Department of Commerce

43.330.005 Findings. The legislature finds that the long-term economic health of the state and its citizens depends upon the strength and vitality of its communities and businesses. It is the intent of this chapter to create a department of commerce that fosters new partnerships for strong and sustainable communities. The mission of the department is to grow and improve jobs in Washington and facilitate innovation. To carry out its mission, the department will bring together focused efforts to: Streamline access to business assistance and economic development services by providing them through sector-based, cluster-based, and regional partners; provide focused and flexible responses to changing economic conditions; generate greater local capacity to respond to both economic growth and environmental challenges; increase accountability to the public, the executive branch, and the legislature; manage growth and achieve sustainable development; diversify the state’s economy and export goods and services; provide greater access to economic opportunity; stimulate private sector investment and entrepreneurship; provide stable family-wage jobs and meet the diverse needs of families; provide affordable housing and housing services; and construct public infrastructure.

The legislature further finds that as a result of the rapid pace of global social and economic change, the state and local communities will require coordinated and creative responses by every segment of the community. The state can play a role in assisting such local efforts by reorganizing state assistance efforts to promote such partnerships. The department has a primary responsibility to provide financial and technical assistance to the communities of the state, to assist in improving the delivery of federal, state, and local programs, and to provide communities with opportunities for productive and coordinated development beneficial to the well-being of communities and their residents. It is the intent of the legislature in creating the department to maximize the use of local expertise and resources in the delivery of community and economic development services. [2010 c 271 § 2; 1993 c 280 § 1.]

Purpose—2010 c 271: “In 2009, the legislature changed the name of the department of community, trade, and economic development to the department of commerce and directed the agency to, among other things, develop a report with recommendations on statutory changes to ensure that the department’s efforts: Are organized around a concise core mission and aligned with the state’s comprehensive plan for economic development; generate greater local capacity; maximize results through partnerships and the use of intermediaries; and provide transparency and increased accountability. Recommendations for creating or consolidating programs deemed important to meeting the department’s core mission and recommendations for terminating or transferring specific programs if they are not consistent with the department’s core mission were to be included in the report.

In accordance with that legislation, chapter 565, Laws of 2009, in November 2009 the department of commerce submitted a plan that establishes a mission of growing and improving jobs in the state and recognizes the need for an innovation-driven economy. The plan also outlines agency priorities, efficiencies, and program transfers that will help to advance the new mission.

The primary purpose of this act is to implement portions of the department of commerce plan by transferring certain programs from the department of commerce to other state agencies whose missions are more closely aligned with the core functions of those programs. This act also directs additional efficiencies in state government and directs development of a statewide clean energy strategy, which will better enable the department of commerce to focus on its new mission.” [2010 c 271 § 1.]

Effective date—2010 c 271: “This act takes effect July 1, 2010.” [2010 c 271 § 803.]

43.330.007 Management responsibility. (1) The purpose of this chapter is to establish the broad outline of the structure of the department of commerce, leaving specific details of its internal organization and management to those charged with its administration. This chapter identifies the broad functions and responsibilities of the department and is intended to provide flexibility to the director to reorganize these functions to more closely reflect its customers, its mission, and its priorities, and to make recommendations for changes.

(2) In order to generate greater local capacity, maximize results through partnerships and the use of intermediaries, and leverage the use of state resources, the department shall, in carrying out its business assistance and economic development functions, provide business and economic development services primarily through sector-based, cluster-based, and regionally based organizations rather than providing assistance directly to individual firms. [2010 c 271 § 3; 2009 c 565 § 1; 1993 c 280 § 2.]

Purpose—Effective date—2010 c 271: See notes following RCW 43.330.005.

*Reviser’s note: The “department of community, trade, and economic development” was renamed the “department of commerce” by 2009 c 565.

(ii) Critical gaps and barriers to availability of capital and delivery of technical assistance to small businesses and entrepreneurs;

The legislature finds that small businesses and entrepreneurs need increased access to capital and technical assistance in order to maximize their potential. The legislature intends that the department of commerce and the small business development center build upon their existing relevant statutory missions and authorities by collaborating on a specific plan to expand services to small businesses and entrepreneurs beginning in the 2011-2013 biennium."

Finding—Intent—2005 c 135: "The legislature finds that many international companies with an interest in operating in Washington are not aware of the various tax incentives that are available. It is the intent of the legislature to ensure that these international companies understand that they are eligible for these business and occupation tax and sales and use tax deferrals when investing in Washington. It is the further intent of the legislature that the "department of community, trade, and economic development and associate development organizations make clear to international companies that they are eligible for the state’s various tax incentives." The department shall consult with the Washington state economic development commission in the establishment of such uniform data as is needed to conduct a statewide systemic analysis of the state’s economic development programs and expenditures. In cooperation with other local, regional, and state planning efforts, contracting organizations may provide insight into the needs of target industry clusters, business expansion plans, early detection of potential relocations or layoffs, training needs, and other appropriate economic information;

[2009 c 151 § 10; 2007 c 249 § 2; 1997 c 60 § 1; 1993 c 280 § 11.]

Findings—Intent—2007 c 249: "The legislature finds that economic development success requires coordinated state and local efforts. At the end of the period of termination, the department may contract with the associate development organization or its successor as it deems appropriate.

(3) The department shall report to the legislature and the Washington economic development commission by December 31st of each even-numbered year on the performance results of the contracts with associate development organizations. [2009 c 518 § 15; 2007 c 249 § 3.]

(4) On October 1st of each odd-numbered year, the director shall designate innovation partnership zones on the basis of applications that meet the legislative criteria, estimated economic impact of the zone, evidence of forward planning for the zone, and other criteria as recommended by the Washington state economic development commission. Estimated economic impact must include evidence of anticipated private investment, job creation, innovation, and commercialization. The director shall require evidence that zone applicants will promote commercialization, innovation, and collaboration among zone residents.

(5) Innovation partnership zones are eligible for funds and other resources as provided by the legislature or at the discretion of the governor.

(6) If the innovation partnership zone meets the other requirements of the fund sources, then the zone is eligible for the following funds relating to:

(a) The local infrastructure financing tools program;

(b) The sales and use tax for public facilities in rural counties; and

(c) Job skills.

(7) An innovation partnership zone shall be designated as a zone for a four-year period. At the end of the four-year period, the zone must reapply for the designation through the department.

(8) If the director finds at any time after the initial year of designation that an innovation partnership zone is failing to meet the performance standards required in its contract with the department, the director may withdraw such designation and cease state funding of the zone.

(9) The department shall convene annual information sharing events for innovation partnership zone administrators and other interested parties.

(a) Microenterprises are an important portion of Washington’s economy, providing approximately twenty percent of the employment in Washington and playing a vital role in job creation.

(b) While community-based microenterprise development organizations have expanded their assistance to their microentrepreneur customers in recent years, there remains a lack of access to capital, training, and technical assistance for low-income microentrepreneurs.

43.330.310 Comprehensive green economy jobs growth initiative—Establishment—Green industries jobs training account—Creation. (1) The legislature establishes a comprehensive green economy jobs growth initiative based on the goal of, by 2020, increasing the number of green economy jobs to twenty-five thousand from the eight thousand four hundred green economy jobs the state had in 2004.

(2) The department, in consultation with the employment security department, the state workforce training and education coordinating board, the state board for community and technical colleges, and the higher education coordinating board, shall develop a defined list of terms, consistent with current workforce and economic development terms, associated with green economy industries and jobs.

(3)(a) The employment security department, in consultation with the department, the state workforce training and education coordinating board, the state board for community and technical colleges, the higher education coordinating board, Washington State University small business development center, and the Washington State University extension energy program, shall conduct labor market research to analyze the current labor market and projected job growth in the green economy, the current and projected recruitment and skill requirement of green economy industry employers, the wage and benefits ranges of jobs within green economy industries, and the education and training requirements of entry-level and incumbent workers in those industries.

(i) The employment security department shall conduct an analysis of occupations in the forest products industry to:
(A) Determine key growth factors and employment projections in the industry; and
(B) Define the education and skill standards required for current and emerging green occupations in the industry.

(ii) The term "forest products industry" must be given a broad interpretation when implementing (a)(i) of this subsection and includes, but is not limited to, businesses that grow, manage, harvest, transport, and process forest, wood, and paper products.

(b) The University of Washington business and economic development center shall: Analyze the current opportunities for and participation in the green economy by minority and women-owned business enterprises in Washington; identify existing barriers to their successful participation in the green economy; and develop strategies with specific policy recommendations to improve their successful participation in the green economy. The research may be informed by the research of the Puget Sound regional council prosperity partnership, as well as other entities. The University of Washington business and economic development center shall report to the appropriate committees of the house of representatives and the senate on their research, analysis, and recommendations by December 1, 2008.

(4) Based on the findings from subsection (3) of this section, the employment security department, in consultation with the department and taking into account the requirements and goals of chapter 14, Laws of 2008 and other state clean energy and energy efficiency policies, shall propose which industries will be considered high-demand green industries, based on current and projected job creation and their strategic importance to the development of the state's green economy. The employment security department and the department shall take into account which jobs within green economy industries will be considered high-wage occupations and occupations that are part of career pathways to the same, based on family-sustaining wage and benefits ranges. These designations, and the results of the employment security department’s broader labor market research, shall inform the planning and strategic direction of the department, the state workforce training and education coordinating board, the state board for community and technical colleges, and the higher education coordinating board.

(5) The department shall identify emerging technologies and innovations that are likely to contribute to advancements in the green economy, including the activities in designated innovation partnership zones established in RCW 43.330.270.

Obtaining energy efficiency services—Awarding grants to financial institutions—Credit enhancements. (1) The department must: (a) Establish a process to award grants on a competitive basis to provide grants to financial institutions for the purpose of creating credit enhancements, such as loan loss reserve funds as specified in RCW 43.330.330 and 43.330.350, and consumer financial products and services that will be used to obtain energy efficiency services; and (b) develop criteria, in consultation with the department of financial institutions, regard-

(2010 Ed.)
43.330.330 Funding energy efficiency improvements—Risk reduction mechanisms—Legislative intent. 
(1) The legislature finds that the creation and use of risk reduction mechanisms will promote greater involvement of local financial institutions and other financing mechanisms in funding energy efficiency improvements and will achieve greater leverage of state and federal dollars. Risk reduction mechanisms will allow financial institutions to lend to a broader pool of applicants on more attractive terms, such as potentially lower rates and longer loan terms. Placing a portion of funds in long-term risk reduction mechanisms will support a sustained level of energy efficiency investment by financial institutions while providing funding to projects quickly.

(2) It is the intent of the legislature to leverage new federal funding aimed at promoting energy efficiency projects, improving energy efficiency, and increasing family-wage jobs. To this end, the legislature intends to invest a portion of all federal funding, subject to federal requirements, for energy efficiency projects in financial mechanisms that will provide for maximum leverage of financing. [2009 c 379 § 206.]

Finding—Intent—Effective date—2009 c 379: See notes following RCW 70.260.010.

43.330.340 Appliance efficiency rebate program. 
The department may create an appliance efficiency rebate program with available funds from the energy efficient appliances rebate program authorized under the federal energy policy act of 2005 (P.L. 109-58). [2009 c 379 § 207.]

Finding—Intent—Effective date—2009 c 379: See notes following RCW 70.260.010.

43.330.350 Use of moneys by local municipalities to leverage financing for energy efficiency projects. 
(1) Local municipalities receiving federal stimulus moneys through the federal energy efficiency and conservation block grant program or state energy program are authorized to use those funds, subject to federal requirements, to establish loan loss reserves or toward risk reduction mechanisms, such as loan loss reserves, to leverage financing for energy efficiency projects.

(2) Interest rate subsidies, financing transaction cost subsidies, capital grants to energy users, and other forms of grants and incentives that support financing energy efficiency projects are authorized uses of federal energy efficiency funding.

(3) Financing mechanisms offered by local municipalities under this section must conform to all applicable state and federal rules and regulations. [2009 c 379 § 208.]

Finding—Intent—Effective date—2009 c 379: See notes following RCW 70.260.010.

43.330.360 Findings—Involvement of state bond authorities in financing energy efficiency projects. 
(1) The legislature finds that the state bond authorities have capacities that can be applied to financing energy efficiency projects for their respective eligible borrowers: Washington economic development finance authority for industry; Washington state housing finance commission for single-family and multifamily housing, commercial properties, agricultural properties, and nonprofit facilities; Washington higher education facilities authority for private, nonprofit higher education; and Washington health care facilities authority for hospitals and all types of health clinics.

(2)(a) Subject to federal requirements, the state bond authorities may accept and administer an allocation of the state’s share of the federal energy efficiency funding for designing energy efficiency finance loan products and for developing and operating energy efficiency finance programs. The state bond authorities shall coordinate with the department on the design of the bond authorities’ program.

(b) The department may make allocations of the federal funding to the state bond authorities and may direct and administer funding for outreach, marketing, and delivery of energy services to support the programs by the state bond authorities.

(c) The legislature authorizes a portion of the federal energy efficiency funds to be used by the state bond authorities for credit enhancements and reserves for such programs.

(3) The Washington state housing finance commission may:

(a) Issue revenue bonds as the term "bond" is defined in RCW 43.180.020 for the purpose of financing loans for energy efficiency and renewable energy improvement projects in accordance with RCW 43.180.150;

(b) Establish eligibility criteria for financing that will enable it to choose applicants who are likely to repay loans made or acquired by the commission and funded from the proceeds of federal funds or commission bonds; and

(c) Participate fully in federal and other governmental programs and take such actions as are necessary and consistent with chapter 43.180 RCW to secure to itself and the people of the state the benefits of programs to promote energy efficiency and renewable energy technologies. [2009 c 379 § 209.]

Findings—Intent—1996 c 186: "The legislature finds responsibilities of state government need to be limited to core services in support of public safety and welfare. Services provided by the Washington state energy office are primarily advisory and can be eliminated. The legislature further finds a need to redefine the state’s role in energy-related regulatory functions. The state may be better served by allowing regulatory functions to be performed by other appropriate entities, simplifying state government while maintaining core services. Further, it is the intent of the legislature that the state continue to receive oil overcharge restitution funds for our citizens while every effort is being made to maximize federal funds available for energy conservation purposes." 43.331.010 General obligation bonds for capital improvements to public facilities. (Effective December 2, 2010, if Referendum Bill No. 52 is approved by the voters at the November general election.) (1) For the purpose of creating jobs by constructing needed capital improvements to public facilities for energy, utility, and operational cost savings, the state finance committee is authorized to issue general obligation bonds of the state of Washington in the sum of five hundred five million dollars, or so much thereof as may be required, for this purpose and all costs incidental thereto.

The bonds issued under the authority of this section are known as jobs act bonds.

(2) Bonds authorized in this section must be sold in the manner, at the time or times, in amounts, and at such prices as the state finance committee determines.

(3) The authorization to issue bonds contained in this chapter does not expire until the full authorization has been issued.

(4) No bonds authorized in this section may be offered for sale without prior legislative appropriation of the net proceeds of the sale of the bonds. [2010 1st sp.s. c 35 § 201.]

Intent—2010 1st sp.s. c 35: "The legislature intends to create jobs in every corner of Washington state by issuing bonds, which will catalyze energy savings and repair work at public schools and state colleges and universities.

It is the intent of the legislature that these investments will create jobs quickly and directly, at a time when the state’s residents need jobs. It is the further intent of the legislature that these investments both accelerate innovation in the energy efficiency sector and create locally developed technologies and companies to provide sustainable jobs. The legislature intends to prioritize the use of innovative technologies and facilitate the development of a sustainable innovation cluster that creates and installs highly efficient building technologies and creates jobs.

The legislature intends that these job-creating projects save taxpayers money, with an estimated one hundred twenty-six million dollars saved each year in public schools through reduced energy and operational costs, and improve the health and safety of those buildings. The energy savings are equivalent to the use of an estimated ninety thousand houses. It is also the intent of the legislature that these job-creating projects lead to reduced pollutants, as the weatherization and energy efficiency projects will reduce pollution emissions by an estimated amount equivalent to removing an estimated one hundred thirty thousand cars from the roads each year." [2010 1st sp.s. c 35 § 102.]

Short title—2010 1st sp.s. c 35: "This act may be known and cited as the jobs act." [2010 1st sp.s. c 35 § 101.]

Contingent effective date—2010 1st sp.s. c 35: "This act takes effect if Second Engrossed Substitute Senate Bill No. 6143 is enacted by the legislature during the 2010 1st special session." [2010 1st sp.s. c 35 § 601.]

*Reviser’s note: Second Engrossed Substitute Senate Bill No. 6143 became chapter 23, Laws of 2010 1st sp. ses.

43.331.020 Retirement of bonds. (Effective December 2, 2010, if Referendum Bill No. 52 is approved by the voters at the November general election.) (1) The nondebt-limit general fund bond retirement account must be used for the payment of the principal of and interest on the bonds authorized in RCW 43.331.010.

(2) The state finance committee must, on or before June 30th of each year, certify to the state treasurer the amount needed in the ensuing twelve months to meet the bond retirement and interest requirements on the bonds authorized in RCW 43.331.010.

(3) On each date on which any interest or principal and interest payment is due on bonds issued for the purposes of RCW 43.331.010, the state treasurer shall withdraw from any general state revenues received in the state treasury and deposit in the nondebt-limit general fund bond retirement account an amount equal to the amount certified by the state finance committee to be due on the payment date. [2010 1st sp.s. c 35 § 202.]

(1) Bonds issued under this section and RCW 43.331.010 and 43.331.020 must state that they are a general obligation of the state of Washington, must pledge the full faith and credit of the state to the payment of the principal thereof and the interest thereon, and must contain an unconditional promise to pay the principal and interest as the same shall become due.

(2) The owner and holder of each of the bonds or the trustee for the owner and holder of any of the bonds may by mandamus or other appropriate proceeding require the transfer and payment of funds as directed in this section.

43.331.040 Program administration by department of commerce, in consultation with department of general administration and Washington State University energy program—Definitions.  
(1) The department of commerce, in consultation with the department of general administration and the Washington State University energy program, shall administer the jobs act.

(2) The department of general administration must develop guidelines that are consistent with national and international energy savings performance standards for the implementation of energy savings performance contracting projects by the energy savings performance contractors by December 31, 2010.

(3) The definitions in this section apply throughout this chapter and RCW 43.331.050 unless the context clearly requires otherwise.

(a) "Cost-effectiveness" means that the present value to higher education institutions and school districts of the energy reasonably expected to be saved or produced by a facility, activity, measure, or piece of equipment over its useful life, including any compensation received from a utility or the Bonneville power administration, is greater than the net present value of the costs of implementing, maintaining, and operating such facility, activity, measure, or piece of equipment over its useful life, when discounted at the cost of public borrowing.

(b) "Energy cost savings" means savings realized in expenses for energy use and expenses associated with water, wastewater, or solid waste systems.

(c) "Energy equipment" means energy management systems and any equipment, materials, or supplies that are expected, upon installation, to reduce the energy use or energy cost of an existing building or facility, and the services associated with the equipment, materials, or supplies, including but not limited to design, engineering, financing, installation, project management, guarantees, operations, and maintenance. Reduction in energy use or energy cost may also include reductions in the use or cost of water, wastewater, or solid waste.

(d) "Energy savings performance contracting" means the process authorized by chapter 39.35C RCW by which a company contracts with a public agency to conduct energy audits and guarantee energy savings from energy efficiency.

(e) "Innovative measures" means advanced or emerging technologies, systems, or approaches that may not yet be in common practice but improve energy efficiency, accelerate deployment, or reduce energy usage, and become widely commercially available in the future if proven successful in demonstration programs without compromising the guaranteed performance or measurable energy and operational cost savings anticipated. Examples of innovative measures include, but are not limited to, advanced energy and systems operations monitoring, diagnostics, and controls systems for buildings; novel heating, cooling, ventilation, and water heating systems; advanced windows and insulation technologies, highly efficient lighting technologies, designs, and controls; and integration of renewable energy sources into buildings, and energy savings verification technologies and solutions.

(f) "Operational cost savings" means savings realized from parts, service fees, capital renewal costs, and other measurable annual expenses to maintain and repair systems. This definition does not mean labor savings related to existing facility staff.

(g) "Public facilities" means buildings, building components, and major equipment or systems owned by public school districts and public higher education institutions.  
[2010 1st sp.s. c 35 § 301.]

Intent—2010 1st sp.s. c 35: "The legislature intends to increase general state revenues to pay for a portion of the increased debt service costs for voter-approved bonds and for debt-limit bonds authorized by the legislature for projects awarded grants under sections 301 and 302 of this act for energy efficiency projects in public facilities."  
[2010 1st sp.s. c 35 § 304.]

Intent—Short title—Contingent effective date—2010 1st sp.s. c 35: See note following RCW 43.331.010.

43.331.050 Competitive grant process—Audit—Administrative fees—Reports to the legislature.  
(1) Within appropriations specifically provided for the purposes of this chapter, the department of commerce, in consultation with the department of general administration, and the Washington State University energy program shall establish a competitive process to solicit and evaluate applications from public school districts, public higher education institutions, and other state agencies. Final grant awards shall be determined by the department of commerce.

(2) Grants must be awarded in competitive rounds, based on demand and capacity, with at least five percent of each grant round awarded to small public school districts with fewer than one thousand full-time equivalent students, based on demand and capacity.

(3) Within each competitive round, projects must be weighted and prioritized based on the following criteria and in the following order:

(a) Leverage ratio: In each round, the higher the leverage ratio of nonstate funding sources to state jobs act grant, the higher the project ranking.

(b) Energy savings: In each round, the higher the energy savings, the higher the project ranking. Applicants must submit documentation that demonstrates energy and operational cost savings resulting from the installation of the energy equipment and improvements. The energy savings analysis must be performed by a licensed engineer and documentation must include but is not limited to the following:
(4) Projects that do not use energy savings performance contracting must: (a) Verify energy and operational cost savings, as defined in RCW 43.331.040, for ten years or until the energy and operational costs savings pay for the project, whichever is shorter; (b) follow the department of general administration’s energy savings performance contracting project guidelines developed pursuant to RCW 43.331.040; and (c) employ a licensed engineer for the energy audit and construction. The department of commerce may require third-party verification of savings if a project is not implemented by an energy savings performance contractor selected by the department of general administration through the request of qualifications process. Third-party verification must be conducted either by an energy savings performance contractor selected by the department of general administration through a request for qualifications, a licensed engineer specializing in energy conservation, or by a project resource conservation manager or educational service district resource conservation manager.

(5) To intensify competition, the department of commerce may offer additional funding to the top eighty-five percent of projects applying in a round until the department of commerce determines a final round is appropriate. Projects that do not receive a grant award in one round may reapply in subsequent rounds.

(6) To match federal grants and programs that require state matching funds and produce significantly higher efficiencies in operations and utilities, the level of innovation criteria may be increased for the purposes of weighted scoring to capture those federal dollars for selected projects that require a higher level of innovation and regional collaboration.

(7) Grant amounts awarded to each project must allow for the maximum number of projects funded with the greatest energy and cost benefit.

(8) The department of commerce must use bond proceeds to pay one-half of the preliminary audit, up to five cents per square foot, if the project does not meet the school district’s and higher education institution’s predetermined cost-effectiveness criteria. School districts and higher education institutions must pay the other one-half of the cost of the preliminary audit if the project does not meet their predetermined cost-effectiveness criteria.

(b) The energy savings performance contractor may not charge for an investment grade audit if the project does not meet the school district’s and higher education institution’s predetermined cost-effectiveness criteria. School districts and higher education institutions must pay the full price of an investment grade audit if they do not proceed with a project that meets the school district’s and higher education institution’s predetermined cost-effectiveness criteria.

(9) The department of commerce may charge projects administrative fees and may pay the department of general administration and the Washington State University energy program administration fees in an amount determined through a memorandum of understanding.

(10) The department of commerce and the department of general administration must submit a joint report to the appropriate committees of the legislature and the office of financial management on the timing and use of the grant funds, program administrative function, compliance with apprenticeship utilization requirements in RCW 39.04.320, compliance with prevailing wage requirements, and administration fees by the end of each fiscal year, until the funds are fully expended and all savings verification requirements are fulfilled. If the state finance committee deems it necessary to issue any portion of the bonds authorized in this chapter as taxable bonds in order to comply with federal internal revenue service rules and regulations pertaining to the use of nontaxable bond proceeds, the proceeds of such taxable bonds must be transferred to the state taxable building construction account in lieu of any deposits otherwise provided by RCW 43.331.090. WASHINGTON MANUFACTURING INNOVATION AND MODERNIZATION EXTENSION SERVICE PROGRAM

Reviser's note—Sunset Act application: The Washington manufacturing innovation and modernization extension service program is subject to review, termination, and possible extension under chapter 43.131 RCW, the Sunset Act. See RCW 43.131.409. RCW 43.338.005 through 43.338.040 and 43.338.900 are scheduled for future repeal under RCW 43.131.410.

43.338.005  Finding—Intent. The legislature finds that a viable manufacturing industry is critical to providing the state economy with family-wage jobs and improving the quality of life for workers and communities. To perform in the emerging global marketplace, Washington manufacturers must master new technologies, streamline production processes, improve quality assurance, expand environmental compliance, and enhance methods of work organization. Only through innovation and modernization techniques, reflecting the specific needs and capabilities of the individual firms, can Washington manufacturers both compete successfully in the market of the future and pay good living wages.

Most small and midsize manufacturers do not have the resources that will allow them to easily access innovation and modernization technical assistance and the skills training needed to make them globally competitive. Because of the statewide public benefit to be gained from increasing the availability of innovation and modernization services, it is the intent of the legislature to create a new mechanism in a manner that reduces the up-front costs of these services for small and midsize manufacturing firms. It is further the intent of the legislature that Washington state increase its support for the federal manufacturing extension partnership program, to expand the delivery of innovation and modernization services to small and midsize Washington manufacturers, and to leverage federal funding and private resources devoted to such efforts.

The successful implementation of innovation and modernization services will enable a manufacturing firm to reduce costs, increase sales, become more profitable, and ultimately expand job opportunities for Washington citizens. Such growth will result in increased revenue from the state business and occupation taxes paid by manufacturers who have engaged in innovation and modernization services. [2008 c 315 § 1.]

43.340.005 Purpose—Construction. The legislature declares it to be the public policy of the state and a recognized governmental function to assist in securitizing the revenue stream from the master settlement agreement between the state and tobacco product manufacturers in order to provide a current and reliable source of revenue for the state. The purpose of this chapter is to establish a tobacco settlement authority having the power to purchase certain rights of the state under the master settlement agreement and to issue non-recourse revenue bonds to pay outstanding obligations of the state in order to make funds available for increased costs of health care, long-term care, and other programs of the state. This chapter, being necessary for the welfare of the state and its inhabitants, shall be liberally construed to effect the purposes thereof. [2002 c 365 § 1.]

   (1) Establish a stable source of revenue to be used for the purposes designated in this chapter;

(1) The authority may issue its bonds in principal amounts which, in the opinion of the authority, are necessary to provide sufficient funds for achievement of its purposes, the payment of debt service on its bonds, the establishment of reserves to secure the bonds, the costs of issuance of its bonds and credit enhancements, if any, and all other expenditures of the authority incident to and necessary to carry out its purposes or powers. The authority may also issue refunding bonds, including advance refunding bonds, for the purpose of refunding previously issued bonds, and may issue other types of bonds, debt obligations, and financing arrangements necessary to fulfill its purposes or the purposes of this chapter. The bonds are investment securities and negotiable instruments within the meaning of and for the purposes of the uniform commercial code.

Execution of the bonds may be by manual or facsimile signature, provided that at least one signature on the bond is manual.
   (3) The bonds of the authority shall be subject to such terms, conditions, covenants, and protective provisions as are found necessary or desirable by the authority, including, but not limited to, pledges of the authority’s assets, setting aside of reserves, and other provisions the authority finds are necessary or desirable for the security of bondholders.
   (4) Any revenue pledged by the authority to be received under the sales agreement or in special funds created by the authority shall be valid and binding at the time the pledge is made. Receipts so pledged and then or thereafter received by the authority and any securities in which such receipts may be invested shall immediately be subject to the lien of such pledge without any physical delivery thereof or further act. The lien of any such pledge shall be valid and binding as against all parties having claims of any kind against the authority, whether such parties have notice of the lien. Notwithstanding any other provision to the contrary, the resolution or indenture of the authority or any other instrument by which a pledge is created need not be recorded or filed pursuant to chapter 62A.9A RCW to perfect such pledge. The authority shall constitute a governmental unit within the meaning of RCW 62A.9A-102(a)(45).
(5) When issuing bonds, the authority may provide for the future issuance of additional bonds or parity debt on a parity with outstanding bonds, and the terms and conditions of their issuance. The authority may issue refunding bonds in accordance with chapter 39.53 RCW or issue bonds with a subordinated lien against the fund or funds securing outstanding bonds.

(6) The board and any person executing the bonds are not liable personally on the indebtedness or subject to any personal liability or accountability by reason of the issuance thereof.

(7) The authority may, out of any fund available therefor, purchase its bonds in the open market. [2002 c 365 § 8.]

43.340.060 Bonds—Obligations of authority—Not obligations of state. (1) Bonds issued under this chapter shall be issued in the name of the authority. The bonds shall not be obligations of the state of Washington and shall be obligations only of the authority, payable solely from the special fund or funds created by the authority for their payment.

(2) Bonds issued under this chapter shall contain a recital on their face to the effect that payment of the principal of, interest on, and prepayment premium, if any, on the bonds shall be a valid claim only as against the special fund or funds relating thereto, that neither the faith and credit nor the taxing power of the state or any municipal corporation, subdivision, or agency of the state, other than the authority as set forth in this chapter, is pledged to the payment of the principal of, interest on, and prepayment premium, if any, on the bonds.

(3) Contracts entered into by the authority shall be entered into in the name of the authority and not in the name of the state of Washington. The obligations of the authority under the contracts shall be obligations only of the authority and are not in any way obligations of the state of Washington. [2002 c 365 § 4.]

43.340.070 Bonds—Legal investments. Bonds issued under this chapter are hereby made securities in which all insurance companies, trust companies in their commercial departments, savings banks, cooperative banks, banking associations, investment companies, executors, trustees and other fiduciaries, and all other persons whatsoever who are now or may hereafter be authorized to invest in obligations of the state may properly and legally invest funds, including capital in their control or belonging to them. [2002 c 365 § 9.]

43.340.080 Sale of rights in master settlement agreement. (1) The governor is authorized to sell and assign to the authority all of the state’s right to receive a portion of the state’s annual share of the revenue derived from the master settlement agreement for litigation brought by the state against tobacco product manufacturers. The portion of the state’s share sold and assigned shall be determined by the governor in an amount necessary to generate net proceeds to the state for deposit to the tobacco securitization trust account under RCW 43.340.120 up to four hundred fifty million dollars. The attorney general shall assist the governor in the review of all necessary documentation to effect the sale. The governor and the authority are authorized to take any action necessary to facilitate and complete the sale.

(2) The sale made under this section is irrevocable so long as bonds issued under this chapter remain outstanding. The portion of the revenue sold to the authority shall be pledged to the bondholders. The sale and assignment shall constitute and be treated as a true sale and absolute transfer of the revenue so transferred and not as a pledge or other security interest granted by the state for any borrowing. The characterization of such a sale as an absolute transfer shall not be negatived or adversely affected by the fact that only a portion of the revenue from the master settlement agreement is being sold and assigned, or by the state’s acquisition or retention of an ownership interest in the portion of the revenue from the master settlement agreement not so assigned.

(3) In addition to such other terms, provisions, and conditions as the governor and the authority may determine appropriate for inclusion in the sale agreements, the sale agreements shall contain (a) a covenant of the state that the state will not agree to any amendment of the master settlement agreement that materially and adversely affects the authority’s ability to receive the portion of the state’s share of master settlement agreement payments that have been sold to the authority; (b) a requirement that the state enforce, at its own expense, the provisions of the master settlement agreement that require the payment of the portion of the state’s share of master settlement agreement payments that have been sold to the authority; and (c) a covenant that the state shall take no action that would adversely affect the tax-exempt status of any tax-exempt bonds of the authority.

(4) On or after the effective date of the sale, the state shall not have any right, title, or interest in the portion of the state’s share of the master settlement agreement revenue sold and such portion shall be the property of the authority and not the state, and shall be owned, received, held, and disbursed by the authority or its trustee or assignee, and not the state.

(5) The terms of the state’s sale to the authority of a portion of the master settlement agreement revenue shall provide that the portion shall be paid directly to the authority or its trustee or assignee. The revenue sold and assigned shall not be received in the treasury of the state and shall not be or deemed to be general state revenues as that term is used in Article VIII, section 1 of the state Constitution. [2002 c 365 § 7.]

43.340.090 Limitation of liability. Members of the board and persons acting in the authority’s behalf, while acting within the scope of their employment or agency, are not subject to personal liability resulting from carrying out the powers and duties conferred on them under this chapter. [2002 c 365 § 10.]

43.340.100 Bankruptcy—Contractual obligation to contain section. Prior to the date that is three hundred sixty-six days after which the authority no longer has any bonds outstanding, the authority is prohibited from filing a voluntary petition under chapter 9 of the federal bankruptcy code or such corresponding chapter or section as may, from time to time, be in effect, and a public official or organization, entity, or other person shall not authorize the authority
to be or become a debtor under chapter 9 or any successor or corresponding chapter or sections during such periods. This section shall be part of any contractual obligation owed to the holders of bonds issued under this chapter. Any such contractual obligation shall not subsequently be modified by state law during the period of the contractual obligation. [2002 c 365 § 11.]

43.340.110 Dissolution of authority. The authority shall dissolve no later than two years from the date of final payment of all of its outstanding bonds and the satisfaction of all outstanding obligations of the authority, except to the extent necessary to remain in existence to fulfill any outstanding covenants or provisions with bondholders or third parties made in accordance with this chapter. Upon dissolution of the authority, all assets of the authority shall be returned to the state and shall be deposited in the state general fund, and the authority shall execute any necessary assignments or instruments, including any assignment of any right, title, or ownership to the state for receipt of payments under the master settlement agreement. [2002 c 365 § 12.]

43.340.120 Tobacco securitization trust account. The state treasurer shall deposit the proceeds of the sale of revenue under this chapter into the tobacco securitization trust account hereby created and held in the custody of the state treasurer. Moneys in the tobacco securitization trust account shall be subject to such appropriations and transfers as may be provided by law and shall be used for capital expenditures, debt service on outstanding bonds of the state, or for other purposes as permitted by law. The sales agreement under this chapter shall provide for the state to allocate the use of proceeds of the bonds issued by the authority to enable interest on all or a portion of the bonds to be excluded from income for federal tax law purposes. [2002 c 365 § 13.]

43.340.130 Appeals bonds—Amounts. (1) Except as provided in subsection (2) of this section, in order to secure and protect the moneys to be received as a result of the master settlement agreement in civil litigation under any legal theory involving a signatory, a successor of a signatory, or any affiliate of a signatory to the master settlement agreement, the supersedeas bond to be furnished in order to stay the execution of the judgment during the entire course of appellate review shall be in accordance with applicable laws or court rules, except that the total bond that is required of all appellants collectively shall not exceed one hundred million dollars, regardless of the value of the judgment.

(2) If an appellee proves by a preponderance of the evidence that an appellant is dissipating assets outside the ordinary course of business to avoid the payment of a judgment, a court may require the appellant to post a bond in an amount up to the amount of the judgment. [2006 c 246 § 2.]

Findings—Intent—2006 c 246: *(1) The legislature finds that:
(a) Over the past five years, Washington has received more than seven hundred million dollars from the tobacco master settlement agreement;
(b) While the state has securitized a portion of the moneys it was promised under the master settlement agreement, the remainder of the master settlement agreement payments is used to fund important health programs such as the state’s basic health plan, children’s health insurance, childhood vaccines, and public health;
(c) Litigation now pending in the state or filed in the future could result in damage awards against master settlement agreement signatories or their successors or affiliates that are so large that the defendants could obtain a stay of the execution of the judgment while they appeal only by declaring bankruptcy, rather than posting an appeal bond under state law;
(d) Should a master settlement agreement signatory declare bankruptcy, issues might be raised about whether that disrupts or jeopardizes the payments that fund important state programs;
(e) The legislature has the substantive obligation to raise revenue and to protect the financial well-being of the state and its citizens. Pursuant to that obligation, it is the legislature’s responsibility to ensure the continued receipt of master settlement agreement funds to the maximum extent possible.

(2) Therefore, the legislature intends to place a maximum limit on the appeal bond a master settlement agreement signatory or a successor or affiliate of a master settlement agreement signatory can be required to post in litigation in order to stay execution of the judgment without being forced into bankruptcy while it exercises its right to appeal an adverse judgment.” [2006 c 246 § 1.]

Application—2006 c 246: "This act applies to all actions pending on or filed on or after June 7, 2006.” [2006 c 246 § 3.]

43.340.900 Captions not law—2002 c 365. Captions used in this act are not any part of the law. [2002 c 365 § 16.]

43.340.901 Severability—2002 c 365. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected. [2002 c 365 § 18.]

43.340.902 Effective date—2002 c 365. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately [April 4, 2002]. [2002 c 365 § 19.]

Chapter 43.350 RCW
LIFE SCIENCES RESEARCH

Sections

43.350.005 Findings—Purpose—Intent. The legislature declares that promoting the health of state residents is a fundamental purpose of state government. The legislature declares it to be a clear public purpose and governmental function to promote life sciences research to foster a preventive and predictive vision of the next generation of health-related innovations, to enhance the competitive position of Washington state in this vital sector of the economy, and to improve the quality and delivery of health care for the people of Washington. The legislature finds that public support for and promotion of life sciences research will benefit the state and its residents through improved health status and health outcomes, economic development, and contributions to scientific knowledge, and such research will lead to break-
throughs and improvements that might not otherwise be discovered due to lack of existing market incentives, especially in the area of regenerative medicine. The legislature finds that public support for and promotion of life sciences research has the potential to provide cures or new treatments for many debilitating diseases that cost the state millions of dollars each year. It is appropriate and consistent with the intent of the master settlement agreement between the state and tobacco product manufacturers to invest a portion of the revenues derived therefrom by the state in life sciences research, to leverage the revenues with other funds, and to encourage cooperation and innovation among public and private institutions involved in life sciences research. The purpose of this chapter is to establish a life sciences discovery fund authority, to grant that authority the power to contract with the state to receive revenues under the master settlement agreement, and to contract with other entities to receive other funds, and to disburse those funds consistent with the purpose of this chapter. The life sciences discovery fund is intended to promote the best available research in life sciences disciplines through diverse Washington institutions and to build upon existing strengths in the area of biosciences and biomanufacturing in order to spread the economic benefits across the state. The life sciences discovery fund is also intended to foster improved health care outcomes and improved agricultural production research across this state and the world. The research investments of the life sciences discovery fund are intended to further the goals of the "Bio 21" report and to support future statewide, comprehensive strategies to lead the nation in life sciences-related research and employment. [2005 c 424 § 1.]

Tax incentives for Washington main street program: Chapter 82.73 RCW.

43.360.005 Findings—Intent. (1) The legislature finds:
(a) The continued economic vitality of downtown and neighborhood commercial districts in our state’s cities is essential to community preservation, social cohesion, and economic growth;
(b) In recent years there has been a deterioration of downtown and neighborhood commercial districts in both rural and urban communities due to a shifting population base, changes in the marketplace, and greater competition from suburban shopping malls, discount centers, and business transacted through the internet;
(c) This decline has eroded the ability of businesses and property owners to renovate and enhance their commercial and residential properties; and
(d) Business owners in these districts need to maintain their local economies in order to provide goods and services to adjacent residents, to provide employment opportunities, to avoid disinvestment and economic dislocations, and to develop and sustain downtown and neighborhood commercial district revitalization programs to address these problems.
(2) It is the intent of the legislature to establish a program to:
(a) Work in partnership with these organizations;
(b) Provide technical assistance and training to local governments, business organizations, downtown and neighborhood commercial district organizations, and business and property owners to accomplish community and economic revitalization and development of business districts; and
(c) Certify a downtown or neighborhood commercial district organization’s use of available tax incentives. [2005 c 514 § 901.]

43.360.010 Definitions. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.
(1) "Area" means a geographic area within a local government that is described by a closed perimeter boundary.
(2) "Department" means the department of archaeology and historic preservation.
(3) "Director" means the director of the department.
(4) "Local government" means a city, code city, or town.
(5) "Qualified levels of participation" means a local downtown or neighborhood commercial district revitalization program that has been designated by the department. [2010 c 30 § 3; 2009 c 565 § 44; 2005 c 514 § 908.]

Finding—2010 c 30: "Many of Washington’s communities use the main street program to address issues facing their older traditional commercial districts. The main street program is a preservation-based economic development program that assists communities in implementing a locally driven downtown revitalization effort. However, the main street program is broader than merely preserving a community’s downtown, it is the revitalization of that community’s downtown. Downtown revitalization creates jobs and puts people to work. Downtown revitalization attracts new businesses and offers local investment opportunities. New and expanding downtown businesses generate increased sales tax and attract export dollars to the community. Therefore, the legislature finds that the movement of the main street program from the department of commerce to the department of archaeology and historic preservation is designed to provide for both the preservation of a community’s downtown and economic development for that community." 43.360.020 Program created—Duties. The Washington main street program is created within the department. In order to implement the Washington main street program, the department shall:
(1) Provide technical assistance to businesses, property owners, organizations, and local governments undertaking a comprehensive downtown or neighborhood commercial district revitalization initiative and management strategy. Technical assistance may include, but is not limited to, initial site evaluations and assessments, training for local programs, training for local program staff, site visits and assessments by technical specialists, local program design assistance and evaluation, and continued local program on-site assistance;
(2) To the extent funds are made available, provide financial assistance to local governments or local organizations to assist in initial downtown or neighborhood commercial district revitalization program start-up costs, specialized training, specific project feasibility studies, market studies, and design assistance;
(3) Develop objective criteria for selecting recipients of assistance under subsections (1) and (2) of this section, which shall include priority for downtown or neighborhood commercial district revitalization programs located in a rural county as defined in *RCW 43.160.020(12), and provide for designation of local programs under RCW 43.360.030;
(4) Operate the Washington main street program in accordance with the plan developed by the department, in
consultation with the Washington main street advisory committee created under \*\*RCW 43.360.040; and

(5) Consider other factors the department deems necessary for the implementation of this chapter. [2005 c 514 § 909.]

Reviser’s note: *(1) RCW 43.160.020 was amended by 2009 c 565 § 35, changing subsection (12) to subsection (5). *(2) RCW 43.360.040 was repealed by 2010 1st sp.s. c 7 § 68.

43.360.030 Designation of specific programs—Criteria. (1) The department shall adopt criteria for the designation of local downtown or neighborhood commercial district revitalization programs and official local main street programs. In establishing the criteria, the department shall consider:

(a) The degree of interest and commitment to comprehensive downtown or neighborhood commercial district revitalization and, where applicable, historic preservation by both the public and private sectors;

(b) The evidence of potential private sector investment in the downtown or neighborhood commercial district;

(c) Where applicable, a downtown or neighborhood commercial district with sufficient historic fabric to become a foundation for an enhanced community image;

(d) The capacity of the organization to undertake a comprehensive program and the financial commitment to implement a long-term downtown or neighborhood commercial district revitalization program that includes a commitment to employ a professional program manager and maintain a sufficient operating budget;

(e) The department’s existing downtown revitalization program’s tier system;

(f) The national main street center’s criteria for designating official main street cities; and

(g) Other factors the department deems necessary for the designation of a local program.

(2) The department shall designate local downtown or neighborhood commercial district revitalization programs and official local main street programs. The programs shall be limited to three categories of designation, one of which shall be the main street level.

(3) \*\*RCW 82.73.010 does not apply to any local downtown or neighborhood commercial district revitalization program unless the boundaries of the program have been identified and approved by the department. The boundaries of a local downtown or neighborhood commercial district commercial district revitalization program are typically defined using the pedestrian core of a traditional commercial district.

(4) The department may not designate a local downtown or neighborhood commercial district revitalization program or official local main street program if the program is undertaken by a local government with a population of one hundred ninety thousand persons or more. [2005 c 514 § 910.]

REGIONAL TRANSFER OF DEVELOPMENT RIGHTS PROGRAM

43.362.005 Findings. (1) The legislature finds that current concern over the rapid and increasing loss of rural, agricultural, and forested land has led to the exploration of creative approaches to preserving these important lands, and that the creation of a regional transfer of development rights marketplace will assist in conserving these lands.

(2) A transfer of development rights is a market-based exchange mechanism that encourages the voluntary transfer of development rights from sending areas with lower population densities to receiving areas with higher population densities. When development rights are transferred through a transfer of development rights exchange, permanent deed restrictions are placed on the sending area properties to ensure that the land will be used only for approved activities, activities that may include farming, forest management, conservation, or passive recreation. Additionally, in a transfer of development rights exchange, the costs of purchasing the recorded development restrictions are borne by the developers who receive the transferred right in the form of a building credit or bonus.

(3) The legislature further finds that a successful transfer of development rights program must consider housing affordable to all economic segments of the population, and economic development programs and policies in designated receiving areas. Counties, cities, and towns that decide to
participate in the regional transfer of development rights program for central Puget Sound are encouraged to adopt comprehensive plan policies and development regulations to implement the program that do not compete or conflict with comprehensive plan policies and development regulations that require or encourage affordable housing. Participating cities and towns are also encouraged to use the development of receiving areas to maximize opportunities for economic development that supports the creation or retention of jobs.

(4) Participation in a regional transfer of development rights program by counties, cities, and towns should be as simple as possible.

(5) Accordingly, the legislature has determined that it is good public policy to build upon existing transfer of development rights programs, pilot projects, and private initiatives that foster effective use of transferred development rights through the creation of a market-based program that focuses on the central Puget Sound region. A regional transfer of development rights program in the central Puget Sound should be voluntary, incentive-driven, and separate, but compatible with existing local transfer of development rights programs. [2009 c 474 § 1; 2007 c 482 § 1.]

43.362.010 Definitions. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "By-right permitting" means that project applications for permits that use transferable development rights would be subject to administrative review. Administrative review allows a local planning official to approve a project without notice public hearings.

(2) "Department" means the department of commerce.

(3) "Nongovernmental entities" includes nonprofit or membership organizations with experience or expertise in transferring development rights.

(4) "Receiving area ratio" means the number or character of development rights that are assigned to a development right for use in a receiving area. Development rights in a receiving area may be used at the discretion of the receiving area jurisdiction, including but not limited to additional residential density, additional building height, additional commercial floor area, or to meet regulatory requirements.

(5) "Receiving areas" are lands within and designated by a city or town in which transferable development rights from the regional program established by this chapter may be used.

(6) "Regional transfer of development rights program" or "regional program" means the regional transfer of development rights program established by RCW 43.362.010 in central Puget Sound, including King, Pierce, Kitsap, and Snohomish counties and the cities and towns within these counties.

(7) "Sending area" includes those lands that meet conservation criteria as described in RCW 43.362.040.

(8) "Sending area ratio" means the number of development rights that a sending area landowner can sell per acre.

(9) "Transfer of development rights" includes methods for protecting land from development by voluntarily removing the development rights from a sending area and transferring them to a receiving area for the purpose of increasing development density or intensity in the receiving area.

(10) "Transferable development right" means a right to develop one or more residential units in a sending area that can be sold and transferred for use consistent with a receiving ratio adopted for development in a designated receiving area consistent with the regional program. [2009 c 565 § 45; 2009 c 474 § 2; 2007 c 482 § 2.]

Reviser's note: (1) The definitions in this section have been alphabetized pursuant to RCW 1.08.015(2)(k).

(2) This section was amended by 2009 c 474 § 2 and by 2009 c 565 § 45, each without reference to the other. Both amendments are incorporated in the publication of this section under RCW 1.12.025(2). For rule of construction, see RCW 1.12.025(1).

43.362.020 Regional transfer of development rights program. Subject to the availability of amounts appropriated for this specific purpose, the department shall fund a process to develop a regional transfer of development rights program that comports with chapter 36.70A RCW that:

(1) Encourages King, Kitsap, Pierce, and Snohomish counties, and the cities within these counties, to participate in the development and implementation of regional frameworks and mechanisms that make transfer of development rights programs viable and successful. The department shall encourage and embrace the efforts in any of these counties or cities to develop local transfer of development rights programs. In fulfilling the requirements of this chapter, the department shall work with the Puget Sound regional council and its growth management policy board to develop a process that satisfies the requirements of this chapter. In the development of a process to create a regional transfer of development rights program, the Puget Sound regional council and its growth management policy board shall develop policies to discourage, or prohibit if necessary, the transfer of development rights from a sending area that would negatively impact the future economic viability of the sending area. The department shall also work with an advisory committee to develop a regional transfer of development rights marketplace that includes, but is not limited to, supporting strategies for financing infrastructure and conservation. The department shall establish an advisory committee of nine stakeholders with representatives of the following interests:

(a) Two qualified nongovernmental organizations with expertise in the transfer of development rights. At least one organization must have a statewide expertise in growth management planning and in the transfer of development rights and at least one organization must have a local perspective on market-based conservation strategies and transfer of development rights;

(b) Two representatives from real estate and development;

(c) One representative with a county government perspective;

(d) Two representatives from cities of different sizes and geographic areas within the four-county region; and

(e) Two representatives of the agricultural industry; and

(2) Allows the department to utilize recommendations of the interested local governments, nongovernmental entities, and the Puget Sound regional council to develop recommendations and strategies for a regional transfer of development rights marketplace with supporting strategies for financing infrastructure and conservation that represents the consensus
Regional Transfer of Development Rights Program 43.362.040

of the governmental and nongovernmental parties engaged in the process. However, if agreement between the parties cannot be reached, the department shall make recommendations to the legislature that seek to balance the needs and interests of the interested governmental and nongovernmental parties. The department may contract for expertise to accomplish any of the following tasks. Recommendations developed under this subsection must:

(a) Identify opportunities for cities, counties, and the state to achieve significant benefits through using transfer of development rights programs and the value in modifying criteria by which capital budget funds are allocated, including but not limited to, existing state grant programs to provide incentives for local governments to implement transfer of development rights programs;

(b) Address challenges to the creation of an efficient and transparent transfer of development rights market, including the creation of a transfer of development rights bank, brokerage, or direct buyer-seller exchange;

(c) Address issues of certainty to buyers and sellers of development rights that address long-term environmental benefits and perceived inequities in land values and permitting processes;

(d) Address the means for assuring that appropriate values are recognized and updated, as well as specifying addressing the need to maintain the quality of life in receiving neighborhoods and the protection of environmental values over time;

(e) Identify opportunities and challenges that, if resolved, would result in cities throughout the Puget Sound region participating in a transfer of development rights market;

(f) Compare the uses of a regional transfer of development rights program to other existing land conservation strategies to protect rural and resource lands and implement the growth management act; and

(g) Identify appropriate sending areas so as to protect future growth and economic development needs of the sending areas. [2007 c 482 § 3.]

43.362.040 Designation of sending and receiving areas—Inclusion of certain lands in programs for agricultural or forest land conservation. (1) Counties shall use the following criteria to guide the designation of sending areas for participation in the regional transfer of development rights program:

(2) The purpose of the program is to foster voluntary county, city, and town participation in the program so that interjurisdictional transfers occur between the counties, cities, and towns, including transfers from counties to cities and towns in other counties. Private transactions between buyers and sellers of transferable development rights are allowed and encouraged under this program. In fulfilling the requirements of this chapter, the department shall work with the Puget Sound regional council to implement a regional program.

(3) The department shall encourage participation by the cities, towns, and counties in the regional program. The regional program shall not be implemented in a manner that negatively impacts existing local programs. The department shall encourage and work to enhance the efforts in any of these counties, cities, or towns to develop local transfer of development rights programs or enhance existing programs.

Regional Transfer of Development Rights Program 43.362.030 Program established in central Puget Sound.

(1) Subject to the availability of funds appropriated for this specific purpose or another source of funding made available for this specific purpose, the department shall establish a regional transfer of development rights program in central Puget Sound, including King, Kitsap, Snohomish, and Pierce counties and the cities and towns within these counties. The program must be guided by the Puget Sound regional council’s multicounty planning policies adopted under RCW 36.70A.210(7).

(2) The purpose of the program is to foster voluntary county, city, and town participation in the program so that interjurisdictional transfers occur between the counties, cities, and towns, including transfers from counties to cities and towns in other counties. Private transactions between buyers and sellers of transferable development rights are allowed and encouraged under this program. In fulfilling the requirements of this chapter, the department shall work with the Puget Sound regional council to implement a regional program.

The department shall encourage and work to enhance the efforts in any of these counties, cities, or towns to develop local transfer of development rights programs or enhance existing programs.

(4) Subject to the availability of funds appropriated for this specific purpose or another source of funding made available for this specific purpose, the department shall do the following to implement a regional transfer of development rights program in central Puget Sound:

(b) Offer technical assistance to cities, towns, and counties planning for participation in the regional transfer of development rights program. The department’s technical assistance shall:

(i) Include written guidance for local development and implementation of the regional transfer of development rights program;

(ii) Include guidance for and encourage permitting or environmental review incentives for developers to participate. Activities may include, but are not limited to, provision for by-right permitting, substantial environmental review of a subarea plan for the receiving area that includes the use of transferable development rights, adoption of a categorical exemption for infill under RCW 43.21C.229 for a receiving area, or adoption of a planned action under RCW 43.21C.240;

(iii) Provide guidance to counties, cities, and towns to negotiate receiving area ratios and foster private transactions;

(1) Counties shall use the following criteria to guide the designation of sending areas for participation in the regional transfer of development rights program:
43.362.050 Interlocal agreement for transfers of development rights—Rules. (1) To facilitate participation, the department shall develop and adopt by rule terms and conditions of an interlocal agreement for transfers of development rights between counties, cities, and towns. Counties, cities, and towns participating in the regional program have the option of adopting the rule by reference to transfer development rights across jurisdictional boundaries as an alternative to entering into an interlocal agreement under chapter 39.34 RCW.

(2) This section and the rules adopted under this section shall be deemed to provide an alternative method for the implementation of a regional transfer of development rights program, and shall not be construed as imposing any additional condition upon the exercise of any other powers vested in municipalities.

(3) Nothing in this section prohibits a county, city, or town from entering into an interlocal agreement under chapter 39.34 RCW to transfer development rights under the regional program. [2009 c 474 § 5.]

43.362.060 Participation in regional transfer of development rights program—Requirements—Incentives for developers. (1) Counties, cities, and towns that choose to participate in the regional transfer of development rights program must:

[2009 c 474 § 6.]

43.362.070 Quantitative and qualitative performance measures—Reporting—Posting on web site. The department will develop quantitative and qualitative performance measures for monitoring the regional transfer of development rights program. The performance measures may address conservation of land and creation of compact communities, as well as other measures identified by the department. The department may require cities, towns, and counties to report on these performance measures biannually. The department shall compile any performance measure information that has been reported by the counties, cities, and towns and post it on a web site. [2009 c 474 § 7.]

MOTION PICTURE COMPETITIVENESS PROGRAM

43.365.005 Findings—Intent. The legislature recognizes the motion picture industry in Washington as a valuable commodity contributing greatly to the economic vitality of the state and the cultural integrity of our communities. The legislature further recognizes the production of in-state motion pictures, television programs, and television commercials creates a marked increase in tourism, family wage jobs, and the sale of local goods and services generating revenue for the state. Furthermore, with captive national and international audiences, the world is introduced to the state’s pristine scenic venues and reminded that the Pacific Northwest is a...
great place to live and raise a family. The legislature also recognizes the inherent educational value of promoting arts and culture as well as the benefits of training young motion picture professionals who will build a fruitful industry for years to come.

The legislature finds in recent years that the state has realized a drastic decline in motion picture production that precludes economic expansion and threatens the state’s reputation as a production destination. With the emergence of tax incentives in thirty states nationwide, in-state producers are taking their projects to more competitive economic climates, such as Oregon and Vancouver, British Columbia, where compelling tax incentive packages and subsidies are already in effect.

The legislature also finds that in recent years increasingly workers in Washington state are without health insurance coverage and retirement income protections, causing hardships on workers and their families and higher costs to the state.

Therefore, it is the intent of the legislature to recognize both national and international competition in the motion picture production marketplace. The legislature is committed to leveling the competitive playing field and interested in a partnership with the private sector to regain Washington’s place as a premier destination to make motion pictures, television, and television commercials. While at the same time the legislature is committed to ensuring that workers in the motion picture and television industry are covered under health insurance and retirement income plans. [2006 c 247 § 1.]

(6) The department shall use the information from this section to prepare summary descriptive statistics. The department shall report these statistics to the legislature each even-numbered year by September 1st. The department shall provide the complete annual surveys to the joint legislative...
43.370.030 Development of strategy—Goals and principles—Reports—Public hearings.

(1) The office shall develop a statewide health resources strategy. The strategy shall establish statewide health planning policies and goals related to the availability of health care facilities and services, quality of care, and cost of care. The strategy shall identify needs according to geographic regions suitable for comprehensive health planning as designated by the office.

(2) The development of the strategy shall consider the following general goals and principles:

(a) That excess capacity of health services and facilities place considerable economic burden on the public who pay for the construction and operation of these facilities as patients, health insurance purchasers, carriers, and taxpayers;

(b) That the development and ongoing maintenance of current and accurate health care information and statistics related to cost and quality of health care, as well as projections of need for health facilities and services, are essential to effective strategic health planning.

(3) The strategy, with public input by health service areas, shall include:
(a) A health system assessment and objectives component that:
   (i) Describes state and regional population demographics, health status indicators, and trends in health status and health care needs; and
   (ii) Identifies key policy objectives for the state health system related to access to care, health outcomes, quality, and cost-effectiveness;
(b) A health care facilities and services plan that shall assess the demand for health care facilities and services to inform state health planning efforts and direct certificate of need determinations, for those facilities and services subject to certificate of need as provided in chapter 70.38 RCW. The plan shall include:
   (i) An inventory of each geographic region’s existing health care facilities and services;
   (ii) Projections of need for each category of health care facility and service, including those subject to certificate of need;
   (iii) Policies to guide the addition of new or expanded health care facilities and services to promote the use of quality, evidence-based, cost-effective health care delivery options, including any recommendations for criteria, standards, and methods relevant to the certificate of need review process; and
   (iv) An assessment of the availability of health care providers, public health resources, transportation infrastructure, and other considerations necessary to support the needed health care facilities and services in each region;
(c) A health care data resource plan that identifies data elements necessary to properly conduct planning activities and to review certificate of need applications, including data related to inpatient and outpatient utilization and outcomes information, and financial and utilization information related to charity care, quality, and cost. The plan shall inventory existing data resources, both public and private, that store and disclose information necessary to the health planning process, including information necessary to conduct certificate of need activities pursuant to chapter 70.38 RCW. The plan shall identify any deficiencies in the inventory of existing data resources and the data necessary to conduct comprehensive health planning activities. The plan may recommend that the office be authorized to access existing data sources and conduct appropriate analyses of such data or that other agencies expand their data collection activities as statutory authority permits. The plan may identify any computing infrastructure deficiencies that impede the proper storage, transmission, and analysis of health planning data. The plan shall provide recommendations for increasing the availability of data related to health planning to provide greater community involvement in the health planning process and consistency in data used for certificate of need applications and determinations;
   (d) An assessment of emerging trends in health care delivery and technology as they relate to access to health care facilities and services, quality of care, and costs of care. The assessment shall recommend any changes to criteria used by the department to review certificate of need applications, as necessary;
   (e) A rural health resource plan to assess the availability of health resources in rural areas of the state, assess the unmet needs of these communities, and evaluate how federal and state reimbursement policies can be modified, if necessary, to more efficiently and effectively meet the health care needs of rural communities. The plan shall consider the unique health care needs of rural communities, the adequacy of the rural health workforce, and transportation needs for accessing appropriate care.

(4) The office shall submit the initial strategy to the governor and the appropriate committees of the senate and house of representatives by January 1, 2010. Every two years the office shall submit an updated strategy. The health care facilities and services plan as it pertains to a distinct geographic planning region may be updated by individual categories on a rotating, biannual schedule.

(5) The office shall hold at least one public hearing and allow opportunity to submit written comments prior to the issuance of the initial strategy or an updated strategy. A public hearing shall be held prior to issuing a draft of an updated health care facilities and services plan, and another public hearing shall be held before final adoption of an updated health care facilities and services plan. Any hearing related to updating a health care facilities and services plan for a specific planning region shall be held in that region with sufficient notice to the public and an opportunity to comment.

**43.370.040 Department of health—Certificate of need review program.** The office shall submit the strategy to the department of health to direct its activities related to the certificate of need review program under chapter 70.38 RCW. As the health care facilities and services plan is updated for any specific geographic planning region, the office shall submit that plan to the department of health to direct its activities related to the certificate of need review program under chapter 70.38 RCW. The office shall not issue determinations of the merits of specific project proposals submitted by applicants for certificates of need.

[2007 c 259 § 53.]

**43.370.050 Requests for data and other information.**

(1) The office may respond to requests for data and other information from its computerized system for special studies and analysis consistent with requirements for confidentiality of patient, provider, and facility-specific records. The office may require requestors to pay any or all of the reasonable costs associated with such requests that might be approved.

(2) Data elements related to the identification of individual patient’s, provider’s, and facility’s care outcomes are confidential, are exempt from RCW 42.56.030 through 42.56.570 and *42.17.350 through 42.17.450, and are not subject to discovery by subpoena or admissible as evidence.

43.372.005 Findings—Purpose. (1) The legislature finds that:
(a) Native American tribes have depended on the state’s marine waters and its resources for countless generations and continue to do so for cultural, spiritual, economic, and subsistence purposes.
(b) The state has long demonstrated a strong commitment to protecting the state’s marine waters, which are abundant in natural resources, contain a treasure of biological diversity, and are a source of multiple uses by the public supporting the economies of nearby communities as well as the entire state. These multiple uses include, but are not limited to: Marine-based industries and activities such as cargo, fuel, and passenger transportation; commercial, recreational, and tribal fishing; shellfish aquaculture; telecommunications and energy infrastructure; seafood processing; tourism; scientific research; and many related goods and services. These multiple uses as well as new emerging uses, such as renewable ocean energy, constitute a management challenge for sustaining resources and coordinating state decision making in a proactive, comprehensive and ecosystem-based manner.
(c) Washington’s marine waters are part of a west coast-wide large marine ecosystem known as the California current, and the Puget Sound and Columbia river estuaries constitute two of the three largest estuaries that are part of this large marine ecosystem. Puget Sound and the Columbia river estuaries are estuaries of national significance under the national estuaries program, and the outer coast includes the Olympic national marine sanctuary.
(d) Washington is working in cooperation with the states of Oregon and California and federal agencies on ocean and ocean health management issues through the west coast governors’ agreement on ocean health, and with the government of British Columbia on shared waters management issues through the British Columbia-Washington coastal and ocean task force.
(e) Washington has initiated comprehensive management programs to protect and promote compatible uses of these waters. These include: The development of a comprehensive ecosystem-based management plan known as the Puget Sound action agenda; shoreline plans for shorelines around the state; management plans for state-owned aquatic lands and their associated waters statewide; and watershed and salmon recovery management plans in the upland areas of Puget Sound, the coast, and the Columbia river. Data and data management tools have also been developed to support these management and planning activities, such as the coastal atlas managed by the department of ecology and the shoreline database managed by the department of natural resources.
(f) For marine waters specifically, Washington has formed several mechanisms to improve coordination and management. A legislatively authorized task force formed by the governor identified priority recommendations for improving state management of ocean resources through Washington’s ocean action plan in 2006. The governor further formed an ongoing interagency team that assists the department of ecology in implementing these recommendations. There is an extensive network of marine resources committees within Puget Sound and on the outer coast and the Columbia river to promote and support local involvement identifying and conducting local priority marine projects and some have been involved in local planning and management. Through the Olympic coast intergovernmental policy council, the state has also formalized its working relationship with coastal tribes and the federal government in the management of the Olympic coast national marine sanctuary.
(g) Reports by the United States commission on oceans policy, the Pew oceans commission, and the joint oceans commission initiative recommend the adoption of a national ocean policy under which states and coastal communities would have a principal role in developing and implementing ecosystem-based management of marine waters. Acting on these recommendations, the president of the United States recently formed an interagency ocean policy task force charged with developing a national ocean policy and a framework for marine spatial planning that involves all governmental levels, including state, tribal, and local governments. To further develop and implement such a planning framework, it is anticipated that federal cooperation and support will be available to coastal states that are engaged in marine and coastal resource management and planning, including marine spatial planning.
(2) The purpose of this chapter is to build upon existing statewide Puget Sound, coastal, and Columbia river efforts. When resources become available, the state intends to augment the marine spatial component of existing plans and to improve the coordination among state agencies in the development and implementation of marine management plans.
(3) It is also the purpose of this chapter to establish policies to guide state agencies and local governments when exercising jurisdiction over proposed uses and activities in these waters. Specifically, in conducting marine spatial planning, and in augmenting existing marine management plans with marine spatial planning components, the state must:
(a) Continue to recognize the rights of native American tribes regarding marine natural resources;
(b) Base all planning on best available science. This includes identifying gaps in existing information, recommend a strategy for acquiring science needed to strengthen
marine spatial plans, and create a process to adjust plans once additional scientific information is available;

(c) Coordinate with all stakeholders, including marine resources committees and nongovernmental organizations, that are significantly involved in the collection of scientific information, ecosystem protection and restoration, or other activities related to marine spatial planning;

(d) Recognize that marine ecosystems span tribal, state, and international boundaries and that planning has to be coordinated with all entities with jurisdiction or authority in order to be effective;

(e) Establish or further promote an ecosystem-based management approach including linking marine spatial plans to adjacent nearshore and upland spatial or ecosystem-based plans;

(f) Ensure that all marine spatial plans are linked to measurable environmental outcomes;

(g) Establish a performance management system to monitor implementation of any new marine spatial plan;

(h) Establish an ocean stewardship policy that takes into account the existing natural, social, cultural, historic, and economic uses;

(i) Recognize that commercial, tribal, and recreational fisheries, and shellfish aquaculture are an integral part of our state’s culture and contribute substantial economic benefits;

(j) Value biodiversity and ecosystem health, and protect special, sensitive, or unique estuarine and marine life and habitats, including important spawning, rearing, and migration areas for finfish, marine mammals, and productive shellfish habitats;

(k) Integrate this planning with existing plans and ongoing planning in the same marine waters and provide additional mechanisms for improving coordination and aligning management;

(l) Promote recovery of listed species under state and federal endangered species acts plans pursuant to those plans; and

(m) Fulfill the state’s public trust and tribal treaty trust responsibilities in managing the state’s ocean waters in a sustainable manner for current and future generations. [2010 c 145 § 1.]

43.372.010 Definitions. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Aquatic lands" includes all tidelands, shorelands, harbor areas, and the beds of navigable waters, and must be construed to be coextensive with the term "aquatic lands" as defined in RCW 79.105.060.

(2) "Exclusive economic zone waters" means marine waters from the offshore state boundary to the boundary of the exclusive economic zone, over which the United States government has primary jurisdiction.

(3) "Marine counties" includes Clallam, Jefferson, Grays Harbor, Wahkiakum, San Juan, Whatcom, Skagit, Island, Snohomish, King, Pierce, Thurston, Mason, Kitsap, and Pacific counties.

(4) "Marine ecosystem" means the physical, biological, and chemical components and processes and their interactions in marine waters and aquatic lands, including humans.

(5) "Marine interagency team" or "team" means the marine interagency team created under RCW 43.372.020.

(6) "Marine management plan" and "marine waters management plan" means any plan guiding activities on and uses of the state’s marine waters, and may include a marine spatial plan or element.

(7) "Marine resources committees" means those committees organized under RCW 36.125.020 or by counties within the Northwest straits marine conservation initiative.

(8) "Marine spatial planning" means a public process of analyzing and allocating the spatial and temporal distribution of human activities in marine areas to achieve ecological, economic, and social objectives. Often this type of planning is done to reduce conflicts among uses, to reduce environmental impacts, to facilitate compatible uses, to align management decisions, and to meet other objectives determined by the planning process.

(9) "Marine waters" means aquatic lands and waters under tidal influence, including saltwaters and estuaries to the ordinary high water mark lying within the boundaries of the state. This definition also includes the portion of the Columbia river bordering Pacific and Wahkiakum counties, Willapa Bay, Grays Harbor, the Strait of Juan de Fuca, and the entire Puget Sound. [2010 c 145 § 2.]

43.372.020 Marine interagency team. (1) The office of the governor shall chair a marine interagency team that is composed of representatives of each of the agencies in the governor's natural resources cabinet with management responsibilities for marine waters, including the independent agencies. A representative from a federal agency with lead responsibility for marine spatial planning must be invited to serve as a liaison to the team to help ensure consistency with federal actions and policy. The team must conduct the assessment authorized in section 4, chapter 145, Laws of 2010, assist state agencies under RCW 43.372.030 with the review and coordination of such planning with their existing and ongoing planning, and conduct the marine management planning authorized in RCW 43.372.040.

(2) The team may not commence any activities authorized under RCW 43.372.030 and 43.372.040 until federal, private, or other nonstate funding is secured specifically for these activities. [2010 c 145 § 3.]

43.372.030 Marine spatial data and marine spatial planning elements—Inclusion in planning—Joint plans and planning frameworks—Integration with comprehensive marine management plan. (1) Concurrently or prior to the assessment and planning activities provided in section 4, chapter 145, Laws of 2010 and RCW 43.372.040, and subject to available federal, private, or other nonstate funding for this purpose, all state agencies with marine waters planning and management responsibilities are authorized to include marine spatial data and marine spatial planning elements into their existing plans and ongoing planning.

(2) The director of the Puget Sound partnership under the direction of the leadership council created in RCW 90.71.220 must integrate marine spatial information and planning provisions into the action agenda. The information should be used to address gaps or improve the effectiveness of the spatial
planning component of the action agenda, such as in addressing potential new uses such as renewable energy projects.

(3) The governor and the commissioner of public lands, working with appropriate marine management and planning agencies, should work cooperatively with the applicable west coast states, Canadian provinces, and with federal agencies, through existing cooperative entities such as the west coast governor’s agreement on ocean health, the coastal and oceans task force, the Pacific coast collaborative, the Puget Sound federal caucus, and the United States and Canada cooperative agreement working group, to explore the benefits of developing joint marine spatial plans or planning frameworks in the shared waters of the Salish Sea, the Columbia river estuary, and in the exclusive economic zone waters. The governor and commissioner may approve the adoption of shared marine spatial plans or planning frameworks where they determine it would further policies of this chapter and chapter 43.143 RCW.

(4) On an ongoing basis, the director of the department of ecology shall work with other state agencies with marine management responsibilities, tribal governments, marine resources committees, local and federal agencies, and marine waters stakeholders to compile marine spatial information and to incorporate this information into ongoing plans. This work may be integrated with the comprehensive marine management plan authorized under RCW 43.372.040 when that planning process is initiated.

(5) All actions taken to implement this section must be consistent with RCW 43.372.060. [2010 c 145 § 5.]

43.372.040 Comprehensive marine management plan. (1) Upon the receipt of federal, private, or other non-state funding for this purpose, together with any required match of state funding that may be specifically provided for this purpose, the marine interagency team shall coordinate the development of a comprehensive marine management plan for the state’s marine waters. The marine management plan must include marine spatial planning, as well as recommendations to the appropriate federal agencies regarding the exclusive economic zone waters. The plan may be developed in geographic segments, and may incorporate or be developed as an element of existing marine plans, such as the Puget Sound action agenda. The chair of the team may designate a state agency with marine management responsibilities to take the lead in developing and recommending to the team particular segments or elements of the comprehensive marine management plan.

(2) The marine management plan must be developed and implemented in a manner that:

(a) Recognizes and respects existing uses and tribal treaty rights;

(b) Promotes protection and restoration of ecosystem processes to a level that will enable long-term sustainable production of ecosystem goods and services;

(c) Addresses potential impacts of climate change and sea level rise upon current and projected marine waters uses and shoreline and coastal impacts;

(d) Fosters and encourages sustainable uses that provide economic opportunity without significant adverse environmental impacts;

(e) Preserves and enhances public access;

(f) Protects and encourages working waterways and supports the infrastructure necessary to sustain marine industry, commercial shipping, shellfish aquaculture, and other water-dependent uses;

(g) Fosters public participation in decision making and significant involvement of communities adjacent to the state’s marine waters; and

(h) Integrates existing management plans and authorities and makes recommendations for aligning plans to the extent practicable.

(3) To ensure the effective stewardship of the state’s marine waters held in trust for the benefit of the people, the marine management plan must rely upon existing data and resources, but also identify data gaps and, as possible, procure missing data necessary for planning.

(4) The marine management plan must include but not be limited to:

(a) An ecosystem assessment that analyzes the health and status of Washington marine waters including key social, economic, and ecological characteristics and incorporates the best available scientific information, including relevant marine data. This assessment should seek to identify key threats to plan goals, analyze risk and management scenarios, and develop key ecosystem indicators. In addition, the plan should incorporate existing adaptive management strategies underway by local, state, or federal entities and provide an adaptive management element to incorporate new information and consider revisions to the plan based upon research, monitoring, and evaluation;

(b) Using and relying upon existing plans and processes and additional management measures to guide decisions among uses proposed for specific geographic areas of the state’s marine and estuarine waters consistent with applicable state laws and programs that control or address developments in the state’s marine waters;

(c) A series of maps that, at a minimum, summarize available data on: The key ecological aspects of the marine ecosystem, including physical and biological characteristics, as well as areas that are environmentally sensitive or contain unique or sensitive species or biological communities that must be conserved and warrant protective measures; human uses of marine waters, particularly areas with high value for fishing, shellfish aquaculture, recreation, and maritime commerce; and appropriate locations with high potential for renewable energy production with minimal potential for conflicts with other existing uses or sensitive environments;

(d) An element that sets forth the state’s recommendations to the federal government for use priorities and limitations, siting criteria, and protection of unique and sensitive biota and ocean floor features within the exclusive economic zone waters consistent with the policies and management criteria contained in this chapter and chapter 43.143 RCW;

(e) An implementation strategy describing how the plan’s management measures and other provisions will be considered and implemented through existing state and local authorities; and

(f) A framework for coordinating state agency and local government review of proposed renewable energy development uses requiring multiple permits and other approvals that provide for the timely review and action upon renewable energy development proposals while ensuring protection of
sensitive resources and minimizing impacts to other existing or projected uses in the area.

(5) If the director of the department of fish and wildlife determines that a fisheries management element is appropriate for inclusion in the marine management plan, this element may include the incorporation of existing management plans and procedures and standards for consideration in adopting and revising fisheries management plans in cooperation with the appropriate federal agencies and tribal governments.

(6) Any provision of the marine management plan that does not have as its primary purpose the management of commercial or recreational fishing but that has an impact on this fishing must minimize the negative impacts on the fishing. The team must accord substantial weight to recommendations from the director of the department of fish and wildlife for plan revisions to minimize the negative impacts.

(7) The marine management plan must recognize and value existing uses. All actions taken to implement this section must be consistent with RCW 43.372.060.

(8) The marine management plan must identify any provisions of existing management plans that are substantially inconsistent with the plan.

(9)(a) In developing the marine management plan, the team shall implement a strong public participation strategy that seeks input from throughout the state and particularly from communities adjacent to marine waters. Public review and comment must be sought and incorporated with regard to planning the scope of work as well as in regard to significant drafts of the plan and plan elements.

(b) The team must engage tribes and marine resources committees in its activities throughout the planning process. In particular, prior to finalizing the plan, the team must provide each tribe and marine resources committee with a draft of the plan and invite them to review and comment on the plan.

(10) The team must complete the plan within twenty-four months of the initiation of planning under this section.

(11) The director of the department of ecology shall submit the completed marine management plan to the appropriate federal agency for its review and approval for incorporation into the state’s federally approved coastal zone management program.

(12) Subsequent to the adoption of the marine management plan, the team may periodically review and adopt revisions to the plan to incorporate new information and to recognize and incorporate provisions in other marine management plans. The team must afford the public an opportunity to review and comment upon significant proposed revisions to the marine management plan. [2010 c 145 § 6.]

43.372.050 Marine management plans—Compliance—Consistency—Review—Report and recommendations. (1) Upon the adoption of the marine management plan under RCW 43.372.040, each state agency and local government must make decisions in a manner that ensures consistency with applicable legal authorities and conformance with the applicable provisions of the marine management plan to the greatest extent possible.

(2) The director of the department of ecology, in coordination with the team, shall periodically review existing management plans maintained by state agencies and local governments that cover the same marine waters as the marine management plan under RCW 43.372.040, and for any substantial inconsistency with the marine management plan the director shall make recommendations to the agency or to the local government for revisions to eliminate the inconsistency.

(3) Not later than four years following adoption of the marine management plan under RCW 43.372.040, the department of ecology, in coordination with the team, shall report to the appropriate marine waters committees in the senate and house of representatives describing provisions of existing management plans that are substantially inconsistent with the marine management plan under RCW 43.372.040, and making recommendations for eliminating the inconsistency.

(4) All actions taken to implement this section must be consistent with RCW 43.372.060. [2010 c 145 § 7.]

43.372.060 Authority limited. No authority is created under this chapter to affect in any way any project, use, or activity in the state’s marine waters existing prior to or during the development and review of the marine management plan. No authority is created under this chapter to supersede the current authority of any state agency or local government. [2010 c 145 § 8.]

43.372.070 Marine resources stewardship trust account. (1) The marine resources stewardship trust account is created in the state treasury. All receipts from income derived from the investment of amounts credited to the account, any grants, gifts, or donations to the state for the purposes of marine management planning, marine spatial planning, data compilation, research, or monitoring, and any appropriations made to the account must be deposited in the account. Moneys in the account may be spent only after appropriation.

(2) Expenditures from the account may only be used for the purposes of marine management planning, marine spatial planning, research, monitoring, implementation of the marine management plan, and for the restoration or enhancement of marine habitat or resources. [2010 c 145 § 10.]

WASHINGTON GLOBAL HEALTH TECHNOLOGIES AND PRODUCT DEVELOPMENT COMPETITIVENESS PROGRAM

Sections

43.374.005 Finding—Intent—Purpose. The legislature finds that the global health sector develops new technologies and products for the improvement of health delivery locally and worldwide and that Washington is home to the world’s richest collection of global health research and education programs creating new and innovative technologies on a daily basis. It is the intent of the legislature to stimulate the state’s economy and foster job creation in the emerging field
of global health while improving the health of people in Washington state and the world. The purpose of chapter 13, Laws of 2010 1st sp. sess. is to create a funding mechanism and a grant program to ensure that Washington remains competitive in global health innovation and to guarantee that the development, manufacture, and delivery of global health products will become an even more dynamic part of the state’s economy. [2010 1st sp.s c 13 § 1.]

43.374.010 Washington global health technologies and product development competitiveness program. (1) The Washington global health technologies and product development competitiveness program is created.

(2)(a) The program must be administered by a nonprofit organization exempt from income taxation under 26 U.S.C. Sec. 501(c)(6) of the federal internal revenue code whose board of directors is appointed by the governor. The governor must make the appointments after consultation with a statewide alliance of global health research, nonprofit, and private entities. The board consists of the following members:

(i) Three members representing private companies engaged in the provision of global health products or services;

(ii) Three members representing nonprofit organizations supporting global health research or providing global health products or services;

(iv) One member who is a former elected official.

All federal funds received must be deposited in the Washington global health technologies and product development account created in RCW 43.374.020. All remaining nonstate funds received must be deposited in an account that the board creates and administers to carry out the purposes of this section. (f) Any other factors, as the board determines.

(7) Grant contracts must specify that award recipients must conduct their research, development, and any subsequent production activities within Washington, with the exception of activities such as clinical trials that must be carried out in developing countries, and that a failure to comply with this requirement will obligate the recipient to return the amount of the award plus interest as determined by the board.

(8) Upon the recommendation of the Washington economic development commission, the board may provide funding for the recruitment and employment by public research institutions and global health nonprofit organizations in the state, of global health researchers with a history of commercialization of global health technologies.

(9) Each project receiving a grant under this section must report information to the board in the format and at the intervals as the board requires to provide accountability and to evaluate the effectiveness of the program. The information reported must include the amount of funding received; the funding, if any, leveraged by the grant; the number and types of jobs created as a result of the grant; and any other information that the board requires. The board must use the information to prepare an annual evaluation of the program for a report to the appropriate committees of the legislature and the governor, beginning December 1, 2012. The legislature finds it necessary to clarify preferred language for new and revised laws by requiring the use of terminology that puts the person before the disability.

(2) (a) The code reviser is directed to avoid all references to: Disabled, developmentally disabled, mentally disabled, mentally ill, mentally retarded, handicapped, crippled, and crippled, in any new statute, memorial, or resolution, and to change such references in any existing statute, memorial, or resolution as sections including these references are otherwise amended by law.

(2010 Ed.)
(4) The replacement of outmoded terminology with more appropriate references may not be construed as changing the application of any provision of this code to any person. [2010 c 94 § 2; 2009 c 377 § 1; 2004 c 175 § 1.]

LEGISLATIVE DISTRICTS AND APPORTIONMENT

Reviser’s note: The following material represents the legislative portion of the redistricting plan filed with the legislature by the Washington State Redistricting Commission on December 17, 2001, and as amended by Senate Concurrent Resolution 8429 and Senate Concurrent Resolution 8430 under RCW 44.05.100. For United States congressional districts, see chapter 29.60C RCW.

WASHINGTON STATE REDISTRICTING COMMISSION

REDISTRICTING PLAN

A PLAN Relating to the redistricting of state legislative districts.

BE IT APPROVED BY THE REDISTRICTING COMMISSION OF THE STATE OF WASHINGTON:

Sec. 1. It is the intent of the commission to redistrict the congressional and legislative districts of the state of Washington in accordance with the Constitution and laws of the United States and the state of Washington.

Sec. 2. The definitions set forth in RCW 44.05.020 apply throughout this plan, unless the context requires otherwise.

Sec. 3. In every case the population of the legislative districts described by this plan has been ascertained on the basis of the total number of persons found inhabiting such areas as of April 1, 2000, in accordance with the 2000 federal decennial census data submitted pursuant to P.L. 94-171.

Sec. 4. (a) Any area not specifically included within the boundaries of any of the districts as described in this plan and that is completely surrounded by a particular district, shall be a part of that district. Any such area not completely surrounded by a particular district shall be a part of the district having the smallest number of inhabitants and having territory contiguous to such area.

(b) Any area described in this plan as specifically embraced in two or more noninclusive districts shall be a part of the adjacent district having the smallest number of inhabitants and shall not be a part of the other district or districts.

(c) Any area specifically mentioned as embraced within a district but separated from such district by one or more other districts, shall be assigned as though it had not been included in any district specifically described.

(d) The 2000 United States federal decennial census data submitted pursuant to P.L. 94-171 shall be used for determining the number of inhabitants under this plan.

Sec. 5. For purposes of this plan, districts shall be described in terms of:

(1) Official United States census bureau tracts, block groups, or blocks, established by the United States bureau of the census in the 2000 federal decennial census;

(2) Counties, municipalities, or other political subdivisions as they existed on January 1, 2000;

(3) Any natural or artificial boundaries or monuments including but not limited to rivers, streams, or lakes as they existed on January 1, 2000;

(4) Roads, streets, or highways as they existed on January 1, 2000.

Sec. 6. Pursuant to RCW 44.05.090(4) and Article II, section 43 of the state Constitution, the territory of the state shall be divided into forty-nine legislative districts. Two members of the house of representatives shall be elected from and run at large within each legislative district. One member of the senate shall be elected from each legislative district.

Sec. 7. The legislative districts described by this plan shall be those recorded electronically as "JOINTSUB-L-03", maintained in computer files and designated as FINAL-LEG-2001, which are public records of the commission. As soon as practicable after approval and submission of this plan to the legislature, the commission shall publish "FINAL-LEG-2001".

Sec. 8. The commission intends that existing law shall continue to govern such matters as the terms and dates of election for members of the senate to be elected from each district, the status of "hold-over" senators, and the elections to fill vacancies, when required, provided that districts referred to in existing law and designated by number shall refer to districts of the same number described in this plan, beginning with the next elections in 2002.

Sec. 9. This commission intends that this plan supersede the district boundaries established by chapter 44.07C RCW.

Sec. 10. If any provision of this plan or its application to any person or circumstance is held invalid, the remainder of the plan or its application to other persons or circumstances is not affected.

(10) "Preliminary performance audit report" means a written document prepared for review and comment by the joint legislative audit and review committee after the completion of a performance audit. The preliminary performance audit report must contain the audit findings and any proposed recommendations to improve the efficiency, effectiveness, or accountability of the state agency or local government audited.

(11) "Program audits" means performance audits that determine: (a) The extent to which desired outcomes or results are being achieved; (b) the causes for not achieving intended outcomes or results; and (c) compliance with significant laws and rules applicable to the program.

(12) "State agency" or "agency" means a state agency, department, office, officer, board, commission, bureau, division, institution, or institution of higher education. "State agency" includes all elective offices in the executive branch of state government. [1996 c 288 § 2.]

Findings and intent—1996 c 288: "The public expects the legislature to address citizens’ increasing demand for the basic services of state government, while limiting the growth in spending. The public demands that public officials and state employees be accountable to provide maximum value for every dollar entrusted to state government. The public believes that it is possible to improve the responsiveness of state government and to save the taxpayers’ money, and that efficiency and effectiveness should result in savings.

The legislature, public officials, state employees, and citizens need to know the extent to which state agencies, programs, and activities are achieving the purposes for which they were created. It is essential to compare the conditions, problems, and priorities that led to the creation of government programs with current conditions, problems, and priorities, and to examine the need for and performance of those programs in the current environment.

Along with examining the performance of state agencies and programs, the legislature, public officials, state employees, and citizens must also consider the effect that state government programs can reasonably expect to have on citizens’ lives, how the level of programs and services of Washington state government compares with that of other states, and alternatives for service delivery, including other levels of government and the private sector including not-for-profit organizations. It is essential that the legislature, public officials, state employees, and citizens share a common understanding of the role of state government. The performance and relative priority of state agency programs and activities must be the basis for managing and allocating resources within Washington state government.

It is the intent of the legislature to strengthen the role of the current legislative budget committee so that it may more effectively examine how efficiently state agencies perform their responsibilities and whether the agencies are achieving their goals, and whether units of local government are using state funds for their intended purpose in an efficient and effective manner. It is also the intent of the legislature to enact a clear set of definitions for different types of audits in order to eliminate confusion with regard to government reviews." [1996 c 288 § 1.]

The ex officio members shall be appointed by the speaker of the house and the president of the senate, and include a representative from the department of agriculture, the state trade representative, and a representative from the office of the attorney general. [2003 c 404 § 2.]

44.55.040 Powers, duties. The committee has the following powers and duties:

LEGISLATIVE GIFT CENTER

Sections
44.73.005 Findings.
44.73.010 Legislative gift center—Created—Retail sale of products—Governance—Planning.
44.73.005 Findings. The legislature finds that Washington is committed to economic development and supporting the tourism industry, and that economic development is achieved by promoting the state and the goods produced around the state. The legislature further finds that tourism is encouraged providing a memorable experience and an opportunity for visitors to take something back home with them to remind them of this experience. There are many visitors every day to the legislative building, including tourists, school children, and people from around the state visiting the state capitol. These visitors offer an opportunity for the state to showcase its products and history. Therefore, the legislature finds that a gift center in the legislative building would be an appropriate response to this opportunity, and further, that such a gift center could provide a source of revenue to help fund the oral history program and to pay for the restoration and repurchase of historical capitol furnishings. [2007 c 453 § 1.]

44.73.010 Legislative gift center—Created—Retail sale of products—Governance—Planning. (1) There is created in the legislature a legislative gift center for the retail sale of products bearing the state seal, Washington state souvenirs, other Washington products, and other products as approved. Wholesale purchase of products for sale at the legislative gift center is not subject to competitive bidding.

(2) Governance for the legislative gift center shall be under the chief clerk of the house of representatives and the secretary of the senate. They may designate a legislative staff member as the lead staff person to oversee management and operation of the gift shop.

(3) The chief clerk of the house of representatives and secretary of the senate shall consult with the department of general administration in planning, siting, and maintaining legislative building space for the gift center.

(4) Products bearing the "Seal of the State of Washington" as described in Article XVIII, section 1 of the Washington state Constitution and RCW 1.20.080, must be purchased from the secretary of state pursuant to an agreement between the chief clerk of the house of representatives, the secretary of the senate, and the secretary of state. [2007 c 453 § 2.]

44.73.015 Legislative gift center—Selling wine for off-premises consumption—Collection and remittance of all applicable state and local taxes—Consultation with the Washington wine commission. (1) The legislative gift center is authorized to sell at retail for off-premises consumption wine produced in Washington by a licensed domestic winery. Wine sold by the legislative gift center must: (a) Be sold to individuals twenty-one years of age or older; (b) be sold for personal use and not for resale; and (c) have been purchased from a licensed wine distributor or from a manufacturer authorized to distribute wine of its own production.

(2) The legislative gift center must collect and remit to the department of revenue all applicable state and local taxes on sales of wine.

(3) The legislative gift center must consult with the Washington wine commission to select which Washington wines will be sold. The Washington wine commission must give consideration to award winning wines in assisting the gift center. [2009 c 228 § 3.]

44.73.020 Legislative gift center account. (1) The legislative gift center account is created in the custody of the state treasurer. All moneys received by the gift center from the sale of Washington state souvenirs, other Washington products, and other products as approved shall be deposited in the account. Expenditures from the account may be used only for the operations and maintenance of the gift center, including the purchase of inventory, and for other purposes as provided in this section. Only the chief clerk of the house of representatives and the secretary of the senate, or the lead staff person designated by them to oversee management and operation of the gift shop, may authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures.

(2) Net profits, after expenses, from the sale of Washington state souvenirs, other Washington products, and products approved by the legislative gift center, shall be deposited as provided in this subsection:

46.09.010 Application of chapter—Permission necessary to enter upon private lands. (Effective until July 1, 2011.) The provisions of this chapter shall apply to all lands in this state. Nothing in this chapter, RCW 79A.35.040, 79A.35.070, 79A.35.090, 79A.35.110, and 79A.35.120 shall be deemed to grant to any person the right or authority to enter upon private property without permission of the property owner. [2005 c 213 § 2; 1972 ex.s. c 153 § 2; 1971 ex.s. c 47 § 6.]

Findings—Construction—2005 c 213: "The legislature finds that off-road recreational vehicles (ORVs) provide opportunities for a wide variety of outdoor recreation activities. The legislature further finds that the limited amount of ORV recreation areas presents a challenge for ORV recreational users, natural resource land managers, and private landowners. The legislature further finds that many nonhighway roads provide opportunities for ORV use and that these opportunities may reduce conflicts between users and facilitate responsible ORV recreation. However, restrictions intended for motor vehicles may prevent ORV use on certain roads, including forest service roads. Therefore, the legislature finds that local, state, and federal jurisdictions should be given the flexibility to allow ORV use on nonhighway roads they own and manage or for which they are authorized to allow public ORV use under an easement granted by the owner. Nothing in this act authorizes trespass on private property." [2005 c 213 § 1.]

Effective date—2005 c 213: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state gov-

The legislature finds that the appropriation of funds from the NOVA account during the 2009-2011 fiscal biennium for maintenance and operation of state parks or to improve accessibility for boaters and off-road vehicle users at state parks will benefit boaters and off-road vehicle users and others who use nonhighway and nonmotorized recreational facilities. The appropriations under this subsection are not required to follow the specific distribution specified in subsection (2) of this section. [2010 1st sp.s. c 37 § 936. Purpose—1972 ex.s. c 153: See RCW 79A.35.070.

46.09.520 Refunds from motor vehicle fund—Distribution—Use.  (Effective July 1, 2011.)  (1) From time to time, but at least once each year, the state treasurer shall refund from the motor vehicle fund one percent of the motor vehicle fuel tax revenues collected under chapter 82.36 RCW, based on a tax rate of: (a) Nineteen cents per gallon of motor vehicle fuel from July 1, 2003, through June 30, 2005; (b) twenty cents per gallon of motor vehicle fuel from July 1, 2005, through June 30, 2007; (c) twenty-one cents per gallon of motor vehicle fuel from July 1, 2007, through June 30, 2009; (d) twenty-two cents per gallon of motor vehicle fuel from July 1, 2009, through June 30, 2011; and (e) twenty-three cents per gallon of motor vehicle fuel beginning July 1, 2011, and thereafter, less proper deductions for refunds and costs of collection as provided in RCW 46.68.090.

(2) The treasurer shall place these funds in the general fund as follows:

(a) Thirty-six percent shall be credited to the ORV and nonhighway vehicle account and administered by the department of natural resources solely for the acquisition, planning, development, maintenance, and management of ORV, nonmotorized, and nonhighway road recreation facilities, and information programs and maintenance of nonhighway roads;

(b) Three and one-half percent shall be credited to the ORV and nonhighway vehicle account and administered by the department of fish and wildlife solely for the acquisition, planning, development, maintenance, and management of ORV, nonmotorized, and nonhighway road recreation facilities and the maintenance of nonhighway roads;

(c) Two percent shall be credited to the ORV and nonhighway vehicle account and administered by the parks and recreation commission solely for the acquisition, planning, development, maintenance, and management of ORV, nonmotorized, and nonhighway road recreation facilities; and

(d) Fifty-eight and one-half percent shall be credited to the nonhighway and off-road vehicle activities program account to be administered by the board for planning, acquisition, development, maintenance, and management of ORV, nonmotorized, and nonhighway road recreation facilities and for education, information, and law enforcement programs. The funds under this subsection shall be expended in accordance with the following limitations:

(i) Not more than thirty percent may be expended for education, information, and law enforcement programs under this chapter;

(ii) Not less than seventy percent may be expended for ORV, nonmotorized, and nonhighway road recreation facilities. Except as provided in (d)(iii) of this subsection, of this amount:

(A) Not less than thirty percent, together with the funds the board receives under RCW 46.68.045, may be expended for ORV recreation facilities;

(B) Not less than thirty percent may be expended for nonmotorized recreation facilities. Funds expended under this subsection (2)(d)(ii)(B) shall be known as Ira Spring outdoor recreation facilities funds; and

(C) Not less than thirty percent may be expended for nonhighway road recreation facilities;

(3) On a yearly basis an agency may not, except as provided in RCW 46.68.045, expend more than ten percent of the funds it receives under this chapter for general administration expenses incurred in carrying out this chapter.

(4) During the 2009-2011 fiscal biennium, the legislature may appropriate such amounts as reflect the excess fund balance in the NOVA account to the department of natural resources to install consistent off-road vehicle signage at department-managed recreation sites, and to implement the recreation opportunities on department-managed lands in the Reiter block and Ahtanum state forest, and to the state parks and recreation commission. The legislature finds that the appropriation of funds from the NOVA account during the 2009-2011 fiscal biennium for maintenance and operation of state parks or to improve accessibility for boaters and off road vehicle users at state parks will benefit boaters and off road vehicle users and others who use nonhighway and nonmotorized recreational facilities. The appropriations under this subsection are not required to follow the specific distribution specified in subsection (2) of this section.  [2010 1st sp.s. c 37 § 936; 2010 c 161 § 222. 46.12.005 Definitions. (Effective until July 1, 2011.)

The definitions set forth in this section apply throughout this chapter.

1. The words "delivery," "notice," "send," and "security interest" have the same meaning as these terms are defined in RCW 62A.1-201; the word "secured party" has the same meaning as this term is defined in RCW 62A.9A-102.

2. "Salvage vehicle" means a vehicle whose certificate of ownership has been surrendered to the department under RCW 46.12.070 due to the vehicle’s destruction or declaration as a total loss or for which there is documentation indicating that the vehicle has been declared salvage or has been damaged to the extent that the owner, an insurer, or other person acting on behalf of the owner, has determined that the cost of parts and labor plus the salvage value has made it uneconomical to repair the vehicle. The term does not include a motor vehicle having a model year designation of a calendar year that is at least six years before the calendar year in which the vehicle was wrecked, destroyed, or damaged, unless, after June 13, 2002, and immediately before the vehicle was wrecked, destroyed, or damaged, the vehicle had a retail fair market value of at least the then market value threshold amount and has a model year designation of a calendar year not more than twenty years before the calendar year in which the vehicle was wrecked, destroyed, or damaged. "Market value threshold amount" means six thousand dollars or such greater amount as is then in effect by rule of the department in accordance with this section. If, for any year beginning with 2002, the Consumer Price Index for All Urban Consumers, compiled by the Bureau of Labor Statistics, United States Department of Labor, or its successor, for the West Region, in the expenditure category "used cars and trucks," shows an increase in the annual average for that year compared to that of the year immediately prior, the department shall, by rule, increase the then market value threshold amount by the same percentage as the percentage increase of the annual average, with the increase of the market value threshold amount to be effective on July 1 of the year immediately after the year with the increase of the annual average. However, the market value

(b) The name and address of the person who is to be the registered owner of the vehicle and, if the vehicle is subject to a security interest, the name and address of the secured party;

(c) Such other information as the department may require.

(2) The department may in any instance, in addition to the information required on the application, require additional information and a physical examination of the vehicle or of any class of vehicles, or either.

(3)(a) A physical examination of the vehicle is mandatory if (i) it has been rebuilt after surrender of the certificate of ownership to the department under *RCW 46.12.070* due to the vehicle’s destruction or declaration as a total loss and (ii) it is not retained by the registered owner at the time of the vehicle’s destruction or declaration as a total loss. The inspection must verify that the vehicle identification number is genuine and agrees with the number shown on the title and registration certificate. The inspection must be made by a member of the Washington state patrol or other person authorized by the department to make such inspections.

(b)(i) A physical examination of the vehicle is mandatory if the vehicle was declared totaled or salvage under the laws of this state, or the vehicle is presented with documents from another state showing the vehicle was totaled or salvage and has not been reissued a valid registration from that state after the declaration of total loss or salvage.

(ii) The inspection must verify that the vehicle identification number is genuine and agrees with the number shown on the original documents supporting the vehicle purchase or ownership.

notarized. The bills of sale must include the names and addresses of the sellers and purchasers, a description of the vehicle, the part or parts being sold, including the make, model, year, and identification or serial number, that date of sale, and the purchase price of the vehicle or part or parts. If the presenter is unable to provide an acceptable release of interest or proof of ownership for a vehicle or major component part as described above, an inspection must be completed for ownership-in-doubt purposes as prescribed by WAC 308-56A-210.

(iv) A vehicle presented for inspection must have all damaged major component parts replaced or repaired to meet RCW and WAC requirements before inspection of the salvage vehicle by the Washington state patrol.

(4) To the extent that the Washington state patrol has a backlog of vehicle inspections that it is to perform under this section, chapter 420, Laws of 2007 shall not be construed to reduce the vehicle inspection workload of the Washington state patrol.

The report of sale will be deemed properly filed if all information required in this section is provided on the form and includes a department-authorized notation that the document was received by the department, its agents, or subagents on or before the fifth day after the sale of the vehicle, excluding Saturdays, Sundays, and state and federal holidays. (4) Upon request of the owner or transferee, a secured party in possession of the certificate of ownership shall, unless the transfer was a breach of its security agreement, either deliver the certificate to the transferee for transmission to the department or, when the secured party receives the owner’s assignment from the transferee, it shall transmit the transferee’s application for a new certificate, the existing certificate, and the required fee to the department. Compliance with this section does not affect the rights of the secured party.

(5) If a security interest is reserved or created at the time of the transfer, the certificate of ownership shall be retained by or delivered to the person who becomes the secured party, and the parties shall comply with the provisions of RCW 46.12.170.

Legislative intent—1989 c 192: "The legislature recognizes that there are residents of this state who intentionally register motor vehicles in other states to evade payment of taxes and fees required by the laws of this state. This results in a substantial loss of revenue to the state. It is the intent of the legislature to impose a stronger criminal penalty upon those residents who defraud the state, thereby enhancing compliance with the registration laws of this state and further enhancing enforcement and collection efforts.

In order to encourage voluntary compliance with the registration laws of this state, administrative penalties associated with failing to register a motor vehicle are waived until September 1, 1989. 46.16.0621 License fee. (Effective until July 1, 2011.)  (1) License tab fees are required to be $30 per year for motor vehicles, regardless of year, value, make, or model.  

(2) For the purposes of this section, "license tab fees" are defined as the general fees paid annually for licensing motor vehicles and trailers as defined in RCW 46.04.620 and 46.04.623, including cars, sport utility vehicles, motorcycles, and motor homes. Trailers licensed under RCW 46.16.068 or 46.16.085 and campers licensed under RCW 46.16.505 are not required to pay license tab fees under this section. [2003
c 1 § 2 (Initiative Measure No. 776, approved November 5, 2002); 2002 c 352 § 7; 2000 1st sp.s. c 1 § 1.] (Effective until January 1, 2000.)

Reviser's note: This section was amended by 2002 c 352 § 7 and by 2003 c 1 § 2 (Initiative Measure No. 776), each without reference to the other. Both amendments were incorporated in the publication of this section under RCW 1.12.025(2). For rule of construction, see RCW 1.12.025(1).

Severability—See note following RCW 81.104.160.

Policies and purposes—2003 c 1 (Initiative Measure No. 776): "This measure would require license tab fees to be $30 per year for motor vehicles and light trucks and would repeal certain government-imposed charges, including excise taxes and fees, levied on motor vehicles. Politicians promised "$30 license tabs are here to stay" and promised any increases in vehicle-related taxes, fees and surcharges would be put to a public vote. Politicians should keep their promises. As long as taxpayers must pay increasingly high sales taxes when buying motor vehicles (meaning state and local gov- ernments receive huge windfalls of sales tax revenue from these transactions), the people want license tab fees to not exceed the promised $30 per year. Without this follow-up measure, "tab creep" will continue until license tab fees are once again obscenely expensive, as they were prior to Initiative 695. The people want a public vote on any increases in vehicle-related taxes, fees and surcharges to ensure increased accountability. Voters will require more cost-effective use of existing revenues and fundamental reforms before approving higher charges on motor vehicles (such changes may remove the need for any increases). Also, dramatic changes to transportation plans and programs previously presented to voters must be resubmitted. This measure provides a strong directive to all taxing districts to obtain voter approval before imposing taxes, fees and surcharges on motor vehicles. However, if the legislature ignores this clear message, a referendum will be filed to protect the voters' rights. Politicians should just do the right thing and keep their promises." [2003 c 1 § 1 (Initiative Measure No. 776, approved November 5, 2002.)]

Construction—2003 c 1 (Initiative Measure No. 776): "The provisions of this act are to be liberally construed to effectuate the intent, policies, and purposes of this act." [2003 c 1 § 9 (Initiative Measure No. 776, approved November 5, 2002.)]

Intent—2003 c 1 (Initiative Measure No. 776): "The people have made clear through the passage of numerous initiatives and referenda that taxes need to be reasonable and tax increases should always be a last resort. However, politicians throughout the state of Washington continue to ignore these repeated mandates.

The people expect politicians to keep their promises. The legislative intent of this measure is to ensure that they do.

Politicians are reminded:

1. Washington voters want license tab fees to be $30 per year for motor vehicles unless voters authorize higher vehicle-related charges at an election.

2. All political power is vested in the people, as stated in Article I, section 1 of the Washington state Constitution.

3. The first power reserved by the people is the initiative, as stated in Article II, section 1 of the Washington state Constitution.

4. When voters approve initiatives, politicians have a moral, ethical, and constitutional obligation to fully implement them. When politicians ignore this obligation, they corrupt the term "public servant."

5. Any attempt to violate the clear intent and spirit of this measure undermines the trust of the people in their government and will increase the likelihood of future tax limitation measures." [2003 c 1 § 11 (Initiative Measure No. 776, approved November 5, 2002.)]

Effective dates—2002 c 352: See note following RCW 46.09.070.

Effective date—2000 1st sp.s. c 1: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately [March 31, 2000]." [2000 1st sp.s. c 1 § 3.] (Effective until January 1, 2000.)

Retroactive application—2000 1st sp.s. c 1: "This act applies retroactively to January 1, 2000." [2000 1st sp.s. c 1 § 4.]

Boat trailer fee: RCW 46.16.670.

46.16.063 Additional fee for recreational vehicles. (Effective until July 1, 2011.) In addition to other fees for the licensing of vehicles there shall be paid and collected annually for each camper, travel trailer, and motor home as the same are defined in RCW 82.50.010 a fee of three dollars to be deposited in the RV account of the motor vehicle fund. Under RCW 43.135.055, the department of transportation may increase RV account fees by a percentage that exceeds the fiscal growth factor. After consultation with citizen representatives of the recreational vehicle user community, the department of transportation may implement RV account fee adjustments no more than once every four years. RV account fee adjustments must be preceded by evaluation of the following factors: Maintenance of a self-supporting program, levels of service at existing RV sanitary disposal facilities, identified needs for improved RV service at safety rest areas statewide, sewage treatment costs, and inflation. If the department chooses to adjust the RV account fee, it shall notify the department of licensing six months before implementation of the fee increase. Adjustments in the RV account fee must be in increments of no more than fifty cents per biennium. [1996 c 237 § 1; 1980 c 60 § 2.]

Trailing units which are subject to *RCW 82.44.020(4) shall, upon application, be issued a permanent license plate that is valid until the vehicle is sold, permanently removed from the state, or otherwise disposed of by the registered owner. The fee for this license plate is thirty-six dollars. Upon the sale, permanent removal from the state, or other disposition of a trailing unit bearing a permanent license plate the registered owner is required to return the license plate and registration certificate to the department. Violations of this section or misuse of a permanent license plate may subject the registered owner to prosecution or denial, or both, of future permanent registration of any trailing units. This section does not apply to any trailing units subject to the annual excise taxes prescribed in *RCW 82.44.020. The department is authorized to adopt rules to implement this section for leased vehicles and other applications as necessary. [1998 c 321 § 2 (Referendum Bill No. 49, approved November 3, 1998); 1993 c 123 § 4.]

The gross weight in the case of any motor truck, tractor, or truck tractor shall be the scale weight of the motor truck, tractor, or truck tractor, plus the scale weight of any trailer, semitrailer, converter gear, or pole trailer to be towed thereby, to which shall be added the weight of the maximum load to be carried thereon or towed thereby as set by the license in the application if it does not exceed the weight limitations prescribed by chapter 46.44 RCW. If the sum of the scale weight and maximum load of the trailer is not greater than four thousand pounds, that sum shall not be computed as part of the gross weight of any motor truck, tractor, or truck tractor. Where the trailer is a utility trailer, travel trailer, horse trailer, or boat trailer, for the personal use of the owner of the truck, tractor, or truck tractor, and not for sale or commercial purposes, the gross weight of such trailer and its load shall not be computed as part of the gross weight of any motor truck, tractor, or truck tractor. The weight of any camper is exempt from the determination of gross weight in the computation of any licensing fees required under RCW 46.16.070.

The gross weight in the case of any bus, auto stage, or for hire vehicle, except taxicabs, with a seating capacity over six, shall be the scale weight of each bus, auto stage, and for hire vehicle plus the seating capacity, including the operator’s seat, computed at one hundred and fifty pounds per seat.

If the resultant gross weight, according to this section, is not listed in RCW 46.16.070, it shall be increased to the next higher gross weight so listed pursuant to chapter 46.44 RCW. [1987 c 244 § 5; 1986 c 18 § 11; 1971 ex.s. c 231 § 1; 1969 ex.s. c 170 § 6; 1967 ex.s. c 83 § 57.]

However, in the case of each auto stage propelled by steam, electricity, natural gas, diesel oil, butane, or propane, the payment required in this section is twenty cents per one hundred miles of such operation. The commission shall transmit all sums so collected to the state treasurer, who shall deposit the same in the motor vehicle fund. Any person failing to make any payment required by this section is subject to a penalty of one hundred percent of the payment due in this section, in addition to any penalty provided for failure to submit a report. two dollars, this sum to be multiplied by the number of full months for which the fees are paid if for less than a full year. An additional fee of two dollars shall be collected each time a license fee is paid.

Operation of a vehicle licensed under the provisions of this section by any person upon the public highways after the expiration of the monthly license is a traffic infraction, and in addition the person shall be required to pay a license fee for the vehicle involved covering an entire registration year’s operation, less the fees for any registration month or months of the registration year already paid. If, within five days, no license fee for a full registration year has been paid as required aforesaid, the Washington state patrol, county sheriff, or city police shall impound such vehicle in such manner as may be directed for such cases by the chief of the Washington state patrol, until such requirement is met. Any person who operates or causes to be operated upon a public highway of this state any motor truck, truck tractor, or tractor with a maximum gross weight in excess of the maximum gross weight for which the vehicle is licensed shall be deemed to have set a new maximum gross weight and shall, in addition to any penalties otherwise provided, be required to purchase a new license covering the new maximum gross weight, and any failure to secure such new license is a traffic infraction. No such person may be permitted or required to purchase the new license for a gross weight or combined gross weight which would exceed the maximum gross weight or combined gross weight allowed by law. This section does not apply to for hire vehicles, buses, or auto stages operating principally within cities and towns. [1986 c 18 § 13; 1979 ex.s. c 136 § 47; 1961 c 12 § 46.16.140. Prior: 1955 c 384 § 16; 1951 c 269 § 18; 1937 c 188 § 25, part; RRS § 6312-25, part.]

46.16.150 School buses exempt from load and seat capacity fees. (Effective until July 1, 2011.) No provision of the law of this state shall be construed to require for hire vehicle license or adult seating capacity fees, either directly or indirectly for the transportation of school children or teachers, or both, to and from school and other school activities, or either, whether the same be done in motor vehicles owned, leased, rented or used by the school authority or upon contract to furnish such transportation: PROVIDED, That this section shall apply to vehicles used exclusively for the purpose set forth and in the event that any vehicle so used is also used for any other purpose, such vehicle shall be appropriately licensed for such other purpose, as required by this chapter. 46.16.160 Vehicle trip permits—Restrictions and requirements—Fees and taxes—Penalty—Rules. (Effective until July 1, 2011.) (1) The owner of a vehicle which under reciprocal relations with another jurisdiction would be required to obtain a license registration in this state or an unlicensed vehicle which would be required to obtain a license registration for operation on public highways of this state may, as an alternative to such license registration, secure and operate such vehicle under authority of a trip permit issued by this state in lieu of a Washington certificate of license registration, and licensed gross weight if applicable. The licensed gross weight may not exceed eighty thousand pounds for a combination of vehicles nor forty thousand pounds for a single unit vehicle with three or more axles. Trip permits are required for movement of mobile homes or park model trailers and may only be issued if property taxes are paid in full. For the purpose of this section, a vehicle is considered unlicensed if the licensed gross weight currently in effect for the vehicle or combination of vehicles is not adequate for the load being carried. Vehicles registered under RCW 46.16.135 shall not be operated under authority of trip permits in lieu of further registration within the same registration year.

(2) Each trip permit shall authorize the operation of a single vehicle at the maximum legal weight limit for such vehicle for a period of three consecutive days commencing with the day of first use. No more than three such permits may be used for any one vehicle in any period of thirty consecutive days, except that in the case of a recreational vehicle as defined in RCW 43.22.335, no more than two trip permits may be used for any one vehicle in a one-year period. Every permit shall identify, as the department may require, the vehicle for which it is issued and shall be completed in its entirety.
and signed by the operator before operation of the vehicle on the public highways of this state. Correction of data on the permit such as dates, license number, or vehicle identification number invalidates the permit. The trip permit shall be displayed on the vehicle to which it is issued as prescribed by the department.

(3) Vehicles operating under authority of trip permits are subject to all laws, rules, and regulations affecting the operation of like vehicles in this state.

(4) Prorate operators operating commercial vehicles on trip permits in Washington shall retain the customer copy of such permit for four years.

(5) Trip permits may be obtained from field offices of the department of transportation, department of licensing, or other agents appointed by the department. The fee for each trip permit is twenty dollars. Five dollars from every twenty-dollar trip permit fee shall be deposited into the state patrol highway account and must be used for commercial motor vehicle inspections. For each permit issued, the fee includes a filing fee as provided by RCW 46.01.140 and an excise tax of one dollar. The remaining portion of the trip permit fee must be deposited to the credit of the motor vehicle fund as an administrative fee. If the filing fee amount of three dollars as prescribed in RCW 46.01.140 is increased or decreased after July 1, 2002, the administrative fee must be increased or decreased by the same amount so that the total trip permit would be adjusted equally to compensate. These fees and taxes are in lieu of all other vehicle license fees and taxes. No exchange, credits, or refunds may be given for trip permits after they have been purchased.

(6) The department may appoint county auditors or businesses as agents for the purpose of selling trip permits to the public. County auditors or businesses so appointed may retain the filing fee collected for each trip permit to defray expenses incurred in handling and selling the permits.

(7) Commercial motor vehicles that are owned by a motor carrier subject to RCW 46.32.080, must not be operated on trip permits authorized by RCW 46.16.160 or 46.16.162 if the motor carrier’s department of transportation number has been placed out of service by the Washington state patrol. A violation of or a failure to comply with this subsection is a gross misdemeanor, subject to a minimum monetary penalty of two thousand five hundred dollars for the first violation and five thousand dollars for each subsequent violation.

(8) Except as provided in subsection (7) of this section, a violation of or a failure to comply with any provision of this section is a gross misdemeanor.

(9) The department of licensing may adopt rules as it deems necessary to administer this section.

(10) A surcharge of five dollars is imposed on the issuance of trip permits. The portion of the surcharge paid by motor carriers must be deposited in the motor vehicle fund for the purpose of supporting vehicle weigh stations, weigh-in-motion programs, and the commercial vehicle information systems and networks program. The remaining portion of the surcharge must be deposited in the motor vehicle fund for the purpose of supporting congestion relief programs. All other administrative fees and excise taxes collected under the provisions of this chapter shall be forwarded by the department with proper identifying detailed report to the state treasurer who shall deposit the administrative fees to the credit of the motor vehicle fund and the excise taxes to the credit of the general fund. Filing fees will be forwarded and reported to the state treasurer by the department as prescribed in RCW 46.01.140. [2007 c 419 § 6. Prior: 2002 c 352 § 8; 2002 c 168 § 5; 1999 c 270 § 1; 1996 c 184 § 2; 1993 c 102 § 2; 1987 c 244 § 6; 1981 c 318 § 1; 1977 ex.s.c. c 22 § 5; 1975-76 2nd ex.s.c. c 64 § 6; 1969 ex.s.c. c 170 § 8; 1961 c 306 § 1; 1961 c 12 § 46.16.160; prior: 1957 c 273 § 3; 1955 c 384 § 17; 1949 c 174 § 1; 1947 c 176 § 1; 1937 c 188 § 24; Rem. Exemption—2008 c 72 § 1: "Section 1 of this act is exempt from the requirements of RCW 46.16.775." [2008 c 72 § 3.]

Finding—1997 c 291: "The legislature finds that the proliferation of special license plate series has decreased the ready identification of vehicles by law enforcement, and increased the amount of computer programming conducted by the department of licensing, thereby increasing costs. Furthermore, rarely has the actual demand for special license plates met the requesters' projections. Most importantly, special plates detract from the primary purpose of license plates, that of vehicle identification." [1997 c 291 § 1.]

Finding—2002 c 264: "The legislature finds that bicycling and walking are becoming increasingly popular in Washington as clean and efficient transportation methods, and has directed the governor to submit to the legislature a proposal to establish a bicycle safety campaign that will use proceeds from special license plates to fund bicyclist and pedestrian safety education, enforcement, and encouragement."
modes of transportation, as recreational activities, and as organized sports. Future plans for the state’s transportation system will require increased access and safety for bicycles and pedestrians on our common roadways, and federal transportation legislation and funding programs have created strong incentives to implement these changes quickly. As a result, many more people are likely to take up bicycling in Washington both as a leisure activity and as a convenient, inexpensive form of transportation. Bicyclists are more vulnerable to injury and accident than motorists, and both should be knowledgeable about traffic laws. Bicyclists should be highly visible and predictable when riding in traffic, and be encouraged to wear bicycle safety helmets. Hundreds of bicyclists and pedestrians are seriously injured every year in accidents, and millions of dollars are spent on health care costs associated with these accidents. There is clear evidence that organized training in the rules and techniques of safe and effective cycling can significantly reduce the incidence of serious injury and accidents, increase cooperation among road users, and significantly increase the incidence of bicycle helmet use, particularly among minors. A reduction in accidents benefits the entire community. Therefore, it is appropriate for businesses and community organizations to provide donations to bicycle and pedestrian safety training programs.” [2002 c 264 § 1.]

permits issued to persons with disabilities with available death record information at least every twelve months.

(c) The penalty or fine amounts shall be used by that local jurisdiction exclusively for law enforcement. The court may also impose an additional penalty sufficient to reimburse the local jurisdiction for any costs it may have incurred in removal and storage of the improperly parked vehicle.

(11) Except as provided by subsection (2) of this section, it is a traffic infraction with a monetary penalty of two hundred fifty dollars for any person willfully to obtain a special license plate issued under this section or *RCW 46.16.385, placard, or identification card in a manner other than that established under this section.

If the request is refused, the person in charge of the vehicle may be issued a notice of infraction for a violation of this section.

Personalized license plates—Legislative declaration: "It is declared to be the public policy of the state of Washington to direct financial resources of this state toward the support and aid of the wildlife resources existing within the state of Washington in order that the general welfare of these inhabitants of the state be served. For the purposes of this chapter, wildlife resources are understood to be those species of wildlife other than that managed by the department of fisheries under their existing jurisdiction as well as all unclassified marine fish, shellfish, and marine invertebrates which shall remain under the jurisdiction of the director of fisheries. The legislature further finds that the preservation, protection, perpetuation, and enhancement of such wildlife resources of the state is of major concern to it, and that aid for a satisfactory environment and ecological balance in this state for such wildlife resources serves a public interest, purpose, and desire.

It is further declared that such preservation, protection, perpetuation, and enhancement can be fostered through financial support derived on a voluntary basis from those citizens of the state of Washington who wish to assist in such objectives; that a desirable manner of accomplishing this is through offering personalized license plates for certain vehicles and campers the fees for which are to be directed to the state treasury to the credit of the game fund for the furtherance of the programs, policies, and activities of the state game department in preservation, protection, perpetuation, and enhancement of the wildlife resources that abound within the geographical limits of the state of Washington.

In particular, the legislature recognizes the benefit of this program to be specifically directed toward those species of wildlife including but not limited to song birds, protected wildlife, rare and endangered wildlife, aquatic life, and specialized-habitat types, both terrestrial and aquatic, as well as all unclassified marine fish, shellfish, and marine invertebrates which shall remain under the jurisdiction of the director of fisheries that exist within the limits of the state of Washington." **(2) References to the "state fund game" and "department" mean the "state wildlife fund" and "department of wildlife." See note following RCW 77.04.020. The "state wildlife fund" was renamed the "state wildlife account" pursuant to 2005 c 224 § 4 and 2005 c 225 § 4."

46.16.700 Special license plates—Intent. (Effective until July 1, 2011.) The legislature has seen an increase in the demand from constituent groups seeking recognition and funding through the establishment of commemorative or special license plates. The high cost of implementing a new special license plate series coupled with the uncertainty of the state’s ability to recoup its costs, has led the legislature to delay the implementation of new special license plates. In order to address these issues, it is the intent of the legislature to create a mechanism that will allow for the evaluation of special license plate requests and establish a funding policy that will alleviate the financial burden currently placed on the state. Using these two strategies, the legislature will be better equipped to efficiently process special license plate legislation. [2003 c 196 § 1.]

Disbursement of the revenue generated from the sale of the special license plate to the sponsoring organization is contingent upon the organization meeting all reporting and review requirements as required by the department.

(3) If the sponsoring organization ceases to exist or the purpose of the special license plate series ceases to exist, revenues generated from the sale of the special license plates must be deposited into the motor vehicle account.

(4) A sponsoring organization may not seek to redesign its plate series until all of the inventory is sold or purchased by the organization itself. All cost for redesign of a plate series must be paid by the sponsoring organization. [2003 c 196 § 303.]

46.16.775 Special license plates—Nonreviewed plates. (Effective until July 1, 2011.) (1) A special license plate series created by the legislature after January 1, 2011, that has not been reviewed and approved by the department is subject to the following requirements:

(a) The organization sponsoring the license plate series shall, within thirty days of enactment of the legislation creating the plate series, submit prepayment of all start-up costs associated with the creation and implementation of the special license plate in an amount determined by the department. The prepayment will be credited to the motor vehicle fund. The creation and implementation of the plate series may not commence until payment is received by the department.

(b) If the sponsoring organization is not able to meet the prepayment requirements in (a) of this subsection and can demonstrate this fact to the satisfaction of the department, the revenues generated from the sale of the special license plates must be deposited in the motor vehicle account until the department determines that the state’s portion of the implementation costs have been fully reimbursed. When it is determined that the state has been fully reimbursed the department must notify the treasurer to commence distribution of the revenue according to statutory provisions.

(c) The sponsoring organization must provide a proposed license plate design to the department within thirty days of enactment of the legislation creating the plate series.

(2) The state must be reimbursed for its portion of the implementation costs within two years from the date the new plate series goes on sale to the public. If the reimbursement does not occur within the two-year time frame, the special license plate series must be placed in probationary status for a period of one year from that date. If the state is still not fully reimbursed for its implementation costs after the one-year probation, the plate series must be discontinued immediately. Those plates issued before discontinuation are valid until replaced under *RCW 46.16.233.

(3) If the sponsoring organization ceases to exist or the purpose of the special plate series ceases to exist, revenues generated from the sale of the special license plates must be deposited into the motor vehicle account.

(4) A sponsoring organization may not seek to redesign their plate series until all of the existing inventory is sold or purchased by the organization itself. All cost for redesign of a plate series must be paid by the sponsoring organization. [2010 1st sp.s. c 7 § 97; 2003 c 196 § 304.]

#### 46.16A.320 Vehicle trip permits—Restrictions and requirements—Fee—Penalty—Rules. (Effective July 1, 2011.) (1)(a) A vehicle owner may operate an unregistered vehicle on public highways under the authority of a trip permit issued by this state. For purposes of trip permits, a vehicle is considered unregistered if:

(i) Under reciprocal relations with another jurisdiction, the owner would be required to register the vehicle in this state;
(ii) The license tabs have expired; or
(iii) The current gross weight license is insufficient for the load being carried. The licensed gross weight may not exceed eighty thousand pounds for a combination of vehicles or forty thousand pounds for a single unit vehicle with three or more axles.

(b) Trip permits are required to move mobile homes or park model trailers and may only be issued if property taxes are paid in full.

(2) Trip permits may not be:

(a) Issued to vehicles registered under RCW 46.16A.455(5) in lieu of further registration within the same registration year; or
(b) Used for commercial motor vehicles owned by a motor carrier subject to RCW 46.32.080 if the motor carrier’s department of transportation number has been placed out of service by the Washington state patrol. A violation of or a failure to comply with this subsection is a gross misdemeanor, subject to a minimum monetary penalty of two thousand five hundred dollars for the first violation and five thousand dollars for each subsequent violation.

(3)(a) Each trip permit authorizes the operation of a single vehicle at the maximum legal weight limit for the vehicle for a period of three consecutive days beginning with the day of first use. No more than three trip permits may be used for any one vehicle in any thirty consecutive day period. No more than two trip permits may be used for any one recreational vehicle, as defined in RCW 43.22.335, in a one-year period. Every trip permit must:

(i) Identify the vehicle for which it is issued;
(ii) Be completed in its entirety;
(iii) Be signed by the operator before operation of the vehicle on the public highways of this state;
(iv) Not be altered or corrected. Altering or correcting data on the trip permit invalidates the trip permit; and
(v) Be displayed on the vehicle for which it is issued as required by the department.

(b) Vehicles operating under the authority of trip permits are subject to all laws, rules, and regulations affecting the operation of similar vehicles in this state.

(4) Prorate operators operating commercial vehicles on trip permits in Washington shall retain the customer copy of each permit for four years.

(5) Trip permits may be obtained from field offices of the department of transportation, department of licensing, county auditors or other agents, and subagents appointed by the department for the fee provided in RCW 46.17.400(1)(b). Exchanges, credits, or refunds may not be given for trip permits after they have been purchased.

(6) Except as provided in subsection (2)(b) of this section, a violation of or a failure to comply with this section is a gross misdemeanor.

(7) The department may adopt rules necessary to administer this section. [2010 c 161 § 425; 2007 c 419 § 6. 46.16A.455 Trucks, buses, and for hire vehicles based on gross weight. (Effective July 1, 2011.) (1) Auto stage, bus, for hire vehicle - more than six seats. The declared gross weight for an auto stage, bus, or for hire vehicle, except taxicabs, with a seating capacity of more than six is determined by:

(a) Multiplying the number of seats, including the driver, times one hundred fifty pounds per seat; 
(b) Adding the scale weight to the product derived in (a) of this subsection; and 
(c) Locating the sum derived in (b) of this subsection in the registration fee based on declared gross weight table provided in RCW 46.17.355 and rounding up to the next greater weight.

(2) Motor truck, road tractor, truck, truck tractor - sufficient declared gross weight required. The declared gross weight for a motor truck, road tractor, truck, or truck tractor must have a sufficient declared gross weight, as required under chapter 46.44 RCW, to cover:

(a) Its empty scale weight plus the maximum load it will carry; and 
(b) The empty scale weight of any trailer it will tow and the maximum load that the trailer will carry. The declared gross weight of the motor vehicle does not need to include the trailer if:

(i) The empty scale weight of the trailer and the maximum load the trailer will carry does not exceed four thousand pounds; or 
(ii) The trailer is for personal use, such as a horse trailer, travel trailer, or utility trailer.

(3) Motor truck, road tractor, truck, and truck tractor - exceeding six thousand pounds empty scale weight. (a) The amount would exceed the legal limits described in RCW 46.44.041 or 46.44.042, in which event the vehicle must be licensed for the maximum weight authorized for the vehicle; or 
(b) The vehicle is a fixed load vehicle.

(4) Increasing declared gross weight. The following provisions apply when increasing declared gross weight for a motor vehicle licensed under this section:

(a) The declared gross weight must be increased to the end of the current registration year when the declared gross weight remains at 12,000 pounds or less.

(b) For motor vehicles increasing to a declared gross weight of 14,000 pounds or more, the declared gross weight must be increased, at a minimum, to the expiration of the current declared gross weight license.

(c) The new license fee is one-twelfth of the annual license fee listed in RCW 46.17.355 for each of the number of months remaining in the registration period. The department shall:

(i) Apply credit to any gross weight license fees already paid for the full months remaining in the registration period;

This sum must be multiplied by the number of full months for which the fees are paid if for less than a full year.

(6) Monthly license—Penalty. Operation of a vehicle registered under subsection (5) of this section by any person upon the public highways after the expiration of the monthly license is a traffic infraction. The person shall pay a license fee for the vehicle involved covering an entire registration year’s operation, less the fees for any registration month or months of the registration year already paid. If, within five days, a license fee for a full registration year has not been paid as required, the Washington state patrol, county sheriff, or city police shall impound the vehicle until the fees have been paid.

(7) Camper, school bus—Exemptions. (a) The weight of a camper must not be included when determining declared gross weight.

(b) Motor vehicles used for the transportation of school children or teachers to and from school and other school activities are exempt from subsection (1) of this section and the seating capacity fee provided in RCW 46.17.340. Politicians promised "$30 license tabs are here to stay" and promised any increases in vehicle-related taxes, fees and surcharges would be put to a public vote. Politicians should keep their promises. As long as taxpayers must pay incredibly high sales taxes when buying motor vehicles (meaning state and local governments receive huge windfalls of sales tax revenue from these transactions), the people want license tab fees to not exceed the promised $30 per year. Without this follow-up measure, "tab creep" will continue until license tab fees are once again obscenely expensive, as they were prior to Initiative 965. The people want a public vote on any increases in vehicle-related taxes, fees and surcharges to ensure increased accountability. Voters will require more cost-effective use of existing revenues and fundamental reforms before approving higher charges on motor vehicles (such changes may remove the need for any increases). Also, dramatic changes to transportation plans and programs previously presented to voters must be resubmitted. This measure provides a strong directive to all taxing districts to obtain voter approval before imposing taxes, fees and surcharges on motor vehicles. However, if the legislature ignores this clear message, a referendum will be filed to protect the voters' rights. Politicians should just do the right thing and keep their promises." [2003 c 1 § 1 (Initiative Measure No. 776, approved November 5, 2002).]

Construction—2003 c 1 (Initiative Measure No. 776): "The provisions of this act are to be liberally construed to effectuate the intent, policies, and purposes of this act." [2003 c 1 § 9 (Initiative Measure No. 776, approved November 5, 2002).]

Intent—2003 c 1 (Initiative Measure No. 776): "The people have made clear through the passage of numerous initiatives and referenda that taxes need to be reasonable and tax increases should always be a last resort. However, politicians throughout the state of Washington continue to ignore these repeated mandates. The people expect politicians to keep their promises. The legislative intent of this measure is to ensure that they do. Politicians are reminded:
(1) Washington voters want license tab fees to be $30 per year for motor vehicles unless voters authorize higher vehicle-related charges at an election.
(2) All political power is vested in the people, as stated in Article I, section 1 of the Washington state Constitution.
(3) The first power reserved by the people is the initiative, as stated in Article II, section 1 of the Washington state Constitution.
(4) When voters approve initiatives, politicians have a moral, ethical, and constitutional obligation to fully implement them. When politicians ignore this obligation, they corrupt the term "public servant."
(5) Any attempt to violate the clear intent and spirit of this measure undermines the trust of the people in their government and will increase the likelihood of future tax limitation measures." [2003 c 1 § 11 (Initiative Measure No. 776, approved November 5, 2002).]

GENERAL PROVISIONS

46.18.005 Intent. (Effective July 1, 2011.) The legislature has seen an increase in the demand from constituent groups seeking recognition and funding through the establishment of commemorative or special license plates. The high cost of implementing a new special license plate series coupled with the uncertainty of the state’s ability to recoup its costs has led the legislature to delay the implementation of new special license plates. In order to address these issues, it is the intent of the legislature to create a mechanism that will allow for the evaluation of special license plate requests and establish a funding policy that will alleviate the financial burden currently placed on the state. Using these two strategies, the legislature will be better equipped to efficiently process special license plate legislation. [2010 c 161 § 601; 2003 c 196 § 1. Formerly RCW 46.16.700.]

Reviser’s note: 2010 c 161 § 1226 directed that RCW 46.16.700 be recodified under the subchapter heading “review board” under chapter 46.18 RCW. However, recodification under the subchapter heading “general provisions” appears to be more appropriate.

Finding—1997 c 291: "The legislature finds that the proliferation of special license plate series has decreased the ready identification of vehicles by law enforcement, and increased the amount of computer programming conducted by the department of licensing, thereby increasing costs. Furthermore, rarely has the actual demand for special license plates met the requesters’ projections. Most importantly, special plates detract from the primary purpose of license plates, that of vehicle identification." [1997 c 291 § 1.]

(1) A driver’s license or identicard applicant must provide the department with at least one of the following pieces of valid identifying documentation that contains the signature and a photograph of the applicant:

(a) A valid or recently expired driver’s license or instruction permit that includes the date of birth of the applicant;

46.20.037 Biometric matching system—Administration—Exception. (1) No later than two years after full implementation of the provisions of Title II of P.L. 109-13, improved security for driver’s licenses and personal identification cards (Real ID), as passed by Congress May 10, 2005, the department shall implement a voluntary biometric matching system for driver’s licenses and identicards. A biometric matching system shall be used only to verify the identity of an applicant for a renewal or duplicate driver’s license or identicard by matching a biometric identifier submitted by the applicant against the biometric identifier submitted when the license was last issued. This project requires a full review by the information services board using the criteria for projects of the highest visibility and risk.

(2) Any biometric matching system selected by the department shall be capable of highly accurate matching, and shall be compliant with biometric standards established by the American association of motor vehicle administrators.

(3) The biometric matching system selected by the department must incorporate a process that allows the owner of a driver’s license or identicard to present a personal identification number or other code along with the driver’s license or identicard before the information may be verified by a third party, including a governmental entity.

(4) Upon the establishment of a biometric driver’s license and identicard system as described in this section, the department shall allow every person applying for an original, renewal, or duplicate driver’s license or identicard to voluntarily submit a biometric identifier. Each applicant shall be informed of all ways in which the biometric identifier may be used, all parties to whom the identifier may be disclosed and the conditions of disclosure, the expected error rates for the biometric matching system which shall be regularly updated as the technology changes or empirical data is collected, and the potential consequences of those errors. The department shall adopt rules to allow applicants to verify the accuracy of the system at the time that biometric information is submitted, including the use of at least two separate devices.

(5) The department may not disclose biometric information to the public or any governmental entity except when authorized by court order.

(6) All biometric information shall be stored with appropriate safeguards, including but not limited to encryption.

(7) The department shall develop procedures to handle instances in which the biometric matching system fails to verify the identity of an applicant for a renewal or duplicate driver’s license or identicard. These procedures shall allow an applicant to prove identity without using a biometric identifier.

(8) Any person who has voluntarily submitted a biometric identifier may choose to discontinue participation in the biometric matching program at any time, provided that the department utilizes a secure procedure to prevent fraudulent requests for a renewal or duplicate driver’s license or identicard. When the person discontinues participation, any previously collected biometric information shall be destroyed.

(9) This section does not apply when an applicant renews his or her driver’s license or identicard by mail or electronic commerce. [2006 c 292 § 1; 2004 c 273 § 3.]
(ii) The statement may not be offered as evidence in any court except when appeal is taken from the order of the director canceling or withholding a person’s driving privilege. However, the department may make the statement available to the director of the department of retirement systems for use in determining eligibility for or continuance of disability benefits and it may be offered and admitted as evidence in any administrative proceeding or court action concerning the disability benefits.

(2) On the basis of the evaluation the department may:
   (a) Issue or renew a driver’s license to the person without restrictions;
   (b) Cancel or withhold the driving privilege from the person; or
   (c) Issue a restricted driver’s license to the person. The restrictions must be suitable to the licensee’s driving ability. The restrictions may include:
      (i) Special mechanical control devices on the motor vehicle operated by the licensee;
      (ii) Limitations on the type of motor vehicle that the licensee may operate; or
      (iii) Other restrictions determined by the department to be appropriate to assure the licensee’s safe operation of a motor vehicle.

(3) The department may either issue a special restricted license or may set forth the restrictions upon the usual license form.

(4) The department may suspend or revoke a restricted license upon receiving satisfactory evidence of any violation of the restrictions. In that event the licensee is entitled to a driver improvement interview and a hearing as provided by RCW 46.20.322 or 46.20.328.

(5) Operating a motor vehicle in violation of the restrictions imposed in a restricted license is a traffic infraction. RCW 46.20.322 or 46.20.328.

   (a) The person has immediate possession of the permit;

   (c) An approved instructor, or a licensed driver with at least five years of driving experience, occupies the seat beside the driver.

(4) Term of instruction permit. A driver’s instruction permit is valid for one year from the date of issue.

46.20.118 Negative file. (1) The department shall maintain a negative file. It shall contain negatives of all pictures taken by the department of licensing as authorized by this chapter. Negatives in the file shall not be available for public inspection and copying under chapter 42.56 RCW.

(2) The department may make the file available to official governmental enforcement agencies to assist in the investigation by the agencies of suspected criminal activity or for the purposes of verifying identity when a law enforcement officer is authorized by law to request identification from an individual.

Purpose—1969 ex.s. c 155: "The identification of the injured or the seriously ill is often difficult. The need for an identification file to facilitate use by proper law enforcement officers has hampered law enforcement. Personal identification for criminal, personal and commercial reasons is becoming most important at a time when it is increasingly difficult to accomplish. The legislature finds that the public health and welfare requires a standard and readily recognizable means of identification of each person living within the state. The legislature further finds that the need for an identification file by law enforcement agencies must be met. The use of photographic drivers' licenses will greatly aid the problem, but some means of identification must be provided for persons who do not possess a driver's license. The purpose of this 1969 amendatory act is to provide for the positive identification of persons, both through an expanded use of drivers' licenses and also through issue of personal identification cards for nondrivers." 46.20.120 Examinations—Waiver—Renewals—Fees. An applicant for a new or renewed driver’s license must successfully pass a driver licensing examination to qualify for a driver’s license. The department shall give examinations at places and times reasonably available to the people of this state.

(1) Waiver. The department may waive:

(a) All or any part of the examination of any person applying for the renewal of a driver’s license unless the department determines that the applicant is not qualified to hold a driver’s license under this title; or

(b) All or any part of the examination involving operating a motor vehicle if the applicant:

(i) Surrenders a valid driver’s license issued by the person’s previous home state; or

(ii) Provides for verification a valid driver’s license issued by a foreign driver licensing jurisdiction with which the department has an informal agreement under RCW 46.20.125; and

(iii) Is otherwise qualified to be licensed.

(2) Fee. Each applicant for a new license must pay an examination fee of twenty dollars.

(a) The examination fee is in addition to the fee charged for issuance of the license.

(b) "New license" means a license issued to a driver:

(i) Who has not been previously licensed in this state; or

(ii) Whose last previous Washington license has been expired for more than five years.

(3) An application for driver’s license renewal may be submitted by means of:

(a) Personal appearance before the department; or

(b) Mail or electronic commerce, if permitted by rule of the department and if the applicant did not renew his or her license by mail or by electronic commerce when it last expired. However, the department may accept an application for renewal of a driver’s license submitted by means of mail or electronic commerce only if specific authority and funding is provided for this purpose by June 30, 2004, in the omnibus transportation appropriations act.

(4) A person whose license expired or will expire while he or she is living outside the state, may:

(a) Apply to the department to extend the validity of his or her license for no more than twelve months. If the person establishes to the department’s satisfaction that he or she is unable to return to Washington before the date his or her license expires, the department shall extend the person’s license. The department may grant consecutive extensions, but in no event may the cumulative total of extensions exceed twelve months. An extension granted under this section does not change the expiration date of the license for purposes of RCW 46.20.181. The department shall charge a fee of five dollars for each license extension;

(b) Apply to the department to renew his or her license by mail or, if permitted by rule of the department, by electronic commerce even if subsection (3)(b) of this section would not otherwise allow renewal by that means. If the person establishes to the department’s satisfaction that he or she is unable to return to Washington within twelve months of the date that his or her license expires, the department shall renew the person’s license by mail or, if permitted by rule of the department, by electronic commerce.

(5) If a qualified person submits an application for renewal under subsection (3)(b) or (4)(b) of this section, he or she is not required to pass an examination nor provide an updated photograph. A license renewed by mail or by electronic commerce that does not include a photograph of the licensee must be labeled "not valid for identification purposes." [2005 c 314 § 306; 2005 c 61 § 2; 2004 c 249 § 6; 2002 c 352 § 13. Prior: 1999 c 308 § 1; 1999 c 199 § 3; 1999 c 6 § 19; 1990 c 9 § 1; 1988 c 88 § 2; 1985 ex.s. c 1 § 4; 1979 c 61 § 6; 1975 1st ex.s. c 191 § 2; 1967 c 167 § 4; 1965 ex.s.
46.20.125 Waiver—Agreement with other jurisdictions. (1) The department may enter into an informal agreement with one or more other licensing jurisdictions to waive the requirement for the examination involving operating a motor vehicle by licensed drivers, age eighteen years or older, from that jurisdiction.

(2) The department may only enter into an agreement with a jurisdiction if:

(a) The jurisdiction has procedures in place to verify the validity of the drivers’ licenses it issues; and

(b) The jurisdiction has agreed to waive all or any part of the driver’s license examination requirements for Washington licensed drivers applying for a driver’s license in that jurisdiction. [2005 c 61 § 3.]

Intent—2005 c 61: "The legislature recognizes the importance of global markets to our state and national economy. As a leader among states in international commerce, Washington houses many multinational corporations. Competition among states for foreign businesses and personnel is fierce and it is necessary to Washington’s future economic viability to eliminate a significant regulatory barrier to efficient personnel exchange, resulting in a more attractive business climate in Washington. The legislature recognizes that more than twenty other states have entered into informal reciprocal agreements with other nations to waive driver’s license testing requirements in order to ease the transition of personnel to and from those states. By removing an unnecessary barrier to efficient personnel mobility it is the intent of the legislature to strengthen and diversify Washington’s economy." [2005 c 61 § 1.]

46.20.126 Rules. The department may make rules to carry out the purposes of RCW 46.20.120 and 46.20.125. [2005 c 61 § 4.]

If the applicant is deaf or hearing impaired, the applicant may be accompanied by an interpreter to assist the applicant during the demonstration. (d) Such further examination as the director deems necessary:

(i) To determine whether any facts exist that would bar the issuance of a vehicle operator’s license under chapters 46.20, 46.21, and 46.29 RCW; and

(ii) To determine the applicant’s fitness to operate a motor vehicle safely on the highways.

(2) If the applicant desires to drive a motorcycle or a motor-driven cycle he or she must qualify for a motorcycle endorsement under RCW 46.20.500 through 46.20.515. 46.20.245 Mandatory revocation—Notice—Administrative, judicial review—Rules—Application. (1) Whenever the department proposes to withhold the driving privilege of a person or disqualify a person from operating a commercial motor vehicle and this action is made mandatory by the provisions of this chapter or other law, the department must give notice to the person in writing by posting in the United States mail, appropriately addressed, postage prepaid, or by personal service. Notice by mail is given upon deposit in the United States mail. Notice given under this subsection must specify the date upon which the driving privilege is to be withheld which shall not be less than forty-five days after the original notice is given.

(2) Within fifteen days after notice has been given to a person under subsection (1) of this section, the person may request in writing an administrative review before the department. If the request is mailed, it must be postmarked within fifteen days after the date the department has given notice. If a person fails to request an administrative review within fifteen days after the date the department gives notice, the person is considered to have defaulted and loses his or her right to an administrative review unless the department finds good cause for a request after the fifteen-day period.

(a) An administrative review under this subsection shall consist solely of an internal review of documents and records

(b) The only issues to be addressed in the administrative review are:

(i) Whether the records relied on by the department identify the correct person; and
(ii) Whether the information transmitted from the court or other reporting agency or entity regarding the person accurately describes the action taken by the court or other reporting agency or entity.

c) For the purposes of this section, the notice received from a court or other reporting agency or entity, regardless of form or format, is prima facie evidence that the information from the court or other reporting agency or entity regarding the person is accurate. A person requesting administrative review has the burden of showing by a preponderance of the evidence that the person is not subject to the withholding of the driving privilege.

(d) The action subject to the notification requirements of subsection (1) of this section shall be stayed during the administrative review process.

e) Judicial review of a department order affirming the action subject to the notification requirements of subsection (1) of this section after an administrative review shall be available in the same manner as provided in RCW 46.20.308(9). The department shall certify its record to the court within thirty days after service upon the department of the petition for judicial review. The action subject to the notification requirements of subsection (1) of this section shall not automatically be stayed during the judicial review. If judicial relief is sought for a stay or other temporary remedy from the department’s action, the court shall not grant relief unless the court finds that the appellant is likely to prevail in the appeal and that without a stay the appellant will suffer irreparable injury.

(3) The department may adopt rules that are considered necessary or convenient by the department for purposes of administering this section, including, but not limited to, rules regarding expedited procedures for issuing orders and expedited notice procedures.

(4) This section does not apply where an opportunity for an informal settlement, driver improvement interview, or formal hearing is otherwise provided by law or rule of the department. [2005 c 288 § 1.]

c) Each offense for which the department receives notice shall result in a separate period of revocation. All periods of revocation imposed under this section that could otherwise overlap shall run consecutively up to the juvenile’s twenty-first birthday, and no period of revocation imposed under this section shall begin before the expiration of all other periods of revocation imposed under this section or other law. Periods of revocation imposed consecutively under this section shall not extend beyond the juvenile’s twenty-first birthday.

(3)(a) If the department receives notice from a court that the juvenile’s privilege to drive should be reinstated, the department shall immediately reinstate any driving privileges that have been revoked under this section if the minimum term of revocation as specified in RCW 13.40.265(1)(c), 66.44.365(3), 69.41.065(3), 69.50.420(3), 69.52.070(3), or similar ordinance has expired, and subject to subsection (2)(c) of this section.

(b) The juvenile may seek reinstatement of his or her driving privileges from the department when the juvenile reaches the age of twenty-one. A notice from the court reinstating the juvenile’s driving privilege shall not be required if reinstatement is pursuant to this subsection.

(b) If the diversion agreement was for the juvenile’s first violation of chapter 66.44, 69.41, 69.50, or 69.52 RCW, the department shall not reinstate the juvenile’s privilege to drive until the later of ninety days after the date the juvenile turns sixteen or ninety days after the juvenile entered into a diversion agreement for the offense. If the diversion agreement was for the juvenile’s second or subsequent violation of chapter 66.44, 69.41, 69.50, or 69.52 RCW, the department shall not reinstate the juvenile’s privilege to drive until the later of the date the juvenile turns seventeen or one year after the juvenile entered into the second or subsequent diversion agreement. 46.20.270 Conviction of offense requiring withholding driving privilege—Procedures—Definitions. (Contingent expiration date.) (1) Whenever any person is convicted of any offense for which this title makes mandatory the withholding of the driving privilege of such person by the department, the court in which such conviction is had shall forthwith mark the person’s Washington state driver’s license or permit to drive, if any, in a manner authorized by the department. A valid driver’s license or permit to drive marked under this subsection shall remain in effect until the person’s driving privilege is withheld by the department pursuant to notice given under RCW 46.20.245, unless the license or permit expires or otherwise becomes invalid prior to the effective date of this action. Perfection of notice of appeal shall stay the execution of sentence including the withholding of the driving privilege.

(2) Every court having jurisdiction over offenses committed under this chapter, or any other act of this state or municipal ordinance adopted by a state or local authority regulating the operation of motor vehicles on highways, may forward to the department within ten days of failure to respond, failure to pay a penalty, failure to appear at a hearing to contest the determination that a violation of any statute, ordinance, or regulation relating to standing, stopping, parking, or other infraction issued under RCW 46.63.030(1)(d) has been committed, or failure to appear at a hearing to explain mitigating circumstances, an abstract of the citation record in the form prescribed by rule of the department, showing the finding by such municipality that two or more violations of laws governing standing, stopping, and parking or one or more other infractions issued under RCW 46.63.030(1)(d) have been committed and indicating the nature of the defendant’s failure to act. Such violations or infractions may not have occurred while the vehicle is stolen from the registered owner or is leased or rented under a bona fide commercial vehicle lease or rental agreement between a lessor engaged in the business of leasing vehicles and a lessee who is not the vehicle’s registered owner. The department may enter into agreements of reciprocity with the duly authorized representatives of the states for reporting to each other violations of laws governing standing, stopping, and parking.

46.20.308 Implied consent—Test refusal—Proce-
dures. (1) Any person who operates a motor vehicle within
this state is deemed to have given consent, subject to the pro-
visions of RCW 46.61.506, to a test or tests of his or her
breath or blood for the purpose of determining the alcohol
concentration or presence of any drug in his or her breath or
blood if arrested for any offense where, at the time of the
arrest, the arresting officer has reasonable grounds to believe
the person had been driving or was in actual physical control
of a motor vehicle while under the influence of intoxicating
liquor or any drug or was in violation of RCW 46.61.503.
Neither consent nor this section precludes a police officer
from obtaining a search warrant for a person’s breath or
blood.
(2) The test or tests of breath shall be administered at
the direction of a law enforcement officer having reasonable
grounds to believe the person to have been driving or in
actual physical control of a motor vehicle within this state
while under the influence of intoxicating liquor or any drug
or the person to have been driving or in actual physical con-
trol of a motor vehicle while having alcohol in a concentra-
tion in violation of RCW 46.61.503 in his or her system and
being under the age of twenty-one. However, in those
instances where the person is incapable due to physical
injury, physical incapacity, or other physical limitation, of
providing a breath sample or where the person is being
treated in a hospital, clinic, doctor’s office, emergency med-
cal vehicle, ambulance, or other similar facility or where the
officer has reasonable grounds to believe that the person is
under the influence of a drug, a blood test shall be adminis-
tered by a qualified person as provided in RCW 46.61.506(5).
The officer shall inform the person of his or her right to refuse
the breath or blood test, and of his or her right to have addi-
tional tests administered by any qualified person of his or her
choosing as provided in RCW 46.61.506. The officer shall
warn the driver, in substantially the following language, that:
(a) If the driver refuses to take the test, the driver’s
license, permit, or privilege to drive will be revoked or denied
for at least one year; and
(b) If the driver refuses to take the test, the driver’s
refusal to take the test may be used in a criminal trial; and
(c) If the driver submits to the test and the test is admin-
istered by a qualified person as provided in RCW 46.61.506(5).
(d) If the driver’s license, permit, or privilege to drive is
suspended, revoked, or denied for at least ninety days if
the driver is under age twenty-one and the test indicates the
alcohol concentration of the driver’s breath or blood is 0.08
or more, or if the driver is under age twenty-one and the test
indicates the alcohol concentration of the driver’s breath or
blood is 0.02 or more, or if the driver is under age twenty-one
and the driver is in violation of RCW 46.61.502 or 46.61.504;
and
(e) If the driver’s license, permit, or privilege to drive is
suspended, revoked, or denied the driver may be eligible to
immediately apply for an ignition interlock driver’s license.
(3) Except as provided in this section, the test adminis-
tered shall be of the breath only. If an individual is uncon-
scious or is under arrest for the crime of vehicular homicide
as provided in RCW 46.61.520 or vehicular assault as pro-
vided in RCW 46.61.522, or if an individual is under arrest
for the crime of driving while under the influence of intosci-
tating liquor or drugs as provided in RCW 46.61.502, which
arrest results from an accident in which there has been serious
bodily injury to another person, a breath or blood test may be
administered without the consent of the individual so
arrested.
(4) Any person who is dead, unconscious, or who is oth-
erwise in a condition rendering him or her incapable of
refusal, shall be deemed not to have withdrawn the consent
provided by subsection (1) of this section and the test or tests
may be administered, subject to the provisions of RCW
46.61.506, and the person shall be deemed to have received
the warnings required under subsection (2) of this section.
(5) If, following his or her arrest and receipt of warnings under subsection (2) of this section, the person arrested refuses upon the request of a law enforcement officer to submit to a test or tests of his or her breath or blood, no test shall be given except as authorized under subsection (3) or (4) of this section.

(6) If, after arrest and after the other applicable conditions and requirements of this section have been satisfied, a test or tests of the person’s breath or blood is administered and the test results indicate that the alcohol concentration of the person’s breath or blood is 0.08 or more if the person is age twenty-one or over, or 0.02 or more if the person is under the age of twenty-one, or the person refuses to submit to a test, the arresting officer or other law enforcement officer at whose direction any test has been given, or the department, where applicable, if the arrest results in a test of the person’s blood, shall:

(a) Serve notice in writing on the person on behalf of the department of its intention to suspend, revoke, or deny the person’s license, permit, or privilege to drive as required by subsection (7) of this section;

(b) Serve notice in writing on the person on behalf of the department of his or her right to a hearing, specifying the steps he or she must take to obtain a hearing as provided by subsection (8) of this section and that the person waives the right to a hearing if he or she receives an ignition interlock driver’s license;

(c) Mark the person’s Washington state driver’s license or permit to drive, if any, in a manner authorized by the department;

(d) Serve notice in writing that the marked license or permit, if any, is a temporary license that is valid for sixty days from the date of arrest or from the date notice has been given in the event notice is given by the department following a blood test, or until the suspension, revocation, or denial of the person’s license, permit, or privilege to drive is sustained at a hearing pursuant to subsection (8) of this section, whichever occurs first. No temporary license is valid to any greater degree than the license or permit that it replaces; and

(e) Immediately notify the department of the arrest and transmit to the department within seventy-two hours, except as delayed as the result of a blood test, a sworn report or report under a declaration authorized by RCW 9A.72.085 that states:

(i) That the officer had reasonable grounds to believe the arrested person had been driving or was in actual physical control of a motor vehicle within this state while under the influence of intoxicating liquor or drugs, or both, or was under the age of twenty-one years and had been driving or was in actual physical control of a motor vehicle while having an alcohol concentration in violation of RCW 46.61.503;

(ii) That after receipt of the warnings required by subsection (2) of this section the person refused to submit to a test of his or her blood or breath, or a test was administered and the results indicated that the alcohol concentration of the person’s breath or blood was 0.08 or more if the person is age twenty-one or over, or was 0.02 or more if the person is under the age of twenty-one; and

(iii) Any other information that the director may require by rule.

(7) The department of licensing, upon the receipt of a sworn report or report under a declaration authorized by RCW 9A.72.085 under subsection (6)(e) of this section, shall suspend, revoke, or deny the person’s license, permit, or privilege to drive or any nonresident operating privilege, as provided in RCW 46.20.3101, such suspension, revocation, or denial to be effective beginning sixty days from the date of arrest or from the date notice has been given in the event notice is given by the department following a blood test, or when sustained at a hearing pursuant to subsection (8) of this section, whichever occurs first.

(8) A person receiving notification under subsection (6)(b) of this section may, within twenty days after the notice has been given, request in writing a formal hearing before the department. The person shall pay a fee of two hundred dollars as part of the request. If the request is mailed, it must be postmarked within twenty days after receipt of the notification. Upon timely receipt of such a request for a formal hearing, including receipt of the required two hundred dollar fee, the department shall afford the person an opportunity for a hearing. The department may waive the required two hundred dollar fee if the person is an indigent as defined in RCW 10.101.010. Except as otherwise provided in this section, the hearing is subject to and shall be scheduled and conducted in accordance with RCW 46.20.329 and 46.20.332. The hearing shall be conducted in the county of the arrest, except that all or part of the hearing may, at the discretion of the department, be conducted by telephone or other electronic means. The hearing shall be held within sixty days following the arrest or following the date notice has been given in the event notice is given by the department following a blood test, unless otherwise agreed to by the department and the person, in which case the action by the department shall be stayed, and any valid temporary license marked under subsection (6)(c) of this section extended, if the person is otherwise eligible for licensing. For the purposes of this section, the scope of the hearing shall cover the issues of whether a law enforcement officer had reasonable grounds to believe the person had been driving or was in actual physical control of a motor vehicle within this state while under the influence of intoxicating liquor or any drug or had been driving or was in actual physical control of a motor vehicle within this state while having alcohol in his or her system in a concentration of 0.02 or more if the person was under the age of twenty-one, whether the person was placed under arrest, and (a) whether the person refused to submit to the test or tests upon request of the officer after having been informed that such refusal would result in the revocation of the person’s license, permit, or privilege to drive, or (b) if a test or tests were administered, whether the applicable requirements of this section were satisfied before the administration of the test or tests, whether the person submitted to the test or tests, or whether a test was administered without express consent as permitted under this section, and whether the test or tests indicated that the alcohol concentration of the person’s breath or blood was 0.08 or more if the person was age twenty-one or over at the time of the arrest, or 0.02 or more if the person was under the age of twenty-one at the time of the arrest. The sworn report or report under a declaration authorized by RCW 9A.72.085 submitted by a law enforcement officer is prima facie evidence that the officer had reasonable grounds to believe the
person had been driving or was in actual physical control of a motor vehicle within this state while under the influence of intoxicating liquor or drugs, or both, or the person had been driving or was in actual physical control of a motor vehicle within this state while having alcohol in his or her system in a concentration of 0.02 or more and was under the age of twenty-one and that the officer complied with the requirements of this section.

A hearing officer shall conduct the hearing, may issue subpoenas for the attendance of witnesses and the production of documents, and shall administer oaths to witnesses. The hearing officer shall not issue a subpoena for the attendance of a witness at the request of the person unless the request is accompanied by the fee required by RCW 5.56.010 for a witness in district court. The sworn report or report under a declaration authorized by RCW 9A.72.085 of the law enforcement officer and any other evidence accompanying the report shall be admissible without further evidentiary foundation and the certifications authorized by the criminal rules for courts of limited jurisdiction shall be admissible without further evidentiary foundation. The person may be represented by counsel, may question witnesses, may present evidence, and may testify. The department shall order that the suspension, revocation, or denial either be rescinded or sustained.

(9) If the suspension, revocation, or denial is sustained after such a hearing, the person whose license, privilege, or permit is suspended, revoked, or denied has the right to file a petition in the superior court of the county of arrest to review the final order of revocation by the department in the same manner as an appeal from a decision of a court of limited jurisdiction. Notice of appeal must be filed within thirty days after the date the final order is served or the right to appeal is waived. Notwithstanding RCW 46.20.334, RALJ 1.1, or other statutes or rules referencing de novo review, the appeal shall be limited to a review of the record of the administrative hearing. The appellant must pay the costs associated with obtaining the record of the hearing before the hearing officer. The filing of the appeal does not stay the effective date of the suspension, revocation, or denial. A petition filed under this subsection must include the petitioner’s grounds for requesting review. Upon granting petitioner’s request for review, the court shall review the department’s final order of suspension, revocation, or denial as expeditiously as possible. The review must be limited to a determination of whether the department has committed any errors of law. The superior court shall accept those factual determinations supported by substantial evidence in the record: (a) That were expressly made by the department; or (b) that may reasonably be inferred from the final order of the department. The superior court may reverse, affirm, or modify the decision of the department or remand the case back to the department for further proceedings. The decision of the superior court must be in writing and filed in the clerk’s office with the other papers in the case. The court shall state the reasons for the decision. If judicial relief is sought for a stay or other temporary remedy from the department’s action, the court shall not grant such relief unless the court finds that the appellant is likely to prevail in the appeal and that without a stay the appellant will suffer irreparable injury. If the court stays the suspension, revocation, or denial it may impose conditions on such stay.

(10)(a) If a person whose driver’s license, permit, or privilege to drive has been or will be suspended, revoked, or denied under subsection (7) of this section, other than as a result of a breath or blood test refusal, and who has not committed an offense for which he or she was granted a deferred prosecution under chapter 10.05 RCW, petitions a court for a deferred prosecution on criminal charges arising out of the arrest for which action has been or will be taken under subsection (7) of this section, or notifies the department of licensing of the intent to seek such a deferred prosecution, then the license suspension or revocation shall be stayed pending entry of the deferred prosecution. The stay shall not be longer than one hundred fifty days after the date charges are filed, or two years after the date of the arrest, whichever time period is shorter. If the court stays the suspension, revocation, or denial, it may impose conditions on such stay. If the person is otherwise eligible for licensing, the department shall issue a temporary license, or extend any valid temporary license marked under subsection (6) of this section, for the period of the stay. If a deferred prosecution treatment plan is not recommended in the report made under RCW 10.05.050, or if treatment is rejected by the court, or if the person declines to accept an offered treatment plan, or if the person violates any condition imposed by the court, then the court shall immediately direct the department to cancel the stay and any temporary marked license or extension of a temporary license issued under this subsection.

(b) A suspension, revocation, or denial imposed under this section, other than as a result of a breath or blood test refusal, shall be stayed if the person is accepted for deferred prosecution as provided in chapter 10.05 RCW for the incident upon which the suspension, revocation, or denial is based. If the deferred prosecution is terminated, the stay shall be lifted and the suspension, revocation, or denial reinstated. If the deferred prosecution is completed, the stay shall be lifted and the suspension, revocation, or denial canceled.

(c) The provisions of (b) of this subsection relating to a stay of a suspension, revocation, or denial and the cancellation of any suspension, revocation, or denial do not apply to the suspension, revocation, denial, or disqualification of a person’s commercial driver’s license or privilege to operate a commercial motor vehicle.

(11) When it has been finally determined under the procedures of this section that a nonresident’s privilege to operate a motor vehicle in this state has been suspended, revoked, or denied, the department shall give information in writing of the action taken to the motor vehicle administrator of the state of the person’s residence and of any state in which he or she has a license. (b) For a second or subsequent refusal within seven years, or for a first refusal where there has been one or more previous incidents within seven years that have resulted in administrative action under this section, revocation or denial for two years or until the person reaches age twenty-one, whichever is longer.

(2010 Ed.)
person’s eligibility for licensing based upon written verification by a company doing business in the state that it has installed the required device on a vehicle owned or operated by the person seeking reinstatement. If, based upon notification from the interlock provider or otherwise, the department determines that an interlock required under RCW 46.20.720 is no longer installed or functioning as required, the department shall suspend the person’s license or privilege to drive. Whenever the license or driving privilege of any person is suspended or revoked as a result of noncompliance with an ignition interlock requirement, the suspension shall remain in effect until the person provides notice issued by a company doing business in the state that a vehicle owned or operated by the person is equipped with a functioning ignition interlock device.

(d) Whenever the license or driving privilege of any person is suspended as a result of certification of noncompliance with a child support order under chapter 74.20A RCW or a residential or visitation order, the suspension shall remain in effect until the person provides a release issued by the department of social and health services stating that the person is in compliance with the order.

(e)(i) The department shall not issue to the person a new, duplicate, or renewal license until the person pays a reissue fee of seventy-five dollars.

(ii) If the suspension is the result of a violation of RCW 46.61.502 or 46.61.504, or is the result of administrative action under RCW 46.20.308, the reissue fee shall be one hundred fifty dollars.

(2)(a) Any person whose license or privilege to drive a motor vehicle on the public highways has been revoked, unless the revocation was for a cause which has been removed, is not entitled to have the license or privilege renewed or restored until: (i) After the expiration of one year from the date the license or privilege to drive was revoked; (ii) after the expiration of the applicable revocation period provided by RCW 46.20.3101 or 46.61.5055; (iii) after the expiration of two years for persons convicted of vehicular homicide; or (iv) after the expiration of the applicable revocation period provided by RCW 46.20.265.

(b)(i) After the expiration of the appropriate period, the person may make application for a new license as provided by law together with a reissue fee in the amount of seventy-five dollars.

(ii) If the revocation is the result of a violation of RCW 46.20.308, 46.61.502, or 46.61.504, the reissue fee shall be one hundred fifty dollars. If the revocation is the result of a nonfelony violation of RCW 46.61.502 or 46.61.504, and the person is required pursuant to RCW 46.20.720 to drive only a motor vehicle equipped with a functioning ignition interlock or other biological or technical device, the department shall determine the person’s eligibility for licensing based upon written verification by a company doing business in the state that it has installed the required device on a vehicle owned or operated by the person applying for a new license. If, following issuance of a new license, the department determines, based upon notification from the interlock provider or otherwise, that an interlock required under RCW 46.20.720 is no longer functioning, the department shall suspend the person’s license or privilege to drive until the department has received written verification from an interlock provider that a functioning interlock is installed.

(c) Except for a revocation under RCW 46.20.265, the department shall not then issue a new license unless it is satisfied after investigation of the driving ability of the person that it will be safe to grant the privilege of driving a motor vehicle on the public highways, and until the person gives and thereafter maintains proof of financial responsibility for the future as provided in chapter 46.29 RCW. For a revocation under RCW 46.20.265, the department shall not issue a new license unless it is satisfied after investigation of the driving ability of the person that it will be safe to grant the person the privilege of driving a motor vehicle on the public highways.

(3)(a) Whenever the driver’s license of any person is suspended pursuant to Article IV of the nonresident violators compact or RCW 46.23.020 or 46.20.289 or 46.20.291(5), the department shall not issue to the person any new or renewal license until the person pays a reissue fee of seventy-five dollars.

(b) If the suspension is the result of a violation of the laws of this or any other state, province, or other jurisdiction involving (i) the operation or physical control of a motor vehicle upon the public highways while under the influence of intoxicating liquor or drugs, or (ii) the refusal to submit to a chemical test of the driver’s blood alcohol content, the reissue fee shall be one hundred fifty dollars. DRIVER IMPROVEMENT

46.20.322 Interview before suspension, etc.—Exceptions—Appearance of minor’s parent or guardian. (1) Whenever the department proposes to suspend or revoke the driving privilege of any person or proposes to impose terms of probation on a person’s driving privilege or proposes to refuse to renew a driver’s license, notice and an opportunity for a driver improvement interview shall be given before taking such action, except as provided in RCW 46.20.324 and 46.20.325.

(2) Whenever the department proposes to suspend, revoke, restrict, or condition a minor driver’s driving privilege the department may require the appearance of the minor’s legal guardian or father or mother, otherwise the parent or guardian having custody of the minor. [1979 c 61 § 10; 1973 1st ex.s. c 154 § 88; 1967 c 167 § 6; 1965 ex.s. c 121 § 29.]

46.20.323 Notice of interview—Contents. The notice shall contain a statement setting forth the proposed action and the grounds therefor, and notify the person to appear for a driver improvement interview not less than ten days from the date notice is given. [1965 ex.s. c 121 § 30.]

46.20.324 Persons not entitled to interview or hearing. Unless otherwise provided by law, a person shall not be entitled to a driver improvement interview or formal hearing under the provisions of RCW 46.20.322 through 46.20.333 when the person:

(1) Has been granted the opportunity for an administrative review, informal settlement, or formal hearing under RCW 46.20.245, 46.20.308, 46.25.120, 46.25.125, 46.65.065, 74.20A.320, or by rule of the department; or

Effective date—2005 c 288: See note following RCW 46.20.245.

46.20.325 Suspension or probation before interview—Alternative procedure. In the alternative to the procedure set forth in RCW 46.20.322 and 46.20.323 the department, whenever it determines from its records or other sufficient evidence that the safety of persons upon the highways requires such action, shall forthwith and without a driver improvement interview suspend the privilege of a person to operate a motor vehicle or impose reasonable terms and conditions of probation consistent with the safe operation of a motor vehicle. The department shall in such case, immediately notify such licensee in writing and upon his or her request shall afford him or her an opportunity for a driver improvement interview as early as practical within not to exceed seven days after receipt of such request, or the department, at the time it gives notice may set the date of a driver improvement interview, giving not less than ten days’ notice thereof. [2010 c 8 § 9021; 1965 ex.s. c 121 § 32.]

46.20.326 Failure to appear or request interview constitutes waiver—Procedure. Failure to appear for a driver improvement interview at the time and place stated by the department in its notice as provided in RCW 46.20.322 and 46.20.323 or failure to request a driver improvement interview within ten days as provided in RCW 46.20.325 constitutes a waiver of a driver improvement interview, and the department may take action without such driver improvement interview, or the department may, upon request of the person whose privilege to drive may be affected, or at its own option, re-open the case, take evidence, change or set aside any order theretofore made, or grant a driver improvement interview. [1990 c 250 § 46; 1965 ex.s. c 121 § 33.]

Additional notes found at www.leg.wa.gov

46.20.327 Conduct of interview—Referee—Evidence—Not deemed hearing. A driver improvement interview shall be conducted in a completely informal manner before a driver improvement analyst sitting as a referee. The applicant or licensee shall have the right to make or file a written answer or statement in which he or she may controvert any point at issue, and present any evidence or arguments for the consideration of the department pertinent to the action taken or proposed to be taken or the grounds therefor. The department may consider its records relating to the applicant or licensee. The driver improvement interview shall not be deemed an agency hearing. [2010 c 8 § 9022; 1965 ex.s. c 121 § 34.]

Upon the conclusion of a driver improvement interview, the department’s referee shall make findings on the matter under consideration and shall notify the person involved in writing by personal service of the findings. Any decision by the department suspending or revoking a person’s driving privilege shall be stayed and shall not take effect while a formal hearing is pending as herein provided or during the pendency of a subsequent appeal to superior court: PROVIDED, That this stay shall be effective only so long as there is no conviction of a moving violation or a finding that the person has committed a traffic infraction which is a moving violation during pendency of hearing and appeal: PROVIDED FURTHER, That nothing in this section shall be construed as prohibiting the department from seeking an order setting aside the stay during the pendency of such appeal in those cases where the action of the department is based upon physical or mental incapacity, or a failure to successfully complete an examination required by this chapter.

A formal hearing shall be conducted by the director or by a person or persons appointed by the director from among the employees of the department. [1982 c 189 § 4; 1981 c 67 § 28; 1979 ex.s. c 136 § 61; 1972 ex.s. c 29 § 1; 1965 ex.s. c 121 § 36.]

The director may delegate to any such designees the authority to render the final decision of the department in such proceedings. Chapter 34.12 RCW shall not apply to such proceedings. In addition the department may require a reexamination of the licensee or applicant. Proceedings at a formal hearing shall be recorded stenographically or by mechanical device. Upon the conclusion of a formal hearing, if not heard by the director or a person authorized by him or her to make final decisions regarding the issuance, denial, suspension, or revocation of licenses, the referee or board shall make findings on the matters under consideration and may prepare and submit recommendations to the director or such person designated by the director who is authorized to make final decisions regarding the issuance, denial, suspension, or revocation of licenses. [2010 c 8 § 9023; 1972 ex.s. c 29 § 2; 1965 ex.s. c 121 § 37.]

The hearing on the appeal hereunder shall be de novo. [2010 c 8 § 9025; 2005 c 288 § 7; 1972 ex.s. c 29 § 4; 1965 ex.s. c 121 § 39.]

Effective date—2005 c 288: See note following RCW 46.20.245.

46.20.335 Probation in lieu of suspension or revocation. (b) Eligibility for the relicensing diversion program shall be limited to violators with no more than four convictions under RCW 46.20.342(1)(c)(iv) in the ten years preceding the date of entering the relicensing diversion program, subject to a less restrictive rule imposed by the presiding judge of the county district court or municipal court. People subject to arrest under a warrant are not eligible for the diversion program.

(c) The diversion option may be offered at the discretion of the prosecuting attorney before charges are filed, or by the court after charges are filed.

The fee of up to one hundred dollars shall be included in the total to be paid by the participant in the relicensing diversion program.

(3) A relicensing diversion program shall be designed to assist suspended drivers to regain their license and insurance and pay outstanding fines.

(1) Upon receipt of an abstract indicating a deferred prosecution has been granted under RCW 10.05.060, or upon receipt of a notice of conviction of RCW 46.61.502 or 46.61.504, the department of licensing shall order the person to surrender any nonprobationary Washington state driver’s license that may be in his or her possession. (c) An applicant under this subsection shall provide proof to the satisfaction of the department that a functioning ignition interlock device has been installed on all vehicles operated by the person.

(i) The department shall require the person to maintain the device on all vehicles operated by the person and shall restrict the person to operating only vehicles equipped with the device, for the remainder of the period of suspension, revocation, or denial. employer and driven as a requirement of employment during working hours. The person must provide the department with a declaration pursuant to RCW 9A.72.085 from his or her employer stating that the person’s employment requires the person to operate a vehicle owned by the employer during working hours.

(ii) Subject to any periodic renewal requirements established by the department under this section and subject to any applicable compliance requirements under this chapter or other law, an ignition interlock driver’s license granted upon a suspension or revocation under RCW 46.61.5055 or 46.20.3101 extends through the remaining portion of any concurrent or consecutive suspension or revocation that may be imposed as the result of administrative action and criminal conviction arising out of the same incident.

The effective date of cancellation shall be fifteen days from the date of mailing the notice. If at any time before the cancellation goes into effect the driver submits evidence that a functioning ignition interlock device has been installed on all vehicles operated by the driver, the cancellation shall be stayed. The department must give notice of the cancellation as provided under RCW 46.20.245. A person whose ignition interlock driver’s license has been canceled under this section may reapply for a new ignition interlock driver’s license if he or she is otherwise qualified under this section and pays the fee required under RCW 46.20.380.

ALCOHOL DETECTION DEVICES

46.20.710 Legislative finding. The legislature finds and declares:
(1) There is a need to reduce the incidence of drivers on the highways and roads of this state who, because of their use, consumption, or possession of alcohol, pose a danger to the health and safety of other drivers;
(2) One method of dealing with the problem of drinking drivers is to discourage the use of motor vehicles by persons who possess or have consumed alcoholic beverages;
(3) The installation of an ignition interlock breath alcohol device or other biological or technical device will provide a means of deterring the use of motor vehicles by persons who have consumed alcoholic beverages;
(4) Ignition interlock and other biological and technical devices are designed to supplement other methods of punishment that prevent drivers from using a motor vehicle after using, possessing, or consuming alcohol;
(5) It is economically and technically feasible to have an ignition interlock or other biological or technical device installed in a motor vehicle in such a manner that the vehicle will not start if the operator has recently consumed alcohol. [1994 c 275 § 21; 1987 c 247 § 1.]

46.20.720 Drivers convicted of alcohol offenses. (Effective until January 1, 2011.) (1) The court may order that after a period of suspension, revocation, or denial of driving privileges, and for up to as long as the court has jurisdiction, any person convicted of any offense involving the use, consumption, or possession of alcohol while operating a motor vehicle may drive only a motor vehicle equipped with a functioning ignition interlock. The court shall establish a specific calibration setting at which the interlock will prevent the vehicle from being started. The court shall also establish the period of time for which interlock use will be required.

(2) Under RCW 46.61.5055, 10.05.020, or *section 18 of this act, the court shall order any person convicted of an alcohol-related violation of RCW 46.61.502 or 46.61.504 or an equivalent local ordinance or participating in a deferred prosecution program under RCW 10.05.020 or *section 18 of this act for an alcohol-related violation of RCW 46.61.502 or 46.61.504 or an equivalent local ordinance to apply for an ignition interlock driver’s license from the department under RCW 46.20.385 and to have a functioning ignition interlock device installed on all motor vehicles operated by the person.

(3) The department shall require that, after any applicable period of suspension, revocation, or denial of driving privileges, a person may drive only a motor vehicle equipped with a functioning ignition interlock device if the person is convicted of an alcohol-related violation of RCW 46.61.502 or 46.61.504 or an equivalent local ordinance. The department may waive the requirement for the use of such a device if it concludes that such devices are not reasonably available in the local area. The device is not necessary on vehicles owned by a person’s employer and driven as a requirement of employment during working hours. The person must provide the department with a declaration pursuant to RCW 9A.72.085 from his or her employer stating that the person’s employment requires the person to operate a vehicle owned by the employer during working hours.

The ignition interlock device shall be calibrated to prevent the motor vehicle from being started when the breath sample provided has an alcohol concentration of 0.025 or more. The period of time of the restriction will be as follows:
(a) For a person who has not previously been restricted under this section, a period of one year;
(b) For a person who has previously been restricted under (a) of this subsection, a period of five years;
(c) For a person who has previously been restricted under (b) of this subsection, a period of ten years. [2008 c 282 § 12; 2004 c 95 § 11; 2003 c 366 § 1; 2001 c 247 § 1; 1999 c 331 § 3; 1998 c 210 § 2; 1997 c 229 § 8; 1994 c 275 § 22; 1987 c 247 § 2.]

*Reviser’s note: Section 18 of this act was vetoed by the governor.

Effective date—2008 c 282: See note following RCW 46.20.308.

Finding—Intent—1998 c 210: “The legislature finds that driving is a privilege and that the state may restrict that privilege in the interests of public safety. One such reasonable restriction is requiring certain individuals, if they choose to drive, to drive only vehicles equipped with ignition interlock devices. The legislature further finds that the costs of these devices are minimal and are affordable. It is the intent of the legislature that these devices be paid for by the drivers using them and that neither the state nor entities of local government provide any public funding for this purpose.” [1998 c 210 § 7.]

Finding—Intent—1998 c 210: “The legislature finds that driving is a privilege and that the state may restrict that privilege in the interests of public safety. One such reasonable restriction is requiring certain individuals, if they choose to drive, to drive only vehicles equipped with ignition interlock devices. The legislature further finds that the costs of these devices are minimal and are affordable. It is the intent of the legislature that these devices be paid for by the drivers using them and that neither the state nor entities of local government provide any public funding for this purpose.”  [1998 c 210 § 7.]

46.20.740  Notation on driving record—Verification of interlock—Penalty.  (Effective until January 1, 2011.)  (1) The department shall attach or imprint a notation on the driving record of any person restricted under RCW 46.20.720 or 46.61.5055 stating that the person may operate only a motor vehicle equipped with a functioning ignition interlock device. The department shall determine the person’s eligibility for licensing based upon written verification by a company doing business in the state that it has installed the required device on a vehicle owned or operated by the person seeking reinstatement. If, based upon notification from the interlock provider or otherwise, the department determines that an ignition interlock required under this section is no longer installed or functioning as required, the department shall suspend the person’s license or privilege to drive. Whenever the license or driving privilege of any person is suspended or revoked as a result of noncompliance with an ignition interlock requirement, the suspension shall remain in effect until the person provides notice issued by a company doing business in the state that a vehicle owned or operated by the person is equipped with a functioning ignition interlock device.

(2) It is a misdemeanor for a person with such a notation on his or her driving record to operate a motor vehicle that is not so equipped.  [2008 c 282 § 13; 2004 c 95 § 12; 2001 c 55 § 1; 1997 c 229 § 10; 1994 c 275 § 24; 1987 c 247 § 4.]

46.20.745 Ignition interlock device revolving account program—Pilot program. (1) The ignition interlock device revolving account program is created within the department to assist in covering the monetary costs of installing, removing, and leasing an ignition interlock device, and applicable licensing, for indigent persons who are required under *RCW 46.20.385 and 46.61.5055 to install an ignition interlock device in all vehicles owned or operated by the person. For purposes of this subsection, "indigent" has the same meaning as in RCW 10.101.010, as determined by the department.

(2) A pilot program is created within the ignition interlock device revolving account program for the purpose of monitoring compliance by persons required to use ignition interlock devices and by ignition interlock companies and vendors.

(3) The department, the state patrol, and the Washington traffic safety commission shall coordinate to establish a compliance pilot program that will target at least one county from eastern Washington and one county from western Washington, as determined by the department, state patrol, and Washington traffic safety commission.

(4) At a minimum, the compliance pilot program shall:

(a) Review the number of ignition interlock devices that are required to be installed in the targeted county and the number of ignition interlock devices actually installed;

(b) Work to identify those persons who are not complying with ignition interlock requirements or are repeatedly violating ignition interlock requirements; and

(c) Identify ways to track compliance and reduce non-compliance.

(5) As part of monitoring compliance, the Washington traffic safety commission shall also track recidivism for violations of RCW 46.61.502 and 46.61.504 by persons required to have an ignition interlock driver’s license under *RCW 46.20.385. [2008 c 282 § 10.]

*Reviser's note: The reference to RCW 46.20.385 appears to be erroneous. A reference to RCW 46.20.720 was apparently intended.

46.20.750 Circumventing ignition interlock—Penalty. (1) A person who is restricted to the use of a vehicle equipped with an ignition interlock device and who tampers with the device or directs, authorizes, or requests another to tamper with the device, in order to circumvent the device by modifying, detaching, disconnecting, or otherwise disabling it, is guilty of a gross misdemeanor.

(2) A person who knowingly assists another person who is restricted to the use of a vehicle equipped with an ignition interlock device to circumvent the device or to start and operate that vehicle in violation of a court order is guilty of a gross misdemeanor. The provisions of this subsection do not apply if the starting of a motor vehicle, or the request to start a motor vehicle, equipped with an ignition interlock device is done for the purpose of safety or mechanical repair of the device or the vehicle and the person subject to the court order does not operate the vehicle. 46.20.755 Local verification of ignition interlock device installation—Immunity. (Effective January 1, 2011.) If a person is required, as part of the person's judgment and sentence, to install an ignition interlock device on all motor vehicles operated by the person and the person is under the jurisdiction of the municipality or county probation or supervision department, the probation or supervision department must verify the installation of the ignition interlock device or devices. The municipality or county probation or supervision department satisfies the requirement to verify the installation or installations if the municipality or county probation or supervision department receives written verification by one or more companies doing business in the state that it has installed the required device on a vehicle owned or operated by the person. The municipality or county shall have no further obligation to supervise the use of the ignition interlock device or devices by the person and shall not be civilly liable for any injuries or damages caused by the person for failing to use an ignition interlock device or for driving under the influence of intoxicating liquor or any drug or being in actual physical control of a motor vehicle under the influence of intoxicating liquor or any drug. [2010 c 269 § 5.]

Reviser's note: 2010 c 269 § 5 directed that this section be added to chapter 46.61 RCW, but codification in chapter 46.20 RCW appears to be more appropriate.

MISCELLANEOUS

Chapter 46.21 RCW
DRIVER LICENSE COMPACT

ARTICLE I—Findings and Declaration of Policy
(a) The party states find that:
(1) The safety of their streets and highways is materially affected by the degree of compliance with state laws and local ordinances relating to the operation of motor vehicles.
(2) Violation of such a law or ordinance is evidence that the violator engages in conduct which is likely to endanger the safety of persons and property.
(3) The continuance in force of a license to drive is predicated upon compliance with laws and ordinances relating to the operation of motor vehicles, in whichever jurisdiction the vehicle is operated.
(b) It is the policy of each of the party states to:
(1) Promote compliance with the laws, ordinances, and administrative rules and regulations relating to the operation of motor vehicles by their operators in each of the jurisdictions where such operators drive motor vehicles.

ARTICLE II—Definitions
As used in this compact:
(a) "State" means a state, territory or possession of the United States, the District of Columbia, or the Commonwealth of Puerto Rico.
(b) "Home state" means the state which has issued and has the power to suspend or revoke the use of the license or permit to operate a motor vehicle.
(c) "Conviction" means a conviction of any offense related to the use or operation of a motor vehicle which is prohibited by state law, municipal ordinance or administrative rule or regulation, or a forfeiture of bail, bond or other security deposited to secure appearance by a person charged with having committed any such offense, and which conviction or forfeiture is required to be reported to the licensing authority.

ARTICLE III—Reports of Conviction
The licensing authority of a party state shall report each conviction of a person from another party state occurring within its jurisdiction to the licensing authority of the home state of the licensee. Such report shall clearly identify the person convicted; describe the violation specifying the section of the statute, code or ordinance violated; identify the court in which action was taken; indicate whether a plea of guilty or not guilty was entered, or the conviction was a result of the forfeiture of bail, bond or other security; and shall include any special findings made in connection therewith.

ARTICLE IV—Effect of Conviction
(a) The licensing authority in the home state, for the purposes of suspension, revocation or limitation of the license to operate a motor vehicle, shall give the same effect to the conviction of a person from another party state occurring within its jurisdiction as it would if such conduct had occurred in the home state, in the case of convictions for:
(1) Vehicular homicide;
(2) Driving a motor vehicle while under the influence of intoxicating liquor or a narcotic drug, or under the influence of any other drug to a degree which renders the driver incapable of safely driving a motor vehicle;
(3) Any felony in the commission of which a motor vehicle is used;
(4) Failure to stop and render aid in the event of a motor vehicle accident resulting in the death or personal injury of another.
(b) If the laws of a party state do not provide for offenses or violations denominated or described in precisely the words employed in subdivision (a) of this Article, such party state shall construe the denominations and descriptions appearing in subdivision (a) hereof as being applicable to and identifying those offenses or violations of a substantially similar
nature and the laws of such party state shall contain such provisions as may be necessary to ensure that full force and effect is given to this Article.

ARTICLE V—Applications for New Licenses

Upon application for a license to drive, the licensing authority in a party state shall ascertain whether the applicant has ever held, or is the holder of a license to drive issued by any other party state. The licensing authority in the state where application is made shall not issue a license to drive to the applicant if:

1. The applicant has held such a license, but the same has been suspended by reason, in whole or in part, of a violation and if such suspension period has not terminated.
2. The applicant has held such a license, but the same has been revoked by reason, in whole or in part, of a violation and if such revocation has not terminated, except that after the expiration of one year from the date the license was revoked, such person may make application for a new license if permitted by law. The licensing authority may refuse to issue a license to any such applicant if, after investigation, the licensing authority determines that it will not be safe to grant to such person the privilege of driving a motor vehicle on the public highways.
3. The applicant is the holder of a license to drive issued by another party state and currently in force unless the applicant surrenders such license.

ARTICLE VI—Applicability of Other Laws

Except as expressly required by provisions of this compact, nothing contained herein shall be construed to affect the right of any party state to apply any of its other laws relating to licenses to drive to any person or circumstance, nor to invalidate or prevent any driver license agreement or other cooperative arrangement between a party state and a non-party state.

ARTICLE VII—Compact Administrator and Interchange of Information

(a) The head of the licensing authority of each party state shall be the administrator of this compact for his state. The administrators, acting jointly, shall have the power to formulate all necessary and proper procedures for the exchange of information under this compact.
(b) The administrator of each party state shall furnish to the administrator of any other party state any information or documents reasonably necessary to facilitate the administration of this compact.

ARTICLE VIII—Entry into Force and Withdrawal

(a) This compact shall enter into force and become effective as to any state when it has enacted the same into law.
(b) Any party state may withdraw from this compact by enacting a statute repealing the same, but no such withdrawal shall take effect until six months after the executive head of the withdrawing state has given notice of the withdrawal to the executive heads of all other party states. No withdrawal shall affect the validity or applicability by the licensing authorities of states remaining party to the compact of any report of conviction occurring prior to the withdrawal.

ARTICLE IX—Construction and Severability

This compact shall be liberally construed so as to effectuate the purposes thereof. The provisions of this compact shall be severable and if any phrase, clause, sentence or provision of this compact is declared to be contrary to the constitution of any party state or of the United States or the applicability thereof to any government, agency, person or circumstance is held invalid, the validity of the remainder of this compact and the applicability thereof to any government, agency, person or circumstance shall not be affected thereby. If this compact shall be held contrary to the constitution of any state party thereto, the compact shall remain in full force and effect as to the remaining states and in full force and effect as to the state affected as to all severable matters. [1983 c 164 § 5; 1963 c 120 § 1.]

46.21.020 "Licensing authority" defined—Duty to furnish information. As used in the compact, the term "licensing authority" with reference to this state, shall mean the department of licensing. Said department shall furnish to the appropriate authorities of any other party state any information or documents reasonably necessary to facilitate the administration of Articles III, IV, and V of the compact. [1979 c 158 § 154; 1967 c 32 § 36; 1963 c 120 § 2.]

The compact administrator provided for in Article VII of the compact shall not be entitled to any additional compensation on account of his service as such administrator, but shall be entitled to expenses incurred in connection with his duties and responsibilities as such administrator, in the same manner as for expenses incurred in connection with any other duties or responsibilities of his office or employment. [1963 c 120 § 3.]

Article VI — Compact Administrator Procedures

(a) For the purpose of administering the provisions of this compact and to serve as a governing body for the resolution of all matters relating to the operation of this compact, a board of compact administrators is established. The board shall be composed of one representative from each party jurisdiction to be known as the compact administrator. The compact administrator shall be appointed by the jurisdiction executive and will serve and be subject to removal in accordance with the laws of the jurisdiction he represents. A compact administrator may provide for the discharge of his duties and the performance of his functions as a board member by an alternate. An alternate may not be entitled to serve unless written notification of his identity has been given to the board.

(b) Each member of the board of compact administrators shall be entitled to one vote. (f) The board may contract with, or accept services or personnel from, any governmental or intergovernmental agency, person, firm, or corporation, or any private nonprofit organization or institution.

(g) The board shall formulate all necessary procedures and develop uniform forms and documents for administering the provisions of this compact. All procedures and forms adopted pursuant to board action shall be contained in the compact manual.

Article VII — Entry into Compact and Withdrawal

(a) This compact shall become effective when it has been adopted by at least two jurisdictions.

(b) Entry into the compact shall be made by a resolution of ratification executed by the department of licensing and submitted to the chairman of the board. (1) A citation of the authority by which the jurisdiction is empowered to become a party to this compact.

(2) Agreement to comply with the terms and provisions of the compact.

(3) That compact entry is with all jurisdictions then party to the compact and with any jurisdiction that legally becomes a party to the compact.

(c) The effective date of entry shall be specified by the applying jurisdiction, but it shall not be less than sixty days after notice has been given by the chairman of the board of compact administrators or by the secretariat of the board to each party jurisdiction that the resolution from the applying jurisdiction has been received.

(b) Adoption of an amendment shall require endorsement of all party jurisdictions and shall become effective thirty days after the date of the last endorsement.

(c) Failure of a party jurisdiction to respond to the compact chairman within one hundred twenty days after receipt of the proposed amendment shall constitute endorsement.

Article X — Construction and Severability

This compact shall be liberally construed so as to effectuate the purposes stated herein. The provisions of this compact shall be severable and if any phrase, clause, sentence, or provision of this compact is declared to be contrary to the constitution of any party jurisdiction or of the United States or the applicability thereof to any government, agency, per-
son, or circumstance, the compact shall not be affected thereby. If this compact shall be held contrary to the constitution of any jurisdiction party thereto, the compact shall remain in full force and effect as to the remaining jurisdictions and in full force and effect as to the jurisdiction affected as to all severable matters.

Intent—2005 c 325: "It is the intent of the legislature to promote the safety of drivers and passengers on Washington roads and public transportation systems. To this end, Washington has established a reporting requirement for employers of commercial drivers who test positive for unlawful substances. The legislature recognizes that transit operators and their employers are an asset to the public transportation system and continuously strive to provide a safe and efficient mode of travel. In light of this, the legislature further intends that the inclusion of transit employers in the reporting requirements serve only to enhance the current efforts of these dedicated employers and employees as they continue to provide a safe public transportation system to the citizens of Washington." (2) A person who violates this section is subject to a penalty of two hundred fifty dollars. If the person appears in person before the court or submits by mail written proof that he or she had, at the time the infraction took place, the medical examiner’s certificate, the court shall reduce the penalty to fifty dollars. [2003 c 195 § 4.]

Findings—2003 c 195: See note following RCW 46.25.070.

46.25.060 Knowledge and skills test, exemptions—Expiration of subsection—Instruction permit.  (1)(a) No person may be issued a commercial driver’s license unless that person is a resident of this state, has successfully completed a course of instruction in the operation of a commercial motor vehicle that has been approved by the director or has been certified by an employer as having the skills and training necessary to operate a commercial motor vehicle safely, and has passed a knowledge and skills test for driving a commercial motor vehicle that complies with minimum federal standards established by federal regulation enumerated in 49 C.F.R. part 383, subparts G and H, and has satisfied all other requirements of the CMVSA in addition to other requirements imposed by state law or federal regulation. The tests must be prescribed and conducted by the department. In addition to the fee charged for issuance or renewal of any license, the applicant shall pay a fee of no more than ten dollars for each classified knowledge examination, classified endorsement knowledge examination, or any combination of classified license and endorsement knowledge examinations. In no event may a new applicant for an "S" endorsement be required to take two separate examinations to obtain an "S" endorsement and either a P1 or P2 endorsement, unless that applicant is upgrading his or her existing commercial driver’s license to include an "S" endorsement. The combined P1/S or P2/S skill examination must be offered to the applicant at the same cost as a regular P1 or P2 skill examination.

(3)(a) The department may waive the skills test and the requirement for completion of a course of instruction in the operation of a commercial motor vehicle specified in this section for a commercial driver’s license applicant who meets the requirements of 49 C.F.R. part 383.77.

(iv) Any combination of (b)(i) through (iii) of this subsection.

This subsection (3)(b) expires July 1, 2011.

(4) A commercial driver’s license or commercial driver’s instruction permit may not be issued to a person while the person is subject to a disqualification from driving a commercial motor vehicle, or while the person’s driver’s license is suspended, revoked, or canceled in any state, nor may a commercial driver’s license be issued to a person who has a commercial driver’s license issued by any other state unless the person first surrenders all such licenses, which must be returned to the issuing state for cancellation.

(5)(a) The department may issue a commercial driver’s instruction permit to an applicant who is at least eighteen years of age and holds a valid Washington state driver’s license and who has submitted a proper application, passed the general knowledge examination required for issuance of a commercial driver’s license under subsection (1) of this section, and paid the appropriate fee for the knowledge examination and an application fee of ten dollars.

(a) The full name and current mailing and residential address of the person;

(b) A physical description of the person, including sex, height, weight, and eye color;

(c) Date of birth;

(d) The applicant’s social security number;

(e) The person’s signature;

**Findings—2003 c 195: “The legislature finds that current economic conditions impose severe hardships on many commercial vehicle drivers. The legislature finds that commercial drivers who may not currently be working may not be able to afford the expense of a required physical in order to maintain their commercial driver’s license. The legislature finds that Washington’s commercial driver’s license statutes should be harmonized with federal requirements, which require proof of a physical capacity to drive a commercial vehicle, along with a valid commercial driver’s license, but do not link the two requirements. The legislature finds that allowing commercial drivers to delay getting a physical until they are actually driving a commercial vehicle will prevent the imposition of unnecessary expense and hardship on Washington’s commercial vehicle drivers.”** [2003 c 195 § 1.]

**46.25.080 License contents, classifications, endorsements, restrictions, expiration—Exchange of information. (1) The commercial driver’s license must be marked “commercial driver’s license” or “CDL,” and must be, to the maximum extent practicable, tamperproof. A check under (d) of this subsection need be done only once, either at the time of application for a new commercial driver’s license, or upon application for a renewal of a commercial driver’s license for the first time after July 1, 2005, provided a notation is made on the driver’s record confirming that the driving record check has been made and noting the date it was completed.

(5) Within ten days after issuing a commercial driver’s license, the department must notify the commercial driver’s license information system of that fact, and provide all information required to ensure identification of the person.

46.25.100 Restoration after disqualification. When a person has been disqualified from operating a commercial motor vehicle, the person is not entitled to have the commercial driver’s license restored until after the expiration of the appropriate disqualification period required under RCW 46.25.090 or until the department has received a drug and alcohol assessment and evidence is presented of satisfactory participation in or completion of any required drug or alcohol treatment program for ending the disqualification under RCW 46.25.090(7). After expiration of the appropriate period and upon payment of a requalification fee of twenty dollars, or one hundred fifty dollars if the person has been disqualified under RCW 46.25.090(7), the person may apply for a new, duplicate, or renewal commercial driver’s license as provided by law. If the person has been disqualified for a period of one year or more, the person shall demonstrate that he or she meets the commercial driver’s license qualification standards specified in RCW 46.25.060. [2002 c 272 § 4; 1989 c 178 § 12.]

46.25.110 Driving with alcohol in system. (1) Notwithstanding any other provision of Title 46 RCW, a person may not drive, operate, or be in physical control of a commercial motor vehicle while having alcohol in his or her system.

(2) Law enforcement or appropriate officials shall issue an out-of-service order valid for twenty-four hours against a person who drives, operates, or is in physical control of a commercial motor vehicle while having alcohol in his or her system or who refuses to take a test to determine his or her alcohol content as provided by RCW 46.25.120. [1989 c 178 § 13.]

46.25.120 Test for alcohol or drugs—Disqualification for refusal of test or positive test—Procedures. (1) A person who drives a commercial motor vehicle within this state is deemed to have given consent, subject to RCW 46.61.506, to take a test or tests of that person’s blood or breath for the purpose of determining that person’s alcohol concentration or the presence of other drugs.

(2) A test or tests may be administered at the direction of a law enforcement officer, who after stopping or detaining the commercial motor vehicle driver, has probable cause to believe that driver was driving a commercial motor vehicle while having alcohol in his or her system or while under the influence of any drug.

(3) The law enforcement officer requesting the test under subsection (1) of this section shall warn the person requested to submit to the test that a refusal to submit will result in that person being disqualified from operating a commercial motor vehicle under RCW 46.25.090.

(4) If the person refuses testing, or submits to a test that discloses an alcohol concentration of 0.04 or more, the law enforcement officer shall submit a sworn report to the department certifying that the test was requested pursuant to subsection (1) of this section and that the person refused to submit to testing, or submitted to a test that disclosed an alcohol concentration of 0.04 or more.

(5) Upon receipt of the sworn report of a law enforcement officer under subsection (4) of this section, the department shall disqualify the driver from driving a commercial motor vehicle under RCW 46.25.090, subject to the hearing provisions of RCW 46.20.329 and 46.20.332. The hearing shall be conducted in the county of the arrest. For the purposes of this section, the hearing shall cover the issues of whether a law enforcement officer had reasonable grounds to believe the person had been driving or was in actual physical control of a commercial motor vehicle within this state while having alcohol in the person’s system or while under the influence of any drug, whether the person refused to submit to the test or tests upon request of the officer after having been informed that the refusal would result in the disqualification of the person from driving a commercial motor vehicle, and, if the test was administered, whether the results indicated an alcohol concentration of 0.04 percent or more. The department shall order that the disqualification of the person either be rescinded or sustained. Any decision by the department disqualifying a person from driving a commercial motor vehicle is stayed and does not take effect while a formal hearing is pending under this section or during the pendency of a subsequent appeal to superior court so long as there is no conviction for a moving violation or no finding that the person has committed a traffic infraction that is a moving violation during the pendency of the hearing and appeal. If the disqualification of the person is sustained after the hearing, the person who is disqualified may file a petition in the superior court of the county of arrest to review the final order of disqualification by the department in the manner provided in RCW 46.20.334.

(6) If a motor carrier or employer who is required to have a testing program under 49 C.F.R. 382 knows that a commercial driver in his or her employ has refused to submit to testing under this section and has not been disqualified from driving a commercial motor vehicle, the employer may notify law enforcement or his or her medical review officer or breath alcohol technician that the driver has refused to submit to the required testing.

(7) The hearing provisions of this section do not apply to those persons disqualified from driving a commercial motor

46.25.123 Mandatory reporting of positive test. (1) All medical review officers or breath alcohol technicians hired by or under contract to a motor carrier or employer who employs drivers who operate commercial motor vehicles and who are required to have a testing program conducted under the procedures established by 49 C.F.R. 40 or to a consortium the carrier or employer belongs to, as defined in 49 C.F.R. 40.3, shall report the finding of a commercial motor vehicle driver’s verified positive drug test or positive alcohol confirmation test to the department of licensing on a form provided by the department. If the employer is required to have a testing program under 49 C.F.R. 655, a report of a verified positive drug test or positive alcohol confirmation test must not be forwarded to the department under this subsection unless the test is a preemployment drug test conducted under 49 C.F.R. 655.41 or a preemployment alcohol test conducted under 49 C.F.R. 655.42.

(2)(a) A motor carrier or employer who employs drivers who operate commercial motor vehicles and who is required to have a testing program conducted under the procedures established by 49 C.F.R. 40, or the consortium the carrier or employer belongs to, must report a refusal by a commercial motor vehicle driver to take a drug or alcohol test, under circumstances that constitute the refusal of a test under 49 C.F.R. 40 and where such refusal has not been reported by a medical review officer or breath alcohol technician, to the department of licensing on a form provided by the department.

(b) An employer who is required to have a testing program under 49 C.F.R. 655 must report a commercial motor vehicle driver’s verified positive drug test or a positive alcohol confirmation test when: (i) The driver’s employment has been terminated or the driver has resigned; (ii) any grievance process, up to but not including arbitration, has been concluded; and (iii) at the time of termination or resignation the driver has not been cleared to return to safety-sensitive functions.

(3) Motor carriers, employers, or consortiums shall make it a written condition of their contract or agreement with a medical review officer or breath alcohol technician, regardless of the state where the medical review officer or breath alcohol technician is located, that the medical review officer or breath alcohol technician is required to report all Washington state licensed drivers who have a verified positive drug test or positive alcohol confirmation test to the department of licensing within three business days of the verification or confirmation. Failure to obtain this contractual condition or agreement with the medical review officer or breath alcohol technician by the motor carrier, employer, or consortium, or failure to report a refusal as required by subsection (2) of this section, will result in an administrative fine as provided in RCW 46.32.100 or 81.04.405.

(4) Substances obtained for testing may not be used for any purpose other than drug or alcohol testing under 49 C.F.R. 40. [2005 c 325 § 3; 2002 c 272 § 1.]

46.25.125 Disqualification for positive test—Procedure. (1) When the department of licensing receives a report from a medical review officer, breath alcohol technician, employer, contractor, or consortium that a driver has a verified positive drug test or positive alcohol confirmation test, as part of the testing program conducted under 49 C.F.R. 40, the department shall disqualify the driver from driving a commercial motor vehicle under RCW 46.25.090(7) subject to a hearing as provided in this section. The department shall notify the person in writing of the disqualification by first-class mail. The notice must explain the procedure for the person to request a hearing.

(2) A person disqualified from driving a commercial motor vehicle for having a verified positive drug test or positive alcohol confirmation test may request a hearing to challenge the disqualification within twenty days from the date notice is given. If the request for a hearing is mailed, it must be postmarked within twenty days after the department has given notice of the disqualification.

(3) The hearing must be conducted in the county of the person’s residence, except that the department may conduct all or part of the hearing by telephone or other electronic means.

(4) For the purposes of this section, or for the purpose of a hearing de novo in an appeal to superior court, the hearing must be limited to the following issues: (a) Whether the driver is the person who is the subject of the report; (b) whether the motor carrier, employer, or consortium has a program that is subject to the federal requirements under 49 C.F.R. 40; and (c) whether the medical review officer or breath alcohol technician making the report accurately followed the protocols established to verify or confirm the results, or if the driver refused a test, whether the circumstances constitute the refusal of a test under 49 C.F.R. 40. Evidence may be presented to demonstrate that the test results are a false positive. For the purpose of a hearing under this section, a copy of a positive test result with a declaration by the tester or medical review officer or breath alcohol technician stating the accuracy of the laboratory protocols followed to arrive at the test result is prima facie evidence:

(i) Of a verified positive drug test or positive alcohol confirmation test result;

(ii) That the motor carrier, employer, or consortium has a program that is subject to the federal requirements under 49 C.F.R. 40; and

(iii) That the medical review officer or breath alcohol technician making the report accurately followed the protocols for testing established to verify or confirm the results.

After the hearing, the department shall order the disqualification of the person either be rescinded or sustained.

(5) If the person does not request a hearing within the twenty-day time limit, or if the person fails to appear at a hearing, the person has waived the right to a hearing and the department shall sustain the disqualification.

(6) A decision by the department disqualifying a person from driving a commercial motor vehicle is stayed and does not take effect while a formal hearing is pending under this section or during the pendency of a subsequent appeal to superior court so long as there is no conviction for a moving

(2010 Ed.)
violation or no finding that the person has committed a traffic infraction that is a moving violation and the department receives no further report of a verified positive drug test or positive alcohol confirmation test during the pendency of the hearing and appeal. If the disqualification is sustained after the hearing, the person who is disqualified may file a petition in the superior court of the county of his or her residence to review the final order of disqualification by the department in the manner provided in RCW 46.20.334.

(7) The department of licensing may adopt rules specifying further requirements for requesting and conducting a hearing under this section.

(8) The department of licensing is not civilly liable for damage resulting from disqualifying a driver based on a verified positive drug test or positive alcohol confirmation test result as required by this section or for damage resulting from release of this information that occurs in the normal course of business. [2005 c 325 § 4; 2002 c 272 § 2.]

Intent—2005 c 325: See note following RCW 46.25.010.

46.25.130 Report of violation, disqualification by nonresident. (1) Within ten days after receiving a report of the conviction or of finding that a traffic infraction has been committed by any nonresident holder of a commercial driver’s license, or any nonresident operating a commercial motor vehicle, for any violation of state law or local ordinance relating to motor vehicle traffic control, other than parking violations, the department shall notify the driver licensing authority in the licensing state of the conviction.

(2)(a) No later than ten days after disqualifying any nonresident holder of a commercial driver’s license from operating a commercial motor vehicle, or revoking, suspending, or canceling the nonresident driving privileges of the nonresident holder of a commercial driver’s license for at least sixty days, the department must notify the state that issued the license of the disqualification, revocation, suspension, or cancellation.

(b) The notification must include both the disqualification and the violation that resulted in the disqualification, revocation, suspension, or cancellation. The notification and the information it provides must be recorded on the driver’s record. [2004 c 187 § 8; 1989 c 178 § 15.]

Effective date—2004 c 187 §§ 1, 5, 7, 8, and 10: See note following RCW 46.20.308.

46.25.140 Rules. The department may adopt rules necessary to carry out this chapter. [1989 c 178 § 16.]

46.25.150 Agreements to carry out chapter. The department may enter into or make agreements, arrangements, or declarations to carry out this chapter. [1989 c 178 § 17.]

46.25.160 Licenses issued by other jurisdictions. Notwithstanding any law to the contrary, a person may drive a commercial motor vehicle if the person has a commercial driver’s license or commercial driver’s instruction permit issued by any state or jurisdiction in accordance with the minimum federal standards for the issuance of commercial motor vehicle driver’s licenses or permits, if the person’s license or permit is not suspended, revoked, or canceled, and if the person is not disqualified from driving a commercial motor vehicle or is subject to an out-of-service order. [2004 c 187 § 9; 1989 c 178 § 18.]

46.25.170 Civil and criminal penalties. (1) A person subject to RCW 81.04.405 who is determined by the utilities and transportation commission, after notice, to have committed an act that is in violation of RCW 46.25.020, 46.25.030, 46.25.040, 46.25.050, or 46.25.110 is liable to Washington state for the civil penalties provided for in RCW 81.04.405.

(2) A person who violates or fails to comply with, or who procures, aids, or abets in the violation of any provision of RCW 46.25.020, 46.25.030, 46.25.040, 46.25.050, or 46.25.110 is guilty of a gross misdemeanor. [1989 c 178 § 19.]

46.25.900 Severability—1989 c 178. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected. [1989 c 178 § 30.]

46.25.901 Effective dates—1989 c 178. Sections 25, 26, 28, and 32 of this act shall take effect on April 1, 1992. The remainder of this act shall take effect on October 1, 1989. The director of licensing may immediately take such steps as are necessary to insure that all sections of this act are implemented on their respective effective dates. [1989 c 178 § 33.]

Any order of the director under the provisions of this chapter shall be subject to review, at the instance of any party in interest, by appeal to the superior court of Thurston county, or at his or her option to the superior court of the county of his or her residence. The scope of such review shall be limited to that prescribed by RCW 7.16.120 governing review by certiorari. Notice of appeal must be filed within thirty days after service of the notice of such order. The court shall determine whether the filing of the appeal shall operate as a stay of any such order of the director. Upon the filing the notice of appeal the court shall issue an order to the director to show cause why the order should not be reversed or modified. The order to show cause shall be returnable not less than ten nor more than thirty days after the date of service thereof upon the director. 46.29.050 Furnishing driving record and evidence of ability to respond in damages—Fees. (1) The department shall upon request furnish any person or his or her attorney a certified abstract of his or her driving record, which abstract shall include enumeration of any motor vehicle accidents in which such person has been involved. Such abstract shall (a) indicate the total number of vehicles involved, whether the vehicles were legally parked or moving, and whether the vehicles were occupied at the time of the accident; and (b) contain reference to any convictions of the person for violation of the motor vehicle laws as reported to the department, and a record of any vehicles registered in the name of the person. The department shall collect for each abstract the sum of ten dollars, fifty percent of which shall be deposited in the highway safety fund and fifty percent of which must be deposited according to RCW 46.68.038.

(2) The department shall upon request furnish any person who may have been injured in person or property by any motor vehicle, with an abstract of all information of record in the department pertaining to the evidence of the ability of any driver or owner of any motor vehicle to respond in damages. The department shall collect for each abstract the sum of ten dollars, fifty percent of which shall be deposited in the highway safety fund and fifty percent of which must be deposited according to RCW 46.68.038.
SECURITY FOLLOWING ACCIDENT

46.29.060 Application of sections requiring deposit of security and suspensions for failure to deposit security. The provisions of this chapter, requiring deposit of security and suspensions for failure to deposit security, subject to certain exemptions, shall apply to the driver and owner of any vehicle of a type subject to registration under the motor vehicle laws of this state which is in any manner involved in an accident within this state, which accident has resulted in bodily injury or death of any person or damage to the property of any one person to an apparent extent equal to or greater than the minimum amount established by rule adopted by the director. The director shall adopt rules establishing the property damage threshold at which the provisions of this chapter apply with respect to the deposit of security and suspensions for failure to deposit security. Beginning October 1, 1987, the property damage threshold shall be five hundred dollars. The thresholds shall be revised when necessary, but not more frequently than every two years. The revisions shall only be for the purpose of recognizing economic changes as reflected by an inflationary index recommended by the office of financial management. The revisions shall be guided by the change in the index for the time period since the last revision and by the threshold established by the chief of the Washington state patrol for the filing of accident reports as provided in RCW 46.52.030. [1987 c 463 § 1; 1977 ex.s. c 369 § 1; 1971 ex.s. c 22 § 2; 1963 c 169 § 6.]

46.29.070 Department to determine amount of security required—Notices. (1) The department, not less than twenty days after receipt of a report of an accident as described in the preceding section, shall determine the amount of security which shall be sufficient in its judgment to satisfy any judgment or judgments for damages resulting from such accident as may be recovered against each driver or owner. Such determination shall not be made with respect to drivers or owners who are exempt under succeeding sections of this chapter from the requirements as to security and suspension.

(2) The department shall determine the amount of security deposit required of any person upon the basis of the reports or other information submitted. In the event a person involved in an accident as described in this chapter fails to make a report or submit information indicating the extent of his or her injuries or the damage to his or her property within one hundred eighty days after the accident and the department does not have sufficient information on which to base an evaluation of such injuries or damage, then the department after reasonable notice to such person, if it is possible to give such notice, otherwise without such notice, shall not require any deposit of security for the benefit or protection of such person.

(3) The department after receipt of report of any accident referred to herein and upon determining the amount of security to be required of any person involved in such accident or to be required of the owner of any vehicle involved in such accident shall give written notice to every such person of the amount of security required to be deposited by him or her and that an order of suspension will be made as hereinafter provided not less than twenty days and not more than sixty days after the sending of such notice unless within said time security be deposited as required by said notice. [2010 c 8 § 9029; 1981 c 309 § 1; 1979 c 78 § 1; 1963 c 169 § 7.]

Proof of financial security for the future required in addition to security after accident: RCW 46.29.420.

46.29.080 Exceptions as to requirement of security. The requirements as to security and suspension in this chapter shall not apply:

(1) To the driver or owner if the owner had in effect at the time of the accident an automobile liability policy or bond with respect to the vehicle involved in the accident, except that a driver shall not be exempt under this subsection if at the time of the accident the vehicle was being operated without the owner’s permission, express or implied;

(2) To the driver, if not the owner of the vehicle involved in the accident, if there was in effect at the time of the accident an automobile liability policy or bond with respect to his or her driving of vehicles not owned by him or her;

(3) To the driver, if not the owner of the vehicle involved in the accident, if there was in effect at the time of the accident an automobile liability policy or bond as to which there is a bona fide dispute concerning coverage of such driver as evidenced by the pendency of litigation seeking a declaration of said driver’s coverage under such policy or bond;

(4) To the driver, whether or not the owner, if there is a bona fide claim on the part of the driver that there was in effect at the time of the accident, an automobile liability policy or bond insuring or covering such driver;

(5) To any person qualifying as a self-insurer under RCW 46.29.630 or to any person operating a vehicle for such self-insurer;

(6) To the driver or the owner of a vehicle involved in an accident wherein no injury or damage was caused to the person or property of anyone other than such driver or owner;

(7) To the driver or owner of a vehicle which at the time of the accident was parked, unless such vehicle was parked at a place where parking was at the time of the accident prohibited under any applicable law or ordinance;

(8) To the owner of a vehicle if at the time of the accident the vehicle was being operated without his or her permission, express or implied, or was parked by a person who had been operating such vehicle without such permission, except if the vehicle was operated by his or her minor child or spouse;

(9) To the owner of a vehicle involved in an accident if at the time of the accident such vehicle was owned by or leased to the United States, this state or any political subdivision of this state or a municipality thereof, or to the driver of such vehicle if operating such vehicle with permission; or

(10) To the driver or the owner of a vehicle in the event at the time of the accident the vehicle was being operated by or under the direction of a police officer who, in the performance of his or her duties, shall have assumed custody of such vehicle. [2010 c 8 § 9030; 1965 c 124 § 1; 1963 c 169 § 8.]

46.29.090 Requirements as to policy or bond. (1) No policy or bond is effective under RCW 46.29.080 unless issued by an insurance company or surety company autho-
rized to do business in this state, except as provided in subsection (2) of this section, nor unless such policy or bond is subject, if the accident has resulted in bodily injury or death, to a limit, exclusive of interest and costs, of not less than twenty-five thousand dollars because of bodily injury to or death of one person in any one accident and, subject to said limit for one person, to a limit of not less than fifty thousand dollars because of bodily injury to or death of two or more persons in any one accident, and if the accident has resulted in injury to, or destruction of, property to a limit of not less than ten thousand dollars because of injury to or destruction of property of others in any one accident.

(2) No policy or bond is effective under RCW 46.29.080 with respect to any vehicle which was not registered in this state or was a vehicle which was registered elsewhere than in this state at the effective date of the policy or bond or the most recent renewal thereof, unless the insurance company or surety company issuing such policy or bond is authorized to do business in this state, or if said company is not authorized to do business in this state, unless it executes a power of attorney authorizing the director of licensing to accept service on its behalf of notice or process in any action upon such policy or bond arising out of such accident.

(3) The department may rely upon the accuracy of the information in a required report of an accident as to the existence of insurance or a bond unless and until the department has reason to believe that the information is erroneous. [1980 c 117 § 3; 1979 c 158 § 155; 1967 ex.s. c 3 § 1; 1963 c 169 § 9.]

46.29.100 Form and amount of security. (1) The security required under this chapter shall be in such form and in such amount as the department may require, but in no case in excess of the limits specified in RCW 46.29.090 in reference to the acceptable limits of a policy or bond.

(2) Every depositor of security shall designate in writing every person in whose name such deposit is made and may at any time change such designation, but any single deposit of security shall be applicable only on behalf of persons required to furnish security because of the same accident. [1963 c 169 § 10.]

46.29.110 Failure to deposit security—Suspensions. If a person required to deposit security under this chapter fails to deposit such security within sixty days after the department has sent the notice as hereinbefore provided, the department shall thereupon suspend:

(1) The driver’s license of each driver in any manner involved in the accident;

(2) The driver’s license of the owner of each vehicle of a type subject to registration under the laws of this state involved in the accident;

(3) If the driver or owner is a nonresident, the privilege of operating within this state a vehicle of a type subject to registration under the laws of this state.

Such suspensions shall be made in respect to persons required by the department to deposit security who fail to deposit such security except as otherwise provided under succeeding sections of this chapter. [1990 c 250 § 51; 1987 c 378 § 1; 1967 c 32 § 37; 1963 c 169 § 11.]

46.29.120 Release from liability. (1) A person shall be relieved from the requirement for deposit of security for the benefit or protection of another person injured or damaged in the accident in the event he or she is released from liability by such other person.

(2) In the event the department has evaluated the injuries or damage to any minor the department may accept, for the purposes of this chapter only, evidence of a release from liability executed by a natural guardian or a legal guardian on behalf of such minor without the approval of any court or judge. [2010 c 8 § 9031; 1965 c 124 § 2; 1963 c 169 § 12.]

46.29.130 Adjudication of nonliability. A person shall be relieved from the requirement for deposit of security in respect to a claim for injury or damage arising out of the accident in the event such person has been finally adjudicated not to be liable in respect to such claim. [1963 c 169 § 13.]

46.29.140 Agreements for payment of damages. (1) Any two or more of the persons involved in or affected by an accident as described in RCW 46.29.060 may at any time enter into a written agreement for the payment of an agreed amount with respect to all claims of any of such persons because of bodily injury to or death or property damage arising from such accident, which agreement may provide for payment in installments, and may file a signed copy thereof with the department.

(2) The department, to the extent provided by any such written agreement filed with it, shall not require the deposit of security and shall terminate any prior order of suspension, or, if security has previously been deposited, the department shall immediately return such security to the depositor or his or her personal representative.

(3) In the event of a default in any payment under such agreement and upon notice of such default the department shall take action suspending the license of such person in default as would be appropriate in the event of failure of such person to deposit security when required under this chapter.

(4) Such suspension shall remain in effect and such license shall not be restored unless and until:

(a) Security is deposited as required under this chapter in such amount as the department may then determine,

(b) When, following any such default and suspension, the person in default has paid the balance of the agreed amount,

(c) When, following any such default and suspension, the person in default has resumed installment payments under an agreement acceptable to the creditor, or

(d) Three years have elapsed following the accident and evidence satisfactory to the department has been filed with it that during such period no action at law upon such agreement has been instituted and is pending. [2010 c 8 § 9032; 1981 c 309 § 2; 1963 c 169 § 14.]

46.29.150 Payment upon judgment. The payment of a judgment arising out of an accident or the payment upon such
judgment of an amount equal to the maximum amount which could be required for deposit under this chapter shall, for the purposes of this chapter, release the judgment debtor from the liability evidenced by such judgment. [1963 c 169 § 15.]

46.29.160 Termination of security requirement. The department, if satisfied as to the existence of any fact which under RCW 46.29.120, 46.29.130, 46.29.140 or 46.29.150 would entitle a person to be relieved from the security requirements of this chapter, shall not require the deposit of security by the person so relieved from such requirement, or if security has previously been deposited by such person, the department shall immediately return such deposit to such person or to his or her personal representative. [2010 c 8 § 9033; 1963 c 169 § 16.]

46.29.170 Duration of suspension. Unless a suspension is terminated under other provisions of this chapter, any order of suspension by the department under this chapter shall remain in effect and no license shall be renewed for or issued to any person whose license is so suspended until:

(1) Such person shall deposit or there shall be deposited on his or her behalf the security required under this chapter, or

(2) Three years have elapsed following the date of the accident resulting in such suspension and evidence satisfactory to the department has been filed with it that during such period no action for damages arising out of the accident resulting in such suspension has been instituted.

An affidavit of the applicant that no action at law for damages arising out of the accident has been filed against him or her or, if filed, that it is not still pending shall be prima facie evidence of that fact. The department may take whatever steps are necessary to verify the statement set forth in any said affidavit. [2010 c 8 § 9034; 1981 c 309 § 3; 1963 c 169 § 17.]

46.29.180 Application to nonresidents, unlicensed drivers, unregistered vehicles, and accidents in other states. (1) In case the driver or the owner of a vehicle of a type subject to registration under the laws of this state involved in an accident within this state has no driver’s license in this state, then such driver shall not be allowed a driver’s license until he or she has complied with the requirements of this chapter to the same extent that would be necessary if, at the time of the accident, he or she had held a license or been the owner of a vehicle registered in this state.

(2) When a nonresident’s driving privilege is suspended pursuant to RCW 46.29.110, the department shall transmit a certified copy of the record or abstract of such action to the official in charge of the issuance of licenses and registration certificates in the state in which such nonresident resides, if the law of such other state provided for action in relation thereto similar to that provided for in subsection (3) of this section.

(3) Upon receipt of such certification that the driving privilege of a resident of this state has been suspended or revoked in any such other state pursuant to a law providing for its suspension or revocation for failure to deposit security for the payment of judgments arising out of a motor vehicle accident, under circumstances which would require the department to suspend a nonresident’s driving privilege had the accident occurred in this state, the department shall suspend the license of such resident. Such suspension shall continue until such resident furnishes evidence of his or her compliance with the law of such other state relating to the deposit of such security. [2010 c 8 § 9035; 1967 c 32 § 38; 1963 c 169 § 18.]

46.29.190 Authority of department to decrease amount of security. The department may reduce the amount of security ordered in any case if in its judgment the amount ordered is excessive. In case the security originally ordered has been deposited, the excess deposit over the reduced amount ordered shall be returned to the depositor or his or her personal representative forthwith. [2010 c 8 § 9036; 1965 c 124 § 3; 1963 c 169 § 19.]

46.29.200 Correction of action by department. Whenever the department has taken any action or has failed to take any action under this chapter by reason of having received erroneous information, then upon receiving correct information within three years after the date of an accident the department shall take appropriate action to carry out the purposes and effect of this chapter. The foregoing, however, shall not be deemed to require the department to reevaluate the amount of any deposit required under this chapter. [1967 c 61 § 1; 1965 c 124 § 4; 1963 c 169 § 20.]

46.29.210 Custody of security. The department shall place any security deposited with it under this chapter in the custody of the state treasurer. [1963 c 169 § 21.]

46.29.220 Disposition of security. (1) Such security shall be applicable and available only:

(a) For the payment of any settlement agreement covering any claim arising out of the accident upon instruction of the person who made the deposit, or

(b) For the payment of a judgment or judgments, rendered against the person required to make the deposit, for damages arising out of the accident in an action at law begun not later than three years after the date of the accident.

(2) Every distribution of funds from the security deposits shall be subject to the limits of the department’s evaluation on behalf of a claimant. [1981 c 309 § 4; 1963 c 169 § 22.]

46.29.230 Return of deposit. Upon the expiration of three years from the date of the accident resulting in the security requirement, any security remaining on deposit shall be returned to the person who made such deposit or to his or her personal representative if an affidavit or other evidence satisfactory to the department has been filed with it:

(1) That no action for damages arising out of the accident for which deposit was made is pending against any person on whose behalf the deposit was made, and

(2) That there does not exist any unpaid judgment rendered against any such person in such an action.

The foregoing provisions of this section shall not be construed to limit the return of any deposit of security under any
other provision of this chapter authorizing such return. [2010 c 8 § 9037; 1981 c 309 § 5; 1963 c 169 § 23.]

46.29.240 Certain matters not evidence in civil suits. The report required following an accident, the action taken by the department pursuant to this chapter, the findings, if any, of the department upon which such action is based, and the security filed as provided in this chapter, shall not be referred to in any way, and shall not be any evidence of the negligence or due care of either party, at the trial of any action at law to recover damages. [1963 c 169 § 24.]

PROOF OF FINANCIAL RESPONSIBILITY FOR THE FUTURE

46.29.250 Application of sections requiring deposit of proof of financial responsibility for the future. The provisions of this chapter requiring the deposit of proof of financial responsibility for the future, subject to certain exemptions, shall apply with respect to persons who have been convicted of or forfeited bail for certain offenses under motor vehicle laws, or who have failed to pay judgments upon causes of action arising out of ownership, maintenance or use of vehicles of a type subject to registration under the laws of this state, who having driven or owned a vehicle involved in an accident are required to deposit security under the provisions of RCW 46.29.070. [1963 c 169 § 25.]

46.29.260 "Proof of financial responsibility for the future" defined. The term "proof of financial responsibility for the future" as used in this chapter means: Proof of ability to respond in damages for liability, on account of accidents occurring subsequent to the effective date of said proof, arising out of the ownership, maintenance, or use of a vehicle of a type subject to registration under the laws of this state, in the amount of twenty-five thousand dollars because of bodily injury to or death of one person in any one accident, and, subject to said limit for one person, in the amount of fifty thousand dollars because of bodily injury to or death of two or more persons in any one accident, and, in the amount of ten thousand dollars because of injury to or destruction of property of others in any one accident. Wherever used in this chapter the terms "proof of financial responsibility" or "proof" shall be synonymous with the term "proof of financial responsibility for the future." [1980 c 117 § 4; 1967 ex.s. c 3 § 2; 1963 c 169 § 26.]

46.29.270 "Judgment," "state" defined. The following words and phrases when used in this chapter shall, for the purpose of this chapter, have the meanings respectively ascribed to them in this section.

(1) The term "judgment" shall mean: Any judgment which shall have become final by expiration without appeal of the time within which an appeal might have been perfected, or by final affirmation on appeal, rendered by a court of competent jurisdiction of any state or of the United States, upon a cause of action arising out of the ownership, maintenance or use of any vehicle of a type subject to registration under the laws of this state, for damages, including damages for care and loss of services, because of bodily injury to or death of any person, or for damages because of injury to or destruction of property, including the loss of use thereof, or upon a cause of action on an agreement of settlement for such damages. The first page of a judgment must include a judgment summary that states damages are awarded under this section and the clerk of the court must give notice as outlined in RCW 46.29.310.

(2) The term "state" shall mean: Any state, territory, or possession of the United States, the District of Columbia, or any province of the Dominion of Canada. [1999 c 296 § 2; 1963 c 169 § 27.]

46.29.280 Suspension continues until proof furnished. Whenever, under any law of this state, the license of any person is suspended or revoked by reason of a conviction, forfeiture of bail, or finding that a traffic infraction has been committed, the suspension or revocation hereinafter required shall remain in effect and the department shall not issue to such person any new or renewal of license until permitted under the motor vehicle laws of this state, and not then unless and until such person shall give and thereafter maintain proof of financial responsibility for the future. Upon receiving notice of the termination or cancellation of proof of financial responsibility for the future, the department shall resuspend or rerevoke the person's driving privilege until the person again gives and thereafter maintains proof of financial responsibility for the future. [1985 c 157 § 1; 1979 ex.s. c 136 § 64; 1963 c 169 § 28.]

(Additional notes found at www.leg.wa.gov)

46.29.290 Action in respect to unlicensed person. If a person has no license, but by final order or judgment is convicted of or forfeits any bail or collateral deposited to secure an appearance for trial for any offense requiring the suspension or revocation of license, no license shall be thereafter issued to such person unless he or she shall give and thereafter maintain proof of financial responsibility for the future. [2010 c 8 § 9038; 1965 c 124 § 5; 1963 c 169 § 29.]

46.29.300 Action in respect to nonresidents. Whenever the department suspends or revokes a nonresident's driving privilege by reason of a conviction, forfeiture of bail, or finding that a traffic infraction has been committed such privilege shall remain so suspended or revoked unless such person shall have previously given or shall immediately give and thereafter maintain proof of financial responsibility for the future. [1979 ex.s. c 136 § 65; 1967 c 32 § 39; 1963 c 169 § 30.]

(Additional notes found at www.leg.wa.gov)

46.29.310 When courts to report nonpayment of judgments. Whenever any person fails within thirty days to satisfy any judgment, then it shall be the duty of the clerk of the court, or of the judge of a court which has no clerk, in which any such judgment is rendered within this state to forward immediately to the department the following:

(1) A certified copy or abstract of such judgment;

(2) A certificate of facts relative to such judgment;
46.29.320 Further action with respect to nonresidents. If the defendant named in any certified copy or abstract of a judgment reported to the department is a nonresident, the department shall transmit those certificates furnished to it under RCW 46.29.310 to the official in charge of the issuance of licenses and registrations of the state of which the defendant is a resident. [1969 ex.s. c 44 § 2; 1963 c 169 § 32.]

46.29.330 Suspension for nonpayment of judgments. The department upon receipt of the certificates provided for by RCW 46.29.310, on a form provided by the department, shall forthwith suspend the license and any nonresident’s driving privilege of any person against whom such judgment was rendered, except as otherwise provided in this chapter. [1990 c 250 § 52; 1969 ex.s. c 44 § 3; 1967 c 32 § 40; 1963 c 169 § 33.]

Additional notes found at www.leg.wa.gov

46.29.340 Exception in relation to government vehicles. The provisions of RCW 46.29.330 shall not apply with respect to any such judgment arising out of an accident caused by the ownership or operation, with permission, of a vehicle owned or leased to the United States, this state or any political subdivision of this state or a municipality thereof. [1963 c 169 § 34.]

46.29.350 Exception when consent granted by judgment creditor. If the judgment creditor consents in writing, in such form as the department may prescribe, that the judgment debtor be allowed a license or nonresident’s driving privilege, the same may be allowed by the department, in its discretion, for six months from the date of such consent and thereafter until such consent is revoked in writing, notwithstanding default in the payment of such judgment, or of any installments thereof prescribed in RCW 46.29.400, provided the judgment debtor furnishes proof of financial responsibility. [1967 c 32 § 41; 1963 c 169 § 35.]

46.29.360 Exception when insurer liable. No license or nonresident’s driving privilege of any person shall be suspended under the provisions of this chapter if the department shall find that an insurer was obligated to pay the judgment upon which suspension is based, at least to the extent and for the amounts required in this chapter, but has not paid such judgment for any reason. A finding by the department that an insurer is obligated to pay a judgment shall not be binding upon such insurer and shall have no legal effect whatever except for the purpose of administering this section. If the department finds that no insurer is obligated to pay such a judgment, the judgment debtor may file with the department a written notice of his or her intention to contest such finding by an action in the superior court. In such a case the license or the nonresident’s driving privilege of such judgment debtor shall not be suspended by the department under the provisions of this chapter for thirty days from the receipt of such notice nor during the pendency of any judicial proceedings brought in good faith to determine the liability of an insurer so long as the proceedings are being diligently prosecuted to final judgment by such judgment debtor. Whenever in any judicial proceedings it shall be determined by any final judgment, decree, or order that an insurer is not obligated to pay any such judgment, the department, notwithstanding any contrary finding theretofore made by it, shall forthwith suspend the license and any nonresident’s driving privilege of any person against whom such judgment was rendered, as provided in RCW 46.29.330. [2010 c 8 § 9040; 1967 c 32 § 42; 1963 c 169 § 36.]

46.29.370 Suspension continues until judgments paid and proof given. Such license and nonresident’s driving privilege shall remain so suspended and shall not be renewed, nor shall any such license be thereafter issued in the name of such person, including any such person not previously licensed, unless and until every such judgment is stayed, satisfied in full or to the extent hereinafter provided and until the said person gives proof of financial responsibility subject to the exemptions stated in RCW 46.29.350, 46.29.360 and 46.29.400. [1967 c 32 § 43; 1963 c 169 § 37.]

46.29.390 Payments sufficient to satisfy requirements. (1) Judgments herein referred to are, for the purpose of this chapter only, deemed satisfied:

(a) When twenty-five thousand dollars has been credited upon any judgment or judgments rendered in excess of that amount because of bodily injury to or death of one person as the result of any one accident; or

(b) When, subject to such limit of twenty-five thousand dollars because of bodily injury to or death of one person, the sum of fifty thousand dollars has been credited upon any judgment or judgments rendered in excess of that amount because of bodily injury to or death of two or more persons as the result of any one accident; or

(c) When ten thousand dollars has been credited upon any judgment or judgments rendered in excess of that amount because of injury to or destruction of property of others as a result of any one accident.

(2) Payments made in settlements of any claims because of bodily injury, death, or property damage arising from such accident shall be credited in reduction of the amounts provided for in this section. [1980 c 117 § 5; 1979 c 61 § 14; 1967 ex.s. c 3 § 3; 1963 c 169 § 39.]

46.29.400 Installment payment of judgments—Default. (1) A judgment debtor upon due notice to the judgment creditor may apply to the court in which such judgment was rendered for the privilege of paying such judgment in installments and the court, in its discretion and without prejudice to any other legal remedies which the judgment creditor may have, may so order and fix the amounts and times of payment of the installments.
Financial Responsibility

46.29.410 Action if breach of agreement. In the event the judgment debtor fails to pay any installment as specified by such order, then upon notice of such default, the department shall forthwith suspend the license or nonresident’s driving privilege of the judgment debtor until such judgment is satisfied, as provided in this chapter. [1967 c 32 § 45; 1963 c 169 § 41.]

46.29.420 Proof required in addition to deposit of security after accident. Any person required to deposit security under RCW 46.29.070, for the benefit or protection of another person injured or damaged in an accident, shall in addition be required to give proof of financial responsibility for the future. The department shall give written notice of such additional requirement to every such person at the time and in the manner provided in RCW 46.29.070 for giving notice of the requirement for security. [1963 c 169 § 42.]

46.29.430 Additional proof required—Suspension or revocation for failure to give proof. If a person required to give proof of financial responsibility under RCW 46.29.420 fails to give such proof within sixty days after the department has sent notice as hereinbefore provided, the department shall suspend, or continue in effect any existing suspension or revocation of, the license or any nonresident’s driving privilege of the person. [1990 c 250 § 53; 1987 c 371 § 1; 1967 c 32 § 46; 1963 c 169 § 43.]

46.29.440 Additional proof required—Suspension to continue until proof given and maintained. Such license or nonresident’s driving privilege shall remain so suspended and shall not be renewed, nor shall any such license be thereafter issued in the name of such person, including any such person not previously licensed, unless and until such person shall give and thereafter maintain proof of financial responsibility for the future. The furnishing of such proof shall permit such person to operate only a motor vehicle covered by such proof. The department shall endorse appropriate restrictions on the license held by such person or may issue a new license containing such restrictions. [1967 c 32 § 47; 1965 c 124 § 6; 1963 c 169 § 44.]

46.29.450 Alternate methods of giving proof. Proof of financial responsibility when required under this chapter, with respect to such a vehicle or with respect to a person who is not the owner of such a vehicle, may be given by filing:

(1) A certificate of insurance as provided in RCW 46.29.460 or 46.29.470;

(2) A bond as provided in RCW 46.29.520;

(3) A certificate of deposit of money or securities as provided in RCW 46.29.550; or

(4) A certificate of self-insurance, as provided in RCW 46.29.630, supplemented by an agreement by the self-insurer that, with respect to accidents occurring while the certificate is in force, he or she will pay the same amounts that an insurer would have been obliged to pay under an owner’s motor vehicle liability policy if it had issued such a policy to said self-insurer. [2010 c 8 § 9041; 1963 c 169 § 45.]

46.29.460 Certificate of insurance as proof. Proof of financial responsibility for the future may be furnished by filing with the department the written certificate of any insurance carrier duly authorized to do business in this state certifying that there is in effect a motor vehicle liability policy for the benefit of the person required to furnish proof of financial responsibility. Such certificate shall give the effective date of such motor vehicle liability policy, which date shall be the same as the effective date of the certificate, and shall designate by explicit description or by appropriate reference all vehicles covered thereby, unless the policy is issued to a person who is not the owner of a motor vehicle. [1963 c 169 § 46.]

46.29.470 Certificate furnished by nonresident as proof. A nonresident may give proof of financial responsibility by filing with the department a written certificate or certificates of an insurance carrier authorized to transact business in the state in which the vehicle, or vehicles, owned by such nonresident is registered, or in the state in which such nonresident resides, if he or she does not own a vehicle, provided such certificate otherwise conforms with the provisions of this chapter, and the department shall accept the same upon condition that said insurance carrier complies with the following provisions with respect to the policies so certified:

(1) Said insurance carrier shall execute a power of attorney authorizing the director to accept service on its behalf of notice or process in any action arising out of a motor vehicle accident in this state;

(2) Said insurance carrier shall agree in writing that such policies shall be deemed to conform with the laws of this state relating to the terms of motor vehicle liability policies issued therein. [2010 c 8 § 9042; 1963 c 169 § 47.]

46.29.480 Default by nonresident insurer. If any insurance carrier not authorized to transact business in this state, which has qualified to furnish proof of financial responsibility, defaults in any said undertakings or agreements, the department shall not thereafter accept as proof any certificate of said carrier whether theretofore filed or thereafter tendered as proof, so long as such default continues. [1963 c 169 § 48.]

46.29.490 "Motor vehicle liability policy" defined. (1) Certification. A "motor vehicle liability policy" as said term is used in this chapter means an "owner’s policy" or an "operator’s policy" of liability insurance, certified as provided in RCW 46.29.460 or 46.29.470 as proof of financial responsibility for the future, and issued, except as otherwise provided in RCW 46.29.470, by an insurance carrier duly
authorized to transact business in this state, to or for the benefit of the person named in the policy as insured.

(2) Owner’s policy. Such owner’s policy of liability insurance:

(a) Shall designate by explicit description or by appropriate reference all vehicles with respect to which coverage is to be granted by the policy; and

(b) Shall insure the person named therein and any other person, as insured, using any such vehicle or vehicles with the express or implied permission of such named insured, against loss from the liability imposed by law for damages arising out of the ownership, maintenance, or use of such vehicle or vehicles within the United States of America or the Dominion of Canada, subject to limits exclusive of interest and costs, with respect to each such vehicle as follows:

- Twenty-five thousand dollars because of bodily injury to or death of one person in any one accident and, subject to said limit for one person, fifty thousand dollars because of bodily injury to or death of two or more persons in any one accident, and ten thousand dollars because of injury to or destruction of property of others in any one accident.

(3) Operator’s policy. Such operator’s policy of liability insurance shall insure the person named as insured therein against loss from the liability imposed upon him or her by law for damages arising out of the use by him or her of any motor vehicle not owned by him or her, within the same territorial limits and subject to the same limits of liability as are set forth above with respect to an owner’s policy of liability insurance.

(4) Required statements in policies. Such motor vehicle liability policy shall state the name and address of the named insured, the coverage afforded by the policy, the premium charged therefor, the policy period, and the limits of liability, and shall contain an agreement or be endorsed that insurance provided under the policy in accordance with the coverage defined in this chapter as respects bodily injury and death or property damage, or both, and is subject to all the provisions of this chapter.

(5) Policy need not insure workers’ compensation, etc. Such motor vehicle liability policy need not insure any liability under any workers’ compensation law nor any liability on account of bodily injury or death of an employee of the insured while engaged in the employment, other than domestic, of the insured, or while engaged in the operation, maintenance, or repair of any such vehicle nor any liability for damage to property owned by, rented to, in charge of, or transported by the insured.

(6) Provisions incorporated in policy. Every motor vehicle liability policy is subject to the following provisions which need not be contained therein:

(a) The liability of the insurance carrier with respect to the insurance required by this chapter becomes absolute whenever injury or damage covered by said motor vehicle liability policy occurs; said policy may not be canceled or annulled as to such liability by any agreement between the insurance carrier and the insured after the occurrence of the injury or damage; no statement made by the insured or on his or her behalf and no violation of said policy defeats or voids said policy.

(b) The satisfaction by the insured of a judgment for such injury or damage shall not be a condition precedent to the right or duty of the insurance carrier to make payment on account of such injury or damage.

(c) The insurance carrier may settle any claim covered by the policy, and if such settlement is made in good faith, the amount thereof is deductible from the limits of liability specified in subsection (2)(b) of this section.

(d) The policy, the written application therefor, if any, and any rider or endorsement which does not conflict with the provisions of this chapter constitutes the entire contract between the parties.

(7) Excess or additional coverage. Any policy which grants the coverage required for a motor vehicle liability policy may also grant any lawful coverage in excess of or in addition to the coverage specified for a motor vehicle liability policy, and such excess or additional coverage is not subject to the provisions of this chapter. With respect to a policy which grants such excess or additional coverage the term “motor vehicle liability policy” applies only to that part of the coverage which is required by this section.

(8) Reimbursement provision permitted. Any motor vehicle liability policy may provide that the insured shall reimburse the insurance carrier for any payment the insurance carrier would not have been obligated to make under the terms of the policy except for the provisions of this chapter.

(9) Proration of insurance permitted. Any motor vehicle liability policy may provide for the prorating of the insurance thereunder with other valid and collectible insurance.

(10) Multiple policies. The requirements for a motor vehicle liability policy may be fulfilled by the policies of one or more insurance carrier which policies together meet such requirements.

(11) Binders. Any binder issued pending the issuance of a motor vehicle liability policy is deemed to fulfill the requirements for such a policy. [2010 c 8 § 9043; 1980 c 117 § 6; 1967 ex.s. c 3 § 4; 1963 c 169 § 49.]

46.29.500 Notice of cancellation or termination of certified policy. When an insurance carrier has certified a motor vehicle liability policy under RCW 46.29.460 or 46.29.470 the insurance carrier shall not be canceled or terminated until at least ten days after a notice of cancellation or termination of the insurance so certified shall be filed in the department, except that such a policy subsequently procured and certified shall, on the effective date of its certification, terminate the insurance previously certified with respect to any vehicle designated in both certificates. [1963 c 169 § 50.]

46.29.510 Chapter not to affect other policies. (1) This chapter shall not be held to apply to or affect policies of automobile insurance against liability which may now or hereafter be required by any other law of this state, and such policies, if they contain an agreement or are endorsed to conform with the requirements of this chapter, may be certified as proof of financial responsibility under this chapter.

(2) This chapter shall not be held to apply to or affect policies insuring solely the insured named in the policy against liability resulting from the maintenance or use by persons in the insured’s employ or on his or her behalf of vehi-
cles not owned by the insured. [2010 c 8 § 9044; 1963 c 169 § 51.]

46.29.520 Bond as proof. Proof of financial responsibility may be evidenced by the bond of a surety company duly authorized to transact business within this state, or a bond with at least two individual sureties each owning real estate within this state, and together having equities equal in value to at least twice the amount of the bond, which real estate shall be scheduled in the bond approved for payment of the amounts specified in RCW 46.29.260. Such bond shall be filed with the department and shall not be cancellable except after ten days written notice to the department. [1963 c 169 § 52.]

46.29.530 When bond constitutes a lien. Before a bond with individual sureties is accepted by the department it shall be recorded as other instruments affecting real property in the county or counties wherein any real estate scheduled in such bond is located. Such bond shall constitute a lien from the date of such recording in favor of the state upon the real estate so scheduled of any surety, which lien shall exist in favor of any holder of a final judgment against the person who has filed such bond, for damages, including damages for care and loss of services, because of bodily injury to or death of any person, or for damage because of injury to or destruction of property, including the loss of use thereof, resulting from the ownership, maintenance, use, or operation of a vehicle of a type subject to registration under the laws of this state after such bond was filed. [1963 c 169 § 53.]

46.29.540 Action on bond. The state treasurer shall not accept any such deposit and issue a certificate therefor and the department shall not accept such certificate unless accompanied by evidence that there are no unsatisfied judgments of any character against the depositor in the county where the depositor resides. 46.30.010 Legislative intent. It is a privilege granted by the state to operate a motor vehicle upon the highways of this state. The legislature recognizes the threat that uninsured drivers are to the people of the state. In order to alleviate the threat posed by uninsured drivers it is the intent of the legislature to require that all persons driving vehicles registered in this state satisfy the financial responsibility requirements of this chapter. By enactment of this chapter it is not the intent of the legislature to modify, amend, or invalidate existing insurance contract terms, conditions, limitations, or exclusions or to preclude insurance companies from using similar terms, conditions, limitations, or exclusions in future contracts. (c) When asked to do so by a law enforcement officer, failure to display an insurance identification card as specified under RCW 46.30.030 creates a presumption that the person does not have motor vehicle insurance.

(d) Failure to provide proof of motor vehicle insurance is a traffic infraction and is subject to penalties as set by the supreme court under RCW 46.63.110 or community restitution.

including livestock and plant or animal wastes, from point of production to market or disposal, or supplies or commodities to be used on the farm, orchard, or dairy, must have a department of transportation number, as defined in *RCW 46.16.004, but are exempt from safety audits and compliance reviews.

(3) All records and documents required of motor carriers with operations in this state must be available for review and inspection during normal business hours. Duly authorized agents of the state patrol conducting safety audits and compliance reviews may enter the motor carrier’s place of business, or any location where records or equipment are located, at reasonable times and without advance notice. Motor carriers who do not permit duly authorized agents to enter their place of business, or any location where records or equipment are located, for safety audits and compliance reviews are subject to enforcement action, including a monetary penalty.

(4)(a) All motor carriers with a commercial motor vehicle, as defined in *RCW 46.16.004, that operate in this state must apply for a department of transportation number, as defined in *RCW 46.16.004, by January 1, 2008. All entities with authority under chapters 81.66, 81.68, 81.70, and 81.77 RCW, and all household goods carriers with authority under chapter 81.80 RCW, must apply for a department of transportation number by January 1, 2010.

(c) The state patrol may deny an application if the applicant does not meet the requirements and standards under this chapter. The state patrol shall not issue a department of transportation number to an applicant who at the time of application has been placed out of service by the federal motor carrier safety administration. Commercial motor vehicles must be marked as prescribed by the state patrol. Those applicants with a current United States department of transportation number are exempt from applying for a department of transportation number.

(d) The state patrol may (i) place a motor carrier out of service or (ii) refuse to issue or recognize as valid a department of transportation number to an applicant who: (A) Formerly held a department of transportation number that was placed out of service for cause, and where cause has not been removed; (B) is a subterfuge for the real party in interest whose department of transportation number was placed out of service for cause, and where cause has not been removed; (C) as an individual licensee, or officer, director, owner, or managing employee of a nonindividual licensee, had a department of transportation number and was placed out of service for cause, and where cause has not been removed; or (D) has an unsatisfied debt to the state assessed under this chapter.

(e) Upon a finding by the chief of the state patrol or the chief’s designee that a motor carrier is an imminent hazard or danger to the public health, safety, or welfare, the state patrol shall notify the department, and the department shall revoke the registrations for all commercial motor vehicles that are owned by the motor carrier subject to RCW 46.32.080. In determining whether a motor carrier is an imminent hazard or danger to the public health, safety, or welfare, the chief or the chief’s designee shall consider safety factors. [2009 c 46 § 1; 2007 c 419 § 10; 1995 c 272 § 7.]

46.37.300 Standards for lights on snow-removal or highway maintenance and service equipment. (1) The state patrol shall adopt standards and specifications applicable to head lamps, clearance lamps, identification and other lamps on snow-removal and other highway maintenance and service equipment when operated on the highways of this state in lieu of the lamps otherwise required on motor vehicles by this chapter. Such standards and specifications may permit the use of flashing lights for purposes of identification on snow-removal and other highway maintenance and service equipment when in service upon the highways. The standards and specifications for lamps referred to in this section shall correlate with and, so far as possible, conform with those approved by the American association of state highway engineers.

(2) It shall be unlawful to operate any snow-removal and other highway maintenance and service equipment on any highway unless the lamps thereon comply with and are lighted when and as required by the standards and specifications adopted as provided in this section. 46.37.310 Selling or using lamps or equipment. (1) No person may have for sale, sell, or offer for sale for use upon or as a part of the equipment of a motor vehicle, trailer, or semitrailer, or use upon any such vehicle any head lamp, auxiliary or fog lamp, rear lamp, signal lamp, or reflector, which reflector is required under this chapter, or parts of any of the foregoing which tend to change the original design or performance of the lighting devices and their installation, adjustment, and aiming. When in use on motor vehicles, and other safety equipment, components, or assemblies of a type for which regulation is required in this chapter or in rules adopted by the state patrol. Such rules shall correlate with and, so far as practicable, conform to federal motor vehicle safety standards adopted pursuant to the national traffic and motor vehicle safety act of 1966 (15 U.S.C. Sec. 1381 et seq.) covering the same aspect of performance, or in the absence of such federal standards, to the then current standards and specifications of the society of automotive engineers applicable to such equipment: PROVIDED, That the sale, installation, and use of any headlamp meeting the standards of either the society of automotive engineers or the United Nations agreement concerning motor vehicle equipment and parts done at Geneva on March 20, 1958, or as amended and adopted by the Canadian standards association (CSA standard D106.2), as amended, shall be lawful in this state.

(2) Every manufacturer who sells or offers for sale lighting devices or other safety equipment subject to requirements established by the state patrol shall, if the lighting device or safety equipment is not in conformance with applicable federal motor vehicle safety standards, provide for submission of such lighting device or safety equipment to any recognized organization or agency such as, but not limited to, the American national standards institute, the society of automotive engineers, or the American association of motor vehicle administrators, as the agent of the state patrol. Issuance of a certificate of compliance for any lighting device or item of safety equipment by that agent is deemed to comply with the standards set forth by the state patrol. Such certificate shall be issued by the agent of the state before sale of the product within the state.

(3) The state patrol may at any time request from the manufacturer a copy of the test data showing proof of compliance of any device with the requirements established by the state patrol and additional evidence that due care was exercised in maintaining compliance during production. If the manufacturer fails to provide such proof of compliance within sixty days of notice from the state patrol, the state patrol may prohibit the sale of the device in this state until acceptable proof of compliance is received by the state patrol.

Such rules shall correlate with and, so far as practicable, conform to federal motor vehicle safety standards adopted pursuant to the national traffic and motor vehicle safety act of 1966 (15 U.S.C. Sec. 1381 et seq.) covering the same aspect of performance, or in the absence of such federal standards, to the then current standards and specifications of the society of automotive engineers applicable to such equipment: PROVIDED, That the sale, installation, and use of any headlamp meeting the standards of either the society of automotive engineers or the United Nations agreement concerning motor vehicle equipment and parts done at Geneva on March 20, 1958, or as amended and adopted by the Canadian standards association (CSA standard D106.2), as amended, shall be lawful in this state.

(2) Every manufacturer who sells or offers for sale lighting devices or other safety equipment subject to requirements established by the state patrol shall, if the lighting device or safety equipment is not in conformance with applicable federal motor vehicle safety standards, provide for submission of such lighting device or safety equipment to any recognized organization or agency such as, but not limited to, the American national standards institute, the society of automotive engineers, or the American association of motor vehicle administrators, as the agent of the state patrol. Issuance of a certificate of compliance for any lighting device or item of safety equipment by that agent is deemed to comply with the standards set forth by the state patrol. Such certificate shall be issued by the agent of the state before sale of the product within the state.

(3) The state patrol may at any time request from the manufacturer a copy of the test data showing proof of compliance of any device with the requirements established by the state patrol and additional evidence that due care was exercised in maintaining compliance during production. If the manufacturer fails to provide such proof of compliance within sixty days of notice from the state patrol, the state patrol may prohibit the sale of the device in this state until acceptable proof of compliance is received by the state patrol.

46.37.330 Revocation of certificate of approval on devices—Reapproval, conditions. (1) When the state patrol has reason to believe that an approved device does not comply with the requirements of this chapter or regulations issued by the state patrol, it may, after giving thirty days’ previous notice to the person holding the certificate of approval for such device in this state, conduct a hearing upon the question of compliance of said approved device. After said hearing the state patrol shall determine whether said approved device meets the requirements of this chapter and regulations issued by the state patrol. If said device does not meet the requirements of this chapter or the state patrol’s regulations it shall give notice to the one to whom the certificate of approval has been issued of the state patrol’s intention to suspend or revoke the certificate of approval for such device in this state.

(2) If at the expiration of ninety days after such notice the person holding the certificate of approval for such device has failed to satisfy the state patrol that said approved device as thereafter to be sold or offered for sale meets the requirements of this chapter or the state patrol’s regulations, the state patrol shall suspend or revoke the approval issued therefor and shall require the withdrawal of all such devices from the market and may require that all said devices sold since the notification be replaced with devices that do comply.

(3) When a certificate of approval has been suspended or revoked pursuant to this chapter or regulations by the state patrol, the device shall not be again approved unless and until it has been submitted for reapproval and it has been demonstrated, in the same manner as in an application for an original approval, that the device fully meets the requirements of this chapter or regulations issued by the state patrol. The state patrol may require that all previously approved items are being effectively recalled and removed from the market as a condition of reapproval. 46.37.340 Braking equipment required. Every motor vehicle, trailer, semitrailer, and pole trailer, and any combination of such vehicle operating upon a highway within this state shall be equipped with brakes in compliance with the requirements of this chapter.

(1) Service brakes—adequacy. Every such vehicle and combination of vehicles, except special mobile equipment as defined in RCW 46.04.552, shall be equipped with service brakes complying with the performance requirements of RCW 46.37.351 and adequate to control the movement of and to stop and hold such vehicle under all conditions of loading, and on any grade incident to its operation.

(2) Parking brakes—adequacy. Every such vehicle and combination of vehicles shall be equipped with parking brakes adequate to hold the vehicle on any grade on which it is operated, under all conditions of loading, on a surface free from snow, ice, or loose material. The parking brakes shall be capable of being applied in conformance with the foregoing requirements by the driver’s muscular effort or by spring action or by equivalent means. Their operation may be assisted by the service brakes or other source of power provided that failure of the service brake actuation system or other power assisting mechanism will not prevent the parking brakes from being applied in conformance with the foregoing requirements. The parking brakes shall be so designed that when once applied they shall remain applied with the required effectiveness despite exhaustion of any source of energy or leakage of any kind. The same brake drums, brake shoes and lining assemblies, brake shoe anchors, and mechanical brake shoe actuation mechanism normally associated with the wheel brake assemblies may be used for both the service brakes and the parking brakes. If the means of applying the parking brakes and the service brakes are connected in any way, they shall be so constructed that failure of any one part shall not leave the vehicle without operative brakes.

(3) Brakes on all wheels. Every vehicle shall be equipped with brakes acting on all wheels except:

(a) Trailers, semitrailers, or pole trailers of a gross weight not exceeding three thousand pounds, provided that:

(i) The total weight on and including the wheels of the trailer or trailers shall not exceed forty percent of the gross weight of the towing vehicle when connected to the trailer or trailers; and

(ii) The combination of vehicles consisting of the towing vehicle and its total towed load, is capable of complying with the performance requirements of RCW 46.37.351;

(b) Trailers, semitrailers, or pole trailers manufactured and assembled prior to July 1, 1965, shall not be required to be equipped with brakes when the total weight on and including the wheels of the trailer or trailers does not exceed two thousand pounds;

(c) Any vehicle being towed in driveaway or towaway operations, provided the combination of vehicles is capable of complying with the performance requirements of RCW 46.37.351;

(d) Trucks and truck tractors manufactured before July 25, 1980, and having three or more axles need not have brakes on the front wheels, except that when such vehicles are equipped with at least two steerable axles, the wheels of one steerable axle need not have brakes. Trucks and truck tractors manufactured on or after July 25, 1980, and having three or more axles are required to have brakes on the front wheels, except that when such vehicles are equipped with at least two steerable axles, the wheels of one steerable axle need not have brakes. Such trucks and truck tractors may be equipped with an automatic device to reduce the front-wheel braking effort by up to fifty percent of the normal braking force, regardless of whether or not antilock system failure has occurred on any axle, and:

(i) Must not be operable by the driver except upon application of the control that activates the braking system; and

(ii) Must not be operable when the pressure that transmits brake control application force exceeds eighty-five pounds per square inch (psi) on air-mechanical braking systems, or eighty-five percent of the maximum system pressure in vehicles utilizing other than compressed air.

(2010 Ed.)
All trucks and truck tractors having three or more axles must be capable of complying with the performance requirements of RCW 46.37.351:

(e) Special mobile equipment as defined in RCW 46.04.552 and all vehicles designed primarily for off-highway use with braking systems which work within the power train rather than directly at each wheel;

(f) Vehicles manufactured prior to January 1, 1930, may have brakes operating on only two wheels.

(g) For a forklift manufactured after January 1, 1970, and being towed, wheels need not have brakes except for those on the rearmost axle so long as such brakes, together with the brakes on the towing vehicle, shall be adequate to stop the combination within the stopping distance requirements of RCW 46.37.351.

(4) Automatic trailer brake application upon breakaway. Every trailer, semitrailer, and pole trailer equipped with air or vacuum actuated brakes and every trailer, semitrailer, and pole trailer with a gross weight in excess of three thousand pounds, manufactured or assembled after January 1, 1964, shall be equipped with brakes acting on all wheels and of such character as to be applied automatically and promptly, and remain applied for at least fifteen minutes, upon breakaway from the towing vehicle.

(5) Tractor brakes protected. Every motor vehicle manufactured or assembled after January 1, 1964, and used to tow a trailer, semitrailer, or pole trailer equipped with brakes, shall be equipped with means for providing that in case of breakaway of the towed vehicle, the towing vehicle will be capable of being stopped by the use of its service brakes.

(6) Trailer air reservoirs safeguarded. Air brake systems installed on trailers manufactured or assembled after January 1, 1964, shall be so designed that the supply reservoir used to provide air for the brakes shall be safeguarded against backflow of air from the reservoir through the supply line.

(7) Two means of emergency brake operation.

(a) Air brakes. After January 1, 1964, every towing vehicle equipped with air controlled brakes, in other than driveway or towaway operations, and all other vehicles equipped with air controlled brakes, shall be equipped with two means for emergency application of the brakes. One of these means shall apply the brakes automatically in the event of a reduction of air from the reservoir through the supply line. The other means shall be a manually controlled device for applying and releasing the brakes, readily operable by a person seated in the driving seat, and its emergency position or method of operation shall be clearly indicated. In no instance may the manual means be so arranged as to permit its use to prevent operation of the automatic means. The automatic and the manual means required by this section may be, but are not required to be, separate.

(b) Vacuum brakes. After January 1, 1964, every towing vehicle used to tow other vehicles equipped with vacuum brakes, in operations other than driveway or towaway operations, shall have, in addition to the single control device required by subsection (8) of this section, a second control device which can be used to operate the brakes on towed vehicles in emergencies. The second control shall be independent of brake air, hydraulic, and other pressure, and independent of other controls, unless the braking system be so arranged that failure of the pressure upon which the second control depends will cause the towed vehicle brakes to be applied automatically. The second control is not required to provide modulated braking.

(8) Single control to operate all brakes. After January 1, 1964, every motor vehicle, trailer, semitrailer, and pole trailer, and every combination of such vehicles, equipped with brakes shall have the braking system so arranged that one control device can be used to operate all service brakes. This requirement does not prohibit vehicles from being equipped with an additional control device to be used to operate brakes on the towed vehicles. This regulation does not apply to driveway or towaway operations unless the brakes on the individual vehicles are designed to be operated by a single control in the towing vehicle.

(9) Reservoir capacity and check valve.

(a) Air brakes. Every bus, truck, or truck tractor with air operated brakes shall be equipped with at least one reservoir sufficient to insure that, when fully charged to the maximum pressure as regulated by the air compressor governor cut-out setting, a full service brake application may be made without lowering such reservoir pressure by more than twenty percent. Each reservoir shall be provided with means for readily draining accumulated oil or water.

(b) Vacuum brakes. After January 1, 1964, every truck with three or more axles equipped with vacuum assistor type brakes and every truck tractor and truck used for towing a vehicle equipped with vacuum brakes shall be equipped with a reserve capacity or a vacuum reservoir sufficient to insure that, with the reserve capacity or reservoir fully charged and with the engine stopped, a full service brake application may be made without depleting the vacuum supply by more than forty percent.

(c) Reservoir safeguarded. All motor vehicles, trailers, semitrailers, and pole trailers, when equipped with air or vacuum reservoirs or reserve capacity as required by this section, shall have such reservoirs or reserve capacity so safeguarded by a check valve or equivalent device that in the event of failure or leakage in its connection to the source of compressed air or vacuum, the stored air or vacuum shall not be depleted by the leak or failure.

(10) Warning devices.

(a) Air brakes. Every bus, truck, or truck tractor using compressed air for the operation of its own brakes or the brakes on any towed vehicle, shall be provided with a warning signal, other than a pressure gauge, readily audible or visible to the driver, which will operate at any time the primary supply air reservoir pressure of the vehicle is below fifty percent of the air compressor governor cut-out pressure. In addition, each such vehicle shall be equipped with a pressure gauge visible to the driver, which indicates in pounds per square inch the pressure available for braking.

(b) Vacuum brakes. After January 1, 1964, every truck tractor and truck used for towing a vehicle equipped with vacuum operated brakes and every truck with three or more axles using vacuum in the operation of its brakes, except those in driveway or towaway operations, shall be equipped with a warning signal, other than a gauge indicating vacuum, readily audible or visible to the driver, which will operate at

(2) All passenger cars manufactured on or after January 1, 1968, and other types of vehicles manufactured on or after September 1, 1975, shall be equipped with brake system failure indicator lamps which shall be maintained in good working order. The brake system shall demonstrate good working order and integrity by the application of a force of one hundred twenty-five pounds to the brake pedal for ten seconds without the occurrence of any of the following:

(i) Illumination of the brake system failure indicator lamp;

(ii) A decrease of more than eighty percent of service brake pedal height as measured from its free position to the floorboard or any other object which restricts service brake pedal travel;

(iii) Failure of any hydraulic line or other part.

and discs are not embossed, the drums and discs shall be within the manufacturer’s specifications.

(5) Friction materials. On each brake the thickness of the lining or pad shall not be less than one thirty-second of an inch over the rivet heads, or the brake shoe on bonded linings or pads. Brake linings and pads shall not have cracks or breaks that extend to rivet holes except minor cracks that do not impair attachment. Drum brake linings shall be securely attached to brake shoes. Disc brake pads shall be securely attached to shoe plates.

(6) Backing plates and caliper assemblies shall not be deformed or cracked. System parts shall not be broken, misaligned, missing, binding, or show evidence of severe wear. 46.37.380 Horns, warning devices, and theft alarms. (1) Every motor vehicle when operated upon a highway shall be equipped with a horn in good working order and capable of emitting sound audible under normal conditions from a distance of not less than two hundred feet, but no horn or other warning device may emit an unreasonably loud or harsh sound or a whistle. The driver of a motor vehicle shall when reasonably necessary to insure safe operation give audible
warning with his or her horn but shall not otherwise use such horn when upon a highway.

(2) No vehicle may be equipped with nor may any person use upon a vehicle any siren, whistle, or bell, except as otherwise permitted in this section.

(3) It is permissible for any vehicle to be equipped with a theft alarm signal device so long as it is so arranged that it cannot be used by the driver as an ordinary warning signal. Such a theft alarm signal device may use a whistle, bell, horn, or other audible signal but shall not use a siren.

(4) Any authorized emergency vehicle may be equipped with a siren, whistle, or bell capable of emitting sound audible under normal conditions from a distance of not less than five hundred feet and of a type conforming to rules adopted by the state patrol, but the siren shall not be used except when the vehicle is operated in response to an emergency call or in the immediate pursuit of an actual or suspected violator of the law, in which latter events the driver of the vehicle shall sound the siren when reasonably necessary to warn pedestrians and other drivers of its approach. (2)(a) No motor vehicle first sold and registered as a new motor vehicle on or after January 1, 1971, shall discharge into the atmosphere at elevations of less than three thousand feet any air contaminant for a period of more than ten seconds which is:

(i) As dark as or darker than the shade designated as No. 1 on the Ringelmann chart, as published by the United States bureau of mines; or

(ii) Of such opacity as to obscure an observer’s view to a degree equal to or greater than does smoke described in subsection (a)(i) above.

(b) No motor vehicle first sold and registered prior to January 1, 1971, shall discharge into the atmosphere at elevations of less than three thousand feet any air contaminant for a period of more than ten seconds which is:

(i) As dark as or darker than the shade designated as No. 2 on the Ringelmann chart, as published by the United States bureau of mines; or

(ii) Of such opacity as to obscure an observer’s view to a degree equal to or greater than does smoke described in subsection (b)(i) above.

(c) For the purposes of this subsection the following definitions shall apply:

(i) "Opacity" means the degree to which an emission reduces the transmission of light and obscures the view of an object in the background;

(ii) "Ringelmann chart" means the Ringelmann smoke chart with instructions for use as published by the United States bureau of mines in May 1967 and as thereafter amended, information circular 7718.

(3) No person shall modify the exhaust system of a motor vehicle in a manner which will amplify or increase the noise emitted by the engine of such vehicle above that emitted by the muffler originally installed on the vehicle, and it shall be unlawful for any person to operate a motor vehicle not equipped as required by this subsection, or which has been amplified as prohibited by this subsection. A court may dismiss an infraction notice for a violation of this subsection if there is reasonable grounds to believe that the vehicle was not operated in violation of this subsection.

This subsection (3) does not apply to vehicles twenty-five or more years old or to passenger vehicles being operated off the highways in an organized racing or competitive event conducted by a recognized sanctioning body. It is unlawful to use metal studs imbedded within the tire between April 1st and November 1st, except that a vehicle may be equipped year-round with tires that have retractable studs if: (a) The studs retract pneumatically or mechanically to below the wear bar of the tire when not in use; and (b) the retractable studs are engaged only between November 1st and April 1st. Retractable studs may be made of metal or other material and are not subject to the lightweight stud weight requirements under RCW 46.04.272. The state department of transportation may, from time to time, determine additional periods in which the use of tires with metal studs imbedded therein is lawful.

(3) The state department of transportation and local authorities in their respective jurisdictions may issue special permits authorizing the operation upon a highway of traction engines or tractors having movable tracks with transverse corrugations upon the periphery of the movable tracks or farm tractors or other farm machinery, the operation of which upon a highway would otherwise be prohibited under this section.

46.37.430 Safety glazing—Sunscreening or coloring. (1)(a) No person may sell any motor vehicle as specified in
this title, nor may any motor vehicle as specified in this title be registered unless such vehicle is equipped with safety glazing material of a type that meets or exceeds federal standards under 49 C.F.R. Sec. 571.205.

(b) The foregoing provisions apply to all passenger-type motor vehicles, including passenger buses and school buses, but in respect to trucks, including truck tractors, the requirements as to safety glazing material apply to all glazing material used in doors, windows, and windshields in the drivers' compartments of such vehicles except as provided by subsection (4) of this section.

(c) The safety glazing material that is manufactured and installed in accordance with federal standards shall not be etched or otherwise permanently altered if the safety glazing material is installed in the windshield or any other window located in the motor vehicle passenger compartment, except for the etching of the vehicle identification number if:
   (i) The maximum height of the letters or numbers do not exceed one-half inch; and
   (ii) The etched vehicle identification number is not located in a position that interferes with the vision of any occupant of the motor vehicle.

(2) For the purposes of this section:
   (a) "Light transmission" means the ratio of the amount of total visible light, expressed in percentages, that is allowed to pass through the sunscreening or coloring material to the amount of total visible light falling on the motor vehicle window.
   (b) "Net film screening" means the total sunscreening or coloring material applied to the window that includes both the material applied by the manufacturer during the safety glazing and any film sunscreening or coloring material applied after the vehicle is manufactured.
   (c) "Reflectance" means the ratio of the amount of total light, expressed in percentages, that is reflected outward by the sunscreening or coloring material to the amount of total light falling on the motor vehicle window.
   (d) "Safety glazing materials" means glazing materials so constructed, treated, or combined with other materials as to reduce substantially, in comparison with ordinary sheet glass or plate glass, the likelihood of injury to persons by objects from exterior sources or by these safety glazing materials when they may be cracked or broken.

(3) The director of licensing shall not register any motor vehicle which is subject to the provisions of this section unless it is equipped with an approved type of safety glazing material, and he or she shall suspend the registration of any motor vehicle so subject to this section which the director finds is not so equipped until it is made to conform to the requirements of this section.

(4) No person may sell or offer for sale, nor may any person operate a motor vehicle registered in this state which is equipped with, any camper manufactured after May 23, 1969, unless such camper is equipped with safety glazing material of a type conforming to rules adopted under 49 C.F.R. Sec. 571.205 wherever glazing materials are used in outside windows and doors.

(5) No film sunscreening or coloring material that reduces light transmittance to any degree may be applied to the surface of the safety glazing material in a motor vehicle unless it meets the following standards for such material:

   (a) The maximum level of net film sunscreening to be applied to any window, except the windshield, shall have a total reflectance of thirty-five percent or less, and a light transmission of twenty-four percent or more, where the vehicle is equipped with outside rearview mirrors on both the right and left. Installation of more than a single sheet of film sunscreening material to any window is prohibited.

   (b) Hearses, collector vehicles, limousines and passenger buses used to transport persons for compensation, ambulances, rescue squad vehicles, any other emergency medical vehicle licensed under RCW 18.73.130 that is used to transport patients, and any vehicle identified by the manufacturer as a truck, motor home, or multipurpose passenger vehicle as defined in 49 C.F.R. Sec. 571.3, may have net film sunscreening applied on any window to the rear of the driver that has less than twenty-four percent light transmittance, if the light reflectance is thirty-five percent or less and the vehicle is equipped with outside rearview mirrors on both the right and left.

   (c) A person or business tinting windows for profit who tints windows within restricted areas of the glazing system shall supply a sticker to be affixed to the driver's door post, in the area adjacent to the manufacturer's identification tag. Installation of this sticker certifies that the glazing application meets this chapter's standards for light transmission, reflectance, and placement requirements. Stickers must be no smaller than three-quarters of an inch by one and one-half inches, and no larger than two inches by two and one-half inches. The stickers must be of sufficient quality to endure exposure to harsh climate conditions. The business name and state tax identification number of the installer must be clearly visible on the sticker.

   (d) A greater degree of light reduction is permitted on all windows and the top six inches of windshields of a vehicle operated by or carrying as a passenger a person who possesses a written verification from a licensed physician that the operator or passenger must be protected from exposure to sunlight for physical or medical reasons.

   (e) A greater degree of light reduction is permitted along the top edge of the windshield as long as the product is transparent and does not extend into the AS-1 portion of the windshield or extend more than six inches from the top of the windshield. Clear film sunscreening material that reduces or eliminates ultraviolet light may be applied to windshields.

   (f) When film sunscreening material is applied to any window except the windshield, outside mirrors on both the left and right sides shall be located so as to reflect to the driver a view of the roadway, through each mirror, a distance of at least two hundred feet to the rear of the vehicle.

   (g) The following types of film sunscreening material are not permitted:
      (i) Mirror finish products;
      (ii) Red, gold, yellow, or black material; or
      (iii) Film sunscreening material that is in liquid preapplication form and brushed or sprayed on.

(6) Subsection (5) of this section does not prohibit:
   (a) The use of shaded or heat-absorbing safety glazing material in which the shading or heat-absorbing characteristics have been applied at the time of manufacture of the safety glazing material and which meet federal standards for such safety glazing materials.

[Title 46 RCW—page 252] (2010 Ed.)
(b) The use and placement of federal, state, or local certificates or decals on any window as required by applicable laws or regulations. However, any such certificate or decal must be of a size and placed on the motor vehicle so as not to impair the ability of the driver to safely operate the motor vehicle.

(c) Sunscreening devices to be applied to any window behind the driver provided that the devices reduce the driver’s area of vision uniformly and by no more than fifty percent, as measured on a horizontal plane. If sunscreening devices are applied to the rear window, the vehicle must be equipped with outside rearview mirrors on both the left and right.

(d) Recreational products, such as toys, cartoon characters, stuffed animals, signs, and any other vision-reducing article or material to be applied to or placed in windows behind the driver provided that they do not interfere, in their size or position, with the driver’s ability to see other vehicles, persons, or objects.

(7) It is a traffic infraction for any person to operate a vehicle for use on the public highways of this state, if the vehicle is equipped with film sunscreening or coloring material in violation of this section.

(8) Owners of vehicles with film sunscreening material applied to windows to the rear of the driver, prior to June 7, 1990, must comply with the requirements of this section and RCW 46.37.435 by July 1, 1993.

(9) The side and rear windows of law enforcement vehicles are exempt from the requirements of subsection (5) of this section. However, when law enforcement vehicles are sold to private individuals the film sunscreening or coloring material must comply with the requirements of subsection (5) of this section or documentation must be provided to the buyer stating that the vehicle windows must comply with the requirements of subsection (5) of this section before operation of the vehicle. (iii) One at the traffic side of the disabled vehicle not less than ten feet rearward or forward thereof in the direction of the nearest approaching traffic. If a lighted red electric lantern or a red portable emergency reflector has been placed at the traffic side of the vehicle in accordance with subdivision (a) of this subsection, it may be used for this purpose.

(2) Whenever any vehicle referred to in this section is disabled within five hundred feet of a curve, hillcrest, or other obstruction to view, the warning signal in that direction shall be so placed as to afford ample warning to other users of the highway, but in no case less than five hundred feet from the disabled vehicle.

(3) Whenever any vehicle of a type referred to in this section is disabled upon any roadway of a divided highway during the time that lights are required, the appropriate warning devices prescribed in subsections (1) and (5) of this section shall be placed as follows:

One at a distance of approximately two hundred feet from the vehicle in the center of the lane occupied by the stopped vehicle and in the direction of traffic approaching in that lane; one at a distance of approximately one hundred feet from the vehicle, in the center of the lane occupied by the vehicle and in the direction of traffic approaching in that lane; and one at the traffic side of the vehicle and approximately ten feet from the vehicle in the direction of the nearest approaching traffic.

(4) Whenever any vehicle of a type referred to in this section is disabled upon the traveled portion of a highway or the shoulder thereof outside any municipality at any time when the display of fusees, flares, red electric lanterns, or portable red emergency reflectors is not required, the driver of the vehicle shall display two red flags upon the roadway in the lane of traffic occupied by the disabled vehicle, one at a distance of approximately one hundred feet in advance of the vehicle, and one at a distance of approximately one hundred feet to the rear of the vehicle.

Flares, fusees, or signals produced by flame shall not be used as warning devices for disabled vehicles of the type mentioned in this subsection.

(6) Whenever any vehicle, other than those described in subsection (1) of this section, is disabled upon the traveled portion of any highway or shoulder thereof outside any municipality, the state patrol or the county sheriff shall, upon discovery of the disabled vehicle, place a reflectorized warning device on the vehicle. The warning device and its placement shall be in accordance with rules adopted by the state patrol. Neither the standards for, placement or use of, nor the lack of placement or use of a warning device under this sub-section gives rise to any civil liability on the part of the state of Washington, the state patrol, any county, or any law enforcement agency or officer.

(3) If a placard for a specific alternative fuel source has not been issued by the national fire protection association, a placard issued by the chief of the Washington state patrol, through the director of fire protection, shall be required. The chief of the Washington state patrol, through the director of fire protection, shall develop rules for the design, size, and placement of the placard which shall remain effective until a specific placard is issued by the national fire protection association. [1995 c 369 § 23; 1986 c 266 § 88; 1984 c 145 § 1; 1983 c 237 § 2.]

Legislative finding—1983 c 237: "The legislature finds that vehicles using alternative fuel sources such as propane, compressed natural gas, liquid petroleum gas, or other hydrocarbon gas fuels require firefighters to use a different technique if the vehicles catch fire. A reflective placard on such vehicles would warn firefighters of the danger so they could react properly."

46.37.519 Kit vehicles. (1) For the purposes of this section:

(a) "Kit vehicle" means a passenger car or light truck assembled from a manufactured kit, and is either (i) a kit consisting of a prefabricated body and chassis used to construct a complete vehicle, or (ii) a kit consisting of a prefabricated body to be mounted on an existing vehicle chassis and drive train, commonly referred to as a donor vehicle. "Kit vehicle" does not include a vehicle that has been assembled by a manufacturer.

(b) "Major component part" includes at least each of the following vehicle parts: (i) Engines and short blocks; (ii) frame; (iii) transmission or transfer case; (iv) cab; (v) door; (vi) front or rear differential; (vii) front or rear clip; (viii) quarter panel; (ix) truck bed or box; (x) seat; (xi) hood; (xii) bumper; (xiii) fender; and (xiv) airbag.

(2) A kit vehicle must, prior to inspection, contain the following components:

(a) Brakes on all wheels. The service brakes, upon application, must be capable of stopping the vehicle within a twelve-foot lane and (i) developing an average speed of retardation force of not less than 5.28 percent of the gross vehicle weight, (ii) decelerating the vehicle at a rate of not less than seventeen feet per second, or (iii) stopping the vehicle within a distance of twenty-five feet from a speed of twenty miles per hour. Tests must be made on a level, dry, concrete or asphalt surface free from loose material;

(b) Brake hoses that comply with 49 C.F.R. Sec. 571.106;

(c) Brake fluids that comply with 49 C.F.R. Sec. 571.119;

(d) A parking brake that must operate on at least two wheels on the same axle, and when applied, must be capable of holding the vehicle on any grade on which the vehicle is operated. The parking brake must be separately actuated so that failure of any part of the service brake actuation system will not diminish the vehicle’s parking brake holding capability;

(e) Lighting equipment that complies with 49 C.F.R. Sec. 571.108;

(f) Pneumatic tires that comply with 49 C.F.R. Sec. 571.109;

(g) Glazing material that complies with 49 C.F.R. Sec. 571.205. The driver must be provided with a windshield and side windows or opening that allows an outward horizontal vision capability, ninety degrees each side of a vertical plane passing through the fore and aft centerline of the vehicle. This range of vision must not be interrupted by window framing not exceeding four inches in width at each side location;

(h) Seat belt assemblies that comply with 49 C.F.R. Sec. 571.209;

(i) Defroster and defogging devices capable of defogging and defrosting the windshield area, except vehicles or exact replicas of vehicles manufactured prior to January 1938 are exempt from this requirement;

(j) Door latches that firmly and automatically secure the door when pushed closed and that allow each door to be opened both from the inside and outside, if the vehicle is enclosed with side doors leading directly into a compartment that contains one or more seating accommodations;

[Title 46 RCW—page 256]
(k) A floor plan that is capable of supporting the weight of the number of occupants that the vehicle is designed to carry;

(l) If an enclosed kit vehicle powered by an internal combustion engine, a passenger compartment that must be constructed to prevent the entry of exhaust fumes into the passenger compartment;

(m) Fenders that must be installed on all wheels and cover the entire tire width that comes in contact with the road surface. Coverage of the tire tread circumference must be from at least fifteen degrees in front and to at least seventy-five degrees to the rear of the tire centerline at each wheel measured from the center of the wheel rotation. The tire must not come in contact with the body, fender, chassis, or suspension of the vehicle. Kit vehicles that are more than forty years old and are owned and operated primarily as collector’s vehicles are exempt from this fender requirement if the vehicle is used and driven during fair weather on well-maintained, hard-surfaced roads;

(n) A speedometer that is calibrated to indicate miles per hour, and may also indicate kilometers per hour;

(o) Mirrors as outlined in RCW 46.37.400. Mirror mountings must provide for mirror adjustment by tilting both horizontally and vertically;

(p) An accelerator control system that, in accordance with 49 C.F.R. Sec. 571.124, contains a double spring that returns engine throttle to an idle position when the driver removes the actuating force from the accelerator control. The geometry of the throttle linkage must be designed so that the throttle will not lock in an open position. A vehicle equipped with cruise control is exempt when the cruise control is actuated;

(q) A fuel system that, in accordance with 49 C.F.R. Secs. 571.301 and 571.302, is securely fastened to the vehicle so as not to interfere with the vehicle’s operation. The components, such as tank, tubing, hoses, and pump, must be of leak proof design and be securely attached with fasteners designed for that purpose. All fuel system vent lines must extend outside of the passenger compartment and be positioned as not to be in contact with the high temperature surfaces or moving components. If the vehicle is fueled using alternative measures, it must be installed in accordance with any applicable standards set by the United States department of transportation;

The horn or another warning device must not emit an unreasonably loud or harsh sound or whistle. A bell or siren must not be used as a warning device. The device used to actuate the horn must be easily accessible to the driver when operating the vehicle.

(3) A kit vehicle may also be equipped with hoods and bumpers. If this equipment is present, it must meet the following requirements:

(a) Hood latches must be equipped with a primary and secondary latching system to hold the hood in a closed position if the hood is a front opening hood; and

(b) Bumpers must be 4.5 inches in vertical height, centered on the vehicle’s centerline, and extend no less than the width of the respective wheel track distances. Bumpers must be horizontal load veering and attach to the frame to effectively transfer energy when impacted. The bumper must be installed in accordance with the bumper heights outlined in WAC 204-10-022. [2009 c 284 § 3.]

(1) Accidents and deaths on their streets and highways present a very serious human and economic problem with a major deleterious effect on the public welfare.
(2) There is a vital need for the development of greater interjurisdictional cooperation to achieve the necessary uniformity in the laws, rules, regulations and codes relating to vehicle equipment, and to accomplish this by such means as will minimize the time between the development of demonstrably and scientifically sound safety features and their incorporation into vehicles.
(b) The purposes of this compact are to:
(1) Promote uniformity in regulation of and standards for equipment.
(2) Secure uniformity of law and administrative practice in vehicular regulation and related safety standards to permit incorporation of desirable equipment changes in vehicles in the interest of greater traffic safety.
(3) To provide means for the encouragement and utilization of research which will facilitate the achievement of the foregoing purposes, with due regard for the findings set forth in subdivision (a) of this Article.
(c) It is the intent of this compact to emphasize performance requirements and not to determine the specific detail of engineering in the manufacture of vehicles or equipment except to the extent necessary for the meeting of such performance requirements.

If authorized by the laws of his party state, a commissioner may provide for the discharge of his duties and the performance of his functions on the Commission, either for the duration of his membership or for any lesser period of time, by an alternate. No such alternate shall be entitled to serve unless notification of his identity and appointment shall have been given to the Commission in such form as the Commission may require. Each commissioner, and each alternate, when serving in the place and stead of a commissioner, shall be entitled to be reimbursed by the Commission for expenses actually incurred in attending Commission meetings or while engaged in the business of the Commission.
(b) The commissioners shall be entitled to one vote each on the Commission. No action of the Commission shall be binding unless taken at a meeting at which a majority of the total number of votes on the Commission are cast in favor thereof. Action of the Commission shall be only at a meeting at which a majority of the commissioners, or their alternates, are present.
(c) The Commission shall have a seal.
(d) The Commission shall elect annually, from among its members, a chairman, a vice chairman and a treasurer. The Commission may appoint an Executive Director and fix his duties and compensation. The Commission shall have power to:

(a) Collect, correlate, analyze and evaluate information resulting or derivable from research and testing activities in equipment and related fields.

(b) Recommend and encourage the undertaking of research and testing in any aspect of equipment or related matters when, in its judgment, appropriate or sufficient research or testing has not been undertaken.

(c) Contract for such equipment research and testing as one or more governmental agencies may agree to have contracted for by the Commission, provided that such governmental agency or agencies shall make available the funds necessary for such research and testing.

ARTICLE V—Vehicular Equipment

(a) In the interest of vehicular and public safety, the Commission may study the need for or desirability of the establishment of or changes in performance requirements or restrictions for any item of equipment. As a result of such study, the Commission may publish a report relating to any item or items of equipment, and the issuance of such a report shall be a condition precedent to any proceedings or other action provided or authorized by this Article. No less than sixty days after the publication of a report containing the results of such study, the Commission upon due notice shall hold a hearing or hearings at such place or places as it may determine.

(b) Following the hearing or hearings provided for in subdivision (a) of this Article, and with due regard for standards recommended by appropriate professional and technical associations and agencies, the Commission may issue rules, regulations or codes embodying performance requirements or restrictions for any item or items of equipment covered in the report, which in the opinion of the Commission will be fair and equitable and effectuate the purposes of this compact.

(d) The Commission shall send prompt notice of its action in issuing any rule, regulation or code pursuant to this Article to the appropriate motor vehicle agency of each party state and such notice shall contain the complete text of the rule, regulation or code.

(e) If the constitution of a party state requires, or if its statutes provide, the approval of the legislature by appropriate resolution or act may be made a condition precedent to the taking effect in such party state of any rule, regulation or code. In such event, the commissioner of such party state shall submit any Commission rule, regulation or code to the legislature as promptly as may be in lieu of administrative acceptance or rejection thereof by the party state.

(f) Except as otherwise specifically provided in or pursuant to subdivisions (e) and (g) of this Article, the appropriate motor vehicle agency of a party state shall in accordance with its constitution or procedural laws adopt the rule, regulation or code within six months of the sending of the notice, and, upon such adoption, the rule, regulation or code shall have the force and effect of law therein.

(g) The appropriate motor vehicle agency of a party state may decline to adopt a rule, regulation or code issued by the Commission pursuant to this Article if such agency specifically finds, after public hearing on due notice, that a variation from the Commission’s rule, regulation or code is necessary to the public safety, and incorporates in such finding the reasons upon which it is based. Any such finding shall be subject to review by such procedure for review of administrative determinations as may be applicable pursuant to the laws of the party state. Upon request, the Commission shall be furnished with a copy of the transcript of any hearings held pursuant to this subdivision.

The total amount of appropriations under any such budget shall be apportioned among the party states as follows: one-third in equal shares; and the remainder in proportion to the number of motor vehicles registered in each party state. In determining the number of such registrations, the Commission may employ such source or sources of information as, in its judgment present the most equitable and accurate comparisons among the party states. Each of the Commission’s budgets of estimated expenditures and requests for appropriations shall indicate the source or sources used in obtaining information concerning vehicular registrations.

(c) The Commission shall not pledge the credit of any party state. The Commission may meet any of its obligations in whole or in part with funds available to it under Article III (h) of this compact, provided that the Commission takes specific action setting aside such funds prior to incurring any obligation to be met in whole or in part in such manner. Except where the Commission makes use of funds available to it under Article III (h) hereof, the Commission shall not incur any obligation prior to the allotment of funds by the party states adequate to meet the same.

(d) The Commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the Commission shall be subject to the audit and accounting procedures established under its rules. However, all receipts and disbursements of funds handled by the Commission shall be audited yearly by a qualified public accountant and the report of the audit shall be included in and become part of the annual reports of the Commission.

(e) The accounts of the Commission shall be open at any reasonable time for inspection by duly constituted officers of the party states and by any persons authorized by the Commission.

(a) The Commission shall adopt rules and regulations with respect to conflict of interest for the commissioners of the party states, and their alternates, if any, and for the staff of the Commission and contractors with the Commission to the end that no member or employee or contractor shall have a pecuniary or other incompatible interest in the manufacture, sale or distribution of motor vehicles or vehicular equipment or in any facility or enterprise employed by the Commission or on its behalf for testing, conduct of investigations or research. In addition to any penalty for violation of such rules and regulations as may be applicable under the laws of the violator’s jurisdiction of residence, employment or business, any violation of a Commission rule or regulation adopted pursuant to this Article shall require the immediate discharge of any violating employee and the immediate vacating of membership, or relinquishing of status as a member on the Commission by any commissioner or alternate. In the case of a contractor, any violation of any such rule or regulation shall make any contract of the violator with the Commission subject to cancellation by the Commission.

(b) Nothing contained in this Article shall be deemed to prevent a contractor for the Commission from using any facilities subject to his control in the performance of the contract even though such facilities are not devoted solely to work of or done on behalf of the Commission; nor to prevent such a contractor from receiving remuneration or profit from the use of such facilities.

ARTICLE VIII—Advisory and Technical Committees

(b) Any party state may withdraw from this compact by enacting a statute repealing the same, but no such withdrawal shall take effect until one year after the executive head of the withdrawing state has given notice in writing of the withdrawal to the executive heads of all other party states. No withdrawal shall affect any liability already incurred by or chargeable to a party state prior to the time of such withdrawal.

The provisions of this compact shall be severable and if any phrase, clause, sentence or provision of this compact is declared to be contrary to the Constitution of any state or of the United States or the applicability thereof to any government, agency, person or circumstance is held invalid, the validity of the remainder of this compact and the applicability thereof to any government, agency, person or circumstance shall not be affected thereby. If this compact shall be held contrary to the constitution of any state participating herein, the compact shall remain in full force and effect as to the remaining party states and in full force and effect as to the state affected as to all severable matters. [1963 c 204 § 1.]

46.38.020 Legislative findings. (Effective until June 30, 2011.) The legislature finds that:

(1) The public safety necessitates the continuous development, modernization and implementation of standards and requirements of law relating to vehicle equipment, in accordance with expert knowledge and opinion.

(2) The public safety further requires that such standards and requirements be uniform from jurisdiction to jurisdiction, except to the extent that specific and compelling evidence supports variation.

INTERSTATE COMPACT FOR
SCHOOL BUS SAFETY

Sections
46.38.010  Compact enacted—Provisions.

46.39.010  Compact enacted—Provisions.  (Effective until June 30, 2011.)  The "Interstate Compact for School Bus Safety" is hereby enacted into law and entered into with all other jurisdictions legally joining therein in the form substantially as follows:

INTERSTATE COMPACT FOR
SCHOOL BUS SAFETY

ARTICLE I
FINDINGS AND PURPOSES

(a) The party states find that:
(1) School transportation is an integral part of our education systems. The increasing volume of traffic on streets and highways, with larger numbers of school children being transported each year, presents a serious problem in safety that requires regulation and control.
(2) During recent years the various states have each developed their own rules, regulations and standards which govern the operation of school buses in the individual states, thus creating vast differences in construction standards and operational procedures.
(3) Standardization by means of interstate cooperation, exchange of information, and the promulgation of uniform practices among the states can do much to mitigate present hazards and at the same time generate cost reductions and improved service.
(b) The purposes of this compact are to:
(1) Promote uniformity in regulation of and standards for school bus equipment.
(2) Secure uniformity of law and administrative practices in school bus vehicle regulation and related safety standards, incorporating desirable equipment changes in the interest of greater school bus safety.
(3) Establish a means whereby the states party to this compact shall jointly agree on certain school bus minimum standards and procedures including, without limitation by the enumeration, the following:
(i) Items which affect the motorist, such as use of lights, signs, and signaling devices that control traffic;
(ii) Procedural activities of school bus drivers in controlling traffic; and in the loading and unloading of buses;
(iii) Construction and other specifications which can lead to lower initial costs and the interchangeability of school buses among states;
(iv) A framework within which the party states may develop uniform driver training programs; and
(v) Development of accurate and uniform accident statistical reporting among the party states.
(4) Encourage and utilize research which will facilitate achievement of the foregoing purposes, with due regard for the findings set forth in subsection (a) of this Article.
(5) It is recognized that there are inherent differences in transportation needs in each of the party states. It shall not be the purpose of this compact to abridge, impair or adversely affect the jurisdiction or authority of the individual states to regulate and control their own school transportation systems.
(6) Investigate the safety and economic advantage of children being transported.

ARTICLE II
DEFINITIONS

(a) "State" means a state, territory or possession of the United States, the District of Columbia, the Commonwealth of Puerto Rico, and any other special commonwealth as may be established by the Government of the United States.
(b) "School bus" shall have the same meaning as provided in RCW 46.04.521.
(c) "Equipment" means the equipment required for school buses under chapter 46.37 RCW.

ARTICLE III
THE COMMISSION

(a) There is hereby created an agency of the party states to be known as the "Western States School Bus Safety Commission" (hereinafter called the Commission). The Commission shall consist of not less than one nor more than three commissioners from each State, each of whom shall be a citizen of the State from which he is appointed, and not less than one or nor more than three commissioners representing the United States Government. The commissioners from each State shall be chosen in the manner and for the terms provided by the laws of the States from which they shall be appointed, provided that at least one member shall be appointed from the State agency which has primary responsibility for pupil transportation in that State. Any commissioner may be removed or suspended from office as provided by the law of the State from which he shall be appointed. The commissioners representing the United States shall be appointed by the President of the United States, or in such other manner as may be provided by Congress. The commissioners shall serve without compensation, but shall be paid their actual expenses incurred in and incidental to the performance of their duties; but nothing herein shall prevent the appointment of an officer or employee of any State or of the United States Government.
(b) Each state delegation shall be entitled to one vote, and the presence of commissioners from a majority of the party states shall constitute a quorum for the transaction of business at any meeting of the Commission. A majority vote of the quorum will be required to adopt any measure before the Commission. The commissioners representing the United States Government shall act in an advisory capacity and shall not have voting powers.
(c) The Commission shall have a seal.
(d) The Commission shall elect annually, from among its members, a chairman, a vice chairman, and a treasurer. The Commission shall appoint an Executive Director who shall serve at its pleasure and who shall also act as Secretary, and who, together with the Treasurer, shall be bonded in such amounts as the Commission may require.
(e) The Executive Director, with the approval of the Commission, shall appoint and remove or discharge such personnel as may be necessary for the performance of the Commission's functions irrespective of the civil service, personnel or other merit system laws of any of the party states.
(f) The Commission may establish and maintain, independently or in conjunction with any one or more of the party states, a suitable retirement system for its full-time employees. The Commission may establish and maintain or participate in such additional programs of employee benefits as may be appropriate.
(g) The Commission may borrow, accept, or contract for the services of personnel from any state or the United States or any subdivision or agency thereof, from any interstate agency, or from any institution, person, firm or corporation.
(h) The Commission may establish and maintain such facilities as may be necessary for the transacting of its business. The Commission may acquire, hold, and convey real and personal property and any interest therein.
(i) The Commission shall adopt bylaws, rules, and regulations for the conduct of its business, and shall have the power to amend and rescind these bylaws, rules, and regulations. The Commission shall publish its bylaws, rules, and regulations in convenient form and shall file a copy thereof and shall also file a copy of any amendment thereto, with the appropriate agency or officer in each of the party states.
(j) The Commission annually shall make to the governor and the legislature of each party state, a report covering the activities of the Commission for the preceding year, and embodying such recommendations as may have been adopted by the Commission. The Commission may issue such additional reports as it may deem desirable.

ARTICLE IV
FUNCTIONS AND ACTIVITIES

(a) The Commission shall have power to perform the following functions and activities that relate to school bus transportation:
(1) Recommend and encourage research, testing and training activities to the extent the Commission finds necessary.
(2) Contract for research, testing and training activities on behalf of the Commission itself or for one or more governmental agencies if they provide special funding for that purpose.
(3) Engage directly in such activities to the extent approved by the Commission.
(4) Recommend to the party states of needed changes in law or policy with emphasis on uniformity of laws and administrative rules, regulations or codes which would promote effective governmental action or coordination of school
bus construction, equipment, safety programs, and school bus driver training.

(5) The Commission shall send prompt notice of its action in issuing any rule, regulation or code pursuant to this article to the appropriate agency of each party state and such notice shall contain the complete text of the rule, regulation or code.

(6) Each party state, recognizing that to carry out the intent of this compact, obligates itself to adopt in identical terms, all rules, regulations and specifications which are standardized through due process to the States.

(b) The Commission may establish such advisory and technical committees as may be necessary, membership on which may include public officials and private citizens. The Commission may also cooperate with other governmental agencies and interstate organizations and with organizations representing the private sector.

ARTICLE V
FINANCE

(a) Moneys necessary to finance the Commission in carrying out its duties shall be provided through appropriations from the states party to this compact, said payments to be in direct proportion to the number of school buses registered in the respective party states. The initial rate of payment shall be figured at $0.50 per bus, provided that no state shall contribute less than $500.00 per annum. The annual contribution of each state above the minimum shall be figured to the nearest one hundred dollars. Subsequent budgets shall be determined by the Commission, and the cost thereof allocated in the same proportion as the initial budget.

(b) The Commission may accept for any of its purposes under this compact any and all donations, and grants of money, equipment, supplies, materials, and services (conditional and otherwise) from any state or the United States or any division or agency thereof, or interstate agency, or from any institution, person, firm, or corporation, and may receive, utilize and dispose of the same.

ARTICLE VI
ENTRY INTO FORCE AND WITHDRAWAL

(a) This compact shall enter into immediate force and effect as to any state when enacted by it into law, and such state shall thereafter be a party thereto with any and all states joining therein.

(b) It is the purpose of this compact to provide the necessary legal basis for implementation and adoption by each party state of the standardized rules, regulations and specifications as adopted by the Commission. Consistent with the laws of each party state, there shall be a "compact administrator" who, acting jointly with like officers of other party states, shall promulgate necessary rules, regulations and specifications within that state to carry out the actions and directives of the Commission.

(c) Any state party to this compact may, by legislative act after one year’s notice to the Commission, withdraw from the compact. The compact may also be terminated at any time by the unanimous agreement of the several party states. Withdrawal shall not relieve a state from its obligations hereunder prior to the effective withdrawal date.

(d) If any state shall at any time default in the performance of any of its obligations assumed herein or with respect to any obligation imposed upon said state as authorized by and in compliance with the terms and provisions of this compact, all rights, privileges and benefits of such defaulting state and its members on the Commission shall be suspended after the date of such default. Such suspension shall in no manner release such defaulting state from any accrued obligation or otherwise affect this compact or the rights, duties, privileges or obligations of the remaining states thereunder.

ARTICLE VII
SEVERABILITY

(a) The provisions of this compact shall be severable and if any phrase, clause, sentence or provision of this compact is declared to be unconstitutional or the applicability thereof to any state, agency, person or circumstances is held invalid, the constitutionality of the remainder of this compact and the applicability thereof to any other state, agency, person or circumstances shall not be affected thereby. It is the legislative intent that the provisions of this compact be reasonably and liberally construed. [1977 ex.s. c 88 § 1.]

46.39.020 Designation of Washington state commissioners. (Effective until June 30, 2011.) The Washington state commissioners to the western states school bus safety commission shall be the secretary of transportation, the superintendent of public instruction, and the chief of the Washington state patrol or their respective designees. Annually the Washington commissioners shall elect a chairman from their own membership who shall serve for one year commencing July 1st. Election as chairman shall not interfere with the member’s right to vote on all matters before the Washington commissioners. The Washington commissioners may by majority vote designate one of their members to represent the state on any matter coming before the Western states school bus safety commission. [1984 c 7 § 51; 1977 ex.s. c 88 § 2.]

<td><strong>Outside width limit.</strong> The total outside width of any vehicle or load thereon must not exceed eight and one-half feet; except that an externally mounted rear view mirror may extend beyond the width limits of the vehicle body to a point that allows the driver a view to the rear of the vehicle along both sides in conformance with Federal National Safety Standard 111 (49 C.F.R. 571.111), and RCW 46.37.400. Excluded from this calculation of width are certain devices that provide added safety, energy conservation, or are otherwise necessary, and are not designed or used to carry cargo. The width-exclusive devices must be identified in rules adopted by the department of transportation under RCW 46.44.101. A width-exclusive device must not extend more than three inches beyond the width limit of the vehicle body. [2005 c 189 § 1; 1997 c 63 § 1; 1983 c 278 § 1; 1961 c 12 § 46.44.010. As used in this section, &quot;appurtenance&quot; means an appendage that is installed by a factory or a vehicle dealer and is intended as an integral part of the motor home, travel trailer, or camper. &quot;Appurtenance&quot; does not include an item temporarily affixed or attached to the exterior of a vehicle for the purpose of transporting the item from one location to another. &quot;Appurtenance&quot; does not include an item that obstructs the driver’s rearward vision. <td><strong>Maximum height—Impaired clearance signs.</strong> It is unlawful for any vehicle unladen or with load to exceed a height of fourteen feet above the level surface upon which the vehicle stands. This height limitation does not apply to authorized emergency vehicles or repair equipment of a public utility engaged in reasonably necessary operation. The provisions of this section do not relieve the owner or operator of a vehicle or combination of vehicles from the exercise of due care in determining that sufficient vertical clearance is provided upon the public highways where the vehicle or combination of vehicles is being operated; and no liability may attach to the state or to any county, city, town, or other political subdivision by reason of any damage or injury to persons or property by reason of the existence of any structure over or across any public highway where the vertical clearance above the roadway is fourteen feet or more; or, where the vertical clearance is less than fourteen feet, if impaired clearance signs of a design approved by the state department of transportation are erected and maintained on the right side of any such public highway in accordance with the manual of uniform traffic control devices for streets and highways as adopted by the state department of transportation under chapter 47.36 RCW. If any structure over or across any public highway is not owned by the state or by a county, city, town, or other political subdivision, it is the duty of the owner thereof when billed therefor to reimburse the state department of transportation or the county, city, town, or other political subdivision having jurisdiction over the highway for the actual cost of erecting and maintaining the impaired clearance signs, but no liability may attach to the owner by reason of any damage or injury to persons or property caused by impaired vertical clearance above the roadway. It is unlawful for any person to operate upon the public highways of this state any combination consisting of a tractor and semitrailer that has a semitrailer length in excess of fifty-three feet or a combination consisting of a tractor and two trailers in which the combined length of the trailers exceeds sixty-one feet, with or without load. It is unlawful for any person to operate on the highways of this state any combination consisting of a truck and trailer, or log truck and stinger-steered pole trailer, with an overall length, with or without load, in excess of seventy-five feet. &quot;Stinger-steered,&quot; as used in this section, means the coupling device is located behind the tread of the tires of the last axle of the towing vehicle. Excluded from the calculation of length are certain devices that provide added safety, energy conservation, or are otherwise necessary, and are not designed or used to carry cargo. The length-exclusive devices must be identified in rules adopted by the department of transportation under RCW 46.44.101. 46.44.037 Combination of units—Lawful operations. Notwithstanding the provisions of RCW 46.44.036 and subject to such rules and regulations governing their operation as may be adopted by the state department of transportation, operation of the following combinations is lawful:

(1) A combination consisting of a truck tractor, a semitrailer, and another semitrailer or a full trailer. In this combination a converter gear used to convert a semitrailer into a full trailer shall be considered to be a part of the full trailer and not a separate vehicle. A converter gear being pulled without load and not used to convert a semitrailer into a full trailer may be substituted in lieu of a full trailer or a semitrailer in any lawful combination;

(2) A combination not exceeding seventy-five feet in overall length consisting of four trucks or truck tractors used in driveaway service where three of the vehicles are towed by the fourth in triple saddlemount position;

(3) A combination consisting of a truck tractor carrying a freight compartment no longer than eight feet, a semitrailer, and another semitrailer or full trailer that meets the legal length requirement for a truck and trailer combination set forth in RCW 46.44.030. (2010 Ed.)
may be legally hauled in the state bordering this state which vehicles as provided by law.

The maximum轴 and gross weights specified in this section are subject to the braking requirements set up for the service brakes upon any motor vehicle or combination of vehicles as provided by law.

Loads of not more than eighty thousand pounds which may be legally hauled in the state bordering this state which also has a sales tax, are legal in this state when moving to a port district within four miles of the bordering state except on the interstate system. This provision does not allow the operation of a vehicle combination consisting of a truck tractor and three trailers.

Notwithstanding anything contained herein, a vehicle or combination of vehicles in operation on January 1, 1975, may operate upon the public highways of this state, including the interstate system within the meaning of section 127 of Title 23, United States Code, with an overall gross weight upon a group of two consecutive sets of dual axles which was lawful in this state under the laws, regulations, and procedures in effect in this state on January 4, 1975. [1997 c 198 § 1; 1995 c 171 § 1. Prior: 1993 c 246 § 1; 1993 c 102 § 3; prior: 1988 c 229 § 1; 1988 c 6 § 2; 1985 c 351 § 3; 1977 c 81 § 2; 1975-’76 2nd ex.s. c 64 § 22.]

46.44.042 Maximum gross weights—Axle and tire factors. Subject to the maximum gross weights specified in RCW 46.44.041, it is unlawful to operate any vehicle upon the public highways with a gross weight, including load, upon any tire concentrated upon the surface of the highway in excess of six hundred pounds per inch width of such tire. An axle manufactured after July 31, 1993, carrying more than ten thousand pounds gross weight must be equipped with four or more tires. An axle carrying more than ten thousand pounds gross weight must have four or more tires, regardless of date of manufacture. Instead of the four or more tires per axle requirements of this section, an axle may be equipped with two tires limited to five hundred pounds per inch width of tire. This section does not apply to vehicles operating under oversize or overweight permits, or both, issued under RCW 46.44.090, while carrying a nonreducible load.

The following equipment may operate at six hundred pounds per inch width of tire: (1) A nonliftable steering axle or axles on the power unit; (2) a tiller axle on firefighting apparatus; (3) a rear booster trailing axle equipped with two tires on a ready-mix concrete transit truck; and (4) a straddle trailer manufactured before January 1, 1996, equipped with single-tire axles or a single axle using a walking beam supported by two in-line single tires and used exclusively for the transport of fruit bins between field, storage, and processing. A straddle trailer manufactured after January 1, 1996, meeting this use criteria may carry five hundred fifteen pounds per inch width of tire on sixteen and one-half inch wide tires.

For the purpose of this section, the width of tire in case of solid rubber or hollow center cushion tires, so long as the use thereof may be permitted by the law, shall be measured between the flanges of the rim. For the purpose of this section, the width of tires in case of pneumatic tires shall be the maximum overall normal inflated width as stipulated by the manufacturer when inflated to the pressure specified and without load thereon.

The department of transportation, by rule with respect to state highways, and a local authority, with respect to a public highway under its jurisdiction, may extend the weight table in RCW 46.44.041 to one hundred fifteen thousand pounds. However, the extension must be in compliance with federal law, and vehicles operating under the extension must be in full compliance with the 1997 axle and tire requirements.
46.44.043 Cement trucks—Axle loading controls. The switch that controls the raising and lowering of the retractable rear booster or tag axle on a ready-mix cement truck may be located within the reach of the driver’s compartment as long as the variable control, used to adjust axle loadings by regulating air pressure or by other means, is out of the reach of the driver’s compartment. [1994 c 305 § 1.]

46.44.047 Excess weight—Logging trucks—Special permits—County or city permits—Fees—Discretion of arresting officer. A three axle truck tractor and a two axle pole trailer combination engaged in the operation of hauling logs may exceed by not more than six thousand eight hundred pounds the legal gross weight of the combination of vehicles when licensed, as permitted by law, for sixty-eight thousand pounds: PROVIDED, That the distance between the first and last axle of the vehicles in combination shall have a total wheelbase of not less than thirty-seven feet, and the weight upon two axles spaced less than seven feet apart shall not exceed thirty-three thousand six hundred pounds.

Such additional allowances shall be permitted by a special permit to be issued by the department of transportation valid only on state primary or secondary highways authorized by the department and under such rules, regulations, terms, and conditions prescribed by the department. The fee for such special permit shall be fifty dollars for a twelve-month period beginning and ending on April 1st of each calendar year. Permits may be issued at any time, but if issued after July 1st of any year the fee shall be thirty-seven dollars and fifty cents. If issued on or after October 1st the fee shall be twenty-five dollars, and if issued on or after January 1st the fee shall be twelve dollars and fifty cents. A copy of such special permit covering the vehicle involved shall be carried in the cab of the vehicle at all times. Upon the third offense in violation of the terms and conditions of the special permit, the special permit shall be canceled. The vehicle covered by such canceled special permit shall not be eligible for a new special permit until thirty days after the cancellation of the special permit issued to said vehicle. The fee for such renewal shall be at the same rate as set forth in this section which covers the original issuance of such special permit. Each special permit shall be assigned to a three-axle truck tractor in combination with a two-axle pole trailer. When the department issues a duplicate permit to replace a lost or destroyed permit and where the department transfers a permit, a fee of fourteen dollars shall be charged for each such duplicate issued or each such transfer.

All fees collected hereinabove shall be deposited with the state treasurer and credited to the motor vehicle fund. Permits involving city streets or county roads or using city streets or county roads to reach or leave state highways, authorized for permit by the department may be issued by the city or county or counties involved. A fee of five dollars for such city or county permit may be assessed by the city or the county legislative authority which shall be deposited in the city or county road fund. The special permit provided for herein shall be known as a “log tolerance permit” and shall designate the route or routes to be used, which shall first be approved by the city or county engineer involved. Authorization of additional route or routes may be made at the discretion of the city or county by amending the original permit or by issuing a new permit. Said permits shall be issued on a yearly basis expiring on March 31st of each calendar year. Any person, firm, or corporation who uses any city street or county road for the purpose of transporting logs with weights authorized by state highway log tolerance permits, to reach or leave a state highway route, without first obtaining a city or county permit when required by the city or the county legislative authority shall be subject to the penalties prescribed by RCW 46.44.105. For the purpose of determining gross weight the actual scale weight taken by the officer shall be prima facie evidence of such total gross weight. In the event the gross weight is in excess of the weight permitted by law, the officer may, within his or her discretion, permit the operator to proceed with his or her vehicles in combination.

The chief of the state patrol, with the advice of the department, may make reasonable rules and regulations to aid in the enforcement of the provisions of this section. [2010 c 8 § 9058; 1994 c 172 § 1; 1979 ex.s. c 136 § 74; 1975-76 2nd ex.s. c 64 § 11; 1973 1st ex.s. c 150 § 2; 1971 ex.s. c 249 § 2; 1961 ex.s. c 21 § 35; 1961 c 12 § 46.44.047. 46.44.049 Effect of weight on highways—Study authorized. The department of transportation may make and enter into agreements with the federal government or any state or group of states or agencies thereof, or any nonprofit association, on a joint or cooperative basis, to study, analyze, or test the effects of weight on highway construction. The studies or tests may be made either by designating existing highways or the construction of test strips including natural resource roads to the end that a proper solution of the many problems connected with the imposition on highways of motor vehicle weights may be determined.

The studies may include the determination of values to be assigned various highway-user groups according to their gross weight or use. [1984 c 7 § 54; 1961 c 12 § 46.44.049. Prior: 1951 c 269 § 47.]

46.44.050 Minimum length of wheelbase. It shall be unlawful to operate any vehicle upon public highways with a wheelbase between any two axles thereof of less than three feet, six inches when weight exceeds that allowed for one axle under RCW 46.44.042 or 46.44.041. It shall be unlawful to operate any motor vehicle upon the public highways of this state with a wheelbase between the frontmost axle and the rearmost axle of less than three feet, six inches.
For the purposes of this section, wheelbase shall be measured upon a straight line from center to center of the vehicle axles designated. 46.44.070 Drawbar requirements—Towing flag or weaving—Towing flag. The drawbar or other connection between vehicles in combination shall be of sufficient strength to hold the weight of the towed vehicle on any grade where operated. No trailer shall whip, weave or oscillate or fail to follow substantially in the course of the towing vehicle. When a disabled vehicle is being towed by means of bar, chain, rope, cable or similar means and the distance between the towed vehicle and the towing vehicle exceeds fifteen feet there shall be fastened on such connection in approximately the center thereof a white flag or cloth not less than twelve inches square. 46.44.080 Local regulations—State highway regulations. Local authorities with respect to public highways under their jurisdiction may prohibit the operation thereof of motor trucks or other vehicles or may impose limits as to the weight thereof, or any other restrictions as may be deemed necessary, whenever any such public highway by reason of rain, snow, climatic or other conditions, will be seriously damaged or destroyed unless the operation of vehicles thereon be prohibited or restricted or the permissible weights thereof reduced: PROVIDED, That whenever a highway has been closed generally to vehicles or specified classes of vehicles, local authorities shall by general rule or by special permit authorize the operation thereon of school buses, emergency vehicles, and motor trucks transporting perishable commodities or commodities necessary for the health and welfare of local residents under such weight and speed restrictions as the local authorities deem necessary to protect the highway from undue damage: PROVIDED FURTHER, That the governing authorities of incorporated cities and towns shall not prohibit the use of any city street designated a part of the route of any primary state highway through any such incorporated city or town by vehicles or any class of vehicles or impose any restrictions or reductions in permissible weights unless such restriction, limitation, or prohibition, or reduction in permissible weights be first approved in writing by the department of transportation.

The local authorities imposing any such restrictions or limitations, or prohibiting any use or reducing the permissible weights shall do so by proper ordinance or resolution and shall erect or cause to be erected and maintained signs designating the provisions of the ordinance or resolution in each end of the portion of any public highway affected thereby, and no such ordinance or resolution shall be effective unless and until such signs are erected and maintained.

The department shall have the same authority as hereinabove granted to local authorities to prohibit or restrict the operation of vehicles upon state highways. The department shall give public notice of closure or restriction. The department may issue special permits for the operation of school buses and motor trucks transporting perishable commodities or commodities necessary for the health and welfare of local residents under specified weight and speed restrictions as may be necessary to protect any state highway from undue damage. feet, a weight in pounds determined by multiplying six thousand five hundred times the distance in feet between the center of the first axle and the center of the last axle of the group;

(d) On any group of axles with a wheel base between the first and last axle of not less than ten feet but less than thirty feet, a weight in pounds determined by multiplying two thousand two hundred times the sum of twenty and the distance in feet between the center of the first axle and the center of the last axle of the group;

(e) On any group of axles with a wheel base between the first and last axle of thirty feet or greater, a weight in pounds determined by multiplying one thousand six hundred times the sum of forty and the distance in feet between the center of the first axle and the center of the last axle of the group.

(2) The total weight of a vehicle or combination of vehicles allowable by special permit under subsection (1) of this section shall be governed by the lesser of the weights obtained by using the total number of axles as a group or any combination of axles as a group.

(3) The weight limitations pertaining to single axles may be exceeded to permit the movement of equipment operating upon single pneumatic tires having a rim width of twenty inches or more and a rim diameter of twenty-four inches or more or dual pneumatic tires having a rim width of sixteen inches or more and a rim diameter of twenty-four inches or more and specially designed vehicles manufactured and certified for special permits prior to July 1, 1975.

(4) Permits may be issued for weights in excess of the limitations contained in subsection (1) of this section on highways or sections of highways which have been designed and constructed for weights in excess of such limitations, or for any shipment duly certified as necessary by military officials, or by officials of public or private power facilities, or when in the opinion of the department of transportation the movement or action is a necessary movement or action: PROVIDED, That in the judgment of the department of transportation the structures and highway surfaces on the routes involved are capable of sustaining weights in excess of such limitations and it is not reasonable for economic or operational considerations to transport such excess weights by rail or water for any substantial distance of the total mileage applied for.

(5) Application shall be made in writing on special forms provided by the department of transportation and shall be submitted at least thirty-six hours in advance of the proposed movement. An application for a special permit for a gross weight of any combination of vehicles exceeding two hundred thousand pounds shall be submitted in writing to the department of transportation at least thirty days in advance of the proposed movement. 46.44.0915 Heavy haul industrial corridors—Overweight sealed containers and vehicles. (1)(a) Except as provided in (b) of this subsection, the department of transportation, with respect to state highways maintained within port district property, may, at the request of a port commission, make and enter into agreements with port districts and adjacent jurisdictions or agencies of the districts, for the purpose of identifying, managing, and maintaining short heavy haul industrial corridors within port district property for the movement of overweight sealed containers used in international trade.

(b) The department of transportation shall designate that portion of state route number 97 from the Canadian border to milepost 331.22 as a heavy haul industrial corridor for the movement of overweight vehicles to and from the Oroville railhead. The department may issue special permits to vehicles operating in the heavy haul industrial corridor to carry weight in excess of weight limits established in RCW 46.44.041, but not to exceed a gross vehicle weight of 137,788 pounds.

(2) Except as provided in subsection (1)(b) of this section, the department may issue special permits to vehicles operating in a heavy haul industrial corridor to carry weight in excess of weight limits established in RCW 46.44.041. However, the excess weight on a single axle, tandem axle, or any axle group must not exceed that allowed by RCW 46.44.091 (1) and (2), weight per tire must not exceed six hundred pounds per inch width of tire, and gross vehicle weight must not exceed one hundred five thousand five hundred pounds.

(3) The entity operating or hiring vehicles under subsection (1)(b) of this section or moving overweight sealed containers used in international trade must pay a fee for each special permit of one hundred dollars per month or one thousand dollars annually, beginning from the date of issue, for all movements under the special permit made on state highways within a heavy haul industrial corridor. Within a port district property, under no circumstances are the for hire carriers or rail customers responsible for the purchase or cost of the permits. All funds collected, except the amount retained by authorized agents of the department under RCW 46.44.096, must be forwarded to the state treasurer and deposited in the motor vehicle fund.

(4) For purposes of this section, an overweight sealed container used in international trade, including its contents, is considered nondivisible when transported within a heavy haul industrial corridor defined by the department.

(5) Any agreement entered into by the department as authorized under this section with a port district adjacent to Puget Sound and located within a county that has a population of more than seven hundred thousand, but less than one million, must limit the applicability of any established heavy haul corridor to that portion of state route no. 509 beginning at milepost 0.25 in the vicinity of East ‘D’ Street and ending at milepost 3.88 in the vicinity of Taylor Way.

(6) The department of transportation may adopt reasonable rules to implement this section. [2008 c 89 § 1; 2005 c 311 § 1.]
On two-lane highways, fourteen feet;
On multiple-lane highways where a physical barrier serving as a median divider separates opposing traffic lanes, twenty feet;
On multiple-lane highways without a physical barrier serving as a median divider, thirty-two feet.

These limits apply except under the following conditions:

(1) In the case of buildings, the limitations referred to in this section for movement on any two lane state highway other than the national system of interstate and defense highways may be exceeded under the following conditions: (a) Controlled vehicular traffic shall be maintained in one direction at all times; (b) the maximum distance of movement shall not exceed five miles; additional contiguous permits shall not be issued to exceed the five-mile limit: PROVIDED, That when the department of transportation determines a hardship would result, this limitation may be exceeded upon approval of the department of transportation; (c) prior to issuing a permit a qualified transportation department employee shall make a visual inspection of the building and route involved determining that the conditions listed herein shall be complied with and that structures or overhead obstructions may be cleared or moved in order to maintain a constant and uninterrupted movement of the building; (d) special escort or other precautions may be imposed to assure movement is made under the safest possible conditions, and the Washington state patrol shall be advised when and where the movement is to be made;

(2) Permits may be issued for widths of vehicles in excess of the preceding limitations on highways or sections of highways which have been designed and constructed for width in excess of such limitations;

(3) Permits may be issued for vehicles with a total outside width, including the load, of nine feet or less when the vehicle is equipped with a mechanism designed to cover the load pursuant to RCW 46.61.655;

(4) These limitations may be rescinded when certification is made by military officials, or by officials of public or private power facilities, or when in the opinion of the department of transportation the movement or action is a necessary movement or action: PROVIDED FURTHER, That in the judgment of the department of transportation the structures and highway surfaces on the routes involved are capable of sustaining widths in excess of such limitation;

(5) These limitations shall not apply to movement during daylight hours on any two lane state highway where the gross weight, including load, does not exceed eighty thousand pounds and the overall width of load does not exceed sixteen feet: PROVIDED, That the minimum and maximum speed of such movements, prescribed routes of such movements, the times of such movements, limitation upon frequency of trips (which limitation shall be not less than one per week), and conditions to assure safety of traffic may be prescribed by the department of transportation or local authority issuing such special permit.
