.]

36.100.010 Public facilities districts—Creation—Approval of taxes by election—Corporate powers—Property transfer—Agreements. (1) One or more public facilities districts may be created in any county and must be coextensive with the boundaries of the county.

(2) A public facilities district is created upon adoption of a resolution providing for the creation of such a district by the county legislative authority in which the proposed district is located.

(3) A public facilities district is a municipal corporation, an independent taxing "authority" within the meaning of Article VII, section 1 of the state Constitution, and a "taxing district" within the meaning of Article VII, section 2 of the state Constitution.

(4) Except as provided in RCW 36.100.040 (4) and (5), no taxes authorized under this chapter may be assessed or levied unless a majority of the voters of the public facilities district has approved such tax at a general or special election. A single ballot proposition may both validate the imposition of the sales and use tax under RCW 82.14.048 and the excise tax under RCW 36.100.040(1).

(a) A public facilities district constitutes a body corporate and possesses all the usual powers of a corporation for public purposes as well as all other powers that may now or hereafter be specifically conferred by statute, including, but not limited to, the authority to hire employees, staff, and services, to enter into contracts, including contracts with public and private parties, to acquire, own, sell, transfer, lease, and otherwise acquire or dispose of property, to grant concessions under terms approved by the public facilities district, and to sue and be sued.

(b) A public facilities district created by a county with a population of one million five hundred thousand or more to acquire, own, and operate a convention and trade center transferred from a public nonprofit corporation may continue to contract with the Seattle-King county convention and visitors’ bureau or its successor in interest for marketing the convention and trade center facility and services.

(6) A public facilities district may enter into contracts with a county for the purpose of exercising any powers of a community renewal agency under chapter 35.81 RCW.

(7) The legislative authority of a city or county, the board of directors of a public nonprofit corporation, or the state of Washington may transfer property to a public facilities district created under this chapter, with or without consideration. No property that is encumbered with debt or that is in need of major capital renovation may be transferred to the district without the agreement of the district and revenues adequate to retire the existing indebtedness.

[Title 36 RCW—page 316] (2010 Ed.)
A public facilities district may enter into agreements with the state, any municipal corporation, or any other governmental entity for the design, financing, acquisition, development, construction, reconstruction, lease, remodeling, alteration, maintenance, equipping, reequipping, repair, operation, or management of one or more facilities of the parties thereto. Agreements may provide that any party to the contract designs, finances, acquires, develops, constructs, reconstructs, remodels, alters, maintains, equips, reequips, repairs, and operates one or more facilities for the other party or parties to the contract. A public facilities district may enter into an agreement with the state, any municipal corporation, or other public or private entity that will assist a public facilities district in the financing of all or any part of a district facility on such terms as may be determined by agreement between the respective parties, including without limitation by a loan, guaranty, or other financing agreement. [2010 1st sp.s. c 15 § 2; 2002 c 218 § 26; 1995 3rd sp.s. c 1 § 301; 1995 1st sp.s. c 14 § 1; 1995 c 396 § 1; 1989 1st ex.s. c 8 § 1; 1988 ex.s. c 1 § 11.]

Findings—Intent—2010 1st sp.s. c 15: *(1) The legislature finds that conventions and trade shows provide both direct and indirect civic and economic benefits. It is the intent of the legislature to provide for the transfer of the governance and financing of the state convention and trade center to a public facilities district formed by a county with a population of one million five hundred thousand or more to acquire, own, and operate the convention and trade center. The legislature also intends to replace, in connection with such transfer, the authority under chapter 67.40 RCW of the state and city to impose excise taxes on the sale of or charge made for the furnishing of lodging to fund the state convention and trade center with authority for the public facilities district to impose lodging taxes at these rates, without affecting the existing authority of the state, county, cities, and other municipal corporations to impose taxes on the sale or charge made for the furnishing of lodging under existing caps on the aggregate rate that may be charged. (2) The legislature further finds that the location of the convention and trade center particularly benefits and increases the occupancy of larger hotels and other lodging facilities in the city in which it is located and to a lesser extent in the remainder of the county in which it is located. The legislature finds that imposing excise taxes on the sale of or charge made for the furnishing of lodging at the rates authorized in section 5 of this act is an appropriate method of paying for the cost of acquiring, constructing, owning, remodeling, maintaining, equipping, reequipping, repairing, altering, and operating a convention and trade center.* [2010 1st sp.s. c 15 § 1.]

Construction—2010 1st sp.s. c 15: *(The provisions of this chapter must be liberally construed to effect the policies and purposes of this chapter.)* [2010 1st sp.s. c 15 § 20.]

*Reviser’s note: The reference to “this chapter” appears to be erroneous. Reference to chapter 36.100 RCW was apparently intended.*

**36.100.020 Governance—Board of directors.** (1) *(a) A public facilities district must be governed by a board of directors consisting of five, seven, or nine members as provided in this section. (b) If the largest city in the county has a population that is at least forty percent of the total county population, the board of directors of the public facilities district must consist of five members selected as follows: (i) Two members appointed by the county legislative authority to serve for four-year staggered terms; (ii) Two members appointed by the city council of the largest city in the county to serve for four-year staggered terms; and (iii) One person to serve for a four-year term who is selected by the other directors. (c)(i) Except as provided in (c)(ii) of this subsection (1), if the largest city in the county has a population of less than forty percent of the total county population, the county legislative authority must establish in the resolution creating the public facilities district whether the board of directors of the public facilities district has either five or seven members, and the county legislative authority must appoint the members of the board of directors to reflect the interests of cities and towns in the county, as well as the unincorporated area of the county. (ii) However, if the county has a population of one million five hundred thousand or more, the largest city in the county has a population of less than forty percent of the total county population, and the county operates under a county charter, which provides for an elected county executive, the members of the board of directors must be appointed as follows: (A) If the public facilities district is created to construct a baseball stadium as defined in RCW 82.14.0485, three members must be appointed by the governor and the remaining members must be appointed by the county executive subject to confirmation by the county legislative authority. Of the members appointed by the governor, the speaker of the house of representatives and the majority leader of the senate must each recommend to the governor a person to be appointed to the board; and (B) If the public facilities district is created to acquire, own, and operate a convention and trade center, following the expiration of the terms of the initial board of directors, three members must be appointed by the governor, three members must be nominated by the county executive subject to confirmation by the county legislative authority, and three members must be nominated by the mayor of the city in which the convention and trade center is located subject to confirmation by the city legislative authority. Members of the board of directors may not be members of the legislative authority of the county or any city within the county. (d) The initial board of directors of a public facilities district created in a county of one million five hundred thousand or more to acquire, own, and operate a convention and trade center must be comprised of the nine members of the board of the public nonprofit corporation that transfers the convention and trade center to the public facilities district under RCW 36.100.230. The governor must designate which of the initial board members must serve two-year terms and which must serve four-year terms and identify the board positions to which successors to initial directors are to be appointed by the county and the city. (2) At least one member on the board of directors must be representative of the lodging industry in the public facilities district before the public facilities district imposes the excise tax under RCW 36.100.040(1). Of the members of the board of directors of a public facilities district created in a county of one million five hundred thousand or more to acquire, own, and operate a convention and trade center, one of the governor’s appointments and one of the county’s appointments must be representative of the lodging industry in the public facilities district and one of the city’s appointments must be representative of organized labor, except that*
these requirements do not apply to the initial board of such district.

(3) Members of the board of directors must serve four-year terms of office, except that two of the initial five board members, three of the initial seven board members, and four of the initial nine board members must serve two-year terms of office.

(4) A vacancy must be filled in the same manner as the original appointment was made and the person appointed to fill a vacancy must serve for the remainder of the unexpired term of the office for the position to which he or she was appointed.

(5) Any director may be removed from office by the person or entity that appointed or confirmed such director for any reason or for no reason as follows: A director appointed by the governor may be removed from office by the governor; and any director confirmed by a city or county legislative authority may be removed from office by action of at least two-thirds of the members of the legislative authority that confirmed the director. (2) A public facilities district may enter into agreements under chapter 39.34 RCW for the design, financing, acquisition, development, construction, reconstruction, lease, remodeling, alteration, maintenance, equipping, reequipping, repair, operation, or management of such facilities and may enter into contracts under chapter 39.34 RCW where any party to the contract provides and operates such facilities for the other party or parties to the contract. A public facilities district may enter into agreements under chapter 39.34 RCW that will assist a public facilities district in the financing of all or any part of a district facility on such terms as may be determined by agreement between the respective parties, including without limitation by a loan, guaranty, or other financing agreement.

(3) Notwithstanding the establishment of a career, civil, or merit service system, a public facilities district may contract with a public or private entity for the operation or management of its public facilities.

(4) A public facilities district is authorized to use the supplemental alternative public works contracting procedures set forth in chapter 39.10 RCW in connection with the design, construction, reconstruction, remodel, or alteration of any of its public facilities.

(5) A public facilities district may impose charges and fees for the use of its facilities, and may accept and expend or use gifts, grants, and donations. 36.100.040  Lodging tax authorized—Annual payment amount—Payment of obligations—Application of other tax provisions. (1) A public facilities district may impose an excise tax on the sale of or charge made for the furnishing of lodging that is subject to tax under chapter 82.08 RCW, except that no such tax may be levied on any premises having fewer than forty lodging units. Except for any tax imposed under subsection (4) or (5) of this section, if a public facilities district has not imposed such an excise tax prior to December 31, 1995, the public facilities district may only impose the excise tax if a ballot proposition authorizing the imposition of the tax has been approved by a simple majority vote of voters of the public facilities district voting on the proposition.

(2) The rate of the tax may not exceed two percent and the proceeds of the tax may only be used for the acquisition, design, construction, remodeling, maintenance, equipping, reequipping, repairing, and operation of its public facilities. This excise tax may not be imposed until the district has approved the proposal to acquire, design, and construct the public facilities.

(3) Except for a public facilities district created within a county with a population of one million five hundred thousand or more for the purpose of acquiring, owning, and operating a convention and trade center, a public facilities district may not impose the tax authorized in this section if, after the tax authorized in this section was imposed, the effective combined rate of state and local excise taxes, including sales and use taxes and excise taxes on lodging, imposed on the sale of or charge made for furnishing of lodging in any jurisdiction in the public facilities district exceeds eleven and one-half percent.

(4) To replace the tax authorized by *RCW 67.40.090, a public facilities district created within a county with a population of one million five hundred thousand or more for the purpose of acquiring, owning, and operating a convention and trade center may impose an excise tax on the sale of or charge made for the furnishing of lodging that is subject to tax under chapter 82.08 RCW, except that no such tax may be levied on any premises having fewer than sixty lodging units. The rate of the tax may not exceed seven percent within the portion of the district that corresponds to the boundaries of the largest city within the public facilities district and may not exceed 2.8 percent in the remainder of the district. The tax imposed under this subsection (4) may not be collected prior to the transfer date defined in RCW 36.100.230.

(5) To replace the tax authorized by **RCW 67.40.130, a public facilities district created within a county with a population of one million five hundred thousand or more for the purpose of acquiring, owning, and operating a convention and trade center may impose an additional excise tax on the sale of or charge made for the furnishing of lodging that is subject to tax under chapter 82.08 RCW, except that no such tax may be levied on any premises having fewer than sixty lodging units. The rate of the additional excise tax may not exceed two percent and may be imposed only within the portion of the district that corresponds to the boundaries of the largest city within the public facilities district and may not be imposed in the remainder of the district. The tax imposed under this subsection (5) may not be collected prior to the transfer date specified in RCW 36.100.230. The tax imposed under this subsection (5) must be credited against the amount of the tax otherwise due to the state from those same taxpayers under chapter 82.08 RCW. The tax under this subsection (5) may be imposed only for the purpose of paying or securing the payment of the principal of and interest on obligations issued or incurred by the public facilities district and paying annual payment amounts to the state under subsection (6)(a) of this section. The authority to impose the additional excise tax under this subsection (5) expires on the date that is the earlier of (a) July 1, 2029, or (b) the date on which all obligations issued or incurred by the public facilities district to implement any redemption, prepayment, or legal defeasance of outstanding obligations under RCW 36.100.230(3)(a) are no longer outstanding.

(6)(a) Commencing with the first full fiscal year of the state after the transfer date defined in RCW 36.100.230 and for so long as a public facilities district imposes a tax under subsection (5) of this section, the public facilities district must transfer to the state of Washington on June 30th of each state fiscal year an annual payment amount.

(b) For the purposes of this subsection (6), "annual payment amount" means an amount equal to revenues received by the public facilities district in the fiscal year from the additional excise tax imposed under subsection (5) of this section plus an interest charge calculated on one-half the annual payment amount times an interest rate equal to the average annual rate of return for the prior calendar year in the Washington state local government investment pool created in chapter 43.250 RCW.

(c)(i) If the public facilities district in any fiscal year is required to apply additional lodging excise tax revenues to the payment of principal and interest on obligations it issues or incurs, and the public facilities district is unable to pay all or any portion of the annual payment amount to the state, the deficiency is deemed to be a loan from the state to the public facilities district for the purpose of assisting the district in paying such principal and interest and must be repaid by the public facilities district to the state after providing for the payment of the principal of and interest on obligations issued or incurred by the public facilities district, all on terms established by an agreement between the state treasurer and the public facilities district executed prior to the transfer date. Any agreement between the state treasurer and the public facilities district must specify the term for the repayment of...
the deficiency in the annual payment amount with an interest rate equal to the twenty bond general obligation bond buyer index plus one percentage point.

(ii) Outstanding obligations to repay any loans deemed to have been made to the public facilities district as provided in any such agreements between the state treasurer and the public facilities district survive the expiration of the additional excise tax under subsection (5) of this section.

(iii) For the purposes of this subsection (6)(c), "additional lodging excise tax revenues" mean the tax revenues received by the public facilities district under subsection (5) of this section.

(7) A public facilities district is authorized to pledge any of its revenues, including without limitation revenues from the taxes authorized in this section, to pay or secure the payment of obligations issued or incurred by the public facilities district, subject to the terms established by the board of directors of the public facilities district. So long as a pledge of the taxes authorized under this section is in effect, the legislature may not withdraw or modify the authority to levy and collect the taxes at the rates permitted under this section and may not increase the annual payment amount to be transferred to the state under subsection (6) of this section.

(8) The department of revenue must perform the collection of such taxes on behalf of the public facilities district at no cost to the district, and the state treasurer must distribute those taxes as available on a monthly basis to the district or, upon the direction of the district, to a fiscal agent, paying agent or trustee for obligations issued or incurred by the district.

(9) Except as expressly provided in this chapter, all of the provisions contained in RCW 82.08.050 and 82.08.060 and chapter 82.32 RCW have full force and application with respect to taxes imposed under the provisions of this section.

(10) The taxes imposed in this section do not apply to sales of temporary medical housing exempt under RCW 82.08.997. [2010 1st sp.s. c 15 § 5; 2008 c 137 § 5; 2002 c 178 § 5; 1995 c 396 § 4; 1989 1st ex.s. c 8 § 4; 1988 ex.s. c 1 § 14]

Revisor's note: *(1) RCW 67.40.090 is subject to a contingent repealer pursuant to 2010 1st sp.s. c 15 §§ 14 and 16. **(2) RCW 67.40.130 is subject to a contingent repealer pursuant to 2010 1st sp.s. c 15 §§ 14 and 16.

The board may also provide that revenue bonds payable out of the same source or sources of revenue may later be issued on a parity with any revenue bonds being issued and sold.

The owner or bearer of a revenue bond or any interest coupon issued pursuant to this section shall not have any claim against the district arising from the bond or coupon except for payment from the revenues lawfully pledged to meet the principal and interest requirements and any reserves created pursuant to RCW 39.44.140. The substance of the limitations included in this subsection shall be plainly printed, written, or engraved on each bond issued pursuant to this section.

If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected. [1997 c 220 § 602 (Referendum Bill No. 48, approved June 17, 1997).]
36.105.010 **Purpose.** Voters of the unincorporated areas of the state are authorized to establish community councils as provided in this chapter.

It is the purpose of this chapter to provide voters of unincorporated areas in counties with a population of over thirty thousand that are made up entirely of islands with direct input on the planning and zoning of their community by establishing a governmental mechanism to adopt proposed community comprehensive plans and proposed community zoning ordinances that are consistent with an overall guide and framework adopted by the county legislative authority. In addition, it is the purpose of this chapter to have community councils serve as forums for the discussion of local issues. 

[1991 c 363 § 99.]

**Purpose—Captions not law—1991 c 363:** See notes following RCW 2.32.180.

36.105.020 **Definitions.** Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Community" means a portion of the unincorporated area for which a community council has been established and which is located in a county with a population of over thirty thousand that is made up entirely of islands.

(2) "Community comprehensive plan" means a comprehensive plan adopted by a community council.

(3) "Community council" means the governing body established under this chapter to adopt community comprehensive plans and community zoning ordinances for a community.

(4) "Community zoning ordinances" means the zoning ordinances adopted by a community council to implement a community comprehensive plan. [1991 c 363 § 100.]

**Purpose—Captions not law—1991 c 363:** See notes following RCW 2.32.180.

36.105.030 **Minimum requirements.** A community for which a community council is created may include only unincorporated territory located in a single county with a population of over thirty thousand that is made up entirely of islands and not included within a city or town. A community council must have at least one thousand persons residing within the community when the community council is created or, where the community only includes an entire island, at least three hundred persons must reside on the island when the community council is created. Any portion of such a community that is annexed by a city or town, or is incorporated as a city or town, shall be removed from the community upon the effective date of the annexation or the official date of the incorporation. [1991 c 363 § 101.]

**Purpose—Captions not law—1991 c 363:** See notes following RCW 2.32.180.

36.105.040 **Creation.** (1) The process to create a community council shall be initiated by the filing of petitions with the county auditor of the county in which the community is located which: (a) Call for the creation of a community council; (b) set forth the boundaries for the community; (c) indicate the number of community councilmembers, which shall be five, seven, nine, or eleven; and (d) contain signatures of voters residing within the community equal in number to at least ten percent of the voters residing in the community who voted at the last state general election. The county auditor shall determine if the petitions contain a sufficient number of valid signatures and certify the sufficiency of the petitions within fifteen days of when the petitions were filed. If the petitions are certified as having sufficient valid signatures, the county auditor shall transmit the petitions and certificate to the county legislative authority.

(2) The county legislative authority shall hold a public hearing within the community on the creation of the proposed community council no later than sixty days after the petitions and certificate of sufficiency were transmitted to the county legislative authority. Notice of the public hearing shall be published in a newspaper of general circulation in the community for at least once a week for two consecutive weeks, with the last date of publication no more than ten days prior to the date of the public hearing. At least ten days before the public hearing, additional notice shall be posted conspicuously in at least five places within the proposed community in a manner designed to attract public attention.

(3) After receiving testimony on the creation of the proposed community council, the county legislative authority may alter the boundaries of the community, but the boundaries may not be altered to reduce the number of persons living within the community by more than ten percent or below the minimum number of residents who must reside within the community at the time of the creation of the community council. If territory is added to the community, another public hearing on the proposal shall be held.

(4) The county legislative authority shall call a special election within the community to determine whether the proposed community council shall be created, and to elect the initial community councilmembers, at the next state general election occurring seventy-five or more days after the initial public hearing on the creation of the proposed community council. The community council shall be created if the ballot proposition authorizing the creation of the community is approved by a simple majority vote of the voters voting on the proposition. [1991 c 363 § 102.]

**Purpose—Captions not law—1991 c 363:** See notes following RCW 2.32.180.

36.105.050 **Election of initial community councilmembers.** The initial members of the community council shall be elected at the same election as the ballot proposition is submitted authorizing the creation of the community council. However, the election of the initial community councilmembers shall be null and void if the ballot proposition authorizing the creation of the community council is not approved.

No primary election shall be held to nominate candidates for initial council positions. The initial community council shall consist of the candidate for each council position who receives the greatest number of votes for that council position. Staggering of terms of office shall be accomplished by
having the majority of the winning candidates who receive the greatest number of votes being elected to four-year terms of office, and the remaining winning candidates being elected to two-year terms of office, if the election was held in an even-numbered year, or the majority of the winning candidates who receive the greatest number of votes being elected to three-year terms of office, and the remaining winning candidates being elected to one-year terms of office, if the election was held in an odd-numbered year, with the term computed from the first day of January in the year following the election. Initial councilmembers shall take office immediately when qualified in accordance with *RCW 29.01.135.

However, where the county operates under a charter providing for the election of members of the county legislative authority in odd-numbered years, the terms of office of the initial councilmembers shall be four years and two years, if the election of the initial councilmembers was held on an odd-numbered year, or three years and one year, if the election of the initial councilmembers was held on an even-numbered year. [1991 c 363 § 103.]

*Reviser’s note: RCW 29.01.135 was recodified as RCW 29A.04.133 pursuant to 2003 c 111 § 2401, effective July 1, 2004.

36.105.060 Community councilmembers—Election—Terms. Community councilmembers shall be elected to staggered four-year terms until their successors are elected and qualified. Each council position shall be numbered separately. Candidates shall run for specific council positions. The number of council positions shall be five, seven, nine, or eleven, as specified in the petition calling for the creation of the community council.

Community councilmembers shall be nominated and elected at nonpartisan elections pursuant to general election laws, except the elections shall be held in even-numbered years, unless the county operates under a charter and members of the county legislative authority are elected in odd-numbered years, in which case, community councilmembers shall be elected in odd-numbered years.

The provisions of this section apply to the election and terms of office of the initial community councilmembers, except as provided in RCW 36.105.050.

A councilmember shall lose his or her council position if his or her primary residence no longer is located within the community. Vacancies on a council shall be filled by action of the remaining councilmembers. [1991 c 363 § 104.]

Purpose—Captions not law—1991 c 363: See notes following RCW 2.32.180.

36.105.070 Responsibility of county legislative authority. (1) Within ninety days of the election at which a community council is created, the county legislative authority shall adopt an ordinance establishing policies and conditions and designating portions or components of the county comprehensive plan and zoning ordinances that serve as an overall guide and framework for the development of proposed community comprehensive plans and proposed community zoning ordinances. The conditions and policies shall conform with the requirements of chapter 36.70A RCW.

(2) Proposed community comprehensive plans and proposed community zoning ordinances that are adopted by a community council shall be submitted to the county legislative authority for its review of the consistency of the proposed plans and proposed ordinances with the ordinance adopted under subsection (1) of this section. The county legislative authority shall either approve the proposed plans and proposed ordinances as adopted, or refer the proposed plans and proposed ordinances back to the community council with written findings specifying the inconsistencies, within ninety days after they were submitted. The county comprehensive plan, or subarea plan and comprehensive plan, and zoning ordinances shall remain in effect in the community until the approved community comprehensive plans and proposed community zoning ordinances have been approved as provided in this subsection.

(3) Each proposed amendment to approved community comprehensive plans or approved community zoning ordinances that is adopted by a community council shall be submitted to the county legislative authority for its review of the consistency of the amendment with the ordinance adopted under subsection (1) of this section. The county legislative authority shall either approve the proposed amendment as adopted or refer the proposed amendment back to the community council with written findings specifying the inconsistencies within ninety days after the proposed amendment was submitted. The unamended community comprehensive plans and unamended community zoning ordinances shall remain in effect in the community until the proposed amendment has been approved as provided in this subsection.

(4) If the county legislative authority amends the ordinance it adopted under subsection (1) of this section, a community council shall be given at least one hundred twenty days to amend its community comprehensive plans and community zoning ordinances to be consistent with this amended ordinance. However, the county legislative authority may amend the community comprehensive plans and community zoning ordinances to achieve consistency with this amended ordinance. Nothing in this subsection shall preclude a community council from subsequently obtaining approval of its proposed community comprehensive plans and proposed community zoning ordinances.

(5) Approved community comprehensive plans and approved community zoning ordinances shall be enforced by the county as if they had been adopted by the county legislative authority. All quasi-judicial actions and permits relating to these plans and ordinances shall be made and decided by the county legislative authority or otherwise as provided by the county legislative authority.

(6) The county shall provide administrative and staff support for each community council within its boundaries. [1991 c 363 § 105.]

36.105.080 Powers. A community council shall adopt proposed community comprehensive plans and proposed community zoning ordinances as provided in RCW 36.105.070. Community councils shall not have the authority to take quasi-judicial actions nor to decide permit applica-
tions. In addition, a community council shall serve as a forum for the discussion of local issues.

Community councils are subject to chapter 42.30 RCW, the open public meetings act. [1991 c 363 § 106.]

Purpose—Captions not law—1991 c 363: See notes following RCW 2.32.180.

36.105.090 Annexation. A community council may provide for the annexation of adjacent unincorporated areas to the community that are not included within another community for which a community council has been established. Annexations shall be initiated by either resolution of the community council proposing the annexation or petition of voters residing in the adjacent area, which petition: (a) Requests the annexation; (b) sets forth the boundaries of the area proposed to be annexed; and (c) contains signatures of voters residing within the area that is proposed to be annexed equal in number to at least ten percent of the voters residing in that area who voted at the last state general election. Annexation petitions shall be filed with the county auditor who shall determine if the petitions contain a sufficient number of valid signatures, certify the sufficiency of the petitions, and notify the community council of the sufficiency of the petitions within fifteen days of when the petitions are submitted.

A ballot proposition authorizing the annexation shall be submitted to the voters of the area that is proposed to be annexed at a primary or general election in either an odd-numbered or even-numbered year, if the community council initiated the annexation by resolution or if the community council concurs in an annexation that was initiated by the submission of annexation petitions containing sufficient valid signatures. The annexation shall occur if the ballot proposition authorizing the creation of the community is approved by a simple majority vote of the voters voting on the proposition. The county’s comprehensive plan, and where applicable to the county’s subarea plan, and zoning ordinances shall continue in effect in the annexed area until proposed amendments to the approved community comprehensive plans and approved community zoning ordinance have been approved that apply to the annexed area. [1991 c 363 § 107.]

36.105.100 Dissolution. A community council shall be dissolved if the population of the community is reduced to less than five hundred persons, or less than two hundred persons if the community only includes an entire island.

At the next general election at which community council members would be elected, occurring at least four years after the creation or reestablishment of a community, a ballot proposition shall be submitted to the voters of the community on whether the community shall be reestablished. If reestablished, the newly elected members of the community council and the retained members of the community council shall constitute the members of the community council. [1991 c 363 § 108.]

To ensure that this obligation can be clearly identified and accomplished, and to provide accountability for purposes of the department of labor and industries, a free venture jail industry agreement entered into by a city or county and private sector business, industry, or nonprofit organization should be filed under a separate master business application, establishing a new and separate account with the department of labor and industries, and not be reported under an existing account for parties to the agreement. 36.115.010 Purpose. The purpose of chapter 266, Laws of 1994 is to establish a flexible process by which local governments enter into service agreements that will establish which jurisdictions should provide various local government services and facilities within specified geographic areas and how those services and facilities will be financed. [1994 c 266 § 1.]

[1994 c 266 § 6.]

36.115.070 Legislative intent. It is the intent of the legislature to permit the creation of a flexible process to establish service agreements and to recognize that local governments possess broad authority to shape a variety of governmental service agreements to meet their local needs and circumstances. However, it is noted that in general, cities are the unit of local government most appropriate to provide urban governmental services and counties are the unit of local government most appropriate to provide regional governmental services.

The process to establish service agreements should assure that all directly affected local governments, and Indian tribes at their option, are allowed to be heard on issues relevant to them. [1994 c 266 § 7.]

36.115.080 Duties, requirements, authorities under growth management act not altered. Nothing contained in this chapter alters the duties, requirements, and authorities of cities and counties contained in chapter 36.70A RCW. [1994 c 266 § 8.]
(2) The state cannot by itself fund, in a timely way, many of the major capacity and other improvements required on highways of statewide significance in the state’s largest urbanized area;

(3) Providing a transportation system that provides efficient mobility for persons and freight requires a shared partnership and responsibility between the state, local, and regional governments and the private sector; and

(4) Timely construction and development of significant transportation improvement projects can best be achieved through enhanced funding options for governments at the county and regional levels, using already existing tax authority to address roadway and multimodal needs and new authority for regions to address critical transportation projects of statewide significance. [2002 c 56 § 101.]

36.120.020 Definitions. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Board" means the governing body of a regional transportation investment district.

(2) "Department" means the Washington state department of transportation.

(3) "Highway of statewide significance" means an existing or proposed state route or federal interstate designated as a highway of statewide significance by the transportation commission, the department, or the legislature.

(4) "Lead agency" means a public agency that by law can plan, design, and build a transportation project and has been so designated by the district.

(5) "Regional transportation investment district" or "district" means a municipal corporation that has been created by county legislative authorities and a vote of the people under this chapter to implement a regional transportation investment plan.

(6) "Regional transportation investment district planning committee" or "planning committee" means the advisory committee created under RCW 36.120.030 to create and propose to county legislative authorities a regional transportation investment plan to develop, finance, and construct transportation projects.

(7) "Regional transportation investment plan" or "plan" means a plan to develop, construct, and finance a transportation project or projects.

(8) "Transportation project" means:

(a) A capital improvement or improvements to a highway that has been designated, in whole or in part, as a highway of statewide significance, including an extension, that:

(i) Adds a lane or new lanes to an existing state or federal highway; or

(ii) Repairs or replaces a lane or lanes damaged by an event declared an emergency by the governor before January 1, 2002.

(b) A capital improvement or improvements to all or a portion of a highway of statewide significance, including an extension, and may include the following associated multimodal capital improvements:

(i) Approaches to highways of statewide significance;

(ii) High occupancy vehicle lanes;

(iii) Flyover ramps;

(iv) Park and ride lots;

(v) Bus pullouts;

(vi) Vans for vanpools;

(vii) Buses; and

(viii) Signalization, ramp metering, and other transportation system management improvements.

(c) A capital improvement or improvements to all or a portion of a city street, county road, or existing highway or the creation of a new highway that intersects with a highway of statewide significance, if all of the following conditions are met:

(i) The project is included in a plan that makes highway improvement projects that add capacity to a highway or highways of statewide significance;

(ii) The secretary of transportation determines that the project would better relieve traffic congestion than investing that same money in adding capacity to a highway of statewide significance;

(iii) Matching money equal to fifteen percent of the total cost of the project is provided by local entities, including but not limited to a metropolitan planning organization, county, city, port, or private entity in which a county participating in a plan is located. Local entities may use federal grants to meet this matching requirement;

(iv) In no case may the cumulative regional transportation investment district contribution to all projects constructed under this subsection (8)(c) exceed ten percent of the revenues generated by the district;

(v) In no case may the cumulative regional transportation investment district contribution to all projects constructed under this subsection (8)(c) exceed one billion dollars; and

(vi) The specific projects are included within the plan and submitted as part of the plan to a vote of the people.

(d) Except as otherwise provided in this subsection, operations, preservation, and maintenance are excluded from this definition and may not be included in a regional transportation investment plan. However, operations, preservation, and maintenance of tolled facilities where toll revenues have been pledged for the payment of contracts is expressly authorized and may be included in a regional transportation investment plan. The authority under this subsection includes operational expenses for toll enforcement.

(e) Operational expenses for traffic mitigation provided solely for transportation project construction mitigation directly related to specific projects as outlined in the plan shall be included in a regional transportation investment plan. Construction mitigation strategies may include, but are not limited to, funding for increased transit service hours, trip reduction incentives, nonmotorized mode support, and ride-matching services. Prior to construction of any project, corridor mitigation plans must be developed in conjunction with

[Title 36 RCW—page 338]
the department and partner transit agencies, including local transit agencies and the regional transit authority serving the counties, with the following goals: (i) Reducing drive alone trips in affected corridors; (ii) reducing delay per person and delay per unit of goods in affected corridors; and (iii) improving levels of service that improve system performance for all transportation users in affected corridors. The regional transportation commission established under section 2, chapter 311, Laws of 2006, or a successor regional governing entity, shall review transit investments according to these performance measures to determine whether to continue funding for successful and effective operations after the construction period is completed.

(9) "Weighted vote" means a vote that reflects the population each board or planning committee member represents relative to the population represented by the total membership of the board or planning committee. Population will be determined using the federal 2000 census or subsequent federal census data. [2006 c 334 § 13; 2006 c 311 § 4; 2002 c 56 § 102.]

Reviser's note: This section was amended by 2006 c 311 § 4 and by 2006 c 334 § 13, each without reference to the other. Both amendments are incorporated in the publication of this section under RCW 1.12.025(2). For rule of construction, see RCW 1.12.025(1).

Effective date—2006 c 334: See note following RCW 47.01.051.

Findings—2006 c 311: "The legislature finds that effective transportation planning in urbanized regions requires stronger and clearer lines of responsibility and accountability.

The legislature further finds that integrated, multimodal transportation planning will help reduce transportation congestion and improve safety, and that streamlined decision making will help reduce political congestion.

The legislature further finds that coordinated planning of, investment in, and operation of transportation systems will have significant benefit to the citizens of Washington, and that it is the will of the people to fund regional transportation solutions, including improving transit service in urbanized areas and among existing, fragmented transit agencies in the region. Although equity considerations must be respected, transportation problems are broader and deeper than the sum of geographic subareas.

It is therefore the policy of the state of Washington to create a regional transportation commission to develop a proposal for a regional transportation governing entity more directly accountable to the public, and to develop a comprehensive regional transportation finance plan for the citizens of the Puget Sound metropolitan region." [2006 c 311 § 1.]

### 36.120.030 Planning committee—Formation.
Regional transportation investment district planning committees are advisory entities that are created, convened, and empowered as follows:

(1) A county with a population over one million five hundred thousand persons and any adjoining counties with a population over five hundred thousand persons may create a regional transportation investment district and shall convene a regional transportation investment district planning committee.

(a) The boundaries of the district should include at least the contiguous areas within the regional transit authority serving the counties. The boundaries must be proposed by the planning committee and approved by the county legislative authorities by ordinance before or in conjunction with approval of a regional transportation investment plan. Boundaries must follow complete parcels of land. However, any portion of a county that is located on a peninsula shall be exempt from a regional transportation investment district in which more than one county is included if (i) the portion of the county located on the peninsula is connected to the other portion of the county by a bridge improved under chapter 47.46 RCW, and (ii) the county has a national park and a population of more than five hundred thousand persons, but less than one million five hundred thousand persons.

(b) After voters within the district boundaries have approved a plan under RCW 36.120.070, elections to add areas to the district boundaries may be called by a resolution of the board, after consultation with the regional transportation planning organization and affected transit agencies and with the concurrence of the legislative authority of the city or town if the area is incorporated or with the concurrence of the county legislative authority if the area is unincorporated. The election may include a single ballot measure providing annexation to the district, approval of the plan, and approval of revenue sources necessary to finance the plan. The electorate are the voters voting within the proposed area to be annexed. A simple majority of the persons voting on the single ballot measure is required for approval of the measure.

(2) The members of the legislative authorities participating in planning under this chapter shall serve as the district planning committee. Members of the planning committee receive no compensation, but may be reimbursed for travel and incidental expenses as the planning committee deems appropriate.

The secretary of transportation, or the appropriate regional administrator of the department, as named by the secretary, shall serve on the committee as a nonvoting member.

(3) A regional transportation investment district planning committee may be entitled to state funding, as appropriated by the legislature, for start-up funding to pay for salaries, expenses, overhead, supplies, and similar expenses ordinarily and necessarily incurred in selecting transportation projects and funding for those transportation projects under this chapter. Upon creation of a regional transportation investment district, the district shall within one year reimburse the state for any sums advanced for these start-up costs from the state.

(4) The planning committee shall conduct its affairs and formulate a regional transportation investment plan as provided under RCW 36.120.040, except that it shall elect an executive board of seven members to discharge the duties of the planning committee and formulate a regional transportation investment plan, subject to the approval of the full committee.

(5) At its first meeting, a regional transportation investment district planning committee may elect officers and provide for the adoption of rules and other operating procedures.

(6) Governance of and decisions by a regional transportation investment district planning committee must be by a sixty-percent weighted majority vote of the total membership.

(7) The planning committee may dissolve itself at any time by a two-thirds weighted majority vote of the total membership of the planning committee.

(8) If a multicounty regional transportation investment district is not formed by December 1, 2007, through approval by the voters voting on a regional transportation investment plan, then the authority under this chapter to create a district, and to fund and construct transportation projects, shall be available to each of the eligible counties described in subsec-
tion (1) of this section on an individual and independent basis. [2006 c 311 § 5; 2002 c 56 § 103.]

Findings—2006 c 311: See note following RCW 36.120.020.

36.120.040 Planning committee—Duties. (1) A regional transportation investment district planning committee shall adopt a regional transportation investment plan providing for the development, construction, and financing of transportation projects. The planning committee may consider the following factors in formulating its plan:

(a) Land use planning criteria;
(b) The input of cities located within a participating county; and
(c) The input of regional transportation planning organizations of which a participating county is a member. A regional transportation planning organization in which a participating county is located shall review its adopted regional transportation plan and submit, for the planning committee’s consideration, its list of transportation improvement priorities.

(2) The planning committee may coordinate its activities with the department, which shall provide services, data, and personnel to assist in this planning as desired by the planning committee. In addition, the planning committee may coordinate its activities with affected cities, towns, and other local governments, including any regional transit authority existing within the participating counties’ boundaries, that engage in transportation planning.

(3) The planning committee shall:
(a) Conduct public meetings that are needed to assure active public participation in the development of the plan;
(b) Adopt a plan proposing the:
(i) Creation of a regional transportation investment district, including district boundaries; and
(ii) Construction of transportation projects to improve mobility within each county and within the region. Operations, maintenance, and preservation of facilities or systems may not be part of the plan, except for the limited purposes provided under RCW 36.120.020(8); and
(c) Recommend sources of revenue authorized by RCW 36.120.050 and a financing plan to fund selected transportation projects. The overall plan of the district must leverage the district’s financial contributions so that the federal, state, local, and other revenue sources continue to fund major congestion relief and transportation capacity improvement projects in each county and the district. A combination of local, state, and federal revenues may be necessary to pay for transportation projects, and the planning committee shall consider all of these revenue sources in developing a plan.

(4) The plan must use tax revenues and related debt for projects that generally benefit a participating county in proportion to the general level of tax revenues generated within that participating county. This equity principle applies to all modifications to the plan, appropriation of contingency funds not identified within the project estimate, and future phases of the plan. Per agreement with a regional transit authority serving the counties participating in a district, the equity principle identified under this subsection may include using the combined district and regional transit authority revenues generated within a participating county to determine the distribution that proportionally benefits the county. For purposes of the transportation subarea equity principle established under this subsection, a district may use the five subareas within a regional transit authority’s boundaries as identified in an authority’s system plan adopted in May 1996. During implementation of the plan, the board shall retain the flexibility to manage distribution of revenues, debt, and project schedules so that the district may effectively implement the plan. Nothing in this section should be interpreted to prevent the district from pledging district-wide tax revenues for payment of any contract or debt entered into under RCW 36.120.130.

(5) Before adopting the plan, the planning committee, with assistance from the department, shall work with the lead agency to develop accurate cost forecasts for transportation projects. This project costing methodology must be integrated with revenue forecasts in developing the plan and must at a minimum include estimated project costs in constant dollars as well as year of expenditure dollars, the range of project costs reflected by the level of project design, project contingencies, identification of mitigation costs, the range of revenue forecasts, and project and plan cash flow and bond analysis. The plan submitted to the voters must provide cost estimates for each project, including reasonable contingency costs. Plans submitted to the voters must provide that the maximum amount possible of the funds raised will be used to fund projects in the plan, including environmental improvements and mitigation, and that administrative costs be minimized. If actual revenue exceeds actual plan costs, the excess revenues must be used to retire any outstanding debt associated with the plan.

(6) If a county opts not to adopt the plan or participate in the regional transportation investment district, but two or more contiguous counties do choose to continue to participate, then the planning committee may, within ninety days, redefine the regional transportation investment plan and ballot measure to be submitted to the people to reflect elimination of the county, and submit the redefined plan to the legislative authorities of the remaining counties for their decision as to whether to continue to adopt the redefined plan and participate. This action must be completed within sixty days after receipt of the redefined plan.

(7) Once adopted by the planning committee, the plan must be forwarded to the participating county legislative authorities to initiate the election process under RCW 36.120.070. The planning committee shall at the same time provide notice to each city and town within the district, the governor, the chairs of the transportation committees of the legislature, the secretary of transportation, and each legislator whose legislative district is partially or wholly within the boundaries of the district.

(8) If the ballot measure is not approved, the planning committee may redefine the selected transportation projects, financing plan, and the ballot measure. The county legislative authorities may approve the new plan and ballot measure, and may then submit the revised proposition to the voters at the next election or a special election. If no ballot measure is approved by the voters by the third vote, the planning committee is dissolved. [2006 c 311 § 6; 2003 c 194 § 1; 2002 c 56 § 104.]

Findings—2006 c 311: See note following RCW 36.120.020.
36.120.045 Planning committee—State route No. 520 improvements. The planning committee must develop and include in the regional transportation investment plan a funding proposal for the state route number 520 bridge replacement and HOV project that assures full project funding for seismic safety and corridor connectivity on state route number 520 between Interstate 5 and Interstate 405. [2006 c 311 § 7.]

Findings—2006 c 311: See note following RCW 36.120.020.

36.120.050 Planning committee—Taxes, fees, and tolls. (1) A regional transportation investment district planning committee may, as part of a regional transportation investment plan, recommend the imposition or authorization of some or all of the following revenue sources, which a regional transportation investment district may impose or authorize upon approval of the voters as provided in this chapter:

(a) A regional sales and use tax, as specified in RCW 82.14.430, of up to 0.1 percent of the selling price, in the case of a sales tax, or value of the article used, in the case of a use tax, upon the occurrence of any taxable event in the regional transportation investment district;

(b) A local option vehicle license fee, as specified under RCW 82.80.100, of up to one hundred dollars per vehicle registered in the district. As used in this subsection, "vehicle" means motor vehicle as defined in RCW 46.04.320. Certain classes of vehicles, as defined under chapter 46.04 RCW, may be exempted from this fee;

(c) A parking tax under RCW 82.80.030;

(d) A local motor vehicle excise tax under RCW 81.100.060;

(e) A local option fuel tax under RCW 82.80.120;

(f) An employer excise tax under RCW 81.100.030; and

(g) Vehicle tolls on new or reconstructed local or regional arterials or state routes within the boundaries of the district, if the following conditions are met:

(i) Consistent with RCW 47.56.820, the vehicle toll must first be authorized by the legislature if the toll is imposed on a state route;

(ii) Consistent with RCW 47.56.850, the vehicle toll, including any change in an existing toll rate, must first be reviewed and approved by the tolling authority designated in RCW 47.56.850 if the toll, or change in toll rate, would have a significant impact, as determined by the tolling authority, on the operation of any state facility;

(iii) The regional transportation investment plan must identify the facilities that may be tolled; and

(iv) Unless otherwise specified by law, the department shall administer the collection of vehicle tolls on designated facilities, and the state transportation commission, or its successor, shall be the tolling authority, and shall act in accordance with RCW 47.56.850.

(2) Taxes, fees, and tolls may not be imposed or authorized without an affirmative vote of the majority of the voters within the boundaries of the district voting on a ballot proposition as set forth in RCW 36.120.070. Revenues from these taxes and fees may be used only to implement the plan as set forth in this chapter. A district may contract with the state department of revenue or other appropriate entities for administration and collection of any of the taxes or fees authorized in this section.

(3) Existing statewide motor vehicle fuel and special fuel taxes, at the distribution rates in effect on January 1, 2001, are not intended to be altered by this chapter. [2008 c 122 § 16; 2006 c 311 § 13; 2003 c 350 § 4; 2002 c 56 § 105.]

Findings—2006 c 311: See note following RCW 36.120.020.

36.120.060 Project selection—Performance criteria. (1) The planning committee shall consider the following criteria for selecting transportation projects to improve corridor performance:

(a) Reduced level of congestion and improved safety;

(b) Improved travel time;

(c) Improved air quality;

(d) Increases in daily and peak period person and vehicle trip capacity;

(e) Reductions in person and vehicle delay;

(f) Improved freight mobility; and

(g) Cost-effectiveness of the investment.

(2) These criteria represent only minimum standards that must be considered in selecting transportation improvement projects. The board shall also consider rules and standards for benchmarks adopted by the transportation commission or its successor. [2002 c 56 § 106.]

36.120.070 Submission of ballot propositions to the voters. (1) Beginning no sooner than the 2007 general election, two or more contiguous county legislative authorities, or a single county legislative authority as provided under RCW 36.120.030(8), upon receipt of the regional transportation investment plan under RCW 36.120.040, may submit to the voters of the proposed district a single ballot proposition that approves formation of the district, approves the regional transportation investment plan, and approves the revenue sources necessary to finance the plan. For a county to participate in the plan, the county legislative authority shall, within ninety days after receiving the plan, adopt an ordinance indicating the county’s participation. The planning committee may draft the ballot proposition on behalf of the county legislative authorities, and the county legislative authorities may give notice as required by law for ballot propositions, and perform other duties as required to submit the proposition to the voters of the proposed district for their approval or rejection. Counties may negotiate interlocal agreements necessary to implement the plan. The electorate will be the voters voting within the boundaries of the proposed district. A simple majority of the total persons voting on the single ballot proposition is required for approval.

(2) The participating counties shall submit a regional transportation investment plan at the 2007 general election as part of a single ballot proposition that includes, in conjunction with RCW 81.112.030(10), a plan to support an authority’s system and financing plan, or additional implementation phases of the system and financing plan, developed under chapter 81.112 RCW. The regional transportation investment plan shall not be considered approved unless both a majority of the persons voting on the proposition residing in the proposed district vote in favor of the proposition and a majority of the persons voting on the proposition residing...
within the regional transit authority vote in favor of the proposition. [2007 c 509 § 2; 2006 c 311 § 8; 2002 c 56 § 107.]

Findings—Intent—2007 c 509: "The legislature finds that traffic congestion reduces personal and freight mobility and is detrimental to the economy, air quality, and the quality of life throughout the central Puget Sound area. Effective transportation solutions are essential for the future growth and development of the central Puget Sound area and the welfare of its citizens.

The legislature further finds that investments in both transit and road improvements are necessary to relieve traffic congestion and to improve mobility. The transportation improvements proposed by regional transportation investment districts and regional transit authorities within the central Puget Sound region form integral parts of, and are naturally and necessarily related to, a single regional transportation system. The construction of road and transit projects in a comprehensive and interrelated manner will help reduce transportation congestion, increase road capacity, promote safety, facilitate mobility, and improve the health, welfare, and safety of the citizens of Washington.

The legislature further finds that under RCW 81.112.030 and *36.120.170 regional transportation investment districts and regional transit authorities are required to submit to the voters propositions for their respective transportation plans on the same ballot at the 2007 general election and that the opportunity to propose a single ballot reflecting a comprehensive, systemic, and interrelated approach to regional transportation would further the legislative intent and provide voters with an easier and more efficient method of expressing their will.

It is therefore the policy and intent of the state of Washington that transportation plans required to be submitted for voter approval at the 2007 general election by a regional transportation investment district and a regional transit authority must be submitted to voters in single ballot questions seeking approval of both plans." [2007 c 509 § 1.]

*Reviser's note: Reference to RCW 36.120.170 appears to be erroneous. The correct reference should be to RCW 36.120.070.

Constitutional challenges—Expedited appeals—2007 c 509: "Any legal challenges as to the constitutionality of this act must be filed in superior court along with any supporting legal and factual authority within twenty calendar days of May 15, 2007. Notice of a challenge along with any supporting legal and factual authority must be served upon the secretary of state, the attorney general, the district, and the authority. Upon the filing of a challenge, the state, district, and authority have ten calendar days to file any response to the challenge along with any supporting legal and factual authority. The court shall accord priority to hearing the matter and shall, within five calendar days of the filing of the response to the challenge, render its decision and file with the secretary of state a copy of its decision. The decision of the superior court constitutes a final judgment. Any appeal must be filed in the supreme court within ten calendar days after the date of the superior court decision. The supreme court shall issue its ruling on the appeal within thirty days of receipt by the court." [2007 c 509 § 5.]

Severability—2007 c 509: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [2007 c 509 § 6.]

Effective date—2007 c 509: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately [May 15, 2007]." [2007 c 509 § 7.]

Findings—2006 c 311: See note following RCW 36.120.020.

36.120.080 Governing board—Organization. The board shall adopt rules for the conduct of business. The board shall adopt bylaws to govern district affairs, which may include:

(1) The time and place of regular meetings;
(2) Rules for calling special meetings;
(3) The method of keeping records of proceedings and official acts;
(4) Procedures for the safekeeping and disbursement of funds; and
(5) Any other provisions the board finds necessary to include. [2002 c 56 § 110.]

36.120.100 Governing board—Powers and duties—Intent. (1) The governing board of the district is responsible for the execution of the voter-approved plan. The board shall:

(a) Impose taxes and fees authorized by district voters;
(b) Enter into agreements with state, local, and regional agencies and departments as necessary to accomplish district purposes and protect the district’s investment in transportation projects;
(c) Accept gifts, grants, or other contributions of funds that will support the purposes and programs of the district;
(d) Monitor and audit the progress and execution of transportation projects to protect the investment of the public and annually make public its findings;
(e) Pay for services and enter into leases and contracts, including professional service contracts;
(f) Hire no more than ten employees, including a director or executive officer, a treasurer or financial officer, a project manager or engineer, a project permit coordinator, and clerical staff; and

[Title 36 RCW—page 342]
(g) Coordinate its activities with affected cities, towns, and other local governments, including any regional transit authority existing either partially or entirely within the district area, that engage in transportation planning; and

(h) Exercise other powers and duties as may be reasonable to carry out the purposes of the district.

(2) It is the intent of the legislature that existing staff and resources of lead agencies be used in implementing this chapter. A district may coordinate its activities with the department, which shall provide services, data, and personnel to assist as desired by the regional transportation investment district. Lead agencies for transportation projects that are not state facilities shall also provide staff support for the board.

(3) A district may not acquire, hold, or dispose of real property.

(4) Except for the limited purposes provided under RCW 36.120.020(8), a district may not own, operate, or maintain an ongoing facility, road, or transportation system.

(5) A district may accept and expend or use gifts, grants, or donations.

(6) It is the intent of the legislature that administrative and overhead costs of a regional transportation investment district be minimized. For transportation projects costing up to fifty million dollars, administrative and overhead costs may not exceed three percent of the total construction and design project costs per year. For transportation projects costing more than fifty million dollars, administrative and overhead costs may not exceed three percent of the first fifty million dollars in costs, plus an additional one-tenth of one percent of each additional dollar above fifty million. These limitations apply only to the district, and do not limit the administration or expenditures of the department.

(7) A district may use the design-build procedure for transportation projects developed by it. As used in this section "design-build procedure" means a method of contracting under which the district contracts with another party for that party to both design and build the structures, facilities, and other items specified in the contract. The requirements and limitations of RCW 47.20.780 and 47.20.785 do not apply to the transportation projects under this chapter. [2006 c 311 § 11; 2002 c 56 § 111.]

Findings—2006 c 311: See note following RCW 36.120.020.

36.120.120 Treasurer. The regional transportation investment district, by resolution, shall designate a person having experience in financial or fiscal matters as treasurer of the district. The district may designate the treasurer of a county within which the district is located to act as its treasurer. Such a treasurer has all of the powers, responsibilities, and duties the county treasurer has related to investing surplus funds. The district shall require a bond with a surety company authorized to do business in this state in an amount and under the terms and conditions the district, by resolution, from time to time finds will protect the district against loss. The district shall pay the premium on the bond.

In addition to the account established in RCW 36.120.200, the treasurer may establish a special account, into which may be paid district funds. The treasurer may disburse district funds only on warrants issued by the district upon orders or vouchers approved by the district.

If the treasurer of the district is the treasurer of a county, all district funds must be deposited with a county depositary under the same restrictions, contracts, and security as provided for county depositaries. If the treasurer of the district is some other person, all funds must be deposited in a bank or banks authorized to do business in this state qualified for insured deposits under any federal deposit insurance act as the district, by resolution, designates.

The district may provide and require a reasonable bond of any other person handling moneys or securities of the district, but the district shall pay the premium on the bond. [2002 c 56 § 112.]

36.120.130 Indebtedness—Bonds—Limitation. (1)(a) Notwithstanding RCW 39.36.020(1), the district may at any time contract indebtedness or borrow money for district purposes and may issue general obligation bonds or other evidences of indebtedness, secured by the pledge of one or more of the taxes, tolls, charges, or fees authorized to be imposed by the district, in an amount not exceeding, together with any existing indebtedness of the district not authorized by the voters, one and one-half percent of the value of the taxable property within the boundaries of the district.

(b) With the assent of three-fifths of the voters voting at an election, a district may contract indebtedness or borrow money for district purposes and may issue general obligation bonds or other evidences of indebtedness as long as the total indebtedness of the district does not exceed five percent of the value of the taxable property within the district, including indebtedness authorized under (a) of this subsection. The bonds shall be issued and sold in accordance with chapter 39.46 RCW.

(2) The district may at any time issue revenue bonds or other evidences of indebtedness, secured by the pledge of one or more of the revenues authorized to be collected by the district, to provide funds to carry out its authorized functions without submitting the matter to the voters of the district. These obligations shall be issued and sold in accordance with chapter 39.46 RCW.

(3) The district may enter into agreements with the lead agencies or the state of Washington, when authorized by the plan, to pledge taxes or other revenues of the district for the purpose of paying in part or whole principal and interest on bonds issued by the lead agency or the state of Washington. The agreements pledging revenues and taxes shall be binding for their terms, but not to exceed thirty years, and no tax pledged by an agreement may be eliminated or modified if it would impair the pledge made in any agreement.

(4) Once construction of projects in the plan has been completed, revenues collected by the district may only be used for the following purposes: (a) Payment of principal and interest on outstanding indebtedness of the district; (b) to make payments required under a pledging agreement; and (c) to make payments for maintenance and operations of toll facilities as may be required by toll bond covenants. [2003 c 372 § 1; 2002 c 56 § 113.]

36.120.140 Transportation project or plan modification—Accountability. (1) The board may modify the plan to change transportation projects or revenue sources if:
(a) Two or more participating counties adopt a resolution to modify the plan; and
(b) The counties submit to the voters in the district a ballot measure that redefines the scope of the plan, its projects, its schedule, its costs, or the revenue sources. If the voters fail to approve the redefined plan, the district shall continue to work on and complete the plan, and the projects in it, that was originally approved by the voters. If the voters approve the redefined plan, the district shall work on and complete the projects under the redefined plan.

(2) The board may modify the plan to change transportation projects within a participating county if:
(a) A majority of the board approves the change;
(b) The modifications are limited to projects within the county;
(c) The county submits to the voters in the county a ballot measure that redefines:
   (i) Projects;
   (ii) Scopes of projects; or
   (iii) Costs; and
   (iv) The financial plan for the county;
(d) The board may modify the plan to change transportation projects within a participating county if:
   (i) Projects;
   (ii) Scopes of projects; or
   (iii) Costs; and
   (iv) The financial plan for the county;
(e) The proposed modifications maintain the equity of the plan and does [do] not increase the total level of plan expenditure for the county.

If the voters fail to approve the modified plan, the district shall continue to work on and complete the plan, and the projects in it, that was originally approved by the voters. If the voters approve the redefined plan, the district shall work on and complete the projects under the redefined plan.

(3) If a transportation project cost exceeds its original cost by more than twenty percent as identified in the plan:
(a) The board shall, in coordination with the county legislative authorities, submit to the voters in the district or county a ballot measure that redefines the scope of the transportation project, its schedule, or its costs. If the voters fail to approve the redefined transportation project, the district shall terminate work on that transportation project, except that the district may take reasonable steps to use, preserve, or connect any improvement already constructed. The remainder of any funds that would otherwise have been expended on the terminated transportation project must first be used to retire any outstanding debt attributable to the plan and then may be used to implement the remainder of the plan.
(b) Alternatively, upon adoption of a resolution by two or more participating counties:
   (i) The counties shall submit to the voters in the district a ballot measure that redefines the scope of the plan, its transportation projects, its schedule, or its costs. If the voters fail to approve the redefined plan, the district shall terminate work on that plan, except that the district may take reasonable steps to use, preserve, or connect any improvement already constructed. The remainder of any funds must be used to retire any outstanding debt attributable to the plan; or
   (ii) The counties may elect to have the district continue the transportation project without submitting an additional ballot proposal to the voters.
(4) To assure accountability to the public for the timely construction of the transportation improvement project or projects within cost projections, the district shall issue a report, at least annually, to the public and copies of the report to newspapers of record in the district. In the report, the district shall indicate the status of transportation project costs, transportation project expenditures, revenues, and construction schedules. The report may also include progress towards meeting the performance criteria provided under this chapter. [2003 c 194 § 2; 2002 c 56 § 114.]

36.120.150 Department of transportation—Role. (1) The department shall designate an office or division of dedicated staff and services whose primary responsibility is to coordinate the design, preliminary engineering, permitting, financing, and construction of transportation projects under consideration by a regional transportation investment district planning committee or that are part of a regional transportation investment plan being implemented by a regional transportation investment district.

(2) All of the powers granted the department under Title 47 RCW relating to highway construction may, at the request of a regional transportation investment district, be used to implement a regional transportation investment plan and construct transportation projects. [2002 c 56 § 115.]

36.120.160 Ownership of improvements. Any improvement to a state facility constructed under this chapter becomes and remains the property of this state. [2002 c 56 § 116.]

36.120.170 Dissolution of district. Within thirty days of the completion of the construction of the transportation project or series of projects forming the regional transportation investment plan, the district shall terminate day-to-day operations and exist solely as a limited entity that oversees the collection of revenue and the payment of debt service or financing still in effect, if any. The district shall accordingly adjust downward its employees, administration, and overhead expenses. Any taxes, fees, or tolls imposed under an approved plan terminate when the financing or debt service on the transportation project or series of transportation projects constructed is completed and paid, thirty days from which point the district shall dissolve itself and cease to exist. If there is no debt outstanding, then the district shall dissolve within thirty days from completion of construction of the transportation project or series of transportation projects forming the regional transportation investment plan. Notice of dissolution must be published in newspapers of general circulation within the district at least three times in a period of thirty days. Creditors must file claims for payment of claims due within thirty days of the last published notice or the claim is extinguished. [2002 c 56 § 117.]

36.120.180 Findings—Regional models—Grants. The legislature finds that regional solutions to the state’s transportation needs are of paramount concern. The legislature further recognizes that different areas of the state will need the flexibility to fashion local solutions to their transportation problems, and that regional transportation systems may evolve over time. Areas of the state outside of King, Snohomish, and Pierce counties are eligible for grants from the state of no more than two hundred thousand dollars each to study and develop regional transportation models. Regions receiving these grants shall:
(1) Develop a model that can be used within their region to select, fund, and administer regional transportation solutions;

(2) Adopt a county resolution approving the model proposed;

(3) Form interlocal agreements among counties as appropriate;

(4) Report to the transportation committees in the senate and house of representatives, petitioning the legislature to grant them authority to implement their proposed model. [2002 c 56 § 118.]

36.120.190 Joint ballot measure. At the option of the planning committee, and with the explicit approval of the regional transit authority, the participating counties may choose to impose any remaining high capacity transportation taxes under chapter 81.104 RCW that have not otherwise been used by a regional transit authority and submit to the voters a common ballot measure that creates the district, approves the regional transportation investment plan, implements the taxes, and implements any remaining high capacity transportation taxes within the boundaries of the regional transportation investment district. Collection and expenditures of any high capacity transportation taxes implemented under this section must be determined by agreement between the participating counties or district and the regional transit authority electing to submit high capacity transportation taxes to the voters under a common ballot measure as provided in this section. If the measure fails, all such unused high capacity transportation taxes revert back to and remain with the regional transit authority. A project constructed with this funding is not considered a "transportation project" under RCW 36.120.020. [2002 c 56 § 201.]

36.120.200 Regional transportation investment district account. The regional transportation investment district account is created in the custody of the state treasurer. The purpose of this account is to act as an account into which may be deposited state money, if any, that may be used in conjunction with district money to fund transportation projects. Additionally, the district may deposit funds into this account for disbursement, as appropriate, on transportation projects. Nothing in this section requires any state matching money. All money deposited in the regional transportation investment district account will be used for design, right-of-way acquisition, capital acquisition, and construction, or for the payment of debt service associated with these activities, for regionally funded transportation projects developed under this chapter. Only the district may authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88 RCW. An appropriation is not required for expenditures from this account. [2002 c 56 § 401.]

36.120.210 Advisory ballot for Alaskan Way viaduct improvements—Preferred alternative for Alaskan Way viaduct and Seattle Seawall improvements. (1) The most populous city, within the three-county region eligible to create a regional transportation investment district under this chapter, shall submit an advisory ballot to the city voters at the 2006 general election regarding voter preference of the tunnel and rebuild alternatives described in the environmental impact statement relative to the Alaskan Way viaduct project. The results of the election shall be advisory only and not binding regarding the final project to be constructed.

(2) In the alternative to the provisions of subsection (1) of this section, following the report of the expert review panel’s findings and recommendations completed under RCW 47.01.400(4)(c), the city legislative authority shall hold public hearings on the findings and recommendations. After such time, and by November 1, 2006, the city legislative authority shall adopt by ordinance a preferred alternative for the Alaskan Way viaduct and Seattle Seawall replacement project. The preferred alternative must, at a minimum, be based on a substantial project mitigation plan and a comprehensive cost estimate review using the department’s cost estimate validation process. [2006 c 311 § 29.]

Findings—2006 c 311: See note following RCW 36.120.020.

36.120.900 Captions and subheadings not law—2002 c 56. Captions and subheadings used in this act are not part of the law. [2002 c 56 § 501.]

36.120.901 Severability—2002 c 56. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected. [2002 c 56 § 503.]
nity leaders in the future discussions, decisions, and restoration commitments in the waters most important to the community. The existing model of using a community-based, nonregulatory organization to examine issues particular to a community’s corner of Puget Sound, applying for grants, and thoroughly and fairly investigating available options and solutions has proved to be a valuable asset to Puget Sound and its communities, and is worthy of replication throughout the Puget Sound basin and the outer coast.

(3) In this chapter, the legislature intends to establish a structure on which interested local communities can harness the dedication, creativity, and wisdom of their residents in the form of marine resources committees. These committees are intended to complement, and not compete with or undermine, any other governmental efforts to restore and manage the Puget Sound. The legislature further intends that the department of fish and wildlife should apply the lessons learned from Puget Sound to work with county governments on the outer coast to establish marine resources committees. [2007 c 344 § 1.]

36.125.010 Counties authorized to establish—Purpose—Role. (1)(a) The legislative authority for each county that borders the marine waters of southern Puget Sound may establish marine resources committees consistent with the procedures outlined in RCW 36.125.020. Counties authorized to establish marine resources committees in the southern Puget Sound are: King, Pierce, Thurston, Kitsap, and Mason counties.

(b) The legislative authority for each county bordering the marine waters of the outer coast may develop a marine resources committee consistent with the procedures outlined in RCW 36.125.020. Counties authorized to establish marine resources committees on the outer coast are: Pacific, Grays Harbor, and Wahkiakum counties.

(c) Jefferson and Clallam counties may establish a new marine resources committee or a subcommittee of the county’s existing marine resources committee, consistent with the procedures outlined in RCW 36.125.020, specifically to address the marine ecosystems for the outer coast or Puget Sound, where appropriate.

(2) The mission of a marine resources committee created under this section is to address, utilizing sound science, the needs of the marine ecosystem local to the county initiating the marine resources committee.

(3) A marine resources committee created under this section should review current data and resource conservation and management programs and make prioritized recommendations for additional measures that might be necessary to enhance protection of marine resources.

(4) The role of a marine resources committee in developing recommendations includes, but is not limited to:

(a) Utilizing existing data and, to the extent necessary, helping to gather new data on the health of local marine resources;

(b) Making scientifically based recommendations on local candidate sites for marine protected areas;

(c) Working closely with local and state officials to help implement recommendations of the marine resources committee;

(d) Promoting public outreach and education around marine resource conservation and management issues; and

(e) Engaging in any other activities that the initiating county deems appropriate. [2007 c 344 § 2.]

36.125.020 Administration—Members—Petition. (1) A marine resources committee, as described in RCW 36.125.010, may be created by the legislative authority of any county bordering the marine waters of the outer coast or Puget Sound, in cooperation with all appropriate cities and special districts within their boundaries. Adjacent county legislative authorities shall coordinate their efforts whenever there is a mutual interest in creating a marine resources committee.

(2) A county may delegate the management and oversight of a marine resources committee created by the county under RCW 36.125.010 to a city, or cities, within its jurisdiction, if the city or cities are located on the marine waters of the outer coast or southern Puget Sound and are willing to accept the delegation.

(3)(a) Participating county legislative authorities must select members of the marine resources committee, ensuring balanced representation from: Local government; local residents; scientific experts; affected economic interests; affected recreational interests; and environmental and conservation interests. Additionally, participating county legislative authorities must invite tribal representatives to participate in the marine resources committee.

(b) In lieu of creating a new entity, participating county legislative authorities may designate a lead entity created under RCW 77.85.050 to also serve as a marine resources committee. County legislative authorities may only make this designation where the lead entity consents in writing to also serve as a marine resources committee.

(c) An initiating county may delegate its appointment authority to a city or cities that have received from the county the delegated responsibilities of managing and overseeing the marine resources committee.

(4) County residents may petition the county legislative authority to create a marine resources committee. Upon receipt of a petition, the county legislative authority must respond in writing within sixty days as to whether they will authorize the creation of a marine resources committee as well as the reasons for their decision. [2008 c 242 § 2; 2007 c 344 § 3.]

Findings—Intent—2008 c 242: "The legislature finds that Washington’s coastal and ocean resources provide vital economic, recreation, transportation, and cultural benefits to the state. The legislature seeks to continue recent state and local efforts to preserve and enhance the state’s coastal and ocean resources, such as the work of the Washington ocean policy work group and the state’s existing marine resources committees.

The legislature finds that outer coast marine resources committees, authorized by the legislature in 2007, provide a mechanism for communities to discuss and develop solutions for the issues facing coastal resources and communities. However, additional state investments are necessary to allow outer coast marine resources committees to fulfill their full potential. Therefore, the legislature intends by this act to provide additional support and resources for outer coast marine resources committees in order to benefit the coastal and ocean resources of Washington." [2008 c 242 § 1.]

36.125.030 Regional coordinating entities. (1) The Puget Sound action team, or its successor organization, shall serve as the regional coordinating entity for marine resources
committees created in the southern Puget Sound and the department of fish and wildlife shall serve as the regional coordinating entity for marine resources committees created for the outer coast.

(2) The regional coordinating entity shall serve as a resource to, at a minimum:
   (a) Coordinate and pool grant applications and other funding requests for marine resources committees;
   (b) Coordinate communications and information among marine resources committees;
   (c) Assist marine resources committees to measure themselves against regional performance benchmarks;
   (d) Assist marine resources committees with coordinating local projects to complement regional priorities;
   (e) Assist marine resources committees to interact with and complement other marine resources committees, and other similar groups, constituted under a different authority; and
   (f) Coordinate with the Northwest Straits commission on issues common to marine resources committees statewide. [2007 c 344 § 4.]

36.125.040 Application to committees established under federal law. Nothing in RCW 36.125.010 or 36.125.020 is intended to expand or limit the authority of local marine resources committees established under the Northwest Straits marine conservation initiative by federal act in San Juan, Whatcom, Skagit, Island, Snohomish, Clallam, and Jefferson counties and existing as of July 22, 2007. [2007 c 344 § 5.]

36.125.050 Collaborative process for ocean policy development and coastal area management. Outer coast marine resources committees, in conjunction with their regional coordinating entity, shall meet and consult with key state, federal, local, and tribal governments, and private interest groups to develop a collaborative process to address ocean policy issues. This collaborative process should use Washington’s "Ocean Action Plan: Enhancing Management of Washington State’s Ocean and Outer Coasts" developed by the Washington ocean policy work group as a guide to begin the work of developing and coordinating state and local ocean policy and providing better management of Washington’s coastal areas. [2007 c 344 § 6.]

36.125.060 Outer coast marine resources committee program—Annual reports. (1) The outer coast marine resources committee program is created to provide support for the development, administration, and coordination of outer coast marine resources committees and their projects.

(2) The director of fish and wildlife is the administrator of the outer coast marine resources committee program. As the administrator of the program, the director of fish and wildlife shall:
   (a) Provide each outer coast marine resources committee with a coordinator to support the administration and work of the committee; and
   (b) Distribute grants to outer coast marine resources committees for projects that benefit Washington’s coastal marine resources. The director of fish and wildlife shall develop procedures and criteria for allocating funds for projects, which may include annual allocation of funding to each committee.

(3) Each outer coast marine resources committee shall prepare and deliver an annual report to the director of fish and wildlife by October 31st of each year. The report must include, but is not limited to, a summary of actions taken that year and prioritized recommendations for future action. The director of fish and wildlife shall compile the individual outer coast marine resources committee reports into a consolidated report, and provide the consolidated report to the governor and appropriate committees of the legislature by December 31st of each year. [2008 c 242 § 3.]

Chapter 36.130 RCW

AFFORDABLE HOUSING DEVELOPMENTS

Sections
36.130.005 Intent.
36.130.010 Definitions.
36.130.020 Restrictions on affordable housing development requirements—Preferential treatment—Requirements as conditions.

Reviser’s note: 2008 c 118 § 4 directed sections 2 and 3, chapter 118, Laws of 2008 to be codified as a new chapter in Title 43 RCW. Sections 1 through 5, chapter 118, Laws of 2008 are now codified as a new chapter in Title 36 RCW, which is more appropriate for provisions addressing local government regulation of affordable housing.

36.130.005 Intent. It is the public policy of the state to assist in making affordable housing available throughout the state. The legislature recognizes that despite ongoing efforts there is still a lack of affordable housing in many areas. The legislature also recognizes that some local governments have imposed development requirements on affordable housing developments that are not generally imposed on other housing developments. The intent of this [the] legislature is to prohibit discrimination against affordable housing developments. [2008 c 118 § 1.]

36.130.010 Definitions. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Affordable housing development" means a housing development in which at least twenty-five percent of the dwelling units within the development are set aside for or are occupied by low-income households at a sales price or rent amount that is considered affordable by a federal, state, or local government housing program.

(2) " Dwelling unit" means that part of a housing development that is used as a home, residence, or place to sleep by one person or two or more persons maintaining a common household.

(3) " Housing development" means a proposed or existing structure that is used as a home, residence, or place to sleep by one or more persons including, but not limited to, single-family residences, manufactured homes, multifamily housing, group homes, and foster care facilities.

(4) "Low-income household" means a single person, family, or unrelated persons living together whose adjusted income is less than eighty percent of the median family

(2010 Ed.)
income, adjusted for household size, for the county where the affordable housing development is located. [2008 c 118 § 2.]

36.130.020 Restrictions on affordable housing development requirements—Preferential treatment—Requirements as conditions. (1) A city, county, or other local governmental entity or agency may not adopt, impose, or enforce requirements on an affordable housing development that are different than the requirements imposed on housing developments generally.

(2) This section does not prohibit any city, county, or other local governmental entity or agency from extending preferential treatment to affordable housing developments intended for including, but not limited to, occupancy by homeless persons, farmworkers, persons with disabilities, senior citizens, or low-income households. Preferential treatment may include, but is not limited to: A reduction or waiver of fees or changes in applicable requirements including, without limitation, architectural requirements, site development requirements, property line requirements, building setback requirements, or vehicle parking requirements; or other treatment that reduces or is likely to reduce the development or operating costs of an affordable housing development.

(3) A city, county, or other local governmental entity or agency may impose and enforce requirements on affordable housing developments as conditions of loans, grants, financial support, tax benefits, subsidy funds, or sale or lease of public property, or as conditions to eligibility for any affordable housing incentive program under RCW 36.70A.540 or any other program involving bonus density, transfer of development rights, waiver of development regulations or fees, or other development incentives. [2008 c 118 § 3.]

(a) Utilization of all local revenue sources that are reasonably available for funding public works projects;

(b) Compliance with applicable requirements of chapter 36.70A RCW; and

(c) Consistency between the proposed project and applicable capital facilities plans.

(3) Counties may not make loans under this chapter prior to completing the initial collaboration and prioritization requirements of RCW 36.135.040(1). [2009 c 45 § 3.]

36.135.040 Public works projects—Prioritization process. (1) County legislative authorities utilizing or providing money under this chapter must develop a prioritization process for funding public works projects that gives priority to projects necessary to address public health needs, substantial environmental degradation, or increases existing capacity necessary to accommodate projected population and employment growth. This prioritization process must be:
Electricity Generation from Biomass Energy 36.145.010

(a) Completed collaboratively with public works directors of local governments within the county;
(b) Documented in the form of written findings produced by the county; and
(c) Revised periodically according to a schedule developed by the county and the public works directors.

(2) In addition to the requirements under subsection (1) of this section, legislative authorities providing funding to other local governments under this chapter must consider, through a competitive application process, the following factors in assigning a priority to and funding a project:
(a) Whether the local government applying for assistance has experienced severe fiscal distress resulting from natural disaster or emergency public works needs;
(b) Whether the project is critical in nature and would affect the health and safety of a great number of citizens;
(c) The cost of the project compared to the size of the local government and amount of loan money available;
(d) The number of communities served by or funding the project;
(e) Whether the project is the acquisition, expansion, improvement, or renovation by a local government of a public water system that is in violation of health and safety standards;
(f) The number of additional housing units estimated to be achieved by funding the project;
(g) The additional jobs estimated to be achieved by funding the project; and
(h) Other criteria the county legislative authority deems appropriate. [2009 c 45 § 4.]

36.135.050 Records of accounts—Audit. County legislative authorities providing funding for public works projects under this chapter must keep proper records of accounts and are subject to audit by the state auditor. [2009 c 45 § 5.]

Chapter 36.140 RCW
ELECTRICITY GENERATION FROM BIOMASS ENERGY

Sections
36.140.010 Generation of electricity from biomass energy. (1) Any county legislative authority of a county where a public utility district owns and operates a plant or system for the generation, transmission, and distribution of electric energy for sale within the county may construct, purchase, acquire, operate, and maintain one facility within the county to generate electricity from biomass energy that is a renewable resource under RCW 19.285.030 or from biomass energy that is produced from lignin in spent pulping liquors or liquors derived from algae and other sources. The county legislative authority has the authority to regulate and control the use, distribution, sale, and price of the electricity produced from the biomass facility authorized under this section.

Chapter 36.145 RCW
COMMUNITY FACILITIES DISTRICTS

Sections
36.145.005 Findings. The legislature finds that:
(1) The state is projected to experience substantial population growth in the next two decades and this growth will require substantial new housing, places of employment, community facilities, and supporting local, subregional, and regional infrastructure;
(2) In most areas of the state projected to accommodate substantial growth, there are inadequate community facilities and infrastructure to facilitate and support such growth. In addition, current public financing options and resources are not adequate to provide the needed community facilities and local, subregional, and regional infrastructure;
(3) A more flexible type of financing mechanism known as a community facilities district should be available to counties, cities, and towns so that needed community facilities and local, subregional, and regional infrastructure can be provided;
(4) This chapter is intended to facilitate voluntary landowner financing of community facilities and local, subregional, and regional infrastructure by authorizing the creation of community facilities districts, while creating jobs and facilitating economic development; and
(5) It is in the interest of the people of the state of Washington to authorize the establishment of community facility [facilities] districts as independently governed, special purpose districts, vested with the corporate authority included under Article VII, section 9 of the state Constitution to make local improvements in accordance with this chapter and to carry out the purposes specifically authorized under this chapter. [2010 c 7 § 101.]

36.145.010 Definitions. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.
(1) "Board of supervisors" or "board" means the governing body of a community facilities district.
(2) "Community facilities district" or "district" means a district created under this chapter.

(3) "Facility" or "facilities" means the local improvements included under RCW 36.145.100.

(4) "Legislative authority" means the governing body of a county, city, or town to which a petition or amended petition is submitted.

(a) If the proposed district is located entirely within unincorporated land, then the county is the exclusive "legislative authority" for purposes of approving formation of the district under RCW 36.145.020 through 36.145.070, inclusive, and RCW 36.145.080.

(b) If all or a portion of the proposed district is located within unincorporated land that is entirely surrounded by an incorporated city or town, then the "legislative authority" for purposes of approving formation of the district under RCW 36.145.020 through 36.145.070, inclusive, and RCW 36.145.080 includes the governing bodies of the county and the city or town surrounding the unincorporated land.

(c) If the proposed district is located entirely within incorporated land, then the city or town is the exclusive "legislative authority" for purposes of this chapter, and all powers and responsibilities of a county under this chapter must be exercised by that city or town.

(5) "Petition" means a request, meeting the requirements of RCW 36.145.020, made by landowners to form a community facilities district and to voluntarily submit their land to the assessments authorized under this chapter and includes an amended petition meeting the requirements of RCW 36.145.020(3).

(6) "Special assessment" means an assessment imposed in accordance with the requirements of this chapter. [2010 c 7 § 102.]

36.145.020 Formation by petition—Requirements—Amendment. Community facilities districts are authorized to be formed for the purposes authorized under this chapter. Community facilities districts may only include land within urban growth areas designated under the state growth management act, located in portions of one or more cities, towns, or counties when created in accordance with this chapter. A district may include one or more noncontiguous tracts, lots, parcels, or other properties meeting the requirements of this chapter.

(1) To form a community facilities district, a petition must be presented to the applicable legislative authorities. The petition must:

(a) Designate and describe the boundaries of the district by metes and bounds or reference to United States townships, ranges, and legal subdivisions;

(b) Be executed by one hundred percent of all owners of private property located within the boundaries of the proposed district. The property owners must include a request to subject their property to the assessments, up to the amount included in the petition and authorized under this chapter;

(c) Include a certification by the petitioners that they want to voluntarily submit their property to the authority of the district under this chapter to approve the petitioner’s request to submit their property to the assessments, up to the amount included in the petition and authorized under this chapter;

(d) Include a general explanation of the objective and plan of the district and describe the specific facilities that the district anticipates financing;

(e) Declare the district will be conducive to public health, safety, and welfare;

(f) Assert that the purpose for forming the district will be a benefit to the land located in the district;

(g) Be accompanied by an "obligation" signed by at least two petitioners who agree to pay the costs of the formation process;

(h) Include a list of petitioners or representatives thereof who are willing and able to serve on the board of supervisors. All petitioners within a proposed district who are natural persons, or natural persons who are designated representatives of petitioners, are eligible to include their name on the list of eligible supervisors. The petitioners may nominate qualified professions to serve on the board of supervisors in lieu of the petitioners or representatives of the petitioners;

(i) If it proposes a special assessment, include: (i) A diagram showing each separate lot, tract, parcel of land, or other property in the district; (ii) the acreage of the property; (iii) the name and address of the owner or reputed owner of each lot, tract, parcel of land, or other property as shown on the tax rolls of the county assessor; (iv) a preliminary assessment roll showing the special assessment proposed to be imposed on each lot, tract, parcel of land, or other property; and (v) a proposed method or combination of methods for computing special assessments, determining the benefit to assessed property or use from facilities or improvements funded directly or indirectly by special assessments under this chapter; and

(j) Include an explanation of what security will be provided to ensure the timely payment of assessments and the timely payment of bonds issued by the district.

(2) The petition must be filed with the auditor of each county in which property included within the proposed district is located. The auditor for the county in which the largest geographic portion of the proposed district is located must be the lead auditor for the purposes of this section. Within thirty days of the lead auditor’s receipt of the petition, the lead auditor must confirm that the petition has been validly executed by one hundred percent of all owners of the property located within the proposed district, including confirmation by the auditors of all other counties with whom the petition was filed. Within ten days of the lead auditor’s finding that the petition either does or does not contain the required signatures, the lead auditor must either (a) transmit the petition, together with a certificate of sufficiency attached thereto, to each legislative authority petitioned for formation of the district; or (b) return the petition to the petitioners with a list of property owners who must sign the petition in order to comply with this section. There are no restrictions on the number of petitions that may be submitted by one or more property owners.

(3) A petition may be amended for any reason if the amendment is signed by one hundred percent of the owners of property located within the district proposed in the amended petition. [2010 c 7 § 201.]

36.145.030 Public hearing on petition—When held. A public hearing on the petition for formation of a district must be held by each applicable legislative authority, not less
than thirty, but not more than sixty days, from the date that the lead county auditor issues the certificate of sufficiency required under RCW 36.145.020. [2010 c 7 § 202.]

36.145.040 Public hearing on petition—Notice requirements. Notice of all public hearings must include a description of the proposal, be mailed to all petitioners, and must be published once a week for three consecutive weeks in the official paper for each applicable legislative authority, prior to the date set for the hearing. The notice must be posted for not less than fifteen days prior to the date of the hearing in each of three public places within the boundaries of the proposed district and in three public places for each applicable legislative authority. Each notice must contain the time, date, and place of the public hearing. [2010 c 7 § 203.]

36.145.050 Receipt of material evidence—Inclusion and removal of land. At the time and place of the public hearing, the legislative authority must consider the petition. The legislative authority may receive any evidence it deems material that supports or opposes the formation of the district, including the inclusion or exclusion of land. Unless an amended petition satisfying the requirements of RCW 36.145.020 is approved in accordance with the requirements of this chapter, no land outside the boundaries described in the petition may be included within the proposed district. No land inside the boundaries of an approved petition may be removed from the district unless an amended petition satisfying the requirements of RCW 36.145.020 is approved in accordance with the requirements of this chapter. [2010 c 7 § 204.]

36.145.060 Approval of petition—Requirements. (1) The legislative authority may act on the petition to form a community facilities district at the public hearing held under RCW 36.145.050 and in no event may the legislative authority’s decision be issued later than thirty days after the day of the public hearing. The applicable legislative authority may approve the petition by resolution if the applicable legislative authority determines, in its sole discretion, that the petitioners will benefit from the proposed district and that the formation of the district will be in the best interest of the county, city or town, as applicable, and that formation of the district is consistent with the requirements of Washington’s growth management act.

(2) A community facilities district may not be formed unless each applicable legislative authority makes the finding required under subsection (1) of this section.

(3) All resolutions approving a petition must conform to the terms and conditions contained in the petition, including the maximum amounts of special assessments set forth in the petition, and must designate the name and number of the community facilities district being formed. [2010 c 7 § 205.]

36.145.070 Appeals to formation. (1) Any person who objects to formation of the district may appeal the final decision of a legislative authority to approve a petition for formation of a community facilities district by filing an appeal with the superior court of the county in which any part of the district is located within thirty days of the effective date of the resolution approving formation of the district.

(2) If no appeal is timely filed, then the legislative authority’s decision is deemed valid, complete, and final, and neither the legal existence of the district, nor the terms and conditions of an approved petition can thereafter be challenged or questioned by any person on the grounds of procedural defect or otherwise. Certified copies of each resolution approving a district must be filed with the auditor of the county or counties in which the community facilities district is located. [2010 c 7 § 206.]

36.145.080 Board of supervisors—Members—Vacancies. (1) A community facilities district must be governed by a board of supervisors possessing the powers set forth under RCW 36.145.090. The board of supervisors must be appointed by each applicable legislative authority within sixty days of the formation of the district. Except as expressly provided under this section, each applicable legislative authority is authorized to appoint members to the board of supervisors only from among the members of its own governing body. Each applicable legislative authority must appoint the petitioner members or nominees required under subsection (2) or (3) of this section. The term of office of each supervisor is three years and until a successor is appointed, except that the supervisors first appointed serve for one and two years respectively from the date of their appointments, as designated in their appointments.

(2) Except as provided in subsection (3) of this section, if the proposed district is located entirely within a single jurisdiction, then the board of supervisors consists of: (a) Three members of the legislative authority of the jurisdiction; and (b) two members appointed from among the list of eligible supervisors included in the petition as provided in RCW 36.145.020(1)(h). All members of the board of supervisors must be natural persons.

(3) If all or a portion of the proposed district is located within unincorporated land that is entirely surrounded by an incorporated city or town, then the board of supervisors consists of: (a) Two members appointed from the county legislative authority; (b) two members appointed from the legislative authority of the city or town that is the additional legislative authority under RCW 36.145.010(4); and (c) one member appointed from the list of eligible petitioners included in the petition as provided in RCW 36.145.020(1)(h), depending on the number of additional members that are required to result in an overall odd number of supervisors.

(4) If the county, city, or town is the exclusive legislative authority pursuant to RCW 36.145.010, then the board of supervisors consists of: (a) Three members appointed from such county, city, or town; and (b) two members from the list of eligible petitioners or nominees included in the petition, as provided in RCW 36.145.020(1)(h), to result in an overall odd number of supervisors.

(5) The legislative authorities may appoint qualified professionals with expertise in municipal finance in lieu of one or more appointments authorized in this section. A jurisdiction’s appointments to the board of supervisors may consist of a combination of qualified professionals authorized under this section and one or more members from the applicable
36.145.090 Powers. (1) A community facilities district created in accordance with this chapter is an independently governed, special purpose district, vested with the corporate authority included under Article VII, section 9 of the state Constitution to make local improvements by special assessment in accordance with this chapter. Nothing in this chapter exempts the public improvements and facilities provided by a district from the regulatory and land use permitting requirements of the county, city, or town in which the improvements are to be located.

(2) Subject to the terms and conditions of an approved petition, a community facilities district has the powers necessary to carry out the specific purposes authorized under this chapter in order to carry out the specific objectives, plan, and facilities identified in the approved petition including, but not limited to, the authority to:

(a) Acquire, purchase, hold, lease, finance, manage, occupy, construct, and sell real and personal property, facilities, or any interest therein, either inside or outside of the boundaries of the district, except that any such property, facilities, or interests outside the boundaries of the district must directly serve facilities or benefit properties within the district;

(b) Finance and construct facilities authorized under this chapter;

(c) Enter into and perform any and all contracts;

(d) Levy and enforce the collection of special assessments against the property included within a district;

(e) Enter into lease-purchase agreements with or without an option to purchase;

(f) Enter into executory conditional sales contracts, leases, and installment promissory notes;

(g) Borrow money to the extent and in the manner authorized by this chapter;

(h) Hold in trust property useful to accomplishment of the authority granted under this chapter;

(i) Issue revenue bonds in accordance with chapter 39.46 RCW and assessment bonds in accordance with chapter 35.45 RCW, and the requirements of this chapter, payable from revenue or assessments, respectively, of the district that is legally available to be pledged to secure the bonds;

(j) Contract with any municipal corporation, governmental, or private agencies to carry out the purposes authorized by this chapter;

(k) Sue and be sued;

(l) Accept and receive on behalf of the district any money or property donated, devised, or bequeathed to the district and carry out the terms of the donation, devise, or bequest, if it is within the powers granted by law to community facilities districts or, in the absence of such terms, expend or use the money or property for district purposes as determined by the board of supervisors;

(m) Transfer to any county, city, or other municipal corporation, without compensation, any property or other assets of the district; and

(n) Do any and all lawful acts required and expedient to carry out the express authority provided in this chapter. [2010 c 7 § 401.]

36.145.100 Financing district costs, expenses, and facilities—Prohibitions. (1) Through the use of district revenue derived through special assessments and bonds authorized under this chapter and, consistent with the terms and conditions of a petition approved in accordance with this chapter, a community facilities district may finance all or a portion of the following costs, expenses, and facilities whether located inside or outside the boundaries of an approved district:

(a) The cost, or any portion thereof, of the purchase, finance, lease, sublease, construction, expansion, improvement, or rehabilitation of any facility with an estimated life of five years or longer;

(b) The planning and design work that is directly related to the purchase, construction, expansion, improvement, or rehabilitation of a facility, including engineering, architectural, planning, and inspection costs;

(h) Areas for pedestrian, equestrian, bicycle, or other nonmotor vehicle use for travel, ingress, egress, and parking;
Community Facilities Districts

36.145.110 Special assessments—Procedures and requirements—Notice. (1) The board of supervisors of a community facilities district may impose special assessments on property located inside the district and benefited by the facilities and improvements provided, or to be provided, by a district, whether the facilities and improvements are located inside or outside of the boundaries of the proposed district. The requirements and powers of a district relating to the formation, assessment, collection, foreclosure, and other powers of a special assessment district are as set forth in chapters 35.43, 35.44, 35.49, and 35.50 RCW, except where otherwise addressed under this chapter. In any case where the provisions of this chapter conflict with the requirements under any other chapter that applies to the formation, assessment, collection, foreclosure, or other powers of a special assessment district, the provisions of this chapter control.

(2) Except as otherwise expressly provided under this chapter, the special assessments imposed and collected on property within a district may not exceed the amount set forth in RCW 43.163.010. [2010 c 7 § 501.]

(3) The term of the special assessment is limited to the lesser of (a) twenty-eight years or (b) two years less than the term of any bonds issued by or on behalf of the district to which the assessments or other revenue of the district is specifically dedicated, pledged, or obligated.

(4) The computation of special assessments must follow the requirements of chapter 35.44 RCW, including the authority to use any method or combination of methods to compute assessments which may be deemed by the board of supervisors to fairly reflect the benefit to the properties being assessed. The method of assessment may utilize the supplemental authority granted under chapter 35.51 RCW. A petition meeting the requirements of RCW 36.145.020 may provide for the reduction or waiver of special assessments for low-income households as that term is defined in RCW 36.130.010.

(5) The board must set a date, time, and place for hearing any objections to the assessment roll, which hearing must occur no later than one hundred twenty days from final approval of formation of the district. Petitioners or representatives thereof serving on the board of supervisors must not participate in the determination of the special assessment roll or vote on the confirmation of that assessment roll. The restriction in this subsection does not apply to members of the board of supervisors appointed from among the qualified professionals that petitioners may nominate under RCW 36.145.020(1)(h).

(6) The procedures and requirements for assessments, hearings on the assessment roll, filing of objections to the assessment roll, and appeals from the decision of the board approving or rejecting the assessment roll, must be as set forth in RCW 35.44.010 through 35.44.080, 35.44.110, and 35.44.270.

(7) At the hearing on the assessment roll and, in no event later than thirty days after the day of the hearing, the board may adopt a resolution approving the assessment roll as correct, revise, raise, lower, change, or modify the assessment roll or any part thereof, and provide the petitioner with a detailed explanation of the changes made by the board.

(8) If the assessment roll is revised by the board in any way, then, within thirty days of the board’s decision, the petitioner(s) must unanimously make one of the following elections: (a) Rescind the petition; or (b) accept the changes made by the board, upon which occurrence the board must adopt a resolution approving the assessment roll as modified by the board.

(9) Reassessments, assessments on omitted property, and supplemental assessments are governed by the provisions set forth under chapter 35.44 RCW.

(10) Any assessment approved under the provisions of this chapter may be segregated upon a petition of one hundred percent of the owners of the property subject to the assessment to be segregated. The segregation must be made as nearly as possible on the same basis as the original assessment was levied and approved by the board. The board, in approving a petition for segregation and amendment of the assessment roll, must do so in a fashion such that the total of the segregated parts of the assessment equal the assessment before segregation. As to any property originally entered upon the roll the assessment upon which has not been raised, no objections to the approval of the petition for segregation, the resulting assessment, or the amended assessment roll may be considered by the jurisdiction in which the district is located, the board, or by any court on appeal. Assessments must be collected in districts pursuant to the district’s previous assessment roll until the amendment to the assessment roll is finalized under this section.
(11) Except as provided under chapter 35.44 RCW, assessments may not be increased without the approval of one hundred percent of the property owners subject to the proposed increase.

(12) Special assessments must be collected by the district treasurer determined in accordance with RCW 36.145.140.

(13) A notice of any special assessment imposed under this chapter must be provided to the owner of the assessed property, not less than once per year, with the following appearing at the top of the page in at least fourteen point, bold font:

****NOTICE****

THIS PROPERTY IS SUBJECT TO THE ASSESSMENTS ITEMIZED BELOW AND APPROVED BY COMMUNITY FACILITIES DISTRICT # . . . . . AS THE OWNER OR POTENTIAL BUYER OF THIS PROPERTY, YOU ARE, OR WOULD BE, RESPONSIBLE FOR PAYMENT OF THE AMOUNTS ITEMIZED BELOW.

PLEASE REFER TO RCW 36.145.110 OR CONTACT YOUR COUNTY AUDITOR FOR ADDITIONAL INFORMATION.

(14) The district treasurer responsible for collecting special assessments may account for the costs of handling the assessments and may collect a fee not to exceed the measurable costs incurred by the treasurer. [2010 c 7 § 502.]

36.145.120 Payment of bonds—Related costs. (1) The district may utilize the special assessments and revenue derived in accordance with this chapter for the payment of principal and interest on bonds issued pursuant to the authority granted under this chapter to fund or reimburse the costs of facilities authorized under this chapter and prior to the issuance of bonds, may utilize the revenue to directly fund the costs of providing the facilities authorized under this chapter on a pay-as-you-go basis.

(2) The board of supervisors may establish, administer, and pay or otherwise dedicate, pledge, or obligate the assessments and revenue generated in accordance with this chapter into a specific fund created by or on behalf of the district, in order to guarantee payment of obligations incurred in connection with facilities provided under this chapter, including the payment of principal and interest on any bonds issued by or on behalf of the district.

(3) The proceeds of any bond issued pursuant to this chapter may be used to pay any and all costs related to providing the facilities authorized under this chapter, including expenses incurred in connection with issuance of the bonds.

(4) The reporting requirements of RCW 39.44.210 apply to any bond issuance under this chapter. [2010 c 7 § 503.]

36.145.130 Bonds sole obligation of district. No bonds issued by or on behalf of a community facilities district are obligations of any city, town, county, or the state of Washington or any political subdivision thereof other than the district and the bonds must so state. [2010 c 7 § 504.]
36.900.030 Invalidity of part of title not to affect remainder. If any provision of this title, or its application to any person or circumstance is held invalid, the remainder of the title, or the application of the provision to other persons or circumstances is not affected. 95 Wash. 214, 163 Pac. 744 (1917), where it is considered in conjunction
with 1917 c 3, a special act authorizing (and directing) Pierce county to con-

been a general act and for that reason was codified herein. Most of the sec-

"Complete martial law" is the subordination of all civil authority to the military;

"Limited military law" is a partial subordination of civil authority by the setting up of an additional police power vested in the military force which shall have the right to try all persons apprehended by it in such area by a military tribunal or turn such offender over to civil authorities within five days for further action, during which time the writ of habeas corpus shall be suspended in behalf of such person. In event of war, insurrection, rebellion, invasion, tumult, riot, mob, or organized body acting together by force with intent to commit a felony or to offer violence to persons or property, or by force and violence to break and resist the laws of this state, or the United States, or in case of the imminent danger of the occurrence of any of said events, or at the lawful request of competent state or local authority in support of enforcement of controlled substance statutes, or whenever responsible civil authorities shall, for any reason, fail to preserve law and order, or protect life or property, or the governor believes that such failure is imminent, or in event of public disaster, or when otherwise required for the public health, safety, or welfare, or to perform any military duty authorized by state law, or to prepare for or recover from any of these events or the consequences thereof, the governor shall have power to order the organized militia of Washington, or any part thereof, into active service of the state to execute the laws, and to perform such duty as the governor shall deem proper. (c) The governor of a party state may, within his or her discretion, withhold the national guard forces of his or her state from such use and recall any forces or part or member thereof previously deployed in a requesting state.

(d) The national guard of this state is hereby authorized to engage in interdiction and counter-drug activities and demand reduction.

(e) The adjutant general of this state, in order to further the purposes of this compact, may enter into a mutual assistance and support agreement with one or more law enforcement agencies of this state, including federal law enforcement agencies operating within this state, or with the national guard of one or more other party states to provide personnel, assets, and services in the area of interdiction and counter-drug activities and demand reduction. In the event that national guard personnel performing counter-drug activities do not receive rights, benefits, privileges, and immunities otherwise provided for national guard personnel as stated above, the following provisions shall apply:

(1) Whenever national guard forces of any responding state are engaged in another state in carrying out the purposes of this compact, the members thereof so engaged shall have the same powers, duties, rights, privileges, and immunities as members of national guard forces of the requesting state. The requesting state shall save and hold members of the national guard forces of responding states harmless from civil liability, except as otherwise provided herein, for acts or omissions that occur in the performance of their duty while engaged in carrying out the purposes of this compact, whether responding forces are serving the requesting state within the borders of the responding state or are attached to the requesting state for purposes of operational control.

(2) Subject to the provisions of paragraphs (3), (4), and (5) of this Article, all liability that may arise under the laws of the requesting state or the responding states, on account of or in connection with a request for assistance or support, shall be assumed and borne by the requesting state.

(3) Any responding state rendering aid or assistance pursuant to this compact shall be reimbursed by the requesting state for any loss or damage to, or expense incurred in the operation of, any equipment answering a request for aid, and for the cost of the materials, transportation, and maintenance of national guard personnel and equipment incurred in connection with such request, provided that nothing herein con-
(4) Unless there is a written agreement to the contrary, each party state shall provide, in the same amounts and manner as if they were on duty within their state, for pay and allowances of the personnel of its national guard units while engaged without the state pursuant to this compact and while going to and returning from such duty pursuant to this compact.

(5) Each party state providing for the payment of compensation and death benefits to injured members and the representatives of deceased members of its national guard forces in case such members sustain injuries or are killed within their own state shall provide for the payment of compensation and death benefits in the same manner and on the same terms in the event such members sustain injury or are killed while rendering assistance or support pursuant to this compact. Such benefits and compensation shall be deemed items of expense reimbursable pursuant to paragraph (3) of this Article.

(b) Officers and enlisted personnel of the national guard performing duties subject to proper orders pursuant to this compact shall be subject to and governed by the provisions of their home state code of military justice whether they are performing duties within or without their home state. In the event that any national guard member commits, or is suspected of committing, a criminal offense while performing duties pursuant to this compact without his or her home state, he or she may be returned immediately to his or her home state and said home state shall be responsible for any disciplinary action to be taken. However, nothing in this section shall abrogate the general criminal jurisdiction of the state in which the offense occurred.

ARTICLE V
DELEGATION

Nothing in this compact shall be construed to prevent the governor of a party state from delegating any of his or her responsibilities or authority respecting the national guard, provided that such delegation is otherwise in accordance with law. For purposes of this compact, however, the governor shall not delegate the power to request assistance from another state.

ARTICLE VI
LIMITATIONS

Nothing in this compact shall:

(a) Authorize or permit national guard units or personnel to be placed under the operational control of any person not having the national guard rank or status required by law for the command in question.

The provisions of this compact shall be severable and if any phrase, clause, sentence, or provision of this compact is declared to be contrary to the Constitution of the United States or of any state or the applicability thereof to any government, agency, person, or circumstance is held invalid, the validity of the remainder of this compact and the applicability thereof to any government, agency, person, or circumstance shall not be affected thereby. If this compact shall be held contrary to the constitution of any state participating herein, the compact shall remain in full force and effect as to the remaining party states and in full force and effect as to the state affected as to all severable matters. Chapter 38.10 RCW
EMERGENCY MANAGEMENT ASSISTANCE COMPACT

Sections
38.10.010 Emergency management assistance compact.
38.10.900 Severability—2001 c 288.

38.10.010 Emergency management assistance compact. The emergency management assistance compact is enacted and entered into by this state with all other states legally joining the compact in the form substantially as follows:

ARTICLE I
PURPOSES AND AUTHORITIES

This compact is made and entered into by and between the participating party states which enact this compact. For the purposes of this agreement, the term "states" means the several states, the Commonwealth of Puerto Rico, the District of Columbia, and all United States territorial possessions.

The purpose of this compact is to provide for mutual assistance between the states entering into this compact in managing any emergency or disaster that is duly declared by the governor of the affected state or states, whether arising from natural disaster, technological hazard, man-made disaster, civil emergency aspects of resources shortages, community disorders, insurgency, or enemy attack.

This compact shall also provide for mutual cooperation in emergency-related exercises, testing, or other training activities using equipment and personnel simulating performance of any aspect of the giving and receiving of aid by party states or subdivisions of party states during emergencies, such actions occurring outside actual declared emergency periods. Mutual assistance in this compact may include the use of the states’ national guard forces, either in accordance with the national guard mutual assistance compact, or by mutual agreement between states.

ARTICLE II
GENERAL IMPLEMENTATION

Each party state entering into this compact recognizes many emergencies transcend political jurisdictional boundaries and that intergovernmental coordination is essential in managing these and other emergencies under this compact. Each state further recognizes that there will be emergencies which require immediate access and present procedures to
apply outside resources to make a prompt and effective response to the emergency. This is because few, if any, individual states have all the resources they may need in all types of emergencies or the capability of delivering resources to areas where emergencies exist.

The prompt, full, and effective utilization of resources of the participating states, including any resources on hand or available from the federal government or any other source, that are essential to the safety, care, and welfare of the people in the event of any emergency or disaster declared by a party state, shall be the underlying principle on which all articles of this compact shall be understood.

On behalf of the governor of each state participating in the compact, the legally designated state official who is assigned responsibility for emergency management will be responsible for formulation of the appropriate interstate mutual aid plans and procedures necessary to implement this compact.

ARTICLE III
PARTY STATE RESPONSIBILITIES

(1) It shall be the responsibility of each party state to formulate procedural plans and programs for interstate cooperation in the performance of the responsibilities listed in this article. In formulating such plans, and in carrying them out, the party states, as is practical, shall:

(a) Review individual state hazards analyses and, to the extent reasonably possible, determine all those potential emergencies the party states might jointly suffer, whether due to natural disaster, technological hazard, man-made disaster, emergency aspects of resource shortages, civil disorders, insurgency, or enemy attack;

(b) Review party states’ individual emergency plans and develop a plan which will determine the mechanism for the interstate management and provision of assistance concerning any potential emergency;

(c) Develop interstate procedures to fill any identified gaps and to resolve any identified inconsistencies or overlaps in existing or developed plans;

(d) Assist in warning communities adjacent to or crossing the state boundaries;

(e) Protect and assure uninterrupted delivery of services, medicines, water, food, energy and fuel, search and rescue, and critical lifeline equipment, services, and resources, both human and material;

(f) Inventory and set procedures for the interstate loan and delivery of human and material resources, together with procedures for reimbursement or forgiveness;

(g) Provide, to the extent authorized by law, for temporary suspension of any statutes or ordinances that restrict the implementation of the responsibilities listed in this compact.

(2) The authorized representative of a party state may request assistance of another party state by contacting the authorized representative of that state. The provisions of this agreement shall only apply to requests for assistance made by and to authorized representatives. Requests may be verbal or in writing. If verbal, the request shall be confirmed in writing within thirty days of the verbal request. Requests shall provide the following information:

(a) A description of the emergency services function for which assistance is needed, such as, but not limited to, fire services, law enforcement, emergency medical, transportation, communications, public works and engineering, building inspection, planning and information assistance, mass care, resource support, health and medical services, and search and rescue;

(b) The amount and type of personnel, equipment, materials, and supplies needed, and a reasonable estimate of the length of time they will be needed;

(c) The specific place and time for staging of the assisting party’s response and a point of contact at that location.

(3) There shall be frequent consultation between state officials who have assigned emergency management responsibilities and other appropriate representatives of the party states with affected jurisdictions and the United States government, with free exchange of information, plans, and resource records relating to emergency capabilities.

ARTICLE IV
LIMITATIONS

Any party state requested to render mutual aid or conduct exercises and training for mutual aid shall take such action as is necessary to provide and make available the resources covered by this compact in accordance with the terms of this compact. However, it is understood that the state rendering aid may withhold resources to the extent necessary to provide reasonable protection for the state. Each party state shall afford to the emergency forces of any party state, while operating within its state limits under the terms and conditions of this compact, the same powers except that of arrest unless specifically authorized by the receiving state, duties, rights, and privileges as are afforded forces of the state in which they are performing emergency services. Emergency forces will continue under the command and control of their regular leaders, but the organizational units will come under the operational control of the emergency services authorities of the state receiving assistance. These conditions may be activated, as needed, only subsequent to a declaration of a state of emergency or disaster by the governor of the party state that is to receive assistance or commencement of exercises or training for mutual aid and shall continue so long as the exercise or training for mutual aid are in progress, the state of emergency or disaster remains in effect, or loaned resources remain in the receiving state or states, whichever is longer.

ARTICLE V
LICENSES AND PERMITS

Whenever any person holds a license, certificate, or other permit issued by any state party to the compact evidencing the meeting of qualifications for professional, mechanical, or other skills, and when such assistance is requested by the receiving party state, such person shall be deemed licensed, certified, or permitted by the state requesting assistance to render aid involving such skill to meet a declared emergency or disaster, subject to such limitations and conditions as the governor of the requesting state may prescribe by executive order or otherwise.
ARTICLE VI
LIABILITY
Officers or employees of a party state rendering aid in another state under this compact shall be considered agents of the requesting state for tort liability and immunity purposes; and no party state or its officers or employees rendering aid in another state under this compact shall be liable on account of any act or omission in good faith on the part of such forces while so engaged or on account of the maintenance or use of any equipment or supplies in connection therewith. Good faith in this article may not include willful misconduct, gross negligence, or recklessness.

ARTICLE VII
SUPPLEMENTARY AGREEMENTS
Inasmuch as it is probable that the pattern and detail of the machinery for mutual aid among two or more states may differ from that among the states that are party to this compact, this instrument contains elements of a broad base common to all states, and nothing in this compact shall preclude any state from entering into supplementary agreements with another state or affect any other agreements already in force between states. Supplementary agreements may comprehend, but shall not be limited to, provisions for evacuation and reception of injured and other persons and the exchange of medical, fire, police, public utility, reconnaissance, welfare, transportation and communications personnel, and equipment and supplies.

ARTICLE VIII
COMPENSATION
Each party state shall provide for payment of compensation and death benefits to injured members of the emergency forces of that state and representatives of deceased members of such forces in case such members sustain injuries or are killed while rendering aid under this compact, in the same manner and on the same terms as if the injury or death were sustained within their own state.

ARTICLE IX
REIMBURSEMENT
Any party state rendering aid in another state under this compact shall be reimbursed by the party state receiving the aid for any loss or damage to or expense incurred in the operation of any equipment and the provision of any service in answering a request for aid and for the costs incurred in connection with the requests. However, any aiding party state may assume in whole or in part the loss, damage, expense, or other cost, or may loan equipment or donate services to the receiving party state without charge or cost; and any two or more party states may enter into supplementary agreements establishing a different allocation of costs among those states. Article VIII expenses may not be reimbursable under this article.

ARTICLE X
EVACUATION
Plans for the orderly evacuation and interstate reception of portions of the civilian population as the result of any emergency or disaster of sufficient proportions to so warrant, shall be worked out and maintained between the party states and the emergency management/services directors of the various jurisdictions where any type of incident requiring evacuation might occur. The plans shall be put into effect by request of the state from which evacuees come and shall include the manner of transporting evacuees, the number of evacuees to be received in different areas, the manner in which food, clothing, housing, and medical care will be provided, the registration of evacuees, the providing of facilities for the notification of relatives or friends, and the forwarding of evacuees to other areas or the bringing in of additional materials, supplies, and all other relevant factors. Plans shall provide that the party state receiving evacuees and the party state from which the evacuees come shall mutually agree as to reimbursement of out-of-pocket expenses incurred in receiving and caring for the evacuees, for expenditures for transportation, food, clothing, medicines and medical care, and like items. Expenditures shall be reimbursed as agreed by the party state from which the evacuees come. After the termination of the emergency or disaster, the party state from which the evacuees come shall assume the responsibility for the ultimate support of repatriation of the evacuees.

ARTICLE XI
IMPLEMENTATION
(1) This compact shall become operative immediately upon its enactment into law by any two states. After the first enactment, this compact shall become effective as to any other state upon its enactment by such state.

(2) Any party state may withdraw from this compact by enacting a statute repealing the compact, but no withdrawal may take effect until thirty days after the governor of the withdrawing state has given notice in writing of the withdrawal to the governors of all other party states. This action may not relieve the withdrawing state from obligations assumed under this compact before the effective date of withdrawal.

(3) Duly authenticated copies of this compact and such supplementary agreements as may be entered into shall, at the time of their approval, be deposited with each of the party states, and with the federal emergency management agency and other appropriate agencies of the United States government.

ARTICLE XII
ADDITIONAL PROVISIONS
Nothing in this compact shall authorize or permit the use of military force by the national guard of a state at any place outside that state in any emergency for which the president is authorized by law to call into federal service the militia, or for any purpose for which the use of the army or the air force would in the absence of express statutory authorization be prohibited under 18 U.S.C. Sec. 1385. [2001 c 288 § 1.]

38.10.900 Severability—2001 c 288. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected. [2001 c 288 § 2.]

38.12.015 Department organized into separate divisions—Army national guard—Air national guard—Assistant adjutants general. The adjutant general’s department shall be organized into separate divisions for the Washington army national guard and the Washington air national guard. 38.12.030 Adjutant general and assistant adjutants general—How chosen—Annual salaries—Members of judiciary eligible to serve in guard. The officer so detailed shall during the continuance of his or her service as the adjutant general hold the rank of a general officer.

Whenever a vacancy has occurred, or is about to occur, in the offices of assistant adjutants general for the Washington army national guard or the Washington air national guard, the adjutant general with the concurrence of the governor may appoint an officer of the army national guard or the air national guard, who has had at least ten years service in the active list of his respective branch during the fifteen years next prior to such detail. The officer so detailed, may during the continuance of his service as assistant adjutant general hold the rank of a general officer.

If, by reason of the call or draft of officers of the Washington army national guard and/or air national guard into federal service, there is no officer of the Washington national guard available for detail as the adjutant general or as an assistant adjutant general who possesses the requisite qualifications, the governor may appoint any officer or former officer of the organized militia of Washington as acting adjutant general or as an acting assistant adjutant general. If the officers on detail as the adjutant general or as assistant adjutants general are appointed, called, or drafted into the military service of the United States by order or proclamation of the president, they shall be granted leaves of absence by the governor, and are entitled, upon release from federal service, to return to their former status as adjutant general or as assistant adjutants general of Washington, and during the period that they are in federal service, the duties of these offices shall be performed by an acting adjutant general and acting assistant adjutants general, appointed by the governor, as provided in this section, who shall receive the same pay provided for the adjutant general and/or assistant adjutants general respectively, during the period of such assignments.

The adjutant general shall receive an annual salary equal to the base pay of a major general in the United States army. The assistant adjutant general for the Washington army national guard and the assistant adjutant general for the Washington air national guard shall each receive an annual salary equal to the base pay of an officer of equivalent grade in the United States army or United States air force but not to exceed that of a brigadier general. So long as a member of the judiciary of the state of Washington is available for judicial work at such times and under such conditions as may be set forth by local rules and custom, that member may serve as an active member of the national guard or air national guard.

38.12.060 Officers to be commissioned by the governor. All commissioned and warrant officers of the organized militia of Washington shall be appointed and commissioned or warranted by the governor only as hereinafter provided. No person shall be so appointed and commissioned or warranted unless he or she shall be a citizen of the United States and of this state and more than eighteen years of age. Every commissioned and warranted officer shall hold office under his or her commission or warrant until he or she has been regularly appointed and commissioned or warranted to another rank or office, or until he or she shall have been regularly retired, discharged, dismissed or placed in the reserve.

38.12.070 Examining board. The composition, appointment and procedure of examining boards and the nature and scope of examinations shall be as prescribed by the laws or regulations of the United States or those of this state. 38.12.095 Appointment or promotion of commissioned officers to be made by officer promotion board— Exceptions. Whenever a commissioned officer is to be appointed or promoted either to fill a vacancy in the organized militia (Washington army national guard, Washington air national guard and the Washington state guard) or for any other reason, the officer to be appointed or promoted shall be selected by the officer promotion board. This selection in no way will change the powers of the governor under RCW 38.12.060. This section in no way applies to appointments or promotions to adjutant general or assistant adjutant general, to the appointment of officers to the rank of captain, lieutenant, or warrant officer, or to the promotion of second lieutenants, first lieutenants, or warrant officers.

38.12.105 Criteria and guidelines for promotion of commissioned officers. All promotions of commissioned officers in the organized militia will be made on a best-qualified basis. The officer promotion board will select the best-qualified officer for each promotion from among those officers fully qualified for promotion. To be promoted, the selected officer must also meet the requirements of RCW 38.12.070. In no event will seniority be the sole guideline for
selecting the officer to be promoted. The officer promotion board will, in determining the best qualified officer, consider the overall qualifications of an officer and not just the qualifications for one position. [1974 ex.s. c 34 § 2.]

38.12.115 Officer promotion board—Meetings—Powers and duties. The officer promotion board will meet from time to time as directed by the adjutant general. The board will select the best qualified officer for each promotion to be made in the organized militia, and will do any other act pertaining thereto directed by the adjutant general or allowed or directed by statute. [1989 c 19 § 17; 1974 ex.s. c 34 § 3.]

If the board is selecting an officer for promotion to the rank of colonel, any member of the board who is a lieutenant colonel will be automatically disqualified and will not be replaced. If the board is selecting an officer for promotion to the rank of brigadier general, any member of the board who is a lieutenant colonel or who is a colonel will be automatically disqualified and will not be replaced.

(2) For promotions or appointments of air national guard officers, the board will consist of the adjutant general, the assistant adjutant general air, and the five commanders senior in grade and date of rank in that grade in the Washington air national guard. If the board is selecting an officer for promotion to the rank of colonel, any member of the board who is a lieutenant colonel will be automatically disqualified and will not be replaced. If the board is selecting an officer for promotion to the rank of brigadier general, any member of the board who is a lieutenant colonel or who is a colonel will be automatically disqualified and will not be replaced.

(3) For promotions or appointments of state guard officers, the board will consist of the adjutant general, the assistant adjutant general army, and the five officers senior in grade and in date of rank in that grade in the state guard. If the board is selecting an officer for promotion to the rank of colonel, any member of the board who is a lieutenant colonel will be automatically disqualified and will not be replaced. If the board is selecting an officer for promotion to the rank of brigadier general, any member of the board who is a lieutenant colonel or who is a colonel will be automatically disqualified and will not be replaced. [1989 c 19 § 18; 1974 ex.s. c 34 § 4.]

38.12.135 Officer promotion board—Official acts—Approval requirements—Rules. To be an official act of the officer promotion board, an act of that board must be approved by not less than four of the members of the board: PROVIDED, HOWEVER, That if the board consists of less than four officers, the approval of the board shall be unanimous.

An action of an officer promotion board may be an official act of the board without a meeting if all members of the board approve in writing the act in question.

The adjutant general will from time to time fix the rules under which the board will operate. [1974 ex.s. c 34 § 5.]

38.12.150 Officer to take oath. Every officer, duly commissioned or warranted shall within such time as may be provided by law or by regulations, take the oath of office prescribed by law, and give bond, if required. In case of neglect or refusal so to do, the officer shall be considered to have resigned such office and a new appointment may be made as provided by law. [1989 c 19 § 19; 1943 c 130 § 29; Rem. Supp. 1943 § 8603-29. Prior: 1917 c 107 § 26; 1909 c 134 § 36, part; 1895 c 108 § 51.]

38.12.160 Oath, form of. The oath of office for commissioned and warrant officers in the organized militia of Washington shall be substantially as follows: "I, . . . . . . , do solemnly swear that I will support and defend the Constitution of the United States and the Constitution of the state of Washington, against all enemies, foreign or domestic; that I will bear true faith and allegiance to the same; that I will obey the orders of the president of the United States and of the governor of the state of Washington, that I make this obligation freely, without any mental reservation or purpose of evasion, and that I will well and faithfully discharge the duties of the office of . . . . . . in the organized militia of the state of Washington upon which I am about to enter, so help me God." [1943 c 130 § 30; Rem. Supp. 1943 § 8603-30. Prior: 1917 c 107 § 27; 1909 c 134 § 37.]

Revolutionary activities: Chapter 9.81 RCW.

38.12.170 Termination of officers’ membership—Review of retention potential. The governor may terminate the membership of any commissioned or warrant officer of the organized militia of Washington for any of the following reasons:

1) Conviction of an infamous crime;
2) Absence from his or her command for more than thirty days without proper leave;
3) Sentence of dismissal by court martial, duly approved;
4) Upon muster out of the organization to which the officer is then assigned;
5) Acceptance of the resignation of the officer, but no officer may be discharged or his or her resignation accepted while under arrest or against whom military charges have been preferred, or until he or she has turned over to his or her successor or satisfactorily accounted for all state and federal moneys and military property for which he or she is accountable or responsible;
6) Removal of his or her actual residence to such distance from the station of his or her command as to render it impracticable for him or her to perform the duties of his or her office;
7) Incompetence or unfitness for military service as determined by the duly approved findings of a board of officers appointed for that purpose by the adjutant general.
The adjutant general shall annually appoint and convene qualitative retention boards to review the military personnel records of officers who have completed three or more years service in the Washington state guard to determine their retention potential and acceptability for continuation in an active status. In the conduct of the reviews, the regulation issued by the adjutant general to implement this provision shall conform to the extent practicable to that governing the army national guard. [1989 c 19 § 20; 1984 c 198 § 1; 1943 c 130 § 31; 1925 ex.s. c 72 § 1; Rem. Supp. 1943 § 8603-31. Prior: 1917 c 107 § 28; 1909 c 134 § 39; 1895 c 108 § 63.]

Retired officers are subject, with their consent, to temporary detail on active state service by the commander-in-chief, and while on such duty shall receive the same pay and allowances as officers of like rank on the active list. [1989 c 19 § 21; 1984 c 198 § 2; 1943 c 130 § 33; Rem. Supp. 1943 § 8603-33. Prior: 1909 c 134 § 40; 1895 c 108 § 66.]

38.12.200 Uniform allowance to officers. Every commissioned officer of the organized militia of Washington shall, within sixty days from the date of the order whereby he or she shall have been appointed, provide at the officer’s own expense the uniform and equipment prescribed by the governor for his or her rank and assignment.

A commanding officer may authorize warrant officers or noncommissioned officers to order enlisted members of the officer’s command or subject to the officer’s authority into arrest or confinement.

(3) A commissioned officer or a warrant officer may be ordered apprehended or into arrest or confinement only by a commanding officer to whose authority the officer is subject, by an order, oral or written, delivered in person or by another commissioned officer. The authority to order such persons apprehended or into arrest or confinement may not be delegated.

(4) No person may be ordered apprehended or into arrest or confinement except for probable cause.

(5) This section does not limit the authority of persons authorized to apprehend offenders to secure the custody of an alleged offender until proper authority may be notified. [1989 c 48 § 9; 1963 c 220 § 9.]

38.38.076 [Art. 10] Restraint of persons charged with offenses. Any person subject to this code charged with an offense under this code shall be ordered into arrest or confinement, as circumstances may require; but when charged only with an offense normally tried by a summary court-martial, such person shall not ordinarily be placed in confinement. When any person subject to this code is placed in arrest or confinement prior to trial, immediate steps shall be taken to inform the person of the specific wrong of which he or she is accused and to try the person or to dismiss the charges and release the person. [1989 c 48 § 10; 1963 c 220 § 10.]

38.38.080 [Art. 10a] Confinement in jails. (2) Every commander of a guard, master at arms, warden, keeper, or officer of a city or county jail or of any other jail, penitentiary, or prison designated under RCW 38.38.080, to whose charge a prisoner is committed shall, within twenty-four hours after that commitment or as soon as he or she is relieved from guard, report to the commanding officer of the prisoner the name of the prisoner, the offense charged against the prisoner, and the name of the person who ordered or authorized the commitment. [1989 c 48 § 12; 1963 c 220 § 12.]

38.38.088 [Art. 13] Punishment prohibited before trial. Subject to RCW 38.38.488, no person, while being held for trial or the result of trial, may be subjected to punishment or penalty other than arrest or confinement upon the charges pending against the person, nor shall the arrest or confinement imposed upon the person be any more rigorous than the circumstances require to assure his or her presence, but the person may be subjected to minor punishment during that period for infractions of discipline. [1989 c 48 § 13; 1963 c 220 § 13.]

38.38.092 [Art. 14] Delivery of offenders to civil authorities. (1) Under such regulations as may be prescribed
by the adjutant general, a person subject to this code who is accused of an offense against civil authority may be delivered, upon request, to the civil authority for trial.

(2) When delivery under this section is made to any civil authority of a person undergoing sentence of a court-martial, the delivery, if followed by conviction in a civil tribunal, interrupts the execution of the sentence of the court-martial, and the offender after having answered to the civil authorities for the offense shall, upon the request of competent military authority, be returned to military custody for the completion of the sentence. [2009 c 378 § 8; 1989 c 48 § 14; 1963 c 220 § 14.]

(1) Under such regulations as the governor may prescribe, limitations may be placed on the powers granted by this section with respect to the kind and amount of punishment authorized, the categories of commanding officers and warrant officers exercising command authorized to exercise those powers, the applicability of this section to an accused who demands trial by court-martial, and the kinds of courts-martial to which the case may be referred upon such a demand. However, except in the case of a member attached to or embarked in a vessel, punishment may not be imposed upon any member of the organized militia under this section if the member has, before the imposition of such punishment, demanded trial by court-martial in lieu of such punishment. Under similar regulations, rules may be prescribed with respect to the suspension of punishments authorized hereunder. If authorized by regulations of the governor, a commanding officer exercising general court-martial jurisdiction or an officer of general rank in command may delegate powers under this section to a principal assistant.

(2) Subject to subsection (1) of this section, any commanding officer may, in addition to or in lieu of admonition or reprimand, impose one or more of the following disciplinary punishments for minor offenses without the intervention of a court-martial:

(a) Upon officers of his or her command:
   (i) Restriction to certain specified limits, with or without suspension from duty, for not more than fourteen consecutive duty or drill days;
   (ii) If imposed by an officer exercising general court-martial jurisdiction or an officer of general rank in command:
      (A) Forfeiture of up to thirty days’ pay, but not more than fifteen days’ pay per month;
      (B) Restriction to certain specified limits, with or without suspension from duty, for not more than fourteen consecutive drill or duty days;
      (C) Detention of up to forty-five days’ pay, but not more than fifteen days’ pay per month;
   (b) Upon other personnel of his or her command:
      (i) If imposed upon a person attached to or embarked in a vessel, confinement for not more than three consecutive days;
      (ii) Forfeiture of not more than seven days’ pay;
      (iii) Reduction to the next inferior pay grade, if the grade from which demoted is within the promotion authority of the officer imposing the reduction or any officer subordinate to the one who imposes the reduction;
      (iv) Extra duties, including fatigue or other duties for not more than fourteen duty or drill days, which need not be consecutive, and for not more than two hours per day, holidays included;
      (v) Restriction to certain specified limits, with or without suspension from duty, for not more than fourteen consecutive days;
      (vi) Detention of not more than fourteen days’ pay;
      (vii) If imposed by a commanding officer of the grade of major or above:
         (A) The punishment authorized in subsection (2)(b)(i) of this section;
         (B) Forfeiture of up to thirty days’ pay, but not more than fifteen days’ pay per month;
         (C) Reduction to the lowest or any intermediate pay grade, if the grade from which demoted is within the promotion authority of the officer imposing the reduction or any officer subordinate to the one who imposes the reduction, but an enlisted member in a pay grade above E-4 may not be reduced more than two pay grades;
         (D) Extra duties, including fatigue or other duties, for not more than fourteen drill or duty days, which need not be consecutive, and for not more than two hours per day, holidays included;
         (E) Restriction to certain specified limits, with or without suspension from duty, for not more than fourteen consecutive days;
         (F) Detention of up to forty-five days’ pay, but not more than fifteen days’ pay per month.

Detention of pay shall be for a stated period of not more than one year but if the offender’s term of service expires earlier, the detention shall terminate upon that expiration. Extra duties and restriction may not be combined to run consecutively in the maximum amount imposable for each. Whenever any such punishments are combined to run consecutively, there must be an apportionment. In addition, forfeiture of pay may not be combined with detention of pay without an apportionment.

(3) An officer in charge may impose upon enlisted members assigned to the unit of which the officer is in charge such of the punishment authorized under subsection (2)(b) of this section as the governor may specifically prescribe by regulation.

(4) The officer who imposes the punishment authorized in subsection (2) of this section, or a successor in command, may, at any time, suspend probationally any part or amount of the unexecuted punishment imposed and may suspend probationally a reduction in grade or a forfeiture imposed under subsection (2) of this section, whether or not executed. In addition, the officer may, at any time, remit or mitigate any part or amount of the unexecuted punishment imposed and may set aside in whole or in part the punishment, whether executed or unexecuted, and restore all rights, privileges, and property affected. The officer may also mitigate reduction in grade to forfeiture or detention of pay. When mitigating extra duties to restriction, the restriction shall not be longer than the number of hours of extra duty that may have been imposed. When mitigating reduction in grade to forfeiture or detention of pay, the amount of the forfeiture or detention
shall not be greater than the amount that could have been imposed initially under this section by the officer who imposed the punishment mitigated.

(5) A person punished under this section who considers the punishment unjust or disproportionate to the offense may, through the proper channel, appeal to the next superior authority. The appeal shall be promptly forwarded and decided, but the person punished may in the meantime be required to undergo the punishment adjudged. The superior authority may exercise the same powers with respect to the punishment imposed as may be exercised under subsection (4) of this section by the officer who imposed the punishment. Before acting on an appeal from a punishment of:

(a) Forfeiture of more than seven days’ pay;
(b) Reduction of one or more pay grades from the fourth or a higher pay grade;
(c) Extra duties for more than ten days;
(d) Restriction for more than ten days; or
(e) Detention of more than fourteen days’ pay;
the authority who is to act on the appeal shall refer the case to a judge advocate for consideration and advice, and may so refer the case upon appeal from any punishment imposed under subsection (2) of this section.

(6) The imposition and enforcement of disciplinary punishment under this section for any act or omission is not a bar to trial by court-martial for a serious crime or offense growing out of the same act or omission, and not properly punishable under this section; but the fact that a disciplinary punishment has been enforced may be shown by the accused upon trial, and when so shown shall be considered in determining the measure of punishment to be adjudged in the event of a finding of guilty.

(7) The governor may by regulation prescribe the form of records to be kept of proceedings under this section and may also prescribe that certain categories of those proceedings shall be in writing. [2009 c 378 § 9; 1991 c 43 § 5; 1989 c 48 § 15; 1963 c 220 § 16.]

PART IV—COURTS-MARTIAL JURISDICTION

38.38.172 [Art. 16] Courts-martial of organized militia not in federal service—Composition—Jurisdiction—Powers and proceedings. (1) In the organized militia not in federal service, there are general, special, and summary courts-martial constituted like similar courts of the armed forces of the United States. They have the jurisdiction and powers, except as to punishments, and shall follow the forms and procedures provided for those courts.

(2) The three kinds of courts-martial are:

(a) General courts-martial, consisting of a military judge and not less than five members, or only a military judge, if before the court is assembled the accused, knowing the identity of the military judge and after consultation with defense counsel, requests orally on the record or in writing a court composed only of a military judge and the military judge approves;
(b) Special courts-martial, consisting of not less than three members, or a military judge and not less than three members, or only a military judge, if one has been detailed to the court, and the accused under the same conditions as those prescribed in (a) of this subsection so requests; and
(c) Summary courts-martial, consisting of one commissioned officer. [1989 c 48 § 16; 1963 c 220 § 16.]

38.38.176 [Art. 17] Jurisdiction of courts-martial in general. Each force of the organized militia has court-martial jurisdiction over all persons subject to this code. The exercise of jurisdiction by one force over personnel of another force shall be in accordance with regulations prescribed by the governor. [1989 c 48 § 17; 1963 c 220 § 17.]

38.38.180 [Art. 18] Jurisdiction of general courts-martial. Subject to RCW 38.38.176, general courts-martial have jurisdiction to try persons subject to this code for any offense made punishable by this code and may, under such limitations as the governor may prescribe, adjudge any of the following punishments:

(1) A fine of not more than three hundred dollars;
(2) Forfeiture of pay and allowances;
(3) A reprimand;
(4) Dismissal or dishonorable discharge;
(5) Reduction of a noncommissioned officer to the ranks; or
(6) Any combination of these punishments. [2009 c 378 § 10; 1963 c 220 § 18.]

38.38.184 [Art. 19] Jurisdiction of special courts-martial—Dishonorable discharge. Subject to RCW 38.38.176, special courts-martial have jurisdiction to try persons subject to this code for any offense for which they may be punished under this code. A special court-martial has the same powers of punishment as a general court-martial, except that a fine imposed by a special court-martial may not be more than one hundred dollars for a single offense. A dishonorable discharge may not be adjudged unless a complete record of the proceedings and testimony has been made, counsel having the qualifications prescribed under RCW 38.38.260 was detailed to represent the accused, and a military judge was detailed to the trial, except in any case in which a military judge could not be detailed to the trial because of physical conditions or military exigencies. In any such case in which a military judge was not detailed to the trial, the convening authority shall make a detailed written statement, to be appended to the record, stating the reason or reasons a military judge could not be detailed. [1989 c 48 § 18; 1963 c 220 § 19.]

38.38.188 [Art. 20] Jurisdiction of summary courts-martial. (1) Subject to RCW 38.38.176, summary courts-martial have jurisdiction to try persons subject to this code, except officers for any offense made punishable by this code.

(2) No person with respect to whom summary courts-martial have jurisdiction may be brought to trial before a summary court-martial if the person objects thereto, unless under RCW 38.38.132 the person has been permitted and has elected to refuse punishment under that section. If objection to trial by summary court-martial is made by an accused who has been permitted to refuse punishment under RCW 38.38.132, trial shall be ordered by special or general court-martial, as may be appropriate.

(2010 Ed.)
38.38.192 [Art. 21] Sentences of dismissal or dishonorable discharge to be approved by the governor. In the organized militia not in federal service, no sentence of dismissal or dishonorable discharge may be executed until it is approved by the governor. [1963 c 220 § 21.]

38.38.196 [Art. 21a] Complete record of proceedings and testimony if dishonorable discharge or dismissal adjudged. A dishonorable discharge or dismissal may not be adjudged by any court-martial unless a complete record of the proceedings and testimony before the court has been made. [1989 c 48 § 20; 1963 c 220 § 22.]

38.38.200 [Art. 21b] Confinement instead of fine. In the organized militia not in federal service, a court-martial may, instead of imposing a fine, sentence to confinement for not more than one day for each dollar of the authorized fine. [1989 c 48 § 21; 1963 c 220 § 23.]

PART V—APPOINTMENT AND COMPOSITION OF COURTS-MARTIAL

38.38.240 [Art. 22] Who may convene general courts-martial. In the organized militia not in federal service pursuant to Title 10 U.S.C., general courts-martial may be convened by the president or by the governor, or by the adjutant general. [2009 c 378 § 12; 1989 c 48 § 22; 1963 c 220 § 24.]

38.38.244 [Art. 23] Special courts-martial of organized militia not in federal service—Who may convene. (1) In the organized militia not in federal service pursuant to Title 10 U.S.C., anyone authorized to convene a general court-martial, the commanding officer of a garrison, fort, post, camp, air base, auxiliary air base, or other place where troops are on duty, or of a regiment, wing, group, or other detached command may convene special courts-martial. Special courts-martial may also be convened by superior authority. When any such officer is an accuser, the court shall be convened by superior competent authority.

(2) A special court-martial may not try a commissioned officer. [2009 c 378 § 13; 1989 c 48 § 23; 1963 c 220 § 25.]

38.38.248 [Art. 24] Summary courts-martial of organized militia not in federal service—Who may convene. (1) In the organized militia not in federal service pursuant to Title 10 U.S.C., anyone authorized to convene a special court-martial, the commanding officer of a garrison, fort, post, camp, air base, auxiliary air base, or other place where troops are on duty, or of a regiment, wing, group, detached battalion, detached squadron, detached company, or other detachment may convene a summary court-martial consisting of one commissioned officer. The proceedings shall be informal.

(2) When only one commissioned officer is present with a command or detachment the commissioned officer shall be the summary court-martial of that command or detachment and shall hear and determine all summary court-martial cases brought before him or her. Summary courts-martial may, however, be convened in any case by superior competent authority when considered desirable. [2009 c 378 § 14; 1989 c 48 § 24; 1963 c 220 § 26.]

38.38.252 [Art. 25] Who may serve on courts-martial. (1) Any commissioned officer of or on duty with the organized militia is eligible to serve on all courts-martial for the trial of any person who may lawfully be brought before such courts for trial.

(2) Any warrant officer of or on duty with the organized militia is eligible to serve on general and special courts-martial for the trial of any person, other than a commissioned officer, who may lawfully be brought before such courts for trial.

(3)(a) Any enlisted member of the organized militia who is a member of the same unit as the accused is eligible to serve on general and special courts-martial for the trial of any enlisted member who may lawfully be brought before such courts for trial, but shall serve as a member of a court only if, before the conclusion of a session called by the military judge under RCW 38.38.380(1) prior to trial or, in the absence of such a session, before the court is assembled for the trial of the accused, the accused personally has requested in writing that enlisted members serve on it. After such a request, the accused may not be tried by a general or special court-martial that enlisted members do not serve on it. In the trial of any person other than a commissioned officer, the accused, the accused personally has requested in writing that enlisted members serve on it. After such a request, the accused may not be tried by a general or special court-martial that enlisted members do not serve on it.

(b) In this section, the word "unit" means any regularly organized body of the organized militia not larger than a company, a squadron, or a body corresponding to one of them.

(4)(a) When it can be avoided, no person subject to this code may be tried by a court-martial any member of which is junior to the person in rank or grade.

(b) When convening a court-martial, the convening authority shall detail as members thereof such members as, in his or her opinion, are best qualified for the duty by reason of age, education, training, experience, length of service, and judicial temperament. No member is eligible to serve as a member of a general or special court-martial unless the member is the accuser or a witness for the prosecution or has acted as investigating officer or as counsel in the same case.

(c) Before a court-martial is assembled for the trial of a case, the convening authority may excuse a member of the court from participating in the case. Under such regulations as the governor may prescribe, the convening authority may delegate his or her authority under this subsection to the staff.
judge advocate or to any other principal assistant. [1989 c 48 § 25; 1963 c 220 § 27.]

38.38.256 [Art. 26] Military judge of a general or special court-martial. (1) A military judge shall be detailed to each general court-martial. Subject to regulations of the governor, a military judge may be detailed to any special court-martial. The governor shall prescribe regulations providing for the manner in which military judges are detailed for such courts-martial and for the persons who are authorized to detail military judges for such courts-martial. The military judge shall preside over each open session of the court-martial to which he or she has been detailed.

(2) A military judge shall be a commissioned officer of the armed forces who is a member of the bar of a federal court or a member of the bar of the highest court of a state and who is certified to be qualified for duty as a military judge by the state judge advocate.

(3) The military judge of a general court-martial shall be designated by the state judge advocate or a designee for detail in accordance with regulations prescribed under subsection (1) of this section. Unless the court-martial was convened by the governor, neither the convening authority nor any member of the staff shall prepare or review any report concerning the effectiveness, fitness, or efficiency of the military judge so detailed, which relates to performance of duty as a military judge. A commissioned officer who is certified to be qualified for duty as a military judge of a general court-martial may perform such duties only when he or she is assigned and directly responsible to the state judge advocate or designee, and may perform duties of a judicial or nonjudicial nature other than those relating to the primary duty as a military judge of a general court-martial when such duties are assigned by or with the approval of the state judge advocate or designee.

(4) No person is eligible to act as military judge in a case if the person is the accuser or a witness for the prosecution or has acted as investigating officer or counsel in the same case.

(5) The military judge of a court-martial may not consult with the members of the court except in the presence of the accused, trial counsel, and defense counsel, nor may the military judge vote with the members of the court. [1989 c 48 § 26; 1963 c 220 § 28.]

38.38.258 [Art. 26a] Military judges—Qualifications. A military judge must be a judge advocate. The adjutant general shall prescribe procedures for certifying, appointing, detailing, and removing military judges. [2009 c 378 § 6.]

38.38.260 [Art. 27] Detail of trial counsel and defense counsel. (1)(a) Trial counsel and defense counsel shall be detailed for each general and special court-martial. Assistant trial counsel and assistant and associate defense counsel may be detailed for each general and special court-martial. The governor shall prescribe regulations providing for the manner in which counsel are detailed for such courts-martial and for the persons who are authorized to detail counsel for such courts-martial.

(b) No person who has acted as investigating officer, military judge, or court member in any case may act later as trial counsel, assistant trial counsel, or, unless expressly requested by the accused, as defense counsel or assistant or associate defense counsel in the same case. No person who has acted for the prosecution may act later in the same case for the defense, nor may any person who has acted for the defense act later in the same case for the prosecution.

(2) Trial counsel or defense counsel detailed for a general court-martial:

(a) Must be a judge advocate who is a graduate of an accredited law school or is a member of the bar of a federal court or of the highest court of a state, or must be a member of the bar of a federal court or of the highest court of a state; and

(b) Must be certified as competent to perform such duties by the state judge advocate.

(3) In the case of a special court-martial:

(a) The accused shall be afforded the opportunity to be represented at the trial by counsel having the qualifications prescribed under subsection (2) of this section unless counsel having such qualifications cannot be obtained on account of physical conditions or military exigencies. If counsel having such qualifications cannot be obtained, the court may be convened and the trial held but the convening authority shall make a detailed written statement, to be appended to the record, stating why counsel with such qualifications could not be obtained;

(b) If the trial counsel is qualified to act as counsel before a general court-martial, the defense counsel detailed by the convening authority must be a person similarly qualified; and

(c) If the trial counsel is a judge advocate or a member of the bar of a federal court or the highest court of a state, the defense counsel detailed by the convening authority must be one of the foregoing. [1991 c 43 § 6; 1989 c 48 § 27; 1963 c 220 § 29.]

38.38.264 [Art. 28] Detail or employment of reporters and interpreters. Under such regulations as the governor may prescribe, the convening authority of a general or special court martial or court of inquiry shall detail or employ qualified court reporters, who shall record the proceedings of and testimony taken before that court. Under like regulations the convening authority of a military court may detail or employ interpreters who shall interpret for the court. [1963 c 220 § 30.]

38.38.268 [Art. 29] Absent and additional members. (1) No member of a general or special court-martial may be absent or excused after the court has been assembled for the trial of the accused unless excused as a result of a challenge, excused by the military judge for physical disability or other good cause, or excused by order of the convening authority for good cause.

(2) Whenever a general court-martial, other than a general court-martial composed of a military judge only, is reduced below five members, the trial may not proceed unless the convening authority details new members sufficient in number to provide not less than five members. The trial may proceed with the new members present after the
recorded evidence previously introduced before the members of the court has been read to the court in the presence of the military judge, the accused, and counsel for both sides.

(3) Whenever a special court-martial, other than a special court-martial composed of a military judge only, is reduced below three members, the trial may not proceed unless the convening authority details new members sufficient in number to provide not less than three members. The trial shall proceed with the new members present as if no evidence had previously been introduced at the trial, unless a verbatim record of the evidence previously introduced before the members of the court or a stipulation thereof is read to the court in the presence of the military judge, if any, the accused, and counsel for both sides.

(4) If the military judge of a court-martial composed of a military judge only is unable to proceed with the trial because of physical disability, as a result of a challenge, or for other good cause, the trial shall proceed, subject to any applicable conditions of RCW 38.38.172(2) (a) or (b), after the detail of a new military judge as if no evidence had previously been introduced, unless a verbatim record of the evidence previously introduced or a stipulation thereof is read in court in the presence of the new military judge, the accused, and counsel for both sides. [1989 c 48 § 28; 1963 c 220 § 31.]

PART VI—PRETRIAL PROCEDURE

38.38.308 [Art. 30] Charges and specifications. (1) Charges and specifications shall be signed by a person subject to this code under oath before a person authorized by this code to administer oaths and shall state:

(a) That the signer has personal knowledge of, or has investigated, the matters set forth therein; and

(b) That they are true in fact to the best of his or her knowledge and belief.

(2) Upon the preferring of charges, the proper authority shall take immediate steps to determine what disposition should be made thereof in the interest of justice and discipline, and the person accused shall be informed of the charges against him or her as soon as practicable. [1989 c 48 § 29; 1963 c 220 § 32.]

38.38.312 [Art. 31] Compulsory self-incrimination prohibited. (1) No person subject to this code may compel a person to incriminate himself or herself or to answer any question the answer to which may tend to incriminate himself or herself.

(2) No person subject to this code may interrogate, or request any statement from, an accused or a person suspected of an offense without first informing the person of the nature of the accusation and advising that the person does not have to make any statement regarding the offense of which he or she is accused or suspected and that any statement made by the person may be used as evidence against him or her in a trial by court-martial.

(3) No person subject to this code may compel any person to make a statement or produce evidence before any military tribunal if the statement or evidence is not material to the issue and may tend to degrade the person.

(4) No statement obtained from any person in violation of this section, or through the use of coercion, unlawful influence, or unlawful inducement may be received in evidence against the person in a trial by court-martial. [2009 c 378 § 15; 1989 c 48 § 30; 1963 c 220 § 33.]

38.38.316 [Art. 32] Investigation. (1) No charge or specification may be referred to a general court-martial for trial until a thorough and impartial investigation of all the matters set forth therein has been made. This investigation shall include inquiry as to the truth of the matter set forth in the charges, consideration of the form of charges, and a recommendation as to the disposition which should be made of the case in the interest of justice and discipline.

(2) The accused shall be advised of the charges against him or her and of the right to be represented at that investigation by counsel. The accused has a right to be represented at that investigation as provided in RCW 38.38.376 and in regulations prescribed under that section.

At that investigation full opportunity shall be given to the accused to cross-examine witnesses against him or her if they are available and to present anything the person may desire in his or her own behalf, either in defense or mitigation, and the investigating officer shall examine available witnesses requested by the accused. If the charges are forwarded after the investigation, they shall be accompanied by a statement of the substance of the testimony taken on both sides and a copy thereof shall be given to the accused.

(3) If an investigation of the subject matter of an offense has been conducted before the accused is charged with the offense, and if the accused was present at the investigation and afforded the opportunities for representation, cross-examination, and presentation prescribed in subsection (2) of this section, no further investigation of that charge is necessary under this section unless it is demanded by the accused after being informed of the charge. A demand for further investigation entitles the accused to recall witnesses for further cross-examination and to offer any new evidence in his or her own behalf.

(4) If evidence adduced in an investigation under this chapter indicates that the accused committed an uncharged offense, the investigating officer may investigate the subject matter of that offense without the accused having first been charged with the offense if the accused:

(a) Is present at the investigation;

(b) Is informed of the nature of each uncharged offense investigated; and

(c) Is afforded the opportunities for representation, cross-examination, and presentation prescribed in subsection (2) of this section.

(5) The requirements of this section are binding on all persons administering this code but failure to follow them does not divest a military court of jurisdiction. [2009 c 378 § 16; 1989 c 48 § 31; 1963 c 220 § 34.]

38.38.320 [Art. 33] Forwarding of charges. When a person is held for trial by general court-martial the commanding officer shall, within eight days after the accused is ordered into arrest or confinement, if practicable, forward the charges, together with the investigation and allied papers, to the governor. If that is not practicable, the officer shall report

[Title 38 RCW—page 24]
38.38.324  [Art. 34] Advice of state judge advocate and reference for trial. (1) Before directing the trial of any charge by general court-martial, the convening authority shall refer it to the state judge advocate for consideration and advice. The convening authority may not refer a charge to a general court-martial for trial unless he or she has found that the charge alleges an offense under this code, is warranted by evidence indicated in the report of the investigation under RCW 38.38.316, if there is such a report, and the court-martial would have jurisdiction over the accused and the offense.

(2) The advice of the staff judge advocate under subsection (1) of this section with respect to the findings or sentence or admonish the court or any member, military judge, or military court-martial nor any other commanding officer, or any convening, approving, or reviewing authority with respect to judicial acts. The foregoing provisions of this section shall not apply to any military tribunal or any member thereof, in reaching the findings or sentence in any case, or the action of any convening, approving, or reviewing authority with respect to judicial acts. The foregoing provisions of this section shall not apply to a member of the organized militia or in determining whether a member of the organized militia should be retained on active duty, no person subject to this chapter may, in preparing any such report (a) consider or evaluate the performance of duty of any such member of a court-martial, or (b) give a less favorable rating or evaluation of any member of the organized militia because of the zeal with which such member, as counsel, represented any accused before a court-martial. [1989 c 48 § 36; 1963 c 220 § 35.]

38.38.328  [Art. 35] Service of charges. The trial counsel to whom court-martial charges are referred for trial shall cause to be served upon the accused a copy of the charges upon which trial is to be had. In time of peace no person may, against his or her objection, be brought to trial or be required to participate by himself or counsel in a session called by a military judge under RCW 38.38.380(1), in a general court-martial within a period of five days after the service of the charges upon him or her, or before a special court-martial within a period of three days after the service of the charges upon him or her. [1989 c 48 § 34; 1963 c 220 § 37.]

PART VII—TRIAL PROCEDURE

38.38.368  [Art. 36] Governor may prescribe rules. The procedure, including modes of proof, in cases before military courts and other military tribunals may be prescribed by the governor by regulations, which shall, so far as the governor considers practicable, apply the principles of law and the rules of evidence generally recognized in the trial of criminal cases in the courts of the state, but which may not be contrary to or inconsistent with this code. [1989 c 48 § 35; 1963 c 220 § 38.]

38.38.372  [Art. 37] Unlawfully influencing action of court. (1) No authority convening a general, special, or summary court-martial nor any other commanding officer, or officer serving on the staff thereof, may censure, reprimand, or admonish the court or any member, military judge, or counsel thereof, with respect to the findings or sentence adjudged by the court, or with respect to any other exercise of its or his or her functions in the conduct of the proceeding. No person subject to this code may attempt to coerce or, by any unauthorized means, influence the action of the court-martial or any other military tribunal or any member thereof, in reaching the findings or sentence in any case, or the action of any convening, approving, or reviewing authority with respect to judicial acts. The foregoing provisions of this section shall not apply with respect to (a) general instructional or informational courses in military justice if such courses are designed solely for the purpose of instructing members of a command in the substantive and procedural aspects of courts-martial, or (b) to statements and instructions given in open court by the military judge, president of a special court-martial, or counsel.

(2) In the preparation of an effectiveness, fitness, or efficiency report or any other report or document used in whole or in part for the purpose of determining whether a member of the organized militia is qualified to be advanced, in grade, or in determining the assignment or transfer of a member of the organized militia, or in determining whether a member of the organized militia should be retained on active duty, no person subject to this chapter may, in preparing any such report (a) consider or evaluate the performance of duty of any such member of a court-martial, or (b) give a less favorable rating or evaluation of any member of the organized militia because of the zeal with which such member, as counsel, represented any accused before a court-martial. [1989 c 48 § 36; 1963 c 220 § 39.]

38.38.376  [Art. 38] Duties of trial counsel and defense counsel. (1) The trial counsel of a general or special court-martial shall prosecute in the name of the state, and shall, under the direction of the court, prepare the record of the proceedings.

(2) The accused has the right to be represented in his or her defense before a general or special court-martial or at an investigation under RCW 38.38.316 as provided in this subsection.

(a) The accused may be represented by civilian counsel if provided at his or her own expense.

(b) The accused may be represented by:

(i) Military counsel detailed under RCW 38.38.260; or

(ii) Military counsel of his or her own selection if that counsel is reasonably available, as determined under regulations prescribed under subsection (3) of this section.

(c) If the accused is represented by civilian counsel, military counsel detailed or selected under (b) of this subsection shall act as associate counsel unless excused at the request of the accused.

(d) Except as provided under (e) of this subsection, if the accused is represented by military counsel of his or her own selection under (b)(ii) of this subsection, any military counsel detailed under (b)(i) of this subsection shall be excused.

(e) The accused is not entitled to be represented by more than one military counsel. However, the person authorized under regulations prescribed under RCW 38.38.260 to detail counsel in his or her sole discretion:

(i) May detail additional military counsel as assistant defense counsel; and
(ii) If the accused is represented by military counsel of his or her own selection under (b)(ii) of this subsection, may approve a request from the accused that military counsel detailed under (b)(i) of this subsection act as associate defense counsel.

(3) The state judge advocate shall, by regulation, define "reasonably available" for the purpose of subsection (2) of this section and establish procedures for determining whether the military counsel selected by an accused under subsection (2) of this section is reasonably available.

(4) In any court-martial proceeding resulting in a conviction, the defense counsel:

(a) May forward for attachment to the record of proceedings a brief of such matters as he or she determines should be considered in behalf of the accused on review, including any objection to the contents of the record which he or she considers appropriate;

(b) Shall assist the accused in the submission of any matter under RCW 38.38.536; and

(c) May take other action authorized by this chapter.

(5) An assistant trial counsel of a general court-martial may, under the direction of the trial counsel or when qualified to be a trial counsel as required by RCW 38.38.260, perform any duty imposed by law, regulation, or the custom of the service upon the trial counsel of the court. An assistant trial counsel of a special court-martial may perform any duty of the trial counsel.

(6) An assistant defense counsel of a general or special court-martial may, under the direction of the defense counsel or when qualified to be the defense counsel as required by RCW 38.38.260, perform any duty imposed by law, regulation, or the custom of the service upon counsel for the accused.

(2) If exercise of a peremptory challenge reduces the court below the minimum number of members required by RCW 38.38.172, if the accused is represented by military counsel of the accused or the trial counsel are entitled to one peremptory challenge against members not previously subject to peremptory challenges for cause stated to the court. The military judge or, if none, the court shall determine the relevance and validity of challenges for cause and may not receive a challenge to more than one person at a time. Challenges by the trial counsel shall ordinarily be presented and decided before those by the accused are offered.

(3) Each accused and the trial counsel is entitled to one peremptory challenge, but the military judge may not be challenged except for cause.

(4) If exercise of a peremptory challenge reduces the court below the minimum number of members required by RCW 38.38.172, the parties shall, notwithstanding RCW 38.38.268, either exercise or waive any challenge for cause then apparent against the remaining members of the court before additional members are detailed to the court. However, peremptory challenges shall not be exercised at that time.

38.38.380 [Art. 39] Sessions. (1) At any time after the service of charges which have been referred for trial to a court-martial composed of a military judge and members, the military judge may, subject to RCW 38.38.328, call the court into session without the presence of the members for the purpose of:

(a) Hearing and determining motions raising defenses or objections which are capable of determination without trial of the issues raised by a plea of not guilty;

(b) Hearing and ruling upon any matter which may be ruled upon by the military judge under this chapter, whether or not the matter is appropriate for later consideration or decision by the members of the court;

(c) Holding the arraignment and receiving the pleas of the accused; and

(d) Performing any other procedural function which may be performed by the military judge under this chapter or under rules prescribed pursuant to RCW 38.38.368 and which does not require the presence of the members of the court.

These proceedings shall be conducted in the presence of the accused, the defense counsel, and the trial counsel and shall be made a part of the record.

(2) When the members of a court-martial deliberate or vote, only the members may be present. All other proceedings, including any other consultation of the members of the court with counsel or the military judge, shall be made a part of the record and shall be in the presence of the accused, the defense counsel, the trial counsel, and in cases in which a military judge has been detailed to the court, the military judge.

38.38.384 [Art. 40] Continuances. The military judge or a court-martial without a military judge may, for reasonable cause, grant a continuance to any party for such time and as often as may appear to be just.

38.38.388 [Art. 41] Challenges. (1) The military judge and members of a general or special court-martial may be challenged by the accused or the trial counsel for cause stated to the court. The military judge or, if none, the court shall determine the relevance and validity of challenges for cause and may not receive a challenge to more than one person at a time. Challenges by the trial counsel shall ordinarily be presented and decided before those by the accused are offered.

(2) If exercise of a challenge for cause reduces the court below the minimum number of members required by RCW 38.38.172, the parties shall, notwithstanding RCW 38.38.268, either exercise or waive any challenge for cause then apparent against the remaining members of the court before additional members are detailed to the court. However, peremptory challenges shall not be exercised at that time.

(3) Each accused and the trial counsel is entitled to one peremptory challenge, but the military judge may not be challenged except for cause.

(4) If exercise of a peremptory challenge reduces the court below the minimum number of members required by RCW 38.38.172, the parties shall, notwithstanding RCW 38.38.268, either exercise or waive any remaining peremptory challenge, that has not been previously waived, against the remaining members of the court before additional members are detailed to the court.

(5) Whenever additional members are detailed to the court, and after any challenges for cause against such additional members are presented and decided, each accused and the trial counsel are entitled to one peremptory challenge against members not previously subject to peremptory challenge.

38.38.392 [Art. 42] Oaths. (1) Before performing their respective duties, military judges, members of general and special courts-martial, trial counsel, assistant trial counsel, defense counsel, assistant or associate defense counsel, reporters, and interpreters shall take an oath to perform their duties faithfully. The form of the oath, the time and place of the taking thereof, the manner of recording the same, and whether the oath shall be taken for all cases in which these duties are to be performed or for a particular case, shall be as prescribed in regulations of the governor. These regulations may provide that an oath to perform faithfully duties as a military judge, trial counsel, assistant trial counsel, defense counsel, or assistant or associate defense counsel may be taken at any time by a judge advocate or other person certified to be qualified or competent for the duty, and if such an oath is taken it need not again be taken at the time the judge advocate, or other person, is detailed to that duty.
(2) Each witness before a court-martial shall be examined on oath. [1989 c 48 § 41; 1963 c 220 § 44.]

38.38.396 [Art. 43] Statute of limitations. (1) A person charged with desertion or absence without leave in time of war, or with aiding the enemy or with mutiny may be tried and punished at any time without limitation.

(2) Except as otherwise provided in this section, a person charged with desertion punishable under RCW 38.38.784 is not liable to be tried by court-martial if the offense was committed more than three years before the receipt of sworn charges and specifications by an officer exercising summary court-martial jurisdiction over the command.

(3) Except as otherwise provided in this section, a person charged with any offense is not liable to be tried by court-martial or punished under RCW 38.38.132 if the offense was committed more than two years before the receipt of sworn charges and specifications by an officer exercising summary court-martial jurisdiction over the command or before the imposition of punishment under RCW 38.38.132.

(4) Periods in which the accused was absent from territory in which the state has the authority to apprehend the accused, or in the custody of civil authorities, or in the hands of the enemy, shall be excluded in computing the period of limitation prescribed in this section.

(5) If charges or specifications are dismissed as defective or insufficient for any cause and the period prescribed by the applicable statute of limitations:

(a) Has expired; or

(b) Will expire within one hundred eighty days after the date of dismissal of the charges and specifications[,] [then] trial and punishment under new charges and specifications are not barred by the statute of limitations if the conditions specified in subsection (6) of this section are met.

(6) The conditions referred to in subsection (5) of this section are that the new charges and specifications must:

(a) Be received by an officer exercising summary court-martial jurisdiction over the command within one hundred eighty days after the dismissal of the charges or specifications; and

(b) Allege the same acts or omissions that were alleged in the dismissed charges or specifications or allege acts or omissions that were included in the dismissed charges or specifications. [2009 c 378 § 19; 1989 c 48 § 42; 1963 c 220 § 45.]

38.38.400 [Art. 44] Former jeopardy. (1) No person may, without the person’s consent, be tried a second time in any military court of the state for the same offense.

(2) No proceeding in which an accused has been found guilty by a court-martial upon any charge or specification is a trial in the sense of this section until the finding of guilty has become final after review of the case has been fully completed.

(3) A proceeding which, after the introduction of evidence but before a finding, is dismissed or terminated by the convening authority or on motion of the prosecution for failure of available evidence or witnesses without any fault of the accused is a trial in the sense of this section. [1989 c 48 § 43; 1963 c 220 § 46.]

38.38.404 [Art. 45] Pleas of the accused. (1) If an accused arraigned before a court-martial makes an irregular pleading, or after a plea of guilty sets up matter inconsistent with the plea, or if it appears that the accused has entered the plea of guilty improvidently or through lack of understanding of its meaning and effect, or if the accused fails or refuses to plead, a plea of not guilty shall be entered in the record, and the court shall proceed as though the accused had pleaded not guilty.

(2) With respect to any other charge or specification to which a plea of guilty has been made by the accused and accepted by the military judge or by a court-martial without a military judge, a finding of guilty of the charge or specification may be entered immediately without vote. This finding shall constitute the finding of the court unless the plea of guilty is withdrawn prior to announcement of the sentence, in which event the proceedings shall continue as though the accused had pleaded not guilty. [1991 c 43 § 7; 1989 c 48 § 44; 1963 c 220 § 47.]

38.38.408 [Art. 46] Opportunity to obtain witnesses and other evidence. (1) The trial counsel, the defense counsel, and the court-martial shall have equal opportunity to obtain witnesses and other evidence in accordance with such regulations as the governor may prescribe.

(2) The president of a special court-martial, military judge, military magistrate, or a summary court officer may:

(a) Issue a warrant for the arrest of any accused person who, having been served with a warrant and a copy of the charges, disobeys a written order by the convening authority to appear before the court;

(b) Issue subpoenas duces tecum and other subpoenas;

(c) Enforce by attachment the attendance of witnesses and the production of books and papers; and

(d) Sentence for refusal to be sworn or to answer, as provided in actions before civil courts of the state.

(3) Process issued in court-martial cases to compel witnesses to appear and testify and to compel the production of other evidence shall run to any part of the state and shall be executed by civil officers as prescribed by the laws of the state. [2009 c 378 § 20; 1989 c 48 § 45; 1963 c 220 § 48.]

38.38.412 [Art. 47] Refusal to appear or testify—Penalty. (1) Any person not subject to this code who:

(a) Has been duly subpoenaed to appear as a witness or to produce books and records before a court-martial, military commission, court of inquiry, or any other military court or board, or before any military or civil officer designated to take a deposition to be read in evidence before such a court, commission, or board;

(b) Has been duly paid or tendered the fees and mileage of a witness at the rates allowed to witnesses attending the superior court of the state; and

(c) Willfully neglects or refuses to appear, or refuses to qualify as a witness or to testify or to produce any evidence which that person may have been legally subpoenaed to produce;
is guilty of an offense against the state.

(2) Any person who commits an offense named in subsection (1) of this section shall be tried before the superior court of this state having jurisdiction and jurisdiction is conferred upon those courts for that purpose. Upon conviction, such a person shall be punished by a fine of not more than five hundred dollars, or imprisonment for not more than six months, or both.

(3) The prosecuting attorney in any such court, upon the certification of the facts by the military court, commission, court of inquiry, or board, shall prosecute any person violating this section. [2009 c 378 § 21; 1989 c 48 § 46; 1963 c 220 § 49.]

38.38.416 [Art. 48] Contempts. A military court may punish for contempt any person who uses any menacing word, sign, or gesture in its presence, or who disturbs its proceedings by any riot or disorder. The punishment may not exceed confinement for thirty days or a fine of one hundred dollars, or both. [1963 c 220 § 50.]

38.38.420 [Art. 49] Depositions. (1) At any time after charges have been signed, as provided in RCW 38.38.308, any party may take oral or written depositions unless a military judge or court-martial without a military judge hearing the case, or if the case is not being heard, an authority competent to convene a court-martial for the trial of those charges, forbids it for good cause. If a deposition is to be taken before charges are referred for trial, such an authority may designate commissioned officers to represent the prosecution and the defense and may authorize those officers to take the deposition of any witness.

(2) The party at whose instance a deposition is to be taken shall give to every other party reasonable written notice of the time and place for taking the deposition.

(3) Depositions may be taken before and authenticated by any military or civil officer authorized by the laws of the state or by the laws of the place where the deposition is taken to administer oaths.

(4) A duly authenticated deposition taken upon reasonable notice to the other parties, so far as otherwise admissible under the rules of evidence, may be read in evidence or, in the case of audiotape, videotape, or similar material, may be played in evidence before any court-martial or in any proceeding before a court of inquiry, if it appears:

(a) That the witness resides or is beyond the state in which the court-martial or court of inquiry is located, or beyond the distance of one hundred miles from the place of trial or hearing;

(b) That the witness by reason of death, age, sickness, bodily infirmity, imprisonment, military necessity, non-namability to process, or other reasonable cause, is unable or refuses to appear and testify in person at the place of trial or hearing;

(c) That the present whereabouts of the witness is unknown. [1989 c 48 § 47; 1963 c 220 § 51.]

38.38.424 [Art. 50] Admissibility of records of courts of inquiry. (1) In any case not extending to the dismissal of a commissioned officer, the sworn testimony, contained in the duly authenticated record of proceedings of a court of inquiry, of a person whose oral testimony cannot be obtained, may, if otherwise admissible under the rules of evidence, be read in evidence by any party before a court martial if the accused was a party before the court of inquiry and if the same issue was involved or if the accused consents to the introduction of such evidence.

(2) Such testimony may be read in evidence only by the defense in cases extending to the dismissal of a commissioned officer.

(3) Such testimony may also be read in evidence before a court of inquiry or a military board. [1963 c 220 § 52.]

38.38.428 [Art. 51] Voting, rulings, instructions. (1) Voting by members of a general or special court-martial on the findings and on the sentence, and by members of a court-martial without a military judge upon questions of challenge, shall be by secret written ballot. The junior member of the court shall count the votes. The count shall be checked by the president, who shall forthwith announce the result of the ballot to the members of the court.

(2) The military judge and, except for questions of challenge, the president of a court-martial without a military judge shall rule upon all questions of law and all interlocutory questions arising during the proceedings. Any such ruling made by the military judge upon any question of law or any interlocutory question other than the factual issue of mental responsibility of the accused, or by the president of a court-martial without a military judge upon any question of law other than a motion for a finding of not guilty, is final and constitutes the ruling of the court. However, the military judge or the president of a court-martial without a military judge may change a ruling at any time during the trial. Unless the ruling is final, if any member objects thereto, the court shall be cleared and closed and the question decided by a vote as provided in RCW 38.38.432, beginning with the junior in rank.

(3) Before a vote is taken on the findings, the military judge or the president of a court-martial without a military judge shall, in the presence of the accused and counsel, instruct the members of the court as to the elements of the offense and charge them:

(a) That the accused must be presumed to be innocent until guilt is established by legal and competent evidence beyond reasonable doubt;

(b) That in the case being considered, if there is reasonable doubt as to the guilt of the accused, the doubt must be resolved in favor of the accused and the accused must be acquitted;

(c) That, if there is a reasonable doubt as to the degree of guilt, the finding must be in a lower degree to which there is no reasonable doubt; and

(d) That the burden of proof to establish the guilt of the accused beyond reasonable doubt is upon the state.

(4) Subsections (1), (2), and (3) of this section do not apply to a court-martial composed of a military judge only. The military judge of such a court-martial shall determine all questions of law and fact arising during the proceedings and, if the accused is convicted, adjudge an appropriate sentence. The military judge of such a court-martial shall make a general finding and shall in addition on request find the facts spe-
cally. If an opinion or memorandum of decision is filed, it will be sufficient if the findings of fact appear therein. [1989 c 48 § 48; 1963 c 220 § 53.]

38.38.432 [Art. 52] Number of votes required. (1) No person may be convicted of an offense, except as provided in RCW 38.38.404(2) or by the concurrence of two-thirds of the members present at the time the vote is taken.

(2) All sentences shall be determined by the concurrence of two-thirds of the members present at the time that the vote is taken.

(3) All other questions to be decided by the members of a general or special court-martial shall be determined by a majority vote, but a determination to reconsider a finding of guilty, or to reconsider a sentence with a view towards decreasing it, may be made by any lesser vote which indicates that the reconsideration is not opposed by the number of votes required for that finding or sentence. A tie vote on a challenge disqualifies the member challenged. A tie vote on any other question is a determination in favor of the accused. [1989 c 48 § 49; 1963 c 220 § 56.]

38.38.436 [Art. 53] Court to announce action. A court martial shall announce its findings and sentence to the parties as soon as determined. [1963 c 220 § 55.]

38.38.440 [Art. 54] Record of trial. (1) Each general court-martial shall keep a separate record of the proceedings in each case brought before it, and the record shall be authenticated by the signature of the military judge. If the record cannot be authenticated by the military judge by reason of death, disability, or absence, it shall be authenticated by the signature of the trial counsel or by that of a member if the trial counsel is unable to authenticate it by reason of death, disability, or absence. In a court-martial consisting of only a military judge, the record shall be authenticated by the court reporter under the same conditions which would impose such a duty on a member under this subsection.

(2) Each special and summary court-martial shall keep a separate record of the proceedings in each case, and the record shall be authenticated in the manner required by such regulations as the governor may prescribe.

(3)(a) A complete record of the proceedings and testimony shall be prepared:

(i) In each general court-martial case in which the sentence adjudged includes a dismissal, a discharge, or, if the sentence adjudged does not include a discharge, any other punishment which exceeds that which may otherwise be adjudged by a special court-martial; and

(ii) In each special court-martial case in which the sentence adjudged includes a dishonorable discharge.

(b) In all other court-martial cases, the record shall contain such matters as may be prescribed by regulations of the governor.

(4) A copy of the record of the proceedings of each general and special court-martial shall be given to the accused as soon as it is authenticated. [1989 c 48 § 50; 1963 c 220 § 56.]

PART VIII—SENTENCES

38.38.480 [Art. 55] Cruel and unusual punishments prohibited. Punishment by flogging, or by branding, marking or tattooing on the body, or any other cruel or unusual punishment, may not be adjudged by any court martial or inflicted upon any person subject to this code. The use of irons, single or double, except for the purpose of safe custody, is prohibited. [1963 c 220 § 57.]

38.38.484 [Art. 56] Maximum limits—Reduction in pay grade. (1) The punishment which a court-martial may direct for an offense may not exceed limits prescribed by this code.

(2) Unless otherwise provided in regulations to be prescribed by the governor, a court-martial sentence of an enlisted member in a pay grade above E-1, as approved by the convening authority, that includes a dishonorable discharge reduces that member to pay grade E-1, effective on the date of that approval.

(3) If the sentence of a member who is reduced in pay grade under subsection (2) of this section is set aside or disapproved, or, as finally approved, does not include any punishment named in subsection (2) of this section, the rights and privileges of which the member was deprived because of that reduction shall be restored and the member is entitled to the pay and allowances to which the member would have been entitled for the period the reduction was in effect, had he or she not been so reduced. [1989 c 48 § 51; 1963 c 220 § 58.]

38.38.488 [Art. 57] Effective date of sentences. (1) No forfeiture may extend to any pay or allowances accrued before the date on which the sentence is approved by the person acting under RCW 38.38.536.

(2) Any period of confinement included in a sentence of a court-martial begins to run from the date the sentence is ordered to be executed by the convening authority, but periods during which the sentence to confinement is suspended or deferred shall be excluded in computing the service of the term of confinement. Regulations prescribed by the governor may provide that sentences of confinement may not be executed until approved by designated officers.

(3) All other sentences of courts-martial are effective on the date ordered executed.

(4) On application by an accused who is under sentence to confinement that has not been ordered executed, the convening authority or, if the accused is no longer under his or her jurisdiction, the officer exercising general court-martial jurisdiction over the command to which the accused is currently assigned, may, in his or her sole discretion, defer service of the sentence to confinement. The deferment shall terminate when the sentence is ordered executed. The deferment may be rescinded at any time by the officer who granted it or, if the accused is no longer under his or her jurisdiction, by the officer exercising general court-martial jurisdiction over the command to which the accused is currently assigned. [1989 c 48 § 52; 1963 c 220 § 59.]

38.38.492 [Art. 58] Execution of confinement. (1) A sentence of confinement adjudged by a military court,
whether or not the sentence includes discharge or dismissal, and whether or not the discharge or dismissal has been executed, may be carried into execution by confinement in any place of confinement under the control of any of the forces of the organized militia or in any jail, penitentiary, or prison designated for that purpose. Persons so confined in a jail, penitentiary, or prison are subject to the same discipline and treatment as persons confined or committed to the jail, penitentiary, or prison by the courts of the state or of any political subdivision thereof.

(2) The omission of the words "hard labor" from any sentence or punishment of a court-martial adjudging confinement does not deprive the authority executing that sentence or punishment of the power to require hard labor as a part of the punishment.

(3) The keepers, officers, and wardens of city or county jails and of other jails, penitentiaries, or prisons designated by the governor, or by such person as the governor may authorize to act under RCW 38.38.080, shall receive persons ordered into confinement before trial and persons committed to confinement by a military court and shall confine them according to law. No such keeper, officer, or warden may require payment of any fee or charge for so receiving or confining a person. [1989 c 48 § 53; 1963 c 220 § 60.]

PART IX—REVIEW OF COURTS-MARTIAL

38.38.532 [Art. 59] Execution of sentence—Suspension of sentence. Except as provided in RCW 38.38.196 and 38.38.556, a court-martial sentence, unless suspended, may be ordered executed by the convening authority when approved by him or her. The convening authority shall approve the sentence or such part, amount, or commuted form of the sentence as he or she sees fit, and may suspend the execution of the sentence as approved by him or her. [1989 c 48 § 54; 1963 c 220 § 61.]

38.38.536 [Art. 60] Initial action on the record. After a trial by court martial the record shall be forwarded to the convening authority, as reviewing authority, and action thereon may be taken by the person who convened the court, a commissioned officer commanding for the time being, a successor in command, or by the governor. [1963 c 220 § 62.]

38.38.540 [Art. 61] Initial action on the record—General court-martial records. The convening authority shall refer the record of each general court-martial to the staff judge advocate, who shall submit a written opinion thereon to the convening authority. If the final action of the court has resulted in an acquittal of all charges and specifications, the opinion shall be limited to questions of jurisdiction. [1989 c 48 § 55; 1963 c 220 § 63.]

38.38.544 [Art. 62] Reconsideration and revision. (1) If a specification before a court martial has been dismissed on motion and the ruling does not amount to a finding of not guilty, the convening authority may return the record to the court for reconsideration of the ruling and any further appropriate action.

(2) Where there is an apparent error or omission in the record or where the record shows improper or inconsistent action by a court martial with respect to a finding or sentence which can be rectified without material prejudice to the substantial rights of the accused, the convening authority may return the record to the court for appropriate action. In no case, however, may the record be returned:

(a) For reconsideration of a finding of not guilty, or a ruling which amounts to a finding of not guilty;

(b) For reconsideration of a finding of not guilty of any charge, unless the record shows a finding of guilty under a specification or specifications which cannot be rectified without material prejudice to the substantial rights of the accused.

(3) All other special and summary court-martial records shall be sent to the judge advocate of the appropriate staff judge advocate of the state force concerned to be reviewed in the same manner as a record of trial by general court-martial. The record and the opinion of the staff judge advocate shall then be sent to the state judge advocate for review.

38.38.548 [Art. 63] Rehearings. (1) If the convening authority disapproves the findings and sentence of a court martial he may, except where there is lack of sufficient evidence in the record to support the findings, order a rehearing. In such a case he shall state the reasons for disapproval. If he disapproves the findings and sentence and does not order a rehearing, he shall dismiss the charges.

(2) Each rehearing shall take place before a court martial composed of members not members of the court martial which first heard the case. Upon a rehearing the accused may not be tried for any offense of which he was found not guilty by the first court martial, and no sentence in excess of or more severe than the original sentence may be imposed, unless the sentence is based upon a finding of guilty of an offense not considered upon the merits in the original proceedings, or unless the sentence prescribed for the offense is mandatory. [1963 c 220 § 65.]

38.38.552 [Art. 64] Approval by the convening authority. In acting on the findings and sentence of a court martial, the convening authority may approve only such findings of guilty, and the sentence or such part or amount of the sentence, as he finds correct in law and fact and as he in his discretion determines should be approved. The order of the commanding officer directing charges herein authorized is conclusive, except as provided in subsection (3) of this section, on any disbursing officer for the payment by the disbursing officer to the injured parties of the damages so assessed and approved.

(2) If the offenders cannot be ascertained, but the organization or detachment to which they belong is known, charges totaling the amount of damages assessed and approved may be paid to the injured parties from the money funds of the units of the organized militia to which the offenders belonged.

38.42.010 Definitions. The definitions in this section apply throughout this chapter.

(1) "Business loan" means a loan or extension of credit granted to a business entity that: (a) Is owned and operated by a service member, in which the service member is either (i) a sole proprietor, or (ii) the owner of at least fifty percent of the entity; and (b) experiences a material reduction in revenue due to the service member’s military service.

(2) "Dependent" means:
(a) The service member’s spouse;
(b) The service member’s minor child; or
(c) An individual for whom the service member provided more than one-half of the individual’s support for one hundred eighty days immediately preceding an application for relief under this chapter.

(3) "Financial institution" means an institution as defined in RCW 30.22.041.

(4) "Judgment" does not include temporary orders as issued by a judicial court or administrative tribunal in domestic relations cases under Title 26 RCW, including but not limited to establishment of a temporary child support obligation, creation of a temporary parenting plan, or entry of a temporary protective or restraining order.

(5) "Military service" means a service member under a call to active service authorized by the president of the United States or the secretary of defense for a period of more than thirty consecutive days.

(6) "National guard" has the meaning in RCW 38.04.010.

(7) "Service member" means any resident of Washington state that is a member of the national guard or member of a military reserve component. [2006 c 253 § 1; 2005 c 254 § 1.]

38.42.020 Applicability of chapter. (1) Any service member who is ordered to report for military service and his or her dependents are entitled to the rights and protections of this chapter during the period beginning on the date on which the service member receives the order and ending one hundred eighty days after termination of or release from military service.

(2) This chapter applies to any judicial or administrative proceeding commenced in any court or agency in Washington state in which a service member or his or her dependent is a defendant. This chapter does not apply to criminal proceedings.

(3) This chapter shall be construed liberally so as to provide fairness and do substantial justice to service members and their dependents. [2005 c 254 § 2.]

38.42.030 Protection of persons secondarily liable. (1) Whenever pursuant to this chapter a court stays, postpones, or suspends (a) the enforcement of an obligation or liability, (b) the prosecution of a suit or proceeding, (c) the entry or enforcement of an order, writ, judgment, or decree, or (d) the performance of any other act, the court may likewise grant such a stay, postponement, or suspension to a surety, guarantor, endorser, accommodation maker, comaker, or other person who is or may be primarily or secondarily subject to the obligation or liability the performance or enforcement of which is stayed, postponed, or suspended.

(2) When a judgment or decree is vacated or set aside, in whole or in part, pursuant to this chapter, the court may also set aside or vacate, as the case may be, the judgment or decree
as to a surety, guarantor, endorser, accommodation maker, comaker, or other person who is or may be primarily or secondarily liable on the contract or liability for the enforcement of the judgment decree. [2005 c 254 § 3.]

38.42.040 Waiver of rights pursuant to written agreement. (1) A service member may waive any of the rights and protections provided by this chapter. In the case of a waiver that permits an action described in subsection (2) of this section, the waiver is effective only if made pursuant to a written agreement of the parties that is executed during or after the service member’s period of military service. The written agreement shall specify the legal instrument to which the waiver applies and, if the service member is not party to that instrument, the service member concerned.

(2) The requirement in subsection (1) of this section for a written waiver applies to the following: (a) The modification, termination, or cancellation of a contract, lease, or bailment; or an obligation secured by a mortgage, trust, deed, lien, or other security in the nature of a mortgage; and (b) the repossession, retention, foreclosure, sale, forfeiture, or taking possession of property that is security for any obligation or was purchased or received under a contract, lease, or bailment. [2005 c 254 § 4.]

38.42.050 Protection of service members and their dependents against default judgments. (1) This section applies to any civil action or proceeding in which a service member or his or her dependent is a defendant and does not make an appearance under applicable court rules or by law.

(2) In any action or proceeding covered by this section, the court, before entering judgment for the plaintiff, shall require the plaintiff to file with the court an affidavit:

(a) Stating whether the defendant is in military service, or is a dependent of a service member in military service, and showing necessary facts to support the affidavit;

(b) If the plaintiff is unable to determine whether the defendant is in military service or is a dependent of a service member in military service, stating that the plaintiff is unable to determine whether the defendant is in military service or is a dependent of a service member in military service.

(3)(a) To determine whether or not a defendant is a dependent of a person in the military service under this chapter, the plaintiff may serve on or mail via first-class mail to the defendant a written notice in substantially the following form:

"NOTICE: State and federal law provide protections to defendants who are on active duty in the military service, and to their dependents. Dependents of a service member are the service member’s spouse, the service member’s minor child, or an individual for whom the service member provided more than one-half of the individual’s support for one hundred eighty days immediately preceding an application for relief.

One protection provided is the protection against the entry of a default judgment in certain circumstances. This notice only pertains to a defendant who is a dependent of a member of the national guard or a military reserve component under a call to active service for a period of more than thirty consecutive days. Other defendants in military service also have protections against default judgments not covered by this notice. If you are the dependent of a member of the national guard or a military reserve component under a call to active service for a period of more than thirty consecutive days, you should notify the plaintiff or the plaintiff’s attorneys in writing of your status as such within twenty days of the receipt of this notice. If you fail to do so, then a court or an administrative tribunal may presume that you are not a dependent of an active duty member of the national guard or reserves, and proceed with the entry of an order of default and/or a default judgment without further proof of your status. Your response to the plaintiff or plaintiff’s attorneys about your status does not constitute an appearance for jurisdictional purposes in any pending litigation nor a waiver of your rights."

(b) If the notice is either served on the defendant twenty or more days prior to an application for an order of default or a default judgment, or mailed to the defendant more than twenty-three days prior to such application, and the defendant fails to timely respond, then for purposes of entry of an order of default or default judgment, the court or administrative tribunal may presume that the defendant is not a dependent of a person in the military service under this chapter.

(c) Nothing prohibits the plaintiff from allowing a defendant more than twenty days to respond to the notice, or from amending the notice to so provide.

(4) If in an action covered by this section it appears that the defendant is in military service or is a dependent of a service member in military service, the court may not enter a judgment until after the court appoints an attorney to represent the defendant. If an attorney appointed under this section to represent a service member or his or her dependent cannot locate the service member or dependent, actions by the attorney in the case do not waive any defense of the service member or dependent or otherwise bind the service member or dependent.

(5) In an action covered by this section in which the defendant is in military service or is a dependent of a service member in military service, the court shall grant a stay of proceedings until one hundred eighty days after termination of or release from military service, upon application of defense counsel, or on the court’s own motion, if the court determines that:

(a) There may be a defense to the action and a defense cannot be presented without presence of the defendant; or

(b) After due diligence, counsel has been unable to contact the defendant or otherwise determine if a meritorious defense exists. The defendant’s failure to communicate or cooperate with counsel after having been contacted is not grounds to find that counsel has been unable to contact the defendant or that counsel has been unable to determine if a meritorious defense exists.

(6) No bar to entry of judgment under subsection (4) of this section or requirement for grant of stay under subsection (5) of this section precludes the entry of temporary orders in domestic relations cases. If a court or administrative tribunal enters a temporary order as allowed under this subsection, it shall include a finding that failure to act, despite the absence of the service member, would result in manifest injustice to the other interested parties. Temporary orders issued without
the service member’s participation shall not set any precedent for the final disposition of the matters addressed therein.

(7) If a service member or dependent who is a defendant in an action covered by this section receives actual notice of the action, the service member or dependent may request a stay of proceedings pursuant to RCW 38.42.060.

(8) A person who makes or uses an affidavit permitted under this section knowing it to be false, is guilty of a class C felony.

(9) If a default judgment is entered in an action covered by this section against a service member or his or her dependent during the service member’s period of military service or within one hundred eighty days after termination of or release from military service, the court entering the judgment shall, upon application by or on behalf of the service member or his or her dependent, reopen the judgment for the purpose of allowing the service member or his or her dependent to defend the action if it appears that:

(a) The service member or dependent was materially affected by reason of that military service in making a defense to the action; and

(b) The service member or dependent has a meritorious or legal defense to the action or some part of it.

[2006 c 80 § 1; 2005 c 254 § 5.]

### 38.42.060 Stay of proceedings when service member has notice.

(a)(i) Is in military service, or it is within one hundred eighty days after termination of or release from military service; or

(ii) Is a dependent of a service member in military service; and

(b) Has received actual notice of the action or proceeding.

(2) At any stage before final judgment in a civil action or proceeding in which a service member or his or her dependent described in subsection (1) of this section is a party, the court may, on its own motion and shall, upon application by the service member or his or her dependent, stay the action until one hundred eighty days after termination of or release from military service, if the conditions in subsection (3) of this section are met.

(3) An application for a stay under subsection (2) of this section shall include the following:

(a) A letter or other communication setting forth facts stating the manner in which current military duty requirements materially affect the service member’s or dependent’s ability to appear and stating a date when the service member or dependent will be available to appear; and

(b) A letter or other communication from the service member’s commanding officer stating that the service member’s current military duty prevents either the service member’s or dependent’s appearance and that military leave is not authorized for the service member at the time of the letter.

(4) An application for a stay under this section does not constitute an appearance for jurisdictional purposes and does not constitute a waiver of any substantive or procedural defense, including a defense relating to lack of personal jurisdiction.

(5) A service member or dependent who is granted a stay of a civil action or proceeding under subsection (2) of this section may apply for an additional stay based on the continuing material affect of military duty on the service member’s or dependent’s ability to appear. Such application may be made by the service member or his or her dependent at the time of the initial application under subsection (2) of this section or when it appears that the service member or his or her dependent is unable to prosecute or defend the action. The same information required under subsection (3) of this subsection shall be included in an application under this subsection.

(6) If the court refuses to grant an additional stay of proceedings under subsection (2) of this section, the court shall appoint counsel to represent the service member or his or her dependent in the action or proceeding.

(2) If a service member or his or her dependent fails to perform an obligation arising under a contract and a penalty is incurred arising from that nonperformance, a court may reduce or waive the fine or penalty if:

(a)(i) The service member was in military service at the time the fine or penalty was incurred; or

(ii) The action is against a dependent of the service member and the service member was in military service at the time the fine or penalty was incurred; and

(b) The ability of the service member or dependent to perform the obligation was materially affected by the military service. [2005 c 254 § 7.]

### 38.42.080 Codefendants.

If the service member or his or her dependent is a codefendant with others who are not in military service and who are not entitled to the relief and protections provided under this chapter, the plaintiff may proceed against those other defendants with the approval of the court. [2005 c 254 § 8.]

### 38.42.090 Computation of statutes of limitation.

The period of a service member’s military service may not be included in computing any period limited by law, rule, or order, for the bringing of any action or proceeding in a court, or in any board, bureau, commission, department, or other agency of a state, or political subdivision of a state, or the United States by or against the service member or the service member’s dependents, heirs, executors, administrators, or assigns.
(2) A period of military service may not be included in computing any period provided by law for the redemption of real property sold or forfeited to enforce an obligation, tax, or assessment.

(3) This section does not apply to any period of limitation prescribed by or under the internal revenue laws of the United States. [2005 c 254 § 9.]

38.42.100 Inappropriate use of chapter. If a court determines, in any proceeding to enforce a civil right, that any interest, property, or contract has been transferred or acquired with the intent to delay the just enforcement of such right by taking advantage of this chapter, the court shall enter such judgment or make such order as might lawfully be entered or made concerning such transfer or acquisition. [2005 c 254 § 10.]

38.42.110 Restructure of business loan interest rate. (1) Upon the request of a service member with a qualifying business loan, the financial institution must restructure the interest rate of the loan to the equivalent provisions in the federal servicemembers civil relief act (50 U.S.C. App. 501 et seq.). The service member must notify the institution at least five days prior to the beginning of military service and submit official documentation that substantiates their eligibility for the protections of this chapter.

(2) This section applies only to loans with an outstanding balance of less than one hundred thousand dollars at the time the service member is called to military service.

(3) This section applies only to business loans executed on or after January 1, 2007. [2006 c 253 § 2.]

Where necessary to implement chapter 521, Laws of 2009, gender-specific terms such as husband and wife used in any statute, rule, or other law shall be construed to be gender neutral, and applicable to individuals in state registered domestic partnerships. Findings—1999 c 24:

"The legislature finds that the citizens of the state increasingly rely on the dependability of enhanced 911, a system that allows the person answering an emergency call to determine the location of the emergency immediately without the caller needing to speak. The legislature further finds that the degree of accuracy of the displayed information must be adequate to permit rapid location of the caller while taking into consideration variables specific to local conditions. The legislature further finds that it is appropriate that rules permitting local fire agencies to evaluate and approve the accuracy of location information relating to their service areas be adopted." 39.04.135  Demolition projects—Recycling or reuse of materials.  Material from demolition projects shall be recycled or reused whenever practicable.  [1996 c 198 § 6.]  

39.04.155  Small works roster contract procedures—Limited public works process—Definition.  (1) This section provides uniform small works roster provisions to award contracts for construction, building, renovation, remodeling, alteration, repair, or improvement of real property that may be used by state agencies and by any local government that is expressly authorized to use these provisions.  These provisions may be used in lieu of other procedures to award contracts for such work with an estimated cost of three hundred thousand dollars or less.  The small works roster process includes the limited public works process authorized under subsection (3) of this section and any local government authorized to award contracts using the small works roster process under this section may award contracts using the limited public works process under subsection (3) of this section.  

(2)(a) A state agency or authorized local government may create a single general small works roster, or may create a small works roster for different specialties or categories of anticipated work.  Where applicable, small works rosters may make distinctions between contractors based upon different geographic areas served by the contractor.  The small works roster or rosters may require eligible contractors to be placed on a roster or rosters to keep current records of any applicable licenses, certifications, registrations, bonding, insurance, or other appropriate matters on file with the state agency or local government as a condition of being placed on a roster or rosters.  At least once a year, the state agency or local government shall publish in a newspaper of general circulation within the jurisdiction a notice of  

Additional notes found at www.leg.wa.gov
the existence of the roster or rosters and solicit the names of contractors for such roster or rosters. In addition, responsible contractors shall be added to an appropriate roster or rosters at any time they submit a written request and necessary records. Master contracts may be required to be signed that become effective when a specific award is made using a small works roster.

(b) A state agency establishing a small works roster or rosters shall adopt rules implementing this subsection. A local government establishing a small works roster or rosters shall adopt an ordinance or resolution implementing this subsection. Procedures included in rules adopted by the department of general administration in implementing this subsection must be included in any rules providing for a small works roster or rosters that is adopted by another state agency, if the authority for that state agency to engage in these activities has been delegated to it by the department of general administration under chapter 43.19 RCW. An inter-local contract or agreement between two or more state agencies or local governments establishing a small works roster or rosters to be used by the parties to the agreement or contract must clearly identify the lead entity that is responsible for implementing the provisions of this subsection.

(c) Procedures shall be established for securing telephone, written, or electronic quotations from contractors on the appropriate small works roster to assure that a competitive price is established and to award contracts to the lowest responsible bidder, as defined in RCW 39.04.010. Invitations for quotations shall include an estimate of the scope and nature of the work to be performed as well as materials and equipment to be furnished. However, detailed plans and specifications need not be included in the invitation. This subsection does not eliminate other requirements for architectural or engineering approvals as to quality and compliance with building codes. Quotations may be invited from all appropriate contractors on the appropriate small works roster. As an alternative, quotations may be invited from at least five contractors on the appropriate small works roster who have indicated the capability of performing the kind of work being contracted, in a manner that will equitably distribute the opportunity among the contractors on the appropriate roster. However, if the estimated cost of the work is from one hundred fifty thousand dollars to three hundred thousand dollars, a state agency or local government that chooses to solicit bids from less than all the appropriate contractors on the appropriate small works roster must also notify the remaining contractors on the appropriate small works roster that quotations on the work are being sought. The government has the sole option of determining whether this notice to the remaining contractors is made by: (i) Publishing notice in a legal newspaper in general circulation in the area where the work is to be done; (ii) mailing a notice to these contractors; or (iii) sending a notice to these contractors by facsimile or other electronic means. For purposes of this subsection (2)(c), "equitably distribute" means that a state agency or local government soliciting bids may not favor certain contractors on the appropriate small works roster over other contractors on the appropriate small works roster who perform similar services.

(d) A contract awarded from a small works roster under this section need not be advertised.

(e) Immediately after an award is made, the bid quotations obtained shall be recorded, open to public inspection, and available by telephone inquiry.

(3) In lieu of awarding contracts under subsection (2) of this section, a state agency or authorized local government may award a contract for work, construction, alteration, repair, or improvement projects estimated to cost less than thirty-five thousand dollars using the limited public works process provided under this subsection. Public works projects awarded under this subsection are exempt from the other requirements of the small works roster process provided under subsection (2) of this section and are exempt from the requirement that contracts be awarded after advertisement as provided under RCW 39.04.010.

For limited public works projects, a state agency or authorized local government shall solicit electronic or written quotations from a minimum of three contractors from the appropriate small works roster and shall award the contract to the lowest responsible bidder as defined under RCW 39.04.010. After an award is made, the quotations shall be open to public inspection and available by electronic request. A state agency or authorized local government shall attempt to distribute opportunities for limited public works projects equitably among contractors willing to perform in the geographic area of the work. A state agency or authorized local government shall maintain a list of the contractors contacted and the contracts awarded during the previous twenty-four months under the limited public works process, including the name of the contractor, the contractor’s registration number, the amount of the contract, a brief description of the type of work performed, and the date the contract was awarded. For limited public works projects, a state agency or authorized local government may waive the payment and performance bond requirements of chapter 39.08 RCW and the retainage requirements of chapter 60.28 RCW, thereby assuming the responsibility for the contractor’s nonpayment of laborers, mechanics, subcontractors, materialpersons, suppliers, and taxes imposed under Title 82 RCW that may be due from the contractor for the limited public works project, however the state agency or authorized local government shall have the right of recovery against the contractor for any payments made on the contractor’s behalf.

(4) The breaking of any project into units or accomplishing any projects by phases is prohibited if it is done for the purpose of avoiding the maximum dollar amount of a contract that may be let using the small works roster process or limited public works process.

(5) A state agency or authorized local government may use the limited public works process of subsection (3) of this section to solicit and award small works roster contracts to small businesses that are registered contractors with gross revenues under one million dollars annually as reported on their federal tax return.

(b) A state agency or authorized local government may adopt additional procedures to encourage small businesses that are registered contractors with gross revenues under two hundred fifty thousand dollars annually as reported on their federal tax returns to submit quotations or bids on small works roster contracts.

(6) As used in this section, "state agency" means the department of general administration, the state parks and rec-
ration commission, the department of natural resources, the
department of fish and wildlife, the department of transportation,
an institution of higher education as defined under
RCW 28B.10.016, and any other state agency delegated

39.04.180 Trench excavations—Safety systems
required. On public works projects in which trench excava-
tion will exceed a depth of four feet, any contract therefor
shall require adequate safety systems for the trench excava-
tion that meet the requirements of the Washington industrial
safety and health act, chapter 49.17 RCW. This requirement
shall be included in the cost estimates and bidding forms as a
separate item. The costs of trench safety systems shall not be
considered as incidental to any other contract item and any
attempt to include the trench safety systems as an incidental
cost is prohibited. [1988 c 180 § 1.]

39.04.190 Purchase contract process—Other than
formal sealed bidding. (1) This section provides a uniform
process to award contracts for the purchase of any materials,
equipment, supplies, or services by those municipalities that
are authorized to use this process in lieu of the requirements
for formal sealed bidding. The state statutes governing a spe-
cific type of municipality shall establish the maximum dollar
thresholds of the contracts that can be awarded under this
process, and may include other matters concerning the
awarding of contracts for purchases, for the municipality.
(2) At least twice per year, the municipality shall publish
in a newspaper of general circulation within the jurisdiction a
notice of the existence of vendor lists and solicit the names of
vendors for the lists. Municipalities shall by resolution estab-
lish a procedure for securing telephone or written quotations,
or both, from at least three different vendors whenever possible
to assure that a competitive price is established and for
awarding the contracts for the purchase of any materials,
equipment, supplies, or services to the lowest responsible
bidder as defined in RCW 43.19.1911. Immediately after the
award is made, the bid quotations obtained shall be recorded,
open to public inspection, and shall be available by telephone
inquiry. A contract awarded pursuant to this section need not
be advertised. [1993 c 198 § 2; 1991 c 363 § 110.]

Purpose—Captions not law—1991 c 363: See notes following RCW 2.32.180.

39.04.200 Small works roster or purchase con-
tracts—Listing of contracts awarded required. Any local
government using the uniform process established in RCW
39.04.190 to award contracts for purchases must post a list of
the contracts awarded under that process at least once every
two months. Any state agency or local government using the
small works roster process established in RCW 39.04.155 to
award contracts for construction, building, renovation,
remodeling, alteration, repair, or improvement of real prop-
erty must make available a list of the contracts awarded under
that process at least once every year. The list shall contain the
name of the contractor or vendor awarded the contract, the
amount of the contract, a brief description of the type of work
performed or items purchased under the contract, and the date it was awarded. The list shall also state the location where the bid quotations for these contracts are available for public inspection. [2000 c 138 § 103; 1993 c 198 § 3; 1991 c 363 § 111.]

39.04.210 Correctional facilities construction and repair—Findings. The legislature recognizes that fair and open competition is a basic tenet of public works procurement, that such competition reduces the appearance of and opportunity for favoritism and inspires public confidence that contracts are awarded equitably and economically, and that effective monitoring mechanisms are important means of curbing any improprieties and establishing public confidence in the process by which contractual services are procured. The legislature finds that there will continue to exist a need for additional correctional facilities due to the inadequate capacity of existing correctional facilities to accommodate the predicted growth of offender populations and that it is necessary to provide public works contract options for the effective construction and repair of additional department of corrections facilities. [1994 c 80 § 1; 1991 c 130 § 1.]

39.04.220 Correctional facilities construction and repair—Use of general contractor/construction manager method for awarding contracts—Demonstration projects. (1) In addition to currently authorized methods of public works contracting, and in lieu of the requirements of RCW 39.04.010 and 39.04.020 through 39.04.060, capital projects funded for over ten million dollars authorized by the legislature for the department of corrections to construct or repair facilities may be accomplished under contract using the general contractor/construction manager method described in this section. In addition, the general contractor/construction manager method may be used for up to two demonstration projects under ten million dollars for the department of corrections. Each demonstration project shall aggregate capital projects authorized by the legislature at a single site to total no less than three million dollars with the approval of the office of financial management. The department of general administration shall present its plan for the aggregation of projects under each demonstration project to the oversight advisory committee established under subsection (2) of this section prior to soliciting proposals for general contractor/construction manager services for the demonstration project.

(2) For the purposes of this section, "general contractor/construction manager" means a firm with which the department of general administration has selected and negotiated a maximum allowable construction cost to be guaranteed by the firm, after competitive selection through a formal advertisement, and competitive bids to provide services during the design phase that may include life-cycle cost design considerations, value engineering, scheduling, cost estimating, constructability, alternative construction options for cost savings, and sequencing of work, and to act as the construction manager and general contractor during the construction phase. The department of general administration shall establish an independent oversight advisory committee with representatives of interest groups with an interest in this subject area, the department of corrections, and the private sector, to review selection and contracting procedures and contracting documents. The oversight advisory committee shall discuss and review the progress of the demonstration projects. The general contractor/construction manager method is limited to projects authorized on or before July 1, 1997.

(3) Contracts for the services of a general contractor/construction manager awarded under the authority of this section shall be awarded through a competitive process requiring the public solicitation of proposals for general contractor/construction manager services. Minority and women enterprise total project goals shall be specified in the bid instructions to the general contractor/construction manager finalists. The director of general administration is authorized to include an incentive clause in any contract awarded under this section for savings of either time or cost or both from that originally negotiated. No incentives granted shall exceed five percent of the maximum allowable construction cost. The director of general administration or his or her designee shall establish a committee to evaluate the proposals considering such factors as: Ability of professional personnel; past performance in negotiated and complex projects; ability to meet time and budget requirements; location; recent, current, and projected work loads of the firm; and the concept of their proposal. After the committee has selected the most qualified finalists, these finalists shall submit sealed bids for the percent fee, which is the percentage amount to be earned by the general contractor/construction manager as overhead and profit, on the estimated maximum allowable construction cost and the fixed amount for the detailed specified general conditions work. The maximum allowable construction cost may be negotiated between the department of general administration and the selected firm after the scope of the project is adequately determined to establish a guaranteed contract cost for which the general contractor/construction manager will provide a performance and payment bond. The guaranteed contract cost includes the fixed amount for the detailed specified general conditions work, the negotiated maximum allowable construction cost, the percent fee on the negotiated maximum allowable construction cost, and sales tax. If the department of general administration is unable to negotiate a satisfactory maximum allowable construction cost with the firm selected that the department of general administration determines to be fair, reasonable, and within the available funds, negotiations with that firm shall be formally terminated and the department of general administration shall negotiate with the next low bidder and continue until an agreement is reached or the process is terminated. If the maximum allowable construction cost varies more than fifteen percent from the bid estimated maximum allowable construction cost due to requested and approved changes in the scope by the state, the percent fee shall be renegotiated. All subcontract work shall be competitively bid with public bid openings. Specific contract requirements for women and minority enterprise participation shall be specified in each subcontract bid package that exceeds ten percent of the department’s estimated project cost. All subcontractors who bid work over two hundred

(2010 Ed.)
thousand dollars shall post a bid bond and the awarded subcontractor shall provide a performance and payment bond for their contract amount if required by the general contractor/construction manager. A low bidder who claims error and fails to enter into a contract is prohibited from bidding on the same project if a second or subsequent call for bids is made for the project. Bidding on subcontract work by the general contractor/construction manager or its subsidiaries is prohibited. The general contractor/construction manager may negotiate with the low-responsive bidder only in accordance with RCW 39.04.015 or, if unsuccessful in such negotiations, rebid.

(4) If the project is completed for less than the agreed upon maximum allowable construction cost, any savings not otherwise negotiated as part of an incentive clause shall accrue to the state. If the project is completed for more than the agreed upon maximum allowable construction cost, excepting increases due to any contract change orders approved by the state, the additional cost shall be the responsibility of the general contractor/construction manager.

(5) The powers and authority conferred by this section shall be construed as in addition and supplemental to powers or authority conferred by any other law, and nothing contained in this section may be construed as limiting any other powers or authority of the department of general administration. However, all actions taken pursuant to the powers and authority granted to the director or the department of general administration under this section may only be taken with the concurrence of the department of corrections. [1996 c 18 § 5; 1994 c 80 § 2; 1991 c 130 § 2.]

39.04.240 Public works contracts—Awarding of attorneys’ fees. (1) The provisions of RCW 4.84.250 through 4.84.280 shall apply to an action arising out of a public works contract in which the state or a municipality, or other public body that contracts for public works, is a party, except that: (a) The maximum dollar limitation in RCW 4.84.250 shall not apply; and (b) in applying RCW 4.84.280, the time period for serving offers of settlement on the adverse party shall be the period not less than thirty days and not more than one hundred twenty days after completion of the service and filing of the summons and complaint.

(2) The rights provided for under this section may not be waived by the parties to a public works contract that is entered into on or after June 11, 1992, and a provision in such a contract that provides for waiver of these rights is void as against public policy. However, this subsection shall not be construed as prohibiting the parties from mutually agreeing to a clause in a public works contract that requires submission of a dispute arising under the contract to arbitration. [1999 c 107 § 1; 1992 c 171 § 1.]

39.04.250 Payments received on account of work performed by subcontractor—Disputed amounts—Remedies. (1) When payment is received by a contractor or subcontractor for work performed on a public work, the contractor or subcontractor shall pay to any subcontractor not later than ten days after the receipt of the payment, amounts allowed the contractor on account of the work performed by the subcontractor, to the extent of each subcontractor’s interest therein.

(2) In the event of a good faith dispute over all or any portion of the amount due on a payment from the state or a municipality to the prime contractor, or from the prime contractor or subcontractor to a subcontractor, then the state or the municipality, or the prime contractor or subcontractor, may withhold no more than one hundred fifty percent of the disputed amount. Those not a party to a dispute are entitled to full and prompt payment of their portion of a draw, progress payment, final payment, or released retainage.

(3) In addition to all other remedies, any person from whom funds have been withheld in violation of this section shall be entitled to receive from the person wrongfully withholding the funds, for every month and portion thereof that payment including retainage is not made, interest at the highest rate allowed under RCW 19.52.025. In any action for the collection of funds wrongfully withheld, the prevailing party shall be entitled to costs of suit and reasonable attorneys’ fees. [1992 c 223 § 5.]

39.04.260 Private construction performed pursuant to contract for rental, lease, or purchase by state—Must comply with prevailing wage law. Any work, construction, alteration, repair, or improvement, other than ordinary maintenance, that the state or a municipality causes to be performed by a private party through a contract to rent, lease, or purchase at least fifty percent of the project by one or more state agencies or municipalities shall comply with chapter 39.12 RCW. [1993 c 110 § 1.]

39.04.270 Electronic data processing and telecommunications systems—Municipalities—Acquisition method—Competitive negotiation—Findings, intent. (1) The legislature finds that the unique aspects of electronic data processing and telecommunications systems and the importance of these systems for effective administration warrant separate acquisition authority for electronic data processing and telecommunications systems. It is the intent of the legislature that municipalities utilize an acquisition method for electronic data processing and telecommunications systems that is both competitive and compatible with the needs of the municipalities.

(2) A municipality may acquire electronic data processing or telecommunication equipment, software, or services through competitive negotiation rather than through competitive bidding.
39.04.280  Competitive bidding requirements—Exemptions. This section provides uniform exemptions to competitive bidding requirements utilized by municipalities when awarding contracts for public works and contracts for purchases. The statutes governing a specific type of municipality may also include other exemptions from competitive bidding requirements. The purpose of this section is to supplement and not to limit the current powers of any municipality to provide exemptions from competitive bidding requirements.

1. Competitive bidding requirements may be waived by the governing body of the municipality for:
   a. Purchases that are clearly and legitimately limited to a single source of supply;
   b. Purchases involving special facilities or market conditions;
   c. Purchases in the event of an emergency;
   d. Purchases of insurance or bonds; and
   e. Public works in the event of an emergency.

2. The waiver of competitive bidding requirements under subsection (1) of this section may be by resolution or by the terms of written policies adopted by the municipality, at the option of the governing body of the municipality. If the governing body elects to waive competitive bidding requirements by the terms of written policies adopted by the municipality, immediately after the award of any contract, the contract and the factual basis for the exception must be recorded and open to public inspection.

If a resolution is adopted by a governing body to waive competitive bidding requirements under (b) of this subsection, the resolution must recite the factual basis for the exception. This subsection (2)(a) does not apply in the event of an emergency.

(b) If an emergency exists, the person or persons designated by the governing body of the municipality to act in the event of an emergency may declare an emergency situation exists, waive competitive bidding requirements, and award all necessary contracts on behalf of the municipality to address the emergency situation. If a contract is awarded without competitive bidding due to an emergency, a written finding of the existence of an emergency must be made by the governing body or its designee and duly entered of record no later than two weeks following the award of the contract.

3. For purposes of this section "emergency" means unforeseen circumstances beyond the control of the municipality that either: (a) Present a real, immediate threat to the proper performance of essential functions; or (b) will likely result in material loss or damage to property, bodily injury, or loss of life if immediate action is not taken. [1998 c 278 § 1.]

39.04.290  Contracts for building engineering systems. (1) A state agency or local government may award contracts of any value for the design, fabrication, and installation of building engineering systems by:

a. Using a competitive bidding process or request for proposals process where bidders are required to provide final specifications and a bid price for the design, fabrication, and installation of building engineering systems, with the specifications being approved by an appropriate design, engineering, and/or public regulatory body; or

b. Using a competitive bidding process where bidders are required to provide final specifications for the design, fabrication, and installation of building engineering systems as part of a larger project with the final specifications for the building engineering systems portion of the project being approved by an appropriate design, engineering, and/or public regulatory body.

The provisions of chapter 39.80 RCW do not apply to the design of building engineering systems that are included as part of a contract described under this section.

2. The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

a. "Building engineering systems" means those systems where contracts for the systems customarily have been awarded with a requirement that the contractor provide final approved specifications, including fire alarm systems, building sprinkler systems, pneumatic tube systems, extensions of heating, ventilation, or air conditioning control systems, chlorination and chemical feed systems, emergency generator systems, building signage systems, pile foundations, and curtain wall systems.

b. "Local government" means any county, city, town, school district, or other special district, municipal corporation, or quasi-municipal corporation.

c. "State agency" means the department of general administration, the state parks and recreation commission, the department of fish and wildlife, the department of natural resources, any institution of higher education as defined under RCW 28B.10.016, and any other state agency delegated authority by the department of general administration to engage in building, renovation, remodeling, alteration, improvement, or repair activities. [2001 c 34 § 1.]

39.04.300  Apprenticeship training programs—Purpose. A well-trained construction trades workforce is critical to the ability of the state of Washington to construct public works. Studies of the state’s workforce highlight population trends that, without a concerted effort to offset them, will lead to an inadequate supply of skilled workers in the construction
industry. State government regularly constructs public works. The efficient and economical construction of public works projects will be harmed if there is not an ample supply of trained construction workers. Apprenticeship training programs are particularly effective in providing training and experience to individuals seeking to enter or advance in the workforce. By providing for apprenticeship utilization on public works projects, state government can create opportunities for training and experience that will help assure that a trained workforce will be available, including returning veterans, in sufficient numbers in the future for the construction of public works. Furthermore, the state of Washington hereby establishes its intent to assist returning veterans through programs such as the "helmets to hardhats" program, which is administered by the center for military recruitment, assessment, and veterans employment. It is the state’s intent to assist returning veterans with apprenticeship placement career opportunities, in order to expedite the transition from military service to the construction workforce. [2006 c 321 § 1; 2005 c 3 § 1]

Effective date—2005 c 3: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately [February 24, 2005]." [2005 c 3 § 5.]

39.04.310 Apprenticeship training programs—Definitions. The definitions in this section apply throughout this section and RCW 39.04.300 and 39.04.320 unless the context clearly requires otherwise.

(1) "Apprentice" means an apprentice enrolled in a state-approved apprenticeship training program.

(2) "Apprentice utilization requirement" means the requirement that the appropriate percentage of labor hours be performed by apprentices.

(3) "Labor hours" means the total hours of workers receiving an hourly wage who are directly employed on the site of the public works project. "Labor hours" includes hours performed by workers employed by the contractor and all subcontractors working on the project. "Labor hours" does not include hours worked by foremen, superintendents, owners, and workers who are not subject to prevailing wage requirements.

(4) "School district" has the same meaning as in RCW 28A.315.025.

(5) "State-approved apprenticeship training program" means an apprenticeship training program approved by the Washington state apprenticeship council. [2007 c 437 § 1; 2005 c 3 § 2.]

Effective date—2005 c 3: See note following RCW 39.04.300.

39.04.320 Apprenticeship training programs—Public works contracts—Adjustment of specific projects—Report and collection of agency data—Apprenticeship utilization advisory committee created. (1)(a) Except as provided in (b) through (d) of this subsection, from January 1, 2005, and thereafter, for all public works estimated to cost one million dollars or more, all specifications shall require that no less than fifteen percent of the labor hours be performed by apprentices.

(b)(i) This section does not apply to contracts advertised for bid before July 1, 2007, for any public works by the department of transportation.

(ii) For contracts advertised for bid on or after July 1, 2007, and before July 1, 2008, for all public works by the department of transportation estimated to cost five million dollars or more, all specifications shall require that no less than ten percent of the labor hours be performed by apprentices.

(iii) For contracts advertised for bid on or after July 1, 2008, and before July 1, 2009, for all public works by the department of transportation estimated to cost three million dollars or more, all specifications shall require that no less than twelve percent of the labor hours be performed by apprentices.

(iv) For contracts advertised for bid on or after July 1, 2009, for all public works by the department of transportation estimated to cost two million dollars or more, all specifications shall require that no less than fifteen percent of the labor hours be performed by apprentices.

(c)(i) This section does not apply to contracts advertised for bid before January 1, 2008, for any public works by a school district, or to any project funded in whole or in part by bond issues approved before July 1, 2007.

(ii) For contracts advertised for bid on or after January 1, 2008, for all public works by a school district estimated to cost three million dollars or more, all specifications shall require that no less than ten percent of the labor hours be performed by apprentices.

(iv) For contracts advertised for bid on or after January 1, 2010, for all public works by a school district estimated to cost one million dollars or more, all specifications shall require that no less than fifteen percent of the labor hours be performed by apprentices.

(d)(i) For contracts advertised for bid on or after January 1, 2010, for all public works by a four-year institution of higher education estimated to cost three million dollars or more, all specifications must require that no less than ten percent of the labor hours be performed by apprentices.

2(2) Awarding entities may adjust the requirements of this section for a specific project for the following reasons:

(a) The demonstrated lack of availability of apprentices in specific geographic areas;

(b) A disproportionately high ratio of material costs to labor hours, which does not make feasible the required minimum levels of apprentice participation;
(c) Participating contractors have demonstrated a good faith effort to comply with the requirements of RCW 39.04.300 and 39.04.310 and this section; or

(d) Other criteria the awarding entity deems appropriate, which are subject to review by the office of the governor.

(3) The secretary of the department of transportation shall adjust the requirements of this section for a specific project for the following reasons:

(a) The demonstrated lack of availability of apprentices in specific geographic areas; or

(b) A disproportionately high ratio of material costs to labor hours, which does not make feasible the required minimum levels of apprentice participation.

(4) This section applies to public works contracts awarded by the state, to public works contracts awarded by school districts, and to public works contracts awarded by state four-year institutions of higher education. However, this section does not apply to contracts awarded by state agencies headed by a separately elected public official.

(5)(a) The department of general administration must provide information and technical assistance to affected agencies and collect the following data from affected agencies for each project covered by this section:

(i) The name of each apprentice and apprentice registration number;

(ii) The name of each project;

(iii) The dollar value of each project;

Rules shall address due process protections for all parties and shall strengthen the accountability for apprenticeship committees approved under chapter 49.04 RCW in enforcing the apprenticeship program standards adopted by the council." [2009 c 197 § 4.]

Effective date—2005 c 3: See note following RCW 39.04.300.

[2006 c 321 § 3.]

39.04.350 Bidder responsibility criteria—Supplemental criteria. (1) Before award of a public works contract, a bidder must meet the following responsibility criteria to be considered a responsible bidder and qualified to be awarded a public works project. The bidder must:

(a) At the time of bid submittal, have a certificate of registration in compliance with chapter 18.27 RCW;

(b) Have a current state unified business identifier number;

(c) If applicable, have industrial insurance coverage for the bidder’s employees working in Washington as required in Title 51 RCW; an employment security department number as required in Title 50 RCW; and a state excise tax registration number as required in Title 82 RCW;

(d) Not be disqualified from bidding on any public works contract under RCW 39.06.010 or 39.12.065(3);

(e) If bidding on a public works project subject to the apprenticeship utilization requirements in RCW 39.04.320, not have been found out of compliance by the Washington state apprenticeship and training council for working apprentices out of ratio, without appropriate supervision, or outside their approved work processes as outlined in their standards of apprenticeship under chapter 49.04 RCW for the one-year period immediately preceding the date of the bid solicitation; and

(f) Until December 31, 2013, not have violated RCW 39.04.370 more than one time as determined by the department of labor and industries.

(2) In addition to the bidder responsibility criteria in subsection (1) of this section, the state or municipality may adopt
relevant supplemental criteria for determining bidder responsibility applicable to a particular project which the bidder must meet.

(a) Supplemental criteria for determining bidder responsibility, including the basis for evaluation and the deadline for providing a determination that a bidder is not responsible, must be provided in the invitation to bid or bidding documents.

(b) In a timely manner before the bid submittal deadline, a potential bidder may request that the state or municipality modify the supplemental criteria. The state or municipality must evaluate the information submitted by the potential bidder and respond before the bid submittal deadline. If the evaluation results in a change of the criteria, the state or municipality must issue an addendum to the bidding documents identifying the new criteria.

(c) If the bidder fails to supply information requested concerning responsibility within the time and manner specified in the bid documents, the state or municipality may base its determination of responsibility upon any available information related to the supplemental criteria or may find the bidder not responsible.

(d) If the state or municipality determines a bidder to be not responsible, the state or municipality must provide, in writing, the reasons for the determination. The bidder may appeal the determination within the time period specified in the bidding documents by presenting additional information to the state or municipality. The state or municipality must consider the additional information before issuing its final determination. The guidelines must be posted on the board’s web site. [2010 c 276 § 2; 2009 c 197 § 2; 2007 c 133 § 2.]

If the state or municipality does not issue such a change order within the thirty days, interest must accrue on the dollar amount of the additional work satisfactorily completed and not in dispute until a change order is issued. The state or municipality shall pay this interest at a rate of one percent per month. For the purposes of this section, additional work is work beyond the scope defined in the contract between the contractor and the state or municipality. [2009 c 193 § 1.]

39.04.370 Contract requirements—Off-site prefabricated items—Submission of information. (1) For any public work estimated to cost over one million dollars, the contract must contain a provision requiring the submission of certain information about off-site, prefabricated, nonstandard, project specific items produced under the terms of the contract and produced outside Washington. The information must be submitted to the department of labor and industries under subsection (2) of this section. The information that must be provided is:

(c) The department of general administration shall develop standard contract language to meet the requirements of subsection (1) of this section and make the language available on its web site.

(d) Failure to submit the information required in subsection (1) of this section as part of the affidavit of wages paid form does not constitute a violation of RCW 39.12.050.

(3) For the purposes of this section, "off-site, prefabricated, nonstandard, project specific items" means products or items that are: (a) Made primarily of architectural or structural precast concrete, fabricated steel, pipe and pipe systems, or sheet metal and sheet metal duct work; (b) produced specifically for the public works project and not considered to be regularly available shelf items; (c) produced or manufactured by labor expended to assemble or modify standard items; and (d) produced at an off-site location.

(4) The department of labor and industries shall transmit information collected under this section to the capital projects advisory review board created in RCW 39.10.220 for review.

(5) This section applies to contracts entered into between September 1, 2010, and December 31, 2013.

(6) This section does not apply to department of transportation public works projects.

(7) This section does not apply to local transportation public works projects. [2010 c 276 § 1.]

(2) Under the job order contracting procedure described in RCW 39.10.420, bonds will be in an amount not less than the dollar value of all open work orders.

The department shall fix the amount of the performance bond on a contract-by-contract basis to adequately protect one hundred percent of the state’s exposure to loss. The amount of the performance bond must not be less than two hundred fifty million dollars. The payment bond must be in an amount fixed by the department but must not be less than the amount of the performance bond. The secretary of transportation must approve each performance bond and payment bond authorized to be less than the full contract price of a project. Before the secretary may approve any bond authorized to be less than the full contract price of a project, the office of financial management shall review and approve the analysis supporting the amount of the bond set by the department to ensure that one hundred percent of the state’s exposure to loss is adequately protected. The payment bond is solely for the protection of laborers, mechanics, subcontractors, and suppliers mentioned in RCW 39.08.010.

(b) The department shall develop risk assessment guidelines and gain approval of these guidelines from the office of financial management before implementing (a) of this subsection. Reviser’s note—Sunset Act application: The alternative public works contracting procedures are subject to review, termination, and possible extension under chapter 43.131 RCW, the Sunset Act. See RCW 43.131.407. RCW 39.10.200 through 39.10.903 are scheduled for future repeal under RCW 43.131.408.

39.10.200  Finding—Purpose—Intent.  The legislature finds that the traditional process of awarding public works contracts in lump sum to the lowest responsible bidder is a fair and objective method of selecting a contractor. However, under certain circumstances, alternative public works contracting procedures may best serve the public interest if such procedures are implemented in an open and fair process based on objective and equitable criteria. The purpose of this chapter is to authorize the use of certain supplemental alternative public works contracting procedures, to prescribe appropriate requirements to ensure that such contracting procedures serve the public interest, and to establish a process for evaluation of such contracting procedures. It is the intent of the legislature to establish that, unless otherwise specifically provided for in law, public bodies may use only those alternative public works contracting procedures specifically authorized in this chapter, subject to the requirements of this chapter. [2010 1st sp.s. c 21 § 2; 2007 c 494 § 1; 1994 c 132 § 1. Formerly RCW 39.10.010.]

Sunset Act application: See note following chapter digest.

Intent—2010 1st sp.s. c 21: "The establishment of alternative public works contracting procedures authorized for use by public bodies has been a complex, controversial, and challenging undertaking, but it has been successful. The key to the successful adoption and consideration of these procedures has depended, in great part, on the review and oversight mechanisms put in place by the legislature in chapter 39.10 RCW, as well as the countless hours of dedicated work by numerous stakeholders over many years. It is the intent of the legislature to clarify that, unless otherwise specifically provided for in law, public bodies that want to use an alternative public works contracting procedure may use only those procedures specifically authorized in chapter 39.10 RCW." [2010 1st sp.s. c 21 § 1.]

39.10.210  Definitions.  Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

39.10.250  Project review committee—Duties. The committee shall:

1) Certify, or recertify, public bodies for a period of three years to use the design-build or general contractor/construction manager, or both, contracting procedures for projects with a total project cost of ten million dollars or more;

2) Review and approve the use of the design-build or general contractor/construction manager contracting procedures on a project by project basis for public bodies that are certified and non-certified public bodies. In June 2010, the committee shall report to the board regarding the committee’s review procedure of these projects and its recommendations for further use; and

3) Review and approve the use of the general contractor/construction manager contracting procedure by certified public bodies for projects with a total project cost under ten million dollars;

4) Review and approve not more than ten projects using the design-build contracting procedure by certified and non-certified public bodies for projects that have a total project cost between two million and ten million dollars. Projects must meet the criteria in RCW 39.10.300(1). Where possible, the committee shall approve projects among multiple public bodies. In June 2010, the committee shall report to the board regarding the committee’s review procedure of these projects and its recommendations for further use; and

5) Review and approve not more than two demonstration projects that include procurement of operations and maintenance services for a period longer than three years. [2009 c 75 § 2; 2007 c 494 § 105.]

Sunset Act application: See note following chapter digest.
39.10.260 Project review committee—Meetings—Open and public. (1) The committee shall hold regular public meetings to carry out its duties as described in RCW 39.10.250. Committee meetings are subject to chapter 42.30 RCW.

(2) The committee shall publish notice of its public meetings at least twenty days before the meeting in a legal newspaper circulated in the area where the public body seeking certification is located, or where each of the proposed projects under consideration will be constructed. All meeting notices must be posted on the committee’s web site.

(3) The meeting notice must identify the public body that is seeking certification or project approval, and where applicable, a description of projects to be considered at the meeting. The notice must indicate when, where, and how the public may present comments regarding the committee’s certification of a public body or approval of a project. Information submitted by a public body to be reviewed at the meeting shall be available on the committee’s web site at the time the notice is published.

(4) The committee must allow for public comment on the appropriateness of certification of a public body or on the appropriateness of the use of the proposed contracting procedure and the qualifications of a public body to use the contracting procedure. The committee shall receive and record both written and oral comments at the public hearing. [2007 c 494 § 106.]

Sunset Act application: See note following chapter digest.

39.10.270 Project review committee—Certification of public bodies. (1) A public body may apply for certification to use the design-build or general contractor/construction manager contracting procedure, or both. Once certified, a public body may use the contracting procedure for which it is certified on individual projects with a total project cost over ten million dollars without seeking committee approval. The certification period is three years. A public body seeking certification must submit to the committee an application in a format and manner as prescribed by the committee. The application must include a description of the public body’s qualifications, its capital plan during the certification period, and its intended use of alternative contracting procedures.

(2) A public body seeking certification for the design-build procedure must demonstrate successful management of at least one design-build project within the previous five years. A public body seeking certification for the general contractor/construction manager procedure must demonstrate successful management of at least one general contractor/construction manager project within the previous five years.

(3) To certify a public body, the committee shall determine that the public body:

(a) Has the necessary experience and qualifications to determine which projects are appropriate for using alternative contracting procedures;

(b) Has the necessary experience and qualifications to carry out the alternative contracting procedure including, but not limited to: (i) Project delivery knowledge and experience; (ii) personnel with appropriate construction experience; (iii) a management plan and rationale for its alternative public works projects; (iv) demonstrated success in managing public works projects; (v) the ability to properly manage its capital facilities plan including, but not limited to, appropriate project planning and budgeting experience; and (vi) the ability to meet requirements of this chapter; and

(c) Has resolved any audit findings on previous public works projects in a manner satisfactory to the committee.

(4) The committee shall, if practicable, make its determination at the public meeting during which an application for certification is reviewed. Public comments must be considered before a determination is made. Within ten business days of the public meeting, the committee shall provide a written determination to the public body, and make its determination available to the public on the committee’s web site.

(5) The committee may revoke any public body’s certification upon a finding, after a public hearing, that its use of design-build or general contractor/construction manager contracting procedures no longer serves the public interest.

(6) The committee may renew the certification of a public body for one additional three-year period. The public body must submit an application for recertification at least three months before the initial certification expires. The application shall include updated information on the public body’s capital plan for the next three years, its intended use of the procedures, and any other information requested by the committee. The committee must review the application for recertification at a meeting held before expiration of the applicant’s initial certification period. A public body must reapply for certification under the process described in subsection (1) of this section once the period of recertification expires.

(7) Certified public bodies must submit project data information as required in RCW 39.10.320 and 39.10.350. [2009 c 75 § 3; 2007 c 494 § 107.]

Sunset Act application: See note following chapter digest.

39.10.280 Project review committee—Project approval process. (1) A public body not certified under RCW 39.10.270 must apply for approval from the committee to use the design-build or general contractor/construction manager contracting procedure on a project. A public body seeking approval must submit to the committee an application in a format and manner as prescribed by the committee. The application must include a description of the public body’s qualifications, a description of the project, and its intended use of alternative contracting procedures.

(2) To approve a proposed project, the committee shall determine that:

(a) The alternative contracting procedure will provide a substantial fiscal benefit or the use of the traditional method of awarding contracts in lump sum to the low responsive bidder is not practical for meeting desired quality standards or delivery schedules;

(b) The proposed project meets the requirements for using the alternative contracting procedure as described in RCW 39.10.300 or 39.10.340;

(c) The public body has the necessary experience or qualified team to carry out the alternative contracting procedure including, but not limited to: (i) Project delivery knowledge and experience; (ii) sufficient personnel with construction experience to administer the contract; (iii) a written man-
agreement plan that shows clear and logical lines of authority; (iv) the necessary and appropriate funding and time to properly manage the job and complete the project; (v) continuity of project management team, including personnel with experience managing projects of similar scope and size to the project being proposed; and (vi) necessary and appropriate construction budget;

(d) For design-build projects, construction personnel independent of the design-build team are knowledgeable in the design-build process and are able to oversee and administer the contract; and

(e) The public body has resolved any audit findings related to previous public works projects in a manner satisfactory to the committee.

(3) The committee shall, if practicable, make its determination at the public meeting during which a submittal is reviewed. Public comments must be considered before a determination is made.

(4) Within ten business days after the public meeting, the committee shall provide a written determination to the public body, and make its determination available to the public on the committee’s web site. If the committee fails to make a written determination within ten business days of the public meeting, the request of the public body to use the alternative contracting procedure on the requested project shall be deemed approved.

(5) The requirements of subsection (1) of this section also apply to certified public bodies seeking to use the general contractor/constructor manager contracting procedure on projects with a total project cost of less than ten million dollars.

(6) Failure of the committee to meet within sixty calendar days of a public body’s application to use an alternative contracting procedure on a project shall be deemed an approval of the application. [2007 c 494 § 108.]

Sunset Act application: See note following chapter digest.

39.10.290 Appeal process. Final determinations by the committee may be appealed to the board within seven days by the public body or by an interested party. A written notice of an appeal must be provided to the committee and, as applicable, to the public body. The board shall resolve an appeal within forty-five days of receipt of the appeal and shall send a written determination of its decision to the party making the appeal and to the appropriate public body, as applicable. The public body shall comply with the determination of the board. [2007 c 494 § 109.]

Sunset Act application: See note following chapter digest.

39.10.300 Design-build procedure—Uses. (1) Subject to the process in RCW 39.10.270 or 39.10.280, public bodies may utilize the design-build procedure for public works projects in which the total project cost is over ten million dollars and where:

(a) The design and construction activities, technologies, or schedule to be used are highly specialized and a design-build approach is critical in developing the construction methodology or implementing the proposed technology; or

(b) The project design is repetitive in nature and is an incidental part of the installation or construction; or

(c) Regular interaction with and feedback from facilities users and operators during design is not critical to an effective facility design.

(2) Subject to the process in RCW 39.10.270 or 39.10.280, public bodies may use the design-build procedure for parking garages, regardless of cost.

(3) The design-build procedure may be used for the construction or erection of preengineered metal buildings or prefabricated modular buildings, regardless of cost and is not subject to approval by the committee.

(4) Except for utility projects and approved demonstration projects, the design-build procedure may not be used to procure operations and maintenance services for a period longer than three years. State agency projects that propose to use the design-build-operate-maintain procedure shall submit cost estimates for the construction portion of the project consistent with the office of financial management’s capital budget requirements. Operations and maintenance costs must be shown separately and must not be included as part of the capital budget request.

(5) Subject to the process in RCW 39.10.280, public bodies may use the design-build procedure for public works projects in which the total project cost is between two million and ten million dollars and that meet one of the criteria in subsection (1)(a), (b), or (c) of this section.

(6) Subject to the process in RCW 39.10.280, a public body may seek committee approval for a design-build demonstration project that includes procurement of operations and maintenance services for a period longer than three years. [2009 c 75 § 4; 2007 c 494 § 201. Prior: 2003 c 352 § 2; 2003 c 300 § 4; 2002 c 46 § 1; 2001 c 328 § 2. Formerly RCW 39.10.051.]

Sunset Act application: See note following chapter digest.

Effective date—2002 c 46: “This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately [March 14, 2002].” [2002 c 46 § 5.]

39.10.320 Design-build procedure—Project management and contracting requirements. (1) A public body utilizing the design-build contracting procedure shall provide for:

(a) Reasonable budget contingencies totaling not less than five percent of the anticipated contract value;

(b) Employment of staff or consultants with expertise and prior experience in the management of comparable projects;

(c) Contract documents that include alternative dispute resolution procedures to be attempted prior to the initiation of litigation;

(d) Submission of project information, as required by the board; and

(e) Contract documents that require the contractor, subcontractors, and designers to submit project information required by the board.

(2) A public body utilizing the design-build contracting procedure may provide incentive payments to contractors for early completion, cost savings, or other goals if such payments are identified in the request for proposals. [2007 c 494 § 203; 1994 c 132 § 7. Formerly RCW 39.10.070.]
39.10.330 Design-build contract award process. (1) Contracts for design-build services shall be awarded through a competitive process using public solicitation of proposals for design-build services. The public body shall publish at least once in a legal newspaper of general circulation published in, or as near as possible to, that part of the county in which the public work will be done, a notice of its request for qualifications from proposers for design-build services, and the availability and location of the request for proposal documents. The request for qualifications documents shall include:

(a) A general description of the project that provides sufficient information for proposers to submit qualifications;
(b) The reasons for using the design-build procedure;
(c) A description of the qualifications to be required of the proposer including, but not limited to, submission of the proposer’s accident prevention program;
(d) A description of the process the public body will use to evaluate qualifications and finalists’ proposals, including evaluation factors and the relative weight of factors and any specific forms to be used by the proposers;

(i) Evaluation factors for request for qualifications shall include, but not be limited to, technical qualifications, such as specialized experience and technical competence; capability to perform; past performance of the proposers’ team, including the architect-engineer and construction members; and other appropriate factors. Cost or price-related factors are not permitted in the request for qualifications phase;
(ii) Evaluation factors for finalists’ proposals shall include, but not be limited to, the factors listed in (d)(i) of this subsection, as well as technical approach design concept; proposal price; ability of professional personnel; past performance on similar projects; ability to meet time and budget requirements; ability to provide a performance and payment bond for the project; recent, current, and projected workloads of the firm; and location. Alternatively, if the public body determines that all finalists will be capable of producing a design that adequately meets project requirements, the public body may award the contract to the firm that submits the responsive proposal with the lowest price;
(e) The form of the contract to be awarded;
(f) The amount to be paid to finalists submitting responsive proposals and who are not awarded a design-build contract;

(g) The schedule for the procurement process and the project; and

(h) Other information relevant to the project.

(2) The public body shall establish an evaluation committee to evaluate the responses to the request for qualifications based on the factors, weighting, and process identified in the request for qualifications. Based on the evaluation committee’s findings, the public body shall select not more than five responsive and responsible finalists to submit proposals. The public body may, in its sole discretion, reject all proposals and shall provide its reasons for rejection in writing to all proposers.

(3) Upon selection of the finalists, the public body shall issue a request for proposals to the finalists, which shall provide the following information:

(a) A detailed description of the project including programmatic, performance, and technical requirements and specifications; functional and operational elements; minimum and maximum net and gross areas of any building; and, at the discretion of the public body, preliminary engineering and architectural drawings; and

(b) The target budget for the design-build portion of the project.

(4) The public body shall establish an evaluation committee to evaluate the proposals submitted by the finalists. Design-build contracts shall be awarded using the procedures in (a) or (b) of this subsection. The public body must identify in the request for qualifications which procedure will be used.

(a) The finalists’ proposals shall be evaluated and scored based on the factors, weighting, and process identified in the initial request for qualifications and in any addenda published by the public body. Public bodies may request best and final proposals from finalists. The public body shall initiate negotiations with the firm submitting the highest scored proposal. If the public body is unable to execute a contract with the firm submitting the highest scored proposal, negotiations with that firm may be suspended or terminated and the public body may proceed to negotiate with the next highest scored firm. Public bodies shall continue in accordance with this procedure until a contract agreement is reached or the selection process is terminated.

(b) If the public body determines that all finalists are capable of producing a design that meets project requirements, the public body may award the contract to the firm that submits the responsive proposal with the lowest price.

(5) The firm awarded the contract shall provide a performance and payment bond for the contracted amount. The public body shall provide appropriate honorarium payments to finalists submitting responsive proposals that are not awarded a design-build contract. Honorarium payments shall be sufficient to generate meaningful competition among potential proposers on design-build projects. In determining the amount of the honorarium, the public body shall consider the level of effort required to meet the selection criteria.

39.10.340 General contractor/construction manager procedure—Uses. Subject to the process in RCW 39.10.270 or 39.10.280, public bodies may utilize the general contractor/construction manager procedure for public works projects where:

1. Implementation of the project involves complex scheduling, phasing, or coordination;
2. The project involves construction at an occupied facility which must continue to operate during construction;
3. The involvement of the general contractor/construction manager during the design stage is critical to the success of the project;
4. The project encompasses a complex or technical work environment; or
5. The project requires specialized work on a building that has historic significance.
39.10.350 General contractor/construction manager procedure—Project management and contracting requirements. (1) A public body using the general contractor/construction manager contracting procedure shall provide for:

(a) The preparation of appropriate, complete, and coordinated design documents;

(b) Confirmation that a constructability analysis of the design documents has been performed prior to solicitation of a subcontract bid package;

(c) Reasonable budget contingencies totaling not less than five percent of the anticipated contract value;

(d) To the extent appropriate, on-site architectural or engineering representatives during major construction or installation phases;

(e) Employment of staff or consultants with expertise and prior experience in the management of comparable projects, critical path method schedule review and analysis, and the administration, pricing, and negotiation of change orders;

(f) Contract documents that include alternative dispute resolution procedures to be attempted before the initiation of litigation;

(g) Contract documents that: (i) Obligate the public owner to accept or reject a request for equitable adjustment, change order, or claim within a specified time period but no later than sixty calendar days after the receipt by the public body of related documentation; and (ii) provide that if the public owner does not respond in writing to a request for equitable adjustment, change order, or claim within the specified time period, the request is deemed denied;

(h) Submission of project information, as required by the board; and

(i) Contract documents that require the contractor, subcontractors, and designers to submit project information required by the board.

(2) A public body using the general contractor/construction manager contracting procedure may include an incentive clause for early completion, cost savings, or other performance goals if such incentives are identified in the request for proposals. No incentives granted may exceed five percent of the maximum allowable construction cost. No incentives may be paid from any contingency fund established for coordination of the construction documents or coordination of the work.

(3) If the construction is completed for less than the maximum allowable construction cost, any savings not otherwise negotiated as part of an incentive clause shall accrue to the public body. If the construction is completed for more than the maximum allowable construction cost, the additional cost is the responsibility of the general contractor/construction manager.

(4) If the public body and the general contractor/construction manager agree, in writing, on a price for additional work, the public body must issue a change order within thirty days of the written agreement. If the public body does not issue a change order within the thirty days, interest shall accrue on the dollar amount of the additional work satisfactorily completed until a change order is issued. The public body shall pay this interest at a rate of one percent per month.

39.10.355sunset Act application: See note following chapter digest.

39.10.360 General contractor/construction manager procedure—Contract award process. (1) Public bodies should select general contractor/construction managers early in the life of public works projects, and in most situations no later than the completion of schematic design.

(2) Contracts for the services of a general contractor/construction manager under this section shall be awarded through a competitive process requiring the public solicitation of proposals for general contractor/construction manager services. The public solicitation of proposals shall include:

(a) A description of the project, including programmatic, performance, and technical requirements and specifications when available;

(b) The reasons for using the general contractor/construction manager procedure;

(c) A description of the qualifications to be required of the firm, including submission of the firm’s accident prevention program;

(d) A description of the process the public body will use to evaluate qualifications and proposals, including evaluation factors and the relative weight of factors;

(e) The form of the contract, including any contract for preconstruction services, to be awarded;

(f) The estimated maximum allowable construction cost; and

(g) The bid instructions to be used by the general contractor/construction manager finalists.

(3) Evaluation factors for selection of the general contractor/construction manager shall include, but not be limited to:

(a) Ability of the firm’s professional personnel;

(b) The firm’s past performance in negotiated and complex projects;

(c) The firm’s ability to meet time and budget requirements;

(d) The scope of work the firm proposes to self-perform and its ability to perform that work;

(e) The firm’s proximity to the project location;

(f) Recent, current, and projected workloads of the firm; and

(g) The firm’s approach to executing the project.

(4) A public body shall establish a committee to evaluate the proposals. After the committee has selected the most qualified finalists, at the time specified by the public body, these finalists shall submit final proposals, including sealed bids for the percent fee on the estimated maximum allowable construction cost and the fixed amount for the general conditions work specified in the request for proposal. The public body shall establish a time and place for the opening of sealed bids for the percent fee on the estimated maximum allowable construction cost and the fixed amount for the general condi-
and to act as the construction manager and general contractor and to provide services during the design phase that may include life-cycle cost design considerations, value engineering, scheduling, cost estimating, constructability, alternative construction options for cost savings, and sequencing of work, and to act as the construction manager and general contractor during the construction phase. [2007 c 494 § 303.]

Sunset Act application: See note following chapter digest.

39.10.370 General contractor/construction manager procedure—Maximum allowable construction cost. (1) The maximum allowable construction cost shall be used to establish a total contract cost for which the general contractor/construction manager shall provide a performance and payment bond. The maximum allowable construction cost shall be negotiated between the public body and the selected firm when the construction documents and specifications are at least ninety percent complete.

(2) Major bid packages may be bid in accordance with RCW 39.10.380 before agreement on the maximum allowable construction cost between the public body and the selected general contractor/construction manager. The general contractor/construction manager may issue an intent to award to the responsible bidder submitting the lowest responsive bid.

(3) The public body may, at its option, authorize the general contractor/construction manager to proceed with the bidding and award of bid packages and construction before receipt of complete project plans and specifications. Any contracts awarded under this subsection shall be incorporated in the negotiated maximum allowable construction cost.

(4) The total contract cost includes the fixed amount for the detailed specified general conditions work, the negotiated maximum allowable construction cost, the negotiated support services, and the percent fee on the negotiated maximum allowable construction cost. Negotiated support services may be included in the specified general conditions at the discretion of the public body.

(5) If the public body is unable to negotiate a satisfactory maximum allowable construction cost with the firm selected that the public body determines to be fair, reasonable, and within the available funds, negotiations with that firm shall be formally terminated and the public body shall negotiate with the next highest scored firm and continue until an agreement is reached or the process is terminated.

(6) If the maximum allowable construction cost varies more than fifteen percent from the bid estimated maximum allowable construction cost due to requested and approved changes in the scope by the public body, the percent fee shall be renegotiated. [2007 c 494 § 304.]

39.10.380 General contractor/construction manager procedure—Subcontract bidding procedure. (1) All subcontract work and equipment and material purchases shall be competitively bid with public bid openings. Subcontract bid packages and equipment and materials purchases shall be awarded to the responsible bidder submitting the lowest responsive bid. In preparing subcontract bid packages, the general contractor/construction manager shall not be required to violate or waive terms of a collective bargaining agreement.

(2) All subcontract bid packages in which bidder eligibility was not determined in advance shall include the specific objective criteria that will be used by the general contractor/construction manager and the public body to evaluate bidder responsibility. If the lowest bidder submitting a responsive bid is determined by the general contractor/construction manager and the public body not to be responsible, the general contractor/construction manager and the public body must provide written documentation to that bidder explaining their intent to reject the bidder as not responsible and afford the bidder the opportunity to establish that it is a responsible bidder. Responsibility shall be determined in accordance with criteria listed in the bid documents. Protests concerning bidder responsibility determination by the general contractor/construction manager and the public body shall be in accordance with subsection (4) of this section.

(3) All subcontractors who bid work over three hundred thousand dollars shall post a bid bond. All subcontractors who are awarded a contract over three hundred thousand dollars shall provide a performance and payment bond for the contract amount. All other subcontractors shall provide a performance and payment bond if required by the general contractor/construction manager.

(4) If the general contractor/construction manager receives a written protest from a subcontractor bidder or an equipment or material supplier, the general contractor/construction manager shall not execute a contract for the subcontract bid package or equipment or material purchase order with anyone other than the protesting bidder without first providing at least two full business days’ written notice to all bidders of the intent to execute a contract for the subcontract bid package. The protesting bidder must submit written notice of its protest no later than two full business days following the bid opening. Intermediate Saturdays, Sundays, and legal holidays are not counted.

(5) A low bidder who claims error and fails to enter into a contract is prohibited from bidding on the same project if a second or subsequent call for bids is made for the project.

(6) The general contractor/construction manager may negotiate with the lowest responsible and responsive bidder to negotiate an adjustment to the lowest bid or proposal price based upon agreed changes to the contract plans and specifications under the following conditions:

(a) All responsive bids or proposal prices exceed the available funds, as certified by an appropriate fiscal officer;

(b) The apparent low responsive bid or proposal does not exceed the available funds by the greater of one hundred twenty-five thousand dollars or two percent for projects valued over ten million dollars; and

As an alternative to the subcontractor selection process outlined in RCW 39.10.380, a general contractor/construction manager may, with the approval of the public body, select a subcontractor, or both, using the process outlined in this section. This alternative selection process may only be used when the anticipated value of the subcontract will exceed three million dollars. When using the alternative selection process, the general contractor/construction manager should select the subcontractor early in the life of the public works project.

(1) In order to use this alternative selection process, the general contractor/construction manager and the public body must determine that it is in the best interest of the public. In making this determination the general contractor/construction manager and the public body must:

(a) Publish a notice of intent to use this alternative selection process in a legal newspaper published in or as near as possible to that part of the county where the public work will be constructed. Notice must be published at least fourteen calendar days before conducting a public hearing. The notice must include the date, time, and location of the hearing; a statement justifying the basis and need for the alternative selection process; and how interested parties may, prior to the hearing, obtain the evaluation criteria and applicable weight given to each criteria that will be used for evaluation;

(b) Conduct a hearing and provide an opportunity for any interested party to submit written and verbal comments regarding the justification for using this selection process, the evaluation criteria, and weights for each criteria;

(c) After the public hearing, consider the written and verbal comments received and determine if using this alternative selection process is in the best interests of the public; and

(d) Issue a written final determination to all interested parties. All protests of the decision to use the alternative selection process must be in writing and submitted to the public body within seven calendar days of the final determination. Any modifications to the criteria and weights based on comments received during the public hearing process must be included in the final determination.

(2) Contracts for the services of a subcontractor under this section must be awarded through a competitive process requiring a public solicitation of proposals. Notice of the public solicitation of proposals must be provided to the office of minority and women’s business enterprises. The public solicitation of proposals must include:

(a) A description of the project, including programmatic, performance, and technical requirements and specifications when available;

(b) The reasons for using the alternative selection process;

(c) A description of the minimum qualifications required of the firm;

(d) A description of the process used to evaluate qualifications and proposals, including evaluation factors and the relative weight of factors;

(e) The form of the contract, including any contract for preconstruction services, to be awarded;

(f) The estimated maximum allowable subcontract cost; and

(g) The bid instructions to be used by the finalists.

(3) Evaluation factors for selection of the subcontractor must include, but not be limited to:

(a) Ability of the firm’s professional personnel;

(b) The firm’s past performance on similar projects;

(c) The firm’s ability to meet time and budget requirements;

(d) The scope of work the firm proposes to perform with its own forces and its ability to perform that work;

(e) The firm’s plan for outreach to minority and women-owned businesses;

(f) The firm’s proximity to the project location;

(g) The firm’s capacity to successfully complete the project;

(h) The firm’s approach to executing the project;

(i) The firm’s approach to safety on the project;

(j) The firm’s safety history; and

(k) If the firm is selected as one of the most qualified finalists, the firm’s fee and cost proposal.

(4) The general contractor/construction manager shall establish a committee to evaluate the proposals. At least one representative from the public body shall serve on the committee. Final proposals, including sealed bids for the percent fee on the estimated maximum allowable subcontract cost, and the fixed amount for the subcontract general conditions work specified in the request for proposal, will be requested from the most qualified firms. The general contractor/construction manager and the public body shall select the firm submitting the highest scored final proposal using the evaluation factors and the relative weight of factors identified in the solicitation of proposals. The scoring of the nonprice factors must be made available at the opening of the fee and cost proposals. The general contractor/construction manager may not evaluate or disqualify a proposal based on the terms of a collective bargaining agreement.

(5) If the general contractor/construction manager is unable to negotiate a satisfactory maximum allowable subcontract cost with the firm selected deemed by public body and the general contractor/construction manager to be fair, reasonable, and within the available funds, negotiations with that firm must be formally terminated and the general contractor/construction manager may negotiate with the next highest scored firm until an agreement is reached or the process is terminated.

(6) If the general contractor/construction manager receives a written protest from a bidder, it may not execute a contract for the subject work with anyone other than the protesting bidder, without first providing at least two full business days’ written notice to all bidders of the intent to execute a contract for the subcontract bid package. The protesting
Subcontractor utilizing the procedure outlined in RCW 39.10.400. With the approval of the public body, the general contractor/construction manager may contract with the selected firm to provide services during the design phase that may include life-cycle cost design considerations, value engineering, scheduling, cost estimating, constructability, alternative construction options for cost savings, and sequencing of work; and to act as the mechanical or electrical subcontractor during the construction phase.

(8) The maximum allowable subcontract cost must be used to establish a total subcontract cost for purposes of a performance and payment bond. Total subcontract cost means the fixed amount for the detailed specified general conditions work, the negotiated maximum allowable subcontract cost, and the percent fee on the negotiated maximum allowable subcontract cost. Maximum allowable subcontract cost means the maximum cost to complete the work specified for the subcontract, including the estimated cost of work to be performed by the subcontractor’s own forces, a percentage for risk contingency, negotiated support services, and approved change orders. The maximum allowable subcontract cost must be negotiated between the general contractor/construction manager and the selected firm when the construction documents and specifications are at least ninety percent complete. Final agreement on the maximum allowable subcontract cost is subject to the approval of the public body.

(9) If the work of the mechanical contractor or electrical contractor is completed for less than the maximum allowable subcontract cost, any savings not otherwise negotiated as part of an incentive clause becomes part of the risk contingency included in the general contractor/construction manager’s maximum allowable construction cost. If the work of the mechanical contractor or the electrical contractor is completed for more than the maximum allowable subcontract cost, the additional cost is the responsibility of that subcontractor. An independent audit, paid for by the public body, must be conducted upon completion of the contract to confirm the proper accrual of costs as outlined in the contract.

(10) A mechanical or electrical contractor selected under this section may perform work with its own forces. In the event it elects to subcontract some of its work, it must select a subcontractor utilizing the procedure outlined in RCW 39.10.380. [2010 c 163 § 1.]

39.10.390 General contractor/construction manager procedure—Subcontract work. (1) Except as provided in this section, bidding on subcontract work or for the supply of equipment or materials by the general contractor/construction manager or its subsidiaries is prohibited.

(2) The general contractor/construction manager, or its subsidiaries, may bid on subcontract work or for the supply of equipment or materials if:

(a) The work within the subcontract bid package or equipment or materials is customarily performed or supplied by the general contractor/construction manager;

(b) The bid opening is managed by the public body and is in compliance with RCW 39.10.380; and

(c) Notification of the general contractor/construction manager’s intention to bid is included in the public solicitation of bids for the bid package or for the equipment or materials.

(3) In no event may the general contractor/construction manager or its subsidiaries purchase equipment or materials for assignment to subcontract bid package bidders for installation or warranty. The value of subcontract work performed and equipment and materials supplied by the general contractor/construction manager may not exceed thirty percent of the negotiated maximum allowable construction cost. Negotiated support services performed by the general contractor/construction manager shall not be considered subcontract work for purposes of this subsection. [2007 c 494 § 306.]

Sunset Act application: See note following chapter digest.

39.10.400 General contractor/construction manager procedure—Prebid determination of subcontractor eligibility. (1) If determination of subcontractor eligibility prior to seeking bids is in the best interest of the project and critical to the successful completion of a subcontract bid package, the general contractor/construction manager and the public body may determine subcontractor eligibility to bid. The general contractor/construction manager and the public body must:

(a) Conduct a hearing and provide an opportunity for any interested party to submit written and verbal comments regarding the justification for conducting bidder eligibility, the evaluation criteria, and weights for each criteria and subcriteria;

(b) Publish a notice of intent to evaluate and determine bidder eligibility in a legal newspaper published in or as near as possible to that part of the county where the public work will be constructed at least fourteen calendar days before conducting a public hearing;

(c) Ensure the public hearing notice includes the date, time, and location of the hearing, a statement justifying the basis and need for performing eligibility analysis before bid opening, and specific eligibility criteria and applicable weights given to each criteria and subcriteria that will be used during evaluation;

(d) After the public hearing, consider written and verbal comments received and determine if establishing bidder eligibility in advance of seeking bids is in the best interests of the project and critical to the successful completion of a subcontract bid package; and

(e) Issue a written final determination to all interested parties. All protests of the decision to establish bidder eligibility before issuing a subcontract bid package must be filed with the superior court within seven calendar days of the final determination. Any modifications to the eligibility criteria and weights shall be based on comments received during the public hearing process and shall be included in the final determination.

(2) Determinations of bidder eligibility shall be in accordance with the evaluation criteria and weights for each criteria established in the final determination and shall be provided to interested persons upon request. Any potential bidder determined not to meet eligibility criteria must be afforded the opportunity to establish its eligibility. Protests concerning bidder eligibility determinations shall be in accordance with subsection (1) of this section. [2007 c 494 § 307.]

Sunset Act application: See note following chapter digest.
39.10.410 General contractor/construction manager procedure—Subcontract agreements. Subcontract agreements used by the general contractor/construction manager shall not:

(1) Delegate, restrict, or assign the general contractor/construction manager’s implied duty not to hinder or delay the subcontractor. Nothing in this subsection (1) prohibits the general contractor/construction manager from requiring subcontractors not to hinder or delay the work of the general contractor/construction manager or other subcontractors and to hold subcontractors responsible for such damages;

(2) Delegate, restrict, or assign the general contractor/construction manager’s authority to resolve subcontractor conflicts. The general contractor/construction manager may delegate or assign coordination of specific elements of the work, including: (a) The coordination of shop drawings among subcontractors; (b) the coordination among subcontractors in ceiling spaces and mechanical rooms; and (c) the coordination of a subcontractor’s lower tier subcontractors. Nothing in this subsection prohibits the general contractor/construction manager from imposing a duty on its subcontractors to cooperate with the general contractor/construction manager and other subcontractors in the coordination of the work;

(3) Restrict the subcontractor’s right to damages for changes to the construction schedule or work to the extent that the delay or disruption is caused by the general contractor/construction manager or entities acting for it. The general contractor/construction manager may require the subcontractor to provide notice that rescheduling or resequencing will result in delays or additional costs;

(4) Require the subcontractor to bear the cost of trade damage repair except to the extent the subcontractor is responsible for the damage. Nothing in this subsection (4) precludes the general contractor/construction manager from requiring the subcontractor to take reasonable steps to protect the subcontractor’s work from trade damage;

(5) Require the subcontractor to execute progress payment applications that waive claims for additional time or compensation or bond or retainage rights as a condition of receipt of progress payment, except to the extent the subcontractor has received or will receive payment. Nothing in this subsection precludes the general contractor/construction manager from requiring the subcontractor to provide notice of claims for additional time or compensation as a condition precedent to right of recovery or to execute a full and final release, including a waiver of bond and retainage rights, as a condition of final payment. [2007 c 494 § 308.]

[2009 c 75 § 7; 2007 c 494 § 401; 2003 c 301 § 1. Formerly RCW 39.10.130.]

(3) The public body shall publish, at least once in a statewide publication and legal newspaper of general circulation published in every county in which the public works project is anticipated, a request for proposals for job order contracts and the availability and location of the request for proposal documents. The public body shall ensure that evaluation factors include, but are not limited to, proposal price and the ability of the proposer to perform the job order contract. In evaluating the ability of the
proposer to perform the job order contract, the public body may consider: The ability of the professional personnel who will work on the job order contract; past performance on similar contracts; ability to meet time and budget requirements; ability to provide a performance and payment bond for the job order contract; recent, current, and projected workloads of the proposer; location; and the concept of the proposal;

The public body shall not execute the contract until two business days following the public body’s decision on the protest.

(6) The requirements of RCW 39.30.060 do not apply to requests for proposals for job order contracts. [2007 c 494 § 402.]

Sunset Act application: See note following chapter digest.

(2) Job order contracts may be executed for an initial contract term of not to exceed two years, with the option of extending or renewing the job order contract for one year. This is the contractor’s sole remedy.

(8) All job order contracts awarded under this section must be signed before July 1, 2013; however the job order contract may be extended or renewed as provided for in this section.

39.12.010 Definitions. (1) The "prevailing rate of wage", for the intents and purposes of this chapter, shall be the rate of hourly wage, usual benefits, and overtime paid in the locality, as hereinafter defined, to the majority of workers, laborers, or mechanics, in the same trade or occupation. In the event that there is not a majority in the same trade or occupation paid at the same rate, then the average rate of hourly wage and overtime paid to such laborers, workers, or mechanics in the same trade or occupation shall be the prevailing rate. If the wage paid by any contractor or subcontractor to laborers, workers, or mechanics on any public work is based on some period of time other than an hour, the hourly wage for the purposes of this chapter shall be mathematically determined by the number of hours worked in such period of time.

(2) The "locality" for the purposes of this chapter shall be the largest city in the county wherein the physical work is being performed.

(3) The "usual benefits" for the purposes of this chapter shall include the amount of:
(a) The rate of contribution irrevocably made by a contractor or subcontractor to a trustee or to a third person pursuant to a fund, plan, or program; and
(b) The rate of costs to the contractor or subcontractor which may be reasonably anticipated in providing benefits to workers, laborers, and mechanics pursuant to an enforceable commitment to carry out a financially responsible plan or program which was communicated in writing to the workers, laborers, and mechanics affected, for medical or hospital care, pensions on retirement or death, compensation for injuries or illness resulting from occupational activity, or insurance to provide any of the foregoing, for unemployment benefits, life insurance, disability and sickness insurance, or accident insurance, for vacation and holiday pay, for defraying costs of apprenticeship or other similar programs, or for other bona fide fringe benefits, but only where the contractor or subcontractor is not required by other federal, state, or local law to provide any of such benefits.

(4) An "interested party" for the purposes of this chapter shall include a contractor, subcontractor, an employee of a contractor or subcontractor, an organization whose members' wages, benefits, and conditions of employment are affected by this chapter, and the director of labor and industries or the director's designee. [1989 c 12 § 6; 1985 c 15 § 1; 1965 ex.s. c 133 § 1; 1945 c 63 § 3; Rem. Supp. 1945 § 10322-22.]

For a contract in excess of ten thousand dollars, a contractor required to pay the prevailing rate of wage shall post in a location readily visible to workers at the job site: PROVIDED, That on road construction, sewer line, pipeline, transmission line, street, or alley improvement projects for which no field office is needed or established, a contractor may post the prevailing rate of wage statement at the contractor's local office, gravel crushing, concrete, or asphalt batch plant as long as the contractor provides a copy of the wage statement to any employee on request:

(2) The address and telephone number of the industrial statistician of the department of labor and industries where a complaint or inquiry concerning prevailing wages may be made.

This chapter shall not apply to workers or other persons regularly employed by the state, or any county, municipality, or political subdivision created by its laws. [2007 c 169 § 1; 1989 c 12 § 7; 1982 c 130 § 1; 1981 c 46 § 1; 1967 ex.s. c 14 § 1; 1945 c 63 § 1; Rem. Supp. 1945 § 10322-20.]

[1972 ex.s. c 91 § 1.]

39.12.026 Surveys—Applicability by county. (1) In establishing the prevailing rate of wage under RCW 39.12.010, 39.12.015, and 39.12.020, all data collected by the department may be used only in the county for which the work was performed.

(2) This section applies only to prevailing wage surveys initiated on or after August 1, 2003. [2003 c 363 § 206.]

Findings—Intent—2003 c 363 §§ 201-206: See note following RCW 49.04.041.

(1) The specifications for every contract for the construction, reconstruction, maintenance or repair of any public work to which the state or any county, municipality, or political subdivision created by its laws is a party, shall contain a provision stating the hourly minimum rate of wage, not less than the prevailing rate of wage, which may be paid to laborers, workers, or mechanics in each trade or occupation required for such public work employed in the performance of the contract either by the contractor, subcontractor or other person doing or contracting to do the whole or any part of the work contemplated by the contract, and the contract shall contain a stipulation that such laborers, workers, or mechanics shall be paid not less than such specified hourly minimum rate of wage. If the awarding agency determines that the work contracted for meets the definition of residential construction, the contract must include that information.

(2) If the hourly minimum rate of wage stated in the contract specifies residential construction rates and it is later determined that the work performed is commercial and subject to commercial construction rates, the state, county, municipality, or political subdivision that entered into the contract must pay the difference between the residential rate stated and the actual commercial rate to the contractor, subcontractor, or other person doing or contracting to do the whole or any part of the work under the contract. [2009 c 62 § 1, 1989 c 12 § 9; 1945 c 63 § 2; Rem. Supp. 1945 § 10322-21.]

39.12.040 Statement of intent to pay prevailing wages, affidavit of wages paid—Alternative procedure. (1) Except as provided in subsection (2) of this section, before payment is made by or on behalf of the state, or any county, municipality, or political subdivision created by its laws, of any sum or sums due on account of a public works contract, it shall be the duty of the officer or person charged with the custody and disbursement of public funds to require the contractor and each and every subcontractor from the contractor or a subcontractor to submit to such officer a "Statement of Intent to Pay Prevailing Wages". For a contract in excess of ten thousand dollars, the statement of intent to pay prevailing wages shall include:

(a) The contractor’s registration certificate number; and
(b) The prevailing rate of wage for each classification of workers entitled to prevailing wages under RCW 39.12.020 and the estimated number of workers in each classification.

Each statement of intent to pay prevailing wages must be approved by the industrial statistician of the department of labor and industries before it is submitted to said officer. Unless otherwise authorized by the department of labor and industries, each voucher claim submitted by a contractor for payment on a project estimate shall state that the prevailing wages have been paid in accordance with the prefilled statement or statements of intent to pay prevailing wages on file with the public agency. Following the final acceptance of a public works project, it shall be the duty of the officer charged with the disbursement of public funds, to require the contractor and each and every subcontractor from the contractor or a subcontractor to submit to such officer an "Affidavit of Wages Paid" before the funds retained according to the provisions of RCW 60.28.011 are released to the contractor. Each affidavit of wages paid must be certified by the industrial statistician of the department of labor and industries before it is submitted to said officer.

(2) As an alternate to the procedures provided for in subsection (1) of this section, for public works projects of two thousand five hundred dollars or less and for projects where the limited public works process under RCW 39.04.155(3) is followed:

(a) An awarding agency may authorize the contractor or subcontractor to submit the statement of intent to pay prevailing wages directly to the officer or person charged with the custody or disbursement of public funds in the awarding agency without approval by the industrial statistician of the department of labor and industries. The awarding agency shall retain such statement of intent to pay prevailing wages for a period of not less than three years.

(b) Upon final acceptance of the public works project, the awarding agency shall require the contractor or subcontractor to submit an affidavit of wages paid. Upon receipt of the affidavit of wages paid, the awarding agency may pay the contractor or subcontractor full payment, and will retain any funds that would otherwise be retained according to the provisions of RCW 60.28.011. Within thirty days of receipt of the affidavit of wages paid, the awarding agency shall submit the affidavit of wages paid to the industrial statistician of the department of labor and industries for approval.

(c) A statement of intent to pay prevailing wages and an affidavit of wages paid shall be on forms approved by the department of labor and industries.
(d) In the event of a wage claim and a finding for the claimant by the department of labor and industries where the awarding agency has used the alternative process provided for in subsection (2) of this section, the awarding agency shall pay the wages due directly to the claimant. If the contractor or subcontractor did not pay the wages stated in the affidavit of wages paid, the awarding agency may take action at law to seek reimbursement from the contractor or subcontractor of wages paid to the claimant, and may prohibit the contractor or subcontractor from bidding on any public works contract of the awarding agency for up to one year.

(e) Nothing in this section shall be interpreted to allow an awarding agency to subdivide any public works project of more than two thousand five hundred dollars for the purpose of circumventing the procedures required by RCW 39.12.040(1). [2009 c 219 § 2; 2007 c 210 § 4; 1991 c 15 § 1; 1982 c 130 § 2; 1981 c 46 § 2; 1975-'76 2nd ex.s. c 49 § 1; 1965 ex.s. c 133 § 3; 1945 c 63 § 4; Rem. Supp. 1945 § 10322-23.]

39.12.042 Compliance with RCW 39.12.040—Liability of public agencies to workers, laborers, or mechanics. If any agency of the state, or any county, municipality, or political subdivision created by its laws shall knowingly fail to comply with the provisions of RCW 39.12.040 as now or hereafter amended, such agency of the state, or county, municipality, or political subdivision created by its laws, shall be liable to all workers, laborers, or mechanics to the full extent and for the full amount of wages due, pursuant to the prevailing wage requirements of RCW 39.12.020. [1993 c 404 § 3; 1989 c 12 § 11; 1975-'76 2nd ex.s. c 49 § 2.]

39.12.050 False statement or failure to file—Penalty—Unpaid wages lien against bond and retainage—Prohibitions on bidding on future contracts—Hearing. (1) Any contractor or subcontractor who files a false statement or fails to file any statement or record required to be filed under this chapter and the rules adopted under this chapter, shall, after a determination to that effect has been issued by the director after hearing under chapter 34.05 RCW, forfeit as a civil penalty the sum of five hundred dollars for each false filing or failure to file, and shall not be permitted to bid, or have a bid considered, on any public works contract until the penalty has been paid in full to the director. The civil penalty under this subsection shall not apply to a violation determined by the director to be an inadvertent filing or reporting error. Civil penalties shall be deposited in the public works administration account.

To the extent that a contractor or subcontractor has not paid wages at the rate due pursuant to RCW 39.12.020, and a finding to that effect has been made as provided by this subsection, such unpaid wages shall constitute a lien against the bonds and retainage as provided in RCW 18.27.040, 19.28.041, 39.08.010, and 60.28.011.

(2) If a contractor or subcontractor is found to have violated the provisions of subsection (1) of this section for a second time within a five year period, the contractor or subcontractor shall be subject to the sanctions prescribed in subsection (1) of this section and shall not be allowed to bid on any public works contract for one year. The one year period shall run from the date of notice by the director of the determination of noncompliance. When an appeal is taken from the director’s determination, the one year period shall commence from the date of the final determination of the appeal.

The director shall issue his or her findings that a contractor or subcontractor has violated the provisions of this subsection after a hearing held subject to the provisions of chapter 34.05 RCW. [2009 c 219 § 3; 2001 c 219 § 1; 1985 c 15 § 3; 1977 ex.s. c 71 § 1; 1973 c 120 § 1; 1945 c 63 § 5; Rem. Supp. 1945 § 10322-24.]

(1) Violated RCW 51.48.020(1) or 51.48.103;

(2) Committed an infraction or violation under chapter 18.27 RCW for performing work as an unregistered contractor;

(3) Determined to be out of compliance by the Washington state apprenticeship and training council for working apprentices out of ratio, without appropriate supervision, or outside their approved work processes as outlined in their standards of apprenticeship under chapter 49.04 RCW. Conflict with federal requirements—Severability—2008 c 120: See notes following RCW 18.27.030.

39.12.060 Director of labor and industries to arbitrate disputes. Such contract shall contain a further provision that in case any dispute arises as to what are the prevailing rates of wages for work of a similar nature and such dispute cannot be adjusted by the parties in interest, including labor and management representatives, the matter shall be referred for arbitration to the director of the department of labor and industries of the state and his or her decision therein shall be final and conclusive and binding on all parties involved in the dispute. [1989 c 12 § 10; 1965 ex.s. c 133 § 4; 1945 c 63 § 6; Rem. Supp. 1945 § 10322-25.]

39.12.065 Investigation of complaints—Hearing—Remedies—Penalties. (1) Upon complaint by an interested party, the director of labor and industries shall cause an investigation to be made to determine whether there has been compliance with this chapter and the rules adopted hereunder, and if the investigation indicates that a violation may have occurred, a hearing shall be held in accordance with chapter 34.05 RCW. The director shall issue a written determination including his or her findings after the hearing. A judicial appeal from the director’s determination may be taken in accordance with chapter 34.05 RCW, with the pre-
vailing party entitled to recover reasonable costs and attorneys' fees.

A complaint concerning nonpayment of the prevailing rate of wage shall be filed with the department of labor and industries no later than thirty days from the acceptance date of the public works project. The failure to timely file such a complaint shall not prohibit a claimant from pursuing a private right of action against a contractor or subcontractor for unpaid prevailing wages. The remedy provided by this section is not exclusive and is concurrent with any other remedy provided by law.

(2) To the extent that a contractor or subcontractor has not paid the prevailing rate of wage under a determination issued as provided in subsection (1) of this section, the director shall notify the agency awarding the public works contract of the amount of the violation found, and the awarding agency shall withhold, or in the case of a bond, the director shall proceed against the bond in accordance with the applicable statute to recover, such amount from the following sources in the following order of priority until the total of such amount is withheld:

(a) The retainage or bond in lieu of retainage as provided in RCW 60.28.011;

(b) If the claimant was employed by the contractor or subcontractor on the public works project, the bond filed by the contractor or subcontractor with the department of labor and industries as provided in RCW 18.27.040 and 19.28.041;

(d) That portion of the progress payments which is properly allocable to the contractor or subcontractor who is found to be in violation of this chapter. Under no circumstances shall any portion of the progress payments be withheld that are properly allocable to a contractor, subcontractor, or supplier, that is not found to be in violation of this chapter.

The amount withheld shall be released to the director to distribute in accordance with the director’s determination.

(3) A contractor or subcontractor that is found, in accordance with subsection (1) of this section, to have violated the requirement to pay the prevailing rate of wage shall be subject to a civil penalty of not less than one thousand dollars or an amount equal to twenty percent of the total prevailing wage violation found on the contract, whichever is greater, and shall not be permitted to bid, or have a bid considered, on any public works contract until such civil penalty has been paid in full to the director. If a contractor or subcontractor is found to have participated in a violation of the requirement to pay the prevailing rate of wage for a second time within a five-year period, the contractor or subcontractor shall be subject to the sanctions prescribed in this subsection and as an additional sanction shall not be allowed to bid on any public works contract for two years. The governor shall appoint a director for the office, subject to confirmation by the senate. The director may employ a deputy director and a confidential secretary, both of which shall be exempt under chapter 41.06 RCW, and such staff as are necessary to carry out the purposes of this chapter.

The office shall consult with the minority and women's business enterprises advisory committee to:

(1) Develop, plan, and implement programs to provide an opportunity for participation by qualified minority and women-owned and controlled businesses in public works and the process by which goods and services are procured by state agencies and educational institutions from the private sector;

However, the power which may be exercised by the office under this subsection permits investigation and imposition of sanctions only if the investigation relates to a possible violation of chapter 39.19 RCW, and not to violation of local ordinances, rules, regulations, however denominated, adopted by political subdivisions of the state. [1996 c 69 § 5; 1989 c 175 § 85; 1987 c 328 § 3; 1983 c 120 § 3.]

39.19.041 Ad hoc advisory committees. The director may establish ad hoc advisory committees, as necessary, to assist in the development of policies to carry out the purposes of this chapter. [1995 c 269 § 1302.]

39.19.050 Standard clauses required in requests for proposals, advertisements, and bids. The rules adopted under RCW 39.19.030 shall include requirements for standard clauses in requests for proposals, advertisements, bids,
or calls for bids, necessary to carry out the purposes of this chapter, which shall include notice of the statutory penalties under RCW 39.19.080 and 39.19.090 for noncompliance. [1983 c 120 § 5.]

39.19.060 Compliance with public works and procurement goals—Plan to maximize opportunity for minority and women-owned businesses. Each state agency and educational institution shall comply with the annual goals established for that agency or institution under this chapter for public works and procuring goods or services. This chapter applies to all public works and procurement by state agencies and educational institutions, including all contracts and other procurement under chapters 28B.10, 39.04, 39.29, 43.19, and 47.28 RCW. Each state agency shall adopt a plan, developed in consultation with the director and the advisory committee, to insure that minority and women-owned businesses are afforded the maximum practicable opportunity to directly and meaningfully participate in the execution of public contracts for public works and goods and services. 39.19.070 Compliance with goals—Bidding procedures. It is the intent of this chapter that the goals established under this chapter for participation by minority and women-owned and controlled businesses be achievable. If necessary to accomplish this intent, contracts may be awarded to the next lowest responsible bidder in turn, or all bids may be rejected and new bids obtained, if the lowest responsible bidder does not meet the goals established for a particular contract under this chapter. The dollar value of the total contract used for the calculation of the specific contract goal may be increased or decreased to reflect executed change orders. An apparent low-bidder must be in compliance with the contract provisions required under this chapter as a condition precedent to the granting of a notice of award by any state agency or educational institution. [1994 c 15 § 1; 1987 c 328 § 4; 1983 c 120 § 7.]

39.19.075 Compliance with goals—Valuation of goods or services. For purposes of measuring an agency’s or educational institution’s goal attainment, any regulations adopted under RCW 39.19.030(7)(e) must provide that if a certified minority and women’s business enterprise is a broker of goods or materials required under a contract, the contracting agency or educational institution may count only the dollar value of the fee or commission charged and not the value of goods or materials provided. The contracting agency or educational institution may, at its discretion, fix the dollar value of the fee or commission charged at either the actual dollar value of the fee or commission charged or at a standard percentage of the total value of the brokered goods, which percentage must reflect the fees or commissions generally paid to brokers for providing such services. [1996 c 69 § 6.]

39.19.080 Prohibited activities—Penalties. (1) A person, firm, corporation, business, union, or other organization shall not:

(a) Prevent or interfere with a contractor’s or subcontractor’s compliance with this chapter, or any rule adopted under this chapter;

(b) Submit false or fraudulent information to the state concerning compliance with this chapter or any such rule;

(c) Fraudulently obtain, retain, attempt to obtain or retain, or aid another in fraudulently obtaining or retaining or attempting to obtain or retain certification as a minority or women’s business enterprise for the purpose of this chapter;

(d) Knowingly make a false statement, whether by affidavit, verified statement, report, or other representation, to a state official or employee for the purpose of influencing the certification or denial of certification of any entity as a minority or women’s business enterprise;

(e) Knowingly obstruct, impede, or attempt to obstruct or impede any state official or employee who is investigating the qualification of a business entity that has requested certification as a minority or women’s business enterprise;

(f) Fraudulently obtain, attempt to obtain, or aid another person in fraudulently obtaining or attempting to obtain public moneys to which the person is not entitled under this chapter; or

(g) Knowingly make false statements that any entity is or is not certified as a minority or women’s business enterprise for purposes of obtaining a contract governed by this chapter.

(2) Any person or entity violating this chapter or any rule adopted under this chapter shall be subject to the penalties in RCW 39.19.090. Nothing in this section prevents the state agency or educational institution from pursuing such procedures or sanctions as are otherwise provided by statute, rule, or contract provision. [1987 c 328 § 5; 1983 c 120 § 8.]

39.19.090 Compliance with chapter or contract—Remedies. If a person, firm, corporation, or business does not comply with any provision of this chapter or with a contract requirement established under this chapter, the state may withhold payment, debar the contractor, suspend, or terminate the contract and subject the contractor to civil penalties of up to ten percent of the amount of the contract or up to five thousand dollars for each violation. The office shall adopt, by rule, criteria for the imposition of penalties under this section. Wilful repeated violations, exceeding a single violation, may disqualify the contractor from further participation in state contracts for a period of up to three years. An apparent low-bidder must be in compliance with the contract provisions required under this chapter as a condition precedent to the granting of a notice of award by any state agency or educational institution.

The office shall follow administrative procedures under chapter 34.05 RCW in determining a violation and imposing penalties under this chapter.

The procedures and sanctions in this section are not exclusive; nothing in this section prevents the state agency or
educational institution administering the contracts from pursuing such procedures or sanctions as are otherwise provided by statute, rule, or contract provision. [1987 c 328 § 6; 1983 c 120 § 9.]

39.19.100 Enforcement by attorney general—Injunctive relief. The attorney general may bring an action in the name of the state against any person to restrain and prevent the doing of any act prohibited or declared to be unlawful in this chapter. The attorney general may, in the discretion of the court, recover the costs of the action including reasonable attorneys’ fees and the costs of investigation. [1987 c 328 § 12.]

39.19.110 Enforcement by attorney general—Investigative powers. (1) Whenever the attorney general believes that any person (a) may be in possession, custody, or control of any original or copy of any book, record, report, memorandum, paper, communication, tabulation, map, chart, photograph, mechanical transcription, or other tangible document or recording, wherever situated, that the attorney general believes to be relevant to the subject matter of an investigation, the attorney general may require such person to answer written interrogatories or give oral testimony regarding a possible violation of this chapter, or of any provision of a contract as required by this chapter, or (b) may have knowledge of any information that the attorney general believes relevant to the subject matter of such an investigation, the attorney general may, before instituting a civil proceeding thereon, execute in writing and cause to be served upon such a person, a civil investigative demand requiring the person to produce the documentary material and permit inspection and copying, to answer in writing written interrogatories, to give oral testimony, or any combination of demands pertaining to the documentary material or information. Documents and information obtained under this section shall not be admissible in criminal prosecutions.

(2) Each such demand shall:
(a) State the statute, the alleged violation of which is under investigation, and the general subject matter of the investigation;
(b) State with reasonable specificity what documentary material is required, if the demand is for the production of documentary material;
(c) Prescribe a return date governed by the court rules within which the documentary material is to be produced, the answers to written interrogatories are to be made, or a date, time, and place at which oral testimony is to be taken; and
(d) Identify the members of the attorney general’s staff to whom such documentary material is to be made available for inspection and copying, to whom answers to written interrogatories are to be made, or who are to conduct the examination for oral testimony.

(3) No such demand may:
(a) Contain any requirement that would be unreasonable or improper if contained in a subpoena duces tecum, a request for answers to written interrogatories, or a notice of deposition upon oral examination issued under the court rules of this state; or

(b) Require the disclosure of any documentary material which would be privileged, or which for any other reason would not be required by a subpoena duces tecum issued by a court of this state.

(4) Service of any such demand may be made by:
(a) Delivering a duly executed copy thereof to the person to be served, or, if that person is not a natural person, to any officer or managing agent of the person to be served;
(b) Delivering a duly executed copy thereof to the principal place of business in this state of the person to be served;
or
(c) Mailing by registered or certified mail a duly executed copy thereof addressed to the person to be served at the principal place of business in this state, or, if that person has no place of business in this state, to the person’s principal office or place of business.

(5)(a) Documentary material demanded under this section shall be produced for inspection and copying during normal business hours at the principal office or place of business of the person served, or at such other times and places as may be agreed upon by the person served and the attorney general;
(b) Written interrogatories in a demand served under this section shall be answered in the same manner as provided in the civil rules for superior court;
(c) The oral testimony of any person obtained pursuant to a demand served under this section shall be taken in the same manner as provided in the civil rules for superior court for the taking of depositions. 39.19.120 Certification of business enterprises. If the office grants the petition, it may revoke, suspend, or refuse to renew the certification or impose sanctions under this chapter as appropriate.

(4) The office’s decision on a petition is administratively final and the rights of appeal set out in the office regulations shall apply. A certification shall remain in effect while a petition is pending. [1987 c 328 § 10.]

39.19.160 Local government responsible for monitoring compliance. Any city, town, county, special purpose district, public corporation created by the state, municipal corporation, or quasi-municipal corporation within the state of Washington utilizing the certification by the office retains the responsibility for monitoring compliance with the programs under its jurisdiction. Intent—2009 c 486: "In addition to providing integrated, tailored management and technical assistance services to Washington small businesses, the legislature intends that the state shall further support them by developing procurement policies, procedures, and materials that encourage and facilitate state agency purchase of products and services from Washington small businesses." (4) Contracts between a consultant and an agency of less than twenty thousand dollars. However, contracts of five thousand dollars or greater but less than twenty thousand dollars shall have documented evidence of competition, which must include agency posting of the contract opportunity on the state's common vendor registration and bid notification system. Agencies shall not structure contracts to evade these requirements; and

For sole source contracts of twenty thousand dollars or more, documented justification shall also include evidence that the agency attempted to identify potential consultants by advertising through statewide or regional newspapers.

(2) The office of financial management shall approve sole source contracts of twenty thousand dollars or more before any such contract becomes binding and before any services may be performed under the contract. These requirements shall also apply to sole source contracts of less than twenty thousand dollars if the total amount of such contracts between an agency and the same consultant is twenty thousand dollars or more within a fiscal year. Agencies shall ensure that the costs, fees, or rates negotiated in filed sole source contracts of twenty thousand dollars or more are reasonable. [2009 c 486 § 8; 1998 c 101 § 5; 1996 c 288 § 30; 1993 c 433 § 5; 1987 c 414 § 5.]

Substantial changes executed by contract amendments must be submitted to the office of financial management, and are subject to approval by the office of financial management.

Reviser's note: This section was amended by 2002 c 200 § 2 and by 2002 c 260 § 11, each without reference to the other. Both amendments are incorporated in the publication of this section under RCW 1.12.025(2). For rule of construction, see RCW 1.12.025(1).

Findings—2002 c 200: "The legislature finds that limited-English speaking and sensory-impaired applicants and recipients of public assistance often require interpreter services in order to communicate effectively with employees of the department of social and health services, medical professionals, and other social services personnel. The legislature further finds that interpreter services can be procured and delivered through a variety of different means. It is in the public's interest for the department to deliver interpreter services, to the extent funds are available, by the means which it determines most cost-effectively ensure that limited-English speaking and sensory-impaired persons are able to communicate with department employees and service providers." Sections

39.30.010 Executory conditional sales contracts for purchase of property—Limit on indebtedness—Election, when. Any city or town or metropolitan park district or county or library district may execute an executory conditional sales contract with a county or counties, the state or any of its political subdivisions, the government of the United States, or any private party for the purchase of any real or personal property, or property rights in connection with the exercise of any powers or duties which they now or hereafter are authorized to exercise, if the entire amount of the purchase price specified in such contract does not result in a total
indebtedness in excess of three-fourths of one percent of the value of the taxable property in such library district or the maximum amount of nonvoter-approved indebtedness authorized in such county, city, town, or metropolitan park district. If such a proposed contract would result in a total indebtedness in excess of this amount, a proposition in regard to whether or not such a contract may be executed shall be submitted to the voters for approval or rejection in the same manner that bond issues for capital purposes are submitted to the voters. Any city or town or metropolitan park district or county or library district may jointly execute contracts authorized by this section, if the entire amount of the purchase price does not result in a joint total indebtedness in excess of the nonvoter-approved indebtedness limitation of any city, town, metropolitan park district, county, or library district that participates in the jointly executed contract. The term "value of the taxable property" shall have the meaning set forth in RCW 39.36.015. [1997 c 361 § 2; 1970 ex.s. c 42 § 26; 1963 c 92 § 1; 1961 c 158 § 1.]

39.30.020 Contracts requiring competitive bidding or procurement of services—Violations by municipal officer—Penalties. In addition to any other remedies or penalties contained in any law, municipal charter, ordinance, resolution or other enactment, any municipal officer by or through whom or under whose supervision, in whole or in part, any contract is made in willful and intentional violation of any law, municipal charter, ordinance, resolution or other enactment requiring competitive bidding or procurement procedures for consulting, architectural, engineering, or other services, upon such contract shall be held liable to a civil penalty of not less than three hundred dollars and may be held liable, jointly and severally with any other such municipal officer, for all consequential damages to the municipal corporation. If, as a result of a criminal action, the violation is found to have been intentional, the municipal officer shall immediately forfeit his or her office. For purposes of this section, "municipal officer" means an "officer" or "municipal officer" as those terms are defined in RCW 39.04.010. [1982 c 61 § 4.]

Contracts by cities or towns, bidding requirements: RCW 35.23.352.

39.30.040 Purchases—Competitive bidding—Local governments may consider tax revenues—Purchase of recycled or reused materials or products. (1) Whenever a unit of local government is required to make purchases from the lowest bidder or from the supplier offering the lowest price for the items desired to be purchased, the unit of local government may, at its option when awarding a purchase contract, take into consideration tax revenue it would receive from purchasing the supplies, materials, or equipment from the supplier located within its boundaries. The unit of local government must award the purchase contract to the lowest bidder after such tax revenue has been considered. However, any local government may allow for preferential purchase of products made from recycled materials or products that may be recycled or reused. The tax revenues which units of local government may consider include sales taxes that the unit of local government imposes upon the sale of such supplies, materials, or equipment from the supplier to the unit of local government, and business and occupation taxes that the unit of local government imposes upon the supplier that are measured by the gross receipts of the supplier from such sale. Any unit of local government which considers tax revenues it would receive from the imposition of taxes upon a supplier located within its boundaries, shall also consider tax revenues it would receive from taxes it imposes upon a supplier located outside its boundaries.

(2) As used in this section, the term "unit of local government" means any county, city, town, metropolitan municipal corporation, public transit benefit area, county transportation authority, or other municipal or quasi-municipal corporation authorized to impose sales and use taxes or business and occupation taxes. [1989 c 431 § 58; 1985 c 72 § 1.]

39.30.045 Purchase at auctions. Any municipality, as defined in RCW 39.04.010, may purchase any supplies, equipment, or materials at auctions conducted by the government of the United States or any agency thereof, any agency of the state of Washington, any municipality or other government agency, or any private party without being subject to public bidding requirements if the items can be obtained at a competitive price. [1993 c 198 § 4; 1991 c 363 § 112.]

Purpose—Captions not law—1991 c 363: See notes following RCW 2.32.180.

39.30.050 Contracts to require use of paper products meeting certain specifications. Any contract by a governmental unit shall require the use of paper products to the maximum extent economically feasible that meet the specifications established by the department of general administration under RCW 43.19.538. [1982 c 61 § 4.]

39.30.060 Bids on public works—Identification, substitution of subcontractors. (1) Every invitation to bid on a prime contract that is expected to cost one million dollars or more for the construction, alteration, or repair of any public building or public work of the state or a state agency or municipality as defined under RCW 39.04.010 or an institution of higher education as defined under RCW 28B.10.016 shall require each prime contract bidder to submit as part of the bid, or within one hour after the published bid submittal time, the names of the subcontractors with whom the bidder, if awarded the contract, will subcontract for performance of the work of: HVAC (heating, ventilation, and air conditioning); plumbing as described in chapter 18.106 RCW; and electrical as described in chapter 19.28 RCW, or to name itself for the work. The prime contract bidder shall not list more than one subcontractor for each category of work identified, unless subcontractors vary with bid alternates, in which case the prime contract bidder must indicate which subcontractor will be used for which alternate. Failure of the prime contract bidder to submit as part of the bid the names of such subcontractors or to name itself to perform such work or the naming of two or more subcontractors to perform the same work shall render the prime contract bidder’s bid nonresponsive and, therefore, void.
(2) Substitution of a listed subcontractor in furtherance of bid shopping or bid peddling before or after the award of the prime contract is prohibited and the originally listed subcontractor is entitled to recover monetary damages from the prime contract bidder who executed a contract with the public entity and the substituted subcontractor but not from the public entity inviting the bid. It is the original subcontractor’s burden to prove by a preponderance of the evidence that bid shopping or bid peddling occurred. Substitution of a listed subcontractor may be made by the prime contractor for the following reasons:

(a) Refusal of the listed subcontractor to sign a contract with the prime contractor;
(b) Bankruptcy or insolvency of the listed subcontractor;
(c) Inability of the listed subcontractor to perform the requirements of the proposed contract or the project;
(d) Inability of the listed subcontractor to obtain the necessary license, bonding, insurance, or other statutory requirements to perform the work detailed in the contract; or
(e) The listed subcontractor is barred from participating in the project as a result of a court order or summary judgment.

(3) The requirement of this section to name the prime contract bidder’s proposed HVAC, plumbing, and electrical subcontractors applies only to proposed HVAC, plumbing, and electrical subcontractors who will contract directly with the prime contract bidder submitting the bid to the public entity.

(4) This section does not apply to job order contract requests for proposals under RCW 39.10.130. [2003 c 301 § 5; 2002 c 163 § 2; 1999 c 109 § 1; 1995 c 94 § 1; 1994 c 91 § 1; 1993 c 378 § 1.]

(2010 Ed.)
39.32.035 Administration and use of general administration services account—Director's authority to lease and acquire surplus property. The general administration services account shall be administered by the director of general administration and used for the purchase, lease or other acquisition from time to time of surplus property from any federal, state, or local government surplus property disposal agency. The director may purchase, lease or acquire such surplus property on the requisition of an eligible donee and without such requisition at such time or times as he or she deems it advantageous to do so; and in either case he or she shall be responsible for the care and custody of the property purchased so long as it remains in his or her possession.

39.32.040 Procedure to purchase—Requisitions—Price at which sold—Disposition of proceeds—Duties of governor. In purchasing federal surplus property on requisition for any eligible donee the director may advance the purchase price thereof from the general administration services account, and he or she shall then in due course bill the proper eligible donee for the amount paid by him or her for the property plus a reasonable amount to cover the expense incurred by him or her in connection with the transaction. In purchasing surplus property without requisition, the director shall be deemed to take title outright and he or she shall then be authorized to resell from time to time any or all of such property to such eligible donees as desire to avail themselves of the privilege of purchasing. All moneys received in payment for surplus property from eligible donees shall be deposited by the director in the general administration services account. The director shall sell federal surplus property to eligible donees at a price sufficient only to reimburse the general administration services account for the cost of the property to the account, plus a reasonable amount to cover expenses incurred in connection with the transaction. Where surplus property is transferred to an eligible donee without cost to the transferee, the director may impose a reasonable charge to cover expenses incurred in connection with the transaction. The governor, through the director of general administration, shall administer the surplus property program in the state and shall perform or supervise all those functions with respect to the program, its agencies and instrumentalities.

Any agency of the state government when acting jointly with any public agency may exercise and enjoy all of the powers, privileges and authority conferred by this chapter upon a public agency.

(2) Any two or more public agencies may enter into agreements with one another for joint or cooperative action pursuant to the provisions of this chapter, except that any such joint or cooperative action by public agencies which are educational service districts and/or school districts shall comply with the provisions of RCW 28A.320.080. (3) Any such agreement shall specify the following:
(a) Its duration;
(b) The precise organization, composition and nature of any separate legal or administrative entity created thereby together with the powers delegated thereto, provided such entity may be legally created. Except as otherwise provided by law, the full costs of a state agency incurred in providing services or furnishing materials to or for another agency under chapter 39.34 RCW or any other statute shall be charged to the agency contracting for such services or materials and shall be repaid and credited to the fund or appropriation against which the expenditure originally was charged. Amounts representing a return of expenditures from an appropriation shall be considered as returned loans of services or of goods, supplies or other materials furnished, and may be expended as part of the original appropriation to which they belong without further or additional appropriation. Such interagency transactions shall be subject to regulation by the director of financial management, including but not limited to provisions for the determination of costs, prevention of interagency contract costs beyond those which are fully reimbursable, disclosure of reimbursements in the governor’s budget and such other requirements and restrictions as will promote more economical and efficient operations of state agencies.

Except as otherwise provided by law, this section shall not apply to the furnishing of materials or services by one agency to another when other funds have been provided specifically for that purpose pursuant to law. [1979 c 151 § 45; 1969 ex.s. c 61 § 1.]

Duty to submit agreement of jurisdictional state officer or agency: RCW 39.34.050.

39.34.140 Transactions between state agencies—Procedures for payments through transfers upon accounts. Such procedures, when established, shall include provision for corresponding entries to be made in the accounts of the affected agencies. [1979 c 151 § 46; 1969 ex.s. c 61 § 2.]

39.34.150 Transactions between state agencies—Advancements. State agencies are authorized to advance
funds to defray charges for materials to be furnished or services to be rendered by other state agencies. Such advances shall be made only upon the approval of the director of financial management, or his order made pursuant to an appropriate regulation requiring advances in certain cases. An advance shall be made from the fund or appropriation available for the procuring of such services or materials, to the state agency which is to perform the services or furnish the materials, in an amount no greater than the estimated charges therefor. [1969 ex.s. c 61 § 4.]

39.34.170 Transactions between state agencies—Powers and authority cumulative. The powers and authority conferred by RCW 39.34.130 through 39.34.160 shall be construed as in addition and supplemental to powers or authority conferred by any other law, and not to limit any other powers or authority of any public agency expressly granted by any other statute. [1969 ex.s. c 61 § 5.]

39.34.180 Criminal justice responsibilities—Interlocal agreements—Termination. (1) Each county, city, and town is responsible for the prosecution, adjudication, sentencing, and incarceration of misdemeanor and gross misdemeanor offenses committed by adults in their respective jurisdictions, and referred from their respective law enforcement agencies, whether filed under state law or city ordinance, and must carry out these responsibilities through the use of their own courts, staff, and facilities, or by entering into contracts or interlocal agreements under this chapter to provide these services. Nothing in this section is intended to alter the statutory responsibilities of each county for the prosecution, adjudication, sentencing, and incarceration for not more than one year of felony offenders, nor shall this section apply to any offense initially filed by the prosecuting attorney as a felony offense or an attempt to commit a felony offense.

(2) The following principles must be followed in negotiating interlocal agreements or contracts: Cities and counties must consider (a) anticipated costs of services; and (b) anticipated and potential revenues to fund the services, including fines and fees, criminal justice funding, and state-authorized sales tax funding levied for criminal justice purposes.

(3) If an agreement as to the levels of compensation within an interlocal agreement or contract for gross misdemeanor and misdemeanor services cannot be reached between a city and county, then either party may invoke binding arbitration on the compensation issued by notice to the other party. In the case of establishing initial compensation, the notice shall request arbitration within thirty days. In the case of nonrenewal of an existing contract or interlocal agreement, the notice must be given one hundred twenty days prior to the expiration of the existing contract or agreement and the existing contract or agreement remains in effect until a new agreement is reached or until an arbitration award on the matter of fees is made. The city and county each select one arbitrator, and the initial two arbitrators pick a third arbitrator.

(4) A city or county that wishes to terminate an agreement for the provision of court services must provide written notice of the intent to terminate the agreement in accordance with RCW 3.50.810 and 35.20.010.

(5) For cities or towns that have not adopted, in whole or in part, criminal code or ordinance provisions related to misdemeanor and gross misdemeanor crimes as defined by state law, this section shall have no application until July 1, 1998. [2001 c 68 § 4; 1996 c 308 § 1.]

(1) The legislative authority of a city or county and the governing body of any special purpose district enumerated in subsection (2) of this section may authorize up to ten percent of its water-related revenues to be expended in the implementation of watershed management plan projects or activities that are in addition to the county’s, city’s, or district’s existing water-related services or activities. Such limitation on expenditures shall not apply to water-related revenues of a public utility district organized according to Title 54 RCW. Water-related revenues include rates, charges, and fees for the provision of services relating to water supply, treatment, distribution, and management generally, and those general revenues of the local government that are expended for water management purposes. A local government may not expend for this purpose any revenues that were authorized by voter approval for other specified purposes or that are specifically dedicated to the repayment of municipal bonds or other debt instruments.

(2) The following special purpose districts may exercise the authority provided by this section:

(a) Water districts, sewer districts, and water-sewer districts organized under Title 57 RCW;

(b) Public utility districts organized under Title 54 RCW;

(c) Irrigation, reclamation, conservation, and similar districts organized under Titles 87 and 89 RCW;

(d) Port districts organized under Title 53 RCW;

(e) Diking, drainage, and similar districts organized under Title 85 RCW;

(f) Flood control and similar districts organized under Title 86 RCW;

(g) Lake or beach management districts organized under chapter 36.61 RCW;

(h) Aquifer protection areas organized under chapter 36.36 RCW; and

(i) Shellfish protection districts organized under chapter 90.72 RCW.

(3) The authority for expenditure of local government revenues provided by this section shall be applicable broadly to the implementation of watershed management plans addressing water supply, water transmission, water quality treatment or protection, or any other water-related purposes.
Such plans include but are not limited to plans developed under the following authorities:

(a) Watershed plans developed under chapter 90.82 RCW;
(b) Salmon recovery plans developed under chapter 77.85 RCW;

(f) Other comprehensive management plans addressing watershed health at a WRIA level or sub-WRIA basin drainage level;
(g) Coordinated water system plans under chapter 70.116 RCW and similar regional plans for water supply; and
(h) Any combination of the foregoing plans in an integrated watershed management plan.

(4) The authority provided by this section to expend revenues for watershed management plan implementation shall be construed broadly to include, but not be limited to:

(a) The coordination and oversight of plan implementation, including funding a watershed management partnership for this purpose;
(b) Technical support, monitoring, and data collection and analysis;
(c) The design, development, construction, and operation of projects included in the plan; and
(d) Conducting activities and programs included as elements in the plan. [2008 c 301 § 26; 2003 c 327 § 2.]

Finding—Intent—2003 c 327: “The legislature finds that throughout Washington state there are many active efforts to protect, manage, and restore watersheds. The state’s river systems provide a variety of benefits for society’s many needs, so efforts to protect these watersheds should reflect the diversity of social, environmental, and economic factors that make the state unique.

Yet, there is a conflict between the natural flow of river systems and the way watersheds are governed. From a hydrological standpoint, a watershed is a single, integrated system. But these systems usually flow through a number of cities, counties, and other municipalities as they move from their source to the sea. As a result, many are subject to the full range of management interests, including multiple government entities with jurisdiction over water. In many cases, the political boundaries of government do not align with the hydrological boundaries of watersheds and may actually hinder the implementation of coordinated, cooperative plans. Cooperative watershed management actions by local governments, special districts, and utilities can help maintain healthy watershed function and support the beneficial uses of water by these entities and protect the quality of the resource that they use or affect. By participating in cooperative watershed management actions, local governments, special districts, and utilities are acting in the public interest and in a manner that is intended to sustain maximum beneficial use and high quality of water over time and to maintain the services that these entities provide.

Therefore, it is the intent of this act to remove statutory barriers that may prevent local governments from working together in the creation and implementation of cooperative, coordinated watershed plans. In addition, it is the further intent of this act to provide additional authorities to assist in such implementation.” [2003 c 327 § 1.]

39.34.220 Watershed management plans—Additional authority for implementation—Existing agreements not affected. The amendments by chapter 327, Laws of 2003 to the interlocal cooperation act authorities are intended to provide additional authority to public agencies for the purposes of implementing watershed management plans, and do not affect any agreements among public agencies existing on July 27, 2003. 39.34.230 Covered emergencies—Interlocal agreements for mutual aid and cooperation—Liability of state—Existing rights. (1) During a covered emergency, the *department of community, trade, and economic development may enter into interlocal agreements under this chapter with one or more public agencies for the purposes of providing mutual aid and cooperation to any public agency affected by the cause of the emergency.

(2) All legal liability by a public agency and its employees for damage to property or injury or death to persons caused by acts done or attempted during, or while traveling to or from, a covered emergency, or in preparation for a covered emergency, pursuant to an interlocal agreement entered into under this section, or under the color of this section in a bonafide attempt to comply therewith, shall be the obligation of the state of Washington. Suits may be instituted and maintained against the state for the enforcement of such liability, or for the indemnification of any public agency or its employees for damage done to their private property, or for any judgment against them for acts done in good faith in compliance with this chapter. PROVIDED, That the foregoing shall not be construed to result in indemnification in any case of willful misconduct, gross negligence, or bad faith on the part of any public agency or any of a public agency’s employees: PROVIDED, That should the United States or any agency thereof, in accordance with any federal statute, rule, or regulation, provide for the payment of damages to property and/or for death or injury as provided for in this section, then and in that event there shall be no liability or obligation whatsoever upon the part of the state of Washington for any such damage, death, or injury for which the United States government assumes liability.

(3) For purposes of this section, "covered emergency" means an emergency for which the governor has proclaimed a state of emergency under RCW 43.06.010, and for which the governor has authorized the *department of community, trade, and economic development to enter into interlocal agreements under this section.

(4) This section shall not affect the right of any person to receive benefits to which he or she would otherwise be entitled under the workers’ compensation law, or under any pension or retirement law, nor the right of any such person to receive any benefits or compensation under any act of congress. [2008 c 181 § 101.]

39.35.010 Legislative finding. The legislature hereby finds:

(1) That major publicly owned or leased facilities have a significant impact on our state’s consumption of energy;

(2) That energy conservation practices including energy management systems and renewable energy systems adopted for the design, construction, and utilization of such facilities will have a beneficial effect on our overall supply of energy;

(3) That the cost of the energy consumed by such facilities over the life of the facilities shall be considered in addition to the initial cost of constructing such facilities;

(4) That the cost of energy is significant and major facility designs shall be based on the total life-cycle cost, including the initial construction cost, and the cost, over the economic life of a major facility, of the energy consumed, and of the operation and maintenance of a major facility as they affect energy consumption; and

(5) That the use of energy systems in these facilities which utilize renewable resources such as solar energy, wood or wood waste, or other nonconventional fuels, and which incorporate energy management systems, shall be considered in the design of all publicly owned or leased facilities. [2001 c 214 § 15; 1982 c 159 § 1; 1975 1st ex.s. c 177 § 1.]

Findings—2001 c 214: "(1) The legislature hereby finds that:

(a) The economy of the state and the health, safety, and welfare of its citizens are threatened by the current energy supply and price instabilities; and

(b) Many energy efficiency programs for public buildings launched during the 1970s and 1980s were not maintained during the subsequent sustained period of low energy costs and abundant supply; and

(c) Conservation programs originally established in the 1970s and 1980s can be improved or updated. New programs drawing on recently developed technologies, including demand-side energy management systems, can materially increase the efficiency of energy use by the public sector.

(2) It is the policy of the state of Washington that:

(a) State government is committed to achieving significant gains in energy efficiency. Conventional conservation programs will be reviewed and updated in light of experience gained since their commencement;

(b) State government must play a leading role in demonstrating updated and new energy efficiency technologies. New programs or measures made possible by technological advances, such as demand-side response measures and energy management systems, shall be treated in the same manner as conventional conservation programs and will be integrated into the state’s energy efficiency programs." 39.35.020 Legislative declaration. The legislature declares that it is the public policy of this state to insure that energy conservation practices and renewable energy systems are employed in the design of major publicly owned or leased facilities and that the use of at least one renewable energy system is considered. To this end the legislature authorizes and directs that public agencies analyze the cost of energy consumption of each major facility to be planned and constructed or renovated after September 8, 1975. [1982 c 159 § 2; 1975 1st ex.s. c 177 § 2.]

39.35.060 Life-cycle cost analysis—Review fees. The department may impose fees upon affected public agencies for the review of life-cycle cost analyses. The fees shall be deposited in the general administration services account. The purpose of the fees is to recover all of its costs related to increasing the energy efficiency of state-supported new construction. The fees shall not exceed one-tenth of one percent of the total cost of any project or exceed two thousand dollars for any project unless mutually agreed to. The department shall provide detailed calculation ensuring that the energy savings resulting from its review of life-cycle cost analysis justify the costs of performing that review. LIFE-CYCLE COST ANALYSIS OF PUBLIC FACILITIES

39.35B.030 Intent.
39.35B.040 Implementation.
39.35B.050 Life-cycle cost model and analysis—Duties of the office of financial management.

39.35B.010 Legislative findings. The legislature finds that:

(1) Operating costs of a facility over its lifetime may greatly exceed the initial cost of the facility;

(2) In the planning, design, and funding for new construction or major renovation of state-owned facilities it is desirable to consider not only the initial costs relating to design and construction or acquisition, but the anticipated operating costs relating to the building throughout its life;

(3) The consideration of both initial and operating costs is known as life-cycle cost or life-cycle cost analysis;

(4) Operating costs of a facility for purposes of this chapter include, but are not limited to, energy costs, maintenance and repair costs, and costs of the work or activity performed within the facility, including wages and salaries;

(5) Current law, chapter 39.35 RCW, speaks to life-cycle cost analysis only in relation to energy conservation; and

(6) Life-cycle cost may not be suitable or cost-effective for all capital projects or all components of a facility, and is not an exclusive criteria for decision-making, but is nonetheless a useful framework for evaluating design and capital investment alternatives. [1986 c 127 § 1.]

39.35B.020 Legislative declaration. The legislature declares that:

(1) It is the policy of the state to consider life-cycle costs in the selection of facility design alternatives, to the full extent practical, reasonable, and cost-effective;

(2) Life-cycle cost should be considered by the state government, school districts, and state universities and community colleges in the planning, design, and funding for new construction or major renovations; and

(3) Use of life-cycle cost should be encouraged for cities, counties, and other governmental districts including special purpose districts. [1986 c 127 § 2.]

39.35B.030 Intent. It is the intent of the legislature to:

(1) Expand the definition and use of "life-cycle cost" and "life-cycle cost analysis" to include consideration of all operating costs, as opposed to only energy-related costs as addressed by chapter 39.35 RCW;

(2) Encourage the recognition, development, and use of life-cycle cost concepts and procedures by both the executive and legislative branches in the state’s design development and capital budgeting processes;

(3) Ensure the dissemination and use of a common and realistic discount rate by all state agencies in the calculation of the present value of future costs;

(4) Allow and encourage the executive branch to develop specific techniques and procedures for the state government and its agencies, and state universities and community colleges to implement this policy; and

(5) Encourage cities, counties, and other governmental districts including special purpose districts to adopt programs and procedures to implement this policy. [1986 c 127 § 3.]

39.35B.040 Implementation. The principal executives of all state agencies are responsible for implementing the policy set forth in this chapter. The office of financial management in conjunction with the department of general administration may establish guidelines for compliance by the state government and its agencies, and state universities and community colleges. The office of financial management shall include within its biennial capital budget instructions:

(1) A discount rate for the use of all agencies in calculating the present value of future costs, and several examples of resultant trade-offs between annual operating costs eliminated and additional capital costs thereby justified; and

(2) Types of projects and building components that are particularly appropriate for life-cycle cost analysis. [1986 c 127 § 4.]

39.35B.050 Life-cycle cost model and analysis—Duties of the office of financial management. The office of financial management shall:

(1) Design and implement a cost-effective life-cycle cost model by October 1, 2008, based on the work completed by the joint legislative audit and review committee in January 2007 and in consultation with legislative fiscal committees;

(2) Deploy the life-cycle cost model for use by state agencies once completed and tested;

(3) Update the life-cycle cost model periodically in consultation with legislative fiscal committees;

(4) Establish clear policies, standards, and procedures regarding the use of life-cycle cost analysis by state agencies including:

(a) When state agencies must use the life-cycle cost analysis, including the types of proposed capital projects and leased facilities to which it must be applied;

(b) Procedures state agencies must use to document the results of required life-cycle cost analyses;

(c) Standards regarding the discount rate and other key model assumptions; and

(d) A process to document and justify any deviation from the standard assumptions. [2007 c 506 § 3.]

Findings—Intent—2007 c 506: See note following RCW 43.82.035.

Performance-based contracting shall be the preferred method for completing energy audits and implementing cost-effective conservation measures.

(2) The department shall assist state agencies and school districts in identifying, evaluating, and implementing cost-effective conservation projects at their facilities. The assistance shall include the following:

(a) Notifying state agencies and school districts of their responsibilities under this chapter;

(b) Apprising state agencies and school districts of opportunities to develop and finance such projects;

(c) Providing technical and analytical support, including procurement of performance-based contracting services;

(d) Reviewing verification procedures for energy savings; and
(e) Assisting in the structuring and arranging of financing for cost-effective conservation projects.

(3) Conservation projects implemented under this chapter shall have appropriate levels of monitoring to verify the performance and measure the energy savings over the life of the project. The department shall solicit involvement in program planning and implementation from utilities and other energy conservation suppliers, especially those that have demonstrated experience in performance-based energy programs.

(4) The department shall comply with the requirements of chapter 39.80 RCW when contracting for architectural or engineering services.

(5) The department shall recover any costs and expenses it incurs in providing assistance pursuant to this section, including reimbursement from third parties participating in conservation projects. The department shall enter into a written agreement with the public agency for the recovery of costs. [2001 c 214 § 21; 1996 c 186 § 406; 1991 c 201 § 3.]

39.35C.025 Energy audit of school district facilities—Completion dates—Identification, implementation of cost-effective energy conservation measures. (1) Except as provided in subsections (2) and (3) of this section, each school district shall conduct an energy audit of its facilities. This energy audit may be conducted by contract or by other arrangement, including appropriate district staff. Performance-based contracting shall be the preferred method for implementing and completing energy audits.

(a) For each district facility, the energy consumption surveys shall be completed no later than December 31, 2001, and the walk-through surveys shall be completed no later than October 1, 2002. Upon completion of each walk-through survey, the district shall implement energy conservation maintenance and operation procedures that may be identified for any district facility. These procedures shall be implemented as soon as possible, but not later than twelve months after the walk-through survey.

(b) Except as provided in subsection (3) of this section, if a walk-through survey has identified potentially cost-effective energy conservation measures, the district shall undertake an investment grade audit of the facility. Investment grade audits shall be completed no later than June 30, 2003, and installation of cost-effective conservation measures recommended in the investment grade audit shall be completed no later than December 31, 2004.

(2) A school district that, after December 31, 1997, has completed energy audits and implemented cost-effective conservation measures, or has contracted with an energy service company for energy audits and conservation measures, is deemed to have met the requirements of this section for those facilities included in the audits and conservation measures.

(3) A school district that after reasonable efforts and consultation with the department is unable to obtain a contract with an energy service company to conduct an investment grade audit or install cost-effective conservation measures recommended in an investment grade audit, is exempt from the requirements of subsection (1)(b) of this section. [2001 c 214 § 22.]

Severability—Effective date—2001 c 214: See notes following RCW 80.50.010.

39.35C.030 Department coordination of conservation development with utilities. (1) The department shall consult with the local utilities to develop priorities for energy conservation projects pursuant to this chapter, cooperate where possible with existing utility programs, and consult with the local utilities prior to implementing projects in their service territory.

(2) A local utility shall be offered the initial opportunity to participate in the development of conservation projects in the following manner:

(a) Before initiating projects in a local utility service territory, the department shall notify the local utility in writing, on an annual basis, of public facilities in the local utility’s service territory at which the department anticipates cost-effective conservation projects will be developed.

(b) Within sixty days of receipt of this notification, the local utility may express interest in these projects by submitting to the department a written description of the role the local utility is willing to perform in developing and acquiring the conservation at these facilities. This role may include any local utility conservation programs which would be available to the public facility, any competitive bidding or solicitation process which the local utility will be undertaking in accordance with the rules of the utilities and transportation commission or the public utility district, municipal utility, cooperative, or mutual governing body for which the public facility would be eligible, or any other role the local utility may be willing to perform.

(c) Upon receipt of the written description from the local utility, the department shall, through discussions with the local utility, and with involvement from state agencies and school districts responsible for the public facilities, develop a plan for coordinated delivery of conservation services and financing or make a determination of whether to participate in the local utility’s competitive bidding or solicitation process. The plan shall identify the local utility in roles that the local utility is willing to perform and that are consistent with the provisions of RCW 39.35C.040(2) (d) and (e). [1996 c 186 § 407; 1991 c 201 § 4.]

Findings—Intent—Part headings not law—Effective date—1996 c 186: See notes following RCW 43.330.904.

39.35C.040 Sale of conserved energy. (1) It is the intent of this chapter that the state, state agencies, and school districts are compensated fairly for the energy savings provided to utilities and be allowed to participate on an equal basis in any utility conservation program, bidding, or solicitation process. State agencies and school districts shall not receive preferential treatment. For the purposes of this section, any type of compensation from a utility or the Bonneville power administration intended to achieve reductions or efficiencies in energy use which are cost-effective to the utility or the Bonneville power administration shall be regarded
as a sale of energy savings. Such compensation may include credits to the energy bill, low or no interest loans, rebates, or payment per unit of energy saved. The department shall, in coordination with utilities, the Bonneville power administration, state agencies, and school districts, facilitate the sale of energy savings at public facilities including participation in any competitive bidding or solicitation which has been agreed to by the state agency or school district. Energy savings may only be sold to local utilities or, under conditions specified in this section, to the Bonneville power administration. The department shall not attempt to sell energy savings occurring in one utility service territory to a different utility. Nothing in this chapter mandates that utilities purchase the energy savings.

(2) To ensure an equitable allocation of benefits to the state, state agencies, and school districts, the following conditions shall apply to transactions between utilities or the Bonneville power administration and state agencies or school districts for sales of energy savings:
   (a) A transaction shall be approved by both the state agency or school district and the department.
   (b) The state agency or school district and the department shall work together throughout the planning and negotiation process for such transactions unless the department determines that its participation will not further the purposes of this section.
   (c) Before making a decision under (d) of this subsection, the department shall review the proposed transaction for its technical and economic feasibility, the adequacy and reasonableness of procedures proposed for verification of project or program performance, the degree of certainty of benefits to the state, state agency, or school district, the degree of risk assumed by the state or school district, the benefits offered to the state, state agency, or school district and such other factors as the department determines to be prudent.
   (d) The department shall approve a transaction unless it finds, pursuant to the review in (c) of this subsection, that the transaction would not result in an equitable allocation of costs and benefits to the state, state agency, or school district, in which case the transaction shall be disapproved.
   (e) In addition to the requirements of (c) and (d) of this subsection, in areas in which the Bonneville power administration has a program for the purchase of energy savings at public facilities, the department shall approve the transaction unless the local utility cannot offer a benefit substantially equivalent to that offered by the Bonneville power administration, in which case the transaction shall be disapproved. In determining whether the local utility can offer a substantially equivalent benefit, the department shall consider the net present value of the payment for energy savings; any goods, services, or financial assistance provided by the local utility; and any risks borne by the local utility. Any direct negative financial impact on a nongrowing, local utility shall be considered.

(3) Any party to a potential transaction may, within thirty days of any decision to disapprove a transaction made pursuant to subsection (2)(c), (d), or (e) of this section, request an independent reviewer who is mutually agreeable to all parties to the transaction to review the decision. The parties shall within thirty days of selection submit to the independent reviewer documentation supporting their positions. The independent reviewer shall render advice regarding the validity of the disapproval within an additional thirty days. [1996 c 186 § 408; 1991 c 201 § 5.]

Findings—Intent—Part headings not law—Effective date—1996 c 186: See notes following RCW 43.330.904.

39.35C.050 Authority of state agencies and school districts to implement conservation. In addition to any other authorities conferred by law:
   (1) The department, with the consent of the state agency or school district responsible for a facility, a state or regional university acting independently, and any other state agency acting through the department of general administration or as otherwise authorized by law, may:
   (a) Develop and finance conservation at public facilities in accordance with express provisions of this chapter;
   (b) Contract for energy services, including performance-based contracts;
   (c) Contract to sell energy savings from a conservation project at public facilities to local utilities or the Bonneville power administration.
   (2) A state or regional university acting independently, and any other state agency acting through the department of general administration or as otherwise authorized by law, may undertake procurements for third-party development of conservation at its facilities.
   (3) A school district may:
   (a) Develop and finance conservation at school district facilities;
   (b) Contract for energy services, including performance-based contracts at school district facilities; and
   (c) Contract to sell energy savings from energy conservation projects at school district facilities to local utilities or the Bonneville power administration directly or to local utilities or the Bonneville power administration through third parties.
   (4) In exercising the authority granted by subsections (1), (2), and (3) of this section, a school district or state agency must comply with the provisions of RCW 39.35C.040. [1996 c 186 § 409; 1991 c 201 § 6.]

Findings—Intent—Part headings not law—Effective date—1996 c 186: See notes following RCW 43.330.904.

39.35C.060 Authority to finance conservation in school districts and state agencies. State agencies may use financing contracts under chapter 39.94 RCW to provide all or part of the funding for conservation projects. The department shall determine the eligibility of such projects for financing contracts. The repayments of the financing contracts shall be sufficient to pay, when due, the principal and interest on the contracts. [1996 c 186 § 410; 1991 c 201 § 7.]

Findings—Intent—Part headings not law—Effective date—1996 c 186: See notes following RCW 43.330.904.

39.35C.070 Development of cogeneration projects. (1) Consistent with the region’s need to develop cost-effective, high efficiency electric energy resources, the state shall investigate and, if appropriate, pursue development of cost-effective opportunities for cogeneration in existing or new state facilities.
(2) To assist state agencies in identifying, evaluating, and developing potential cogeneration projects at their facilities, the department shall notify state agencies of their responsibilities under this chapter; apprise them of opportunities to develop and finance such projects; and provide technical and analytical support. The department shall recover costs for such assistance through written agreements, including reimbursement from third parties participating in such projects, for any costs and expenses incurred in providing such assistance.

(3)(a) The department shall identify priorities for cogeneration projects at state facilities, and, where such projects are initially deemed desirable by the department and the appropriate state agency, the department shall notify the local utility serving the state facility of its intent to conduct a feasibility study at such facility. The department shall consult with the local utility and provide the local utility an opportunity to participate in the development of the feasibility study for the state facility it serves.

(b) If the local utility has an interest in participating in the feasibility study, it shall notify the department and the state agency whose facility or facilities it serves within sixty days of receipt of notification pursuant to (a) of this subsection as to the nature and scope of its desired participation. The department, state agency, and local utility shall negotiate the responsibilities, if any, of each in conducting the feasibility study, and these responsibilities shall be specified in a written agreement.

(c) If a local utility identifies a potential cogeneration project at a state facility for which it intends to conduct a feasibility study, it shall notify the department and the appropriate state agency. The department, state agency, and local utility shall negotiate the responsibilities, if any, of each in conducting the feasibility study, and these responsibilities shall be specified in a written agreement. Nothing in this section shall preclude a local utility from conducting an independent assessment of a potential cogeneration project at a state facility.

(d) Agreements written pursuant to (a) and (b) of this subsection shall include a provision for the recovery of costs incurred by a local utility in performing a feasibility study in the event such utility does not participate in the development of the cogeneration project. If the local utility does participate in the cogeneration project through energy purchase, project development or ownership, recovery of the utility’s costs may be deferred or provided for through negotiation on agreements for energy purchase, project development or ownership.

(e) If the local utility declines participation in the feasibility study, the department and the state agency may receive and solicit proposals to conduct the feasibility study from other parties. Participation of these other parties shall also be secured and defined by a written agreement which may include the provision for reimbursement of costs incurred in the formulation of the feasibility study.

(4) The feasibility study shall include consideration of regional and local utility needs for power, the consistency of the proposed cogeneration project with the state energy strategy, the cost and certainty of fuel supplies, the value of electricity produced, the capability of the state agency to own and/or operate such facilities, the capability of utilities or third parties to own and/or operate such facilities, requirements for and costs of standby sources of power, costs associated with interconnection with the local electric utility’s transmission system, the capability of the local electric utility to wheel electricity generated by the facility, costs associated with obtaining wheeling services, potential financial risks and losses to the state and/or state agency, measures to mitigate the financial risk to the state and/or state agency, and benefits to the state and to the state agency from a range of design configurations, ownership, and operation options.

(5) Based upon the findings of the feasibility study, the department and the state agency shall determine whether a cogeneration project will be cost-effective and whether development of a cogeneration project should be pursued. This determination shall be made in consultation with the local utility or, if the local utility had not participated in the development of the feasibility study, with any third party that may have participated in the development of the feasibility study.

(a) Recognizing the local utility’s expertise, knowledge, and ownership and operation of the local utility systems, the department and the state agency shall have the authority to negotiate directly with the local utility for the purpose of entering into a sole source contract to develop, own, and/or operate the cogeneration facility. The contract may also include provisions for the purchase of electricity or thermal energy from the cogeneration facility, the acquisition of a fuel source, and any financial considerations which may accrue to the state from ownership and/or operation of the cogeneration facility by the local utility.

(b) The department may enter into contracts through competitive negotiation under this subsection for the development, ownership, and/or operation of a cogeneration facility. In determining an acceptable bid, the department and the state agency may consider such factors as technical knowledge, experience, management, staff, or schedule, as may be necessary to achieve economical construction or operation of the project. The selection of a developer or operator of a cogeneration facility shall be made in accordance with procedures for competitive bidding under chapter 43.19 RCW.

(c) The department shall comply with the requirements of chapter 39.80 RCW when contracting for architectural or engineering services.

(6)(a) The state may own and/or operate a cogeneration project at a state facility. However, unless the cogeneration project is determined to be cost-effective, based on the findings of the feasibility study, the department and state agency shall not pursue development of the project as a state-owned facility. If the project is found to be cost-effective, and the department and the state agency agree development of the cogeneration project should be pursued as a state-owned and/or operated facility, the department shall assist the state agency in the preparation of a finance and development plan for the cogeneration project. Any such plan shall fully account for and specify all costs to the state for developing and/or operating the cogeneration facility.

(b) It is the general intent of this chapter that cogeneration projects developed and owned by the state will be sized to the projected thermal energy load of the state facility over the useful life of the project. The principal purpose and use of such projects is to supply thermal energy to a state facility.
and not primarily to develop generating capacity for the sale of electricity. For state-owned projects with electricity production in excess of projected thermal requirements, the department shall seek and obtain legislative appropriation and approval for development. Nothing in chapter 201, Laws of 1991 shall be construed to authorize any state agency to sell electricity or thermal energy on a retail basis.

(7) When a cogeneration facility will be developed, owned, and/or operated by a state agency or third party other than the local serving utility, the department and the state agency shall negotiate a written agreement with the local utility. Elements of such an agreement shall include provisions to ensure system safety, provisions to ensure reliability of any interconnected systems equipment necessary for parallel operation and switching equipment capable of isolating the generation facility, the provision of and reimbursement for standby services, if required, and the provision of and reimbursement for wheeling electricity, if the provision of such has been agreed to by the local utility.

(8) The state may develop and own a thermal energy distribution system associated with a cogeneration project for the principal purpose of distributing thermal energy at the state facility. If thermal energy is to be sold outside the state facility, the state may only sell the thermal energy to a utility. [1996 c 186 § 411; 1991 c 201 § 8.]

Findings—Intent—Part headings not law—Effective date—1996 c 186: See notes following RCW 43.330.904.

39.35C.080  Sale of cogenerated electricity and thermal energy. It is the intention of chapter 201, Laws of 1991 that the state and its agencies be compensated fairly for the energy provided to utilities from cogeneration projects at state facilities. Such compensation may include revenues from sales of electricity or thermal energy to utilities, lease of state properties, and value of thermal energy provided to the facility. It is also the intent of chapter 201, Laws of 1991 that the state and its agencies be accorded the opportunity to compete on a fair and reasonable basis to fulfill a utility’s new resource acquisition needs when selling the energy produced from cogeneration projects at state facilities through energy purchase agreements.

(1)(a) The department and state agencies may participate in any utility request for resource proposal process, as either established under the rules and regulations of the utilities and transportation commission, or by the governing board of a public utility district, municipal utility, cooperative, or mutual.

(b) If a local utility does not have a request for resource proposal pending, the energy office [department] or a state agency may negotiate an equitable and mutually beneficial energy purchase agreement with the utility.

(2) To ensure an equitable allocation of benefits to the state and its agencies, the following conditions shall apply to energy purchase agreements negotiated between utilities and state agencies:

(a) An energy purchase agreement shall be approved by both the department and the affected state agency.

(b) The department and the state agency shall work together throughout the planning and negotiation process for energy purchase agreements, unless the department determines that its participation will not further the purposes of this section.

(c) Before approving an energy purchase agreement, the department shall review the proposed agreement for its technical and economic feasibility, the degree of certainty of benefits, the degree of financial risk assumed by the state and/or the state agency, the benefits offered to the state and/or state agency, and other such factors as the department deems prudent. The department shall approve an energy purchase agreement unless it finds that such an agreement would not result in an equitable allocation of costs and benefits, in which case the transaction shall be disapproved.

(3)(a) The state or state agency shall comply with and shall be bound by applicable avoided cost schedules, electric power wheeling charges, interconnection requirements, utility tariffs, and regulatory provisions to the same extent it would be required to comply and would be bound if it were a private citizen. The state shall neither seek regulatory advantage, nor change regulations, regulatory policy, process, or decisions to its advantage as a seller of cogenerated energy. Nothing contained in chapter 201, Laws of 1991 shall be construed to mandate or require public or private utilities to wheel electric energy resources within or beyond their service territories. Nothing in chapter 201, Laws of 1991 authorizes any state agency or school district to make any sale of energy or waste heat beyond the explicit provisions of chapter 201, Laws of 1991. Nothing contained in chapter 201, Laws of 1991 requires a utility to purchase energy from the state or a state agency or enter into any agreement in connection with a cogeneration facility.

(b) The state shall neither construct, nor be party to an agreement for developing a cogeneration project at a state facility for the purpose of supplying its own electrical needs, unless it can show that such an arrangement would be in the economic interest of the state taking into account the cost of (i) interconnection requirements, as specified by the local electric utility, (ii) standby charges, as may be required by the local electric utility, and (iii) the current price of electricity offered by the local electric utility. If the local electric utility can demonstrate that the cogeneration project may place an undue burden on the electric utility, the department or the state agency shall attempt to negotiate a mutually beneficial agreement that would minimize the burden upon the ratepayers of the local electric utility.

(4) Any party to an energy purchase agreement may, within thirty days of any decision made pursuant to subsection (2)(c) of this section to disapprove the agreement made pursuant to this section, request an independent reviewer who is mutually agreeable to all parties to review the decision. The parties shall within thirty days of selection submit to the independent reviewer documentation supporting their positions. The independent reviewer shall render advice regarding the validity of the disapproval within an additional thirty days.

(5) For the purposes of this section, "waste heat" means the thermal energy that otherwise would be released to the environment from an industrial process, electric generation, or other process. [1996 c 186 § 412; 1996 c 33 § 4; 1991 c 201 § 9.]

Reviser’s note: This section was amended by 1996 c 33 § 4 and by 1996 c 186 § 412, each without reference to the other. Both amendments are
independently, and any other state agency acting through the department of general administration or as otherwise authorized by law, may:

(a) Contract to sell electric energy generated at state facilities to a utility; and

(b) Contract to sell thermal energy produced at state facilities to a utility.

(2) A state or regional university acting independently, and any other state agency acting through the department of general administration or as otherwise authorized by law, may:

(a) Acquire, install, permit, construct, own, operate, and maintain cogeneration and facility heating and cooling measures or equipment, or both, at its facilities;

(b) Lease state property for the installation and operation of cogeneration and facility heating and cooling equipment at its facilities;

(c) Contract to purchase all or part of the electric or thermal output of cogeneration plants at its facilities;

(d) Contract to purchase or otherwise acquire fuel or other energy sources needed to operate cogeneration plants at its facilities; and

(e) Undertake procurements for third-party development of cogeneration projects at its facilities, with successful bidders to be selected based on the responsible bid, including nonprice elements listed in RCW 43.19.1911, that offers the greatest net achievable benefits to the state and its agencies.

(3) After July 28, 1991, a state agency shall consult with the department prior to exercising any authority granted by this section.

(4) In exercising the authority granted by subsections (1) and (2) of this section, a state agency must comply with the provisions of RCW 39.35C.080. [1996 c 186 § 413; 1991 c 201 § 10.]

39.35C.901 Severability—1991 c 201. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected. [1991 c 201 § 24.]

39.35D.010 Finding—Intent. (1) The legislature finds that public buildings can be built and renovated using high-performance methods that save money, improve school performance, and make workers more productive. High-performance public buildings are proven to increase student test scores, reduce worker absenteeism, and cut energy and utility costs.

(2) It is the intent of the legislature that state-owned buildings and schools be improved by adopting recognized standards for high-performance public buildings, reducing energy consumption, and allowing flexible methods and choices in how to achieve those standards and reductions. The legislature also intends that public agencies and public school districts shall document costs and savings to monitor this program and determine the extent to which the results intended by this chapter are being met.

(3) The legislature further finds that state agency leadership is needed in the development of preparation and adaptation actions for climate change to ensure the economic health, safety, and environmental well-being of the state and its citizens. [2009 c 519 § 8; 2005 c 12 § 1.]

Findings—2009 c 519: See RCW 43.21M.900.

When the LEED silver standard is determined to be not practicable for a project, then it must be determined if any LEED standard is practicable for the project. If LEED standards or the Washington sustainable school design protocol are not followed for the project, the public school district or public agency shall report these reasons to the department.

(6) "Public agency" means every state office, officer, board, commission, committee, bureau, department, and public higher education institution.

The form and content of each report must be mutually developed by the office of the superintendent of public instruction in consultation with school districts.

(3) The superintendent of public instruction shall consolidate the reports required in subsection (2) of this section into one report and report to the governor and legislature by September 1st of each even-numbered year beginning in 2006 and ending in 2016. In its report, the superintendent of public instruction shall also report on the implementation of this chapter, including reasons why the LEED standard was not used as required by RCW 39.35D.020(5)(b). The superintendent of public instruction shall make recommendations regarding the ongoing implementation of this chapter, including a discussion of incentives and disincentives related to implementing this chapter. [2005 c 12 § 3.]

The form and content of each report must be mutually developed by the office of the superintendent of public instruction in consultation with school districts.

(3) The superintendent of public instruction shall consolidate the reports required in subsection (2) of this section into one report and report to the governor and legislature by September 1st of each even-numbered year beginning in 2006 and ending in 2016. In its report, the superintendent of public instruction shall also report on the implementation of this chapter, including reasons why the LEED standard was not used as required by RCW 39.35D.020(5)(b). The superintendent of public instruction shall make recommendations regarding the ongoing implementation of this chapter, including a discussion of incentives and disincentives related to implementing this chapter. [2005 c 12 § 3.]

(e) As provided in the request for proposals for construction services, the operating agency shall hold a preproposal conference for prospective bidders to discuss compliance with and achievement of standards identified in this chapter for prospective respondents.

(2) The department shall create a high-performance buildings advisory committee comprised of representatives from the design and construction industry involved in public works contracting, personnel from the affected public agencies responsible for overseeing public works projects, the office of the superintendent of public instruction, and others at the department’s discretion to provide advice on implementing this chapter. (a) Accept offers to purchase the bonds, notes, or other evidences of indebtedness and to sell and deliver the bonds, notes, or other evidences of indebtedness to the purchases thereof;

(b) Determine the date or dates, price or prices, principal amounts per maturity, delivery dates, interest rate or rates (or mechanisms for determining the interest rate or rates); and

(c) Set other terms and conditions as the state finance committee may deem necessary and appropriate. Each delegation is limited to bonds, notes, or other indebtedness that the state finance committee has authorized to be issued. Bonds, notes, or other evidences of indebtedness shall be payable either to the bearer or to the registered owner as provided in RCW 39.46.030. The resolution may provide for the deposit in trust with any qualified public depository of all or any part of the proceeds of the bonds, notes, or other evidences of indebtedness or money set aside for the payment thereof.

(3) The state finance committee shall also determine by resolution whether interest on all or any part of the bonds is to be payable periodically during the term of such bonds or only at the maturity of the bonds. For purposes of the limitations on the amount of bonds authorized to be issued contained in the acts authorizing their issuance, the amount of bonds which pay interest only at maturity must be equal to the price, exclusive of accrued interest, at which the bonds are initially offered to the public.

(4) The state finance committee may issue, under chapter 39.53 RCW and this chapter, bonds, notes, or other evidences of indebtedness to refund at or prior to maturity any outstanding state bonds, notes, or other evidences of indebtedness.

(5) The state finance committee may obtain or provide for obtaining bond insurance, letters of credit or other credit support instruments for the purpose of guaranteeing the payment or enhancing the marketability, or both, of any state bonds, notes, or other evidences of indebtedness, and may authorize the execution and delivery of agreements, promissory notes, and other related instruments. 39.42.050 Anticipation notes—Issued, when—Payment of principal and interest. When the state finance committee has decided to issue such bonds or a portion thereof, it may, pending the issuing of such bonds, issue, in the name of the state, temporary notes in anticipation of the money to be derived from the sale of such bonds, which notes shall be designated as "anticipation notes". If, prior to the issuance of the bonds, it becomes necessary to redeem outstanding notes, additional bond anticipation notes may be issued to redeem the outstanding notes. Such portion of the proceeds of the sale of such bonds as may be required for such purpose shall be applied to the payment of the principal of such anticipation notes which have been issued. The interest on anticipation notes shall be paid from the revenue source and with the same priority of payment specified in the respective bond acts for payment of principal of and interest on the bonds against which anticipation notes are sold. The procedure for paying the interest on the notes, including the transfer of necessary funds for that purpose, shall be the same as prescribed for the bonds.

If the bonds shall constitute general obligations of the state and pledge the full faith and credit of the state to the payment thereof, then the notes issued in anticipation thereof shall state that they are a general obligation of the state of Washington, shall pledge the full faith and credit of the state to the payment of the principal thereof and the interest thereon, and shall contain an unconditional promise to pay the principal and interest as the same shall become due. (2) It shall be the duty of the state finance committee to compute annually the amount required to pay principal of and interest on outstanding debt.

(3) To the extent necessary because of the state constitutional debt limitation, priorities with respect to the issuance or guaranteeing of bonds, notes, or other evidences of indebtedness by the state shall be determined by the state finance committee. [2009 c 500 § 2.]

39.46.030 Registration system authorized—Requirements—Fiscal agencies, agents. (1) The state and local governments are authorized to establish a system of registering the ownership of their bonds or other obligations as to principal and interest, or principal only. Registration may include, without limitation: (a) A book entry system of recording the ownership of a bond or other obligation whether or not a physical instrument is issued; or (b) recording the ownership of a bond or other obligation together with the requirement that the transfer of ownership may only be effected by the surrender of the old bond or other obligation and either the reissuance of the old bond or other obligation or the issuance of a new bond or other obligation to the new owner.

(2) The system of registration shall define the method or methods by which transfer of the registered bonds or other obligations shall be effective, and by which payment of principal and any interest shall be made. The system of registration may permit the issuance of bonds or other obligations in any denomination to represent several registered bonds or other obligations of smaller denominations. The system of registration may also provide for any writing relating to a bond or other obligation that is not issued as a physical instrument, for identifying numbers or other designations, for a sufficient supply of certificates for subsequent transfers, for record and payment dates, for varying denominations, for communications to the owners of bonds or other obligations, for accounting, canceled certificate destruction, registration and release of securing interests, and for such other incidental matters pertaining to the registration of bonds or other obligations as the issuer may deem to be necessary or appropriate.

(3)(a) The state treasurer or a local treasurer may appoint (i) one or more of the fiscal agencies appointed from time to time by the state finance committee in accordance with chapter 43.80 RCW or (ii) other fiscal agents to act with respect to an issue of its bonds or other obligations as authenticating trustee, transfer agent, registrar, and paying or other agent and specify the rights and duties and means of compensation of any such fiscal agency so acting. The state treasurer or local treasurers may also enter into agreements with the fiscal agency or agencies in connection with the establishment and maintenance by such fiscal agency or agencies of a central depository system for the transfer or pledge of bonds or other obligations.

(b) The county treasurer as ex officio treasurer of a special district shall act as fiscal agent for such special district, unless the county treasurer appoints either one or more of the fiscal agencies appointed from time to time by the special finance committee in accordance with chapter 43.80 RCW or other fiscal agents selected in a manner consistent with RCW 43.80.120 to act with respect to an issue of its bonds or other obligations as authenticating trustee, transfer agent, registrar, and paying or other agent and specify the rights and duties and means of compensation of any such fiscal agency.

(4) Nothing in this section precludes the issuer, or a trustee appointed by the issuer pursuant to any other provision of law, from itself performing, either alone or jointly with other issuers, fiscal agencies, or trustees, any transfer, registration, authentication, payment, or other function described in this section. [1995 c 38 § 7; 1994 c 301 § 11; 1985 c 84 § 1; 1983 c 167 § 3.]

Registration may be as provided in RCW 39.46.030. [1983 c 167 § 4.]

Additional notes found at www.leg.wa.gov

39.46.050 Bonds—Issuer authorized to establish lines of credit. Each local government authorized to issue bonds is authorized to establish lines of credit with any qualified public depository to be drawn upon in exchange for its bonds or other obligations, to delegate to its treasurer authority to determine the amount of credit extended, and to pay interest and other finance or service charges. The interest rates on such bonds or other obligations may be a fixed rate
or rates set periodically or a variable rate or rates determined by agreement of the parties. [2003 c 23 § 1; 1983 c 167 § 5.]

Additional notes found at www.leg.wa.gov

39.46.060 Bonds—Reproduction of physical instrument. Where bonds are issued by the state or a local government as physical instruments, the bonds shall be printed, engraved, lithographed, typed, or reproduced and the manual or facsimile signatures of both a designated officer and chairperson of the governing body or chief executive shall be included on each bond. [1983 c 167 § 6.]

Additional notes found at www.leg.wa.gov

39.46.070 Bonds—Payment of costs of issuance and sale. (1) Except as provided in subsection (2) of this section, the proceeds of any bonds issued by the state or a local government may be used to pay incidental costs and costs related to the sale and issuance of the bonds. Such costs include payments for fiscal and legal expenses, obtaining bond ratings, printing, engraving, advertising, establishing and funding reserve accounts and other accounts, an amount for working capital, capitalized interest for up to six months after completion of construction, necessary and related engineering, architectural, planning, and inspection costs, and other similar activities or purposes.

39.46.100 RCW 39.46.010 through 39.46.070 constitutes alternative method. RCW 39.46.010 through 39.46.070 shall be deemed to provide a complete, additional, and alternative method for the performance of those subjects authorized by these sections and shall be regarded as supplemental and additional to powers conferred by other state laws. Whenever bonds and other obligations are issued and sold in conformance with RCW 39.46.010 through 39.46.070, such issuance and sale need not comply with contrary requirements of other state laws applicable to the issuance and sale of bonds or other obligations. [1983 c 167 § 8.]

39.46.110 Local government general obligation bonds—Indebtedness—Payment—Notice by special district. (1) General obligation bonds of local governments shall be subject to this section. Unless otherwise stated in law, the maximum term of any general obligation bond issue shall be forty years.

(2) General obligation bonds constitute an indebtedness of the local government issuing the bonds that are subject to the indebtedness limitations provided in Article VIII, section 6 of the state Constitution and are payable from tax revenues of the local government and such other money lawfully available and pledged or provided by the governing body of the local government for that purpose. Such governing body may pledge the full faith, credit and resources of the local government for the payment of general obligation bonds. The payment of such bonds shall be enforceable in mandamus against the local government and its officials. The officials now or hereafter charged by law with the duty of levying taxes pledged for the payment of general obligation bonds and interest thereon shall, in the manner provided by law, make an annual levy of such taxes sufficient together with other moneys lawfully available and pledge [pledged] therefor to meet the payments of principal and interest on the bonds as they come due.

(3) General obligation bonds, whether or not issued as physical instruments, shall be executed in the manner determined by the governing body or legislative body of the issuer. If the issuer is the county or a special district for which the county treasurer is the treasurer, the issuer shall notify the county treasurer at least thirty days in advance of authorizing the issuance of bonds or the incurrence of other certificates of indebtedness.

(4) Unless another statute specifically provides otherwise, the owner of a general obligation bond, or the owner of an interest coupon, issued by a local government shall not have any claim against the state arising from the general obligation bond or interest coupon.

(5) As used in this section, the term "local government" means every unit of local government, including municipal corporations, quasi municipal corporations, and political subdivisions, where property ownership is not a prerequisite to vote in the local government’s elections. [1998 c 106 § 7; 1995 c 38 § 8; 1994 c 301 § 12; 1984 c 186 § 2.]

Purpose—1984 c 186: "The purpose of this 1984 act is to provide simplified and uniform authorities for various local governments to issue and sell general obligation bonds. It is not the purpose of this 1984 act to alter the indebtedness limitation of local governments." [1984 c 186 § 1.]

Additional notes found at www.leg.wa.gov

39.46.120 Notice of intent to sell general obligation bonds. Notice of intent to sell general obligation bonds at a public sale shall be provided in a reasonable manner as determined by the legislative authority or governing body of the issuer. [1984 c 186 § 4.]

Purpose—1984 c 186: See note following RCW 39.46.110.

39.46.150 Revenue bonds—Alternative method of issuance—Limitations. (1) Any local government authorized to issue revenue bonds may issue revenue bonds under this section and RCW 39.46.160. If a local government chooses to issue revenue bonds under this section and RCW 39.46.160, the issue shall be subject to the limitations and restrictions of these sections. The authority to issue revenue bonds under this section and RCW 39.46.160 is supplementary and in addition to any authority otherwise existing. The maximum term of any revenue bonds shall be forty years unless another statute authorizing the local government to issue revenue bonds provides for a different maximum term, in which event the local government may issue revenue bonds only with terms not in excess of such different maximum term.

(2) The governing body of a local government issuing revenue bonds shall create a special fund or funds, or use an
existing special fund or funds, exclusively from which, along with reserve funds which may be created by the governing body, the principal and interest on such revenue bonds shall be payable. These reserve funds include those authorized to be created by RCW 39.46.160.

Subject to the limitations contained in this section, the governing body of a local government may provide such covenants as it may deem necessary to secure the payment of the principal of and interest on revenue bonds, and premium on revenue bonds, if any. Such covenants may include, but are not limited to, depositing certain revenues into a special fund or funds as provided in subsection (3) of this section; establishing, maintaining, and collecting fees, rates, charges, tariffs, or rentals, on facilities and services, the income of which is pledged for the payment of such bonds; operating, maintaining, managing, accounting, and auditing the local government; appointing trustees, depositaries, and paying agents; and any and all matters of like or different character, which affect the security or protection of the revenue bonds.

(3) The governing body may obligate the local government to set aside and pay into a special fund or funds created under subsection (2) of this section a proportion or a fixed amount of the revenues from the following: (a) The public improvements, projects, or facilities that are financed by the revenue bonds; or (b) the public utility or system, or an addition or extension to the public utility or system, where the improvements, projects, or facilities financed by the revenue bonds are a portion of the public utility or system; or (c) all the revenues of the local government; or (d) any other money legally available for such purposes. As used in this subsection, the term “revenues” includes the operating revenues of a local government that result from fees, rates, charges, tariffs, or rentals imposed upon the use or availability or benefit from projects, facilities, or utilities owned or operated by the local government and from related services provided by the local government and other revenues legally available to be pledged to secure the revenue bonds.

The proportion or fixed amount of revenue so obligated shall be a lien and charge against these revenues, subject only to maintenance and operating expenses. The governing body shall have due regard for the cost of maintenance and operation of the public utility, system, improvement, project, facility, addition, or extension that generates revenues obligated to be placed into the special fund or funds from which the revenue bonds are payable, and shall not set aside into the special fund or funds a greater amount or proportion of the revenues that in its judgment will be available over and above such cost of maintenance and operation and the proportion or fixed amount, if any, of the revenue so previously pledged. Other revenues, including tax revenues, lawfully available for maintenance or operation of revenue generating facilities may be used for maintenance and operation purposes even though the facilities are acquired, constructed, expanded, replaced, or repaired with moneys arising from the sale of revenue bonds. However, the use of these other revenues for maintenance and operation purposes shall not be deemed to directly or indirectly guarantee the revenue bonds or create a general obligation. The obligation to maintain and impose fees, rates, charges, tariffs, or rentals at levels sufficient to finance maintenance and operations shall remain if the other revenues available for such purposes diminish or cease.

The governing body may also provide that revenue bonds payable out of the same source or sources of revenue may later be issued on a parity with any revenue bonds being issued and sold.

(4) A revenue bond issued by a local government shall not constitute an obligation of the state, either general or special, nor a general obligation of the local government issuing the bond, but is a special obligation of the local government issuing the bond, and the interest and principal on the bond shall only be payable from the special fund or funds established pursuant to subsection (2) of this section, the revenues lawfully pledged to the special fund or funds, and any lawfully created reserve funds. The owner of a revenue bond shall not have any claim for the payment thereof against the local government arising from the revenue bond except for payment from the special fund or funds, the revenues lawfully pledged to the special fund or funds, and any lawfully created reserve funds. The owner of a revenue bond issued by a local government shall not have any claim against the state arising from the revenue bond. Tax revenues shall not be used directly or indirectly to secure or guarantee the payment of the principal of or interest on revenue bonds.

[5] The substance of the limitations included in this subsection shall be plainly printed, written, engraved, or reproduced on: (a) Each revenue bond that is a physical instrument; (b) the official notice of sale; and (c) each official statement associated with the bonds.

(6) The authority to create a fund shall include the authority to create accounts within a fund.

(7) Local governments issuing revenue bonds, payable from revenues derived from projects, facilities, or utilities, shall covenant to maintain and keep these projects, facilities, or utilities in proper operating condition for their useful life. [1986 c 168 § 1.]

Funds for reserve purposes may be included in issue amount: RCW 39.44.140.

### 39.46.160 Revenue bonds—Alternative method of issuance—Bonds may include reserve funds.

Any local government issuing revenue bonds under this section and RCW 39.46.150 may include in the amount of any such issue money for the purpose of establishing, maintaining, or increasing reserve funds to:

1. Secure the payment of the principal of and interest on such revenue bonds; or
2. Provide for replacements or renewals of or repairs or betterments to revenue producing facilities; or
3. Provide for contingencies, including, but not limited to, loss of revenue caused by such contingencies. [1986 c 168 § 2.]

[1982 c 216 § 3.]

39.50.030 Issuance of short-term obligations—Procedure—Interest rate—Contracts for future sale. (1) The issuance of short-term obligations shall be authorized by

For those municipalities and taxing and assessment districts for which the county treasurer is not the designated treasurer by law, the ordinance may provide for designation and employment of a paying agent for the short-term obligations and may authorize a designated representative of the municipal corporation, subject to the terms of the ordinance in selling and delivering short-term obligations authorized and fixing the dates, price, interest rates, and other details as may be specified in the ordinance. For the county and those taxing and assessment districts for which the county treasurer is the designated treasurer by law or other appointment, the county treasurer shall be notified thirty days in advance of borrowing under this chapter and will be the designated paying agent to act on its behalf for all payments of principal, interest, and penalties for that obligation, subject to the terms of the ordinance in selling and delivering short-term obligations authorized and fixing the dates, price, interest rates, and other details as may be specified in the ordinance. Short-term obligations issued under this section shall bear such fixed or variable rate or rates of interest as the governing body considers to be in the best interests of the municipal corporation. Variable rates of interest may be fixed in relationship to such standard or index as the governing body designates.

The governing body may make contracts for the future sale of short-term obligations pursuant to which the purchasers are committed to purchase the short-term obligations from time to time on the terms and conditions stated in the contract, and may pay such consideration as it considers proper for the commitments. Short-term obligations issued in anticipation of the receipt of taxes shall be paid within six months from the end of the fiscal year in which they are issued. For the purpose of this subsection, short-term obligations issued in anticipation of the sale of general obligation bonds shall not be considered as obligations issued in anticipation of the receipt of taxes.

(2) Notwithstanding subsection (1) of this section, such short-term obligations may be issued and sold in accordance with chapter 39.46 RCW. [2001 c 299 § 17; 1995 c 38 § 9; 1994 c 301 § 13; 1985 c 71 § 1; 1983 c 167 § 112; 1982 c 216 § 4.]

Short-term obligations issued in anticipation of grants, loans, or other sources of money shall be secured in the manner set forth in the ordinance authorizing their issuance. [1982 c 216 § 6.]

39.50.060 Nonvoted general indebtedness. A municipal corporation may incur nonvoted general indebtedness under this chapter up to an amount which, when added to all other authorized and outstanding nonvoted indebtedness of the municipal corporation, is equal to the maximum amount of indebtedness the municipal corporation is otherwise permitted to incur without a vote of the electors. [1982 c 216 § 7.]

39.50.070 Funds for payment of principal and interest. For the purpose of providing funds for the payment of principal of and interest on short-term obligations, the governing body may authorize the creation of a special fund or funds and provide for the payment from authorized sources to such funds of amounts sufficient to meet principal and interest requirements. TAXING DISTRICT RELIEF

Sections

39.64.005 Short title. This chapter may be cited as the taxing district relief act. [1935 c 143 § 1; RRS § 5608-1.]

39.64.010 Purpose of chapter. The purpose of this chapter is to facilitate and permit taxing districts which are unable to meet their debts either in their present amount and/or at the time they fall due, to obtain relief by the readjustment of such debts as provided for by the act of congress hereinafter referred to, by supplementing the powers of those taxing districts for which refunding of debts is provided for by existing statutes, and by providing a method of refunding of debts for those taxing districts for which no method of refunding such debts has heretofore been provided, and by other provisions appropriate to such purposes.

This chapter shall not be construed as in anywise limiting the powers of the federal courts to grant relief as provided for in said act of congress. [1935 c 143 § 2; RRS § 5608-2.]

39.64.020 Definitions. For the purposes of this chapter a "taxing district" is defined to be a "taxing district" as described in section 80 of chapter IX of the act of congress entitled "An act to establish a uniform system of bankruptcy throughout the United States," approved July 1, 1898, as amended, to wit:

39.64.030 Exercise of powers granted. All powers herein granted to taxing districts in state of Washington may be exercised by such districts. If a taxing district has no officers of its own, such powers may be exercised in its behalf by the officer or officers, board, council or commission having the power to contract in behalf of such district or to levy special assessments or special taxes within such district. [1935 c 143 § 3; RRS § 5608-3.]

39.64.040 Petition in bankruptcy. Any taxing district in the state of Washington is hereby authorized to file the petition mentioned in section 80 of chapter IX of the federal bankruptcy act. [1935 c 143 § 5; RRS § 5608-5.]

39.64.050 Resolution of authorization. Before the filing of any petition referred to in RCW 39.64.040, such taxing district shall adopt a resolution authorizing the filing thereof and authorizing its duly and regularly elected or appointed attorney or special counsel duly appointed for such purpose to file the same and to represent it in the proceedings with respect thereto in the competent United States district court. [1935 c 143 § 6; RRS § 5608-6.]

39.64.060 Resolution consenting to readjustment. No final decree or order of such United States district court confirming a plan of readjustment shall be effective for the purpose of binding such taxing district unless and until such taxing district files with such court a certified copy of a resolution of such taxing district, adopted by it or by the officer or officers, board, council or commission referred to in RCW 39.64.030, consenting to the plan of readjustment set forth or referred to in such final decree or order. [1935 c 143 § 7; RRS § 5608-7.]

39.64.070 Plan of readjustment. Such taxing district is hereby authorized and empowered to take any and all action necessary to carry out any plan of readjustment contemplated in said petition, or as the same may be modified from time to time, notwithstanding any other provisions of law. In case of the refunding of debts of irrigation districts, diking or drainage improvement districts, general debts of cities, or debts of other taxing districts for the refunding of which provision is already made under existing statutes, such refunding shall be had and done as provided for in such existing statutes, except that the tenor and character of the refunding bonds and the assessments levied to meet such bonds may be modified to conform to the capacity of the taxing district, or the individual lots, tracts, or parcels of real property therein, to meet and carry the charges, both direct and contingent, against them, as found and set forth in the plan of readjustment and decree of court; and except also as such existing provisions of law may be otherwise supplemented by such plan of readjustment or the provisions of this chapter. [1935 c 143 § 8; RRS § 5608-8.]

39.64.080 Powers under plan of readjustment. Such taxing district shall have power to consummate the plan of readjustment, as adopted by the court’s decree and approved by it as aforesaid, and if such plan, as approved by such decree, so requires, may, for such purpose, exercise any of the following powers:

1. Cancel in whole or in part any assessments or any interest or penalties assessed thereon which may be outstanding and a lien upon any property in such taxing district, as and when such assessments are replaced by the readjusted or revised assessments provided for in the plan of readjustment approved by such decree.

2. Issue refunding bonds to refund bonds theretofore issued by such taxing district. Such refunding bonds shall have such denominations, rates of interest and maturities as shall be provided in such plan of readjustment and shall be payable by special assessments or by general taxes, according to the nature of the taxing district, in the manner provided in such plan of readjustment and decree.

3. Apportion and levy new assessments or taxes appropriate in time or times of payment to provide funds for the payment of principal and interest of such refunding bonds, and of all expenses incurred by such taxing district in filing the petition mentioned in RCW 39.64.040, and any and all other expenses necessary or incidental to the consummation of the plan of readjustment.

In the case of special assessment districts for the refunding of whose debts no procedure is provided by existing laws, such assessments shall be equitably apportioned and levied upon each lot, tract or parcel of real property within such taxing district, due consideration being given to the relative extent to which the original apportionments upon the various lots, tracts or parcels of real property within such taxing district have already been paid and due consideration also being given to the capacity of the respective lots, tracts or parcels of real property to carry such charges against them. Before levying or apportioning such assessment such taxing district or the officer or officers, board, council or commission mentioned in RCW 39.64.030 shall hold a hearing with reference thereto, notice of which hearing shall be published once a week for four consecutive weeks in the newspaper designated for the publication of legal notices by the legislative body of the city or town, or by the board of county commissioners of the county within which such taxing district or any part thereof is located, or in any newspaper published in the city, town or county within which such taxing district or any part thereof is located and of general circulation within such taxing district. At such hearing every owner of real property within such taxing district shall be given an opportunity to be heard with respect to the apportionment and levy of such assessment.

4. In the case of special assessment districts, of cities or towns, provide that if any of the real property within such taxing district shall not, on foreclosure of the lien of such new assessment for delinquent assessments and penalties and interest thereon, be sold for a sufficient amount to pay such
delinquent assessments, penalties and interest, or if any real property assessed was not subject to assessment, or if any assessment or installment of installments thereof shall have been eliminated by foreclosure of a tax lien or made void in any other manner, such taxing district shall cause a supplemental assessment sufficient in amount to make up such deficiency to be made on the real property within such taxing district, including real property upon which any such assessment or any installment or installments thereof shall have been so eliminated or made void. Such supplemental assessment shall be apportioned to the various lots, tracts and parcels of real property within such taxing district in proportion to the amounts apportioned thereto in the assessment originally made under such plan of readjustment.

(5) Provide that refunding bonds may, at the option of the holders thereof, be converted into warrants of such denominations and bearing such rate of interest as may be provided in the plan of readjustment, and that the new assessments mentioned in subdivision (3) and the supplemental assessments mentioned in subdivision (4) of this section may be paid in refunding bonds or warrants of such taxing district, including real property upon which any such assessment or any installment or installments thereof shall have been so eliminated or made void. Such supplemental assessment shall be apportioned to the various lots, tracts and parcels of real property within such taxing district in proportion to the amounts apportioned thereto in the assessment originally made under such plan of readjustment.

(6) Provide that all sums of money already paid to the treasurer of such taxing district or other authorized officer in payment, in whole or in part, of any assessment levied by or for such taxing district or of interest or penalties thereon, shall be transferred by such treasurer or other authorized officer to a new account and made applicable to the payment of refunding bonds and warrants to be issued under such plan of readjustment.

(7) Provide that such treasurer or other authorized officer shall have authority to use funds in his possession not required for payment of current interest of such bonds and warrants, to buy such bonds and warrants in the open market through tenders or by call at the lowest prices obtainable at or below par and accrued interest, without preference of one bond or warrant over another because of its serial number, or for any other cause other than the date and hour of such tender or other offer and the amount which the owner of such bond or warrant agrees to accept for it. In such case such refunding bonds and warrants shall bear the following legend: "This bond (or warrant) shall be accepted at its face value in payment of assessments (including interest and penalties thereon) levied to pay the principal and interest of the series of bonds and warrants of which this bond (or warrant) is one without regard to the serial number appearing upon the face hereof."

(8) Provide that if, after the payment of all interest on refunding bonds and warrants issued under any plan of readjustment adopted pursuant to this chapter and chapter IX of the federal bankruptcy act and the retirement of such bonds and warrants, there shall be remaining in the hands of the treasurer or other authorized officer of the taxing district which issued such bonds and warrants money applicable under the provisions of this chapter to the payment of such interest, bonds and warrants, such money shall be applied by such treasurer or other authorized officer to the maintenance, repair and replacement of the improvements originally financed by the bonds readjusted under this chapter and the federal bankruptcy act.

(9) The above enumeration of powers shall not be deemed to exclude powers not herein mentioned that may be necessary for or incidental to the accomplishment of the purposes hereof. [1935 c 143 § 9; RRS § 5608-9.]

39.64.085 Authority of operating agencies to levy taxes. Nothing in this chapter may be deemed to grant to any operating agency organized under chapter 43.52 RCW, or a project of any such operating agency, the authority to levy any tax or assessment not otherwise authorized by law. [1983 2nd ex.s. c 3 § 54.]

(a) Except as provided otherwise in this subsection, a check or warrant is mailed or is available on the date specified for the amount specified in the applicable contract documents not later than thirty days of receipt of a properly completed invoice or receipt of goods or services, whichever is later. If a contract is funded by grant or federal money, the public body shall pay the prime contractor for satisfactory performance within thirty calendar days of the date the public body receives a payment request that complies with the contract or within thirty calendar days of the date the public body actually receives the grant or federal money, whichever is later.

(b) On written contracts for public works, when part or all of a payment is going to be withheld for unsatisfactory performance or if the payment request made does not comply with the requirements of the contract, the public body shall notify the prime contractor in writing within eight working days after receipt of the payment request stating specifically why part or all of the payment is being withheld and what remedial actions must be taken by the prime contractor to receive the withheld amount.

(c) If the notification by the public body required by (b) of this subsection does not comply with the notice contents required under (b) of this subsection, the public body shall pay the interest under subsection (1) of this section from the ninth working day after receipt of the initial payment request until the contractor receives notice that does comply with the notice contents required under (b) of this subsection.

(d) If part or all of a payment is withheld under (b) of this subsection, the public body shall pay the withheld amount within thirty calendar days after the prime contractor satisfactorily completes the remedial actions identified in the notice. If the withheld amount is not paid within the thirty calendar days, the public body shall pay interest under subsection (1) of this section from the thirty-first calendar day until the date paid.

(e)(i) If the prime contractor on a public works contract, after making a request for payment to the public body but before paying a subcontractor for the subcontractor’s performance covered by the payment request, discovers that part or all of the payment otherwise due to the subcontractor is subject to withholding from the subcontractor under the subcontract for unsatisfactory performance, the prime contractor may withhold the amount as allowed under the subcontract. If the prime contractor withholds an amount under this subsection, the prime contractor shall:

(A) Give the subcontractor notice of the remedial actions that must be taken as soon as practicable after determining the cause for the withholding but before the due date for the subcontractor payment;

(B) Give the contracting officer of the public body a copy of the notice furnished to the subcontractor under (e)(i)(A) of this subsection; and

(C) Pay the subcontractor within eight working days after the subcontractor satisfactorily completes the remedial action identified in the notice.

(ii) If the prime contractor does not comply with the notice and payment requirements of (e)(i) of this subsection, the contractor shall pay the subcontractor interest on the withheld amount from the eighth working day at an interest rate that is equal to the amount set forth in subsection (1) of this section.

(3) For the purposes of this section:

(a) A payment is considered to be made when mailed or personally delivered to the party being paid.

(b) An invoice is considered to be received when it is date-stamped or otherwise marked as delivered. If the invoice is not date-stamped or otherwise marked as delivered, the date of the invoice is considered to be the date when the invoice is received. [1992 c 223 § 1.]

39.84.030 Public corporations—Creation, dissolution. (1) For the purpose of facilitating economic development and employment opportunities in the state of Washington through the financing of the project costs of industrial development facilities, a municipality may enact an ordinance creating a public corporation for the purposes authorized in this chapter. The ordinance creating the public corporation shall include provisions establishing a board of directors to govern the affairs of the public corporation, including the term of office of the board members, the method of selection of the board, the powers and duties of the board, and the quorum required for a meeting of the board. The ordinance creating a public corporation shall include: (a) Has no property to administer, other than funds or property, if any, to be paid or transferred to the municipality by which it was established; and (b) all its outstanding obligations have been satisfied. Such a dissolution shall be accomplished by the governing body of the municipality adopting an ordinance providing for the dissolution.

(2) A public corporation created by a municipality pursuant to this chapter may be dissolved by the municipality if the public corporation: (a) Has no property to administer, other than funds or property, if any, to be paid or transferred to the municipality by which it was established; and (b) all its outstanding obligations have been satisfied. Such a dissolution shall be accomplished by the governing body of the municipality adopting an ordinance providing for the dissolution.

(3) The creating municipality may, at its discretion and at any time, alter or change the structure, organizational programs, or activities of a public corporation, including termination of the public corporation if contracts entered into by the public corporation are not impaired. Any net earnings of a public corporation, beyond those necessary for retirement of indebtedness incurred by it, shall not inure to the benefit of any person other than the creating municipality. Upon dissolution of a public corporation, title to all property owned by the public corporation shall vest in the municipality. [1981 c 300 § 3.]

39.84.040 Board of directors of public corporation. The ordinance creating a public corporation shall include provisions establishing a board of directors to govern the affairs of the public corporation, what constitutes a quorum of the board of directors, and how the public corporation shall conduct its affairs. [1981 c 300 § 4.]

39.84.050 Public corporations—Directors—Conflicts of interest. It shall be illegal for a director, officer, agent, or employee of a public corporation to have, directly or indirectly, any financial interest in any property to be included in or any contract for property, services, or materials to be furnished or used in connection with any industrial development facility financed through the public corporation. Violation of any provision of this section is a gross misdemeanor. [1981 c 300 § 5.]

39.84.060 Public corporations—Limitations. No municipality may give or lend any money or property in aid of a public corporation. The municipality that creates a public corporation shall annually review any financial statements of the public corporation and at all times shall have access to the books and records of the public corporation. No public corporation may issue revenue obligations under this chapter except upon the approval of both the municipality under whose planning jurisdiction the proposed industrial development facility lies. No revenue bonds may be issued pursuant to this chapter unless the board of directors of the public corporation proposing to issue revenue bonds makes a finding that in its opinion the interest paid on the bonds will not be exempt from income taxation by the federal government. Revenue bonds issued by a public corporation under this chapter shall not be considered to constitute a debt of the state, of the municipality, or of any other municipal corporation, quasi municipal corporation, subdivision, or agency of this state or to pledge any or all of the faith and credit of any of these entities. The revenue bonds shall be payable solely
from both the revenues derived as a result of the industrial development facilities funded by the revenue bonds, including, without limitation, amounts received under the terms of any financing document or by reason of any additional security furnished by the user of the industrial development facility in connection with the financing thereof, and money and other property received from private sources. Each revenue bond shall contain on its face statements to the effect that: (1) Neither the state, the municipality, or any other municipal corporation, quasi municipal corporation, subdivision, or agency of the state is obligated to pay the principal or the interest thereon; (2) no tax funds or governmental revenue may be used to pay the principal or interest thereon; and (3) neither any or all of the faith and credit nor the taxing power of the state, the municipality, or any other municipal corporation, quasi municipal corporation, subdivision, or agency thereof is pledged to the payment of the principal or the interest on the revenue bond. A public corporation may incur only those financial obligations which will be paid from revenues received pursuant to financing documents, from fees or charges paid by users or prospective users of the industrial development facilities funded by the revenue bonds, or from the proceeds of revenue bonds. A public corporation established under the terms of this chapter constitutes an authority and an instrumentality (within the meaning of those terms in the regulations of the United States treasury and the rulings of the Internal Revenue Service prescribed pursuant to section 103 of the Internal Revenue Code of 1954, as amended) and may act on behalf of the municipality under whose auspices it is created for the specific public purposes authorized by this chapter. The public corporation is not a municipal corporation, quasi municipal corporation, subdivision, or agency thereof; it is created for the specific public purposes authorized by this chapter;

39.84.070 Public corporations—Audit by state. The finances of any public corporation shall be subject to examination by the state auditor’s office pursuant to RCW 43.09.260. [1981 c 300 § 6.]

39.84.080 Public corporations—Powers. (1) A public corporation created under this chapter has the following powers with respect to industrial development facilities together with all powers incidental thereto or necessary for the performance thereof:

(a) To construct and maintain one or more industrial development facilities;

(b) To lease to a lessee all or any part of any industrial development facility for such rentals and upon such terms and conditions, including options to purchase, as its board of directors considers advisable and not in conflict with this chapter;

(c) To sell by installment contract or otherwise and convey all or any part of any industrial development facility for such purchase price and upon such terms and conditions as its board of directors considers advisable which are not in conflict with this chapter;

(d) To make secured loans for the purpose of providing temporary or permanent financing or refinancing of all or part of the project cost of any industrial development facility, including the refunding of any outstanding obligations, mortgages, or advances issued, made, or given by any person for the project costs; and to charge and collect interest on the loans for the loan payments upon such terms and conditions as its board of directors considers advisable which are not in conflict with this chapter;

(e) To issue revenue bonds for the purpose of financing all or part of the project cost of any industrial development facility and to secure the payment of the revenue bonds as provided in this chapter;

(f) As security for the payment of the principal of and interest on any revenue bonds issued and any agreements made in connection therewith, to mortgage, pledge, or otherwise encumber any or all of its industrial development facilities or any part or parts thereof, whether then owned or thereafter acquired, and to assign any mortgage and repledge any security conveyed to the public corporation, to secure any loan made by the public corporation and to pledge the revenues and receipts therefrom;

(g) To sue and be sued, complain, and defend in its corporate name;

(h) To make contracts and to execute all instruments necessary or convenient for the carrying out of its business;

(i) To have a corporate seal and to use the same by causing it, or a facsimile thereof, to be impressed or affixed in any other manner reproduced;

(j) Subject to the limitations of RCW 39.84.060, to borrow money, accept grants from, or contract with any local, state, or federal governmental agency or with any financial, public, or private corporation;

(l) To collect fees or charges from users or prospective users of industrial development facilities to recover actual or anticipated administrative costs;

(m) To execute financing documents incidental to the powers enumerated in this subsection.

(2) No public corporation created under this chapter may operate any industrial development facility as a business other than as lessor, seller, or lender. The purchase and holding of mortgages, deeds of trust, or other security interests and contracting for any servicing thereof is not considered the operation of an industrial development facility.

(3) No public corporation may exercise any of the powers authorized in this section or issue any revenue bonds with respect to any industrial development facility unless the industrial development facility is located wholly within the boundaries of the municipality under whose auspices the public corporation is created or unless the industrial development facility comprises energy facilities or solid waste disposal facilities which provide energy for or dispose of solid waste from the municipality or the residents thereof. [1981 c 300 § 8.]
39.84.090 Reporting to the department of community, trade, and economic development. (1) Prior to issuance of any revenue bonds, each public corporation shall submit a copy of its enabling ordinance and charter, a description of any industrial development facility proposed to be undertaken, and the basis for its qualification as an industrial development facility to the department of community, trade, and economic development.

(2) If the industrial development facility is not eligible under this chapter, the department of community, trade, and economic development shall give notice to the public corporation, in writing and by certified mail, within twelve working days of receipt of the description.

39.84.100 Revenue bonds—Provisions. (1) The principal of and the interest on any revenue bonds issued by a public corporation shall be payable solely from the funds provided for this payment from the revenues of the industrial development facilities funded by the revenue bonds. Each issue of revenue bonds shall be dated, shall bear interest at such rate or rates, and shall mature at such time or times as may be determined by the board of directors, and may be made redeemable before maturity at such price or prices and under such terms and conditions as may be fixed by the board of directors prior to the issuance of the revenue bonds or other revenue obligations.

(2) The board of directors shall determine the form and the manner of execution of the revenue bonds and shall fix the denomination or denominations of the revenue bonds and the place or places of payment of principal and interest. If any officer whose signature or a facsimile of whose signature appears on any revenue bonds or any coupon ceases to be an officer before the delivery of the revenue bonds, the signature shall for all purposes have the same effect as if he had remained in office until delivery. The revenue bonds may be issued in coupon or in registered form, as provided in RCW 39.46.030, or both as the board of directors may determine, and provisions may be made for the registration of any coupon revenue bonds as to the principal alone and also as to both principal and interest and for the reconversion into coupon bonds of any bonds registered as to both principal and interest. A public corporation may sell revenue bonds at public or private sale for such price and bearing interest at such fixed or variable rate as may be determined by the board of directors.

(3) The proceeds of the revenue bonds of each issue shall be used solely for the payment of all or part of the project cost of or for the making of a loan in the amount of all or part of the project cost of the industrial development facility for which authorized and shall be disbursed in such manner and under such restrictions, if any, provided in the resolution authorizing the issuance of the revenue bonds or in the trust agreement securing the bonds. If the proceeds of the revenue bonds of any series issued with respect to the cost of any industrial development facility exceed the cost of the industrial development facility for which issued, the surplus shall be deposited to the credit of the debt service fund for the revenue bonds or used to purchase revenue bonds in the open market.

(4) A public corporation may issue interim notes in the manner provided for the issuance of revenue bonds to fund industrial development facilities prior to issuing other revenue bonds to fund such facilities. A public corporation may issue revenue bonds to fund industrial development facilities that are exchangeable for other revenue bonds when these other revenue bonds are executed and available for delivery.

(5) The principal of and interest on any revenue bonds issued by a public corporation shall be secured by a pledge of unexpended bond proceeds and the revenues and receipts received by the public corporation from the industrial development facilities funded by the revenue bonds pursuant to financing documents. The resolution under which the revenue bonds are authorized to be issued and any financing document may contain agreements and provisions respecting the maintenance or use of the industrial development facility covered thereby, the fixing and collection of rents, purchase price payments or loan payments, the creation and maintenance of special funds from such revenues or from revenue bond proceeds, the rights and remedies available in the event of default, and other provisions relating to the security for the bonds, all as the board of directors consider advisable which are not in conflict with this chapter.

(6) The governing body of the municipality under whose auspices the public corporation is created shall approve by resolution any agreement to issue revenue bonds adopted by a public corporation, which agreement and resolution shall set out the amount and purpose of the revenue bonds. Additionally, no issue of revenue bonds, including refunding bonds, may be sold and delivered by a public corporation without a resolution of the governing body of the municipality under whose auspices the public corporation is created, adopted no more than sixty days before the date of sale of the revenue bonds specifically, approving the resolution of the public corporation providing for the issuance of the revenue bonds.

(7) All revenue bonds issued under this chapter and any interest coupons applicable thereto are negotiable instruments within the meaning of Article 8 of the Uniform Commercial Code, Title 62A RCW, regardless of form or character.

(8) Notwithstanding subsections (1) and (2) of this section, such bonds and interim notes may be issued and sold in accordance with chapter 39.46 RCW. [1983 c 167 § 115; 1981 c 300 § 10.]

39.84.110 Revenue bonds—Refunding. Each public corporation may provide by resolution for the issuance of revenue refunding bonds for the purpose of refunding any
revenue bonds issued for an industrial development facility under this chapter, including the payment of any redemption premium thereon and any interest accrued or to accrue to the date of redemption or maturity of the revenue bonds and, if considered advisable by the public corporation, for the additional purpose of financing improvements, extensions, or enlargements to the industrial development facility for another industrial development facility. The issuance of the revenue bonds, the maturities and other details thereof, the rights of the holders thereof, and the rights, duties, and obligations of the public corporation in respect to the same shall be governed by this chapter insofar as applicable. [1981 c 300 § 11.]

39.84.120 Trust agreements. Any bonds issued under this chapter may be secured by a trust agreement between the public corporation and a corporate trustee, which may be any trust company or bank having the powers of a trust company within or without the state. The trust agreement may evidence a pledge or assignment of the financing documents and lease, sale, or loan revenues to be received from a lessee or purchaser of or borrower with respect to an industrial development facility for the payment of principal of and interest and any premium on the bonds as the same shall become due and payable and may provide for creation and maintenance of reserves for these purposes. A trust agreement or resolution providing for the issuance of the revenue bonds may contain such provisions for protecting and enforcing the rights and remedies of the bondholders as may be reasonable and proper and not in violation of law, including covenants setting forth the duties in relation to the acquisition of property and the construction, improvement, maintenance, use, repair, operation, and insurance of the industrial development facility for which the bonds are authorized, and the custody, safeguarding, and application of all money. Any bank or trust company incorporated under the laws of the state which may act as depository of the proceeds of revenue bonds or of revenues may furnish such indemnifying bonds or pledge such securities as may be required by the corporation. A trust agreement may set forth the rights and remedies of the bondholders and of the trustee and may restrict the individual right of action by bondholders as is customary in trust agreements or trust indentures securing bonds and debentures of private corporations. In addition, a trust agreement may contain such provisions as the public corporation considers reasonable and proper for the security of the bondholders which are not in conflict with this chapter. [1981 c 300 § 12.]

39.84.130 Commingling of bond proceeds or revenues with municipal funds prohibited—Exception. No part of the proceeds received from the sale of any revenue bonds under this chapter, of any revenues derived from any industrial development facility acquired or held under this chapter, or of any interest realized on moneys received under this chapter may be commingled by the public corporation with funds of the municipality creating the public corporation. However, those funds of the public corporation, other than proceeds received from the sale of revenue bonds, that are not otherwise encumbered for the payment of revenue bonds and are not reasonably anticipated by the board of directors to be necessary for administrative expenses of the public corporation may be transferred to the creating municipality and used for growth management, planning, or other economic development purposes. [1993 c 139 § 1; 1981 c 300 § 13.]

39.84.140 Subleases and assignments. A lessee or contracting party under a sale contract or loan agreement shall not be required to be the eventual user of an industrial development facility if any sublessee or assignee assumes all of the obligations of the lessee or contracting party under the lease, sale contract, or loan agreement, but the lessee or contracting party or their successors shall remain primarily liable for all of its obligations under the lease, sale contract, or loan agreement and the use of the industrial development facility shall be consistent with the purposes of this chapter. [1981 c 300 § 14.]

39.84.150 Determination of rent. (2) Initial allocations may be modified by the agency only to reflect an issuer’s carryforward amount. Any reduction of the initial allocation shall be added to the remainder and be available for allocation or reallocation.

(3) The remainder shall be allocated by the agency among one or more issuers from any bond use category with regard to the criteria specified in RCW 39.86.130.

(4) Should any bond use category no longer be subject to the state ceiling due to federal or state provisions of law, the agency shall divide the amount of that initial allocation among the remaining categories as necessary or appropriate with regard to the criteria specified in RCW 39.86.130.

(5) (a) Prior to July 1st of each calendar year, any available portion of an initial allocation may be allocated or reallocated only to an issuer within the same bond use category, except that the remainder category, or portions thereof, may be allocated at any time to any bond use category.

39.86.130 Criteria. (1) In granting an allocation, reallocation, or carryforward of the state ceiling as provided in this chapter, the agency shall consider existing state priorities and other such criteria, including but not limited to, the following criteria:

(a) Need of issuers to issue bonds within a bond use category subject to a state ceiling;

(b) Amount of the state ceiling available;

(c) Public benefit and purpose to be satisfied, including economic development, educational opportunity, and public health, safety, or welfare;

(d) Cost or availability of alternative methods of financing for the project or program; and

(b) Student loans: Criteria which comply with the applicable provisions of Title 28B RCW and rules adopted by the higher education coordinating board or applicable state agency dealing with student financial aid.

(c) Small issue: Factors which may include:

(i) The number of employment opportunities the project is likely to create or retain in relation to the amount of the bond issuance;

(ii) The level of unemployment existing in the geographic area likely to be affected by the project;

(iii) A commitment to providing employment opportunities to low-income persons in cooperation with the employment security department;

(iv) Geographic distribution of projects;

(v) The number of persons who will benefit from the project;

(vi) Consistency with criteria identified in subsection (1) of this section; and

(d) Exempt facility or redevelopment: Factors which may include:

(i) State issuance needs;

(ii) Consistency with criteria identified in subsection (1) of this section;

Short title—2010 1st sp.s. c 6: See note following RCW 43.180.160.

39.86.140 Procedure for obtaining state ceiling allocation. (1) No issuer may receive an allocation of the state ceiling without a certificate of approval from the agency.
(2) For each state ceiling allocation request, an issuer shall submit to the agency, no sooner than ninety days prior to the beginning of a calendar year for which an allocation of the state ceiling is being requested, a form identifying:
(a) The amount of the allocation sought;
(b) The bond use category from which the allocation sought would be made;
(c) The project or program for which the allocation is requested;
(d) The financing schedule for which the allocation is needed; and
(e) Any other such information required by the agency, including information which corresponds to the allocation criteria of RCW 39.86.130.
(3) The agency may approve or deny an allocation for all or a portion of the issuer’s request. Any denied request, however, shall remain on file with the agency for the remainder of the calendar year and shall be considered for receiving any allocation, reallocation, or carryforward of unused portions of the state ceiling during that period.
(4) After receiving an allocation request, the agency shall mail to the requesting issuer a written certificate of approval or notice of denial for an allocation amount, by a date no later than the latest of the following:
(a) February 1st of the calendar year for which the request is made;
(b) Fifteen days from the date the agency receives an allocation request; or
(c) Fifteen days from the date the agency receives a recommendation by the *board with regard to a small issue allocation request, should the *board choose to review individual requests.
(5) *(a) For requests of the state ceiling of any calendar year, the following applies to all bond use categories except housing and student loans:
(i) Except for housing and student loans, any allocations granted prior to April 1st, for which bonds have not been issued by July 1st of the same calendar year, shall revert to the agency on July 1st of the same calendar year for reallocation unless an extension or carryforward is granted;
(ii) Except for housing and student loans, any allocations granted on or after April 1st, for which bonds have not been issued by October 15th of the same calendar year, shall revert to the agency on October 15th of the same calendar year for reallocation unless an extension or carryforward is granted.
(b) For each calendar year, any housing or student loan allocations, for which bonds have not been issued by December 15th of the same calendar year, shall revert to the agency on December 15th of the same calendar year for reallocation unless an extension or carryforward is granted.
(6) An extension of the deadlines provided by subsection (5) of this section may be granted by the agency for the approved allocation amount or a portion thereof, based on:
(a) Firm and convincing evidence that the bonds will be issued before the end of the calendar year if the extension is granted; and
(b) Any other criteria the agency deems appropriate.
(7) If an issuer determines that bonds subject to the state ceiling will not be issued for the project or program for which an allocation was granted, the issuer shall promptly notify the agency in writing so that the allocation may be canceled and the amount may be available for reallocation.
(8) Bonds subject to the state ceiling may be issued only to finance the project or program for which a certificate of approval is granted.
(9) Within three business days of the date that bonds for which an allocation of the state ceiling is granted have been delivered to the original purchasers, the issuer shall mail to the agency a written notification of the bond issuance. In accordance with chapter 39.44 RCW, the issuer shall also complete bond issuance information on the form provided by the agency.
(10) If the total amount of bonds issued under the authority of a state ceiling for a project or program is less than the amount allocated, the remaining portion of the allocation shall revert to the agency for reallocation in accordance with the criteria in RCW 39.86.130. If the amount of bonds actually issued under the authority of a state ceiling is greater than the amount allocated, the entire allocation shall be disallowed. [2010 1st sp.s. c 6 § 8; 1987 c 297 § 5.]

*Revisor’s note: RCW 39.86.110 was amended by 2010 1st sp.s. c 6 § 4, deleting the definition of "board."

39.86.150 Reallocation process and carryforwards. Reallocations may also be made from the remainder category at any time during the year.
(2) Prior to the end of each calendar year, the agency shall allocate or reallocate any unused portions of the state ceiling among one or more issuers as carryforward, to be used within three years, in accordance with the code and relevant criteria described in RCW 39.86.130.

39.86.160 Executive orders. If federal legislation is enacted or federal regulations are promulgated which affect the state ceiling, when the legislature is not in session or is less than forty-five days from the constitutional end of session, the governor may establish by executive order an alternative system for the allocation of tax-exempt bonds under the state ceiling, effective until the legislature acts. In allocating or reallocating under this section, the governor shall take into account the requirements of federal law, the policy choices expressed in state law, and the projected needs of issuers. [1987 c 297 § 7.]

39.86.170 Fees. A fee schedule shall be established by rule by the agency to assist in support of bond allocation activities. 39.86.190 Biennial reports. By February 1st of each even-numbered year, the agency shall summarize for the legislature each previous year’s bond allocation requests and issuance. Beginning in February 2010 and thereafter in February of each even-numbered year, the agency shall also submit a biennial report summarizing usage of the bond allocation proceeds and any policy concerns for future bond allocations. These costs may include costs incurred prior to the adoption of the public improvement ordinance, but subsequent to July 10, 1982.

(7) "Public improvement ordinance" means the ordinance passed under RCW 39.88.040(4).

(8) "Regular property taxes" means regular property taxes as now or hereafter defined in RCW 84.04.140, except regular property taxes levied by port districts or public utility districts specifically for the purpose of making required payments of principal and interest on general indebtedness.

(9) "Sponsor" means any county or city initiating and undertaking a public improvement.

(10) "Tax allocation base value of real property" means the true and fair value of real property within an apportionment district for the year in which the apportionment district was established.

Not more than twenty-five percent of the area within the urban area proposed apportionment district may be vacant land. [1982 1st ex.s.c 42 § 3.]

*Reviser’s note: "section 10 of this act," codified as RCW 39.88.090, deals with general obligation bonds. Tax allocation bonds are the subject of section 11 (RCW 39.88.100), which was apparently intended. The error arose in the renumbering of sections in the engrossing of amendments to Second Substitute Senate Bill No. 4603 [1982 1st ex.s.c 42].

39.88.030 Authority—Limitations. (1) Only public improvements which are determined by the legislative authority of the sponsor to meet the following criteria are eligible to be financed under this chapter:

(a) The public improvement is located within an urban area;

(b) The public improvement will encourage private development within the apportionment district;

(c) The public improvement will increase the fair market value of the real property located within the apportionment district;

(d) The private development which is anticipated to occur within the apportionment district as a result of the public improvement is consistent with an existing comprehensive land use plan and approved growth policies of the jurisdiction within which it is located;

(e) A public improvement located within a city has been approved by the legislative authority of such city; and

(f) A public improvement located within an urban area in an unincorporated area has been approved by the legislative authority of the county within whose boundaries the area lies.

(2) Apportionment of regular property tax revenues to finance the public improvements is subject to the following limitations:

(a) No apportionment of regular property tax revenues may take place within a previously established apportionment district where regular property taxes are still apportioned to finance public improvements without the concurrence of the sponsor which established the district;

(b) No apportionment district may be established which includes any geographic area included within a previously established apportionment district which has outstanding bonds payable in whole or in part from tax allocation revenues;

(c) The total amount of outstanding bonds payable in whole or in part from tax allocation revenues arising from property located within a city shall not exceed two percent of the value of taxable property within the city, and the total amount of outstanding bonds payable in whole or in part from tax allocation revenues arising from property located within the unincorporated areas of a county shall not exceed two percent of the value of taxable property within the entire unincorporated area of the county; and

(d) No taxes other than regular property taxes may be apportioned under this chapter.

(3) Public improvements may be undertaken and coordinated with other programs or efforts undertaken by the sponsor or others and may be funded in whole or in part from sources other than those provided by this chapter. [1982 1st ex.s.c 42 § 4.]

39.88.040 Procedure for adoption of public improvement. Public improvements funded by tax allocation revenues may only be located within an urban area. In order to secure an allocation of regular property taxes to finance a public improvement, a sponsor shall:

(1) Propose by ordinance a plan for the public improvement which includes a description of the contemplated public improvement, the estimated cost thereof, the boundaries of the apportionment district, the estimated period during which tax revenue apportionment is contemplated, and the ways in which the sponsor plans to use tax allocation revenues to finance the public improvement, and which sets at least three public hearings thereon before the legislative authority of the sponsor or a committee thereof: PROVIDED, That public hearings for the public improvement that is undertaken in combination or coordination by two or more sponsors may be held jointly; and public hearings, held before the legislative authority or a committee of a majority thereof may be combined with public hearings held for other purposes;

(2) At least fifteen days in advance of the hearing:
(a) Deliver notice of the hearing to all taxing districts, the county treasurer, and the county assessor, which notice includes a map or drawing showing the location of the contemplated public improvement and the boundaries of the proposed apportionment district, a brief description of the public improvement, the estimated cost thereof, the anticipated increase in property values within the apportionment district, the location of the sponsor’s principal business office where it will maintain information concerning the public improvement for public inspection, and the date and place of hearing; and

(b) Post notice in at least six public places located in the proposed apportionment district and publish notice in a legal newspaper of general circulation within the sponsor’s jurisdiction briefly describing the public improvement, the proposed apportionment, the boundaries of the proposed apportionment district, the location where additional information concerning the public improvement may be inspected, and the date and place of hearing;

(3) At the time and place fixed for the hearing under subsection (1) of this section, and at such times to which the hearing may be adjourned, receive and consider all statements and materials as may be submitted, and objections and letters filed before or within ten days thereafter;

(4) Within one hundred twenty days after completion of the public hearings, pass an ordinance establishing the apportionment district and authorizing the proposed public improvement, including any modifications which in the sponsor’s opinion the hearings indicated should be made, which includes the boundaries of the apportionment district, a description of the public improvement, the estimated cost thereof, the portion of the estimated cost thereof to be reimbursed from tax allocation revenues, the estimated time during which regular property taxes are to be apportioned, the date upon which apportionment of the regular property taxes will commence, and a finding that the public improvement meets the conditions of RCW 39.88.030. [1982 1st ex.s. c 42 § 5.]

39.88.050 Notice of public improvement. Within fifteen days after enactment of the public improvement ordinance, the sponsor shall publish notice in a legal newspaper circulated within the designated apportionment district summarizing the final public improvement, including a brief description of the public improvement, the boundaries of the apportionment district, and the location where the public improvement ordinance and any other information concerning the public improvement may be inspected.

Within fifteen days after enactment of the public improvement ordinance, the sponsor shall deliver a certified copy thereof to each taxing district, the county treasurer, and the county assessor. [1982 1st ex.s. c 42 § 6.]

39.88.060 Disagreements between taxing districts. (1) Any taxing district that objects to the apportionment district, the duration of the apportionment, the manner of apportionment, or the propriety of cost items established by the public improvement ordinance of the sponsor may, within thirty days after mailing of the ordinance, petition for review thereof by the state board of tax appeals. The state board of tax appeals shall meet within a reasonable time, hear all the evidence presented by the parties on matters in dispute, and determine the issues upon the evidence as may be presented to it at the hearing. The board may approve or deny the public improvement ordinance as enacted or may grant approval conditioned upon modification of the ordinance by the sponsor. The decision by the state board of tax appeals shall be final and conclusive but shall not preclude modification or discontinuation of the public improvement.

(2) If the sponsor modifies the public improvement ordinance as directed by the board, the public improvement ordinance shall be effective without further hearings or findings and shall not be subject to any further appeal. If the sponsor modifies the public improvement ordinance in a manner other than as directed by the board, the public improvement ordinance shall be subject to the procedures established pursuant to RCW 39.88.040 and 39.88.050. [1989 c 378 § 1; 1982 1st ex.s. c 42 § 7.]

39.88.070 Apportionment of taxes. (1) Upon the date established in the public improvement ordinance, but not sooner than the first day of the calendar year following the passage of the ordinance, the regular property taxes levied upon the assessed value of real property within the apportionment district shall be divided as follows:

(a) That portion of the regular property taxes produced by the rate of tax levied each year by or for each of the taxing districts upon the tax allocation base value of real property, or upon the assessed value of real property in each year, whichever is smaller, shall be allocated to and paid to the respective taxing districts; and

(b) That portion of the regular property taxes levied each year by or for each of the taxing districts upon the assessed value of real property within an apportionment district which is in excess of the tax allocation base value of real property shall be allocated and paid to the sponsor, or the sponsor’s designated agent, until all public improvement costs to be paid from the tax allocation revenues have been paid, except that the sponsor may agree to receive less than the full amount of such portion as long as bond debt service, reserve, and other bond covenant requirements are satisfied, in which case the balance of the taxes shall be allocated to the respective taxing districts as the sponsor and the taxing districts may agree.

(2) The county assessor shall revalue the real property within the apportionment district for the purpose of determining the tax allocation base value for the apportionment district and shall certify to the sponsor the tax allocation base value as soon as practicable after the assessor receives notice of the public improvement ordinance and shall certify to the sponsor the total assessed value of real property within thirty days after the property values for each succeeding year have been established, except that the assessed value of state-assessed real property within the apportionment district shall be certified as soon as the values are provided to the assessor by the department of revenue. Nothing in this section authorizes revaluations of real property by the assessor for property taxation that are not made in accordance with the assessor’s revaluation plan under chapter 84.41 RCW.
39.88.080 Application of tax allocation revenues. Tax allocation revenues may be applied as follows:

(1) To pay public improvement costs;
(2) To pay principal of and interest on, and to fund any necessary reserves for, tax allocation bonds;
(3) To pay into bond funds established to pay the principal of and interest on general obligation bonds issued pursuant to law to finance public facilities that are specified in the public improvement ordinance and constructed following the establishment of bond funds, or within the apportionment district; or
(4) To pay any combination of the foregoing. [1982 1st ex.s. c 42 § 9.]

39.88.090 General obligation bonds. General obligation bonds which are issued to finance public facilities that are specified in the public improvement ordinance, and for which part or all of the principal or interest is paid by tax allocation revenues, shall be subject to the following requirements:

(1) The intent to issue such bonds and the maximum amount which the sponsor contemplates issuing are specified in the public improvement ordinance; and
(2) A statement of the intent of the sponsor to issue such bonds is included in all notices required by RCW 39.88.040 and 39.88.050.

In addition, the ordinance or resolution authorizing the issuance of such general obligation bonds shall be subject to potential referendum approval by the voters of the issuing entity when the bonds are part of the non-voter approved indebtedness limitation established pursuant to RCW 39.36.020. If the voters of the county or city issuing such bonds otherwise possess the general power of referendum on county or city matters, the ordinance or resolution shall be subject to that procedure. If the voters of the county or city issuing such bonds do not otherwise possess the general power of referendum on county or city matters, the referendum shall conform to the requirements and procedures for referendum petitions provided for code cities in RCW 35A.11.100. [1982 1st ex.s. c 42 § 10.]

(5) Tax allocation bonds may be issued and sold in such manner as the legislative authority of the sponsor shall determine.
(6) The sponsor may also issue or incur obligations in anticipation of the receipt of tax allocation bond proceeds or other money available to pay public improvement costs. [1982 1st ex.s. c 42 § 11.]

39.89.010 Declaration—Purpose. (1) It is declared to be the public policy of the state of Washington to promote and facilitate the orderly development and economic stability of its communities. Local governments need the ability to raise revenue to finance public improvements that are designed to encourage economic growth and development in geographic areas characterized by high levels of unemployment and stagnate employment and income growth. The construction of necessary public improvements in accordance with local economic development plans will encourage investment in job-producing private development and expand the public tax base.

(2) It is the purpose of this chapter:
(a) To encourage taxing districts to cooperate in the allocation of future tax revenues that are used to finance public improvements designed to encourage private development in selected areas, in particular in those local governments that are located adjacent to another state or international border;
(b) To assist those local governments that have a competitive disadvantage in its ability to attract business, private investment, or commercial development due to its location near a state or international border; and
(c) To prevent or arrest the decay of selected areas due to the inability of existing financial methods to provide needed public improvements, and to encourage private investment designed to promote and facilitate the orderly redevelopment of selected areas. [2001 c 212 § 1.]

39.89.020 Definitions. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(6) "Regular property taxes" means regular property taxes as defined in RCW 84.04.140, except: (a) Regular property taxes levied by port districts or public utility districts specifically for the purpose of making payments of principal and interest on general indebtedness; and (b) regular property taxes levied by the state for the support of the common schools under RCW 84.52.065. Regular property taxes do not include excess property tax levies that are exempt from the aggregate limits for junior and senior taxing districts as provided in RCW 84.52.043.

(7) "Tax allocation base value" means the true and fair value of real property located within an increment area for taxes imposed in the year in which the increment area is created, plus twenty-five percent of any increase in the true and fair value of real property located within an increment area that is placed on the assessment rolls after the increment area is created.

(8) "Tax allocation revenues" means those tax revenues derived from the imposition of regular property taxes on the increment value and distributed to finance public improvements.

(9) "Increment area" means the geographic area from which taxes are to be appropriated to finance public improvements authorized under this chapter.

(12) "Value of taxable property" means the value of the taxable property as defined in RCW 39.36.015. [2001 c 212 § 2.]

39.89.030 Authority—Conditions. A local government may finance public improvements using community revitalization financing subject to the following conditions:

(1) The local government adopts an ordinance designating an increment area within its boundaries and specifying the public improvements proposed to be financed in whole or in part with the use of community revitalization financing;

(2) The public improvements proposed to be financed in whole or in part using community revitalization financing are expected to encourage private development within the increment area and to increase the fair market value of real property within the increment area;

(3) Private development that is anticipated to occur within the increment area, as a result of the public improvements, will be consistent with the countywide planning policies adopted by the county under RCW 36.70A.210 and the local government’s comprehensive plan and development regulations adopted under chapter 36.70A RCW;

(4) Taxing districts, in the aggregate, that levy at least seventy-five percent of the regular property tax within which the increment area is located approves the community revitalization financing of the project under RCW 39.89.050(1); and

(5) In an increment area that includes any portion of a fire protection district as defined in Title 52 RCW, the fire protection district must agree to participate in the community revitalization financing of the project under chapter 212, Laws of 2001, for the project to proceed. Approval by the fire protection district shall be considered as part of the required participation by taxing districts under subsection (4) of this section. [2002 c 12 § 1; 2001 c 212 § 3.]

39.89.040 Coordination with other programs—Improvements by private developer must meet applicable state and local laws. (1) Public improvements that are financed with community revitalization financing may be undertaken and coordinated with other programs or efforts undertaken by the local government and other taxing districts and may be funded in part from revenue sources other than community revitalization financing.

(2) Public improvements that are constructed by a private developer must meet applicable state and local laws. [2002 c 12 § 2; 2001 c 212 § 4.]

39.89.050 Procedure for creating increment area. Before adopting an ordinance creating the increment area, a local government must:

(1) Obtain written agreement for the use of community revitalization financing to finance all or a portion of the costs of the designated public improvements from taxing districts that, in the aggregate, levy at least seventy-five percent of the regular property tax on property within the increment area. A signed, written agreement from taxing districts that in the aggregate levy at least seventy-five percent of the regular property tax within the increment area, constitutes concurrence by all taxing districts in the increment area in the public improvement and participation in the public improvement to the extent of providing limited funding under community revitalization financing authorized under this chapter. The agreement must be authorized by the governing body of taxing districts that in the aggregate levy at least seventy-five percent of the regular property tax on property within the increment area;

(2) Hold a public hearing on the proposed financing of the public improvement in whole or in part with community revitalization financing. Notice of the public hearing must be published in a legal newspaper of general circulation within
the proposed increment area at least ten days before the public hearing and posted in at least six conspicuous public places located in the proposed increment area. Notices must describe the contemplated public improvements, describe the boundaries of the increment area, and estimate the period during which community revitalization financing is contemplated to be used. The public hearing may be held by either the governing body of the local government, or a committee of the governing body that includes at least a majority of the whole governing body; and

(3) Adopt an ordinance establishing the increment area that describes the public improvements, describes the boundaries of the increment area, estimates the cost of the public improvements and the portion of these costs to be financed by community revitalization financing, estimates the time during which regular property taxes are to be apportioned, provides the date when the apportionment of the regular property taxes will commence, and finds that the conditions of RCW 39.89.030 are met. [2001 c 212 § 5.]

39.89.060 Public notice—Notice to officials. The local government shall:

(1) Publish notice in a legal newspaper of general circulation within the increment area that describes the public improvement, describes the boundaries of the increment area, and identifies the location and times where the ordinance and other public information concerning the public improvement may be inspected; and

(2) Deliver a certified copy of the ordinance to the county treasurer, the county assessor, and the governing body of each taxing district within which the increment area is located. [2001 c 212 § 6.]

39.89.070 Apportionment of taxes. (1) Commencing in the calendar year following the passage of the ordinance, the county treasurer shall distribute receipts from regular taxes imposed on real property located in the increment area as follows:

(a) Each taxing district shall receive that portion of its regular property taxes produced by the rate of tax levied by or for the taxing district on the tax allocation base value for that community revitalization financing project in the taxing district, or upon the total assessed value of real property in the taxing district, whichever is smaller; and

(b) The local government that created the increment area shall receive an additional portion of the regular property taxes levied by or for each taxing district upon the increment value within the increment area. However, the local government that created the increment area may agree to receive less than the full amount of this portion as long as bond debt service, reserve, and other bond covenant requirements are satisfied, in which case the balance of these tax receipts shall be allocated to the taxing districts that imposed regular property taxes, or have regular property taxes imposed for them, in the increment area for collection that year in proportion to their regular tax levy rates for collection that year. The local government may request that the treasurer transfer this additional portion of the property taxes to its designated agent. The portion of the tax receipts distributed to the local government or its agent under this subsection (1)(b) may only be expended to finance public improvement costs associated with the public improvements financed in whole or in part by community revitalization financing.

(2) The county assessor shall allocate twenty-five percent of any increased real property value occurring in the increment area to the tax allocation base value and seventy-five percent to the increment value. This section does not authorize revaluations of real property by the assessor for property taxation that are not made in accordance with the assessor’s revaluation plan under chapter 84.41 RCW or under other authorized revaluation procedures.

(3) The apportionment of increases in assessed valuation in an increment area, and the associated distribution to the local government of receipts from regular property taxes that are imposed on the increment value, must cease when tax allocation revenues are no longer necessary or obligated to pay the costs of the public improvements. Any excess tax allocation revenues and earnings on the tax allocation revenues remaining at the time the apportionment of tax receipts terminates must be returned to the county treasurer and distributed to the taxing districts that imposed regular property taxes, or had regular property taxes imposed for it, in the increment area for collection that year, in proportion to the rates of their regular property tax levies for collection that year. [2001 c 212 § 7.]

39.89.080 General indebtedness—Security. (1) A local government designating an increment area and authorizing the use of community revitalization financing may incur general indebtedness, and issue general obligation bonds, to finance the public improvements and retire the indebtedness in whole or in part from tax allocation revenues it receives, subject to the following requirements:

(a) The ordinance adopted by the local government creating the increment area and authorizing the use of community revitalization financing indicates an intent to incur this indebtedness and the maximum amount of this indebtedness that is contemplated; and

(b) The local government includes this statement of the intent in all notices required by RCW 39.89.050.

(2) The general indebtedness incurred under subsection (1) of this section may be payable from other tax revenues, the full faith and credit of the local government, and nontax income, revenues, fees, and rents from the public improvements, as well as contributions, grants, and nontax money available to the local government for payment of costs of the public improvements or associated debt service on the general indebtedness.

(3) In addition to the requirements in subsection (1) of this section, a local government designating an increment area and authorizing the use of community revitalization financing may require the nonpublic participant to provide adequate security to protect the public investment in the public improvement within the increment area. [2001 c 212 § 8.]
39.89.090  Conclusive presumption of validity. A direct or collateral attack on a public improvement, public improvement ordinance, or increment area purported to be authorized or created in conformance with applicable legal requirements, including this chapter, may not be commenced more than thirty days after publication of notice as required by RCW 39.89.060. [2001 c 212 § 9.]

39.89.100 Revenue bonds. (1) A local government may issue revenue bonds to fund revenue-generating public improvements, or portions of public improvements, that are located within an increment area and that it is authorized to provide or operate. Whenever revenue bonds are to be issued, the legislative authority of the local government shall create or have created a special fund or funds from which, along with any reserves created pursuant to RCW 39.44.140, the principal and interest on these revenue bonds shall exclusively be payable. The legislative authority of the local government may obligate the local government to set aside and pay into the special fund or funds a fixed proportion or a fixed amount of the revenues from the public improvements that are funded by the revenue bonds. This amount or proportion is a lien and charge against these revenues, subject only to operating and maintenance expenses. The local government shall have due regard for the cost of operation and maintenance of the public improvements that are funded by the revenue bonds, and shall not set aside into the special fund or funds a greater amount or proportion of the revenues that in its judgment will be available over and above the cost of maintenance and operation and the amount or proportion, if any, of the revenue previously pledged. The local government may also provide that revenue bonds payable out of the same source or sources of revenue may later be issued on a parity with any revenue bonds being issued and sold.

(2) Revenue bonds issued pursuant to this section are not an indebtedness of the local government issuing the bonds, and the interest and principal on the bonds shall only be payable from the revenues lawfully pledged to meet the principal and interest requirements and any reserves created pursuant to RCW 39.44.140. The owner or bearer of a revenue bond or any interest coupon issued pursuant to this section shall not have any claim against the local government arising from the bond or coupon except for payment from the revenues lawfully pledged to meet the principal and interest requirements and any reserves created pursuant to RCW 39.44.140. The substance of the limitations included in this subsection shall be plainly printed, written, or engraved on each bond issued pursuant to this section.

(3) Revenue bonds with a maturity in excess of thirty years shall not be issued. The legislative authority of the local government shall by resolution determine for each revenue bond issue the amount, date, form, terms, conditions, denominations, maximum fixed or variable interest rate or rates, maturity or maturities, redemption rights, registration privileges, manner of execution, manner of sale, callable provisions, if any, and covenants including the refunding of existing revenue bonds. Facsimile signatures may be used on the bonds and any coupons. Refunding revenue bonds may be issued in the same manner as revenue bonds are issued. [2002 c 12 § 3.]

[Title 39 RCW—page 114]
The legislature intends with this chapter to enable local governments to develop and adopt programs for the purpose of jointly funding, from public and private sources, transportation improvements necessitated in whole or in part by economic development and growth within their respective jurisdictions. The programs should provide a fair and predictable method for allocating the cost of necessary transportation improvements between the public and private sectors. The programs should include consideration of public transportation as a method of reducing off-site transportation impacts from development. The legislature finds that the private funds authorized to be collected pursuant to this chapter are for the purpose of mitigating the impacts of development and are not taxes. The state shall encourage and give priority to the state funding of local and regional transportation improvements that are funded in part by local, public, and private funds.

The authority provided by this chapter, RCW 35.43.182 through 35.43.188, and 36.88.072 through 36.88.078 for local governments to create and implement local transportation programs is intended to be supplemental, except as expressly provided in RCW 39.90.030(9), 82.02.020, and 36.73.120, to the existing authorities and responsibilities of local governments to regulate development and provide public facilities. [1988 c 179 § 1.]

39.92.020 Definitions. The definitions set forth in this section apply throughout this chapter.

1) "Developer" means an individual, group of individuals, partnership, corporation, association, municipal corporation, state agency, or other person undertaking development and their successors and assigns.

2) "Development" means the subdivision or short platting of land or the construction or reconstruction of residential, commercial, industrial, public, or any other building, building space, or land.

3) "Direct result of the proposed development" means those quantifiable transportation impacts that are caused by vehicles or pedestrians whose trip origin or destination is the proposed development.

4) "Local government" means all counties, cities, and towns in the state of Washington and transportation benefit districts created pursuant to chapter 36.73 RCW.

5) "Off-site transportation improvements" means those transportation capital improvements designated in the local plan adopted under this chapter that are authorized to be undertaken by local government and that serve the transportation needs of more than one development.

6) "Transportation impact fee" means a monetary charge imposed on new development for the purpose of mitigating off-site transportation impacts that are a direct result of the proposed development.

7) "Fair market value" means the price in terms of money that a property will bring in a competitive and open market under all conditions of a fair sale, the buyer and seller each prudently knowledgeable, and assuming the price is not affected by undue stimulus, measured at the time of the dedication to local government of land or improved transportation facilities. [1988 c 179 § 2.]
39.92.030 Local programs authorized. Local governments may develop and adopt programs for the purpose of jointly funding, from public and private sources, transportation improvements necessitated in whole or in part by economic development and growth within their respective jurisdictions. Local governments shall adopt the programs by ordinance after notice and public hearing. Each program shall contain the elements described in this section.

1. The program shall identify the geographic boundaries of the entire area or areas generally benefited by the proposed off-site transportation improvements and within which transportation impact fees will be imposed under this chapter.

2. The program shall be based on an adopted comprehensive, long-term transportation plan identifying the proposed off-site transportation improvements reasonable and necessary to meet the future growth needs of the designated plan area and intended to be covered by the joint funding program, including acquisition of right-of-way, construction and reconstruction of all major and minor arterials and intersection improvements, and identifying design standards, levels of service, capacities, and costs applicable to the program. The program shall also indicate how the transportation plan is coordinated with applicable transportation plans for the region and for adjacent jurisdictions. The program shall also indicate how public transportation and ride-sharing improvements and services will be used to reduce off-site transportation impacts from development.

3. The program shall include at least a six-year capital funding program, updated annually, identifying the specific public sources and amounts of revenue necessary to pay for that portion of the cost of all off-site transportation improvements contained in the transportation plan that will not foreseeably be funded by transportation impact fees. The program shall include a proposed schedule for construction and expenditures of funds. The funding plan shall consider the additional local tax revenue estimated to be generated by new development within the plan area if all or a portion of the additional revenue is proposed to be earmarked as future appropriations for such off-site transportation improvements.

4. The program shall authorize transportation impact fees to be imposed on new development within the plan area for the purpose of providing a portion of the funding for reasonable and necessary off-site transportation improvements to solve the cumulative impacts of planned growth and development in the plan area. Off-site transportation impacts shall be measured as a pro rata share of the capacity of the off-site transportation improvements being funded under the program. The fees shall not exceed the amount that the local government can demonstrate is reasonably necessary as a direct result of the proposed development.

5. The program shall provide that the funds collected as a result of a particular new development shall be used in substantial part to pay for improvements mitigating the impacts of the development or be refunded to the property owners of record. Fees paid toward more than one transportation improvement may be pooled and expended on any one of the improvements mitigating the impact of the development. The funds shall be expended in all cases within six years of collection by the local government or the unexpended funds shall be refunded.

6. The program shall also describe the formula, timing, security, credits, and other terms and conditions affecting the amount and method of payment of the transportation impact fees as further provided for in RCW 39.92.040. In calculating the amount of the fee, local government shall consider and give credit for the developer’s participation in public transportation and ride-sharing improvements and services.

7. The administrative element of the program shall include: An opportunity for administrative appeal by the developer and hearing before an independent examiner of the amount of the transportation impact fee imposed; establishment of a designated account for the public and private funds appropriated or collected for the transportation improvements identified in the plan; methods to enforce collection of the public and private funds identified in the program; designation of the administrative departments or other entities responsible for administering the program, including determination of fee amounts, transportation planning, and construction; and provisions for future amendment of the program including the addition of other off-site transportation improvements. The program shall not be amended in a manner to relieve local government of any contractual obligations made to prior developers.

8. The program shall provide that private transportation impact fees shall not be collected for any off-site transportation improvement that is incapable of being reasonably carried out because of lack of public funds or other foreseeable impediment.

9. The program shall provide that no transportation impact fee may be imposed on a development by local government pursuant to this program when mitigation of the same off-site transportation impacts for the development is being required by any government agency pursuant to any other local, state, or federal law. [1988 c 179 § 3.]

39.92.040 Transportation impact fee. The program shall describe the formula or method for calculating the amount of the transportation impact fees to be imposed on new development within the plan area. The program may require developers to pay a transportation impact fee for off-site transportation improvements not yet constructed and for those jointly-funded improvements constructed since the commencement of the program.

The program shall define the event in the development approval process that triggers a determination of the amount of the transportation impact fees and the event that triggers the obligation to make actual payment of the fees. However, the payment obligation shall not commence before the date the developer has obtained a building permit for the new development or, in the case of residential subdivisions or short plats, at the time of final plat approval, at the developer’s option. If the developer of a residential subdivision or short plat elects to pay the fee at the date a building permit has been obtained, the option to pay the transportation impact fee by installments as authorized by this section is deemed to have been waived by the developer. The developer shall be given the option to pay the transportation impact fee in a lump sum, without interest, or by installment with reasonable interest over a period of five years or more as specified by the local government.
The local government shall require security for the obligation to pay the transportation impact fee, in the form of a recorded agreement, deed of trust, letter of credit, or other instrument determined satisfactory by the local government. The developer shall also be given credit against its obligations for the transportation impact fee, for the fair market value of off-site land and/or the cost of constructing off-site transportation improvements dedicated to the local government. If the value of the dedication exceeds the amount of transportation impact fee obligation, the developer is entitled to reimbursement from transportation impact fees attributable to the dedicated improvements and paid by subsequent developers within the plan area.

Payment of the transportation impact fee entitles the developer and its successors and assigns to credit against any other fee, local improvement district assessment, or other monetary imposition made specifically for the designated off-site transportation improvements intended to be covered by the transportation impact fee imposed pursuant to this program. The program shall also define the criteria for establishing periodic fee increases attributable to construction and related cost increases for the improvements designated in the program. [1989 c 296 § 1; 1988 c 179 § 4.]

39.94.050 Interlocal cooperation—Consistency and assistance. Local governments are authorized and encouraged to enter into interlocal agreements to jointly develop and adopt with other local governments the transportation programs authorized by this chapter for the purpose of accomplishing regional transportation planning and development. Local governments shall also seek, to the greatest degree practicable, consistency among jurisdictions in the terms and conditions of their programs for the purpose of increasing fairness and predictability on a regional basis. Local governments shall seek comment, in the development of their programs, from other affected local governments, state agencies, and governments authorized to perform public transportation functions. Local governments are also encouraged to enter into interlocal agreements to provide technical assistance to each other, in return for reasonable reimbursement, for the purpose of developing and implementing such transportation programs. [1988 c 179 § 5.]

39.94.050 Severability—Prospective application—1988 c 179. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected. This act is intended to be prospective, not retroactive, in its application. [1988 c 179 § 17.]

39.94.051 Section captions—1988 c 179. Section captions used in this act do not constitute any part of the law. [1988 c 179 § 18.]

39.94.010 Purposes—Construction. The purposes of this chapter are to confirm the authority of the state, its agencies, departments, and instrumentalities, the state board for community and technical colleges, and the state institutions of higher education to enter into contracts for the acquisition of real and personal property which provide for payments over a term of more than one year and to exclude such contracts from the computation of indebtedness under Article VIII, section 1 of the state Constitution. It is further the purpose of this chapter to permit the state, its agencies, departments, and instrumentalities, the state board for community and technical colleges, and the state institutions of higher education to enter into financing contracts which make provision for the issuance of certificates of participation and other financing structures. Financing contracts of the state, whether or not entered into under this chapter, shall be subject to approval by the state finance committee except as provided in this chapter.

This chapter shall be liberally construed to effect its purposes. [2009 c 500 § 6; 1998 c 291 § 2; 1989 c 356 § 1.]

39.94.020 Definitions. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Credit enhancement" includes insurance, letters of credit, lines of credit, or other similar agreements which enhance the security for the payment of the state’s or an other agency’s obligations under financing contracts.

(2) "Financing contract" means any contract entered into by the state for itself or on behalf of an other agency which provides for the use and purchase of real or personal property by the state and provides for payment by the state over a term of more than one year, and which provides that title to the subject property may secure performance of the state or transfer to the state or an other agency by the end of the term, upon exercise of an option, for a nominal amount or for a price determined without reference to fair market value. Financing contracts include, but are not limited to, conditional sales contracts, financing leases, lease purchase contracts, or refinancing contracts, but do not include operating or true leases. For purposes of this chapter, the term "financing contract" does not include any nonrecourse financing contract or other obligation payable only from money or other property received from private sources and not payable from any public money or property. The term "financing contract" includes a "master financing contract."

(3) "Master financing contract" means a financing contract which provides for the use and purchase of property by the state, and which may include more than one financing contract and appropriation.

[Title 39 RCW—page 117]
Authority to enter into financing contracts—Terms—Intent—Obligation of state revenues.

(1) The state may enter into financing contracts for itself or on behalf of an other agency for the use and acquisition for public purposes of real and personal property. Payments under financing contracts of the state shall be made by the state from currently appropriated funds or funds not constituting "general state revenues" as defined in Article VIII, section 1 of the state Constitution. Except as provided in subsection (4)(b) of this section, payments under financing contracts of the state on behalf of any other agency shall be made solely from the sources identified in the financing contract, which may not obligate general state revenues as defined in Article VII, section 1 of the state Constitution. The treasurer of an other agency shall remit payments under financing contracts to the office of the state treasurer or to the state treasurer’s designee. In the event of any deficiency of payments by an other agency under a financing contract, the treasurer of the other agency shall transfer any legally available funds of the other agency in satisfaction of the other agency’s obligations under the financing contract if such funds have been obligated by the other agency under the financing contract and, if such deficiency is not thereby cured, the office of the state treasurer is directed to withdraw from that agency’s share of state revenues for distribution or other money an amount sufficient to fulfill the terms and conditions of the financing contract. The term of any financing contract shall not exceed thirty years or the remaining useful life of the property, whichever is shorter. Financing contracts may include other terms and conditions agreed upon by the parties.

(2) The state for itself or on behalf of an other agency may enter into contracts for credit enhancement, which limits the recourse of the provider of credit enhancement solely to the security provided under the financing contract secured by the credit enhancement.

(3) The state or an other agency may grant a security interest in real or personal property acquired under financing contracts. The security interest may be perfected as provided by the uniform commercial code - secured transactions, or otherwise as provided by law for perfecting liens on real estate. Other terms and conditions may be included as agreed upon by the parties. An other agency that is authorized by applicable law to enter into a financing contract may make payments due under such a contract from the proceeds of annual tax levies approved by the voters under RCW 84.52.056, among other sources.

(4)(a) Financing contracts and contracts for credit enhancement entered into under the limitations set forth in this chapter do not constitute a debt or the contracting of indebtedness under any law limiting debt of the state. It is the intent of the legislature that such contracts also do not constitute a debt or the contracting of indebtedness under any law limiting debt of the state if payment is conditioned upon payment by the state under the financing contract with respect to which the same relates. It is the intent of the legislature that such contracts also do not constitute a debt or the contracting of indebtedness under Article VIII, section 1 of the state Constitution. Certificates of participation in payments to be made under financing contracts also do not constitute a debt or the contracting of an indebtedness under any law limiting debt of the state if payment is conditioned upon payment by the state under the financing contract with respect to which the same relates. It is the intent of the legislature that such certificates also do not constitute a debt or the contracting of indebtedness under Article VIII, section 1 of the state Constitution if payment of the certificates is conditioned upon payment by the state under the financing contract with respect to which those certificates relate.

(b) An other agency authorized by law to issue bonds, notes or other evidences of indebtedness or to enter into conditional sales contracts or lease obligations, may participate in a program under this chapter in which the state enters into a financing contract on behalf of that other agency, and the other agency’s obligations to the state under the program may be evidenced by an agreement, lease, bond, note, or other appropriate instrument. A financing contract made by the state on behalf of an other agency may be secured by the pledge of revenues of the other agency or other agency’s full faith and credit or may, at the option of the state finance committee, include a contingent obligation by the state for payment under such financing contract.

Effective date—2009 c 500: See note following RCW 39.42.070.

(b) Approve programs providing for the issuance of certificates of participation in master financing contracts for the state or for other agencies; and
(c) Enter into agreements with trustees relating to master financing contracts; and
(d) Make appropriate rules for the performance of its duties under this chapter.
(2) In the performance of its duties under this chapter, the state finance committee may consult with representatives from the department of general administration, the office of financial management, and the department of information services.
(3) With the approval of the state finance committee, the state also may enter into agreements with trustees relating to financing contracts and the issuance of certificates of participation.
(4) Except for financing contracts for real property used for the purposes described under chapter 28B.140 RCW, the state may not enter into any financing contract for real property of the state without prior approval of the legislature.
(5) The state may not enter into any financing contract on behalf of an other agency without the approval of such a financing contract by the governing body of the other agency. For the purposes of this requirement, a financing contract must be treated as used for real property if it is being entered into by the state for the acquisition of land; the acquisition of an existing building; the construction of a new building; or a major remodeling, renovation, rehabilitation, or rebuilding of an existing building. Prior approval of the legislature is not required under this chapter for a financing contract entered into by the state under this chapter for energy conservation improvements to existing buildings where such improvements include (a) fixtures and equipment that are not a part of a major remodeling, renovation, rehabilitation, or rebuilding of the building, or (b) other improvements to the building that are being performed for the primary purpose of energy conservation. Such energy conservation improvements must be determined eligible for financing under this chapter by the office of financial management in accordance with financing guidelines established by the state treasurer, and are to be treated as personal property for the purposes of this chapter. (5) The state may not enter into any financing contract on behalf of an other agency without the approval of such a financing contract by the governing body of the other agency. 39.94.050 Financing program to be self-supporting—Payment of program expenses. (1) It is the intent of the legislature that the financing program authorized by this chapter be self-supporting.
(2) The state treasurer is authorized to levy fees and apply specified investment earnings from time to time in amounts not to exceed sums sufficient to pay program expenses including, but not limited to, costs of issuance, and to create reserves to assure timely payment of financing contracts. The investment earnings available for this purpose represent the earnings on payments received from state and other agencies. [1998 c 291 § 1.]

changes in interest rates; that a number of financial instruments are available to lower the net cost of these borrowings, or to reduce the exposure of state and local governments to changes in interest rates; that these reduced costs for state and local governments will benefit taxpayers and ratepayers; and that the legislature desires to provide state and local governments with express statutory authority to take advantage of these instruments. In recognition of the complexity of these financial instruments, the legislature desires that this authority be subject to certain limitations. 39.96.030 Payment agreements authorized—Conditions. (1) Subject to subsections (2) and (3) of this section, any governmental entity may enter into a payment agreement in connection with, or incidental to, the issuance, incurring, or carrying of specific obligations, for the purpose of managing or reducing the governmental entity’s exposure to fluctuations or levels of interest rates. Nothing in this chapter shall be construed to provide governmental entities with separate or additional authority to invest funds or moneys relating to or held in connection with any obligations.

2) No governmental entity may enter into a payment agreement under this chapter unless it first:
(a) Finds and determines, by ordinance or resolution, that the payment agreement, if fully performed by all parties thereto, will (i) reduce the amount or duration of its exposure to changes in interest rates; or (ii) result in a lower net cost of borrowing with respect to the related obligations;
(b) Obtains, on or prior to the date of execution of the payment agreement, a written certification from a financial advisor that (i) the terms and conditions of the payment agreement and any ancillary agreements, including without limitation, the interest rate or rates and any other amounts payable thereunder, are commercially reasonable in light of then existing market conditions; and (ii) the finding and determination contained in the ordinance or resolution required by (a) of this subsection is reasonable.

Such solicitation and consideration shall be conducted in such manner as the governmental entity shall determine is reasonable. [2000 c 184 § 2; 1993 c 273 § 3.]

Effective date—2000 c 184: See note following RCW 39.96.040.

39.96.040 Terms and conditions. (1) Subject to subsections (2), (3), and (4) of this section, payment agreements entered into by any governmental entity may include those payment, term, security, default, remedy, termination, and other terms and conditions, and may be with those parties, as the governmental entity deems reasonably necessary or desirable.

2) No governmental entity may enter into a payment agreement under this chapter unless:
(a) The other party to the agreement has a rating from at least two nationally recognized credit rating agencies, as of the date of execution of the agreement, that is within the two highest long-term investment grade rating categories, without
regard to subcategories, or the payment obligations of the party under the agreement are unconditionally guaranteed by an entity that has the required ratings; or

(b)(i) The other party to the agreement has a rating from at least two nationally recognized credit rating agencies, as of the date of execution of the agreement, that is within the three highest long-term investment grade rating categories, without regard to subcategories, or the payment obligations of the party under the agreement are unconditionally guaranteed by an entity that has the required ratings; and

(ii) The payment obligations of the other party under the agreement are collateralized by direct obligations of, or obligations the principal and interest on which are guaranteed by, the United States of America, that (A) are deposited with the governmental entity or an agent of the governmental entity; and (B) maintain a market value of not less than one hundred two percent of the net market value of the payment agreement to the governmental entity, as such net market value may be defined and determined from time to time under the terms of the payment agreement.

(3) No governmental entity may enter into a payment agreement with a party who qualifies under subsection (2)(a) of this section unless the payment agreement provides that, in the event the credit rating of the other party or its guarantor falls below the level required by subsection (2)(a) of this section, such party will comply with the collateralization requirements contained in subsection (2)(b) of this section.

(4) No governmental entity may enter into a payment agreement unless:

(a) The notional amount of the payment agreement does not exceed the principal amount of the obligations with respect to which the payment agreement is made; and

(1) Subject to any covenants or agreements applicable to the obligations issued or incurred by the governmental entity, if the governmental entity enters into a payment agreement with respect to those obligations, then it may elect to treat the amounts payable from time to time with respect to those obligations as the amounts payable after giving effect to the payment agreement for the purposes of calculating:

(a) Rates and charges to be imposed by a revenue-producing enterprise if the revenues are pledged or used to pay those obligations;

(b) Any taxes to be levied and collected to pay those obligation[s]; and

(c) Payments or debt service on those obligations for any other purpose.

SCHOOL DISTRICT CREDIT ENHANCEMENT PROGRAM

Sections
39.98.010 Finding—School district debt obligation not removed.
39.98.020 Definitions.
39.98.030 Bonds guaranteed by full faith, credit, and taxing power of the state—Reference to chapter on face of bond conclusively establishes guaranty.

39.98.050 Debt service payments—Notifications upon nonpayment—Payments by state treasurer—Repayment.
Finding—School district debt obligation not removed. The legislature finds that implementation of the credit enhancement program provided for in this chapter can provide substantial savings to the taxpayers of the state of Washington with minimal risk or cost to the state government. The guaranty provided by pledging the credit of the state to the payment of voter-approved school district general obligation bonds will encourage lower interest rates, and therefore lower taxes, for such bonds than school districts alone can command, despite the excellent credit history of such obligations. Any such guarantee does not remove the debt obligation of the school district and is not state debt. [1999 c 273 § 1.]

Definitions. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Bond" means any voted general obligation bond issued by a school district, holding a certificate issued pursuant to this chapter for such a bond.

(2) "Credit enhancement program" means the school district bond guaranty established by this chapter.

(3) "General obligation bond" means any bond, note, warrant, certificate of indebtedness, or other obligation of a district that constitutes an indebtedness within the meaning of any applicable constitutional or statutory debt limitations.

(4) "Paying agent" means the paying agent selected, from time to time, for a bond issue pursuant to state law.

(5) "Refunding bond" means any general obligation bond issued by a district for the purpose of refunding its outstanding general obligation bonds.

(6) "School district" or "district" means any school district existing now or later under the laws of the state. [1999 c 273 § 2.]

Bonds guaranteed by full faith, credit, and taxing power of the state—Reference to chapter on face of bond conclusively establishes guaranty. (1)(a) The full faith, credit, and taxing power of the state is pledged to guarantee full and timely payment of the principal of and interest on bonds as such payments become due. However, in the event of any acceleration of the due date of the principal by reason of mandatory redemption or acceleration resulting from default, the payments guaranteed shall be made in the amounts and at the times as payments of principal would have been due had there not been any acceleration.

(b) This guaranty does not extend to the payment of any redemption premium.

(c) Reference to this chapter by its title on the face of any bond conclusively establishes the guaranty provided to that bond under the provisions of this chapter.

(2)(a) The state pledges to and agrees with the owners of any bonds that the state will not alter, impair, or limit the rights vested by the credit enhancement program with respect to the bonds until the bonds, together with applicable interest, are fully paid and discharged. However, this chapter does not preclude an alteration, impairment, or limitation if full provision is made by law for the payment of the bonds.

(b) Each district may refer to this pledge and undertaking by the state in its bonds.

(c) Only validly issued bonds issued after January 1, 2000, may be guaranteed under this chapter. [1999 c 273 § 3.]

Certificate issued by state treasurer evidence of guaranty—Limitations on issuance of guaranteed bonds—Fees. (1)(a) Any district, by resolution of its board of directors, may request that the state treasurer issue a certificate evidencing the state’s guaranty, under this chapter, of its bonds.

(b) After reviewing the request, if the state treasurer determines that the district is eligible under rules adopted by the state finance committee, the state treasurer shall promptly issue the certificate as to specific bonds of the district and provide it to the requesting district.

(c)(i) The district receiving the certificate and all other persons may rely on the certificate as evidencing the guaranty for bonds issued within one year from and after the date of the certificate, without making further inquiry during that year.

(ii) The certificate of eligibility is valid for one year even if the state treasurer later determines that the school district is ineligible.

(2) Any district that chooses to forego the benefits of the guaranty provided by this chapter for a particular issue of bonds may do so by not referring to this chapter on the face of its bonds.

(3) Any district that has bonds, the principal of or interest on which has been paid, in whole or in part, by the state under this chapter, may not issue any additional bonds guaranteed by this chapter until:

(a) All payment obligations of the district to the state under the credit enhancement program are satisfied; and

(b) The state treasurer and the state superintendent of public instruction each certify in writing, to be kept on file by the state treasurer and the state superintendent of public instruction, that the district is fiscally solvent.

(4) The state finance committee may establish by rule fees sufficient to cover the costs of administering this chapter. [1999 c 273 § 4.]

Debt service payments—Notifications upon nonpayment—Payments by state treasurer—Repayment. (1)(a) The county treasurer for each district with outstanding, unpaid bonds shall transfer money sufficient for each scheduled debt service payment to its paying agent on or before any principal or interest payment date for the bonds.

(b) A county treasurer who is unable to transfer a scheduled debt service payment to the paying agent on the transfer date shall immediately notify the paying agent and the state treasurer by:

(i) Telephone;

(ii) A writing sent by facsimile or electronic transmission; and

(iii) A writing sent by first-class United States mail.
(2) If sufficient funds are not transferred to the paying agent as required by subsection (1) of this section, the paying agent shall immediately notify the state treasurer of that failure by:

(a) Telephone;
(b) A writing sent by facsimile or electronic transmission; and
(c) A writing sent by first-class United States mail.

(3)(a) If sufficient money to pay the scheduled debt service payment have not been so transferred to the paying agent, the state treasurer shall, forthwith, transfer sufficient money to the paying agent to make the scheduled debt service payment.

(b) The payment by the state treasurer:

(i) Discharges the obligation of the issuing district to its bond owners for the payment, but does not retire any bond that has matured. The terms of that bond remain in effect until the state is repaid; and

(ii) Transfers the rights represented by the general obligation of the district from the bond owners to the state.

(c) The district shall repay to the state the money so transferred as provided in this chapter. [1999 c 273 § 5.]

**39.98.060 Reimbursement of state-paid debt service payments—Interest and penalties—Revision of collection of taxes to meet obligations.** (1) Any district that has issued bonds for which the state has made all or part of a debt service payment shall:

(a) Reimburse all money drawn by the state treasurer on its behalf;

(b) Pay interest to the state on all money paid by the state from the date that money was drawn to the date the state is repaid at a rate to be prescribed by rule by the state finance committee; and

(c) Pay all penalties required by this chapter.

(2)(a) The state treasurer shall establish the reimbursement interest rate after considering the circumstances of any prior draws by the district on the state, market interest and penalty rates, and the cost of funds or opportunity cost of investments, if any, that were required to be borrowed or liquidated by the state to make payment on the bonds.

(b) The state treasurer may, after considering the circumstances giving rise to the failure of the district to make payment on its bonds in a timely manner, impose on the district a penalty of not more than five percent of the amount paid by the state pursuant to its guaranty for each instance in which a payment by the state is made.

(3)(a)(i) If the state treasurer determines that amounts obtained under this chapter will not reimburse the state in full within one year from the state’s payment of a district’s scheduled debt service payment, the state treasurer may pursue any legal action, including mandamus, against the district to compel it to meet its repayment obligations to the state.

(ii) In pursuing its rights under (a)(i) of this subsection, the state shall have the same substantive and procedural rights as would a holder of the bonds of a district. If and to the extent that the state has made payments to the holders of bonds of a district under RCW 39.98.050 and has not been reimbursed by the district, the state shall be subrogated to the rights of those bond holders.

(iii) The state treasurer may also direct the district and the appropriate county officials to restructure and revise the collection of taxes for the payment of bonds on which the state treasurer has made payments under this chapter and, to the extent permitted by law, may require that the proceeds of such taxes be applied to the district’s obligations to the state if all outstanding obligations of the school district payable from such taxes are fully paid or their payment is fully provided for.

(b) The district shall pay the fees, expenses, and costs incurred by the state in recovering amounts paid under the guaranty authorized by this chapter. [1999 c 273 § 6.]

**39.98.070 Appropriation required.** In order to effect the provisions of Article VIII, section 1(e) of the state Constitution, Senate Joint Resolution No. 8206, the legislature shall make provision for such amounts as may be required to make timely payments under the state school district credit enhancement program under this chapter in each and every biennial appropriations act. [1999 c 273 § 7.]

**39.98.080 Adoption of rules.** The state finance committee may adopt, under chapter 34.05 RCW, all rules necessary and appropriate for the implementation and administration of this chapter. [1999 c 273 § 8.]

**39.98.900 Contingent effective date—1999 c 273.** This act takes effect January 1, 2000, if the proposed amendment to Article VIII, section 1 of the state Constitution, guaranteeing the general obligation debt of school districts, is validly submitted to and is approved and ratified by the voters at the next general election. If the proposed amendment is not approved and ratified, this act is void in its entirety. [1999 c 273 § 10.]

Reviser's note: 1999 Senate Joint Resolution No. 8206 was approved at the November 1999 general election. See Article VIII, section 1 and Amendment 78 of the state Constitution.

39.100.020 Conditions for financing public improvements. A local government may finance public improvements using hospital benefit zone financing subject to the following conditions:

(1) The local government adopts an ordinance designating a benefit zone within its boundaries and specifying the public improvements proposed to be financed in whole or in part with the use of hospital benefit zone financing.

(2) The public improvements proposed to be financed in whole or in part using hospital benefit zone financing are expected both to encourage private development within the benefit zone and to support the development of a hospital that has received a certificate of need;

(3) Private development that is anticipated to occur within the benefit zone, as a result of the public improvements, will be consistent with the countywide planning policy adopted by the county under RCW 36.70A.210 and the local government’s comprehensive plan and development regulations adopted under chapter 36.70A RCW;

(4) The governing body of the local government finds that the public improvements proposed to be financed in whole or in part using hospital benefit zone financing are reasonably likely to:
   (a) Increase private investment within the benefit zone;
   (b) Increase employment within the benefit zone; and
   (c) Generate, over the period of time that the local sales and use tax will be imposed under RCW 82.14.465, excess state excise taxes that are equal to or greater than the state contributions made under this chapter;

(5) The boundaries of a hospital benefit zone may not overlap any part of the boundaries of another hospital benefit zone or a revenue development area defined in chapter 39.102 RCW; and

(6) The boundaries of a hospital benefit zone may not change once the hospital benefit zone is established and approved by the department. [2007 c 266 § 3; 2006 c 111 § 2.]

Finding—Application—Effective date—2007 c 266: See notes following RCW 39.100.010.

39.100.030 Benefit zone creation—Agreement, hearing, and notice requirements—Ordinance requirements. (1) Before adopting an ordinance creating the benefit zone, a local government must:

   (a) Obtain written agreement for the use of hospital benefit zone financing to finance all or a portion of the costs of the designated public improvements from any taxing authority that imposes a sales or use tax under chapter 82.14 RCW within the benefit zone if the taxing authority chooses to participate in the public improvements to the extent of providing limited funding under hospital benefit zone financing authorized under this chapter. The agreement must be authorized by the governing body of such participating taxing authorities; and

   (b) Hold a public hearing on the proposed financing of the public improvement in whole or in part with hospital benefit zone financing.

   (i) Notice of the public hearing must be published in a legal newspaper of general circulation within the proposed benefit zone at least ten days before the public hearing and posted in at least six conspicuous public places located in the proposed benefit zone.

   (ii) Notices must describe the contemplated public improvements, estimate the costs of the public improvements, describe the portion of the costs of the public improvements to be borne by hospital benefit zone financing, describe any other sources of revenue to finance the public improvements, describe the boundaries of the proposed benefit zone, and estimate the period during which hospital ben-
efit zone financing is contemplated to be used. The public hearing may be held by either the governing body of the local government, or a committee of the governing body that includes at least a majority of the whole governing body.

(2) In order to create a benefit zone, a local government must adopt an ordinance establishing the benefit zone that:
   (a) Describes the public improvements;
   (b) Describes the boundaries of the benefit zone;
   (c) Estimates the cost of the public improvements and the portion of these costs to be financed by hospital benefit zone financing;
   (d) Estimates the time during which excess local excise taxes are to be used to finance public improvement costs associated with the public improvements financed in whole or in part by hospital benefit zone financing;
   (e) Estimates the average amount of tax revenue to be received in all fiscal years through the imposition of a sales and use tax under RCW 82.14.465;
   (f) Provides the date when the use of excess local excise taxes will commence; and
   (g) Finds that the conditions of RCW 39.100.020 are met.

(3) For purposes of this section, "fiscal year" means the year beginning July 1st and ending the following June 30th.

Finding—Application—Effective date—2007 c 266: See notes following RCW 39.100.010.

39.100.040 Benefit zone ordinance, publicizing and delivery—Challenges to benefit zone formation. (1) A local government that adopts an ordinance creating a benefit zone under this chapter shall, within ninety days of adopting the ordinance:
   (a) Publish notice in a legal newspaper of general circulation within the benefit zone that describes the public improvement, describes the boundaries of the benefit zone, and identifies the location and times where the ordinance and other public information concerning the public improvement may be inspected; and
   (b) Deliver a certified copy of the ordinance to the county treasurer, the county assessor, the department of revenue, and the governing body of each participating taxing authority within which the benefit zone is located.

(2) Any challenge to the formation shall be brought within sixty days of the later of the date of its formation or July 1, 2007. All parties, including the holders of bonds payable from tax revenue under chapter 826, Laws of 2007, may rely upon the presumption of validity of formation of the benefit zone following the expiration of the sixty-day period.

Finding—Application—Effective date—2007 c 266: See notes following RCW 39.100.010.

39.100.050 Use of excess local excise tax—Boundary information—Definitions. (1) A local government that creates a benefit zone and has received approval from the department under RCW 82.32.700 to impose the local option sales and use tax authorized in RCW 82.14.465 may use annually any excess local excise taxes received by it from taxable activity within the benefit zone to finance public improvement costs associated with the public improvements financed in whole or in part by hospital benefit zone financing. The use of excess local excise taxes must cease when tax allocation revenues are no longer necessary or obligated to pay the costs of the public improvements. Any participating taxing authority is authorized to allocate excess local excise taxes to the local government as long as the local government has received approval from the department under RCW 82.32.700 to impose the local option sales and use tax authorized in RCW 82.14.465. The legislature declares that it is a proper purpose of a local government or participating taxing authority to allocate excess local excise taxes for purposes of financing public improvements under this chapter.

(2) A local government must provide the department with accurate information describing the geographical boundaries of the benefit zone at least seventy-five days before the effective date of the ordinance creating the benefit zone. The local government must ensure that the boundary information provided to the department is kept current.

(3) The department must provide the necessary information to calculate excess local excise taxes to each local government that has provided boundary information to the department as provided in this section and that has received approval from the department under RCW 82.32.700 to impose the local option sales and use tax authorized in RCW 82.14.465.

(4) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Base year" means the calendar year immediately following the creation of a benefit zone.

(b) "Excess local excise taxes" means the amount of local excise taxes received by the local government during the measurement year from taxable activity within the benefit zone over and above the amount of local excise taxes received by the local government during the base year from taxable activity within the benefit zone. However, if a local government creates the benefit zone and reasonably determines that no activity subject to tax under chapters 82.08 and 82.12 RCW occurred in the twelve months immediately preceding the creation of the benefit zone within the boundaries of the area that became the benefit zone, "excess local excise taxes" means the entire amount of local excise taxes received by the local government during a calendar year period beginning with the calendar year immediately following the creation of the benefit zone and ending with the calendar year in which the benefit zone was approved.

(c) "Local excise taxes" means local revenues derived from the imposition of sales and use taxes authorized in RCW 82.14.030 at the tax rate that was in effect at the time the hospital benefit zone was approved by the department, except that if a local government reduces the rate of such tax after the hospital benefit zone was approved, "local excise taxes" means the local revenues derived from the imposition of the sales and use taxes authorized in RCW 82.14.030 at the lower tax rate.

(d) "Measurement year" means a calendar year, beginning with the calendar year following the base year and each calendar year thereafter, that is used annually to measure the amount of excess state excise taxes and excess local excise taxes required to be used to finance public improvement costs associated with public improvements financed in whole or in part by hospital benefit zone financing.
39.100.060  Issuance of revenue bonds. (1) A local government may issue revenue bonds to fund public improvements, or portions of public improvements, that are located within a benefit zone and that it is authorized to provide or operate. Whenever revenue bonds are to be issued, the legislative authority of the local government shall create or have created a special fund or funds from which, along with any reserves created pursuant to RCW 39.44.140, the principal and interest on these revenue bonds shall exclusively be payable. The legislative authority of the local government may obligate the local government to set aside and pay into the special fund or funds a fixed proportion or a fixed amount of the revenues obtained from within the benefit zone of the development, construction, operation, and maintenance of businesses supported by the public improvements that are funded by the revenue bonds. This amount or proportion is a lien and charge against these revenues, subject only to operating and maintenance expenses. The local government shall have due regard for the cost of operation and maintenance of the public improvements that are funded by the revenue bonds, and shall not set aside into the special fund or funds a greater amount or proportion of the revenues that in its judgment will be available over and above the cost of maintenance and operation and the amount or proportion, if any, of the revenue previously pledged. The local government may also provide that revenue bonds payable out of the same source or sources of revenue may later be issued on a parity with any revenue bonds being issued and sold.

(2) Revenue bonds issued pursuant to this section are not an indebtedness of the local government issuing the bonds, and the interest and principal on the bonds shall only be payable from the revenues lawfully pledged to meet the principal and interest requirements and any reserves created pursuant to RCW 39.44.140. The owner or bearer of a revenue bond or any interest coupon issued pursuant to this section shall not have any claim against the local government arising from the bond or coupon except for payment from the revenues lawfully pledged to meet the principal and interest requirements and any reserves created pursuant to RCW 39.44.140. The substance of the limitations included in this subsection shall be plainly printed, written, or engraved on each bond issued pursuant to this section.

(3) Revenue bonds with a maturity in excess of thirty years shall not be issued. The legislative authority of the local government shall by resolution determine for each revenue bond issue the amount, date, form, terms, conditions, denominations, maximum fixed or variable interest rate or rates, maturity or maturities, redemption rights, registration privileges, manner of execution, manner of sale, callable provisions, if any, and covenants including the refunding of existing revenue bonds. Facsimile signatures may be used on the bonds and any coupons. Refunding revenue bonds may be issued in the same manner as revenue bonds are issued. [2006 c 111 § 6.]

39.100.070  Local infrastructure financing—Conditions. The legislative authority of the local government shall have due regard for the cost of operation and maintenance of the public improvements that are funded by the revenue bonds, and shall not set aside into the special fund or funds a fixed proportion or a fixed amount of maintenance and operation and the amount or proportion, if any, of the revenue previously pledged. The local government may also provide that revenue bonds payable out of the same source or sources of revenue may later be issued on a parity with any revenue bonds being issued and sold.

39.100.080  Revenue development area adoption—Process. The legislative authority of the local government may adopt a revenue development area to allow the issuance of revenue bonds with a maturity in excess of thirty years. The legislative authority of the local government may obligate the local government to set aside and pay into the special fund or funds a fixed proportion or a fixed amount of the revenues obtained from within the benefit zone of the development, construction, operation, and maintenance of businesses supported by the public improvements that are funded by the revenue bonds. This amount or proportion is a lien and charge against these revenues, subject only to operating and maintenance expenses. The local government shall have due regard for the cost of operation and maintenance of the public improvements that are funded by the revenue bonds, and shall not set aside into the special fund or funds a greater amount or proportion of the revenues that in its judgment will be available over and above the cost of operation and maintenance and the amount or proportion, if any, of the revenue previously pledged. The local government may also provide that revenue bonds payable out of the same source or sources of revenue may later be issued on a parity with any revenue bonds being issued and sold.

39.100.090  Revenue development area adoption—Ordinance—Hearing and delivery requirements. Revenue development area adoption may be provided for by ordinance of the local government. The ordinance may provide that revenue bonds payable out of the revenues lawfully pledged to meet the principal and interest requirements and any reserves created pursuant to RCW 39.44.140, the principal and interest on these revenue bonds shall exclusively be payable. The legislative authority of the local government may obligate the local government to set aside and pay into the special fund or funds a fixed proportion or a fixed amount of the revenues obtained from within the benefit zone of the development, construction, operation, and maintenance of businesses supported by the public improvements that are funded by the revenue bonds. This amount or proportion is a lien and charge against these revenues, subject only to operating and maintenance expenses. The local government shall have due regard for the cost of operation and maintenance of the public improvements that are funded by the revenue bonds, and shall not set aside into the special fund or funds a greater amount or proportion of the revenues that in its judgment will be available over and above the cost of maintenance and operation and the amount or proportion, if any, of the revenue previously pledged. The local government may also provide that revenue bonds payable out of the same source or sources of revenue may later be issued on a parity with any revenue bonds being issued and sold.

(x) If a project is located within an urban growth area, evidence that the project utilizes existing urban infrastructure and that the transportation needs of the project will be adequately met through the use of local infrastructure financing or other sources.

(e)(i) Except as provided in this subsection (4)(e), the board may not approve the use of local infrastructure financing within more than one revenue development area per county.

(1) A sponsoring local government or participating local government that has received approval by the board to use local infrastructure financing may use annually its local excise tax allocation revenues to finance public improvements in the revenue development area financed in whole or in part by local infrastructure financing. The use of local excise tax allocation revenues dedicated by participating local governments must cease on the date specified in the written agreement required in RCW 39.102.080(1), or if no date is specified then the date when the local tax under RCW 82.14.475 expires. Any participating local government is authorized to dedicate local excise tax allocation revenues to the sponsoring local government as authorized in RCW 39.102.080(1).

(2) A sponsoring local government shall provide the board accurate information describing the geographical boundaries of the revenue development area at the time of application. The information shall be provided in an electronic format or manner as prescribed by the department. The sponsoring local government shall ensure that the boundary information provided to the board and department is kept current.

39.102.120 Local property tax allocation revenues. (Expires June 30, 2039.) (1) Commencing in the second calendar year following board approval of a revenue development area, the county treasurer shall distribute receipts from regular taxes imposed on real property located in the revenue development area as follows:
(a) Each participating taxing district and the sponsoring local government shall receive that portion of its regular property taxes produced by the rate of tax levied by or for the taxing district on the property tax allocation revenue base value for that local infrastructure financing project in the taxing district; and

(b) The sponsoring local government shall receive an additional portion of the regular property taxes levied by it and by or for each participating taxing district upon the property tax allocation revenue value within the revenue development area. However, if there is no property tax allocation revenue value, the sponsoring local government shall not receive any additional regular property taxes under this subsection (1)(b). The sponsoring local government may agree to receive less than the full amount of the additional portion of regular property taxes under this subsection (1)(b) as long as bond debt service, reserve, and other bond covenant requirements are satisfied, in which case the balance of these tax receipts shall be allocated to the participating taxing districts that levied regular property taxes, or have regular property taxes levied for them, in the revenue development area for collection that year in proportion to their regular tax levy rates for collection that year. The sponsoring local government may request that the treasurer transfer this additional portion of the property taxes to its designated agent. The portion of the tax receipts distributed to the sponsoring local government or its agent under this subsection (1)(b) may only be expended to finance public improvement costs associated with the public improvements financed in whole or in part by local infrastructure financing.

(2) The county assessor shall determine the property tax allocation revenue value and property tax allocation revenue base value. This section does not authorize revaluations of real property by the assessor for property taxation that are not made in accordance with the assessor’s revaluation plan under chapter 84.41 RCW or under other authorized revaluation procedures.

(3) The distribution of local property tax allocation revenue to the sponsoring local government must cease when local property tax allocation revenues are no longer obligated to pay the costs of the public improvements. Any excess local property tax allocation revenues and earnings on such revenues remaining at the time the distribution of local property tax allocation revenue terminates must be returned to the county treasurer and distributed to the participating taxing districts that imposed regular property taxes, or had regular property taxes imposed for it, in the revenue development area for collection that year, in proportion to the rates of their regular property tax levies for collection that year.

(4) The allocation to the revenue development area of that portion of the sponsoring local government’s and each participating taxing district’s regular property taxes levied by or for each taxing district upon the property tax allocation revenue value within that revenue development area is declared to be a public purpose of and benefit to the sponsoring local government and each participating taxing district.

(5) The distribution of local property tax allocation revenues pursuant to this section shall not affect or be deemed to affect the rate of taxes levied by or within any sponsoring local government and participating taxing district or the consistency of any such levies with the uniformity requirement of Article VII, section 1 of the state Constitution.

(6) This section does not apply to those revenue development areas that include any part of an increment area created under chapter 39.89 RCW. [2009 c 267 § 4; 2007 c 229 § 7; 2006 c 181 § 302.]

(a)(i) The ordinance adopted by the sponsoring local government and authorizing the use of local infrastructure financing indicates an intent to incur this indebtedness and the maximum amount of this indebtedness that is contemplated; and

(ii) The sponsoring local government includes this statement of the intent in all notices required by RCW 39.102.100; or

(b) The sponsoring local government adopts a resolution, after opportunity for public comment, that indicates an intent to incur this indebtedness and the maximum amount of this indebtedness that is contemplated.

(2)(a) Except as provided in (b) of this subsection, the general indebtedness incurred under subsection (1) of this section may be payable from other tax revenues, the full faith and credit of the local government, and nontax income, revenues, fees, and rents from the public improvements, as well as contributions, grants, and nontax money available to the local government for payment of costs of the public improvements or associated debt service on the general indebtedness.

(b) A sponsoring local government that issues bonds under this section shall not pledge any money received from the state of Washington for the payment of such bonds, other than the local sales and use taxes imposed under the authority of RCW 82.14.475 and collected by the department.

(3) In addition to the requirements in subsection (1) of this section, a sponsoring local government designating a revenue development area and authorizing the use of local infrastructure financing may require the nonpublic participant to provide adequate security to protect the public investment in the public improvement within the revenue development area.

(6) In case any of the public officials of the sponsoring local government whose signatures appear on any bonds or any coupons issued under this chapter shall cease to be such officials before the delivery of such bonds, such signatures shall, nevertheless, be valid and sufficient for all purposes, the same as if such officials had remained in office until such delivery. Any provision of any law to the contrary notwithstanding, any bonds issued under this chapter are fully negotiable.

(7) Notwithstanding subsections (4) through (6) of this section, bonds issued under this section may be issued and sold in accordance with chapter 39.46 RCW. [2009 c 267 § 6; 2007 c 229 § 10; 2006 c 181 § 501.]

Expiration date—2009 c 267: See note following RCW 39.102.020.

Application—Severability—Expiration date—2007 c 229: See notes following RCW 39.102.020.

39.102.160 Use of tax revenue for bond repayment. (Expires June 30, 2039.) A sponsoring local government that issues bonds under RCW 39.102.150 to finance public improvements may pledge for the payment of such bonds all or part of any local excise tax allocation revenues and all or
part of any local property tax allocation revenues dedicated by the sponsoring local government, any participating local government, or participating taxing district. The sponsoring local government may also pledge all or part of any revenues derived from taxes imposed under RCW 82.14.475 and held in connection with the public improvements. All of such tax revenues are subject to the use restrictions in RCW 39.102.040 through 39.102.070, and the process requirements in RCW 39.102.080(1). [2006 c 181 § 502.]

39.102.170 Limitation on bonds issued. (Expires June 30, 2039.) The bonds issued by a sponsoring local government under RCW 39.102.150 to finance public improvements shall not constitute an obligation of the state of Washington, either general or special. [2006 c 181 § 503.]

39.102.190 Revenue bonds to fund public improvements. (Expires June 30, 2039.) (1) A sponsoring local government may issue revenue bonds to fund revenue-generating public improvements, or portions of public improvements, that are located within a revenue development area. Whenever revenue bonds are to be issued, the legislative authority of the sponsoring local government shall create or have created a special fund or funds from which, along with any reserves created pursuant to RCW 39.44.140, the principal and interest on these revenue bonds shall exclusively be payable. The legislative authority of the sponsoring local government may obligate the sponsoring local government to set aside and pay into the special fund or funds a fixed proportion or a fixed amount of the revenues from the public improvements that are funded by the revenue bonds. This amount or proportion is a lien and charge against these revenues, subject only to operating and maintenance expenses. The sponsoring local government shall have due regard for the cost of operation and maintenance of the public improvements that are funded by the revenue bonds, and shall not set aside into the special fund or funds a greater amount or proportion of the revenues that in its judgment will be available over and above the cost of maintenance and operation and the amount or proportion, if any, of the revenue previously pledged. The sponsoring local government may also provide that revenue bonds payable out of the same source or sources of revenue may later be issued on a parity with any revenue bonds being issued and sold.

(2) Revenue bonds issued pursuant to this section are not an indebtedness of the sponsoring local government issuing the bonds, and the interest and principal on the bonds shall only be payable from the revenues lawfully pledged to meet the principal and interest requirements and any reserves created pursuant to RCW 39.44.140. The owner or bearer of a revenue bond or any interest coupon issued pursuant to this section shall not have any claim against the sponsoring local government arising from the bond or coupon except for payment from the revenues lawfully pledged to meet the principal and interest requirements and any reserves created pursuant to RCW 39.44.140. The substance of the limitations included in this subsection shall be plainly printed, written, or engraved on each bond issued pursuant to this section.

(3) Revenue bonds with a maturity in excess of twenty-five years shall not be issued. The legislative authority of the sponsoring local government shall by resolution determine for each revenue bond issue the amount, date, form, terms, conditions, denominations, maximum fixed or variable interest rate or rates, maturity or maturities, redemption rights, registration privileges, manner of execution, manner of sale, callable provisions, if any, and covenants including the refunding of existing revenue bonds. Facsimile signatures may be used on the bonds and any coupons. Refunding revenue bonds may be issued in the same manner as revenue bonds are issued.

(4) Notwithstanding subsections (1) through (3) of this section, bonds issued under this section may be issued and sold in accordance with chapter 39.46 RCW. [2006 c 181 § 505.]

39.102.195 Limitation on use of revenues. (Expires June 30, 2039.) To the extent that amounts received as local excise tax allocation revenues, local property tax allocation revenues, other revenues from local public sources, that are dedicated to local infrastructure financing, and revenues received from the local option sales and use tax authorized in RCW 82.14.475, are set aside in a debt service fund that is pledged to the repayment of bonds, those amounts so set aside and pledged may not be used to pay for public improvement costs on a pay-as-you-go basis after the date that the sponsoring local government that issued the bonds as provided in RCW 39.102.150 is required to begin paying debt service on those bonds, unless and until those bonds to which the amounts have been so pledged have been retired. [2009 c 267 § 7; 2007 c 229 § 14.]

Expiration date—2009 c 267: See note following RCW 39.102.020.
Application—Severability—Expiration date—2007 c 229: See notes following RCW 39.102.020.

(1) The report shall, at a minimum, evaluate the effectiveness of the local infrastructure financing tool program, including a project-by-project review. The report shall evaluate the project’s interim results based on the selection criteria. The report shall also measure:

(2) The report that is due September 1, 2028, should also include any recommendations regarding whether or not the program should be expanded statewide and what impact the expansion would have on economic development in Washington. [2006 c 181 § 601.]
39.102.210 Program evaluation. (Expires June 30, 2039.) The department of revenue and the community economic revitalization board shall evaluate and periodically report on the implementation of the local infrastructure financing [tool] program to the governor and legislature as the department and the board deems appropriate and recommend such amendments, changes in, and modifications of chapter 181, Laws of 2006 as seem proper. [2006 c 181 § 701.]

(b) Levies or has levied for it regular property taxes as defined in this section; and
(c) Has not taken action as provided in RCW 39.104.060(2).

(14) "Property tax allocation revenue base value" means the assessed value of real property located within a revitalization area, less the property tax allocation revenue value.

(15)(a)(i) "Property tax allocation revenue value" means seventy-five percent of any increase in the assessed value of real property in a revitalization area resulting from:
(A) The placement of new construction, improvements to property, or both, on the assessment roll, where the new construction and improvements are initiated after the revitalization area is approved by the department;

(ii) Increases in the assessed value of real property in a revitalization area resulting from (a)(i)(A) through (C) of this subsection are included in the property tax allocation revenue value in the initial year. These same amounts are also included in the property tax allocation revenue value in subsequent years unless the property becomes exempt from property taxation.

(b) "Property tax allocation revenue value" includes seventy-five percent of any increase in the assessed value of new construction consisting of an entire building in the years following the initial year, unless the building becomes exempt from property taxation.

(c) Except as provided in (b) of this subsection, "property tax allocation revenue value" does not include any increase in the assessed value of real property after the initial year.

(d) There is no property tax allocation revenue value if the assessed value of real property in a revitalization area has not increased as a result of any of the reasons specified in (a)(i)(A) through (C) of this subsection.

(e) For purposes of this subsection, "initial year" means:
(i) For new construction and improvements to property added to the assessment roll, the year during which the new construction and improvements are initially placed on the assessment roll;
(ii) For the cost of new housing construction, conversion, and rehabilitation improvements, when the cost is treated as new construction for purposes of chapter 84.55 RCW, the year when such cost is treated as new construction for purposes of levying taxes for collection in the following year.

(16) "Public improvement costs" means the costs of:
(a) Design, planning, acquisition, including land acquisition, site preparation including land clearing, construction, reconstruction, rehabilitation, improvement, and installation of public improvements;
(b) Demolishing, relocating, maintaining, and operating property pending construction of public improvements;
(c) Relocating utilities as a result of public improvements;
(d) Financing public improvements, including interest during construction, legal and other professional services, taxes, insurance, principal and interest costs on general indebtedness issued to finance public improvements, and any necessary reserves for general indebtedness; and

(17) "Public improvements" means:
(a) Infrastructure improvements within the revitalization area that include:

(ii) Providing maintenance and security for common or public areas in the revitalization area; or
(iii) Historic preservation activities authorized under RCW 35.21.395.

(18) "Real property" has the same meaning as in RCW 84.04.090 and also includes any privately owned improvements located on publicly owned land that are subject to property taxation.

(19)(a) "Regular property taxes" means regular property taxes as defined in RCW 84.04.140, except: (i) Regular property taxes levied by public utility districts specifically for the purpose of making required payments of principal and interest on general indebtedness; (ii) regular property taxes levied by the state for the support of common schools under RCW 84.52.065; and (iii) regular property taxes authorized by RCW 84.55.050 that are limited to a specific purpose.

(ii) Property taxes that are specifically excluded through an interlocal agreement between the sponsoring local government and a participating taxing district as set forth in RCW 39.104.060(3).

(20)(a) "Revenues from local public sources" means:

(i) The local sales and use tax amounts received as a result of an interlocal agreement, local sales and use tax amounts from sponsoring local governments based on its local sales and use tax increment, and local property tax allocation revenues, which are dedicated by a sponsoring local government, participating local governments, and participating taxing districts, for payment of bonds under RCW 39.104.110 or public improvement costs within the revitalization area on a pay-as-you-go basis; and

(b) Revenues from local public sources do not include any local funds derived from state grants, state loans, or any other state moneys including any local sales and use taxes credited against the state sales and use taxes imposed under chapter 82.08 or 82.12 RCW.

(21) "Revitalization area" means the geographic area adopted by a sponsoring local government and approved by the department, from which local sales and use tax increments are estimated and property tax allocation revenues are derived for local revitalization financing.

(22) "Sponsoring local government" means a city, town, county, or any combination thereof, that adopts a revitalization area.

(23) "State contribution" means the lesser of:

(c) The total amount of revenues from local public sources dedicated in the preceding calendar year to the payment of principal and interest on bonds issued under RCW 39.104.110 and public improvement costs within the revitalization area on a pay-as-you-go basis. Revenues from local public sources dedicated in the preceding calendar year that are in excess of the project award may be carried forward and used in later years for the purpose of this subsection (23)(c).

(24) "State property tax increment" means the estimated amount of annual tax revenues estimated to be received by the state from the imposition of property taxes levied by the state for the support of common schools under RCW 84.52.065 on the property tax allocation revenue value, as determined by the sponsoring local government in an application under RCW 39.104.100 and updated periodically as required in RCW 82.32.765.

(25) "State sales and use tax increment" means the estimated amount of annual increase in state sales and use taxes to be received by the state from taxable activity within the revitalization area in the years following the approval of the revitalization area by the department as determined by the sponsoring local government in an application under RCW 39.104.100 and updated periodically as required in RCW 82.32.765.

(26) "State sales and use taxes" means state retail sales and use taxes under RCW 82.08.020(1) and 82.12.020 at the rate provided in RCW 82.08.020(1), less the amount of tax distributions from all local retail sales and use taxes, other than the local sales and use taxes authorized by RCW 82.14.510 for the applicable revitalization area, imposed on the same taxable events that are credited against the state retail sales and use taxes under RCW 82.08.020(1) and 82.12.020.

(27) "Taxing district" means a government entity that levies or has levied for it regular property taxes upon real property located within a proposed or approved revitalization area. [2010 c 164 § 1; 2009 c 270 § 102.]
82.14.510 and 82.14.515 the proposed economic development or redevelopment would more than likely not occur; and

(7) The governing body of the local government finds that the public improvements proposed to be financed in whole or in part using local revitalization financing are reasonably likely to:

(a) Increase private investment within the revitalization area;
(b) Increase employment within the revitalization area; and
(c) Generate, over the period of time that the local sales and use tax will be imposed under RCW 82.14.510, increases in state and local property, sales, and use tax revenues that are equal to or greater than the respective state and local contributions made under this chapter. [2009 c 270 § 103.]

39.104.040 Creation of revitalization area. (1) Before adopting an ordinance creating the revitalization area, a sponsoring local government must:

(a) Provide notice to all taxing districts that levy or have levied for it regular property taxes and local governments with geographic boundaries within the proposed revitalization area of the sponsoring local government’s intent to create a revitalization area. Notice must be provided in writing to the governing body of the taxing districts and local governments at least sixty days in advance of the public hearing as required by (b) of this subsection. The notice must include at least the following information:

(i) The name of the proposed revitalization area;
(ii) The date for the public hearing as required by (b) of this subsection;
(iii) The earliest anticipated date when the sponsoring local government will take action to adopt the proposed revitalization area; and
(iv) The name of a contact person with phone number of the sponsoring local government and mailing address where a copy of an ordinance adopted under RCW 39.104.050 and 39.104.060 may be sent; and

(b) Hold a public hearing on the proposed financing of the public improvements in whole or in part with local revitalization financing. Notice of the public hearing must be published in a legal newspaper of general circulation within the proposed revitalization area at least ten days before the public hearing and posted in at least six conspicuous public places located in the proposed revitalization area. Notices must describe the contemplated public improvements, estimate the costs of the public improvements, describe the portion of the costs of the public improvements to be borne by local revitalization financing, describe any other sources of revenue to finance the public improvements, describe the boundaries of the proposed revitalization area, and estimate the period during which local revitalization financing is contemplated to be used. The public hearing may be held by either the governing body of the sponsoring local government, or a committee of the governing body that includes at least a majority of the whole governing body.

(2) To create a revitalization area, a sponsoring local government must adopt an ordinance establishing the revitalization area that:

(a) Describes the public improvements proposed to be made in the revitalization area;
(b) Describes the boundaries of the revitalization area, subject to the limitations in RCW 39.104.050;
(c) Estimates the cost of the proposed public improvements and the portion of these costs to be financed by local revitalization financing;
(d) Estimates the time during which local property tax allocation revenues, and other revenues from local public sources, such as amounts of local sales and use taxes from participating local governments, are to be used for local revitalization financing;
(e) Provides the date when the use of local property tax allocation revenues will commence and a list of the participating taxing districts and the regular property taxes that must be used to calculate property tax allocation revenues;
(f) Finds that all of the requirements in RCW 39.104.030 are met;
(g) Provides the anticipated rate of sales and use tax under RCW 82.14.510 that the local government will impose if awarded a state contribution under RCW 39.104.100;
(h) Provides the anticipated date when the criteria for the sales and use tax in RCW 82.14.510 will be met and the anticipated date when the sales and use tax in RCW 82.14.510 will be imposed.

(3) The sponsoring local government must deliver a certified copy of the adopted ordinance to the county treasurer, county assessor, the governing body of each participating taxing authority and participating taxing district within which the revitalization area is located, and the department. [2010 c 164 § 2; 2009 c 270 § 104.]

39.104.050 Limitations on revitalization areas. The designation of a revitalization area is subject to the following limitations:

(1)(a) Except as provided in (b) of this subsection, no revitalization area may have within its geographic boundaries any part of a hospital benefit zone under chapter 39.100 RCW, any part of a revenue development area created under chapter 39.102 RCW, any part of an increment area under chapter 39.89 RCW, or any part of another revitalization area under this chapter;
(b) A revitalization area’s boundaries may include all or a portion of an existing increment area if:

(i) The state of Washington has loaned money for environmental cleanup on such area in order to stimulate redevelopment of brownfields;
(ii) The environmental cleanup, for which the state’s loans were intended, has been completed; and
(iii) The sponsoring local government determines the creation of the revitalization area is necessary for redevelopment and protecting the state’s investment by increasing property tax revenue;
(2) A revitalization area is limited to contiguous tracts, lots, pieces, or parcels of land without the creation of islands of property not included in the revitalization area;
(3) The boundaries may not be drawn to purposely exclude parcels where economic growth is unlikely to occur;
(4) The public improvements financed through bonds issued under RCW 39.104.110 must be located in the revitalization area;
(5) A revitalization area cannot comprise an area containing more than twenty-five percent of the total assessed value of the taxable real property within the boundaries of the sponsoring local government at the time the revitalization area is created;

(6) The boundaries of the revitalization area may not be changed for the time period that local property tax allocation revenues, local sales and use taxes of participating local governments, and the local sales and use tax under RCW 82.14.510 are used to pay bonds issued under RCW 39.104.110 and public improvement costs within the revitalization area on a pay-as-you-go basis, as provided under this chapter; and

(7) A revitalization area must be geographically restricted to the location of the public improvement and adjacent locations that the sponsoring local government finds to have a high likelihood of receiving direct positive business and economic impacts due to the public improvement, such as a neighborhood or a block. [2010 c 164 § 3; 2009 c 270 § 105.]

39.104.060 Use of property tax allocation revenues for revitalization financing—Opting out—Partial participation. (1) Participating taxing districts must allow the use of all of their local property tax allocation revenues for local revitalization financing.

(2)(a) If a taxing district does not want to allow the use of its property tax revenues for the local revitalization financing of public improvements in a revitalization area, its governing body must adopt an ordinance to remove itself as a participating taxing district and must notify the sponsoring local government.

(b) The taxing district must provide a copy of the adopted ordinance and notice to the sponsoring local government creating the revitalization area before the anticipated date that the sponsoring local government proposes to adopt the ordinance creating the revitalization area as provided in the notice required by RCW 39.104.040(1)(a). [2009 c 270 § 107.]

(3) If a taxing district wants to become a participating taxing district by allowing one or more but not all of its regular property tax levies to be used for the calculation of local property tax allocation revenues, it may do so through an interlocal agreement specifying the regular property taxes that will be used for calculating its local property tax allocation revenues. This subsection does not authorize a taxing district to allow the use of only part of one or more of its regular property tax levies by the sponsoring local government.

(4) If a taxing district wants to participate on a partial basis by providing a specified amount of money to a sponsoring local government to be used for local revitalization financing for a specified amount of time, it may do so through an interlocal agreement. However, the taxing district must adopt an ordinance as described in subsection (2) of this section to remove itself as a participating taxing district for purposes of calculating property tax allocation revenues and instead partially participate through an interlocal agreement outlining the specifics of its participation. [2010 c 164 § 4; 2009 c 270 § 106.]

39.104.070 Participating in revitalization financing—Interlocal agreement—Imposition of sales and use tax—Ordinance to opt out—Notice. (1) A participating local government must enter into an interlocal agreement as provided in chapter 39.34 RCW to participate in local revitalization financing with the sponsoring local government.

(2)(a) If a local government that imposes a sales and use tax under RCW 82.14.030 does not want to participate in the local revitalization financing of public improvements in a revitalization area, its governing body must adopt an ordinance and notify the sponsoring local government that the taxing authority will not be a participating local government.

(b) The local government must provide a copy of the adopted ordinance and the notice to the sponsoring local government creating the revitalization area before the anticipated date that the sponsoring local government proposes to adopt an ordinance creating the revitalization area as provided in the notice required by RCW 39.104.040(1)(a). [2009 c 270 § 107.]

39.104.080 Local property tax allocation revenues—Distribution—Determination—Termination—Exception. (1) Commencing in the second calendar year following the creation of a revitalization area by a sponsoring local government, the county treasurer must distribute receipts from regular taxes imposed on real property located in the revitalization area as follows:

(a) Each participating taxing district and the sponsoring local government must receive that portion of its regular property taxes produced by the rate of tax levied by or for the taxing district on the property tax allocation revenue base value for that local revitalization financing project in the taxing district; and

(b) The sponsoring local government must receive an additional portion of the regular property taxes levied by it and by or for each participating taxing district upon the property tax allocation revenue value within the revitalization area. However, if there is no property tax allocation revenue value, the sponsoring local government may not receive any additional regular property taxes under this subsection (1)(b). The sponsoring local government may agree to receive less than the full amount of the additional portion of regular property taxes under this subsection (1)(b) as long as bond debt service, reserve, and other bond covenant requirements are satisfied, in which case the balance of these tax receipts shall be allocated to the participating taxing districts that levied regular property taxes, or have regular property taxes levied for them, in the revitalization area for collection that year in proportion to their regular tax levy rates for collection that year. The sponsoring local government may request that the treasurer transfer this additional portion of the property taxes to its designated agent. The portion of the tax receipts distributed to the sponsoring local government or its agent under this subsection (1)(b) may only be expended to finance public improvement costs associated with the public improvements financed in whole or in part by local revitalization financing.

(2) The county assessor must determine the property tax allocation revenue value and property tax allocation revenue base value. This section does not authorize revaluations of real property by the assessor for property taxation that are not made in accordance with the assessor’s revaluation plan
under chapter 84.41 RCW or under other authorized revaluation procedures.

(3) The distribution of local property tax allocation revenue to the sponsoring local government must cease when local property tax allocation revenues are no longer obligated to pay the costs of the public improvements. Any excess local property tax allocation revenues, and earnings on the revenues, remaining at the time the distribution of local property tax allocation revenue terminates, must be returned to the county treasurer and distributed to the participating taxing districts that imposed regular property taxes, or had regular property taxes imposed for it, in the revitalization area for collection that year, in proportion to the rates of their regular property tax levies for collection that year.

(4) The allocation to the revitalization area of that portion of the sponsoring local government’s and each participating taxing district’s regular property taxes levied upon the property tax allocation revenue value within that revitalization area is declared to be a public purpose of and benefit to the sponsoring local government and each participating taxing district.

(5) The distribution of local property tax allocation revenues under this section may not affect or be deemed to affect the rate of taxes levied by or within any sponsoring local government and participating taxing district or the consistency of any such levies with the uniformity requirement of Article VII, section 1 of the state Constitution.

(6) This section does not apply to a revitalization area that has boundaries that include all or a portion of the boundaries of an increment area created under chapter 39.89 RCW.

[2010 c 164 § 5; 2009 c 270 § 201.]

39.104.090 Local sales and use tax increments. (1) A sponsoring local government may use annually local sales and use tax amounts equal to or some or all of its local sales and use tax increments to finance public improvements in the revitalization area. The amounts of local sales and use tax dedicated by a participating local government must begin and cease on the dates specified in an interlocal agreement authorized in chapter 39.34 RCW. Sponsoring local governments and participating local governments are authorized to allocate some or all of their local sales and use tax increment to the sponsoring local government as provided by RCW 39.104.070(1).

(2) The department, upon request, must assist sponsoring local governments in estimating sales and use tax revenues from estimated taxable activity in the proposed or adopted revitalization area. The sponsoring local government must provide the department with accurate information describing the geographical boundaries of the revitalization area in an electronic format or in a manner as otherwise prescribed by the department. [2009 c 270 § 301.]

39.104.100 Application process—Department of revenue approval. (1) Prior to applying to the department to receive a state contribution, a sponsoring local government shall adopt a revitalization area within the limitations in RCW 39.104.050 and in accordance with RCW 39.104.040.

(2) As a condition to imposing a sales and use tax under RCW 82.14.510, a sponsoring local government must apply to the department and be approved for a project award amount. The application must be in a form and manner prescribed by the department and include, but not be limited to:

(i) Information establishing that over the period of time that the local sales and use tax will be imposed under RCW 82.14.510, increases in state and local property, sales, and use tax revenues as a result of public improvements in the revitalization area will be equal to or greater than the respective state and local contributions made under this chapter;

(ii) Information demonstrating that the sponsoring local government will meet the requirements necessary to receive the full amount of state contribution it is requesting on an annual basis;

(iii) The amount of state contribution it is requesting;

(iv) The anticipated effective date for imposing the tax under RCW 82.14.510;

(v) The estimated number of years that the tax will be imposed;

(vi) The anticipated rate of tax to be imposed under RCW 82.14.510, subject to the rate-setting conditions in RCW 82.14.510(3), should the sponsoring local government be approved for a project award; and

(vii) The anticipated date when bonds under RCW 39.104.110 will be issued.

(b) The department must make available electronic forms to be used for this purpose. As part of the application, each applicant must provide to the department a copy of the adopted ordinance creating the revitalization area as required in RCW 39.104.040, copies of any adopted interlocal agreements from participating local governments, and any notices from taxing districts that elect not to be a participating taxing district.

(3)(a) Project awards must be determined on:

(i) A first-come basis for applications completed in their entirety and submitted electronically;

(ii) The availability of a state contribution;

(iii) Whether the sponsoring local government would be able to generate enough tax revenue under RCW 82.14.510 to generate the amount of project award requested.

(b) The total of all project awards may not exceed the annual state contribution limit.

(c) If the level of available state contribution is less than the amount requested by the next available applicant, the applicant must be given the first opportunity to accept the lesser amount of state contribution but only if the applicant produces a new application within sixty days of being notified by the department and the application describes the impact on the proposed project as a result of the lesser award in addition to new application information outlined in subsection (2) of this section.

(d) Applications that are not approved for a project award due to lack of available state contribution must be retained on file by the department in order of the date of their receipt.

(c) Once total project awards reach the amount of annual state contribution limit, no more applications will be accepted.

(f) If the annual contribution limit is increased by making additional funds available for applicants that apply on a first-come basis, applications will be accepted again beginning sixty days after the effective date of the increase. How-
ever, in the time period before any new applications are accepted, all sponsoring local governments with a complete application already on file with the department must be provided an opportunity to either withdraw their application or update the information in the application. The updated application must be for a project that is substantially the same as the project in the original application. The department must consider these applications, in the order originally submitted, for project awards prior to considering any new applications.

(4) The department must notify the sponsoring local government of approval or denial of a project award within sixty days of the department’s receipt of the sponsoring local government’s application. Determination of a project award by the department is final. Notification must include the earliest date when the tax authorized under RCW 82.14.510 may be imposed, subject to conditions in chapter 82.14 RCW. The project award notification must specify the rate requested in the application and any adjustments to the rate that would need to be made based on the project award and rate restrictions in RCW 82.14.510.

(5) The department must begin accepting applications on September 1, 2009. [2010 c 164 § 6; 2009 c 270 § 401.]

(ii) The sponsoring local government includes this statement of intent in all notices required by RCW 39.104.040; or

(b) The sponsoring local government adopts a resolution, after opportunity for public comment, that indicates an intent to incur this indebtedness and the maximum amount of this indebtedness that is contemplated.

(2) The general indebtedness incurred under subsection (1) of this section may be payable from other tax revenues, the full faith and credit of the sponsoring local government, and nontax income, revenues, fees, and rents from the public improvements, as well as contributions, grants, and nontax money available to the local government for payment of costs of the public improvements or associated debt service on the general indebtedness.

(3) In addition to the requirements in subsection (1) of this section, a sponsoring local government creating a revitalization area and authorizing the use of local revitalization financing may require any nonpublic participants to provide adequate security to protect the public investment in the public improvement within the revitalization area.

(5) The sponsoring local government may:

(a) Annually pay into a special fund to be established for the benefit of bonds issued under this section a fixed proportion or a fixed amount of any local property tax allocation revenues derived from property within the revitalization area containing the public improvements funded by the bonds, the payment to continue until all bonds payable from the fund are paid in full;

(b) Annually pay into the special fund established pursuant to this section a fixed proportion or a fixed amount of any revenues derived from taxes imposed under RCW 82.14.510, such payment to continue until all bonds payable from the fund are paid in full. Revenues derived from taxes imposed under RCW 82.14.510 are subject to the use restriction in RCW 82.14.515; and

(c) Issue revenue bonds payable from any or all revenues deposited in the special fund established pursuant to this section.

(6) In case any of the public officials of the sponsoring local government whose signatures appear on any bonds or any coupons issued under this chapter cease to be the officials before the delivery of the bonds, the signatures must, nevertheless, be valid and sufficient for all purposes, the same as if the officials had remained in office until the delivery. Any provision of any law to the contrary notwithstanding, any bonds issued under this chapter are fully negotiable.

(7) Notwithstanding subsections (4) through (6) of this section, bonds issued under this section may be issued and sold in accordance with chapter 39.46 RCW. [2010 c 164 § 7; 2009 c 270 § 701.]

For the purposes of this chapter, public records shall be classified as follows:

All public records shall be and remain the property of the state of Washington. They shall be delivered by outgoing officials and employees to their successors and shall be preserved, stored, transferred, destroyed or disposed of, and otherwise managed, only in accordance with the provisions of this chapter. In order to insure the proper management and safeguarding of public records, the division of archives and records management is established in the office of the secretary of state. The state archivist, who shall administer the division and have reasonable access to all public records, wherever kept, for purposes of information, surveying, or cataloguing, shall undertake the following functions, duties, and responsibilities:

(1) To manage the archives of the state of Washington;

(2) To centralize the archives of the state of Washington, to make them available for reference and scholarship, and to insure their proper preservation;

(3) To inspect, inventory, catalog, and arrange retention and transfer schedules on all record files of all state departments and other agencies of state government;

(4) To insure the maintenance and security of all state public records and to establish safeguards against unauthorized removal or destruction;

(6) To adopt rules under chapter 34.05 RCW:

(a) Setting standards for the durability and permanence of public records maintained by state and local agencies;

(b) Governing procedures for the creation, maintenance, transmission, cataloging, indexing, storage, or reproduction of photographic, optical, electronic, or other images of public documents or records in a manner consistent with current standards, policies, and procedures of the department of information services for the acquisition of information technology;

(c) Governing the accuracy and durability of, and facilitating access to, photographic, optical, electronic, or other images used as public records;

(d) To carry out any other provision of this chapter;

(7) To gather and disseminate to interested agencies information on all phases of records management and current practices, methods, procedures, techniques, and devices for efficient and economical management and preservation of records;

(8) To operate a central microfilming bureau which will microfilm, at cost, records approved for filming by the head of the office of origin and the archivist; to approve microfilming projects undertaken by state departments and all other agencies of state government; and to maintain proper standards for this work;

(9) To maintain necessary facilities for the review of records approved for destruction and for their economical disposition by sale or burning; directly to supervise such destruction of public records as shall be authorized by the terms of this chapter;

(10) To assist and train state and local agencies in the proper methods of creating, maintaining, cataloging, indexing, transmitting, storing, and reproducing photographic, optical, electronic, or other images used as public records;

(11) To solicit, accept, and expend donations as provided in RCW 43.07.037 for the purpose of the archive program. These purposes include, but are not limited to, acquisition, accession, interpretation, and display of archival materials. Donations that do not meet the criteria of the archive program may not be accepted. [2002 c 358 § 4; 1995 c 326 § 1. Prior: 1991 c 237 § 4; 1991 c 184 § 1; 1986 c 275 § 1; 1983 c 84 § 1; 1981 c 115 § 1; 1957 c 246 § 2.]

### 40.14.022 Division of archives and records management—Imaging account.

The imaging account is created in the custody of the state treasurer. All receipts collected under RCW 40.14.020(8) for contract imaging, micrographics, reproduction, and duplication services provided by the division of archives and records management must be deposited into the account, and expenditures from the account may be used only for these purposes. Only the secretary of state or the secretary’s designee may authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures. [2003 c 163 § 2.]

### 40.14.024 Division of archives and records management—Local government archives account.

The local government archives account is created in the state treasury.
All receipts collected by the county auditors under RCW 40.14.027 and 36.22.175 for local government services, such as providing records scheduling, security microfilm inspection and storage, archival preservation, cataloging, and indexing for local government records and digital data and access to those records and data through the regional branch archives of the division of archives and records management, must be deposited into the account, and expenditures from the account may be used only for these purposes. During the 2007-2009 biennium, the legislature may transfer from the local government archives account to the Washington state heritage center account such amounts as reflect the excess fund balance in the account. [2008 c 328 § 6005; 2003 c 163 § 3.]

Part headings not law—Severability—Effective date—2008 c 328: See notes following RCW 43.155.050.

40.14.025 Division of archives and records management—Allocation of costs of services—Archives and records management account. (1) The secretary of state and the director of financial management shall jointly establish a procedure and formula for allocating the costs of services provided by the division of archives and records management to state agencies. The total amount allotted for services to state agencies shall not exceed the appropriation to the archives and records management account during any allotment period.

(2) There is created the archives and records management account in the state treasury which shall consist of all fees and charges collected under this section. The account shall be appropriated exclusively for the payment of costs and expenses incurred in the operation of the division of archives and records management as specified by law. [2003 c 163 § 1; 1996 c 245 § 3; 1991 sp.s. c 13 § 5; 1985 c 57 § 22; 1981 c 115 § 4.]

40.14.027 Public archives and records management services—Judgment debtor surcharge. State agencies shall collect a surcharge of twenty dollars from the judgment debtor upon the satisfaction of a warrant filed in superior court for unpaid taxes or liabilities. The surcharge is imposed on the judgment debtor in the form of a penalty in addition to the filing fee provided in RCW 36.18.012(10). The surcharge revenue shall be transmitted to the state treasurer for deposit in the archives and records management account.

Surcharge revenue deposited in the local government archives account under RCW 40.14.024 shall be expended by the secretary of state exclusively for disaster recovery, essential records protection services, and records management training for local government agencies by the division of archives and records management. The secretary of state shall, with local government representatives, establish a committee to advise the state archivist on the local government archives and records management program. [2003 c 163 § 4; 2001 c 146 § 4; 1996 c 245 § 4; 1995 c 292 § 17; 1994 c 193 § 2.]

Findings—1994 c 193: "The legislature finds that: (1) Accountability for and the efficient management of local government records are in the public interest and that compliance with public records management requirements significantly affects the cost of local government administration; (2) the secretary of state is responsible for insuring the preservation of local government archives and may assist local government compliance with public records statutes; (3) as provided in RCW 40.14.025, all archives and records management services provided by the secretary of state are funded exclusively by a schedule of fees and charges established jointly by the secretary of state and the director of financial management; (4) the secretary of state’s costs for preserving and providing public access to local government archives and providing records management assistance to local government agencies have been funded by fees paid by state government agencies; (5) local government agencies are responsible for costs associated with managing, protecting, and providing public access to the records in their custody; (6) local government must help fund the secretary of state’s local government archives and records management services; (7) the five-dollar fee collected by county clerks for processing warrants for unpaid taxes or liabilities filed by the state of Washington is not sufficient to cover processing costs and is far below filing fees commonly charged for similar types of minor civil actions; (8) a surcharge of twenty dollars would bring the filing fee for warrants for the collection of unpaid taxes and liens up to a level comparable to other minor civil filings and should be applied to the support of the secretary of state’s local government archives and records services without placing an undue burden on local government; and (9) the process of collecting and transmitting surcharge revenue should not have an undue impact on the operations of the state agencies that file warrants for the collection of unpaid taxes and liabilities or the clerks of superior court who process them." [1994 c 193 § 1.]

40.14.030 Transfer to state archives—Certified copies, cost—Public disclosure. (1) All public records, not required in the current operation of the office where they are made or kept, and all records of every agency, commission, committee, or any other activity of state government which may be abolished or discontinued, shall be transferred to the state archives so that the valuable historical records of the state may be centralized, made more widely available, and insured permanent preservation: PROVIDED, That this section shall have no application to public records approved for destruction under the subsequent provisions of this chapter.

When so transferred, copies of the public records concerned shall be made and certified by the archivist, which certification shall have the same force and effect as though made by the officer originally in charge of them. Fees may be charged to cover the cost of reproduction. In turning over the archives of his office, the officer in charge thereof, or his successor, thereby loses none of his rights of access to them, without charge, whenever necessary.

(2) Records that are confidential, privileged, or exempt from public disclosure under state or federal law while in the possession of the originating agency, commission, board, committee, or other entity of state or local government retain their confidential, privileged, or exempt status after transfer to the state archives unless the archivist, with the concurrence of the originating jurisdiction, determines that the records must be made accessible to the public according to proper and reasonable rules adopted by the secretary of state, in which case the records may be open to inspection and available for copying after the expiration of seventy-five years from creation of the record. If the originating jurisdiction is no longer in existence, the archivist shall make the determination of availability according to such rules. If, while in the possession of the originating agency, commission, board, committee, or other entity, any record is determined to be confidential, privileged, or exempt from public disclosure under state or federal law for a period of less than seventy-five years, then the record, with the concurrence of the origi-
nating jurisdiction, must be made accessible to the public upon the expiration of the shorter period of time according to proper and reasonable rules adopted by the secretary of state. [2003 c 305 § 1; 1957 c 246 § 3.]

The records officer shall:

2. Inventory, or manage the inventory, of all public records at least once during a biennium for disposition scheduling and transfer action, in accordance with procedures prescribed by the state archivist and state records committee: PROVIDED, That essential records shall be inventoried and processed in accordance with chapter 40.10 RCW at least annually.
3. Consult with any other personnel responsible for maintenance of specific records within his state organization regarding records retention and transfer recommendations.
4. Analyze records inventory data, examine and compare divisional or unit inventories for duplication of records, and recommend to the state archivist and state records committee minimal retentions for all copies commensurate with legal, financial and administrative needs.
5. Approve all records inventory and destruction requests which are submitted to the state records committee.
6. Review established records retention schedules at least annually to insure that they are complete and current.
7. Exercise internal control over the acquisition of filming and file equipment.

If a particular agency or department does not wish to transfer records at a time previously scheduled therefor, the records officer shall, within thirty days, notify the archivist and request a change in such previously set schedule, including his reasons therefor. [1982 c 36 § 4; 1979 c 151 § 51; 1973 c 54 § 3; 1957 c 246 § 4.]

There is created a committee, to be known as the records committee, composed of the archivist, an appointee of the state auditor, an appointee of the attorney general, and an appointee of the director of financial management. Committee members shall serve without additional salary, but shall be entitled to travel expenses incurred in accordance with RCW 43.03.050 and 43.03.060 as now existing or hereafter amended. Such expenses shall be paid from the appropriations made for operation of their respective departments or offices.

The records committee shall meet at least once every quarter or oftener as business dictates. Action by the committee shall be by majority vote and records shall be kept of all committee business.

It shall be the duty of the records committee to approve, modify or disapprove the recommendations on retention schedules of all files of public records and to act upon requests to destroy any public records: PROVIDED, That any modification of a request or recommendation must be approved by the head of the agency originating the request or recommendation.

The division of archives and records management shall provide forms, approved by the records committee, upon which it shall prepare recommendations to the committee in cooperation with the records officer of the department or other agency whose records are involved. [1985 c 192 § 1; 1975-’76 2nd ex.s. c 34 § 83; 1957 c 246 § 5.] Additional notes found at www.leg.wa.gov

40.14.060 Destruction, disposition of official public records or office files and memoranda—Record retention schedules. (1) Any destruction of official public records shall be pursuant to a schedule approved under RCW 40.14.050. Official public records shall not be destroyed unless:

(a) Except as provided under RCW 40.14.070(2)(b), the records are six or more years old;
(b) The department of origin of the records has made a satisfactory showing to the state records committee that the retention of the records for a minimum of six years is both unnecessary and uneconomical, particularly if lesser federal retention periods for records generated by the state under federal programs have been established; or
(c) The originals of official public records less than six years old have been copied or reproduced by any photographic or other process approved by the state archivist which accurately reproduces or forms a durable medium for so reproducing the original.

(2) Any lesser term of retention than six years must have the additional approval of the director of financial management, the state auditor and the attorney general, except when records have federal retention guidelines the state records committee may adjust the retention period accordingly. An automatic reduction of retention periods from seven to six years for official public records on record retention schedules existing on June 10, 1982, shall not be made, but the same shall be reviewed individually by the state records committee for approval or disapproval of the change to a retention period of six years.

Recommendations for the destruction or disposition of office files and memoranda shall be submitted to the records committee upon approved forms prepared by the records officer of the agency concerned and the archivist. The committee shall determine the period of time that any office file or memorandum shall be preserved and may authorize the division of archives and records management to arrange for its destruction or disposition. [1999 c 326 § 1; 1982 c 36 § 5; 1979 c 151 § 52; 1973 c 54 § 4; 1957 c 246 § 6.]

40.14.070 Destruction, disposition, donation of local government records—Preservation for historical interest—Local records committee, duties—Record retention schedules—Sealed records. (1)(a) County, municipal, and other local government agencies may request authority to
destroy noncurrent public records having no further administrative or legal value by submitting to the division of archives and records management lists of such records on forms prepared by the division. The archivist, a representative appointed by the state auditor, and a representative appointed by the attorney general shall constitute a committee, known as the local records committee, which shall review such lists and which may veto the destruction of any or all items contained therein.

(b) A local government agency, as an alternative to submitting lists, may elect to establish a records control program based on recurring disposition schedules recommended by the agency to the local records committee. The schedules are to be submitted on forms provided by the division of archives and records management to the local records committee, which may either veto, approve, or amend the schedule. Approval of such schedule or amended schedule shall be by unanimous vote of the local records committee. Upon such approval, the schedule shall constitute authority for the local government agency to destroy the records listed thereon, after the required retention period, on a recurring basis until the schedule is either amended or revised by the committee.

(2)(a) Except as otherwise provided by law, no public records shall be destroyed until approved for destruction by the local records committee. Official public records shall not be destroyed unless:

(i) The records are six or more years old;

(ii) The department of origin of the records has made a satisfactory showing to the state records committee that the retention of the records for a minimum of six years is both unnecessary and uneconomical, particularly where lesser federal retention periods for records generated by the state under federal programs have been established; or

(iii) The original of official public records less than six years old have been copied or reproduced by any photographic, photostatic, microfilm, miniature photographic, or other process approved by the state archivist which accurately reproduces or forms a durable medium for so reproducing the original.

An automatic reduction of retention periods from seven to six years for official public records on record retention schedules existing on June 10, 1982, shall not be made, but the same shall be reviewed individually by the local records committee for approval or disapproval of the change to a retention period of six years.

The state archivist may furnish appropriate information, suggestions, and guidelines to local government agencies for their assistance in the preparation of lists and schedules or any other matter relating to the retention, preservation, or destruction of records under this chapter. The local records committee may adopt appropriate regulations establishing procedures to be followed in such matters.

Records of county, municipal, or other local government agencies, designated by the archivist as of primarily historical interest, may be transferred to a recognized depository agency.

(b)(i) Records of investigative reports prepared by any state, county, municipal, or other law enforcement agency pertaining to sex offenders contained in chapter 9A.44 RCW or sexually violent offenses as defined in RCW 71.09.020 that are not required in the current operation of the law enforcement agency or for pending judicial proceedings shall, following the expiration of the applicable schedule of the law enforcement agency’s retention of the records, be transferred to the Washington association of sheriffs and police chiefs for permanent electronic retention and retrieval. Upon electronic retention of any document, the association shall be permitted to destroy the paper copy of the document.

(ii) Any sealed record transferred to the Washington association of sheriffs and police chiefs for permanent electronic retention and retrieval, including records sealed after transfer, shall be electronically retained in such a way that the record is clearly marked as sealed.

(iii) The Washington association of sheriffs and police chiefs shall be permitted to destroy both the paper copy and electronic record of any offender verified as deceased.

(c) Any record transferred to the Washington association of sheriffs and police chiefs pursuant to (b) of this subsection shall be deemed to no longer constitute a public record pursuant to *RCW 42.17.020 and shall be exempt from public disclosure. Such records shall be disseminated only to criminal justice agencies as defined in RCW 10.97.030 for the purpose of determining if a sex offender met the criteria of a sexually violent predator as defined in chapter 71.09 RCW and the end-of-sentence review committee as defined by RCW 72.09.345 for the purpose of fulfilling its duties under RCW 71.09.025 and 9.95.420.

Electronic records marked as sealed shall only be accessible by criminal justice agencies as defined in RCW 10.97.030 who would otherwise have access to a sealed paper copy of the document, the end-of-sentence review committee as defined by RCW 72.09.345 for the purpose of fulfilling its duties under RCW 71.09.025 and 9.95.420, and the system administrator for the purposes of system administration and maintenance.

(3) Except as otherwise provided by law, county, municipal, and other local government agencies may, as an alternative to destroying noncurrent public records having no further administrative or legal value, donate the public records to the state library, local library, historical society, genealogical society, or similar society or organization.

Public records may not be donated under this subsection unless:

(a) The records are seventy years old or more;
(b) The local records committee has approved the destruction of the public records; and
(c) The state archivist has determined that the public records have no historic interest. [2005 c 227 § 1; 2003 c 240 § 1; 1999 c 326 § 2; 1995 c 301 § 71; 1982 c 36 § 6; 1973 c 54 § 5; 1971 ex.s. c 10 § 1; 1957 c 246 § 7.]

40.14.080 Chapter not to affect other laws. The provisions of this chapter shall not be construed as repealing or modifying any other acts or parts of acts authorizing the destruction of public records save for those specifically named in *section 9 of this act; nor shall this chapter affect
the provisions of chapter 40.07 RCW requiring the deposit of all state publications in the state library. [1983 c 3 § 84; 1957 c 246 § 8.]

Reviser’s note: “section 9 of this act” refers to 1957 c 246 § 9, which repealed RCW 40.08.010 through 40.08.050 and 40.12.010 through 40.12.110.

As used in RCW 40.14.010 and 40.14.100 through 40.14.180, unless the context requires otherwise, “legislative records” shall be defined as correspondence, amendments, reports, and minutes of meetings made by or submitted to legislative committees or subcommittees and transcripts or other records of hearings or supplementary written testimony or data thereof filed with committees or subcommittees in connection with the exercise of legislative or investigatory functions, but does not include the records of an official act of the legislature kept by the secretary of state, bills and their copies, published materials, digests, or multi-copied matter which are routinely retained and otherwise available at the state library or in a public repository, or reports or correspondence made or received by or in any way under the personal control of the individual members of the legislature. [1971 ex.s. c 102 § 2.]

40.14.110 Legislative records—Contribution of papers by legislators and employees. Nothing in RCW 40.14.010 and 40.14.100 through 40.14.180 shall prohibit a legislator or legislative employee from contributing his personal papers to any private library, public library, or the state archives. The state archivist is authorized to receive papers of legislators and legislative employees and is directed to encourage the donation of such personal records to the state. The state archivist is authorized to establish such guidelines and procedures for the collection of personal papers and correspondence relating to the legislature as he sees fit. The legislative committee chairman, subcommittee chairman, committee member, or employed personnel of the state legislature having possession of legislative records that are not required for the regular performance of official duties shall, within ten days after the adjournment sine die of a regular or special session, deliver all such legislative records to the clerk of the house or the secretary of the senate.

The clerk of the house and the secretary of the senate are charged to include requirements and responsibilities for keeping committee minutes and records as part of their instructions to committee chairmen and employees. The clerk or the secretary, with the assistance of the state archivist, shall classify and arrange the legislative records delivered to the clerk or secretary in a manner that he considers best suited to carry out the efficient and economical utilization, maintenance, preservation, and disposition of the records. The clerk or the secretary may deliver to the state archivist all legislative records in his possession when such records have been classified and arranged and are no longer needed by either house. The state archivist shall thereafter be custodian of the records so delivered, but shall deliver such records back to either the clerk or secretary upon his request.

The chairman, member, or employee of a legislative interim committee responsible for maintaining the legislative records of that committee shall, in a scheduled basis agreed upon by the chairman, member, or employee of the legislative interim committee, deliver to the clerk or secretary all legislative records in his possession, as long as such records are not required for the regular performance of official duties. (2010 Ed.)
40.24.010 Findings—Purpose. The legislature finds that persons attempting to escape from actual or threatened domestic violence, sexual assault, trafficking, or stalking frequently establish new addresses in order to prevent their assailants or probable assailants from finding them. The purpose of this chapter is to enable state and local agencies to respond to requests for public records without disclosing the location of a victim of domestic violence, sexual assault, trafficking, or stalking, to enable interagency cooperation with the secretary of state in providing address confidentiality for victims of domestic violence, sexual assault, trafficking, or stalking, and to enable state and local agencies to accept a program participant’s use of an address designated by the secretary of state as a substitute mailing address. [2008 c 312 § 1; 2001 c 28 § 1; 1998 c 138 § 1; 1991 c 23 § 1.]

40.24.020 Definitions. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Address" means a residential street address, school address, or work address of an individual, as specified on the individual’s application to be a program participant under this chapter.

(2) "Domestic violence" means an act as defined in RCW 10.99.020 and includes a threat of such acts committed against an individual in a domestic situation, regardless of whether these acts or threats have been reported to law enforcement officers.

(3) "Program participant" means a person certified as a program participant under RCW 40.24.030.

(4) "Stalking" means an act defined in RCW 9A.46.110 and includes a threat of such acts committed against an individual, regardless of whether these acts or threats have been reported to law enforcement officers.

(5) "Trafficking" means an act as defined in RCW 9A.40.100 or an act recognized as a severe form of trafficking under 22 U.S.C. Sec. 7102(8) as it existed on June 12, 2008, or such subsequent date as may be provided by the secretary of state by rule, consistent with the purposes of this subsection, regardless of whether the act has been reported to law enforcement.

40.24.030 Address confidentiality program—Application—Certification. (1) An adult person, a parent or guardian acting on behalf of a minor, or a guardian acting on behalf of an incapacitated person, as defined in RCW 11.88.010, may apply to the secretary of state to have an address designated by the secretary of state serve as the person’s address or the address of the minor or incapacitated person. The secretary of state shall approve an application if it is filed in the manner and on the form prescribed by the secretary of state and if it contains:

(a) A sworn statement, under penalty of perjury, by the applicant that the applicant has good reason to believe (i) that the applicant, or the minor or incapacitated person on whose behalf the application is made, is a victim of domestic violence, sexual assault, trafficking, or stalking; and (ii) that the applicant fears for his or her safety or his or her children’s safety, or the safety of the minor or incapacitated person on whose behalf the application is made;

(b) If applicable, a sworn statement, under penalty of perjury, by the applicant, that the applicant has reason to believe they are a victim of domestic violence, sexual assault, or stalking perpetrated by an employee of a law enforcement agency;

(c) A designation of the secretary of state as agent for purposes of service of process and for the purpose of receipt of mail;

(d) The residential address and any telephone number where the applicant can be contacted by the secretary of state, which shall not be disclosed because disclosure will increase the risk of domestic violence, sexual assault, trafficking, or stalking;

(e) The signature of the applicant and of any individual or representative of any office designated in writing under RCW 40.24.080 who assisted in the preparation of the application, and the date on which the applicant signed the application.

(2) Applications shall be filed with the office of the secretary of state.

(3) Upon filing a properly completed application, the secretary of state shall certify the applicant as a program participant. Applicants shall be certified for four years following the date of filing unless the certification is withdrawn or invalidated before that date. The secretary of state shall by rule establish a renewal procedure.

(4) A person who falsely attests in an application that disclosure of the applicant’s address would endanger the applicant’s safety or the safety of the applicant’s children or the minor or incapacitated person on whose behalf the application is made, or who knowingly provides false or incorrect information upon making an application, shall be punishable under RCW 40.16.030 or other applicable statutes. [2008 c 312 § 3; 2008 c 18 § 2; 2001 c 28 § 2; 1998 c 138 § 2; 1991 c 23 § 3.]

Reviser’s note: This section was amended by 2008 c 18 § 2 and by 2008 c 312 § 3, each without reference to the other. Both amendments are incorporated in the publication of this section under RCW 1.12.025(2). For rule of construction, see RCW 1.12.025(1).

40.24.040 Certification cancellation. (1) If the program participant obtains a legal change of identity, he or she loses certification as a program participant.

(2) The secretary of state may cancel a program participant’s certification if there is a change in the residential address, unless the program participant provides the secretary of state with at least two days’ prior notice in writing of the change of address.

(3) The secretary of state may cancel certification of a program participant if mail forwarded by the secretary to the [Title 40 RCW—page 12]

(2010 Ed.)
program participant’s address is returned as nondeliverable, refused, or unclaimed.

(4) The secretary of state shall cancel certification of a program participant who applies using false information. [2008 c 18 § 3; 1991 c 23 § 4.]

40.24.050 Agency use of designated address. (1) A program participant may request that state and local agencies use the address designated by the secretary of state as his or her address. When creating a new public record, state and local agencies shall accept the address designated by the secretary of state as a program participant’s substitute address, unless the secretary of state has determined that:

(a) The agency has a bona fide statutory or administrative requirement for the use of the address which would otherwise be confidential under this chapter; and

(b) This address will be used only for those statutory and administrative purposes.

(2) A program participant may use the address designated by the secretary of state as his or her work address.

(3) The office of the secretary of state shall forward all first-class mail to the appropriate program participants. [1991 c 23 § 5.]

40.24.060 Voting by program participant—Use of address by county auditor. A program participant who is otherwise qualified to vote may register as an ongoing absentee voter under RCW 29A.40.040. The county auditor shall transmit the absentee ballot to the program participant at the mailing address provided. Neither the name nor the address of a program participant shall be included in any list of registered voters available to the public. [2008 c 18 § 4; 1991 c 23 § 6.]

40.24.070 Disclosure of records prohibited—Exceptions. The secretary of state may not make any records in a program participant’s file available for inspection or copying, other than the address designated by the secretary of state, except under the following circumstances:

(1) If requested by a law enforcement agency, to the law enforcement agency; and

(a) The participant’s application contains no indication that he or she has been a victim of domestic violence, sexual assault, or stalking perpetrated by a law enforcement employee; and

(b) The request is in accordance with official law enforcement duties and is in writing on official law enforcement letterhead stationery and signed by the law enforcement agency’s chief officer, or his or her designee; or

(2) If directed by a court order, to a person identified in the order; and

(a) The request is made by a nonlaw enforcement agency; or

(b) The participant’s file indicates he or she has reason to believe he or she is a victim of domestic violence, sexual assault, or stalking perpetrated by a law enforcement employee. [2008 c 18 § 5; 1999 c 53 § 1; 1998 c 138 § 3; 1991 c 23 § 7.]

40.24.075 Court order for address confidentiality program participant information. A court order for address confidentiality program participant information may only be issued upon a probable cause finding by a judicial officer that release of address confidentiality program participant information is legally necessary:

(1) In the course of a criminal investigation or prosecution; or

(2) To prevent immediate risk to a minor and meet the statutory requirements of the Washington child welfare system.

Any court order so issued will prohibit the release of the information to any other agency or person not a party to the order. [2008 c 18 § 6.]

40.24.080 Assistance for program applicants. The secretary of state shall designate state and local agencies and nonprofit agencies that provide counseling and shelter services to victims of domestic violence, sexual assault, trafficking, or stalking to assist persons applying to be program participants. Any assistance and counseling rendered by the office of the secretary of state or its designees to applicants shall in no way be construed as legal advice. [2008 c 312 § 4; 2001 c 28 § 3; 1998 c 138 § 4; 1991 c 23 § 8.]

40.24.090 Adoption of rules. The secretary of state may adopt rules to facilitate the administration of this chapter by state and local agencies. [1991 c 23 § 9.]

41.04.208 Local government retirees—Health care—Definitions—Participation—Exception. (1) Unless the context clearly requires otherwise, the definitions in this subsection apply throughout this section.

(a) "Disabled employee" means a person eligible to receive a disability retirement allowance from the Washington law enforcement officers’ and firefighters’ retirement system plan 2 and the public employees’ retirement system.

(b) "Health plan" means a contract, policy, fund, trust, or other program established jointly or individually by a county, municipality, or other political subdivision of the state that provides for all or a part of hospitalization or medical aid for its employees and their dependents under RCW 41.04.180.

(c) "Retired employee" means a public employee meeting the retirement eligibility, years of service requirements, and other criteria of the Washington law enforcement officers’ and firefighters’ retirement system plan 2 and the public employees’ retirement system.

(2) A county, municipality, or other political subdivision that provides a health plan for its employees shall permit retired and disabled employees and their dependents to continue participation in a plan subject to the exceptions, limitations, and conditions set forth in this section. However, this section does not apply to a county, municipality, or other political subdivision participating in an insurance program administered under chapter 41.05 RCW if retired and disabled employees and their dependents of the participating county, municipality, or other political subdivision are covered under an insurance program administered under chapter 41.05 RCW. Nothing in this subsection or chapter 319, Laws of 2002 precludes the local government employer from offering retired or disabled employees a health plan with a benefit structure, copayment, deductible, coinsurance, lifetime benefit maximum, and other plan features which differ from those offered through a health plan provided to active employees. Further, nothing in this subsection precludes a local govern-
ment employer from joining with other public agency employers, including interjurisdictional benefit pools and multi-employer associations or consortiums, to fulfill its obliga-

(3) A county, municipality, or other political subdivision has full authority to require a person who requests continued participation in a health plan under subsection (2) of this section to pay the full cost of such participation, including any amounts necessary for administration. However, this subsection does not require an employer who is currently paying for all or part of a health plan for its retired and disabled employees to discontinue those payments.

(4) Payments for continued participation in a former employer’s health plan may be assigned to the underwriter of the health plan from public pension benefits or may be paid to the former employer, as determined by the former employer, so that an underwriter of the health plan that is an insurance company, health care service contractor, or health maintenance organization is not required to accept individual payments from persons continuing participation in the employer’s health plan.

(5) After an initial open enrollment period of ninety days after January 1, 2003, an employer may not be required to permit a person to continue participation in the health plan if the person is responsible for a lapse in coverage under the plan. In addition, an employer may not be required to permit a person to continue participation in the employer’s health plan if the employer offered continued participation in a health plan that meets the requirements of chapter 319, Laws of 2002.

(6) If a person continuing participation in the former employer’s health plan has medical coverage available through another employer, the medical coverage of the other employer is the primary coverage for purposes of coordination of benefits as provided for in the former employer’s health plan.

(7) If a person’s continued participation in a health plan was permitted because of the person’s relationship to a retired or disabled employee of the employer providing the health plan and the retired or disabled employee dies, then that person is permitted to continue participation in the health plan for a period of not more than six months after the death of the retired or disabled employee. However, the employer providing the health plan may permit continued participation beyond that time period.

(8) An employer may offer one or more health plans different from that provided for active employees and designed to meet the needs of persons requesting continued participation in the employer’s health plan. An employer, in designing or offering continued participation in a health plan, may utilize terms or conditions necessary to administer the plan to the extent the terms and conditions do not conflict with this section.

(9) If an employer changes the underwriter of a health plan, the replaced underwriter has no further responsibility or obligation to persons who continued participation in a health plan of the replaced underwriter. However, the employer shall permit those persons to participate in any new health plan.

(10) The benefits granted under this section are not considered a matter of contractual right. Should the legislature, a county, municipality, or other political subdivision of the state revoke or change any benefits granted under this section, an affected person is not entitled to receive the benefits as a matter of contractual right.

(11) This section does not affect any health plan contained in a collective bargaining agreement in existence as of January 1, 2003. However, any plan contained in future collective bargaining agreements shall conform to this section. In addition, this section does not affect any health plan contract or policy in existence as of January 1, 2003. However, any renewal of the contract or policy shall conform to this section.

(12) Counties, municipalities, and other political subdivisions that make a documented good faith effort to comply with the provisions of subsections (2) through (11) of this section and are unable to provide access to a fully insured group health benefit plan are discharged from any obligations under subsections (2) through (11) of this section but shall assist disabled employees and retired employees in applying for health insurance. Assistance may include developing and distributing standardized information on the availability and cost of individual health benefit plans, application packages, and health benefit fairs.

(13) The office of the insurance commissioner shall make available to counties, municipalities, and other political subdivisions information regarding individual health benefit plans, including a list of carriers offering individual coverage, the rates charged, and how to apply for coverage. [2004 c 173 § 1; 2002 c 319 § 2.]

Intent—2002 c 319: “It is the intent of this act to provide retirees of local government employers access to health care benefits. It is also the intent of this act that local government employers be allowed the flexibility to design programs to meet the health care needs of their retirees and that the local government employer be able to recover all costs associated with providing retirees access to health benefits.” [2002 c 319 § 1.]

41.04.212 Local government retirees—Health care—Administration. Employers providing access to health insurance coverage under chapter 319, Laws of 2002 may adopt criteria which specify allowable enrollment periods, require enrollees to keep current addresses and information, and outline other processes to ensure that plans can be administered efficiently and effectively. [2002 c 319 § 3.]

Intent—2002 c 319: See note following RCW 41.04.208.

41.04.220 Department of general administration to procure health benefit programs—Other governmental entities may use services. Any governmental entity other than state agencies, may use the services of the department of general administration upon the approval of the director, in procuring health benefit programs as provided by RCW 41.04.180, 28A.400.350 and 28B.10.660: PROVIDED, That the department of general administration may charge for the administrative cost incurred in the procuring of such services. (b) "Decedent" means any person who is entitled to benefits from the Washington state department of retirement systems by written designation or by operation of law:

(i) Whose life is taken by a slayer; or

(c) "Slayer" means a slayer as defined in RCW 11.84.010.

(2) Property that would have passed to or for the benefit of a beneficiary under one of the retirement systems listed in RCW 41.50.030 shall not pass to that beneficiary if the beneficiary was a slayer or abuser of the decedent and the property shall be distributed as if the slayer or abuser had predeceased the decedent.

(3) A slayer or abuser is deemed to have predeceased the decedent as to property which, by designation or by operation of law, would have passed from the decedent to the slayer or abuser because of the decedent’s entitlement to benefits under one of the retirement systems listed in RCW 41.50.030.

(4)(a) The department of retirement systems has no affirmative duty to determine whether a beneficiary is, or is alleged to be, a slayer or abuser. However, upon receipt of written notice that a beneficiary is a defendant in a civil lawsuit or probate proceeding that alleges the beneficiary is a slayer or abuser, or is charged with a crime that, if committed, means the beneficiary is a slayer or abuser, the department of retirement systems shall determine whether the beneficiary is a defendant in such a civil proceeding or has been formally charged in court with the crime, or both. If so, the department shall withhold payment of any benefits until:

(i) The case or charges, or both if both are pending, are dismissed;

(ii) The beneficiary is found not guilty in the criminal case or prevails in the civil proceeding, or both if both are pending;

(iii) The beneficiary is convicted or is found to be a slayer or abuser in the civil proceeding.

If the beneficiary is convicted or found to be a slayer or abuser in a civil proceeding, the department shall distribute the benefits according to subsection (2) of this section.

(5) Any record of conviction for having participated in the willful and unlawful killing of the decedent or for conduct constituting financial exploitation against the decedent, including but not limited to theft, forgery, fraud, identity theft, robbery, burglary, or extortion, shall be admissible in evidence against a claimant of property in any civil action arising under this section.

(6) In the absence of a criminal conviction, a superior court may determine:

(a) By a preponderance of the evidence whether a person participated in the willful and unlawful killing of the decedent;

(b) By clear, cogent, and convincing evidence whether a person participated in conduct constituting financial exploitation against the decedent, as provided in chapter 11.84 RCW.

(7) This section shall not subject the department of retirement systems to liability for payment made to a slayer or abuser or alleged slayer or abuser, prior to the department’s receipt of written notice that the slayer or abuser has been convicted of, or the alleged slayer or abuser has been formally criminally or civilly charged in court with, the death or financial exploitation of the decedent. If the conviction or civil judgment of a slayer or abuser is reversed on appeal, the department of retirement systems shall not be liable for payment made prior to the receipt of written notice of the reversal to a beneficiary other than the person whose conviction or civil judgment is reversed. (2010 Ed.)

(2) A director may:

(a) Develop and implement state employee wellness policies, procedures, and activities;

(3) No wellness program or activity that involves or requires organized or systematic physical exercise may be implemented or conducted during normal working hours. [2010 c 128 § 4; 1987 c 248 § 2.]

Legislative findings—Purpose—1987 c 248: "The legislature finds that:

(1) Improved health among employees will result in a more productive workforce, better morale, reduced stress, lower injury rates and absenteeism, and improved recruitment and retention rates;

(2) A substantial amount of illness and injury in the workforce is preventable because it results from lifestyle decisions;

(3) Illness and injury among state employees can be reduced if employees engage in healthier lifestyles.

The state, as an employer, desires to foster a working environment that promotes the health and well-being of its employees. Therefore, it is the purpose of this act to establish a state employee wellness program. "Wellness program" means those policies, procedures, and activities that promote the health and well-being of state employees and that contribute to a healthful work environment." [1987 c 248 § 1.]

41.04.370 Child care—Legislative intent. The legislature recognizes that supporting child care for employees of public and private organizations is a worthwhile pursuit. To further the goals of affordable, accessible, and quality child care for working parents, the legislature intends to provide for the development of self-supporting child care programs for employees of state government. [1993 c 194 § 1; 1984 c 162 § 1.]

41.04.375 Child care—Rental of suitable space. An agency may identify space they wish to use for child care facilities or they may request assistance from the department of general administration in identifying the availability of suitable space in state-owned or state-leased buildings for use as child care centers for the children of state employees.

When suitable space is identified in state-owned or state-leased buildings, the department of general administration shall establish a rental rate for organizations to pay for the space used by persons who are not state employees. [1993 c 194 § 2; 1984 c 162 § 2.]

41.04.380 Child care—Contracts—Provision of suitable space at reduced cost authorized. When suitable space is determined to be available, either agencies or organizations of state employees may contract with one or more providers to operate child care facilities. Subject to the approval of the director of financial management, suitable space for child care centers may be provided to organizations of state employees without charge or at reduced charge for rent or services solely for the purpose of reducing employee child care costs. [1993 c 194 § 3; 1984 c 162 § 3.]

41.04.382 Child care organizations—Qualifications for services. In order to qualify for services under RCW 41.04.380, state employee child care organizations shall be organized as nonprofit under chapter 24.03 RCW. [1993 c 194 § 4.]

41.04.385 Child care—Legislative findings—State policy—Responsibilities of director of personnel. The legislature finds that (1) demographic, economic, and social trends underlie a critical and increasing demand for child care in the state of Washington; (2) working parents and their children benefit when the employees' child care needs have been resolved; (3) the state of Washington should serve as a model employer by creating a supportive atmosphere, to the extent feasible, in which its employees may meet their child care needs; and (4) the state of Washington should encourage the development of partnerships between state agencies, state employees, state employee labor organizations, and private employers to expand the availability of affordable quality child care. The legislature finds further that resolving employee child care concerns not only benefits the employees and their children, but may benefit the employer by reducing absenteeism, increasing employee productivity, improving morale, and enhancing the employer's position in recruiting and retaining employees. Therefore, the legislature declares that it is the policy of the state of Washington to assist state employees by creating a supportive atmosphere in which they may meet their child care needs. Policies and procedures for state agencies to address employee child care needs will be the responsibility of the director of personnel in consultation with the director of the department of early learning and state employee representatives. [2006 c 265 § 201; 2005 c 490 § 9; 2002 c 354 § 236; 1993 c 194 § 5; 1986 c 135 § 1.]

41.04.390 Flexible-time work schedules. (1) The legislature finds that flexible-time work schedules, which provide varying times for employees to arrive at and depart from work, tend to alleviate traffic congestion during peak rush hour periods and thereby reduce hazardous traffic conditions; provide more efficient use of highways and other transit facilities; and decrease fuel consumption. In addition, the legislature finds that flexible-time work schedules provide families in which both parents work outside of the home with the flexibility necessary to provide for day care; provide employees with flexibility allowing them to spend more time with their families; improve employee morale and, in-so-doing, improve productivity. Therefore, due to the clear advantages to both agencies and employees, the legislature finds that flexible-time work schedules should be utilized by agencies to the maximum extent possible.

(2) As used in this section, "flexible-time work schedule" means a daily work schedule which contains a core time of required hours during which an employee subject to the schedule is required to be present for work and designated hours before or after the core time during which an employee, with the approval of his or her agency, may elect a time of arrival to work and departure from work.

(3) Each agency shall prepare a flexible-time work schedule or schedules and shall offer the schedule or schedules to employees as an option to the traditional eight o’clock a.m. to five o’clock p.m. working day. However, an agency shall not be required to prepare or offer a flexible-time work schedule or schedules if the agency head determines that the implementation of such a schedule would serve as an impediment to the provision of services to the public or would in any other way impede the agency in accomplishing its mission.

(4) Any employee wishing to use a flexible-time work schedule prepared under subsection (3) of this section must first obtain the permission of the agency head or the agency head’s designee. However, if there is an employee organization certified as an exclusive bargaining representative for a bargaining unit affected by the flexible-time work schedule, the agency shall first negotiate with the certified employee organization.

(5) Nothing in this section affects official hours during which state offices are required to be open for the transaction of business, as prescribed in RCW 42.04.060. [1985 c 411 § 1.]

41.04.393 Public safety officers—Retirement benefits—Death in the line of duty. Retirement benefits paid under chapter 41.26, 41.37, 41.40, or 43.43 RCW to beneficiaries of public safety officers who die in the line of duty shall be paid in accordance with Title 26 U.S.C. Sec. 101(h) as amended by the Fallen Hero Survivor Benefit Fairness Act of 2001. [2006 c 309 § 5; 2003 c 32 § 1.]

Effective date—2006 c 309: See note following RCW 41.37.005.

41.04.395 Disability accommodation revolving fund—Disbursements. (1) The disability accommodation revolving fund is created in the custody of the state treasurer. Disbursements from the fund shall be on authorization of the director of the department of personnel or the director’s designee. The fund is subject to the allotment procedure provided under chapter 43.88 RCW, but no appropriation is required for disbursements. The fund shall be used exclusively by state agencies to accommodate the unanticipated job site or equipment needs of persons of disability in state employ.

(2) The director of the department of personnel shall consult with the governor’s committee on disability issues and employment regarding requests for disbursements from the disability accommodation revolving fund. The department shall establish application procedures, adopt criteria, and provide technical assistance to users of the fund.

(3) Agencies that receive moneys from the disability accommodation revolving fund shall return to the fund the amount received from the fund by no later than the end of the first month of the following fiscal biennium. [1994 sp.s. c 9 § 1; 1987 c 9 § 2.]

Intent—1987 c 9: "The legislature recognizes that persons of disability have faced unfair discrimination in employment. Equal opportunity for persons of disability often necessitate job site changes and equipment purchases. It is the intent of the legislature to remove a potential barrier to employment of persons of disability by giving state agencies, including institutions of higher education, the ability to accommodate the job site and equipment needs of persons of disability without the delay of waiting for an appropriation from the legislature." [1987 c 9 § 1.]

It is the purpose of RCW 41.04.405 through 41.04.430 to govern the retirement rights of persons whose employment status is altered when: (1) Two or more units of local government of this state, at least one of which is a first-class city with its own retirement system, enter into an agreement for the consolidated performance of a governmental service, activity, or undertaking; (2) the service, activity, or undertaking is to be performed either by one of the participating local governmental units or by a newly established separate legal entity; and (3) the employees of the participating local governmental units are not all members of the same Washington public retirement system.

RCW 41.04.405 through 41.04.430 are not intended to and do not govern retirement rights of any members of the retirement systems established by chapter 41.16, 41.18, 41.20, or 41.26 RCW, or of employees described in RCW 35.58.265, 35.58.390, or 70.08.070. To the extent there is any conflict between RCW 41.04.405 through 41.04.430 and RCW 41.04.110, the provisions of RCW 41.04.405 through 41.04.430 shall govern. [1984 c 184 § 22.]

In computing such charge, the employer shall convert accumulated days, or other time units as the case may be, to a money equivalent based on the base monthly salary of the employee at the time of the injury or illness. "Base monthly salary" for the purposes of this section means the amount earned by the employee before any voluntary or involuntary payroll deductions, and not including overtime pay.

3. One-half of the amount of the supplement as defined in RCW 41.04.505 shall be paid by the employer.

41.04.580 Dismissal of municipal employees during World War II—Redress authorized. A municipality may by ordinance or resolution provide for redress to any municipal employee or the surviving spouse of a municipal employee who, due to the promulgation of federal Executive Order 9066, was dismissed, terminated from a temporary position, or rejected during the person’s probationary period, or who voluntarily resigned in lieu of dismissal from municipal employment, and who incurred salary and other employment related losses as a result thereof during the years 1942 through 1947. [1986 c 225 § 2.]

Legislative findings—1986 c 225: “The dismissal or termination of various municipal employees during World War II resulted from the promulgation of federal Executive Order 9066 which was based mainly on fear and suspicion rather than on factual justification. It is fair and just that redress be made to those employees who were terminated from municipal employment during the wartime years because of these circumstances. The legislature therefore finds that equity and fairness will be served by authorizing municipalities to accept claims for salary and other employment related losses suffered by the municipal employees directly affected and to pay the claims subject to the provisions of this chapter.” [1986 c 225 § 1.]

Reparations to state employees terminated during World War II: Chapter 41.68 RCW.

41.04.585 Dismissal of municipal employees during World War II—Redress not mandatory. RCW 41.04.580 through 41.04.595 do not require a municipality to adopt an ordinance or resolution providing for redress of salary and other employment related losses. [1986 c 225 § 3.]

Legislative findings—Severability—1986 c 225: See notes following RCW 41.04.580.

41.04.590 Dismissal of municipal employees during World War II—Limitations. Under the system of redress authorized under RCW 41.04.580 through 41.04.595:

(1) A municipality may determine in its sole discretion the monetary amount of redress for salary and other employment related losses, which may not exceed five thousand dollars for any undivided claim.

(2) If a municipality adopts an ordinance or resolution providing for redress of salary and other employment related losses, it has no obligation to notify directly any person of possible eligibility for redress of salary and other employment related losses. [1986 c 225 § 4.]

Legislative findings—Severability—1986 c 225: See notes following RCW 41.04.580.
41.04.595 Dismissal of municipal employees during World War II—Definitions. For the purposes of this chapter, "municipality" means a city, town, county, special purpose district, municipal corporation, quasi-municipal corporation, or political subdivision of the state of Washington. For the purposes of this chapter, a "municipal employee" means an employee of a municipality. [1986 c 225 § 5.]

Legislative findings—Severability—1986 c 225: See notes following RCW 41.04.580.

41.04.650 Leave sharing program—Intent. The legislature finds that: (1) State employees historically have joined together to help their fellow employees who suffer from, or have relatives or household members suffering from, an extraordinary or severe illness, injury, impairment, or physical or mental condition which prevents the individual from working and causes great economic and emotional distress to the employee and his or her family; and (2) these circumstances may be exacerbated because the affected employees use all their accrued sick leave and annual leave and are forced to take leave without pay or terminate their employment. Therefore, the legislature intends to provide for the establishment of a leave sharing program. [1989 c 93 § 1.]

(ii) The employee has been called to service in the uniformed services;

(iii) A state of emergency has been declared anywhere within the United States by the federal or any state government and the employee has needed skills to assist in responding to the emergency or its aftermath and volunteers his or her services to either a governmental agency or to a nonprofit organization engaged in humanitarian relief in the devastated

[Title 41 RCW—page 20] (2010 Ed.)
An employee may transfer, under the provisions of this section relating to the transfer of leave, all or part of his or her personal holiday, as that term is defined under RCW 1.16.050, or as such holidays are provided to employees by agreement with a school district’s board of directors if the leave transferred under this subsection does not exceed the amount of time provided for personal holidays under RCW 1.16.050.

(4) An employee of an institution of higher education under RCW 28B.10.016, school district, or educational service district who does not accrue annual leave but does accrue sick leave and who has an accrued sick leave balance of more than twenty-two days may request that the head of the agency for which the employee works transfer a specified amount of sick leave to another employee authorized to receive leave under subsection (1) of this section. In no event may such an employee request a transfer that would result in his or her sick leave account going below twenty-two days. Transfers of sick leave under this subsection are limited to transfers from employees who do not accrue annual leave. Under this subsection, "sick leave" also includes leave accrued pursuant to RCW 28A.400.300(2) or 28A.310.240(1) with compensation for illness, injury, and emergencies.

(5) Transfers of leave made by an agency head under subsections (3) and (4) of this section shall not exceed the requested amount.

(6) Leave transferred under this section may be transferred from employees of one agency to an employee of the same agency or, with the approval of the heads of both agencies, to an employee of another state agency.

(7) While an employee is on leave transferred under this section, he or she shall continue to be classified as a state employee and shall receive the same treatment in respect to salary, wages, and employee benefits as the employee would normally receive if using accrued annual leave or sick leave.

(a) All salary and wage payments made to employees while on leave transferred under this section shall be made by the agency employing the person receiving the leave. The value of leave transferred shall be based upon the leave value of the person receiving the leave.

(b) In the case of leave transferred by an employee of one agency to an employee of another agency, the agencies involved shall arrange for the transfer of funds and credit for the appropriate value of leave.

(i) Pursuant to rules adopted by the office of financial management, funds shall not be transferred under this section if the transfer would violate any constitutional or statutory restrictions on the funds being transferred.

(ii) The office of financial management may adjust the appropriation authority of an agency receiving funds under this section only if and to the extent that the agency’s existing appropriation authority would prevent it from expending the funds received.

(iii) Where any questions arise in the transfer of funds or the adjustment of appropriation authority, the director of financial management shall determine the appropriate transfer or adjustment.

(8) Leave transferred under this section shall not be used in any calculation to determine an agency’s allocation of full time equivalent staff positions.
(9) The value of any leave transferred under this section which remains unused shall be returned at its original value to the employee or employees who transferred the leave when the agency head finds that the leave is no longer needed or will not be needed at a future time in connection with the illness or injury for which the leave was transferred or for any other qualifying condition. Before the agency head makes a determination to return unused leave in connection with an illness or injury, or any other qualifying condition, he or she must receive from the affected employee a statement from the employee’s doctor verifying that the illness or injury is resolved. To the extent administratively feasible, the value of unused leave which was transferred by more than one employee shall be returned on a pro rata basis.

(10) An employee who uses leave that is transferred to him or her under this section may not be required to repay the value of the leave that he or she used.

(11) The director of personnel may adopt rules as necessary to implement subsection (2)(a) through (c) of this section. [2010 1st sp.s. c 32 § 10; 2010 c 168 § 1; 2008 c 36 § 3. 41.04.680 Pooled sick leave—Plan establishment—Calculations—Participation—Higher education institutions. The department of personnel and other personnel authorities shall adopt rules or policies governing the accumulation and use of sick leave for state agency and department employees, expressly for the establishment of a plan allowing participating employees to pool sick leave and allowing any sick leave thus pooled to be used by any participating employee who has used all of the sick leave, annual leave, and compensatory leave that has been personally accrued by him or her. Each department or agency of the state may allow employees to participate in a sick leave pool established by the department of personnel and other personnel authorities.

(1) For purposes of calculating maximum sick leave that may be donated or received by any one employee, pooled sick leave:

(a) Is counted and converted in the same manner as sick leave under the Washington state leave sharing program as provided in this chapter; and

(b) Does not create a right to sick leave in addition to the amount that may be donated or received under the Washington state leave sharing program as provided in this chapter.

(2) The department and other personnel authorities, except the personnel authorities for higher education institutions, shall adopt rules which provide:

(a) That employees are eligible to participate in the sick leave pool after one year of employment with the state or agency of the state if the employee has accrued a minimum amount of unused sick leave, to be established by rule;

(b) That participation in the sick leave pool shall, at all times, be voluntary on the part of the employees;

(c) That any sick leave pooled shall be removed from the personally accumulated sick leave balance of the employee contributing the leave;

(d) That any sick leave in the pool that is used by a participating employee may be used only for the employee’s personal illness, accident, or injury;

(e) That a participating employee is not eligible to use sick leave accumulated in the pool until all of his or her personally accrued sick, annual, and compensatory leave has been used;

(f) A maximum number of days of sick leave in the pool that any one employee may use;

(g) That a participating employee who uses sick leave from the pool is not required to reconvert such sick leave to the pool, except as otherwise provided in this section;

(h) That an employee who cancels his or her membership in the sick leave pool is not eligible to withdraw the days of sick leave contributed by that employee to the pool;

(i) That an employee who transfers from one position in state government to another position in state government may transfer from one pool to another if the eligibility criteria of the pools are comparable and the administrators of the pools have agreed on a formula for transfer of credits;

(j) That alleged abuse of the use of the sick leave pool shall be investigated, and, on a finding of wrongdoing, the employee shall repay all of the sick leave credits drawn from the sick leave pool and shall be subject to such other disciplinary action as is determined by the agency head;

(k) That sick leave credits may be drawn from the sick leave pool by a part-time employee on a pro rata basis; and

(l) That each department or agency shall maintain accurate and reliable records showing the amount of sick leave which has been accumulated and is unused by employees, in
accordance with guidelines established by the department of personnel.

(3) Personnel authorities for higher education institutions shall adopt policies consistent with the needs of the employees under their respective jurisdictions. [2006 c 356 § 1.]

41.04.700 Employee assistance program—Intent.

The legislature finds that:

(1) Assisting employees in resolving personal problems that impair their performance will result in a more productive workforce, better morale, reduced stress, reduced use of medical benefits, reduced absenteeism, lower turnover rates, and fewer accidents;

(2) A substantial number of employee problems can be identified and the employees referred to treatment by an employee assistance program;

(3) The state, as an employer, desires to foster a working environment that promotes safety and productivity as well as the health and well-being of its employees.

Therefore, it is the purpose of RCW 41.04.710 through 41.04.730 to assist state employees by establishing a state employee assistance program. [1990 c 60 § 301.]

The goal of the program is to help promote a safe, productive, and healthy state workforce by assisting state employees and their supervisors to identify and deal with such personal problems. However, nothing in this chapter relieves employees from the responsibility of performing their jobs in an acceptable manner. [1990 c 60 § 302.]

41.05.006 Purpose. (1) The legislature recognizes that (a) the state is a major purchaser of health care services, (b) the increasing costs of such health care services are posing and will continue to pose a great financial burden on the state, (c) it is the state’s policy, consistent with the best interests of the state, to provide comprehensive health care as an employer, to state employees and officials and their dependents and to those who are dependent on the state for necessary medical care, and (d) it is imperative that the state begin to develop effective and efficient health care delivery systems and strategies for procuring health care services in order for the state to continue to purchase the most comprehensive health care possible.

(2) It is therefore the purpose of this chapter to establish the Washington state health care authority whose purpose shall be to (a) develop health care benefit programs that provide access to at least one comprehensive benefit plan funded to the fullest extent possible by the employer, and a health savings account/high deductible health plan option as defined in section 1201 of the medicare prescription drug improvement and modernization act of 2003, as amended, for eligible state employees, officials, and their dependents, and (b) study all state-purchased health care, alternative health care delivery systems, and strategies for the procurement of health care services and make recommendations aimed at minimizing the financial burden which health care poses on the state, its employees, and its charges, while at the same time allowing the state to provide the most comprehensive health care options possible. [2006 c 299 § 1; 1988 c 107 § 2.]

41.05.008 Duties of employing agencies. (1) Every employing agency shall carry out all actions required by the authority under this chapter including, but not limited to, those necessary for the operation of benefit plans, education of employees, claims administration, and appeals process.

Effective date—2009 c 537: "This act takes effect January 1, 2010." [2009 c 537 § 9.]

41.05.009 Determination of employee eligibility for benefits. (1) The authority, or at the authority’s direction, an employing agency shall initially determine and periodically review whether an employee is eligible for benefits pursuant to this chapter.

(2) An employing agency shall inform an employee in writing whether or not he or she is eligible for benefits when initially determined and upon any subsequent change, including notice of the employee’s right to an appeal. [2009 c 537 § 2.]

Effective date—2009 c 537: See note following RCW 41.05.008.

41.05.0091 Eligibility exists prior to January 1, 2010. An employee determined eligible for benefits prior to January 1, 2010, shall not have his or her eligibility terminated pursuant to the criteria established under chapter 537, Laws of 2009 unless the termination is the result of: (1) A voluntary reduction in work hours; or (2) the employee’s employment with an agency other than the agency by which he or she was determined eligible prior to January 1, 2010. [2009 c 537 § 10.]

Improved communication leads to more fully informed patient decisions. The legislature intends to increase the extent to which patients make genuinely informed, preference-based treatment decisions, by promoting public/private collaborative efforts to broaden the development, certification, use, and evaluation of effective decision aids and by recognition of shared decision making and patient decision aids in the state’s laws on informed consent.

(2) The health care authority shall implement a shared decision-making demonstration project. (ii) Are immune from civil liability for any official acts performed in good faith as members of the board, stakeholder committee, or any advisory group.
(3) Members of the board may be compensated for participation in accordance with a personal services contract to be executed after appointment and before commencement of activities related to the work of the board. (a) Adverse drug events that result in an average of seven hundred seventy thousand injuries and deaths each year; and
(b) Duplicative services that add to costs and jeopardize patient well-being;
(2) Consumers are unable to act as fully informed participants in their care unless they have ready access to their own health information;
(3) The blue ribbon commission on health care costs and access found that the development of a system to provide electronic access to patient information anywhere in the state was a key to improving health care; and
(4) In 2005, the legislature established a health information infrastructure advisory board to develop a strategy for the adoption and use of health information technologies that are consistent with emerging national standards and promote interoperability of health information systems.” [2009 c 300 § 1.]

separate agency of state government; (b) county, municipal,
school district, educational service district, or other political
subdivisions; and (c) tribal governments as are covered by
this chapter, shall provide contributions to insurance and
health care plans for its employees and their dependents, the
content of such plans to be determined by the authority. Con-
tributions, paid by the county, the municipality, other political subdivision, or a tribal government for their employees, shall include an amount determined by the authority to pay such administrative expenses of the authority as are necessary to administer the plans for employees of those groups, except as provided in subsection (4) of this section.

(2) If the authority at any time determines that the participation of a county, municipal, other political subdivision, or a tribal government covered under this chapter adversely impacts insurance rates for state employees, the authority shall implement limitations on the participation of additional county, municipal, other political subdivisions, or a tribal government.

(3) The contributions of any: (a) Department, division, or separate agency of the state government; (b) county, municipal, or other political subdivisions; and (c) any tribal government as are covered by this chapter, shall be set by the authority, subject to the approval of the governor for availability of funds as specifically appropriated by the legislature for that purpose. The authority may collect these amounts in accordance with the district fiscal year, as described in RCW 28A.505.030.

(b) For all groups of district employees enrolling in authority plans for the first time after September 1, 2003, the authority shall collect from each participating school district an amount equal to the composite rate charged to state agencies, plus an amount equal to the employee premiums by plan and by family size as would be charged to state employees, only if the authority determines that this method of billing the districts will not result in a material difference between revenues from districts and expenditures made by the authority on behalf of districts and their employees. The authority may collect these amounts in accordance with the district fiscal year, as described in RCW 28A.505.030.

(c) If the authority determines at any time that the conditions in (b) of this subsection cannot be met, the authority shall offer enrollment to additional groups of district employees on a tiered rate structure until such time as the authority determines there would be no material difference between revenues and expenditures under a composite rate structure for all district employees enrolled in authority plans.

(d) The authority may charge districts a one-time set-up fee for employee groups enrolling in authority plans for the first time.

(e) For the purposes of this subsection:
   (i) "District" means school district and educational service district; and
   (ii) "Tiered rates" means the amounts the authority must pay to insuring entities by plan and by family size.

(5) The authority shall transmit a recommendation for the amount of the employer contribution to the governor and the director of financial management for inclusion in the proposed budgets submitted to the legislature. (c) To the extent administratively possible, the state shall establish an automatic payroll or pension deduction system for the payment of the long-term care insurance premiums.
